1 The L000 course number has no UF course equivalent. The credit applies to the minimum credits for the degree but does not provide credit for general education, writing requirement or count toward the major.

2 Writing requirement (6000 words).

AP Exam Credit

Students completing approved AP examinations with scores of three or higher will earn UF credit.

Scores of three or higher on AP Chinese, French, German, Italian, Japanese, Latin, Russian, and Spanish language examinations fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences, the College of Journalism and Communications, and B.A. programs in the College of the Arts.

AP Calculus Placement Scores More AP Information (http://www.collegeboard.com/student/testing/ap/about.html)

The UF course credit that students earn depends on their score on each AP exam and whether the credit earned will count for general education (p. 23) and the writing requirement (p. 1421) (6,000 words).

[1] The L000 course number has no UF course equivalent. The credit applies to the minimum credits for the degree but does not provide general education credit or count toward the major.

[2] Writing requirement (6000 words).

IB Exam Credit

Students will receive credit for scores of 4 or higher on both higher-level and standard-level examinations.

Scores of 4 or higher on IB French B, German B, Italian B, Latin, and Spanish B examinations fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences, the College of Journalism and Communications, and B.A. programs in the College of the Arts.

More IB Information (http://www.ibo.org)

The chart specifies which UF course credit students will earn depending on their score on each IB exam and whether the credit earned will count for general education (p. 23) and the writing requirement (p. 1421) (6,000 words).

Beginning with the 2019 Catalog, students may be awarded a maximum of 30 credit hours for IB exams.

2 Writing requirement (6000 words).

Flexible Learning

Contact

352.392.1711
Email (learn@dce.ufl.edu)

Distance and Continuing Education

Distance & Continuing Education (DCE) offers fully online undergraduate courses for college credit through UF Flexible Learning.

The primary purpose of this program is to provide high-quality flexible educational opportunities for students in the State University System, Florida College System, and beyond who are not currently enrolled at UF and:

- Have conflicting schedules
- Need to meet general education or writing requirement
- Need to meet course prerequisites
- Want personal enrichment

Students who are not enrolled at UF should consult an academic advisor at their institution prior to enrolling in courses to ensure transfer of the credit. DCE is not responsible for ensuring that any credit received is transferable.

UF students interested in taking a Flexible Learning course must first consult with their academic advisor. UF students may apply up to two (2)

Flexible Learning courses toward a degree and must seek college dean's office approval to exceed this limit. Advisors and the DCE office will approve access to a Flexible Learning course if the student is below the two (2) course limit and meets at least one (1) of the following criteria:

- The student has a health concern
- There are circumstances preventing the student from physically being on campus and the course is not offered online
- The student requires off-calendar, flexible format solution required for scholarship, tracking, and/or graduation requirements

Students can register for these courses online.
More Info (http://flexible.dce.ufl.edu)

Enrolling in Flexible Learning courses does not require a transcript of previous academic work, nor are students required to apply for, or to be admitted, to the University of Florida to earn college credit. These courses operate on an open enrollment policy and do not follow UF's academic calendar. Registrations are processed and accepted Monday-Friday, excluding UF holidays.

UF Flexible Learning courses are self-paced, allowing students to complete coursework more quickly than typical online or residential courses. Students have a maximum of sixteen (16) weeks to complete their course, but in many courses, may take as few as four (4) weeks. If the on-campus academic semester changes during this time, a non-punitive deferred grade of H will appear on the student's transcript.

When the registration process has been finalized, UF Flexible Learning will send students their expiration date. Students should take note of this date and plan their work accordingly. Any coursework not completed by this date may result in grade penalties.

If students make significant progress in their coursework, but are unable to complete it due to extenuating circumstances, they are expected to contact instructor about receiving an incomplete grade.

Complete Course Listing (http://flexible.dce.ufl.edu/courses)

Placement

Placement is an assessment of a student's level of preparation in a subject. The purpose of placement is to help students enroll in the courses in which they are most likely to be successful.

- Incoming Credit and Credit by Examination Information (p. 1408)

English Composition

All students need to review placement requirements for these courses, unless they already have college credit for an English Composition course.

Students will be placed based on their SAT or ACT verbal score, unless they already have college credit for an English composition course.

- Students with a 640 (or lower) on the verbal portion of the SAT and/or a 28 (or lower) on the verbal portion of the ACT must enroll in ENC 1101.
- Students with a 650 (or higher) on the verbal portion of the SAT or a 29 (or higher) on the verbal portion of the ACT may enroll in any 1000/2000-level composition course beyond ENC 1101. These students should not enroll in ENC 1101.
- **Students with college credit for English Composition (from AICE, AP, CLEP, IB, or dual enrollment)** should consult an advisor to determine which, if any, additional courses are needed to meet degree requirements.

Mathematics

If a student intends to pursue a science or engineering major or intends to go on to a health profession after completing the bachelor's degree, they should take these algebra, precalculus, and calculus courses. A number of business and technical majors require specific math courses. Students should check the information on their majors of interest to determine if algebra/precalculus/calculus are required.
More Info (p. 1378)

Placement is used for the following MAC courses:

Code	Title	Credits
MAC 1105	Basic College Algebra	3
MAC 1140	Precalculus Algebra [1]	3
MAC 1147	Precalculus Algebra and Trigonometry (a fast-paced review of both areas)	4
MAC 2233	Survey of Calculus 1	3
MAC 2311	Analytic Geometry and Calculus 1 (typically recommended for pre-health students)	4

[1] The sequence MAC 1140 and MAC 1114 covers the same material as MAC 1147, but at a slower pace.

The math course(s) you take will depend on what your major requires (or if you are pre-health), whether you have incoming math credit, the math course you took last year and whether you were able to use a calculator during exams, whether you want to strengthen your foundation before moving on to new material, and your ALEKS placement score.

To determine which math course (if any) is required for a major, please check the requirements for that major (p. 1378). If a student's major requires MAC 2234 or MAC 2312 or higher, they must have credit for the prerequisite course. If a student has credit via AP, consult the AP Scores for Calculus Placement (p. 1408) table. If not, consult with an academic advisor.

Some graduate programs in the health professions such as pharmacy, optometry, and veterinary medicine may require calculus as a prerequisite to admission. Consult the Pre-Health Pre-Requisite Course Chart (https://www.advising.ufl.edu/pre-health/apply/prepare/academic-preparation) for more information.

- **If a major requires no particular math course,** students may take Gen Ed math courses such as MGF 1106 or MGF 1107 without any placement.
- **If a student needs one of the MAC courses listed above and doesn't have incoming credit, they should take the ALEKS placement exam,** and then discuss which math course should be taken with an advisor.
- **If a student has incoming math credit,** they may use that as placement into MAC courses if the credit appears on their UF transcript or the student provides proof of credit. However, the ALEKS placement is the best predictor of success in UF MAC courses. Even if a student has credit, they are **strongly encouraged to take ALEKS.** Taking ALEKS will assess a student's *current* knowledge base and its fit with the UF curriculum. After taking ALEKS, the student should discuss which math course they should take with an advisor.

It can be helpful for students to take a lower course or even retake a course to strengthen their foundation before moving on to a higher class. A student's ALEKS score can help assess their current preparation. Consult with an academic advisor if unsure.

ALEKS

Placement via ALEKS Score

Majors that Require MAC 1105, MAC 1140, MAC 1147, or MAC 2311; or for Pre-Health

ALEKS Score	May begin with the course in bold (or a lower course)
0 – 34%	**MAC 1105**; MAC 1140; MAC 1114; MAC 2311
35 – 49%	**MAC 1140**; MAC 1114; MAC 2311
50 – 74%	**MAC 1147**; MAC 2311
75% and Above	**MAC 2311**

Majors that Require MAC 2233

ALEKS Score	May begin with the course in bold (or a lower course)
0 – 34%	**MAC 1105**; MAC 1140; MAC 2233
35 – 49%	**MAC 1140**; MAC 2233
50% and Above	**MAC 2233**

Incoming Credit

Placement via Incoming Credit

If a student has earned credit with a C or better for:

- MAC 1105: take MAC 1140 (if needed)
- MAC 1140: take MAC 1114 or MAC 2233 (if needed, course depends on major requirements)
- MAC 1147 (or both MAC 1140 and MAC 1114): take MAC 2311 if needed. *Credit must be in progress at UF, completed and on the student's UF transcript or the student must provide proof of incoming credit.*
- *It may be helpful for students to retake a course to strengthen their foundation before moving on to a higher class. This is especially true if the incoming credit course was taken more than one year ago or if the student earned a grade lower than B. A student's ALEKS score can help assess their current preparation. Consult with an academic advisor if unsure.*

AICE, AP, or IB Exam Credit

Refer to award of incoming credits to see which courses earn credit. For courses through MAC 2311, ALEKS is still the best predictor of success in MAC courses at UF, so students are encouraged to take ALEKS and follow the score guidelines.

Transfer Credit

Earning the minimum grades in prerequisite courses does not guarantee success in the next math course. The Department of Mathematics encourages students to take the ALEKS exam even if they have credit for a MAC course. Quite often, a student's skills may need review and placement assessment can provide information and specific areas for additional study.

Please read the complete information about the mathematics placement exam (https://www.student.ufl.edu/aleksinfo.html).

AP Scores for Calculus

Placement via AP Scores for Calculus

UF offers two introductory calculus courses: MAC 2233 and MAC 2311 as well as subsequent courses in both sequences. Students should consult the majors (p. 1378) section to determine which calculus course(s) may be required for their major.

Calculus AB or BC

AP Exam Score	Register in	Additional Information
1 or 2	MAC 1105 or MAC 1140 or MAC 1147	Students with a score of 1 or 2 on an AP Calculus exam must take the ALEKS placement exam (https://student.ufl.edu/aleksinfo.html) to determine the course for which they are prepared. Then consult the Algebra/Precalculus placement information to determine the correct course.

Calculus AB

AP Exam Score	Register in	Additional Information
3	MAC 2311	Students will receive credit for MAC 2311. If the student's requirements include MAC 2312 or higher, they should retake MAC 2311.
4	MAC 2312	Students may repeat MAC 2311 or continue on to MAC 2312 (if needed for their requirements). Check with major department to determine if there is major-specific advice regarding repeating.[1]
5	MAC 2312	If a student needs MAC 2312, they should have appropriate background for that course.[1]

[1] Course descriptions (p. 1455)

Calculus BC

AP Exam Score	Register in	Additional Information
3	MAC 2311	Students will receive credit for MAC 2311. If the student's requirements include MAC 2312 or higher, they should retake MAC 2311.[1]
4	MAC 2312	Students will receive credit for MAC 2312. If the student's requirements include MAC 2313 or higher, they may retake MAC 2312 or go on to MAC 2313 if they are very confident of their background. Check with major department to determine if there is major-specific advice regarding repeating.[1]
5	MAC 2313	If a student needs MAC 2313, they should have appropriate background for that course. Check with major department to determine if there is major-specific advice regarding repeating.

[1] Course descriptions (p. 1455)

General Chemistry

If a student intends to pursue a science or engineering major or intends to go on to a health profession after completing the bachelor's degree, they should take these general chemistry courses. Students should check the information on their majors of interest to determine if general chemistry is required.

The general chemistry sequence CHM 2045/CHM 2045L and CHM 2046/CHM 2046L meets the preprofessional requirements for many science and engineering majors. CHM 2095/CHM 2095L and CHM 2096/CHM 2046L is an alternate general chemistry sequence specifically for engineering majors.

Placement into CHM 2045 **or** CHM 2095 **Requires**

- Successful completion with a grade of C or better of MAC 1147 (or both MAC 1140 and MAC 1114) or higher

AND

- Successful completion with a grade of C or better of CHM 1025
  OR
  a 75% on the ALEKS math placement exam.

If a student enrolls in and successfully completes CHM 1025 and MAC 1147 (or MAC 1140 and MAC 1114), they can enroll in CHM 2045 or CHM 2095 the next semester. Students who enroll in CHM 1025 but do not successfully complete with a C or better cannot place into CHM 2045 using an ALEKS score of 75%. Such students will need to repeat CHM 1025 and earn a C or better to go on to CHM 2045.

Students with credit for CHM 2045 via AP and IB scores or dual enrollment (with a minimum grade of C) should discuss their next chemistry course with an advisor. Students who wish to repeat CHM 2045, take CHM 2095 or go on to CHM 2046/CHM 2096 must have successfully completed MAC 1147, MAC 1140 and MAC 1114, or higher or the equivalent as determined by the Mathematics Department.

Students who wish to enroll in CHM 2047, the one-semester General Chemistry, and its co-requisite laboratory CHM 2047L, must meet the following conditions:

- AICE, AP, or IB credit for at least CHM 2045 and laboratory
- Approval of the Honors Program office or the Department of Chemistry.

Foreign Languages

College-level foreign language is required by several programs: Liberal Arts and Sciences and the B.A. programs in the College of the Arts have a proficiency requirement; students in Journalism and Communications may choose between foreign language proficiency or a quantitative option. Construction management majors must complete one semester of Spanish.

French

- Students with no prior study of French or a maximum of French 1 on their high school transcript may enroll directly in FRE 1130. No placement exam is required.
- Students with French 2 on their high school transcript may enroll directly in FRE 1134. No placement test is required.
- Students with French 3 or 4 on their high school transcript may enroll directly in FRE 2220, but are strongly encouraged to speak with the department to determine the best course based on their background. Students with French 3 or 4 may NOT enroll in 1000-level FRE courses without the permission of the French lower-division coordinator.
- Students who have taken French exams via Advanced International Certificate of Education (AICE), Advanced Placement (AP), College Level Examination Program (CLEP), or International Baccalaureate (IB), should consult the French Placement and Course Equivalency (http://languages.ufl.edu/files/french-placement-handout-2019-revised.pdf) page to determine whether they have received credit for a French course and which course to take next.
- Students who wish to demonstrate proficiency in French in order to meet the College of Liberal Arts and Sciences (CLAS), College of Journalism and Communications (JM), or B.A. in the College of the Arts (FA) degree requirements must do one of the following:
  - Complete the terminal course in the Beginning French sequence (or higher) with a satisfactory grade
  - Earn sufficient scores on an AICE, AP, CLEP, or IB exam.
  - Earn a passing score on the Foreign Language Proficiency Exam (FLPE) (https://teachingcenter.ufl.edu/testing/flpe)

Spanish

Students with any prior study or knowledge of Spanish who wish to enroll in a Spanish course are required to take the WebCAPE online placement test (http://spanishandportuguese.ufl.edu/undergraduate-programs/lower-division-spanish-program/spanish-placement), which is designed to help them determine the best course based on their background.

- Students who took a language other than Spanish in high school are not required to take this test. They may enroll in SPN 1130.
- Students who have taken Spanish exams via Advanced International Certificate of Education (AICE), Advanced Placement (AP), College Level Examination Program (CLEP), or International Baccalaureate (IB) are encouraged but not required to take the WebCAPE and should consult the Spanish Placement and Course Equivalency (http://spanishandportuguese.ufl.edu/files/SPNPlacementEquivalencyCharts.pdf) page to determine whether they have received credit for a Spanish course and which course to take next.
- Students who wish to demonstrate proficiency in Spanish in order to meet the College of Liberal Arts and Sciences (CLAS), College of Journalism and Communications (JM), or B.A. in the College of the Arts (FA) degree requirements must do one of the following:
  - Complete the terminal course in the Beginning Spanish sequence (or higher) with a satisfactory grade
  - Earn sufficient scores on an AICE, AP, CLEP or IB exam.
  - Earn a passing score on the Foreign Language Proficiency Exam (FLPE) (https://teachingcenter.ufl.edu/testing/flpe)

Anyone with any prior study or knowledge of Spanish MUST provide a test score to register for a Spanish course.

A passing grade in SPN 1131 or a higher level SPN courses successfully fulfills the foreign language proficiency requirement for the College of Liberal Arts and Sciences, the College of Journalism and Communications and B.A. programs in the College of the Arts. Students wishing to satisfy the foreign language proficiency requirement by examination must do so through the appropriate AP, IB, or AICE Spanish scores. WebCAPE is only a placement exam.

Other Languages

Students with a prior background in languages other than French or Spanish should consult with the department regarding placement. Students who wish to demonstrate proficiency in that language in order to meet the College of Liberal Arts and Sciences (CLAS), College of Journalism and Communications (JM), or B.A. in the College of the Arts (FA) degree requirements must do one of the following:

- Complete the terminal course in the Beginning sequence (or higher) of that language with a satisfactory grade
- Earn sufficient scores on an AICE, AP, CLEP or IB exam.
- Earn a passing score on the Foreign Language Proficiency Exam (FLPE) (https://teachingcenter.ufl.edu/testing/flpe)
- Consult the department regarding proficiency for languages not offered by the FLPE.

Preprofessional Advising

Pre-Health

Pre-Health Advising is offered to students from all UF majors who intend to pursue a graduate program in the health professions such as medical, dental, veterinary, pharmacy, physician assistant, optometry, physical therapy, or occupational therapy school. Pre-Health students can choose almost any major.

All pre-health students are encouraged to enroll in Pre-Health Essentials, a non-credit e-learning resource offered by the Pre-Health Advising Office. Pre-Health Essentials offers workshops and resources for pre-health students to help explore and prepare for a healthcare profession.
More Info (http://www.advising.ufl.edu/prehealth)

Pre-Health Students

Plan to complete the following courses, which are the basic prerequisites for many pre-health graduate programs. However, some health professions do not require all of these courses, and some require more. Also, requirements vary from program to program, so you should carefully investigate the requirements of the institutions to which you plan to apply.

Mathematics

At least two semesters of college-level mathematics; one semester of statistics (STA 2023) is required. Calculus (MAC 2311 or MAC 3472) is recommended for pre-medical students, and required for pre-pharmacy and pre-optometry students.

General Chemistry

Code	Title	Credits
Select one of the following options:		5-8
Option A:		
CHM 2045	General Chemistry 1	
& 2045L	and General Chemistry 1 Laboratory	
CHM 2046	General Chemistry 2	
& 2046L	and General Chemistry 2 Laboratory	
Option B:		
CHM 2045	General Chemistry 1	
& 2045L	and General Chemistry 1 Laboratory	
CHM 2051	Honors General Chemistry 2	
& CHM 2046L	and General Chemistry 2 Laboratory	
Option C:		
CHM 2095	Chemistry for Engineers 1	
& CHM 2045L	and General Chemistry 1 Laboratory	
CHM 2096	Chemistry for Engineers 2	
& CHM 2046L	and General Chemistry 2 Laboratory	
Option D		
CHM 2047	One-Semester General Chemistry	
& 2047L	and One-Semester General Chemistry Laboratory	

Organic Chemistry

Code	Title	Credits
Select one of the following options:		8-10
Option A:		
CHM 2210	Organic Chemistry 1	
CHM 2211	Organic Chemistry 2	
CHM 2211L	Organic Chemistry Laboratory	
Option B:		
CHM 3217	Organic Chemistry/Biochemistry 1	
CHM 3218	Organic Chemistry/Biochemistry 2	
CHM 2211L	Organic Chemistry Laboratory	

Biochemistry

One semester is required by many professional schools. BCH 4024 or CHM 3218

Physics

Code	Title	Credits
Select one of the following options:		8-10
Option A:		
PHY 2053	Physics 1	
& 2053L	and Laboratory for Physics 1	
PHY 2054	Physics 2	
& 2054L	and Laboratory for Physics 2	
Option B:		
PHY 2048	Physics with Calculus 1	
& 2048L	and Laboratory for Physics with Calculus 1	
PHY 2049	Physics with Calculus 2	
& 2049L	and Laboratory for Physics with Calculus 2	
Option C:		
PHY 2060	Enriched Physics with Calculus 1	
PHY 2061	Enriched Physics with Calculus 2	
PHY 2048L	Laboratory for Physics with Calculus 1	
PHY 2049L	Laboratory for Physics with Calculus 2	

Biology

Code	Title	Credits
BSC 2010	Integrated Principles of Biology 1	4
& 2010L	and Integrated Principles of Biology Laboratory 1	
BSC 2011	Integrated Principles of Biology 2	4
& 2011L	and Integrated Principles of Biology Laboratory 2	

English

At least two semesters

Additional Course Requirements

Pre-Medical Students

Should also take:

Code	Title	Credits
PSY 2012	General Psychology	3
SYG 2000	Principles of Sociology	3

Pre-Dental Students

Should also take:

Code	Title	Credits
Select one of the following:		4-5
MCB 3020	Basic Biology of Microorganisms	
& 3020L	and Laboratory for Basic Biology of Microorganisms (non-microbiology majors)	

MCB 3023	Principles of Microbiology
& 3023L	and Principles of Microbiology Laboratory (microbiology majors)

Pre-Optometry Students

Should also take:

Code	Title	Credits
Select one of the following:		4-5
MCB 3020	Basic Biology of Microorganisms	
& 3020L	and Laboratory for Basic Biology of Microorganisms	
MCB 3023	Principles of Microbiology	
& 3023L	and Principles of Microbiology Laboratory	
Also recommended:		
APK 2100C	Applied Human Anatomy with Laboratory	4
APK 2105C	Applied Human Physiology with Laboratory	4
PSY 2012	General Psychology	3

Pre-Pharmacy Students

Should also take:

Code	Title	Credits
Select one of the following:		8-9
APK 2100C	Applied Human Anatomy with Laboratory	
& APK 2105C	and Applied Human Physiology with Laboratory	
ZOO 3713C	Functional Vertebrate Anatomy	
& PCB 4723C	and Physiology and Molecular Biology of Animals (acceptable for UF College of Pharmacy)	
Select one of the following:		4-5
MCB 3020	Basic Biology of Microorganisms	
& 3020L	and Laboratory for Basic Biology of Microorganisms (non-microbiology majors)	
MCB 3023	Principles of Microbiology	
& 3023L	and Principles of Microbiology Laboratory (microbiology majors)	
Also recommended:		
ECO 2023	Principles of Microeconomics	4
or ECO 2013	Principles of Macroeconomics	

Pre-Veterinary Students

Should also take:

Code	Title	Credits
Select one of the following:		4-5
MCB 3020	Basic Biology of Microorganisms	
& 3020L	and Laboratory for Basic Biology of Microorganisms (non-microbiology majors)	
MCB 3023	Principles of Microbiology	
& 3023L	and Principles of Microbiology Laboratory (microbiology majors)	
Select one of the following:		3-4
PCB 3063	Genetics (non-microbiology majors)	
or AGR 3303	Genetics	
ANS 3384C	Genetics of Domestic Animals	
Also recommended:		
ANS 3006	Introduction to Animal Science	3
ANS 3440	Principles of Animal Nutrition	4

Pre-Physician Assistant Course Recommendations

Code	Title	Credits
CHM 2045	General Chemistry 1	4
& 2045L	and General Chemistry 1 Laboratory	
CHM 2046	General Chemistry 2	4
& 2046L	and General Chemistry 2 Laboratory	
CHM 2210	Organic Chemistry 1	3
or CHM 2200	Fundamentals of Organic Chemistry	
BSC 2010	Integrated Principles of Biology 1	4
& 2010L	and Integrated Principles of Biology Laboratory 1	

BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2	4
APK 2100C	Applied Human Anatomy with Laboratory	4
APK 2105C	Applied Human Physiology with Laboratory	4
Select one of the following:		4-5
MCB 3020 & 3020L	Basic Biology of Microorganisms and Laboratory for Basic Biology of Microorganisms	
MCB 3023 & 3023L	Principles of Microbiology and Principles of Microbiology Laboratory	
STA 2023	Introduction to Statistics 1	3
HSC 3537	Health and Medical Terminology	3
Also recommended:		
PSY 2012	General Psychology	3

SPC 2608 or AEC 3030C	Introduction to Public Speaking Effective Oral Communication	3

Pre-Law

UF's pre-law advisors offer students assistance as they explore their interest in law and provide guidance during the law school application process. Students are encouraged to utilize UF's pre-law resources:

- **Pre-law Website**: Review pre-law tips, timelines and resources at www.advising.ufl.edu/prelaw.
- **Pre-law Listserv**: Join the listserv to receive pre-law announcements and stay connected with UF's abundant pre-law activities. Instructions are available at: www.advising.ufl.edu/pre-law/pre-law-listserv/.
- **Pre-law Advising:** Pre-law advisors are located in the College of Liberal Arts and Sciences Academic Advising Center in Farrior Hall. Students may call to make an appointment (352.392.1521) or come in as a walk-in. In addition, students may reach the pre-law advisors at prelaw@advising.ufl.edu.

Choosing a Major

Pre-law students must develop analytic and problem-solving skills, critical reading abilities, writing skills, oral communication and listening abilities, research skills, and organization and priority management skills. These skills can be attained through virtually any major in combination with a wide variety of complementary electives. There is no "pre-law" major at UF; students should choose a major in which they have a true interest and select a broad, diverse, and challenging array of courses from demanding instructors in order to prepare for success in law school.

Exploration

Pre-law students are encouraged to carefully assess their interest in and motivation for attending law school. The pre-law timeline, featured on the website, encourages you to shadow attorneys, conduct informational interviews, complete internships, and speak to admission officers to learn about law schools and the legal profession. Students should also consider studying overseas, writing an honors thesis, and getting involved in leadership opportunities. These activities will enhance the depth and value of students' undergraduate education and may also distinguish students from other top law school applicants.

Student Responsibilities

Academic Honesty

In 1995 the UF student body enacted an honor code and voluntarily committed itself to the highest standards of honesty and integrity. When students enroll at the university, they commit themselves to the standard drafted and enacted by students.
More Info (https://sccr.dso.ufl.edu/students/student-conduct-code)

Preamble

In adopting this honor code, the students of the University of Florida recognize that academic honesty and integrity are fundamental values of the university community. Students who enroll at the university commit to holding themselves and their peers to the high standard of honor required by the honor code. Any individual who becomes aware of a violation of the honor code is bound by honor to take corrective action. The quality of a University of Florida education is dependent upon community acceptance and enforcement of the honor code.

The Honor Pledge

We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity.

On all work submitted for credit by students at the university, the following pledge is either required or implied: On my honor, I have neither given nor received unauthorized aid in doing this assignment.

The university requires all members of its community to be honest in all endeavors. A fundamental principle is that the whole process of learning and pursuit of knowledge is diminished by cheating, plagiarism and other acts of academic dishonesty. In addition, every dishonest act in the academic environment affects other students adversely, from the skewing of the grading curve to giving unfair advantage for honors or for professional or graduate school admission. Therefore, the university will take severe action against dishonest students. Similarly, measures will be taken against faculty, staff and administrators who practice dishonest or demeaning behavior.

Student Responsibility

Students should report any condition that facilitates dishonesty to the instructor, department chair, college dean, Student Honor Council or Student Conduct and Conflict Resolution in the Dean of Students Office.

Faculty Responsibility

Faculty members have a duty to promote honest behavior and to avoid practices and environments that foster cheating in their classes. Teachers should encourage students to bring negative conditions or incidents of dishonesty to their attention. In their own work, teachers should practice the same high standards they expect from their students.

Administration Responsibility

As highly visible members of our academic community, administrators should be ever vigilant to promote academic honesty and conduct their lives in an ethically exemplary manner.

Student Conduct Code

Students enjoy the rights and privileges that accrue to membership in a university community and are subject to the responsibilities that accompany that membership. For a system of effective campus governance, it is incumbent upon all members of the campus community to notify appropriate officials of any violations of regulations and to assist in their enforcement. The university's conduct regulations, available to all students, are set forth in Florida administrative code. Questions can be directed to the Dean of Students Office.
More Info (https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code)

Alcohol and Drugs

The use of alcohol and other drugs can have a negative impact on judgments and reactions, health and safety, and may lead to legal complications as well.

The university's principal role is to engage in education that leads to high standards and respectful conduct. When those are compromised, the university will take disciplinary action against organizations and individuals violating either the law or the unreasonable use of alcohol. It also must provide help for students who are alcohol-dependent. The university will deal severely with students convicted of the illegal possession, use or sale of drugs.

What the University Community Can Do to Prevent Alcohol Abuse and Drug Use

Students can help control substance abuse by declining to use or to condone the use of drugs and by insisting that organizations and individuals use alcohol within the bounds of the law and reasonable conduct. Students should make an effort to prevent persons who have abused alcohol or used drugs from harming themselves or others, especially while driving a motor vehicle. They should encourage those needing professional help to seek it. The same standards and regulations apply equally to faculty, staff and administration.

Relations between People and Groups

One of the major benefits of higher education and membership in the university community is greater knowledge of and respect for other religious, racial and cultural groups. Indeed, genuine appreciation for individual differences and cultural diversity is essential to the environment of learning. Another major aspect of university life involves sexual relationships. Sexual attitudes or actions that are intimidating, harassing, coercive or abusive, or that invade the right to privacy of the individual are not acceptable. Only in an atmosphere of equality and respect can all members of the university community grow.

Service to Others

An important outcome of a University of Florida education should be a commitment to serving other people. This sense of service should be encouraged throughout the institution by faculty, administration, staff and students. Through experience in helping individuals and the community, students can put into practice the values they learn in the classroom.

Standard of Ethical Conduct

Honesty, integrity and caring are essential qualities of an educational institution, and the concern for values and ethics is important to the whole educational experience. Individual students, faculty and staff members, as well as the university's formal organizations, must assume responsibility for these qualities. The concern for values and ethics should be expressed in classes, seminars, laboratories and in all aspects of university life. By definition, the university community includes members of the faculty, staff and administration as well as students.

Education at the University of Florida is not an ethically neutral experience. The university stands for, and seeks to inculcate, high standards. Moreover, the concern for values goes well beyond the observance of rules.

A university is a place where self-expression, voicing disagreement and challenging outmoded customs and beliefs are prized and honored. However, all such expressions need to be civil, manifesting respect for others.

As a major sector in the community, students are expected to follow the university's rules and regulations that, by design, promote an atmosphere of learning. Faculty, staff and administrators are expected to provide encouragement, leadership and example. While the university seeks to educate and encourage, it also must restrict behavior that adversely affects others. The Standard of Ethical Conduct summarizes what is expected of the members of the university community.

Study Abroad Opportunities

Study Abroad Services offers students the opportunity to study overseas in a wide range of academic and cultural settings. The office coordinates numerous year-long, semester, summer and short-term programs in more than 80 countries on all seven continents.

Credits earned in study abroad programs may count toward a major or minor and can satisfy general education, language and summer residency requirements.

The International Center (http://www.ufic.ufl.edu)
170 Hub (http://campusmap.ufl.edu/?loc=0032)

352.392.5575 fax
studyabroad@ufic.ufl.edu

Writing Requirement

The University of Florida requires all students [1] to complete a writing requirement. AICE, AP, CLEP, and IB examination credit (p. 1408) as well as dual enrollment or transfer credit may count toward this requirement.

To graduate, students must complete courses that involve substantial writing for a total of 24,000 words.

Courses that count toward this requirement will be in one of three categories:

- 2: Coursework with at least 2,000 words
- 4: Coursework with at least 4,000 words
- 6: Coursework with at least 6,000 words

Some sections of qualified courses may not offer substantial writing in a particular term. In the schedule of courses (http://www.registrar.ufl.edu/soc), the course sections and amount of writing credit awarded (2, 4, or 6 thousand) are identified for a given term.

The writing course grade assigned by the instructor has two components: the writing component and a course grade. Therefore, to receive writing credit, students must satisfactorily complete the writing component and receive a minimum grade of C (2.0) for the course. It is possible to not meet the writing requirement and still earn a minimum grade of C in a class, so students should review their degree audit after receiving their grade to verify receipt of credit for the writing component.

Courses intended to satisfy the writing requirement may not be taken S-U.

The writing must be evaluated on content, organization and coherence, effectiveness, style, grammar, and punctuation. Assignments must be returned to students with a grade and comments that address the students' writing skills. Consequently, feedback on all assignments should be provided by the last day of class, or if provided electronically, by the end of finals.

Evaluation of writing is based on individual work. Class notes, quizzes and in-class writing assignments or essay examinations may not be counted. Team-written documents may not be counted for credit unless clear individual sections are identified for grading, such that an individual student's writing may be evaluated and graded. Drafts cannot be counted separately from final drafts as part of the total number of words completed during the course.

Students may not take the same course multiple times to meet the writing requirement, unless the course allows for multiple registration based upon rotating course content.

All courses that require writing will not necessarily count toward the writing requirement. In writing requirement courses, students will be evaluated as described above.

1 Except those transferring to UF with an A.A. degree from a Florida public college or an A.A. certificate from a Florida public state university.

Academic Regulations

Academic Progress Policies

Regulations for academic probation and dismissal follow the academic standards of the university and require the maintenance of grade point averages and reasonable conformance to a program of study.

A minimum grade point average of 2.0 is required to graduate from any UF undergraduate degree program. Any college may specify additional academic standards and students are responsible for observing these regulations.

The probation and dismissal regulations that apply to undergraduate students also apply to postbaccalaureate students. Notations on the student's academic record shall reflect all actions taken to enforce these regulations; some of these notations can be permanent.

Academic Standing

The University of Florida considers students to be in good standing if they are eligible to continue or to re-enroll at the university, even if on probation.

Colleges may choose not to consider students for admission and may deny continuation in a degree program if the student fails to maintain reasonable academic progress, as specified by the college or department.

Policies on academic standing, probation and dismissal are based on the possibility that a student can overcome academic difficulty and make appropriate progress toward a degree.

Petitions

Students may file a petition for a waiver of a deadline or regulation if they can document extenuating circumstances that led to their failure to meet or conform to the deadline/regulation.

In general, petitions for waiver of an academic regulation for the current term should be directed to the school or college in which the student is enrolled. For example, petitions to drop or add after the drop/add period should be presented to the school or college. Exceptions to the course load regulation are to be presented to the school or college. Petitions approved by the school or college must be reported to the Office of the University Registrar before the action is official.

All other petitions should be presented to the Office of the University Registrar, which will refer them to the University Student Petitions Committee. Petitions pertaining to academic records approved by the committee will be reflected on the student's transcript.

Per BOG Regulation 7.002(11), all requests for a refund of fees must be submitted to the university within six months of the close of the semester to which the refund is applicable. Any request for a refund of fees submitted outside this timeframe will not be reviewed.

Detailed information on petition procedures is available from the student's college or the Office of the University Registrar.
More Info (http://www.registrar.ufl.edu/currents/petitioninstructs.html)

A student seeking waiver of a regulation through petition must remember that no petitions committee can direct an instructor to change a grade, nor can the University Student Petitions Committee require any college or school to grant a degree by waiving any regulation.

Probation

The intent of academic probation is to serve formal notice that a student may not be making satisfactory progress. The conditions of academic probation are intended to specify the achievement standards required to graduate, to identify unsatisfactory academic performance at an early date, to provide occasion for counseling, and to give students whose ultimate success is in question further opportunity to demonstrate their ability to meet academic expectations.

Academic probation can occur for the following reasons:

- Students may be placed on probation by their college for failure to maintain normal academic progress in their degree program. College probation will be removed when the college determines that satisfactory academic progress has been demonstrated.
- Undergraduate students with less than a 2.0 cumulative grade point average for University of Florida coursework.
- Academic probation will be continued for all undergraduate students as long as they have less than a 2.0 cumulative grade point average. It will be removed when the grade point average becomes 2.0 or higher. Should the grade point average fall far enough, the student will be dismissed based on Dismissal policy.

More Info (p. 1425)

Dismissal and Suspension

Academic dismissal from the university denies registration privileges to students who have a cumulative GPA at or below that listed below (given their UF Cumulative Credits). The student will be dismissed from the university and any advance registrations will be cancelled.

- Students who are dismissed will not be permitted to enroll again unless they complete an application for readmission by the application deadline, and the college approves readmission. A student who is readmitted after academic dismissal will be dismissed again if their grade point average is at or below the corresponding GPA (given their UF Cumulative Credits) indicated in the table at the end of any term.
- UF Cumulative Credits only include credits taken toward the GPA and do not include credits for courses taken S/U, credits dropped/withdrawn resulting in a W on the transcript, or credits not counting in the UF Cumulative GPA due to repeat or non-degree policy.
- An undergraduate student under any kind of dismissal or suspension at the University of Florida may earn credit toward a degree at the University of Florida by taking courses at another institution. Upon the student's reinstatement to the University of Florida, the University will accept credit from courses that fall under the Florida statewide course numbering system. A reinstated student may follow standard practice of consulting the student's degree-granting unit to consider whether credit for courses not under the state course numbering system and earned while dismissed or suspended will be accepted. Credits earned at another institution and accepted by the University of Florida will not count towards the UF GPA calculation but will factor into the student's total credit hour count towards excess hours.

University Ombuds

When an academic regulation appears to result in undue hardship, students may petition for waiver of the regulation. If a student wishes to appeal a decision of the University Student Petitions Committee, the student must contact the Office of the Ombuds.
More Info (http://www.ombuds.ufl.edu)

Attendance Policies

Absences

Students are responsible for satisfying all academic objectives as defined by the instructor. Absences count from the first class meeting.

In general, acceptable reasons for absence from or failure to participate in class include illness, serious family emergencies, special curricular requirements (e.g., judging trips, field trips, professional conferences), military obligation, severe weather conditions, religious holidays, and participation in official university activities such as music performances, athletic competition or debate. Absences from class for court-imposed legal obligations (e.g., jury duty or subpoena) must be excused. Other reasons also may be approved.

Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence.

Students cannot participate in classes unless they are registered officially or approved to audit with evidence of having paid audit fees. The Office of the University Registrar provides official class rolls to instructors.

If a student does not participate in at least one of the first two class meetings of a course or laboratory in which they are registered, and they have not contacted the department to indicate their intent, the student can be dropped from the course. Students must not assume that they will be dropped, however. The department will notify students if they have been dropped from a course or laboratory.

The university recognizes the right of the individual professor to make attendance mandatory. After due warning, professors can prohibit further attendance and subsequently assign a failing grade for excessive absences.

Religious Holidays

At the University of Florida, students and faculty work together to allow students the opportunity to observe the holy days of their faith. A student should inform the faculty member of the religious observances of their faith that will conflict with class attendance, with tests or examinations, or with other class activities prior to the class or occurrence of that test or activity. The faculty member is then obligated to accommodate that particular student's religious observances. Because students represent a myriad of cultures and many faiths, the University of Florida is not able to assure that scheduled academic activities do not conflict with the holy days of all religious groups. Accordingly, individual students should make their need for an excused absence known in advance of the scheduled activities.

The Florida Board of Education and state law govern university policy regarding observance of religious holidays.

The following guidelines apply:

- Students, upon prior notification to their instructors, shall be excused from class or other scheduled academic activity to observe a religious holy day of their faith.
- Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence.
- Students shall not be penalized due to absence from class or other scheduled academic activity because of religious observances.

If a faculty member is informed of or is aware that a significant number of students are likely to be absent from class because of a religious observance, the faculty member should not schedule a major exam or other academic event at that time.

A student who is to be excused from class for a religious observance is not required to provide a second party certification of the reason for the absence. Furthermore, a student who believes that they have been unreasonably denied an education benefit due to religious beliefs or practices may seek redress through the student grievance procedure.

Illness Policy

If a student is absent from classes or examinations because of illness, they should contact their instructors. Students should contact their college by the deadline to drop a course for medical reasons. Students can petition the Dean of Students Office (https://www.dso.ufl.edu) to drop a course for medical reasons. The university's policy regarding medical excuse (http://shcc.ufl.edu/forms-records/excuse-notes) from classes is maintained by the Student Health Care Center.

Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence.

Twelve-Day Rule

Students who participate in university-sponsored athletic or scholarly activities are permitted to be absent 12 scholastic days per semester without penalty. A scholastic day is any day on which regular class work is scheduled as defined in the approved university calendar.
More Info (p. 1442)

The student or student's advisor must notify the instructor as early as possible prior to the anticipated absence to allow ample time for accommodations. Instructors must be flexible and not penalize students when re-scheduling during-term and final exams, class assignments, and other required activities and must follow the UF Attendance Policy

herein and UF Examination Policies. As noted in the UF Examination Policies, during-term exams should be re-scheduled no later than before the end of the semester, while final exams no later than 90 days after the originally scheduled exam time. However, instructors are encouraged to re-schedule final and during-term exams, assignments, and other activities as soon as possible after the last day of the absence and must not penalize the student in any way.
More Info (p. 1431)

A group's schedule that requires absence of more than 12 scholastic days should be adjusted so that no student is absent from campus more than 12 scholastic days. Students who previously have been warned in writing by their instructor about the impact of absences on their individual class performance should not incur additional absences, even if they have not been absent 12 scholastic days. The student is responsible to maintain satisfactory academic performance and attendance.

Civic Literacy Requirement

Students Subject to the Requirement

Students who Need to Complete the Requirement

1. First time in College (FTIC) students without an AA degree from a State of Florida University or Florida College System institution entering Fall 2018 or after.

OR

2. Students transferring to UF from an Out of State or Private Institution Fall 2018 or later.

OR

3. Students who entered a State of Florida University System or Florida College System institution Fall 2018 or after and transferred to UF, and did NOT meet the requirement at the previous institution.

Note: The University of Florida has elected to include 2018 Summer B admits as part of the Fall 2018 cohort. Therefore, Summer B 2018 admits are included in the cohort to meet this requirement.
More Info (http://undergrad.aa.ufl.edu/for-students)

Options for Students to Meet the Civic Literacy Requirement

1. Successfully passing either POSX041 American Government or AMHX020 Introductory Survey Since 1877. Each of the courses must include the following competencies:
   - Understanding of the basic principles and practices of American democracy and how they are applied in our republican form of government,
   - An understanding of the United States Constitution and its application,
   - Knowledge of the founding documents and how they have shaped the nature and functions of our institutions of self-government, and
   - An understanding of landmark Supreme Court cases, landmark legislation and landmark executive actions and their impact on law and society.

   OR
2. Achieving the standard score on one of the following assessments:

Assessment	Standard Score
U.S. Citizenship and Immigration Services Naturalization Test-Civics (U.S. history and government) with supplemental questions	60
Advanced Placement Government and Politics: United States	3
Advanced Placement United States History	4
CLEP American Government	50

NOTE: Dual enrollment courses taken prior to Fall 2018 do not satisfy the civic literacy requirement as those courses did not include the competencies required by statute until Fall 2018.

Board of Governors Definitions

FTIC

FTIC freshmen are defined as students who have earned a standard high school diploma from a Florida public or regionally accredited high school, or its equivalent, and who have earned fewer than twelve (12) semester hours of transferable college credit since receiving a standard high school diploma or its equivalent (Board of Governors Regulation 6.002).

- High school students who earn dual enrollment credits (regardless of the number of credit hours earned) prior to high school graduation who then graduate from high school and are admitted to an SUS institution in Fall 2018 or later are considered FTIC and are subject to the civics literacy requirement.
- High school students who have been admitted to an SUS institution as a degree-seeking student in Fall 2018 or later and who earn dual enrollment credits prior to graduating from high school are considered Early Admit FTIC and are subject to the civics literacy requirement.
- High school graduates who earn less than twelve (12) credit hours of college coursework after graduating from high school are considered FTIC at SUS institutions and are subject to the civics literacy requirement.

Undergraduate Transfer Student

Undergraduate transfer students are defined as students who have earned twelve (12) or more semester hours of transferable college credit since receiving a standard high school diploma or its equivalent (BOG Regulation 6.004).

For More Information

- Florida Statute 1007.25(4)(a)(b) (http://www.leg.state.fl.us/statutes/).
- BOG Regulation 8.006 (https://www.flbog.edu/board/regulations/).
- Questions regarding Florida College System (FCS) requirements should be directed to FCS staff and local FCS institutions.

Degree and Graduation Policies

Degree Application

Undergraduates must file an application for degree by the deadline with the Office of the University Registrar at ONE.UF (https://one.uf.edu). To file an application, select Certificate/Degree Application under My Record on the left menu.

Students must apply in the term in which they expect to graduate, regardless of applications in previous terms. If the student has completed all the requirements for degree, they will be required to graduate. Degree application deadlines are available under Dates and Deadlines.
More Info (p. 1442)

Associate of Arts Degree

Although not required, students may receive an A.A. degree, which is awarded by the College of Liberal Arts and Sciences. The degree must be awarded prior to or at the same time as the bachelor's degree. The application is available on ONE.UF (https://one.uf.edu).

The Associate of Arts degree will be awarded upon satisfactory completion of:

- 60 credits; at least 36 of these credits must have been completed at UF
- General education requirements; 36 credits in communication, mathematics, social sciences, humanities, and natural sciences.
- Foreign language competence as described in Rule 6A-10.02412, F.A.C.
  The rule can be obtained from:

  Office of Articulation
  Florida Department of Education
  325 West Gaines Street
  Tallahassee, Florida 32399
- An overall UF GPA of 2.0 (C)
- Writing requirement courses

Catalog Year

UF operates on a semester system. There are two semesters averaging 15 weeks of instruction, plus a week of final examinations and two six-week summer terms. Semesters begin in August, January and May. The summer term is offered as a whole as Term C, or in two sessions as half terms, with Term A beginning in May and Term B beginning in June.

Catalog year determines the set of academic requirements that must be fulfilled for completion of a certificate or to graduate from a degree-granting program. Students complete a program under the catalog in effect at the time of their initial enrollment as a certificate or degree-seeking student at UF, a Florida public college or other Florida state institution, provided they maintain continuous enrollment (enrolling for at least one course in one term in an academic year). Students pursuing minors, dual degrees or double majors must have the same catalog year for each program. Students pursuing certificates may have separate catalog years for their certificate(s) and degree-seeking programs(s).

Students who do not maintain continuous enrollment will be assigned the catalog in effect at the time they resume enrollment. With the approval of the student's college dean's office they may choose to graduate under the requirements of a later catalog, but the student must fulfill all graduation requirements from that alternative catalog year.

The university will make every reasonable effort to honor the curriculum requirements appropriate to each student's catalog year. However, courses and programs will sometimes be discontinued and requirements may change as a result of curricular review or actions by accrediting associations and other agencies.

College Dean's Certification

Students who have completed all requirements for their degree will be required to graduate. The dean certifies that all requirements have been completed and that the student has been recommended by the faculty for graduation.

Completion Deadline to Receive a Degree

All work must be completed by the end of the final exam period for the fall and spring terms and by the last day of classes for the summer terms. A minimum UF cumulative grade point average of 2.0 must be earned for award of an undergraduate degree.

Continuous Enrollment

Undergraduate students who enroll for at least one course in one term in an academic year are continuously enrolled.

Curriculum Requirements

Students must complete all degree requirements established by the university, their college, their major and minor (if applicable); this includes completion of general education, writing requirement and the summer term enrollment requirements.

Minors are awarded only in conjunction with the receipt of a baccalaureate degree. To determine program requirements, refer to the academic advising (p. 1379) and majors (p. 1378) sections.

Degree Certification and Graduation Date

All colleges, excluding professional programs in the colleges of Dentistry, Law, Medicine and Veterinary Medicine, will certify their graduates the Tuesday following the last day of classes for the summer terms or the Tuesday following the end of the final exam period for the fall and spring terms. This certification date will appear on the transcript and the diploma as the official date of graduation. Professional programs in the aforementioned colleges will use the date of their official commencement ceremony as the date of graduation. This date will appear on both the transcript and diploma as the official date of graduation, as required by professional accreditation guidelines.

Diploma Replacement

Each diploma ordered subsequent to the student's initial degree application can result in a diploma replacement charge.

Dual Degrees and Multiple Majors

At the discretion of UF colleges and schools students can be permitted to pursue multiple degrees or majors.

- A student completing major and college requirements in two or more different colleges at the same time will receive two or more degrees. The transcript will list each degree and the appropriate majors.

- A student completing major and college requirements in one college and major requirements only in another college will receive a degree from the first college. The transcript will list the degree and each major.
- A student completing multiple majors that have the same degree, i.e., Bachelor of Arts or Bachelor of Science, will receive a single degree. The transcript will list the degree and each major.

Foreign Language Requirement

As a condition of admission to the university, students must complete two sequential courses of a foreign language in secondary school, 8-10 semester credits at the postsecondary level or document an equivalent level of proficiency.

Some degrees also have additional, specific foreign language requirements. To earn a UF degree, students must meet the requirements of their major and college **in addition** to the university's foreign language requirement for admission.

Pending Charge of Academic Dishonesty or Conduct Violation

No degree will be conferred if a charge of academic dishonesty or student conduct violation is pending and the penalty could be dismissal, expulsion, failing grade or any combination of the above, until the charge is resolved and degree requirements are met.

Residence Requirements

The minimum residence requirement for the baccalaureate degree is two semesters.

- Students are required to complete the last 25% of the credits needed to satisfy the requirements of their major by taking UF courses.

Summer Term Enrollment

Students who enter a state university in Florida with fewer than 60 credits must earn at least nine credits before graduation during summer terms at State University System (SUS) institutions (http://www.flbog.edu/universities). However, students who earn six credits through UF-sponsored, UF exchange or approved SUS study-abroad programs during one or two summer terms completely satisfy the summer-term enrollment requirement. In addition, credits earned through any of the study-abroad programs approved by UF during a summer term count toward satisfaction of the summer-term enrollment requirement. Students who bring 60 or more transfer credits to UF, regardless of institution, will be exempt from completing the summer requirement at UF.

Dropping Courses and Withdrawals

Dropping Courses

Dropping is defined as dropping an individual course or courses but not all courses in a term. Failure to attend a class does not constitute a drop.

During Drop/Add

- Courses can be dropped or added during drop/add without penalty.
- Classes that meet for the first time after drop/add closes can be dropped without penalty or fee liability if the request is submitted by the end of the next business day after the first class meeting. Students first must drop the course with their college advising office and then submit a written explanation to the Office of the University Registrar. This does not apply to laboratory sections.

After Drop/Add but Prior to the Drop Deadline

After drop/add, students may drop a course with the approval of their college until the drop deadline listed in the academic calendar. A grade of W will appear on the transcript, and students are liable for course fees.

All drops after drop/add must be completed by the drop deadline with the student's college advising office and are subject to the following restrictions:

- Students get two drops in their first 60 credits attempted at UF. Credits attempted are defined as:
- Credits carried excluding credits taken prior to the first term of degree-seeking enrollment, plus S/U credits, and repeats of satisfactory grades.
- *Full-term withdrawals from all courses and dropped courses do not count in credits carried.*
- Students get two additional drops in the second 60 credits attempted. Unused drops do not carry over from the first 60 credits attempted to the second 60 credits attempted.
- Students entering UF as transfer students with an A.A. degree from a Florida public college or with 60 or more transfer credits earned from another college or university only get two drops.
- Students with disabilities who need to drop a course due to disability-related reasons are allowed to petition for additional drops. More information is available from the Disability Resource Center. More Info (http://www.dso.ufl.edu/drc)
- Students who can document extenuating circumstances may petition their college for additional drops.
- Approval to drop a course must be obtained from the student's college.

After the Drop Deadline

- After the deadline and before the last day of classes, students may petition their college. Typically, they will need to demonstrate an extenuating circumstance justifying approval of a drop after the deadline.
- After the last day of classes, students would need to complete a University Petition Request for a Retroactive Drop. More Info (http://www.registrar.ufl.edu/currents/petitioninstructs.html)

Withdrawals

Withdrawal is defined as dropping *all* courses, not *individual* courses, in a term. Students who leave UF without withdrawing formally will receive failing grades for all courses.

Students should read the withdrawal instructions carefully before submitting their withdrawal online.
More Info (http://registrar.ufl.edu/services/withdrawals.html)

During Drop/Add

- Students may withdraw from all courses during drop/add without penalty.

After Drop/Add but Prior to the Withdrawal Deadline

- Students who withdraw after drop/add and before the withdrawal deadline will receive a grade of W for all courses.
- Students on university academic probation who withdraw before the Withdrawal Deadline will continue on probation until their UF cumulative GPA becomes a 2.0 or greater. Students on Admissions Committee probation must meet the terms of their probation. Students on college probation should check with their college/departmental advisor about college-specific requirements.
- Students considering petitioning for a medical withdrawal (https://dso.ufl.edu/2017/07/11/involuntary-medical-withdrawal-policy) or retroactive medical withdrawal (https://care.dso.ufl.edu/submit-medical-petition/retroactive-medical-withdrawal) should contact the Dean of Students Office for additional information about the process.

After the Withdrawal Deadline

- Students who wish to withdraw after the withdrawal deadline and before the last day of classes may petition their college. Typically, the student will need to demonstrate an extenuating circumstance justifying approval of a withdrawal after the deadline.
- After the last day of classes, students would need to complete a University Petition Request for a Retroactive Withdrawal. More Info (http://www.registrar.ufl.edu/currents/petitioninstructs.html)

Withdrawal Due to Military Service

Per Florida Statute 1004.07, any student enrolled in a postsecondary course or courses at a state university shall not incur academic or financial penalties by virtue of performing military service on behalf of our country. These students shall be permitted the option of completing the course(s) at a later date without penalty or withdrawing from the course(s) with a full refund of fees paid. (Refer to refund of fees (p. 1431) information in the fees and fiscal section.) If the student chooses to withdraw, the record shall reflect that the withdrawal is due to active military service.

National Guard Troops Ordered into Active Service

Per Florida Statute 250.482, if a member of the Florida National Guard is ordered into active service, no private or public employer and no employing or appointing authority of this state, its counties, municipalities, political subdivisions, public colleges or universities shall discharge, reprimand or in any other way penalize such member because of his or her absence by reason of state active duty.

Examination Policies and Reading Days

Final Exams

Final exams are determined by course meeting times, except for certain large courses.

- No student is required to take more than three final exams in one day.
- If two exams are scheduled at the same time, assembly exams take priority over time-of-class exams.
- When two assembly exams or two time-of-class exams conflict, the course with the higher number will take priority. Instructors giving make-up exams will make the necessary adjustments.
- Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence. A reasonable amount of time to make up a final exam is within 60 days of the originally scheduled final exam date; however, students in their graduation semester may require expedited accommodations to ensure graduation as scheduled.

During Term Exams

- During-term examinations are held during regular class times or during assembly exam periods, which are Monday-Friday from 8:20 - 10:10 p.m. (periods E2-E3) for the fall and spring terms and Monday-Friday from 7:00 - 9:45 p.m. (periods E1-E2) for the summer terms.
- If other classes are scheduled during an exam time, instructors must provide make-up class work for students who miss class because of an assembly exam.
- When two exams conflict, assembly exams (multiple sections and/or enrollment over 300) take precedence over non-assembly exams (single sections and/or enrollment under 300). If two assembly exams conflict, the course with the higher number will take priority. Likewise, if two non-assembly exams conflict, the higher number will again take priority. Instructors giving make-up exams will make the necessary adjustments.
- Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence. A reasonable amount of time to make up a during-term exam is before the end of the semester in which the student is enrolled in the class.

Reading Days

The two days before the start of examinations in the fall and spring semesters, generally a Thursday and Friday, are designated reading days. No classes or exams are held on these days; instead, students are encouraged to use these days for study and review.

There are no reading days in the summer terms because examinations are given during regular class periods.

Excused Absences

Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence. For assignments and during-term exams, a reasonable amount of time is within the term in which the student is enrolled in the class. For final exams, a reasonable amount of time is within 60 days after the originally scheduled final exam date; however, students in their graduation semester may require expedited accommodations to ensure graduation as scheduled.

Fees and Fiscal Information

Admission Application Fee

An individual who applies for admission to the University of Florida shall pay a non-refundable application fee of $35.00. There is a $30.00 nonrefundable application fee plus $5.00 processing fee or a fee waiver (UF 3.0376, Regulations of the University of Florida).

Admission Tuition Deposit

Pursuant to UF-3.0376 Regulations of the University of Florida, the $200 admission deposit paid by the individual shall be applied toward payment of that individual's tuition upon enrollment. The admission deposit shall **not** be reimbursed to an individual who does not enroll in the term offered for admission and who does not withdraw their acceptance of admission prior to the applicable deadline as published in the University Record. The deposit is waived for those individuals who have provided documentation that they have received an application fee waiver because of economic need as determined by the College Board, American College Testing Program, Law School Admissions Council, the American Association of Medical Colleges Fee Assistance Program or the American Association of Dental Schools Application Service.

Registration and Tuition and Fees Liability

Pursuant to Section UF-3.037 Regulations of the University of Florida, registration shall be defined as consisting of two components:

1. formal enrollment in one or more credit courses approved and scheduled by the university; and
2. tuition and fee payments, or other appropriate arrangements for tuition and fee payment (deferment or third-party billing) for the courses in which the student is enrolled as of the end of the drop/add period.

Registration must be completed on or before the date specified in the university calendar. Students are not authorized to attend class unless they are on the class roll or have been approved to audit. Unauthorized class attendance will result in fee liability.

Fee Liability

Pursuant to UF-3.037 Regulations of the University of Florida, a student is liable for all tuition and fees associated with all courses for which the student is registered at the end of the drop/add period. The fee payment deadline is 3:30 p.m. of the last day of the second week of classes.

Assessment of Tuition and Fees

Pursuant to UF-3.0375 Regulations of the University of Florida, tuition shall be assessed to students for enrollment in credit courses.

Students can calculate and pay their own tuition and fees on the secure ONE.UF portal.
More Info (https://one.uf.edu/dashboard)

Students can estimate their tuition and fees on the University Bursar website.
More Info (http://www.fa.ufl.edu/bursar/current-students)

Lack of written notification of the tuition and fee debt does not negate the student's responsibility to pay by the published deadline.

For purposes of discussion, the word *term* refers to the fall semester, the spring semester and any of the summer semesters.

Assessment of Student Fees

Activity and Service Fee

All students must pay an activity and service fee that is assessed on a per credit-hour or semiannual basis. (UF-3.0372, Regulations of the University of Florida)

Athletic Fee

All students must pay an athletic fee that is assessed on a per credit-hour or semiannual basis. Half-time graduate research and teaching assistants enrolled for eight (8) or more credit hours during the Fall or Spring Semester and all other students enrolled for nine (9) or more credit hours (except students enrolled in a New World School of the Arts degree program and other students not required to pay the athletic fee) are eligible to purchase football tickets at the student rate. (UF-3.0372, Regulations of the University of Florida)

Audit Fee

Tuition and fees for audited courses are assessed at the applicable resident or non-resident per credit-hour cost as set forth in Regulation UF-3.0375. (UF-3.0376, Regulations of the University of Florida)

Diploma Replacement Fee

Each diploma ordered after a student's initial degree application can result in a diploma replacement charge, variable, not to exceed $10.00 per item. (UF-3.0376, Regulations of the University of Florida)

Distance Learning Fee

Online courses may be assessed a per credit hour amount. (1009.24, Florida Statutes)

Health Fee

All students must pay a health fee that is assessed on a per credit-hour or semiannual basis. The health fee is not part of any health insurance a student may purchase. (UF-3.0372, Regulations of the University of Florida.)

Material and Supply and Equipment Use Fee

Material and supply fees are assessed for certain courses to offset the cost of materials or supply items consumed in the course of instruction. A list of approved courses and fees is published in the Schedule of Courses each semester. (UF-3.0374 Regulations of the University of Florida)
More Info (http://www.registrar.ufl.edu/soc)

The equipment use fee program allows units to charge for courses that use equipment in the educational process, which is used to prepare students for their careers or professions and is used for instructional purposes only with direct use by students. Material and supply and equipment use fee information is available from the academic departments or from the schedule of courses (Florida Statutes 1009.24).

Off-Campus Educational Activities

The president or the president's designee will establish fees for off-campus course offerings when the location results in specific identifiable increased costs to the university. These fees will be in addition to the regular tuition and fees charged to students enrolling in these courses on campus. The additional fees charged are for the purpose of recovering the increased costs resulting from off campus vis-a-vis on campus offerings. As used herein, *off campus* refers to locations other than main campus, branch campuses and centers. (UF-3.0376, Regulations of the University of Florida)

Registration for Zero Credits

The student is assessed the applicable resident or non-resident per credit-hour cost as set forth in Regulation UF-3.0375, for one credit hour. (UF-3.0376, Regulations of the University of Florida)

Technology Fee

All students must pay a technology fee that is assessed on a per credit-hour or semiannual basis. (UF-3.3075, Regulations of the University of Florida)

Transcript Fee

An official transcript may be purchased on the Registrar website or your ONE.UF (https://one.uf.edu) account for a charge. (UF-3.0376. Regulations of the University of Florida)
More Info (https://registrar.ufl.edu/services/transcripts)

Transportation Access Fee

All students must pay a transportation access fee that is assessed on a per credit-hour or semiannual basis. (UF-3.0372, Regulations of the University of Florida)

All charges may be subject to change without notice.

Repeat Course Fee

Beginning Fall 1997, any undergraduate course numbered 1000-4999 at the university for which a student registers three or more times will be subject to a repeat course fee at 100 percent of the full cost of instruction, calculated annually. (Section 1009.285, Florida Statutes)

All students, regardless of classification or residency status, will be assessed the fee in addition to the tuition costs. (UF-3.0375, Regulations of the University of Florida)

Excess Hours Fee

All credit hours for courses taken at the state university from which the student is seeking a baccalaureate degree.

Pursuant to Section 1009.286, Florida Statutes, an additional student payment for credit hours exceeding baccalaureate degree program completion requirements at state universities.
More Info (http://www.leg.state.fl.us/statutes/index.cfm?App_mode=Display_Statute&URL=1000-1099/1009/Sections/1009.286.html)

Payment of Tuition and Fees

Tuition and fees are payable on the dates listed in the academic calendar. Deadlines are enforced.
More info (p. 1442)

Tuition and fee payments are processed by **University Bursar**. Payments sent via U.S. mail must be received in the university cashier's office by the established fee payment deadline. An on time payment for the tuition and fees deadline date is a receipt date, not a postmark date.
More Info (http://www.fa.ufl.edu/bursar/current-students/payments)

According to university policy, university cashiers will accept checks only for the amount due in payment of tuition and fees, accounts receivable, loans and other student debts. Checks from international countries must be payable through a United States bank in U.S. dollars. The university can refuse two-party checks, altered checks and checks that will not photocopy. The university does not have the authority to waive late payment fees unless extraordinary circumstances warrant such a waiver or the university is primarily responsible for the delinquency. (UF 3.0022, University of Florida Regulations)

Pay for tuition and fees and other charges at ONE.UF.
More Info (https://one.uf.edu/dashboard)

Payment Options

- Electronic check; there is no service charge for the electronic check payments.
- Credit cards: MasterCard, Discover, American Express, or Visa will include a 2.6 percent service charge for tuition and fees and accounts receivable charges (e.g., laser print, library fines, parking decals, etc.).
- International Payment is a wire transfer; provides a competitive rate of exchange for many international currencies.
- In person payments: check, money order, or cashier's check. International paper checks or demand drafts must be drawn on a U.S. bank in U.S. dollars and amounts cannot be greater than the amount due. Any payment that is more than the amount due will not be refunded and will automatically be applied to a future debt.
- Cash and debit cards are not available payment options.

Returned Payments

Returned electronic checks or paper checks will be charged a service fee of $25.00 if the returned payment is less than $50.00; $30.00 if the returned payment is $50.01 - $299.99 and $40.00 if the returned payment is $300.00 or more. Payments for returned electronic check payments, returned paper checks and the returned service fee must be paid by money order or cashier's check.

A $10.00 service fee will be charged if the bank information provided for the electronic check payment is inaccurate for electronic funds transfer. Payment for this type of return does not require a money order or a cashier's check.

All financial obligations to the university will be applied on the basis of age of the debt. The oldest debt will be paid first.

Late Registration and Late Payment Fees

Late Registration Fee

Any student who fails to register prior to the late registration date published in the academic calendar will be subject to the late registration fee of $100.00. (UF-3.037, Regulations of the University of Florida)
More Info (p. 1442)

Late Payment Fee

Any student who fails to pay all tuition and fees due or to make appropriate arrangements for tuition and fee payment (deferment or third party billing) by the fee payment deadline published in the academic calendar will be subject to a late payment fee of $100.00. (UF-3.037, Regulations of the University of Florida)
More Info (p. 1442)

Waiver of Late Fees

A student who believes that a late fee should not be assessed because of university error or extraordinary circumstances that prevented all conceivable means of compliance by the deadline may petition for a waiver. Late registration fee: Office of the University Registrar; Late payment fee: University Bursar. The university reserves the right to require documentation to substantiate these circumstances.

Deferment of Tuition and Fees

Deferment extends the deadline for payment of tuition and fees for a specific term. A tuition and fee deferment is granted based on information from Student Financial Affairs (financial aid deferments)

or the Office of the University Registrar (veterans). Refer questions on eligibility to the appropriate office. A tuition and fee deferment must be established by the tuition fee payment deadline for each term. A tuition and fee deferment is provided to students in the following circumstances:

- Students receiving benefits from state or federal financial assistance programs (1009.27, Florida Statutes).
- Students receiving veterans or other educational benefits under Chapter 30, Chapter 31, Chapter 32, Chapter 33, Chapter 34, Chapter 35, Chapter 106 or Title 10, U.S.C.; or
- Students for whom formal arrangements have been made with the university for payment by an acceptable third-party sponsor.

A $100.00 late payment fee will be assessed if a student fails to pay all tuition and fees due by the deferment deadline.

Waiver or Exemption of Tuition and Fees

UF may waive tuition and fees as follows:

- Any dependent child of a special risk member killed in the line of duty, pursuant to Chapter 112.19, Florida Statutes.
- A student enrolled through the Florida Linkage Institutes Program is entitled to a waiver of the non-resident tuition and fees pursuant to 288.8175 Florida Statutes.
- Intern supervisors for institutions within the State University System may be given one non-transferable certificate (fee waiver) for each full academic term during which the person serves as an intern supervisor, pursuant to 1009.26, Florida Statutes.
- Persons 60 years of age or older who are Florida residents, pursuant to Chapter 1009.26, Florida Statutes.
- A student who is or was at the time they reached 18 years of age in the custody of the Department of Children and Families or who, after spending at least 6 months in the custody of the department after reaching 16 years of age, was placed in a guardianship by the court. Or a student who is or was at the time they reached 18 years of age in the custody of a relative or nonrelative under s. 39.5085 or who was adopted from the Department of Children and Families after May 5, 1997, pursuant to Chapter 1009.25, Florida Statutes.
- Florida resident who lacks a fixed, regular, and adequate nighttime residence, whose primary nighttime residence is a public or private shelter designed to provide temporary residence a public or private transitional living program, or a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings., pursuant to Chapter 1009.25, Florida Statutes.
- Purple Heart recipients pursuant to Chapter 1009.26, Florida Statutes.
- Apply for enrollment in an institution of higher education within 24 months after high school graduation; and submit an official Florida high school transcript as evidence of attendance and graduation, may have the non-Florida resident fee waived as provided by Chapter 1009.26, Florida Statutes.
- Non-Florida resident fee for a veteran; C.W. “Bill” Young Veteran Tuition Waiver, pursuant to Chapter 1009.26, Florida Statutes.

The non-Florida student financial aid fee may not be waived for students receiving an out-of-state tuition and fee waiver.

Non-Payment of Tuition and Fees

The university shall temporarily suspend further academic progress of any student who has not paid the entire balance of their tuition and fee liability by the established deadlines. This will be accomplished by placing a financial hold on the student’s record, which will prevent the student from receiving grades, transcripts and/or diploma, and the student’s registration will be denied for future terms until the account has been satisfied. (UF-3.037 Regulations of the University of Florida)

Students who have not paid any portion of their tuition and fee liability by the established university payment deadline will be withdrawn from all courses. Students will continue to be held fee liable for these courses, but will not be allowed to attend these courses until payment is made in full and the student has been re-registered.

To re-register for courses, students must submit a Current Term Re-Enrollment Request petition to the Office of the University Registrar. Students who re-register after being withdrawn for non-payment of tuition and fees will be subject to both late registration and late payment fees.

Refund of Tuition and Fees

The following circumstances may constitute a tuition and fees refund:

- If notice of withdrawal from the University is approved prior to the end of the drop/add period and written documentation is received from the student
- Credits dropped during drop/add period
- Courses cancelled by the university
- Involuntary call to active military duty
- Death of the student or member of the immediate family (parent, spouse, child, sibling)
- Illness of the student of such severity or duration, as confirmed in writing by a physician, that completion of the semester is precluded
- Exceptional circumstances, upon approval of the university president or his designee

A refund of 25 percent of the total fees paid (less late fees) is available for withdrawal of enrollment of all courses from the university prior to the deadlines listed in the academic calendar.
More Info (p. 1442)

Refunds are issued by University Bursar and will be applied against any university debts. The university reserves the right to set minimum amounts for which refunds will be produced for overpayments on student accounts.

Tuition refunds due to cancellation, withdrawal or termination of attendance for students receiving financial aid will first be refunded to the appropriate financial aid programs. If the student is a recipient of federal financial aid, such as Grad Plus Loan, Pell Grant, TEACH Grant, Supplemental Educational Opportunity Grant (SEOG), Perkins Loan, Federal Direct Stafford Loans or PLUS loans, federal rules require that any unearned portion of the federal aid must be returned to the U.S. Department of Education.

Direct Deposit Requirement

Due to the university’s continuing support for sustainable practices, as well as the costs associated with producing, mailing, and tracking undelivered checks, direct deposit is now required for the delivery of refunds, whether financial aid or student overpayments. This electronic method will deposit any overpayments to the student’s checking account. Students must give authorization on ONE.UF (https://one.uf.edu/dashboard), select the Campus Finances (Bursar) card > Related Links > Sign up for Direct Deposit to have financial aid or overpayments

electronically credited to a U.S. bank or other U.S. financial institution checking account.

Deadlines

Deadlines are enforced.

The university does not have the authority to waive late payment fees unless extraordinary circumstances warrant such waiver or the university is primarily responsible for the delinquency.

Florida Prepaid Tuition College Program

The Florida Prepaid College Program is a state of Florida administered program that provides Florida families affordable means to save for their children's future college education.

At the University of Florida, students with a Florida Prepaid account will **not** have to show their Florida Prepaid documentation. University Bursar works directly from an electronic file provided by the Florida Prepaid College Program. University Bursar matches that file to the names and social security numbers of enrolled UF students to determine eligibility and available credits that can be billed to the program. If Prepaid is not showing on the student's ONE.UF record the first week of classes, contact the University Bursar at 352.392.9545.
More Info (https://one.uf.edu/dashboard)

University Bursar will automatically bill the Florida Prepaid Program for the tuition and applicable fees of eligible students. The program will be billed each term that a student is registered at UF and continues to have credits available.

Florida Prepaid Program has a variety of plans. However, no plan pays 100 percent of tuition and fees. Listed below are fees that are not covered by a prepaid plan and must be paid by the fee payment deadline each term to avoid assessment of a $100.00 late payment fee:

- Distance learning fees
- Equipment fees
- Excess credit hour surcharge fees
- Late payment fees
- Late registration fees
- Material and supply fees
- Repeat course surcharge
- Transportation access fees
- Test fees
- Technology fees

Opting out of Florida Prepaid

Eligible students can choose to decline the use of the prepaid plan online for a **fall**, **spring**, or **summer** term.

Opt out of Florida Prepaid at ONE.UF.
More Info (https://one.uf.edu/dashboard)

The option to *opt out* online for the current term must be completed prior to 3:30 p.m. on the fee payment deadline for that term. The online *opt out* option is not available on the fee payment deadline day; therefore, students choosing to *opt out* on the deadline day or those who need to cancel an online selection must contact the University Bursar at 352.392.9545 or Ask Bursar Help (https://uf.tfaforms.net/125).

*Students must **opt out** each term they decline to use their prepaid plan. Only one academic term will be available online to **opt out** any given time.*

Florida Prepaid and Financial Aid

Students participating in the Florida Prepaid College Program who are also expecting to receive financial aid (i.e., Bright Futures, Pell, student loans, other scholarships/grants) will have the Florida Prepaid applied first to tuition and applicable fees. Financial aid received will be disbursed and applied to outstanding charges, which may include tuition and fees not covered by the program. Any excess financial aid that remains after debts have been paid will be refunded to the student or if there is a Plus loan this will be refunded to the student or parent.

Study Abroad Programs and Distance Learning

Students participating in any study abroad program or receiving instruction through flexible learning, also can bill the Florida Prepaid College Program.

Students must contact the following departments for assistance with billing the prepaid program:

Study Abroad Programs

UF International Center, Study Abroad Services
170 HUB Stadium Road
Gainesville, FL 32611

352.273.1539

Flexible Learning Courses

Distance Learning
2124 NE Waldo Road, Suite 1101
Gainesville, FL 32609

352.392.2137

Additional questions regarding the UF Florida Prepaid billing process?
Call University Bursar at 352.392.9545 or Ask Bursar Help (https://uf.tfaforms.net/125)

Questions about the Florida Prepaid Program?
Call 1.800.552.4723 (552.GRAD)

General Fiscal Information

Students can pay on their ONE.UF account the exact amount of tuition and fees and/or other amounts owed the university. The online payment system accepts the following payment methods: American Express, MasterCard, Discover, or Visa credit cards and electronic checks from checking and international payments via wire transfer.
More Info (https://one.uf.edu/dashboard)

Students can also pay at the University Bursar office with personal checks, cashier's checks and money orders, which can be placed in the 24-hour drop box located outside 113 Criser Hall. Payments on all financial obligations to the university will be applied on the basis of age of the debt. The oldest debt will be paid first.

University Bursar does not accept cash or debit card payments and does not cash checks or make cash refunds.

It is the student's responsibility to maintain a correct current address in the UF directory.
More Info (http://www.registrar.ufl.edu/directoryinfo.html)

Address changes should be made online at ONE.UF.

More Info (https://one.uf.edu/dashboard)

Past-Due Student Accounts

All student accounts are payable at the University Bursar office or on ONE.UF at the time such charges are incurred. Graduating students with outstanding financial obligations will have a hold placed on their records withholding release of a diploma, transcript and other university services until the debt is satisfied.
More Info (https://one.uf.edu/dashboard)

University regulations prohibit the following for any student whose account with the university is delinquent until the debt has been satisfied:

- Registration
- Release of transcript, diploma, grades or schedules
- Loans
- The use of UF facilities and/or services
- Admission to UF functions and athletic events

Delinquent accounts, including those debts for which the student's records have a financial hold, may require payment by cashier's check or money order.

Delinquent debts may be placed with a billing agent, reported to a credit bureau and referred to collection agencies without further notice or litigated, at which time additional collection costs will be assessed in accordance with UF-3.0376, Regulations of the University of Florida. All payments received are applied to the oldest debt first.

FERPA and Confidentiality of Student Records

The university ensures the confidentiality of student records in accordance with the provisions of various federal, state, and university regulations, including the Family Educational Rights and Privacy Act of 1974 (FERPA), as amended, also known as the Buckley Amendment. The statutes and regulations also provide certain rights to students concerning their education records.

FERPA Student Rights

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include:

1. **The right to inspect and review the student's education records within 45 days of the day the University receives a request for access.** A student should submit to the registrar, dean, head of the academic department, or other appropriate official, a written request that identifies the record(s) the student wishes to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
2. **The right to request the amendment of the student's education records that the student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.** A student who wishes to ask the University to amend a record should write the University official responsible for the record the student wants changed, and specify why it should be changed. If the University decides not to amend the record as requested, the University will notify the student in writing of the decision and the student's right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
3. **The right to provide written consent before the University discloses personally identifiable information from the student's education records, except to the extent that FERPA authorizes disclosure without consent.** FERPA authorizes disclosure without consent in several situations, including but not limited to the following: A) The University may disclose education records without a student's prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisor, academic or research, or support staff position; a person or entity with whom the University has contracted as its agent to provide a service instead of using University employees or officials; a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing their tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill their professional responsibilities for the University. B) Upon request, the University may disclose education records without consent to an official of another school in which a student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer. C) Directory information (https://directory.ufl.edu) may be released freely unless the student files the appropriate form requesting that certain public information not be released. This form is available in the Office of the University Registrar.
4. **The right to file a complaint with the U. S. Department of Education concerning alleged failures by the University of Florida to comply with the requirements of FERPA.**

The name and address of the office that administers FERPA is:

Family Compliance Office
US Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-5901

Release of student record information is generally not permitted at the University of Florida without the express, written consent of the student. There are, however, some important exceptions.

Directory Information is defined as the student's name, class and college, local and permanent addresses, listed telephone number, email address, enrollment status, most recent previous educational institution attended, dates of attendance at the University of Florida, majors, minors, certificates,

concentrations and degrees earned, nature and place of employment at the University, honors and awards received, publication titles, participation in officially recognized or registered activities and sports, and weight and height of members of athletic teams.

Under FERPA, the university may release directory information without a student's prior consent, unless the student tells the university not to release this information, by placing what is known as a privacy hold. In order to place a privacy hold, the student must complete a Request for Restriction of Directory Information (Full Privacy Hold). This form is available by contacting the Office of the University Registrar by email (help@registrar.ufl.edu), phone (352.392.1374), or by visiting the Registrar's Information Counter in 222 Criser Hall.

Two important details regarding placing a privacy hold on a student's record:

- The university receives many inquiries for directory information from a variety of sources outside the institution, including friends, parents, relatives, prospective employers, the news media and honor societies. A privacy hold will preclude the release of such information, even to those people.
- A privacy hold applies to all elements of directory information in a student's student record. The Office of the University Registrar does not apply the privacy hold differentially to the various directory information data elements. A request for a privacy hold will result in all data elements being withheld. Changes made by the online student directory will not be reflected on the student's academic record.

A copy of FERPA, more details (http://www.registrar.ufl.edu/ferpa.html) about student rights and any university policies related to the FERPA are available from the Office of the University Registrar. Please refer any questions concerning FERPA to that office in 222 Criser Hall, 352.392.1374.

Confidentiality of Student Records

Directory Information that can be released to the public is limited to:

- Student name
- Class and college
- Local and permanent addresses
- Listed telephone number
- Email address
- Enrollment status
- Most recent previous educational institution attended
- Dates of attendance at the University of Florida
- Majors
- Minors
- Certificates
- Concentrations
- Degree earned
- Nature and place of employment at the university
- Honors and awards received
- Publication titles
- Participation in officially recognized or registered activities and sports
- Weight and height of university athletes

The Office of the University Registrar routinely releases directory information to the public. Directory information may also be released by other university departments and/or employees. Currently enrolled students who want to restrict directory information must contact the Office of the University Registrar for assistance.
More Info (http://www.registrar.ufl.edu/currents/addresschange.html)

Student **educational records may be released** without the student's consent to school officials who have a legitimate educational interest in accessing the records. *School officials* shall include:

- An employee, agent or officer of the university or State University System of Florida in an administrative, supervisory, academic, research or support staff position;
- Persons serving on university committees, boards and/or councils; and
- Persons employed by or under contract to the university to perform a special task, such as an attorney or an auditor.

Legitimate educational interest shall mean any authorized interest or activity undertaken in the name of the university for which access to an educational record is necessary or appropriate to the operation of the university or to the proper performance of the educational mission of the university.

The university also may disclose information from the student's educational record without their consent to individuals or entities permitted such access under applicable federal and state law.

Students have the right to review their own educational records for information and to determine accuracy. A photo I.D., other equivalent documentation or personal recognition by the custodian of record will be required before access is granted. Parents of dependent students, as defined by the Internal Revenue Service, have these same rights upon presentation of proof of the student's dependent status. Each spring when the catalog is published, students are notified of their FERPA rights.

If a student believes their educational record contains information that is inaccurate, misleading or in violation of their rights, they can ask the institution to amend the record. The UF Student Guide outlines the procedures for challenging the content of a student record, as well as the policies governing access to and maintenance of student records.
More Info (https://sccr.dso.ufl.edu/students/student-conduct-code)

If a student believes the university has not maintained the confidentiality of their educational record as required by law, they may file a complaint by contacting:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue SW
Washington, D.C. 20202-5901

Grades and Grading Policies

Grades

Grades and Grade Points

The Office of the University Registrar records student grades.

The word *credit* refers to one semester hour, generally representing one hour per week of lecture or two or more hours per week of laboratory work.

Passing Grades and Grade Points

Credit Earned Prior to May 11, 2009 - Summer A

Passing Grade	Grade Points
A	4.0
B+	3.5
B	3.0
C+	2.5
C	2.0
D+	1.5
D	1
S	0

Passing Grades and Grade Points

Credit Earned Effective May 11, 2009 - Summer A

Passing Grade	Grade Points
A	4.0
A-	3.67
B+	3.33
B	3.0
B-	2.67
C+	2.33
C	2.0
C-	1.67
D+	1.33
D	1.0
D-	.67
S	0

The degree-granting college may require a specific minimum grade in particular courses.

Failing Grades and Grade Points

Failing Grade, Zero Grade Points, Counted in GPA	Grade Points
E	O
WF	0
I	0
NG	0

Non-Punitive Grades and Grade Points

Non-Punitive Grade, Zero Grade Points, Not Counted in GPA	Grade Points
W	0
H	0
I*	0
N*	0
U	0

Definitions

E

Failure

H

Deferred grade assigned only in approved sequential courses or flexible learning

I* / I

Incomplete

N* / NG

No grade reported

S

Satisfactory

U

Unsatisfactory

W

Withdrew

WF

Withdrew failing

I*, N* and I, NG Grades

I* or N* grades recorded on the student record indicate the non-punitive initial-term receipt of an I or NG. A grade of I* or N* is not considered a failing grade for the term in which it is received, and it is not computed in the grade point average. However, if the I* or N* has not been changed after 150 days, it will be counted as a failing grade and used in computation of a student's grade point average.

For purposes of determining grade point average after the initial receipt of an I* or N* grade, the three summer terms are considered collectively as a single term. I* and N* grades are not assigned to graduating students; they receive failing grades of I or NG.

An incomplete grade may be assigned at the discretion of the instructor as an interim grade for a course in which the student has completed a major portion of the course with a passing grade, been unable to complete course requirements before the end of the term because of extenuating circumstances, and obtained agreement from the instructor and arranged for resolution of the incomplete grade. Instructors are not required to assign incomplete grades.

If make-up work requires classroom or laboratory attendance in a subsequent term, students must not register for the course again. Instead, they should audit the course and pay course fees.

If the make-up work does not require classroom or laboratory attendance, the student and their instructor should decide on an appropriate plan and deadline for completing the course.

When the course is completed, the instructor will initiate the change of grade. **These procedures cannot be used to repeat a course for a different grade**. An I grade should not be assigned to a student who never attended class; instead, instructors should assign a failing grade.

W and WF Grades

Courses dropped after drop/add and before the withdrawal deadline will be graded W. WF grades are no longer issued by the university, but in previous years they reflect courses dropped after the withdrawal deadline.

More Info (p. 1430)

Satisfactory/Unsatisfactory Grade Option (S/U)

Subject to college degree program and department guidelines, students can take elective coursework and earn grades of S (satisfactory) or U (unsatisfactory). **A grade of S is equal to a C (2.0) or better**. Grades earned under the S/U option do not carry grade point values and are not computed in the University of Florida grade point average. Courses with a grade of S will count as credits earned in a degree program. Such grades are included in the student's permanent academic record and are reflected on the transcript. **After the S/U option is approved, the grade cannot revert to a letter grade**.

Other academic institutions and agencies may interpret a grade of U as a failing grade.

If a student chooses the S/U option they must be in good standing and not on university academic probation. To elect the S/U option, students must obtain the approvals indicated on the form. Students can elect the S/U option for one course only each term; this option is in addition to courses that are taught only on an S/U basis. Courses taken to fulfill the general education and the writing requirement cannot be taken S/U.

For fall, spring and summer C terms, the S/U option deadline is Friday of the third week of classes. For summer A and summer B terms, the deadline is Wednesday of the second week of classes.

H Grades

An H grade, which signifies a deferred grade assignment, is normally assigned at the end of a term when a specific course's class calendar differs from the traditional course calendar. Now that UF flexible learning courses have been incorporated into the student records system, H grades will also be assigned to students who cannot complete their flexible learning course requirements before the end of the traditional grade cycle.

While H grades for traditional courses become punitive at a date determined by the college, H grades for flexible learning coursework generally become punitive 32 weeks after course enrollment. However, any grade of H received by a degree candidate will become punitive (and calculated as a failing grade) at degree certification.

Grading Policies

Grade Point Averaging

The term *average* refers to the grade point average (GPA) for work completed in the current or most recent academic program attended at the University of Florida. Grades received at other institutions are NOT averaged with grades received at the University of Florida for the purpose of meeting university GPA requirements. Other agencies and honorary societies will compute averages in accordance with their own standards and policies. Averages are determined by computing the ratio of grade points to semester credits attempted.

Dismissal for Insufficient GPA

Just as a sufficient GPA is critical for academic success, an insufficient GPA could lead to dismissal from the university. Students must maintain a minimum GPA based on their cumulative UF credits to avoid dismissal and cancellation of advanced registrations.

More Info (p. 1425)

Grade Values for Conversion

Grades	Grade Points
A	4.0
A-	3.67
B+	3.33
B	3.0
B-	2.67
C+	2.33
C	2.0
C-	1.67
D+	1.33

WF	0
I	0
NG	0
S/U	0

To see calculations based upon former grade values, please refer to the 2009-10 undergraduate catalog (http://www.registrar.ufl.edu/catalog0910/policies/regulationgrades.html).

Repeat Coursework

University of Florida coursework that is repeated is counted in the computation of your UF grade point average as many times as grades for that course are recorded, although credits will be awarded only once.

When you earn a C (2.0) or higher in a course, you will not be allowed to repeat that course. Any exceptions to this policy must be made via an approved petition to the student's college.

If you entered UF with credit for Advanced Placement (AP) or International Baccalaureate (IB) courses and you then repeat and pass the equivalent course at UF, you will receive a grade for the UF course and no credit for the prior work.

Grades received at other institutions will not be averaged with grades received at the University of Florida. Repeat coursework taken at the University of Florida will result in calculation of the UF grade in the UF grade point average only, with credit earned only once.

Outcomes when Repeated Coursework involves Transfer Coursework

Coursework taken at another institution, then repeated at UF

Only UF grade computed in GPA; credit earned only once.

Coursework taken at UF, then repeated at another institution

Only UF grade computed in GPA; credit earned only once.

Coursework taken and repeated at another institution

No grades will be calculated into the UF GPA and credit is awarded only once.

Repeat course equivalencies are identified based on the state's common course taxonomy. Refer to the statewide course numbering system (p. 1455) for the definition of course equivalencies.

Colleges may not accept grade points and credits earned from lower level courses if they are taken after the student has received credit/grades for advanced courses or exam credit in the same field.

Grade Changes

Grade changes will be accepted and processed by the Office of the University Registrar for one calendar year after the term in which the course was attempted.

Any grade changes submitted after the deadline must be accompanied by additional supporting information or documentation justifying the extension and submitted to the appropriate college dean. If the dean approves the exception, they will forward an authorized grade change form to the Office of the University Registrar.

One calendar year is specified as the published grades due date of the same semester in the following year.

This policy does not apply to grades of I or I*, which designate a grade of incomplete.

Registration Policies

Course Load Requirements

The minimum full-time load for undergraduate students is 12 credits. The minimum full-time load for a summer term is 12 credits. Postbaccalaureate students are considered undergraduates.

Students with disabilities who are registered with the Disability Resources Center are eligible for full-time status and all the benefits thereof at or below 12 credits.
More Info (http://www.dso.ufl.edu/drc)

The minimum load for full-time undergraduate student benefits from the Veterans Administration is 12 credits for fall, spring, and summer terms. The minimum load for full-time undergraduate student benefits from the Social Security Administration is 12 credits per semester; a full-time load for graduate students is 9 credits. Inquiries related to Social Security benefits should be directed to the student's local Social Security Office.

The Office of the University Registrar will complete enrollment certificates issued by the Social Security Administration for students eligible to receive educational benefits, as long as the student is a full-time undergraduate. Students receiving financial aid and students with disabilities should refer to Financial Aid's enrollment requirements for complete information.
More Info (http://www.sfa.ufl.edu/receiving/enrollment-requirements)

University regulations allow a maximum load of 18 credits. Some colleges have differing maximum loads; refer to the college sections for specific information.

With college approval you may register for less than the minimum or more than the maximum load. After late registration, you cannot drop below the minimum load without successfully petitioning your college dean.

Simultaneous enrollment in flexible learning courses or extension work at another college or university is counted when computing the maximum course load but not the minimum course load.

Non-Degree Registration

Non-degree enrollment is restricted to participants in special programs, off-campus programs, university-affiliated exchange programs, and high school/college dual-credit enrollment. (Special regulations govern high school/college dual enrollment for academically advanced students in Florida high schools.)
More Info (http://www.registrar.ufl.edu/registration/transients.html)

Undergraduate students who have been denied admission to UF for any term are not eligible for non-degree registration. If you previously have attended UF in a degree-seeking status and did not subsequently earn a bachelor's degree, you are not eligible for non-degree registration.

Non-degree enrollment is subject to the availability of faculty, space and facilities. No application for admission is required.

Non-degree enrollment is generally limited to the summer terms.

UF Students Attending Other Schools

Normally, UF students are not permitted to register at another institution for a course or its equivalent that is offered at UF.
More Info (http://www.registrar.ufl.edu/currents/transients.html)

Visiting Students Attending UF

Undergraduate students in good standing at another accredited collegiate institution can enroll full time at UF as non-degree transient students to complete work to transfer back to the parent institution.
More Info (http://www.registrar.ufl.edu/currents/transients2.html)

UF will not evaluate work previously completed, and it is the student's responsibility to secure approvals required by the parent institution. Certification to Social Security and Veterans Administration programs also is the responsibility of the student, who must request each institution to furnish records.

Non-degree students are subject to the following restrictions:

- Non-degree students must meet state of Florida immunization requirements.
- Course enrollment requires the approval of the college at the beginning of each term. The college of enrollment has the authority to terminate a non-degree enrollment before registration for any term. Generally, non-degree registration is for one term only.
- Registration is not permitted until the last three days of the fall/spring drop/add period and must be completed by the end of drop/add; failure to register by that deadline will result in a late registration fee.
- Registration is not permitted until the first day of the summer drop/add period and must be completed by the end of drop/add; failure to register by that deadline will result in a late registration fee.
- The same grading system is applicable to degree and non-degree students. Non-degree credit is not applicable to a UF degree except by subsequent admission to degree status and successful petition for application of such credit. Authorization to enroll as a non-degree student in no way implies future approval for admission as a degree-seeking student.
- Non-degree enrollment status will be denied to any student under suspension or dismissal from a postsecondary institution or not in good standing at any institution previously enrolled, including UF, even if the student has subsequently attended another institution. Non-degree students are subject to other regulations and restrictions imposed by the college or department in which they wish to enroll.
- Non-degree students taking courses at the university will be required to register for and to attend classes under the university calendar. Non-degree students must pay appropriate UF fees based on course level, number of credits and residency status.

Auditing Courses

Auditing a course is approved on a space-available basis. In addition to paying tuition and fees, the student must obtain approvals from both the instructor and dean of the college offering the course. Immunizations also are required.
More Info (http://www.registrar.ufl.edu/currents/specialregistrations.html)

Audited courses are reflected on the academic transcript with a grade value of AUD.

Students auditing a course to complete course requirements should refer to Grades and Grading Policies.
More Info (p. 1438)

Transfer Credit

In general, students may transfer 60 credits from public/state colleges as part of the credits needed for their UF degrees, regardless of when these credits are earned, subject to university and college degree requirements.

Associate of Arts (A.A.) degree recipients from Florida public colleges who continue enrollment at the school that awarded the A.A. may be granted additional transfer credit for one or more courses that satisfy their UF degree requirements.

Junior/senior-level (courses numbered 3000-4000) course requirements for the major must be completed at UF or, with permission of the student's UF college, at another accredited baccalaureate degree-granting institution. Refer to Residence Requirements for additional policy regarding graduation requirements.
More Info (p. 1429)

Courses completed with grades of D or higher at other regionally accredited degree-granting institutions and institutions fully accredited by a regional or national accrediting agency recognized by the United States Department of Education that participate in the statewide course numbering system and that reasonably parallel the curriculum at this university will be accepted for transfer credit as hours earned. It is the prerogative of the student's college to determine how transfer credit satisfies the specific degree's course requirements.

Students are required to submit final official transcripts from all institutions attended before or during their enrollment at UF.

Failure to declare attendance at another institution can invalidate admission to UF and any credits or degrees earned.

Student Classifications

Classification	Explanation
Non-degree	Special transient students, qualified high school students and other non-degree students permitted to register at UF

Freshman	Students with fewer than 30 credits earned
Sophomore	Students who have earned 30 credits and who have fewer than 60 credits
Junior	Students who have earned 60 credits and have fewer than 90 credits
Senior	Students who have earned 90 credits or more
Fifth Year	Students who have earned 120 credits or more and who are candidates for a degree in a program that normally requires 10 semesters
Post-Bacc Undergraduate	Postbaccalaureate students: degree-holding students who have been admitted to postbaccalaureate status
Graduate-7	Graduate students seeking a first master's degree
Graduate-8	Graduate students who have earned a master's degree, or who have earned 36 or more credits while seeking a graduate degree, who have not been admitted to doctoral candidacy
Graduate-9	Graduate students who have been admitted to doctoral candidacy

Transcript Policies

The Office of the University Registrar maintains all students' academic records. At the end of each term of enrollment, students can view their grades, cumulative credits earned, grade points, probationary status and degrees earned, if any, on ONE.UF.
More Info (https://one.uf.edu)

The University of Florida transcript is the comprehensive record of courses taken at UF, credit earned by examination, university-level honors, certifications and certificates, and degrees awarded. The student's name will appear on the transcript as it appears on their university record.

Transcripts can be ordered online on ONE.UF. Payment must accompany each transcript order; transcripts cannot be ordered by telephone, fax or email. Current and former students will need a valid GatorLink account (with an active username and password) to order an official transcript or to view and print an unofficial copy of their UF transcripts on ONE.UF. The unofficial copy of the UF transcript may not be accepted by other institutions or potential employers.
More Info (https://one.uf.edu)

The university maintains the right to withhold release of a transcript if a student has an outstanding financial obligation to the university. To reflect a complete academic record for undergraduate, graduate and professional students, the university will issue complete transcripts only. Transcripts do not differentiate between degrees or courses taken in a classroom or online format.

Dates and Deadlines

All deadlines are effective **at 5:00 p.m.** on the last date unless indicated otherwise. All paperwork should be submitted to the appropriate office, generally the Office of the University Registrar in 222 Criser Hall (http://campusmap.ufl.edu/?loc=0031), **by 5:00 p.m.**, unless indicated otherwise.

All dates and deadlines may be subject to change.

2018-2019 Dates and Deadlines

All deadlines are effective **at 5:00 p.m.** on the last date unless indicated otherwise. All paperwork should be submitted to the appropriate office, generally the Office of the University Registrar in 222 Criser Hall (http://campusmap.ufl.edu/?loc=0031), **by 5:00 p.m.**, unless indicated otherwise.

All dates and deadlines may be subject to change.

Student Life

Student Services

Division of Student Affairs

The University of Florida Division of Student Affairs creates a signature student experience, developing bold and highly effective graduates. We take pride in guiding the university's efforts for students centered on: Health and Wellness, Leadership, Success Services, and Career Readiness.

The Office of the Vice President for Student Affairs, located in 135 Tigert Hall, has administrative responsibility for the Career Resource Center, Counseling and Wellness Center, Dean of Students Office, First Generation Student Success, GatorWell Health Promotion Services, Housing and Residence Education, J. Wayne Reitz Union, Machen Florida Opportunity Scholars Program, Multicultural and Diversity Affairs, Recreational Sports, Student Activities and Involvement, and Student Legal Services.
More Info (http://www.ufsa.ufl.edu) Map (http://campusmap.ufl.edu/?loc=0026)

Campus Facilities

On 2,000 acres, most of it within the limits of a 125,000-population urban area, the university operates out of close to 1,000 buildings, almost 200 of them equipped with classrooms and laboratories. Facilities are valued at more than $1.5 billion. Notable among these are the Brain Institute, the physics building, University Art Gallery, a microkelvin laboratory capable of producing some of the coldest temperatures in the universe, a 100-kilowatt training and research nuclear reactor, the second largest academic computing center in the South, and a self-contained intensive-care hyperbaric chamber for treating near-drowning victims.

Ben Hill Griffin Stadium

Ben Hill Griffin Stadium, or *The Swamp*, is widely recognized as one of the toughest environments for a visiting team in all of college football. Several facelifts after the stadium's original construction in 1930 have made Florida Field at Ben Hill Griffin Stadium a state-of-the-art facility. *The Swamp* is the largest stadium in the state of Florida.
More Info (https://floridagators.com/facilities/?id=1) Map (http://campusmap.ufl.edu/?loc=0157)

Florida Museum of Natural History

The Florida Museum of Natural History is the largest natural history/anthropology museum in the Southeast and one of the top 10 in the nation. Its research collections contain nearly 6.5 million specimens.
More Info (http://www.flmnh.ufl.edu) Map (http://campusmap.ufl.edu/?loc=0181)

Harn Museum of Art

The Samuel P. Harn Museum of Art, with 18,000 square feet of exhibit space, is one of the largest museums in the Southeast. The Curtis M. Phillips Center for the Performing Arts attracts world-class symphony orchestras, Broadway plays, operas, and large-scale ballet productions to Gainesville.
More Info (http://harn.ufl.edu) Map (http://campusmap.ufl.edu/?loc=0309)

Newell Hall

Originally built in 1909, Newell Hall is the 3rd oldest building on campus. The facility was completely repurposed to create an active learning environment for both undergraduate and graduate students. It provides a high-tech, collaborative environment with open plan study rooms to foster a creative environment focused on innovation, flexibility, and accessibility.
Map (http://campusmap.ufl.edu/?loc=0013)

O'Connell Center

The Stephen C. O'Connell Center covers three acres and is used by the university for classes, intercollegiate sports, general recreation, and a variety of other entertainment events. An Olympic-sized swimming pool, dance studio, gymnastics studio, martial arts room, free style weight room, Nautilus center, track, badminton, volleyball courts, and practice basketball court are located in and around the perimeter of the 12,000 seat main arena. The versatility of this facility permits as many as eight recreational activities to be conducted simultaneously. All recreational, educational and entertainment facilities within the O'Connell Center have been designed to accommodate persons with disabilities.
More Info (http://oconnellcenter.ufl.edu) Map (http://campusmap.ufl.edu/?loc=0094)

Reitz Student Union

The newly expanded J. Wayne Reitz Student Union provides space for a myriad of student and faculty activities. More than 20,000 people use the Reitz Union daily for various activities, including shopping, dining, student organizations and hotel services.

Campus Safety and Security

Contact: Email (wbarber@ufl.edu?Subject=Campus Safety and Security) | 352.273.3309

The University of Florida is one of the largest institutions of higher education in the nation. The university community is not unlike many other municipalities, and as such, has the same safety and security concerns as Anytown, USA.

The University of Florida Police Department (UFPD) recognizes that it must maintain the safest and most secure environment possible for all students, faculty and staff, and campus visitors. The UFPD has the utmost concern for personal and property safety, but with an open campus environment, safety becomes a shared responsibility.

The UFPD is a state of Florida and nationally accredited law enforcement agency. There are more than 90 fully certified and sworn officers who patrol the UF campus and its surrounding properties 24 hours per day, every day. The department has its own Criminal Investigations Division employing highly trained detectives to investigate any reported crime on campus. The officers of the Uniformed Patrol Division are highly trained campus law enforcement professionals who are equipped with the most contemporary crime-fighting techniques and tools. The Community Services Division is proactive in providing everyone in the campus community with the very latest information regarding personal and property protection through classes, programs and documents.

More Info (http://www.police.ufl.edu) Map (http://campusmap.ufl.edu/?loc=0027)

Career Connections Center

The Career Connections Center (Career Center) provides events and services to help students develop and implement their Career Action Plan to realize their next steps. Students can work with Career Center staff to select a major, clarify their interests and abilities, develop professionally, build experience, and prepare for future internship, graduate school, or employment searches.

Students should activate their Gator CareerLink account to learn about the range of in-person and online career planning services available to them and see which employers are actively recruiting University of Florida candidates.

The Career Connections Center hosts hundreds of employers annually as they attend a variety of career events, hold on-campus interviews, and present information sessions and informal interactions with students.
More Info (https://career.ufl.edu) Map (http://campusmap.ufl.edu/?loc=0686)

Visit the Career Connections Center to:

- Assess skills and interests to help choose a major (https://career.ufl.edu/students/explore-majors-careers/choose-or-change-a-majorcareer)
- Explore various career options (http://ufl.myplan.com)
- Secure internships and other work experience (https://career.ufl.edu/engage) before graduating
- Conduct mock interviews (https://career.ufl.edu/excel)
- Prepare for graduate school (https://career.ufl.edu/explore)
- Start a full-time job search (https://career.ufl.edu/engage)
- Create a Gator CareerLink to find internships and full-time positions

Counseling and Wellness Center

As the primary provider of mental health services on campus, the Counseling and Wellness Center offers high quality counseling and psychiatric case as well as developmental and preventative services to UF students.

The Counseling and Wellness Center at 3190 Radio Road provides counseling, consultation and crisis intervention services to currently enrolled undergraduate and graduate students and their spouses/partners. These services include individual, couples and group counseling; outreach programs and consultations; classes/guest lectures and research; and an extensive professional training program for mental health professionals. All of the Center's programs and services are designed to help students develop the personal awareness and skills necessary to take advantage of the educational opportunities at the university.
More Info (http://www.counseling.ufl.edu/cwc) Map (http://campusmap.ufl.edu/?loc=0081)

Dean of Students

The Dean of Students Office in 202 Peabody Hall provides programs and services to support students' academic success and personal development.
More Info (http://www.dso.ufl.edu) Map (http://campusmap.ufl.edu/?loc=0004)

U Matter, We Care

At UF, every Gator counts. U Matter, We Care serves as UF's umbrella program for UF's caring culture and provides students in distress with support and coordination of the wide variety of appropriate resources. Families, faculty and students can contact umatter@ufl.edu seven days a week for assistance for students in distress.
Email (umatter@ufl.edu)

Emergency Response

Coordinates the university's response to student emergencies and crises. Assistance for students in distress is available 7 days a week.

New Student and Family Programs

Organizes first-year experience and new student programs including new student orientation.

Student Conduct and Conflict Resolution

Administers the university's student conduct code and academic honesty guidelines.

Medical Withdrawals

Conducts the petitions process for students who withdraw from the university for medical reasons.

Collegiate Veterans Success Center

As a Veteran Friendly Campus, it is important to provide a place for student veterans where veterans can meet, study, and spend time in a safe and relaxing environment. Ranked among the top centers for veterans in the country, the veteran's success center looks to provide ongoing support for those who have served in our armed forces.

Disability Resource Center

Contact: Email (DRCaccessuf@ufsa.ufl.edu) | 352.392.8565

The Disability Resource Center (DRC) in the Dean of Students Office utilizes knowledge and expertise in the fields of disability and higher education to create an inclusive environment by:

- Acting as a resource for students with physical, learning, sensory, or psychological disabilities;
- Facilitating and providing support for reasonable accommodations for students in order to afford equal access to academic courses, programs, and activities;
- Providing services to address the impact of disabilities on student performance and success in and out of the classroom;
- Empowering students to articulate their strengths and advocate for their accommodations; and
- Creating opportunities to educate the campus community on disability laws, trends, universal design, programs, and services.

The DRC serves more than 2,300 registered students through classroom accommodations, support groups, a testing center that proctors 10,000 tests annually, and one-to-one skills coaching. DRC staff are available to provide individual strategy sessions and consultation with students, faculty, and families. Email accessuf@dso.ufl.edu or call to schedule an appointment.
More Info (https://www.dso.ufl.edu/drc) Map (http://campusmap.ufl.edu/?loc=0020)

Gator Dining Services

Gator Dining is the official food service provider for the university. There are more than 45 dining locations on campus, including many national franchises like Subway, Chick-fil-A, and Starbucks. There are also

nutritious and vegetarian options as well as special treats like yogurt smoothies, gourmet coffees, and chocolate chip cookies.

Gator Dining Services offers two types of meal plans (http://gatordining.com/meal-plan-information): the all campus meal plan and the regular declining balance account.
More Info (http://www.bsd.ufl.edu/dining) Dining Locations (http://www.gatordining.com/mealplans/where-to-eat-map)

GatorLink, Gator 1 Card, and UFID

GatorLink

GatorLink establishes a unique computer identity for every student. The GatorLink account provides access to all online services and creates the UF **"username@ufl.edu"** email address.
More Info (http://helpdesk.ufl.edu/self-help/new-gator-resources/gatorlink)

All students must maintain and regularly check their GatorLink email as this is where all official university communications are sent.

Gator 1 Card

The Gator 1 card is the official university photo ID. The ID Card Services office is located on the ground floor of the UF Bookstore and Welcome Center complex on Museum Road.
More Info (http://www.gator1card.ufl.edu/Gator1C_info.asp)

All enrolled students, faculty and staff must have this card to:

- Enter CIRCA computer labs, university libraries, the infirmary, recreation centers.
- Sign up for intramural sports activities.
- Participate in the textbook deferment program at the UF Bookstore.
- Purchase tickets to university events.
- Vote in student government elections.
- Purchase food on campus with a Gator Dining or prepaid vending account.
- Use laundry facilities in some residence halls.
- Use as an ATM/debit card when activated through Wells Fargo Bank. More Info (https://www.wellsfargo.com/student/banking/campuscard)

UFID

UFID is an eight-digit number that serves as the primary identifier for all university records and transactions. Similar to a social security number, no two people will have the same number, and each person has only one. The UFID is assigned by the university, not chosen like a PIN. All students, faculty and staff have UFIDs, and the number is printed on the Gator 1 card.
More Info (http://identity.it.ufl.edu/process/uf-identifier)

Housing and Residence Education

Welcome to #WhereGatorsLive at the University of Florida. On-campus living means students are in on all the action and seconds away from everything as they get involved, build the path to their successful future, and make connections that will last a lifetime. UF Housing offers 26 different residence halls for undergraduate students and 6 different villages for graduate students and their families. Explore the options.
More Info (http://www.housing.ufl.edu) Map (http://campusmap.ufl.edu/?loc=0753)

Beginning Freshmen

Freshmen entering the university will be offered a housing agreement based on the term they were admitted. Residence hall contracts are available for the academic year (summer B/fall/spring, fall/spring, spring/summer, and the summer terms).

Applying for campus housing does not guarantee an offer of residence hall space. If space is available, admitted students will receive an email link to the online residence hall contract process. To secure campus housing, the student must complete a contract, sign it and submit the advance rent payment by the deadline.

- Residence Halls (https://www.housing.ufl.edu/housing)
- Apply for Housing (http://www.housing.ufl.edu/apply)
- Transfer Student Information (https://housing.ufl.edu/living-options/apply/incoming-students)
- Villages (http://www.housing.ufl.edu/gfh/choices)
- Off-campus Housing Information (http://www.offcampus.ufl.edu)

Student Financial Affairs

The Office for Student Financial Affairs (SFA) in 107 Criser Hall administers financial aid programs and provides financial assistance and counseling. SFA awards aid according to financial need (the difference between current educational costs and what the individual student can pay toward these costs).
More Info (http://www.sfa.ufl.edu) Map (http://campusmap.ufl.edu/?loc=0031)

Financial Aid

Financial aid is money provided to students and their families as gift aid (scholarships, grants) or self-help programs (loans and/or work) to help pay college costs. Financial aid can be awarded singly (one type of aid) or as a package.
More Info (http://www.sfa.ufl.edu/programs)

Grants

Grants are awarded for financial need. The largest grant program at UF is the Federal Pell Grant. Other grants include Federal Supplemental Educational Opportunity Grants, Federal Academic Competitiveness Grants, National SMART Grants, the Teacher Education Assistance for College and Higher Education (TEACH) Grant, Florida Student Assistance Grants, Turner Grants and UF Graduate Grants.
More Info (http://www.sfa.ufl.edu/programs/grants)

Scholarships

Scholarships are awarded based on academic performance and financial need. Most academic scholarships are awarded through the UF Office of Admissions and individual UF colleges. SFA administers a limited number of scholarships from private donors.
More Info (http://www.sfa.ufl.edu/programs/scholarships)

Student Employment

Federal Work-Study jobs may be awarded by SFA to students with demonstrated financial need as part of an aid package. Other job programs, such as OPS employment, do not require financial need and are open to any student with the desire to work who meets the basic criteria of half-time enrollment and a 2.0 GPA. Student jobs usually are 15-20 hours a week and pay at least minimum wage.
More Info (http://www.sfa.ufl.edu/programs/employment)

Loans

Loan programs for undergraduates include: Federal Direct Stafford loans, Federal Direct Unsubsidized Stafford loans, Federal Direct Graduate PLUS

loans, Federal Perkins Loans and UF institutional loans. These programs offer long-term, low-interest loans that must be repaid when the borrower graduates, withdraws or drops to less than half-time enrollment. Parents of dependent undergraduate students can take out educational loans through the Federal Direct PLUS loan program. Graduate students can take out educational loans through the Federal Grad PLUS loan program.
More Info (http://www.sfa.ufl.edu/programs/loans)

When to Apply

Applications are available January 1 each year. Although SFA cannot award financial aid until students have been admitted to UF, they should apply for aid as soon as possible after January 1. Students are considered for aid according to the date their aid file is complete. Federal Pell Grants, Federal Academic Competitiveness Grants (ACG), Federal SMART Grants, Federal Direct Stafford Loans and OPS employment are open throughout.

March 15 is UF's on-time deadline for financial aid application. SFA must receive students' application information from the federal need analysis processor by March 15 in order to be considered for Federal Work Study, Federal Perkins loans, Federal Supplemental Educational Opportunity Grants, Turner Grants and institutional (UF) loans. Financial aid at UF is awarded first-come, first-served. Students missing the deadline will only be considered for aid remaining after on-time students have received their awards.

- How to Apply for Financial Aid (http://www.sfa.ufl.edu/applying)
- Enrollment Requirements for Financial Aid (http://www.sfa.ufl.edu/receiving/enrollment-requirements)
- How to Apply for Student Employment (http://www.sfa.ufl.edu/programs/employment)

Financial Aid Academic Progress Requirements

UF students receiving financial aid are required to be in good standing and to maintain satisfactory academic progress.
More Info (http://www.sfa.ufl.edu/additional/academic-progress)

Recreational Sports

With an active student body and an abundance of Florida sunshine, recreations is a big part of life on campus. The university offers more than 60 intramural and club sports, personal training, a midnight fun run, a lake and one of the best fitness facilities in the country. So no matter a student's interest or skill level, there's always a great way to get involved with other Gators.

RecSports offers experiences that enrich the lives of University of Florida students through excellence in facilities, fitness, sport, adventure and play. RecSports is committed to fostering leaders, encouraging lifelong healthy lifestyles and maintaining welcoming and safe environments, including student activities and programs, campus recreation facilities, aquatics, Lake Wauburg and more.
More Info (http://www.recsports.ufl.edu) Locations (http://recsports.ufl.edu/locations)

Student Health Care Center

More Info (http://shcc.ufl.edu) Map (http://campusmap.ufl.edu/?loc=0018)

General Information and Helpful Links

Appointments, Hours and Locations, Excuse Notes, Fees for Services, etc.

The Student Health Care Center (SHCC), established in 1906, is an accredited outpatient clinic staffed by licensed, board-certified medical providers who pride themselves on keeping UF's students, faculty and staff healthy through a variety of primary and specialty care services, including general medical care, immunizations, dermatology, massage therapy, nutrition, occupational medicine, physical therapy, sports medicine, travel, women's health and workers compensation. The SHCC also conducts the annual campus flu shot campaign.
More Info (http://shcc.ufl.edu/services/primary-care/flu)

All registered UF students paying the tuition-included health fee may access SHCC services. If a student takes time off (for example, no summer classes), they must pay the per-semester optional health fee to receive care, which covers the costs associated with most SHCC office visits, but is not considered health insurance. Items not covered by the health fee that patients are financially responsible for include, but are not limited to health insurance, hospital visits, external community providers/facilities, physicals, procedures, X-rays, lab tests, medical equipment, prescriptions, non-prescription medications, vaccinations, massage and physical therapy.

In addition to university-sponsored insurance plans, the SHCC can direct-bill many private insurance companies for covered medical charges. Visit the SHCC's Health Insurance Options for more information on private insurance usage and verification, as well as current university-sponsored insurance details.
More Info (http://shcc.ufl.edu/fees-and-insurance/health-insurance-options)

UF Bookstore and Welcome Center

The University of Florida Bookstores are located in the UF Welcome Center on Museum Road just next to the student union, in the Health Science Center and in the College of Veterinary Medicine. UF Bookstores offer new and used textbooks, school supplies, gifts and clothing. Bookstore programs include textbook reservations and a 50% guaranteed book buyback.
More Info (http://www.bsd.ufl.edu/bookstore) Map (http://campusmap.ufl.edu/?loc=0886)

UF Welcome Center is within the main UF Bookstore next to the Reitz Union. The Welcome Center is maintained by the Office of Admissions and is the university's front door to visitors, providing weekday and Saturday information sessions and walking tours of campus.
More Info (http://www.admissions.ufl.edu/visit.html)

Courses

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

About Courses

Statewide Course Numbering System

Courses in this catalog are identified by prefixes and numbers that were assigned by Florida's Statewide Course Numbering System (SCNS). This numbering system is used by all public postsecondary institutions in Florida and 27 participating non-public institutions. The major purpose of this system is to facilitate the transfer of courses between participating institutions. Students and administrators can use the online SCNS to obtain course descriptions and specific information about course transfer between participating Florida institutions.
More Info (http://scns.fldoe.org)

Each participating institution controls the title, credit and content of its own courses and recommends the first digit of the course number to indicate the level at which students normally take the course. Course prefixes and the last three digits of the course numbers are assigned by members of faculty discipline committees appointed for that purpose by the Florida Department of Education in Tallahassee. Individuals nominated to serve on these committees are selected to maintain a representative balance as to type of institution and discipline field or specialization.

The course prefix and each digit in the course number have a meaning in the SCNS. The listing of prefixes and associated numbers is referred to as the *SCNS taxonomy*. Descriptions of the content of courses are referred to as *statewide course profiles*.

Example of Course Identifier

Prefix	Level Code (1st digit)	Century Digit (2nd digit)	Decade Digit (3rd digit)	Unit Digit (4th digit)	Lab Code
ENC	1	1	0	1	
English Composition	Lower (Freshman) Level at this institution	Freshman Composition	Freshman Composition Skills	Freshman Composition Skills 1	No laboratory component in this course

General Rule for Course Equivalencies

Equivalent courses at different institutions are identified by the same prefixes and the same last three digits of the course number and are guaranteed to be transferable between participating institutions that offer the course, with a few exceptions, as listed below in *Exceptions to the General Rule for Equivalency*.

For example, a freshman composition skills course is offered by 59 different postsecondary institutions. Each institution uses ENC_101 to identify its freshman composition skills course. The level code is the first digit and represents the year in which students normally take the course at a specific institution. In the SCNS taxonomy, ENC means English Composition, the century digit 1 represents Freshman Composition, the decade digit 0 represents Freshman Composition Skills and the unit digit 1 represents Freshman Composition Skills 1.

In the sciences and certain other areas, a C or L after the course number is known as a lab indicator. The C represents a combined lecture and laboratory course that meets in the same place at the same time. The L represents a laboratory course or the laboratory part of a course that has the same prefix and course number but meets at a different time or place.

Transfer of any successfully completed course from one participating institution to another is guaranteed in cases where the course to be transferred is equivalent to one offered by the receiving institution. Equivalencies are established by the same prefix and last three digits and comparable faculty credentials at both institutions. For example, ENC 1101 is offered at a community college. The same course is offered at a state university as ENC 2101. A student who has successfully completed ENC 1101 at the community college is guaranteed to receive transfer credit for ENC 2101 at the state university if the student transfers. The student cannot be required to take ENC 2101 again since ENC 1101 is equivalent to ENC 2101.

Transfer credit must be awarded for successfully completed equivalent courses and used by the receiving institution to determine satisfaction of requirements by transfer students on the same basis as credit awarded to the native students. It is the prerogative of the receiving institution, however, to offer transfer credit for courses successfully completed that have not been designated as equivalent.

Credit generated at institutions on the quarter-term system may not transfer the equivalent number of credits to institutions on the semester-term system. For example, 4.0 quarter hours often transfers as 2.67 semester hours.

About the Course Prefix

The course prefix is a three-letter designator for a major division of an academic discipline, subject matter area or subcategory of knowledge. The prefix is not intended to identify the department in which a course is offered. Rather, the content of a course determines the assigned prefix to identify the course.

Authority for Acceptance of Equivalent Courses

Section 1007.24(7), Florida Statutes, states: Any student who transfers among postsecondary institutions that are fully accredited by a regional or national accrediting agency recognized by the United States Department of Education and that participate in the statewide course numbering system shall be awarded credit by the receiving institution for courses satisfactorily completed by the student at the previous institutions.

Credit shall be awarded if the courses are judged by the appropriate statewide course numbering system faculty committees representing school districts, public postsecondary educational institutions and participating non-public postsecondary educational institutions to be academically equivalent to courses offered at the receiving institution,

including equivalency of faculty credentials, regardless of the public or non-public control of the previous institution.

The Department of Education shall ensure that credits to be accepted by a receiving institution are generated in courses for which the faculty possess credentials that are comparable to those required by the accrediting association of the receiving institution. The award of credit may be limited to courses that are entered in the statewide course numbering system. Credits awarded pursuant to this subsection shall satisfy institutional requirements on the same basis as credits awarded to native students.

Exceptions to the General Rule for Equivalency

Since the initial implementation of the SCNS, specific disciplines or types of courses have been excepted from the guarantee of transfer for equivalent courses. These include courses that must be evaluated individually or courses in which the student must be evaluated for mastery of skill and technique. The following courses are exceptions to the general rule for course equivalencies and may not transfer. Transferability is at the discretion of the receiving institution.

- Courses not offered by the receiving institution
- For courses at non-regionally accredited institutions, courses offered prior to the established transfer date of the course in question
- Courses in the _900-999 series are not automatically transferable, and must be evaluated individually. These include such courses as Special Topics, Internships, Apprenticeships, Practica, Study Abroad, Theses and Dissertations.
- College preparatory and vocational preparatory courses
- Graduate courses
- Internships, apprenticeships, practica, clinical experiences and study abroad courses with numbers other than those ranging from 900-999.
- Applied courses in the performing arts (Art, Dance, Interior Design, Music and Theatre) and skills courses in Criminal Justice (academy certificate courses) are not guaranteed as transferable. These courses need evidence of achievement (e.g., portfolio, audition, interview, etc.).

Courses at Non-regionally Accredited Institutions

The SCNS makes available on its home page (in the Latest News box) a report entitled Courses at Non-regionally Accredited Institutions that contains a comprehensive listing of all non-public institution courses in the SCNS inventory, as well as each course's transfer level and transfer effective date. This report is updated monthly.
More Info (http://scns.fldoe.org)

Questions about the SCNS and appeals regarding course credit transfer decisions should be directed to the Office of Admissions in 201 Criser Hall or,

The Florida Department of Education
Office of Articulation
1401 Turlington Building
Tallahassee, Florida 32399-0400

Special reports and technical information may be requested by calling the SCNS office at 850-245-0427 or visiting scns.fldoe.org (http://scns.fldoe.org).

Accounting

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Graduate Accounting Courses

Courses at the 5000 level are available to undergraduates who are admitted to the Fisher School of Accounting, who have met the admissions requirements for the Master of Accounting program and who have advisor approval. Prerequisites and graduate courses are listed in the graduate catalog.
More Info (http://gradcatalog.ufl.edu)

Courses

ACG 2021 Introduction to Financial Accounting 4 Credits
Grading Scheme: Letter Grade
Conceptual introduction to financial accounting. Emphasis is placed on wealth and income measurement and the preparation and interpretation of conventional financial statements.
Prerequisite: sophomore standing or higher.

ACG 2071 Introduction to Managerial Accounting 4 Credits
Grading Scheme: Letter Grade
Accounting for cost reporting and control. Reports, statements and analytical tools used by management.
Prerequisite: ACG 2021.

ACG 3101 Financial Accounting and Reporting 1 4 Credits
Grading Scheme: Letter Grade
Covers the theoretical structure of financial accounting, required financial statements, revenue recognition, operating assets and current liabilities.
Prerequisite: ACG 2021 and ACG 2071 with minimum grades of B.

ACG 3401 Business Processes and Accounting Information System 4 Credits
Grading Scheme: Letter Grade
Examination of the accounting information systems in a business organization. Coverage extends over topics such as business processes, internal controls, and the fundamentals of accounting information systems analysis, design, implementation and control.
Prerequisite: (ACG 2021 and ACG 2071 with minimum grades of B) and (CGS 2531 or ISM 3013).

ACG 3802 Professional Speakers Series 1 Credit
Grading Scheme: S/U
To expose students to technical topics and emerging issues in accounting, business and related professions such as law. The course addresses career opportunities in the practice of public accounting, industry, financial services, government, and in business more generally. (S-U)

ACG 4111 Financial Accounting and Reporting 2 4 Credits
Grading Scheme: Letter Grade
Continuation of ACG 3101 and includes coverage of accounting for investments, non-current liabilities and equities, accounting for income taxes, derivatives, accounting changes, statement of cash flows and earnings per share.
Prerequisite: ACG 3101 with minimum grade of C and FIN 3403.

ACG 4341 Cost and Managerial Accounting 4 Credits
Grading Scheme: Letter Grade
Extends cost and managerial coverage beyond that covered in ACG 2071. Topics include quantitative cost estimation, standard costing, flexible budgets, inventory management, pricing decisions, balanced scorecard, costs of quality, capital budgeting, transfer pricing and performance evaluations.
Prerequisite: (ACG 3101 and ACG 3401 with minimum grades of C) and QMB 3250 and (MAC 2234 or MAC 2312).

ACG 4632 Introduction to Auditing 3 Credits
Grading Scheme: Letter Grade
Introduces the basic concepts, principles and environment of financial statement auditing. The course emphasizes the audit decision-making process, researching audit standards, audit planning, evidence evaluation, audit reports, ethics and legal liability.
Prerequisite: ACG 4111 and ACG 4341 with minimum grades of C and AC classification.

ACG 4931 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Opportunity for in-depth study of topics not offered in other courses and of topics of special current significance.

ACG 4941 Supervised Accounting Internship 2-4 Credits
Grading Scheme: S/U
Applied work in professional accounting. Requires several papers and reports. (S-U)
Prerequisite: advanced permission of accounting internship coordinator.

ACG 4970 Honors Thesis 1 Credit
Grading Scheme: S/U
The thesis must be submitted to the Fisher School no later than the published deadline and includes an abstract. (S-U)
Prerequisite: Minimum 3.6 overall and a minimum 3.6 accounting GPA is required to earn the magna cum laude distinction. Minimum 3.8 overall and a minimum 3.8 accounting GPA is required to earn the summa cum laude distinction.

TAX 4001 Introduction to Federal Income Tax 3 Credits
Grading Scheme: Letter Grade
Introduces federal income taxation and is designed for students who pursue careers in accounting. The course develops a basic understanding of the federal income tax laws relating to businesses and provides a framework for integrating income tax planning into the business decision-making process.
Prerequisite: ACG 4111 and ACG 4341 with minimum grades of C, and AC standing.

TAX 4930 Special Topics in Taxation 1-4 Credits
Grading Scheme: Letter Grade
Course provides an opportunity for in-depth study of topics not offered in other courses and of topics of special current significance.
Prerequisite: Permission of school.

Advertising

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

ADV 2104C Advertising Writing 3 Credits
Grading Scheme: Letter Grade
Instruction and practice in writing for advertising. Emphasis on various types of writing in the field including creative briefs, copy and headlines.
Prerequisite: ENC 1102 and Journalism and Communications major.

ADV 3001 Advertising Strategy 3 Credits
Grading Scheme: Letter Grade
Overview of the strategic planning process required to develop a successful strategic, persuasive communication plan such as an advertising, integrated marketing communications, or social marketing campaign. Case studies and projects teach the skills needed to address a variety of communications management issues and engage audiences in diverse marketplaces.
Prerequisite: MAR 3023 and ADV 3008 with minimum grades of C and ADV major.

ADV 3008 Principles of Advertising 3 Credits
Grading Scheme: Letter Grade
Overview of the concepts, strategies, and tactics of modern advertising. Explores the role of advertising in society, culture, and economics, as well as the industry and its key organizations. Introduces specific practices used to develop, place, and evaluate both traditional and digital ads.
Prerequisite: sophomore standing or higher.

ADV 3403 Branding 3 Credits
Grading Scheme: Letter Grade
Principles of branding and brand strategy; learn to think creatively and critically about strategies and tactics applied to build and manage brands with insight into diverse audiences.
Prerequisite: MAR 3023 and ADV 3008 with minimum grades of C.

ADV 3420 Health Communication 3 Credits
Grading Scheme: Letter Grade
Overview of health communication in research, industry, and practice. Explore and better understand the role communication plays in health care delivery, health promotion, disease prevention, environmental and risk communication, media and mass communication, and technology.
Prerequisite: junior standing or higher.

ADV 3500 Digital Insights 3 Credits
Grading Scheme: Letter Grade
Acquiring, evaluating, and analyzing information for advertising decisions. Emphasizes understanding the scientific method, developing explicit and measurable research objectives, selecting appropriate methodologies, and analyzing data.
Prerequisite: MAR 3023 and ADV 3008 with minimum grades of C and ADV major.

ADV 3502 Advertising Sales 3 Credits
Grading Scheme: Letter Grade
Principles of selling media time and space to advertisers. An overview of sales opportunities and challenges in the various advertising media. How to prepare and deliver effective sales presentations.
Prerequisite: MAR 3023 and ADV 3008 with minimum grades of C and junior standing or higher in ADV.

ADV 3824 Advertising Strategy: Health / Social Influence Approach 3 Credits
Grading Scheme: Letter Grade
Learn the process of advertising and promotional strategy from a health/social marketing approach, which centers on global health issues. Learn to "sell science" and market public health messages to help change the world.
Prerequisite: (MAR 3023 and ADV 3008 with minimum grades of C) and Advertising major.

ADV 3920C Professional Workshop in Advertising 1-3 Credits
Grading Scheme: Letter Grade
Short-term intensive workshops in selected areas of professional development, skills, and projects. Workshops taught by professionals and often occur over three-day weekend periods. Topics change from semester to semester, with a focus on industry skills and subjects learned best from within a professional context.
Prerequisite: ADV 3008 with a minimum grade of C.

ADV 4101 Copywriting and Visualization 3 Credits
Grading Scheme: Letter Grade
Application of creative strategy/concepts, copywriting and design to the creation of advertising for traditional and nontraditional media. To evaluate and present creative work, create ads for multicultural audiences.
Prerequisite: 3JM ADV; minimum grades of C or better in ENC 3254, ADV 3001 and VIC 3001.
Corequisite: ADV 3500.

ADV 4102 Advanced Copywriting 3 Credits
Grading Scheme: Letter Grade
Advanced course in the application of creative strategy for print and electronic media requiring preparation of advertisements. Emphasis placed on research, planning, development of creative concepts, writing and design.
Prerequisite: 4JM ADV; minimum grade of B in ADV 4101.

ADV 4200 Advertising Graphics and Production 3 Credits
Grading Scheme: Letter Grade
Designed to acquaint students with print production techniques. Emphasis is placed on techniques related to the advertising business. Lectures review specific uses of design, typography and print production with lab sessions dedicated to practicing layout and production techniques.
Prerequisite: 3JM ADV; minimum grades of C in ADV 3008 and VIC 3001.

ADV 4300 Media Planning 3 Credits
Grading Scheme: Letter Grade
Provides an in-depth overview of the media planning process. Emphasizes the value of various media channels and evaluation methods to design innovative and integrated media strategies to reach and engage diverse audiences.
Prerequisite: 3JM ADV; minimum grades of C in ADV 3001 and ADV 3500.

ADV 4302 Great Ideas in Marketplace Communications 3 Credits
Grading Scheme: Letter Grade
Focuses on two aspects of strategic communications. First: creating, developing and producing advertising and promotional content for real live case studies. Second: evaluating topical issues and industry innovation in media content innovation.
Prerequisite: ADV 3008 and ENC 3254 and junior standing or higher in ADV.

ADV 4400 International and Cross Cultural Advertising 3 Credits
Grading Scheme: Letter Grade
Major concepts and issues in international and cross cultural advertising campaign planning including primary and secondary research to assess environmental situations, setting objectives, budgeting, media, creative, ethics and social responsibility.
Prerequisite: ADV 3008 with a minimum grade of C.

ADV 4800 Advertising Campaigns 3 Credits
Grading Scheme: Letter Grade
An advanced advertising course requiring the student to prepare and produce a complete general advertising campaign. Emphasis is placed on production methods, costs, research and media analysis.
Prerequisite: 4JM ADV; minimum grades of C or better in ADV 4101 and ADV 4300.

ADV 4801 Creative Advertising Competitions 1-3 Credits
Grading Scheme: Letter Grade
Create either a competitive creative campaign for a real-world client or participate in a creative advertising competition. Hone creative skills and learn to prepare professional pitches or presentations.
Prerequisite: ENC 3254

ADV 4905 Individual Problems 1-3 Credits
Grading Scheme: Letter Grade
The student and instructor will choose a problem or project which provides the student experience in his or her major field.
Prerequisite: 3JM ADV; at least 10 credits of 3000/4000-level advertising courses and department permission.

ADV 4910 Advertising Undergraduate Research 0-3 Credits
Grading Scheme: S/U
Mentored but self-directed work enables individuals or small groups to explore an issue of interest to them and to communicate their results to others. Depending on the topic, projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: ADV 3500 with a minimum grade of C.

ADV 4930 Special Study in Advertising 2-3 Credits
Grading Scheme: Letter Grade
Variable advertising-related topics not covered in other advertising courses.
Prerequisite: 3JM ADV.

ADV 4931 Seminar: Ethics and Problems in Advertising 3 Credits
Grading Scheme: Letter Grade
Major concepts and issues in the effects of advertising on society, culture, and the economy with emphasis on ethical systems and ethical decision making.
Prerequisite: 3JM ADV; minimum grade of C in MMC 3203

ADV 4940 Advertising Internship 1-4 Credits
Grading Scheme: S/U
Complete an internship in advertising or related field with supervised on-the-job training. Requires 65 hours of work per credit, weekly progress reports, a summary report, and a supervisor's evaluation.
Prerequisite: ADV major; 2.50 minimum professional GPA; minimum grades of C in ADV 3008 and MAR 3023; one completed advertising-related course as needed; and department permission.

ADV 4941 Advanced Advertising Internship 1-3 Credits
Grading Scheme: Letter Grade
A structured internship program that is approved by the department as an immersion experience related to the field of advertising. Requires 65 hours of work per credit hour and submission of electronic portfolio including a culminating project from the internship.
Prerequisite: 4JM ADV; 2.50 minimum professional GPA; minimum grades of C in ADV 3008, MAR 3023 and ENC 3254; and department permission.

MMC 1009 Introduction to Media and Communications 1 Credit
Grading Scheme: Letter Grade
Introduces the tools, resources and academic and extra-curricular activities offered by the College of Journalism and Communications. Includes lessons on the history and organization of the college and academic and career preparation.
Prerequisite: 1JM or exploratory major, 2JM, or 3JM classification, or instructor approval.

MMC 2100 Writing for Mass Communication 3 Credits
Grading Scheme: Letter Grade
A preprofessional course designed to provide fundamental instruction and practice in writing as a basis for upper-division courses in advertising, journalism and public relations. Stresses the basic similarities in writing for all mass media. (WR)
Prerequisite: 6 credits of English and a JM designation.
Attributes: Satisfies 6000 Words of Writing Requirement

MMC 2121 Writing Fundamentals for Communicators 3 Credits
Grading Scheme: Letter Grade
One-third of the course is to ensure students have sufficient skill in grammar and punctuation to write with clarity. In two-thirds of the course, students put principles of good writing into practice with short writing assignments that have real-world applications.

MMC 3030 Personal Branding for Communicators 1 Credit
Grading Scheme: Letter Grade
Professional development course that stresses how to communicate and connect as professionals. Emphasizes mastery of writing, speaking, presentation and employment-seeking skills, working with media, handling media interviews and using social media to establish a professional identity.
Prerequisite: 3JM designation.

MMC 3203 Ethics and Problems in Mass Communications 3 Credits
Grading Scheme: Letter Grade
A cross-disciplinary introduction to ethics-relevant situations faced by media professionals. Topics include professional standards of conduct, audience representation and engagement and issues associated with the production, presentation and delivery of messages that reflect the best interests of audiences, clients and stakeholders.
Prerequisite: 2JM designation and ADV 3008, JOU 1001, PUR 3000 or RTV 3001 with minimum grade of C.

MMC 3254 Media Entrepreneurship 1 Credit
Grading Scheme: Letter Grade
Introduces media entrepreneurship with a focus on how digital technologies are transforming industries. Students work in teams to develop new digital media businesses. Develop and pitch ideas, explore market analysis, develop business and financial plans and study social media strategies.
Prerequisite: sophomore standing.

MMC 3420 Consumer and Audience Analytics 3 Credits
Grading Scheme: Letter Grade
Provides practical analytical skill-sets, benefiting those who plan careers in analytics/research, social media, media business, advertising/marketing and public relations.
Prerequisite: Junior standing.

VIC 3001 Sight, Sound and Motion 4 Credits
Grading Scheme: Letter Grade
Visual literacy is a prerequisite for success in most areas of mass communication. Teaches fundamentals of design across print, web and multimedia platforms. Also emphasizes how visual forms convey messages to readers.
Prerequisite: sophomore standing.

African and Asian | Languages, Literatures, and Cultures

More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

HUM 2420 African Humanities 3 Credits
Grading Scheme: Letter Grade
A general education course similar in philosophy and purpose to the basic sequence. Content selected from the philosophies, literature, arts and music of various African countries and regions. (H and N)
Attributes: General Education - Humanities, General Education - International

HUM 2424 African Cultures and Literatures 3 Credits
Grading Scheme: Letter Grade
A culturally based study of folktales, proverbs, drama, poetry and novels; and how these forms are used to portray African arts and ideas. (H and N)
Attributes: General Education - Humanities, General Education - International

SSA 3730 Language in African Society 3 Credits
Grading Scheme: Letter Grade
The role of language in the development of African societies. Language and nation building. (S and N)
Attributes: General Education - International, General Education - Social Science

SSA 4905 Individual Work 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course.
Prerequisite: department permission.

SSA 4930 Special Topics in African Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in African studies.

SST 2501 African Elements in the Americas 3 Credits
Grading Scheme: Letter Grade
Traces African influence in the Americas from the arrival of Africans on the continent until the present.

SST 4502 African Oral Literature 3 Credits
Grading Scheme: Letter Grade
An overview of African oral literature, introduces methodological and theoretical problems, and examines the sociopolitical and cultural relevance of the literature.
Prerequisite: instructor permission.

African Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

AFS 2002 The African Experience: An Introduction to African Studies 3 Credits
Grading Scheme: Letter Grade
Introductory study of African society and culture that examines the richness, diversity, and time-depth of African civilizations. (S and N)
Attributes: General Education - International, General Education - Social Science

AFS 3300 Poverty and Development in Africa 3 Credits
Grading Scheme: Letter Grade
Contemporary study of development issues in Africa, their challenges and possible solutions; theme based and includes economic development, agriculture and the environment, social issues and gender equality, and democracy and political development.

AFS 3352 Culture, Health and Arts in Sub-Saharan Africa 3 Credits
Grading Scheme: Letter Grade
Explores Sub-Saharan African cultures, health issues and belief systems related to health and the arts. Also provides a framework to better understand health and health care systems in other cultures.
Prerequisite: junior standing or 6 credits minimum from AFH 2000 or AFS 2002 or AFS 4905 or AFS 4935 or HUM 2420 or HUM 2424.

AFS 3500 History of Islam in Africa 3 Credits
Grading Scheme: Letter Grade
Introduces the role of Islam in African history, with particular attention to the religion's place in economic and political systems.

AFS 3800 Childhood in African Literature and Cinema 3 Credits
Grading Scheme: Letter Grade
Explores African conceptions of childhood through the mediums of literature and film; examines how childhood is represented in diverse African cultures.

AFS 3930 Special Topics in African Studies 3 Credits
Grading Scheme: Letter Grade
Selected variable topics in African Studies.
Prerequisite: Junior standing or AFS 2002 with minimum grade of C.

AFS 4240 The African Family 3 Credits
Grading Scheme: Letter Grade
Understanding African societies south of the Sahara through the study of the functions, roles and meanings of households and families. Emphasizes diversity within and commonalities among the myriad forms of African families.

AFS 4260 Africans Abroad 3 Credits
Grading Scheme: Letter Grade
Examines lives of Africans and formation of African communities in contemporary Western settings. Also addresses the relationship between Africans in the contemporary Diaspora and their home communities in Africa.

AFS 4315 Critical Issues in Contemporary Africa 3 Credits
Grading Scheme: Letter Grade
Upper-division seminar that discusses perspectives on conflict resolution, corruption, economic development, environmental management, food security, governance, international assistance and public health in contemporary Africa. In addition, enhances skills in analysis, discussion and debate.

AFS 4330 Women and Politics in Africa 3 Credits
Grading Scheme: Letter Grade
Introduces historical and contemporary roles of women in African political systems, from local to national governance.

AFS 4335 Women in Africa 3 Credits
Grading Scheme: Letter Grade
Explores issues of gender, development and culture through memoirs, ethnographies, narratives and films about women in Africa.
Prerequisite: junior or senior standing.

AFS 4340 Community Conservation and Rural Development in Africa 3 Credits
Grading Scheme: Letter Grade
Examines the practicalities and theoretical foundations of community conservation in Africa, with particular attention to the relationship between conservation and rural development issues. Main themes include property rights, governance and local-global relations.

AFS 4345 Political Economy of Conservation in Africa 3 Credits
Grading Scheme: Letter Grade
Analyzes effectiveness of diverse approaches to natural resource preservation and uses. Case studies are primarily from southern and eastern Africa and readings focus on political and economic aspects of conservation strategies.

AFS 4350 HIV / AIDS in Africa 3 Credits
Grading Scheme: Letter Grade
Utilizes the social science literature on AIDS in Africa to explore the social, economic and broad cultural impacts of the epidemic.

AFS 4365 Urban Africa Today 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary seminar incorporates scholarship from anthropology, geography, history, political science, sociology, and urban planning to understand African cities, their rapid growth, and their future development.
Prerequisite: junior standing or 6 credits minimum from AFS 2002 or AFS 3300 or AFS 4260 or AFS 4315 or AFS 4330 or AFS 4350 or AFS 4935.

AFS 4905 Individual Work 1-9 Credits
Grading Scheme: Letter Grade
Individual study and research for topics not covered in other courses.

AFS 4911 Undergraduate Research in African Studies 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

AFS 4935 African Studies Interdisciplinary Seminar 3 Credits
Grading Scheme: Letter Grade
Seminar on a selected interdisciplinary theme.
Prerequisite: junior or senior standing, or instructor permission.

AFS 4940 African Studies Internship 1-3 Credits
Grading Scheme: S/U
Complements an Africa-related internship experience through guided reflection, critical analysis, synthesis, and discussion.
Prerequisite: junior standing or higher and undergraduate coordinator approval.

African-American Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

AFA 2000 Introduction to African-American Studies 3 Credits
Grading Scheme: Letter Grade
An integrated interdisciplinary exploration of selected themes and representative materials in the African-American experience in North America, emphasizing continuity and change. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

Examination of the particular historical, geographical, cultural, social, and political ways in which race was, and continues to be configured and deployed in the United States.
Prerequisite: AFA 2000.

AFA 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
Directed individual reading or research on topics in African-American studies.
Prerequisite: director permission.

AFA 4931 Special Topics 3 Credits
Grading Scheme: Letter Grade
Selected topics in African-American studies.
Prerequisite: AFA 2000.

AFA 4936 African-American Studies Senior Integrative Seminar 3 Credits
Grading Scheme: Letter Grade
Examination of bibliographic resources and analysis of theory, method and special problems in the field of African-American studies.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

AFA 4940 African-American Studies Internship 3 Credits
Grading Scheme: Letter Grade
Students complete internships with companies, individuals, institutions or organizations whose work adds to the knowledge and well-being of the African-American community.
Prerequisite: AFA 2000, at least two 3000-level AFA courses, African-American studies minor or major, and sophomore or higher standing.

AFA 4970 Honors Thesis 3 Credits
Grading Scheme: S/U
Comprehensive research paper that examines a relevant topic in the discipline of African-American studies. (S-U)
Prerequisite: AFA 2000.

Agricultural and Biological Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

ABE 2012C Introduction to Biological Engineering 3 Credits
Grading Scheme: Letter Grade
Introduces the process of design along with approaches to solving engineering problems, manipulations and presentations of engineering data and applied engineering concepts. (WR)
Prerequisite: MAC 2311.
Attributes: Satisfies 2000 Words of Writing Requirement

ABE 2062 Biology for Engineers 3 Credits
Grading Scheme: Letter Grade
Principles and engineering applications of biology. Principles and applications of biochemistry, genetics, microbial systems, animal systems, ecological systems and global systems. (B) (WR)
Attributes: General Education - Biological Science, Satisfies 6000 Words of Writing Requirement

ABE 3000C Applications in Biological Engineering 3 Credits
Grading Scheme: Letter Grade
Overview of the research and applications of biological engineering, such as bioprocessing, biotechnology, transport processes, biosensors, bioremediation, biological materials and biomedicine.
Prerequisite: BSC 2010 or equivalent.

ABE 3212C Land and Water Resources Engineering 4 Credits
Grading Scheme: Letter Grade
Introduces hydrology, flow through porous media, flood routing, grade control structures and erosion control.
Prerequisite: ENV 3040C and MAP 2302.
Corequisite: CWR 3201 or EGN 3353C.

ABE 3612C Heat and Mass Transfer in Biological Systems 4 Credits
Grading Scheme: Letter Grade
Transport phenomena, steady and unsteady-state heat conduction, radiation, free and forced convection, mass transfer, psychometrics and thermodynamics of biological processes.
Corequisite: ENV 3040C or CGN 3421 or ESI 4327C or (COP 2271 and COP 2271L).

ABE 3652C Physical and Rheological Properties of Biological Materials 3 Credits
Grading Scheme: Letter Grade
Theory and use of physical and rheological properties of biological materials in agricultural engineering applications.
Prerequisite: CHM 2045 and MAC 2313 and PHY 2048.

ABE 4000 Nonpoint Source Pollution Modeling 2 Credits
Grading Scheme: Letter Grade
Concepts, principles, and application of modeling and monitoring for assessment and management of nonpoint source pollution. Design and implementation of monitoring systems. Concepts of modeling agroecosystems and land use impacts on hydrologic/water quality response of upland catchments. Model selection, calibration, validation and application for comparative analysis. Screening models using geographic information systems. Case studies in current watershed management issues with a focus on agricultural waste and nutrient management using existing field and watershed models.

ABE 4008 Control Methods in SmartAg Systems 3 Credits
Grading Scheme: Letter Grade
Design, analysis, simulation, and programming modern control methods for applications in production agriculture, biological and food engineering, land and water resources. Learn theoretical concepts, application programming, and simulation techniques using classical and modern control approaches, fuzzy logic, neural networks, and other intelligent learning algorithms.
Prerequisite: MAP 2302 and PHY 2048;
Corequisite: EGM 3400.

ABE 4033 Fundamentals and Applications of Biosensors 3 Credits
Grading Scheme: Letter Grade
Provides a broad introduction to the field of biosensors, as well as an in-depth and quantitative view of biosensor design and performance analysis. Fundamental application of biosensor theory will be demonstrated, including: recognition, transduction, signal acquisition, and post processing/data analysis.
Prerequisite: MAP 2302 and BSC 2010 and CHM 2200.

ABE 4034 Remote Sensing in Engineering: Science, Sensors and Applications 3 Credits
Grading Scheme: Letter Grade
Develop an understanding of remote sensing theory, systems and applications using information obtained from the visible/near infrared, thermal infrared and microwave regions of the EM spectrum.
Prerequisite: MAP 2302 or the equivalent.

ABE 4042C Biological Engineering Design 1 2 Credits
Grading Scheme: Letter Grade
Design of engineered agricultural and biological systems and devices. Problem definition analysis, synthesis, project management, economic, environmental and social impacts. Individual and team projects.

ABE 4043C Biological Engineering Design 2 2 Credits
Grading Scheme: Letter Grade
Senior capstone design project.
Prerequisite: senior standing (4EG), ABE 4042C and two courses in area of specialization.

ABE 4171 Power and Machines for Biological Systems 3 Credits
Grading Scheme: Letter Grade
Design and specification of power and machine elements applied to agricultural, biological and land and water resources or food engineering; fundamentals of power units, design of machine elements and power transmission.
Prerequisite: EGM 3520 and (EGM 3400 or EGM 3401).

ABE 4231C Irrigation and Drainage Engineering 4 Credits
Grading Scheme: Letter Grade
Irrigation and drainage systems design, including pump sizing and specification, water distribution systems, plant water requirement, drainage systems and flood control.
Prerequisite: ABE 3212C.

ABE 4303C Structural and Environmental Design 3 Credits
Grading Scheme: Letter Grade
Design and analysis of structures and environmental modification systems used in agricultural production.
Prerequisite: ABE 2012C and ABE 3612C.

ABE 4413C Post-Harvest Operations Engineering 3 Credits
Grading Scheme: Letter Grade
Engineering principles and practices of post-harvest operations for the maintenance of quality of agricultural products. Design of systems and facilities.
Prerequisite: ABE 3612C.

ABE 4641 Modeling Coupled Natural-Human Systems 3 Credits
Grading Scheme: Letter Grade
Explore approaches to modeling coupled natural-human systems, drawing from both natural and social sciences. Topics include regime shift from dynamical systems and basic concepts from game theory and social-ecological system literature. These are combined in models that operationalize a conceptual framework. With guidance, develop models for final projects.
Prerequisite: MAC 2312 or equivalent.

ABE 4655C Bio-Based Products from Renewable Resources 3 Credits
Grading Scheme: Letter Grade
Provides the knowledge for the production of fuels, chemicals, and materials from renewable resources; includes the fundamental principles and practical applications of bio-based products: biorefinery and biobased products overview, fundamental concepts in understanding biorefinery and biobased products; materials, chemical platforms, and fuels from biomass.
Prerequisite: (CHM 2045 or CHM 2095) and (CHM 2046 or CHM 2096) or equivalent general chemistry courses or instructor permission.

ABE 4660 Applied Microbial Biotechnology 3 Credits
Grading Scheme: Letter Grade
Principles of microbial biotechnology with emphasis on applications of microorganisms for industrial processes; e.g., energy, environmental, food, pharmaceutical and chemical.

ABE 4662 Quantification of Biological Processes 3 Credits
Grading Scheme: Letter Grade
Quantitative description and analysis of biological processes pertaining to microbes, plants, animals and ecosystems. Biological transport phenomena, bioenergetics, enzyme kinetics, metabolism, bioregulation, circulatory and muscle systems, agroecosystems. Analytical and experimental laboratory for development of quantitative skills.
Prerequisite: (ABE 2062 or BSC 2010) and (EGN 3353C or CWR 3201).

ABE 4812 Food and Bioprocess Engineering Unit Operations 4 Credits
Grading Scheme: Letter Grade
Analysis of thermal freezing, evaporation, dehydration, contact equilibrium and mechanical separation processes as governed by the reaction kinetics and rheology of processed foods.
Prerequisite: ABE 3612C or CWR 3201 or EGN 3353C.

ABE 4905 Individual Study in Biological Engineering 1-4 Credits
Grading Scheme: Letter Grade
Selected problems of projects in the student's major field of engineering study.
Prerequisite: recommendation of department chair.

ABE 4912 Integrated Product and Processing Design 1 in Biological Engineering 3 Credits
Grading Scheme: Letter Grade
First part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes on time and within budget.

ABE 4913 Integrated Product and Process Design 2 in Biological Engineering 3 Credits
Grading Scheme: Letter Grade
Second part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes on time and within budget.
Prerequisite: ABE 4912.

ABE 4931 Professional Issues in Agricultural and Biological Engineering 1 Credit
Grading Scheme: Letter Grade
Current developments in agricultural and biological engineering, principles of agricultural and biological engineering practice and professional standards and ethics.

ABE 4932 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Variable subjects provide content for the study of agricultural engineering topics not offered in other courses.
Prerequisite: instructor permission.

ABE 4935 Writing Grant Proposals for Scholarships and Fellowships 2 Credits
Grading Scheme: Letter Grade
Introduces seniors in the Agricultural and Biological Engineering department to opportunities for obtaining scholarships, fellowships, internships, and teaching/research assistantships from federal funding agencies; includes funding sources and opportunities, provide guidelines for proposal writing. Requires preparing a proposal.
Prerequisite: Senior standing, must be pursuing a degree within the Agricultural and Biological Engineering department, and instructor permission.

ABE 4949 Work Experience in Biological Engineering 1-3 Credits
Grading Scheme: S/U
Work experience in the biological engineering industry with advisor approval. (S-U)
Prerequisite: Advisor approval

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

Agricultural and Life Sciences | General

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

ALS 2410 Challenge 2050: Global Uncertainty 3 Credits
Grading Scheme: Letter Grade
Explores questions in human well-being and sustainability building a foundation for addressing global challenges associated with global population. Transdisciplinary experts lead diverse and innovative discussions, complex adaptive problem solving; and the integration of economic, environmental, food, health, and social system perspectives.
Prerequisite: arrange with advisor and department permission.

ALS 2931 Agricultural Honors 1-4 Credits
Grading Scheme: Letter Grade
Various courses offered. (WR)
Prerequisite: refer to the department.
Attributes: Satisfies 6000 Words of Writing Requirement

ALS 3030C Urban Agriculture 3 Credits
Grading Scheme: Letter Grade
Work with faculty and guest field experts to explore the concepts, issues, and opportunities for urban agricultural sustainability, and on the development and implementation of demonstrations of community urban agricultural projects. Culminates in a group presentation for campus and community stakeholders.
Prerequisite: sophomore standing or higher.

ALS 3133 Agricultural and Environmental Quality 3 Credits
Grading Scheme: Letter Grade
Analysis of effects of agriculture on environmental quality; emphasis on agricultural wastes and practices; potential for using agricultural systems for disposal of other wastes; effects of pollution on the agricultural environment. (P)
Attributes: General Education - Physical Science

ALS 3153 Agricultural Ecology 3 Credits
Grading Scheme: Letter Grade
Introduces the study of ecology from an agricultural perspective. Emphasizes ecological principles with examples and applications from agriculture.

ALS 3203 PC Use in Agriculture 3 Credits
Grading Scheme: Letter Grade
Introduces PC computer skills, file management, software application, hardware, purchasing one's own PC system. Focus is on the use of computers for preparing documents and presentations.

ALS 3415 Challenge 2050: Developing Tools for Changing the World 3 Credits
Grading Scheme: Letter Grade
The global population is projected to exceed 9 billion by the year 2050. Challenge 2050 requires innovative development of transdisciplinary solutions to complex, global issues. This course explores individual and team-based skills, competencies, and dispositions necessary to addressing the complex adaptive issues surrounding the challenge.
Prerequisite: ALS 2410.

ALS 3923 Honors Orientation 1 Credit
Grading Scheme: Letter Grade
Introduces the CALS honors program and develop the skills needed to complete a creative, scholarly project and an honors thesis. A variety of guest speakers, in-class and outside activities, discussion, writing and oral presentation are used to accomplish the learning objectives.
Prerequisite: must be enrolled in CALS upper-division honors program.

ALS 3940 Challenge 2050: the Experience 3 Credits
Grading Scheme: Letter Grade
Emphasizes trust building, accompaniment, and community development experiences within developing global contexts. Uses immersion experience to gain an understanding for concerns relating to population fluctuation, including issues related to economics, environment, food, health, and social systems. International immersion facilitates applying sustainable practices in developing areas.
Prerequisite: ALS 2410.

ALS 4404 International Studies 1-15 Credits
Grading Scheme: Letter Grade
Supervised study abroad.
Prerequisite: sophomore standing and minimum 18 years old.

ALS 4419 Challenge 2050: Creating Solutions 1 Credit
Grading Scheme: Letter Grade
Through this capstone experience course, students demonstrate and apply knowledge, skills, and dispositions in assigned transdisciplinary teams. Students complete a comprehensive proposal for a developmental initiative focused on addressing the 2050 Challenge of sustaining a global population.
Prerequisite: ALS 2410.

ALS 4900 Supervised Extension Experience in Agricultural and Life Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

ALS 4905 Individual Study in Agricultural and Life Sciences 1-3 Credits
Grading Scheme: Letter Grade
Individual study in agricultural and life sciences.
Prerequisite: permission of dean and instructor.

ALS 4911 Supervised Research in Agricultural and Life Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in agricultural and life sciences under faculty supervision. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

ALS 4915 Honors Thesis Research in Agricultural and Life Sciences 0-3 Credits
Grading Scheme: S/U
Independent research in agricultural and life sciences leading to an honors thesis. Student are mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

ALS 4932 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Variable subjects provide content for the study of agricultural topics not offered in other courses.

ALS 4936 CALS Leadership Institute Seminar 1 2 Credits
Grading Scheme: Letter Grade
Discussion-based seminar provides an introduction to leadership studies and personal leadership development. Exploration of personal leadership characteristics through various assessments and the development of a personal leadership development plan.
Prerequisite: admission to the CALS Leadership Institute Program.

ALS 4937 CALS Leadership Institute Seminar 2 2 Credits
Grading Scheme: Letter Grade
Discussion-based seminar provides an introduction to group and organizational leadership in local and global contexts. Personal assessment of strengths and further application of developed personal leadership plan to a global vision are included.
Prerequisite: ALS 4936.

ALS 4938 CALS Leadership Institute International Service and Learning Experience 2 Credits
Grading Scheme: Letter Grade
This seminar focuses on an international service and learning experience as a context for application of course content previously covered in the program. A compilation of documentation supporting leadership growth and reflection serve as closure to leadership institute.
Prerequisite: ALS 4936.

ALS 4941 Full-time Practical Work Experience in Agriculture 1-4 Credits
Grading Scheme: S/U
Variable subjects provide content for the study of agricultural topics not offered in other courses. (S-U)
Prerequisite: prior arrangement with advisor and dean's office.

ALS 4950 Challenge 2050: Taking Action 2-6 Credits
Grading Scheme: Letter Grade
Through supervised practical training, in conjunction with academic assignments at professional organizations, the Taking Action internship provides the opportunity to professionally examine and engage the global challenges associated with Challenge 2050.
Prerequisite: maintain GPA of 3.0, must be in good standing and must have completed the Challenge 2050 Global Challenge certificate with 3.0 average.

MCB 4782 Extremophiles 3 Credits
Grading Scheme: Letter Grade
Learn about the evolution, physiology, biochemistry, and molecular biology of extremophiles with emphasis on archaea and their viruses. Discuss principles of energy metabolism at the limits of life. Highlights research that incorporates cutting-edge techniques and biotechnology applications for using extremophiles to solve real world problems.
Prerequisite: CHM 2211 and either MCB 3020/MCB 3020L or MCB 3023/MCB 3023L.

Agricultural Education and Communication

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

AEC 3030C Effective Oral Communication 3 Credits
Grading Scheme: Letter Grade
Strategies and techniques for effective presentations in the food, agricultural and natural resource professions. Emphasis on oral and visual techniques for formal and informal situations including leadership and group settings.

AEC 3033C Research and Business Writing in Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Establishes the importance of effective communication to success in both the educational and professional environments; emphasizes writing as a primary form of communication; examines the elements of effective written communication in organizational and scholarly areas; and explores the causes of ineffective writing and ways to correct them. (WR)
Prerequisite: Junior or senior standing.
Attributes: Satisfies 6000 Words of Writing Requirement

AEC 3065 Issues in Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Methods used to effectively communicate, inform, and influence policy decisions about agricultural and life sciences issues.
Prerequisite: Sophomore standing or higher.

AEC 3070C Digital Media Production in Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Introduces the history and incorporation of electronic media used in agricultural and natural resources sciences. Hands-on learning of electronic media technology as it relates to agriculture is emphasized.

AEC 3071 Social Media Strategy and Leadership for Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Learn how, when, and why to use various social media tools. Also learn to measure the effectiveness of these tools in reaching audiences with agricultural and life science messages.
Prerequisite: Sophomore standing or higher.

AEC 3073 Intercultural Communication 3 Credits
Grading Scheme: Letter Grade
Basic culturally coded communication behaviors, such as cultural values and beliefs, attitudes and verbal and non-verbal behavior, are examined to identify basic differences among individuals from diverse cultural backgrounds. Special emphasis on cultural communication issues in the agricultural and natural resources sciences are addressed. (S and N OR S and D)
Attributes: General Education - Diversity, General Education - International, General Education - Social Science

AEC 3209 Instructional and Event Planning in Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Instructional methodology that focuses on the selection and use of innovative teaching, presentation, meeting planning and evaluation strategies for teaching agricultural subjects in various educational settings.

AEC 3313 Development and Role of Extension Education 3 Credits
Grading Scheme: Letter Grade
Extension philosophy, programs, methods and leadership principles, and history of federal, state and local leadership in the development of the cooperative extension service.

AEC 3322 Moral Leadership in Agriculture and Natural Resources 3 Credits
Grading Scheme: Letter Grade
Explores ethical and moral foundations for organizational and personal practice within the context of agriculture, natural resources, and beyond; gain a greater understanding for the intersection between morality and ethics, effective decision-making, and applied organizational ethics.
Prerequisite: junior standing or higher.

AEC 3410 Fostering Innovation through Leadership 3 Credits
Grading Scheme: Letter Grade
By studying key leadership theories and models students will develop the basic skills and knowledge necessary to move an innovation from creation to implementation. Using specifically designed experiences, students will be able to think critically about leadership's direct application to innovation and change.
Corequisite: Enrollment in the Innovation Academy.

AEC 3413 Working with People: Interpersonal Leadership Skills 3 Credits
Grading Scheme: Letter Grade
Identifies and defines leadership in terms of intrapersonal and interpersonal skills.

AEC 3414 Leadership Development 3 Credits
Grading Scheme: Letter Grade
An understanding of the dynamic interactions of personal characteristics, technical skills, interpersonal influence, commitment, goals and power necessary for effective organizational leader and follower behaviors.

AEC 4031 The Communication Process in Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Survey of basic communication concepts as they apply to agriculture and natural resource industries. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

AEC 4035 Communication Practices for Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
This course provides students the opportunity to master a variety of writing styles used in corporate and mass media settings. Emphasis is placed on mastery of writing skills. (WR)
Prerequisite: AEC 3070C and (AEC 4031 or JOU 3101) with minimum grades of C.
Attributes: Satisfies 6000 Words of Writing Requirement

AEC 4036 Advanced Agricultural Communication Production 3 Credits
Grading Scheme: Letter Grade
Provides directed experience in the following areas of agricultural communication: video production, graphic design, visual composition, desktop publishing and multimedia development.
Prerequisite: AEC 3070C.

AEC 4052 Communication Campaign Strategies in Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Examines the role of communication in agriculture, focusing on strategies and methods for agricultural information transfer.
Prerequisite: AEC 4031 with a minimum grade of C.

AEC 4200 Teaching Methods in Agricultural Education 3 Credits
Grading Scheme: Letter Grade
Focuses on the selection and use of teaching strategies, methods/approaches and techniques; evaluating learning; managing learning environments; and classroom management for teaching agricultural subjects in formal educational settings.

AEC 4202 Curriculum Development and Assessment Techniques in Emerging Agricultural Technologies 3 Credits
Grading Scheme: Letter Grade
Introduces new and emerging areas in food agriculture and natural resource sciences. Emphasizes appropriate teaching techniques, curricula, and resources.
Prerequisite: AEC 4200.

AEC 4224 Special Methods in Teaching Agricultural Education 3 Credits
Grading Scheme: Letter Grade
Emphasizes supervised agricultural experience programs, record keeping, and related FFA awards. Classroom management techniques, discipline and liability issues are also discussed.
Prerequisite: AEC 4200 and AEC 4323.

AEC 4228 Laboratory Practices in Teaching Agricultural Education 3 Credits
Grading Scheme: Letter Grade
Laboratory practices in teaching mechanics and other operative skills, conducting field and laboratory classes and providing space and teaching facilities.
Prerequisite: AEC 4200, AEC 3323 and AOM 3220.

AEC 4323 Development and Philosophy of Agricultural Education 3 Credits
Grading Scheme: Letter Grade
Analyzes evolving concepts and philosophies of agricultural education programs by emphasizing the history, legislation, and principles underlying organization and practice.
Prerequisite: Junior or senior standing.

AEC 4417 Leadership for Personal and Organizational Change 3 Credits
Grading Scheme: Letter Grade
To prepare students for addressing complex personal and organizational issues related to leading change.
Prerequisite: AEC 3414.

AEC 4434 Communication and Leadership in Groups and Teams 3 Credits
Grading Scheme: Letter Grade
Focuses on leadership and communication in groups and teams. Topics include: what makes effective groups and teams, processes of groups and teams, relationships of members, and improving group/team performance.

AEC 4465 Global Leadership 3 Credits
Grading Scheme: Letter Grade
Integrated, practical, and dynamic framework for students to develop global literacy and leadership competencies. (N and S)
Prerequisite: AEC 3413 or AEC 3414.
Attributes: General Education - International, General Education - Social Science

AEC 4500 Program Development and Evaluation 3 Credits
Grading Scheme: Letter Grade
In-depth analysis of the development and evaluation of human and community resource programs based on programming theories, concepts and research. Emphasizes dimensions of responsive communities, determination of community needs and goals.

AEC 4504 Curriculum and Program Planning for Agricultural Education 3 Credits
Grading Scheme: Letter Grade
Principles and practices used in designing courses of instruction for effective teaching and total program development.

AEC 4900 Supervised Extension in Agricultural Education and Communication 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural education and communication under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

AEC 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
Topics and special problems selected from fields such as 4-H and FFA work, demonstrations, farm and home management, rural development, pre-school planning and post-school evaluation and planning.
Prerequisite: instructor permission.

AEC 4911 Supervised Research in Agricultural Education and Communication 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in Agricultural Education and Communication under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

AEC 4915 Honors Thesis Research in Agricultural Education and Communication 0-3 Credits
Grading Scheme: S/U
Independent research in Agricultural Education and Communication leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

AEC 4930 Communication and Leadership Development Capstone Experience 3 Credits
Grading Scheme: Letter Grade
Integrates content and skills that communication and leadership development students have learned in their prerequisite courses.
Prerequisite: AEC 3070C and AEC 4031 and AEC 4035 and AEC 4036.

AEC 4932 Special Topics in Agricultural Education and Communication 1-3 Credits
Grading Scheme: Letter Grade
Special topics in Agricultural Education and Communication.
Prerequisite: Sophomore standing or higher.

AEC 4941 Agricultural Education Internship 1-9 Credits
Grading Scheme: Letter Grade
Practical experience in agricultural training and development through agricultural education organizations, agribusiness and natural resources education, and/or agricultural and outreach programming.
Prerequisite: junior or senior standing; AEC or TCH major.

AEC 4942 Agricultural Education Internship 6-9 Credits
Grading Scheme: Letter Grade
Individual capstone internship within a school-based setting where students observe, participate in, and lead educational instruction, curricula development, assessment of school-based student learning, supervision, and assist in advising a student leadership organization.
Prerequisite: senior standing and successful completion of all three portions of the Florida Teacher Certification Examination (FTCE) - General Knowledge, Professional Education and Agriculture 6-12.

AEC 4943 Leadership Development Internship 2-6 Credits
Grading Scheme: Letter Grade
An individual program whereby students are apprenticed to officials to gain practical experience in agricultural organizations, industry and/or the county extension program.
Prerequisite: 15 credits of communication and leadership courses with no grade below C. Nine credits must include AEC 3070C, AEC 4031, and AEC 3413 or AEC 4434.

AEC 4944 Cooperative Extension Internship 4-6 Credits
Grading Scheme: Letter Grade
The cooperative extension internship provides students the opportunity to develop practical on-the-job supervised experience in cooperative extension, primarily at the county level.
Prerequisite: senior standing, AEC 3313; minimum 2.0 GPA.

AEC 4948 Agricultural Communication Internship 2-6 Credits
Grading Scheme: Letter Grade
An individual program whereby students gain supervised experience in agricultural communications including reporting, writing, editing, photography, graphics, broadcasting, advertising or public relations.
Prerequisite: 15 credits of communication and leadership courses with no grade below C. Nine credits must include AEC 3070C, AEC 4031, and AEC 3413 or AEC 4434.

ALS 2410 Challenge 2050: Global Uncertainty 3 Credits
Grading Scheme: Letter Grade
Explores questions in human well-being and sustainability building a foundation for addressing global challenges associated with global population. Transdisciplinary experts lead diverse and innovative discussions, complex adaptive problem solving; and the integration of economic, environmental, food, health, and social system perspectives.
Prerequisite: arrange with advisor and department permission.

ALS 3415 Challenge 2050: Developing Tools for Changing the World 3 Credits
Grading Scheme: Letter Grade
The global population is projected to exceed 9 billion by the year 2050. Challenge 2050 requires innovative development of transdisciplinary solutions to complex, global issues. This course explores individual and team-based skills, competencies, and dispositions necessary to addressing the complex adaptive issues surrounding the challenge.
Prerequisite: ALS 2410.

ALS 3940 Challenge 2050: the Experience 3 Credits
Grading Scheme: Letter Grade
Emphasizes trust building, accompaniment, and community development experiences within developing global contexts. Uses immersion experience to gain an understanding for concerns relating to population fluctuation, including issues related to economics, environment, food, health, and social systems. International immersion facilitates applying sustainable practices in developing areas.
Prerequisite: ALS 2410.

ALS 4419 Challenge 2050: Creating Solutions 1 Credit
Grading Scheme: Letter Grade
Through this capstone experience course, students demonstrate and apply knowledge, skills, and dispositions in assigned transdisciplinary teams. Students complete a comprehensive proposal for a developmental initiative focused on addressing the 2050 Challenge of sustaining a global population.
Prerequisite: ALS 2410.

ALS 4932 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Variable subjects provide content for the study of agricultural topics not offered in other courses.

ALS 4950 Challenge 2050: Taking Action 2-6 Credits
Grading Scheme: Letter Grade
Through supervised practical training, in conjunction with academic assignments at professional organizations, the Taking Action internship provides the opportunity to professionally examine and engage the global challenges associated with Challenge 2050.
Prerequisite: maintain GPA of 3.0, must be in good standing and must have completed the Challenge 2050 Global Challenge certificate with 3.0 average.

PLS 3080 Introduction to Horticultural Therapy 3 Credits
Grading Scheme: Letter Grade
This course describes the profession and practice of horticultural therapy including its history, current state, and relevant literature and theories. The course will explore peopleplant relationships, therapeutic methods and benefits, and populations served. Students will also be introduced to existing programs and the role of therapeutic gardens.
Prerequisite: sophomore standing.

Agricultural Operations Management

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

AEB 4085 Agricultural Risk Management and the Law 3 Credits
Grading Scheme: Letter Grade
Develops an understanding of the basic concepts of common and statutory law. Identifies and addresses current legal issues of importance at the personal and professional levels. Develops an understanding of risk and the solutions for managing risk and relates the concepts of risk management and law in limiting exposure to legal liability.

ALS 3133 Agricultural and Environmental Quality 3 Credits
Grading Scheme: Letter Grade
Analysis of effects of agriculture on environmental quality; emphasis on agricultural wastes and practices; potential for using agricultural systems for disposal of other wastes; effects of pollution on the agricultural environment. (P)
Attributes: General Education - Physical Science

AOM 2520 Global Sustainable Energy: Past, Present and Future 3 Credits
Grading Scheme: Letter Grade
Explore the global history of energy sources; investigate new energy sources and analyze international solutions to future needs.

AOM 3073 Safety in Agriculture 3 Credits
Grading Scheme: Letter Grade
Safety concepts, principles, practices, rules and regulations as they relate to agriculture. Developing and conducting safety programs and conducting safety inspections and accident investigations are other aspects of the course.

AOM 3220 Agricultural Construction and Maintenance 3 Credits
Grading Scheme: Letter Grade
Selection and use of materials and tools used in planning, constructing and maintaining buildings. Students will participate in class lectures and hands-on laboratory activities to build full-scale projects involving framing, plumbing, electrical, windows, etc. Building codes and building science are combined to provide an introduction to the changing world of construction.

AOM 3333 Pesticide Application Techniques 3 Credits
Grading Scheme: Letter Grade
Equipment and methods used to apply pesticides in agriculture. Emphasizes techniques used to avoid misapplication, a common cause of pesticide failures.

AOM 3734 Irrigation Principles and Practices in Florida 3 Credits
Grading Scheme: Letter Grade
Irrigation practice related to Florida agriculture. The course deals with irrigation system characteristics, management, maintenance and economics.
Prerequisite: MAC 1147.

AOM 4060 Agri-food Systems Innovation 3 Credits
Grading Scheme: Letter Grade
Students explore the role of innovation in food systems from a reverse chain perspective. Students will gain knowledge of the food system framework from a multi-level (i.e., individual, organizational, etc.) perspective, identify current, innovative business and technological practices, as well as present and think critically about future trends in food.
Prerequisite: Any AOM course and any ABE course and any PKG course and junior standing or higher.

AOM 4062 Principles of Food Engineering 4 Credits
Grading Scheme: Letter Grade
The functional requirements and principles of operation of systems for handling and processing food and agricultural products.
Prerequisite: MAC 1147 and 3 credits of physics.

AOM 4314C Power and Machinery Management 3 Credits
Grading Scheme: Letter Grade
Functional requirements, operating principles, performance, safety and economic application of agricultural power units and field machines for citrus, vegetable and field crop production.

AOM 4434 Precision Agriculture 3 Credits
Grading Scheme: Letter Grade
Principles and applications of technologies supporting precision farming and planning for natural resource data management. Global positioning systems (GPS), geographic information systems (GIS), variable rate technologies (VRT), data layering of independent variables, automated guidance, Internet, information access and computer software for management.
Prerequisite: junior standing or higher.

AOM 4444C Electrical Power and Instrumentation for Agricultural Operations Management 3 Credits
Grading Scheme: Letter Grade
Fundamental concepts of electricity, power, instrumentation, computer control operations and selected transducers. Foundation to aid in management of agricultural processing operations.

AOM 4455 Agricultural Operations and Systems 3 Credits
Grading Scheme: Letter Grade
Quantitative and managerial techniques for management and planning of technical resources in agriculture. Applications of queuing theory, project scheduling, optimization and expert decision systems.
Prerequisite: MAC 1147 and a computer course.

AOM 4461 Sustainable Agricultural Systems 3 Credits
Grading Scheme: Letter Grade
Minimizing energy and costs in agricultural and natural resource systems and industries. Students explore ways to enhance sustainable systems by improving efficiency. Topics include agricultural machinery, pumps, motors, fans, refrigeration, lights and construction methods.
Prerequisite: senior standing and PHY 2004 or the equivalent.

AOM 4521 Introduction to Biofuels 3 Credits
Grading Scheme: Letter Grade
An overview of biofuel production related to technologies and feedstocks, economics of producing biofuels and impact on the environment and the local economy. Dealing specifically with liquid and gaseous biofuels and bioenergy produced from renewable resources, it provides a summary of the past, present and future production technologies and applications.
Prerequisite: BSC 2010 and PHY 2004 and CHM 2045 or the equivalents.

AOM 4642 Environmental Systems for Agricultural Structures 3 Credits
Grading Scheme: Letter Grade
Effects of the environment on plant and animal production, processing operations and quality of stored produce. Selection of building materials and sizing of components of environmental systems in agricultural structures to enhance more efficient agricultural production, processing and storage.
Prerequisite: MAC 1147 and 3 credits of physics.

AOM 4643 Environmental Hydrology: Principles and Issues 3 Credits
Grading Scheme: Letter Grade
This is a basic course in environmental hydrology intended for agricultural and natural resource managers. The first half of the course covers scientific principles of the hydrologic cycle while the second half investigates case studies of current water quality and water management issues.

AOM 4900 Supervised Extension Experience in Agricultural Operations Management 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural operations management under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

AOM 4905 Special Problems in Agricultural Operations Management 1-4 Credits
Grading Scheme: Letter Grade
Selected problems or projects in the student's major field of mechanized study.
Prerequisite: permission of department chair or advisor.

