COMBINED DEGREES

The Combined Degree program allows undergraduate students who qualify academically to obtain both a bachelor’s and master’s degree. Minimum qualifications for many programs include a 3.2 GPA and a competitive GRE score for admission to graduate school.

Combined degree programs allow students to get a head start on their graduate education by taking graduate courses throughout the junior and senior undergraduate years. In most programs, 12 credit hours of graduate work will also count toward an undergraduate degree, thus reducing the time it takes to get both degrees. Students should consult their department advisors to determine whether the department offers combined-degree programs and whether they qualify.

There are a number of financial considerations to keep in mind. Students are responsible for paying the difference between undergraduate and graduate tuitions. Florida Prepaid College Tuition Program participants will receive funding for the first 120 credit hours. The program will fund graduate courses taken toward the undergraduate degree at the undergraduate level. Financial aid may be available to assist with the graduate degree portion of the program.

Advantages

- Qualified students can obtain an undergraduate and a graduate degree in much less time than two separate degrees.
- The cost of both degrees is reduced, since at least 12 credits apply toward both degrees.
- Students have time to decide whether to pursue further graduate or professional study.
- A student’s marketability is greatly enhanced; many professions now require a master’s degree for entry-level positions.

Combined Degrees by College

Accounting, Fisher School of

Accounting | 3/2 MAcc/BSAc

**Non-thesis only**

This is an integrated, five-year, 150-hour program that leads to the joint award of a Bachelor of Science in Accounting and a Master of Accounting. Students may pursue a general accounting curriculum, or select an auditing or taxation concentration. This program is for students seeking a professional accounting career. Completion fulfills the state’s requirements to take the CPA examination to practice in Florida.

Combined Degrees

Arts, College of the

BM in Music and MA in Arts in Medicine
Arts in Medicine is a diverse, multidisciplinary and rapidly expanding field dedicated to transforming health and the healthcare experience through the arts. Today, artists are working at approximately half of hospitals in the US, as well as in community programs that enhance health and wellbeing.

The Bachelor of Music and Master of Arts in Arts in Medicine Combined Program allows students to begin completing requirements towards a master's degree (MA) in Arts in Medicine while completing their undergraduate degree (BM) in music. The degree is suitable for student who wish to explore the intersections between music and health or to pursue careers that integrate the two disciplines.

Admission Criteria: Completed GRE; 3.2 GPA on all upper-division courses
Contact: Email (camadmissions@arts.ufl.edu)
Overlapping Credits: 12

BS Pre-Health and MA in Arts in Medicine
Arts in Medicine is a diverse, multidisciplinary and rapidly expanding field dedicated to transforming health and the healthcare experience through the arts. Today, artists are working at approximately half of hospitals in the US, as well as in community programs that enhance health and well being.

The Bachelor of Science and Master of Arts in Arts in Medicine Combined Program allows pre-health students (majoring in Public Health, Biology, Microbiology, Chemistry or Psychology) to begin completing requirements towards a master's degree (MA) in Arts in Medicine while completing their undergraduate degree (BS/BAS).

Admission Criteria: Completed GRE; 3.2 GPA on all upper-division courses
Contact: Email (camadmissions@arts.ufl.edu)
Overlapping Credits: 12

Business, Warrington College of

Business Administration, Major in Entrepreneurship | MSE
Through a stimulating curriculum and transformational experiential learning opportunities, this one-year, intensive program equips promising entrepreneurs with the skills and savvy to plan, launch and sustain innovative ventures on their terms.

Admission Criteria: Adequate GMAT score; 3.2 minimum GPA
Contact: 352.273.037 | Email (MSE@warrington.ufl.edu)
Overlapping Credits: 2-10
More Info (https://warrington.ufl.edu/undergraduate-academics/combined-degrees)

Business Administration, Major in Management | MSM
This degree provides nonbusiness majors the opportunity to combine knowledge from other academic disciplines with functional business applications to create a dynamic skillset in demand by employers in business and nonbusiness industries.

Admission Criteria: Competitive GMAT or GRE score; 3.2 minimum GPA
Contact: 352.273.0344 | Email (jane.mcnulty@warrington.ufl.edu)
Overlapping Credits: 2-12
More Info (https://warrington.ufl.edu/undergraduate-academics/combined-degrees)

Finance, Master of Science | MSF
Students have the opportunity to study finance at the second-year MBA level. Courses cover nearly all areas of finance, including derivative securities, fixed income markets, equity valuation, international finance and real estate finance. With early application students can receive their undergraduate and graduate degrees in four years. The best time to apply is two years before the undergraduate degree would be received.

Admission Criteria: 465 GMAT (650+ average); 3.0 GPA (3.5+ average)
Contact: 352.392.9249 | Email (kelly.herring@warrington.ufl.edu)
Overlapping Credits: 2-12

Information Systems | BS/MS
Non-thesis only
This program develops the computing, quantitative and applications skills vital to a business problem-solving setting.

