HEALTH PROFESSIONS

Course Search

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

HSC 2000 Introduction to Health Professions 3 Credits
Lecture, discussion and group assignments provide the opportunity to learn about different disciplines making up a health care team and their role in both the science and practice of health care.

HSC 4008 Professional Development for the Health Sciences 1 Credit
Fosters the professional development needed to transition into the health and public health professions. Enrichment activities include diversity training, presentation skills training, career planning, and developing an online portfolio. (S-U)
Prereq: PHHP senior in the limited-access program

HSC 4905 Individual Study 1-4 Credits
Supervised program of study to investigate problems significant to health professions.
Prereq: Health education and behavior majors, junior or senior standing, HSC 3032 with minimum grade of C, and faculty member or program coordinator permission

HSC 4910 Supervised Research Experience 1-3 Credits
Explores an area of interest in health research or the delivery and/or administration of health services through first-hand, supervised research experience.
Prereq: Health education and behavior majors, junior or senior standing, HSC 3032 with minimum grade of C, and faculty member or program coordinator permission

HSC 4930 Special Topics 1-4 Credits
Special topics in health science. Please refer to the department for specific course information.

HSC 4969 Honors Seminar in the Health Professions 1-3 Credits
Philosophy and implementation of scientific work, including an introduction to faculty research. Provides the opportunity to explore and discuss potential honors thesis topics.
Prereq: 3

HSC 4970 Public Health and Health Professions Senior Honors Thesis 1-6 Credits
Special project leading to the distinction of magna or summa cum laude at graduation. The project can be any creative work that focuses on a specific topic or issue in the health professions. The student develops an outline of the special project prior to project initiation and produces a final paper at project completion. The paper must be approved by the program and dean's office for the student to graduate magna or summa cum laude.
Prereq: HSC 4969, senior standing, majors only and a 3

PHC 4101 Public Health Concepts 3 Credits
Introduces the basic tenets, applications and foci of public health, including integrating public health with other health professions.

PHC 4320 Environmental Concepts in Public Health 3 Credits
Surveys major environmental health topics by examining sources, routes, media, and health outcomes associated with biological, chemical, and physical agents in the environment. Introduces the economic and legal frameworks associated with environmental health issues and public health.
Prereq: PHC 4101

PHC 4930 Special Topics in Public Health 1-6 Credits
Exploration of a general or a specific area of public health.
Prereq: junior or senior standing