AOM 4911 Supervised Research in Agricultural Education and Communication 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in Agricultural Education and Communication under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

AOM 4915 Honors Thesis Research in Agricultural Operations Management 0-3 Credits
Grading Scheme: S/U
Independent research in agricultural operations management leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

AOM 4932 Special Topics in Agricultural Operations Management 1-4 Credits
Grading Scheme: Letter Grade
Variable topics provide content for the study of mechanized agriculture topics not offered in other courses.
Prerequisite: instructor permission.

AOM 4933 Professional Practices in Agricultural Operations Management 1 Credit
Grading Scheme: Letter Grade
Professionalism and interfacing of technical skills. Topics include ethics, continuing education, placement skills and professional development in agricultural operations management.
Prerequisite: junior standing in agricultural operations management.

AOM 4941 Full-Time Practical Work Experience in Agricultural Operations Management 1-4 Credits
Grading Scheme: S/U

Agronomy

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

AGG 3501 Environment, Food and Society 3 Credits
Grading Scheme: Letter Grade
Global issues and trends in population growth, natural resource (soil, water and plant genetic biodiversity) utilization, climate change and potential impacts of current trends on agriculture, natural resources, global food security and sustainability. (B)
Attributes: General Education - Biological Science

AGR 3303 Genetics 3 Credits
Grading Scheme: Letter Grade
The science and physical basis of inheritance, genes as units of heredity and development, and the qualitative and quantitative aspects of genetic variation. (B)
Prerequisite: basic course in biology, botany or zoology.
Attributes: General Education - Biological Science

AGR 4212 Alternative Cropping Systems 3 Credits
Grading Scheme: Letter Grade
Examines alternative cropping systems, focusing on issues of sustainability, against a backdrop of trends occurring in conventional agriculture.

AGR 4214C Applied Field Crop Production 3 Credits
Grading Scheme: Letter Grade
Students will plant and manage a group of field crops. Experience in soil sampling, interpretation of nutrient and nematode test results, fertilization, pest control and harvesting are gained. Students will submit a term report.

AGR 4231C Forage Science and Range Management 4 Credits
Grading Scheme: Letter Grade
Scientific and technological developments in the selection, production and utilization of forage crops, and in the development and management of grazing areas. (B)
Attributes: General Education - Biological Science

AGR 4304 Plant Chromosomes and Genomes 3 Credits
Grading Scheme: Letter Grade
Concepts of plant DNA organization in chromosome structure, the principles and technologies of cytogenetics, the plant genomic DNA structure and function, concepts of transcriptome, the plant genomic databases, the DNA sequencing technologies and the basic tools for nucleotide sequence analysis.
Prerequisite: AGR 3303 or PCB 3063.

AGR 4320 Plant Breeding 3 Credits
Grading Scheme: Letter Grade
The science and technology of plant improvement.
Prerequisite: AGR 3303 or PCB 3063.

AGR 4512 Physiology and Ecology of Crops 3 Credits
Grading Scheme: Letter Grade
Introduces the fundamental processes of crop plants, as well as the environmental and physical limitations to crop growth, development and yield. Focus is on physiology and ecology of agronomic crop plants. (B)
Prerequisite: AGR 3005 or the equivalent.
Attributes: General Education - Biological Science

AGR 4900 Supervised Extension in Agronomy 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agronomy under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

AGR 4905 Individual Study 1-3 Credits
Grading Scheme: Letter Grade
Scientific study of individual problems in crop production, weed science, genetics or plant breeding.
Prerequisite: minimum of one course in agronomy and instructor permission.

AGR 4911 Supervised Research in Agronomy 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in Agronomy under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

AGR 4915 Honors Thesis Research in Agronomy 0-3 Credits
Grading Scheme: S/U
Independent research in agronomy leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

AGR 4932 Agronomy Topics 1-3 Credits
Grading Scheme: Letter Grade
Critical review of selected topics in specific agronomic areas.

ALS 4154 Global Agroecosystems 3 Credits
Grading Scheme: Letter Grade
Focuses on the principles of agroecology and presentation of topics that integrate ecological with agricultural principles to optimize resource conservation, productivity, societal benefit, and profitability.
Prerequisite: SWS 3022 and ALS 3153 and AGR 4214C or the equivalent.

ALS 4914 Project Team Research: Building Skills in Agrobiology 3 Credits
Grading Scheme: Letter Grade
Hands-on experience in addressing a real-world problem faced by an agricultural industry partner. Production of a detailed plan, project design, and preliminary data for evaluating and solving the problem. Offered every term.
Prerequisite: Junior standing or higher.

PCB 2441 Biological Invaders 3 Credits
Grading Scheme: Letter Grade
Introduces plants and animals that are invading Florida and the U.S. Why biological invaders are second only to habitat destruction as threats to natural ecosystems, what makes some species invasive, how to control or prevent invasions, where international commerce may be regulated, and who is affected by such issues. (B)
Attributes: General Education - Biological Science

PLS 2003C Plants That Feed the World 3 Credits
Grading Scheme: Letter Grade
Introduces 25 of humankind's most important food crop plants with emphasis on soil and climatic adaptations, major producers and consumers, nutritional attributes, processing needs and types of products. Students will see the plants and seeds, and the food and industrial products of the crop plants under study. This is an introductory course for majors and non-majors who have no previous academic experience with food crop plants. (B)
Attributes: General Education - Biological Science

PLS 3004C Principles of Plant Science 3 Credits
Grading Scheme: Letter Grade
Introduces the principles and practices of plant production systems. An overview of plant evolution, anatomy, physiology, improvement, pest, water and nutrient management as applied to a variety of plant production systems. (B)
Prerequisite: BOT 2010C or BSC 2010.
Attributes: General Education - Biological Science

PLS 4601C Principles of Weed Science 3 Credits
Grading Scheme: Letter Grade
Introduces basic and applied aspects of weed science. Topics include weed biology and ecology, herbicide physiology and weed control techniques. The lab covers weed identification, herbicide application technology and other aspects of weed science.

PLS 4613 Aquatic Weed Control 3 Credits
Grading Scheme: Letter Grade
Florida's aquatic weed problems and methods of chemical, biological, mechanical and physical weed control. Topics include plant biology/ecology, herbicide residue, lake reclamation, fish-plant interactions and laws regulating aquatic weed control.
Prerequisite: refer to the department.

PLS 4941 Practical Work Experience 1-3 Credits
Grading Scheme: S/U
Practical, hands-on experience in the plant sciences through a paid internship in the industry. This must be a new experience and related to the student's field of study. One month of full-time work is required for each credit.
Prerequisite: junior standing and AG-PLS major.

Akan | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

AKA 1130 Beginning Akan 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

AKA 1131 Beginning Akan 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: AKA 1130 with minimum grade of C or the equivalent.

AKA 2200 Intermediate Akan 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: AKA 1131 with minimum grade of C, or the equivalent.

AKA 2201 Intermediate Akan 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study.
Prerequisite: AKA 2200 with minimum grade of C, or the equivalent.

AKA 3410 Advanced Akan 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: AKA 2201 with minimum grade of C, or the equivalent.

AKA 3411 Advanced Akan 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study.
Prerequisite: AKA 3410 with minimum grade of C, or the equivalent.

Amharic | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

AHM 1130 Beginning Amharic 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading, and writing.

AHM 1131 Beginning Amharic 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: AHM 1130 with minimum grade of C, or the equivalent.

AHM 2200 Intermed Amharic 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: AHM 1131 with minimum grade of C, or the equivalent.

AHM 2201 Intermediate Amharic 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study.
Prerequisite: AHM 2200 with minimum grade of C, or the equivalent.

AHM 3410 Advanced Amharic 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: AHM 2201 with minimum grade of C, or the equivalent.

AHM 3411 Advanced Amharic 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study.
Prerequisite: AHM 3410 with minimum grade of C or the equivalent.

Animal Sciences

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

ALS 4932 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Variable subjects provide content for the study of agricultural topics not offered in other courses.

ANS 2002 The Meat We Eat 3 Credits
Grading Scheme: Letter Grade
Consumer-oriented elective covering meat as a food, its inspection for wholesomeness, meat grading, identification, processing, selection, preparation, and serving. Emphasizes preparation of economical, nutritious and palatable meals centered on meat. (B)
Attributes: General Education - Biological Science

ANS 2005 The Role of Animals in Human History 3 Credits
Grading Scheme: Letter Grade
Surveys the importance of animals through human history, from the Stone Age to the present. The domestication of dogs, cats, major farm animals and some less familiar, such as camels, reindeer, and buffalo and the role they played in different societies and cultures across human history. (H, N)
Attributes: General Education - Humanities, General Education - International

ANS 2615C Meat Selection and Grading 2 Credits
Grading Scheme: Letter Grade
Grading and classifying beef, pork, and lamb carcasses and cuts.

ANS 3006 Introduction to Animal Science 3 Credits
Grading Scheme: Letter Grade
Role of beef cattle, dairy cattle, swine, sheep, poultry, and horses in serving humans. Introduces anatomy and physiology of digestion, growth, reproduction, and the application of genetics to livestock improvement.

ANS 3006L Introduction to Animal Science Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory experiences designed to accompany ANS 3006; must be registered for ANS 3006 concurrently or have already completed the lecture course.
Corequisite: ANS 3006 for AL majors only.

ANS 3008 Livestock Behavior and Welfare 3 Credits
Grading Scheme: Letter Grade
Introduces basic principles and applications of animal behavior, including approaches to improve animal welfare through an understanding of animal behavior. Examples are drawn from a wide range of species, but the focus is on applying concepts to understand the behavior and welfare of livestock.
Prerequisite: sophomore or junior standing.

ANS 3043 Growth and Development of Farm Animals 3 Credits
Grading Scheme: Letter Grade
An integration of the physiological, genetic, and nutritional bases of animal growth, development, and body composition with application to livestock production.
Prerequisite: BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L and ANS3006C or equivalents and AL major.

ANS 3079L Relationship of Form to Function in Horses 2 Credits
Grading Scheme: Letter Grade
Principles of conformation and performance evaluation of horses. Studies the anatomy, physiology, and dynamics of the horse as it affects athletic potential and performance.

ANS 3216 Introduction to Equine Science 3 Credits
Grading Scheme: Letter Grade
For those with an interest in equine sciences but with limited equine experience. Principles of equine selection, care, and utilization.

ANS 3217C Equine Health Management 2 Credits
Grading Scheme: Letter Grade
Principles and practices for planning, implementing, and maintaining equine herd health.
Prerequisite: ANS 3006 and AL-equine major.

ANS 3239L Techniques in Equine Science 2 Credits
Grading Scheme: Letter Grade
Introduces the knowledge, horseback, and management skills required for proper daily horse care and conditioning. Designed for those seeking employment requiring basic horse care skills and for novice horse owners.
Prerequisite: ANS 3216 and AL major.

ANS 3246L Beef Production Practicum 2 Credits
Grading Scheme: Letter Grade
Participate in beef cattle production systems under close supervision of faculty and staff; gain knowledge of best management practices regarding cattle handling, tractor, and equipment use, as well as cattle hauling by participating in experiential learning opportunities.
Prerequisite: sophomore or junior standing;
Corequisite: ANS 4243.

ANS 3250L Dairy Cattle Practicum 2 Credits
Grading Scheme: Letter Grade
Practical application of the principles of biology and management of dairy cattle. Topics include milking procedures, behavior, cattle handling, records, and computer applications in dairy production; body condition, lameness and hygiene scoring; dairy farm evaluation; on-farm practica and field trips.
Corequisite: ANS 3251.

ANS 3251 Biology and Management of Dairy Cattle 2 Credits
Grading Scheme: Letter Grade
Biology of dairy cattle and the interrelationship between biology and management. Topics include anatomy and physiology, nutrition, reproduction, genetics, behavior, diseases, dairy products, housing, management, economics, and the environmental impact of dairy production.

ANS 3319C Reproductive Physiology and Endocrinology in Domestic Animals 4 Credits
Grading Scheme: Letter Grade
Principles of reproduction in avian and mammalian farm animals including factors related to the estrous cycle, pregnancy, lactation, semen-production, artificial insemination, pregnancy diagnosis, and environmental factors affecting reproduction.
Prerequisite: ANS 3006 and BSC 2010 and BSC 2010L or equivalents.

ANS 3384C Genetics of Domestic Animals 3 Credits
Grading Scheme: Letter Grade
Basic principles of Mendelian, population, and quantitative genetics as applied to improvement of domestic animals. Selection, inbreeding, and crossbreeding strategies for genetic improvement of livestock.
Prerequisite: ANS 3006 and BSC 2011 and BSC 2011L or equivalents.

ANS 3404C Food Animal Nutrition and Feeding 3 Credits
Grading Scheme: Letter Grade
Studies the basic nutrient requirements of food animals, primarily beef cattle and swine, at specific stages of growth, production, and reproduction; and how scientific methods and experimentation are applied to animal nutrition.
Prerequisite: ANS 3440.

ANS 3405 Equine Nutrition and Feeding Management 2 Credits
Grading Scheme: Letter Grade
The influence of growth, reproduction, and work on the nutrient requirements of horses and the application of that information to the planning of life cycle feeding programs.
Prerequisite: ANS 3440.

ANS 3440 Principles of Animal Nutrition 4 Credits
Grading Scheme: Letter Grade
The nutrients required by animals, their functions interrelationships, and processes of utilization; feedstuff composition and their use in diet and ration formulation.
Prerequisite: CHM 2045 and CHM 2045L, or equivalent.

ANS 3613L Livestock and Meat Evaluation 2 Credits
Grading Scheme: Letter Grade
Basic principles of livestock evaluation, grading, and pricing of meat animals, carcasses and meat cuts.
Prerequisite: ANS 3006.

ANS 3634C Meats 3 Credits
Grading Scheme: Letter Grade
Integrated studies of the science and technology involved in the utilization of meat animals for food with focus on animal growth, carcass cutability, wholesomeness, palatability, and merchandising of red meat.

ANS 3934 Careers in the Livestock Industry 2 Credits
Grading Scheme: Letter Grade
Careers in the livestock industry. Interactive exposure to employment opportunities in the animal sciences.

ANS 4212L Techniques in Farrier Science 1-2 Credits
Grading Scheme: Letter Grade
How to evaluate and to trim the horse's hoof and to develop a working knowledge of corrective farrier techniques.

ANS 4218L Horse Psychology and Training 3 Credits
Grading Scheme: Letter Grade
Horse behavior, instinct and senses as they relate to training. Principles of training the young foal; ground work, liberty training, and starting the young yearling under saddle; and principles of performance training.

ANS 4231 Practicum in Horse Management and Training Technique 1 Credit
Grading Scheme: Letter Grade
Practicum in horse management and training technique

ANS 4234 Horse Enterprise Management 2 Credits
Grading Scheme: Letter Grade
Management principles essential to the planning and operation of commercial horse enterprises.
Prerequisite: AEB 3133 and AGR 4231C and ANS 3217C and ANS 3319C and ANS 3384C and ANS 3405 and ANS 3440.

ANS 4241L Intermediate Horse Training 2 Credits
Grading Scheme: Letter Grade
Continue the training of a recently started under-saddled horse, exhibit horse to potential buyers, and produce annual sealed bid sale.
Prerequisite: AEB 3133 and AGR 4231C and ANS 3217C and ANS 3319C and ANS 3384C and ANS 3405 and ANS 3440.

ANS 4243 Beef Cow-Calf Management 5 Credits
Grading Scheme: Letter Grade
Development and implementation of management programs for commercial cow-calf and purebred beef cattle enterprises.
Prerequisite: AEB 3133 and AGR 4231C and ANS 3319C and ANS 3384C and ANS 3404C and ANS 3440.

ANS 4245C Beef Background and Feedlot Management 2 Credits
Grading Scheme: Letter Grade
Management, marketing, and utilization of beef cattle after weaning. Spring break field trip required.
Prerequisite: AEB 3133 and AGR 4231C and ANS 3440 and ANS 3404C and ANS 3613L and ANS 3634C.

ANS 4318C Equine Reproductive Management 3 Credits
Grading Scheme: Letter Grade
Equine reproduction to include anatomy, the estrous cycle, hormones and pharmacologic manipulation, gametogenesis, embryonic and fetal development, parturition, foal care, assisted technologies, and management strategies.
Prerequisite: ANS 3319C.

ANS 4320C Applied Ruminant Reproductive Management 4 Credits
Grading Scheme: Letter Grade
In-depth assessment and application of bovine reproductive management practices that affect the efficiency of reproduction including managerial, physiological, biological, and economical.
Prerequisite: ANS 3319C.

ANS 4382 Equine Genetics 2 Credits
Grading Scheme: Letter Grade
Examines the underlying mechanisms and inheritance of a number of traits in the horse; includes the impact of domestication on the genome, relationships between breeds, coat color, genetic disease and complex traits of performance and behavior.
Prerequisite: ANS 3384C.

ANS 4388 Canine and Feline Genetics 3 Credits
Grading Scheme: Letter Grade
Lectures, seminars, and lab exercises on application of genetic principles to canine and feline characteristics provide an in-depth understanding of how these traits are inherited and analyzed. Information on new genomic technologies and their impact on studying specific traits, including coat color and genetic disorders, are discussed.
Prerequisite: ANS 3384C or AGR 3303 or PCB 3063 or equivalent.

ANS 4389L Molecular Techniques in Domestic Animal Genetics 2 Credits
Grading Scheme: Letter Grade
Studies the principles of basic domestic animal molecular biology techniques and provides hands-on experience through laboratory exercises.
Prerequisite: ANS 3384C.

ANS 4604C Live Animal Evaluation 2 Credits
Grading Scheme: Letter Grade
Instruction of live animal selection and evaluation, relative to improving the efficiency of meat and animal production.

ANS 4605 Animal and Products Evaluation 1 Credit
Grading Scheme: Letter Grade
Intensive training in animal and animal products evaluation.
Prerequisite: instructor permission.

ANS 4623C Pork Production 3 Credits
Grading Scheme: Letter Grade
Principles of modern pork production, including all aspects of swine production management systems (breeding systems, disease control, applied economics, housing, marketing, pork quality, and nutrition in a systems approach), relative to the US/Global pork supply.
Prerequisite: ANS 3440 and ANS 3319C and (ANS 3613L or ANS 4604C).

ANS 4635C Meat Processing 3 Credits
Grading Scheme: Letter Grade
Basic principles of the use of muscle as food, process technology, meat inspection, regulations, quality control procedures, and marketing aspects.
Prerequisite: ANS 3006 or FOS 3042.

ANS 4701 Physiology of the Mammary Gland and Lactation 2 Credits
Grading Scheme: Letter Grade
Insight into the endocrinology and physiology of the defining characteristics of mammals: the mammary gland and lactation, focusing on the anatomy and development of the mammary gland with an overview of the biochemical, cellular and molecular processes controlling lactation emphasizing on livestock species.
Prerequisite: BSC 2011 and BSC 2011L and ANS 3319C and AG senior.

ANS 4900 Supervised Extension Experience in Animal Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in animal sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

ANS 4905 Problems in Animal Science 1-3 Credits
Grading Scheme: Letter Grade
Qualified students are assigned a problem involving care and management of livestock or the investigation of a current topic in animal science.
Prerequisite: instructor permission.

ANS 4911 Supervised Research in Animal Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in animal sciences under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

ANS 4915 Honors Thesis Research in Animal Sciences 0-3 Credits
Grading Scheme: S/U
Independent research in animal sciences leading to an honors thesis, mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

ANS 4931 Senior Seminar 1 Credit
Grading Scheme: Letter Grade
Oral presentation and papers on issues facing the livestock industry.
Prerequisite: AL senior.

ANS 4932 Special Topics in Animal Sciences 1-3 Credits
Grading Scheme: Letter Grade
Special topics in Animal Sciences.
Prerequisite: Sophomore standing or higher.

ANS 4941 Full-Time Practical Work Experience in Animal Science 2-8 Credits
Grading Scheme: S/U
Credit is earned on the basis of one hour per month of employment. (S-U)
Prerequisite: prior arrangement with advisor.

ATE 2511 Companion Animal Biology and Management 3 Credits
Grading Scheme: Letter Grade
Principles and practices of proper selection, care, nutrition, genetics, reproduction, and training of companion animals, with emphasis on dogs, cats, and selected bird species.

VME 4103 Livestock Health/Disease Prevention 2 Credits
Grading Scheme: Letter Grade
The principal diseases of livestock and practical methods for their prevention and control.
Prerequisite: instructor permission.

Anthropology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

AFS 2002 The African Experience: An Introduction to African Studies 3 Credits
Grading Scheme: Letter Grade
Introductory study of African society and culture that examines the richness, diversity, and time-depth of African civilizations. (S and N)
Attributes: General Education - International, General Education - Social Science

ANT 2000 General Anthropology 3 Credits
Grading Scheme: Letter Grade
Introduces the four subfields of anthropology (sociocultural, biological, linguistic and archaeology) through analyses of the cultural, social and biological dimensions of human variation. Appropriate first course for students considering major or minor in anthropology as well as non-majors fulfilling general education requirement. (S)
Attributes: General Education - Social Science

ANT 2140 Introduction to World Archaeology 3 Credits
Grading Scheme: Letter Grade
The global study of human culture from its origins to the present through the recovery, description and analysis of archaeological remains.

ANT 2149 Lost Tribes and Sunken Continents 3 Credits
Grading Scheme: Letter Grade
Examines the claims of popular writers in archaeology that mysterious archaeological sites, statues, etc. were influenced by outer space visitors. Problems of diffusion: discussed include Stonehenge, pyramids, Easter Island, Maya spaceships, Atlantis and Mu, Nazca Lines and other archaeological mysteries. (H)
Attributes: General Education - Humanities

ANT 2301 Human Sexuality and Culture 3 Credits
Grading Scheme: Letter Grade
Examines cultural, biological, and archaeological aspects of human sexuality through time and space, while evaluating sexuality ideas to societal discourse. Investigates personal and cross-cultural views on sexuality, presenting gender identity, sexual orientation, relationships, and sexual ethics. Appropriate for those seeking an integrative approach to human sexuality. (S and D) (WR)
Attributes: General Education - Diversity, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ANT 2402 Anthropology of Sustainability 3 Credits
Grading Scheme: Letter Grade
Application of the sustainability concept to the study of human interactions with the biophysical environment across space and time. Focuses on human perceptions of and interactions with their biotic surroundings and the myriad linkages between biological, cultural and linguistic diversity.

ANT 2410 Cultural Anthropology 3 Credits
Grading Scheme: Letter Grade
The nature of culture. The content of cultures; languages, subsistence, economic structures, art and religion in human societies. The integration of culture. (S and D)
Attributes: General Education - Diversity, General Education - Social Science

ANT 2700 Introduction to Applied Anthropology 3 Credits
Grading Scheme: Letter Grade
The utility and application of anthropological theories, methods and knowledge for the solution of specific human problems, including discrimination, hunger, disease and underdevelopment. (S and D)
Attributes: General Education - Diversity, General Education - Social Science

ANT 3141 Development of World Civilization 3 Credits
Grading Scheme: Letter Grade
Discussion of archeological evidence for the development of civilization in its regional variants from the earliest beginning to the dawn of written history. Analyzes causes of cultural development in Old and New World Centers. (H and N)
Attributes: General Education - Humanities, General Education - International

ANT 3153 North American Archaeology 3 Credits
Grading Scheme: Letter Grade
Archaeological materials relating to prehistoric North American cultures. The origins of the North American Indian, Historic Indian and colonial materials. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

ANT 3162 Aztec Civilization 3 Credits
Grading Scheme: Letter Grade
Detailed examination of Aztec culture and society at 1500 AD from ethnohistorical and archaeological evidence, including family life; social, political and economic organization; warfare; religion; and relationships with neighboring peoples. (H and N)
Attributes: General Education - Humanities, General Education - International

ANT 3164 The Inca and Their Ancestors 3 Credits
Grading Scheme: Letter Grade
Evolution of the Inca Empire is traced back archaeologically through earlier Andean states and societies to the beginning of native civilization. (H and N)
Attributes: General Education - Humanities, General Education - International

ANT 3181 Anthropological Museology 3 Credits
Grading Scheme: Letter Grade
The history and purpose of anthropological museums in the formation of the discipline and the modern role of the museum in both anthropological education and research.

ANT 3186 Introduction to Zooarchaeology 3 Credits
Grading Scheme: Letter Grade
Introduces the identification, analysis and interpretation of animal remains from archaeological sites. Methods of quantification and skeletal measurements to understand technology and human behavior are addressed. Topics include identification of subsistence patterns, coastal economies, animal domestication, taphonomy, environmental inferences from faunal remains and historical use of subsistence resources.
Prerequisite: one course in archaeology.

ANT 3241 Anthropology of Religion 3 Credits
Grading Scheme: Letter Grade
Cross-cultural survey of beliefs and practices dealing with the supernatural, magic, and religion. Conceptualization of the supernatural. Sacred specialists, their function, and social position. Theories of comparative religion in light of anthropological data. (S and D)
Attributes: General Education - Diversity, General Education - Social Science

ANT 3302 Sex Roles: a Cross-Cultural Perspective 3 Credits
Grading Scheme: Letter Grade
Anthropological perspective on division of labor by sex in different world societies. Variation in sex roles in economic, religious, political domains. Socialization and the life cycle. (S and D)
Attributes: General Education - Diversity, General Education - Social Science

ANT 3364 Peoples and Cultures of China 3 Credits
Grading Scheme: Letter Grade
A comprehensive introduction to the diversity and change of Chinese culture and society based on ethnographic studies, theoretical analysis, and historical survey by Western as well as Chinese scholars. (S and N) (WR)
Attributes: General Education - International, General Education - Social Science, Satisfies 2000 Words of Writing Requirement

ANT 3390 Visual Anthropology 3 Credits
Grading Scheme: Letter Grade
Uses photography and film as tools and products of social science. Ways of describing, analyzing and presenting behavior and cultural ideas through visual means. Projects and laboratory work with visual anthropology. (WR)
Prerequisite: basic knowledge of photography or instructor permission.
Attributes: Satisfies 6000 Words of Writing Requirement

ANT 3420 Consumer Culture 3 Credits
Grading Scheme: Letter Grade
Examination of the cultural bases for the consumption of commodities in modern society, employing anthropological concepts and social science methods. Primary emphasis is on the social relationships enacted between people and the things they live with. (S)
Prerequisite: sophomore standing or higher.
Attributes: General Education - Social Science

ANT 3451 Race and Racism 3 Credits
Grading Scheme: Letter Grade
Survey of the race concept from the perspectives of cultural and biological anthropology. Examines patterns of human biological variation, traces history of race concept and explores experiences of racism in cross-cultural perspective. (S and D) (WR)
Attributes: General Education - Diversity, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ANT 3467 Food and Culture 3 Credits
Grading Scheme: Letter Grade
The role of food in human culture through time and in different geographical settings. Among topics considered are the biological basis of human diet and how it differs from other primates; how food habits develop and change as a result of cultural interaction; and the ritual and religious uses of food. Diets of traditional cultures and the effects of modernization on diet and health are examined.

ANT 3478 Global Health Culture 3 Credits
Grading Scheme: Letter Grade
Examines the ways in which diverse societies in the United States and abroad construct illness and health experiences, balance healing traditions with multiple forms of medical practice and integrate the human experiences of illness, recovery and death with the technical world of biomedicine.
Prerequisite: sophomore standing or higher.
Attributes: General Education - International, General Education - Social Science

ANT 3514C Introduction to Biological Anthropology 4 Credits
Grading Scheme: Letter Grade
Introduces the subfield of anthropology that focuses on the natural history of humankind. Through lecture and laboratory, the course surveys a range of materials that focus on the diversity of the Order Primates with emphasis on human and primate variation, adaptation and evolution. (B)
Attributes: General Education - Biological Science

ANT 3515 Human Evolutionary Anatomy 3 Credits
Grading Scheme: Letter Grade
Survey of human anatomy from evolutionary and embryological perspectives. The phylogenetic and functional basis for human form. Anatomical principles underlying developmental and functional disorders are explored through clinical and comparative examples.
Prerequisite: ANT 3514C or (BSC 2010 and BSC 2011) or PCB 4674.

ANT 3520 Skeleton Keys: Forensic Identification 3 Credits
Grading Scheme: Letter Grade
Survey of forensic anthropology, an applied field of biological anthropology, focusing the wider scope of skeletal biology on problems of medicolegal significance, primarily in determining personal identity and cause of death from human remains.

ANT 3555 The Primates 3 Credits
Grading Scheme: Letter Grade

ANT 3620 Language and Culture 3 Credits
Grading Scheme: Letter Grade
The role of speech in individual, social and cultural settings. Linguistic basis of thought and perception. Mythological studies and analysis. Bilingualism, biculturalism and minority language politics in current perspective. (S and N) (WR)
Attributes: General Education - International, General Education - Social Science, Satisfies 4000 Words of Writing Requirement

ANT 3703 Business Anthropology 3 Credits
Grading Scheme: Letter Grade
How to get a field-specific job: writing resumes, job interviews, and social science methods and their applications. Provides a general overview of the business anthropology field.

ANT 3860 Writing in Anthropology 3 Credits
Grading Scheme: Letter Grade
Professional writing in the discipline of anthropology. (C) (WR)
Prerequisite: Junior standing or higher in anthropology.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ANT 3930 Junior Topics Class in Anthropology 3 Credits
Grading Scheme: Letter Grade
This course is designed for junior level students to explore special topics classes in the various subfields of anthropology.

ANT 4006 Human Rights and Culture 3 Credits
Grading Scheme: Letter Grade
Examines the nature of human rights cross-culturally, focusing on the history of the concept, universalism vs. particularism, religion, gender, race, regionalism, and modern human rights conventions.

ANT 4034 History of Anthropological Theory 3 Credits
Grading Scheme: Letter Grade
The history and development of anthropological theory. Methods in anthropological research. Directed reading of major theoretical publications. (S) (WR)
Prerequisite: one cultural anthropology course or instructor permission.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ANT 4110 Archaeological Theory 3 Credits
Grading Scheme: Letter Grade
Survey of the theoretical and methodological tenets of anthropological archaeology; critical review of archaeological theories, past and present; relation of archaeology to anthropology. (S)
Prerequisite: one course in archeology and/or anthropology, or instructor permission.
Attributes: General Education - Social Science

ANT 4112 Ideology and Symbolic Approaches in Archaeology 3 Credits
Grading Scheme: Letter Grade
Critically examines the development of thought in archaeology that goes beyond a materialist interpretation of culture. This seminar explores questions of causality and the role of mind and culture as a mediator between the environment and political, economic and social structures.
Prerequisite: instructor permission.

ANT 4113 Experimental Archaeology 3 Credits
Grading Scheme: Letter Grade
Introduces the principles and applications of experimental archaeology, drawing on a broad range of case studies that illustrate the numerous experimental methods that archaeologists have used to solve analytic or interpretive problems.
Prerequisite: instructor permission.

ANT 4114 Principles of Archaeology 3 Credits
Grading Scheme: Letter Grade
Basic principles of archaeological science. Field and laboratory techniques (site survey, mapping, excavation, artifact analysis, dating). Foundational methods to interpret archaeological data to understand cultural and natural processes in the past. Legal and ethical issues of heritage management and stewardship of the archaeological record. (WR)
Prerequisite: ANT 2140 or ANT 3141.
Attributes: Satisfies 6000 Words of Writing Requirement

ANT 4147C Environmental Archaeology 3 Credits
Grading Scheme: Letter Grade
Theory and case studies in environmental archaeology, integrating zooarchaeology, archaeobotany and geoarchaeology, are used to interpret past human interactions with the natural environment.
Prerequisite: instructor permission.

ANT 4168 Maya Civilization 3 Credits
Grading Scheme: Letter Grade
In-depth study of the pre-Hispanic Maya civilization based on archaeological and epigraphic information. Includes methods for constructing knowledge of this civilization and discussion of current controversies.
Prerequisite: ANT 2140 or ANT 3141 or instructor permission.

ANT 4180L Laboratory Training in Archaeology 1-3 Credits
Grading Scheme: Letter Grade
Processing of data recovered in field excavations; includes cleaning, identification, cataloguing, classification, drawing, analysis, responsibilities of data reporting.
Prerequisite: an introductory-level archeology course.

ANT 4193 Ethnoarchaeology 3 Credits
Grading Scheme: Letter Grade
A seminar that draws on case studies to examine the theoretical and methodological approaches to enthnoarchaeology. Students will apply these approaches in field exercises.
Prerequisite: instructor permission.

ANT 4194 A Critical Archaeology of Time 3 Credits
Grading Scheme: Letter Grade
Seminar that draws on case studies to explore problems at the intersection of measured time in archaeology, and the practice and reckoning of time in mostly non-Western societies.
Prerequisite: instructor permission.

ANT 4213 Global Humankind 3 Credits
Grading Scheme: Letter Grade
Advanced analysis of experiences and strategies for tackling classic dilemmas of the human condition in interconnected cultural works. Examination of how basic lifestyle decisions and actions are experienced locally and their global consequences. Anthropological theories and concepts are discussed in tandem with case studies from around the world.
Prerequisite: one 2000 or 3000 level ANT course or instructor permission.

ANT 4266 Economic Anthropology 3 Credits
Grading Scheme: Letter Grade
A consideration of economic philosophies and the behavioral bases of formal economic theories. Cross-cultural studies of production, distribution and consumption, money and the acquisition of goods. The latest materials from cultural ecology, Marxism, formalism, substantivism and discourse centered approaches are reviewed. (S) (WR)
Prerequisite: one anthropology course or instructor permission.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ANT 4273 Anthropology of Law 3 Credits
Grading Scheme: Letter Grade
An examination of legal systems cross-culturally with a focus on the interrelationship of law with culture, society, economics and politics.

ANT 4274 Political Anthropology 3 Credits
Grading Scheme: Letter Grade
The problem of identifying political behavior. Natural leadership in bands, tribes and small groups. Acephalous societies and republican structures. Kingship and early despotic states. Theories of bureaucracy. (S)
Prerequisite: an introductory course in the social sciences, or instructor permission.
Attributes: General Education - Social Science

ANT 4323 People of Mexico and Central America 3 Credits
Grading Scheme: Letter Grade
The settlement and early cultures of the area with an emphasis on the rise of the major culture centers. The impact of European civilization and surviving Indians. (S and N) (WR)
Attributes: General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ANT 4336 The Peoples of Brazil 3 Credits
Grading Scheme: Letter Grade
Ethnology of Brazil; historical, geographic, and socioeconomic material is covered and representative monographs from the various regions of Brazil are read. The contribution of the Indian, Portuguese and African to modern Brazilian culture. (S and N) (WR)
Attributes: General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ANT 4340 Anthropology of the Caribbean 3 Credits
Grading Scheme: Letter Grade
Investigation into cultural contact that has taken place in the Caribbean and results of that contact in terms of peoples and sociocultural units produced and processes of cultural change involved. (S and N)
Attributes: General Education - International, General Education - Social Science

ANT 4352 Peoples of Africa 3 Credits
Grading Scheme: Letter Grade
An anthropological survey of the culture, history and ethnographic background of the peoples of Africa. A basis for appreciation of current problems of acculturation, nationalism, and cultural survival and change among African peoples. (S and N) (WR)
Attributes: General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ANT 4354 The Anthropology of Modern Africa 3 Credits
Grading Scheme: Letter Grade
Study of continuity and change in contemporary African societies with special reference to cultural and ethnic factors in modern nations. (S and N) (WR)
Attributes: General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ANT 4366 Family, Gender and Population in China 3 Credits
Grading Scheme: Letter Grade
This seminar examines the processes by which the family system, gender relations, and population configuration interact with each other to become powerful forces in shaping contemporary China's political, social and economic conditions. (S and N)
Prerequisite: instructor permission.
Attributes: General Education - International, General Education - Social Science

ANT 4392 Peoples of the Artic 3 Credits
Grading Scheme: Letter Grade
An anthropological survey of the culture, history and ethnographic background of the circumpolar Artic. An investigation of the problems of acculturation, human ecology, cultural survival and self-determination of Northern Indigenous Peoples.
Prerequisite: ANT 2140.

ANT 4403 Environment and Cultural Behavior 3 Credits
Grading Scheme: Letter Grade
The interaction of people and their environment as mediated by cultural institutions. Levels of socioeconomic adaptation in hunting and gathering, pastoral and agricultural societies. Warfare and ritual as ecological mechanisms. (S) (WR)
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ANT 4462 Culture and Medicine 3 Credits
Grading Scheme: Letter Grade
A survey of the field of medical anthropology and its interdisciplinary context. The course examines contemporary approaches and the development of an applied field concerned with human sickness and healing.

ANT 4468 Health and Disease in Human Evolution 3 Credits
Grading Scheme: Letter Grade
Review of pathology as evidenced in fossil and archaeological records. Interpretation of disease in a biocultural context.
Prerequisite: ANT 3514C, or instructor permission.

ANT 4495 Ethnographic Methods 3 Credits
Grading Scheme: Letter Grade
Introduces the basic theoretical, methodological, ethical and practical concerns in the making of ethnography. In addition to readings and discussions, students will conduct a micro-project to gain hands-on experience in ethnography. (S)
Prerequisite: ANT 2000.
Attributes: General Education - Social Science

ANT 4525 Human Osteology and Osteometry 3 Credits
Grading Scheme: Letter Grade
Human skeletal identification for the physical anthropologist and archaeologist. Techniques for estimated age at death, race and sex from human skeletal remains. The measurement of human skeleton for comparative purposes. (B)
Prerequisite: ANT 3514C and instructor permission.
Attributes: General Education - Biological Science

ANT 4530 Seminar in Molecular Anthropology 3 Credits
Grading Scheme: Letter Grade
Course examines current applications of molecular data to questions of human evolution and genetics, based on most recent journal articles.
Prerequisite: BSC 2011 or instructor permission.

ANT 4531 Molecular Genetics of Disease 3 Credits
Grading Scheme: Letter Grade
Examines molecular genetics of human disease. Discusses a range of diseases from single-gene recessive defects to complex diseases.
Prerequisite: BSC 2011 or instructor permission.

ANT 4552 Primate Behavior 3 Credits
Grading Scheme: Letter Grade
Deals with the taxonomy, distribution and ecology of primates. The range of primate behavior for each major taxonomic group is explored. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

ANT 4554C Primate Evolution 3 Credits
Grading Scheme: Letter Grade
Survey of primate evolution from Paleocene through Miocene epochs. Methods of paleontological inference. Emphasis on problems of taxonomy, phylogeny, biogeography and functional morphology in the fossil record.
Prerequisite: ANT 3514C or instructor permission.

ANT 4586 Human Evolution 3 Credits
Grading Scheme: Letter Grade
This course surveys the evidence for the evolution of humankind. Emphasis is placed on the late Miocene to Pleistocene human fossil record and its interpretation. Basic principles of geology, systematics, evolutionary theory, functional morphology, and phylogenetic reconstruction are introduced and used to aid in understanding the human fossil and archaeological records. (B)
Prerequisite: ANT 3514C or the equivalent.
Attributes: General Education - Biological Science

ANT 4740 Introduction to Forensic Science 3 Credits
Grading Scheme: Letter Grade
Basic concepts and topics in forensic science, medicine and criminalistics. Also provides basic understanding of the fundamental concepts of scientific methodology.

ANT 4824 Field Sessions in Archaeology 6 Credits
Grading Scheme: Letter Grade
Excavation of archaeological sites, recording of data, laboratory handling and analysis of specimens, and study of the theoretical principles which underlie field methods and artifact analysis.
Prerequisite: 6 credits of anthropology or instructor permission.

ANT 4851 Digital Anthropology 3 Credits
Grading Scheme: Letter Grade
Investigation into how our emerging digital environment is affecting humans and societies. The study of digital technologies in comparative cultural contexts. Analysis of digital technology as a form of material culture. Introduction to theoretical perspectives on digital phenomena and the applications of these technologies in anthropology and other disciplines.
Prerequisite: one 2000 or 3000 level ANT, LAS, or AFS course or instructor permission.

ANT 4905 Individual Work 1-5 Credits
Grading Scheme: Letter Grade
Individual, supervised research on a specific topic in anthropology.
Prerequisite: instructor permission.

ANT 4907 Research Projects in Anthropology 1-5 Credits
Grading Scheme: Letter Grade
For students undertaking directed research in supplementary or regular coursework or on special problems.
Prerequisite: instructor permission.

ANT 4911 Undergraduate Research in Anthropology 0-3 Credits
Grading Scheme: Letter Grade
Course provides firsthand, supervised research in Anthropology. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Anthropology.

ANT 4914 Department Honors in Anthropology 3 Credits
Grading Scheme: Letter Grade
Open to students meeting department honors criteria and normally taken in the senior year. Students will develop special interests and write an essay based upon this research.
Prerequisite: undergraduate coordinator permission.

ANT 4930 Special Topics in Anthropology 3-5 Credits
Grading Scheme: Letter Grade
Rotating content in anthropology.
Prerequisite: 10 credits in anthropology or instructor permission. With permission, can be repeated with change in content up to 9 credits.

ANT 4931 Capstone in Anthropology 3 Credits
Grading Scheme: Letter Grade
Capstone course for anthropology majors focusing on the integration of core knowledge from the subfields of anthropology and their application to historical and contemporary topics. Explores application of anthropological knowledge for both pre-professional development and non-professional careers.
Prerequisite: Senior standing in anthropology.

ANT 4956 Overseas Studies in Cultural Anthropology 3-9 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved UF study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

Applied Physiology and Kinesiology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

APK 2100C Applied Human Anatomy with Laboratory 4 Credits
Grading Scheme: Letter Grade
Study of general anatomy of the human body from a systematic approach. Understanding anatomical terminology, gross structures, and locations of different body structures are primary concerns. Cells, tissues and organs of the integumentary, skeletal, muscular, nervous, circulatory, respiratory, digestive, urinary and reproductive systems are emphasized. (B)
Attributes: General Education - Biological Science

APK 2105C Applied Human Physiology with Laboratory 4 Credits
Grading Scheme: Letter Grade
Introduces body functions at the cellular, tissue, organ and systems level with emphasis on the mechanisms of operation. Designed for students interested in pursuing study in the health professions. (B)
Prerequisite: sophomore standing or higher.
Attributes: General Education - Biological Science

APK 3110C Physiology of Exercise and Training 3 Credits
Grading Scheme: Letter Grade
Survey in exercise physiology which provides an overview of the acute and chronic responses to exercise. Particular attention is placed on understanding muscle bioenergetics and metabolism as well as the cardiopulmonary responses to exercise. Special topics include exercise testing, training technologies and exercise in hot and cold environments.
Prerequisite: APK 2105C with minimum grade of C; junior standing or above; HH-APK and HH-AT majors only.

APK 3113C Principles of Strength and Conditioning 3 Credits
Grading Scheme: Letter Grade
For individuals who are interested in becoming certified personal trainers (NSCA-PT) or certified strength and conditioning specialists (CSCS) through the National Strength and Conditioning Association.
Prerequisite: APK 2100C and APK 2105C with minimum grades of C.

APK 3163 Sport Nutrition 3 Credits
Grading Scheme: Letter Grade
Addresses the aspects of nutrition that are related to exercise performance. Emphasis is on bioenergetic systems, nutrient components, nutritional and body composition assessments, ergogenic aids and diet modifications for physically active individuals and athletes.
Prerequisite: HUN 2201 and APK 2105C.

APK 3200 Motor Learning 3 Credits
Grading Scheme: Letter Grade
Provides background for understanding, analyzing and teaching skills in sports and dance. Attention to specific aspects of psychomotor developments and theoretical models of skill acquisition.
Prerequisite: junior standing or higher and Applied Physiology and Kinesiology major.

APK 3220C Biomechanical Basis of Movement 3 Credits
Grading Scheme: Letter Grade
Fundamentals of kinematics and kinetics related to human movement. Basics of biomechanics applied to the concepts of injury prevention and performance improvement. Overview of various biomechanical data collection and analysis.
Prerequisite: junior or senior standing; APK 2100C and MAC 1140 with minimum grades of C; or PHY 2048 or PHY 2053 with minimum grade of C.

APK 3400 Introduction to Sport Psychology 3 Credits
Grading Scheme: Letter Grade
Provides an understanding of the science and practice of sport psychology from both a theoretical and applied perspective. The primary emphasis is on the educational and performance enhancement roles of the field with little discussion of clinical issues.
Prerequisite: junior or senior standing.

APK 3405 Exercise Psychology 3 Credits
Grading Scheme: Letter Grade
Introduces exercise psychology. Topics include the effects of exercise on psychological well-being, exercise adherence and intervention from both theoretical and applied perspectives.
Prerequisite: junior or senior standing.

APK 4050 Research Methods 3 Credits
Grading Scheme: Letter Grade
Provides an understanding of basic research methods and techniques used in applied physiology and kinesiology. Students will demonstrate their knowledge of the course materials by analyzing, interpreting and summarizing research writing in professional journals and by planning a research study.
Prerequisite: APK major with 3, 4, 6 or 7 classification.

APK 4101 Fundamentals of Skeletal Muscle 3 Credits
Grading Scheme: Letter Grade
Provides a comprehensive background of skeletal muscle properties, focusing on key aspects of function at the protein, cellular, and whole organ level. Major topics include muscle contraction and force generation, fuel sources and energy utilization, growth and development, and an introduction to pathology.
Prerequisite: APK 2105C with a minimum grade of B and junior standing or higher.

APK 4103C Kinetic Anatomy 3 Credits
Grading Scheme: Letter Grade
Provides in-depth coverage of musculoskeletal anatomy as a foundation for learning components of simple and complex motor tasks; emphasizes proper execution and analysis of joint movement and common exercises.
Prerequisite: APK 2100C and APK 3220C.

APK 4112 Advanced Exercise Physiology 3 Credits
Grading Scheme: Letter Grade
Provides a detailed understanding of acute and chronic responses to exercise. Particular attention is placed upon understanding the physiological responses to exercise at both a systems and cellular level. Emphasis is placed on muscle contractile properties, muscle bioenergetics and the endocrine responses to exercise.
Prerequisite: APK 3110C with minimum grade of C.

APK 4115 Neuromuscular Aspects of Exercise 3 Credits
Grading Scheme: Letter Grade
Provides an in-depth analysis of muscle structure and function; how muscles produce movement; adaptation of muscle to resistance training, endurance training and various manipulations used in rehabilitations; adaptation of muscle to disuse; and muscle responses to injury.
Prerequisite: APK 3110C with minimum grade of C.

APK 4120 Clinical Exercise Physiology 3 Credits
Grading Scheme: Letter Grade
Provides an understanding of recent advances in exercise physiology and exercise prescription for clinical populations. Particular attention is placed upon the study of acute and chronic responses to exercise in patients with cardiac, pulmonary, metabolic and musculoskeletal diseases.
Prerequisite: APK 3110C with minimum grade of C.

APK 4125C Physical Fitness Assessment and Exercise Prescription 3 Credits
Grading Scheme: Letter Grade
Techniques of assessing physical fitness using traditional and state of the art processes. Techniques of prescribing exercise programs based upon assessments of physical parameters. Supervised practical lab experiences in assessment and prescription in a clinical setting.
Prerequisite: APK 3110C with minimum grade of C and Health and Human Performance major.

APK 4144 Movement Neuroscience 3 Credits
Grading Scheme: Letter Grade
Covers both anatomical and physiological aspects of movement-related components of the nervous system from a functional perspective. Topics include: neuronal signaling; somatosensation; proprioception; nociception; vision and eye movements; audition; lower vs. upper motor neurons; cortical, basal ganglia and cerebellar regulation of movement; and posture.
Prerequisite: (APK 2100C and APK 2105C with minimum grades of C) and (sophomore standing or higher) and Applied Physiology and Kinesiology major.

APK 4912 Undergraduate Research 0-5 Credits
Grading Scheme: S/U
Provides APK students the opportunity for involvement in supervised research experiences. "Research" is operationally defined here as mentored, but self-directed work that enables students to explore an issue of interest to them and to communicate the results to others. (S-U)

APK 4940C Internship 12 Credits
Grading Scheme: S/U
Internship in applied physiology and kinesiology. (S-U)
Prerequisite: department permission.

APK 4943 Teaching Experience in APK 1 Credit
Grading Scheme: S/U
Experience teaching as an undergraduate assistant; responsibilities meet the needs of the particular course and instructor, including, but not limited to, giving short lectures, holding study/discussion sections, grading, and helping with exam/quiz/assignment preparation and proctoring. (S-U)
Prerequisite: instructor permission.

ATR 2010C Prevention and Care of Athletic Injuries 3 Credits
Grading Scheme: Letter Grade
Prevention of athletic injuries, including protective equipment, safe facilities and proper supervision of practice and contests. Recognition, referral and follow-up of injuries in athletics. Legal implications of athletic training.
Prerequisite: APK 2100C and Athletic Training major.

ATR 3102 Principles of Athletic Training 4 Credits
Grading Scheme: Letter Grade
Provides the student with knowledge of basic principles of athletic training, including prevention, recognition and treatment of athletic injuries. Addresses the proper application of protective equipment, bracing/wrapping/taping techniques utilized by athletic trainers and introduces emergency management skills appropriate for sport.
Prerequisite: admission to the athletic training specialization.

ATR 4112C Emergency Management of Athletic Trauma 3 Credits
Grading Scheme: Letter Grade
Learn to recognize, assess, treat, and refer traumatic injury and acute emergent illness.
Prerequisite: Athletic Training major.

ATR 4212C Athletic Injury Assessment: Upper Extremity 4 Credits
Grading Scheme: Letter Grade
Provides background information to conduct a thorough initial evaluation of upper extremity injuries commonly sustained by the physically active population.
Prerequisite: ATR 3102 with minimum grade of C and admission to the athletic training specialization.

ATR 4213C Athlete Injury Assessment: Lower Extremity 4 Credits
Grading Scheme: Letter Grade
Provides background information to conduct a thorough initial evaluation of lower extremity injuries commonly sustained by the physically active population.
Prerequisite: ATR 4212C with minimum grade of C.

ATR 4302C Therapeutic Modalities in Athletic Training 4 Credits
Grading Scheme: Letter Grade
Introduces physiological principles, concepts and operational procedures of contemporary therapeutic modalities as they relate to the care and treatment of athletic injuries.
Prerequisite: ATR 3102 with minimum grade of C and admission to the athletic training specialization.

ATR 4314C Rehabilitation Techniques in Athletic Training 4 Credits
Grading Scheme: Letter Grade
Introduces the concepts and principles of a comprehensive rehabilitation program including determination of therapeutic goals and objectives, selection of therapeutic exercises, methods of evaluating and recording rehabilitation progress, development of criteria for progress and return to competition and the physiological effects of trauma/wound healing and inactivity/immobilization.
Prerequisite: ATR 4302C with minimum grade of C.

ATR 4315 Functional Sport Conditioning 3 Credits
Grading Scheme: Letter Grade
Enhances knowledge in design and implementation of functional exercise techniques as it relates to injury rehabilitation. Nutritional considerations for the injured athlete and proper design of the pre and post event meal planning for optimal performance and recovery are also covered.
Prerequisite: ATR 4314C.

ATR 4432 Clinical Pathology and Pharmacology 3 Credits
Grading Scheme: Letter Grade
Provides a thorough understanding of injury, illness and/or disease of various body systems; addresses specific understanding of medical diagnostics, interventions (including pharmacology) and participation considerations for the athletic population.
Prerequisite: ATR 4822 with minimum grade of C.

ATR 4512 Athletic Training Administration 3 Credits
Grading Scheme: Letter Grade
In-depth background of the standards, policies and practices of organization, supervision and administration of athletic training programs.
Prerequisite: ATR 4832 with minimum grade of C; athletic training seniors only.

ATR 4812 Athletic Training Clinical Experience 1 4 Credits
Grading Scheme: Letter Grade
Provides the student with the opportunity necessary to grow both clinically and professionally within the field of athletic training through attendance at seminars, and the integration and synthesis of cognitive and psychomotor skills learned in previous semesters.
Prerequisite: ATR 3102 with minimum grade of C and admission to the athletic training specialization.

ATR 4822 Athletic Training Clinical Experience 2 4 Credits
Grading Scheme: Letter Grade
Provides the student with the opportunity necessary to grow both clinically and professionally within the field of athletic training through attendance at seminars, and the integration and synthesis of cognitive and psychomotor skills learned in previous semesters.
Prerequisite: ATR 4812 with minimum grade of C.

ATR 4832 Athletic Training Clinical Experience 3 4 Credits
Grading Scheme: Letter Grade
Provides the student with the opportunity necessary to grow both clinically and professionally within the field of athletic training through attendance at seminars, and the integration and synthesis of cognitive and psychomotor skills learned in previous semesters.
Prerequisite: ATR 4822 with minimum grade of C.

ATR 4842 Athletic Training Clinical Experience 4 4 Credits
Grading Scheme: Letter Grade
Provides the student with the opportunity necessary to grow both clinically and professionally within the field of athletic training through attendance at seminars, and the integration and synthesis of cognitive and psychomotor skills learned in previous semesters.
Prerequisite: ATR 4832 with minimum grade of C.

BSC 3096 Human Physiology 3 Credits
Grading Scheme: Letter Grade
Functioning of human tissues, organs and organ systems, emphasizing the physical, chemical and mechanistic bases of normal physiology and the integrated function of the human body. Also introduces pathophysiological changes associated with human diseases.
Prerequisite: (CHM 1031 or CHM 2046 or CHM 2047) and BSC 2011.

HLP 4933 Variable International Topics 1-6 Credits
Grading Scheme: Letter Grade
Provides the opportunity to study in a wide range of cultural settings.

PET 4905C Variable Topics in Exercise and Sport Sciences 1-5 Credits
Grading Scheme: Letter Grade
Offered upon request to meet students' special interests that are not adequately provided in other courses.
Prerequisite: department chair permission.

PET 4948C Practicum in Exercise and Sport Sciences 1-5 Credits
Grading Scheme: Letter Grade
Practical experience in such specialty areas as adult fitness programs, health clubs, exercise testing laboratories, clinical laboratories and athletic training rooms. May include senior thesis with oral defense.
Prerequisite: department chair permission.

SPM 4154 Administration of Sport and Physical Activity 3 Credits
Grading Scheme: Letter Grade
Managerial principles and techniques applicable to a variety of sport, physical education and fitness settings.
Prerequisite: MAN 3025 and SPM 2000 with minimum grades of C.

Arabic | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

ABT 3130 Arabic Literary Heritage 1 3 Credits
Grading Scheme: Letter Grade
A survey of classical Arabic literature in translation. Covers pre-Islamic poetry and early Islamic poetry, Omayyad, Abbasid and Andalusian literatures. All readings in English. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

ABT 3500 Arabic Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to Arabic culture with special reference to art, literature, religion and society. Emphasis on Arab contributions to philosophy, medicine, mathematics and architecture. All readings in English. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

ABT 4131 The Qur'an as Literature 3 Credits
Grading Scheme: Letter Grade
Approaches the Qur'an from a literary standpoint by examining its history, structure, style, major themes, and impact on Arabic literature, Islamic thought, and Muslim culture.
Prerequisite: ARA 1131 or ABT 3500 or REL 2000 or REL 2362 or REL 4361 or senior standing.

ARA 1130 Beginning Arabic 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading, and writing.

ARA 1131 Beginning Arabic 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: ARA 1130 with minimum grade of C or the equivalent.

ARA 2220 Intermediate Arabic 1 4 Credits
Grading Scheme: Letter Grade
Continuation of the study of standard Arabic language. Develops reading, writing, listening and speaking skills and helps with comprehension of written and audio texts. Students can use their knowledge of the Arabic language to clearly express their personal views in a meaningful and well-structured language.
Prerequisite: ARA 1131 with minimum grade of C or the equivalent.

ARA 2221 Intermediate Arabic 2 4 Credits
Grading Scheme: Letter Grade
Continues the study of Arabic language at the intermediate level. Emphasizes developing reading comprehension, writing, listening and speaking, and vocabulary and grammar.
Prerequisite: ARA 1131 with minimum grade of C or the equivalent.

ARA 2240 Spoken Arabic 3 Credits
Grading Scheme: Letter Grade
Develops listening and conversational skills at an intermediate level of proficiency. Focuses on a middle variety of Arabic known as Educated Spoken Arabic that enables successful communication with educated Arab speakers from virtually any country in the Arab world.
Prerequisite: ARA 1131.

ARA 3241 Spoken Arabic 3 Credits
Grading Scheme: Letter Grade
Develops listening and conversational skills at an intermediate level of proficiency. Focuses on a middle variety of Arabic known as Educated Spoken Arabic that enables successful communication with educated Arab speakers from virtually any country in the Arab world.
Prerequisite: ARA 2221.

ARA 3410 Advanced Arabic 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: ARA 2221 with minimum grade of C or the equivalent.

ARA 3411 Advanced Arabic 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study.
Prerequisite: ARA 3410 with minimum grade of C or the equivalent.

ARA 3510 The Arab Woman 3 Credits
Grading Scheme: Letter Grade
Examines the role and status of Arab women in their respective societies; specifically examines the internal dynamic of Arab culture that influences the role of the Arab woman. (H and N OR S and N) (WR)
Attributes: General Education - Humanities, General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ARA 4400 Fourth Year Arabic 1 3 Credits
Grading Scheme: Letter Grade
Development to an advanced level of speaking, hearing, reading and writing of spoken and mass communication and literary Arabic. (H and N)
Prerequisite: ARA 3411 or the equivalent.
Attributes: General Education - Humanities, General Education - International

ARA 4401 Fourth Year Arabic 2 3 Credits
Grading Scheme: Letter Grade
Continuation of ARA 4400. Development of a more advanced level of speaking, hearing, reading and writing of spoken and mass communication and literary Arabic. (H and N)
Prerequisite: ARA 4400 or the equivalent.
Attributes: General Education - Humanities, General Education - International

ARA 4420 Arabic through the Texts 3 Credits
Grading Scheme: Letter Grade
For advanced students of Arabic. Teaches the more complex grammar, idiomatic expressions and sophisticated stylistic forms of the language. Required for the Arabic minor.
Prerequisite: ARA 3411 or the equivalent.

ARA 4822 Arabic Sociolinguistics 3 Credits
Grading Scheme: Letter Grade
Focus on the relationship between language and society in the Arab world. An examination of the different varieties of Arabic and the relation between linguistic variation and other social variables, such as ethnicity, religion, urbanization, social class, gender, power and ideology.
Prerequisite: ARA 1131 or LIN 3010.

ARA 4850 Structure of Standard Arabic 3 Credits
Grading Scheme: Letter Grade
Describes and analyzes the sound system, word structure, and sentence structure of Arabic.
Prerequisite: ARA 1131 or LIN 3010.

ARA 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course.
Prerequisite: instructor permission.

ARA 4930 Special Topics 3 Credits
Grading Scheme: Letter Grade
One of the core courses in the Middle Eastern languages and cultures major offered through interdisciplinary studies. Also useful for students in linguistics, religion, Arabic, Hebrew and Jewish studies.
Prerequisite: one year of Hebrew or equivalent, one year of Arabic or equivalent, LIN 3010 or equivalent, or instructor permission.

ARA 4956 Overseas Studies 1 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

Architecture

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

ARC 1000 Architecture and Humanity 3 Credits
Grading Scheme: Letter Grade
Introduces the issues and opportunities derived through actively engaging the sustainable and ethical design of the environments in which we live: urban, landscape and architectural. (H)
Attributes: General Education - Humanities

ARC 1301 Architectural Design 1 4 Credits
Grading Scheme: Letter Grade
Introduces interfacing communication skills with design thinking. Emphasizes awareness and understanding of basic organization ideas in design.
Prerequisite: (architecture or interior design or landscape architecture major) or college advising center permission.

ARC 1302 Architectural Design 2 4 Credits
Grading Scheme: Letter Grade
An analysis course that uses the study of architectural precedent as a foundation for the development of communication and design skills.
Prerequisite: ARC 1301.

ARC 1701 Architectural History 1 3 Credits
Grading Scheme: Letter Grade
General survey of social, political, and cultural factors that have generated art and architecture. (H and N) (WR)
Prerequisite: architecture major.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

ARC 1702 Architectural History 2 3 Credits
Grading Scheme: Letter Grade
A survey of the history of architecture from 1400 to 1850. Lectures examine the effects of social, political, material, technological and cultural forces on the design and construction of the built environment and explore the role of the architect in civil society. Emphasizes the theoretical positions of the architects and architectural schools. (H and N)
Prerequisite: architecture major.
Corequisite: ARC 1301 or ARC 4072.
Attributes: General Education - Humanities, General Education - International

ARC 1720 Survey of Architecture History 3 Credits
Grading Scheme: Letter Grade
A survey of monumental buildings and their embodied architectural intentions from the pre-historical ages to the current age. Demonstrating interactive relationships between form and idea in architecture throughout history across cultural and regional differences. (H and N) (WR)
Prerequisite: non-architecture majors only.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

ARC 2180 Introduction to Digital Architecture 3 Credits
Grading Scheme: Letter Grade
Introduces computer-aided design programs currently utilized by professional practices.
Prerequisite: architecture majors only;
Corequisite: ARC 2303 or ARC 4071.

ARC 2201 Theory of Architecture 1 3 Credits
Grading Scheme: Letter Grade
Critical study of the processes that influence the form and image of architecture with an emphasis on an understanding of ordering principles and concepts of how space and architecture systems are interrelated. (H)
Prerequisite: architecture major.
Corequisite: ARC 2303 or ARC 4071.
Attributes: General Education - Humanities

ARC 2303 Architectural Design 3 5 Credits
Grading Scheme: Letter Grade
Studio course explores the influence of history and culture on design decision-making.
Prerequisite: ARC 1302.

ARC 2304 Architectural Design 4 5 Credits
Grading Scheme: Letter Grade
Explores context as a generator of architectural design ideas. Contemporary cultural influences also are examined and incorporated in the design process.
Prerequisite: ARC 2303.

ARC 2461 Materials and Methods of Construction 1 3 Credits
Grading Scheme: Letter Grade
The nature of materials used in construction. Criteria for evaluation and selection related to design decision-making.
Prerequisite: architecture major.
Corequisite: ARC 2304.

ARC 3181 Advanced Topics in Digital Architecture 3 Credits
Grading Scheme: Letter Grade
Continued investigation of computer-aided design programs currently utilized by professional practices.
Prerequisite: ARC 2180.

ARC 3291 Special Studies in Architecture 1-6 Credits
Grading Scheme: Letter Grade
Special studies in architecture adjusted to individual needs of undergraduate students.
Prerequisite: completion of lower division in architecture and recommendation of advisor.

ARC 3320 Architectural Design 5 6 Credits
Grading Scheme: Letter Grade
Architectural design and its relationship to regional contectural influences are investigated through a range of projects which vary in scale and complexity.
Prerequisite: ARC 2304.

ARC 3321 Architectural Design 6 6 Credits
Grading Scheme: Letter Grade
Architectural design within a large scale urban context. Theory, methodology and evolution of urban form in response to social, cultural, economic and technological forces.
Prerequisite: ARC 3320.

ARC 3463 Materials and Methods of Construction 2 3 Credits
Grading Scheme: Letter Grade
Methods of assembling and selecting materials; detailed systems of construction are investigated.
Corequisite: ARC 4323 or ARC 4073.

ARC 3503 Introduction to Architectural Structures 3 Credits
Grading Scheme: Letter Grade
A foundation course that investigates principles of structural behavior in withstanding gravity and lateral forces; consider structural layout, load distribution and preliminary design techniques; and examines contemporary structural systems through case studies emphasizing trussed, framed, funicular and shell structural systems.
Prerequisite: PHY 2004 or PHY 2053;
Corequisite: ARC 3320 or ARC 4073.

ARC 3610 Environmental Technology 1 3 Credits
Grading Scheme: Letter Grade
Principles and practices relating to control of the thermal/atmospheric environment and to plumbing in buildings.
Corequisite: ARC 3321 or ARC 4074.

ARC 3743 Architectural History 3 3 Credits
Grading Scheme: Letter Grade
A survey of the history of architecture from 1850 to present. Lectures examine the effects of social, political, material, technological and cultural forces on the design and construction of the built environment and explore the role of the architect in civil society. Emphasizes the theoretical positions of the architects and architectural schools.
Prerequisite: architecture major.
Corequisite: ARC 3320.

ARC 3880 Sustainable Architecture 3 Credits
Grading Scheme: Letter Grade
How environmentalism informs architectural discourses and how discourses on the built environment and urbanism impact environmentalism globally.
Prerequisite: junior standing or higher or instructor permission.

ARC 4071 Core Studio 1 6 Credits
Grading Scheme: Letter Grade
Introduces a variety of design techniques, including design theory, three-dimensional development and spatial relationships.

ARC 4072 Core Studio 2 6 Credits
Grading Scheme: Letter Grade
Continuation of core studio sequence with increased emphasis on manipulation of architectural elements.
Prerequisite: ARC 4071.

ARC 4073 Core Studio 3 6 Credits
Grading Scheme: Letter Grade
Continuation of core studio sequence with studio projects related to program development, structural integration, energy analysis and introduction to mechanical integration systems.
Prerequisite: ARC 4072.

ARC 4074 Core Studio 4 6 Credits
Grading Scheme: Letter Grade
Continuation of core studio sequence with increased emphasis on complex building types.
Prerequisite: ARC 4073.

ARC 4220 Architectural Theory 2 3 Credits
Grading Scheme: Letter Grade
Investigates the theoretical, historical and ideological ideas in architecture that took place during the early decades of the twentieth century.
Corequisite: ARC 4322 or ARC 6241.

ARC 4310C Building Information Modeling 3 Credits
Grading Scheme: Letter Grade
Emerging technology in building information modeling (BIM) in the context of architectural design development and documentation. Theoretical and technological evolution of different typologies of software with hands-on experience designing and modeling with BIM software.
Prerequisite: ARC 2180.

ARC 4322 Architectural Design 7 6 Credits
Grading Scheme: Letter Grade
Emphasizes the notion of control over architectural design processes needed to arrive at solutions that respond to needs through appropriate use of program development and construction technology. Course emphasizes the complete building as a final product and focuses on the urban and suburban housing project.
Prerequisite: ARC 3321.

ARC 4323 Architectural Design 8 6 Credits
Grading Scheme: Letter Grade
Architecture designs focus on architectural detail and articulation. An investigation of landscape provides the context for this study.
Prerequisite: ARC 4322.

ARC 4511 Structural Modeling 3 Credits
Grading Scheme: Letter Grade
Introduces the fundamentals of structural modeling including building information modeling (BIM), digital design, and approximate systems analysis and detailing for architectural structures. Students will learn how to efficiently implement building information modeling to organize, coordinate and communicate information to convey data necessary for structural systems.
Prerequisite: ARC 3503.

ARC 4620 Environmental Technology 2 3 Credits
Grading Scheme: Letter Grade
Fundamentals of architectural lighting, acoustics, electrical power distribution and building communications.
Corequisite: ARC 4322 or ARC 6241.

ARC 4684 LEED for Sustainable Design and Construction 3 Credits
Grading Scheme: Letter Grade
Campus projects demonstrate design and construction of high performance buildings and application of green building technologies. Economics and market development associated with the application of green building rating systems, with a focus on LEED. Successful completion helps prepare for LEED V4 Green Associate exam credentials.
Prerequisite: junior standing or higher.

ARC 4882 Vernacular Architecture and Sustainability 3 Credits
Grading Scheme: Letter Grade
Investigates vernacular architecture in the discourse of architectural sustainability with an emphasis on the way that vernacular architecture has been constructed, represented and consumed in the environmental histories of architecture.
Prerequisite: junior standing or higher or instructor permission.

ARC 4930 Special Topics Seminar in Architecture 1-6 Credits
Grading Scheme: Letter Grade
Miscellaneous topics in architecture and related fields.
Prerequisite: junior standing or higher or instructor permission.

ARC 4941 Architectural Education 2 Credits
Grading Scheme: Letter Grade
Provides an awareness of curriculum development, project preparation, program/project presentation, constructive criticism and evaluation techniques.
Prerequisite: ARC 3321.

ARC 4950 Vicenza Institute of Architecture: Italian Language and Culture 3 Credits
Grading Scheme: Letter Grade
Taught through the Vicenza Institute of Architecture, located in Vicenza, Italy. It is intended for architecture students participating in the VIA program. The course establishes a basic level of competency in Italian language and culture as it relates to the architectural goals of the VIA program.
Prerequisite: ARC 3321.

ARC 4951 Vicenza Institute of Architecture: Architectural Design Studio 6 Credits
Grading Scheme: Letter Grade
Architectural design examining the regional contextual relationships found in northern Italy as well as central and southern Europe. Design exercises focus on the immediate relationships of European urban space, ideas of building program and the potential development of architectural details and material systems.
Prerequisite: ARC 3321.

ARC 4952 Vicenza Institute of Architecture: Analytical Sketching 3 Credits
Grading Scheme: Letter Grade
Introduces sketching as an analytical skill in understanding constructed space within the context of Italy's Veneto region as well as central and southern Europe.
Prerequisite: ARC 3321.

Art and Art History

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

All studio art and photography courses, except where noted as non-major courses, are restricted to majors in the School of Art and Art History. Non-majors wishing to register for 2000-level courses need to consult with the undergraduate advisor to determine possibilities of enrolling in art courses. Each semester the school offers non-major courses in ceramics and some other media.

Courses

ARE 2045 Introduction to Teaching Art 3 Credits
Grading Scheme: Letter Grade
Overview of the art-teaching field. Study of rationales for teaching art, contemporary art teaching practices, community art experiences and alternative career options.

ARE 2456 Digital Media in Art Education 3 Credits
Grading Scheme: Letter Grade
Introduces pre-service art teachers to computer applications in the fields of art and art education. Can substitute for EME 2040.
Prerequisite: art education major.

ARE 4242 Teaching Art: the Study of Practice 3 Credits
Grading Scheme: Letter Grade
Studies art-teaching practices in the public schools. Emphasizes art curriculum, planning, art instructional strategies, art room management and methods of evaluation in art.
Prerequisite: junior standing or higher and art education major.

ARE 4243 Principles of Teaching Art 3 Credits
Grading Scheme: Letter Grade
Investigates the contemporary issues in art, education and society that impact teaching art in public schools. Theoretical perspectives and practical strategies are explored for developing content and teaching approaches. (H) (WR)
Prerequisite: junior standing or higher and art education major.
Attributes: General Education - Humanities, Satisfies 4000 Words of Writing Requirement

ARE 4314 Art Education for Elementary Schools 2-3 Credits
Grading Scheme: Letter Grade
Helps the preparing classroom teacher develop a basic knowledge of art and the teaching of art at the elementary level.
Prerequisite: second-semester standing in the elementary ProTeach program;
Corequisite: ProTeach field experience in the fall and spring semesters.

ARE 4934C Student Teaching Seminar 1 Credit
Grading Scheme: Letter Grade
Addresses various issues and problems associated with student teaching with an emphasis on teaching methods, classroom management and assessment as they arise in actual classroom practice.
Prerequisite: senior standing and art major.
Corequisite: ARE 4940.

ARE 4940 Student Teaching in Art Education 4-12 Credits
Grading Scheme: S/U
Student-teaching classroom experience in art.
Prerequisite: minimum 2.5 GPA and art education major.

ARH 1003 Masterpieces of Art 3 Credits
Grading Scheme: Letter Grade
Provides an appreciation and foundation in visual literacy and introduces students to the special character of the visual arts and to a vocabulary critical to analysis and interpretation of the masterworks of art.

ARH 2000 Art Appreciation: American Diversity and Global Arts 3 Credits
Grading Scheme: Letter Grade
Introduces the visual arts from a global perspective with an emphasis on diversity in the United States. (H and D)
Attributes: General Education - Diversity, General Education - Humanities

ARH 2002 Introduction to Art: the Artistic Experience 3 Credits
Grading Scheme: Letter Grade
Introduces the artistic experience through the examination of different ideas, approaches and purposes of art. Not counted toward the major. (H and N)
Attributes: General Education - Humanities, General Education - International

ARH 2050 Introduction to the Principles and History of Art 1 3 Credits
Grading Scheme: Letter Grade
Principles of art and relation of styles to cultural context. Introductory study of art and architecture from ancient times to the end of the Middle Ages. (H and N)
Attributes: General Education - Humanities, General Education - International

ARH 2051 Introduction to the Principles and History of Art 2 3 Credits
Grading Scheme: Letter Grade
Continuation of ARH 2050. Art and architecture from the Renaissance to the present. (H and N)
Attributes: General Education - Humanities, General Education - International

ARH 2500 Non-Western Art 3 Credits
Grading Scheme: Letter Grade
The visual arts seen in the cultural context of Sub-Saharan Africa, the Pacific, Native America, India, China and Japan; prehistoric to recent. (H and N)
Attributes: General Education - Humanities, General Education - International

ARH 2531 Introduction to Asian Art 3 Credits
Grading Scheme: Letter Grade
Introduces asian art through selected topics, monuments, and specimens of its fine arts and material culture. Also introduces the distinctive artistic traditions of China, Korea, Japan, and India, as well as their historical background, interaction and innovation, similarities and differences, to reach a better understanding of asian art.

ARH 2613 Introduction to Latin American Art 3 Credits
Grading Scheme: Letter Grade
Introduces the art of ancient, colonial, and modern Latin America, tracing artistic legacies over 4000 years. Begins with overview of ancient art of Mesoamerica and the Andes, followed by consideration of art of the colonial era. Then addresses art of modern and contemporary Latin America, including Brazil and the Caribbean.

ARH 2930 Special Topics in Art History 3 Credits
Grading Scheme: Letter Grade
Special topics in art history. (H)
Attributes: General Education - Humanities

ARH 3115 Egyptian and Near Eastern Art 3 Credits
Grading Scheme: Letter Grade
The art and architecture of Egypt and the Near East from the beginning of civilization until the Persian period. (H and N)
Prerequisite: ARH 2050 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 3130 Greek Art 3 Credits
Grading Scheme: Letter Grade
The art and architecture of ancient Crete and Greece through the Hellenistic age. (H and N)
Prerequisite: (ARH 2050 or CLA 3700) and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 3171 Etruscan and Roman Art 3 Credits
Grading Scheme: Letter Grade
The art and architecture of the Italian peninsula from the Etruscan period through the Roman Empire. (H and N)
Prerequisite: (ARH 2050 or CLA 3700) and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 3357 Global Baroque Art 3 Credits
Grading Scheme: Letter Grade
Studies Baroque and Rococo art from a global perspective, considering how and why the style appeared in so many regions (even those with no Roman and/or Renaissance heritage) and what its distinct meanings were. Also examines the origins of the concepts of the Baroque and Rococo.
Prerequisite: ARH 2050 or ARH 2051.

ARH 3412 Art in the Age of Revolution 3 Credits
Grading Scheme: Letter Grade
Topics in the late 18th and early 19th century European art, including Neo-Classicism and Romanticism. Works of art are considered in the cultural, political, social and aesthetic contexts in which they were made. Emphasizes the politics of style during this period of revolution and resection. (H) (WR)
Prerequisite: ARH 2051 or art major or art history minor.
Attributes: General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ARH 3413 The Beginnings of Modernism 3 Credits
Grading Scheme: Letter Grade
The visual arts in Europe in the second half of the 19th century, focusing on the emergence of an avant-garde and formulation of a modernist aesthetic with reference to industrialized, urban culture, especially in Paris. Addresses Realism, Impressionism and Post-Impressionism. (H) (WR)
Prerequisite: ARH 2051 or art major or art history minor.
Attributes: General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ARH 3513 Art, Culture and Power in Africa 3 Credits
Grading Scheme: Letter Grade
Explores the many ways in which power operates through objects in Africa. It examines the symbolic and literal power of royal regalia; the religious/spiritual power of objects used in ritual contexts; and the power that surrounds objects as they are transformed into commodities in international art markets. (WR)

ARH 3522 Contemporary African Art 3 Credits
Grading Scheme: Letter Grade
Examines contemporary African artistic production and its reception in international markets.
Prerequisite: (School of Art + Art History major or minor) or instructor permission.

ARH 3523 Clothing and Textiles in Africa 3 Credits
Grading Scheme: Letter Grade
Examines the techniques, styles, and cultural contexts of textiles and other elements of dress in Africa, past and present.
Prerequisite: (School of Art + Art History major or minor) or instructor permission.

ARH 3525 The Arts of West Africa 3 Credits
Grading Scheme: Letter Grade
A survey of the traditional arts of the Western Sudan and the Guinea coast. (H and N)
Attributes: General Education - Humanities, General Education - International

ARH 3526 The Arts of Central Africa 3 Credits
Grading Scheme: Letter Grade
Surveys the traditional arts of the equatorial forests, the savannahs to the south of them and portions of Eastern and Southern Africa. (H and N)
Attributes: General Education - Humanities, General Education - International

ARH 3552 Chinese Art and Archaeology 2000 BCE 3 Credits
Grading Scheme: Letter Grade
Art and material culture from the Neolithic to the Tang Dynasty: palaces and tombs, religious art and the rise of new media and technologies. (H and N)
Attributes: General Education - Humanities, General Education - International

ARH 3555 Late Imperial and Modern Chinese Art, 1907 - present 3 Credits
Grading Scheme: Letter Grade
The arts and culture of China from five Dynasties to the present in all media, including architecture, painting, sculpture and luxury crafts. (H and N)
Attributes: General Education - Humanities, General Education - International

ARH 3562 Text and Image in Chinese Art 3 Credits
Grading Scheme: Letter Grade
Studies general art historical theories on the dialectics of text and Image into chinese art history by examining the origins, the early development, and the relationship between the word and image, picture and narrative, diagram and text, and other visual and verbal arts in traditional and modern china.
Prerequisite: sophomore standing or higher.

ARH 3585 The Arts of Oceania 3 Credits
Grading Scheme: Letter Grade
Surveys the visual arts of Oceania (Polynesia, Micronesia, Melanesia) within the context of the cultures that produced them. (H and N)
Attributes: General Education - Humanities, General Education - International

ARH 3610 American Art 3 Credits
Grading Scheme: Letter Grade
Architecture, painting, sculpture, and decorative arts in Anglo-America from their 17th century beginnings to the end of the 19th century. (H) (WR)
Prerequisite: ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ARH 3620 American Art 1876-1945 3 Credits
Grading Scheme: Letter Grade
Focuses on painting and sculpture as well as architecture, photography and visual culture. (H) (WR)
Prerequisite: ARH 2051 or art major or art history minor.
Attributes: General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ARH 3622 Introduction to African-American Art 4 Credits
Grading Scheme: Letter Grade
Introduces the study and appreciation of African-American art.
Prerequisite: ARH 2051 or art major or art history minor.

ARH 3631 African American Art 1600 to Present 3 Credits
Grading Scheme: Letter Grade
Survey of visual arts produced by people of African descent in North America from colonial era to present. (H and D) (WR)
Prerequisite: ARH 2051 or art major or art history minor.
Attributes: General Education - Diversity, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ARH 3652 Ancient Andean Art 3 Credits
Grading Scheme: Letter Grade
Art and architecture of Pre-Columbian Lower Central and South America focusing on the Andean Indian civilizations. (H and N)
Attributes: General Education - Humanities, General Education - International

ARH 3653 MesoAmerican Art 3 Credits
Grading Scheme: Letter Grade
Art and architecture of Pre-Columbian civilizations of Mexico and the Maya area from 3000 B.C. until the Spanish Conquest in A.D. 1521. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 2000 Words of Writing Requirement

ARH 3661 Latin American Art 3 Credits
Grading Scheme: Letter Grade
The architecture, painting, sculpture and important minor arts of colonial and modern Latin America. (H and N)
Prerequisite: ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 3664 Colonial Art of New Spain 3 Credits
Grading Scheme: Letter Grade
Examines the colonial art of Mexico and other territories within the Spanish Viceroyalty of New Spain. Focused on the viceregal period (1535-1821), the course also considers art from the periods of European contact and Spanish conquest and concludes with art from the independence period.
Prerequisite: ARH 2051 and (art major or art history minor).

ARH 3665 Colonial Andean Art 3 Credits
Grading Scheme: Letter Grade
Examines the colonial art of Peru, Ecuador, Bolivia and other territories within the Spanish Viceroyalty of Peru. Focused on the viceregal period (1542-1824), the course also considers art from the periods of European contact and Spanish conquest and concludes with art from the independence period.
Prerequisite: ARH 2051 and (art major or art history minor).

ARH 3678 Modern and Contemporary Art from Latin America 3 Credits
Grading Scheme: Letter Grade
Introduces the modern and contemporary art of latin america with topics such as the emergence and establishment of a modern canon, experimentations in surrealism, neo-concretism, conceptual art, and performance.
Prerequisite: sophomore standing or higher.

ARH 3727 History of American Illustration 3 Credits
Grading Scheme: Letter Grade
Introduces the history of illustration in America from the colonial period to the present. In addition to presenting major illustrators, the course provides artistic, technological and cultural contexts for understanding the functions and meaning of illustration at different historical moments.
Prerequisite: ARH 2051 recommended.

ARH 3800 Criticism of Art 3 Credits
Grading Scheme: Letter Grade
Reviews principal theories in the history of criticism. Analysis and evaluation of works of art. Problems in the criticism of contemporary art. Required for art history majors. (H)
Prerequisite: (ARH 2050 and ARH 2051) and (art major or art history minor).
Attributes: General Education - Humanities

ARH 3871 Gender, Representation and the Visual Arts, 1600-1900 3 Credits
Grading Scheme: Letter Grade
Considers historical and theoretical issues posed for visual media by attention to issues of gender, with particular emphasis on women artists. (H and D) (WR)
Prerequisite: ARH 2051 or instructor permission.
Attributes: General Education - Diversity, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ARH 4135 Greek Sculpture 3 Credits
Grading Scheme: Letter Grade
Greek sculpture from its beginnings in the Geometric period through the Hellenistic period. (H and N)
Prerequisite: (ARH 2050 or CLA 3700) and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4200 Early Medieval and Byzantine Art 3 Credits
Grading Scheme: Letter Grade
The art and architecture of Europe and the Mediterranean region from approximately the 4th to the 14th centuries A.D. (H and N)
Prerequisite: ARH 2050 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4251 Romanesque and Gothic Art 3 Credits
Grading Scheme: Letter Grade
Art and architecture of Europe during the Romanesque and Gothic periods. (H and N)
Prerequisite: ARH 2050 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4304 Italian Renaissance Architecture 3 Credits
Grading Scheme: Letter Grade
The architecture of the Italian Renaissance from the mid-14th century through the mid-16th century. (H and N)
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4310 Early Renaissance Art in Italy 3 Credits
Grading Scheme: Letter Grade
Italian art from 1200 to 1500. Emphasis upon painting and sculpture. (H and N)
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4312 Late Renaissance Art in Italy 3 Credits
Grading Scheme: Letter Grade
Continuation of ARH 4310. Italian art and architecture from 1460 to 1590. Emphasis on painting and sculpture. (H and N)
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4331 Renaissance Art in Northern Europe 3 Credits
Grading Scheme: Letter Grade
Sources and development of late 14th, 15th and 16th century art outside Italy. Emphasis on painting and prints. (H and N)
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4332 The Religious Image in the Renaissance and Reformation 3 Credits
Grading Scheme: Letter Grade
Art produced for devotional and liturgical use in the 15th and 16th centuries with particular attention to the period debate over the proper role for images in worship and society. Addresses altar pieces, personal devotion, pilgrimage, iconoclasm and the Reformation.
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).

ARH 4350 Baroque Art in Europe 3 Credits
Grading Scheme: Letter Grade
Continuation of ARH 4311-4331. European art and architecture in the 17th and 18th centuries. Emphasis on painting and sculpture. (H and N)
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4352 Baroque Rome 3 Credits
Grading Scheme: Letter Grade
Examines sculptors, painters and architects working in Rome between the period of 1564 and 1750 and considers the art of Bernini, Caravaggio and Borromini and many more major artists who made Rome the art capital of the world in the seventeenth century.
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).

ARH 4356 French Art of the Ancien Regime 1650-1780 3 Credits
Grading Scheme: Letter Grade
Deals with major artists, artistic movements, works and issues in art theory and criticism in Europe from the late 17th century to the 1780s. Special emphasis is given to painting in France and to the reaction against the Rococo. (H and N) (WR)
Prerequisite: ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International, Satisfies 4000 Words of Writing Requirement

ARH 4359 Eighteenth Century European Art Seminar 3 Credits
Grading Scheme: Letter Grade
Topics in 18th century European art.
Prerequisite: ARH 2051 and (art major or art history minor).

ARH 4370 European Decorative Arts 1400-1600 3 Credits
Grading Scheme: Letter Grade
Tapestry, ceramics, glass, metalwork, furniture and interior design considered in the cultural, social and economic context of Renaissance, Baroque and Enlightenment Europe. Examines role of objects in the arrangement and use of spaces designed for daily and ceremonial life.
Prerequisite: ARH 2051 and (art major or art history minor).

ARH 4450 Early Twentieth Century Art 3 Credits
Grading Scheme: Letter Grade
European and American art from Post-Impressionism to 1945. Emphasis on painting and sculpture. (H)
Prerequisite: ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities

ARH 4453 Mid-Twentieth Century Art 3 Credits
Grading Scheme: Letter Grade
Emphasis on international art from the 1940s through the 1960s. (H)
Prerequisite: ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities

ARH 4471 Late Twentieth Century Art 3 Credits
Grading Scheme: Letter Grade
Continuation of ARH 4453. Main movements in international art since about 1970 to the present. Focuses on the theory and various expressions of Post-Modernism. (H and N)
Prerequisite: ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4514 Arts of Southern Africa 3 Credits
Grading Scheme: Letter Grade
Focuses on diverse regions, time periods and genres in the visual arts in southern Africa, with particular attention to the arts of South Africa. It explores art in archaeological contexts, arts associated with indigenous cultures, art that emerged out of encounters with European cultures and contemporary arts. (H and N)

ARH 4533 Asian Monuments and Heritage Conservation 3 Credits
Grading Scheme: Letter Grade
Introduces the theories and basic issues in the studies of monuments in Asian art. Course provides a solid grounding in both the theories and practices of heritage conservation so that students can reach a better understanding of the artistic, social and political elements in the making of monuments.

ARH 4559 Archaeology of Death in Ancient China 3 Credits
Grading Scheme: Letter Grade
Explores death-ritual and burial in China's classical period (800 BCE-200 CE) from archaeology's comparative perspective. It offers an interdisciplinary approach to the religious dimensions of mortuary practices in the Warring States, Qin and Han China.

ARH 4710 History of Photography 3 Credits
Grading Scheme: Letter Grade
Surveys major technical, stylistic, and critical directions in photography from the 19th century to the present. (H and N)
Prerequisite: ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4744 History of Art Film and Video 3 Credits
Grading Scheme: Letter Grade
Introduces the history of art, film and video art practices in the 20th century.
Prerequisite: ARH 2051.

ARH 4882 Art and Colonialism: Focus on Africa 3 Credits
Grading Scheme: Letter Grade
What does visual art reveal about European and African experiences of colonial rule? Along with the famous history of African arts influence on European modern art, this course investigates the African response to colonial power and addresses contemporary manifestations of this history in the postcolonial museum worlds of Europe and Africa.
Prerequisite: ARH 2500 or (junior status or higher with an Art History major or African Studies minor).

ARH 4905 Individual Study 1-3 Credits
Grading Scheme: Letter Grade
With consent of faculty, students can take this course under special circumstances: student needs a specific course for the degree and the class in not offered or student (senior) wishes to explore an area of inquiry in greater depth after completing all 3000-level courses in their major.
Prerequisite: art or art history major and department permission.

ARH 4930 Special Topics in Art History 1-3 Credits
Grading Scheme: Letter Grade
Rotating special topics in art history.
Prerequisite: ARH 2050 or ARH 2051 and (art major or art history minor).

ARH 4931 Art History Seminar 3 Credits
Grading Scheme: Letter Grade
In-depth discussion of selected field of art, either a period and area or a topic. Analysis of art-historical writings through class presentations and written papers. Offered by members of the art history faculty on alternating basis.
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).

ARH 4940 Internship 3 Credits
Grading Scheme: S/U
Supervised practical experience with an art, graphic design or museum facility according to an approved program. Special seminar and evaluation sessions with faculty advisor and art facility manager. (S-U)
Prerequisite: arrangement with art advisor and chair and dean permission.

ART 1010C Non-Major Photography: Imaging Society, Culture and Diversity in America 3 Credits
Grading Scheme: Letter Grade
In this course for non-majors, students use photographs they make to spur discussions about how photography shapes U.S. culture, diversity, and history. Through hands-on projects, critical readings, online lectures, quizzes and small-group discussions, students develop skills to create and understand engaging and conceptually rich photography.

ART 1803C Workshop for Art Research and Practice: WARP 6 Credits
Grading Scheme: Letter Grade
Interdisciplinary, team-taught introductory course pairing studio experiences in a wide variety of media with introduction to concepts, theories and practices in contemporary art. In-depth exploration of creative processes, artistic integrity and the nature of artistic meaning.
Prerequisite: art major or art education major or visual art studies major or graphic design major.

ART 2013C Space Studio 3 Credits
Grading Scheme: Letter Grade
A project-based studio foundation course for spatial investigations where students will explore methods for defining space, conceptualizing space, three-dimensional design strategies, form development and an overview of concepts that shape the contemporary artists understandings of form and space.
Prerequisite: art major.

ART 2030C Introduction to Painting 3 Credits
Grading Scheme: Letter Grade
Investigates the visual language of painting and introduces the fine arts major to techniques and concepts relevant to painting including a comprehensive study of lights and darks, color.
Prerequisite: ART 1803C.

ART 2305C Perceptual Drawing 3 Credits
Grading Scheme: Letter Grade
Introduces descriptive drawing. Basic theories of observation and depiction including perspective and chiaroscuro.
Prerequisite: ART 1803C.

ART 2330C Figure Drawing 1 3 Credits
Grading Scheme: Letter Grade
Introduces drawing the male and female figure from a live model using a variety of art materials, techniques and artistic approaches.
Prerequisite: ART 2305C.

ART 2353C Drawing Studio 3 Credits
Grading Scheme: Letter Grade
Development of drawing, design, philosophical and critical skills for making observational and expressive works in drawing media.
Prerequisite: art major.

ART 2374C Drawing: Movement and Motion 3 Credits
Grading Scheme: Letter Grade
Introduces the principles of visual movement in 2D art as well as the depiction of figurative gesture in drawing.
Prerequisite: ART 2305C.

ART 2401C Printmaking: Color Theory 3 Credits
Grading Scheme: Letter Grade
Basic monoprint technique, methods and materials. Color theory as applied to printmaking and other art media.
Prerequisite: ART 1803C.

ART 2468C Printmaking: Figure Ground 3 Credits
Grading Scheme: Letter Grade
Explores figure ground theory as related to 2D visual design and picture making. Basic skills in relief printing and Linocut-woodcut.
Prerequisite: ART 1803C.

ART 2500C Painting: Investigations in Black and White 3 Credits
Grading Scheme: Letter Grade
The organization of lights and darks in design and pictorial applications. Basic painting techniques in oil, acrylic and gouache.
Prerequisite: ART 1803C.

ART 2501C Painting: Investigations in Color 3 Credits
Grading Scheme: Letter Grade
Investigates color interaction and its role in pictorial composition. Exploration of color and light as well as the expressive use of color in painting.
Prerequisite: ART 1803C.

ART 2503C Painting from Observation 3 Credits
Grading Scheme: Letter Grade
Exercises and projects in seeing and painting. Emphasis on depicting of form, space and light.
Prerequisite: ART 1803C.

ART 2620C Net Art 3 Credits
Grading Scheme: Letter Grade
Explores practical and theoretical issues related to the Internet as a medium for making art rather than as a tool for delivering information. Emphasizes the creation of dynamic and interactive experiences on the web that integrate video, graphics, animation, sound, image, and typography.
Prerequisite: art/history or graphic design major within the School of Art and Art History with a major code of ART, GRD, EAR, HYA, or VAS.

ART 2680C Time Studio 3 Credits
Grading Scheme: Letter Grade
Introduces the concepts of time-based, participatory art practice through animation, video, sound, performance, and installation. Students create artwork that explores linear and non-linear narrative, seriality, context, embodiment, virtuality, and networks. Aesthetic, technical, historical, and conceptual issues within the context of contemporary art and theory will be addressed through lectures, demonstrations, exercises, projects, screenings, research, and readings.
Prerequisite: Major code of ART, GRD, VAS, EAR, or HYA.

ART 2701C Sculpture: Shaping Form and Space 3 Credits
Grading Scheme: Letter Grade
Investigates the co-shaping of form and space in full three dimensions. Emphasis on additive and subtractive processes.
Prerequisite: ART 1803C.

ART 2702C Sculpture: Gravity and Buoyancy 3 Credits
Grading Scheme: Letter Grade
Based on objects that float, inflate or suspend; examines weight, mass, and space as artistic phenomena and includes instruction in appropriate construction techniques.
Prerequisite: ART 1803C.

ART 2704C Figurative Ceramics 3 Credits
Grading Scheme: Letter Grade
Introduces figure sculpture and life modeling using fired clay; techniques include building, surfacing and firing. Includes perceptual studies from model and concept development, centering on using the figure as a vehicle for personal expression. Class format includes slide and video presentations, a life model sequence and critiques.
Prerequisite: ART 2757C.

ART 2750C Ceramics for Non-Majors 3 Credits
Grading Scheme: Letter Grade
A studio based introductory course that teaches ceramic art through techniques of handforming.

ART 2752C Throwing: Skills and Concepts 3 Credits
Grading Scheme: Letter Grade
Introduces wheel throwing, pottery from, functional design and aesthetics.
Prerequisite: ART 2757C.

ART 2757C Ceramics: 3D Concepts 3 Credits
Grading Scheme: Letter Grade
Introduces three-dimensional form and design concepts using fired clay; includes hand-forming techniques, an introduction to glazing (fired color) and electric kiln firing.
Prerequisite: ART 1803C.

ART 2770C Ceramics for Non-Majors: Wheel Throwing 3 Credits
Grading Scheme: Letter Grade
Introduces the making of functional vessels on the potters wheel as expressive art. Focuses on throwing skills and three-dimensional design concepts related to the functional ceramic vessel and creative problem-solving. Provided technical information supports an understanding of forming, surfacing, glazing, and firing.

ART 2773C Ceramics: Skills and Concepts - Sculpture 3 Credits
Grading Scheme: Letter Grade
Introduces ceramic sculpture, sculpture techniques and processes using fired clay supported by design and idea development. Modeling and carving, slab fabrication and coil-building, color and surfacing through glazing and firing support, creative expression and communication of personal ideas.

ART 2777C Ceramics Skills and Concepts: Vessel 3 Credits
Grading Scheme: Letter Grade
Introduces conceptualization and expression of personal ideas using the vessel as an art form: functional design and aesthetics, formation and communication of personal ideas through design, clay as a material, technical handbuilding and wheel throwing forming methods, surfacing methods, and firing of work.

ART 2825C Perceptual Studio 3 Credits
Grading Scheme: Letter Grade
Questions and expands an understanding of seeing and how seeing is informed by physical, psychological, and ideological systems. Emphasizes experimentation and research focused on contemporary art and 2D design practices and theories to strengthen visual organization through hand, lens, and digital processes.
Prerequisite: ART 1803C and School of Art + Art History major.

ART 2930C Special Topics in Art 3 Credits
Grading Scheme: Letter Grade
Rotating special topics in studio art and studio practice.
Prerequisite: ART 1803C.

ART 2934C Special Topics in Studio Art for Non-Art Majors 3 Credits
Grading Scheme: Letter Grade
Rotating topics in introductory studio art and studio practice for non-art majors. This course cannot count toward degree requirements for any majors in the School of Art + Art History.
Prerequisite: non-art major or non-art history major.

ART 2936C Rotating Topics in Drawing for Non-Art Majors 3 Credits
Grading Scheme: Letter Grade
Use dynamic drawing techniques and approaches to explore contemporary art and connections across disciplines.
Prerequisite: non-art major or non-art history major.

ART 3043C Interdisciplinary Mixed Media: Painting, Drawing, Photo 3 Credits
Grading Scheme: Letter Grade
Inter-media mixed media dissolves the normal boundaries between painting, drawing, and photography. Students identify a core idea or sensibility that is the essence of who they are as an artist and then are required to work in at least the three media: painting, drawing, and photography.
Prerequisite: junior level ART, GRD, EAR, CPH, or VAS major.

ART 3310C Color Drawing 3 Credits
Grading Scheme: Letter Grade
Explores color theory and color usages in drawing. Emphasis on techniques, strategies and materials.
Prerequisite: ART 2305C and ART 2374C and art major of junior standing or higher.

ART 3311C Thematic Projects in Drawing 3 Credits
Grading Scheme: Letter Grade
Intermediate-level emphasis of conceptual strategies and image construction through the lens of themes in film, literature, and art using color drawing media.
Prerequisite: Junior level ART, GRD, EAR, CPH, or VAS major.

ART 3332C Figure Drawing 2 3 Credits
Grading Scheme: Letter Grade
Comprehensive study of the figure from observation of live models. Study of anatomy, composition and conceptual strategies.
Prerequisite: ART 2330C and junior-level art major.

ART 3380C Experimental Drawing 3 Credits
Grading Scheme: Letter Grade
Exposure to unfamiliar materials and techniques both antique and modern. Invention strategies and contemporary motivating factors explored.
Prerequisite: ART 2305C and ART 2374C and art major of junior standing or higher.

ART 3381C Sketch Journal: Uses and Development 3 Credits
Grading Scheme: Letter Grade
Historic and contemporary uses of sketch journals. Exploration of notation, studies, invention and conceptualization in sketchbook drawing techniques.
Prerequisite: ART 2305C, ART 2374C and junior-level art major.

ART 3420C Printmaking: Lithography 3 Credits
Grading Scheme: Letter Grade
Studio and print shop training in lithographic technique, including plate and stone methods. Emphasis on continued conceptual development.
Prerequisite: ART 2401C and ART 2468C and art major of junior standing or higher.

ART 3433C Screen Printing 3 Credits
Grading Scheme: Letter Grade
Explores screen printing techniques utilizing drawn and photo-generated stencil processes.
Prerequisite: ART 2401C and ART 2468C and art major of junior standing or higher.

ART 3442C Printmaking: Intaglio 3 Credits
Grading Scheme: Letter Grade
Studio training in this basic printmaking process including dry point, etching and color intaglio. Continued emphasis on artistic inquiry.
Prerequisite: ART 2401C and ART 2468C and art major of junior standing or higher.

ART 3462C Print Photo Intaglio 3 Credits
Grading Scheme: Letter Grade
Application of film and digital photography to printmaking media utilizing intaglio printmaking.
Prerequisite: ART 2401C and ART 2468C and art major of junior standing or higher.

ART 3504C Painting: Structure and Transformation 3 Credits
Grading Scheme: Letter Grade
Examines form and structure theory in painting and its application in development of idea and painterly process.
Prerequisite: two of three from ART 2500C or ART 2501C or ART 2503C and art major of junior standing or higher.

ART 3521C Site-Specific Painting Studio 3 Credits
Grading Scheme: Letter Grade
Explores the relationship between painting and architecture as well as developments in the field of unheroic or provisional painting.
Prerequisite: junior level ART, GRD, EAR, CPH, or VAS major with at least one course in painting.

ART 3522C Painting: Exploring the Series 3 Credits
Grading Scheme: Letter Grade
Development of idea through the creation of series, groups and suites.
Prerequisite: two of three from ART 2500C or ART 2501C or ART 2503C and art major of junior standing or higher.

ART 3560C Figure Painting 3 Credits
Grading Scheme: Letter Grade
The human figure serves as a formal and expressive motif as well as a departure point for creating individual painting statements.
Prerequisite: two of three from ART 2500C or ART 2501C or ART 2503C and art major of junior standing or higher.

ART 3561C Projects in Painting: Experiments in Media 3 Credits
Grading Scheme: Letter Grade
Students contract with their instructor to create a body of work in painting, experimenting with materials and methods related to disciplines in painting.
Prerequisite: (two of three from ART 2500C or ART 2501C or ART 2503C) or instructor permission.

ART 3615C Digital Art and Animation 2 3 Credits
Grading Scheme: Letter Grade
Explores 3D modeling techniques and tools; Students will learn advanced animation techniques using 3D software that builds upon skills acquired from Digital Art and Animation 1.
Prerequisite: ART 3616C.

ART 3616C Digital Art and Animation 1 3 Credits
Grading Scheme: Letter Grade
Explores time-based computer art including animation, interactive and Internet-based projects.
Prerequisite: DIG 2131C and DIG 2282C.

ART 3711C Sculpture: Materials and Methods 3 Credits
Grading Scheme: Letter Grade
Problems in sculptural form and composition with work in plaster, clay, metal and other materials.
Prerequisite: (ART 2701C or ART 2702C) and art major of junior standing or higher.

ART 3712C Sculpture: Concepts and Strategies 3 Credits
Grading Scheme: Letter Grade
Continues the emphasis on sculptural materials such as mixed media, metal fabrication, and casting.
Prerequisite: (ART 2701C or ART 2702C) and art major of junior standing or higher.

ART 3730C Machine Sculpture 3 Credits
Grading Scheme: Letter Grade
Explores the boundaries of physical and electronic media including the use of sound, light, computers and motion in sculpture.
Prerequisite: ART 3842C or a 3000-level sculpture course.

ART 3734C Sculpture Metals 3 Credits
Grading Scheme: Letter Grade

ART 3764C Ceramic Sculpture 1 3 Credits
Grading Scheme: Letter Grade
Investigates the intermediate level of technical, conceptual and aesthetic issues involved with sculpting using ceramic materials. Students will learn to use sculptural form to convey ideas based on contemporary culture. Projects focus on the use of low-fire materials, image development and glaze electric fired to enhance sculpture.
Prerequisite: ART 2757C.

ART 3768C Ceramic Sculpture 2 3 Credits
Grading Scheme: Letter Grade
Investigates the intermediate level in experimental sculpture processes using fired clay, plaster and latex mold-making as well as technical and aesthetic explorations with large scale works. Historical and contemporary precedents of ceramic sculpture are presented. Concept development and expression through sculptural form are core elements in the course.
Prerequisite: ART 2757C.

ART 3783C Ceramic Design 3 Credits
Grading Scheme: Letter Grade
Investigates the intermediate level of technical, aesthetic, and conceptual issues in ceramics. Study the formulation of clay and preparation of glaze materials with an emphasis on personalized expression through the ceramic design process.
Prerequisite: ART 2752C and ART 2757C.

ART 3784C Vessel Aesthetic 2 3 Credits
Grading Scheme: Letter Grade
Investigates the intermediate level of technical, aesthetic and conceptual issues in pottery. Students study the formulation and use of color in glaze materials. Emphasis on personalized expression through vessel surface techniques.
Prerequisite: ART 2752C and ART 2757C.

ART 3807C Interdisciplinary Studio 3 Credits
Grading Scheme: Letter Grade
Critical thinking, problem solving, and creative activity in collaboration and cross media art-making.
Prerequisite: art major of junior standing or higher.

ART 3842C Performance and Installation 3 Credits
Grading Scheme: Letter Grade
Explores the complex relationships among object, body, site, space, and architecture using various visual media in the creation of installation and performance art.
Prerequisite: ART 2701C or ART 2702C.

ART 3857C PROFESSIONAL PRACTICES 3 Credits
Grading Scheme: Letter Grade
An introduction to creative professional practices including research proposals, exhibition planning, website development, graduate school applications and more. Integrating on campus resources, students will be introduced to the skills sets necessary for developing a sustainable career in visual art.
Prerequisite: (ART, EAR, or VAS major) and junior standing or instructor permission.

ART 3870C Reinterpreting Global Masterpieces: Recontextualizing Masterworks from the Harn Museum of Art 3 Credits
Grading Scheme: Letter Grade
Studies masterpieces from the harn through observation and research investigating intensions, meanings, and technical processes. Examines why and how various cultures developed unique styles and approaches. Students reinterpret global masterpieces through choice of media and processes to create new artworks inspired by existing cultural objects.
Prerequisite: must be able to take 3000 level studio courses.

ART 3930C Special Topics in Studio Art for Non-Art Majors 3 Credits
Grading Scheme: Letter Grade
Rotating topics in studio art and studio practice for juniors and seniors not majoring in art. This course cannot count toward any major within the School of Art and Art History.
Prerequisite: junior or senior level.

ART 3959C Video Art 3 Credits
Grading Scheme: Letter Grade
Explores video with an emphasis on editing and building a personal vocabulary through the electronic image.
Prerequisite: DIG 2131C and DIG 2282C and digital media major of junior standing or higher.

ART 4312C Advanced Drawing 6 Credits
Grading Scheme: Letter Grade
Emphasizes individual and creative expression.
Prerequisite: ART 3310C and ART 3332C and ART 3380C and ART 3381C.

ART 4402C Advanced Printmaking 3-6 Credits
Grading Scheme: Letter Grade
Advanced problems in creative printmaking.
Prerequisite: ART 3442C, ART 3420C and ART 3443C.

ART 4505C Advanced Painting 6 Credits
Grading Scheme: Letter Grade
Emphasizes individual creative expression.
Prerequisite: ART 3522C and ART 3560C and ART 3561C.

ART 4612C Digital Media Workshop 3 Credits
Grading Scheme: Letter Grade
Bridges the study of digital media and broadly envisioned professional practices in the field. Emphasis on portfolio and project development for transition to advanced study or professional, expressive or applied practices in integrated media.
Prerequisite: ART 2620C and DIG 4527C.

ART 4630C Video Art: Advanced Projects 3 Credits
Grading Scheme: Letter Grade
Focuses on the completion of larger scale student-directed projects with a special emphasis on pre-production planning and advanced editing techniques.
Prerequisite: ART 3959C.

ART 4631C Computer Art: Advanced Projects 6 Credits
Grading Scheme: Letter Grade
Advanced work in computer-mediated art, including animation and interactive works in both the physical and virtual domain, with special emphasis on completion of larger scale student-directed projects.

ART 4639C Advanced Experiments in Art and Technology 3 Credits
Grading Scheme: Letter Grade
Special topics course that explores new forms of digital media production. Topics reflect emerging forms of digital media.
Prerequisite: DIG 3525C and DIG 3526C and digital media major of senior standing.

ART 4642C Digital Fabrication 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary studio combines in-depth analysis of the role of the physical object in diverse conceptual art practices with project-based experimentation using rapid prototyping and manufacturing technologies.
Prerequisite: (DIG 2131C and School of Art + Art History major of junior standing or higher) or instructor permission.

ART 4645C Sensors and Electronics-Based Art 3 Credits
Grading Scheme: Letter Grade
Physical computing HCI (human computer interaction) explores how devices respond to and interact with human physical action. Students will create artwork that explores physical interfaces beyond mouse/keyboard/screen interactions through the use of microcontrollers and sensors.
Prerequisite: ART 3133C, junior-level digital media major and/or instructor permission.

ART 4710C Advanced Sculpture 6 Credits
Grading Scheme: Letter Grade
Advanced problems in sculptural form with development of processes and techniques.
Prerequisite: ART 3711C and ART 3712C.

ART 4760C Advanced Ceramics 3-6 Credits
Grading Scheme: Letter Grade
Focuses on advanced technical and creative concepts with emphasis on developing personal work and professional practices preparation.
Prerequisite: ART 3783C and ART 3764C and ART 3768C and ART 3784C.

ART 4848C Installation Using Digital Processes 3 Credits
Grading Scheme: Letter Grade
Explores site specificity and intervention in 3D space through installation, using digital media to understand concepts such as sequence, narration, scoring, interactivity, motion and recursion.
Prerequisite: DIG 4527C and ART 3959C

ART 4883C Making and Meaning 3 Credits
Grading Scheme: Letter Grade
Explores the creation of art in combination with non-art related research. Develop a deeper connection with created artwork and discover how the act of making can reveal both intentions and underlying motives.
Prerequisite: School of Art + Art History major of junior standing or higher.

ART 4905C Individual Study 1-3 Credits
Grading Scheme: Letter Grade
With consent of faculty, students can take this course for special circumstances: student needs a specific course for the degree and the class is not offered or student (senior) wishes to explore an area of inquiry in greater depth after completing all 3000-level courses in their major.
Prerequisite: senior-level art major and arrangement by and permission of the art advisor and director.

ART 4930C Special Topics in Studio Practice 1-6 Credits
Grading Scheme: Letter Grade
Rotating special topics in studio art and studio practice.

ART 4940 Internship 3 Credits
Grading Scheme: S/U
Supervised practical experience with an art, graphic design or museum facility according to an approved program. Special seminar and evaluation sessions with faculty advisor and art facility manager. (S-U)
Prerequisite: arrangement with art advisor and chair and dean permission.

ART 4955C Senior Project 1-3 Credits
Grading Scheme: Letter Grade
Visual verification of artistic qualifications for BFA degree. Preparations and activities (exhibition, portfolio, installation, etc.) to be determined in consultation with faculty advisor.
Prerequisite: senior-level art major.

DIG 1000C Workshop in Fundamental Digital Technologies 3 Credits
Grading Scheme: Letter Grade
Introduces the language and applications of digital media. Expect to achieve competency level in the basic use of technology through application and process.
Prerequisite: Art major.

DIG 2131C Digital Imaging 3 Credits
Grading Scheme: Letter Grade
Emphasizes the aesthetic and conceptual practices of image making using digital media. An exploration of a range of processes, concepts and theories including scanning, printing, image manipulation and color correction. Course emphasizes color theory and its application to image construction and expression.
Prerequisite: ART 1803C.

DIG 2282C Time-based Media 3 Credits
Grading Scheme: Letter Grade
Introduces the basic practices of time-based media, including animation and video with emphasis on narrative, planning of action and sequencing of images. Fundamental components include basic production techniques, project planning, linear and nonlinear narrative and the integration of various media to explore the possibilities of time-based experiences.
Prerequisite: ART 1803C.

DIG 2930 Special Topics: Foundations of Digital Culture 3 Credits
Grading Scheme: Letter Grade
In-depth examination of the technological and cultural underpinnings that shape current electronic media including video games, the internet, computer-animated movies, and virtual reality.

DIG 3020 Foundations of Digital Culture 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary overview of the technological and cultural developments that continue to shape the modern world. Student research covers topics including telecommunications, digital and analog technologies, video games, computer-generated entertainment and the rise of social media. (WR)
Prerequisite: (Digital Arts and Sciences BA or BS major) or instructor permission.
Attributes: Satisfies 4000 Words of Writing Requirement

DIG 3110C Imaging Processes 3 Credits
Grading Scheme: Letter Grade

DIG 3481C Imaging Processes 3 Credits
Grading Scheme: Letter Grade

DIG 3482C Interactivity/Coding 3 Credits
Grading Scheme: Letter Grade

GRA 2111C Visual Methods and Processes 3 Credits
Grading Scheme: Letter Grade
Emphasizes design process, methodologies and communication theories that foster the relationship between content and meaning. Course includes experiences in visual analysis, symbol conceptualization, figure-ground, spatial concepts and compositional dynamics and an introduction to semiotics, design principles and design methods.
Prerequisite: ART 1803C or provisional Graphic Design certificate students.

GRA 2208C Typography 1: Letterform 3 Credits
Grading Scheme: Letter Grade
Explores the expressive potential of letter form as visual art. Emphasizes shaping and spacing forms into meaningful communications.
Prerequisite: ART 1803C or provisional Graphic Design certificate students.

GRA 3138C Graphic Design Practice 3 Credits
Grading Scheme: Letter Grade
Create and integrate concept, form, processes, and technologies in order to develop systems-based, practice-oriented solutions to a range of problems. The results of research and design work will be synthesized to develop a final presentation and portfolio.
Prerequisite: GRA 2111C and GRA 2208C with grades of B or better and enrollment in the Graphic Design certificate.

GRA 3193C Design: Visualization and Creativity 3 Credits
Grading Scheme: Letter Grade
Creative thinking and form making in design. Emphasizes visual invention and compositional dynamics.
Prerequisite: GRA 2111 and GRA 2202C and Graphics Design major of junior standing or higher.

GRA 3194C Technologies and Processes 3 Credits
Grading Scheme: Letter Grade
Training in tools and materials of graphic design, including printing processes, computer and video processes, photographic and electronic media.
Prerequisite: GRA 3138C and GRA 3193C and and Graphics Design major of junior standing or higher.

GRA 3198C Image, Form and Meaning 3 Credits
Grading Scheme: Letter Grade
Emphasizes development of concepts, metaphors, narratives and visual translations. Projects in line art, screen process, photography, and color.
Prerequisite: GRA 3138C and GRA 3193C and Graphics Design major of junior standing or higher.

GRA 3209C Typography 2: Composition 3 Credits
Grading Scheme: Letter Grade
Explores the visual organization and integration of typographic information with images in printed documents. Emphasizes nomenclature, mechanical processes, design, and historical contexts.
Prerequisite: GRA 2111C and GRA 2208C and Graphics Design major of junior standing or higher.

GRA 3816C Design Thinking 3 Credits
Grading Scheme: Letter Grade
Design thinking is interdisciplinary, human-centered, collaborative, contextual, and iterative. It offers an exceptionally dynamic framework to approach idea generation, creative investigation, and divergent thinking. Learn principles of design thinking through exercises, brainstorming, sketching, case studies, and presentations.
Prerequisite: GRA 2111C and GRA 2208C with minimum grades of B and enrollment in the Graphic Design certificate.

GRA 4186C Senior Design Studio 3 Credits
Grading Scheme: Letter Grade
Emphasizes self-directed design, research and study leading to the development and realization of complex design projects. Public dissemination of final projects.
Prerequisite: GRA 4196C and GRA 4197C.

GRA 4187C Design Workshop 3 Credits
Grading Scheme: Letter Grade
Bridges the study of design and professional practice. Emphasis on practical graphic design issues applied to real-world experiences.
Prerequisite: GRA 4196C and GRA 4197C.

GRA 4196C Design: Ideas and Styles 3 Credits
Grading Scheme: Letter Grade
Special emphasis on history and theories of graphic design including innovations and contemporary issues.
Prerequisite: GRA 3198C and GRA 3194C.

GRA 4197C Graphic Design: Visual Systems in Design 3 Credits
Grading Scheme: Letter Grade
Self-directed complex and integrated design projects.
Prerequisite: GRA 3198C and GRA 3194C.

GRA 4923C Design and Professional Practice Studio 3 Credits
Grading Scheme: Letter Grade
Advanced study in graphic design and professional practices of design in business and multidisciplinary learning experiences. Students repeating this course will have demonstrated excellence during the first semester, been selected for their leadership abilities and assigned advanced roles in the studio environment.
Prerequisite: advanced standing and portfolio review.

GRA 4953C Senior Project in Design 1 Credit
Grading Scheme: Letter Grade
Emphasizes the development of a personal website to showcase the student's professional portfolio, design philosophy and credentials. Students will be required to launch a website with a proprietary URL on a commercial server prior to completing the course. Students are evaluated on the appropriateness and completion level of the website as well as their conceptual, formal and technical development.
Corequisite: GRA 4187C and GRA 4186C.

HUM 2500 A Taste of the Arts: Behind the Scenes 3 Credits
Grading Scheme: Letter Grade
Online course develops basic art vocabulary and aesthetic tools in visual arts, theatre, dance and music. View rehearsals and installations and learn about the back-stage preparations involved in creating arts exhibitions and performances from actors, artists, designers, producers, and other arts professionals. For non-arts majors who want to develop cultural awareness that will accentuate any major and career. (H)
Attributes: General Education - Humanities

HUM 2510 Design for Understanding the Visual and Performing Arts 3 Credits
Grading Scheme: Letter Grade
Analysis of the basic elements and concepts of the visual arts, music, theater, and the dance to establish a fundamental base from which decisions can be made about what one sees, hears, and feels. Understanding, appreciation, and literacy in the arts are developed and are strengthened by participating in arts experiences. (H) (WR)
Attributes: General Education - Humanities, Satisfies 2000 Words of Writing Requirement

HUM 2511 Basic Fundamentals and Skills in the Visual Arts and Music 3 Credits
Grading Scheme: Letter Grade
Fundamentals of visual arts and of music needed by the classroom teacher for teaching art and music in the elementary school. Students with sufficient background may exempt the course by examination.

IDC 3500C Programming for Artists 3 Credits
Grading Scheme: Letter Grade
Introduces understanding interactivity as an art form, providing an in-depth exploration of the tools, theories and applications of interactive media as they are used for creative inquiry, research and production.
Prerequisite: MAC 1147 and digital media major of junior standing or higher.

PGY 2101C Visual Literacy: Photography 3 Credits
Grading Scheme: Letter Grade
Introduces the practices, theories and histories of photography. Acquisition of basic darkroom skills and key elements of contemporary theoretical approaches to visual art. (H)
Prerequisite: ART 1803C.
Attributes: General Education - Humanities

PGY 2441C Photography: Images, Order and Idea 3 Credits
Grading Scheme: Letter Grade
Use of non-traditional light-sensitive processes to explore aspects of image manipulation.
Prerequisite: PGY 2101C.

PGY 2442C Photography: Figure and Ground 3 Credits
Grading Scheme: Letter Grade
Light and shape aspects of photographic images; theories of space and 2D composition; and basic camera and darkroom techniques.
Prerequisite: PGY 2101C.

PGY 3410C Photography: Color 3 Credits
Grading Scheme: Letter Grade
Consideration of the use and technique of color photography. Covers cameras, films, and darkroom developing techniques.
Prerequisite: PGY 2441C, PGY 2442C, and junior-level art major.

PGY 3444C Photography: Black and White 3 Credits
Grading Scheme: Letter Grade
Fundamentals of photography, operation of the camera and developing, printing, and enlarging. Principles of photography as a means of personal expression.
Prerequisite: PGY 2441C, PGY 2442C, and junior-level art major.

PGY 3820C Photography: Digital 3 Credits
Grading Scheme: Letter Grade
Studio methods and techniques in creating still images using electronic digital technology.
Prerequisite: DIG 2131C, PGY 2441C, PGY 2442C, and junior-level art major.

PGY 4156C Large Format Photography 3 Credits
Grading Scheme: Letter Grade
Advanced study in artificial lighting, color balancing of mixed light sources, view camera techniques to control distortion, focus and painting with light.
Prerequisite: PGY 2441C and PGY 2442C.

PGY 4420C Advanced Photography 6 Credits
Grading Scheme: Letter Grade
Use of the camera as a medium of individual creative expression. Experimental projects in black and white and color photography.
Prerequisite: PGY 3410C, PGY 3421C, PGY 3444C, PGY 3820C, and senior-level art major.

Astronomy and Astrophysics

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

AST 1002 Discovering the Universe 3 Credits
Grading Scheme: Letter Grade
An elementary, largely nonmathematical survey of our universe of stars, planets and galaxies. Acquaints the student with the development of astronomy as a human activity with how we know as well as what we know. Primarily for those not majoring in physical science or mathematics. (P)
Attributes: General Education - Physical Science

AST 1022L Astronomy Laboratory 1 Credit
Grading Scheme: Letter Grade
Introduces experimental work in astronomy including scheduled laboratory exercises during the day in the teaching lab and evening observational astronomy at the on campus teaching observatory. (P)
Attributes: General Education - Physical Science

AST 2000 Cosmology 3 Credits
Grading Scheme: Letter Grade
Overview of cosmology, the study of the large-scale structure and history of the universe, in four components: ideas about the universe as a whole predating the twentieth century; ideas from twentieth century physics that impact modern cosmology; stars, black holes, galaxies and quasars as probes of the universe; and the Hot Big Bang Model.

AST 2003 Introduction to the Solar System 3 Credits
Grading Scheme: Letter Grade
Survey of the solar system including the sun, planets, satellites, asteroids, meteorites and comets. (P)
Prerequisite: simple algebra.
Attributes: General Education - Physical Science

AST 2037 Life in the Universe 3 Credits
Grading Scheme: Letter Grade
The origin of life on Earth and the possibility of life elsewhere. A multidisciplinary approach is followed. Conditions for life to form and the likelihood that such conditions may exist elsewhere in the universe are discussed. Also considered are schemes proposed for the search for extraterrestrial intelligence (SETI). (P)
Attributes: General Education - Physical Science

AST 3018 Astronomy and Astrophysics 1 3 Credits
Grading Scheme: Letter Grade
First part of a two part sequence. Survey of astronomy and astrophysics for physical science, engineering or mathematics majors. Covers gravitation, orbits and tides; the Moon's phases and eclipses; light and spectra; the solar system; and a few historical milestones. (P)
Prerequisite: (PHY 2048 or PHY 2060) and (MAC 2311 or MAC 3472).
Corequisite: PHY 2049.
Attributes: General Education - Physical Science

AST 3019 Astronomy and Astrophysics 2 3 Credits
Grading Scheme: Letter Grade
Second part of a two part sequence. Stellar distance determination; spectral classification, magnitudes and the nature of color indices; binary stars; the interstellar medium; the Sun as a star; stellar interiors; star formation and stellar evolution; the structure of the Milky Way; the kinds of galaxies and their properties; groups, clusters and superclusters of galaxies; and cosmology. (P)
Prerequisite: (PHY 2048 or PHY 2060) and (MAC 2311 or MAC 3472).
Corequisite: PHY 2049.
Attributes: General Education - Physical Science

AST 3043 History of Astronomy through Newton 3 Credits
Grading Scheme: Letter Grade
Astronomy from its beginnings through Newton. Emphasis is on the works of Ptolemy, Copernicus, Kepler, Galileo and Newton. (H or P, and N)
Attributes: General Education - Humanities, General Education - International, General Education - Physical Science

AST 3722C Techniques of Observational Astronomy 1 3 Credits
Grading Scheme: Letter Grade
First part of the AST 3722C-4723C sequence. The fundamental principles and techniques used in planning, making, reducing and analyzing modern astronomical observations. Includes classroom lectures and discussion, indoor laboratory work, data analysis and outdoor night observations. Introduces numerical treatment of observations, CCD imaging, digital imaging processing and astronomical spectroscopy.
Corequisite: AST 3018.

AST 4211 Essentials of Astrophysics 3 Credits
Grading Scheme: Letter Grade
Foundation and background on topics in astrophysics, including broadening mechanisms of spectral lines, equations of state of gases, thermodynamics, radiation sources, radiative transport, kinetic theory of gases and stellar structure.
Prerequisite: AST 3018, AST 3019 and a working knowledge of calculus.

AST 4300 Galactic Astronomy 3 Credits
Grading Scheme: Letter Grade
Intensive introduction to the fundamental properties of the Milky Way and its system of satellite galaxies. Course is intended for astronomy majors and natural science students. Topics include the ages, chemical abundances and kinematics of field stars and star clusters, the properties of the interstellar medium and its role in star formation, the dark matter content and models of the Milky Way's physical structure.
Prerequisite: AST 3018, AST 3019 and a working knowledge of calculus.

AST 4402 Galaxies and Cosmology 3 Credits
Grading Scheme: Letter Grade
An investigation into the properties of galaxies and their distribution in space. Some cosmological implications of this distribution are discussed. Intended for astronomy majors and advanced students of other mathematical sciences.
Prerequisite: AST 3018, AST 3019 and a working knowledge of calculus.

AST 4723C Techniques of Observational Astronomy 2 3 Credits
Grading Scheme: Letter Grade
Second part of a sequence. The fundamental principles and techniques used in planning, making, reducing, and analyzing modern astronomical observations. Includes classroom lectures and discussion, indoor laboratory work, data analysis, and outdoor night observations. Introduces numerical treatment of observations, CCD imaging, digital imaging processing, and astronomical spectroscopy.
Prerequisite: AST 3722C.

AST 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Assigned reading or research for qualified undergraduates.
Prerequisite: AST 3018 and AST 3019, or two years of college physics and instructor permission.

AST 4911 Undergraduate Research in Astronomy 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Astronomy. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Astronomy.

AST 4930 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Lecture, seminar or laboratory sessions covering selected topics of current interest in astronomy.
Prerequisite: instructor permission.

Biochemistry and Molecular Biology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

The department offers a full program of courses for the undergraduate student preparing for advanced degrees in the biological, agricultural and life sciences and for professional school.

The major course offering, BCH 4024, is designed to provide students with a general background in biochemistry and molecular biology for professional school or advanced studies in specialized areas.

The department offers an independent interdisciplinary major in biochemistry and molecular biology, in cooperation with the College of Liberal Arts and Sciences, to those undergraduates with strong interests in cell processes, molecular biology, metabolism or physical or structural biochemistry (See Biochemistry and Molecular Biology entry under Majors).

Undergraduate students in other majors who are interested in a research career in biochemistry and molecular biology should take BCH 4024 as early in their undergraduate program as possible. Students interested in supplementing these didactic course offerings with laboratory research experience can register for BMS 4905 after obtaining department approval. Further information on such research opportunities, advanced study and early admission can be obtained from the undergraduate studies coordinator.

Students with interests in medicine or other health sciences may also choose to enroll in the interdisciplinary major program and should

contact the assistant dean for preprofessional education in the College of Medicine at the end of the sophomore year or at the beginning of the junior year.

Courses

BCH 4024 Introduction to Biochemistry and Molecular Biology 4 Credits
Grading Scheme: Letter Grade
Introduces physical biochemistry, intermediary metabolism and molecular biology. Topics include a survey of structure, chemistry and function of proteins and nucleic acids, enzyme kinetics and mechanisms of catalysis; a survey of the pathways of carbohydrate, lipid and nitrogen metabolism and their metabolic control; regulation of gene expression at the level of DNA, RNA and protein synthesis.
Prerequisite: CHM 2211 or CHM 3217, or instructor permission.

BCH 4905 Biochemistry Senior Research 1-7 Credits
Grading Scheme: Letter Grade
Laboratory investigations of biochemical problems of current interest. Senior thesis required.
Prerequisite: CHM 2210, CHM 2211, and CHM 3217 or the equivalent, BCH 4024 and interdisciplinary major status.

Biology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

BOT 4650 Plant Symbiosis 3 Credits
Grading Scheme: Letter Grade
Examines the crucial role of symbioses in shaping the diversity of life. Topics include generalities among symbioses, origins and establishment of symbioses, and coevolution and cospeciation, as well as specifics of well-studied exemplars of bacterial, fungal, animal, and plant symbioses with plants.
Prerequisite: BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of C.

BOT 4851C Medical and Forensic Plant Biology 3 Credits
Grading Scheme: Letter Grade
Basic plant taxonomy, systematics, phytochemicals, uses of plants by animals and various human cultures, and in the development of modern medicine and drug development. Uses of plant tissues and products in forensic investigations will also be discussed.
Prerequisite: BSC 2011 with a minimum grade of B.

BSC 1920 First Year Introduction: Biology at UF 1 Credit
Grading Scheme: S/U
Introduces the field of biology and the academic resources specific to this discipline at UF. Discussions of the nature and practice of scientific research, laboratory safety, advising and career resources for biologists. Developments in the instructor's area of expertise are used to illustrate key subjects. (S-U)
Prerequisite: biology, botany, zoology or exploring science and engineering majors only.

BSC 2005 Biological Sciences 3 Credits
Grading Scheme: Letter Grade
A comprehensive introduction to living systems, including the scientific basis of biology, cell structure and function, genetic mechanisms, animal and plant anatomy and physiology, and ecology and evolutionary processes. Recommended for students not majoring in the natural sciences. (B)
Attributes: General Education - Biological Science

BSC 2005L Laboratory in Biological Sciences 1 Credit
Grading Scheme: Letter Grade
A laboratory for students who need experience in a nonprofessionally oriented laboratory or for those who need laboratory experience to satisfy requirements for graduation. (B)
Attributes: General Education - Biological Science

BSC 2010 Integrated Principles of Biology 1 3 Credits
Grading Scheme: Letter Grade
General Biology Core: the first of a two-semester sequence that prepares students for advanced biological sciences courses and allied fields. Studies the origin of life systems; of biological molecules and organization of living things at the subcellular, cellular and organismic levels; and of the activities of living forms in obtaining and utilizing energy and materials in growth, maintenance and reproduction. (B)
Prerequisite: Degree-seeking students only.
Attributes: General Education - Biological Science

BSC 2010L Integrated Principles of Biology Laboratory 1 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to accompany BSC 2010. Students should register for BSC 2010 and 2010L concurrently. (B)
Prerequisite: Degree-seeking students only.
Corequisite: BSC 2010 or the equivalent.
Attributes: General Education - Biological Science

BSC 2011 Integrated Principles of Biology 2 3 Credits
Grading Scheme: Letter Grade
General Biology Core: the second of a two-semester sequence that prepares students for advanced biological sciences courses and allied fields. Examination in living things of the principles of information storage, transmission and utilization at the cell, organism and population levels; of the mechanisms of evolutionary change in the diversification of living things and their life styles; of population growth and regulation; and of energy flow and biogeochemical cycling in the biosphere. (B)
Prerequisite: BSC 2010 or the equivalent. Degree-seeking students only.
Attributes: General Education - Biological Science

BSC 2011L Integrated Principles of Biology Laboratory 2 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to accompany BSC 2011. Students should register for BSC 2011 and 2011L concurrently. (B)
Prerequisite: Degree-seeking students only.
Corequisite: BSC 2011 or the equivalent.
Attributes: General Education - Biological Science

BSC 2044L Accelerated, Integrated Principles of Biology Laboratory 2 Credits
Grading Scheme: Letter Grade
A cross-disciplinary, inquiry-based curriculum that focuses on major themes and concepts in biology with an emphasis on their physical and chemical foundations and applications in quantitative research. Equivalent to BSC 2010L and BSC 2011L.
Corequisite: BSC 2010 or the equivalent.

BSC 2862 Global Change Ecology and Sustainability 3 Credits
Grading Scheme: Letter Grade
Examines key issues in sustainability and global environmental change from an ecological perspective. Major themes include impacts of climate change on terrestrial ecological communities; feedback between the terrestrial biosphere and the atmosphere; and implications of climate change for the sustainability of natural and managed ecosystems. (B)
Attributes: General Education - Biological Science

BSC 2930 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Special topics in general biology. (B)

BSC 3096 Human Physiology 3 Credits
Grading Scheme: Letter Grade
Functioning of human tissues, organs and organ systems, emphasizing the physical, chemical and mechanistic bases of normal physiology and the integrated function of the human body. Also introduces pathophysiological changes associated with human diseases.
Prerequisite: (CHM 1031 or CHM 2046 or CHM 2047) and BSC 2011.

BSC 3307C Climate Change Biology 4 Credits
Grading Scheme: Letter Grade
Climate change and its impacts on biological communities, feedbacks from the biosphere to the climate system and human impacts on the carbon cycle. Emphasis on the response of vegetation to climate change and rising atmospheric CO2 concentrations and the role of terrestrial ecosystems in regulating climate via the carbon cycle.
Prerequisite: BSC 2011 and BSC 2011L with minimum grades of C.

BSC 3422C Principles of the Biotechnology Industry 2 Credits
Grading Scheme: Letter Grade
Introduces practices, skills, and careers in the biotechnology industry; provides an applied understanding of regulatory compliance, product development, process development, manufacture, testing, and release-for-sale of biomedical products. Learn the profiles of major departments and participate in simulated departmental roles through lecture and hands-on laboratory applications.
Prerequisite: BSC 2011 and BSC 2011L and CHM 2046 and CHM 2046L.

BSC 3911 Entering Research in Biology 1 Credit
Grading Scheme: Letter Grade
A seminar course to complement a students mentored research experience. Must be taken concurrently with research credits. Students meet weekly to share their research experiences and to get feedback on the progress of their research projects.
Corequisite: BSC 4910 or BOT 4905 or ZOO 4905 or IDH 4912

BSC 4452 Computational Tools for Research in Biology 3 Credits
Grading Scheme: Letter Grade
Introduces computational tools for research: Linux command line, Python scripting, databases. Prepares students to conduct large-scale data analysis on high performance computing resources.
Prerequisite: junior standing or higher.

BSC 4821C Evolutionary Biogeography 3 Credits
Grading Scheme: Letter Grade
How to interpret biological data sets in a biogeographical context. Topics and methods in historical and ecological biogeography are discussed.
Prerequisite: BSC 2011 and BSC 2011L with minimum grades of C.

BSC 4910 Individual Mentored Research in Biology 0-3 Credits
Grading Scheme: Letter Grade
Qualified students work with a supervising instructor on a research project in biology.
Prerequisite: BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of C.
Corequisite: BSC 3911.

BSC 4912 Advanced Mentored Research in Biology 0-4 Credits
Grading Scheme: Letter Grade
Advanced students work with a supervising instructor on a research project in biology. May be repeated for full credit.
Prerequisite: BSC 3911 and BSC 4910 with minimum grades of C.

BSC 4930 Special Topics in Biology 1-4 Credits
Grading Scheme: Letter Grade
Special topics of current interest in biology.
Prerequisite: (BSC 2011 and BSC 2011L) or equivalent with minimum grades of C.

BSC 4936 Critical Analysis of Biological Research 2 Credits
Grading Scheme: Letter Grade
Critical analysis of current life sciences research through online discussions of research seminars and peer reviewed scientific publications.
Prerequisite: senior standing in biology, botany or zoology.

BSC 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade

ISC 2400L Cross-Disciplinary Laboratory 1 3 Credits
Grading Scheme: Letter Grade
First course in a two-semester inquiry-based laboratory focusing on major themes and concepts in biology, chemistry and physics with an emphasis on their integrated applications in modern, quantitative research. Satisfies course requirements for BSC 2010L, CHM 2045L and PHY 2053L.
Prerequisite: high school algebra or equivalent. Degree-seeking students only.

ISC 2401L Cross-Disciplinary Laboratory 2 3 Credits
Grading Scheme: Letter Grade
Second course in a two-semester inquiry-based laboratory focusing on major themes and concepts in biology, chemistry and physics with an emphasis on their integrated applications in modern, quantitative research. Satisfies course requirements for BSC 2011L, CHM 2046L and PHY 2054L.
Prerequisite: ISC 2400L and MAC 1147 or equivalent;
Corequisite: BSC 2010 and CHM 2045 or CHM 2047 or CHM 2095.

ISC 3523 Integrative Biomedical Science 3 Credits
Grading Scheme: Letter Grade
Introduces biomedical science as the application of the natural sciences to medicine. Focuses on integration of biological and biochemical sciences, chemical and physical sciences, and social and behavioral sciences in the context of health. Activities promote skills in problem-solving, critical analysis, and quantitative reasoning.
Prerequisite: BSC 2011, and CHM 2211 or CHM 2213 or CHM 3217, and PHY 2048 or PHY 2053 or PHY 2060, and MAC 2311 or STA 2023, and PSY 2012 or SYG 2000.

PCB 3109 Cancer Biology 3 Credits
Grading Scheme: Letter Grade
Introduces the dysregulation of cellular processes in cancer cells including the mechanisms of action of anti-cancer drugs.

PCB 4085 Genetical Ethics 1 Credit
Grading Scheme: Letter Grade
Presentation and critical discussion of new genetic discoveries and discoveries in the context of society. Includes policy, historical, and legal perspectives. Covers responsible conduct of research.
Prerequisite: PCB 3063 or AGR 3303.

PCB 4460 Biodiversity and Ecology Field Immersion 4 Credits
Grading Scheme: Letter Grade
Five-week intensive study of the earths rich biodiversity. Emphasizes comparative study of form and function, and of complexity and diversity in phylogenetic and environmental contexts. Focuses on the study of living organisms in the laboratory and field in diverse habitats. Focal organisms and settings rotate according to instructor and semester.
Prerequisite: BSC 2010, BSC 2010L, BSC 2011 and 2011L.

PCB 4553 Population Genetics 4 Credits
Grading Scheme: Letter Grade
Population and quantitative genetics, including the theory of gene frequency dynamics within and between populations, and deterministic and stochastic processes in evolution.
Prerequisite: BSC 2011 and 2011L with minimum grades of C.

PCB 4917 Molecular Biology Lab Immersion 4 Credits
Grading Scheme: Letter Grade
Perform authentic research employing techniques of molecular biology in an intensive 5 week format. Each semester the instructor chooses a general area of research and set of techniques for projects. Design hypotheses, plan and carry out experiments, and analyze data.
Prerequisite: BSC 2010, BSC 2010L, BSC 2011 and 2011L with minimum grades of B.

ZOO 4405 Sea Turtle Biology and Conservation 3 Credits
Grading Scheme: Letter Grade
Biology of sea turtles and their roles in marine ecosystems, current major issues in sea turtle biology, and challenges in their conservation and management.
Prerequisite: BSC 2010 and BSC 2011 with a minimum grade of C.

Biomedical Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

BME 1008 Introduction to Biomedical Engineering 1 Credit
Grading Scheme: Letter Grade
Introduction to and overview of biomedical engineering. Lectures are given by faculty expert in an area of biomedical engineering. The goal is to give beginning students an appreciation for the breadth of the field and to guide them in making curriculum, major and career choices.

BME 1930 Special Topics in Biomedical Engineering 1-4 Credits
Grading Scheme: Letter Grade
Selected topics in biomedical engineering.

BME 3012 Clinically-Inspired Engineering Design 3 Credits
Grading Scheme: Letter Grade
Through exposure to real clinical problems, learn to communicate with medical professionals in order to identify unmet needs, to develop prototypes and initial concepts for clinical problems, and to critically evaluate potential solutions for clinical problems.
Prerequisite: BME 3060 with minimum grade of C;
Corequisite: BME 4409.

BME 3053C Computer Applications for BME 2 Credits
Grading Scheme: Letter Grade
Computer programming lab and lecture utilizes Matlab to analyze biomedical measurements.
Prerequisite: COP 2271 and COP 2271L or equivalent and MAC 2312, with minimum grades of C.

BME 3060 Biomedical Fundamentals 3 Credits
Grading Scheme: Letter Grade
Working specifically within the framework of biomedical engineering applications, provides the engineering fundamentals of the conservation laws of mass, energy, charge, and momentum.
Prerequisite: (CHM 2046 or CHM 2096) and MAC 2313 with minimum grades of C.
Corequisite: PHY 2049, MAP 2302, and BME 1008.

BME 3101 Biomedical Materials 3 Credits
Grading Scheme: Letter Grade
Restoration of physiological function by engineering biomaterials for biological environment, covering principles underlying use and design of medical implants and matrices/scaffolds. Strong emphasis on transition from engineering material to biological tissue, including molecular and cellular interactions with biomaterials, tissue and organ regeneration, and design of intact, biodegradable, and bioreplaceable materials.
Prerequisite: BME 3060 with minimum grade of C and CHM 3217.

BME 3234 Mechanical Behavior of Biological Tissues and Systems 3 Credits
Grading Scheme: Letter Grade
Focuses on understanding the mechanical behavior of biological tissues and systems by evaluating structure-function relationships, stress-strain relationships, and the mechanical complexity of biological systems; introduces the basics of viscoelastic behavior as it applies to biological tissues.
Prerequisite: BME 3060 with minimum grade of C and EGM 2511.

BME 3323L Cellular Engineering Laboratory 3 Credits
Grading Scheme: Letter Grade
The cellular engineering laboratory teaches the fundamentals of cell culture for use in biomedical engineering investigations. Acquire skills in cell culture, quantitative analyses, notebook keeping, report writing, and oral presentation.
Prerequisite: PCB 3713C;
Corequisite: BME 4311 or instructor permission

BME 3508 Biosignals and Systems 3 Credits
Grading Scheme: Letter Grade
Basic theory and techniques of biosignals and systems. Topics include sampling, noise in biological signals, signal averaging of noisy biological signals, Fourier analysis and filtering.
Prerequisite: (EEL 3003 or EEL 3111C) and MAC 2313 with a minimum grade of C.

BME 3941 Internship Experience in Biomedical Engineering 0-3 Credits
Grading Scheme: S/U
Engineering work experience under the supervision of an engineer.
Prerequisite: Biomedical Engineering major.

BME 4160 Magnetic Biomaterials 3 Credits
Grading Scheme: Letter Grade
Consists of classroom lectures on fundamental concepts in magnetism and magnetic micro and nano-materials and their applications in biomedicine. Participants present a critical review of recent literature in the field and lead a group discussion on a specific, recent paper.
Prerequisite: PHY 2048 and CHM 2046 or CHM 2096 with minimum grades of C.

BME 4311 Molecular Biomedical Engineering 3 Credits
Grading Scheme: Letter Grade
Introduces the fundamentals of molecular biology for biomedical engineers. Designed for juniors or seniors majoring in biomedical engineering to learn the nomenclature and current state of knowledge of the eukaryotic cell and its related structures. Topics include protein structure and function, enzymes, the structure and nature of DNA and the cellular structure and function of various cellular organelles. Learn about energy and the function of mitochondria and chloroplast, cellular communication and the function of the extracellular matrix.
Prerequisite: BSC 2010 and (CHM 3217 or CHM 2210) and PCB 3713C with minimum grades of C.

BME 4361 Neural Engineering 3 Credits
Grading Scheme: Letter Grade
Applying engineering to neuroscience; includes such diverse areas as neural tissue engineering, models of neural function, and neural interface technology. Focuses mainly in the context of neural interfaces and prosthetics, from basic neural physiology and models of neural mechanisms to advanced neural interfaces currently in development or produced commercially.
Prerequisite: BME 3508 or EEL 3135.

BME 4409 Quantitative Physiology 3 Credits
Grading Scheme: Letter Grade
A junior/senior level physiology course. Quantitative modeling of organ system physiology of the nervous system, the cardiovascular system and the respiratory system are discussed and students work on quantitative problems.
Prerequisite: PCB 3713C and MAP 2302 and BME 3060 with minimum grades of C.

BME 4503 Biomedical Instrumentation 3 Credits
Grading Scheme: Letter Grade
Covers engineering and medical bases of application, measurement and processing of signals to and from living systems. Biomedical transducers for measurements of movement, biopotentials, pressure, flow, concentrations and temperature are discussed, as well as treatment devices such as ventilators and infusion pumps.
Prerequisite: MAC 2313 and MAP 2302 and PHY 2049 and (EEL 3003 or EEL 3111C) with minimum grades of C.
Corequisite: BME 3508.

BME 4503L Biomedical Instrumentation Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory for BME 4503.
Prerequisite: MAC 2313 and MAP 2302 and PHY 2049 and (EEL 3003 or EEL 3111C) with minimum grades of C.

BME 4531 Medical Imaging 3 Credits
Grading Scheme: Letter Grade
Medical imaging technologies from a biomedical engineering perspective. The physics, mathematics, instrumentation and clinical applications of all common medical imaging modalities, including x-ray radiography, computed tomography (CT), ultrasound imaging, positron emission tomography (PET) and magnetic resonance imaging (MRI) are discussed. Emerging imaging modalities, including optical imaging, fluorescence imaging and photoacoustic imaging are also introduced.
Prerequisite: MAC 2313 and MAP 2302 and PHY 2049 with minimum grades of C.

BME 4621 Biomolecular Thermodynamics and Kinetics 3 Credits
Grading Scheme: Letter Grade
Principles of thermodynamics and kinetics from a biomolecular perspective. The mathematics, analysis, and applications of classical thermodynamics, statistical thermodynamics, and reaction kinetics are introduced in the context of molecular interactions, binding equilibria, metabolism, and biomolecular transport common to living systems.
Prerequisite: CHM 3217 or (CHM 2210 and CHM 2211), with minimum grades of C, and BME 3060 and BME 4311

BME 4632 Biomedical Transport Phenomena 3 Credits
Grading Scheme: Letter Grade
Introduces and applies the concepts of momentum, mass, and thermal energy transport in the context of problems of interest in biomedical sciences and engineering. Macroscopic and microscopic analysis of momentum, mass, and thermal energy transport problems in biomedical systems.
Prerequisite: BME 3060 with minimum grade of C.

BME 4648 Biomaterials for Drug Delivery 3 Credits
Grading Scheme: Letter Grade
Focuses on the principles of engineering controlled release systems, and integrates topics in polymer chemistry, biomaterials, pharmacokinetics/pharmacodynamics, and mass transport phenomena.
Prerequisite: BME 3060 with a minimum grade of C.
Corequisite: BME 4632

BME 4760 Biomedical Data Science 3 Credits
Grading Scheme: Letter Grade
Covers the biomedical applications of data science techniques, which include pre-processing techniques, machine learning data analysis, and data visualization techniques.
Prerequisite: BME 3053C and COP 2271 and COP2271L.

BME 4882 Senior Design, Professionalism and Ethics 1 3 Credits
Grading Scheme: Letter Grade
Design of custom strategies to address real-life issues in the development of biocompatible and biomimetic devices for biotechnology or biomedical applications. Teams work with a client in the development of projects that incorporate various aspects of biomedical engineering including instrumentation, biomechanics, biotransport, tissue engineering and others. Emphasizes formal engineering design principles; overview of intellectual properties, engineering ethics, risk analysis, safety in design and FDA regulations are reviewed. Part 1 focuses on design.
Prerequisite: BME 4503 and BME 4503L and BME 4409 and senior standing.

BME 4883 Senior Design, Professionalism and Ethics 2 3 Credits
Grading Scheme: Letter Grade
Design of custom strategies to address real-life issues in the development of biocompatible and biomimetic devices for biotechnology or biomedical applications. Teams work with a client in the development of projects that incorporate various aspects of biomedical engineering including instrumentation, biomechanics, biotransport, tissue engineering and others. Emphasizes formal engineering design principles; overview of intellectual properties, engineering ethics, risk analysis, safety in design and FDA regulations are reviewed. Part 2 focuses on implementation and testing.
Prerequisite: BME 4503 and BME 4503L and senior standing.

BME 4931 Special Topics in Biomedical Engineering 1-4 Credits
Grading Scheme: Letter Grade
Selected topics in biomedical engineering.

EGN 1935 Special Topics in Freshman Engineering 1-3 Credits
Grading Scheme: Letter Grade
Laboratory, lectures or conferences cover selected topics in engineering.

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

EGS 1005 Prep for Success 1-4 Credits
Grading Scheme: S/U
Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)
Prerequisite: EG student.

Botany

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

BCH 3023 Elementary Organic and Biological Chemistry 3 Credits
Grading Scheme: Letter Grade
Elementary organic chemistry and biochemistry for students in the agricultural technical curricula. This is a terminal course and is not part of any sequence.
Prerequisite: CHM 2046 or CHM 2047.

BOT 2010C Introductory Botany 3 Credits
Grading Scheme: Letter Grade
Structures and functions of cells, tissues and organs of flowering plants. Students with credit in BSC 2005 or BSC 2010 cannot register for this course; they should take BOT 2011C. (B)
Attributes: General Education - Biological Science

BOT 2011C Plant Diversity 4 Credits
Grading Scheme: Letter Grade
Survey of major plant groups with regard to structure, life histories and uses accompanied by a laboratory showing the diversity of plants in the world. (B)
Prerequisite: introductory college biology/botany course or the equivalent.
Attributes: General Education - Biological Science

BOT 2710C Practical Plant Taxonomy 3 Credits
Grading Scheme: Letter Grade
Introduces plant taxonomy including principles of systematic botany, nomenclature and classification, but emphasizing identification. Student will be able to identify the common ferns, fern allies, gymnosperms and flowering plants of field and garden.

BOT 2800C Plants in Human Affairs 3 Credits
Grading Scheme: Letter Grade
The role of plants in the development of civilization and the influence of plants on world history, politics, economics and culture. A survey of useful and harmful plants and plant products. (B)
Attributes: General Education - Biological Science

BOT 3151C Local Flora of North Florida 3 Credits
Grading Scheme: Letter Grade
Laboratory observation of the gross features of vascular plants and practice in the use of keys to identify plants. Elementary ecology of principal types of plant communities in northern Florida. Field trips.

BOT 3503 Physiology and Molecular Biology of Plants 3 Credits
Grading Scheme: Letter Grade
The chemical organization, cellular organization, metabolism, nutrition, growth and molecular biology of the higher plants.
Prerequisite: (BOT 2010C or BSC 2005 or BSC 2010) and CHM 2046 and CHM 2046L.
Corequisite: BOT 3503L; laboratory may be taken in subsequent term.

BOT 3503L Physiology and Molecular Biology of Plants Laboratory 2 Credits
Grading Scheme: Letter Grade
Laboratory experiments to accompany BOT 3503.
Corequisite: BOT 3503.

BOT 4053 Practical Experience in Teaching Botany 2 Credits
Grading Scheme: Letter Grade
Participation in teaching one 3000-level botany course with practical experience in instructional procedures, testing and grading, course and laboratory preparation and laboratory assistance.
Prerequisite: generally, senior standing with recommendations from two faculty members, including the course instructor.

BOT 4621 Plant Geography 2 Credits
Grading Scheme: Letter Grade
Patterns in the distribution of plants around the earth and factors that influence plant geography. Topics include similarities of plant communities in different parts of the world, common distribution patterns among individual taxa, and methods for inferring biogeographic history and predicting future changes in plant distribution.
Prerequisite: (BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of C) or instructor permission.

BOT 4650 Plant Symbiosis 3 Credits
Grading Scheme: Letter Grade
Examines the crucial role of symbioses in shaping the diversity of life. Topics include generalities among symbioses, origins and establishment of symbioses, and coevolution and cospeciation, as well as specifics of well-studied exemplars of bacterial, fungal, animal, and plant symbioses with plants.
Prerequisite: BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of C.

BOT 4905 Individual Studies in Botany 2-4 Credits
Grading Scheme: Letter Grade
Qualified students and an instructor choose a particular problem for study.
Prerequisite: 8 credits of botany.

BOT 4911 Undergraduate Research in Botany 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Botany. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Botany.

BOT 4935 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Special topics in botany.

BOT 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Overseas Studies

PCB 3023 Essential Cell Biology 3 Credits
Grading Scheme: Letter Grade
Introduces the basic concepts of molecular cell biology in prokaryotic and eukaryotic systems including experimental strategies and methodology. This course is intended for those interested in plants.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent.

PCB 3034C Introduction to Ecology 4 Credits
Grading Scheme: Letter Grade
Basic principles of ecology as they apply to environmental problems including major terrestrial and aquatic ecosystems of Florida.
Prerequisite: introductory college biology.

PCB 3601C Plant Ecology 3 Credits
Grading Scheme: Letter Grade
Principles of ecology at scales ranging from individual plants to landscapes. Emphasis is on species, ecosystems and environmental programs in Florida.
Prerequisite: introductory college biology or botany.

Business

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

GEB 2015 Introduction to Business 1 Credit
Grading Scheme: Letter Grade
Introduces the business world by focusing on various disciplines within business and management. Also introduces personal and professional development opportunities that enhance career preparedness.

GEB 2951 Special Projects 1-3 Credits
Grading Scheme: S/U
Projects related to business as approved by the college. (S-U)

GEB 3017 Leading Organizations 4 Credits
Grading Scheme: Letter Grade
Provides a Strategic Foundation for Leadership Practice in a Variety of Professions. Increases the Capacity to Lead With and Without Authority, Across Boundaries, and From Any Political or Organizational Position.
Prerequisite: MAN 3025.

GEB 3035 Effective Career Management in Business 4 Credits
Grading Scheme: Letter Grade
Systematically designed course based on the cognitive information processing theory for career problem solving and decision-making. Delivered via modularized multimedia instructional materials. The course is designed to inform students about career planning and management interventions and to accommodate students at different levels of decidedness about their career aspirations.

GEB 3213 Professional Writing in Business 3 Credits
Grading Scheme: Letter Grade
Teaches business students fundamental written communication skills focusing on those areas central to professional writing in business. (C) (WR)
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

GEB 3218 Professional Speaking in Business 3 Credits
Grading Scheme: Letter Grade
Teaches fundamental oral communication skills necessary for succeeding in a business setting including presentations and speeches, interpersonal skills and interviewing.

GEB 3219 Writing and Speaking in Business 4 Credits
Grading Scheme: Letter Grade
Online content teaches business students the fundamentals of both written and spoken communication, enabling them to express their ideas effectively and efficiently and to prepare them for the demands of the business workspace. (C) (WR)
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

GEB 3373 International Business 4 Credits
Grading Scheme: Letter Grade
Exposes the business environments (culture, politics, laws and economics) encountered in other parts of the world; to the tools and skills necessary to analyze the potential of other countries as locations for production, distribution and marketing; to how managing and integrating international operations in many parts of the world differs from the domestic focus of many business courses; and to the broad perspective required of successful managers working in international business.
Prerequisite: MAN 3025 and MAR 3023.

GEB 3523 Business Case Analysis 2 Credits
Grading Scheme: Letter Grade
Introduces case analysis and prepares students for national and international case competitions.

GEB 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
Reading and/or research in business administration.

GEB 4906 Independent Study 1-4 Credits
Grading Scheme: S/U
Reading and research in business administration. (S-U)

GEB 4911 Undergraduate Research in Business 0-4 Credits
Grading Scheme: Letter Grade
Provides an opportunity for firsthand, supervised research in business. Projects may involve inquiry, design, investigation, scholarship, discovery, or application in business.

GEB 4930 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Variable content provides an opportunity for in-depth study of topics not offered in other courses and topics of special current significance.
Prerequisite: department permission.

GEB 4932 Professional Development Module 2 Credits
Grading Scheme: Letter Grade
Presents techniques for outstanding presentation and public speaking skills. Includes a significant service learning component whereby students apply presentation techniques developed in the classroom via business-oriented instruction in the K-12 school system.

GEB 4941 Internship in Business Administration 1-4 Credits
Grading Scheme: S/U
Applied work in business administration that requires several papers and reports. (S-U)
Prerequisite: undergraduate programs director permission.

GEB 4956 International Studies in Business 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: admission to an approved UF study abroad program and undergraduate programs director permission.

GEB 4970 Honors Thesis 1 Credit
Grading Scheme: S/U
A thesis is required for the awarding of the magna cum laude or summa cum laude designation. To qualify for the thesis option, students will normally have completed 90 semester credits of coursework (exceptions may be made by the honors coordinator of the student's major department) and must have at least the 3.6 grade point average required for magna cum laude designation at the time they enroll. The thesis will be reviewed by at least one faculty member chosen by the honors coordinator from the student's major department. (S-U)
Prerequisite: senior standing and 3.6 UF GPA.

Career Development Program

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

SLS 1501 College Study Skills 1 1-3 Credits
Grading Scheme: Letter Grade
A developmental course designed to assist students who may be having difficulty in their college-level coursework or those who simply wish to improve basic skills essential for college success. The course begins with an individual self-assessment followed by topics such as motivation, time management, active reading, memory, note taking and test taking. Students will also develop a career portfolio for their final lesson.

SLS 2301 Career Planning 1 Credit
Grading Scheme: Letter Grade

SLS 2302 Job Strategies 1 Credit
Grading Scheme: Letter Grade
Interactive course covering all aspects of a successful job search, long-term career planning and success in the professional environment. Enrollment is restricted to juniors and seniors.

Catalan | Spanish and Portuguese Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

CAT 3180 Introduction to Catalan 1 3 Credits
Grading Scheme: Letter Grade
Acquire a working knowledge of the Catalan language and the aspects of Catalan culture and society. No previous experience with Catalan required, although knowledge of another Romance language (through intermediate level) is required.
Prerequisite: completion of second year in another Romance language or instructor permission.

CAT 3182 Introduction to Catalan 2 3 Credits
Grading Scheme: Letter Grade
To expand the linguistic and cultural knowledge acquired in CAT 3180 and to further develop an understanding of Catalan art, culture and society. Emphasis on speaking, listening, reading and writing.
Prerequisite: CAT 3180 or instructor permission.

CAT 3280 Intermediate Catalan 3 Credits
Grading Scheme: Letter Grade
Review and extend knowledge of grammar, vocabulary, culture; develop oral and written skills; begin reading literary works; and consolidate knowledge of Catalan culture.
Prerequisite: CAT 3182 or equivalent.

CAT 3281 Intermediate Catalan 2 3 Credits
Grading Scheme: Letter Grade
Second semester in the intermediate Catalan language and culture sequence, continuing the study of the language and culture of Catalonia with emphasis on linguistic proficiency and cultural knowledge.
Prerequisite: CAT 3180 or equivalent.

Chemical Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

ABE 2062 Biology for Engineers 3 Credits
Grading Scheme: Letter Grade
Principles and engineering applications of biology. Principles and applications of biochemistry, genetics, microbial systems, animal systems, ecological systems and global systems. (B) (WR)
Attributes: General Education - Biological Science, Satisfies 6000 Words of Writing Requirement

BME 3406 Introduction to Biomolecular Engineering 3 Credits
Grading Scheme: Letter Grade
Introduces chemical engineering students interested in bio-related careers to the chemical engineering discipline. Emphasizes the link between biology and chemical engineering and the interface between them.
Prerequisite: ABE 2062 or ECH 2062.

BME 4220 Biomolecular Cell Mechanics 3 Credits
Grading Scheme: Letter Grade
Covers the biomolecular basis of cell mechanics and cell motility, emphasizing quantitative models and systems-biology approaches.

BME 4321 Dynamics of Cellular Processes 3 Credits
Grading Scheme: Letter Grade
Confocal florescence microscopy, techniques for imaging macromolecular dynamics and interactions inside living cells, models of intracellular diffusion, models of ligand-receptor binding, interplay between binding and transport, modeling and analysis of experiments. Examples from literature include mRNA transport, nuclear pore dynamics, cytoskeletal dynamics, imaging motor proteins and transcription factor dynamics.
Prerequisite: a course on kinetics and/or transport, or instructor permission.

COT 3502 Computer Model Formulation 4 Credits
Grading Scheme: Letter Grade
Solutions of scientific and engineering problems using digital computers. Formulation of models for describing physical processes, numerical analysis and computer programming. (M)
Prerequisite: ECH 3023 and MAP 2302 and MAC 2313.

ECH 3023 Material and Energy Balances 4 Credits
Grading Scheme: Letter Grade
Formulation and solution of material and energy balances utilizing physical/chemical properties of matter as applied to analyzing unit operations systems.
Prerequisite: CHM 2046 or (MAC 2312 and PHY 2048).
Corequisite: PHY 2049, MAC 2313 and MAP 2302.

ECH 3101 Process Thermodynamics 3 Credits
Grading Scheme: Letter Grade
Introduces fundamental principles of classical thermodynamics. Applications to modeling and analysis of physical and chemical processes undergoing change.
Prerequisite: (CHM 4411 or PHY 3513) and COT 3502 and ECH 3264.

ECH 3203 Fluid and Solid Operations 3 Credits
Grading Scheme: Letter Grade
Characteristics of laminar and turbulent flow, mechanical energy balance, flow through packed beds and fluidization of solids, design of pumping systems and piping networks and metering of fluids.
Prerequisite: COT 3502 and ECH 3264.

ECH 3223 Energy Transfer Operations 3 Credits
Grading Scheme: Letter Grade
Steady state conduction in solids and heterogeneous materials, transient conduction, convection heat transfer, heat transfer during boiling and condensation, radiation heat transfer, design of heat-transfer equipment and heat exchange networks.
Prerequisite: COT 3502 and ECH 3264.

ECH 3264 Elementary Transport Phenomena 3 Credits
Grading Scheme: Letter Grade
Flux law and conservation equations of mass, energy and momentum; steady and unsteady states as applied to physical and chemical processing; macroscopic and microscopic analysis.
Prerequisite: ECH 3023 and MAP 2302 and MAC 2313.

ECH 4123 Phase and Chemical Equilibria 3 Credits
Grading Scheme: Letter Grade
Application of thermodynamic principles to systems of variable composition including the study of phase and chemical equilibria.
Prerequisite: ECH 3101 and ECH 3203 and ECH 3223.

ECH 4224L Fluid and Energy Transfer Operations Laboratory 2 Credits
Grading Scheme: Letter Grade
Laboratory work in unit operations involving heat and momentum transfer. (WR)
Prerequisite: ECH 3101 and ECH 3203 and ECH 3223 and ENC 3246.
Corequisite: ECH 4714.
Attributes: Satisfies 6000 Words of Writing Requirement

ECH 4323 Process Control Theory 3 Credits
Grading Scheme: Letter Grade
The analysis and automatic control of process systems in chemical engineering.
Prerequisite: COT 3502 or ECH 3023 or MAP 2302;
Corequisite: ECH 4323L.

ECH 4323L Chemical Engineering Laboratory 5 1 Credit
Grading Scheme: Letter Grade
Laboratory work associated with ECH 4323.
Corequisite: ECH 4323.

ECH 4403 Separation and Mass Transfer Operations 3 Credits
Grading Scheme: Letter Grade
Theory, design, and evaluation of diffusional and staged mass transfer processes including distillation, absorption and extraction, leaching, and membrane separations. Computer-aided design methods.
Prerequisite: ECH 3101 and ECH 3203 and ECH 3223.

ECH 4404L Separation and Mass Transfer Operations Laboratory 2 Credits
Grading Scheme: Letter Grade
Laboratory work in unit operations involving mass transfer. (WR)
Prerequisite: ECH 4403 and ECH 4224L and ECH 4714.
Attributes: Satisfies 6000 Words of Writing Requirement

ECH 4504 Chemical Kinetics and Reactor Design 4 Credits
Grading Scheme: Letter Grade
Homogeneous and heterogeneous reaction kinetic modeling and data analysis. Analysis and design of ideal batch, mixed, plug and recycle reactors. Heterogeneous catalysis and reactor design.
Prerequisite: ECH 3264 and ECH 4123.

ECH 4524 Heterogeneous Chemical Kinetics Reactor Design 2 Credits
Grading Scheme: Letter Grade
Theories of catalytic reactions of adsorbed species at solid surfaces, development or rate expressions with heat and mass transport properties through porous catalyst materials for design of heterogeneous chemical reactors.
Prerequisite: ECH 4504.

ECH 4604 Process Economics and Optimization 3 Credits
Grading Scheme: Letter Grade
Introduces the principles of process economics including specifications and costing of equipment, operations costing and economic evaluation of processes.
Prerequisite: ECH 3203 and ECH 3223;
Corequisite: ECH 4403.

ECH 4644 Process Design 3 Credits
Grading Scheme: Letter Grade
Preliminary design of convention chemical processes including process specifications, sitting and layout, equipment sizing, utility and manpower needs, safety and hazard analysis, environmental considerations and economic evaluation. Planning techniques for detailed engineering, construction and startup.
Prerequisite: ECH 4403 and ECH 4504 and ECH 4604 and ECH 4824.

ECH 4714 Chemical Process Safety 3 Credits
Grading Scheme: Letter Grade
Laboratory and process safety analysis which emphasizes prevention and mitigation. Application of chemical engineering principles to assessing hazards and risk. Integrated with ECH 4224L.

ECH 4824 Materials of Chemical Engineering 2 Credits
Grading Scheme: Letter Grade
Relations between microscopic structure and macroscopic mechanical, thermal and electrical properties of organic and inorganic solids. Engineering applications, including corrosion.
Prerequisite: ECH 4123.

ECH 4827 Processing of Complex Fluids 3 Credits
Grading Scheme: Letter Grade
Principles involved in quantitative adoption of chemical engineering unit operations and unit processes for the analysis and design of systems involving complex fluids.
Prerequisite: (ECH 3203 and ECH 3223 and ECH 4123 and ECH 4824) or instructor permission.

ECH 4905 Special Problems in Chemical Engineering 1-6 Credits
Grading Scheme: Letter Grade
Study of chemical engineering problems identified by the student and instructor.

ECH 4912 Integrated Product and Process Design 1 3 Credits
Grading Scheme: Letter Grade
The first part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic product and processes, on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: senior standing.

ECH 4913 Integrated Product and Process Design 2 3 Credits
Grading Scheme: Letter Grade
The second part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic product and processes, on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: senior standing.

ECH 4934 Professional Seminar 1 Credit
Grading Scheme: Letter Grade
Discussion of issues associated with development of a professional career in chemical engineering. Topics include ethics presented in a case study format, legal and ethical issues associated with intellectual property, interviewing strategies and presentation skills.
Prerequisite: senior standing.

ECH 4944 Practical Work in Chemical Engineering 1-5 Credits
Grading Scheme: Letter Grade
One term industrial employment, including extra work according a pre-approved outline. Practical engineering work under industrial supervision as set forth in college regulations.
Prerequisite: Engineering major.

ECH 4948 Internship Work Experience 1 Credit
Grading Scheme: S/U
Practical internship work experience under approved industrial supervision, as set forth in college regulations.
Prerequisite: Engineering major.

ECH 4949 Co-op Work Experience 1 Credit
Grading Scheme: S/U
Practical co-op work experience under approved industrial supervision, as set forth in college regulations.
Prerequisite: Engineering major.

EGN 1935 Special Topics in Freshman Engineering 1-3 Credits
Grading Scheme: Letter Grade
Laboratory, lectures or conferences cover selected topics in engineering.

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

EGS 1005 Prep for Success 1-4 Credits
Grading Scheme: S/U
Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)
Prerequisite: EG student.

Chemistry

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Introduction to General Chemistry

CHM 1025, a two-credit course, is offered for students who wish to strengthen their understanding of basic concepts of atomic structure and stoichiometry before beginning the general chemistry sequence (CHM 2045/CHM 2045L, CHM 2046/CHM 2046L). A chemistry placement exam is offered online on ONE.UF (https://one.uf.edu). The score achieved determines whether CHM 1025 or CHM 2045 is the appropriate first course in chemistry.

General Chemistry

For placement into the appropriate first course in chemistry, please refer to the Academic Advising section or consult a chemistry advisor. All students should complete their general chemistry studies without interruption.
The following general chemistry offerings are available:

- CHM 1030/CHM 1031 is a terminal sequence that meets preprofessional requirements in the College of Nursing and some majors in the College of Agricultural and Life Sciences.
- CHM 1020 is a terminal general education course that explores chemistry in terms of consumer products. This course meets preprofessional requirements in certain areas of the College of Agricultural and Life Sciences.
- CHM 2045/CHM 2045L and CHM 2046/CHM 2046L is the standard general chemistry sequence. This sequence meets the preprofessional requirement for a broad range of science and engineering majors. Students are presumed to have a good background in high school chemistry and mathematics (through MAC 1147) and are expected to pass the chemistry placement exam offered online on ONE.UF (https://one.uf.edu) before registering for CHM 2045.
- CHM 2047/CHM 2047L is a one-semester program for entering students with strong backgrounds in chemistry, normally reflected by high AP or IB chemistry test scores. This program enables students to move more quickly into advanced work.
- CHM 2051 General Chemistry Honors is offered as an alternative to CHM 2046 for students who have done particularly well in CHM 2045.

Attendance Requirement

Students missing the first session of a laboratory, which includes the required safety instruction, will not be allowed to start late.

Courses

CHM 1020 Chemistry for the Liberal Arts 3 Credits
Grading Scheme: Letter Grade
Provides non-science majors with a basic understanding of the substances and chemical transformations central to our lives. Introduces chemical concepts and principles help the student better understand the role and impact of modern chemistry in society. (P)
Attributes: General Education - Physical Science

CHM 1025 Introduction to Chemistry 2 Credits
Grading Scheme: Letter Grade
Introductory readiness course in general chemistry for those with weak yet satisfactory backgrounds in high school chemistry and algebra. (P)
Corequisite: MAC 1147 or the equivalent.
Attributes: General Education - Physical Science

CHM 1030 Basic Chemistry Concepts and Applications 1 3 Credits
Grading Scheme: Letter Grade
The first half of the CHM 1030/CHM 1031 sequence. A terminal sequence for non-science students that presents chemistry from a medical/nursing perspective. Topics in inorganic chemistry and properties of both ionic and covalent compounds. (P)
Prerequisite: high school algebra.
Attributes: General Education - Physical Science

CHM 1031 Basic Chemistry Concepts and Applications 2 3 Credits
Grading Scheme: Letter Grade
The second half of CHM 1030/CHM 1031 sequence. Topics in organic chemistry and biochemistry. (P)
Prerequisite: CHM 1030.
Attributes: General Education - Physical Science

CHM 2045 General Chemistry 1 3 Credits
Grading Scheme: Letter Grade
The first semester of the CHM 2045/CHM 2045L and CHM 2046/CHM 2046L sequence. Stoichiometry, atomic and molecular structure, the states of matter, reaction rates and equilibria. A minimum grade of C is required to progress to CHM 2046. (P)
Prerequisite: (CHM 1025(C) OR ((ALEKS>=75) AND NOT (CHM 1025<C))) AND (MAC 1147(C) OR (MAC 1140(C) AND MAC 1114(C)) OR MAC 2XXX(C) OR MAC 3XXX or MAC 4XXX)
Attributes: General Education - Physical Science

CHM 2045L General Chemistry 1 Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to reflect the topics presented in CHM 2045. (P)
Prerequisite: (CHM 1025(C) OR ((ALEKS>=75) AND NOT (CHM 1025<C))) AND (MAC 1147(C) OR (MAC 1140(C) AND MAC 1114(C)) OR MAC 2XXX(C) OR MAC 3XXX or MAC 4XXX)
Attributes: General Education - Physical Science

CHM 2046 General Chemistry 2 3 Credits
Grading Scheme: Letter Grade
The second semester of the CHM 2045/CHM 2045L and CHM 2046/CHM 2046L sequence. Students who completed CHM 2045 or equivalent at another institution should consult a chemistry advisor before registering for this course. Acids and bases, additional aspects of chemical equilibria, thermodynamics, electrochemistry, complex ions and descriptive chemistry. (P)
Prerequisite: CHM 2045 with a grade of C or better and [MAC 1147 or (MAC 1140 and MAC 1114) or MAC 2311].
Attributes: General Education - Physical Science

CHM 2046L General Chemistry 2 Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to reflect the topics presented in CHM 2046. (P)
Prerequisite: CHM 2045L AND (MAC 1147 or (MAC 1140 and MAC 1114) or MAC 23##) AND (CHM 2045 or CHM 2095 or CHM 2050).
Attributes: General Education - Physical Science

CHM 2047 One-Semester General Chemistry 4 Credits
Grading Scheme: Letter Grade
Designed for entering (not transfer) students who wish to move more quickly into advanced coursework. Electronic structure and bonding, gases, liquids, solids, kinetics, equilibria, acids and bases, thermodynamics, oxidation-reduction, metals and non-metals.
Prerequisite: AP, IB or high honors high school chemistry courses and a high score on the chemistry placement exam.
Corequisite: CHM 2047L.

CHM 2047L One-Semester General Chemistry Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to accompany CHM 2047.
Corequisite: CHM 2047.

CHM 2051 Honors General Chemistry 2 3 Credits
Grading Scheme: Letter Grade
Second semester of the CHM 2045/CHM 2045L and CHM 2051/CHM 2046L sequence. Open to students with superior performance in CHM 2045 or its equivalent. Acids and bases, additional aspects of chemical equilibria, thermodynamics, electrochemistry, complex ions, descriptive chemistry and instructor-chosen topics. (P)
Prerequisite: CHM 2045, CHM 2045L and instructor permission.
Corequisite: CHM 2046L.
Attributes: General Education - Physical Science

CHM 2054L Accelerated General Chemistry Laboratory 2 Credits
Grading Scheme: Letter Grade
A cross-disciplinary, inquiry-based curriculum that focuses on major themes and concepts in chemistry with an emphasis on their application in modern, quantitative life sciences research. Equivalent to CHM 2045L and CHM 2046L or CHM 2047L.
Prerequisite: ((AP=5 or IB>=6 or CHM 2045(B+)) and (MAC 1147 or (MAC 1140 and MAC 1114) or MAC 23## or ALEKS>=75)) OR CHM 2050(B+) OR CHM 2095(B+)

CHM 2095 Chemistry for Engineers 1 3 Credits
Grading Scheme: Letter Grade
The first semester of the CHM 2095/CHM 2096 sequence. Topics include stoichiometry, energy and thermodynamics, atomic and molecular structure, the states of matter, reaction rates and introduces chemical equilibria. All topics are taught in an engineering case-study context. (P)
Prerequisite: MAC 1147 or the equivalent and a passing grade in CHM 1025 and an Engineering major or a passing score on the chemistry placement exam and an Engineering major;
Corequisite: CHM 2045L.
Attributes: General Education - Physical Science

CHM 2095L Chemistry Lab 1 for Engineers 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to complement CHM 2095.

CHM 2096 Chemistry for Engineers 2 3 Credits
Grading Scheme: Letter Grade
The second course in a two-semester sequence. Topics include chemical equilibria, acid-base and solubility equilibria, entropy, free energy, electrochemical devices, solution dynamics and descriptive inorganic and organic chemistry. All topics are taught in an engineering case-study context. (P)
Prerequisite: CHM 2045 or CHM 2095 with a minimum grade of C.
Attributes: General Education - Physical Science

CHM 2096L Chemistry Lab 2 for Engineers 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to complement CHM2096

CHM 2200 Fundamentals of Organic Chemistry 3 Credits
Grading Scheme: Letter Grade
An elementary course embracing the more important aspects of organic chemistry. Intended for students in programs requiring only one semester of organic chemistry. Not intended for pre-med, pre-dentistry or pre-vet students.
Prerequisite: CHM 2046 or CHM 2047 or CHM 2051 or CHM 2096, or the equivalent.

