

COMBINATION DEGREES

The Combination Degree program allows undergraduate students who qualify academically to obtain both a bachelor's and master's degree. Minimum qualifications for many programs include a 3.2 GPA and a competitive GRE score for admission to graduate school.

Available to students in any undergraduate degree program. Combination degree programs allow students to get a head start on their graduate education by taking graduate courses throughout the junior and senior undergraduate years. In most programs, 12 credit hours of graduate work will also count toward an undergraduate degree, thus reducing the time it takes to get both degrees. Students should consult their department advisors to determine whether the department offers combination degree programs and whether they qualify.

There are a number of financial considerations to keep in mind. Students are responsible for paying the difference between undergraduate and graduate tuitions. Florida Prepaid College Tuition Program participants will receive funding for the first 120 credit hours. The program will fund graduate courses taken toward the undergraduate degree at the undergraduate level. Financial aid may be available to assist with the graduate degree portion of the program.

Advantages

- Combination degrees allow students to double count graduate credits toward their bachelor's degree at no loss of integrity or quality of either degree.
- Qualified students can obtain an undergraduate and a graduate degree in much less time than two separate degrees.
- The cost of both degrees is reduced, since at least 12 credits apply toward both degrees.
- Students have time to decide whether to pursue further graduate or professional study.
- A student's marketability is greatly enhanced; many professions now require a master's degree for entry-level positions.

Combination Degrees by College

All Degrees

Any Undergraduate Degree | Biostatistics MS

The Biostatistics Bachelors/MS program allows qualified students to earn a bachelor's degree from any degree program at UF and a master's of science degree in Biostatistics. This allows the master's degree to be attained within one year (two semesters, 24 credits). The master's of science degree in Biostatistics is designed to facilitate students' development of a strong theoretical foundation in biostatistics and of a broad-based understanding of biostatistical methods.

Overlapping Credits: 12

Admission Criteria: Must have at least junior status; 3.2 UF GPA; Minimum combined (verbal + quantitative) GRE score of 300; completion of 5 prerequisites with a GPA of 3.3 or better: STA 2023, MAC 2311, MAC 2312, MAC 2313, and either MAS 3114 or MAS 4105.

Contact: 352.294.5926

Any Undergraduate Degree | Mass Communication MA

Qualified students can pursue coursework toward a Master of Arts in Mass Communication (MAMC) with an online or on-campus concentration. The College of Journalism and Communications is considered one of the nation's best. The strength of its programs, faculty, students, and alumni throughout its history has earned the college ongoing recognition as one of the best journalism and communication programs in the United States. It has developed its reputation for excellence by creating curricula that combine conceptual and theoretical instruction with skills training, so students have the opportunity to apply what they are learning in professional settings.

Overlapping Credits: 5-12

Admission Criteria: Students must meet eligibility criteria and obtain approval from their undergraduate department and the CJC graduate division through an application process. Prior coursework in communications not required. Students must plan to apply to CJC's MAMC program before completing their undergraduate degree

Contact: 352.273.3716 | Email (combination@jou.ufl.edu)

More Info (<https://www.jou.ufl.edu/combination-degree-main/>)

Any Undergraduate Degree | Public Health MPH

Overlapping credits: 15

Qualified students with any undergraduate major can pursue a Master's of Public Health degree. The MPH degree trains students to protect and improve health across all population levels. Students complete up to 15 credits of public health core courses as an undergraduate and then complete the remaining 33 credits after admission to graduate school. Upon application, students select a concentration biostatistics, environmental health, epidemiology, population health management, or social and behavioral sciences.

Admission Criteria: 3.2 GPA; completion of the following with a C or better: BSC 2005 or BSC 2010, PSY 2012, STA 2023.

Accounting, Fisher School of

Accounting | 3/2 MAcc/BSAc

Non-thesis only

The 3/2 Program is the Fisher School of Accounting's premier professional program. It is an integrated, five-year, 150-hour program that leads to the joint award of a Bachelor of Science in Accounting (BSAc) degree and a Master of Accounting (MAcc) degree. This program offers three options: concentration in auditing, concentration in taxation, and no concentration.

The 3/2 Program is designed for students who desire a professional accounting career. While professional accountants can serve in many capacities, many MAcc graduates go on to become licensed as Certified Public Accountants (CPAs). Students interested in becoming a CPA should consult the National Association of State Boards of Accountancy (<https://www.nasba.org/>) website for information regarding CPA exam and licensure eligibility for all states and jurisdictions.