Admission Criteria: Competitive GMAT or GRE score; 3.0 GPA
Contact: 352.846.1370 | Email (chandra.hardy@warrington.ufl.edu)
Overlapping Credits: 12-16
More Info (https://warrington.ufl.edu/undergraduate-academics/combined-degrees)

Master of International Business | MIB
This one-year degree allows UF business majors or minors to enhance their undergraduate business education with an in-depth study of global business issues and trends. The MIB program allows curriculum flexibility and incorporates practical global business components with a required one-week Global Immersion Experience course abroad and optional participation in an international exchange program.

Admission Criteria: Competitive GMAT or GRE score; 3.2 minimum GPA
Contact: 352.273.0343 | Email (mib@warrington.ufl.edu)
Overlapping Credits: 2-12
More Info (https://warrington.ufl.edu/undergraduate-academics/combined-degrees)

Real Estate, Master of Science | MSRE
Non-thesis only
The MSRE thrives on innovation, a dynamic student body and significant interaction with high-level working professionals and nationally recognized professors. The program is a unique combination of theory and practice that will enhance the student's commercial real estate education and develop professional skills. Undergraduate students from any college/major may apply. Prior coursework in accounting, business, economics, finance or statistics is preferred but not required.

Admission Criteria: 465 GMAT (600+ average); 3.0 GPA (3.5+ average)
Contact: 352.273.0310 | Email (pam.demichele@warrington.ufl.edu)
Overlapping Credits: 2-12

**Public Health and Health Professions, College of Public Health | Any Bachelor’s Degree/MPH**
Qualified students with any undergraduate major can pursue a master’s degree in public health. Students complete 15 credits of public health core courses as an undergraduate and then complete the remaining 33 credits after admission to graduate school. Students select a concentration in public health management and policy, social and behavioral sciences, epidemiology, biostatistics or environmental health.
Admission Criteria: Competitive GRE score; 3.2 GPA; completion of APK 2105C, BSC 2005 or BSC 2010, PSY 2012, STA 2023, advanced psychology (abnormal or developmental) and any additional prerequisites (depends on concentration).
Contact: 352.273.6377 | Email (shanson@phhp.ufl.edu)
Overlapping credits: 15

**Applying**
Meet with an academic advisor to determine the most-appropriate combined-degree option. Qualified students can pursue the graduate degree outside the undergraduate major or department. Application normally occurs in the junior or senior year. If accepted, students must take the GRE the first semester of their senior year.
More Info (http://www.admissions.ufl.edu/pdf/combineddegreeRequest.pdf)

Financial aid is available for the graduate portion of the program. Undergraduate degree costs should be satisfied with existing financial aid such as Bright Futures and Prepaid Tuition. Bright Futures can cover the undergraduate costs of up to 12 hours of graduate courses that apply to the undergraduate degree. Each student is responsible for the difference in tuition between the undergraduate and graduate course rates. If available, the Florida Prepaid Tuition Program can fund the first 120 hours. Graduate courses that apply toward the undergraduate degree are funded at the undergraduate rate, and the student is responsible for the difference.
FAQ

What is a combined bachelor's and master's degree program?
A combined-degree program allows students to complete a specific number of graduate-level credits (typically ranging from 12 to 21 hours of approved coursework) while enrolled as an undergraduate. Approved hours satisfy degree requirements for both degrees.

Why should I participate in a combined-degree program?
The program allows students to take graduate coursework before they make a decision to complete a graduate degree. If the student continues in a graduate program, they’ll save at least one full semester of graduate enrollment.

At what point in the undergraduate program should I apply?
Students can apply as early as the second semester of their sophomore year or as late as their senior year depending upon the combined-degree program.

At what point do I enroll in graduate courses?
If approved, students can take graduate courses during their junior and senior years as specified by the particular combined-degree program.

What is required for approval?
As an undergraduate applying for entry into a combined-degree program, students must have a minimum cumulative 3.2 UF GPA (some majors require a higher GPA) and have completed all critical-tracking requirements to enroll in graduate coursework while they are completing their undergraduate degree. After students apply for admission to the Graduate School, however, they must meet the minimum cumulative GPA requirement and GRE/GMAT score the particular master program requires.

What is required so that 12 to 21 hours of graduate coursework (depending on the major) can also count toward my master's degree?
To apply the graduate credit to both degrees, students must be admitted to the Graduate School and receive a grade of B or higher in each course. A graduate coordinator can provide the admission requirements for a particular department.

If I do not continue in graduate school, can the graduate coursework I complete still be used to satisfy my undergraduate degree requirements?
Yes.

What about my financial aid?
Bright Futures and/or the Florida Prepaid Tuition Program will pay the undergraduate tuition rate for the graduate courses students take; each student will have to pay the difference between undergraduate and graduate course costs.

Why would I want to pay additional tuition to enroll in graduate courses?
If a student continues to graduate school, they will save on the tuition costs for the 12 to 21 graduate credits (depending on the major) taken while still classified as an undergraduate. Remember that graduate course costs will be partially paid by the student's undergraduate financial aid.

How do I apply?
Contact an undergraduate advisor and complete the combined degree application. Students will need the approval of the undergraduate coordinator, the graduate coordinator, and the dean's office of their undergraduate college.

What do I do if I want to create my own combined-degree program?
Students should contact the coordinator in the graduate department of the new combined-degree program.

Are there other accelerated degree programs available other than combined degrees?
Yes, there are several accelerated degree programs available.
