Publication Policy

The undergraduate catalog is published annually by the University of Florida and has been adopted as a rule of the university pursuant to the provision of Chapter 120 of the Florida Statutes.

Published editions of this official record correspond to an academic year and will remain in effect as published from the Summer B (June) term through the following Summer A (late May) term.

The undergraduate catalog provides official university rules, policies and regulations; it establishes minimum eligibility requirements for admission and reflects degree requirements; it provides approved calendar and curricular information; and it contains general information about the university community, the university, and its services and facilities.

Changes will be made to this academic record to correct errors or omissions. The university is not responsible for information obtained through Internet links from this catalog to other websites. Every effort has been made to ensure the accuracy of information. However, all dates and deadlines, courses, course descriptions, degree requirements, and fees are subject to change.

Administration

President's Welcome

Greetings! I offer you my warmest welcome to the University of Florida and to the beginning of a new academic year.

UF is wonderfully diverse and comprehensive, with more than 100 undergraduate majors, more than 200 graduate programs, an amazing variety of experiential learning opportunities and numerous undergraduate and graduate students participating in research and scholarship.

Our excellent faculty are committed to teaching and interacting with students to both challenge your academic skills and encourage you to think in new ways. Our nationally renowned academic support professionals will help you navigate your courses and major – and our student affairs staff are eager to assist with orientation, career counseling, leadership and volunteering opportunities and all the aspects of student life.

You are at the University of Florida at a great time in our history, a time when the State of Florida and the Gator Nation are united behind our shared ambitions to be one of the very best universities in the world. I encourage you to be a part of this journey by fully embracing your experience at UF – taking classes that challenge you, as well as those that appeal to your career interests and curiosity; finding opportunities to learn and serve outside of the classroom; and making new friends by reaching out to faculty, staff and students across UF's very diverse community.

This catalog will give you a starting point by providing the information and tools you need to explore UF's broad selection of courses and majors and discover our many student services. I hope that you spend time exploring your options so that you have a sense of the full range and depth of possibilities before you.

I know that you are among the most academically accomplished students in the nation, and I look forward to seeing what you and our university can achieve together.

Have a wonderful year, and Go Gators!

W. Kent Fuchs
President

Mission Statement

The University of Florida is a comprehensive learning institution built on a land-grant foundation. We are The Gator Nation, a diverse community dedicated to excellence in education and research and shaping a better future for Florida, the nation and the world.

Our mission is to enable our students to lead and influence the next generation and beyond for economic, cultural and societal benefit.

The university welcomes the full exploration of its intellectual boundaries and supports its faculty and students in the creation of new knowledge and the pursuit of new ideas.

- **Teaching** is a fundamental purpose of this university at both the undergraduate and graduate levels.
- **Research and scholarship** are integral to the educational process and to the expansion of our understanding of the natural world, the intellect and the senses.
- **Service** reflects the university's obligation to share the benefits of its research and knowledge for the public good. The university serves the nation's and the state's critical needs by contributing to a well-qualified and broadly diverse citizenry, leadership and workforce.

The University of Florida must create the broadly diverse environment necessary to foster multi-cultural skills and perspectives in its teaching and research for its students to contribute and succeed in the world of the 21st century.

These three interlocking elements — teaching, research and scholarship, and service — span all the university's academic disciplines and represent the university's commitment to lead and serve the state of Florida, the nation and the world by pursuing and disseminating new knowledge while building upon the experiences of the past. The university aspires to advance by strengthening the human condition and improving the quality of life.

Admission

Few students are admitted purely on academic merit. While the potential for academic success is a primary consideration, UF's comprehensive holistic application review also considers personal essays, academic awards, extracurricular activities, family background and home community. All information in the applicant's file, academic and non-academic, is considered in relation to the size and strength of the applicant pool.

Admission Information for all Applicants

The general requirements below apply to undergraduate admission and readmission to any college or division of the university.

Please understand that admission to the university is selective. Only minimum requirements for admission are provided; satisfaction of these *minimums* does not guarantee admission:

- Online application for admission received by the Office of Admissions by the deadline.
- A non-refundable application fee plus $5 processing fee. Students who are eligible can have their application fee waived..
- A satisfactory academic record. Applicants must provide a complete chronological record of educational institutions attended. Official transcripts from all educational institutions must be submitted according to instructions on the application. Failure to declare attendance at another institution could invalidate an offer of admission and any credits or degrees earned.
- Satisfactory scores on achievement or aptitude tests; the SAT, ACT, and/or TOEFL.
- A satisfactory conduct record.
- Applicants must identify a preferred term of enrollment whether summer B, fall or spring on their application. The application may be considered for and admission may be offered to terms other than the preferred term specified on the application. Applicants who wish to change their term of entry should contact the Office of Admissions immediately.
- Admission to on-campus degree programs must be validated by taking one or more on-campus courses in the specific semester for which the student is accepted. Correspondence and/or Web courses do not fulfill this requirement, and this rule does not apply to Web-based degree programs.

Residency for Tuition Purposes

Requests for in-state residency for tuition purposes are not granted to applicants who appear to have entered the state solely for educational purposes.
More Info (http://www.admissions.ufl.edu/residency.html)

Proof of Immunization

Before registering for classes, each person accepted for admission must submit proof of immunization. No student will be permitted to register until the Student Health Care Center has received and approved the mandatory health form.
More Info (http://shcc.ufl.edu/services/primary-care/immunizations)

Computer Requirement

Access to and ongoing use of a computer is required of all students. The university expects new students and continuing students to acquire computer hardware and software appropriate to the degree program. The cost of meeting this requirement will be included in financial aid considerations.
More Info (https://it.ufl.edu/policies/student-computing-requirements)

All official university correspondence is sent via email to the student's GatorLink email address.

Notice of Admission

When an application for admission is approved, the university will send a notice of admission for a specific term. If the student is unable to enroll for the term indicated or wishes to be considered for entrance to a different term, the Office of Admissions should be notified immediately.

All offers of admission are tentative and will remain so until the Office of Admissions receives and reviews final transcripts and credentials. Students who are admitted conditionally may enroll, subject to verification of satisfaction of all conditions of admission. Admission offers will be revoked if final coursework/credentials do not meet admission requirements. Should that occur, the student's classification will change to a non-degree status and enrollment will be denied.

Under no circumstances should an applicant make plans to depart for Gainesville until the university has provided official admission notification. An applicant who comes to campus without confirmation of admission does so entirely at their own risk. Presence on campus will not influence the admission decision.

Applicants who furnish false or fraudulent statements or information in connection with an application for admission or residence affidavit could receive disciplinary action, denial of admission and invalidation of credits or degrees earned.

Under Board of Education policy, the university can admit a limited number of students as exceptions to the requirements listed above.

Freshmen

Current high school students seeking college freshman placement and students who have earned fewer than 12 semester credits following graduation from high school.

Applicants who received their high school diploma and an Associate of Arts degree at the same time should complete the **freshman application**, which will be evaluated for both freshman and junior-level admission standards.

How to Apply

As a member of the Coalition for Access, Affordability, and Success, the University of Florida uses the Coalition Application. Applicants must complete all sections of the application, including the Student Profile and the UF supplemental section.
Apply Online (http://admissions.ufl.edu/apply/freshman)

When to Apply

Admission priority is provided to qualified applicants whose applications and supporting documents are received by the Office of Admissions during the preferred application period from mid-August through November 1. Applications received outside this period will be considered on a space-available basis only.

Incoming Freshman Deadlines

- The freshman application period is mid-August through November 1, regardless of entering term.
- Freshman decisions will be available in mid-February for students who applied by November 1.

Freshman Selection

The selection process is based on the applicant's academic credentials and a holistic review of the application. It is very difficult to predict the admissibility of any applicant without considering all information contained in the application and the size and strength of the applicant pool. All factors must be considered in the admission review.

The Office of Admission considers an applicant's total high school record, including grades, test scores, educational objective and pattern of courses completed, and personal background and experiences. Admission becomes selective when the number of qualified applicants exceeds the number of freshman spaces available.

Minimum Requirements for Freshman Admission Consideration

Middle 50% of the 2019 Freshman Class

- High school GPA of 4.3-4.6
- SAT scores of 1330-1460
- ACT scores of 29-33

Minimum freshman admission requirements include:

- Graduation from a regionally accredited secondary school or the equivalent (G.E.D., etc.).
- 18 academic units, 16 distributed as follows:

Subject	Required Years
English (with substantial writing)	4 years
Mathematics (Algebra 1, Formal Geometry, Algebra 2)	4 years
Natural Sciences (two units must include laboratory)	3 years
Social Sciences	3 years
Foreign Language (must be sequential)	2 years

- A cumulative C (2.0) average in the academic core, as computed by the university, at all institutions attended, high school and college.
- A record of good conduct. Major or continuing difficulty with school or other officials may render an applicant ineligible regardless of academic qualifications.

Home Schools and Non-Accredited Schools

In addition to the freshman application requirements listed above, homeschooled students and students attending non-accredited schools must complete the following additional requirements:

- Send transcripts from all previous institutions you have attended, including a homeschool transcript.
- Submit scores from the SAT Subject Tests in mathematics (Level II-C), foreign language, science and social science if you have not completed two courses in a specific subject area at an accredited institution, such as a local high school, Florida Virtual School, or a state community college.

Credit by Examination

There are several credit-by-examination programs that earn credit toward a UF degree. The university participates in the Advanced Placement (AP) program (p. 1408), the College Level Examination Program (CLEP) (p. 1408), the International Baccalaureate (IB) program (p. 1408) and the

Advanced International Certificate of Education (AICE) (p. 1408). Students may receive university credit for or exemption from such courses without credit, depending on the results.

Dual-Enrollment Credit

Courses from Florida public colleges and State University System schools generally adhere to the Statewide Course Numbering System. If the prefix (first three letters) and the last three digits of the course number are the same, then the course is considered equivalent.

Equivalent courses will generally fulfill the same requirements (e.g., general education) that the UF course fulfills. However, whether a course fulfills UF's writing requirement is determined by specific criteria, not course number equivalency.

Courses taken at private and out-of-state institutions need to be evaluated by the student's college to determine if they will fulfill specific requirements.

Tuition Deposit after Admission

- Freshmen are required to submit a **$200 non-refundable tuition deposit** no later than **May 1** to secure their place in the class.
- The tuition deposit **will not be reimbursed** if the student does not enroll in the term offered for admission.
- The tuition deposit will be credited to the student's account and applied toward the first-semester tuition. If there is a credit balance on the account at the end of drop/add, the balance will be refunded.
- This deposit is waived for those students who qualified for an SAT or ACT fee-application waiver. Students who qualify for Pell Grants may receive a tuition deposit reduction if they appeal.

International Students

The Office of Admissions classifies an applicant as an undergraduate if they have not earned a university degree equivalent to a U.S. bachelor's degree.

How to Apply

International applicants must apply online.
Apply Online (http://admissions.ufl.edu/apply/international)

Applications cannot be considered until the Office of Admissions receives ALL required credentials. International applicants should supply the following:

- All international applicants should apply online.
- Submit the non-refundable $30 application fee (U.S. currency drawn on a U.S. bank or credit card).
- Submit appropriate test scores:
  - Freshmen must submit official SAT or ACT scores.
  - Applicants whose native language is not English must submit official scores from the Test of English as a Foreign Language (TOEFL), International English Language Testing System (IELTS) or the Michigan English Lab Assessment Battery (MELAB)
  - Applicants are exempt from the English proficiency requirement if enrolled for one academic year in a degree-seeking program at a recognized/regionally accredited university or college in a country where English is the official language prior to your anticipated term of enrollment or if you are from one of the following countries.
    More Info (http://admissions.ufl.edu/apply/international/countries.html)
- International freshman applicants are required to submit secondary credentials from non-U.S. institutions to a credential evaluation agency for a course-by-course evaluation with grade point average calculation. International transfer applicants are also required to submit college or university credentials from non-U.S. institutions to a credential evaluation agency for a courses-by-course evaluation with grade point average calculation.

Transfer Students

A transfer student is defined as an applicant who has earned at least 12 semester credits of credit following graduation from high school and who has not received a bachelor's degree.

How to Apply

Transfer applicants must apply online.
Apply Online (http://www.admissions.ufl.edu/apply/transfer)

When to Apply

Transfer applicants generally are received six to nine months before the term begins. Apply by your intended college's deadline.

More Info (http://www.admissions.ufl.edu/apply/transfer/trapdates)

Transfer Eligibility

- Must have completed an Associate of Arts degree from a Florida public institution or at least 60 transferable semester credit hours from a regionally accredited institution
- Must show proficiency in a foreign language. Students can do this by providing a high school transcript showing completion of two years of the same foreign language OR by completing 8-10 semester hours by the same foreign language.
- Must have a minimum 2.0 overall GPA and a minimum 2.0 GPA at the last institution attended as calculated by UF.
- Must complete or will complete specific requirements for intended major before attending UF.
- Must be in good standing and eligible to return to any institution previously attended.

Students with less than 60 semester credit hours or who have already completed a bachelor's degree are not eligible to transfer to an on-campus program.

Readmission to the University

Readmission applies to students who have been previously admitted and who have attended this university.

Undergraduate students who do not enroll at the university for two consecutive terms, including any summer term, must apply for readmission. Readmission, however, is not guaranteed and is subject to availability at the appropriate level, college or major. Students who skip a single term will be scheduled automatically for a registration appointment for one additional term.

Readmission applies to undergraduate students who have previously been admitted to and attended the University of Florida, at any level. Students who do not enroll at the university for two consecutive terms, including any summer term, must apply for readmission.

Readmission is not guaranteed and is subject to availability at the appropriate level, college and major. Contact the college/department you will be applying to for questions regarding availability.

Apply Online (http://www.admissions.ufl.edu/start.html)

Readmission Requirements

- Satisfactory Academic Records: If you have attended any college or university since you were last enrolled at the University of Florida, you must have a C or higher average (as computed by UF) on all work attempted at each institution. Be aware that grades received at other institutions are not averaged with grades received at UF for the purpose of meeting the university's grade point average requirements.
- Students must indicate the college and the level of their last enrollment at UF and must also list all institutions attended since leaving UF and provide complete official transcripts from each before the application deadline.
- Students must be in good standing and eligible to return to each institution previously attended.
- Students must indicate the degree program and/or major to which they want to apply or return.
- Students must meet the current admission requirements of the college or school that they expect to enter.
- Satisfactory Conduct Record: Applicants must present a satisfactory record of conduct.

Fresh Start

Former undergraduate degree-seeking students who have been dismissed and who wish to return to the University of Florida after an absence of no fewer than five calendar years (during which they have engaged predominantly in non-academic activities) may petition for undergraduate readmission under the Fresh Start Program.

If a student is readmitted, credit for previous UF courses in which minimum grades of C were earned will be calculated in UF credits earned and may be applied toward a degree. No grades previously earned in UF courses will be included in the UF grade point average. All previous course attempts and grades received will remain on the student's academic record and transcript.

Students cannot apply for the Fresh Start Program subsequent to readmission to the university. Students who have been readmitted under Fresh Start cannot petition subsequently for any retroactive change to their academic records. Students admitted under Fresh Start who do not enroll must reapply for a future term.

For additional information on policy and procedures, former students who wish to petition for readmission under the Fresh Start Program should contact the dean of the college into which they seek readmission.

Each student is responsible for becoming familiar with the rules and regulations of the university and for applying them as appropriate. Additional information relative to academic rules, conduct, graduation, social activities and failure in studies can be found in the sections containing regulations of the colleges and schools.

Additional Admission Information

- All Applicants (p. 15)
- Readmission Deadlines (http://www.admissions.ufl.edu/ugrad/readmission.html)

Residency for Tuition Purposes

Few students are admitted purely on academic merit. While the potential for academic success is a primary consideration, UF's comprehensive holistic application review also considers personal essays, academic awards, extracurricular activities, family background and home community. All information in the applicant's file, academic and non-

academic, is considered in relation to the size and strength of the applicant pool.

The deadline for applying for a change in residency status (http://www.registrar.ufl.edu/currents/residencychange.html), including receipt of all documentation, is each term's fee payment deadline (p. 1442). Residency reclassification cannot be applied for retroactively for previous terms.

All Florida public institutions of higher education shall maintain consistent policies and practices for the classification of students as residents for tuition purposes to facilitate the transfer of students among institutions. The policies and practices may vary to accommodate differences in governance, but the determination of classification shall be consistent to assure students of being classified the same regardless of the institution determining the classification, as long as no contradictory evidence indicates the classification is incorrect.

Determination of Residency for Tuition Purposes

- **Applicants:** consult the Admissions website (http://www.admissions.ufl.edu/residency.html).
- **Current UF Students:** consult the Registrar website (http://www.registrar.ufl.edu/currents/residencychange.html).
- Florida State Statute 1009.21 (http://www.leg.state.fl.us/Statutes/index.cfm?App_mode=Display_Statute&URL=1000-1099/1009/Sections/1009.21.html)
- Florida Board of Governor's Regulation 7.005 (http://www.flbog.edu/documents_regulations/regulations/7_005ResidencyforTuitionPurposesSept2015.pdf)
- Florida Residency Guidelines (https://www.floridashines.org/documents/111597/112691/09.22.16+Florida+Tuition+Residency+Guidelines.pdf/e726c0fd-3784-428d-aa27-74cc04db218f)

Applicants Receiving VA and Social Security Benefits

Few students are admitted purely on academic merit. While the potential for academic success is a primary consideration, UF's comprehensive holistic application review also considers personal essays, academic awards, extracurricular activities, family background and home community. All information in the applicant's file, academic and non-academic, is considered in relation to the size and strength of the applicant pool.

VA Benefits

UF Office of Veterans Services (http://www.veterans.ufl.edu)

The University of Florida is approved by the Florida Department of Veterans Affairs (VA) to educate and train veterans, their spouses or their dependents (100 percent permanent and totally disabled or deceased service connected).

Ten federal public laws currently provide education/job-training programs for VA-eligible students.

Five programs serve most students:

- Chapter 30 for U.S. Military Veterans
- Chapter 31 for Disabled U.S. Military Veterans
- Chapter 33 for U.S. Military Veterans or dependents of veterans
- Chapter 35 for Spouse and Children of Deceased or 100 percent (permanent and totally) Disabled Veterans (service connected), and
- Chapter 1606 for personnel in the National Guard or U.S. Military Reserves.
- Chapter 1607 for personnel in the National Guard or U.S. Military Reserves called or ordered to active duty in response to a war or national emergency (contingency operation) as declared by the President or Congress. Members may be eligible after serving 90 consecutive days on active duty after September 11, 2001.

UF's Office of Veterans Affairs in 222 Criser Hall coordinates veterans services and specific program information. Eligible students must submit an Application for Educational Benefits and request certification for full-time or part-time educational benefits in accordance with VA rules and regulations.

This office also can provide confirmation of student status for VA health care or other benefits. Additionally, the University of Florida provides military training to college credit evaluation and encourages all veterans to request this service from the campus veterans advocate.

A full-time fall and spring semester undergraduate load for VA benefits is 12 credits per semester; a full-time fall and spring semester graduate load is 9 credits. Summer terms full and part-time enrollment requirements differ. Students should refer to the UF VA website for specific information about summer credit requirements.

The Atlanta Regional Processing Office of the U.S. Department of Veterans Affairs determines eligibility based on official service records, evidence submitted by the student and applicable laws. Students with established VA program eligibility at another college or university must submit a Change of Program or Place of Training and a UF enrollment verification request to 222 Criser Hall.

Chapter 30, 1606 and 1607 program participants are required to verify attendance each month to the federal VA. Verification can be done on the Web Automated Verification of Enrollment (WAVE) (https://www.gibill.va.gov/wave) page, or veterans can call 1.877.823.2378.

At the end of the term, if an undergraduate student's cumulative grade point average falls below a 2.0 (C) average, the student will receive an academic warning. If at the end of the next term of enrollment, the cumulative GPA remains below 2.0, the student's educational benefits will be terminated and the DVA will be notified of the student's unsatisfactory progress for VA pay purposes. Students must meet the conditions for UF readmission to become eligible again for VA educational programs.

Social Security Benefits

Inquiries related to Social Security benefits should be directed to the student's local Social Security Office. The Office of the University Registrar will complete enrollment certificates issued by the Social Security Administration for students eligible to receive educational benefits, as long as the student is a full-time undergraduate.

A full-time undergraduate load for Social Security benefits is 12 credits per semester; a full-time graduate load is nine credits.

General Education

The General Education Program (Gen Ed) supports the mission of the University of Florida by providing undergraduate students with common collective knowledge about the world in which they live. The curriculum enables students to think creatively, reason critically, communicate effectively, and make informed decisions that affect all aspects of their lives.
More Info (http://undergrad.aa.ufl.edu/general-education)

Through general education courses, students gain fresh perspectives and discover new approaches to intellectual inquiry that promote understanding of both the traditional and the newly discovered. To achieve these outcomes, the general education curriculum encompasses a breadth of knowledge in composition, diversity studies, humanities, international studies, mathematics, biological, physical, and social and behavioral sciences.

Ultimately, competence in these areas enables students to better understand themselves, their neighbors, other cultures and times, and the principles governing the natural world and the universe; and to participate fully and responsibly as informed citizens in local, national, and global matters.
The general education curriculum is organized around eight major subject areas: biological sciences, composition, diversity studies, humanities, international studies, mathematics, physical sciences, and social and behavioral sciences.
More Info (http://undergrad.aa.ufl.edu/general-education/gen-ed-program)

General Education Program Requirements

All undergraduate students (except those transferring to UF with an A.A. degree from a Florida public college or an A.A. certificate from a Florida public state university) are required to complete UF's general education requirement to graduate.
More Info (http://undergrad.aa.ufl.edu/general-education/gen-ed-program/program-requirements)

Subject Area	UF Core	State Core	Gen Ed Courses	Totals
Composition		3	3	6
Humanities*	3	3		6
Social & Behavioral Science*		3	3	6
Mathematics		3	3	6
Natural Science		3	3	6
Additional Required Gen Ed Coursework (Humanities, Social Science, or Natural Science)**			6	6
OVERALL TOTALS	3	15	18	36

* To complete General Education, student must select a General Education course that features the "International" subject area for 3 credits and a General Education course that features the "Diversity" subject area for 3 credits

** Majors that feature extensive use of one of these subject areas may require a student to complete all 6 "Additional Required Gen Ed Coursework" credits in a particular subject area. See the major Recommended Plan for details.

Important Considerations

- A minimum grade of C is required for general education credit. Courses intended to satisfy the general education requirement cannot be taken S-U.
- Some majors require or recommend specific general education courses.
- Certain classes are approved to count for multiple general education program areas. Students can count a general education course toward one area only except for (D) and (N) credits, which must be earned concurrently with another area. For example, a course designated as HD can count toward both the H and D requirements, but a course designated CH can count only as C or H.
- Study abroad courses can fulfill international credit, in addition to fulfilling credit in other subject areas. Study abroad must be approved in advance by an academic advisor and the UF International Center.

Successful completion of these requirements will result in the student learning outcomes.

Selecting General Education Courses

Students can take Gen Ed courses at the 1000-4000 levels. First-year students generally take introductory (1000/2000-level) courses. If a student has the academic background and the interest they may take more advanced courses, but they should first check the course prerequisites and/or consult an academic advisor.

Applying Incoming Credits to General Education

AP, IB, AICE, and CLEP credit count toward completion of the general education program requirements. In general, course equivalencies are derived from the course equivalency charts (p. 1408) from the student's year of matriculation at UF.

Acceptable dual enrollment and other transfer credit will fulfill the general education requirements that the same UF course fulfills if the course is equivalent. Courses from Florida public colleges and State University System schools generally adhere to the Statewide Course Numbering System. If the prefix (first three letters) and the last three digits of the course number are the same, then the course is considered equivalent.

If the course does not have a common-numbered equivalent at UF (either because UF does not offer the course or because the transferred course was not taken in the state system), then the student's college needs to evaluate the course to determine whether it fulfills a general education requirement. More Info (p. 1408)

Objectives and Outcomes

Subject Area Objectives

More Info (http://undergrad.aa.ufl.edu/general-education/gen-ed-program/subject-area-objectives)

Biological Sciences

Biological science courses provide instruction in the basic concepts, theories and terms of the scientific method in the context of the life sciences. Courses focus on major scientific developments and their impacts on society, science and the environment, and the relevant processes that govern biological systems. Students will formulate empirically-testable hypotheses derived from the study of living things, apply logical reasoning skills through scientific criticism and argument, and apply techniques of discovery and critical thinking to evaluate outcomes of experiments.

Composition

Composition courses provide instruction in the methods and conventions of standard written English (i.e. grammar, punctuation, usage) and the techniques that produce effective texts. Composition courses are writing intensive, require multiple drafts submitted to the instructor for feedback prior to final submission, and fulfill 6,000 of the university's 24,000-word writing requirement. Course content must include multiple forms of effective writing, different writing styles, approaches and formats, and methods to adapt writing to different audiences, purposes and contexts. Students are expected learn to organize complex arguments in writing using thesis statements, claims and evidence, and to analyze writing for errors in logic.

Diversity

This designation is always in conjunction with another program area.

In Diversity courses, students examine the historical processes and contemporary experiences characterizing social and cultural differences within the United States. Students engage with diversity as a dynamic concept related to human differences and their intersections, such as (but not limited to) race, gender identity, class, ethnicity, religion, age, sexual orientation, and (dis)abilities. Students critically analyze and evaluate how social inequities are constructed and affect the opportunities and constraints across the US population. Students analyze and reflect on the ways in which cultures and beliefs mediate their own and other people's understandings of themselves and an increasingly diverse U.S. society.

Humanities

Humanities courses provide instruction in the history, key themes, principles, terminology, and theory or methodologies used within a humanities discipline or the humanities in general. Students will learn to identify and to analyze the key elements, biases and influences that shape thought. These courses emphasize clear and effective analysis and approach issues and problems from multiple perspectives.

International

This designation is always in conjunction with another program area.

International courses promote the development of students' global and intercultural awareness. Students examine the cultural, economic, geographic, historical, political, and/or social experiences and processes that characterize the contemporary world, and thereby comprehend the trends, challenges, and opportunities that affect communities around the world. Students analyze and reflect on the ways in which cultural, economic, political, and/or social systems and beliefs mediate their own and other people's understanding of an increasingly connected world.

Mathematics

Courses in mathematics provide instruction in computational strategies in fundamental mathematics including at least one of the following: solving equations and inequalities, logic, statistics, algebra, trigonometry, inductive and deductive reasoning. These courses include reasoning in abstract mathematical systems, formulating mathematical models and arguments, using mathematical models to solve problems and applying mathematical concepts effectively to real-world situations.

Physical Sciences

Physical science courses provide instruction in the basic concepts, theories and terms of the scientific method in the context of the physical sciences. Courses focus on major scientific developments and their impacts on society, science and the environment, and the relevant processes that govern physical systems. Students will formulate empirically-testable hypotheses derived from the study of physical processes, apply logical reasoning skills through scientific criticism and argument, and apply techniques of discovery and critical thinking to evaluate outcomes of experiments.

Social and Behavioral Sciences

Social and behavioral science courses provide instruction in the history, key themes, principles, terminology, and underlying theory or methodologies used in the social and behavioral sciences. Students will learn to identify, describe and explain social institutions, structures or processes. These courses emphasize the effective application of accepted problem-solving techniques. Students will apply formal and informal qualitative or quantitative analysis to examine the processes and means by which individuals make personal and group decisions, as well as the evaluation of opinions, outcomes or human behavior. Students are expected to assess and analyze ethical perspectives in individual and societal decisions.

Student Learning Outcomes (SLOs)

Content and Skills

Content

Students demonstrate competence in the terminology, concepts, theories, and methodologies used within the discipline.

Communication

Students communicate knowledge, ideas, and reasoning clearly and effectively in written and oral forms appropriate to the discipline.

Critical Thinking

Students analyze information carefully and logically from multiple perspectives, using discipline-specific methods, and develop reasoned solutions to problems.

Center for Latin-American Studies

Founded in 1930, the Center for Latin American Studies aims to advance knowledge about Latin America and the Caribbean and to enhance the scope and quality of Latin American studies at the University of Florida.

Contact

Grinter Hall

P.O. Box 115530
University of Florida
Gainesville, FL 32611-5530

More Info (http://www.latam.ufl.edu)

Academic Advising
Grinter Hall, Room 319
352.392.0375

The center:

- offers interdisciplinary academic programs in Latin American studies;
- conducts outreach activities that enrich the intellectual and cultural lives of UF students, faculty and staff, and the local community (e.g., Annual Conference, Colloquium, Latino Film Series, Latin Americanist newsletter, educational K-12 outreach services); and
- cooperates with other university units in overseas study, research and training programs.

Most of these programs are open to undergraduates.

The center has a director and 20 core faculty members with expertise in the humanities, social sciences and natural sciences. In addition, the center draws on the expertise of more than 160 distinguished faculty affiliates from colleges and professional schools across campus. These faculty teach more than 375 undergraduate and graduate courses available to undergraduates in Latin American and Caribbean studies.

Academic Programs

The Center for Latin American Studies offers a minor (p. 834) and a certificate (p. 833) for undergraduates who are interested in Latin America and/or the Caribbean and who intend to pursue graduate studies or a career in Latin American or Caribbean-related business, government service or teaching. An interdisciplinary studies (IDS) major in Latin American studies is available through the College of Liberal Arts and Sciences.

The minor requires 15 credits of courses outside the student's department major's courses, and it will appear on the student's transcript. The certificate in LAS is awarded by the center to acknowledge a Latin American or Caribbean-area concentration within the student's major and general course of study. All coursework on Latin America and related fields, including several courses in the student's major and/or minor may count toward the certificate, and a student can receive both a minor and a certificate in Latin American Studies.

For more information, refer to Center for Latin American Studies (http://www.latam.ufl.edu), Grinter Hall (http://campusmap.ufl.edu/?loc=0002), Room 319, 352.392.0375, ext. 807. Students interested in the minor, certificate or major should contact the center's undergraduate advisor: Email (rfbrown@latam.ufl.edu).

Study Abroad in Latin America

Candidates for both the minor and the certificate are encouraged to spend a summer, a semester or an academic year studying in a Latin American country. UF sponsors study abroad programs for undergraduates in several Latin American countries in a variety of disciplines and lengths. Options include study tours of one to two weeks, summer programs of six weeks and semester-length exchanges during fall or spring. UF programs are currently available in Brazil, Costa Rica, Chile, Mexico, Nicaragua and Peru. Students in almost any major can find a program that will fit their interests.

Courses taken in UF-sponsored study abroad programs can count toward the minor or certificate in Latin American studies. Credits obtained from study abroad programs sponsored by other institutions and transferred to UF may be applied to the minor or certificate with prior approval from the UF international Center (UFIC), the student's major department, and the undergraduate advisor at the Center for Latin American Studies.

For further information on study abroad opportunities, contact Study Abroad Services at the UF International Center.

Division of Military Science

The university offers instruction in the military sciences to students preparing for military service. The departments of the Army, Navy/Marine Corps, and Air Force each maintains a Reserve Officers Training Corps (ROTC) and provides staff of military personnel for the instruction and administration of cadets and midshipmen.

ROTC Scholarship Program

The ROTC Vitalization Act of 1964 provides for college scholarships to ROTC cadets and midshipmen. Scholarships are competitive and pay either the cost of tuition, books, fees, supplies and equipment or an amount toward that coverage (depending on the service) plus a monthly subsistence allowance of $300 (freshman year), $350 (sophomore year), $450 (junior year), and $500 (senior year). Scholarships are offered for two, three and four years.

Students with Military Training Elsewhere

Students transferring from other college-level institutions with ROTC units are allowed credit for military studies completed elsewhere, up to the amount allowed by the institution from which the transfer is made, provided such credit does not exceed the maximum credits allowed for the Air Force general military course. For the Army ROTC program, transfer of all four semesters of the basic course is normally accepted. Students already in the advance course must receive approval from

the professor of military science for approval of upper-division credit transfers.

A cadet who transfers to another institution with a similar-service ROTC detachment may transfer membership in the Army or Navy advanced course or the Air Force professional officer course to that detachment. The professors of military science, naval science or aerospace studies determine eligibility for admission to military science, naval science and aerospace studies courses at this university.

Military Commitment upon Course Completion

Non-scholarship students enrolled in Army, Air Force or Navy ROTC incur no military commitment during their first two years (basic course) in the program. Upon selection by the respective departments, students completing the basic course or its equivalent may enter the ROTC advanced course. Such students execute a contract at time of entry that obligates them, upon successful completion of the advanced course and commissioning, to serve on active duty for a period of not less than three years for Army, three years for Navy and four years for Air Force. Assignments are subject to orders of the appropriate service secretary.

A graduate will continue as a member of the regular or reserve component of that service until the sixth and not later than the eighth anniversary of the commission. ROTC scholarship students incur an identical military commitment except they must serve at least four years on active duty, if selected, and depending on the service selection and warfare specialty.

Army ROTC students also may elect to participate in the guaranteed reserve forces duty option, whereby they are not required to serve on active duty. After commissioning and completion of the basic branch school, they are assigned to an Army Reserve or National Guard unit to fulfill the remainder of their eight-year obligation in a reserve forces status.

Interested students should apply in person at the office of the professor of military science, naval science or aerospace studies in Van Fleet Hall.

Uniforms, Equipment, and Textbooks

ROTC uniforms are identical to regulation uniforms except for insignia. Cadets and midshipmen must wear the uniform on specified days.

Newly entering students in the Army and Air Force ROTC are issued required uniforms and texts. The uniforms and texts remain the property of ROTC and are returned to supply during semesters of nonattendance, transfer to another institution or upon completion of the prescribed course of instruction.

Navy uniforms are permanently issued to midshipmen as long as satisfactory NROTC participation is carried out. Navy/Marine Corps scholarship midshipmen receive a $375 textbook stipend each semester they are active in the NROTC program.

Army scholarship cadets receive a $1200 textbook stipend each year.

Air Force scholarship cadets receive a $900 textbook stipend each year.

Admission

Lower-division ROTC academic courses, referred to as basic or general military courses, are open to all university students. These elective courses, offered by the Department of Military Science, are designed to introduce students to a military service (Army, Navy/Marine Corps, and Air Force) and their respective roles in national defense. No experience with the military is required or expected.

Upper-division courses are intended for juniors and seniors who are actively pursuing a commission as an officer. Cadets and midshipmen who complete the 3000/4000-level courses receive their commission upon graduation. Candidates for the commissioning program must be medically qualified, physically fit U.S. citizens, in good academic standing, with no criminal record and with demonstrated leadership potential. Final selection of students for the advanced course is made by the professor of military science, professor of naval science or professor of aerospace studies.

Programs

Army Basic, Navy Basic, and Air Force General Military Course

The Army and Navy basic courses and the Air Force general military courses include four semesters of instruction. Non-U.S. citizens must receive department approval to enroll.

Cadets and midshipmen are issued uniforms and textbooks by their respective services and are responsible financially for the care of such property and for its prompt return when directed.

Outstanding Army basic course cadets may be selected to attend airborne, air assault, northern warfare, military mountaineering training, or other U.S. Army training courses. Outstanding Air Force cadets may be selected to attend parachute free-fall training, soaring programs and summer base visits.

Army Reserve Officers Training Corps (ROTC)

392-ARMY (392-2769)

The general objective of Army ROTC is to provide junior officers who by their education, training and inherent qualities, are suitable for continued development as officers in the U.S. Army. The aim is to provide a basic military education and, in conjunction with other college disciplines, to develop individual character attributes essential to a professional military officer.

The Army ROTC advanced course includes four semesters of instruction on campus and four weeks of summer camp at Ft. Lewis, WA, normally at the end of the junior year. During each semester, cadets are required to participate in one weekend field training exercise at Camp Blanding in Starke, FL. Additionally, cadets are required to attend morning physical training (exercise) sessions up to three times weekly.

Training Allowances and Service Obligation

Each student receives from the U.S. Government a monetary subsistence allowance for advance course, $450 for juniors and $500 for seniors per month, paid during the period of enrollment in the advanced course for not more than 20 months. Students are paid for their travel to and from the five-week summer camp at Ft. Lewis, WA. While at camp, they are provided quarters, rations and one-half of a Second Lieutenant's pay per month. Qualified cadets may be eligible to serve as drilling members of reserve component units, in the pay grade of E-5 or higher, under the Simultaneous Membership Program. Upon the student's successful

completion of the advanced course and completion of the college degree, the cadet is commissioned a Second Lieutenant in the U.S. Army.

Outstanding advanced-course cadets may be selected to attend airborne, air assault, northern warfare, military mountaineering training, or other U.S. Army training courses. Several cadets are offered the opportunity to serve in leadership positions in active Army units immediately following the National Advanced Leader's Camp under the Cadet Troop Leadership Training Program. This program includes an opportunity for selected cadets to travel and serve in Germany or Korea. Prior to commissioning, students must take and pass one semester of the following courses: military history, English composition and computer literacy in order to complete the professional military education program requirements.

All contracted cadets may compete for the Cultural Understanding and Language Program, providing opportunities to travel to other countries, living and working among the population to better their understanding of the culture. Also, for selected languages, contracted cadets may be paid additional monies ($250 per semester-credit) for successfully completing targeted languages.

Naval Reserve Officers Training Corps

The NROTC unit was established at the university in 1972 to develop qualified officers for the Navy and Marine Corps. Students who complete the program are tendered commissions in either the Naval Reserve or the Marine Corps Reserve and are immediately placed on active duty.

The program consists of a naval science course and a noncredit two-credit leadership laboratory each semester for four academic years. Shipboard engineering and naval weapons systems, seapower and maritime symposia, terrestrial and celestial navigation, and management and leadership ethics are included in the curriculum. Training cruises, usually of four to six weeks duration with pay during the summer, also are part of the program.

Students may participate with or without a scholarship. Those who have scholarships have their tuition and fees paid by the Navy/Marine Corps and receive $375 per semester for books. They also receive $250 (freshman), $300 (sophomore), $350 (junior) and $400 (senior) per month for a maximum of eight semesters during the academic years.

Non-scholarship college program students do not receive these awards. However, they do receive naval science textbooks and uniforms free. They also receive $350 a month (during the junior year) and $400 a month (during the senior year) for up to four semesters. Scholarships are usually awarded after national competition among high school seniors. However, college program students can be awarded scholarships fewer than four years and they actually have an advantage over high school students.

Scholarship students participate in three summer cruises; college program students participate in only one cruise between their junior and senior years.

During the first year of the scholarship program, there is no obligation to serve on active duty. After students begin the sophomore year, they are obligated to serve on active duty after completing the program and receiving their baccalaureate degree. Eight-semester scholarship students incur an eight-year service obligation; four years must be active duty.

Navy-option graduates of the NROTC program will be assigned to one of the following areas: nuclear propulsion (surface and subsurface), naval aviation, surface warfare, or special warfare. Marine Corps-option graduates receive a six-month professional course before further assignment.

Air Force Officer Training Corps

The Department of Air Force Aerospace Studies was established in September 1946 to select and prepare students through a permanent program of instruction to serve as active duty officers in the U.S. Air Force. The curriculum emphasizes the uniformly high level of military understanding and knowledge required of Air Force officers.

AFROTC training is divided into two phases: the first two years constitute the General Military Course (GMC), the last two the Professional Officer Course (POC). AFROTC is designed to be a four-year program but can be completed in as little as three years. Upon completion cadets are commissioned as a Second Lieutenant in the U.S. Air Force.

The program requires completion of the GMC, a two-week field training course and the POC. Students with previous active military service or previous training at military schools may on the basis of their experience receive a waiver for portions of the GMC. Students joining the program with only three academic years until graduation will be required to complete the entire GMC curriculum in one year and then attend field training.

UF students, junior college and other non-ROTC transfer students with no previous ROTC training who qualify academically are eligible for the three-year program.

AFROTC training provides free uniforms and textbooks. In addition, after field training and other enrollment requirements are completed, POC cadets receive $450 per month for juniors and $500 per month for seniors during the academic year.

General Military Course

The General Military Course, a two-year survey-level course, examines the role of U.S. military forces in the contemporary world, with particular attention to the U.S. Air Force, its organization and mission. The functions of strategic offensive and defensive forces, general purpose and aerospace support forces are covered. The development of air power over the past 200 years is examined by tracing the various concepts of employment of air power and by focusing on factors that prompted research and technological change. The history of air power is stressed, with significant examples of the impact of air power on strategic thought.

Professional Officer Course

Enrollment in the Professional Officer Course (POC) is open to applicants who demonstrate a high officer potential. Applicants must:

- Fulfill all requirements for a commission prior to the 34th (29 years for flying applicant) birthday (waivers possible to the 35th birthday)
- Have two years of academic enrollment remaining to obtain degree
- Sign a written contract agreeing to complete the course
- Be a citizen of the United States and willing to surrender dual citizenship with another nation
- Pass the Department of Defense medical examination
- Pass the physical fitness test
- Terminate membership (if member) of any reserve component
- Enlist in the Air Force Reserve (obligated reserve section)

- Have a cumulative academic GPA of 2.5 or higher for all previous college courses
- Successful completion of the GMC and Field Training requirements

Veterans entering the university who desire a commission through AFROTC should contact the professor of aerospace studies before registering.

All POC cadets receive up to $500 per month for up to 20 months. This is in addition to the pay received for the two-week field training, which normally is accomplished between the sophomore and junior years. Cadets also receive compensation for travel expenses and are provided food, housing, uniforms and medical care while attending field training, which is conducted at an Air Force base.

POC academics stress the development of the leadership, management and communication skills that are vital to an officer's effectiveness. Classroom time also is spent developing the cadet's professional awareness and understanding the international environment as it affects the national security of the United States.

When the student successfully completes the POC and graduates from the university, they are commissioned a Second Lieutenant in the United States Air Force and is given an assignment commensurate with their academic major, the needs of the Air Force and their personal desires. The active-duty requirement for officers who enter and complete pilot training satisfactorily is ten years from the end of flight training. Those who complete combat systems officer, air battle manager or remote piloted aircraft training have a six-year active duty service commitment following graduation from flight training. For others, the requirement is four years after entering active duty.

Aerospace Leadership Minor

The university offers instruction in the military sciences to students preparing for military service. The departments of the Army, Navy/Marine Corps, and Air Force each maintains a Reserve Officers Training Corps (ROTC) and provides staff of military personnel for the instruction and administration of cadets and midshipmen.

College of Dentistry

The University of Florida College of Dentistry is one of the top dental schools in the United States, featuring a nationally-ranked research enterprise, all ADA-recognized dental specialties, the Higher Education Excellence in Diversity Award for four consecutive years and a HRSA grant for Scholarships for Disadvantaged Students. The college is located on the University of Florida campus within an academic health center which includes a major teaching hospital and five other health colleges. The University of Florida and the College of Dentistry offer rich educational and cultural opportunities, nationally-ranked sports teams and everything a large university system has to offer in a diverse and humanistic environment.

Admissions (http://admissions.dental.ufl.edu)

The college educates the state's future dentists and dental specialists through 16 degree and certificate programs. Each year we admit a new class of 90+ D.M.D. students who are among the top predental students in the nation. Students' performance on standardized examinations is a benchmark of the quality of our academic programs.

The college is Florida's only public dental school and one of the top dental institutions in the country. It has a statewide network for community oral health with four UF-owned dental centers and 11 partnership centers located throughout Florida. The college provides training opportunities for students and residents while providing dental care to Florida residents, many of whom are underserved and lack access to dental care.

The UF College of Dentistry is housed in the Dental Sciences Building located on the UF Health Science Center campus. The Health Science Center includes five additional colleges – Medicine, Public Health and Health Professions, Nursing, Pharmacy, and Veterinary Medicine – and is adjacent to one of the university's affiliated private, tax-exempt teaching hospitals, UF Health Shands in Gainesville.

Undergraduate Preparation

The College of Dentistry seeks students of the highest caliber for its many programs. A strong record of scholastic achievement, high moral character and strong motivation is expected of the applicant. Because of the vast amount of science that must be mastered by the dentist, a dental student must have aptitude and adequate academic preparation in the sciences. The highly personal relationship between patient and dentist places the latter in a position of trust, which demands maturity, integrity, intellectual honesty and responsibility.

Preprofessional students can major in any department or college of the university; however, an in-depth background in biological sciences is necessary to master the dental curriculum. The Pre-Health Advising Team in the UF Academic Advising Center offers information and resources to help students prepare for admission to a professional program in dentistry.
More Info (https://www.advising.ufl.edu/pre-health)

General education requirements for admission to the College of Dentistry are fully described in the dentistry catalog. Registration in dentistry (DEN) courses is restricted to students admitted to the College of Dentistry with 0DN to 8DN classifications.

The application process (http://admissions.dental.ufl.edu/d-m-d/ufcd-requirements/applicants) is described on the college website or you can email (DMDAdmissions@dental.ufl.edu) the admissions office.

Programs

Doctoral Program in General Dentistry

The **Doctor of Dental Medicine (D.M.D.)** program is a four-year doctorate program in general dentistry.

Combined Program for Undergraduate Students

The combined **B.S./D.M.D.** program allows the student to complete both the B.S. and D.M.D degrees in seven years instead of eight. Students submit applications at the conclusion of their freshman year at UF. Accepted students enroll in a carefully sequenced series of courses

that meet both baccalaureate degree requirements and the College of Dentistry's admissions requirements. The student completes three years of undergraduate work before transferring to the first year of dental school. The B.S. degree is awarded at the end of the first year of dental school. This program is jointly offered with the College of Agricultural and Life Sciences.

Combined Programs for Dental Students

The College of Dentistry offers an integrated dental and graduate research training program culminating in the awarding of both a D.M.D. and a Ph.D. in Biomedical Sciences. The joint **D.M.D./Ph.D.** program is offered in collaboration with the College of Medicine Interdisciplinary Program in Biomedical Sciences and prepares students for a career in the dental academic setting using skills acquired in clinical practice and clinical education as well as basic and/or translational research. This program will typically take 7-8 years to complete.

The College of Dentistry offers joint **D.M.D./M.P.H.** program, which is open to current D.M.D. students who are interested in receiving graduate training in the science, principles, and practice of public health. This program is offered collaboratively by the College of Dentistry and the College of Public Health and Health Professions. Under the joint degree program, a student can obtain both degrees in approximately one year less than it would take to obtain them if pursued consecutively. This program will add about one academic year to the time required to complete the D.M.D. degree.

Advanced and Graduate Programs

The College of Dentistry also offers four **Master of Science in Dental Science (M.S.)** degree programs as well as several Advanced Education Programs resulting in certificates of completion.

In conjunction with the College of Medicine, the College of Dentistry offers a six-year program that awards an **M.D. degree and a certificate of completion in Oral and Maxillofacial Surgery**.

Oral Biology Specialization

The college's Department of Oral Biology, in conjunction with the College of Medicine, offers a program leading to a **Ph.D. in medical sciences with a specialization in oral biology**.

DMD Program Highlights

Established in 1972, the University of Florida College of Dentistry is the only publicly-funded dental school in the state and ranks as a national leader in dental education, research and community service.

- Exceptional boards pass rate (https://admissions.dental.ufl.edu/d-m-d/why-ufcd/d-m-d-highlights)
- Top 10 nationally-ranked research enterprise (https://admissions.dental.ufl.edu/d-m-d/why-ufcd/d-m-d-highlights)
- Statewide network of clinics (https://admissions.dental.ufl.edu/d-m-d/why-ufcd/d-m-d-highlights)

Fredric G. Levin College of Law

A renowned faculty, comprehensive Juris Doctor curriculum, certificate programs, innovative centers and institutes, expanding global curriculum and competitive tuition make the University of Florida's Fredric G. Levin College of Law the first choice for many students who desire a law degree.

More Info (http://www.law.ufl.edu)

Since its establishment in 1909, the College of Law has been educating leaders in law, business, education and government. The college is accredited by the American Bar Association and is a member of the Association of American Law Schools. Enrollment is approximately 1000, including about 100 students in the Graduate Tax and Comparative Law programs.

The college is housed in Holland and Bruton-Geer halls and is named for alumnus Fredric G. Levin of Pensacola, a prominent trial lawyer who made possible a $20 million endowment to support excellence in legal education, which provided for construction on an expanded law library, the Lawton Chiles Legal Information Center, and two new classroom towers which were completed in 2005. As a result of this construction, the college has one of the largest academic law libraries in the southeastern United States, housing more than 609,000 volumes and extensive computer and audio-visual resources in a new, state-of-the-art facility.

The college's curricular strengths include tax law, business law, estates and trusts, environmental law, dispute resolution, international law, intellectual property law, criminal law, family and children's law and an emphasis in developing the highest standards of professional conduct. After completing first-year requirements, students can tailor their course load to fit their interests and career plans. The three-year curriculum develops students' analytical ability, knowledge of the theory and practice of law, communications skills, and understanding of the codes of professional responsibility and ethics central to the practice of law.

Students experience a variety of teaching methods, including the traditional case and Socratic methods, as well as the problem method, simulations, role-playing, videotaping, computer-assisted instruction and interaction with actual clients. Because Florida is home to many prominent and skilled attorneys and judges, a number are actively involved in teaching and practical skills training of UF law students. Additionally, because writing skills are critical to success in the legal profession, these skills are also developed through required courses and a nationally acclaimed legal drafting program.

Through programs offered on campus and abroad, students gain international experience for the competitive job market. Dozens of co-curricular and extracurricular organizations support a rich and diverse student life, and through programs offered on campus and abroad, students gain international experience for the competitive job market.

Academic Policies

Admission

More Info (http://www.law.ufl.edu/admissions)

Admission to the College of Law is determined by the applicant's potential for success in law school, the legal profession and other law-related careers. An applicant's credentials are measured against others applying to the same class.

Applicants must hold a bachelor's degree from a qualified institution and have an acceptable grade point average and a satisfactory score on the Law School Admission Test (LSAT). The median LSAT score and undergraduate grade point average for the most recent entering class is 158 and 3.50 (4.00 scale), respectively.

Financial Aid

More Info (http://www.law.ufl.edu/students/financial)

Financial aid for law study is available through the College of Law and federal sources. The law school offers a number of merit-based scholarships and merit/need- based scholarships and grants.

Financial Aid Office

Programs of Study

More Info (http://www.law.ufl.edu/programs)

Pre-Law

The best pre-law program is a diversified course of study. Beginning law students are expected to possess effective written and oral communication skills as well as critical thinking abilities.

For specific information about pre-law study, law school and the legal profession, refer to the *Official Guide to U.S. Law Schools, which can* be ordered from Law Services during LSAT registration, purchased at most bookstores or accessed from the Law School Admission Council (http://www.lsac.org).

Joint Degrees

More Info (http://www.law.ufl.edu/academics/academic-programs/joint-degree-programs/degrees-offered)

The Fredric G. Levin College of Law offers a joint-degree program that sets the standard among top-tier public law schools for its flexibility, coverage of study areas, high academic reputation and overall value. Qualified students combine legal studies with graduate coursework in another college to earn two degrees at the same time. Among the most popular are J.D./Accounting, J.D./MBA, J.D./Mass Communications.

Candidates must take the LSAT and the GRE, MCAT or GMAT, and gain admission separately to the College of Law and the Graduate School. Application deadlines vary; refer to law school admissions (http://www.law.ufl.edu/admissions) and graduate admissions (http://www.admissions.ufl.edu/prospectivegraduate.html).

Certificate Programs

Specialization is a growing trend in today's complex legal environment, and graduates with knowledge in specific practice areas are in high demand. UF Law offers interested students the opportunity to develop expertise and marketability by earning a certificate in criminal justice, environmental and land use law, estates and trusts practice, family law, intellectual property law or international and comparative law.

Graduate Taxation Program

The graduate taxation program, which offers the LL.M. in Taxation, LL.M. in International Taxation and S.J.D. in Taxation, is widely and consistently regarded as one of the nation's top programs. The environmental law program, also highly rated, offers the nation's first LL.M. in the closely-related fields of environmental and land use law. The college's strong international programs and LL.M. in Comparative Law for foreign lawyers expand the school's curriculum and strengthen its ties with legal entities and scholars around the globe.

Clinics, Centers, and Institutes

Clinical programs, including Virgil Hawkins Civil Clinics and Criminal Clinics, allow students to represent clients within an academic framework with a substantial classroom component. Students also can take advantage of such practical experience programs as *pro bono* work for organizations and government agencies, summer internships and externships.

Multiple centers and institutes offer students unique, real-world perspectives and work experiences. At the same time they are partnering with legal firms and other institutions throughout the country and world to help shape the legal profession. The centers include the:

- Center for Governmental Responsibility,
- Center for the Study of Race and Race Relations,
- Center on Children and Families,
- Center for Estate and Elder Law Planning,
- Criminal Justice Center,
- Center for International Financial Crimes Studies and the
- Institute for Dispute Resolution.

College of Medicine

The College of Medicine, a unit of the Health Science Center, began operations in 1956 and is located on the south end of campus. This location, in direct proximity to university facilities, offers many opportunities to utilize and complement resources of the university in the educational and investigative programs of the college.

More Info (http://www.med.ufl.edu)

The College of Medicine is responsible for several major educational programs. Foremost is the four-year program leading to the M.D. degree. The average class size is 130. After graduation, physicians enter a residency program. The college offers an interdisciplinary graduate program (IDP) in biomedical sciences leading to the Ph.D. in medical sciences with specialization in the following concentrations:

- biochemistry and molecular biology,
- genetics,
- immunology and microbiology,
- neuroscience,
- molecular cell biology, and
- physiology and pharmacology.

Joint programs exist with the colleges of Agricultural and Life Sciences, Education, Engineering, Liberal Arts and Sciences and the other colleges of the Health Science Center. Also, computational and statistical services are available through university resources and facilities.

Further training is offered through positions for postdoctoral research fellowships in all basic science and clinical departments. The clinical departments conduct frequent seminars as part of a continuing education program for practicing physicians. In addition, some of the clinical departments have assumed responsibility for community medicine programs in communities surrounding Gainesville.

The faculty is dedicated to a teaching program of high quality. The design of the four-year curriculum encourages a close faculty-student relationship. The educational program is structured to enable the graduate to choose any career in medicine. Therefore, emphasis is placed on fundamental biological principles and their relevance to the practice of medicine.

Teaching Hospitals

The primary teaching hospital for the College of Medicine is Shands at the University of Florida, a modern tertiary care facility that is part of the Health Science Center complex. Shands at UF is one of several hospitals owned and operated by Shands HealthCare, a not-for-profit system affiliated with the University of Florida. The College of Medicine also has faculty, students and residents who provide patient care, teaching and clinical trial research at the Veterans Administration Medical Center located across the street from the Health Science Center campus.

Students also receive experience at Shands Jacksonville, approximately 70 miles from Gainesville. Shands Jacksonville has a 760-bed facility with more than 250 faculty. In addition, there are more than 60 owned or affiliated outpatient or community practice sites for educational experiences.

Detailed information will be found in the College of Medicine Catalog (http://www.med.ufl.edu/oea/osa/catalogue.shtml).

Undergraduate Preparation

Students intending to apply for admission to the College of Medicine must complete the requirements for a bachelor's degree. Preprofessional students at the University of Florida may major in a program offered by any department or college in the university. The Office of Health and Legal Professions Advising offers a variety of resources, including the university's Preprofessional Handbook.

An applicant to the College of Medicine must have personal qualities of the highest order: character, integrity, intellectual honesty, responsibility, maturity, initiative and aptitude. In addition, students must demonstrate superior academic achievement during undergraduate work and complete the Medical College Aptitude Test (MCAT). Substantial extracurricular activities, especially in service and health care, are expected. Admission information and brochures (http://www.med.ufl.edu/oea/admiss/site/Regular.shtml) are available from the College of Medicine, the Office of Admissions' preprofessional admissions section and Health and Legal Professions Advising.

Joint Degree Programs

A junior honors medical program (http://jhmp.med.ufl.edu) exists for undergraduate students who have chosen a career in the medical profession and who have demonstrated both superior scholastic ability and personal development during their first two college years. Students are chosen for the program at the end of their sophomore year. The third year consists of two-thirds undergraduate courses and one-third College of Medicine courses. The latter are offered in a seminar form. The fourth year consists of first-year courses in the College of Medicine.

The program is limited to 12 students per year in order to retain the discussion seminar format. Preference is given to Florida residents. The College of Liberal Arts and Sciences grants academic credit for all of the third-year work and part of the fourth-year work. A participating student receives a B.S. degree after completing the first year of medical school.

The College of Agricultural and Life Sciences also participates in this program through their food science and human nutrition major (nutrition specialization) and provides information regarding completion of the degree in that college.

The College of Medicine graduate education program offers several M.S. and joint degree programs with other colleges. A joint degree program is a credit-sharing arrangement that allows qualified students to combine their medical science background with other professional or graduate work, resulting in earning two degrees in a reduced amount of time. More Info (https://admissions.med.ufl.edu/admission-requirements/dual-degrees)

Unusually gifted students may enter a **combined M.D./Ph.D. program** that offers an opportunity for integrating clinical experience with competence in basic biomedical research. This program reflects the increasing dependence of the practice of medicine on scientific advances in the biological sciences and seeks to produce clinician scientists.

The College of Medicine, in conjunction with the Warrington College of Business and the Fredric G. Levin College of Law, offers programs leading to the **M.D./M.B.A.** and the **M.D./J.D.** degrees. A complete description of these programs is available in the College of Medicine Admissions Office. The college also offers a joint **M.D/M.P.H** degree and a two-year **Master of Physician Assistant Studies**.

College of Pharmacy

The oldest college in the UF Health Science Center, the College of Pharmacy was established in 1923. Today the college is ranked among the top colleges and schools of pharmacy in the nation. In keeping with the University of Florida mission, the college is dedicated to excellence in

pharmacy research, service, and educational programs enhanced through online technologies.

Scholarships and Financial Aid

The College of Pharmacy offers financial aid to admitted pharmacy students through a variety of sponsors, including a Jack Eckerd Endowment and a Charlotte Liberty Family endowment. Other sponsors include pharmaceutical companies, pharmacy organizations and the pharmacy alumni association. A list of scholarships and financial aid (http://pharmacy.ufl.edu/education/student-affairs/financial-aid) is available in the college's website.

Computer Requirement

Pharmacy students must have a laptop computer (http://pharmacy.ufl.edu/education/student-affairs/admissions/student-computer-requirements).

Internships/ Career Guidance

Clinical experiences in the introductory and advanced pharmacy practice phases of the Pharm.D. curriculum meet internship requirements for licensure in the state of Florida. Career information (http://pharmacy.ufl.edu/education/student-affairs/careers-in-pharmacy) is available through the Office for Student Affairs.

Student Organizations

The College of Pharmacy has student councils that serve as liaisons for student organizations on all four campus sites. Professional student organizations include:

- the Academy of Student Pharmacists,
- the Student Chapter of the National Pharmacy Association,
- the Student Chapter of the American Society of Consultant Pharmacists,
- the Student Chapter of the Florida Society of Health System Pharmacists,
- the Student Chapter of the National Association of Community Pharmacists,
- the Student Chapter of the Academy of Managed Care Pharmacy and
- the Student Chapter of the American College of Clinical Pharmacists.

Campus Sites for the Doctor of Pharmacy Program

The College of Pharmacy's four campus sites in Florida provide the education necessary for students to meet requirements for the Doctor of Pharmacy degree. The Gainesville campus presently admits 115 students, the Orlando campus admits 70 students and the Jacksonville and St. Petersburg campuses each admit 55-58 students in the first professional year.

The Doctor of Pharmacy curriculum is delivered (http://pharmacy.ufl.edu/files/2012/05/Pedagogical-Approach2.pdf) to students in the distance education programs via streaming video of pharmacy lectures. Students receive these lectures within several hours of the presentation. Students in distance education programs must meet several times per week during the semester to review integrated case studies, present projects, participate in question and answer sessions, and review lecture material before examinations. Not all pharmacy courses are videotaped; thus, students at all four campuses must attend selected courses.

All students take examinations at the same time, usually in the late afternoons and early evenings on designated days. All students receive the same curriculum, take the same examinations and complete the same degree requirements. Pharmacy students in the distance education program interact with faculty facilitators at the campus site, and they communicate with course coordinators and individual lecturers through

email and electronic discussion sessions on their computers. Each campus site has an assistant dean, an assistant director, a full-time faculty member, a coordinator of student affairs, staff and faculty facilitators. Large and small classrooms, computer labs, library and administrative offices are available at each campus site as well.

Academic Policies

Admission to Professional Pharmacy Programs

The professional programs in pharmacy are divided into two phases: preprofessional curriculum and professional curriculum. While the requirements of the preprofessional phase can be completed at any accredited four-year institution or public/state college before entering the College of Pharmacy, students choosing to matriculate at a college other than the University of Florida for pharmacy studies should make certain they can fulfill all admission requirements.

Admission to this college is selective and the college is unable to guarantee admission to every candidate who meets minimum requirements. Through the admissions committee, the college annually selects eligible applicants to begin studies in August. Specific requirements are listed below.

The deadline for submitting all application materials is the beginning of March for each fall semester. Application, transcripts and PCAT score(s) must be submitted to the Pharmacy College Application Service (PharmCAS (http://www.pharmcas.org)), a centralized application service. Additional application materials, including personal profile/campus preference form and university application, must be submitted online. Interviews of competitive candidates are required as part of the application evaluation process.

All applicants to the professional program are required to take the Pharmacy College Admission Test (PCAT). Requests for information should be directed to Pharmacy College Admission Test, 1.800.622.3231.

Examinations are held in July, September, with limited seating in October, November and January for admission in August of the following year. Students taking the PCAT should request that their scores be sent to PharmCAS by using code 104.

The test may be taken more than once. The admissions committee will view all scores and give consideration to the set of scores with the highest percentile composite.

Academic Advising

Students who are considering a major in pharmacy should contact the Office for Student Affairs (http://pharmacy.ufl.edu/education/student-affairs) in the College of Pharmacy for advice, literature (P.O. Box 100495, G205A HPNP Building, Gainesville, FL 32610-0495; 352.273.6400) and program information (http://pharmacy.ufl.edu/education/doctor-of-pharmacy-degree-pharmd).

Critical-Tracking Criteria

The universal-tracking program provides accurate academic advising in an appropriate timeframe. The college has designated particular criteria that must be completed each semester to progress satisfactorily toward a degree in pharmacy. Students may elect a three-year program that requires declaration of a science major in a UF college.

Students should use the preprofessional sequence to satisfy general education requirements. All preprofessional courses must be completed before beginning the professional curriculum.

University of Florida Students

Students at the University of Florida who are interested in applying to this college may declare a pre-pharmacy major as freshmen and sophomores and complete the preprofessional courses. Students can complete the preprofessional coursework within two calendar years and will be monitored by the college through the critical-tracking program. Students who wish to take three or more years to complete the preprofessional coursework must declare a major other than pre-pharmacy in the third year.

Students may also complete preprofessional courses within other majors such as biology, chemistry, microbiology and cell science and nutritional sciences.

Students interested in pharmacy should complete general education and writing requirements before beginning the professional curriculum. Transfer students must also receive an Associate of Arts degree prior to beginning the professional program.

Recommended Course Sequences

- General chemistry, biology and calculus should be completed in the first year because they are on the PCAT.
- Completion of one semester of organic chemistry, or currently taking organic chemistry, is also recommended preparation for the PCAT.
- Organic chemistry, physics, public speaking and anatomy and physiology should be completed in the second year.
- Biochemistry and microbiology should be taken after completion of organic chemistry and biology.
- All applicants must have completed two sequential courses of foreign language in secondary school or 8-10 credits at the post-secondary level, or document an equivalent level of proficiency.
- Transfer students must complete an Associate of Arts (A.A.) degree prior to beginning the professional program. Students who are transferring from schools that do not offer an A.A. degree must meet UF's general education requirements.
- Students may take online courses to satisfy preprofessional coursework. The Admissions Committee prefers that students complete science courses with laboratories in actual classes and labs.

Admission Decisions

Students must meet the admission requirements of the University of Florida and the College of Pharmacy. The College of Pharmacy Admissions Committee reviews completed applications and makes decision for admission, denial and alternate list. In addition, the admissions committee designates the campus site for admitted students based on the students' preferences for campus sites and personal circumstances. Students should rank their preferences for the four campuses (Gainesville, Jacksonville, Orlando and St. Petersburg). The admissions committee notifies students by email after they have made a decision. Students have two weeks from the date of receipt to notify the Office for Student Affairs if they accept or reject the invitation for admission.

Postbaccalaureate Admission

Students with baccalaureate degrees in majors other than pharmacy may be admitted by the Pharmacy Admissions Committee to the professional degree program when the necessary preprofessional courses and application requirements are complete.

Special Requirements and Information

More Info (http://file.cop.ufl.edu/studaff/requirements/DATA_COLLECTION_ALL_PD_YEARS_WEB_VERSION.pdf)

Students must meet specific requirements prior to enrollment. All pharmacy students must be certified in cardiopulmonary resuscitation (CPR) for both adult and child through the American Heart Association. The CPR certification must be kept current during all pharmacy studies.

Students must also complete a criminal background check the summer before fall semester enrollment in the Pharm.D. curriculum. Conditional admission can be rescinded based on results of the criminal background check as well as failure to comply with any conditions for admission. Another criminal background check and other pre-clinical requirements must be satisfied prior to entry into hospitals for clinical training.

These background checks include and are not limited to the following:

- social security number verification
- employment record check
- exclusion list check at state and national levels
- HIPAA certification

Drug screens also may be required before access to clinical training sites. Blood titers against measles, mumps, rubella, hepatitis and varicella may be required by selected hospitals. Immunizations must be updated as required. A physical examination is required to enter introductory and advanced pharmacy practice experience courses in the curriculum.

Health Policies

All students must document their immunization status before matriculation to the College of Pharmacy. Students must indicate their history of acquired or natural immunity to the following diseases: measles, mumps, rubella, varicella, pertussis, diphtheria and tetanus. Vaccination annually against the influenza virus is required.

All students must show proof of a recent (within the past six months) tuberculosis skin test (PPD or Tine test), a diphtheria-tetanus-pertussis vaccination (within the past 10 years) and a measles-mumps-rubella vaccination (if natural immunity is absent).

Admitted students must complete the three vaccinations against the Hepatitis B virus by April 1 of the first professional year. The expense for all immunizations and TB skin tests is the student's responsibility.

Prior to entering Advanced Pharmacy Practice Experience (APPE), students must file results of a recent two-step TB skin test with the Office for Student Affairs. A TB skin test also is required at the completion of the APPE. The results of this test must be supplied to the Office for Student Affairs to meet certification requirements for graduation. Students may petition for exemption from immunizations and TB skin tests.

Insurance

Health insurance is required while enrolled in the college. Cost for this insurance is assumed by the student. Students also must obtain malpractice insurance.

Dean's List

More Info (http://pharmacy.ufl.edu/education/student-affairs/academics/deans-honor-roll)

The Dean's List recognizes outstanding academic achievement each semester. Grades of U, I* or N* will not be considered, regardless of the computed grade point average. Students must achieve at least 3.5 GPA in the semester with a minimum of 12 credits.

Graduation with Honors

More Info (http://pharmacy.ufl.edu/education/student-affairs/academics/academic-honors-requirements)

The university offers three levels of honors at graduation: cum laude, magna cum laude and summa cum laude. The honors information provided in the table is brief, and students should check with an advisor for complete details.

Degree Requirements

Professional Curriculum for the Doctor of Pharmacy

Details about the coursework required for the Doctor of Pharmacy (http://pharmacy.ufl.edu/education/student-affairs/doctor-of-pharmacy-curriculum) as well as the policies, procedures and admissions requirements are available on the college website.

Course requirements for the Doctor of Pharmacy include:

- the general education requirements,
- pharmacy prerequisites and
- four years of professional preparation.

Courses in the professional curriculum (http://pharmacy.ufl.edu/education/student-affairs/academics/class-schedules-and-registration) are periodically revised to meet pharmacy education standards.

Changes in course descriptions, credits and sequence may require modification due to availability of resources and facilities as well as changes in accreditation standards and actions by the college's curriculum committee. Any change in the curriculum will be noted in pharmacy brochures and on the website. Current information is also available from the college's Office for Student Affairs.

Graduate Programs

More Info (http://pharmacy.ufl.edu/education/online-ms-programs)

For information on graduate degrees in the pharmaceutical sciences, refer to the Graduate Catalog and consult:
Dean's Office, College of Pharmacy
P. O. Box 100484, HPNP Building
University of Florida
Gainesville, FL 32610-0484
352.273.6301

Doctor of Pharmacy/Master of Business Administration

This program allows students interested in management positions in pharmacy to obtain the two degrees concurrently. The program is five years of professional studies after completion of two years of preprofessional courses. Candidates must meet admission requirements for the M.B.A. program after admission to the College of Pharmacy. This concurrent program is not open to students who already have earned one of the degrees. Students must satisfy curriculum requirements for both degrees.

Doctor of Pharmacy/Master of Public Health

More Info (http://file.cop.ufl.edu/studaff/joint_degrees/mph.pdf)

This program allows students interested in public health as an aspect of pharmaceutical care to obtain the two degrees concurrently. The program is five years of professional studies after completion of two years of pre-pharmacy courses. Candidates must meet admission requirements for the M.P.H. program after admission to the College of Pharmacy. This concurrent program is not open to students who already have earned one of the degrees. Students must satisfy curriculum requirements for both degrees.

Doctor of Pharmacy/Doctor of Philosophy in Pharmaceutical Sciences

More Info (http://pharmacy.ufl.edu/files/2010/05/PharmDPhD.pdf)

This program allows students interested in accelerated graduate studies in pharmacy to obtain the two degrees consecutively. The program is four years of professional studies and three to four years of graduate studies after completion of two years of pre-professional courses. Candidates must meet admission requirements of the Graduate School and the College of Pharmacy. This program is not open to students who already have earned one of the degrees. Students must satisfy curriculum requirements for both degrees.

Doctor of Pharmacy/Juris Doctorate

This program allows students interested in law as an integral component of their career path to obtain two degrees in a shorter time frame. The program is a minimum of six years of professional studies after completion of two years of pre-professional coursework. Candidates must meet admission requirements for the Juris Doctorate through the Levin College of Law and the Doctor of Pharmacy degree through the College of Pharmacy. This program is not open to students who already have earned one of the degrees. Students must satisfy curriculum requirements for both degrees.

Programs

Preprofessional Course Requirements for the Doctor of Pharmacy

Read the sections describing general education requirements. Preprofessional pharmacy students are expected to fulfill these requirements.

Course requirements for the Doctor of Pharmacy include the preprofessional curriculum and four years of professional preparation. Courses in the professional curricula are revised periodically to meet pharmacy education standards.

All Doctor of Pharmacy students complete required courses and elective requirements for a total of 146 credits for the professional curriculum (http://pharmacy.ufl.edu/education/student-affairs/academics/class-schedules-and-registration) and 77-79 credits in the preprofessional program.

- Pharmacy | Preprofessional

Pharmacy | Preprofessional

Course requirements for the Doctor of Pharmacy include the preprofessional curriculum and four years of professional preparation. Courses in the professional curricula are revised periodically to meet pharmacy education standards. Current information on the curriculum can be obtained from the Office for Student Affairs in the College of Pharmacy.

About this Program

- **College:** Pharmacy
- **Degree:** Doctor of Pharmacy | *After completion of professional courses*
- **Credits for Degree:** 63-66 in the preprofessional curriculum | 146 in the professional curriculum
- **Additional Information**

To graduate with this major, students must complete all university, college, and major requirements.

All Doctor of Pharmacy students complete required courses and elective requirements of 63-66 credits in the preprofessional program and 146 total credits in the professional curriculum.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=512001&track=01) may be used for transfer students.

Semester 1

- Complete CHM 2045/CHM 2045L

Semester 2

- Complete 3 additional courses of the remaining 10 critical-tracking courses, including labs: APK 2100C or ZOO 3713C, APK 2105C or PCB 4723C, BSC 2010/BSC 2010L, BSC 2011/BSC 2011L, CHM 2210, CHM 2211/CHM 2211L, CHM 2046/CHM 2046L, MAC 2311, MCB 3020, STA 2023
- 3.0 GPA or higher preferred for all science courses

Semester 3

- Complete 4 additional courses of the remaining 10 critical-tracking courses, including labs (2 of the courses must be CHM 2210, and APK 2100C or ZOO 3713C)
- 3.0 GPA or higher preferred for all science courses

Semester 4

- Complete all 11 critical-tracking courses, including labs
- Satisfactory score on the PCAT test
- Complete the personal profile essay/campus preference form, letters of recommendation, PharmCAS application and the UF application by February 1
- Approval of college admission committee
- 3.0 GPA or higher preferred for all science courses

Semester 5

- 3.0 GPA or higher preferred for all science courses

Model Semester Plan

Semester one below may not be the first semester at the university. Semester one refers to the first semester of preprofessional science and mathematics courses. Students who already have satisfied the criteria for a particular semester will be assigned a semester to begin the tracking program.

Critical-tracking courses should be completed in the semester indicated.

Students are required to complete IDS 1161 in semester 1 or 2. Students admitted to pharmacy school must complete BCH 4024 before enrollment.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory 1 (**Critical Tracking**; Gen Ed Biological Sciences) [1]	4
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry 1 Laboratory (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences) [1]	4
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics) [1]	4
State Core Gen Ed Composition (p. 23); Writing Requirement		3
	Credits	15
Semester Two		
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2 (**Critical Tracking**; Gen Ed Biological Sciences) [1]	4
CHM 2046	General Chemistry 2 (**Critical Tracking**; Gen Ed Physical Sciences) [1]	3
CHM 2046L	General Chemistry 2 Laboratory (**Critical Tracking**; Gen Ed Physical Sciences)	1
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
STA 2023	Introduction to Statistics 1 (**Critical Tracking**; Gen Ed Mathematics) [1]	3
	Credits	14

Semester Three		
Anatomy		4
APK 2100C or ZOO 3713C	Applied Human Anatomy with Laboratory (**Critical Tracking**) [1] or Functional Vertebrate Anatomy	
CHM 2210	Organic Chemistry 1 (**Critical Tracking**) [1]	3
Gen Ed Composition; Writing Requirement		3
State Core Gen Ed Social and Behavioral Sciences and Diversity (p. 23); Writing Requirement [2]		3
Gen Ed Social and Behavioral Sciences [2]		3-4
ECO 2013 or ECO 2023	Principles of Macroeconomics (Gen Ed Social and Behavioral Sciences) or Principles of Microeconomics	
	Credits	16-17
Semester Four		
Physiology		4-5
APK 2105C or PCB 4723C	Applied Human Physiology with Laboratory (**Critical Tracking**) [1] or Physiology and Molecular Biology of Animals	
CHM 2211	Organic Chemistry 2 (**Critical Tracking**)	3
CHM 2211L	Organic Chemistry Laboratory (**Critical Tracking**) [1]	2
MCB 3020	Basic Biology of Microorganisms (**Critical Tracking**; can be taken in the summer semester) [1]	3
State Core Gen Ed Humanities with International (p. 23); Writing Requirement [3]		3
	Credits	15-16
Summer After Semester Four		
Select one:		3-4
BCH 3025	Fundamentals of Biochemistry [1]	
BCH 4024	Introduction to Biochemistry and Molecular Biology	
	Credits	3-4
	Total Credits	63-66

1 Preprofessional courses.

2 Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another Gen Ed requirement (typically, GE-H or S).

3 Can be taken in prior spring semester.

College of Veterinary Medicine

The College of Veterinary Medicine was authorized by the Florida Legislature in 1965 and opened its doors to students in 1976. Florida's College of Veterinary Medicine is concerned with the total health of all members of the animal kingdom, including man.

Contact

Gainesville, FL 32610-0125

Modern veterinarians serve the needs of the public in many significant ways:

- Prevention of disease in animals and humans
- Enhancement of animal agriculture and wildlife management
- Humane health care of animals
- Research on diseases of animals
- Provision of wholesome food

To answer these challenges, the goals of the College of Veterinary Medicine are to:

- Educate veterinarians for Florida's specific needs.
- Perform research on metabolic and infectious diseases of animals. These investigations will provide new knowledge concerning diseases of domestic animals, will assist in the control of devastating subtropical diseases that must be controlled to provide wholesome food for our nation and developing countries, and will provide insight into human diseases for which animal models exist.
- Provide a veterinary medical center necessary for training interns, residents and graduate students, and for the continuing education of practitioners.

- Provide a resource for dissemination of current information to veterinary practitioners, state and federal agricultural and public health agencies, and consumers of food and health services.
- Serve as a center where veterinary practitioners can consult with specialists and where animal patients can be referred for sophisticated diagnostic procedures. This will provide a service to practitioners and afford veterinary students access to more cases and a greater variety of disease entities.

Curriculum

Veterinary students participate in the professional degree program leading to the Doctor of Veterinary Medicine (D.V.M.), which requires 150 semester credits for graduation. Students with a cumulative grade point average (GPA) of 3.50 or above may graduate *cum laude*. A cumulative GPA of 3.75 or above is required for *magna cum laude* recognition.

The professional curriculum provides a nine-semester program consisting of core didactic classes and clinical clerkship experiences. Three phases of study within the veterinary medical curriculum are based conceptually on:

- the study of the normal animal (Phase I),
- the study of disease processes and therapy (Phase II), and
- clinical applications (Phase III).

Phases I and II are organized on an organ system basis; each system is considered in turn, an approach that lends itself to the concept of comparative medicine. Phase I occupies the first two semesters of the curriculum; Phase II the second two semesters. During Phase III (semesters 5-9) the student enters rotations through the required clerkships and elective areas of concentration.
More Info (http://education.vetmed.ufl.edu/admissions/curriculum)

Undergraduate Preparation

Students intending to apply for admission to the College of Veterinary Medicine should plan to complete a bachelor's degree. However, outstanding students may be admitted after three years of preprofessional coursework.

Sequencing of preprofessional coursework should be planned carefully, preferably under the guidance of preprofessional advisors. The Office for Academic and Student Affairs welcomes inquiries of a general nature, but semester-by-semester course scheduling should be monitored by the college offering the bachelor's degree.

Pre-veterinary students may major in a program offered by any department or college but must complete the preprofessional requirements. Applicants to the professional curriculum must present a minimum of 80 credits of college-level coursework, exclusive of physical education and military training courses.

Credit for Advanced International Certificate of Education (AICE), Advanced Placement (AP), International Baccalaureate (IB) or College Level Examination Programs (CLEP) is acceptable at the level identified in the academic advising section of this catalog.

Admission

Student selection for the College of Veterinary Medicine will be made by the dean based on recommendation of the College Admissions Committee using the following criteria as the basis for selection:

- Residency
- Academic Performance
- Animal and Veterinary Experience
- Evaluation Forms and References
- Extracurricular Activities
- Communicative Skills
- Candidate interview
- Competitiveness of the Applicant Pool

When to Apply

The College of Veterinary Medicine is a participant in the Veterinary Medical College Application Service (VMCAS). Applications are available in May via VMCAS. In addition to completing the VMCAS application, applicants must also complete and submit a required UF vet med professional application.
More Info (http://education.vetmed.ufl.edu/admissions/application)

This secondary application is used to determine residency for tuition purposes. The completed secondary application must be received by the submission deadline of the VMCAS application. Admission is granted only for the fall semester of each school year and only on a full-time basis.

Academic Advising

Each major has an undergraduate coordinator and faculty and staff advisors. Students see advisors in their majors for academic advising.
More Info (http://cals.ufl.edu/students/undergraduate-majors-contacts.php)

Internships and Career Guidance

The college's director of Alumni and Career Services assists students with interview preparation and job search resources. The college also sponsors CALS Career Expo in February.

Scholarships

The college provides nearly $400,000 annually in undergraduate scholarships. Applications are available in December. College scholarship applications are typically due on or before March 15 of each year. For more information, contact the college dean's office. Many departments also offer undergraduate scholarships.

Academic Policies

Admission | Freshmen

First-semester freshmen at the university will be admitted to the college when they declare a major. Students can remain in that major as long as they continue to meet or to exceed the critical-tracking criteria for the major. Students who fall below the minimum critical-tracking criteria or who fall below the minimum progression standards will not be allowed to continue in the major. These students must meet with an academic advisor to determine an alternative major.

Admission | Non-Freshmen

All UF students other than first-semester freshmen must apply to a major in this college. Students should first meet with an advisor in their major of interest. Unless otherwise specified by particular majors, students will be admitted to the major if they meet or exceed the critical-tracking criteria.

Readmission to the College

CALS students who have been dismissed from the university for poor academic performance can petition UF and the college for readmission after one semester.

Transfer Students

A transfer student from a Florida public college must have an Associate of Arts degree (or 60 credits for students transferring from private institutions, four-year institutions or institutions outside of Florida) and satisfy the admission requirements for the intended major to be eligible for admission to the college. Prospective transfer students should consult the College of Agricultural and Life Sciences Transfer Guide to ensure completion of the required courses for admission to the college and the major of interest.
More Info (https://cals.ufl.edu/content/PDF/Transfer_Guide.pdf)

Detailed information on transfer admission and university admission requirements is available from the Office of Admissions.
More Info (p. 15)

Transfer students from other universities and non-Florida public colleges should complete the first two years' requirements for the major before transferring to UF and to this college.

Student Responsibility

Students are expected to assume full academic responsibility for registering for and completing the proper courses and for fulfilling all requirements for the degree. Students should consult their advisors before registering for each semester to ensure that appropriate courses are taken in the proper sequence. Students who do not enroll in appropriate courses may not be allowed to register for the following term.

College Probation

A student whose overall grade point average falls below 2.0 is placed on college probation. The associate dean will notify the student that they are on probation and must remove all deficit points in two semesters or face college suspension.

During college suspension a student cannot register as a College of Agricultural and Life Sciences student.