Business, Warrington College of

Business Administration, Entrepreneurship | MSE

Overlapping Credits: 2-10

Through a stimulating curriculum and transformational experiential learning opportunities, this one-year, intensive program equips promising entrepreneurs with the skills and savvy to plan, launch and sustain innovative ventures on their terms.

Admission Criteria: Adequate GMAT score; 3.2 minimum GPA

Contact: 352.273.0337 | Email (MSE@warrington.ufl.edu)

More Info (<https://warrington.ufl.edu/undergraduate-academics/combined-degrees/>)

Business Administration, Management | MSM

Overlapping Credits: 2-12

This degree provides nonbusiness majors the opportunity to combine knowledge from other academic disciplines with functional business applications to create a dynamic skill set in demand by employers in business and nonbusiness industries.

Admission Criteria: Competitive GMAT or GRE score; 3.2 minimum GPA

Contact: 352.273.0344 | Email (jane.mcnulty@warrington.ufl.edu)

More Info (<https://warrington.ufl.edu/undergraduate-academics/combined-degrees/>)

Business Administration, Marketing | Master of Science

Overlapping credits: 2-12

The Master of Science (M.S.) with a major in Business Administration and a concentration in Marketing is intended for students whose objective is to work in the field of marketing. Courses span the domain of marketing decision-making, from broad marketing strategy considerations to more focused decision areas such as pricing, branding, customer relationship management, and new product development.

Admission Criteria: 3.2 minimum GPA; Open to UF undergraduate business majors (e.g., Bachelor of Arts in Business Administration with a major in Business Administration - General Studies or Bachelor of Science in Business Administration, with a major in Finance, General Studies, Information Systems, Management, or Marketing).

Contact: 352.273.0668 | Email (msmarketing@warrington.ufl.edu)

More Info (<https://warrington.ufl.edu/undergraduate-academics/combined-degrees/>)

Finance, Master of Science | MSF

Overlapping Credits: 2-12

Students have the opportunity to study finance at the second-year MBA level. Courses cover nearly all areas of finance, including derivative securities, fixed income markets, equity valuation, international finance and real estate finance. With early application students can receive their undergraduate and graduate degrees in four years. The best time to apply is two years before the undergraduate degree would be received.

Admission Criteria: 465 GMAT (650+ average); 3.0 GPA (3.5+ average)

Contact: 352.392.9249 | Email (kelly.herring@warrington.ufl.edu)

More Info (<https://warrington.ufl.edu/master-of-science-in-finance/>)

Information Systems | BS/MS

Non-thesis only

Overlapping Credits: 12-16

This program develops the computing, quantitative and applications skills vital to a business problem-solving setting.

Admission Criteria: Competitive GMAT or GRE score; 3.0 GPA

Contact: 352.846.1370 | Email (chandra.hardy@warrington.ufl.edu)

More Info (<https://warrington.ufl.edu/undergraduate-academics/combined-degrees/>)

Master of International Business | MIB

Overlapping Credits: 2-12

This one-year degree allows UF business majors or minors to enhance their undergraduate business education with an in-depth study of global business issues and trends. The MIB program allows curriculum flexibility and incorporates practical global business components with a required one-week Global Immersion Experience course abroad and optional participation in an international exchange program.

Admission Criteria: Competitive GMAT or GRE score; 3.2 minimum GPA

Contact: 352.273.0343 | Email (mib@warrington.ufl.edu)

More Info (<https://warrington.ufl.edu/undergraduate-academics/combined-degrees/>)

Real Estate, Master of Science | MSRE

Non-thesis only

Overlapping Credits: 2-12

The MSRE thrives on innovation, a dynamic student body and significant interaction with high-level working professionals and nationally recognized professors. The program is a unique combination of theory and practice that will enhance the student's commercial real estate education and develop professional skills. Undergraduate students from any college/major may apply. Prior coursework in accounting, business, economics, finance or statistics is preferred but not required.

Admission Criteria: 465 GMAT (600+ average); 3.0 GPA (3.4+ average). Admission is based on a number of factors, including GMAT and academic record.

Contact: 352.273.0310 | Email (pam.demichele@warrington.ufl.edu)

Journalism and Communication, College of

The College of Journalism and Communications is considered one of the nation's best. The strength of its programs, faculty, students, and alumni throughout its history has earned the college ongoing recognition as one of the best journalism and communication programs in the United States. It has developed its reputation for excellence by creating curricula that combine conceptual and theoretical instruction with skills training, so students have the opportunity to apply what they are learning in professional settings.