CHM 2200L Fundamentals of Organic Chemistry Laboratory 1 Credit
Grading Scheme: Letter Grade
Organic laboratory experiments to accompany CHM 2200.
Corequisite: CHM 2200.

CHM 2210 Organic Chemistry 1 3 Credits
Grading Scheme: Letter Grade
The first half of the CHM 2210/CHM 2211 sequence intended for majors and preprofessional students. A study of the structures, syntheses and reactions of organic compounds.
Prerequisite: CHM 2046 or CHM 2096 or CHM 2047 or CHM 2051.

CHM 2211 Organic Chemistry 2 3 Credits
Grading Scheme: Letter Grade
The second half of the CHM 2210/CHM 2211 sequence intended for majors and preprofessional students. A study of the structures, syntheses and reactions of organic compounds.
Prerequisite: CHM 2210 or CHM 2212 with a minimum grade of C;
Corequisite: CHM 2211L.

CHM 2211L Organic Chemistry Laboratory 2 Credits
Grading Scheme: Letter Grade
Organic laboratory experiments designed to accompany CHM 2210/CHM 2211 or CHM 3217/CHM 3218.
Prerequisite: (CHM 2210 or CHM 2212 with a minimum grade of C) or CHM 3217.

CHM 2212 Organic Chemistry 1 for Majors 3 Credits
Grading Scheme: Letter Grade
First half of the CHM 2212/CHM 2213 sequence for chemistry majors. A study of structures, synthesis, and reactions of organic compounds, with emphasis on mechanism and spectroscopy.
Prerequisite: (CHM 2046 or CHM 2047 or CHM 2051 or CHM 2096) and chemistry major.

CHM 2213 Organic Chemistry 2 for Majors 3 Credits
Grading Scheme: Letter Grade
Second half of the CHM 2212/CHM 2213 sequence is for chemistry majors. Study of structures, synthesis, and reactions of organic compounds, with emphasis on mechanism and spectroscopy.
Prerequisite: (CHM 2210 or CHM 2212 with a minimum grade of C) and chemistry major.
Corequisite: CHM 2211L.

CHM 3120 Introduction to Analytical Chemistry 3 Credits
Grading Scheme: Letter Grade
Principles involved in quantitative analysis. Topics include acid-base equilibria and titrations, precipitation and complex formation, oxidation reduction and statistical treatment of data. Introduces spectrochemical and electrochemical methods of analysis and chemical separations.
Prerequisite: (CHM 2046 or CHM 2047 or CHM 2051) and (CHM 2046L or CHM 2047L).

CHM 3120L Analytical Chemistry Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to accompany CHM 3120.
Corequisite: CHM 3120 or equivalent.

CHM 3217 Organic Chemistry/Biochemistry 1 4 Credits
Grading Scheme: Letter Grade
A rigorous, one-semester overview of the structure, properties and reactions of organic compounds. This is the first half of a two-semester sequence in biochemistry. Students are expected to take CHM 3218 after completing CHM 3217.
Prerequisite: (CHM 2046 or CHM 2047 or CHM 2051 or CHM 2096 or CHM 2046C) and (CHM 2046L or CHM 2047L or ISC 2401L).

CHM 3218 Organic Chemistry/Biochemistry 2 4 Credits
Grading Scheme: Letter Grade
Introduces the basic concepts of biochemistry and molecular biology from the structural and mechanistic perspective of organic chemistry.
Prerequisite: CHM 3217 or CHM 2211, or instructor permission.

CHM 3400 Physical Chemistry for the Biosciences 3 Credits
Grading Scheme: Letter Grade
Thermodynamics, electrochemistry, transport, chemical kinetics and molecular structure with emphasis on biological systems.
Prerequisite: (MAC 2312 or MAC 2512 or MAC 3473) and (CHM 2200 or CHM 2210 or CHM 2212), and two semesters of college physics; background in analytical chemistry recommended.

CHM 3610 Inorganic Chemistry 3 Credits
Grading Scheme: Letter Grade
Basic theoretical concepts involved in inorganic chemistry. Periodic trends, chemical bonding, structure and reactivity.
Prerequisite: CHM 2211 or CHM 2213 or CHM 3217.

CHM 3610L Inorganic Chemistry Laboratory 2 Credits
Grading Scheme: Letter Grade
Synthesis and characterization of inorganic and organometallic compounds.
Prerequisite: CHM 2211L and CHM 3120L, or instructor permission.

CHM 4034 Advanced Biochemistry and Chemical Biology 4 Credits
Grading Scheme: Letter Grade
Secondary metabolism and biosynthetic pathways, bioinorganic chemistry, protein folding and trafficking, cellular signaling, replication and translation from a chemist's perspective. Applications in bioanalytical chemistry and in molecular and cell biology.
Prerequisite: CHM 3218 or BCH 4024.

CHM 4130 Instrumental Analysis 3 Credits
Grading Scheme: Letter Grade
Concepts of instrumentation for chemical analysis. In-depth examination of spectrochemical and electrochemical methods and chemical separations.
Prerequisite: (CHM 2211 or CHM 2213 or CHM 3217) and CHM 3120 and (MAC 2312 or MAC 2512 or MAC 3473) and (PHY 2053 or PHY 2048 or PHY 2060).
Corequisite: PHY 2054 or equivalent.

CHM 4130L Instrumental Analysis Laboratory 2 Credits
Grading Scheme: Letter Grade
Laboratory experiments designed to accompany CHM 4130.
Prerequisite: (CHM 2211 or CHM 2213 or CHM 3217) and CHM 3120 and CHM 3120L and (MAC 2312 or MAC 2512 or MAC 3473) and (PHY 2053 or PHY 2048 or PHY 2060).
Corequisite: CHM 4130

CHM 4143C Electronics and Instrumentation 3 Credits
Grading Scheme: Letter Grade
Principles of operation of instrumentation, optimization of instrumental conditions, and interpretation of instrumental data for qualitative and quantitative analysis. Application of electronic principles necessary to code for automated electronic measurements in chemical research.
Prerequisite: CHM 4130, or CHM 3400 and CHM 4413L or permission of instructor.

CHM 4230 Organic Spectroscopy 2 Credits
Grading Scheme: Letter Grade
Characterization and identification of organic compounds by spectral methods including IR, UV, NMR and mass spectrometry.
Prerequisite: CHM 2211 or CHM 2213 or CHM 3217

CHM 4272 The Organic Chemistry of Polymers 2 Credits
Grading Scheme: Letter Grade
Classification of polymerization types and mechanisms from a mechanistic/organic point of view. The structure of synthetic and natural polymers and polyelectrolytes. Reactions of polymers and practical synthetic methods of polymer preparation.
Prerequisite: CHM 2200, CHM 2211, CHM 2213 and CHM 3217, or the equivalent.

CHM 4300L Laboratory in Biochemistry and Molecular Biology 2 Credits
Grading Scheme: Letter Grade
Introduces experimental techniques in biochemistry, especially those used in DNA isolation and manipulation, protein purification and enzyme kinetic studies.
Prerequisite: CHM 2211L and either CHM 3218, or CHM 2211 and BCH 4024.

CHM 4304 Chemical Aspects of Cellular Control 3 Credits
Grading Scheme: Letter Grade
Control of information, materials and energy within cellular systems. Examples taken from the biochemistry of plants, bacteria and higher organisms.
Prerequisite: (CHM 3218 or CHM 2211) and BCH 4024.

CHM 4308 Introduction to Enzyme Mechanism 3 Credits
Grading Scheme: Letter Grade
Principles of enzyme structure, isolation and purification and principles of the physical chemistry of enzyme/substrate interactions. Overview of concepts of biological catalysis, including transition state theory, descriptions and examples of mechanisms of biochemical catalysis, survey of co-factors, and catalytic antibodies, ribozyme structure and catalysis.
Prerequisite: BCH 4024 or CHM 3218;
Corequisite: CHM 3400 or CHM 4411.

CHM 4411 Physical Chemistry: Thermodynamics and Kinetics 4 Credits
Grading Scheme: Letter Grade
Gas laws, kinetic theory, classical and statistical thermodynamics and applications to solutions, phase equilibria, chemical equilibria and electrochemistry.
Prerequisite: one year of general chemistry and one year of physics;
Corequisite: MAC 2313; background in analytical and organic chemistry recommended.

CHM 4411L Physical Chemistry Laboratory 2 Credits
Grading Scheme: Letter Grade
A series of laboratory experiments designed to accompany CHM 4411.
Prerequisite: CHM 3120L;
Corequisite: CHM 4411.

CHM 4412 Physical Chemistry: Chemical Bonding and Spectroscopy 4 Credits
Grading Scheme: Letter Grade
Introduces quantum theory, atomic and molecular structure, chemical bonding and spectra, chemical reaction rate laws and mechanisms, and statistical and collision theories of reaction rates.
Prerequisite: (CHM 2046 or CHM 2046C or CHM 2047 or CHM 2051 or CHM 2096) and (PHY 2049 or PHY 2054 or PHY 2061).
Corequisite: MAC 2313.

CHM 4413L Biophysical Chemistry Laboratory 2 Credits
Grading Scheme: Letter Grade
Laboratory experiments to demonstrate basic concepts of the physical chemistry of biological systems.
Prerequisite: CHM 2211L and CHM 3120L;
Corequisite: CHM 3400.

CHM 4611 Advanced Inorganic Chemistry 3 Credits
Grading Scheme: Letter Grade
Introduces advanced concepts of modern inorganic chemistry. Major themes include application of group theory to structure and bonding, molecular orbital treatment of reactivity, fundamental organometallic chemistry and introduces vibrational and electronic spectroscopy.
Prerequisite: CHM 3120 and CHM 3610;
Corequisite: CHM 4412.

CHM 4671 Bioinorganic Chemistry 3 Credits
Grading Scheme: Letter Grade
From an inorganic perspective, introduces the structure and function of a variety of metalloproteins and metalloenzymes, concentrating on systems containing transition metals. Emphasizes the role that metal ion(s) play in the function of the biomolecules.
Prerequisite: CHM 3610 and (CHM 3218 or BCH 4024).

CHM 4905 Individual Problems 1-3 Credits
Grading Scheme: Letter Grade
Double registration permitted. An assigned reading program or development of an assigned experimental problem.
Prerequisite: permission of faculty member supervising the work.

CHM 4910 Undergraduate Research 0-3 Credits
Grading Scheme: Letter Grade
Laboratory or literature investigations of chemical problems of current interest.
Prerequisite: permission of faculty member supervising the work.

CHM 4930 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Special Topics

CHM 4940 Supervised Teaching 1-2 Credits
Grading Scheme: Letter Grade
Supervised teaching, usually at the general chemistry level. Required is a superior record at UF in the course in which the student will assist and evidence that the student's own progress will not be delayed.
Prerequisite: instructor permission.

CHM 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade

IDH 3931 Interdisciplinary Junior Honors 1-3 Credits
Grading Scheme: Letter Grade
Special topics restricted to those in the university-wide honors program. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

ISC 2400L Cross-Disciplinary Laboratory 1 3 Credits
Grading Scheme: Letter Grade
First course in a two-semester inquiry-based laboratory focusing on major themes and concepts in biology, chemistry and physics with an emphasis on their integrated applications in modern, quantitative research. Satisfies course requirements for BSC 2010L, CHM 2045L and PHY 2053L.
Prerequisite: high school algebra or equivalent. Degree-seeking students only.

ISC 2401L Cross-Disciplinary Laboratory 2 3 Credits
Grading Scheme: Letter Grade
Second course in a two-semester inquiry-based laboratory focusing on major themes and concepts in biology, chemistry and physics with an emphasis on their integrated applications in modern, quantitative research. Satisfies course requirements for BSC 2011L, CHM 2046L and PHY 2054L.
Prerequisite: ISC 2400L and MAC 1147 or equivalent;
Corequisite: BSC 2010 and CHM 2045 or CHM 2047 or CHM 2095.

ISC 3523C Research Methods 3 Credits
Grading Scheme: Letter Grade
The tools scientists use to solve scientific problems, including use of experiments to answer scientific questions, design of experiments to reduce systematic and random errors, use of statistics to interpret experimental results and deal with sampling errors, mathematical modeling of scientific phenomena and oral presentation of scientific work.
Prerequisite: UFTeach Step 1 and one year of college biology, chemistry or physics.

Chinese | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

CHI 1130 Beginning Chinese 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing. Materials are designed for learners with no prior exposure to the language. Those with native background or education for four years or more in a Chinese speaking country must take a placement test before enrolling in any Chinese language class.

CHI 1131 Beginning Chinese 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: CHI 1130 with minimum grade of C, or S, or the equivalent.

CHI 2230 Intermediate Chinese 1 5 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: CHI 1131 with minimum grade of C, or S, or the equivalent.

CHI 2231 Intermediate Chinese 2 5 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: CHI 2230 with minimum grade of C, or S, or the equivalent.

CHI 2340 Chinese for Heritage Learners 1 4 Credits
Grading Scheme: Letter Grade
For those with significant bilingual speaking and listening backgrounds. Emphasis is on recognition of the characters and writing, and pronunciation and speaking.

CHI 2341 Chinese for Heritage Learners 2 4 Credits
Grading Scheme: Letter Grade
To consolidate the foundation built in Chinese for Heritage Learners 1, to expand vocabulary and to introduce more complex grammatical structures. Emphasis is on reading and writing. Those who successfully complete CHI 2341 are eligible for CHI 3410.

CHI 3403 Chinese Calligraphy 3 Credits
Grading Scheme: Letter Grade
Introductory study of the origin, composition, development, variations and aesthetic styles of Chinese characters with laboratory sessions for appreciating and practicing calligraphic skills. (H and N)
Prerequisite: (CHI 2231 or JPN 2231 or CHI 3410 or JPN 3410 or CHI 3411 or JPN 3411 or CHW 4120 or CHW 4130 or CHW 4140 or JPW 4130 or JPW 4131) or instructor permission.
Attributes: General Education - Humanities, General Education - International

CHI 3410 Advanced Chinese 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures. (S and N)
Prerequisite: CHI 2231 with minimum grade of C, or S, or the equivalent.
Attributes: General Education - International, General Education - Social Science

CHI 3411 Advanced Chinese 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study of the four skills with attention to more complex structures. (S and N)
Prerequisite: CHI 3410 with minimum grade of C, or S, or the equivalent.
Attributes: General Education - International, General Education - Social Science

CHI 3440 Business Chinese 3 Credits
Grading Scheme: Letter Grade
Development of language skills and protocol issues used in Chinese business environments. Acquire vocabulary, phrases, and sentence patterns essential for business transactions and develop oral presentations, business cards, and resumes.
Prerequisite: completion of second-year Chinese required, or by permission.

CHI 4050 Fourth Year Chinese 1 3 Credits
Grading Scheme: Letter Grade
Introduces and analyzes the documentary prose style used in Chinese newspapers and media. By studying a variety of short texts students develop skill in listening, speaking, reading and writing about issues commonly encountered in Chinese newspaper editorials and in television news programs, debate roundtables, or TV documentaries.
Prerequisite: CHI 3411 or equivalent with a minimum grade of C.

CHI 4051 Fourth Year Chinese 2 3 Credits
Grading Scheme: Letter Grade
Solidifies and improves students' knowledge of advanced Chinese through literature as a continuation of CHI 4050. Emphasizes formulating strategies to learn the difference between written language and spoken language and approaches meaningful writing with an eye toward careful examination of authentic writing samples.
Prerequisite: CHI 4050

CHI 4850 Structure of Chinese 3 Credits
Grading Scheme: Letter Grade
Introduction to phonological, grammatical and discourse structures of Mandarin Chinese, with an emphasis on its contrastive aspects with the English language. (S and N)
Prerequisite: CHI 1131 with minimum grade of C or LIN 3010, or instructor permission.
Attributes: General Education - International, General Education - Social Science

CHI 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course. Includes all individual study courses offered by the Chinese section.

CHI 4911 Undergraduate Research in Language or Linguistics 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Language or Linguistics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Language or Linguistics.

CHI 4930 Special Topics in Chinese Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in Chinese studies.

CHI 4935 Senior Thesis 3 Credits
Grading Scheme: Letter Grade
Select a Chinese faculty member to act as director for an independent research project that culminates in the preparation of an honors thesis.
Prerequisite: minimum 3.5 GPA and instructor permission.

CHI 4940 Internship 1-6 Credits
Grading Scheme: Letter Grade
Gain practical experience that enhances classroom learning.

CHI 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade

CHT 3110 Chinese Literary Heritage 3 Credits
Grading Scheme: Letter Grade
Introduces pre-modern Chinese literature in translation. Topics chosen from classical poetry, short stories, novels and drama. Emphasis is on the interplay between orthodox values and the folk tradition. All readings in English. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

CHT 3123 Pre-Modern Chinese Fiction in Translation 3 Credits
Grading Scheme: Letter Grade
Pre-modern Chinese narrative from its philosophical and historical origins to the fiction at the turn of the 20th century. Emphasizes the 16th and 17th centuries when Chinese vernacular fiction flourished. (H and N)
Attributes: General Education - Humanities, General Education - International

CHT 3124 Modern Chinese Fiction in Translation 3 Credits
Grading Scheme: Letter Grade
A survey of modern Chinese fiction in translation. Samples are from the early 20th century through the contemporary era and include writers of the early Republic, the P.R.C. and Taiwan. Focus is on fiction as a vehicle for social change. All readings in English. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

CHT 3391 Chinese Film and Media 4 Credits
Grading Scheme: Letter Grade
Examination of Chinese cinema and other forms of media such as television, music and print culture in a broad sociopolitical and historical context. An interdisciplinary approach with a diversity of readings and multimedia tools incorporated into discussions.
Prerequisite: One ENG, CHI, CHT, or CHW course, or instructor permission.

CHT 3500 Chinese Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to Chinese culture with emphasis on its philosophy, language, society, art and people as a whole. All readings in English. (H and N)
Attributes: General Education - Humanities, General Education - International

CHT 3513 Taoism and Chinese Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to the general history and culture of Taoism in ancient and modern China: its thoughts, belief systems, cultural influences, practices and rituals.

CHT 3523 Hong Kong, Taiwan, and the New Global Cinema 4 Credits
Grading Scheme: Letter Grade
Overview of Sinophone film in Hong Kong, Taiwan, and the broader sphere of Chinese diaspora. Addresses film history, culture, and aesthetics.
Prerequisite: CHI 1130 or ENG 1400 or ENG 2300 or instructor permission.

CHT 4111 Dream of the Red Chamber 3 Credits
Grading Scheme: Letter Grade
Explores the intellectual and social life of traditional China through the 18th century epic novel, Story of the Stone. Also studies interpretive theories of the novel, both Chinese and Western. All readings are in English. (H and N OR S and N) (WR)
Prerequisite: CHI 3500 or CHT 3110, or instructor permission.
Attributes: General Education - Humanities, General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

CHT 4603 Journey to the West 3 Credits
Grading Scheme: Letter Grade
Exploration of traditional Chinese religious culture, cultural history and literacy expression through a 100 chapter novel known as Journey to the West, or Monkey.
Prerequisite: one course in Chinese culture or instructor permission.

CHT 4911 Undergraduate Research in English Translation 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in English Translation. Projects may involve inquiry, design, investigation, scholarship, discovery or application in English Translation.

CHW 4120 Classical Chinese 1 3 Credits
Grading Scheme: Letter Grade
Introduction to classical Chinese prose with texts drawn mainly from early histories and philosophical writings (500 BC - AD 100). Emphasis on reading comprehension, grammar analysis and translation.
Prerequisite: CHI 2231 with minimum grade of C or instructor permission.

CHW 4121 Classical Chinese 2 3 Credits
Grading Scheme: Letter Grade
Continuation of CHW 4120 focusing on classical Chinese prose with texts drawn from early historical and philosophical texts to belles lettres of the medieval era and later periods. Emphasis on reading comprehension, grammar analysis and translation.
Prerequisite: CHW 4120 or instructor permission.

CHW 4130 Readings in Chinese Literature 3 Credits
Grading Scheme: Letter Grade
Introduces advanced language students to a sampling of Chinese writers. Materials chosen from classic or modern/contemporary Chinese literature rotated across semesters. All readings in Chinese. (H and N)
Prerequisite: CHI 3410 or the equivalent.
Attributes: General Education - Humanities, General Education - International

CHW 4140 Newspaper Chinese 3 Credits
Grading Scheme: Letter Grade
Development of ability to understand and translate the documentary prose style used in Chinese newspapers and academic journals. Introduces literary function words and grammar structures, with comparison to the vernacular. Most readings in the simplified character form used in the PRC; all readings in Chinese. Applications for research on modern China.
Prerequisite: CHI 3410 or instructor permission.

CHW 4911 Undergraduate Research in Target Language 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery or application.

Civil and Coastal Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

CCE 4015 Civil Engineering Estimating 3 Credits
Grading Scheme: Letter Grade
Design of systems for estimating and cost control of man-machine productivity for civil engineering projects. Analysis of cost factors required for optimization of engineering-investment efficiency.
Prerequisite: CCE 4204 and engineering major of junior standing or higher.

CCE 4204 Construction Equipment, Methods and Management 3 Credits
Grading Scheme: Letter Grade
Theory and practice of construction operations, equipment utilization and construction methods. Analysis of costs. Optimizing crew and equipment. Heavy equipment costs. New emphasis on planning and executing a construction project.
Prerequisite: junior standing or higher or instructor permission.
Corequisite: CGN 4101.

CCE 4811 Construction Engineering Design 3 Credits
Grading Scheme: Letter Grade
Simulation of comprehensive construction project involving all phases of planning, scheduling and control from start to finish, which involves making major decisions. Oral presentation at the end of course.
Prerequisite: CGN 4160 and (CGN 4101 or EIN 3354).

CEG 4011 Soil Mechanics 4 Credits
Grading Scheme: Letter Grade
Physical properties of soils, compaction, flow of water through soil, distribution of stress within soil and consolidation. Laboratory.
Prerequisite: EGM 3520.

CEG 4012 Geotechnical Engineering 3 Credits
Grading Scheme: Letter Grade
Subsurface exploration settlements analysis, slope stability, earth pressure and an introduction to foundation design.
Prerequisite: CEG 4011.

CEG 4104 Retaining Wall and Embankment Design 3 Credits
Grading Scheme: Letter Grade
The application of soil mechanics to the design and analysis of various types of retaining structures and earthen embankments.
Prerequisite: CEG 4012.

CEG 4111 Foundation Engineering Design 3 Credits
Grading Scheme: Letter Grade
Comprehensive design of geotechnical system, focusing on design of complete project and utilizing CAD programs. Designs, drawings and oral presentations through group effort.
Prerequisite: CEG 4012.

CES 3102 Mechanics of Engineering Structures 4 Credits
Grading Scheme: Letter Grade
Introduces structural load, equilibrium, shear and bending moment diagrams, structural analysis software, classical methods for displacement determination, method of consistent deformations, slope deflection method, moment distribution method.
Prerequisite: EGM 3520.

CES 4141 Matrix Structural Analysis 3 Credits
Grading Scheme: Letter Grade
Determining structural loads, solving matrix equations, direct stiffness method, formulation of element matrices, transformations, modeling realistic frame and truss systems, introduces the finite element method, determining convergence, interpretation of results, model validation.
Prerequisite: (CES 3102 and CGN 3421 and Engineering major) or instructor permission.

CES 4605 Analysis and Design in Steel 3 Credits
Grading Scheme: Letter Grade
Elastic and plastic theories of design, design of members subjected to tension, compression, flexure and torsion. Design of connections and rigid frames.
Prerequisite: CES 3102 and CGN 3501C and Engineering major.

CES 4608 Advanced Steel Design 3 Credits
Grading Scheme: Letter Grade
Advanced topics in the design of steel structural building systems, advanced column and beam design, base plate design, moment amplification, second-order analysis, bracing considerations, beam-columns, interaction equations, connection design, composite design, plate girders.
Prerequisite: CES 4605 and Engineering major.

CES 4702 Analysis and Design in Reinforced Concrete 3 Credits
Grading Scheme: Letter Grade
Ultimate strength analysis and design of reinforced beams and columns, working stress design for flexure, design of footings and retaining walls.
Prerequisite: CES 3102 and CGN 3501C and Engineering major.

CES 4704 Advanced Reinforced Concrete Design 3 Credits
Grading Scheme: Letter Grade
Advanced topics in the design of concrete building systems. Long columns and frames, floor and roof systems, including two-way slabs, continuous beams, spandrel beams, torsion, foundations, introduces pre-stressed concrete.
Prerequisite: CES 4702 and Engineering major.

CGN 2002 Introduction to Civil Engineering 1 Credit
Grading Scheme: Letter Grade
Introduces the broad field of civil engineering.

CGN 2328 Technical Drawing and Visualization 3 Credits
Grading Scheme: Letter Grade
Two- and three-dimensional graphical methods of visualizing and communicating features of projects for construction involving parcel boundaries, topography, drainage, site modeling, site development, structures, buildings and objects using both traditional and computer-aided drafting and design techniques.
Prerequisite: minimum 2EG classification.

CGN 3421 Computer Methods in Civil Engineering 3 Credits
Grading Scheme: Letter Grade
Review of computer programming. Numerical methods as applied to civil engineering problems and civil engineering software.
Prerequisite: COP 2271

CGN 3501C Civil Engineering Materials 4 Credits
Grading Scheme: Letter Grade
Studies the principal materials used for engineering purposes with special attention to mechanical properties and their importance to the engineer. Hands-on experience in testing of civil engineering materials.
Corequisite: EGM 3520.

CGN 3510 Introduction to Sustainable Engineering 3 Credits
Grading Scheme: Letter Grade
Overview of the principles of sustainability as they relate to civil and environmental engineering issues. Discussions and projects facilitate a basic understanding of the production-consumption model and life cycle assessment.
Prerequisite: Engineering major.

CGN 3710 Experimentation and Instrumentation in Civil Engineering 3 Credits
Grading Scheme: Letter Grade
Fundamentals and applications of measuring systems commonly used in civil engineering. Topics include recording techniques, strain, force, displacement, flow, temperature, humidity and PH measurements.
Prerequisite: PHY 2049.

CGN 4101 Civil Engineering Cost Analysis 3 Credits
Grading Scheme: Letter Grade
Analysis of civil engineering proposals, utilizing time-value and related factors. Feasibility and optimum life comparisons. Utility rate derivation, utility/cost method.
Prerequisite: 3EG classification or instructor permission.

CGN 4160 Civil Engineering Practice 3 Credits
Grading Scheme: Letter Grade
Fundamentals of civil engineering professional practice: project management, construction delivery processes, business concepts, public policy, administration and leadership.
Prerequisite: EGM 2511 or equivalent.
Corequisite: CGN 2328.

CGN 4503 Pavement Design 3 Credits
Grading Scheme: Letter Grade
Function and material requirements of different elements of flexible and rigid pavement systems; characterization of soils, materials, traffic loads, and environment for design; flexible and rigid pavement design; new developments.
Prerequisite: CGN 3501C.

CGN 4600 Public Works Engineering and Management Practices 3 Credits
Grading Scheme: Letter Grade
Public works profession, organization, administration and management of operating divisions with emphasis on role of engineer.

CGN 4806 Transportation-Water-Materials Design 3 Credits
Grading Scheme: Letter Grade
Simulation of a design project experience through the completion and presentation of a comprehensive roadway project design. Students work in multi-disciplinary groups to complete a system design that includes traffic, materials, hydrologic and geotechnical considerations.
Prerequisite: senior standing.

CGN 4905 Special Problems in Civil Engineering 1-4 Credits
Grading Scheme: Letter Grade
Selected problems or projects in the student's major field of engineering study.
Prerequisite: undergraduate coordinator permission.

CGN 4910 Structures-Geotechnical-Construction Comprehensive System Design 3 Credits
Grading Scheme: Letter Grade
Simulation of a design office experience through the completion and presentation of a comprehensive building design. Students work in multi-disciplinary groups to complete a system design that includes structural, geotechnical and construction management considerations.
Prerequisite: instructor permission.

CGN 4949 Co-op Work Experience 1 Credit
Grading Scheme: S/U
Co-op work experience in a related field.
Prerequisite: Engineering major.

CWR 3201 Hydrodynamics 4 Credits
Grading Scheme: Letter Grade
Classification and properties of fluids, hydrostatics, and conservation of mass, momentum and energy in fluid flow. Potential flow, similitude and physical modeling. Laminar and turbulent pipe flow. Introduces turbomachines.
Prerequisite: EGM 3400 and MAP 2302.

CWR 4114 Surface Hydrology 3 Credits
Grading Scheme: Letter Grade
Occurrence and distribution of water by natural processes, including atmospheric thermodynamics, precipitation, runoff, infiltration, water losses, flood routing and catchment characteristics, analysis and methods of runoff prediction.
Prerequisite: CWR 4202.

CWR 4120 Groundwater 3 Credits
Grading Scheme: Letter Grade
Introduces groundwater hydraulics, including hydrologic cycle, Darcy's equation, Dupuit assumption, well hydraulics, regional flow, freshwater-saltwater interface, flow in the unsaturated zone, fate and transport of contaminants and contaminant plume model.
Prerequisite: CWR 4202.

CWR 4202 Hydraulics 3 Credits
Grading Scheme: Letter Grade
Fundamental equations for pipe and open conduit flow. Development of design oriented formulas for pipes and open channels. Introduces hydrology.
Prerequisite: CWR 3201 or instructor permission.

CWR 4306 Urban Stormwater Systems Design 3 Credits
Grading Scheme: Letter Grade
Surface-water system design including: time of concentration, peak runoff rate, open-channel flow, gravity storm sewer, culvert, stormwater pumping, filtration systems, hydrograph generation, flood routing, site layout, site grading and permitting.
Corequisite: CWR 4202.

CWR 4542 Water Resources Engineering 3 Credits
Grading Scheme: Letter Grade
Study of water resources engineering applications including hydrology and statistics, groundwater, hydraulic machinery, dams and reservoirs, water quality, water quality modeling, water and waste-water treatment and water law and institutions.
Prerequisite: CWR 4202.

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

EGS 1005 Prep for Success 1-4 Credits
Grading Scheme: S/U
Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)
Prerequisite: EG student.

ENV 4514C Water and Wastewater Treatment 3 Credits
Grading Scheme: Letter Grade
Design of water and wastewater treatment units.

OCE 3016 Introduction to Coastal and Oceanographic Engineering 3 Credits
Grading Scheme: Letter Grade
Introduces important coastal and oceanographic processes. Geophysical fluid motions; waves and tides; air-sea interaction; pollutant transport; coastal hydraulic and sedimentary processes. Not intended for engineering majors.

TTE 4004C Transportation Engineering 4 Credits
Grading Scheme: Letter Grade
Overview of the significance of highway transportation to the social and economic underpinnings of society. Introduces road vehicle performance, geometric design of highways, traffic flow and queuing theory, highway capacity and level of service analysis, traffic control and analysis at signalized intersections, and travel demand and traffic forecasting.
Prerequisite: 3EG classification.

TTE 4106 Urban Transportation Planning 3 Credits
Grading Scheme: Letter Grade
Overview of the four-step urban transportation planning process; includes analytical techniques for estimating future travel demand and state-of-the-art approaches.
Prerequisite: TTE 4004C.

TTE 4201 Traffic Engineering 3 Credits
Grading Scheme: Letter Grade
General review of the fundamentals of traffic engineering with emphasis on field studies and data analysis.
Prerequisite: TTE 4004C.

TTE 4203 Highway Capacity Analysis 3 Credits
Grading Scheme: Letter Grade
Provide students with detailed instruction on the procedures defined within the 2010 Highway Capacity Manual (HCM), including analytical chapters for uninterrupted and interrupted flow.
Prerequisite: TTE 4004C.

TTE 4300 Transportation Systems Analysis 3 Credits
Grading Scheme: Letter Grade
Systems analysis in transportation planning and engineering, including supply, demand, equilibrium, evaluation and decision analysis.
Prerequisite: TTE 4004C.

TTE 4824 Transportation Facility Design 3 Credits
Grading Scheme: Letter Grade
Simulates a comprehensive design of a transportation facility, specifically an arterial-freeway interchange. Utilizes state and national-level design manuals in preparation of standard plans. Applies the theoretical background gained in supporting classes, in areas such as traffic analysis, roadway design, roadway drainage and pavement design. Some review of this material is provided, as well as introduction of several new concepts. Emphasizes teamwork skills and technical communication skills.
Prerequisite: SUR 4201 and TTE 4004C.

Classics

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

CLA 2100 The Glory That Was Greece 3 Credits
Grading Scheme: Letter Grade
A broad cultural view of the classical Greek world. Greek sources are read in translation. (H and N)
Attributes: General Education - Humanities, General Education - International

CLA 2120 The Grandeur That Was Rome 3 Credits
Grading Scheme: Letter Grade
Provides a multi-faceted introduction to the culture of Rome. Primary source material is read in translation. (H and N)
Attributes: General Education - Humanities, General Education - International

CLA 2521 Classical Antiquity and Sustainability 3 Credits
Grading Scheme: Letter Grade
Examines classical antiquity, applying methods and theories of sustainability to explore the impact of the ancient Greeks and Romans on their environment and focusing on the distribution of wealth, social stratification, land use and classical representations of the natural world. (H)
Attributes: General Education - Humanities

CLA 3111 Athens in Topography and Monuments 3 Credits
Grading Scheme: Letter Grade
Explores the topography and monuments of ancient Athens to understand social, historical, economic and religious institutions.
Attributes: General Education - Humanities, General Education - International

CLA 3114 Greece Today and Yesterday 3 Credits
Grading Scheme: Letter Grade
An interdisciplinary course examining various aspects of ancient and modern Greek life and culture. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

CLA 3151 Pompeii: An Archaeological Laboratory 3 Credits
Grading Scheme: Letter Grade
Studies the material remains of a Roman town through an examination of the excavated finds: architecture, wall-paintings and inscriptions. (H and N)
Attributes: General Education - Humanities, General Education - International

CLA 3160 Ancient Egypt 3 Credits
Grading Scheme: Letter Grade
Studies the civilization, culture and monuments of ancient Egypt from prehistoric times to the New Kingdom and Late period. (H and N)
Attributes: General Education - Humanities, General Education - International

CLA 3161 Introduction to Hieroglyphics 3 Credits
Grading Scheme: Letter Grade
A beginner's course in Egyptian hieroglyphics of the Middle Kingdom. Also designed for students with no former instruction in ancient languages.
Prerequisite: CLA 3160.

CLA 3433 The Athenian Democracy 3 Credits
Grading Scheme: Letter Grade
Studies ancient Athens from c.650-322 BCE, with attention to the political, social and cultural institutions of the democracy, drawing on primary sources and modern theory to explain democratic changes from the archaic to the classical period. (H)
Attributes: General Education - Humanities

CLA 3434 Classical Greece 3 Credits
Grading Scheme: Letter Grade
Studies the social, political and cultural developments of classical Greece from the Persian Wars to the death of Alexander (500-322 BCE). (H)
Attributes: General Education - Humanities

CLA 3500 Sport and Recreation in the Ancient World 3 Credits
Grading Scheme: Letter Grade
Examines literary and archaeological sources to determine the social, economic, political and cultural importance of games in the ancient Mediterranean world from the time of Homer to the fall of the Roman Empire.
Prerequisite: sophomore standing or higher.

CLA 3504 Gender and Sexuality in Classical Antiquity 3 Credits
Grading Scheme: Letter Grade
Explores perceptions of the masculine and feminine in Ancient Greece and Rome, discussing these stereotypes in their political, social, economic and cultural contexts. (H)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

CLA 3700 Classical Archaeology 3 Credits
Grading Scheme: Letter Grade
Illustrated lectures on archaeology, its process of discovery and methods. History of major archaeological exploration in Mediterranean lands compared with extant literary information. (H and N)
Attributes: General Education - Humanities, General Education - International

CLA 3791 The Ancient City: Greek Cities 3 Credits
Grading Scheme: Letter Grade
Development of the cities of classical Greece from Minoan centers through Byzantium. All aspects of city life are covered: design, building techniques, culture and ideas. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

CLA 3793 The Ancient City: Roman Cities 3 Credits
Grading Scheme: Letter Grade
Studies the cities of the Roman Empire from the founding of Rome to the establishment of Constantinople as the Eastern capital. Emphasis on life in imperial Rome and in European and North African cities. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

CLA 3930 Special Topics in Classical Civilization 3 Credits
Grading Scheme: Letter Grade
Examines various aspects of Greek and Roman culture based on the ancient sources, literary and archaeological. (H and N)
Attributes: General Education - Humanities, General Education - International

CLA 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
Reading, conference and reports. All work in will be in translation.
Prerequisite: instructor permission.

CLA 4911 Undergraduate Research in Classical Civilization 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Classical Civilization. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Classical Civilization.

CLA 4931 Classics Capstone Seminar 3 Credits
Grading Scheme: Letter Grade
Introduces scholarly literature on a significant topic in classics. Students will write a research paper showing proper use of primary and secondary sources on the topic.
Prerequisite: classics major with at least 18 credits of CLA and/or CLT courses and at least 8 credits of Latin or Ancient Greek.

CLA 4956 Overseas Studies 1 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

CLT 2044 English Vocabulary from Greek and Latin 3 Credits
Grading Scheme: Letter Grade
Historical study of the origins, development and lexicography of English vocabulary with emphasis on elements derived from Greek and Latin. (H)
Attributes: General Education - Humanities

CLT 3123 Survey of Roman Literature 3 Credits
Grading Scheme: Letter Grade
Critical study of the development of Roman literature. Includes readings from Plautus, Cicero, Catullus, Vergil, Ovid and Tacitus, read in translation. (H and N)
Attributes: General Education - Humanities, General Education - International

CLT 3291 Greek Drama 3 Credits
Grading Scheme: Letter Grade
The classical Greek theater, archaeological remains of important theaters and selected plays of Aeschylus, Sophocles, Euripides, Aristophanes and Menander. All works are read in translation. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

CLT 3340 Ancient Greek and Roman Epic 3 Credits
Grading Scheme: Letter Grade
Examines the origin and development of the ancient Greek and Roman epic traditions in the political and social context of the Mediterranean region and Near East from the first millennium BCE through the first century CE. (H)
Attributes: General Education - Humanities

CLT 3370 Myths of the Greeks and Romans 3 Credits
Grading Scheme: Letter Grade
Development, importance and influence of Graeco-Roman mythology. The main Greek and Latin literary sources are read in translation. (H and N)
Attributes: General Education - Humanities, General Education - International

CLT 3371 Religions of the Graeco-Roman World 3 Credits
Grading Scheme: Letter Grade
Development, importance and influence of Greek and Roman religion and cult practice. The main literary and epigraphical sources are read in translation. (H and N)
Attributes: General Education - Humanities, General Education - International

CLT 3421 Classics and Science Fiction 3 Credits
Grading Scheme: Letter Grade
Studies science fiction's origins in Greek and Roman texts to investigate the influence of Greco-Roman literature on modern works of science fiction.
Prerequisite: CLA 2100 or CLA 2120 or CLT 2044.

CLT 3510 Ancient World in Film 4 Credits
Grading Scheme: Letter Grade
Examines film and television characterizations of the ancient world and how these accord with the facts as we know them through historical and archaeological evidence. Viewing of selected movies along with background readings, lectures and discussion. (H)
Attributes: General Education - Humanities

CLT 3531 Legendary Rome 3 Credits
Grading Scheme: Letter Grade
The myths and history associated with Rome's early foundation stories and examination of works of literature about Rome's foundation in their political, social and cultural contexts.

CLT 3930 Special Topics in Classical Literature 3 Credits
Grading Scheme: Letter Grade
Examines various aspects of Greek and Roman literature with focus on special genres (e.g., historiography), periods (e.g., the age of Augustus) or subjects (e.g., slavery). (H)
Attributes: General Education - Humanities

CLT 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
Reading, conference and reports. All works are read in translation.
Prerequisite: instructor permission.

GMT 3223 Lovers in the Greek Novel 3 Credits
Grading Scheme: Letter Grade
Examines Ancient Greek and Byzantine novels that feature the adventures of virtuous young lovers as they handle with sophistication issues of ethnicity and identity, as well as political and social concerns.
Prerequisite: sophomore standing or higher.

GMT 3513 Greece in the European Context in the 20th Century 3 Credits
Grading Scheme: Letter Grade
Overview of Greek politics, society and culture in the 20th century.

GMT 4110 The Literature of Byzantium 3 Credits
Grading Scheme: Letter Grade
Overview of major genres of Byzantine literature (Patristic literature, oratory, historiography, chronicle, hagiography, hymnography, epic poetry) from the years CE 330-1453. (H) (WR)
Prerequisite: instructor permission.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

GMT 4911 Undergraduate Research in Modern Greek Language and Literature 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

GRE 1120 Beginning Ancient Greek 1 4 Credits
Grading Scheme: Letter Grade
The basics of ancient Greek grammar, morphology, syntax and vocabulary.

GRE 1121 Beginning Ancient Greek 2 4 Credits
Grading Scheme: Letter Grade
The basics of ancient Greek grammar, morphology, syntax and translation, with special attention to irregular verbs.
Prerequisite: GRE 1120 or GRE 1130.

GRE 1130 Accelerated Beginning Ancient Greek 1 5 Credits
Grading Scheme: Letter Grade
This course and its sequel, GRE 1131, constitute the basic sequence for development of overall skill in the language.

GRE 1131 Accelerated Beginning Ancient Greek 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the basic sequence for development of overall skill in the language.
Prerequisite: GRE 1130 or the equivalent.

GRK 1130 Beginning Modern Greek 1 5 Credits
Grading Scheme: Letter Grade
This course and its sequel, GRK 1131, constitute the basic sequence for development of overall skill in the language.

GRK 1131 Beginning Modern Greek 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the basic sequence for development of overall skill in the language.
Prerequisite: GRK 1130 or the equivalent.

GRK 2200 Intermediate Modern Greek 1 3 Credits
Grading Scheme: Letter Grade
Readings in modern Greek literature, history and culture. (H and N)
Prerequisite: GRK 1131 or the equivalent.
Attributes: General Education - Humanities, General Education - International

GRK 2201 Intermediate Modern Greek 2 3 Credits
Grading Scheme: Letter Grade
Additional readings in modern Greek literature, history and culture. (H and N)
Prerequisite: GRK 2200 or the equivalent.
Attributes: General Education - Humanities, General Education - International

GRK 4300 Modern Greek Literature Since 1830 3 Credits
Grading Scheme: Letter Grade
Advanced study of representative modern Greek prose, poetry and drama in the original from independence (1830) to the present. The course combines the study of the modern Greek language with readings, analysis and discussion of major literary works.
Prerequisite: GRK 2201 or the equivalent.

GRK 4905 Individual Work in Modern Greek 1-4 Credits
Grading Scheme: Letter Grade
For advanced students who seek independent work not offered in another course. Must be arranged individually with Greek faculty.
Prerequisite: GRK 1131.

GRW 2211 Intermediate Greek Prose 3 Credits
Grading Scheme: Letter Grade
Readings selected from Attic Greek prose authors designed to aid students in the transition from grammar to connected prose passages.
Prerequisite: GRE 1121 or GRE 1131 or the equivalent.

GRW 2240 New Testament Greek 3 Credits
Grading Scheme: Letter Grade
Reviews grammar and forms. Readings from several books of the New Testament. (H and N)
Prerequisite: some knowledge of Greek and instructor permission.
Attributes: General Education - Humanities, General Education - International

GRW 3102 Survey of Greek Literature 2 3 Credits
Grading Scheme: Letter Grade
Studies representative texts from various periods of Greek literature. (H and N)
Attributes: General Education - Humanities, General Education - International

GRW 3301 Greek Drama 3 Credits
Grading Scheme: Letter Grade
Selected plays of Aeschylus, Sophocles or Euripides.
Prerequisite: one 2000-level Greek course or the equivalent.

GRW 3501 Plato 3 Credits
Grading Scheme: Letter Grade
Studies Plato's Meno and Apology. (H and N)
Prerequisite: GRE 1131 or the equivalent.
Attributes: General Education - Humanities, General Education - International

GRW 4330 Greek Lyric Poetry 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of Greek lyric poetry, from Archilochus to Bacchylides. (H and N)
Prerequisite: two 3000-level Greek courses or the equivalent.
Attributes: General Education - Humanities, General Education - International

GRW 4340 Homer and Greek Epic 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of selections from Homer's Iliad and Odyssey. (H and N)
Prerequisite: two 3000-level Greek courses or the equivalent.
Attributes: General Education - Humanities, General Education - International

GRW 4380 Greek Historians 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of selections of Herodotus, Thucydides, Xenophon and Plutarch. (H and N)
Prerequisite: two 3000-level Greek courses or the equivalent.
Attributes: General Education - Humanities, General Education - International

GRW 4700 Greek Orators 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of selections from Lysias, Demosthenes and Isocrates. (H and N)
Prerequisite: two 3000-level Greek courses or the equivalent.
Attributes: General Education - Humanities, General Education - International

GRW 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
Reading, conference and reports.
Prerequisite: GRE 1131 or the equivalent.

GRW 4911 Undergraduate Research in Greek Language and Literature 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

GRW 4930 Studies in Greek Literature 3 Credits
Grading Scheme: Letter Grade
Advanced study of a particular author, genre, period or subject.
Prerequisite: one 3000-level course in ancient Greek.

LAT 1101 Beginning Latin 2 3 Credits
Grading Scheme: Letter Grade
The second part of the sequence for those with little or no background in Latin.
Prerequisite: LAT 1120 with minimum grade of C or S, or the equivalent.

LAT 1104 Beginning Latin 3 3 Credits
Grading Scheme: Letter Grade
The third part of the sequence for students with little background in high-school Latin.
Prerequisite: LAT 1101 with minimum grade of C or S, or the equivalent.

LAT 1120 Beginning Latin 1 4 Credits
Grading Scheme: Letter Grade
The first of a 3-semester sequence for students with little or no background in Latin. Others enrolling in the course will be required to take it for an S-U grade.

LAT 1130 Accelerated Beginning Latin 1 5 Credits
Grading Scheme: Letter Grade
This course and its sequel, LAT 1131, constitute the basic sequence for development of overall skill in the language. Students are expected students to have little or no background in Latin. Others enrolling in the course will be required to take it for an S-U grade.

LAT 1131 Accelerated Beginning Latin 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the basic sequence for development of overall skill in the language.
Prerequisite: LAT 1130 with minimum grade of C, or S, or the equivalent.

LIT 2000 Introduction to Literature 3 Credits
Grading Scheme: Letter Grade
Examines the important role literature has played in individuals' lives and in society, presenting a range of literary styles and genres, from different countries and historical periods. Special attention paid to development of critical skills of analysis and interpretation. (H)
Prerequisite: ENC 1101
Attributes: General Education - Humanities

LNW 2321 Introduction to Vergil 3 Credits
Grading Scheme: Letter Grade
Readings in Vergil's Eclogues, Georgics and/or the Aeneid, with emphasis on introducing Vergilian style, diction poetic techniques and basic genre differences. Review of Latin grammar and syntax. (H)
Prerequisite: LAT 1104 or LAT 1131 or two years of high school Latin.
Attributes: General Education - Humanities

LNW 2560 Readings in Latin Literature 3 Credits
Grading Scheme: Letter Grade
Examines various aspects of Roman life through readings in Latin literature (with a focus on either special subjects, authors, genres or periods) and a review of Latin grammar. (H)
Prerequisite: LAT 1104, LAT 1131 or two years of high school Latin, or instructor permission.
Attributes: General Education - Humanities

LNW 2630 Latin Love Poetry 3 Credits
Grading Scheme: Letter Grade
Translation and interpretation of selected poems of Catullus and a thorough review of Latin grammar. (H and N)
Prerequisite: LAT 1104 or LAT 1131 or two years of high school Latin, or instructor permission.
Attributes: General Education - Humanities, General Education - International

LNW 3220 The Ancient Novel 3 Credits
Grading Scheme: Letter Grade
Readings from Petronius, Apuleius or the Historia Apollonii Regis Tyri. (H and N)
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.
Attributes: General Education - Humanities, General Education - International

LNW 3310 Roman Drama 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of the comedies of Plautus and Terence or the tragedies of Seneca. (H)
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.
Attributes: General Education - Humanities

LNW 3320 Roman Elegy and Lyric 3 Credits
Grading Scheme: Letter Grade
Selected poems of Catullus, Horace, Tibullus, Propertius or Ovid. (H and N)
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.
Attributes: General Education - Humanities, General Education - International

LNW 3360 Roman Satire 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of the Roman satirists Horace, Persius, Juvenal or Martial. (H and N)
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.
Attributes: General Education - Humanities, General Education - International

LNW 3380 The Roman Historians 3 Credits
Grading Scheme: Letter Grade
Readings in Latin from one of the Roman historians: Sallust, Caesar, Livy or Tacitus. (H and N)
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.
Attributes: General Education - Humanities, General Education - International

LNW 3490 Medieval Latin 3 Credits
Grading Scheme: Letter Grade
Readings from Medieval Latin 350 - 1200 A.D. (H and N)
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.
Attributes: General Education - Humanities, General Education - International

LNW 3644 Cicero 3 Credits
Grading Scheme: Letter Grade
Essays, speeches and letters of Cicero. (H and N)
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.
Attributes: General Education - Humanities, General Education - International

LNW 3660 Vergil and Roman Epic 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of selections from Vergil's Aeneid in the light of his epic techniques and the spirit of the Augustan Age. (H and N)
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.
Attributes: General Education - Humanities, General Education - International

LNW 3930 Studies in Latin Literature 3 Credits
Grading Scheme: Letter Grade
A rotating topics course providing in-depth study of a particular author (e.g., Suetonius), genre (e.g., didactic poetry) or period (e.g., The Silver Age).
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.

LNW 4905 Special Study in Latin 1-4 Credits
Grading Scheme: Letter Grade
Readings, conferences and reports.
Prerequisite: LAT 1104, LAT 1131, LAT 2200 or the equivalent.

LNW 4911 Undergraduate Research in Latin Language and Literature 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

Clinical and Health Psychology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

CLP 3911 Introduction to Clinical Research 1-3 Credits
Grading Scheme: S/U
Hands-on, faculty-supervised research experience in an area of interest to the student. Introduces current research techniques, including the design and development of clinical research projects and data analysis. Three hours of laboratory work or other research activity (e.g., literature searches, grant preparation, recruitment of study participants, etc.) are required for each semester credit. (S-U)

CLP 4134 Introduction to Clinical Child/Pediatric Psychology 3 Credits
Grading Scheme: Letter Grade
Survey and exploration of the science and practice of clinical child/pediatric psychology, including application of clinical science to problems faced by children and their families. Course also emphasizes assessment and intervention methodologies related to child behavior and health.
Prerequisite: PSY 2012 and CLP 3144, and STA 2023.

CLP 4302 Introduction to Clinical Psychology 3 Credits
Grading Scheme: Letter Grade
Survey and exploration of contemporary roles of clinical psychologists. Course also emphasizes the integration of science and practice when solving problems of individuals, families and groups.
Prerequisite: PSY 2012 and CLP 3144 and STA 2023 and (communication sciences and disorders or health science majors or health science minor).

CLP 4314 Introduction to Health Psychology 3 Credits
Grading Scheme: Letter Grade
Survey and exploration of the science and practice of clinical health psychology. Course also emphasizes application of the biopsychosocial model of health and illness to health promotion, disease prevention and the treatment and rehabilitation of existing illness and disability.
Prerequisite: PSY 2012 and CLP 3144 and (three additional credits in psychology or health science or statistics) and (communication sciences and disorders or health science majors or health science minor).

CLP 4420 Introduction to Neuropsychology 3 Credits
Grading Scheme: Letter Grade
Survey and exploration of the science and practice of clinical neuropsychology. Course also emphasizes discussion of major neuropsychological disorders and the mechanisms underlying higher cognitive function.
Prerequisite: PSY 2012 and CLP 3144 and (three additional credits in psychology or health science or statistics).

Computer and Information Science and Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Bachelor's degree programs are currently available through the College of Liberal Arts and Sciences and the Herbert Wertheim College of Engineering. A minor in computer and information science, master's degree programs and a Ph.D. program also are available.

There are strict limitations on the use of CGS and survey courses in the programs offered by the department.

College of Engineering degree program in computer engineering: Refer to the Herbert Wertheim College of Engineering section of the catalog for degree requirements; this program is offered by the CISE department.

The Herbert Wertheim College of Engineering offers two degrees in computer engineering: the CEN degree (computer engineering: software option) is offered by the CISE department and the CEE degree (computer engineering: hardware option) is offered by the ECE department.
More Info (https://catalog.ufl.edu/ugrad/current/engineering/majors/computer-engineering.aspx)

The college also offers a computer science degree program through the CISE department.
More Info (https://catalog.ufl.edu/ugrad/current/engineering/majors/computer-science.aspx)

College of Liberal Arts and Sciences degree program in computer science: refer to the College of Liberal Arts and Sciences section of the catalog for degree requirements.

Courses

CAP 3020 Theory and Practice of Multimedia Production 3 Credits
Grading Scheme: Letter Grade
Combines the traditional media production pipeline and software engineering processes to synthesize an approach geared for the production of works incorporating both artistic and computational elements.
Prerequisite: CAP 3027.

CAP 3027 Introduction to Digital Arts and Sciences 3 Credits
Grading Scheme: Letter Grade
Synergy between art and computing through a programming-oriented exploration of fundamental concepts in multimedia.
Prerequisite: COP 3504 or COP 3503.

CAP 3032 Interactive Modeling and Animation 1 3 Credits
Grading Scheme: Letter Grade
Introduces programming and data structures for interactive two-dimensional multimedia applications. Representing form and transforms in two dimensions, capturing user actions and driving application behavior interactively. Graphical interfaces, image processing, automata and basic artificial intelligence.
Prerequisite: MAC 1147 or equivalent.

CAP 3034 Introduction to Computer-Aided Animation 3 Credits
Grading Scheme: Letter Grade
Introduces topics related to computer-aided animation. Rigging for forward and inverse kinematics. Skin weighting. Morph targets. Expression-driven animation, rigid-body and particle simulation.
Prerequisite: MAC 1147 or equivalent.

CAP 3220 Introduction to Computer-Aided Modeling 3 Credits
Grading Scheme: Letter Grade
Introduces topics related to computer-aided modeling. Polygonal mesh, NURBS and subdivision surface meshes. Materials and shading networks. Lighting, shadows and rendering.
Prerequisite: MAC 1147 or equivalent.

CAP 4053 Artificial Intelligence for Computer Games 3 Credits
Grading Scheme: Letter Grade
Examines the use of A.I. in computer games. Topics include general A.I. knowledge, path finding, movement, tactics and planning, strategy, state machines, learning, dialogue, and emotions.
Prerequisite: COP 3530.

CAP 4621 Artificial Intelligence and Heuristics 3 Credits
Grading Scheme: Letter Grade
Introduces artificial intelligence concepts. Heuristic search, clause form logic, knowledge representation, reasoning and inference, overview of computer vision, planning, natural language, Lisp and Prolog. (M)
Prerequisite: COP 3530.

CAP 4680 Knowledge-Based System: Theory and Practice 3 Credits
Grading Scheme: Letter Grade
Concepts, theory and various applications for knowledge-based (expert) systems, reasoning schemes, knowledge representation, knowledge-based system tools, building knowledge bases, knowledge acquisition, reasoning under certainty and inexact reasoning.
Prerequisite: COP 3530.

CAP 4730 Computational Structures in Computer Graphics 3 Credits
Grading Scheme: Letter Grade
Studies the major topics in computer graphics: display and output technology, two and three dimensional manipulations; space curves and surfaces, hidden surface removal and shading models.
Prerequisite: COP 3530.

CAP 4770 Introduction to Data Science 3 Credits
Grading Scheme: Letter Grade
Introduces the basics of data science including programming for data analytics, file management, relational databases, classification, clustering, and regression; lays the foundation for big data applications ranging from social networks to medical and business informatics.
Prerequisite: COP 3530.

CAP 4773 Projects Data Science 3 Credits
Grading Scheme: Letter Grade

CDA 3101 Introduction to Computer Organization 3 Credits
Grading Scheme: Letter Grade
Organization of computing systems. Logical basis of computer structure. Machine representation of instructions and data, flow of control, and basic machine instructions. Assembly language programming. (M)
Prerequisite: (COP 3504 or COP 3503) and MAC 2233 and (MAC 2311 or MAC 3472) and COT 3100.

CDA 4102 Computer Architecture 3 Credits
Grading Scheme: Letter Grade
Introduces computer architecture and system organization including virtual memory supports cache, pipeline, vector processing, multiprocessor and RISC architecture.
Prerequisite: CDA 3101 and COP 3530.

CDA 4630 Embedded Systems 3 Credits
Grading Scheme: Letter Grade

CEN 3031 Introduction to Software Engineering 3 Credits
Grading Scheme: Letter Grade
Topics include software planning, specifications, coding, testing and maintenance. Gain experience in the team approach to large system development. (M)
Prerequisite: COP 3530.

CEN 3907C Computer Engineering Design 1 3 Credits
Grading Scheme: Letter Grade
Reinforce basic computer engineering skills; design, produce, and report on a computer engineering project, meeting defined specifications and using a structured design methodology and project management.
Prerequisite: CEN 3031 and EEL 3744C with minimum grades of C.

CEN 3908C Computer Engineering Design 2 3 Credits
Grading Scheme: Letter Grade
Selected capstone design projects involving engineering applications in the various areas of computer engineering. Must be taken prior to the semester of graduation .
Prerequisite: CEN 3907C with minimum grade of C and senior standing.

CEN 3913 Computer and Information Science and Engineering Design 1 3 Credits
Grading Scheme: Letter Grade
Preparatory skills are developed for CISE Design 2 for Computer Engineering students. Teams design, produce and report on a software prototype, meeting defined specifications and using a structured design methodology and project management.
Prerequisite: CEN 3031.

CEN 4072 Software Testing and Verification 3 Credits
Grading Scheme: Letter Grade
Concepts, principles and techniques of software testing and verification. Strengths and limitations of black-box and white-box testing methods; techniques for proving the correctness of programs.
Prerequisite: CEN 3031.

CEN 4721 Human-Computer Interaction 3 Credits
Grading Scheme: Letter Grade
Studies the major topics in the study, planning and design of the interaction between people and computers. Topics include interface design (principles, theories and guidelines), virtual environments, interactive devices and collaboration.
Prerequisite: COP 3530.

CEN 4722 User Experience Design 3 Credits
Grading Scheme: Letter Grade
Introduces methods and tools used in User Experience Design (UXD): the early stages of software design focused on meeting user needs. Key concepts include user research, contextual design, design thinking, ideation, iterative design, prototyping, and design documentation. Projects utilize software tools used in the industry.
Prerequisite: COP 3530.

CEN 4725 Natural User Interaction 3 Credits
Grading Scheme: Letter Grade
Introduces the design, development and evaluation of Natural User Interaction (NUI) technologies (e.g., non-keyboard and mouse technologies such as touchscreen interaction, gesture interaction, speech interaction, etc.). Discussion of the hardware-to-software NUI pipeline and key considerations when developing NUI software, including existing platforms, toolkits and APIs used to create NUI software.
Prerequisite: COP 3530 with minimum grade of C.

CEN 4914 Computer and Information Science and Engineering Design 2 3 Credits
Grading Scheme: Letter Grade
Involves completing a significant CEN-related project. Coordinate with the instructor and a project advisor, prepare a detailed technical report and deliver an oral presentation.
Prerequisite: CEN 3913.

CGS 2032 Math, Art and Computing 3 Credits
Grading Scheme: Letter Grade
Introduces interdisciplinary computer science topics. Logic, discrete structures, algorithms and automa. Exploration of topics relating mathematics and computing to art, music and nature. (M)
Prerequisite: MAC 1147.
Attributes: General Education - Mathematics

CGS 3063 Computers and Modern Society 3 Credits
Grading Scheme: Letter Grade
Impact of computers on society. Discussion includes specific cases from many areas, but does not include problem solution. Does not teach how to use the computer but gives an understanding of the implications of computers. (S) (WR)
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

CGS 3065 Legal and Social Issues in Computing 3 Credits
Grading Scheme: Letter Grade
Explores the history, the myth, the ethics, the law and the risks of computer-based technology in modern society. Emphasizes critical analysis of hypotheticals and case studies. Published material is supplemented with online references.
Prerequisite: previous experience in Unix environment.

CIS 2354 Introduction to Cybersecurity 3 Credits
Grading Scheme: Letter Grade
Introduces many issues in cybersecurity including ubiquity of processors and communications in modern society, vulnerabilities of computers, networks, data, and embedded systems; privacy, risk management, social engineering, various attacks on computers and networked systems, attacks on user authentication systems. Expect weekly discussion of current topics.

CIS 4204 Penetration Testing: Ethical Hacking 3 Credits
Grading Scheme: Letter Grade
Introduces principles and techniques associated with the cybersecurity practice known as penetration testing or ethical hacking. Covers planning, reconnaissance, scanning, exploitation, post-exploitation, and result reporting. Discover how system vulnerabilities can be exploited and learn to avoid such problems.
Prerequisite: COP 3530.

CIS 4301 Information and Database Systems 1 3 Credits
Grading Scheme: Letter Grade
First part of a two-course sequence that studies the essential concepts, principles and techniques of modern database systems. Topics include modeling and querying of data using conceptual data models as well as the development of a database application. (M)
Prerequisite: COP 3504 or (COP 3503 and COT 3100).

CIS 4360 Computer and Information Security 3 Credits
Grading Scheme: Letter Grade
Covers systematic threat and risk assessment; programmed threats and controls in hardware, software, and human procedures; security policies, models, and mechanisms; theoretical limitations and practical implementations; certification and accreditation standards; and case study reviews. Includes projects.
Prerequisite: COP 4600 or equivalent.

CIS 4362 Introduction to Cryptology 3 Credits
Grading Scheme: Letter Grade
Introduces classical and modern cryptography and cryptanalysis, including symmetric and asymmetric (public key) ciphers. Covers cryptographic hash functions, block and stream ciphers, as well as differential and linear cryptanalysis. Reviews applications of cryptography, cryptographic standards and protocols, and analyzes case studies of failed implementations.
Prerequisite: COT 3100 or the equivalent.

CIS 4905 Individual Study in CISE 1-4 Credits
Grading Scheme: Letter Grade
Problems in different areas of computer science.

CIS 4912C Integrated Product and Process Design 1 3 Credits
Grading Scheme: Letter Grade
First part of a two-course sequence where teams of engineering and business students partner with industry sponsors to design and build authentic products and processes. Working closely with an industry liaison engineer and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills. Weekly workshop activities adapt lecture topics to individual projects. Learn firsthand how to develop products and processes that meet customer requirements on time and within budget.
Prerequisite: CDA 3101, COP 3530, COT 3100 and instructor permission.

CIS 4913C Integrated Product and Process Design 2 3 Credits
Grading Scheme: Letter Grade
Second part of a sequence where teams of engineering and business students partner with industry sponsors to design and build authentic products and processes.
Prerequisite: CIS 4912C.

CIS 4914 Senior Project 3 Credits
Grading Scheme: Letter Grade
Involves completing a significant CISE-related project. Coordinate with the instructor and a project advisor, prepare a detailed technical report and deliver an oral presentation. (M)
Prerequisite: senior CISE standing and approved project proposal.

CIS 4930 Special Topics in CISE 1-4 Credits
Grading Scheme: Letter Grade
Variable content provides an opportunity for in-depth study of topics not offered elsewhere and of topics of current significance.
Prerequisite: COP 3503 or instructor permission.

CIS 4940 Practical Work 1 Credit
Grading Scheme: S/U
One term practical software engineering work under industrial supervision as set forth in the Herbert Wertheim College of Engineering regulations. (S-U)

CIS 4949 Co-Op Work in CISE 1 Credit
Grading Scheme: S/U
Practical engineering work under industrial supervision, as set forth in the Herbert Wertheim College of Engineering regulations. (S-U)

CIS 4956 Overseas Studies 1 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

CNT 4007C Computer Network Fundamentals 4 Credits
Grading Scheme: Letter Grade
Fundamental concepts, principles and standards of computer networks. Topics are introduced in bottom-up approach, starting from physical layer in OSI system architecture with a stronger focus on data link, mac, network and transport layers. (M)
Prerequisite: COP 4600.

CNT 4409 Network and System Security 3 Credits
Grading Scheme: Letter Grade
Examines networked threats and vulnerabilities; trust, identification, authentication, and authorization in networked and distributed systems; secure network protocols and standards; certification of network products; firewall configurations, intrusion detection, and anomaly detection; security flaws in network protocols and distributed applications. Includes projects.
Prerequisite: CNT 4007C and COP 4600 or equivalent.

COP 2271 Computer Programming for Engineers 2 Credits
Grading Scheme: Letter Grade
Computer programming and the use of computers to solve engineering and mathematical problems. Emphasizes applying problem solving skills; directed toward technical careers in fields employing a reasonably high degree of mathematics. The programming language used depends on the demands of the departments in the college. Several languages may be taught each semester, no more than one per section. Those required to learn a specific language must enroll in the correct section. (M)
Prerequisite: MAC 2312 with minimum grade of C.

COP 2800 Computer Programming Using JAVA 3 Credits
Grading Scheme: Letter Grade
In-depth treatment of computer programming using JAVA. Problems related to a variety of disciplines are solved. Introduces the basic concepts of software and hardware; develop a variety of stand-alone applications and applets. For non-CISE majors only.
Prerequisite: MAC 1147 or the equivalent.

COP 3229 Computer Programming Using C++ 3 Credits
Grading Scheme: Letter Grade
In-depth treatment of the C++ programming language. Introduces Windows programming using Visual C++.
Prerequisite: COP 3504 or COP 3503.

COP 3275 Computer Programming Using C 3 Credits
Grading Scheme: Letter Grade
Solve problems related to a variety of disciplines; introduces the basic concepts of software and hardware. (M)
Prerequisite: MAC 1147 or the equivalent.

COP 3502 Programming Fundamentals 1 3 Credits
Grading Scheme: Letter Grade
First course of a two-semester introductory sequence for those planning further study in computer science, digital arts and sciences or computer engineering. Concepts of computer science and the process of computer programming, including object-oriented programming, procedural and data abstraction and program modularity.
Corequisite: MAC 2311.

COP 3503 Programming Fundamentals 2 3 Credits
Grading Scheme: Letter Grade
Second course of a two-semester introductory sequence for those planning further study in computer science, digital arts and sciences or computer engineering. Concepts of computer science and the process of computer programming, including object-oriented programming, procedural and data abstraction and program modularity.
Prerequisite: (COP 3502 with a minimum grade of C or an AP exam in computer science with a minimum grade of 4) and MAC 2311 with a minimum grade of C.

COP 3504 Advanced Programming Fundamentals for CIS Majors 3 Credits
Grading Scheme: Letter Grade
Fast-paced introduction to computer science for those with prior programming experience. Explores major concepts of computer science and the process of computer programming, including object-oriented programming, procedural and data abstraction and program modularity. (M)
Prerequisite: (MAC 2311 or MAC 3472) and programming experience.

COP 3530 Data Structures and Algorithm 4 Credits
Grading Scheme: Letter Grade
Algorithm development using pseudo languages, basic program structures, program design techniques, storage and manipulation of basic data structures like arrays, stacks, queues, sorting and searching and string processing. Linked linear lists. Trees and multilinked structures. (M)
Prerequisite: (COP 3504 or COP 3503 with minimum grade of C or COT 3100) and (MAC 2234 or MAC 2312 or MAC 2512 or MAC 3473).

COP 4020 Programming Language Concepts 3 Credits
Grading Scheme: Letter Grade
Introduces programming language principles, including language constructs, design goals, run-time structures, implementation techniques and exposure to a wide variety of programming paradigms.
Prerequisite: COP 3530.

COP 4331 Object-oriented Programming 3 Credits
Grading Scheme: Letter Grade
Fundamental conceptual models for programming languages illustrated with specific programming languages and application problems. Specific topics include class and object models, inheritance among classes, objects and static and dynamic systems and implementations.
Prerequisite: COP 3530.

COP 4600 Operating Systems 3 Credits
Grading Scheme: Letter Grade
Design and implementation of various components of a modern operating system, including I/O programming, interrupt handling, process and resource management, computer networks and distributed systems. (M)
Prerequisite: CDA 3101 and COP 3530; knowledge of C or C++ recommended.

COP 4620 Translators and Translator Writing Systems 3 Credits
Grading Scheme: Letter Grade
Translation of languages, scanning and parsing techniques. Translator writing systems. The implementation of a compiler. (M)
Prerequisite: COP 3530.

COP 4720 Information and Database Systems 2 3 Credits
Grading Scheme: Letter Grade
Part two of a two-course sequence. Provides a basic understanding of the internals of a modern database system. Topics include data storage, indexing, query processing and advanced concepts such as database tuning, alternate data models and emerging applications. (M)
Prerequisite: CIS 4301 and COP 3530.

COT 3100 Applications of Discrete Structures 3 Credits
Grading Scheme: Letter Grade
Covers the mathematics of discrete events; i.e., events that involve distinct elements, finite structures of distinct elements or finite sampled versions of continuous phenomena (such as movement). (M)
Prerequisite: MAC 2233 or MAC 2311 or MAC 3472;
Corequisite: COP 3504 or COP 3503.
Attributes: General Education - Mathematics

COT 4501 Numerical Analysis: a Computational Approach 3 Credits
Grading Scheme: Letter Grade
Numerical integration, nonlinear equations, linear and nonlinear systems of equations, differential equations and interpolation.
Prerequisite: (COP 3504 or COP 3503) and MAS 3114.

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

EGS 1005 Prep for Success 1-4 Credits
Grading Scheme: S/U
Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)
Prerequisite: EG student.

Construction Management

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

BCN 1001 Introduction to Construction Management 1 Credit
Grading Scheme: S/U
Familiarizes pre-construction students with the nature and functioning of the construction industry and the building construction curriculum. Emphasizes the specific safety regulations pertaining to the construction industry. (S-U)

BCN 1210 Construction Materials 3 Credits
Grading Scheme: Letter Grade
Sources, properties and uses of construction materials.

BCN 1251C Construction Drawing 3 Credits
Grading Scheme: Letter Grade
Provides basic working knowledge of architectural graphics, practice in instrumental drawing and experience in free hand sketching.

BCN 1582 International Sustainable Development 3 Credits
Grading Scheme: Letter Grade
An overview of international trends in reducing the environmental impacts of land development and construction. Surveys best practices in a dozen countries around the world. (N and S)
Attributes: General Education - International, General Education - Social Science

BCN 2405C Construction Mechanics 4 Credits
Grading Scheme: Letter Grade
Introduces the evaluation of structural behavior as it relates to buildings, the properties of structural materials and the structural behavior of load-resisting members. Primarily for building construction majors.
Prerequisite: PHY 2004 and PHY 2004L.

BCN 3012 History of Construction 3 Credits
Grading Scheme: Letter Grade
Traces Western building technology from prehistoric man to the present. Development of the art and science of building. (H and N)
Attributes: General Education - Humanities, General Education - International

BCN 3027C Principles of Construction Management 3 Credits
Grading Scheme: Letter Grade
Examines the role of various players involved in the construction and the administration of a construction project. Importance of ethical conduct in all aspects of construction business and operations. Development of advanced writing and presentation skills for construction professionals.
Prerequisite: junior standing or higher or instructor permission.

BCN 3223C Soils and Concrete 3 Credits
Grading Scheme: Letter Grade
Studies the construction process to include soils, demolition, earth-moving equipment, foundations, concrete mix design and concrete placement techniques. Includes field visits and soils and concrete laboratories.
Prerequisite: BCN 1210 and BCN 2405C and BCN 3224C.

BCN 3224C Construction Techniques 3 Credits
Grading Scheme: Letter Grade
Studies the vertical construction process to include wooden platform frame construction, cast-in-place and pre-cast concrete construction and steel erection. Included are masonry construction, interior and exterior finishes, vertical transportation systems, roofing and other building components.
Prerequisite: BCN 1210 and BCN 1251C.

BCN 3240C Equipment and Methods for Heavy/Highway Construction 3 Credits
Grading Scheme: Letter Grade
Theory and practice of equipment utilization and construction methods. Analysis of costs through production rates. Optimizing crew and equipment. Labor and heavy equipment production. Earthwork (sitework) execution methods and inspection.
Prerequisite: junior standing or higher.

BCN 3255C Graphic Communication in Construction 3 Credits
Grading Scheme: Letter Grade
Studies construction communication tools, including the use of computer-aided drafting (applications of 4-D modeling in construction), blueprint reading, free hand sketching, model building, piece-based simulations and the Internet.
Prerequisite: BCN 1251C.

BCN 3281C Construction Methods Laboratory 2 Credits
Grading Scheme: Letter Grade
Construction aspects of surveying with field and classroom exercises in the use of transit, level, chain and related equipment.

BCN 3431C Structures 3 Credits
Grading Scheme: Letter Grade
Examines the material properties, code requirements, analysis and construction procedures for steel and reinforced concrete structures.

BCN 3521C Electrical Systems 2 Credits
Grading Scheme: Letter Grade
Principles and practices of electrical systems, including code provisions and cost estimations.

BCN 3611C Construction Estimating 1 3 Credits
Grading Scheme: Letter Grade
Classification of work, quantity survey techniques and basic estimating principles applied to simple construction projects.
Prerequisite: BCN 3027C and BCN 3224C and BCN 3255C.

BCN 3700 Construction Contracts 3 Credits
Grading Scheme: Letter Grade
Function of the construction industry, construction contracting practices and construction contracts and delivery methods.
Prerequisite: BCN 3027C.

BCN 3730 Construction, Safety, Health and the Environment 3 Credits
Grading Scheme: Letter Grade
Construction safety issues, concerns, requirements and procedures. The analysis includes costs, planning, administration, inspection, prevention, loss control and drug-free workplace. Understanding of the major health issues encountered on construction sites. Appreciation for the need to be environmentally responsible.

BCN 4105 Sustainable Housing: Putting the 3 E's into Residential Practice 3 Credits
Grading Scheme: Letter Grade
Sustainability is more than just building green; it's the balance and intersection of "the 3 e's:" environment, economics, and social equity. Examine approaches to advancing sustainable housing in ways that postindustrial residential planning and building practices have thus far neglected to address.
Prerequisite: junior standing or higher.

BCN 4237 Roofing Systems 3 Credits
Grading Scheme: Letter Grade
Studies and analyzes building various roof systems including design, materials, installation, inspection and maintenance. Includes damp-proofing and waterproofing techniques.

BCN 4252 Introduction to Building Information Modeling 3 Credits
Grading Scheme: Letter Grade
Learn current Building Information Modeling (BIM) software to identify design errors and improve the construction process.
Prerequisite: BCN 3255C.

BCN 4423C Temporary Structures 3 Credits
Grading Scheme: Letter Grade
Studies the temporary structures that contractors have to build in order to construct the primary structure. This includes formwork, scaffolding and equipment for hoisting materials, personnel and erecting structures.
Prerequisite: BCN 3431C and senior standing.

BCN 4510C Mechanical Systems 4 Credits
Grading Scheme: Letter Grade
Principles and practices of building piping systems, hydraulics and pumps, comfort conditioning systems for building, heating and refrigeration equipment, building code considerations, plan reading and cost estimation.
Prerequisite: senior standing.

BCN 4594 Building Energy Modeling 3 Credits
Grading Scheme: Letter Grade
As energy becomes a more precious commodity, it is crucial to design and operate high performance buildings. A solid foundation of energy engineering and sustainability principles is essential to achieving these higher performance standards.
Prerequisite: junior standing or higher.

BCN 4612C Construction Estimating 2 3 Credits
Grading Scheme: Letter Grade
Analysis and determination of cost of construction operations including applicable indirect and overhead costs and the preparation of bid proposals for commercial construction projects. A cost-control system is introduced and implemented with sample field-generated problems.
Prerequisite: BCN 3611C and senior standing.

BCN 4709C Construction Project Management 3 Credits
Grading Scheme: Letter Grade
Understanding the various forms of project delivery methods (Design-Bid-Build, Design-Build, and Construction Management) and the underlying principles for choosing the appropriate system. Recognizing the complexity of the preconstruction process including conceptual estimating and scheduling, life cycle costing, constructability reviews, value engineering, risk management and special contract requirements. Understanding management and administration of a construction project.
Prerequisite: BCN 4612C and senior standing.

BCN 4712C Leadership and Management in Construction 3 Credits
Grading Scheme: Letter Grade
Leadership and management principles for construction professionals with a major emphasis on the diverse workforce, ethical issues in construction and the development of negotiation and conflict-resolution skills.
Prerequisite: senior standing.

BCN 4720 Construction Planning and Control 3 Credits
Grading Scheme: Letter Grade
Computer application of cost and manpower estimates as construction scheduling and management techniques.
Prerequisite: BCN 3611C and senior standing.

BCN 4723 Design-Build Delivery Methods 3 Credits
Grading Scheme: Letter Grade
Theory and practice of design-build contract delivery method. Includes an explanation of the history of design-build, the advantages and disadvantages of design-build as a delivery method and a thorough analysis of the major components of design and construction.
Prerequisite: junior standing or higher.

BCN 4753 Construction Finance 3 Credits
Grading Scheme: Letter Grade
Basic principles and applications of construction finance with an emphasis on the acquisition and management of construction loans, mortgages and construction accounting.
Prerequisite: senior standing.

BCN 4787C Construction Capstone Project 3 Credits
Grading Scheme: Letter Grade
A construction project is simulated with each student being responsible for designing, developing, estimating, scheduling, contracting and administering the work for the completion of a small commercial, residential or light industrial project.
Prerequisite: BCN 4612C and BCN 4720 and BCN 4753 and senior standing.

BCN 4880 Management of Heavy/Highway Construction 3 Credits
Grading Scheme: Letter Grade
Theory and practice of construction planning, methods and project management. Project control from conception through the construction phase: procurement of design professional, prime contractor, subcontractor, construction manager, project/program manager. Also includes definition of and delineation between each entity, construction contract types, delivery systems, heavy/highway plans reading, quality assurance/quality control, nuances of planning and bidding a unit price project, and project administration.
Prerequisite: junior standing or higher.

BCN 4905 Special Studies in Construction 1-4 Credits
Grading Scheme: Letter Grade
Special areas of study in construction adjusted to the needs of individual students. Enrollment upon recommendation of director only.

BCN 4949 Construction Management Internship 3 Credits
Grading Scheme: S/U
Minimum two-term employment in construction management. Requires advance approval. Internship work reports and oral presentation also required. (S-U)

BCN 4956 International Studies in Construction 1-4 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation. The course focus is on the construction industry in the host country. Course content varies and may address various construction issues including local construction techniques, construction materials and the influence on construction of the local culture, traditions, architecture, history and political climate.

EMS 1055 Emergency Medical Responder 3 Credits
Grading Scheme: Letter Grade
Introduces a basic understanding of pre-hospital emergency medicine; explore issues in patient assessment, distinguishing medical scenarios from trauma scenarios, taking appropriate actions and precautionary measures to ensure patient safety, and treating a patient?s injuries within the scope of their certification.

EMS 1055L Lab for Emergency Medical Responder 1 Credit
Grading Scheme: Letter Grade
Practical applications of pre-hospital emergency medicine, including medical and trauma skills, basic anatomy, and physiology as related to EMR requirements. Practice the skills learned in the Emergency Medical Responder course. Offered only on UF main campus.

EMS 4315 Analytical Approaches to EMS 3 Credits
Grading Scheme: Letter Grade
Focuses on the practice and principles of emergency medical services systems management, including effective daily operations within an EMS organization. Topics include purpose of analysis; analysis in parallel professions; problem identification; foundational analysis; data collection; financial analysis; cost-benefit analysis; policy and impact analysis; and project development.
Prerequisite: junior or senior standing.

FES 2941 Emergency Management Internship 3 Credits
Grading Scheme: S/U
Gain experience in an emergency management situation to identify and apply best practices in the development of preparation, planning, responding, recovering, and mitigating disasters; participate in supervised disaster management work activities that provide experiential learning in emergency management.

FES 3004 Political and Legal Foundations of Fire Protection 3 Credits
Grading Scheme: Letter Grade
Examines the legal aspects of fire service and the political and social impacts of legal issues; reviews the American legal system and covers legal and political issues involving employment and personnel matters, administration and operations, and planning and code enforcement with regard to the fire service.
Prerequisite: junior standing or higher.

FES 3015 Principles of Fire and Emergency Services Management 3 Credits
Grading Scheme: Letter Grade
Fundamentals of management underlying the solution of problems of organization and operation of fire and emergency services agencies. (S) (WR)
Prerequisite: junior standing or higher.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

FES 3033 Fire and Emergency Services Labor Issues 3 Credits
Grading Scheme: Letter Grade
Determinants of demand for labor and labor supply. Labor market equilibrium and changes in the equilibrium due to changes in unionization, public policies and technology. Study of the effects of skill, job amenities and discrimination on wage differentials. A review of PERC, FSLA and unions is included.
Prerequisite: junior standing or higher.

FES 3153 FES Communication and Informational Technology 3 Credits
Grading Scheme: Letter Grade
Communications systems used in fire and emergency services such as high frequency voice/data, Internets and Intranets, satellite communications, GPS and GIS. An introduction, examination, equipment assessment, implementation program and maintenance management module are provided for each system covered.
Prerequisite: junior standing or higher.

FES 3223 Foundations of EMS 3 Credits
Grading Scheme: Letter Grade
Covers the design and operation of EMS systems, service delivery, and echelons of care. The history of EMS, interface of public and private organizations and review of the various personnel who comprise these systems, will be examined in relation to their impact on the health care delivery system.
Prerequisite: junior standing or higher.

FES 3227 Ambulance Operations 3 Credits
Grading Scheme: Letter Grade
Overview of the application of management principles to the provision of medical transport services. Includes an analysis of the economic, geographic, temporal, and clinical characteristics of ambulance demand, the key processes for providing transport services, and an evaluation of industry best practices.
Prerequisite: junior standing or higher.

FES 3233 EMS Safety and Risk Management 3 Credits
Grading Scheme: Letter Grade
Introduces the risk management principles of an EMS agency. Emphasizes safety from the perspective of the field provider.
Prerequisite: junior standing or higher.

FES 3263 Public Safety Educator 3 Credits
Grading Scheme: Letter Grade
Introduces the EMS professional to the education system as it relates to EMS education. Explores issues in curriculum development, teaching, program direction, and development.
Prerequisite: junior or senior standing.

FES 3284 Management of Emergency Medical Services 3 Credits
Grading Scheme: Letter Grade
Personnel and resource management issues in providing emergency medical services function. Quality assurance, utilization review techniques, and practices and techniques for delivery of services and distribution of resources are included.
Prerequisite: junior standing.

FES 3285 Advanced Leadership Issues in Emergency Medical Services 3 Credits
Grading Scheme: Letter Grade
Organizational development issues in providing emergency medical services function in the fire-based, hospital-based and third-service environments. Establishing and directing emergency medical services' work teams is also covered.
Prerequisite: junior standing.

FES 3533 Community Risk Reduction for Emergency Services 3 Credits
Grading Scheme: Letter Grade
Provides a theoretical framework for the understanding of the ethical, sociological, organizational, political, and legal components of community risk reduction, and a methodology for the development of a comprehensive community risk reduction plan.
Prerequisite: junior or senior standing.

FES 3720 Strategic Planning for FES 3 Credits
Grading Scheme: Letter Grade
Provides the conceptual framework for the development of a strategic plan for emergency management, fire protection, and emergency medical service. Also provides guidance through the process of the needs, resources, and capabilities of the organization and how to establish a plan to achieve improved performance.
Prerequisite: junior standing.

FES 3753 Fire and Emergency Services Financial Management 3 Credits
Grading Scheme: Letter Grade
Planning, developing, presenting, funding and implementing a budget for a fire and emergency services agency. Additional topics include special taxing districts, bond issues and fund-raising campaigns.
Prerequisite: junior standing.

FES 3755 Fire and Emergency Services Capital Equipment and Facilities 3 Credits
Grading Scheme: Letter Grade
Procedures for the acquisition, utilization and disposition of fire and emergency services apparatus and station facilities. Specification and purchasing of apparatus are included. An examination of facility siting, building design and land acquisition and financing is conducted. Additional material addresses special capital purchases such as communications, safety and operational equipment.
Prerequisite: FES 3753 and junior standing.

FES 3780 Analytical Approaches to Fire Protection 3 Credits
Grading Scheme: Letter Grade
Examines the tools and techniques of rational decision making in fire and emergency services agencies, including data collection, statistics, probability, decision analysis, utility modeling, resource allocation, and cost benefit analysis.
Prerequisite: junior or senior standing.

FES 3782 Applications of Fire Research 3 Credits
Grading Scheme: Letter Grade
Examines methodology for analyzing fire-related research; provides a framework for independent research in fire dynamics, fire test standards, fire safety, fire modeling, structural fire safety, life-safety, firefighter safety, automatic detection and suppression, risk analysis and loss control, applied research, and fire-related research trends.
Prerequisite: junior or senior standing.

FES 3803 Multi-Agency Incident Command 3 Credits
Grading Scheme: Letter Grade
Managing complex incidents that may require response from fire-rescue, emergency medical services, law enforcement and/or other public safety sectors. Use of the incident management system is emphasized.
Prerequisite: junior standing.

FES 3815 Command and Control at Catastrophic Fire-Rescue Incidents 3 Credits
Grading Scheme: Letter Grade
Incident command at multiple-alarm incidents, emphasizing rapid fireground decision-making, safety, personnel accountability and communications. Settings for scenarios include multi-family occupancies, hotels, high-rises, healthcare facilities and large retail centers.
Prerequisite: junior standing.

FES 3822 Disaster Policy in Emergency Management 3 Credits
Grading Scheme: Letter Grade
Describes the functional demands that emergency managers should be aware of in crafting effective emergency management plans, policies, and programs. Addresses how public policy choices impact emergency planning and the consequences of a disaster event. Emphasizes the emergency planning process.
Prerequisite: junior or senior standing.

FES 3823 Fire and Emergency Services Integrated Operations 3 Credits
Grading Scheme: Letter Grade
The broad issues involved in comprehensive emergency management at the local level. The emergency management cycle of preparedness, mitigation, response and recovery is emphasized as are the legal, operational and administrative aspects of state and federal interface.
Prerequisite: junior standing.

FES 4003 Fire and Emergency Services Administration 3 Credits
Grading Scheme: Letter Grade
Demonstrates the importance of persuasion and influence, budgeting, anticipation of challenges and change, and management tools for analyzing and solving problems; explores how the leadership of a fire and emergency services department develops internal and external cooperation to achieve the department's mission.
Prerequisite: junior or senior standing.

FES 4014 Foundations of Emergency Management 3 Credits
Grading Scheme: Letter Grade
Examines the history and the principles establishing Emergency Management in the United States. Describes the "Four Phases of Emergency Management," relates processes to codes and laws governing Emergency Management, and examines Emergency Management and the terrorist threat.
Prerequisite: junior or senior standing.

FES 4023 Fire and Emergency Services Ethical Practices and Leadership 3 Credits
Grading Scheme: Letter Grade
The role of agency leadership and its impact on the continuing professionalization of the fire and emergency services. Examines traditional and evolving definitions, practices and skills in leadership behavior, including discussions of power, influence, ethics and organizational behavior.
Prerequisite: senior standing.

FES 4034 Regulatory Issues in Fire and Emergency Services 3 Credits
Grading Scheme: Letter Grade
Introduces safety, health and environmental regulations on the state and federal levels that impact the delivery of fire and emergency services. OSHA, EPA and NFPA regulatory requirements are introduced along with methods and techniques to implement compliance programs.
Prerequisite: FES 4003 and senior standing.

FES 4045 Fire and Emergency Services Human Resource Management 3 Credits
Grading Scheme: Letter Grade
Major human resource management functional areas for fire and emergency services agencies. Topics include organizational employment planning, employment regulation, job analysis, performance assessment, recruitment and regulation, job analysis, performance assessment, recruitment and selection, training and development, employee/labor relations and compensation.
Prerequisite: FES 3015 and senior standing.

FES 4055 Fire and Emergency Services Public Relations 3 Credits
Grading Scheme: Letter Grade
Implementation of principles and methods in advocating factual claims and policy proposals: prepositional analysis, evidence as demonstration, effective reasoning processes and ethics in controversy. Also focuses on public speaking and presentations, especially in the areas of technology, defense of budgets and political leadership.
Prerequisite: senior standing.

FES 4224 Management of Mass Casualty Incidents 3 Credits
Grading Scheme: Letter Grade
Covers systematic approaches to triage, treatment and transport in response to large-scale emergency medical services incidents. Resource planning and coordination with hospital systems is also emphasized.
Prerequisite: senior standing.

FES 4226 EMS Special Operations 3 Credits
Grading Scheme: Letter Grade
Discusses the various special roles in which EMS personnel may serve, such as hazardous materials, water rescue, and technical rescue.
Prerequisite: junior or senior standing.

FES 4234 EMS Community Risk Reduction 3 Credits
Grading Scheme: Letter Grade
Provides a theoretical framework for the understanding of the ethical, sociological, organizational, political, and legal components of community risk reduction, and a methodology for the development of a comprehensive community risk reduction plan.
Prerequisite: junior or senior standing.

FES 4244 Legal, Political, and Regulatory in EMS 3 Credits
Grading Scheme: Letter Grade
Introduces the EMS professional to the legal aspects of Emergency Medical Services. Explores issues in malpractice, consent and refusal of treatment, OSHA, employment issues, and risk management. EMS students gain insights into the legal liabilities in Emergency Medical Services.
Prerequisite: junior or senior standing.

FES 4274 Quality Management and Research in Emergency Services 3 Credits
Grading Scheme: Letter Grade
Introduces the EMS professional to benefits of quality improvement, the history of quality in EMS, measuring quality, and the uses of quality in EMS.
Prerequisite: junior or senior standing.

FES 4585 Management of Fire Prevention Programs 3 Credits
Grading Scheme: Letter Grade
Planning, promoting and executing fire prevention functions, including an emphasis on legal responsibilities, needs assessments, negotiation and planning activities.
Prerequisite: senior standing.

FES 4685 Fire Investigation and Analysis 3 Credits
Grading Scheme: Letter Grade
Examines the technical, investigative, legal, and social aspects of arson, including principles of incendiary fire analysis and detection, environmental and psychological factors of arson, legal considerations, intervention, and mitigation strategies.
Prerequisite: senior standing.

FES 4804 Disaster Recovery and Mitigation 3 Credits
Grading Scheme: Letter Grade
Provides the opportunity to understand real world disaster response efforts through academic study and interactive applied activities. Topics include the Incident Command System (ICS), Emergency Operations Center (EOC) management, Resource Management (RM), and Command-Communications-Coordination (C3).
Prerequisite: junior or senior standing.

FES 4820 Critical Incident Management for Emergency Managers 3 Credits
Grading Scheme: Letter Grade
Examines disaster planning and emergency management. Focuses on the four phases of planning, mitigation, response, and preparedness. Includes FEMA and federal government NIMS ICS-700 and ICS-800 certifications.
Prerequisite: junior or senior standing.

FES 4825 Disaster Planning and Control 3 Credits
Grading Scheme: Letter Grade
Examines concepts and principles of community risk assessment, planning and response to fires and natural and human-caused disasters, including National Incident Management System--Incident Command Systems (NIMS ICS), mutual aid and automatic response, training and preparedness, communications, civil disturbances, terrorist threats/incidents, hazardous materials planning, mass casualty incidents, earthquake preparedness, and disaster mitigation and recovery.
Prerequisite: FES 3823 and senior standing.

FES 4835 Natural Disaster Phenomena in Florida 3 Credits
Grading Scheme: Letter Grade
Natural disasters prevalent in Florida: past, present, and future, including hurricanes, flooding, freezes, and agricultural emergencies. Also addresses planning, operations, mitigation, recovery, and evaluation concerns.
Prerequisite: junior or senior standing.

FES 4884 Introduction to Terrorism in Emergency Management 3 Credits
Grading Scheme: Letter Grade
Introduces the fundamental concepts, theories, principles, and practice of terrorism and terrorist events.
Prerequisite: junior or senior standing.

FES 4905 Special Studies in Fire and Emergency Services 1-3 Credits
Grading Scheme: Letter Grade
Special areas of study in fire and emergency services adjusted to the needs of individual students.
Prerequisite: instructor permission.

FES 4935 Current Issues in Fire and Emergency Services 3 Credits
Grading Scheme: Letter Grade
Information and direction for fire service administrators on current legislative, legal, labor and/or technology concerns facing fire and emergency services agencies.
Prerequisite: senior standing.

FFP 4507 Management of Fire-Related Human Behavior 3 Credits
Grading Scheme: Letter Grade
Focuses on human behavior in emergencies; examines research on human behavior, systems models, life-safety education, and building design, exploring a best-practice building life-safety system in terms of psychology and sociology joined with engineering and education to produce best outcomes of human survivability in emergencies.
Prerequisite: Junior or Senior standing.

Criminology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

CCJ 3024 Advanced Principles of Criminal Justice 3 Credits
Grading Scheme: Letter Grade
Advanced overview of criminal law, criminal procedure and criminological theory. Emphasis on the components of the criminal justice system: the police, the prosecutorial and defense functions, the judiciary and the field of corrections. This course is required of all majors. (S)
Attributes: General Education - Social Science

CCJ 3701 Research Methods in Criminology 4 Credits
Grading Scheme: Letter Grade
Advanced research design and data analysis. Study of experimental and non-experimental research designs; probability and nonprobability sampling techniques; construction of scales; and indexes and methods of bivariate and multivariate data analysis. Previous completion of an introductory course in statistics is recommended but not required. (S) (WR)
Prerequisite: CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.
Attributes: General Education - Social Science, Satisfies 4000 Words of Writing Requirement

CCJ 4014 Criminological Theory 3 Credits
Grading Scheme: Letter Grade
Advanced study and critical appraisal of various theories of crime causation, including an examination of biological, psychological, economic and sociological perspectives on the etiology of crime.
Prerequisite: CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

CCJ 4644 White-Collar Crime 3 Credits
Grading Scheme: Letter Grade
Examines individual criminality in the course of one's occupation and the crimes of organizations and corporations. Studies the societal reaction to these upper class illegalities. (S) (WR)
Prerequisite: CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

CCJ 4681 Intimate Violence 3 Credits
Grading Scheme: Letter Grade
Examines the factors that increase the risk for intimate violence, the effects of violence on victims, interventions to prevent and treat violence, and public policies. Topics include child physical and sexual abuse, domestic violence and sexual assault. Law, social science and feminist scholarship are used to examine current controversies in these fields.
Prerequisite: Liberal Arts and Sciences major of junior standing or higher.

CCJ 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Qualified students and the instructor will develop a course of study or investigation designed to extend available coursework. A formal written report is required. Course can be repeated, but no more than three credits earned in CCJ 4905 may be applied to the major or to minimum degree requirements established by the university.
Prerequisite: CCJ 3024, 3LS or 4LS major, and instructor permission.

CCJ 4911 Undergraduate Research in Criminology 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Criminology. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Criminology.

CCJ 4934 Contemporary Issues in Criminal Justice 3 Credits
Grading Scheme: Letter Grade
A variable topic seminar that examines current issues, techniques and problems in criminal justice.
Prerequisite: CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

CCJ 4940 Practicum 1-3 Credits
Grading Scheme: S/U
Supervised experience in a criminal justice agency. Course can be repeated, but no more than three credits earned in CCJ 4905 may be applied to the major or to minimum degree requirements established by the university. (S-U)
Prerequisite: CCJ 3024, 3LS or 4LS major, and instructor permission.

CCJ 4970 Senior Thesis 3 Credits
Grading Scheme: Letter Grade
Qualified students submit a formal research proposal, carry out individual research under the supervision of a faculty member and prepare a formal written report of the research to a faculty committee. Course can be repeated, but no more than six credits earned in CCJ 4905 may be applied to the major or to minimum degree requirements established by the university.
Prerequisite: CCJ 3024 and director permission.

CJC 4010 Introduction to Corrections 3 Credits
Grading Scheme: Letter Grade
Introduces the field of penology and corrections. Consideration is given to conflicting philosophies of punishment; criminological theory as it applies to the field of corrections; the selectivity of the process through which offenders move before their involvement in correctional programs; alternative correctional placements; and empirical assessments of the short-term and long-term consequences of involvement in correctional programs. (S)
Corequisite: CCJ 3024 and 3LS or 4LS major.
Attributes: General Education - Social Science

CJE 3114 Introduction to Law Enforcement 3 Credits
Grading Scheme: Letter Grade
The role of the police in the criminal justice system of a democratic society. Topics include the organization of police work, discretion and the role of law enforcement in a socio-legal context.
Corequisite: CCJ 3024 and 3LS or 4LS major.

CJE 4144 Private Security and Control 3 Credits
Grading Scheme: Letter Grade
Understanding the role of private security in the prevention of crime. Examines deviance against the assets of formal organizations and their employees, such as business corporations, retail stores and educational institutions.
Prerequisite: CCJ 3024 with a minimum grade of C and Liberal Arts and Sciences major of junior standing or higher.

CJJ 4010 Juvenile Justice 3 Credits
Grading Scheme: Letter Grade
Examines the development, change and operation of the American juvenile justice system. Emphasizes the nature of juvenile law and the methods of dealing with youthful offenders. (S)
Prerequisite: 2LS or 3LS major.
Attributes: General Education - Social Science

CJL 2000 Law and the Legal Process 3 Credits
Grading Scheme: Letter Grade
Understanding the law as it relates to everyday encounters with the legal system. Actual legal cases may be studied to analyze how disputes are resolved by application of legal principles to factual situations, whether justice was served by the decision and the potential implications of the decision on future cases. (S)
Attributes: General Education - Social Science

CJL 3038 Law and Society 3 Credits
Grading Scheme: Letter Grade
Introduces the scholarly study of law from a multidisciplinary, liberal arts perspective. Examines legal ideas, legal institutions and the legal process with emphasis on the study of criminal behavior and the American criminal justice process.

CJL 4037 Psychology and Law 3 Credits
Grading Scheme: Letter Grade
Application of behavioral science research and practice to the legal system. Topics include psychologists and the legal system; lawyers' socialization, training and ethics; legality, morality and justice; forensic assessment; the insanity defense; competence in the legal system; eyewitness identification; jury selection; theories of crime; and punishment and sentencing.
Prerequisite: CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

CJL 4050 Juvenile Law 3 Credits
Grading Scheme: Letter Grade
Examines the juvenile justice system, including delinquency, dependency and laws that apply especially to juveniles. Studies operation of the Florida juvenile code and the relationship between children and society.
Prerequisite: CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

CJL 4110 Criminal Law 3 Credits
Grading Scheme: Letter Grade
Studies substantive criminal law, including historical development, the tension between social and legal definitions of crime, the basic dimensions of criminality, the specific elements of major crimes and the nature of criminal sanctions. (S)
Attributes: General Education - Social Science

CJL 4410 Criminal Procedure 3 Credits
Grading Scheme: Letter Grade
Studies constitutional rights of the accused in criminal proceedings. Focuses on analysis of case materials involving the law of arrest, search and seizure, the use of confessions, fair trial and the prohibition of cruel and unusual punishments.
Prerequisite: CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

IDH 2931 Honors Seminar 3 Credits
Grading Scheme: Letter Grade
Special topics restricted to those in the university-wide Honors Program. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

Czech | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

CZE 1130 Introduction to Czech Language and Culture 1 5 Credits
Grading Scheme: Letter Grade
CZE 1130 and its sequel, CZE 1131, offer a comprehensive introduction to Czech, using interactive methods to develop competence in speaking, listening, reading, writing and cultural interaction.

CZE 1131 Introduction to Czech Language and Culture 2 5 Credits
Grading Scheme: Letter Grade
Continuation of series. A comprehensive introduction to Czech, using interactive methods to develop competence in speaking, listening, reading, writing and cultural interaction.
Prerequisite: CZE 1130 with minimum grade of C, or S, or the equivalent.

CZE 2200 Intermediate Czech 1 3 Credits
Grading Scheme: Letter Grade
Builds reading and writing skills while continuing to develop conversational ability and listening comprehension. Using a communicative approach, provides an overview of Czech grammar.
Prerequisite: CZE 1131 with minimum grade of C, or S, or the equivalent.

CZE 2201 Intermediate Czech 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study. Goal is to further develop speaking, listening, reading and writing skills.
Prerequisite: CZE 2200 with minimum grade of C, or S, or the equivalent.

CZT 3564 Modern Czech Culture and Society 3 Credits
Grading Scheme: Letter Grade
Overview of Czech literature, film, music, pop culture and visual arts as they were shaped by the events from 1918 to the present. (H and N)
Attributes: General Education - Humanities, General Education - International

Dial Center for Written and Oral Communication

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

COM 1000 Introduction to Communication Studies 3 Credits
Grading Scheme: Letter Grade
Introduces various theoretical perspectives for understanding human communication. (S)
Attributes: General Education - Social Science

COM 3125 Organizational Communication 3 Credits
Grading Scheme: Letter Grade
Explores the processes, practices and difficulties of communication among large groups engaged principally in the work environment. Examines organizational structures, patterns of communication, task and social roles, extrinsic influences and methods of producing intrinsic motivation and innovation.

COM 3462 Interpersonal Conflict Management 3 Credits
Grading Scheme: Letter Grade
Introduces fundamental communication skills, principles, theories and research relevant to effective conflict management in a variety of interpersonal contexts and relationships.
Prerequisite: COM 1000 or SPC 2300 or instructor permission.

COM 3465 Conflict Management and Negotiation in the Professions 3 Credits
Grading Scheme: Letter Grade
Introduces fundamental concepts and skills relevant to effective communication in business and professional conflicts. Topics include conflict management, ADR, and interpersonal, organizational, community and international negotiation. Emphasizes helping students to understand and improve the conflict management and negotiation skills required in their professional careers.
Prerequisite: COM 1000 or SPC 2608 or instructor permission.

COM 4013 Family Communication 3 Credits
Grading Scheme: Letter Grade
Provides students with an understanding of how communication functions to develop, maintain, enrich, or limit family relationships.
Prerequisite: COM 1000 or SPC 2300 or instructor permission.

COM 4022 Health Communication 3 Credits
Grading Scheme: Letter Grade
Surveys theory, research and practice of communication in the contexts of healthcare and health promotion. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

COM 4706 Language and Power 3 Credits
Grading Scheme: Letter Grade
Explores the role of language in articulating, maintaining, and subverting power relations in society. Drawing from Communication Studies and Applied Linguistics, the course provides the tools to uncover, describe, and critically analyze the various strategic biases in language that create and reinforce power asymmetries in society.
Prerequisite: COM 1000 or SPC 2300 for Communication Studies minor; LIN3010 for LIN major; with instructor permission.
Attributes: General Education - Diversity, General Education - Social Science

COM 4911 Undergraduate Research in Communication Studies 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Communication Studies. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Communication Studies.

COM 4930 Special Topics in Communication 3 Credits
Grading Scheme: Letter Grade
Seminar study of theory and research in a specific area of communication.
Prerequisite: COM 1000 or equivalent.

LIS 2001 Introduction to Library and Internet Research 1 Credit
Grading Scheme: Letter Grade
Learn how to conduct solid and reliable library research. Critical thinking skills are used to find, evaluate and use relevant scholarly resources in a variety of disciplines. This dynamic, hands-on course emphasizes creative thinking and media production tools while exploring the social responsibilities of using digital age information.

SPC 2300 Introduction to Interpersonal Communication 3 Credits
Grading Scheme: Letter Grade
Studies how two people interact with one another and how factors such as listening skills, gender and culture influence that communication. (S)
Attributes: General Education - Social Science

SPC 2351 Listening 3 Credits
Grading Scheme: Letter Grade
Theory and practice in responsible, participatory listening. Also includes principles of listening for literal comprehension and critical evaluation of ideas in response to various spoken and nonverbal messages.

SPC 2594 Intercollegiate Forensics 1 Credit
Grading Scheme: Letter Grade
Participation in intercollegiate debate and individual speaking.
Prerequisite: satisfactory completion of one semester of intercollegiate forensics participation at UF before registering for this course.

SPC 2608 Introduction to Public Speaking 3 Credits
Grading Scheme: Letter Grade
Theory and practice presenting public speeches, determining communication purpose(s) and adapting to organization, evidence, language and other message characteristics for designated audiences.

SPC 3331 Nonverbal Communication 3 Credits
Grading Scheme: Letter Grade
Surveys theory and research in nonverbal communication including eye behavior, facial expressions, gestures and vocal cues.
Prerequisite: COM 1000.

SPC 3513 Argumentation 3 Credits
Grading Scheme: Letter Grade
Implementation of principles and methods advocating factual claims and policy proposals. Also discusses propositional analysis, evidence as demonstration, effecting reasoning processes to become experimental for listeners and ethics in controversy.
Prerequisite: SPC 2608 or instructor permission.

SPC 3602 Advanced Public Speaking 3 Credits
Grading Scheme: Letter Grade
Studies principles and methods of selected forms of public speaking for various purposes, audiences and contexts.
Prerequisite: SPC 2608 or equivalent.

SPC 4301 Advanced Interpersonal Communication 3 Credits
Grading Scheme: Letter Grade
Analysis of interpersonal communication in various professional and social settings shown through case studies, role plays and discussion that all illustrate how emotions and social expectations shape communication.
Prerequisite: SPC 2300 or instructor permission.

SPC 4425 Small Group Communication 3 Credits
Grading Scheme: Letter Grade
Communication in small groups with emphasis in practical applications, skill development and current research and theory.
Prerequisite: COM 1000.

SPC 4710 Patterns of Intercultural Communication 3 Credits
Grading Scheme: Letter Grade
Explores practices and difficulties of communication between and among people of contrasting cultures. Includes investigation of theory and research by which intercultural communication problems can be mitigated. (N and S) (WR)
Prerequisite: COM 1000 or equivalent.
Attributes: General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

SPC 4905 Directed Individual Study in Communication Studies 1-3 Credits
Grading Scheme: Letter Grade
Directed individual study in communication studies designed for the advanced student who wants to pursue an in-depth area of study not provided in regularly offered courses. Directed individual study could involve independent readings or individual projects under faculty guidance.
Prerequisite: instructor permission.

SPC 4911 Undergraduate Research in Speech Communication 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in speech communication. Projects may involve inquiry, design, investigation, scholarship, discovery, or application in speech communication.

Digital Worlds Institute

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

DIG 2005 Introduction to Digital Technologies 3 Credits
Grading Scheme: Letter Grade
Comprehensive introduction to fundamental digital technologies and computing concepts; covers history of computing, binary arithmetic, Boolean logic, file formats, computer architecture, databases, networking, security/privacy, and ethics.

DIG 2121 Principles of Digital Visualization 3 Credits
Grading Scheme: Letter Grade
Develops appreciation and basic fluency in the application of visual and design literacy into emergent forms of digital media. Historical and theoretical perspectives inform hands-on learning across topics including pre-visualization and storyboarding in static and time-based media, and the critical analysis of contemporary and iconic visual storytelling.

DIG 2632 Creating Mobile Games 3 Credits
Grading Scheme: Letter Grade
Introduces designing mobile video games with simple drag and drop programming and basic asset creation. Covers the essential principles of design and development needed to create effective arcade-style games. Provides a solid foundation in the technical skills needed to create multi-platform mobile games.

DIG 2930 Special Topics: Foundations of Digital Culture 3 Credits
Grading Scheme: Letter Grade
In-depth examination of the technological and cultural underpinnings that shape current electronic media including video games, the internet, computer-animated movies, and virtual reality.

DIG 2931C Special Topics in Digital Media 1-3 Credits
Grading Scheme: Letter Grade
Special topics course to address contemporary digital arts and sciences issues. This flexible pedagogic mechanism provides DAS a dimension of vitality that compliments theory-based offerings with an up-to-the-minute examination of emergent cultural and technological events and developments.
Prerequisite: instructor permission.

DIG 3020 Foundations of Digital Culture 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary overview of the technological and cultural developments that continue to shape the modern world. Student research covers topics including telecommunications, digital and analog technologies, video games, computer-generated entertainment and the rise of social media. (WR)
Prerequisite: (Digital Arts and Sciences BA or BS major) or instructor permission.
Attributes: Satisfies 4000 Words of Writing Requirement

DIG 3097 Entrepreneurship in New Media 3 Credits
Grading Scheme: Letter Grade
Using an interdisciplinary approach, acquire fluency in techniques of idea generation, innovation, internet startups, video games, mobile applications, promotion and branding, company boot strapping, and business plan creation. Focuses on developing creative and business skills applicable to new media startups.
Prerequisite: Digital Arts and Sciences BA major.

DIG 3305C 3D Digital Animation Techniques 3 Credits
Grading Scheme: Letter Grade
Introduces the foundations of creating 3D digital environments and animations; implement industry-standard animation principles and practices, including reference-centric animation and polygonal modeling.
Prerequisite: DAR major and and DIG 3313C with minimum grade of C..

DIG 3313C 2D Digital Animation Techniques 3 Credits
Grading Scheme: Letter Grade
Introduces foundational knowledge of animation in a 2D space; learn how to design and implement character, abstract, and shape animation.
Prerequisite: Digital Arts and Sciences BA major.

DIG 3433 Digital Storytelling 3 Credits
Grading Scheme: Letter Grade
Develops a framework for integrating participation and storytelling as the foundation of interactivity. Explores how story is incorporated into contemporary interactive platforms such as games and other digital media, including virtual worlds, video blogs and social networks.
Prerequisite: Digital Arts and Sciences BA major with junior standing or higher.

DIG 3506 Interdisciplinary Design Methods for Digital Arts and Sciences 2 Credits
Grading Scheme: Letter Grade
Comprehensive overview of industry and academy standard design methods and processes. Interdisciplinary design practices from process-focused fields like interaction design, human-centered design, design research and computer-supported collaborative work. Construction and delivery of needs analyses, audience analyses, and design documents, and iterative design practices including rapid prototyping, user-testing, real-time research, conceptual design and agile development. Students will use one of these design frameworks to take a DAS design prototype from conceptualization to user-testing.
Prerequisite: Digital Arts and Sciences BA major with junior standing or higher.

DIG 3525C DAS Design and Production Studio 1 3 Credits
Grading Scheme: Letter Grade
Provides digital imaging and design foundations in visualization. Also offers an introduction to the foundation of interface tools in industry standard digital imaging software.
Prerequisite: Digital Arts and Sciences BA major.

DIG 3526C DAS Design and Production Studio 2 3 Credits
Grading Scheme: Letter Grade
Working within an interdisciplinary digital arts and sciences (DAS) design and production studio environment, students will focus on network and Internet-based technologies, delivery systems and content generation. Students will participate in the creation of two major collaborative group projects or one major semester-long project.
Prerequisite: Digital Arts and Sciences BA major and DIG 3525C with minimum grade of C.

DIG 3588C Digital Portfolio 1-3 Credits
Grading Scheme: Letter Grade
Provides technical and design skills for the creation of a digital portfolio with interactive media suitable for distribution, including DVD and a portfolio website. Also covers techniques for using and linking social media, digital branding and personal marketing.
Prerequisite: Digital Arts and Sciences BA major of junior standing or higher.

DIG 3691 Blockchain Innovation in Digital Arts and Sciences 3 Credits
Grading Scheme: Letter Grade
Comprehensive survey of relevant topics in blockchain and its impact on digital arts and sciences; provides an overview of the technology behind blockchain and explores current and potential real-world applications in arts, digital entrepreneurship, and creativity.
Prerequisite: DAR major and junior standing or higher.

DIG 3713 Game Design Practices 3 Credits
Grading Scheme: Letter Grade
Provides both theoretical and practical knowledge and essential technical skills for the conceptualization and digital visualization of video game assets. Covers the principles and practical applications of industry-standard software suites. Emphasizes developing strong foundational skills, compelling conceptual ideas, and self-motivated problem solving.
Prerequisite: Digital Arts and Sciences BA major of junior standing or higher.

DIG 3873 Theory of Digital Media Protocols 3 Credits
Grading Scheme: Letter Grade
Covers the theory behind the design of digital media systems, data-flow logic, binary data structures and pseudo-code description of computational algorithms. The students will be exposed to fundamental principles of computer coding and scripting and protocols of communication between digital systems.
Prerequisite: Digital Arts and Sciences BA major of junior standing or higher.

DIG 3878 Applied Digital Media Protocols 3 Credits
Grading Scheme: Letter Grade
Introduces contemporary protocols for mobile application development. Topics include procedural and object-oriented programming, mobile software development practices, design and implementation of natural human-computer interaction for mobile and wearable platforms. Students will develop skills in programming their own applications with graphical user interfaces for portable digital media systems.
Prerequisite: DIG 3873 with minimum grade of C.

DIG 4151 Advanced Writing for Interactive Media 3 Credits
Grading Scheme: Letter Grade

DIG 4154 Writing for Interactive Media 3 Credits
Grading Scheme: Letter Grade
Provides in-depth analysis and opportunity to hone writing skills needed in the creation and development of interactive digital media. Students will investigate approaches for generating high-quality writing and the blend between development, planning, technical and creative writing through writing the documents to support a digital media project's development and production.
Prerequisite: Digital Arts and Sciences BA major of senior standing.

DIG 4171C Digital Tools for Arts and Humanities 3 Credits
Grading Scheme: Letter Grade
Study of digital applications, games, tools, and social networks to enhance research in the arts and humanities; examines and expands on current theoretical discussions, applications, and methodologies. An interdisciplinary group project embraces collaborative research and offers hands-on experience with digital tools.
Prerequisite: Junior level or higher

DIG 4255C Audio Design for Digital Production 3 Credits
Grading Scheme: Letter Grade
Professional techniques for the creation of audio content for variety of applications in the digital arts and sciences. Software tools for conversion, storing, processing and retrieval of sound in a variety of digital formats. Fundamentals of loop-based audio design, sampling and work with an industry standard software with linear and interactive digital media.
Prerequisite: Digital Arts and Sciences BA major of senior standing.

DIG 4283 Music and Sound Design for Digital Media 3 Credits
Grading Scheme: Letter Grade
Investigates techniques, tools and current research in music and sound design for digital media for DAR and DAS non-music majors.

DIG 4306C Advanced Digital Animation Techniques 3 Credits
Grading Scheme: Letter Grade
Practical principles and techniques of 3D software environments for animation. Includes triangular mesh design and editing, splines (NURBS), shading techniques and lighting, different camera projection models, rendering techniques, and efficient use of GPU for photo realistic real-time 3D animation.
Prerequisite: (Digital Arts and Sciences BA major and DIG 3305C with minimum grade of C) or instructor permission.

DIG 4354 3D Character Animation 3 Credits
Grading Scheme: Letter Grade
This course teaches techniques for 3D character animations. Students will practice character development, pipeline management, procedural framework simulation, and basic rigging alongside studies of motion picture animation. By the end of the course, students will master industry-standard tools to animate basic 3D objects, 3D bipedal motion, and key-framing.
Prerequisite: DAR major and DIG4306C with minimum grade of C.

DIG 4361C Advanced 2D Digital Animation Techniques 3 Credits
Grading Scheme: Letter Grade
Develop advanced industry-standard practices in digital 2D animation. Within a collaborative environment, create a 30 second film in order to learn the production pipeline, time management, and task allocation while demonstrating advanced animation techniques.
Prerequisite: DIG 3313C with minimum grade of C and DAR major.

DIG 4527C Game Design and Production 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary approach to game design and production. Emphasizes rapid prototyping, agile design, collaboration, and project management in a relatively short development cycle. Work on idea pitches, write concept proposals, and work to develop a video game.
Prerequisite: DAR major and DIG 4715C with minimum grade of C.

DIG 4540C Production of Immersive Environments 3 Credits
Grading Scheme: Letter Grade
This course is a project-based class that will cover the foundational knowledge of immersive technologies such as AR and VR. The course provides hands-on experience developing a fully functioning immersive experience prototype.
Prerequisite: DIG 3305C and DIG 3878 with minimum grades of C, and DAR major with junior standing or above.DIG4540C

DIG 4583C DAS Design and Production Studio 4 3 Credits
Grading Scheme: Letter Grade
As the capstone academic experience resulting from work within the interdisciplinary DAS environment, students will choose their own semester-long project that solves a problem or presents a new technical or cultural capability via enhanced human-computer interaction.
Prerequisite: DAR major and DIG 4527C with minimum grade of C.

DIG 4634 Wearable and Mobile App Development 3 Credits
Grading Scheme: Letter Grade
Examines software development protocols for wearable and mobile electronics such as head-mounted displays, watches, and cellphones. Studies several embedded input/output interfaces, including position and orientation sensors, hand trackers, holographic, and stereoscopic displays. Materials are practiced by developing prototype software applications for such devices.
Prerequisite: DIG 3878 with minimum grade of C.

DIG 4715C Game Development 3 Credits
Grading Scheme: Letter Grade
Elaborates on concepts, processes and technical practices introduced in DIG3713C; use game design fundamentals to craft effective digital games. Detailed examination of conceptual techniques in game design and their use in DAS design practice; comparative introduction of frameworks for game design; technical components of 2D and 3D game design.
Prerequisite: DIG 3873 and (DIG 3713 or DIG 3525C), all with minimum grades of C, and DAR major.

DIG 4841 Undergraduate Research Forum 3 Credits
Grading Scheme: Letter Grade
Seminar focuses on collaborative interdisciplinary research in the digital arts and sciences. Develop, refine, and present research projects and process related to traditional and contemporary industry concerns, practices, and trajectories.
Prerequisite: DAR major and senior standing.

DIG 4905 Independent Study 1-4 Credits
Grading Scheme: Letter Grade
Independent study of special or individual DIG projects and issues, under faculty supervision.
Prerequisite: consent of faculty member supervising the study.

DIG 4917 Undergraduate Research in DAS 0-3 Credits
Grading Scheme: S/U
Provides research experience at the intersection of digital arts and sciences. Research assistants work directly with faculty to explore and produce various research in interactive tools and technologies. Accelerate professional development as both a researcher and digital artist.
Prerequisite: Junior level or higher.

DIG 4932 Colloquium in Digital Arts and Sciences 1 Credit
Grading Scheme: S/U
Seminars explores current affairs in the field of digital arts and sciences. Research, communicate, and analyze the contemporary trends in digital arts and sciences.
Prerequisite: DAR major and senior standing.

DIG 4940 Internship 1-3 Credits
Grading Scheme: S/U
Internship encourages reflection on position, company, industry, and experience. After completing the assignments, students should be able to articulate the role internship had in their career development.
Prerequisite: DAR major.

DIG 4942 Undergraduate Course Assistant 0-3 Credits
Grading Scheme: S/U
Provides hands-on experience teaching digital arts and sciences at the college level. Under the supervision of a faculty member, lab assistants help prepare and discuss course materials, work with students during office hours, and play a critical role in facilitating learning.
Prerequisite: DAR major and junior or higher standing.

DIG 4944C Production Practicum 0-3 Credits
Grading Scheme: S/U
Production Practicum will provide DAS students hands-on experience producing and executing real-world digital media projects. Students will participate in many production roles, collaborating with peers and clients in a professional studio environment. In the process, students will accelerate their professional development as a producer within the digital arts and sciences.
Prerequisite: Junior level or higher.

DIG 4970 Senior Project in DAS 2-3 Credits
Grading Scheme: Letter Grade
Successful completion of this capstone experience demonstrates mastery of requisite knowledge, technical acumen, and problem solving skills in the digital arts and sciences. May be either an individual or team-based project.
Prerequisite: senior status enrolled in the BA in DAS program.

Dutch | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

DUT 1130 Beginning Dutch 1 5 Credits
Grading Scheme: Letter Grade
DUT 1130 and its sequel, DUT 1131, constitute the basic sequence in Dutch for the development of overall skill in the language. Open to those with little or no background in Dutch.

DUT 1131 Beginning Dutch 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the basic sequence in Dutch for the development of overall skill in the language. Open to those with little or no background in Dutch.
Prerequisite: DUT 1130 with minimum grade of C, or S, or the equivalent.

Economics

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

ECO 2013 Principles of Macroeconomics 4 Credits
Grading Scheme: Letter Grade
The nature of economics, economic concepts and institutions; growth, unemployment and inflation; money and banking; economic policies; and the international economy. (S)
Attributes: General Education - Social Science

ECO 2023 Principles of Microeconomics 4 Credits
Grading Scheme: Letter Grade
Theories of production, determination of prices and distribution of income in regulated and unregulated industries. Attention is also given to industrial relations, monopolies and comparative economic systems. (S)
Attributes: General Education - Social Science

ECO 2310 Economics of Sustainability 3 Credits
Grading Scheme: Letter Grade
Examines issues of environmental sustainability from an economic perspective. Discusses economic treatment of renewable and nonrenewable resources, land constraints, and global climate change. Identifies potential policy solutions grounded in economic theory.

ECO 3101 Intermediate Microeconomics 4 Credits
Grading Scheme: Letter Grade
Nature, scope and purpose of economic analysis. Examines the theory of consumer behavior, production, costs, firm behavior and the allocation of resources. (S)
Prerequisite: (ECO 2023 and (MAC 2233 or higher level calculus course)) or AEB 3103
Attributes: General Education - Social Science

ECO 3203 Intermediate Macroeconomics 4 Credits
Grading Scheme: Letter Grade
Theoretical determinants of aggregate employment, income, expenditures and the price level. Keynesian and neoclassical models are analyzed.
Prerequisite: ECO 2013 and ECO 2023 and (MAC 2233 or higher level calculus course).

ECO 3532 Public Choice 4 Credits
Grading Scheme: Letter Grade
Role of voters, special interests, legislators and the bureaucracy in determining government expenditure, taxation and other economic policies. Economic models of voting and the structure of governments. (S)
Prerequisite: ECO 2023.
Attributes: General Education - Social Science

ECO 3704 International Trade 4 Credits
Grading Scheme: Letter Grade
Theory of international trade and commercial policy. Current issues in international trade, comparative advantage, scale economics, the economics of tariff and non-tariff barriers. International factor movements and multinational firms. Political economy of trade restrictions, strategic trade policy and trade negotiations.
Prerequisite: ECO 2013 and ECO 2023.

ECO 3713 International Macroeconomics 4 Credits
Grading Scheme: Letter Grade
Macroeconomic theory of an open economy. Current monetary issues of the world economy. The international monetary system, exchange rate determination, balance of payments adjustment mechanism, international financial institutions and their policies. Macroeconomic policies and national income determination in an open economy.
Prerequisite: ECO 2013 and (ECO 2023 or AEB 3103).

ECO 4104 Economics of Competitive Strategy 4 Credits
Grading Scheme: Letter Grade
Focuses on identification and analysis of competitive strategies in expanding markets. Draws on strategic management, the economics of technological change and RD investments, and dynamic game theory, to address challenges faced by firms. Examines demand-based network externalities, the dynamics of pricing rivalry, industry evolution, RD strategies entry and exit decisions.
Prerequisite: ECO 2013 and ECO 2023 and (ECO 3101 or ECO 3704) and (MAC 2233 or higher).

ECO 4213 Monetary Economics 4 Credits
Grading Scheme: Letter Grade
An integrated examination of how banks impact the money supply, monetary policy and financial markets. Topics include: the historical features of money; banking and money supply; goals and tools of monetary policy; and banks as financial intermediaries.
Prerequisite: ECO 2013 and ECO 2023.

ECO 4270 Economic Growth 4 Credits
Grading Scheme: Letter Grade
Examines global history of economic growth and development. Introduces classical and modern theories of economic growth. Develops mainstream models of exogenous and endogenous growth. Compares insights from these models to real-world data.
Prerequisite: (MAC 2233 or higher) and (ECO 3101 or ECP 3703)

ECO 4400 Game Theory and Applications 4 Credits
Grading Scheme: Letter Grade
Introduces modern game theory, including the formal theory of Nash equilibrium and solutions techniques. Applications include strategic barriers of entry; cooperative behavior in oligopoly, auctions and bidding strategies; and durable goods sales.
Prerequisite: ECO 2023 and (MAC 2233 or MAC 2234 or MAC 2311 or MAC 2312 or MAC 2313) and (ECO 3101 or ECP 3703).

ECO 4401 Mathematical Economics 4 Credits
Grading Scheme: Letter Grade
Introduces fundamental mathematical tools employed in economic analysis. Covers comparative static analysis, introduces linear algebra, constrained and unconstrained optimization, and dynamic analysis using differential and difference equations. Examines applications from a wide range of subfields in economics, including consumer theory, macroeconomics, economic growth, and environmental economics.
Prerequisite: (ECO 2013 and ECO 2023 and ECO 3101) or (ECO 3203 and MAC 2233 or higher).

ECO 4421 Econometrics 4 Credits
Grading Scheme: Letter Grade
Introduces concepts and methods used in empirical economic research. Emphasizes practical use of basic econometric techniques to estimate economic relationships and evaluate policy. Covers topics needed to plan and implement empirical projects, and understand potential problems with the empirical analyses of others.
Prerequisite: STA 2023 and (MAC 2233 or higher) and ECO 3101.

ECO 4422 Econometrics 2 4 Credits
Grading Scheme: Letter Grade
Introduces advanced concepts and methods employed in empirical economic analysis. Focuses on identification of causality using regression techniques. Examines regression discontinuity and difference-in-differences identification strategies.
Prerequisite: ECO 4421.

ECO 4504 Public Economics 4 Credits
Grading Scheme: Letter Grade
Market failures and the role of the government in providing goods and services, like education and infrastructure, in a market economy. The role of the government in the provision of various types of social insurance like health insurance, social security and welfare. The effects of taxes on economic behavior.
Prerequisite: ECO 2013 and ECO 2023 and (MAC 2233 or higher) and (ECO 3101 or ECP 3703).

ECO 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
For advanced undergraduate students who need to supplement regular coursework by individual studies under guidance. Counted as a free elective credit only.
Prerequisite: senior standing, 10 credits of economics and department permission.

ECO 4934 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Variable content providing an opportunity for the study in-depth of topics not offered in other courses.
Prerequisite: ECO 2013 and ECO 2023.

ECO 4935 Empirical Research in Economics Seminar 4 Credits
Grading Scheme: Letter Grade
After getting some background in economic empirical methodology, statistics, and statistical software and discussing some representative empirical papers, each economics student develops an empirical model and subjects it to statistical testing, helped by several class presentations.
Prerequisite: ECO 2013 and ECO 2023.

ECO 4941 Internship in Economics 1-3 Credits
Grading Scheme: S/U
Applied work in economics. Requires several papers and reports. Counted as a free-elective credit only. (S-U)
Prerequisite: department permission.

ECO 4956 International Studies in Economics 1-4 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.

ECO 4970 Honors Thesis 1-4 Credits
Grading Scheme: S/U
A thesis is required for the awarding of the magna cum laude or summa cum laude designations. To qualify, students will normally have completed 90 semester credits of coursework (exceptions may be made by the honors coordinator of the student's major department) and must have at least the grade point average (3.6) required for the magna cum laude designation at the time they enroll. The thesis will be reviewed by at least one faculty member chosen by the honors coordinator for the student's major department. Counted as a free-elective credit only. (S-U)
Prerequisite: 90 credits earned and 3.6 UF GPA.

ECP 3006 Economics of Sports 4 Credits
Grading Scheme: Letter Grade
Examines the business of sports using economic theory as a framework for analysis. Topics covered include the economics of sports leagues, labor negotiations and arbitration, pricing decisions, discrimination, corruption in sports, gambling, sports memorabilia and antitrust policy.
Prerequisite: ECO 2023 and (MAC 2233 or higher level calculus course) and (ECO 3101 or ECP 3703).

ECP 3203 Labor Economics 4 Credits
Grading Scheme: Letter Grade
Determinants of demand for labor and labor supply. Labor market equilibrium and changes in the equilibrium due to changes in unionization, public policies, technology and trade. Study of the effects of skill, job amenities and discrimination on wage differentials. (S)
Prerequisite: ECO 3101 or ECP 3703
Attributes: General Education - Social Science

ECP 3302 Environmental Economics and Resource Policy 4 Credits
Grading Scheme: Letter Grade
The relations between environmental quality, resource utilization, and economic institutions and policy. Examines alternative strategies and policies in solving the problems of environmental quality and resource scarcity. (S)
Prerequisite: ECO 2023. Credit will not be awarded for both ECP 3302 and AEB 3450.
Attributes: General Education - Social Science

ECP 3403 Industrial Organization 4 Credits
Grading Scheme: Letter Grade
Examines the structure of markets and the behavior of firms operating in imperfectly competitive markets. Develops models of imperfectly competitive markets and compares the insights and predictions from each. Investigates firms' strategic profit-maximizing decisions regarding prices, product differentiation, market entry and exit, and product promotion.
Prerequisite: ECO 2023, (MAC 2233 or higher level calculus course), and (ECO 3101 or ECP 3703)

ECP 3510 Economics of Education 4 Credits
Grading Scheme: Letter Grade
Uses economic concepts to analyze the education system and education policy options. Topics covered include class size, No Child Left Behind legislation, public vs. private schools, and vouchers.
Prerequisite: ECO 2023.

ECP 3530 Health Care Economics 4 Credits
Grading Scheme: Letter Grade
Analysis of health care markets, employing efficiency and equity criteria. Evaluation of current health care policies and their effects on cost, access and quality. Topics covered include the production of and demand for health and medical care; information asymmetrics between patients, doctors, and payers; health insurance coverage; the effects of managed care (including HMOs) on competition, efficiency, and quality; training and practice of physicians; hospitals; prescription drug pricing; government regulations; Medicare and Medicaid; health care reform.
Prerequisite: ECO 2023.

ECP 3703 Managerial Economics 4 Credits
Grading Scheme: Letter Grade
Analysis of the firm's decisions regarding prices, outputs and inputs, advertising, etc. under various market conditions. Reliance is placed upon both theories and applications.
Prerequisite: ECO 2023 and MAC 2233 or higher. Credit will not be awarded ECO 3101 and ECP 3703.

ECP 4403 Government Regulation of Business 4 Credits
Grading Scheme: Letter Grade
The evolution, statutory foundation and methods of governmental regulation. Antitrust regulation of competitive practices. (S)
Prerequisite: ECO 2023 and (MAC 2233 or higher level calculus course) and (ECO 3101 or ECP 3703).
Attributes: General Education - Social Science

ECP 4451 Law and Economics 4 Credits
Grading Scheme: Letter Grade
Analyzes the interaction between law and economics, and evolution of legal rules; efficiency of alternative rules on pollution and public goods, enforcement of contracts, deterrence of crime, and protection of consumers; and efficiency versus fairness.
Prerequisite: ECO 2023 and (MAC 2233 or higher level calculus course) and (ECO 3101 or ECP 3703).

ECS 3403 Economic Development of Latin America 4 Credits
Grading Scheme: Letter Grade
A critical assessment of Latin American political economy and economic development. Topics covered include economic history from the colonial period forward; commodity price cycles and balance of payment fluctuations; import substitution industrialization; international indebtedness; trade liberalization; inflation stabilization policies; poverty eradication difficulties.
Prerequisite: ECO 2013 and ECO 2023.

ECS 4013 Economic Development 4 Credits
Grading Scheme: Letter Grade
Examines different theories of economic growth and development of low-income and middle-income countries. Covers microeconomic and macroeconomic models relevant to understanding development and analyzing various policy proposals. Analyzes history and empirical evidence of global economic growth and development.
Prerequisite: ECO 2013, ECO 2023, MAC 2233 or higher, and ECO 3101

ECS 4110 Africa in the Global Economy 4 Credits
Grading Scheme: Letter Grade
Examines the African continent position globally, looking both at the challenges as well as at the options available to African nations to get a fair and better deal in the global economy. Main topics: international trade and global value chairs; WTO rules and negotiations especially with regard to agriculture; aid to Africa; economic reforms, the World Bank and IMF; the debt crisis; migration and African Diaspora.
Prerequisite: ECO 2013 and ECO 2023. Students with credit for ECS 4111 will not get credit for ECS 4110.

ECS 4111 African Economic Development 4 Credits
Grading Scheme: Letter Grade
Deals with the most pressing issues facing Sub-Saharan African countries in their quest for socio-economic development. Although the main focus is on contemporary issues and forthcoming challenges, we will also turn to more or less recent historical facts whenever necessary to shed light on the present. Main topics are economic growth, politics and institutions, international trade, agricultural and industrial development, poverty and inequality, access to basic social services, the environment and gender issues.
Prerequisite: ECO 2013 and ECO 2023. Students with credit for ECS 4110 will not get credit for ECS 4111.

Education | School of Human Development and Organizational Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

EDA 4930 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Topics vary.

EDF 3110 Human Growth and Development 3 Credits
Grading Scheme: Letter Grade
A life span survey of human growth and development beginning at conception and ending with death. Students will have the opportunity to apply general principles in appropriate educational settings. (S)
Attributes: General Education - Social Science

EDF 3115 Child Development for Inclusive Education 3 Credits
Grading Scheme: Letter Grade
Examines psychological theories and research on typical and atypical development and their application in general education classrooms that include children with sensory, mental, emotional, and learning disabilities and gifted and talented children.

EDF 3132 The Young Adolescent 3 Credits
Grading Scheme: Letter Grade
Development of the young adolescent between the ages of ten and fifteen.

EDF 3135 The Adolescent 3 Credits
Grading Scheme: Letter Grade
The special role that the adolescent plays in total development. Emphasis is on the psychological development of the adolescent in the school.
Prerequisite: junior standing or higher or department permission.

EDF 3210 Educational Psychology 3 Credits
Grading Scheme: Letter Grade
Introduces the application of psychology to the problems of education in a variety of educational settings. It examines the theoretical and applied aspects of learning, motivation, human development, personality, and measurement and evaluation. (S) (WR)
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

EDF 3423 Educational Research Design 3 Credits
Grading Scheme: Letter Grade
Addresses the Basic Tenets of Educational Research Design, Including Quantitative, Qualitative, and Mixed-Method Approaches to Investigating Educational Phenomena; Learn the Information Needed to Understand the Educational Research Process.
Prerequisite: EDF 4430.

EDF 3935 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Topics vary.
Prerequisite: department permission.

EDF 4140 Cognition in Education 3 Credits
Grading Scheme: Letter Grade
Examines cognitive science that explains learning in educational contexts. Specifically, reviewing memory, attention, thinking, and problem solving in classroom or applied settings. Pays special attention to the connections between research and everyday phenomena; designed to help students apply course material to enhance their lives.
Prerequisite: EDF 3210

EDF 4430 Measurement and Evaluation in Education 3 Credits
Grading Scheme: Letter Grade
The basic principles and methods of measurement, evaluation and test construction.
Prerequisite: junior standing or higher or department permission.

EDF 4440 Program Evaluation in Educational Settings 3 Credits
Grading Scheme: Letter Grade
Overview to the skills and methods required to assess the effectiveness and impact of educational programs and institutions. First presents program evaluation in the broader setting of the social sciences, followed by evaluation readings and activities tailored specifically to educational settings.
Prerequisite: EDF 4430

EDF 4470 Survey Research Methods in Education 3 Credits
Grading Scheme: Letter Grade
Overview of the theory and application of survey research methods, with special emphasis on conducting survey research in educational settings. Presents the full process of survey research, including design, implementation, analysis, and data management.
Prerequisite: EDF 4430

EDF 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
For juniors or seniors who wish to explore areas of inquiry in psychological, social, or philosophical foundations of education, or research or measurement, under faculty guidance.

EDG 4910 Education Undergraduate Research 0-3 Credits
Grading Scheme: S/U
Supports mentored scholarship work that enables individual students to engage in the research process of posing questions, collecting and analyzing data, drawing evidence-based conclusions and communicating the results to others. Projects may involve inquiry, design, investigation, scholarship, discovery or application depending on the topic. (S-U)

EDH 3410 Introduction to Education Policy 3 Credits
Grading Scheme: Letter Grade
Introduces education policy and analysis that explores the history and purpose of education policy, key federal and state policies impacting K12 and higher education, and theoretical and conceptual approaches to policy analysis.
Prerequisite: EDF 3604.

MHS 3930 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Topics vary.

MHS 4900 Individual Work 2-4 Credits
Grading Scheme: Letter Grade
Topics vary.
Prerequisite: department permission.

SDS 3340 Career and Life Span Planning 3 Credits
Grading Scheme: Letter Grade
Presentations, discussions and experiential activities for making effective life plans and adjustments are covered.

SDS 3430 Family and Community Involvement in Education 3 Credits
Grading Scheme: Letter Grade
Examines existing models and practices for enhancing family-school-community interaction with emphasis on communication, conflict resolution and climate-building skill development.

SDS 3480 Student Development in a University Setting 2 Credits
Grading Scheme: Letter Grade
Available to selected undergraduate students only. Examines factors affecting student growth and development in the university setting, current problems facing students, and the use of group processes and leadership training in solving problems and facilitating growth.

SDS 3481 Alcohol and Drug Abuse 2 Credits
Grading Scheme: Letter Grade
General information of effects and problems associated with alcohol and other drug abuse.

SDS 3482 Stress and Anxiety Management 3 Credits
Grading Scheme: Letter Grade
Overview of theories and methods of stress and anxiety control and reduction.

SDS 4410 Interpersonal Communication Skills 3 Credits
Grading Scheme: Letter Grade
The application of basic principles of interpersonal communication with emphasis on the affective dimensions. Attention is given to using basic counseling strategies and psychological techniques as an aid to effective communication.

Education | School of Special Education, School Psychology and Early Childhood Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

EDF 2085 Teaching Diverse Populations 3 Credits
Grading Scheme: Letter Grade
Surveys educational demographics, foundations of prejudice, elements of culture, political and philosophical roots of diversity and commonality, exceptionalities, and barriers to cultural understanding and diversity in the classroom. A minimum of 30 hours of field experience is required with 15 hours in a diverse setting. See also: EDF 1005 and EME 2040. (D and S)
Attributes: General Education - Diversity, General Education - Social Science

EDF 3122 The Young Child 3 Credits
Grading Scheme: Letter Grade
Studies growth and development during infancy and early childhood. Laboratory includes observation and participation in nursery school and kindergarten.

EDF 3433 Introduction to Educational Measurement and Evaluation 2 Credits
Grading Scheme: Letter Grade
Surveys principles and methods of educational measurement with an emphasis on evaluation and diagnosis of students in school settings.
Prerequisite: STA 2023; knowledge of descriptive statistics, correlation and regression; inferential statistics and tests on means; and department permission for freshmen and sophomores.

EDG 4910 Education Undergraduate Research 0-3 Credits
Grading Scheme: S/U
Supports mentored scholarship work that enables individual students to engage in the research process of posing questions, collecting and analyzing data, drawing evidence-based conclusions and communicating the results to others. Projects may involve inquiry, design, investigation, scholarship, discovery or application depending on the topic. (S-U)

EEC 3005 Professionalism in Preschool and Childcare 3 Credits
Grading Scheme: Letter Grade
Ethical standards, professional guidelines, informed advocacy, and collaboration to support the development of children in child care and preschool settings.
Prerequisite: admission to B.S. in Early Childhood Studies.

EEC 3213 Language and Literacy Development in Preschool 4 Credits
Grading Scheme: Letter Grade
Provides an understanding of the phases of language and literacy development in children ages 3-5.
Prerequisite: admission to B.S. in Early Childhood Studies.

EEC 3404 Families, Diversity and Multicultural Considerations in Early Childhood 4 Credits
Grading Scheme: Letter Grade
The role of family and influence of community on development and learning of young children in diverse society.

EEC 3421 Teaching Math and Science in Early Childhood 3 Credits
Grading Scheme: Letter Grade
Techniques and methods for teaching preschool to third grade mathematics and science. Topics include psychological understandings, problem solving processes, integration of mathematics and science curricula, organizing for instruction, teaching methodology, alternative assessments and applying the process approach to learning activities through use of centers, cooperative learning, hands-on manipulatives and discovery type experiments.
Prerequisite: junior/senior-level EMR in Unified Early Childhood Education.

EEC 3941 Practicum in Early Childhood Education 1-3 Credits
Grading Scheme: S/U
Field experience in pre-service early childhood education.
Prerequisite: enrollment in Unified Early Childhood PROTEACH.

EEC 4204 Infant-Toddler Curriculum 3 Credits
Grading Scheme: Letter Grade
Design, implementation and evaluation of curriculum to support the development of infants and toddlers in child care programs.
Prerequisite: admission to B.S. in Early Childhood Studies.

EEC 4212 Mathematics and Science in the Preschool Years 3 Credits
Grading Scheme: Letter Grade
Development and promotion of mathematics and science skills, concepts and dispositions in the preschool years.
Prerequisite: admission to B.S. in Early Childhood Studies.

EEC 4215 Early Childhood Science and Social Studies 3 Credits
Grading Scheme: Letter Grade
Integrated curriculum course for science and social studies from the perspective of constructivist theory. Designed to promote understanding of similarities in ways in which children construct basic science and social studies concepts.
Prerequisite: junior/senior-level EMR in Unified Early Childhood Education.

EEC 4252 Early Childhood Curriculum and Management 3 Credits
Grading Scheme: Letter Grade
Develops knowledge of best practices in curriculum, management, and teaching in the early childhood years. Includes the contribution of child development theory and research to the design and implementation of appropriate early childhood programming, and discusses using theme-based units and play for integrating curriculum.

EEC 4268 Play and Integrated Curriculum in the Preschool Years 3 Credits
Grading Scheme: Letter Grade
Uses theme-based units and play to integrate curriculum for preschool-aged children.
Prerequisite: admission to B.S. in Early Childhood Studies.

EEC 4314 Behavior Management in the Preschool Years 3 Credits
Grading Scheme: Letter Grade
Understanding, preventing and responding to challenging behavior in preschool age children.

EEC 4315 Promoting Social Competence in the Preschool Years 3 Credits
Grading Scheme: Letter Grade
Methods to facilitate peer interaction and promote the development of social competence for preschool age children.

EEC 4712 Social Competence in Early Childhood 3 Credits
Grading Scheme: Letter Grade
Techniques for implementing developmentally appropriate strategies that promote children's self-responsibility and self-discipline. Examination of practices that help young children learn conflict resolution, effective interaction skills and prosocial behavior.
Prerequisite: junior/senior-level EMR in Unified Early Childhood Education.

EEX 2000 Impact of Disabilities: Home, Community and Workplace 3 Credits
Grading Scheme: Letter Grade
How disabilities impact the lives of individuals who have disabling conditions and how the presence of individuals with disabilities enhances diversity in a variety of settings. The impact of disabilities in home, community and work environments. Physical, cognitive and emotional/behavioral disabilities are considered. (D and S)
Attributes: General Education - Diversity, General Education - Social Science

EEX 3012 Introduction to Special Education 3 Credits
Grading Scheme: Letter Grade
Overview of special education characteristics and definitions of disabilities, the referral process and service delivery models. Information on the history of, legal basis for and contemporary issues in special education.

EEX 3062 Early Childhood Special Education Curriculum 3 Credits
Grading Scheme: Letter Grade
Content knowledge in developing and implementing individualized educational programs for the pre-kindergarten child with disabilities, including developmentally appropriate curriculum; methods, interventions strategies, teaming approaches, inclusion and mainstreaming issues; and approaches and techniques for serving the child and the family.

EEX 3070 Teachers and Learners in the Inclusive School 3 Credits
Grading Scheme: Letter Grade
Characteristics of, identification of and teaching practices for exceptional children in mainstream education. Designed for general education majors, both elementary and secondary.
Prerequisite: junior standing or higher.

EEX 3093 Exceptional People in School and Society 3 Credits
Grading Scheme: Letter Grade
Persons with disabilities and people from other diverse groups and the services they need from school and society for success. Consideration of the abilities, causes and educational implications. May not be taken in lieu of EDF 2085. (D and S)
Attributes: General Education - Diversity, General Education - Social Science

EEX 3097 Social Perspectives on Disability 3 Credits
Grading Scheme: Letter Grade
Covers issues relevant to people with disabilities, their families and others with whom they have contact through community, employment or other settings. Specifically, historical views of people with disabilities and current disability-related issues are examined. Provides a framework for understanding disabilities and disability-related issues within cultural contexts.
Prerequisite: EEX 2000 or EEX 3093.

EEX 3226 Assessment in Early Childhood Special Education 3 Credits
Grading Scheme: Letter Grade
Use of informal and formal evaluation techniques to develop individualized educational programs for young children with disabilities and individualized family support plans for infants and toddlers with disabilities and their families. An emphasis is the implementation of a multidisciplinary team approach in the assessment of young children.

EEX 3257 Core Teaching Strategies 3 Credits
Grading Scheme: Letter Grade
Helps pre-service teachers develop instruction that provides diverse learners meaningful access to the school curriculum, and assist them in becoming self-regulated learners.

EEX 3616 Core Classroom Management Strategies 3 Credits
Grading Scheme: Letter Grade
Helps pre-service teachers learn classroom management strategies that develop a positive classroom community for students with disabilities and other diverse learners. They will learn organizational and management strategies to assist students in managing their behavior.

EEX 4064 Educational Programming for Infants and Toddlers with Disabilities 3 Credits
Grading Scheme: Letter Grade
Overview of issues, trends and best practices in the education of infants and toddlers who are at-risk or disabled (birth to three).

EEX 4280 Disabilities in Community and Employment 3 Credits
Grading Scheme: Letter Grade
In-depth look at aspects of the community and work experiences for adults with disabilities and the individuals who interact with them. Effective practices that foster accepting and supportive environments that ensure successful life outcomes are discussed.
Prerequisite: EEX 2000 or EEX 3093.

EEX 4294 Differentiated Instruction 3 Credits
Grading Scheme: Letter Grade
Provides preservice teachers with information and expertise related to instruction to that effectively meets the academic needs of all students in inclusive settings.

EEX 4520 Disabilities: Legal Aspects and Policies 3 Credits
Grading Scheme: Letter Grade
Development and enactment of laws and policies designed to protect the rights of persons with disabilities. Examines The Americans with Disabilities Act as well as other significant legislation contributing to policies affecting this population. Examines disability legislation/policy on local, state, national, and international levels.
Prerequisite: EEX 2000 or EEX 3093.

EEX 4754 Family Focused Involvement in Early Childhood Special Education 3 Credits
Grading Scheme: Letter Grade
Professional skills working with families of young children with disabilities, including understanding of family systems theory, assessing family strengths and needs, developing individual family support plans (IFSP) or individual educational plan (IEP), and enhancing communication and counseling skills. Understanding families from diverse cultures.

EEX 4790 Multicultural Issues in Early Childhood Special Education 3 Credits
Grading Scheme: Letter Grade
Cultural and linguistic diversity among young children with disabilities and their families.

EEX 4810 Seminar on Disability 3 Credits
Grading Scheme: Letter Grade
Identify and analyze current disability issues and literature on the integration of individuals with disabilities in the workplace, post-secondary education, community, and adult life. Students complete a culminating activity investigating a disability topic or applying disability-related knowledge to their academic discipline or anticipated professional practice.
Prerequisite: EEX 3097 or EEX 4280 or EEX 4520.

EEX 4837 Practicum Early Child 3 Credits
Grading Scheme: S/U

EEX 4905 Individual Study 1-6 Credits
Grading Scheme: Letter Grade
In-depth study of a problem that relates to preparation as a special education teacher. The project must be approved and supervised by department faculty. (WR)
Prerequisite: undergraduates only.
Attributes: Satisfies 6000 Words of Writing Requirement

EPD 4033 Child Youth Mult Disa 1-3 Credits
Grading Scheme: Letter Grade

LIN 3710 Language Acquisition 3 Credits
Grading Scheme: Letter Grade
Child language development and use as it influences classroom practice and literacy development. Study of oral language development of children from birth through age eight.
Prerequisite: junior/senior-level EMR in Unified Early Childhood Education.

SLS 1510 Developing Academic Skills 2 Credits
Grading Scheme: Letter Grade
Equips students with the tools that enable them to become independent learners with focus on testing and study skills, library research, and organized composition skills; introduces analytical thinking.

Education | School of Teaching and Learning

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

ARE 4940 Student Teaching in Art Education 4-12 Credits
Grading Scheme: S/U
Student-teaching classroom experience in art.
Prerequisite: minimum 2.5 GPA and art education major.

EDE 4905 Individual Study 1-3 Credits
Grading Scheme: Letter Grade
In-depth study of a problem that relates to teacher preparation. The project must be approved and supervised by a department faculty member.

EDE 4942 Integrated Teaching in Elementary Education 2 Credits
Grading Scheme: S/U
This field component is an intensive experience completed during the integrated semester in language arts and social studies in the inclusive classrooms. (S-U)
Prerequisite: EEX 3070;
Corequisite: EEX 4905

EDF 1005 Introduction to Education 3 Credits
Grading Scheme: Letter Grade
Overview of education, teaching and schools; a survey of historical, philosophical and social foundations; and an orientation to professional education and the code of ethics. Thirty hours of field experience is required. This is the first of three prerequisite core courses for those who plan to be teachers. EDF 2085 and EME 2040 continue the sequence.

EDF 3083 International and Comparative Education 3 Credits
Grading Scheme: Letter Grade
Examines the political, economic, and cultural contexts of schooling in various parts of the world; introduces theoretical perspectives and comparative methods for interpreting the significance of educational policies and practices in light of globalization.
Prerequisite: EDF 3604.

EDF 3514 History of Education in the United States 3 Credits
Grading Scheme: Letter Grade
The development of American schools and major problems in American education; emphasizes the relationships among the schools, intellectual movements and social institutions. (H)
Attributes: General Education - Humanities

EDF 3604 Social Foundations of Education 3 Credits
Grading Scheme: Letter Grade
Educative effects of social structures and social values and the issues involved in appraising these effects, including the resulting social demands upon schools.
Attributes: General Education - Social Science

EDF 3609 Sociological and Historical Foundations of Education 3 Credits
Grading Scheme: Letter Grade
A sociological and historical analysis of schooling in American society. Aims of education are examined in relation to social structures, institutions and values; subcultures; social stratification; school law; and democracy and the sociology of the teaching profession.
Prerequisite: junior standing or higher or department permission.

EDF 4930 Schools on Screen: American Education in Popular Media 3 Credits
Grading Scheme: Letter Grade
Explores how the movies and television have portrayed educators and students over time; investigates the ways in which those representations have helped to shape popular impressions of American schooling.
Prerequisite: EDF 3604.

EDG 4003 Global Issues in K-12 Education 3 Credits
Grading Scheme: Letter Grade
Overview of current global issues and strategies for incorporating them into the K-college curriculum.

EDG 4203 Elementary and Secondary Curriculum 3 Credits
Grading Scheme: Letter Grade
Purposes, organization, curriculum and issues of elementary and secondary schools and roles of educators.

EDG 4910 Education Undergraduate Research 0-3 Credits
Grading Scheme: S/U
Supports mentored scholarship work that enables individual students to engage in the research process of posing questions, collecting and analyzing data, drawing evidence-based conclusions and communicating the results to others. Projects may involve inquiry, design, investigation, scholarship, discovery or application depending on the topic. (S-U)

EDG 4930 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Topics vary.

EME 2040 Introduction to Educational Technology 3 Credits
Grading Scheme: Letter Grade
Introduces computer productivity (word processing, databases, spreadsheets, painting, drawing, layouts); multimedia (media design, digital video, presentation); communications (internet, Eric); educational software (computer-aided instruction, public domain software); interactive media (linked environments, one-to-many, presentations using electronic tools); reference materials (electronic encyclopedia, atlases, clip art, libraries, internet); instructional applications (techniques); and ethical.

EME 3044 Issues and Trends in Educational Technology 3 Credits
Grading Scheme: Letter Grade
Introduces the field of educational technology and its history and allows an exploration of current topics and trends in educational technology research and application.
Prerequisite: EME 3813.

EME 3319 Design and Development of Educational Multimedia 3 Credits
Grading Scheme: Letter Grade
Introduces the principles, methods, and tools for the design and development of multimedia applications, including incorporation of sound, animation, still images, video, and other media in educational technology.
Prerequisite: EME 3813.

EME 3813 Technology-Enhanced Learning Environments 3 Credits
Grading Scheme: Letter Grade
Analyzes how people learn in technology-enhanced environments, outlines how the design of technology-enhanced systems can support or undermine learning, and considers critical issues for instructors, designers, and learners in the digital age.
Prerequisite: EME 2040.

EME 4010 Distance Education Research and Practice 3 Credits
Grading Scheme: Letter Grade
Examines the concepts, technologies, and issues related to the analysis, design, development, implementation, policy-making, and evaluation of distance education courses and programs. Create an online module based on design principles and quality guidelines.
Prerequisite: EME 3813.

EME 4320 Instructional Development for Teaching and Learning 3 Credits
Grading Scheme: Letter Grade
Design and develop instructional materials using emerging technologies. Topics include programming, authoring packages, design principles, and development procedures. Development includes web-based and mobile-based authoring and programming activities.
Prerequisite: EME 4673.

EME 4401 Integrating Technology in the Elementary Curriculum 3 Credits
Grading Scheme: Letter Grade
Prepares elementary majors to effectively use technology in teaching and learning.
Prerequisite: Formal admission to the upper division Unified Elementary ProTeach program.

EME 4406 Integrating Technology into the Secondary Curriculum 3 Credits
Grading Scheme: Letter Grade
Gain experience with curriculum design and course development, which assumes use of technology.

EME 4673 Introduction to Instructional Design 3 Credits
Grading Scheme: Letter Grade
Introduces the processes, methods, and techniques involved with systematic design on instruction. Topics include needs assessment, goal analysis, learner and context analysis, performance objectives, assessment instruments, instructional strategies, development procedures, formative and summative evaluation.
Prerequisite: EME 3813.

ESE 4340C Effective Teaching and Classroom Management in Secondary Education 3 Credits
Grading Scheme: Letter Grade
Basic strategies for curriculum planning, instruction, classroom organization and student behavior management.

ESE 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
In-depth study of a problem that relates to preparation as secondary education teachers. The project must be approved and supervised by a department faculty member.

LAE 3005 Children's Literature 3 Credits
Grading Scheme: Letter Grade
Introduces genres of children's literature, critical response theory, strategies for critically evaluating books for instructional and aesthetic purposes, and strategies for generating personal, critical and aesthetic responses to literature from diverse and inclusive student populations.

LAE 4314 Language Arts for Diverse Learners 3 Credits
Grading Scheme: Letter Grade
Analysis of content, materials and methods for teaching language arts in an inclusive elementary school classroom.
Prerequisite: Formal admission to the upper division Unified Elementary ProTeach program.

LAE 4604 Language Arts for Diverse Learners in Early Education 3 Credits
Grading Scheme: Letter Grade
Focuses on the early developmental levels of writing and different definitions of writing, including writing as composing, writing as spelling/encoding and writing as handwriting. Addresses instructional strategies appropriate for teaching young children to write and explores instructional approaches from different theoretical perspectives.
Prerequisite: RED 3309.

MAE 2364 Explorations Teaching Secondary Mathematics and Science 3 Credits
Grading Scheme: Letter Grade
Introduces prospective teachers to teaching secondary mathematics and science (grades 6-12).

MAE 3312 Mathematics Content for Elementary Teachers 3 Credits
Grading Scheme: Letter Grade
Analysis of the content and methods necessary to effectively teach content from the number, algebra, and geometry strands of mathematics in the inclusive elementary classroom. Provides pre-service teachers with the underlying content and pedagogical content knowledge necessary to effectively teach mathematics.
Prerequisite: elementary education majors.

MAE 4310 Teaching Mathematics in the Inclusive Elementary School 3 Credits
Grading Scheme: Letter Grade
Analyzes content, materials and methods of teaching mathematics in the inclusive elementary classroom. Prepares the future teacher of mathematics for facilitation of instruction to meet the needs of all children, including children with disabilities.
Prerequisite: Formal admission to the upper division Unified Elementary ProTeach program.

MUE 4940 Student Teaching in Music Education 9 Credits
Grading Scheme: S/U
Student teaching in selected classrooms of public schools. Special seminars and continuous evaluation of teaching experiences. (S-U)
Corequisite: MUE 4140; all coursework must be completed except MUE 4140.

RED 3307 Teaching Reading in Primary Grades 3 Credits
Grading Scheme: Letter Grade
Studies constructivist theory of how children learn and the sociopsycholinguistic theory of language learning. Focuses on how children construct knowledge about and learn to use written language.

RED 3309 Emergent Literacy and Beginning Reading Instruction 3 Credits
Grading Scheme: Letter Grade
Provides students with knowledge to support emergent literacy in young children and teaching beginning reading in the early primary grades. Designed to provide students with theoretical and practical knowledge and experiences that prepare them to teach in a variety of applicable educational settings.
Prerequisite: LIN 3710.

RED 3312 Content Area Literacy 3 Credits
Grading Scheme: Letter Grade
Studies the fundamental knowledge necessary to teach basic reading skills in the elementary school classroom.

RED 4324 Reading in the Intermediate Grades 3 Credits
Grading Scheme: Letter Grade
Theory and practice for teaching reading in grades 3-6; develop expertise in literacy strategy and instruction in the classroom. Instruction is always embedded in the context of current educational policies. Become familiar with current research on reading, recent educational policy development, and issues of teaching in a diverse society.
Prerequisite: Formal admission to the upper division Unified Elementary ProTeach program.

SCE 4113L Elementary Science Content 3 Credits
Grading Scheme: Letter Grade
Overview of integrated science content essential for developing K-6 science curriculum. The course includes science-specific pedagogy and translation of the science content knowledge into grade specific activities aligned with the national science content standards for K-12 and the Next Generation Sunshine State Standards.
Prerequisite: Elementary education majors

SCE 4310 Elementary Science Methods for the Inclusive Classroom 3 Credits
Grading Scheme: Letter Grade
Materials and methodology related to teaching the concepts and processes of science. Prepares pre-service teachers to teach science concepts and processes to all children, including those with disabilities.
Prerequisite: Formal admission to the upper division Unified Elementary ProTeach program.

SMT 1661 Step 1: Inquiry Approaches to Teaching Mathematics and Science 1 Credit
Grading Scheme: Letter Grade
Introduces the evidence-based teaching practices necessary to design and deliver excellent mathematics and science instruction. Students engage in early field experiences in a local elementary school classroom to explore mathematics and science teaching as a career.

SMT 1662 Step 2: Inquiry Based Lesson Design in Mathematics and Science Education 2 Credits
Grading Scheme: Letter Grade
Introduces inquiry-based lesson design that supports effective instructional techniques for middle school mathematics and science teaching.
Prerequisite: SMT 1661 with minimum grade of C.

SMT 3100 Knowing and Learning in Mathematics and Science Teaching 3 Credits
Grading Scheme: Letter Grade
Investigates theories of knowing and learning in mathematics and science and implications for teaching secondary mathematics and science. (S)
Prerequisite: sophomore standing
Attributes: General Education - Social Science

SMT 3301C Classroom Interactions in Mathematics and Science Education 3 Credits
Grading Scheme: Letter Grade
Overview of principles for teaching middle and secondary school mathematics or science through an exploration of the role of content, pedagogy, curriculum and technology as they promote learning and impact equity.
Prerequisite: MAE 2364 and SMT 3100 with minimum grades of C.

SMT 3664 Project-Based Instruction in Math and Science Education 3 Credits
Grading Scheme: Letter Grade
Overview of project-based instruction as an investigative and collaborative teaching approach in mathematics and science education.
Prerequisite: MAE 2364;
Corequisite: SMT 3100

SMT 4945 Apprenticeship in Secondary Mathematics and Science Teaching 4-6 Credits
Grading Scheme: Letter Grade
UFTeach capstone experience. Students apply previously learned techniques and theoretical perspectives of mathematics or science education within a secondary school classroom setting.
Prerequisite: SMT 1661 and (SMT 1662 or MAE 2364) and SMT 3100 with minimum grades of C.

SSE 4312 Social Studies for Diverse Learners 3 Credits
Grading Scheme: Letter Grade
Studies goals, methods and evaluation procedures for social studies curriculum in elementary schools (K - 6).

TSL 3323 ESOL and Reading for Teachers 3 Credits
Grading Scheme: Letter Grade
Develop an understanding of literacy teaching and learning, with a dual focus on native speakers of English and English language learners; focuses on methods and materials used to support the development of proficient and critical adolescent readers in academic content areas.

TSL 3520 ESOL Foundations: Language and Culture in Classrooms 3 Credits
Grading Scheme: Letter Grade
Examines issues of language and culture relevant to school-age learners of English as a Second Language (ESOL).

TSL 4100 ESOL Curriculum, Methods and Assessment 3 Credits
Grading Scheme: Letter Grade
Extends the understanding of ways that language and culture affect second-language learners' participation and learning in elementary classrooms. Create appropriate and challenging curriculum content, materials and assessments to create meaningful and equitable learning environments for native English speakers and second-language learners.
Prerequisite: TSL 3520.

TSL 4324 ESOL Strategies for Content Area Teachers 3 Credits
Grading Scheme: Letter Grade
Overview of the issues relevant to ESOL learners and develops the skills to teach ESOL students in content area classes.

Electrical and Computer Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Although not specifically stated in each course description, the prerequisites for all courses, except those required by other departments, may include classification as an electrical engineering student in good standing. In order to use a course as a prerequisite for an EEE/EEL-prefixed course, a minimum grade of C is required in the prerequisite course.

Courses

CEN 3907C Computer Engineering Design 1 3 Credits
Grading Scheme: Letter Grade
Reinforce basic computer engineering skills; design, produce, and report on a computer engineering project, meeting defined specifications and using a structured design methodology and project management.
Prerequisite: CEN 3031 and EEL 3744C with minimum grades of C.

CEN 3908C Computer Engineering Design 2 3 Credits
Grading Scheme: Letter Grade
Selected capstone design projects involving engineering applications in the various areas of computer engineering. Must be taken prior to the semester of graduation .
Prerequisite: CEN 3907C with minimum grade of C and senior standing.

EEE 3308C Electronic Circuits 1 4 Credits
Grading Scheme: Letter Grade
Fundamentals of electronic circuits and systems. Laboratory.
Prerequisite: EEL 3008 and EEL 3112.

EEE 3396C Solid-State Electronic Devices 4 Credits
Grading Scheme: Letter Grade
Introduces the principles of semiconductor electron device operation. Laboratory.
Prerequisite: EEL 3008.

EEE 4210 Introduction to Biophotonics 3 Credits
Grading Scheme: Letter Grade
Introduces the principles of optics, lasers and biology, the interaction of light with cells and tissues, and various optical imaging, sensing and activation techniques and their applications in biomedicine.
Prerequisite: EEL 3003 or EEL 3111C with minimum grade of C.

EEE 4222 Resonant MEMS 3 Credits
Grading Scheme: Letter Grade
Fundamentals of resonant micro-electro-mechanical systems (resonant MEMS) and their applications.
Prerequisite: EEL 3135 and EEL 3112 or instructor permission.

EEE 4260C Bioelectrical Systems 4 Credits
Grading Scheme: Letter Grade
Covers the theoretical and quantitative perspective of bioelectrical signals reflecting the activity of the brain, the muscles, and the heart. Examines bases of modeling, measuring, processing and analyzing bioelectrical signals and systems, as well as common clinical applications. Laboratory.
Prerequisite: EEL 3008 and EEL 3112.

EEE 4306 Electronic Circuits II 3 Credits
Grading Scheme: Letter Grade
Design-oriented continuation of EEE 3308C; feedback, op amp circuits and applications, digital electronics.
Prerequisite: EEE 3308C.

EEE 4310 Digital Integrated Circuits 3 Credits
Grading Scheme: Letter Grade
Analysis and design of digital circuits using MOS and bipolar devices.
Prerequisite: EEE 3308C and EEL 3701C.

EEE 4329 Future of Microelectronics Technology 3 Credits
Grading Scheme: Letter Grade
Surveys state-of-the-art microelectronics technology and prospects for future technologies. Topics include nanoscale MOSFETs, strained Si, high-k gate dielectrics, carbon nanotubes, molecular electronics and single-electron devices.
Prerequisite: EEE 3396C or equivalent.

EEE 4331 Microelectronic Fabrication Technologies 3 Credits
Grading Scheme: Letter Grade
Principles of microelectronic device fabrication. Emphasis on the fundamentals of microfabrication processing and microelectronic device process flows.
Prerequisite: EEE 3396C.

EEE 4373 Radio-Frequency Electronics 3 Credits
Grading Scheme: Letter Grade
Fundamental RF theory (such as resonant circuits, matching, noise and transmission lines), radio operation and design of key RF circuit blocks (such as amplifiers, mixers and oscillators).
Prerequisite: EEE 3308C.

EEE 4404 Mixed Signal IC Testing I 3 Credits
Grading Scheme: Letter Grade
Fundamentals of testing IC devices and systems: test specifications, parametric training, measurement accuracy, test hardware, sampling theory, digital signal processing based testing, and calibrations. Circuit analysis and design with analog and mixed-signal systems. Labs on testing passive components, LDOs, Op-amps, DACS/ADCs, Mixed-Signal ICs Labview and the National Instruments Savage Tester.
Prerequisite: EEE 3308C and EEL 3701C with minimum grades of C.

EEE 4414 Modern Memory Device Technologies 3 Credits
Grading Scheme: Letter Grade
State-of-the-art volatile and nonvolatile memory device technologies and their limitations. Emerging memory device technologies, including those that could be adopted by industry in the next decades due to their potential performance, density, power and cost advantages.

EEE 4420 Introduction to Nanodevices 3 Credits
Grading Scheme: Letter Grade
Physical principles of modern solid-state devices and their applications, quantum mechanics and fundamentals of nanoelectronics.
Prerequisite: EEE 3396C.

EEE 4511C Real Time Digital Signal Processing Applications 4 Credits
Grading Scheme: Letter Grade
Real world digital signal processing (DSP) tasks are presented and solved in a lab environment that utilizes a Floating Point DSP and a development simulation and hardware emulation tool. Laboratory.
Prerequisite: EEL 3135 and EEL 3744C.

EEE 4701 Automated Hardware/Software Verification 3 Credits
Grading Scheme: Letter Grade
Develop modeling, formal specification, and automated verification skills for analyzing complex hardware and/Or software systems. Hands-on experience with model checking tools.
Prerequisite: EEL 3744C or equivalent and COP 3530 or equivalent.

EEE 4714 Introduction to Hardware Security and Trust 3 Credits
Grading Scheme: Letter Grade
Fundamentals of hardware security and trust for integrated circuits. Cryptographic hardware, invasive and non-invasive attacks, side-channel attacks, physically unclonable functions (PUFs), true random number generation (TRNG), watermarking of Intellectual Property (IP) blocks, FPGA security, counterfeit detection, hardware Trojan detection, and prevention in IP cores and integrated circuits.
Prerequisite: EEL 4712C with minimum grade of C.

EEE 4720 Acoustics 3 Credits
Grading Scheme: Letter Grade
Governing equations for wave theory of sound; Character of plane acoustic waves and 3-D acoustic fields; Sound transmission/reflection at an interface between two media; Waves transmission/attenuation inducts; Low frequency approximations (lumped-element modeling) and transducers; sources of sound.
Prerequisite: MAP 2302 and (EEL 3111C or EEL 3003) with minimum grades of C or instructor permission.

EEE 4773 Fundamentals of Machine Learning 3 Credits
Grading Scheme: Letter Grade
Overview of machine intelligence and the role of machine learning in a variety of real-world problems. Probability and statistics to handle uncertain data. Topics covered include: learning models from data in both a supervised and unsupervised fashion, linear models and non- linear models for classification, and linear dimensionality reduction.
Prerequisite: EEL 3135 or equivalent and STA 3032 or equivalent.

EEL 3000 Introduction to Electrical and Computer Engineering 2 Credits
Grading Scheme: Letter Grade
Introduces electrical and computer engineering tools, both hardware and software. Professional ethics, career development. Assemble and test hardware project to provide hands-on experience.
Prerequisite: MAC 2311.

EEL 3008 Physics of Electrical Engineering 3 Credits
Grading Scheme: Letter Grade
Introduces the fundamental physics underlying components and devices and their application to electronics, power, and wireless.
Prerequisite: EEL 3111C and MAC 2313 and MAP 2302.

EEL 3111C Circuits 1 4 Credits
Grading Scheme: Letter Grade
Basic analysis of DC and AC electric circuits. Laboratory.
Prerequisite: MAC 2312 and PHY 2049.

EEL 3112 Circuits 2 3 Credits
Grading Scheme: Letter Grade
Continuous-time signals and linear systems: Fourier series and transforms, frequency, response, Laplace transform and system function, analog filters; emphasis on electrical circuits. Sampling.
Prerequisite: EEL 3000 and EEL 3111C and EEL 3135 and MAP 2302.

EEL 3135 Introduction to Signals and Systems 4 Credits
Grading Scheme: Letter Grade
Continuous-time and discrete-time signal analysis including Fourier series and discrete-time and discrete Fourier transforms; sampling; discrete-time linear system analysis with emphasis on FIR and IIR systems: impulse response, frequency response, and system function; MATLAB-based programming for Signals and Systems.
Prerequisite: MAC 2313.

EEL 3211C Basic Electric Energy Engineering 4 Credits
Grading Scheme: Letter Grade
Analysis and modeling of power system components. Magnetic circuits, energy conservation, transformers, and AC and DC rotating machines. Laboratory.
Prerequisite: EEL 3008.

EEL 3402 Remote Sensing in Engineering: Science, Sensors and Applications 3 Credits
Grading Scheme: Letter Grade
Remote sensing theory, systems and applications using information obtained from the visible/near infrared, thermal infrared and microwave regions of the EM spectrum.
Prerequisite: MAP 2302 or equivalent.

EEL 3472C Fundamentals of Electromagnetic Fields 4 Credits
Grading Scheme: Letter Grade
Reviews the vector calculus needed for the study of electromagnetic fields and their applications. Considers both static and dynamic fields, including radiation and propagation both in free space and in waveguide structures. The associated laboratory reinforces classroom instruction.
Prerequisite: EEL 3008.

EEL 3701C Digital Logic and Computer Systems 4 Credits
Grading Scheme: Letter Grade
Overview of logic design, algorithms, computer organization and assembly language programming and computer engineering technology. Laboratory.
Prerequisite: Knowledge of a programming language.

EEL 3744C Microprocessor Applications 4 Credits
Grading Scheme: Letter Grade
Experience in the elements of microprocessor-based systems, hardware interfacing and software design for their application. Laboratory.
Prerequisite: EEL 3701C.

EEL 3834 Programming for Electrical and Computer Engineers 3 Credits
Grading Scheme: Letter Grade
Develops computer skills and the art of writing sound computer programs using examples and exercises relevant to electrical and computer engineering.

EEL 3923C Electrical Engineering Design 1 3 Credits
Grading Scheme: Letter Grade
Teams design, produce, and report on a hardware prototype, meeting defined specifications and using a structured design methodology. Includes project management, hardware prototyping, and project reporting.
Prerequisite: EEE 3008 and EEL 3112 and EEL 3744C and 1 course from breadth elective list.

EEL 4242C Power Electronic Circuits 3 Credits
Grading Scheme: Letter Grade
Circuit topologies, analysis, design and simulation of electronic circuits such as power supplies, and motor drives.
Prerequisite: EEL 3308.

EEL 4248 Fundamentals of RF and Power Electronic Devices 3 Credits
Grading Scheme: Letter Grade
The course is designed to introduce important semiconductor device technologies for high speed electronics, power electronics and energy harvesting applications.
Prerequisite: EEE 3396C.

EEL 4251 Power System Analysis 3 Credits
Grading Scheme: Letter Grade
Development of power system equivalents by phase network analysis, load flow, symmetrical components, sequence networks, and fault analysis.
Prerequisite: EEL 3211C.

EEL 4271 Power System Protection 3 Credits
Grading Scheme: Letter Grade
Power systems protection analytical methodologies and algorithms. Analyzes different methods for equipment and systems protection and discusses wide-area monitoring techniques, which allow real-time operation and control. Introduces cyber-physical security approaches for the smart grid and realizes numerical construction of protection methods considering realistic engineering hypothesis.
Prerequisite: EEL 4251 or instructor permission.

