School Information

Accounting at UF traces its roots back to 1923 when the first accounting course was offered. In 1977, the School of Accounting was established as an experimental model for six years. In 1983, the UF Faculty Senate voted to make the School permanent. In 1985, the School was renamed the Fisher School of Accounting after a generous donation from 1959 alumnus Fred Fisher. Today, the Fisher School has cultivated a distinctive identity at the University of Florida and among the nation's top business programs.