College Retention Program

The college works individually with students on college probation to provide them an opportunity for academic success at the university. The retention program identifies obstacles that could prevent academic success, provides structure and mechanisms for success and connects students to administrators, faculty and staff who are committed to helping them.

Critical-Tracking Criteria

Students who do not complete the appropriate number of tracking courses each semester, and/or do not have the required tracking GPA, will have a hold placed on their record to prevent advance registration. They must meet with an advisor in their major to determine whether they may continue in that major.

Drop Policy

Students can drop courses during the drop/add period without penalty. Thereafter, courses can be dropped only by college petition in accordance

with the deadlines. Drops requiring college petition are subject to the following rules:

- After the university's drop deadline, students must first meet with an academic advisor in their major and then submit a petition to the college office.
- Students who withdraw from UF (drop all courses) must go to the Dean of Students Office, 202 Peabody Hall, to meet with an advisor.

General Education

Courses that satisfy general education requirements are listed by category. The courses listed represent the most expedient way to fulfill graduation requirements. However, students can satisfy degree requirements with alternative course sequences. An economics course is required for all students and this course may also meet general education requirements.

The college requires all students to complete courses in oral and written communication in addition to the general education requirements. In majors where an equivalency is permitted, students should see their advisors for approved alternative courses. When majors list specific courses, students must select courses from the list.

Internships

By prior arrangement with an advisor and with supervision, a student may receive credit for practical work experience relevant to the major. Credit is earned at the rate of one credit per month of full-time work and cannot exceed three credits in any combination of work experience. A written report must be submitted before a (S or U) grade will be issued. Academic units offering this option list the course number 4941. Minimum criteria and general guidelines are available from the undergraduate coordinator for the major.

College Honors Program

The CALS honors program is for students who have completed 60-90 credits and have a 3.75 or higher overall GPA.
More Info (http://cals.ufl.edu/students/honors-program.php)

CALS honors coursework integrates with required and elective courses in the student's chosen curriculum. To graduate as a CALS honors scholar, students must complete each requirement below and maintain a minimum upper-division GPA of 3.75.

- ALS 3923
- XXX 4915 Honors Thesis Research (3 credits)
- Two additional honors courses
- Honors thesis. Thesis projects are scholarly activities in teaching, research or extension that involve guided independent work. The student's project must have clear objectives and expected outcomes.

CALS honors coursework is identified as such on the transcript. Students who complete the program successfully are designated *CALS honors scholars* and receive a scholar's medallion and certificate.

Completion of the CALS honors program automatically qualifies students for graduation with *magna cum laude* or *summa cum laude* designation.

Students who are not in the CALS honors program can still graduate *magna cum laude* or *summa cum laude*, provided they have the necessary GPA and complete the honors thesis.

For additional information, contact the CALS honors program director at 352.392.1963.

Degree Requirements

A Bachelor of Science or Bachelor of Arts degree requires a minimum of 120 credits. In addition, students must have university and junior/senior-level minimum GPAs of 2.0.

Students must complete the general education and major requirements in effect at the time of their initial enrollment at UF.

Seniors must file an online application for degree with the Office of the University Registrar early in the semester in which they expect to graduate.

Graduating with Honors (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonorstext)

Residence

The College of Agricultural and Life Sciences requires completion of 60 semester credits or more of coursework at the university for award of a baccalaureate degree. Some coursework can be taken at other accredited four-year institutions with approval of the college.

The last 30 semester credits applied toward a degree must be completed in residence in the college. In special cases, the college can waive this requirement.

Students can complete six of the required 30 credits of residence work by flexible learning, but each course must be approved in advance by the undergraduate coordinator for the major and by the college. The college will not accept flexible credit unless a student has a minimum upper-division GPA of 2.0 in all work attempted in residence.

Programs

MAJORS

The college's majors encompass agricultural sciences, natural sciences, social sciences, life sciences and preprofessional studies. Programs in the college prepare students for professional studies in dentistry, law, medicine, pharmacy and veterinary medicine as well as graduate study.

- Agricultural Education and Communication
- Agricultural Operations Management
- Animal Sciences
- Biology | CALS
- Botany | CALS
- Dietetics
- Entomology and Nematology
- Environmental Management in Agriculture and Natural Resources | Interdisciplinary Studies
- Family, Youth and Community Sciences
- Food and Resource Economics

UF ONLINE MAJORS

- Environmental Management in Agriculture and Natural Resources | Interdisciplinary Studies UF Online
- Microbiology and Cell Science UF Online

Statewide Academic Programs

Recognizing the needs of nontraditional students, the university offers several Bachelor of Science degree programs at the following locations or via distance education:

- Apopka (http://mrec.ifas.ufl.edu): Plant science
- Fort Lauderdale (http://flrec.ifas.ufl.edu): Geomatics, plant science
- Milton (http://wfrec.ifas.ufl.edu): Natural resource conservation, plant science
- Plant City (http://gcrec.ifas.ufl.edu/pcc): Agricultural education and communication, geomatics, plant science
- Online: Environmental management in agriculture and natural resources (p. 133), microbiology and cell science (p. 224)

Students must first earn an A.A. degree from a Florida public college or 60 credits from another accredited institution, complete specific prerequisite courses, meet a specific GPA requirement and apply for admission to UF. After being accepted, students can pursue a Bachelor of Science without moving to Gainesville.

These students are also eligible for UF and CALS scholarships. UF faculty members teach and advise all students, and upon completion of the program requirements, UF confers the degree.

Courses in these programs are also available to the general public for continuing education.

Preprofessional Programs

Several CALS majors have specializations that help students complete the preprofessional requirements for admission to the colleges of dentistry, law, medicine, pharmacy and veterinary medicine.

- Students preparing for law careers can select any major in the college.
- Specializations in animal sciences, biology, botany, entomology and nematology, food science, microbiology and cell science, nutritional sciences, and wildlife ecology and conservation prepare students for programs in medicine, dentistry, veterinary medicine, optometry and pharmacy.
- Biology majors and nutritional sciences majors are eligible for the Junior Honors Medical Program.
- Qualified students can apply to the honors combined BS/DMD program (http://dental.ufl.edu/admissions/dmd-program/honors-combined-bs-dmd-program) in the College of Dentistry after one semester in their freshman year at UF. This program helps highly motivated students complete the bachelor's degree and D.M.D. in a shorter time than the two traditional programs. Participants major in microbiology and cell science or nutritional sciences. Both majors provide the science foundation required for dental school.

Agricultural and Natural Resource Ethics and Policy Minor

The interdisciplinary agricultural and natural resource ethics and policy minor is available to undergraduate students who wish to augment their technical training in the agricultural and natural resource-related disciplines with selected liberal arts and sciences courses and College of Agricultural and Life Sciences policy-related courses.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 15

The minor also helps to augment business, humanities, journalism or social sciences education with selected CALS courses in agricultural and natural resources issues and problems. The minor provides additional preparation for careers in education, business, law and politics.

Required Courses

Code	Title	Credits
AEB 4126	Agricultural and Natural Resource Ethics	3
Agriculture and Natural Resources electives		6
Ethics, Social, and Political Analysis electives		6
Total Credits		15

Approved Electives

Agriculture and Natural Resources Electives

Code	Title	Credits
AEB 3450	Introduction to Natural Resource and Environmental Economics [1]	3
AEB 4123	Agricultural and Natural Resource Law	3
AEB 4242	International Trade Policy in Agriculture	3
AEB 4283	International Development Policy	3
AGG 3501	Environment, Food and Society	3
ALS 3133	Agricultural and Environmental Quality	3
EES 4050	Environmental Planning and Design	3
FNR 4660	Natural Resource Policy and Economics	3
FOR 3004	Forests, Conservation and People	3
FOR 3153C	Forest Ecology	3
FOS 4731	Government Regulations and the Food Industry	2
WIS 4523	Human Dimensions of Natural Resource Conservation	3

[1] Cannot take AEB 3450 and ECP 3302 for credit towards the minor.

Ethics, Social, and Political Analysis Electives

Code	Title	Credits
ANT 4403	Environment and Cultural Behavior	3
ECP 3302	Environmental Economics and Resource Policy [1]	4
GEO 3372	Conservation of Resources	3
PHI 3650	Moral Philosophy	3
PHM 3032	Ethics and Ecology	3
PHM 3202	Political Philosophy	3
POT 2002	Introduction to Political Theory	3
POT 3503	Environmental Ethics and Politics	3

[1] Cannot take ECP 3302 and AEB 3450 for credit towards the minor.

Agricultural and Natural Resource Law Minor

The agricultural and natural resource law minor is open to undergraduates from all disciplines who wish to focus on business, environmental, and social regulatory issues related to the production of food, fuel, and fiber.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 15

Required Courses

Code	Title	Credits
AEB 4085	Agricultural Risk Management and the Law	3
AEB 4123	Agricultural and Natural Resource Law	3
Approved electives		9
Total Credits		15

Other courses with a focus on policy, law, or business structure can be considered by the advisor for the minor.

Approved Electives

Code	Title	Credits
AEB 4126	Agricultural and Natural Resource Ethics	
AEB 4242	International Trade Policy in Agriculture	
AEB 4283	International Development Policy	
AEB 4424	Human Resources Management in Agribusiness	
BUL 4310	The Legal Environment of Business	
FNR 4660	Natural Resource Policy and Economics	
FOR 4664	Sustainable Ecotourism Development	
FOS 4731	Government Regulations and the Food Industry	
WIS 4523	Human Dimensions of Natural Resource Conservation	

Agricultural Communication Minor

Open to all students, the agricultural communication minor provides an opportunity to gain a basic understanding of and to develop a skill level for communication techniques in agriculture and natural resources.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 15 | Completed with a minimum cumulative 2.5 GPA for courses in the minor
- **Related Agricultural Communication Programs**

Required Courses

- Bachelor of Science in Agricultural Education and Communication (p. 46)

Agricultural Curriculum & Development Minor

This minor supplements academic majors and prepares students for careers in school-based agricultural education and other agricultural outreach programming. The minor offers coursework in formal educational methods, curriculum design, and program planning for youth programs.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 15

With advisor and teacher education coordinator approval, all undergraduates in the college are eligible for this minor. Students in other colleges may also enroll with approval of the Department of Agricultural Education and Communication.

Required Courses

Code	Title	Credits
AEC 4200	Teaching Methods in Agricultural Education	3
AEC 4202	Curriculum Development and Assessment Techniques in Emerging Agricultural Technologies	3

Total Credits		15

Agricultural Education and Communication

With a focus on disseminating scientific knowledge, agricultural education and communication professionals empower communities to gain a balanced understanding of food systems, natural resources, and related sciences. Agricultural Education and Communication students supplement core technical agriculture courses with teaching, leadership, or media experiences.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor of Science
- **Specializations:** Agricultural Education (p. 48) | Communication and Leadership Development (p. 51)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Agricultural Education and Communication Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Two specializations are offered: agricultural education, and communication and leadership development. Each requires core technical agriculture courses and preprofessional education. Department advisors help students in selecting appropriate electives.

Related Agricultural Education and Communication Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Agricultural Communication minor (p. 45)
- Extension Education minor (p. 136)
- Leadership minor (p. 215)

Academic Learning Compact

Students will learn the knowledge and skills needed to educate individuals, enhance leadership in communities and organizations and communicate ideas and issues to different audiences. Through formal courses and internship experiences, students will learn to apply principles of communication and educational theory to work-based settings; to create, interpret and analyze written and oral messages and multimedia presentations used in agricultural and life sciences; and to educate and communicate agricultural issues effectively to various audiences.

Before Graduating Students Must

- Agricultural education specialization: Achieve a passing grade on the state of Florida's Professional Knowledge Exam for teacher certification.
- Communication and leadership development specialization: Achieve a minimum grade of C in AEC 4052, the communication and leadership development capstone experience, as evaluated by a committee of faculty.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C.
- Achieve a minimum grade of C in a department internship course (AEC 4942, AEC 4943, AEC 4944 or AEC 4948) or a capstone experience course (AEC 4052).
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe, explain and apply fundamental pedagogical concepts, skills and processes.
2. Describe, explain and apply fundamental concepts, skills and processes in technical agriculture.

Critical Thinking

1. Analyze and apply data from multiple assessments and measures to diagnose students' learning needs, inform instruction based on those needs and drive the learning process.
2. Critique and assess data-informed research to improve instruction and student achievement.

Communication

1. Demonstrate written communication forms in a manner appropriate in agricultural education.
2. Develop oral communication presentations in a manner appropriate in agricultural education.

Agricultural Education and Communication | Agricultural Education

With a focus on disseminating scientific knowledge, agricultural education and communication professionals empower communities to gain a balanced understanding of food systems, natural resources, and related sciences. Agricultural Education and Communication students supplement core technical agriculture courses with teaching, leadership, or media experiences.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor of Science
- **Specializations:** Agricultural Education (p. 48) | Communication and Leadership Development (p. 51)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Agricultural Education and Communication Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Agricultural Education

The agricultural education specialization provides the basic courses for agricultural teacher certification in Florida. Students must have a minimum 2.5 GPA to enter the teacher education specialization and, during their first semester, attain a passing score on the general knowledge portion of the FTCE. An internship is required for this specialization. In addition, graduates must apply to the Florida Department of Education for certification.

This specialization is also offered at the Gulf Coast Research and Education Center in Plant City, Fla.

Related Agricultural Education and Communication Programs

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=131301&track=01) may be used for transfer students.

Semester 1

- Complete 2 of 4 critical-tracking courses, excluding labs: AEC 3030C (or equivalent), BSC 2005, BSC 2005L (or any GE-B or P laboratory), EDF 3110 (or equivalent) and MAC 1140 (or equivalent)
- 2.5 GPA required for all critical-tracking courses
- 2.5 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.5 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.5 UF GPA required

Semester 4

- Complete all critical-tracking courses, including labs
- 2.5 GPA required for all critical-tracking courses
- 2.5 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

Agricultural Education and Communication | Communication and Leadership Development

With a focus on disseminating scientific knowledge, agricultural education and communication professionals empower communities to gain a balanced understanding of food systems, natural resources, and related sciences. Agricultural Education and Communication students supplement core technical agriculture courses with teaching, leadership, or media experiences.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor of Science
- **Specializations:** Agricultural Education (p. 48) | Communication and Leadership Development (p. 51)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Agricultural Education and Communication Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Communication and Leadership Development

Communication and leadership development prepares students for entry into agribusiness and communication positions related to human resource development, strategic communication, governmental relations, media relations, corporate training and development, and non-formal education. To build the capacity of students within the CLD undergraduate specialization to serve as catalysts in society, they will take a sequence of courses in both communication and leadership to build upon individual skill sets and specific interests of the student. All students within this specialization will further enhance their knowledge and skills in communication and leadership within the context of agricultural and life sciences through courses that will provide them foundations in all forms of communication (digital, speaking, and writing) and leadership (interpersonal, groups and teams, organizations and global) in addition to specific areas such as social media, change, public issues and campaign strategies.

To graduate, students must earn minimum grades of C in:

Code	Title	Credits
AEC 3073	Intercultural Communication	3
AEC 3070C	Digital Media Production in Agricultural and Life Sciences	3
AEC 3414	Leadership Development	3
AEC 4031	The Communication Process in Agricultural and Life Sciences	3
AEC 4052	Communication Campaign Strategies in Agricultural and Life Sciences	3
AEC 4434	Communication and Leadership in Groups and Teams	3

This specialization is also offered at the Gulf Coast Research and Education Center in Plant City, Fla.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=131301&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 5 critical-tracking courses, excluding labs: AEC 3030C (or equivalent), AEC 3033C (or equivalent), BSC 2005, BSC 2005L (or any GE-B or P laboratory), MAC 1140 (or equivalent), PSY 2012
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete all critical-tracking courses, including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Select one:		3-4
AEB 2014	Economic Issues, Food and You (Gen Ed Social and Behavioral Sciences)	
ECO 2013	Principles of Macroeconomics (Gen Ed Social and Behavioral Sciences)	

ECO 2023	Principles of Microeconomics (Gen Ed Social and Behavioral Sciences)	
AEB 3103	Principles of Food and Resource Economics (Gen Ed Social and Behavioral Sciences)	
BSC 2005	Biological Sciences (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	3
Select one:		1
BSC 2005L	Laboratory in Biological Sciences (**Critical Tracking**; Gen Ed Biological Sciences)	
Any Gen Ed Biological Sciences or Physical Sciences Laboratory (**Critical Tracking**)		
State Core Gen Ed Composition (p. 23); Writing Requirement		3
Elective		2
State Core Gen Ed Humanities (p. 23)		3
	Credits	15-16
Semester Two		
AEC 3030C	Effective Oral Communication (**Critical Tracking**)	3
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
MAC 1140	Precalculus Algebra (**Critical Tracking**; State Core Gen Ed Mathematics)	3
Elective		3
Gen Ed Biological or Physical Sciences		3
	Credits	15
Semester Three		
PSY 2012	General Psychology (**Critical Tracking**; State Core Gen Ed Social and Behavioral Sciences)	3
Gen Ed Composition		3
American history or political science elective (Gen Ed Social and Behavioral Sciences)		3
Gen Ed Diversity or International		3
STA 2023	Introduction to Statistics 1 (recommended; Gen Ed Mathematics)	3
	Credits	15
Semester Four		
AEC 3033C	Research and Business Writing in Agricultural and Life Sciences (**Critical Tracking**; Writing Requirement)	3
AEC 3065	Issues in Agricultural and Life Sciences	3
Electives		6
Gen Ed Physical Sciences		3
	Credits	15
Semester Five		
AEC 3070C	Digital Media Production in Agricultural and Life Sciences	3
AEC 3073	Intercultural Communication (Gen Ed Social and Behavioral Sciences with Diversity or International)	3
AEC 3413	Working with People: Interpersonal Leadership Skills	3
AEC 3414	Leadership Development	3
AEC 4031	The Communication Process in Agricultural and Life Sciences	3
	Credits	15
Semester Six		
AEB 3133	Principles of Agribusiness Management	3
AEC 4035	Communication Practices for Agricultural and Life Sciences (Writing Requirement)	3
Select two:		6
AEC 3209	Instructional and Event Planning in Agricultural and Life Sciences	
AEC 4036	Advanced Agricultural Communication Production	
AEC 4417	Leadership for Personal and Organizational Change	
AEC 4465	Global Leadership	
FYC 4408	Organizational Leadership for Nonprofits	
PUR 3000	Principles of Public Relations	
Approved elective in area of concentration		3
	Credits	15
Summer After Semester Six		
Select one:		3
AEC 4943	Leadership Development Internship	
AEC 4948	Agricultural Communication Internship	
Approved elective		
	Credits	3
Semester Seven		
Select one:		3
AEB 4085	Agricultural Risk Management and the Law (fall)	
AEB 4123	Agricultural and Natural Resource Law (spring)	

AEB 4126	Agricultural and Natural Resource Ethics	
Similar ethics course		
AEC 4434	Communication and Leadership in Groups and Teams	3
Agriculture/natural resource elective		3
Approved electives in area of concentration		6
	Credits	15
Semester Eight		
AEC 4052	Communication Campaign Strategies in Agricultural and Life Sciences	3
Select one:		3
AEC 3209	Instructional and Event Planning in Agricultural and Life Sciences	
AEC 4036	Advanced Agricultural Communication Production	
AEC 4417	Leadership for Personal and Organizational Change	
AEC 4465	Global Leadership	
FYC 4408	Organizational Leadership for Nonprofits	
PUR 3000	Principles of Public Relations	
Agriculture/natural resource elective		3
Approved elective in area of concentration		3
	Credits	12
	Total Credits	120

Academic Learning Compact

Students will learn the knowledge and skills needed to educate individuals, enhance leadership in communities and organizations and communicate ideas and issues to different audiences. Through formal courses and internship experiences, students will learn:

- to apply principles of communication and educational theory to work-based settings;
- to create, interpret and analyze written and oral messages and multimedia presentations used in agricultural and life sciences; and
- to educate and communicate agricultural issues effectively to various audiences.

Before Graduating Students Must

- Agricultural education specialization: Achieve a passing grade on the state of Florida's Professional Knowledge Exam for teacher certification.
- Communication and leadership development specialization: Achieve a minimum grade of C in AEC 4052, the communication and leadership development capstone experience, as evaluated by a committee of faculty.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C.
- Achieve a minimum grade of C in a department internship course (AEC 4942, AEC 4943, AEC 4944 or AEC 4948) or a capstone experience course (AEC 4052).
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe, explain and apply appropriate communication and leadership development skills and methods to communicate and lead audiences effectively.
2. Describe, explain and apply communication and leadership development concepts to various audiences and situations.

Critical Thinking

3. Analyze and assess information related to communication and leadership development issues.
4. Solve problems in communication and leadership development.

Communication

5. Demonstrate written communication forms in a manner appropriate in communication and leadership development.
6. Develop oral communication presentations in a manner appropriate in communication and leadership development.

Agricultural Operations Management

Agricultural Operations Management combines hands-on applied coursework and core business principles with emerging technologies and sustainable methods. Students gain experience in systems management, environmental quality, energy efficiency, agricultural machinery, GIS/GPS technology, remote sensing, irrigation, power systems, water control, and precision agriculture.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **Additional Information**
- **Related AOM Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Students gain technical experience in systems management, environmental quality, energy efficiency, agricultural machinery, GIS/GPS remote sensing, computers programs, irrigation, power systems, water control and precision agriculture. Through interdisciplinary, holistic training in agricultural, natural systems, and business management, AOM students can identify systems problems, formulate possible solutions, evaluate the impact of alternatives and then implement a best solution.

The curriculum supports students who plan to seek career opportunities in commercial business operations and management. In addition to hands-on applied skills, students also will take courses in economics, accounting, business, finance, sales and business management.

For graduates in AOM, there is an abundance of job opportunities. The program provides a solid foundation in management of technical assets, infrastructure, money, and personnel. Graduates become an integral part of the profitable operations of many types of businesses, such as grove management, commercial nurseries, building construction and materials, cattle operations, regulatory agencies and citrus processing.

A major strength of the AOM program is its small class sizes. Students benefit from engaging discussion in a welcoming environment, interacting with and getting to know professors, and connecting with classmates through hands-on projects, activities and club functions.

The Agricultural Operations Management program is housed in Frazier-Rogers Hall with laboratories, classrooms and a student computing lab, and also features an additional
off-site construction laboratory on Museum Road.

The program features electives in focused areas of concentration:

- Sustainable Energy and Facilities
- Agribusiness Management
- Animal Production Management
- Fishery and Aquatic Production

- Horticulture and Crop Management
- Soil and Water Science

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=140301&track=01) may be used for transfer students.

Semester 1

- Complete 2 of 8 critical-tracking courses, excluding labs, with a minimum grade of C: ACG 2021, BSC 2010 and BSC 2010L, CHM 2045 and CHM 2045L, ENC 2210, MAC 1147 or MAC 2233, PHY 2004 or PHY 2020, PSY 2012, and SPC 2608 or AEC 3030C.
- 2.0 GPA required for all critical-tracking coursework
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding labs, with a minimum grade of C.
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking course, excluding labs, with a minimum grade of C.
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course, excluding labs, with a minimum grade of C.
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete remaining critical-tracking courses, including labs, with a minimum grade of C.
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

[1] Needed if ECO 2013 was taken.

Academic Learning Compact

The agricultural operations management curriculum integrates business and technical knowledge of agricultural operations. Knowledge is developed through formal courses, laboratory experimentation and individual experience. Students will learn to incorporate technical agricultural skills with modern business techniques and to communicate these results effectively in an appropriate presentation style.

Before Graduating Students Must

- Pass the agricultural operations management competency exam, given in three parts. One part will be given in each of the following required courses:

Code	Title	Credits
AOM 4455	Agricultural Operations and Systems	3
or AOM 3734	Irrigation Principles and Practices in Florida	
AOM 4314C	Power and Machinery Management	3
or AOM 3734	Irrigation Principles and Practices in Florida	
AOM 4642	Environmental Systems for Agricultural Structures	3
or AOM 4434	Precision Agriculture	

- Achieve satisfactory portfolio assessment in AOM 3073.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe fundamental concepts, skills and processes in agricultural operations management.
2. Apply fundamental concepts, skills and processes in agricultural operations management.

Critical Thinking

3. Critically evaluate information or data in agricultural operations management.
4. Solve problems in agricultural operations management.

Communication

5. Communicate effectively in written form in a manner appropriate in agricultural operations management.
6. Communicate effectively orally in a manner appropriate in agricultural operations management.

Animal Sciences

Animal Sciences graduates work with the science and business of producing domestic livestock species or animal-related products. They may also pursue veterinary studies for future work with companion animals, livestock, or other species. Animal Sciences students study biotechnology, reproduction, genetics, nutrition, physiology, growth, behavior, management, and food processing.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor of Science
- **Specializations:** Animal Biology (p. 60) | Equine (p. 64) | Food Animal (p. 67)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Animal Sciences Programs**

To graduate with this major, students must complete all university, college, and major requirements.

By choosing appropriate electives, students can earn a minor or a dual major in agribusiness management, extension education or agricultural operations management while completing the degree requirements for the equine or food animal specialization.

Related Animal Sciences Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)

Academic Learning Compact

Animal sciences majors receive a broad education in the healthy production of animals and animal products. Students' knowledge will be developed through formal courses, laboratories and field trips and will be applied in internships, team projects and presentations. Students will develop the ability to apply conceptual knowledge to solve problems in animal production and to make management decisions.

Before Graduating Students Must

- Pass the animal sciences competency exam, given in three parts. One part will be given in each of these required courses:

Code	Title	Credits
ANS 3006	Introduction to Animal Science	3
ANS 3043	Growth and Development of Farm Animals	3
ANS 3319C	Reproductive Physiology and Endocrinology in Domestic Animals	4

- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty committee.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe and explain fundamental concepts, skills and processes in animal sciences.
2. Apply fundamental concepts, skills and processes in animal sciences.

Critical Thinking

3. Critically evaluate information (or data) in animal sciences.
4. Solve problems in animal sciences.

Communication

5. Effectively communicate in written form in a manner appropriate in animal sciences.
6. Effectively communicate orally in a manner appropriate in animal sciences.

ANS 3319C	Reproductive Physiology and Endocrinology in Domestic Animals	4

- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty committee.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe and explain fundamental concepts, skills and processes in animal sciences.
2. Apply fundamental concepts, skills and processes in animal sciences.

Critical Thinking

3. Critically evaluate information (or data) in animal sciences.
4. Solve problems in animal sciences.

Communication

5. Effectively communicate in written form in a manner appropriate in animal sciences.
6. Effectively communicate orally in a manner appropriate in animal sciences.

Assessment Types

- Grades
- Academic assessment exam
  - Students in the equine specialization must complete a case study in ANS 4234
  - Students in the food animal specialization must complete an economic assessment plan in ANS 3613L

Animal Sciences | Equine

Animal Sciences graduates work with the science and business of producing domestic livestock species or animal-related products. They may also pursue veterinary studies for future work with companion animals, livestock, or other species. Animal Sciences students study biotechnology, reproduction, genetics, nutrition, physiology, growth, behavior, management, and food processing.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor of Science
- **Specializations:** Animal Biology (p. 60) | Equine (p. 64) | Food Animal (p. 67)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Animal Sciences Programs**

To graduate with this major, students must complete all university, college, and major requirements.

By choosing appropriate electives, students can earn a minor or a dual major in agribusiness management, extension education or agricultural operations management while completing the degree requirements for the equine or food animal specialization.

Equine

Career preparation can be strengthened through electives.

Related Animal Sciences Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=010901&track=01) may be used for transfer students.

Semester 1

- Complete 2 of 6 critical-tracking courses, excluding labs: BSC 2010 and BSC 2010L, BSC 2011 and BSC 2011L, CHM 2045 and CHM 2045L, MAC 1147, STA 2023, and AEB 2014 or ECO 2013 or ECO 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking course, including labs

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory 1 (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	4
MAC 1147	Precalculus Algebra and Trigonometry (State Core Gen Ed Mathematics (p. 23))	4
ENC 1101	Expository and Argumentative Writing (State Core Gen Ed Composition (p. 23); Writing Requirement)	3
State Core Gen Ed Humanities with Diversity (p. 23)		3

AEB 4424	Human Resources Management in Agribusiness	3

Academic Learning Compact

Animal sciences majors receive a broad education in the healthy production of animals and animal products. Students' knowledge will be developed through formal courses, laboratories and field trips and will be applied in internships, team projects and presentations. Students will develop the ability to apply conceptual knowledge to solve problems in animal production and to make management decisions.

Before Graduating Students Must

- Pass the animal sciences competency exam, given in three parts. One part will be given in each of these required courses:

Code	Title	Credits
ANS 3006	Introduction to Animal Science	3
ANS 3043	Growth and Development of Farm Animals	3
ANS 3319C	Reproductive Physiology and Endocrinology in Domestic Animals	4

- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty committee.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Bioinformatics Minor

This minor provides solid exposure to bioinformatics with an emphasis on microbes. With the avalanche of genomic information available, bioinformatics skills are necessary to mine and analyze genomic data.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 15-16 | Completed with minimum grades of C
- **Contact:** Email (vcrecy@ufl.edu) | Email (bryank@ufl.edu)
- **Related Microbiology and Cell Science Programs**

This minor is open to all students who have a science background and who meet course prerequisites.

It is particularly appropriate for students majoring in biology, mathematics, microbiology and cell science, statistics and zoology, and for students who are interested in professional programs in dentistry, medicine and pharmacy.

Microbiology and cell science majors should meet with their academic advisors before applying to this minor to plan a program of study. No more than three credits of the required courses below and 3-4 credits of the electives below can count toward both the major and the minor.

There are 12 required credits, consisting of three courses and a capstone independent study course, and one 3 or 4 credit elective.

Required Courses

Code	Title	Credits
Select one:		3
BSC 2891	Python Programming for Biology (spring only)	
CAP 5510	Bioinformatics (fall only)	
BSC 4434C	Introduction to Bioinformatics	3
BSC 4913	Independent Research in Bioinformatics	3
MCB 4320C	The Microbiome (spring only)	3
Approved elective		3-4
Total Credits		15-16

Approved Electives

Code	Title	Credits
BSC 4914	Advanced Independent Research in Bioinformatics	3
HOS 3305	Introduction to Plant Molecular Biology (fall only)	3
MAP 4484	Modeling in Mathematical Biology (spring only)	3
PCB 3063	Genetics	4
PCB 4674	Evolution (fall and spring only)	4
PCB 5065	Advanced Genetics (fall only)	4

- Bachelor of Science in Microbiology and Cell Science, CLAS (p. 863)
- Bachelor of Science in Microbiology and Cell Science, UF Online (p. 224)

Biology | CALS

This program provides a broad, general overview of the structure, function, growth, origin, evolution, and distribution of living organisms. Biology students take courses in biology, chemistry, physics, calculus, and statistics. The major is flexible and combines the faculty and resources of two UF colleges to prepare students for career success.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor of Science
- **Specializations:** Applied Biology (p. 74) | Biotechnology (p. 80) | Natural Science (p. 86) | Preprofessional (p. 91)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Biology Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The biology major develops fundamental knowledge of animals, plants and microorganisms. The four specializations offered by the College of Agricultural and Life Sciences are tailored to meet the needs of preprofessional students, those preparing for graduate studies in biology or specialized areas such as bioinformatics, ecology, genetics and molecular biology and those seeking a career in biotechnology, education, natural resource management and environmental or biotechnology law.

Coursework for the Major

College of Agricultural and Life Sciences (CALS) students in the biology major choose one of four specializations: applied biology, biotechnology, natural science or preprofessional biology. These specializations require significant introductory coursework and credits in general biology, calculus and/or statistics, general chemistry, organic chemistry and physics. Students who are uncertain about which specialization to choose should consult a biology advisor for information and guidance on curriculum planning. Students can individualize their curriculum through approved specialization electives in the life sciences.

Applied Biology

For students interested in learning how fundamental biology is applied to solving problems. This specialization provides exposure to the major issues facing sustainability of human populations and natural resources.

Biotechnology

Prepares students for careers where knowledge of molecular biology and genetic engineering are important. Students will have the opportunity to learn various techniques and scientific procedures in molecular biology, virology, bioengineering, cell and tissue culture and bioinformatics.

Natural Science

For students interested in descriptive and interpretive biology, with an emphasis on field biology. The specialization provides exposure to the major forms of flora and fauna, and integrates some of the major elements that influence flora and fauna, namely soil/water relations and human activities.

Preprofessional

For students preparing for admission to medical, dental, optometry, veterinary or other professional schools.

Relevant Minors and/or Certificates

UFTeach Program

There is a severe shortage of qualified secondary school biology teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a biology advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their B.S. in biology and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (http://education.ufl.edu/uf-teach)

Bioinformatics

Bioinformatics skills are valuable for students who may seek careers which will necessitate the analysis of genomic data. This minor provides students the opportunity to learn programming skills, mine genomic data, and participate in independent research.

Research

All biology majors are encouraged to participate in research. Research experience is valuable on many levels: It diversifies the college experience; teaches how scientists apply the knowledge gained in the classroom to real world questions; provides the opportunity to work with and get to know researchers who are the best in their field; enables participation in cutting edge scientific questions and techniques; enhances the student's resume/CV when applying to graduate or professional school; and finally, it is essential to help the student determine if science is an appropriate career choice.
More Info (http://major.biology.ufl.edu/do-research)

CALS biology majors may participate in research for course credit as a scholar (e.g., University Scholar, HHMI Science for Life Scholar), as a volunteer, or, in rare cases, as a paid research assistant.

Related Biology Programs

- Bachelor of Arts or Bachelor of Science in Biology, CLAS (p. 576)
- Bachelor of Arts in Biology, UF Online (p. 570)

Academic Learning Compact

Biology is the study of the many diverse forms, processes and systems of life. These studies range across all levels of the biological hierarchy, from the simplest to the most complex life forms, across all environments on the earth and across recent and evolutionary time that interconnects ancestors to their descendants.

To understand this vast diversity, the field of biology correspondingly relies on integrative and comparative approaches for the resolution of the general processes, principles and unifying themes that govern living systems. Biology is therefore very interdisciplinary and biologists rely on knowledge from the physical sciences and mathematics, as well as from across the disciplines and subdisciplines of biology for advances and breakthroughs.

The biology major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences.

Before Graduating Students Must

- Achieve a passing score for all content subsections of the Major Field Test for Biology. Content subscore areas are molecular biology and genetics, organismal biology, evolution, ecology and population biology.
- Achieve a passing score on the analytical skills assessment indicator of the Major Field Test for Biology.
- Achieve a passing score on the bioethics module quiz in BSC 4936. The content of the module and quiz are reviewed and approved by a faculty committee.
- Achieve a passing score on the scientific literacy paper assignment given in BSC 4936. This paper is graded using a faculty-developed rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking

2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Biology | Applied Biology

This program provides a broad, general overview of the structure, function, growth, origin, evolution, and distribution of living organisms. Biology students take courses in biology, chemistry, physics, calculus, and statistics. The major is flexible and combines the faculty and resources of two UF colleges to prepare students for career success.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor of Science
- **Specializations:** Applied Biology (p. 74) | Biotechnology (p. 80) | Natural Science (p. 86) | Preprofessional (p. 91)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Biology Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The biology major develops fundamental knowledge of animals, plants and microorganisms. The four specializations offered by the College of Agricultural and Life Sciences are tailored to meet the needs of preprofessional students, those preparing for graduate studies in biology or specialized areas such as bioinformatics, ecology, genetics and molecular biology and those seeking a career in biotechnology, education, natural resource management and environmental or biotechnology law.

Coursework for the Major

College of Agricultural and Life Sciences (CALS) students in the biology major choose one of four specializations: applied biology, biotechnology, natural science or preprofessional biology. These specializations require significant introductory coursework and credits in general biology, calculus and/or statistics, general chemistry, organic chemistry and physics. Students who are uncertain about which specialization to choose should consult a biology advisor for information and guidance on curriculum planning. Students can individualize their curriculum through approved specialization electives in the life sciences.

Applied Biology

For students interested in learning how fundamental biology is applied to solving problems. This specialization provides exposure to the major issues facing sustainability of human populations and natural resources.

Biotechnology

Prepares students for careers where knowledge of molecular biology and genetic engineering are important. Students will have the opportunity to learn various techniques and scientific procedures in molecular biology, virology, bioengineering, cell and tissue culture and bioinformatics.

Natural Science

For students interested in descriptive and interpretive biology, with an emphasis on field biology. The specialization provides exposure to the major forms of flora and fauna, and integrates some of the major elements that influence flora and fauna, namely soil/water relations and human activities.

Preprofessional

For students preparing for admission to medical, dental, optometry, veterinary or other professional schools.

Relevant Minors and/or Certificates

UFTeach Program

There is a severe shortage of qualified secondary school biology teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a biology advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their B.S. in biology and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (http://education.ufl.edu/uf-teach)

Bioinformatics

Bioinformatics skills are valuable for students who may seek careers which will necessitate the analysis of genomic data. This minor provides students the opportunity to learn programming skills, mine genomic data, and participate in independent research.

Research

All biology majors are encouraged to participate in research. Research experience is valuable on many levels: It diversifies the college experience; teaches how scientists apply the knowledge gained in the classroom to real world questions; provides the opportunity to work with and get to know researchers who are the best in their field; enables participation in cutting edge scientific questions and techniques; enhances the student's resume/CV when applying to graduate or professional school; and finally, it is essential to help the student determine if science is an appropriate career choice.
More Info (http://major.biology.ufl.edu/do-research)

CALS biology majors may participate in research for course credit as a scholar (e.g., University Scholar, HHMI Science for Life Scholar), as a volunteer, or, in rare cases, as a paid research assistant.

Academic Learning Compact

Biology is the study of the many diverse forms, processes and systems of life. These studies range across all levels of the biological hierarchy, from the simplest to the most complex life forms, across all environments on the earth and across recent and evolutionary time that interconnects ancestors to their descendants.

To understand this vast diversity, the field of biology correspondingly relies on integrative and comparative approaches for the resolution of the general processes, principles and unifying themes that govern living systems. Biology is therefore very interdisciplinary and biologists rely on knowledge from the physical sciences and mathematics, as well as from across the disciplines and subdisciplines of biology for advances and breakthroughs.

The biology major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences.

Before Graduating Students Must

- Achieve a passing score for all content subsections of the Major Field Test for Biology. Content subscore areas are molecular biology and genetics, organismal biology, evolution, ecology and population biology.
- Achieve a passing score on the analytical skills assessment indicator of the Major Field Test for Biology.
- Achieve a passing score on the bioethics module quiz in BSC 4936. The content of the module and quiz are reviewed and approved by a faculty committee.
- Achieve a passing score on the scientific literacy paper assignment given in BSC 4936. This paper is graded using a faculty-developed rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking

2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Biology | Natural Science

This program provides a broad, general overview of the structure, function, growth, origin, evolution, and distribution of living organisms. Biology students take courses in biology, chemistry, physics, calculus, and statistics. The major is flexible and combines the faculty and resources of two UF colleges to prepare students for career success.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor of Science
- **Specializations:** Applied Biology (p. 74) | Biotechnology (p. 80) | Natural Science (p. 86) | Preprofessional (p. 91)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Biology Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The biology major develops fundamental knowledge of animals, plants and microorganisms. The four specializations offered by the College of Agricultural and Life Sciences are tailored to meet the needs of preprofessional students, those preparing for graduate studies in biology or specialized areas such as bioinformatics, ecology, genetics and molecular biology and those seeking a career in biotechnology, education, natural resource management and environmental or biotechnology law.

Coursework for the Major

College of Agricultural and Life Sciences (CALS) students in the biology major choose one of four specializations: applied biology, biotechnology, natural science or preprofessional biology. These specializations require significant introductory coursework and credits in general biology, calculus and/or statistics, general chemistry, organic chemistry and physics. Students who are uncertain about which specialization to choose should consult a biology advisor for information and guidance on curriculum planning. Students can individualize their curriculum through approved specialization electives in the life sciences.

Applied Biology

For students interested in learning how fundamental biology is applied to solving problems. This specialization provides exposure to the major issues facing sustainability of human populations and natural resources.

Biotechnology

Prepares students for careers where knowledge of molecular biology and genetic engineering are important. Students will have the opportunity to learn various techniques and scientific procedures in molecular biology, virology, bioengineering, cell and tissue culture and bioinformatics.

Natural Science

For students interested in descriptive and interpretive biology, with an emphasis on field biology. The specialization provides exposure to the major forms of flora and fauna, and integrates some of the major elements that influence flora and fauna, namely soil/water relations and human activities.

Preprofessional

For students preparing for admission to medical, dental, optometry, veterinary or other professional schools.

Relevant Minors and/or Certificates

UFTeach Program

There is a severe shortage of qualified secondary school biology teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a biology advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their B.S. in biology and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (http://education.ufl.edu/uf-teach)

Bioinformatics

Bioinformatics skills are valuable for students who may seek careers which will necessitate the analysis of genomic data. This minor provides students the opportunity to learn programming skills, mine genomic data, and participate in independent research.

Research

All biology majors are encouraged to participate in research. Research experience is valuable on many levels: It diversifies the college experience; teaches how scientists apply the knowledge gained in the classroom to real world questions; provides the opportunity to work with and get to know researchers who are the best in their field; enables participation in cutting edge scientific questions and techniques; enhances the student's resume/CV when applying to graduate or professional school; and finally, it is essential to help the student determine if science is an appropriate career choice.
More Info (http://major.biology.ufl.edu/do-research)

CALS biology majors may participate in research for course credit as a scholar (e.g., University Scholar, HHMI Science for Life Scholar), as a volunteer, or, in rare cases, as a paid research assistant.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260101&track=01) may be used for transfer students.

Semester 1

- Complete CHM 2045/CHM 2045L or MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete BSC 2010/BSC 2010L and CHM 2046/CHM 2046L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete BSC 2011/BSC 2011L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

Biology is the study of the many diverse forms, processes and systems of life. These studies range across all levels of the biological hierarchy, from the simplest to the most complex life forms, across all environments on the earth and across recent and evolutionary time that interconnects ancestors to their descendants.

To understand this vast diversity, the field of biology correspondingly relies on integrative and comparative approaches for the resolution of the general processes, principles and unifying themes that govern living systems. Biology is therefore very interdisciplinary and biologists rely on knowledge from the physical sciences and mathematics, as well as from across the disciplines and subdisciplines of biology for advances and breakthroughs.

The biology major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences.

Before Graduating Students Must

- Achieve a passing score for all content subsections of the Major Field Test for Biology. Content subscore areas are molecular biology and genetics, organismal biology, evolution, ecology and population biology.
- Achieve a passing score on the analytical skills assessment indicator of the Major Field Test for Biology.
- Achieve a passing score on the bioethics module quiz in BSC 4936. The content of the module and quiz are reviewed and approved by a faculty committee.
- Achieve a passing score on the scientific literacy paper assignment given in BSC 4936. This paper is graded using a faculty-developed rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking

2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Botany | CALS

This program provides a broad background in the biology of plants, from the molecular to the whole-plant level. Botany students study anatomy, biochemistry, ecology, genetics, physiology, taxonomy, and molecular biology of plants. This flexible major combines the faculty and resources of two UF colleges to prepare students for career success.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor of Science
- **Specializations:** General Botany (p. 104) | Botanical Research (p. 98)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Botany Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Small classes are taught by faculty who have a commitment to undergraduate education. Students participate in mentored research, assisting faculty with research projects on campus and abroad. The major prepares students for careers in industry and government agencies, for graduate and professional schools, and for teaching jobs in high schools.

General Botany

For students who may not intend to pursue a graduate degree but are interested in a career in plant biology. This specialization provides some flexibility in tailoring the courses needed in order to pursue specific interests. Students are encouraged to consult with an advisor and botany faculty member when deciding on which courses to take.

Botanical Research

For students who intend to pursue a graduate degree and requires research with a faculty member. This specialization provides some flexibility in tailoring the courses needed in order to pursue specific interests. Students are encouraged to consult with an advisor and botany faculty member when deciding on which courses to take.

Coursework for the Major

Required coursework is dependent upon the specialization. Coursework for each specialization can be found below under Critical Tracking and Model Semester Plan.

Relevant Minors and/or Certificates

Students majoring in botany can minor in most other disciplines, and this is a good way to organize students' electives around areas of interest. Note that botany majors cannot minor in biology, nor can biology majors minor in botany (the curricula for the botany and biology majors are too similar).

UFTeach Program

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a botany advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their B.S. in botany and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (http://education.ufl.edu/uf-teach)

Research

Botany majors are strongly encouraged to participate in research, and research is required for the Botanical Research specialization. Research experience is valuable on many levels: it diversifies the college experience; it teaches students how scientists apply the knowledge gained in the classroom to real world questions; it provides the opportunity to work with and get to know researchers who are the best in their field; it introduces students to cutting edge scientific questions and techniques; it can enhance a student's resume/CV when applying to graduate or professional school; and finally it is essential in helping students determine if science is a good career choice.
More Info (http://www.biology.ufl.edu/Undergraduates/Research.aspx)

CALS botany majors may participate in research for course credit, as a scholar (e.g., University Scholar, Science for Life Scholar, Beckman Scholar), as a volunteer, or, in rare cases, as a paid research assistant. Please visit Undergraduate Research for information regarding course credit. Students who plan to enroll for course credit must contact potential research mentors, develop a project, and turn in the required application and proposal no later than the week before drop/add. If the window is missed, students should still contact potential research mentors, if only to discuss upcoming opportunities.

Related Botany Programs

- Combined Degree (p. 1400)
- Bachelor of Science in Botany, CLAS (p. 598)
- Botany minor (p. 597)

Academic Learning Compact

The botany major is offered by both the College of Liberal Arts and Sciences and the College of Agricultural and Life Sciences. This major provides a foundation in the life sciences with emphasis on plant systems. Students will learn the diversity of life, the structure of organisms and ecosystems and how they function (i.e., the acquisition, flow, organization and uses of information, energy and nutrients in living systems). Students will learn the scientific method and how it facilitates the discovery of new knowledge in botany and biology, including how to critically evaluate hypotheses and conclusions.

Before Graduating Students Must

- Achieve acceptable performance in all required botany courses.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking

2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

[1] Students who choose BOT 2011C to fulfill the foundation requirements may not use BOT 2011C to fulfill the biodiversity breadth requirements for the major.

[2] Must be taken concurrently with BOT 4911.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260301&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 5 critical-tracking courses, including lab: BSC 2010/BSC 2010L or BOT 2010C, BSC 2011/BSC 2011L or BOT 2011C, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2311
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, including labs
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, including labs, with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course, including labs, with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 5 critical-tracking courses, including labs, with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

PLS 4601C	Principles of Weed Science	3

Academic Learning Compact

The botany major is offered by both the College of Liberal Arts and Sciences and the College of Agricultural and Life Sciences. This major provides a foundation in the life sciences with emphasis on plant systems. Students will learn the diversity of life, the structure of organisms and ecosystems and how they function (i.e., the acquisition, flow, organization and uses of information, energy and nutrients in living systems). Students will learn the scientific method and how it facilitates the discovery of new knowledge in botany and biology, including how to critically evaluate hypotheses and conclusions.

Before Graduating Students Must

- Achieve acceptable performance in all required botany courses.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking

2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
BOT 2011C	R	R		I
BOT 2710C	R	R		R
BOT 3503 and BOT 3503L	R/A	R/A		R/A

- Scientific paper

CALS Honor Scholar Certificate

Students earning the CALS honors scholar certificate must complete at least nine credits of honors coursework and an undergraduate honors thesis. The coursework, thesis topic and thesis advisor are unique to each student and are subject to approval by the CALS honors program director. Students must have an upper-division GPA of 3.75 or higher to complete the program and earn the certificate.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 9 | Completed with minimum grades of C or S
- **Contact:** Email (wysocki@ufl.edu) | 352.392.1963

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Prerequisites

- CALS major
- Admission to the CALS honors program
- Completion of 60 credits
- Minimum 3.75 UF GPA

Required Courses

- ALS 3923, *1 credit*
- XXX 4915 Honors Thesis Research (or similar independent study/research course to be completed as the student is working on their thesis research), *3-4 credits*
- Additional honors coursework, *4-5 credits*, taken as:
  - Existing 3000/4000-level honors courses, approved by the honors program director
  - Existing 3000/4000-level CALS courses taken as honors contract courses, approved by the honors program director
  - CALS graduate-level courses, approved by the honors program director
- A completed honors thesis, approved by the research mentor, department honors coordinator and honors program director

Challenge 2050 | Global Leadership and Change Certificate

This certificate focuses on global community challenges as we face a population predicted to exceed nine billion people by the year 2050. The program empowers students to take action in addressing the unstructured, complex and adaptive world challenges in sustainable development and food security.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 10

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Because the issues we face are radically different than the issues addressed by traditional educational models, this program is outside of the normal bounds of a disciplinary degree or a semester-long course. Students earning the certificate will be engaged in high level, complex problem solving which will create a strong professional foundation for success in a variety of fields.

Required Courses

Code	Title	Credits
ALS 2410	Challenge 2050: Global Uncertainty	3
ALS 3415	Challenge 2050: Developing Tools for Changing the World	3
ALS 3940	Challenge 2050: the Experience	3
ALS 4419	Challenge 2050: Creating Solutions	1
Total Credits		10

Dietetics

This program applies the science of food and nutrition to the health and well-being of individuals and groups. Dietetics students study chemistry, biology, microbiology, nutrition, communication, food science, and management. They are well-prepared for dietetic internships or graduate study.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **Additional Information**
- **Related Food Science and Human Nutrition Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The Didactic Program in Dietetics (DPD) is accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics. Successful program completion enables students to compete for placement in dietetic internships, a required step in becoming a Registered Dietitian (RD). Students may also pursue graduate study.

Registered dietitians are employed in health care facilities, government and public health agencies, food companies, schools and universities, private practice, and a variety of other settings. Opportunities are also increasing for RDs in wellness and fitness programs and in sales and marketing for business and industry. Students interested in dietetic internships should obtain volunteer or work experience with an RD, and participate in leadership opportunities with the FSHN Club or other clubs on campus.

Related Food Science and Human Nutrition Programs

- Bachelor of Science in Food Science (p. 152)
- Bachelor of Science in Nutritional Sciences (p. 240)
- Food Science minor (p. 155)
- Nutritional Sciences minor (p. 243)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=011001&track=02) may be used for transfer students.

Semester 1

- Complete CHM 2045/CHM 2045L or MAC 1147
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 1147
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete CHM 2046/CHM 2046L and BSC 2010/BSC 2010L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete BSC 2011/BSC 2011L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Select one:		3-4
AEB 2014	Economic Issues, Food and You (Gen Ed Social and Behavioral Sciences)

HUN 4446	Nutrition and Disease: Part 2	3
	Credits	15
	Total Credits	120

Additional electives may be needed to complete the 120 credits required for graduation.

Academic Learning Compact

Dietetics applies the science of food and nutrition to the health and well-being of individuals and groups. Students will learn to use knowledge of nutrient requirements, food sources and physiological systems to determine nutrient and dietary needs of individuals in various life-cycle stages and/or with nutrition-related diseases. Students also will apply their knowledge of food science and management principles to food service operations.

Before Graduating Students Must

- Satisfactorily complete a service-learning comprehensive client assessment in DIE 4245, a systems analysis of a major foodservice event developed by students in DIE 4125L and a community assessment project in DIE 3310. The projects will be graded by rubrics developed, approved and evaluated by a faculty committee.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty committee.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Use the nutrition care process to make decisions, identify nutrition-related problems and determine and evaluate nutrition interventions.
2. Apply management and business theories and principles to the development, marketing and delivery of programs and services.

Critical Thinking

3. Develop outcome measures, use informatics principles and technology to collect and analyze data for assessment and evaluate data for use in decision-making.

Communication

4. Create, interpret and analyze written text, oral messages and multimedia presentations used in agricultural and life sciences.

Entomology and Nematology

This biological science includes the study of insects, mites, ticks, spiders, and nematodes. These creatures can have both helpful and harmful effects on our food, environment, and health. Entomology and Nematology students study ecology, medically significant arthropods, social insects, insect management, physiology, behavior, evolution, natural ecosystem cycles, and systematics.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor of Science
- **Specializations:** Biological Science of Insects (p. 115) | Preprofessional (p. 119) | Urban Pest Management (p. 122)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Entomology and Nematology Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The Department of Entomology and Nematology offers the major. Faculty within the department cover areas in systematics, ecology, medically significant arthropods, social insects, insect management, physiology, behavior, evolution and natural ecosystem cycles. The department has a long tradition of sending students to medical, veterinary and dental school. Graduate school prospects are also high and employment options using entomology are versatile.

Related Entomology and Nematology Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Entomology and Nematology minor (p. 126)

Academic Learning Compact

The entomology and nematology curriculum develops an excellent knowledge base and an understanding of concepts and fundamental practices. Through formal courses, laboratory experimentation and individual research experience, students will learn how the scientific method is applied to the biological world at the whole organism and population levels. Students will learn to evaluate hypotheses, to acquire and interpret experimental data, and to communicate results effectively in appropriate styles. Special focus will be information on insect identification, morphology, behavior, physiology and ecology.

Before Graduating Students Must

- Pass the entomology and nematology competency exam, which will be tailored to individual specializations.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify insects and describe and explain insect morphology, physiology and behavior.

Critical Thinking

2. Acquire, analyze and synthesize entomological information.

Communication

3. Communicate proficiently in the sciences in oral and written forms.

Biological Science of Insects

This option prepares students for entry to entomological careers and to graduate school. Except with undergraduate coordinator permission, students are expected to complete the following courses on campus; other ENY courses can be taken online:

Code	Title	Credits
ENY 3005	Principles of Entomology	2
ENY 3005L	Principles of Entomology Laboratory	1
ENY 4161	Insect Classification	3
ENY 4660	Medical and Veterinary Entomology	2
ENY 4660L	Medical and Veterinary Entomology Laboratory	1

Minimum grades of C are required for all core courses. Students must maintain a 2.0 cumulative GPA for specialization electives with no individual course grade less than C-.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260702&track=01) may be used for transfer students.

Semester 1

- Complete 2 of 5 critical-tracking courses, excluding labs: BSC 2010/BSC 2010L or BOT 2010C, BSC 2011/BSC 2011L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2233
- 2.5 GPA on math and science courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA on math and science courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA on math and science courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA on math and science courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- 2.5 GPA on math and science courses
- 2.0 UF GPA required

Model Semester Plan

All entomology majors in this specialization must take three credits of ENY 4905 or ENY 4911. See advisor for details.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The entomology and nematology curriculum develops an excellent knowledge base and an understanding of concepts and fundamental practices. Through formal courses, laboratory experimentation and individual research experience, students will learn how the scientific method is applied to the biological world at the whole organism and population levels. Students will learn to evaluate hypotheses, to acquire and interpret experimental data, and to communicate results effectively in appropriate styles. Special focus will be information on insect identification, morphology, behavior, physiology and ecology.

Before Graduating Students Must

- Pass the entomology and nematology competency exam, which will be tailored to individual specializations.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify insects and describe and explain insect morphology, physiology and behavior.

Critical Thinking

2. Acquire, analyze and synthesize entomological information.

Communication

3. Communicate proficiently in the sciences in oral and written forms.

Entomology and Nematology | Preprofessional

This biological science includes the study of insects, mites, ticks, spiders, and nematodes. These creatures can have both helpful and harmful effects on our food, environment, and health. Entomology and Nematology students study ecology, medically significant arthropods, social insects, insect management, physiology, behavior, evolution, natural ecosystem cycles, and systematics.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor of Science
- **Specializations:** Biological Science of Insects (p. 115) | Preprofessional (p. 119) | Urban Pest Management (p. 122)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Entomology and Nematology Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The Department of Entomology and Nematology offers the major. Faculty within the department cover areas in systematics, ecology, medically significant arthropods, social insects, insect management, physiology, behavior, evolution and natural ecosystem cycles. The department has a long tradition of sending students to medical, veterinary and dental school. Graduate school prospects are also high and employment options using entomology are versatile.

Related Entomology and Nematology Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Entomology and Nematology minor (p. 126)

Preprofessional

This option provides preparation for programs in medicine, dentistry, optometry, veterinary, chiropractic, osteopathy and podiatry. Students should refer to the preprofessional information in the college's admission section and they should contact the Office of Health and Legal Professions Advising in the Academic Advising Center, 100 Farrior Hall.

Except with undergraduate coordinator permission, students are expected to complete the following courses on campus; other ENY courses can be taken online:

Code	Title	Credits
ENY 3005	Principles of Entomology	2
ENY 3005L	Principles of Entomology Laboratory	1
ENY 4161	Insect Classification	3
ENY 4660	Medical and Veterinary Entomology	2
ENY 4660L	Medical and Veterinary Entomology Laboratory	1

Minimum grades of C are required for all core courses. Students must maintain a 2.0 cumulative GPA for specialization electives with no individual course grade less than C-.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260702&track=01) may be used for transfer students.

Semester 1

- Complete 2 of 5 critical-tracking courses, excluding labs: BSC 2010/BSC 2010L or BOT 2010C, BSC 2011/BSC 2011L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2311
- 2.5 GPA on math and science courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA on math and science courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA on math and science courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA on math and science courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- 2.5 GPA on math and science courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Urban Pest Management

This specialization is for entry to the pest control industry. Students receive instruction about arthropods, nematodes, plant diseases and weeds with reference to the pest problems in residential and commercial property. A business curriculum prepares students for management responsibilities. Students planning to attend graduate school should consult an advisor for appropriate math, chemistry and physics courses.

Except with undergraduate coordinator permission, students are expected to complete the following courses on campus; other ENY courses can be taken online:

Code	Title	Credits
ENY 3005	Principles of Entomology	2
ENY 3005L	Principles of Entomology Laboratory	1

Entomology and Nematology Minor

The entomology and nematology minor is open to any student who wants additional knowledge in this biological science field.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 15 | Completed with minimum grades of C
- **Related Entomology and Nematology Programs**

Electives enable students to tailor the minor to their individual interests and career goals.

- Nine credits minimum of 3000/4000-level coursework (exclusive of practical problems)
- No more than three credits of practical problems courses
- Except with undergraduate coordinator permission, students are expected to complete the following on campus; other ENY courses can be taken online:

Code	Title	Credits
ENY 3005	Principles of Entomology	2
ENY 3005L	Principles of Entomology Laboratory	1
ENY 4161	Insect Classification	3

ENY 4660	Medical and Veterinary Entomology	2
ENY 4660L	Medical and Veterinary Entomology Laboratory	1

- Students who specialize in nematology must complete six credits from NEM 3002, NEM 5705, or an acceptable practical problem.
- Additional credits in entomology must be approved by the department

Required Courses

Code	Title	Credits
ENY 3005	Principles of Entomology	3
& 3005L	and Principles of Entomology Laboratory [1]	
ENY 4161	Insect Classification [1]	3
ALS, ENY, IPM, NEM, or PMA-prefixed courses [2]		9
Total Credits		15

[1] Must be taken on campus.

[2] Subject to the approval of the Department of Entomology and Nematology's undergraduate coordinator.

Related Entomology and Nematology Programs

- Bachelor of Science in Entomology and Nematology (p. 114)

Environmental Horticulture Management Certificate

The environmental horticulture management certificate is offered via distance learning technologies. The certificate enables the working professional and/or adult learner who is place-bound and cannot attend classes in Gainesville to gain a background in the sustainable ornamental horticulture practices used in the greenhouse/nursery and/or landscape industries. The program emphasizes the conservation of resources through proper plant management.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 15 | Completed with minimum grades of C
- **Contact:** Email (klock@ufl.edu) | 954.577.6328
- **Related Plant Science Programs**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Students must have a high-school diploma or the equivalent and they must have completed all course prerequisites before enrolling in any course. Applicants also must have a basic understanding and/or coursework in biology, botany, chemistry or zoology, or permission of the department.

Required Courses

Environmental Horticulture Minor

The environmental horticulture minor helps students who seek employment opportunities associated with plant science, landscape, and nursery horticulture. The minor enables students to focus on a specialization area or to sample courses from other areas of environmental horticulture. Degree-seeking students at off-campus locations can also complete this minor.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 15
- **Related Plant Science Programs**

Specific courses for the minor must be approved in writing by the academic advisor and the undergraduate coordinator at least one semester before graduation.

Environmental Management in Agriculture and Natural Resources | Interdisciplinary Studies

Using an interdisciplinary approach, students in this major develop the scientific and technical foundation needed to integrate and communicate the diverse environmental issues associated with urban, agricultural, and natural ecosystems. Environmental Management students study hydrology, soil science, pest management, water resources, ecology, and natural resource policy.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **School:** Natural Resources and Environment (p. 1356)
- **Degree:** Bachelor of Science

- **Credits for Degree:** 120
- **Additional Information**
- **Related Environmental Management in Agriculture and Natural Resources Programs**

To graduate with this major, students must complete all university, college, and major requirements.

This major is for students who desire education in environmental management with substantial emphasis on agriculture and natural resources.

Graduates will find employment with agricultural producers, consulting companies and government agencies that are involved in maintaining a sustainable environment.

Related Environmental Management in Agriculture and Natural Resources Programs

- Bachelor of Science in Environmental Management in Agriculture and Natural Resources, UF Online (p. 133)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=309999&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 6 critical-tracking courses, excluding labs: AEC 3030C or SPC 2608, BSC 2005/BSC 2005L or BSC 2010/BSC 2010L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2233, STA 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The interdisciplinary major in environmental management in agriculture provides students with the scientific and technical foundation to integrate and communicate the diverse environmental issues associated with agriculture and natural resources. Students will be able to deal in an informed manner with the agricultural regulations and permitting requirements established by various agencies and jurisdictions, and students will achieve an appreciation for the complexities of agricultural practices. Students will learn to integrate, balance and communicate the mix of agricultural and environmental issues that need to be addressed in modern society.

Before Graduating Students Must

- Complete an approved senior-year research project, SWS 4905, related to management and science skills.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty committee.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Appraise similarities between agronomic production and environmental protection issues.
2. Describe the role of soil and water in transport of contaminants in ecosystems and illustrate the interconnectedness of ecosystems and ecosystem components with specific examples.

Critical Thinking

3. Cite specific examples of natural resources and environmental public policy issues and identify contending stakeholder interests with respect to each issue.
4. Develop a plan for the analysis of an environmental / agricultural study using geographic information systems software.
5. Critically evaluate natural resource policies using basic economic tools and applying ecological, social and political criteria.

Communication

6. Create, interpret and analyze written text, oral messages and multimedia presentations used in agricultural and life sciences.

Environmental Management in Agriculture and Natural Resources | Interdisciplinary Studies UF Online

This degree program uses an interdisciplinary approach to provide the scientific and technical foundation needed to integrate and communicate the diverse environmental issues associated with urban, agricultural, and natural ecosystems. Students develop an understanding of the best use of our natural resources for their social and economic benefits while protecting associated resource values, property rights and the environment. This degree provides a solid grounding in the areas of hydrology, soil science, pest management, water resources, and agricultural ecology.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **School:** Natural Resources and Environment (p. 1356)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **Additional Information**
- **Related Environmental Management in Agriculture and Natural Resources Programs**

To graduate with this major, students must complete all university, college, and major requirements.

This major is for students who desire education in environmental management with substantial emphasis on agriculture and natural resources.

Graduates will find employment with agricultural producers, consulting companies and government agencies that are involved in maintaining a sustainable environment.

Related Environmental Management in Agriculture and Natural Resources Programs

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=309999&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 6 critical-tracking courses, excluding labs: AEC 3030C or SPC 2608, BSC 2005/BSC 2005L or BSC 2010/BSC 2010L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2233, STA 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- 2.0 GPA required for all critical-tracking courses
- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Extension Education Minor

This minor supplements the extension education major and prepares students for careers in the cooperative extension service. The minor offers coursework in nonformal and formal educational methods, adult education, leadership, youth programs, and communication methods along with field experience.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 15
- **Related Extension Education Programs**

With advisor approval, all undergraduates in the College of Agricultural and Life Sciences are eligible for this minor. Students in other colleges can also enroll with approval of the Department of Agricultural Education and Communication.

Required Courses

Code	Title	Credits
AEC 3209	Instructional and Event Planning in Agricultural and Life Sciences	3
or AEC 4200	Teaching Methods in Agricultural Education	
AEC 3313	Development and Role of Extension Education	3
AEC 4500	Program Development and Evaluation	3
or FYC 4622	Planning and Evaluating Family, Youth and Community Science Programs	
Approved electives		6
Total Credits		15

Approved Electives

Code	Title	Credits

Family Life Education Certificate

This certificate prepares students to become certified family life educators. This national certification (CFLE) through the National Council on Family Relations provides higher-level knowledge and skills for working with families in prevention-oriented educational programs.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 39 | Completed with minimum grades of C
- **Contact:** Email (sdsmith@ufl.edu) | 352.273.3537
- **Related Family Life Education Programs**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

The certificate can be completed as part of the family, youth and community sciences major and is intended to provide an advantage in today's competitive job market. Courses in 10 key areas of family life and an internship prepare students to offer specialized programs to families.

Students must be admitted to the FYCS major and must maintain all required academic progress standards for the major. FYC 3001 is a prerequisite or corequisite for many of the required courses.

Required Courses

Code	Title	Credits
ANT 2301	Human Sexuality and Culture	3
EDF 3110	Human Growth and Development	3
FYC 3101	Parenting and Family Development	3
FYC 3112	Contemporary Family Problems and Interventions	3

Total Credits		39

[1] Minimum 240 clock hours in a family life education setting, with a grade of S.

Related Family Life Education Programs

- Bachelor of Science in Family, Youth and Community Sciences (p. 138)
- Family, Youth and Community Sciences minor (p. 141)

Family, Youth and Community Sciences

This social science major prepares students to address predictable human developmental changes, unpredictable events such as natural disasters, and persistent problems such as poverty and nutrition. Family, Youth and Community Sciences students study sociology, psychology, and economics as well as advanced topics in youth, family, and community development.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **Additional Information**
- **Related Family, Youth and Community Sciences Programs**

To graduate with this major, students must complete all university, college, and major requirements.

This interdisciplinary applied social science program provides the general and technical education necessary for graduates to enter careers in human services, including public, private, nonprofit and for-profit organizations. This includes family life education, youth development, human services, community development and extension education. Students receive the training needed to understand and help youth, families and communities by taking foundation courses in sociology, psychology and economics as well as advanced courses in youth, family and community development.

Students must earn a minimum grade of C in all critical-tracking courses, 3000/4000-level core courses and specialization elective, which must be at the 3000/4000-level. A 2.5 GPA in the core courses is required for graduation.

	Total Credits	120

Specialization electives must be at the 3000/4000 level and students must attain minimum grades of C.

Academic Learning Compact

This major takes an interdisciplinary approach to the applied social sciences and prepares students for a career in professions that strengthen families, children, youth and communities. Students' knowledge and skills will be developed through foundation courses in sociology, psychology and economics; through advanced courses in family, youth and community development; and through specialized courses in prevention and intervention. Students will be able to evaluate strategies, integrate knowledge of ethical standards and use professional skills for handling contemporary problems.

Before Graduating Students Must

- Pass an exam on fundamental concepts given as part of FYC 4931.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty committee.
- Complete a final project in FYC 4931, including a written report and oral presentation.
- Complete the practicum course FYC 4941 with performance evaluations completed by agency supervisors.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Apply the guiding framework of human ecology and other related theories to contribute to positive outcomes for diverse families, youth and communities at home and abroad.
2. Apply strategies for prevention and intervention in contemporary family, youth and community problems and issues.

Critical Thinking

3. Apply current research findings relevant to families, youth and communities.
4. Integrate professional skills, ethical standards and knowledge needed to participate in and to provide leadership in civic and professional life.

Communication

5. Create, interpret and analyze written text, oral messages and multimedia presentations used in agricultural and life sciences and in family, youth and community sciences.

Family, Youth and Community Sciences Minor

This minor introduces the core areas of family, youth and community, and is particularly useful to students whose career plans include working with people in a variety of settings.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 15 | Completed with minimum grades of C
- **Related Family, Youth and Community Sciences Programs**

Required Courses

Code	Title	Credits
FYC 3001	Principles of Family, Youth and Community Sciences	3
FYC 3101	Parenting and Family Development	3

or FYC 3112	Contemporary Family Problems and Interventions	
FYC 3201	Foundations of Youth Development	3
FYC 3401	Introduction to Social and Economic Perspectives on the Community	3
FYCS course or one course from approved area of specialization (AOS) courses. [1]		3
Total Credits		15

[1] Students must meet any prerequisites. See an FYCS advisor for more information.

Related Family, Youth and Community Sciences Programs

- Bachelor of Science in Family, Youth and Community Sciences (p. 138)
- Family Life Education certificate (p. 137)

Fisheries and Aquatic Sciences Minor

This minor introduces the basic principles of fisheries science, fish biology, aquatic plant biology and management, aquaculture, and related global issues.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 15 | Completed with minimum grades of C and no S-U
- **Related Marine Sciences Programs**

Students applying for the minor must obtain written approval from the undergraduate coordinator for fisheries and aquatic sciences at least two semesters before graduation.

Requirements

- Complete a minimum of nine credits at UF
- Complete a minimum of nine FAS credits at the 3000 level or above
  - FAS 4905 cannot be used to satisfy this requirement
  - Two credits maximum of FAS 4933 can apply toward this requirement
- Complete at least six credits, as approved by the FAS undergraduate coordinator
  - These may include FAS, FNR, GLY, OCE, SWS, VME, WIS and/or ZOO courses
  - Three credits maximum of FAS 4905 can apply toward this requirement
  - One course maximum, or three credits, of scuba coursework can apply toward this requirement; approved courses include FAS 4932 Scientific Diver and FAS 4932 Research Dive Master.

Related Marine Sciences Programs

- Bachelor of Science in Marine Sciences: Interdisciplinary Studies, CALS (p. 218)
- Bachelor of Science in Marine Sciences: Interdisciplinary Studies, CLAS (p. 842)

Food and Resource Economics

Through curriculum and experiential learning, students develop the skills to analyze complex situations such as the allocation of natural resources to meet the needs of people in local, state, national, and global communities. Food and Resource Economics students study sales, finance, marketing, management, environmental policy, law, international trade, math and economics.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor of Science
- **Specializations:** Food and Agribusiness Marketing and Management (p. 144) | International Food and Resource Economics (p. 147)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Food and Resource Economics Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Graduates choose from a vast number of career opportunities, including sales, marketing, management, environmental policy, international trade, international marketing, economic analysis, natural resource management and human resource managements.

Students who have completed 30 credits but fewer than 60 are required to complete mathematics through precalculus (MAC 1147 or equivalent) before admission to the college.

Students who have completed 60 or more credits are required to have completed calculus (MAC 2233 or equivalent), statistics (STA 2023 or equivalent), financial accounting (ACG 2021 or equivalent) and macroeconomics (ECO 2013 or equivalent) with minimum grades of C before admission to the college.

Students should consult an advisor for approval of electives.

Related Food and Resource Economics Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Food and Resource Economics minor (p. 151)

Academic Learning Compact

Students will learn to apply a conceptual framework using economic reasoning and generally accepted economic principles to problem solving. They will also learn to analyze and interpret economic data, and to critically evaluate economic information in media and politics.

Before Graduating Students Must

- Complete AEB 4325 for the food and agribusiness management and marketing specialization, or
  Complete AEB 4343 for the international food and resource economics specialization
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe fundamental micro- and macroeconomic principles.
2. Explain the basic role of marketing, management and finance in firm-level decision making.

Critical Thinking

3. Analyze and interpret economic data, critically evaluating economic information and economic policies.
4. Develop a business plan, based on a projected marketing strategy, assessing historic financial statements and projecting cash flows.

Communication

5. Communicate effectively in written form in a manner appropriate in economics and business.
6. Communicate orally (including visual aids) in an effective manner appropriate in economics and business.

Food and Agribusiness Marketing and Management

The specialization is for students interested in food and fiber systems management, marketing, finance and international business and employment opportunities and sales and managerial positions in agribusiness firms, commercial banks, the Farm Credit Service, insurance and appraisal firms.

Critical Tracking

Note that critical tracking is the same for both specializations of this major.

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Students also must earn a minimum GPA of 2.25 in all AEB courses.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=010103&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 4 critical courses: ACG 2021, ECO 2013, MAC 2233, STA 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete MAC 2233
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Related Food and Resource Economics Programs

- Bachelor of Science in Food and Resource Economics (p. 142)

Food Science

This major uses engineering, biological, and physical sciences to study the nature of foods, the causes of food deterioration, the principles underlying food processing, and the development and improvement of foods for consumption. Food Science students study organic and food chemistry, biology, physics, government regulations in the food industry, food engineering, and microbiology.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **Additional Information**
- **Related Food Science and Human Nutrition Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The food science curriculum emphasizes a strong technical background, with elective options important to employment in the food industry, government agencies or as preparation for graduate study. The curriculum is approved by the Institute of Food Technologists (IFT), the professional society of the discipline. Graduates have obtained employment in state, national and international food corporations. Most work in the areas of quality control, technical support and sales, or research and product development.

The curriculum also prepares the student for graduate study. Opportunities to become involved in leadership roles in the FSHN Club and through national competitions are considerable. Internships in Florida food industries may be available, and these provide invaluable experience as well as contacts that can be extremely beneficial when seeking employment.

CHM 2045 & 2045L	General Chemistry 1 and General Chemistry 1 Laboratory (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	4
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	4
State Core Gen Ed Composition (p. 23); Writing Requirement		3
State Core Gen Ed Humanities (p. 23)		3
Elective		1
	Credits	15
Semester Two		
Select one:		3-4
AEB 2014	Economic Issues, Food and You	
AEB 3103	Principles of Food and Resource Economics	
ECO 2013	Principles of Macroeconomics	
ECO 2023	Principles of Microeconomics (Gen Ed Social and Behavioral Sciences)	
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory (**Critical Tracking**; Gen Ed Physical Sciences)	4
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
Electives		4
	Credits	14-15
Semester Three		
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory 1 (**Critical Tracking**; Gen Ed Biological Sciences)	4
PHY 2004 & 2004L	Applied Physics 1 and Laboratory for Applied Physics 1 (Gen Ed Physical Sciences)	4
Gen Ed Composition; Writing Requirement		3
State Core Gen Ed Social and Behavioral Sciences (p. 23)		3
Elective		1
	Credits	15
Semester Four		
AEB 3114L	Introduction to Agricultural Computer Applications	1
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2 (**Critical Tracking**; Gen Ed Biological Sciences)	4
CHM 2210	Organic Chemistry 1 (minimum grade of C within two attempts, including withdrawals) [1]	3
FOS 3042	Introductory Food Science	3
STA 2023	Introduction to Statistics 1 (Gen Ed Mathematics)	3
Elective		1
	Credits	15
Semester Five		
AEC 3030C	Effective Oral Communication	3

CHM 2211 & 2211L	Organic Chemistry 2 and Organic Chemistry Laboratory	5
FOS 4722C	Quality Control in Food Systems	3
Elective		4
	Credits	15
Semester Six		
FOS 4311 & 4311L	Food Chemistry and Food Chemistry Laboratory	4
FOS 4731	Government Regulations and the Food Industry	2
HUN 2201	Fundamentals of Human Nutrition	3
MCB 2000 & 2000L	Microbiology and Microbiology Laboratory	4
Elective		3
	Credits	16
Semester Seven		
AEC 3033C	Research and Business Writing in Agricultural and Life Sciences (Writing Requirement)	3
AOM 4062	Principles of Food Engineering	4
BCH 3025	Fundamentals of Biochemistry	4
FOS 4321C	Food Analysis	4
	Credits	15
Semester Eight		
FOS 4222 & 4222L	Food Microbiology and Food Microbiology Laboratory	5
FOS 4427C	Principles of Food Processing	4
FOS 4435C	Food Product Development	3
Elective		3
	Credits	15
	Total Credits	120

[1] Take (CHM 2210 and CHM 2211/CHM 2211L) or (MAC 2312 and CHM 2200/CHM 2200L).

Additional electives may be needed to complete the 120 credits required for graduation.

Academic Learning Compact

Food science applies the principles of chemistry, biology, physics and analysis to solve problems related to composition, reactions, processing, quality, safety and packaging of foods. Students will learn to apply principles of microbiology and quality control with regulatory requirements to assure the quality and safety of food products. Emphasis will be placed on food processing and engineering in selecting appropriate methods for commercial food production.

Before Graduating Students Must

- Successfully complete a product development project administered in FOS 4435C, the undergraduate capstone course. The skills to complete the project will have been acquired from the required food science courses. The project is evaluated using a rubric approved by a faculty committee.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty committee.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Apply principles of chemistry, biology, physics and analysis to solve problems related to composition, reactions, processing, quality, safety and packaging of foods.
2. Apply principles of microbiology and quality control, along with regulatory requirements, to assure the quality and safety of food products.
3. Apply principles of food processing and engineering to the selection of appropriate methods for commercial food production.

Critical Thinking

4. Analyze and interpret analytical data using knowledge and application of food science, technology and related tools.

Communication

5. Create, interpret and analyze written text, oral messages and multimedia presentations used in agricultural and life sciences.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4	SLO 5
AEC 3030C					I, R, A
AEC 3033C					I, R, A
AOM 4062			I		
FOS 4222 and 4222L		I, R			
FOS 4311 and 4311L	I, R				
FOS 4321C	R			R	
FOS 4427C			I		
FOS 4435C	R, A	R, A	R, A	R, A	R
FOS 4722C	R	R	R	R	
FOS 4731		R			

Assessment Types

- Food product development project
- Speeches
- Papers

Food Science Minor

Established in 1870, the mission of the College of Agricultural and Life Sciences is to deliver unsurpassed educational programs that prepare students to address the world's critical challenges related to agriculture, food systems, human well-being, natural resources and sustainable communities.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 15 | Completed with minimum grades of C and a minimum cumulative 2.5 GPA in the minor
- **Related Food Science and Human Nutrition Programs**

The food science minor is open to all students at the university.

Courses for the minor may have prerequisites.

Required Courses

Suggested Courses

More suitable for students with minimal science backgrounds

Code	Title	Credits
FOS 2001	Man's Food	3
FOS 3042	Introductory Food Science	3
FOS 4202	Food Safety and Sanitation	2
FOS 4722C	Quality Control in Food Systems	3
FOS 4731	Government Regulations and the Food Industry	2

FOS 4936	Topics in Food Science (HAACP Systems)	2
Total Credits		15

Optional Courses

More suitable for students with extensive science backgrounds

Code	Title	Credits
AOM 4062	Principles of Food Engineering	4
FOS 4222	Food Microbiology	3
FOS 4222L	Food Microbiology Laboratory	2
FOS 4311	Food Chemistry	3
FOS 4311L	Food Chemistry Laboratory	1
FOS 4321C	Food Analysis	4
FOS 4427C	Principles of Food Processing	4
FOS 4522C	Seafood Technology	3

Related Food Science and Human Nutrition Programs

- Bachelor of Science in Dietetics (p. 110)
- Bachelor of Science in Food Science (p. 152)
- Bachelor of Science in Nutritional Sciences (p. 240)
- Nutritional Sciences minor (p. 243)

Forest Resources and Conservation

Providing students with a solid understanding of ecology, this major prepares students to manage and develop forest areas for economic, recreational, and ecological purposes. Forest Resources and Conservation students study natural resource management and analysis, soil and water sciences, plant identification, law and policy, fire management, and natural resource economics.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor of Science in Forest Resources and Conservation
- **Specializations:** Environmental Pre-Law (p. 158) | Forest Business Management | (p. 162) Forest Resource Management (p. 166) | Protected Areas Management (p. 170) | Recreation Resources Management (p. 174) | Urban Forestry (p. 178) | Watershed Science and Management (p. 182)
- **Credits for Degree:** 120
- **Contact:** Email (khaselier@ufl.edu?Subject=Forest Resources and Conservation Major)
- **Additional Information**
- **Related Forest Resources and Conservation Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Specializations

Forest Resource Management

Accredited by the Society of American Foresters and is for students seeking careers as professional forest resource managers who apply science-based strategies to managing publicly and privately-owned forest lands.

Urban Forestry

Accredited by the Society of American Foresters and is for students with interests in forest management in the typically local-scale forests in urban-suburban landscapes, and at the interface of urban and undeveloped lands.

Environmental Pre-Law

Accredited by the Society of American Foresters and provides a solid basis of forest and natural resources science and management upon which is built a broad introduction to the policies, ethics, and processes affecting the use of natural resources.

Protected Areas Management

Accredited by the Society of American Foresters and is for students interested in managing lands for conservation and restoration purposes, usually on public lands managed by the government or by lands owned by private conservation organizations.

Recreation Resources Management

Accredited by the Society of American Foresters and focuses on the sustainable management of recreation lands as a natural resource and understanding human dimensions as related to their use.

Forest Business Management

Accredited by the Society of American Foresters and gives students a sound background in natural resource management and a broad introduction to business as appropriate for students interested in consulting, real estate or working for forest industry.

Watershed Science and Management

Prepares students to address the many and varied management issues associated with water resources, including wetlands, soils, policy, and water quality.

Related Forest Resources and Conservation Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Forest Resources and Conservation minor (p. 186)
- Bachelor of Science in Natural Resource Conservation (p. 235)

Academic Learning Compact

The forest resources and conservation major provides a broad education in the ecological, economic and social aspects of forest and natural resources and their management. The major also provides national accreditation from the Society of American Foresters.

Before Graduating Students Must

- Pass the forest resources and conservation competency exam, given in five parts. One part will be given in each of these required courses:

Code	Title	Credits
FNR 3131C	Dendrology/Forest Plants	3
FNR 3410C	Natural Resource Sampling	3
FNR 4040C		
FNR 4623C	Integrated Natural Resource Management	3
FNR 4660	Natural Resource Policy and Economics	3

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Demonstrate competency in biology/ecology, quantification, policy/administration and management of forest and related natural resources.
2. Analyze, interpret, synthesize and communicate information and data, including the use of mathematical and statistical methods.

