## Academic Learning Compact

The degree program in Dance offers two specializations, one leading to a Bachelor of Fine Arts (BFA) and one leading to a Bachelor of Arts (BA).

The Bachelor of Fine Arts in Dance provides extensive training and skills in contemporary dance and choreography with four interlocking areas of 21st century dance study: choreography and performance, intercultural dance studies, dance and medicine, and dance theatre. Dance is studied as a major performing art that affects artistic, cultural, intellectual and social spheres.

The Bachelor of Arts in Dance educates the student as a generalist in dance studies. Students follow a course of study essential to the field of dance, including performance, history, theory, literature, design, technology and related disciplines, all while enjoying sufficient flexibility to pursue other areas of study, including a minor or a major in a field other than dance. Successful degree candidates develop independent, interdisciplinary critical thought, and can articulate the power and agency of the arts over time and across cultures and perspectives.

## Before Graduating Students Must

- Develop and complete a senior project approved and evaluated by faculty. The BA project would be research oriented; the BFA would be choreographically related.
- Complete requirements for the baccalaureate degree, as determined by faculty.
