About this Program

- **College:** Agricultural and Life Sciences
- **Credits:** 17-18, completed with minimum grades of C
- **Contact:** 121 Newins-Ziegler Hall
- **Related Forest Resources and Conservation Programs**

This minor introduces natural resource management and is ideal for students majoring in related fields such as wildlife ecology, soil and water science and environmental science. The minor also is a good option for those who are interested in the social aspects of natural resources with majors such as business, education, food and resource economics, political science, etc.

Prerequisites for each course must be completed before enrollment. Students must declare the minor at least two semesters before graduation.