Advertising | BS Advertising/MA Mass Communication

Overlapping Credits: 5-12

Qualified students can pursue coursework toward a Master of Arts in Mass Communication (MAMC) with an online or on-campus concentration to fulfill up to 12 credits of professional electives required for their undergraduate degree.

Admission Criteria: Students must meet eligibility criteria and obtain approval from their undergraduate department and the CJC graduate division through an application process. Students must also plan to apply to CJC's MAMC program before completing their undergraduate degree.

Liberal Arts and Sciences, College of

Anthropology | BA or BS/MA

Overlapping Credits: maximum of 12

This program allows qualified Anthropology majors seeking the BA or BS degree to earn graduate credits toward a terminal MA degree in Anthropology with a certificate. To count toward the MA degree, graduate courses taken while an undergraduate must be letter-graded with a minimum B grade. Required courses for the MA certificate may not be taken while an undergraduate.

Admission Criteria: Anthropology major of junior status or higher, 3.2 cumulative GPA, 3.5 upper division GPA, completion of at least three of the four required core courses (ANT 2140, ANT 2410, ANT 3514C, ANT 3620) at time of admission.

Biology | BS and Arts in Medicine/MA

Overlapping Credits: 12

Arts in Medicine is a diverse, multidisciplinary field dedicated to transforming health and the healthcare experience through the arts. The field integrates literary, performing, and visual arts and design, and other forms of creative expression into a variety of healthcare and community settings to enhance health and well-being in diverse institutional and community contexts. The Bachelor of Science in Biology and Master of Arts in Arts in Medicine combination degree enables pre-health students to begin completing requirements towards a master's degree in Arts in Medicine while completing their undergraduate BS degree.

Admission Criteria: 3.2 GPA on all upper-division courses

More Info (<https://arts.ufl.edu/academics/center-for-arts-in-medicine/programs/combo-degree/>)

Biochemistry-related Discipline | MS in Biochemistry and Molecular Biology**Overlapping Credits:** 12

Students must identify a College of Medicine faculty member who will serve as their graduate faculty advisor. The combination degree request form must be approved by both the undergraduate coordinator of the degree major and the graduate coordinator in the College of Medicine. To count towards the MS degree, courses must be graduate level and letter graded.

Admission Criteria: 3.0 cumulative upper division GPA, completion of fundamental courses in biology (BSC 2005), chemistry (CHM 2045), and statistics (STA 2023), completion of BCH 4024 (or equivalent), completion of at least three semester hours of mentored research (BSC 4910, BSC 4912, or equivalent).

Interdisciplinary Studies | BS/MD

Overlapping Credits: 12

The Medical Honors Program is an accelerated 7-year BS/MD program and offered in the College of Liberal Arts and Sciences and College of Medicine. Six courses within the College of Medicine are taken during the junior year of college. Additionally, 12 professional credits in medical sciences will count towards the undergraduate major during the first year of medical school. Lastly, all requirements mandated by CLAS, the University of Florida, and the State of Florida must be met.

Admission Criteria: Eligible applicants must be United States citizens or United States permanent residents (in possession of the USCIS assigned 'Green Card'). This program is open to students who are both Florida and non-Florida residents. A minimum overall GPA of 3.90, cumulative science and math courses GPA of 3.90, and a SAT score of 1400 or ACT of 32. Admission to this program is limited and requires completing the application process through UF College of Medicine.

Public Health and Health Professions, College of

Bachelor of Health Science and Doctor of Occupational Therapy (OTD)

Overlapping Credits: 26

The combined Bachelor of Health Science and Doctor of Occupational Therapy (OTD) program allows students to take first-year OTD courses during their junior and senior years in the BHS Program. Students enrolled in the Occupational Therapy Combined Program will complete two semesters of year one OTD coursework while earning credit towards their BHS. After graduating with their BHS, they will have eight semesters of OTD coursework remaining, thus decreasing time to graduation and overall cost of tuition.

More Info (<https://phhp.ufl.edu/academics/combined-degrees/combined-bhs-otd/>)

Public Health | Any Bachelor's Degree/MPH

Overlapping credits: 15

Qualified students with any undergraduate major can pursue a Master's of Public Health degree. The MPH degree trains students to protect and improve health across all population levels. Students complete up to 15 credits of public health core courses as an undergraduate and then complete the remaining 33 credits after admission to graduate school. Upon application, students select a concentration biostatistics, environmental health, epidemiology, population health management, or social and behavioral sciences.