Critical Thinking

3. Solve novel problems in forest and natural resource management.

Communication

4. Create, interpret and analyze written text, oral messages and multimedia presentations.

This specialization provides a solid basis of forest and natural resources science and management upon which is built a broad introduction to the policies, ethics, and processes affecting the use of natural resources.

Critical Tracking

Note that critical tracking is the same for all specializations of this major.

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=030501&track=02) may be used for transfer students.

Semester 1

- Complete 1 of 7 critical-tracking courses: AEB 2014 or ECO 2013 or ECO 2023, AEC 3030C or SPC 2608, AEC 3033C, BSC 2010/BSC 2010L, CHM 1030 or CHM 2045, MAC 1105, STA 2023
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 7 critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
Select one:		3

CHM 1030	Basic Chemistry Concepts and Applications 1 (**Critical Tracking**; Gen Ed Biological and Physical Sciences)	
CHM 2045	General Chemistry 1 (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	
State Core Gen Ed Composition (p. 23); Writing Requirement		3

Select one:		3
SWS 3022	Introduction to Soils in the Environment	
SUR 3103C	Geomatics	
GIS 3072C	Geographic Information Systems	
Directed elective		1
	Credits	13
Semester Six		
BUL 4310	The Legal Environment of Business	4
CPO 4793	Environmental Politics in the Global South	3
FOR 3162C	Silviculture	4
FOR 3202	Society and Natural Resources	3
	Credits	14
Semester Seven		
AEB 4085	Agricultural Risk Management and the Law	3
AEB 4126 or POT 3503	Agricultural and Natural Resource Ethics or Environmental Ethics and Politics	3
FNR 4660	Natural Resource Policy and Economics	3

FOR 4020	Seminar in Contemporary Issues in Forest Resources and Conservation	1
SUR 4403	Cadastral Principles	3
	Credits	13
Semester Eight		
AEB 4123	Agricultural and Natural Resource Law	3
AEB 4242	International Trade Policy in Agriculture	3
FNR 4343C	Forest Water Resources	3
FNR 4623C	Integrated Natural Resource Management	3
FOR 3214	Fire Ecology and Management	2
FOR 3214L	Fire Ecology and Management Laboratory (optional)	0-1
	Credits	14-15
	Total Credits	120

1 Can substitute ENC 2210 or ENC 3254.

2 Elective: FOR 2662 recommended, if not already taken; or FOR 3004 recommended.

Placement tests and/or prerequisites may be necessary for access to certain courses.

Course availability may necessitate departure from this course sequence. Except for certain courses where sequence is important, successful completion is more important than the sequence in which the courses are taken.

The summer term between the junior and senior year is normally reserved for professional work experience. For questions regarding opportunities, email (khaselier@ufl.edu?Subject=Forest Resources and Conservation Major) the SFRC Student Services office.

Academic Learning Compact

	Credits	15-16
	Total Credits	120

[1] Can substitute ENC 2210 or ENC 3254.

[2] Elective: FOR 2662 recommended, if not already taken; or FOR 3004 recommended.

Placement tests and/or prerequisites may be necessary for access to certain courses.

Course availability may necessitate departure from this course sequence. Except for certain courses where sequence is important, successful completion is more important than the sequence in which the courses are taken.

The summer term between the junior and senior year is normally reserved for professional work experience. For questions regarding opportunities, email (khaselier@ufl.edu?Subject=Forest Resources and Conservation Major) the SFRC Student Services office.

Academic Learning Compact

The forest resources and conservation major provides a broad education in the ecological, economic and social aspects of forest and natural resources and their management. The major also provides national accreditation from the Society of American Foresters.

Before Graduating Students Must

- Pass the forest resources and conservation competency exam, given in five parts. One part will be given in each of these required courses:

Code	Title	Credits
FNR 3131C	Dendrology/Forest Plants	3
FNR 3410C	Natural Resource Sampling	3
FNR 4040C		
FNR 4623C	Integrated Natural Resource Management	3
FNR 4660	Natural Resource Policy and Economics	3

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Demonstrate competency in biology/ecology, quantification, policy/administration and management of forest and related natural resources.
2. Analyze, interpret, synthesize and communicate information and data, including the use of mathematical and statistical methods.

Critical Thinking

3. Solve novel problems in forest and natural resource management.

Communication

4. Create, interpret and analyze written text, oral messages and multimedia presentations.

Forest Resources and Conservation | Forest Resource Management

Providing students with a solid understanding of ecology, this major prepares students to manage and develop forest areas for economic, recreational, and ecological purposes. Forest Resources and Conservation students study natural resource management and analysis, soil and water sciences, plant identification, law and policy, fire management, and natural resource economics.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor of Science in Forest Resources and Conservation
- **Specializations:** Environmental Pre-Law (p. 158) | Forest Business Management | (p. 162) Forest Resource Management (p. 166) | Protected Areas Management (p. 170) | Recreation Resources Management (p. 174) | Urban Forestry (p. 178) | Watershed Science and Management (p. 182)
- **Credits for Degree:** 120
- **Contact:** Email (khaselier@ufl.edu?Subject=Forest Resources and Conservation Major)
- **Additional Information**
- **Related Forest Resources and Conservation Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Specializations

Forest Resource Management

Accredited by the Society of American Foresters and is for students seeking careers as professional forest resource managers who apply science-based strategies to managing publicly and privately-owned forest lands.

Urban Forestry

Accredited by the Society of American Foresters and is for students with interests in forest management in the typically local-scale forests in urban-suburban landscapes, and at the interface of urban and undeveloped lands.

Environmental Pre-Law

Accredited by the Society of American Foresters and provides a solid basis of forest and natural resources science and management upon which is built a broad introduction to the policies, ethics, and processes affecting the use of natural resources.

Protected Areas Management

Accredited by the Society of American Foresters and is for students interested in managing lands for conservation and restoration purposes, usually on public lands managed by the government or by lands owned by private conservation organizations.

Recreation Resources Management

Accredited by the Society of American Foresters and focuses on the sustainable management of recreation lands as a natural resource and understanding human dimensions as related to their use.

Forest Business Management

Accredited by the Society of American Foresters and gives students a sound background in natural resource management and a broad introduction to business as appropriate for students interested in consulting, real estate or working for forest industry.

Watershed Science and Management

Prepares students to address the many and varied management issues associated with water resources, including wetlands, soils, policy, and water quality.

Related Forest Resources and Conservation Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Forest Resources and Conservation minor (p. 186)
- Bachelor of Science in Natural Resource Conservation (p. 235)

Forest Resource Management

This specialization is for students seeking careers as professional forest resource managers who apply science-based strategies to managing publicly and privately-owned forest lands.

Critical Tracking

Note that critical tracking is the same for all specializations of this major.

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=030501&track=02) may be used for transfer students.

Semester 1

- Complete 1 of 7 critical-tracking courses: AEB 2014 or ECO 2013 or ECO 2023, AEC 3030C or SPC 2608, AEC 3033C, BSC 2010/BSC 2010L, CHM 1030 or CHM 2045, MAC 1105, STA 2023
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 7 critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
Select one:		3
CHM 1030	Basic Chemistry Concepts and Applications 1 (**Critical Tracking**; Gen Ed Biological and Physical Sciences)	
CHM 2045	General Chemistry 1 (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	
FOR 2662	Forests for the Future (Gen Ed Social and Behavioral Sciences; recommended course)	3
State Core Gen Ed Composition (p. 23); Writing Requirement		3
Elective		3
	Credits	15
Semester Two		
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory 1 (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	4
MAC 1105	Basic College Algebra (**Critical Tracking**; or higher; State Core Gen Ed Mathematics)	3
FAS 2024	Sustainable Fisheries (recommended elective)	3
State Core Gen Ed Social and Behavioral Sciences (p. 23)		3
Elective		3
	Credits	16
Semester Three		
Select one: [1]		3
AEC 3033C	Research and Business Writing in Agricultural and Life Sciences (**Critical Tracking**; Writing Requirement)	
ENC 2210	Technical Writing (**Critical Tracking**; Writing Requirement)	
ENC 3254	Professional Writing in the Discipline (**Critical Tracking**; Writing Requirement)	
STA 2023	Introduction to Statistics 1 (**Critical Tracking**; Gen Ed Mathematics)	3
FOR 2662	Forests for the Future (recommended, if not already taken) [2]	3
Gen Ed Composition		3

	Credits	14
Semester Four		
Select one:		3-4
AEB 2014	Economic Issues, Food and You (**Critical Tracking**)	
ECO 2013	Principles of Macroeconomics (**Critical Tracking**)	
ECO 2023	Principles of Microeconomics (**Critical Tracking**; Gen Ed Social and Behavioral Sciences)	
Select one:		3
AEC 3030C	Effective Oral Communication (**Critical Tracking**)	
SPC 2608	Introduction to Public Speaking (**Critical Tracking**)	
FAS 2024	Sustainable Fisheries (recommended elective, if not already taken)	3
PHY 2020	Introduction to Principles of Physics (Gen Ed Physical Sciences; recommended course)	3
State Core Gen Ed Humanities (p. 23)		3
	Credits	15-16
Summer After Semester Four		
FOR 3200C	Foundations of Natural Resources and Conservation (Summer B only)	3
FOR 3434C	Forest Resources Information Systems (Summer B only)	3
	Credits	6
Semester Five		
FNR 3131C	Dendrology/Forest Plants	3
FNR 3410C	Natural Resource Sampling	3
FOR 3153C	Forest Ecology	3
FOR 4664	Sustainable Ecotourism Development	3
	Credits	12

Semester Six		
FOR 3162C	Silviculture	4
FOR 3202	Society and Natural Resources	3
Business management elective		3
Directed electives		4
	Credits	14
Semester Seven		
FNR 4660	Natural Resource Policy and Economics	3
FOR 4020	Seminar in Contemporary Issues in Forest Resources and Conservation	1
Forest resources and management elective		3
Recreation elective		3
Recreation resources elective		3
	Credits	13
Semester Eight		
FNR 4343C	Forest Water Resources	3
FNR 4623C	Integrated Natural Resource Management	3
FOR 3214	Fire Ecology and Management	2
FOR 3214L	Fire Ecology and Management Laboratory (optional)	0-1
MAN 3025	Principles of Management	4
Recreation elective		3
	Credits	15-16
	Total Credits	120

1 Fulfills CALS Advanced Communication Writing Requirement.

2 Elective: FOR 2662 recommended, if not already taken; or FOR 3004 recommended.

Placement tests and/or prerequisites may be necessary for access to certain courses.

Course availability may necessitate departure from this course sequence. Except for certain courses where sequence is important, successful completion is more important than the sequence in which the courses are taken.

The summer term between the junior and senior year is normally reserved for professional work experience. For questions regarding opportunities, email (khaselier@ufl.edu?Subject=Forest Resources and Conservation Major) the SFRC Student Services office.

Academic Learning Compact

The forest resources and conservation major provides a broad education in the ecological, economic and social aspects of forest and natural resources and their management. The major also provides national accreditation from the Society of American Foresters.

Before Graduating Students Must

- Pass the forest resources and conservation competency exam, given in five parts. One part will be given in each of these required courses:

Code	Title	Credits
FNR 3131C	Dendrology/Forest Plants	3
FNR 3410C	Natural Resource Sampling	3
FNR 4040C		
FNR 4623C	Integrated Natural Resource Management	3
FNR 4660	Natural Resource Policy and Economics	3

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Demonstrate competency in biology/ecology, quantification, policy/administration and management of forest and related natural resources.
2. Analyze, interpret, synthesize and communicate information and data, including the use of mathematical and statistical methods.

Critical Thinking

3. Solve novel problems in forest and natural resource management.

Communication

4. Create, interpret and analyze written text, oral messages and multimedia presentations.

Forest Resources and Conservation | Urban Forestry

Providing students with a solid understanding of ecology, this major prepares students to manage and develop forest areas for economic, recreational, and ecological purposes. Forest Resources and Conservation students study natural resource management and analysis, soil and water sciences, plant identification, law and policy, fire management, and natural resource economics.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor of Science in Forest Resources and Conservation
- **Specializations:** Environmental Pre-Law (p. 158) | Forest Business Management | (p. 162) Forest Resource Management (p. 166) | Protected Areas Management (p. 170) | Recreation Resources Management (p. 174) | Urban Forestry (p. 178) | Watershed Science and Management (p. 182)
- **Credits for Degree:** 120
- **Contact:** Email (khaselier@ufl.edu?Subject=Forest Resources and Conservation Major)
- **Additional Information**
- **Related Forest Resources and Conservation Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Specializations

Forest Resource Management

Accredited by the Society of American Foresters and is for students seeking careers as professional forest resource managers who apply science-based strategies to managing publicly and privately-owned forest lands.

Urban Forestry

Accredited by the Society of American Foresters and is for students with interests in forest management in the typically local-scale forests in urban-suburban landscapes, and at the interface of urban and undeveloped lands.

Environmental Pre-Law

Accredited by the Society of American Foresters and provides a solid basis of forest and natural resources science and management upon which is built a broad introduction to the policies, ethics, and processes affecting the use of natural resources.

Protected Areas Management

Accredited by the Society of American Foresters and is for students interested in managing lands for conservation and restoration purposes, usually on public lands managed by the government or by lands owned by private conservation organizations.

Recreation Resources Management

Accredited by the Society of American Foresters and focuses on the sustainable management of recreation lands as a natural resource and understanding human dimensions as related to their use.

Forest Business Management

Accredited by the Society of American Foresters and gives students a sound background in natural resource management and a broad introduction to business as appropriate for students interested in consulting, real estate or working for forest industry.

Watershed Science and Management

Prepares students to address the many and varied management issues associated with water resources, including wetlands, soils, policy, and water quality.

Related Forest Resources and Conservation Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Forest Resources and Conservation minor (p. 186)
- Bachelor of Science in Natural Resource Conservation (p. 235)

Urban Forestry

This specialization is for students with interests in forest management in the typically local-scale forests in urban-suburban landscapes, and at the interface of urban and undeveloped lands.

Critical Tracking

Note that critical tracking is the same for all specializations of this major.

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=030501&track=02) may be used for transfer students.

Semester 1

- Complete 1 of 7 critical-tracking courses: AEB 2014 or ECO 2013 or ECO 2023, AEC 3030C or SPC 2608, AEC 3033C, BSC 2010/BSC 2010L, CHM 1030 or CHM 2045, MAC 1105, STA 2023
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 7 critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

Forest Resources and Conservation Minor

This minor introduces natural resource management and is ideal for students majoring in related fields such as wildlife ecology, soil and water science and environmental science. The minor also is a good option for those who are interested in the social aspects of natural resources with majors such as business, education, food and resource economics, political science, etc.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 17-18 | Completed with minimum grades of C
- **Contact:** 121 Newins-Ziegler Hall (http://campusmap.ufl.edu/?loc=0832)
- **Related Forest Resources and Conservation Programs**

Prerequisites for each course must be completed before enrollment. Students must declare the minor at least two semesters before graduation.

- Bachelor of Science in Natural Resource Conservation (p. 235)

Geomatics

The geomatics profession collects, manages, and analyzes geospatial data through ground surveying, photogrammetry, remote sensing, satellite positioning, inertial measurements, echo-sounding, and laser scanning. Geomatics students study geometry, statistics, boundary law, and surveying and mapping instrument usage.

- **Degree:** Bachelor of Science in Geomatics
- **Specializations:** Geospatial Analysis (p. 188) | Surveying and Mapping (p. 192)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Geomatics Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Geomatics students learn how land, infrastructure, and natural resources are measured, analyzed, and integrated into useable forms and systems. Students gain hands-on experience working with field equipment and in high-tech classrooms. Present land values, rates of urban development, and environmental concerns require a broad set of expertise to develop, manage, and apply geospatial information. Students majoring in Geomatics complete either the Surveying and Mapping specialization or the Geospatial Analysis specialization.

Both specializations within the Geomatics major are offered at the Fort Lauderdale Research and Education Center in Ft. Lauderdale, FL, the Gulf Coast Research and Education Center in Plant City, FL (near Tampa) and at the Mid-Florida Research and Education Center in Apopka, FL (near Orlando).

Related Geomatics Programs

- Geomatics certificate (p. 197)
- Mapping with Small Unmanned Aerial Systems certificate (p. 217)

Academic Learning Compact

Geomatics addresses land information development and management through field survey, photogrammetry, remote sensing, satellite positions and other techniques. The program is nationally accredited and graduates often obtain licensure as professional surveyors and mappers.

A nationally accredited ABET (http://www.abet.org) program.

Before Graduating Students Must

- Pass the geomatics competency exam, given in five parts. One part will be given in each of these required courses:

Code	Title	Credits
SUR 3103C	Geomatics	3
SUR 3520	Measurement Science	3
SUR 4430	Surveying and Mapping Practice	3
SUR 4463	Subdivision Design	3

SUR 4912	Senior Project	1
Total Credits		13

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Knowledge and competency in geometry, statistics, boundary law, surveying and mapping instrument usage and statutes and ordinances pertaining to professional practice.

Geomatics | Geospatial Analysis

The geomatics profession collects, manages, and analyzes geospatial data through ground surveying, photogrammetry, remote sensing, satellite positioning, inertial measurements, echo-sounding, and laser scanning. Geomatics students study geometry, statistics, boundary law, and surveying and mapping instrument usage.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor of Science in Geomatics
- **Specializations:** Geospatial Analysis (p. 188) | Surveying and Mapping (p. 192)

Related Geomatics Programs

- Geomatics certificate (p. 197)
- Mapping with Small Unmanned Aerial Systems certificate (p. 217)

Geospatial Analysis

The Geospatial Analysis specialization offers a broader set of courses in GIS and 3-D modeling.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=151102&track=01) may be used for transfer students.

Semester 1

- Complete at least 1 of 7 critical-tracking courses (excluding labs): AEB 2014 or ECO 2023 or ECO 2013, AEC 3030C or SPC 2608, COP 2800 or advisor-approved course in computer programming, MAC 2311, PHY 2053/PHY 2053L, PHY 2054/PHY 2054L and STA 2023
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete at least 2 additional critical-tracking courses, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete at least 2 additional critical-tracking courses, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete at least 2 additional critical-tracking courses, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Select one:		3-4
AEB 2014	Economic Issues, Food and You (**Critical Tracking**; Gen Ed Social and Behavioral Sciences)	
ECO 2013	Principles of Macroeconomics (**Critical Tracking**; Gen Ed Social and Behavioral Sciences)

Geomatics Certificate

The geomatics certificate is offered via distance learning technologies. The certificate enables individuals without a bachelor's degree in geomatics or a similar field to complete the necessary academic coursework required for licensure as a professional surveyor and mapper (PSM).

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 15 | Completed with minimum grades of C
- **Contact:** Email (shouder@ufl.edu) | 352.846.0146
- **Related Geomatics Programs**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Students must have a high-school diploma or the equivalent and they must have completed all course prerequisites before enrolling in any course. Degree-seeking geomatics majors are not eligible for this certificate.

Required Courses

Code	Title	Credits
SUR 3103C	Geomatics	3
SUR 3641	Survey Computations	3
Approved electives		9
Total Credits		15

Approved Electives

Code	Title	Credits

SUR 3323	Visualization of Spatial Information	3
SUR 4201	Route Geometrics and Design	3
SUR 4403	Cadastral Principles	3
SUR 4430	Surveying and Mapping Practice	3

Related Geomatics Programs

- Bachelor of Science in Geomatics (p. 187)
- Mapping with Small Unmanned Aerial Systems certificate (p. 217)

Golf and Sports Turf Management Minor

The golf and sports turf management minor provides a basic understanding of turfgrass culture and knowledge of the turfgrass industry.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 15
- **Related Plant Science Programs**

Specific courses within the minor must be approved in writing by the student's advisor and the advisor for the minor at least one semester before graduation.

Required Courses

Code	Title	Credits
BOT 2010C	Introductory Botany	3
ORH 3222C	Turfgrass Culture	4
ORH 4223	Golf and Sports Turf Management	2
ORH 4236C	Ornamental Landscape Management	3
PLS 4601C	Principles of Weed Science	3

or SWS 3022	Introduction to Soils in the Environment	
Total Credits		15

Related Plant Science Programs

- Bachelor of Science or Bachelor of Arts in Plant Science (p. 248)
- Environmental Horticulture minor (p. 128)
- Plant Science minor (p. 291)

Horticultural Science

Horticultural Science graduates have a foundation of knowledge in the science behind fruit and vegetable production, including commodity production, cropping systems, basic plant science, and molecular biology. Horticultural Science students study genetics, crop nutrition, plant physiology, chemistry, physics, entomology and nematology, and soil and water sciences.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor in Science
- **Specializations:** Horticultural Production (p. 199) | Horticultural Science (p. 202) | Organic Crop Production (p. 206) | Plant Molecular and Cellular Biology (p. 210)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Horticultural Science Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The department offers four specializations: horticultural sciences, horticultural production, organic crop production, and plant molecular and cellular biology. These options provide a strong science background and flexibility when choosing elective courses. An academic advisor will help develop the curriculum that best suits your career and educational goals.

Related Horticultural Science Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Horticultural Science minor (p. 213)

Academic Learning Compact

The horticultural science major prepares students for a career in plant science, including management, production, research, marketing and sales. Students will gain knowledge ranging from commodity production and cropping systems to basic plant science and molecular biology. They will develop skills to describe how plant physiology and genetics relate to plant growth and development as well as developing knowledge of plant diseases and other factors that affect horticultural crops.

Before Graduating Students Must

- Pass the horticultural sciences competency test, given in three parts. One part will be given in each of these required courses:

Code	Title	Credits
HOS 3020C	Principles of Horticulture Crop Production	4
HOS 4304	Horticultural Physiology	3
HOS 4341	Advanced Horticultural Physiology	3

- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe fundamental concepts, skills and processes in horticultural science.
2. Apply fundamental concepts, skills and processes in horticultural science.

Critical Thinking

3. Critically analyze and interpret data in horticultural science.
4. Solve problems in horticultural science.

Communication

5. Communicate effectively in written form in a manner appropriate in the field of horticultural science.
6. Communicate effectively orally in a manner appropriate in the field of horticultural science.

Horticultural Science | Horticultural Production

Horticultural Science graduates have a foundation of knowledge in the science behind fruit and vegetable production, including commodity production, cropping systems, basic plant science, and molecular biology. Horticultural Science students study genetics, crop nutrition, plant physiology, chemistry, physics, entomology and nematology, and soil and water sciences.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor in Science
- **Specializations:** Horticultural Production (p. 199) | Horticultural Science (p. 202) | Organic Crop Production (p. 206) | Plant Molecular and Cellular Biology (p. 210)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Horticultural Science Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The department offers four specializations: horticultural sciences, horticultural production, organic crop production, and plant molecular and cellular biology. These options provide a strong science background and flexibility when choosing elective courses. An academic advisor will help develop the curriculum that best suits your career and educational goals.

Related Horticultural Science Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Horticultural Science minor (p. 213)

Horticultural Production

This is a comprehensive program for students planning careers in any phase of the fruit and/or vegetable industry. This specialization emphasizes crop production and management. Career options include production management, agricultural sales, marketing, technical representation and many other opportunities.

Critical Tracking

Note that critical tracking is the same for all specializations of this major except Plant Molecular and Cellular Biology.

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=011103&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 5 critical-tracking courses, excluding labs: BOT 2010C or BSC 2010/BSC 2010L, BOT 2011C or BSC 2011/BSC 2011L, CHM 2045/CHM 2045L, MAC 1147, PHY 2004 or PHY 2020
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

	Total Credits	120

1 Other practical work experience course options, such as relevant study abroad experiences, may be approved by the advisor.

2 Any FRC, VEC, or HOS course, 3000 level or above.

Academic Learning Compact

The horticultural science major prepares students for a career in plant science, including management, production, research, marketing and sales. Students will gain knowledge ranging from commodity production and cropping systems to basic plant science and molecular biology. They will develop skills to describe how plant physiology and genetics relate to plant growth and development as well as developing knowledge of plant diseases and other factors that affect horticultural crops.

Before Graduating Students Must

- Pass the horticultural sciences competency test, given in three parts. One part will be given in each of these required courses:

Code	Title	Credits
HOS 3020C	Principles of Horticulture Crop Production	4
HOS 4304	Horticultural Physiology	3
HOS 4341	Advanced Horticultural Physiology	3

- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Horticultural Science

This specialization offers students a generalized program, covering growth and development of horticultural crops. This is a flexible option that can be tailored to individual students' interests and career objectives, ranging from applied production to basic biology. Career options include commodity production/management, research biologist, marketing, agricultural chemical sales, fertilizer sales, produce buyer for grocery stores or restaurants, retail flower sales and a number of other opportunities.

Critical Tracking

Note that critical tracking is the same for all specializations of this major except Plant Molecular and Cellular Biology.

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

To graduate with this major, students must complete all university, college, and major requirements.

The department offers four specializations: horticultural sciences, horticultural production, organic crop production, and plant molecular and cellular biology. These options provide a strong science background and flexibility when choosing elective courses. An academic advisor will help develop the curriculum that best suits your career and educational goals.

Related Horticultural Science Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Horticultural Science minor (p. 213)

Plant Molecular and Cellular Biology

This is a comprehensive program focusing on the molecular aspects of crops, including crop growth, development and cultivar improvement. This specialization is geared toward preparing students for careers in laboratory research and is also an excellent preparation for students planning to pursue graduate studies.

Critical Tracking

Note that critical tracking is the same for all specializations of this major except Plant Molecular and Cellular Biology.

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=011103&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 6 critical-tracking courses, excluding labs: BSC 2010/BSC 2010L, BSC 2011/BSC 2011L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2311, PHY 2048/PHY 2048L or PHY 2053/PHY 2053L
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory 1 (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	4
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
MAC 1147	Precalculus Algebra and Trigonometry (State Core Gen Ed Mathematics (p. 23))	4
State Core Gen Ed Composition (p. 23); Writing Requirement		3
	Credits	14
Semester Two		
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2 (**Critical Tracking**; Gen Ed Biological Sciences and Physical Sciences)	4
Select one:		4-5
PHY 2053 & 2053L	Physics 1 and Laboratory for Physics 1 (**Critical Tracking**; Gen Ed Biological Sciences and Physical Sciences)	
PHY 2048 & 2048L	Physics with Calculus 1 and Laboratory for Physics with Calculus 1 (**Critical Tracking**; Gen Ed Biological Sciences and Physical Sciences)	
State Core Gen Ed Social and Behavioral Sciences (p. 23)		3
Elective		3
	Credits	14-15
Semester Three		
AEC 3033C	Research and Business Writing in Agricultural and Life Sciences (Writing Requirement)	3
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry 1 Laboratory (**Critical Tracking**; Gen Ed Biological Sciences and Physical Sciences)	4
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; Gen Ed Mathematics)	4
State Core Gen Ed Humanities (p. 23)		3

Elective		2
	Credits	16
Semester Four		
Select one:		3-4
AEB 2014	Economic Issues, Food and You (Gen Ed Social and Behavioral Sciences)	
ECO 2013	Principles of Macroeconomics (Gen Ed Social and Behavioral Sciences)	
ECO 2023	Principles of Microeconomics (Gen Ed Social and Behavioral Sciences)	
AEC 3030C	Effective Oral Communication	3
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory (**Critical Tracking**)	4
Gen Ed Composition; Writing Requirement		3
Elective		3
	Credits	16-17
Semester Five		
AGR 3303	Genetics	3
CHM 2210	Organic Chemistry 1	3
HOS 3020C	Principles of Horticulture Crop Production	4
HOS 3305	Introduction to Plant Molecular Biology	3
HOS 4313C	Laboratory Methods in Plant Molecular Biology	2
	Credits	15
Semester Six		
CHM 2211 & 2211L	Organic Chemistry 2 and Organic Chemistry Laboratory	5
HOS 4933	Professional Development in Horticulture	1
Approved electives		9
	Credits	15
Semester Seven		
BCH 3025 or BCH 4024	Fundamentals of Biochemistry or Introduction to Biochemistry and Molecular Biology	4
HOS 4304	Horticultural Physiology	3
PLP 3002C	Fundamentals of Plant Pathology	4
Approved elective		3
	Credits	14
Semester Eight		
AGR 4320	Plant Breeding	3
MCB 3020 & 3020L	Basic Biology of Microorganisms and Laboratory for Basic Biology of Microorganisms	4
Approved electives		9
	Credits	16
	Total Credits	120

Academic Learning Compact

The horticultural science major prepares students for a career in plant science, including management, production, research, marketing and sales. Students will gain knowledge ranging from commodity production and cropping systems to basic plant science and molecular biology. They will develop skills to describe how plant physiology and genetics relate to plant growth and development as well as developing knowledge of plant diseases and other factors that affect horticultural crops.

Before Graduating Students Must

- Pass the horticultural sciences competency test, given in three parts. One part will be given in each of these required courses:

Code	Title	Credits
HOS 3020C	Principles of Horticulture Crop Production	4
HOS 4304	Horticultural Physiology	3
HOS 4341	Advanced Horticultural Physiology	3

- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe fundamental concepts, skills and processes in horticultural science.
2. Apply fundamental concepts, skills and processes in horticultural science.

Critical Thinking

3. Critically analyze and interpret data in horticultural science.
4. Solve problems in horticultural science.

Communication

5. Communicate effectively in written form in a manner appropriate in the field of horticultural science.
6. Communicate effectively orally in a manner appropriate in the field of horticultural science.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4	SLO 5	SLO 6
AEC 3030C					I, R, A	
AEC 3033C						I, R, A
AGR 3303	I	I				
HOS 3020C	I, R, A	I	I	I		
HOS 3430C	I, R	I, R	R	R		
HOS 4304	R	A	A	A		
HOS 4341	R	R	R	R		
HOS 4933					R	R

Assessment Types

- Class project
- Writing assignments
- Exams
- Final grades

Horticultural Science Minor

The horticultural science minor is open to any student who wants to explore an interest in fruits and vegetables.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 16
- **Contact:** Email (zxin@ufl.edu) | 352.273.4773
- **Related Horticultural Science Programs**

Some background courses in botany or plant science are recommended.

Required Courses

Code	Title	Credits
HOS 3020C	Principles of Horticulture Crop Production	4
Select 9 credits:		9
FRC 3212	Introduction to Citrus Culture and Production	
FRC 3252	Tropical and Subtropical Fruits	
FRC 3274	Tree and Small Fruit Production	
HOS 3222C	Greenhouse and Protected Agriculture	
HOS 3430C	Nutrition of Horticultural Crops	
HOS 3281C	Organic and Sustainable Crop Production	
VEC 3221C	Vegetable Production	

FRC, HOS or VEC course (3000/4000 level)	3
Total Credits	16

International Development and Humanitarian Assistance Minor

The international development and humanitarian assistance minor provides the foundational skills and knowledge necessary to contribute productively in nonprofit organizations, private businesses, and public-sector organizations involved with international development and humanitarian assistance.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 15

The minor is open to all students.

Required Courses

Code	Title	Credits
AEB 3671	Comparative World Agriculture	3
AEB 4282	International Humanitarian Assistance [1]	3
AEB 4283	International Development Policy [1]	3
Approved electives		6
Total Credits		15

[1] Students must earn minimum grades of C in AEB 4282 and AEB 4283 to continue in the minor.

Approved Electives

Code	Title	Credits
AEB 4242	International Trade Policy in Agriculture	3
AFS 4350	HIV / AIDS in Africa	3
AFS 4935	African Studies Interdisciplinary Seminar	3
ANT 4266	Economic Anthropology	3
CPO 4034	Politics in Developing Nations	3
FYC 4409	Working with Nonprofit Organizations in Community Settings	3
GEO 3502	Economic Geography	3
HSC 4624	Trends in International Health	3
INR 3034	Politics of the World Economy	3
INR 4035	Rich and Poor Nations in the International System	3
LAH 3300	Contemporary Latin America	3
LAS 3930	Special Topics in Latin American Studies	3
LAS 4935	Latin American Area Seminar	3
URP 3001	Cities of the World	3
WST 3930	Special Interdisciplinary Topics in Women's Studies (Gender and Development)	3

International Studies in Agricultural and Life Sciences Minor

Established in 1870, the mission of the College of Agricultural and Life Sciences is to deliver unsurpassed educational programs that prepare students to address the world's critical challenges related to agriculture, food systems, human well-being, natural resources and sustainable communities.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 15
- **Contact:** Email (wysocki@ufl.edu) | 352.392.1963

Courses must be approved by the associate dean of the college.

The minor has three components:

1. At least six weeks abroad in an approved study abroad program, a cooperative work experience, an internship or a senior thesis project.
2. 9-12 credits in courses with an international focus and technical content related to agricultural and life sciences, selected from the list of approved courses or completed abroad as part of an approved study program.
3. 3-6 credits that focus on the history, social organization, culture or language of a nation or region abroad. These courses can also be completed abroad as part of an approved study program.

Landscape Pest Management Certificate

This certificate offers training to place-bound employees of the landscape management and pest control industries who desire advanced training in landscape (turf, shrub, and tree) pests. The scope of the program extends beyond horticultural insect pests to include nematodes and plant diseases.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 15-16 | Completed with minimum grades of C
- **Contact:** Email (capinera@ufl.edu) | 352.273.3905

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Required Courses

Code	Title	Credits
ENY 3005	Principles of Entomology	3
& 3005L	and Principles of Entomology Laboratory	
ENY 3510C	Turf and Ornamental Entomology	3
Approved electives		9-10
Total Credits		15-16

Approved Electives

Code	Title	Credits
ENY 4161	Insect Classification	3
ENY 5236	Insct/Pest/Vctr Manag	3
NEM 3002	Principles of Nematology	3
PLP 3002C	Fundamentals of Plant Pathology	4

Leadership Minor

This interdisciplinary minor, in conjunction with the successful completion of the degree program, provides the fundamental skills and knowledge necessary to assume leadership, supervisory or management positions in private companies and nonprofit organizations.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 15-16 | Completed with a minimum cumulative 3.0 GPA for courses in the minor
- **Additional Information**
- **Related Agricultural Leadership Programs**

Because the minor is interdisciplinary, it draws on the expertise of faculty and staff in colleges across campus, which may include Agricultural and Life Sciences, Business, Health and Human Performance, Journalism and Communications, and Liberal Arts and Sciences.

The minor is open to all students, although admission is by application. A cumulative 3.0 GPA is necessary and the minor must be added before a student completes 90 credits. Students must earn a minimum grade of B in AEC 3414 to continue in the minor.

Required Courses

Code	Title	Credits
AEC 3414	Leadership Development	3
Select two:		6
AEC 3413	Working with People: Interpersonal Leadership Skills	
AEC 4417	Leadership for Personal and Organizational Change	
AEC 4434	Communication and Leadership in Groups and Teams	
AEC 4465	Global Leadership	
FYC 4408	Organizational Leadership for Nonprofits	
Communications elective		3
Ethics elective		3-4
Total Credits		15-16

Approved Electives

Communications Elective

Code	Title	Credits
AEC 3030C	Effective Oral Communication	3
AEC 3033C	Research and Business Writing in Agricultural and Life Sciences	3
AEC 3073	Intercultural Communication	3
COM 4930	Special Topics in Communication (Organizational Communication)	3
COM 4930	Special Topics in Communication (Nonverbal Communication)	3
ENC 2210	Technical Writing	3
ENC 3254	Professional Writing in the Discipline	3
GEB 3213	Professional Writing in Business	3
GEB 3218	Professional Speaking in Business	3
MMC 4302	World Communication Systems	3
SDS 4410	Interpersonal Communication Skills	3
SPC 2608	Introduction to Public Speaking	3

Ethics Elective

Code	Title	Credits
AEB 4126	Agricultural and Natural Resource Ethics	3
BUL 4310	The Legal Environment of Business	4
FYC 4114	Ethical Issues in Family, Youth and Community Sciences	3
JOU 4700	Problems and Ethics of Journalism in Society	3
PHI 2630	Contemporary Moral Issues	3
PHI 3693	Ethics of Communication	3
PHI 4662	Ethical Theory 1	3
POS 3263	Policy, Ethics and Public Leadership	3
RTV 4432	Ethics and Problems in Telecommunication	3

- Bachelor of Science in Agricultural Education and Communication (p. 46)

Management and Sales in Agribusiness Minor

This minor provides basic understanding and skills in agribusiness sales and management.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 15 | Completed with minimum grades of C

The student's academic advisor and the undergraduate coordinator for Food and Resource Economics must approve courses in the minor at least one semester before graduation. AEB 3103 does not count toward the minor.

Required Courses

Code	Title	Credits
AEB 3122	Financial Planning for Agribusiness	3
or AEB 3144	Introduction to Agricultural Finance	
AEB 3133	Principles of Agribusiness Management	3
AEB 3300	Agricultural and Food Marketing	3
AEB 3341	Selling Strategically	3
Approved elective		3
Total Credits		15

Approved Electives

Code	Title	Credits
AEB 3315	Futures Markets and Risk Management in Agriculture	3
AEB 4138	Advanced Agribusiness Management	3
AEB 4309	Food Wholesaling and Retail Marketing	3
AEB 4342	Agribusiness and Food Marketing Management	3
AEB 4343	International Agribusiness Marketing	3
AEB 4424	Human Resources Management in Agribusiness	3

Mapping with Small Unmanned Aerial Systems Certificate

This certificate focuses on mapping using small Unmanned Aerial Systems (UASs) and the use of UASs as a geospatial data-acquisition tool. Well-suited for students studying geomatics, as well as disciplines which require high resolution geospatial information such as agriculture, forestry, wildlife management, mining, infrastructure planning and monitoring, and disaster management.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 9 | Completed with minimum grades of C
- **Contact:** Email (shouder@ufl.edu) | 352.846.0146
- **Related Geomatics Programs**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Students must have a high-school diploma or the equivalent, and completed SUR 3103C with a minimum grade of C.

Required Courses

Code	Title	Credits
SUR 4376	Geospatial Applications of UASs	3
SUR 4501C	Foundations of UAS Mapping	3
SUR 4940C	Practicum in UAS Mapping	3
Total Credits		9

Related Geomatics Programs

- Bachelor of Science in Geomatics (p. 187)
- Geomatics certificate (p. 197)

Marine Sciences | CALS

From oceans to coastal wetlands, students will learn about marine organisms and their behaviors and interactions with the environment. Marine Sciences students study oceanography, statistics, fisheries and aquatic sciences, and invertebrate biodiversity. Students can focus elective courses on ecology, organismal biology, economics, human dimensions, and/or quantitative or professional skills.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **Additional Information**
- **Related Marine Sciences Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The university promotes an interdisciplinary approach to marine science education and research to prepare students for a variety of rewarding academic and professional careers. This major, offered cooperatively with the College of Liberal Arts and Sciences, allows students to tailor a curriculum that suits their interests and career goals.

The curriculum provides students with the core scientific and quantitative skills necessary for success. Lower-division courses build a strong foundation in basic sciences and math while upper-division courses provide opportunity for specialization. Students in the College of Agricultural and Life Sciences (CALS) complete an upper-division core that concentrates on biological and ecological marine science essentials while also giving students a critical understanding of how statistics and economics are integrated into marine science and resource management.

Students work closely with a faculty advisor to create an individualized curriculum plan of at least 18 approved elective credits and 15-16 hours of planned credits. These can include courses on resource management, human dimensions, conservation, quantitative population assessment and others. Students must complete their plans along with the approval of a faculty advisor before reaching 70 credits.

Coursework for the Major

The major requires 120 credits and at least 30 credits of upper-division coursework in the major must be completed at UF.

Required Coursework

Code	Title	Credits
BSC 2010	Integrated Principles of Biology 1	4
& 2010L	and Integrated Principles of Biology Laboratory 1	
BSC 2011	Integrated Principles of Biology 2	4
& 2011L	and Integrated Principles of Biology Laboratory 2

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=309999&track=01) may be used for transfer students.

Semester 1

- Complete OCE 1001 and 1 of the following, excluding labs: BSC 2010/BSC 2010L, BSC 2011/BSC 2011L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2311, PHY 2004/PHY 2004L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

FAS 4932	Topics in Fisheries and Aquatic Sciences (Applied Fisheries Statistics)	4
FNR 3410C	Natural Resource Sampling [1]	3
STA 3024	Introduction to Statistics 2 [1]	3
STA 4210	Regression Analysis [1]	3
STA 4211	Design of Experiments	3
STA 4222	Sample Survey Design [1]	3
WIS 4501	Introduction to Wildlife Population Ecology	3
WIS 4601C	Quantitative Wildlife Ecology	3

[1] Use as an approved elective if not used to meet the quantitative requirement in semester seven.

Additional Approved Electives | With instructor permission

Code	Title	Credits
FAS 6337C	Fish Population Dynam	4
GLY 6075	Glob Climate Change	3
OCP 6295	Estuar/Shelf Hydro 1	3
ZOO 6406	Biology of Sea Turtle	3
ZOO 6456C	Ichthyology	4

Academic Learning Compact

This interdisciplinary studies major provides integrative understanding of the basic concepts, theories and observational findings related to marine materials and processes, geologic time, the diversity of marine life, the structure and function of marine organisms and ecosystems and marine resource management.

The marine sciences major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences and utilizes faculty, courses and resources of the Fisheries and Aquatic Sciences Program (CALS), the Department of Geological Sciences (CLAS), the Department of Biology (CLAS), and the Department of Civil and Coastal Engineering (Herbert Wertheim College of Engineering).

Before Graduating Students Must

- Achieve a passing score on the subject test. The content of the examination has been reviewed and approved by the Marine Sciences Committee.
- Achieve a passing score on the analytical skills test. The content of the examination has been reviewed and approved by the Marine Sciences Committee.
- Achieve a passing score on the bioethics quiz. The content of the examination has been reviewed and approved by the Marine Sciences Committee.
- Achieve a passing score on the scientific literacy paper. This paper is assessed using a rubric that has been reviewed and approved by the Marine Sciences Committee.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Demonstrate competence in the basic terminology, concepts, methodologies and theories used within the marine sciences.

Critical Thinking

2. Analyze information in the marine sciences and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas and reasoning clearly, effectively and objectively in written or oral forms appropriate to the marine sciences.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4

Medical Entomology Certificate

The medical entomology certificate offers place-bound employees working in mosquito control, public health, and related areas who required advanced training on medically important arthropods the option to complete a program through distance education and short courses. Coursework provides training in the areas of medically important arthropod biology, identification, and management for disease vectors.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 15 | Completed with minimum grades of C
- **Contact:** Email (capinera@ufl.edu) | 352.273.3905

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Prerequisites

Code	Title	Credits
ENY 3005 & 3005L	Principles of Entomology and Principles of Entomology Laboratory	3

Required Courses

Code	Title	Credits
ENY 3005 & 3005L	Principles of Entomology and Principles of Entomology Laboratory	3
ENY 4660 & 4660L	Medical and Veterinary Entomology and Medical and Veterinary Entomology Laboratory	3
ENY 4590C	Mosquito Identification	3
ENY 4592	Mosquito Biology	3
Approved elective		3
Total Credits		15

Approved Electives

Code	Title	Credits
ENY 3225C	Principles of Urban Pest Management	3
ENY 3563	Introduction to Tropical Entomology	3
ENY 4210	Insects and Wildlife	3
ENY 4905	Problems in Entomology (Blood Feeding Insects)	1
ENY 4905	Problems in Entomology (Mosquito Management)	1
ENY 5236	Insct/Pest/Vctr Manag	3

Microbiology and Cell Science UF Online

The Bachelor of Science in microbiology and cell science offers a flexible curriculum that develops an excellent knowledge base and an understanding of concepts in microbiology, cell biology and the bio-molecular sciences. Emphasis will be placed on application of the scientific method to gain an understanding of the biological world at the cellular and molecular levels. Students will learn to evaluate hypotheses, interpret experimental data and communicate results effectively.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **Additional Information**
- **Related Microbiology and Cell Science Programs**

To graduate with this major, students must complete all university, college, and major requirements.

This major prepares students for entry into professional programs in medicine, dentistry and veterinary medicine and provides a strong foundation for graduate studies in microbiology, cell biology and related cellular and biomedical sciences. The major also provides a background for entry into government, industrial research and diagnostic laboratories.

The curriculum develops fundamental knowledge of prokaryotic and eukaryotic cells and viruses. Courses include the physiology and genetics of microorganisms, mechanisms of pathogenesis and innate immunity systems, astrobiology, bacterial and genome sequencing and bioinformatics.

Coursework for the Major

All majors must take 28-29 credits: 15 credits are core requirements, 10 credits are upper-division department electives and 3-4 credits are the quantitative requirement. A minimum of one credit in an advanced laboratory is required as part of the 10 department-elective credits.

Minimum grades of C, attained within two attempts (including withdrawals), are required in all critical-tracking courses, major courses, department core requirements, department electives and the quantitative requirement. Second attempts must be completed the next semester of enrollment. A 2.0 cumulative GPA of also is required.

Code	Title	Credits
Required Coursework		
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory 1 [1]	4
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2 [1]	4
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry 1 Laboratory [1]	4
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory [1]	4
MAC 2311	Analytic Geometry and Calculus 1 [1]	4
Select one:		8-10
Option One		
PHY 2053 & 2053L	Physics 1 and Laboratory for Physics 1	
PHY 2054 & 2054L	Physics 2 and Laboratory for Physics 2	
Option Two

MCB 4934	Special Topics in Microbiology and Cell Science [4]	1-4
Department Elective Requirements		
MCB 4034L	Advanced Microbiology Laboratory	1
Select three:		9
BSC 2891	Python Programming for Biology	
MCB 3703	Astrobiology	
MCB 4203	Bacterial Pathogens	
MCB 4320C	The Microbiome	
MCB 4403	Prokaryotic Cell Structure and Function	
MCB 4503	General Virology	
MCB 4782	Extremophiles	
PCB 3134	Eukaryotic Cell Structure and Function	
ZOO 4232	Human Parasitology	
Quantitative Requirement		
BSC 2891	Python Programming for Biology	3
MCB 4320C	The Microbiome	3
STA 2023	Introduction to Statistics 1	3
General Elective Requirement		
General elective coursework at the University of Florida (any 3000/4000 level course will be accepted) [5]		18
Total Credits		85-90

1 All majors must complete the biology and general chemistry sequences and calculus by the end of the sophomore year. To continue in the major, students must attain a minimum 2.5 cumulative GPA in these graded courses with no grade lower than a C.

2 Must be completed by the end of tracking term five.

3 Students must take MCB 4203 or PCB 4233 as a core course. If they take both, one will count as a core course and the other will roll over into the 10-credit department elective requirement.

4 Often used for TA lab positions. TA positions may be repeated for two semesters with one lab assignment per semester.

5 Enrollment in MCB 4911, MCB 4905 and MCB 4934 will not fulfill any credits toward the microbiology department elective requirements; they will count only as general elective credit toward the 120 credits for the B.S. degree.

Course Details

MCB 4911 may be taken for a maximum of three credits per semester and six credits total. This policy applies to all microbiology and cell science majors registered for undergraduate research in other out-of-department undergraduate research courses such as BCH 4905, BMS 4905, ZOO 4905, etc.

Undergraduate Research

A majority of MCS students are actively involved in undergraduate research for credit with mentors throughout the university. The department encourages preprofessional and graduate school bound students to complete a minimum of two semesters of undergraduate research. The department maintains a list of mentors across campus who allow undergraduate students to participate in valuable research under their guidance. More information (http://microcell.ufl.edu/undergraduate-programs) is available about undergraduate research and faculty mentors who have worked with microbiology and cell science students.

Combined-Degree Program

A Bachelor of Science and Master of Science (non-thesis) program is offered by the College of Agricultural and Life Sciences. Microbiology majors in both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences are eligible for admission to the combined degree program. Students should email (jorsini@ufl.edu?Subject=Microbiology and Cell Science Combined-Degree Appointment) for an appointment to determine their eligibility for this program.

Preparation for Graduate Study

This major prepares students for entry into graduate studies in microbiology, cell biology, biochemistry and other areas.

All students interested in graduate education should develop a strong background in chemistry. Suggested schedules for students who plan to attend graduate school are available on the website. Students planning graduate study in microbiology, biochemistry or molecular biological sciences should consider taking these courses:

Code	Title	Credits
CHM 3218	Organic Chemistry/Biochemistry 2 (biochemistry requirement)	4
MAC 2312	Analytic Geometry and Calculus 2	4
STA 2023	Introduction to Statistics 1	3
MCB 4403	Prokaryotic Cell Structure and Function (required department elective)	3
PCB 3134	Eukaryotic Cell Structure and Function (required department elective)	3
CHM 3400	Physical Chemistry for the Biosciences (required department elective)	3
MCB 5305L	Microbial Genetics Lab (microbiology advanced laboratory requirement)	2
PCB 4233	Immunology (pathogens or immunology requirement)	3
MCB 4905	Independent Study (valuable laboratory research experience)	4
Total Credits		29

Relevant Minors and/or Certificates

The Department of Microbiology and Cell Science also offers a minor in bioinformatics to students majoring in any life sciences subject, including and not limited to microbiology, biology or biochemistry.

So integrated is bioinformatics with the life sciences that it is difficult to find an active research program that does not rely on bioinformatic analysis to achieve results. By integrating bioinformatic and traditional methods, the minor in bioinformatics provides critical training to future professionals in the life science disciplines.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260503&track=01) may be used for transfer students.

Semester 1

- Complete CHM 1025 or CHM 2045/CHM 2045L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and BSC 2010/BSC 2010L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete CHM 2046/CHM 2046L and MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete BSC 2011/BSC 2011L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete CHM 2210
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Bachelor of Science in microbiology and cell science, offered by both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences, offers students flexibility in a curriculum that develops an excellent knowledge base and an understanding of concepts in microbiology, cell biology and the biomolecular sciences. Emphasis will be placed on application of the scientific method to gain an understanding of the biological world at the cellular and molecular levels. Students will learn to evaluate hypotheses, to interpret experimental data and to communicate results effectively.

Before Graduating Students Must

- Pass a microbiology and cell sciences competency test consisting of four parts, one part from each of these required courses:

Code	Title	Credits
MCB 3023	Principles of Microbiology	3
MCB 3023L	Principles of Microbiology Laboratory	3
& MCB 4034L	and Advanced Microbiology Laboratory (or equivalent)	
MCB 4203	Bacterial Pathogens	3
or PCB 4233	Immunology	
MCB 4304	Genetics of Microorganisms	3
or PCB 4522	Molecular Genetics	
Total Credits		12

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe fundamental concepts, skills and processes in microbiology, molecular biology and in host/pathogen interactions.
2. Apply fundamental concepts, skills and protocols used to conduct research in fields of microbiology, molecular biology and in host/pathogen.

Critical Thinking

3. Evaluate information and data in the general areas of microbiology and the cellular and molecular biological sciences.
4. Solve typical problems that are encountered in general areas of microbiology and cellular and molecular biological sciences.

Communication

5. Communicate effectively in written form in a manner appropriate in microbiology and the cellular and molecular biological sciences.
6. Communicate orally (including visual aids) in an effective manner appropriate in microbiology and the cellular and molecular biological sciences.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Assessment Types

- Genome and lab projects
- Presentations
- Exams
- Final grades

Microbiology and Cell Sciences | CALS

The study of small living organisms, Microbiology and Cell Science includes emphasis on molecular biology and genetics; immunology; virology; host-pathogen interactions; cellular ultrastructure; environmental microbiology; and microbial physiology, metabolism and regulation. Microbiology and Cell Science students study chemistry, physics, bacterial pathogens, and genetics.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **Additional Information**
- **Related Microbiology and Cell Science Programs**

To graduate with this major, students must complete all university, college, and major requirements.

This major prepares students for entry into professional programs in medicine, dentistry and veterinary medicine and provides a strong foundation for graduate studies in microbiology, cell biology and related cellular and biomedical sciences. The major also provides a background for entry into government, industrial research and diagnostic laboratories.

The curriculum develops fundamental knowledge of prokaryotic and eukaryotic cells and viruses. Courses include the physiology and genetics of microorganisms, mechanisms of pathogenesis and innate immunity systems, astrobiology, bacterial and genome sequencing and bioinformatics.

Coursework for the Major

All majors must take 28 credits: 18 credits are core requirements, 7 credits are department electives and 3 credits are the quantitative requirement. A minimum of one credit in an advanced laboratory is required as part of the 7 department-elective credits.

Minimum grades of C, attained within two attempts (including withdrawals), are required in all critical-tracking courses, major courses, department core requirements, department electives and the quantitative requirement. Second attempts must be completed the next semester of enrollment. A 2.0 cumulative GPA of also is required.

Required Coursework

All majors must complete the biology and general chemistry sequences and calculus by the end of the sophomore year. CHM 2210 must be completed by the end of tracking term five. To continue in the major, students must attain a minimum 2.5 cumulative GPA in these graded courses with no grade lower than a C.

Core Requirements

Code	Title	Credits
BSC 2891	Python Programming for Biology	3
or MCB 4325C	R for Functional Genomics	
BCH 4024	Introduction to Biochemistry and Molecular Biology	4
or CHM 3218	Organic Chemistry/Biochemistry 2	
MCB 3023	Principles of Microbiology	5
& 3023L	and Principles of Microbiology Laboratory	
MCB 4203	Bacterial Pathogens	3
or PCB 4233	Immunology	
MCB 4304	Genetics of Microorganisms	3
or PCB 4522	Molecular Genetics	
MCB 4403	Prokaryotic Cell Structure and Function	3
or PCB 3134	Eukaryotic Cell Structure and Function	
Total Credits		21

If students take both "or" classes, one will count as a core course and the other will roll over into the 7-credit department elective requirement.

Department Elective Requirements

A total of 7 credits of approved department electives, including one credit in an advanced lab, are required. The list of approved department electives is available on the department website. A maximum of four credits of approved department electives may be taken in other departments. The remaining six credits must be chosen from approved department electives.
More Info (http://microcell.ufl.edu/undergraduate-programs)

Programming or Biostatistics with Programming Requirement

A total of 3 credits of approved courses meets this requirement. Select from BSC 2891, MCB 4325C, or any equivalent programming class. Several of these courses are also department electives and cannot be used to fulfill both the quantitative and the department elective requirements. No overlap is allowed. STA 2023 will not fulfill this requirement.

Course Details

MCB 4911 may be taken for a maximum of three credits per semester and six credits total. This policy applies to all microbiology and cell science majors registered for undergraduate research in other out-of-department undergraduate research courses such as BCH 4905, BMS 4905, ZOO 4905, etc.

MCB 4934 is often used for TA positions as Supervised Teaching. TA positions may be repeated for two semesters with one lab assignment per semester.

Enrollment in MCB 4911, MCB 4905, and MCB 4934 will not fulfill any credits toward the microbiology department elective requirements; they will count only as general elective credit toward the 120 credits for the B.S. degree.

Relevant Minors and/or Certificates

The Department of Microbiology and Cell Science also offers a minor in bioinformatics to students majoring in any biology-related subject, including and not limited to microbiology, biology, or biochemistry.
More Info (p. 71)

So integrated is bioinformatics with biology that it is difficult to find an active research program that does not rely on bioinformatic analysis to achieve results. Unfortunately, the integration of bioinformatic and traditional methods is not stressed in many undergraduate programs, leaving the next generation of biologists without the skills they need to succeed in tomorrow's research environment. The undergraduate minor in bioinformatics provides this critical training to future professionals in the biological disciplines.

Research

A majority of majors are actively involved in undergraduate research for credit with mentors throughout the university. Preprofessional and graduate school-bound majors are encouraged to do a minimum of two semesters of undergraduate research. The department has a comprehensive list of mentors across campus who allow undergraduate students to do valuable research under their guidance. Please refer to the department website for more information on undergraduate research, finding a mentor and a contact list of UF faculty who have worked with microbiology and cell science majors.
More Info (http://microcell.ufl.edu/programs)

Enrollment in MCB 4911 will not fulfill any credits toward the microbiology major requirements; they will count only as general elective credit toward the 120 credits for the B.S. degree.

Related Microbiology and Cell Science Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260503&track=01) may be used for transfer students.

Semester 1

- Complete CHM 1025 or CHM 2045/CHM 2045L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete CHM 2046/CHM 2046L and BSC 2010/BSC 2010L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete BSC 2011/BSC 2011L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete CHM 2210
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S).

Degree Comparison between the Colleges

CALS | MCB	CLAS | MCY
Effective Oral Communication (AEC 3030C, SPC 2608)	College-level Foreign Language Sequence (8-10 credits)
Technical Writing (ENC 2210, ENC 3254, AEC 3033C)	1 additional Humanity course
Economics (ECO 2013, ECO 2023, AEB 2014)	1 additional Social Science course

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**)	4
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry 1 Laboratory (**Critical Tracking**)	4
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
State Core Gen Ed Composition (p. 23); Writing Requirement [1]		3
	Credits	14
Semester Two

State Core Gen Ed Social and Behavioral Sciences (p. 23)		3
	Credits	13-14
Semester Four		
AEC 3033C or ENC 2210	Research and Business Writing in Agricultural and Life Sciences (Writing Requirement) or Technical Writing	3
CHM 2211 & 2211L	Organic Chemistry 2 and Organic Chemistry Laboratory	5
MCB 3023 & 3023L	Principles of Microbiology and Principles of Microbiology Laboratory (**Critical Tracking**)	5
Science Elective		3
	Credits	16
Semester Five		
AEC 3030C or SPC 2608	Effective Oral Communication or Introduction to Public Speaking	3
MCB 4203 or PCB 4233	Bacterial Pathogens (**Critical Tracking**) [2] or Immunology	3
MCB 4403 or PCB 3134	Prokaryotic Cell Structure and Function (**Critical Tracking**) or Eukaryotic Cell Structure and Function	3
Gen Ed Diversity		3
Electives		5
	Credits	17
Semester Six		
BCH 4024 or CHM 3218	Introduction to Biochemistry and Molecular Biology or Organic Chemistry/Biochemistry 2	4
MCB 4304 or PCB 4522	Genetics of Microorganisms [3] or Molecular Genetics	3
MCB 4034L	Advanced Microbiology Laboratory	1
Gen Ed Mathematics		3
Department elective		3
	Credits	14
Semester Seven		
Select one:		4-5
PHY 2048 & 2048L	Physics with Calculus 1 and Laboratory for Physics with Calculus 1	
PHY 2053 & 2053L	Physics 1 and Laboratory for Physics 1	
State Core Gen Ed Humanities (p. 23)		3
Writing Requirement		3
Department elective		3
Elective		3
	Credits	16-17
Semester Eight		
Select one:		4-5
PHY 2049 & 2049L	Physics with Calculus 2 and Laboratory for Physics with Calculus 2	
PHY 2054 & 2054L	Physics 2 and Laboratory for Physics 2	
State Core Gen Ed Humanities (p. 23)		3
Gen Ed International		3
Department elective		3
Elective		3
	Credits	16-17
	Total Credits	120

1 ENC 1101 recommended.

2 MCB 4203 is taught only in the fall; PCB 4233 is taught only in the spring.

3 MCB 4304 is taught only in the fall; PCB 4522 is taught only in the spring.

A 2.5 GPA with minimum grades of C in the bolded science and math courses listed above is required to continue in the major after Semester 4.

Academic Learning Compact

The Bachelor of Science in microbiology and cell science, offered by both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences, offers students flexibility in a curriculum that develops an excellent knowledge base and an understanding of concepts in microbiology, cell biology and the biomolecular sciences. Emphasis will be placed on application of the scientific method to gain an understanding of the biological world at the cellular and molecular levels. Students will learn to evaluate hypotheses, to interpret experimental data and to communicate results effectively.

Before Graduating Students Must

- Pass a microbiology and cell sciences competency test consisting of four parts, one part from each of these required courses:

Code	Title	Credits
MCB 3023	Principles of Microbiology	3
MCB 3023L & MCB 4034L	Principles of Microbiology Laboratory and Advanced Microbiology Laboratory (or equivalent)	3
MCB 4203 or PCB 4233	Bacterial Pathogens Immunology	3
MCB 4304 or PCB 4522	Genetics of Microorganisms Molecular Genetics	3

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe fundamental concepts, skills and processes in microbiology, molecular biology and in host/pathogen interactions.
2. Apply fundamental concepts, skills and protocols used to conduct research in fields of microbiology, molecular biology and in host/pathogen.

Critical Thinking

3. Evaluate information and data in the general areas of microbiology and the cellular and molecular biological sciences.
4. Solve typical problems that are encountered in general areas of microbiology and cellular and molecular biological sciences.

Communication

5. Communicate effectively in written form in a manner appropriate in microbiology and the cellular and molecular biological sciences.
6. Communicate orally (including visual aids) in an effective manner appropriate in microbiology and the cellular and molecular biological sciences.

Curriculum Map

- Exams
- Final grades

Natural Resource Conservation

Conservationists protect and sustain our world's natural resources for future generations. Well-versed in economics and communications, Natural Resource Conservation students are equipped with strong analytical, critical thinking, and interpersonal skills. Natural Resource Conservation students study chemistry; biology; ecology; and forest, wildlife, fisheries, and aquatic resources.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree**: Bachelor of Science in Forest Resources and Conservation
- **Credits for Degree:** 120
- **Contact:** Email (khaselier@ufl.edu?Subject=Natural Resource Conservation Major)
- **Additional Information**
- **Related Natural Resource Conservation Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The Natural Resource Conservation (NRC) major provides students an interdisciplinary curriculum preparing them to address a broad range of natural resource-related issues. The core set of courses provides students with a solid foundation in natural history (floral and faunal), ecology, policy and economics, field applications, quantitative assessment and analysis, human dimensions, and spatial analysis. Working with a faculty advisor, students can elect to focus on a wide range of natural resource-related courses. In the required capstone experience, students demonstrate their understanding and proficiency in the core skill sets, as well as further develop their area of concentration.

Graduates seek advanced degrees in a variety of fields, or are successfully employed in a wide range of environmental careers. The major is cooperatively offered by faculty in the School of Forest Resources & Conservation, the Department of Wildlife Ecology and Conservation, and the Program in Fisheries and Aquatic Sciences, and students are paired with one of these faculty members to develop a curriculum that suits their needs. Students interested in more structured and/or accredited curricula in professional natural resource management are encouraged to look at majors in Forest Resources and Conservation, Wildlife Ecology and Conservation, or Interdisciplinary Studies | Marine Sciences.

All NRC majors are required to complete core work in nine content areas (minimum 25 credits): professional seminar, ecology, quantitative analysis and assessment, natural history, human dimensions, policy and economics, field applications, spatial analysis, and capstone experience. These courses embrace a variety of conservation objectives and span local to global scales. They stress the complexities in achieving social, environmental, and economic sustainability; develop critical thinking skills; create significant and valuable field experience; and provide the tools needed for graduates to manage, conserve, and educate people about natural resources.

Students work closely with a faculty advisor to select the remaining 35 upper-division credits to create a curriculum plan designed to meet the specific goals of each student. Each curriculum plan must be approved by the program's undergraduate coordinator before the student reaches 70 credits.

This major is also offered at the West Florida Research and Education Center in Milton, FL. Ideal for place-bound students, this version of the NRC major provides a broad ecology/conservation curriculum.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=030501&track=01) may be used for transfer students.

Semester 1

- Complete at least 1 of 7 critical-tracking courses (excluding labs): AEB 2014 or ECO 2013 or ECO 2023, AEC 3030C or SPC 2608, AEC 3033C, BSC 2010/BSC 2010L, CHM 1030 or CHM 2045, MAC 1105, STA 2023

- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete at least 2 additional critical-tracking courses, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete at least 2 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete at least 2 additional critical-tracking courses, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
Select one:		3
CHM 1030	Basic Chemistry Concepts and Applications 1 (**Critical Tracking**)	
CHM 2045	General Chemistry 1 (**Critical Tracking**; Gen Ed Biological Sciences and Physical Sciences)

1 Or higher level course.

2 May substitute ENC 2210 or ENC 3254.

3 FAS 2024 recommended, if not already taken.

Approved Courses

Given the flexible, advisor/student-driven nature of this major, students may deviate significantly from this plan relative to course timing. As part of their curriculum plan, students are required to complete at least one course from the following nine content areas:

Code	Title	Credits
Professional Seminar		
FOR 3200C	Foundations of Natural Resources and Conservation	3
FOR 4934	Topics in Natural Resources (Professional Practice in Natural Resources)	1-4
Ecology		
FAS 4270	Marine Ecological Processes	3
FAS 4932	Topics in Fisheries and Aquatic Sciences (Freshwater Ecology)	1-4
FOR 3153C	Forest Ecology	3
WIS 3404	Natural Resource Ecology	3
WIS 4443	Wetland Ecology	3
Quantitative Analysis and Assessment		
FAS 4932	Topics in Fisheries and Aquatic Sciences	1-4
FNR 3410C	Natural Resource Sampling	3
WIS 4601	Quantitative Wildlife Ecology	3
WIS 4935C	Wildlife Techniques	3
Natural History		
FAS 4202C	Biology of Fishes	4
FNR 3131C	Dendrology/Forest Plants	3
WIS 3402	Wildlife of Florida	4
& 3402L	and Wildlife of Florida Laboratory	
Human Dimensions		
FOR 3202	Society and Natural Resources	3
FOR 4060	Global Forests	3
FOR 4934	Topics in Natural Resources (Environment and Society)	1-4
Policy and Economics		
FNR 4660	Natural Resource Policy and Economics	3
FOR 4621	Forest Economics and Management	4
Field Applications		
FAS 4305C	Introduction to Fishery Science	3
FAS 4932	Topics in Fisheries and Aquatic Sciences (Field Ecology of Aquatic Organisms)	1-4
FNR 4070C	Environmental Education Program Development	3
FNR 4624C	Field Operations for Management of Ecosystems	3
FOR 3214	Fire Ecology and Management	3
& 3214L	and Fire Ecology and Management Laboratory	
FOR 4664	Sustainable Ecotourism Development	3
WIS 4427C	Wildlife Habitat Management	3
Spatial Analysis		
FOR 3434C	Forest Resources Information Systems	3
GIS 3072C	Geographic Information Systems	3
Capstone Experience		
FAS 4905	Individual Study	1-4
FOR 4905	Individual Study in Natural Resources	1-4

FOR 4934	Topics in Natural Resources	6
& FNR 4623C	and Integrated Natural Resource Management (Integrated Management and Assessment)	
FOR 4941	Internship in Natural Resources	1-4
WIS 4905	Individual Problems	1-4

The summer term between the junior and senior year is normally reserved for professional work experience.

Academic Learning Compact

The natural resource conservation major provides a broad education in the ecological, economic and social aspects of forest and natural resources and their management. The individualized nature of the major allows students to create a curriculum specific to their interests.

Before Graduating Students Must

- Pass the forest resources and conservation competency exam, given in five parts. One part will be given in each of these required courses:

Code	Title	Credits
FNR 3131C	Dendrology/Forest Plants	3
FNR 3410C	Natural Resource Sampling	3
FNR 4040C		
FNR 4623C	Integrated Natural Resource Management	3
FNR 4660	Natural Resource Policy and Economics	3

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Demonstrate competency in biology/ecology, quantification, policy/administration and management of natural resources.
2. Analyze, interpret, synthesize and communicate information and data, including the use of mathematical and statistical methods.

Critical Thinking

3. Solve novel problems in natural resource management.

Communication

4. Create, interpret and analyze written text, oral messages and multimedia presentations.

Curriculum Map

Nonprofit Organizational Leadership Minor

The nonprofit organizational leadership minor provides the knowledge and competencies to perform a variety of roles in nonprofit organizations, for-profit companies and corporations, and government agencies at the local, state, and national levels.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 18-19 | Completed with minimum grades of C and an overall 2.5 GPA for courses in the minor

The minor is open to all UF students and it must be added before a student completes 90 credits. A cumulative 2.5 GPA is necessary for admission to the minor. Students must earn a minimum grade of B in FYC 4409 to continue in the minor; this course also is a prerequisite for the internship or practicum.

The minor draws primarily from the faculty in Family, Youth and Community Sciences. Electives can be taken from the colleges of Agricultural and Life Sciences, Business, Liberal Arts and Sciences, Journalism and Communications, and Education.

Required Courses

Code	Title	Credits
FYC 4408	Organizational Leadership for Nonprofits	3
or FYC 4428	Human Resource Management for Nonprofits	
FYC 4409	Working with Nonprofit Organizations in Community Settings	3
FYC 4410	Fund Raising for Community Nonprofit Organizations	3
FYC 4426	Risk Management in Nonprofit Organizations	3
or FYC 4622	Planning and Evaluating Family, Youth and Community Science Programs	
FYC 4941	Practicum in Family, Youth and Community Sciences	3
Approved elective		3-4
Total Credits		18-19

Approved Electives

Code	Title	Credits
ACG 2021	Introduction to Financial Accounting	4
AEB 4126	Agricultural and Natural Resource Ethics	3
AEB 4424	Human Resources Management in Agribusiness	3
FYC 4114	Ethical Issues in Family, Youth and Community Sciences	3
FYC 4427	Non-Governmental Organizations	3
POS 3263	Policy, Ethics and Public Leadership	3
SDS 4410	Interpersonal Communication Skills	3

Nutritional Sciences

The Nutritional Sciences major encompasses all aspects of the consumption and utilization of food by people and animals as well as how these processes affect the health of individuals and populations. Nutritional Sciences students study organic chemistry, physics, food science, genetics, nutrition, biology of microorganisms, and diseases.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **Additional Information**
- **Related Food Science and Human Nutrition Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The nutritional sciences curriculum develops a strong, broad background in the biological sciences, and provides an excellent foundation for graduate study/research in nutrition, health and many other life sciences. Its requirements also closely match the prerequisites for most professional schools. As a result, graduates from this curriculum have entered medical, dental, pharmacy, osteopathis, podiatry, optometry, chiropractic, physician assistant, veterinary and other professional programs. Other career opportunities include pharmaceutical sales, extension nutrition education, nutrition policy

development and employment with government agencies. Nutritional sciences is one of the majors available to students accepted into the Junior Honors Medical Program or the Honors Combined BS/DMD Program.

Related Food Science and Human Nutrition Programs

- Bachelor of Science in Dietetics (p. 110)
- Bachelor of Science in Food Science (p. 152)
- Food Science minor (p. 155)
- Nutritional Sciences minor (p. 243)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=011001&track=03) may be used for transfer students.

Semester 1

- Complete CHM 2045/CHM 2045L or MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete CHM 2046/CHM 2046L and BSC 2010/BSC 2010L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete BSC 2011/BSC 2011L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Elective		3
	Credits	16
	Total Credits	120

Additional electives may be needed to complete the 120 credits required for graduation.

Academic Learning Compact

Nutritional sciences integrates knowledge of biological principles to interpret emerging knowledge of cellular and physiological systems. Students' knowledge of biochemical processes and nutrient functions will enable them to interpret effects of changes in nutrient availability on metabolic functions. Students will utilize their knowledge of nutrient requirements, food sources and physiological systems to determine nutrient and dietary needs of individuals in various life-cycle stages and/or with nutrition-related diseases.

Before Graduating Students Must

- Satisfactorily complete three examinations in HUN 4221. Examinations will be developed, approved and evaluated by a faculty committee.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Use knowledge of nutrient functions, food sources and physiological systems to determine nutrient and dietary needs of individuals in various life-cycle stages and/or with nutrition-related diseases.
2. Use knowledge of biochemical processes and nutrient functions to interpret effects of changes in nutrient availability.
3. Integrate knowledge of biological principles to interpret emerging knowledge of cellular and physiological systems.

Critical Thinking

4. Analyze data and interpret results in the nutritional sciences.

Communication

5. Create, interpret and analyze written text, oral messages and multimedia presentations used in agricultural and life sciences.

Nutritional Sciences Minor

The nutritional sciences minor provides an overview of nutrients, nutrient requirements throughout the life cycle, and metabolic regulation of nutritional pathways.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 15-16 | Completed with minimum grades of C and a minimum cumulative 2.5 GPA for courses in the minor
- **Related Food Science and Human Nutrition Programs**

While the minor is open to all students, it is particularly appropriate for biology, microbiology and cell science, and zoology majors; and students who are interested in medicine, dentistry, and pharmacy.

Required Courses

Code	Title	Credits
HUN 2201	Fundamentals of Human Nutrition	3
HUN 3403	Nutrition through the Life Cycle	2
HUN 4221	Nutrition and Metabolism	3
HUN 4445	Nutrition and Disease: Part 1	2
Approved electives		5-6
Total Credits		15-16

Approved Electives

Code	Title	Credits
FOS 3042	Introductory Food Science	3
HUN 4446	Nutrition and Disease: Part 2	3
HUN 4905	Special Problems in Human Nutrition	1-3
HUN 4936	Topics in Human Nutrition (Nutrition Communication and Education in Health Care)	3
HUN 4936	Topics in Human Nutrition (Preventative Health)	2
HUN 4936	Topics in Human Nutrition	3

Organic and Sustainable Crop Production Minor

The Department of Horticultural Sciences offers this interdisciplinary minor which encompasses organic and sustainable practices in horticulture and plant science.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 15 | Completed with a minimum cumulative 2.0 GPA for courses in the minor
- **Contact:** Email (zxin@ufl.edu) | 352.273.4773

This minor is open to any student.

Required Courses

Code	Title	Credits
AGR 4212	Alternative Cropping Systems	3
HOS 3281C	Organic and Sustainable Crop Production	3
Crop production elective		3
Pest management elective		3
Resource management elective		3
Total Credits		15

Approved Electives

Crop Production Elective

ALS 3133	Agricultural and Environmental Quality	3
ALS 3153	Agricultural Ecology	3
SWS 4231C	Soil, Water and Land Use	3
SWS 4233	Soil and Water Conservation	3

Packaging Science Minor

Packaging science is an excellent area of concentration for students in engineering science and business-related disciplines. All companies that produce physical products deal with packaging. Most companies employ teams of packaging professionals from a variety of backgrounds and disciplines. Packaging plays a key role in competitive advantage in the marketplace, and packaging is always changing and improving.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 15 | Graded courses completed with minimum grades of C
- **Contact:** Frazier Rogers Hall (http://campusmap.ufl.edu/?loc=0474)

This minor is open to all students.

The packaging industry requires creative thinkers and problem solvers to continue to improve environmental sustainability, quality and packaging efficiency. This minor provides exposure to the tools and knowledge required to solve practical problems in packaging and will help students to gain employment in the packaging industry.

Students applying for the minor must obtain written approval from their academic advisor and the undergraduate coordinator in packaging science at least two semesters before graduation.

This minor offered by the College of Agricultural and Life Sciences differs from the Packaging Engineering specialization in the Biological Engineering degree. While both sets of curriculum use overlapping courses, the major is available only available to students of the Herbert Wertheim College of Engineering.

Required Courses

Code	Title	Credits
Select four:		12
PKG 3001	Principles of Packaging	
PKG 3103	Food Packaging	
PKG 4008	Distribution and Transport Packaging	
PKG 4011	Packaging Production and Processing	
PKG 4101C	Computer Tools for Packaging	
Advisor-approved technical elective		3
Total Credits		15

Advisor-approved Technical Elective

- Selected from approved electives in:
  - Packaging
  - Food Science
  - Materials Science and Engineering

- Chemical Engineering
- Mechanical Engineering
- Computer Science & Engineering
- Industrial Engineering
- Horticultural Science
- Biological Science
- Marketing
- Advertising

- Other electives, including internships and co-ops, are subject to approval of the packaging science minor advisor.

Pest Control Technology Certificate

Established in 1870, the mission of the College of Agricultural and Life Sciences is to deliver unsurpassed educational programs that prepare students to address the world's critical challenges related to agriculture, food systems, human well-being, natural resources and sustainable communities.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 24 | Completed with minimum grades of C
- **Contact:**
- Email (brumbaugh@ufl.edu) | 352.273.3912 *or*
- Email (pgk@ufl.edu) | 352.392.2484

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

The pest control technology certificate is awarded upon completion of specific coursework in entomology and pest management that satisfies the academic requirements of Florida state statute 482, which requires 24 semester credits plus one year of employment to qualify to take the Florida Pest Control Operator's license examination.

There are no prerequisite courses, but students are advised to remember the requirement of a year's employment to qualify to take the licensing exam.

Required Courses

Code	Title	Credits
ENY 4230	Urban Pesticide Application	3
IPM 3022	Fundamentals of Pest Management	3
IPM 4254	Landscape Integrated Pest Management: Ornamentals and Turf	3
Additional courses from the Urban Pest Management and Landscape Pest Management certificates [1]		15
Total Credits		24

[1] Choose from additional courses listed in the Urban Pest Management (p. 304) and Landscape Pest Management (p. 215) certificates.

Plant Molecular and Cellular Biology Minor

The Horticultural Sciences Department facilitates this interdisciplinary minor, a cooperative effort of the departments of Agronomy, Environmental Horticulture, Horticultural Sciences, Plant Pathology and Microbiology and Cell Science. It is particularly appropriate for students majoring in horticultural science, microbiology and cell science, and plant science, although it is available to students in other majors.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Credits:** 17-20 | Completed with minimum grades of C
- **Contact:** Email (zxin@ufl.edu) | 352.273.4773

The minor offers academic training and hands-on experience in current laboratory techniques and helps students prepare for graduate school or lab positions in plant biotechnology.

Prerequisites

Code	Title	Credits

Plant Science

Plant scientists sustain and improve our current and future world as they work with foods, fibers, fuel, flowers, pharmaceuticals, urban forests, soil health, plant pests, and our natural environs. Plant Science students study biology, plant morphology and physiology, chemistry, entomology, physics, soil and water sciences, plant identification, plant pathology, plant propagation, and environmental horticulture.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degrees:** Bachelor of Arts | Bachelor of Science
- **Specializations:** Community Food Systems (p. 249) | General Plant Science (p. 254) | Greenhouse and Landscape Industries (p. 258) | Native Plant Conservation (p. 263) | Plant Breeding and Genetics (p. 267) | Plant Health and Protection (p. 272) | Soil Management and Plant Productivity (p. 277) | Sustainable Crop Production (p. 282) | Turfgrass Science (p. 286)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Plant Science Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The plant science degree offers diverse specializations that provide a wide range of professional opportunities. The specializations provide students with an interdisciplinary perspective of these areas and pursue coursework that tracks them into a variety of job opportunities.

The University of Florida offers some of the specializations in this major to transfer students who have the appropriate credentials through the statewide programs at the Fort Lauderdale Research and Education Center in Ft. Lauderdale, the Mid-Florida Research and Education Center in Apopka, or the West Florida Research and Education Center in Milton.

Course Requirements

Bachelor of Science

Designed for students with different professional objectives. All students, regardless of degree or specialization, are required to take an introductory plant science course, an introductory statistics course, an economics course, a technical writing course, a speech course, a soil science course, a plant physiology course, a plant pathology course, a professional development course, and a capstone experience course. All students must also complete an internship related to their area of interest.

Bachelor of Arts

Designed for students who want to learn about contemporary food systems from an interdisciplinary perspective. All students are required to take an introductory plant science course, a capstone experience course, and must complete an internship related to their area of interest.

Each specialization has a specific set of required core courses and a number of upper-division electives to choose from that represent important interdisciplinary topic areas. Core courses provide students with the knowledge and fundamental concepts essential to the specialization. Upper-division electives are designed to build knowledge, competency and skills applicable to professional development.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

Related Plant Science Programs

- Environmental Horticulture minor (p. 128)
- Golf and Sports Turf Management minor (p. 197)
- Plant Science minor (p. 291)
- Environmental Horticulture Management certificate (p. 127)

Academic Learning Compact

The plant science major, offered jointly by the departments of Agronomy and Plant Pathology, enables students to apply principles associated with production and improvement of agronomic crops. Students will acquire knowledge about the scientific fundamentals of plant growth of field and forage crops. They will acquire knowledge about fungi, bacteria and viruses, as well as environmental factors that cause plant disease. This program prepares students to work in the lab and field settings and to develop applied skills for research and extension.

Before Graduating Students Must

- Complete a research paper and an oral presentation with satisfactory faculty evaluation.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe plant growth and development in terms of plant morphology and physiology and evaluate the abiotic and biotic factors that impact plant growth and management.
2. Recommend practices that growers and managers can implement to address the abiotic and biotic components of their cropping system.

Critical Thinking

3. Analyze and apply science-based data to solve problems in plant production, distribution and/or utilization.
4. Design and evaluate a project that addresses a problem or challenge related to their area of interest.

Communication

5. Create, interpret and analyze written text and multimedia presentations.
6. Communicate effectively through oral and multimedia presentations.

Bachelor of Arts | Community Food Systems

This specialization is for students who want to learn about contemporary food systems from an interdisciplinary perspective. Students will learn about different food production systems and their ecological and environmental impacts and services, including consideration of political, economic, ethical, social and cultural aspects of food systems. Graduates could work in community or government food-based programs, urban agriculture and the food industry.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=011101&track=01) may be used for transfer students.

Semester 1

- Complete 2 of 5 critical-tracking courses, excluding labs: AEB 2014 or ECO 2013 or ECO 2023; BOT 2010C or BSC 2010/BSC 2010L; BOT 2011C or BSC 2011/BSC 2011L; CHM 1030; MAC 1147
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete all critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Select one:		3-4

All students must also complete an internship related to their area of interest.

Bachelor of Arts

Designed for students who want to learn about contemporary food systems from an interdisciplinary perspective. All students are required to take an introductory plant science course, a capstone experience course, and must complete an internship related to their area of interest.

