Microbiology and Cell Science Department

Chair: E. Triplett
Graduate Coordinator: Tony Romeo

Graduate study is offered leading to the Master of Science and Doctor of Philosophy degrees in microbiology and cell science, with emphasis in one or more of the disciplines of biochemistry, cell biology, and microbiology.

Requirements for these degrees are provided in the Graduate Degrees (http://catalog.ufl.edu/graduate/degrees/) section of this catalog and also at the Department webpage: http://microcell.ufl.edu/. (http://microcell.ufl.edu/)

Instruction and guidance are collaborative among faculty in the Colleges of Agricultural and Life Sciences, Liberal Arts and Sciences, and Medicine.

Research spans broad areas in the cellular and molecular aspects of bacterial, plant, and animal life functions: Areas of research include microbial biochemistry, biotechnology; biomass conversion; genetic and metabolic regulation; environmental microbiology; cell biology; molecular biology; molecular genetics; genomics and bioinformatics; immunology; virology; parasitology; host-pathogen interactions; cellular ultrastructure.

Prerequisites for admission to graduate study, in addition to those of the Graduate School, are a broad educational background including mathematics, physics, and chemistry through organic, analytical, and physical chemistry; basic courses in biology, botany, and/or zoology; and at least one course in microbiology and biochemistry. An undergraduate major in biochemistry, physical or chemical science, engineering, or general biology may be an acceptable alternative to a degree in microbiology or cell science. Receipt of an advanced degree requires detailed knowledge in microbiology, biochemistry, and chemistry; undergraduate deficiencies may necessitate additional course work prior to entry into the graduate program.

In addition, the Microbiology and Cell Science Department also offers a combined B.S./M.S. program that allows qualified students to earn both the Bachelor’s and Master’s degrees with 12 credit hours of jointly counted course work. This program is considered a “4/1” because students may be awarded both degrees within a five-year period. For further information on this program, follow this link: http://microcell.ufl.edu/. (http://microcell.ufl.edu/)

Majors

- Microbiology and Cell Science (http://catalog.ufl.edu/graduate/colleges-departments/agricultural-life-sciences/microbiology-cell/microbiology-cell/)

Faculty

Professor

- Conesa Cegarra, Ana
- De Crey, Valerie Anne
- Gurley, William B.
- Keyhani, Nemat Oliver Xavier
- Maupin, Julie A.
- Nicholson, Wayne L.
- Romeo, Tony
- Triplett, Eric
- Vermerris, Willem
- Wang, Nian

Associate Professor

- Christner, Brent Craig
- Foster, Jamie S.
- Gonzalez, Claudio F.
- Jiang, Qiu-Xing
- Kim, Peter Epeh
- Kolaczkowski, Bryan D.
- Larkin, Joseph
- Lorca, Graciela L.
- Mou, Zhonglin
- Rice, Kelly C.

Assistant Professor

- Czyz, Daniel M.
- Edelmann, Mariola J.
- Jones, Melissa Kolsch
- Kima, Peter Epeh
- Kolaczkowski, Bryan D.
- Larkin, Joseph
- Lorca, Graciela L.
- Mou, Zhonglin
- Rice, Kelly C.

Affiliated Faculty

- Burne, Robert Arthur
- Distinguished Professor
- Linser, Paul J.
- Professor
- Mai, Volker
- Associate Professor
- Maruniak, James E.
- Associate Professor
- Morris, John Glenn
- Professor
- Pullammanappallil, P C.
- Associate Professor
- Strauss, Sarah L.
- Assistant Professor
- Yamamoto, Janet K.
- Professor
