

CHEMISTRY

Chemistry is often called the *central science* because of the pivotal role it plays in the biological and physical sciences, as well as in engineering, agriculture, medicine, and allied health disciplines. Bachelor's degree chemists choose from diverse paths for their short-term and lifetime careers, including graduate study in a variety of programs, rewarding employment in industry or government laboratories, professional or law school, or much-needed teaching in high schools.

About this Program

- **College:** Liberal Arts and Sciences (<http://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/>)
- **Degree:** Bachelor of Science
- **Specializations:** Biochemistry (http://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/CHY_BS/CHY_BS01/) | Chemistry (p. 1)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Chemistry is a comprehensive department granting bachelor's, master's, and PhD degrees with specialization in all areas including biochemistry, nanochemistry, analytical, inorganic, organic, physical, polymer, synthetic, and theoretical chemistry. The University of Florida ranks in the top five chemistry departments nationally in PhD production and is among the top 20 in bachelor's graduates.

Curriculum

- Chemistry Minor
- Chemistry | Biochemistry

Students can choose the Chemistry specialization, which is comparable to that offered in any major university, or the Biochemistry specialization, which is designed to give more flexibility to students wanting to pursue courses with biological focus. The department encourages students in either specialization to include undergraduate research with one of the department's internationally recognized faculty as a component of the undergraduate experience. Undergraduate research will frequently result in journal publications and/or presentations at scientific meetings.

Coursework for the Major

For either specialization (chemistry or biochemistry), all required courses must be completed within two attempts with minimum grades of C. Any foreign language acceptable to the college can be taken with this minimum program and language courses can be taken S/U. ENC 3254 is suggested to fulfill part of the university Writing Requirement.

Required Coursework

Required coursework will depend upon the program chosen. Coursework for each specialization can be found below under Critical Tracking and Model Semester Plan.

Recommended Coursework

The Chemistry program at the University of Florida is approved by the American Chemistry Society (ACS). Students completing a baccalaureate degree in the standard Chemistry specialization may enhance their undergraduate experience by completing an ACS-certified degree. The ACS-certified degree is comprised of foundational coursework from each of the five subdisciplines of Chemistry (analytical, biochemistry, inorganic, physical, and organic), as well as additional in-depth courses and laboratory experiences.

The following coursework and lab experiences are necessary to satisfy the requirements for ACS certification:

- Completion of all coursework for the standard Chemistry specialization
- CHM 3218 (4 credits)
- CHM 3610L (2 credits)

- An additional 4000-level CHM lecture course (2-3 credits)
- An additional 4000-level CHM laboratory course or CHM 4910 (2-3 credits)

Course Details

Introduction to General Chemistry

CHM 1025, a two-credit course, is offered for students who need to strengthen their understanding of basic concepts of atomic structure and stoichiometry before beginning the general chemistry sequence:

Code	Title	Credits
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry 1 Laboratory	4
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory	4

A placement exam is offered via ONE.UF (<https://one.uf.edu/>) and the score achieved determines whether CHM 1025 or CHM 2045 is the appropriate first course in chemistry.

Chemistry

The following general chemistry offerings are available:

- CHM 1030/CHM 1031 is a terminal sequence for non-science students that presents Chemistry from a medical and nursing perspective
- CHM 1020 is a terminal general education course that explores Chemistry in terms of society
- CHM 2045/CHM 2045L and CHM 2046/CHM 2046L is the standard general chemistry sequence and is an acceptable preprofessional requirement for many science and engineering majors. Students are presumed to have good backgrounds in high school chemistry and mathematics (through MAC 1147) and are expected to pass the placement exam offered via ONE.UF (<https://one.uf.edu/>) **before** registering for CHM 2045.
- CHM 2095/CHM 2045L and CHM 2096/CHM 2046L is an alternative general chemistry sequence especially designed for engineering majors
- CHM 2047/CHM 2047L is a one-semester program for entering first-year students with strong backgrounds in Chemistry, normally reflected by high AP or IB chemistry test scores. This program enables students to move more quickly into advanced work.
- CHM 2051 is offered as an alternative to CHM 2046 for students who have done particularly well in CHM 2045.
- CHM 2054L is a 2-credit, inquiry-based lab focusing on major concepts in Chemistry and their application to quantitative life-sciences research. This course is equivalent to CHM 2045L and (CHM 2046L or CHM 2047L).

Placement

For placement into the appropriate first course in chemistry, please refer to the Academic Advising section of this catalog or consult a Chemistry advisor. All students should complete their general Chemistry studies at the same institution.

More Info (<http://catalog.ufl.edu/UGRD/academic-advising/placement/>)

Minors and/or Certificates

UFTeach Program

There is a severe shortage of qualified high school chemistry teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a chemistry advisor about the UFTeach program. UFTeach students complete the UFTeach minor in science teaching with their BS in Chemistry and have the coursework and preparation for professional teacher certification in Florida when they graduate.