Each specialization has a specific set of required core courses and a number of upper-division electives to choose from that represent important interdisciplinary topic areas. Core courses provide students with the knowledge and fundamental concepts essential to the specialization. Upper-division electives are designed to build knowledge, competency and skills applicable to professional development.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

- Environmental Horticulture Management certificate (p. 127)

Bachelor of Science | General Plant Science

This specialization focuses on the biology and science of growing plants. It combines courses in propagation, plant identification and use, soils and plant nutrition, plant diseases, weed identification, and insects to give students a well-rounded background on plant management. This specialization develops skills that allow students to increase plant productivity and improve plant quality with less labor while controlling pests and weeds safely and effectively. Career opportunities include research and development, plant management, plant production, and preparation for graduate school. Employment opportunities exist in laboratories, government agencies, and commercial operations.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=011101&track=01) may be used for transfer students.

Semester 1

- Complete 2 of 5 critical-tracking courses, excluding labs: BOT 2010C or BSC 2010/BSC 2010L; BOT 2011C or BSC 2011/BSC 2011L; CHM 2045/CHM 2045L; ECO 2013; MAC 1147
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete all critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

Academic Learning Compact

The plant science major, offered jointly by the departments of Agronomy and Plant Pathology, enables students to apply principles associated with production and improvement of agronomic crops. Students will acquire knowledge about the scientific fundamentals of plant growth of field and forage crops. They will acquire knowledge about fungi, bacteria and viruses, as well as environmental factors that cause plant disease. This program prepares students to work in the lab and field settings and to develop applied skills for research and extension.

Before Graduating Students Must

- Complete a research paper and an oral presentation with satisfactory faculty evaluation.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe plant growth and development in terms of plant morphology and physiology and evaluate the abiotic and biotic factors that impact plant growth and management.
2. Recommend practices that growers and managers can implement to address the abiotic and biotic components of their cropping system.

Critical Thinking

3. Analyze and apply science-based data to solve problems in plant production, distribution and/or utilization.
4. Design and evaluate a project that addresses a problem or challenge related to their area of interest.

Communication

5. Create, interpret and analyze written text and multimedia presentations.
6. Communicate effectively through oral and multimedia presentations.

Plant Science | Greenhouse and Landscape Industries

Plant scientists sustain and improve our current and future world as they work with foods, fibers, fuel, flowers, pharmaceuticals, urban forests, soil health, plant pests, and our natural environs. Plant Science students study biology, plant morphology and physiology, chemistry, entomology, physics, soil and water sciences, plant identification, plant pathology, plant propagation, and environmental horticulture.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degrees:** Bachelor of Arts | Bachelor of Science
- **Specializations:** Community Food Systems (p. 249) | General Plant Science (p. 254) | Greenhouse and Landscape Industries (p. 258) | Native Plant Conservation (p. 263) | Plant Breeding and Genetics (p. 267) | Plant Health and Protection (p. 272) | Soil Management and Plant Productivity (p. 277) | Sustainable Crop Production (p. 282) | Turfgrass Science (p. 286)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Plant Science Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The plant science degree offers diverse specializations that provide a wide range of professional opportunities. The specializations provide students with an interdisciplinary perspective of these areas and pursue coursework that tracks them into a variety of job opportunities.

The University of Florida offers some of the specializations in this major to transfer students who have the appropriate credentials through the statewide programs at the Fort Lauderdale Research and Education Center in Ft. Lauderdale, the Mid-Florida Research and Education Center in Apopka, or the West Florida Research and Education Center in Milton.

Course Requirements

Bachelor of Science

Designed for students with different professional objectives. All students, regardless of degree or specialization, are required to take an introductory plant science course, an introductory statistics course, an economics course, a technical writing course, a speech course, a soil science course, a plant physiology course, a plant pathology course, a professional development course, and a capstone experience course. All students must also complete an internship related to their area of interest.

Bachelor of Arts

Designed for students who want to learn about contemporary food systems from an interdisciplinary perspective. All students are required to take an introductory plant science course, a capstone experience course, and must complete an internship related to their area of interest.

Each specialization has a specific set of required core courses and a number of upper-division electives to choose from that represent important interdisciplinary topic areas. Core courses provide students with the knowledge and fundamental concepts essential to the specialization. Upper-division electives are designed to build knowledge, competency and skills applicable to professional development.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

Related Plant Science Programs

- Environmental Horticulture minor (p. 128)
- Golf and Sports Turf Management minor (p. 197)
- Plant Science minor (p. 291)
- Environmental Horticulture Management certificate (p. 127)

Bachelor of Science | Greenhouse and Landscape Industries

This specialization provides skills and training for employment in the diverse ornamental horticulture industry, including theme parks, plant production facilities, and landscape management and landscape design firms. It studies the improvement of the human environment through proper selection, propagation, production, and placement of plants in the exterior and interior landscapes. It also combines business and plant production courses to provide the skills needed to manage a plant production facility or landscape firm.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=011101&track=01) may be used for transfer students.

Semester 1

- Complete 2 of 5 critical-tracking courses, excluding labs: BOT 2010C or BSC 2010/BSC 2010L; BOT 2011C or BSC 2011/BSC 2011L; CHM 2045/CHM 2045L; ECO 2013; MAC 1147

- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete all critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Academic Learning Compact

The plant science major, offered jointly by the departments of Agronomy and Plant Pathology, enables students to apply principles associated with production and improvement of agronomic crops. Students will acquire knowledge about the scientific fundamentals of plant growth of field and forage crops. They will acquire knowledge about fungi, bacteria and viruses, as well as environmental factors that cause plant disease. This program prepares students to work in the lab and field settings and to develop applied skills for research and extension.

Before Graduating Students Must

- Complete a research paper and an oral presentation with satisfactory faculty evaluation.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe plant growth and development in terms of plant morphology and physiology and evaluate the abiotic and biotic factors that impact plant growth and management.
2. Recommend practices that growers and managers can implement to address the abiotic and biotic components of their cropping system.

Critical Thinking

3. Analyze and apply science-based data to solve problems in plant production, distribution and/or utilization.
4. Design and evaluate a project that addresses a problem or challenge related to their area of interest.

Communication

5. Create, interpret and analyze written text and multimedia presentations.
6. Communicate effectively through oral and multimedia presentations.

Plant Science | Plant Breeding and Genetics

Plant scientists sustain and improve our current and future world as they work with foods, fibers, fuel, flowers, pharmaceuticals, urban forests, soil health, plant pests, and our natural environs. Plant Science students study biology, plant morphology and physiology, chemistry, entomology, physics, soil and water sciences, plant identification, plant pathology, plant propagation, and environmental horticulture.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degrees:** Bachelor of Arts | Bachelor of Science
- **Specializations:** Community Food Systems (p. 249) | General Plant Science (p. 254) | Greenhouse and Landscape Industries (p. 258) | Native Plant Conservation (p. 263) | Plant Breeding and Genetics (p. 267) | Plant Health and Protection (p. 272) | Soil Management and Plant Productivity (p. 277) | Sustainable Crop Production (p. 282) | Turfgrass Science (p. 286)
- **Credits for Degree:** 120

- **Additional Information**
- **Related Plant Science Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The plant science degree offers diverse specializations that provide a wide range of professional opportunities. The specializations provide students with an interdisciplinary perspective of these areas and pursue coursework that tracks them into a variety of job opportunities.

The University of Florida offers some of the specializations in this major to transfer students who have the appropriate credentials through the statewide programs at the Fort Lauderdale Research and Education Center in Ft. Lauderdale, the Mid-Florida Research and Education Center in Apopka, or the West Florida Research and Education Center in Milton.

Course Requirements

Bachelor of Science

Designed for students with different professional objectives. All students, regardless of degree or specialization, are required to take an introductory plant science course, an introductory statistics course, an economics course, a technical writing course, a speech course, a soil science course, a plant physiology course, a plant pathology course, a professional development course, and a capstone experience course. All students must also complete an internship related to their area of interest.

Bachelor of Arts

Designed for students who want to learn about contemporary food systems from an interdisciplinary perspective. All students are required to take an introductory plant science course, a capstone experience course, and must complete an internship related to their area of interest.

Each specialization has a specific set of required core courses and a number of upper-division electives to choose from that represent important interdisciplinary topic areas. Core courses provide students with the knowledge and fundamental concepts essential to the specialization. Upper-division electives are designed to build knowledge, competency and skills applicable to professional development.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

Related Plant Science Programs

- Environmental Horticulture minor (p. 128)
- Golf and Sports Turf Management minor (p. 197)
- Plant Science minor (p. 291)
- Environmental Horticulture Management certificate (p. 127)

Bachelor of Science | Plant Breeding and Genetics

Plant breeding and genetics play a critical role in enhancing the world's future food, fiber, and fuel supplies in response to challenges like climate change and population growth. Students will obtain a solid grounding in genetics and molecular genetics, plant processes and function, types and causes of plant stress and learn how this is applied for crop improvement and conservation of genetic resources. Modern plant breeding is an increasingly sophisticated, high-investment business. The majority of commercial plant breeding takes place within the private sector. Plant breeders are employed in plant breeding or agricultural biotechnology companies or academic institutions with the main goal to develop improved varieties or educate the general population about genetic techniques for plant improvement.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=011101&track=01) may be used for transfer students.

Semester 1

- Complete 2 of 6 critical-tracking courses, excluding labs: BOT 2010C or BSC 2010/BSC 2010L; BOT 2011C or BSC 2011/BSC 2011L; CHM 2045/CHM 2045L; CHM 2046/CHM 2046L; ECO 2013; MAC 1147
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Select one:		3-4
BOT 2010C	Introductory Botany (**Critical Tracking**; State Core Gen Ed Biological Sciences and Physical Sciences)	
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory 1 (**Critical Tracking**; State Core Gen Ed Biological Sciences and Physical Sciences)	
ENC 1101	Expository and Argumentative Writing (State Core Gen Ed Composition (p. 23); Writing Requirement: 6,000 words)	3
MAC 1147	Precalculus Algebra and Trigonometry (**Critical Tracking**; State Core Gen Ed Mathematics)	4

Academic Learning Compact

The plant science major, offered jointly by the departments of Agronomy and Plant Pathology, enables students to apply principles associated with production and improvement of agronomic crops. Students will acquire knowledge about the scientific fundamentals of plant growth of field and forage crops. They will acquire knowledge about fungi, bacteria and viruses, as well as environmental factors that cause plant disease. This program prepares students to work in the lab and field settings and to develop applied skills for research and extension.

Before Graduating Students Must

- Complete a research paper and an oral presentation with satisfactory faculty evaluation.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe plant growth and development in terms of plant morphology and physiology and evaluate the abiotic and biotic factors that impact plant growth and management.
2. Recommend practices that growers and managers can implement to address the abiotic and biotic components of their cropping system.

Critical Thinking

3. Analyze and apply science-based data to solve problems in plant production, distribution and/or utilization.
4. Design and evaluate a project that addresses a problem or challenge related to their area of interest.

Communication

5. Create, interpret and analyze written text and multimedia presentations.
6. Communicate effectively through oral and multimedia presentations.

Plant Science | Soil Management and Plant Productivity

Plant scientists sustain and improve our current and future world as they work with foods, fibers, fuel, flowers, pharmaceuticals, urban forests, soil health, plant pests, and our natural environs. Plant Science students study biology, plant morphology and physiology, chemistry, entomology, physics, soil and water sciences, plant identification, plant pathology, plant propagation, and environmental horticulture.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degrees:** Bachelor of Arts | Bachelor of Science
- **Specializations:** Community Food Systems (p. 249) | General Plant Science (p. 254) | Greenhouse and Landscape Industries (p. 258) | Native Plant Conservation (p. 263) | Plant Breeding and Genetics (p. 267) | Plant Health and Protection (p. 272) | Soil Management and Plant Productivity (p. 277) | Sustainable Crop Production (p. 282) | Turfgrass Science (p. 286)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Plant Science Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The plant science degree offers diverse specializations that provide a wide range of professional opportunities. The specializations provide students with an interdisciplinary perspective of these areas and pursue coursework that tracks them into a variety of job opportunities.

The University of Florida offers some of the specializations in this major to transfer students who have the appropriate credentials through the statewide programs at the Fort Lauderdale Research and Education Center in Ft. Lauderdale, the Mid-Florida Research and Education Center in Apopka, or the West Florida Research and Education Center in Milton.

Course Requirements

Bachelor of Science

Designed for students with different professional objectives. All students, regardless of degree or specialization, are required to take an introductory plant science course, an introductory statistics course, an economics course, a technical writing course, a speech course, a soil science course, a plant physiology course, a plant pathology course, a professional development course, and a capstone experience course. All students must also complete an internship related to their area of interest.

Bachelor of Arts

Designed for students who want to learn about contemporary food systems from an interdisciplinary perspective. All students are required to take an introductory plant science course, a capstone experience course, and must complete an internship related to their area of interest.

Each specialization has a specific set of required core courses and a number of upper-division electives to choose from that represent important interdisciplinary topic areas. Core courses provide students with the knowledge and fundamental concepts essential to the specialization. Upper-division electives are designed to build knowledge, competency and skills applicable to professional development.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

Related Plant Science Programs

- Environmental Horticulture minor (p. 128)
- Golf and Sports Turf Management minor (p. 197)
- Plant Science minor (p. 291)
- Environmental Horticulture Management certificate (p. 127)

Bachelor of Science | Soil Management and Plant Productivity

This specialization closely integrates the study of soil science core disciplines with production agriculture and horticulture. Coursework focuses on foundational principles related to soil health, productivity, and fertility in relation to sustainable plant growth and agricultural practices. Among the principal outcomes of the program is to prepare students for certification as both Associate Professional Soil Scientists and Certified Crop Advisors to better position graduates for employment in related fields.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=011101&track=01) may be used for transfer students.

Semester 1

- Complete 2 of 5 critical-tracking courses, excluding labs: BOT 2010C or BSC 2010/BSC 2010L; CHM 2045/CHM 2045L; CHM 2046/CHM 2046L; ECO 2013; MAC 1147
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete all critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Select one:		3-4
BOT 2010C	Introductory Botany (**Critical Tracking**; State Core Gen Ed Biological Sciences and Physical Sciences)

Bachelor of Science | Sustainable Crop Production

This specialization prepares students for professions related to crop production and management. Students will explore and understand production practices that meet present world food needs without compromising quality of life for future generations. Courses emphasize crop ecosystem function, aquatic and terrestrial weed management, the importance of insects to crops and optimizing management techniques including energy utilization, nutrient management, and soil and water conservation.

Critical Tracking

To graduate with this major, students must complete all university, college, and major requirements.

The plant science degree offers diverse specializations that provide a wide range of professional opportunities. The specializations provide students with an interdisciplinary perspective of these areas and pursue coursework that tracks them into a variety of job opportunities.

The University of Florida offers some of the specializations in this major to transfer students who have the appropriate credentials through the statewide programs at the Fort Lauderdale Research and Education Center in Ft. Lauderdale, the Mid-Florida Research and Education Center in Apopka, or the West Florida Research and Education Center in Milton.

Course Requirements

Bachelor of Science

Designed for students with different professional objectives. All students, regardless of degree or specialization, are required to take an introductory plant science course, an introductory statistics course, an economics course, a technical writing course, a speech course, a soil science course, a plant physiology course, a plant pathology course, a professional development course, and a capstone experience course. All students must also complete an internship related to their area of interest.

Bachelor of Arts

Designed for students who want to learn about contemporary food systems from an interdisciplinary perspective. All students are required to take an introductory plant science course, a capstone experience course, and must complete an internship related to their area of interest.

Each specialization has a specific set of required core courses and a number of upper-division electives to choose from that represent important interdisciplinary topic areas. Core courses provide students with the knowledge and fundamental concepts essential to the specialization. Upper-division electives are designed to build knowledge, competency and skills applicable to professional development.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

- Golf and Sports Turf Management minor (p. 197)
- Plant Science minor (p. 291)
- Environmental Horticulture Management certificate (p. 127)

Bachelor of Science | Turfgrass Science

This specialization combines the study of grasses, soils, water, and pests affecting turf with the study of business and management. Career opportunities include work with golf courses, sports turf facilities, lawn-care companies, parks, agrichemical industries, cemeteries, environmental consulting firms, sod farms, government agencies, and preparation for graduate school.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=011101&track=01) may be used for transfer students.

Semester 1

- Complete 2 of 5 critical-tracking courses, excluding labs: BOT 2010C or BSC 2010/BSC 2010L; BOT 2011C or BSC 2011/BSC 2011L; CHM 2045/CHM 2045L; ECO 2013; MAC 1147
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete all critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Select one:		3-4
BOT 2010C	Introductory Botany (**Critical Tracking**; State Core Gen Ed Biological Sciences and Physical Sciences)	
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory 1 (**Critical Tracking**; State Core Gen Ed Biological Sciences and Physical Sciences)	
ENC 1101	Expository and Argumentative Writing (State Core Gen Ed Composition (p. 23); Writing Requirement: 6,000 words)	3
MAC 1147	Precalculus Algebra and Trigonometry (**Critical Tracking**; State Core Gen Ed Mathematics)	4
MUL 2010	Experiencing Music (State Core Gen Ed Humanities and International)	3
	Credits	13-14
Semester Two		
Select one:		4
BOT 2011C	Plant Diversity (**Critical Tracking**; State Core Gen Ed Biological Sciences and Physical Sciences)	
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2 (**Critical Tracking**; State Core Gen Ed Biological Sciences and Physical Sciences)	
ENC 2210	Technical Writing (Gen Ed Composition; Writing Requirement: 6,000 words)	3
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
STA 2023	Introduction to Statistics 1 (Gen Ed Mathematics)	3
	Credits	13
Semester Three		
AEC 3030C or SPC 2608	Effective Oral Communication or Introduction to Public Speaking	3
AMH 2020	United States Since 1877 (Gen Ed Social and Behavioral Sciences and Diversity)	3
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry 1 Laboratory (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	4
ECO 2013	Principles of Macroeconomics (**Critical Tracking**; State Core Gen Ed Social and Behavioral Sciences)	4
	Credits	14
Semester Four		
ALS 3133	Agricultural and Environmental Quality	3

PHY 2004 & 2004L	Applied Physics 1 and Laboratory for Applied Physics 1 (Gen Ed Biological and Physical Sciences)	4
SWS 3022 & 3022L	Introduction to Soils in the Environment and Introduction to Soils in the Environment Laboratory (Gen Ed Biological and Physical Sciences)	4
Agribusiness elective		3
	Credits	14
Summer After Semester Four		
Select one:		3
ENY 3005 & 3005L	Principles of Entomology and Principles of Entomology Laboratory (Gen Ed Biological and Physical Sciences)	
ENY 3510C	Turf and Ornamental Entomology

Agribusiness elective		3
	Credits	14
Summer After Semester Six		
PLS 4941	Practical Work Experience	3
	Credits	3
Semester Seven		
AEB 4126	Agricultural and Natural Resource Ethics (Gen Ed Humanities or Social and Behavioral Sciences; Writing Requirement: 6,000 words)	3
PLP 3002C	Fundamentals of Plant Pathology	4
PLS 3223 & 3223L	Plant Propagation and Plant Propagation Laboratory	3
PLS 4601C	Principles of Weed Science	3
Agribusiness elective		3
	Credits	16
Semester Eight		
ORH 4933	Professional Seminar in Environmental Horticulture	1
PLS 4950	Plant Science Capstone	3
Pest Management electives		6
Approved electives		4
	Credits	14
	Total Credits	120

Approved Electives | Minimum 19 Credits

Students must consult with their advisor for assistance in selecting the designated listed electives in order to take applicable and appropriate courses for the students' job and career aspirations. Consult an advisor for other options, which may include study abroad courses.

Pest Management | Minimum 6 Credits

Code	Title	Credits
AOM 3333	Pesticide Application Techniques	3
ENY 4161	Insect Classification	3
IPM 3022	Fundamentals of Pest Management	3
IPM 4254	Landscape Integrated Pest Management: Ornamentals and Turf	3
NEM 3002	Principles of Nematology	3

Professional Electives | Minimum 4 Credits

Code	Title	Credits
AOM 3734	Irrigation Principles and Practices in Florida	3
ORH 4242C	Arboriculture	4
ORH 4804 & 4804L	Annual and Perennial Gardening and Annual and Perennial Gardening Laboratory	3
ORH 4848	Landscape Plant Establishment	2
ORH 4905	Independent Study of Environmental Horticulture	1-3
WIS 4443C	Wetland Wildlife Ecology	4

Agribusiness | Minimum 9 Credits

Code	Title	Credits
AEB 3133	Principles of Agribusiness Management	3
AEB 3144	Introduction to Agricultural Finance	3
AEB 3300	Agricultural and Food Marketing	3
AEB 3341	Selling Strategically	3
AEB 4424	Human Resources Management in Agribusiness	3

Academic Learning Compact

The plant science major, offered jointly by the departments of Agronomy and Plant Pathology, enables students to apply principles associated with production and improvement of agronomic crops. Students will acquire knowledge about the scientific fundamentals of plant growth of field and forage crops. They will acquire knowledge about fungi, bacteria and viruses, as well as environmental factors that cause plant disease. This program prepares students to work in the lab and field settings and to develop applied skills for research and extension.

Before Graduating Students Must

- Complete a research paper and an oral presentation with satisfactory faculty evaluation.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe plant growth and development in terms of plant morphology and physiology and evaluate the abiotic and biotic factors that impact plant growth and management.
2. Recommend practices that growers and managers can implement to address the abiotic and biotic components of their cropping system.

Critical Thinking

3. Analyze and apply science-based data to solve problems in plant production, distribution and/or utilization.
4. Design and evaluate a project that addresses a problem or challenge related to their area of interest.

Communication

5. Create, interpret and analyze written text and multimedia presentations.
6. Communicate effectively through oral and multimedia presentations.

Plant Science Minor

Established in 1870, the mission of the College of Agricultural and Life Sciences is to deliver unsurpassed educational programs that prepare students to address the world's critical challenges related to agriculture, food systems, human well-being, natural resources and sustainable communities.

Precision Agriculture Minor

In the multidisciplinary precision agriculture minor, students use satellite imagery, aerial photography, field sensors, and the Global Positioning System to acquire information about field conditions. This information is organized and analyzed using a digital mapping system called Geographical Information System. After being analyzed, these data can help make effective management decisions.

Related Precision Agriculture Programs

- Bachelor of Science in Agricultural Operations Management (p. 55)

Soil and Water Sciences

Soil and Water Sciences involves managing land and water resources across a wide range of ecosystems, including agricultural, forested, range, urban and wetlands. Soil and Water Sciences students have a strong science and math background and study biology, calculus, microbiology, chemistry, physics, and ecology.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **School:** Natural Resources and Environment (p. 1356)
- **Degree:** Bachelor of Science
- **Specializations:** Soil Science (p. 294) | Water Science (p. 298)
- **Credits for Degree:** 120
- **Additional Information:** Soil Science (https://soils.ifas.ufl.edu/academics/-undergraduate-studies/soil-science-specialization) | Water Science (https://soils.ifas.ufl.edu/academics/-undergraduate-studies/water-science-specialization)
- **Related Soil and Water Sciences Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Students are trained in managing land and water resources in a wide range of ecosystems, including agricultural, forested, range, urban and wetlands through different degree programs. Specializations within this degree program are designed to give the student a strong background in soil and water sciences with a core of required courses taken during their junior and senior years. Beyond the core courses, students can select from several groups of electives that provide flexibility in their program.

Students may also prepare for professional schools by selecting appropriate elective courses.

Related Soil and Water Sciences Programs

Academic Learning Compact

The soil and water sciences major enables students to identify and to describe the morphology of soils, to differentiate soils according to soil taxonomy and to distinguish soil forming factors. Students will use this knowledge to assess properties of soils in relation to plant growth and environmental uses and to apply this knowledge to different soil uses in agriculture, natural resources and urban settings.

Before Graduating Students Must

- Pass the soil and water sciences competency exam, given in four parts. One part will be given in each of these required courses:
  - SWS 3022 Soils in the Environment
  - SWS 4451 Soil and Water Chemistry
  - SWS 4602C Soil Physics
  - SWS 4715C Environmental Pedology
- Satisfactorily complete an approved research project in SWS 4905 or SWS 4941.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Apply fundamental principles of chemistry and physics in relation to critical zone processes in the pedosphere and hydrosphere.
2. Classify fundamental biological processes and differentiate basic organism function in soil and hydrologic systems.
3. Utilize field observations, case study evidence and experimental data to describe soil formation, morphology and interactions of the varied components of the hydrologic cycle.

Critical Thinking

4. Critically evaluate the sustainability of water resources in relation to human needs and natural ecosystem function.
5. Demonstrate quantitative problem-solving abilities by applying, analyzing and synthesizing content knowledge related to soil and water chemistry and physics.

Communication

6. Create, interpret and analyze written text, oral messages and multimedia presentations used in agricultural and life sciences.

Electives are chosen with the student's advisor. There are four areas of specialization: soil, water and land use, environmental soil and water management, physical sciences and biological sciences. The student is encouraged to take electives from a range of course groupings that include biology, building construction, chemistry, earth science, environmental science, hydrology, mathematics, physics, policy, production systems, programming and statistics.

Academic Learning Compact

The soil and water sciences major enables students to identify and to describe the morphology of soils, to differentiate soils according to soil taxonomy and to distinguish soil forming factors. Students will use this knowledge to assess properties of soils in relation to plant growth and environmental uses and to apply this knowledge to different soil uses in agriculture, natural resources and urban settings.

Before Graduating Students Must

Soil and Water Sciences | Water Science

Soil and Water Sciences involves managing land and water resources across a wide range of ecosystems, including agricultural, forested, range, urban and wetlands. Soil and Water Sciences students have a strong science and math background and study biology, calculus, microbiology, chemistry, physics, and ecology.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **School:** Natural Resources and Environment (p. 1356)
- **Degree:** Bachelor of Science
- **Specializations:** Soil Science (p. 294) | Water Science (p. 298)
- **Credits for Degree:** 120
- **Additional Information:** Soil Science (https://soils.ifas.ufl.edu/academics/-undergraduate-studies/soil-science-specialization) | Water Science (https://soils.ifas.ufl.edu/academics/-undergraduate-studies/water-science-specialization)
- **Related Soil and Water Sciences Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Students are trained in managing land and water resources in a wide range of ecosystems, including agricultural, forested, range, urban and wetlands through different degree programs. Specializations within this degree program are designed to give the student a strong background in soil and water sciences with a core of required courses taken during their junior and senior years. Beyond the core courses, students can select from several groups of electives that provide flexibility in their program.

Students may also prepare for professional schools by selecting appropriate elective courses.

Related Soil and Water Sciences Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Soil and Water Sciences minor (p. 302)

Water Science

Water's abundance, quality, distribution and properties are essential to all people. Understanding water's role in the environment and in our lives is integral to the future of this important resource. Water science is an interdisciplinary specialization that provides students with opportunities to develop skills essential for a diversity of careers in both government and private sectors. Students will work closely with advisors to develop a course of study tailored to their professional goals.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=011201&track=01) may be used for transfer students.

Semester 1

- Complete 2 of 5 critical courses, excluding labs: BSC 2005/BSC 2005L or BSC 2010/BSC 2010L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2311, PHY 2004/PHY 2004L
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Select one:		3-4
AEB 2014	Economic Issues, Food and You (Gen Ed Social and Behavioral Sciences)	
ECO 2013	Principles of Macroeconomics (Gen Ed Social and Behavioral Sciences)	
ECO 2023	Principles of Microeconomics (Gen Ed Social and Behavioral Sciences)	
Select one:		4
BSC 2005 & 2005L	Biological Sciences and Laboratory in Biological Sciences (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory 1 (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	
State Core Gen Ed Composition (p. 23); Writing Requirement		3
Elective		4
	Credits	14-15
Semester Two		
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
MCB 2000 & 2000L	Microbiology and Microbiology Laboratory	4
SWS 2007	The World of Water (Gen Ed Physical Sciences)	3
State Core Gen Ed Social and Behavioral Sciences (p. 23)		3
Elective		2
	Credits	15
Semester Three		
AEC 3030C or SPC 2608	Effective Oral Communication or Introduction to Public Speaking	3
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry 1 Laboratory (**Critical Tracking**; Gen Ed Physical Sciences)	4
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	4
Gen Ed Composition; Writing Requirement		3
Elective		2
	Credits	16
Semester Four		
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory (**Critical Tracking**; Gen Ed Physical Sciences)	4
PHY 2004 & 2004L	Applied Physics 1 and Laboratory for Applied Physics 1 (**Critical Tracking**; Gen Ed Physical Sciences)	4
Select one:		3-4
STA 2023	Introduction to Statistics 1 (Gen Ed Mathematics)	
MAC 2312	Analytic Geometry and Calculus 2 (Gen Ed Mathematics)	
State Core Gen Ed Humanities (p. 23)		3
	Credits	14-15
Semester Five		
Select one:		4
CHM 2200 & 2200L	Fundamentals of Organic Chemistry and Fundamentals of Organic Chemistry Laboratory	
CHM 3120 & 3120L	Introduction to Analytical Chemistry and Analytical Chemistry Laboratory	
SWS 3022 & 3022L	Introduction to Soils in the Environment and Introduction to Soils in the Environment Laboratory (Gen Ed Biological and Physical Sciences)	4
SWS 4451	Soil and Water Chemistry	3
Approved elective		3
Elective		3
	Credits	17
Semester Six		
AEC 3033C	Research and Business Writing in Agricultural and Life Sciences (Writing Requirement)	3
SWS 4223	Environmental Biogeochemistry	3
SWS 4244	Wetlands	3

Approved electives		6
	Credits	15
Summer After Semester Six		
SWS 4905 or SWS 4941	Individual Work or Full-time Practical Work Experience in Soil and Water Science	1-3
Approved elective		2
	Credits	3-5
Semester Seven		
FNR 4660 or PUP 4224	Natural Resource Policy and Economics or Florida Environmental Politics	3
SWS 4602C	Soil Physics (Gen Ed Physical Sciences)	3
Approved electives		7
	Credits	13
Semester Eight		
SWS 4245	Water Resource Sustainability	3
SWS 4307	Ecology of Waterborne Pathogens	3
Approved electives		7-8
	Credits	13-14
	Total Credits	120

Approved Electives

Code	Title	Credits
ALS 3133	Agricultural and Environmental Quality	3
AOM 3734	Irrigation Principles and Practices in Florida	3
AOM 4643	Environmental Hydrology: Principles and Issues	3
EES 4201	Water Chemistry	3
EES 4401	Public Health Engineering	3
FAS 4305C	Introduction to Fishery Science	3
FNR 4343C	Forest Water Resources	3
GEO 3162C	Introduction to Quantitative Analysis for Geographers	4
GEO 3250	Climatology	3
GEO 3280	Principles of Geographic Hydrology	4
GLY 1150L	Florida Geology Laboratory	1
GLY 3083C	Fundamentals of Marine Sciences	3
OCE 3016	Introduction to Coastal and Oceanographic Engineering	3
SWS 4231C	Soil, Water and Land Use	3
SWS 4233	Soil and Water Conservation	3
SWS 4550	Soils, Water and Public Health	3
SWS 4715C	Environmental Pedology	4
SWS 4720C	GIS in Soil and Water Science	3
SWS 4905	Individual Work	1-3
SWS 4911	Supervised Research in Soil and Water Science	3
SWS 4915	Honors Thesis Research in Soil and Water Science	3
SWS 4932	Special Topics in Soil and Water Science	1-3

Electives are chosen with the student's advisor. The student is encouraged to take electives from a range of course groupings that include biology, building construction, chemistry, earth science, environmental science, geology, hydrology, mathematics, physics, policy, production systems, programming, soils, and statistics.

Academic Learning Compact

The soil and water sciences major enables students to identify and to describe the morphology of soils, to differentiate soils according to soil taxonomy and to distinguish soil forming factors. Students will use this knowledge to assess properties of soils in relation to plant growth and environmental uses and to apply this knowledge to different soil uses in agriculture, natural resources and urban settings.

Before Graduating Students Must

- Pass the soil and water sciences competency exam, given in four parts. One part will be given in each of these required courses:
  - SWS 3022 Soils in the Environment
  - SWS 4451 Soil and Water Chemistry

- SWS 4602C Soil Physics
- SWS 4715C Environmental Pedology

- Satisfactorily complete an approved research project in SWS 4905 or SWS 4941.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Apply fundamental principles of chemistry and physics in relation to critical zone processes in the pedosphere and hydrosphere.
2. Classify fundamental biological processes and differentiate basic organism function in soil and hydrologic systems.
3. Utilize field observations, case study evidence and experimental data to describe soil formation, morphology and interactions of the varied components of the hydrologic cycle.

Critical Thinking

4. Critically evaluate the sustainability of water resources in relation to human needs and natural ecosystem function.
5. Demonstrate quantitative problem-solving abilities by applying, analyzing and synthesizing content knowledge related to soil and water chemistry and physics.

Communication

6. Create, interpret and analyze written text, oral messages and multimedia presentations used in agricultural and life sciences.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **School:** Natural Resources and Environment (p. 1356)
- **Credits:** 15 | Completed with minimum grades of C
- **Related Soil and Water Sciences Programs**

This minor must include SWS 3022 and SWS 3022L. Additional SWS courses must be approved in writing by the academic advisor and the undergraduate coordinator in soil and water science at least two semesters before graduation. Courses taught outside the Department of Soil and Water Sciences cannot be used to fulfill requirements for this minor.

Fifteen credits in soils courses are necessary for certification as a soil scientist and/or to work for the federal government as a soil scientist. Some courses offered in soil and water sciences will not be accepted for certification or to work for the federal government.

Wildlife Ecology and Conservation

This major focuses on developing students' knowledge of the conservation and management of wildlife and habitats for the greatest aesthetic, ecological, economic, and recreational values. Students in the Wildlife Ecology and Conservation major study biology, chemistry, ecology, calculus, soil science, plant taxonomy, entomology, geography, zoology, and sustainability.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor of Science
- **Specializations:** Preprofessional (p. 309) | Wildlife Ecology and Conservation (p. 305)
- **Credits for Degree:** 120
- **Contact**
- **Additional Information**
- **Related Wildlife Ecology and Conservation Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The department also co-administers a major in natural resource conservation with the School of Forest Resources and Conservation.
More Info (p. 235)

Related Wildlife Ecology and Conservation Programs

- Bachelor of Science in Forest Resources and Conservation (p. 156)
- Wildlife Ecology and Conservation minor (p. 313)

Academic Learning Compact

The primary focus of the wildlife ecology and conservation major is to develop students' knowledge of the conceptual and applied aspects of scientific, social and ethical thought in wildlife ecology and conservation. Emphasis is placed on the biology, ecology, natural history and behavior of Florida wildlife species and the management of wildlife, their habitats and their population dynamics for the greatest aesthetic, ecological, economic and recreational values. Students will learn to think critically about major problems in the conservation of biological diversity and to apply biological principles to the preservation of this diversity.

Before Graduating Students Must

- Pass the wildlife ecology and conservation competency exam, given as part of WIS 4203C or WIS 4554 .
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Acquire knowledge of scientific, social and ethical arenas of wildlife ecology and conservation; acquire skills for critical reasoning in conservation management; acquire knowledge of Florida wildlife species and their biology, ecology, natural history and behavior; describe principles and applications of wildlife management practices, population dynamics and habitat management; and apply biological principles to solve problems in wildlife conservation and preserve biological diversity.

Critical Thinking

2. Apply ecological, mathematical and statistical concepts to interpret, understand and communicate wildlife ecology and conservation data.

Communication

3. Create, interpret and analyze written text, oral messages and multimedia presentations used in agricultural and life sciences.

Related Wildlife Ecology and Conservation Programs

- Bachelor of Science in Forest Resources and Conservation (p. 156)
- Wildlife Ecology and Conservation minor (p. 313)

Wildlife Ecology and Conservation

Students in this specialization train in the biological, social, physical and management sciences, and excel at both the scientific and human dimensions of managing wildlife and natural resources. With appropriate choice of electives and course options (below), graduates satisfy requirements for certification as an associate wildlife biologist with The Wildlife Society.

Students select a focus area comprised of four courses (minimum of 12 credits) in one of the following areas: ecology, management, human dimensions, quantitative science or urban and regional planning (combined degree program only).

All students must file a plan of study for focus area courses with Wildlife Ecology and Conservation (WEC) Student Services before completing 60 credits in the major or before the end of the first term of enrollment for transfer students. The plan must be approved by both the student's faculty advisor and the undergraduate coordinator. Any changes to the plan must be approved by the undergraduate coordinator.

Lists of approved courses are available in the WEC Student Services Office, 102 Newins-Ziegler Hall.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=030501&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 6 critical-tracking courses, excluding labs: BSC 2010/2010L, BSC 2011/2011L, CHM 2045/2045L, AEB 2014 or AEB 3103 or ECO 2023, MAC 2311, STA 2023
- 2.5 GPA on required math and science courses combined
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA on required math and science courses combined
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses, excluding labs
- 2.5 GPA on required math and science courses combined
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses, excluding labs
- 2.5 GPA on required math and science courses combined
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- 2.5 GPA on required math and science courses combined
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Acquire knowledge of scientific, social and ethical arenas of wildlife ecology and conservation; acquire skills for critical reasoning in conservation management; acquire knowledge of Florida wildlife species and their biology, ecology, natural history and behavior; describe principles and applications of wildlife management practices, population dynamics and habitat management; and apply biological principles to solve problems in wildlife conservation and preserve biological diversity.

Critical Thinking

2. Apply ecological, mathematical and statistical concepts to interpret, understand and communicate wildlife ecology and conservation data.

Communication

3. Create, interpret and analyze written text, oral messages and multimedia presentations used in agricultural and life sciences.

Wildlife Ecology and Conservation | Preprofessional

This major focuses on developing students' knowledge of the conservation and management of wildlife and habitats for the greatest aesthetic, ecological, economic, and recreational values. Students in the Wildlife Ecology and Conservation major study biology, chemistry, ecology, calculus, soil science, plant taxonomy, entomology, geography, zoology, and sustainability.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **Degree:** Bachelor of Science
- **Specializations:** Preprofessional (p. 309) | Wildlife Ecology and Conservation (p. 305)
- **Credits for Degree:** 120
- **Contact**
- **Additional Information**
- **Related Wildlife Ecology and Conservation Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The department also co-administers a major in natural resource conservation with the School of Forest Resources and Conservation.
More Info (p. 235)

Related Wildlife Ecology and Conservation Programs

- Bachelor of Science in Forest Resources and Conservation (p. 156)
- Wildlife Ecology and Conservation minor (p. 313)

Preprofessional

This specialization satisfies the coursework requirements for admission to the Doctor of Veterinary Medicine program. Students pursuing admission to the College of Veterinary Medicine must take six credits of general education composition, nine credits of humanities and six credits of social and behavioral sciences.

Some students can also satisfy requirements for certification as an associate wildlife biologist by The Wildlife Society. Certification requirements and application material are available at www.wildlife.org (http://www.wildlife.org).

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=030501&track=01) may be used for transfer students.

Semester 1

- Complete 2 of 7 critical-tracking courses, excluding labs: BSC 2010/2010L, BSC 2011/2011L, CHM 2045/2045L, CHM 2046/2046L, AEB 2014 or AEB 3103 or ECO 2023, MAC 2311, STA 2023
- 2.5 GPA on required math and science courses combined
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses, excluding labs
- 2.5 GPA on required math and science courses combined
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA on required math and science courses combined
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses, excluding labs
- 2.5 GPA on required math and science courses combined
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- 2.5 GPA on required math and science courses combined
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory 1 (**Critical Tracking**; Gen Ed Biological Sciences)	4

	Credits	16
Semester Eight		
Select 9-11 credits:		9-11
ANS 3006	Introduction to Animal Science	
& 3006L	and Introduction to Animal Science Laboratory	
ANS 3440	Principles of Animal Nutrition	
WIS 4203C	Landscape Ecology and Conservation	
WIS 4427C	Wildlife Habitat Management	
WIS 4601C	Quantitative Wildlife Ecology	
WIS 4941	Internship in Wildlife Ecology and Conservation	
WIS 4945C	Wildlife Techniques	
MCB 3020	Basic Biology of Microorganisms	4
& 3020L	and Laboratory for Basic Biology of Microorganisms	
Elective		2
	Credits	15-17
	Total Credits	120

Additional electives may be needed to complete the 120 credits required for graduation. Students can choose any courses as electives.

State core courses can be selected to meet the university's requirements for writing, international and diversity focused courses.

Academic Learning Compact

The primary focus of the wildlife ecology and conservation major is to develop students' knowledge of the conceptual and applied aspects of scientific, social and ethical thought in wildlife ecology and conservation. Emphasis is placed on the biology, ecology, natural history and behavior of Florida wildlife species and the management of wildlife, their habitats and their population dynamics for the greatest aesthetic, ecological, economic and recreational values. Students will learn to think critically about major problems in the conservation of biological diversity and to apply biological principles to the preservation of this diversity.

Before Graduating Students Must

- Pass the wildlife ecology and conservation competency exam, given as part of WIS 4203C or WIS 4554 .
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Acquire knowledge of scientific, social and ethical arenas of wildlife ecology and conservation; acquire skills for critical reasoning in conservation management; acquire knowledge of Florida wildlife species and their biology, ecology, natural history and behavior; describe principles and applications of wildlife management practices, population dynamics and habitat management; and apply biological principles to solve problems in wildlife conservation and preserve biological diversity.

Critical Thinking

2. Apply ecological, mathematical and statistical concepts to interpret, understand and communicate wildlife ecology and conservation data.

Communication

3. Create, interpret and analyze written text, oral messages and multimedia presentations used in agricultural and life sciences.

Wildlife Ecology and Conservation Minor

The wildlife ecology and conservation minor introduces the basic principles of ecology and their application to the challenges of biodiversity conservation and sustainability, especially with regard to wildlife and wildlife habitat.

Design, Construction and Planning, College of

Established in 1925, the College of Design, Construction and Planning (DCP) is one of the largest such institutions in the country with more than 1,500 students. In addition to on-going projects that advance both scholarly study and professional practice, DCP contributes to community, state, regional and national efforts to conserve and improve the quality of the natural and built environments.

Academic Advising

331 Architecture Building
352.392.4863

Established

1925. Today it is one of the largest design, planning and construction institutions in the country with more than 1,500 students.

Location

Academic programs and other resources are located in three campus buildings:

- the Architecture Building,
- the Fine Arts Complex (FAC) and
- Rinker Hall.

Off-campus facilities are located in Vicenza, Italy and Nantucket Island.

Schools and Departments

- School of Architecture
- Department of Interior Design

- Department of Landscape Architecture
- Department of Urban and Regional Planning
- M.E. Rinker Sr. School of Construction Management

Accredited

The following academic programs are accredited by the respective professional organizations of each unit.

Architecture

National Architectural Accrediting Board
1101 Connecticut Ave NW STE 410
Washington, DC 20036

Construction Management

American Council for Construction Education
825 W. Bitters Road, STE 103
San Antonio, Texas 78216

Interior Design

Council for Interior Design Accreditation
206 Grandville Ave., STE 350
Grand Rapids, MI 49503-2822

Landscape Architecture

American Society of Landscape Architects
636 Eye St., NW
Washington, DC 20001-3736

Urban and Regional Planning

Planning Accreditation Board
2334 W. Lawrence Ave STE 209
Chicago, IL 60625

Academic Advising

The college's advising center in 331 Architecture Building provides academic advising to undergraduate students in architecture, interior design, landscape architecture and sustainability and the built environment.

Undergraduate students in the Rinker School of Construction Management should report to 301 Rinker Hall for academic advising.

Scholarships

Scholarships within the college are available to students in the upper-division and graduate professional programs.

Guidance

Internships vary by academic unit. Consult the academic unit regarding its requirements for internships. The academic unit and the dean's office (331 ARCH) provide career guidance.
More Info (http://www.dcp.ufl.edu/faculty)

Students considering application to the college should anticipate expenditures for computers, travel, equipment and tools essential to their education as design, planning and construction professionals. For further information, contact the appropriate department/school.

Academic Policies

Admission Requirements

Admission to this college is selective and cannot be guaranteed to applicants who satisfy minimum requirements. The college has established a selective admission process and priority is given to those applicants who, in the judgment of the appropriate department/school's admissions committee, have the greatest potential for successful completion of the program.

Admission Protocols for Native UF Students

Freshmen at the university are admitted directly into architecture, construction management, interior design, landscape architecture and sustainability and the built environment programs.

The college will monitor the progress of all students. Students who fall below the critical-tracking criteria for the degree program will have a hold placed on their records. They must see an advisor in the college/academic unit before they can advance register and continue in the program. They also may be referred to the Academic Advising Center to seek admission to another college.

Admission Protocols for Transfer Students *without* Coursework in Architecture, Interior Design and Landscape Architecture

Conditional admission is open to applicants who have:

- Accumulated 60 credits of college-level coursework (for university transfer only) or earned the A.A. degree (Florida public state college transfer students only),
- Completed two sequential foreign language courses in secondary school or 8-10 credits at the postsecondary level (or documented an equivalent level of proficiency), and
- Met the general admissions criteria, yet still need to complete first-year and second-year preprofessional courses.
  - Summer A is the primary semester for transfer admission for students without architecture or interior design prerequisites.
  - Fall is the primary entry semester for landscape architecture.
  - Transfer students without preprofessional courses are admitted conditionally and will be reviewed for selective admission into the third year of the program upon completion of the preprofessional courses, review of their academic performance and portfolio of work. These students may require as many as four semesters at the university to complete preprofessional requirements because of the sequential nature of the courses.

Each department/school may consider any or all of the following for admissions review:

- Architecture: Completion of MAC 1147 (or MAC 1140 and MAC 1114), PHY 2004 or PHY 2053
- Interior Design: Completion of MAC 1147 (or MAC 1140 and MAC 1114), PHY 2004 or PHY 2053, ARH 2051
- Landscape Architecture: Completion of MAC 1147 (or MAC 1140 and MAC 1114), BOT 2010C or BSC 2005
- Preprofessional GPA
- Achievements in preprofessional courses and/or courses related to the chosen plan of study
- Portfolio review or pin-up (design students)

Admission Protocols for Transfer Students in the Sustainability and the Built Environment Program

Conditional admission is open to applicants who have:

- Accumulated 60 credits of college-level coursework (for university transfer only) or earned the A.A. degree (Florida public state colleges and universities)
- Completed the standard online UF transfer application
- Completed two sequential foreign language courses in secondary school or 8-10 credits at the postsecondary level (or documented an equivalent level of proficiency)
- Completed ECO 2013, ECO 2023, MAC 1147 (or MAC 1140 and MAC 1114) and STA 2023 with minimum grades of C
- Achieved an overall minimum GPA of 3.0

Admission Protocols for Transfer Students with Coursework in Architecture, Interior Design or Landscape Architecture

Transfer students who will receive their Associate of Arts degree from a Florida public institution must meet or exceed the 60-credit admission protocols for admission to the college. The admission protocols for each department follow below:

Architecture Upper-Division Transfer

Any student who has earned an Associate of Arts degree in the course of completing a two-year pre-architecture program at one of the Florida public state colleges and universities (Broward College, Hillsborough College, Indian River College, Miami-Dade College, Palm Beach College, St. Petersburg College, Valencia College) can apply for admission into the UF Bachelor of Design program's upper division.

Both UF and Florida state college applicants for upper-division placement are ranked competitively according to overall grade point average, architectural grade point average and faculty evaluation of design studio work in the annual Pin-Up Exhibits (all calculated by UF standards) to determine whether or not they qualify for placement into UF's upper-division Bachelor of Design curriculum.

All applicants must apply to the university's Office of Admissions by the deadline to qualify for admission to the School of Architecture.

This is in addition to sending the School of Architecture the Notice to Pin Up by the deadline.

Students wishing to transfer from an institution with some design and related preprofessional courses may present a portfolio of work to the school for review and placement. Students will be placed in the program the committee determines is appropriate, which may necessitate a repeat of previous coursework.

Interior Design

Transfer students must contact the department to determine admission timing and eligibility. All students must complete general education and preprofessional coursework before admission to professional studies. Criteria for admission include review of design performance, transcript, letter and interview.

Students who need to complete preprofessional requirements should apply to the Summer A term to begin the required tracking courses. The remaining preprofessional courses may be completed during the next academic year. Students accepted for the sequence are admitted conditionally and their records will be reviewed during the next spring term for entry into professional courses in the junior year.

Students are admitted selectively to the professional program on the basis of portfolio review, overall grade point average, interview and letter of application. Notification of the admission decision will be made before the end of the spring semester for the junior class that begins that fall. Contact the department for current information.

Landscape Architecture

Transfer students must contact the department to determine admission timing and eligibility. All students must complete general education and preprofessional coursework before admission to professional studies. Criteria for admission include review of design performance, transcript, letter and interview.

Construction Management

Refer to the M.E. Rinker, Sr. School of Construction Management (p. 1333).

Application Deadlines

More Info (http://www.admissions.ufl.edu/ugrad/trappdates.html)

The programs in architecture, interior design and landscape architecture will admit students for third-year professional coursework only in the fall semester. Students who need to complete some or all of the preprofessional requirements shall be reviewed for the fall and Summer A semesters only.

The programs in building construction and fire and emergency services in the M.E. Rinker, Sr. School of Construction Management will admit students for third-year professional coursework in the fall and spring semesters.

The Office of Admissions (for transfer students) or the college dean's office (for UF students) must receive applications and all required credentials by the college/school application deadlines.

College Regulations

Dean's List (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors)

Field Trips

There are required field trips to give students an opportunity to broaden and expand their educational experience through study of planning,

design, construction and sustainability projects. Students may also be required to attend state and national professional meetings.

Maximum and Minimum Loads

A normal load is 14-16 credits per semester. A student may be permitted to register for more than 17 credits when the advisor feels the student's record justifies it.

The minimum is 12 credits for full-time status; students who wish to take fewer credits should be aware that certain university privileges and benefits require full-time status. It is the student's responsibility to verify the minimum academic load necessary.

Students who seek an adjustment to their academic load may petition the dean through the director of student services and the appropriate department chair.

While the preprofessional and professional course sequence must be maintained, variation of general education and elective coursework may occur. The four-year plans shown require an average of more than 16 credits per term, which may not be appropriate for all students. Students should plan their curricula well in advance so the course sequence and credit loads will accommodate the most effective academic progress, regardless of the number of terms required.

Practical Experience

Before graduating, students should get experience in the employment of practicing professionals in their field or in some allied profession. Such employment provides an introduction to the methods of actual practice and enables the student to derive increased benefit from advanced work in school. Students should contact their advisor for recommended or required practical experience.

Student Work

The college can retain student work for the purpose of record, accreditation, exhibition or instruction. Work produced while the student is enrolled in the college is the property of the college.

Degree Requirements

To be eligible for graduation, students must earn a 2.0 minimum overall grade point average and a 2.0 grade point average for all work attempted in the college. Students planning to enter the Graduate School must maintain a 3.0 average in the junior and senior years.

Graduating with Honors (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors)

Programs

MAJORS

- Architecture
- Interior Design
- Landscape Architecture | 5-Year Professional Program
- Sustainability and the Built Environment

MINORS

- Landscape Architecture Minor
- Sustainability and the Built Environment Minor
- Urban and Regional Planning Minor

Architecture

A student's creativity and individuality are rewarded in the School of Architecture's studio-based learning experience. Students benefit from the close student-to-teacher ratios and a true interdisciplinary learning environment.

About this Program

- **College:** Design, Construction and Planning (p. 313)
- **Degree:** Bachelor of Design | *B.Des., a preprofessional degree*
- **Credits for Degree:** 120
- **Additional Information**

To graduate with this major, students must complete all university, college, and major requirements.

Many students supplement their education with study-abroad and off-site learning opportunities in Vicenza, Asia, Mexico, Nantucket and more. An extensive library, modern computer labs, woodshop, 3D fabrication lab and beautiful college environment facilitate creativity. Students regularly exhibit their models and drawings in the college's gallery.

The studio sequence progressively and thoroughly explores various formal, conceptual and technical considerations and how they interrelate in the creation of space. The ideas and experience that students gain in design studio are reinforced and amplified by support courses in history, theory, structural tectonics, building technology and construction materials and methods.

Field trips to broaden and expand students' educational experience are required and will be paid for by students. Students may also be required to attend state and national professional meetings.

The School of Architecture's preprofessional Bachelor of Design program prepares students for graduate school studies toward the accredited two-year Master of Architecture degree or for jobs in private practice.

National Architectural Accrediting Board

Most states require architects to hold accredited degrees. Two types of degrees accredited by the National Architectural Accrediting Board (NAAB) are the Bachelor of Architecture (5 years) and the Master of Architecture (1, 2 or 3 years depending on institution). Both degrees are structured for registration and licensure. UF's four-year preprofessional degree is not accredited by the NAAB; the two-year Master of Architecture degree is an accredited degree.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=040201&track=01) may be used for transfer students.

Semester 1

- Complete DCP 1003 in Semester 1 or 2 [1]
- Complete ARC 1301 and ARC 1701
- 2.75 UF GPA required

Semester 2

- Complete DCP 1003, if not completed in Semester 1 [1]
- Complete ARC 1302 and ARC 1702
- 2.75 UF GPA required

Semester 3

- Complete ARC 2180, ARC 2201, ARC 2303
- Complete MAC 1147 or PHY 2053
- 2.75 UF GPA required

Semester 4

- Complete ARC 2304 and ARC 2461
- Compete MAC 1147 and PHY 2053
- Complete pin-up requirement
- 2.75 UF GPA required

Semester 5

- Complete ARC 3320, ARC 3503 and ARC 3743

[1] Summer transfer students should complete DCP 1003 by Semester 4.

Model Semester Plan

Students are required to complete IDS 1161 in semester 1 or 2.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

	Credits	15
	Total Credits	120

1. The School of Architecture requires students to complete MAC 1147 and PHY 2053 before semester 5. Due to the rigorous nature of design studio, students should complete these courses during the summer semesters. MAC 2233 is recommended before graduating because of the admissions requirements of some graduate programs.
2. The School of Architecture requires students to complete ARC 3181 or ARC 4310C before graduating, in semester 6 or 8. Students should try to complete both courses.
3. Any 3000-level or higher academic course, any 1000-level or higher foreign language where the student is not a native speaker and where the course is taken at an SUS institution, or any course sequence toward a minor.

This program is limited access. At the end of semester 4, students will be selected according to a competitive ranking of all applicants by overall GPA, architectural GPA and faculty evaluation of design quality in the annual pin-up exhibits.

Academic Learning Compact

The Bachelor of Design requires students to demonstrate and to understand the creative design process and associated skills as they relate to problem solving and spatial organization. Students will develop skills in spatial design, graphic communication, materials, technology and environmental issues. Programs analyze existing and projected examples of build form, define fundamental principles and knowledge of the discipline, develop students' skills in the formation and projection of spatial experience and relate creativity to cultural and physical environment.

Before Graduating Students Must

- Follow and achieve national accreditation (NAAB) guidelines for terminal project and portfolio assessments.
- Receive acceptable review and assessment of studio work from faculty, industry professionals and peers.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Implement a creative and synthetic design process to produce unique and appropriate architectural proposals.
2. Create presentations utilizing appropriate disciplinary vocabulary and graphic skills that support design methodologies.
3. Acquire, interpret and analyze information as the basis for design proposals.

Critical Thinking

4. Communicate about the discipline to a variety of audiences using a variety of formats and approaches.
5. Acquire skills in drawing, electronic imaging, materials and environmental issues.

Communication

6. Create conceptually clear and expressive design proposals based on appropriate prioritization of issues, thoughtful analysis of project parameters and critical reflection of schematic ideas.
7. Produce designs built upon the relationship between human behavior and perception in relation to the built environment.

Interior Design

Consistently positioned as a leader nationally, UF's interior design program is recognized as an excellent major for students with strong creative and analytical skills who are self-motivated and work well in teams.

About this Program

- **College:** Design, Construction and Planning (p. 313)
- **Degree:** Bachelor of Design
- **Credits for Degree:** 120

- **Additional Information**
- **Related Interior Design Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Interior design is both an art and a science that involves the creation of imaginative and well-conceived spaces that:

- Serve the needs, function and requirements of individuals
- Provide a sense of place within both public and private spaces for group and individual activity
- Are appropriate and sustainable
- Include the community, owners, users, designers, planners and contractors as active participants in the design process.

Through the learning design process, graduates develop on all levels: as a thoughtful leader, an innovator, a collaborator and as an ethical and socially engaged human being. This program prepares students for professional careers in office design, retail, healthcare, residential and hospitality design. Examples of interior design specializations include historic preservation and environmental sustainability.

To give students first-hand design exposure, the department organizes trips to interact with designers in experienced firms, installations, significant buildings and exhibitions in cities such as Atlanta and Chicago. During the summer, upper-division students have opportunities to enroll in the international programs including the Detmold School for Architecture and Interior Architecture at the University of the Applied Sciences in Detmold, Germany. The department offers academic credit to explore professional opportunities through the required Design Field Experience (DFE) program. Interior design students may consider pursuing graduate studies in the program's 4+1 option to receive a Master of Interior Design.

Organized trips to experience interior design, architecture and art in urban settings are required in the junior and senior years. Students should plan to have adequate funds for these required field trips and for their design studio project materials.

The four-year program is accredited by the Council for Interior Design Accreditation (CIDA).

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500408&track=01) may be used for transfer students.

Semester 1

- Complete ARC 1301, DCP 1003, IND 1020, and IND 2100 with minimum grades of C
- 2.6 UF GPA required

Semester 2

- Complete ARC 1302 and IND 2130 with minimum grades of C
- 2.6 UF GPA required

Semester 3

- Complete ARC 2303, ARH 2051, IND 2313, and IND 2635
- 2.8 UF GPA required

Semester 4

- Complete IND 2214, IND 2422 and IND 2460C
- Successfully complete the selective admissions guidelines
- 2.85 UF GPA required
- Complete MAC 1147 and PHY 2053 prior to moving into Semester 5

Semester 5

- Complete IND 3215, IND 3468, and IND 3483

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
ARC 1301	Architectural Design 1 (**Critical Tracking**)	4
DCP 1003	Creating our Built Environment ((**Critical Tracking**))	1
IND 1020	Design Innovation (**Critical Tracking**; Gen Ed Humanities)	3

Elective (3000/4000 level)		3
Elective		1
	Credits	13
	Total Credits	120

[1] The Department of Interior Design requires students to complete MAC 1147 and PHY 2053 before semester 5. Due to the rigorous nature of design studio, students should complete these courses during the summer semesters.

[2] The Department of Interior Design requires students to complete IND 4940 no later than semester 7. Due to the rigorous nature of design studio, students should complete this course the summer between semesters 6 and 7.

Interior design is a limited-access program. During the spring semester of the sophomore year, interior design faculty review each sophomore student's work and determine whether the student is prepared to continue as an interior design major. For more information, please contact the department regarding its selective admissions guidelines.

Academic Learning Compact

The four-year bachelor of design degree in Interior Design requires students to demonstrate and understand the creative design process and associated skills as they relate to problem solving and spatial organization. Students will develop skills in interior design, computer rendering and modeling, graphic communication, theory, materials and the history of interior design. In the studio, students explore advanced problem solving, communication skills and issues related to environmental technology, lighting, professional practice and interior construction.

Before Graduating Students Must

- Complete Council of Interior Design Accreditation academic requirements.
- Receive acceptable review and assessment of studio work from faculty, industry professionals and peers.
- Complete Design Field Experience assessments.
- Submit senior project.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Apply knowledge of the behavioral sciences and human factors.
2. Apply all aspects of the design process to creative problem solving.

Critical Thinking

3. Evaluate, select and apply information and research findings to design.

Communication

4. Communicate visually, verbally and in written form appropriate to the purpose and audience.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
IND 3215	I	I	I	I
IND 3216	I	I	R, A	R, A

Assessment Types

- Exams, research papers and projects (lecture and construction lab courses)
- Individual project work, portfolios and juried presentations (design studios)
- Design field experience and employer evaluations
- CIDA accreditation program completion and senior portfolio

Landscape Architecture Minor

The landscape architecture minor provides an overview of the profession, an introduction to environmental and cultural issues and to design, planning and management theory and applications. This minor does not qualify a student for practice or for professional licensure.

About this Program

- **College:** Design, Construction and Planning (p. 313)
- **Credits:** 15 | Completed with minimum grades of C
- **Related Landscape Architecture Programs**

To help chart coursework, application to the minor should be made as soon as possible after the student has been admitted to an upper-division college. To be considered, students must have a minimum 2.5 GPA.

Of the 15-credit minimum requirement, six credits are required. The remaining credits can be based on interests and background. Students with design, construction, engineering or other technical backgrounds may participate in design and/or construction studios in addition to lecture courses. Acceptance into studio courses is granted with instructor permission, if space is available.

Additional courses in the professional design and construction sequences and in graduate seminars may be possible for students with specialized backgrounds such as other design fields, building construction or engineering. The instructor's permission is required to take courses other than those listed below.

Required Courses

Code	Title	Credits
LAA 1920	Introduction to Landscape Architecture	3
or LAA 2710	History of Landscape Architecture	
LAA 2330	Site Analysis	3
Approved electives		9
Total Credits		15

Approved Electives

Code	Title	Credits
LAA 2376C	Design Communications 1 [1]	4
LAA 2532	Landscape Management	3
LAA 4210	Landscape Architecture Professional Practice	4
LAA 4230	Theories of Landscape Architecture	3
LAA 4905	Special Studies in Landscape Architecture	1-6
LAA 6382	Ecologic/Envir Policy	3

[1] Prereq: previous computer experience, permission of instructor and space availability.

Related Landscape Architecture Programs

- Bachelor of Landscape Architecture, 5-year professional program (p. 323)

Landscape Architecture | 5-Year Professional Program

The Bachelor of Landscape Architecture is an accredited professional degree that qualifies graduates to sit for state licensure. Graduates are well equipped to practice and advance the profession of landscape architecture or to continue in graduate studies. Students from the UF landscape architecture program have won numerous state and national American Society of Landscape Architecture (ASLA) Awards.

About this Program

- **College:** Design, Construction and Planning (p. 313)
- **Degree:** Bachelor of Landscape Architecture
- **Credits for Degree:** 144
- **Additional Information**
- **Related Landscape Architecture Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Students in the major take advantage of nationally and internationally respected faculty, particularly in the final undergraduate independent project. Student work shows strength in ecologically based planning and design, urban issues and conservation; all of strategic concern in Florida and elsewhere.

Educational options include an eight-month internship, focused electives for individual specialization, competitions, and interdisciplinary certificates in historic preservation, sustainable design, geographical information systems (GIS) and wetlands. Studies abroad in international landscape architecture include a fall semester option at The Prague Institute in the Czech Republic.

Required field trips broaden and expand students' educational experiences. Students may have the opportunity to attend state and national professional meetings.

Related Landscape Architecture Programs

- Landscape Architecture minor (p. 323)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=040601&track=01) may be used for transfer students.

All coursework must be completed successfully in no more than two attempts with minimum grades of C.

Semester 1

- Complete DCP 1003 and LAA 1920 with a minimum grades of C
- 2.35 UF GPA required

Semester 2

- Complete ARC 1701 or ARC 1720, (MAC 1140 and MAC 1114) or MAC 1147, and BOT 2010C or BSC 2005
- 2.5 UF GPA required

Semester 3

- Complete ARC 1301
- Complete LAA 2330, LAA 2376C and LAA 2710 with minimum grades of C
- 2.75 UF GPA required

Semester 4

- Complete LAA 2360C, LAA 2379C and LAA 2532 with minimum grades of C
- Complete Selective Admission Portfolio Review
- 2.75 UF GPA required

Semester 5

- Complete LAA 3352C and LAA 3420 with minimum grades of C
- Complete ORH 3513C
- 2.75 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

	Credits	15
	Total Credits	144

[1] **Summer and fall professional experience:** Complete the LAA 4940 and LAA 4941C landscape internship in the summer and fall of the fourth year of study.

This program is limited access. During the spring semester of the sophomore year, students must participate in an exhibit of their work in studio courses. Admission to the junior year is based on this exhibit and the preprofessional GPA.

Academic Learning Compact

The Bachelor of Landscape Architecture degree requires students to demonstrate and understand the ethical planning, design, implementation and management of the natural and cultural landscapes in Florida as the basis for professional studies and training.

Before Graduating Students Must

- Satisfy professional, faculty and peer review of studio work.
- Complete senior final studio project.
- Submit internship assessments.
- Complete internships that emphasize application of your design, planning and management knowledge.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Integrate concepts from the general body of knowledge of the profession of landscape architecture in design decision-making.
2. Apply core professional landscape architecture skills in design decision-making.
3. Apply ethical understanding to design decision-making.

Critical Thinking

4. Combine and analyze information from multiple sources to support design decision-making.

Communication

5. Produce professional visual, oral and written communications.

Sustainability and the Built Environment

The Bachelor of Science in Sustainability and the Built Environment (BSSBE) enables students to explore creative solutions for the planning, design and construction of human structures and settlements.

About this Program

- **College:** Design, Construction and Planning (p. 313)
- **Degree:** Bachelor of Science in Sustainability and the Built Environment
- **Specializations:** Interdisciplinary (p. 334) | Geodesign (p. 329)
- **Credits for Degree:** 120
- **Contact:** Email (advising@dcp.ufl.edu?Subject=Sustainability and the Built Environment Major)
- **Additional Information**
- **Related Sustainability and the Built Environment Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Whether it is the redesign and rehabilitation of existing structures or innovative new design, students will be provided a theoretical foundation for seeking sustainable solutions to problems in the built environment. The degree program is supported by the globally recognized expertise in sustainability of the faculty in the College of Design, Construction and Planning and from across campus.

Graduates will have excellent opportunities for work in various green industries, for government agencies involved with regulation and management of the built environment and with nonprofit organizations promoting the principles of sustainability. Additionally students will be prepared to enter graduate school in architecture, building construction, historic preservation, interior design, landscape architecture and urban and regional planning.

Transfer students for either specialization must complete the A.A. degree, MAC 1147 or (MAC 1140 and MAC 1114), STA 2023, and ECO 2013 and ECO 2023 with minimum grades of C. Students must also have a 3.0 minimum overall GPA. Refer to the admissions website for transfer admission information, application deadlines and the online application.

Certain highly qualified students may have the option of pursuing a 4+1 or a 4+2 degree in urban and regional planning, landscape architecture or building construction.

Field trips to broaden and expand students' educational experiences through study of planning, design, construction, and sustainability projects *are required and will be paid for by students*.

Coursework for the Major

All students, regardless of specialization, are required to take 53 hours of core courses to develop knowledge of the fundamental concepts for sustainability and the built environment.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

Core Courses

Code	Title	Credits
Select one:		3
BCN 1582	International Sustainable Development	
IDS 2935	Special Topics (Facets of Sustainability)	
ECO 2023	Principles of Microeconomics	4

ECO 2013	Principles of Macroeconomics	4
A history course in architecture, construction management, interior design, landscape architecture, or urban and regional planning		
LAA 2330	Site Analysis	3
STA 2023	Introduction to Statistics 1	3
DCP 3210	Sustainable Solutions for the Built Environment	3
DCP 3220	Social and Cultural Sustainability and the Built Environment	3
An approved ecology and the built environment course		
An approved ethics and/or environmental justice course		
An approved energy and/or climate change course		
An approved resource economics course		
DCP 3200	Methods of Inquiry for Sustainability and the Built Environment	3
DCP 4941	Practicum in Sustainability and the Built Environment	6
or DCP 4942	Field Experience in Sustainability and the Built Environment	
DCP 4290	Capstone Project in Sustainability and the Built Environment	6
Total Credits		38

Related Sustainability and the Built Environment Programs

- Sustainability and the Built Environment minor (p. 339)

Academic Learning Compact

The Bachelor of Science in Sustainability and the Built Environment requires students to demonstrate an understanding of the relationship between the goals of sustainability and the activities of the built environment disciplines, including architecture, building construction, historic preservation, interior design, landscape architecture and urban and regional planning.

Before Graduating Students Must

- Complete a capstone or independent research project, present your results to a committee of the program's faculty and receive acceptable assessment.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Explain sustainability principles.
2. Integrate knowledge and principles from sustainability-related disciplines.
3. Describe the role of the built environment in sustainability.
4. Combine information from multiple sources to solve problems.

Critical Thinking

5. Frame sustainable problems and potential solutions within a global context.
6. Collect and analyze data to solve problems.
7. Produce sustainable solutions for problems of the built environment.
8. Integrate multiple disciplinary, cultural and stakeholder perspectives for sustainable problem solving.

Communication

9. Produce an effective oral presentation.
10. Produce effective written communications.
11. Integrate a variety of visual techniques to enhance the communication of ideas and solutions.
12. Solve a built environment sustainability problem in a multidisciplinary team.

Transfer students for either specialization must complete the A.A. degree, MAC 1147 or (MAC 1140 and MAC 1114), STA 2023, and ECO 2013 and ECO 2023 with minimum grades of C. Students must also have a 3.0 minimum overall GPA. Refer to the admissions website for transfer admission information, application deadlines and the online application.

Certain highly qualified students may have the option of pursuing a 4+1 or a 4+2 degree in urban and regional planning, landscape architecture or building construction.

Field trips to broaden and expand students' educational experiences through study of planning, design, construction, and sustainability projects *are required and will be paid for by students*.

Coursework for the Major

All students, regardless of specialization, are required to take 53 hours of core courses to develop knowledge of the fundamental concepts for sustainability and the built environment.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

Core Courses

Code	Title	Credits
Select one:		3
BCN 1582	International Sustainable Development	
IDS 2935	Special Topics (Facets of Sustainability)	
ECO 2023	Principles of Microeconomics	4
ECO 2013	Principles of Macroeconomics	4
A history course in architecture, construction management, interior design, landscape architecture, or urban and regional planning		
LAA 2330	Site Analysis	3
STA 2023	Introduction to Statistics 1	3
DCP 3210	Sustainable Solutions for the Built Environment	3
DCP 3220	Social and Cultural Sustainability and the Built Environment	3
An approved ecology and the built environment course		
An approved ethics and/or environmental justice course		
An approved energy and/or climate change course		
An approved resource economics course		
DCP 3200	Methods of Inquiry for Sustainability and the Built Environment	3
DCP 4941	Practicum in Sustainability and the Built Environment	6
or DCP 4942	Field Experience in Sustainability and the Built Environment	
DCP 4290	Capstone Project in Sustainability and the Built Environment	6
Total Credits		38

Related Sustainability and the Built Environment Programs

- Sustainability and the Built Environment minor (p. 339)

Geodesign

The geodesign specialization is for students interested in the application of geographic information systems in the sustainable design of the built environment.

Critical Tracking

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=303301&track=01) may be used for transfer students.

Semester 1

- Complete BCN 1582 with minimum grade of C+
- Complete DCP 1010, DCP 1003, and LAA 2330 with minimum grades of C
- Complete MAC 1147 or (MAC 1140 and MAC 1114)
- 2.00 UF GPA required

Semester 2

- Complete ARC 1701 or ARC 1720 or BCN 3012 or IND 2100 or IND 2130 or LAA 2710 or URP 4000 with minimum grade of C
- Complete ECO 2023 with minimum grade of C
- 2.50 UF GPA required

Semester 3

- Complete DCP 2001 with minimum grade of C
- Complete ECO 2013 with minimum grade of C
- Complete STA 2023
- 2.75 UF GPA required

Semester 4

- Complete DCP 2002 with minimum grade of C
- Complete ENC 3254 with minimum grade of C
- 3.0 UF GPA required

Semester 5

- Complete DCP 3210 with minimum grades of C+
- Complete one: AEB 4126, REL 2104, or REL 3492 with minimum grade of C
- Complete GEO 3162C with minimum grade of C
- 3.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Students will not be required to take more credit hours than required in semesters with less than 3 credit hours in electives. DCP advisors have a list of 1 and 2 credit hour electives in which students may enroll.

Course	Title	Credits
Semester One		
BCN 1582	International Sustainable Development (**Critical Tracking**; Gen Ed Social and Behavioral Sciences and International)	3
DCP 1003	Creating our Built Environment	1
DCP 1010	Geodesign Colloquium	1
IDS 1161	What is the Good Life (Gen Ed Humanities)	3

Academic Learning Compact

The Bachelor of Science in Sustainability and the Built Environment requires students to demonstrate an understanding of the relationship between the goals of sustainability and the activities of the built environment disciplines, including architecture, building construction, historic preservation, interior design, landscape architecture and urban and regional planning.

Before Graduating Students Must

- Complete a capstone or independent research project, present your results to a committee of the program's faculty and receive acceptable assessment.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Explain sustainability principles.
2. Integrate knowledge and principles from sustainability-related disciplines.
3. Describe the role of the built environment in sustainability.
4. Combine information from multiple sources to solve problems.

Critical Thinking

5. Frame sustainable problems and potential solutions within a global context.
6. Collect and analyze data to solve problems.
7. Produce sustainable solutions for problems of the built environment.
8. Integrate multiple disciplinary, cultural and stakeholder perspectives for sustainable problem solving.

Communication

9. Produce an effective oral presentation.
10. Produce effective written communications.
11. Integrate a variety of visual techniques to enhance the communication of ideas and solutions.
12. Solve a built environment sustainability problem in a multidisciplinary team.

Sustainability and the Built Environment | Interdisciplinary

The Bachelor of Science in Sustainability and the Built Environment (BSSBE) enables students to explore creative solutions for the planning, design and construction of human structures and settlements.

About this Program

- **College:** Design, Construction and Planning (p. 313)
- **Degree:** Bachelor of Science in Sustainability and the Built Environment
- **Specializations:** Interdisciplinary (p. 334) | Geodesign (p. 329)
- **Credits for Degree:** 120
- **Contact:** Email (advising@dcp.ufl.edu?Subject=Sustainability and the Built Environment Major)
- **Additional Information**
- **Related Sustainability and the Built Environment Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Whether it is the redesign and rehabilitation of existing structures or innovative new design, students will be provided a theoretical foundation for seeking sustainable solutions to problems in the built environment. The degree program is supported by the globally recognized expertise in sustainability of the faculty in the College of Design, Construction and Planning and from across campus.

Graduates will have excellent opportunities for work in various green industries, for government agencies involved with regulation and management of the built environment and with nonprofit organizations promoting the principles of sustainability. Additionally students will be prepared to enter graduate school in architecture, building construction, historic preservation, interior design, landscape architecture and urban and regional planning.

Transfer students for either specialization must complete the A.A. degree, MAC 1147 or (MAC 1140 and MAC 1114), STA 2023, and ECO 2013 and ECO 2023 with minimum grades of C. Students must also have a 3.0 minimum overall GPA. Refer to the admissions website for transfer admission information, application deadlines and the online application.

Certain highly qualified students may have the option of pursuing a 4+1 or a 4+2 degree in urban and regional planning, landscape architecture or building construction.

Field trips to broaden and expand students' educational experiences through study of planning, design, construction, and sustainability projects *are required and will be paid for by students*.

Coursework for the Major

All students, regardless of specialization, are required to take 53 hours of core courses to develop knowledge of the fundamental concepts for sustainability and the built environment.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

Sustainability and the Built Environment Minor

The sustainability and the built environment minor introduces the challenges of planning, design, and construction of human structures and settlements. Courses provide an overview of environmental and cultural issues as they apply to design, planning sustainable applications and solutions.

About this Program

- **College:** Design, Construction and Planning (p. 313)
- **Credits:** 15 | Completed with minimum grades of C
- **Related Sustainability and the Built Environment Programs**

This minor is open to all students.

Field trips to broaden and expand students' educational experiences through study of planning, design, construction and sustainability projects *are required and are paid for by the student*.

- Bachelor of Science in Sustainability and the Built Environment (p. 327)

Urban and Regional Planning Minor

Society's demands on the natural environment continue to increase as communities grow to meet population demands. Planning addresses the interface between the social, environmental and economic dimensions of communities and regions. Never before has the need to shape visions and guide community outcomes been greater.

The urban and regional planning minor introduces the challenging and vital aspects of creating, improving, and sustaining communities and regions.

About this Program

- **College:** Design, Construction and Planning (p. 313)
- **Credits:** 15 | Completed with minimum grades of C+, with the exception of URP 4942, which is graded S/U

Application should be made early so that guidance can be given for course selection and special studies parameters. Students must have a C+ GPA for admission to the minor and they must maintain a C+ GPA in all coursework for the minor. The only S/U course accepted is URP 4942.

The minor does not provide professional certification.

It is each student's responsibility to declare the minor through their major degree department or college and to obtain the required signatures from their department and URP.

Study Abroad/Off-Campus Studies

Students need approval before signing up for study abroad or off-campus studies for inclusion in the URP minor. Credits will not be accepted after a student has started study abroad or off-campus studies. Eligible programs should be offered by UF's International Center or the College of Design, Construction and Planning. URP's undergraduate coordinator must determine eligibility of study abroad or off-campus coursework prior to taking the class. Accepted credits may vary from three to six, depending on the intensity and appropriateness of the selected program.

Education, College of

Consistently ranked among the top 20 public education schools in the nation, the College of Education prepares students to serve and lead in a diverse field. The College offers pathways to professional teacher certification, promotes an understanding of learning systems, policies, and outcomes in traditional and non-traditional contexts, and prepares graduates for careers in the public, private, or nonprofit sectors.

Higher Education Act (1998)

The U.S. Department of Education's Higher Education Act addresses accountability requirements for teacher preparation programs. The act mandates that teacher preparation programs publish annually pertinent program information including but not limited to the following:

- Program accreditation
- Pass rates of graduates on state teacher certification assessments
- Programs that have been designated as low performing by the state

Accordingly, information about the state- and CAEP-accredited teacher preparation programs at UF is available online, and in print upon request.

Academic Policies

Admission Requirements

Freshman applicants will be admitted to the College of Education when they declare a major in education sciences.

Students who wish to change their major to education sciences are required to have a 2.3 GPA for freshmen and 2.5 GPA for sophomores and above.

ProTeach elementary/special education or early childhood education students have an additional requirement of a 21 ACT or 1010 SAT Reading plus Math total (minimum 440 on each subtest). ProTeach students remain in a pre-education status, as long as they meet the critical-tracking standards set by the college and UF, until formally admitted to ProTeach. ProTeach students must be on track at the 60-credit level to continue in the elementary/special education or early childhood education major and to be considered competitive for admission to the three-year teacher preparation program.

Students who wish to change their major to a ProTeach major are required to have a 21 ACT or 1010 SAT Reading plus Math total (minimum 440 on each subtest) along with a 2.3 GPA for freshmen and a 2.6 GPA for sophomores and above.

Transfer Admission Requirements

Education sciences transfer applicants must meet the following requirements for admission:

- 2.5 cumulative GPA
- Completing the common course prerequisite, EDF1005 Introduction to the Teaching Profession, as established by the state of Florida's Articulation Coordinating Committee. The common course prerequisite must be completed with a minimum grade of C.

ProTeach majors in the College of Education are limited access programs. Transfer applicants must meet the following requirements for admission consideration on a space-available basis:

- 2.6 cumulative GPA; 3.0 upper-division GPA
- 21 ACT or 1010 SAT Reading plus Math total (minimum 440 on each subtest)
- Passing scores on all sections of the general knowledge portion of the Florida Teacher Certification Exam (http://fl.nesinc.com) (FTCE)
- Completing the university's writing (24,000 words) requirement
- Completing the common course prerequisite, EDF1005 Introduction to the Teaching Profession, as established by the state of Florida's Articulation Coordinating Committee. The common course prerequisites must be completed with a minimum grade of B.
- A course in human growth and development is a college requirement.

State college transfer students must document award of the A.A; state university transfer students are strongly encouraged to earn the AA. Other transfer students are evaluated individually upon application for admission. No change of major will be approved for transfer students admitted to another college at UF.

Critical-Tracking Program

All undergraduates are monitored for progress toward the bachelor's degree by the critical-tracking program. Students who fall below the tracking requirements at any stage must see an academic advisor for approval to continue in the major.

Students must make satisfactory academic progress to continue to enroll in the College of Education.

Minimum requirements for education sciences include

- Education core prerequisites completed with no grade below C and a 3.0 GPA; one repeat allowed:

Code	Title	Credits
EDF 1005	Introduction to Education	3
EDF 2085	Teaching Diverse Populations	3
EME 2040	Introduction to Educational Technology	3
Total Credits		9

- Completion of the common course prerequisite, EDF1005 Introduction to the Teaching Profession, as established by the State of Florida Articulation Coordinating Committee; the common course prerequisite must be completed with a minimum grade of C.

ProTeach is a limited-access major with competitive admission. Due to space limitations, meeting minimum admission requirements does not guarantee selection for admission. Minimum requirements for ProTeach admission for UF students and transfer students at the completion of 60 semester credits:

- Complete the university's writing (24,000 words) requirement
- Complete all General Education requirements
- FTCE General Knowledge Requirement. All students must pass all sections of the general knowledge portion of the Florida Teacher Certification Examination (http://fl.nesinc.com) (FTCE) before ProTeach admission at the junior level.
- Education core prerequisites completed with no grade below C and a 3.0 GPA; one repeat allowed:

Code	Title	Credits
EDF 1005	Introduction to Education	3
EDF 2085	Teaching Diverse Populations	3
EME 2040	Introduction to Educational Technology	3
Total Credits		9

- Completion of the common course prerequisite, EDF1005 Introduction to the Teaching Profession, as established by the State of Florida Articulation Coordinating Committee; the common course prerequisite must be completed with a minimum grades of B.
- Cumulative UF and transfer GPA of 2.6 and an upper-division GPA of 3.0

The college admissions committee will consider an applicant's entire record, including educational objectives, quality of courses completed and test data.

College Requirements

Career Placement

The Career Connections Center offers a Careers in Education recruitment event annually (usually in April) where representatives from school districts in Florida and several other states meet with students who

are completing teacher education programs and others interested in teaching.
More Info (https://career.ufl.edu)

Criminal Background Check

Classroom field experience is a vital component to any teacher preparation program. To have access to classrooms, students in a ProTeach program or UFTeach minor must submit to a Level 2 background screening. Individuals who are not cleared will not be permitted to continue in or graduate from a teacher preparation program. After clearance, it is the student's responsibility to report immediately any new criminal charges to the university's certification officer in G416 Norman Hall.

