

DANCE IN MEDICINE CERTIFICATE

The UF Center for Arts in Medicine, in conjunction with the School of Theatre and Dance, offers an undergraduate certificate in Dance in Medicine to UF students. Completion of this certificate shows intentionality and commitment to interdisciplinary exploration and an awareness of the value of arts to health and well-being.

Curriculum

- Dance in Medicine Certificate
- Music in Medicine Certificate
- Visual Arts in Medicine Certificate

Students have access to these unique types of learning experiences: hands-on practical experience with patients and/or community members, exposure to arts in health-related fields, the opportunity to develop career readiness skills such as oral and written communication, leadership, collaboration, and problem solving. In addition, students will interact with patients and/or community members, arts in health leaders, artists, healthcare professionals, arts administrators, and non-profit organizations.

The certificate is different than a minor because students receive hands-on applied experience. Making the choice to complete the certificate shows intentionality and commitment to interdisciplinary exploration and an awareness of the value of dance to health and well-being in society.

Students should apply by their sophomore year and must complete an intake meeting with the Center for Arts in Medicine's Academic Program Specialist.

Students must attain a 3.0 GPA in the required courses, all of which have prerequisites.
