To graduate with this major, students must complete all university, college, and major requirements.

Students enrolled in the BSAc program are eligible to submit an application for early admission to graduate school via the school’s combined 3/2 Program. Students who complete this combined program meet education requirements to sit for the Uniform Certified Public Accountant exam and to practice as a CPA in Florida.

Some students enter the Fisher School of Accounting with the intention of limiting their accounting studies at UF to undergraduate coursework. These students view the BSAc degree as providing valuable preparation for post-graduate studies in areas other than accounting, (e.g., law) or they plan to complete their graduate accounting studies at another institution. Students are cautioned that completion of the Bachelor of Science in Accounting degree alone will not satisfy the educational requirements to be licensed as a CPA in Florida.

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites may be used for transfer students.

Additional Information about Selecting General Education Courses

- To ensure accounting students have breadth in their general education experience, 3000/4000-level business core courses may not be used to satisfy general education requirements. For example, MAN 3025 and MAR 3023 may not be used to fulfill social science and behavioral science requirements.

- The selection of general education courses in the model semester plan is intended as a guide. Accounting students may vary their choice of general education courses, providing the selection of coursework complies with all university requirements. For additional information, refer to the General Education Program or meet with an undergraduate advisor.

Semester 1

The major offers a balanced, intellectually vibrant study of accounting. Upon completion of the baccalaureate program, students will possess the requisite accounting skills for entry-level positions in the practice of public accounting, in industry, in financial services, in government and in business more generally. Students also will be prepared for graduate study in accounting, in business and in related professions such as the law. More broadly, students will be prepared for success in a constantly evolving global economy.

Before Graduating Students Must

• Take the Business Field Test as prepared and administered by the Educational Testing Service (ETS). The score will be incorporated into a core business course taken in the final term.
• Complete requirements for the baccalaureate degree, as determined by faculty.