Admission Criteria: 3.2 GPA; completion of the following with a C or better: BSC 2005 or BSC 2010, PSY 2012, STA 2023.

Contact: 352.294.5419 | Email (askmph@phhp.ufl.edu)

Biostatistics | Bachelors/MS

Overlapping credits: 12

Qualified students with any undergraduate major can pursue a Master of Science degree in Biostatistics. The Master of Science degree in Biostatistics is designed to facilitate students' development of a strong theoretical foundation in biostatistics and of a broad-based understanding of biostatistical methods.

Admission Criteria: Junior status; 3.2 UF GPA; Completion of the following 5 prerequisites with a GPA of 3.3 or better: STA 2023, MAC 2311, MAC 2312, MAC 2313, and either MAS 3114 or MAS 4105.

Contact: 352.294.5926 | Email (kcason@ufl.edu)

Public Health | BPH/MA Arts in Medicine

Overlapping Credits: 12

The Bachelor of Public Health and Master of Arts in Arts in Medicine combination degree enables pre-health students to begin completing requirements towards a master's degree in Arts in Medicine while completing their undergraduate BS degree.

More Info (<http://www.admissions.ufl.edu/pdf/combdegreerequest.pdf>)

Applying

Meet with an academic advisor to determine the most-appropriate combination degree option. Qualified students can pursue the graduate degree outside the undergraduate major or department. Application normally occurs in the junior or senior year. If accepted, students must take the GRE the first semester of their senior year.

More Info (<https://registrar.ufl.edu/assets/pdfs/combdegreerequest.pdf>)

Financial aid is available for the graduate portion of the program. Undergraduate degree costs should be satisfied with existing financial aid such as Bright Futures and Prepaid Tuition. Bright Futures can cover the undergraduate costs of up to 12 hours of graduate courses that apply to the undergraduate degree. Each student is responsible for the difference in tuition between the undergraduate and graduate course rates. If available, the Florida Prepaid Tuition Program can fund the first 120 hours. Graduate courses that apply toward the undergraduate degree are funded at the undergraduate rate, and the student is responsible for the difference.

FAQ

What is a combination bachelor's and master's degree program?

Combination degrees allow students to double count graduate credits toward their bachelor's degree at no loss of integrity or quality of either degree. A combination degree program allows students to complete a specific number of graduate-level credits while enrolled as an undergraduate.

Why should I participate in a combination degree program?

The program allows students to take graduate coursework before they make a decision to complete a graduate degree. If the student continues in a graduate program, they'll save at least one full semester of graduate enrollment.

At what point in the undergraduate program should I apply?

Students can apply as early as the second semester of their sophomore year or as late as their senior year depending upon the combination degree program.

At what point do I enroll in graduate courses?

If approved, students can take graduate courses during their junior and senior years as specified by the particular combination degree program.

What is required for approval?

As an undergraduate applying for entry into a combination degree program, students must have a minimum cumulative 3.2 UF GPA (some majors require a higher GPA) and have completed all critical-tracking requirements to enroll in graduate coursework while they are completing their undergraduate degree. After students apply for admission to the Graduate School, however, they must meet the minimum cumulative GPA requirement and GRE/GMAT score the particular master program requires.

What is required so that 12 to 21 hours of graduate coursework (depending on the major) can also count toward my master's degree?

To apply the graduate credit to both degrees, students must be admitted to the Graduate School and receive a grade of B or higher in each course. A graduate coordinator can provide the admission requirements for a particular department.

If I do not continue in graduate school, can the graduate coursework I complete still be used to satisfy my undergraduate degree requirements?

Yes.

What about my financial aid?

Bright Futures and/or the Florida Prepaid Tuition Program will pay the undergraduate tuition rate for the graduate courses students take; each student will have to pay the difference between undergraduate and graduate course costs.

Why would I want to pay additional tuition to enroll in graduate courses?

If a student continues to graduate school, they will save on the tuition costs for the 12 to 21 graduate credits (depending on the major) taken while still classified as an undergraduate. Remember that graduate course costs will be partially paid by the student's undergraduate financial aid.

How do I apply?

Contact an undergraduate advisor and complete the combination degree application. Students will need the approval of the undergraduate coordinator, the graduate coordinator, and the dean's office of their undergraduate college.

What do I do if I want to create my own combination degree program?

Students should contact the coordinator in the graduate department of the new combination degree program.

Are there other accelerated degree programs available other than combination degrees?

Yes, there are several accelerated degree programs available.