Dean's List (p. 1385)

Financial Responsibility

Students are responsible for all costs associated with the criminal background check, LiveText subscription, transportation to and from field placements and relevant examinations required for the program.

Overseas Study

Students are encouraged to complete any overseas studies before reaching junior status or in a summer term.

Program Plan

During the first term of enrollment in the upper-division ProTeach program, the student will sign a planned program of courses for the degree. Education sciences students must submit a plan that includes an approved specialization or general studies track before the end of the junior year. The program coordinator must approve all programs. Each student is responsible for registering for the appropriate courses and fulfilling all requirements for the degree, including test requirements.

Satisfactory Progress

Students in undergraduate ProTeach programs are expected to maintain a minimum junior/senior-level 3.0 GPA. Education sciences majors must maintain a 2.5 GPA. Academic progress is reviewed each semester. If requirements are not met, the student must be approved for continuation by the program coordinator before further registration. Students are required to earn a minimum grade of C for all major courses for award of the bachelor's degree.

Probation

The department and the college monitor students for academic progress. Students with unsatisfactory academic progress may be placed on probation. College probation may be removed if it is determined that satisfactory progress has been demonstrated.

Dismissal

If the department or the college determines that a student has not met probationary terms or is not progressing academically, the student may be prohibited from continuing in the College of Education. Students on probation, as well as students who are unable to meet degree requirements, are encouraged to investigate alternatives in other areas of study.

Students dismissed by the university may not register for courses. Courses taken at other institutions under these conditions will not count toward a UF degree.

Student Responsibility

Students are expected to review the information in the undergraduate catalog as a guide to planning their academic careers at UF. Failure to read, understand and follow the guidelines may cause significant delays in academic progress. Clarification of college requirements is available in the Office of Student Services, EduGator Central, G416 Norman Hall.

Student Teaching Assignment

Student teaching assignments are fulfilled at various sites in Florida, in accordance with program objectives and the student's professional goals. Department approval is required for placements outside Alachua County. In addition to regular tuition expenses, students are responsible for transportation to and/or housing in the community where student teaching is to occur. Fees imposed by school districts relating to requirements for personnel screening (e.g., fingerprinting, background checks and substance abuse testing) are also the student's responsibility.

S/U Option

The S/U option may be used for elective courses only. It does not apply to the university's writing requirement courses or to general education course requirements. The deadline for declaring the S/U option is published in the academic calendars in this catalog.

Transient Student Status

With approval of the College of Education, students may take a limited number of credits at another accredited institution. Before registration as a transient student at another institution, the student must complete a transient student form and obtain approval from the college and university. No transient courses will be permitted during the last 30 credits of enrollment.
More Info (https://www.floridashines.org/succeed-in-college/take-a-course-at-another-school)

Undergraduate Registration for Graduate Courses

With department approval, an undergraduate student with senior standing may enroll in 5000/6000-level courses. After a student has been admitted to the Graduate School, up to 15 credits of graduate-level courses with grades of A, A-, B+ or B may be applied toward a graduate degree at the university, provided the credit was not used toward an undergraduate degree.

Degree Requirements

Students who complete an approved undergraduate program in the College of Education are awarded the Bachelor of Arts (B.A.) for the education sciences major or the Bachelor of Arts in Education (B.A.E.) for a ProTeach major.

Grades below C will not fulfill requirements for major requirements or the university's general education areas.

Before program completion, ProTeach students must demonstrate satisfactory performance on the Florida Educator Accomplished Practices. Students in unified early childhood education are required to provide proof of completion of up-to-date CPR and first aid training. All prospective teachers are encouraged to do the same.

ProTeach students are required to complete an additional year of study in a master's degree or postbaccalaureate program to receive a statement on the transcript verifying completion of a Florida Department

of Education (DOE) and Council for Accreditation of Educator Preparation (CAEP) approved program.

All students in the ProTeach unified elementary/special education and early childhood program must provide evidence of a passing score on all pertinent sections of the Florida Teacher Certification Examination (http://fl.nesinc.com) (FTCE) before graduation from the B.A.E. program and the M.Ed. or postbaccalaureate program.

More Info (http://fl.nesinc.com)

Residence

The last 30 semester credits applied toward a degree must be completed in residence at UF in the College of Education.

Graduating with Honors (p. 1387)

MAJORS

- Education Sciences
- Education Sciences
- Education | Unified Early Childhood Education Pro-Teach | Pre-K-Grade 3
- Education | Unified Elementary/Special Education ProTeach | Grades K-6

MINORS

- Disabilities in Society Minor
- Educational Studies Minor
- Florida Teaching Minor
- UFTeach | Mathematics or Science Minor

ProTeach: Preparation of Professional Teachers

The College of Education prepares professional teachers in unified elementary/special education, unified early childhood education and the various areas of secondary education.

ProTeach is a rigorous five-year program designed to culminate in both a bachelor's and a master's degree.

Students engage in early observation, supervised practice and a concluding internship in the public schools, as well as campus-based clinical experiences in microteaching, simulation and other controlled situations.

ProTeach students in unified elementary/special education and unified early childhood education receive a Bachelor of Arts in Education upon successful completion of the first phase of the teacher education program, including a prescribed set of courses and experiences.

An additional year beyond the bachelor's degree is required for completion of the second phase of the teacher education programs.

Secondary Teaching

Students who wish to teach at the high school level complete a bachelor's degree in an appropriate content discipline while pursuing a minor in Florida Teaching or UFTeach, or before pursuing a graduate certificate in secondary teaching in the College of Education. The approved subject areas of study for a graduate certificate in secondary teaching include:

- English (recommended major in English);
- science (recommended major in biology, botany, chemistry, entomology, microbiology, physics, wildlife ecology or zoology); and
- social science (recommended major in anthropology, economics, geography, history, political science, psychology or sociology)
- mathematics (recommended major in mathematics)

Cooperating College Teacher Education Programs

In collaboration with the College of Education our cooperating colleges offer four-year teacher preparation programs in agriculture, art and music. Please contact the individual colleges for additional information:

- Agricultural Education and Communication (6-12), College of Agricultural and Life Sciences, 305 ROL
- Art Education (K-12), College of the Arts, 302 FAC
- Music Education (K-12), College of the Arts, 130 MUB

Program Planning

Program changes related to teacher certification requirements are possible. The curriculum of a state-approved teacher preparation program is subject to revision to accommodate legislative or Department of Education mandates. New rules may affect required courses in all teacher preparation programs.

Disabilities in Society Minor

The disabilities in society minor provides opportunities for undergraduates in all colleges to enhance their knowledge of disabilities and to recognize the impact disabilities have on the lives of people who experience them and on the people with whom they live and interact.

About this Program

- **College:** Education (p. 341)
- **Credits:** 15 minimum | Completed with minimum grades of C
- **Contact:** Email (studenthelp@coe.ufl.edu) | G416 Norman Hall (https://campusmap.ufl.edu/#/index/0101) | 352.273.4376

This minor facilitates understanding of disabilities and disability-related issues that are applicable in a variety of settings. Focus is on understanding types of disabilities, how disabilities are perceived in society, the ways people with disabilities are included in recreational, leisure, employment, educational and other community activities, and the legal aspects of disability policies.

Prerequisites

- Apply for the minor after earning 45 credits and before earning 100 credits.
- Minimum 2.0 GPA is required and transfer credits are not accepted. All courses must be taken at UF.
- Obtain college approval on the application for minor (http://www.registrar.ufl.edu/pdf/minorapp.pdf) before submitting the form to G-416 Norman Hall (http://campusmap.ufl.edu/?loc=0101).
- EEX 2000 or EEX 3093 are prerequisites for the online courses.

Required Courses

Code	Title	Credits
EEX 2000	Impact of Disabilities: Home, Community and Workplace	3
EEX 3093	Exceptional People in School and Society	3
EEX 3097	Social Perspectives on Disability	3
EEX 4280	Disabilities in Community and Employment	3
EEX 4520	Disabilities: Legal Aspects and Policies	3
Total Credits		15

Education Sciences

The education sciences major promotes an understanding of education and learning systems, policy, and outcomes in traditional and non-traditional contexts. This degree prepares individuals for a variety of career paths and for graduate school.

About this Program

- **College:** Education (p. 341)
- **Degree:** Bachelor of Arts
- **Specializations:** Disabilities in Society (p. 347) | Educational Psychology and Research (p. 351) | Educational Technology (p. 355) | General Studies (p. 358) | Schools, Society and Policy (p. 362)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

This major is not a teacher or educator preparation program, rather an exploration of the educational and psychological foundations, research and policy as applied to instruction, learning, and professional development in school and community settings. Core courses serve as an introduction to the many fields of professional practice and research. Students may develop a General Studies curriculum or may choose a specialization in Disabilities in Society, Educational Psychology and Research, Educational Technology, or Schools, Society and Policy.

Graduates of the major would be prepared for a career in a government, non-profit, or education setting and for graduate studies. It would be appropriate for students interested in leading discussions about schools and education, informing policy, optimizing e-learning, advocating for accessibility, and supporting the mission of institutions of learning.

Coursework for the Major

Students must complete 30 credits of coursework for the education sciences major to include a 15-credit core and a 15-credit specialization. The specialization must be declared no later than semester 6. Each specialization's coursework requirements are specified after the Critical Tracking section. Students must earn a minimum grade of C in a course for it to be applied to the major. A minimum 15 credits of major-related courses must be completed at the University of Florida.

All education sciences majors are required to attend colloquia, contribute to seminars, and participate in experiential learning.

Academic Learning Compact

Across the country, graduates with education majors typically are prepared to teach in preschool through grade 12 settings. While many university students complete an education degree with teacher certification and begin teaching, others pursue graduate school or employment in fields where preparation in education is an asset. The BAES is appropriate for students interested in leading and supporting the design and implementation of learning environments, studying and informing education policy, optimizing e-learning, advocating for and developing accessible education options for citizens with disabilities, and supporting the learning and training missions of institutions in the modern economy.

Before Graduating Students Must

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Explain foundational ideas and best practices in educational practices and policies, educational psychology, human exceptionalities, educational statistics and measurement, and educational technologies.
2. Apply foundational ideas and best practices to understand problems of practice and generate viable solutions in formal and informal education and training settings.

Critical Thinking

3. Enact goals for professional growth, ethical practices, and continuous improvement.

Communication

4. Communicate effectively in all forms in a professional environment, adapting appropriately for exceptionality and diversity among individuals.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 of 3 critical tracking courses (EDF 1005, EDF 2085, or EME 2040)
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 of 3 critical tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 3 of 3 critical tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete 1 core course (EDF 3210, EDF 3604, EDF 4430, EEX 2000, or EME 3813)
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S). One of the two general education mathematics courses must be a pure math course. A course in statistics is recommended for this major but not required.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Student Learning Outcomes (SLOs)

Content

1. Explain foundational ideas and best practices in educational practices and policies, educational psychology, human exceptionalities, educational statistics and measurement, and educational technologies.
2. Apply foundational ideas and best practices to understand problems of practice and generate viable solutions in formal and informal education and training settings.

Critical Thinking

1. Enact goals for professional growth, ethical practices, and continuous improvement.

Communication

1. Communicate effectively in all forms in a professional environment, adapting appropriately for exceptionality and diversity among individuals.

Education Sciences | Educational Psychology and Research

The education sciences major promotes an understanding of education and learning systems, policy, and outcomes in traditional and non-traditional contexts. This degree prepares individuals for a variety of career paths and for graduate school.

About this Program

- **College:** Education (p. 341)
- **Degree:** Bachelor of Arts
- **Specializations:** Disabilities in Society (p. 347) | Educational Psychology and Research (p. 351) | Educational Technology (p. 355) | General Studies (p. 358) | Schools, Society and Policy (p. 362)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

This major is not a teacher or educator preparation program, rather an exploration of the educational and psychological foundations, research and policy as applied to instruction, learning, and professional development in school and community settings. Core courses serve as an introduction to the many fields of professional practice and research. Students may develop a General Studies curriculum or may choose a specialization in Disabilities in Society, Educational Psychology and Research, Educational Technology, or Schools, Society and Policy.

Graduates of the major would be prepared for a career in a government, non-profit, or education setting and for graduate studies. It would be appropriate for students interested in leading discussions about schools and education, informing policy, optimizing e-learning, advocating for accessibility, and supporting the mission of institutions of learning.

Coursework for the Major

Students must complete 30 credits of coursework for the education sciences major to include a 15-credit core and a 15-credit specialization. The specialization must be declared no later than semester 6. Each specialization's coursework requirements are specified after the Critical Tracking section. Students must earn a minimum grade of C in a course for it to be applied to the major. A minimum 15 credits of major-related courses must be completed at the University of Florida.

All education sciences majors are required to attend colloquia, contribute to seminars, and participate in experiential learning.

Critical Tracking Courses | 3 courses total

- EDF 1005
- EDF 2085 (GE-S,D)
- EME 2040

Core Courses | 5 courses total

- EDF 3210 (GE-S)
- EDF 3604 (GE-S)
- EDF 4430
- EEX 2000 (GE-S,D)
- EME 3813

Specializations

Disabilities in Society

Advocating for accessibility and inclusion

Educational Psychology and Research

Research methods for understanding cognitive development and learning theory

Educational Technology

Preparing for a career in instructional design and e-learning

General Studies

Engaging in interdisciplinary and cross-disciplinary studies

Schools, Society and Policy

Searching for solutions to enduring problems in education

Critical Issues & Research in Education (EDG 4930 - 1 credit; S/U)

A colloquium series that explores current education issues and research. Guest lectures from faculty.

Senior Seminar (EDG 4930 - 2 semesters x 1 credit each; S/U)

Seniors present findings/summary of experiential learning.

Experiential Learning (EDG 4910 or EDG 4905 - choose one)

Research, Internship, Service Learning, Study Abroad

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 of 3 critical tracking courses (EDF 1005, EDF 2085, or EME 2040)
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 of 3 critical tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 3 of 3 critical tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

SEMESTER 5

- Complete 1 core course (EDF 3210, EDF 3604, EDF 4430, EEX 2000, or EME 3813)
- 2.33 GPA required for all critical tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S). One of the two general education mathematics courses must be a pure math course. A course in statistics is recommended for this major but not required.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

[1] Gen Ed Social and Behavioral Sciences with International; Gen Ed Humanities with International; Gen Ed Biological or Physical Sciences with International

Academic Learning Compact

Across the country, graduates with education majors typically are prepared to teach in preschool through grade 12 settings. While many university students complete an education degree with teacher certification and begin teaching, others pursue graduate school or employment in fields where preparation in education is an asset. The BAES is appropriate for students interested in leading and supporting the design and implementation of learning environments, studying and informing education policy, optimizing e-learning, advocating for and developing accessible education options for citizens with disabilities, and supporting the learning and training missions of institutions in the modern economy.

Before Graduating Students Must

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

Students must complete 30 credits of coursework for the education sciences major to include a 15-credit core and a 15-credit specialization. The specialization must be declared no later than semester 6. Each specialization's coursework requirements are specified after the Critical Tracking section. Students must earn a minimum grade of C in a course for it to be applied to the major. A minimum 15 credits of major-related courses must be completed at the University of Florida.

All education sciences majors are required to attend colloquia, contribute to seminars, and participate in experiential learning.

Specializations

Disabilities in Society

Advocating for accessibility and inclusion

Educational Psychology and Research

Research methods for understanding cognitive development and learning theory

Educational Technology

Preparing for a career in instructional design and e-learning

General Studies

Engaging in interdisciplinary and cross-disciplinary studies

Schools, Society and Policy

Searching for solutions to enduring problems in education

Critical Issues & Research in Education (EDG 4930 - 1 credit; S/U)

A colloquium series that explores current education issues and research. Guest lectures from faculty.

Senior Seminar (EDG 4930 - 2 semesters x 1 credit each; S/U)

Seniors present findings/summary of experiential learning.

Experiential Learning (EDG 4910 or EDG 4905 - choose one)

Research, Internship, Service Learning, Study Abroad

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 of 3 critical tracking courses (EDF 1005, EDF 2085, or EME 2040)
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 of 3 critical tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 3 of 3 critical tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete 1 core course (EDF 3210, EDF 3604, EDF 4430, EEX 2000, or EME 3813)
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S). One of the two general education mathematics courses must be a pure math course. A course in statistics is recommended for this major but not required.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

Across the country, graduates with education majors typically are prepared to teach in preschool through grade 12 settings. While many university students complete an education degree with teacher certification and begin teaching, others pursue graduate school or employment in fields where preparation in education is an asset. The BAES is appropriate for students interested in leading and supporting the design and implementation of learning environments, studying and informing education policy, optimizing e-learning, advocating for and developing accessible education options for citizens with disabilities, and supporting the learning and training missions of institutions in the modern economy.

Before Graduating Students Must

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Explain foundational ideas and best practices in educational practices and policies, educational psychology, human exceptionalities, educational statistics and measurement, and educational technologies.
2. Apply foundational ideas and best practices to understand problems of practice and generate viable solutions in formal and informal education and training settings.

Critical Thinking

1. Enact goals for professional growth, ethical practices, and continuous improvement.

Communication

1. Communicate effectively in all forms in a professional environment, adapting appropriately for exceptionality and diversity among individuals.

Education Sciences

The education sciences major promotes an understanding of education and learning systems, policy, and outcomes in traditional and non-traditional contexts. This degree prepares individuals for a variety of career paths and for graduate school.

About this Program

- **College:** Education (p. 341)
- **Degree:** Bachelor of Arts
- **Specializations:** Disabilities in Society (p. 368) | Educational Psychology and Research (p. 372) | Educational Technology (p. 376) | General Studies (p. 380) | Schools, Society and Policy (p. 383)
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **Related Teaching Programs**

To graduate with this major, students must complete all university, college, and major requirements.

This major is not a teacher or educator preparation program, rather an exploration of the educational and psychological foundations, research and policy as applied to instruction, learning, and professional development in school and community settings. Core courses serve as an introduction to the many fields of professional practice and research. Students may develop a General Studies curriculum or may choose a specialization in Disabilities in Society, Educational Psychology and Research, Educational Technology, or Schools, Society and Policy.

Graduates of the major would be prepared for a career in a government, non-profit, or education setting and for graduate studies. It would be appropriate for students interested in leading discussions about schools and education, informing policy, optimizing e-learning, advocating for accessibility, and supporting the mission of institutions of learning.

Coursework for the Major

Students must complete 30 credits of coursework for the education sciences major to include a 15-credit core and a 15-credit specialization. The specialization must be declared no later than semester 6. Each specialization's coursework requirements are specified after the Critical Tracking section. Students must earn a minimum grade of C in a course for it to be applied to the major. A minimum 15 credits of major-related courses must be completed at the University of Florida.

Across the country, graduates with education majors typically are prepared to teach in preschool through grade 12 settings. While many university students complete an education degree with teacher certification and begin teaching, others pursue graduate school or employment in fields where preparation in education is an asset. The BAES is appropriate for students interested in leading and supporting the design and implementation of learning environments, studying and informing education policy, optimizing e-learning, advocating for and developing accessible education options for citizens with disabilities, and supporting the learning and training missions of institutions in the modern economy.

Before Graduating Students Must

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Explain foundational ideas and best practices in educational practices and policies, educational psychology, human exceptionalities, educational statistics and measurement, and educational technologies.
2. Apply foundational ideas and best practices to understand problems of practice and generate viable solutions in formal and informal education and training settings.

Critical Thinking

1. Enact goals for professional growth, ethical practices, and continuous improvement.

Communication

1. Communicate effectively in all forms in a professional environment, adapting appropriately for exceptionality and diversity among individuals.

Education Sciences | Educational Technology

The education sciences major promotes an understanding of education and learning systems, policy, and outcomes in traditional and non-traditional contexts. This degree prepares individuals for a variety of career paths and for graduate school.

About this Program

- **College:** Education (p. 341)
- **Degree:** Bachelor of Arts
- **Specializations:** Disabilities in Society (p. 368) | Educational Psychology and Research (p. 372) | Educational Technology (p. 376) | General Studies (p. 380) | Schools, Society and Policy (p. 383)
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **Related Teaching Programs**

To graduate with this major, students must complete all university, college, and major requirements.

This major is not a teacher or educator preparation program, rather an exploration of the educational and psychological foundations, research and policy as applied to instruction, learning, and professional development in school and community settings. Core courses serve as an introduction to the many fields of professional practice and research. Students may develop a General Studies curriculum or may choose a specialization in Disabilities in Society, Educational Psychology and Research, Educational Technology, or Schools, Society and Policy.

Graduates of the major would be prepared for a career in a government, non-profit, or education setting and for graduate studies. It would be appropriate for students interested in leading discussions about schools and education, informing policy, optimizing e-learning, advocating for accessibility, and supporting the mission of institutions of learning.

Coursework for the Major

Students must complete 30 credits of coursework for the education sciences major to include a 15-credit core and a 15-credit specialization. The specialization must be declared no later than semester 6. Each specialization's coursework requirements are specified after the Critical Tracking section. Students must earn a minimum grade of C in a course for it to be applied to the major. A minimum 15 credits of major-related courses must be completed at the University of Florida.

All education sciences majors are required to attend colloquia, contribute to seminars, and participate in experiential learning.

Critical Tracking Courses | 3 courses total

- EDF 1005
- EDF 2085 (GE-S,D)
- EME 2040

Core Courses | 5 courses total

- EDF 3210 (GE-S)
- EDF 3604 (GE-S)
- EDF 4430

- EEX 2000 (GE-S,D)
- EME 3813

Specializations

Disabilities in Society

Advocating for accessibility and inclusion

Educational Psychology and Research

Research methods for understanding cognitive development and learning theory

Educational Technology

Preparing for a career in instructional design and e-learning

General Studies

Engaging in interdisciplinary and cross-disciplinary studies

Schools, Society and Policy

Searching for solutions to enduring problems in education

Critical Issues & Research in Education (EDG 4930 - 1 credit; S/U)

A colloquium series that explores current education issues and research. Guest lectures from faculty.

Senior Seminar (EDG 4930 - 2 semesters x 1 credit each; S/U)

Seniors present findings/summary of experiential learning.

Experiential Learning (EDG 4910 or EDG 4905 - choose one)

Research, Internship, Service Learning, Study Abroad

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 of 3 critical tracking courses (EDF 1005, EDF 2085, or EME 2040)
- 2.33 GPA required for all critical tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 of 3 critical tracking courses
- 2.33 GPA required for all critical tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 3 of 3 critical tracking courses
- 2.33 GPA required for all critical tracking courses
- 2.0 UF GPA required

Semester 5

- Complete 1 core course (EDF 3210, EDF 3604, EDF 4430, EEX 2000, or EME 3813)
- 2.33 GPA required for all critical tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S). One of the two general education mathematics courses must be a pure math course. A course in statistics is recommended for this major but not required.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

- **Related Teaching Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The unified early childhood ProTeach program prepares students to teach at the preschool and pre-kindergarten level through third grade. The program unifies early childhood education and early childhood special education.

Students who successfully complete this five-year program will be recommended for certifications in both preschool education (birth - age 4) and pre-kindergarten/primary (age 3 - grade 3) with endorsements in pre-kindergarten disabilities and English for speakers of other languages (ESOL).

The professional choices for graduates include directing preschools and Head Start programs, teaching in the primary grades, and providing early intervention in home, community, and medical settings.

Fifth-Year Requirement

Students must complete the fifth year requirement as a graduate student earning a Master of Education or as a postbaccalaureate student.

Passing scores on appropriate portions of the Florida Teacher Certification Examination (FTCE) will be required before program completion.

Related Teaching Programs

- Bachelor of Arts in Education and Master of Education, Unified Elementary/Special Education ProTeach, Grades K - 6 (p. 391)
- Bachelor of Arts in Education Sciences (http://catalog.ufl.edu/UGRD/colleges-schools/UGEDU/EDS_BAE)
- Florida Teaching minor (p. 395)
- UFTeach Mathematics or Science minor (p. 396)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=131202&track=01) may be used for transfer students.

Semester 1

- Complete coursework with minimum grades of C
- 21 ACT with writing or 1010 SAT Reading plus Math (minimum 440 on each section)
- 2.0 UF GPA required

Semester 2

- Complete coursework with minimum grades of C
- Complete 1 of 3 critical-tracking courses: EDF 1005 or EDF 2085 or EME 2040
- 2.3 UF GPA required

Semester 3

- Complete coursework with minimum grades of C
- Complete 1 additional critical-tracking course
- 2.6 UF GPA required

Semester 4

- Complete coursework with minimum grades of C
- Complete all 3 critical-tracking courses with a 3.0 critical-tracking GPA
- 2.6 UF GPA required

Semester 5

- Document passing general knowledge test scores from the FTCE (see audit and/or advisor to determine which test to take)
- Complete all General Education requirements
- Complete the university writing requirement
- Students cannot register for courses in semesters 5-8 before ProTeach admission, which is competitive and in the fall semester only. Students should meet in February with the admissions coordinator in G416 Norman Hall to complete an application for fall admission.
- 3.0 upper-division GPA required semesters 5-8
- 2.6 UF GPA required

Model Semester Plan

For electives, students are encouraged to choose courses that will strengthen their knowledge of the content areas of literature, social sciences, natural sciences, and mathematics.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
IDS 1161	What is the Good Life (Gen Ed Humanities)	3

	Credits	15
	Total Credits	120

Passing score on all subtests of the FTCE subject area exam in preschool education (birth-age 4) required for completion of the bachelor's degree.

Certification

During the fifth year, students complete a dual certification and dual endorsement track, 36-credit master's degree program or a 27-credit postbaccalaureate program.

Program completion confers recommendation for:

- Preschool Education (birth-age 4) Certification
- Pre-K/Primary (age 3-grade 3) Certification
- ESOL Endorsement
- Pre-K Disabilities Endorsement

Academic Learning Compact

This degree is the first step of a two-step process that prepares students for certification to teach Preschool Education (birth - age 4) in the state of Florida. The second step requires completion of the Master of Education degree in prekindergarten education (age 3 - grade 3). The undergraduate program develops the foundation knowledge and skills for effective planning, teaching and evaluating young children's learning and development.

Before Graduating Students Must

- Pass the General Knowledge Test and the Preschool Education Subject Area Test of the Florida Teacher Certification Examination.
- Demonstrate mastery of effective teaching practices by meeting Florida Educator Accomplished Practices 1-6, as determined by multiple instructors across the program.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Demonstrate competency for children, birth to age 4, in child development, contemporary research in early childhood, cultural and linguistic diversity, strategies for engaging families, developmentally appropriate instructional practices, special services for children, screening and assessment, safety and mental and physical health.
2. Create, select and implement specific learning goals, appropriate teaching methods and instructional materials and evaluation strategies aligned with goals, using knowledge of children and developmentally appropriate practices.

Critical Thinking

3. Critically evaluate your own instructional effectiveness to plan future lessons and improve your teaching of all students over time.

Communication

4. Effectively communicate with students, including students whose home language is not standard English, as well as parents and other school personnel.

Education | Unified Elementary/Special Education ProTeach | Grades K-6

The Unified Elementary/Special Education program includes professional methods courses, clinical experiences and a fifth year specialization in elementary or special education, in addition to the professional education curriculum.

About this Program

- **College:** Education (p. 341)
- **Program:** Bachelor of Arts in Education and Master of Education
- **Credits for Degree:** 120 (B.A.E.) | 36 (M.Ed.)
- **Contact:** Email (studenthelp@coe.ufl.edu) | G416 Norman Hall (http://campusmap.ufl.edu/?loc=0101) | 352.273.4376
- **Additional Information**
- **Related Teaching Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The professional education curriculum incorporates important topics in special education, classroom management, inclusive classroom settings, English for speakers of other languages (ESOL), reading and other related issues.

Graduates of the unified elementary/special education ProTeach program will be able to create and maintain supportive and productive classrooms for diverse student populations. These teachers also will be prepared to work collaboratively with school personnel, families, and members of the community to develop alternative ways to educate all students.

Fifth-Year Requirement

Students must complete the fifth year requirement as a graduate student earning a Master of Education or as a postbaccalaureate student.

Passing scores on appropriate portions of the Florida Teacher Certification Examination (FTCE) will be required before program completion.

Passing score on all subtests of the FTCE subject area exam in elementary education (K-6) required for completion of the bachelor's degree.

Certification Options

During the fifth year, students may select from two certification tracks:

Dual-Certification Track

36-credit master's degree program or 30-credit postbaccalaureate program

- Confers recommendation for certifications in elementary (grades K-6) and exceptional student education (ESE K-12) with endorsements in ESOL and reading

Single-Certification Track

36-credit master's degree program or 21-credit postbaccalaureate program

- Confers recommendation for certification in elementary (grades K-6) with endorsements in ESOL and reading

Academic Learning Compact

This degree is the first step of a two-step process that prepares students for certification to teach grades K - 6 in the state of Florida. The second step requires completion of the Master of Education degree in elementary education or special education. The undergraduate program develops the foundation knowledge and skills for effective planning, teaching and evaluating pupil learning.

Before Graduating Students Must

- Pass the General Knowledge Test and the Elementary Education Subject Area Test of the Florida Teacher Certification Examination.
- Demonstrate mastery of effective teaching practices by meeting Florida Educator Accomplished Practices 1-6, as determined by multiple instructors across the program.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Demonstrate subject matter competency for grades K - 6 in language arts, social science, mathematics, science, technology, physical education and health and the arts.
2. Create, select and implement: specific learning goals, appropriate teaching methods and instructional materials and evaluation strategies aligned with goals, using knowledge of subject matter, learners and classroom management.

Critical Thinking

3. Critically evaluate your own instructional effectiveness to plan future lessons and improve your teaching of all students over time.

Communication

4. Effectively communicate with students, including students whose home language is not standard English, as well as with parents and other school personnel.

Florida Teaching Minor

The Florida teaching minor is an alternative certification program, specifically a Professional Training Option (PTO) meant to prepare students for temporary teacher certification in Florida by completing the professional education coursework necessary for certification.

About this Program

- **College:** Education (p. 341) offered jointly with Liberal Arts and Sciences (p. 506)
- **Credits:** 18 | Completed with minimum grades of C
- **Contact:** Email (studenthelp@coe.ufl.edu) | G416 Norman Hall (http://campusmap.ufl.edu/?loc=0101) | 352.273.4376
- **Additional Information**
- **Related Teaching Programs**

The minor requires completion of coursework in the professional preparation areas of human development and learning, assessment, classroom management, instructional strategies, reading competency and curriculum and special methods. Students will have extensive opportunities to integrate their teacher education coursework with actual classroom experience.

The minor is open to undergraduates with a major other than mathematics, science or education. Students with majors in mathematics or science should refer to the UFTeach minor.

Admission to this minor requires a cumulative 2.5 GPA. Students must make written application for admission to the minor in G416 Norman Hall after 45 credits and before earning 100 credits. For additional information, students can speak with an advisor in the College of Education Student Services office in G416 Norman Hall or refer to the College of Education.
More Info (http://education.ufl.edu/student-services)

Those pursuing the minor are encouraged to complete the Florida Teacher Certification Examination (FTCE) General Knowledge Test (recommended in sophomore/junior year), the FTCE Subject Area Exam (recommended early in senior year) and the FTCE Professional Education Test (recommended mid-senior year).
More Info (http://fl.nesinc.com)

FTCE tests are not required for award of the minor, but they are required for certification.

UFTeach | Mathematics or Science Minor

The UFTeach (https://education.ufl.edu/uf-teach) minor in mathematics or science is appropriate for students who wish to teach mathematics or science at the middle school and high school levels in Florida. This is an alternative certification program, specifically a Professional Training Option (PTO), meant to prepare math and science students for temporary teacher certification in Florida. Professional teacher certification is attainable after one year of successful teaching in a Florida public school.

For students majoring in STEM disciplines

About this Program

- **College:** Education (p. 341)
- **Credits:**
- Mathematics | 22, completed with minimum grades of C
- Science | 22, completed with minimum grades of C

- **Related Teaching Programs**

UFTeach | Mathematics

The minor requires completion of coursework in the professional preparation areas of human development, learning, assessment, classroom management, instructional strategies, reading competency, curriculum and special methods. Students will have extensive opportunities to integrate their teacher education coursework with practice in formal and informal K-12 environments focusing on learning mathematics. This program includes field experiences in local schools. A level 2 background check (fingerprinting) by the School Board of Alachua County will be required before placement.

The minor is open to undergraduates with majors in mathematics, quantitative science or related fields. Admission to this minor requires a UF GPA of 2.5 or better. Students must apply for acceptance to the minor within the college of their major and the College of Education after 45 but before 100 credits are earned.
More Info (https://www.advising.ufl.edu/academicinfo/minors)

Those pursuing the minor are encouraged to complete the Florida Teacher Certification Examination (FTCE) General Knowledge Test (recommended in the junior year), the FTCE Subject Area Exam (recommended early in the senior year) and the FTCE Professional Education Test (recommended mid-senior year).
More Info (http://fl.nesinc.com)

FTCE tests are not required for award of the minor, but they are required for certification.

Required Courses

Multiple pathways exist for completion of the minor and should be discussed with the UFTeach advisor. The table below represents a recommended pathway.

Course	Title	Credits

Established in 1947, the College of Health and Human Performance's three primary departments of Applied Physiology and Kinesiology (APK), Health Education and Behavior (HEB), and Tourism Recreation and Sport Management (TRSM) prepares its students to influence and improve an array of societal problems and challenges.

- Department of Health Education and Behavior
- Department of Tourism, Recreation and Sport Management

Academic Advising

Each academic department has its own academic advisor. It is a college policy that each student discuss their academic plan with an academic advisor before each registration and at any time regarding academic and/or career counseling matters.
More Info (http://hhp.ufl.edu/current-students/academic-advising)

Scholarships

General financial aid information can be obtained from the Office of Student Financial Affairs. In addition, the college offers annual merit-based scholarships.
More Info (http://hhp.ufl.edu/current-students/scholarships)

Internships and Career Guidance

During the semester of expected graduation, all students - except athletic training students - must complete a full semester internship. All coursework must be completed successfully prior to the internship.

Academic Policies

Academic Contract

An academic contract is an agreement between the student and advisor that identifies specific actions (grades needed, specific course completion, etc.) which must be completed during an assigned semester or date.

A student may have only one academic contract as a lower-division student and one contract as an upper-division student. A student cannot have an academic contract for consecutive semesters. While on academic contract, **no** I, N or NG grades are permitted.

Calculate Semester GPA (p. 1438)

Failure to meet the academic contract can result in, and is not limited to, one or more of the following actions:

- A college hold preventing future registration
- Cancelation of HHP course registration, and/or
- Change to a new major

Admission Requirements

Students classified as first-semester freshmen at the university will be admitted to the college when they declare a major within the college. At that time, their college classification will become HH.

Students maintain the HH classification as long as they meet the standards set by the college and UF for admission and critical-tracking. Students who are not making satisfactory academic progress may be required to seek admission to another college or to make alternative academic plans.

Students who fall below minimum performance standards will have a registration hold placed on their record. They must meet with an advisor to determine a plan of action before the hold will be removed.

Change of Major

To be considered for a change in major, students must meet the following criteria:

Lower-Division Students

- Minimum UF GPA
- Minimum critical-tracking GPA as designated by department curriculum
- No deficit points
- Completion of the Letter of intent
- Must have the ability to complete all tracking requirements by the required tracking term

Upper-Division Students

- Minimum UF GPA
- Minimum critical-tracking GPA as designated by department curriculum
- No deficit points
- Ability to graduate within 138 credits or 8 semesters (not including summer) without exceeding the maximum credits per semester. (excludes AP/IB courses not needed for HHP degree program)
- Completed 75% of all critical-tracking courses for the desired major
- Met all writing requirements
- Completed a minimum of 27 credits of the general education requirement
- Completion of the Letter of intent

Transfer students will not be permitted to change majors into the college.

In addition to the above, the following applies to current and/or previous HHP majors:

- Current HHP majors may not change to another HHP major unless they currently meet that major's criteria.
- Students who were dismissed from a college major cannot change out of HHP and then be re-accepted to the college as a change of major.

Combined Degree (4-1) Program

The combined degree is available with the Bachelor of Science in Health Education, Tourism, Event and Recreation Management, and Sport Management. The combined degree provides academically talented students the opportunity to complete their bachelor's and master's degrees within the same major in a shorter period of time. The combined degree in health education and behavior is open to all majors. The combined degrees in recreation, parks and tourism and sport management are limited to majors only. Students should review department guidelines for requirements and criteria needed for successful application. Students should apply for the program as a second semester sophomore/first semester junior. Students should discuss this option early with their academic advisor and then contact the appropriate program's graduate coordinator for more information.

Critical-Tracking Courses

All critical-tracking courses must be taken at the University of Florida.

- All critical-tracking attempts will be counted toward the critical-tracking GPA.
- Students may retake a critical-tracking course one time only.
- All critical-tracking courses must be completed by the time noted in the catalog for each major.
- Completing tracking courses beyond the specified time is at the advisor's discretion and must be approved by the advisor in advance.
- Any students completing tracking courses during the first semester of the junior year cannot complete any upper-division HHP courses that semester.

Dean's List (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#deanslisttext)

Deficit Points

Academic dismissal from the college denies registration privileges to students who have a grade point deficit of 15 or more in their upper-division coursework. The student will be dismissed from the college and a hold will be placed on registration.

A student who has been dismissed from the college due to grade point deficit will not be considered for readmission.

Drop Policy

During drop/add, courses can be dropped without penalty. After drop/add, courses may be dropped only through the college's petition process in accordance with university deadlines.

Before completing 60 credits of coursework, students are allowed two unrestricted drops after drop/add. After the completion of 60 credits of UF coursework, students also are allowed two unrestricted drops after drop/add. Students seeking to drop all classes do not have to petition the college; dropping all classes is considered withdrawal and is processed through the Office of the University Registrar in 222 Criser Hall.

If a student is registered for one course only and is seeking to drop that course, this is considered a withdrawal because the student is dropping all courses that semester. Refer to the college withdrawal policy.

Dual Degree or Double Major

The college can permit students to pursue dual degrees in multiple majors.

To request a dual degree the student must:

- Have between 45 and 96 credits (excluding AP, IB, dual enrollment or overseas study credit),
- Have a minimum 3.0 UF GPA at the time the application is submitted, if at least one of the majors is in this college,
- Meet all critical-tracking requirements for the HHP major requested. If one of the majors is outside the college, applicants must get approval from the appropriate college,
- Meet all other college progression standards for both majors and demonstrate potential for success in both majors (successful completion of major and major-related courses without excessive W's, grades less than C or multiple repeats),
- Be able to complete both degrees within 138 credits or eight semesters (not including summer) without exceeding the maximum credits per semester. (Excludes AP/IB courses not needed for HHP degree program.) Additional study is permitted only with the associate dean's approval, and
- Have demonstrated a well-articulated educational goal for which the double major or dual degree is appropriate and/or necessary.

Request for Additional Semesters

Students who wish additional semesters must complete the general petition request and submit it with the graduation plan to their academic advisor.

The request requires:

- Minimum 2.0 UF GPA
- Minimum critical-tracking GPA as designated by department curriculum
- Minimum upper-division GPA as designated by department curriculum
- Minimum major GPA as designated by department curriculum

First Aid and CPR

All students are required to have current first aid, adult CPR and AED certification (American Red Cross or American Heart Association) at the time of registering for internship.

- Students pursuing athletic training (AT) must be current in first aid and emergency cardiac care prior to registering for AT coursework. Please refer to the guidelines for appropriate emergency cardiac care certification (http://apk.hhp.ufl.edu/index.php/current-students/undergraduate-programs/bachelor-of-science-in-athletic-training/at-program-requirements).
- Students in the Department of Tourism, Recreation and Sport Management are required to have child and infant CPR certification in addition to the above requirements.
- 100% online recertification is not acceptable.

Fresh Start Program

This program is for former degree-seeking students who wish to return to the university after an absence of no fewer than five calendar years. During this absence the student should have engaged predominately in

non-academic activities. Students who wish to apply under the Fresh Start Program should follow the UF guidelines.
More Info (p. 19)

Grade Appeals

Any student in the college who feels their performance in a course has not been evaluated accurately should discuss any concerns with the instructor first. If the disagreement is not resolved, the student should consult the department chair, and if still unresolved, contact the associate dean for academic affairs.

The college is a strong supporter of the university's equal opportunity program. Any student who believes they have been discriminated against on the basis of race, color, religion, sex, disability, sexual orientation, age, or national origin should contact the associate dean for academic affairs.

Graduation Participation

All requirements for the bachelor's degree must be completed successfully prior to graduation to participate in graduation ceremonies, including the successful completion of an internship, if required. The college will determine who is eligible to participate in the graduation ceremony. Students must participate in the ceremony that corresponds to the semester they graduate. Students cannot participate in an earlier (walk early) or later ceremony; there are no exceptions.

Health Insurance

All students must secure health insurance or a signed health insurance disclaimer before they begin their internship.

Honors

The university offers three levels of honors at graduation: cum laude, magna cum laude and summa cum laude.
More Info (p. 1385)

Please note that:

- Transfer credits and S/U option credits are excluded.
- Postbaccalaureate students are not eligible for honors recognition.
- Honors recognition is printed on the university diploma.

Follow these guidelines when preparing an honors thesis:

- Submission of an undergraduate thesis to request graduation with magna cum laude or summa cum laude must reflect a high caliber of work.
- The thesis submission form should be secured to the thesis as the first page. This form must be completed with a typewriter or computer; handwritten forms will not be accepted.
- When completing the submission form, pay special attention to the *Key Words* entry, as these words will be used to index the thesis. Think of these words as instrumental in leading a potential reader to the thesis.
- The thesis should be stapled or secured with a binder clip. Binders and folders are discouraged, as they will be discarded when the thesis is filed on microfiche.
- Have the abstract reviewed for organization, content, grammar and spelling before submission.
- The abstract should begin with a definitive statement of the problem or project. The purpose, scope and limit of the thesis should be clearly delineated. Then, as concisely as possible, describe research methods and design, major findings, the significance of your work (if appropriate) and conclusions. The abstract should be 100-200 words.
- Students whose thesis involves *creative* work such as original fine art, music, writing, theatre, film or dance should describe process and production, indicating the forms of documentation on file as thesis materials.
- Type the abstract into the space allotted on the submission form.

Looking for help writing a thesis? The honors program recommends *Conquering Your Undergraduate Thesis* by Nataly Kogan. This book offers helpful and practical advice from fellow students and recent graduates.

HHP honors thesis submission deadlines: Honors thesis/graduation requirements are completed during the last one or two semesters at UF. The final thesis submission is due to the college's associate dean for academic affairs three days before the last day of classes. Refer to the department for process information:

- Applied Physiology and Kinesiology (http://apk.hhp.ufl.edu/index.php/current-students/undergraduate-programs/honors-thesis)
- Health Education and Behavior (http://hhp.ufl.edu/about/departments/heb)
- Tourism, Recreation and Sport Management (http://hhp.ufl.edu/about/departments/trsm)

Incomplete Grades

An incomplete grade may be assigned at the discretion of the instructor as an interim grade for a course in which the student has completed a major portion of the course with a passing grade, been unable to complete course requirements before the end of the term (e.g., before the final exam is taken) because of extenuating circumstances and obtained agreement from the instructor and arranged for resolution of the incomplete grade.

I grades are not to be used when the student is doing unsatisfactory work and the instructor wants to provide another chance to improve. Instructors are not required to assign incomplete grades.

The I grade arrangement should stipulate all conditions for completing the course and earning a letter grade, including a specific expiration date for the arrangement and designation of the grade to be assigned for incomplete work. I grade arrangements should be recorded on a standard contract form, kept in a file in the department's central office and monitored by staff, so that the appropriate grade changes will be made by the end of the following semester. This practice will be particularly useful if the instructor is on leave or has left UF permanently.

If make-up work requires classroom or laboratory attendance in a subsequent term, the student should not register for the course again.

Instead, the student must audit the course and pay course fees. Students who need to audit a course should be referred to the registrar's office to complete audit registration.

If the make-up work does not require classroom or laboratory attendance, the instructor and student should decide on an appropriate plan and deadline for completing the course.

When the course is completed or the arrangement has expired, the instructor will submit a change of grade to the Office of the University Registrar. An I grade should not be assigned to a student who never

attended class; instead, instructors may assign a failing grade or no grade at all, which will result in assignment of N*.

The only time a letter grade should be changed to an I is when the instructor made an error in the grade. For example, there is an I grade arrangement on file for the student, but the instructor forgot and recorded an E instead. The college will approve such grade changes only when clear instructor error has occurred and when the grade is submitted with a copy of the I grade arrangement, which must be dated prior to the final exam period for the course.

These procedures cannot be used to repeat a course for a different grade.

Internships

Prior to graduation, all students - except athletic training students - are required to complete a full semester of internship. This requirement is completed during the semester of expected graduation, after successful completion of all other required coursework (see below). Credits for this requirement are included in the credit total required for graduation. Students will not be granted permission to participate in the graduation ceremony prior to successfully completing the internship experience. Refer to graduation participation, above.

Students are eligible to complete the internship semester if they have:

- **Successfully completed ALL other required courses** and are therefore eligible to graduate upon completion of the internship semester (includes majors, minors, flexible learning, general education, writing requirements, international/diversity and study abroad)
- Secured professional liability insurance
- Current certification in First Aid and CPR (or equivalent) and AED
- UF upper-division cumulative, major and critical-tracking GPA of at least a 2.0, with no I, N or NG grades or flags.
- No deficit points
- All grades posted to UF transcript two weeks before starting internship.
- Submitted all internship materials by the department deadlines and been approved by the department for internship.

Upon submission of the required application for internship (as determined by the department), an academic advisor will determine whether or not the student is academically eligible to complete the internship during the desired semester. For in-depth information regarding internships, please contact a department internship coordinator.

Students can only register and attempt to complete the practicum (if required by the major) and internship two times. If unable to complete successfully after two attempts, the student may be dismissed from the program.

Junior and Senior Status

After reaching 60 credits, students who meet or exceed the 60-credit performance standards specified by the college and the major/department will retain their classification within the college. Juniors and seniors (3HH and 4HH respectively) will be monitored for progress toward the degree. All students must adhere to the policies of the college and the department to retain the HH classification.

Athletic training is a limited access program and therefore requires students to apply during the spring term of their sophomore year. To be eligible to apply, students must meet all academic and clinical requirements. Students who are not selected for the competitive program will not be permitted to continue as an athletic training major and will be changed to the applied physiology and kinesiology (APK) major.

Liability Insurance

All students must secure professional insurance before they begin their internship. All athletic training students are required to maintain professional liability insurance throughout the program.

Maximum Credit Load

UF policy allows a maximum of 18 credits; therefore, to exceed 18 credits, college policy requires students to have

- 3.0 GPA in all categories (e.g., UF GPA, critical-tracking GPA),
- One drop available, and
- Academic advisor approval

Non-Degree Requests

The college follows the university's Employee Education Program (EEP) policies. Non-degree enrollment is restricted to University of Florida employees during the fall and spring semesters only. For college credit and non-UF employees, enrollment is restricted to summer terms only. Non-degree enrollment is subject to the availability of faculty, space and facilities. No application for admission is required.
More Info (http://www.registrar.ufl.edu/forms.html)

Undergraduate students who have been denied admission to UF for any term are not eligible for non-degree registration. Students who have previously attended UF in a degree-seeking status who did not subsequently earn a bachelor's degree are not eligible for non-degree registration.

Visiting Students Attending UF: Undergraduate students in good standing at another accredited collegiate institution can enroll full time at UF as non-degree transient students to complete work to transfer back to the parent institution. The university and this college do not allow transient students during the fall and spring semesters.

Petition Request

Students who are petitioning a department or college policy must complete the general petition request and submit it along with all required documentation to an academic advisor.

The college's associate dean makes the final decision for graduation participation, internship eligibility, appeals of department petitions, change of major to the college and universal tracking transient course requests. These policies require petition review by an academic advisor, the department chair and/or department petitions committee or designated faculty member, and the college petitions committee. The associate dean for academic affairs or the college's academic affairs representative will notify the student of the outcome/decision.

Petitionable items at the department level include course substitutions, non-critical-tracking transient course requests, continuation in a major, department internship deadline, SUS summer requirement, residency requirement and readmission to a major.

For all department-level petitions the academic advisor makes a decision or defers decision to the department chair and/or department petitions committee. If the academic advisor approves, no further action is needed by the department and the student is notified by the advisor.

If the academic advisor denies or defers the petition, it is reviewed by the department petitions committee. If the department chair and/or department petitions committee reviews and approves the denied or deferred petition, the student will be notified of the decision by the academic advisor.

If the department chair and/or department petitions committee denies the petition, the student can appeal to the college petition committee. Regardless of a recommendation to approve or deny, the petition will be reviewed for final decision by the associate dean for academic affairs. The student will be notified of the decision by the associate dean or the college's authorized representative.

If the petition is denied at the college level the student may contact the UF Ombuds Office and/or submit a senate petition, if appropriate.

Postbaccalaureate Status

The university limits the options for postbaccalaureate studies to

- Certificate program/state licensure
- Teacher certification
- Prerequisites for graduate study
- Distance learning

The college abides by the university's postbaccalaureate policy and therefore limits students to the above criteria. In addition, any student wishing to apply under item 3, prerequisites for graduate study, will be required to apply to a specific department, not the department that offers the course they wish to complete. For example: A student wishing to apply to the physical therapy graduate program who needs anatomy and physiology as prerequisites should apply to the College of Public Health and Health Professions as a postbaccalaureate student.
More Info (http://www.admissions.ufl.edu/grad/postbacc.html)

Prerequisite Coursework

The state of Florida has determined that the prerequisite coursework required for a major in the state university system (SUS) will be the same for all SUS schools offering the major. Generally, and in most cases, meeting the prerequisites for admission will be sufficient to meet any course prerequisites. UF students who follow the sequence of courses identified in the critical-tracking plan for their major will satisfy all course prerequisites for that major, provided they achieve the minimum grades required.

Progress toward Degree

The college has identified specific performance standards to help students progress toward a degree.

To meet these standards, students must:

- Maintain a minimum 2.0 UF GPA
- Maintain the minimum critical-tracking GPA as designated by department curriculum
- Maintain the minimum upper-division GPA as designated by department curriculum
- Maintain the minimum major GPA as designated by department curriculum
- Complete the degree within 138 credits or 8 semesters (not including summer) without exceeding the maximum credits per semester (excludes AP/IB courses not needed for HHP degree program).

Request for Fifth Year

Students who wish to receive a fifth year must complete the general petition request and submit it to their academic advisor along with a graduation plan.

Students also must:

- Maintain a minimum 2.0 UF GPA
- Maintain the minimum critical-tracking GPA as designated by department curriculum
- Maintain the minimum upper-division GPA as designated by department curriculum
- Maintain the minimum major GPA as designated by department curriculum

Readmission

To be considered for readmission to the College of Health and Human Performance, students must have a:

- 2.0 UF GPA
- 2.0 critical-tracking GPA, and
- Upper-division GPA as determined by the department/major.

Students who have been dismissed and/or on academic probation (with deficit points) will not be considered for readmission. Readmission is not automatic or guaranteed. In addition to the UF readmission application, applicants must also complete the college's letter of intent.

Student Responsibility

Each student is responsible for registering for and completing the proper courses and for fulfilling all requirements for a degree. The student's advisor will help and counsel, but the student must take the initiative and assume responsibility for meeting all requirements.

Course requirements for each major have been determined and approved by department faculty. The student's program of study is subject to the approval of an advisor in the major.

To make informed decisions and fulfill personal goals, students must take a responsible and active role in their own advising. More specifically, students must:

Knowledge

- Understand the university's and college's academic requirements
- Understand the requirements for the major and minor
- Be familiar with general university academic and behavioral policies, and
- Have a sense of academic and career interests, learning strengths and weaknesses and educational needs.

Behavior

- Meet as needed with advisor
- Come to appointments on time
- Register in a timely fashion
- Follow through with registration, drop/add and withdrawals in a timely fashion
- Review audit regularly
- Check communication regularly, using a UFL email account

- Respond to communication in a timely fashion, and
- Be an effective self-advocate.

Dispositions

- Work cooperatively
- Be open to new ideas and be willing to explore curricular options
- Be interested in and dedicated to the major, and
- Believe in the value of responsibility and accountability.

Study Abroad

The College of Health and Human Performance encourages students in good standing to study abroad. Students are required to meet with an academic advisor regarding degree requirements prior to registering for any study abroad program.

Students wishing to study abroad must:

- Be in good standing with a minimum 2.5 UF GPA (Students cannot be on academic contract nor under conditional admission.)
- Have completed non-UF study abroad courses prior to term 7
- Be in residence at UF for the last 30 credits. This applies to transient (non-UF, credit earning) programs.
- Not delay or extend the UF timeframe of eight terms, excluding summer, for degree completion
- Have transcripts posted to UF before being cleared for internship.

S/U Option

Students are not permitted to complete required courses using the S/U option. However, courses that are not required for degree certification can be completed using the S/U option. Students choosing to complete a course with the S/U option are required to follow UF policy and deadlines. More Info (p. 1438)

Transfer or Flexible Learning Credit

Transfer and/or flexible learning course credit may be allowed even if taken after the student has been admitted to the major. These courses must be approved in advance by the academic advisor. Students are discouraged from taking such courses after 60 credits. As per UF policy, no more than six credits of flexible learning credit and/or a maximum of 60 credits of community college academic credit can apply toward a UF degree.

In general, these courses are recorded on the transcript and can be used to meet core curriculum requirements if approved in advance by the department. At least 60 credits at the 3000 level or higher are required for all majors. Flexible learning and extension course credit are excluded from honors GPA calculation for the College of Health and Human Performance and will not be used to determine Dean's List GPA.

Transfer Students

For application information, all transfer students should refer to the admission as a transfer section. Within space and fiscal limitations, applicants from other institutions who have satisfied minimum requirements will be considered for admission at the junior level. More Info (p. 18)

Florida state college applicants to the College of Health and Human Performance must complete an Associate of Arts degree and meet all university and college-specific requirements. Admission evaluation factors include:

- academic record,
- cumulative grade point average,
- performance in critical-tracking courses,
- extent to which the applicant exceeds minimum requirements, and
- achievements and career goals as stated in the letter of intent.

The admission review process is a holistic review of the applicant's overall record and potential in the chosen academic field. Students who complete preprofessional courses outside the state system (students who attend out-of-state, private and/or international institutions) must submit course descriptions to the department advisor.

In addition to the UF transfer application, applicants must also complete the college's **letter of intent**. Transfer admission is limited and extremely competitive. Priority will be given to applicants who have completed an A.A. degree from a Florida public college, per the state of Florida articulation agreement.

The departments of Applied Physiology and Kinesiology, Tourism, Recreation and Sport Management, and Health Education and Behavior accept transfer students during the fall and spring semesters only and on a limited basis because of space and fiscal limitations.

Transient Request

Students are not permitted to complete critical-tracking courses as a transient student. Upper-division coursework taken as a transient student is discouraged and approvals will be at the discretion of the department. Students wishing to complete work at another institution must submit the college transient request and be approved by an advisor in advance of taking the course.
More Info (http://www.flvc.org/flvc/portal/Home_Page/Student%20Services/College_Transfer_Center/Transient_Student_Admission_Application/!ut/p/c5/04_SB8K8xLLM9MSSzPy8xBz9CP0os3iDEEtPfx9TQwOLABdDA093dw8vA29nQ0dl3/d3/L2dJQSEvUUt3QS9ZQnZ3LzZfMFQ5)

After being approved at the college level, students may complete the UF transient request on the Florida Virtual Campus website.

Withdrawal Policy

An HHP student who withdraws from the university a second time, with a registration of more than one course that semester, will be placed on college probation. Probation terms will be determined by the advisor working with the student.

Degree Requirements

Successful Progress Toward a Degree

The college has identified specific performance standards to help students complete degree requirements. Successfully meeting these standards will enable students to continue in the major and to graduate in a timely manner.

In those cases where the grade point average or grade in a preprofessional requirement is higher for the major or specialization than for the college, the major/specialization requirement takes precedence.

Students who do not meet performance standards will have to meet with an academic advisor to determine an appropriate course of action.

Failure to meet the performance standards will result in a registration hold.

Applied Physiology and Kinesiology

The Department of Applied Physiology and Kinesiology is concerned with quality of life and the aspects of human movement. Significant research contributions, education and service are related to the study of physiological and psychological responsiveness to vigorous and relevant physical activities.

In addition, movement skill capabilities and ways to improve skills and maintain health are determined for the typical person, the person who is disabled and the high-level athlete. Sites for research, student experience and employment include educational institutions, health and fitness centers, businesses and industries, and health agencies and organizations.

Athletic Training

The mission of the Athletic Training Education Program (ATEP) is to develop outstanding entry-level professionals to the profession of athletic training. Through the integration of balanced didactic coursework, intensive hands-on laboratory sessions and excellent clinical experiences, students will become proficient in the prevention, diagnosis, treatment and rehabilitation of injuries and illnesses for the physically active.

ATEP prepares students for entry-level work in secondary schools, colleges and universities, sports medicine clinics, professional sports programs, industrial settings and other healthcare environments. Graduates of ATEP are prepared to complete graduate study in athletic training and related fields. The curriculum is designed to meet accreditation standards set forth by the Commission on Accrediting Athletic Training Education (CAATE) and to prepare students for the Board of Certification (BOC) examination. Students who graduate from the program will receive a Bachelor of Science in athletic training and will meet the requirements to sit for the BOC examination. BOC certification is required to practice athletic training in 49 of the 50 states and is considered the *gold standard* by licensing boards.

Health Education and Behavior

The Department of Health Education and Behavior offers a Bachelor of Science in Health Education with emphases in community health education, health promotion and health studies.

The degree program allows students maximum flexibility when choosing department specialization coursework during the junior and senior years that relates to their personal interests in community and public health education, health promotion in the worksite setting or general health studies.

Students with an interest in community and public health education complete coursework focused on illness and disease prevention among special target groups within a particular community, with the ultimate goal of providing practical health information to diverse population groups through the use of theory-driven educational methods. Community health and public health educators generally find employment in local, state or national government health agencies (state or county health departments, CDC, NIH) and in voluntary public health units such as the American Cancer Society, the March of Dimes and Planned Parenthood.

Students with an interest in health promotion complete coursework that prepares for careers in employee-assistance programs and corporate or hospital-based wellness centers. Many companies with large employee populations have noticed a significant decrease in absenteeism and an increase in work productivity for those employees actively participating in an employee wellness program. In addition, insurance rates tend to be lower for those employees, thus providing an incentive for employers to offer such programs. Employee wellness programs can include sessions for smoking cessation, nutritional guidelines, stress relief and injury prevention, and can also include running an on-site gym.

Students wishing in-depth knowledge of health concerns may complete a specialization in health studies to gain knowledge on a variety of health issues plaguing diverse population groups. Students are also able to complete required prerequisite coursework for professional health programs such as nursing, medical school, physician assistant, occupational therapy and physical therapy, as well as graduate programs in health education or related fields (public health, health administration, epidemiology and disease prevention).

Students majoring in health education and behavior are also eligible for the Bachelor's/Master's of Science combined-degree program, thus receiving both degrees within approximately five years. Students interested in this program should schedule an appointment with the department academic advisor.

Sport Management

The Department of Tourism, Recreation and Sport Management's program in sport management enables the student to apply the fundamental concepts of management, marketing, finance, and law to sport organizations. Students pursue employment opportunities in professional sport franchises, intercollegiate athletic departments, sports media industries, sporting goods merchandising, and sport organizing committees, among other organizations. Within sport organizations, students may focus on facility and event management, marketing,

administration, compliance, ticket operations, sponsorship sales, fundraising, player representation, and a range of other sport-related jobs.

UF's Department of Tourism, Recreation and Sport Management ranks among the top five such academic programs in the United States.

Students must complete curricula requirements with a minimum grade point average as specified by each specialization, achieve 120 semester credits (60 of which must be at or above the 3000 level) and complete all course requirements for the major.

Tourism, Events and Recreation Management

The Department of Tourism, Recreation and Sport Management's program in tourism, events and recreation management is designed to prepare students for entry-level jobs in city, county, state or national park and recreation agencies (youth recreation programs, camps, YMCA/YWCA or park rangers, for example) or in aspects of tourism such as conference and meeting planning, resorts, cruise ships, touring companies, theme parks, hospitality industry, retirement communities as well as for career advancement as managers in government or business leisure industries. Research and training also focuses on understanding the role and impact of leisure services on individuals, health, society and the environment.

UF's Department of Tourism, Recreation and Sport Management ranks among the top five such academic programs in the United States. The curriculum is accredited by the National Recreation and Park Association.

Students must complete curricula requirements with a minimum grade point average as specified by each specialization, achieve 120 semester credits (60 of which must be at or above the 3000 level) and complete all course requirements for the major.

Applied Physiology and Kinesiology

The department offers programs designed to prepare students as specialists in exercise physiology and fitness/wellness.

About this Program

- **College:** Health and Human Performance (p. 398)
- **Degree:** Bachelor of Science in Applied Physiology and Kinesiology
- **Specializations:** Exercise Physiology (p. 407) | Fitness/Wellness (p. 410)
- **Credits for Degree:** 120
- **Additional Information**

To graduate with this major, students must complete all university, college, and major requirements.

The University of Florida admits students as freshmen into the Department of Applied Physiology and Kinesiology. The exercise physiology specialization prepares students for careers in one of the health professions or graduate study in exercise science. Fitness/wellness prepares students to function as exercise technicians, exercise specialists and/or wellness instructors in hospital, corporate, private or government agencies.

Academic Learning Compact

The Bachelor of Science in Applied Physiology and Kinesiology offers specializations in exercise physiology and in fitness/wellness. Students will gain extensive understanding of the anatomical, physiological and psychological bases and consequences of human movement. Students will explore the relationship between physical activity and health and learn how to prevent and treat athletic injuries.

Before Graduating Students Must

- Pass a comprehensive critique performed by an approved professional in the field of applied physiology and kinesiology and as determined by the department's grading rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Integrate principles and methods of math, social sciences and arts and humanities to applied physiology and kinesiology, wellness and/or fitness environments.
2. Identify and relate the nomenclature, structures and locations of components of human anatomy to health, disease and physical activity.
3. Identify, examine and explain physiological mechanisms of homeostasis at various levels of an organism (i.e., cells, tissues, organs, systems).
4. Investigate and explain the effects of physical activity on psychological health as well as the perspectives used to enhance adherence to healthier lifestyles.
5. Identify and explain the acute and chronic anatomical and physiological adaptations to exercise, training and physical activity.

Critical Thinking

6. Select and utilize the appropriate scientific principles when assessing the health and fitness of an individual and prescribing physical activity based on those assessments.

7. Solve applied physiology and kinesiology problems from personal, scholarly and professional perspectives using fundamental concepts of health and exercise, scientific inquiry, and analytical critical and creative thinking.
8. Collect, compare and interpret qualitative or quantitative data in an applied physiology and kinesiology context.

Communication

9. Effectively employ written, oral, visual and electronic communication techniques to foster inquiry, collaboration and engagement among applied physiology and kinesiology peers and professionals as well as with patients, clients and/or subjects.

Applied Physiology and Kinesiology | Exercise Physiology

The department offers programs designed to prepare students as specialists in exercise physiology and fitness/wellness.

About this Program

- **College:** Health and Human Performance (p. 398)
- **Degree:** Bachelor of Science in Applied Physiology and Kinesiology
- **Specializations:** Exercise Physiology (p. 407) | Fitness/Wellness (p. 410)
- **Credits for Degree:** 120
- **Additional Information**

To graduate with this major, students must complete all university, college, and major requirements.

The University of Florida admits students as freshmen into the Department of Applied Physiology and Kinesiology. The exercise physiology specialization prepares students for careers in one of the health professions or graduate study in exercise science. Fitness/wellness prepares students to function as exercise technicians, exercise specialists and/or wellness instructors in hospital, corporate, private or government agencies.

Exercise Physiology

The exercise physiology specialization prepares students for a career in the health professions, including medical, nursing, dental, physical or occupational therapy, and physician assistant, or for graduate study in exercise science or biomedical health fields. The curriculum provides a strong basic science background and requires additional coursework in the biological aspects of exercise. Students are required to complete a one semester internship as a capstone experience. All required courses must be completed before the internship. A maximum of two Cs can be earned in tracking courses. All other tracking grades must be B or better.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=310505&track=02) may be used for transfer students.

Semester 1

- Complete 2 of 9 critical-tracking courses with a 3.0 GPA on tracking coursework: APK 2100C, APK 2105C, APK 3110C, BSC 2010 and BSC 2010L, BSC 2011 and BSC 2011L, CHM 2045 and CHM 2045L, CHM 2046 and CHM 2046L, MAC 2311, PSY 2012
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses with a 3.0 GPA on tracking coursework
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with a 3.0 GPA on tracking coursework
- 2.0 UF GPA required

Semester 4

- Complete 2 critical-tracking courses with a 3.0 GPA on all tracking coursework
- 2.0 UF GPA required

Semester 5

- Complete all 9 critical-tracking courses with a 3.0 GPA on all tracking coursework
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Applied Physiology and Kinesiology | Fitness/Wellness

The department offers programs designed to prepare students as specialists in exercise physiology and fitness/wellness.

About this Program

- **College:** Health and Human Performance (p. 398)
- **Degree:** Bachelor of Science in Applied Physiology and Kinesiology
- **Specializations:** Exercise Physiology (p. 407) | Fitness/Wellness (p. 410)
- **Credits for Degree:** 120
- **Additional Information**

To graduate with this major, students must complete all university, college, and major requirements.

The University of Florida admits students as freshmen into the Department of Applied Physiology and Kinesiology. The exercise physiology specialization prepares students for careers in one of the health professions or graduate study in exercise science. Fitness/wellness prepares students to function as exercise technicians, exercise specialists and/or wellness instructors in hospital, corporate, private or government agencies.

Fitness/Wellness

The fitness/wellness specialization emphasizes the practical and applied aspects of exercise science. Students in this specialization become exercise technicians and specialists in hospitals and corporate, private or state agencies. Many students in this specialization also pursue careers in health professions. Students are required to complete a one semester internship as a capstone experience. All required courses must be completed before the internship.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=310505&track=01) may be used for transfer students.

Semester 1

- Complete 2 of 8 critical-tracking courses with a 2.5 GPA on tracking coursework: APK 2100C, APK 2105C, ATR 2010C, ECO 2023 or AEB 2014, HUN 2201, MAC 1140 or MAC 1147 or calculus, PSY 2012, STA 2023. Minimum grades of C are required in APK 2100C, APK 2105C and ATR 2010C.
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses with a 2.6 GPA on tracking coursework
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with a 2.7 GPA on tracking coursework
- 2.0 UF GPA required

Semester 4

- Complete all 8 critical-tracking courses with a 2.8 GPA on tracking coursework
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Event Management Minor

This minor provides an opportunity to acquire specialized knowledge and skills in the field of event management. Students can apply the knowledge and skills gained to a variety of settings including but not limited to corporate, non-profits, associations, exhibitions, sport, government, and entertainment. The additional knowledge, skills, and experience gained from this minor can potentially elevate a student's marketability to future employers.

About this Program

- **College:** Health and Human Performance (p. 398)
- **Credits:** 15 | Completed with a 2.0 cumulative GPA and no S-U grades
- **Contact:** 330 Florida Gym (http://campusmap.ufl.edu/?loc=0021)
- **Related Event Management Programs**

The minor is not open to students majoring in Tourism, Event and Recreation Management.

Applicants must receive approval of their college before obtaining Tourism, Recreation and Sport Management approval in room 330, Florida Gym.

All credits must be completed at UF.

Required Courses

Health Education and Behavior

The Department of Health Education and Behavior, with a foundation in the social and biological sciences, offers coursework focused on health information and theory application. Students learn techniques to promote healthy lifestyle choices in individual and group settings, with special attention given to diversity and culturally appropriate health education methodologies.

About this Program

- **College:** Health and Human Performance (p. 398)
- **Degree:** Bachelor of Science in Health Education
- **Specializations:** Community Health Promotion (p. 415) | Health Studies (p. 419)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Health Education and Behavior Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The Bachelor of Science in Health Education degree program allows students maximum flexibility to choose department specialization coursework during the junior and senior years that relates to personal interests in the health field. Students can focus their coursework on interest areas in health education and health promotion in community, clinical or worksite settings or in health studies as they prepare for professional health occupations.

Related Health Education and Behavior Programs

- Bachelor of Science in Health Education and Behavior, Community Health Promotion, UF Online (p. 424)
- Health Promotion minor (p. 427)
- Health Promotion minor, UF Online (p. 428)

Academic Learning Compact

The Bachelor of Science in health education prepares students to work as a health education specialist in schools, government agencies, voluntary health organizations, philanthropic foundations, colleges and universities, private-sector industry and healthcare settings. Health education specialists improve the health and well-being of individuals, families, groups and community populations.

Grounded in social, behavioral, biological and health sciences, the curriculum develops understanding of the causes and determinants of mortality and morbidity and develops specific competencies required of entry-level health education specialists. Graduates will be eligible to take the Certified Health Education Specialist examination governed by The National Commission for Health Education Credentialing, Inc.

Before Graduating Students Must

- Satisfactory performance on at least one major assignment or examination for each core course required for the degree, as determined by performance criteria developed specifically for the assignment.
- Satisfactory completion of the 15 credit health education internship (HSC 4876) as indicated on the final performance appraisal.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify and apply theories-based strategies for assessing individual and community needs for health education/promotion.
2. Identify and utilize appropriate theory-based models for planning effective health education/promotion programs.
3. Identify and apply a variety of theories, models and strategies for implementing health education/promotion programs.
4. Identify and apply methods and procedures appropriate for evaluating the effectiveness of health education/promotion programs.
5. Coordinate the provisions of health education/promotion services.
6. Describe and employ methods to obtain and disseminate health education/promotion information.
7. Identify and apply the major concepts and principles related to nutrition, substance abuse, emotional health, human sexuality and environmental health.

Critical Thinking

8. Examine situations, conditions and events to solve problems independently and to evaluate health education/promotion outcomes.
9. Select health education/promotion programs and services based on best-evidence.

Communication

10. Communicate health needs, concerns and resources to identified clients and consumers.
11. Communicate health concepts and health information using a variety of channels to individuals, families and groups from diverse backgrounds in various settings.

Community Health Promotion

Students with a primary interest in community health education or worksite health promotion should select the Community Health Promotion specialization. Coursework in this specialization is focused on illness and disease prevention among special target groups within a particular community, with the ultimate goal of providing practical health information to diverse population groups through the use of behavioral interventions. Community health promotion specialists generally find employment in local, state or national government health agencies (state or county health departments, CDC, NIH) and in voluntary organizations such as the American Cancer Society, the March of Dimes and American Heart Association. Worksite health promotion specialists find employment opportunities within diverse small and large businesses and organizations.

This specialization is also appropriate for students planning to pursue graduate programs in health education or related fields (community or public health, health administration, health policy and epidemiology and disease preventions).

Students majoring in health education and behavior are also eligible for the Bachelor/Master of Science combined degree program, thus receiving both degrees within approximately five years. Students interested in this program should schedule an appointment with the department academic advisor before the start of their junior year. More information about the health education and behavior BS/MS program (http://heb.hhp.ufl.edu/index.php/academia/undergraduate/combined-degree-programs).

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=512208&track=01) may be used for transfer students.

Semester 1

- Complete 2 of 6 critical-tracking courses: APK 2100C, APK 2105C, BSC 2005/BSC 2005L, MAC 1105 or MAC 1140 or MAC 1147, PSY 2012, STA 2023
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete all 6 critical-tracking courses, including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required (and maintained through semester 8)

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
MAC 1105	Basic College Algebra (**Critical Tracking**; Gen Ed Mathematics; or higher level MAC course)	3
PSY 2012	General Psychology (**Critical Tracking**; State Core Gen Ed Social and Behavioral Sciences)	3
State Core Gen Ed Composition (p. 23); Writing Requirement		3
Elective (Gen Ed International)		3
	Credits	15
Semester Two		
BSC 2005 & 2005L	Biological Sciences and Laboratory in Biological Sciences (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	4
STA 2023	Introduction to Statistics 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	3
Select one (complete before the end of Semester Five):		3
SYG 2000	Principles of Sociology (Gen Ed Social and Behavioral Sciences)	
SYG 2010	Social Problems (Gen Ed Social and Behavioral Sciences)	
Gen Ed Composition; Writing Requirement		3
State Core Gen Ed Humanities (p. 23)		3
	Credits	16
Semester Three		
Select one (complete before the end of Semester Five):		3
AEC 3030C	Effective Oral Communication	
SPC 2608	Introduction to Public Speaking

HSC 4905	Individual Study	1-4
HSC 5XXX	Any non-combined 5000-level course offered within the department	

Academic Learning Compact

The Bachelor of Science in health education prepares students to work as a health education specialist in schools, government agencies, voluntary health organizations, philanthropic foundations, colleges and universities, private-sector industry and healthcare settings. Health education specialists improve the health and well-being of individuals, families, groups and community populations.

Grounded in social, behavioral, biological and health sciences, the curriculum develops understanding of the causes and determinants of mortality and morbidity and develops specific competencies required of entry-level health education specialists. Graduates will be eligible to take the Certified Health Education Specialist examination governed by The National Commission for Health Education Credentialing, Inc.

Before Graduating Students Must

- Satisfactory performance on at least one major assignment or examination for each core course required for the degree, as determined by performance criteria developed specifically for the assignment.
- Satisfactory completion of the 15 credit health education internship (HSC 4876) as indicated on the final performance appraisal.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify and apply theories-based strategies for assessing individual and community needs for health education/promotion.
2. Identify and utilize appropriate theory-based models for planning effective health education/promotion programs.
3. Identify and apply a variety of theories, models and strategies for implementing health education/promotion programs.
4. Identify and apply methods and procedures appropriate for evaluating the effectiveness of health education/promotion programs.
5. Coordinate the provisions of health education/promotion services.
6. Describe and employ methods to obtain and disseminate health education/promotion information.
7. Identify and apply the major concepts and principles related to nutrition, substance abuse, emotional health, human sexuality and environmental health.

Critical Thinking

8. Examine situations, conditions and events to solve problems independently and to evaluate health education/promotion outcomes.
9. Select health education/promotion programs and services based on best-evidence.

Communication

10. Communicate health needs, concerns and resources to identified clients and consumers.
11. Communicate health concepts and health information using a variety of channels to individuals, families and groups from diverse backgrounds in various settings.

Health Education and Behavior | Health Studies

The Department of Health Education and Behavior, with a foundation in the social and biological sciences, offers coursework focused on health information and theory application. Students learn techniques to promote healthy lifestyle choices in individual and group settings, with special attention given to diversity and culturally appropriate health education methodologies.

About this Program

- **College:** Health and Human Performance (p. 398)
- **Degree:** Bachelor of Science in Health Education
- **Specializations:** Community Health Promotion (p. 415) | Health Studies (p. 419)
- **Credits for Degree:** 120

- **Additional Information**
- **Related Health Education and Behavior Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The Bachelor of Science in Health Education degree program allows students maximum flexibility to choose department specialization coursework during the junior and senior years that relates to personal interests in the health field. Students can focus their coursework on interest areas in health education and health promotion in community, clinical or worksite settings or in health studies as they prepare for professional health occupations.

Related Health Education and Behavior Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Bachelor of Science in Health Education and Behavior, Community Health Promotion, UF Online (p. 424)
- Health Promotion minor (p. 427)
- Health Promotion minor, UF Online (p. 428)

Health Studies

Students who want in-depth knowledge of diverse health topics, with the intention to complete postbaccalaureate work in a professional health program such as medicine, dentistry, optometry, pharmacy, physician assistant, occupational therapy and physical therapy should select the health studies specialization. This specialization enables students to gain knowledge on a variety of health issues plaguing diverse population groups and to complete required prerequisite coursework for professional health programs. Students may also pursue graduate programs in health education or related fields (public health, health administration and epidemiology and disease prevention).

Additional science coursework is included within the semester plan to help students meet prerequisites for professional health programs. However, it is imperative that students review the requirements for targeted graduate programs as additional prerequisite coursework outside the curriculum for the major. Students should meet regularly with a pre-health advisor in the Academic Advising Center (100 Farrior Hall) as well as the department academic advisor to ensure adequate preparation for application to professional health programs. Ultimately, students are responsible for ensuring completion of the required prerequisites for their chosen professional health program.

Students majoring in health education and behavior are also eligible for the Bachelor/Master of Science combined degree program, thus receiving both degrees within approximately five years. Students interested in this program should schedule an appointment with the department academic advisor before the start of their junior year. More information about the health education and behavior BS/MS program (http://heb.hhp.ufl.edu/index.php/academia/undergraduate/combined-degree-programs).

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=512208&track=01) may be used for transfer students.

Semester 1

- Complete 2 of 7 critical-tracking courses: APK 2100C, APK 2105C, BSC 2010/BSC 2010L, CHM 2045/CHM 2045L, MAC 1140 or higher level course, PSY 2012, STA 2023
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete all 7 critical-tracking courses, including labs
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required (and maintained through semester 8)

All general education requirements, including international (N) and diversity (D), must be completed prior to the final internship semester.

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
CHM 2045	General Chemistry 1	4
& 2045L	and General Chemistry 1 Laboratory (**Critical Tracking**; State Core Gen Ed Physical Sciences)	
HSC 3102	Personal and Family Health (Gen Ed Social and Behavioral Sciences; complete before the end of Semester five)	3

Academic Learning Compact

The Bachelor of Science in health education prepares students to work as a health education specialist in schools, government agencies, voluntary health organizations, philanthropic foundations, colleges and universities, private-sector industry and healthcare settings. Health education specialists improve the health and well-being of individuals, families, groups and community populations.

Grounded in social, behavioral, biological and health sciences, the curriculum develops understanding of the causes and determinants of mortality and morbidity and develops specific competencies required of entry-level health education specialists. Graduates will be eligible to take the Certified Health Education Specialist examination governed by The National Commission for Health Education Credentialing, Inc.

Before Graduating Students Must

- Satisfactory performance on at least one major assignment or examination for each core course required for the degree, as determined by performance criteria developed specifically for the assignment.
- Satisfactory completion of the 15 credit health education internship (HSC 4876) as indicated on the final performance appraisal.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify and apply theories-based strategies for assessing individual and community needs for health education/promotion.
2. Identify and utilize appropriate theory-based models for planning effective health education/promotion programs.
3. Identify and apply a variety of theories, models and strategies for implementing health education/promotion programs.
4. Identify and apply methods and procedures appropriate for evaluating the effectiveness of health education/promotion programs.
5. Coordinate the provisions of health education/promotion services.
6. Describe and employ methods to obtain and disseminate health education/promotion information.
7. Identify and apply the major concepts and principles related to nutrition, substance abuse, emotional health, human sexuality and environmental health.

Critical Thinking

8. Examine situations, conditions and events to solve problems independently and to evaluate health education/promotion outcomes.
9. Select health education/promotion programs and services based on best-evidence.

Communication

10. Communicate health needs, concerns and resources to identified clients and consumers.
11. Communicate health concepts and health information using a variety of channels to individuals, families and groups from diverse backgrounds in various settings.

Health Promotion Minor

The minor in health promotion provides a basic understanding of the community health field and an opportunity to gain background in a variety of health issues related to disease prevention and health promotion. Coursework for this minor focuses on health promotion and disease prevention among special target groups within a particular community, with the ultimate goal of providing practical health information to diverse population groups through the use of behavioral interventions.

About this Program

- **College:** Health and Human Performance (p. 398)
- **Credits:** 15 | Completed with a 2.5 cumulative GPA and no grades below C

- **Contact:** 11 Florida Gym (http://campusmap.ufl.edu/?loc=0021)
- **Related Health Education and Behavior Programs**

The minor is open to all juniors and seniors, with the exception of students majoring in Health Education and Behavior.

This minor requires the completion of at least 15 credit hours of HSC coursework. Students should refer to the course descriptions in the undergraduate catalog for any prerequisites for each course.

Required Courses

Must be successfully completed before taking the specialization electives.

Code	Title	Credits

Sport Management

A Bachelor of Science in Sport Management enables students to ethically apply the fundamental concepts of management, marketing, finance and law to sport organizations. Coursework prepares students for a range of opportunities in the sport industry, including positions with professional, collegiate and amateur sport organizations.

About this Program

- **College:** Health and Human Performance (p. 398)
- **Degree:** Bachelor of Science in Sport Management
- **Credits for Degree:** 120
- **Additional Information**
- **Related Sport Management Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The acquisition of knowledge regarding the internal and external factors that influence sport in society enables students to use accepted techniques of discovery and critical thinking to solve problems, evaluate opinions and determine outcomes within the sport management area.

To earn a Bachelor of Science in Sport Management, a student must successfully complete 120 credits of prescribed coursework. Professional core courses, related option courses and specialization electives are taken during your last two years of work. An approved 13-week internship is required upon completion of all coursework. The 12 credit internship is included in the 120 credits prescribed for the degree.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=310504&track=01) may be used for transfer students.

Semester 1

- Complete 2 of 6 critical-tracking courses: ECO 2013 or ECO 2023, MAC 1105, MAR 3023, MAN 3025, PSY 2012 and STA 2023
- 2.2 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking course
- 2.2 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course
- 2.2 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete all 6 critical-tracking course
- 2.2 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Bachelor of Science in Sport Management enables students to apply the fundamental concepts of management, marketing, finance and law to sport organizations. The acquisition of knowledge regarding the internal and external factors that influence sport in society enables students to use accepted techniques of discovery and critical thinking to solve problems, evaluate opinions and determine outcomes within sport management. They will also be able to use qualitative and quantitative analysis to assess problems and to determine solutions for sport organizations, effectively communicating these assessments in speech and in writing to internal and external constituencies.