More Info (<https://education.ufl.edu/uf-teach/>)

Chemistry

The chemistry major requires 65-70 credits, including the following coursework. With approval, this may include equivalent transfer coursework.

Code	Title	Credits
Required Foundation Coursework		
Select one option:		
Option A		
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry 1 Laboratory	5-8
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory	
Option B		
CHM 2050 & CHM 2045L	Honors General Chemistry 1 for Majors and General Chemistry 1 Laboratory	

CHM 2051 & CHM 2046L	Honors General Chemistry 2 and General Chemistry 2 Laboratory	
Option C		
CHM 2047 & 2047L	One-Semester General Chemistry and One-Semester General Chemistry Laboratory ¹	
MAC 2311	Analytic Geometry and Calculus 1	4
MAC 2312	Analytic Geometry and Calculus 2	4
MAC 2313	Analytic Geometry and Calculus 3	4
Select one option:		8-10
Option A		
PHY 2048 & 2048L	Physics with Calculus 1 and Laboratory for Physics with Calculus 1	
PHY 2049 & 2049L	Physics with Calculus 2 and Laboratory for Physics with Calculus 2	
Option B		
PHY 2053 & 2053L	Physics 1 and Laboratory for Physics 1	
PHY 2054 & 2054L	Physics 2 and Laboratory for Physics 2	
Required Core Coursework		
Select one option:		8
Option A		
CHM 2212	Organic Chemistry 1 for Majors	
CHM 2213	Organic Chemistry 2 for Majors	
CHM 2211L	Organic Chemistry Laboratory	
Option B		
CHM 2210	Organic Chemistry 1	
CHM 2211	Organic Chemistry 2	
CHM 2211L	Organic Chemistry Laboratory	
CHM 3120 & 3120L	Introduction to Analytical Chemistry and Analytical Chemistry Laboratory	4
CHM 4130 & 4130L	Instrumental Analysis and Instrumental Analysis Laboratory	5
CHM 3610	Inorganic Chemistry	3
CHM 4411 & CHM 4412	Physical Chemistry: Thermodynamics and Kinetics and Physical Chemistry: Chemical Bonding and Spectroscopy	8
CHM 4411L	Physical Chemistry Laboratory	2
MAP 2302	Elementary Differential Equations (encouraged)	
Total Credits		55-60

CHM 2095/CHM 2095L and CHM 2096/CHM 2096L can substitute for CHM 2045/CHM 2045L and CHM 2046/CHM 2046L for students who switched majors from engineering

Required Exit Exam

Students must also complete the exit exam (Diagnostic of Undergraduate Chemistry Knowledge) with a minimum score of 30 out of 60.

The required courses in the Chemistry major are generally offered every Fall and Spring. Because of budgetary and other restrictions, Summer schedules cannot be predetermined and required courses generally are offered in Summer C (12 weeks).

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (<https://cpm.flvc.org/advance-search/>) may be used for transfer students.

Semester 1

- Complete one CHM course and one MAC course
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.50 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

Semester 3

- Complete CHM 2046/CHM 2046L and MAC 2312
- 2.65 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

Semester 4

- 2.75 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

Semester 5

- Complete MAC 2313; and CHM 2212 or CHM 2210
- 2.75 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

Semester 6

- Complete CHM 3120/CHM 3120L, and CHM 2213/CHM 2211L or CHM 2211/CHM 2211L
- 2.0 UF GPA required

Semester 7

- Complete 2 of the remaining CHM 3XXX/4XXX required courses
- 2.0 UF GPA required

Semester 8

- Complete all of the remaining 3XXX/4XXX required courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the Writing Requirement while in the process of taking the courses below. Students are also expected to complete the General Education International (GE-N) and Diversity (GE-D) requirements concurrently with another General Education requirement (typically, GE-C, H, or S).

MAC 2312, MAC 2313, PHY 2049, PHY 2049L, PHY 2054, and PHY 2054L count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Quest 1 (Gen Ed Humanities)		3
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry 1 Laboratory (Critical Tracking ; State Core Gen Ed Physical Sciences)	4
MAC 2311	Analytic Geometry and Calculus 1 (Critical Tracking ; State Core Gen Ed Mathematics)	4
State Core Gen Ed Social and Behavioral Sciences (http://catalog.ufl.edu/UGRD/academic-programs/general-education/#genedcoursestext)		3
Credits		14
Semester Two		
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory (Critical Tracking ; Gen Ed Physical Sciences)	4
Gen Ed Biological Sciences		3

