## Introduction to General Chemistry

CHM 1025, a two-credit course, is offered for students who wish to strengthen their understanding of basic concepts of atomic structure and stoichiometry before beginning the general chemistry sequence (CHM 2045/CHM 2045L, CHM 2046/CHM 2046L). A chemistry placement exam is offered online on ONE.UF (<https://one.ufl.edu/>). The score achieved determines whether CHM 1025 or CHM 2045 is the appropriate first course in chemistry.

### General Chemistry

For placement into the appropriate first course in chemistry, please refer to the Academic Advising section or consult a chemistry advisor. All students should complete their general chemistry studies without interruption.

The following general chemistry offerings are available:

- CHM 1030/CHM 1031 is a terminal sequence that meets preprofessional requirements in the College of Nursing and some majors in the College of Agricultural and Life Sciences.
- CHM 1020 is a terminal General Education course that explores chemistry in terms of consumer products. This course meets preprofessional requirements in certain areas of the College of Agricultural and Life Sciences.
- CHM 2045/CHM 2045L and CHM 2046/CHM 2046L is the standard general chemistry sequence. This sequence meets the preprofessional requirement for a broad range of science and engineering majors. Students are presumed to have a good background in high school chemistry and mathematics (through MAC 1147) and are expected to pass the chemistry placement exam offered online on ONE.UF (<https://one.ufl.edu/>) before registering for CHM 2045.
- CHM 2047/CHM 2047L is a one-semester program for entering students with strong backgrounds in chemistry, normally reflected by high AP or IB chemistry test scores. This program enables students to move more quickly into advanced work.
- CHM 2051 General Chemistry Honors is offered as an alternative to CHM 2046 for students who have done particularly well in CHM 2045.

### Attendance Requirement

Students missing the first session of a laboratory, which includes the required safety instruction, will not be allowed to start late.