EEL 4287 Smart Grid for Sustainable Energy 3 Credits
Grading Scheme: Letter Grade
Survey of power grid operations and markets for students with interest in power systems and/or sustainable energy. Characteristics of traditional and new energy resources; how resources impact the grid; control on many time-scales; how the power grid and power markets of tomorrow will differ from those of today.
Prerequisite: EEL 4657C.

EEL 4403 Computational Photography 3 Credits
Grading Scheme: Letter Grade
Fundamentals of computational photography, sensing, imaging and illumination.
Prerequisite: EEL 3135 with a minimum grade of C.

EEL 4412 Applied Magnetics and Magnetic Materials 3 Credits
Grading Scheme: Letter Grade
Introduces magnetism, magnetic materials, and magnetic devices; offers a balance of theory and application from an applied engineering perspective.
Prerequisite: EEL 3008 or instructor permission.

EEL 4421 RF/Microwave Passive Circuits 3 Credits
Grading Scheme: Letter Grade
Radio frequency (RF)/microwave passive components and circuits such as transmission lines, waveguides, couplers, filters, and resonators.
Prerequisite: EEL 3472C with a minimum grade of C.

EEL 4440 Optical Communication Systems 3 Credits
Grading Scheme: Letter Grade
Introduces electromagnetic waves, dielectric waveguides and fibers, propagation characteristics of fibers, characterization methods, LEDs and laser diodes, photodetector optical receivers and communication systems.
Prerequisite: EEE 3396C and EEL 3472C.

EEL 4446 Laser Theory and Design 3 Credits
Grading Scheme: Letter Grade
Studies the field of semiconductor optoelectronics and the physics of optoelectronic devices including the interaction of photons with electrons and holes in a semiconductor leading to the realization of optoelectronic devices such as photon amplifiers, LEDs, diode lasers, electro-absorption modulators, and detectors, including their design and application-specific characteristics.
Prerequisite: EEL 3008 or instructor permission.

EEL 4458 Fundamentals of Photonics 3 Credits
Grading Scheme: Letter Grade
Reviews electromagnetic fields and waves, energy bands in semiconductors, p-n junctions and optical properties of semiconductors. Fundamentals of optical modulators and waveguides and photonic applications.
Prerequisite: EEL 3472C and EEE 3396C.

EEL 4461 Antenna Systems 3 Credits
Grading Scheme: Letter Grade
Electromagnetic field theory and its application to antenna design.
Prerequisite: EEL 3472C.

EEL 4473 Electromagnetic Fields and Applications 3 Credits
Grading Scheme: Letter Grade
Rigorously develops the properties of electric and magnetic fields. Maxwell?s Equations form the foundation for understanding the fundamental nature and application-driven aspect of static and dynamic fields and their derivation from scalar and vector potentials. Fields in media is examined along with energy considerations and propagation effects.
Prerequisite: EEL 3472C.

EEL 4495 Lightning 3 Credits
Grading Scheme: Letter Grade
Introduces lightning discharge processes. Electromagnetics relevant to lightning measurements. Applications for determining lightning charge, current, location and characteristics. Lightning protection.
Prerequisite: EEL 3472C.

EEL 4514C Communication Systems and Components 4 Credits
Grading Scheme: Letter Grade
Theory of communication and applications to radio, television, telephone, satellite, cellular telephone, spread spectrum and computer communication systems. Laboratory.
Prerequisite: EEL 3112.

EEL 4516 Noise in Devices and Communication Systems 3 Credits
Grading Scheme: Letter Grade
Origin, characterization and measurement of random noise. Calculation of signal-to-noise ratios and probability of errors in communication systems.
Corequisite: EEL 4514C.

EEL 4523 Audio Engineering 3 Credits
Grading Scheme: Letter Grade
Introduces audio and sound engineering that includes the underlying theory of acoustics, electronics and signal processing; demonstrates modern audio engineering practice as applied to music, home audio, recording and sound reinforcement.
Prerequisite: EEL 3111C or EEL 3003, or instructor permission.

EEL 4540 Introduction to Radar 3 Credits
Grading Scheme: Letter Grade
Basic principles of cw and pulsed radar; angle, range, and Doppler tracking; accuracy and resolution; signal design.
Prerequisite: EEL 4514C.

EEL 4598 Computer Communications 3 Credits
Grading Scheme: Letter Grade
Introduces the principles and practice of computer networking, emphasizing data communication, and the lower layers of the OSI and TCP/IP protocol architectures.
Prerequisite: (EEL 3834 or COP 2271 or equivalent) and junior standing or higher.

EEL 4599 Wireless and Mobile Networks 3 Credits
Grading Scheme: Letter Grade
Senior-level study of wireless and mobile networks. Investigates telecommunication architectures and protocols for wireless sensor networks and wireless embedded systems; Wi-Fi and wireless local area networks; mobile ad-hoc networks; next generation cellular systems and satellite networks.
Prerequisite: EEL 3701C.

EEL 4610 State Variable Methods in Linear Systems 3 Credits
Grading Scheme: Letter Grade
Development of state-variable approach to linear continuous-time and discrete-time systems with emphasis on the design of feedback control systems.
Prerequisite: EEL 4657C.

EEL 4657C Linear Control Systems 4 Credits
Grading Scheme: Letter Grade
Theory and design of linear control systems. Laboratory.
Prerequisite: EEL 3112 and EEL 3744C.

EEL 4665C Intelligent Machines Design Laboratory 4 Credits
Grading Scheme: Letter Grade
Design simulation, fabrication, assembly and testing of intelligent robotic machines. Laboratory.
Prerequisite: (EEL 3744C or EML 3005) or instructor permission.

EEL 4712C Digital Design 4 Credits
Grading Scheme: Letter Grade
Advanced modular logic design, design languages, finite state machines and binary logic. Laboratory.
Prerequisite: EEL 3701C.

EEL 4713C Digital Computer Architecture 4 Credits
Grading Scheme: Letter Grade
The use of electronic digital modules to design computers. Includes the organization and operation of computers, hardware/software trade-offs and design of computer interfacing. Laboratory.
Prerequisite: EEL 3701C and EEL 4712C.

EEL 4720 Reconfigurable Computing 3 Credits
Grading Scheme: Letter Grade
Fundamental concepts at advanced undergraduate level in reconfigurable computing based upon advanced technologies in field-programmable logic devices. Topics include general concepts, device architectures, design tools, metrics and kernels, system architectures and application case studies.
Prerequisite: EEL 4712C.

EEL 4732 Advanced Systems Programming 3 Credits
Grading Scheme: Letter Grade
Develop a deep understanding of operating system concepts and systems programming fundamentals and gain hands-on experience in systems programming by using Pthreads as well as implementing Linux device drivers and testing/verifying systems code for deadlock and race-freedom.
Prerequisite: EEL 3701C and EEL 3834 and COP 4600 or equivalents.

EEL 4736 Principles of Computer System Design 3 Credits
Grading Scheme: Letter Grade
Broadly introduces the main principles and abstractions for engineering hardware and software systems. Includes in-depth studies of their use on computer systems across a variety of designs, be it an operating system, a client/server application, a database server or a fault-tolerant disk cluster.
Prerequisite: EEL 4712C and EEL 3834.

EEL 4750 Foundations of Digital Signal Processing 3 Credits
Grading Scheme: Letter Grade
Analysis and design of digital filters for discrete signal processing, spectral analysis and fast Fourier transform.
Prerequisite: EEL 3135.

EEL 4853 Cross Layered System Security 3 Credits
Grading Scheme: Letter Grade
Develop an understanding of the principles of computer security, as it crosses layers of abstraction (application, operating system, hardware, and network). Learn the challenges of building secure computer systems with examples and hands-on assignments. Current research on these challenges will be discussed. Students will review and present conference papers.
Prerequisite: EEL 3834 or equivalent and EEL 4736 or equivalent.

EEL 4905 Individual Problems in Electrical Engineering 1-4 Credits
Grading Scheme: Letter Grade
Selected problems or projects in the student's major field of engineering study.

EEL 4912 Integrated Product and Process Design 1 3 Credits
Grading Scheme: Letter Grade
First part of two in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes, on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: EEE 3308C and EEL 3701C.

EEL 4913 Integrated Product and Process Design 2 3 Credits
Grading Scheme: Letter Grade
Second part of two in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes, on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: EEL 4912.

EEL 4924C Electrical Engineering Design 2 3 Credits
Grading Scheme: Letter Grade
Selected design projects involving engineering applications in the various areas of electrical engineering. Laboratory.
Prerequisite: EEL 3923C and two breadth electives and one depth elective.

EEL 4930 Special Topics in Electrical Engineering 1-4 Credits
Grading Scheme: Letter Grade
Special courses covering selected topics in electrical engineering.

EEL 4948 Practical Work in Electrical and Computer Engineering 1 Credit
Grading Scheme: S/U
One term industrial employment, including extra work according to a pre-approved outline. Practical engineering work under industrial supervision, as set forth in the Herbert Wertheim College of Engineering regulations.
Prerequisite: Engineering major of junior standing or higher.

EEL 4949 Co-op Work Experience 1 Credit
Grading Scheme: S/U
Practical co-op engineering work under approved industrial supervision.
Prerequisite: Engineering major.

EGN 1935 Special Topics in Freshman Engineering 1-3 Credits
Grading Scheme: Letter Grade
Laboratory, lectures or conferences cover selected topics in engineering.

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

EGS 1005 Prep for Success 1-4 Credits
Grading Scheme: S/U
Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)
Prerequisite: EG student.

Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

CGS 2531 Problem Solving Using Computer Software 3 Credits
Grading Scheme: Letter Grade
Problem-solving introduction and thorough exploration of word processing, spreadsheet management, data analysis, graphical display of data, and multimedia presentations. The problem-solving approach also aids students in their specific majors through software applications requiring major-specific professional communication skills in written, graphical, and presentation forms. (M)
Attributes: General Education - Mathematics

COP 2271 Computer Programming for Engineers 2 Credits
Grading Scheme: Letter Grade
Computer programming and the use of computers to solve engineering and mathematical problems. Emphasizes applying problem solving skills; directed toward technical careers in fields employing a reasonably high degree of mathematics. The programming language used depends on the demands of the departments in the college. Several languages may be taught each semester, no more than one per section. Those required to learn a specific language must enroll in the correct section. (M)
Prerequisite: MAC 2312 with minimum grade of C.

COP 2271L Computer Programming for Engineers Laboratory 1 Credit
Grading Scheme: Letter Grade
Optional laboratory for COP 2271. Required for ISE majors. (M)
Prerequisite: MAC 2312;
Corequisite: COP 2271.

EEL 3003 Elements of Electrical Engineering 3 Credits
Grading Scheme: Letter Grade
Introduces the theory and practice of electrical engineering for those not majoring in electrical engineering. Discusses circuits, machines, electronics and systems.
Prerequisite: MAC 2313 and PHY 2049.

EGM 3400 Elements of Dynamics 2 Credits
Grading Scheme: Letter Grade
Dynamics of particles and rigid bodies for rectilinear translation, curvilinear motion, rotation and plane motion. Also includes principles of work and energy, and impulse and momentum.
Prerequisite: EGM 2511 and (MAC 2313 with a minimum grade of C).

EGN 1935 Special Topics in Freshman Engineering 1-3 Credits
Grading Scheme: Letter Grade
Laboratory, lectures or conferences cover selected topics in engineering.

EGN 2020C Engineering Design & Society 2 Credits
Grading Scheme: Letter Grade
Introduction to emphasizing the human-centered design process to address societal challenges. Explore solid modeling, introductory programming, sensors, data acquisition, and 3D printing as maker tools for engineering prototyping. In a team environment, utilize multidisciplinary approaches, project management, and written and oral communication skills to create societal-based designs.

EGN 4641 Engineering Entrepreneurship 3 Credits
Grading Scheme: Letter Grade
Engineering Entrepreneurship introduces engineering students to the concepts and practices of technological entrepreneurial thinking and entrepreneurship. Using lectures, case studies, business plans and student presentations, the course teaches life skills in entrepreneurial thought and action that students can utilize when starting technology companies or executing research and development projects in large companies.
Prerequisite: junior standing or higher.

EGN 4643 Engineering Innovation 3 Credits
Grading Scheme: Letter Grade
Engineering Innovation introduces students to the concepts of innovative thinking and innovation practices. Using lectures, case studies, team exercises and guest speakers, the course teaches life skills in innovative thought and action that students can use in careers ranging from starting companies to executing research and development projects in large companies.
Prerequisite: junior standing or higher.

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

EGN 4932 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Covers selected, rotating topics in engineering.

EGN 4940 NSF Fellowship Preparation 1 Credit
Grading Scheme: Letter Grade
Overview of fellowship preparation pertaining to intellectual merit and broader impacts.

EGN 4949 Engineering Internship/Co-op 1-3 Credits
Grading Scheme: S/U
Practical Internship/Co-Op Work Experience Under Approved Industrial Supervision.
Prerequisite: Engineering major.

EGN 4956 International Studies in Engineering 1-4 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: admission to an approved UF study abroad program and undergraduate programs director permission through advising form.

EGS 1006 Introduction to Engineering 1 Credit
Grading Scheme: Letter Grade
Introduces the 11 departments that offer undergraduate degrees at UF. Students break into groups of 20, rotating weekly through each department. During these visits, students participate in hands-on experiments to help them make informed decisions about career alternatives.

EGS 2036 Fundamentals of the New Engineer 1 Credit
Grading Scheme: Letter Grade
Fundamentals of the New Engineer introduces students to key attributes of 21st century engineering leaders and innovators. Student learn concepts and practice of engineering leadership and innovation through study of the ?Attributes of a New Engineer?; Creativity, Leadership, Integrity, Professional Excellence, and Service to the Global Community.

EGS 4034 Engineering Ethics and Professionalism 1 Credit
Grading Scheme: Letter Grade
Provides students with an interactive study of ethical theory and the development of professionalism. Students review case studies of ethical conflicts in engineering practice. Course covers engineering codes of ethics and requires students to resolve theoretical situations through application of ethical codes.
Prerequisite: junior level standing.

EGS 4038 Engineering Leadership 3 Credits
Grading Scheme: Letter Grade
Engineering Leadership introduces engineering graduate students to the concepts, theory and practice of engineering leadership; effective written and oral communications and presentations; engineering leadership characteristics, individual differences and self-awareness; developing and building teams; managing change, conflicts, and crises; and understanding real-world ethics and core values.
Prerequisite: junior or senior standing.

EGS 4100 Divergent Thinking 3 Credits
Grading Scheme: Letter Grade
Acquire divergent thinking skills to support the engineering design process. Emphasizes the importance of practices such as observing, questioning, learning, and experimenting; Stresses cultivating an openness to new experiences In order to generate ideas and devise solutions to complex design problems.
Prerequisite: junior or senior level standing.

EGS 4625 Fundamentals of Engineering Project Management 3 Credits
Grading Scheme: Letter Grade
Provides a comprehensive understanding of how to plan, optimize, and efficiently manage projects (or tasks) to implement products, services, or developments. Includes building the structure, processes, components, and linkages with a team for successful project delivery within schedule, budget, and quality requirements.
Prerequisite: junior or senior level standing.

EGS 4627 Applied Engineering Project Management 3 Credits
Grading Scheme: Letter Grade
Applied Engineering Project Management expands on foundational project management practices to include complex as well as new project delivery concepts. Topics include project acquisition; negotiation skills; advanced risk planning and management; program management; project life cycle models and their applicability; and diagnostics and remedies for problem projects.
Prerequisite: EGS 4625 or equivalent, with instructor permission.

EGS 4680 Advanced Engineering Leadership Development 3 Credits
Grading Scheme: Letter Grade
Further develops the leadership framework and capabilities; involves a case study-based instructional approach that reviews and applies strategic leadership concepts and knowledge critical to the success of engineering-based companies that operate in a highly uncertain and volatile business environment.
Prerequisite: EGS 4038 or instructor permission.

EML 3007 Elements of Thermodynamics and Heat Transfer 3 Credits
Grading Scheme: Letter Grade
Applications of first and second laws of thermodynamics to closed and open systems. Steady one-dimensional conduction, lumped parameter analysis, convection, radiation. Intended for non-mechanical engineering students.
Prerequisite: CHM 2045 and MAC 2313 and PHY 2048.

English

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

AML 2070 Survey of American Literature 3 Credits
Grading Scheme: Letter Grade
Introduces some of the major writers, issues and forms found in the history of American literature. The instructor determines the breadth and focus of this survey. (C or H) (WR)
Prerequisite: ENC 1101 or test score equivalent.
Attributes: General Education - Composition, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AML 2410 Issues in American Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Introduces some of the most important issues that arise in the study of American literature and culture. The instructor determines the breadth and focus of the topic. (C or H) (WR)
Prerequisite: ENC 1101 or test score equivalent.
Attributes: General Education - Composition, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AML 3031 American Literatures 1 3 Credits
Grading Scheme: Letter Grade
Selected texts from the Contact Period to 1865, in diverse historical and cultural contexts, usually organized around a theme or several themes.

AML 3041 American Literatures 2 3 Credits
Grading Scheme: Letter Grade
Selected texts from 1865 to the present, in diverse historical and cultural contexts, usually organized around a theme or several themes.

AML 3284 Surveys in American Women's Literatures 3 Credits
Grading Scheme: Letter Grade
Surveys traditions in American women's writings, covering a wide range of texts or focusing on a single theme, genre, period, literary movement or cultural tradition. Topics may include women's writings about feminism, family, work, nationalism or social justice; women's autobiography, poetry, experimental prose or domestic fiction; 19-century literature by women, contemporary women's poetry or colonial women's writing; realist, postmodern or sentimental fiction by American women; African American, New England, Native American, Southern or working-class writing; Chicano, Latina or lesbian literary traditions. Refer to department website.

AML 3285 Variable Surveys of American Literatures 3 Credits
Grading Scheme: Letter Grade
The rich cultural traditions found in American literature. Topics may include gay and lesbian, Jewish American, Chicano/a, Latino/a, Native American, Southern and other literatures. Refer to department website.

AML 3605 African-American Literature 1 3 Credits
Grading Scheme: Letter Grade
Surveys the development of African-American literature from its beginning to 1945.

AML 3607 African-American Literature 2 3 Credits
Grading Scheme: Letter Grade
Surveys the development of African-American Literature from 1945 to the present.

AML 3673 Asian-American Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics or survey focus on the major issues, movements or themes in the study of Asian-American literature and culture from the beginnings to the present. Topics may include Kung Fu films, cultural nationalism and feminism, model minorities, Angel Island literature, Asian-Americans in film and media, and several major authors. Consult department website.

AML 4170 Studies in American Literary Forms 3 Credits
Grading Scheme: Letter Grade
Study of genre, such as the novel, detective novel, political novel, historical novel, utopian fiction or Western; drama; short story; sermon traditions; African-American cultural forms, African-American folklore; long poem, lyric, philosophical poem, oral poetry; nature writing, autobiography, captivity narrative; narratives of exploration; political oratory; postmodernism; coming-out stories; humor. Refer to department website.

AML 4213 Studies in American Literature and Culture Before 1800 3 Credits
Grading Scheme: Letter Grade
Variable topics focus on one or more of the major issues, movements, forms or themes in the study of American literature and culture before 1800. Topics may include narratives of exploration and encounter, Puritan and/or Enlightenment writings, captivity and slave narratives, traditions of spiritual autobiography, post-colonial approaches to colonial rhetoric and poetry, and/or in-depth studies of selected writers. Refer to department website.

AML 4225 Studies in Nineteenth-Century American Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Variable topics focus on the major issues, movements, forms or themes in the study of American literature and culture before 1900. Topics may include the American Renaissance, literature and abolition, African American novels and poetry, romance and romanticism, race and sexuality, the rise of the short story, realism, naturalism, representations of the city, representations of the South, tropes such as the Noble Savage or the American Girl, and/or in-depth studies of selected writers. Refer to department website.

AML 4242 Studies in Twentieth-Century American Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Variable topics focus on one or more of the major issues, movements, forms or themes in the study of 20th-century American literature and culture. Topics may include Modernism, Post-Modernism, the Harlem Renaissance, Depression-era literature, American writers in Paris, consumer society, American fiction since 1945, poetry, Civil Rights literature, rhetorics of imperialism, and/or several major authors. Refer to department website.

AML 4282 Studies of Genders and Sexualities in American Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Variable topics focus on one or more of the major issues, movements, forms or themes in the study of American literature and culture. Topics may include masculinity and femininity in literature, lesbian possibilities in popular culture, feminism and womanism, traditions of gay self-representation. Refer to department website.

AML 4311 Major Figures of American Literature and Culture 3 Credits
Grading Scheme: Letter Grade
In-depth focus on one major author, such as Dickinson, Twain, Faulkner, Hurston, or Morrison. Refer to department website.

AML 4453 Studies in American Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Variable topics examine issues, movements, forms or themes that cross traditional period boundaries. Topics may include the city and the country in American fiction, Southern masculinity, reading and literacy in America, representations of class and religion in American literature, the body and technology, American regionalisms, the Pragmatist tradition, and nature and eco-criticism in American letters. Refer to department website.

AML 4685 Race and Ethnicity 3 Credits
Grading Scheme: Letter Grade
Variable topics examine issues, movements, forms or themes related to race and ethnicity in American literature. Topics may include Pacific Rim cultures in America, Chicano-Latino literature, the Black Arts Movement, constructing Native America, border-crossing and migration, post-war Jewish fiction, literature and the psychology of prejudice, comparative representations of racial and ethnic experience, representing whiteness, literatures of assimilation and multi-racial identities.

CRW 1101 Beginning Fiction Writing 3 Credits
Grading Scheme: Letter Grade
Beginning writing fiction workshop. Starts with the basics and students read a lot of fiction (you can't be a fiction writer without reading shelves of fiction). Students write stories and their fiction is discussed in workshop. (C) (WR)
Prerequisite: (freshman or sophomore standing) and (ENC 1101 or test score equivalency).
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

CRW 1301 Beginning Poetry Writing 3 Credits
Grading Scheme: Letter Grade
Workshop concentrates on the basics of reading and writing poetry (in order to write you have to read, and in order to be a reader you have to be a critic). Students write poems and some are discussed in workshop. (C) (WR)
Prerequisite: (freshman or sophomore standing) and (ENC 1101 or test score equivalency).
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

CRW 2100 Fiction Writing 3 Credits
Grading Scheme: Letter Grade
Continues instruction in basic techniques of voice, plot and character, while introducing advanced ones. Students read a lot of good stories and write a few themselves. Samuel Johnson said, "No man but a blockhead ever wrote, except for money." Juniors or seniors who have not taken CRW 1101 or CRW 1301 must have strong composition skills. (C) (WR)
Prerequisite: CRW 1101 or junior/senior standing.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

CRW 2300 Poetry Writing 3 Credits
Grading Scheme: Letter Grade
Writing poetry may become an addiction. This workshop continues with matter-of-fact techniques and some fancy ones as well. Students write poems and read some difficult and thrilling poetry of the past and present. By the end, students may be able to say, with Humpty Dumpty, I can explain all the poems that ever were invented - and a good many that haven't been invented just yet. Juniors or seniors who have not taken CRW 1101 or CRW 1301 must have strong composition skills. (C) (WR)
Prerequisite: CRW 1301 or junior/senior standing.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

CRW 3110 Advanced Seminar in Fiction Writing 3 Credits
Grading Scheme: Letter Grade
Small workshop for students who have made their way out of beginner's workshops with sanity intact. Now the work gets more difficult, more deranged and more delightful. Emerson said, "People do not deserve to have good writing, they are so pleased with bad." Admission by manuscript review during advanced registration (refer to department website); by prerequisite during drop/add.
Prerequisite: CRW 2100.

CRW 3310 Advanced Seminar in Poetry Writing 3 Credits
Grading Scheme: Letter Grade
More reeling and writhing," as Lewis Carroll said. An intense workshop for a small group of poets who have stared at the Pacific with a wild surmise. Like Balboa - or was it Cortez? Admission by manuscript review during advanced registration (refer to department website); by prerequisite during drop/add.
Prerequisite: CRW 1301 or CRW 2300.

CRW 4905 Senior Advanced Workshop in Fiction Writing 3 Credits
Grading Scheme: Letter Grade
For students who want to trouble the literary editors and readers of the future. Many members of this class have gone on to graduate school in writing. Ants eat everything that is written, said an explorer. This is a workshop for ants. Admission by manuscript review during advanced registration (refer to department website); by prerequisite during drop/add.
Prerequisite: CRW 3110.

CRW 4906 Senior Advanced Workshop in Poetry Writing 3 Credits
Grading Scheme: Letter Grade
George I said, "I hate all Boets and Bainters." For battle-scarred veterans of previous workshops who now want the full treatment, this is a small workshop for serious poets who want to write their names in water, as long as they are also in the Norton Anthology. Students often go from this class into MFA programs in poetry. Admission by manuscript review during advanced registration (refer to department website); by prerequisite during drop/add.
Prerequisite: CRW 3310.

ENC 1136 Multimodal Writing and Digital Literacy 3 Credits
Grading Scheme: Letter Grade
Teaches digital literacy and digital creativity. Compose and convey creative, well-researched, carefully crafted information through digital platforms and multimodal documents. Also promotes digital writing and research as central to academic, civic, and personal expression.

ENC 1145 Topics for Composition 3 Credits
Grading Scheme: Letter Grade
Instruction in expository-argumentative writing related to one special topic selected by the instructor. Readings include variable genres from different disciplines. (C or H) (WR)
Prerequisite: ENC 1101 or test score equivalency.
Attributes: General Education - Composition, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

ENC 2210 Technical Writing 3 Credits
Grading Scheme: Letter Grade
Surveys the forms and methods of communication used in business, industry and government, including nonformal and formal reports, letters, resumes and proposals. (C) (WR)
Prerequisite: ENC 1101 or test score equivalency.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 3250 Professional Communication 3 Credits
Grading Scheme: Letter Grade
Professional writing course relevant in business, industry, government and other institutional settings. Covers major elements of organizational communication with emphasis on composition of letters and memos, reports, proposals and manuals. (WR)
Prerequisite: junior or senior standing and two 1000- or 2000-level English courses.
Attributes: Satisfies 6000 Words of Writing Requirement

ENC 3310 Advanced Exposition 3 Credits
Grading Scheme: Letter Grade
Advanced composition course in methods of exposition: definition, classification, comparison and contrast, analysis, illustration and identification. (WR)
Prerequisite: junior/senior standing and two 1000/2000-level English courses.
Attributes: Satisfies 6000 Words of Writing Requirement

ENC 3312 Advanced Argumentative Writing 3 Credits
Grading Scheme: Letter Grade
Advanced composition concerned with the writing of argument and critical analysis. (WR)
Prerequisite: junior/senior standing and two 1000/2000-level English courses.
Attributes: Satisfies 6000 Words of Writing Requirement

ENC 3414 Hypermedia 3 Credits
Grading Scheme: Letter Grade
The study and production of digital media, with emphasis on the World Wide Web.

ENC 4212 Professional Editing 3 Credits
Grading Scheme: Letter Grade
How to perform different levels of editing on a range of professional texts, including both printed and online texts as well as both technical and literary ones.
Prerequisite: ENC 3250 or ENC 2210, and instructor permission.

ENC 4260 Advanced Professional Writing 3 Credits
Grading Scheme: Letter Grade
Administrative communication, professional papers, research reports, proposals and other major professional documents, depending on the needs of the students who must have developed communication skills. (WR)
Prerequisite: ENC 2210 or ENC 3250, or instructor permission.
Attributes: Satisfies 6000 Words of Writing Requirement

ENC 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

ENG 1131 Writing through Media 4 Credits
Grading Scheme: Letter Grade
The media studies equivalent of ENC 1102, Writing about Literature. Explores the practices of literacy in the context of popular culture, including cinema, television, advertising, popular fiction and journalism. (C or H) (WR)
Prerequisite: ENC 1101 or test score equivalent.
Attributes: General Education - Composition, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

ENG 1400 Introduction to Popular Film 3 Credits
Grading Scheme: Letter Grade
Designed for non-majors seeking humanities credit in the areas of film and popular culture. Introduces the study of contemporary movies through attention to film form and structure, film genres and attention to popular culture. Students are expected to see new movies off campus. (H)
Attributes: General Education - Humanities

ENG 2300 Film Analysis 4 Credits
Grading Scheme: Letter Grade
Introduces thinking and writing about the cinema by means of film theory and history. (C or H) (WR)
Prerequisite: ENC 1101 or test score equivalent.
Attributes: General Education - Composition, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

ENG 2935 English: College Honors 1 3 Credits
Grading Scheme: Letter Grade
Writing about novels, short stories, film and cultural studies primarily by American and British authors. Text and assignments are chosen to match the abilities of honor students. (C or H) (WR)
Attributes: General Education - Composition, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

ENG 3010 The Theory and Practice of Modern Criticism 3 Credits
Grading Scheme: Letter Grade
An intensive introductory study of 20th-century theory.

ENG 3011 The Theorists 3-6 Credits
Grading Scheme: Letter Grade
Studies one or more theorists, contemporary or historical.

ENG 3063 Advanced Grammar: Analysis and Application 3 Credits
Grading Scheme: Letter Grade
An extensive and sophisticated study of grammar, as well as a practical appreciation of its rhetorical purposes.

ENG 3113 The Movies as Narrative Art 4 Credits
Grading Scheme: Letter Grade
Examines movies as a mode of storytelling by emphasizing the difference between verbal and visual narration, and relation to contemporary thought and values.

ENG 3115 Introduction to Film: Criticism and Theory 4 Credits
Grading Scheme: Letter Grade
Introduces the principal theoretical and critical issues raised by the first century of the cinema.

ENG 3121 History of Film, Part 1 4 Credits
Grading Scheme: Letter Grade
History of film from its beginnings to the introduction of sound.

ENG 3122 History of Film, Part 2 4 Credits
Grading Scheme: Letter Grade
History of film from the introduction of sound to 1960.

ENG 3125 History of Film, Part 3 4 Credits
Grading Scheme: Letter Grade
History of film from 1960 to the present.

ENG 4015 Psychological Approaches to Literature 3 Credits
Grading Scheme: Letter Grade
Use of various psychological concepts to the application of literary study. Refer to department website.

ENG 4060 History of the English Language 3 Credits
Grading Scheme: Letter Grade
Origins of the English language and its development from Old English to the present. Students should have completed an introductory linguistics course (LIN 2000, LIN 2001 or LIN 3010). Refer to department website.

ENG 4130 Race and Ethnicity in Film 4 Credits
Grading Scheme: Letter Grade
Critical and historical study of films and videos by and about people of color in the Americas, Africa, Australia and Europe.

ENG 4133 Film Studies 4 Credits
Grading Scheme: Letter Grade
Variable topics provide in-depth study of film genres, notable film directors, and other significant topics on subjects related to film.

ENG 4134 Women and Film 4 Credits
Grading Scheme: Letter Grade
Studies the roles and function of women in mainstream and alternative cinema, including study of feminist film criticism and theories of gender.

ENG 4135 National Cinemas 4 Credits
Grading Scheme: Letter Grade
Variable topics study of the films of historically important national cinemas, such as American, French, German, Italian, Russian, Japanese.

ENG 4136 Film and Video Production 4 Credits
Grading Scheme: Letter Grade
Seminar on the independent and experimental uses of small-format film and video production.

ENG 4139 Television and Electronic Culture 4 Credits
Grading Scheme: Letter Grade
Explores the development of new modes of thought, forms of art, popular culture, and social practices based on the electronic technology of video and computers.

ENG 4146 Advanced Film and Video Production 4 Credits
Grading Scheme: Letter Grade
Variable topics focus on one or more advanced aspects of film and video production, including such topics as editing of film and video or the production of 16mm films.
Prerequisite: ENG 4136.

ENG 4310 Film Genres Directors 4 Credits
Grading Scheme: Letter Grade

ENG 4844 Queer Theory 3 Credits
Grading Scheme: Letter Grade
Overview of major concerns, methodologies and texts in queer theory, illuminating the theoretical insights, assumptions and implications of various constructions of gender, sex and sexuality.

ENG 4905 Independent Study 1-3 Credits
Grading Scheme: Letter Grade
For advanced students who desire to supplement the regular courses by independent reading or research under guidance.
Prerequisite: instructor and/or department permission.

ENG 4911 Undergraduate Research in English 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in English. Projects may involve inquiry, design, investigation, scholarship, discovery or application in English.

ENG 4936 Honors Seminar 3 Credits
Grading Scheme: Letter Grade
Open to English majors who have maintained an overall junior/senior level GPA of 3.5. Small seminar classes study topics in English and American literature or film.
Prerequisite: undergraduate coordinator and/or department permission.

ENG 4940 English Internship 1-3 Credits
Grading Scheme: S/U
Admission requires a written proposal of appropriate work experience from the student and a written acceptance for employment from the employer, including designation of a supervisor. Successful completion requires a written summation of the work experience from the student and a written evaluation of performance by the supervisor. (S-U)
Prerequisite: 12 credits of 3000/4000-level work in English and undergraduate coordinator permission.

ENG 4953 Department Seminar 3 Credits
Grading Scheme: Letter Grade
Seminar offered on a space-available basis allowing department majors to develop their individual programs of study while focusing on a common topic.
Prerequisite: English major and 9 credits of 3000/4000-level work in English.

ENG 4970 Honors Thesis Project 3 Credits
Grading Scheme: Letter Grade
Student selects an English faculty member to act as director for an independent research project that culminates in preparation of an honors thesis. An abstract and one copy of the thesis must be delivered to 101 Academic Advising Center by the semester deadline specified by the Honors Office.
Prerequisite: completion of one semester of ENG 4936; undergraduate coordinator permission. Open to English honors students.

ENL 2012 Survey of English Literature: Medieval to 1750 3 Credits
Grading Scheme: Letter Grade
Introduces some of the major writers, issues and forms found in the history of the period. The instructor determines the breadth and focus of this survey. (C or H) (WR)
Prerequisite: ENC 1101 or test score equivalent.
Attributes: General Education - Composition, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

ENL 2022 Survey of English Literature: 1750 to the Present 3 Credits
Grading Scheme: Letter Grade
Introduces some of the major writers, issues and forms found in the history of the period. The instructor determines the breadth and focus of this survey. (C or H) (WR)
Prerequisite: ENC 1101 or test score equivalent.
Attributes: General Education - Composition, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

ENL 2330 Introduction to Shakespeare 3 Credits
Grading Scheme: Letter Grade
Introduces the pleasure and wisdom of Shakespeare's plays. Various approaches are used: movie versions of the plays, staging of scenes from the plays and discussion. (H)
Prerequisite: ENC 1101 or test score equivalent.
Attributes: General Education - Humanities

ENL 2930 Special Topics 3 Credits
Grading Scheme: Letter Grade
Variable topics focus on major issues and themes in British literature and culture.
Prerequisite: ENC 1101 or equivalent.

ENL 3122 The English Novel: 19th Century 3 Credits
Grading Scheme: Letter Grade
Includes works by such writers as Scott, Austen, Dickens, Thackeray, Eliot and Hardy.

ENL 3132 The English Novel: 20th Century 3 Credits
Grading Scheme: Letter Grade
Includes works by such writers as Conrad, Lawrence, Joyce, Forster, Woolf, Greene and Waugh.

ENL 3154 Twentieth-Century British Poetry 3 Credits
Grading Scheme: Letter Grade
General study of the most prominent British poets of the 20th Century with particular emphasis on Yeats, Lawrence, Graves, Eliot, Sitwell, Dylan Thomas and Ted Hughes.

ENL 3210 Medieval English Literature 3 Credits
Grading Scheme: Letter Grade
Surveys representative works of the Middle English period such as Sir Gawain and the Green Knight, Pearl, Malory's Morte D'Arthur and selections from medieval drama, lyric poetry, mystical writings and writings by and about women.

ENL 3230 The Age of Dryden and Pope 3 Credits
Grading Scheme: Letter Grade
Selections from the best works of such writers as Dryden, Congreve, Addison, Swift and Pope.

ENL 3234 The Long Eighteenth Century: Themes and Interpretation 3 Credits
Grading Scheme: Letter Grade
Rotating topics courses on eighteenth-century British literature, with an emphasis on themes rather than genres. These include but are not limited to literature's engagement with social issues, material history, and the history of ideas. The instructor determines the breadth and focus of this course; refer to department website.
Prerequisite: 6 credits of English at the 1000/2000 level, or department permission.

ENL 3235 The Long Eighteenth Century: Imaginative Genres 3 Credits
Grading Scheme: Letter Grade
Rotating topics courses on eighteenth-century British literature, focusing on imaginative genres; especially genres other than the novel, such as drama, poetry, and non-novelistic prose fiction. The instructor determines the breadth and focus of this course; refer to department website.
Prerequisite: 6 credits of English at the 1000/2000 level, or department permission.

ENL 3240 The Romantic Period 3 Credits
Grading Scheme: Letter Grade

ENL 3251 Victorian Literature 3 Credits
Grading Scheme: Letter Grade
Selections from Tennyson, Browning, C. Bronte, Wilde, G.M. Hopkins and Arnold. Examines the beliefs and paradoxes of Victorian culture through the poetry, fiction, drama, visual arts and critical theory of representative figures. Investigates the social and cultural assumptions which underlie the artists' approaches to their themes as well as the themes themselves. Refer to department website.

ENL 3350 Age of Johnson 3 Credits
Grading Scheme: Letter Grade

ENL 4220 Renaissance Literature: 16th Century 3 Credits
Grading Scheme: Letter Grade
Variable topics in Tudor literature and culture, 1485-1603. Focuses on or combine topics such as the development of literary genres; the works of single or paired authors; the social institutions and material conditions of textual production; thematically organized studies of cultural relations between literary and nonliterary texts; issues of gender, religion, nationhood and race; and writing in the emergence of an English literature. Refer to department website.

ENL 4221 Renaissance Literature: 17th Century 3 Credits
Grading Scheme: Letter Grade
Variable topics in Stuart Literature and Culture, 1603-1700. Focuses on or combine topics such as the progress of literary genres; the works of single or paired authors; the social institutions and material conditions of textual production; thematically organized studies of cultural relations between literary and nonliterary texts; issues of gender, religion, nationhood and race; and writing in the era before, during and after the English Revolution. Refer to department website.

ENL 4273 Twentieth Century British Literature 3 Credits
Grading Scheme: Letter Grade
Variable topics on major works of drama, poetry or prose from twentieth-century Britain. Refer to department website.

ENL 4311 Chaucer 3 Credits
Grading Scheme: Letter Grade
Reading and critical study of Chaucer's poetry with emphasis on the Canterbury Tales and Troilus and Criseyde, in addition to some attention to the minor works.

ENL 4333 Shakespeare 3-6 Credits
Grading Scheme: Letter Grade
Studies selections from Shakespeare. Topics include tracing Shakespeare's dramatic career, concentrating on one or several genres including histories, comedies, tragedies and romances; developing the history of Shakespeare reception; approaching Shakespeare through performance, including acting and directing; and approaching Shakespeare through feminist, materialist or psychoanalytic methods. Refer to department website.

LIN 4400 Introduction to Morphology 3 Credits
Grading Scheme: Letter Grade
Theory of word structure, derivation and inflection, with examples and problems from a variety of languages. Includes the position of morphology in grammar, the relationship between morphology and grammar, typology, cultural and conceptual categories, and predictions of various theories of morphology. May be taught in conjunction with a graduate class that bears the same title.
Prerequisite: LIN 3010 and LIN 3460.

LIT 2000 Introduction to Literature 3 Credits
Grading Scheme: Letter Grade
Examines the important role literature has played in individuals' lives and in society, presenting a range of literary styles and genres, from different countries and historical periods. Special attention paid to development of critical skills of analysis and interpretation. (H)
Prerequisite: ENC 1101
Attributes: General Education - Humanities

LIT 2110 Survey of World Literature: Ancient to Renaissance 3 Credits
Grading Scheme: Letter Grade
Introduces some of the major writers, issues and forms found in the history of the period. The instructor determines the breadth and focus of this survey. (C or H, and N) (WR)
Prerequisite: ENC 1101 or test score equivalent.
Attributes: General Education - Composition, General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

LIT 2120 Survey of World Literature: 17th Century to Modern 3 Credits
Grading Scheme: Letter Grade
Introduces some of the major writers, issues and forms found in history of the period. The instructor determines the breadth and focus of this survey. (C or H, and N) (WR)
Prerequisite: ENC 1101 or test score equivalent.
Attributes: General Education - Composition, General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

LIT 3003 The Forms of Narrative 3 Credits
Grading Scheme: Letter Grade
A close reading and critical analysis of representative forms and styles of narrative, to improve the student's ability to study narrative structures and theories of narrative. Refer to department website.

LIT 3031 Studies in Poetry 3 Credits
Grading Scheme: Letter Grade
Variable topics provide in-depth study of genre such as the lyric, epic or sonnet, or of developments in periods of literature such as the medieval, American or African. Emphasis on refining the ability to read and analyze texts carefully and accurately. Refer to department website.

LIT 3041 Studies in Drama 3 Credits
Grading Scheme: Letter Grade
Variable topics provide in-depth study of genre such as comedy or tragedy, or of developments in periods such as the Elizabethan, Jacobean or Restoration. Refer to department website.

LIT 3043 Studies in Modern Drama 3 Credits
Grading Scheme: Letter Grade
Representative selections from continental, British and American playwrights. Refer to department website.

LIT 3173 Jewish Literature 3 Credits
Grading Scheme: Letter Grade
Variable topics in the Jewish literary experience, from the biblical narrative and classical tales to Yiddish and Hebrew literature, the modern European novel, and American Jewish fiction. (H and N)
Attributes: General Education - Humanities, General Education - International

LIT 3362 The Age of the Avant-Garde 3 Credits
Grading Scheme: Letter Grade
Examines the revolutionary experimentalist aspects of modern and contemporary culture, such as cubism, surrealism, structuralism, and conceptualism.

LIT 3374 The Bible as Literature 3 Credits
Grading Scheme: Letter Grade
Literary analysis from the Hebrew and Christian Bibles, with emphasis upon poetry and narrative. (H and N)
Attributes: General Education - Humanities, General Education - International

LIT 3383 Women in Literature 3 Credits
Grading Scheme: Letter Grade
Critical and thematic study of women in literature that may include fiction, poetry or drama in English, American or world literature. Refer to department website. (D and H)
Attributes: General Education - Diversity, General Education - Humanities

LIT 3400 Interdisciplinary Topics in Literature 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary variable-topics study of the vital relationship between literature and other creative arts, other humanistic disciplines or the sciences and technology. Refer to department website.

LIT 4188 World English Language Literatures 3 Credits
Grading Scheme: Letter Grade
Variable topics focus on one or more of the diverse English language literary traditions, including those of Ireland, Scotland, India, Nigeria, the Caribbean, Canada and Australia. Refer to department website.

LIT 4192 Caribbean Literature in English 3 Credits
Grading Scheme: Letter Grade
Variable topics focus on the critical and analytical study of representative Caribbean authors writing in English. Refer to department website.

LIT 4194 African Literature in English 3 Credits
Grading Scheme: Letter Grade
Critical and analytical study of representative Black-African authors writing in English, notably Achebe, Awoonor, Ngugi, Aidoo, Soyinka, Armah, Ekwensi, Mphalele and p'Bitek'. (H and N)
Attributes: General Education - Humanities, General Education - International

LIT 4233 Postcolonial Literature, Culture and Theory 3 Credits
Grading Scheme: Letter Grade
Variable topics explore the issues, questions and themes raised in the rich literature, culture and theory that emerge as a response to and in contestation of the experiences of the colonial and postcolonial worlds. Refer to department website.

LIT 4305 Comics Studies 4 Credits
Grading Scheme: Letter Grade
Variable topics provide an opportunity for the in-depth study of comics genres, notable comics writers and illustrators and other significant topics on related subjects.

LIT 4322 The Folktale 3 Credits
Grading Scheme: Letter Grade
Reading folktales, myths and legends, particularly those told orally by ethnic, indigenous and emigrant cultures within the USA. Attention is paid to critical theory and the scholarly study of the folktale. In addition, the use of the folktale by creative writers and teachers is discussed.

LIT 4331 Children's Literature 3 Credits
Grading Scheme: Letter Grade
Designed to arouse a genuine interest in children's books and to aid the student in obtaining a critical knowledge of the literature.

LIT 4332 Literature for Young Children 3 Credits
Grading Scheme: Letter Grade
Explores kinds and qualities of literature for the younger child, examining the child's first experience with literature in oral forms, then moving on to picture and story books and poetry.

LIT 4333 Literature for the Adolescent 3 Credits
Grading Scheme: Letter Grade
Studies the types of literature read by adolescents, with emphasis upon the criteria for the choice of good books and upon developing a familiarity with the many books available.

LIT 4334 Golden Age of Children's Literature 3 Credits
Grading Scheme: Letter Grade
Origins and evolution of the Anglo-American tradition in literature for young readers, 1720-1920, with an emphasis on the Victorian era. Authors may include Defoe, Scott, Cooper, Dickens, Alcott, Twain and Stevenson.

LIT 4483 Issues and Methods in Cultural Studies 3 Credits
Grading Scheme: Letter Grade
Introduces the issues and methodology used in cultural studies. Students will be encouraged to explore a number of methods by which culture is analyzed, understood and disseminated. Refer to department website.

LIT 4554 Feminist Theories 3 Credits
Grading Scheme: Letter Grade
Introduces a variety of analytic, theoretical and interpretive approaches under the general rubric feminist theory. Course concentrates on current issues in literary and cultural studies, but also discusses other disciplines as well.

LIT 4930 Variable Topics in Literature and Language 3 Credits
Grading Scheme: Letter Grade
Proseminar of variable content providing an opportunity for the in-depth study of various topics such as the literature of war and peace, of death and of courtly love. Refer to department website.

RED 1343 Reading and Writing Content Area 1-7 Credits
Grading Scheme: Letter Grade
Covers the fundamentals of beginning college writing and critical reading skills.

SPC 3602 Advanced Public Speaking 3 Credits
Grading Scheme: Letter Grade
Studies principles and methods of selected forms of public speaking for various purposes, audiences and contexts.
Prerequisite: SPC 2608 or equivalent.

SPC 3605 Speechwriting 3 Credits
Grading Scheme: Letter Grade
Consideration of and practice with word choice and word arrangement as sources of style that influence memorability, credibility, and ease and accuracy of comprehension.

SPC 4680 Rhetorical Criticism 3 Credits
Grading Scheme: Letter Grade
Critical analyses of rhetorical elements and processes in oratorical and non-oratorical forms.

Entomology and Nematology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

ALS 2160 Bioterrorism 3 Credits
Grading Scheme: Letter Grade
Bioterrorism directed against agriculture and human health has scientific (development of the threat agent, its deployment and mitigation), social and legal components. Discusses how threats may be alleviated and future attacks responded to, and how risk is best communicated to affected citizens.
Prerequisite: admission to the honors program.

ALS 2931 Agricultural Honors 1-4 Credits
Grading Scheme: Letter Grade
Various courses offered. (WR)
Prerequisite: refer to the department.
Attributes: Satisfies 6000 Words of Writing Requirement

ALS 3153 Agricultural Ecology 3 Credits
Grading Scheme: Letter Grade
Introduces the study of ecology from an agricultural perspective. Emphasizes ecological principles with examples and applications from agriculture.

ALS 3203 PC Use in Agriculture 3 Credits
Grading Scheme: Letter Grade
Introduces PC computer skills, file management, software application, hardware, purchasing one's own PC system. Focus is on the use of computers for preparing documents and presentations.

ALS 4161 Exotic Species and Biosecurity Issues 3 Credits
Grading Scheme: Letter Grade
Studies U.S. policies and programs affecting agricultural biosecurity as applied to current agricultural and extension and regulatory programs. Emphasis is on policies and procedures used to detect and report non-indigenous species. Students will develop the analytical capabilities to assess the consequences of agricultural biosecurity threats.
Prerequisite: BSC 2010/BSC 2010L and BSC 2011/BSC 2011L, or equivalent.
Corequisite: HOS 3020C or ENY 3005/ENY 3005L or PLP 3002C.

ALS 4162 Consequences of Biological Invasions 3 Credits
Grading Scheme: Letter Grade
Non-native species invasions and environmental effects of these invaders. Students will develop analytical capabilities to assess the consequences of biological invasions.
Prerequisite: BSC 2010/BSC 2010L and BSC 2011/BSC 2011L, or equivalent.

ALS 4163 Challenges in Plant Resource Protection 3 Credits
Grading Scheme: Letter Grade
Applied training in the regulatory aspects of plant protection, using real-world case studies, scenarios and issues.
Prerequisite: BSC 2010/BSC 2010L and BSC 2011/BSC 2011L, or equivalent.
Corequisite: HOS 3020C or ENY 3005/ENY 3005L or PLP 3002C.

ENY 1001 Bugs and People 3 Credits
Grading Scheme: Letter Grade
Introduction for lower-division students who want to learn popular information about insects and associated organisms. (B)
Attributes: General Education - Biological Science

ENY 2040 The Insects 3 Credits
Grading Scheme: Letter Grade
Introduces insect biology, insect-organism interaction and insect association with man. Features discussion of basic biological principles using insects as examples. (B)
Attributes: General Education - Biological Science

ENY 2041C Practical Beekeeping 3 Credits
Grading Scheme: Letter Grade
Establish colonies of european-derived honey bees and manage them to be healthy and productive;A hybrid approach combines online lectures and in-person field experiences.

ENY 2890 Using Insect Research to Understand the Nature of Scientific Engagement 3 Credits
Grading Scheme: Letter Grade
A classroom undergraduate research experience (CURE) which bridges the divide between the classroom and the science laboratory and prepares for advanced opportunities in entomological science. become part of an entomology research team, collecting publishable data on insect evolution, ecology, and systematics.

ENY 3005 Principles of Entomology 2 Credits
Grading Scheme: Letter Grade
Introduces principles of insect study, including insect structure, insect development, evolutionary insect history and its ecological significance. (B)
Corequisite: ENY 3005L.
Attributes: General Education - Biological Science

ENY 3005L Principles of Entomology Laboratory 1 Credit
Grading Scheme: Letter Grade
Provides practical laboratory experience working with insects, dissecting insects and preparing lab reports. Insect collection is required. (B)
Corequisite: ENY 3005.
Attributes: General Education - Biological Science

ENY 3007C Life Science 3 Credits
Grading Scheme: Letter Grade
Introduces insects and their interactions with man and the environment.

ENY 3030C Insect Field Biology 3 Credits
Grading Scheme: Letter Grade
The roles of insects in nature, emphasizing field exercises and experiments. For non-majors.

ENY 3163 Invertebrate Field Biology 3 Credits
Grading Scheme: Letter Grade
Field-oriented surveys of invertebrate biodiversity and conservation.

ENY 3222C Biology and Identification of Urban Pests 3 Credits
Grading Scheme: Letter Grade
Biology, behavior, ID and damage recognition of insect and vertebrate pests.
Prerequisite: ENY 3005 and ENY 3005L.

ENY 3225C Principles of Urban Pest Management 3 Credits
Grading Scheme: Letter Grade
Methods of controlling household, structural and occasional pests with emphasis placed on cockroaches, termites and fleas.
Prerequisite: ENY 3005 and ENY 3005L.

ENY 3228 Urban Vertebrate Pest Management 2 Credits
Grading Scheme: Letter Grade
The biology, ecology, health risks, exclusions and control of vertebrate pests in the urban environment.

ENY 3451C Insect Behavior 3 Credits
Grading Scheme: Letter Grade
Provides a theoretical and empirical overview of insect behavior, ranging from physiology underlying behavior to the evolution of behavioral diversity. Focuses on recent and current research on insect behavior, the diversity of approaches for studying it, and how this knowledge can be applied to solve human challenges.
Prerequisite: ENY 1001 or ENY 2040 or ENY 3005 or BSC 2005 or BSC 2010, or instructor permission.

ENY 3510C Turf and Ornamental Entomology 3 Credits
Grading Scheme: Letter Grade
Biology, identification and management of arthropods that infect turfgrass and ornamental plants in urban landscape and in nurseries and greenhouses.

ENY 3541C Tree and Shrub Insects 3 Credits
Grading Scheme: Letter Grade
Emphasizes biology and management options for the control of insect pests associated with woody plants.

ENY 3563 Introduction to Tropical Entomology 3 Credits
Grading Scheme: Letter Grade
Natural history, ecology and behavior of tropical insects in natural and agroecosystems. Designed for students without previous experience in tropics.
Prerequisite: ENY 3005 and ENY 3005L.

ENY 3564L Tropical Entomology Field Laboratory 2 Credits
Grading Scheme: Letter Grade
A 10-day trip to a tropical country to study the insect faunas of natural and agroecosystems. Each student is assigned a field project.
Prerequisite: ENY 3563.

ENY 4161 Insect Classification 3 Credits
Grading Scheme: Letter Grade
Classification of major families of adult insects with emphasis on their identification, habitat and niche. A properly curated collection is required. (B)
Prerequisite: ENY 3005 and ENY 3005L.
Attributes: General Education - Biological Science

ENY 4202 Ecology of Vector-Borne Disease 2 Credits
Grading Scheme: Letter Grade
Introduces critical components of vector-borne disease systems and basic concepts inherent to disease ecology. Focuses on vector-borne diseases of humans and wildlife and how aspects of the environment and host/vector biology influence disease transmission. Topics include epidemiology, transmission models, and emerging diseases.
Prerequisite: BSC 2010 or equivalent.

ENY 4208 Ecology and Conservation of Pollinators 3 Credits
Grading Scheme: Letter Grade
Examines interactions between animals and the plants that they pollinate, current threats to pollinator populations, and the conservation of pollinators worldwide; explore these topics through readings, discussion, and a field research project.
Prerequisite: BSC 2010 and BSC 2010L or equivalents with minimum grades of C-, and junior standing or higher.

ENY 4210 Insects and Wildlife 3 Credits
Grading Scheme: Letter Grade
Introduces insects and other arthropods and their relationships with wild vertebrate animals.
Prerequisite: ENY 3005L or equivalent entomology laboratory.

ENY 4221 Termite Biology and Control 2 Credits
Grading Scheme: Letter Grade
Taxonomy, identification, behavior, ecology and methods of control for the economically important termites in the New World.

ENY 4230 Urban Pesticide Application 1-6 Credits
Grading Scheme: Letter Grade
Practical work experience in urban pesticide application; study pest management problems on campus and in residences.
Prerequisite: ENY 3005 and ENY 3005L.

ENY 4453 Behavioral Ecology and Systematics 3 Credits
Grading Scheme: Letter Grade
Introduces behavioral ecology and systematics of insects. (B)
Prerequisite: ENY 3005 and ENY 3005L.
Attributes: General Education - Biological Science

ENY 4455C Social Insects 3 Credits
Grading Scheme: Letter Grade
Introduces social wasps, bees, ants and termites: their natural history; social behavior; division of labor, caste differentiation, evolution, identification and rearing. Laboratory involves live insects.

ENY 4573 Beekeeping 3 Credits
Grading Scheme: Letter Grade
Biology of honey bees and the craft of apiculture; examines the natural history, biogeography, and ecology of honey bees. Topics include honey bee anatomy, physiology, colony social structure, pests/diseases, pollination ecology, management, and current topics in beekeeping.
Prerequisite: junior standing or higher.

ENY 4590C Mosquito Identification 3 Credits
Grading Scheme: Letter Grade
Intensive, hands-on training on morphological features and the identification of adult and larval mosquito species that occur in North America.
Prerequisite: junior standing or higher.

ENY 4592 Mosquito Biology 3 Credits
Grading Scheme: Letter Grade
This modular course covers six critical areas of mosquito biology; classification, natural history and ecology, physiology, population dynamics, mosquito-borne diseases and control of mosquitoes. Students will understand the fundamental processes governing mosquitoes and mosquito-borne diseases.
Prerequisite: junior standing or higher.

ENY 4660 Medical and Veterinary Entomology 2 Credits
Grading Scheme: Letter Grade
Presents the major insect, mite and tick vectors of disease to man and animals. Topics includes arthropod-transmitted diseases, the interaction between pathogens and the arthropod vector, and the mechanical damage that a parasite inflicts on its host. (B)
Prerequisite: ENY 3005 and ENY 3005L.
Attributes: General Education - Biological Science

ENY 4660L Medical and Veterinary Entomology Laboratory 1 Credit
Grading Scheme: Letter Grade
Identifying mosquitoes, ticks, lice, fleas and other disease vectors. Insect collection required. (B)
Corequisite: ENY 4660.
Attributes: General Education - Biological Science

ENY 4701 Forensic Entomology 3 Credits
Grading Scheme: Letter Grade
The role of arthropods in decomposition, in criminal and civil investigations and the increasing importance of science on society. Material and discussions deal with death and some may consider course images and concepts disturbing.

ENY 4900 Supervised Extension Experience in Entomology and Nematology 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in entomology and nematology under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

ENY 4905 Problems in Entomology 1-5 Credits
Grading Scheme: Letter Grade
Problems in any field of specialization in entomology and nematology.
Prerequisite: ENY 3005 and the basic course in selected specialization.

ENY 4911 Supervised Research in Entomology 0-3 Credits
Grading Scheme: Letter Grade
Firsthand, authentic research in entomology under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application.

ENY 4915 Honors Thesis Research in Entomology 0-3 Credits
Grading Scheme: S/U
Independent research in entomology leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

ENY 4932 Special Topics in Entomology and Nematology 1-3 Credits
Grading Scheme: Letter Grade
Special topics in Entomology and Nematology.
Prerequisite: sophomore standing or higher.

IPM 3022 Fundamentals of Pest Management 3 Credits
Grading Scheme: Letter Grade

IPM 4254 Landscape Integrated Pest Management: Ornamentals and Turf 3 Credits
Grading Scheme: Letter Grade
Landscape pest pressure is influenced by many factors. The development of sound integrated pest management plans for landscapes focuses on identification of abiotic factors, weeds, insects, mites, pathogens and nematodes that occur on Florida landscape ornamentals, turfgrass and palms.
Prerequisite: ENY 3005 or NEM 3002 or PLP 3002C.

NEM 3002 Principles of Nematology 3 Credits
Grading Scheme: Letter Grade
Introduces nematology, including studies of morphology, life histories and control of the major nematode parasites of plants. Also includes studies of the bionomics of certain soil nematodes and nematode parasites of vertebrates and arthropods. (B)
Attributes: General Education - Biological Science

NEM 4905 Problems in Nematology 1-4 Credits
Grading Scheme: Letter Grade
Selected problems for study, research or discussion in nematology.

NEM 4911 Supervised Research in Nematology 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in nematology under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

NEM 4915 Honors Thesis Research in Nematology 0-3 Credits
Grading Scheme: S/U
Independent research in nematology leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

PMA 4570C Field Techniques in IPM 2 Credits
Grading Scheme: Letter Grade
Prerequisite: IPM 3022.

Environmental Engineering Sciences

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

EES 3000L Environmental Science and Humanity Laboratory 1 Credit
Grading Scheme: Letter Grade
Field and laboratory instruction on ecosystems, environmental treatment and control systems, and methods of environmental analysis. Intended for junior level environmental science majors and minors. (B)
Attributes: General Education - Biological Science

EES 3008 Energy and Environment 3 Credits
Grading Scheme: Letter Grade
Consideration of the energy basis for man and nature including principles of energy analysis, systems ecology and public policy. (P)
Attributes: General Education - Physical Science

EES 4005C Ecological Engineering 3 Credits
Grading Scheme: Letter Grade
Application of ecological and engineering principles to natural resource management and problem solving.
Prerequisite: CHM 2046 or CHM 2096;
Corequisite: EES 4203.

EES 4050 Environmental Planning and Design 3 Credits
Grading Scheme: Letter Grade
Principles and practices of environmental planning. Planning for and designing sustainable communities and regions. Exploration of quantitative methods for the evaluation of environmental impacts and analysis of carrying capacity of economic development. Exploration of theories of spatial and temporal organization of systems of humanity and nature.

EES 4102 Wastewater Microbiology 2 Credits
Grading Scheme: Letter Grade
General concepts in microbiology and cell biology with major emphasis on the role of microorganisms in polluted environments. (B)
Prerequisite: CHM 2046.
Attributes: General Education - Biological Science

EES 4102L Environmental Biology Laboratory 1 Credit
Grading Scheme: Letter Grade
Focuses on the biota (microorganisms, algae, zooplankton, fish, and plants) found in natural (lakes and wetlands) and engineered systems, ecological engineering approach to management of surface waters and ecological modeling.

EES 4103 Applied Ecology 2 Credits
Grading Scheme: Letter Grade
Application of ecological principles to technological resource management and problem solving. (B)
Attributes: General Education - Biological Science

EES 4201 Water Chemistry 3 Credits
Grading Scheme: Letter Grade
Kinetics and equilibrium of aqueous chemistry including acid-base, complexation, precipitation and redox equilibria. (P)
Prerequisite: CHM 2046 or CHM 2096 and MAC 2311 or MAC 2233.
Attributes: General Education - Physical Science

EES 4203 Phase Partitioning in the Environment 4 Credits
Grading Scheme: Letter Grade
A study of the fate of organic pollutants in the environment through application of principles of organic chemistry and chemical thermodynamics, including phase partitioning between environmental media.
Prerequisite: CHM 2046 or CHM 2096.

EES 4316 Industrial Ecology 3 Credits
Grading Scheme: Letter Grade
Linkage of industrial activity with environmental and social sciences. Corporate environmental management and environmental ethics. Resources, laws and economics. Environmental account. Industrial products and processes and life cycle assessments. Case studies of corporate environmental policies.

EES 4401 Public Health Engineering 3 Credits
Grading Scheme: Letter Grade
Application of engineering principles to protect public health. Areas covered include water supply, waste treatment, air pollution, radiological health, occupational health, milk and food sanitation, vector control, solid wastes, and housing hygiene. (P)
Attributes: General Education - Physical Science

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

EGS 1005 Prep for Success 1-4 Credits
Grading Scheme: S/U
Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)
Prerequisite: EG student.

EMA 4535 Sustainable Nanotechnology 3 Credits
Grading Scheme: Letter Grade
Increase in production and use of engineered nanomaterials (ENMs) raises concerns on their potential impacts on the environment and human health. The sustainable development of nanotechnology requires knowledge of life cycle and environmental fate/implications of ENMs. Focuses on linkages between ENMs properties and environmental implications.
Prerequisite: CHM 2046 or CHM 2047 or CHM 2096.

ENV 3040C Computational Methods in Environmental Engineering 3 Credits
Grading Scheme: Letter Grade
Numerical modeling techniques and their application to environmental engineering. Use of personal computers and spreadsheets to solve numerical models. Solution techniques include numerical methods and their implementation using Excel and Visual Basic for Applications (VBA).
Prerequisite: MAC 2313;
Corequisite: MAP 2302.

ENV 3930 Environmental Engineering Ethics Seminar 1 Credit
Grading Scheme: Letter Grade
Intended for undergraduates majoring in environmental engineering. Lectures and discussion on ethics topics in environmental engineering sciences. (H)
Attributes: General Education - Humanities

ENV 4041C Environmental Analysis 3 Credits
Grading Scheme: Letter Grade
Theory and laboratory techniques for the analysis of air and water pollutants and basic concepts of ecosystems structure and analysis.
Prerequisite: (CHM 2046 or CHM 2096) and (STA 3032 or STA 2023).

ENV 4101 Elements of Atmospheric Pollution 3 Credits
Grading Scheme: Letter Grade
Sources, effects and regulation of air pollutants. Meteorology and dispersion of pollutants. Sampling and analysis of gaseous and particulate air pollutants. Photochemical air pollution and mobile sources. (P)
Prerequisite: EES 4203 and PHY 2049.
Attributes: General Education - Physical Science

ENV 4112C Air Sampling and Analysis 3 Credits
Grading Scheme: Letter Grade
Applies physical and chemical principles to measurement of gaseous and particulate pollutants in ambient air.
Prerequisite: ENV 4101.

ENV 4121 Air Pollution Control Design 3 Credits
Grading Scheme: Letter Grade
Principles of particulate and gaseous emission control; design and operation of particulate and gas control equipment to meet federal emission standards.
Prerequisite: ENV 4101.

ENV 4122 Design of Air Pollution Control System 3 Credits
Grading Scheme: Letter Grade
Design of a complete air pollution control system including the industrial ventilation system needed to capture, transport and condition the hot, corrosive gases from an industrial process.
Prerequisite: ENV 4101 and ENV 4121.

ENV 4212 Nuclear Power Radioactive Waste Technology 3 Credits
Grading Scheme: Letter Grade
Characterization and description of low and high level radwastes, regulatory requirements and method of treatment. Transportation, burial and surveillance of radwaste. Decommissioning of nuclear facilities.
Prerequisite: refer to the department.

ENV 4300 Solid Waste Containment Design 3 Credits
Grading Scheme: Letter Grade
Design fundamentals of solid and hazardous waste landfills, waste piles, monofills and surface impoundments. Regulations, site requirements, sizing, liner design, leachate and gas management system design, operations and closure.
Prerequisite: ENV 4351;
Corequisite: ENV 4561 or CWR 4202.

ENV 4351 Solid and Hazardous Waste Management 4 Credits
Grading Scheme: Letter Grade
Generation of solid and hazardous wastes. Collection, methods, equipment, costs and disposal. Rules, regulations and management systems for proper control of solid and hazardous wastes. Evaluation of engineering systems to minimize costs and regulatory problems. (P)
Prerequisite: EES 4201.
Attributes: General Education - Physical Science

ENV 4353 Solid Waste Systems Design 3 Credits
Grading Scheme: Letter Grade
A capstone design experience focusing on the design of solid waste management systems such as landfills, waste-to-energy facilities, compost operations, recycling facilities and hazardous waste treatment/storage/disposal facilities.
Prerequisite: ENV 4351.

ENV 4405 Nutrient Control and Water Reuse 3 Credits
Grading Scheme: Letter Grade
Biological and physicochemical processes for advanced treatment of municipal wastewater. Reuse guidelines and applications.

ENV 4411 Stormwater Control Systems 3 Credits
Grading Scheme: Letter Grade
Chemical, physical, biological and hydrologic aspects of rainfall runoff and control through unit operations and processes (UOPs). Stormwater physical and chemical loads. Interactions between hydrologic processes, water chemistry, sediment transport, infrastructure materials and UOPs for treatment and reuse.
Prerequisite: EES 4201 or instructor permission.

ENV 4430 Water Treatment Process Design 3 Credits
Grading Scheme: Letter Grade
Design of selected water treatment processes including disinfection, air stripping, adsorption, ion exchange and membrane processes.
Prerequisite: ENV 4514C and EES 4201.

ENV 4432 Potable Water System Design 3 Credits
Grading Scheme: Letter Grade
Design of conventional water treatment operations, including reactor design, coagulation, flocculation, mixing, sedimentation, filtration, softening, disinfection and sludge management.
Prerequisite: EES 4201 and ENV 4514C.

ENV 4501 Environmental Hydrology 1 3 Credits
Grading Scheme: Letter Grade
Surface and atmospheric hydrology. Hydrologic processes controlling streamflow events. Practical application to stormwater management.
Prerequisite: ENV 3040C and (STA 3032 or STA 2023) and (CWR 3201 or EGN 3353C).

ENV 4506 Environmental Hydrology 2 3 Credits
Grading Scheme: Letter Grade
Subsurface hydrology. Properties of porous media governing flow and chemical transport in the subsurface. Environmental site evaluation methods.
Prerequisite: ENV 3040C and (CWR 3201 or EGN 3353C).

ENV 4514C Water and Wastewater Treatment 3 Credits
Grading Scheme: Letter Grade
Design of water and wastewater treatment units.

ENV 4532 Wastewater System Design 3 Credits
Grading Scheme: Letter Grade
Detailed design and layout of gravity wastewater collection systems, pumping facilities, force mains, and a wastewater treatment plant. Emphasis on the preparation of design drawings and estimating costs.
Prerequisite: ENV 4514C;
Corequisite: ENV 4561 or CWR 4202.

ENV 4561 Hydraulic Systems Design 3 Credits
Grading Scheme: Letter Grade
Hydraulic design of water distribution systems, wastewater collection and disposal systems, and water and wastewater treatment plants.
Prerequisite: CWR 3201.

ENV 4601 Environmental Resources Management 2 Credits
Grading Scheme: Letter Grade
Theory and application of engineering economics and systems analysis to the design of environmental management systems.
Prerequisite: ENV 3040C.

ENV 4905 Individual Studies in Environmental Engineering Sciences 1-4 Credits
Grading Scheme: Letter Grade
Selected problems or projects in the student's major field of study.

ENV 4912 Integrated Product and Process Design 1: Environmental Engineering Sciences 3 Credits
Grading Scheme: Letter Grade
The first part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: ENV 4514C;
Corequisite: ENV 4121 or ENV 4351.

ENV 4913 Integrated Product and Process Design 2: Environmental Engineering Sciences 3 Credits
Grading Scheme: Letter Grade
The second part of the sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: ENV 4912.

ENV 4932 Special Problems in Environmental Engineering Sciences 1-4 Credits
Grading Scheme: Letter Grade
Special problems in environmental engineering science.

ENV 4949 Environmental Engineering Internship/Co-op 1-3 Credits
Grading Scheme: S/U
Practical internship/co-op work experience under approved industrial supervision. (S/U)
Prerequisite: Engineering major.

Environmental Horticulture

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

BCH 3023 Elementary Organic and Biological Chemistry 3 Credits
Grading Scheme: Letter Grade
Elementary organic chemistry and biochemistry for students in the agricultural technical curricula. This is a terminal course and is not part of any sequence.
Prerequisite: CHM 2046 or CHM 2047.

EVR 3323 Introduction to Ecosystem Restoration 4 Credits
Grading Scheme: Letter Grade
Restoration theory and planning, disturbed land reclamation, woodland/wetland/river restoration, invasive species, community involvement, and monitoring, and emphasizes plant selection, establishment and maintenance.
Corequisite: BOT 2010C or BSC 2010, or instructor permission.

HOS 3305 Introduction to Plant Molecular Biology 3 Credits
Grading Scheme: Letter Grade
Introduces plant molecular biology and genetic engineering, emphasizing plant genes and genomes, transformation of plants and basic molecular biology.
Prerequisite: APB 2150 or BOT 2010C or BSC 2010.

LDE 3410C Residential Landscape Design 3 Credits
Grading Scheme: Letter Grade
Basics of residential landscape design including preparation, evaluation and implementation of simple landscape plans. Emphasizes the use of ornamental plants for functional and aesthetic improvement of home environments. Expect to attend one or two Saturday field trips.
Prerequisite: ORH 3513C.

LDE 4404C Advanced Residential Landscape Design 3 Credits
Grading Scheme: Letter Grade
Sustainable landscape design concepts and practices to create regenerative and resilient residential landscapes that demonstrate advanced design skills and knowledge.
Prerequisite: LDE 3410C or LAA 2360C.

ORH 1030 Plants, Gardening and You 1 Credit
Grading Scheme: Letter Grade
A non-majors overview of environmental horticulture that emphasizes the art and science of growing, installing and maintaining plants used to enhance and improve the human environment indoors and outdoors. Gain familiarity with the science and the industries associated with environmental horticulture.

ORH 1283 Survey of Orchids 1 Credit
Grading Scheme: Letter Grade
Overview of the complexities of the orchid family, how selected genera are produced and the potential these plants offer to commercial nursery operators and hobbyists for profit or enjoyment.

ORH 2752 Sensory Gardening 2 Credits
Grading Scheme: Letter Grade
Hands-on, multidisciplinary approach to environmental horticulture delivered through the context of the human senses. Class activities, assignments, and projects enhance awareness and understanding of how horticulture relates to the natural and built world, as well as the ways in which people perceive those worlds.

ORH 3222C Turfgrass Culture 4 Credits
Grading Scheme: Letter Grade
Comparisons of turfgrass for their landscape and recreational uses. Growth characteristics, method of propagation, and basic management requirements, including control of important pest problems, are covered.
Prerequisite: BOT 2010C or BSC 2010, and CHM 1025.

ORH 3253C Introductory Nursery Management 4 Credits
Grading Scheme: Letter Grade
Introduces the principles of planning, organizing and managing nursery operations. Emphasizes interactions between growing medium components, plant nutrition and irrigation. Nursery layout, growing structures, materials requirements and business practices are covered. Weekend field trips may be required.

ORH 3324 Palm Short Course 1 Credit
Grading Scheme: Letter Grade
Overview of how palm plants grow and how to diagnose and interpret problems with palm plants.
Prerequisite: BOT 2010C or instructor permission.

ORH 3513 Environmental Plant Identification and Use 2 Credits
Grading Scheme: Letter Grade
Identification, growth characteristics, culture and use of common landscape and greenhouse plants. Materials include trees, shrubs, vines, ground covers, lawn grasses and floriculture crops. Emphasizes temperate plants. Taught off campus.
Corequisite: ORH 3513L.

ORH 3513C Environmental Plant Identification and Use 3 Credits
Grading Scheme: Letter Grade
Combines lecture and laboratory for identification, growth characteristics, culture and use of common landscape and greenhouse plants. Materials include trees, shrubs, vines, ground covers, lawn grasses and floriculture crops. Emphasizes temperate plants. Taught on UF campus. (B)
Attributes: General Education - Biological Science

ORH 3513L Environmental Plant Identification and Use Laboratory 1 Credit
Grading Scheme: Letter Grade
Introductory, upper-division environmental laboratory course. Identify commonly used landscape plants, their use and their characteristics. Taught off campus.
Corequisite: ORH 3513.

ORH 3773 Public Gardens 2 Credits
Grading Scheme: Letter Grade
Operation and management of public gardens, including community and amusement parks, nature preserves, botanical gardens, arboreta, and zoological gardens. Explore issues relevant to principles and practices of management and psychological and sociological benefits of gardens and green spaces.
Prerequisite: ORH 3513C.

ORH 3773L Public Gardens Laboratory 2 Credits
Grading Scheme: Letter Grade
First-hand observation and evaluation of public gardens and parks to illustrate the management of such, as was discussed in ORH 3773. Consists of field trips to various botanical gardens, zoos and amusement parks.
Corequisite: ORH 3773.

ORH 3815C Florida Native Landscaping 3 Credits
Grading Scheme: Letter Grade
An upper-division, environmental horticulture course designed to introduce students with a plant science background to the nomenclature, effective utilization and design elements of plants native to Florida.
Prerequisite: ORH 3513C.

ORH 4223 Golf and Sports Turf Management 2 Credits
Grading Scheme: Letter Grade
Strategies involved in golf course and athletic field operations, including development of management cultural practices, adherence to environment regulations, personnel management and budgeting. Students may be expected to attend Saturday field trips.
Prerequisite: ORH 3222C.

ORH 4236C Ornamental Landscape Management 3 Credits
Grading Scheme: Letter Grade
Provide foundational knowledge and the skills needed to successfully manage and maintain residential and commercial landscapes. Additionally, provides students with a greater understanding of the landscape management industry and familiarizes students with sustainable landscape management techniques.
Prerequisite: ORH 3222C.

ORH 4242C Arboriculture 4 Credits
Grading Scheme: Letter Grade
Introduces urban trees: biology, management requirements, design of urban spaces for trees, site modifications and construction techniques, tree selection, installation techniques, establishing trees in adverse sites, tree pruning and related tree management practices. A written tree management plan is required.
Prerequisite: ORH 3513C.

ORH 4256 Nutritional Management of Nursery Crops 3 Credits
Grading Scheme: Letter Grade
Techniques for determining, interpreting and managing the nutritional status of container grown greenhouse and nursery crops. Includes water quality, substrate physical and chemical parameters, irrigation and fertilization practices.

ORH 4264 Greenhouse and Nursery Crop Culture 3 Credits
Grading Scheme: Letter Grade
Principles and practices used for commercial production of economically important environmental horticulture crops.

ORH 4264L Greenhouse and Nursery Crop Culture Laboratory 1 Credit
Grading Scheme: Letter Grade
Advanced hands-on laboratory growing a wide range of greenhouse plants through the application of crop cultural practices discussed in lecture.
Prerequisite: ORH 3513C;
Corequisite: ORH 4264.

ORH 4280 Orchidology 3 Credits
Grading Scheme: Letter Grade
Principles and practices involved in the production of orchid plants and flowers, including nomenclature, breeding, seed culture, harvesting and handling.
Prerequisite: BOT 2011C or BSC 2011.

ORH 4527C Florida Flora and Ecosystem Landscapes 3 Credits
Grading Scheme: Letter Grade
Introductory, upper-division environmental course on plant identification and environmental aspects of Florida's diverse ecosystems.

ORH 4804 Annual and Perennial Gardening 2 Credits
Grading Scheme: Letter Grade
Identification, selection, use and management of annuals, perennials, vines, ornamental grasses and ground covers in the landscape. Hands-on care for plants in the outdoor laboratory. Learn the irrigation, fertilization, pruning and cultural needs of these popular plants. Laboratory complements lecture.
Prerequisite: ORH 3513C and PLS 3223;
Corequisite: ORH 4804L.

ORH 4804L Annual and Perennial Gardening Laboratory 1 Credit
Grading Scheme: Letter Grade
Taxonomy of ornamental landscape annuals and perennials. Site evaluation, diagnostics, preparation, installation and maintenance of the color portion of commercial and residential landscaping.
Prerequisite: ORH 3513 and PLS 3223;
Corequisite: ORH 4804.

ORH 4848 Landscape Plant Establishment 2 Credits
Grading Scheme: Letter Grade
Techniques for selecting and installing plants, building decks and patios, walls, trellises, landscape lighting, irrigation, water gardens and other landscape elements. Prepare balance sheets, bid specifications and contracts and perform landscape installations from completed landscape plants.

ORH 4900 Supervised Extension Experience in Environmental Horticulture 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

ORH 4905 Independent Study of Environmental Horticulture 1-5 Credits
Grading Scheme: Letter Grade
Three topics for independent study: a research investigation and review of literature, drafting of proposal, conducting an experiment, collection of data, summation and interpretation of results and preparation of a report; a library or studio assignment, including analysis of several sources of information on a specific topic with a written evaluation and list of conclusions; or assist in teaching a laboratory of selected courses in environmental horticulture.

ORH 4911 Supervised Research in Environmental Horticulture 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in environmental horticulture under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

ORH 4915 Honors Thesis Research in Environmental Horticulture 0-3 Credits
Grading Scheme: S/U
Independent research in environmental horticulture leading to an honors thesis. Student are mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

ORH 4932 Special Topics in Environmental Horticulture 1-4 Credits
Grading Scheme: Letter Grade
Topics of current interest concerning environmental plants.

ORH 4933 Professional Seminar in Environmental Horticulture 1 Credit
Grading Scheme: Letter Grade
A senior-level course for students seeking career opportunities in environmental horticulture. Special emphasis is placed on the expectations of and the relevant issues facing the landscape plant production, landscape management and turfgrass industries. Field trips and attendance at selected commercial trade shows are mandatory.
Prerequisite: AEC 3030C and AEC 3033C and ORH 3513C.

ORH 4941 Practical Work Experience 1-3 Credits
Grading Scheme: S/U
Practical work must be a new experience and related to student's field of study. A written and oral report is required. (S-U)
Prerequisite: previous arrangement with advisor and department chair and dean permission.

PLS 3223 Plant Propagation 2 Credits
Grading Scheme: Letter Grade
Principles, practices and physiological aspects of the propagation of horticultural and agronomic crops by cuttage, graftage, seedage, micropropagation and other methods.
Prerequisite: BOT 2010C or BSC 2010;
Corequisite: PLS 3223L.

PLS 3223L Plant Propagation Laboratory 1 Credit
Grading Scheme: Letter Grade
Methods of propagating by seeds, bulbs, divisions, layering, cuttings, budding, grafting and micropropagation in a hands-on environment.
Prerequisite: BOT 2010C or BSC 2010.

PLS 4081 Techniques in Horticultural Therapy 3 Credits
Grading Scheme: Letter Grade
This course examines the effectiveness of horticultural therapy across a diverse range of client populations, programs, and environments, describing the physical, cognitive, and psychosocial implications. Therapeutic, vocational, and social modalities employing plants will be explored, as well as task analysis, activity analysis and tool and site adaptations.

PLS 4082 Program Management in Horticultural Therapy 3 Credits
Grading Scheme: Letter Grade
This course prepares students to develop, manage, and evaluate horticultural therapy programs in diverse environments. Strategies for program proposals and funding will be explored, along with recruitment of clients and required regulations and documentation. Staff/volunteer management will be discussed, as will plant materials, gardens, and other program resources.

PLS 4242C Micropropagation of Horticultural Crops 4 Credits
Grading Scheme: Letter Grade
Lectures and laboratory exercises emphasizing the practical application of plant tissue culture for the clonal propagation of horticultural crops. Emphasis on aseptic technique, culture methodology and micropropagation systems development.
Prerequisite: ORH 3513C recommended.

PLS 4941 Practical Work Experience 1-3 Credits
Grading Scheme: S/U
Practical, hands-on experience in the plant sciences through a paid internship in the industry. This must be a new experience and related to the student's field of study. One month of full-time work is required for each credit.
Prerequisite: junior standing and AG-PLS major.

PLS 4950 Plant Science Capstone 3 Credits
Grading Scheme: Letter Grade
Identify a problem or topic in plant sciences and develop a poster presentation about this problem or topic. This course discusses the following topics: how to develop a hypothesis, how to complete a reliable literature review, the importance of peer review and how to present results and findings.
Prerequisite: PLS 3004C and PLS 4941 One year of employment experience in plant science may be substituted for PLS 4941 with instructor permission.

Environmental Science

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

EVR 2001 Introduction to Environmental Science 3 Credits
Grading Scheme: Letter Grade
Delivered from a systems perspective, an interdisciplinary approach explores contemporary environments that are comprised of both human and non-human elements. Explores physical, chemical, and biological processes to understand pressing environmental challenges and cultural values, attitudes, and norms expressed by individuals and populations around the globe. (B) (N) (P)
Attributes: General Education - Biological Science, General Education - International, General Education - Physical Science

EVS 3000 Environmental Science 3 Credits
Grading Scheme: Letter Grade
Interactions of humans and their environments, Earth's resources, pollution and environmental management.
Prerequisite: CHM 2045 or CHM 2047 or CHM 2095.

EVS 3000L Environmental Science Laboratory 1 Credit
Grading Scheme: Letter Grade
Hands-on experience in data collection and analysis for environmental science and management.
Prerequisite: CHM 2045 or CHM 2047 or CHM 2095.

EVS 4021 Critical Thinking in Environmental Science 3 Credits
Grading Scheme: Letter Grade
Develops critical thinking and communication skills in the practicing environmental scientist. Students analyze the strengths, limitations and strategies of arguments regarding environmental science, policy and management, and craft arguments consistent with the scientific method.
Prerequisite: NE classification and senior standing.

EVS 4903 Supervised Extension Experience in Natural Resources and Environment 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic experiences in natural resources and environment under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

EVS 4905 Individual Study in Environmental Science 1-3 Credits
Grading Scheme: Letter Grade

EVS 4911 Supervised Research in Environmental Science 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in environmental science under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

EVS 4915 Honors Thesis Research in Environmental Science 0-3 Credits
Grading Scheme: S/U
Independent research in environmental science leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

EVS 4932 Special Topics in Environmental Science 1-3 Credits
Grading Scheme: Letter Grade
Special topics in environmental science.
Prerequisite: sophomore standing or higher.

EVS 4949 Environmental Science Internship 1-3 Credits
Grading Scheme: S/U
Employment or volunteer work in a natural resource- or environment-related business or government agency, with job description related to field of study and written work report of each term's activities. (S-U)
Prerequisite: NE classification and permission of dean. Can be counted as an elective for the major or as a free elective.

European Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

EUS 2001 European Experience: a Humanities Perspective 3 Credits
Grading Scheme: Letter Grade
Introductory interdisciplinary study of contemporary Europe from an arts and humanities perspective. (H and N)
Attributes: General Education - Humanities, General Education - International

EUS 2003 European Experience: a Social Science Perspective 3 Credits
Grading Scheme: Letter Grade
Introductory interdisciplinary study of contemporary Europe from a social science perspective. (N and S)
Attributes: General Education - International, General Education - Social Science

EUS 3030 Greece During the Second World War 3 Credits
Grading Scheme: Letter Grade
A broad history of Greece during WWII, including the German occupation of Greece, the resistance movement in Greece, and the fate of Greece immediately following the end of WWII.
Prerequisite: Sophomore standing or higher.

EUS 3100 European Cinema 4-12 Credits
Grading Scheme: Letter Grade
A study of films of one or more of the historically important national cinemas in Europe. The course is taught in English.

EUS 3110 Culture and Society in Europe 1-4 Credits
Grading Scheme: Letter Grade
Examines central issues in one or more of the various cultures and societies in Europe.

EUS 3111 Greece and Turkey: Myths and Misconceptions 3 Credits
Grading Scheme: Letter Grade
Examines the major political, historical, and cultural aspects of the animosity between Greeks and Turks. Aims to dispel common myths and misconceptions.
Prerequisite: sophomore standing or higher.

EUS 3113 History of Turks 3 Credits
Grading Scheme: Letter Grade
Broad historical study of the Turks in world history. Emphasizes the Ottoman Turks, the Young Turks, and various upheavals in Turkey alongside social and cultural topics including gender, daily life, workers, and migrations.
Prerequisite: sophomore standing or higher or instructor approval.

EUS 3120 War and Culture in Europe 3 Credits
Grading Scheme: Letter Grade
A survey of war in the modern era, its impact on European society and the corresponding cultures of victory and defeat.

EUS 3140 Culture in Crisis: the European Avant-Garde between the Wars 3 Credits
Grading Scheme: Letter Grade
Introduces the ideology and aesthetics of the major movements of the 20th century avant-garde, focusing on developments in Paris, Berlin, Prague and Moscow. (H and N)
Attributes: General Education - Humanities, General Education - International

EUS 3142 Islam and Turkey 3 Credits
Grading Scheme: Letter Grade
Explores what Islam is and what Turks believe that it is. Also explores Islamic sources, Turkish conversions, Turkish mysticism, and Islamist politics. Explains these topics through the prism of original sources and emphasizes ways cultural forces contribute to the making of modern Islam.
Prerequisite: Sophomore standing or instructor permission.

EUS 3220 Secret Police under Communism 3 Credits
Grading Scheme: Letter Grade
Overview of the secret-police forces and the political use of terror in the Central-European countries of Germany, Hungary, Czechoslovakia, Poland, Romania, and Bulgaria between 1945 and 1990.
Prerequisite: instructor permission.

EUS 3221 Socialist Control and Resistance in Eastern Europe After 1945 3 Credits
Grading Scheme: Letter Grade
Explores the political, intellectual, social and cultural history of Eastern Europe from 1945 to 1990 and discusses ways in which the Soviet leadership manipulated the governing and legal systems of the Easter European Communist countries.
Prerequisite: EUS 2001 or EUS 2003.

EUS 3400 Migration in Europe 3 Credits
Grading Scheme: Letter Grade
Examines migration in Europe, examining topics ranging from the first modern refugee crisis in the aftermath of World War I and the Russian Revolution to contemporary debates about immigration in the European Union.
Prerequisite: instructor permission.

EUS 3900 Directed Readings in European Studies 1 Credit
Grading Scheme: Letter Grade
Rotating readings on a country, region, or current issue in Europe.
Prerequisite: Sophomore-standing or higher. Can be repeated with change in content for up to 3 credits.

EUS 3930 Undergraduate Seminar in European Studies 3 Credits
Grading Scheme: Letter Grade
Intermediate rotating topics course on various European issues. (H)
Prerequisite: department permission.
Attributes: General Education - Humanities

EUS 3937 Applied European Language 1 Credit
Grading Scheme: Letter Grade
An enhancement section designed to accompany and complement area studies courses offered in other departments. Readings and discussions are in a continental European language to enable students to develop specific vocabulary and fluency related to the content of the companion course and to provide them with an international perspective on the issues of the main course.
Prerequisite: instructor permission.

EUS 3938 European Less Commonly Taught Languages 1-4 Credits
Grading Scheme: Letter Grade
Rotating topics course to facilitate language instruction for European lesser/least commonly taught languages. Instruction is in a European language to enable students to develop relevant competencies in speaking, writing, listening, and comprehension.
Prerequisite: placement test or instructor permission.

EUS 4210 Politics and Institutions of the European Union 3 Credits
Grading Scheme: Letter Grade
History of institutions and theoretical interpretations of European Union (EU) from its origins to present, including some general European history and background of EU's member status.
Prerequisite: instructor permission.

EUS 4211 European Union and Its Enlargement 3 Credits
Grading Scheme: Letter Grade
Examines the European Union's enlargement process and politics, and on the domestic politics of the applicant countries.
Prerequisite: Sophomore standing or higher.

EUS 4212 European Economic Integration: Politics and Policy 3 Credits
Grading Scheme: Letter Grade
Examines the political economy of European Union (EU) economic integration from an interdisciplinary perspective.
Prerequisite: three EUS-prefixed credits and instructor permission.

EUS 4213 Turkey and the EU: History, Present and the Future 3 Credits
Grading Scheme: Letter Grade
The dynamics and developments in Turkish politics with regard to Turkey's EU path. Students will understand the challenges the EU faces at present with Turkey, as this countrys candidacy highlights the unresolved issues facing a more integrated EU.
Prerequisite: EUS 2001 or EUS 2003.

EUS 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Reading and discussions in advanced topics of European studies.

EUS 4911 Undergraduate Research in European Studies 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery or application.

EUS 4930 Special Topics in European Studies 3 Credits
Grading Scheme: Letter Grade
Advanced variable-topics course on European issues.
Prerequisite: three EUS-prefixed credits or instructor permission.

EUS 4932 Jean Monnet Special Seminar: the EU Today 1-3 Credits
Grading Scheme: Letter Grade
Advanced variable topics on current European Union issues from multiple disciplinary perspectives, and taught by visiting EU scholar(s).
Prerequisite: (CPO 4104 or EUS 4210) and INR 4531, or instructor permission.

EUS 4944 Seminar in European Union Studies 3 Credits
Grading Scheme: Letter Grade
Advanced topics related to the European Union.
Prerequisite: 3 credits of EUS-prefix courses or instructor permission.

EUS 4950 Overseas Study in Europe 1-6 Credits
Grading Scheme: Letter Grade
Advanced course on European issues taught during study abroad in Europe.
Prerequisite: three EUS-prefixed credits or instructor permission.

HNG 1130 Beginning Hungarian 1 5 Credits
Grading Scheme: Letter Grade
This course and its sequel, HNG 1131, constitute the basic sequence in Hungarian.

HNG 1131 Beginning Hungarian 2 5 Credits
Grading Scheme: Letter Grade
Second semester of basic sequence in Hungarian.
Prerequisite: HNG 1130 with minimum grade of C, or S, or the equivalent.

HNG 1180 Elementary Hungarian: Review and Progress 1 3 Credits
Grading Scheme: Letter Grade
Alternative to HNG 1130, for students who have some experience in Hungarian. Reviews basic grammar and improves reading, writing and listening skills.

HNG 1182 Elementary Hungarian: Review and Progress 2 3 Credits
Grading Scheme: Letter Grade
An accelerated one-semester coverage of HNG 1130 and HNG 1131 for students with some experience in Hungarian.
Prerequisite: instructor permission.

TUR 1130 Beginning Turkish 1 5 Credits
Grading Scheme: Letter Grade
This course and its sequel, TUR 1131, constitute the introductory sequence in Turkish.

TUR 1131 Beginning Turkish 2 5 Credits
Grading Scheme: Letter Grade
Second semester of the introductory sequence in Turkish.
Prerequisite: TUR 1130 with minimum grade of C.

TUR 1180 Intensive Beginning Turkish 5 Credits
Grading Scheme: Letter Grade
An intensive introduction to Turkish, using the proficiency method. This course is equivalent to, and substitute for, the UF's first-year Turkish sequence (TUR 1130 / TUR 1131).
Prerequisite: instructor permission.

TUR 2220 Intermediate Turkish 1 4 Credits
Grading Scheme: Letter Grade
Intermediate study of speaking, reading, writing and listening comprehension skills with new vocabulary and grammar.
Prerequisite: TUR 1131 or placement test.

TUR 2221 Intermediate Turkish 2 4 Credits
Grading Scheme: Letter Grade
Improves speaking, reading, writing and listening skills by building upon language principles introduced in TUR 2220.
Prerequisite: TUR 2220 or placement test.

TUR 2300 Intensive Intermediate Turkish 5 Credits
Grading Scheme: Letter Grade
Immersive intermediate study of Turkish. Equivalent to, and substitute for, the second-year sequence of TUR 2220 / TUR 2221. Classes meet daily; see the weekly schedule of topics.
Prerequisite: (TUR 1130 and TUR 1131) or instructor approval.

Family, Youth and Community Sciences

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

FYC 3001 Principles of Family, Youth and Community Sciences 3 Credits
Grading Scheme: Letter Grade
Introduces the study and practice of family, youth and community sciences. Presents analytic concepts used in the study of family, youth and community sciences. Emphasizes the vulnerabilities and needs of U.S. children, youth, families and communities, and describes human services that maximize human potential and minimize personal and societal costs. Introduces the roles and skills of the human service professional. (S)
Prerequisite: PSY 2012 or SYG 2000.
Attributes: General Education - Social Science

FYC 3005 Introduction to Personal and Family Financial Planning 3 Credits
Grading Scheme: Letter Grade
Management of personal and family financial resources throughout the life span. A study of individual and family finances as related to planning, credit, saving, investment, insurance, taxes, housing costs, transportation costs, retirement, and estate planning.
Prerequisite: sophomore standing or higher.

FYC 3101 Parenting and Family Development 3 Credits
Grading Scheme: Letter Grade
Introduces the challenges and changes associated with parenthood. Includes strategies, skills and resources for understanding parenting. Also addresses diverse family types and parenting risks.
Corequisite: FYC 3001.

FYC 3112 Contemporary Family Problems and Interventions 3 Credits
Grading Scheme: Letter Grade
The major social and family problems contemporary families face, including poverty, violence and care of dependent elders. Emphasizes family strengths and resiliency as well as social programs that help families withstand and overcome difficulties. Emphasizes the role of society, race and gender in constructing family problems.
Prerequisite: FYC 3001, SYG 2430 or FYC 3101, and SYG 2000, all with minimum grades of C; FYC majors only.

FYC 3115 Human Services 3 Credits
Grading Scheme: Letter Grade
In-depth look at human services that assist children and families, with focus on income support, child protection, adoption and family support programs offered through human services agencies. Emphasizes professional development of helping skills for working directly with children and families.
Prerequisite: (SYG 2000 or PSY 2012) and junior standing or higher.

FYC 3201 Foundations of Youth Development 3 Credits
Grading Scheme: Letter Grade
Introduces youth development principles utilizing an ecological framework, including major theories relevant to domains of development. Then, major physical, cognitive, social and emotional changes experienced by youth in middle childhood through adolescence are explored. Application of youth development principles in context of family, school and community are also emphasized.
Corequisite: FYC 3001.

FYC 3401 Introduction to Social and Economic Perspectives on the Community 3 Credits
Grading Scheme: Letter Grade
Introduces the study of community in American society. Addresses the theoretical underpinnings of the concept of community and explores changes that have affected urban and rural communities. (S)
Corequisite: FYC 3001.
Attributes: General Education - Social Science

FYC 3521 Community Food Systems 3 Credits
Grading Scheme: Letter Grade
Examines theory and practice in food and agriculture from a social science perspective within the context of sustainable community food systems.
Prerequisite: junior standing or higher.

FYC 4003 Personal and Family Financial Counseling 3 Credits
Grading Scheme: Letter Grade
Examines family economics and resource management issues and impact on the well-being of family across the major transitions of the family life-cycle. The complex process of financial decision-making and the role of the financial counselor are addressed.
Prerequisite: FYC 3005.

FYC 4004 Personal and Family Tax Planning 3 Credits
Grading Scheme: Letter Grade
Principles, current law and practice of income taxation and its impact on financial planning for individuals, couples and families in their roles as investors, employees and business owners.
Prerequisite: (FYC 4003 or ACG 2021) and STA 2023 and (AEB 2014 or ECO 2013 or ECO 2023).

FYC 4102 Personal and Family Retirement and Estate Planning 3 Credits
Grading Scheme: Letter Grade
Provides knowledge of public and private retirement plans, including Social Security, Medicare, Medicaid, defined benefit, defined contribution plans and their regulatory provisions. Estate planning focuses on the efficient conservation and transfer of wealth through trusts, wills, probate and charitable giving consistent with the client's goals.
Prerequisite: (FYC 4003 or ACG 2021) and STA 2023 and (AEB 2014 or ECO 2013 or ECO 2023).

FYC 4114 Ethical Issues in Family, Youth and Community Sciences 3 Credits
Grading Scheme: Letter Grade
Ethics and ethical decision-making by professionals working individuals and their families is addressed. Emphasizes ethical issues related to family relationships and family life.
Prerequisite: junior standing or higher.

FYC 4126 Urban and Rural America in Transition 3 Credits
Grading Scheme: Letter Grade
Communities in America are being confronted with a number of significant changes. Such shifts are not felt in the same manner across various regions or communities in the U.S. Explore current and emerging issues that have differential consequences for urban and rural areas in this country.
Prerequisite: SYG 2000, FYC 3001 and FYC 3401 with minimum grades of C; FYC majors only.

FYC 4202 Youth and Family Relations 3 Credits
Grading Scheme: Letter Grade
Youth within the family system. Reviews basic theory and research on youth development and how it is intertwined with family development, family processes and extended family systems. Students also work with youth and their families.
Prerequisite: FYC 3001.

FYC 4212 Contemporary Youth Problems and Solutions 3 Credits
Grading Scheme: Letter Grade
Youth development and its ecology, emphasizing the challenges and issues facing adolescents/ youth, and the creation of communities that foster positive youth development and resiliency. Includes theoretical, methodological, empirical and practical issues regarding youth development issues and solutions. Also examines the ecology of youth development, focusing on the dynamics of interactions and reciprocal relationships between youth and various systems of the environment.
Prerequisite: (FYC 3001 and FYC 3201 and SYG 2000 with minimum grades of C) and Family, Youth and Community Sciences major.

FYC 4301 Engaging Communities for Decision Making and Action 3 Credits
Grading Scheme: Letter Grade
Survey citizens and analyze data of scientific, technological, environmental, and societal issues at the community level. Implement and evaluate methodologically correct research that aids in the resolution of issues and improves decision-making skills as they relate to community issues.

FYC 4408 Organizational Leadership for Nonprofits 3 Credits
Grading Scheme: Letter Grade
Examines the challenges for nonprofit leaders, incorporating leadership theories as they apply to these organizations. Equips students with the leadership skills needed to lead nonprofit organizations.
Prerequisite: junior standing or higher or instructor permission.

FYC 4409 Working with Nonprofit Organizations in Community Settings 3 Credits
Grading Scheme: Letter Grade
Overview of nonprofit organizations, their functions and purpose, how they are organized and operate, and the basic structure of an incorporated nonprofit.
Prerequisite: junior or senior standing.

FYC 4410 Fund Raising for Community Nonprofit Organizations 3 Credits
Grading Scheme: Letter Grade
Contemporary fund raising practices in the nonprofit sector applied to community organizations.
Prerequisite: FYC 4409.

FYC 4426 Risk Management in Nonprofit Organizations 3 Credits
Grading Scheme: Letter Grade
Foundation in the theory, principles and techniques associated with risk management. Topics include the nature and purpose of risk management; the general risk management exposures facing nonprofit organizations; and risk financing strategies for nonprofits.
Prerequisite: FYC 4409.

FYC 4427 Non-Governmental Organizations 3 Credits
Grading Scheme: Letter Grade
Explores the nature, role, operations and impacts of non-governmental organizations (NGOs) across the globe. Provides a foundation in understanding NGOs within the geographical, social, political and economic realities under which they operate. Lectures, reading assignments, student presentations and a group project are designed for a better understanding of NGO operations.
Prerequisite: junior or senior standing.

FYC 4428 Human Resource Management for Nonprofits 3 Credits
Grading Scheme: Letter Grade
Presents the various HRM activities such as recruitment, testing, selection, performance management, labor relations, volunteer management, compensation and training, for more effective management. Experiential exercises are used to simulate personnel/HRM tasks and issues that managers face in nonprofit organizations, such as conflict and leadership.
Prerequisite: junior or senior standing.

FYC 4503 Methods of Family Life Education 3 Credits
Grading Scheme: Letter Grade
Educational techniques for family life educators and human science providers who help individuals and families address key issues of development and human relationships at each stage of the life cycle.
Prerequisite: (FYC 3101 and FYC 3201) or SYG 2430.

FYC 4622 Planning and Evaluating Family, Youth and Community Science Programs 3 Credits
Grading Scheme: Letter Grade
Basic philosophy, theory and process of planning and evaluating family, youth and community programs.

FYC 4660 Family Policy 3 Credits
Grading Scheme: Letter Grade
Understanding how professionals can influence family policy and the impact of government policies on families.
Prerequisite: FYC 3101 or SYG 2430.

FYC 4801 Applied Social Research Methods 4 Credits
Grading Scheme: Letter Grade
Understand and apply the principles of social science research methods. Learn a variety of research methods and have hands-on experience with data collection and analysis.
Prerequisite: FYC 3001 with minimum grade of C or STA 2023.

FYC 4803 Advanced Social Research Methods 3 Credits
Grading Scheme: Letter Grade
Design, implement, and interpret social research as part of an advanced team. Collaboratively conduct original social research under faculty supervision and produce a manuscript suitable for submission to a scholarly outlet.
Prerequisite: FYC 4801 and Instructor approval.

FYC 4900 Supervised Extension Experience in Family, Youth and Community Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

FYC 4905 Individual Study in Family, Youth and Community Sciences 1-3 Credits
Grading Scheme: Letter Grade
Selected topics and problems related to family, youth and community sciences and the student's specific area of interest.

FYC 4911 Supervised Research in Family, Youth and Community Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in family, youth and community sciences under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

FYC 4915 Honors Thesis Research in Family, Youth and Community Sciences 0-3 Credits
Grading Scheme: S/U
Independent research in family, youth and community sciences leading to an honors thesis. Students are mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

FYC 4930 Personal and Family Financial Planning Capstone 3 Credits
Grading Scheme: Letter Grade
Critical thinking and decision making about personal and family financial management in the context of the financial planning process. Analyze and prioritize goals and make recommendations for a client in household accounting, taxes, investments, risk management, retirement planning and estate planning.
Prerequisite: FYC 4004, FYC 4007 and FYC 4102.

FYC 4931 Family, Youth, and Community Sciences Professional Development 3 Credits
Grading Scheme: Letter Grade
Provides a professional development experience for students in FYCS including: search for employment during their final semesters of undergraduate study and information regarding graduate education and research possibilities. Emphasis is placed on career placement, graduate education, practicum readiness, professional business etiquette and elements for a successful transition to the workforce.
Prerequisite: FYC 3001 and (FYC 3101 or SYG 2430) and FYC 3201 and FYC 3401.

FYC 4932 Special Topics in Family, Youth, and Community Science 1-3 Credits
Grading Scheme: Letter Grade
Special topics in Family, Youth, and Community Science.
Prerequisite: Sophomore standing.

FYC 4941 Practicum in Family, Youth and Community Sciences 3 Credits
Grading Scheme: S/U
Work experience in a human/community services agency and a professional seminar to discuss student progress, workplace experiences and issues, and critical topics in professional development.
Prerequisite: FYC 3001 and (FYC 3101 or SYG 2430) and FYC 3201 and FYC 3401 and FYC 4622 and FYC 4801 and FYC 4931.

Film and Media Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

ANT 3390 Visual Anthropology 3 Credits
Grading Scheme: Letter Grade
Uses photography and film as tools and products of social science. Ways of describing, analyzing and presenting behavior and cultural ideas through visual means. Projects and laboratory work with visual anthropology. (WR)
Prerequisite: basic knowledge of photography or instructor permission.
Attributes: Satisfies 6000 Words of Writing Requirement

ARH 4471 Late Twentieth Century Art 3 Credits
Grading Scheme: Letter Grade
Continuation of ARH 4453. Main movements in international art since about 1970 to the present. Focuses on the theory and various expressions of Post-Modernism. (H and N)
Prerequisite: ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4710 History of Photography 3 Credits
Grading Scheme: Letter Grade
Surveys major technical, stylistic, and critical directions in photography from the 19th century to the present. (H and N)
Prerequisite: ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ART 3842C Performance and Installation 3 Credits
Grading Scheme: Letter Grade
Explores the complex relationships among object, body, site, space, and architecture using various visual media in the creation of installation and performance art.
Prerequisite: ART 2701C or ART 2702C.

ART 3959C Video Art 3 Credits
Grading Scheme: Letter Grade
Explores video with an emphasis on editing and building a personal vocabulary through the electronic image.
Prerequisite: DIG 2131C and DIG 2282C and digital media major of junior standing or higher.

ART 4630C Video Art: Advanced Projects 3 Credits
Grading Scheme: Letter Grade
Focuses on the completion of larger scale student-directed projects with a special emphasis on pre-production planning and advanced editing techniques.
Prerequisite: ART 3959C.

ART 4631C Computer Art: Advanced Projects 6 Credits
Grading Scheme: Letter Grade
Advanced work in computer-mediated art, including animation and interactive works in both the physical and virtual domain, with special emphasis on completion of larger scale student-directed projects.

EME 4401 Integrating Technology in the Elementary Curriculum 3 Credits
Grading Scheme: Letter Grade
Prepares elementary majors to effectively use technology in teaching and learning.
Prerequisite: Formal admission to the upper division Unified Elementary ProTeach program.

ENG 3113 The Movies as Narrative Art 4 Credits
Grading Scheme: Letter Grade
Examines movies as a mode of storytelling by emphasizing the difference between verbal and visual narration, and relation to contemporary thought and values.

ENG 3115 Introduction to Film: Criticism and Theory 4 Credits
Grading Scheme: Letter Grade
Introduces the principal theoretical and critical issues raised by the first century of the cinema.

ENG 3121 History of Film, Part 1 4 Credits
Grading Scheme: Letter Grade
History of film from its beginnings to the introduction of sound.

ENG 3122 History of Film, Part 2 4 Credits
Grading Scheme: Letter Grade
History of film from the introduction of sound to 1960.

ENG 3125 History of Film, Part 3 4 Credits
Grading Scheme: Letter Grade
History of film from 1960 to the present.

ENG 4130 Race and Ethnicity in Film 4 Credits
Grading Scheme: Letter Grade
Critical and historical study of films and videos by and about people of color in the Americas, Africa, Australia and Europe.

ENG 4133 Film Studies 4 Credits
Grading Scheme: Letter Grade
Variable topics provide in-depth study of film genres, notable film directors, and other significant topics on subjects related to film.

ENG 4134 Women and Film 4 Credits
Grading Scheme: Letter Grade
Studies the roles and function of women in mainstream and alternative cinema, including study of feminist film criticism and theories of gender.

ENG 4135 National Cinemas 4 Credits
Grading Scheme: Letter Grade
Variable topics study of the films of historically important national cinemas, such as American, French, German, Italian, Russian, Japanese.

ENG 4136 Film and Video Production 4 Credits
Grading Scheme: Letter Grade
Seminar on the independent and experimental uses of small-format film and video production.

ENG 4139 Television and Electronic Culture 4 Credits
Grading Scheme: Letter Grade
Explores the development of new modes of thought, forms of art, popular culture, and social practices based on the electronic technology of video and computers.

FRT 3520 French Cinema 4-8 Credits
Grading Scheme: Letter Grade
Critical, theoretical and historical study of French cinema. Topics will be announced. Content may include key directors, 1930s cinema, nostalgia and masculinity in 1980s films, World War II cinema, and Colonial and Postcolonial cinema. Open to French majors and non-majors and is taught in English. (H and N)
Attributes: General Education - Humanities, General Education - International

IDS 4906 Interdisciplinary Thesis Research 1-12 Credits
Grading Scheme: Letter Grade
Research accommodation for thesis. (WR)
Corequisite: refer to the department.
Attributes: Satisfies 6000 Words of Writing Requirement

ITT 3521 Italian Cinema 4 Credits
Grading Scheme: Letter Grade
Critical and historical study of Italian film and directors. Topics may vary. (H and N)
Attributes: General Education - Humanities, General Education - International

JPT 3391 Introduction to Japanese Film 4 Credits
Grading Scheme: Letter Grade
Introduces the formal and historical features of Japanese film that have given it a unique position in film history. Emphasizes formal and critical analysis as well as the intellectual stakes of studying non-western film.

LIT 3362 The Age of the Avant-Garde 3 Credits
Grading Scheme: Letter Grade
Examines the revolutionary experimentalist aspects of modern and contemporary culture, such as cubism, surrealism, structuralism, and conceptualism.

PGY 3410C Photography: Color 3 Credits
Grading Scheme: Letter Grade
Consideration of the use and technique of color photography. Covers cameras, films, and darkroom developing techniques.
Prerequisite: PGY 2441C, PGY 2442C, and junior-level art major.

PGY 3444C Photography: Black and White 3 Credits
Grading Scheme: Letter Grade
Fundamentals of photography, operation of the camera and developing, printing, and enlarging. Principles of photography as a means of personal expression.
Prerequisite: PGY 2441C, PGY 2442C, and junior-level art major.

PGY 3820C Photography: Digital 3 Credits
Grading Scheme: Letter Grade
Studio methods and techniques in creating still images using electronic digital technology.
Prerequisite: DIG 2131C, PGY 2441C, PGY 2442C, and junior-level art major.

PGY 4420C Advanced Photography 6 Credits
Grading Scheme: Letter Grade
Use of the camera as a medium of individual creative expression. Experimental projects in black and white and color photography.
Prerequisite: PGY 3410C, PGY 3421C, PGY 3444C, PGY 3820C, and senior-level art major.

TPA 3217 Introduction to Lighting and Sound 4 Credits
Grading Scheme: Letter Grade
Introduces electricity and technical skills basic to lighting and sound technology.

TPP 3103 Acting 2: Analysis and Application 3 Credits
Grading Scheme: Letter Grade
Experimentation with scripted material: scene study, analysis, audition and performance.
Prerequisite: refer to the department.

TPP 3311 Directing 3 Credits
Grading Scheme: Letter Grade
Practical application of theoretical concepts of directing applied to scene study.
Prerequisite: refer to the department.

Finance, Insurance, and Real Estate

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

FIN 2951 Special Projects 1-3 Credits
Grading Scheme: S/U
Projects related to finance as approved by the college. (S-U)

FIN 3403 Business Finance 4 Credits
Grading Scheme: Letter Grade
The acquisition and management of funds by business. A minimum grade of B is required in FIN 3403 to register for required finance major courses.
Prerequisite: (ACG 2021 and junior standing) or (ACG 2021 and ECO 2023 and sophomore standing).

FIN 4243 Debt and Money Markets 4 Credits
Grading Scheme: Letter Grade
Examines financial markets, the institutions and instruments associated with debt funds, and the determinants of the general level and structure of interest rates.
Prerequisite: (FIN 3403 with a minimum grade of B) and (ACG 2021 and ACG 2071 with minimum grades of C).

FIN 4403 Honors Finance 2 Credits
Grading Scheme: Letter Grade
Variable topics providing opportunity for in-depth study of topics not offered in other courses.
Prerequisite: FIN 3403 with grade of A.

FIN 4414 Financial Management 4 Credits
Grading Scheme: Letter Grade
An integrative examination of theory and practice of managerial finance, financing and investing decisions as affected by risk, timing and financial markets.
Prerequisite: FIN 4243 and FIN 4504.

FIN 4453 Financial Modeling 2 Credits
Grading Scheme: Letter Grade
The course demonstrates how intricate financial spreadsheet models can be applied to aid in value creating activities for businesses such as valuation, additional funds needed analysis and additional applications that may include activities such as leasing and merger analysis.
Prerequisite: FIN 3403 with a minimum grade of B or an equivalent course as approved by the Department of Finance.

FIN 4504 Equity and Capital Markets 4 Credits
Grading Scheme: Letter Grade
Examines financial markets, the institutions and instruments associated with equity funds, the mechanics and mathematics of stock prices, security analysis, and the factors influencing stock values.
Prerequisite: (FIN 3403 with a minimum grade of B) and (ACG 2021 and ACG 2071 with minimum grades of C).

FIN 4533 Financial Derivatives 2 Credits
Grading Scheme: Letter Grade
The course defines the main kind of derivatives, shows how they are used to achieve various hedging and speculating objectives, introduces a framework for pricing derivatives and studies several applications of derivative-pricing techniques outside derivative markets.
Prerequisite: FIN 4504 or FIN 4243

FIN 4905 Independent Research 1-4 Credits
Grading Scheme: Letter Grade
A written report or reports will be required.
Prerequisite: senior standing, previous work in the area of research and department permission.

FIN 4934 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Special topics in entrepreneurship related fields of study.

FIN 4956 International Studies in Finance 1-4 Credits
Grading Scheme: Letter Grade
This course provides a mechanism by which coursework taken at a foreign university as part of an approved study abroad program can be recorded on the transcript and counted toward UF graduation.

FIN 4970 Honors Thesis 1 Credit
Grading Scheme: S/U
A thesis is required for award of magna cum laude or summa cum laude designation. To qualify for the thesis option, students normally will have completed 90 semester credits of coursework (exceptions may be made by the honors coordinator) and must have at least the 3.6 GPA required for high honors at the time they enroll. The thesis will be reviewed by at least one faculty member chosen by the honors coordinator from the student's major department. (S-U)
Prerequisite: 90 credits earned and a 3.6 UF GPA.

REE 2951 Special Projects 1-3 Credits
Grading Scheme: S/U
Projects related to business real estate as approved by the college. (S-U)

REE 3043 Real Estate Analysis 4 Credits
Grading Scheme: Letter Grade
Principles of real estate decision making within the context of our economic, social, legal and political-government systems.
Prerequisite: ACG 2021 or AEB 3133 or AEB 3144 or BCN 4753.

REE 4303 Real Estate Investment Decision Making 4 Credits
Grading Scheme: Letter Grade
Explores real estate investment and the demands, skills and challenges of decision-making for those who make such investments.
Prerequisite: REE 3043 with a minimum grade of C.

REE 4905 Independent Research 1-4 Credits
Grading Scheme: Letter Grade
A written report or reports will be required.
Prerequisite: senior standing, previous work in the area selected for research and instructor and department chair permissions.

REE 4970 Honors Thesis 1 Credit
Grading Scheme: S/U
A thesis is required for award of magna cum laude or summa cum laude designation. To qualify for the thesis option, students normally will have completed 90 semester credits of coursework (exceptions may be made by the honors coordinator) and must have at least the 3.6 GPA required for high honors at the time they enroll. The thesis will be reviewed by at least one faculty member chosen by the honors coordinator from the student's major department. (S-U)
Prerequisite: 90 credits earned and a 3.6 UF GPA.

Fine Arts

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

HUM 2510 Design for Understanding the Visual and Performing Arts 3 Credits
Grading Scheme: Letter Grade
Analysis of the basic elements and concepts of the visual arts, music, theater, and the dance to establish a fundamental base from which decisions can be made about what one sees, hears, and feels. Understanding, appreciation, and literacy in the arts are developed and are strengthened by participating in arts experiences. (H) (WR)
Attributes: General Education - Humanities, Satisfies 2000 Words of Writing Requirement

HUM 2511 Basic Fundamentals and Skills in the Visual Arts and Music 3 Credits
Grading Scheme: Letter Grade
Fundamentals of visual arts and of music needed by the classroom teacher for teaching art and music in the elementary school. Students with sufficient background may exempt the course by examination.

HUM 2592 Introduction to the Arts in Medicine in a Global Context 3 Credits
Grading Scheme: Letter Grade
Explores the field of arts in medicine in a global context, focusing on the many ways that the arts can be used to enhance health and wellbeing in healthcare or community settings and the relationship of culture to healing practices, systems, and health literacy in various regions of the world.

HUM 2930 Special Topics in Fine Arts 1-3 Credits
Grading Scheme: Letter Grade
Variable topics course exploring the interaction between various arts and between the arts and other disciplines.

HUM 3940L Arts in Medicine Practicum 1 2 Credits
Grading Scheme: Letter Grade
Provides basic to intermediate-level mentored practice in the arts in healthcare in a clinical or community environment. Emphasizes a primary discipline while deepening the understanding of the practice through documentation self-assessment and a culminating paper.
Prerequisite: (HUM 2592 or completion of Arts in Healthcare Summer Intensive) and instructor permission.

HUM 4594 Music in Medicine Capstone 1 Credit
Grading Scheme: Letter Grade
Through literature review and a culminating research paper, provides an opportunity to research a topic in the field of music in medicine relevant to educational and professional goals.
Prerequisite: HUM 2592

HUM 4912 Fine Arts Undergraduate Research 0-3 Credits
Grading Scheme: S/U
Provides an opportunity for firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or creative application, depending on the topic. Projects are supervised by an advising faculty member or a grad student working under faculty supervision. (S-U)

HUM 4930 Special Topics in Fine Arts 1-3 Credits
Grading Scheme: Letter Grade
An upper division general fine arts special/rotating topics on various subjects in the arts.
Prerequisite: junior standing or higher.

HUM 4941L Arts in Medicine Practicum 2 3 Credits
Grading Scheme: Letter Grade
Provides an individualized and in-depth practice of the arts in healthcare in a clinical or community environment. Emphasizes a primary discipline while deepening the understanding of the practice through documentation reflection and a culminating paper.
Prerequisite: HUM 3940L and instructor permission.

HUM 4956 Overseas Studies in Fine and Performing Arts 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study-abroad program can be recorded on the transcript and counted toward UF graduation.
Prerequisite: undergraduate advisor permission.

Fire and Emergency Services

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

FES 3004 Political and Legal Foundations of Fire Protection 3 Credits
Grading Scheme: Letter Grade
Examines the legal aspects of fire service and the political and social impacts of legal issues; reviews the American legal system and covers legal and political issues involving employment and personnel matters, administration and operations, and planning and code enforcement with regard to the fire service.
Prerequisite: junior standing or higher.

FES 3015 Principles of Fire and Emergency Services Management 3 Credits
Grading Scheme: Letter Grade
Fundamentals of management underlying the solution of problems of organization and operation of fire and emergency services agencies. (S) (WR)
Prerequisite: junior standing or higher.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

FES 3033 Fire and Emergency Services Labor Issues 3 Credits
Grading Scheme: Letter Grade
Determinants of demand for labor and labor supply. Labor market equilibrium and changes in the equilibrium due to changes in unionization, public policies and technology. Study of the effects of skill, job amenities and discrimination on wage differentials. A review of PERC, FSLA and unions is included.
Prerequisite: junior standing or higher.

FES 3153 FES Communication and Informational Technology 3 Credits
Grading Scheme: Letter Grade
Communications systems used in fire and emergency services such as high frequency voice/data, Internets and Intranets, satellite communications, GPS and GIS. An introduction, examination, equipment assessment, implementation program and maintenance management module are provided for each system covered.
Prerequisite: junior standing or higher.

FES 3223 Foundations of EMS 3 Credits
Grading Scheme: Letter Grade
Covers the design and operation of EMS systems, service delivery, and echelons of care. The history of EMS, interface of public and private organizations and review of the various personnel who comprise these systems, will be examined in relation to their impact on the health care delivery system.
Prerequisite: junior standing or higher.

FES 3227 Ambulance Operations 3 Credits
Grading Scheme: Letter Grade
Overview of the application of management principles to the provision of medical transport services. Includes an analysis of the economic, geographic, temporal, and clinical characteristics of ambulance demand, the key processes for providing transport services, and an evaluation of industry best practices.
Prerequisite: junior standing or higher.

FES 3233 EMS Safety and Risk Management 3 Credits
Grading Scheme: Letter Grade
Introduces the risk management principles of an EMS agency. Emphasizes safety from the perspective of the field provider.
Prerequisite: junior standing or higher.

FES 3263 Public Safety Educator 3 Credits
Grading Scheme: Letter Grade
Introduces the EMS professional to the education system as it relates to EMS education. Explores issues in curriculum development, teaching, program direction, and development.
Prerequisite: junior or senior standing.

FES 3284 Management of Emergency Medical Services 3 Credits
Grading Scheme: Letter Grade
Personnel and resource management issues in providing emergency medical services function. Quality assurance, utilization review techniques, and practices and techniques for delivery of services and distribution of resources are included.
Prerequisite: junior standing.

FES 3285 Advanced Leadership Issues in Emergency Medical Services 3 Credits
Grading Scheme: Letter Grade
Organizational development issues in providing emergency medical services function in the fire-based, hospital-based and third-service environments. Establishing and directing emergency medical services' work teams is also covered.
Prerequisite: junior standing.

FES 3533 Community Risk Reduction for Emergency Services 3 Credits
Grading Scheme: Letter Grade
Provides a theoretical framework for the understanding of the ethical, sociological, organizational, political, and legal components of community risk reduction, and a methodology for the development of a comprehensive community risk reduction plan.
Prerequisite: junior or senior standing.

FES 3720 Strategic Planning for FES 3 Credits
Grading Scheme: Letter Grade
Provides the conceptual framework for the development of a strategic plan for emergency management, fire protection, and emergency medical service. Also provides guidance through the process of the needs, resources, and capabilities of the organization and how to establish a plan to achieve improved performance.
Prerequisite: junior standing.

FES 3753 Fire and Emergency Services Financial Management 3 Credits
Grading Scheme: Letter Grade
Planning, developing, presenting, funding and implementing a budget for a fire and emergency services agency. Additional topics include special taxing districts, bond issues and fund-raising campaigns.
Prerequisite: junior standing.

FES 3755 Fire and Emergency Services Capital Equipment and Facilities 3 Credits
Grading Scheme: Letter Grade
Procedures for the acquisition, utilization and disposition of fire and emergency services apparatus and station facilities. Specification and purchasing of apparatus are included. An examination of facility siting, building design and land acquisition and financing is conducted. Additional material addresses special capital purchases such as communications, safety and operational equipment.
Prerequisite: FES 3753 and junior standing.

FES 3780 Analytical Approaches to Fire Protection 3 Credits
Grading Scheme: Letter Grade
Examines the tools and techniques of rational decision making in fire and emergency services agencies, including data collection, statistics, probability, decision analysis, utility modeling, resource allocation, and cost benefit analysis.
Prerequisite: junior or senior standing.

FES 3782 Applications of Fire Research 3 Credits
Grading Scheme: Letter Grade
Examines methodology for analyzing fire-related research; provides a framework for independent research in fire dynamics, fire test standards, fire safety, fire modeling, structural fire safety, life-safety, firefighter safety, automatic detection and suppression, risk analysis and loss control, applied research, and fire-related research trends.
Prerequisite: junior or senior standing.

FES 3803 Multi-Agency Incident Command 3 Credits
Grading Scheme: Letter Grade
Managing complex incidents that may require response from fire-rescue, emergency medical services, law enforcement and/or other public safety sectors. Use of the incident management system is emphasized.
Prerequisite: junior standing.

FES 3815 Command and Control at Catastrophic Fire-Rescue Incidents 3 Credits
Grading Scheme: Letter Grade
Incident command at multiple-alarm incidents, emphasizing rapid fireground decision-making, safety, personnel accountability and communications. Settings for scenarios include multi-family occupancies, hotels, high-rises, healthcare facilities and large retail centers.
Prerequisite: junior standing.

FES 3822 Disaster Policy in Emergency Management 3 Credits
Grading Scheme: Letter Grade
Describes the functional demands that emergency managers should be aware of in crafting effective emergency management plans, policies, and programs. Addresses how public policy choices impact emergency planning and the consequences of a disaster event. Emphasizes the emergency planning process.
Prerequisite: junior or senior standing.

FES 3823 Fire and Emergency Services Integrated Operations 3 Credits
Grading Scheme: Letter Grade
The broad issues involved in comprehensive emergency management at the local level. The emergency management cycle of preparedness, mitigation, response and recovery is emphasized as are the legal, operational and administrative aspects of state and federal interface.
Prerequisite: junior standing.

FES 4003 Fire and Emergency Services Administration 3 Credits
Grading Scheme: Letter Grade
Demonstrates the importance of persuasion and influence, budgeting, anticipation of challenges and change, and management tools for analyzing and solving problems; explores how the leadership of a fire and emergency services department develops internal and external cooperation to achieve the department's mission.
Prerequisite: junior or senior standing.

FES 4014 Foundations of Emergency Management 3 Credits
Grading Scheme: Letter Grade
Examines the history and the principles establishing Emergency Management in the United States. Describes the "Four Phases of Emergency Management," relates processes to codes and laws governing Emergency Management, and examines Emergency Management and the terrorist threat.
Prerequisite: junior or senior standing.

FES 4023 Fire and Emergency Services Ethical Practices and Leadership 3 Credits
Grading Scheme: Letter Grade
The role of agency leadership and its impact on the continuing professionalization of the fire and emergency services. Examines traditional and evolving definitions, practices and skills in leadership behavior, including discussions of power, influence, ethics and organizational behavior.
Prerequisite: senior standing.

FES 4034 Regulatory Issues in Fire and Emergency Services 3 Credits
Grading Scheme: Letter Grade
Introduces safety, health and environmental regulations on the state and federal levels that impact the delivery of fire and emergency services. OSHA, EPA and NFPA regulatory requirements are introduced along with methods and techniques to implement compliance programs.
Prerequisite: FES 4003 and senior standing.

FES 4045 Fire and Emergency Services Human Resource Management 3 Credits
Grading Scheme: Letter Grade
Major human resource management functional areas for fire and emergency services agencies. Topics include organizational employment planning, employment regulation, job analysis, performance assessment, recruitment and regulation, job analysis, performance assessment, recruitment and selection, training and development, employee/labor relations and compensation.
Prerequisite: FES 3015 and senior standing.

FES 4055 Fire and Emergency Services Public Relations 3 Credits
Grading Scheme: Letter Grade
Implementation of principles and methods in advocating factual claims and policy proposals: prepositional analysis, evidence as demonstration, effective reasoning processes and ethics in controversy. Also focuses on public speaking and presentations, especially in the areas of technology, defense of budgets and political leadership.
Prerequisite: senior standing.

FES 4224 Management of Mass Casualty Incidents 3 Credits
Grading Scheme: Letter Grade
Covers systematic approaches to triage, treatment and transport in response to large-scale emergency medical services incidents. Resource planning and coordination with hospital systems is also emphasized.
Prerequisite: senior standing.

FES 4226 EMS Special Operations 3 Credits
Grading Scheme: Letter Grade
Discusses the various special roles in which EMS personnel may serve, such as hazardous materials, water rescue, and technical rescue.
Prerequisite: junior or senior standing.

FES 4234 EMS Community Risk Reduction 3 Credits
Grading Scheme: Letter Grade
Provides a theoretical framework for the understanding of the ethical, sociological, organizational, political, and legal components of community risk reduction, and a methodology for the development of a comprehensive community risk reduction plan.
Prerequisite: junior or senior standing.

FES 4244 Legal, Political, and Regulatory in EMS 3 Credits
Grading Scheme: Letter Grade
Introduces the EMS professional to the legal aspects of Emergency Medical Services. Explores issues in malpractice, consent and refusal of treatment, OSHA, employment issues, and risk management. EMS students gain insights into the legal liabilities in Emergency Medical Services.
Prerequisite: junior or senior standing.

FES 4274 Quality Management and Research in Emergency Services 3 Credits
Grading Scheme: Letter Grade
Introduces the EMS professional to benefits of quality improvement, the history of quality in EMS, measuring quality, and the uses of quality in EMS.
Prerequisite: junior or senior standing.

FES 4585 Management of Fire Prevention Programs 3 Credits
Grading Scheme: Letter Grade
Planning, promoting and executing fire prevention functions, including an emphasis on legal responsibilities, needs assessments, negotiation and planning activities.
Prerequisite: senior standing.

FES 4685 Fire Investigation and Analysis 3 Credits
Grading Scheme: Letter Grade
Examines the technical, investigative, legal, and social aspects of arson, including principles of incendiary fire analysis and detection, environmental and psychological factors of arson, legal considerations, intervention, and mitigation strategies.
Prerequisite: senior standing.

FES 4804 Disaster Recovery and Mitigation 3 Credits
Grading Scheme: Letter Grade
Provides the opportunity to understand real world disaster response efforts through academic study and interactive applied activities. Topics include the Incident Command System (ICS), Emergency Operations Center (EOC) management, Resource Management (RM), and Command-Communications-Coordination (C3).
Prerequisite: junior or senior standing.

FES 4820 Critical Incident Management for Emergency Managers 3 Credits
Grading Scheme: Letter Grade
Examines disaster planning and emergency management. Focuses on the four phases of planning, mitigation, response, and preparedness. Includes FEMA and federal government NIMS ICS-700 and ICS-800 certifications.
Prerequisite: junior or senior standing.

FES 4825 Disaster Planning and Control 3 Credits
Grading Scheme: Letter Grade
Examines concepts and principles of community risk assessment, planning and response to fires and natural and human-caused disasters, including National Incident Management System--Incident Command Systems (NIMS ICS), mutual aid and automatic response, training and preparedness, communications, civil disturbances, terrorist threats/incidents, hazardous materials planning, mass casualty incidents, earthquake preparedness, and disaster mitigation and recovery.
Prerequisite: FES 3823 and senior standing.

FES 4835 Natural Disaster Phenomena in Florida 3 Credits
Grading Scheme: Letter Grade
Natural disasters prevalent in Florida: past, present, and future, including hurricanes, flooding, freezes, and agricultural emergencies. Also addresses planning, operations, mitigation, recovery, and evaluation concerns.
Prerequisite: junior or senior standing.

FES 4884 Introduction to Terrorism in Emergency Management 3 Credits
Grading Scheme: Letter Grade
Introduces the fundamental concepts, theories, principles, and practice of terrorism and terrorist events.
Prerequisite: junior or senior standing.

FES 4905 Special Studies in Fire and Emergency Services 1-3 Credits
Grading Scheme: Letter Grade
Special areas of study in fire and emergency services adjusted to the needs of individual students.
Prerequisite: instructor permission.

FES 4935 Current Issues in Fire and Emergency Services 3 Credits
Grading Scheme: Letter Grade
Information and direction for fire service administrators on current legislative, legal, labor and/or technology concerns facing fire and emergency services agencies.
Prerequisite: senior standing.

FFP 4507 Management of Fire-Related Human Behavior 3 Credits
Grading Scheme: Letter Grade
Focuses on human behavior in emergencies; examines research on human behavior, systems models, life-safety education, and building design, exploring a best-practice building life-safety system in terms of psychology and sociology joined with engineering and education to produce best outcomes of human survivability in emergencies.
Prerequisite: Junior or Senior standing.

First Year Florida

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

SLS 1102 Enhancing the Freshman Experience 1 Credit
Grading Scheme: Letter Grade
Explores the purpose and philosophy of higher education in the US; the history and traditions of the University of Florida; the potential roles of a student within the university and other learning environments; and the resources, behaviors and skills necessary for successful higher learning.

Fisheries and Aquatic Sciences

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

FAS 2024 Sustainable Fisheries 3 Credits
Grading Scheme: Letter Grade
Fish biology, ecology, and habitats relevant to fisheries on both a global and regional (Florida) scale. Follows the fisheries occurring from cold mountain rivers to the depths of the oceans, with special topics (e.g., artificial reefs, fisheries bycatch, and aquaculture). Intended for non-science and science majors.
Attributes: General Education - Biological Science

FAS 4202C Biology of Fishes 4 Credits
Grading Scheme: Letter Grade
The general biology of fishes, with emphasis on trends in their evolution, integrative and sensory biology, physiology, feeding ecology, reproduction, growth and population dynamics as they relate to fisheries.
Prerequisite: BSC 2011 and BSC 2011L.

FAS 4270 Marine Ecological Processes 3 Credits
Grading Scheme: Letter Grade
The ecology of marine organisms and habitats with focus on how general ecological principles, and those unique to the marine environment, drive patterns and processes.
Prerequisite: BSC 2010 and BSC 2011 or equivalent.

FAS 4305C Introduction to Fishery Science 3 Credits
Grading Scheme: Letter Grade
Principles of fish management in freshwater and marine systems. Includes field and laboratory techniques for aquatic habitat and fishery resource assessment, aquaculture practices and consideration of contemporary issues pertinent to sport and commercial uses of renewable fisheries resources.
Prerequisite: refer to the department.

FAS 4405 Aquariums, Water and Aquaculture 3 Credits
Grading Scheme: Letter Grade
Culture methods of fish and shellfish, species selection, biological and environmental principles, case histories and future trends.
Prerequisite: BSC 2010 and BSC 2010L, or instructor permission.

FAS 4900 Supervised Extension Experience in Fisheries and Aquatic Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic Extension experiences in fisheries and aquatic sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

FAS 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
Individual study of a selected topic in fisheries and aquatic sciences as contracted with the instructor at the start of the term.
Prerequisite: instructor permission.

FAS 4911 Supervised Research in Fisheries and Aquatic Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in fisheries and aquatic sciences under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

FAS 4915 Honors Thesis Research in Fisheries and Aquatic Sciences 0-3 Credits
Grading Scheme: S/U
Independent research in fisheries and aquatic sciences leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

FAS 4932 Topics in Fisheries and Aquatic Sciences 1-4 Credits
Grading Scheme: Letter Grade
Selected topics in fisheries biology, aquaculture and associated aquatic sciences not offered in other courses.
Prerequisite: instructor permission.

FAS 4933 Seminar in Fisheries and Aquatic Sciences 1 Credit
Grading Scheme: Letter Grade
Introduces undergraduate students to contemporary topics in the field of fisheries and aquatic sciences, and develops their listening and writing skills.

PEN 1136 Openwater Scuba Diving 2 Credits
Grading Scheme: Letter Grade
Beginning scuba diving including compass navigation, openwater diving environment, dive preparation and five openwater dives. Payment of required additional course fees and successful completion results in national certification as Openwater Scuba Diver.
Prerequisite: swim test.

PEN 2138C Advanced Scuba Diving 3 Credits
Grading Scheme: Letter Grade
Course provides advanced SCUBA training. Topics include physics, physiology, decompression, and oceanography/ecology. Pool sessions cover rescue, double cylinders, full facemasks, night/limited visibility techniques, search, recovery, salvage techniques, and underwater task loading. Completion results in NAUI certification in Advanced SCUBA, Enriched Air Nitrox, SCUBA Rescue, First Aid, CPR, and Oxygen Provider.
Prerequisite: PEN 1136 or equivalent.

PLS 4613 Aquatic Weed Control 3 Credits
Grading Scheme: Letter Grade
Florida's aquatic weed problems and methods of chemical, biological, mechanical and physical weed control. Topics include plant biology/ecology, herbicide residue, lake reclamation, fish-plant interactions and laws regulating aquatic weed control.
Prerequisite: refer to the department.

Food and Resource Economics

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

AEB 2014 Economic Issues, Food and You 3 Credits
Grading Scheme: Letter Grade
The role of agriculture and economics: the how's and why's of their influence on food prices and the world food situation, the environment, natural resources and government policy; and economic issues, including inflation and money. (S)
Prerequisite: not for FRE majors.
Attributes: General Education - Social Science

AEB 2451 Economics of Resource Use 3 Credits
Grading Scheme: Letter Grade
Introduces how economists value the environment and regulations designed to protect our natural resources from overuse and degradation. (S)
Attributes: General Education - Social Science

AEB 3103 Principles of Food and Resource Economics 4 Credits
Grading Scheme: Letter Grade
Introduces the field of food and resource economics, the principles of economics as applied to agriculture, and the economic problems of the agricultural industry and the individual farmer. (S)
Prerequisite: MAC 2233/MAC 2311 or higher.
Attributes: General Education - Social Science

AEB 3114L Introduction to Agricultural Computer Applications 1 Credit
Grading Scheme: Letter Grade
Introduces computer application with specific emphasis on applications used in agricultural businesses. Specific applications include spreadsheets, databases, word processing and DOS.

AEB 3122 Financial Planning for Agribusiness 3 Credits
Grading Scheme: Letter Grade
Introduces basic financial and managerial decision-making for small agribusinesses.

AEB 3133 Principles of Agribusiness Management 3 Credits
Grading Scheme: Letter Grade
Introduces agribusiness management principles, application of economic principles, budgeting techniques, and principles of strategy in agribusiness from management in the United States, particularly Florida. Emphasizes the financial and tax management strategies and the requirements imposed on agribusiness management by local, state and federal government regulatory agencies.

AEB 3144 Introduction to Agricultural Finance 3 Credits
Grading Scheme: Letter Grade
Basic financial statements, investment frameworks and theories of financial intermediation as applied to agricultural firms, along with an overview of financial institutions that provide capital to agriculture.
Prerequisite: AEB 3122 or ACG 2071.

AEB 3281 Agricultural Macroeconomics 3 Credits
Grading Scheme: Letter Grade
Introduces the world economy from a macroeconomic perspective that focuses on the links that arise from international trade and capital flows in the agricultural sector.
Prerequisite: ECO 2013.

AEB 3300 Agricultural and Food Marketing 3 Credits
Grading Scheme: Letter Grade
Examines agricultural and food marketing from a system and individual firm perspective. Explores problems and issues associated with marketing functions and institutions at the industry level and with objectives and strategies of farms and agribusiness firms that market agricultural commodities and food products.
Prerequisite: AEB 3103 or AEB 2014 or ECO 2023 or ECO 2013.

AEB 3315 Futures Markets and Risk Management in Agriculture 3 Credits
Grading Scheme: Letter Grade
Basic elements and principles of agricultural commodity marketing with emphasis on the futures industry. Includes use of futures markets for speculating and risk management for agriculture and finance. Participation in a computerized futures trading game is required.

AEB 3341 Selling Strategically 3 Credits
Grading Scheme: Letter Grade
Introduces professional selling techniques for all products with special emphasis given to food and agricultural products, technical systems and services.

AEB 3450 Introduction to Natural Resource and Environmental Economics 3 Credits
Grading Scheme: Letter Grade
Introduces natural and environmental resource economics. Emphasizes understanding economic concepts such as resource scarcity, market failure, externality, property rights and common property resources and their application to studies of forest, land, water, energy and coastal resources.
Prerequisite: AEB 3103 or ECO 2023. Credit cannot be received for both AEB 3450 and ECP 3302.

AEB 3510 Quantitative Methods in Food and Resource Economics 3 Credits
Grading Scheme: Letter Grade
Develops understanding of finite mathematical tools used in economics and business decision making. Topics include linear equations, matrix algebra and calculus. Lectures and problems show how these tools are used to examine economic, financial and managerial problems.
Prerequisite: (AEB 3103 or ECO 2023) and (MAC 2233 or MAC 2311).

AEB 3550 Agricultural Data Analysis in Food and Resource Economics 3 Credits
Grading Scheme: Letter Grade
Introduces analysis of agricultural data. Incorporates statistical and agricultural economic theory into the analysis of agricultural problems. Knowledge in use of spreadsheets is assumed.
Prerequisite: AEB 3103 and AEB 3510 and STA 2023.

AEB 3671 Comparative World Agriculture 3 Credits
Grading Scheme: Letter Grade
Studies the business and economic situations of the food and agriculture sector around the world. Focuses on the historical development, the current situation and the future outlook of the food and agriculture sector. (N and S)
Attributes: General Education - International, General Education - Social Science

AEB 3935 Food and Resource Economics Seminar 1 Credit
Grading Scheme: Letter Grade
Introduces the Department of Food and Resource Economics and career opportunities for its graduates.

AEB 4085 Agricultural Risk Management and the Law 3 Credits
Grading Scheme: Letter Grade
Develops an understanding of the basic concepts of common and statutory law. Identifies and addresses current legal issues of importance at the personal and professional levels. Develops an understanding of risk and the solutions for managing risk and relates the concepts of risk management and law in limiting exposure to legal liability.

AEB 4123 Agricultural and Natural Resource Law 3 Credits
Grading Scheme: Letter Grade
Legal aspects of agricultural rights, responsibilities and problems. Topics include agricultural estate and income taxation, zoning and land use planning, Capper-Volstead Act, international agricultural agreements, agricultural labor and consumer protection.

AEB 4126 Agricultural and Natural Resource Ethics 3 Credits
Grading Scheme: Letter Grade
Examines the political, economic, environmental and ethical value issues involved in agricultural practices and policies, including agricultural research. (H or S) (WR)
Prerequisite: junior or senior standing.
Attributes: General Education - Humanities, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

AEB 4138 Advanced Agribusiness Management 3 Credits
Grading Scheme: Letter Grade
Integration of finance and management to solve problems faced by agricultural firms and agribusinesses. In addition to lectures, students will work in small groups to identify and to analyze case studies from agricultural and rural businesses.
Prerequisite: AEB 3103 and AEB 3144 and agribusiness major.

AEB 4242 International Trade Policy in Agriculture 3 Credits
Grading Scheme: Letter Grade
Explores the role of international trade policy in agriculture and examines the effects of trade policies on domestic and international prices, consumption, production, trade and government revenues. Addresses impact of current trade issues on the agricultural sector. (S)
Prerequisite: AEB 3103 or ECO 2023.
Attributes: General Education - Social Science

AEB 4282 International Humanitarian Assistance 3 Credits
Grading Scheme: Letter Grade
Emergency assistance to developing countries to minimize losses and affect recovery. Includes legal/ethical bases; program designs promoting recovery, rather than dependence; cultural issues, including gender; and technical aspects. (N and S)
Attributes: General Education - International, General Education - Social Science

AEB 4283 International Development Policy 3 Credits
Grading Scheme: Letter Grade
Studies how factors such as poverty, population, technology, resources, trade and the environment affect man's effort to develop. The roles of the public and private sectors are discussed as well as the process of policy formulation and implementation. Emphasizes the agricultural sector and its role in process of economic development, especially in countries where problems of hunger, demographic pressure and poverty are pervasive. (S)
Prerequisite: AEB 3103 or AEB 2014 or ECO 2013 or ECO 2023.
Attributes: General Education - Social Science

AEB 4306 Agricultural Marketing Strategies 2 3 Credits
Grading Scheme: Letter Grade
The strategic process of formulating and implementing marketing strategies unique to the agriculture industry.
Prerequisite: instructor permission.

AEB 4309 Food Wholesaling and Retail Marketing 3 Credits
Grading Scheme: Letter Grade
Food industry trends, issues and opportunities that exist in the U.S. and the world. Guest lecturers and recent trade publications provide students with a command of wholesaling and retail food management.

AEB 4325 Contemporary Issues in Agribusiness Management 3 Credits
Grading Scheme: Letter Grade
A capstone course utilizing economic concepts to address the interaction between the political process that legislates domestic agricultural, environmental and international trade policy, micro and macro economic principles, private business decisions taken by firms in response to public policies, and ethical considerations in developing and implementing public policy.
Corequisite: AEB 4138 or AEB 4342.

AEB 4334 Agricultural Price Analysis and Consumer Behavior 3 Credits
Grading Scheme: Letter Grade
Quantitative measurement of factors affecting agricultural and resource prices; seasonal and cyclical fluctuations; index measures of price and quantity variables; theory and application of consumer behavior principles.
Prerequisite: AEB 3103 and AEB 3550.

AEB 4342 Agribusiness and Food Marketing Management 3 Credits
Grading Scheme: Letter Grade
Application of marketing and management principles to agribusiness and food marketing problems faced by managers. Emphasis on case problems, group projects, oral presentations and written assignments.
Prerequisite: AEB 3133 and FRE major in the agribusiness specialization.

AEB 4343 International Agribusiness Marketing 3 Credits
Grading Scheme: Letter Grade
Problems, issues, regulations, policies and procedures unique to the global agribusiness marketing of perishable and storable agricultural commodities and food products. Combines firm-level agribusiness marketing concepts with international agribusiness marketing and export management applications. (S)
Prerequisite: AEB 3300.
Attributes: General Education - Social Science

AEB 4380 Agricultural Marketing Strategies 3 Credits
Grading Scheme: Letter Grade
The decision-making activities necessary to launch a new agricultural product successfully. The marketing plan development for this course follows the guidelines of the National Agri-Marketing Association Marketing Competition.
Prerequisite: instructor permission.

AEB 4424 Human Resources Management in Agribusiness 3 Credits
Grading Scheme: Letter Grade
Issues involved in the strategic and effective management of human resources in agribusiness. Human resource management concepts and techniques designed to improve agribusiness organizational teamwork, productivity, performance and enterprise success. Course explores the unique aspects of labor management and includes application through use of case problems, triad and video techniques.

AEB 4673 International Agricultural Trade 3 Credits
Grading Scheme: Letter Grade
Examines the economic forces associated with trade in food and agricultural products between the U.S. and other countries. Applies economics principles and analytical techniques to international agricultural trade and multi-national markets.
Prerequisite: AEB 3103 and AEB 3510.

AEB 4900 Supervised Extension Experience in Food and Resource Economics 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under faculty member supervision. Projects may involve program planning, development, implementation, and evaluation. (S-U)

AEB 4905 Special Problems in Food and Resource Economics 1-3 Credits
Grading Scheme: Letter Grade
Individual study in selected problem areas of interest to the student and agreeable to the instructor.
Prerequisite: instructor permission.

AEB 4911 Supervised Research in Food and Resource Economics 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in food and resource economics under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

AEB 4915 Honors Thesis Research in Food and Resource Economics 0-3 Credits
Grading Scheme: S/U
Independent research in food and resource economics leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

AEB 4931 Special Topics in Food and Resource Economics 1-3 Credits
Grading Scheme: Letter Grade
Lectures, conferences or laboratory covering specially selected topics in food and resource economics.
Prerequisite: instructor permission.

AEB 4941 Full-Time Practical Work Experience in Food and Resource Economics 1-3 Credits
Grading Scheme: S/U
Practical work must be a new experience and related to the field of study. (S-U)
Prerequisite: previous arrangement with advisor and undergraduate coordinator and dean permissions.

AEB 4951 Survey of Agricultural Economics 1 Credit
Grading Scheme: Letter Grade
Trains students to think on their feet with respect to topics in the agricultural economics discipline. While individual courses tend to focus on a particular set of skills, this course enhances the student's ability to access the range of skills they acquired in past courses.
Prerequisite: instructor permission.

ALS 4932 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Variable subjects provide content for the study of agricultural topics not offered in other courses.

Food Science and Human Nutrition

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

BCH 3025 Fundamentals of Biochemistry 4 Credits
Grading Scheme: Letter Grade
Introducing biochemistry with emphasis on intermediary metabolism.
Prerequisite: CHM 2200 and CHM 2200L (or preferably CHM 2210, CHM 2211 and CHM 2211L) with minimum grades of C.

DIE 3310 Community Nutrition 2 Credits
Grading Scheme: Letter Grade
Role of nutrition in promoting, maintaining and improving health in the community. Investigation of traditional aspects of the emerging health delivery systems, as well as entrepreneurial ventures in wellness. Study the financial, legislative, political, sociological, and scientific aspects of public and community health.
Prerequisite: (HUN 2201 and Dietetics major) or instructor permission.

DIE 4125 Food Systems Management 3 Credits
Grading Scheme: Letter Grade
The management of human resources, food, equipment and facilities to provide a quality product and service to customers in a food service operation.
Prerequisite: FOS 3042.

DIE 4125L Food Systems Management Laboratory 2 Credits
Grading Scheme: Letter Grade
The application of principles of food systems management, including purchasing, production, service, sanitation and safety.
Corequisite: DIE 4125; DIE majors only.

DIE 4245 Medical Nutrition Therapy Applications: Part 1 3 Credits
Grading Scheme: Letter Grade
Part one of a 2-semester sequence focusing on application of the nutrition care planning process. Includes development of nutrition assessment skills and formulation of nutrition care plans for simulated patients, including those requiring enternal and parenteral nutrition.
Prerequisite: HUN 2201 and Dietetics major.
Corequisite: HUN 4445 and (APK 2105C or PCB 4723C) and (BCH 3025 or BCH 4024).

DIE 4246 Medical Nutrition Therapy Applications: Part 2 3 Credits
Grading Scheme: Letter Grade
Part two of a 2-semester sequence that focuses on attainment of knowledge to make nutrition diagnoses, to develop and implement effective nutrition intervention strategies and to identify appropriate monitoring and evaluation plans for patients with common chronic diseases and disorders.
Prerequisite: HUN 4445 and DIE 4245 and (APK 2105C or PCB 4723C).
Corequisite: HUN 4446.

DIE 4436 Nutrition Counseling and Communication 2 Credits
Grading Scheme: Letter Grade
Application of principles of group dynamics and group and interpersonal counseling skills in dietetics practice settings. Provides hands-on experiences in counseling and in oral and written communication.
Prerequisite: HUN 2201 and HUN 3403 and Dietetic major.

DIE 4505 Dietetics Seminar 1 Credit
Grading Scheme: Letter Grade
Capstone course for dietetic majors; focuses on professional issues, including ethics, legislative issues, advocating and marketing the profession.
Prerequisite: Agricultural and Life Sciences senior and Dietetic major.

DIE 4543 Supervised Extension Experience in Dietetics 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in dietetics under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

DIE 4905 Problems in Dietetics 1-5 Credits
Grading Scheme: Letter Grade
Individual research work in various phases of dietetics.

DIE 4911 Supervised Research in Dietetics 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in dietetics under faculty member supervision. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

DIE 4915 Honors Thesis Research in Dietetics 0-3 Credits
Grading Scheme: S/U
Independent research in dietetics leading to an honors thesis. Student is mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

DIE 4934 Topics in Dietetics 1-3 Credits
Grading Scheme: Letter Grade
Lectures, conference, laboratory or clinical experience covering selected topics in dietetics.

FOS 2001 Man's Food 3 Credits
Grading Scheme: Letter Grade
Discussion of current nutrition and food science topics concerning nutritional quality and safety of foods as they relate to one's health. For science and non-science students. (B)
Attributes: General Education - Biological Science

FOS 3042 Introductory Food Science 3 Credits
Grading Scheme: Letter Grade
Commodities selected for human consumption and the methods used by food technologists to prolong shelf life, retard spoilage and ensure quality. Principles upon which the various processing methodologies are based. (B)
Attributes: General Education - Biological Science

FOS 4202 Food Safety and Sanitation 2 Credits
Grading Scheme: Letter Grade
Lectures, discussions, demonstrations and field trips concerning microbial, chemical and biological safety of food, principles of sanitation for the food processing, food service and retail food industries.
Prerequisite: MCB 2000 and MCB 2000L, or the equivalent.

FOS 4222 Food Microbiology 3-4 Credits
Grading Scheme: Letter Grade
Sources and types of biological contamination and its control during harvesting, processing and storage of foods; food fermentation; biotechnology sanitation; HACCP methods used to examine foods for microbial content.
Prerequisite: MCB 2000 or MCB 2010 or MCB 2013 or MCB 3020 or MCB 3023.

FOS 4222L Food Microbiology Laboratory 2 Credits
Grading Scheme: Letter Grade
Methods to enumerate microorganisms in foods.
Prerequisite: MCB 2000L or MCB 3020L; concurrent or previous registration in FOS 4222.

FOS 4310L Experimental Foods Laboratory 1 Credit
Grading Scheme: Letter Grade
Demonstrations and illustrations of the chemical and physical properties of foods. Shows the effects of processing, ingredients and storage on food quality and nutrient retention.
Corequisite: FOS 4311.

FOS 4311 Food Chemistry 3 Credits
Grading Scheme: Letter Grade
Relationship of composition to the properties of foods and the changes which occur during processing, storage and utilization.
Prerequisite: CHM 2200 or (CHM 2210 and CHM 2211).
Corequisite: FOS 4310L or FOS 4311L; biochemistry recommended but not required.

FOS 4311L Food Chemistry Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory covering the relationship of composition to the properties of foods and the changes which occur during processing, storage and utilization.
Prerequisite: CHM 2200L or CHM 2211L;
Corequisite: FOS 4311.

FOS 4318 Flavor Chemistry 3 Credits
Grading Scheme: Letter Grade
Learn how flavor chemicals impact sensory perception of food; discuss flavor compounds used in foods, their production, isolation, analysis, and specific attributes.
Prerequisite: (CHM 2045 and CHM 2046) and CHM 2200 or (CHM 2210 and CHM 2211), all with grades of C.

FOS 4321C Food Analysis 4 Credits
Grading Scheme: Letter Grade
Principles and practice of physical and chemical methods for analyzing foods. (P)
Prerequisite: (CHM 2200 and CHM 2200L) or (CHM 2210 and CHM 2211 and CHM 2211L).
Attributes: General Education - Physical Science

FOS 4427C Principles of Food Processing 4 Credits
Grading Scheme: Letter Grade
Principles of processing foods: cooling, freezing, heating, dehydrating, concentrating, irradiating, fermenting and the use of chemicals.
Prerequisite: AOM 4062 or FOS 4222 or FOS 4311.

FOS 4435C Food Product Development 3 Credits
Grading Scheme: Letter Grade
Capstone course integrating food science and related disciplines to value-added food products using traditional and novel commodity, ingredient and process combinations. Class projects emphasize technology, safety, health/nutrition, legal, quality and economic/marketing considerations.
Prerequisite: 4AG - FOS majors only.

FOS 4522C Seafood Technology 3 Credits
Grading Scheme: Letter Grade
Processing principles and methods of preparation of various seafood products and control of product quality.
Prerequisite: CHM 2045.

FOS 4722C Quality Control in Food Systems 3 Credits
Grading Scheme: Letter Grade
Measurement and control of the major quality parameters of foods, including sensory, color and texture.
Prerequisite: STA 2023.

FOS 4731 Government Regulations and the Food Industry 2 Credits
Grading Scheme: Letter Grade
Government laws regulating food wholesomeness; food handling, processing and distribution under sanitary conditions; food ingredients and labeling of food products.
Prerequisite: FOS 3042 or Food Science major or instructor permission.

FOS 4905 Special Problems in Food Science 1-5 Credits
Grading Scheme: Letter Grade
Individual research work in various phases of food science.

FOS 4906 Supervised Extension Experience in Food Science 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

FOS 4911 Supervised Research in Food Science 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in food science under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

FOS 4915 Honors Thesis Research in Food Science 0-3 Credits
Grading Scheme: S/U
Independent research in food science leading to an honors thesis. Student is mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

FOS 4936 Topics in Food Science 1-3 Credits
Grading Scheme: Letter Grade
Lectures, conferences or laboratory covering specially selected topics in food science.

FOS 4941 Full-Time Practical Work Experience in Food Science 1-3 Credits
Grading Scheme: S/U
One-term employment in industry, including extra work according to a pre-approved outline. Practical work under industrial supervision as set forth in College of Agricultural and Life Sciences regulations. (S-U)
Prerequisite: previous arrangement with advisor and department permission; FSHN majors only.

HUN 2201 Fundamentals of Human Nutrition 3 Credits
Grading Scheme: Letter Grade
The properties, functions, requirements, interrelationships and metabolism of nutrients. (B)
Prerequisite: BSC 2007 or BSC 2005 or BSC 2010 or CHM 1025 or CHM 2045 or APK 2100C or APK 2105C or CHM 1030.
Attributes: General Education - Biological Science

HUN 3403 Nutrition through the Life Cycle 2 Credits
Grading Scheme: Letter Grade
Nutritional needs and concerns throughout stages of the life cycle including pregnancy and lactation, infancy, adolescence, adulthood, and aging; socioeconomic, cultural and psychological influences on food and nutrition behavior.
Prerequisite: HUN 2201.

HUN 4221 Nutrition and Metabolism 3 Credits
Grading Scheme: Letter Grade
Metabolic relationships of nutrients with emphasis upon their functions in biochemical and physiological processes as well as variations in requirements in response to stress. Meets requirements of the American Dietetic Association.
Prerequisite: (BCH 3025 or BCH 4024) and (PCB 4723C or APK 2105C) and (HUN 3403 and HUN 4445).

HUN 4445 Nutrition and Disease: Part 1 2 Credits
Grading Scheme: Letter Grade
Part one of a two-semester sequence that focuses on the biochemical and pathophysiological bases of disease/conditions that require specialized nutrition support/medical nutrition therapy.
Prerequisite: HUN 2201 and CHM 2211;
Corequisite: APK 2105C or PCB 4723C, BCH 3025 or BCH 4024.

HUN 4446 Nutrition and Disease: Part 2 3 Credits
Grading Scheme: Letter Grade
Part two of the sequence that focuses on the biochemical and pathophysiological bases of disease/conditions that require specialized nutrition support/medical nutrition therapy.
Prerequisite: HUN 4445 and (BCH 3025 or BCH 4024) and (PCB 4723C or APK 2105C).
Corequisite: DIE 4246.

HUN 4813C Laboratory Techniques in Molecular Nutrition 3 Credits
Grading Scheme: Letter Grade
Laboratory techniques relevant to the study of nutrition, ranging from biochemistry, molecular biology, genomics and bioinformatics.
Prerequisite: CHM 2211 and CHM 2211L;
Corequisite: BCH 3025 or BCH 4024.

HUN 4903 Supervised Extension Experience in Nutritional Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

HUN 4905 Special Problems in Human Nutrition 1-5 Credits
Grading Scheme: Letter Grade
Individual research work in various phases of nutrition.

HUN 4911 Supervised Research in Nutritional Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in nutritional sciences under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

HUN 4915 Honors Thesis Research in Nutritional Sciences 0-3 Credits
Grading Scheme: S/U
Independent research in nutritional sciences leading to an honors thesis. Student is mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

HUN 4936 Topics in Human Nutrition 1-3 Credits
Grading Scheme: Letter Grade
Lectures or laboratory covering selected topics in human nutrition.
Prerequisite: instructor permission.

HUN 4941 Full Time Practical Work Experience in Human Nutrition 1-3 Credits
Grading Scheme: S/U
One-term employment in industry or the health field according to a pre-approved outline. Practical work under supervision as set forth in College of Agricultural and Life Sciences regulations. (S-U)
Prerequisite: previous arrangement with advisor and department permission; FSHN majors only.

Forest Resources and Conservation

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

FNR 3131C Dendrology/Forest Plants 3 Credits
Grading Scheme: Letter Grade
Provides a basic understanding of the classification, nomenclature, morphology, ecological relationships, associations and uses of the major forest tree and shrub species of North America.
Prerequisite: refer to the department.

FNR 3410C Natural Resource Sampling 3 Credits
Grading Scheme: Letter Grade
Basic concepts of sampling. Design of cost-effective sample surveys. Sampling methodology applicable to natural resources: simple random, stratified, systematic, multi-phase and multi-stage. Cluster sampling, ratio, regression and difference estimation. Line transects. Computer simulation of sampling methods. Introduces remote sensing, geographic information and global positioning systems.
Prerequisite: STA 2023.

FNR 4070C Environmental Education Program Development 3 Credits
Grading Scheme: Letter Grade
Applies a comprehensive approach to program development, from needs assessment to evaluation, to non-formal environmental opportunities. Analyzes existing and developing programs and emphasizes the role of participation and indicators in meeting environmental objectives. Requires field trips.
Prerequisite: junior standing or higher.

FNR 4343C Forest Water Resources 3 Credits
Grading Scheme: Letter Grade
Watershed hydrology, balances and models. Water quality parameters, processes and loading. Ecosystem and watershed functions. Watershed resources management.
Prerequisite: SWS 3022 and SWS 3022L, or the equivalent.

FNR 4345 Models for Water Resources 1 Credit
Grading Scheme: Letter Grade
Examination of stand and watershed hydrologic models, model development, calibration, scenario testing and interaction with actual hydrologic models.
Corequisite: FNR 4343C.

FNR 4461 Spatial Models and Decision Analysis 3 Credits
Grading Scheme: Letter Grade
Concepts and applications of environmental modeling in a spatial context using descriptive and prescriptive tools and spatial reasoning.
Prerequisite: FOR 3434C or the equivalent, basic statistics or instructor permission.

FNR 4623C Integrated Natural Resource Management 3 Credits
Grading Scheme: Letter Grade
An integrative approach to the study of forest resource management for the production of multiple products, such as timber, recreation, wildlife, rangeland, utilizing the case study approach.
Prerequisite: refer to the department.

FNR 4624C Field Operations for Management of Ecosystems 3 Credits
Grading Scheme: Letter Grade
Covers the common operations utilized by natural resource managers to manipulate ecosystems to reach a goal (commodity production, ecological enhancement, aesthetics, recreational opportunities, etc.). Addresses the use of heavy machinery, herbicides and prescribed fire; and the regulations, contracting markets and safety concerns governing each.
Prerequisite: FOR 3153C and FNR 3410C or WIS 4954C or FOR 3162C.

FNR 4660 Natural Resource Policy and Economics 3 Credits
Grading Scheme: Letter Grade
Factors in evolution of forest, range, and wildlife natural resources administration and policies in the United States; policy components; policy formation implementation, change processes; and economic criteria for evaluating the effectiveness of policies.
Prerequisite: junior standing or higher.

FOR 2662 Forests for the Future 3 Credits
Grading Scheme: Letter Grade
Examines current environmental issues that impact individual, community and institutional decisions about North American forest resources. Each issue is reviewed with a framework that uses human behavior, policy options and media messages. Students are expected to understand the issues and to discuss and analyze the major social and ecological variables affecting each issue. (S) (WR)
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

FOR 3004 Forests, Conservation and People 3 Credits
Grading Scheme: Letter Grade
A general background course for non-FRC students interested in management, use and conservation of forest resources. Topics include resource description, historical perspectives, current issues, forest biology and management principles. (B)
Attributes: General Education - Biological Science

FOR 3153C Forest Ecology 3 Credits
Grading Scheme: Letter Grade
Ecological principles and their application to the management of forests; major sections include tree population, forest community dynamics and ecosystem processes. (B)
Attributes: General Education - Biological Science

FOR 3162C Silviculture 4 Credits
Grading Scheme: Letter Grade
Principles governing establishment, treatment and control of forest stands; natural and artificial regeneration systems; intermediate cuttings and cultural operations.
Prerequisite: FOR 3153C.

FOR 3200C Foundations of Natural Resources and Conservation 3 Credits
Grading Scheme: Letter Grade
Overview of current and historical views of forest conservation, utilization and policy; principles of forest biology, ecology, Silviculture and management relevant to future courses and careers; basic field research, communications and computer skills.
Prerequisite: 3FY or instructor permission.

FOR 3202 Society and Natural Resources 3 Credits
Grading Scheme: Letter Grade
Local-to-global and individual-to-institutional perspectives on natural resource values, sustainability, diversity, and social change with consideration of potential paths for working with complex human and natural resource systems. (S)
Attributes: General Education - Social Science

FOR 3214 Fire Ecology and Management 2 Credits
Grading Scheme: Letter Grade
Detailed study of the role, occurrence and function of wildland fires in natural ecosystems and the use of prescribed burning to simulate those functions. Key topics include factors that influence natural fires, effects of fires on the environment, management and control of wildfires, and the use of prescribed burning. Students will plan and conduct several prescribed burns.
Prerequisite: FOR 3153C or PCB 3034C or PCB 4043C, or the equivalent.

FOR 3214L Fire Ecology and Management Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory to assess, design and participate in the application of prescribed fire in forest ecosystem research and management.
Corequisite: FOR 3214 encouraged strongly.

FOR 3342C Tree Biology 3 Credits
Grading Scheme: Letter Grade
Studies tree structure and function with relationships to forest environments and forestry practices.
Prerequisite: BOT 2010C or BSC 2011.

FOR 3430C Forest Mensuration 3 Credits
Grading Scheme: Letter Grade
Forest resource measurements, log and tree content estimation, forest inventory techniques, and stand growth and yield.
Prerequisite: FNR 3410C or the equivalent.

FOR 3434C Forest Resources Information Systems 3 Credits
Grading Scheme: Letter Grade
Introduces the concepts, principles and applications of geographic information systems, remote sensing and global positioning systems that emphasize applications in forest resource management.

FOR 4020 Seminar in Contemporary Issues in Forest Resources and Conservation 1 Credit
Grading Scheme: Letter Grade
Seminar using the study of contemporary issues in forest resources and conservation to build critical thinking and communication, leadership, presentation, and interview skills.
Prerequisite: 4FY status or instructor permission.

FOR 4060 Global Forests 3 Credits
Grading Scheme: Letter Grade
Overview of important international issues and developments related to forest resource use and tree management systems in a wide variety of contexts.
Prerequisite: 4FY or higher.

FOR 4090C Urban Forestry 3 Credits
Grading Scheme: Letter Grade
Introduces the nature, scope and components of the urban forest, including biology, culture, protection and aspects of management, planning and policy.
Prerequisite: 4FY or higher.

FOR 4110 Ecology and Restoration of Longleaf Pine Ecosystems 3 Credits
Grading Scheme: Letter Grade
History, structure, importance, ecology, restoration and management techniques, ownership patterns and policy implications.
Prerequisite: FOR 3153C or PCB 3034C or PCB 4043C, or the equivalent.

FOR 4621 Forest Economics and Management 4 Credits
Grading Scheme: Letter Grade
Principles of forest management for timber, non-timber and timberland valuation: decision analysis, management plans, forest regulation and harvest scheduling.
Prerequisite: FOR 3162C and ECO 2023, or the equivalents.

FOR 4624C Forest Health Management 3 Credits
Grading Scheme: Letter Grade
Integrated, tree- and forest-oriented study of forest health emphasizing the ecological and economic roles of the biotic agents and abiotic factors that incite dysfunction and the biological and ecological basis for the maintenance of forest health through integrated management of these agents and the forest.
Prerequisite: 4 FY or higher.

FOR 4664 Sustainable Ecotourism Development 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary and applicable study of the tools and techniques managers and planners use to provide sustainable ecotourism opportunities in Florida and worldwide. Topics include integrating ecotourism with other resource uses, landscape level ecotourism planning, sustainable community development, minimizing and monitoring ecotourism impacts, and creating a diversity of ecotourism opportunities.

FOR 4854 Agroforestry 3 Credits
Grading Scheme: Letter Grade
Concepts and principles of agroforestry, including its complexity and diversity, improved agroforestry techniques in temperate and tropical zones, recent research problems and methodologies of agroforestry research, and the potentials of agroforestry in land management and development.
Prerequisite: 4FY or 4AG.

FOR 4900 Supervised Extension Experience in Forest Resources and Conservation 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

FOR 4905 Individual Study in Natural Resources 1-4 Credits
Grading Scheme: Letter Grade
Individual study of a selected topic related to forest resources and conservation as contracted with the instructor at the start of the term.

FOR 4911 Supervised Research in Forest Resources and Conservation 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in forest resources and conservation under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

FOR 4915 Honors Thesis Research 0-3 Credits
Grading Scheme: S/U

FOR 4934 Topics in Natural Resources 1-4 Credits
Grading Scheme: Letter Grade
Topics in forestry, wood science, range, recreation, wildlife and fisheries. Topics include special issues and in-depth study of topics not in other courses.

FOR 4941 Internship in Natural Resources 1-4 Credits
Grading Scheme: S/U
Supervision by a faculty member and a post-internship report are required. (S-U)
Prerequisite: undergraduate coordinator permission.

French | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

FRE 1130 Beginning French 1 5 Credits
Grading Scheme: Letter Grade
Beginning French 1 and Beginning French 2 constitute the basic sequence in French for the development of overall skill in the language. Open to those with little or no background in French.

FRE 1131 Beginning French 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the basic sequence in French for the development of overall skill in the language. Open to those with little or no background in French.
Prerequisite: FRE 1130 or FRE 1180 with minimum grade of C, or S, or the equivalent as proven by placement test score.

FRE 1134 Accelerated French Review 5 Credits
Grading Scheme: Letter Grade
Provides a rapid review of basic communicative French as preparation for intermediate French. For those with previous French study but insufficient placement scores to move to the 2000 level.
Prerequisite: Two years of high school French or equivalent.

FRE 1180 Elementary French: Review and Progress 3 Credits
Grading Scheme: Letter Grade
For those who have previous experience in French but who are not yet prepared for advanced elementary work in the language. FRE 1180 confirms overall language skill in preparation for FRE 1131.

FRE 1182 Preparation for Intermediate French 3 Credits
Grading Scheme: Letter Grade
Alternative to FRE 1131 for those who have had four years of high school French or equivalent, but whose placement scores are not high enough for FRE 2200. Combines the material of FRE 1130 and 1131 in one semester. Meets three times per week. FRE 2200 follows in the sequence.
Prerequisite: not for those with credit for FRE 1180 or FRE 1115.

FRE 2220 Intermediate French 1 4 Credits
Grading Scheme: Letter Grade
Devoted to grammar review and composition as well as to the advancement of spoken proficiency, FRE 2220 and its sequel, FRE 2221, develop reading and writing skills in French.
Prerequisite: FRE 1131 or FRE 1134 or FRE 1182.

FRE 2221 Intermediate French 2 4 Credits
Grading Scheme: Letter Grade
Continued grammar review. Emphasizes practice in reading and developing vocabulary. Selected readings in French and Francophone fiction.
Prerequisite: FRE 2220.

FRE 2274 Intensive French Abroad 6 Credits
Grading Scheme: Letter Grade
An immersion language course integrating the experience, observations and impressions of students living abroad with a French family (site announced annually). Emphasis on development of language proficiency and cultural awareness. Class meets 12 hours a week. Enhances speaking, reading, writing proficiency and the ability to communicate with native speakers.
Prerequisite: FRE 1131 with minimum grade of C, or S, or the equivalent as proven by placement test score.

FRE 3070 Accelerated Introduction to French 5 Credits
Grading Scheme: Letter Grade
An accelerated introduction to French. Assumes no previous knowledge of French. Offers a four-skill introduction to the language for those who have completed intermediate level study in another Romance language.

FRE 3224 Applied French 1-5 Credits
Grading Scheme: Letter Grade
French-language reading and discussion section designed to accompany and complement areas of diverse content offered in other departments. Readings and discussions are in French to develop specific vocabulary and fluency related to the content of the companion course, as well as to provide an international perspective on the issues of the main course. (N)
Prerequisite: FRE 2242 or instructor permission; 3 credits can count toward the major or minor.
Attributes: General Education - International

FRE 3300 Grammar and Composition 3 Credits
Grading Scheme: Letter Grade
Systematic examination of French grammar. Practice of writing at several levels (summary of texts, descriptions, compositions). Textual analysis of literary and journalistic materials. First course of major sequence.
Prerequisite: FRE 2274 or AP score of 5, IB score of 6 or SAT2 score of 700 and above.

FRE 3320 Composition and Stylistics 3 Credits
Grading Scheme: Letter Grade
Develops advanced writing skills through the stylistic study of literary and journalistic texts. Writing assignments focus on development of a variety of skills, including summaries, literary analyses, argumentative essays, etc. Aspects of French grammar are highlighted along with analytical terms and key vocabulary from texts.
Prerequisite: FRE 3300 or the equivalent.

FRE 3410 French Conversation and Interaction 3 Credits
Grading Scheme: Letter Grade
Develops and refines oral and comprehension skills relating to different domains. New vocabulary ranging from the colloquial to the most refined of discourses enables students to recognize and use words and expressions in the proper context; material enables students to move from discussions about themselves to situations they are likely to encounter in daily life abroad, through interviewing techniques and professional interaction.
Prerequisite: FRE 2221.

FRE 3440 Commercial French 3 Credits
Grading Scheme: Letter Grade
Introduction to business practices in France with particular emphasis on active use of business vocabulary and salient cultural differences. Major topics include written business communication, financial institutions, trade and advertising. (S and N)
Prerequisite: FRE 2221 or the equivalent.
Attributes: General Education - International, General Education - Social Science

FRE 3442 Contemporary French Commerce 3 Credits
Grading Scheme: Letter Grade
Continues the acquisition of business language with special attention paid to technical readings, marketing, case studies and the role of France in the European Union. Emphasis is also placed on oral communication skills and contrasting U.S. and French business culture.
Prerequisite: FRE 3300 or instructor permission.

