The communication sciences and disorders major includes didactic and experiential activities for students to learn foundational skills necessary for success in professions such as speech-language pathology, audiology and communication sciences, all of which require graduate degrees.

**About this Program**
- **College:** Public Health and Health Professions
- **Degree:** Bachelor of Health Science
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **Related Communication Sciences and Disorders Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Students should follow the plan below for course choices.

The undergraduate program exposes students to information about:

1. normal aspects of speech, language, and hearing as they relate to human communication, and
2. introductory concepts pertaining to the nature, assessment, and treatment of communication disorders.

Students complement the core major courses with various elective courses that align with their academic and career interests.

Upon successful completion of the major, students receive the Bachelor of Health Science degree. The majority of undergraduate students pursue graduate or professional training in a health field (e.g., speech language pathology, audiology or other graduate degree program); however, some students seek employment immediately after completing the BHS degree program, usually in organizations with either a health or education component.

Certified clinicians (graduate degree required) often on a team that may include psychologists, teachers, families, physical and occupational therapists, physicians, nurses, dietitians and social workers to screen, diagnose and treat individuals ranging from infants to the elderly.

Professionals typically work in schools, clinics, hospitals, other health organizations and/or private practice. Communication sciences and disorders professions offer a high degree of satisfaction to their practitioners by making a significant impact on people’s lives. Both speech-language pathology and audiology are growing professions with competitive salaries.

**Course Requirements and Sequence**

By the end of semester four, students must have completed all college requirements:
- 60 credits
- All general education except diversity
- 18,000 words of the writing requirement
- These courses (or their equivalents) with minimum grades of C:

</table>

By the end of semester five, all students must also have completed:
- EEX 3012 with a minimum grade of C
- SPA 3003 with a minimum grade of C

By the end of the senior year, students must have completed:
- 120 credits, including all prerequisites
- 30 credits of core SPA coursework with minimum grades of C
- ENC 3254 with minimum grade of C; satisfies 6000 words of writing requirement
- PHC 4101 with minimum grade of C
- 12 credits at the 3000/4000 level
- 9 credits of PHHP electives

Majors should see a department advisor to create a plan of study, which becomes the contract for graduation.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites may be used for transfer students.

**Semester 1**
- Complete BSC 2005 or higher or PSY 2012 with minimum grade of C
- Complete 9 credits of general education courses
- 2.0 GPA on all college-level coursework from all institutions
**Semester 2**

- Complete COM 1000 (or SPC 2300 or SPC 2608) with minimum grade of C
- Complete BSC 2005 or higher or PSY 2012 with minimum grade of C
- Complete 9 additional credits of general education courses for a total of 18 credits
- 2.3 GPA on all college-level coursework from all institutions

**Semester 3**

- Complete STA 2023 with minimum grade of C
- Complete 1 additional tracking psychology course (PSB 3002, DEP 3053 or CLP 3144) or 3 credits of physical science (CHM 2045 or PHY 2004 recommended) with minimum grade of C
- SPA 3003 recommended this semester if available, with minimum grade of C
- Complete science lab with minimum grade of C or S
- Complete 9 additional credits of general education courses for a total of 27 credits
- 2.7 GPA on all college-level coursework from all institutions

**Semester 4**

- Complete all critical-tracking courses with minimum grades of C
- Complete all general education courses except diversity
- Complete the 18,000 words of the writing requirement
- 2.7 critical-tracking GPA based on all attempts
- 2.7 GPA on all college-level coursework from all institutions

**Semester 5**

- Complete EEX 3012 and SPA 3003 with minimum grades of C
- 2.7 prerequisite and overall GPA on college-level coursework from all institutions

**Model Semester Plan**

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

- Electives | 4 |
- Gen Ed Humanities | 3 |
| Credits | 14 |

**Semester Five**

- EEX 3012 Introduction to Special Education (Critical Tracking) | 3 |
- SPA 3003 Phonetic Theory and Transcription (Critical Tracking; if not taken previously) | 3 |
- SPA 3011 Speech Acoustics (Critical Tracking) | 3 |
- SPA 3032 Fundamentals of Hearing (Critical Tracking) | 3 |
- SPA 3101 Speech Anatomy and Physiology (Critical Tracking) | 3 |
| Credits | 15 |

**Semester Six**

- ENC 3254 Professional Writing in the Discipline (Critical Tracking) | 3 |
- SPA 4004 Language Development (Critical Tracking) | 3 |
- SPA 4104 Neural Basis of Communication (Critical Tracking) | 3 |
- SPA 4302 Audiology and Hearing Disorders (Critical Tracking) | 3 |
Academic Learning Compact
The undergraduate program provides an understanding of the expected processes involved in human communication so that students will be prepared for graduate programs where they will be immersed in dealing with atypical or pathological conditions related to speech, language, swallowing and/or hearing.

Before Graduating Students Must
• Pass the undergraduate CSD written examination.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Explain fundamental theories and principles of basic acoustics, psychoacoustics, (neuro)anatomy and (neuro)physiology as they pertain to the normal development of speech, language and hearing.
2. Explain key concepts that pertain to the etiology and characteristics of speech, language and auditory disorders.
3. Describe basic concepts that pertain to the assessment and treatment of speech, language and auditory disorders.
4. Explain fundamental concepts that pertain to professional practice patterns and ethical standards.
5. Explain fundamental concepts that pertain to the relationship between aging and communication, the effect of culture on communication and modalities of communication.
6. Transcribe normal and disordered speech phonetically.
7. Explain the impact of disease and disability on the health of populations.

Critical Thinking
8. Apply clinical problem-solving skills to defend assessment and treatment choices.

Communication
9. Present information accurately and effectively during an oral presentation on a topic related to communication sciences or disorders.

10. Write a coherent analytical essay on a topic related to communication sciences or disorders.

Assessment Types
• Clinical analysis
• Case management reviews
• Exams
• Papers
• Presentations
• Additional assessments include:
  • A summative assessment
  • The undergraduate alumni survey