Before Graduating Students Must

- Demonstrate competence (minimum final grades of C) in the core courses SPM 4154, SPM 4515 and SPM 4723.
- Critically demonstrate mastery of critical skills (with a minimum score of 21) needed in planning and delivery of tourism, recreation and sport management programs as assessed by the internship supervisor using a select core of questions in the final internship evaluation.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Discuss the interdisciplinary nature of the study of sport management.
2. Examine and explain the internal and external factors that influence and shape sport in society.
3. Explain what constitutes management and what constitutes an organization. Apply the concepts of planning, organizing, leading, and evaluating organizational goals to sport organizations.
4. Examine and explain how ethical behavior influences financial, marketing and managerial decision-making.
5. Identify fundamental marketing concepts to the sport industry, create marketing plans, evaluate market segments and predict consumer behavior.
6. Develop financial strategies and evaluate budgets and sources of revenues and expenses relevant to sport organizations.
7. Explain and judge fundamental legal concepts relevant to tort, contract and constitutional law, and how they apply to the sport management field.

Critical Thinking

8. Use accepted techniques of discovery and critical thinking to solve problems independently and to evaluate opinions and outcomes within and outside of the sport management area.
9. Explain and use qualitative and quantitative analysis through formal and informal assessment strategies.

Communication

10. Effectively produce, interpret and analyze written text, oral messages and multimedia presentations used in sport management related settings.

- **Additional Information**
- **Related Tourism, Event and Recreation Management Programs**

To graduate with this major, students must complete all university, college, and major requirements.

To earn the Bachelor of Science in Tourism, Event and Recreation Management courses must be completed successfully in general education, the major and related professional and specialized courses. An approved 13-week internship is required upon completion of all coursework. The 12 credit internship is included in the 120 credits prescribed for the degree.

Related Tourism, Event and Recreation Management Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Event Management minor (p. 413)

Academic Learning Compact

The major in tourism, events and recreation management prepares students for employment and roles in recreation, tourism, sport-related businesses, organizations and agencies at local, state, national and global levels. Through study, research, training and practical experiences, students gain an understanding of the role and impact of leisure services and sport on individuals, families, society and the environment. Emphasis is on management of productivity factors such as human, fiscal and physical resources. Students learn to apply planning, programming, marketing and financing strategies to the development and implementation of recreation, parks and tourism services, events and businesses.

Before Graduating Students Must

- Demonstrate competence (minimum final grades of C) in the core courses LEI 4540, LEI 4570, LEI 4800 and LEI 4880.
- Demonstrate mastery of critical skills (with a minimum score of 21) needed in planning and delivery of tourism, recreation and sport management programs as assessed by the internship supervisor using a select core of questions in the final internship evaluation.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes (SLOs)

Content

1. Comprehend major concepts, principles and theories associated with recreation, parks and tourism.
2. Apply management functions of planning, organizing, leading and controlling the use of resources to accomplish performance goals in tourism, events and recreation environments.
3. Identify economic, sociological, psychological, political, legal and environmental issues that influence the delivery of tourism, events and recreation services to residents and tourists.
4. Interpret information technology and statistical techniques in assessment, planning, delivery and evaluation of tourism, events and recreation programs.
5. Apply programming and marketing strategies aligned to the development of tourism, events and recreation services.
6. Develop expertise of the principles of safety, emergency and risk management and the ability to develop and implement risk management plans that ensures the health and safety of participants and staff.

Critical Thinking

7. Comprehend and apply diverse sources of information and data integrated with theoretical frameworks, models and trends to issues related to leadership, management and delivery of tourism, events and recreation services.

Communication

8. Communicate to consumer publics and professional cohorts through written text, oral messages and multimedia presentations.

Tourism, Events and Recreation Management | Event Management

This curriculum prepares students to develop, manage and deliver programs and services to a variety of populations in diverse settings within the disciplines of tourism, event and recreation management. Upon completion of the focused coursework and the senior (capstone) internship, students will be prepared to become decision-makers in private and/or public organizations. The curriculum is also designed to prepare students to pursue graduate studies in a similar field or business management.

About this Program

- **College:** Health and Human Performance (p. 398)
- **Degree:** Bachelor of Science in Tourism, Event and Recreation Management
- **Specializations:** Event Management (p. 437) | Recreation Management (p. 440) | Tourism and Hospitality Management (p. 444)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Tourism, Event and Recreation Management Programs**

To graduate with this major, students must complete all university, college, and major requirements.

To earn the Bachelor of Science in Tourism, Event and Recreation Management courses must be completed successfully in general education, the major and related professional and specialized courses. An approved 13-week internship is required upon completion of all coursework. The 12 credit internship is included in the 120 credits prescribed for the degree.

Related Tourism, Event and Recreation Management Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Event Management minor (p. 413)

Event Management

Event management courses and training focus on the knowledge and skills necessary to administer and manage a variety of events in the public and/or private sectors. The curriculum prepares students to organize events and conferences, as well as community recreation services.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=310301&track=3/6) may be used for transfer students.

Semester 1

- Complete 1 of 5 critical-tracking courses: ECO 2013 or ECO 2023, EDF 3110 or DEP 3053, PSY 2012, SPC 2608 or AEC 3030C, SYG 2000
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete all 5 critical-tracking courses
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
Select one:		3
SPC 2608	Introduction to Public Speaking (**Critical Tracking**)	
AEC 3030C	Effective Oral Communication (**Critical Tracking**)

Academic Learning Compact

The major in tourism, events and recreation management prepares students for employment and roles in recreation, tourism, sport-related businesses, organizations and agencies at local, state, national and global levels. Through study, research, training and practical experiences, students gain an understanding of the role and impact of leisure services and sport on individuals, families, society and the environment. Emphasis is on management of productivity factors such as human, fiscal and physical resources. Students learn to apply planning, programming, marketing and financing strategies to the development and implementation of recreation, parks and tourism services, events and businesses.

Before Graduating Students Must

- Demonstrate competence (minimum final grades of C) in the core courses LEI 4540, LEI 4570, LEI 4800 and LEI 4880.
- Demonstrate mastery of critical skills (with a minimum score of 21) needed in planning and delivery of tourism, recreation and sport management programs as assessed by the internship supervisor using a select core of questions in the final internship evaluation.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes (SLOs)

Content

1. Comprehend major concepts, principles and theories associated with recreation, parks and tourism.
2. Apply management functions of planning, organizing, leading and controlling the use of resources to accomplish performance goals in tourism, events and recreation environments.
3. Identify economic, sociological, psychological, political, legal and environmental issues that influence the delivery of tourism, events and recreation services to residents and tourists.
4. Interpret information technology and statistical techniques in assessment, planning, delivery and evaluation of tourism, events and recreation programs.
5. Apply programming and marketing strategies aligned to the development of tourism, events and recreation services.
6. Develop expertise of the principles of safety, emergency and risk management and the ability to develop and implement risk management plans that ensures the health and safety of participants and staff.

Critical Thinking

7. Comprehend and apply diverse sources of information and data integrated with theoretical frameworks, models and trends to issues related to leadership, management and delivery of tourism, events and recreation services.

Communication

8. Communicate to consumer publics and professional cohorts through written text, oral messages and multimedia presentations.

Established

1925

The University of Florida College of Journalism and Communications is driving innovation and engagement across the disciplines of advertising, journalism, public relations and telecommunication. The strength of its programs, faculty, students and alumni — in research and in practice — has earned the college ongoing recognition as one of the best in the nation among its peers.

The college offers bachelor's, master's and doctoral degrees, a mass communication minor, and certificates, both online and on campus. The college's strength is drawn from both academic rigor and experiential learning. CJC students gain practical experience in the Innovation News Center, which generates content across multiple platforms, and The Agency, a strategic communication agency that began operation in 2015.

The college includes seven broadcast and digital media properties.

Accredited

Accrediting Council on Education in Journalism and Mass Communications (ACEJMC)

Academic Divisions

- Department of Advertising
- Department of Journalism
- Department of Public Relations
- Department of Telecommunication
- Division of Graduate Studies and Research

Degrees

Bachelor's degrees in advertising, journalism, public relations and telecommunication, Master of Arts and a Ph.D. in mass communication.

Academic Advising

Professional Advising and Teaching Hub (PATH), 1060 Weimer Hall, maintains student records and offers undergraduate academic advising.

Internships

Students can earn credits by completing professional internships. Grades for internships must be S/U. Internship credit can be repeated with change of assignment for a maximum of six credits. Any internship credit beyond the six, such as through the Honors office, will not count toward a student's 124-credit total needed for the degree.

Learning/Training Tools

The college is home to PBS affiliate (WUFT-TV), NPR affiliates (WUFT-FM, WJUF-FM) for North Central Florida, two commercial radio stations (WRUF-AM/FM), a low-power television station (WLUF-TV), the student magazine *Orange and Blue*, the Brechner Center for Freedom of Information, the Innovation News Center (INC), Brechner Project, The Agency, Center for Public Interest Communications, and STEM Translational Communication Research Program.

Scholarships

The College's Knight Division for Scholarships, Career Services and Multicultural Affairs provides undergraduates with information about scholarships and assistantships, internships, placement services, and the college's minority recruitment and retention activities.

The College awards more than $200,000 annually in undergraduate scholarships and assistantships. The application deadline is February 1. For more information, write to:

Academic Policies

Admission

Freshman Information

The university's Office of Admissions coordinates freshman admission.

Transfer Information

The College of Journalism and Communications evaluates applicants on a space-available basis. A 2.5 grade point average (on all work attempted) and 60 credits of acceptable credit are generally required for admission at the junior year.

"An AA graduate from a Florida public postsecondary institution shall receive priority for admission to a state university over out-of-state transfer students." - Florida Board of Governors articulation agreement

To be eligible for admission, a transfer student from a Florida public college must have an Associate of Arts degree, including all prerequisite tracking courses. Transfer students from other universities and non-Florida public colleges should complete the first two years' requirements for the major before transferring.

Students denied admissions may petition. Petitions are available from PATH: Professional Advising and Teaching Hub, 1060 Weimer Hall.

Double Major/Dual Degrees

Students who want to specialize in more than one field can earn one of the bachelor's degrees in this college and a second outside the college. Individuals who want to earn dual bachelor's degrees must complete the required form, including approval signatures from each department/college. Students are expected to complete all undergraduate coursework in 4 years, or two if transferring. Journalism and Communications majors cannot double major or minor within the college.

Combined Degrees

A combined degree program allows interested undergraduates to take up to four graduate classes. These classes fulfill undergraduate college requirements and can then be used a second time to satisfy the requirements for a Master's degree if graded B or higher. Undergraduates from Advertising, Public Relations, Journalism and the Media and Society or Production Telecommunication specializations may apply to participate in one of the combined degree programs in the college.

College Requirements

Typing Ability and Computer Skills

Students are expected to type 20 words per minute before enrolling in JOU 3109C or JOU 3101 or RTV 2100 and 30 words per minute for selected advanced courses.

JOU 3109C is limited to JM, PR, and TEL-NWS majors, except by permission of the Department of Journalism. Students in the other Telecommunication tracks must take RTV 2100.

Student Responsibility

Students are responsible for understanding and meeting all degree requirements. While the college maintains an academic advisory service and carefully works to keep accurate student records, this does not mitigate the student's obligation.

Students should read the college's requirements and should visit a college advisor at least once each semester. Computerized degree audits indicating each student's academic progress are available online at ONE.UF (https://one.uf.edu). The audit is used by PATH advisors as the official standard for a student's satisfactory progress to the degree.

Transfer Credit

Transfer students may transfer up to 60 semester credits from a state college. Credits taken beyond 60 may meet certain requirements but will not count toward the 124 credits needed to graduate. After 60 credits, credit taken with permission as a transient student at another university can be transferred to UF but the last 31 credits needed must be UF courses. Professional courses required for a student's major generally cannot be taken at other schools.

Satisfactory/Unsatisfactory Option

Undergraduate students in the college may not take courses designated ADV, JOU, MMC, PUR, RTV or VIC under the satisfactory-unsatisfactory (S/U) option, except courses which are offered only for an S/U grade. More Info (http://www.flvc.org/flvc/portal/Home_Page/Student%20Services/College_Transfer_Center/Transient_Student_Admission_Application/!ut/p/c5/04_SB8K8xLLM9MSSzPy8xBz9CP0os3iDEEtPfx9TQwOLABdDA093dw8vA29nQ0dl3/d3/L2dJQSEvUUt3QS9ZQnZ3LzZfMFQ5)

Students are permitted to take elective courses outside the college on an S/U basis, subject to university rules published in the Academic Regulations section of this catalog.

After the S/U option is approved, students may not elect to convert to a letter-grade. Writing requirement courses cannot be taken S/U.

Courses for the outside concentration may be taken S/U with the following restrictions (in addition to university restrictions):

- The option may not be applied to any course below the 3000 level.
- Not more than three credits of S/U work may be taken to fulfill the outside concentration requirement.
- No beginning-level course may be offered for outside concentration credit under S/U.
- 9 credits of English required by the college may not be taken S/U.
- Courses used for the quantitative option may not be taken S/U.
- Refer to the university calendar for deadlines to apply for the S/U option.

Probation and Suspension

A student will be placed on college probation if they fail to maintain a 2.0 overall average and a 2.0 professional average. A student will be flagged if either or both of these averages falls below a 2.0 GPA for two consecutive terms. Students on college suspension must successfully petition the college for reinstatement.

Dropping Courses

Petitions to drop courses beyond the first two may be approved only when documented circumstances beyond the student's control prevent the satisfactory completion of a course.

In all cases, students must file the petition with the PATH: Professional Advising and Teaching Hub, 1060 Weimer Hall. Consideration of petitions normally takes 1-2 weeks. All petitions must be submitted before the semester deadline. After these dates, all petitions are processed through the University Petitions Committee in 222 Criser Hall.

Flexible Learning

No CJC student can receive credit for a required professional course in the major through flexible learning study. No more than six semester credits of flexible learning coursework can be used to fulfill undergraduate degree requirements.

Please note: Concurrent enrollment at another institution is not allowed by the College of Journalism and Communications while enrolled in UF courses.

Foreign Language Proficiency or Quantitative Option

This requirement is satisfied by demonstrating proficiency or completing college-level credits in a single foreign language.

Students who elect the foreign language option may meet the requirement by successfully completing the second or third beginning-level course in one foreign language. Or, students can complete two college semesters of American Sign Language.

This is *not* a credit requirement, but a *proficiency* requirement, and it is satisfied by earning a minimum grade of C or S.

From the UF catalog: "UF students may use the FLPE (Foreign Language Proficiency Examinations) to prove proficiency in a foreign language and thus achieve an exemption from a foreign language requirement." More Info (https://teachingcenter.ufl.edu/testing/flpe)

CLEP

Students may also take the corresponding CLEP test for foreign language. From the university catalog: "Students beginning in the fall or spring term must have taken the exams... and have their scores reported to the university before the end of their first term of enrollment at UF." More Info (p. 1408)

For other languages not listed above, students should consult an advisor to discuss acceptable options for demonstrating proficiency. Students who wish to demonstrate proficiency must do so before earning 90 credits.

To meet the quantitative option, take any three of the following courses:

Code	Title	Credits
ACG 2021	Introduction to Financial Accounting	4
ACG 2071	Introduction to Managerial Accounting	4
CGS 2531	Problem Solving Using Computer Software	3
CGS 3063	Computers and Modern Society	3
COP 3275	Computer Programming Using C	3
EME 2040 or ALS 3203	Introduction to Educational Technology PC Use in Agriculture	3
ISM 3004	Computing in the Business Environment	4
STA 2023	Introduction to Statistics 1	3
STA 3024	Introduction to Statistics 2	3
STA 4222	Sample Survey Design	3

Statistics and computer courses listed under the quantitative option can apply three credits toward the general education mathematics requirement. Courses used for the quantitative option cannot be taken for S/U grades.

Outside Concentration

The College of Journalism and Communications requires that all students complete 12 credits of coursework in a department outside of the college. Nine of the twelve credits should be at the 3000 level or above. In lieu of an outside concentration, a student may complete an approved UF minor that is offered outside of the college.

Professional Limit

The college stresses a broad background in liberal arts and sciences. Students spend most of their time on general background courses. The remaining time involves development of professional techniques in relation to this general knowledge.

Because the college insists on a general education background, the number of professional credits (ADV, JOU, MMC, PUR and RTV) applied toward graduation is limited to 52.

Professional courses as defined by the college and accepted by transfer are counted toward the 52 credits. A student must earn a minimum of 72 credits of non-college courses as part of the 124 credits required.

Dean's List

More Info (p. 1385)

Students cannot qualify for dean's list if they have grades of I, N or U. Certificates of recognition are issued by request from the PATH: Professional Advising and Teaching Hub in 1060 Weimer Hall.

Degree Requirements

To earn a bachelor's degree, a student must satisfy these requirements:

- Earn at least 124 credits, up to 60 credits of which may be accepted by transfer from another college or university. The last 31 of these credits must be earned while the student is enrolled in classes in this college. A minimum of 72 credits must come from courses outside the college and a minimum of 52 credits must come from inside the college.
- Earn a minimum 2.0 in all work attempted while an upper-division student and a minimum 2.0 in all work attempted in courses with prefixes ADV, JOU, MMC, PUR, RTV, and VIC.
- Earn a minimum grade of C in required English, speech and foreign language courses. Advertising majors also must earn minimum grades of C in MAR 3023 and STA 2023. Public relations majors must earn a minimum grade of C in STA 2023.

According to the student's major, minimum grades of C are also required in:

Code	Title	Credits
ADV Courses		
ADV 3001	Advertising Strategy	3
ADV 3008	Principles of Advertising	3
ADV 3500	Digital Insights	3
ADV 4101	Copywriting and Visualization	3
ADV 4300	Media Planning	3
ADV 4800	Advertising Campaigns	3
ADV 4940	Advertising Internship [1]	1-4
All JOU and MMC courses [2]		
PUR Courses		
PUR 3000	Principles of Public Relations	3
PUR 3500	Public Relations Research	3
PUR 3801	Public Relations Strategy	3
PUR 4100	Public Relations Writing	4
PUR 4103	Public Relations Visual Communication	3
PUR 4404C	International Public Relations	3
PUR 4800	Public Relations Campaigns	3
PUR 4905	Individual Problems	1-3
PUR 4940	Public Relations Internship [1]	1-3
RTV Courses		
RTV 2100	Writing for Electronic Media	3
RTV 3001	Introduction to Media Industries and Professions	3
RTV 3101	Advanced Writing for Electronic Media	3
RTV 3106	Writing and Reporting for Interactive Media	3
RTV 3303	Audio News and Reporting	3
RTV 3320	Electronic Field Production	3
RTV 3516	Electronic Field Production II	4
RTV 4301	TV News Reporting	3
RTV 4929C	Senior Advanced Workshop in Telecommunication Production	1-3
RTV 3305	In-Depth Broadcast Reporting	3
RTV 3511	Fundamentals of Production	3
RTV 4420	New Media Systems	3
RTV 4432	Ethics and Problems in Telecommunication	3
RTV 4506	Telecommunication Research	3
RTV 4905	Individual Projects in Telecommunication	1-3
RTV 4910	Telecommunication Undergraduate Research	3
RTV 4940	Telecommunication Internship [1]	1-4
VIC Course		
VIC 3001	Sight, Sound and Motion (all majors)	4
Students earning grades below C must retake the course or its equivalent.		

[1] Graded S/U; S grade required.

[2] D grade allowed in MMC 4200.

Policy for Unsuccessful Completion of Required Courses

Students who complete a course and do not earn at least the minimum grade required for satisfying a degree requirement may repeat the course once. If they are not successful the second time they may not retake the course. Students may petition this restriction if there are extenuating circumstances.

Advertising

The advertising curriculum is provides a foundation for problem-solving, strategic thinking, and persuasion techniques that drive audience-centered marketplace communications. Skills attained can be applied to the advertising industry, to entrepreneurism, and to health marketing, among others. Learning outcomes prepare students for the challenges of culturally diverse and technologically changing marketplaces.

About this Program

- **College:** Journalism and Communications
- **Degree:** Bachelor of Science in Advertising
- **Specializations:** Advertising Agency (p. 452) | Persuasive Messaging (p. 456)
- **Credits for Degree:** 124
- **Additional Information**

To graduate with this major, students must complete all university, college, and major requirements.

UF's Department of Advertising consistently ranks as one of the top U.S. advertising programs. It is based in a college accredited by the Accrediting Council for Education in Journalism and Mass Communication. The department's curriculum, among the most comprehensive in the United States, is taught by a faculty with the knowledge and experience to bring a balance of professional skills and conceptual orientation to the classroom.

Students choose one of two specializations:

Advertising Agency

Emphasizes skills that are necessary for entry-level positions in an advertising agency and is designed to provide a foundation for advancement to positions of leadership in these organizations. This specialization introduces the concepts and skills needed to prepare for careers in account management, account planning, media planning, research, art direction, and copywriting. All students in the Advertising Campaigns course are required to complete a program-level assessment.

Persuasive Messaging

Focuses on the skill set required to engage media audiences through the use of strategic, persuasive communications. The specialization emphasizes the concepts and application of audience and media analytics, advertising sales, brand storytelling, and message persuasion. The specialization prepares students for careers in a broad array of industries and organizations.

Academic Learning Compact

The advertising curriculum is designed to provide a foundation for problem-solving, strategic thinking, and persuasion techniques that drive audience-centered marketplace communications. Skills attained can be applied to the advertising industry, to entrepreneurism, and to health marketing, among others. Learning outcomes prepare students for the challenges of culturally diverse and technologically changing marketplaces.

Students choose one of two specializations:

Advertising Agency

The Advertising Agency specialization emphasizes skills that are necessary for entry-level positions in an advertising agency and is designed to provide a foundation for advancement to positions of leadership in these organizations. This track introduces students to the concepts and skills needed to prepare for careers in account management, account planning, media planning, research, art direction and copywriting.

Persuasive Messaging

The Persuasive Messaging specialization focuses on the skill set required to engage media audiences through the use of strategic, persuasive communications. The track emphasizes the concepts and application of audience and media analytics, advertising sales, brand storytelling, and message persuasion. The track prepares students for careers in a broad array of industries and organizations.

Before Graduating Students Must

- Achieve a passing score of 70% on your student portfolio, which will be evaluated by two faculty members as part of ADV 4800, the major's capstone course.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Correctly identify information and trends related to the history and roles of professionals and institutions in shaping strategic communications.

Critical Thinking

2. Formulate accurate audience insights from research and consumer information.
3. Correctly analyze strategic communication from case studies in branding.

Communication

4. Work effectively in teams to solve strategic communication problems.
5. Orally present ideas and recommendations clearly and effectively.

[1] Minimum grade of C required.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=090903&track=01) may be used for transfer students.

Semester 1

- 2.0 GPA on all work at all institutions

Semester 2

- Complete 2 of 8 critical-tracking courses: ADV 3008, ENC 1102, ECO 2013, MAR 3023, MMC 1009, MMC 2604, POS 2041, or PSY 2012, and STA 2023
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

Semester 3

- Complete 2 additional critical-tracking courses
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

Semester 4

- Complete 2 additional critical-tracking courses
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

Semester 5

- Complete all critical-tracking courses

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

Electives (outside college)		4
	Credits	15
	Total Credits	124

1 Minimum grade of C required.

2 Pure math.

For semesters 7-8, students must complete two professional courses.

Professional Electives

18 credits minimum

MMC 1009 and 17 additional credits

Students may take any other courses in the College of Journalism and Communications to count as professional electives. Students are encouraged to work with faculty members to select electives that best meet career goals. Recommended certificate options (e.g., International Communication, Graphic Design), combined degree options (Global Strategic Communication, Web Design, Social Media), and various concentrations of strategic messaging courses (e.g., media management, audiences and media, audience engagement) are available in the PATH office and advertising department office.

Up to six credits of professional internship credit may count toward graduation.

Minimum grade of C required in these courses.

Academic Learning Compact

The advertising curriculum is designed to provide a foundation for problem-solving, strategic thinking, and persuasion techniques that drive audience-centered marketplace communications. Skills attained can be applied to the advertising industry, to entrepreneurism, and to health marketing, among others. Learning outcomes prepare students for the challenges of culturally diverse and technologically changing marketplaces.

Students choose one of two specializations:

Advertising Agency

The Advertising Agency specialization emphasizes skills that are necessary for entry-level positions in an advertising agency and is designed to provide a foundation for advancement to positions of leadership in these organizations. This track introduces students to the concepts and skills needed to prepare for careers in account management, account planning, media planning, research, art direction and copywriting.

Persuasive Messaging

The Persuasive Messaging specialization focuses on the skill set required to engage media audiences through the use of strategic, persuasive communications. The track emphasizes the concepts and application of audience and media analytics, advertising sales, brand storytelling, and message persuasion. The track prepares students for careers in a broad array of industries and organizations.

Before Graduating Students Must

- Achieve a passing score of 70% on your student portfolio, which will be evaluated by two faculty members as part of ADV 4800, the major's capstone course.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Correctly identify information and trends related to the history and roles of professionals and institutions in shaping strategic communications.

Critical Thinking

1. Formulate accurate audience insights from research and consumer information.
2. Correctly analyze strategic communication from case studies in branding.

Communication

1. Work effectively in teams to solve strategic communication problems.
2. Orally present ideas and recommendations clearly and effectively.

International Communication Certificate

The international communication certificate emphasizes the impact of internationalization and globalization on communication across disciplines and the program prepares students for career advancement and development.

About this Program

- **College:** Journalism and Communications (p. 447)
- **Credits:** 9 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

This certificate is open to all undergraduates.

Prerequisites

Code	Title	Credits
ADV 3008	Principles of Advertising	3
PUR 3000	Principles of Public Relations	3

Journalism

The Department of Journalism consistently ranks among the best journalism programs in the country. It is housed in a college professionally accredited by the Accrediting Council for Education in Journalism and Mass Communication. The department's mission is to teach the art and craft of journalism and to foster an appreciation for accuracy, fairness, truth, and diversity.

About this Program

- **College:** Journalism and Communications (p. 447)
- **Degree:** Bachelor of Science in Journalism
- **Specializations:** Journalism (p. 461) | Sports and Media (p. 466)
- **Credits for Degree:** 124
- **Contact:** Email (jouasst@jou.ufl.edu) | 352.392.0500 | 2070 Weimer Hall (http://campusmap.ufl.edu/?loc=0030)
- **Additional Information**
- **Related Journalism Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The courses enable students to develop their storytelling talent - in words or visuals - and prepare them for careers in all kinds of media professions, including as writers, photographers, editor designers, multimedia storytellers, and more. The flexible curriculum allows students to work in all kinds of traditional and new media platforms. Excellent writing skills are essential. Graduates of the program work with major journalism and media companies and have won prolific honors, including the Pulitzer Prize.

In this curriculum, core courses offer students foundational skills and professional electives and capstones allow students to develop strengths and specialization in one or more areas.

Equipment Requirement

All students who major in journalism are required to own a Mac laptop computer with the appropriate software, a digital audio recorder and a digital camera.

Related Journalism Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)

Academic Learning Compact

The journalism curriculum provides a foundation in reporting, writing, numeracy, the use of public records, First Amendment/media law, history of media, and storytelling in a variety of platforms. Specialized coursework is offered in a variety of subjects, and the curriculum is designed to allow flexibility for faculty to develop curriculum in evolving areas (such is the case for the robust development of courses in data journalism and coding, both areas that did not exist several years ago).

Skills developed are applicable to traditional platforms of journalism, as well as new, hybrid, or non-traditional forms of media. Learning outcomes prepare students for the challenges of culturally diverse and technologically changing marketplaces.

The department has two specializations:

Journalism
Students learn base skills required for journalism- and journalism-related careers. Students gain a foundation in reporting, writing, public records, and more, and they all develop a two-course specialization in their area of interest (such as photojournalism, coding, data journalism, specialized reporting, magazine writing, and more). Students come together after these two-course specializations to work in small teams in a common capstone that emphasizes advanced project work.

Sports and Media
While still having roots in traditional journalism, this curriculum has an emphasis on sports-related coursework across the college's departments. Students are prepared for a variety of careers in sports media. Students are required to do an internship in this curriculum, which can serve as a capstone experience.

Before Graduating Students Must

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Apply basic numerical and statistical concepts used by journalists.

Critical Thinking
2. Conduct research and evaluation information that is accessible through advanced database and public records.
3. Demonstrate reporting skills that reflect a diverse and pluralistic society.
4. Understand and apply the principles and laws of freedom of speech and press.

Communication
5. Write correctly and clearly in forms and styles appropriate for the journalism and communications professions and audiences.

[1] Minimum grades of C are required in all journalism courses.

Pre-Approved Two-Course Sequences

6 credits

Students select a two-course sequence in an area of specialization. Students may work with an advisor and the department chair to customize a plan. Students must have appropriate prereqs to enter the first course in the specialization. Students must take course 1 before JOU 4950 and can be simultaneously enrolled in course 2 with JOU 4950, but it is preferred that both courses are completed before taking JOU 4950.

Minimum grade of C required in these courses

First Course	Second Course
JOU 3213	JOU 4214
JOU 3305	JOU 4930
JOU 3363	JOU 4364
JOU 4111	JOU 4123
JOU 4201	JOU 4202
JOU 4308	JOU 4311 or JOU 4447C
JOU 4604	JOU 4605 or JOU 4930 (Video Storytelling)

JOU 4930 (Audience Engagement)	JOU 4930 (Advanced Social Media)
Specialized reporting/writing course 1	Specialized reporting/writing course 2

Selecting an area of emphasis does not preclude students from taking courses in other areas. Students are able to create personalized degree plans in collaboration with an advisor.

Professional Electives

14 credits

Students may take any other courses in the College of Journalism and Communications to count as electives, including other courses in two-course sequences. Students are encouraged to work with faculty members to construct electives that best meet career goals.

Up to six credits of professional internship credit may count toward graduation. Minimum grade of C required in these courses:

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=090401&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 6 critical tracking courses: MMC 1009, ENC 1102, MMC 2604, STA 2023, ECO 2013, JOU 3110
- 2.0 GPA on all work at all institutions

Semester 2

- Complete an additional 2 of 6 critical-tracking courses
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

Semester 3

- Complete 1 additional critical-tracking courses
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

Semester 4

- Complete all critical-tracking courses
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

PGY 3610	Survey of Photojournalism	2
RTV 3405	Media and Society	3
RTV 3411	Race, Gender, Class and the Media	3

Up to six credits of professional internship credit may count toward graduation.

Academic Learning Compact

The journalism curriculum provides a foundation in reporting, writing, numeracy, the use of public records, First Amendment/media law, history of media, and storytelling in a variety of platforms. Specialized coursework is offered in a variety of subjects, and the curriculum is designed to allow flexibility for faculty to develop curriculum in evolving areas (such is the case for the robust development of courses in data journalism and coding, both areas that did not exist several years ago).

Skills developed are applicable to traditional platforms of journalism, as well as new, hybrid, or non-traditional forms of media. Learning outcomes prepare students for the challenges of culturally diverse and technologically changing marketplaces.

The department has two specializations:

Journalism

Students learn base skills required for journalism- and journalism-related careers. Students gain a foundation in reporting, writing, public records, and more, and they all develop a two-course specialization in their area of interest (such as photojournalism, coding, data journalism, specialized reporting, magazine writing, and more). Students come together after these two-course specializations to work in small teams in a common capstone that emphasizes advanced project work.

Sports and Media

While still having roots in traditional journalism, this curriculum has an emphasis on sports-related coursework across the college's departments. Students are prepared for a variety of careers in sports media. Students are required to do an internship in this curriculum, which can serve as a capstone experience.

Before Graduating Students Must

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Apply basic numerical and statistical concepts used by journalists.

Critical Thinking

2. Conduct research and evaluation information that is accessible through advanced database and public records.
3. Demonstrate reporting skills that reflect a diverse and pluralistic society.
4. Understand and apply the principles and laws of freedom of speech and press.

Communication

5. Write correctly and clearly in forms and styles appropriate for the journalism and communications professions and audiences.

Public Relations

Public relations is designed to prepare students for entry-level jobs as technicians, such as producing social media strategies and tactics or effective multimedia news releases, as well as for career advancement as managers, such as formulating a communication plan for a new initiative or forecasting the reputational impact of an organizational decision or action. Excellent writing and critical thinking skills are essential.

About this Program

- **College:** Journalism and Communications (p. 447)
- **Degree:** Bachelor of Science in Public Relations
- **Credits for Degree:** 124
- **Additional Information**
- **Related Public Relations Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The public relations curriculum is one of the most in-depth curricula in the country, with a balance between skills and conceptual courses. The Department of Public Relations consistently ranks among the top public relations education programs in the United States, and it is among the largest programs in terms of the number of faculty and students, including one of the largest chapters of the Public Relations Student Society of America. The program is housed in a college accredited by the Accrediting Council for Education in Journalism and Mass Communication.

Graduates of the program are well-prepared for careers as public relations practitioners in businesses, public relations firms, government agencies and nonprofit organizations, nationally and internationally. Their education makes them attractive candidates for graduate degree programs (master's and Ph. D.) ranging from public relations to business and international relations.

Certificate in International Communication

Students may pursue a certificate in international communication, which is designed to prepare students for career advancement and development. Courses emphasize the impact of internationalization and globalization on communication across disciplines.

Up to six credits of professional internship credit may count toward graduation.

Academic Learning Compact

The major in public relations enables students to develop the knowledge and skills, including analytical and communication skills, necessary for the effective practice of public relations. Students will learn public relations principles, perspectives for understanding and communicating with targeted and diverse publics and a systematic process for problem solving that emphasizes programming based on formative and evaluative research. Special attention is paid to writing skills and students will acquire the ability to write correctly and clearly in forms and styles appropriate for public relations

practice. They will learn to use tools and relevant technologies, including new media, and students will also develop an understanding of ethical principles, including the importance of truth and accuracy, which guide public relations practice.

Before Graduating Students Must

- Achieve a passing score of 70% or higher on a major individual project (e.g., media kit) developed in PUR 4100 Public Relations Writing and evaluated by the class instructor.
- Achieve a passing score of 70% or higher on a comprehensive campaign plan for an organizational client, developed in the major's capstone course, PUR 4800 Public Relations Campaigns, and evaluated by the class instructor.
- Achieve a satisfactory rating on four of the five SLOs on a standardized evaluation completed by internship supervisors as part of PUR 4940 Public Relations Internship.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify and discuss concepts and theories relevant to effective public relations practice.
2. Describe the history and role of professionals and institutions in shaping public relations practice.
3. Display professional ethical principles and exemplify the values of truth, honesty, accuracy, fairness and diversity.
4. Appropriately apply tools and technologies relevant to public relations practice.

Critical Thinking

5. Gather information and conduct research for public relations planning and evaluation.
6. Appropriately apply basic numerical and statistical concepts for public relations planning and evaluation.
7. Creatively and independently analyze public relations problems.

Communication

8. Write correctly and clearly in forms and styles appropriate for public relations practice.
9. Select and use images and information for public relations practice.

PUR 4932	Special Study (Rotating topics; prerequisites vary)	1-3
RTV 3001	Introduction to Media Industries and Professions	3

Block 2 | Select 3 Credits

Code	Title	Credits
PUR 4905	Individual Problems	1-3
or PUR 4912	Public Relations Undergraduate Research	
PUR 4940	Public Relations Internship	1-3
PUR/MMC 6000-level graduate courses		3
RTV 3101	Advanced Writing for Electronic Media	3

Up to six credits of professional internship credit may count toward graduation.

Academic Learning Compact

The major in public relations enables students to develop the knowledge and skills, including analytical and communication skills, necessary for the effective practice of public relations. Students will learn public relations principles, perspectives for understanding and communicating with targeted and diverse publics and a systematic process for problem solving that emphasizes programming based on formative and evaluative research. Special attention is paid to writing skills and students will acquire the ability to write correctly and clearly in forms and styles appropriate for public relations practice. They will learn to use tools and relevant technologies, including new media, and students will also develop an understanding of ethical principles, including the importance of truth and accuracy, which guide public relations practice.

Before Graduating Students Must

- Achieve a passing score of 70% or higher on a major individual project (e.g., media kit) developed in PUR 4100 Public Relations Writing and evaluated by the class instructor.
- Achieve a passing score of 70% or higher on a comprehensive campaign plan for an organizational client, developed in the major's capstone course, PUR 4800 Public Relations Campaigns, and evaluated by the class instructor.
- Achieve a satisfactory rating on four of the five SLOs on a standardized evaluation completed by internship supervisors as part of PUR 4940 Public Relations Internship.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify and discuss concepts and theories relevant to effective public relations practice.
2. Describe the history and role of professionals and institutions in shaping public relations practice.
3. Display professional ethical principles and exemplify the values of truth, honesty, accuracy, fairness and diversity.
4. Appropriately apply tools and technologies relevant to public relations practice.

Critical Thinking

5. Gather information and conduct research for public relations planning and evaluation.
6. Appropriately apply basic numerical and statistical concepts for public relations planning and evaluation.
7. Creatively and independently analyze public relations problems.

Communication

8. Write correctly and clearly in forms and styles appropriate for public relations practice.
9. Select and use images and information for public relations practice.

Telecommunication

The Department of Telecommunication consistently ranks among the top five in the United States and is accredited by the Accrediting Council for Education in Journalism and Mass Communication.

About this Program

- **College:** Journalism and Communications (p. 447)
- **Degree:** Bachelor of Science in Telecommunication
- **Specializations:** Digital Film and Television Production (p. 498) | Management and Strategy (p. 484) | Media and Society (p. 488) | News (p. 493)
- **Credits for Degree:** 124
- **Contact**
- **Additional Information**
- **Related Telecommunication Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Specializations

Management and Strategy

Prepares students to enter the profession through positions in research, sales, and marketing and promotion.

News

Prepares students for careers as reporters and anchors, or as producers who are responsible for news programs behind-the-scenes. Entry into the broadcast news sequence is limited to students in the Department of Telecommunication who have placed in a competitive entrance exam. Contact the department office to determine when the exam is given.

Digital Film and Television Production

Prepares students for careers in program creation, writing and the creative applications of video and audio technology.

Media and Society

Focuses on the theories, methods and techniques used to play, produce and distribute audio and video programs and messages; personnel and facilities management; marketing and distribution; media regulations, law and policy; and principles of broadcast technology. It prepares individuals to work in media organizations and those organizations that use electronic media, such as political campaigns, government, education and business.

Students can also use the communication skills they acquire to pursue graduate degrees. Students majoring in telecommunication participate in the university's six broadcast stations, other on campus facilities such as the Gator Network and elective internships throughout the world.

Related Telecommunication Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Bachelor of Science in Telecommunication, Media and Society, UF Online (p. 502)

Academic Learning Compact

The major in telecommunication, which includes specializations in management, media and society, news, and digital film and television production, prepares students to understand the means of communicating with diverse audiences and to use the tools of information gathering and storytelling to communicate with those audiences through electronic media such as video, audio and interactive technologies. Through study and practical

application, students gain knowledge of the history, norms and legal and ethical milieu of the telecommunication professions. Students learn to locate and use reference tools and to demonstrate the ability to communicate independent, critical perspectives.

Before Graduating Students Must

- Achieve a passing score of 70% on your student portfolio, which will be evaluated by faculty members and/or professionals in each specialty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe or apply concepts and theories in the use and presentation of content.
2. Identify, describe or apply professional ethical principles and the importance of truth, accuracy, fairness and diversity.
3. Identify, describe or apply the tools and technologies appropriate for the telecommunication professions.

Critical Thinking

4. Gather information, conduct research and evaluate information by methods appropriate to the telecommunication professions.
5. Produce appropriate output that demonstrates creativity and critical thinking, independently or collaboratively.

Communication

6. Communicate effectively in forms and styles appropriate to the telecommunication professions, audiences and the purposes they serve.

Critical Tracking

Note that critical tracking is the same for all specializations of this major.

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=090701&track=01) may be used for transfer students.

Semester 1

- Complete critical-tracking course STA 2023 or ENC 1101
- 2.0 GPA on all work at all institutions

Semester 2

- Complete 2 of 5 critical-tracking courses: ENC 1101, ECO 2013, MMC 1009, RTV 2100 (MMC 2100 can be substituted for RTV 2100), RTV 3001
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

Semester 3

- Complete 2 additional critical-tracking courses
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

Semester 4

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

Semester 5

- Complete all critical-tracking courses

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
AMH 2020	United States Since 1877 (State Core Gen Ed Social and Behavioral Sciences (p. 23))	3

1 Minimum grade of C required

2 MMC 2100 or JOU 3109C is accepted in lieu of RTV 2100

For semesters 7-8, students must complete two professional courses.

Up to six credits of professional internship credit may count toward graduation. Internships for credit require department approval, and a letter from the internship supervisor outlining duties and contact information. Internship application forms, information, and policies are available on the Department of Telecommunication website.

Academic Learning Compact

The major in telecommunication, which includes specializations in management, media and society, news, and digital film and television production, prepares students to understand the means of communicating with diverse audiences and to use the tools of information gathering and storytelling to communicate with those audiences through electronic media such as video, audio and interactive technologies. Through study and practical application, students gain knowledge of the history, norms and legal and ethical milieu of the telecommunication professions. Students learn to locate and use reference tools and to demonstrate the ability to communicate independent, critical perspectives.

Before Graduating Students Must

- Achieve a passing score of 70% on your student portfolio, which will be evaluated by faculty members and/or professionals in each specialty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe or apply concepts and theories in the use and presentation of content.
2. Identify, describe or apply professional ethical principles and the importance of truth, accuracy, fairness and diversity.
3. Identify, describe or apply the tools and technologies appropriate for the telecommunication professions.

Critical Thinking

4. Gather information, conduct research and evaluate information by methods appropriate to the telecommunication professions.
5. Produce appropriate output that demonstrates creativity and critical thinking, independently or collaboratively.

Communication

6. Communicate effectively in forms and styles appropriate to the telecommunication professions, audiences and the purposes they serve.

RTV 4500	Telecommunication Programming	3

Academic Learning Compact

The major in telecommunication, which includes specializations in management, media and society, news, and digital film and television production, prepares students to understand the means of communicating with diverse audiences and to use the tools of information gathering and storytelling to communicate with those audiences through electronic media such as video, audio and interactive technologies. Through study and practical application, students gain knowledge of the history, norms and legal and ethical milieu of the telecommunication professions. Students learn to locate and use reference tools and to demonstrate the ability to communicate independent, critical perspectives.

Before Graduating Students Must

- Achieve a passing score of 70% on your student portfolio, which will be evaluated by faculty members and/or professionals in each specialty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe or apply concepts and theories in the use and presentation of content.
2. Identify, describe or apply professional ethical principles and the importance of truth, accuracy, fairness and diversity.
3. Identify, describe or apply the tools and technologies appropriate for the telecommunication professions.

Critical Thinking

4. Gather information, conduct research and evaluate information by methods appropriate to the telecommunication professions.
5. Produce appropriate output that demonstrates creativity and critical thinking, independently or collaboratively.

Communication

6. Communicate effectively in forms and styles appropriate to the telecommunication professions, audiences and the purposes they serve.

- Policy memo and exam in addition to:
  - **Management**: written and oral presentation of a strategic plan developed for a client
  - **Media and Society**: written final project
  - **News**: portfolio of two radio or television news stories produced in RTV 3304
  - **Digital Film and Television Production:** final video project

Telecommunication | News

The Department of Telecommunication consistently ranks among the top five in the United States and is accredited by the Accrediting Council for Education in Journalism and Mass Communication.

About this Program

- **College:** Journalism and Communications (p. 447)
- **Degree:** Bachelor of Science in Telecommunication
- **Specializations:** Digital Film and Television Production (p. 498) | Management and Strategy (p. 484) | Media and Society (p. 488) | News (p. 493)
- **Credits for Degree:** 124
- **Contact**
- **Additional Information**
- **Related Telecommunication Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Specializations

Management and Strategy

Prepares students to enter the profession through positions in research, sales, and marketing and promotion.

News

Prepares students for careers as reporters and anchors, or as producers who are responsible for news programs behind-the-scenes. Entry into the broadcast news sequence is limited to students in the Department of Telecommunication who have placed in a competitive entrance exam. Contact the department office to determine when the exam is given.

Digital Film and Television Production

Prepares students for careers in program creation, writing and the creative applications of video and audio technology.

Media and Society

Focuses on the theories, methods and techniques used to play, produce and distribute audio and video programs and messages; personnel and facilities management; marketing and distribution; media regulations, law and policy; and principles of broadcast technology. It prepares individuals to work in media organizations and those organizations that use electronic media, such as political campaigns, government, education and business.

Students can also use the communication skills they acquire to pursue graduate degrees. Students majoring in telecommunication participate in the university's six broadcast stations, other on campus facilities such as the Gator Network and elective internships throughout the world.

Critical Tracking

Note that critical tracking is the same for all specializations of this major.

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=090701&track=01) may be used for transfer students.

Semester 1

- Complete critical-tracking course STA 2023 or ENC 1101
- 2.0 GPA on all work at all institutions

Semester 2

- Complete 2 of 5 critical-tracking courses: ENC 1101, ECO 2013, MMC 1009, RTV 2100 (MMC 2100 can be substituted for RTV 2100), RTV 3001
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

Semester 3

- Complete 2 additional critical-tracking courses
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

Semester 4

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

Semester 5

- Complete all critical-tracking courses

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
AMH 2020	United States Since 1877 (State Core Gen Ed Social and Behavioral Sciences (p. 23))	3

Telecommunication | Media and Society focuses on the theories, methods and techniques used to play, produce and distribute audio and video programs and messages; personnel and facilities management; marketing and distribution; media regulations, law and policy; and principles of broadcast technology. It prepares individuals to work in media organizations and those organizations that use electronic media, such as political campaigns, government, education and business.

Students can also use the communication skills they acquire to pursue graduate degrees. Students majoring in telecommunication participate in the university's six broadcast stations, other on campus facilities such as the Gator Network and elective internships throughout the world.

Coursework

Code	Title	Credits
Required Core Coursework		
ENC 3254	Professional Writing in the Discipline [1]	3
MMC 1009	Introduction to Media and Communications [1]	1
MMC 2121	Writing Fundamentals for Communicators [1]	3
MMC 3203	Ethics and Problems in Mass Communications [1]	3
or RTV 4432	Ethics and Problems in Telecommunication	
RTV 2100	Writing for Electronic Media [1]	3
RTV 3001	Introduction to Media Industries and Professions [1]	3
RTV 3405	Media and Society	3
RTV 4420	New Media Systems	3
RTV 4700	Telecommunication Law and Regulation	3
or MMC 4200	Law of Mass Communication	
VIC 3001	Sight, Sound and Motion [1]	4
Professional electives		8
Specialization Blocks		
Select 9 credits each from two specialization blocks		18
Digital Media Block		
MMC 3260	Communications on the Internet	
MMC 3630	Social Media and Society	
PUR 3622	Social Media Management	

RTV 4591	Applications of Mobile Technology
Multicultural and Global Communications Block	
ADV 3008	Principles of Advertising
or PUR 3000	Principles of Public Relations
ADV 4400	International and Cross Cultural Advertising
MMC 4302	World Communication Systems
PUR 4404C	International Public Relations
Applications of Communication Block	
MMC 3420	Consumer and Audience Analytics
MMC 3614	Media and Politics
MMC 3703	Sports Media and Society
RTV 4500	Telecommunication Programming
Total Credits	55

[1] Minimum grade of C required

[2] These courses cannot be used to meet other requirements

Students may substitute a 12-credit combined degree program for one block.

Related Telecommunication Programs

- Bachelor of Science in Telecommunication (p. 482)

Critical Tracking

Note that critical tracking is the same for all specializations of this major.

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=090701&track=01) may be used for transfer students.

Semester 1

- Complete critical-tracking course STA 2023 or ENC 1101
- 2.0 GPA on all work at all institutions

Semester 2

- Complete 2 of 5 critical-tracking courses: ENC 1101, ECO 2013, MMC 1009, RTV 2100 (MMC 2100 can be substituted for RTV 2100), RTV 3001
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

Semester 3

- Complete 2 additional critical-tracking courses
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

Semester 4

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

Semester 5

- Complete all critical-tracking courses

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
AMH 2020	United States Since 1877 (State Core Gen Ed Social and Behavioral Sciences (p. 23))	3
ENC 1101	Expository and Argumentative Writing (**Critical Tracking**; State Core Gen Ed Composition) [1]	3
IDS 1161	What is the Good Life (Gen Ed Humanities)	3

Academic Learning Compact

The major in telecommunication, which includes specializations in management, media and society, news, and digital film and television production, prepares students to understand the means of communicating with diverse audiences and to use the tools of information gathering and storytelling to communicate with those audiences through electronic media such as video, audio and interactive technologies. Through study and practical application, students gain knowledge of the history, norms and legal and ethical milieu of the telecommunication professions. Students learn to locate and use reference tools and to demonstrate the ability to communicate independent, critical perspectives.

Before Graduating Students Must

- Achieve a passing score of 70% on your student portfolio, which will be evaluated by faculty members and/or professionals in each specialty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe or apply concepts and theories in the use and presentation of content.
2. Identify, describe or apply professional ethical principles and the importance of truth, accuracy, fairness and diversity.
3. Identify, describe or apply the tools and technologies appropriate for the telecommunication professions.

Critical Thinking

4. Gather information, conduct research and evaluate information by methods appropriate to the telecommunication professions.
5. Produce appropriate output that demonstrates creativity and critical thinking, independently or collaboratively.

Communication

6. Communicate effectively in forms and styles appropriate to the telecommunication professions, audiences and the purposes they serve.

Assessment Types

- Policy memo and exam in addition to:
- **Management**: written and oral presentation of a strategic plan developed for a client
- **Media and Society**: written final project
- **News**: portfolio of two radio or television news stories produced in RTV 3304
- **Digital Film and Television Production:** final video project

---

Liberal Arts and Sciences, College of

The College of Liberal Arts and Sciences is the largest college on campus, with more than 10,000 undergraduate students pursuing a variety of disciplines through its 33 majors and 48 minors. Undergraduate students acquire an intellectual foundation based on a well-rounded and comprehensive education designed for an increasingly technological and rapidly changing society.

Academic Divisions

The College of Liberal Arts and Sciences has 21 departments and 28 centers and institutes.

Degrees

Bachelor of Arts and Bachelor of Science degrees in over 30 majors, as well as a number of interdisciplinary studies fields.

The college also offers combined-degree (bachelor's-master's) programs in biology, botany, computer science, economics, French and Francophone studies, geography, geology, history, international relations, Latin American studies, linguistics, mathematics, philosophy, physics, political science, Portuguese, religion, Russian, sociology, Spanish, statistics, women's studies, and zoology.

- Explore the majors and career options within CLAS (http://www.clas.ufl.edu/majors)

Academic Advising

Department advisors assist students with their majors' requirements and options within the major. The Academic Advising Center helps CLAS students understand college and university degree requirements and regulations and the critical-tracking requirements for their major.
More Info (http://www.advising.ufl.edu)

Pre-Health and Pre-Law

Students interested in attending professional school in medicine, dentistry, law, optometry, pharmacy, or veterinary medicine after completing the bachelor's degree should seek advising from the Pre-Health and Pre-Law Advising in the Academic Advising Center. The AAC offers workshops and individual advising to guide pre-health and pre-law students.
Pre-Health (http://www.advising.ufl.edu/pre-health) Pre-Law (http://www.advising.ufl.edu/pre-law)

Career Guidance

Students who need to explore majors and careers can find resources on the college's Explore our Majors (https://clas.ufl.edu/undergraduate) page and the Academic Advising Center (https://www.advising.ufl.edu/exploratory) website. Additionally, students are encouraged to utilize the Career Connections Center (https://career.ufl.edu) for career and major exploration as well as other career-related needs.

Students should consult their major department regarding internship credit. Additional information is available in 2014 Turlington, 352.392.6800. The college also offers an opportunity for students to receive internship credit outside of their major; more information can be found on the Academic Advising Center (https://www.advising.ufl.edu/liberal-arts-and-sciences-internship-ids4940) website. The Honors Program, 343 Infirmary, 1 Fletcher Drive, provides information on internship programs at the Washington Center in Washington, D.C. and other sites.
More Info (http://www.honors.ufl.edu/current/internships)

Scholarships

For additional information regarding scholarships offered by CLAS, visit 2014 Turlington Hall.
More Info (https://clas.ufl.edu/undergraduate/undergrad-scholarships)

The Honors Office also has scholarship information for students in the honors program.
More Info (http://www.honors.ufl.edu/current/internal-scholarships)

Student Organizations

CLASSC, the college's student council, serves as a resource for CLAS students and as an advocate for student issues within the college.
More Info (https://classc.clas.ufl.edu)

In addition, CLASSC provides funding for programs and travel to conferences for more than 25 student organizations specific to CLAS.
More Info (https://classc.clas.ufl.edu/organizations)

Phi Beta Kappa is another organization for CLAS student involvement.

Research Experience

In most departments, students can conduct research under the direction of a faculty member. Consult a department advisor for information about faculty research areas or the Finding a Research Project (https://cur.aa.ufl.edu/faculty/finding-a-project) page on Center for Undergraduate Research's website. In addition, students in CLAS are eligible to apply for the University Scholars Program. Teamed with faculty mentors, University Scholars identify a topic, initiate research during the summer, and continue investigation throughout the following academic year. Students chosen as University Scholars (http://www.scholars.ufl.edu) receive a $1,750 stipend.

Special Academic Recognition

Dean's Medal

The college believes that the best preparation for success draws deeply across the full range of the college's offerings. The Dean's Medal recognizes those CLAS graduates who have gone above and beyond in their pursuit of broad study in the liberal arts and sciences. Medal winners have not only undertaken a significant range of courses, but have acquired the range of skills and experiences valued by graduate and professional schools, organizations, employers, and communities.
More Info (https://clas.ufl.edu/advising/the-deans-medal-for-excellence-in-liberal-arts-and-sciences)

Honors

The college offers a variety of opportunities for independent and seminar honors work to undergraduates who demonstrate appropriate qualifications. Superior students should take initiative in planning undergraduate and graduate programs. They should consult the honors coordinator in their department about requirements for the baccalaureate degree cum laude, magna cum laude, or summa cum laude. Postbaccalaureate students are not eligible to receive honors recognition.

Study Abroad

Students in the college are encouraged to participate in study-abroad programs administered by the UF International Center, and scholarships are available. Study-abroad programs may satisfy certain requirements, such as general education, CLAS distribution, foreign language, summer term enrollment, and UF residency. Some study-abroad courses may also count toward a student's major.
More Info (https://internationalcenter.ufl.edu)

CLAS has many programs overseas for undergraduates for a semester, a summer, or an academic year, each providing a wide range of academic and cultural experiences.

UF International Center, 170 Hub, 352.392.5323.

Teacher Preparation: Professional Training Options

A PTO is an alternative certification program meant to prepare students for temporary teacher certification in Florida. Professional teacher certification is attainable with passing scores on relevant teacher certification exams, a clear criminal history background report, and one year of successful teaching in a Florida public school. Please review state certification information (http://www.fldoe.org/edcert/level3.asp).

There are three PTO programs at UF:

- UFTeach Mathematics Teaching minor
- UFTeach Science Teaching minor
- Florida Teaching minor

The UFTeach (http://education.ufl.edu/uf-teach) minor in mathematics teaching, available to students pursuing a major in mathematics, is meant to prepare students to be middle school and high school mathematics teachers in Florida. The UFTeach (http://education.ufl.edu/uf-teach) minor in science teaching, available to students pursuing a major in a science discipline, is meant to prepare students to be middle school general science teachers and high school biology, chemistry, earth/space science, or physics teachers. There is a critical shortage of qualified high school mathematics and science teachers in Florida. Students interested in this high-demand profession should see the advisor in their major or the UFTeach advisor for more information.

The Florida Teaching minor is available to non-mathematics and non-science majors (ideally pursuing a major that would build competence in the subject the student wants to teach). It can lead to certification in a variety of subject areas and grade levels. Students interested in pursuing this minor should visit the College of Education Office of Student Services in G416 Norman Hall.

Center for Written and Oral Communication

The William and Grace Dial Center for Written and Oral Communication offers courses focusing on the communication skills students need for their majors and future careers. Students interested in business, education, law, medicine, and other fields can develop oral communication skills essential to success in their professions. The center also offers a minor in communication studies, comprised of courses in public speaking, interpersonal communication, and a variety of upper-division courses that focus on different communication contexts.
More Info (http://cwoc.ufl.edu)

The University Writing Program

The University Writing Program prepares students and faculty to meet their academic and professional writing goals by delivering broad-based instruction in composition and discipline-specific writing courses, by providing a writing studio for individualized help, and by hosting faculty and student workshops.

The UWP houses coursework in First-Year Writing, Second-Year Analytical Thinking and Writing, and Third-Year Professional Writing in the Disciplines. Individual third-year courses focus on writing in specific disciplines (anthropology, communication science and disorders, engineering, law, neurobiological sciences, physical sciences, political science, sociology, etc.). These courses address the form, content, and style of professional and academic writing. Depending on the discipline, students may prepare proposals, scientific research reports, lab reports, professional correspondence, legal briefs and memoranda, analytical essays, applications to graduate programs, applications for employment, and presentations of research.
More Info (http://writing.ufl.edu)

Academic Policies

Degree Programs

Bachelor of Arts | 120 Credits

Conferred upon students who fulfill degree requirements with majors in African-American studies, astronomy, classical studies, criminology, economics, English, foreign languages and literatures, Hispanic and Latin American languages, literatures, and linguistics, history, international studies, Jewish studies, linguistics, philosophy, political science, Portuguese, religion, sociology, Spanish, sustainability studies, and women's studies.

Bachelor of Science | 120 Credits

Conferred upon students who fulfill degree requirements with majors in astrophysics, botany, chemistry, computer science, marine sciences, microbiology and cell science, and zoology.

A **Bachelor of Arts** or **Bachelor of Science** will be conferred upon those students who fulfill the requirements for the specific degree with majors in anthropology, biology, geography, geology, mathematics, physics, psychology, statistics, or interdisciplinary studies. Students should consult the undergraduate coordinator in their major department to discuss the appropriate curriculum for either degree.

Admission

First-Year Students

First-year students select a major and enter the college when they enroll at UF. Students selecting a CLAS major should start planning their major early in their UF careers by speaking with a general advisor in the Academic Advising Center (http://www.advising.ufl.edu) (AAC), 100 Farrior Hall, and a department advisor in their major's department (https://clas.ufl.edu/departments).

Three temporary enrollment categories are provided to facilitate exploration of academic options for students who are unsure about a choice of major:

- Exploring Humanities and Letters
- Exploring Social and Behavioral Science
- Exploring Sciences and/or Engineering

Students select the exploratory category that most closely fits their academic interests.

Advisors in the AAC can help students determine an appropriate program of study. Students may be enrolled in exploratory registration categories for the first three fall/spring terms only (not counting summer terms). Students must be admitted to a major before registering for their fourth term.

Transfer Students

Detailed information about transfer admission requirements is available for each CLAS major.
More Info (https://www.advising.ufl.edu/admissions/transfer-admissions)

Transfer students are expected to graduate from the major into which they were admitted. An appeal to change majors after transferring is unlikely to be approved.

Admission to the College of Liberal Arts and Sciences is competitive due to space limitations. Priority is given to transfer applicants completing their Associate of Arts (AA) degree at one of the public state colleges or universities within the state of Florida (under the state's articulation agreement).

Admitted students who do not enroll in the term for which they have been admitted must submit a new application by the deadline to be considered for a future term.

After being admitted, transfer students are required to attend orientation (Transfer Preview) and are responsible for meeting with their department advisor and an advisor in the AAC to ensure that their transfer credits are evaluated properly and that they understand the requirements to complete their UF degrees.

Change of Major

Changing Majors in Terms 1-5

Students who want to change to a CLAS major in terms 1-5 must meet with an advisor in the AAC. The tracking term of students who entered UF as Summer B/Fall freshmen, is based on the number of fall/spring semesters in which they enrolled for 10 or more credits. For students who entered UF as an Innovation Academy freshman, their tracking term is based on the number of spring/summer semesters in which they enrolled for 10 or more credits. Full-term withdrawals and study abroad are not included as a tracking term.

Students should meet the critical-tracking criteria for their real tracking term. Students who do not may be permitted to change majors, provided they:

- Can get on track in a reasonable number of terms
- Demonstrate potential for success in the new major (successful completion of major and major-related courses in two attempts, including withdrawals, with a C or better)
- Meet all other CLAS progression standards

Generally, students who transfer into CLAS as juniors will not be able to change majors.

Changing Majors in Term 6 or Later

The further along a student is, the harder it may be to change majors and progress and graduate in a timely fashion. Students wishing to change to a CLAS major in term 6 or later must meet with an advisor in the AAC.

Students must:

- Meet the critical-tracking criteria (pre-professional GPA and minimum cumulative UF GPA) for the major
- Meet all other CLAS progression standards for the desired major
- Demonstrate potential for success in the major (successful completion of major and major-related courses without excessive Ws, grades lower than C, or multiple repeats)
- Provide clear and purposeful reasons for which the change of major is appropriate, and
- Be able to graduate in a timely fashion

Students in term 6 or later must also submit a program plan identifying the courses they intend to complete for the new major as well as a statement explaining their educational goals. The department offering the desired major must support the student's admission to the major. **Students may pursue only the major to which they have been admitted** and they must follow the approved program plan.

Progression to Graduation

Every student is expected to make satisfactory progress toward graduation each semester. Students who fail to make satisfactory progress may be required to seek advisement, be denied further registration, or mandated to meet specific conditions in order to continue in the major and/or CLAS.

Critical Tracking for CLAS Majors

Students in terms 1-5 are required to meet the critical-tracking criteria for their majors in each of the first five terms. The critical-tracking criteria are listed for each CLAS major. **CLAS counts all attempts of critical-tracking courses when calculating the pre-professional GPA for a major.** For more

information about tracking, refer to Tracking Progress toward a Degree (p. 1425).

Additional Progression Standards

All CLAS students must meet these standards or they may be denied further registration:

- Maintain a minimum overall UF cumulative grade point average of 2.0
- College Probation: Students who have an overall UF cumulative grade point average under 2.0 are placed on college probation and are required to meet with an advisor to discuss their academic progress.
- Achieve a minimum 2.0 GPA on all coursework each semester.
- Successfully complete (with a minimum grade of C) at least one course in the major each term during the junior and senior years until major course requirements are completed. Students can pursue only the major to which they have been admitted.
- Earn a minimum grade of C within two attempts (including drops/withdrawals) in each course in the major. Certain majors may require grades higher than C in specific courses. Students must meet major requirements.
- Maintain a minimum cumulative GPA of 2.0 for courses required in the major.
- Withdraw from the university no more than twice while enrolled in this college.
- Graduate in a timely fashion (see Timely Graduation, below).
- Students who have completed all of the academic requirements for the degree but have not obtained the degree may be denied further registration in the college. Students who have completed fewer than eight full-time semesters may be approved to continue provided the student demonstrates an educational plan that will enhance the achievement of his/her academic goals, consistent with CLAS policies. Students in this situation should consult with an advisor in the AAC.

Each semester, the university emails students reminding them to check Registration Prep in ONE.UF. Upon receipt of this email, students should consult their record to determine if they have any registration holds and to review their degree audit on ONE.UF (https://one.uf.edu). The degree audit outlines the requirements for the degree and indicates whether or not a student has met each requirement. Students should use their degree audit to plan a program of satisfactory progress each term.

It is recommended that students begin work on the foreign language requirement during the first two years, unless the major department indicates otherwise.

Timely Graduation

CLAS majors are expected to graduate in a "timely fashion," defined as eight full-time fall/spring semesters for students admitted as summer b/fall freshmen, eight full-time spring/summer semesters for students admitted as Innovation Academy freshmen, and four fall/spring semesters for students admitted as junior transfers. Full-term withdrawals, full-term semesters of overseas study, or full-term semesters of internship away from UF are not included in this count, though students should be mindful of potential excess hours implications of extending their time at UF.

Students who cannot meet their degree requirements in a timely fashion are expected to enroll in summer terms to complete their degree requirements. Additional study is permitted with the approval of an advisor in the CLAS Academic Advising Center or the College Petitions Committee, and may be limited to fulfillment of unmet degree requirements.

Due to the sequencing of course requirements, some A.A. and upper division transfer students may be unable to complete their degree requirements in the four allotted terms. Students should see an advisor in the AAC to determine an appropriate academic plan to complete their degrees. A.A. and upper division transfer students with fewer than four post-high school fall/spring terms may be allowed a total of eight post-high school fall/spring terms, provided students demonstrate a plan to meet their academic goals.

CLAS understands that while many beginning UF freshmen students (including HS/A.A. students) come in with significant credit from accelerated mechanisms and could meet the minimum requirements for the degree in 2-3 years, simply meeting the minimum academic requirements for the degree does not necessarily signify that the student is well-prepared to achieve his or her educational goals. Because of this, CLAS will allow a student to enroll in up to eight full-time semesters provided the student demonstrates an educational plan that will enhance the achievement of those academic goals, consistent with CLAS policies. Students in this situation should consult with an advisor in the AAC.

Students should discuss their excess hours standing with their advisor as they are making their plan. In addition, students should discuss their financial aid/scholarship situation with Student Financial Affairs in 107 Criser Hall or Veterans Services in 222 Criser Hall.

Registration Policies

Normal Course Loads

CLAS students normally enroll in 12-18 credits per term (a minimum of 12 credits is considered full-time). A CLAS academic advisor in the AAC (Farrior Hall) must approve loads above 18 credits. Students who wish to enroll for fewer than 12 credits should discuss their plan and academic standing with a CLAS academic advisor in the AAC.

Adding Courses

Students may add courses any time during drop/add. Additional coursework may be added via ONE.UF after the drop/add period but prior to the published drop deadline with appropriate department and college approval.

Dropping Courses

Students may drop courses during drop/add without penalty. After the drop/add period, a course may be dropped via ONE.UF until the published Drop Deadline. The drop policy is explained in the Academic Regulations section.
More Info (p. 1430)

All such drops are subject to the following restrictions:

- Two unrestricted drops are permitted before attempting 60 credits at UF.
- Two unrestricted drops are permitted for CLAS students after attempting 60 credits at UF or after transferring to UF with 60 credits or an A.A. from a public institution in Florida.
- Students wishing to drop courses beyond the two unrestricted drops may petition the CLAS petitions committee. The petition must include a personal statement *explaining an extenuating circumstance that prevents completion of the course(s).* Documentation supporting the personal statement must also be included. Please examine the general petition form (https://www.advising.ufl.edu/

docs/general_petition.PDF) in the AAC for guidelines and for documentation.

- Students who wish to drop a course **after** the drop deadline may complete a college petition to do so until the last day of classes (fall and spring semesters only). Students must include substantial documentation of an extenuating circumstance (usually severe medical condition) that occurred after the drop deadline and that prevents completion of the course(s). Students should first discuss their options with the instructor of the class before submitting a petition.

Students should discuss with an academic advisor how a dropped course will affect their academic standing and should also discuss with a financial aid advisor how it will affect their financial aid and/or scholarships. Students may be required to pay back scholarship monies when they drop a course. Students receiving VA benefits should talk to the Veterans Services office.

Withdrawing

Students who want to drop **all** courses for any current term are able to do so via ONE.UF (https://one.uf.edu) prior to the withdrawal deadline. Dropping the entire load constitutes withdrawal from the university.

Courses dropped via full term withdrawal do not count toward a student's number of unrestricted drops. Students must discuss with an academic advisor how the withdrawal will affect their academic standing and discuss with a financial aid advisor how it will affect their financial aid. Students receiving VA benefits should talk to the Veterans Services office. Students wanting to withdraw from all courses after the withdrawal deadline may submit a college petition before the last day of classes and consistent with the guidelines listed in the Dropping Courses section above.

Petitions

Students who have an extenuating circumstance that prevents them from adhering to a college regulation may petition for a waiver. The CLAS petitions committee considers petitions weekly on a case-by-case basis. **All petitions must include a statement explaining the hardship and documentation supporting the claim.** Information is available at 100 Farrior Hall; instructions are on the college petition form.
More Info (http://www.advising.ufl.edu/resources/forms)

Registration in Graduate Courses

Advanced undergraduate students with excellent academic records can register for graduate courses (5000 level and above) with permission of the department advisor. Students will be charged graduate-level fees for enrolling in graduate courses. Refer to the information on combined bachelor's/master's programs.

Flexible Learning

Distance & Continuing Education (DCE) offers fully online undergraduate courses for college credit through UF Flexible Learning. CLAS students interested in taking a Flexible Learning course must first consult with their academic advisor. The student must have a cumulative 2.0 UF GPA. CLAS students may apply up to two (2) Flexible Learning courses toward a degree and must seek college dean's office approval to exceed this limit. CLAS Advisors and the DCE office will approve access to a Flexible Learning course if the student is below the two (2) course limit and meets at least one (1) of the following criteria:

- The student has a health concern
- There are circumstances preventing the student from physically being on campus and the course is not offered online
- The student requires off-calendar, flexible format solution required for scholarship, tracking, and/or graduation requirements

More Info (https://flexible.dce.ufl.edu)

Transient Study

UF Students Attending Other Schools

Students may submit a transient form (https://www.floridashines.org/succeed-in-college/take-a-course-at-another-school) via Floridashines.org to request permission to enroll at another institution and have the credits apply to their UF degrees.
More Info (https://www.advising.ufl.edu/academicinfo/transient-study)

To be eligible for transient work, students must:

- Have a minimum 2.0 UF GPA
- Be on-track for the current major
- Not break the residency requirement (Students MUST complete their last 30 credits continuously at UF)

Students who have already transferred 60 credits from a public/state college may not apply additional public/state college credits toward their degree.

If approved for transient enrollment elsewhere, students may still need to have courses approved for the fulfillment of any specific requirement. Courses intended to meet major or minor requirements are subject to the approval of the appropriate department. Courses whose numbers are not consistent with the common course numbering system need to be reviewed and approved by an AAC advisor to meet general education or basic distribution requirements.

Writing requirement credits are posted based on how the course is coded at the institution where the course is taken. Students should not assume they will receive the same writing credit from another institution that they would if they took the course(s) at UF. All writing requirement questions should be directed to the Office of the University Registrar.

Students must ensure that a final transcript is sent to UF after completion of the course(s). Grades for courses taken elsewhere will not be calculated into the UF GPA but may be considered as part of the preprofessional GPA used by critical-tracking. Grades in courses taken elsewhere do appear on the UF transcript.

Supplemental Academic Programs

In addition to the major, CLAS offers other ways for students to pursue their academic interests. Students may opt to pursue a minor, certificate, double major, dual degree, or combined bachelor's/master's program.

The college must approve supplemental programs of study. In considering applications for supplemental programs, CLAS will consider the following:

- Whether the student meets the minimum requirements for consideration for the program
- The student's goals and whether the student has demonstrated the potential for success in the program

- Whether completing the supplemental program will allow the student to graduate in a timely fashion
- Space availability in the desired program

Supplemental programs are optional and meeting the minimum requirements for consideration does not guarantee approval to pursue the program.

Funding for supplemental programs depends on the kinds of financial support the student receives. Students should discuss their excess hours standing with their academic advisor. Students should also discuss their plans for supplemental programs with Student Financial Affairs in 107 Criser Hall (for financial aid/scholarships) or the Veterans Services office in 222 Criser Hall (for VA benefits). Students also should be aware of their excess hours status and whether they may be liable for a surcharge. Students can discuss their excess hours status with an academic advisor.

Minors and Their Requirements

The minor provides a traditional, well-accepted way to recognize that a student has completed a significant body of work outside the major. A minor shall consist of no fewer than 15 semester credits of coursework, earned with minimum grades of C. At least three courses (none can be individual work) of no fewer than three credits each must be at the 3000 level or above. Of the total credits, no more than three may be individual work. Students should consult an advisor in the appropriate department for the requirements for each minor.

A minor may not inherently overlap with the student's major (e.g., a history major may not declare a history minor, even if the student takes additional history credits beyond what is required for the major). In addition, students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the student's major(s) or other minor(s).

View the AAC website regarding minors to review a list of majors/minors that will not be approved due to overlap. This list is not all-inclusive, for each minor application an AAC advisor will review whether your intended major/minor combination is acceptable.
More Info (https://www.advising.ufl.edu/academicinfo/minors)

To be eligible for a minor, students must:

- Have an established UF minimum GPA of 2.0 (some minors require a higher GPA, see catalog description of the minor)
- Be on-track for their major
- Have at least 45 credits earned
- Be able to complete the minor in a timely fashion and thus able to graduate on time
- Complete a minimum of six credits exclusive to the minor; i.e., credits that cannot count toward major(s) or other minor(s)

CLAS students should make a written application (http://www.registrar.ufl.edu/pdf/minorapp.pdf) for admission to the minor in 100 Farrior Hall after earning 45 credits and are encouraged to do so before the end of their junior year. Applicants must meet the minimum admission requirements for the minor. Students are limited to three minors.

Students may use 3000-level courses in the minor to fulfill the college elective requirement. Students should plan the minor so that the courses will count for the minor and as 3000-level electives outside their major.

Approval to pursue a minor does not guarantee that students will be granted the minor upon graduation. Students must complete all minor requirements and at least 6 credits exclusive to the minor without overlap with their major(s) or other minors.

A minor will be awarded when the academic unit offering the minor certifies that the applicant has completed the requirements. Such award(s) will be noted on the UF transcript. Students must be certified for the minor at the same time that they complete the bachelor's degree.

Certificates

UF offers 30 different certificates. Each certificate program must have at least nine credits that are exclusive to the certificate and may not count toward any other certificate or minor. All courses required must be completed with minimum grades of C or S in each course.

Double Major And dual Degree

Students who are interested in studying two disciplines may pursue a double major or a dual degree. The two disciplines may not extensively overlap. Each double major/dual degree application will be reviewed to ensure that the student will complete a minimum of 15 credits of coursework exclusive to each major that will not count toward the other major or any minors. The AAC website lists double major/dual degree combinations (https://www.advising.ufl.edu/academicinfo/duals-and-doubles) that will not be approved because of extensive overlap. This list is not all-inclusive, so students should consult an AAC advisor to verify that the intended major/degree combination is acceptable.
More Info (http://www.advising.ufl.edu/academicinfo/duals-and-doubles)

Approval to pursue a double major/dual degree does not guarantee the student will be granted both upon graduation. To be certified to receive the majors/degrees, all requirements must be met for each and at least 15 credits exclusive to each major (not applying to the other major or any minors) must have been completed.

To earn a double major or dual degree, a student must be certified for and graduate from all undergraduate programs of study at the same time.

Double Major

Completing two majors in the College of Liberal Arts and Sciences for which the degree is the same (both Bachelor of Arts or both Bachelor of Science). Upper-level courses used for one major can fulfill College of Liberal Arts and Sciences' elective requirement for the other major, and vice versa.

A student completing two majors that have the same degree, B.A. or B.S., will receive a single degree. The diploma and transcript will identify the degree and the two majors.

Dual Degree

Completing two majors for which the degree is different (a Bachelor of Arts and a Bachelor of Science; or one major in the College of Liberal Arts and Sciences and another in another college). Upper-level courses used for one major can fulfill College of Liberal Arts and Sciences' elective requirement for the other major.

A student completing two CLAS majors that have different degrees, or major and college requirements in two different colleges, will receive two degrees. The student will receive two diplomas, each with the appropriate major listed, and the transcript will identify each degree and major.

Students applying for a double major or dual degree must:

- Already be admitted to one of the majors and have between 45 and 96 credits (not including AICE, AP, CLEP, IB, dual enrollment, or overseas study credit).
- Have not previously been denied admission as a transfer student to the CLAS major for which the student is applying.
- Meet the minimum UF GPA (specified below) required to pursue a CLAS double major or dual degree (determined in part by whether the major is over-enrolled (http://www.advising.ufl.edu/academicinfo/duals-and-doubles)).
  - Have a 3.5 GPA when both majors are in LS and BOTH majors are overenrolled.
  - Have a 3.0 GPA for two majors/degrees and no more than one is an overenrolled LS major.
- Meet all critical-tracking term 5 requirements for all CLAS majors before submitting the application. If one of the majors is outside CLAS, applicants must get approval from the appropriate college for that major.
- Meet all other CLAS progression standards for both majors and demonstrate potential for success in both majors (successful completion of major and major-related courses without excessive Ws, grades less than C or multiple repeats);
- Be able to complete the degree in a timely fashion (typically eight fall/spring semesters for students who entered UF as Summer B/Fall freshmen, eight spring/summer semesters for students who entered UF as Innovation Academy freshmen, and four fall/spring semesters for students who entered UF as transfer students). Additional study is permitted only with approval of a CLAS AAC advisor or the college petitions committee.
- Have clearly articulated and purposeful reasons for which the double major or dual degree is appropriate.
- Have not previously been denied admission as a transfer student to any of the CLAS majors.

Students should obtain an application (http://www.registrar.ufl.edu/forms.html) for a double major or dual degree. Students must submit a program plan identifying the courses they intend to complete for both majors, as well as a statement explaining their educational goals. For some majors with potential significant overlap, students may need to complete a certain number of credits exclusive to both majors before the application may be approved. After being approved, students must follow the program plan outlined in their application or the approval for the supplemental program of study will be voided.

Students can pursue a double major or dual degree only if approved in advance by the college.

Triple Majors/Degrees

Students who are interested in studying three disciplines may choose to pursue triple majors/degrees. The three disciplines may not extensively overlap. Each triple major/degree application will be reviewed to ensure that the student will complete a minimum of 15 credits of coursework exclusive to each major that will not count toward the other majors or any minors. View the triple majors/degrees page for a list of major combinations that will not be approved due to extensive overlap.
More Info (http://www.advising.ufl.edu/academicinfo/duals-and-doubles/#tdeligibility)

Approval to pursue triple majors/degrees does not guarantee the student will be granted all majors/degrees upon graduation. To be certified to receive the majors/degrees, all requirements must be met for each and at least 15 credits exclusive to each major (not applying to the other majors or any minors) must have been completed.

To earn triple majors/degrees, a student must be certified for and graduate from all undergraduate programs of study at the same time.

Students applying for triple majors/degrees must:

- Have selected at least one CLAS major that is considered under-enrolled (http://www.advising.ufl.edu/academicinfo/duals-and-doubles/#tdeligibility) if all three majors are in CLAS.
- Already be admitted to one of the majors and have between 45 and 96 credits (not including AICE, AP, CLEP, IB, dual enrollment, or overseas study credit).
- Have a minimum 3.5 UF GPA required if two of the LS majors are overenrolled.
- Have a minimum 3.0 UF GPA if no more than one of the majors is an overenrolled LS major.
- Meet all critical-tracking term 5 requirements for all CLAS majors, before submitting the application. If one of the majors is outside CLAS, applicants must get approval from the appropriate college for that major.
- Meet all other CLAS progression standards for all majors and demonstrate potential for success in all majors (successful completion of major and major-related courses without excessive W's, grades less than C, or multiple repeats).
- Be able to complete the degree in a timely fashion (typically eight fall/spring semesters for students who entered UF as freshmen, eight spring/summer semesters for students who entered UF as Innovation Academy freshmen, and four fall/spring semesters for students who entered UF as transfer students). Additional study is permitted only with approval of a CLAS AAC advisor.
- Have clearly articulated and purposeful reasons for which the triple majors/degrees are appropriate.
- Have not previously been denied admission as a transfer student to any of the CLAS majors.

Students must submit a program plan identifying the courses they intend to complete for all majors, as well as a statement explaining their educational goals. For some majors with potential significant overlap, students may need to complete a certain number of credits exclusive to both majors before the application may be approved. After approval, students must follow the program plan outlined in their application or the approval for the supplemental program of study will be voided.

Students can pursue triple majors/degrees only if approved in advance by the college.

Combined Bachelor's/Master's Programs

Combined bachelor's/master's programs allow students to complete two degrees more quickly. Outstanding advanced undergraduate students can apply for admission to this program. CLAS offers combined-degree programs in biology, botany, computer science, economics, French and Francophone studies, geography, geology, history, international relations, Latin American studies, linguistics, mathematics, philosophy, physics, political science, Portuguese, religion, Russian, sociology, Spanish, statistics, women's studies, and zoology.
More Info (p. 1400)

Students on financial aid should check with that office. In general, students on financial aid should retain their undergraduate status as long as possible. The program requires admission to the Graduate School.

Degree Requirements

Student Responsibility

Students are responsible for ensuring that they understand and meet all major and college degree requirements. Any questions about these requirements should be raised with a department advisor (for major requirements) or college advisor (for college requirements).

Students must meet college progression standards each term. They are expected to keep the Office of the University Registrar informed of their accurate address and to read their GatorLink email. Students also are expected to review their holds and degree audit on ONE.UF (https://one.uf.edu) each term and to discuss any questions or discrepancies with an advisor.

Graduation under a Particular Catalog

Students are placed into the catalog year for the academic year in which they entered UF unless they request to follow the academic requirements in effect when they initially enrolled in a Florida public college or other Florida state institution. Such a request is possible only if they have maintained continuous enrollment, defined as enrolling for at least one course in one term in each academic year. Students wanting to change catalog years should review a degree audit with an advisor in the AAC.

Students must meet the requirements for all programs (majors, minors, college/university requirements) for the same catalog year.

Applying for a Degree

Early in the term in which they expect to graduate, students must submit a degree application on ONE.UF (https://one.uf.edu). The academic calendar (p. 1442) will provide the deadline for a current-term degree application.