FRE 3500 France through the Ages 3 Credits
Grading Scheme: Letter Grade
A study of France within context of the principal historical events that have formed and transformed the nation state, its mentality and its cultural production. Special attention is given to the significant political, intellectual, religious, social and artistic currents that have marked France and its image from ancient times to the present. (H and N)
Prerequisite: FRE 2221 or the equivalent.
Attributes: General Education - Humanities, General Education - International

FRE 3502 Francophone Cultures 3 Credits
Grading Scheme: Letter Grade
A study of the cultures of countries or regions where French is used as the (or one of the) official language(s) or, in a less official capacity, by a segment of the population. Study of some of the historical, conceptual, practical and problematic aspects of Francophonie. Also concentrates on one specific area (the Caribbean or West Africa or Quebec, etc., on a rotating basis). Literary samples are included. (H and N)
Prerequisite: FRE 2221 or the equivalent.
Attributes: General Education - Humanities, General Education - International

FRE 3564 Contemporary French Culture 3 Credits
Grading Scheme: Letter Grade
An overview of contemporary France that may include the study of politics, economics, education and the arts as well as ideas of national and ethnic identity and France's place in the EU. (H and N)
Prerequisite: FRE 2221 or the equivalent.
Attributes: General Education - Humanities, General Education - International

FRE 3780L Corrective Phonetics 3 Credits
Grading Scheme: Letter Grade
A survey of the units of speech cast in practical terms and organized by classes of sounds with particular emphasis on rhythm, vowels, nasalization, diphthongs and the complex phenomena that occur at word transitions in French. Taught in French, in an audio laboratory, with the instructor as monitor and with a manual designed for individualized instruction.
Prerequisite: FRE 2221 or the equivalent.

FRE 4411 French for Proficiency 2 Credits
Grading Scheme: Letter Grade
Oral practice with emphasis on the structure of oral communication and oral presentation. Learn to utilize organizational frames, highlight transitions and make oral reports clear and accessible. Speech acts and alternative options in communication are given ample attention. Especially useful to those planning to use French in a variety of professions.
Prerequisite: FRE 3410 or the equivalent.

FRE 4420 Writing in French 3 Credits
Grading Scheme: Letter Grade
Advanced writing course that provides a systematic study (or review) of French syntax, vocabulary and style with the help of drill sessions. Also may include some training in literary translation. A number of quizzes and written compositions.
Prerequisite: FRE 3320 or instructor permission.

FRE 4501 The French Language in the Americas 3 Credits
Grading Scheme: Letter Grade
Examination of the presence of French in the Americas. Topics covered include: the origin of French in the Americas, language practices of Francophone communities, linguistic characteristics of the varieties of French, the effect of language contact on language behavior and representations and identity issues. Focus varies from year to year.
Prerequisite: FRE 3320.

FRE 4780 Introduction to French Phonetics and Phonology 3 Credits
Grading Scheme: Letter Grade
An introduction to French phonological processes, providing explanatory evidence for the production of speech sounds, for the classification of sounds, for their interrelationship with one another (gliding, nasalization, assimilation), for morphological and syllable structure, for specifically French phenomena such as liaison, elision, final consonant drop, schwa drop, and for the relationship of morphology to phonology, especially in the verb system.
Prerequisite: FRE 3320; LIN 3010 recommended.

FRE 4822 Sociolinguistics of French 3 Credits
Grading Scheme: Letter Grade
Sociolinguistic issues in the French-speaking world: language variation, discourse analysis, attitudes toward varieties of French and contact with speakers of other languages.
Prerequisite: FRE 3320; LIN 3010 recommended.

FRE 4850 Introduction to the Structure of French 3 Credits
Grading Scheme: Letter Grade
Explores the French language as a system of communication and mental representation. Analyzes the morphological, syntactic and semantic aspects of contemporary French, and emphasizes the historical, psychological and sociological dimension of linguistic investigation.
Prerequisite: FRE 3320; LIN 3010 recommended.

FRE 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
For advanced major and minors who seek independent work not offered in another course. Must be arranged individually with French faculty.
Prerequisite: department permission; only three credits can count toward the minor or major.

FRE 4906 Honors Thesis 1-3 Credits
Grading Scheme: Letter Grade
Directed research leading to a 30-40 page essay on a topic approved by the thesis director; registration for two semesters is highly recommended. Not a substitute for a required course in the French major.
Prerequisite: 3.5 minimum GPA.

FRE 4911 Undergraduate Research in Language or Linguistics 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Language or Linguistics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Language or Linguistics.

FRE 4930 Revolving Topics in French Studies 1-5 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in French studies.
Prerequisite: FRE 3320 and FRW 3100 or FRE 3101, or the equivalent.

FRE 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

FRT 2460 French Texts and Contexts 3 Credits
Grading Scheme: Letter Grade
Selected readings in English translation of major works of French literature. For those with no knowledge of French, not for credit in the major. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

FRT 2930 Special Topics in French Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Rotating topics in French literature and culture; taught in English.

FRT 3004 Monuments and Masterpieces of France 3 Credits
Grading Scheme: Letter Grade
Study of selected masterpieces of French literature, in English translation. Works to be considered as they relate to history and as they can be read in strictly literary terms. Topic varies from year to year.
Prerequisite: sophomore standing or higher.

FRT 3520 French Cinema 4-8 Credits
Grading Scheme: Letter Grade
Critical, theoretical and historical study of French cinema. Topics will be announced. Content may include key directors, 1930s cinema, nostalgia and masculinity in 1980s films, World War II cinema, and Colonial and Postcolonial cinema. Open to French majors and non-majors and is taught in English. (H and N)
Attributes: General Education - Humanities, General Education - International

FRT 3561 Women in French Literature and/or Cinema 3-4 Credits
Grading Scheme: Letter Grade
Introduction to the rich heritage of feminist traditions in France and Francophone countries through an exploration of women writers and thinkers (filmmakers, theorists), primarily of the 19th and 20th centuries. Selected topics include L'criture fminine (Writing the Feminine), autobiographical writing by French and Francophone women, women in French cinema and representations of women in French film and literature. Read, discuss and analyze a broad spectrum of primary and secondary sources from a feminist viewpoint. (H and N OR S and N)
Attributes: General Education - Humanities, General Education - International, General Education - Social Science

FRT 4523 European Identities, European Cinemas 4 Credits
Grading Scheme: Letter Grade
Provides knowledge of different cultures, languages and identities that make up contemporary European cinemas.

FRT 4911 Undergraduate Research in English Translation 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in English Translation. Projects may involve inquiry, design, investigation, scholarship, discovery or application in English Translation.

FRT 4956 Overseas Studies 3 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

FRW 3100 Introduction to French Literature 1 3 Credits
Grading Scheme: Letter Grade
Overview of French Medieval, Renaissance and classical literature and culture, with major literary, intellectual and historical trends through study of representative works from each period. Emphasizes close reading of texts to train students to read critically and to familiarize them with major authors, genres and interpretations. (H and N)
Prerequisite: FRE 2221 or the equivalent.
Attributes: General Education - Humanities, General Education - International

FRW 3101 Introduction to French Literature 2 3 Credits
Grading Scheme: Letter Grade
Selected readings of outstanding authors of prose fiction, poetry and theatre from the 18th to the 20th century. Provides the historical context for major literary movements and authors, and trains students to read and write critically. Generally organized thematically. (H and N)
Prerequisite: FRE 2221 or the equivalent.
Attributes: General Education - Humanities, General Education - International

FRW 3930 Rotating Topics in French and Francophone Literature 3 Credits
Grading Scheme: Letter Grade
Selected topics in French literature.
Prerequisite: FRE 3320 or instructor permission.

FRW 4212 Readings in 17th Century French Prose 3 Credits
Grading Scheme: Letter Grade
Selected readings with an emphasis on the history of ideas, the moralistes and culture in the early modern period. Texts include Descartes, Cyrano de Bergerac, Pascal, Fontenelle, La Rochefoucauld, La Fayette, La Bruyre and Svign.
Prerequisite: FRE 3320 and (FRW 3100 or FRW 3101), or the equivalent.

FRW 4273 Readings in 18th Century French Literature 3 Credits
Grading Scheme: Letter Grade
Rotating topics exploring the fiction, theatre or intellectual prose of the Enlightenment. Special emphasis placed on the cultural climate and productions of the ancient regime.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4281 Readings in the 20th Century French Novel 3 Credits
Grading Scheme: Letter Grade
Examination of representative novels in 20th century French literature from Proust to the New Novel and beyond. Emphasis may include study of genre, narrative techniques, literary modernism and major themes. Combines an historical approach with close textual readings. Authors frequently studied include Proust, Gide, Malraux, Cline, Camus, Sartre, Robbe-Grillet, Butor, Sarraute and Duras.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4310 Seventeenth Century French Drama 3 Credits
Grading Scheme: Letter Grade
Theory and practice of dramaturgy in the classical period as reflected in plays of Corneille, Molire and Racine. Close textual analysis to disengage aesthetic and ideological problematics posed by each play.

FRW 4324 Readings in 20th Century French Theatre 3 Credits
Grading Scheme: Letter Grade
A study of selected plays (by Jarry, Claudel, Giraudoux, Camus, Anouilh, Ghelderode, Beckett, Ionesco, Genet, etc.), dramatic techniques and the evolution of modern French theatre as a genre.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4350 Modern French Poetry from Baudelaire to the Present 3 Credits
Grading Scheme: Letter Grade
Combines an historical approach with close readings of poetic texts; also introduces a number of theoretical and critical writings. Although traditional poetic texts are studied, the works of less frequently taught poets are also presented.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4391 Concepts of French Cinema 4 Credits
Grading Scheme: Letter Grade
A critical and historical study of the representation of gender and ethnicity in French cinema.
Prerequisite: FRE 3300.

FRW 4532 Survey of French Romantic Literature 3 Credits
Grading Scheme: Letter Grade
A rotating topics tracing the development and the main tenets of 19th century French Romanticism. Concentrates on various themes and genres, including poetry, theater and the novel as well as the socioeconomic and cultural matrices that fostered the movement. Emphasizes the relationship between literature and the visual arts, constructions of gendered, cultural and artistic subjectivities, exoticism (spatial, temporal and mystical voyages) and representations of Paris and French society. Beginning with pre-Romantic authors, moves on to Lamartine, Stendhal, Hugo, Vigny, Balzac, Sand, Musset, Desbordes-Valmore, Nerval and Baudelaire.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4552 Introduction to Realism and Naturalism 3 Credits
Grading Scheme: Letter Grade
Rotating topics trace the development and the main tenets of latter 19th century literary, artistic and cultural productions. Concentrates on various themes and genres, including poetry, theatre and the novel as well as the socioeconomic and cultural matrices that fostered movements arising between 1850 and the fin de sicle. Specific attention may be devoted to definitions of Realism, Naturalism and Symbolism; representations of modern life and the industrialization of the literary market; the infiltration of scientific and mechanistic thought into literary productions (poetry or prose); and representations of women and the female body, of Paris and Parisian society.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4762 Readings in Francophone Literatures and Cultures (excluding the Caribbean and Sub-Saharan Africa) 3 Credits
Grading Scheme: Letter Grade
Rotating topics in the literatures and cultures of the Francophone world, including North America (Quebec), Europe (Belgium, Switzerland and regional France), Asia (Vietnam, Indian Ocean) and the Middle East.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4770 African and Caribbean Literatures 3 Credits
Grading Scheme: Letter Grade
The production of Sub-Saharan African writers from its inception to the present through examination of representative works and figures, genres (epics, poetry, drama, novels), discourses and critics that inform the productions. Particular attention is paid to historical, political and cultural issues that figure in the development and orientation of African literature in French. Occasional inclusion of Caribbean literature for purpose of comparison.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4822 Introduction to French Critical Theory 3 Credits
Grading Scheme: Letter Grade
Review and comparative analysis of approaches to literature from Romanticism to Deconstructionism. Reading and writing are examined through the eyes of Sainte-Beuve, Taine, Lanson, Bachelard, the Geneva School, Ricoeur, Bataille, Blanchot, Barthes, Foucault, Genette, Lacan, Kristeva, Todorov, Derrida and others.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4911 Undergraduate Research in Target Language 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Target Language. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Target Language.

FRW 4932 Senior Seminar in French Literature 3 Credits
Grading Scheme: Letter Grade
Rotating topics for French majors and minors in the senior year. Topics rotate given research interests or field of specialization of the teaching faculty. Recent topics have included La Posie du Voyage; L'Ecriture Fminine; Le Discontinu chez La Rochefoucauld et La Bruyre; Charles Baudelaire: pote/critique de la vie moderne; Qu'est-ce que la Rvolte?
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101.

Geography

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

GEA 1000 Geography for a Changing World 3 Credits
Grading Scheme: Letter Grade
The spatial organization of society. Emphasizes the political regions of the world. (S and N)
Attributes: General Education - International, General Education - Social Science

GEA 2270 Geography of Florida 3 Credits
Grading Scheme: Letter Grade
Geographic conditions and human adjustments in the major regions in Florida. The natural environment, population, routes of communication, industries, resources and strategic location in their geographical and historical aspects. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

GEA 3405 Geography of Latin America 3 Credits
Grading Scheme: Letter Grade
Examines the interconnecting land, life and welfare throughout Latin America. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

GEA 3500 Geography of Europe 3 Credits
Grading Scheme: Letter Grade
Comprehensive and systematic survey of the population, natural resources, geographic regions and potentialities of Europe and the significance of this region in the economic and political affairs of the world. (N and S)
Attributes: General Education - International, General Education - Social Science

GEA 3600 Geography of Africa 3 Credits
Grading Scheme: Letter Grade
Comprehensive and systematic survey of the population, natural resources, geographic regions and potentialities of Africa and the significance of this region in the economic and political affairs of the world. (S and N) (WR)
Attributes: General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

GEA 4465 Amazonia 3 Credits
Grading Scheme: Letter Grade
The biophysical basis of natural resource management, cultural diversity and economic development in Amazonia. Appreciating the complexity and variability of soils, vegetation, aquatic ecosystems and climate in the region offers clues for understanding human settlement and development as well as the potential and limitations of the rich natural resource base. (S and N)
Attributes: General Education - International, General Education - Social Science

GEA 4911 Undergraduate Research in Regional Geography 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Regional Geography. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Regional Geography.

GEO 2006 Natural Hazards Geography 3 Credits
Grading Scheme: Letter Grade
Examines global weather, climate, and geophysical hazard events through geographic lens of human-environment interactions to understand how disasters emerge not only due to extreme events but from complex social, cultural, psychological, political, and economic forces. Discusses historical, recent, and ongoing hazard events to connect theory to individual and shared experiences.

GEO 2200 Physical Geography 3 Credits
Grading Scheme: Letter Grade
Studies the development and distribution of landforms, climates, minerals, soils and water resources. Interrelationships among the physical environment and regional patterns formed by these elements are analyzed against man's utilization of them. (P)
Attributes: General Education - Physical Science

GEO 2200L Physical Geography Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory in physical geography, for lab science credit. (P)
Corequisite: GEO 2200 or GEO 2201.
Attributes: General Education - Physical Science

GEO 2242 Extreme Weather 3 Credits
Grading Scheme: Letter Grade
Introduces the science of weather (what we get short term) and climate (what we expect long term) and current scientific developments in such areas as extreme weather prediction, global climate change and improved forecasting of events. (P)
Attributes: General Education - Physical Science

GEO 2410 Social Geography 3 Credits
Grading Scheme: Letter Grade
Introduces geography as a social science. Various social concepts presented from a spatial perspective. (S and D)
Attributes: General Education - Diversity, General Education - Social Science

GEO 2420 Introduction to Human Geography 3 Credits
Grading Scheme: Letter Grade
Introduces cultural geography with an emphasis upon the development and spatial arrangement of the major societies of the modern world. (S and N)
Attributes: General Education - International, General Education - Social Science

GEO 2426 Pop Music and Culture: a Geographic Perspective 3 Credits
Grading Scheme: Letter Grade
Examines the geographic origins, development and diffusion of contemporary pop music and the regional dynamics of pop music culture from the 1950s to present. (S)
Attributes: General Education - Social Science

GEO 2500 Global and Regional Economies 3 Credits
Grading Scheme: Letter Grade
Contemporary perspectives, themes and research in economic geography, focusing on issues and problems associated with regional and global economic and demographic change. Regional variations and disparities in growth and development are analyzed and policy implications discussed. (S) (WR)
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

GEO 3162C Introduction to Quantitative Analysis for Geographers 4 Credits
Grading Scheme: Letter Grade
Introduces elementary geographical data analysis, including spatial measurement, spatial statistics and spatial forecasting. Students apply statistical concepts and the use of spreadsheet computer software. (P)
Prerequisite: STA 2023 or instructor permission.
Attributes: General Education - Physical Science

GEO 3250 Climatology 3 Credits
Grading Scheme: Letter Grade
Genesis of regional climates and their global distribution. Emphasis on world regional climatology. Secondary topics include applied climatology and climate change. (P)
Prerequisite: MET 1010 or GEO 2200 or GEO 2242.
Attributes: General Education - Physical Science

GEO 3280 Principles of Geographic Hydrology 4 Credits
Grading Scheme: Letter Grade
Examines the effects of physical geography on the land-based portion of the hydrologic cycle at the regional and basin scales. Includes discussion of precipitation, infiltration and runoff. (P)
Prerequisite: GEO 2200 or instructor permission;
Corequisite: GEO 3162C.
Attributes: General Education - Physical Science

GEO 3315 Geography of Crop Plants 3 Credits
Grading Scheme: Letter Grade
Studies the biological structure, means of survival, propagation and distribution of plants, with emphasis on their relationship to the culture and diffusion of man throughout the world and his part in their development and improvement. (B)
Attributes: General Education - Biological Science

GEO 3341 Extreme Floods 3 Credits
Grading Scheme: Letter Grade
Examines the world's most extreme floods from the Pleistocene through present due to various causes. Discusses physical and human aspects of flood warning, preparedness, response and recovery throughout the world. (N and P)
Attributes: General Education - International, General Education - Physical Science

GEO 3352 The Human Footprint on Landscape 3 Credits
Grading Scheme: Letter Grade
Studies human-environment relationships from a primarily geographic perspective, focusing on the human forces that shape landscapes.

GEO 3372 Conservation of Resources 3 Credits
Grading Scheme: Letter Grade
Surveys natural resources and a study of wise and wasteful practices of these resources. Satisfies resource certification for social studies teachers.
Prerequisite: sophomore standing or higher or instructor permission.

GEO 3427 Plants, Health and Spirituality 3 Credits
Grading Scheme: Letter Grade
Issues and controversies surrounding organic food, genetically-modified crops, medicinal plants, plants used to achieve altered states of consciousness and the importance of ornamental plants as inspiration for artists and in worship.

GEO 3430 Population Geography 3 Credits
Grading Scheme: Letter Grade
Geographical analysis of populations, including population description, distribution, change and characteristics; demographic processes; and the consequences of development, conflict and population control diseases. (S)
Attributes: General Education - Social Science

GEO 3452 Introduction to Medical Geography 3 Credits
Grading Scheme: Letter Grade
Medical geography deals with human-environment interactions and the influence of these interactions on public health. Provides a broad and comprehensive survey of geographic approaches in medical studies. (B)
Prerequisite: sophomore standing or higher; entry-level knowledge of statistics (STA 2023 or GEO 3162C or equivalent) recommended.
Attributes: General Education - Biological Science

GEO 3454 Peoples and Plagues 3 Credits
Grading Scheme: Letter Grade
Introduces emerging infectious diseases (EIDs) in the context of previous outbreaks, focusing on geography, origin, and management response. Explores basic models of infectious diseases processes, transmission cycled, and life-histories of host-vector systems, and the ecological and landscape conditions that favor emergence.
Prerequisite: sophomore standing.

GEO 3502 Economic Geography 3 Credits
Grading Scheme: Letter Grade
A comprehensive geographical survey of major economic activities such as agriculture, forestry, fishing, mining, manufacturing and commerce. Emphasizes the study of the characteristics of distribution and the regional patterns of these activities. (S) (WR)
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

GEO 3602 Urban and Business Geography 3 Credits
Grading Scheme: Letter Grade
An empirical and theoretical spatial analysis of the various economic, population and social facets within and between urban settlements. (S) (WR)
Prerequisite: junior standing or instructor permission.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

GEO 3611 Housing, People and Places in a Spatially Diverse America 3 Credits
Grading Scheme: Letter Grade
Examines the housing, people and places that comprise the diverse contemporary human settlement patterns in the U.S. Topics focus on the quality of life found in the housing and neighborhoods of these urban and rural landscapes. (S and D)
Attributes: General Education - Diversity, General Education - Social Science

GEO 3803 Geography of Alcohol 3 Credits
Grading Scheme: Letter Grade
Origins and fission of alcoholic beverages and associated crops on a global scale.

GEO 3930 Special Topics 3 Credits
Grading Scheme: Letter Grade
Rotating topics in geography.

GEO 4167C Intermediate Quantitative Analysis for Geographers 3 Credits
Grading Scheme: Letter Grade
Surveys various multivariate techniques commonly used to analyze geographic data. Emphasis on hypothesis testing, inference, multiple regression, analysis of variance and cluster analysis. Introduces time-series regression and grouped estimation procedures, factor analysis, probit/logit modeling and trend-surface interpolation. (WR)
Prerequisite: GEO 3162C or the equivalent.
Attributes: Satisfies 6000 Words of Writing Requirement

GEO 4169 Spatial Econometrics and Modeling 3 Credits
Grading Scheme: Letter Grade
Introduces regression models capable of dealing with spatial auto-correlation; develop statistical models and estimate with computer software.
Prerequisite: GEO 4167C or equivalent.

GEO 4281 River Forms and Processes 3 Credits
Grading Scheme: Letter Grade
Examines the nature and variety of fluvial processes and the origin and modification of fluvial landforms. Includes discussion of environmental changes in rivers and human activities in drainage basins.
Prerequisite: GEO 2200 or GLY 2010C, or instructor permission.

GEO 4285 Models in Geographic Hydrology 3 Credits
Grading Scheme: Letter Grade
Investigates the numerical and computational techniques available for the extraction of geographic information from hydrometeorologic data. (WR)
Prerequisite: GEO 3162C and (GEO 3280 or STA 3032).
Corequisite: GEO 4167C.
Attributes: Satisfies 6000 Words of Writing Requirement

GEO 4300 Environmental Biogeography 3 Credits
Grading Scheme: Letter Grade
Description and explanation of spatial patterns of biodiversity and the underlying biophysical factors of human-environment interactions. Investigates past and present distributions of organisms and how patterns of environmental variation influence organisms. How biogeography is used to design nature reserves and how forecasting climate change may affect organisms and explain human adaptations to environmental variability.
Prerequisite: GEO 2200 or equivalent.

GEO 4306C Geography of Vector-borne Diseases 3 Credits
Grading Scheme: Letter Grade
Introduces the spatial epidemiology of vector-borne diseases (VBDs) and geospatial methods for monitoring, mapping and modeling them. Provides hands-on experiences for mapping and modeling risk of VBDs via GIS-based labs.
Prerequisite: GEO 3452 or GIS 3043 or permission of the instructor.

GEO 4554 Regional Development 3 Credits
Grading Scheme: Letter Grade
The problems of regional development and regional growth within the context of economic, political and spatial relationships. (S) (WR)
Prerequisite: junior or senior standing.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

GEO 4612 Shelter and Care Options for U.S. Elderly 3 Credits
Grading Scheme: Letter Grade
Examines the strengths, weaknesses and demand for housing and care alternatives addressing the needs of both active and frail American elderly persons.
Prerequisite: refer to the department.

GEO 4905 Individual Work 1-5 Credits
Grading Scheme: Letter Grade
Qualified students and the instructor concerned may choose a particular topic or problem for study.
Prerequisite: undergraduates only with 9 credits of geography and instructor permission.

GEO 4911 Undergraduate Research in Geography 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Geography. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Geography.

GEO 4930 Senior Seminar 1 Credit
Grading Scheme: Letter Grade
Integrates geographic concepts for graduating seniors; provides introduction to professional geography for students entering the job market.
Prerequisite: geography seniors only.

GEO 4938 Selected Topics in Geography 1-4 Credits
Grading Scheme: Letter Grade
Rotating geography topics.

GEO 4944 Internship 1-10 Credits
Grading Scheme: Letter Grade
Experimental learning in position with city, county, regional and state government agencies.
Prerequisite: senior standing.

GEO 4970 Honors Thesis 3 Credits
Grading Scheme: Letter Grade
Completion of an honors thesis that meets department specifications during the semester in which the student is enrolled.
Prerequisite: senior standing and participation in department honors program.

GIS 2002 The Digital Earth 3 Credits
Grading Scheme: Letter Grade
Focuses on how the Earth's surface is visualized, explored, and analyzed in digital formats (e.g. maps, satellite images, aerial photos). Provides an introduction to fundamental concepts of digital geographic data to understand the Earth environment and human society based on the vast quantities of geographic information in our ever-changing world.

GIS 3001C Spatial Maps and Graphs 4 Credits
Grading Scheme: Letter Grade
Analyzes cartographic problems with exercises in techniques of presentation, including map projections and symbols and problems in statistical representation by graphic methods.
Prerequisite: sophomore standing or above.

GIS 3043 Foundations of Geographic Information Systems 4 Credits
Grading Scheme: Letter Grade
Geographic Information Systems (GIS) as the technology for creation, modification, display and analysis of spatial information. Develops knowledge of GIS, competence in geographic databases and familiarity with computer software and hardware.
Prerequisite: GEO 2200, GEO 3162C and 2000-level human geography course.

GIS 3420C GIS Models for Public Health 3 Credits
Grading Scheme: Letter Grade
Focuses on the design of GIS-based models to address health and healthcare issues. Topics include a conceptual framework, landscape epidemiology models, disease diffusion models, health accessibility, human health behavior and location-allocation of health services. Laboratory section provides hands-on experience applying these models with GIS tools.
Prerequisite: GIS 3043 and (STA 2023 or GEO 3162C).

GIS 4021C Aerial Photo Interpretation 3 Credits
Grading Scheme: Letter Grade
Principles of aerial photography, identification and interpretation of physical and cultural features, sketching and simple map-making, and uses of aerial photography.
Prerequisite: GEO 2200 or instructor permission.

GIS 4037 Digital Image Processing 4 Credits
Grading Scheme: Letter Grade
Introduces the theory and application of digital imagery data in geographical research with a hands-on, lab-based approach.
Prerequisite: instructor permission.

GIS 4102C GIS Programming 3 Credits
Grading Scheme: Letter Grade
Introduces basic programming concepts; instruction in popular programming languages for geospatial processing, applications, and modeling in ArcGIS environment.
Prerequisite: GIS 3043C or equivalent.

GIS 4113 Introduction to Spatial Networks 3 Credits
Grading Scheme: Letter Grade
Many phenomena of interest in physical, social and cyber environments can be thought of as networks within geographic context. Teaches methods for analyzing these spatial networks, and introduces their applications in geography, transportation, hydrology, epidemiology, social science, etc.
Prerequisite: Entry level knowledge of statistics or instructor permission. Prior experience with ArcGIS is preferred.

GIS 4115 Applied Geostats 3 Credits
Grading Scheme: Letter Grade
Introduces fundamentals and practices of advanced geostatistical analysis (kriging), which addresses optimal spatial interpolation. Geostatistics are currently applied in diverse disciplines such as geography, geology, engineering, hydrology, urban studies and epidemiology.
Prerequisite: (STA 2023 or GEO 3162C or equivalent) and GIS 3043 or equivalent or instructor permission.

GIS 4324 GIS Analysis of Hazard Vulnerability 3 Credits
Grading Scheme: Letter Grade
Geographic and cartographic techniques for geospatial analysis of risk, vulnerability, and resilience using ArcGIS. Learn to utilize physical and human geographic datasets for multiple hazard contexts including hydrometeorological, climatological, and geophysical hazards.
Prerequisite: GIS 3043 or URP 4273 with minimum grade of C.

GIS 4911 Undergraduate Research in Geospatial Trends 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Geospatial Trends. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Geospatial Trends.

GLY 4734 Coastal Morphology and Processes 3 Credits
Grading Scheme: Letter Grade
Examines the nature and variety of coastal processes, and the origin and modification of environmental changes along coasts, including human activities in the coastal zone.
Prerequisite: GEO 2200 or GLY 2010C or GLY 2030C.

MET 3503 Weather and Forecasting 3 Credits
Grading Scheme: Letter Grade
Provides hands-on experience using weather instruments and making forecasts.
Prerequisite: GEO 2242 or MET 1010 or GEO 2200.

MET 4532 Hurricanes 3 Credits
Grading Scheme: Letter Grade
Meteorological and climatological concepts related to hurricanes. Forecasting current activity, researching past storms and analyzing storm structure, damage and future trends.
Prerequisite: MET 3503 or GEO 3250.

MET 4560 Atmospheric Teleconnections 3 Credits
Grading Scheme: Letter Grade
Atmospheric teleconnections are recurring large-scale patterns of pressure and circulation anomalies. They can influence temperature, rainfall, storm tracks and jet stream location and intensity. Examines how these patterns were discovered, how the index that characterizes the phase of each teleconnection is calculated and the weather associated with different phases.
Prerequisite: MET 3503 or GEO 3250 with a minimum B- grade.

MET 4750 Spatial Analysis of Atmospheric Data using GIS 3 Credits
Grading Scheme: Letter Grade
How atmospheric data are collected and analyzed for meteorologic and climatologic-scale research. Where various types of data are obtained and how to analyze data to answer specific research questions.
Prerequisite: GEO 3250 or MET 3503 or MET 4532

MET 4911 Undergraduate Research in Meteorology and Climatology 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery or application.

Geological Sciences

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

ESC 1000 Introduction to Earth Science 3 Credits
Grading Scheme: Letter Grade
Integrated application of the scientific method to the earth sciences, including geologic materials, resources and processes; surface, groundwater and climate; environmental problems; and related topics. Emphasizes Florida examples. (P)
Attributes: General Education - Physical Science

ESC 3075 Deltas and Humans 3 Credits
Grading Scheme: Letter Grade
Examines the historical relationship between humans and deltas, outlining possible coastal management plans in response to sea level rise

GEO 4281 River Forms and Processes 3 Credits
Grading Scheme: Letter Grade
Examines the nature and variety of fluvial processes and the origin and modification of fluvial landforms. Includes discussion of environmental changes in rivers and human activities in drainage basins.
Prerequisite: GEO 2200 or GLY 2010C, or instructor permission.

GLY 1000 Exploring the Geological Sciences 3 Credits
Grading Scheme: Letter Grade
Selected topics in the geological sciences. For those not majoring in science. (P)
Attributes: General Education - Physical Science

GLY 1102 Age of Dinosaurs 3 Credits
Grading Scheme: Letter Grade
Examination of unique episodes in the physical and biological history of the earth. (B or P)
Attributes: General Education - Biological Science, General Education - Physical Science

GLY 1150L Florida Geology Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory provides a basic understanding of Florida's geology, geologic history, geologic resources and geologically related environmental problems. (P)
Attributes: General Education - Physical Science

GLY 1880 Earthquakes, Volcanoes and Other Hazards 3 Credits
Grading Scheme: Letter Grade
Overview of important topics in Earth science through the examination of hazards, ranging from earthquakes and volcanoes to global warming and impacts from space. For those who are not majoring in science. (P)
Attributes: General Education - Physical Science

GLY 2010C Physical Geology 4 Credits
Grading Scheme: Letter Grade
Materials, structures and surface features of the earth and processes which have produced them. Related laboratory demonstrations and experiences. (P)
Attributes: General Education - Physical Science

GLY 2030C Environmental and Engineering Geology 3 Credits
Grading Scheme: Letter Grade
Hazardous geologic processes and current environmental concerns are related to the earth, the forces acting upon it and the resulting surface features and materials. Human interaction with the environment is illustrated using modern case studies. (P)
Attributes: General Education - Physical Science

GLY 2038 Sustainability and the Changing Earth 3 Credits
Grading Scheme: Letter Grade
Introduces planet Earth as a dynamic and complex global system which has changed due to human interaction. Course materials demonstrate physical and chemical links between the geosphere, hydrosphere, biosphere and atmosphere that directly impact the sustainability of human lifestyles at a variety of timescales. (P)
Attributes: General Education - Physical Science

GLY 2042 Planetary Geology 3 Credits
Grading Scheme: Letter Grade
Introduces recent geological exploration of recent terrestrial planets and moons, comets and asteroids, focusing on comparisons of composition and tectonics on the solid planets and moons.

GLY 2100C Historical Geology 4 Credits
Grading Scheme: Letter Grade
Evolution of the earth and its life, including the major physical events and evolutionary changes recorded in the geologic past. Related laboratory, demonstrations and exercises. (P)
Prerequisite: GLY 2010C or GLY 2030C, or instructor permission.
Attributes: General Education - Physical Science

GLY 3074 Oceans and Global Climate Change 3 Credits
Grading Scheme: Letter Grade
Examines the role the oceans play in determining climate and regulating global climate change on a range of timescales from decades to millions of years. (P)
Attributes: General Education - Physical Science

GLY 3083C Fundamentals of Marine Sciences 3 Credits
Grading Scheme: Letter Grade
Introduces the basic disciplines of marine sciences, including geology, chemistry, physics, biology and conservation, with an emphasis on marine research. Includes three mandatory Saturday field trips.
Prerequisite: OCE 1001.

GLY 3105C Evolution of Earth and Life 4 Credits
Grading Scheme: Letter Grade
Advanced examination of the geologic history of planet earth with an emphasis on North America. (P)
Prerequisite: GLY 2010C or GLY 2030C.
Attributes: General Education - Physical Science

GLY 3163 Geology American National Parks 3 Credits
Grading Scheme: Letter Grade
Introduces geological concepts in the context of selected US national parks. Relates geology to the cultural aspects of these parks and present-day environmental concerns. (P)
Attributes: General Education - Physical Science

GLY 3200C Principles of Mineralogy 4 Credits
Grading Scheme: Letter Grade
Concepts of crystallography, crystal chemistry, physical properties of minerals, mineral genesis and systematic study of the rock-forming or otherwise important minerals including the theory and use of the petrographic microscope for study and identification of these minerals in thin section. (P)
Prerequisite: CHM 1030 or CHM 1025, and GLY 2010C or GLY 2030C.
Attributes: General Education - Physical Science

GLY 3202C Earth Materials 3 Credits
Grading Scheme: Letter Grade
Overview of the origin and occurrence of earth materials with a particular emphasis on the identification and classification of minerals and rocks. Activities involve lecture and a fully integrated laboratory component where students learn to identify and classify minerals and rocks through both macroscopic and microscopic investigation.

GLY 3603C Paleontology 4 Credits
Grading Scheme: Letter Grade
Investigation of the history of life on earth, including aspects of invertebrate and vertebrate paleontology, micropaleontology and paleobotany.
Prerequisite: refer to the department.

GLY 3882C Hydrogeology and Human Affairs 3 Credits
Grading Scheme: Letter Grade
Insight into current scientific, political, legal, social, and economic aspects of hydrogeology.
Prerequisite: junior standing or higher.
Attributes: General Education - Physical Science

GLY 4155C Geology of Florida 3 Credits
Grading Scheme: Letter Grade
Principles of physical and historical geology as applied to the geology and mineral resources of Florida. (P)
Prerequisite: GLY 2010C or GLY 2030C, or instructor permission.
Attributes: General Education - Physical Science

GLY 4310C Igneous and Metamorphic Petrology 4 Credits
Grading Scheme: Letter Grade
Fundamental concepts, principles and data that pertain to the genesis of igneous and metamorphic rocks. Emphasizes mineral phase relations, interpretive petrochemistry, magma genesis and tectonic relationships.
Prerequisite: CHM 1025 and GLY 3200C.

GLY 4400C Structural Geology and Tectonics 4 Credits
Grading Scheme: Letter Grade
Structural features of the earth, their causes, recognition and interpretation; includes the mechanics of folding, faulting, and other deformations of the earth's crust.
Prerequisite: (GLY 2010C or GLY 2030C) and MAC 1147 and GLY 4552C.

GLY 4450 Geophysics 3 Credits
Grading Scheme: Letter Grade
Introduces the basic types of geophysical data used to characterize the subsurface. Learn about seismic refraction and reflection, gravity, magnetics, heat flow, and electromagnetic methods.
Prerequisite: (GLY 2010C or GLY 2030C or GLY 1000) and (MAC 2311 or MAC 2233).

GLY 4552C Sedimentary Geology 4 Credits
Grading Scheme: Letter Grade
Basic disciplines important in understanding the origin and classification of sedimentary rocks including sedimentary petrology, sedimentology, and stratigraphy.
Prerequisite: (GLY 2100C or GLY 3105C) and GLY 3200C.

GLY 4700 Geomorphology 3 Credits
Grading Scheme: Letter Grade
Introduces the processes responsible for the formation and evolution of Earth surface features and landscapes. Emphasizes understanding of how first principles of physics and chemistry can be used to explain landform shaping.
Prerequisite: (GLY 2010C or GLY 2030C) and an additional 3 credits of GLY.

GLY 4726 Geochemical Oceanography 3 Credits
Grading Scheme: Letter Grade
Focuses on chemical properties and processes in the oceans, exploring the links between chemistry, biology, geology, and global change within a marine context. Topics include elemental composition and speciation, biogeochemical cycles, chemical and isotopic tracers, chemistry of marine sediments, and oceanic uptake of anthropogenic carbon.
Prerequisite: CHM 2045 and (OCE 1001 or GLY 2010C or GLY 2030C).

GLY 4734 Coastal Morphology and Processes 3 Credits
Grading Scheme: Letter Grade
Examines the nature and variety of coastal processes, and the origin and modification of environmental changes along coasts, including human activities in the coastal zone.
Prerequisite: GEO 2200 or GLY 2010C or GLY 2030C.

GLY 4750L Geological Field Methods 2 Credits
Grading Scheme: Letter Grade
Methods and techniques used in geological fieldwork.
Prerequisite: GLY 3105C or GLY 2100C, and instructor permission.

GLY 4790 Geology Summer Field Camp 6 Credits
Grading Scheme: Letter Grade
Summer geology field camp in northern New Mexico. Application of field procedures and techniques to the solution of geologic problems and construction of geologic maps.
Prerequisite: GLY 4750L and instructor permission.

GLY 4822 Groundwater Geology 3 Credits
Grading Scheme: Letter Grade
Introduces the concepts of groundwater flow and its relationship to subsurface geology. Practice in applying groundwater flow concepts and problem solving.
Prerequisite: Any GLY 2000-level course or higher and (MAC 1147 or MAC 2311).

GLY 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
For work in addition to that offered in regular courses in mineralogy, petrology, paleontology, stratigraphy, sedimentology and structural geology.
Prerequisite: 15 credits of geology and instructor permission.

GLY 4911 Undergraduate Research in Geology 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in geology. Projects may involve inquiry, design, investigation, scholarship, discovery or application in geology.

GLY 4930 Special Topics in Geology 1-3 Credits
Grading Scheme: Letter Grade
Lecture, conferences or laboratory sessions covering selected topics of current interest in modern geology.
Prerequisite: three courses in geology or instructor permission.

GLY 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade

IDS 2220 Climate Change Science and Solutions 3 Credits
Grading Scheme: Letter Grade
Uses the issue of climate change to deepen understanding of science and its role in society. Working individually and collaboratively, students integrate information and insights from a wide variety of natural sciences and engineering/design disciplines to develop holistic approaches to climate change adaptation and mitigation. (P)
Attributes: General Education - Physical Science

OCE 1001 Introduction to Oceanography 3 Credits
Grading Scheme: Letter Grade
Explores the geological, physical, and biological characteristics of Earths marine realm. Includes discussion of scientific methods, the history of oceanography, and emphasizes understanding of the mutual interactions between humans and the ocean. (P)
Attributes: General Education - Physical Science

Geomatics

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

GIS 3072C Geographic Information Systems 3 Credits
Grading Scheme: Letter Grade
Addresses GIS concepts, data sources, spatial references: GIS data modeling, management, and editing; surface modeling; and vector and raster analysis. Provides practical examples, tutorials, and projects serving the geomatics, natural resource management, and planning fields.

GIS 4121 Geospatial Analysis 3 Credits
Grading Scheme: Letter Grade
Process of identifying and analyzing patterns in geographic data and describing relationships between spatial features. Introduces techniques aimed at the analysis of spatial data. Topics include characterization of spatial data, geographic distributions, pattern identification (point and area objects), field data analysis, spatial modeling and interpolation, regression methods and cluster analysis.
Prerequisite: GIS 3072C and STA 2023 and Geomatics major of junior standing or higher.

SUR 3103C Geomatics 3 Credits
Grading Scheme: Letter Grade
Introduces angle, distance and elevation measurement, as applied to engineering, boundary location, topography, forest management and construction. Covers error theory as well as horizontal and vertical curves.
Prerequisite: MAC 1147 and MAC 2311 placement or equivalent.

SUR 3323 Visualization of Spatial Information 3 Credits
Grading Scheme: Letter Grade
Methods of mapping, modeling, communicating and visualizing spatial features. Includes boundary and topographical features, attributes, site modeling, site development and mapping using computer-aided mapping and design features.

SUR 3331C Photogrammetry 3 Credits
Grading Scheme: Letter Grade
Relates to use of aerial photographs to determine spatial information. Covers elementary techniques of photogrammetry to establish the foundation for SUR 4350 Advanced Photogrammetry.
Prerequisite: SUR 3103C or equivalent.

SUR 3520 Measurement Science 3 Credits
Grading Scheme: Letter Grade
Theory of measurement errors, error propagation, variance and covariance, polynomial curve fitting, regression analysis, correlation and least squares adjustment.
Prerequisite: MAC 2233, STA 2023 and SUR 3641, or the equivalents.

SUR 3641 Survey Computations 3 Credits
Grading Scheme: Letter Grade
Principles of geometry applied to surveying computations. Computer methods in surveying.
Corequisite: SUR 3103C or equivalent.

SUR 4201 Route Geometrics and Design 3 Credits
Grading Scheme: Letter Grade
Geometric design of transportation systems, computer applications and a comprehensive design project. Spiral curves, superelevation theory and earthwork analysis are covered.
Prerequisite: SUR 3103C or equivalent and major in FY-GEM or EG-CE.

SUR 4350C Advanced Photogrammetry 3 Credits
Grading Scheme: Letter Grade
Precise photogrammetric measurements, camera calibration, object space coordinate systems, analytical control extension, stereoplotter mapping, digital mapping and softcopy stereoplotters.
Prerequisite: SUR 3331C and SUR 3520, or the equivalents.

SUR 4376 Geospatial Applications of UASs 3 Credits
Grading Scheme: Letter Grade
Covers contemporary issues and common applications associated with small UASs (Unmanned Aerial Systems).
Prerequisite: SUR 3501C.

SUR 4380 Remote Sensing 3 Credits
Grading Scheme: Letter Grade
Remote sensing systems, ground truthing, image classification systems, mapping applications, applications in plant and animal science, urban planning, engineering, geology and integration into geographic information systems.
Prerequisite: requires 4FY-GEM classification.

SUR 4403 Cadastral Principles 3 Credits
Grading Scheme: Letter Grade
Cadastral systems, land boundaries, corners and areas; writing land descriptions and identification of land parcels; legal principles of boundary survey, office and business practices; professional standing.
Prerequisite: SUR 3103C or equivalent.

SUR 4430 Surveying and Mapping Practice 3 Credits
Grading Scheme: Letter Grade
Studies land survey practice: the lot survey, the sectional survery and the water boundary survery. Also includes office and business practices and professional standing.
Prerequisite: SUR 3520 and SUR 4403, or the equivalents.

SUR 4463 Subdivision Design 3 Credits
Grading Scheme: Letter Grade
Design a medium-sized subdivision, including the master plan development, physical development considerations, legal requirements, comprehensive project, mock presentation and platting.
Prerequisite: SUR 3323 or equivalent;
Corequisite: SUR 4201.

SUR 4501C Foundations of UAS Mapping 3 Credits
Grading Scheme: Letter Grade
Covers the fundamental components of small unmanned aerial systems (UASs) and how they are used to produce high resolution, spatially accurate, planimetric maps and 3-D models of the terrain.
Prerequisite: SUR 3103C or equivalent.

SUR 4530 Geodesy and Geodetic Positioning 3 Credits
Grading Scheme: Letter Grade
Introduces geometric and physical geodesy, ellipsoids, geodetic lines, computation or position, gravity and coordinate systems.
Prerequisite: SUR 3103C or equivalent.

SUR 4905 Special Problems in Geomatics 1-3 Credits
Grading Scheme: Letter Grade
Special problems or projects in the student's major field of study.

SUR 4911 Supervised Research in Geomatics 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in geomatics under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

SUR 4912 Senior Project 1 Credit
Grading Scheme: Letter Grade
Laboratory, equipment or literature investigations of surveying and mapping problems and concepts of current interest resulting in a written work.
Prerequisite: 4FY-GEM classification.

SUR 4915 Honors Thesis Research in Geomatics 0-3 Credits
Grading Scheme: S/U
Independent research in geomatics leading to an honors thesis; mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

SUR 4934 Topics in Geomatics 1-4 Credits
Grading Scheme: Letter Grade
Selected topics in geomatics, including special issues and in-depth study of topics not discussed in other courses.

SUR 4940C Practicum in UAS Mapping 3 Credits
Grading Scheme: Letter Grade
Provides hands-on experience with flight planning and safe deployment of small UASs (Unmanned Aerial Systems), and the subsequent processing of the imagery acquired on these flights.

SUR 4949 Co-op Work Experience 1 Credit
Grading Scheme: S/U
Practical field experience of sufficient academic rigor. (S-U)
Prerequisite: FY-GEM classification.

German | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

GER 1125 Discover German 1 5 Credits
Grading Scheme: Letter Grade
First semester of a two-semester sequence that includes Discover German 2. In this innovative online course, students acquire basic skills in the German language and use the Internet as a resource to explore aspects of German culture and everyday life.

GER 1126 Discover German 2 5 Credits
Grading Scheme: Letter Grade
Continuation of Discover German 1. Continue acquiring basic skills in the German language using the Internet to explore aspects of German culture and everyday life.
Prerequisite: GER 1125.

GER 1130 Beginning Intensive German 1 5 Credits
Grading Scheme: Letter Grade
The first semester of a two-semester sequence that includes Beginning Intensive German 2. Emphasis is on spoken German. Reading, writing and grammar are also included in the program. Communication in German is enhanced by the use of multimedia and regular meetings with tutors. Supervised homework and drill sessions in small groups.

GER 1131 Beginning Intensive German 2 5 Credits
Grading Scheme: Letter Grade
Continuation of Beginning Intensive German 1. Emphasis is on spoken German. Reading, writing and grammar are also included in the program. Communication in German is enhanced by the use of multimedia and regular meetings with tutors. Supervised homework and drill sessions in small groups.
Prerequisite: GER 1130 with minimum grade of C, or S, or the equivalent.

GER 2200 Intermediate German 1 3 Credits
Grading Scheme: Letter Grade
Participants will improve their skills in the four basic areas (reading, writing, listening comprehension, speaking) by reviewing elements of grammar, particularly morphology (i.e., word forms), and by expanding vocabulary. Upon successful completion, students may go directly to Advanced German.
Prerequisite: GER 1104 or GER 1126 or GER 1131, or the equivalent.

GER 2225 Online Intermediate German 3 Credits
Grading Scheme: Letter Grade
Employs web-based learning resources to develop B1-level proficiencies via the reinforcement of speaking and listening comprehension, reading, and writing skills, and an exploration of selected cultural topics. For self-starters who are comfortable and successful working individually and in groups in an online learning environment.
Prerequisite: (GER 1130 and GER 1131) or (GER 1125 and GER 1126) or (10 university-level credit hours of beginning German) or the equivalent.

GER 2240 Intermediate German 2 3 Credits
Grading Scheme: Letter Grade
Objectives include improving reading and speaking skills at the intermediate level. Upon completion participants will be able to pronounce German words more accurately, listen with greater comprehension to German and respond to questions about a variety of recorded texts. Upon successful completion, students may go directly to Advanced German.
Prerequisite: GER 1104 or GER 1126 or GER 1131, or the equivalent.

GER 2270 Intermediate German Abroad 3-9 Credits
Grading Scheme: Letter Grade
A review of the major aspects of grammar in a context that enhances understanding of German and aims at a level of proficiency above the A2 level of the Common European Framework of Reference for Languages.
Prerequisite: GER 1126 with a minimum grade of C.

GER 3234 Reading German Texts 3 Credits
Grading Scheme: Letter Grade
Upon completion, students will be able to read literary and nonliterary texts and to identify the more common syntactical, stylistic and rhetorical elements.
Prerequisite: GER 2200 or GER 2240.

GER 3300 Writing German Texts 3 Credits
Grading Scheme: Letter Grade
Special focus on strategies, grammar and vocabulary involved in writing in German. Works toward a writing proficiency level that corresponds to the B1 level as defined by the European Framework of Reference for Languages and measured by the Goethe Institute exam Zertifikay Deutsch.
Prerequisite: GER 2200 or GER 2270 with a minimum grade of C.

GER 3330 German Language and Culture 1 3 Credits
Grading Scheme: Letter Grade
Introduces German civilization through grammar review, vocabulary building, reading and essay writing. Upon completion, students will be able to discuss cultural and literary concepts in German. (H)
Prerequisite: GER 2200 or GER 2240.
Attributes: General Education - Humanities

GER 3332 Topics in German Film and Culture 1 Credit
Grading Scheme: Letter Grade
GER 3224 is taught as a FLAC accompaniment to various courses. A discussion forum covering different topics in German film and culture. All materials and class discussions will be in German.
Prerequisite: GER 1104 or GER 1126 or GER 1131, or equivalent, and one 2000-level GER course.

GER 3401 German Grammar Review 3 Credits
Grading Scheme: Letter Grade
An intensive semester-long review of German grammar.
Prerequisite: GER 2200 or GER 2240, or undergraduate coordinator permission.

GER 3413 German Listening, Comprehension and Speaking 3 Credits
Grading Scheme: Letter Grade
Develops the ability to understand and produce basic kinds of speech (descriptions, simple stories, etc.).
Prerequisite: GER 2200 or GER 2240, or instructor permission.

GER 3440 German in Business 3 Credits
Grading Scheme: Letter Grade
Study of Wirt-schaftsdeutsch and the ability to read and write texts in German for international business transactions. Acquire the ability to communicate in German in professional business settings. (N and S)
Prerequisite: GER 2200 or GER 2240.
Attributes: General Education - International, General Education - Social Science

GER 3470 Advanced German Abroad 3-9 Credits
Grading Scheme: Letter Grade
Practical, in-class communication exercises at an advanced level in comprehension, speaking, reading and writing. Prepares students to achieve a proficiency level above the B1 level as established by the Common European Framework for Languages.
Prerequisite: GER 2200 or GER 2270 with a minimum grade of C, or undergraduate coordinator permission.

GER 4482 Cultural Identity and Intercultural Competence 3 Credits
Grading Scheme: Letter Grade
Listening comprehension and speaking ability in work involving German cultural identity, online and in class.
Prerequisite: GER 3410 or instructor permission.

GER 4930 Variable Topics in German Studies 3 Credits
Grading Scheme: Letter Grade
Working with German media such as major newspapers, magazines, radio and television programs, students will refine their language skills to a level similar to the B2 level of the Common European Framework for Languages.
Prerequisite: GER 3401 with a minimum grade of C or 6 credits of coursework at the GER 3000-level.

GER 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

GET 2100 German Literary Heritage 3 Credits
Grading Scheme: Letter Grade
Knowledge of German is not required. Upon completion participants will be able to discuss major works of German literature, mainly from the 18th to the 20th century. Texts and lectures in English. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

GET 3003 German Culture and Civilization 1 3 Credits
Grading Scheme: Letter Grade
Knowledge of German is not required. Introduces German civilization from the earliest times to the beginning of the 19th century. Become acquainted with German literature, philosophy, art, music and architecture. Readings and discussions in English.

GET 3004 Modern German Culture and Civilization 3 Credits
Grading Scheme: Letter Grade
Knowledge of German is not required. Introduces German civilization in the 19th and 20th centuries. Participants will be able to discuss developments in German literature, philosophy, art, music and architecture. Texts and lectures in English.

GET 3200 Medieval Literary Culture 3 Credits
Grading Scheme: Letter Grade
Studies the German literary culture of the Holy Roman Empire during the Middle Ages in its broader European context. Examines literary culture in relation to Latin literary traditions, as well as to other cultural domains such as the arts, architecture, theology, and politics. (H) (WR)
Attributes: General Education - Humanities, Satisfies 4000 Words of Writing Requirement

GET 3201 Early Modern Literary Culture 3 Credits
Grading Scheme: Letter Grade
Studies the early modern literary culture of German-speaking regions of the Holy Roman Empire in the broader European context. Examines this culture?s relation to pan-European developments, including the Renaissance, Humanism, the Reformation, and developments in the arts, architecture, theology, and politics.
Prerequisite: sophomore standing or higher.

GET 3501 History, Literature and Arts of Berlin 3 Credits
Grading Scheme: Letter Grade
Gain a working knowledge of the history and culture of Berlin from 1871 to the present by exploring literature, painting, and film. Authors and artists include Mann, Brecht, Dix, and Wenders.

GET 3520 Early German Cinema: 1945 4 Credits
Grading Scheme: Letter Grade
Historical overview of the most influential films of German classical cinema, including how they relate to the social reality of the 1920s and 30s.

GET 3580 Representations of War in Literature and Visual Media 3 Credits
Grading Scheme: Letter Grade
Study of the shifting cultural representations of war (literature/art) in the 20th century, focusing primarily on European history, culture and politics. Primary sources include Mann, Remarque, Boll, Celan, Grosz, and Kiefer.

GET 3930 Variable Topics in German Studies 3-9 Credits
Grading Scheme: Letter Grade
Variable topics in German Studies in English translation.

GET 4521 Women and German Cinema 4 Credits
Grading Scheme: Letter Grade

GET 4523 New Cinema 1945 to the Present 4 Credits
Grading Scheme: Letter Grade

GET 4930 Variable Topics in German Studies 3-9 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in German studies, in English translation.
Prerequisite: 3 credits at 3000 level or above, or instructor permission.

GEW 3100 Survey of German Literature 1 3 Credits
Grading Scheme: Letter Grade
The major periods and works of German literature from the Middle Ages to the 18th century. Texts in German.
Prerequisite: instructor permission.

GEW 3101 Survey of German Literature 2 3 Credits
Grading Scheme: Letter Grade
The major periods of German literature from the 18th century to the present. Authors include Goethe, Kleist, Kafka, Mann, Grass, and Christa Wolf. Readings in German. (H)
Attributes: General Education - Humanities

GEW 3930 Variable Topics in German Studies 3-9 Credits
Grading Scheme: Letter Grade
Variable topics in German Studies.
Prerequisite: GER 2000 or instructor permission.

GEW 4301 Introduction to German Drama and Theater 3 Credits
Grading Scheme: Letter Grade
Survey of German drama from the late medieval period to the present. Introduction to major forms, periods and authors such as Lessing, Goethe, Schiller, and Brecht. (H)
Prerequisite: GEW 3100 and GEW 3101, or the equivalent.
Attributes: General Education - Humanities

GEW 4400 Medieval Studies in German 3 Credits
Grading Scheme: Letter Grade
Read some shorter verse narratives dealing with love and chivalric adventures in the original language of the German Middle Ages (ca. 1200). In conjunction with this reading, students will learn some of the basic features of the poetic idiom (Middle High German) as well as some of the issues and problems involved in the production, transmission and editing of medieval manuscripts. (H)
Prerequisite: GEW 3100 and GEW 3101.
Attributes: General Education - Humanities

GEW 4401 German Cities as Cultural Centers 3 Credits
Grading Scheme: Letter Grade
Study of German, Austrian, and Swiss cities as cultural centers. Employs online learning resources to expand knowledge of urban cultures in German-speaking Europe and to develop linguistic and cultural proficiency toward the B2 level according to CEFR standards.
Prerequisite: GER 3401 or instructor permission.

GEW 4730 Modern German Literature 3 Credits
Grading Scheme: Letter Grade
The major trends of German literature in the first half of the 20th century, including impressionism, expressionism, Neue Sachlichkeit, workers literature and Nazi culture. Works by Thomas Mann, Hermann Hesse and Bertolt Brecht are discussed. (H)
Prerequisite: GEW 3100 and GEW 3101.
Attributes: General Education - Humanities

GEW 4731 Contemporary German Literature 3 Credits
Grading Scheme: Letter Grade
Participants will learn to discern the major trends of post WW II German literature. Students will be able to recognize the key features of works by such German authors as Bll, Grass, Weiss and Wolf, and by such Swiss and Austrian writers as Frisch, Drrenmatt and Handke. (H)
Prerequisite: GEW 3100 and GEW 3101.
Attributes: General Education - Humanities

GEW 4750 Women in German Literature 3 Credits
Grading Scheme: Letter Grade
The image of women in representative works of German literature. Study of the main themes and structures in selected works by major women writers of German-speaking countries and their unique contribution to German culture and literature. Students will use an interdisciplinary approach to literature and will learn the basic tools of gender studies. (H)
Prerequisite: any two 3000-level courses.
Attributes: General Education - Humanities

GEW 4760 Ethnic Writing in Germany 3 Credits
Grading Scheme: Letter Grade
Writings (prose, poetry, critical essays) of significant authors of non-German descent (i.e., Spaniards, Italians, Turks, Iranians) from the 1950s to the present. Insights into the lives and thinking of significant ethnic minorities in Germany during this period and the implications for German literary history and German identity. Films are also screened and discussed.
Prerequisite: GER 3234 or instructor permission.

GEW 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course. Available only by special arrangement.

GEW 4911 Undergraduate Research in German 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in German. Projects may involve inquiry, design, investigation, scholarship, discovery or application in German.

GEW 4930 Seminar in Germanic Languages and Literatures 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in Germanic language or literature. (H)
Prerequisite: any two 3000-level courses or instructor permission.
Attributes: General Education - Humanities

MEM 2500 The Tales of King Arthur 3 Credits
Grading Scheme: Letter Grade
The great literary works of the Arthurian tradition and the manner in which the tales of King Arthur serve, from their 6th century Celtic origins to the present, to articulate the interests and values of different social groups throughout history. (H and N)
Attributes: General Education - Humanities, General Education - International

MEM 3300 Castles and Cloisters: An Introduction to Medieval Communities 3 Credits
Grading Scheme: Letter Grade
Studies monastic and courtly-chivalric communities as these evolved in the Middle Ages. Explores architecture, art, literature and music illustrate how different monastic and chivalric communities saw the world and their place in it. (H and N)
Attributes: General Education - Humanities, General Education - International

Greek Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

GMT 4911 Undergraduate Research in Modern Greek Language and Literature 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

GRE 1120 Beginning Ancient Greek 1 4 Credits
Grading Scheme: Letter Grade
The basics of ancient Greek grammar, morphology, syntax and vocabulary.

GRE 1121 Beginning Ancient Greek 2 4 Credits
Grading Scheme: Letter Grade
The basics of ancient Greek grammar, morphology, syntax and translation, with special attention to irregular verbs.
Prerequisite: GRE 1120 or GRE 1130.

GRE 1130 Accelerated Beginning Ancient Greek 1 5 Credits
Grading Scheme: Letter Grade
This course and its sequel, GRE 1131, constitute the basic sequence for development of overall skill in the language.

GRE 1131 Accelerated Beginning Ancient Greek 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the basic sequence for development of overall skill in the language.
Prerequisite: GRE 1130 or the equivalent.

GRK 1130 Beginning Modern Greek 1 5 Credits
Grading Scheme: Letter Grade
This course and its sequel, GRK 1131, constitute the basic sequence for development of overall skill in the language.

GRK 1131 Beginning Modern Greek 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the basic sequence for development of overall skill in the language.
Prerequisite: GRK 1130 or the equivalent.

GRK 2200 Intermediate Modern Greek 1 3 Credits
Grading Scheme: Letter Grade
Readings in modern Greek literature, history and culture. (H and N)
Prerequisite: GRK 1131 or the equivalent.
Attributes: General Education - Humanities, General Education - International

GRK 2201 Intermediate Modern Greek 2 3 Credits
Grading Scheme: Letter Grade
Additional readings in modern Greek literature, history and culture. (H and N)
Prerequisite: GRK 2200 or the equivalent.
Attributes: General Education - Humanities, General Education - International

GRK 4300 Modern Greek Literature Since 1830 3 Credits
Grading Scheme: Letter Grade
Advanced study of representative modern Greek prose, poetry and drama in the original from independence (1830) to the present. The course combines the study of the modern Greek language with readings, analysis and discussion of major literary works.
Prerequisite: GRK 2201 or the equivalent.

GRK 4905 Individual Work in Modern Greek 1-4 Credits
Grading Scheme: Letter Grade
For advanced students who seek independent work not offered in another course. Must be arranged individually with Greek faculty.
Prerequisite: GRK 1131.

GRW 2211 Intermediate Greek Prose 3 Credits
Grading Scheme: Letter Grade
Readings selected from Attic Greek prose authors designed to aid students in the transition from grammar to connected prose passages.
Prerequisite: GRE 1121 or GRE 1131 or the equivalent.

GRW 2240 New Testament Greek 3 Credits
Grading Scheme: Letter Grade
Reviews grammar and forms. Readings from several books of the New Testament. (H and N)
Prerequisite: some knowledge of Greek and instructor permission.
Attributes: General Education - Humanities, General Education - International

GRW 3102 Survey of Greek Literature 2 3 Credits
Grading Scheme: Letter Grade
Studies representative texts from various periods of Greek literature. (H and N)
Attributes: General Education - Humanities, General Education - International

GRW 3301 Greek Drama 3 Credits
Grading Scheme: Letter Grade
Selected plays of Aeschylus, Sophocles or Euripides.
Prerequisite: one 2000-level Greek course or the equivalent.

GRW 3501 Plato 3 Credits
Grading Scheme: Letter Grade
Studies Plato's Meno and Apology. (H and N)
Prerequisite: GRE 1131 or the equivalent.
Attributes: General Education - Humanities, General Education - International

GRW 4330 Greek Lyric Poetry 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of Greek lyric poetry, from Archilochus to Bacchylides. (H and N)
Prerequisite: two 3000-level Greek courses or the equivalent.
Attributes: General Education - Humanities, General Education - International

GRW 4340 Homer and Greek Epic 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of selections from Homer's Iliad and Odyssey. (H and N)
Prerequisite: two 3000-level Greek courses or the equivalent.
Attributes: General Education - Humanities, General Education - International

GRW 4380 Greek Historians 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of selections of Herodotus, Thucydides, Xenophon and Plutarch. (H and N)
Prerequisite: two 3000-level Greek courses or the equivalent.
Attributes: General Education - Humanities, General Education - International

GRW 4700 Greek Orators 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of selections from Lysias, Demosthenes and Isocrates. (H and N)
Prerequisite: two 3000-level Greek courses or the equivalent.
Attributes: General Education - Humanities, General Education - International

GRW 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
Reading, conference and reports.
Prerequisite: GRE 1131 or the equivalent.

GRW 4911 Undergraduate Research in Greek Language and Literature 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

GRW 4930 Studies in Greek Literature 3 Credits
Grading Scheme: Letter Grade
Advanced study of a particular author, genre, period or subject.
Prerequisite: one 3000-level course in ancient Greek.

LIT 2000 Introduction to Literature 3 Credits
Grading Scheme: Letter Grade
Examines the important role literature has played in individuals' lives and in society, presenting a range of literary styles and genres, from different countries and historical periods. Special attention paid to development of critical skills of analysis and interpretation. (H)
Prerequisite: ENC 1101
Attributes: General Education - Humanities

Haitian Creole | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

HAI 1130 Beginning Haitian Creole 1 5 Credits
Grading Scheme: Letter Grade
HAI 1130 and its sequel, HAI 1131, constitute the basic sequence for development of conversational skills and grammar essentials in the language.
Prerequisite: bilingual students are encouraged to speak to the instructor as they may be able to enter directly into HAI 1131 to satisfy their foreign language requirement.

HAI 1131 Beginning Haitian Creole 2 5 Credits
Grading Scheme: Letter Grade
Second part of the basic Haitian Creole sequence for development of conversational skills and grammar essentials in the language.
Prerequisite: HAI 1130 or the equivalent.

HAI 2200 Intermediate Haitian Creole 1 3 Credits
Grading Scheme: Letter Grade
Concentrates on conversation and readings and provides an introduction to Haitian culture through music and film.
Prerequisite: HAI 1131 or the equivalent.

HAI 2201 Intermediate Haitian Creole 2 3 Credits
Grading Scheme: Letter Grade
Continued concentration on conversation with added emphasis on reading and perspectives on issues related to the Haitian way of living.

HAI 3930 Haitian Culture and Society 3 Credits
Grading Scheme: Letter Grade
Central aspects of history, politics, environment and development are addressed, including gender relations, medicine, education, work, race and class. No knowledge of Haitian Creole is required.

HAI 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course. Must be arranged individually with Haitian faculty.
Prerequisite: department permission.

HAI 4911 Undergraduate Research in Language, Linguistics, Literature, Culture in Some Combination of English, 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in language, linguistics, literature, culture in some combination of English, Haitian, Creole, or French. Projects may involve inquiry, design, investigation, scholarship, discovery or application.

HAT 3503 Haitian Culture and Literature in Translation 3 Credits
Grading Scheme: Letter Grade
Examines representations of Haiti and its culture through Haitian literature, art, film, and music.
Attributes: General Education - Humanities, General Education - International

HAT 3564 Haitian Culture and Society 3 Credits
Grading Scheme: Letter Grade
Central aspects of history, politics, environment and development are addressed, including attention to gender relations, medicine, education, work, race and class. No knowledge of Haitian Creole is required. (H and N OR S and N) (WR)
Attributes: General Education - Humanities, General Education - International, General Education - Social Science, Satisfies 2000 Words of Writing Requirement

HAT 3700 Introduction to Haitian Creole Linguistics 3 Credits
Grading Scheme: Letter Grade
Class examines the major sub-fields of linguistics by means of the Haitian Creole language. Haitian Creole syntax, morphology, phonology, semantics and lexicon are introduced in addition to sociolinguistics, dialectology, language planning, bilingualism and language contact. (H and N OR H and D) (WR)
Attributes: General Education - Diversity, General Education - Humanities, General Education - International, Satisfies 2000 Words of Writing Requirement

HAT 4911 Undergraduate Research in Language, Linguistics, Literature, Culture in Some Combination of English, 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

JMT 3500 Jamaican Creole, Reggae, and Rastafari 3 Credits
Grading Scheme: Letter Grade
Studies Jamaican Creole, reggae music, and Rastafari religion and culture; introduces the language, music, and religion of the Caribbean island. Methodology includes linguistics, ethnomusicology, and religious studies to read Jamaican Creole, interpret reggae songs, and analyze the Rastafari culture to which they link.
Prerequisite: Sophomore standing or LAS 2001 Introduction to Latin American Studies or AFH 2000 Africa in World History or AFA 2000 Introduction to African-American Studies or REL 2000 Introduction to Religion
Attributes: General Education - Humanities, General Education - International, Satisfies 2000 Words of Writing Requirement

Health Education and Behavior

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

APK 4940C Internship 12 Credits
Grading Scheme: S/U
Internship in applied physiology and kinesiology. (S-U)
Prerequisite: department permission.

HLP 4933 Variable International Topics 1-6 Credits
Grading Scheme: Letter Grade
Provides the opportunity to study in a wide range of cultural settings.

HSC 3032 Foundations of Health Education 3 Credits
Grading Scheme: Letter Grade
Theory and practice in the health education profession.
Prerequisite: APK 2100C, APK 2105C, PSY 2012, STA 2023, and (MAC 1105 or MAC 1140 or MAC 1147 or MAC 2311); Health education and behavior majors, junior or senior standing only.

HSC 3102 Personal and Family Health 3 Credits
Grading Scheme: Letter Grade
Surveys personal health concerns: emotional health; aging and death; alcohol, tobacco and drug abuse; physical fitness; nutrition and dieting; consumer health; chronic and communicable diseases; human sexuality; and environmental health. (S)
Attributes: General Education - Social Science

HSC 3201 Community and Environmental Health 3 Credits
Grading Scheme: Letter Grade
Surveys community health organizations and contemporary health issues such as population growth, environment, poverty, medical care and disease.
Prerequisite: HSC 3032 with a minimum grade of C; Health education and behavior majors, junior or senior standing only.

HSC 3301 Health Education in Elementary Schools 3 Credits
Grading Scheme: Letter Grade
Development of comprehensive health education programs in grades K-5, subject matter selection, curriculum planning, lesson and unit planning, and innovative approaches to health instruction.
Prerequisite: Health education and behavior majors and junior/senior/graduate standing.

HSC 3537 Health and Medical Terminology 3 Credits
Grading Scheme: Letter Grade
Develops a working knowledge of terminology related to the human body in health and disease through descriptive definitions, practical applications, understanding word roots, combinations and medical abbreviations.

HSC 4133 Human Sexuality Education 3 Credits
Grading Scheme: Letter Grade
Emphasizes content, issues, methodology and materials for the study of human sexuality. Prepares students to educate individuals and groups.
Prerequisite: Health education and behavior majors, junior or senior standing.

HSC 4134 Emotional Health and Counseling 3 Credits
Grading Scheme: Letter Grade
Introduces theories of emotional well-being and health education, and the means of incorporating positive mental health practices into the health education programming and health counseling.
Prerequisite: Health education and behavior majors, junior or senior standing.

HSC 4143 Drug Education 3 Credits
Grading Scheme: Letter Grade
Broad view of the elements of drug use and abuse, such as individual behavior, environmental factors and drugs. Drug taking is approached in a factual stance; i.e., what has been documented to date, so that participants can separate speculation and bias from fact. The emphasis is also placed on methods pertaining to the preventive aspects of drug use and abuse.
Prerequisite: APK 2105C or (BSC 2086 and BSC 2086L) or (BSC 2094 and BSC 2094L) with minimum grades of C; Health education and behavior majors, junior or senior standing only.

HSC 4174 Behavioral and Environmental Determinants of Obesity 3 Credits
Grading Scheme: Letter Grade
Explores interactions among individual, behavioral and environmental determinants of obesity. Focuses on the extent of the obesity problem primarily in the US from an epidemiological perspective. Ideas for prevention and control are discussed along with effective interventions to address obesity (policy development and implementation).
Prerequisite: Health education and behavior majors, junior or senior standing.

HSC 4232C Exercise Therapy, Adapted Physical Activity and Health 3 Credits
Grading Scheme: Letter Grade
Art and science of teaching exercise therapy effectively, including adapted physical activities and healthy living strategies. Presents medical and health characteristics of common disabilities and methods for prescribing appropriate exercise therapy programs. Also presents multiple adapted-equipment ideas to facilitate teaching in inclusive settings for all ages. Clinical experience with individuals with disabilities. (S and D)
Prerequisite: Health education and behavior or applied physiology and kinesiology - fitness/wellness majors, and junior or senior standing.
Attributes: General Education - Diversity, General Education - Social Science

HSC 4233 Patient Health Education 3 Credits
Grading Scheme: Letter Grade
Introduces theories that apply to the practice of patient education in a variety of health care settings. Emphasizes placed on education for health promotion and lifestyle changes. Additionally, provides an overview of the U.S. health care industry.
Prerequisite: Health education and behavior or applied physiology and kinesiology - fitness/wellness majors, and junior or senior standing.

HSC 4302 Methods and Materials in Health Education 3 Credits
Grading Scheme: Letter Grade
Fundamental strategies for health science education including conceptualizing instruction, specifying instructional objectives, and planning units and lessons using various instructional methods, selecting and using instructional materials, and evaluating the effectiveness of health instruction in school and community settings.
Prerequisite: HSC 3032 with minimum grade of C and Health education and behavior majors, senior standing; must be taken the fall or spring semester prior to HEB internship.

HSC 4450 Driver and Traffic Safety Education 1 3 Credits
Grading Scheme: Letter Grade
Analyzes driver and traffic safety problems; training for efficient motor vehicle operation through experience with simulators, dual control cars and multiple car driving range.
Prerequisite: junior or senior standing and a state driver's license.

HSC 4451 Driver and Traffic Safety Education 2 3 Credits
Grading Scheme: Letter Grade
Organization, administration and teaching techniques of driver education for public high schools, including student teaching.
Corequisite: HSC 4450.

HSC 4564 Health Promotion in Gerontology 3 Credits
Grading Scheme: Letter Grade
Addresses the dimensions of healthy aging. Examines the relevance of behavior change theory with older adults and provides specific tools to design and implement health programs with older adults.
Prerequisite: HSC 3032 with a minimum grade of C and Health education and behavior majors, junior or senior standing.

HSC 4574 Nutrition Education for Special Populations 3 Credits
Grading Scheme: Letter Grade
Development of nutrition education programs for selected population groups. Emphasizes educational techniques utilized to inform special populations of changing nutritional needs. Discusses population groups such as ethnic minorities, the elderly, the pregnant female and the athlete.
Prerequisite: HSC 3032 and HUN 2201 or equivalent, with minimum grades of C; Health education and behavior majors, junior or senior standing.

HSC 4579 Women's Health Issues 3 Credits
Grading Scheme: Letter Grade
Women and men experience similar diseases, disorders, and causes of death, but women often experience these in different forms and at different stages in life. Explores current womens health issues, and covers a broad range of health issues of special importance to women.
Prerequisite: Health education and behavior or applied physiology and kinesiology - fitness/wellness majors, and junior or senior standing.

HSC 4593 HIV/AIDS Education 3 Credits
Grading Scheme: Letter Grade
Seminar examines the medical, social, legal and educational implications of HIV/AIDS on individuals and society. Includes lectures, guest and student presentations, videos and student-initiated discussions. Local, state and national experts in the fields of medicine, epidemiology, law, education and health promotion provide lectures.
Prerequisite: Health education and behavior majors and junior or senior standing.

HSC 4623 Minority Health Issues 3 Credits
Grading Scheme: Letter Grade
Addresses health issues confronting politically and socioeconomically disadvantaged groups and ethnic minority groups in America. Not intended to be a comprehensive treatment of all pertinent health problems affecting minorities, but does address some of the more salient health concerns.
Prerequisite: Health education and behavior majors and junior or senior standing.

HSC 4624 Trends in International Health 3 Credits
Grading Scheme: Letter Grade
Overview of problems and practices in international health including disease patterns and prevalence, contributing factors, organizational and government initiatives and model programs with special emphasis on problems amenable to health education interventions. (S and N)
Prerequisite: Health education and behavior majors and junior or senior standing.
Attributes: General Education - International, General Education - Social Science

HSC 4663 Community Health Methods in Injury Prevention and Control 3 Credits
Grading Scheme: Letter Grade
Introduces current theory and knowledge in the field of unintentional injury prevention; prepares students to critically analyze current intervention strategies and explores new directions for unintentional injury prevention and control. Topics include the importance of injury as a problem, historical and conceptual underpinnings of injury prevention, epidemiology of injury, mechanisms of injury, basic concepts of injury prevention, the role of the law in injury prevention and the role if injury surveillance on unintentional injuries.
Prerequisite: Health education and behavior majors and junior or senior standing.

HSC 4664 Health Communication for Consumers 3 Credits
Grading Scheme: Letter Grade
Health communication processes and practices for health consumers and health professionals who facilitate health consumers. (WR)
Prerequisite: HSC 3032 with a minimum grade of C and Health education and behavior majors, junior or senior standing.
Attributes: Satisfies 6000 Words of Writing Requirement

HSC 4694 Worksite Health Promotion 3 Credits
Grading Scheme: Letter Grade
Considerations in planning, implementing and evaluating comprehensive health education and health promotion programs at the worksite including health risk appraisal, program design and special educational strategies appropriate for the occupational setting.
Prerequisite: HSC 3032 with a minimum grade of C and Health education and behavior majors, junior or senior standing.

HSC 4713 Planning and Evaluating Health Education Programs 3 Credits
Grading Scheme: Letter Grade
Frameworks, principles and strategies for planning, implementing and evaluating health promotion interventions.
Prerequisite: HSC 3032 with a minimum grade of C and Health education and behavior majors, junior or senior standing.

HSC 4800 Health Education Professional Development 3 Credits
Grading Scheme: Letter Grade
Review and discussion of the health education field, including career opportunities, department policies for health education internship selection and registration, professional development information and preparation for future employment and/or graduate coursework in the health education field.
Prerequisite: HSC 3032 with minimum grade of C and Health education and behavior majors, senior standing; must be taken the fall or spring semester prior to HEB internship.

HSC 4813 Practicum in Health Education 1-3 Credits
Grading Scheme: S/U
Health education practicum. (S-U)
Prerequisite: Health education major.

HSC 4876 Internship in Health Education 1-16 Credits
Grading Scheme: Letter Grade
Health education internship.
Prerequisite: HSC 3032 and HSC 4800 with minimum grades of C and 4HH-Health education and behavior majors.

HSC 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
Supervised program of study to investigate problems significant to health professions.
Prerequisite: HSC 3032 with minimum grade of C and Health education and behavior majors, junior or senior standing; faculty member or program coordinator permission.

HSC 4910 Supervised Research Experience 1-3 Credits
Grading Scheme: S/U
Explores an area of interest in health research or the delivery and/or administration of health services through first-hand, supervised research experience.
Prerequisite: HSC 3032 with minimum grade of C and Health education and behavior majors, junior or senior standing; faculty member or program coordinator permission.

HSC 4912 Undergraduate Research 0-5 Credits
Grading Scheme: S/U
Provides health education and behavior undergraduates the opportunity to engage in supervised research. For this purpose, research is defined as an independent or team participatory experience that provides an opportunity to systematically investigate an existing or emerging health problem and to communicate the results of their work to others. (S-U)

HSC 4950 Current Topics in Health Education 3 Credits
Grading Scheme: Letter Grade
Variable topics in health education.
Prerequisite: Health education and behavior majors and junior or senior standing.

PET 4905C Variable Topics in Exercise and Sport Sciences 1-5 Credits
Grading Scheme: Letter Grade
Offered upon request to meet students' special interests that are not adequately provided in other courses.
Prerequisite: department chair permission.

PET 4948C Practicum in Exercise and Sport Sciences 1-5 Credits
Grading Scheme: Letter Grade
Practical experience in such specialty areas as adult fitness programs, health clubs, exercise testing laboratories, clinical laboratories and athletic training rooms. May include senior thesis with oral defense.
Prerequisite: department chair permission.

Health Professions

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

HSC 2000 Introduction to Health Professions 3 Credits
Grading Scheme: Letter Grade
Lecture, discussion and group assignments provide the opportunity to learn about different disciplines making up a health care team and their role in both the science and practice of health care.

HSC 4008 Professional Development for the Health Sciences 1 Credit
Grading Scheme: S/U
Fosters the professional development needed to transition into the health and public health professions. Enrichment activities include diversity training, presentation skills training, career planning, and developing an online portfolio. (S-U)
Prerequisite: PHHP senior in the limited-access program.

HSC 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
Supervised program of study to investigate problems significant to health professions.
Prerequisite: HSC 3032 with minimum grade of C and Health education and behavior majors, junior or senior standing; faculty member or program coordinator permission.

HSC 4910 Supervised Research Experience 1-3 Credits
Grading Scheme: S/U
Explores an area of interest in health research or the delivery and/or administration of health services through first-hand, supervised research experience.
Prerequisite: HSC 3032 with minimum grade of C and Health education and behavior majors, junior or senior standing; faculty member or program coordinator permission.

HSC 4930 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Special topics in health science. Please refer to the department for specific course information. Can be repeated with change in content up to 12 credits.

HSC 4969 Honors Seminar in the Health Professions 1-3 Credits
Grading Scheme: Letter Grade
Philosophy and implementation of scientific work, including an introduction to faculty research. Provides the opportunity to explore and discuss potential honors thesis topics.
Prerequisite: 3.5 GPA, majors only and department permission.

HSC 4970 Public Health and Health Professions Senior Honors Thesis 1-6 Credits
Grading Scheme: Letter Grade
Special project leading to the distinction of magna or summa cum laude at graduation. The project can be any creative work that focuses on a specific topic or issue in the health professions. The student develops an outline of the special project prior to project initiation and produces a final paper at project completion. The paper must be approved by the program and dean's office for the student to graduate magna or summa cum laude.
Prerequisite: HSC 4969, senior standing, majors only and a 3.75 GPA.

PHC 4101 Public Health Concepts 3 Credits
Grading Scheme: Letter Grade
Introduces the basic tenets, applications and foci of public health, including integrating public health with other health professions.
Prerequisite: (BSC 2007 or BSC 2005 or BSC 2010) and PSY 2012 and STA 2023.

PHC 4320 Environmental Concepts in Public Health 3 Credits
Grading Scheme: Letter Grade
Surveys major environmental health topics by examining sources, routes, media, and health outcomes associated with biological, chemical, and physical agents in the environment. Introduces the economic and legal frameworks associated with environmental health issues and public health.
Prerequisite: PHC 4101.

PHC 4930 Special Topics in Public Health 1-6 Credits
Grading Scheme: S/U
Exploration of a general or a specific area of public health.
Prerequisite: junior or senior standing.

Health Science

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

HSA 3111 U.S. Health Care System 3 Credits
Grading Scheme: Letter Grade
Overview of organization, delivery and financing of health services in the U.S. Topics include health professionals, health care facilities, financing of health services, managed care and current health policy issues.
Prerequisite: (BSC 2007 or BSC 2005 or BSC 2010) and PSY 2012 and STA 2023 and (health science or communication sciences and disorders or public health majors or health science or public health minors).

HSA 4110 Healthcare Operations Concepts 3 Credits
Grading Scheme: Letter Grade
Covers several relevant topics related to the business end of healthcare, including business management principles for practitioners, healthcare reimbursement methodologies, and basic healthcare financial management such as simple budgeting and debt financing.

HSA 4191 Health Informatics & Emerging Healthcare Technologies 3 Credits
Grading Scheme: Letter Grade
Provides a fundamental understanding health informatics, healthcare information systems, and emerging healthcare technologies, starting with the core informatics competencies and the foundation of knowledge model.

HSC 3057 Research Methods and Issues in Health Science 3 Credits
Grading Scheme: Letter Grade
Emphasizes four aspects of research: understanding research principles, evaluating journal articles, applying research findings to clinical settings and designing programmatic evaluation projects.
Prerequisite: HSC 3502 and health science majors/minors only.

HSC 3502 Survey of Diseases and Disability 3 Credits
Grading Scheme: Letter Grade
Overview of medical and psychosocial aspects of chronic diseases and disability.
Prerequisite: health science or communication sciences and disorders majors or health science minor.

HSC 3661 Therapeutic Communication Skills with Patients, Families and the Health Care Team 2 Credits
Grading Scheme: Letter Grade
Learn appropriate verbal and nonverbal behavior to be used with patients, families and the health care team through lecture, discussion and role play in large and small groups.
Prerequisite: HSA 3111 and HSC 3502 and HSC 4558 and Health Science major.
Corequisite: RCS 4415L.

HSC 3801 Clinical Observation / Health Care Volunteer Work 1-4 Credits
Grading Scheme: S/U
Learn about a specific health care field or gain knowledge about specific patient or client populations through direct observation and/or hands-on assistance. (S-U)
Prerequisite: health science majors only and department permission.

HSC 4184 Health Care Leadership: Skills and Styles 3 Credits
Grading Scheme: Letter Grade
Behavioral styles that contribute to leadership effectiveness. Studies specific styles for their contributions to motivating people and overall leadership effectiveness in health care.
Prerequisite: HSA 3111 and HSC 3502 and HSC 4558 and Health Science major.

HSC 4558 Survey of Diseases and Disabilities 2 3 Credits
Grading Scheme: Letter Grade
Overview of medical and psychosocial aspects of chronic diseases, including issues of disability management. This required course, combined with HSC 3502, covers all of the major disabling conditions.
Prerequisite: HSC 3502; Health Science, Public Health, Communication Sciences and Disorders majors/minors only

HSC 4608L Critical Thinking in Health Care 4 Credits
Grading Scheme: Letter Grade
Develops critical thinking skills to solve problems in the health care environment.
Prerequisite: HSA 3111 and HSC 3502 and HSC 4558, and HSC 3661 and Health Science major.

HSC 4652L Ethical and Legal Issues in the Health Professions 3 Credits
Grading Scheme: Letter Grade
Overview of ethical and legal issues in the health professions, including contemporary ethical issues in disease management.
Prerequisite: HSA 3111 and HSC 3502 and HSC 4558 and Health Science major.

HSC 4930 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Special topics in health science. Please refer to the department for specific course information. Can be repeated with change in content up to 12 credits.

OTH 3416 Pathophysiology 3 Credits
Grading Scheme: Letter Grade
Basic understanding of pathophysiology as a change from normal physiological functioning of the various systems of the human body.
Prerequisite: APK 2105C, HSA 3111, HSC 3502, and health science majors/minors only, or instructor permission.

PHC 2100 Introduction to Public Health 3 Credits
Grading Scheme: Letter Grade
Overview of public health as a multifaceted field. Includes discussion of contemporary public health challenges with input from discipline experts.

PHC 3440 Global Public Health 3 Credits
Grading Scheme: Letter Grade
Critical links between global health and social and economic development. Discusses the burden of disease and how to measure this across countries. Focuses on low and middle income countries and the health of the poor.
Prerequisite: PHC 4101 and junior standing.

PHC 4024 Applied Epidemiology 3 Credits
Grading Scheme: Letter Grade
Principles and methods of epidemiological investigation focusing on both infectious and noninfectious diseases. Emphasizes outbreak investigations, field epidemiology and epidemiology careers.
Prerequisite: HSC 3057, HSC 3502, HSC 4558, PHC 4101, and Health Science and Public Health majors/minors only.

PHC 4094 Introduction to Biostatistics for Health Science and Public Health 3 Credits
Grading Scheme: Letter Grade
Methods and public health applications for analysis of variance, correlation, simple linear regression, multiple linear regression, nonparametric and distribution-free statistical methods, and some basic concepts about survival analysis. Public health applications using statistical software. Writing data analysis reports.
Prerequisite: STA 2023.

PHC 4101 Public Health Concepts 3 Credits
Grading Scheme: Letter Grade
Introduces the basic tenets, applications and foci of public health, including integrating public health with other health professions.
Prerequisite: (BSC 2007 or BSC 2005 or BSC 2010) and PSY 2012 and STA 2023.

PHC 4117 Public Health Management Leadership 3 Credits
Grading Scheme: Letter Grade
Provides knowledge relevant to leading public health organizations while effectively managing and motivating employees. Includes organizational behavior and theories to examine management, leadership and application of skills in delivering public health programs.
Prerequisite: HSA 3111, HSC 3502, HSC 4558, PHC 4101, and public health majors only.

PHC 4943 Service Learning Practicum 3 Credits
Grading Scheme: Letter Grade
Covers development of the role of a public health and human services provider in an agency setting.
Prerequisite: HSC 3057, PHC 4101, senior standing, and public health majors only.

Hebrew | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

HBR 1130 Beginning Modern Hebrew 1 5 Credits
Grading Scheme: Letter Grade
Beginning Hebrew covers four skills: listening, speaking, reading, and writing. For those with no prior exposure to the language.

HBR 1131 Beginning Modern Hebrew 2 5 Credits
Grading Scheme: Letter Grade
Continues beginning Hebrew, covering four skills: listening, speaking, reading, and writing.
Prerequisite: HBR 1130 with minimum grade of C or S, or the equivalent.

HBR 2220 Intermediate Modern Hebrew 1 4 Credits
Grading Scheme: Letter Grade
Intermediate Hebrew study covers four skills: listening, speaking, reading, and writing with new vocabulary and grammar.
Prerequisite: HBR 1131 with minimum grade of C or S, or the equivalent.

HBR 2221 Intermediate Modern Hebrew 2 4 Credits
Grading Scheme: Letter Grade
Continues intermediate Hebrew covering four skills: listening, speaking, reading, and writing.
Prerequisite: HBR 2220 with minimum grade of C or S, or the equivalent.

HBR 3410 Advanced Modern Hebrew 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills: listening, speaking, reading, and writing with attention to more complex structures. (H and N)
Prerequisite: HBR 2220 or HBR 2133 with minimum grade of C or S, or the equivalent.
Attributes: General Education - Humanities, General Education - International

HBR 3411 Advanced Modern Hebrew 2 3 Credits
Grading Scheme: Letter Grade
Continues advanced Hebrew study of the four skills: listening, speaking, reading, and writing with attention to more complex structures. (H and N)
Prerequisite: HBR 3410 with minimum grade of C or S, or the equivalent.
Attributes: General Education - Humanities, General Education - International

HBR 3412 Hebrew News and Media 3 Credits
Grading Scheme: Letter Grade

HBR 4905 Individual Work 1-5 Credits
Grading Scheme: Letter Grade
Individual work on an approved topic.
Prerequisite: refer to the department.

HBR 4930 Special Topics 3 Credits
Grading Scheme: Letter Grade
Proseminar of variable content providing an opportunity for in-depth study of special topics in Israeli literature, history, or culture.

HBR 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

HBT 3100 Introduction to Israeli Culture 3 Credits
Grading Scheme: Letter Grade
Presentation and analysis of some key facets of Israeli culture. Topics include Jewish vs. Zionist (and Israeli non-Jewish) identities, Israeli-Palestinian conflict, Israeli-American relations, gender, and function of art in Israeli society.
Prerequisite: HBR 1130 or sophomore standing.

HBT 3223 Identity and Dissent in the Hebrew Short Story 3 Credits
Grading Scheme: Letter Grade
Traces the tension between the individual and the collective in Zionist/Israeli society over the last 100-plus years as illustrated in Hebrew short fiction.

HBT 3233 Israeli History and the Contemporary Novel 3 Credits
Grading Scheme: Letter Grade
Studies Israeli history through the lens of the contemporary novel.
Attributes: General Education - Humanities

HBT 3563 Women in Modern Hebrew Fiction 3 Credits
Grading Scheme: Letter Grade
Depictions of women in 20th century Hebrew fiction.

HBT 3564 Motherhood in Modern Hebrew Literature 3 Credits
Grading Scheme: Letter Grade
Applied feminist theories regarding motherhood to the field of modern Hebrew literature.

HMW 4200 Readings in Modern Hebrew Literature 1 3 Credits
Grading Scheme: Letter Grade
Readings in modern Hebrew novels, short fiction and poetry. While the study of literature is emphasized, some language work is presented to help with reading comprehension. Texts and instruction are in Hebrew.
Prerequisite: HBR 3411 or equivalent.

HMW 4201 Readings in Modern Hebrew Literature 2 3 Credits
Grading Scheme: Letter Grade
Readings in modern Hebrew texts, including recently published stories and poems. Class is instructed in Hebrew.
Prerequisite: HMW 4200 or equivalent.

Hindi-Urdu | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

HIN 1130 Beginning Hindi 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering reading, writing, listening, and speaking with emphasis on acquisition of devanagari script.

HIN 1131 Beginning Hindi 2 5 Credits
Grading Scheme: Letter Grade
Continued study with emphasis on grammar and vocabulary essential to basic communicative functions.
Prerequisite: HIN 1130 with minimum grade of C, or the equivalent, or instructor permission.

HIN 2200 Intermediate Hindi 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: HIN 1131 or equivalent, or instructor permission.

HIN 2201 Intermediate Hindi 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study.
Prerequisite: HIN 2200 or equivalent, or instructor permission.

HIN 4930 Special Topics in Hindi-Urdu 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in and in-depth study of prose or poetic genres in Hindi and/or Urdu. Supplementary critical readings in English.
Prerequisite: HIN 2201 or equivalent, or instructor permission.

History

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

AFH 2000 Africa in World History 3 Credits
Grading Scheme: Letter Grade
One-semester introduction to African history for undergraduates. Links the history of African societies with other world civilizations by focusing upon major historical themes. (H and N)
Attributes: General Education - Humanities, General Education - International

AFH 3100 Africa to 1800 3 Credits
Grading Scheme: Letter Grade
Ancient Africa, the expansion of Islam, savannah kingdoms, East African trading cities, maritime contacts with Europe, the slave trade. (H and N)
Attributes: General Education - Humanities, General Education - International

AFH 3200 Africa Since 1800 3 Credits
Grading Scheme: Letter Grade
End of the slave trade and the growth of legitimate commerce; Islamic renewal and revolution; the European partition and the colonial era; the growth of nationalism and the reemergence of independent Africa. (H and N)
Attributes: General Education - Humanities, General Education - International

AFH 3342 History of West Africa 3 Credits
Grading Scheme: Letter Grade
History of West Africa from the Ghana Empire to the contemporary period. (H and N)
Attributes: General Education - Humanities, General Education - International

AFH 3405 History of East Africa 1800-2000 3 Credits
Grading Scheme: Letter Grade
Introduces the history of East Africa from 1800 to the present. Focuses on the interconnected themes of ethnicity, the history of African states, gender and reproductive health.

AFH 3931 Special Topics in African History 3 Credits
Grading Scheme: Letter Grade
Selected variable topics in the history and culture of Africa.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

AFH 4250 Modern Africa 3 Credits
Grading Scheme: Letter Grade
Selected topics in 19th and 20th century African development; pre-colonial conditions, colonial rule, nationalist movements and the problem of independence. (H and N)
Attributes: General Education - Humanities, General Education - International

AFH 4253 African Women in the Twentieth-Century 3 Credits
Grading Scheme: Letter Grade
Explores themes of politics, social structure, and cultural change by examining the historical experiences of African women.

AFH 4293 Politics and Violence in Africa Since 1800 3 Credits
Grading Scheme: Letter Grade
Puts violence, one of contemporary Africa's most pressing issues, into historical perspective by focusing on the interrelated themes of ethnicity, youth, riot, rebellion, and revolt.

AFH 4450 Southern Africa 3 Credits
Grading Scheme: Letter Grade
History of southern Africa from the pre-European era to the present. (H and N)
Attributes: General Education - Humanities, General Education - International

AFH 4930 History Research Seminar: Africa 3 Credits
Grading Scheme: Letter Grade
Through rotating content, this seminar has two distinct goals: historiography of a specific topic and production of a substantial research paper based on primary source evidence.
Prerequisite: 4LS history major.

AMH 2010 United States to 1877 3 Credits
Grading Scheme: Letter Grade
Surveys the development of the U.S. from its colonial origins to the end of Reconstruction. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 2020 United States Since 1877 3 Credits
Grading Scheme: Letter Grade
Surveys the emergence of modern America as an industrial and world power; the Progressive Era; WWI; the Great Depression and the New Deal; WW II; and the Cold War era. (S and D)
Attributes: General Education - Diversity, General Education - Social Science

AMH 2631 History of Sustainability 3 Credits
Grading Scheme: Letter Grade
Explores the history of sustainability as an idea and practice in the U.S. from the time of European settlement to the near present.

AMH 2642 American History through Films 3 Credits
Grading Scheme: Letter Grade
Hollywood films examine cultural anxieties concerning racial identities, gender roles, and sexual behaviors in the postwar period, from the mid-1940s to the present.

AMH 3223 The Gilded Age 3 Credits
Grading Scheme: Letter Grade
Changes that occurred in America between 1877 and the advent of WWII, emphasizing the meaning of Americanism, conflicts between labor and capital, and the relations between historical events and race, gender and politics.
Prerequisite: 3 credits of history.

AMH 3273 America in the Sixties 3 Credits
Grading Scheme: Letter Grade
Social and political movements of the turbulent era of 1960s America, covering primarily the civil rights, feminist and anti-war movements.
Prerequisite: 3 credits of history.

AMH 3340 History of Disability in America 3 Credits
Grading Scheme: Letter Grade
How disabilities have been labeled, identified and treated over time and in light of broad social trends.

AMH 3421 Florida to 1845 3 Credits
Grading Scheme: Letter Grade
Exploration and settlement, colonial history of Spanish and British Florida, U.S. territorial days to statehood. (H) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 3423 Florida Since 1845 3 Credits
Grading Scheme: Letter Grade
Statehood and secession, Civil War, Reconstruction, reform and reaction, Progressive Era, boom and bust, diversification and growth of Florida since World War II. (H) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 3460 U.S. Urban History 3 Credits
Grading Scheme: Letter Grade
Analyzes the growth and development of urban civilization in the U.S. Emphasis on how cities began and their impact on politics, economics and culture. (H or S)(WR)
Prerequisite: 3 credits of history with a grade of C or better.
Attributes: General Education - Humanities, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

AMH 3500 U.S. Labor History 3 Credits
Grading Scheme: Letter Grade
Emphasizes the history of America's working class people, and addresses such issues as working class consciousness, theories of organized labor, methods of organization, and class relationships. (D and H) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Diversity, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 3511 American Foreign Relations and Expansion Since 1914 3 Credits
Grading Scheme: Letter Grade
Focuses on the origin, conduct, and consequences of American diplomacy during an era of global conflict and revolutionary upheaval. (H) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 3519 U.S. - Middle East Relations 3 Credits
Grading Scheme: Letter Grade
Examines U.S.-Middle East relations in historical context, including culture, U.S.-Israeli relations, nationalists, radicals, and events and issues that impact this relationship.
Prerequisite: 3 credits of history.

AMH 3531 The American Jewish Experience 1880-2000 3 Credits
Grading Scheme: Letter Grade
Introduces the major events and issues in American Jewish history and offers a sense of why Jews felt at home in America. Focuses on immigration, assimilation and collective survival.

AMH 3551 Constitutional History of the United States to 1877 3 Credits
Grading Scheme: Letter Grade
Analyzes the development of constitutionalism from English colonial origins to the end of Reconstruction, emphasizing the inherent tension between concepts of power and liberty. (H) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 3552 Constitutional History of the United States Since 1877 3 Credits
Grading Scheme: Letter Grade
Continues AMH 3551, giving special attention to the way in which constitutionalism has adapted to the growth of an urban and industrial society, to the extension of civil liberties and civil rights, and to the growth of executive authority. (H) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 3558 United States Legal History 3 Credits
Grading Scheme: Letter Grade
Nontechnical survey of American legal development from its English common law origins to the present. (H) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 3561 American Women in the 19th Century 3 Credits
Grading Scheme: Letter Grade
Examines women's history during the 19th century with a focus on how women gradually entered the public arena as laborers, reformers, writers, and performers.
Prerequisite: 3 credits of history.

AMH 3562 Women in Modern U.S. 3 Credits
Grading Scheme: Letter Grade
Introduces major events, trends and issues in the history of U.S. women from the Civil War to the present. (H)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities

AMH 3582 African American and Latino Histories 3 Credits
Grading Scheme: Letter Grade
Comparative examination of the histories of African Americans and Latinos from the early 19th century to present. Major themes include the social construction of race, the development of state policies that enforced racial inequality, struggles for equal citizenship, cultural and social movements for change.
Prerequisite: 3 credits of history.

AMH 3593 Oral History 3 Credits
Grading Scheme: Letter Grade
Introduces the theory and practice of oral history. Examines key issues in historical memory, interviewing, and community-based fieldwork; also examines scholarly debates on oral history as a dialogic mode of knowledge production. Learn digital humanities production methods to bring historical knowledge to broader audiences.
Prerequisite: 3 credits of history.

AMH 3630 American Environmental History 3 Credits
Grading Scheme: Letter Grade
Substantive and interpretative inquiry of the historical roots of the nation's contemporary environmental issues. A comprehensive overview of the relationship between people and their natural physical surroundings from the Columbian explorations to the 1980s.

AMH 3660 Native American History to 1815 3 Credits
Grading Scheme: Letter Grade
Examines the representations and realities of North American Indian history from the pre-Columbian period through the early 19th century. (H)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities

AMH 3661 Native American History Since 1806 3 Credits
Grading Scheme: Letter Grade
Examines the representations and realities of North American Indian history from the early 19th century to the present. (H and D)
Prerequisite: 3 credits of history.
Attributes: General Education - Diversity, General Education - Humanities

AMH 3670 African Diaspora in the Americas 3 Credits
Grading Scheme: Letter Grade
Explores the centrality of Africa in the Americas by studying revolutions against slavery and colonialism in the African Diaspora from the 18th century to present with a special emphasis on the development of democratic ideologies among people of African descent in the Americas.
Prerequisite: 3 credits in AFH, ASH, AMH, EUH, HIS, LAH, or WOH.

AMH 3674 American Slavery and Abolition 3 Credits
Grading Scheme: Letter Grade
History of American slavery and abolition from the 1600s through emancipation and the Reconstruction Era.
Prerequisite: 3 credits of history.

AMH 3931 Special Topics in American History 3 Credits
Grading Scheme: Letter Grade
Selected, variable topics in the history and culture of America.
Prerequisite: 3 credits of history.

AMH 4110 Early America 3 Credits
Grading Scheme: Letter Grade
Origin and development of an American society along the eastern seaboard of North America. (H) (WR)
Prerequisite: 6 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 4111 New World Encounters 3 Credits
Grading Scheme: Letter Grade
Analyzes the intellectual, cultural and social changes which resulted in a mixture of ideas and cultures from Europe, Africa, and native America. (H) (WR)
Prerequisite: 6 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 4130 American Revolutionary Era, 1760-1789 3 Credits
Grading Scheme: Letter Grade
Analyzes the background of, and reasons for, the American Revolution, the social, military, political, diplomatic aspects of the era, as well as the constitutional developments of these years. (H) (WR)
Prerequisite: 6 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 4160 The Early Republic, 1789-1848 3 Credits
Grading Scheme: Letter Grade
Social, political, cultural and economic history of America in its formative years. The Age of Jefferson (1789-1824) and the period of the first party system, including the policies and the wars of the Virginia dynasty. The second half, the Age of Jackson (1824-1848), discusses the rise of the Democratic and Whig parties, Indian removal, trends in religion and reform, further western expansion and the sectionally divisive Mexican War. (H) (WR)
Prerequisite: 6 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 4231 U.S. World War I to World War II 3 Credits
Grading Scheme: Letter Grade
Post-World War I America: the Twenties, the Depression and the New Deal, WW II. (H) (WR)
Prerequisite: 6 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 4270 U.S. Since World War II 3 Credits
Grading Scheme: Letter Grade
Post-World War II America: America as world power, social revolution, Vietnam, Watergate and after. (H) (WR)
Prerequisite: 6 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 4312 History of Sexualities 3 Credits
Grading Scheme: Letter Grade
Social history of sexuality, tracing history of ideas about and attitudes toward sexuality in law, politics, medicine and science from ancient Greeks to the present; emphasizes the North American experience.

AMH 4316 Violence and Social Conflict in American History 3 Credits
Grading Scheme: Letter Grade
Changing patterns and levels of violent behavior, including rioting, lynching, domestic violence, street violence, during the last four centuries of American history.

AMH 4317 History by Hollywood 3 Credits
Grading Scheme: Letter Grade
Compares Hollywood films with traditional historiographic accounts to explore the cultural and political history of the 1950s, '60s and '70s, including the Montgomery Bus Boycott, civil rights, the Vietnam War and political assassinations.

AMH 4319 Crime and Punishment in American History 3 Credits
Grading Scheme: Letter Grade
Historical development of crime and criminal justice in America with particular attention to the ways in which social, political and cultural forces have shaped legal institutions during the past four centuries.

AMH 4373 History of American Capitalism 3 Credits
Grading Scheme: Letter Grade
Political, economic and social contours of American capitalism from the late 18th century through the near present.
Prerequisite: 6 credits of history.

AMH 4402 The South to 1865 3 Credits
Grading Scheme: Letter Grade
Development of southern culture from the earliest settlements to the development of southern nationalism. (H)
Prerequisite: 6 credits of history.
Attributes: General Education - Humanities

AMH 4403 The South Since 1860 3 Credits
Grading Scheme: Letter Grade
Impact of Civil War and Reconstruction; economic, political and social development of the new South.
Prerequisite: 6 credits of history.

AMH 4550 Origins of the U.S. Constitution 3 Credits
Grading Scheme: Letter Grade
The colonial origins, drafting and ratification of the U.S. Constitution and its application through 1819. Examines the political, economic and intellectual influences that helped shape the Constitutional system designed by the framers.

AMH 4571 American Civil War and Reconstruction 3 Credits
Grading Scheme: Letter Grade
Analyzes the political, social and economic transformation of the Union, highlighting the Presidency of Lincoln, the evolution of federal policies of Unionist loyalty and slave emancipation, the development of Union military leadership, and the tragically unsuccessful post-war attempt to provide justice to the freed people. (H) (WR)
Prerequisite: refer to the department
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 4575 Civil Rights Movements 3 Credits
Grading Scheme: Letter Grade
Introduces the origins, development and legacies of the African-American civil rights and black movements in America, focusing primarily on the period between 1945 and 1980.

AMH 4612 Sport and American Culture 3 Credits
Grading Scheme: Letter Grade
Explores the place of sport in American society and culture from the time of European settlement to the present. Uses sport, in its institutional and recreational forms, to illuminate broader historical themes, urban and community life, economic development, social relationship, social mobility and popular and cultural processes.
Prerequisite: 6 credits of history.

AMH 4930 History Research Seminar: US 3 Credits
Grading Scheme: Letter Grade
Introduces the historiography of a specific topic and production of a substantial research paper based on primary source evidence. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

ASH 3223 History of the Modern Middle East 3 Credits
Grading Scheme: Letter Grade
Surveys the history, politics and society of the Middle East from the early 19th century until the present day. Topics include transformation of Islamic empire to post-colonial states, development of collective identities, the formation of new social classes and changing gender relations.
Prerequisite: 3 credits of history.

ASH 3303 Modern Korea: Power and Protest 3 Credits
Grading Scheme: Letter Grade
Examines the history of the Korean people from the mid-nineteenth century to the present. Focuses on the episodes that have shaped the ways in which Koreans understand their past, covering the following major themes: colonialism and anti-colonialism, war and occupation and the struggle for a more democratic polity.
Prerequisite: 3 credits of history.

ASH 3442 Modern Japan 3 Credits
Grading Scheme: Letter Grade
Surveys the social, political and economic transformation of modern Japanese society from 1800. (H and N)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, General Education - International

ASH 3931 Special Topics in Asian History 3 Credits
Grading Scheme: Letter Grade
Variable topics in the history and culture of Asia.
Prerequisite: 3 credits of history.

ASH 4930 History Research Seminar: Asia 3 Credits
Grading Scheme: Letter Grade
Variable topics seminar with two distinct goals: introduce the historiography of a specific topic and produce a substantial research paper based on primary source evidence.

EUH 2000 Western Civilization: From Early Times to the Middle Ages 3 Credits
Grading Scheme: Letter Grade
Introduces western civilization that studies the early cultures in Mesopotamia and Egypt, the Minoan-Mycenaean society, Greece, the Hellenistic period and the Roman Empire to the Barbarian invasions. (H and N)
Attributes: General Education - Humanities, General Education - International

EUH 2001 Western Civilization: From the Middle Ages to the Eighteenth Century 3 Credits
Grading Scheme: Letter Grade
Treats feudal, urban and religious institutions in Medieval society, Renaissance and Reformation, the Thirty Years' War, the Age of Louis XIV and the Age of Reason. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

Grading Scheme: Letter Grade
Origins of anti-Semitism in central Europe and the execution of the Holocaust by Nazi Germany. Examines the ideology of the Nazi leaders and the role of the SS, Army, Police, and ordinary citizens in perpetrating genocide. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 4000 Words of Writing Requirement

EUH 3035 Nazi Germany 3 Credits
Grading Scheme: Letter Grade
Political and cultural analysis of the history of Nazi Germany examining Nazi ideology, the origins of the Nazi state, coercion and consent among ordinary Germans, persecution of the disabled and of Jews, resistance and non-resistance, and the course of World War II from the German perspective.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, HIS, LAH, or WOH course.

EUH 3091 Intellectual History of Europe, Renaissance to Modern 3 Credits
Grading Scheme: Letter Grade
Examines intellectual developments that have shaped modern views of human nature, society, the natural world and God.

EUH 3121 The Early Middle Ages 3 Credits
Grading Scheme: Letter Grade
Studies the formation of the Medieval West from the dissolution of the Roman Empire to the year 1000 A.D. Emphasizes the ways in which Roman, Christian and Germanic traditions fused to form a new civilization. (H and N) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

EUH 3122 The High Middle Ages 3 Credits
Grading Scheme: Letter Grade
Examines European civilization from the 11th to the 14th centuries. Contrasts the urban and rural, northern and southern forms of economic social, cultural and political phenomena. (H and N) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

EUH 3140 Renaissance 3 Credits
Grading Scheme: Letter Grade
Interpretations of the Renaissance: Italy's political, literary and artistic developments. The northern Renaissance and Christian Humanism. (H and N) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

EUH 3144 The Reformation 3 Credits
Grading Scheme: Letter Grade
Critical religious changes in Europe from the 15th to 17th centuries. Pays particular attention to the broad impact of religion on the social, cultural and political developments of the period. (H and N)
Attributes: General Education - Humanities, General Education - International

EUH 3180 Medieval Magic 3 Credits
Grading Scheme: Letter Grade
Assessment of the cultural, religious and political implications of the supernatural in late antique, medieval and early modern European society (400-1700 CE). Besides addressing the role of scapegoating in the persecution of marginalized groups, it suggests how belief in demonic magic co-existed with Christian belief in miracles.
Prerequisite: 3 credits of history.

EUH 3182 Medieval Archaeology 3 Credits
Grading Scheme: Letter Grade
Methods and theory of archaeology with particular emphasis on the Medieval period and the relation between the written and the archaeological evidence.

EUH 3202 Early Modern Europe, 1500-1700 3 Credits
Grading Scheme: Letter Grade
Development of Europe as it emerged from Middle Ages focusing on the growth of the modern state and the critical changes in politics, science, economics and religion. (H and N)
Attributes: General Education - Humanities, General Education - International

EUH 3204 Eighteenth-Century Europe 3 Credits
Grading Scheme: Letter Grade
Studies European politics, economics, society, ideas and institutions in the 18th century, including early modern forms of governance, the Enlightenment and the Age of the Revolution. (H and N) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

EUH 3205 Nineteenth-Century Europe 3 Credits
Grading Scheme: Letter Grade
Studies European politics, society, ideas and institutions, including the French Revolution, emergence of modern politics, upheavals of 1848 and 1871, rise of nationalism, urbanization and socialism. (H and N) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

EUH 3206 Twentieth-Century Europe 3 Credits
Grading Scheme: Letter Grade
Origins and outcomes of the two world wars, the varieties of European social and political ideologies, and the ever-changing pattern of national and trans-national identities. (H and N) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

EUH 3300 Byzantine History 3 Credits
Grading Scheme: Letter Grade
Surveys Byzantine history with emphasis on political, economic and religious institutions and the role of Byzantium in medieval Europe.

EUH 3323 Medieval Eastern Europe 3 Credits
Grading Scheme: Letter Grade
Eastern Europe from late Antiquity to the 15th century. Examines the major problems of medieval history, with special emphasis on the role of the region in the history of the continent.

EUH 3330 Late Modern Central and Eastern Europe 3 Credits
Grading Scheme: Letter Grade
Cultural, social and political survey of the Hapsburg Monarchy, Poland, and the Balkans from 1700 to 1918. Topics include absolutism, revolutionary nationalism, modernization, cultural flowering, ethnic violence, socialism and WWI.

EUH 3383 Pagans, Christians, Barbarians: the World of Late Antiquity 3 Credits
Grading Scheme: Letter Grade
Surveys the history of the Mediterranean region from the second to the 7th century with a particular focus on religious and cultural developments that marked the rise of a Christian Roman Empire.

EUH 3432 Early Medieval Italy 3 Credits
Grading Scheme: Letter Grade
Surveys economic, social and political developments in the Italian peninsula between 800 and 1100.
Prerequisite: 3 credits of history.

EUH 3473 Medieval Germany 3 Credits
Grading Scheme: Letter Grade
Surveys economic, social and political developments in Central Europe during the Middle Ages (500-1350).
Prerequisite: 3 credits of history.

EUH 3500 Medieval England 3 Credits
Grading Scheme: Letter Grade
Creation of a national society and culture in the time of England's constitutional development (to the 16th century). (H and N) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

EUH 3501 Early Modern England 3 Credits
Grading Scheme: Letter Grade
Development of a revolutionary tradition and of a parliamentary monarch in the period of England's cultural flowering (16th to 18th centuries). (H and N) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

EUH 3502 Modern Britain 3 Credits
Grading Scheme: Letter Grade
Social, political and economic developments in the19th and 20th centuries. (H and N) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

EUH 3504 Britain before 1000 CE 3 Credits
Grading Scheme: Letter Grade
Examines the history of Britain from prehistoric times through the Roman and Anglo-Saxon conquests using historical, archaeological, literary and art historical sources. Studies political events, cultural and religious change and economic developments.
Prerequisite: 3 credits of history.

EUH 3530 Colonies to Commonwealth: the History of the British Empire 3 Credits
Grading Scheme: Letter Grade
History of the British Empire from its origins in Ireland to the decolonization movements of the 20th century. Examines not only the ways in which the British established and extended the empire through the political, military, economic and cultural spheres, but also resistance to empire.

EUH 3533 Ireland in the British Empire 3 Credits
Grading Scheme: Letter Grade
Place of Ireland in the British Empire and the imperial experiences of the Irish people. Covers the main themes of Irish history from the Tudor conquest to the establishment of the Irish Republic, all the while being attuned to the broader imperial context.

EUH 3564 Central and Eastern Europe in the 20th Century 3 Credits
Grading Scheme: Letter Grade
Covers the collapse of Austro-Hungary, its successor states in the inter-war period, World War II, the Holocaust, the rise and fall of Communism in Central and Eastern Europe.

EUH 3575 Imperial Russia, 1700-1914 3 Credits
Grading Scheme: Letter Grade
Major institutional, political, social and economic issues confronting the Russian state, drawing on source materials and on Russian literature to illustrate these issues. (H and N)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, General Education - International

EUH 3576 Twentieth-Century Russia to 1953 3 Credits
Grading Scheme: Letter Grade
Internal political, economic and social history of 20th-century Russia, including the impact of modernization, the rise of radical ideologies, the Bolshevik revolution and the evolution of the Soviet Union. (H and N) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

EUH 3605 Science, History and Change 3 Credits
Grading Scheme: Letter Grade
Examines the historical and cultural relations of ideas about science and history as they converge on notions of nature, reason, time, causality, change, evolution, progress, continuity and revolution, from antiquity to Einstein. (H)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities

EUH 3670 Jewish History from 711 to 1492 3 Credits
Grading Scheme: Letter Grade
Surveys major historical developments in medieval Jewish society under Islam and western Christendom. Examines the interaction of Jews with the majority culture, political structure and economy, as well as changing cultural trends.

EUH 3671 Jewish History from 1492-1750 3 Credits
Grading Scheme: Letter Grade
Surveys major trends in Jewish society from the f15th to the 18th century, focusing on community structures and interfaith relations.
Prerequisite: 3 credits of history.

EUH 3672 Modern European Jewish History 3 Credits
Grading Scheme: Letter Grade
Major events and themes of the Jews in Europe from 1650-1945.
Prerequisite: 3 credits of history.

EUH 3683 The History of Consumption 3 Credits
Grading Scheme: Letter Grade
Combines economic, social and political history to study the rise of consumer culture from the 18th century to the present. Primarily focused on Europe but includes the United States in the 20th century.

EUH 3931 Special Topics in European History 3-9 Credits
Grading Scheme: Letter Grade
Selected variable topics in the history and culture of Europe.
Prerequisite: 3 credits of history.

EUH 4123 Holy War in the Middle Ages 3 Credits
Grading Scheme: Letter Grade
Examines the shifting terrain of historical and theological conceptions of war and holy war in the middle ages. Divided into four distinct sections: theological foundations, early medieval conceptions of war and community, the Crusades and changes in the high and late middle ages.
Prerequisite: 6 credits of history.

EUH 4185 The Viking Experience 3 Credits
Grading Scheme: Letter Grade
Scandinavian medieval history, including an examination of the profound changes brought by Christianization and the rise of the medieval states.
Prerequisite: 6 credits of history.

EUH 4186 Medieval Archaeology Field Practicum 6 Credits
Grading Scheme: Letter Grade
Introduces medieval archaeology as a historical discipline and an inquiry into various approaches to the interpretation of material culture.

EUH 4280 History of the Second World War 3 Credits
Grading Scheme: Letter Grade
Analyzes World War II, covering the origins, politics, resistance movements, grand strategy and consequences. (H) (WR)
Prerequisite: 6 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

EUH 4282 History of Cold War Europe 3 Credits
Grading Scheme: Letter Grade
Cold War era in Europe, 1945-1991; emphasizes origins, social, economic and political aspects, and the historical consequences on Europe.
Prerequisite: 6 credits of history.

EUH 4310 History of Medieval Spain 3 Credits
Grading Scheme: Letter Grade
History of the Iberian Peninsula between Late Antiquity and the end of the Reconquista. Emphasizes Muslim Spain, the Christian kingdoms in the North, Christian-Muslim-Jewish interactions, cultural development and social differentiation.
Prerequisite: 6 credits of history.

EUH 4311 Jews of Medieval Spain 3 Credits
Grading Scheme: Letter Grade
Explores Jewish life and culture in the Iberian Peninsula from the early middle ages through the Expulsion of 1492. Analyzes interfaith relations and the role Jews played in shaping Spanish society and culture.
Prerequisite: 6 credits of history.

EUH 4463 Nineteenth-Century Germany 3 Credits
Grading Scheme: Letter Grade
Germany's political development toward nationhood in the 19th century, and the imperial policies of Bismarck and Wilhelm II. The social history of specific groups in German society. Germany's role in the outbreak of WW I. Offered alternate years. (H and N) (WR)
Prerequisite: 6 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

EUH 4464 Twentieth Century Germany 3 Credits
Grading Scheme: Letter Grade
Collapse of the monarchy and tribulations of the Weimar Republic. Examines Hitler's seizure of power, and of social, political, and ideological aspects of the Third Reich. The two Germanies to the fall of the Berlin Wall. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

EUH 4563 Habsburg Monarchy 3 Credits
Grading Scheme: Letter Grade
Studies the multi-ethnic dynastic state from formation through revitalization under Maria Theresa, conservative retrenchment under Metternich, and the challenge of nationalism from its peoples, to Austro-Hungary's collapse in WW I.
Prerequisite: 6 credits of history.

EUH 4584 Medieval Russia 3 Credits
Grading Scheme: Letter Grade
Introduces the history of Eastern Europe from ca. 500 to 1584. Focuses on interconnected themes of state formation, trade, conversion to Christianity and the impact of the Mongol conquest.
Prerequisite: 6 credits of history.

EUH 4610 Society and the Sexes in Modern Europe, 18C to the Present 3 Credits
Grading Scheme: Letter Grade
Gendered analysis of great historical events, political movements and ideologies. Other topics of social and cultural history are discussed.
Prerequisite: 6 credits of history.

EUH 4664 Modern European Revolutions: 1789-1989 3 Credits
Grading Scheme: Letter Grade
History of key European revolutions that occurred between 1789 and 1989. Emphasizes the economic, cultural and political conditions that gave rise to and accompanied the development of these watershed events.
Prerequisite: 3 credits of history.

EUH 4665 Terrorism and Political Violence in Post-War Europe: 1945-2000 3 Credits
Grading Scheme: Letter Grade
Provides a multi-country historical survey of the role terrorism and violence have played in European affairs in the post-Second World War era from 1945 to 2000.
Prerequisite: 6 credits of history.

EUH 4930 History Research Seminar: Europe 3 Credits
Grading Scheme: Letter Grade
Through rotating in content, this seminar has two distinct goals: introduce the historiography of a specific topic and produce a substantial research paper based on primary source evidence.
Prerequisite: History major with senior standing.

HIS 3454 Racial Theories in Europe and the U.S. 3 Credits
Grading Scheme: Letter Grade
Introduces history of racial ideas and images from ancient to modern period.
Prerequisite: 3 credits of history.

HIS 3460 History of Science and Religion 3 Credits
Grading Scheme: Letter Grade
Surveys the interaction between the religious and scientific communities in the West from the time of the early church to the present.

HIS 3463 Introduction, History of Science: Origins to Newton 3 Credits
Grading Scheme: Letter Grade
Introduces the emergence of scientific thought from its mythopoeic beginnings to the time of Newton. Focuses on the interrelationships among science, philosophy and religion in Greece, Islam and the Latin West. Emphasizes Copernicus, Kepler, Galileo, Descartes and Newton. (H and N)
Attributes: General Education - Humanities, General Education - International

HIS 3464 Introduction, History of Science: Renaissance to the Present 3 Credits
Grading Scheme: Letter Grade
General survey of the major issues in physical and biological science from the time of Galileo to the present. Emphasizes the impact of scientific development on society, culture and thought. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 2000 Words of Writing Requirement

HIS 3465 The Scientific Revolution 3 Credits
Grading Scheme: Letter Grade
Emergence of modern science from Copernicus to Newton exploring the notions of empiricism, experiment, mechanism, materialism, and the historical concepts of continuity, change, revolution and progress. (H) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

HIS 3483 The Nuclear Age 3 Credits
Grading Scheme: Letter Grade
History of the changing perception of the political and social significance of science since the discovery of nuclear fission.
Prerequisite: 3 credits of history.

HIS 3495 Evolution of Infectious Diseases 3 Credits
Grading Scheme: Letter Grade
Emergence of new infectious diseases in a historical and cultural context. Emphasizes the history of well-documented infectious diseases such as leprosy, bubonic plague, cholera, smallpox, yellow fever, tuberculosis, influenza, polio, venereal disease and AIDS, as well as the more recent Ebola viral-type outbreaks. (S)
Prerequisite: 3 credits of history.
Attributes: General Education - Social Science

HIS 3501 The History of Modern Biological Thought 3 Credits
Grading Scheme: Letter Grade
Selected areas of modern biological thought after 1800. Topics include Darwin, genetics, the Evolutionary Synthesis, molecular biology and sociobiology. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

HIS 3610 History and Public Policy 3 Credits
Grading Scheme: Letter Grade
Examines the role of historical analysis and argument in the policy-making process. Introduces the ways in which decision-makers use and misuse history, and considers what it means to take history into account in public policy. Uses specific contemporary policy problems to illustrate the challenges of using history effectively.
Prerequisite: 3 credits of history.

HIS 3931 Special Topics 3 Credits
Grading Scheme: Letter Grade
Special topics in history. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

HIS 3942 History Practicum 3 Credits
Grading Scheme: Letter Grade
Learn the elements of the professional study of history: the critical reading of sources (primary and secondary); research skills; and a variety of historical methodologies.
Prerequisite: 3 credits of history.

HIS 4472 History of Evolutionary Thought from the Enlightenment to the Present 3 Credits
Grading Scheme: Letter Grade
Advanced history of science examines the history of evolutionary thought from the Enlightenment to the present. Emphasizes the specific development of Darwinian evolutionary theory and the lives of key theorists such as Charles Darwin and Alfred Russel Wallace. Considers sociopolitical and national contexts.
Prerequisite: some background in evolutionary science or history of science recommended.

HIS 4905 Individual Study 1-3 Credits
Grading Scheme: Letter Grade
Individual study in history. (WR)
Prerequisite: 6 credits of history.
Attributes: Satisfies 6000 Words of Writing Requirement

HIS 4911 Undergraduate Research in History 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

HIS 4930 History Research Seminar 3 Credits
Grading Scheme: Letter Grade
Through rotating in content, this seminar has two distinct goals: introduce the historiography of a specific topic and produce a substantial research paper based on primary source evidence.
Prerequisite: History major of senior standing.

HIS 4944 Internship in the Practice of History 1-3 Credits
Grading Scheme: Letter Grade
Gives history majors practical experience in history-related institutions and organizations, such as archives, historical societies, museums and university presses.
Prerequisite: history major and undergraduate coordinator permission.

HIS 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

HIS 4970 Senior Thesis 1-3 Credits
Grading Scheme: Letter Grade
Required for potential award of high or highest honors. Directed research leading to the submission of an interpretive and analytical, rather than merely narrative, essay of approximately 40 pages in length. The paper may be based on research into a particular topic for which there is accessible source materials or it may involve a thorough critical assessment of a significant historical controversy or historiographical issue. Topics must be approved by the department honors coordinator. Registration for two semesters' work is required in order to allow adequate attention to the project. (WR)
Prerequisite: senior standing and department permission before registering.
Attributes: Satisfies 6000 Words of Writing Requirement

HIS 4971 History Honors Workshop 3 Credits
Grading Scheme: Letter Grade
Assists with all phases of the senior thesis, including project design, research, writing, and oral presentation. Students complete assignments that build toward a draft of a preliminary chapter or the introduction. The workshop provides a collaborative environment in which to pursue individual thesis projects.
Prerequisite: acceptance into the History Honors program.

HPS 3003 Perspectives on Science and Mathematics 3 Credits
Grading Scheme: Letter Grade
Explores the different ways that scientists and mathematicians since the 17th century have explained the workings of the natural world. (H) (WR)
Prerequisite: UFTeach Step 1.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

IDH 2931 Honors Seminar 3 Credits
Grading Scheme: Letter Grade
Special topics restricted to those in the university-wide Honors Program. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

LAH 2020 Introduction to Latin American History 3 Credits
Grading Scheme: Letter Grade
Introduces Latin American civilization, from the Conquest to the present, emphasizing select topics in social, political and cultural history. (H and N)
Attributes: General Education - Humanities, General Education - International

LAH 3100 Emergence of Latin American Nations 3 Credits
Grading Scheme: Letter Grade
The last phase of the colonial regime, movement for independence, and problems of nation-building to the end of the 19th century. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

LAH 3130 Colonial Latin America 3 Credits
Grading Scheme: Letter Grade
Surveys the formation of Spanish and Portuguese imperial systems and colonial societies in America in the 16th, 17th and 18th centuries. (H and N) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

LAH 3300 Contemporary Latin America 3 Credits
Grading Scheme: Letter Grade
Contemporary challenges to traditional structures; revolution and evolution. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

LAH 3470 Introduction to Caribbean History 3 Credits
Grading Scheme: Letter Grade
The main issues and debates in Caribbean history from the time of Columbus to the mid-20th century.

LAH 3725 Race, Religion and Revolution in the Black Caribbean 3 Credits
Grading Scheme: Letter Grade
Explores the history of Jamaica, Haiti, the Dominican Republic and the Miskito Coast of Nicaragua. Explains the emergence of colonial and neo-colonial political systems, the concept of race in relationship to slavery and global capitalism as well as the role of religion in revolutionary actions.
Prerequisite: sophomore standing.

LAH 3741 Revolution in the Americas 3 Credits
Grading Scheme: Letter Grade
Historical analysis of the armed and unarmed revolutionary movements of 20th century Latin America, from Mexico to Chile.
Prerequisite: 3 credits of history.

LAH 3931 Special Topics in Latin American History 3-9 Credits
Grading Scheme: Letter Grade
Selected, variable topics in the history and culture of Latin America.
Prerequisite: 3 credits of history.

LAH 4433 Modern Mexico 3 Credits
Grading Scheme: Letter Grade
Aftermath of independence and war with U.S., the Reform and Maximillian, Porfiriato, Mexican Revolution and contemporary trends. (H and N) (WR)
Prerequisite: 6 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

LAH 4471 Caribbean History to 1800 3 Credits
Grading Scheme: Letter Grade
Social, economic and political history of the West Indies and the Circum-Caribbean region to 1800, with particular emphasis on slave society. (H and N) (WR)
Prerequisite: 6 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

LAH 4472 The Caribbean, Nineteenth and Twentieth Centuries 3 Credits
Grading Scheme: Letter Grade
Social history of the modern Caribbean: slave emancipation and decolonization; race relations and black consciousness; labor, culture, and economic change. (H and N) (WR)
Prerequisite: 6 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

LAH 4473 France in the Caribbean 3 Credits
Grading Scheme: Letter Grade
Making of the modern Francophone Caribbean. Introduce a range of political, economic and cultural phenomena from buccaneering and voodoo to tourism and transnational identity. Emphasizes slave plantation society, the Haitian Revolution and the black consciousness movements of the 20th century.

LAH 4520 Andean Nations 3 Credits
Grading Scheme: Letter Grade
Anthropological and political history of the postcolonial Andean region, including the republics of Venezuela, Colombia, Ecuador, Peru and Bolivia. (H and N) (WR)
Prerequisite: 6 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

LAH 4602 The Conquest of Amazonia 3 Credits
Grading Scheme: Letter Grade
Historical analysis of the Amazon. Need no previous knowledge of Latin American history; for those interested in the current issues confronting the region. (H and N)

LAH 4630 Brazil after 1750 3 Credits
Grading Scheme: Letter Grade
Late and colonial reform; independence and origins and achievements of Brazilian monarchy; modernization and neo-colonialism; slavery, the military, and emergence of oligarchical republic; legacy of dictatorship and populism. (H and N) (WR)
Prerequisite: 6 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

LAH 4730 Science and Technology in Latin American, 1492-Present 3 Credits
Grading Scheme: Letter Grade
Introduces the diffusion, acculturation and adaption of scientific ideas, practices and technology by exploring concepts within Latin America.
Prerequisite: 3 credits of history.

LAH 4930 History Research Seminar: Latin America 3 Credits
Grading Scheme: Letter Grade
Through rotating in content, this seminar has two distinct goals: introduce the historiography of a specific topic and produce a substantial research paper based on primary source evidence.
Prerequisite: 4LS history major.

MEM 3003 Introduction to the Medieval World 3 Credits
Grading Scheme: Letter Grade
Chronological and topical introduction to history of the medieval millennium (400-1400). (H and N)
Attributes: General Education - Humanities, General Education - International

MEM 4931 Special Topics in Medieval and Early Modern Studies 1-3 Credits
Grading Scheme: Letter Grade
Advanced study in medieval and early modern studies.

WOH 2040 The World in the Twentieth Century 3 Credits
Grading Scheme: Letter Grade
Surveys major developments in the history of the twentieth century, focusing on the increasing world interconnections and interdependency. Themes include imperialism, nationalism and decolonization, the two world wars and the interwar period, the Cold War, new social movements and globalization and the international economy.

WOH 3043 The World Since 1945 3 Credits
Grading Scheme: Letter Grade
Overview of the contemporary world, while trying to promote an awareness of the striking diversity of views that characterize and shape that world. Covers major issues in the post 1945 world, the Cold War, colonialism and decolonization. (H and N)
Attributes: General Education - Humanities, General Education - International

WOH 3203 Africans in World History 3 Credits
Grading Scheme: Letter Grade
Critically examines the history of Africans outside Africa; emphasizes the Atlantic world and the Americas and to connections forged between peoples of African descent and broader movements in world history. Themes include slavery and anti-slavery, diaspora formation, the history of ideas, revolution, decolonization and civil rights struggles.
Prerequisite: 3 credits of history.

WOH 3205 History of Human Rights 3 Credits
Grading Scheme: Letter Grade
Explores the global history of human rights, looking at the bases of those rights, including traditions, practices and international declarations and their evolution over time. At the end of the semester, groups present case reports that apply human rights principles to a variety of historical moments.
Prerequisite: 3 credits of history.

WOH 3233 History of Christianity 1 3 Credits
Grading Scheme: Letter Grade
Surveys the history of Christianity, c. 100 to c. 1300, from its status as a persecuted minority religion of the Roman Empire to its position of dominance in the civilizations of medieval Europe and Byzantium.

WOH 3239 History of Christianity 2 3 Credits
Grading Scheme: Letter Grade
Developments in the history of Christianity from the 14th to the 18th centuries. Topics include the crises of the 14th century (impact of the Black Death, Avignon papacy and schism), conciliarism, the Reformation movements, expansion of Christianity abroad and the impact of the Enlightenment on faith.
Prerequisite: 3 credits of history.

WOH 3241 The Vietnam War 3 Credits
Grading Scheme: Letter Grade
Examination of the origins, course, and consequences of the conflict in Vietnam, from American and various Vietnamese perspectives, and including the roles of other participants, such as the French, Chinese, and Soviets.
Prerequisite: 3 credits of history.

WOH 3242 The United States and the Contemporary World 3 Credits
Grading Scheme: Letter Grade
Traces the historical development of issues in contemporary international politics. Case studies may include the international economy, terrorism, change and conflict in the Middle East, the drug trade, nuclear and biological weapons, climate change and globalization.

WOH 3404 Global History of Energy 3 Credits
Grading Scheme: Letter Grade
Examines the relationship of human society to energy. Global in size and scope, a large swath of human history on several continents is covered.
Prerequisite: 3 credits in AFH, or AMH, or ASH, or EUH, or HIS, or LAH or WOH.

WOH 4204 Modern Masculinities in Global Perspective 3 Credits
Grading Scheme: Letter Grade
Comparative, global and historical approach to the study of masculinity, drawing from a burgeoning interdisciplinary scholarship. Study ranges across the world and examines masculinities in the Americas, Asia and Europe with special attention to case studies such as Iran, the United Kingdom, Japan and the United States.
Prerequisite: 3 credits of history.

WOH 4234 Atlantic Exchanges from Columbus to NATO 3 Credits
Grading Scheme: Letter Grade
History of the Atlantic world, demonstrating that oceans have been connective forces that facilitate the exchange of commodities, capital and culture across vast distances. Topics include the history of the central and northern Atlantic during the age of Imperialism.

WOH 4243 Empires, Nationalism, and Revolution 1945-1994 3 Credits
Grading Scheme: Letter Grade
Adopting a world history approach to post-World War II era, explores how decolonization intersected with the Cold War in Africa, Asia and Latin America.
Prerequisite: 6 credits of history.

WOH 4254 Nations and Nationalism 3 Credits
Grading Scheme: Letter Grade
Studies the modern genesis of the nation and the nation-state in the Americas, Europe, Asia and Africa. Emphasizes the relationship between European Imperialism and colonial and postcolonial nationalisms around the globe.

WOH 4264 Empires and Imperialism 3 Credits
Grading Scheme: Letter Grade
Introduces the history of early modern and modern empires and imperialisms in Europe, Africa, the Americas and Asia.

WOH 4930 History Research Seminar: World History 3 Credits
Grading Scheme: Letter Grade
Introduces the historiography of a specific topic; requires a substantial research paper based on primary source evidence.
Prerequisite: History major.

Honors Program

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

For information on honors courses offered each semester, students should consult the schedule of courses or the honors website.
More Info (http://www.honors.ufl.edu/current/courses)

IDH 1700 Honors Professional Development 1 Credit
Grading Scheme: Letter Grade
Develop Career Related Skills to Succeed At Uf and Beyond.

IDH 2930 (Un)common read 1 Credit
Grading Scheme: Letter Grade
Discussion oriented courses centered around a single book.

IDH 2931 Honors Seminar 3 Credits
Grading Scheme: Letter Grade
Special topics restricted to those in the university-wide Honors Program. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

IDH 3116 Honors Great Political and Social Thought 2 Credits
Grading Scheme: Letter Grade
Examines political, social, legal, ethical and scientific thought through history via the study of ancient and modern texts, film and other media. Close readings of texts develop critical thinking and analytical skills. Restricted to those in the honors program.

IDH 3931 Interdisciplinary Junior Honors 1-3 Credits
Grading Scheme: Letter Grade
Special topics restricted to those in the university-wide honors program. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

IDH 4715 Professional Development Strategies 1 Credit
Grading Scheme: S/U
Helps select undergraduate students identify and compete for the most prestigious career-making scholarships by determining the activities and ideas most important and attractive to selection committees. (S-U)

IDH 4903 Honors Tutorial 1 Credit
Grading Scheme: Letter Grade
Must be taken in conjunction with other courses at the 3000 and 4000 level. Students must secure instructor permission of the course to which they wish to add this credit.
Prerequisite: honors program member.

IDH 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Restricted to those in the university-wide honors program.

IDH 4912 Honors Undergraduate Research 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application.
Prerequisite: honors program permission.

IDH 4940 Internship 1-6 Credits
Grading Scheme: S/U
Experiential learning in a variety of work locations. Permission of program director required. Supervision by a faculty member or delegated authority, daily journal and a post-internship report are required. (S-U).

IDS 2935 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Introduces selected interdisciplinary topics. Content varies from term to term.

IDS 4945 Washington Center Internship 1-15 Credits
Grading Scheme: S/U
Students who are accepted by the Washington Center in Washington, DC and obtain permission of the UF liaison participate in an internship for a summer or semester. A variety of settings related to various academic disciplines are available. A post-internship report is required. (S-U)

IDS 4950 Innovation Academy Senior Project 2 Credits
Grading Scheme: Letter Grade
Using lectures, labs and a multidisciplinary team-based project approach, build life skills in creativity and innovation, entrepreneurship and entrepreneurial thinking. Synthesize and demonstrate leadership and ethics through design and development of a team project.
Prerequisite: senior standing and enrolled in the Innovation minor.

Horticultural Sciences

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

FRC 1010 Growing Fruit for Fun and Profit 1 Credit
Grading Scheme: Letter Grade
Especially for non-majors who desire a concise mini-course in fruit growing and marketing. Fruit crops include citrus, pecan, blueberry, strawberry, peach, grape, apple, mango and avocado.

FRC 3212 Introduction to Citrus Culture and Production 3 Credits
Grading Scheme: Letter Grade
Citrus botany, scion and rootstock selection, site selection, fruit quality grove design and production practices.

FRC 3252 Tropical and Subtropical Fruits 2 Credits
Grading Scheme: Letter Grade
Culture and management of important tropical and subtropical fruit, including avocado, banana, mango, papaya, loquat, persimmon, pineapple, coffee and others.

FRC 3274 Tree and Small Fruit Production 3 Credits
Grading Scheme: Letter Grade
Current principles and cultural practices in deciduous tree, bush and vine crops. Emphasizes practical aspects of production.

FRC 3802 Viticulture for Table Grapes and Wine 2 Credits
Grading Scheme: Letter Grade
Teaches current practices for establishing a vineyard and maintaining its health and productivity into the final quality of the grape. Topics covered include grape varietal selection, site selection and preparation, vine growth, training and trellis systems, and equipment used in vineyard and wine production.
Prerequisite: BSC 2005 or BOT 2010C or BOT 2011C.

HOS 1014 Vegetable Gardening 1 Credit
Grading Scheme: Letter Grade
Primarily for non-majors who desire to learn the basic principles of vegetable gardening. A garden is required of each student.

HOS 3020C Principles of Horticulture Crop Production 4 Credits
Grading Scheme: Letter Grade
Introduces concepts and practices used to produce fruit and vegetable crops in Florida, the U.S., and globally. Topics covered include production regions, crop biology, crop nutrition, types of fruits and vegetables, disease and pest management, and marketing. Includes a hands-on practicum.
Prerequisite: BOT 2010C or equivalent.

HOS 3222C Greenhouse and Protected Agriculture 3 Credits
Grading Scheme: Letter Grade
Principles and practices of crop production in protected structures. Emphasizes structure type, media, fertilization and pest control practices.

HOS 3281C Organic and Sustainable Crop Production 3 Credits
Grading Scheme: Letter Grade
Concepts/techniques of organic and sustainable production of horticultural crops, including soil/water management, pest control, harvest, handling and marketing.

HOS 3285 The Organic Debate: Organic Agriculture Development & Regulations 1 Credit
Grading Scheme: Letter Grade
Organic farming is a rapidly developing production system. This introductory course provides a critical analysis of organic agriculture growth, consumer perceptions, and regulations at the national and international level. This course also focuses on organic agriculture transdisciplinary innovations and challenges in advancing environmental, economic, and social sustainability of food production.
Prerequisite: BSC 2005 or equivalent.

HOS 3305 Introduction to Plant Molecular Biology 3 Credits
Grading Scheme: Letter Grade
Introduces plant molecular biology and genetic engineering, emphasizing plant genes and genomes, transformation of plants and basic molecular biology.
Prerequisite: APB 2150 or BOT 2010C or BSC 2010.

HOS 3430C Nutrition of Horticultural Crops 3 Credits
Grading Scheme: Letter Grade
Study and discussion of physiological, biochemical and environmental factors influencing nutritional status and productivity of horticultural crops.

HOS 4241C Genetics and Breeding of Vegetable Crops 3 Credits
Grading Scheme: Letter Grade
Traditional and molecular breeding methods for vegetable crops and the influence of scientific research, government policies, industry needs, and consumer preferences on vegetable crop improvement.
Prerequisite: AGR 3303.

HOS 4283C Advanced Organic and Sustainable Crop Production 3 Credits
Grading Scheme: Letter Grade
Intensive examination of the methods and techniques necessary for organic and sustainable production and marketing of horticultural products.
Prerequisite: HOS 3281C.

HOS 4304 Horticultural Physiology 3 Credits
Grading Scheme: Letter Grade
Basic concepts and processes of physiology as they relate to plant growth and development.
Prerequisite: BOT 2010C or BSC 2010.

HOS 4313C Laboratory Methods in Plant Molecular Biology 2 Credits
Grading Scheme: Letter Grade
Hands-on laboratory experience in plant molecular biology. Utilizing current techniques for isolation, purification and cloning of plant DNA, students learn many basic techniques in plant biotechnology.
Prerequisite: (AGR 3303 or HOS 3305) and PCB 3063.

HOS 4332C Principles of Postharvest Horticulture 3 Credits
Grading Scheme: Letter Grade
Biological principles involved in harvesting, grading, packaging, transportation, and marketing horticultural crops, and their effects on quality maintenance. Commercial postharvest practices explained in relation to general procedures and technologies as well as the recommended postharvest best handling practices and optimum postharvest conditions for different types of horticultural crops.
Prerequisite: HOS 4304.

HOS 4341 Advanced Horticultural Physiology 3 Credits
Grading Scheme: Letter Grade
Environmental effects (light, temperature and water) on physiology, growth and development of plants.
Prerequisite: HOS 4304.

HOS 4900 Supervised Extension Experience in Horticultural Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

HOS 4905 Independent Study in Horticultural Science 1-6 Credits
Grading Scheme: Letter Grade
Selected research topics in molecular biology, physiology and/or genetics of horticultural crops.

HOS 4911 Supervised Research in Horticultural Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in horticultural sciences under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

HOS 4915 Honors Thesis Research in Horticultural Sciences 0-3 Credits
Grading Scheme: S/U
Independent research in horticultural sciences leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

HOS 4918 Capstone Planning in Horticultural Sciences 1 Credit
Grading Scheme: S/U
Focuses on planning service learning, scientific research, cooperative extension, or industry liaison projects for the Horticultural Sciences capstone. Also fosters reflection of academic and professional development in the major.
Prerequisite: HOS 4933.

HOS 4921 Horticultural Sciences Capstone 2-4 Credits
Grading Scheme: S/U
Focuses on executing service learning, scientific research, cooperative extension, or industry liaison projects designed during capstone planning. Perfect professional portfolios and present the outcomes of the capstone project.
Prerequisite: HOS 4918.

HOS 4932 Special Topics in Horticultural Sciences 1-3 Credits
Grading Scheme: Letter Grade
Critical review of selected topics in specific areas not covered in other horticultural sciences courses.
Prerequisite: instructor permission.

HOS 4933 Professional Development in Horticulture 1 Credit
Grading Scheme: Letter Grade
Professional skills development, including job searching, resume writing, interview skills, professional etiquette, communications and salary negotiations.

HOS 4941 Practical Work Experience in Horticultural Sciences 1-4 Credits
Grading Scheme: S/U
Practical work that must be a new experience and related to the field of study. (S-U)
Prerequisite: advisor arrangement and permission.

PLS 3421C Hydroponic Systems 3 Credits
Grading Scheme: Letter Grade
This course offers students foundational information and hands-on experience on hydroponic and soilless cultivation of horticultural crops. Production practices, growing systems, new technologies and current challenges are discussed.
Prerequisite: HOS 3020C or PLS 3004C.

VEC 2100 World Herbs and Vegetables 3 Credits
Grading Scheme: Letter Grade
Introduces a variety of vegetables and culinary herbs. Emphasizes genetic, phytochemical and botanical diversity and importance of food phytochemicals and role of vegetables in nutrition. (B)
Attributes: General Education - Biological Science

VEC 3221C Vegetable Production 4 Credits
Grading Scheme: Letter Grade
Principles and practices of successful commercial vegetable production, including crop requirements, growth patterns and production techniques along with consumption/marketing patterns and U.S./Florida production areas.

WDS 4001 Organic Weed Management 3 Credits
Grading Scheme: Letter Grade
Apply ecological principles in agroecosystems to manage weeds sustainably. Emphasizes alternative weed management approaches that are less dependent on herbicides and utilize ecological processes detrimental to weeds and their propagules. Learn actively by critically analyzing pertinent literature and participating in discussions of supplemental reading.
Prerequisite: HOS 3020C or ALS 3153.

Hungarian | European Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

HNG 1130 Beginning Hungarian 1 5 Credits
Grading Scheme: Letter Grade
This course and its sequel, HNG 1131, constitute the basic sequence in Hungarian.

HNG 1131 Beginning Hungarian 2 5 Credits
Grading Scheme: Letter Grade
Second semester of basic sequence in Hungarian.
Prerequisite: HNG 1130 with minimum grade of C, or S, or the equivalent.

HNG 1180 Elementary Hungarian: Review and Progress 1 3 Credits
Grading Scheme: Letter Grade
Alternative to HNG 1130, for students who have some experience in Hungarian. Reviews basic grammar and improves reading, writing and listening skills.

HNG 1182 Elementary Hungarian: Review and Progress 2 3 Credits
Grading Scheme: Letter Grade
An accelerated one-semester coverage of HNG 1130 and HNG 1131 for students with some experience in Hungarian.
Prerequisite: instructor permission.

Industrial and Systems Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

COP 2271 Computer Programming for Engineers 2 Credits
Grading Scheme: Letter Grade
Computer programming and the use of computers to solve engineering and mathematical problems. Emphasizes applying problem solving skills; directed toward technical careers in fields employing a reasonably high degree of mathematics. The programming language used depends on the demands of the departments in the college. Several languages may be taught each semester, no more than one per section. Those required to learn a specific language must enroll in the correct section. (M)
Prerequisite: MAC 2312 with minimum grade of C.

COP 2271L Computer Programming for Engineers Laboratory 1 Credit
Grading Scheme: Letter Grade
Optional laboratory for COP 2271. Required for ISE majors. (M)
Prerequisite: MAC 2312;
Corequisite: COP 2271.

EGN 1935 Special Topics in Freshman Engineering 1-3 Credits
Grading Scheme: Letter Grade
Laboratory, lectures or conferences cover selected topics in engineering.

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

EGN 4930 Sales Engineer Seminar 1 Credit
Grading Scheme: S/U
Intended for those interested in pursuing a career in sales engineering (required for students enrolled in the sales engineering certificate program). Lectures and discussions on practice-oriented sales engineering topics. (S-U)

EGS 1005 Prep for Success 1-4 Credits
Grading Scheme: S/U
Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)
Prerequisite: EG student.

EGS 1006 Introduction to Engineering 1 Credit
Grading Scheme: Letter Grade
Introduces the 11 departments that offer undergraduate degrees at UF. Students break into groups of 20, rotating weekly through each department. During these visits, students participate in hands-on experiments to help them make informed decisions about career alternatives.

EIN 3101C Introduction to Industrial and Systems Engineering 2 Credits
Grading Scheme: Letter Grade
Introduction and overview of the profession, including career planning, professionalism and communication, ethics, teamwork, industry site visits, industrial speakers, and selected solution methods for problems in coordination and planning.
Prerequisite: ENC 3254 with a minimum grade of C.

EIN 3354 Engineering Economy 3 Credits
Grading Scheme: Letter Grade
Basic principles and applications of economic decision-making between alternatives encountered in engineering systems projects. Analysis includes methodologies of economics and finance in addition to engineering fundamentals.
Prerequisite: MAC 2312 with a minimum grade of C.

EIN 4210 Occupational Safety Engineering 3 Credits
Grading Scheme: Letter Grade
Safety history and litigation; accident causation; safety organizations and agencies. Approaches to occupational safety and risk management. Product defects and safety program development; product liability; consumer product safety commission. Hazard communication standard. Workers? compensation. OSHA safety standards and codes; OSHA record keeping. Common occupational hazards.
Prerequisite: PHY 2049 and STA 4321 with minimum grades of C.

EIN 4321 Industrial Energy Management 3 Credits
Grading Scheme: Letter Grade
Introduces energy conservation. Supply-demand data, energy economics, investment analysis and energy legislation. Audits, waste heat recovery, cogeneration and computerized energy management systems.
Prerequisite: EIN 4354 and PHY 2049 with minimum grades of C.

EIN 4335 Senior Design Project 3 Credits
Grading Scheme: Letter Grade
Integration of industrial and systems engineering methodologies; emphasizes methods of successful implementation. Project and case-study oriented.
Prerequisite: (ESI 4312 and ESI 4313 and ESI 4523 and STA 4322 and ESI 4356 and EIN 4354 and EGS 4034 with minimum grades of C) and fifth year senior in Engineering.

EIN 4343 Inventory and Supply Chain Systems 3 Credits
Grading Scheme: Letter Grade
Develops analytic abilities to formulate and solve inventory and logistics problems faced by today's firms. Learn to take a comprehensive view of complex inventory and supply-chain systems; develop abilities to model, optimize and design such systems.
Prerequisite: ESI 4312 and ESI 4313 with minimum grades of C.

EIN 4360C Facility Planning and Work Design 4 Credits
Grading Scheme: Letter Grade
Introduces fundamental concepts in several main areas of industrial engineering such as facility planning, material handling systems, work analysis and design. Covers topics such as analysis and design of work space and flow, facility location and layout, material handling systems, motion and time studies and work sampling.
Prerequisite: (ENC 3250 or ENC 3254) and EML 2023 or equivalent with minimum grades of C.
Corequisite: EIN 4354.

EIN 4451 Lean Production Systems 3 Credits
Grading Scheme: Letter Grade
Design of flow line, cellular and flexible manufacturing systems. Design and control of lean manufacturing systems. Continuous improvement, small lot production, setup-time reduction, equipment improvement and maintenance. Principles and control of push and pull manufacturing systems. Production planning and operations scheduling.
Prerequisite: ESI 4312 and STA 4321.

EIN 4905 Special Problems in Industrial and Systems Engineering 1-4 Credits
Grading Scheme: Letter Grade
Problems and systems studies associated with honors programs representing undergraduate research. Selected advanced topics including new developments and techniques in industrial and systems engineering.

EIN 4912 Integrated Product and Process Design 1 3 Credits
Grading Scheme: Letter Grade
The first part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: EIN 4354 and EIN 4360C with minimum grades of C;
Corequisite: ESI 4221C with minimum grade of C.

EIN 4913 Integrated Product and Process Design 2 3 Credits
Grading Scheme: Letter Grade
Second part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget.
Prerequisite: EGS 4034 with a minimum grade of C and Engineering major of junior standing or higher.

EIN 4937 Industrial and Systems Engineering Seminar 1 Credit
Grading Scheme: S/U
Lectures and discussions on general and specific engineering problems. Individual investigations and research reports on assigned topics. Orientation for an industrial career. (S-U)
Prerequisite: 3EG or 4EG standing in industrial and systems engineering.

EIN 4944 Practical Work in Industrial and Systems Engineering 1-3 Credits
Grading Scheme: S/U
One term of industrial employment, including extra work according to a preapproved outline. Practical engineering work under industrial supervision as set forth in the Herbert Wertheim College of Engineering regulations. (S-U)
Prerequisite: 4EG classification and EGS 4034 with a minimum grade of C.

ESI 3312 Operations Research 1 4 Credits
Grading Scheme: Letter Grade
Introduces optimization modeling, algorithms, and software to aid in the analysis and solution of decision-making problems.
Prerequisite: ESI 3327C with minimum grade of C.

ESI 3327C Matrix and Numerical Methods in Systems Engineering 4 Credits
Grading Scheme: Letter Grade
Theory and application of vector, matrix, and other numerical methods to systems problems. Simultaneous linear equations, characteristic values, quadratic forms, error analysis, use of series, curve fitting, nonlinear equations, and discrete methods. Laboratory emphasizes numerical solutions using MATLAB.
Prerequisite: MAC 2313 and MAP 2302 with minimum grades of C.

ESI 4221C Industrial Quality Control 3 Credits
Grading Scheme: Letter Grade
Factors affecting variation in product quality; use of control charts to evaluate and control manufacturing processes. Techniques for acceptance and reliability testing. Laboratory exercises illustrate the operation and control of manufacturing processes and hazard function. Typical failure distributions, redundant systems, models of repair and maintenance.
Prerequisite: STA 4321 and STA 4322 with minimum grades of C.

ESI 4313 Operations Research 2 4 Credits
Grading Scheme: Letter Grade
Introduces stochastic models and methodologies for analyzing and providing solutions to decision-making problems with uncertainties.
Prerequisite: ESI 4327C and STA 4321 with minimum grades of C.

ESI 4356 Decision Support Systems for Industrial and Systems Engineers 4 Credits
Grading Scheme: Letter Grade
Applications of decision support systems in industrial and systems engineering; developing and implementing decision support systems arising in industrial and systems engineering using popular database management and spreadsheet software.
Prerequisite: COP 2271 and ESI 4312 with minimum grades of C.

ESI 4357 Web-Based Decision Support Systems for Industrial and Systems Engineers 4 Credits
Grading Scheme: Letter Grade
Introduces the Internet and e-commerce; Internet tools and technologies necessary for the development of web-based decision support systems; designing and implementing web-based decision support systems arising in the practice of industrial and systems engineering using popular software packages.
Prerequisite: COP 2271 and ESI 4312 with minimum grades of C.

ESI 4523 Industrial Systems Simulation 3 Credits
Grading Scheme: Letter Grade
Simulation methodology and languages, such as General Purpose Simulation System (GPSS). Design and analysis of simulation experiments as well as applications to solutions of industrial and service system problems.
Prerequisite: COP 2271 and STA 4322

ESI 4949 Co-Op Work Experience 1 Credit
Grading Scheme: S/U
Practical engineering work under industrial supervision, as set forth in the Herbert Wertheim College of Engineering regulations. (S-U)
Prerequisite: EGS 4034 with a minimum grade of C.

Information Systems and Operations Management

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

ISM 3004 Computing in the Business Environment 4 Credits
Grading Scheme: Letter Grade
Presents fundamental concepts from two perspectives: the individual business computer user and the corporate business computing environment. Introduces common business computing applications; this is not a hands on applications training course. Students use their existing computer skills to complete assignments.
Prerequisite: basic skills for Microsoft Word, PowerPoint, and Excel.

ISM 3013 Introduction to Information Systems 4 Credits
Grading Scheme: Letter Grade
Introduces the role of information systems and technology in an organization with a focus on the use of Access and Excel to solve business problems. Receive the knowledge necessary to earn Microsoft certifications in Access and Excel.
Prerequisite: MAC 2311 or MAC 2233, and sophomore standing.

ISM 3254 Business Systems 1 2 Credits
Grading Scheme: Letter Grade
Introduces the basic tools for building business systems using object-oriented and event-driven programming paradigms. Emphasizes using Java to illustrate these ideas.

ISM 3255 Business Systems 2 2 Credits
Grading Scheme: Letter Grade
Continuation of the course sequence to develop the basic tools for building business systems using object-oriented and event-driven programming paradigms. Emphasizes using C# to illustrate these ideas.
Prerequisite: ISM 3254.

ISM 4113 Business Systems Design and Applications 2 Credits
Grading Scheme: Letter Grade
Conceptual foundations of the process, data and object oriented approaches for the analysis and design of business systems. Systems development life cycle, rapid application design, CASE tools also covered.

ISM 4210 Database Management 2 Credits
Grading Scheme: Letter Grade
Introductory database management. Topics include various stages in a database development process such as conceptual, logical, application and physical design.
Prerequisite: ISM 4113.

ISM 4220 Business Data Communications 1 2 Credits
Grading Scheme: Letter Grade
Various aspects of telecommunication systems, the use of local and wide area networks, the Internet, wireless technologies and distributed systems for decision making and strategic management questions relating to business goals, long-range planning and budgeting.

ISM 4221 Business Data Communications 2 2 Credits
Grading Scheme: Letter Grade
Helps gain insights into network security; exposure to various security algorithms and techniques via hands-on experience with projects and homework assignments.
Prerequisite: ISM 4220.

ISM 4330 Information Systems and Operations Strategy 2 Credits
Grading Scheme: Letter Grade
Policy and management issues surrounding information systems and operations management in today's enterprises.
Prerequisite: ISM 4113, ISM 4210 and ISM 4220.

ISM 4930 Special Topics in Information Systems 1-4 Credits
Grading Scheme: Letter Grade
Variable content provides an opportunity for in-depth study of topics not offered in other courses and of topics of special current significance.
Prerequisite: department permission.

MAN 4504 Operations and Supply Chain Management 4 Credits
Grading Scheme: Letter Grade
Managerial concepts and quantitative tools required in the design, operation, and control of production systems and their relationship to business functions.
Prerequisite: BUL 4310, FIN 3403, GEB 3373, MAC 2233, MAN 3025, MAR 3023, QMB 3250 and STA 2023; BA and AC majors only.

MAN 4538 Integrated Product and Process Design 1 3 Credits
Grading Scheme: Letter Grade
The first part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: senior standing.

MAN 4539 Integrated Product and Process Design 2 3 Credits
Grading Scheme: Letter Grade
Continuation of the two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes, on time and within budget..
Prerequisite: MAN 4538.

QMB 3250 Statistics for Business Decisions 4 Credits
Grading Scheme: Letter Grade
Correlation and linear regression, model building, multiple regression, analysis of variance, time series analysis and decision analysis. Regression modeling with computer applications for business problems.
Prerequisite: STA 2023. Open only to students who need this course for their major or who have permission from the WCBA.

QMB 4701 Managerial Operations Analysis 1 2 Credits
Grading Scheme: Letter Grade
Introduces the concepts and applications of management science; become more confident in understanding and using deterministic analytic models.
Prerequisite: MAC 2233 and STA 2023.

QMB 4702 Managerial Operations Analysis 2 2 Credits
Grading Scheme: Letter Grade
Overview of stochastic applications of management science; learn stochastic modeling techniques and introductory visual basic.
Prerequisite: QMB 4701.

QMB 4905 Individual Work in Information Systems and Operations Management 1-5 Credits
Grading Scheme: Letter Grade
Reading and/or research in information systems and operations management. A written report is required.
Prerequisite: senior standing and department permission.

QMB 4930 Special Topics in Operations Analysis/Quantitative Methods 1-4 Credits
Grading Scheme: Letter Grade
Variable content provides an opportunity for in-depth study of topics not offered in other courses and of topics of special current significance.
Prerequisite: department permission.

QMB 4941 Internship in Information Systems and Operations Management 1-3 Credits
Grading Scheme: S/U
Applied work in information systems and operations management. Requires several papers and reports. Counted as free-elective credit only. (S-U)
Prerequisite: department chair permission.

QMB 4956 International Studies in Quantitative Methods 1-4 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: admission to an approved study abroad program and department permission.

QMB 4970 Honors Thesis 1 Credit
Grading Scheme: S/U
A thesis is required for award of magna cum laude or summa cum laude designations. To qualify, students normally must have completed 90 semester credits of coursework (exceptions may be made) and must have at least a 3.6 GPA at the time they enroll. The thesis will be reviewed by at least one faculty member chosen by the honors coordinator from the student's major department. (S-U)
Prerequisite: 90 credits earned and 3.6 UF GPA.

Innovation Academy

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

ENT 4015 The Venture Accelerator 2 Credits
Grading Scheme: Letter Grade
A team-based, experiential program focused on the start-up process; includes lectures, readings, discussions, workshops, and a team-based project. As deliverables, each team must deliver weekly lessons-learned presentations, complete business canvas updates, and prepare a final presentation.
Prerequisite: ENT 3003 or EGN 4641.

IDH 4940 Internship 1-6 Credits
Grading Scheme: S/U
Experiential learning in a variety of work locations. Permission of program director required. Supervision by a faculty member or delegated authority, daily journal and a post-internship report are required. (S-U).

IDS 1359 Creativity in Action 2 Credits
Grading Scheme: Letter Grade
Focuses on the development of creative problem-solving strategies through completion of an innovative project. Students will and refine the proposal developed in IDS 1353, they will prototype the concept, test and refine the prototype, and complete and present the final project.
Prerequisite: Admission to the Innovation Academy and IDS 1353.

IDS 1940 Creativity in Context 2-4 Credits
Grading Scheme: Letter Grade
Examines the theoretical groundwork and evolution of psychologically-based research on dimensions of the creative person, process, product and press. This foundation frames the applied learning in the course and offers the necessary background for subsequent coursework in the Innovation Academy minor.
Prerequisite: Admission to the Innovation Academy.

IDS 4941 Innovation Academy Internship 1-6 Credits
Grading Scheme: Letter Grade
Experiential learning enables participation in an innovative internship that supplements the degree program. Supervised by a faculty member or designated authority, seven online assignments are required for successful completion.
Prerequisite: One full academic year (spring/summer) in the Innovation Academy and program director permission.

IDS 4950 Innovation Academy Senior Project 2 Credits
Grading Scheme: Letter Grade
Using lectures, labs and a multidisciplinary team-based project approach, build life skills in creativity and innovation, entrepreneurship and entrepreneurial thinking. Synthesize and demonstrate leadership and ethics through design and development of a team project.
Prerequisite: senior standing and enrolled in the Innovation minor.

PHI 3641 Conduct, Change and Consequences: Making Ethical Decisions 3 Credits
Grading Scheme: Letter Grade
Grounding in ethical theory and moral reasoning with a focus on changes at both organizational and societal levels, including, for instance, technological innovations, new business practices and legal changes. Examines the rights and responsibilities of those making such changes as well as the conditions that facilitate responsible decision making. (H, WR4)
Prerequisite: sophomore or higher standing or PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or philosophy major or minor or innovation academy minor or instructor permission.
Attributes: General Education - Humanities, Satisfies 4000 Words of Writing Requirement

Interdisciplinary Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

IDS 1161 What is the Good Life 3 Credits
Grading Scheme: Letter Grade
Examines the enduring question, "What is the Good Life?", from the perspectives of the humanities. Topics include the cost of the good life, how people have chosen to live as members of local and global communities, and conceptions and expressions of beauty, power, love, and health. (H)
Attributes: General Education - Humanities

IDS 2154 Facets of Sustainability 3 Credits
Grading Scheme: Letter Grade
Introduces theory and practices of sustainability from a variety of topical concerns and academic fields. Investigate challenges of pursuing sustainability via texts, lectures, debate and discussion, and written assignments.

IDS 2338 Democratic Engagement and Public Leadership 3 Credits
Grading Scheme: Letter Grade
Reflections on the concept of citizenship in the US and internationally. Learn to analyze and to solve public problems and effectively evaluate methods of civic activism. (S)
Attributes: General Education - Social Science

IDS 4905 Individual Study 1-7 Credits
Grading Scheme: Letter Grade
Opportunity for more in-depth study; complete a project as part of the planned program. The project must be approved by the dean and carried out under the guidance of a faculty member.

IDS 4906 Interdisciplinary Thesis Research 1-12 Credits
Grading Scheme: Letter Grade
Research accommodation for thesis. (WR)
Corequisite: refer to the department.
Attributes: Satisfies 6000 Words of Writing Requirement

IDS 4911 Undergraduate Research in Interdisciplinary Studies 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Interdisciplinary Studies. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Interdisciplinary Studies.

IDS 4930 Special Topics in Interdisciplinary Studies 1-3 Credits
Grading Scheme: Letter Grade
Advanced study of selected topics. Content varies from term to term.

IDS 4940 Internship 1-3 Credits
Grading Scheme: S/U
Supervised internship under guidance of faculty member or delegated authority. Post-internship written report is required. (S-U)

IDS 4942 Sustainability in Action 3 Credits
Grading Scheme: S/U
Capstone course that integrates readings, discussion and practical experience in a sustainability-related community service, internship or project.
Prerequisite: sustainability studies majors and minors with department approval.

IDS 4956 Overseas Studies 0-16 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

INS 3004 International Studies Perspectives 3 Credits
Grading Scheme: Letter Grade
Demographics, cultures, governments and histories of major world regions as these relate to major, current, transnational and global issues such as migration, socio-economic development, conflicts and disasters, and environmental issues.
Prerequisite: completion of at least 3 courses approved for the international studies major.

INS 4905 Individual Work in International Studies 0-3 Credits
Grading Scheme: Letter Grade
Provides those in the major with a directed opportunity to pursue in depth an area of focus associated with international studies including regional and topical coursework, international study abroad, service-learning projects, and/or internship projects.
Prerequisite: INS 3004.

INS 4911 Undergraduate Research in International Studies 0-3 Credits
Grading Scheme: Letter Grade
Provides an opportunity to undertake supervised research. Self-directed research allows individuals or groups to explore interesting issues in international studies and communicate their results.

INS 4930 Senior Research Seminar in International Studies 3 Credits
Grading Scheme: Letter Grade
Readings on and discussions of major contemporary international and global issues. Offers students the opportunity to conduct guided research on international topics of their choice that relate to their track(s) and study, internships or work abroad experiences for the international studies major.
Prerequisite: INS 3004 and senior standing.

ISS 2160 Cultural Diversity in the United States 3 Credits
Grading Scheme: Letter Grade
The great racial and ethnic diversity of contemporary U.S. society. Explores both the positive contributions and negative experiences of a variety of racial and ethnic groups, an exploration drawing on such concepts as culture, racial group, ethnic group, prejudice, discrimination and civil rights protest. (D and S) (WR)
Attributes: General Education - Diversity, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

Interior Design

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

IND 1020 Design Innovation 3 Credits
Grading Scheme: Letter Grade
Overview of the interior design profession. The design of interiors to enhance human activity while observing life safety codes and human performance. Examines significant interiors and furniture components in the design process. (H)
Attributes: General Education - Humanities

IND 2100 History of Interior Design 1 3 Credits
Grading Scheme: Letter Grade
History of interior spaces, design philosophy, interior elements in architectural and sociological context. Record of human achievement expressed in the built environment. Foundation for contemporary design and interior preservation practice. Ancient world through early nineteenth century. Slide lecture, discussion, outside research. (H and N)
Attributes: General Education - Humanities, General Education - International

IND 2130 History of Interior Design 2 3 Credits
Grading Scheme: Letter Grade
Continues the history of interior design. Evolution of contemporary design philosophy. Foundation for contemporary design and interior preservation practice. Nineteenth century revivals through current developments. Slide lecture, discussion, outside research. (H and N)
Prerequisite: IND 2100.
Attributes: General Education - Humanities, General Education - International

IND 2214 Introduction to Architectural Interiors 4 Credits
Grading Scheme: Letter Grade
Introduces the design of micro interior environments in relation to the architectural setting. Studies human perception, dimension, and spatial activity requirements. Explores design process and the graphic communication of interior design ideas.
Prerequisite: ARC 2303.

IND 2313 Interior Design Communication Systems 3 Credits
Grading Scheme: Letter Grade
Conceptual process, design theory and programmatic concerns involved in residential, institutional and commercial interior design. Emphasizes visual communications techniques including explanation of media and the forms of visual communication of design concepts.
Prerequisite: ARC 1302.

IND 2422 Interior Finishes and Materials 3 Credits
Grading Scheme: Letter Grade
Studies interior materials, focusing on their characteristics and estimating, fabrication and installation.
Prerequisite: interior design majors only.
Corequisite: ARC 2303.

IND 2460C Computer Applications in Three Dimensional Design 3 Credits
Grading Scheme: Letter Grade
Introduces the microcomputer as a tool for interior design illustration, drafting and design development. A fundamental computer graphics course for interior design students, building skills and technical knowledge in image processing, two-dimensional drawing and three-dimensional modeling of building interiors.
Prerequisite: CGS 2470 and interior design majors only.

IND 2635 Design Environments and Human Interaction 3 Credits
Grading Scheme: Letter Grade
Introduces significant theories concerning the interaction of people with environments at various scales. Also explores the corresponding applied environmental design implications of these theories. This survey of normative theories, philosophies and doctrines of environment and behavior serve as an evidence base to support research-based design decisions. (WR)
Prerequisite: ARC 2303 and interior design majors only.
Attributes: Satisfies 6000 Words of Writing Requirement

IND 3215 Architectural Interiors 1 5 Credits
Grading Scheme: Letter Grade
Development of interior spaces from conceptual phases to final design resolution, based on interior considerations and external influences. Emphasizes three-dimensional design process and detailed graphic representation of designed spaces.
Prerequisite: ARC 2214.

IND 3216 Architectural Interiors 2 5 Credits
Grading Scheme: Letter Grade
Conceptual process, design theory and programmatic concerns involved in residential, commercial and institutional interior design. Emphasizes professional applications and the interior designer as an environmental problem solver.
Prerequisite: IND 3215.

IND 3311C Color Theory Planning and Practice 3 Credits
Grading Scheme: Letter Grade
Explores the power of color in our human experience and examination of the art and science of color theory in the context of interior design and allied fields.

IND 3431 Interior Lighting 3 Credits
Grading Scheme: Letter Grade
Introduces lighting design based upon a critical awareness of the luminous environment, and principles and perception of light and color. Graphic exercises in lighting design, documentation and lighting calculations based on student solutions.
Prerequisite: IND 3215.

IND 3468 Interior Environmental Technologies 3 Credits
Grading Scheme: Letter Grade
Considers interior environmental conditions in relation to human sensory reactions, psychological factors, health, safety and satisfaction. Relates the vocabulary and concepts of interior environmental technology to the process of interior design.
Prerequisite: IND 2214.

IND 3483 Interior Design Construction Documents 4 Credits
Grading Scheme: Letter Grade
Systematic overview of construction systems, technologies and materials with emphasis on the design of interior systems and the detailing of these systems as an extension of the overall design concept.
Prerequisite: IND 2214.

IND 3512 Professional Practice of Interior Design 3 Credits
Grading Scheme: Letter Grade
Consideration of office practices and design project management. Explores contract documents, associated legal aspects, marketing strategies, professional ethics, staff personnel practices and career planning. Integration of computer software for project scheduling and time management. A case study exploration of ethics and contracting for design services is used. Studies integration of appropriate computer software for office management and project scheduling.
Prerequisite: interior design majors only.
Corequisite: IND 3216.

IND 3627 Sustainable Interior Environments 3 Credits
Grading Scheme: Letter Grade
Designed for students seeking an understanding of sustainable interior environments. Introduces best practices, current trends and case studies in various interior settings. Explores key elements of sustainability including environmental history, indoor sustainable development, waste management, energy consumption and water conservation.
Prerequisite: junior standing.

IND 3905 Individual Studies in Interior Design 1-6 Credits
Grading Scheme: Letter Grade
Special areas of study in interior design adjusted to the needs of the individual student.
Prerequisite: department chair permission.

IND 4225 Advanced Architectural Interiors 1 6 Credits
Grading Scheme: Letter Grade
Advanced problems in interior design with respect to the needs of the sophisticated clients in urban settings, ranging from the infrastructure of large urban spaces to the details of individual interior spaces, including open office planning and design of public spaces.
Prerequisite: IND 3216.

IND 4226 Advanced Architectural Interiors 2 6 Credits
Grading Scheme: Letter Grade
Design problems involving multiple phases of the design process through final design and detailing of each project. Final project demonstrates highest levels of design development.
Prerequisite: IND 4225.

IND 4450C Advanced Interior Design Detailing and Construction Documents 4 Credits
Grading Scheme: Letter Grade
Advanced problems in design and detailing of interior finish systems such as interior architecture and cabinetry. Exploration and production of interior mechanical and millwork drawings and construction documents. Integration of building codes and life safety issues.
Prerequisite: IND 3216;
Corequisite: IND 4225.

IND 4930 Special Topics 1-6 Credits
Grading Scheme: Letter Grade
Special topics seminar in interior design. Enrollment upon recommendation of department chair.
Prerequisite: IND 3215.

IND 4940 Design Field Experience 2-4 Credits
Grading Scheme: S/U
Provides opportunities to work in architectural and interior design offices gaining hands-on professional experience working up to 12 weeks. (S-U)
Prerequisite: IND 3216 and IND 3483 and IND 3512.

Italian | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

ITA 1130 Beginning Italian 1 5 Credits
Grading Scheme: Letter Grade
ITA 1130 and its sequel, ITA 1131, constitute the basic sequence in Italian. Emphasis on the development of broad competence in the language. Oral-aural approach ensures competence in the four skills.

ITA 1131 Beginning Italian 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the basic sequence in Italian. Emphasis on the development of broad competence in the language. Oral-aural approach ensures competence in the four skills.
Prerequisite: ITA 1130 with minimum grade of C, or S, or the equivalent.

ITA 2220 Intermediate Italian 1 4 Credits
Grading Scheme: Letter Grade
Enhances knowledge of Italian in all four skills: listening, reading, speaking and writing. The goal is to create communicative competence that enables students to advance to third year study and to benefit from their visits to Italy. (H and N)
Prerequisite: ITA 1131 or the equivalent.
Attributes: General Education - Humanities, General Education - International

ITA 2221 Intermediate Italian 2 4 Credits
Grading Scheme: Letter Grade
Completes second year sequence with emphasis on composition, literature and communication skills. (H and N)
Prerequisite: ITA 2220 or the equivalent.
Attributes: General Education - Humanities, General Education - International

ITA 3070 Accelerated Introduction to Italian 5 Credits
Grading Scheme: Letter Grade
Intensive course designed primarily for speakers or students with knowledge of another Romance language or strong linguistic abilities in another foreign language. Assumes no prior study of Italian and offers a complete four-skill (listening, speaking, reading and writing) introduction to the language.
Prerequisite: fourth semester of another romance language or instructor permission.

