

# THEATRE

The Bachelor of Arts in Theatre is designed for students who want a liberal arts education with an emphasis in theatre. In addition to a broad liberal arts background, the BA provides the creative experiences of studio and performance work. Students are expected not only to master critical thinking about performance through courses such as theatre history, playwriting, and dramaturgy, but also to audition for productions or involve themselves in the creation of theatrical experiences on many levels.

The Bachelor of Arts provides broad career opportunities in several fields and an opportunity to minor in other subject areas. Examples of possible minors are English, business, or communications.
