About this Program
• College: Agricultural and Life Sciences
• Credits: 9, with minimum grades of C
• Contact: Email; 352.846.0146
• Related Geomatics Programs

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

This certificate focuses on mapping using small Unmanned Aerial Systems (UASs) and the use of UASs as a geospatial data-acquisition tool. Well-suited for students studying geomatics, as well as disciplines which require high resolution geospatial information such as agriculture, forestry, wildlife management, mining, infrastructure planning and monitoring, and disaster management.

Students must have a high-school diploma or the equivalent, and completed SUR 3103C with a minimum grade of C.