ITA 3224 Italian Enhancement Section 1-5 Credits
Grading Scheme: Letter Grade
Italian-language reading and discussion to accompany and complement courses in other departments. Readings and discussions are in Italian to develop vocabulary and fluency related to the content of the companion course and to provide an international perspective on the issues of the main course. (N)
Prerequisite: ITA 2221 or instructor permission. Not for credit in the major.
Attributes: General Education - International

ITA 3420 Grammar and Composition 1 3 Credits
Grading Scheme: Letter Grade
Intensive language course designed to master grammatical principles, increase vocabulary and enhance writing and composition skills.
Prerequisite: ITA 2221 or equivalent.

ITA 3500 Italian Civilization 3 Credits
Grading Scheme: Letter Grade
Variable topics class that introduces Italian civilization in historical, artistic and literary contexts. (H and N)
Prerequisite: ITA 2221 or the equivalent, or section coordinator or undergraduate advisor permission.
Attributes: General Education - Humanities, General Education - International

ITA 3564 Contemporary Italian Culture 3 Credits
Grading Scheme: Letter Grade
Variable topics class focusing on modern Italy through literature, art and mass media, and current events. (H and N)
Prerequisite: ITA 2221 or the equivalent, or section coordinator or undergraduate advisor permission.
Attributes: General Education - Humanities, General Education - International

ITA 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
For advanced minors who seek independent work not offered in another course. Must be arranged individually with Italian faculty. Only three credits can count toward the minor.
Prerequisite: program coordinator permission.

ITA 4911 Undergraduate Research in Language or History/Culture in Italian 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

ITT 2530 Italian Literature and Film 3 Credits
Grading Scheme: Letter Grade
Study of modern Italian narrative and its adaptation to film by major Italian directors. (H and N)
Attributes: General Education - Humanities, General Education - International

ITT 3431 Italy and Pilgrimages 3 Credits
Grading Scheme: Letter Grade
Through lectures, readings and discussions in English, ITT 3431 considers the continuing presence of Rome and other Italian cities as metaphors and focal points of Italian artistic and literary sensibilities. (H and N)
Attributes: General Education - Humanities, General Education - International

ITT 3521 Italian Cinema 4 Credits
Grading Scheme: Letter Grade
Critical and historical study of Italian film and directors. Topics may vary. (H and N)
Attributes: General Education - Humanities, General Education - International

ITT 3540 Murder Italian Style: Crime Fiction and Film in Italy 3 Credits
Grading Scheme: Letter Grade
Explores Italian crime fiction and film. Analysis considers specificity of Italian tradition while placing texts and films in a broader cultural and historical context, enabling critically and politically informed reading of the many applications and subversions of the generic formula. Taught in English.
Prerequisite: sophomore standing or instructor permission.

ITT 3541 Gangsters and Godfathers: Italian Mafia Movies 3 Credits
Grading Scheme: Letter Grade
Examines Italian cinematic representations of organized criminality, in particular Sicilian Cosa Nostra and Neapolitan Camorra. Analysis considers specificity of Italian tradition while placing films in a broader history of the gangster genre to allow for a critically and politically informed reading of Italian generic subversions. Taught in English.
Prerequisite: Sophomore standing or instructor permission.

ITT 3700 The Demolition of Man: Italian Perspectives on the Jewish Holocaust 3 Credits
Grading Scheme: Letter Grade
Explores a sampling of Italys texts on the Jewish Holocaust, centering on the work of survivor and theorist of the camps, Primo Levi. Material also encompasses the history of the Italian-Jewish community as well as a selection of Italian films dealing with the realities and ethical implications of the camps.
Prerequisite: sophomore standing or instructor permission.

ITT 3930 Special Topics in Italian Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Selected topics in Italian literature, civilization and culture, including crossover influence of media. Can focus on one epoch's influence on another.

ITT 4911 Undergraduate Research in Italian in English Translation 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

ITT 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

ITW 3100 Introduction to Italian Literature 1 3 Credits
Grading Scheme: Letter Grade
The origins of early Italian literature, its central themes and the cultural factors that influenced its development. Develops an ability to read in Italian and to read critically. (H)
Prerequisite: ITA 2221 or the equivalent, or section coordinator or undergraduate advisor permission.
Attributes: General Education - Humanities

ITW 3101 Introduction to Italian Literature 2 3-9 Credits
Grading Scheme: Letter Grade
The major Italian authors from the Renaissance through the 20th century. (H)
Prerequisite: ITA 2221 or the equivalent, or section coordinator or undergraduate advisor permission.
Attributes: General Education - Humanities

ITW 3310 Italian Play 3 Credits
Grading Scheme: Letter Grade

ITW 3500 Boccaccio's Decameron 3 Credits
Grading Scheme: Letter Grade
Analysis of Giovanni boccaccios canonical decameron with a focus on the literary Dimension of Text as well as the political, historical, and religious context in which the work was written.
Prerequisite: ITA 2221 or the equivalent.

ITW 4026C Representing the Humble Italy: Literature and Cinema of the Italian South 3 Credits
Grading Scheme: Letter Grade
Examines texts and films that address the so-called Southern Question; namely, the socioeconomic and cultural disparities between northern and southern Italy. Explores or contests topics and concepts including southern exclusion from official history, southern fusion of religion and superstition, resistance to modernity and mafia-related political corruption. Taught in Italian.
Prerequisite: ITA 3420, ITA 3500, ITA 3564, ITW 3100 or ITW 3101, or instructor permission.

ITW 4253 Delitto all'italiana: Crime Fiction and Film in Italy 3 Credits
Grading Scheme: Letter Grade
Explores a sampling of Italian crime fiction and film through the lens of a range of conceptual categories, including British intellectual model vs. American noir; rational inquiry vs. uncertainties of sensory perception; canon vs. popular; cosmopolitan vs. provincial; order vs. chaos; political conservatism vs. social critique. Taught in Italian.
Prerequisite: ITA 3420, ITA 3500, ITA 3564, ITW 3100 or ITW 3101, or instructor permission.

ITW 4491 Italian Theater from the Renaissance to the Early Modern Era 3 Credits
Grading Scheme: Letter Grade
Overview and analysis of evolution of Italian theater, with focus on a selection of specific examples drawn from Italian theater from the Renaissance to the early modern era. Taught in Italian.
Prerequisite: ITA 3420, ITA 3500, ITA 3564, ITW 3100 or ITW 3101, or instructor permission.

ITW 4526 Mad Love in Modern Italian Literature 3 Credits
Grading Scheme: Letter Grade
Exploration of a sampling of modern Italian literary manifestations of a love that strays beyond the conventional. Language skills addressed through discussion, oral presentations, creative writing assignments, and short papers.
Prerequisite: ITA 3420, ITA 3500, ITA 3564, ITW 3100 or ITW 3101, or instructor permission.

ITW 4580 Animals and Animality in Italian Culture 3 Credits
Grading Scheme: Letter Grade
Presentation and exploration of the figure of the nonhuman animal in the work of several modern Italian authors and poets. Analysis addresses the literary dimension of the selected animal portraits as well as any philosophical and ethical questions raised by these literary animals. Taught in Italian.
Prerequisite: 3 credits of an ITA or ITW course at the 3000 level or above.

ITW 4600 Dante's Inferno 3 Credits
Grading Scheme: Letter Grade
Semester-long, in-depth examination of Dante Alighieris text, Inferno, with the support of a variety of visual materials and digital resources devoted to Dante and his world. Special attention paid to the political, historical and religious context in which Dante wrote. Taught in Italian.
Prerequisite: ITA 3420, ITA 3500, ITA 3564, ITW 3100 or ITW 3101, or instructor permission.

ITW 4911 Undergraduate Research in Literature in Italian 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Literature in Italian. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Literature in Italian.

Japanese | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

JPN 1130 Beginning Japanese 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading, and writing. JPN 1130 has a strict attendance policy: if registered students miss two or more class meetings during drop/add, they may be dropped from the class upon notification by the instructor.
Prerequisite: placement test.

JPN 1131 Beginning Japanese 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar. JPN 1131 has a strict attendance policy: if registered students miss two or more class meetings during drop/add, they may be dropped from the class upon notification by the instructor.
Prerequisite: JPN 1130 with minimum grade of C, or S, or the equivalent as proven by placement test.

JPN 2230 Intermediate Japanese 1 5 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar. JPN 2230 has a strict attendance policy: if registered students miss two or more class meetings during drop/add, they may be dropped from the class upon notification by the instructor.
Prerequisite: JPN 1131 with minimum grade of C, or S, or the equivalent as proven by placement test.

JPN 2231 Intermediate Japanese 2 5 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study. JPN 2231 has a strict attendance policy: if registered students miss two or more class meetings during drop/add, they may be dropped from the class upon notification by the instructor.
Prerequisite: JPN 2230 with minimum grade of C, or S, or the equivalent as proven by placement test.

JPN 3410 Advanced Japanese 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures. JPN 3410 has a strict attendance policy: if registered students miss two or more class meetings during drop/add, they may be dropped from the class upon notification by the instructor. (H and N)
Prerequisite: JPN 2231 with minimum grade of C, or S, or the equivalent as proven by placement test.
Attributes: General Education - Humanities, General Education - International

JPN 3411 Advanced Japanese 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study. JPN 3411 has a strict attendance policy. If registered students miss two or more class meetings during drop/add, they may be dropped from the class upon notification by the instructor. (H and N)
Prerequisite: JPN 3410 with minimum grade of C, or S, or the equivalent as proven by placement test.
Attributes: General Education - Humanities, General Education - International

JPN 3440 Business Japanese 3 Credits
Grading Scheme: Letter Grade
Provides grammatical structures and essential business vocabulary, develops conversation strategies and presentation skills, and raises awareness of the customs and cultural differences in Japanese business interactions.
Prerequisite: JPN 2231 with minimum grade of C or S, or the equivalent.

JPN 3730 Language in Japanese Society 3 Credits
Grading Scheme: Letter Grade
Analysis of variation in regional dialects: gender-based differences, pragmatics of interpersonal communication, language acquisition and discourse structure. (S and N)
Attributes: General Education - International, General Education - Social Science

JPN 4415 Japanese Translation: Theory and Practice 3 Credits
Grading Scheme: Letter Grade
Key concepts and approaches of translation studies applied to the translation of Japanese to English, and English to Japanese, in a variety of media, genre, and text types.
Prerequisite: JPN 3410 or equivalent with a minimum grade of C or instructor permission.

JPN 4850 Structure of Japanese 3 Credits
Grading Scheme: Letter Grade
Linguistic analysis of modern standard Japanese. Topics include phonology, morphology, syntax, semantics and writing. Readings and discussions in English. (S and N)
Prerequisite: JPN 1131 or instructor permission.
Attributes: General Education - International, General Education - Social Science

JPN 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course. Available only by special arrangement.

JPN 4911 Undergraduate Research in Language or Linguistics 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research in Language or Linguistics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Language or Linguistics.

JPN 4930 Special Topics in Japanese Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in and in-depth study of special topics in Japanese studies.

JPN 4935 Senior Honors Thesis 3 Credits
Grading Scheme: Letter Grade
Select a Japanese faculty member to act as director for an independent research project that culminates in an honors thesis.
Prerequisite: Minimum 3.5 GPA and instructor permission.

JPN 4940 Internship 3 Credits
Grading Scheme: Letter Grade
Faculty (or delegated authority) supervised internship. Requires a written post-internship report.
Prerequisite: instructor and department permission.

JPN 4956 Overseas Studies 1 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

JPN 4957 Overseas Studies 2 1-15 Credits
Grading Scheme: Letter Grade
Revolving topics provide a mechanism for coursework taken at a foreign university as part of an approved study abroad program to be transferred to UF. Credits taken will be entered in the student's transcript and may or may not count toward graduation, at the discretion of major's advisors.
Prerequisite: undergraduate advisor permission.

JPT 3100 Tales of Kyoto 3 Credits
Grading Scheme: Letter Grade
An investigation of literary texts from the 8th through the 17th centuries presented within the framework of Western literary and feminist criticism. (H and N)
Attributes: General Education - Humanities, General Education - International

JPT 3120 Modern Japanese Fiction in Translation 3 Credits
Grading Scheme: Letter Grade
A critical examination of stories, autobiographies and secondary criticism from the 19th century to the present. Become familiar with the forms and topics of criticism through Japanese and Western sources. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

JPT 3121 Contemporary Japanese Literature: Postwar to Postmodern 3 Credits
Grading Scheme: Letter Grade
Companion to JPT 3120 that reflects the increasing clarity with which contemporary Japanese literature (1945 to present) is emerging as a separate field with its own set of issues, major texts and significance for the American student of Japan. Writers range from Dazai and Oe Kenzaburo to Murakami Haruki, and issues range from subjectivity to cybernetics.

JPT 3140 Modern Women Writers 3 Credits
Grading Scheme: Letter Grade
Examination of narratives written by women who published during the Taisho (1912-25), Showa (1925-89) and Heisei (1989 to present) periods. (H and N)
Attributes: General Education - Humanities, General Education - International

JPT 3150 Classical Japanese Poetry 3 Credits
Grading Scheme: Letter Grade
Historical survey of traditional Japanese poetry (waka) from the 8th to the 16th century. (H and N)
Attributes: General Education - Humanities, General Education - International

JPT 3300 Samurai War Tales 3 Credits
Grading Scheme: Letter Grade
Explores the historical and cultural stimuli that led to war, recorded later as war narratives. Supported by images of architecture, narrative picture scrolls, and extant military accoutrements. (H and N)
Corequisite: JPT 3500 recommended.
Attributes: General Education - Humanities, General Education - International

JPT 3330 Early Modern Japanese Literature 3 Credits
Grading Scheme: Letter Grade
Surveys Japanese literature of the Early Modern period (also called the Edo period), 1600-1868. Introduces and analyzes historically significant, foundational works of Early Modern Japanese literature and theater. Explores the history of the period and the development of print technologies and new genres, and introduces critical aesthetic and cultural concepts.
Prerequisite: JPT 3500 or JPT 3100 or JPT 3300 or JPN 2230

JPT 3391 Introduction to Japanese Film 4 Credits
Grading Scheme: Letter Grade
Introduces the formal and historical features of Japanese film that have given it a unique position in film history. Emphasizes formal and critical analysis as well as the intellectual stakes of studying non-western film.

JPT 3500 Japanese Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to Japanese culture with emphasis on tracing the origin and development of important aspects of Japanese literature, art, religion and society. All readings in English. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

JPT 3702 Japanese Visual Culture 3 Credits
Grading Scheme: Letter Grade
Explores issues within Japanese visual culture, and uses visual-cultural products to explore Japanese political, cultural, social, and historical issues. Introduces and analyzes historically significant, foundational works of Japanese visual culture, unpacks genre and genre tropes in contemporary works, and analyzes several visual-cultural works that tackle significant social issues.
Prerequisite: JPT 3500 or JPT 3120 or ASH 3442

JPT 4130 The Tale of Genji 3 Credits
Grading Scheme: Letter Grade
Investigation of the 11th-century masterpiece and its pervasive influence on Japanese literature, past and present. (H and N)
Attributes: General Education - Humanities, General Education - International

JPT 4502 Japanese Folklore 3 Credits
Grading Scheme: Letter Grade
Study of native belief systems and the supernatural as reflected in the folk practice of ritual observance and in tales, myths, songs and proverbs. (H and N)
Attributes: General Education - Humanities, General Education - International

JPT 4510 Representations of Japan's Modern Empire 3 Credits
Grading Scheme: Letter Grade
Examines a variety of literary, historical, anthropological, and theoretical texts to explore racial and social issues related to Japan's imperial past. (H and N)
Corequisite: JPT 3500 recommended.
Attributes: General Education - Humanities, General Education - International

JPT 4911 Undergraduate Research in English Translation 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

JPT 4956 Overseas Studies 1 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

JPT 4957 Overseas Studies 2 1-15 Credits
Grading Scheme: Letter Grade
Revolving topics provide a mechanism for coursework taken at a foreign university as part of an approved study abroad program to be transferred to UF. Credits taken will be entered in the student's transcript and may or may not count toward graduation, at the discretion of major's advisors.
Prerequisite: undergraduate advisor permission.

JPW 3143 Classical Japanese 1 3 Credits
Grading Scheme: Letter Grade
Introduction to classical Japanese texts with emphasis on reading comprehension, grammar analysis and translation.
Prerequisite: JPN 2231 with minimum grade of C, or the equivalent.

JPW 3144 Classical Japanese 2 3 Credits
Grading Scheme: Letter Grade
Complex texts in classical Japanese with focus on comprehension, grammar, literature and culture.
Prerequisite: JPN 3143 with minimum grade of C, or the equivalent.

JPW 4130 Readings in Japanese Literature 3 Credits
Grading Scheme: Letter Grade
A fourth-year language course based on literary texts, incorporating advanced reading skills and the analysis of literature in the original. (H and N)
Prerequisite: JPN 3411 with minimum grade of C or S, or the equivalent as proven by placement test.
Attributes: General Education - Humanities, General Education - International

JPW 4131 Japanese Texts and Contexts 3 Credits
Grading Scheme: Letter Grade
Complements JPW 4130, Readings in Japanese Literature, and focuses on contemporary issues as encountered in a variety of Japanese media.
Prerequisite: JPN 3411 with minimum grade of C or S, or the equivalent as proven by placement test.

JPW 4911 Undergraduate Research in Target Language 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research in Target Language. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Target Language.

Jewish Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Collapse of the monarchy and tribulations of the Weimar Republic. Examines Hitler's seizure of power, and of social, political, and ideological aspects of the Third Reich. The two Germanies to the fall of the Berlin Wall. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

HBR 1130 Beginning Modern Hebrew 1 5 Credits
Grading Scheme: Letter Grade
Beginning Hebrew covers four skills: listening, speaking, reading, and writing. For those with no prior exposure to the language.

HBR 1131 Beginning Modern Hebrew 2 5 Credits
Grading Scheme: Letter Grade
Continues beginning Hebrew, covering four skills: listening, speaking, reading, and writing.
Prerequisite: HBR 1130 with minimum grade of C or S, or the equivalent.

HBR 2220 Intermediate Modern Hebrew 1 4 Credits
Grading Scheme: Letter Grade
Intermediate Hebrew study covers four skills: listening, speaking, reading, and writing with new vocabulary and grammar.
Prerequisite: HBR 1131 with minimum grade of C or S, or the equivalent.

HBR 2221 Intermediate Modern Hebrew 2 4 Credits
Grading Scheme: Letter Grade
Continues intermediate Hebrew covering four skills: listening, speaking, reading, and writing.
Prerequisite: HBR 2220 with minimum grade of C or S, or the equivalent.

HBR 3410 Advanced Modern Hebrew 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills: listening, speaking, reading, and writing with attention to more complex structures. (H and N)
Prerequisite: HBR 2220 or HBR 2133 with minimum grade of C or S, or the equivalent.
Attributes: General Education - Humanities, General Education - International

HBR 3411 Advanced Modern Hebrew 2 3 Credits
Grading Scheme: Letter Grade
Continues advanced Hebrew study of the four skills: listening, speaking, reading, and writing with attention to more complex structures. (H and N)
Prerequisite: HBR 3410 with minimum grade of C or S, or the equivalent.
Attributes: General Education - Humanities, General Education - International

HBR 4905 Individual Work 1-5 Credits
Grading Scheme: Letter Grade
Individual work on an approved topic.
Prerequisite: refer to the department.

HBR 4930 Special Topics 3 Credits
Grading Scheme: Letter Grade
Proseminar of variable content providing an opportunity for in-depth study of special topics in Israeli literature, history, or culture.

HBT 3563 Women in Modern Hebrew Fiction 3 Credits
Grading Scheme: Letter Grade
Depictions of women in 20th century Hebrew fiction.

JST 2841 Women and Politics in Israel 3 Credits
Grading Scheme: Letter Grade
Analyzes womens roles both as political agents and as objects of political policies and movements. Examines Israeli female politicians and judges as political actors, and as both subjects and objects of state policy.

JST 2930 Special Topics in Jewish Studies 3 Credits
Grading Scheme: Letter Grade
Selected topics in the study of Jewish civilization.

JST 3821 Israeli Society 3 Credits
Grading Scheme: Letter Grade
Introduces major themes in dynamics of contemporary Israeli society. Juxtaposition of the different subjective points of view and motivations of the various actors involved.
Prerequisite: sophomore standing.

JST 3845 Israelis and Palestinians 3 Credits
Grading Scheme: Letter Grade
Discussion of Israeli-Palestinian interactions with a focus on the way collective identities are shaped by the conflict. Historically outlines development of the conflict from the beginning of the Zionist immigration to Palestine to present day and includes thematic analysis of its sociological dynamics.
Prerequisite: sophomore standing.

JST 3930 Special Topics in Jewish Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics in Jewish thought, history, literature and culture as represented in classified Jewish texts, Jewish law, Jewish ethics, folklore, Hasidism and Holocaust literature. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

JST 4905 Individual Work in Jewish Studies 1-3 Credits
Grading Scheme: Letter Grade
For advanced students who desire supplemental reading or research under guidance.

JST 4936 Colloquium in Jewish Studies 3 Credits
Grading Scheme: Letter Grade
Colloquium in Jewish studies designed to enhance knowledge of the development and significance of Jewish civilization.
Prerequisite: REL 2600 or the equivalent, junior or senior standing and instructor permission.

JST 4940 Internship in Jewish Studies 1-6 Credits
Grading Scheme: S/U
Preapproved internship with Jewish communal, educational or service institutions. Only 3 credits of JST 4940 can count toward a Jewish studies major or minor. (S-U)
Prerequisite: REL 2600 or the equivalent, junior/senior standing and instructor permission.

JST 4970 Senior Honors Thesis 1-3 Credits
Grading Scheme: Letter Grade
Directed research leading to submission of an honors thesis. Work completed under the supervision of a Jewish studies faculty member. Students can register for one semester (3 credits) or two (1 and 2 credits respectively). Required for magna or summa cum laude designation.

LIT 3173 Jewish Literature 3 Credits
Grading Scheme: Letter Grade
Variable topics in the Jewish literary experience, from the biblical narrative and classical tales to Yiddish and Hebrew literature, the modern European novel, and American Jewish fiction. (H and N)
Attributes: General Education - Humanities, General Education - International

MUH 3621 Jewish Art Music in Western Culture 3 Credits
Grading Scheme: Letter Grade
Cultural history of western art music inspired by Jewish subjects, Biblical and non-Biblical, composed by both Jewish and non-Jewish composers, and a survey of Jewish performing musicians from the Renaissance to the present. (H and N)
Prerequisite: written instructor permission.
Attributes: General Education - Humanities, General Education - International

POS 4291 Religion and Politics in the United States 3 Credits
Grading Scheme: Letter Grade
Investigates the role of religious institutions, values and communities in contemporary American political life. (WR)
Prerequisite: refer to the department.
Attributes: Satisfies 6000 Words of Writing Requirement

REL 2000 Introduction to Religion 3 Credits
Grading Scheme: Letter Grade
Introduces the historical underpinnings, geographical movement, development and current expression of a variety of religious traditions.

REL 2104 Environmental Ethics 3 Credits
Grading Scheme: Letter Grade
Explores competing secular and religious views regarding human impacts on and moral responsibilities toward nature and of the key thinkers and social movements in contention over them. (H) (WR)
Attributes: General Education - Humanities, Satisfies 2000 Words of Writing Requirement

REL 2210 Hebrew Scriptures 3 Credits
Grading Scheme: Letter Grade
History, literature, and beliefs of the Israelites from the Biblical text in the light of modern scholarship. (H)
Attributes: General Education - Humanities

REL 2388 Indigenous Religions of the Americas 3 Credits
Grading Scheme: Letter Grade
Religious values, attitudes, and norms of Native American peoples within the United States. (H) (WR)
Attributes: General Education - Diversity, General Education - Humanities, Satisfies 4000 Words of Writing Requirement

REL 2600 Jews, Judaism, and Jewishness 3 Credits
Grading Scheme: Letter Grade
Multidisciplinary approach to the Jewish experience from its Biblical origins to modern times.

REL 3213 Hebrew Bible as Literature 3 Credits
Grading Scheme: Letter Grade
Intensive introduction to the literary study of the Hebrew Bible within the context of ancient Near Eastern literature and history.

REL 3234 Wisdom in the Hebrew Bible 3 Credits
Grading Scheme: Letter Grade
Examines ancient Israelite and early Jewish wisdom literature alongside similar literature from ancient Mesopotamia and Egypt.

REL 3291 Gender and the Hebrew Bible 3 Credits
Grading Scheme: Letter Grade
Critical examination of the literary representation and historical realities of gender and sexuality in ancient Israel through close readings of selected texts from the Hebrew Bible.

REL 3321 Early Judaism and Christianity 3 Credits
Grading Scheme: Letter Grade
Examines the Jewish-Christian encounter. The historical interaction between Judaism and Christianity including how each group symbolized the other, and the practical implications of the representations. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

REL 3938 Special Topics in Religion 3 Credits
Grading Scheme: Letter Grade
Special topics in religion. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

REL 4092 Ethics, Utopias and Dystopias 3 Credits
Grading Scheme: Letter Grade
Examines relationships between ethics and utopias in literature, religious communities, and millenarian movements. (H) (WR)
Prerequisite: instructor permission.
Attributes: General Education - Humanities, Satisfies 2000 Words of Writing Requirement

REL 4209 Dead Sea Scrolls and Early Jewish Literature 3 Credits
Grading Scheme: Letter Grade
Explores the varieties of literature that arose within Judaism from 250 BCE to 220 CE, including selections from the Dead Sea Scrolls, the OT Pseudepigrapha, Philo, and Josephus. (H)
Prerequisite: refer to the department.
Attributes: General Education - Humanities

REL 4221 The Pentateuch 3 Credits
Grading Scheme: Letter Grade
In-depth study of the Pentateuch (Genesis-Deuteronomy) in light of modern biblical scholarship.
Prerequisite: instructor permission.

REL 4490 Special Topics in Religious Thought 3 Credits
Grading Scheme: Letter Grade
Special topics in religious thought. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

REL 4611 Israelite Religion 3 Credits
Grading Scheme: Letter Grade
Comparative survey of literary, historical, ritual, and material aspects of ancient Israelite religion with evidence from Canaan, Mesopotamia, Greece, and Rome.
Prerequisite: instructor permission.

REL 4936 Special Topics in Religious Studies 3 Credits
Grading Scheme: Letter Grade
Advanced study for those with proper preparation of selected topics involving one or more religious traditions. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

Journalism

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Students not admitted to this college must have a 3.0 overall grade point average to enroll in journalism courses other than MMC 1000, MMC 2100, PUR 3000, and RTV 2100.

Courses

JOU 1001 Introduction to Journalism 1 Credit
Grading Scheme: Letter Grade
Overview of journalism in its many forms. A series of professional journalists introduce the news and information business. Offers preparation for a career in journalism.

JOU 2040 Writing Mechanics 1 Credit
Grading Scheme: Letter Grade
Prepares media writers for professional work, with a focus on mastering the basics of grammar, punctuation and spelling.

JOU 2100 Broadcast Writing Bootcamp 1 Credit
Grading Scheme: Letter Grade
This course explores the differences of writing for the ear vs. writing for the eye. Storytelling through methodologies traditionally associated with broadcast journalism?which can also be incorporated in digital and social storytelling?will be the focus. Examination of story structures and practical experience in writing scripts and sound-based stories.

JOU 3101 Reporting 3 Credits
Grading Scheme: Letter Grade
Instruction and practice reporting and writing basic news stories. Emphasizes style, clarity, accuracy and responsibility in handling news. (WR)
Prerequisite: 2JM classification;
Corequisite: MMC 2121.
Attributes: Satisfies 6000 Words of Writing Requirement

JOU 3109C Multimedia Writing 3 Credits
Grading Scheme: Letter Grade
Introduces news and public relations writing and the use of multimedia tools in gathering and disseminating information. Learn how to use multimedia tools for journalism work, interviewing techniques, AP style and the elements that make a story newsworthy. Consists of two hours of lecture and a three-hour lab each week.
Prerequisite: ENC 1102 and (MMC 1009 or MMC 2604 or PUR 3000), with minimum grades of C.

JOU 3110 Applied Fact Finding 3 Credits
Grading Scheme: Letter Grade
Instruction and practice in researching and solving complex news problems. Emphasizes enterprise, documentation and use of multiple sources, using standard reference works and public records.
Prerequisite: MMC 2121.

JOU 3121 Dataviz and Mapping 3 Credits
Grading Scheme: Letter Grade
Covers the foundational skills required for any professional communicator who seeks to tell a visual data story for audiences that rely on cellphones, as well as the basics of geospatial analysis. The emphasis is on data evaluation using code-free tools.
Prerequisite: MMC 2450.

JOU 3184 Beat Reporting 3 Credits
Grading Scheme: Letter Grade
Experience in reporting on a number of beats of significant public interest. Emphasizes responsible coverage of law enforcement, courts, schools, city and county government, health and the environment.
Prerequisite: JOU 3101 and JOU 3110 with minimum grades of C.

JOU 3212 Magazine Design 3 Credits
Grading Scheme: Letter Grade
Discover the principles and practice of design for various types of magazines. Learn how to use typography, photographs, illustrations and layouts to match graphic style to content for specific target audiences.
Prerequisite: JOU 3109C and JOU 3220C with minimum grades of C.

JOU 3213 Design 3 Credits
Grading Scheme: Letter Grade
Design of various forms of print media. Emphasizes basic principles of design. Use of typography and photographs together.
Prerequisite: JOU 3220C.

JOU 3220C Visual Journalism 3 Credits
Grading Scheme: Letter Grade
Learn how words and visuals work together to tell a story. Develop the skills to interpret and evaluate photographs, maps, charts, interactive graphics, websites and motion graphics. Learn and apply basic design principles. Gain proficiency in Photoshop, InDesign and other software.
Prerequisite: JOU 1001 with minimum grade of C; JM designation.

JOU 3305 Data Journalism 3 Credits
Grading Scheme: Letter Grade
Experience data journalism by using tools such as spreadsheets, databases, and mapping programs to acquire, clean, and analyze data, and by performing basic data visualization. Focuses on using tools to find meaningful patterns in data and to report those patterns accurately.
Prerequisite: JOU 3101 or instructor permission.

JOU 3346L Multimedia Reporting 3 Credits
Grading Scheme: Letter Grade
Learn to use digital tools in reporting for Internet news sites and other online media. Focuses on the tools to gather audio and visual material that helps to tell a journalistic story.
Prerequisite: JOU 3101 with minimum grade of C.

JOU 3363 Introduction to Web Apps for Communicators 3 Credits
Grading Scheme: Letter Grade
Introduces web markup, coding, and programming for journalism and communications students with no prior coding experience. Explore media-industry best practices for front-end web development, problem solving and algorithmic thinking, and recent examples of interactives and apps from media organizations.
Prerequisite: junior standing in college or instructor permission.

JOU 3601 Photographic Journalism 3 Credits
Grading Scheme: Letter Grade
Study and practice of photography as a major component of journalism. Emphasizes newspaper/magazine style photography and use of photographs; ethical, historical, legal and stylistic aspects. Digital cameras provided by the department.
Prerequisite: 2JM designation or instructor permission.

JOU 3920 Professional Practice 1 Credit
Grading Scheme: S/U
Explores both traditional job-seeking methods as well as digital job hunting. Covers best practices in how to prepare for an interview and how to reach out to and search for employers online. (S-U)
Prerequisite: junior standing in college.

JOU 4004 History of Journalism 3 Credits
Grading Scheme: Letter Grade
Origin, development and potentiality of print and broadcast media. Analyzes the evolution of standards, policies, methods and controls.

JOU 4008 Journalism Studies 3 Credits
Grading Scheme: Letter Grade
Gain media literacy and become an educated consumer, critical thinker and researcher of/about the media. Learn about research methods, media-business models and the connections between the media and economics.
Prerequisite: JOU 3101 with minimum grade of C.

JOU 4111 Advanced Reporting 3 Credits
Grading Scheme: Letter Grade
Produce quality news and feature stories for publication. Gain experience enhancing your news gathering and writing skills. Produce clips for your portfolio and as possible entries in the Hearst Journalism Awards Program.
Prerequisite: JOU 3101 with minimum grade of C.

JOU 4123 Investigative Reporting 3 Credits
Grading Scheme: Letter Grade
Learn to develop and execute an investigative reporting project employing various story platforms. Investigate a data-driven topic of public interest over the course of the semester; melding both primary research and in-depth interviewing.
Prerequisite: JOU 3101 and JOU 3110 with minimum grades of C.

JOU 4181 Public Affairs Reporting 3 Credits
Grading Scheme: Letter Grade
Instruction and practice in basic public affairs reporting; emphasizes responsible coverage of courts, schools and city and county government.
Prerequisite: JOU 3101 with minimum grade of C and JOU 3110.

JOU 4201 News Center Practicum 3 Credits
Grading Scheme: Letter Grade
Creating and editing local news content in our college's professional news center for broadcast and digital platforms serving north central Florida; emphasizes news judgement that serves the audience.
Prerequisite: JOU 3101.

JOU 4202 Advanced News Center Practicum 3 Credits
Grading Scheme: Letter Grade
Work in an advanced media setting on multiple projects, including writing, editing, and multimedia work. Emphasizes collaboration and decision-making in a real-world setting.
Prerequisite: JOU 4201 with minimum grade of C and instructor permission.

JOU 4214 Advanced Design 3 Credits
Grading Scheme: Letter Grade
Advanced design and production of various forms of print media. Emphasizes advanced principles, picture editing, typography, and use of other design elements.
Prerequisite: JOU 3101 and JOU 3213 with minimum grades of C and instructor permission.

JOU 4301 Literary Journalism 3 Credits
Grading Scheme: Letter Grade
Study and practice in literary journalism. Students may select a specialty and may work in writing or in writing and photography together.
Prerequisite: JOU 3101.

JOU 4308 Magazine and Feature Writing 3 Credits
Grading Scheme: Letter Grade
Preparation of features and articles for publication in newspapers and magazines coordinated with study of magazine editing problems. Supervised marketing of pieces produced.
Prerequisite: JOU 3101.

JOU 4311 Narrative Nonfiction Writing 3 Credits
Grading Scheme: Letter Grade
Advanced writing course in which students create article ideas, research and write magazine-length nonfiction articles and submit them for publication.
Prerequisite: JOU 4308 with minimum grade of B and instructor permission.

JOU 4313C Sports Reporting 3 Credits
Grading Scheme: Letter Grade
Instruction and practice in reporting sports with special emphasis on game coverage and interviewing techniques. Includes features, sidebars, advances and press conference coverage. Opportunities for publication of stories.
Prerequisite: JOU 3101.

JOU 4314 Environmental Journalism 3 Credits
Grading Scheme: Letter Grade
This introduction to Environmental Journalism will help you find the most accurate, credible and timeliest information on environmental science and related issues ? discerning uncompromised expert sources, using human narratives and descriptive storytelling to relate real world impact, and tapping the databases, records and other tools used by environmental reporters.
Prerequisite: JOU 3101 or instructor permission.

JOU 4342 Reporting and Writing for Online Media 3 Credits
Grading Scheme: Letter Grade
Explore ways to adapt reporting practices to online media. Develop original journalistic stories in chunks and link them in usable structures that readers can navigate according to their own choices. Students focus on writing and on editing their own work as a necessary part of the process of writing. Emphasizes information design, not graphic design. Students produce both individual and group projects.
Prerequisite: MMC 3260, and JOU 3101 or RTV 3303.

JOU 4364 Advanced Web Apps for Communicators 3 Credits
Grading Scheme: Letter Grade
Add server-side (back-end) web skills to already developed client-side (front-end) web skills to develop web apps that include a server-side component to support presentations of stories/data for media. Also covers web scraping to enable journalists to gather open data.
Prerequisite: JOU 3363.

JOU 4447C Applied Magazines 3 Credits
Grading Scheme: Letter Grade
Provides experience in editing and publishing a magazine.
Prerequisite: JOU 4308 with minimum grade of C.

JOU 4510 Magazine Management and Publication 3 Credits
Grading Scheme: Letter Grade
Provides knowledge and training in magazine writing, editing, design, production and administration for magazine sequence majors. Stresses organization, concept, audience, budget, printing, advertising, circulation and promotion of magazines.
Prerequisite: JOU 4201, JOU 3213 and JOU 4308.

JOU 4603 Specialized Journalistic Photography 3 Credits
Grading Scheme: Letter Grade
Journalistic still photography emphasizing technical proficiency. Specialized techniques and equipment stressed. Emphasizes color portraiture, studio products, lighting, flash and related skills. Assignments prepared using digital scanning. Students furnish some 35mm equipment and most supplies.
Prerequisite: JOU 3601 with minimum grade of C or instructor permission.

JOU 4604 Advanced Photographic Journalism 1 3 Credits
Grading Scheme: Letter Grade
Primary concern is portfolio-quality single story-telling pictures and multiple picture packages, including picture stories. Introduces computer page layout. Deadline pressure emphasized; overview of picture editor duties; trends; social implications; portfolio preparation. Assignments involve computer programs. Students furnish supplies, most 35mm camera equipment and flash.
Prerequisite: JOU 3601.

JOU 4605 Advanced Photographic Journalism 2 3 Credits
Grading Scheme: Letter Grade
Continues JOU 4604 with emphasis on the picture story, layouts and the study of historical figures in photojournalism. Pays particular attention to magazines, color and new developments in the profession. Duties of the picture editor covered in-depth. Prior knowledge of computer scanning and layout programs expected. Portfolio preparation concluded. Terminal course in the sequence. Students furnish supplies and most equipment.
Prerequisite: JOU 4603 and JOU 4604.

JOU 4700 Problems and Ethics of Journalism in Society 3 Credits
Grading Scheme: Letter Grade
Reading, analysis and planning in current and projected issues in journalism, both in their professional and societal aspects.
Prerequisite: 4JM designation.

JOU 4905 Individual Problems in Journalism 1-3 Credits
Grading Scheme: Letter Grade
Students and the instructor concerned choose a problem or project which gives the student actual experience in his or her major field.
Prerequisite: at least 10 credits of journalism in the upper division and department permission.

JOU 4910 Journalism Undergrad Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application, depending on the topic. (S/U)
Prerequisite: JOU 3109C with grade of C or better.

JOU 4930 Special Study in Journalism 1-3 Credits
Grading Scheme: Letter Grade
Variable content provides opportunity for study in academic areas of journalism, such as the literature of journalism and other fields within the province of the college.
Prerequisite: instructor permission.

JOU 4940 Journalism Internship 1-3 Credits
Grading Scheme: S/U
Student and instructor select an appropriate work area related to the field of journalism for on-the-job training. Student works a minimum of 100 hours on the job for every credit to be received. Progress reports and summary required. (S-U)
Prerequisite: minimum 3.0 GPA and completion of specialized courses in journalism appropriate to the internship. Must have department approval to receive credit.

JOU 4950 Applied Journalism 3 Credits
Grading Scheme: Letter Grade
By assuming the role of a professional journalist, prepare for professional-caliber reporting, writing, and production of multimedia storytelling suitable for publication in various traditional/digital outlets. Classes are conducted through a series of seminars and heavily coached group projects.
Prerequisite: 4JM designation, JOU 3346 and minimum grades of C in JOU 4308, JOU 3213, JOU 3305, JOU 4201, and JOU 4604, or department permission.

MMC 1009 Introduction to Media and Communications 1 Credit
Grading Scheme: Letter Grade
Introduces the tools, resources and academic and extra-curricular activities offered by the College of Journalism and Communications. Includes lessons on the history and organization of the college and academic and career preparation.
Prerequisite: 1JM or exploratory major, 2JM, or 3JM classification, or instructor approval.

MMC 2121 Writing Fundamentals for Communicators 3 Credits
Grading Scheme: Letter Grade
One-third of the course is to ensure students have sufficient skill in grammar and punctuation to write with clarity. In two-thirds of the course, students put principles of good writing into practice with short writing assignments that have real-world applications.

MMC 2450 Data Literacy for Communicators 1 Credit
Grading Scheme: Letter Grade
Numeracy which enables data literacy; to use, evaluate, and communicate numbers in situations commonly faced in advertising, journalism, public relations, and telecommunications.

MMC 2604 Mass Media and You 3 Credits
Grading Scheme: Letter Grade
Examines roles and effects of contemporary mass media on modern societies. Considers rights, responsibilities and ethics of media, explores relationships between governments, audiences and media companies and reviews economic, political and social determinants of media content.

MMC 3030 Personal Branding for Communicators 1 Credit
Grading Scheme: Letter Grade
Professional development course that stresses how to communicate and connect as professionals. Emphasizes mastery of writing, speaking, presentation and employment-seeking skills, working with media, handling media interviews and using social media to establish a professional identity.
Prerequisite: 3JM designation.

MMC 3203 Ethics and Problems in Mass Communications 3 Credits
Grading Scheme: Letter Grade
A cross-disciplinary introduction to ethics-relevant situations faced by media professionals. Topics include professional standards of conduct, audience representation and engagement and issues associated with the production, presentation and delivery of messages that reflect the best interests of audiences, clients and stakeholders.
Prerequisite: 2JM designation and ADV 3008, JOU 1001, PUR 3000 or RTV 3001 with minimum grade of C.

MMC 3254 Media Entrepreneurship 1 Credit
Grading Scheme: Letter Grade
Introduces media entrepreneurship with a focus on how digital technologies are transforming industries. Students work in teams to develop new digital media businesses. Develop and pitch ideas, explore market analysis, develop business and financial plans and study social media strategies.
Prerequisite: sophomore standing.

MMC 3420 Consumer and Audience Analytics 3 Credits
Grading Scheme: Letter Grade
Provides practical analytical skill-sets, benefiting those who plan careers in analytics/research, social media, media business, advertising/marketing and public relations.
Prerequisite: Junior standing.

MMC 3702 Rock 'N Roll and American Society Part 1 3 Credits
Grading Scheme: Letter Grade
Studies the role of popular music in American culture. Not a music course but a look at the effects of recorded sound on popular culture. Part 1 emphasizes rock 'n roll and its impact from 1954-1970. Part 2 covers 1970 to the present.
Prerequisite: Sophomore standing.

MMC 3703 Sports Media and Society 3 Credits
Grading Scheme: Letter Grade
The relationships between sports, athletes, media and audience. Includes the evolution of sports media from the early sportswriters to the day when athletes control their own messages via Twitter. Covers the various mediums (newspapers, magazines, books, radio, TV, online, forums, blogs and social media) in terms of their history, function and impact.
Prerequisite: sophomore standing.

MMC 3742 Rock 'N' Roll and American Society Part 2 3 Credits
Grading Scheme: Letter Grade
Studies the role of popular music in American culture. It is not a music course but a look at the effects of recorded sound on popular culture. Part 1 emphasizes rock 'n' roll and its impact from 1954-1970. Part 2 covers 1970 to 1990.
Prerequisite: Sophomore standing or higher.

MMC 4200 Law of Mass Communication 3 Credits
Grading Scheme: Letter Grade
Understanding the law, which guarantees and protects the privileges and defines the responsibilities of the mass media. Includes problems of constitutional law, libel, privacy and governmental regulations.
Prerequisite: junior standing.

MMC 4341L Advanced Online Media Production 3 Credits
Grading Scheme: Letter Grade
Advanced skills in appropriate technologies for producing online journalism. Sophisticated design of navigation interfaces for online information; screen/page design and site structure planning; web video, audio, photos and animation; web forms and databases. Emphasizes professional techniques and standards. Several software packages used; students must be able to take initiative in learning. Students complete a final portfolio project.
Prerequisite: JOU 3601 and MMC 3260.

PGY 3610 Survey of Photojournalism 2 Credits
Grading Scheme: Letter Grade
Not open to photojournalism majors. Introduces still photography; selection and use of photographs in the print media; legal, historical, stylistic, ethical and technical aspects. Picture-taking minimal compared to JOU 3601. Shared cameras provided.
Prerequisite: 3JM designation.

RTV 3106 Writing and Reporting for Interactive Media 3 Credits
Grading Scheme: Letter Grade
Planning and executing news and online news projects. Course lecture, readings and discussion focus on locating, evaluating and tracking Internet sources, construction of multilinear news content and the integration of Internet technology into the news process.
Prerequisite: RTV 2100 or MMC 2100 and RTV 3303.

RTV 3303 Audio News and Reporting 3 Credits
Grading Scheme: Letter Grade
Basic writing, reporting and production of radio news stories and newscasts. Students must purchase approved recorder for class.
Prerequisite: JOU 3101 with a minimum grade of C.

RTV 3304 Advanced Audio Storytelling 3 Credits
Grading Scheme: Letter Grade
Advanced reporting, writing, and production of radio news stories and newscasts against deadlines. Requires radio news laboratory.
Prerequisite: RTV 3303 with minimum grade of C and JOU 3101.

RTV 3305 In-Depth Broadcast Reporting 3 Credits
Grading Scheme: Letter Grade
Principles of investigative reporting as applied to television and radio news.
Prerequisite: RTV 3303 or RTV 4301 with a minimum grade of C.

RTV 3601 Broadcast Performance 3 Credits
Grading Scheme: Letter Grade
Development of basic radio and television announcing skills.

RTV 3632 Broadcast News Producing 3 Credits
Grading Scheme: Letter Grade
Producing news content for television. Includes instruction in ap-enps software, field producing techniques and production of long-form programs, with considerable emphasis on the role of the producer as gatekeeper and newsroom manager.
Prerequisite: JOU 3101 with a minimum grade of C and department permission.

RTV 4301 TV News Reporting 3 Credits
Grading Scheme: Letter Grade
Basic writing, reporting and production of television news stories and newscasts. Students must purchase two approved video cassettes for class.
Prerequisite: JOU 3101 with a minimum grade of C and department permission.

RTV 4594 Advanced Reporting for Interactive Media 3 Credits
Grading Scheme: Letter Grade
Teaches the advanced skills necessary to produce online journalism content utilizing video, audio, photo essays, and interactive graphics. Receive practical experience working in the college's converged newsroom.
Prerequisite: RTV 3106 with minimum grade of C and JOU 3101.

RTV 4681 Advanced TV News Reporting 3 Credits
Grading Scheme: Letter Grade
News reporting, videography, writing and editing for television newscasts on deadline. One day-long lab in television newsroom required and purchase of additional approved video cassettes may also be required.
Prerequisite: RTV 4301 with minimum grade of C and JOU 3101.

RTV 4684 Advanced Broadcast News Producing 3 Credits
Grading Scheme: Letter Grade
Supervised assignment as line or field producer for radio, TV, or online news program or series. Requires eight hours per week in newsroom.
Prerequisite: RTV 3632, RTV 3401 with minimum grades of C and JOU 3101.

VIC 3001 Sight, Sound and Motion 4 Credits
Grading Scheme: Letter Grade
Visual literacy is a prerequisite for success in most areas of mass communication. Teaches fundamentals of design across print, web and multimedia platforms. Also emphasizes how visual forms convey messages to readers.
Prerequisite: sophomore standing.

Korean | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

KOR 1130 Beginning Korean 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering speaking, listening, reading, writing, and cultural interaction.
Prerequisite: placement test.

KOR 1131 Beginning Korean 2 5 Credits
Grading Scheme: Letter Grade
Continued study of speaking, listening, reading, writing and cultural interaction.
Prerequisite: KOR 1130 with minimum grade of C, or S, or the equivalent.

KOR 2230 Intermediate Korean 1 5 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: KOR 1131 with minimum grade of C or S, or the equivalent.

KOR 2231 Intermediate Korean 2 5 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: KOR 2230 with minimum grade of C or S, or the equivalent.

Landscape Architecture

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

LAA 1920 Introduction to Landscape Architecture 3 Credits
Grading Scheme: Letter Grade
Introduces landscape architecture, a profession defined as an art and science of planning or designing on the land-arranging and creating spaces and objects in a landscape for human use. Open to all students.

LAA 2330 Site Analysis 3 Credits
Grading Scheme: Letter Grade
Inventory, analysis and evaluation of site development procedures; emphasis on landscape ecology.

LAA 2360C Principles of Landscape Architecture 5 Credits
Grading Scheme: Letter Grade
Builds upon the fundamental principles of design covered in previous studios to explore a range of landscape architectural issues. Site design problems incorporating a mixture of cultural, environmental, and historical topics provide a framework for students to develop their analytical skills, communication techniques, and general understanding of design.
Prerequisite: ARC 1301 and majors only;
Corequisite: LAA 2379C.

LAA 2376C Design Communications 1 4 Credits
Grading Scheme: Letter Grade
Introduces visualization techniques via a project based studio in landscape architectural design and planning. Covers traditional drawing conventions, alternative methods of exploratory visualization and the techniques and processes used to produce these methods of communication.

LAA 2379C Design Communications 2 4 Credits
Grading Scheme: Letter Grade
Advances the design communication strategies introduced in Design Communications I by further developing skills in digital visualization and communication techniques. Additionally, expanding their skill set to include advanced applications in to include landform and three dimensional space and object modeling and to be introduced to digital fabrication and three dimensional output.
Prerequisite: LAA 2376C.

LAA 2532 Landscape Management 3 Credits
Grading Scheme: Letter Grade
Explores the relationship between planning and design decision-making and landscape management practices which are, in turn, based on the fundamental principles of ecology and landscape ecology.

LAA 2710 History of Landscape Architecture 3 Credits
Grading Scheme: Letter Grade
Landscape architecture is the art and science of arranging functions and spaces within the ecology of the land and the culture of the humans who inhabit it. Surveys the history of humans as it is expressed in such diverse areas as urban form, community planning, gardens, parks and recreational areas, agricultural patterns and land management. Open to all students. (H and N)
Attributes: General Education - Humanities, General Education - International

LAA 3350C Site Design and Planning Studio 5 Credits
Grading Scheme: Letter Grade
Application of basic site design principles on small-scale projects.
Prerequisite: LAA 3352C.

LAA 3352C Planting Design Studio 5 Credits
Grading Scheme: Letter Grade
The planting design studio introduces the planting design process, its relationship to the site planning, existing site conditions, project locale and client needs.
Prerequisite: LAA 2360C;
Corequisite: BOT 3153.

LAA 3420 Landscape Construction 1 5 Credits
Grading Scheme: Letter Grade
Characteristics of land form and the effects of grading on drainage, soils and location of landscape architectural elements; pavings, low retaining walls; quantification skills.
Prerequisite: LAA 2360C.

LAA 3421 Landscape Construction 2 5 Credits
Grading Scheme: Letter Grade
Design and construction drawings for public and private landscape structures, landscape utilities, and irrigation system layouts; specifications, takeoffs and estimating.
Prerequisite: LAA 3420.

LAA 4210 Landscape Architecture Professional Practice 4 Credits
Grading Scheme: Letter Grade
Preparation for professional practice and the understanding of the business of landscape architecture in private and public arenas.

LAA 4230 Theories of Landscape Architecture 3 Credits
Grading Scheme: Letter Grade
Explores the theories pertinent to the practice and study of landscape architecture. Addresses primarily aesthetic and cultural principles and values with related ecological aspects.

LAA 4260 Site Designed Green Roofs 3 Credits
Grading Scheme: Letter Grade

LAA 4353C Urban Design Studio 6 Credits
Grading Scheme: Letter Grade
Design studio emphasizes the physical, social-behavioral, and civil factors involved with the design and planning of towns, cities and the public space found therein. Projects range in scale and complexity including the design of a new urban environment and/or existing urban development.
Prerequisite: LAA 3352C.

LAA 4356 Envir Plan Des Studio 6 Credits
Grading Scheme: Letter Grade

LAA 4357 Senior Independent Project Seminar 2 Credits
Grading Scheme: S/U
Focuses on proposal writing and information gathering to support the senior independent project. (S-U)
Prerequisite: LAA 4353C and LAA 3421.

LAA 4358 Senior Independent Project 8 Credits
Grading Scheme: Letter Grade
This final semester-long project expands personal interests and talents, hones decision-making abilities, and sharpens professional skills through well-rounded, comprehensive completion of individual projects. Project must be approved by the faculty.
Prerequisite: completion of all previous design studios and construction courses.

LAA 4362 Design Communications for Landscape Architects 4 Credits
Grading Scheme: Letter Grade
Immersive experience in visualization techniques in landscape architectural design and planning. Covers traditional drawing conventions (plan, section/elevation and perspective) and builds skills in digital communication and visualization methods.
Prerequisite: Advanced standing in the program and/or instructor permission.

LAA 4394 Advanced Design Communication 3 Credits
Grading Scheme: Letter Grade
Develop skills in digital visualization and communication techniques, exploring digital media as a landscape architecture tool for design and fabrication; produce high quality perspective drawings and design diagrams using Rhino and Adobe CC, and digital fabrication techniques using UF's Fab Lab.
Prerequisite: LAA 2376C and LAA 2379C.

LAA 4450 Landscape Architecture Design Implementation 5 Credits
Grading Scheme: Letter Grade
Integration of the principles of construction with design. A combination of lecture and studio complements instruction in the design studio class. Students complete a full set of construction documents to support their design concept prepared in the beginning of the course.
Prerequisite: LAA 3420 and LAA 3421.

LAA 4905 Special Studies in Landscape Architecture 1-6 Credits
Grading Scheme: Letter Grade
Studio investigations of topics in landscape architecture adjusted to individual needs of advanced undergraduate and graduate students.
Prerequisite: instructor permission.

LAA 4935 Gardens of the World 3 Credits
Grading Scheme: Letter Grade
An assessment and discussion of works of landscape architecture with emphasis on user evaluation, design trends and research directions. Open to all majors. (H and N)
Attributes: General Education - Humanities, General Education - International

LAA 4940 Landscape Architecture Internship 3 Credits
Grading Scheme: S/U
Internship in a private/public sector office under the direction of a registered landscape architect; required for graduation. (S-U)

LAA 4941C Extended Internship with Landscape Architect 9 Credits
Grading Scheme: S/U
Internship in a private/public sector office under the direction of a registered landscape architect. (S-U)
Corequisite: LAA 4940.

Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

General

LIT 2000 Introduction to Literature 3 Credits
Grading Scheme: Letter Grade
Examines the important role literature has played in individuals' lives and in society, presenting a range of literary styles and genres, from different countries and historical periods. Special attention paid to development of critical skills of analysis and interpretation. (H)
Prerequisite: ENC 1101
Attributes: General Education - Humanities

African and Asian

HUM 2420 African Humanities 3 Credits
Grading Scheme: Letter Grade
A general education course similar in philosophy and purpose to the basic sequence. Content selected from the philosophies, literature, arts and music of various African countries and regions. (H and N)
Attributes: General Education - Humanities, General Education - International

HUM 2424 African Cultures and Literatures 3 Credits
Grading Scheme: Letter Grade
A culturally based study of folktales, proverbs, drama, poetry and novels; and how these forms are used to portray African arts and ideas. (H and N)
Attributes: General Education - Humanities, General Education - International

SSA 3730 Language in African Society 3 Credits
Grading Scheme: Letter Grade
The role of language in the development of African societies. Language and nation building. (S and N)
Attributes: General Education - International, General Education - Social Science

SSA 4905 Individual Work 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course.
Prerequisite: department permission.

SSA 4930 Special Topics in African Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in African studies.

SST 2501 African Elements in the Americas 3 Credits
Grading Scheme: Letter Grade
Traces African influence in the Americas from the arrival of Africans on the continent until the present.

SST 4502 African Oral Literature 3 Credits
Grading Scheme: Letter Grade
An overview of African oral literature, introduces methodological and theoretical problems, and examines the sociopolitical and cultural relevance of the literature.
Prerequisite: instructor permission.

Akan

AKA 1130 Beginning Akan 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

AKA 1131 Beginning Akan 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: AKA 1130 with minimum grade of C or the equivalent.

AKA 2200 Intermediate Akan 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: AKA 1131 with minimum grade of C, or the equivalent.

AKA 2201 Intermediate Akan 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study.
Prerequisite: AKA 2200 with minimum grade of C, or the equivalent.

AKA 3410 Advanced Akan 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: AKA 2201 with minimum grade of C, or the equivalent.

AKA 3411 Advanced Akan 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study.
Prerequisite: AKA 3410 with minimum grade of C, or the equivalent.

Amharic

AHM 1130 Beginning Amharic 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading, and writing.

AHM 1131 Beginning Amharic 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: AHM 1130 with minimum grade of C, or the equivalent.

AHM 2200 Intermed Amharic 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: AHM 1131 with minimum grade of C, or the equivalent.

AHM 2201 Intermediate Amharic 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study.
Prerequisite: AHM 2200 with minimum grade of C, or the equivalent.

AHM 3410 Advanced Amharic 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: AHM 2201 with minimum grade of C, or the equivalent.

AHM 3411 Advanced Amharic 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study.
Prerequisite: AHM 3410 with minimum grade of C or the equivalent.

Arabic

ABT 3130 Arabic Literary Heritage 1 3 Credits
Grading Scheme: Letter Grade
A survey of classical Arabic literature in translation. Covers pre-Islamic poetry and early Islamic poetry, Omayyad, Abbasid and Andalusian literatures. All readings in English. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

ABT 3500 Arabic Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to Arabic culture with special reference to art, literature, religion and society. Emphasis on Arab contributions to philosophy, medicine, mathematics and architecture. All readings in English. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

ABT 4131 The Qur'an as Literature 3 Credits
Grading Scheme: Letter Grade
Approaches the Qur'an from a literary standpoint by examining its history, structure, style, major themes, and impact on Arabic literature, Islamic thought, and Muslim culture.
Prerequisite: ARA 1131 or ABT 3500 or REL 2000 or REL 2362 or REL 4361 or senior standing.

ARA 1130 Beginning Arabic 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading, and writing.

ARA 1131 Beginning Arabic 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: ARA 1130 with minimum grade of C or the equivalent.

ARA 2220 Intermediate Arabic 1 4 Credits
Grading Scheme: Letter Grade
Continuation of the study of standard Arabic language. Develops reading, writing, listening and speaking skills and helps with comprehension of written and audio texts. Students can use their knowledge of the Arabic language to clearly express their personal views in a meaningful and well-structured language.
Prerequisite: ARA 1131 with minimum grade of C or the equivalent.

ARA 2221 Intermediate Arabic 2 4 Credits
Grading Scheme: Letter Grade
Continues the study of Arabic language at the intermediate level. Emphasizes developing reading comprehension, writing, listening and speaking, and vocabulary and grammar.
Prerequisite: ARA 1131 with minimum grade of C or the equivalent.

ARA 2240 Spoken Arabic 3 Credits
Grading Scheme: Letter Grade
Develops listening and conversational skills at an intermediate level of proficiency. Focuses on a middle variety of Arabic known as Educated Spoken Arabic that enables successful communication with educated Arab speakers from virtually any country in the Arab world.
Prerequisite: ARA 1131.

ARA 3241 Spoken Arabic 3 Credits
Grading Scheme: Letter Grade
Develops listening and conversational skills at an intermediate level of proficiency. Focuses on a middle variety of Arabic known as Educated Spoken Arabic that enables successful communication with educated Arab speakers from virtually any country in the Arab world.
Prerequisite: ARA 2221.

ARA 3410 Advanced Arabic 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: ARA 2221 with minimum grade of C or the equivalent.

ARA 3411 Advanced Arabic 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study.
Prerequisite: ARA 3410 with minimum grade of C or the equivalent.

ARA 3510 The Arab Woman 3 Credits
Grading Scheme: Letter Grade
Examines the role and status of Arab women in their respective societies; specifically examines the internal dynamic of Arab culture that influences the role of the Arab woman. (H and N OR S and N) (WR)
Attributes: General Education - Humanities, General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ARA 4400 Fourth Year Arabic 1 3 Credits
Grading Scheme: Letter Grade
Development to an advanced level of speaking, hearing, reading and writing of spoken and mass communication and literary Arabic. (H and N)
Prerequisite: ARA 3411 or the equivalent.
Attributes: General Education - Humanities, General Education - International

ARA 4401 Fourth Year Arabic 2 3 Credits
Grading Scheme: Letter Grade
Continuation of ARA 4400. Development of a more advanced level of speaking, hearing, reading and writing of spoken and mass communication and literary Arabic. (H and N)
Prerequisite: ARA 4400 or the equivalent.
Attributes: General Education - Humanities, General Education - International

ARA 4420 Arabic through the Texts 3 Credits
Grading Scheme: Letter Grade
For advanced students of Arabic. Teaches the more complex grammar, idiomatic expressions and sophisticated stylistic forms of the language. Required for the Arabic minor.
Prerequisite: ARA 3411 or the equivalent.

ARA 4822 Arabic Sociolinguistics 3 Credits
Grading Scheme: Letter Grade
Focus on the relationship between language and society in the Arab world. An examination of the different varieties of Arabic and the relation between linguistic variation and other social variables, such as ethnicity, religion, urbanization, social class, gender, power and ideology.
Prerequisite: ARA 1131 or LIN 3010.

ARA 4850 Structure of Standard Arabic 3 Credits
Grading Scheme: Letter Grade
Describes and analyzes the sound system, word structure, and sentence structure of Arabic.
Prerequisite: ARA 1131 or LIN 3010.

ARA 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course.
Prerequisite: instructor permission.

ARA 4930 Special Topics 3 Credits
Grading Scheme: Letter Grade
One of the core courses in the Middle Eastern languages and cultures major offered through interdisciplinary studies. Also useful for students in linguistics, religion, Arabic, Hebrew and Jewish studies.
Prerequisite: one year of Hebrew or equivalent, one year of Arabic or equivalent, LIN 3010 or equivalent, or instructor permission.

ARA 4956 Overseas Studies 1 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

Chinese

CHI 1130 Beginning Chinese 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing. Materials are designed for learners with no prior exposure to the language. Those with native background or education for four years or more in a Chinese speaking country must take a placement test before enrolling in any Chinese language class.

CHI 1131 Beginning Chinese 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: CHI 1130 with minimum grade of C, or S, or the equivalent.

CHI 2230 Intermediate Chinese 1 5 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: CHI 1131 with minimum grade of C, or S, or the equivalent.

CHI 2231 Intermediate Chinese 2 5 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: CHI 2230 with minimum grade of C, or S, or the equivalent.

CHI 2340 Chinese for Heritage Learners 1 4 Credits
Grading Scheme: Letter Grade
For those with significant bilingual speaking and listening backgrounds. Emphasis is on recognition of the characters and writing, and pronunciation and speaking.

CHI 2341 Chinese for Heritage Learners 2 4 Credits
Grading Scheme: Letter Grade
To consolidate the foundation built in Chinese for Heritage Learners 1, to expand vocabulary and to introduce more complex grammatical structures. Emphasis is on reading and writing. Those who successfully complete CHI 2341 are eligible for CHI 3410.

CHI 3403 Chinese Calligraphy 3 Credits
Grading Scheme: Letter Grade
Introductory study of the origin, composition, development, variations and aesthetic styles of Chinese characters with laboratory sessions for appreciating and practicing calligraphic skills. (H and N)
Prerequisite: (CHI 2231 or JPN 2231 or CHI 3410 or JPN 3410 or CHI 3411 or JPN 3411 or CHW 4120 or CHW 4130 or CHW 4140 or JPW 4130 or JPW 4131) or instructor permission.
Attributes: General Education - Humanities, General Education - International

CHI 3410 Advanced Chinese 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures. (S and N)
Prerequisite: CHI 2231 with minimum grade of C, or S, or the equivalent.
Attributes: General Education - International, General Education - Social Science

CHI 3411 Advanced Chinese 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study of the four skills with attention to more complex structures. (S and N)
Prerequisite: CHI 3410 with minimum grade of C, or S, or the equivalent.
Attributes: General Education - International, General Education - Social Science

CHI 3440 Business Chinese 3 Credits
Grading Scheme: Letter Grade
Development of language skills and protocol issues used in Chinese business environments. Acquire vocabulary, phrases, and sentence patterns essential for business transactions and develop oral presentations, business cards, and resumes.
Prerequisite: completion of second-year Chinese required, or by permission.

CHI 4050 Fourth Year Chinese 1 3 Credits
Grading Scheme: Letter Grade
Introduces and analyzes the documentary prose style used in Chinese newspapers and media. By studying a variety of short texts students develop skill in listening, speaking, reading and writing about issues commonly encountered in Chinese newspaper editorials and in television news programs, debate roundtables, or TV documentaries.
Prerequisite: CHI 3411 or equivalent with a minimum grade of C.

CHI 4051 Fourth Year Chinese 2 3 Credits
Grading Scheme: Letter Grade
Solidifies and improves students' knowledge of advanced Chinese through literature as a continuation of CHI 4050. Emphasizes formulating strategies to learn the difference between written language and spoken language and approaches meaningful writing with an eye toward careful examination of authentic writing samples.
Prerequisite: CHI 4050

CHI 4850 Structure of Chinese 3 Credits
Grading Scheme: Letter Grade
Introduction to phonological, grammatical and discourse structures of Mandarin Chinese, with an emphasis on its contrastive aspects with the English language. (S and N)
Prerequisite: CHI 1131 with minimum grade of C or LIN 3010, or instructor permission.
Attributes: General Education - International, General Education - Social Science

CHI 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course. Includes all individual study courses offered by the Chinese section.

CHI 4911 Undergraduate Research in Language or Linguistics 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Language or Linguistics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Language or Linguistics.

CHI 4930 Special Topics in Chinese Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in Chinese studies.

CHI 4935 Senior Thesis 3 Credits
Grading Scheme: Letter Grade
Select a Chinese faculty member to act as director for an independent research project that culminates in the preparation of an honors thesis.
Prerequisite: minimum 3.5 GPA and instructor permission.

CHI 4940 Internship 1-6 Credits
Grading Scheme: Letter Grade
Gain practical experience that enhances classroom learning.

CHI 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade

CHT 3110 Chinese Literary Heritage 3 Credits
Grading Scheme: Letter Grade
Introduces pre-modern Chinese literature in translation. Topics chosen from classical poetry, short stories, novels and drama. Emphasis is on the interplay between orthodox values and the folk tradition. All readings in English. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

CHT 3123 Pre-Modern Chinese Fiction in Translation 3 Credits
Grading Scheme: Letter Grade
Pre-modern Chinese narrative from its philosophical and historical origins to the fiction at the turn of the 20th century. Emphasizes the 16th and 17th centuries when Chinese vernacular fiction flourished. (H and N)
Attributes: General Education - Humanities, General Education - International

CHT 3124 Modern Chinese Fiction in Translation 3 Credits
Grading Scheme: Letter Grade
A survey of modern Chinese fiction in translation. Samples are from the early 20th century through the contemporary era and include writers of the early Republic, the P.R.C. and Taiwan. Focus is on fiction as a vehicle for social change. All readings in English. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

CHT 3391 Chinese Film and Media 4 Credits
Grading Scheme: Letter Grade
Examination of Chinese cinema and other forms of media such as television, music and print culture in a broad sociopolitical and historical context. An interdisciplinary approach with a diversity of readings and multimedia tools incorporated into discussions.
Prerequisite: One ENG, CHI, CHT, or CHW course, or instructor permission.

CHT 3500 Chinese Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to Chinese culture with emphasis on its philosophy, language, society, art and people as a whole. All readings in English. (H and N)
Attributes: General Education - Humanities, General Education - International

CHT 3513 Taoism and Chinese Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to the general history and culture of Taoism in ancient and modern China: its thoughts, belief systems, cultural influences, practices and rituals.

CHT 3523 Hong Kong, Taiwan, and the New Global Cinema 4 Credits
Grading Scheme: Letter Grade
Overview of Sinophone film in Hong Kong, Taiwan, and the broader sphere of Chinese diaspora. Addresses film history, culture, and aesthetics.
Prerequisite: CHI 1130 or ENG 1400 or ENG 2300 or instructor permission.

CHT 4111 Dream of the Red Chamber 3 Credits
Grading Scheme: Letter Grade
Explores the intellectual and social life of traditional China through the 18th century epic novel, Story of the Stone. Also studies interpretive theories of the novel, both Chinese and Western. All readings are in English. (H and N OR S and N) (WR)
Prerequisite: CHI 3500 or CHT 3110, or instructor permission.
Attributes: General Education - Humanities, General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

CHT 4603 Journey to the West 3 Credits
Grading Scheme: Letter Grade
Exploration of traditional Chinese religious culture, cultural history and literacy expression through a 100 chapter novel known as Journey to the West, or Monkey.
Prerequisite: one course in Chinese culture or instructor permission.

CHT 4911 Undergraduate Research in English Translation 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in English Translation. Projects may involve inquiry, design, investigation, scholarship, discovery or application in English Translation.

CHW 4120 Classical Chinese 1 3 Credits
Grading Scheme: Letter Grade
Introduction to classical Chinese prose with texts drawn mainly from early histories and philosophical writings (500 BC - AD 100). Emphasis on reading comprehension, grammar analysis and translation.
Prerequisite: CHI 2231 with minimum grade of C or instructor permission.

CHW 4121 Classical Chinese 2 3 Credits
Grading Scheme: Letter Grade
Continuation of CHW 4120 focusing on classical Chinese prose with texts drawn from early historical and philosophical texts to belles lettres of the medieval era and later periods. Emphasis on reading comprehension, grammar analysis and translation.
Prerequisite: CHW 4120 or instructor permission.

CHW 4130 Readings in Chinese Literature 3 Credits
Grading Scheme: Letter Grade
Introduces advanced language students to a sampling of Chinese writers. Materials chosen from classic or modern/contemporary Chinese literature rotated across semesters. All readings in Chinese. (H and N)
Prerequisite: CHI 3410 or the equivalent.
Attributes: General Education - Humanities, General Education - International

CHW 4140 Newspaper Chinese 3 Credits
Grading Scheme: Letter Grade
Development of ability to understand and translate the documentary prose style used in Chinese newspapers and academic journals. Introduces literary function words and grammar structures, with comparison to the vernacular. Most readings in the simplified character form used in the PRC; all readings in Chinese. Applications for research on modern China.
Prerequisite: CHI 3410 or instructor permission.

CHW 4911 Undergraduate Research in Target Language 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery or application.

Czech

CZE 1130 Introduction to Czech Language and Culture 1 5 Credits
Grading Scheme: Letter Grade
CZE 1130 and its sequel, CZE 1131, offer a comprehensive introduction to Czech, using interactive methods to develop competence in speaking, listening, reading, writing and cultural interaction.

CZE 1131 Introduction to Czech Language and Culture 2 5 Credits
Grading Scheme: Letter Grade
Continuation of series. A comprehensive introduction to Czech, using interactive methods to develop competence in speaking, listening, reading, writing and cultural interaction.
Prerequisite: CZE 1130 with minimum grade of C, or S, or the equivalent.

CZE 2200 Intermediate Czech 1 3 Credits
Grading Scheme: Letter Grade
Builds reading and writing skills while continuing to develop conversational ability and listening comprehension. Using a communicative approach, provides an overview of Czech grammar.
Prerequisite: CZE 1131 with minimum grade of C, or S, or the equivalent.

CZE 2201 Intermediate Czech 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study. Goal is to further develop speaking, listening, reading and writing skills.
Prerequisite: CZE 2200 with minimum grade of C, or S, or the equivalent.

CZT 3564 Modern Czech Culture and Society 3 Credits
Grading Scheme: Letter Grade
Overview of Czech literature, film, music, pop culture and visual arts as they were shaped by the events from 1918 to the present. (H and N)
Attributes: General Education - Humanities, General Education - International

Dutch

DUT 1130 Beginning Dutch 1 5 Credits
Grading Scheme: Letter Grade
DUT 1130 and its sequel, DUT 1131, constitute the basic sequence in Dutch for the development of overall skill in the language. Open to those with little or no background in Dutch.

DUT 1131 Beginning Dutch 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the basic sequence in Dutch for the development of overall skill in the language. Open to those with little or no background in Dutch.
Prerequisite: DUT 1130 with minimum grade of C, or S, or the equivalent.

French

FRE 1130 Beginning French 1 5 Credits
Grading Scheme: Letter Grade
Beginning French 1 and Beginning French 2 constitute the basic sequence in French for the development of overall skill in the language. Open to those with little or no background in French.

FRE 1131 Beginning French 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the basic sequence in French for the development of overall skill in the language. Open to those with little or no background in French.
Prerequisite: FRE 1130 or FRE 1180 with minimum grade of C, or S, or the equivalent as proven by placement test score.

FRE 1134 Accelerated French Review 5 Credits
Grading Scheme: Letter Grade
Provides a rapid review of basic communicative French as preparation for intermediate French. For those with previous French study but insufficient placement scores to move to the 2000 level.
Prerequisite: Two years of high school French or equivalent.

FRE 1180 Elementary French: Review and Progress 3 Credits
Grading Scheme: Letter Grade
For those who have previous experience in French but who are not yet prepared for advanced elementary work in the language. FRE 1180 confirms overall language skill in preparation for FRE 1131.

FRE 1182 Preparation for Intermediate French 3 Credits
Grading Scheme: Letter Grade
Alternative to FRE 1131 for those who have had four years of high school French or equivalent, but whose placement scores are not high enough for FRE 2200. Combines the material of FRE 1130 and 1131 in one semester. Meets three times per week. FRE 2200 follows in the sequence.
Prerequisite: not for those with credit for FRE 1180 or FRE 1115.

FRE 2220 Intermediate French 1 4 Credits
Grading Scheme: Letter Grade
Devoted to grammar review and composition as well as to the advancement of spoken proficiency, FRE 2220 and its sequel, FRE 2221, develop reading and writing skills in French.
Prerequisite: FRE 1131 or FRE 1134 or FRE 1182.

FRE 2221 Intermediate French 2 4 Credits
Grading Scheme: Letter Grade
Continued grammar review. Emphasizes practice in reading and developing vocabulary. Selected readings in French and Francophone fiction.
Prerequisite: FRE 2220.

FRE 2274 Intensive French Abroad 6 Credits
Grading Scheme: Letter Grade
An immersion language course integrating the experience, observations and impressions of students living abroad with a French family (site announced annually). Emphasis on development of language proficiency and cultural awareness. Class meets 12 hours a week. Enhances speaking, reading, writing proficiency and the ability to communicate with native speakers.
Prerequisite: FRE 1131 with minimum grade of C, or S, or the equivalent as proven by placement test score.

FRE 3070 Accelerated Introduction to French 5 Credits
Grading Scheme: Letter Grade
An accelerated introduction to French. Assumes no previous knowledge of French. Offers a four-skill introduction to the language for those who have completed intermediate level study in another Romance language.

FRE 3224 Applied French 1-5 Credits
Grading Scheme: Letter Grade
French-language reading and discussion section designed to accompany and complement areas of diverse content offered in other departments. Readings and discussions are in French to develop specific vocabulary and fluency related to the content of the companion course, as well as to provide an international perspective on the issues of the main course. (N)
Prerequisite: FRE 2242 or instructor permission; 3 credits can count toward the major or minor.
Attributes: General Education - International

FRE 3300 Grammar and Composition 3 Credits
Grading Scheme: Letter Grade
Systematic examination of French grammar. Practice of writing at several levels (summary of texts, descriptions, compositions). Textual analysis of literary and journalistic materials. First course of major sequence.
Prerequisite: FRE 2274 or AP score of 5, IB score of 6 or SAT2 score of 700 and above.

FRE 3320 Composition and Stylistics 3 Credits
Grading Scheme: Letter Grade
Develops advanced writing skills through the stylistic study of literary and journalistic texts. Writing assignments focus on development of a variety of skills, including summaries, literary analyses, argumentative essays, etc. Aspects of French grammar are highlighted along with analytical terms and key vocabulary from texts.
Prerequisite: FRE 3300 or the equivalent.

FRE 3410 French Conversation and Interaction 3 Credits
Grading Scheme: Letter Grade
Develops and refines oral and comprehension skills relating to different domains. New vocabulary ranging from the colloquial to the most refined of discourses enables students to recognize and use words and expressions in the proper context; material enables students to move from discussions about themselves to situations they are likely to encounter in daily life abroad, through interviewing techniques and professional interaction.
Prerequisite: FRE 2221.

FRE 3440 Commercial French 3 Credits
Grading Scheme: Letter Grade
Introduction to business practices in France with particular emphasis on active use of business vocabulary and salient cultural differences. Major topics include written business communication, financial institutions, trade and advertising. (S and N)
Prerequisite: FRE 2221 or the equivalent.
Attributes: General Education - International, General Education - Social Science

FRE 3442 Contemporary French Commerce 3 Credits
Grading Scheme: Letter Grade
Continues the acquisition of business language with special attention paid to technical readings, marketing, case studies and the role of France in the European Union. Emphasis is also placed on oral communication skills and contrasting U.S. and French business culture.
Prerequisite: FRE 3300 or instructor permission.

FRE 3500 France through the Ages 3 Credits
Grading Scheme: Letter Grade
A study of France within context of the principal historical events that have formed and transformed the nation state, its mentality and its cultural production. Special attention is given to the significant political, intellectual, religious, social and artistic currents that have marked France and its image from ancient times to the present. (H and N)
Prerequisite: FRE 2221 or the equivalent.
Attributes: General Education - Humanities, General Education - International

FRE 3502 Francophone Cultures 3 Credits
Grading Scheme: Letter Grade
A study of the cultures of countries or regions where French is used as the (or one of the) official language(s) or, in a less official capacity, by a segment of the population. Study of some of the historical, conceptual, practical and problematic aspects of Francophonie. Also concentrates on one specific area (the Caribbean or West Africa or Quebec, etc., on a rotating basis). Literary samples are included. (H and N)
Prerequisite: FRE 2221 or the equivalent.
Attributes: General Education - Humanities, General Education - International

FRE 3564 Contemporary French Culture 3 Credits
Grading Scheme: Letter Grade
An overview of contemporary France that may include the study of politics, economics, education and the arts as well as ideas of national and ethnic identity and France's place in the EU. (H and N)
Prerequisite: FRE 2221 or the equivalent.
Attributes: General Education - Humanities, General Education - International

FRE 3780L Corrective Phonetics 3 Credits
Grading Scheme: Letter Grade
A survey of the units of speech cast in practical terms and organized by classes of sounds with particular emphasis on rhythm, vowels, nasalization, diphthongs and the complex phenomena that occur at word transitions in French. Taught in French, in an audio laboratory, with the instructor as monitor and with a manual designed for individualized instruction.
Prerequisite: FRE 2221 or the equivalent.

FRE 4411 French for Proficiency 2 Credits
Grading Scheme: Letter Grade
Oral practice with emphasis on the structure of oral communication and oral presentation. Learn to utilize organizational frames, highlight transitions and make oral reports clear and accessible. Speech acts and alternative options in communication are given ample attention. Especially useful to those planning to use French in a variety of professions.
Prerequisite: FRE 3410 or the equivalent.

FRE 4420 Writing in French 3 Credits
Grading Scheme: Letter Grade
Advanced writing course that provides a systematic study (or review) of French syntax, vocabulary and style with the help of drill sessions. Also may include some training in literary translation. A number of quizzes and written compositions.
Prerequisite: FRE 3320 or instructor permission.

FRE 4501 The French Language in the Americas 3 Credits
Grading Scheme: Letter Grade
Examination of the presence of French in the Americas. Topics covered include: the origin of French in the Americas, language practices of Francophone communities, linguistic characteristics of the varieties of French, the effect of language contact on language behavior and representations and identity issues. Focus varies from year to year.
Prerequisite: FRE 3320.

FRE 4780 Introduction to French Phonetics and Phonology 3 Credits
Grading Scheme: Letter Grade
An introduction to French phonological processes, providing explanatory evidence for the production of speech sounds, for the classification of sounds, for their interrelationship with one another (gliding, nasalization, assimilation), for morphological and syllable structure, for specifically French phenomena such as liaison, elision, final consonant drop, schwa drop, and for the relationship of morphology to phonology, especially in the verb system.
Prerequisite: FRE 3320; LIN 3010 recommended.

FRE 4822 Sociolinguistics of French 3 Credits
Grading Scheme: Letter Grade
Sociolinguistic issues in the French-speaking world: language variation, discourse analysis, attitudes toward varieties of French and contact with speakers of other languages.
Prerequisite: FRE 3320; LIN 3010 recommended.

FRE 4850 Introduction to the Structure of French 3 Credits
Grading Scheme: Letter Grade
Explores the French language as a system of communication and mental representation. Analyzes the morphological, syntactic and semantic aspects of contemporary French, and emphasizes the historical, psychological and sociological dimension of linguistic investigation.
Prerequisite: FRE 3320; LIN 3010 recommended.

FRE 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
For advanced major and minors who seek independent work not offered in another course. Must be arranged individually with French faculty.
Prerequisite: department permission; only three credits can count toward the minor or major.

FRE 4906 Honors Thesis 1-3 Credits
Grading Scheme: Letter Grade
Directed research leading to a 30-40 page essay on a topic approved by the thesis director; registration for two semesters is highly recommended. Not a substitute for a required course in the French major.
Prerequisite: 3.5 minimum GPA.

FRE 4911 Undergraduate Research in Language or Linguistics 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Language or Linguistics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Language or Linguistics.

FRE 4930 Revolving Topics in French Studies 1-5 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in French studies.
Prerequisite: FRE 3320 and FRW 3100 or FRE 3101, or the equivalent.

FRE 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

FRT 2460 French Texts and Contexts 3 Credits
Grading Scheme: Letter Grade
Selected readings in English translation of major works of French literature. For those with no knowledge of French, not for credit in the major. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

FRT 2930 Special Topics in French Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Rotating topics in French literature and culture; taught in English.

FRT 3004 Monuments and Masterpieces of France 3 Credits
Grading Scheme: Letter Grade
Study of selected masterpieces of French literature, in English translation. Works to be considered as they relate to history and as they can be read in strictly literary terms. Topic varies from year to year.
Prerequisite: sophomore standing or higher.

FRT 3520 French Cinema 4-8 Credits
Grading Scheme: Letter Grade
Critical, theoretical and historical study of French cinema. Topics will be announced. Content may include key directors, 1930s cinema, nostalgia and masculinity in 1980s films, World War II cinema, and Colonial and Postcolonial cinema. Open to French majors and non-majors and is taught in English. (H and N)
Attributes: General Education - Humanities, General Education - International

FRT 3561 Women in French Literature and/or Cinema 3-4 Credits
Grading Scheme: Letter Grade
Introduction to the rich heritage of feminist traditions in France and Francophone countries through an exploration of women writers and thinkers (filmmakers, theorists), primarily of the 19th and 20th centuries. Selected topics include L'criture fminine (Writing the Feminine), autobiographical writing by French and Francophone women, women in French cinema and representations of women in French film and literature. Read, discuss and analyze a broad spectrum of primary and secondary sources from a feminist viewpoint. (H and N OR S and N)
Attributes: General Education - Humanities, General Education - International, General Education - Social Science

FRT 4523 European Identities, European Cinemas 4 Credits
Grading Scheme: Letter Grade
Provides knowledge of different cultures, languages and identities that make up contemporary European cinemas.

FRT 4911 Undergraduate Research in English Translation 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in English Translation. Projects may involve inquiry, design, investigation, scholarship, discovery or application in English Translation.

FRT 4956 Overseas Studies 3 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

FRW 3100 Introduction to French Literature 1 3 Credits
Grading Scheme: Letter Grade
Overview of French Medieval, Renaissance and classical literature and culture, with major literary, intellectual and historical trends through study of representative works from each period. Emphasizes close reading of texts to train students to read critically and to familiarize them with major authors, genres and interpretations. (H and N)
Prerequisite: FRE 2221 or the equivalent.
Attributes: General Education - Humanities, General Education - International

FRW 3101 Introduction to French Literature 2 3 Credits
Grading Scheme: Letter Grade
Selected readings of outstanding authors of prose fiction, poetry and theatre from the 18th to the 20th century. Provides the historical context for major literary movements and authors, and trains students to read and write critically. Generally organized thematically. (H and N)
Prerequisite: FRE 2221 or the equivalent.
Attributes: General Education - Humanities, General Education - International

FRW 3930 Rotating Topics in French and Francophone Literature 3 Credits
Grading Scheme: Letter Grade
Selected topics in French literature.
Prerequisite: FRE 3320 or instructor permission.

FRW 4212 Readings in 17th Century French Prose 3 Credits
Grading Scheme: Letter Grade
Selected readings with an emphasis on the history of ideas, the moralistes and culture in the early modern period. Texts include Descartes, Cyrano de Bergerac, Pascal, Fontenelle, La Rochefoucauld, La Fayette, La Bruyre and Svign.
Prerequisite: FRE 3320 and (FRW 3100 or FRW 3101), or the equivalent.

FRW 4273 Readings in 18th Century French Literature 3 Credits
Grading Scheme: Letter Grade
Rotating topics exploring the fiction, theatre or intellectual prose of the Enlightenment. Special emphasis placed on the cultural climate and productions of the ancient regime.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4281 Readings in the 20th Century French Novel 3 Credits
Grading Scheme: Letter Grade
Examination of representative novels in 20th century French literature from Proust to the New Novel and beyond. Emphasis may include study of genre, narrative techniques, literary modernism and major themes. Combines an historical approach with close textual readings. Authors frequently studied include Proust, Gide, Malraux, Cline, Camus, Sartre, Robbe-Grillet, Butor, Sarraute and Duras.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4310 Seventeenth Century French Drama 3 Credits
Grading Scheme: Letter Grade
Theory and practice of dramaturgy in the classical period as reflected in plays of Corneille, Molire and Racine. Close textual analysis to disengage aesthetic and ideological problematics posed by each play.

FRW 4324 Readings in 20th Century French Theatre 3 Credits
Grading Scheme: Letter Grade
A study of selected plays (by Jarry, Claudel, Giraudoux, Camus, Anouilh, Ghelderode, Beckett, Ionesco, Genet, etc.), dramatic techniques and the evolution of modern French theatre as a genre.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4350 Modern French Poetry from Baudelaire to the Present 3 Credits
Grading Scheme: Letter Grade
Combines an historical approach with close readings of poetic texts; also introduces a number of theoretical and critical writings. Although traditional poetic texts are studied, the works of less frequently taught poets are also presented.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4391 Concepts of French Cinema 4 Credits
Grading Scheme: Letter Grade
A critical and historical study of the representation of gender and ethnicity in French cinema.
Prerequisite: FRE 3300.

FRW 4532 Survey of French Romantic Literature 3 Credits
Grading Scheme: Letter Grade
A rotating topics tracing the development and the main tenets of 19th century French Romanticism. Concentrates on various themes and genres, including poetry, theater and the novel as well as the socioeconomic and cultural matrices that fostered the movement. Emphasizes the relationship between literature and the visual arts, constructions of gendered, cultural and artistic subjectivities, exoticism (spatial, temporal and mystical voyages) and representations of Paris and French society. Beginning with pre-Romantic authors, moves on to Lamartine, Stendhal, Hugo, Vigny, Balzac, Sand, Musset, Desbordes-Valmore, Nerval and Baudelaire.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4552 Introduction to Realism and Naturalism 3 Credits
Grading Scheme: Letter Grade
Rotating topics trace the development and the main tenets of latter 19th century literary, artistic and cultural productions. Concentrates on various themes and genres, including poetry, theatre and the novel as well as the socioeconomic and cultural matrices that fostered movements arising between 1850 and the fin de sicle. Specific attention may be devoted to definitions of Realism, Naturalism and Symbolism; representations of modern life and the industrialization of the literary market; the infiltration of scientific and mechanistic thought into literary productions (poetry or prose); and representations of women and the female body, of Paris and Parisian society.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4762 Readings in Francophone Literatures and Cultures (excluding the Caribbean and Sub-Saharan Africa) 3 Credits
Grading Scheme: Letter Grade
Rotating topics in the literatures and cultures of the Francophone world, including North America (Quebec), Europe (Belgium, Switzerland and regional France), Asia (Vietnam, Indian Ocean) and the Middle East.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4770 African and Caribbean Literatures 3 Credits
Grading Scheme: Letter Grade
The production of Sub-Saharan African writers from its inception to the present through examination of representative works and figures, genres (epics, poetry, drama, novels), discourses and critics that inform the productions. Particular attention is paid to historical, political and cultural issues that figure in the development and orientation of African literature in French. Occasional inclusion of Caribbean literature for purpose of comparison.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4822 Introduction to French Critical Theory 3 Credits
Grading Scheme: Letter Grade
Review and comparative analysis of approaches to literature from Romanticism to Deconstructionism. Reading and writing are examined through the eyes of Sainte-Beuve, Taine, Lanson, Bachelard, the Geneva School, Ricoeur, Bataille, Blanchot, Barthes, Foucault, Genette, Lacan, Kristeva, Todorov, Derrida and others.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4911 Undergraduate Research in Target Language 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Target Language. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Target Language.

FRW 4932 Senior Seminar in French Literature 3 Credits
Grading Scheme: Letter Grade
Rotating topics for French majors and minors in the senior year. Topics rotate given research interests or field of specialization of the teaching faculty. Recent topics have included La Posie du Voyage; L'Ecriture Fminine; Le Discontinu chez La Rochefoucauld et La Bruyre; Charles Baudelaire: pote/critique de la vie moderne; Qu'est-ce que la Rvolte?
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101.

German

GER 1125 Discover German 1 5 Credits
Grading Scheme: Letter Grade
First semester of a two-semester sequence that includes Discover German 2. In this innovative online course, students acquire basic skills in the German language and use the Internet as a resource to explore aspects of German culture and everyday life.

GER 1126 Discover German 2 5 Credits
Grading Scheme: Letter Grade
Continuation of Discover German 1. Continue acquiring basic skills in the German language using the Internet to explore aspects of German culture and everyday life.
Prerequisite: GER 1125.

GER 1130 Beginning Intensive German 1 5 Credits
Grading Scheme: Letter Grade
The first semester of a two-semester sequence that includes Beginning Intensive German 2. Emphasis is on spoken German. Reading, writing and grammar are also included in the program. Communication in German is enhanced by the use of multimedia and regular meetings with tutors. Supervised homework and drill sessions in small groups.

GER 1131 Beginning Intensive German 2 5 Credits
Grading Scheme: Letter Grade
Continuation of Beginning Intensive German 1. Emphasis is on spoken German. Reading, writing and grammar are also included in the program. Communication in German is enhanced by the use of multimedia and regular meetings with tutors. Supervised homework and drill sessions in small groups.
Prerequisite: GER 1130 with minimum grade of C, or S, or the equivalent.

GER 2200 Intermediate German 1 3 Credits
Grading Scheme: Letter Grade
Participants will improve their skills in the four basic areas (reading, writing, listening comprehension, speaking) by reviewing elements of grammar, particularly morphology (i.e., word forms), and by expanding vocabulary. Upon successful completion, students may go directly to Advanced German.
Prerequisite: GER 1104 or GER 1126 or GER 1131, or the equivalent.

GER 2225 Online Intermediate German 3 Credits
Grading Scheme: Letter Grade
Employs web-based learning resources to develop B1-level proficiencies via the reinforcement of speaking and listening comprehension, reading, and writing skills, and an exploration of selected cultural topics. For self-starters who are comfortable and successful working individually and in groups in an online learning environment.
Prerequisite: (GER 1130 and GER 1131) or (GER 1125 and GER 1126) or (10 university-level credit hours of beginning German) or the equivalent.

GER 2240 Intermediate German 2 3 Credits
Grading Scheme: Letter Grade
Objectives include improving reading and speaking skills at the intermediate level. Upon completion participants will be able to pronounce German words more accurately, listen with greater comprehension to German and respond to questions about a variety of recorded texts. Upon successful completion, students may go directly to Advanced German.
Prerequisite: GER 1104 or GER 1126 or GER 1131, or the equivalent.

GER 2270 Intermediate German Abroad 3-9 Credits
Grading Scheme: Letter Grade
A review of the major aspects of grammar in a context that enhances understanding of German and aims at a level of proficiency above the A2 level of the Common European Framework of Reference for Languages.
Prerequisite: GER 1126 with a minimum grade of C.

GER 3234 Reading German Texts 3 Credits
Grading Scheme: Letter Grade
Upon completion, students will be able to read literary and nonliterary texts and to identify the more common syntactical, stylistic and rhetorical elements.
Prerequisite: GER 2200 or GER 2240.

GER 3300 Writing German Texts 3 Credits
Grading Scheme: Letter Grade
Special focus on strategies, grammar and vocabulary involved in writing in German. Works toward a writing proficiency level that corresponds to the B1 level as defined by the European Framework of Reference for Languages and measured by the Goethe Institute exam Zertifikay Deutsch.
Prerequisite: GER 2200 or GER 2270 with a minimum grade of C.

GER 3330 German Language and Culture 1 3 Credits
Grading Scheme: Letter Grade
Introduces German civilization through grammar review, vocabulary building, reading and essay writing. Upon completion, students will be able to discuss cultural and literary concepts in German. (H)
Prerequisite: GER 2200 or GER 2240.
Attributes: General Education - Humanities

GER 3332 Topics in German Film and Culture 1 Credit
Grading Scheme: Letter Grade
GER 3224 is taught as a FLAC accompaniment to various courses. A discussion forum covering different topics in German film and culture. All materials and class discussions will be in German.
Prerequisite: GER 1104 or GER 1126 or GER 1131, or equivalent, and one 2000-level GER course.

GER 3401 German Grammar Review 3 Credits
Grading Scheme: Letter Grade
An intensive semester-long review of German grammar.
Prerequisite: GER 2200 or GER 2240, or undergraduate coordinator permission.

GER 3413 German Listening, Comprehension and Speaking 3 Credits
Grading Scheme: Letter Grade
Develops the ability to understand and produce basic kinds of speech (descriptions, simple stories, etc.).
Prerequisite: GER 2200 or GER 2240, or instructor permission.

GER 3440 German in Business 3 Credits
Grading Scheme: Letter Grade
Study of Wirt-schaftsdeutsch and the ability to read and write texts in German for international business transactions. Acquire the ability to communicate in German in professional business settings. (N and S)
Prerequisite: GER 2200 or GER 2240.
Attributes: General Education - International, General Education - Social Science

GER 3470 Advanced German Abroad 3-9 Credits
Grading Scheme: Letter Grade
Practical, in-class communication exercises at an advanced level in comprehension, speaking, reading and writing. Prepares students to achieve a proficiency level above the B1 level as established by the Common European Framework for Languages.
Prerequisite: GER 2200 or GER 2270 with a minimum grade of C, or undergraduate coordinator permission.

GER 4482 Cultural Identity and Intercultural Competence 3 Credits
Grading Scheme: Letter Grade
Listening comprehension and speaking ability in work involving German cultural identity, online and in class.
Prerequisite: GER 3410 or instructor permission.

GER 4930 Variable Topics in German Studies 3 Credits
Grading Scheme: Letter Grade
Working with German media such as major newspapers, magazines, radio and television programs, students will refine their language skills to a level similar to the B2 level of the Common European Framework for Languages.
Prerequisite: GER 3401 with a minimum grade of C or 6 credits of coursework at the GER 3000-level.

GER 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

GET 2100 German Literary Heritage 3 Credits
Grading Scheme: Letter Grade
Knowledge of German is not required. Upon completion participants will be able to discuss major works of German literature, mainly from the 18th to the 20th century. Texts and lectures in English. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

GET 3003 German Culture and Civilization 1 3 Credits
Grading Scheme: Letter Grade
Knowledge of German is not required. Introduces German civilization from the earliest times to the beginning of the 19th century. Become acquainted with German literature, philosophy, art, music and architecture. Readings and discussions in English.

GET 3004 Modern German Culture and Civilization 3 Credits
Grading Scheme: Letter Grade
Knowledge of German is not required. Introduces German civilization in the 19th and 20th centuries. Participants will be able to discuss developments in German literature, philosophy, art, music and architecture. Texts and lectures in English.

GET 3200 Medieval Literary Culture 3 Credits
Grading Scheme: Letter Grade
Studies the German literary culture of the Holy Roman Empire during the Middle Ages in its broader European context. Examines literary culture in relation to Latin literary traditions, as well as to other cultural domains such as the arts, architecture, theology, and politics. (H) (WR)
Attributes: General Education - Humanities, Satisfies 4000 Words of Writing Requirement

GET 3201 Early Modern Literary Culture 3 Credits
Grading Scheme: Letter Grade
Studies the early modern literary culture of German-speaking regions of the Holy Roman Empire in the broader European context. Examines this culture?s relation to pan-European developments, including the Renaissance, Humanism, the Reformation, and developments in the arts, architecture, theology, and politics.
Prerequisite: sophomore standing or higher.

GET 3501 History, Literature and Arts of Berlin 3 Credits
Grading Scheme: Letter Grade
Gain a working knowledge of the history and culture of Berlin from 1871 to the present by exploring literature, painting, and film. Authors and artists include Mann, Brecht, Dix, and Wenders.

GET 3520 Early German Cinema: 1945 4 Credits
Grading Scheme: Letter Grade
Historical overview of the most influential films of German classical cinema, including how they relate to the social reality of the 1920s and 30s.

GET 3580 Representations of War in Literature and Visual Media 3 Credits
Grading Scheme: Letter Grade
Study of the shifting cultural representations of war (literature/art) in the 20th century, focusing primarily on European history, culture and politics. Primary sources include Mann, Remarque, Boll, Celan, Grosz, and Kiefer.

GET 3930 Variable Topics in German Studies 3-9 Credits
Grading Scheme: Letter Grade
Variable topics in German Studies in English translation.

GET 4521 Women and German Cinema 4 Credits
Grading Scheme: Letter Grade

GET 4523 New Cinema 1945 to the Present 4 Credits
Grading Scheme: Letter Grade

GET 4930 Variable Topics in German Studies 3-9 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in German studies, in English translation.
Prerequisite: 3 credits at 3000 level or above, or instructor permission.

GEW 3100 Survey of German Literature 1 3 Credits
Grading Scheme: Letter Grade
The major periods and works of German literature from the Middle Ages to the 18th century. Texts in German.
Prerequisite: instructor permission.

GEW 3101 Survey of German Literature 2 3 Credits
Grading Scheme: Letter Grade
The major periods of German literature from the 18th century to the present. Authors include Goethe, Kleist, Kafka, Mann, Grass, and Christa Wolf. Readings in German. (H)
Attributes: General Education - Humanities

GEW 3930 Variable Topics in German Studies 3-9 Credits
Grading Scheme: Letter Grade
Variable topics in German Studies.
Prerequisite: GER 2000 or instructor permission.

GEW 4301 Introduction to German Drama and Theater 3 Credits
Grading Scheme: Letter Grade
Survey of German drama from the late medieval period to the present. Introduction to major forms, periods and authors such as Lessing, Goethe, Schiller, and Brecht. (H)
Prerequisite: GEW 3100 and GEW 3101, or the equivalent.
Attributes: General Education - Humanities

GEW 4400 Medieval Studies in German 3 Credits
Grading Scheme: Letter Grade
Read some shorter verse narratives dealing with love and chivalric adventures in the original language of the German Middle Ages (ca. 1200). In conjunction with this reading, students will learn some of the basic features of the poetic idiom (Middle High German) as well as some of the issues and problems involved in the production, transmission and editing of medieval manuscripts. (H)
Prerequisite: GEW 3100 and GEW 3101.
Attributes: General Education - Humanities

GEW 4401 German Cities as Cultural Centers 3 Credits
Grading Scheme: Letter Grade
Study of German, Austrian, and Swiss cities as cultural centers. Employs online learning resources to expand knowledge of urban cultures in German-speaking Europe and to develop linguistic and cultural proficiency toward the B2 level according to CEFR standards.
Prerequisite: GER 3401 or instructor permission.

GEW 4730 Modern German Literature 3 Credits
Grading Scheme: Letter Grade
The major trends of German literature in the first half of the 20th century, including impressionism, expressionism, Neue Sachlichkeit, workers literature and Nazi culture. Works by Thomas Mann, Hermann Hesse and Bertolt Brecht are discussed. (H)
Prerequisite: GEW 3100 and GEW 3101.
Attributes: General Education - Humanities

GEW 4731 Contemporary German Literature 3 Credits
Grading Scheme: Letter Grade
Participants will learn to discern the major trends of post WW II German literature. Students will be able to recognize the key features of works by such German authors as Bll, Grass, Weiss and Wolf, and by such Swiss and Austrian writers as Frisch, Drrenmatt and Handke. (H)
Prerequisite: GEW 3100 and GEW 3101.
Attributes: General Education - Humanities

GEW 4750 Women in German Literature 3 Credits
Grading Scheme: Letter Grade
The image of women in representative works of German literature. Study of the main themes and structures in selected works by major women writers of German-speaking countries and their unique contribution to German culture and literature. Students will use an interdisciplinary approach to literature and will learn the basic tools of gender studies. (H)
Prerequisite: any two 3000-level courses.
Attributes: General Education - Humanities

GEW 4760 Ethnic Writing in Germany 3 Credits
Grading Scheme: Letter Grade
Writings (prose, poetry, critical essays) of significant authors of non-German descent (i.e., Spaniards, Italians, Turks, Iranians) from the 1950s to the present. Insights into the lives and thinking of significant ethnic minorities in Germany during this period and the implications for German literary history and German identity. Films are also screened and discussed.
Prerequisite: GER 3234 or instructor permission.

GEW 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course. Available only by special arrangement.

GEW 4911 Undergraduate Research in German 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in German. Projects may involve inquiry, design, investigation, scholarship, discovery or application in German.

GEW 4930 Seminar in Germanic Languages and Literatures 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in Germanic language or literature. (H)
Prerequisite: any two 3000-level courses or instructor permission.
Attributes: General Education - Humanities

MEM 2500 The Tales of King Arthur 3 Credits
Grading Scheme: Letter Grade
The great literary works of the Arthurian tradition and the manner in which the tales of King Arthur serve, from their 6th century Celtic origins to the present, to articulate the interests and values of different social groups throughout history. (H and N)
Attributes: General Education - Humanities, General Education - International

MEM 3300 Castles and Cloisters: An Introduction to Medieval Communities 3 Credits
Grading Scheme: Letter Grade
Studies monastic and courtly-chivalric communities as these evolved in the Middle Ages. Explores architecture, art, literature and music illustrate how different monastic and chivalric communities saw the world and their place in it. (H and N)
Attributes: General Education - Humanities, General Education - International

Haitian Creole

HAI 1130 Beginning Haitian Creole 1 5 Credits
Grading Scheme: Letter Grade
HAI 1130 and its sequel, HAI 1131, constitute the basic sequence for development of conversational skills and grammar essentials in the language.
Prerequisite: bilingual students are encouraged to speak to the instructor as they may be able to enter directly into HAI 1131 to satisfy their foreign language requirement.

HAI 1131 Beginning Haitian Creole 2 5 Credits
Grading Scheme: Letter Grade
Second part of the basic Haitian Creole sequence for development of conversational skills and grammar essentials in the language.
Prerequisite: HAI 1130 or the equivalent.

HAI 2200 Intermediate Haitian Creole 1 3 Credits
Grading Scheme: Letter Grade
Concentrates on conversation and readings and provides an introduction to Haitian culture through music and film.
Prerequisite: HAI 1131 or the equivalent.

HAI 2201 Intermediate Haitian Creole 2 3 Credits
Grading Scheme: Letter Grade
Continued concentration on conversation with added emphasis on reading and perspectives on issues related to the Haitian way of living.

HAI 3930 Haitian Culture and Society 3 Credits
Grading Scheme: Letter Grade
Central aspects of history, politics, environment and development are addressed, including gender relations, medicine, education, work, race and class. No knowledge of Haitian Creole is required.

HAI 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course. Must be arranged individually with Haitian faculty.
Prerequisite: department permission.

HAI 4911 Undergraduate Research in Language, Linguistics, Literature, Culture in Some Combination of English, 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in language, linguistics, literature, culture in some combination of English, Haitian, Creole, or French. Projects may involve inquiry, design, investigation, scholarship, discovery or application.

HAT 3503 Haitian Culture and Literature in Translation 3 Credits
Grading Scheme: Letter Grade
Examines representations of Haiti and its culture through Haitian literature, art, film, and music.
Attributes: General Education - Humanities, General Education - International

HAT 3564 Haitian Culture and Society 3 Credits
Grading Scheme: Letter Grade
Central aspects of history, politics, environment and development are addressed, including attention to gender relations, medicine, education, work, race and class. No knowledge of Haitian Creole is required. (H and N OR S and N) (WR)
Attributes: General Education - Humanities, General Education - International, General Education - Social Science, Satisfies 2000 Words of Writing Requirement

HAT 3700 Introduction to Haitian Creole Linguistics 3 Credits
Grading Scheme: Letter Grade
Class examines the major sub-fields of linguistics by means of the Haitian Creole language. Haitian Creole syntax, morphology, phonology, semantics and lexicon are introduced in addition to sociolinguistics, dialectology, language planning, bilingualism and language contact. (H and N OR H and D) (WR)
Attributes: General Education - Diversity, General Education - Humanities, General Education - International, Satisfies 2000 Words of Writing Requirement

HAT 4911 Undergraduate Research in Language, Linguistics, Literature, Culture in Some Combination of English, 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

JMT 3500 Jamaican Creole, Reggae, and Rastafari 3 Credits
Grading Scheme: Letter Grade
Studies Jamaican Creole, reggae music, and Rastafari religion and culture; introduces the language, music, and religion of the Caribbean island. Methodology includes linguistics, ethnomusicology, and religious studies to read Jamaican Creole, interpret reggae songs, and analyze the Rastafari culture to which they link.
Prerequisite: Sophomore standing or LAS 2001 Introduction to Latin American Studies or AFH 2000 Africa in World History or AFA 2000 Introduction to African-American Studies or REL 2000 Introduction to Religion
Attributes: General Education - Humanities, General Education - International, Satisfies 2000 Words of Writing Requirement

Hebrew

A placement test is given during the first class meeting.

HBR 1130 Beginning Modern Hebrew 1 5 Credits
Grading Scheme: Letter Grade
Beginning Hebrew covers four skills: listening, speaking, reading, and writing. For those with no prior exposure to the language.

HBR 1131 Beginning Modern Hebrew 2 5 Credits
Grading Scheme: Letter Grade
Continues beginning Hebrew, covering four skills: listening, speaking, reading, and writing.
Prerequisite: HBR 1130 with minimum grade of C or S, or the equivalent.

HBR 2220 Intermediate Modern Hebrew 1 4 Credits
Grading Scheme: Letter Grade
Intermediate Hebrew study covers four skills: listening, speaking, reading, and writing with new vocabulary and grammar.
Prerequisite: HBR 1131 with minimum grade of C or S, or the equivalent.

HBR 2221 Intermediate Modern Hebrew 2 4 Credits
Grading Scheme: Letter Grade
Continues intermediate Hebrew covering four skills: listening, speaking, reading, and writing.
Prerequisite: HBR 2220 with minimum grade of C or S, or the equivalent.

HBR 3410 Advanced Modern Hebrew 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills: listening, speaking, reading, and writing with attention to more complex structures. (H and N)
Prerequisite: HBR 2220 or HBR 2133 with minimum grade of C or S, or the equivalent.
Attributes: General Education - Humanities, General Education - International

HBR 3411 Advanced Modern Hebrew 2 3 Credits
Grading Scheme: Letter Grade
Continues advanced Hebrew study of the four skills: listening, speaking, reading, and writing with attention to more complex structures. (H and N)
Prerequisite: HBR 3410 with minimum grade of C or S, or the equivalent.
Attributes: General Education - Humanities, General Education - International

HBR 3412 Hebrew News and Media 3 Credits
Grading Scheme: Letter Grade

HBR 4905 Individual Work 1-5 Credits
Grading Scheme: Letter Grade
Individual work on an approved topic.
Prerequisite: refer to the department.

HBR 4930 Special Topics 3 Credits
Grading Scheme: Letter Grade
Proseminar of variable content providing an opportunity for in-depth study of special topics in Israeli literature, history, or culture.

HBR 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

HBT 3100 Introduction to Israeli Culture 3 Credits
Grading Scheme: Letter Grade
Presentation and analysis of some key facets of Israeli culture. Topics include Jewish vs. Zionist (and Israeli non-Jewish) identities, Israeli-Palestinian conflict, Israeli-American relations, gender, and function of art in Israeli society.
Prerequisite: HBR 1130 or sophomore standing.

HBT 3223 Identity and Dissent in the Hebrew Short Story 3 Credits
Grading Scheme: Letter Grade
Traces the tension between the individual and the collective in Zionist/Israeli society over the last 100-plus years as illustrated in Hebrew short fiction.

HBT 3233 Israeli History and the Contemporary Novel 3 Credits
Grading Scheme: Letter Grade
Studies Israeli history through the lens of the contemporary novel.
Attributes: General Education - Humanities

HBT 3563 Women in Modern Hebrew Fiction 3 Credits
Grading Scheme: Letter Grade
Depictions of women in 20th century Hebrew fiction.

HBT 3564 Motherhood in Modern Hebrew Literature 3 Credits
Grading Scheme: Letter Grade
Applied feminist theories regarding motherhood to the field of modern Hebrew literature.

HMW 4200 Readings in Modern Hebrew Literature 1 3 Credits
Grading Scheme: Letter Grade
Readings in modern Hebrew novels, short fiction and poetry. While the study of literature is emphasized, some language work is presented to help with reading comprehension. Texts and instruction are in Hebrew.
Prerequisite: HBR 3411 or equivalent.

HMW 4201 Readings in Modern Hebrew Literature 2 3 Credits
Grading Scheme: Letter Grade
Readings in modern Hebrew texts, including recently published stories and poems. Class is instructed in Hebrew.
Prerequisite: HMW 4200 or equivalent.

Hindi-Urdu

HIN 1130 Beginning Hindi 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering reading, writing, listening, and speaking with emphasis on acquisition of devanagari script.

HIN 1131 Beginning Hindi 2 5 Credits
Grading Scheme: Letter Grade
Continued study with emphasis on grammar and vocabulary essential to basic communicative functions.
Prerequisite: HIN 1130 with minimum grade of C, or the equivalent, or instructor permission.

HIN 2200 Intermediate Hindi 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: HIN 1131 or equivalent, or instructor permission.

HIN 2201 Intermediate Hindi 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study.
Prerequisite: HIN 2200 or equivalent, or instructor permission.

HIN 4930 Special Topics in Hindi-Urdu 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in and in-depth study of prose or poetic genres in Hindi and/or Urdu. Supplementary critical readings in English.
Prerequisite: HIN 2201 or equivalent, or instructor permission.

Italian

ITA 1130 Beginning Italian 1 5 Credits
Grading Scheme: Letter Grade
ITA 1130 and its sequel, ITA 1131, constitute the basic sequence in Italian. Emphasis on the development of broad competence in the language. Oral-aural approach ensures competence in the four skills.

ITA 1131 Beginning Italian 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the basic sequence in Italian. Emphasis on the development of broad competence in the language. Oral-aural approach ensures competence in the four skills.
Prerequisite: ITA 1130 with minimum grade of C, or S, or the equivalent.

ITA 2220 Intermediate Italian 1 4 Credits
Grading Scheme: Letter Grade
Enhances knowledge of Italian in all four skills: listening, reading, speaking and writing. The goal is to create communicative competence that enables students to advance to third year study and to benefit from their visits to Italy. (H and N)
Prerequisite: ITA 1131 or the equivalent.
Attributes: General Education - Humanities, General Education - International

ITA 2221 Intermediate Italian 2 4 Credits
Grading Scheme: Letter Grade
Completes second year sequence with emphasis on composition, literature and communication skills. (H and N)
Prerequisite: ITA 2220 or the equivalent.
Attributes: General Education - Humanities, General Education - International

ITA 3070 Accelerated Introduction to Italian 5 Credits
Grading Scheme: Letter Grade
Intensive course designed primarily for speakers or students with knowledge of another Romance language or strong linguistic abilities in another foreign language. Assumes no prior study of Italian and offers a complete four-skill (listening, speaking, reading and writing) introduction to the language.
Prerequisite: fourth semester of another romance language or instructor permission.

ITA 3224 Italian Enhancement Section 1-5 Credits
Grading Scheme: Letter Grade
Italian-language reading and discussion to accompany and complement courses in other departments. Readings and discussions are in Italian to develop vocabulary and fluency related to the content of the companion course and to provide an international perspective on the issues of the main course. (N)
Prerequisite: ITA 2221 or instructor permission. Not for credit in the major.
Attributes: General Education - International

ITA 3420 Grammar and Composition 1 3 Credits
Grading Scheme: Letter Grade
Intensive language course designed to master grammatical principles, increase vocabulary and enhance writing and composition skills.
Prerequisite: ITA 2221 or equivalent.

ITA 3500 Italian Civilization 3 Credits
Grading Scheme: Letter Grade
Variable topics class that introduces Italian civilization in historical, artistic and literary contexts. (H and N)
Prerequisite: ITA 2221 or the equivalent, or section coordinator or undergraduate advisor permission.
Attributes: General Education - Humanities, General Education - International

ITA 3564 Contemporary Italian Culture 3 Credits
Grading Scheme: Letter Grade
Variable topics class focusing on modern Italy through literature, art and mass media, and current events. (H and N)
Prerequisite: ITA 2221 or the equivalent, or section coordinator or undergraduate advisor permission.
Attributes: General Education - Humanities, General Education - International

ITA 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
For advanced minors who seek independent work not offered in another course. Must be arranged individually with Italian faculty. Only three credits can count toward the minor.
Prerequisite: program coordinator permission.

ITA 4911 Undergraduate Research in Language or History/Culture in Italian 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

ITT 2530 Italian Literature and Film 3 Credits
Grading Scheme: Letter Grade
Study of modern Italian narrative and its adaptation to film by major Italian directors. (H and N)
Attributes: General Education - Humanities, General Education - International

ITT 3431 Italy and Pilgrimages 3 Credits
Grading Scheme: Letter Grade
Through lectures, readings and discussions in English, ITT 3431 considers the continuing presence of Rome and other Italian cities as metaphors and focal points of Italian artistic and literary sensibilities. (H and N)
Attributes: General Education - Humanities, General Education - International

ITT 3521 Italian Cinema 4 Credits
Grading Scheme: Letter Grade
Critical and historical study of Italian film and directors. Topics may vary. (H and N)
Attributes: General Education - Humanities, General Education - International

ITT 3540 Murder Italian Style: Crime Fiction and Film in Italy 3 Credits
Grading Scheme: Letter Grade
Explores Italian crime fiction and film. Analysis considers specificity of Italian tradition while placing texts and films in a broader cultural and historical context, enabling critically and politically informed reading of the many applications and subversions of the generic formula. Taught in English.
Prerequisite: sophomore standing or instructor permission.

ITT 3541 Gangsters and Godfathers: Italian Mafia Movies 3 Credits
Grading Scheme: Letter Grade
Examines Italian cinematic representations of organized criminality, in particular Sicilian Cosa Nostra and Neapolitan Camorra. Analysis considers specificity of Italian tradition while placing films in a broader history of the gangster genre to allow for a critically and politically informed reading of Italian generic subversions. Taught in English.
Prerequisite: Sophomore standing or instructor permission.

ITT 3700 The Demolition of Man: Italian Perspectives on the Jewish Holocaust 3 Credits
Grading Scheme: Letter Grade
Explores a sampling of Italys texts on the Jewish Holocaust, centering on the work of survivor and theorist of the camps, Primo Levi. Material also encompasses the history of the Italian-Jewish community as well as a selection of Italian films dealing with the realities and ethical implications of the camps.
Prerequisite: sophomore standing or instructor permission.

ITT 3930 Special Topics in Italian Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Selected topics in Italian literature, civilization and culture, including crossover influence of media. Can focus on one epoch's influence on another.

ITT 4911 Undergraduate Research in Italian in English Translation 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

ITT 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

ITW 3100 Introduction to Italian Literature 1 3 Credits
Grading Scheme: Letter Grade
The origins of early Italian literature, its central themes and the cultural factors that influenced its development. Develops an ability to read in Italian and to read critically. (H)
Prerequisite: ITA 2221 or the equivalent, or section coordinator or undergraduate advisor permission.
Attributes: General Education - Humanities

ITW 3101 Introduction to Italian Literature 2 3-9 Credits
Grading Scheme: Letter Grade
The major Italian authors from the Renaissance through the 20th century. (H)
Prerequisite: ITA 2221 or the equivalent, or section coordinator or undergraduate advisor permission.
Attributes: General Education - Humanities

ITW 3310 Italian Play 3 Credits
Grading Scheme: Letter Grade

ITW 3500 Boccaccio's Decameron 3 Credits
Grading Scheme: Letter Grade
Analysis of Giovanni boccaccios canonical decameron with a focus on the literary Dimension of Text as well as the political, historical, and religious context in which the work was written.
Prerequisite: ITA 2221 or the equivalent.

Grading Scheme: Letter Grade
Semester-long, in-depth examination of Dante Alighieris text, Inferno, with the support of a variety of visual materials and digital resources devoted to Dante and his world. Special attention paid to the political, historical and religious context in which Dante wrote. Taught in Italian.
Prerequisite: ITA 3420, ITA 3500, ITA 3564, ITW 3100 or ITW 3101, or instructor permission.

ITW 4911 Undergraduate Research in Literature in Italian 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Literature in Italian. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Literature in Italian.

Japanese

JPN 1130 Beginning Japanese 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading, and writing. JPN 1130 has a strict attendance policy: if registered students miss two or more class meetings during drop/add, they may be dropped from the class upon notification by the instructor.
Prerequisite: placement test.

JPN 1131 Beginning Japanese 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar. JPN 1131 has a strict attendance policy: if registered students miss two or more class meetings during drop/add, they may be dropped from the class upon notification by the instructor.
Prerequisite: JPN 1130 with minimum grade of C, or S, or the equivalent as proven by placement test.

JPN 2230 Intermediate Japanese 1 5 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar. JPN 2230 has a strict attendance policy: if registered students miss two or more class meetings during drop/add, they may be dropped from the class upon notification by the instructor.
Prerequisite: JPN 1131 with minimum grade of C, or S, or the equivalent as proven by placement test.

JPN 2231 Intermediate Japanese 2 5 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study. JPN 2231 has a strict attendance policy: if registered students miss two or more class meetings during drop/add, they may be dropped from the class upon notification by the instructor.
Prerequisite: JPN 2230 with minimum grade of C, or S, or the equivalent as proven by placement test.

JPN 3410 Advanced Japanese 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures. JPN 3410 has a strict attendance policy: if registered students miss two or more class meetings during drop/add, they may be dropped from the class upon notification by the instructor. (H and N)
Prerequisite: JPN 2231 with minimum grade of C, or S, or the equivalent as proven by placement test.
Attributes: General Education - Humanities, General Education - International

JPN 3411 Advanced Japanese 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study. JPN 3411 has a strict attendance policy. If registered students miss two or more class meetings during drop/add, they may be dropped from the class upon notification by the instructor. (H and N)
Prerequisite: JPN 3410 with minimum grade of C, or S, or the equivalent as proven by placement test.
Attributes: General Education - Humanities, General Education - International

JPN 3440 Business Japanese 3 Credits
Grading Scheme: Letter Grade
Provides grammatical structures and essential business vocabulary, develops conversation strategies and presentation skills, and raises awareness of the customs and cultural differences in Japanese business interactions.
Prerequisite: JPN 2231 with minimum grade of C or S, or the equivalent.

JPN 3730 Language in Japanese Society 3 Credits
Grading Scheme: Letter Grade
Analysis of variation in regional dialects: gender-based differences, pragmatics of interpersonal communication, language acquisition and discourse structure. (S and N)
Attributes: General Education - International, General Education - Social Science

JPN 4415 Japanese Translation: Theory and Practice 3 Credits
Grading Scheme: Letter Grade
Key concepts and approaches of translation studies applied to the translation of Japanese to English, and English to Japanese, in a variety of media, genre, and text types.
Prerequisite: JPN 3410 or equivalent with a minimum grade of C or instructor permission.

JPN 4850 Structure of Japanese 3 Credits
Grading Scheme: Letter Grade
Linguistic analysis of modern standard Japanese. Topics include phonology, morphology, syntax, semantics and writing. Readings and discussions in English. (S and N)
Prerequisite: JPN 1131 or instructor permission.
Attributes: General Education - International, General Education - Social Science

JPN 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course. Available only by special arrangement.

JPN 4911 Undergraduate Research in Language or Linguistics 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research in Language or Linguistics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Language or Linguistics.

JPN 4930 Special Topics in Japanese Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in and in-depth study of special topics in Japanese studies.

JPN 4935 Senior Honors Thesis 3 Credits
Grading Scheme: Letter Grade
Select a Japanese faculty member to act as director for an independent research project that culminates in an honors thesis.
Prerequisite: Minimum 3.5 GPA and instructor permission.

JPN 4940 Internship 3 Credits
Grading Scheme: Letter Grade
Faculty (or delegated authority) supervised internship. Requires a written post-internship report.
Prerequisite: instructor and department permission.

JPN 4956 Overseas Studies 1 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

JPN 4957 Overseas Studies 2 1-15 Credits
Grading Scheme: Letter Grade
Revolving topics provide a mechanism for coursework taken at a foreign university as part of an approved study abroad program to be transferred to UF. Credits taken will be entered in the student's transcript and may or may not count toward graduation, at the discretion of major's advisors.
Prerequisite: undergraduate advisor permission.

JPT 3100 Tales of Kyoto 3 Credits
Grading Scheme: Letter Grade
An investigation of literary texts from the 8th through the 17th centuries presented within the framework of Western literary and feminist criticism. (H and N)
Attributes: General Education - Humanities, General Education - International

JPT 3120 Modern Japanese Fiction in Translation 3 Credits
Grading Scheme: Letter Grade
A critical examination of stories, autobiographies and secondary criticism from the 19th century to the present. Become familiar with the forms and topics of criticism through Japanese and Western sources. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

JPT 3121 Contemporary Japanese Literature: Postwar to Postmodern 3 Credits
Grading Scheme: Letter Grade
Companion to JPT 3120 that reflects the increasing clarity with which contemporary Japanese literature (1945 to present) is emerging as a separate field with its own set of issues, major texts and significance for the American student of Japan. Writers range from Dazai and Oe Kenzaburo to Murakami Haruki, and issues range from subjectivity to cybernetics.

JPT 3140 Modern Women Writers 3 Credits
Grading Scheme: Letter Grade
Examination of narratives written by women who published during the Taisho (1912-25), Showa (1925-89) and Heisei (1989 to present) periods. (H and N)
Attributes: General Education - Humanities, General Education - International

Grading Scheme: Letter Grade
Explores issues within Japanese visual culture, and uses visual-cultural products to explore Japanese political, cultural, social, and historical issues. Introduces and analyzes historically significant, foundational works of Japanese visual culture, unpacks genre and genre tropes in contemporary works, and analyzes several visual-cultural works that tackle significant social issues.
Prerequisite: JPT 3500 or JPT 3120 or ASH 3442

JPT 4130 The Tale of Genji 3 Credits
Grading Scheme: Letter Grade
Investigation of the 11th-century masterpiece and its pervasive influence on Japanese literature, past and present. (H and N)
Attributes: General Education - Humanities, General Education - International

JPT 4502 Japanese Folklore 3 Credits
Grading Scheme: Letter Grade
Study of native belief systems and the supernatural as reflected in the folk practice of ritual observance and in tales, myths, songs and proverbs. (H and N)
Attributes: General Education - Humanities, General Education - International

JPT 4510 Representations of Japan's Modern Empire 3 Credits
Grading Scheme: Letter Grade
Examines a variety of literary, historical, anthropological, and theoretical texts to explore racial and social issues related to Japan's imperial past. (H and N)
Corequisite: JPT 3500 recommended.
Attributes: General Education - Humanities, General Education - International

JPT 4911 Undergraduate Research in English Translation 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

JPT 4956 Overseas Studies 1 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

JPT 4957 Overseas Studies 2 1-15 Credits
Grading Scheme: Letter Grade
Revolving topics provide a mechanism for coursework taken at a foreign university as part of an approved study abroad program to be transferred to UF. Credits taken will be entered in the student's transcript and may or may not count toward graduation, at the discretion of major's advisors.
Prerequisite: undergraduate advisor permission.

JPW 3143 Classical Japanese 1 3 Credits
Grading Scheme: Letter Grade
Introduction to classical Japanese texts with emphasis on reading comprehension, grammar analysis and translation.
Prerequisite: JPN 2231 with minimum grade of C, or the equivalent.

JPW 3144 Classical Japanese 2 3 Credits
Grading Scheme: Letter Grade
Complex texts in classical Japanese with focus on comprehension, grammar, literature and culture.
Prerequisite: JPN 3143 with minimum grade of C, or the equivalent.

JPW 4130 Readings in Japanese Literature 3 Credits
Grading Scheme: Letter Grade
A fourth-year language course based on literary texts, incorporating advanced reading skills and the analysis of literature in the original. (H and N)
Prerequisite: JPN 3411 with minimum grade of C or S, or the equivalent as proven by placement test.
Attributes: General Education - Humanities, General Education - International

JPW 4131 Japanese Texts and Contexts 3 Credits
Grading Scheme: Letter Grade
Complements JPW 4130, Readings in Japanese Literature, and focuses on contemporary issues as encountered in a variety of Japanese media.
Prerequisite: JPN 3411 with minimum grade of C or S, or the equivalent as proven by placement test.

JPW 4911 Undergraduate Research in Target Language 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research in Target Language. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Target Language.

Korean

KOR 1130 Beginning Korean 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering speaking, listening, reading, writing, and cultural interaction.
Prerequisite: placement test.

KOR 1131 Beginning Korean 2 5 Credits
Grading Scheme: Letter Grade
Continued study of speaking, listening, reading, writing and cultural interaction.
Prerequisite: KOR 1130 with minimum grade of C, or S, or the equivalent.

KOR 2230 Intermediate Korean 1 5 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: KOR 1131 with minimum grade of C or S, or the equivalent.

KOR 2231 Intermediate Korean 2 5 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: KOR 2230 with minimum grade of C or S, or the equivalent.

Lingala

LGL 1130 Beginning Lingala 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

LGL 1131 Beginning Lingala 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: LGL 1130 with minimum grade of C, or the equivalent.

LGL 2200 Intermediate Lingala 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: LGL 1131 with minimum grade of C, or the equivalent.

LGL 2201 Intermediate Lingala 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: LGL 2200 with minimum grade of C, or the equivalent.

LGL 3410 Advanced Lingala 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: LGL 2201 with minimum grade of C, or the equivalent.

LGL 3411 Advanced Lingala 2 3 Credits
Grading Scheme: Letter Grade
Continuation advanced study of the four skills with attention to more complex structures.
Prerequisite: LGL 3410 with minimum grade of C, or the equivalent.

Polish

PLT 2560 Poland through Movies 4 Credits
Grading Scheme: Letter Grade
Introductory survey of more than one thousand years of Polish history, illustrated on film.

PLT 3520 Polish Cinema 4 Credits
Grading Scheme: Letter Grade
Examination of principal developments and major directors of modern Polish cinema with emphasis on the visual and narrative techniques that distinguish Polish cinema from Hollywood and other national cinemas. Taught in English. (Cross-listed with ENG 4135.)

PLT 3930 Special Topics in Polish Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics in Polish literature, culture and society. Taught in English.

POL 1130 Introduction to Polish Language and Culture 1 5 Credits
Grading Scheme: Letter Grade
A two-semester Polish language sequence that introduces the basics of Polish language and culture.

POL 1131 Introduction to Polish Language and Culture 2 5 Credits
Grading Scheme: Letter Grade
Second in the two-semester sequence. Helps to expand vocabulary, command of Polish grammar, and the ability to speak Polish.
Prerequisite: POL 1130 or placement test.

POL 2220 Intermediate Polish 1 4 Credits
Grading Scheme: Letter Grade
Improve speaking, reading, writing, and listening comprehension skills by reviewing and expanding the language principles introduced in POL 1130 and POL 1131.

POL 2221 Intermediate Polish 2 4 Credits
Grading Scheme: Letter Grade
Improve speaking, reading, writing, and listening comprehension skills by reviewing and building upon the language principles introduced in POL 2220.

Russian

RUS 1130 Introduction to Russian Language and Culture 1 5 Credits
Grading Scheme: Letter Grade
RUS 1130 and its sequel, RUS 1131, offer a comprehensive introduction to Russian, using interactive methods to develop competence in speaking, listening, reading, writing and cultural interaction.

RUS 1131 Introduction to Russian Language and Culture 2 5 Credits
Grading Scheme: Letter Grade
Continuation of introductory language and cultural study.
Prerequisite: RUS 1130 with minimum grade of C or S, or the equivalent.

RUS 2220 Intermediate Russian 1 4 Credits
Grading Scheme: Letter Grade
Intermediate study with exercises in sentence patterns, vocabulary building and oral and written discourse in Russian.
Prerequisite: None

RUS 2340 Russian for Heritage Learners 3 Credits
Grading Scheme: Letter Grade
A practical overview of Russian grammar and writing for those with significant bilingual speaking and listening backgrounds. Devotes special attention to reading, writing and vocabulary development.
Prerequisite: instructor or undergraduate coordinator permission.

RUS 3240 Oral Practice in Russian 3 Credits
Grading Scheme: Letter Grade
Development of advanced speaking and listening skills in conversational Russian.
Prerequisite: None

RUS 3400 Intermediate Russian 2 4 Credits
Grading Scheme: Letter Grade
Continued study with exercises in sentence patterns, vocabulary building and sustained oral and written discourse.
Prerequisite: RUS 2220 or the equivalent.

RUS 4000 Advanced Russian 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills (speaking, listening, reading, and writing) with attention to more complex structures.
Prerequisite: None

RUS 4001 Advanced Russian 2 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills (speaking, listening, reading, and writing) with attention to more complex structures.
Prerequisite: RUS 4000 with a minimum grade of C or S or the equivalent as proven by a placement test.

RUS 4300 Advanced Grammar and Composition 3 Credits
Grading Scheme: Letter Grade
Study of advanced grammar and composition in Russian.
Prerequisite: one 3000-level Russian course or the equivalent.

RUS 4411 Advanced Oral Practice 3 Credits
Grading Scheme: Letter Grade
Continued development of advanced speaking and listening skills based on authentic written, audio and video texts from contemporary Russian culture.
Prerequisite: RUS 3240.

RUS 4501 Russian Studies Research Seminar 3 Credits
Grading Scheme: Letter Grade
Introduces significant trends and ideas in Russian literary, cultural, historical, and critical studies. Develop the ability to understand and produce critical scholarly argument in a variety of formats, including class discussion, formal presentation and a written research project.
Prerequisite: None

RUS 4502 Language and Culture of the Russian Business World 3 Credits
Grading Scheme: Letter Grade
Combines advanced language training, a practical introduction to the language and culture of the contemporary Russian business world, and extensive practice translating and interpreting texts used in business settings. Focuses on issues such as starting companies and joint ventures, advertising, and setting up and conducting official meetings and telephone calls. Basic Russian business ethics are also studied.
Prerequisite: RUW 3101, RUW 4341 or the equivalent, or instructor permission.

RUS 4503 Theory and Practice of Russian-English Translation 1 3 Credits
Grading Scheme: Letter Grade
The first part of a two-part translation series focusing on the theory and practice of conveying word semantics in Russian-English and English-Russian translation.
Prerequisite: RUW 3101, RUW 4341 or instructor permission.

RUS 4504 Theory and Practice of Russian-English Translation 2 3 Credits
Grading Scheme: Letter Grade
The second part of the translation series focusing on the theory and practice of conveying sentence and paragraph semantics in Russian-English and English-Russian translation.
Prerequisite: RUW 3101, RUW 4341 or instructor permission.

RUS 4700 Structure of the Russian Language 3 Credits
Grading Scheme: Letter Grade
Introduction to the phonology, morphology and syntax of contemporary standard Russian from a formal and semantic standpoint. Also includes the development of Russian word stress and a survey of the development of Russian verb tense, aspect and mood.
Prerequisite: one 3000-level Russian course or the equivalent.

RUS 4780 Corrective Phonetics and Intonation 3 Credits
Grading Scheme: Letter Grade
Develops advanced-level phonetic and intonational skills via a variety of genres of authentic texts from Russian culture.
Prerequisite: RUW 3101, RUW 4341 or instructor permission.

RUS 4905 Individual Work in Russian 1-3 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course. Available only by special arrangement.
Prerequisite: RUS 2220 or the equivalent.

RUS 4911 Undergraduate Research in Russian Language 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Russian Language. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Russian Language.

RUS 4930 Special Topics in Russian 3-9 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in Russian studies. New, experimental, or one-time offerings.

RUS 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

RUT 3101 Russian Masterpieces 3 Credits
Grading Scheme: Letter Grade
Introduces the Russian literature of the 19th-21st centuries. Read some of the most influential works by Pushkin, Gogol, Tolstoy, Dostoevsky, Chekhov, Nabokov, Pasternak and Sorokin, thereby gaining essential knowledge of Russian history, culture and the authors personal lives. Readings and discussions in English. (H and N)

Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

RUT 4930 Variable Topics in Russian Studies 1-9 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in Russian studies, taught in English translation.
Prerequisite: one 3000-level Russian course or instructor permission.

RUW 3101 Reading Russian Literature 3 Credits
Grading Scheme: Letter Grade
An in-depth study of the vocabulary, structures, reading strategies and cultural background needed for understanding and interpreting a broad range of Russian prose fiction. (H)
Prerequisite: RUS 3400 or the equivalent.
Attributes: General Education - Humanities

RUW 4301 Russian Drama and Poetry 3-6 Credits
Grading Scheme: Letter Grade
Study of plays and poems by major Russian writers from the 19th and 20th centuries. Readings in Russian.

RUW 4341 Russian Media Culture 3 Credits
Grading Scheme: Letter Grade
An in-depth study of the history and recent trends in the Russian mass media and web-based technology and their impact on culture and society.
Prerequisite: RUS 3400 or RUS 4001 with minimum grade of C.

RUW 4370 Russian Short Prose 3 Credits
Grading Scheme: Letter Grade
Critical study of selected Russian short stories. Readings in Russian. (H)
Attributes: General Education - Humanities

RUW 4630 Reading Eugene Onegin: Pushkin and Nabokov 3 Credits
Grading Scheme: Letter Grade
An in-depth study of one of Russia's most revered literary works, combining close readings of Pushkin's original with analyses of operatic, artistic and cinematic adaptations by Chaikovsky, Nabokov and others. Readings and discussions primarily in Russian.
Prerequisite: RUW 3101 or the equivalent, or instructor permission.

RUW 4911 Undergraduate Research in Russian Studies, Target Language 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

RUW 4932 Selected Readings in Russian 1-3 Credits
Grading Scheme: Letter Grade
Special topic, author, genre or movement in Russian literature. (H)
Prerequisite: one 3000-level course or the equivalent.
Attributes: General Education - Humanities

Swahili

SSW 3303 Swahili Oral Literature 3 Credits
Grading Scheme: Letter Grade
Introduces various genres of Swahili oral literatures and shows their importance, relevance and function within Swahili culture.

SWA 1130 Beginning Swahili 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

SWA 1131 Beginning Swahili 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: SWA 1130 with minimum grade of C, or S, or the equivalent.

SWA 2200 Intermediate Swahili 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: SWA 1131 with minimum grade of C or S, or the equivalent.

SWA 2201 Intermediate Swahili 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: SWA 2200 with minimum grade of C or S, or the equivalent.

SWA 3410 Advanced Swahili 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: SWA 2201 with minimum grade of C, or the equivalent.

SWA 3411 Advanced Swahili 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study of the four skills with attention to more complex structures.
Prerequisite: SWA 3410 with minimum grade of C, or S, or the equivalent.

SWA 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course.
Prerequisite: instructor permission.

SWW 4100 Readings in Swahili 3 Credits
Grading Scheme: Letter Grade

Vietnamese

VTN 1130 Beginning Vietnamese 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

VTN 1131 Beginning Vietnamese 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: VTN 1130 with minimum grade of C or S, or the equivalent.

VTN 2220 Intermediate Vietnamese 1 4 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: VTN 1131 with minimum grade of C or S, or the equivalent.

VTN 2221 Intermediate Vietnamese 2 4 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: VTN 2220 with minimum grade of C or S, or the equivalent.

VTN 2340 Vietnamese for Heritage Learners 1 4 Credits
Grading Scheme: Letter Grade
For those with significant speaking and listening skills, but limited reading and writing skills. Emphasis on developing latter two skills.
Prerequisite: instructor permission.

VTN 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For independent work not offered in another course. Available only by special arrangement.

VTN 4930 Special Topics in Vietnamese Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in Vietnamese studies. Available only by special arrangement.

VTT 3500 Vietnamese Culture 3 Credits
Grading Scheme: Letter Grade
Overview of Vietnamese culture, language and history. Focuses on Vietnamese cultural norms, attitudes, values and culture through an examination of history, religious practices, language, literature, family structures, cuisine, daily life and the arts. (H and N)
Prerequisite: Any Asia-related ASH, CHI, CHT, JPN, JPT, REL, or VTN course.
Attributes: General Education - Humanities, General Education - International

Wolof

WOL 1130 Beginning Wolof 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

WOL 1131 Beginning Wolof 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: WOL 1130 with minimum grade of C, or the equivalent.

WOL 2200 Intermediate Wolof 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: WOL 1131 with minimum grade of C, or the equivalent.

WOL 2201 Intermediate Wolof 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study.
Prerequisite: WOL 2200 with minimum grade of C, or the equivalent.

WOL 3410 Advanced Wolof 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: WOL 2201 with minimum grade of C, or the equivalent.

WOL 3411 Advanced Wolof 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study of the four skills with attention to more complex structures.
Prerequisite: WOL 3410 with minimum grade of C, or the equivalent.

Xhosa

XHO 1130 Beginning Xhosa 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

XHO 1131 Beginning Xhosa 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: XHO 1130 with minimum grade of C, or the equivalent.

XHO 2200 Intermediate Xhosa 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: XHO 1131 with minimum grade of C, or the equivalent

XHO 2201 Intermediate Xhosa 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: XHO 2200 with minimum grade of C, or the equivalent.

XHO 3410 Advanced Xhosa 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: XHO 2201 with minimum grade of C, or the equivalent.

XHO 3411 Advanced Xhosa 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study.
Prerequisite: 3410 with minimum grade of C, or the equivalent.

Yoruba

SSA 3730 Language in African Society 3 Credits
Grading Scheme: Letter Grade
The role of language in the development of African societies. Language and nation building. (S and N)
Attributes: General Education - International, General Education - Social Science

YOR 1130 Beginning Yoruba 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

YOR 1131 Beginning Yoruba 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: YOR 1130 with minimum grade of C or S, or the equivalent.

YOR 2200 Intermediate Yoruba 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: YOR 1131 with minimum grade of C or S, or the equivalent.

YOR 2201 Intermediate Yoruba 2 3 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: YOR 2200 with minimum grade of C or S, or the equivalent.

YOR 3410 Advanced Yoruba 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: YOR 2201 with minimum grade of C, or the equivalent.

YOR 3411 Advanced Yoruba 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study of the four skills with attention to more complex structures.
Prerequisite: YOR 3410 with minimum grade of C, or the equivalent.

YOR 4502 Yoruba Oral Literature 3 Credits
Grading Scheme: Letter Grade
Overview of the genres of Yoruban oral literature, stressing the importance of the spoken word in Yoruban culture and the training of Yoruban verbal artists and their place in Yoruban society.
Prerequisite: YOR 1131 or instructor permission;
Corequisite: YOR 2200, YOR 2201, or instructor permission.

YOR 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course.
Prerequisite: instructor permission.

YOT 3500 Yoruba Diaspora in the New World 3 Credits
Grading Scheme: Letter Grade
Introduction to the scope and importance of Yoruban culture in the New World and its role and significance in the resilience of African cultures in North America, South America and the Caribbean. (WR)
Prerequisite: HUM 2420, HUM 2424, or instructor permission.
Attributes: Satisfies 6000 Words of Writing Requirement

YRW 4130 Readings in Yoruba Literature 3 Credits
Grading Scheme: Letter Grade
Reading skills and the analysis of literature in the original language.
Prerequisite: YOR 3411 or the equivalent.

Latin American Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

LAT 1101 Beginning Latin 2 3 Credits
Grading Scheme: Letter Grade
The second part of the sequence for those with little or no background in Latin.
Prerequisite: LAT 1120 with minimum grade of C or S, or the equivalent.

LAT 1104 Beginning Latin 3 3 Credits
Grading Scheme: Letter Grade
The third part of the sequence for students with little background in high-school Latin.
Prerequisite: LAT 1101 with minimum grade of C or S, or the equivalent.

LAT 1120 Beginning Latin 1 4 Credits
Grading Scheme: Letter Grade
The first of a 3-semester sequence for students with little or no background in Latin. Others enrolling in the course will be required to take it for an S-U grade.

LAT 1130 Accelerated Beginning Latin 1 5 Credits
Grading Scheme: Letter Grade
This course and its sequel, LAT 1131, constitute the basic sequence for development of overall skill in the language. Students are expected students to have little or no background in Latin. Others enrolling in the course will be required to take it for an S-U grade.

LAT 1131 Accelerated Beginning Latin 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the basic sequence for development of overall skill in the language.
Prerequisite: LAT 1130 with minimum grade of C, or S, or the equivalent.

LIT 2000 Introduction to Literature 3 Credits
Grading Scheme: Letter Grade
Examines the important role literature has played in individuals' lives and in society, presenting a range of literary styles and genres, from different countries and historical periods. Special attention paid to development of critical skills of analysis and interpretation. (H)
Prerequisite: ENC 1101
Attributes: General Education - Humanities

LNW 2321 Introduction to Vergil 3 Credits
Grading Scheme: Letter Grade
Readings in Vergil's Eclogues, Georgics and/or the Aeneid, with emphasis on introducing Vergilian style, diction poetic techniques and basic genre differences. Review of Latin grammar and syntax. (H)
Prerequisite: LAT 1104 or LAT 1131 or two years of high school Latin.
Attributes: General Education - Humanities

LNW 2560 Readings in Latin Literature 3 Credits
Grading Scheme: Letter Grade
Examines various aspects of Roman life through readings in Latin literature (with a focus on either special subjects, authors, genres or periods) and a review of Latin grammar. (H)
Prerequisite: LAT 1104, LAT 1131 or two years of high school Latin, or instructor permission.
Attributes: General Education - Humanities

LNW 2630 Latin Love Poetry 3 Credits
Grading Scheme: Letter Grade
Translation and interpretation of selected poems of Catullus and a thorough review of Latin grammar. (H and N)
Prerequisite: LAT 1104 or LAT 1131 or two years of high school Latin, or instructor permission.
Attributes: General Education - Humanities, General Education - International

LNW 3220 The Ancient Novel 3 Credits
Grading Scheme: Letter Grade
Readings from Petronius, Apuleius or the Historia Apollonii Regis Tyri. (H and N)
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.
Attributes: General Education - Humanities, General Education - International

LNW 3310 Roman Drama 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of the comedies of Plautus and Terence or the tragedies of Seneca. (H)
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.
Attributes: General Education - Humanities

LNW 3320 Roman Elegy and Lyric 3 Credits
Grading Scheme: Letter Grade
Selected poems of Catullus, Horace, Tibullus, Propertius or Ovid. (H and N)
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.
Attributes: General Education - Humanities, General Education - International

LNW 3360 Roman Satire 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of the Roman satirists Horace, Persius, Juvenal or Martial. (H and N)
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.
Attributes: General Education - Humanities, General Education - International

LNW 3380 The Roman Historians 3 Credits
Grading Scheme: Letter Grade
Readings in Latin from one of the Roman historians: Sallust, Caesar, Livy or Tacitus. (H and N)
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.
Attributes: General Education - Humanities, General Education - International

LNW 3490 Medieval Latin 3 Credits
Grading Scheme: Letter Grade
Readings from Medieval Latin 350 - 1200 A.D. (H and N)
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.
Attributes: General Education - Humanities, General Education - International

LNW 3644 Cicero 3 Credits
Grading Scheme: Letter Grade
Essays, speeches and letters of Cicero. (H and N)
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.
Attributes: General Education - Humanities, General Education - International

LNW 3660 Vergil and Roman Epic 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of selections from Vergil's Aeneid in the light of his epic techniques and the spirit of the Augustan Age. (H and N)
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.
Attributes: General Education - Humanities, General Education - International

LNW 3930 Studies in Latin Literature 3 Credits
Grading Scheme: Letter Grade
A rotating topics course providing in-depth study of a particular author (e.g., Suetonius), genre (e.g., didactic poetry) or period (e.g., The Silver Age).
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.

LNW 4905 Special Study in Latin 1-4 Credits
Grading Scheme: Letter Grade
Readings, conferences and reports.
Prerequisite: LAT 1104, LAT 1131, LAT 2200 or the equivalent.

LNW 4911 Undergraduate Research in Latin Language and Literature 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

Lingala | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

LGL 1130 Beginning Lingala 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

LGL 1131 Beginning Lingala 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: LGL 1130 with minimum grade of C, or the equivalent.

LGL 2200 Intermediate Lingala 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: LGL 1131 with minimum grade of C, or the equivalent.

LGL 2201 Intermediate Lingala 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: LGL 2200 with minimum grade of C, or the equivalent.

LGL 3410 Advanced Lingala 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: LGL 2201 with minimum grade of C, or the equivalent.

LGL 3411 Advanced Lingala 2 3 Credits
Grading Scheme: Letter Grade
Continuation advanced study of the four skills with attention to more complex structures.
Prerequisite: LGL 3410 with minimum grade of C, or the equivalent.

Linguistics

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

LIN 2000 Language: Humanities Perspective 3 Credits
Grading Scheme: Letter Grade
Language in use in areas of general interest to the humanities, including language, dialect and accent, language endangerment and language change. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

LIN 2614 Language in the USA 3 Credits
Grading Scheme: Letter Grade
Focuses on linguistic diversity in the US, touching on American dialects, multilingualism in America, Native American languages, and sociolinguistic variation. Dialect analysis tools will be learned and applied in class projects.
Attributes: General Education - Diversity, General Education - Social Science

LIN 2704 Language, Thought and Action: Language as a Cognitive System 3 Credits
Grading Scheme: Letter Grade
Studies language from the perspective of cognitive sciences. (S)
Attributes: General Education - Social Science

LIN 3010 Introduction to Linguistics 3 Credits
Grading Scheme: Letter Grade
Core areas of linguistics research: phonology, morphology, syntax, semantics, sociolinguistics and language acquisition. (H)
Attributes: General Education - Humanities

LIN 3201 The Sounds of Human Language 3 Credits
Grading Scheme: Letter Grade
Emphasizes the sounds employed in languages of the world for a comprehensive understanding of the mechanism underlying the production of speech sounds and the ability to recognize, distinguish and phonetically transcribe speech sounds from an unfamiliar language. Includes investigation of the patterning and functions of sounds in languages of the world and application of the methods of analyzing a language sound system.
Prerequisite: LIN 3010.

LIN 3460 The Structure of Human Language 3 Credits
Grading Scheme: Letter Grade
Investigates word formation processes (morphology) and sentence structure (syntax) in the world's languages. Focuses on vocabulary and tools used to discover and describe patterns in human language. Coursework emphasizes problem solving and working with a wide range of language data. (WR)
Prerequisite: LIN 3010.
Attributes: Satisfies 6000 Words of Writing Requirement

LIN 3677 World Englishes 3 Credits
Grading Scheme: Letter Grade
Investigates history and spread of English; varieties of English spoken around the world as a first, second, or foreign language, their characteristics at various linguistic levels (sounds, morphemes, syntax, lexicon), their use and status in different countries; issues of policy, teaching, and testing; and models categorizing World Englishes.
Prerequisite: LIN 3010.

LIN 3680 Modern English Structure 3 Credits
Grading Scheme: Letter Grade
Studies the grammar of current English from the viewpoint of modern linguistics.
Prerequisite: LIN 3010.

LIN 4205 Fundamentals of Phonetics 3 Credits
Grading Scheme: Letter Grade
Studies phonetics, including anatomy and physiology of the speech production apparatus, transcription and production of some of the world's sounds, basic acoustics, computerized methods for speech analysis, acoustic characteristics of sounds, stress and intonation and basic issues in speech perception. May be taught in conjunction with LIN 6208, Phonetics and Linguists, a graduate course.
Prerequisite: LIN 3010 and LIN 3201.

LIN 4320 Introduction to Phonology 3 Credits
Grading Scheme: Letter Grade
Phonemics, syllabic and prosodic phenomena, neutralization, distinctive features, morphophonemic alternation, phonological systems and processes. Terminology and notational conventions of generative phonology and optimality theory, with problems from a variety of languages. May be taught in conjunction with a graduate course that bears the same title.
Prerequisite: LIN 3010 and LIN 3201.

LIN 4400 Introduction to Morphology 3 Credits
Grading Scheme: Letter Grade
Theory of word structure, derivation and inflection, with examples and problems from a variety of languages. Includes the position of morphology in grammar, the relationship between morphology and grammar, typology, cultural and conceptual categories, and predictions of various theories of morphology. May be taught in conjunction with a graduate class that bears the same title.
Prerequisite: LIN 3010 and LIN 3460.

LIN 4500 Introduction to Syntax 3 Credits
Grading Scheme: Letter Grade
Generative-transformational model of syntax: phrase structure, the lexicon, case and agreement, movement, locality relations and anaphora; emphasizes problem solving and linguistic argumentation. May be taught in conjunction with a graduate course that bears the same title.
Prerequisite: LIN 3010 and LIN 3460.

LIN 4600 Survey of Sociolinguistics 3 Credits
Grading Scheme: Letter Grade
Major approaches to language in context: ethnolinguistic, sociological and linguistic. Applications of socio-linguistics to applied linguistics, social sciences and education. Collection and analysis of data. (N and S)
Prerequisite: LIN 3010.
Attributes: General Education - International, General Education - Social Science

LIN 4656 Gender and Language 3 Credits
Grading Scheme: Letter Grade
Language in the construction of sex and gender roles within a culture. Grammaticalization of gender in languages of the world. Interaction of grammatical structures with gender stereotypes. Consequences of these interactions on grammatical structures. (S and D)
Prerequisite: LIN 3010.
Attributes: General Education - Diversity, General Education - Social Science

LIN 4701 Psycholinguistics 3 Credits
Grading Scheme: Letter Grade
Basic issues in psycholinguistics, including linguistic principles and psychological mechanisms in language production, comprehension, acquisition and development.
Prerequisite: LIN 2704 or LIN 3010 or EXP 3604 or SPA 4004.

LIN 4702C Methods in Psycholinguistics 3 Credits
Grading Scheme: Letter Grade
Provides hands-on experience designing, running and analyzing data from various types of psycholinguistic experiments.
Prerequisite: LIN 4701 and STA 2023, or the equivalent.

LIN 4721 Second Language Acquisition 3 Credits
Grading Scheme: Letter Grade
The neurolinguistic, psycholinguistic and sociolinguistic bases of second language acquisition in childhood and adulthood.
Prerequisite: LIN 3010.

LIN 4784 Writing Systems 3 Credits
Grading Scheme: Letter Grade
Introduces origin and typology of writing systems. Evaluates cognitive claims regarding second language reading acquisition and script type. Considers basic problems in the interface of phonology, script and natural language processing.
Prerequisite: LIN 3010.

LIN 4790 Brain and Language 3 Credits
Grading Scheme: Letter Grade
Introduces critical issues and terminology in brain and language research. Topics include brain imaging techniques, categorization, auditory perception, modularity, connectionism, semantic representation, laterality, innateness and plasticity.
Prerequisite: LIN 3010.

LIN 4803 Introduction to Semantics 3 Credits
Grading Scheme: Letter Grade
Studies truth-conditional semantics as opposed to pragmatics, including basic notions in classical logic, since logic is assumed in truth-conditional semantics.
Prerequisite: LIN 3010.

LIN 4820 Meaning and Use 3 Credits
Grading Scheme: Letter Grade
Introduces pragmatics, the study of utterance meanings determined by situated uses of language and linguistic communication as a social activity. Explores role of linguistic and extra-linguistic contexts in the production and interpretation of utterances. Topics include deictic and anaphoric expressions, sense and reference, presupposition, implicature, speech acts and coherence.
Prerequisite: LIN 3010.

LIN 4850 Formal Semantics 3 Credits
Grading Scheme: Letter Grade
Advanced course on semantics within the Montague approach.
Prerequisite: LIN 4803, PHI 2100 or PHI 3130.

LIN 4905 Individual Study in Linguistics 3 Credits
Grading Scheme: Letter Grade
Individual study for linguistics majors.

LIN 4911 Undergraduate Research in Linguistics 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in linguistics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in linguistics.

LIN 4930 Special Topics in Linguistics 3-9 Credits
Grading Scheme: Letter Grade
Variable content offered by faculty members in their areas of specialization. Some offerings may involve extensive writing while others will deal with quantitative analysis or field methodology. (H and N)
Prerequisite: LIN 3010.
Attributes: General Education - Humanities, General Education - International

LIN 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

LIN 4970 Senior Thesis 3 Credits
Grading Scheme: Letter Grade
Accommodation for senior thesis.

TSL 3360 Introduction to Teaching English as a Second Language 3 Credits
Grading Scheme: Letter Grade
Historical overview of trends in language teaching technology, ranging from communicative approaches to techniques for teaching listening, speaking, reading and writing. Trains students to instruct small groups and individuals in English language skills.

TSL 3378 Pronunciation for Teaching English as a Second Language 3 Credits
Grading Scheme: Letter Grade
Overview of sound system of North American English and its integration with listening, morphology and spelling. Pronunciation pedagogy based on current theory and practice, as well as diagnostic tools and assessment measures.
Prerequisite: LIN 3010.

TSL 4911 Undergraduate Research in Teaching English as a Second Language 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Teaching English as a Second Language. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Teaching English as a Second Language.

TSL 4940 Teaching English as a Second Language Internship 3 Credits
Grading Scheme: Letter Grade
Capstone course available only to undergraduates in TESL certificate program. In cooperation with the English Language Institute, teaching interns observe classes, shadow teachers, review materials and, in teams, create and implement special noncredit short-term courses for English language learners.
Prerequisite: LIN 3010, LIN 3680, LIN 4721, TSL 3360 or TSL 3378.

Management

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

BUL 4310 The Legal Environment of Business 4 Credits
Grading Scheme: Letter Grade
Introduces the legal environment of business and organizations. Emphasizes public and regulatory law and on the social, political and ethical aspects of legal issues in business. Subjects include the nature of law and legal process; administrative law of contracts and torts; business and the constitution; statutory and common law; contracts and torts; business organizations and securities, antitrust, consumer protection and employment law.
Prerequisite: ECO 2023 and sophomore or junior standing.

BUL 4443 Ethics in Global Business 2 Credits
Grading Scheme: Letter Grade
Explores issues involving the role of individuals, citizens, business, and government in promoting profitable but responsible commerce and socially beneficial business activity. (WR)
Attributes: Satisfies 4000 Words of Writing Requirement

BUL 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
Requires written report.
Prerequisite: (BUL 4310 and senior standing) or instructor permission.

BUL 4930 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Variable content provides an opportunity for study in-depth of topics not offered in other courses and of topics of special current significance.
Prerequisite: department permission.

BUL 4956 International Studies in Business Law 1-4 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: admission to an approved study abroad program and department permission.

ENT 3003 Principles of Entrepreneurship 4 Credits
Grading Scheme: Letter Grade
Practical, hands-on understanding of the stages of entrepreneurial process. Focus on the decision-making process within a start-up company.

ENT 3503 Introduction to Social Entrepreneurship 2 Credits
Grading Scheme: Letter Grade
Social entrepreneurship involves using the skills and strategies of business to innovatively and sustainably solve social, environmental, and economic problems. The ventures created by social entrepreneurs can be non-profits, for-profits, or innovative hybrid models. This course aims to educate, inspire, and empower students to become changemakers.

ENT 4015 The Venture Accelerator 2 Credits
Grading Scheme: Letter Grade
A team-based, experiential program focused on the start-up process; includes lectures, readings, discussions, workshops, and a team-based project. As deliverables, each team must deliver weekly lessons-learned presentations, complete business canvas updates, and prepare a final presentation.
Prerequisite: ENT 3003 or EGN 4641.

ENT 4114 New Venture Planning 2 Credits
Grading Scheme: Letter Grade
A study of the key elements of new venture planning to achieve an understanding of the process involved in the evaluation of new venture feasibility and the development of business plans for new venture.

ENT 4614 Creativity and Innovation in the Business Environment 2 Credits
Grading Scheme: Letter Grade
Examination of the creativity process and the organizational environment of several organizations recognized as creative and innovative. Course is organized around class discussions, workshops, projects, both individual and team-based, cases, a field trip and visiting experts. The course is very interactive and is based in experiential learning.
Prerequisite: ENT 3003 or GEB 3113

ENT 4704 International Entrepreneurship 2 Credits
Grading Scheme: Letter Grade
Examination of the key elements of the international entrepreneurial venture. The learning perspective is that of the global entrepreneur - one whose business is born global and who may capitalize upon resources from anywhere.

ENT 4934 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Special topics in entrepreneurship-related fields of study.

ENT 4940 Entrepreneurship Practicum 1 Credit
Grading Scheme: Letter Grade
Provides a forum for completing a portfolio of supervised experiential learning activities related to entrepreneurship and the entrepreneurial mindset. Through these activities, students enhance their mastery of such entrepreneurial competencies as opportunity recognition, opportunity assessment, resource leveraging, bootstrapping, risk mitigation, value innovation, and guerrilla behavior.
Prerequisite: admission to the entrepreneurship minor and senior standing.

MAN 3025 Principles of Management 4 Credits
Grading Scheme: Letter Grade
Fundamentals of management underlying the solution of problems of organization and operation of business enterprises. (S)
Prerequisite: ECO 2013, ECO 2023 or AEB 2014, and sophomore standing.
Attributes: General Education - Social Science

MAN 3240 Organizations: Structure and Behavior 4 Credits
Grading Scheme: Letter Grade
Individual group and organizational issues that affect and shape businesses. Topics include individual differences, motivation, communication, decision making, leadership, power, organizational structure and design and change.
Prerequisite: MAN 3025 with a minimum grade of C; business administration and accounting majors only.

MAN 4301 Human Resource Management 4 Credits
Grading Scheme: Letter Grade
Major human resource management functional areas. Topics include organizational employment planning, employment regulation, job analysis, performance assessment, recruitment and selection, training and development, employee/labor relations and compensation.
Prerequisite: MAN 3025 with a minimum grade of C and MAN 3240.

MAN 4720 Business Policy and Strategy 2 Credits
Grading Scheme: Letter Grade
Integrates prior business courses through study and discussion of real organizational situations, including ethical and global issues, the influence of the external environment and the effect of demographic diversity on organizations.
Prerequisite: completion of junior and senior business core and senior standing; B.A.B.A. students only.

MAN 4723 Strategic Management 4 Credits
Grading Scheme: Letter Grade
Evaluation of the key functions of organizations and integration of these functions to achieve competitive advantages. Topics include strategic formulation, implementation and evaluation.
Prerequisite: MAN 3025 with a minimum grade of C, MAR 3023 and FIN 3403.

MAN 4905 Individual Work in Management 1-5 Credits
Grading Scheme: Letter Grade
Written report is required.
Prerequisite: senior standing and department permission.

MAN 4930 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Variable content provides an opportunity for study in-depth of topics not offered in other courses and of topics of special current significance.

MAN 4956 International Studies in Management 1-4 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: admission to an approved study abroad program and department permission.

MAN 4970 Honors Thesis 1 Credit
Grading Scheme: S/U
A thesis is required for magna cum laude or summa cum laude designations. To qualify, students normally have completed 90 semester credits of coursework (exceptions may be made) and have at least a 3.6 GPA at the time they enroll. The thesis will be reviewed by at least one faculty member chosen by the honors coordinator from the student's department. (S-U)
Prerequisite: 90 credits earned and 3.6 UF GPA.

Marketing

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

MAR 2290 Retail Management Seminar 1 Credit
Grading Scheme: S/U
Weekly lectures feature a different executive making a presentation in his or her area of expertise. Major issues in retailing are addressed. Discussions of career opportunities and career paths in retailing. (S-U)

MAR 2401 Sales Seminar 1 Credit
Grading Scheme: S/U
Overview of selling and managing the sales function to achieve the growth targets of a business; highlights the importance of the sales function in a firm and how it contributes to the achievement of the firm?s strategic objectives.

MAR 2951 Special Topics 1-3 Credits
Grading Scheme: S/U
Projects related to business in marketing as approved by the college. (S-U)

MAR 3023 Principles of Marketing 4 Credits
Grading Scheme: Letter Grade
Functions, institutions and methods of marketing goods and services. Relates marketing to the larger economic structure and emphasizes the importance of the consumer. (S)
Prerequisite: ECO 2013, ECO 2023 or AEB 2014, and sophomore standing.
Attributes: General Education - Social Science

MAR 3231 Introduction to Retailing Systems and Management 4 Credits
Grading Scheme: Letter Grade
Functions, institutions and activities of retailing goods and services.
Prerequisite: ACG 2021 and MAR 3023.

MAR 3400 Professional Selling 4 Credits
Grading Scheme: Letter Grade
Basic survey in professional selling. Teaches the importance of the selling role and provides basic professional selling skills; begins the preparation for a future role in sales or sales management.
Prerequisite: MAR 3023.

MAR 3503 Consumer Behavior 4 Credits
Grading Scheme: Letter Grade
Emphasizes both descriptive and conceptual analysis of consumer behavior with a focus on theory and research essential to an understanding of individual choice behavior. Makes intensive use of contributions from the social and behavioral science literatures.
Prerequisite: MAR 3023 with a minimum grade of C and STA 2023.

MAR 4156 International Marketing 4 Credits
Grading Scheme: Letter Grade
Analyzes economic, social and cultural issues affecting marketing management in the international environment.
Prerequisite: ACG 2021 and MAR 3023 with minimum grades of C.

MAR 4232 Retail Consulting 4 Credits
Grading Scheme: Letter Grade
Provides opportunities for working on real retail/marketing problems with clients; gain practical insights into actual retail business operations while performing problem identification, exploration for opportunities, data collection and strategy development. Teams of 4-5 students work with real clients on retail issues and design and execute all phases of the project.
Prerequisite: MAR 3023 with a minimum grade of C and instructor permission.

MAR 4403 Sales Management 4 Credits
Grading Scheme: Letter Grade
Principles, methods and problems relating to the management of a sales force. Selection and training, organization, compensation and stimulation, and control.
Prerequisite: ACG 2021 and MAR 3023 with minimum grades of C.

MAR 4613 Marketing Research 4 Credits
Grading Scheme: Letter Grade
Analyzes the role of marketing research in providing information for marketing decisions. Research methods and techniques involved in the development and use of primary and secondary data are emphasized. Topics include survey design, experimental design, data collection (e.g., questionnaires), data analysis, measurement and sampling.
Prerequisite: MAR 3023 with a minimum grade of C and QMB 3250.

MAR 4803 Marketing Management 4 Credits
Grading Scheme: Letter Grade
Development and analysis of overall marketing strategies involving product and brand development, channels of distribution, pricing and promotion with consideration of marketplace conditions and related factors affecting implementation and execution.
Prerequisite: MAR 3023 with a minimum grade of C, MAR 3503 and one other marketing course.

MAR 4804 Marketing Strategy 4 Credits
Grading Scheme: Letter Grade
Emphasizes analysis, planning, and implementation of marketing strategies. Examines insights into the creative processes involved in applying marketing concepts and knowledge to the development and implementation of strategy. Features a comprehensive marketing simulation exercise and well as detailed analysis of several companies and their marketing strategies.
Prerequisite: MAR 3023

MAR 4832 New Product Development and Management 4 Credits
Grading Scheme: Letter Grade
A structured way of thinking about product development. Students are provided with an up-to-date toolbox for developing and managing new products. Includes hands-on individual assignments and a group project to simulate the development process of a new product or service.
Prerequisite: MAR 3023 with a minimum grade of C.

MAR 4905 Independent Study 1-4 Credits
Grading Scheme: Letter Grade
Opportunity for in-depth study not offered in other courses.
Prerequisite: senior standing, previous work in the area of research and department permission.

MAR 4933 Special Topics 4 Credits
Grading Scheme: Letter Grade
Selected rotating topics in marketing management, research and theory.
Prerequisite: department permission.

MAR 4945 Retail Management Internship 1-3 Credits
Grading Scheme: S/U
A 10-12 week entry-level retail management internship that requires several papers and reports. Opportunities are available in stores, corporate headquarters and buying offices. Management training experiences in buying, store management, merchandising and customer service. (S-U)
Prerequisite: MAR 3023 is recommended before registering for this internship.

MAR 4956 International Studies in Marketing 1-4 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: admission to an approved study abroad program and department permission.

MAR 4970 Honors Thesis 1 Credit
Grading Scheme: S/U
A thesis is required for magna cum laude or summa cum laude designation. To qualify, students normally have completed 90 semester credits of coursework (exceptions may be made) and have at least a 3.6 GPA at the time they enroll. The thesis will be reviewed by at least one faculty member chosen by the honors coordinator from the student's department. (S-U)
Prerequisite: 90 credits earned and a 3.6 UF GPA.

Mass Communication

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

JOU 4004 History of Journalism 3 Credits
Grading Scheme: Letter Grade
Origin, development and potentiality of print and broadcast media. Analyzes the evolution of standards, policies, methods and controls.

MMC 1009 Introduction to Media and Communications 1 Credit
Grading Scheme: Letter Grade
Introduces the tools, resources and academic and extra-curricular activities offered by the College of Journalism and Communications. Includes lessons on the history and organization of the college and academic and career preparation.
Prerequisite: 1JM or exploratory major, 2JM, or 3JM classification, or instructor approval.

MMC 2121 Writing Fundamentals for Communicators 3 Credits
Grading Scheme: Letter Grade
One-third of the course is to ensure students have sufficient skill in grammar and punctuation to write with clarity. In two-thirds of the course, students put principles of good writing into practice with short writing assignments that have real-world applications.

MMC 3030 Personal Branding for Communicators 1 Credit
Grading Scheme: Letter Grade
Professional development course that stresses how to communicate and connect as professionals. Emphasizes mastery of writing, speaking, presentation and employment-seeking skills, working with media, handling media interviews and using social media to establish a professional identity.
Prerequisite: 3JM designation.

MMC 3203 Ethics and Problems in Mass Communications 3 Credits
Grading Scheme: Letter Grade
A cross-disciplinary introduction to ethics-relevant situations faced by media professionals. Topics include professional standards of conduct, audience representation and engagement and issues associated with the production, presentation and delivery of messages that reflect the best interests of audiences, clients and stakeholders.
Prerequisite: 2JM designation and ADV 3008, JOU 1001, PUR 3000 or RTV 3001 with minimum grade of C.

MMC 3254 Media Entrepreneurship 1 Credit
Grading Scheme: Letter Grade
Introduces media entrepreneurship with a focus on how digital technologies are transforming industries. Students work in teams to develop new digital media businesses. Develop and pitch ideas, explore market analysis, develop business and financial plans and study social media strategies.
Prerequisite: sophomore standing.

MMC 3420 Consumer and Audience Analytics 3 Credits
Grading Scheme: Letter Grade
Provides practical analytical skill-sets, benefiting those who plan careers in analytics/research, social media, media business, advertising/marketing and public relations.
Prerequisite: Junior standing.

VIC 3001 Sight, Sound and Motion 4 Credits
Grading Scheme: Letter Grade
Visual literacy is a prerequisite for success in most areas of mass communication. Teaches fundamentals of design across print, web and multimedia platforms. Also emphasizes how visual forms convey messages to readers.
Prerequisite: sophomore standing.

Materials Science and Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

EGN 1935 Special Topics in Freshman Engineering 1-3 Credits
Grading Scheme: Letter Grade
Laboratory, lectures or conferences cover selected topics in engineering.

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

EGS 1005 Prep for Success 1-4 Credits
Grading Scheme: S/U
Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)
Prerequisite: EG student.

EGS 1006 Introduction to Engineering 1 Credit
Grading Scheme: Letter Grade
Introduces the 11 departments that offer undergraduate degrees at UF. Students break into groups of 20, rotating weekly through each department. During these visits, students participate in hands-on experiments to help them make informed decisions about career alternatives.

EGS 1670 Engineering Innovations for the 21st Century 2 Credits
Grading Scheme: Letter Grade
Students examine recent patents in engineering in order to learn the latest developments that will be used for components in the future. Students learn to analyze the presentation of a patent to determine usefulness of the patent, to understand the applicability of the courses taken in engineering to the development of the patent and to gain skills in distinguishing well-written patents from poorly written patents.

EMA 1004 Materials Impact on Society 3 Credits
Grading Scheme: Letter Grade
Discovery and development of specific classes of materials are considered from the perspective of having dramatically altered the course of human history and societies. Materials are presented in historical and technical contexts and considered in terms of their political, financial, health and technology impacts.

EMA 3000L Sophomore Materials Laboratory 1 Credit
Grading Scheme: Letter Grade
Conceptual perspective of the origin of materials behavior and the interrelationships of the materials tetrahedron: structure/property/performance/processing. Conduct experiments on the materials tetrahedron.
Corequisite: EMA 3010.

EMA 3010 Materials 3 Credits
Grading Scheme: Letter Grade
Conceptual perspective for origin of materials behavior and the interrelationships of structure/property/performance. Materials selection and use of familiar material (metals, ceramics, polymers, electronic materials and composites) in electronics and structural and other engineering applications.
Prerequisite: CHM 2045.

EMA 3011 Fundamental Principles of Materials 3 Credits
Grading Scheme: Letter Grade
Covers the fundamental principles of structure, reactivity and energies describing materials systems, directly relating individual principles to specific materials properties or functions.
Prerequisite: CHM 2046 or CHM 2096.

EMA 3013C Materials Laboratory 2 2 Credits
Grading Scheme: Letter Grade
General undergraduate materials laboratory. (WR)
Prerequisite: EMA 3080C.
Attributes: Satisfies 2000 Words of Writing Requirement

EMA 3050 Introduction to Inorganic Materials 3 Credits
Grading Scheme: Letter Grade
Uses, structure, processing and properties of inorganic materials, including metals, alloys and ceramics. Scientific principles are introduced through discussion of developed inorganic materials for high technology applications.
Prerequisite: EMA 3010.

EMA 3066 Introduction to Organic Materials 3 Credits
Grading Scheme: Letter Grade
Uses, structure, processing and properties of organic materials, including polymers, biomacromolecules and small molecule organic materials. Scientific principles are introduced through discussion of developed organic materials for high technology applications.
Prerequisite: EMA 3010 and (EMA 3011 or CHM 2200 or CHM 2210).

EMA 3080C Materials Laboratory 1 2 Credits
Grading Scheme: Letter Grade
First part of the general undergraduate materials laboratory. (WR)
Prerequisite: EMA 3010 and EMA 3800.
Attributes: Satisfies 4000 Words of Writing Requirement

EMA 3413 Electronic Properties of Materials 3 Credits
Grading Scheme: Letter Grade
Atomistic and quantum-mechanical description of the electrical, optical, magnetic and thermal properties of materials. Deals with metals, alloys, semiconductors, polymers, dielectrics and amorphous materials with special emphasis given to high technology applications of electronic materials.
Prerequisite: EMA 3010.

EMA 3513C Analysis of the Structure of Materials 4 Credits
Grading Scheme: Letter Grade
Laboratory fundamentals of crystallography, x-ray and electron diffraction, scanning and transmission electron microscopy, surface analysis and microprobe techniques.
Prerequisite: EMA 3010.

EMA 3800 Error Analyses and Optimization Methodologies in Materials Research 3 Credits
Grading Scheme: Letter Grade
Statistical approach for materials research, basic and relevant statistical concepts, error analyses, factorial matrices, reducing the variance, nested designs and sampling plans, mixture designs, optimization technology, response surface method and Taguchi.
Corequisite: EMA 3010.

EMA 4020L Metallurgy Laboratory 1 Credit
Grading Scheme: Letter Grade
Concepts, skills, and techniques required for an understanding of metals and metallurgy processing.
Prerequisite: EMA 3050;
Corequisite: EMA 4120.

EMA 4041L Advanced Ceramics Laboratory 1 1 Credit
Grading Scheme: Letter Grade
Forming, drying, firing and testing of traditional ceramics.
Corequisite: EMA 4645.