MAC 2312	Analytic Geometry and Calculus 2 (Critical Tracking ; Gen Ed Mathematics)	4
State Core Gen Ed Composition (http://catalog.ufl.edu/UGRD/academic-programs/general-education/#genedcoursestext); Writing Requirement		3
State Core Gen Ed Humanities (http://catalog.ufl.edu/UGRD/academic-programs/general-education/#genedcoursestext)		3
	Credits	17
Semester Three		
CHM 2212	Organic Chemistry 1 for Majors (Critical Tracking)	3
MAC 2313	Analytic Geometry and Calculus 3 (Critical Tracking ; Gen Ed Mathematics)	4
Select one:		3-4
PHY 2048	Physics with Calculus 1 (Gen Ed Physical Sciences)	
PHY 2053	Physics 1 (Gen Ed Physical Sciences)	
Select one:		1
PHY 2048L	Laboratory for Physics with Calculus 1 (Gen Ed Physical Sciences)	
PHY 2053L	Laboratory for Physics 1 (Gen Ed Physical Sciences)	
Quest 2 course (Gen Ed Biological, Physical, or Social and Behavioral Sciences)		3
	Credits	14-15
Semester Four		
CHM 2213 & CHM 2211L	Organic Chemistry 2 for Majors and Organic Chemistry Laboratory (Critical Tracking)	5
Select one:		3-4
PHY 2049	Physics with Calculus 2 (Gen Ed Physical Sciences)	
PHY 2054	Physics 2 (Gen Ed Physical Sciences)	
Select one:		1
PHY 2049L	Laboratory for Physics with Calculus 2 (Gen Ed Physical Sciences)	
PHY 2054L	Laboratory for Physics 2 (Gen Ed Physical Sciences)	
Foreign language		4-5
Elective		1
	Credits	14-16
Semester Five		
CHM 3120 & 3120L	Introduction to Analytical Chemistry and Analytical Chemistry Laboratory (Critical Tracking) ¹	4
Gen Ed Biological Sciences (or Elective if Quest 2 course in Semester 3 is GE-B)		3
Gen Ed Humanities		3
Gen Ed Social and Behavioral Sciences (or Elective if Quest 2 in Semester 3 is GE-S)		3
Foreign language		3-5
	Credits	16-18
Semester Six		
CHM 4130 & 4130L	Instrumental Analysis and Instrumental Analysis Laboratory	5
CHM 4411	Physical Chemistry: Thermodynamics and Kinetics	4
Gen Ed Composition; Writing Requirement		3
Elective (or foreign language if 4-3-3 option)		3
	Credits	15
Semester Seven		
CHM 3610	Inorganic Chemistry	3
CHM 4411L	Physical Chemistry Laboratory	2
CHM 4412	Physical Chemistry: Chemical Bonding and Spectroscopy	4
Gen Ed Social and Behavioral Sciences		3
Elective		3
	Credits	15
Semester Eight		
Electives (3000 level or above, not in department)		6
Electives		9
	Credits	15
	Total Credits	120

¹ Take CHM 3120/CHM 3120L after CHM 2046/CHM 2046L, but no later than the first semester of the third year.

Academic Learning Compact

Chemistry is the study of matter: the structure and properties of matter, the transformations from one form of matter to another, and the energy transformations associated with these transformations.

Before Graduating Students Must

- Achieve at least 50% on the Diagnostic of Undergraduate Chemistry Knowledge (DUCK) exam.
- Obtain minimum grades of C in laboratory courses:

Code	Title	Credits
CHM 2211	Organic Chemistry 2	3
CHM 3120L	Analytical Chemistry Laboratory	1
CHM 4130L	Instrumental Analysis Laboratory	2
CHM 4411L or CHM 4413L	Physical Chemistry Laboratory Biophysical Chemistry Laboratory	2

- Complete requirements for the baccalaureate degree, as determined by the chemistry faculty.

Students in the Major Will Learn to

Student Learning Outcomes | SLOs

Content

1.

- **Standard Chemistry**

Explain and apply facts, theories and concepts in

- physical
- organic
- inorganic
- analytical chemistry

- **Biochemistry**

Explain and apply facts, theories and concepts in

- physical
- organic
- inorganic
- analytical chemistry
- biochemistry

2.

- **Standard Chemistry**

Demonstrate and safely apply laboratory skills in

- synthetic
- quantitative
- instrumental methods as scientific approaches to gathering and verifying knowledge

- **Biochemistry**

Apply laboratory skills in

- synthetic
- quantitative
- instrumental
- biochemical methods as scientific approaches to gathering and verifying knowledge

Critical Thinking

3. **Standard Chemistry and Biochemistry**

Interpret, evaluate, explain and critically assess theories and experimental results in chemistry or biochemistry.

Communication

4. **Standard Chemistry and Biochemistry**

Collect, analyze and articulate results clearly and effectively in both oral and written formats.
