The School of Natural Resources and Environment provides interdisciplinary environmental degree programs and develops leaders with integrated thinking about natural and social systems. The school’s undergraduate curriculum spans the range of human knowledge needed to solve complex environmental problems not amenable to narrowly based solutions.

Established

1995

Degrees

Bachelor of Science in environmental science with specializations in environmental science and natural resource management, and a Bachelor of Arts in environmental science with specializations in environmental education, environmental policy and environmental policy and business.

Internships and Career Guidance

The dean’s office maintains a list of potential sources of internships. The school grants course credit for internships (S/U grades, 1-3 credits, one per semester up to a maximum of three semesters) to enable maintenance of student status.

Programs

The school operates horizontally across UF’s structure of academic disciplines, offering more than 200 courses taught in 50 departments. Faculty members from these departments are affiliated with the school.

Scholarships

General financial aid information is available from the Office of Student Financial Affairs. Students are eligible for scholarships awarded by the College of Agricultural and Life Sciences.

Academic Policies

Admission Requirements

Admission requirements for freshmen and students other than first-semester freshmen are found in the College of Agricultural and Life Sciences’ Academic Policies.

School Requirements and Regulations

Students admitted to the school have full responsibility for registering for appropriate courses and fulfilling school and university requirements. During their first term in the school, students must obtain academic advising and a plan of study worksheet from 103 Black Hall.

Students should review the relevant information in this catalog each term to track and plan the progress of their academic work. Failure to understand and follow these guidelines could cause unnecessary hardship, delay and expense.
Proclamation
Refer to the College of Agricultural and Life Sciences’ Academic Policies.

Degree Requirements
Graduation requires satisfactory completion of 120 credits for the BS or BA degree and a cumulative 2.00 GPA in both the upper-division and the overall UF GPA.
