PACKAGING SCIENCE MINOR

Packaging science is an excellent area of concentration for students in engineering science and business-related disciplines. All companies that produce physical products deal with packaging. Most companies employ teams of packaging professionals from a variety of backgrounds and disciplines. Packaging plays a key role in competitive advantage in the marketplace, and packaging is always changing and improving.

About this Program

- **College**: Agricultural and Life Sciences
- **Credits**: 15, graded courses completed with minimum grades of C
- **Contact**: Frazier Rogers Hall

Advisor-approved Technical Elective

- Selected from approved electives in:
  - Packaging
  - Food Science
  - Materials Science and Engineering
  - Chemical Engineering
  - Mechanical Engineering
  - Computer Science & Engineering
  - Industrial Engineering
  - Horticultural Science
  - Biological Science
  - Marketing
  - Advertising

- Other electives, including internships and co-ops, are subject to approval of the packaging science minor advisor.