EMA 4061 Biomaterials: Structure and Properties 3 Credits
Grading Scheme: Letter Grade
Materials commonly used for biomedical application, such as their properties from a biocompatibility or medical device perspective. In addition, materials interactions with biological systems are examined from the molecular (e.g., protein), cellular, tissue and systemic (whole body) perspective. This is the foundation for the second biomaterials class, which applies these principles toward the application of biomaterials in medical implants, prostheses and devices, along with the regulatory issues associated with biomaterials development.
Corequisite: EMA 3066.

EMA 4061L Biomaterials Laboratory 1 Credit
Grading Scheme: Letter Grade
Hands-on laboratory experience in the processing and characterization of biomaterials for use in medical applications.
Corequisite: EMA 4061.

EMA 4062 Biopolymers: Manufacture, Stability and Biocompatibility 3 Credits
Grading Scheme: Letter Grade
Polymer manufacturing processes and biochemical/biophysical behavior are considered from the perspective of achieving those properties needed for the engineering of polymeric implants and devices. Unique economic, ethical and regulatory issues are also presented.
Prerequisite: EMA 3066.

EMA 4120 Physical Metallurgy 1 3 Credits
Grading Scheme: Letter Grade
In-depth discussion of fundamentals of physical metallurgy and principles of microstructure evolution.
Prerequisite: EMA 3050.

EMA 4121 Interfacial Engineering 3 Credits
Grading Scheme: Letter Grade
Correlation of properties, structural and mechanical history, thermal history and service behavior of various interfaces.
Prerequisite: EMA 3050 and EMA 3066 and EMA 3413.

EMA 4125 Transport Phenomena in Materials Processing 3 Credits
Grading Scheme: Letter Grade
Science and application of momentum, heat and mass transport in materials and materials processing.
Prerequisite: EMA 3010 and MAP 2302.

EMA 4144 Physical Ceramics 1 3 Credits
Grading Scheme: Letter Grade
Structure of complex ceramic compounds and glasses. Influence of structural imperfections and stoichiometry on physical characteristics, surface and interfacial phenomena, diffusion and phase transformations in ceramic systems.
Prerequisite: EMA 3050.

EMA 4145 Physical Ceramics 2 3 Credits
Grading Scheme: Letter Grade
Influence of ceramic microstructure on processing. Chemical bonds, surface phenomena, forming energetics, drying and firing kinetics. Diffusion, nucleation, crystal growth, solid-solid and solid-liquid reactions.
Prerequisite: EMA 3050.

EMA 4161 Physical Properties of Polymers 3 Credits
Grading Scheme: Letter Grade
Molecular structure and the physical property relationships for polymers: viscoelastic behavior, the glass transition, thermomechanical and rheological properties, the crystalline and amorphous molecular solid state. Correlation of properties with design engineering of polymer applications. Laboratory section included.
Prerequisite: EMA 3066 and EMA 3513C.

EMA 4161L Polymers Laboratory 1 Credit
Grading Scheme: Letter Grade
Concepts, skills, and techniques required for an understanding of polmer and polymer composite processing.
Corequisite: EMA 4161.

EMA 4223 Mechanical Behavior of Materials 3 Credits
Grading Scheme: Letter Grade
Plastic deformation and fracture of metals and alloys, ceramics and polymers.
Prerequisite: EGM 3520.

EMA 4224 Physical Metallurgy 2 3 Credits
Grading Scheme: Letter Grade
In-depth discussion of fundamentals of alloy design, mechanical properties and failure mechanisms.
Prerequisite: EMA 4120 and EMA 4223.

EMA 4314 Energetics and Kinetics in Materials Science 3 Credits
Grading Scheme: Letter Grade
Foundations of energetics and kinetic theory with applications to processes in materials science.
Prerequisite: EMA 3010.

EMA 4324 Stability of Materials 3 Credits
Grading Scheme: Letter Grade
Mechanisms, energetics and kinetics of corrosion and degradation of engineering materials. Economic solutions to degradation problems based upon design and materials selection.
Prerequisite: EMA 4314.

EMA 4414L Electronic Materials Laboratory 1 Credit
Grading Scheme: Letter Grade
Hands-on experience for those specializing in electronic materials. Laboratory topics include characterization of optical and electronic properties of semiconductor materials, electronic devices characterization and semiconductor processing.
Corequisite: EMA 4614.

EMA 4462 Polymer Characterization 3 Credits
Grading Scheme: Letter Grade
Use of a broad variety of spectroscopic and other scattering phenomena in polymer research.
Prerequisite: EMA 3066 or equivalent.

EMA 4614 Production of Electronic Materials 3 Credits
Grading Scheme: Letter Grade
Production of materials for use in solid state electronic devices; nucleation and growth kinetics, solidification of single phase alloys, segregation, dynamics of crystal growth, selection of materials and growth techniques, characterization.
Prerequisite: EMA 3413.

EMA 4615 Compound Semiconductor Materials 3 Credits
Grading Scheme: Letter Grade
Physical properties of technologically important compound semiconductor materials. Epitaxial growth and practical application of compound semiconductor heterostructures.
Prerequisite: EEE 3396C.

EMA 4623 Process Metallurgy 3 Credits
Grading Scheme: Letter Grade
Engineering aspects of mineral processing, including unit operations and flow sheets. Science and technology of metal extraction with applications to specific ferrous and non-ferrous metals.
Corequisite: EMA 4120.

EMA 4645 Processing of Ceramic Materials 3 Credits
Grading Scheme: Letter Grade
Introduces the technology and science of processing ceramic materials, including traditional clay-based ceramics, modern technical ceramics and glasses. Topics include the nature of fine particles, forming methods and consolidation by heat.
Prerequisite: EMA 3050.

EMA 4666 Polymer Processing 3 Credits
Grading Scheme: Letter Grade
Major processing methods for polymers and polymeric composites as related to the rheological behavior of these systems. Synthesis of polymers via industrial processes.
Prerequisite: EMA 3066.

EMA 4714 Materials Selection and Failure Analysis 3 Credits
Grading Scheme: Letter Grade
Philosophy and practice of engineering selection of materials. Case studies in product liability and failure analysis.
Prerequisite: EMA 4223 and EMA 4324.

EMA 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
Selected problems or projects in the student's major field of engineering study.

EMA 4913 Research in Materials Science and Engineering 1 1 Credit
Grading Scheme: Letter Grade
Short research problems in materials science and engineering, usually including a final thesis.

EMA 4914 Research in Materials Science and Engineering 2 3 Credits
Grading Scheme: Letter Grade
Continuation of EMA 4913: short research problems in materials science and engineering, usually including a final thesis.

EMA 4915 Integrated Product and Process Design Program 1 3 Credits
Grading Scheme: Letter Grade
First part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.

EMA 4916 Integrated Product and Process Design Program 2 3 Credits
Grading Scheme: Letter Grade
Second part of the integrated product and process design sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget.

EMA 4935 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Laboratory, lectures or conferences covering selected topics in materials science and engineering.

EMA 4949 Co-Op Work Experience 1 Credit
Grading Scheme: S/U
Practical engineering work under industrial supervision, as set forth in the Herbert Wertheim College of Engineering regulations. (S-U)
Prerequisite: one-term industrial employment, including extra work according to a pre-approved outline.

Mathematics

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

About Precalculus and Calculus

A student can receive, at most:

- Four credits for MAC 1147 and MAC 1140
- Four credits for MAC 1147 and MAC 1114
- Five credits for MAC 1140 and MAC 1114
- Five credits for MAC 1147, MAC 1140, and MAC 1114
- If both MAC 2233 and MAC 2311 (or MAC 3472) are taken, credit will be given only for MAC 2311 (or MAC 3472).

Courses

MAA 4102 Introduction to Advanced Calculus for Engineers and Physical Scientists 1 3 Credits
Grading Scheme: Letter Grade
Theory of real numbers, functions of one variable, sequences, limits, continuity and differentiation; continuity and differentiability of functions of several variables. MAA 4102 is not recommended for those who plan to do graduate work in mathematics; these students should take MAA 4211. Credit will be given for, at most, one of MAA 4102, MAA 4211 and MAA 5104.
Prerequisite: MAC 2313 or MAC 3474, and MAS 4105 or MAS 3114, both with minimum grades of C.

MAA 4103 Introduction to Advanced Calculus for Engineers and Physical Scientists 2 3 Credits
Grading Scheme: Letter Grade
Continues the advanced calculus for engineers and physical scientists sequence. Theory of integration, transcendental functions and infinite series. MAA 4102 is not recommended for those who plan to do graduate work in mathematics; these students should take MAA 4212. Credit will be given for, at most, one of MAA 4103, MAA 4212 and MAA 5105.
Prerequisite: MAA 4102 with minimum grade of C.

MAA 4211 Advanced Calculus 1 3 Credits
Grading Scheme: Letter Grade
Advanced treatment of limits, differentiation, integration and series. Includes calculus of functions of several variables. Credit will be given for, at most, one of MAA 4211, MAA 4102 and MAA 5104.
Prerequisite: MAS 4105 with minimum grade of C.

MAA 4212 Advanced Calculus 2 3 Credits
Grading Scheme: Letter Grade
Continues the advanced calculus sequence in limits, differentiation, integration and series. Credit will be given for, at most, one of MAA 4212, MAA 4103 and MAA 5105.
Prerequisite: MAA 4211 with minimum grade of C, taken the previous semester.

MAA 4226 Introduction to Modern Analysis 1 3 Credits
Grading Scheme: Letter Grade
Topology of metric spaces, numerical sequences and series, continuity, differentiation, the Riemann-Stieltjes integral, sequences and series of functions, the Stone-Weierstrass theorem, functions of several variables, Stokes' theorem and the Lebesgue theory. Credit will be given for, at most, MAA 4226 or MAA 5228.
Prerequisite: MAA 4212 with minimum grade of C.

MAA 4227 Introduction to Modern Analysis 2 3 Credits
Grading Scheme: Letter Grade
Continues the modern analysis sequence discussing the topology of metric spaces, numerical sequences and series, continuity, differentiation, the Riemann-Stieltjes integral, sequences and series of functions, the Stone-Weierstrass theorem, functions of several variables, Stokes' theorem and the Lebesgue theory. Credit will be given for, at most, MAA 4227 or MAA 5229.
Prerequisite: MAA 4226 with minimum grade of C, taken the previous semester.

MAA 4402 Functions of a Complex Variable 3 Credits
Grading Scheme: Letter Grade
Complex numbers, analytic functions, Cauchy-Riemann equations, harmonic functions, elementary functions, integration, Cauchy-Goursat theorem, Cauchy integral formula, infinite series, residues and poles, conformal mapping. Credit will be given for, at most, MAA 4402 or MAA 5404.
Prerequisite: MAC 2313 or MAC 3474, and MAP 2302, both with minimum grades of C.

MAC 1105 Basic College Algebra 3 Credits
Grading Scheme: Letter Grade
Online entry-level algebra course for college students. (M)
Prerequisite: completion of the ALEKS placement exam.
Attributes: General Education - Mathematics

MAC 1114 Trigonometry 2 Credits
Grading Scheme: Letter Grade
Exponential and logarithmic functions, trigonometry and analytic and additional applications of trigonometry. (M)
Attributes: General Education - Mathematics

MAC 1140 Precalculus Algebra 3 Credits
Grading Scheme: Letter Grade
College algebra, functions, coordinate geometry, exponential and logarithmic functions. (M)
Prerequisite: completion of the ALEKS placement exam.
Attributes: General Education - Mathematics

MAC 1147 Precalculus Algebra and Trigonometry 4 Credits
Grading Scheme: Letter Grade
College algebra, functions, coordinate geometry, exponential and logarithmic functions, and trigonometry. Fast-paced review of algebra and trigonometry to prepare for calculus. Assumes prior knowledge of intermediate algebra (Algebra 2) and trigonometry. (M)
Prerequisite: at least 50% on the ALEKS placement exam.
Attributes: General Education - Mathematics

MAC 2233 Survey of Calculus 1 3 Credits
Grading Scheme: Letter Grade
Geometric and heuristic approach to calculus; differentiation and integration of simple algebraic and exponential functions; applications to graphing, marginal analysis, optimization, areas and volumes. (M)
Prerequisite: Any of the following: minimal acceptable score on the online mathematics placement exam; a minimum grade of C in a MAC course numbered 1140 or higher; AP credit for MAC 2311; IB credit for a MAC course numbered 1140 or higher. Any course grades, AP or IB scores used to meet this prerequisite must be on file at UF by registration.
Attributes: General Education - Mathematics

MAC 2234 Survey of Calculus 2 3 Credits
Grading Scheme: Letter Grade
Sequences, geometric and Taylor series; systems of linear equations, Gaussian elimination, matrices, determinants and vectors; partial differentiation, multiple integrals; applications to marginal analysis, least-squares and Lagrange multipliers. (M)
Prerequisite: MAC 2233 with minimum grade of C, or the equivalent.
Attributes: General Education - Mathematics

MAC 2311 Analytic Geometry and Calculus 1 4 Credits
Grading Scheme: Letter Grade
Introduces analytic geometry; limits; continuity; differentiation of algebraic, trigonometric, exponential and logarithmic functions; applications of the derivative; inverse trigonometric functions; differentials; introduction to integration; and the fundamental theorem of calculus. (M) Credit will be given for, at most, one of MAC 2233, MAC 2311 and MAC 3472.
Prerequisite: Any of the following: minimal acceptable score on the online mathematics placement exam; a grade of C in a MAC course numbered 1147 or higher; AP credit for MAC 2311; IB credit for a MAC course numbered 1147 or higher. Any course grades, AP or IB scores used to meet this prerequisite must be on file at UF by registration.
Attributes: General Education - Mathematics

MAC 2312 Analytic Geometry and Calculus 2 4 Credits
Grading Scheme: Letter Grade
Techniques of integration; applications of integration; differentiation and integration of inverse trigonometric, exponential and logarithmic functions; sequences and series. (M) Credit will be given for, at most, one of MAC 2312, MAC 2512 and MAC 3473.
Prerequisite: MAC 2311 or MAC 3472 with a minimum grade of C.
Attributes: General Education - Mathematics

MAC 2313 Analytic Geometry and Calculus 3 4 Credits
Grading Scheme: Letter Grade
Solid analytic geometry, vectors, partial derivatives and multiple integrals. (M) Credit will be given for, at most, MAC 2313 or MAC 3474.
Prerequisite: MAC 2312, MAC 2512 or MAC 3473 with a minimum grade of C.
Attributes: General Education - Mathematics

MAC 2512 Calculus 2 for Advanced Placement Students 4 Credits
Grading Scheme: Letter Grade
For entering freshmen who have Advanced Placement Calculus AB credit for MAC 2311. MAC 2512 covers those topics in MAC 2311 and MAC 2312, which is not included or only partially covered in the AP Calculus AB curriculum. Some topics from the AP curriculum are reviewed briefly in the first part of the semester. The combination of AP Calculus AB and MAC 2512 has the same content as the MAC 2311/2312 sequence. Calculus 2 topics to which the student has been exposed in AP Calculus AB are covered more quickly in MAC 2512 than in MAC 2312. (M) Credit will be given for, at most, one of MAC 2312, MAC 2512 and MAC 3473.
Prerequisite: AP credit for MAC 2311.
Attributes: General Education - Mathematics

MAC 3472 Honors Calculus 1 4 Credits
Grading Scheme: Letter Grade
Topics covered in the MAC 3472/MAC 3473/MAC 3474 sequence closely parallel those covered in MAC 2311/MAC 2312/MAC 2313, but are treated in greater depth. Credit will be given for, at most, MAC 2311 or MAC 3472. (M)
Prerequisite: strong background in precalculus.
Attributes: General Education - Mathematics

MAC 3473 Honors Calculus 2 4 Credits
Grading Scheme: Letter Grade
Continues the honors calculus sequence. (M) Credit will be given for, at most, one of MAC 2312, MAC 2512 and MAC 3473.
Prerequisite: MAC 3472 or MAC 2311 with a minimum grade of C.
Attributes: General Education - Mathematics

MAC 3474 Honors Calculus 3 4 Credits
Grading Scheme: Letter Grade
Continues the honors calculus sequence. (M) Credit will be given for, at most, MAC 2313 or MAC 3474.
Prerequisite: MAC 2312, MAC 2512 or MAC 3473 with a minimum grade of C.
Attributes: General Education - Mathematics

MAD 3107 Discrete Mathematics 3 Credits
Grading Scheme: Letter Grade
Logic, sets, functions; algorithms and complexity; integers and algorithms; mathematical reasoning and induction; counting principles; permutations and combinations; discrete probability. Advanced counting techniques and inclusion-exclusion.
Prerequisite: MAC 2312, MAC 2512 or MAC 3473 with a minimum grade of C.

MAD 4203 Introduction to Combinatorics 1 3 Credits
Grading Scheme: Letter Grade
Permutations and combinations, binomial coefficients, inclusion-exclusion, recurrence relations, Fibonacci sequences, generating functions and graph theory.
Prerequisite: MAC 2312 or MAC 2512 or MAC 3473, and MAS 3300 or MHF 3202, both with minimum grades of C.

MAD 4204 Introduction to Combinatorics 2 3 Credits
Grading Scheme: Letter Grade
Matching theory, block designs, finite projective planes and error-correcting codes. Does not require MAD 4203.
Prerequisite: MAC 2312 or MAC 2512 or MAC 3473, and MAS 3300 or MHF 3202, both with minimum grades of C.

MAD 4401 Introduction to Numerical Analysis 3 Credits
Grading Scheme: Letter Grade
Numerical integration, nonlinear equations, linear and nonlinear systems of equations, differential equations and interpolation.
Prerequisite: MAS 3114 or MAS 4105 with a minimum grade of C and experience with a scientific programming language.

MAE 3811 Mathematics for Elementary School Teachers 2 3 Credits
Grading Scheme: Letter Grade
Properties of and operations with rational numbers; ratio; proportion; percentages; an introduction to real numbers; elementary algebra; informal geometry and measurement; and introduces probability and descriptive statistics.
Prerequisite: College of Education majors only.

MAP 2302 Elementary Differential Equations 3 Credits
Grading Scheme: Letter Grade
First-order ordinary differential equations, theory of linear ordinary differential equations, solution of linear ordinary differential equations with constant coefficients, the Laplace transform and its application to solving linear ordinary differential equations. (M)
Prerequisite: MAC 2312, MAC 2512 or MAC 3473 with a minimum grade of C.
Attributes: General Education - Mathematics

MAP 2483 Mathematical Methods for Natural Sciences 4 Credits
Grading Scheme: Letter Grade
Introduces basic mathematical methods and computer modeling used in the natural sciences, including data representation and analysis, basic statistics and probability, linear algebra, stochastic and deterministic processes and optimization. Theoretical concepts are integrated with real-life applications and computer modeling projects.
Prerequisite: MAC 2311.

MAP 4102 Probability Theory and Stochastic Processes 2 3 Credits
Grading Scheme: Letter Grade
Random walks and Poisson processes, martingales, Markov chains, Brownian motion, stochastic integrals and Ito's formula.
Prerequisite: STA 4321 with a minimum grade of C.

MAP 4305 Differential Equations for Engineers and Physical Scientists 3 Credits
Grading Scheme: Letter Grade
The second course in differential equations. Topics include systems of linear differential equations, stability theory and phase plane analysis, power series solutions of differential equations, Sturm-Liouville boundary-value problems and special functions. Credit will be given for, at most, MAP 4305 or MAP 5304.
Prerequisite: MAP 2302, and MAS 3114 or MAS 4105 or EGM 3344, both with minimum grades of C.

MAP 4341 Elements of Partial Differential Equations 3 Credits
Grading Scheme: Letter Grade
Introduces second-order linear partial differential equations (heat, wave and Laplace equations), separation of variables in PDEs, Sturm-Liouville eigenvalue problems, method of eigenfunction expansions (Fourier analysis) and Green's functions. Possible introduction to first-order PDEs and the method of characteristics. Credit will be given for, at most, MAP 4341 or MAP 5345.
Prerequisite: MAP 2302 and MAP 4305 with minimum grades of C.

MAP 4413 Fourier Analysis 3 Credits
Grading Scheme: Letter Grade
Introduces linear systems and transforms; Laplace, Fourier and Z transforms and their mutual relationship; convolutions. Operational calculus; computational methods including the fast Fourier transform; second-order stationary processes and their autocorrelation functions; and problems of interpolation, extrapolation, filtering and smoothing of second-order stationary processes.
Prerequisite: MAC 2313 or MAC 3474, and MAP 2302, and MAS 3114 or MAS 4105, all three with minimum grades of C.

MAP 4484 Modeling in Mathematical Biology 3 Credits
Grading Scheme: Letter Grade
Mathematical models of biological systems. Topics include models of growth, predator-prey populations, competition, the chemostat, epidemics, excitable systems and analytical tools such as linearization, phase-plane analysis, Poincare-Bendixson theory, Lyapunov functions and bifurcation analysis.
Prerequisite: MAP 2302, and MAS 3114 or MAS 4105, both with minimum grades of C.

MAS 3114 Computational Linear Algebra 3 Credits
Grading Scheme: Letter Grade
Linear equations, matrices and determinants. Vector spaces and linear transformations. Inner products and eigenvalues. Emphasizes computational aspects of linear algebra.
Prerequisite: MAC 2312, MAC 2512 or MAC 3473 with a minimum grade of C and experience with a scientific programming language.

MAS 3300 Numbers and Polynomials 3 Credits
Grading Scheme: Letter Grade
Emphasizes theorems and proofs. Topics include algebraic and order properties of the real numbers; introduction to number theory; rational numbers and their decimal expansions; uncountability of the real numbers; complex numbers, irreducible polynomials over the integral, rational, real and complex numbers; and elementary theory of equations. Taking one, but not both, of MAS 3300 or MHF 3202 is required of mathematics majors. MAS 3300 is also particularly useful for prospective secondary-school mathematics teachers. (M)
Prerequisite: a UF math course at the 2000 level or above with a minimum grade of C; this requirement is waived for transfer students with junior standing.
Attributes: General Education - Mathematics

MAS 4105 Linear Algebra 1 4 Credits
Grading Scheme: Letter Grade
Linear equations, matrices, vector spaces, linear transformations, determinants, eigenvalues and inner-product spaces. Includes both theory and computational skills. Develops the ability to reason through, and coherently write, proofs of theorems. For math majors, this course serves as a transition from a study of techniques into more conceptual math; for engineering and science majors, it serves also as a coherent foundation in linear algebra.
Prerequisite: MAC 2313 or MAC 3474, and MAS 3300 or MHF 3202, both with minimum grades of C.

MAS 4124 Introduction to Numerical Linear Algebra 3 Credits
Grading Scheme: Letter Grade
Topics in linear algebra most useful in applications with emphasis on the numerical methods involved: direct and iterative solutions to systems of linear equations; matrix norms; Householder transformations; singular value decomposition; least squares and the generalized inverse; QR method for computing eigenvalues; condition number of linear systems and eigensystems.
Prerequisite: MAS 3114 or MAS 4105 with a minimum grade of C and experience with a scientific programming language.

MAS 4203 Introduction to Number Theory 3 Credits
Grading Scheme: Letter Grade
Introduces elementary number theory and its applications to computer science and cryptology. Divisibility, primes, Euclidean Algorithm, congruences, Chinese Remainder Theorem, Euler-Fermat Theorem and primitive roots. Selected applications to decimal fractions, continued fractions, computer file storage and hashing functions, and public-key cryptography.
Prerequisite: MAC 2312, MAC 2512 or MAC 3473 with a minimum grade of C; MAS 3300 recommended.

MAS 4301 Abstract Algebra 1 3 Credits
Grading Scheme: Letter Grade
Sets and mappings, groups and subgroups, homomorphisms and isomorphisms, permutations, rings and domains, arithmetic properties of domains, and fields. Requires facility in writing proofs.
Prerequisite: MAS 3300 or MHF 3202 with a minimum grade of B, or MAS 4105 with a minimum grade of C.

MAT 3503 Functions and Modeling 3 Credits
Grading Scheme: Letter Grade
Group activities strengthen knowledge of secondary mathematics, especially topics from precalculus and the transition to calculus, including contexts that can be modeled using linear, exponential, polynomial or trigonometric functions. Topics include conic sections, parametric equations and polar equations. Explorations involve multiple representations, transformations and data analysis techniques, and are facilitated by various technologies.
Prerequisite: MAC 2311 and UFTeach Step 1.
Corequisite: MAC 2312.

MAT 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Special topics not obtainable in regular course offerings.
Prerequisite: MAC 2313 or MAC 3474 with a minimum grade of C and undergraduate coordinator permission.

MAT 4911 Undergraduate Research in Mathematics 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in mathematics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in mathematics.

MAT 4930 Special Topics in Mathematics 1-3 Credits
Grading Scheme: Letter Grade
Qualified undergraduates take part in seminars or classes on special topics.
Prerequisite: undergraduate coordinator permission.

MAT 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

MGF 1106 Mathematics for Liberal Arts Majors 1 3 Credits
Grading Scheme: Letter Grade
For non-science and non-business majors who need to fulfill the writing and general education math requirements. Includes an introduction to set theory, logic, number theory, probability, statistics, graphing and linear programming. (M)
Attributes: General Education - Mathematics

MGF 1107 Mathematics for Liberal Arts Majors 2 3 Credits
Grading Scheme: Letter Grade
General-education course that demonstrates the beauty and utility of mathematics. Topics include financial management, linear and exponential growth, mathematics in the arts and discrete mathematics. Does not require MGF 1106. (M)
Attributes: General Education - Mathematics

MHF 3202 Sets and Logic 3 Credits
Grading Scheme: Letter Grade
Examples of sets, operations on sets, set algebra, Venn diagrams, truth tables, tautologies, applications to mathematical arguments and mathematical induction. Taking one, but not both, of MAS 3300 or MHF 3202 is required of mathematics majors. MHF 3202 can also be very useful for prospective and in-service secondary and middle school teachers. (M)
Prerequisite: a UF math course at the 2000 level or above with a minimum grade of C.
Attributes: General Education - Mathematics

MHF 4102 Elements of Set Theory 3 Credits
Grading Scheme: Letter Grade
Basic axioms and concepts of set theory. Students present proofs. Credit will be given for, at most, MHF 4102 or MHF 5107.
Prerequisite: MAS 4105 with a minimum grade of C.

MHF 4203 Foundations of Mathematics 3 Credits
Grading Scheme: Letter Grade
Models and proofs. Foundations of real and natural numbers, algorithms, Turing machines, undecidability and independence. Examples and applications in algebra, analysis, geometry and topology. Credit will be given for, at most, MHF 4203 or MHF 5207.
Prerequisite: MAS 4105 with a minimum grade of C.

MTG 3212 Geometry 3 Credits
Grading Scheme: Letter Grade
Axiomatic treatment of topics in Euclidean, non-Euclidean, projective geometry and (time permitting) fractal geometry. Particularly useful for prospective secondary-school mathematics teachers.
Prerequisite: MAC 2312, MAC 2512 or MAC 3473 with a minimum grade of C.

MTG 3214 Euclidean Geometry 3 Credits
Grading Scheme: Letter Grade
Axiomatic structure of Euclidean geometry: congruence, parallelism, area, similarity, circles, polygons, medians, constructions, solid geometry, spherical and hyperbolic geometry. Particularly useful for prospective secondary-school mathematics teachers.
Prerequisite: MAC 2312, MAC 2512 or MAC 3473 with a minimum grade of C.

MTG 4302 Elements of Topology 1 3 Credits
Grading Scheme: Letter Grade
Basic concepts of general topology. Credit will be given for, at most, MTG 4302 or MTG 5316.
Prerequisite: MAS 4105 with a minimum grade of C.

MTG 4303 Elements of Topology 2 3 Credits
Grading Scheme: Letter Grade
Continues the basic concepts of general topology. Credit will be given for, at most, MTG 4303 or MTG 5317.
Prerequisite: MTG 4302 with a minimum grade of C.

Mechanical and Aerospace Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

The prerequisites for all courses offered by the Department of Mechanical and Aerospace Engineering may require classification as a student in good standing in aerospace engineering, mechanical engineering, and/or another engineering program for which the particular course is required.

Courses

EAS 2011 Introduction to Aerospace Engineering 3 Credits
Grading Scheme: Letter Grade
Overview of aerospace engineering. Standard atmosphere, basic aerodynamics, airplane performance, stability and control, propulsion, and space flight.
Prerequisite: PHY 2048 or PHY 2060, with minimum grade of C.

EAS 3020C Introduction to Flight 3 Credits
Grading Scheme: Letter Grade
Introduction to the science and engineering of aircraft. Overview of applied aerodynamics, performance, stability, propulsion and structures. Includes lab sessions flying and making measurements in a general aviation aircraft.
Prerequisite: (PHY 2048 or PHY 2053) and MAC 2311; or instructor permission.

EAS 4101 Aerodynamics 3 Credits
Grading Scheme: Letter Grade
Incompressible aerodynamics, integral and differential governing equations, potential flow, boundary layers, airfoils, wings, numerical techniques.
Prerequisite: (EAS 2011 or EAS 3020C or EGN 3353C) and COP 2271 and EML 3100 and MAC 2313 and MAP 2302 with minimum grades of C.

EAS 4132 Compressible Flow 3 Credits
Grading Scheme: Letter Grade
One-dimensional and quasi one-dimensional compressible fluid flows. Includes mach waves, normal shocks, oblique shocks, Prandtl-Meyer expansions, isentropic flow with area change, Fanno flow and Rayleigh flow.
Prerequisite: EAS 4101 or EGN 3353C

EAS 4200 Aerospace Structures 3 Credits
Grading Scheme: Letter Grade
Review of plane states of stress and strain. Includes analysis of thin-walled beams with open and closed section, unsymmetrical bending of wing sections, torsion of skin-stringer and multi-cell sections, flexural shear in open and closed sections, Shear Center and failure criteria. Also includes introduction to composite materials and demonstration of behavior of some simple structural elements.
Prerequisite: EGM 3520 with minimum grade of C.

EAS 4240 Aerospace Composites 3 Credits
Grading Scheme: Letter Grade
Various types and applications of structural composites used in flight structures. Also includes an introduction to analysis of structural composites.
Prerequisite: EGM 3520 with minimum grade of C .

EAS 4300 Aerospace Propulsion 3 Credits
Grading Scheme: Letter Grade
Basics of air-breathing and rocket engines used in flight systems.
Prerequisite: EAS 4101

EAS 4400 Stability and Control of Aircraft 3 Credits
Grading Scheme: Letter Grade
Static stability and control, equations of motion, stability derivatives, stability of longitudinal and lateral motion of aircraft.
Prerequisite: EAS 4101 and EML 4312.

EAS 4412 Dynamics and Control of Space Vehicles 3 Credits
Grading Scheme: Letter Grade
Review of aerospace applications in current guidance and control systems. Includes synthesis of open and closed loop guidance and control systems using classical and modern control theory.
Prerequisite: EGM 4313 or MAP 4305 or MAP 5304

EAS 4510 Astrodynamics 3 Credits
Grading Scheme: Letter Grade
Introduces the solar system. Includes study of two-body motion, Hohmann transfer, patched conics for interplanetary and lunar trajectories, and the restricted three-body problem. Also includes an introduction to powered flights and artificial satellite orbits.
Prerequisite: EGM 3401 with minimum grade of C and (EGM 4313 or MAP 4305 or MAP 5304).

EAS 4530 Space Systems Design 3 Credits
Grading Scheme: Letter Grade
A discussion of the component systems of a spacecraft and a typical mission's requirements. The operation and character of different spacecraft hardware is presented as well as typical mission timelines from early conception to final operations. Topics include the space environment, guidance/control/navigation systems, spacecraft sensors and actuators, propulsion systems, thermal systems, power systems, launch systems, communication systems, structural systems and mission operations. This course is useful to engineers, scientists, computer scientists and any profession that uses data.
Prerequisite: EAS 4510.

EAS 4700 Aerospace Design 1 3 Credits
Grading Scheme: Letter Grade
Applications of the principles of analysis and design to aerospace vehicles. Emphasizes astronautics.
Prerequisite: EAS 4510 and EML 4312.

EAS 4710 Aerospace Design 2 3 Credits
Grading Scheme: Letter Grade
Applications of the principles of analysis and design to aerospace vehicles. Emphasizes aeronautics.
Prerequisite: EAS 4101 and EAS 4400.

EAS 4810C Aerospace Sciences Lab and Design 3 Credits
Grading Scheme: Letter Grade
Experimental investigations of aerospace engineering systems. Wind tunnel testing. Design project with experimental validation.
Prerequisite: EAS 4101 and EML 3301C.

EAS 4905 Individual Study in Aerospace Engineering 1-4 Credits
Grading Scheme: Letter Grade
Selected problems or projects in the student's major field of engineering study.
Prerequisite: department chair recommendation.

EAS 4912 Integrated Product and Process Design 1 3 Credits
Grading Scheme: Letter Grade
The first of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: EAS 4101 and EGM 3520 and EML 3301C.

EAS 4913 Integrated Product and Process Design 2 3 Credits
Grading Scheme: Letter Grade
The second part of the integrated design sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget.
Prerequisite: EAS 4912.

EAS 4939 Special Topics in Aerospace Engineering 1-4 Credits
Grading Scheme: Letter Grade
Special topics in aerospace engineering.
Prerequisite: instructor permission.

EAS 4949 Co-op Work Experience 1 Credit
Grading Scheme: S/U
Practical engineering work under industrial supervision, as set forth in the college regulations.
Prerequisite: Engineering major of sophomore standing or higher.

EGM 2511 Engineering Mechanics: Statics 3 Credits
Grading Scheme: Letter Grade
Reduction of force systems, equilibrium of particles and rigid bodies, vector methods and their application to structures and mechanisms.
Prerequisite: PHY 2048;
Corequisite: MAC 2313.

EGM 3344 Introduction to Numerical Methods of Engineering Analysis 3 Credits
Grading Scheme: Letter Grade
Methods for numerical solution of mathematical problems with emphasis on engineering applications using MATLAB. Includes roots, optimization, linear algebraic equations, matrices, curve fitting, differentiation, integration and ordinary differential equations.
Prerequisite: MAC 2313 and COP 2271;
Corequisite: MAP 2302.

EGM 3401 Engineering Mechanics: Dynamics 3 Credits
Grading Scheme: Letter Grade
Continues the dynamics sequence begun in EGM 3400 plus extended coverage of three-dimensional rigid-body dynamics and orbital motion.
Prerequisite: EGM 2511 or EGM 2500, and MAC 2313.

EGM 3520 Mechanics of Materials 3 Credits
Grading Scheme: Letter Grade
Stress and strain at a point, stress-strain-temperature relations and mechanical properties of materials. Systems subject to axial load, torsion and bending. Design concepts, indeterminate structures and applications.
Prerequisite: EGM 2511 and MAC 2313.

EGM 4313 Intermediate Engineering Analysis 3 Credits
Grading Scheme: Letter Grade
Ordinary differential equations, systems of ordinary differential equations, partial differential equations, Fourier series and complex analysis. Also includes equations of heat conduction, wave propagation and Laplace.
Prerequisite: MAP 2302 and EGM 3344.

EGM 4590 Biodynamics 3 Credits
Grading Scheme: Letter Grade
Dynamic analysis of the human musculoskeletal system. Includes development of lumped mass, planar rigid body and 3-D rigid body models of human movement. Also includes calculation of internal forces in muscles and joints and analysis of muscle function using dynamics principles and musculoskeletal geometry.
Prerequisite: EGM 3400 or EGM 3401, or instructor permission.

EGM 4592 Bio-Solid Mechanics 3 Credits
Grading Scheme: Letter Grade
Introduction to solid and fluid mechanics of biological systems. Includes rheological behavior of materials subjected to static and dynamic loading, the mechanics of cardiovascular, pulmonary and renal systems, and the mathematical models and analytical techniques used in biosciences.
Prerequisite: EGM 3520.

EGM 4853 Bio-Fluid Mechanics and Bio-Heat Transfer 3 Credits
Grading Scheme: Letter Grade
A study of biothermal fluid sciences with an emphasis on the physiological processes occurring in human blood circulation and the underlying mechanisms from an engineering prospective.
Prerequisite: EGN 3353C.

EGN 3353C Fluid Mechanics 3 Credits
Grading Scheme: Letter Grade
Statics and dynamics of incompressible fluids. Application to viscous and inviscid flows. Dimensional analysis. Compressible flow.
Prerequisite: MAC 2313 with a minimum grade of C and EGM 2511 and (EML 3100 or EML 3007 or BME 3060).

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

EGS 1005 Prep for Success 1-4 Credits
Grading Scheme: S/U
Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)
Prerequisite: EG student.

EML 2023 Computer Aided Graphics and Design 3 Credits
Grading Scheme: Letter Grade
Sketching, descriptive geometry, computer graphics, computer aided drafting and design projects.

EML 2322L Design and Manufacturing Laboratory 2 Credits
Grading Scheme: Letter Grade
Study and application of design, problem formulation, conceptual design, prototype development. Study of common manufacturing processes.
Prerequisite: EML 2023 and ENC 3246 and (Aerospace Engineering or Mechanical Engineering major).

EML 2920 Department and Professional Orientation 1 Credit
Grading Scheme: Letter Grade
Principles of mechanical and aerospace engineering practice, professional standards, engineering ethics.

EML 3005 Mechanical Engineering Design 1 3 Credits
Grading Scheme: Letter Grade
Design process, kinematics, gear trains, and standard mechanical components.
Prerequisite: COP 2271 and EML 2322L and EGM 3520 with minimum grades of C.

EML 3100 Thermodynamics 3 Credits
Grading Scheme: Letter Grade
Application of the first and second laws of thermodynamics to closed and open systems and to cyclic heat engines. Includes the development of procedures for calculating the properties of multiphase and singlephase pure substances.
Prerequisite: CHM 2045, MAC 2313 and PHY 2048.

EML 3301C Mechanics of Materials Laboratory 3 Credits
Grading Scheme: Letter Grade
Experimental characterization of the mechanical properties of engineering materials, precision instruments, computer-based data acquisition, statistical uncertainty analysis, preparation of engineering reports. (WR)
Prerequisite: EGM 3520, EGM 3344, and ENC 2210 or ENC 3254.
Attributes: Satisfies 6000 Words of Writing Requirement

EML 4140 Heat Transfer 3 Credits
Grading Scheme: Letter Grade
Steady state and transient analysis of conduction and radiation heat transfer in stationary media. Also discusses heat transfer in fluid systems, including forced and free convection.
Prerequisite: MAP 2302 with minimum grade of C and (EAS 4101 or EGN 3353C).

EML 4147C Thermal Sciences Design and Laboratory 3 Credits
Grading Scheme: Letter Grade
Thermodynamics, fluid mechanics, and heat transfer integrated with design and laboratory.
Prerequisite: EML 3100 with a minimum grade of C and EML 3301C and EML 4140.

EML 4220 Vibrations 3 Credits
Grading Scheme: Letter Grade
Single and multiple degree of freedom systems, including application to mechanical systems with problems employing computer techniques.
Prerequisite: EGM 3344 and EGM 3401 and EGM 3520 and MAP 2302 with minimum grades of C.

EML 4304C Thermo/Fluid Design and Laboratory 3 Credits
Grading Scheme: Letter Grade
Design and laboratories for turbomachinery, compressible flow, chemical reactions, and thermodynamic cycles.
Prerequisite: EGN 3353C and EML 3100 and EML 3301C.

EML 4312 Control of Mechanical Engineering Systems 3 Credits
Grading Scheme: Letter Grade
Theory, analysis and design of control systems, including mechanical, electromechanical, hydraulic, pneumatic, and thermal components and systems.
Prerequisite: EGM 3401 and EGM 3344 and MAP 2302 with minimum grades of C.

EML 4314C Dynamics and Controls System Design Laboratory 3 Credits
Grading Scheme: Letter Grade
Experiments on dynamic systems in mechanical and aerospace engineering and design of relevant control systems.
Prerequisite: EML 3301C and EML 4312.

EML 4321 Manufacturing Engineering 3 Credits
Grading Scheme: Letter Grade
Traditional and nontraditional manufacturing processes and equipment. Application of engineering analysis tools to manufacturing.
Prerequisite: EMA 3010 and EML 2322L and EML 3005.

EML 4410 Combustion Engineering 3 Credits
Grading Scheme: Letter Grade
Fundamentals of combustion processes and systems; including thermochemistry, rates and mechanisms, pollutant analysis, premixed and diffusion flames and applications to engines and turbomachinery.

EML 4450 Energy Conversion 3 Credits
Grading Scheme: Letter Grade
Thermomechanical and thermoelectric energy conversion, conventional and unconventional techniques and analysis of energy systems interactions.

EML 4500C Reengineering Historic Machinery 3 Credits
Grading Scheme: Letter Grade
Studies historic commercial machine or vehicle, including theory of operation, embedded engineering principles, and design. Reengineering and design of enhancements. Laboratory includes disassembly, observation of characteristics and conditions, implementation of enhancements, and rebuilding.
Prerequisite: EML 2322L and EML 3005 and EML 3100 with minimum grades of C.

EML 4501 Mechanical Engineering Design 2 3 Credits
Grading Scheme: Letter Grade
Integrated design and presentation of a mechanical system.
Prerequisite: EGN 3353C and EML 2322L and EML 3005 and EGM 3401 with minimum grades of C.
Corequisite: EML 4321 and EML 4507.

EML 4502 Mechanical Engineering Design 3 3 Credits
Grading Scheme: Letter Grade
Design and realization of a mechanical engineering system, component, or process subject to appropriate standards and constraints. Team Project.
Prerequisite: EML 4501;
Corequisite: EML 4321.

EML 4507 Finite Element Analysis and Design 3 Credits
Grading Scheme: Letter Grade
Stress-strain analysis and design of machine elements and finite element analysis.
Prerequisite: EGM 3344 and EGM 3520 and MAP 2302 with minimum grades of C.

EML 4600 Refrigeration and Air Conditioning Fundamentals 3 Credits
Grading Scheme: Letter Grade
Fundamentals of refrigeration theory, vapor compression and absorption, refrigeration components and systems, psychrometric theory, analysis of cooling and dehumidifying coils.
Prerequisite: EML 3100.

EML 4601 Heating and Air Conditioning System Design 3 Credits
Grading Scheme: Letter Grade
Heating and air conditioning systems: equipment selection, system arrangement, load calculations, advanced psychrometrics, duct and piping system design, air distribution system design and indoor air quality.
Prerequisite: EML 3100.

EML 4722 Introduction to Computational Fluid Dynamics 3 Credits
Grading Scheme: Letter Grade
General theory, skepticism, and practice of computational fluid dynamics. Computational grids and generation, boundary conditions, fluid dynamics, numerical methods, visualization, turbulence modelling, and various special topics.
Prerequisite: EAS 4101 or EGN 3353C

EML 4737 Hydronics and Pneumatics for Building Systems 3 Credits
Grading Scheme: Letter Grade
Applications, design, maintenance and operations of various pneumatic, hydronic and other process systems. Includes in-depth design concepts and techniques as well as preparation of specifications and cost estimates.
Prerequisite: EGN 3353C.

EML 4738 Hydraulic and Mechanical Power Transmission 3 Credits
Grading Scheme: Letter Grade
Transmission of power in machines by hydraulic and mechanical means, including analytical design of components and their functions.
Prerequisite: EML 3005.

EML 4905 Individual Study in Mechanical Engineering 1-3 Credits
Grading Scheme: Letter Grade
Selected problems or projects in the student's major field of engineering study.
Prerequisite: 2.3 UF GPA and department permission.

EML 4912 Integrated Product and Process Design 1: Mechanical Engineering 3 Credits
Grading Scheme: Letter Grade
The first part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: EGN 3353C and EGM 3401 and EML 3005 and EML 3301C.

EML 4913 Integrated Product and Process Design 2: Mechanical Engineering 3 Credits
Grading Scheme: Letter Grade
The second part of the integrated design sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget.
Prerequisite: EML 4912.

EML 4926 Mechanical Consulting Practice 3 Credits
Grading Scheme: Letter Grade
Synthesis and analysis of mechanical engineering systems, planning and execution of engineering contracts, and supervision of construction and tests.
Prerequisite: senior standing.

EML 4930 Special Topics in Mechanical Engineering 1-3 Credits
Grading Scheme: Letter Grade
Variable content in mechanical engineering not offered in other courses.
Prerequisite: instructor permission.

EML 4945 Practical Work in Mechanical Engineering 1 Credit
Grading Scheme: S/U
Practical engineering work under industrial supervision, as set forth in the Herbert Wertheim College of Engineering regulations.
Prerequisite: Engineering major with a 2.0 UF GPA.

EML 4949 Co-op Work Experience 1 Credit
Grading Scheme: S/U
Practical co-op work experience under approved industrial supervision.
Prerequisite: Engineering major with a 2.0 UF GPA.

Medicine

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Interdisciplinary Programs

There are two interdisciplinary majors within the College of Medicine for qualified undergraduates with department permission: neurobiological sciences and biochemistry and molecular biology. Both programs are offered in cooperation with the College of Liberal Arts and Sciences.

Neurobiological sciences involves coursework in the Department of Neuroscience and related disciplines, and biochemistry and molecular biology involves coursework in the Department of Biochemistry and Molecular Biology. Both programs require independent laboratory research and additional electives. Applications should be made to the departments in the sophomore or early junior year.

For a complete description of the courses offered by the College of Medicine, refer to:

- College of Medicine (http://www.med.ufl.edu)
- Graduate School (http://www.graduateschool.ufl.edu/academics/graduate-catalog) catalog.

Courses

BMS 3521 Human Physiology in Translation 3 Credits
Grading Scheme: Letter Grade
Human physiology organized into four major physiological systems: cellular/endocrine, cardiovascular, respiratory and renal physiology. For each system, translational topics bridge basic science to contemporary medical issues relevant to undergraduates and society. Designed to be of special interest to those pursuing medically related careers.
Prerequisite: APK 2105C or BSC 2010 or MCB 2000 or instructor permission.

BMS 4136C Human Histology 4 Credits
Grading Scheme: Letter Grade
For pre-professional students. Lectures emphasize the biology of cells and extracellular components that underlie tissue function. Laboratories emphasize visualization of corresponding structures by light microscopy, with correlation to images acquired by electron microscopy.
Prerequisite: PCB 3023 or PCB 3134 or instructor permission.

BMS 4905 Medical Sciences Senior Research 1-5 Credits
Grading Scheme: Letter Grade
Laboratory or literature investigations of current problems in the medical sciences.
Prerequisite: instructor permission.

MDU 4001 Introduction to Medical Science Seminar 1 3 Credits
Grading Scheme: Letter Grade
First of two courses of introduction to the medical sciences.

MDU 4002 Introduction to Medical Science Seminar 2 3 Credits
Grading Scheme: Letter Grade
The second course of introduction to the medical sciences.

MDU 4003 Introduction to the Professions of Medicine 3 Credits
Grading Scheme: Letter Grade
A web-based course about the medical field. Online lectures are presented by medical students, residents and practicing physicians who take students through various aspects of the medical profession.

MDU 4004 Physician Shadowing 3 Credits
Grading Scheme: Letter Grade
Provides background knowledge in issues related to clinical care such as privacy, professionalism and compassion, while students shadow clinicians in the Gainesville area. Course is provided through participation at the Equal Access Clinic and individual physician clinics. Enrollment is completed by the College of Medicine.
Prerequisite: MDU 4003.

MDU 4008 Aspects of the Art of Medicine 2 Credits
Grading Scheme: Letter Grade
Introduces the Essential Competencies Needed to Practice the Art of Medicine; Designed to Assist Third Year Students in the Medical Honors Program for Successful Transition to Uf College of Medicine. Provides Knowledge, Skills, and Experiences to Be Successful Personally and Professionally During Medical Education and Beyond.
Prerequisite: third year standing in the Medical Honors Program.

MDU 4010 Cell Biology Seminar 4 Credits
Grading Scheme: Letter Grade
Cellular functions in health and disease. The structure and molecular biology of mammalian cells are stressed, including virus-cell interactions, inborn errors or metabolism and bacterial growth.

MDU 4031 Medicine and the Law 3 Credits
Grading Scheme: Letter Grade
The importance of the law and its impact on the way medicine is practiced in the United States, presented from academics and practicing attorneys and physicians.
Prerequisite: MDU 4003.

MDU 4032 Health Care Economics 2 Credits
Grading Scheme: Letter Grade
This course examines key health care issues in the United States using economic theory as the framework for analysis. Students will analyze health care issues, using efficiency and equity criteria, and evaluate current health care policies for their effects on access, quality and cost. Topics include the health economy; the production and demand for health and medical care; the market for health insurance; private (e.g. employment based) and public (e.g. Medicare and Medicaid) sources of health insurance; managed care; and health care reform.

MDU 4051 Medical Humanities and Clinical Practice 2 Credits
Grading Scheme: Letter Grade
Introductory course to the physical realities of patient care and to the way in which medical humanities illuminate understanding of the practice of medicine.

MDU 4061 Introduction to Medical Bioethics 3 Credits
Grading Scheme: Letter Grade
Bioethical issues facing our nation and world and the impact of these issues in medicine and research. Also includes the importance of integrated, collaborative research and the professionalism expected within the healthcare and scientific communities.
Prerequisite: MDU 4003.

MDU 4070 Physician Perspectives on Glocal Topics in Healthcare 3 Credits
Grading Scheme: Letter Grade
Covers topics in global and local health that is necessary for today?s practicing physician leader. Designed to assist third year students in the MHP to become leaders in the social aspects of medicine, it provides the necessary knowledge, skills, and experiences to be physician activists.
Prerequisite: active third year student in the Medical Honors Program.

MDU 4850 Diseases of Eating 3 Credits
Grading Scheme: Letter Grade
A web-based course that focuses on anorexia, bulimia and obesity and emphasizes societal issues associated with these disorders. Written assignments are opinion-based, encouraging the student to think about these disorders on a broad scale.

Medieval and Early Modern Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

MEM 2500 The Tales of King Arthur 3 Credits
Grading Scheme: Letter Grade
The great literary works of the Arthurian tradition and the manner in which the tales of King Arthur serve, from their 6th century Celtic origins to the present, to articulate the interests and values of different social groups throughout history. (H and N)
Attributes: General Education - Humanities, General Education - International

MEM 3003 Introduction to the Medieval World 3 Credits
Grading Scheme: Letter Grade
Chronological and topical introduction to history of the medieval millennium (400-1400). (H and N)
Attributes: General Education - Humanities, General Education - International

MEM 3300 Castles and Cloisters: An Introduction to Medieval Communities 3 Credits
Grading Scheme: Letter Grade
Studies monastic and courtly-chivalric communities as these evolved in the Middle Ages. Explores architecture, art, literature and music illustrate how different monastic and chivalric communities saw the world and their place in it. (H and N)
Attributes: General Education - Humanities, General Education - International

MEM 3301 Palaces and Cities: An Introduction to Early Modern Communities 3 Credits
Grading Scheme: Letter Grade
Explores the new kind of European culture that emerges with early modern residential palaces and cities. The study of seminal texts in poetry, politics and theology, and of early modern cities and palaces shows the new operant principle in cultural processes to be the primacy of the individual. (H)
Prerequisite: ENC 1101 or the equivalent.
Attributes: General Education - Humanities

MEM 3730 Studies in the Holy Roman Empire 3 Credits
Grading Scheme: Letter Grade
Variable content examines the political and religious ideas and the literary and artistic productions associated with significant stages in the history of the Holy Roman Empire.
Attributes: General Education - Humanities, General Education - International

MEM 3805 Research Methods in Medieval and Early Modern Studies 1 Credit
Grading Scheme: Letter Grade
How to conduct research in medieval and early modern studies. Learn how to find and effectively search the most appropriate print and electronic resources for their research projects. The research skills developed have broader applicability than medieval and early modern studies.
Prerequisite: ENC 1101 or the equivalent.

MEM 3931 Variable Topics in Medieval and Early Modern Studies 3 Credits
Grading Scheme: Letter Grade
Provides intermediate study in medieval and early modern studies.
Prerequisite: ENC 1101 or the equivalent.

MEM 4905 Independent Study in Medieval and Early Modern Studies 1-5 Credits
Grading Scheme: Letter Grade
Independent work in medieval and early modern studies.
Prerequisite: instructor permission.

MEM 4931 Special Topics in Medieval and Early Modern Studies 1-3 Credits
Grading Scheme: Letter Grade
Advanced study in medieval and early modern studies.

Microbiology and Cell Science

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

BSC 2891 Python Programming for Biology 3 Credits
Grading Scheme: Letter Grade
Discoveries in biology are driven as much by computer analysis as by laboratory work. Learn the theory and practice of computer programming with emphasis on the practical techniques and problem solving skills required to use computer programming in biological research. Taught completely online.

BSC 4434C Introduction to Bioinformatics 3 Credits
Grading Scheme: Letter Grade
Lecture and hands-on computer laboratories emphasize data-mining tools freely available in web-based resources that predict gene function from DNA, RNA, and protein sequences.
Prerequisite: MCB 3020 or MCB 3023 or BCH 4024 or CHM 3218 with a minimum grade of C.

BSC 4913 Independent Research in Bioinformatics 3 Credits
Grading Scheme: Letter Grade
Mentored research experience at the interface between computational and biological sciences; preparation for competitive graduate-school and industry positions in bioinformatics.
Prerequisite: BSC 2891 or MCB 4320C or BSC 4434C or BSC 4434C with a minimum grade of C.

BSC 4914 Advanced Independent Research in Bioinformatics 3 Credits
Grading Scheme: Letter Grade
Mentored bioinformatics research experience that challenges students to develop a deeper understanding of bioinformatics methodologies, to frame biological questions, to evaluate primary scientific literature and to present their research in formal written and oral presentations.
Prerequisite: BSC 4913 with a minimum grade of C.

MCB 2000 Microbiology 3 Credits
Grading Scheme: Letter Grade
Role of microorganisms in chemical transformations, disease, public health and agriculture. Fundamental concepts are discussed, followed by beneficial and harmful actions of microorganisms as they affect our lives. Suitable as a general education science course, but not acceptable for admission to advanced microbiology courses nor for the preprofessional curricula required for the medical/veterinary sciences. (B)
Attributes: General Education - Biological Science

MCB 2000L Microbiology Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory exercises demonstrate biochemical transformations and present methods for studying microbial properties. Suitable as a general education science course, but not acceptable for admission to advanced microbiology courses nor for the preprofessional curricula required for the medical/veterinary sciences.
Corequisite: MCB 2000.

MCB 2006 Microbes without Borders 3 Credits
Grading Scheme: Letter Grade
Introduces the amazing world of microbiology; microbes play a significance role for individuals, for our communities, and for the whole planet. Readings, discussions, and activities provide a mind-opening, global journey to acknowledge the great things microbes do for us.

MCB 3015C Lab Skills Bootcamp 1 Credit
Grading Scheme: Letter Grade
Provides a foundation and advanced skills all biological science students should master. Emphasizes analytical, computational, communication and other lab skills above and beyond bench work.
Prerequisite: BSC 2010 or equivalent, AG majors or MCY majors only;
Corequisite: CHM 2045 or equivalent.

MCB 3020 Basic Biology of Microorganisms 3 Credits
Grading Scheme: Letter Grade
Introduces the principles and techniques of microbiology, genetics, taxonomy, biochemistry and ecology and microorganisms. Also studies virology, immunology, and the pathogenicity of microorganisms. (B)
Prerequisite: BSC 2010 and BSC 2010L, or ISC 2400L, or ISC 2401L, or equivalent, with minimum grades of C; BSC 2011 and BSC 2011L, or equivalent, or AGR 3303, with minimum grades of C; non-microbiology majors only.
Corequisite: CHM 2200 or CHM 2210.
Attributes: General Education - Biological Science

MCB 3020L Laboratory for Basic Biology of Microorganisms 1 Credit
Grading Scheme: Letter Grade
Laboratory exercises on the structure, nutrition and growth of prokaryotic and eukaryotic cells. Includes isolation and classification of representative microorganisms.
Corequisite: MCB 3020; non-microbiology majors only.

MCB 3023 Principles of Microbiology 3 Credits
Grading Scheme: Letter Grade
Introduces the principles and techniques of microbiology, genetics, taxonomy, biochemistry, and ecology of microorganisms. Required of all majors and students who will enroll in more advanced courses in the Department of Microbiology and Cell Science.
Prerequisite: BSC 2010 and BSC 2010L, or ISC 2400L, or ISC 2401L, or equivalent, with minimum grades of C; BSC 2011 and BSC 2011L, or equivalent, or AGR 3303, with minimum grades of C; microbiology majors only.
Corequisite: CHM 2200 or CHM 2210, with mini

MCB 3023L Principles of Microbiology Laboratory 2 Credits
Grading Scheme: Letter Grade
Laboratory techniques on the structure, nutrition, biochemistry, genetics, and growth of microorganisms. Required of all majors and students who will enroll in more advanced courses in the Department of Microbiology and Cell Science.
Prerequisite: MCB or MCY major;
Corequisite: MCB 3023.

MCB 3703 Astrobiology 3 Credits
Grading Scheme: Letter Grade
Examines the origin, evolution and future of life in our solar system. Include planetary habitability, astrobiogeochemistry, microbial life, and human space flight. (WR)
Prerequisite: introductory course in microbiology, astronomy, chemistry, physics or geology.
Attributes: Satisfies 4000 Words of Writing Requirement

MCB 3933 Professional Development in Microbiology and Cell Science 1-2 Credits
Grading Scheme: Letter Grade
Assistance in making career decisions and organizing supporting academic credentials. Emphasizes the wide variety of career opportunities and professional development tools applicable to careers in professional schools, academia, industry, and alternative professions.
Prerequisite: BSC 2011 and CHM 2045 or equivalent; AG and MCY majors only.

MCB 4034L Advanced Microbiology Laboratory 1 Credit
Grading Scheme: Letter Grade
Application of immunological, molecular biological and microbial techniques to the isolation, identification, and characterization of bacteria and viruses.
Prerequisite: MCB 3020 or MCB 3023, MCB 3020L or MCB 3023L with minimum grades of C.

MCB 4150 Prokaryotic Diversity 3 Credits
Grading Scheme: Letter Grade
Introduces the diversity of bacteria and archaea. Discussions provide a conceptual and historical framework for understanding their origin and evolution; morphological, metabolic, and molecular characteristics; genetic and physiological diversity; importance in human, animal, and plant health; and roles in elemental cycling.
Prerequisite: MCB 3020 or MCB 3023 with a minimum grade of C.

MCB 4203 Bacterial Pathogens 3 Credits
Grading Scheme: Letter Grade
Host-microbe relationships in the diseases of humans and animals, including the virulence characteristics of bacterial pathogens, the techniques used in their isolation/identification, and molecular approaches to the study of their virulence.
Prerequisite: MCB 3020 or MCB 3023 with minimum grade of C.

MCB 4304 Genetics of Microorganisms 3 Credits
Grading Scheme: Letter Grade
Molecular biology of bacterial gene expression, including DNA replication, mutation, genetic mapping using plasmids and phages, and recombinant DNA mechanisms.
Prerequisite: MCB 3020 or MCB 3023, and MCB 3020L or MCB 3023L with minimum grades of C; BCH 4024 should be taken before MCB 4403.

MCB 4320C The Microbiome 3 Credits
Grading Scheme: Letter Grade
Increase knowledge, appreciation, and use of genomics pertaining to the breadth of microbial diversity across a wide variety of organisms and habitats using methods that do not require culturing of the myriad of inhabitants. Use tools, practice analysis, and interpretation of genomic data sets to analyze different microbiomes.
Prerequisite: MCB 3020 or MCB 3023 with minimum grades of C.

MCB 4325C R for Functional Genomics 3 Credits
Grading Scheme: Letter Grade
Introduces the Basics of the R Language and to state of the art methods for functional genomics data analysis. Learn how to write R scripts, choose appropriate statistical tools, and how to use Linux environments to analyze high-throughput genomics data.
Prerequisite: STA 2023 and BSC 2010, BSC 2011, MCB 3020, MCB 3023, BCH 4024, or CHM 3218.

MCB 4403 Prokaryotic Cell Structure and Function 3 Credits
Grading Scheme: Letter Grade
Analyzes the cell structure and physiology of bacterial cells. Extensive discussion of cell division and cell growth is provided along with descriptions of important bacterial cell structures (e.g. cell walls, membranes, flagella, etc.)
Prerequisite: CHM 2211, and MCB 3020 or MCB 3023, and MCB 3020L or MCB 3023L with minimum grades of C; BCH 4024 should be taken before MCB 4403.

MCB 4422 Probiotics 3 Credits
Grading Scheme: Letter Grade
Covers the use of microorganisms to promote a health status in the host and provides a conceptual background in microbiology and immunology for the use of microorganisms for the prevention or treatment of animal and human diseases.

MCB 4503 General Virology 3 Credits
Grading Scheme: Letter Grade
Nature of viruses and mechanisms of infection and replication, including bacterial, animal, and plant viruses.
Prerequisite: MCB 3020 or MCB 3023 or MCB 4203 or PCB 3023 or BCH 3023 or PCB 3134 with minimum grade of C.

MCB 4652 Environmental Microbiology 3 Credits
Grading Scheme: Letter Grade
Overview of microorganisms in the environment including occurrence, abundance and distribution; processes of microbial interaction with the environment; and practices of applied environmental microbiology.
Prerequisite: MCB 3020, MCB 3023 or equivalent introductory microbiology course with minimum grade of C.

MCB 4782 Extremophiles 3 Credits
Grading Scheme: Letter Grade
Learn about the evolution, physiology, biochemistry, and molecular biology of extremophiles with emphasis on archaea and their viruses. Discuss principles of energy metabolism at the limits of life. Highlights research that incorporates cutting-edge techniques and biotechnology applications for using extremophiles to solve real world problems.
Prerequisite: CHM 2211 and either MCB 3020/MCB 3020L or MCB 3023/MCB 3023L.

MCB 4905 Independent Study 0-4 Credits
Grading Scheme: S/U
Individual laboratory research under the guidance of a faculty member. Required of, but not limited to, candidates for high and highest honors. Not acceptable toward 25 credits of required department and elective credits. (S-U)
Prerequisite: undergraduate advisor permission; microbiology majors only.

MCB 4911 Supervised Research in Microbiology and Cell Science 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.. (S-U)

MCB 4915 Honors Thesis Research in Microbiology and Cell Science 0-3 Credits
Grading Scheme: Letter Grade
Independent research in microbiology and cell science leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

MCB 4934 Special Topics in Microbiology and Cell Science 1-4 Credits
Grading Scheme: Letter Grade
Supervised literature or historical study on current topics in microbiology and cell science. Not acceptable toward 25 credits of required department and elective credits.
Prerequisite: undergraduate coordinator permission.

MCB 4941 Microbiology and Cell Science Internship 1-4 Credits
Grading Scheme: Letter Grade
Internship in microbiology and cell science under supervision of the department.

NUR 3197 Genetics and Genomics in Health Care 2 Credits
Grading Scheme: Letter Grade
Genetics and genomics are advancing quickly and will play a greater role in health care as personal genome sequencing becomes available. Reinforces basic genetics and genomics concepts and exploring how genomics may affect health care.
Prerequisite: nursing major.

PCB 1051 Exploring Your Genome 3 Credits
Grading Scheme: Letter Grade
How the genome sequence is analyzed and its implications on human health. Promotes genetic literacy (see syllabus for specific topics).

PCB 3134 Eukaryotic Cell Structure and Function 3 Credits
Grading Scheme: Letter Grade
Lecture and discussions in the field of cell biology with emphasis on the interrelation of structure and function, the regulation of metabolism and the specialized activities of plant and animal cells.
Prerequisite: BSC 2010 and BSC 2010L, or equivalent, with minimum grades of C; BSC 2011 and BSC 2011L, or equivalent, or AGR 3303 and CHM 2210, with minimum grades of C; CHM 2200 or CHM 2210, with minimum grade of C.
Corequisite: CHM 2211 and CHM 2211L.

PCB 4233 Immunology 3 Credits
Grading Scheme: Letter Grade
Basic concepts in immunology, including specific components, development and function.
Prerequisite: (MCB 3023, MCB 3020, BCH 4024, CHM 3218, or PCB 3134) with minimum grade of C.

PCB 4522 Molecular Genetics 3 Credits
Grading Scheme: Letter Grade
Molecular biology of prokaryotes and eukaryotes covering the fundamentals of genome organization and gene structure, regulation of transcription, DNA replication and repair, and RNA processing. Also includes discussion of strategies, vectors and applications of genetic engineering in higher plants and animals.
Prerequisite: BSC 2010 and BSC 2010L with minimum grades of C.

ZOO 4232 Human Parasitology 3 Credits
Grading Scheme: Letter Grade
Host-parasite relationships of helminth and protozoan diseases important in health sciences and veterinary medicine.
Prerequisite: BSC 2010 and BSC 2010L, or equivalent; and BSC 2011 and BSC 2011L, or equivalent, or AGR 3303 with minimum grades of C.

Military Science

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

AFR 1101 The Air Force Today 1 Credit
Grading Scheme: Letter Grade
Introduces the United States Air Force and Air Force Reserve Officer Training Corps. Featured topics include mission and organization of the Air Force, officership and professionalism, military customs and courtesies, Air Force officer opportunities, group leadership problems and an introduction to communication skills.
Corequisite: AFR 1101L.

AFR 1101L General Military Course (GMC) Leadership Laboratory 1 Credit
Grading Scheme: S/U
Air Force customs, courtesies, drills and ceremonies; issuing military commands; instructing, directing and evaluating the preceding skills; studying the environment of an Air Force officer; and learning about areas of opportunity available to commissioned officers. (S-U)
Corequisite: AFR 1101.

AFR 1120 The Air Force Today 1 Credit
Grading Scheme: Letter Grade
Introduces the United States Air Force and Air Force Reserve Officer Training Corps. Topics include introduction to flight, oral and written communication techniques and an overview of military services.
Corequisite: AFR 1120L.

AFR 1120L General Military Course (GMC) Leadership Laboratory 1 Credit
Grading Scheme: S/U
Air Force customs, courtesies, drills and ceremonies; issuing military commands; instructing, directing and evaluating the preceding skills; studying the environment of an Air Force officer; and learning about areas of opportunity available to commissioned officers. (S-U)
Corequisite: AFR 1120.

AFR 2130 The Evolution of USAF Air and Space Power 1 Credit
Grading Scheme: Letter Grade
Examines USAF air and space power from a historical perspective. Covers the earliest aircraft, both World Wars, the Korean and Vietnam conflicts, air and space employment during the Cold War.
Corequisite: AFR 2130L.

AFR 2130L General Military Course (GMC) Leadership Laboratory 1 Credit
Grading Scheme: S/U
Air Force customs, courtesies, drills and ceremonies; issuing military commands; instructing, directing and evaluating the preceding skills; studying the environment of an Air Force officer; and learning about areas of opportunity available to commissioned officers. (S-U)
Corequisite: AFR 2130.

AFR 2140 The Evolution of USAF Air and Space Power 1 Credit
Grading Scheme: Letter Grade
Continuation of AFR 2130 and the exploration of Air Force history, beginning with the Vietnam era and culminating with the application of air and space power in recent conflicts.
Corequisite: AFR 2140L.

AFR 2140L General Military Course (GMC) Leadership Laboratory 1 Credit
Grading Scheme: S/U
Air Force customs, courtesies, drills and ceremonies; issuing military commands; instructing, directing and evaluating the preceding skills; studying the environment of an Air Force officer; and learning about areas of opportunity available to commissioned officers. (S-U)
Corequisite: AFR 2140.

AFR 3220 Air Force Leadership and Management 3 Credits
Grading Scheme: Letter Grade
Leadership and quality management fundamentals, professional knowledge, Air Force doctrine, leadership ethics and communication skills required of an Air Force junior officer. Case studies examine Air Force leadership and management situations as a means of demonstrating and exercising practical application of the concepts studied.
Corequisite: AFR 3220L.

AFR 3220L Professional Officer Course (POC) Leadership Laboratory 1 1 Credit
Grading Scheme: S/U
Advanced leadership experiences planning and controlling military activities of the cadet corps, the preparation and presentation of briefings and other communications, and the interviews, guidance and information to increase cadet understanding, motivation and performance. (S-U)
Corequisite: AFR 3220.

AFR 3231 Air Force Leadership and Management 3 Credits
Grading Scheme: Letter Grade
Studies leadership and quality management fundamentals, professional knowledge, Air Force doctrine, leadership ethics and communication skills required of an Air Force junior officer. Case studies examine Air Force leadership and management situations as a means of demonstrating and exercising practical application of the concepts studied.
Corequisite: AFR 3231L.

AFR 3231L Professional Officer Course (POC) Leadership Laboratory 2 1 Credit
Grading Scheme: S/U
Advanced leadership experiences planning and controlling military activities of the cadet corps, the preparation and presentation of briefings and other communications, and the interviews, guidance and information to increase cadet understanding, motivation and performance. (S-U)
Corequisite: AFR 3231.

AFR 4201 Preparation for Active Duty 1 3 Credits
Grading Scheme: Letter Grade
Examines the national security process, regional studies, advanced leadership ethics and Air Force doctrine. Topics focus on the military as a profession, officership, military justice and civilian control of the military. Within this structure, continued emphasis is given to refining communication skills.
Corequisite: AFR 4201L.

AFR 4201L Professional Officer Course (POC) Leadership Laboratory 3 1 Credit
Grading Scheme: S/U
Advanced leadership experiences planning and controlling military activities of the cadet corps, the preparation and presentation of briefings and other communications, and the interviews, guidance and information to increase cadet understanding, motivation and performance. (S-U)
Corequisite: AFR 4201.

AFR 4211 Preparation for Active Duty 2 3 Credits
Grading Scheme: Letter Grade
Examines advanced leadership ethics, officership, preparation for active duty and current issues affecting military professionalism. Continued emphasis is given to refining communication skills.
Corequisite: AFR 4211L.

AFR 4211L Professional Officer Course (POC) Leadership Laboratory 4 1 Credit
Grading Scheme: S/U
Advanced leadership experiences planning and controlling military activities of the cadet corps, the preparation and presentation of briefings and other communications, and the interviews, guidance and information to increase cadet understanding, motivation and performance. (S-U)
Corequisite: AFR 4211.

MSL 1001 Foundations of Officership 2 Credits
Grading Scheme: Letter Grade
Purpose and organization of the Army Reserve Officer Training Corps (ROTC) and the United States Army. Introduction to military customs and traditions, rank structure and the role of an Army officer. Each student must register for and attend a two-hour weekly leadership laboratory (MSL 1001L).

MSL 1001L Freshman Leadership Laboratory 0 Credits
Grading Scheme: Letter Grade
Laboratory consists of a two-hour block of instruction that directly supports freshman classroom instruction. Participation in at least one weekend field training session, one community service project and two army physical fitness tests are required.
Corequisite: MSL 1001.

MSL 1002 Basic Leadership 2 Credits
Grading Scheme: Letter Grade
Study and application of the Army ROTC Leadership Development Program (LDP). Instruction includes theory and application of leadership principles, competencies and dimensions. Individual leadership is developed through hands-on instruction in basic, individual military skills. Introduces students to leadership attributes and the application of those attributes in and out of the classroom. Students must register for and attend a two-hour weekly leadership laboratory (MSL 1002L).

MSL 1002L Freshman Leadership Laboratory 0 Credits
Grading Scheme: Letter Grade
Laboratory consists of a two-hour block of instruction that directly supports freshman classroom instruction. Participation in at least one weekend field training session, one community service project and two army physical fitness tests are required.
Corequisite: MSL 1002.

MSL 2101 Individual Leadership Studies 2 Credits
Grading Scheme: Letter Grade
The future leader through classroom instruction, laboratory application and an in-depth look at basic troop/organization leadership principles and skills. Provides training on the basics of rifle marksmanship and instruction on the principles of modern warfare and effective writing. Students must register for and attend a two-hour weekly leadership laboratory (MSL 2101L).

MSL 2101L Sophomore Leadership Laboratory 0 Credits
Grading Scheme: Letter Grade
Laboratory consists of a two-hour block of instruction that directly supports sophomore classroom instruction. Participation in at least one weekend field training session, one community service project and two army physical fitness tests are required.
Corequisite: MSL 2101.

MSL 2102 Leadership and Teamwork Techniques 2 Credits
Grading Scheme: Letter Grade
The future leader through classroom instruction, laboratory application and an in-depth look at basic troop/organization leadership principles and skills. Provides training on the basics of rifle marksmanship and instruction on the principles of modern warfare and effective writing. Students must register for and attend a two-hour weekly leadership laboratory.

MSL 2102L Sophomore Leadership Laboratory 0 Credits
Grading Scheme: Letter Grade
Laboratory consists of a two-hour block of instruction that directly supports sophomore classroom instruction. Participation in at least one weekend field training session, one community service project and two army physical fitness tests are required.
Corequisite: MSL 3202.

MSL 3201 Leadership and Problem Solving 3 Credits
Grading Scheme: Letter Grade
Instruction for the advanced ROTC cadet in infantry squad tactics and operations to broaden general military skills and enhance performance at ROTC Advanced Camp. Topics include the ROTC Leadership Development Program (LDP), land navigation and map reading, basic rifle marksmanship techniques, effective written and oral communication skills, troop leading procedures and infantry squad offensive and defensive operations. Cadets must attend a two-hour weekly leadership laboratory and participate in a physical fitness program given at times other than normal class sessions.

MSL 3202 Leadership and Ethics 3 Credits
Grading Scheme: Letter Grade
Improves cadet proficiency in those military subjects necessary to meet minimum standards of technical competence and self-confidence required of a junior officer in the U.S. Army. Prepares cadets for participation at ROTC advanced camp. Major emphasis during course is physical training and field training exercises. Student must attend a weekly two-hour leadership laboratory and participate in physical fitness sessions given at times other than normal class sessions.

MSL 4301 Leadership and Management 3 Credits
Grading Scheme: Letter Grade
Designed to prepare cadets for duty as commissioned officers. Instruction centers on proficiency/familiarization with the military justice system, military administration, the officer professional management system, international laws of war and principles of management/ leadership. Students also participate in a physical fitness program.

MSL 4302 Officership 3 Credits
Grading Scheme: Letter Grade

MSL 4905 Independent Study 1-3 Credits
Grading Scheme: Letter Grade
Readings and discussion in advanced topics of military science.
Prerequisite: department permission.

MSL 4941 Advanced Leader Training 4 Credits
Grading Scheme: Letter Grade
National advanced leader's course is the Army's 5-week leader internship conducted at Fort Lewis, Washington, from June through August. The camp places each cadet and officer candidate in a variety of leadership positions, many of which simulate stressful combat situations. Cadets are evaluated by platoon tactical officers and NCOs. Training is organized into separate committees in a tiered structure, including basic military skills, leadership development, tactical training, basic rifle marksmanship and situational training exercises. Evaluation is continual.

NSC 1101L Naval Science Laboratory 0 Credits
Grading Scheme: S/U
Drill, basic commands, courtesies and honors, orientation and information.

NSC 1110 Introduction to Naval Science 2 Credits
Grading Scheme: Letter Grade
Introduction to the naval profession and to concepts of seapower. Instruction emphasizes the mission, organization and warfare components of the Navy and Marine Corps. Included is an overview of officer and enlisted ranks and rates, training and education and career patterns. Also covers naval courtesy and customs, military justice, leadership and nomenclature, and exposes the student to the professional competencies required to become a naval officer.

NSC 1140 Seapower and Maritime Affairs 3 Credits
Grading Scheme: Letter Grade
U.S. naval history from the Phoenicians to the present with emphasis on major developments. Included is an in-depth discussion of the geopolitical theory of Mahan. Discusses present-day concerns in seapower and maritime affairs, including the economic and political issues of merchant marine commerce, the Navys involvement in liberation and terrorist movements overseas and the massive changes in the U.S. Navy due to the breakup of the Soviet Union. (WR)
Attributes: Satisfies 2000 Words of Writing Requirement

NSC 2102L Naval Science Laboratory 0 Credits
Grading Scheme: S/U
Drill, basic commands, courtesies and honors, orientation and information.

NSC 2121 Naval Ships Systems 1: Engineering 3 Credits
Grading Scheme: Letter Grade
Basic power systems used in naval propulsion systems, a basic understanding of the thermodynamic process, a working knowledge of major auxiliary ship systems and basic consideration for ship design and stability. Basic electrical theory and damage control are also included.

NSC 2122 Naval Ships Systems 2: Weapons 3 Credits
Grading Scheme: Letter Grade
Introduction to the theory, characteristics and principles of operation of naval weapons systems. Includes coverage of types of weapons and fire control systems, capabilities and limitations, theory of target acquisition, identification and tracking, trajectory principles and basics of naval ordinance.

NSC 3103L Naval Science Laboratory 0 Credits
Grading Scheme: S/U
Practical exercises dealing with the specifics of naval organizations and leadership.

NSC 3214C Navigation and Naval Operations 1 3 Credits
Grading Scheme: Letter Grade
A comprehensive study of the theory, principles and procedures of ship navigation and movements. Piloting and dead reckoning as well as principles of celestial and electronic navigation. In-depth exposure to the navigational rules-of-the-road and the international regulations for preventing collisions at sea and their application to effective safe navigation. Also includes practical lab work in charting and publication usage.

NSC 3215C Navigation and Naval Operations 2 3 Credits
Grading Scheme: Letter Grade
A continuation of navigation and naval operations. Relative motion theory and the use of a maneuvering board. An understanding of the force, techniques and concepts associated with ship handling, including shipboard watch organization, communication systems and environmental considerations. The role of leadership ethics is discussed while developing an understanding of the process of command and control, dealing specifically with information exchange, conflict resolution and crisis decision making.
Prerequisite: NSC 3214C.

NSC 3221 Evolution of Warfare 3 Credits
Grading Scheme: Letter Grade
The forms of warfare employed by great people in history, within the context of historical flow or continuity in the evolution of warfare. Course develops a basic sense of strategy, demonstrates alternative military actions and explores the impact of historical precedent on military thought and actions as practiced by the great leaders and military organizations. (S) (WR; 4000-word writing credit)
Attributes: General Education - Social Science, Satisfies 4000 Words of Writing Requirement

NSC 3225C Fundamentals of Maneuver Warfare 3 Credits
Grading Scheme: Letter Grade
Analyzes the United States Marine Corps as the overarching case study for the advent of maneuver warfare. The value is not simply to learn what has happened in the past, but to use these lessons as the basis for making practical judgments about the present and future.
Prerequisite: NSC 1110 or instructor permission.

NSC 4104L Naval Science Laboratory 0 Credits
Grading Scheme: S/U
Practical exercises dealing with naval organizations and leadership.

NSC 4224 Amphibious Warfare 3 Credits
Grading Scheme: Letter Grade
Historical survey of the projection of seapower ashore. The course defines the concept, explores its doctrinal origins and traces its evolution as an element of naval policy during the 20th century. The case study method is used alongside the theme of general historical continuity to develop an understanding of the relatively new and still maturing concept of amphibious warfare. (H) (WR; 6000-word writing credit)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

NSC 4230 Leadership and Management 2 Credits
Grading Scheme: Letter Grade
The principles of naval administration, stressing the experimental approach to learning the principles of leadership and management. The student develops skills in the areas of communication, counseling, control, direction, leadership and management functions and responsibilities through active, guided participation in naval-based case studies, experimental exercises and situational problems. Total quality leadership and professional responsibilities are included.

NSC 4233 Leadership and Ethics 3 Credits
Grading Scheme: Letter Grade
Equips the NROTC student with the skills and abilities required for competence as a commissioned officer. This final capstone course in the NROTC curriculum builds upon and focuses the managerial, professional and ethical competencies developed during previous summer cruise training and naval science courses. Ethical philosophies and real-world situations are studied through lectures, exercises and case studies. Naval personnel management, the administration of discipline and human resource management are additional areas of focus.

NSC 4905C Independent Study 1-3 Credits
Grading Scheme: Letter Grade
Readings, assignments, student presentations and discussions on naval science.
Prerequisite: department permission.

Music

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

General Information

Music performance courses encompass studio and class lessons and are offered in voice, piano, organ, carillon, violin, viola, violoncello, string bass, flute, oboe, clarinet, bassoon, horn, trumpet, trombone, euphonium, tuba, percussion, saxophone, harpsichord and organ. These courses are primarily for music majors and are open to non-majors only by audition and instructor consent.

The student registering for the first time for music courses reports to the director of music in the School of Music, who designates a faculty member to audition and/or consult with the student and who assigns the student to the proper level and performance course number.

S-U grade options and auditing courses in music performance are not permitted.

Performance courses (1000 level) emphasize basic techniques. Music education, theory/composition, music history/literature and B.A. majors, secondary and non-majors take these courses in their first year.

Performance courses (2000 level) emphasize repertory and mastery of the basic techniques of the performing medium. Students majoring in performance will begin 2000 level courses in the first year.

Performance courses (3000 and 4000 level) are for advanced study. A student takes two semesters at the 3000 level. A full performance faculty jury exam is required for admission to 4000 level. Two semesters at the 4000 level are required of all performance and church music majors. Degree recitals must be presented at the University of Florida. All students accepted for music performance study must register and participate in an appropriate ensemble each semester of study. Consult the School of Music Student Handbook for further information on the ensemble policy.

The performer's certificate will be awarded at the discretion of the faculty to non-performance degree students. Students must be recommended by their performance teacher for the performer's certificate program at the beginning of their junior year.

Courses in performance, theory/composition, music history/literature and music education at the 3000-4000 level may be taken only after a student has achieved professional status by passing the musicianship assessment jury and the preprofessional performance jury. Other requirements include successfully completing musical styles, four semesters of ensemble (if required for degree) and four semesters of satisfactory recital attendance.

Because some students may need additional time to successfully complete the musicianship assessment jury and the preprofessional performance jury, students will be allowed to register for up to nine credits at the 3000 level prior to becoming a professional level music major. Consult the School of Music student handbook for a list of specific 3000/4000-level courses that can be taken before achieving professional level status.

Non-majors can only take music performance courses and certain others after an audition with the instructor. If the student is found to be acceptable to the studio, course will be available only on a space-available basis. Courses are department controlled and all students must see an academic advisor in music before registration.

Courses

HUM 3517 Assessment in Arts Education 3 Credits
Grading Scheme: Letter Grade
Broad foundation in all aspects of assessment as it is applied in the arts classroom, from learning theory to practical application of assessment techniques, data management, critical thinking, progress reporting, and portfolio building. Covers assessment task design in the artistic response modes; develops a series of assessments that can be implemented in the music/art classroom.
Prerequisite: Arts major of junior standing or higher.

MUC 1211 Composition Skills 1 1 Credit
Grading Scheme: Letter Grade
Required for all majors in theory/composition. Workshop in composition techniques, exploring use of styles and devices of contemporary art music and presentation through the use of finale.
Prerequisite: rudimentary music skills or written instructor permission;
Corequisite: MUT 1121.

MUC 1212 Composition Skills 2 1 Credit
Grading Scheme: Letter Grade
Required for all majors in theory/composition. Workshop in composition techniques, exploring use of styles and devices of contemporary art music and presentation through the use of finale.
Prerequisite: MUC 1211 and one semester of music theory, or written instructor permission.
Corequisite: MUT 1122.

MUC 2101 Composition Skills 3 1 Credit
Grading Scheme: Letter Grade
Required for all majors in composition. Workshop in composition techniques, exploring use of styles and devices of contemporary art music and presentation through the use of finale.
Prerequisite: MUC 1212 and one year of music theory, or written instructor permission.

MUC 2102 Composition Skills 4 1 Credit
Grading Scheme: Letter Grade
Required for all majors in composition. Workshop in composition techniques, exploring use of styles and devices of contemporary art music and presentation through use of finale.
Prerequisite: MUC 2101 and one year of music theory, or written instructor permission.

MUC 3231 Composition 1 3 Credits
Grading Scheme: Letter Grade
Composition in simple and extended forms supplemented by analysis of selected compositions, from the standard repertoire and presentation through the use of finale.
Prerequisite: composition skills, MUT 2127 or written instructor permission.

MUC 3232 Composition 2 3 Credits
Grading Scheme: Letter Grade
Composition in simple and extended forms supplemented by analysis of selected compositions, from the standard repertoire and presentation through the use of finale.
Prerequisite: MUC 3231 or written instructor permission.

MUC 4241 Composition 3 3 Credits
Grading Scheme: Letter Grade
Composition in extended forms supplemented by analysis of selection compositions, from the standard repertoire and presentation through the use of finale.
Prerequisite: MUC 3232 or written instructor permission.

MUC 4242 Composition 4 3 Credits
Grading Scheme: Letter Grade
Composition in extended forms supplemented by analysis of selection compositions, from the standard repertoire and presentation through the use of finale.
Prerequisite: MUC 4241 or written instructor permission.

MUC 4313 Introduction to Electroacoustic Music 3 Credits
Grading Scheme: Letter Grade
Survey of the techniques, history, literature and materials of electroacoustic music.
Prerequisite: MUC 2102 or written instructor permission.

MUC 4401 Composition of Electroacoustic Music 3 Credits
Grading Scheme: Letter Grade
Continuation of MUC 4313. Projects in electroacoustic music dealing with real-time, interactivity, live-electronic and solo digital media music composition issues.
Prerequisite: MUC 4313 or written instructor permission.

MUC 4441 Electroacoustic Music Composition: Digital 1 3 Credits
Grading Scheme: Letter Grade
Continuation of skills developed through MUC 4401, Composition of Electroacoustic Music.
Prerequisite: MUC 4401.

MUC 4442 Electroacoustic Music Composition: Digital 2 3 Credits
Grading Scheme: Letter Grade
Continuation of skills developed through MUC 4441, Electroacoustic Music Composition: Digital 1.
Prerequisite: MUC 4441.

MUC 4950 Senior Composition Recital 1 Credit
Grading Scheme: Letter Grade
Organization and presentation of a recital of original compositions.

MUE 1090 Exploring Music Teaching and Learning 1 Credit
Grading Scheme: Letter Grade
An introduction to and overview of music teaching as a profession. Designed for both students who have chosen to major in music education and those who are interested in learning more about a possible career as a music educator.
Prerequisite: Music major or instructor permission.

MUE 2040 Music Teaching as a Profession 3 Credits
Grading Scheme: Letter Grade
An overview of philosophical, historical, psychological, and sociological perspectives on music education in schools. Contemporary topics and trends including diversity, special needs students, and culturally responsive pedagogy will be discussed. The Florida Educator Accomplished Practices (FEAPs) will be introduced. Field experience in schools.

MUE 2430 Voice Skills 1 Credit
Grading Scheme: Letter Grade
Required of all music education majors. Basic technical competency and pedagogical technique for voice.
Prerequisite: music majors only and department permission.

MUE 2440 String Skills 1 1 Credit
Grading Scheme: Letter Grade
Required of all music education majors. Basic technical competency and pedagogical techniques for the upper string instruments: violin/viola.
Prerequisite: music majors only and department permission.

MUE 2442 String Skills 2 1 Credit
Grading Scheme: Letter Grade
Basic technical competency and pedagogical techniques for the lower string instruments: cello and double bass.
Prerequisite: music majors only and department permission.

MUE 2450 Woodwind Skills 1 1 Credit
Grading Scheme: Letter Grade
Required of all music education majors. Basic technical competency and pedagogical techniques for clarinet and flute.
Prerequisite: music majors.

MUE 2452 Woodwind Skills 2 1 Credit
Grading Scheme: Letter Grade
Basic technical competency and pedagogical techniques for alto saxophone, bassoon and oboe.
Prerequisite: music majors only and department permission.

MUE 2460 Brass Skills 1 1 Credit
Grading Scheme: Letter Grade
Required of all music education majors. Basic technical competency and pedagogical techniques for two brass instruments.
Prerequisite: music majors only and department permission.

MUE 2462 Brass Skills 2 1 Credit
Grading Scheme: Letter Grade
Basic technical competency and pedagogical techniques for two brass instruments, other than those studied in MUE 3460.
Prerequisite: music majors only and department permission.

MUE 2470 Percussion Skills 1 Credit
Grading Scheme: Letter Grade
Required of all music education majors. Basic technical competency and pedagogical techniques for percussion instruments.
Prerequisite: music majors only and department permission.

MUE 2471 Percussion Skills 2 1 Credit
Grading Scheme: Letter Grade
Continuation of percussion teaching and performance skills.
Prerequisite: MUE 2470.

MUE 2680 Music Learning with Technology 2 Credits
Grading Scheme: Letter Grade
This class will explore the role of digital technologies in creating, performing, and responding to music, with applications to the practice of K-12 music educators and the cultivation of lifelong music learning and participation.
Prerequisite: Music major.

MUE 3210 Music for the Elementary Child 2-3 Credits
Grading Scheme: Letter Grade
Helps meet state certification requirements for elementary classroom teachers. Function of elementary school music in aiding the developmental growth of children.
Prerequisite: HUM 2511 strongly recommended.

MUE 3311 Music in Elementary Schools 3 Credits
Grading Scheme: Letter Grade
Fundamental principles and procedures of music education in elementary school.
Prerequisite: MUE 2040 and midpoint guidance conference.

MUE 3330 Music in Secondary Schools 3 Credits
Grading Scheme: Letter Grade
Fundamental principles and procedures of music education in the secondary school.
Prerequisite: MUE 2040 and midpoint guidance conference.

MUE 3343 Materials and Methods of String Class Teaching 2 Credits
Grading Scheme: Letter Grade
The study of contemporary materials and methods suitable for use in public school string classes.
Prerequisite: MUE 2440.

MUE 3416 Literature and Arranging for School Choirs 3 Credits
Grading Scheme: Letter Grade
Become familiar with techniques and approaches for selecting and programming literature for K-12 performing ensembles. Introduces fundamental techniques used to create arrangements of choral and vocal works in order to better meet the needs of individual singers or ensembles. Also addresses arranging for instruments.
Prerequisite: MUE 3311 with a minimum grade of C.

MUE 3417 Literature and Arranging for Instrumental Ensembles 3 Credits
Grading Scheme: Letter Grade
Techniques for selecting, programming, and arranging music for school instrumental ensembles. Overview of repertoire and arranging techniques including genres, established works, composers, and publishers; pedagogical and practical considerations related to the selection and modification of music. Discussion of relevant copyright laws.
Prerequisite: MUE 3311.

MUE 4140 Music Student Teaching Seminar 3 Credits
Grading Scheme: Letter Grade
Principles and practices of developing, teaching, and administering K-12 public school music programs.
Prerequisite: EDG 4203 and MUE 3330; MVB 3970; MUG 4202 or MUG 4302.
Corequisite: MUE 4940.

MUE 4421 Teaching Secondary Choral Music 3 Credits
Grading Scheme: Letter Grade
Develop techniques and skills necessary to build and sustain a successful and comprehensive choral program in a secondary school setting. Students will synthesize and apply previous knowledge and skills related to vocal physiology and pedagogy, lesson and curriculum planning, sight-singing and musicianship, and other topics. Field experience in schools.
Prerequisite: MUE 3330, professional performance jury and musicianship assessment jury.

MUE 4422 Teaching Instrumental Music 3 Credits
Grading Scheme: Letter Grade
Develop musical and pedagogical knowledge, skills, and dispositions essential for teaching elementary, middle school, and high school instrumental music. Field work in schools.
Prerequisite: MUE 3330, professional performance jury and musicianship assessment jury.

MUE 4480 Marching Band Techniques 3 Credits
Grading Scheme: Letter Grade
Examination, evaluation and practical application of marching band techniques for the high school and college band director.
Prerequisite: MUE 3330, professional performance jury and musicianship assessment jury.

MUE 4940 Student Teaching in Music Education 9 Credits
Grading Scheme: S/U
Student teaching in selected classrooms of public schools. Special seminars and continuous evaluation of teaching experiences. (S-U)
Corequisite: MUE 4140; all coursework must be completed except MUE 4140.

MUG 4104 Conducting 1 1-2 Credits
Grading Scheme: Letter Grade
Basic techniques of choral and instrumental conducting.
Prerequisite: professional performance jury, musicianship assessment jury.

MUG 4202 Choral Conducting and Materials 2 Credits
Grading Scheme: Letter Grade
Basic techniques of choral conducting, score analysis, interpretation and use of basic choral materials.
Prerequisite: MUG 4104.

MUG 4302 Instrumental Conducting and Materials 1-2 Credits
Grading Scheme: Letter Grade
Basic techniques of instrumental conducting, score analysis, interpretation and use of basic instrumental materials.
Prerequisite: MUG 4104.

MUH 2501 Introduction to World Musics 3 Credits
Grading Scheme: Letter Grade
Introduction to musics of non-western cultures in comparison with music of Western European civilizations; the nature of music and the realm of ethnomusicology. (H and N)
Attributes: General Education - Humanities, General Education - International

MUH 3025 Popular Music in the USA: From Ragtime to Hip-Hop and Beyond 3 Credits
Grading Scheme: Letter Grade
Survey of the musical styles, artists, audiences and eras of American popular music in relation to the social, cultural, political and historical contexts in which they emerged. Special attention is given to the diversity and intersecting nature of musical voices in the USA through the examination of musical styles including rock, rhythm and blues, country, punk, hip-hop, salsa and beyond. (H and D)
Attributes: General Education - Diversity, General Education - Humanities

MUH 3211 Music History Survey 1 3 Credits
Grading Scheme: Letter Grade
Survey of music literature, styles and techniques from antiquity to ca. 1600. Examines representative repertoire from historical, theoretical, and cultural contexts; develop critical thinking skills in reading and writing, analysis, and listening. (H and N) (WR)
Prerequisite: music major, MUT 1121 and MUT 1122 with minimum grades of C.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

MUH 3212 Music History Survey 2 3 Credits
Grading Scheme: Letter Grade
Survey of music literature, styles and techniques from ca. 1600 to ca. 1820. Examines representative repertoire from historical, theoretical, and cultural contexts; develop critical thinking skills in reading and writing, analysis and listening. (H and N) (WR)
Prerequisite: music majors, MUH 3211 or MUT 2127 with a minimum grade of C.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

MUH 3213 Music History Survey 3 3 Credits
Grading Scheme: Letter Grade
Survey of music literature, styles and techniques from ca. 1820 to the present. Examines representative repertoire from historical, theoretical and cultural contexts; develop critical skills in reading and writing, analysis and listening. (H) (WR)
Prerequisite: music majors, MUH 3211 and MUH 3212 with minimum grades of C, or coreq of MUT 2127.
Attributes: General Education - Humanities, Satisfies 2000 Words of Writing Requirement

MUH 3530 Popular and Traditional Musics of Africa 3 Credits
Grading Scheme: Letter Grade
A study of traditional and popular African musical styles placed within their historical, social and cultural environments. (H and N)
Prerequisite: MUH 2501 or written instructor permission.
Attributes: General Education - Humanities, General Education - International

MUH 3532 Music and Healing in Contemporary Africa 3 Credits
Grading Scheme: Letter Grade
Explores the historical role of music in healing traditions across African by exploring practices based around dance, religion, ritual and modern health care methodologies. Outlines the changing historical perspectives of Western rational thought on art-based practices, contextualizing contemporary approaches throughout the continent.
Prerequisite: ENC 1101 or instructor permission.

MUH 3541 Latin American Music 3 Credits
Grading Scheme: Letter Grade
The variable musical expressions of Latin America (including the Caribbean), their historical formations and social importance. (H and N)
Prerequisite: MUL 2010, MUH 3211 or written instructor permission.
Attributes: General Education - Humanities, General Education - International

MUH 3621 Jewish Art Music in Western Culture 3 Credits
Grading Scheme: Letter Grade
Cultural history of western art music inspired by Jewish subjects, Biblical and non-Biblical, composed by both Jewish and non-Jewish composers, and a survey of Jewish performing musicians from the Renaissance to the present. (H and N)
Prerequisite: written instructor permission.
Attributes: General Education - Humanities, General Education - International

MUH 4016 History of Jazz 3 Credits
Grading Scheme: Letter Grade
From African, Latin American and Black American sources through contemporary development. (H and N)
Attributes: General Education - Humanities, General Education - International

MUH 4930 Special Topics in Music History 3 Credits
Grading Scheme: Letter Grade
Rotating topics of current or special interest to students or instructors.
Prerequisite: written instructor permission.

MUL 2010 Experiencing Music 3 Credits
Grading Scheme: Letter Grade
Examines how we experience music and how it teaches us about ourselves and our world. Illuminates how music both shapes and is shaped by social, political, national, and cultural forces. Music from around the world demonstrates a variety of musical experiences within historical and contemporary cultural settings. (H and N)
Attributes: General Education - Humanities, General Education - International

MUL 3341 Baroque Literature 3 Credits
Grading Scheme: Letter Grade
Compositions of Monteverdi, Gabrieli, Schultz, Buxtehude, Bach, Handel and others.
Prerequisite: MUL 2010 or MUH 3211.

MUL 3693 The American Musical: Broadway and Beyond 3 Credits
Grading Scheme: Letter Grade
Provides non-music majors and music minors with an introduction to the history and development of the American musical, focusing on the genre's relationship to American culture and society. Topics include musical and dramatic features of specific works, principal creators and performers, commercialization and popularity, the genre's relationship to film, its role in the formation of America's national identity, and its communication of American values, attitudes and norms with regard to different cultures. (H)
Prerequisite: MUL 2010, MUL 2501 or instructor permission.
Attributes: General Education - Humanities

MUL 4334 Renaissance Literature 3 Credits
Grading Scheme: Letter Grade
Renaissance literature surveys the music from the period roughly 1430-1600, stressing the major genres of mass, motet, madrigal and chanson, and touching on less prominent regional practices and instrumental music. The music is placed into social and historical context. (H and N)
Prerequisite: MUL 2010 or MUH 3211.
Attributes: General Education - Humanities, General Education - International

MUL 4361 Romantic Literature 3 Credits
Grading Scheme: Letter Grade
Representative Romantic literature in such genres as the symphony, symphonic poem, opera, song, chamber music, piano music and sacred music. Composers from Beethoven through Mahler. (H and N)
Prerequisite: MUL 2010 or MUH 3211.
Attributes: General Education - Humanities, General Education - International

MUL 4371 Contemporary Literature 3 Credits
Grading Scheme: Letter Grade
Twentieth-century music literature, including works of Debussy, Ravel, Stravinsky, Schoenberg, Webern, Berg, Hindemith, Bartok, Copland, Sessions, Boulez and Stockhausen. (H and N)
Prerequisite: MUL 2010 or MUH 3211.
Attributes: General Education - Humanities, General Education - International

MUL 4400 Piano Literature Seminar 2-3 Credits
Grading Scheme: Letter Grade
A survey of piano literature from early keyboard works to the present.
Prerequisite: Music major to self-register.

MUL 4432 String Lit Seminar 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MUL 4441 Woodwind Literature Seminar 2 Credits
Grading Scheme: Letter Grade
An intensive, investigative study of representative repertoire for woodwind instruments.
Prerequisite: Music major to self-register.

MUL 4442 Brass Literature Seminar 2 Credits
Grading Scheme: Letter Grade
An intensive, investigative study of standard repertoire for brass instruments.
Prerequisite: Music major to self-register.

MUL 4460 Percussion Literature Seminar 2 Credits
Grading Scheme: Letter Grade
An intensive, investigative study of standard repertoire for solo percussion and percussion ensemble.
Prerequisite: professional performance jury and musicianship assessment jury.

MUL 4490 Organ Literature Seminar 2 Credits
Grading Scheme: Letter Grade
A survey of the major trends and styles of organ composition from the Renaissance to the present.
Prerequisite: professional performance jury and musicianship assessment jury.

MUL 4602 Song Literature Seminar 2-3 Credits
Grading Scheme: Letter Grade
The study and performance of representative literature for the voice from each style period.
Prerequisite: Music major to self-register.

MUL 4662 History and Literature of Opera 3 Credits
Grading Scheme: Letter Grade
Offered in Miami only.

MUL 4801 The Music of J.S. Bach 3 Credits
Grading Scheme: Letter Grade
Offered in Miami only. The works of Bach with special emphasis on the historical sources of his choral and instrumental styles and detailed study of a selection of his chief works.
Prerequisite: MUL 2010 or MUH 3211.

MUL 4802 The Music of W.A. Mozart 3 Credits
Grading Scheme: Letter Grade
Offered in Miami only. The music, life and times of Mozart.
Prerequisite: MUL 2010 or MUH 3211.

MUN 1110 Marching Band 1 Credit
Grading Scheme: Letter Grade
Performance of marching band literature.

MUN 1120 Concert Band 1 Credit
Grading Scheme: Letter Grade
Performance of general and popular band literature. (H)
Attributes: General Education - Humanities

MUN 1130 Symphonic Band 1 Credit
Grading Scheme: Letter Grade
Performance of traditional and contemporary band literature. (H)
Prerequisite: audition.
Attributes: General Education - Humanities

MUN 1140 Wind Symphony 1 Credit
Grading Scheme: Letter Grade
Performance of wind ensemble literature. (H)
Prerequisite: audition.
Attributes: General Education - Humanities

MUN 1210 University Orchestra 1 Credit
Grading Scheme: Letter Grade
Standard orchestra literature. (H)
Prerequisite: conductor permission.
Attributes: General Education - Humanities

MUN 1310 University Choir 1 Credit
Grading Scheme: Letter Grade
An advanced choral group providing specialized study performance opportunities for vocally qualified students. (H)
Prerequisite: audition.
Attributes: General Education - Humanities

MUN 1320 Women's Chorale 1 Credit
Grading Scheme: Letter Grade
Vocal training and public performances of standard female chorus repertoire. (H)
Attributes: General Education - Humanities

MUN 1330 Men's Glee Club 1 Credit
Grading Scheme: Letter Grade
Vocal training and public performance of standard male chorus repertoire. (H)
Attributes: General Education - Humanities

MUN 1440 Percussion Ensemble 1 Credit
Grading Scheme: Letter Grade
The study and performance of ensemble literature for percussion instruments. (H)
Prerequisite: audition.
Attributes: General Education - Humanities

MUN 1460 Chamber Music Ensemble 1-3 Credits
Grading Scheme: Letter Grade
Examination and performance of standard repertoire for chamber ensembles.
Prerequisite: audition.

MUN 1491 Steel Drum Ensemble 1 Credit
Grading Scheme: Letter Grade
Prerequisite: conductor permission.

MUN 1710 Jazz Bands 1 Credit
Grading Scheme: Letter Grade
Standard and experimental jazz ensembles. A jazz laboratory. (H)
Attributes: General Education - Humanities

MUN 2800 World Music Ensemble 1 Credit
Grading Scheme: Letter Grade
The rehearsal and performance of folk and traditional musics of the world. (H)
Prerequisite: director permission.
Attributes: General Education - Humanities

MUN 3113 Marching Band 1 Credit
Grading Scheme: Letter Grade
Performance of marching band literature.

MUN 3123 Concert Band 1 Credit
Grading Scheme: Letter Grade
Performance of general and popular band literature. (H)
Attributes: General Education - Humanities

MUN 3133 Symphonic Band 1 Credit
Grading Scheme: Letter Grade
Performance of traditional and contemporary band literature.
Prerequisite: audition.

MUN 3143 Wind Symphony 1 Credit
Grading Scheme: Letter Grade
Performance of wind ensemble literature. (H)
Prerequisite: audition.
Attributes: General Education - Humanities

MUN 3213 University Orchestra 1 Credit
Grading Scheme: Letter Grade
Standard orchestra literature. (H)
Prerequisite: conductor permission.
Attributes: General Education - Humanities

MUN 3313 University Choir 1 Credit
Grading Scheme: Letter Grade
An advanced choral group providing specialized study performance opportunities for vocally qualified students. (H)
Prerequisite: audition.
Attributes: General Education - Humanities

MUN 3323 Women's Chorale 1 Credit
Grading Scheme: Letter Grade
Vocal training and public performances of standard female chorus repertoire. (H)
Attributes: General Education - Humanities

MUN 3333 Men's Glee Club 1 Credit
Grading Scheme: Letter Grade
Vocal training and public performance of standard male chorus repertoire. (H)
Attributes: General Education - Humanities

MUN 3343 University Chamber Singers 1 Credit
Grading Scheme: Letter Grade
Study and performance of early and contemporary vocal literature. (H)
Prerequisite: audition.
Attributes: General Education - Humanities

MUN 3443 Percussion Ensemble 1 Credit
Grading Scheme: Letter Grade
Attributes: General Education - Humanities

MUN 3454 Two Piano Literature 2 Credits
Grading Scheme: Letter Grade
Offered in Miami only.

MUN 3463 Chamber Music 1-2 Credits
Grading Scheme: Letter Grade
Exploration of the assigned repertoire through weekly one-hour coaching sessions with the instructor, a minimum of three hours weekly of unsupervised group rehearsal and a final performance by each group on the class recital. Students will study the art of chamber music interpretation and performance and develop effective group rehearsal technique.
Prerequisite: by audition only in the first week of classes before the drop/add deadline.

MUN 3493 New Music Ensemble 1 Credit
Grading Scheme: Letter Grade
Rehearsal and performance of repertoire for small ensembles written in the 20th and 21st centuries.
Prerequisite: instructor permission.

MUN 3643 Musical Theatre Ensemble 1 Credit
Grading Scheme: Letter Grade
Offered in Miami only. Examination and performance of standard repertoire for the musical theatre.
Prerequisite: director permission.

MUN 3713 Jazz Bands 1 Credit
Grading Scheme: Letter Grade
Standard and experimental jazz ensembles. A jazz laboratory.

MUN 3714 Jazz Chamber Music 1 1 Credit
Grading Scheme: Letter Grade
Small group ensemble performance experience in the jazz idiom. Students will memorize jazz standards and learn melody interpretation techniques, rhythmic techniques to communicate to other members of the ensemble and small group compositional techniques for harmonizing jazz standards and original compositions.
Prerequisite: MUT 1362 with a minimum grade of B.

MUN 3803 World Music Ensemble 1 Credit
Grading Scheme: Letter Grade
The rehearsal and performance of folk and traditional musics of the world.
Prerequisite: director permission.

MUN 3813 Steel Drum Ensemble 1 Credit
Grading Scheme: Letter Grade

MUO 3503 Opera Workshop 1 Credit
Grading Scheme: Letter Grade
Study and performance of works from opera and operetta.
Prerequisite: director permission.

MUR 3104 Music and the Catholic Church 3 Credits
Grading Scheme: Letter Grade
Examines the music of the Catholic Church from historical and artistic perspectives and presents issues that have surrounded major changes in the church's music. Focuses on six historical periods in which the church was significantly focused on musical developments or changes. Views the music from various cultural perspectives, primarily U.S. and European. Requires online computer proficiency and high-speed Internet access. (H) (WR)
Attributes: General Education - Humanities, Satisfies 4000 Words of Writing Requirement

MUS 1010 Recital Attendance 0 Credits
Grading Scheme: S/U
Attendance at concerts and recitals. Students must check the school of music student's handbook for specific attendance requirements. (S-U)

MUS 1360 Introduction to Music Technology 2-3 Credits
Grading Scheme: Letter Grade
Introduction to word processing, internet, presentation, CD ROM, multimedia, music printing and music sequencing.

MUS 2211 English Diction 1 Credit
Grading Scheme: Letter Grade
An English diction course for singers and choral directors to improve their capacity to respond with ease, accuracy and expression.

MUS 2221 French Diction 1 Credit
Grading Scheme: Letter Grade
A French diction course for singers and choral directors to improve their capacity to respond with ease, accuracy and expression.

MUS 2231 German Diction 1 Credit
Grading Scheme: Letter Grade
A German diction course for singers and choral directors to improve their capacity to respond with ease, accuracy and expression.

MUS 2241 Italian Diction 1 Credit
Grading Scheme: Letter Grade
An Italian diction course for singers and choral directors to improve their capacity to respond with ease, accuracy and expression.

MUS 2931 Interdisciplinary Honors in Music 3 Credits
Grading Scheme: Letter Grade
Attributes: Satisfies 6000 Words of Writing Requirement

MUS 4203 Language and Diction for Singers 2 2 Credits
Grading Scheme: Letter Grade
Offered in Miami only.

MUS 4204 Language and Diction for Singers 1 2 Credits
Grading Scheme: Letter Grade
Offered in Miami only.

MUS 4905 Projects and Problems in Music 1-3 Credits
Grading Scheme: Letter Grade
Individual work in music and music education.

MUS 4910 Supervised Research 1-3 Credits
Grading Scheme: S/U
Individual guided research in music and music education. (S-U)

MUT 1001 Introduction to Music Theory Rudiments 2 Credits
Grading Scheme: Letter Grade
The study of notation, scales, intervals, triads, aural skills and keyboard skills.

MUT 1011 How Music Works 3 Credits
Grading Scheme: Letter Grade
Students gain an understanding of musics architecture on small and large scales. By learning both conceptual and applied approaches to rhythm, pitch and timbre, students prepare to analyze musical works from various times and places to be more informed, critical listeners and makers of music. Skills developed include notation, ear training and compositional techniques. (H)
Attributes: General Education - Humanities

MUT 1111 Music Theory 1 2 Credits
Grading Scheme: Letter Grade
Studies rhythms, intervals, motifs, phrases, melodies, chords and chord progressions, in the standard clefs through listening, playing, and writing. Chord study includes primary and secondary triads in root position and inversions, non-harmonic tones and seventh chords.
Prerequisite: Music Theory Placement Examination or MUT 1001

MUT 1112 Music Theory 2 2 Credits
Grading Scheme: Letter Grade
Rhythms, intervals, motifs, phrases, melodies, chords and chord progressions, in the standard clefs through listening, playing, singing and writing. Chord study includes primary and secondary triads in root position and inversions, non-harmonic tones and diatonic seventh chords.

MUT 1121 Theory of Music 1 3 Credits
Grading Scheme: Letter Grade
Rhythms, intervals, motifs, phrases, melodies, chords and chord progressions, in the standard clefs through listening, playing, singing and writing. Chord study includes primary and secondary triads in root position and inversions, non-harmonic tones and diatonic seventh chords.
Prerequisite: Music Theory Placement Examination or MUT 1001;
Corequisite: MVK 1111 or MVK 1112.

MUT 1122 Theory of Music 2 3 Credits
Grading Scheme: Letter Grade
Rhythms, intervals, motifs, phrases, melodies, chords and chord progressions, in the standard clefs through listening, playing, singing and writing. Chord study includes primary and secondary triads in root position and inversions, non-harmonic tones and diatonic seventh chords.
Prerequisite: Music Theory Placement Examination or MUT 1121 or equivalent;
Corequisite: MVK 1111 or MVK 1112.

MUT 1214 Jazz Aural Skills 1 1 Credit
Grading Scheme: Letter Grade
This course teaches students how to aurally recognize commercial chords, standard chord progressions and recognize the scales used in improvisation. This course is a hybrid course with only 7 in class meetings. The course utilizes online resources and instructional videos and online aural quizzes and weekly aural skills drills.
Prerequisite: MUT 1361 with a grade of B or higher.

MUT 1241L Aural Skills 1 1 Credit
Grading Scheme: Letter Grade
First of a sequence of four courses that develop skills in sight singing and ear training. Singing techniques are taught at the beginning of the course.

MUT 1242L Aural Skills 2 1 Credit
Grading Scheme: Letter Grade
Second of a sequence of four courses that develop skills in sight singing and ear training.
Prerequisite: MUT 1241L

MUT 1361 Jazz Fundamentals 1 2 Credits
Grading Scheme: Letter Grade
This course is fully online and provides a basic theoretical understanding of jazz harmony, jazz chord symbols, common jazz scales and modes, jazz articulations, blues forms and piano voicings. Online resources include online platform, flash cards, worksheets and 35 instructional videos.
Prerequisite: Jazz Theory Proficiency Exam with a score of B or higher.

MUT 1362 Jazz Fundamentals 2 2 Credits
Grading Scheme: Letter Grade
This course provides an intermediate theoretical understanding of jazz harmony, jazz chord symbols, common jazz scales and modes, jazz articulations, blues forms, piano voicings, the basics of tune writing and techniques in accurately memorizing jazz standards. Online resources include online platform, flash cards, worksheets and 35 instructional videos.
Prerequisite: MUT 1361 with a grade of B or higher.

MUT 2116 Music Theory 3 2 Credits
Grading Scheme: Letter Grade
Using Roman numerals, analyze harmonically the music of the common practice period; includes all harmonic materials studied to date such as Borrowed chords, Neapolitan 6th chords, and Augmented 6th chords. The study of forms from the 18th and 19th Centuries.

MUT 2117 Music Theory 4 2 Credits
Grading Scheme: Letter Grade
The study of the materials and structures of tonal and post-tonal music through reading, listening, model composition, and music analysis.

MUT 2126 Theory of Music 3 3 Credits
Grading Scheme: Letter Grade
Modulation, secondary dominants, diminished sevenths, Neapolitan and augmented sixth, chords of the ninth, eleventh, thirteenth, sight singing and dictation.
Prerequisite: MUT 1121;
Corequisite: MVK 2121 or MVK 2222.

MUT 2127 Theory of Music 4 3 Credits
Grading Scheme: Letter Grade
Modulation, secondary dominants, diminished sevenths, Neapolitan and augmented sixth, chords of the ninth, eleventh, thirteenth, sight singing and dictation.
Prerequisite: MUT 2126;
Corequisite: MVK 2121 or MVK 2222.

MUT 2246L Aural Skills 3 1 Credit
Grading Scheme: Letter Grade
Third of a sequence of four courses that develop skills in sight singing and ear training.
Prerequisite: MUT 1241L and MUT 1242L

MUT 2247L Aural Skills 4 1 Credit
Grading Scheme: Letter Grade
Fourth in a sequence of four courses that develop skills in sight singing and ear training.
Prerequisite: MUT 1241L, MUT 1242L, and MUT 2246L

MUT 2641 Jazz Improvisation 2 Credits
Grading Scheme: Letter Grade
Prerequisite: written instructor permission.

MUT 3321 Arranging for Voices and Instruments 3 Credits
Grading Scheme: Letter Grade
Study of voices and instruments, singly and by family, with basic scoring for standard ensemble combinations.
Prerequisite: professional performance jury and musicianship assessment jury.

MUT 3322 Scoring for Band and Orchestra 3 Credits
Grading Scheme: Letter Grade
Transcribing and arranging for full band and orchestra, including preparation of parts for performance.
Prerequisite: professional performance jury and musicianship assessment jury; MUT 3321.

MUT 3611 Form and Analysis 1 3 Credits
Grading Scheme: Letter Grade
Analysis of melodic structures and homophonic forms of the common practice period including binary, ternary, rondo and sonata-allegro forms.
Prerequisite: professional performance jury and musicianship assessment jury.

MUT 3612 Form and Analysis 2 3 Credits
Grading Scheme: Letter Grade
Analysis of contrapuntal forms of canon, motet and fugue; study of musical forms in the 20th century.
Prerequisite: MUT 3611.

MUT 4365 Jazz Arranging 1 2 Credits
Grading Scheme: Letter Grade
This course provides instruction in jazz composition and arranging as well as the basic techniques for commercial song writing. Students will study chord movement, melodic development and composition techniques for various styles of music. Students will complete several small group arrangements and original jazz compositions.
Prerequisite: MUT 1362 and MUT 2641 with minimum grades of B.

MUT 4366 Jazz Arranging 2 2 Credits
Grading Scheme: Letter Grade
This course provides instruction in jazz composition and arranging as well as the basic techniques for commercial song writing. Students will score a large group arrangement and a big band chart for eight brass, five saxophones and four rhythm section players.
Prerequisite: MUT 4365 with a minimum grade of B.

MUT 4401 Counterpoint 1 3 Credits
Grading Scheme: Letter Grade
Addresses the practice of two-voice counterpoint in Renaissance and Baroque styles with additional focus on historical context. Through composition, study, performance and listening, students gain fluency in both strict and free two-part counterpoint, compound melody, canon, antiphon and inventions.
Prerequisite: MUT 2126.

MUT 4402 Counterpoint 2 3 Credits
Grading Scheme: Letter Grade
Continues the study of counterpoint begun in MUT 4401, expanding two-voice composition and analysis into three and four voices. Straddling the late Renaissance and the Baroque, the techniques covered in this class prepare students to write and fully comprehend modal motets as well as tonal fugues. Through analysis, composition, study, performance and listening, students will gain competence in the strict techniques and idioms of multi-voiced imitative entrance, sequence and subject harmonization. Students will also familiarize themselves with Bach's The Well-Tempered Clavier both for its technical uses of counterpoint, exemplary and exceptional, and its historical significance. The course concludes with a brief excursion into the use of chromaticism in later contrapuntal styles.
Prerequisite: MUT 4401.

MUT 4411 Modal Counterpoint 3 Credits
Grading Scheme: Letter Grade
Free and strict counterpoint in the 16th century modal style through listening, reading, playing, singing and writing.
Prerequisite: professional performance jury and musicianship assessment jury.

MUT 4421 Tonal Counterpoint 3 Credits
Grading Scheme: Letter Grade
Counterpoint in the 18th-century style through listening, reading, playing, singing and writing.
Prerequisite: professional performance jury and musicianship assessment jury.

MUT 4601 Score Reading 2 Credits
Grading Scheme: Letter Grade
Score-reading at the keyboard. Exercises in realization of music in two or more staves and clefs, and involving instrumental transpositions.
Prerequisite: professional performance jury and musicianship assessment jury.

MUT 4663 Advanced Jazz Musicianship 2 Credits
Grading Scheme: Letter Grade
Instruction covers implementing jazz harmony, chord symbols, jazz scales and modes, jazz articulations, and techniques for accurately memorizing jazz standards. Lessons focus on implementing these concepts in jazz performances. This course uses the music of the blues, jazz standards, and contemporary music as "play along" tools.
Prerequisite: MUT 1362 with a grade of B or higher and instructor permission.

MVB 1411 Trumpet 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVB 1412 French Horn 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVB 1413 Trombone 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVB 1414 Euphonium 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVB 1415 Tuba 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVB 2421 Trumpet 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVB 2422 French Horn 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVB 2423 Trombone 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVB 2424 Euphonium 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVB 2425 Tuba 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVB 3431 Trumpet 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVB 3432 French Horn 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVB 3433 Trombone 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVB 3434 Euphonium 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVB 3435 Tuba 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVB 3970 Junior Recital 1 Credit
Grading Scheme: Letter Grade
All music majors in the Bachelor of Music program must present a public recital during their junior year. See areas of emphasis for specific requirements.
Prerequisite: Fine Arts students, music or music education majors

MVB 4441 Trumpet 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVB 4442 French Horn 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVB 4443 Trombone 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVB 4444 Euphonium 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVB 4445 Tuba 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVB 4640 Brass Instruments Pedagogy 3 Credits
Grading Scheme: Letter Grade
An analysis of the principles, methods and practices currently used in the teaching of brass instruments.
Prerequisite: Fine Arts students, music or music education majors

MVB 4971 Senior Recital 1 Credit
Grading Scheme: Letter Grade
All music performance majors must present a public recital during their senior year. See areas of emphasis for specific requirements.
Prerequisite: Fine Arts students, music or music education majors

MVK 1111 Secondary Piano 1 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: MUT 1001 and music majors.

MVK 1112 Secondary Piano 2 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: MVK 1111 and music majors.

MVK 1411 Piano 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVK 1412 Harpsichord 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVK 1413 Organ 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVK 1415 Carillon 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVK 2221 Secondary Piano 3 1-3 Credits
Grading Scheme: Letter Grade
This course is required of all music majors, with the exception of keyboard majors. Levels (3) and (4) may be exempted by examination.
Prerequisite: MVK 1112 and music majors.

MVK 2222 Secondary Piano 4 1-3 Credits
Grading Scheme: Letter Grade
This course is required of all music majors, with the exception of keyboard majors. Levels (3) and (4) may be exempted by examination.
Prerequisite: MVK 2221 and music majors.

MVK 2421 Piano 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVK 2422 Harpsichord 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVK 2423 Organ 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVK 2425 Carillon 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVK 3431 Piano 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVK 3432 Harpsichord 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVK 3433 Organ 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVK 3435 Carillon 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVK 3702 Accompanying 2 Credits
Grading Scheme: Letter Grade
Instrumental chamber music, song, orchestral reductions and editions.
Prerequisite: Fine Arts students, music or music education majors

MVK 3970 Junior Recital 1 Credit
Grading Scheme: Letter Grade
All music majors in the Bachelor of Music program must present a public recital during their junior year. See areas of emphasis for specific requirements.

MVK 4126 Improvisational Keyboard Skills and Related Technology 2 Credits
Grading Scheme: Letter Grade
Study of improvisational skills, electric keyboard technology, and musical styles outside of the classical realm.
Prerequisite: for upper-division and graduate keyboard majors/minors; instructor permission.

MVK 4441 Piano 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVK 4442 Harpsichord 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVK 4443 Organ 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Fine Arts students, music or music education majors

MVK 4600 Organ Pedagogy 3 Credits
Grading Scheme: Letter Grade
An analysis of the principles, methods and practices currently in the teaching of organ.
Prerequisite: Fine Arts students, music or music education majors

MVK 4640 Piano Pedagogy 3 Credits
Grading Scheme: Letter Grade
An analysis of the principles, methods and practices currently used in the teaching of piano.
Prerequisite: Fine Arts students, music or music education majors

MVK 4971 Senior Recital 1 Credit
Grading Scheme: Letter Grade
All music performance must present a public recital during the senior year. See areas of emphasis for specific requirements.
Prerequisite: Fine Arts students, music or music education majors

MVO 3970 Junior Recital 1 Credit
Grading Scheme: Letter Grade

MVP 1411 Percussion 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVP 2421 Percussion 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVP 3431 Percussion 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVP 3970 Junior Recital 1 Credit
Grading Scheme: Letter Grade
All music majors in the Bachelor of Music program must present a public recital during their junior year. See areas of emphasis for specific requirements.

MVP 4441 Percussion 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVP 4971 Senior Recital 1 Credit
Grading Scheme: Letter Grade
All music performance majors must present a public recital during the senior year. See areas of emphasis for specific requirements.

MVS 1411 Violin 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 1412 Viola 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 1413 Cello 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 1414 String Bass 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 1416 Guitar 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 2421 Violin 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 2422 Viola 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 2423 Cello 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 2424 String Bass 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 2426 Guitar 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 3431 Violin 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 3432 Viola 1-3 Credits
Grading Scheme: Letter Grade

MVS 3433 Cello 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 3434 String Bass 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 3436 Guitar 3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 3970 Junior Recital 1 Credit
Grading Scheme: Letter Grade
All music majors in the Bachelor of Music program must present a public recital during their junior year. See areas of emphasis for specific requirements.

MVS 4441 Violin 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 4442 Viola 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 4443 Cello 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 4444 String Bass 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 4446 Guitar 3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 4640 String Instrument Pedagogy 3 Credits
Grading Scheme: Letter Grade
An introduction to the teaching of basic string instrument techniques.
Prerequisite: MVS 2000 level.

MVS 4971 Senior Recital 1 Credit
Grading Scheme: Letter Grade
All music performance majors must present a public recital during their senior year. See areas of emphasis for specific requirements.

MVV 1411 Voice 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVV 2421 Voice 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVV 3431 Voice 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVV 3970 Junior Recital 1 Credit
Grading Scheme: Letter Grade
All music majors in the Bachelor of Music program must present a public recital during their junior year. See areas of emphasis for specific requirements.

MVV 4441 Voice 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVV 4640 Vocal Pedagogy 1-3 Credits
Grading Scheme: Letter Grade
An analysis of various methods, principles and practices in the teaching of voice.
Prerequisite: MVV 2421.

MVV 4971 Senior Recital 1 Credit
Grading Scheme: Letter Grade
All music performance and church music majors must present a public recital during their senior year. See areas of emphasis for specific requirements.

MVW 1411 Flute 1-3 Credits
Grading Scheme: Letter Grade

MVW 1412 Oboe 1-3 Credits
Grading Scheme: Letter Grade

MVW 1413 Clarinet 1-3 Credits
Grading Scheme: Letter Grade

MVW 1414 Bassoon 1-3 Credits
Grading Scheme: Letter Grade

MVW 1415 Saxophone 1-3 Credits
Grading Scheme: Letter Grade

MVW 2421 Flute 2 Credits
Grading Scheme: Letter Grade

MVW 2422 Oboe 2 Credits
Grading Scheme: Letter Grade

MVW 2423 Clarinet 2 Credits
Grading Scheme: Letter Grade

MVW 2424 Bassoon 2 Credits
Grading Scheme: Letter Grade

MVW 2425 Saxophone 2 Credits
Grading Scheme: Letter Grade

MVW 3431 Flute 1-3 Credits
Grading Scheme: Letter Grade

MVW 3432 Oboe 1-3 Credits
Grading Scheme: Letter Grade

MVW 3433 Clarinet 1-3 Credits
Grading Scheme: Letter Grade

MVW 3434 Bassoon 1-3 Credits
Grading Scheme: Letter Grade

MVW 3435 Saxophone 1-3 Credits
Grading Scheme: Letter Grade

MVW 3970 Junior Recital 1 Credit
Grading Scheme: Letter Grade
All music majors in the Bachelor of Music program must present a public recital during their junior year. See areas of emphasis for specific requirements.

MVW 4441 Flute 1-3 Credits
Grading Scheme: Letter Grade

MVW 4442 Oboe 1-3 Credits
Grading Scheme: Letter Grade

MVW 4443 Clarinet 1-3 Credits
Grading Scheme: Letter Grade

MVW 4444 Bassoon 1-3 Credits
Grading Scheme: Letter Grade

MVW 4445 Saxophone 1-3 Credits
Grading Scheme: Letter Grade

MVW 4640 Woodwind Instruments Pedagogy 3 Credits
Grading Scheme: Letter Grade
An analysis of the principles, methods and practices currently used in the teaching of woodwind instruments.
Prerequisite: MVW 2000 level.

MVW 4971 Senior Recital 1 Credit
Grading Scheme: Letter Grade
All music performance majors must present a public recital during their senior year. See areas of emphasis for specific requirements.

Nuclear and Radiological Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

EGS 1005 Prep for Success 1-4 Credits
Grading Scheme: S/U
Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)
Prerequisite: EG student.

ENU 1000 Introduction to Nuclear Engineering 1 Credit
Grading Scheme: Letter Grade
Introduction to the nuclear engineering field and careers in the nuclear industry. Topics include engineering ethics, nuclear history, elementary nuclear and reactor physics, reactor types, nuclear safety, nuclear fuel cycle and radiation protection.

ENU 4001 Nuclear Engineering Analysis 1 4 Credits
Grading Scheme: Letter Grade
Four one-hour lectures discussing continuous and discrete variable solution methods for the statistical, algebraic, differential and integral equations important in nuclear engineering. Problems involving neutron, photon, fluid and temperature distributions in configuration, time and velocity are mathematically modeled, solved and interpreted.
Prerequisite: MAP 2302;
Corequisite: COP 2271.

ENU 4103 Reactor Analysis and Computation 1: Statics 4 Credits
Grading Scheme: Letter Grade
Three one-hour lectures discussing neutron reactions, fission chain and criticality and neutron transport/diffusion for nuclear reactors. Neutron thermalization and thermal scattering kernels. Dynamic analysis of reactors including point and space-time models. Feedback and reactor dynamics and control. Short-term transient analysis and long-term time-dependence.
Prerequisite: ENU 4001 and ENU 4605 with minimum grades of C.

ENU 4104 Reactor Analysis and Computation 2: Dynamics 3 Credits
Grading Scheme: Letter Grade
A continuation of ENU 4103. Three one-hour lectures discussing neutron thermalization and thermal scattering kernels. Treatment of resonances and Doppler broadening. Dynamic analysis of reactors including point model and space-time models. Feedback and reactor dynamics and control. Short-term transient analysis and long-term time dependence.
Prerequisite: ENU 4103.

ENU 4133 Reactor Thermal Hydraulics 1 3 Credits
Grading Scheme: Letter Grade
Fundamentals of thermodynamics, fluid mechanics and heat transfer with application to design and safety of nuclear power plants. Thermal hydraulic characteristics of nuclear power plants, energy conversion cycles, applications of first and second law of thermodynamics, nuclear heat generation, fluid mechanics, conservation laws and governing equations for inviscid and viscous single-phase flow, conduction and convection heat transfer and thermal design of fuel elements.
Prerequisite: EML 3100.

ENU 4134 Reactor Thermal Hydraulics 4 Credits
Grading Scheme: Letter Grade
Nuclear applications of fluid mechanics, heat transfer and thermodynamics. Two-phase flow and boiling heat transfer. Heat transfer mechanisms in reactor core and sub-channel thermal hydraulics. Steam generator, power cycles, and balance of plant. Introduction to thermal design for reactors.
Prerequisite: EML 4140 and (ENU 4133 or EGN 3353C).

ENU 4144 Nuclear Power Plant Reactor Systems 1 3 Credits
Grading Scheme: Letter Grade
Three one-hour lectures discussing the basis for light water reactor (LWR) design; the NRC design criteria for LWRs. Study of the major systems, components and performance characteristics of LWRs including fuels, primary and secondary coolant systems, emergency and auxiliary systems.
Prerequisite: EML 3100 and ENU 4605 and ENU 4001 with minimum grades of C.

ENU 4145 Risk Assessment for Radiation Systems 3 Credits
Grading Scheme: Letter Grade
Three one-hour lectures discussing the study of radiation management systems, including reliability and probabilistic risk assessment.
Prerequisite: ENU 4144 and STA 3032.

ENU 4191 Elements of Nuclear and Radiological Engineering Design 1 Credit
Grading Scheme: Letter Grade
The first of a two-course capstone design sequence. A one-hour lecture that provides preparatory work for ENU 4192. Identification of initial design project(s) and areas of work, selection/assignment of groups to areas of work/tasks, accumulation of reference materials and computer codes and development of initial timelines/milestones.
Prerequisite: ENU 4144;
Corequisite: ENU 4134, ENU 4612 and ENU 4630.

ENU 4192 Nuclear and Radiological Engineering Design 3 Credits
Grading Scheme: Letter Grade
Continuation of ENU 4191. Nuclear reactor theory and engineering as applied to design synthesis of reactors. Nuclear, material, thermo-fluid and/or mechanical design considerations of nuclear reactors with particular emphasis on design characteristics. Analytical methods and application of computer codes for design analysis and evaluation. Individual and/or group design involving integration of reactor neutronics, dynamics and control, thermal hydraulics, transient analysis and safety, power production, instrumentation, control, radiation shielding and protection, fuel cycle, fuel behavior and/or cost.
Prerequisite: ENU 4134 and ENU 4191 with a minimum grade of C and ENU 4612 and ENU 4630.
Corequisite: ENU 4641.

ENU 4194 Control of Nuclear Reactors and Power Plants 3 Credits
Grading Scheme: Letter Grade
Three one-hour lectures discussing the analysis of the control and dynamic characteristics of nuclear reactors, including the effects of feedback. Analysis of the control and dynamic characteristics of the integrated nuclear power plant.
Prerequisite: ENU 4104.

ENU 4505L Nuclear and Radiological Engineering Laboratory 1 3 Credits
Grading Scheme: Letter Grade
Two one-hour lectures discussing experimental procedures used in reactor operation, personnel monitoring, radiation detection devices and the statistics of nuclear counting systems. Also includes a four-hour laboratory experience that integrates practical applications of radiation sources, radiation interactions, radiation transport and radiation diction. (WR)
Prerequisite: ENU 4612.
Attributes: Satisfies 4000 Words of Writing Requirement

ENU 4605 Radiation Interactions and Sources 1 4 Credits
Grading Scheme: Letter Grade
Three one-hour lectures discussing interaction of ionizing radiation with matter; cross sections and radiation fields with emphasis on photons, heavy charged particles and electrons.

ENU 4606 Radiation Interactions and Sources 2 3 Credits
Grading Scheme: Letter Grade
Continuation of ENU 4605. Three one-hour lectures discussing the study of photon-charged particle and electron interactions with matter, attenuation, energy transfer and energy absorption in matter. X-ray production, accelerators and neutron sources, and applications in nuclear and radiological engineering.
Prerequisite: ENU 4001 with a minimum grade of C and ENU 4605.

ENU 4612 Nuclear Radiation Detection and Instrumentation 3 Credits
Grading Scheme: Letter Grade
Three one-hour lectures discussing the physics and electronics of radiation detection and instrumentation systems for application to nuclear energy, radiological sciences, radiation protection, medical physics and imaging, and industrial safety and control systems.
Prerequisite: ENU 4605 with a minimum grade of C and EEL 3003.

ENU 4612L Nuclear Radiation Detection and Instrumentation Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments related to the physics and electronics of radiation detection and instrumentation systems for application to nuclear energy, radiological sciences, radiation protection, medical physics and imaging, and industrial safety and control systems.
Prerequisite: ENU 4605 with a minimum grade of C and EEL 3003;
Corequisite: ENU 4612.

ENU 4630 Fundamental Aspects of Radiation Shielding 3 Credits
Grading Scheme: Letter Grade
Three one-hour lectures discussing basic principles of radiation shielding. Study of radiation sources and shielding design for radiation facilities.
Prerequisite: ENU 4605 with a minimum grade of C.

ENU 4641C Applied Radiation Protection 2 Credits
Grading Scheme: Letter Grade
Two one-hour lectures of introduction to practical radiation protection techniques and practices, including laboratory experiences. Examination of pertinent regulations, current practice, ethics and instrumentation/measurement practices. Design of facilities and controls to optimize benefits of radiation applications and minimize exposure risks. (WR)
Prerequisite: ENU 4605 with a minimum grade of C and ENU 4630.
Attributes: Satisfies 2000 Words of Writing Requirement

ENU 4800 Introduction to Nuclear Reactor Materials 3 Credits
Grading Scheme: Letter Grade
Provides a comprehensive knowledge on the types of materials used in nuclear reactors, their response to the reactor environments and most of the materials problems encountered in the operation of nuclear power reactors for energy production.
Prerequisite: EMA 3010.

ENU 4905 Special Problems in Nuclear and Radiological Engineering 1-6 Credits
Grading Scheme: Letter Grade
Individually selected problems or projects in the students' major field of engineering study.
Prerequisite: department chair recommendation.

ENU 4906 Special Problems in Nuclear and Radiological Engineering Design 1-6 Credits
Grading Scheme: Letter Grade
Individually selected design problems or design projects in the student's major field of engineering study.
Prerequisite: department chair recommendation.

ENU 4930 Special Topics in Nuclear and Radiological Engineering 1-4 Credits
Grading Scheme: Letter Grade
Special courses covering selected topics in nuclear engineering.
Prerequisite: instructor permission.

ENU 4934 Fundamentals of Nuclear and Radiological Engineering 1 Credit
Grading Scheme: Letter Grade
Presentations and discussions on topics of current and continuing interest in nuclear engineering sciences.
Prerequisite: Nuclear Engineering major of junior standing or higher.

ENU 4944 Practical Work in Nuclear and Radiological Engineering 1-5 Credits
Grading Scheme: Letter Grade
Practical engineering work under industrial supervision, as set forth in the Herbert Wertheim College of Engineering regulations.

ENU 4949 Co-op Work Experience 1 Credit
Grading Scheme: S/U
Three-hour laboratory of practical engineering work under industrial supervision, as set forth in the Herbert Wertheim College of Engineering regulations. (S-U)
Prerequisite: 4EG classification and one term of industrial employment, including extra work according to a pre-approved outline.

ENV 4212 Nuclear Power Radioactive Waste Technology 3 Credits
Grading Scheme: Letter Grade
Characterization and description of low and high level radwastes, regulatory requirements and method of treatment. Transportation, burial and surveillance of radwaste. Decommissioning of nuclear facilities.
Prerequisite: refer to the department.

Nursing

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

NUR 2650 Transcultural Communications in Health Care Today 3 Credits
Grading Scheme: Letter Grade
Broadens the perceptions and understanding of health care beliefs and practices of specific cultural groups in the United States; fosters the development of essential communication skills and techniques necessary for effective multidisciplinary teams and culturally sensitive practice.
Attributes: Satisfies 2000 Words of Writing Requirement

NUR 3065C Comprehensive Health Assessment 3 Credits
Grading Scheme: Letter Grade
Examines comprehensive health assessment principles and techniques. Emphasizes the principles of assessment of health status of individuals across the lifespan and therapeutic communication.
Prerequisite: admission to the RN-BSN track.

NUR 3069C Communication and Health Assessment 3 Credits
Grading Scheme: Letter Grade
Examines therapeutic communication and health assessment principles and techniques. Focuses on development of therapeutic relationships and the use of general and specialized assessment skills as a basis for clinical decision making.
Prerequisite: admission to the college;
Corequisite: NUR 3129.

NUR 3123 Pathophysiology and Pharmacology 4 Credits
Grading Scheme: Letter Grade
Increases understanding of cellular physiology and alterations in structure and function resulting from the action of stressors on the human body at the cellular level.
Prerequisite: admission to RN-BSN track.

NUR 3129 Pathophysiology and Psychopathology 4 Credits
Grading Scheme: Letter Grade
Examines pathophysiology and psychopathology related to human illness within a systems framework. Focuses on presentation of selected pathophysiology and psychopathology and subsequent symptomatology in diverse clients across the lifespan.
Prerequisite: admission to upper-division BSN program.

NUR 3138 Systems of Care 1: Wellness Promotion and Illness Prevention 2 Credits
Grading Scheme: Letter Grade
Examines models of health in wellness promotion and illness prevention across the lifespan. Focuses on appraisal of risk and evidence-based reduction of risk.
Prerequisite: admission to upper-division BSN program;
Corequisite: NUR 3069C and NUR 3138L.

NUR 3138C Clinical Practice 1: Wellness Promotion and Illness Prevention 4 Credits
Grading Scheme: S/U
Provides clinical experience in the promotion of wellness and prevention of illness for diverse clients across the lifespan. Focuses on use of health education and counseling with clients in selected settings.
Prerequisite: admission to upper-division BSN program;
Corequisite: NUR 3069C and NUR 3138.

NUR 3145 Pharmacology for Nursing 3 Credits
Grading Scheme: Letter Grade
Examines the pharmacotherapeutic agents used in the treatment of illness and the promotion, maintenance and restoration of wellness in diverse individuals across the lifespan.
Prerequisite: NUR 3129 and NUR 3138;
Corequisite: AGR 4932.

NUR 3169 Inquiry and Evidence in Professional Nursing Practice 3 Credits
Grading Scheme: Letter Grade
Examines the processes required to translate and to integrate evidence into nursing practice.
Prerequisite: admission to upper-division BSN Program.

NUR 3638 Population Focused Care 2 Credits
Grading Scheme: Letter Grade
Examines strategies for wellness promotion, disease prevention and disaster management in communities and populations. Focuses on the impact of interventions that address health disparities in related populations.
Prerequisite: NUR 3138

NUR 3738 Systems of Care 2: Restoration of Wellness 3 Credits
Grading Scheme: Letter Grade
Examines the knowledge necessary to participate in development of plans of care for clients with common acute and chronic illnesses across the lifespan and for intrapartal women. Focuses on clients with a medium to high potential for wellness.
Prerequisite: NUR 3069C, NUR 3129 and NUR 3138;
Corequisite: NUR 3145.

NUR 3738C Clinical Practice 2: Restoration of Wellness 5 Credits
Grading Scheme: S/U
Provides laboratory and clinical experiences to provide nursing care for clients with common acute and chronic illnesses across the lifespan and for intrapartal women.
Prerequisite: NUR 3138;
Corequisite: NUR 3145, NUR 3169, NUR 3738 or NGR 6101.

NUR 3805 Professional Nursing in the Evolving Healthcare System 3 Credits
Grading Scheme: Letter Grade
Builds on initial nursing education to enhance professional development, prepare for a broader scope of practice, and provide deeper understanding of the cultural, political, economic, and social issues that affect clients and influence care delivery.
Prerequisite: admission to the RN-BSN track.

NUR 3816 Seminar in Professional Nursing 1 Credit
Grading Scheme: Letter Grade
Relates past nursing practice and current academic achievements to professional nursing role development.
Prerequisite: NUR 3123 and NUR 3826;
Corequisite: NUR 3197 and NUR 3169.

NUR 3825 Introduction to the Profession of Nursing 2 Credits
Grading Scheme: Letter Grade
Examines the framework for acculturation into professional nursing. Focuses on knowledge and understanding of the ANA Code of Ethics and the legal parameters governing nursing practice.
Prerequisite: admission to the college.

NUR 3826 Legal and Ethical Issues in Nursing 2 Credits
Grading Scheme: Letter Grade
Examines the legal issues and ethical dilemmas in nursing practice. Consequences of ethical misconduct and legal malpractice are explored. Focus is on case analysis of legal and ethical issues.
Prerequisite: junior standing in the college.

NUR 3946L Individual Clinical Practice 1-5 Credits
Grading Scheme: S/U
Additional opportunities for nursing practice. Objectives to be developed collaboratively by student and faculty. (S-U)
Prerequisite: 8 credits of 3000/4000-level nursing courses or instructor permission.

NUR 4635C Public Health Nursing 4 Credits
Grading Scheme: Letter Grade
Provides classroom and clinical experiences in population-focused nursing by examining strategies that promote wellness and disease prevention.
Prerequisite: NUR 3197 and NUR 3169;
Corequisite: NUR 4837.

NUR 4739 Systems of Care 3: Restoration of Wellness 4 Credits
Grading Scheme: Letter Grade
Examines the knowledge necessary to participate in development of plans of care for diverse clients with complicated acute and chronic illnesses across the lifespan. Focuses on the principles inherent in the care of clients whose complexity affects restoration to wellness.
Prerequisite: NUR 3738;
Corequisite: NUR 3826.

NUR 4739L Clinical Practice 3: Restoration of Wellness 4 Credits
Grading Scheme: S/U
Provides clinical experiences in the provision of healthcare for diverse clients with complicated acute and chronic illnesses and the application of population-focused care principles. Focuses on the evaluation of healthcare outcomes in individuals and groups with varied levels of acuity across the lifespan.
Prerequisite: NUR 3738;
Corequisite: NUR 3638, NUR 3826 and NUR 4739.

NUR 4748 Systems of Care 4: Multi-system Care 3 Credits
Grading Scheme: Letter Grade
Examines multi-system alterations in equilibrium across the lifespan. Focuses on synthesis of knowledge from multiple sources to influence client-centered outcomes.
Prerequisite: NUR 4739.

NUR 4748L Clinical Practice 4: Multi-system Care 3 Credits
Grading Scheme: S/U
Provides clinical experiences in the provision of healthcare for diverse clients with multi-system alterations in equilibrium and the application of population-focused care principles. Focuses on the delivery of holistic, safe and evidence-based healthcare for clients with multi-system illness.
Prerequisite: NUR 4739L;
Corequisite: NUR 4748.

NUR 4829 Leadership and Management in Nursing 2 Credits
Grading Scheme: Letter Grade
Examines leadership and management concepts used to address complex microsystem issues within selected healthcare organizations. Focuses on the interrelationship of selected roles within the context of specific theoretical frameworks and models of care.
Prerequisite: NUR 3826.

NUR 4837 Healthcare Policy, Finance, and Regulatory Environments 2 Credits
Grading Scheme: Letter Grade
Examines the foundations of healthcare policy, the financial structure of healthcare systems and the regulatory environments that impact nursing practice and client care. Focuses on the influence of the nursing profession on policy and regulation.
Prerequisite: senior standing.

NUR 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
Individual study. Qualified students may choose particular issues for study.
Prerequisite: 8 credits of 3000/4000-level nursing courses or instructor permission.

NUR 4930 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Prior to registration, students should contact the College of Nursing for special topics offered.
Prerequisite: 8 credits of 3000/4000-level nursing courses or instructor permission.

NUR 4935 Honors Seminar in Nursing 3 Credits
Grading Scheme: S/U
The honors seminar provides a unique and challenging experience for students who have exhibited exceptional academic ability to enhance the development of creativity and the ability to engage in scientific inquiry. (S-U)
Prerequisite: NUR 3168.

NUR 4944L Transition to Professional Practice 5 Credits
Grading Scheme: S/U
Provides opportunities to translate, integrate and apply available evidence to the care of clients. Focuses on the transition from student to entry-level professional nursing practice.
Prerequisite: senior standing;
Corequisite: NUR 4748, NUR 4748L, NUR 4829 and NUR 4837.

Occupational Therapy

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

OTH 3200C Applied Human Development 1 3 Credits
Grading Scheme: Letter Grade
Application to occupational therapy of principles of human growth and development, from infancy to adolescence.
Prerequisite: BSC 2007 or BSC 2005 or BSC 2010, APK 2105C, PSY 2012, STA 2023, majors/minors only and department permission.

OTH 3201 Applied Human Development 2 2 Credits
Grading Scheme: Letter Grade
Application to occupational therapy of principles of human growth and development, from young adulthood to senescence.
Prerequisite: BSC 2007 or BSC 2005 or BSC 2010, APK 2105C, PSY 2012, STA 2023, majors/minors only and department permission.

OTH 3282 Occupation and Participation Across Cultures 3 Credits
Grading Scheme: Letter Grade
Occupation is what we routinely do, incorporating activities that are life sustaining, purposeful and meaningful. The influence of occupation on health of persons with disabilities across cultures will be analyzed throughout the lifespan. Participation is an outcome concept involving engagement in activities like school, work and social life.
Prerequisite: PSY 2012 or instructor permission. Junior standing or higher recommended.

OTH 3413C Applied Kinesiology 3 Credits
Grading Scheme: Letter Grade
Biomechanics of movement, palpation, goniometry, manual muscle testing and motion analysis for occupational therapy.
Corequisite: OTH 4412, OTH 4412L, majors/minors only and department permission.

OTH 4412 Musculoskeletal Anatomy 3 Credits
Grading Scheme: Letter Grade
Comprehensive foundation in the human musculoskeletal system.
Prerequisite: HSC 3502, HSC 4558 and OTH 3416;
Corequisite: OTH 4412L and majors/minors only.

OTH 4412L Musculoskeletal Anatomy Laboratory 2 Credits
Grading Scheme: Letter Grade
Intensive laboratory study of the human musculoskeletal system.
Corequisite: OTH 4412 and majors/minors only.

OTH 4418 The Nervous System and Disorders 3 Credits
Grading Scheme: Letter Grade
Comprehensive foundation in neuroanatomy, neurophysiology and neuropathology.
Prerequisite: HSC 3502, HSC 4558 and OTH 3416;
Corequisite: OTH 4418L and majors/minors only.

OTH 4418L The Nervous System and Disorders Laboratory 2 Credits
Grading Scheme: Letter Grade
Intensive laboratory study, under supervision, of cadaver musculoskeletal anatomy.
Prerequisite: HSC 3502, HSC 4558 and OTH 3416;
Corequisite: OTH 4418 and majors/minors only.

Packaging Science

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

PKG 3001 Principles of Packaging 3 Credits
Grading Scheme: Letter Grade
Focuses on the materials, uses, functions and production processes of packaging. Topics include an industry overview and related applications as well as the historical, societal and technological drivers of packaging and how end-users decide on the product/package combination they use for their product and the impact these choices make on the product's market success.

PKG 3004 Packaging Materials 3 Credits
Grading Scheme: Letter Grade
Major packaging materials, properties, economics and applications. Addresses specific issues related to packaging composition and form.

PKG 3009 Consumer Products Packaging 3 Credits
Grading Scheme: Letter Grade
Covers packaging methods, materials, forms and strategies used for consumer products. Teams prepare a packaging plan with associated mock-ups for a proposed consumer product.

PKG 3010 Packaging, Society and the Environment 3 Credits
Grading Scheme: Letter Grade
Examines the evolution of modern society and its relationship to packaging technology, including real and assumed environmental concerns.

PKG 3103 Food Packaging 3 Credits
Grading Scheme: Letter Grade
Studies major technical, safety and legislative issues involved in modern food packaging practices. Includes the physical and chemical properties of food packaging materials and a survey of modern packaging techniques for various food types.
Prerequisite: CHM 2045. Fall.

PKG 4008 Distribution and Transport Packaging 3 Credits
Grading Scheme: Letter Grade
Studies containment, protection and preservation practices related to transporting and delivery of packages.

PKG 4011 Packaging Production and Processing 3 Credits
Grading Scheme: Letter Grade
Studies operations and machinery used in modern packaging lines. Topics include high-speed forming, filling, sealing, labeling, check weighing, inspection, coding, palletizing and shipping.

PKG 4101C Computer Tools for Packaging 3 Credits
Grading Scheme: Letter Grade
Studies the computer tools applicable to the packaging industry. Topics include label design, bar code technology, spreadsheet programming, 3D package design and distribution efficiency analysis.

PKG 4204C Package Decoration 3 Credits
Grading Scheme: Letter Grade
Presents major decoration methods used for packaging. Specific laboratory team projects prepare and execute the decoration of a cylindrical package or container from concept to a decorated item.

PKG 4905 Individual Work in Packaging Engineering 1-6 Credits
Grading Scheme: Letter Grade
Selected problems or projects enhance knowledge of packaging engineering related topics.

PKG 4932 Special Topics in Packaging Engineering 1-6 Credits
Grading Scheme: Letter Grade
Lectures, laboratory, and/or special projects.

PKG 4941 Work Experience in Packaging Engineering 1-3 Credits
Grading Scheme: S/U
Work experience in the packaging science industry. (S-U)

Pest Management | Plant Protection

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

The crop science departments and the supporting disciplines of entomology-nematology, plant sciences, plant pathology and forest resources and conservation offer the following general and cross-department courses in pest management.

Refer to Agricultural Operations Management for AOM 3333 Pesticide Application and Agricultural General for AGG 5505 Plant Protection in Tropical Ecosystems.

Courses

IPM 3022 Fundamentals of Pest Management 3 Credits
Grading Scheme: Letter Grade

PMA 4570C Field Techniques in IPM 2 Credits
Grading Scheme: Letter Grade
Prerequisite: IPM 3022.

Pharmacy

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

PHA 3931 Honors Seminar in Pharmaceutical Research: In Search of Magic Bullets 3 Credits
Grading Scheme: Letter Grade
Overview of the issues associated with pharmaceutical research: drug discovery process, clinical research, drug tragedies, government laws and regulations, pharmaceutical care and drug efficacy versus risk. In addition, specific drug research by pharmacy faculty is presented and discussed. (WR)
Prerequisite: honors program only.
Attributes: Satisfies 6000 Words of Writing Requirement

PHA 4910 Undergraduate Research in Pharmaceutical Outcomes and Policy 0-3 Credits
Grading Scheme: S/U
Specific research projects in pharmacy are completed during a semester under the supervision of a pharmacy faculty member. (S-U)

PHA 4911 Undergraduate Research in Pharmacodynamics 0-3 Credits
Grading Scheme: S/U
Specific research projects in pharmacy are completed during a semester under the supervision of a pharmacy faculty member. (S-U)

PHA 4912 Undergraduate Research in Pharmaceutics 0-3 Credits
Grading Scheme: S/U
Specific research projects in pharmacy are completed during a semester under the supervision of a pharmacy faculty member. (S-U)

PHA 4913 Undergraduate Research in Medicinal Chemistry 0-3 Credits
Grading Scheme: S/U
Specific research projects in pharmacy are completed during a semester under the supervision of a pharmacy faculty member. (S-U)

PHA 4914 Undergraduate Research in Pharmacotherapy and Translational Research 0-3 Credits
Grading Scheme: S/U
Specific research projects in pharmacy are completed during a semester under the supervision of a pharmacy faculty member. (S-U)

PHA 4933 Selected Topics in Pharmacy 1-3 Credits
Grading Scheme: Letter Grade
Undergraduates work on a project or complete a term paper under the supervision of a pharmacy faculty member.
Prerequisite: instructor permission.

Philosophy

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

HPS 3003 Perspectives on Science and Mathematics 3 Credits
Grading Scheme: Letter Grade
Explores the different ways that scientists and mathematicians since the 17th century have explained the workings of the natural world. (H) (WR)
Prerequisite: UFTeach Step 1.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

PHH 3100 Ancient Greek Philosophy 3 Credits
Grading Scheme: Letter Grade
Sustained study of Plato and Aristotle with some consideration of pre-Socratic antecedents and Hellenistic successors. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

PHH 3111 Ancient Ethical and Political Thought 3 Credits
Grading Scheme: Letter Grade
Examines ancient Greek and Roman political theories and their ethical foundations. (H)
Attributes: General Education - Humanities

PHH 3200 Medieval Philosophy 3 Credits
Grading Scheme: Letter Grade
Surveys medieval philosophy. Philosophers to be read may include Augustine, Boethius, Anselm, Maimonides, Aquinas, Duns Scotus and Ockham. Topics include the nature of God, universals, individuation and future contingents.
Prerequisite: one course in philosophy.

PHH 3400 Modern Philosophy 3 Credits
Grading Scheme: Letter Grade
Surveys the work of major philosophers of the 17th and 18th centuries, from Descartes to Kant, in the primary texts. (H)
Attributes: General Education - Humanities

PHH 3610 Happiness and Well-Being 3 Credits
Grading Scheme: Letter Grade
Examines major philosophical theories of human happiness and well-being from both historical and contemporary perspectives. Topics may include self-interest, pleasure, subjective vs. objective conceptions of happiness, autonomy and the relation between morality and happiness.
Prerequisite: sophomore or higher standing or PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or philosophy major or minor or instructor permission.

PHH 4141 Seminar in Ancient Philosophy 3 Credits
Grading Scheme: Letter Grade
Variable topic seminar focusing on a particular topic, period or school in the philosophy of Greco-Roman antiquity.
Prerequisite: a 3000-level philosophy course or department permission.

PHH 4420 Seminar in Modern Philosophy 3 Credits
Grading Scheme: Letter Grade
Variable topic seminar focusing on a period, school or topic in 17th or 18th century philosophy.
Prerequisite: a 3000-level philosophy course or department permission.

PHH 4644 Continental Philosophy 3 Credits
Grading Scheme: Letter Grade
Studies selected works by 19th and 20th century continental philosophers, with emphasis determined by the instructor. Selections may include such thinkers as Hegel, Nietzsche, Heidegger, and Foucault.
Prerequisite: a 3000-level course with the prefix PHI, PHH, PHM, or PHP.

PHH 4911 Undergraduate Research in History of Philosophy 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

PHH 4930 Seminar in a Major Philosopher 3 Credits
Grading Scheme: Letter Grade
Variable topic seminar on the work of a major historical or contemporary philosopher such as Plato, Aristotle, Aquinas, Descartes, Hobbes, Leibniz, Spinoza, Berkeley, Hume, Rousseau, Kant, Hegel, Mill, Marx, Nietzsche, Husserl, Heidegger, Russell, Moore, Sartre, Wittgenstein and Quine.
Prerequisite: a 3000-level philosophy course or department permission.

PHI 2010 Introduction to Philosophy 3 Credits
Grading Scheme: Letter Grade
Variable topics introduction to philosophy through study of traditional questions about the existence of God, the nature of the mind, the definition of good, freedom of the will, and criteria of truth and knowledge. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

PHI 2100 Logic 3 Credits
Grading Scheme: Letter Grade
Introductory-level survey of different methods of formal and informal analysis of the logical structure of propositions and arguments. Topics include syllogistic logic, propositional logic, quantification logic, inductive logic, informal fallacies, and probability. (M)
Attributes: General Education - Mathematics

PHI 2630 Contemporary Moral Issues 3 Credits
Grading Scheme: Letter Grade
Introduces moral philosophy through selected contemporary issues such as abortion, euthanasia, genetic engineering, and the treatment of animals. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

PHI 3114 Reasoning 3 Credits
Grading Scheme: Letter Grade
Practical methods for understanding reasoned argumentation; instruction in the use of diagrammatic techniques to develop both interpretations and criticisms of philosophical arguments as well as in the application of these techniques in the writing of critical essays on a range of philosophical topics.
Prerequisite: sophomore or higher standing or (PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 with a minimum grade of C) or (philosophy major or philosophy minor) or instructor permission.

PHI 3130 Symbolic Logic 3 Credits
Grading Scheme: Letter Grade
Systematic study of forms of deduction. Techniques and topics include truth-functional analysis and quantification. (M)
Attributes: General Education - Mathematics

PHI 3300 Theory of Knowledge 3 Credits
Grading Scheme: Letter Grade
Studies the central topics and concepts of the theory of knowledge, including the analysis of the concepts of knowledge, truth, justification and related concepts, the nature of empirical knowledge, the problem of skepticism, the nature of a priori knowledge, and the structure of the justification of our beliefs. (H)
Attributes: General Education - Humanities

PHI 3400 Philosophy of Natural Science 3 Credits
Grading Scheme: Letter Grade
Studies central contemporary issues in the philosophy of natural science: the nature of laws, the logic of discovery and the relationships between different sciences. The sciences used for illustration vary with the instructor. (H)
Attributes: General Education - Humanities

PHI 3420 Philosophy of the Social Sciences 3 Credits
Grading Scheme: Letter Grade
Studies the possibility of social laws, the nature of social explanation and rationality, and the role of value judgments in social-scientific research. (H)
Attributes: General Education - Humanities

PHI 3459 Medicine and Philosophy 3 Credits
Grading Scheme: Letter Grade
Examines areas in which medicine and philosophy overlap, including philosophy of science as applied to medical research, ethical theories as applied to medical cases, and moral reflection on the institution of medicine. Provides information about contemporary medical practice and research as well as tools for their critical assessment.
Prerequisite: sophomore or higher standing or PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or philosophy major or minor or instructor permission.

PHI 3500 Metaphysics 3 Credits
Grading Scheme: Letter Grade
Studies the problems of first philosophy: the concepts of existence, essence, object, property and event; universals and particulars; the nature of change, possibility, causation, space and time. Traditional philosophical issues such as free will, the mind/body problem, personal identity and the existence of abstract entities (e.g., numbers) are discussed as are views of realism, idealism, materialism and relativism. (H)
Attributes: General Education - Humanities

PHI 3501 Free Will 3 Credits
Grading Scheme: Letter Grade
Sustained examination of key questions about free will. What exactly does it take for an action to be performed freely? Do scientific results threaten free will? What case can be made for the existence of free will? What are the consequences if free will does not exist?
Prerequisite: sophomore or higher standing or PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or philosophy major or minor or instructor permission.

PHI 3551 Thought Experiments 3 Credits
Grading Scheme: Letter Grade
Much philosophical work depends on thought experiments in which we evaluate merely hypothetical situations; examine several such experiments to gain insight about their general character and proper use. Cases may include Descartes' "evil genius," Searle's "Chinese Room" example, and Gettier's examples of true, justified belief without knowledge.
Prerequisite: sophomore or higher standing or PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or philosophy major or minor or instructor permission.

PHI 3553 The Self, Reason and Ethics 3 Credits
Grading Scheme: Letter Grade
Examines rationality, morality, and personhood. What does it mean to be the same person over time? How is personal identity related to the rationality of self-interest or the rationality of morality? Topics may include the nature of reasons, self-undermining theories, reductionism about people, population ethics, and more.
Prerequisite: sophomore or higher standing or PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or philosophy major or minor or instructor permission.

PHI 3633 Bioethics 3 Credits
Grading Scheme: Letter Grade
The ethical issues that arise in medicine and biotechnology.

PHI 3641 Conduct, Change and Consequences: Making Ethical Decisions 3 Credits
Grading Scheme: Letter Grade
Grounding in ethical theory and moral reasoning with a focus on changes at both organizational and societal levels, including, for instance, technological innovations, new business practices and legal changes. Examines the rights and responsibilities of those making such changes as well as the conditions that facilitate responsible decision making. (H, WR4)
Prerequisite: sophomore or higher standing or PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or philosophy major or minor or innovation academy minor or instructor permission.
Attributes: General Education - Humanities, Satisfies 4000 Words of Writing Requirement

PHI 3650 Moral Philosophy 3 Credits
Grading Scheme: Letter Grade
Analysis and criticism of various normative ethical theories such as egoism, utilitarianism, Kantianism, deontology and virtue ethics. (H)
Attributes: General Education - Humanities

PHI 3693 Ethics of Communication 3 Credits
Grading Scheme: Letter Grade
Examines ethical issues in communication between individuals and in the media. Topics include truth-telling, misrepresentation, privacy and fairness. (H)
Attributes: General Education - Humanities

PHI 3695 Philosophy and Death 3 Credits
Grading Scheme: Letter Grade
A philosophical investigation of the nature and significance of death. Focuses on critical assessment of arguments regarding such topics as the definition of death, whether death is bad for the deceased, whether immortality is desirable or even conceivable, and the ethics of ending and starting lives. (H)
Prerequisite: sophomore or higher standing or PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or philosophy major or minor or instructor permission.
Attributes: General Education - Humanities

PHI 3700 Philosophy of Religion 3 Credits
Grading Scheme: Letter Grade
Studies problems in philosophical theology, including the nature of God, arguments for God's existence, the problem of evil and the relation between faith and reason, from both historical and contemporary perspectives. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

PHI 3930 Special Topics 3 Credits
Grading Scheme: Letter Grade
Check the department office for a course description for the offered term.

PHI 4220 Philosophy of Language 3 Credits
Grading Scheme: Letter Grade
Variable topics study the major topics and concepts of the philosophy of language, including truth and meaning, speech act theory, reference and descriptions, names and demonstratives, propositional attitudes and indirect discourse, the nature of language and metaphor.
Prerequisite: a 3000-level philosophy course or department permission.

PHI 4320 Philosophy of Mind 3 Credits
Grading Scheme: Letter Grade
Studies the central problems of the philosophy of mind, including the mind-body problem, the nature of mental states, intentionality and representation, and sensation and consciousness.
Prerequisite: a 3000-level philosophy course or department permission.

PHI 4542 Philosophy of Space and Time 3 Credits
Grading Scheme: Letter Grade
Studies the nature of space and time: the concepts of substantival space and time (or space-time), relational space and time (or space-time), dynamical space-time, conventional space-time metrics, causal reduction of time, time's arrow, dimensionality of space (or space-time). The approach, historical or issue-oriented, and the required amount of knowledge of physics varies with the instructor.
Prerequisite: a 3000-level philosophy course or department permission.

PHI 4662 Ethical Theory 1 3 Credits
Grading Scheme: Letter Grade
Advanced topics in moral theory, including cognitivism, obligations and permissions, moral reasons and moral epistemology.
Prerequisite: a 3000-level philosophy course or department permission.

PHI 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Registration requires advance application to the undergraduate coordinator.
Prerequisite: upper-division students with 12 credits of philosophy and department permission.

PHI 4911 Undergraduate Research in Philosophy 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

PHI 4912 Honors Project 3 Credits
Grading Scheme: Letter Grade
Open to qualified philosophy majors upon application to the undergraduate coordinator.

PHI 4930 Special Topics 3 Credits
Grading Scheme: Letter Grade
Refer to the department website for a course description for the offered term.
Prerequisite: a 3000-level philosophy course or department permission.

PHI 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

PHM 2204 Social Issues and Political Thought 3 Credits
Grading Scheme: Letter Grade
Introduces the classic works in the fundamental issues of political philosophy. Topics include comparative systems, authority and freedom. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

PHM 3032 Ethics and Ecology 3 Credits
Grading Scheme: Letter Grade
Normative study of the relationships between human beings and the environment, with special emphasis on land and resources. (H)
Attributes: General Education - Humanities

PHM 3123 Feminist Philosophy 3 Credits
Grading Scheme: Letter Grade
Analyzes theoretical and practical issues in feminism such as radical, liberal and socialist perspectives, gender roles and equal opportunity; an elective in the women's studies program. (H and D)
Attributes: General Education - Diversity, General Education - Humanities

PHM 3127 Race and Philosophy 3 Credits
Grading Scheme: Letter Grade
Examines the concept of race and how it has been used, both theoretically and practically, looking at both historical and contemporary works. Topics may include the definition of "race", the political use and abuse of the term, and its role in one's sense of identity.

PHM 3202 Political Philosophy 3 Credits
Grading Scheme: Letter Grade
Studies philosophical problems of political freedom, justice, obligation and coercion. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

PHM 3400 Introduction to Philosophy of Law 3 Credits
Grading Scheme: Letter Grade
Introduces philosophical issues in legal thought and practice; for pre-law majors and serves as an introduction to PHM 4440 Philosophy of Law, the course introduces the types of philosophical issues that the major schools of legal thought have attempted to resolve. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

PHM 3600 Philosophy of Education 3 Credits
Grading Scheme: Letter Grade
Examines questions about the nature, value, and proper role of education, with special attention to schooling in wealthy modern democracies. Topics may include the purposes of education, the value of having an education, educational authority, the distribution of educational opportunity, and the special role of higher education. (H)
Prerequisite: sophomore or higher standing or PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or philosophy major or minor.
Attributes: General Education - Humanities

PHP 3786 Existentialism 3 Credits
Grading Scheme: Letter Grade
Examines the existentialist movement in philosophy through readings from such figures as Kierkegaard, Nietzsche and Sartre. (H)
Attributes: General Education - Humanities

PHP 4784 Analytic Philosophy 3 Credits
Grading Scheme: Letter Grade
Studies the major philosophers, themes and developments of the analytic tradition, from Frege, Russell, Moore and Wittgenstein to Quine, Austin and contemporary figures.
Prerequisite: a 3000-level philosophy course or department permission.

REL 4177 Special Topics in Religion and Ethics 3 Credits
Grading Scheme: Letter Grade
Special topics in religion and ethics. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

Physics

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

IDH 3931 Interdisciplinary Junior Honors 1-3 Credits
Grading Scheme: Letter Grade
Special topics restricted to those in the university-wide honors program. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

ISC 2400L Cross-Disciplinary Laboratory 1 3 Credits
Grading Scheme: Letter Grade
First course in a two-semester inquiry-based laboratory focusing on major themes and concepts in biology, chemistry and physics with an emphasis on their integrated applications in modern, quantitative research. Satisfies course requirements for BSC 2010L, CHM 2045L and PHY 2053L.
Prerequisite: high school algebra or equivalent. Degree-seeking students only.

ISC 2401L Cross-Disciplinary Laboratory 2 3 Credits
Grading Scheme: Letter Grade
Second course in a two-semester inquiry-based laboratory focusing on major themes and concepts in biology, chemistry and physics with an emphasis on their integrated applications in modern, quantitative research. Satisfies course requirements for BSC 2011L, CHM 2046L and PHY 2054L.
Prerequisite: ISC 2400L and MAC 1147 or equivalent;
Corequisite: BSC 2010 and CHM 2045 or CHM 2047 or CHM 2095.

ISC 3523C Research Methods 3 Credits
Grading Scheme: Letter Grade
The tools scientists use to solve scientific problems, including use of experiments to answer scientific questions, design of experiments to reduce systematic and random errors, use of statistics to interpret experimental results and deal with sampling errors, mathematical modeling of scientific phenomena and oral presentation of scientific work.
Prerequisite: UFTeach Step 1 and one year of college biology, chemistry or physics.

MET 1010 Introduction to Weather and Climate 3 Credits
Grading Scheme: Letter Grade
A course for non-science students interested in understanding the phenomena of daily weather. Several principles of physics are introduced. (P)
Prerequisite: high school algebra.
Attributes: General Education - Physical Science

PHY 1033C Discovering Physics 3 Credits
Grading Scheme: Letter Grade
The fundamental concepts of physics that shape a scientist's view of the laws of nature. A laboratory experience is included to emphasize the importance of measurement for the testing of scientific hypotheses. (P)
Attributes: General Education - Physical Science

PHY 2004 Applied Physics 1 3 Credits
Grading Scheme: Letter Grade
Emphasizes the practical applications of basic physics to a range of professions, including architecture, agricultural sciences, building construction and forest resources. Mechanics of motion, forces, energy, momentum, wave motion and heat. (P)
Prerequisite: algebra and trigonometry.
Attributes: General Education - Physical Science

PHY 2004L Laboratory for Applied Physics 1 1 Credit
Grading Scheme: Letter Grade
Laboratory experience illustrating the practical applications of basic physics, including the mechanics of motion, forces, energy, momentum, wave motion and heat. (P)
Corequisite: PHY 2004.
Attributes: General Education - Physical Science

PHY 2005 Applied Physics 2 3 Credits
Grading Scheme: Letter Grade
Continuation of the applied physics sequence. Electric and magnetic fields; geometrical, wave and applied optics; and modern and nuclear physics. (P)
Prerequisite: PHY 2004.
Attributes: General Education - Physical Science

PHY 2005L Laboratory for Applied Physics 2 1 Credit
Grading Scheme: Letter Grade
Laboratory experience illustrating the practical applications of electric and magnetic fields geometrical, wave and applied optics; and modern and nuclear physics. (P)
Corequisite: PHY 2005.
Attributes: General Education - Physical Science

PHY 2020 Introduction to Principles of Physics 3 Credits
Grading Scheme: Letter Grade
Fundamental principles of physics in mechanics, electricity and modern physics as applied to conservation laws. An in-depth analysis of selected topics with lecture demonstration, films and other teaching aids. (P)
Prerequisite: high school algebra and trigonometry or the equivalent.
Attributes: General Education - Physical Science

PHY 2048 Physics with Calculus 1 3 Credits
Grading Scheme: Letter Grade
The first of a two-semester sequence of physics for scientists and engineers. The course covers Newtonian mechanics and includes motion, vectors, Newton's laws, work and conservation of energy, systems of particles, collisions, equilibrium, oscillations and waves. (P)
Prerequisite: high-school physics, PHY 2020 or the equivalent, and MAC 2311.
Corequisite: MAC 2312.
Attributes: General Education - Physical Science

PHY 2048L Laboratory for Physics with Calculus 1 1 Credit
Grading Scheme: Letter Grade
Laboratory experience for PHY 2048 illustrating the practical applications of Newtonian mechanics. (P)
Prerequisite: Degree-seeking students only.
Corequisite: PHY 2048 or the equivalent.
Attributes: General Education - Physical Science

PHY 2049 Physics with Calculus 2 3 Credits
Grading Scheme: Letter Grade
The second of a two-semester sequence of physics for scientists and engineers. Content includes Coulomb's law, electric fields and potentials, capacitance, currents and circuits, Ampere's law, Faraday's law, inductance, Maxwell's equations, electromagnetic waves, ray optics, interference and diffraction. (P)
Prerequisite: PHY 2048 and MAC 2312;
Corequisite: MAC 2313.
Attributes: General Education - Physical Science

PHY 2049L Laboratory for Physics with Calculus 2 1 Credit
Grading Scheme: Letter Grade
Laboratory experience for PHY 2049 illustrating the practical applications of Coulomb's law, electric fields and potentials, capacitance, currents and circuits, Ampere's law, Faraday's law, inductance, Maxwell's equations, electromagnetic waves, ray optics, interference and diffraction. (P)
Prerequisite: Degree-seeking students only.
Corequisite: PHY 2049 or the equivalent.
Attributes: General Education - Physical Science

PHY 2053 Physics 1 4 Credits
Grading Scheme: Letter Grade
First semester of introductory physics de-emphasizing calculus. Structure and properties of matter; kinematics, dynamics and statics; momentum and energy; rotation, elasticity; vibration; fluids; temperature and expansion, heat transfer, thermal behavior of gases; wave motion and sound. (P)
Prerequisite: high school algebra and trigonometry, or the equivalent. Degree-seeking students only.
Attributes: General Education - Physical Science

PHY 2053L Laboratory for Physics 1 1 Credit
Grading Scheme: Letter Grade
Laboratory experience for PHY 2053 illustrating the practical applications of the structure and properties of matter; kinematics, dynamics and statics; momentum and energy; rotation, elasticity; vibration; fluids; temperature and expansion, heat transfer, thermal behavior of gases; wave motion and sound. (P)
Corequisite: PHY 2053 or the equivalent. Degree-seeking students only.
Attributes: General Education - Physical Science

PHY 2054 Physics 2 4 Credits
Grading Scheme: Letter Grade
Second semester of introductory physics de-emphasizing calculus. Electric charge, fields and circuits; electromagnetism, applied electricity; geometrical optics, wave optics, applied optics; electrons and photons; atoms and nuclei. (P)
Prerequisite: PHY 2053 or the equivalent. Degree-seeking students only.
Attributes: General Education - Physical Science

PHY 2054L Laboratory for Physics 2 1 Credit
Grading Scheme: Letter Grade
Laboratory experience for PHY 2054 illustrating the practical applications of electric charge, fields and circuits; electromagnetism, applied electricity; geometrical optics, wave optics, applied optics; electrons and photons; atoms and nuclei. (P)
Corequisite: PHY 2054 or the equivalent. Degree-seeking students only.
Attributes: General Education - Physical Science

PHY 2060 Enriched Physics with Calculus 1 3 Credits
Grading Scheme: Letter Grade
First of the enriched sequence for physics majors and others wishing a deeper understanding of mechanics, kinematics, conservation laws, harmonic motion, central forces and special relativity. (P)
Prerequisite: Degree-seeking students only;
Corequisite: MAC 2312 or the equivalent.
Attributes: General Education - Physical Science

PHY 2061 Enriched Physics with Calculus 2 3 Credits
Grading Scheme: Letter Grade
Second course of the enriched sequence studying electricity and magnetism, including electrostatics, Gauss's Law, potentials, vector analysis, Laplace's equation, conductors and insulators, circuits, magnetism, Maxwell's equations and E and M fields in matter. (P)
Prerequisite: PHY 2060 or instructor permission;
Corequisite: MAC 2313 or the equivalent.
Attributes: General Education - Physical Science

PHY 2064L Accelerated Physics with Calculus Laboratory 2 Credits
Grading Scheme: Letter Grade
A cross-disciplinary, inquiry-based curriculum that focuses on major themes and concepts in physics, with an emphasis on their application in modern, quantitative life sciences research. Equivalent to PHY 2048L and PHY 2049L, or PHY 2060L and PHY 2061L.
Prerequisite: PHY 2048 or PHY 2060;
Corequisite: PHY 2049 or PHY 2061.

