GEOGRAPHY | BS | MEDICAL GEOGRAPHY IN GLOBAL HEALTH

Geography is the science of place, space, and environment. Each place on earth is distinguished by a unique mix of natural resources, cultural practices, and socioeconomic and political systems. Geographers study what makes each place unique, as well as the connections and interactions between places.

About this Program

• College: Liberal Arts and Sciences
• Degrees: Bachelor of Arts | B.A.: Environmental Geosciences | Bachelor of Science | B.A.: Medical Geography in Global Health | B.S.: Medical Geography in Global Health
• Credits for Degree: 120

Additional Information

• Contact: Email

Related Geography Programs

To graduate with this major, students must complete all university, college, and major requirements.

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites may be used for transfer students.

Semester 1

• 2.0 UF GPA required

Semester 2

• Maintain 2.0 UF GPA
• 2.0 UF GPA required

Semester 3

• Complete 1 geography course (GEA 1000 not acceptable)
• 2.0 UF GPA required

Semester 4

• Complete 1 additional geography course (1 of the 2 must be GEO 2200; GEA 1000 not acceptable) or complete STA 2023 with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 5

• Complete all critical-tracking courses (STA 2023 and 2 geography courses, 1 of which must be GEO 2200; GEA 1000 not acceptable) with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course | Title | Credits
--- | --- | ---
**Semester One**
CHM 2045 & 2045L | General Chemistry 1 and General Chemistry 1 Laboratory (State Core Gen Ed Physical Sciences) | 4
IUF 1000 | What is the Good Life (Gen Ed Humanities) | 3
State Core Gen Ed Mathematics; recommended course: | 3-4
MAC 2311 | Analytic Geometry and Calculus 1 | 3
State Core Gen Ed Composition; Writing Requirement | 3

Credits | 13-14

**Semester Two**
CHM 2046 & 2046L | General Chemistry 2 and General Chemistry 2 Laboratory (Gen Ed Physical Sciences) | 4
GEO 2200 | Physical Geography (Critical Tracking; Gen Ed Physical Sciences) | 3
GEO 2200L | Physical Geography Laboratory (Gen Ed Physical Sciences) | 1
STA 2023 | Introduction to Statistics 1 (Critical Tracking; Gen Ed Mathematics) | 3
State Core Gen Ed Social and Behavioral Sciences | 3

Credits | 14

**Semester Three**
BSC 2010 & 2010L | Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory 1 | 4
State Core Gen Ed Humanities | 3
Select one:
GEO 2410 | Social Geography (Critical Tracking; Gen Ed Social and Behavioral Sciences and Diversity) | 3
GEO 2420 | Introduction to Human Geography (Critical Tracking; Gen Ed Social and Behavioral Sciences and International) | 3
GEO 2500 | Global and Regional Economies (Critical Tracking; Gen Ed Social and Behavioral Sciences) | 3
Gen Ed Composition | 2 | 3

Credits | 13
Semester Four
BSC 2011 Integrated Principles of Biology 2 4
& 2011L and Integrated Principles of Biology Laboratory 2
Gen Ed Humanities 3
Regional geography course 3
Electives 6
Credits 16

Semester Five
Medical geography core course 3 3
Electives 4
Foreign language 5
GEO 3162C Introduction to Quantitative Analysis for Geographers (Gen Ed Physical Sciences) 4
Credits 16

Semester Six
GIS 3043 Foundations of Geographic Information Systems 4
Medical geography core course 3
Elective (3000 level or above, not in major) 3
Foreign language 5
Credits 15

Semester Seven
Geography techniques course 3-4
Gen Ed Social and Behavioral Sciences 3
Geography elective 3-4
Electives (3000 level or above, not in major) 6
Credits 15-17

Semester Eight
GEO 4930 Senior Seminar 1
Geography elective 3
Electives (3000 level or above, not in major) 9
Electives 5
Credits 18
Total Credits 120

1 PSY 2012 or SYG 2000 recommended.
2 The following are recommended:
   • ENC 3459
   • ENC 3254
   • ENC 3453
   • ENC 3464
3 GEO 3452 or GEO 3454 recommended.

Electives to reach the 120-credit minimum will vary depending on whether students select minimum or maximum credit course options.

A major in geography enables students to know the earth's physical environment, to learn social, cultural and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically and/or with statistics.

The Bachelor of Arts in geography enables students to learn how geographic techniques, skills and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

Before Graduating Students Must
• Complete a capstone exam in GEO 4930, as developed by geography faculty.
• Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human#environment interactions, and the techniques of geographic science.

Critical Thinking
2. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

Communication
3. Interpret and effectively communicate information spatially, graphically and/or with statistics.