Students should meet with an advisor in the AAC before registering for their final term to review the college graduation requirements that still need to be fulfilled. Students should also meet with an advisor in the major department to verify completion of requirements for the major.

Additionally, seniors who plan to graduate should convert all I, N, and H grades to letter grades no later than the fifth week of their final semester. Seniors are responsible for ensuring that all grade changes are submitted properly and are recorded in a timely fashion.

CLAS Degree Requirements

The college has seven requirements for award of a degree. Students must also meet all requirements for the major.

Credits

All CLAS students **must** satisfactorily complete a minimum of 120 acceptable credits for the degree. Up to 30 credits earned in a UF overseas study or exchange program may be applied to this requirement. Students may petition to have more credits accepted; however, approval is rarely given.

Grade Point Average

Students must achieve a minimum overall average of C (2.0) in all work attempted at the university.

Residence

The last 30 credits applied to the degree must be completed in residence at the University of Florida. In extenuating circumstances, the last three credits may be waived by petition. Participation in a UF-approved study abroad or exchange program is not considered a break in residence. However, students must see an advisor to be sure the degree audit accurately reflects this.

University / State of Florida Requirements

To earn a degree, all students must complete:

- A general education (p. 21) program,
- The writing requirement,
- The summer term enrollment requirement, and
- The Civic Literacy requirement.

Basic Distribution

To ensure that students gain a rich and varied general education, the college requires students to complete basic distribution requirements.

Basic Distribution is comprised of the General Education Program Requirements (p. 21) plus additional credits beyond those requirements (see table below for overall credits required in each Subject Area).

- The same course may NOT be used to satisfy requirements in two different Subject Areas (C, H, S, P, or B).
- Three of the credits must also be designated as international studies (N) and three of the credits must be designated as diversity studies (D).
- A minimum grade of C is required for all courses fulfilling the general education requirement, the writing requirement, and the basic distribution requirements. The S/U grade option (p. 1438) is not acceptable for these credits.

Summary of CLAS Basic Distribution (Includes Gen Ed Program Requirements)

Subject	Credits
Composition (C)	6 credits
Mathematical Sciences (M) (including 3 credits with a math prefix)	6 credits
Humanities (H)	9 credits[1], 3 of these credits must be IDS 1161, unless student is exempt[2]
Social and Behavioral Sciences (S)	9 credits[1]
Physical Science (P)	6 credits[1]
Biological Science (B)	6 credits[1]
Natural Science Laboratory[3]	1 credit

1. Must include three credits of international studies (N) and three credits of diversity studies (D).
2. Students in the Innovation Academy program and students who transfer to UF with an A.A. from a public college or university in Florida are exempt from the requirement to take IDS 1161.
3. Natural science laboratory: A one-credit science lab with a minimum grade of C is required. Students can elect a laboratory course that is approved for the general education physical or biological sciences requirement or any psychology laboratory. (Most laboratory courses cannot be taken without prerequisite or corequisite courses.)

Electives | 3000 level or Above | Not in Major

Electives are defined as courses taken outside the major or major department. The degree program must include 18 credits of electives at the 3000 level or above. Several 2000-level natural science or mathematical science courses (those beyond the entry course in a sequence) can contribute to the 18-credit requirement.

Eligible courses are:

Code	Title	Credits
CHM 2211	Organic Chemistry 2	3
CHM 2211L	Organic Chemistry Laboratory	2
PHY 2049	Physics with Calculus 2	3
PHY 2049L	Laboratory for Physics with Calculus 2	1
PHY 2054	Physics 2	4
PHY 2054L	Laboratory for Physics 2	1
MAC 2234	Survey of Calculus 2	3
MAC 2312	Analytic Geometry and Calculus 2	4
MAC 2313	Analytic Geometry and Calculus 3	4
MAC 2512	Calculus 2 for Advanced Placement Students	4
MAP 2302	Elementary Differential Equations	3

Elective course selection will depend on goals and interests. Some students may choose to use electives to pursue a minor or a double major/dual degree.

Foreign Language

CLAS students must demonstrate proficiency in a foreign language. Foreign language is an important component of a liberal education. Study of foreign languages provides access to the cultural and intellectual heritage of cultures other than one's own. Such study also provides a new perspective on the structure and complexity of the English language.

Proficiency in a foreign language is considered to be the level of skill a student has upon completion of a beginning language sequence at UF. Students do not need to earn a certain number of credits to complete this requirement. It can be met in ONE of the following ways:

- Satisfactory completion (minimum grade of C or S) of the terminal course in a beginning foreign language sequence (normally at the end of 10 credits at UF). Students may take foreign language requirement courses on an S/U basis (S = C or better).
- A score of three or above in an Advanced Placement foreign language exam.
- A score of four to seven on an International Baccalaureate foreign language exam.
- A score of A-E on an AICE foreign language exam (except for the Latin Literature A level exam).
- Certain scores on CLEP foreign language exams give credit for the terminal course in the beginning sequence of a foreign language. Those scores meet the CLAS foreign language requirement. Consult the CLEP course equivalency chart (p. 1408) for more course credit granted.
- A passing score on the Foreign Language Proficiency Exam (FLPE) (https://teachingcenter.ufl.edu/testing/flpe). Mandarin Chinese and Russian language proficiency testing will be handled by those UF language programs. Students should contact the Chinese or Russian programs for information on assessing proficiency.

Students who are proficient in languages not available through FLPE should speak with a general advisor in the Academic Advising Center (https://www.advising.ufl.edu).

Students in this college can study the following languages: Akan, American Sign Language, Amharic, Ancient Greek, Arabic, Catalan, Chinese, Czech, Dutch, French, German, Haitian Creole, Hebrew, Hungarian, Italian, Japanese, Latin, Lingala, Modern Greek, Polish, Portuguese, Russian, Sanskrit, Spanish, Swahili, Turkish, Vietnamese, Wolof, Yoruba, and Xhosa.

Placement in Foreign Language

Students who have studied a language in high school and wish to continue that language should refer to the placement page or consult the department for placement information.
More Info (p. 1414)

Graduating with Honors (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonorstext)

Programs

MAJORS

A major consists of a concentration of coursework in a specific department or program. The number of credits required for a major will vary from department to department, but in no case may the number of credits be fewer than 24 nor more than 40.

Students must earn minimum grades of C in all courses required for the major. Requirements for a major cannot be taken S-U (unless that is the only grading option). All transfer credit in the major must be approved by the department.

Explore all of the college's majors and related career paths (http://www.clas.ufl.edu/majors).

MINORS

The minor provides a traditional, well-accepted way to recognize that a student has completed a significant body of work outside the major. A minor shall consist of no fewer than 15 semester credits of coursework, earned with minimum grades of C. At least three courses (none can be individual work) of no fewer than three credits each must be at the 3000 level or above. Of the total credits, no more than three may be individual work. Students should consult an advisor in the appropriate department for the requirements for each minor.

A minor may not inherently overlap with the student's major (e.g., a history major may not declare a history minor, even if the student takes additional history credits beyond what is required for the major). In addition, students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the student's major(s) or other minor(s).

View the AAC website (https://www.advising.ufl.edu/academicinfo/minors) for information on eligibility, considering a minor and how to apply for a minor. The site also provides a list of majors/minor combinations that will not be approved due to overlap. This list is not all-inclusive; for each minor application an AAC advisor will review whether your intended major/minor combination is acceptable.

Actuarial Science Minor

The actuarial science minor prepares students for careers as actuaries.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 36 | Completed with minimum grades of C and no optional S-U
- **Additional Information**

The required courses cover the material for the beginning examinations and VEE credits leading to an associateship in the major national actuarial societies.

A minimum of 12 credits must be completed at UF. VEE credits require minimum grades of B in designated courses.

Required Courses

Code	Title	Credits

ECO 2013	Principles of Macroeconomics	4
ECO 2023	Principles of Microeconomics	4
FIN 3403	Business Finance	4
Total Credits		36

African Languages

Foreign Languages and Literatures

The specialization in African Languages enables students to develop the critical, analytical, and interpretive tools essential for successfully working and living in today's increasingly globalizing world. It focuses on a selected group of languages that function as languages of wider communication (lingua franca) in their sub-Saharan African regions. Through study of these languages students not only gain communicative proficiency in the language(s) of their choice, but also an understanding of the diverse literary and cultural traditions that make Africa such a unique and complex continent today.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Additional Information**

To graduate with this major, students must complete all university, college, and major requirements.

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

Foreign Languages and Literatures Options (p. 691)

The African languages specialization of the Foreign Languages and Literatures major offers students the opportunity to gain proficiency in any of the following languages:

- Akan/Twi (Ghana – West Africa)
- Amharic (Ethiopia - the Horn of Africa)
- Swahili (eastern and central Africa)
- Wolof (Senegal and the Gambia – West Africa)
- Yoruba (Nigeria and Benin – West Africa and the Diaspora)
- Zulu (South Africa)

The specialization in African languages offers a unique opportunity when it comes to seeking employment in multi-national corporations or research undertakings based on the African continent. It also prepares students for the rigors of graduate studies in the humanities and for fields such as comparative literature, religious/diaspora studies, African cinema, developmental practices, humanitarian services, language learning businesses, translations & interpretation for United Nations organizations and other international agencies, to mention just a few.

Our faculty brings together scholars with diverse research interests, ranging from African oral literature through post-colonial African women writers, from language documentation to languages of urban Africa as well as contemporary African film, pop-culture, and media. These nationally and internationally recognized researchers are also dedicated and innovative teachers who draw on their own scholarship to offer a variety of courses in literature, cinema, linguistics, and language.

Coursework for the Major

The African languages specialization in Foreign Languages and Literatures consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

[1] Although courses may appear in more than one group they may be counted toward only one group.

[2] Recommended for those planning to pursue careers requiring advanced level skills in African languages or graduate work in African studies.

Overseas Study

Students should speak with the Undergraduate Coordinator to discuss overseas study options in Africa.

Placement

In all languages, students with either a native background in the language or prior study in that language, might be eligible to place out of the preparatory language courses and should meet with the undergraduate coordinator to arrange for placement assessment.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160501&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete Beginning African Language 1 or higher-level African Language course with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete Beginning African Language 2 or higher-level African Language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete Intermediate African Language 1 or a higher-level African Language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). 3000 level or above critical concentration courses outside of African Languages may count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
Category A[1]	I, R	I	I	I, R, A
Category B[2]	I, R, A	I, R, A	I, R, A	

1 Courses focus on the acquisition of the language(s) of specialization at the advanced level.

2 Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types

- Proficiency exams
- Term papers or final projects
- Oral presentations

African Studies Minor

A minor in African studies provides a solid foundation for careers in teaching, research and other professional work for which knowledge of Africa is essential. The faculty is composed of more than 100 members campus-wide who teach courses with African content.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 15 | Completed with minimum grades of C
- **Contact:** 427 Grinter Hall (http://campusmap.ufl.edu/?loc=0002) | 352.392.2183
- **Additional Information**
- **Related African Studies Programs**

Choose to complete a general concentration or select a track:

- Track One: Languages and Linguistics
- Track Two: Arts and Literatures
- Track Three: Culture, History, and Politics
- Track Four: Environment, Resources, and Development

The Center for African Studies offers semester and academic-year programs at the University of Dar es Salaam (Tanzania) and Makerere University (Uganda), as well as various summer programs.

The list of approved Africa-related electives can be found on the Center for African Studies website.
More Info (https://africa.ufl.edu)

Requirements, General Concentration

- Students seeking to apply UF study abroad credit toward the minor must complete one three-credit minor course in residence at UF.
- Transfer students must complete at least two three-credit minor courses in residence at UF.

- No more than three credits of 4905 coursework (Individual Work) can be used toward the minor and none of the credits can apply to the 3000-level or above elective requirement.
- Students must complete a minimum of six credits exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

- Bachelor of Arts in Foreign Languages and Literatures, African Languages (p. 517)

African-American Studies

The primary emphasis of the African-American studies program is to educate students about the theories and methodologies pertaining to the study of African-Americans. Students will be able to compare and contrast the experiences of people of African descent in the U.S. to those in the wider African Diaspora. They will also learn through participation in community-service activities.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Related African-American Studies Programs**

To graduate with this major, students must complete all university, college, and major requirements.

This interdisciplinary major provides students with vital writing, research, and communication skills. The curriculum emphasizes anthropology, mass communications, education, English, history, linguistics, political science, psychology, religion, and sociology. The program also includes courses that emphasize US-Canadian, US-Caribbean, and US-African relations and assists students in finding internships for college credit and in applying for study abroad programs.

After obtaining a degree in African-American studies, students can seek careers as archivists, attorneys, civil rights professionals, community organizers, government employees, librarians, public policy professionals, professors, teachers, and researchers. Graduates will also be prepared to enter graduate programs in African-American studies and other liberal arts fields, professional degree programs, and teacher-training programs.

Coursework for the Major

The major requires 30 credits of coursework in African-American studies core and elective courses. All coursework must be completed with minimum grades of C. A minimum of 15 credits of coursework in the major must be completed at UF. Core and elective courses are often cross-listed with other departments, enabling students to examine the African-American experience from a variety of disciplines.

SYO 4102	American Families	3

Academic Learning Compact

The African-American Studies program's mission closely resembles that of the university, emphasizing exceptional teaching, outstanding scholarly research and service to the campus and the larger Gainesville community. The primary emphasis is to educate students about the theories and methodologies pertaining to the study of African-Americans. Students will be able to compare and contrast the experiences of people of African descent in the U.S. to those in the wider African Diaspora. They also will learn through participation in community-service activities. Program graduates will develop the academic, scholarly and experiential skills needed to succeed at the next level of study in the field, for they will be well-trained in critical thinking, analysis and effective communication.

Before Graduating Students Must

- Satisfactory evaluation of paper written for the African-American Studies approved topic, graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and explain the theories in African American Studies and the African Diaspora.

Critical Thinking

2. Examine social issues of concern to African Americans.

Communication

3. Effectively articulate ideas in speech and in writing.

African-American Studies Minor

This minor explores the applied roots of African-American studies with investigation of a range of perspectives in the African diaspora.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 15 | Completed with minimum grades of C and no optional S-U
- **Additional Information**
- **Related African-American Studies Programs**

Of the total credits, no more than three may be individual work or internship credit. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Code	Title	Credits
AFA 2000	Introduction to African-American Studies	3
AFA courses (3000/4000 level)		6
AFA 3110	Key Issues in African-American and Black-Atlantic Thought	3
AFA 4936	African-American Studies Senior Integrative Seminar	3
Total Credits		15

Related African-American Studies Programs

- Bachelor of Arts in African-American Studies (p. 526)

American Indian and Indigenous Studies Minor

The American Indian and indigenous studies minor focuses on North, Central, and South America with additional interdisciplinary focus in anthropology, art history, history, literature, and religion.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 18 | Completed with minimum grades of C and no optional S-U
- **Related American Indian and Indigenous Studies Programs**

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors. Three of the courses must be taken at the University of Florida.

The election of a minor is noted on a student's transcript, but it is not reflected on the diploma. Students should consult the catalog for important undergraduate information and description of AIIS courses.

Required Courses

Code	Title	Credits
ANT 3153	North American Archaeology	3

- Bachelor of Arts in Interdisciplinary Studies, American Indian and Indigenous Studies (p.)

Anthropology

Anthropology is the study of people in their cultural context and the examination of all aspects of patterned social behavior. The discipline is worldwide in scope and encompasses all aspects of human, biological, and social life from earliest times to the present. It is a broad, holistic field that seeks to understand human adaptation to natural and social environments.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degrees:** Bachelor of Arts (p. 534) | Bachelor of Science (p. 538)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Anthropology Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Anthropology includes four subfields: cultural anthropology, archaeology, biological anthropology, and linguistics. Undergraduates may concentrate their studies in one of these four subfields or pursue a focus in an interdisciplinary track with another major or minor. The anthropology major has two different programs: the Bachelor of Arts and the Bachelor of Science. Coursework for the major will depend upon the program, both of which are flexible. Both degrees are earned in anthropology rather than in any one subfield.

Students who are uncertain of a program should contact the Department of Anthropology's undergraduate coordinator for information and curriculum planning.

B.A. in Anthropology

Provides a broad-based liberal arts education and prepares students to work in an increasingly complex world. B.A. majors learn about different groups of people, their prehistory, and their biological and cultural diversity through disciplines that combine social science, natural science, and the humanities. Many undergraduate anthropology majors go on to graduate school in the social sciences, while others use anthropology to prepare themselves for professional careers in other disciplines. In a world of increasing globalization and need for effective international relations and understanding, anthropology is a highly relevant liberal arts and sciences major for students interested in pursuing careers in business, education, government, health, and law.

B.S. in Anthropology

Provides a degree option that blends their interest in basic science with the holistic lens of anthropology. B.S. majors engage in anthropology through coursework, lab and field-based research, and outreach. A grounding in scientific-based research, community initiatives, and multicultural skillsets enables our students to address pressing needs in both local and global contexts. For example, students often participate in independent and collaborative initiatives on and off campus and receive pre-graduate training in life sciences, health-related disciplines, natural history, and/or archaeological science fields. A B.S. in anthropology will encourage students to develop STEM-based skill sets and enhance scientific inquiry to address salient anthropological issues. This degree inevitably draws upon multidisciplinary fields including anatomy, biology, chemistry, ecology, engineering, genetics, geology, physics, mathematics, statistics, zoology, and botany.

Coursework for the Major

Both the B.A. and the B.S. require a minimum of 34 semester credits in anthropology and all coursework must be completed with minimum grades of C. A minimum of 18 credits of anthropology coursework must be completed at UF.

For the BS degree, all required anthropology, and required related coursework must be completed with a minimum GPA of 2.5.

Overseas Studies

Students concentrating in any subfield, particularly cultural anthropology and/or archaeology, are also encouraged to complete either an ethnographic study abroad program or an archaeological field school before their senior year.

Relevant Minors and/or Certificates

The department encourages students pursuing the B.A. to choose a minor or an interdisciplinary certificate option in African studies, Asian studies, environmental studies, Jewish studies, Latin American studies, linguistics or women's studies. Relevant courses in anthropology may be used to fulfill some requirements.

Related Anthropology Programs

- Bachelor of Arts in Anthropology, UF Online (p. 546)
- Anthropology minor (p. 544)
- Anthropology minor, UF Online (p. 545)

Academic Learning Compact

Students will develop critical thinking, problem solving and communication skills in the social sciences and in studies of natural history pertaining to human and non-human primates. Through study of human biological and cultural history and diversity, students will learn holistic, comparative and relative perspectives of anthropology, both scientific and humanistic. Emphasis is on critical thinking skills in the evaluation of alternative knowledge claims. Students will learn to identify western cultural biases, to integrate diverse sources of information into holistic perspectives and to apply anthropological knowledge and perspectives to solve problems of broad human relevance in contemporary contexts.

Before Graduating Students Must

- Achieve satisfactory evaluation of a term paper written for an upper-division course or senior honors thesis.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe, explain and apply factual, conceptual and procedural knowledge in the four subfields of anthropology (cultural anthropology, archaeology, biological anthropology, linguistics).

Critical Thinking

2. Apply scientific and humanistic approaches to investigate human variation in its biological, social, and cultural dimensions, and identify and evaluate disparate knowledge claims culturally and historically.

Communication

3. Articulate anthropological knowledge professionally in written and verbal form.

[1] There are no prerequisites for 2000-level courses. Students in the honors program may take honors sections of any offered anthropology class. Any student at the sophomore level and above with the appropriate prerequisites or permission of the instructor may enroll in cross-listed graduate-level courses. Students are encouraged to take courses that address theory and method in the discipline, in addition to survey courses and area studies.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450201&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 anthropology course
- 2.0 UF GPA required

Semester 3

- Complete 1 additional anthropology course or STA 2023
- 2.0 UF GPA required

Semester 4

- Complete 1 additional anthropology course
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Anthropology | BS

Anthropology is the study of people in their cultural context and the examination of all aspects of patterned social behavior. The discipline is worldwide in scope and encompasses all aspects of human, biological, and social life from earliest times to the present. It is a broad, holistic field that seeks to understand human adaptation to natural and social environments.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degrees:** Bachelor of Arts (p. 534) | Bachelor of Science (p. 538)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Anthropology Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Anthropology includes four subfields: cultural anthropology, archaeology, biological anthropology, and linguistics. Undergraduates may concentrate their studies in one of these four subfields or pursue a focus in an interdisciplinary track with another major or minor. The anthropology major has two different programs: the Bachelor of Arts and the Bachelor of Science. Coursework for the major will depend upon the program, both of which are flexible. Both degrees are earned in anthropology rather than in any one subfield.

Students who are uncertain of a program should contact the Department of Anthropology's undergraduate coordinator for information and curriculum planning.

B.A. in Anthropology

Provides a broad-based liberal arts education and prepares students to work in an increasingly complex world. B.A. majors learn about different groups of people, their prehistory, and their biological and cultural diversity through disciplines that combine social science, natural science, and the humanities. Many undergraduate anthropology majors go on to graduate school in the social sciences, while others use anthropology to prepare themselves for professional careers in other disciplines. In a world of increasing globalization and need for effective international relations and understanding, anthropology is a highly relevant liberal arts and sciences major for students interested in pursuing careers in business, education, government, health, and law.

B.S. in Anthropology

Provides a degree option that blends their interest in basic science with the holistic lens of anthropology. B.S. majors engage in anthropology through coursework, lab and field-based research, and outreach. A grounding in scientific-based research, community initiatives, and multicultural skillsets enables our students to address pressing needs in both local and global contexts. For example, students often participate in independent and collaborative initiatives on and off campus and receive pre-graduate training in life sciences, health-related disciplines, natural history, and/or archaeological science fields. A B.S. in anthropology will encourage students to develop STEM-based skill sets and enhance scientific inquiry to address salient anthropological issues. This degree inevitably draws upon multidisciplinary fields including anatomy, biology, chemistry, ecology, engineering, genetics, geology, physics, mathematics, statistics, zoology, and botany.

Coursework for the Major

Both the B.A. and the B.S. require a minimum of 34 semester credits in anthropology and all coursework must be completed with minimum grades of C. A minimum of 18 credits of anthropology coursework must be completed at UF.

For the BS degree, all required anthropology, and required related coursework must be completed with a minimum GPA of 2.5.

Overseas Studies

Students concentrating in any subfield, particularly cultural anthropology and/or archaeology, are also encouraged to complete either an ethnographic study abroad program or an archaeological field school before their senior year.

Relevant Minors and/or Certificates

The department encourages students pursuing the B.A. to choose a minor or an interdisciplinary certificate option in African studies, Asian studies, environmental studies, Jewish studies, Latin American studies, linguistics or women's studies. Relevant courses in anthropology may be used to fulfill some requirements.

Bachelor of Science

The B.S. in anthropology provides students with a degree option that blends their interest in basic science with the holistic lens of anthropology. B.S. majors engage in anthropology through coursework, lab and field-based research, and outreach. A grounding in scientific-based research, community initiatives, and multicultural skillsets enable our students to address pressing needs in both local and global contexts. For example, students often

participate in independent and collaborative initiatives on and off campus and receive pre-graduate training in life sciences, health-related disciplines, natural history, and/or archaeological science fields. A B.S. in anthropology will encourage students to develop STEM-based skill sets and enhance scientific inquiry to address salient anthropological issues. This degree inevitably draws upon multidisciplinary fields including anatomy, biology, chemistry, ecology, engineering, genetics, geology, physics, mathematics, statistics, zoology, and botany.

Required Coursework for the B.S.

Complete with a minimum 2.5 GPA.

[1] Students should consult with the Undergraduate Coordinator.

[2] Complete with a minimum 2.5 GPA.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450201&track=01) may be used for transfer students.

Semester 1

- 2.5 UF GPA required

Semester 2

- Complete 1 anthropology course and 1 related foundation course
- 2.5 UF GPA required

Semester 3

- Complete 1 additional anthropology course or STA 2023, and 1 additional related foundation course
- 2.5 UF GPA required

Semester 4

- Complete 1 additional anthropology course and 1 additional related foundation course
- 2.5 GPA required for all critical-tracking courses
- 2.5 UF GPA required

Semester 5

- 2.5 GPA required for all critical-tracking courses
- 2.5 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). PHY 2049, PHY 2049L, PHY 2054, PHY 2054L, STA 3024, and 3000 level or above related science core coursework outside of the Anthropology department may count towards the 3000 level or above electives outside of the major if taken.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

1 One of three required foundation coursework sequences (BSC 2010, BSC 2010L and BSC 2011, BSC 2011L; CHM 2045, CHM 2045L and CHM 2046, CHM 2046L; and MAC 2311 or STA 3024) can be substituted with either Physics 1 and 2 and Laboratories (PHY 2053, PHY 2053L and PHY 2054 and PHY 2054L) or Physics with Calculus 1 and 2 and Laboratories (PHY 2048, PHY 2048L and PHY 2049, PHY 2049L)

2 MAC 1147 or higher recommended for Chemistry sequence.

Academic Learning Compact

Students will develop critical thinking, problem solving and communication skills in the social sciences and in studies of natural history pertaining to human and non-human primates. Through study of human biological and cultural history and diversity, students will learn holistic, comparative and relative perspectives of anthropology, both scientific and humanistic. Emphasis is on critical thinking skills in the evaluation of alternative knowledge claims. Students will learn to identify western cultural biases, to integrate diverse sources of information into holistic perspectives and to apply anthropological knowledge and perspectives to solve problems of broad human relevance in contemporary contexts.

Before Graduating Students Must

- Achieve satisfactory evaluation of a term paper written for an upper-division course or senior honors thesis.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe, explain and apply factual, conceptual and procedural knowledge in the four subfields of anthropology (cultural anthropology, archaeology, biological anthropology, linguistics).

Critical Thinking

2. Apply scientific and humanistic approaches to investigate human variation in its biological, social, and cultural dimensions, and identify and evaluate disparate knowledge claims culturally and historically.

Communication

3. Articulate anthropological knowledge professionally in written and verbal form.

Anthropology Minor

The College of Liberal Arts and Sciences is the largest college on campus, with more than 10,000 undergraduate students pursuing a variety of disciplines through its 33 majors and 48 minors. Undergraduate students acquire an intellectual foundation based on a well-rounded and comprehensive education designed for an increasingly technological and rapidly changing society.

- Anthropology minor (p. 544)

Anthropology UF Online

Anthropology is the study of people in their cultural context and the examination of all aspects of patterned social behavior. The discipline is worldwide in scope and encompasses all aspects of human, biological, and social life from earliest times to the present. It is a broad, holistic field that seeks to understand human adaptation to natural and social environments.

About this Program

- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **Additional Information**
- **Related Anthropology Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Anthropology includes four subfields: cultural anthropology, archaeology, biological anthropology, and linguistics. Undergraduates may concentrate their studies in one of these four subfields or pursue a focus in an interdisciplinary track with another major or minor. A Bachelor of Arts is earned in anthropology rather than in any one subfield.

A BA in anthropology provides students with a broad-based liberal arts education and prepares students to work in an increasingly complex world. Anthropology BA students learn about different groups of people, their prehistory, and their biological and cultural diversity through disciplines that combine social science, natural science, and the humanities. Many undergraduate anthropology majors go on to graduate school in the social sciences, while others use anthropology to prepare themselves for professional careers in other disciplines. In a world of increasing globalization and need for effective international relations and understanding, anthropology is a highly relevant liberal arts and sciences major for students interested in pursuing careers in business, education, government, health, and law.

Coursework for the Major

The major requires a minimum of 34 semester credits in anthropology and 3 credits of statistics. All coursework must be completed with minimum grades of C. A minimum of 18 credits of anthropology coursework must be completed at UF.

Required Coursework

Arabic

Foreign Languages and Literatures

The Arabic language is the key to understanding the culture and history of North Africa, the Middle East, and the Arabian Peninsula. Arabic is also the liturgical language of more than a billion Muslims, and it is one of the six official languages of the United Nations. The Arabic specialization of the Foreign Languages and Literatures major enables students to develop an appreciation for the complexity of the many facets of the Arab world: its society, culture, history, arts, religions, and literary heritage.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Additional Information**
- **Related Arabic Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

The Arabic specialization of the Foreign Languages and Literatures major provides students with a solid background in the linguistic, literary, and cultural aspects of the Arab World, including North Africa, the Arab Middle East and the Arabian Peninsula. The major gives students a foundation in the Arabic language, including speaking, reading, writing, and listening, as well as the opportunity to advance their knowledge of Arab cultures. It prepares students for graduate school and is ideal for students considering careers in government and diplomacy, academia, business, and international development. Many students choose to double major in the Arabic specialization of the Foreign Languages and Literatures major and another subject in social sciences, humanities, business, or journalism.

Coursework for the Major

The Arabic specialization of the Foreign Languages and Literatures major consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

Code	Title	Credits
Required Foundation Coursework		
ARA 1130	Beginning Arabic 1	5

ARA 1131	Beginning Arabic 2	5
ARA 2220	Intermediate Arabic 1	4
ARA 2221	Intermediate Arabic 2	4
Required Core Coursework		
Advanced Language and Culture		
ARA 3410	Advanced Arabic 1	3
ARA 3411	Advanced Arabic 2	3
ARA 4400	Fourth Year Arabic 1	3
ARA 4420	Arabic through the Texts	3
Advanced Elective Coursework

Literary Studies		
Medieval and Early Modern Studies		
Total Credits		51

[1] Although courses may appear in more than one group they may be counted toward only one group.

[2] Recommended for those planning to pursue careers requiring advanced level skills in Arabic or graduate work in Arabic studies.

Overseas Study

Students of the Arabic specialization of the Foreign Languages and Literatures major are encouraged to study abroad for a summer or a semester. Students may choose the nine-week summer UF-sponsored program in the Arabic Language Institute in Fez (ALIF) in Morocco. The program offers students the opportunity to earn 11 credit hours (only 6 may be transferred as part of the Required Foundation Coursework). More information (https://www.abroad.ufic.ufl.edu/index.cfm?FuseAction=Programs.ViewProgram&Program_ID=06067371734F747005700D74710A1C00090D0514730107776E707275020500707174747076000472 00&Type

Students may also choose another UF-approved study-abroad program in Morocco or another Arab country (e.g., in Jordan, Qatar).

Placement

In all languages, students with either a native background in the language or prior study in that language, might be eligible to place out of the preparatory language courses and should meet with the undergraduate coordinator to arrange for placement assessment.

Research

Students with an upper-division GPA of 3.5 are encouraged to write a thesis for high or highest honors at graduation.

- Bachelor of Arts in Interdisciplinary Studies, Middle Eastern Languages and Cultures (p.)
- Arabic Language and Literature minor (p. 556)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160501&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- ARA 1130 or higher-level Arabic Language course with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete ARA 1131 or higher-level Arabic Language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete ARA 2220 or a higher-level Arabic Language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). 3000 level or above critical concentration courses outside of Arabic may count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
ARA 1130	Beginning Arabic 1 (**Critical Tracking**)	5
State Core Gen Ed Biological or Physical Sciences (p. 23)		3
State Core Gen Ed Composition (p. 23); Writing Requirement		3
State Core Gen Ed Social and Behavioral Sciences (p. 23)		3

Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.

- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
Category A[1]	I, R	I	I	I, R, A
Category B[2]	I, R, A	I, R, A	I, R, A	

1 Courses focus on the acquisition of the language(s) of specialization at the advanced level.

2 Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types

- Proficiency exams
- Term papers or final projects
- Oral presentations

Arabic Language and Literature Minor

The Arabic language is the key to understanding the culture and history of North Africa, the Middle East, and the Arabian Peninsula. Arabic is also the liturgical language of more than a billion Muslims, and it is one of the six official languages of the United Nations.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 15 | Completed with minimum grades of C and no optional S-U
- **Related Arabic or Middle Eastern Programs**

An intensive summer program in Fez, Morocco, is available for students at all levels.

No more than three credits of 4905 (Individual Work) coursework may be applied to the minor. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Code	Title	Credits
Select one:		6
ARA 3410	Advanced Arabic 1	
& ARA 3411	and Advanced Arabic 2	
ARA 4400	Fourth Year Arabic 1	
& ARA 4401	and Fourth Year Arabic 2	
ARA 4420	Arabic through the Texts [1]	3
ARA or ABT prefixed courses [2]		6
Total Credits		15

1 Prerequisite: 5 semesters of Arabic or the equivalent.

2 Excluding ARA language courses.

Related Arabic or Middle Eastern Programs

- Bachelor of Arts in Foreign Languages and Literatures, Arabic (p. 550)
- Bachelor of Arts in Interdisciplinary Studies, Middle Eastern Languages and Cultures (p.)

Asian Studies Minor

This minor provides multidisciplinary expertise and practical experience in Asia-related affairs through coursework and study abroad opportunities.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 15-22, depending on option | Completed with minimum grades of C
- **Related Asian Studies Programs**

The minor provides two options of study. Language credits earned at other institutions may be accepted.

Students pursuing the major in Foreign Languages and Literatures, Chinese specialization; or Foreign Languages and Literatures, Japanese specialization; or Foreign Languages and Literatures, Dual Language specialization in which one of the languages is Chinese, Japanese, or Vietnamese, are not eligible to receive the minor in Asian studies.

Of the total credits, no more than three may be individual study (CHI 4905/JPN 4905). Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Option 1

Code	Title	Credits
Non-language Asia-related courses (3000/4000 level)		15
Total Credits		15

Option 2

Code	Title	Credits
Select one:		10
CHI 1130 & CHI 1131	Beginning Chinese 1 and Beginning Chinese 2	
JPN 1130 & JPN 1131	Beginning Japanese 1 and Beginning Japanese 2	
VTN 1130 & VTN 1131	Beginning Vietnamese 1 and Beginning Vietnamese 2	
Non-language Asia-related courses (3000/4000 level)		12
Total Credits		22

Related Asian Studies Programs

- Bachelor of Arts in International Studies, Asia (p. 810)

Asian-American Studies Minor

The Asian-American studies minor examines the diverse experience of Asian-Americans and Pacific Islanders in the U.S., including their literatures, cultures, religions, histories, racial and gender identities, political participations, and their relationships to their homelands and other Asian diasporas.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 15 | Completed with minimum grades of C and no optional S-U

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

The required courses are offered every other year. Refer to the Schedule of Courses.

Code	Title	Credits
Select 9 credits:		9
AML 3673	Asian-American Studies (Introduction to Asian-American Literature) [1]	
AML 3673	Asian-American Studies (Asian-American and African-American Interactions) [1]	
ENG 4130	Race and Ethnicity in Film (Asian-American Cinema) [1]	
ENG 4133	Film Studies (Martial Arts Cinema) [1]

Astronomy and Astrophysics

Curious about what's out there? Students who are comfortable with mathematics and physics and who want to understand the nature of the Solar System and other planetary systems, stars, galaxies and/or the universe are encouraged to pursue a B.A. in astronomy or a B.S. in astrophysics.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degrees:** Bachelor of Arts in Astronomy (p. 560) | Bachelor of Science in Astrophysics (p. 565)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Astronomy Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The knowledge acquired and the analytical skills developed provide excellent broad-based training for careers in industry, education and government as well as preparation for graduate study in astronomy and astrophysics, science education, engineering, law, and medicine.

The Department of Astronomy offers two undergraduate degree options. The Bachelor of Science (B.S.) in astrophysics is designed for students who intend to pursue careers in a scientific or technical field by continuing to study astronomy, astrophysics or physics at the graduate level or to commence study in some related field such as planetary science.

The Bachelor of Arts (B.A.) in astronomy is broader and less specialized than the B.S., with the aim of developing and sharpening analytical and quantitative reasoning while at the same time cultivating broader knowledge that can be applied to a variety of careers, including business, law, the health professions, science writing, and teaching.

Coursework for the Major

All students are required to take 10 core courses in mathematics, physics and astronomy. The B.A. in astronomy requires a total of 41 credits; the B.S. in astrophysics requires a minimum of 62 credits. Students pursuing the B.A. have fewer additional required astronomy and physics courses, which offers greater flexibility for taking courses in other disciplines.

All required courses must be completed with minimum grades of C.

Required Courses for Both Degrees

Code	Title	Credits
MAC 2311	Analytic Geometry and Calculus 1	4
MAC 2312	Analytic Geometry and Calculus 2	4
MAC 2313	Analytic Geometry and Calculus 3	4
PHY 2048	Physics with Calculus 1	4
& 2048L	and Laboratory for Physics with Calculus 1	
PHY 2049	Physics with Calculus 2	4
& 2049L	and Laboratory for Physics with Calculus 2	
AST 3018	Astronomy and Astrophysics 1	3
AST 3019	Astronomy and Astrophysics 2	3
AST 3722C	Techniques of Observational Astronomy 1	3
Total Credits		29

Recommended Coursework for Graduate Study

Students should talk with the undergraduate coordinator and plan to take:

Code	Title	Credits
PHY 4604	Introductory Quantum Mechanics 1	3
Select additional courses:		
COP 2271	Computer Programming for Engineers	
MAA 4402	Functions of a Complex Variable	
MAS 3114	Computational Linear Algebra	
PHY 3513	Thermal Physics 1	
PHY 4424	Optics 1	
PHY 4523	Statistical Physics	
STA 3032	Engineering Statistics	

Students of exceptional ability who have some background in physics are encouraged to take the enriched physics with calculus sequence PHY 2060/PHY 2061 instead of PHY 2048/PHY 2049; PHY 3063 may then be taken in place of PHY 3101; and PHZ 3113 may be substituted for PHY 3221.

Relevant Minors and/or Certificates

UFTeach Program

More Info (https://education.ufl.edu/uf-teach)

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see the undergraduate coordinator about the UFTeach program. UFTeach students can complete the UFTeach minor in science teaching along with their B.A. in astronomy and have the coursework and preparation for professional teacher certification in Florida when they graduate.

Research

Students pursuing the B.S. in astrophysics are encouraged to engage in research with astronomy faculty by signing up for at least three credits of AST 4911; 3 credits of AST 4911 may count toward the 4000 level requirement; an additional 3 credits of AST 4911 may be applied toward the 4000 level requirement with the approval of the undergraduate coordinator.

Related Astronomy Programs

- Astronomy minor (p. 569)

Academic Learning Compact

Astronomy and astrophysics provide knowledge of basic concepts, theories and observational findings concerning the structure and evolution of planetary systems, stars, stellar systems such as galaxies, and cosmology. Students will learn scientific methodology and its application in specific contexts, the use of observations in testing hypotheses and the limitations of astronomical observations as well as how to critically evaluate them.

The Bachelor of Arts in Astronomy enables students to become familiar with modern physics and to understand mathematics, including calculus. The Bachelor of Science in Astrophysics enables students to understand the basic concepts, theories and experimental findings in modern physics, electricity and magnetism, and mechanics as they apply to astronomy and astrophysics.

Before Graduating Students Must

- Demonstrate satisfactory (minimum grades of C) performance on a selection of coursework from each of the 4000-level astronomy courses as graded by a faculty committee independent of the instructor and not as part of the course grade.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. **Bachelor of Arts in Astronomy**
   Identify, describe and define the fundamentals of astronomy, including the basic concepts, theories and observational results for planetary systems, stars, stellar systems and cosmology.
   Bachelor of Science in Astrophysics
   Identify, describe and define the fundamentals of astrophysics, including mechanics, electromagnetism, modern physics and the basic concepts, theories and observational results for planetary systems, stars, stellar systems and cosmology.
2. Define and use the techniques of astronomical observation.

Critical Thinking

3. Critically evaluate results of astronomical research.

Communication

4. Effectively and clearly communicate ideas and results in speech and in writing in an accepted style of presentation.

Curriculum Map: B.A. and B.S.

Astronomy and Astrophysics | Astronomy

Curious about what's out there? Students who are comfortable with mathematics and physics and who want to understand the nature of the Solar System and other planetary systems, stars, galaxies and/or the universe are encouraged to pursue a B.A. in astronomy or a B.S. in astrophysics.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degrees:** Bachelor of Arts in Astronomy (p. 560) | Bachelor of Science in Astrophysics (p. 565)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Astronomy Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The knowledge acquired and the analytical skills developed provide excellent broad-based training for careers in industry, education and government as well as preparation for graduate study in astronomy and astrophysics, science education, engineering, law, and medicine.

The Department of Astronomy offers two undergraduate degree options. The Bachelor of Science (B.S.) in astrophysics is designed for students who intend to pursue careers in a scientific or technical field by continuing to study astronomy, astrophysics or physics at the graduate level or to commence study in some related field such as planetary science.

The Bachelor of Arts (B.A.) in astronomy is broader and less specialized than the B.S., with the aim of developing and sharpening analytical and quantitative reasoning while at the same time cultivating broader knowledge that can be applied to a variety of careers, including business, law, the health professions, science writing, and teaching.

Coursework for the Major

All students are required to take 10 core courses in mathematics, physics and astronomy. The B.A. in astronomy requires a total of 41 credits; the B.S. in astrophysics requires a minimum of 62 credits. Students pursuing the B.A. have fewer additional required astronomy and physics courses, which offers greater flexibility for taking courses in other disciplines.

All required courses must be completed with minimum grades of C.

Required Courses for Both Degrees

Code	Title	Credits
MAC 2311	Analytic Geometry and Calculus 1	4
MAC 2312	Analytic Geometry and Calculus 2	4
MAC 2313	Analytic Geometry and Calculus 3	4
PHY 2048	Physics with Calculus 1	4
& 2048L	and Laboratory for Physics with Calculus 1	
PHY 2049	Physics with Calculus 2	4
& 2049L	and Laboratory for Physics with Calculus 2	
AST 3018	Astronomy and Astrophysics 1	3
AST 3019	Astronomy and Astrophysics 2	3
AST 3722C	Techniques of Observational Astronomy 1	3
Total Credits		29

Recommended Coursework for Graduate Study

Students should talk with the undergraduate coordinator and plan to take:

Code	Title	Credits
PHY 4604	Introductory Quantum Mechanics 1	3
Select additional courses:		
COP 2271	Computer Programming for Engineers	
MAA 4402	Functions of a Complex Variable	
MAS 3114	Computational Linear Algebra	
PHY 3513	Thermal Physics 1	
PHY 4424	Optics 1	
PHY 4523	Statistical Physics	
STA 3032	Engineering Statistics	

Students of exceptional ability who have some background in physics are encouraged to take the enriched physics with calculus sequence PHY 2060/PHY 2061 instead of PHY 2048/PHY 2049; PHY 3063 may then be taken in place of PHY 3101; and PHZ 3113 may be substituted for PHY 3221.

Relevant Minors and/or Certificates

UFTeach Program

More Info (https://education.ufl.edu/uf-teach)

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see the undergraduate coordinator about the UFTeach program. UFTeach students can complete the UFTeach minor in science teaching along with their B.A. in astronomy and have the coursework and preparation for professional teacher certification in Florida when they graduate.

Research

Students pursuing the B.S. in astrophysics are encouraged to engage in research with astronomy faculty by signing up for at least three credits of AST 4911; 3 credits of AST 4911 may count toward the 4000 level requirement; an additional 3 credits of AST 4911 may be applied toward the 4000 level requirement with the approval of the undergraduate coordinator.

SWS 2007	The World of Water	
Total Credits		12

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 506)**.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400201&track=01) may be used for transfer students.

All students must meet these criteria to remain on track for the major.

Note that critical tracking is the same for both degrees.

Semester 1

- Complete MAC 1147 or MAC 2311
- 2.0 UF GPA required

Semester 2

- Complete MAC 2311
- 2.0 UF GPA required

Semester 3

- Complete MAC 2312, PHY 2048 and PHY 2048L with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete MAC 2313, PHY 2049 and PHY 2049L with 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

UF freshmen and sophomores should take AST 3018 by semester 4

Semester 5

- 2.5 critical-tracking GPA with completion of AST 3018
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Credits	16
Total Credits	120

Academic Learning Compact

Astronomy and astrophysics provide knowledge of basic concepts, theories and observational findings concerning the structure and evolution of planetary systems, stars, stellar systems such as galaxies, and cosmology. Students will learn scientific methodology and its application in specific contexts, the use of observations in testing hypotheses and the limitations of astronomical observations as well as how to critically evaluate them.

The Bachelor of Arts in Astronomy enables students to become familiar with modern physics and to understand mathematics, including calculus. The Bachelor of Science in Astrophysics enables students to understand the basic concepts, theories and experimental findings in modern physics, electricity and magnetism, and mechanics as they apply to astronomy and astrophysics.

Before Graduating Students Must

- Demonstrate satisfactory (minimum grades of C) performance on a selection of coursework from each of the 4000-level astronomy courses as graded by a faculty committee independent of the instructor and not as part of the course grade.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. **Bachelor of Arts in Astronomy**
   Identify, describe and define the fundamentals of astronomy, including the basic concepts, theories and observational results for planetary systems, stars, stellar systems and cosmology.
   Bachelor of Science in Astrophysics
   Identify, describe and define the fundamentals of astrophysics, including mechanics, electromagnetism, modern physics and the basic concepts, theories and observational results for planetary systems, stars, stellar systems and cosmology.
2. Define and use the techniques of astronomical observation.

Critical Thinking

3. Critically evaluate results of astronomical research.

Communication

4. Effectively and clearly communicate ideas and results in speech and in writing in an accepted style of presentation.

Astronomy Minor

The College of Liberal Arts and Sciences is the largest college on campus, with more than 10,000 undergraduate students pursuing a variety of disciplines through its 33 majors and 48 minors. Undergraduate students acquire an intellectual foundation based on a well-rounded and comprehensive education designed for an increasingly technological and rapidly changing society.

Biology UF Online

The online biology major prepares undergraduates for careers in the biological sciences, advanced study in graduate schools, productive citizenship, and leadership and lifelong learning. The program is comprehensive and flexible, emphasizing the diverse forms, processes, and systems of life. Students in the program complete required and elective courses that promote critical thinking through the investigation and understanding of principles and unifying themes that govern living systems. The biology major offers a broader approach to biology than is available through a major in botany, zoology, or other specialized biological sciences majors.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **Additional Information**
- **Related Biology Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The biology major develops fundamental knowledge of animals, plants, and microorganisms. The Bachelor of Arts in biology is a flexible degree that is best suited for students interested in a career in education, the allied health professions, and interdisciplinary fields such as environmental or biotechnology law, science journalism, and bioscience management. This degree is not recommended for students seeking admission into professional schools such as medicine, dentistry, or veterinary medicine. Please contact an academic advisor for more information.

B.A. Electives		
Additional biology distribution courses or approved biological science courses. At least nine credits of B.A. Electives must be taken at UF.		15
Capstone		
BSC 4936	Critical Analysis of Biological Research	2
Total Credits		55-64

1 This major requires a minimum of 30 credits in core courses. At least 18 of the 30 credits of the required core coursework must be taken at UF. Any additional credits remaining after completion of required coursework must be met by taking courses from the approved additional life sciences electives. Any additional credits remaining after completion of the required core coursework must be met by taking courses from the approved B.A. electives in the biological sciences.

2 At least two Biology Distribution Courses must be taken at UF. Only one 2000-level course may be applied to the Biology Distribution Course requirement. Students must complete at least one course from three of the five following group. Please note: classes vary from 3-5 credits in each category.

3 Course has specific prerequisites; students should consult the course description when planning their programs to ensure they may select this course.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260101&track=01) may be used for transfer students.

Semester 1

- Complete one of the following: BSC 2010 and BSC 2010L; or CHM 1025 or CHM 1030 or CHM 2045 and CHM 2045L; or MAC 1147 or equivalent or higher math course
- 2.0 UF GPA required

Semester 2

- Complete CHM 1030 or CHM 2045 and CHM 2045L and one of the following: BSC 2010 and BSC 2010L or MAC 1147 or equivalent or higher MAC course
- 2.0 UF GPA required

Semester 3

- Complete BSC 2010 and BSC 2010L and MAC 1147 or equivalent or higher MAC course
- 2.0 UF GPA required

Semester 4

- Complete CHM 1031 or CHM 2046 and CHM 2046L; BSC 2011 and BSC 2011L; and MAC 1147 or equivalent or higher MAC course with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete at least one biology distribution course
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Select one:		3-4
CHM 1030	Basic Chemistry Concepts and Applications 1 (**Critical Tracking**)

[1] Cannot be counted as both an elective and a Biology Distribution Course.

Academic Learning Compact

Biology is the study of the many diverse forms, processes and systems of life. These studies range across all levels of the biological hierarchy, from the simplest to the most complex life forms, across all environments on the earth and across recent and evolutionary time that interconnects ancestors to their descendants.

To understand this vast diversity, the field of biology correspondingly relies on integrative and comparative approaches for the resolution of the general processes, principles and unifying themes that govern living systems. Biology is therefore very interdisciplinary and biologists rely on knowledge from the physical sciences and mathematics, as well as from across the disciplines and subdisciplines of biology for advances and breakthroughs.

The biology major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences.

Before Graduating Students Must

- Achieve a passing score for all content subsections of the Major Field Test for Biology. Content subscore areas are molecular biology and genetics, organismal biology, evolution, ecology and population biology.
- Achieve a passing score on the analytical skills assessment indicator of the Major Field Test for Biology.
- Achieve a passing score on the bioethics module quiz in BSC 4936. The content of the module and quiz are reviewed and approved by a faculty committee.
- Achieve a passing score on the scientific literacy paper assignment given in BSC 4936. This paper is graded using a faculty-developed rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking

2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Biology | CLAS

The biology majors combine the faculty and resources of the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences to prepare undergraduates for careers in the biological sciences, advanced study in professional and graduate schools, productive citizenship and leadership, and lifelong learning. The program is comprehensive and flexible, emphasizing the diverse forms, processes, and systems of life. Students in the program complete required and elective courses that promote critical thinking through the investigation and understanding of principles and unifying themes that govern living systems. The biology major offers a broader approach to biology than is available through a major in botany, zoology, or other specialized biological sciences majors.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degrees:** Bachelor of Arts (p. 578) | B.S.: Integrative Biology (p. 585) | B.S.: Preprofessional Biology (p. 590)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Biology Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The biology degrees develop fundamental knowledge of animals, plants and microorganisms. The degrees and specializations are tailored to meet the needs of preprofessional students, those students preparing for graduate studies in biology or specialized areas, and those seeking careers in education, the allied health professions and interdisciplinary fields such as environmental or biotechnology law, science journalism, and bioscience management.

Bachelor of Science

The CLAS Bachelor of Science in biology offers two specializations.

Bachelor of Science | Integrative Biology

Designed for students preparing for graduate studies in biology or specialized areas such as ecology, evolution, genetics, molecular biology, physiology, and systematics.

Bachelor of Science | Preprofessional Biology

Designed for students preparing for admission to medical, dental, optometry, veterinary, or other professional schools.

Bachelor of Arts

The CLAS Bachelor of Arts in biology is a flexible degree that is best suited for students interested in a career in education, the allied health professions, and interdisciplinary fields such as environmental or biotechnology law, science journalism, and bioscience management.

Coursework for the Majors

The B.S. biology specializations require significant introductory coursework and credits in general biology, calculus and/or statistics, general chemistry, organic chemistry, and physics. The B.A. requires less preparation in mathematics, chemistry and physics. Students who are uncertain

about the program that best suits their goals should consult a biology advisor for information and curriculum planning. Students can also individualize their curricula with additional life science courses from other departments, colleges and units at UF.

Relevant Minors and/or Certificates

UFTeach Program

There is a severe shortage of qualified secondary school biology teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a biology advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their B.A. or B.S. in biology and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (http://education.ufl.edu/uf-teach)

Research

All biology majors are encouraged to participate in research. Research experience is valuable on many levels: it diversifies the college experience, teaches how scientists apply the knowledge gained in the classroom to real world questions, provides the opportunity to work with and get to know researchers who are the best in their field, enables participation in cutting edge scientific questions and techniques, enhances the student's resume/CV when applying to graduate or professional school and, finally, it is essential to help the student determine if science is an appropriate career choice.
More Info (http://major.biology.ufl.edu/do-research)

CLAS biology majors may participate in research for course credit, as a scholar (e.g., University Scholar), as a volunteer, or, in rare cases, as a paid research assistant.

Academic Learning Compact

Biology is the study of the many diverse forms, processes and systems of life. These studies range across all levels of the biological hierarchy, from the simplest to the most complex life forms, across all environments on the earth and across recent and evolutionary time that interconnects ancestors to their descendants.

To understand this vast diversity, the field of biology correspondingly relies on integrative and comparative approaches for the resolution of the general processes, principles and unifying themes that govern living systems. Biology is therefore very interdisciplinary and biologists rely on knowledge from the physical sciences and mathematics, as well as from across the disciplines and subdisciplines of biology for advances and breakthroughs.

The biology major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences.

Before Graduating Students Must

- Achieve a passing score for all content subsections of the Major Field Test for Biology. Content subscore areas are molecular biology and genetics, organismal biology, evolution, ecology and population biology.
- Achieve a passing score on the analytical skills assessment indicator of the Major Field Test for Biology.
- Achieve a passing score on the bioethics module quiz in BSC 4936. The content of the module and quiz are reviewed and approved by a faculty committee.
- Achieve a passing score on the scientific literacy paper assignment given in BSC 4936. This paper is graded using a faculty-developed rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking

2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Biology | Integrative Biology

The biology majors combine the faculty and resources of the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences to prepare undergraduates for careers in the biological sciences, advanced study in professional and graduate schools, productive citizenship and leadership, and lifelong learning. The program is comprehensive and flexible, emphasizing the diverse forms, processes, and systems of life. Students in the program complete required and elective courses that promote critical thinking through the investigation and understanding of principles and unifying themes that govern living systems. The biology major offers a broader approach to biology than is available through a major in botany, zoology, or other specialized biological sciences majors.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degrees:** Bachelor of Arts (p. 578) | B.S.: Integrative Biology (p. 585) | B.S.: Preprofessional Biology (p. 590)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Biology Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The biology degrees develop fundamental knowledge of animals, plants and microorganisms. The degrees and specializations are tailored to meet the needs of preprofessional students, those students preparing for graduate studies in biology or specialized areas, and those seeking careers in education, the allied health professions and interdisciplinary fields such as environmental or biotechnology law, science journalism, and bioscience management.

Bachelor of Science

The CLAS Bachelor of Science in biology offers two specializations.

Bachelor of Science | Integrative Biology

Designed for students preparing for graduate studies in biology or specialized areas such as ecology, evolution, genetics, molecular biology, physiology, and systematics.

Bachelor of Science | Preprofessional Biology

Designed for students preparing for admission to medical, dental, optometry, veterinary, or other professional schools.

Bachelor of Arts

The CLAS Bachelor of Arts in biology is a flexible degree that is best suited for students interested in a career in education, the allied health professions, and interdisciplinary fields such as environmental or biotechnology law, science journalism, and bioscience management.

Coursework for the Majors

The B.S. biology specializations require significant introductory coursework and credits in general biology, calculus and/or statistics, general chemistry, organic chemistry, and physics. The B.A. requires less preparation in mathematics, chemistry and physics. Students who are uncertain about the program that best suits their goals should consult a biology advisor for information and curriculum planning. Students can also individualize their curricula with additional life science courses from other departments, colleges and units at UF.

Relevant Minors and/or Certificates

UFTeach Program

There is a severe shortage of qualified secondary school biology teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a biology advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their B.A. or B.S. in biology and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (http://education.ufl.edu/uf-teach)

Research

All biology majors are encouraged to participate in research. Research experience is valuable on many levels: it diversifies the college experience, teaches how scientists apply the knowledge gained in the classroom to real world questions, provides the opportunity to work with and get to know researchers who are the best in their field, enables participation in cutting edge scientific questions and techniques, enhances the student's resume/CV when applying to graduate or professional school and, finally, it is essential to help the student determine if science is an appropriate career choice.
More Info (http://major.biology.ufl.edu/do-research)

CLAS biology majors may participate in research for course credit, as a scholar (e.g., University Scholar), as a volunteer, or, in rare cases, as a paid research assistant.

Related Biology Programs

[1] This degree requires a minimum of 27 credits in core courses.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260101&track=01) may be used for transfer students.

Semester 1

- Complete one of the following in BSC, CHM or MAC: BSC 2010/BSC 2010L; CHM 1025 or CHM 2045/CHM 2045L; MAC 1140, MAC 1114, MAC 1147 or MAC 2311
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L; and BSC 2010/BSC 2010L or MAC 2311
- 2.0 UF GPA required

Semester 3

- Complete BSC 2010/BSC 2010L and MAC 2311 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete CHM 2046/CHM 2046L and BSC 2011/BSC 2011L with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete CHM 2210 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

CHM 2211, CHM 2211L, PHY 2054, PHY 2054L, PHY 2049, and PHY 2049L count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One

Required Core Coursework [1]		
BCH 4024	Introduction to Biochemistry and Molecular Biology	4
BSC 4936	Critical Analysis of Biological Research	2
Select one:		3-4
PCB 3063	Genetics	
AGR 3303	Genetics	
PCB 4522	Molecular Genetics	
Select one of the following:		3-4
MCB 3020	Basic Biology of Microorganisms	
& 3020L	and Laboratory for Basic Biology of Microorganisms	
PCB 3134	Eukaryotic Cell Structure and Function	
Select one:		4-5
BSC 3096	Human Physiology	
PCB 3713C	Cellular and Systems Physiology	
PCB 4723C	Physiology and Molecular Biology of Animals	
B.S. Preprofessional Electives		
Additional approved life sciences courses (Minimum; a maximum of 6 credits of approved research may be applied to this requirement)		12
Total Credits		67-73

[1] This degree requires a minimum of 28 credits in core courses. Any additional credits remaining after completion of the required core coursework must be met by taking courses from the approved B.S. preprofessional electives in the biological sciences.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260101&track=01) may be used for transfer students.

Semester 1

- Complete one of the following in BSC, CHM or MAC: BSC 2010/BSC 2010L; CHM 1025 or CHM 2045/CHM 2045L; MAC 1140, MAC 1114, MAC 1147 or MAC 2311
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L; and BSC 2010/BSC 2010L or MAC 2311
- 2.0 UF GPA required

Semester 3

- Complete BSC 2010/BSC 2010L and MAC 2311 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete CHM 2046/CHM 2046L and BSC 2011/BSC 2011L with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete CHM 2210 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

Additional Life Science courses may not count as 3000 level or above electives outside of the major. CHM 2211, CHM 2211L, PHY 2054, PHY 2054L, PHY 2049, and PHY 2049L may count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
CHM 2045	General Chemistry 1	4
& 2045L	and General Chemistry 1 Laboratory (**Critical Tracking**; State Core Gen Ed Physical Sciences)	
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	4
BSC 1920	First Year Introduction: Biology at UF (recommended elective)	1
State Core Gen Ed Social and Behavioral Sciences (p. 23)		3
	Credits	15
Semester Two		
CHM 2046	General Chemistry 2	4
& 2046L	and General Chemistry 2 Laboratory (**Critical Tracking**)

ZOO 4926	Special Topics in Zoology	1-4

Academic Learning Compact

Biology is the study of the many diverse forms, processes and systems of life. These studies range across all levels of the biological hierarchy, from the simplest to the most complex life forms, across all environments on the earth and across recent and evolutionary time that interconnects ancestors to their descendants.

To understand this vast diversity, the field of biology correspondingly relies on integrative and comparative approaches for the resolution of the general processes, principles and unifying themes that govern living systems. Biology is therefore very interdisciplinary and biologists rely on knowledge from the physical sciences and mathematics, as well as from across the disciplines and subdisciplines of biology for advances and breakthroughs.

The biology major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences.

Before Graduating Students Must

- Achieve a passing score for all content subsections of the Major Field Test for Biology. Content subscore areas are molecular biology and genetics, organismal biology, evolution, ecology and population biology.
- Achieve a passing score on the analytical skills assessment indicator of the Major Field Test for Biology.
- Achieve a passing score on the bioethics module quiz in BSC 4936. The content of the module and quiz are reviewed and approved by a faculty committee.
- Achieve a passing score on the scientific literacy paper assignment given in BSC 4936. This paper is graded using a faculty-developed rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking

2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
AGR 3303 or PCB 3063 or PCB 4522	R	R		R
ANS 3319C or BOT 3503 or HOS 4304 or PCB 3713C or PCB 4723C	R	R		R
BSC 1920	I		I	I
BSC 2010	I	I	I	
BSC 2011	I	I	I	
BSC 4936	A	A	A	A
MCB 3020 and MCB 3020L, or PCB 3134 or PCB 4674	R	R		R

Assessment Types

- Major field test for biology
- Bioethics module
- Scientific literacy paper

Botany Minor

The Botany minor provides a solid foundation in the biology of plants, from the molecular to the organismal level, and their role in larger ecosystems.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 15 | Completed with minimum grades of C
- **Contact:** Email (biouc-l@lists.ufl.edu)
- **Related Botany Programs**

Students pursuing majors in biology, entomology, or wildlife ecology and conservation are not eligible to receive the minor in botany.

To be eligible for many upper-level botany courses, students must have completed:

Code	Title	Credits
BSC 2010	Integrated Principles of Biology 1	3-4
& 2010L	and Integrated Principles of Biology Laboratory 1	
or BOT 2010C	Introductory Botany	
BSC 2011	Integrated Principles of Biology 2	4
& 2011L	and Integrated Principles of Biology Laboratory 2	
or BOT 2011C	Plant Diversity	

Required Courses

Code	Title	Credits
Select 15 credits: [1, 2]		15
Any 3000/4000/5000-level BOT course		
PCB 3023	Essential Cell Biology	
PCB 3601C	Plant Ecology	
PCB 4043C	General Ecology	
Total Credits		15

1 Up to six credits may come from BOT 2010C, BOT 2011C, BOT 2710C, BOT 2800C

2 No more than three credits may be individual work (BOT 4905, BOT 4911).

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Related Botany Programs

- Bachelor of Science in Botany, CALS (p. 96)
- Bachelor of Science in Botany, CLAS (p. 598)

Botany | CLAS

The botany curriculum provides a broad background in the biology of plants, from the molecular to the organismic level. Students who major in botany will take courses in ecology, genetics, physiology, taxonomy, evolution, cells and tissues, molecular biology, and biodiversity of plants.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Science
- **Specializations:** General Botany (p. 605) | Botanical Research (p. 600)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Botany Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Small classes are taught by faculty who have a commitment to undergraduate education. Students participate in mentored research, assisting faculty with research projects on campus and abroad. The major prepares students for careers in industry and government agencies, for graduate and professional schools, and for teaching jobs in high schools.

General Botany

For students who may not intend to pursue a graduate degree but are interested in a career in plant biology. This specialization provides some flexibility in tailoring the courses needed in order to pursue specific interests. Students are encouraged to consult with an advisor and botany faculty member when deciding on which courses to take.

Botanical Research

For students who intend to pursue a graduate degree, and requires research with a faculty member. This specialization provides the coursework background typically required by botany graduate programs. Students are encouraged to consult with an advisor and biology faculty member when deciding on which courses to take.

Coursework for the Major

Required coursework is dependent upon the specialization. Coursework for each specialization can be found below under Critical Tracking and Model Semester Plan.

Relevant Minors and/or Certificates

Students majoring in botany can minor in most other disciplines, and this is a good way to organize students' electives around areas of interest. Note that botany majors cannot minor in biology, nor can biology majors minor in botany (the curricula for the botany and biology majors are too similar).

UFTeach Program

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a botany advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their B.S. in botany and have the coursework and preparation for professional teacher certification in Florida when they graduate.

Research

Botany majors are strongly encouraged to participate in research, and research is required for the Botanical Research specialization. Research experience is valuable on many levels: it diversifies the college experience; it teaches students how scientists apply the knowledge gained in the classroom to real world questions; it provides the opportunity to work with and get to know researchers who are the best in their field; it introduces students to cutting edge scientific questions and techniques; it can enhance a student's resume/CV when applying to graduate or professional school; and, finally, it is essential in helping students determine if science is a good career choice.

CLAS biology, botany, and zoology majors may participate in research for course credit, as a scholar (e.g., University Scholar, Science for Life Scholar, Beckman Scholar), as a volunteer, or, in rare cases, as a paid research assistant. Students who plan to enroll for course credit must contact potential research mentors, develop a project, and turn in the required application and proposal no later than the week of drop/add. If the window is missed, students should still contact potential research mentors to discuss upcoming opportunities.

Related Botany Programs

- Combined Degree (p. 1400)
- Bachelor of Science in Botany, CALS (p. 96)
- Botany minor (p. 597)

Academic Learning Compact

The botany major is offered by both the College of Liberal Arts and Sciences and the College of Agricultural and Life Sciences. This major provides a foundation in the life sciences with emphasis on plant systems. Students will learn the diversity of life, the structure of organisms and ecosystems and how they function (i.e., the acquisition, flow, organization and uses of information, energy and nutrients in living systems). Students will learn the scientific method and how it facilitates the discovery of new knowledge in botany and biology, including how to critically evaluate hypotheses and conclusions.

Before Graduating Students Must

- Achieve acceptable performance in all required botany courses.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

MCB 3020 & 3020L	Basic Biology of Microorganisms and Laboratory for Basic Biology of Microorganisms	
Total Credits		72-84

1 Students who choose BOT 2011C to fulfill the foundation requirements may not use BOT 2011C to fulfill the biodiversity breadth requirements for the major.

2 Must be taken concurrently with BOT 4911.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260301&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 5 critical-tracking courses, including lab: BSC 2010/BSC 2010L or BOT 2010C, BSC 2011/BSC 2011L or BOT 2011C, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2311
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, including labs
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, including labs, with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course, including labs, with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 5 critical-tracking courses, including labs, with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

CHM 2211, CHM 2211L, PHY 2054, PHY 2054L, PHY 2049, and PHY 2049L count towards 3000 level or above electives outside of the major. COP 3275 may also count towards the requirement if taken.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
CHM 2045	General Chemistry 1	4
& 2045L	and General Chemistry 1 Laboratory (**Critical Tracking**; Gen Ed Physical Sciences)	
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	4
State Core Gen Ed Composition (p. 23); Writing Requirement		3
BSC 1920	First Year Introduction: Biology at UF (recommended elective)	1
	Credits	15
Semester Two		
Select one:		3-4
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory 1 (**Critical Tracking**; Gen Ed Biological Sciences)	
BOT 2010C	Introductory Botany (**Critical Tracking**; Gen Ed Biological Sciences)	
CHM 2046	General Chemistry 2	4
& 2046L	and General Chemistry 2 Laboratory (**Critical Tracking**; Gen Ed Physical Sciences)

CHM 2211	Organic Chemistry 2	5
& 2211L	and Organic Chemistry Laboratory	
PHY 2053	Physics 1	5
& 2053L	and Laboratory for Physics 1 (Gen Ed Physical Sciences)	
Select one:		3
STA 2023	Introduction to Statistics 1 (Gen Ed Mathematics)	
COP 2800	Computer Programming Using JAVA (or equivalent)	
COP 3275	Computer Programming Using C (or equivalent; Gen Ed Mathematics)	
BSC 2891	Python Programming for Biology	

Elective or Gen Ed Mathematics [1]		3
	Credits	16
Semester Five		
Select one:		3-4
PCB 4043C	General Ecology	
PCB 3601C	Plant Ecology	
BOT 3151C	Local Flora of North Florida	
BSC 3307C	Climate Change Biology	
PCB 4674	Evolution	4
PHY 2054	Physics 2	5
& 2054L	and Laboratory for Physics 2	
Gen Ed Humanities		3
	Credits	15-16
Semester Six		
BOT 2710C	Practical Plant Taxonomy	3
Select one:		3-4
BOT 4935/5225C	Special Topics (Plant Anatomy)	
PCB 3023	Essential Cell Biology	
BCH 4024	Introduction to Biochemistry and Molecular Biology	
Electives		4
Foreign language		5
	Credits	15-16
Semester Seven		
AGR 3303	Genetics	3-4
or PCB 3063	or Genetics	
BOT 4911	Undergraduate Research in Botany	1-4
& BSC 3911	and Entering Research in Biology	
Select one:		3-4
PCB 4043C	General Ecology	
PCB 3601C	Plant Ecology	
BOT 3151C	Local Flora of North Florida	
BSC 3307C	Climate Change Biology	
Foreign language		5
	Credits	12-17
Semester Eight		
BOT 3503	Physiology and Molecular Biology of Plants	5
& 3503L	and Physiology and Molecular Biology of Plants Laboratory	
BSC 4936	Critical Analysis of Biological Research	2
Biodiversity breadth course		3-4
Elective		3
	Credits	13-14
	Total Credits	117-126

[1] Gen Ed Mathematics if COP 2800 or BSC 2891 taken for computational requirement.

Academic Learning Compact

The botany major is offered by both the College of Liberal Arts and Sciences and the College of Agricultural and Life Sciences. This major provides a foundation in the life sciences with emphasis on plant systems. Students will learn the diversity of life, the structure of organisms and ecosystems and how they function (i.e., the acquisition, flow, organization and uses of information, energy and nutrients in living systems). Students will learn the scientific method and how it facilitates the discovery of new knowledge in botany and biology, including how to critically evaluate hypotheses and conclusions.

Before Graduating Students Must

- Achieve acceptable performance in all required botany courses.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking

2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
BOT 2011C	R	R		I
BOT 2710	R	R		R
BOT 3503 and BOT 3503L	R/A	R/A		R/A

PCB 4043C	R/A	R/A	R/A	R/A

Assessment Types

- Major field test for biology
- Bioethics quiz
- Scientific paper

Botany | General Botany

The botany curriculum provides a broad background in the biology of plants, from the molecular to the organismic level. Students who major in botany will take courses in ecology, genetics, physiology, taxonomy, evolution, cells and tissues, molecular biology, and biodiversity of plants.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Science
- **Specializations:** General Botany (p. 605) | Botanical Research (p. 600)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Botany Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Small classes are taught by faculty who have a commitment to undergraduate education. Students participate in mentored research, assisting faculty with research projects on campus and abroad. The major prepares students for careers in industry and government agencies, for graduate and professional schools, and for teaching jobs in high schools.

General Botany

For students who may not intend to pursue a graduate degree but are interested in a career in plant biology. This specialization provides some flexibility in tailoring the courses needed in order to pursue specific interests. Students are encouraged to consult with an advisor and botany faculty member when deciding on which courses to take.

Botanical Research

For students who intend to pursue a graduate degree, and requires research with a faculty member. This specialization provides the coursework background typically required by botany graduate programs. Students are encouraged to consult with an advisor and biology faculty member when deciding on which courses to take.

Coursework for the Major

Required coursework is dependent upon the specialization. Coursework for each specialization can be found below under Critical Tracking and Model Semester Plan.

Relevant Minors and/or Certificates

Students majoring in botany can minor in most other disciplines, and this is a good way to organize students' electives around areas of interest. Note that botany majors cannot minor in biology, nor can biology majors minor in botany (the curricula for the botany and biology majors are too similar).

UFTeach Program

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a botany advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their B.S. in botany and have the coursework and preparation for professional teacher certification in Florida when they graduate.

Research

Botany majors are strongly encouraged to participate in research, and research is required for the Botanical Research specialization. Research experience is valuable on many levels: it diversifies the college experience; it teaches students how scientists apply the knowledge gained in the classroom to real world questions; it provides the opportunity to work with and get to know researchers who are the best in their field; it introduces students to cutting edge scientific questions and techniques; it can enhance a student's resume/CV when applying to graduate or professional school; and, finally, it is essential in helping students determine if science is a good career choice.

CLAS biology, botany, and zoology majors may participate in research for course credit, as a scholar (e.g., University Scholar, Science for Life Scholar, Beckman Scholar), as a volunteer, or, in rare cases, as a paid research assistant. Students who plan to enroll for course credit must contact potential research mentors, develop a project, and turn in the required application and proposal no later than the week of drop/add. If the window is missed, students should still contact potential research mentors to discuss upcoming opportunities.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260301&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 5 critical-tracking courses, including lab: BSC 2010/BSC 2010L or BOT 2010C, BSC 2011/BSC 2011L or BOT 2011C, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 1147 or MAC 2311 or STA 2023
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, including labs
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, including labs, with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course, including labs, with 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs, with 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

CHM 2211, CHM 2211L, PHY 2054, PHY 2054L, PHY 2049, and PHY 2049L may count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Chemistry Minor

This minor provides a solid foundation in general, organic, and analytical chemistry, while enhancing critical thinking and analytical skills.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 20-26 | Completed with minimum grades of C
- **Related Chemistry Programs**

At least nine chemistry credits applied toward the minor must be completed at UF. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward other majors or minors.

Students pursuing majors in biology-biotechnology, botany or chemical engineering are not eligible to receive this minor.

Required Courses

Code	Title	Credits
General Chemistry Sequence		
Select one option: [1]		5-8
Option A		
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry 1 Laboratory	
CHM 2046 & 2046L	General Chemistry 2 and General Chemistry 2 Laboratory	
Option B		
CHM 2045 & 2045L	General Chemistry 1 and General Chemistry 1 Laboratory	
CHM 2051	Honors General Chemistry 2	
CHM 2046L	General Chemistry 2 Laboratory	
Option C		
CHM 2095	Chemistry for Engineers 1	
CHM 2045L	General Chemistry 1 Laboratory	
CHM 2096	Chemistry for Engineers 2

Total Credits		20-26

1 CHM 2054L may be substituted for CHM 2045L/CHM 2046L or CHM 2047L.

2 If organic chemistry sequence is met with CHM 2210/CHM 2211/CHM 2211L.

3 Except CHM 4905, CHM 4910, or CHM 4940.

Related Chemistry Programs

- Bachelor of Science in Chemistry (p. 612)
- Bachelor of Arts in Interdisciplinary Studies, Biochemistry and Molecular Biology (p.)

Chemistry | Biochemistry

Chemistry is often called the *central science* because of the pivotal role it plays in the biological and physical sciences, as well as in engineering, agriculture, medicine, and allied health disciplines. Bachelor's degree chemists choose from diverse paths for their short-term and lifetime careers, including graduate study in a variety of programs, rewarding employment in industry or government laboratories, professional or law school, or much-needed teaching in high schools.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Science
- **Specializations:** Biochemistry (p. 615) | General (p. 622)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Chemistry Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Students can choose the standard chemistry program, which is comparable to that offered in any major university, or the biochemistry program, which is designed to give more flexibility to students wanting to pursue courses with biological focus. The department encourages students in either specialization to include undergraduate research with one of the department's internationally recognized faculty as a component of the undergraduate experience. Undergraduate research will frequently result in journal publications and/or presentations at scientific meetings.

Coursework for the Major

For either specialization (standard chemistry or biochemistry), all required courses must be completed within two attempts with minimum grades of C. Any foreign language acceptable to the college can be taken with this minimum program and language courses can be taken S-U. ENC 3254 is suggested to fulfill part of the university writing requirement.

Required Coursework

Required coursework will depend upon the program chosen. Coursework for each specialization can be found below under Critical Tracking and Model Semester Plan.

Recommended Coursework

A.C.S. Certified Program: To receive American Chemical Society certification, a student must complete the standard chemistry major. In addition, credit must be earned for CHM 3610L and CHM 3218 plus an additional two credits of advanced work in chemistry courses such as the following:

Code	Title	Credits
CHM 4034	Advanced Biochemistry and Chemical Biology	4
CHM 4272	The Organic Chemistry of Polymers	2
CHM 4300L	Laboratory in Biochemistry and Molecular Biology	2
CHM 4304	Chemical Aspects of Cellular Control	3
CHM 4910	Undergraduate Research	3

If CHM 4910 is used, a thesis must be written.

Course Details

Introduction to General Chemistry

CHM 1025, a two-credit course, is offered for students who need to strengthen their understanding of basic concepts of atomic structure and stoichiometry before beginning the general chemistry sequence:

Code	Title	Credits
CHM 2045	General Chemistry 1	4
& 2045L	and General Chemistry 1 Laboratory	
CHM 2046	General Chemistry 2	4
& 2046L	and General Chemistry 2 Laboratory	

A placement exam is offered via ONE.UF (https://one.uf.edu) and the score achieved determines whether CHM 1025 or CHM 2045 is the appropriate first course in chemistry.

General Chemistry

The following general chemistry offerings are available:

- CHM 1030/CHM 1031 is a terminal sequence for non-science students that presents chemistry from a medical and nursing perspective.
- CHM 1020 is a terminal general education course that explores chemistry in terms of society.
- CHM 2045/CHM 2045L and CHM 2046/CHM 2046L is the standard general chemistry sequence and is an acceptable preprofessional requirement for many science and engineering majors. Students are presumed to have good backgrounds in high school chemistry and mathematics (through MAC 1147) and are expected to pass the placement exam offered via ONE.UF (https://one.uf.edu) **before** registering for CHM 2045.
- CHM 2095/CHM 2045L and CHM 2096/CHM 2046L is an alternative general chemistry sequence especially designed for engineering majors.
- CHM 2047/CHM 2047L is a one-semester program for entering first-year students with strong backgrounds in chemistry, normally reflected by high AP or IB chemistry test scores. This program enables students to move more quickly into advanced work.
- CHM 2051 is offered as an alternative to CHM 2046 for students who have done particularly well in CHM 2045.
- CHM 2054L is a 2-credit, inquiry-based lab focusing on major concepts in chemistry and their application to quantitative life-sciences research. This course is equivalent to CHM 2045L and CHM 2046L or CHM 2047L.

Placement

For placement into the appropriate first course in chemistry, please refer to the Academic Advising section or consult a chemistry advisor. All students should complete their general chemistry studies at the same institution.
More Info (p. 1414)

Minors and/or Certificates

UFTeach Program

There is a severe shortage of qualified high school chemistry teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a chemistry advisor about the UFTeach program. UFTeach students complete the UFTeach minor in science teaching with their B.S. in chemistry and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (https://education.ufl.edu/uf-teach)

Related Chemistry Programs

- Bachelor of Arts in Interdisciplinary Studies, Biochemistry and Molecular Biology (p. 799)
- Chemistry minor (p. 611)

Academic Learning Compact

Chemistry is the study of matter: the structure and properties of matter, the transformations from one form of matter to another and the energy transformations associated with these transformations.

Before Graduating Students Must

- Achieve at least 50% on the Diagnostic of Undergraduate Chemistry Knowledge (DUCK) exam.
- Obtain minimum grades of C in laboratory courses:

Code	Title	Credits
CHM 2211	Organic Chemistry 2	3
CHM 3120L	Analytical Chemistry Laboratory	1
CHM 4130L	Instrumental Analysis Laboratory	2
CHM 4411L	Physical Chemistry Laboratory	2
or CHM 4413L	Biophysical Chemistry Laboratory	

- Complete requirements for the baccalaureate degree, as determined by the chemistry faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1.
   - **Standard Chemistry**
     Explain and apply facts, theories and concepts in
     i. physical
     ii. organic
     iii. inorganic
     iv. analytical chemistry
   - **Biochemistry**
     Explain and apply facts, theories and concepts in
     i. physical
     ii. organic
     iii. inorganic
     iv. analytical chemistry
     v. biochemistry
2.
   - **Standard Chemistry**
     Demonstrate and safely apply laboratory skills in
     i. synthetic
     ii. quantitative
     iii. instrumental methods as scientific approaches to gathering and verifying knowledge
   - **Biochemistry**
     Apply laboratory skills in
     i. synthetic
     ii. quantitative
     iii. instrumental
     iv. biochemical methods as scientific approaches to gathering and verifying knowledge

Critical Thinking

3. **Standard Chemistry and Biochemistry**
   Interpret, evaluate, explain and critically assess theories and experimental results in chemistry or biochemistry.

Communication

4. **Standard Chemistry and Biochemistry**
   Collect, analyze and articulate results clearly and effectively in both oral and written formats.

Chemistry | Biochemistry

Chemistry is often called the *central science* because of the pivotal role it plays in the biological and physical sciences, as well as in engineering, agriculture, medicine, and allied health disciplines. Bachelor's degree chemists choose from diverse paths for their short-term and lifetime careers, including graduate study in a variety of programs, rewarding employment in industry or government laboratories, professional or law school, or much-needed teaching in high schools.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Science
- **Specializations:** Biochemistry (p. 615) | General (p. 622)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Chemistry Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Students can choose the standard chemistry program, which is comparable to that offered in any major university, or the biochemistry program, which is designed to give more flexibility to students wanting to pursue courses with biological focus. The department encourages students in either specialization to include undergraduate research with one of the department's internationally recognized faculty as a component of the undergraduate experience. Undergraduate research will frequently result in journal publications and/or presentations at scientific meetings.

Coursework for the Major

For either specialization (standard chemistry or biochemistry), all required courses must be completed within two attempts with minimum grades of C. Any foreign language acceptable to the college can be taken with this minimum program and language courses can be taken S-U. ENC 3254 is suggested to fulfill part of the university writing requirement.

Required Coursework

Required coursework will depend upon the program chosen. Coursework for each specialization can be found below under Critical Tracking and Model Semester Plan.

Total Credits		62-69

[1] CHM 2054L can substitute for the CHM 2045L/CHM 2046L sequence or for CHM 2047L.

ISC 2400L *can substitute for the* CHM 2045L, BSC 2010L *and* PHY 2053L *requirements.* ISC 2401L *can substitute for the* CHM 2046L, BSC 2011L *and* PHY 2054L *requirements.*

Required Exit Exam

Students must also complete the exit exam (Diagnostic of Undergraduate Chemistry Knowledge) with a minimum score of 30 out of 60.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400501&track=01) may be used for transfer students.

