- Theatre Production Minor

The BFA Theatre Production program has 5 specialization areas: Costume, Lighting, Scenery, Sound, and Digital media.

Students enrolled in Theatre Production will complete coursework in all five areas. Selected independent studies, advanced electives, and production assignments in THE 4950 focus on the specialization.

Today's theatre design and production depends heavily on complex electronic mechanical systems used in professional theatres, film, and television. Students must pass a portfolio review for admission to any production program. For more information consult the department handbook or the academic advisor.

All theatre majors should consult the academic advisor as early as possible.
