

SOCIOLOGY MINOR

The Sociology minor offers broad theoretical perspectives and rigorous methodologies for studying social life and the causes and consequences of human behavior. Coursework examines current research and public policy pertaining to social justice and systemic inequalities; health disparities in physical and mental well-being; environmental justice and natural resource management; deviance, social control, and conflict management; gender, families, and sexualities; employment, housing, and communities; social and political movements; nationalism, migration, and ethnic conflict; and culture, technology, and media. Students analyze the most pressing social problems in these areas, as well as how different social groups experience and perceive these issues. Students' enhanced communication and analytical skills, appreciation for diversity, and ability to work collaboratively provide a competitive edge in today's global marketplace and information society.

About this Program

- **College:** Liberal Arts and Sciences (<http://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/>)