Semester 1

- Complete one CHM course and one MAC course
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.50 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

Semester 3

- Complete CHM 2046/CHM 2046L and BSC 2010/BSC 2010L
- 2.65 critical-tracking GPA any additional CHM courses
- 2.0 UF GPA required

Semester 4

- Complete BSC 2011/BSC 2011L
- 2.75 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

Semester 5

- Complete MAC 2312 and CHM 2212, CHM 2210, or CHM 3217
- 2.75 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

MAC 2312, MCB 3020, PHY 2049, PHY 2049L, PHY 2054, PHY 2054L, and Biochemistry electives outside of the Chemistry department count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
CHM 2045	General Chemistry 1	4
& 2045L	and General Chemistry 1 Laboratory (**Critical Tracking**; State Core Gen Ed Physical Sciences)	

IDS 1161	What is the Good Life (Gen Ed Humanities)	3

Chemistry | General

Chemistry is often called the *central science* because of the pivotal role it plays in the biological and physical sciences, as well as in engineering, agriculture, medicine, and allied health disciplines. Bachelor's degree chemists choose from diverse paths for their short-term and lifetime careers, including graduate study in a variety of programs, rewarding employment in industry or government laboratories, professional or law school, or much-needed teaching in high schools.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Science
- **Specializations:** Biochemistry (p. 615) | General (p. 622)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Chemistry Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Students can choose the standard chemistry program, which is comparable to that offered in any major university, or the biochemistry program, which is designed to give more flexibility to students wanting to pursue courses with biological focus. The department encourages students in either specialization to include undergraduate research with one of the department's internationally recognized faculty as a component of the undergraduate experience. Undergraduate research will frequently result in journal publications and/or presentations at scientific meetings.

Coursework for the Major

For either specialization (standard chemistry or biochemistry), all required courses must be completed within two attempts with minimum grades of C. Any foreign language acceptable to the college can be taken with this minimum program and language courses can be taken S-U. ENC 3254 is suggested to fulfill part of the university writing requirement.

Required Coursework

Required coursework will depend upon the program chosen. Coursework for each specialization can be found below under Critical Tracking and Model Semester Plan.

Recommended Coursework

A.C.S. Certified Program: To receive American Chemical Society certification, a student must complete the standard chemistry track. In addition, credit must be earned for CHM 3218, either CHM 3610L or CHM 4300L, and an additional two credits of advanced work in chemistry courses such as the following:

Code	Title	Credits
CHM 4034	Advanced Biochemistry and Chemical Biology	4
CHM 4230	Organic Spectroscopy	2
CHM 4272	The Organic Chemistry of Polymers	2
CHM 4304	Chemical Aspects of Cellular Control	3
CHM 4910	Undergraduate Research	3

If CHM 4910 is used, a thesis must be written.

Course Details

Introduction to General Chemistry

CHM 1025, a two-credit course, is offered for students who need to strengthen their understanding of basic concepts of atomic structure and stoichiometry before beginning the general chemistry sequence:

Code	Title	Credits
CHM 2045	General Chemistry 1	4
& 2045L	and General Chemistry 1 Laboratory	
CHM 2046	General Chemistry 2	4
& 2046L	and General Chemistry 2 Laboratory	

A placement exam is offered via ONE.UF (https://one.uf.edu) and the score achieved determines whether CHM 1025 or CHM 2045 is the appropriate first course in chemistry.

General Chemistry

The following general chemistry offerings are available:

- CHM 1030/CHM 1031 is a terminal sequence for non-science students that presents chemistry from a medical and nursing perspective.
- CHM 1020 is a terminal general education course that explores chemistry in terms of society.
- CHM 2045/CHM 2045L and CHM 2046/CHM 2046L is the standard general chemistry sequence and is an acceptable preprofessional requirement for many science and engineering majors. Students are presumed to have good backgrounds in high school chemistry and mathematics (through MAC 1147) and are expected to pass the placement exam offered via ONE.UF (https://one.uf.edu) **before** registering for CHM 2045.
- CHM 2095/CHM 2045L and CHM 2096/CHM 2046L is an alternative general chemistry sequence especially designed for engineering majors.
- CHM 2047/CHM 2047L is a one-semester program for entering first-year students with strong backgrounds in chemistry, normally reflected by high AP or IB chemistry test scores. This program enables students to move more quickly into advanced work.
- CHM 2051 is offered as an alternative to CHM 2046 for students who have done particularly well in CHM 2045.
- CHM 2054L is a 2-credit, inquiry-based lab focusing on major concepts in chemistry and their application to quantitative life-sciences research. This course is equivalent to CHM 2045L and CHM 2046L or CHM 2047L.

Placement

For placement into the appropriate first course in chemistry, please refer to the Academic Advising section or consult a chemistry advisor. All students should complete their general chemistry studies at the same institution.
More Info (p. 1414)

Minors and/or Certificates

UFTeach Program

There is a severe shortage of qualified high school chemistry teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a chemistry advisor about the UFTeach program. UFTeach students complete the UFTeach minor in science teaching with their B.S. in chemistry and have the coursework and preparation for professional teacher certification in Florida when they graduate.

Standard Chemistry

The standard chemistry major requires 65-70 credits, including the following coursework. With approval, this may include equivalent transfer coursework.

Code	Title	Credits
Required Foundation Coursework		
Select one option:		5-8
Option A [1]		
CHM 2045	General Chemistry 1	
& 2045L	and General Chemistry 1 Laboratory	
CHM 2046	General Chemistry 2	
& 2046L	and General Chemistry 2 Laboratory	
Option B		

CHM 2045	General Chemistry 1	
& 2045L	and General Chemistry 1 Laboratory	
CHM 2051	Honors General Chemistry 2	
& CHM 2046L	and General Chemistry 2 Laboratory	
Option C		
CHM 2047	One-Semester General Chemistry	
& 2047L	and One-Semester General Chemistry Laboratory [1]	
MAC 2311	Analytic Geometry and Calculus 1	4
MAC 2312	Analytic Geometry and Calculus 2	4
MAC 2313	Analytic Geometry and Calculus 3	4
Select one option:		8-10
Option A		
PHY 2048	Physics with Calculus 1	
& 2048L	and Laboratory for Physics with Calculus 1	
PHY 2049	Physics with Calculus 2	
& 2049L	and Laboratory for Physics with Calculus 2	
Option B		
PHY 2053	Physics 1	
& 2053L	and Laboratory for Physics 1	
PHY 2054	Physics 2	
& 2054L	and Laboratory for Physics 2	
Required Core Coursework		
Select one option:		8
Option A		
CHM 2212	Organic Chemistry 1 for Majors	
CHM 2213	Organic Chemistry 2 for Majors	
CHM 2211L	Organic Chemistry Laboratory	
Option B		
CHM 2210	Organic Chemistry 1	
CHM 2211	Organic Chemistry 2	
CHM 2211L	Organic Chemistry Laboratory	
CHM 3120	Introduction to Analytical Chemistry	4
& 3120L	and Analytical Chemistry Laboratory	
CHM 4130	Instrumental Analysis	5
& 4130L	and Instrumental Analysis Laboratory	
CHM 3610	Inorganic Chemistry	3
CHM 4411	Physical Chemistry: Thermodynamics and Kinetics	8
& CHM 4412	and Physical Chemistry: Chemical Bonding and Spectroscopy	
CHM 4413L	Biophysical Chemistry Laboratory	2
MAP 2302	Elementary Differential Equations (encouraged)	
Total Credits		55-60

[1] CHM 2054L can substitute for the CHM 2045L/CHM 2046L sequence or for CHM 2047L.

ISC 2400L *can substitute for the* CHM 2045L, BSC 2010L *and* PHY 2053L *requirements.* ISC 2401L *can substitute for the* CHM 2046L, BSC 2011L *and* PHY 2054L *requirements.*

Required Exit Exam

Students must also complete the exit exam (Diagnostic of Undergraduate Chemistry Knowledge) with a minimum score of 30 out of 60.

The required courses in the standard chemistry major are generally offered every fall and spring. Because of budgetary and other restrictions, summer schedules cannot be predetermined and required courses generally are offered in Summer C (12 weeks).

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400501&track=01) may be used for transfer students.

Semester 1

- Complete one CHM course and one MAC course
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.50 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

Semester 3

- Complete CHM 2046/CHM 2046L and MAC 2312
- 2.65 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

Semester 4

- 2.75 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

Semester 5

- Complete MAC 2313; and CHM 2212 or CHM 2210
- 2.75 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

MAC 2312, MAC 2313, PHY 2049, PHY 2049L, PHY 2054, and PHY 2054L count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
CHM 2045	General Chemistry 1	4
& 2045L	and General Chemistry 1 Laboratory (**Critical Tracking**; State Core Gen Ed Physical Sciences)

Semester Four		
CHM 2213 & CHM 2211L	Organic Chemistry 2 for Majors and Organic Chemistry Laboratory	5
Select one:		3-4
PHY 2049	Physics with Calculus 2 (Gen Ed Physical Sciences)	
PHY 2054	Physics 2 (Gen Ed Physical Sciences)	
Select one:		1
PHY 2049L	Laboratory for Physics with Calculus 2 (Gen Ed Physical Sciences)	
PHY 2054L	Laboratory for Physics 2 (Gen Ed Physical Sciences)	
Foreign language		4-5
Elective		1
	Credits	14-16
Semester Five		
CHM 3120 & 3120L	Introduction to Analytical Chemistry and Analytical Chemistry Laboratory [1]	4
Gen Ed Biological Sciences		3
Gen Ed Humanities		3
Gen Ed Social and Behavioral Sciences		3
Foreign language		3-5
	Credits	16-18
Semester Six		
CHM 4130 & 4130L	Instrumental Analysis and Instrumental Analysis Laboratory	5
CHM 4411	Physical Chemistry: Thermodynamics and Kinetics	4
Gen Ed Composition; Writing Requirement		3
Elective (or foreign language if 4-3-3 option)		3
	Credits	15
Semester Seven		
CHM 3610	Inorganic Chemistry	3
CHM 4413L	Biophysical Chemistry Laboratory	2
CHM 4412	Physical Chemistry: Chemical Bonding and Spectroscopy	4
Gen Ed Social and Behavioral Sciences		3
Elective		3
	Credits	15
Semester Eight		
Electives (3000 level or above, not in department)		6
Electives		9
	Credits	15
	Total Credits	120

[1] Take CHM 3120/CHM 3120L after CHM 2046/CHM 2046L, but no later than the first semester of the third year.

Academic Learning Compact

Chemistry is the study of matter: the structure and properties of matter, the transformations from one form of matter to another and the energy transformations associated with these transformations.

Before Graduating Students Must

- Achieve at least 50% on the Diagnostic of Undergraduate Chemistry Knowledge (DUCK) exam.
- Obtain minimum grades of C in laboratory courses:

Code	Title	Credits
CHM 2211	Organic Chemistry 2	3
CHM 3120L	Analytical Chemistry Laboratory	1
CHM 4130L	Instrumental Analysis Laboratory	2

CHM 4411L	Physical Chemistry Laboratory	2
or CHM 4413L	Biophysical Chemistry Laboratory	

- Complete requirements for the baccalaureate degree, as determined by the chemistry faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1.
   - **Standard Chemistry**
     Explain and apply facts, theories and concepts in
     i. physical
     ii. organic
     iii. inorganic
     iv. analytical chemistry
   - **Biochemistry**
     Explain and apply facts, theories and concepts in
     i. physical
     ii. organic
     iii. inorganic
     iv. analytical chemistry
     v. biochemistry
2.
   - **Standard Chemistry**
     Demonstrate and safely apply laboratory skills in
     i. synthetic
     ii. quantitative
     iii. instrumental methods as scientific approaches to gathering and verifying knowledge
   - **Biochemistry**
     Apply laboratory skills in
     i. synthetic
     ii. quantitative
     iii. instrumental
     iv. biochemical methods as scientific approaches to gathering and verifying knowledge

Critical Thinking

3. **Standard Chemistry and Biochemistry**
   Interpret, evaluate, explain and critically assess theories and experimental results in chemistry or biochemistry.

Communication

4. **Standard Chemistry and Biochemistry**
   Collect, analyze and articulate results clearly and effectively in both oral and written formats.

Assessment Types for Both Specializations

- Oral tests or reports
- Written reports
- Lab practicals

Chinese

Foreign Languages and Literatures

The Chinese specialization in foreign languages and literatures develops proficiency in the Chinese language and acquaints students with the literature and cultural history of China. Courses are also available for those interested in business Chinese, classical Chinese, film, and women's studies.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Additional Information**
- **Related Chinese Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security,

communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

The Chinese specialization of the Foreign Languages and Literatures major provides a foundation for graduate-level work in East Asian studies or allied fields (anthropology, art history, history, linguistics, political science and religion). The major is excellent general preparation for entry to professional schools (business, journalism, law and medicine) or careers in foreign service, commerce, diplomacy, translation, business, import and export of information and culture, museums, libraries, and tourism.

Coursework for the Major

The Chinese specialization of the Foreign Languages and Literatures major consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

Select 9 credits from one concentration: [1]		9
Intensive Area Studies [2]		
Comparative Cultural Studies		
Film and Visual Culture		
Literary Studies		
Medieval and Early Modern Studies		
Total Credits		51-53

[1] Although courses may appear in more than one group they may be counted toward only one group.

[2] Recommended for those planning to pursue careers requiring advanced level skills in Chinese or graduate work in Chinese studies.

Students must take the Chinese STAMP 4s Proficiency Test or the equivalent, with level 4 or above proficiency, during or immediately following the second semester of Advanced Chinese or other advanced level course.

Students also must achieve satisfactory faculty evaluation of a self-selected research term paper written for an upper-division course or senior thesis.

Overseas Study

UF in Chengdu at Southwestern University of Finance and Economics is a summer program that provides the equivalent of the UF courses Intermediate Chinese 1 and 2 (CHI 2230/2231) and Advanced Chinese 1 and 2 (CHI 3410/3411) through a 10-week summer session, and uses the same syllabus and required textbooks. Its transfer-credit program features courses in English, CHI 4930 Chinese Society and CHI 4956 Sichuan Culture, that also may apply toward the Chinese specialization.

Placement

Students with previous training in Chinese, as well as those with heritage background in the language, should consult the undergraduate coordinator or the language coordinator of the Chinese specialization before enrolling in any CHI or CHW course. Placement tests are given at the start of each semester; refer to the Department of Languages, Literatures and Cultures for location and times.

Related Chinese Programs

- East Asian Languages and Literatures minor (p. 676)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160399&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete CHI 1130 or higher level language course with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete CHI 1131 or higher level language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete CHI 2230 or higher level language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Model Semester Plan

Actual courses may be different depending on language preparation and availability of courses. In particular, beginning language is best started semester 1 and no later than semester 3, but study abroad or accredited intensive summer courses can be used to catch up.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). Several courses in this major count for GE-H and N *or* GE-S and N requirements. 3000 level or above critical concentration courses outside of Chinese may count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
Category A[1]	I, R	I	I	I, R, A
Category B[2]	I, R, A	I, R, A	I, R, A	

1 Courses focus on the acquisition of the language(s) of specialization at the advanced level.

2 Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types

- Proficiency exams
- Term papers or final projects
- Oral presentations

Classical Studies

Classical studies is an interdisciplinary major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Specializations:** Ancient Language (p. 638) | Classical Civilization (p. 643) | Modern Greek (p. 648) | Teacher Certification (p. 652)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Classical Studies Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Students who major in classical studies often pursue graduate studies in classical languages and literature, art history, ancient history, archaeology, comparative literature, and museum studies. Additional career opportunities are possible depending upon the specialization the student chooses. Small class sizes, emphasis on critical thinking and expression, and a faculty committed to involvement in lower-level undergraduate courses also make this major appealing to students who want excellent preparation for entry to professional schools (e.g., medicine or law).

Specializations

Ancient Language

The ancient language specialization is appropriate for students wishing to have direct contact with the literature and culture of the ancients, and for those who plan to do graduate study in Greek or Latin. Students interested in admission to competitive graduate programs need a minimum of three years of upper-division courses in ancient Greek or Latin and an additional year in the remaining language.

Classical Civilization

The classical civilization specialization is appropriate for those who desire a broad humanities background or are considering admission to graduate school in archaeology, ancient history or an unrelated field such as medicine or law. Students interested in admission to competitive graduate programs in archaeology or ancient history should consult the Department of Classics' undergraduate coordinator for information on specific requirements.

Modern Greek

The modern Greek specialization is appropriate for students wishing to have direct contact with the language, literature, and culture of modern Greece and a closer acquaintance with ancient and medieval Greek civilization. Students study in greater detail the numerous communities of the diaspora, which includes the large and flourishing Greek-American communities of Florida, their history and contemporary culture. By learning a modern European language, students can work in translation, education, services, tourism, the entertainment industry, and political or financial institutions with ties to Greece or Cyprus.

Teacher Certification

Students who want to be high-school Latin teachers should follow the teacher certification specialization. Students who pursue the Florida Teaching minor have the coursework and preparation for professional teacher certification in Florida when they graduate. Alternatively, students can consider a minor in educational studies that would be beneficial if applying to the ProTeach program. Students should consult the College of Education for more information.

Coursework for the Major

Students must complete 21-30 credits of coursework for the classical studies major; the total is dependent upon the specialization. Students must earn a minimum grade of C in a course for it to be applied to the major; no S/U courses can be applied. The Department of Classics requires that a minimum 15 credits of major-related courses be completed at the University of Florida.

All classical studies majors are also required to demonstrate proficiency in Latin, ancient Greek, or modern Greek, depending on the specialization. Credits earned in language courses are not included in the 21-30 credits of coursework for the major.

Overseas Studies

Students may participate in summer, semester, or academic year programs in Italy and Greece. Competitive scholarships for study abroad are available. Students in the modern Greek specialization are encouraged to participate in programs in Greece or Cyprus supported with competitive scholarships by the Center for Greek Studies and other organizations in the United States, Greece, and the European Union.

Placement

Refer to Placement Testing and Evaluation for information on placement into Latin.

Related Classical Studies Programs

- Classical Studies minor (p. 657)

Academic Learning Compact

The Bachelor of Arts in classical studies, with specializations in classical civilization, ancient language, teacher certification or modern Greek studies provides a strong foundation in the liberal arts through study of the language, literature, monuments and history of ancient Greece and Rome. Students will develop linguistic, critical thinking and writing skills while gaining knowledge of classical civilization. Students also will explore the connection between the ancient and modern worlds and discover the contributions of classical culture to western civilization.

Before Graduating Students Must

- Successfully complete a department capstone course for majors.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Translate passages of Latin, ancient Greek or Modern Greek literature into English.

Critical Thinking

2. Recognize and explain the connection between the ancient and modern worlds and the contribution of Classical culture to Western civilization.

Communication

3. Write competently in Latin, ancient Greek, or Modern Greek using correct grammar and vocabulary of one or more of these languages. For Modern Greek, speak and comprehend competently.

Ancient Language

Required Coursework

Students must demonstrate proficiency in Latin or ancient Greek through one of these four options:

1. 10 credits of beginning Latin or beginning ancient Greek:

Code	Title	Credits
Select one beginning Latin option: [1]		10
Option A		
LAT 1120	Beginning Latin 1	
LAT 1101	Beginning Latin 2	
LAT 1104	Beginning Latin 3	
Option B		
LAT 1130	Accelerated Beginning Latin 1	
LAT 1131	Accelerated Beginning Latin 2	
OR		
Select one beginning ancient Greek option:		8-10
Option A		
GRE 1120	Beginning Ancient Greek 1	
GRE 1121	Beginning Ancient Greek 2	
Option B		
GRE 1130	Accelerated Beginning Ancient Greek 1	
GRE 1131	Accelerated Beginning Ancient Greek 2	

[1] Students with high school Latin complete the sequence based upon their score on the SAT II Latin test (or other placement mechanism).

2. A score of 3 or above on one of the AP Latin exams (Latin Literature or Vergil).
3. Completion of LNW 2630 or a 2000-level ancient Greek course.
4. A 3000-level course in the original Latin or Greek literature.

In addition to demonstrating proficiency in Latin or ancient Greek, students must complete 21 credits of coursework for the major:

- Two courses on the ancient Graeco-Roman world (in English translation) from the Department of Classics or approved courses from the departments of Anthropology, Art, History, Philosophy, Political Science, and Religion. At least one course must be 3000 level or above.
- Five courses at the 3000 level or above in Latin or Greek or a combination of Greek and Latin, including CLA 4931. Students who complete the language requirement using a 3000-level course in Latin or Greek literature need only four Latin or Greek courses at the 3000 level or above.
- Students planning to go to graduate school in classical languages and literature will need more credits in ancient languages.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=161200&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete one Latin or ancient Greek course [1]
- 2.0 UF GPA required

Semester 3

- 2.0 UF GPA required

Semester 4

- Complete one additional Latin or ancient Greek course with 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete two Latin or ancient Greek courses with 2.5 critical-tracking GPA
- 2.0 UF GPA required

[1] Students with prior Greek or Latin and an SAT II Latin score of 540 or higher, a 3 or higher on the AP Latin exam or a 4 or higher on the IB exam will begin with more advanced courses.

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). One of the two general education mathematics courses must be a pure math course.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

- **Related Classical Studies Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Students who major in classical studies often pursue graduate studies in classical languages and literature, art history, ancient history, archaeology, comparative literature, and museum studies. Additional career opportunities are possible depending upon the specialization the student chooses. Small class sizes, emphasis on critical thinking and expression, and a faculty committed to involvement in lower-level undergraduate courses also make this major appealing to students who want excellent preparation for entry to professional schools (e.g., medicine or law).

Specializations

Ancient Language

The ancient language specialization is appropriate for students wishing to have direct contact with the literature and culture of the ancients, and for those who plan to do graduate study in Greek or Latin. Students interested in admission to competitive graduate programs need a minimum of three years of upper-division courses in ancient Greek or Latin and an additional year in the remaining language.

Classical Civilization

The classical civilization specialization is appropriate for those who desire a broad humanities background or are considering admission to graduate school in archaeology, ancient history or an unrelated field such as medicine or law. Students interested in admission to competitive graduate programs in archaeology or ancient history should consult the Department of Classics' undergraduate coordinator for information on specific requirements.

Modern Greek

The modern Greek specialization is appropriate for students wishing to have direct contact with the language, literature, and culture of modern Greece and a closer acquaintance with ancient and medieval Greek civilization. Students study in greater detail the numerous communities of the diaspora, which includes the large and flourishing Greek-American communities of Florida, their history and contemporary culture. By learning a modern European language, students can work in translation, education, services, tourism, the entertainment industry, and political or financial institutions with ties to Greece or Cyprus.

Teacher Certification

Students who want to be high-school Latin teachers should follow the teacher certification specialization. Students who pursue the Florida Teaching minor have the coursework and preparation for professional teacher certification in Florida when they graduate. Alternatively, students can consider a minor in educational studies that would be beneficial if applying to the ProTeach program. Students should consult the College of Education for more information.

Coursework for the Major

Students must complete 21-30 credits of coursework for the classical studies major; the total is dependent upon the specialization. Students must earn a minimum grade of C in a course for it to be applied to the major; no S/U courses can be applied. The Department of Classics requires that a minimum 15 credits of major-related courses be completed at the University of Florida.

All classical studies majors are also required to demonstrate proficiency in Latin, ancient Greek, or modern Greek, depending on the specialization. Credits earned in language courses are not included in the 21-30 credits of coursework for the major.

Overseas Studies

Students may participate in summer, semester, or academic year programs in Italy and Greece. Competitive scholarships for study abroad are available. Students in the modern Greek specialization are encouraged to participate in programs in Greece or Cyprus supported with competitive scholarships by the Center for Greek Studies and other organizations in the United States, Greece, and the European Union.

Placement

Refer to Placement Testing and Evaluation for information on placement into Latin.

Related Classical Studies Programs

- Classical Studies minor (p. 657)

Classical Civilization

Required Coursework

Students must demonstrate proficiency in Latin or ancient Greek through one of these four options:

10 credits of beginning Latin or beginning ancient Greek:

Code	Title	Credits
Select one beginning Latin option: [1]		10
Option A		
LAT 1120	Beginning Latin 1	
LAT 1101	Beginning Latin 2	
LAT 1104	Beginning Latin 3	
Option B		
LAT 1130	Accelerated Beginning Latin 1	
LAT 1131	Accelerated Beginning Latin 2	
OR		
Select one beginning ancient Greek option:		8-10
Option A		
GRE 1120	Beginning Ancient Greek 1	
GRE 1121	Beginning Ancient Greek 2	
Option B		
GRE 1130	Accelerated Beginning Ancient Greek 1	
GRE 1131	Accelerated Beginning Ancient Greek 2	

[1] Students with high school Latin complete the sequence based upon their score on the SAT II Latin test (or other placement mechanism).

1. A score of 3 or above in one of the AP Latin exams (Latin Literature or Vergil).
2. Completion of LNW 2630 or a 2000-level ancient Greek course.
3. A 3000-level course in the original Latin or Greek literature.

In addition to demonstrating proficiency in Latin or ancient Greek, students must complete 24 credits of coursework for the major:

- 24 credits covering the ancient Graeco-Roman world (in English translation) from the Department of Classics or approved courses from the departments of Anthropology, Art, History, Philosophy, Political Science, and Religion.
  - At least 18 credits must be 3000 level or above, including CLA 4931.
  - Modern Greek may be taken for the six credits at the 1000/2000 level.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=161200&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete one Latin or ancient Greek course [1]
- 2.0 UF GPA required

Semester 3

- 2.0 UF GPA required

Semester 4

- Complete one additional Latin or ancient Greek course with 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete two additional Latin or ancient Greek courses with 2.5 critical-tracking GPA
- 2.0 UF GPA required

[1] Students with prior Greek or Latin and an SAT II Latin score of 540 or higher, a 3 or higher on the AP Latin exam or a 4 or higher on the IB exam will begin with more advanced courses.

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). One of the two general education mathematics courses must be a pure math course.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

	Total Credits	120

[1] Students with prior Greek or Latin and an SAT II Latin score of 540 or higher, a 3 or higher on the AP Latin exam or a 4 or higher on the IB exam will begin with more advanced courses.

Academic Learning Compact

The Bachelor of Arts in classical studies, with specializations in classical civilization, ancient language, teacher certification or modern Greek studies provides a strong foundation in the liberal arts through study of the language, literature, monuments and history of ancient Greece and Rome. Students will develop linguistic, critical thinking and writing skills while gaining knowledge of classical civilization. Students also will explore the connection between the ancient and modern worlds and discover the contributions of classical culture to western civilization.

Before Graduating Students Must

- Successfully complete a department capstone course for majors.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Translate passages of Latin, ancient Greek or Modern Greek literature into English.

Critical Thinking

2. Recognize and explain the connection between the ancient and modern worlds and the contribution of Classical culture to Western civilization.

Communication

3. Write competently in Latin, ancient Greek, or Modern Greek using correct grammar and vocabulary of one or more of these languages. For Modern Greek, speak and comprehend competently.

Classical Studies | Modern Greek

Classical studies is an interdisciplinary major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Specializations:** Ancient Language (p. 638) | Classical Civilization (p. 643) | Modern Greek (p. 648) | Teacher Certification (p. 652)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Classical Studies Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Students who major in classical studies often pursue graduate studies in classical languages and literature, art history, ancient history, archaeology, comparative literature, and museum studies. Additional career opportunities are possible depending upon the specialization the student chooses. Small class sizes, emphasis on critical thinking and expression, and a faculty committed to involvement in lower-level undergraduate courses also make this major appealing to students who want excellent preparation for entry to professional schools (e.g., medicine or law).

Specializations

Ancient Language

The ancient language specialization is appropriate for students wishing to have direct contact with the literature and culture of the ancients, and for those who plan to do graduate study in Greek or Latin. Students interested in admission to competitive graduate programs need a minimum of three years of upper-division courses in ancient Greek or Latin and an additional year in the remaining language.

Classical Civilization

The classical civilization specialization is appropriate for those who desire a broad humanities background or are considering admission to graduate school in archaeology, ancient history or an unrelated field such as medicine or law. Students interested in admission to competitive graduate programs in archaeology or ancient history should consult the Department of Classics' undergraduate coordinator for information on specific requirements.

Modern Greek

The modern Greek specialization is appropriate for students wishing to have direct contact with the language, literature, and culture of modern Greece and a closer acquaintance with ancient and medieval Greek civilization. Students study in greater detail the numerous communities of the diaspora, which includes the large and flourishing Greek-American communities of Florida, their history and contemporary culture. By learning a modern European language, students can work in translation, education, services, tourism, the entertainment industry, and political or financial institutions with ties to Greece or Cyprus.

Teacher Certification

Students who want to be high-school Latin teachers should follow the teacher certification specialization. Students who pursue the Florida Teaching minor have the coursework and preparation for professional teacher certification in Florida when they graduate. Alternatively, students can consider a minor in educational studies that would be beneficial if applying to the ProTeach program. Students should consult the College of Education for more information.

Coursework for the Major

Students must complete 21-30 credits of coursework for the classical studies major; the total is dependent upon the specialization. Students must earn a minimum grade of C in a course for it to be applied to the major; no S/U courses can be applied. The Department of Classics requires that a minimum 15 credits of major-related courses be completed at the University of Florida.

All classical studies majors are also required to demonstrate proficiency in Latin, ancient Greek, or modern Greek, depending on the specialization. Credits earned in language courses are not included in the 21-30 credits of coursework for the major.

Overseas Studies

Students may participate in summer, semester, or academic year programs in Italy and Greece. Competitive scholarships for study abroad are available. Students in the modern Greek specialization are encouraged to participate in programs in Greece or Cyprus supported with competitive scholarships by the Center for Greek Studies and other organizations in the United States, Greece, and the European Union.

Placement

Refer to Placement Testing and Evaluation for information on placement into Latin.

Related Classical Studies Programs

- Classical Studies minor (p. 657)

Modern Greek

Required Coursework

Students in the modern Greek specialization are required to demonstrate proficiency in modern Greek by completing the beginning sequence of modern Greek (10 credits: GRK 1130 and GRK 1131) or (with department approval) the intermediate modern Greek sequence (3-6 credits).

In addition to demonstrating proficiency in modern Greek, students must complete 24 credits of coursework for the major:

- GRK 2200.
- Two courses at the 3000 level on the modern, medieval or ancient Greek world from the Department of Classics or approved courses from the departments of Anthropology, Art, European Studies, History, Philosophy, Political Science, Religion, and Women's Studies.
- Five courses in modern Greek, Byzantine Greek, ancient Greek or Latin at the 3000 level or above, of which at least two courses must be in modern Greek. Included in these five courses is CLA 4931.

Study-abroad programs are recommended and supported with scholarships for the cultivation of greater fluency in modern Greek.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=161200&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete one modern Greek course [1]
  Select the language based on the specialization chosen.
- 2.0 UF GPA required

Semester 3

- 2.0 UF GPA required

Semester 4

- Complete one additional modern Greek course with 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete two additional modern Greek courses with 2.5 critical-tracking GPA
- 2.0 UF GPA required

[1] At least two of these courses must be in modern Greek.

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). One of the two general education mathematics courses must be a pure math course.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Classical Studies | Teacher Certification

Classical studies is an interdisciplinary major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Specializations:** Ancient Language (p. 638) | Classical Civilization (p. 643) | Modern Greek (p. 648) | Teacher Certification (p. 652)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Classical Studies Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Students who major in classical studies often pursue graduate studies in classical languages and literature, art history, ancient history, archaeology, comparative literature, and museum studies. Additional career opportunities are possible depending upon the specialization the student chooses. Small class sizes, emphasis on critical thinking and expression, and a faculty committed to involvement in lower-level undergraduate courses also make this major appealing to students who want excellent preparation for entry to professional schools (e.g., medicine or law).

Specializations

Ancient Language

The ancient language specialization is appropriate for students wishing to have direct contact with the literature and culture of the ancients, and for those who plan to do graduate study in Greek or Latin. Students interested in admission to competitive graduate programs need a minimum of three years of upper-division courses in ancient Greek or Latin and an additional year in the remaining language.

Classical Civilization

The classical civilization specialization is appropriate for those who desire a broad humanities background or are considering admission to graduate school in archaeology, ancient history or an unrelated field such as medicine or law. Students interested in admission to competitive graduate programs in archaeology or ancient history should consult the Department of Classics' undergraduate coordinator for information on specific requirements.

Modern Greek

The modern Greek specialization is appropriate for students wishing to have direct contact with the language, literature, and culture of modern Greece and a closer acquaintance with ancient and medieval Greek civilization. Students study in greater detail the numerous communities of the diaspora, which includes the large and flourishing Greek-American communities of Florida, their history and contemporary culture. By learning a modern European language, students can work in translation, education, services, tourism, the entertainment industry, and political or financial institutions with ties to Greece or Cyprus.

Teacher Certification

Students who want to be high-school Latin teachers should follow the teacher certification specialization. Students who pursue the Florida Teaching minor have the coursework and preparation for professional teacher certification in Florida when they graduate. Alternatively, students can consider a minor in educational studies that would be beneficial if applying to the ProTeach program. Students should consult the College of Education for more information.

Coursework for the Major

Students must complete 21-30 credits of coursework for the classical studies major; the total is dependent upon the specialization. Students must earn a minimum grade of C in a course for it to be applied to the major; no S/U courses can be applied. The Department of Classics requires that a minimum 15 credits of major-related courses be completed at the University of Florida.

All classical studies majors are also required to demonstrate proficiency in Latin, ancient Greek, or modern Greek, depending on the specialization. Credits earned in language courses are not included in the 21-30 credits of coursework for the major.

Overseas Studies

Students may participate in summer, semester, or academic year programs in Italy and Greece. Competitive scholarships for study abroad are available. Students in the modern Greek specialization are encouraged to participate in programs in Greece or Cyprus supported with competitive scholarships by the Center for Greek Studies and other organizations in the United States, Greece, and the European Union.

Placement

Refer to Placement Testing and Evaluation for information on placement into Latin.

Related Classical Studies Programs

- Classical Studies minor (p. 657)

Teacher Certification

Required Coursework

Students in this specialization must demonstrate proficiency in Latin by fulfilling one of these four options:

1. 10 credits of beginning Latin:

Code	Title	Credits
Option 1 [1]		
LAT 1120	Beginning Latin 1	4
LAT 1101	Beginning Latin 2	3
LAT 1104	Beginning Latin 3	3
Option 2 [1]		
LAT 1130	Accelerated Beginning Latin 1	5
LAT 1131	Accelerated Beginning Latin 2	5

[1] Students with high school Latin complete the sequence based upon their score on the SAT II Latin test (or other placement mechanism).

2. A score of 3 or above in one of the AP Latin exams (Latin Literature or Vergil).
3. Completion of LNW 2630.
4. A 3000-level course in the original Latin literature.

In addition to demonstrating proficiency in Latin, students must complete 30 credits of coursework for the major:

- 24 credits of advanced Latin, including:
  - 9 credits in Latin vocabulary, grammar, and composition
  - 12 credits in Latin literature (not in translation)
  - 3 credits of CLA 4931

- Two courses on the ancient Roman world (not in English translation) from the Department of Classics or from the departments of Anthropology, Art, History, Philosophy, Political Science, and Religion. At least one of these must be 3000 level or above.
- Students planning to earn a state of Florida Latin teaching certificate need to make certain which courses dealing with Rome are appropriate for this option.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=161200&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete one Latin or ancient Greek course [1]
- 2.0 UF GPA required

Semester 3

- 2.0 UF GPA required

Semester 4

- Complete one additional Latin or ancient Greek course with 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete two additional Latin or ancient Greek courses with 2.5 critical-tracking GPA
- 2.0 UF GPA required

[1] Students with prior Greek or Latin and an SAT II Latin score of 540 or higher, a 3 or higher on the AP Latin exam or a 4 or higher on the IB exam will begin with more advanced courses.

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). One of the two general education mathematics courses must be a pure math course.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

	Credits	16
	Total Credits	120

1 Students with prior Greek or Latin and an SAT II Latin score of 540 or higher, a 3 or higher on the AP Latin exam or a 4 or higher on the IB exam will begin with more advanced courses.

2 If placed out by SAT II, or having taken LAT 1130, LAT 1131.

Academic Learning Compact

The Bachelor of Arts in classical studies, with specializations in classical civilization, ancient language, teacher certification or modern Greek studies provides a strong foundation in the liberal arts through study of the language, literature, monuments and history of ancient Greece and Rome. Students will develop linguistic, critical thinking and writing skills while gaining knowledge of classical civilization. Students also will explore the connection between the ancient and modern worlds and discover the contributions of classical culture to western civilization.

Before Graduating Students Must

- Successfully complete a department capstone course for majors.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Translate passages of Latin, ancient Greek or Modern Greek literature into English.

Critical Thinking

2. Recognize and explain the connection between the ancient and modern worlds and the contribution of Classical culture to Western civilization.

Communication

3. Write competently in Latin, ancient Greek, or Modern Greek using correct grammar and vocabulary of one or more of these languages. For Modern Greek, speak and comprehend competently.

Classical Studies Minor

The College of Liberal Arts and Sciences is the largest college on campus, with more than 10,000 undergraduate students pursuing a variety of disciplines through its 33 majors and 48 minors. Undergraduate students acquire an intellectual foundation based on a well-rounded and comprehensive education designed for an increasingly technological and rapidly changing society.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 15 | Completed with minimum grades of C
- **Additional Information**
- **Related Classical Studies Programs**

The minor consists of five Greek, Latin, or classics courses. At least nine of these credits must be in courses at the 3000 level or above. Of the total credits, no more than three may be individual work.

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Code	Title	Credits
Greek, Latin, or classics courses (1000/2000 level)		6
Greek, Latin, or classics courses (3000/4000 level)		9
Total Credits		15

Related Classical Studies Programs

- Bachelor of Arts in Classical Studies (p. 635)

Communication Studies Minor

Effective communication skills at the personal and professional levels are essential prerequisites for success in today's world. The communication studies minor provides an interdisciplinary forum for the study of communication and the opportunity for students to add indispensable tools to their educational program.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 18 | Completed with minimum grades of C and no optional S-U
- **Contact:** 402 Rolfs Hall (http://campusmap.ufl.edu/?loc=0012) | 352.392.5421
- **Additional Information**

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

No more than three credits of SPC 4905, SPC 2594 (prerequisite required) or RTV 3405 may substitute for a 3000-level course.

Required Courses

Code	Title	Credits
Select two:		6
COM 1000	Introduction to Communication Studies	
SPC 2300	Introduction to Interpersonal Communication	
SPC 2608	Introduction to Public Speaking	
COM or SPC course within the Dial Center [1]		3
COM or SPC courses within the Dial Center (3000/4000 level) [1]		9
Total Credits		18

[1] SPC 3605 and SPC 4680 are not accepted for the communication studies minor.

Computer Science UF Online

This program combines the study of computer science with a liberal arts education. It prepares students for employment as computing professionals while offering significant freedom to choose coursework in other areas. The major is especially popular with students who want the technical education in computer science with the flexibility to take other non-technical courses, sometimes in the form of a minor or certificate.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **Additional Information**
- **Related Computer Science Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Computer science majors in CLAS take a solid foundation of core computer science courses while fulfilling requirements for a liberal arts education, including courses from the humanities, social and behavioral sciences, and the study of a foreign language. Questions about the major should be directed to a department advisor.

Coursework for the Major

This major requires a minimum of 29 credits in foundation coursework, 35 credits in core coursework and 6 credits of major electives. A student can request to transfer in a maximum of four courses toward required core Computer Science or required Computer Science elective coursework, dependent upon courses being deemed equivalent by the department. Course equivalency requests should begin with the department advising office, followed by the undergraduate coordinator.

Students must earn minimum grades of C in coursework for the major. An exit interview is required in the last semester.

Total Credits		70-72

1 Not expected to be developed for online delivery; substitute EGN 4641 and EGS 4034. Please see department advisor to process the substitution.

2 Students should check prerequisites when planning their major electives. Students should discuss electives with an advisor in the department. Individual study, co-op, internship, research, and special topics credits must be approved by an advisor in the department.

Placement

Students who have scored at least a 4 on the AP Computer Science A exam are eligible to start the programming fundamentals sequence with COP 3503. Students will need to consult an advisor in the major to adjust their degree audit.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=110101&track=01) may be used for transfer students.

Semester 1

- Complete MAC 1147 or MAC 2311
- 2.0 UF GPA required

Semester 2

- Complete MAC 2311
- 2.0 UF GPA required

Semester 3

- Complete MAC 2312
- 2.0 UF GPA required

Semester 4

- Complete MAC 2313; and PHY 2053/PHY 2053L or PHY 2048/PHY 2048L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete COP 3502; and PHY 2054/PHY 2054L or PHY 2049/PHY 2049L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

ENC 3246, MAC 2312, MAC 2313, PHY 2049, PHY 2049L, PHY 2054, PHY 2054L, STA 3032, MAS 3114, and MAS 4105 may count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The College of Liberal Arts and Sciences' computer science program exposes students to a broad range of disciplines, including programming languages, theory of computer science, physical science, mathematics and software engineering. Students will graduate with the ability to apply knowledge of science and mathematics to computer science problems, to design computer systems or components to satisfy users' needs and to communicate technical information regarding computer systems to other computer scientists. This program emphasizes the broader aspects of computer science and is less technical in depth than the computer science program in the Herbert Wertheim College of Engineering.

Before Graduating Students Must

- Pass assessment according to department rubric of student performance on a major design experience.
- Pass assessment in one or more core courses or individual assignments targeted to each SLO.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Apply knowledge of mathematics and science to computer science problems.
2. Design a computing system, component or process, analyzing and interpreting the data.
3. Use the techniques, skills and tools necessary for computer science practice.

Critical Thinking

4. Design a computing system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, and health and safety constraints.
5. Identify, formulate and solve computer science problems.

Communication

6. Communicate technical data and design information effectively in writing, in speech and in multidisciplinary teams to other computer scientists.

Elective		4
	Credits	16
	Total Credits	120

Academic Learning Compact

The College of Liberal Arts and Sciences' computer science program exposes students to a broad range of disciplines, including programming languages, theory of computer science, physical science, mathematics and software engineering. Students will graduate with the ability to apply knowledge of science and mathematics to computer science problems, to design computer systems or components to satisfy users' needs and to communicate technical information regarding computer systems to other computer scientists. This program emphasizes the broader aspects of computer science and is less technical in depth than the computer science program in the Herbert Wertheim College of Engineering.

Before Graduating Students Must

- Pass assessment according to department rubric of student performance on a major design experience.
- Pass assessment in one or more core courses or individual assignments targeted to each SLO.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Apply knowledge of mathematics and science to computer science problems.
2. Design a computing system, component or process, analyzing and interpreting the data.
3. Use the techniques, skills and tools necessary for computer science practice.

Critical Thinking

4. Design a computing system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, and health and safety constraints.
5. Identify, formulate and solve computer science problems.

Communication

6. Communicate technical data and design information effectively in writing, in speech and in multidisciplinary teams to other computer scientists.

- Exit survey

Criminology

The Department of Sociology and Criminology offers the largest interdisciplinary degree program at UF. Students seeking a degree in criminology will study the complexities of relationships among the legal, social, political, historical, and psychological influences affecting law processes and crime and justice.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Additional Information**
- **Related Criminology Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Courses focus on explanations for the development of law within society, why people break laws and how society reacts to law-breaking. Interdisciplinary breadth in the study of criminology is essential for those majoring in criminology. Majors may enroll in relevant courses offered outside the department to help satisfy tracking requirements (listed below under Foundation Coursework).

After obtaining a B.A. in criminology, students can seek careers as professionals working within the criminal or juvenile justice systems (i.e., courts, law enforcement, corrections). Many students also attend law school, while others attend graduate school where they may conduct research on criminological issues.

Coursework for the Major

The major requires 34 credits. At least 22 of the 34 must be taken at UF in courses offered by the department with prefixes of CCJ, CJC, CJE, CJJ, or CJL. Students may apply no more than 6 credits of 1000/2000-level coursework to the major.

A maximum of 12 credits of criminology courses can be transferred toward the major. Students who transfer six credits of 1000/2000-level (lower division) credits into the major should not take CJL 2000 (https://catalog.ufl.edu/search/?P=CJL%202000). There are restrictions on which lower-division courses will transfer to the major. Lower-division courses that transfer into the major include introductory courses on criminology, criminal justice and criminal law/procedure. Students who wish to take interdisciplinary courses **and** transfer credits from another institution need to be careful about the 22-credit residency requirement.

Lower-division courses that transfer into the major include introductory courses on criminology, criminal justice and criminal law/ procedure. Students who wish to take interdisciplinary courses **and** transfer credits from another institution need to be careful about the 22- credit residency requirement.

Minimum grades of C must be earned in courses that count toward the major. The only exceptions are CCJ 4940 (https://catalog.ufl.edu/search/?P=CCJ%204940) and CCJ 4905 which require grades of S.

Code	Title	Credits
Foundation (Tracking) Coursework		
In the first four terms, students enroll in criminology-related foundation courses, which include:		
STA 2023	Introduction to Statistics 1	3
Select one option:		9
Option A: Select 9 credits of introductory criminal justice/criminology courses (CCJ, CJL or CJE prefixes), including:		
CCJ 3024	Advanced Principles of Criminal Justice	
CJL 2000	Law and the Legal Process	
CJL 3038	Law and Society	
Option B: Select 9 credits from the following or their equivalents:		
AMH 2010	United States to 1877	
AMH 2020	United States Since 1877	
ANT 2000	General Anthropology	
ANT 2410	Cultural Anthropology	
ECO 2013	Principles of Macroeconomics	
ECO 2023	Principles of Microeconomics	
PHI 2010	Introduction to Philosophy	
PHI 2630	Contemporary Moral Issues	
POS 2041	American Federal Government	
POS 2112	American State and Local Government	
PSY 2012	General Psychology	
SYG 2000	Principles of Sociology	
SYG 2010	Social Problems	

Required Coursework

Criminology Core Courses		
CCJ 3024	Advanced Principles of Criminal Justice [1]	3
CCJ 3701	Research Methods in Criminology [1]	4
CCJ 4014	Criminological Theory [1]	3
CJL 3038	Law and Society [1]	3
Select at least one law-driven requirement course:		
CJL 2000	Law and the Legal Process [2]	
CJL 4050	Juvenile Law	
CJL 4110	Criminal Law	
CJL 4410	Criminal Procedure	
Criminology Electives		
Select a minimum of 18 credits [3]		18
Students may select up to 9 additional credits from approved interdisciplinary courses outside of criminology. [4]		0-9
Statistics Course Requirement		
STA 2023	Introduction to Statistics 1	3
Total Credits		46-55

1. These courses are the basis for meeting the student learning outcomes in the major's academic learning compact, therefore they must be taken at UF.
2. Students should take this course only if they have not already completed six credits of 1000/2000-level criminology courses.
3. Majors may choose from any course offered in the department not used to meet this requirement.
4. These approved interdisciplinary courses may also apply to the CLAS electives requirement. These courses do **not** apply toward the 22-credit residency requirement.

Students may apply only three credits of CCJ 4940 or CCJ 4905 and 3 credits of CCJ 4911 to the 34 credits for the major. CCJ 4940 and CCJ 4905 are graded S/U, CCJ 4911 may be taken either S/U or for a letter grade. Note, however, that no more than 3 credits of S/U work coming from either may be applied to the major.

Exit Exam Requirement

To complete the major students must pass a department exit examination regarding crime, criminal justice, law and society, and criminological theory, administered online.

Recommended Coursework

Students who meet CLAS honors criteria (3.5 upper-division GPA) may take up to six credits in CCJ 4970 or enroll in up to two graduate seminars as honors courses, depending on instructor permission and course availability. However, students should keep in mind the tuition differences between undergraduate and graduate credits.

Combined Degree Programs

The opportunity to get an early start on graduate work by enrolling in graduate credits exists in a combined B.A./M.A. program. Interested students must apply and be accepted to the undergraduate phase (so that graduate credits can count toward the major to earn the B.A. degree). Independently, they also must apply for admission to the graduate phase and compete with all other applicants for admission to a limited number of openings each fall.

Overseas Studies

The major has no affiliated overseas programs. Criminology majors, however, frequently study abroad and can often transfer credits to the major.

Placement

CCJ 3024 is a prerequisite or corequisite for most of the other courses in the major. During advanced registration, there may be restrictions placed on lower-division students for registration in many upper-division courses to make sure juniors and seniors get the credits they need to graduate on time.

Research

Majors may pursue original research through the upper-division honors program in the major, especially via senior thesis credits (CCJ 4970). Others pursue independent research through Undergraduate Research in Criminology (CCJ 4911). The major also offers a research internship (CCJ 4940), which enables students to work in ongoing research projects.

Related Criminology Programs

- Bachelor of Arts in Criminology, UF Online (p. 672)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450401&track=01) may be used for transfer students.

Semester 1

- Complete 1 criminology-related foundation course (criminology-related foundation courses include introductory criminal justice and criminology courses -- CCJ, CJL, or CJE prefixes, such as CCJ 3024, CJL 2000, CJL 3038 -- or related courses: AMH 2010, AMH 2020, ANT 2000, ANT 2410, ECO 2013, ECO 2023, PHI 2010, PHI 2630, POS 2041, POS 2112, PSY 2012, SYG 2000, SYG 2010).
- 2.3 UF GPA required

Semester 2

- Complete 1 additional criminology-related foundation course
- 2.5 UF GPA required

Semester 3

- Complete 1 additional criminology-related foundation course with 2.65 critical-tracking GPA
- 2.65 UF GPA required

Semester 4

- Complete STA 2023 with a 2.75 critical-tracking GPA
- 2.8 UF GPA required

Semester 5

- Complete CCJ 3024 (if not previously taken) and maintain 2.75 critical-tracking GPA
- 2.80 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

Up to 9 hours of approved Criminology electives outside of the Criminology department may also count towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Bachelor of Arts in criminology (both the on campus and the online degree programs) introduces students to the study of criminal behavior, criminal justice systems from a multidisciplinary, liberal arts perspective. It enables students to understand crime, how society reacts to it (especially through the criminal justice system) and the interrelationships between features of society and law. It includes learning about the theories of crime and methods for studying crime, law and society.

Before Graduating Students Must

- Pass a department exit examination regarding crime, criminal justice, law and society and criminological theory.
- Complete a research paper for CCJ 3701 demonstrating the ability to research and to interpret research in criminology, law and society.
- Complete requirements for the baccalaureate degree as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Define and describe the criminal justice system, the interrelationships among its components and their fit with society.
2. Define and describe the legal institutions, the law and their interaction in society.

Critical Thinking

3. Analyze theories of crime and their implications for programs and policies to reduce crime.
4. Interpret and evaluate research in criminology, law and society and exhibit proficiency in the techniques used to conduct such research.

Communication

5. Communicate ideas clearly and effectively in an accepted style of presentation.

Criminology UF Online

The Department of Sociology and Criminology offers an online interdisciplinary degree program in criminology. Students seeking this degree will study the complexities of relationships among the legal, social, political, historical, and psychological influences affecting law processes and crime and justice.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **Additional Information**
- **Related Criminology Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Courses focus on explanations for the development of law within society, why people break laws, and how society reacts to law-breaking. Interdisciplinary breadth in the study of criminology and law is essential for those majoring in criminology. Majors may enroll in relevant courses offered outside the department to help satisfy tracking requirements (listed below under Foundation Coursework).

After obtaining a B.A. in criminology, students can seek careers as professionals working within the criminal or juvenile justice systems (i.e., courts, law enforcement, corrections). Many students also attend law school, while others attend graduate school where they may conduct research on criminological issues.

After being accepted to this program, students can pursue the degree without moving to Gainesville. Coursework will be offered via electronic distance learning, and UF faculty will teach and advise students in the program. This program is designed to be pursued entirely online, and thus, students will not be permitted to take any courses on campus while enrolled in the program.

Students will need access to a personal computer capable of connecting to the web and sending and receiving electronic mail. It is recommended but not required that the student's computer have a video conferencing capability.

Coursework for the Major

The major requires 34 credits. At least 22 of the 34 must be taken from UF in courses offered by the department with prefixes of CCJ, CJC, CJE, CJJ or CJL. Students may apply no more than six credits of 1000/2000-level coursework to the major, including CJL 2000.

A maximum of 12 credits of criminology courses can be transferred toward the major. Students who transfer six credits of 1000/2000-level (lower division) credits into the major should not take UF's CJL 2000. There are restrictions on which lower-division courses will transfer to the major. Lower-division courses that transfer into the major include introductory courses on criminology, criminal justice and criminal law/procedure. Students who wish to take interdisciplinary courses **and** transfer credits from another institution need to be careful about the 22-credit residency requirement.

Minimum grades of C must be earned in courses that count toward the major. The only exceptions are CCJ 4940 and CCJ 4905 which require grades of S.

Academic Learning Compact

The Bachelor of Arts in criminology (both the on campus and the online degree programs) introduces students to the study of criminal behavior, criminal justice systems from a multidisciplinary, liberal arts perspective. It enables students to understand crime, how society reacts to it (especially through the criminal justice system) and the interrelationships between features of society and law. It includes learning about the theories of crime and methods for studying crime, law and society.

Before Graduating Students Must

- Pass a department exit examination regarding crime, criminal justice, law and society and criminological theory.
- Complete a research paper for CCJ 3701 demonstrating the ability to research and to interpret research in criminology, law and society.
- Complete requirements for the baccalaureate degree as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Define and describe the criminal justice system, the interrelationships among its components and their fit with society.
2. Define and describe the legal institutions, the law and their interaction in society.

Critical Thinking

3. Analyze theories of crime and their implications for programs and policies to reduce crime.
4. Interpret and evaluate research in criminology, law and society and exhibit proficiency in the techniques used to conduct such research.

Communication

5. Communicate ideas clearly and effectively in an accepted style of presentation.

East Asian Languages and Literatures Minor

This minor provides a solid foundation in either the Chinese or Japanese language and its cultural dimensions, with potential for use in international and other careers.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 15-19 | Completed with minimum grades of C and no optional S-U
- **Related East Asian Languages and Literatures Programs**

No more than three credits can be Individual Study (CHI 4905/JPN 4905). Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Chinese

Code	Title	Credits
Select one:		6-10
CHI 2230	Intermediate Chinese 1	
& CHI 2231	and Intermediate Chinese 2	
CHI 2340	Chinese for Heritage Learners 1	
& CHI 2341	and Chinese for Heritage Learners 2	
Chinese language courses (3000 level or above)		
CHI, CHT, or CHW courses (3000/4000 level; must be taken at UF)		9
Total Credits		15-19

Japanese

Code	Title	Credits
Select one:		6-10
JPN 2230	Intermediate Japanese 1	
& JPN 2231	and Intermediate Japanese 2	
Japanese language courses (3000 level or above)		
JPN, JPT, or JPW courses (3000/4000 level)		9
Total Credits		15-19

Related East Asian Languages and Literatures Programs

- Bachelor of Arts in Foreign Languages and Literatures, Chinese (p. 628)
- Bachelor of Arts in Foreign Languages and Literatures, Japanese (p. 822)

East-Central European Studies Certificate

The East-Central European Studies certificate provides the opportunity to study the region of Central and Eastern Europe from an interdisciplinary perspective that incorporates both area and language studies.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 12-14 | Completed with minimum grades of C
- **Additional Information**
- **Related East-Central European Studies Programs**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

By requiring one semester of language study (beyond the College of Liberal Arts and Sciences' language proficiency requirement), the program gives students the opportunity to enhance their language skills beyond the introductory level. Furthermore, an area studies minor that includes less commonly taught languages (Czech, Hungarian, Polish) as core requirements offers a special opportunity as there are no comparable programs in the state of Florida.

The certificate program is open to all undergraduates. To be eligible, students must have a minimum 2.5 overall GPA and a 3.0 GPA in their declared major. Completion of the certificate requires a combined 3.0 GPA for all certificate coursework.

At least nine credits of coursework must be unique to the East Central European Studies certificate out of all other certificates and minors.

Required Courses

Code	Title	Credits
Select one:		3
EUH 3330	Late Modern Central and Eastern Europe	
EUH 3564	Central and Eastern Europe in the 20th Century	
EUS 3930	Undergraduate Seminar in European Studies (Anthropology of Eastern Europe)	
or ANT 3930	Junior Topics Class in Anthropology	
EUS 3930	Undergraduate Seminar in European Studies	
or CPO 3614	Eastern European Politics	
Foreign Language		
Select a minimum of 3 credits beyond college requirement:		3-5
CZE 1130	Introduction to Czech Language and Culture 1	
CZE 2200	Intermediate Czech 1	
EUS 3938	European Less Commonly Taught Languages	
GER 2200	Intermediate German 1	
HNG 1130	Beginning Hungarian 1	
HNG 1180	Elementary Hungarian: Review and Progress 1

- East-Central European Studies minor (p. 678)

East-Central European Studies Minor

This minor provides the opportunity to study the region of Central and Eastern Europe from an interdisciplinary perspective that incorporates both area and language studies.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 18-22 | Completed with minimum grades of C
- **Additional Information**
- **Related East-Central European Studies Programs**

The minor is open to all undergraduates.

By requiring two semesters of language study (beyond the College of Liberal Arts and Sciences' language proficiency requirement), the program gives students the opportunity to enhance their language skills beyond the introductory level. Furthermore, an area studies minor that includes less commonly taught languages (Czech, Hungarian, Polish) as core requirements offers students a special opportunity as there are no comparable programs in the state of Florida.

The curriculum requires two semesters of a language beyond the CLAS language requirement, one East-Central European studies course and three electives from an approved list.

Of the total credits, no more than three may be individual work. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Electives (from an approved list)		9
Total Credits		18-22

Related East-Central European Studies Programs

- East-Central European Studies certificate (p. 677)

Economics

Through the study of economics, students learn how to look at a complex world and make sense of the wide variety of behaviors they observe. Students majoring in economics learn the analytical skills used to understand how households, firms and governments make economic decisions, comparing costs and benefits in an effort to maximize their impact.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Additional Information**
- **Related Economics Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Students will learn the critical skills used to determine the implications of economic decisions for the allocation of society's scarce resources, the pricing of goods and services, the distribution of income, the behavior of macroeconomic variables, and the effect of government intervention.

Classes within the economics major include, among others, international trade, law and economics, economics of sports, game theory, and public choice. The analytical skills students develop are useful preparation for careers in business, law, government, public policy and academia. A degree in economics is also appropriate for students intending to pursue advanced degrees in the social sciences and in professional schools.

Coursework for the Major

The major requires 37-39 credits. Students must achieve minimum grades of C in each required foundation and economics course, including the economics electives and outside substitutes.

Code	Title	Credits
Required Foundation Coursework		
MAC 2233	Survey of Calculus 1	3-4
or MAC 2311	Analytic Geometry and Calculus 1	
STA 2023	Introduction to Statistics 1 [1]	3
ECO 2013	Principles of Macroeconomics	4
ECO 2023	Principles of Microeconomics	4
ECO 3101	Intermediate Microeconomics [2,5]	4
ECO 3203	Intermediate Macroeconomics	4
Required Upper-Level Coursework		
Four economics elective courses [3]		15-16
Select a maximum of one: [4]		
AEB 3450	Introduction to Natural Resource and Environmental Economics	
AEB 4931	Special Topics in Food and Resource Economics	
FIN 3403	Business Finance	
GEO 3502	Economic Geography	
Total Credits		37-39

1. Students taking advanced statistics might not be required to take STA 2023.
2. Complete ECO 3101 early in the sequence, because it is a prerequisite for some economics electives.
3. Defined as any 3000 or 4000 level course with an ECO, ECP, or ECS prefix; not including ECO 3101, ECO 3203, ECO 4905, or ECO 4941. Course prerequisites are strictly enforced.
4. This substitute cannot double count toward the CLAS 3000-level elective requirement.
5. Students cannot receive credit for both ECO 3101 and ECP 3703.

Recommended Coursework

Students planning to pursue graduate study in economics should consider a minor in mathematics or statistics or take the following mathematics and statistics courses:

Code	Title	Credits
ECO 4421	Econometrics	4
or STA 4210	Regression Analysis	
MAC 2311	Analytic Geometry and Calculus 1	4
MAC 2312	Analytic Geometry and Calculus 2	4
MAC 2313	Analytic Geometry and Calculus 3	4
MAP 2302	Elementary Differential Equations	3
MAS 3114	Computational Linear Algebra	3
or MAS 4105	Linear Algebra 1	
MAA 4211	Advanced Calculus 1	3

STA 4321	Introduction to Probability [1]	3
STA 4322	Introduction to Statistics Theory [1]	3

[1] Students taking advanced statistics might not be required to take STA 2023.

Overseas Studies

Students are encouraged to spend a semester abroad. The College of Liberal Arts and Sciences and the International Center offer several excellent study abroad programs that allow students the opportunity to go abroad and still make progress toward their degree. Contact an academic or study abroad advisor for more information.

Research

Working on research can be a valuable part of an undergraduate education. There are a limited number of spots for undergraduates to work with a faculty member on research and/or assist with a class. Students should ask their professors about this possibility; however, before doing so, students should have completed ECO 3101 and at least one economics elective. Students selected for these limited positions must have very strong economics grades. More formally, ECO 4935 is available to honors students and seniors who have high grades and are interested in research and/or graduating with honors.

Related Economics Programs

- Economics minor (p. 682)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450601&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 of 4 courses from ECO 2013, ECO 2023, MAC 2233 and STA 2023 with a 2.5 critical-tracking GPA, excluding ECO 3101
- 2.0 UF GPA required

Semester 3

- Complete 1 additional course of the 4 with a 2.75 critical-tracking GPA, excluding ECO 3101
- 2.0 UF GPA required

Semester 4

- Complete 2 additional courses of the 4 with a 3.0 critical-tracking GPA, excluding ECO 3101
- 2.0 UF GPA required

Semester 5

- Complete ECO 3101 with a minimum grade of C
- Maintain a 3.0 critical-tracking GPA, excluding ECO 3101
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education course (typically, GE-C, H, or S).

FIN 3403, AEB 3450, AEB 4931, and GEO 3502, if taken, do not also count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

	Total Credits	120

Academic Learning Compact

This major teaches students the skills used to understand how households, firms and governments make economic decisions and the implications of those decisions for resource allocation, pricing, the distribution of income and macroeconomic variables.

Before Graduating Students Must

- Take the Economics Field Test conducted by the ETS. This test will be 10% of the student's grade in ECO 3203.The goal of the Department of Economics is that each student's average score exceeds the national average of 154; however, a score of 154 is not a graduation requirement.
- Students who want to graduate *magna cum laude* or *summa cum laude* must propose and defend an honors thesis before the department's undergraduate committee.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify indifference curves as representations of consumer preferences, and to evaluate these indifference curves in the context of preference relations.

Critical Thinking

2. Model and analyze unfamiliar social interactions using a formal economic framework.

Communication

3. Communicate effectively the concept of opportunity costs and tradeoffs.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3
ECO 2013	I, R, A	I, R, A	
ECO 2023	I, R, A	I, R, A	
ECO 3101	R, A		I, R, A
ECO 3203		R, A	I, R, A
Four ECO Electives	R, A	R, A	R, A

Assessment Types

- Embedded questions in exams and papers
- The ETS Field Test

Economics Minor

Through the study of economics, students learn how to look at a complex world and make sense of the wide variety of behaviors they observe. Students minoring in economics are introduced to the analytical skills used to understand how households, firms, and governments make economic decisions, comparing costs and benefits in an effort to maximize their own well-being or social objectives.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 22-23 | Completed with minimum grades of B for ECO 2013 and ECO 2023, minimum grades of C for remaining courses, and no optional S-U

The Economics minor is a suitable option for students of all undergraduate majors. Students minoring in economics can, for example, pursue coursework in managerial decision-making, international development, and quantitative methods.

Required Courses

Code	Title	Credits
MAC 2233	Survey of Calculus 1 (or higher)	3
ECO 2013	Principles of Macroeconomics	4
ECO 2023	Principles of Microeconomics	4
ECP 3703	Managerial Economics	4
Economics electives [1]		7-8
Total Credits		22-23

[1] Upper-division; any 3,000 or 4,000 level course with an ECO, ECP, or ECS prefix (not including ECO 3101, ECO 3203, ECO 4905, ECO 4941), and one of AEB 3450, FIN 3403, or GEO 3502.

Related Economics Programs

- Bachelor of Arts in Economics (p. 678)

English

Undergraduate study in English prepares students for diverse careers in law, publishing, advertising, media and business, teaching, and advanced degree work.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Specializations:** Models of Study
- **Credits for Degree:** 120
- **Additional Information**
- **Related English Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Courses offered by the department introduce students to a world of experiences that cannot be exhausted in the brief span of a college education; new authors, new works, new media, and new tools for understanding continually enlarge and transform the world. With the help of faculty advisors, undergraduate majors in English select from courses in various forms, periods and approaches. In addition, students may develop special expertise in one of several models; for example, communication and creative writing, theory of media, literary study, or cultural studies.

Coursework for the Major

Students pursuing the B.A. in English must take ten courses offered by the English department. These courses must be 3000 level or above, of no fewer than three credits each and completed with minimum grades of C. (The requirement is ten courses, not 30 credits).

Prerequisite to all 3000/4000-level courses are six credits of English at the 1000/2000 level or department permission. Students must take at least five of their 3000-level or above English courses at UF. Of 3000-level courses with an ENC prefix, only the following apply to the English major:

Code	Title	Credits
ENC 3250	Professional Communication	3
ENC 3310	Advanced Exposition	3
ENC 3312	Advanced Argumentative Writing	3
ENC 3414	Hypermedia	3

The student is responsible for consulting an advisor and preparing a plan of study.

Course Details

Because English majors will not be tracked for a specific set of courses, but must meet the ten-course requirement described above, there are no particular English courses that majors **must** take on a semester-by-semester basis.

The only prerequisite for most 3000/4000-level English courses is earning six credits of lower-division English course credit by coursework or placement (refer to Placement Section below). The classes that may have additional prerequisites are 3000/4000-level creative-writing (CRW) workshops, 4000-level film and video production workshops (ENG 4136 and ENG 4146), 3000/4000-level advanced writing (ENC) courses, department seminars (ENG 4953), honors seminars (ENG 4936), and the department's internship course (ENG 4940). Refer to the catalog's course descriptions to view the prerequisites for these courses.

As students try to decide which 3000/4000-level courses to take, they should not be concerned about differences between the two levels. The higher-level courses are not more difficult, except in the rare cases where the 4000-level course has 3000-level prerequisites. Course numbers are not created by the English Department but by a statewide course numbering system. Students can gauge a course's level of difficulty by reviewing the department's detailed course descriptions.

The majority of the department's upper-division courses are variable or rotating topics courses, many of which can be repeated for credit given a change in topic. The only way to discover what the actual course topics will be in a specific semester is to consult the department's course

descriptions, which explain topics and approaches, and generally give some idea of the texts and assignments. These descriptions are usually posted online three to four weeks before advance registration so that students have ample time to consult them before registering.

Specializations: Models of Study

The department encourages students to follow models of study to help them create coherent patterns of focus and breadth in their coursework. Models of study range from traditional courses of study such as British and American Literature, through film and media studies, creative writing and studies in theory, to cultural studies, postcolonial studies and studies in feminisms, genders and sexualities.

Models of study do not have tracking status. Students will never be monitored, electronically or otherwise, for completion of models of study. The models identify to English majors the faculty's enthusiastic recommendations about coursework distributions for various interests they might want to pursue. Department advisors also can recommend which models of study seem most appropriate for particular post-undergraduate career and educational goals.

- Advanced Writing
- African-American/African Diaspora Studies
- American Literature
- British Literature
- Children's Literature
- Creative Writing
- Cultural Studies
- Drama/Theatre
- Feminisms, Genders and Sexualities
- Film and Media Studies
- Medieval Studies
- Postcolonial Studies
- Studies in Theory

Because the models of study do not have tracking status, students do not need to declare their intention to follow models of study with the department. Models of study structure the coursework, but students do not have to take specific courses to complete degree requirements for the major, and they can modify or combine models of study. While the department understands that students may be disappointed if they are unable to take specific courses relevant to their models of study, the demand for seats in courses is very high and the department is not able to accommodate all course requests.

Placement

Scores on the verbal portion of the SAT or scores on the AICE, AP, IB or CLEP tests will determine the appropriate composition course. Refer to the charts in the Academic Advising section (p. 1414) for course equivalency and placement information.

The department recommends that all students take one 2000-level English department course (without duplicating any course for which they have received placement credit) before moving on to 3000/4000-level coursework. Courses taught at the university level are bound to differ from those taught at the high school level, no matter how enriched the high school curriculum may have been.

Freshmen who intend to major in English should consult a department advisor as soon as possible. Students who intend to establish an emphasis in film studies should take ENG 2300. Creative writing students should take CRW 1101 or CRW 1301.

Related English Programs

- English minor (p. 687)

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=230101&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.1 UF GPA required

Semester 3

- Complete 1 English department course at the 2000 level or higher
- 2.3 UF GPA required

Semester 4

- Complete 1 additional English department course at the 2000 level or higher with a 2.5 critical-tracking GPA

Semester 5

- Complete 1 additional English department course (1 of the 3 courses must be at the 3000 level) with a 2.5 critical-tracking GPA
- 2.5 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). One of the two general education mathematics courses must be a pure math course.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

Home to UF's programs in Creative Writing and Film and Media Studies, The Center for Children's Literature and Culture, and The Institute for the Psychological Study of the Arts, the Department of English bridges traditional literary studies with new critical and theoretical disciplines. These include: critical theory and cultural studies; creative writing; rhetoric and composition; children's and young adult literature; contact period studies; postcolonial and/or diasporic studies; film studies/film and video production; gender studies and feminist theory; new media; psychology and literature; and imagetext studies.

Individualized programs balance focus with a flexible curriculum that spans periods, genres and media, and fosters careful analysis across disciplines and methodologies. Received traditions are renovated and new intersections of critical and literary practice are fostered within the framework of the *Context Model* system. Students are encouraged to define and pursue original work and/or creative work.

The study of English is vitally concerned with the texts and contexts of public culture. The department's curriculum cultivates a responsible understanding of the cultural and material conditions that shape historical and contemporary texts, and instructs students in the communication skills necessary to produce materials that disseminate new thought and knowledge by engaging with "fundamental questions" in the arts and humanities.

Before Graduating Students Must

- Complete ten English courses (3000 or above) that demonstrate proficiency in the student learning outcomes; assessments will be graded according to an evaluation rubric during the student's inaugural and final semesters in the major.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify materials, terminologies, methodologies and theories within one or more context models:
   a. Advanced Writing
   b. African-American/African Diaspora Studies
   c. American Literature

   j. Film and Media Studies
   k. Medieval/Early Modern Studies
   l. Postcolonial Studies
   m. Studies in Theory

Critical Thinking

2. Communicate knowledge, ideas and reasoning effectively in written, oral or other forms appropriate to the context model(s).

Communication

3. Evaluate cultural narratives and/or objects, employing methodologies and criteria appropriate to the context model(s).

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3
Assessment 1 (First semester in the major)	A	A	A
Context Model Courses[1]	I, R	I, R	I, R
Assessment 2 (Final/graduating semester)	A	A	A

[1] Course selection and sequence vary by student choice and courses can be affiliated with multiple context models.

Assessment Types

- Instructors rely on course assignments, most often critical essays, as prescribed by context models and as assessed the inaugural and final semesters of the student's enrollment in the upper-division major.

English Minor

This minor provides the opportunity to study literature, rhetoric, creative writing or film and media, while gaining critical, analytical, and intellectual skills.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 15 minimum | Completed with minimum grades of C and no optional S-U
- **Related English Programs**

- Only one course with the number ENG 4905 can apply, unless an exception is approved by the undergraduate studies coordinator
- Of 3000-level courses with an ENC prefix, only the following apply to the English minor:

Code	Title	Credits
ENC 3250	Professional Communication	3
ENC 3310	Advanced Exposition	3
ENC 3312	Advanced Argumentative Writing	3
ENC 3414	Hypermedia	3

- Students must complete a minimum six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Code	Title	Credits
Select five at the 3000/4000 level: [1]		15
Only these Prefixes Apply

European Jewish Studies Certificate

An interdisciplinary, individualized, and experiential study of European Jewry, including comparison with North African and Middle Eastern populations outside and sometimes within continent's borders.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 15 | Completed with minimum grades of C
- **Contact:** Email (zachmann@ufl.edu) | Email (jkugelma@ufl.edu)
- **Related Jewish or Hebrew Programs**

Open to all students enrolled in an undergraduate degree program at the University of Florida.

Offered by the Center for Jewish Studies in cooperation with the Center for European Studies and participating UF units, the certificate in European Jewish Studies is designed to familiarize students with key issues in the Jewish experience in Europe, including relations with other groups; the trajectory of Jewish integration in European societies and cultures; representations of the Jew within European cultures; and comparisons with North African and Middle Eastern populations outside and within the continent's borders.

The EJS certificate provides students with multiple opportunities for concentrated and experiential areas of study. It allows students to work closely with their EJS faculty advisor to develop targeted, individualized areas of expertise from an array of specialists and perspectives to complement their majors and/or to prepare them for careers in governmental and non-governmental organizations, education, international business and politics, museums, festivals, libraries, Jewish associations and foundations. Students may specialize in national contexts or comparative and transnational cases, events and issues.

Requirements

Requirements consist of EJS approved individual study plans of 15 credit hours and attendance at a minimum of five relevant public lectures sponsored or co-sponsored by the Center for Jewish Studies and the Center for European Studies. Since availability of courses varies from year to year and new courses are often added, students should consult with a faculty adviser to determine which courses are approved for the certificate

Foreign Languages and Literatures

The major provides a foundation for graduate work in Foreign Languages and Literatures or allied fields (anthropology, art history, history, linguistics, political science, religion). A Foreign Languages and Literatures major is excellent general preparation for entry to professional schools (business, journalism, law and medicine) or careers in foreign service, diplomacy, translation, commerce, business, import and export of information and culture, museums and libraries, and tourism.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Specializations:** African Languages (p. 517) | Arabic (p. 550) | Chinese (p. 628) | Dual Languages (p. 692) | French and Francophone Studies (http://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/FFS_BA) | German (p. 772) | Hebrew (p. 782) | Italian (p. 815) | Japanese (p. 822) | Russian (p. 926)
- **Credits for Degree:** 120
- **Additional Information**

To graduate with this major, students must complete all university, college, and major requirements.

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

Foreign Languages and Literatures Specializations

- African Languages (p. 517)
- Arabic (p. 550)
- Chinese (p. 628)
- Dual Languages (p. 692)
- French and Francophone Studies (http://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/FFS_BA)
- German (p. 772)
- Hebrew (p. 782)
- Italian (p. 815)
- Japanese (p. 822)
- Russian (p. 926)

Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target

language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
Category A[1]	I, R	I	I	I, R, A
Category B[2]	I, R, A	I, R, A	I, R, A	

1 Courses focus on the acquisition of the language(s) of specialization at the advanced level.

2 Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types

- Proficiency exams
- Term papers or final projects
- Oral presentations

Dual Languages

The major provides a foundation for graduate work in Foreign Languages and Literatures or allied fields (anthropology, art history, history, linguistics, political science, religion). A Foreign Languages and Literatures major is excellent general preparation for entry to professional schools (business, journalism, law and medicine) or careers in foreign service, diplomacy, translation, commerce, business, import and export of information and culture, museums and libraries, and tourism.

- Russian (p. 926)

Dual Language Specialization

The Dual Language specialization of the Foreign Languages and Literature major offers students the opportunity to specialize in two of the languages offered by the Department of Languages, Literatures and Cultures (LLC). Students can combine any of the languages offered as specializations and/or they can combine any of these languages with a specialization in Haitian Creole or Vietnamese.

Students who choose this track will develop proficiency in two languages as well as acquire cultural knowledge of more than one language area. Dual language majors will be specially poised to make both broad and deep linguistic and cultural comparisons and to build cross-cultural and cross-linguistic connections, skills that will prepare them to operate and work in multi-lingual and multi-cultural societies as well as across various complex regions of the world. Further, dual language majors will be able to apply the language-learning skills gained in the study of one language of specialization to reinforce their acquisition of a second language of specialization.

In the Dual Language specialization, students will complete two years of study of a principal language of specialization and two years of study of a second language taught in LLC. Students will also complete advanced coursework in the languages, their literatures and cultures, as well as a critical concentration.

There are a number of possibilities inherent in the Dual Language major. The following are some potential paths of study:

1. Dual Language: Haitian Creole with French and Francophone Studies
2. Dual Language: Vietnamese with Chinese

Students interested in the dual language specialization should consult with the undergraduate coordinator to determine the best course of study and to discuss practical and intellectually advantageous language pairings.

Coursework for the Major

The Dual Language specialization consists of two years of study of two languages. The 33 credits required includes 6 credits earned at the intermediate level in the second language, 18 credits of study in language, literature, and culture at the 3000 level or higher, and the 9 credit critical concentration. Students select a principal language of specialization and combine it with any of the other languages taught in the Department of Languages, Literatures, and Cultures. Course selections for the 18 credits of advanced electives will reflect the literature and culture of either language of specialization.

All coursework for the major must be completed with minimum grades of C.

Required Foundation Coursework
(not included in the 33 credits for the major)

First Language of Specialization

Advanced Elective Coursework

18 credits of advanced language and culture study with at least 6 credits at the 4000 level

Specific course offerings in this section will depend on the language(s) selected, but these courses should be selected from the advanced elective offerings (3000/4000 level courses) associated with either language of specialization. Selections should include at least two courses at the 4000 level. Students should consult with the undergraduate coordinator to develop the best course of study.

Critical Concentration

9 credits from one of the following concentrations

Although courses may appear in more than one group they may be counted toward only one group

- Comparative Cultural Studies
- Film and Visual Culture
- Intensive Area Studies: Specific course offerings in this section will depend on the languages selected, but these courses should be selected from the advanced elective offerings (3000/4000 level courses) associated with the first and second language of specialization and their broader geographical area of cultural influence.
- Literary Studies
- Medieval and Early Modern Studies

A maximum of 15 credits non-UF overseas study credit may apply to the major. Students must have all overseas study credit that will transfer to the major approved by their major advisor.

Overseas Study

The department recommends no more than 12-15 credits from overseas study, depending on the requirements of the language specialization and in consultation with the appropriate Undergraduate Coordinator.

Placement

Students with previous training in their language of specialization as well as those with heritage background in that language should consult with the LLC undergraduate coordinator in order to have their level assessed before enrolling in any language course.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160501&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete Language A: Semester 1 or higher-level Language A course with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete Language A: Semester 2 or higher-level Language A course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete Language A: Semester 3 or higher-level Language A course and Language B: Semester 1 with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Language A: Semester 1 (**Critical Tracking**)		5
State Core Gen Ed Biological or Physical Sciences (p. 23)		3

Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
Category A[1]	I, R	I	I	I, R, A
Category B[2]	I, R, A	I, R, A	I, R, A	

1 Courses focus on the acquisition of the language(s) of specialization at the advanced level.

2 Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types

- Proficiency exams
- Term papers or final projects
- Oral presentations

French and Francophone Studies

Foreign Languages and Literatures

French is considered a strategic language for global communications in matters of security, health, business, and cultural exchange. It is the key language to understanding the culture and history of the Francophone world. A specialization in French and Francophone studies offers the linguistic, cultural, and intellectual training students need for an increasingly globalized future. In addition, the specialization forges links between the present and the past, as it encourages students to explore the exceptionally rich humanistic tradition of France and the Francophone world from the Middle Ages through the modern period.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Additional Information**
- **Related French Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

A French and Francophone studies specialization of the Foreign Languages and Literatures major provides students with a strong command of the French language and an understanding of the cultures of the Francophone world. The specialization gives a foundation in the French Language, including speaking, reading, writing, and listening. Our emphasis on communicative approaches and linguistic and cultural competencies trains our students to compete in an increasingly globalized workforce. In addition, the major develops skills in critical thinking and research through in-depth study of the exceptionally rich humanistic tradition of France and the Francophone world throughout history. The program allows each student the flexibility to explore a variety of disciplines within the specialization and to design an individual course of study to reflect a particular interest in linguistics, literatures, cinema, cultural production, or other fields.

The specialization offers an excellent base for diverse careers including diplomacy, international relations, journalism, translation, education, global health, banking, and business. Many of our students choose to combine the French and Francophone specialization with another field of study, including majors in physical sciences and engineering.

Coursework for the Major

The French and Francophone studies specialization in Foreign Languages and Literatures consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

Intensive Area Studies: French and Francophone Studies (recommended for those planning to pursue careers requiring advanced level skills in French or graduate work in French and Francophone studies)		
Comparative Cultural Studies		
Film and Visual Culture		
Literary Studies		
Medieval and Early Modern Studies		
Total Credits		33

Overseas Studies

Students specializing in French and Francophone studies are encouraged to study abroad for a summer or a semester. Students regularly participate in UF Programs in Paris or UF-approved study-abroad programs in other regions of France or in the Francophone world. Students also can consider the opportunities offered with UF's reciprocal exchange agreements with Rennes II and Sciences Po. Students in approved overseas study programs can earn up to 15 credits beyond the 120 credits required for graduation. Refer to UF International Center information and contact a department advisor. More Info (https://internationalcenter.ufl.edu/study-abroad)

Placement

Students with previous training should speak with the department before registering.

- Students with previous study or experience in French should enroll in FRE 1134 or use standardized French examination scores (AICE, AP, CLEP or IB) to determine their appropriate placement in a higher-level course. Such students cannot enroll in FRE 1130 or FRE 1131.
- Any student who has lived in a French-speaking country for more than a year or who is francophone must consult a department advisor before enrolling in any FRE course.

Research

Students with an upper-division GPA of 3.5 are encouraged to write a thesis for high or highest honors at graduation. Students planning to specialize in French and Francophone studies should see a department advisor before registering.

Related French Programs

- French and Francophone Studies minor (p. 709)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160901&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete FRE 1130 or higher-level French course with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete FRE 1131 or maintain higher-level French course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete FRE 2220 or a higher-level French course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). 3000 level or above critical concentration courses outside of French may count toward the 3000 level or above electives outside of the major.

Beginning language is best started semester 1 and absolutely no later than semester 3, but study abroad or accredited intensive summer courses can be used to fall in with an ideal semester progression.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
