DEAF AND HEARING SCIENCES MINOR

The Deaf and Hearing Sciences minor includes language courses in American Sign Language and courses to deepen awareness of the impact of hearing loss on everyday life and function. Students also gain an appreciation of the anatomy and physiology of the ear and rehabilitation approaches for individuals with hearing loss.

About this Program

• College: Public Health and Health Professions
• Credits: 17

Department Information

The Department of Speech, Language, and Hearing Sciences works to improve the lives of people affected by communication and related disorders through excellence and innovation in clinical training, service, and research.