PHY 2464 The Physical Basis of Music 3 Credits
Grading Scheme: Letter Grade
Vibration and wave behavior as applied to musical instruments; and studies of the generation and reception of sound waves, musical intervals and scales, musical acoustics and musical electronics. (P)
Prerequisite: high school algebra and trigonometry, or the equivalent.
Attributes: General Education - Physical Science

PHY 3063 Enriched Modern Physics 3 Credits
Grading Scheme: Letter Grade
Theory of relativity and introduction to quantum theory. Course includes wave mechanics, quantum theory of solids, nuclear and particle physics and cosmology.
Prerequisite: PHY 2061 or instructor permission, and MAP 2302 or the equivalent.

PHY 3101 Introduction to Modern Physics 3 Credits
Grading Scheme: Letter Grade
Modern and atomic physics, relativity, wave phenomena and the basis of quantum physics. (P)
Prerequisite: PHY 2049 or the equivalent.
Attributes: General Education - Physical Science

PHY 3221 Mechanics 1 3 Credits
Grading Scheme: Letter Grade
First part of PHY 3221/4222 sequence in classical mechanics emphasizing matrices, vector calculus, Newtonian mechanics, frames of reference, conservation laws and harmonic oscillation. (P)
Prerequisite: PHY 2049 or the equivalent;
Corequisite: MAP 2302 or the equivalent.
Attributes: General Education - Physical Science

PHY 3323 Electromagnetism 1 3 Credits
Grading Scheme: Letter Grade
First part of the PHY 3323/4324 sequence in electromagnetism. Course covers static electric and magnetic fields, electric circuits, Maxwell's equations, radiation and propagation of electromagnetic waves. (P)
Prerequisite: (PHY 2049 or PHY 2061, or the equivalent) or (MAP 2302 or the equivalent).
Attributes: General Education - Physical Science

PHY 3400 Light, Color and Holography 3 Credits
Grading Scheme: Letter Grade
Demonstrations and discussion of commonly observed phenomena of light, color and vision, such as rainbows, sunsets, the blue sky and perceptual illusions. A study of the principles of holography and applications. (P)
Attributes: General Education - Physical Science

PHY 3513 Thermal Physics 1 3 Credits
Grading Scheme: Letter Grade
First part of the PHY 3513/4523 sequence that includes treatment of classical thermodynamics, including fundamental postulates, entropy and equations of states; thermodynamic equilibrium and potentials; Maxwell relations and phase transitions. (P)
Prerequisite: PHY 2049 or PHY 2061.
Attributes: General Education - Physical Science

PHY 3840L Building Scientific Equipment 2 Credits
Grading Scheme: Letter Grade
Hands-on experience in the mechanical fabrication of research apparatus. Topics include shop drawings, properties of materials, metal cutting (lathe and milling-machine operation) and metal joining.
Prerequisite: PHY 2061 or PHY 3101, or the equivalent.

PHY 4222 Mechanics 2 3 Credits
Grading Scheme: Letter Grade
Second part of the sequence in classical mechanics studying rigid body mechanics; motion in a noninertial frame, Lagrangian and Hamiltonian dynamics; elements of fluid mechanics; and relativity theory.
Prerequisite: PHY 3221 and differential equations.

PHY 4324 Electromagnetism 2 3 Credits
Grading Scheme: Letter Grade
The second in the PHY 3323/4324 electromagnetism sequence studying static electric and magnetic fields, electric circuits, Maxwell's equations, radiation and propagation of electromagnetic waves.
Prerequisite: PHY 3323 and differential equations.

PHY 4424 Optics 1 3 Credits
Grading Scheme: Letter Grade
The phenomena of reflection, refraction, dispersion, interference, diffraction and polarization of light.
Prerequisite: PHY 3323 or instructor permission.

PHY 4523 Statistical Physics 3 Credits
Grading Scheme: Letter Grade
Second of the PHY 3513/4523 sequence. Introduction to statistical physics and continued study of classical thermodynamics, including fundamental postulates, entropy and equations of states; thermodynamic equilibrium and potentials; Maxwell relations and phase transitions.
Prerequisite: PHY 3513 and PHY 4604; differential equations.

PHY 4550 Cryogenics 3 Credits
Grading Scheme: Letter Grade
History of cryogenics, air separation, liquefaction of permanent gases and natural gases, and superconducting devices and electronics.
Prerequisite: PHY 3101 or the equivalent;
Corequisite: PHY 3513 or the equivalent.

PHY 4604 Introductory Quantum Mechanics 1 3 Credits
Grading Scheme: Letter Grade
First of the PHY 4604/4605 sequence. Basic concepts of quantum mechanics with applications in atomic and nuclear physics and condensed matter. (P)
Prerequisite: PHY 3101 or PHY 3063; MAP 2302 or the equivalent.
Attributes: General Education - Physical Science

PHY 4605 Introductory Quantum Mechanics 2 3 Credits
Grading Scheme: Letter Grade
Second of the PHY 4604/4605 quantum mechanics sequence with applications in atomic and nuclear physics and condensed matter.
Prerequisite: PHY 4604.

PHY 4802L Laboratory Physics 1 3 Credits
Grading Scheme: Letter Grade
Electronics in the laboratory.
Corequisite: PHY 3323 or the equivalent.

PHY 4803L Laboratory Physics 2 3 Credits
Grading Scheme: Letter Grade
Current laboratory techniques.
Prerequisite: PHY 4604 and PHY 4802L.

PHY 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
Qualified undergraduate students study selected topics in physics.
Prerequisite: 12 credits of physics and instructor permission.

PHY 4911 Undergraduate Research in Physics 0-3 Credits
Grading Scheme: Letter Grade
Course provides firsthand, supervised research in Physics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Physics.

PHZ 3113 Introduction to Theoretical Physics 3 Credits
Grading Scheme: Letter Grade
This course expands and systematizes the treatment of standard problems previously encountered in elementary physics. Mathematical techniques are developed to study problems in thermodynamics, statistical physics, the motion of coupled oscillators and electrodynamics.
Prerequisite: MAC 2313 and PHY 2061, or instructor permission.

PHZ 4390 Introduction to Elementary Particle Physics 3 Credits
Grading Scheme: Letter Grade
History and phenomenology of particle physics, physics of the Standard Model and beyond, and particle accelerators and detectors.
Prerequisite: PHY 3101 or PHY 3063;
Corequisite: PHY 4604.

PHZ 4404 Introduction to Solid State Physics 3 Credits
Grading Scheme: Letter Grade
Atomic binding, crystalline structure, diffraction and reciprocal lattice, lattice vibration, phonons, electrons in solids, energy bands, semiconductors.
Prerequisite: PHY 4604;
Corequisite: PHY 4523.

PHZ 4710 Introduction to Biological physics 3 Credits
Grading Scheme: Letter Grade
The physics of biological systems, including physics of proteins and nucleic acids, biomolecular motors and diffusional signaling and sensing. Important experimental tools such as magnetic resonance and synchrotron x-ray crystallography are also discussed. (WR)
Prerequisite: one year of introductory physics (PHY 2053/PHY 2054, PHY 2048/PHY 2049, or the equivalent) and one year of calculus (MAC 2311/MAC 2312, or the equivalent).
Attributes: Satisfies 2000 Words of Writing Requirement

Plant Pathology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

PLP 2000 Plants, Plagues and People 3 Credits
Grading Scheme: Letter Grade
Biology and history of the human species for non-science majors. A chronological presentation from the origin of life to the present with emphasis on the impact that plants, animals and diseases have had and are having on human civilizations. (B or H)
Attributes: General Education - Biological Science, General Education - Humanities

PLP 2060 Fungus among Us: Mushrooms, Molds and Civilization 3 Credits
Grading Scheme: Letter Grade
Role of fungi in human affairs, including their historical use as food or medicine or in religious activities. Also includes their current impact on society as pathogens of plants and animals, in the deterioration of food and fabric and in the synthesis of important drugs. (B)
Attributes: General Education - Biological Science

PLP 3002C Fundamentals of Plant Pathology 4 Credits
Grading Scheme: Letter Grade
Principles and practices of plant pathology. (B)
Prerequisite: BOT 2010C or BSC 2010.
Attributes: General Education - Biological Science

PLP 3103C Control of Plant Diseases 3 Credits
Grading Scheme: Letter Grade
Principles and practice of plant disease control through cultural practices, competing microorganisms and chemical pesticides. Offered every other year.)
Prerequisite: PLP 3002C.

PLP 3230 Survey of Plant Pathogens 3 Credits
Grading Scheme: Letter Grade
Introduces the main groups of pathogens that cause plant disease, how they spread and affect plants and how they are identified and managed. Also includes specific examples of how plant pathogens have changed the course of human history and culture.
Prerequisite: BOT 2010 or BSC 2010.

PLP 4104 Applied Plant Disease Management 3 Credits
Grading Scheme: Letter Grade
Summarizes the methods and strategies used to manage plant disease by targeting vulnerable points in the pathogen life cycle and disease epidemic. Utilize knowledge of organismal biology, epidemiology, management chemistry, and economics to develop strategies for managing plant diseases.
Prerequisite: BSC 2010/BSC 2010L or BOT 2010C and BSC 2011/BSC 2011L or BOT 2011C.

PLP 4222C Introduction to Plant Virology 3 Credits
Grading Scheme: Letter Grade
Introduces plant virology by covering the principles of plant virology, symptomatology, virus groups, structure, function, spread, detection and control.
Prerequisite: PLP 3002C and BCH 3025.

PLP 4242C Introduction to Plant Bacteriology 3 Credits
Grading Scheme: Letter Grade
Discusses the main characteristics and properties of bacteria that cause disease in plants with emphasis on problems unique to plant pathology. Offered every other year.
Prerequisite: MCB 3020;
Corequisite: PLP 3002C.

PLP 4260C Introduction to Plant Pathogenic Fungi 3 Credits
Grading Scheme: Letter Grade
Introduces the groups of fungi that cause disease in plants, including morphology, taxonomy, physiology, genetics and control of these fungi.
Prerequisite: PLP 3002C or PLP 4653C.

PLP 4653C Basic Fungal Biology 4 Credits
Grading Scheme: Letter Grade
Introduces the groups of fungi and fungi-like organisms. Discusses the structure, development, physiology, genetics, ecology and systematics of fungi.
Prerequisite: (BSC 2010 and BSC 2011) or PLP 3002C.

PLP 4900 Supervised Extension Experience in Plant Pathology 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

PLP 4905 Problems in Intermediate Plant Pathology 1-4 Credits
Grading Scheme: Letter Grade
Individual study and research in areas of special interest to undergraduates whose major field is plant pathology.
Prerequisite: PLP 3002 or the equivalent.

PLP 4911 Supervised Research in Plant Pathology 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application. (S-U)

PLP 4915 Honors Thesis Research in Plant Pathology 0-3 Credits
Grading Scheme: S/U
Independent research in plant pathology leading to an honors thesis; mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

PLP 4931 Seminar in Plant Pathology 1 Credit
Grading Scheme: Letter Grade
Discusses current concepts and procedures related to the practice of plant pathology as a profession.
Prerequisite: PLP 3002C.

PLP 4932 Special Topics in Plant Pathology 1-3 Credits
Grading Scheme: Letter Grade
Special topics in plant pathology.
Prerequisite: sophomore standing.

PLS 4941 Practical Work Experience 1-3 Credits
Grading Scheme: S/U
Practical, hands-on experience in the plant sciences through a paid internship in the industry. This must be a new experience and related to the student's field of study. One month of full-time work is required for each credit.
Prerequisite: junior standing and AG-PLS major.

Polish | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

PLT 2560 Poland through Movies 4 Credits
Grading Scheme: Letter Grade
Introductory survey of more than one thousand years of Polish history, illustrated on film.

PLT 3520 Polish Cinema 4 Credits
Grading Scheme: Letter Grade
Examination of principal developments and major directors of modern Polish cinema with emphasis on the visual and narrative techniques that distinguish Polish cinema from Hollywood and other national cinemas. Taught in English. (Cross-listed with ENG 4135.)

PLT 3930 Special Topics in Polish Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics in Polish literature, culture and society. Taught in English.

POL 1130 Introduction to Polish Language and Culture 1 5 Credits
Grading Scheme: Letter Grade
A two-semester Polish language sequence that introduces the basics of Polish language and culture.

POL 1131 Introduction to Polish Language and Culture 2 5 Credits
Grading Scheme: Letter Grade
Second in the two-semester sequence. Helps to expand vocabulary, command of Polish grammar, and the ability to speak Polish.
Prerequisite: POL 1130 or placement test.

POL 2220 Intermediate Polish 1 4 Credits
Grading Scheme: Letter Grade
Improve speaking, reading, writing, and listening comprehension skills by reviewing and expanding the language principles introduced in POL 1130 and POL 1131.

POL 2221 Intermediate Polish 2 4 Credits
Grading Scheme: Letter Grade
Improve speaking, reading, writing, and listening comprehension skills by reviewing and building upon the language principles introduced in POL 2220.

Political Science

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

CPO 2001 Comparative Politics 3 Credits
Grading Scheme: Letter Grade
The classification of political systems according to institutional and developmental characteristics. Causes and costs of political stability and instability. Comparison relates to contemporary political institutions and processes in specific countries. (S and N)
Attributes: General Education - International, General Education - Social Science

CPO 3044 Democracy in Dark Times 3 Credits
Grading Scheme: Letter Grade
Democratic decline across several counties and regions of the world. Addresses periods of democratic decline in regions in which democracy is expected, as well as in countries with histories of authoritarianism. Themes include Nazism, fascism, socialist and/or populist revolution, as well as democratic recovery in some cases.
Prerequisite: CPO 2001.

CPO 3103 Western European Politics 3 Credits
Grading Scheme: Letter Grade
Comparative analysis of the government and politics of the major Western European countries. Emphasizes party systems and the social bases of politics in industrialized societies. (S and N)
Prerequisite: CPO 2001.
Attributes: General Education - International, General Education - Social Science

CPO 3204 African Politics 3 Credits
Grading Scheme: Letter Grade
African nationalism, political movements and governments in the African states. (S and N) (WR)
Prerequisite: CPO 2001.
Attributes: General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

CPO 3303 Introduction to Latin American Politics 3 Credits
Grading Scheme: Letter Grade
Introductory overview of political patterns and political behavior in Latin America within comparative and developmental perspectives. Emphasizes the social, economic and political factors shaping contemporary political structures and processes. (S and N)
Attributes: General Education - International, General Education - Social Science

CPO 3403 Politics of the Middle East 3 Credits
Grading Scheme: Letter Grade
Focuses on key political and social processes in the modern Middle East. Variable themes in comparative politics are addressed, such as nationalism, state formation, women and politics, religious resurgence, feminism and law. (S and N)
Prerequisite: CPO 2001.
Attributes: General Education - International, General Education - Social Science

CPO 3614 Eastern European Politics 3 Credits
Grading Scheme: Letter Grade
Comparative analysis of the formal structures of government and politics of Eastern European countries; the actual operation of their political systems and the factors that influenced their transitions to democracy and market-based economies. (S and N)
Prerequisite: CPO 2001.
Attributes: General Education - International, General Education - Social Science

CPO 3633 Politics in Russia 3 Credits
Grading Scheme: Letter Grade
Analyzes the formal structures of government and politics in Russia, the actual operation of its political system and the factors that influenced the transition to democracy and a market-based economy. (S and N)
Prerequisite: CPO 2001.
Attributes: General Education - International, General Education - Social Science

CPO 3713 Women and Politics in the Modern Middle East 3 Credits
Grading Scheme: Letter Grade
Examines women and gender in the politics of the modern Middle East from the late 19th century through the 1990s.

CPO 4000 Selected Studies in Comparative Politics 3 Credits
Grading Scheme: Letter Grade
Variable topics in comparative politics; precise course content will be announced in advance. (S and N)
Attributes: General Education - International, General Education - Social Science

CPO 4034 Politics in Developing Nations 3 Credits
Grading Scheme: Letter Grade
Introduces politics in third world states, an examination of common problems and the various strategies for dealing with them.
Prerequisite: CPO 2001.

CPO 4042 Politics in Post-Industrial Societies 3 Credits
Grading Scheme: Letter Grade
Comparative analysis of advanced industrial states with emphasis on diverse patterns of economic, social and political development as determinants of current political structures and policies.

CPO 4053 Politics under Authoritarianism 3 Credits
Grading Scheme: Letter Grade
Investigates the sources of durable authoritarianism in Asia and around the world and contrasts the survival of dictatorships with successful democratic transitions.
Prerequisite: CPO 2001.

CPO 4072 Comparative Elections 3 Credits
Grading Scheme: Letter Grade

CPO 4133 Canadian Politics 3 Credits
Grading Scheme: Letter Grade
Surveys the political culture, constitutional foundations, public opinion and participation, and political institutions in Canada. Focus on the challenges to constitutional foundations, Canadian nationalism, federalism, parliamentary supremacy and the party system. (S)
Prerequisite: CPO 2001.
Attributes: General Education - Social Science

CPO 4145 Irish Government and Politics 3 Credits
Grading Scheme: Letter Grade
Intensive analysis of the contemporary history, politics and government of Ireland. The course examines the foundations of the state and society from an historical and political-cultural perspective.
Prerequisite: POS 2041.

CPO 4194 Islam and European Politics 3 Credits
Grading Scheme: Letter Grade
Introduces the variety of contacts that Islam, as a religion and system of thought and doctrine, has had on various strands of European politics since early Muslims engaged in translating, commenting on and expanding the Greek systems of thought.
Prerequisite: CPO 2001.

CPO 4302 Latin American Political Economy 3 Credits
Grading Scheme: Letter Grade
Introduces the Latin American political economy. Students acquire the analytical tools to understand the relationship between politics and economics in the shaping of public policies in the region.
Prerequisite: CPO 2001 or LAS 2001.

CPO 4306 Contemporary Problems in Latin American Politics 3 Credits
Grading Scheme: Letter Grade
Analyzes major themes and issues in the study of Latin American politics: democratic transitions, economic restructuring, social movements, civil-military relations and political violence. (WR)
Prerequisite: CPO 3303 or the equivalent experience.
Attributes: Satisfies 6000 Words of Writing Requirement

CPO 4384 Argentina and the Politics of Memory 3 Credits
Grading Scheme: Letter Grade
Politics of Argentina from the 19th century to the present with special focus on Peronism and the rise of democracy.
Prerequisite: CPO 2001.

CPO 4401 Arab-Israeli Conflict 3 Credits
Grading Scheme: Letter Grade
The Arab-Israeli conflict from the 19th century through the 1990s and into the current century.

CPO 4721 The Politics of Ethnic Conflict 3 Credits
Grading Scheme: Letter Grade
Introduces the systematic study of communal violence, to the major concepts in conflict studies, to the main approaches to studying conflict and to many of the major episodes of communal violence in contemporary Asia and beyond.
Prerequisite: CPO 2001.

CPO 4722 Latin American and Caribbean Migration to the United States 3 Credits
Grading Scheme: Letter Grade
Provides a clearer understanding and appreciation of Latin American and Caribbean migration to the United States. After a general introduction to some of the key theoretical concepts and the historical processes underlying immigration to the U.S., focuses in depth on selected immigrant groups from Latin America and the Caribbean.
Prerequisite: sophomore status or above.

CPO 4727 Judaism and Politics 3 Credits
Grading Scheme: Letter Grade
Examines how Jews govern themselves (often referred to as communal governance) and how Jews relate to the political system where they live. Explores the development of the Jewish political tradition in the Biblical period, the Middle Ages, the early modern period and the modern era.
Prerequisite: POS 2041.

CPO 4731 Democratization in Global Perspective 3 Credits
Grading Scheme: Letter Grade
Introduces literature on democratization, including familiarization with important theoretical and conceptual issues and empirical data on major regions of the world.
Prerequisite: CPO 2001.

CPO 4793 Environmental Politics in the Global South 3 Credits
Grading Scheme: Letter Grade
Examines the politics of environmental degradation in countries of the global south, a.k.a. the developing world, through case studies of Amazonian deforestation in Brazil, international development projects in India and oil drilling in the Niger Delta.
Prerequisite: sophomore standing or higher.

CPO 4911 Undergraduate Research in Comparative Politics 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Comparative Politics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Comparative Politics.

INR 2001 Introduction to International Relations 3 Credits
Grading Scheme: Letter Grade
Examines philosophical, theoretical and methodological approaches to the student of international relations, the interaction of major global actors in the post-World War II and post-Cold War eras, the structure of the global economy and various issues such as arms proliferation and conflict associated with ethnicity and nationalism. (S and N)
Attributes: General Education - International, General Education - Social Science

INR 3034 Politics of the World Economy 3 Credits
Grading Scheme: Letter Grade
International trade, finance and investment issues in the global political economy and their importance for advanced industrial and less-developed countries.
Prerequisite: INR 2001.

INR 3084 Culture and World Politics 3 Credits
Grading Scheme: Letter Grade
Contending conceptualizations of culture and its relations to international politics. Examines several questions on the relationship between national/group identity and international politics: Do diplomatic alliances reflect cultural/ideological affinity among allies? What is the relationship between the self-image of the West and Western imperialism?
Prerequisite: INR 2001.

INR 3102 The U.S. and World Affairs 3 Credits
Grading Scheme: Letter Grade
The tradition and development of American foreign policy and contemporary foreign policy problems. (S and N)
Prerequisite: INR 2001 or instructor permission.
Attributes: General Education - International, General Education - Social Science

INR 3135 Contemporary Issues in National Security 3 Credits
Grading Scheme: Letter Grade
Surveys national security issues including proliferation, terrorism, and homeland defense.
Prerequisite: INR 2001 with a minimum grade of B.

INR 3333 Introduction to International Security 3 Credits
Grading Scheme: Letter Grade
Examines and applies the major theoretical and methodological approaches to international security. Analyzes the impact of domestic, state, regional and global system factors in international security. Familiarity with the basic concepts of world politics, particularly the dominant actors, issues and paradigms, is recommended.
Prerequisite: INR 2001.

INR 3502 International Institutions 3 Credits
Grading Scheme: Letter Grade
Analyzes the political and functional aspects of international organization and cooperation with emphasis on formal organizations, such as the United Nations or the European Union, and less formal institutions and arrangements. (S and N) (WR)
Prerequisite: INR 2001 and junior or senior standing.
Attributes: General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

INR 3603 Theories of International Relations 3 Credits
Grading Scheme: Letter Grade
Examines a variety of theoretical and methodological approaches to the study of international relations.
Prerequisite: INR 2001.

INR 4035 Rich and Poor Nations in the International System 3 Credits
Grading Scheme: Letter Grade
The economic, social and political linkages between less developed and advanced industrial countries in the global system predominantly from the former's perspective. Considers the historical sources of underdevelopment, theoretical and substantive aspects of world poverty, and regional and international efforts to redress the problems of developing countries.
Prerequisite: INR 2001.

INR 4083 War and Peace in World Politics 3 Credits
Grading Scheme: Letter Grade
Examination and application of the major theoretical and methodological approaches to the study of international conflict. Analyzes the impact of domestic, state, regional and global factors in explicating international war. Students should be familiar with the basic concepts of world politics, particularly the dominant actors, issues and paradigms informing analyses in the field, with special emphasis on quantitative analyses of war.

INR 4085 Gender and International Relations 3 Credits
Grading Scheme: Letter Grade
Despite the importance of gender in global politics, gender is still not fully integrated in the academic study of international politics. Examines the study of feminist work in international relations.

INR 4204 Comparative Foreign Policy 3 Credits
Grading Scheme: Letter Grade
Various theoretical approaches to explaining foreign policy, with special attention to the foreign policies of selected countries other than the United States.
Prerequisite: INR 2001 and junior or senior standing.

INR 4244 International Politics of Latin America 3 Credits
Grading Scheme: Letter Grade
Analyzes the international politics of Latin America, including relations with the United States and non-hemispheric powers as well as the foreign policies of Latin American states vis-vis each other. (WR)
Prerequisite: INR 2001 or advanced standing in Latin American studies.
Attributes: Satisfies 6000 Words of Writing Requirement

INR 4303 The Making of American Foreign Policy 3 Credits
Grading Scheme: Letter Grade
Examines the principal factors influencing the formulation of U.S. foreign policy, including the international environment, information processing, personality factors, political culture, decision-makers and decision making. Consideration is also given to the institutional setting, including the President, Congress and public opinion. (S)
Prerequisite: INR 2001 or instructor permission.
Attributes: General Education - Social Science

INR 4350 International Environmental Relations 3 Credits
Grading Scheme: Letter Grade
Considers the special problems posed by environmental collective action for international policymakers, some of the primary actors and organizations involved in addressing environmental problems and selected international environmental issues, such as global warming, ozone depletion and rain forest destruction.
Prerequisite: INR 2001.

INR 4531 Politics of the European Union 3 Credits
Grading Scheme: Letter Grade
Examines the primary structures, actors and processes of policy making in the European Union. Salient policy areas such as the single market, monetary union, agricultural policy and the potential for a common foreign and security policy are investigated.
Prerequisite: INR 2001.

INR 4684 Theories of International Ethics 3 Credits
Grading Scheme: Letter Grade
Introduces contemporary theories, debates and major scholarly traditions in the study of theories of international ethics. Students read and critique five books that present different debates on theory, method, policy and practice.
Prerequisite: INR 2001.

INR 4905 Individual Work 2-3 Credits
Grading Scheme: Letter Grade
Readings and discussion in advanced topics in International Relations.

INR 4911 Undergraduate Research in International Relations 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

INR 4931 Special Topics in International Relations 3 Credits
Grading Scheme: Letter Grade
Selected topics in International Relations.
Prerequisite: CPO 2001.

INR 4940 International Relations Internship 3 Credits
Grading Scheme: S/U
Internship with government, political parties, interest groups, lobbying organizations, international organizations, and private companies with 60% or more focus on international politics. Log and paper required. Only 3 hours of POS/PAD/INR 4940 credit may be counted towards the Political Science major and/or the International Relations Certificate.
Prerequisite: CPO 2001.

INR 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism for students to receive UF credit for international relations coursework taken in an approved study abroad program. Syllabuses of proposed coursework must be approved in advance by the departmental undergraduate coordinator.

PAD 3003 Introduction to Public Administration 3 Credits
Grading Scheme: Letter Grade
The role of administrative agencies in the formulation and implementation of public policy. Emphasizes the politics of administration. Problems in administration management. (S)
Prerequisite: POS 2041.
Attributes: General Education - Social Science

PAD 4940 Court Internship 3 Credits
Grading Scheme: S/U
Preapproved internship with the Alachua County Clerk of Court. Interns will work a minimum of 150 hours per semester, complete readings and a 5-10 page paper. Only three credits of POS/PAD 4940 credit may be counted toward the political science major. (S-U)
Prerequisite: POS 2041 and instructor permission.

POS 2032 Politics of Sustainability 3 Credits
Grading Scheme: Letter Grade
Examines the political determinants of societal efforts to achieve the competing objectives of sustainability; introduces key concepts and theories used by political scientists in studying sustainability. (S)
Attributes: General Education - Social Science

POS 2041 American Federal Government 3 Credits
Grading Scheme: Letter Grade
Basic principles of the Federal Constitution and Civil Rights. Political parties and the electoral process. The structure and machinery of the federal government, including Congress, the president and the judiciary. (S)
Attributes: General Education - Social Science

POS 2112 American State and Local Government 3 Credits
Grading Scheme: Letter Grade
State constitutions, political parties and politics. State legislatures, courts and chief executives. The functions of state, city and county government. (S)
Attributes: General Education - Social Science

POS 3122 State Politics 3 Credits
Grading Scheme: Letter Grade
Investigates major problems and issues in American state politics. Emphasizes the political institutions and organizations, political behavior in state politics and the impact of state politics on policy making at national, state and local levels.
Prerequisite: POS 2041.

POS 3173 Southern Politics 3 Credits
Grading Scheme: Letter Grade
The changing politics of the South, including two-party development, urbanism, traditionalism and racism. (S) (WR)
Prerequisite: POS 2041.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

POS 3204 Political Behavior 3 Credits
Grading Scheme: Letter Grade
Examines institutional, social and psychological influences on mass political behavior, political sophistication, political participation, voter choice, partisanship, ideology and values. (S) (WR)
Prerequisite: POS 2041.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

POS 3233 Politics and Public Opinion 3 Credits
Grading Scheme: Letter Grade
Studies the definition and measurement of political opinion by polls and surveys, and the developmental character of opinions. Includes variables in opinion formation, experiments in opinion measurement and the relation of political opinion to public policy.
Prerequisite: POS 2041.

POS 3263 Policy, Ethics and Public Leadership 3 Credits
Grading Scheme: Letter Grade
Public leaders bear a special responsibility to make ethical decisions based on the enduring values of our democracy; develops awareness of leadership and ethical issues in the public sector. (S) (WR)
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

POS 3603 American Constitutional Law 3 Credits
Grading Scheme: Letter Grade
Studies and analyzes the Federal Constitution, with study and briefing of leading cases in constitutional law. (WR)
Prerequisite: POS 2041 and junior or senior standing.
Attributes: Satisfies 6000 Words of Writing Requirement

POS 3606 American Civil Liberties 3 Credits
Grading Scheme: Letter Grade
Discusses statutes and court decisions emphasizing First Amendment freedoms, equal protection of the law, due process and rights of defendants, implied rights, and the rights of women, juveniles, students, prisoners and the mentally ill. (WR)
Prerequisite: POS 2041.
Attributes: Satisfies 6000 Words of Writing Requirement

POS 3679 Trial Advocacy 1 Credit
Grading Scheme: Letter Grade
This trial advocacy course allows students to act as attorneys and/or witnesses in a simulated civil or criminal trial. Requires participation in the fall (when the team begins preparing the case) and spring (through the end of March when the mock trial season ends).
Prerequisite: instructor permission.

POS 4074 Latino Politics and Policy 3 Credits
Grading Scheme: Letter Grade
Examines the political behavior of Hispanic Americans in the United States. Students discuss political and public policy issues that impact Hispanic/Latino communities, such as affirmative action, the Chicano movement, English-only movements, immigration, the presidency, racial profiling and urban politics.
Prerequisite: sophomore standing or above.

POS 4077 African American Politics and Policy 3 Credits
Grading Scheme: Letter Grade
Examines the political behavior of African Americans in the United States. Discusses the civil rights movement, the black power movement, black political thought (conservatism, liberalism and nationalism), blacks and the court system, the role of blacks in political parties, blacks and the presidency and contemporary issues in African American politics.
Prerequisite: sophomore standing or above.

POS 4194 Politics beyond the Beltway 3 Credits
Grading Scheme: Letter Grade
Examines key issues of politics that exist at regional, state and local levels such as campaign finance reform, lobbying, political action committees, political corruption, racial and civil rights issues, and state and local relations.
Prerequisite: POS 2041.

POS 4202 Asian American Politics 3 Credits
Grading Scheme: Letter Grade
Examines the political behavior, attitudes and mobilization of Asian Americans in America by studying the racial stereotypes that plague them, their electoral behavior, the mobilizations tactics utilized in their communities, their response to violent crimes against members of their group and crime within their communities, Asian American conservatism, their views on affirmative action and the politics of Asian American women.
Prerequisite: POS 2041.

POS 4258 Politics in Fiction and Film 3 Credits
Grading Scheme: Letter Grade
Uses make-believe stories told in popular novels and Hollywood motion pictures to provide insights into the nature of real-life politics in the United States. (WR)
Prerequisite: POS 2041.
Attributes: Satisfies 6000 Words of Writing Requirement

POS 4264 Ethics in American Politics 3 Credits
Grading Scheme: Letter Grade
The problem of unethical behavior involving elected officials is a perennial concern in American politics. How do political ethics differ, if at all, from private ethics? What causes corruption? What have been the aims of good-government reformers?
Prerequisite: POS 2041.

POS 4275 Modern Political Campaigns 3 Credits
Grading Scheme: Letter Grade
Explores major issues associated with modern political campaigns. Presidential campaigns are a primary, but not exclusive, focus. Investigates why modern campaigns take the forms they do, and to place them in broader American and political contexts. This is not a course on how to run campaigns; it is a course on understanding campaign politics.
Prerequisite: POS 2041.

POS 4291 Religion and Politics in the United States 3 Credits
Grading Scheme: Letter Grade
Investigates the role of religious institutions, values and communities in contemporary American political life. (WR)
Prerequisite: refer to the department.
Attributes: Satisfies 6000 Words of Writing Requirement

POS 4400 Politics of Modernity 3 Credits
Grading Scheme: Letter Grade
Focuses on the core elements of modernity: the transitions from traditional to modern political identities, from subsistence production to capitalism, and from less to more complex forms of political authority, whether democratic or not. This course also introduces advanced undergraduates in political science to the development of the central themes in comparative politics.
Prerequisite: CPO 2001.

POS 4413 The Presidency 3 Credits
Grading Scheme: Letter Grade
The central role of the American Presidency in the political process. Emphasizes the contemporary institutional nature of that office and the behavior of its occupants. (S)
Prerequisite: POS 2041.
Attributes: General Education - Social Science

POS 4424 Legislative Politics 3 Credits
Grading Scheme: Letter Grade
The politics of the legislative process, recruitment of legislators, formal and informal rules of behavior, legislative-executive relations and the committee system. Also discusses the impact of political parties, interest groups and constituents on the legislative process. (S)
Prerequisite: POS 2041 and junior or senior standing.
Attributes: General Education - Social Science

POS 4443 Political Parties and Elections 3 Credits
Grading Scheme: Letter Grade
Composition, organization and structure of political parties and their roles and relationships in the political process. (S) (WR)
Prerequisite: POS 2041.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

POS 4463 Interest Group Politics 3 Credits
Grading Scheme: Letter Grade
Examines the theoretical foundations, historical context and current activities of special interest groups in the United States.
Prerequisite: POS 2041

POS 4624 Race, Law and the Constitution 3 Credits
Grading Scheme: Letter Grade
Surveys the historical and contemporary response of the law enforcement, civil/criminal justice and corrections systems to minority/ethnic groups in the United States. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

POS 4674 Political Change and Legal Development 3 Credits
Grading Scheme: Letter Grade
Introduces the role of law in political and social development by providing a background in social theory and the history of legal systems, beginning with Roman law.
Prerequisite: POS 2041.

POS 4734 Research Methods in Political Science 3 Credits
Grading Scheme: Letter Grade
Introduces the theory and method of contemporary political analysis. Emphasizes alternative analytical frameworks, concepts, research design, variables, measurement and quantitative analysis of political data. Required for students pursuing the department honors program. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

POS 4750 Survey Research 3 Credits
Grading Scheme: Letter Grade
Prepares students to understand, conduct, analyze and assess opinion surveys and polls. Covers how to decide whether and when surveys are appropriate means of data collection, how to put together a survey, how to conduct basic quantitative analysis of survey data and how to report the findings.
Prerequisite: POS 2041.

POS 4905 Individual Work 2-3 Credits
Grading Scheme: Letter Grade
Readings and discussion in advanced topics of political science.
Prerequisite: department permission

POS 4911 Undergraduate Research in American Politics 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

POS 4931 Special Topics 3 Credits
Grading Scheme: Letter Grade
Selected topics in political science; precise course content will be announced in advance.

POS 4934 Honors Preparation 1 Credit
Grading Scheme: Letter Grade
Must be taken in conjunction with other political science courses at the 3000/4000 level. Required for students pursuing the department honors program.
Prerequisite: majors with a UF upper-division GPA of 3.5 and instructor permission.

POS 4940 Political Internship 3 Credits
Grading Scheme: S/U
Internship in government and politics. Internships are available at all levels - local, state and federal - and in every branch of government - executive, legislative and judicial. Other internships are available with political parties, interest groups, lobbying organizations, international organizations and private companies engaged in governmental relations and issue research. Readings and paper required. Only three credits of POS /PAD 4940 credit may be counted toward the major. (S-U).
Prerequisite: POS 2041 and instructor permission.

POS 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

POS 4970 Senior Thesis 2-4 Credits
Grading Scheme: Letter Grade
One of three required courses for students who are writing an honors thesis. Students work under the supervision of their thesis advisor. Generally, this course is taken in the second semester of the one-year thesis process. Students receive a letter grade for their work.

POT 2002 Introduction to Political Theory 3 Credits
Grading Scheme: Letter Grade
Basic principles of political thought. Examines the nature of the state and of the relationship between the individual and the state. Covers topics such as authority, consent, freedom and obligation. (H)
Attributes: General Education - Humanities

POT 3302 Political Ideologies 3 Credits
Grading Scheme: Letter Grade
Seeks understanding of the contemporary spectrum of political beliefs from liberal democracy to the ideological ideas of the far right. Examines the effects of ethical, historical, political and psychological perspectives on these belief systems.

POT 3503 Environmental Ethics and Politics 3 Credits
Grading Scheme: Letter Grade
An intensive investigation into the history and theory of environmental ethical and political thought.

POT 4013 Great Political Thinkers: Ancient and Medieval 3 Credits
Grading Scheme: Letter Grade
Major early political theorists including Plato, Aristotle, St. Augustine and St. Thomas Aquinas. Emphasis on the principles of a just political order: natural law, civic virtue, constitutionalism. Analysis of church-state struggles and the emergence of the modern state. (H)
Attributes: General Education - Humanities

POT 4053 Great Political Thinkers: Machiavelli to Marx 3 Credits
Grading Scheme: Letter Grade
Studies selected political theorists from Machiavelli to Marx. Emphasizes the ideas of authority and freedom, obligation and consent in the writing of Hobbes, Locke, Rousseau, etc. Liberalism, conservatism, utilitarianism and idealism. (H) (WR)
Attributes: General Education - Humanities, Satisfies 4000 Words of Writing Requirement

POT 4204 American Political Thought 3 Credits
Grading Scheme: Letter Grade
Examines the history of American political thought, including an analysis of Thomas Jefferson and the Declaration of Independence, the federalist papers and the ideology of Thomas Paine. Also includes African-American political thought, feminist political theories, liberalism and the contribution of Mark Twain.
Prerequisite: POT 2002.

POT 4311 Problems of Democracy 3 Credits
Grading Scheme: Letter Grade
The theory and practice of democracy, especially ideas that define a democratic order. Studies selected topics ranging from equality and majority rule to technology and the globalization of democracy. (WR)
Prerequisite: junior or senior standing, or instructor permission.
Attributes: Satisfies 4000 Words of Writing Requirement

POT 4911 Undergraduate Research in Political Theory 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

PUP 3002 Current Controversies in Public Policy 3 Credits
Grading Scheme: Letter Grade
Framework to understand the formation, adoption, budgeting, implementation and evaluation of public policy. This framework provides a basis for detailed discussions and debates about current policy issues. (S)
Prerequisite: POS 2041.
Attributes: General Education - Social Science

PUP 3323 Women in Politics 3 Credits
Grading Scheme: Letter Grade
Analyzes the roles women play in American politics, including political behavior and public policy issues.

PUP 4224 Florida Environmental Politics 3 Credits
Grading Scheme: Letter Grade
Examines the politics of environmental transformation in Florida, including issues of water supply, growth management and Everglades restoration. Supplements the department's offerings in environmental politics. Can be used to satisfy requirements for the major or minor in political science, but it is also intended for (and accessible to) interested students in any major.
Prerequisite: sophomore status or above.

PUP 4404 Politics of Education 3 Credits
Grading Scheme: Letter Grade
The interrelationship of American political and educational systems, educational policymaking as political process, and analysis of contemporary educational problems. (S) (WR)
Prerequisite: junior or senior standing, or instructor permission.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

PUP 4911 Undergraduate Research in Public Policy 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Public Policy. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Public Policy.

Portuguese | Spanish and Portuguese Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

LIT 2000 Introduction to Literature 3 Credits
Grading Scheme: Letter Grade
Examines the important role literature has played in individuals' lives and in society, presenting a range of literary styles and genres, from different countries and historical periods. Special attention paid to development of critical skills of analysis and interpretation. (H)
Prerequisite: ENC 1101
Attributes: General Education - Humanities

POR 1130 Beginning Portuguese 1 5 Credits
Grading Scheme: Letter Grade
First course in the basic Portuguese language sequence, which emphasizes the language as spoken in Brazil. Develops basic communication skills in reading, writing, speaking and listening. Not open to proficient speakers of Spanish.

POR 1131 Beginning Portuguese 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the series in basic Portuguese, which emphasizes the language as spoken in Brazil. Develops basic communication skills in reading, writing, speaking and listening. Not open to proficient speakers of Spanish.
Prerequisite: POR 1130 with minimum grade of C or S, or the equivalent.

POR 3010 Introduction to Portuguese and Brazil: Accelerated 5 Credits
Grading Scheme: Letter Grade
Designed for those with knowledge of another Romance language (usually Spanish) through study or home experience. A complete introduction to the language, assuming that students have no previous study of Portuguese. It also satisfies the CLAS and Journalism foreign-language requirement in one semester.
Prerequisite: FRE 3300, SPN 3300 or equivalent.

POR 3224 Applied Portuguese 1-5 Credits
Grading Scheme: Letter Grade
Portuguese-language reading and discussions to accompany and complement courses of diverse content offered in other departments. Readings and discussions are in Portuguese to develop vocabulary and fluency related to the content of the companion course and to provide an international perspective on the issues of the main course. (N)
Prerequisite: instructor permission.
Attributes: General Education - International

POR 3242 Oral and Written Practice 3 Credits
Grading Scheme: Letter Grade
Intermediate-level course emphasizing all four skills; consists of printed and electronic readings, writing essays and taking notes, oral discussions and presentations, lab activities and grammar review.
Prerequisite: POR 1131, POR 3010 or the equivalent.

POR 3243 Composition and Conversation 3 Credits
Grading Scheme: Letter Grade
An intermediate-level course with continued expansion of vocabulary, review of essential grammar and structures and development of reading, writing and speaking skills.
Prerequisite: POR 1131 or POR 3010, or the equivalent.

POR 3451 Introduction to Portuguese Translation and Interpretation 3 Credits
Grading Scheme: Letter Grade
Improve Portuguese language skills through application of the principles of translation while gaining information on professional opportunities in the field.
Prerequisite: POR 3010 or the equivalent.

POR 3500 Luso-Brazilian Civilization 3 Credits
Grading Scheme: Letter Grade
Introduction to the central historical events, political institutions, intellectual currents and artistic movements in the foundation and development of Portugal, Brazil and Lusophone Africa. Preview of topics studied in other literature and culture courses. (H and N)
Prerequisite: POR 3242 or the equivalent, or instructor permission.
Attributes: General Education - Humanities, General Education - International

POR 3502 Brazilian Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to the study of modern cultural forms, including folk pageantry, performance arts, literature, film and television.
Prerequisite: POR 3242 or instructor permission.

POR 3701 Introduction to Portuguese Linguistics 3 Credits
Grading Scheme: Letter Grade
An introduction to the basic concepts and analytical techniques of linguistics, applied specifically to the Portuguese language. Practices the linguistic analysis of the sounds, words and sentences of Portuguese, with relevant comparisons to Spanish and English where applicable.
Prerequisite: POR 3242 or POR 3243 with minimum grade of C.

POR 3930 Topics in Brazilian Culture and Civilization 3 Credits
Grading Scheme: Letter Grade
Variable topics in Brazilian culture and civilization, including racial identity, feminism, regionalism, music, film, art, religion, sports, and more.
Prerequisite: POR 3010.

POR 4420 Advanced Composition and Syntax 3 Credits
Grading Scheme: Letter Grade
A language course that distinguishes Portuguese from related Romance tongues, including the more difficult aspects of grammar and structure, specialized vocabulary, different stylistic registers, and application of these to translation and original composition.
Prerequisite: POR 3243 or the equivalent (intermediate proficiency).

POR 4906 Honors Thesis 1-3 Credits
Grading Scheme: Letter Grade
Honors thesis preparation.
Prerequisite: 4000-level POW or POR course.

POR 4956 Overseas Studies 3-6 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

POW 3100 Introduction to Literature in Portuguese 3 Credits
Grading Scheme: Letter Grade
A survey of literature written in Portuguese by major authors from Portugal, Brazil and Lusophone Africa. Primary emphasis falls on narrative and comparisons of developments in Portugal and the former colonies. (H and N)
Prerequisite: POR 3243 or the equivalent, or instructor permission.
Attributes: General Education - Humanities, General Education - International

POW 3130 Introduction to Brazilian Literature 1 3 Credits
Grading Scheme: Letter Grade
A survey of literary production in Brazil 1500-1900, including the literature of discovery, colonial manifestations and the major works of Romanticism, Realism and Parnassianism. (H and N)
Prerequisite: POR 3243 or the equivalent, or instructor permission.
Attributes: General Education - Humanities, General Education - International

POW 3131 Introduction to Brazilian Literature 2 3 Credits
Grading Scheme: Letter Grade
A survey of 20th-century literary movements: premodernism, modernism and regionalism in prose and poetry, with an emphasis on the fiction of contemporary writers. (H and N)
Prerequisite: POR 3243 or the equivalent, or program coordinator permission.
Attributes: General Education - Humanities, General Education - International

POW 4380 Contemporary Brazilian Poetry 3 Credits
Grading Scheme: Letter Grade
A study of lyric, both literary and musical, in the second half of the 20th century, including experimental trends, political verse, popular music and youth movements.
Prerequisite: introductory knowledge of Brazilian literature.

POW 4382 Brazilian Drama 3 Credits
Grading Scheme: Letter Grade
A survey of the milestones of Brazilian theatre with an emphasis on 20th century plays. In addition to the plays, the course also presents the theoretical framework and political context of theatrical production in Brazil. (H and N)
Prerequisite: introductory knowledge of Brazilian literature.
Attributes: General Education - Humanities, General Education - International

POW 4450 The Modernist Movement in Brazilian Literature 3 Credits
Grading Scheme: Letter Grade
Readings in fiction, poetry and essay of the nationalist and avant-garde decades of the 1920s and 1930s. Discussions are designed to situate Brazilian letters in diverse national and international contexts. Literary works are complemented by considerations of concurrent production in music and the arts.
Prerequisite: introductory knowledge of Brazilian literature.

POW 4454 Nineteenth-Century Brazilian Literature 3 Credits
Grading Scheme: Letter Grade
The major literary trends of the 19th century, primarily in fiction (Romanticism, Realism and Naturalism), poetry and essays, to familiarize students with representative works of each literary movement and genre. (H and N)
Prerequisite: introductory knowledge of Brazilian literature.
Attributes: General Education - Humanities, General Education - International

POW 4480 Contemporary Brazil Narrative 3 Credits
Grading Scheme: Letter Grade
Rotating topics may include studies in genre (the short story, the novel), theme (science fiction) or author (Rubern Fonseca, Clarice Lispector, Guimaraes Rosa). (H and N)
Attributes: General Education - Humanities, General Education - International

POW 4700 Machado de Assis and His Contemporaries 3 Credits
Grading Scheme: Letter Grade
Machado de Assis, the 19th-century master of Brazilian letters, produced writings of every literary genre, including literary criticism, poetry and drama, in addition to his ingenious short stories and novels. This course surveys Machado's work and compares his novels to those of his contemporaries. (H and N)
Prerequisite: introductory knowledge of Brazilian literature.
Attributes: General Education - Humanities, General Education - International

POW 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Individual work in Portuguese.
Prerequisite: instructor permission.

POW 4911 Undergraduate Research in Portuguese 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

POW 4930 Readings in Luso-Brazilian Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Diverse subjects in Brazilian and Portuguese studies, including the Brazilian Northeast, the Afro-Brazilian world, the culture of dictatorship, popular genres and popular music. In addition to readings of original texts, course may incorporate sound recordings and film.
Prerequisite: introductory knowledge of Luso-Brazilian literature.

PRT 3391 Brazilian Cinema 4 Credits
Grading Scheme: Letter Grade
Critical analysis of Brazilian film and the relationship of content to social and political forces.

PRT 3930 Special Topics in Lusophone Culture and Civilization 1-4 Credits
Grading Scheme: Letter Grade
Variable topics in Brazilian, Portuguese or Luso-African culture and civilization, including globalism, regionalism, song literature, film and video, negritude, women's movements and Amazonian discourse.

Psychology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

CBH 3003 Comparative Psychology 3 Credits
Grading Scheme: Letter Grade
Survey of approaches to and concepts of the study of animal behavior and psychology. (B)
Prerequisite: PSY 2012.
Attributes: General Education - Biological Science

CLP 2001 Personal Growth 3 Credits
Grading Scheme: Letter Grade
Introduces the concepts and techniques in psychology that apply to personal growth and development. All students have the opportunity to participate in research projects or alternative experiences. (S)
Attributes: General Education - Social Science

CLP 3144 Abnormal Psychology 3 Credits
Grading Scheme: Letter Grade
The varieties of disordered experience and conduct, and their contribution to an understanding of more effective personal and social adjustment. Includes the neuroses, psychoses and psychosomatic and conduct disturbances. (S)
Prerequisite: PSY 2012.
Attributes: General Education - Social Science

CLP 4110 Eating Disorders 3 Credits
Grading Scheme: Letter Grade
Overview of the causes and treatments associated with the full range of recognized eating disorders, including anorexia, bulimia and binge eating disorder, as well as a variety of subclinical forms of problematic eating behaviors and their surrounding factors and issues.
Prerequisite: PSY 2012.

CLP 4160 Advanced Abnormal Psychology 3 Credits
Grading Scheme: Letter Grade
Detailed coverage of the origins, treatments and controversies associated with select forms of emotional distress or mental illness. Includes theoretical and empirical contributions to understanding select mood disorders, anxiety disorders, substance disorders, and psychotic disorders, among others.
Prerequisite: PSY 2012 and CLP 3144.

DEP 3053 Developmental Psychology 3 Credits
Grading Scheme: Letter Grade
Theory and research on psychological development from prenatal stages through adulthood. (S)
Prerequisite: PSY 2012
Attributes: General Education - Social Science

DEP 4115 Infant Development 3 Credits
Grading Scheme: Letter Grade
Development from the prenatal period through three years of age with a focus on physical cognitive and social-emotional processes. (S)
Prerequisite: PSY 2012
Attributes: General Education - Social Science

DEP 4163 Cognitive Development 3 Credits
Grading Scheme: Letter Grade
Basic principles and theories of cognitive development from infancy through early adolescence. Information-processing, Piagetian and neo-Piagetian theories are covered, as is language, memory, social cognition, concept formation, perception and attention.
Prerequisite: DEP 3053.

DEP 4305 Adolescent Psychology 3 Credits
Grading Scheme: Letter Grade
Biological, psychological and sociological perspectives on adolescence, including the dynamics of socialization, self-concept and identity, peer groups and problems of adolescence. (S)
Prerequisite: DEP 3053.
Attributes: General Education - Social Science

DEP 4464 Psychology of Aging 3 Credits
Grading Scheme: Letter Grade
Topics in gerontology from a life span developmental perspective, including the development of psychological problems of the aged and theoretical and methodological issues in the study of the aged. (S)
Prerequisite: refer to the department.
Attributes: General Education - Social Science

DEP 4704C Research Methods in Developmental Psychology 4 Credits
Grading Scheme: Letter Grade
Methodological approaches to the study of development including experimental and observational techniques. (S) (WR)
Prerequisite: DEP 3053 and STA 2023; Prereq or
Corequisite: STA 3024.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

DEP 4930 Revolving Topics in Developmental Psychology 3 Credits
Grading Scheme: Letter Grade
Advanced study in developmental psychology, including development of language and thought, social-personality development, gerontology and death and dying. Content varies; refer to the schedule of courses for the semester's topic.
Prerequisite: refer to the department.

EAB 3002 Principles of Behavior Analysis 3 Credits
Grading Scheme: Letter Grade
Introduces and surveys the principles, methods, theories, and applications of the experimental analysis of behavior. Although EAB 3002 and EAB 3764 cannot both be taken to fulfill the Group A requirement, both courses may be taken, with one counting as an additional course toward the major. (S)
Prerequisite: PSY 2012.
Attributes: General Education - Social Science

EAB 3764 Applied Behavior Analysis 3 Credits
Grading Scheme: Letter Grade
Extending learning principles to human problems in child development, education, mental health, mental retardation, behavioral medicine, business and industry, aging and environmental applications. Although students cannot take both EAB 3002 and 3764 to fulfill the Group A requirement, they can take both courses; one will count as an additional course toward the major. (S)
Prerequisite: PSY 2012.
Attributes: General Education - Social Science

EAB 4022C Laboratory Procedures in Behavior Analysis 4 Credits
Grading Scheme: Letter Grade
General laboratory procedures and apparatus employed in the experimental analysis of animal behavior. Daily laboratory sessions focus upon experimental treatments, apparatus programming and data analysis. (S) (WR)
Prerequisite: EAB 3002.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

EAB 4184 Behaviorism and Contemporary Society 3 Credits
Grading Scheme: Letter Grade
Consideration of the applications of behavioral science and technology to contemporary society. Emphasis on the implications of behavior theory and the experimental analysis of behavior. (S)
Prerequisite: EAB 3002 or EAB 3764.
Attributes: General Education - Social Science

EAB 4714C Laboratory in Applied Behavior Analysis 4 Credits
Grading Scheme: Letter Grade
Introduces research methods in applied behavior analysis. Computerized measurement and assessment of human behavior in ongoing field studies, data analysis and implementation of experimental techniques. (WR)
Prerequisite: EAB 3002 or EAB 3764 or instructor permission
Attributes: Satisfies 6000 Words of Writing Requirement

EAB 4930 Advanced Seminar in Behavior Analysis 3 Credits
Grading Scheme: Letter Grade
In-depth examination of topics related to behavior analysis. Some examples include developmental and intellectual disabilities, behavioral treatments for substance abuse, behavioral health and exercise, and ethics in behavior analysis. Content varies; refer to the schedule of courses for the semester's topic.
Prerequisite: EAB 3002 or EAB 3764 with minimum grade of C.

EXP 3104 Sensory Processes 3 Credits
Grading Scheme: Letter Grade
Introduces the human senses and their role in perception, how we sense the physical environment and what factors influence our perception of it. (B)
Prerequisite: PSY 2012.
Attributes: General Education - Biological Science

EXP 3604 Cognitive Psychology 3 Credits
Grading Scheme: Letter Grade
Introduces human cognitive abilities, including perceptual and motor skill, attention, learning and memory, language and thinking, and the methods used to study these abilities. (S)
Prerequisite: PSY 2012.
Attributes: General Education - Social Science

EXP 4174C Laboratory in Sensory Processes 4 Credits
Grading Scheme: Letter Grade
Collect, analyze, and evaluate data on specific problems related to sensory and perceptual abilities. (B) (WR)
Prerequisite: (EXP 3104 or EXP 3604) and STA 2023.
Corequisite: STA 3024.
Attributes: General Education - Biological Science, Satisfies 6000 Words of Writing Requirement

GEY 4001 Issues and Concepts in Gerontology 3 Credits
Grading Scheme: Letter Grade
This multidisciplinary overview of the field of aging covers biomedical and health issues, psychosocial factors, applied aspects and policy issues.

PCO 4050 Applied Health Psychology 3 Credits
Grading Scheme: Letter Grade
Introduces health psychology with an emphasis on both health psychology research and practice. It promotes an understanding of the roles of health psychologists in treating/reducing health problems and diseases, promoting health behaviors, and overcoming health care challenges that are major foci in health psychology.
Prerequisite: PSY 2012 with a minimum grade C.

PCO 4113 Positive Psychology 3 Credits
Grading Scheme: Letter Grade
Explores the history of positive psychology and its basic tenets before examining a wide range of topics that relate to happiness and well-being, including positive relationships, positive thinking, life meaning, religion/spirituality, gratitude, altruism, career development, and character strengths.
Prerequisite: PSY 2012 with a minimum grade C.

PCO 4272 Advanced Seminar in Psychology of Women 3 Credits
Grading Scheme: Letter Grade
Advanced seminar on psychological theories and research related to the psychology of women. Also integrates consideration of the intersections of gender, race/ethnicity, class, sexual-orientation, and other dimensions of diversity.
Prerequisite: PSY 2012.

PCO 4911 Undergraduate Research in Psychology of Health Disparities 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

PCO 4930 Seminar in Counseling Psychology 3 Credits
Grading Scheme: Letter Grade
Advanced study in counseling psychology, including psychology of women, studies of the person and studies of self. (S)
Prerequisite: PSY 2012.
Attributes: General Education - Social Science

PPE 3003 Psychology of Personality 3 Credits
Grading Scheme: Letter Grade
Development and organization of personality, description and assessment methods, results of research in personality structure and processes. (S)
Prerequisite: PSY 2012.
Attributes: General Education - Social Science

PPE 4324C Research Methods in Personality Psychology 4 Credits
Grading Scheme: Letter Grade
Emphasizes four aspects of research: measuring psychological variables, designing research projects, statistically analyzing data and writing psychological research reports. (WR)
Prerequisite: PPE 3003 or SOP 3004 with minimum grade of B; STA 2023 or STA 3024 with minimum grade of B; or instructor permission.
Attributes: Satisfies 6000 Words of Writing Requirement

PSB 3002 Physiological Psychology 3 Credits
Grading Scheme: Letter Grade
Survey of the biological basis of behavior with special relevance to psychology. Students cannot take both PSB 3002 and PSB 3340. (B)
Prerequisite: PSY 2012.
Attributes: General Education - Biological Science

PSB 3340 Behavioral Neuroscience 3 Credits
Grading Scheme: Letter Grade
Neuroanatomical, chemical and electrophysiological studies in the biological basis of behavior. Students cannot take both PSB 3002 and PSB 3340 (PSB 3340 is recommended for IDS majors in neurobiological sciences). (B)
Prerequisite: BSC 2010.
Attributes: General Education - Biological Science

PSB 4240 Psychobiology of Abnormal Behavior 3 Credits
Grading Scheme: Letter Grade
Biological theories and models of developmental disabilities, schizophrenia and affective disorders, and the treatments of these conditions.
Prerequisite: PSB 3340 and STA 2023.
Attributes: General Education - Biological Science

PSB 4342 Introduction to Cognitive Neuroscience 3 Credits
Grading Scheme: Letter Grade
The biological foundations of human cognition.
Prerequisite: PSB 3340 or instructor permission.

PSB 4343C Laboratory in Cognitive Neuroscience 4 Credits
Grading Scheme: Letter Grade
Practical training in the foundations of cognitive neuroscience with a strong focus on cognitive experiments with human participants. Engage in theoretical work and practical experiments addressing behavioral, cognitive, and physiological processes relationships between biological processes.
Prerequisite: PSB 3340 and EXP 3604 and PSY 3213L and STA 2023.

PSB 4434 Neurochemistry, Pharmacology and Behavior 3 Credits
Grading Scheme: Letter Grade
Advanced discussion of neurotransmitters, neuromodulators and the action of neuroactive drugs in relation to behavior.
Prerequisite: PSB 3340 or instructor permission.
Attributes: General Education - Biological Science

PSB 4504 Developmental Psychobiology 3 Credits
Grading Scheme: Letter Grade
Principles of neural and behavioral development stressing the correlations among structural, chemical, endocrine and behavioral events during maturation.
Prerequisite: PSB 3340 or instructor permission.
Attributes: General Education - Biological Science

PSB 4654 Chemical Senses and Behavior 3 Credits
Grading Scheme: Letter Grade
Discussion of neural mechanisms and function of chemical senses, and the interaction with physiologic state and motivational aspects.
Prerequisite: PSB 3340 or instructor permission.
Attributes: General Education - Biological Science

PSB 4810 Neurobiology of Learning and Memory 3 Credits
Grading Scheme: Letter Grade
Advanced undergraduate seminar on neurobiological mechanisms of learning and memory, with concepts applied to the ways in which neuroplasticity underlies many aspects of behavior.
Prerequisite: PSB 3340 or instructor permission.

PSB 4823 Principles of Integrative Physiological Psychology 3 Credits
Grading Scheme: Letter Grade
Discussion of the problem of how reflexes become transformed into operant behaviors. Focus on drug and disease states as a way of getting insights into this problem in animals and humans.
Prerequisite: PSB 3340 or instructor permission.

PSB 4934 Special Topics in Physiological Psychology 3 Credits
Grading Scheme: Letter Grade
Selected topics; precise course content will be announced in advance. The course provides an opportunity for in-depth study not offered in other courses.
Prerequisite: PSB 3340 or instructor permission.

PSY 2012 General Psychology 3 Credits
Grading Scheme: Letter Grade
Introduction to psychology; this course is the prerequisite for advanced courses. Emphasis is on psychology as a research enterprise. Students are required to participate as subjects in psychological research or to write a paper on a psychological research article. (S)
Attributes: General Education - Social Science

PSY 3213L Laboratory Methods in Psychology 3 Credits
Grading Scheme: Letter Grade
Introduces experimental design in psychology, data analysis and interpretation of results, and literature reports.
Prerequisite: PSY 2012.

PSY 3626 Psychology of Sustainability 3 Credits
Grading Scheme: Letter Grade
Examines the psychology of sustainability and its impact on human behavior. Provides knowledge of social value orientation, environmental identity, altruism, social capital, and participatory action from a sustainability perspective.
Prerequisite: PSY 2012

PSY 3912 Introduction to Research in Psychology 1-3 Credits
Grading Scheme: S/U
An introduction to current techniques used in psychology research. Students participate in on-going research. (S-U)
Prerequisite: refer to the department.

PSY 4625 The Psychology of Pseudoscience 3 Credits
Grading Scheme: Letter Grade
Studies the psychological causes and consequences of belief in "weird" things.
Prerequisite: PSY 2012 with minimum grade of C.

PSY 4824 Psychology of Eating and Obesity 3 Credits
Grading Scheme: Letter Grade
Comprehensive examination of theory and application of psychological and brain science principles to understanding eating behavior and the contemporary problem of overweight and obesity.
Prerequisite: PSY 2012 with a B or greater and any two of the following: PSB 3002, PSB 3340, CLP 3144, PPE 3003, DEP 3053, SOP 3004, EAB 3002, EAB 3764, or EXP 3604.

PSY 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Qualified students and the instructor or supervisor choose a particular problem for investigation or studying psychology. A formal written report of the work is required.
Prerequisite: minimum of 12 semester credits in psychology.

PSY 4911 Undergraduate Research in Psychology 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research in Psychology. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Psychology.

PSY 4930 Special Topics in Psychology 3 Credits
Grading Scheme: Letter Grade
Topics in psychology that provide opportunity for in-depth study not offered in other courses.
Prerequisite: PSY 2012.

PSY 4940 Introduction to Teaching in Psychology 0-3 Credits
Grading Scheme: S/U
College-level teaching experience in psychology by serving as an undergraduate teaching assistant (TA). Each assistantship is unique, tailored to both the student's skills and knowledge and to the instructor's needs. Responsibilities may include facilitating discussion groups or study sessions, reviewing written assignments and providing evaluative feedback, and responding to student questions and inquiries. (S-U)
Prerequisite: instructor permission and completion of the course for which the student will serve as a teaching assistant.

PSY 4949 Community Work in Psychology 1-3 Credits
Grading Scheme: S/U
Credit is earned by volunteering with community agencies that have been approved by the department. Students work 45 hours per credit earned. (S-U)
Prerequisite: 12 semester credits of psychology.

PSY 4956 Overseas Studies 1 1-15 Credits
Grading Scheme: Letter Grade
This course provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

PSY 4970 Senior Thesis 1-3 Credits
Grading Scheme: S/U
Qualified students must write a formal research proposal to enroll in the course. They also must carry out individual research under the supervision of a faculty member and submit a formal written report. (S-U)
Prerequisite: 24 credits in psychology and instructor permission.

SOP 3004 Social Psychology 3 Credits
Grading Scheme: Letter Grade
A study of the social factors influencing individual behavior. Consideration of socialization, social influence and conformity, social interaction, decision-making, attitudes and opinions. (S)
Prerequisite: PSY 2012.
Attributes: General Education - Social Science

SOP 4214C Research Methods in Social Psychology 4 Credits
Grading Scheme: Letter Grade
Laboratory training and basic experimental techniques and procedures used in the investigation of social-psychological processes. (S) (WR)
Prerequisite: SOP 3004 or STA 2023 or STA 3024 with a minimum grade B.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

SOP 4444 Attitudes and Social Cognition 3 Credits
Grading Scheme: Letter Grade
A consideration of the formation and utilization of knowledge about the social world. Includes a focus on how attitudes and values are defined, measured, formed and changed. (S)
Prerequisite: SOP 3004.
Attributes: General Education - Social Science

SOP 4704 Advanced Social Psychology (Revolving Topics) 3 Credits
Grading Scheme: Letter Grade
In-depth examination of topics in social psychology; refer to the schedule of courses to determine the topic covered each semester. Topics can include health psychology, social motivation, the self, self-presentation, group dynamics, conflict, population psychology, community psychology and the psychology of law. Content varies; refer to the schedule of courses for the semester's topic. (S)
Prerequisite: SOP 3004.
Attributes: General Education - Social Science

SOP 4777 Psychology of Human Sexuality 3 Credits
Grading Scheme: Letter Grade
Examination of human sexuality in the United States from a psychological perspective, including but not limited to the following topics: Sexual desire and sexual responses, sexual development, sexual practices, sexual dysfunctions and sex therapy.
Prerequisite: PSY 2012 with a minimum grade C.

SOP 4842 Legal Psychology 3 Credits
Grading Scheme: Letter Grade
Studies the interaction between individuals and the legal system; considers how the application of various psychological disciplines can inform the legal system.
Prerequisite: PSY 2012

Public Relations

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Students who have not been admitted to the College of Journalism and Communications must have a 3.0 overall grade point average to enroll in courses other than PUR 3000. Students minoring in mass communication generally need department approval to register for PUR courses.

Courses

MMC 1009 Introduction to Media and Communications 1 Credit
Grading Scheme: Letter Grade
Introduces the tools, resources and academic and extra-curricular activities offered by the College of Journalism and Communications. Includes lessons on the history and organization of the college and academic and career preparation.
Prerequisite: 1JM or exploratory major, 2JM, or 3JM classification, or instructor approval.

MMC 2121 Writing Fundamentals for Communicators 3 Credits
Grading Scheme: Letter Grade
One-third of the course is to ensure students have sufficient skill in grammar and punctuation to write with clarity. In two-thirds of the course, students put principles of good writing into practice with short writing assignments that have real-world applications.

MMC 3030 Personal Branding for Communicators 1 Credit
Grading Scheme: Letter Grade
Professional development course that stresses how to communicate and connect as professionals. Emphasizes mastery of writing, speaking, presentation and employment-seeking skills, working with media, handling media interviews and using social media to establish a professional identity.
Prerequisite: 3JM designation.

MMC 3203 Ethics and Problems in Mass Communications 3 Credits
Grading Scheme: Letter Grade
A cross-disciplinary introduction to ethics-relevant situations faced by media professionals. Topics include professional standards of conduct, audience representation and engagement and issues associated with the production, presentation and delivery of messages that reflect the best interests of audiences, clients and stakeholders.
Prerequisite: 2JM designation and ADV 3008, JOU 1001, PUR 3000 or RTV 3001 with minimum grade of C.

MMC 3254 Media Entrepreneurship 1 Credit
Grading Scheme: Letter Grade
Introduces media entrepreneurship with a focus on how digital technologies are transforming industries. Students work in teams to develop new digital media businesses. Develop and pitch ideas, explore market analysis, develop business and financial plans and study social media strategies.
Prerequisite: sophomore standing.

MMC 3420 Consumer and Audience Analytics 3 Credits
Grading Scheme: Letter Grade
Provides practical analytical skill-sets, benefiting those who plan careers in analytics/research, social media, media business, advertising/marketing and public relations.
Prerequisite: Junior standing.

PUR 3000 Principles of Public Relations 3 Credits
Grading Scheme: Letter Grade
The nature and role of public relations in a democratic society, activities of public relations professionals, major influences that affect organizational behavior, and ethics and professional development of practitioners in the private and public sectors. Emphasizes management functions and developing effective public relations strategies.
Prerequisite: sophomore standing.

PUR 3463 Sports Communication 3 Credits
Grading Scheme: Letter Grade
Instruction, analysis, and training in the principles and practice of public relations in sports organizations. Emphasizes media relations and skills essential for sports communication professionals, including handling media interactions across platforms, problems, crises, and integration of positive communications strategies with strategic goals of sports organizations.
Prerequisite: PUR 3000.

PUR 3500 Public Relations Research 3 Credits
Grading Scheme: Letter Grade
Using principles of scientific research to establish, monitor and evaluate communications programs: research planning, theory, design - sampling, surveys, experiments, focus groups, content analysis and participant observation; qualitative and statistical analysis and reporting of research with advanced technologies.
Prerequisite: PUR 3000 with minimum grade of C, statistics with minimum grade of C and junior standing.

PUR 3622 Social Media Management 3 Credits
Grading Scheme: Letter Grade
Social media management explores the use of the internet to build connections, market businesses, and engage audiences. With billions of people connected online, businesses are constantly cultivating new ways to join the online conversation. Highlights the various platforms and best techniques used in social media.
Prerequisite: junior standing.

PUR 3801 Public Relations Strategy 3 Credits
Grading Scheme: Letter Grade
Develops skills in strategic public relations management based on an analysis of current and historical case studies.
Prerequisite: PUR 3000 and PUR 3500 with minimum grades of C.

PUR 4100 Public Relations Writing 4 Credits
Grading Scheme: Letter Grade
Prepares students to meet the demands of the marketplace for persuasive, professional public relations writing skills.
Prerequisite: PUR 3000 and JOU 3101 with minimum grades of C and proficiency in word processing.

PUR 4103 Public Relations Visual Communication 3 Credits
Grading Scheme: Letter Grade
Preparation of visual communications generally produced by public relations departments. Emphasizes printed publications for internal and external audiences. Diversity of publics is emphasized. Includes management's viewpoint on, reasons for and state-of-the-art of publications.
Prerequisite: PUR 3801 and JOU 3101.

PUR 4203 Ethics and Professional Responsibility in Public Relations 3 Credits
Grading Scheme: Letter Grade
Ethical responsibilities of the public relations professional: identifying the moral dimensions of issues that arise in the practice of public relations, increasing the ability to employ reason as a tool for dealing with moral issues, providing knowledge and skills necessary to reach and justify ethical decisions, and eliciting a sense of personal and professional responsibility.
Prerequisite: PUR 3500 and PUR 3000 with minimum grades of C.

PUR 4404C International Public Relations 3 Credits
Grading Scheme: Letter Grade
Analyzes the impact of international activities on the public relations function.
Prerequisite: PUR 3000.

PUR 4410 Principles of Fund Raising 3 Credits
Grading Scheme: Letter Grade
Fund raising: the high demand, low supply occupation unique to the charitable nonprofit subsector.
Prerequisite: PUR 3000 and PUR 3500.

PUR 4442 Public Interest Communications 3 Credits
Grading Scheme: Letter Grade
Delves into strategies to drive social change, strategic planning process for social change communications campaigns, and tools and tactics that make these campaigns effective. Gain insight to the richness of the field and the power that communications has to address problems and profoundly affect peoples lives.
Prerequisite: junior standing.

PUR 4443 Global Social Change Communication 3 Credits
Grading Scheme: Letter Grade
Explains core elements of strategic communications to support global social change through case studies and the application of theory. Taught from the practitioner's perspective, extensive real-life examples provide an opportunity to learn the critical functions of effective communications.

PUR 4800 Public Relations Campaigns 3 Credits
Grading Scheme: Letter Grade
Utilizing the principles and techniques of public relations to create comprehensive campaigns for actual clients.
Prerequisite: PUR 3000, PUR 3801, PUR 4100, VIC 3001 and senior standing.

PUR 4905 Individual Problems 1-3 Credits
Grading Scheme: Letter Grade
Students and the instructor choose a problem or project which will give the student experience in his or her major field.
Prerequisite: at least 10 credits of professional courses and department chair approval.

PUR 4912 Public Relations Undergraduate Research 0-3 Credits
Grading Scheme: Letter Grade
Provides an opportunity for firsthand, supervised research. Mentored but self-directed work that enables individuals or a small group to explore an issue of interest and to communicate their results to others.
Prerequisite: junior standing

PUR 4932 Special Study 1-3 Credits
Grading Scheme: Letter Grade
Variable content provides opportunity for advanced study in the principles, processes and effects of public relations.
Prerequisite: instructor permission.

PUR 4940 Public Relations Internship 1-3 Credits
Grading Scheme: S/U
Student and instructor will select an appropriate work area in public relations for on-the-job training. Student will work a minimum of 100 hours per semester for 1 credit; 200 hours per semester for 2 credits; 300 hours per semester for 3 credits. Progress reports and summary are required. (S-U)
Prerequisite: 9 credits of professional courses (including JOU 3101), a 2.5 GPA and academic advisor, department and college approvals.

VIC 3001 Sight, Sound and Motion 4 Credits
Grading Scheme: Letter Grade
Visual literacy is a prerequisite for success in most areas of mass communication. Teaches fundamentals of design across print, web and multimedia platforms. Also emphasizes how visual forms convey messages to readers.
Prerequisite: sophomore standing.

Rehabilitative Services

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

GEY 4001 Issues and Concepts in Gerontology 3 Credits
Grading Scheme: Letter Grade
This multidisciplinary overview of the field of aging covers biomedical and health issues, psychosocial factors, applied aspects and policy issues.

RCS 3030 Introduction to Rehabilitation and Human Services 3 Credits
Grading Scheme: Letter Grade
An examination of legislative history and social policies as they relate to rehabilitation and human services and their impact on persons with disabilities and exploration of various careers in rehabilitation and human services.
Prerequisite: BSC 2007 or BSC 2005 or BSC 2010, PSY 2012, majors/minors only, with department permission.

RCS 4061 Psychosocial Aspects of Rehabilitation 3 Credits
Grading Scheme: Letter Grade
Introduction to the psychological, social, vocational adjustment barriers and techniques used by individuals and society to overcome these hindrances to rehabilitation.
Prerequisite: APK 2105C, BSC 2005 or BSC 2010, PSY 2012, STA 2023.
Corequisite: HSC 3502, majors/minors only, permission of department.

RCS 4415L Therapeutic Communication Skills Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory for HSC 3661; includes hands-on practice of therapeutic communication skills using simulated patient scenarios.
Prerequisite: HSC 3502, HSA 3111, HSC 4558.
Corequisite: HSC 3661, majors only.

RCS 4451 Rehabilitation Aspects of Substance Abuse 3 Credits
Grading Scheme: Letter Grade
Rehabilitation counseling implications of alcohol and drug use in society and the work place. Emphasis on detection, treatment and follow-up services for individuals in the rehabilitation process.
Prerequisite: HSC 3502, HSC 4558, majors/minors only, and permission of department.

Religion

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

ANT 3153 North American Archaeology 3 Credits
Grading Scheme: Letter Grade
Archaeological materials relating to prehistoric North American cultures. The origins of the North American Indian, Historic Indian and colonial materials. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

ANT 3241 Anthropology of Religion 3 Credits
Grading Scheme: Letter Grade
Cross-cultural survey of beliefs and practices dealing with the supernatural, magic, and religion. Conceptualization of the supernatural. Sacred specialists, their function, and social position. Theories of comparative religion in light of anthropological data. (S and D)
Attributes: General Education - Diversity, General Education - Social Science

CLT 3371 Religions of the Graeco-Roman World 3 Credits
Grading Scheme: Letter Grade
Development, importance and influence of Greek and Roman religion and cult practice. The main literary and epigraphical sources are read in translation. (H and N)
Attributes: General Education - Humanities, General Education - International

LIT 3173 Jewish Literature 3 Credits
Grading Scheme: Letter Grade
Variable topics in the Jewish literary experience, from the biblical narrative and classical tales to Yiddish and Hebrew literature, the modern European novel, and American Jewish fiction. (H and N)
Attributes: General Education - Humanities, General Education - International

PHI 3700 Philosophy of Religion 3 Credits
Grading Scheme: Letter Grade
Studies problems in philosophical theology, including the nature of God, arguments for God's existence, the problem of evil and the relation between faith and reason, from both historical and contemporary perspectives. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

POS 4291 Religion and Politics in the United States 3 Credits
Grading Scheme: Letter Grade
Investigates the role of religious institutions, values and communities in contemporary American political life. (WR)
Prerequisite: refer to the department.
Attributes: Satisfies 6000 Words of Writing Requirement

REL 2000 Introduction to Religion 3 Credits
Grading Scheme: Letter Grade
Introduces the historical underpinnings, geographical movement, development and current expression of a variety of religious traditions.

REL 2071 Sustainability and Religion 3 Credits
Grading Scheme: Letter Grade
Examines the relationship between religion and sustainability and explores how the worlds different religious traditions address the social, economic and environmental dimensions of sustainability. Topics include social and environmental justice, sustainable consumption and sustainable agriculture. Case studies highlight multiple religious perspectives, especially in Latin America and south Asia. (H) (WR)
Attributes: General Education - Humanities, Satisfies 2000 Words of Writing Requirement

REL 2104 Environmental Ethics 3 Credits
Grading Scheme: Letter Grade
Explores competing secular and religious views regarding human impacts on and moral responsibilities toward nature and of the key thinkers and social movements in contention over them. (H) (WR)
Attributes: General Education - Humanities, Satisfies 2000 Words of Writing Requirement

REL 2121 American Religious History 3 Credits
Grading Scheme: Letter Grade
Historical inquiry into the ideological origins and social context of American religious life. (H and D)
Attributes: General Education - Diversity, General Education - Humanities

REL 2166 Religion and the Environmental Crisis 3 Credits
Grading Scheme: Letter Grade
Examines the relationship between religion, nature and ethics in different religious traditions. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 2000 Words of Writing Requirement

REL 2210 Hebrew Scriptures 3 Credits
Grading Scheme: Letter Grade
History, literature, and beliefs of the Israelites from the Biblical text in the light of modern scholarship. (H)
Attributes: General Education - Humanities

REL 2240 New Testament 3 Credits
Grading Scheme: Letter Grade
Introduces various literary, social, and religious contexts of the books of the New Testament. (H)
Attributes: General Education - Humanities

REL 2300 Introduction to World Religions 3 Credits
Grading Scheme: Letter Grade
Origin, historical development, and key figures, concepts, symbols, practices and institutions of Judaism, Christianity, Islam, Hinduism, Buddhism, and East Asian traditions, including Taoism, Shinto, and Confucianism. (H and N)
Attributes: General Education - Humanities, General Education - International

REL 2301 Introduction to Hindu Culture 3 Credits
Grading Scheme: Letter Grade
History, performing arts, and cultural expressions of the Hindu traditions of India and in the diaspora.

REL 2315 Religion in Asia 3 Credits
Grading Scheme: Letter Grade
Studies the religious dimensions of human culture, focusing on Asia: Hinduism, Buddhism, Confucianism, Taoism, Shinto. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 2000 Words of Writing Requirement

Explores ethical dimensions of global social, political, and environmental issues. Introduction to and application of diverse theoretical approaches in philosophical and religion ethics to contemporary global issues such as human rights, war and peace, climate change, and public health.
Attributes: General Education - Humanities, General Education - International, Satisfies 2000 Words of Writing Requirement

REL 3098 Religion Medicine and Healing 3 Credits
Grading Scheme: Letter Grade
Non-conventional healers and healing practices in religious traditions around the globe.
Prerequisite: sophomore standing.

REL 3099 Spirituality and Health Care 3 Credits
Grading Scheme: Letter Grade
Investigation of the relationship between religious and spiritual beliefs, alternative and traditional medical practice, and Western biomedicine, in historical and contemporary context.
Prerequisite: sophomore standing or higher.

REL 3103 Religion and Nature in North America 3 Credits
Grading Scheme: Letter Grade
Investigates ways that religion and nature have evolved and influenced one another during the cultural, political, and environmental history of North America since European contact. (H)
Attributes: General Education - Humanities

REL 3108 Religion and Food 3 Credits
Grading Scheme: Letter Grade
Explores the relationship between food and religion by investigating food in the context of specific religious traditions, such as Hinduism, and examines food as a moral and ethical category in religious and secular contexts, e.g., organic and locavore. (D and H) (WR)
Attributes: General Education - Diversity, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

REL 3120 Religion and the American Immigrant Experience 3 Credits
Grading Scheme: Letter Grade
Offers a survey of the roles that religion has played in some significant movements of people into and out of the U.S. from the pre-Colonial period to the present.

REL 3139 African-American Religion 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary study of African-American religious experience from its beginnings in the 17th century to the present. (H)
Attributes: General Education - Humanities

REL 3140 Religion and Society 3 Credits
Grading Scheme: Letter Grade
Interaction of religion and social institutions; the ways religious groups influence and are influenced by the socio-cultural environment. (S) (WR)
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

REL 3148 Religion and Violence 3 Credits
Grading Scheme: Letter Grade
Explores the problem of violence that springs from religious roots in Western, Asian, African, and Native American traditions. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 4000 Words of Writing Requirement

REL 3154 Gender and Nature 3 Credits
Grading Scheme: Letter Grade
Examines the relationship between gender and nature as it is constructed in different religious traditions.

REL 3160 Religion and Science 3 Credits
Grading Scheme: Letter Grade
Examines the relationship between religion, science, and philosophy in different religious traditions, focusing on the West. (H) (WR)
Prerequisite: sophomore standing.
Attributes: General Education - Humanities, Satisfies 4000 Words of Writing Requirement

REL 3169 Religion and Environmental Movements of the Global South 3 Credits
Grading Scheme: Letter Grade
Explores the religious dimensions of environmental movements in the global South, including seed-saving campaigns in India and Mexico, Liberation Theology and the Green Belt Movement. Examines global environmental issues; e.g., loss of biodiversity, climate change and privatization of water that disproportionately affect the poor and marginalized.
Prerequisite: sophomore status or higher.

REL 3171 Ethics in America 3 Credits
Grading Scheme: Letter Grade
Examines ethical issues facing contemporary U.S. society, with a focus on cultural and religious diversity. Introduces major religious and philosophical frameworks as ways of understanding and addressing these issues. (D)
Prerequisite: sophomore standing or above.
Attributes: General Education - Diversity, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

REL 3179 Race, Religion and Rebellion 3 Credits
Grading Scheme: Letter Grade
Examines the interplay of religion, race, and rebellion in the various revolts, insurrections, and social movements of African Americans in the United States.

REL 3191 Death and the Afterlife: Perspectives from World Religions 3 Credits
Grading Scheme: Letter Grade
Examines conceptions of death and the afterlife from the perspectives of various religious traditions and popular culture. Considers certain ethical issues related to death and how some American religious traditions engage with such issues.
Prerequisite: sophomore standing.

REL 3213 Hebrew Bible as Literature 3 Credits
Grading Scheme: Letter Grade
Intensive introduction to the literary study of the Hebrew Bible within the context of ancient Near Eastern literature and history.

REL 3234 Wisdom in the Hebrew Bible 3 Credits
Grading Scheme: Letter Grade
Examines ancient Israelite and early Jewish wisdom literature alongside similar literature from ancient Mesopotamia and Egypt.

REL 3249 The Christian Gospels 3 Credits
Grading Scheme: Letter Grade
Redaction-critical study of selected portions of the canonical Gospels with particular attention to the development of traditions about Jesus in the earliest church. (H) (WR)
Prerequisite: REL 2210 or REL 2240, or instructor permission.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

REL 3252 Acts, Paul, and Early Christianity 3 Credits
Grading Scheme: Letter Grade
Examines the narrative of the beginning of Christianity according to the Book of Acts, especially as it describes the career of Paul. The second half focuses on the letters of Paul as an alternative source for understanding the earliest forms of Christianity. (H) (WR)
Prerequisite: REL 2210 or REL 2240, or instructor permission.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

REL 3291 Gender and the Hebrew Bible 3 Credits
Grading Scheme: Letter Grade
Critical examination of the literary representation and historical realities of gender and sexuality in ancient Israel through close readings of selected texts from the Hebrew Bible.

REL 3294 Apocalypticism 3 Credits
Grading Scheme: Letter Grade
Explores Jewish and Christian apocalypticism through a survey of apocalyptic texts from the Hebrew Bible, Second Temple Jewish literature (including the Dead Sea Scrolls), and the New Testament. (H)
Attributes: General Education - Humanities

REL 3318 Chinese Religions 3 Credits
Grading Scheme: Letter Grade
Comprehensive historical survey of the main religious traditions in China, with focus on Confucianism, Taoism, and Buddhism.

REL 3321 Early Judaism and Christianity 3 Credits
Grading Scheme: Letter Grade
Examines the Jewish-Christian encounter. The historical interaction between Judaism and Christianity including how each group symbolized the other, and the practical implications of the representations. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

REL 3330 Religions of India 3 Credits
Grading Scheme: Letter Grade
Historical look at the major religious traditions of the Indian subcontinent. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

REL 3333 Gods, Sages and Kings: Mythology 3 Credits
Grading Scheme: Letter Grade
Survey and analysis of important narrative genres and myth cycles of premodern India, featuring selections from the Vedas, Puranas, and the Indian epics, read in translation. (H)
Attributes: General Education - Humanities

REL 3335 Hindu Sacred Text/Social-Ritual Context 3 Credits
Grading Scheme: Letter Grade
Investigates the development, use, authority, and performance of sacred texts in ritual, drama, festival, and music within the Hindu tradition. (H and N)
Prerequisite: any course in Asian religion, Asian scripture, or REL 4024.
Attributes: General Education - Humanities, General Education - International

REL 3336 Religion in Modern India 3 Credits
Grading Scheme: Letter Grade
Studies religious traditions of India and their interpretation in relation to conditions of the modern world. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

REL 3344 Chinese Buddhism 3 Credits
Grading Scheme: Letter Grade
Comprehensive historical survey of Chinese Buddhism. Explores the growth and transformation of the beliefs, doctrines, practices and institutions that shaped the historical trajectory of Chinese Buddhism.

REL 3370 Religions of Africa 3 Credits
Grading Scheme: Letter Grade
Religion and culture in Africa, the encounter of Islam and Christianity with indigenous religions, and diasporic reformulations. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

REL 3381 Religion in Latin America 3 Credits
Grading Scheme: Letter Grade
Main religious traditions in Latin America: native religions, Catholicism in its various forms, Protestantism, and African-based religions. (H and N)
Attributes: General Education - Humanities, General Education - International

REL 3463 God: Beliefs, Concepts, Issues 3 Credits
Grading Scheme: Letter Grade
Investigates central issues connected with the concept of God in Western religious traditions. Topics include arguments for the existence of God, the problem of evil, theodicy, faith, and reason. (H)
Attributes: General Education - Humanities

REL 3492 Religion Ethics and Nature 3 Credits
Grading Scheme: Letter Grade
Religious perspectives on nature and the environment that focus on different theological understandings of the natural world; approaches to using natural resources and efforts to understand human responsibility for the realm of nature. (H)
Attributes: General Education - Humanities, Satisfies 2000 Words of Writing Requirement

REL 3563 American Catholicism 3 Credits
Grading Scheme: Letter Grade
American Catholic experience from an historical and sociological perspective. (H) (WR)
Attributes: General Education - Humanities, Satisfies 4000 Words of Writing Requirement

REL 3693 Judaism and Nature 3 Credits
Grading Scheme: Letter Grade
Surveys Jewish traditions about nature, the environment, and ecology.

REL 3931 Junior Seminar 3 Credits
Grading Scheme: Letter Grade
Intensive introduction to the study of religion. Required of all religion majors during the junior year.

REL 3938 Special Topics in Religion 3 Credits
Grading Scheme: Letter Grade
Special topics in religion. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

REL 4092 Ethics, Utopias and Dystopias 3 Credits
Grading Scheme: Letter Grade
Examines relationships between ethics and utopias in literature, religious communities, and millenarian movements. (H) (WR)
Prerequisite: instructor permission.
Attributes: General Education - Humanities, Satisfies 2000 Words of Writing Requirement

REL 4134 Religion in Southern Culture 3 Credits
Grading Scheme: Letter Grade
Development of religious life in the South through its history, with particular reference to its interaction with regional culture. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

REL 4141 Religion and Social Change 3 Credits
Grading Scheme: Letter Grade
Investigates diverse relations between religion and processes of social change. Uses both theoretical and ethnographic case studies to explore issues raised by religion's social role in the U.S., Britain, Asia, Latin America, and Africa. (S) (WR)
Attributes: General Education - Social Science, Satisfies 4000 Words of Writing Requirement

REL 4145 Women in Religion and Society 3 Credits
Grading Scheme: Letter Grade
Provides an understanding of both the oppressive and liberatory aspects for women of the three monotheistic religions: Judaism, Christianity, and Islam.
Prerequisite: instructor permission.

REL 4168 Religion, Nature and Social Change 3 Credits
Grading Scheme: Letter Grade
Explores relationships between religion, nature, and society as a means to understand how these relationships reflect and shape social relations among people.
Prerequisite: junior standing or above.

REL 4177 Special Topics in Religion and Ethics 3 Credits
Grading Scheme: Letter Grade
Special topics in religion and ethics. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

REL 4188 Special Topics in Religion and Ethics 3 Credits
Grading Scheme: Letter Grade
Examines the ethical, religious, and political dimensions of the relationship between ideas and practices, including the divergence between expressed values and actual practices, and some possible reasons for this divergence.

REL 4209 Dead Sea Scrolls and Early Jewish Literature 3 Credits
Grading Scheme: Letter Grade
Explores the varieties of literature that arose within Judaism from 250 BCE to 220 CE, including selections from the Dead Sea Scrolls, the OT Pseudepigrapha, Philo, and Josephus. (H)
Prerequisite: refer to the department.
Attributes: General Education - Humanities

REL 4221 The Pentateuch 3 Credits
Grading Scheme: Letter Grade
In-depth study of the Pentateuch (Genesis-Deuteronomy) in light of modern biblical scholarship.
Prerequisite: instructor permission.

REL 4337 Women in Hindu Tradition 3 Credits
Grading Scheme: Letter Grade
Studies women in Hindu traditions, focusing on their participation in temple practices, religious scholarship, and practices of piety and austerity. Pays special attention to female poets, scholars, ascetics, and patrons in Hindu religions and society. (H and N) (WR)
Prerequisite: one course in Hinduism.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

REL 4345 Chan/Zen Buddhism 3 Credits
Grading Scheme: Letter Grade
Comprehensive inquiry of the history, doctrines, and practices of the Chan/Zen tradition of East Asian Buddhism.
Prerequisite: introduction to Buddhism, Chinese religions, or instructor permission.

REL 4349 Buddhist Meditation 3 Credits
Grading Scheme: Letter Grade
Theory and practice of Buddhist meditation; focuses on the systems of meditation practice developed by the Theravada school in Sri Lanka and the main traditions of Chinese Buddhism.
Prerequisite: introduction to Buddhism or instructor permission.

REL 4361 Women and Islam 3 Credits
Grading Scheme: Letter Grade
Provides an interdisciplinary understanding of the history and role of women in Islam.
Prerequisite: instructor permission.

REL 4367 The History of Islam in the Modern World 3 Credits
Grading Scheme: Letter Grade
History of Muslims from the 18th century to the present with particular attention to certain critical issues and interpretations in relation to conditions of the modern world. (H and N) (WR)
Prerequisite: REL 2362.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

REL 4368 Global Islam 3 Credits
Grading Scheme: Letter Grade
Addresses the need for a deeper understanding of the diversity of Muslim cultures/societies in the contemporary global context; combines topical and geographical approach and studies Islam as it intersects with broader social, cultural, political, and economic dynamics.
Prerequisite: Sophomore standing.

REL 4371 Islam in Africa 3 Credits
Grading Scheme: Letter Grade
Development of Muslim societies in Africa from the 7th to the early 20th century with a focus on the religious dynamics that led to the formation of a multitude of African Muslim cultures.
Prerequisite: sophomore standing or higher.

REL 4382 Religion and Politics in Latin America 3 Credits
Grading Scheme: Letter Grade
Relationship between religion and politics in Latin America from a variety of perspectives and approaches. Addresses millenarian movements, gender, ethnicity and class, as well as church-state dynamics. (S and N)
Attributes: General Education - International, General Education - Social Science

REL 4393 Islam in the Americas 3 Credits
Grading Scheme: Letter Grade
Provides knowledge of Islam in the Americas from the 15th century to the present. (H) (WR)
Prerequisite: instructor permission.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

REL 4490 Special Topics in Religious Thought 3 Credits
Grading Scheme: Letter Grade
Special topics in religious thought. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

REL 4491 Sacred Geographies: Place, Space and Pilgrimage in South Asia 3 Credits
Grading Scheme: Letter Grade
Focuses on reading primary texts in translation, supplemented with recent ethnographies, to explore various conceptions of sacred space and place, including movement to, from and between them, in the Indic imagination.
Prerequisite: REL 2315 or REL 2341 or REL 3022.

REL 4611 Israelite Religion 3 Credits
Grading Scheme: Letter Grade
Comparative survey of literary, historical, ritual, and material aspects of ancient Israelite religion with evidence from Canaan, Mesopotamia, Greece, and Rome.
Prerequisite: instructor permission.

REL 4905 Individual Work 1-5 Credits
Grading Scheme: Letter Grade
Majors or other advanced undergraduates who wish to supplement regular coursework by individual studies under guidance may apply to a member of the faculty for individual work.
Prerequisite: 9 credits in religion or department permission.

REL 4930 Special Topics in Religious Thought 3 Credits
Grading Scheme: Letter Grade
Special topics in religious thought.

REL 4932 Thesis Seminar in Religion 3 Credits
Grading Scheme: Letter Grade
Thesis preparation option for honors-level students.

REL 4933 The Comparative Study of Religion 3 Credits
Grading Scheme: Letter Grade
The history and major methods that have contributed to the modern study of religion. (H) (WR)
Prerequisite: junior or senior standing and department permission.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

REL 4936 Special Topics in Religious Studies 3 Credits
Grading Scheme: Letter Grade
Advanced study for those with proper preparation of selected topics involving one or more religious traditions. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

REL 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

SRK 1120 Beginning Sanskrit 1 4 Credits
Grading Scheme: Letter Grade
First of a two-semester series that introduces the Sanskrit language through the Devanagari Script.

SRK 1121 Beginning Sanskrit 2 4 Credits
Grading Scheme: Letter Grade
Second of a two-semester series that introduces the Sanskrit language through the Devanagari Script with an emphasis on reading, writing, grammar and oral recitation.

SRK 2200 Intermediate Sanskrit 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of Sanskrit to increase knowledge of vocabulary by developing reading and translation skills.
Prerequisite: SRK 1121 with a minimum grade of C, or equivalent.

SRK 2201 Intermediate Sanskrit 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate Sanskrit to increase knowledge of vocabulary by developing reading and translation skills.
Prerequisite: SRK 2200 with a minimum grade of C, or equivalent.

SRK 3410 Advanced Sanskrit 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of Sanskrit to further develop skills in reading and understanding texts.
Prerequisite: SRK 2201 with a minimum grade of C, or equivalent.

SRK 3411 Advanced Sanskrit 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced Sanskrit to further develop skills in reading and understanding texts.
Prerequisite: SRK 3410 with a minimum grade of C, or equivalent.

SYO 4200 Sociology of Religion 3 Credits
Grading Scheme: Letter Grade
The sociological perspective on religions, including religious ideologies and rituals. Social aspects of the religious and religious aspects of the social. Organized religions and religions. (S and N)
Prerequisite: SYG 2000.
Attributes: General Education - International, General Education - Social Science

Russian | Languages, Literatures, and Cultures

More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

RUS 1130 Introduction to Russian Language and Culture 1 5 Credits
Grading Scheme: Letter Grade
RUS 1130 and its sequel, RUS 1131, offer a comprehensive introduction to Russian, using interactive methods to develop competence in speaking, listening, reading, writing and cultural interaction.

RUS 1131 Introduction to Russian Language and Culture 2 5 Credits
Grading Scheme: Letter Grade
Continuation of introductory language and cultural study.
Prerequisite: RUS 1130 with minimum grade of C or S, or the equivalent.

RUS 2220 Intermediate Russian 1 4 Credits
Grading Scheme: Letter Grade
Intermediate study with exercises in sentence patterns, vocabulary building and oral and written discourse in Russian.
Prerequisite: None

RUS 2340 Russian for Heritage Learners 3 Credits
Grading Scheme: Letter Grade
A practical overview of Russian grammar and writing for those with significant bilingual speaking and listening backgrounds. Devotes special attention to reading, writing and vocabulary development.
Prerequisite: instructor or undergraduate coordinator permission.

RUS 3240 Oral Practice in Russian 3 Credits
Grading Scheme: Letter Grade
Development of advanced speaking and listening skills in conversational Russian.
Prerequisite: None

RUS 3400 Intermediate Russian 2 4 Credits
Grading Scheme: Letter Grade
Continued study with exercises in sentence patterns, vocabulary building and sustained oral and written discourse.
Prerequisite: RUS 2220 or the equivalent.

RUS 4000 Advanced Russian 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills (speaking, listening, reading, and writing) with attention to more complex structures.
Prerequisite: None

RUS 4001 Advanced Russian 2 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills (speaking, listening, reading, and writing) with attention to more complex structures.
Prerequisite: RUS 4000 with a minimum grade of C or S or the equivalent as proven by a placement test.

RUS 4300 Advanced Grammar and Composition 3 Credits
Grading Scheme: Letter Grade
Study of advanced grammar and composition in Russian.
Prerequisite: one 3000-level Russian course or the equivalent.

RUS 4411 Advanced Oral Practice 3 Credits
Grading Scheme: Letter Grade
Continued development of advanced speaking and listening skills based on authentic written, audio and video texts from contemporary Russian culture.
Prerequisite: RUS 3240.

RUS 4501 Russian Studies Research Seminar 3 Credits
Grading Scheme: Letter Grade
Introduces significant trends and ideas in Russian literary, cultural, historical, and critical studies. Develop the ability to understand and produce critical scholarly argument in a variety of formats, including class discussion, formal presentation and a written research project.
Prerequisite: None

Grading Scheme: Letter Grade
Combines advanced language training, a practical introduction to the language and culture of the contemporary Russian business world, and extensive practice translating and interpreting texts used in business settings. Focuses on issues such as starting companies and joint ventures, advertising, and setting up and conducting official meetings and telephone calls. Basic Russian business ethics are also studied.
Prerequisite: RUW 3101, RUW 4341 or the equivalent, or instructor permission.

RUS 4503 Theory and Practice of Russian-English Translation 1 3 Credits
Grading Scheme: Letter Grade
The first part of a two-part translation series focusing on the theory and practice of conveying word semantics in Russian-English and English-Russian translation.
Prerequisite: RUW 3101, RUW 4341 or instructor permission.

RUS 4504 Theory and Practice of Russian-English Translation 2 3 Credits
Grading Scheme: Letter Grade
The second part of the translation series focusing on the theory and practice of conveying sentence and paragraph semantics in Russian-English and English-Russian translation.
Prerequisite: RUW 3101, RUW 4341 or instructor permission.

RUS 4700 Structure of the Russian Language 3 Credits
Grading Scheme: Letter Grade
Introduction to the phonology, morphology and syntax of contemporary standard Russian from a formal and semantic standpoint. Also includes the development of Russian word stress and a survey of the development of Russian verb tense, aspect and mood.
Prerequisite: one 3000-level Russian course or the equivalent.

RUS 4780 Corrective Phonetics and Intonation 3 Credits
Grading Scheme: Letter Grade
Develops advanced-level phonetic and intonational skills via a variety of genres of authentic texts from Russian culture.
Prerequisite: RUW 3101, RUW 4341 or instructor permission.

RUS 4905 Individual Work in Russian 1-3 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course. Available only by special arrangement.
Prerequisite: RUS 2220 or the equivalent.

RUS 4911 Undergraduate Research in Russian Language 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Russian Language. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Russian Language.

RUS 4930 Special Topics in Russian 3-9 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in Russian studies. New, experimental, or one-time offerings.

RUS 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

RUT 4930 Variable Topics in Russian Studies 1-9 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in Russian studies, taught in English translation.
Prerequisite: one 3000-level Russian course or instructor permission.

RUW 3101 Reading Russian Literature 3 Credits
Grading Scheme: Letter Grade
An in-depth study of the vocabulary, structures, reading strategies and cultural background needed for understanding and interpreting a broad range of Russian prose fiction. (H)
Prerequisite: RUS 3400 or the equivalent.
Attributes: General Education - Humanities

RUW 4301 Russian Drama and Poetry 3-6 Credits
Grading Scheme: Letter Grade
Study of plays and poems by major Russian writers from the 19th and 20th centuries. Readings in Russian.

RUW 4341 Russian Media Culture 3 Credits
Grading Scheme: Letter Grade
An in-depth study of the history and recent trends in the Russian mass media and web-based technology and their impact on culture and society.
Prerequisite: RUS 3400 or RUS 4001 with minimum grade of C.

RUW 4370 Russian Short Prose 3 Credits
Grading Scheme: Letter Grade
Critical study of selected Russian short stories. Readings in Russian. (H)
Attributes: General Education - Humanities

RUW 4630 Reading Eugene Onegin: Pushkin and Nabokov 3 Credits
Grading Scheme: Letter Grade
An in-depth study of one of Russia's most revered literary works, combining close readings of Pushkin's original with analyses of operatic, artistic and cinematic adaptations by Chaikovsky, Nabokov and others. Readings and discussions primarily in Russian.
Prerequisite: RUW 3101 or the equivalent, or instructor permission.

RUW 4911 Undergraduate Research in Russian Studies, Target Language 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

RUW 4932 Selected Readings in Russian 1-3 Credits
Grading Scheme: Letter Grade
Special topic, author, genre or movement in Russian literature. (H)
Prerequisite: one 3000-level course or the equivalent.
Attributes: General Education - Humanities

Sociology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

SYA 4110 Development of Sociological Thought 4 Credits
Grading Scheme: Letter Grade
Comparative study of the principal contributors to the development of sociology. Emphasizes relevance of these ideas to contemporary social thought and current social issues.
Prerequisite: nine credits of sociology.

SYA 4300 Methods of Social Research 4 Credits
Grading Scheme: Letter Grade
Introduces the scientific method and its application to social science research. Includes research design, data collection and computer data analysis and interpretation.
Prerequisite: 4 credits of sociology, STA 2023.

SYA 4506 Writing in Sociology 3 Credits
Grading Scheme: Letter Grade
Helps sociology majors improve the quality of writing professional sociological reports.
Prerequisite: sociology majors only.

SYA 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
Examines topics/areas/issues not covered in regularly scheduled courses.
Prerequisite: nine credits of sociology and department permission.

SYA 4911 Undergraduate Research in Sociology 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

SYA 4930 Special Study 3 Credits
Grading Scheme: Letter Grade
Various specialized topics/areas/issues not covered in regularly scheduled courses.
Prerequisite: none

SYA 4931 Department Honors in Sociology 3 Credits
Grading Scheme: Letter Grade
Department honors course.

SYA 4941 Internship in Applied Sociology 3 Credits
Grading Scheme: Letter Grade
Supervised individual sociology practicum / internship in a social services organization.
Prerequisite: six credits of sociology and department permission.

SYD 3395 Sociology of Globalization 3 Credits
Grading Scheme: Letter Grade
Examination of diverse forms of worldwide interconnection, including economic ties, political ties, and ecological ties. A study of how global interdependencies and inequalities link the fates of people around the planet and how ?Globalization? is a form of political discourse that shapes policy-making and alters how lives are lived globally.
Prerequisite: SYG 2000.

SYD 3410 Urban Sociology 3 Credits
Grading Scheme: Letter Grade
The development of cities and their spatial and social structure. Critical problems and solutions. Integration of people in the social setting. Social implications of city planning. (S and N)
Prerequisite: SYG 2000 or department permission.
Attributes: General Education - International, General Education - Social Science

SYD 3700 Minorities in American Society 3 Credits
Grading Scheme: Letter Grade
Sociological analysis of the structure, social processes and efforts to effect change of racial, ethnic and religious minorities. (S and D)
Attributes: General Education - Diversity, General Education - Social Science

SYD 3805 Gender and Health 3 Credits
Grading Scheme: Letter Grade
Examines gender differences and similarities in health and illness in the United States. Uses a broad focus on health and illness across the life course and integrates social and biomedical determinants of health.

SYD 4020 Population 3 Credits
Grading Scheme: Letter Grade
Characteristics and trends in the populations of the contemporary world. Historical and current growth patterns related to resource conservation, food production and modernization in various regions of the world. (S and N)
Attributes: General Education - International, General Education - Social Science

SYD 4021 U.S. Population Issues 3 Credits
Grading Scheme: Letter Grade
Introduces major issues related to U.S. population size, growth and composition. Covers historical and contemporary population issues and introduces basic demographic measures and sources of data.

SYD 4510 Environment and Society 3 Credits
Grading Scheme: Letter Grade
Social foundations of environmental problems and social responses to environmental issues, including contestation, conflicts and movements.

SYD 4701 Nationalism and Ethnicity in Europe 3 Credits
Grading Scheme: Letter Grade
Comparative study of the roles played by nationalism and ethnic identity in modern Europe. (S and N)
Attributes: General Education - International, General Education - Social Science

SYD 4800 Sociology of Gender 3 Credits
Grading Scheme: Letter Grade
Examines the social construction of gender in everyday life; how gender structures social institutions such as the economy and mass media; and how gender shapes the distribution of resources, power and privilege in ways that benefit men over women. (S and D)
Attributes: General Education - Diversity, General Education - Social Science

SYD 4808 Reproduction and Gender 3 Credits
Grading Scheme: Letter Grade
Examines contemporary reproductive issues in the U.S. How culture and social structures shape the reproductive realm and how the social psychology of individuals' influence their reproductive experiences. (S and D)
Attributes: General Education - Diversity, General Education - Social Science

SYD 4810 Sociology of Women 3 Credits
Grading Scheme: Letter Grade
Examines the gender-based system of social stratification that exists in Western societies. Focuses on social institutions such as education, family, religion and economy. (S and D)
Prerequisite: SYG 2000 or SYG 2430.
Attributes: General Education - Diversity, General Education - Social Science

SYD 4820 Men and Masculinities 3 Credits
Grading Scheme: Letter Grade
Focuses on issues related to traditional and emerging images of masculinity in the past, present and future. Emphasizes relationships between social forces and males' everyday life experiences across the life-span. (S and D)
Attributes: General Education - Diversity, General Education - Social Science

SYG 2000 Principles of Sociology 3 Credits
Grading Scheme: Letter Grade
Introduces sociology as a social science and analysis of American society. Culture, socialization, deviance, bureaucracy, population, urbanization, social stratification, minorities and other topics. (S)
Attributes: General Education - Social Science

SYG 2010 Social Problems 3 Credits
Grading Scheme: Letter Grade
The development, analysis and treatment of social problems. Crime, poverty, prejudice and discrimination, pollution and environmental despoliation, drug abuse and mental illness. Emphasizes factors in U.S. society that cause social problems. (S)
Attributes: General Education - Social Science

SYG 2430 Marriage and Family 3 Credits
Grading Scheme: Letter Grade
Development of masculine and feminine roles. Recent changes in premarital interaction, such as dating, sexual involvement, coed dorm living, living together. Mutual adjustment and parenthood. Alternative family structures. (S and D)
Attributes: General Education - Diversity, General Education - Social Science

SYG 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

SYO 3534 Poverty 3 Credits
Grading Scheme: Letter Grade
The social, cultural, economic, political and psychological implications of being poor. Sources of poverty in the structure and operation of society and the consequences of poverty for society. Current and feasible policies for easing the problem in the contemporary United States with reference to its past and to other nations, both developed and underdeveloped.
Prerequisite: SYG 2000.

SYO 4102 American Families 3 Credits
Grading Scheme: Letter Grade
The impact of rapid social changes upon families, including race, class and ethnic variations. The liberation of women and changing family roles. Alternative life styles and the futures of families.
Prerequisite: SYG 2000.

SYO 4200 Sociology of Religion 3 Credits
Grading Scheme: Letter Grade
The sociological perspective on religions, including religious ideologies and rituals. Social aspects of the religious and religious aspects of the social. Organized religions and religions. (S and N)
Prerequisite: SYG 2000.
Attributes: General Education - International, General Education - Social Science

SYO 4300 Political Sociology 3 Credits
Grading Scheme: Letter Grade
Applies sociological analysis to political themes in a comparative context. (S)
Prerequisite: SYG 2000.
Attributes: General Education - Social Science

SYO 4352 Consumption, Economy and Society 3 Credits
Grading Scheme: Letter Grade
Introduces the field of economic sociology, defined as the study of economic life using the sociological imagination. (S)
Prerequisite: SYG 2000 or instructor permission.
Attributes: General Education - Social Science

SYO 4400 Medical Sociology 3 Credits
Grading Scheme: Letter Grade
Effects of group characteristics in the causation, amelioration and prevention of mental and physical illness and social influences in medical education, medical practice and hospital administration.
Prerequisite: refer to the department.

SYO 4403 Sociol Envnmt Hlth 3 Credits
Grading Scheme: Letter Grade

SYO 4530 Social Inequality 3 Credits
Grading Scheme: Letter Grade
The unequal distribution among individuals and groups of wealth, power and prestige; the effect of class systems upon society; the effect of class membership on individuals; social mobility. (S and D)
Prerequisite: SYG 2000.
Attributes: General Education - Diversity, General Education - Social Science

SYO 4540 Organizations 3 Credits
Grading Scheme: Letter Grade
The behavior of individuals and systems in formal organizations and bureaucratic models: government, hospitals, churches, schools, industry as manifestations of a common principle.
Prerequisite: 12 credits of sociology or the equivalent foundations in education administration, industrial and systems engineering, management or political science.

SYP 3000 Society and the Individual 3 Credits
Grading Scheme: Letter Grade
Relation of the individual to the social environment with special reference to person perception, self-formation, self-disclosure, attitude formation and change, and group structure and processes. Social forces that shape the lives of individuals and how individuals adjust to modern society. (S)
Prerequisite: SYG 2000.
Attributes: General Education - Social Science

SYP 3510 Deviance 3 Credits
Grading Scheme: Letter Grade
Introduces the sociology of deviance: the definition of deviance; types of deviant behavior such as suicide, drugs and alcohol abuse, sexual deviance, deviant subcultures and violence; differential labeling and institutional processing; and implications of social control. (S)
Attributes: General Education - Social Science

SYP 4060 Sociology of Human Sexuality 3 Credits
Grading Scheme: Letter Grade
Theoretical and conceptual issues, empirical research and social policies germane to human sexuality in the U.S. Topics include sexual identity and orientation; sexual behavior; social control of sexuality; social implications of STDs and HIV/AIDS; and the relationship between sexuality and the socio-political process.
Prerequisite: SYG 2000.

SYP 4520 Criminology 3 Credits
Grading Scheme: Letter Grade
Nature and causes of crime, criminality and criminal careers. Research in crime and delinquency. Sociological analysis of criminal law, criminal justice, rehabilitation, punishment, prevention and deterrence.
Prerequisite: SYG 2000.

SYP 4550 Alcohol, Drugs and Society 3 Credits
Grading Scheme: Letter Grade
Overview of alcohol and drug use and abuse in modern society. Emphasis on social characteristics, social processes, policy and programs in socially accepted and deviant use.

SYP 4730 Sociology of Aging and Life Course 3 Credits
Grading Scheme: Letter Grade
Social and personal conditions of post-retirement years; family and housing patterns; income, leisure, health and group processes; evaluating institutional care for the aged. (S and D)
Attributes: General Education - Diversity, General Education - Social Science

Soil and Water Sciences

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

AGG 4502 Nanotechnology in Food, Agriculture, and Environment 3 Credits
Grading Scheme: Letter Grade
Application of nanotechnology in crop production, food processing and preservation, and environmental remediation; behavior of engineered nanoparticles in plant, soil and the environment, and environmental toxicology and regulations of engineered nanoparticles.
Prerequisite: SWS 3022.

ALS 3133 Agricultural and Environmental Quality 3 Credits
Grading Scheme: Letter Grade
Analysis of effects of agriculture on environmental quality; emphasis on agricultural wastes and practices; potential for using agricultural systems for disposal of other wastes; effects of pollution on the agricultural environment. (P)
Attributes: General Education - Physical Science

ALS 4154 Global Agroecosystems 3 Credits
Grading Scheme: Letter Grade
Focuses on the principles of agroecology and presentation of topics that integrate ecological with agricultural principles to optimize resource conservation, productivity, societal benefit, and profitability.
Prerequisite: SWS 3022 and ALS 3153 and AGR 4214C or the equivalent.

SWS 2007 The World of Water 3 Credits
Grading Scheme: Letter Grade
The full range of water issues including abundance and quality of water in the environment, water policy and conflict. (P)
Attributes: General Education - Physical Science

SWS 2008 Land and Life 3 Credits
Grading Scheme: Letter Grade
Relationships between human activities and soil and environmental quality. Lectures concentrate on the fundamentals of soil and environmental science using case studies to illustrate basic principles. Intended for non-majors. (B)
Attributes: General Education - Biological Science

SWS 3022 Introduction to Soils in the Environment 3 Credits
Grading Scheme: Letter Grade
Fundamentals of soil science emphasizing the physical, chemical and biological properties of soils in relation to growth of native and agricultural plants and environmental uses. (P)
Attributes: General Education - Physical Science

SWS 3022L Introduction to Soils in the Environment Laboratory 1 Credit
Grading Scheme: Letter Grade
Hands-on exposure to soils-related properties and processes.

SWS 3023L Soil Judging 2 Credits
Grading Scheme: Letter Grade
Students learn to inventory soil properties and record them on a standard form used by USDA soil scientists. Students travel locally to the field and also attend a 3-day regional soil judging contest where they learn to classify soils using soil taxonomy and to interpret soil quality and behavior from soil properties.

SWS 4116 Environmental Nutrient Management 3 Credits
Grading Scheme: Letter Grade
Consumption, existing reserves, formulation, chemical and physical properties, and manufacture of commercial fertilizers; basic chemical reactions of fertilizer materials with the soil and the fate of the nutritional elements whether it be loss by leaching, plant uptake, fixation or soil retention. (P)
Prerequisite: SWS 3022.
Attributes: General Education - Physical Science

SWS 4180 Earth System Analysis 3 Credits
Grading Scheme: Letter Grade
Analysis of global-scale interdependences between climate, biogeochemical cycles and humans using a systems approach.
Prerequisite: MAC 2233 or PHY 2048.

SWS 4204 Urban Soil and Water Systems 3 Credits
Grading Scheme: Letter Grade
Issues and opportunities related to soil and water quality in urban systems. Students will learn and discuss consequences of human population growth on soil and water systems in urban areas.
Prerequisite: SWS 3022.

SWS 4207 Sustainable Agricultural and Urban Land Management 3 Credits
Grading Scheme: Letter Grade
Agricultural and urban water quality issues in Florida, their bases, land and nutrient management strategies and the science and policy behind Best Management Practices (BMPs). Students will learn to evaluate BMP research and analyze its role in determining practices and policies that protect water quality.
Prerequisite: SWS 3022 or instructor permission.

SWS 4223 Environmental Biogeochemistry 3 Credits
Grading Scheme: Letter Grade
To gain understanding of the earth as a biogeochemistry system in the context of global change.
Prerequisite: (BSC 2005 and BSC 2005L) or (BSC 2010 and BSC 2010L) and (CHM 2045 and CHM 2045L).

SWS 4231C Soil, Water and Land Use 3 Credits
Grading Scheme: Letter Grade
Suitabilities/limitations of soils for different uses; using soil surveys and related information to plan use/management of land; behavior of water in soils/landscapes; policies for and implications of water allocation among urban, agricultural and natural resource uses. (P)
Attributes: General Education - Physical Science

SWS 4233 Soil and Water Conservation 3 Credits
Grading Scheme: Letter Grade
Soil/water resources, historical erosions and sediment problems, geologic vs. accelerated erosion, erosion prediction equations and government conservation programs; water conservation, irrigation, drainage and salinity; stormwater management; and case studies in erosion and sedimentation.

SWS 4244 Wetlands 3 Credits
Grading Scheme: Letter Grade
Introduces wetland ecosystems with emphasis on principles and problems associated with their functions and values as related to water quality. Students become familiar with basic and applied concepts in hydrology, soils and vegetation of both constructed and natural wetlands.

SWS 4245 Water Resource Sustainability 3 Credits
Grading Scheme: Letter Grade
The quantitative effects of human impacts on hydrologic ecosystems (aquifers, watersheds, coastal zones, lakes and wetlands). Case studies illustrate detrimental effects of unsustainable resource utilization and beneficial management strategies.

SWS 4303C Soil Microbial Ecology 3 Credits
Grading Scheme: Letter Grade
Occurrence and activities of soil microorganisms and their influence on soil productivity and environmental quality.
Prerequisite: BSC 2005 and BSC 2005L or BSC 2010 and BSC 2010L.

SWS 4307 Ecology of Waterborne Pathogens 3 Credits
Grading Scheme: Letter Grade
Survival strategies, gene regulation and metabolism of waterborne pathogens. Methods for microbe detection and control.
Prerequisite: MCB 3020 or MCB 3023 or MCB 4203, or equivalent.

SWS 4451 Soil and Water Chemistry 3 Credits
Grading Scheme: Letter Grade
Physico-chemical processes such as mineral weathering and formation, sorption and ion exchange. Also includes introduction to diffuse double-layer theory.

SWS 4504 Aquatic Toxicology: Science and Applications 3 Credits
Grading Scheme: Letter Grade
Introduces foundational knowledge and concepts of the field of aquatic toxicology. Examines how environmental and chemical properties influence the fate and bioavailability of contaminants in aquatic environments; introduces principles of toxicology and methods used to study aquatic toxicology, as well as applications of knowledge gained from aquatic toxicology studies.
Prerequisite: ((BSC 2005 and BSC 2005L) or (BSC 2010 and BSC 2010L)) and ((CHM 2045 and CHM 2045L) or (CHM 2046 and CHM 2046L)).

SWS 4550 Soils, Water and Public Health 3 Credits
Grading Scheme: Letter Grade
Important instances where soil and water science and public health overlap. Students develop skills required for competency in both disciplines.
Prerequisite: CHM 2045, CHM 2046 and BSC 2010, or instructor permission.

SWS 4602C Soil Physics 3 Credits
Grading Scheme: Letter Grade
Physical processes and properties of soils that influence optimum growth of plants as well as potential for groundwater pollution from agrochemicals and applied wastes. Primary emphasis is given to basic concepts of transport and retention for water and solutes; secondary emphasis is given to air and heat in the root zone of the soil profile; and limited attention is given to mechanical properties of soil that affect the proliferation of plant roots. (P)
Prerequisite: MAC 2311, PHY 2004 and SWS 3022.
Attributes: General Education - Physical Science

SWS 4715C Environmental Pedology 4 Credits
Grading Scheme: Letter Grade
Study and analysis of soil in the environment and the factors responsible for soil formation and geographic distribution. Development of hydric soil criteria and hydric soil indicators. Emphasis on morphology or hydric/ non-hydric soils and introduction to diagnostic horizons and soil classification. Course also includes abs on soil field techniques.
Prerequisite: SWS 3022.

SWS 4720C GIS in Soil and Water Science 3 Credits
Grading Scheme: Letter Grade
Basic, practical understanding of GIS concepts, technical issues and applications to soil and water science using ArcGIS geographic information system.

SWS 4800 Environmental Soil and Water Monitoring Techniques 3 Credits
Grading Scheme: Letter Grade
Introduces students to the principles, objectives and practices in environmental monitoring. Students will learn the proper techniques in planning for monitoring projects, sampling design, sample collection, basic principles of laboratory analysis and basic data analysis. Quality assurance and quality control requirements are introduced and emphasized.
Prerequisite: BSC 2010 and BSC 2010L; CHM 2045 and CHM 2045L.

SWS 4900 Supervised Extension Experience in Soil and Water Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

SWS 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Selected topics for qualified students.
Prerequisite: 8 credits of soils and instructor permission.

SWS 4911 Supervised Research in Soil and Water Science 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application. (S-U)

SWS 4915 Honors Thesis Research in Soil and Water Science 0-3 Credits
Grading Scheme: S/U
Independent research in soil and water science leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

SWS 4932 Special Topics in Soil and Water Science 1-3 Credits
Grading Scheme: Letter Grade
Variable topics designed to meet students' needs and interests.

SWS 4941 Full-time Practical Work Experience in Soil and Water Science 1-3 Credits
Grading Scheme: S/U
Practical work must be a new experience and related to field of study. (S-U)
Prerequisite: prior arrangement with advisor, and department and dean permissions.

Spanish and Portuguese Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

Catalan

CAT 3180 Introduction to Catalan 1 3 Credits
Grading Scheme: Letter Grade
Acquire a working knowledge of the Catalan language and the aspects of Catalan culture and society. No previous experience with Catalan required, although knowledge of another Romance language (through intermediate level) is required.
Prerequisite: completion of second year in another Romance language or instructor permission.

CAT 3182 Introduction to Catalan 2 3 Credits
Grading Scheme: Letter Grade
To expand the linguistic and cultural knowledge acquired in CAT 3180 and to further develop an understanding of Catalan art, culture and society. Emphasis on speaking, listening, reading and writing.
Prerequisite: CAT 3180 or instructor permission.

CAT 3280 Intermediate Catalan 3 Credits
Grading Scheme: Letter Grade
Review and extend knowledge of grammar, vocabulary, culture; develop oral and written skills; begin reading literary works; and consolidate knowledge of Catalan culture.
Prerequisite: CAT 3182 or equivalent.

CAT 3281 Intermediate Catalan 2 3 Credits
Grading Scheme: Letter Grade
Second semester in the intermediate Catalan language and culture sequence, continuing the study of the language and culture of Catalonia with emphasis on linguistic proficiency and cultural knowledge.
Prerequisite: CAT 3180 or equivalent.

Portuguese

LIT 2000 Introduction to Literature 3 Credits
Grading Scheme: Letter Grade
Examines the important role literature has played in individuals' lives and in society, presenting a range of literary styles and genres, from different countries and historical periods. Special attention paid to development of critical skills of analysis and interpretation. (H)
Prerequisite: ENC 1101
Attributes: General Education - Humanities

POR 1130 Beginning Portuguese 1 5 Credits
Grading Scheme: Letter Grade
First course in the basic Portuguese language sequence, which emphasizes the language as spoken in Brazil. Develops basic communication skills in reading, writing, speaking and listening. Not open to proficient speakers of Spanish.

POR 1131 Beginning Portuguese 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the series in basic Portuguese, which emphasizes the language as spoken in Brazil. Develops basic communication skills in reading, writing, speaking and listening. Not open to proficient speakers of Spanish.
Prerequisite: POR 1130 with minimum grade of C or S, or the equivalent.

POR 3010 Introduction to Portuguese and Brazil: Accelerated 5 Credits
Grading Scheme: Letter Grade
Designed for those with knowledge of another Romance language (usually Spanish) through study or home experience. A complete introduction to the language, assuming that students have no previous study of Portuguese. It also satisfies the CLAS and Journalism foreign-language requirement in one semester.
Prerequisite: FRE 3300, SPN 3300 or equivalent.

POR 3224 Applied Portuguese 1-5 Credits
Grading Scheme: Letter Grade
Portuguese-language reading and discussions to accompany and complement courses of diverse content offered in other departments. Readings and discussions are in Portuguese to develop vocabulary and fluency related to the content of the companion course and to provide an international perspective on the issues of the main course. (N)
Prerequisite: instructor permission.
Attributes: General Education - International

POR 3242 Oral and Written Practice 3 Credits
Grading Scheme: Letter Grade
Intermediate-level course emphasizing all four skills; consists of printed and electronic readings, writing essays and taking notes, oral discussions and presentations, lab activities and grammar review.
Prerequisite: POR 1131, POR 3010 or the equivalent.

POR 3243 Composition and Conversation 3 Credits
Grading Scheme: Letter Grade
An intermediate-level course with continued expansion of vocabulary, review of essential grammar and structures and development of reading, writing and speaking skills.
Prerequisite: POR 1131 or POR 3010, or the equivalent.

POR 3451 Introduction to Portuguese Translation and Interpretation 3 Credits
Grading Scheme: Letter Grade
Improve Portuguese language skills through application of the principles of translation while gaining information on professional opportunities in the field.
Prerequisite: POR 3010 or the equivalent.

POR 3500 Luso-Brazilian Civilization 3 Credits
Grading Scheme: Letter Grade
Introduction to the central historical events, political institutions, intellectual currents and artistic movements in the foundation and development of Portugal, Brazil and Lusophone Africa. Preview of topics studied in other literature and culture courses. (H and N)
Prerequisite: POR 3242 or the equivalent, or instructor permission.
Attributes: General Education - Humanities, General Education - International

POR 3502 Brazilian Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to the study of modern cultural forms, including folk pageantry, performance arts, literature, film and television.
Prerequisite: POR 3242 or instructor permission.

POR 3701 Introduction to Portuguese Linguistics 3 Credits
Grading Scheme: Letter Grade
An introduction to the basic concepts and analytical techniques of linguistics, applied specifically to the Portuguese language. Practices the linguistic analysis of the sounds, words and sentences of Portuguese, with relevant comparisons to Spanish and English where applicable.
Prerequisite: POR 3242 or POR 3243 with minimum grade of C.

POR 3930 Topics in Brazilian Culture and Civilization 3 Credits
Grading Scheme: Letter Grade
Variable topics in Brazilian culture and civilization, including racial identity, feminism, regionalism, music, film, art, religion, sports, and more.
Prerequisite: POR 3010.

POR 4420 Advanced Composition and Syntax 3 Credits
Grading Scheme: Letter Grade
A language course that distinguishes Portuguese from related Romance tongues, including the more difficult aspects of grammar and structure, specialized vocabulary, different stylistic registers, and application of these to translation and original composition.
Prerequisite: POR 3243 or the equivalent (intermediate proficiency).

POR 4906 Honors Thesis 1-3 Credits
Grading Scheme: Letter Grade
Honors thesis preparation.
Prerequisite: 4000-level POW or POR course.

POR 4956 Overseas Studies 3-6 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

POW 3100 Introduction to Literature in Portuguese 3 Credits
Grading Scheme: Letter Grade
A survey of literature written in Portuguese by major authors from Portugal, Brazil and Lusophone Africa. Primary emphasis falls on narrative and comparisons of developments in Portugal and the former colonies. (H and N)
Prerequisite: POR 3243 or the equivalent, or instructor permission.
Attributes: General Education - Humanities, General Education - International

POW 3130 Introduction to Brazilian Literature 1 3 Credits
Grading Scheme: Letter Grade
A survey of literary production in Brazil 1500-1900, including the literature of discovery, colonial manifestations and the major works of Romanticism, Realism and Parnassianism. (H and N)
Prerequisite: POR 3243 or the equivalent, or instructor permission.
Attributes: General Education - Humanities, General Education - International

POW 3131 Introduction to Brazilian Literature 2 3 Credits
Grading Scheme: Letter Grade
A survey of 20th-century literary movements: premodernism, modernism and regionalism in prose and poetry, with an emphasis on the fiction of contemporary writers. (H and N)
Prerequisite: POR 3243 or the equivalent, or program coordinator permission.
Attributes: General Education - Humanities, General Education - International

POW 4380 Contemporary Brazilian Poetry 3 Credits
Grading Scheme: Letter Grade
A study of lyric, both literary and musical, in the second half of the 20th century, including experimental trends, political verse, popular music and youth movements.
Prerequisite: introductory knowledge of Brazilian literature.

POW 4382 Brazilian Drama 3 Credits
Grading Scheme: Letter Grade
A survey of the milestones of Brazilian theatre with an emphasis on 20th century plays. In addition to the plays, the course also presents the theoretical framework and political context of theatrical production in Brazil. (H and N)
Prerequisite: introductory knowledge of Brazilian literature.
Attributes: General Education - Humanities, General Education - International

POW 4450 The Modernist Movement in Brazilian Literature 3 Credits
Grading Scheme: Letter Grade
Readings in fiction, poetry and essay of the nationalist and avant-garde decades of the 1920s and 1930s. Discussions are designed to situate Brazilian letters in diverse national and international contexts. Literary works are complemented by considerations of concurrent production in music and the arts.
Prerequisite: introductory knowledge of Brazilian literature.

POW 4454 Nineteenth-Century Brazilian Literature 3 Credits
Grading Scheme: Letter Grade
The major literary trends of the 19th century, primarily in fiction (Romanticism, Realism and Naturalism), poetry and essays, to familiarize students with representative works of each literary movement and genre. (H and N)
Prerequisite: introductory knowledge of Brazilian literature.
Attributes: General Education - Humanities, General Education - International

POW 4480 Contemporary Brazil Narrative 3 Credits
Grading Scheme: Letter Grade
Rotating topics may include studies in genre (the short story, the novel), theme (science fiction) or author (Rubern Fonseca, Clarice Lispector, Guimaraes Rosa). (H and N)
Attributes: General Education - Humanities, General Education - International

POW 4700 Machado de Assis and His Contemporaries 3 Credits
Grading Scheme: Letter Grade
Machado de Assis, the 19th-century master of Brazilian letters, produced writings of every literary genre, including literary criticism, poetry and drama, in addition to his ingenious short stories and novels. This course surveys Machado's work and compares his novels to those of his contemporaries. (H and N)
Prerequisite: introductory knowledge of Brazilian literature.
Attributes: General Education - Humanities, General Education - International

POW 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Individual work in Portuguese.
Prerequisite: instructor permission.

POW 4911 Undergraduate Research in Portuguese 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

POW 4930 Readings in Luso-Brazilian Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Diverse subjects in Brazilian and Portuguese studies, including the Brazilian Northeast, the Afro-Brazilian world, the culture of dictatorship, popular genres and popular music. In addition to readings of original texts, course may incorporate sound recordings and film.
Prerequisite: introductory knowledge of Luso-Brazilian literature.

PRT 3391 Brazilian Cinema 4 Credits
Grading Scheme: Letter Grade
Critical analysis of Brazilian film and the relationship of content to social and political forces.

PRT 3930 Special Topics in Lusophone Culture and Civilization 1-4 Credits
Grading Scheme: Letter Grade
Variable topics in Brazilian, Portuguese or Luso-African culture and civilization, including globalism, regionalism, song literature, film and video, negritude, women's movements and Amazonian discourse.

Spanish

CAT 3180 Introduction to Catalan 1 3 Credits
Grading Scheme: Letter Grade
Acquire a working knowledge of the Catalan language and the aspects of Catalan culture and society. No previous experience with Catalan required, although knowledge of another Romance language (through intermediate level) is required.
Prerequisite: completion of second year in another Romance language or instructor permission.

CAT 3182 Introduction to Catalan 2 3 Credits
Grading Scheme: Letter Grade
To expand the linguistic and cultural knowledge acquired in CAT 3180 and to further develop an understanding of Catalan art, culture and society. Emphasis on speaking, listening, reading and writing.
Prerequisite: CAT 3180 or instructor permission.

CAT 3280 Intermediate Catalan 3 Credits
Grading Scheme: Letter Grade
Review and extend knowledge of grammar, vocabulary, culture; develop oral and written skills; begin reading literary works; and consolidate knowledge of Catalan culture.
Prerequisite: CAT 3182 or equivalent.

CAT 3281 Intermediate Catalan 2 3 Credits
Grading Scheme: Letter Grade
Second semester in the intermediate Catalan language and culture sequence, continuing the study of the language and culture of Catalonia with emphasis on linguistic proficiency and cultural knowledge.
Prerequisite: CAT 3180 or equivalent.

IDS 2334 Chemistry in the Cocina Latina 3 Credits
Grading Scheme: Letter Grade
Combines the science of chemistry with the humanistic aspects of the Spanish language and Hispanic cultures and histories, while exploring Hispanic cultures and language through the foods and recipes that define them, and the science of those foods by studying chemical reactions inherent in cooking.

LIT 2000 Introduction to Literature 3 Credits
Grading Scheme: Letter Grade
Examines the important role literature has played in individuals' lives and in society, presenting a range of literary styles and genres, from different countries and historical periods. Special attention paid to development of critical skills of analysis and interpretation. (H)
Prerequisite: ENC 1101
Attributes: General Education - Humanities

SPN 1130 Beginning Spanish 1 5 Credits
Grading Scheme: Letter Grade
First in the basic Spanish language sequence, developing basic communication skills in reading, writing, speaking and listening.

SPN 1131 Beginning Spanish 2 5 Credits
Grading Scheme: Letter Grade
Second in the basic Spanish language sequence, continuing development of basic communication skills in reading, writing, speaking and listening.

SPN 1134 Accelerated Spanish Review 5 Credits
Grading Scheme: Letter Grade
Provides a rapid review of basic communicative Spanish as preparation for intermediate Spanish courses. For those with previous Spanish study but insufficient placement scores to move to the 2000 level.

SPN 1180 Elementary Spanish: Review and Progress 3 Credits
Grading Scheme: Letter Grade
Alternative to SPN 1130, for students who have previous experience in Spanish. Covers the material of SPN 1130 and meets three times weekly. SPN 1131 follows this course.
Prerequisite: refer to placement section. Not open to bilingual speakers of Spanish.

SPN 2200 Intermediate Spanish 1 3 Credits
Grading Scheme: Letter Grade
First of the intermediate Spanish language sequence. Develops intermediate skills in reading, writing, speaking and listening. Builds communicative competence and enhances social and cultural awareness of the Spanish-speaking world. Taught entirely in Spanish.

SPN 2201 Intermediate Spanish 2 3 Credits
Grading Scheme: Letter Grade
Second course in the intermediate Spanish language sequence. Continues development of intermediate skills in reading, writing, speaking and listening. Continues to enhance communicative competence and social and cultural awareness. Taught entirely in Spanish.
Prerequisite: SPN 2200 with a minimum grade of C or the equivalent placement scores on SAT II, IB or AP tests or the equivalent placement score or the equivalent coursework as approved by the undergraduate coordinator. Not open to bilingual speakers of Spanish.

SPN 2240 Intensive Communication Skills 3 Credits
Grading Scheme: Letter Grade
Develops the ability to understand oral and written Spanish and is required of all majors and minors who are not bilinguals, unless they initially placed above this level. Preparation for 3000-level courses.
Prerequisite: SPN 2201 with a minimum grade of C or the equivalent placement scores on SAT II, IB or AP tests or the equivalent placement score or the equivalent coursework as approved by the undergraduate coordinator. Not open to bilingual speakers of Spanish.

SPN 2270 Intermediate Spanish Abroad 3 Credits
Grading Scheme: Letter Grade
Equivalent to SPN 2240, the obligatory first course in the Spanish major and minor for non-bilinguals. Preparation for upper-division Spanish courses. Promotes cultural awareness and develops an active command of the language by means of intensive interaction with the people and current issues and events of the Spanish-speaking host city and surrounding area.
Prerequisite: SPN 2201 or the equivalent placement scores on SAT II, IB or AP tests, and undergraduate coordinator permission.

SPN 2271 Accelerated Intermediate Spanish Abroad 3 Credits
Grading Scheme: Letter Grade
Students acquire intermediate communicative skills in Spanish through interaction in Spanish-speaking communities. Offered abroad only, course depends on intensive language immersion for successful acquisition in a shortened period of time. Successful completion is comparable to having passed SPN 2200 and SPN 2201.
Prerequisite: SPN 1131 or SPN 1134 with a minimum grade of C or the equivalent placement scores on SAT II, IB or AP tests.

SPN 2340 Introduction to Reading and Writing Spanish for Heritage Learners 3 Credits
Grading Scheme: Letter Grade
Intermediate-level course for heritage learners with some speaking and listening ability from exposure outside the classroom but with little or no formal exposure to the language. Emphasizes reading and vocabulary, introduces grammar and orthographic rules.
Prerequisite: placement test or department-administered test for Heritage Learners.

SPN 2442 Intensive Intermediate Spanish for Business 3 Credits
Grading Scheme: Letter Grade
An intensive intermediate-level course for students interested in learning Spanish in the context of the business world. Includes business vocabulary and business practices in the Hispanic world.
Prerequisite: SPN 1131 or the equivalent.

SPN 2471 Accelerated Spanish Abroad 1-5 Credits
Grading Scheme: Letter Grade
Reviews major aspects of grammar in a context that enhances understanding of the Spanish or Spanish-American way of life and modes of expression. Reading comprehension and composition are developed through readings on diverse topics related to Latin America and Spain.
Prerequisite: SPN 2200 or the equivalent placement scores on SAT II, IB, or AP tests, and section coordinator or undergraduate advisor permission.

SPN 3036 Spanish for Health Professions 3 Credits
Grading Scheme: Letter Grade
Provides students with the linguistic and cultural skills necessary for effectively treating Spanish-speaking patients with medical emergencies, illnesses and other health issues.
Prerequisite: SPN 3300 or SPN 3350 with minimum grade of C, or equivalent linguistic knowledge as determined by instructor.

SPN 3224 Applied Spanish 1-5 Credits
Grading Scheme: Letter Grade
Spanish-language section designed to accompany and complement courses offered in other departments. Readings and discussions are in Spanish to develop vocabulary and fluency related to the content of the companion course and to provide an international perspective on the issues of the main course. (N)
Prerequisite: SPN 3300 or SPN 3350, or undergraduate coordinator permission.
Attributes: General Education - International

SPN 3300 Spanish Grammar and Composition 1 3 Credits
Grading Scheme: Letter Grade
Intensive language course to develop mastery of grammatical principles, increase vocabulary and enhance writing and composition skills. This course (or SPN 3350 for bilingual speakers) is a prerequisite for most 3000/4000-level Spanish courses.
Prerequisite: SPN 2240; can be taken concurrently with SPN 2240 or SPN 3301. Not open to bilingual speakers of Spanish.

SPN 3301 Spanish Grammar and Composition 2 3 Credits
Grading Scheme: Letter Grade
Continues review of Spanish grammar begun in SPN 3300 and concentrates on intensive writing practice in expository Spanish. Highly recommended for Spanish majors and minors who are not taking the bilingual sequence; a prerequisite for SPN 4420, Advanced Composition and Syntax.
Prerequisite: SPN 3300; can be taken concurrently with SPN 3300. Not open to bilingual speakers of Spanish.

SPN 3350 Spanish Grammar and Composition for Heritage Learners 3 Credits
Grading Scheme: Letter Grade
Emphasizes aspects of the language and grammar for those who have learned Spanish through exposure outside the classroom in addition to some formal exposure in school settings, and whose speaking and comprehension abilities are generally more developed than their writing and reading skills.
Prerequisite: placement test or department-administered test for heritage learners or heritage program coordinator permission or SPN 2340 with minimum grade of B.

SPN 3392 Spanish Conversation, Film and Culture 3 Credits
Grading Scheme: Letter Grade
Enhances students' oral skills in Spanish through movie reviews, oral reports, debates and class discussions. Introduces students to current social, economic and political issues in Latin-America and Spain through the critical analysis of contemporary Spanish-language films.
Prerequisite: SPN 2240 or placement test. Not open to bilingual speakers of Spanish.

SPN 3414 Advanced Spanish Conversation 2 3 Credits
Grading Scheme: Letter Grade
Authentic materials of the Hispanic world are used to improve listening, comprehension and speaking skills. Oral expression is used in conversation and in formal and informal presentations on a variety of topics.
Prerequisite: SPN 2240 or instructor permission. Not open to bilingual speakers of Spanish.

SPN 3440 Commercial Spanish 3 Credits
Grading Scheme: Letter Grade
An introduction to the vocabulary and business practices of the Hispanic world. Emphasis on oral and written business communications. Overview of cultural differences within the Hispanic world and between the U.S. and the Hispanic world, with emphasis on the business impact. (S and N)
Prerequisite: SPN 3300 or SPN 3350, or the equivalent as approved by the undergraduate coordinator.
Attributes: General Education - International, General Education - Social Science

SPN 3443 Marketing and Advertising in the Spanish-Speaking World 3 Credits
Grading Scheme: Letter Grade
An introduction to the related fields of marketing and advertising as they pertain to the Spanish-speaking world. Focuses on marketing campaigns and advertising strategies, in print and on television. Emphasis on the cultural element(s) and context(s) of marketing/advertising campaigns. Covers a representative sampling of Spanish-speaking countries, with special attention to Spain, Mexico, Argentina and the United States. Group work required for some class projects.
Prerequisite: SPN 2340 or SPN 3300, or instructor permission.

SPN 3451 Spanish Translation and Interpretation: Theory and Practice 3 Credits
Grading Scheme: Letter Grade
Provides an introduction to the theories and principles of translation and interpretation, combined with practice in English-to-Spanish and Spanish-to-English translations. Working individually and in groups, students will acquire translation techniques for a variety of genres, such as literary texts, letters, legal documents, newspapers, commercial advertisements, etc.
Prerequisite: SPN 3300 or SPN 3350 or the equivalent.

SPN 3472 Advanced Communicative Spanish Abroad 3 Credits
Grading Scheme: Letter Grade
Practical, in-class communication exercises in comprehension, speaking, reading and writing. Classroom activities are coordinated with homework to emphasize communication. The foreign setting also serves as a living language laboratory.
Prerequisite: SPN 2240 or SPN 2340, or placement scores on SAT II, IB, or AP tests, or equivalent coursework approved by the section coordinator or undergraduate advisor.

SPN 3510 Culture and Civilization of Spain 3 Credits
Grading Scheme: Letter Grade
A survey of Spanish history, customs and the arts from ancient times to the present; devotes considerable attention to life in contemporary Spain since the death of General Franco in 1975. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or equivalent coursework approved by the undergraduate coordinator.
Attributes: General Education - Humanities, General Education - International

SPN 3520 Culture and Civilization of Spanish America 3 Credits
Grading Scheme: Letter Grade
The rich and often conflicting diversity of the Americas as well as the historical experiences that allow us to speak of the Americas as a whole: The conquest, the colonial period, the struggles for independence against (neo)colonialism, the clashing and mixing of cultures, the yoke of slavery and servitude, the formation of rigid social hierarchies, and the frustrated search for democracy and economic development. These phenomena are followed in a variety of artistic media, from painting to poetry and from music to film. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or equivalent coursework approved by the undergraduate advisor.
Attributes: General Education - Humanities, General Education - International

SPN 3533 Spanish for Educators 3 Credits
Grading Scheme: Letter Grade
Designed for learners interested in teaching Spanish as a world language and/or increasing their linguistic and cultural expertise to work with educational stakeholders. Improve Spanish proficiency, learn methods for teaching Spanish, and gain awareness of Hispanic cultures as they relate to educational settings.
Prerequisite: SPN 3300 or SPN 3350.

SPN 3572 Revolving Topics Abroad 3-6 Credits
Grading Scheme: Letter Grade
Rotating topics focus on Spanish culture and civilization.

SPN 3700 Introduction to Hispanic Linguistics 3 Credits
Grading Scheme: Letter Grade
Initial overview of central theories and applications of linguistic analysis in the study of Spanish. The phonological, grammatical, discursive and social structures of Spanish are considered within five areas of popular inquiry in Hispanic linguistics: history of Spanish, language variation and change, Spanish in contact with other languages, political and educational linguistics, and acquisition of Spanish as a first and second language. Conducted entirely in Spanish and is a prerequisite for all 4000-level courses in Hispanic linguistics.
Prerequisite: SPN 3300 or SPN 3350.

SPN 3831 Spanish for the Legal Professions 3 Credits
Grading Scheme: Letter Grade
Prepares students for professional work in legal professions in a Spanish-speaking environment. Enables students to understand legal texts and arguments, write documents and express themselves using legal vocabulary. Covers a broad mix of practical legal terminology, vocabulary and conversational skills. Conducted entirely in Spanish.
Prerequisite: SPN 3300 or SPN 3350, or instructor permission.

SPN 3930 Topics in Spanish and Spanish American Culture and Civilization 3 Credits
Grading Scheme: Letter Grade
Variable topics in Latin American culture and civilization, including racial identity, feminism, regionalism, music, film, art, religion and sports.
Prerequisite: SPN 3300 or SPN 3350, or undergraduate advisor permission.

SPN 3948 Spanish in the Community 3 Credits
Grading Scheme: Letter Grade
Engages students in the local Spanish-speaking community through academic investigation and service work. Consists of classroom meetings, community projects outside of class, and reflective assignments; may be taken a maximum of one time on UF's campus and one time abroad.
Prerequisite: SPN 3300 OR SPN 3350.

SPN 4314 Advanced Spanish Composition and Structure for Heritage Learners 3 Credits
Grading Scheme: Letter Grade
Emphasizes aspects of Spanish style, syntax and registers that can be problematic for the heritage learner. Some prior formal training in the language is expected (SPN 3350 or equivalent in a Spanish-speaking country).
Prerequisite: SPN 3350 with minimum grade of B or placement test or department-administered test for heritage learners.

SPN 4420 Advanced Composition and Syntax 3 Credits
Grading Scheme: Letter Grade
Emphasizes the finer aspects of Spanish syntax, vocabulary and style that give the advanced student difficulties. Class discussion, drills and written compositions.
Prerequisite: SPN 3301 or the equivalent, and undergraduate coordinator permission. Not open to bilingual speakers of Spanish.

SPN 4713 Spanish Second Language Acquisition 3 Credits
Grading Scheme: Letter Grade
Overview of second language acquisition theory with discussion of empirical studies on the acquisition of Spanish. Emphasis on research design and the analysis of oral or written production of learners of Spanish.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010.

SPN 4780 Spanish Phonetics 3 Credits
Grading Scheme: Letter Grade
Focuses on the precise description of Spanish pronunciation with some attention to dialect features and contrastive English phonetics.
Prerequisite: (SPN 3300 or SPN 3350) and (SPN 3700 or LIN 3010).

SPN 4822 Sociolinguistics of the Spanish-Speaking World 3 Credits
Grading Scheme: Letter Grade
General overview of sociolinguistic issues of the contemporary Spanish-speaking world: language variation, language contact, discourse analysis, language attitudes, policy and planning, and social factors in language acquisition and use.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010.

SPN 4830 Introduction to Spanish and Spanish American Dialectology 3 Credits
Grading Scheme: Letter Grade
Principles and methods of dialectology applied to the study of regional varieties of Spanish in Spain and in Spanish America.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010.

SPN 4840 Introduction to the History of the Spanish Language 3 Credits
Grading Scheme: Letter Grade
The phonological, morphological, syntactic and semantic evolution of the Spanish language from Latin.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010 and SPN 4780.

SPN 4850 Introduction to the Structure of Spanish 3 Credits
Grading Scheme: Letter Grade
Explores syntactic, morphological and semantic aspects of the Spanish language.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010.

SPN 4851 Spanish Bilingualism 3 Credits
Grading Scheme: Letter Grade
Examines the internal and external factors that lead to and result from bilingualism in regions where Spanish is spoken. Organized into three primary components: social aspects; linguistic aspects; political and educational aspects.
Prerequisite: SPN 3700 or LIN 3010, or the equivalent.

SPN 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
For advanced majors and minors who seek independent work not offered in another course. Must be arranged individually with Spanish faculty. For honors thesis use SPN 4906.
Prerequisite: undergraduate coordinator permission.

SPN 4906 Honors Thesis 1-3 Credits
Grading Scheme: Letter Grade
Honors thesis preparation.

SPN 4911 Undergraduate Research in Spanish 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

SPN 4930 Revolving Topics in Linguistics and Culture 3 Credits
Grading Scheme: Letter Grade
Variable content provides opportunity for in-depth study of linguistic and cultural topics not offered in other courses and of topics of special current significance.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010.

SPN 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

SPT 3930 Topics in Latin American and Spanish Culture and Film 3 Credits
Grading Scheme: Letter Grade
Provides a broad survey of topics and issues pertaining to Latin American (including Brazilian) and Spanish contemporary culture through the analysis and interpretation of texts and films. Coursework is organized by country, theme, or genre on a rotating basis.
Prerequisite: any POW 3000 level course or any SPW 3000 level course or LIT 2000.

SPW 3030 Survey of Spanish-American Literature: From Discovery to Independence 3 Credits
Grading Scheme: Letter Grade
Overview of Spanish-American literature and its cultural context from the European conquest of the Americas to the 19th century. Introduces principal literary movements and authors, and trains students to read critically and to appreciate literary Spanish. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.
Attributes: General Education - Humanities, General Education - International

SPW 3031 Survey of Spanish-American Literature: From Independence to Contemporary Times 3 Credits
Grading Scheme: Letter Grade
End of the 19th century to the present. Introduces principal literary movements and authors, and trains students to read critically and to analyze literary Spanish. Reading of major authors who may include Borges, Garcia Marquez, Neruda, Fuentes and Ferre. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.
Attributes: General Education - Humanities, General Education - International

SPW 3100 Introduction to Spanish Literature 1 3 Credits
Grading Scheme: Letter Grade
Selected readings in epic, lyric, ballad and popular poetry, early forms of recreational and didactic prose and dramatic works from Spain's Medieval and Golden Ages are presented with attention to form and historical context. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.
Attributes: General Education - Humanities, General Education - International

SPW 3101 Introduction to Spanish Literature 2 3 Credits
Grading Scheme: Letter Grade
Provides an overview of Spanish literature and its cultural context from the 18th century to the present. Introduces principal literary movements and authors and trains students to read critically and to analyze literary Spanish. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.
Attributes: General Education - Humanities, General Education - International

SPW 4190 Seminar in Spanish-American Literature and Culture 3 Credits
Grading Scheme: Letter Grade
The advanced study of a writer, period, movement, region or topic of Spanish-American literature not ordinarily offered in the department. Refer to department website for specific description.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4213 Spanish Prose Fiction of the Golden Age 3 Credits
Grading Scheme: Letter Grade
Examines a literary landscape of rampant generic diversity before novelistic norms were solidified as known them today. Readings and lectures in Spanish.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4263 Readings in the Spanish Novel of the Nineteenth Century 3 Credits
Grading Scheme: Letter Grade
Readings in the Spanish novel of the 19th century. A survey of major authors from costumbrismo to the realism and naturalism of Galdos, Clarin and Pardo Bazan.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4270 Readings in Post-war Narrative 3 Credits
Grading Scheme: Letter Grade
Outstanding stories and novels of contemporary Spanish writers in relation to the historical and cultural context of post-civil war Spain.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4282 Readings in Contemporary Spanish-American Narrative 1 3 Credits
Grading Scheme: Letter Grade
The period of modernization of fiction and the development of new narrative modes in the 1940s and the 1950s; may include magical realism, the detective story and the new urban narratives.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4283 Readings in Contemporary Spanish-American Narrative 2 3 Credits
Grading Scheme: Letter Grade
The new narrative or the boom and post-boom of Latin-American fiction, 1960s to the present.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4310 Readings in Spanish Drama of the Golden Age 3 Credits
Grading Scheme: Letter Grade
Variable readings in Spanish Classical Theater by Lope de Vega, Pedro Calderon de la Barca, Tirso de Molina and others, including entremeses and Autos sacramentales. Focuses on the comedia's appeal to lettered and unlettered spectators and its potential for mass control and social protest.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4354 Readings in Contemporary Spanish-American Poetry 3 Credits
Grading Scheme: Letter Grade
A close reading and critical analysis of masterpieces by the major 20th-century poets of Spanish-America, including recent writers.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4364 Readings in the Spanish-American Essay 3 Credits
Grading Scheme: Letter Grade
Examination of major texts from the early 19th century to the present focusing on such themes as the search for identity and the definition of ethnic, racial, social and class categories.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4521 U.S. Hispanic Literature 3 Credits
Grading Scheme: Letter Grade
Reading, discussion and analysis of works by U.S. Hispanic or Latino/a writers with an examination of the cultural life and social conditions of the Puerto Rican, Cuban and Chicano communities in the U.S.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4532 Introduction to Spanish Romanticism 3 Credits
Grading Scheme: Letter Grade
By studying the canonical works of that moment (Rousseau, Feijoo, Cadalso, Jovellanos, Miranda, Bolivariable, Zorrilla, Rivas, Larra, Espronceda, Gomez de Avellaneda, Goya), the course explores the achievements, contradictions and failures of the enlightenment as well as the new organization by Romanticism in Spain and Latin America.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4604 Don Quixote 3 Credits
Grading Scheme: Letter Grade
A close reading of Cervantes' masterpiece that emphasizes the origins of the modern novel as a genre and its implication in the history of ideas.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4720 Readings in Spanish Literature from the Generation of 1898 to 1927 3 Credits
Grading Scheme: Letter Grade
A survey of turn-of-the-century Spanish crises from the perspective of the first generation of Spanish modernists. Authors include Unamuno, Costa, Machado, Valle-Inclin, Baroja and Ortega y Gassett.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4723 Readings in Spanish Literature from the Generation of 1927 to the Present 3 Credits
Grading Scheme: Letter Grade
Studies the development of Spanish literature in this century beginning with the brilliant poets of the generation of 1927, continuing with representative fiction, drama and poetry of the years after the Civil War and concluding with fiction and poetry of the 1990s.
Prerequisite: any one 3000-level SPW course or equivalent.

SPW 4780 Hispanic Women Writers 3 Credits
Grading Scheme: Letter Grade
A seminar dedicated to the exploration of literary works written in Spanish by women of Spain, Latin America and/or the United States.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4930 Revolving Topics in Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Variable content provides opportunity for in-depth study of literary and cultural topics not offered in other courses.
Prerequisite: any one 3000-level SPW course or the equivalent.

Spanish | Spanish and Portuguese Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

CAT 3180 Introduction to Catalan 1 3 Credits
Grading Scheme: Letter Grade
Acquire a working knowledge of the Catalan language and the aspects of Catalan culture and society. No previous experience with Catalan required, although knowledge of another Romance language (through intermediate level) is required.
Prerequisite: completion of second year in another Romance language or instructor permission.

CAT 3182 Introduction to Catalan 2 3 Credits
Grading Scheme: Letter Grade
To expand the linguistic and cultural knowledge acquired in CAT 3180 and to further develop an understanding of Catalan art, culture and society. Emphasis on speaking, listening, reading and writing.
Prerequisite: CAT 3180 or instructor permission.

CAT 3280 Intermediate Catalan 3 Credits
Grading Scheme: Letter Grade
Review and extend knowledge of grammar, vocabulary, culture; develop oral and written skills; begin reading literary works; and consolidate knowledge of Catalan culture.
Prerequisite: CAT 3182 or equivalent.

CAT 3281 Intermediate Catalan 2 3 Credits
Grading Scheme: Letter Grade
Second semester in the intermediate Catalan language and culture sequence, continuing the study of the language and culture of Catalonia with emphasis on linguistic proficiency and cultural knowledge.
Prerequisite: CAT 3180 or equivalent.

IDS 2334 Chemistry in the Cocina Latina 3 Credits
Grading Scheme: Letter Grade
Combines the science of chemistry with the humanistic aspects of the Spanish language and Hispanic cultures and histories, while exploring Hispanic cultures and language through the foods and recipes that define them, and the science of those foods by studying chemical reactions inherent in cooking.

LIT 2000 Introduction to Literature 3 Credits
Grading Scheme: Letter Grade
Examines the important role literature has played in individuals' lives and in society, presenting a range of literary styles and genres, from different countries and historical periods. Special attention paid to development of critical skills of analysis and interpretation. (H)
Prerequisite: ENC 1101
Attributes: General Education - Humanities

SPN 1130 Beginning Spanish 1 5 Credits
Grading Scheme: Letter Grade
First in the basic Spanish language sequence, developing basic communication skills in reading, writing, speaking and listening.

SPN 1131 Beginning Spanish 2 5 Credits
Grading Scheme: Letter Grade
Second in the basic Spanish language sequence, continuing development of basic communication skills in reading, writing, speaking and listening.

SPN 1134 Accelerated Spanish Review 5 Credits
Grading Scheme: Letter Grade
Provides a rapid review of basic communicative Spanish as preparation for intermediate Spanish courses. For those with previous Spanish study but insufficient placement scores to move to the 2000 level.

SPN 1180 Elementary Spanish: Review and Progress 3 Credits
Grading Scheme: Letter Grade
Alternative to SPN 1130, for students who have previous experience in Spanish. Covers the material of SPN 1130 and meets three times weekly. SPN 1131 follows this course.
Prerequisite: refer to placement section. Not open to bilingual speakers of Spanish.

SPN 2200 Intermediate Spanish 1 3 Credits
Grading Scheme: Letter Grade
First of the intermediate Spanish language sequence. Develops intermediate skills in reading, writing, speaking and listening. Builds communicative competence and enhances social and cultural awareness of the Spanish-speaking world. Taught entirely in Spanish.

SPN 2201 Intermediate Spanish 2 3 Credits
Grading Scheme: Letter Grade
Second course in the intermediate Spanish language sequence. Continues development of intermediate skills in reading, writing, speaking and listening. Continues to enhance communicative competence and social and cultural awareness. Taught entirely in Spanish.
Prerequisite: SPN 2200 with a minimum grade of C or the equivalent placement scores on SAT II, IB or AP tests or the equivalent placement score or the equivalent coursework as approved by the undergraduate coordinator. Not open to bilingual speakers of Spanish.

SPN 2240 Intensive Communication Skills 3 Credits
Grading Scheme: Letter Grade
Develops the ability to understand oral and written Spanish and is required of all majors and minors who are not bilinguals, unless they initially placed above this level. Preparation for 3000-level courses.
Prerequisite: SPN 2201 with a minimum grade of C or the equivalent placement scores on SAT II, IB or AP tests or the equivalent placement score or the equivalent coursework as approved by the undergraduate coordinator. Not open to bilingual speakers of Spanish.

SPN 2270 Intermediate Spanish Abroad 3 Credits
Grading Scheme: Letter Grade
Equivalent to SPN 2240, the obligatory first course in the Spanish major and minor for non-bilinguals. Preparation for upper-division Spanish courses. Promotes cultural awareness and develops an active command of the language by means of intensive interaction with the people and current issues and events of the Spanish-speaking host city and surrounding area.
Prerequisite: SPN 2201 or the equivalent placement scores on SAT II, IB or AP tests, and undergraduate coordinator permission.

SPN 2271 Accelerated Intermediate Spanish Abroad 3 Credits
Grading Scheme: Letter Grade
Students acquire intermediate communicative skills in Spanish through interaction in Spanish-speaking communities. Offered abroad only, course depends on intensive language immersion for successful acquisition in a shortened period of time. Successful completion is comparable to having passed SPN 2200 and SPN 2201.
Prerequisite: SPN 1131 or SPN 1134 with a minimum grade of C or the equivalent placement scores on SAT II, IB or AP tests.

SPN 2340 Introduction to Reading and Writing Spanish for Heritage Learners 3 Credits
Grading Scheme: Letter Grade
Intermediate-level course for heritage learners with some speaking and listening ability from exposure outside the classroom but with little or no formal exposure to the language. Emphasizes reading and vocabulary, introduces grammar and orthographic rules.
Prerequisite: placement test or department-administered test for Heritage Learners.

SPN 2442 Intensive Intermediate Spanish for Business 3 Credits
Grading Scheme: Letter Grade
An intensive intermediate-level course for students interested in learning Spanish in the context of the business world. Includes business vocabulary and business practices in the Hispanic world.
Prerequisite: SPN 1131 or the equivalent.

SPN 2471 Accelerated Spanish Abroad 1-5 Credits
Grading Scheme: Letter Grade
Reviews major aspects of grammar in a context that enhances understanding of the Spanish or Spanish-American way of life and modes of expression. Reading comprehension and composition are developed through readings on diverse topics related to Latin America and Spain.
Prerequisite: SPN 2200 or the equivalent placement scores on SAT II, IB, or AP tests, and section coordinator or undergraduate advisor permission.

SPN 3036 Spanish for Health Professions 3 Credits
Grading Scheme: Letter Grade
Provides students with the linguistic and cultural skills necessary for effectively treating Spanish-speaking patients with medical emergencies, illnesses and other health issues.
Prerequisite: SPN 3300 or SPN 3350 with minimum grade of C, or equivalent linguistic knowledge as determined by instructor.

SPN 3224 Applied Spanish 1-5 Credits
Grading Scheme: Letter Grade
Spanish-language section designed to accompany and complement courses offered in other departments. Readings and discussions are in Spanish to develop vocabulary and fluency related to the content of the companion course and to provide an international perspective on the issues of the main course. (N)
Prerequisite: SPN 3300 or SPN 3350, or undergraduate coordinator permission.
Attributes: General Education - International

SPN 3300 Spanish Grammar and Composition 1 3 Credits
Grading Scheme: Letter Grade
Intensive language course to develop mastery of grammatical principles, increase vocabulary and enhance writing and composition skills. This course (or SPN 3350 for bilingual speakers) is a prerequisite for most 3000/4000-level Spanish courses.
Prerequisite: SPN 2240; can be taken concurrently with SPN 2240 or SPN 3301. Not open to bilingual speakers of Spanish.

SPN 3301 Spanish Grammar and Composition 2 3 Credits
Grading Scheme: Letter Grade
Continues review of Spanish grammar begun in SPN 3300 and concentrates on intensive writing practice in expository Spanish. Highly recommended for Spanish majors and minors who are not taking the bilingual sequence; a prerequisite for SPN 4420, Advanced Composition and Syntax.
Prerequisite: SPN 3300; can be taken concurrently with SPN 3300. Not open to bilingual speakers of Spanish.

SPN 3350 Spanish Grammar and Composition for Heritage Learners 3 Credits
Grading Scheme: Letter Grade
Emphasizes aspects of the language and grammar for those who have learned Spanish through exposure outside the classroom in addition to some formal exposure in school settings, and whose speaking and comprehension abilities are generally more developed than their writing and reading skills.
Prerequisite: placement test or department-administered test for heritage learners or heritage program coordinator permission or SPN 2340 with minimum grade of B.

SPN 3392 Spanish Conversation, Film and Culture 3 Credits
Grading Scheme: Letter Grade
Enhances students' oral skills in Spanish through movie reviews, oral reports, debates and class discussions. Introduces students to current social, economic and political issues in Latin-America and Spain through the critical analysis of contemporary Spanish-language films.
Prerequisite: SPN 2240 or placement test. Not open to bilingual speakers of Spanish.

SPN 3414 Advanced Spanish Conversation 2 3 Credits
Grading Scheme: Letter Grade
Authentic materials of the Hispanic world are used to improve listening, comprehension and speaking skills. Oral expression is used in conversation and in formal and informal presentations on a variety of topics.
Prerequisite: SPN 2240 or instructor permission. Not open to bilingual speakers of Spanish.

SPN 3440 Commercial Spanish 3 Credits
Grading Scheme: Letter Grade
An introduction to the vocabulary and business practices of the Hispanic world. Emphasis on oral and written business communications. Overview of cultural differences within the Hispanic world and between the U.S. and the Hispanic world, with emphasis on the business impact. (S and N)
Prerequisite: SPN 3300 or SPN 3350, or the equivalent as approved by the undergraduate coordinator.
Attributes: General Education - International, General Education - Social Science

SPN 3443 Marketing and Advertising in the Spanish-Speaking World 3 Credits
Grading Scheme: Letter Grade
An introduction to the related fields of marketing and advertising as they pertain to the Spanish-speaking world. Focuses on marketing campaigns and advertising strategies, in print and on television. Emphasis on the cultural element(s) and context(s) of marketing/advertising campaigns. Covers a representative sampling of Spanish-speaking countries, with special attention to Spain, Mexico, Argentina and the United States. Group work required for some class projects.
Prerequisite: SPN 2340 or SPN 3300, or instructor permission.

SPN 3451 Spanish Translation and Interpretation: Theory and Practice 3 Credits
Grading Scheme: Letter Grade
Provides an introduction to the theories and principles of translation and interpretation, combined with practice in English-to-Spanish and Spanish-to-English translations. Working individually and in groups, students will acquire translation techniques for a variety of genres, such as literary texts, letters, legal documents, newspapers, commercial advertisements, etc.
Prerequisite: SPN 3300 or SPN 3350 or the equivalent.

SPN 3472 Advanced Communicative Spanish Abroad 3 Credits
Grading Scheme: Letter Grade
Practical, in-class communication exercises in comprehension, speaking, reading and writing. Classroom activities are coordinated with homework to emphasize communication. The foreign setting also serves as a living language laboratory.
Prerequisite: SPN 2240 or SPN 2340, or placement scores on SAT II, IB, or AP tests, or equivalent coursework approved by the section coordinator or undergraduate advisor.

SPN 3510 Culture and Civilization of Spain 3 Credits
Grading Scheme: Letter Grade
A survey of Spanish history, customs and the arts from ancient times to the present; devotes considerable attention to life in contemporary Spain since the death of General Franco in 1975. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or equivalent coursework approved by the undergraduate coordinator.
Attributes: General Education - Humanities, General Education - International

SPN 3520 Culture and Civilization of Spanish America 3 Credits
Grading Scheme: Letter Grade
The rich and often conflicting diversity of the Americas as well as the historical experiences that allow us to speak of the Americas as a whole: The conquest, the colonial period, the struggles for independence against (neo)colonialism, the clashing and mixing of cultures, the yoke of slavery and servitude, the formation of rigid social hierarchies, and the frustrated search for democracy and economic development. These phenomena are followed in a variety of artistic media, from painting to poetry and from music to film. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or equivalent coursework approved by the undergraduate advisor.
Attributes: General Education - Humanities, General Education - International

SPN 3533 Spanish for Educators 3 Credits
Grading Scheme: Letter Grade
Designed for learners interested in teaching Spanish as a world language and/or increasing their linguistic and cultural expertise to work with educational stakeholders. Improve Spanish proficiency, learn methods for teaching Spanish, and gain awareness of Hispanic cultures as they relate to educational settings.
Prerequisite: SPN 3300 or SPN 3350.

SPN 3572 Revolving Topics Abroad 3-6 Credits
Grading Scheme: Letter Grade
Rotating topics focus on Spanish culture and civilization.

SPN 3700 Introduction to Hispanic Linguistics 3 Credits
Grading Scheme: Letter Grade
Initial overview of central theories and applications of linguistic analysis in the study of Spanish. The phonological, grammatical, discursive and social structures of Spanish are considered within five areas of popular inquiry in Hispanic linguistics: history of Spanish, language variation and change, Spanish in contact with other languages, political and educational linguistics, and acquisition of Spanish as a first and second language. Conducted entirely in Spanish and is a prerequisite for all 4000-level courses in Hispanic linguistics.
Prerequisite: SPN 3300 or SPN 3350.

SPN 3831 Spanish for the Legal Professions 3 Credits
Grading Scheme: Letter Grade
Prepares students for professional work in legal professions in a Spanish-speaking environment. Enables students to understand legal texts and arguments, write documents and express themselves using legal vocabulary. Covers a broad mix of practical legal terminology, vocabulary and conversational skills. Conducted entirely in Spanish.
Prerequisite: SPN 3300 or SPN 3350, or instructor permission.

SPN 3930 Topics in Spanish and Spanish American Culture and Civilization 3 Credits
Grading Scheme: Letter Grade
Variable topics in Latin American culture and civilization, including racial identity, feminism, regionalism, music, film, art, religion and sports.
Prerequisite: SPN 3300 or SPN 3350, or undergraduate advisor permission.

SPN 3948 Spanish in the Community 3 Credits
Grading Scheme: Letter Grade
Engages students in the local Spanish-speaking community through academic investigation and service work. Consists of classroom meetings, community projects outside of class, and reflective assignments; may be taken a maximum of one time on UF's campus and one time abroad.
Prerequisite: SPN 3300 OR SPN 3350.

SPN 4314 Advanced Spanish Composition and Structure for Heritage Learners 3 Credits
Grading Scheme: Letter Grade
Emphasizes aspects of Spanish style, syntax and registers that can be problematic for the heritage learner. Some prior formal training in the language is expected (SPN 3350 or equivalent in a Spanish-speaking country).
Prerequisite: SPN 3350 with minimum grade of B or placement test or department-administered test for heritage learners.

SPN 4420 Advanced Composition and Syntax 3 Credits
Grading Scheme: Letter Grade
Emphasizes the finer aspects of Spanish syntax, vocabulary and style that give the advanced student difficulties. Class discussion, drills and written compositions.
Prerequisite: SPN 3301 or the equivalent, and undergraduate coordinator permission. Not open to bilingual speakers of Spanish.

SPN 4713 Spanish Second Language Acquisition 3 Credits
Grading Scheme: Letter Grade
Overview of second language acquisition theory with discussion of empirical studies on the acquisition of Spanish. Emphasis on research design and the analysis of oral or written production of learners of Spanish.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010.

SPN 4780 Spanish Phonetics 3 Credits
Grading Scheme: Letter Grade
Focuses on the precise description of Spanish pronunciation with some attention to dialect features and contrastive English phonetics.
Prerequisite: (SPN 3300 or SPN 3350) and (SPN 3700 or LIN 3010).

SPN 4822 Sociolinguistics of the Spanish-Speaking World 3 Credits
Grading Scheme: Letter Grade
General overview of sociolinguistic issues of the contemporary Spanish-speaking world: language variation, language contact, discourse analysis, language attitudes, policy and planning, and social factors in language acquisition and use.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010.

SPN 4830 Introduction to Spanish and Spanish American Dialectology 3 Credits
Grading Scheme: Letter Grade
Principles and methods of dialectology applied to the study of regional varieties of Spanish in Spain and in Spanish America.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010.

SPN 4840 Introduction to the History of the Spanish Language 3 Credits
Grading Scheme: Letter Grade
The phonological, morphological, syntactic and semantic evolution of the Spanish language from Latin.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010 and SPN 4780.

SPN 4850 Introduction to the Structure of Spanish 3 Credits
Grading Scheme: Letter Grade
Explores syntactic, morphological and semantic aspects of the Spanish language.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010.

SPN 4851 Spanish Bilingualism 3 Credits
Grading Scheme: Letter Grade
Examines the internal and external factors that lead to and result from bilingualism in regions where Spanish is spoken. Organized into three primary components: social aspects; linguistic aspects; political and educational aspects.
Prerequisite: SPN 3700 or LIN 3010, or the equivalent.

SPN 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
For advanced majors and minors who seek independent work not offered in another course. Must be arranged individually with Spanish faculty. For honors thesis use SPN 4906.
Prerequisite: undergraduate coordinator permission.

SPN 4906 Honors Thesis 1-3 Credits
Grading Scheme: Letter Grade
Honors thesis preparation.

SPN 4911 Undergraduate Research in Spanish 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

SPN 4930 Revolving Topics in Linguistics and Culture 3 Credits
Grading Scheme: Letter Grade
Variable content provides opportunity for in-depth study of linguistic and cultural topics not offered in other courses and of topics of special current significance.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010.

SPN 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

SPT 3930 Topics in Latin American and Spanish Culture and Film 3 Credits
Grading Scheme: Letter Grade
Provides a broad survey of topics and issues pertaining to Latin American (including Brazilian) and Spanish contemporary culture through the analysis and interpretation of texts and films. Coursework is organized by country, theme, or genre on a rotating basis.
Prerequisite: any POW 3000 level course or any SPW 3000 level course or LIT 2000.

SPW 3030 Survey of Spanish-American Literature: From Discovery to Independence 3 Credits
Grading Scheme: Letter Grade
Overview of Spanish-American literature and its cultural context from the European conquest of the Americas to the 19th century. Introduces principal literary movements and authors, and trains students to read critically and to appreciate literary Spanish. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.
Attributes: General Education - Humanities, General Education - International

SPW 3031 Survey of Spanish-American Literature: From Independence to Contemporary Times 3 Credits
Grading Scheme: Letter Grade
End of the 19th century to the present. Introduces principal literary movements and authors, and trains students to read critically and to analyze literary Spanish. Reading of major authors who may include Borges, Garcia Marquez, Neruda, Fuentes and Ferre. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.
Attributes: General Education - Humanities, General Education - International

SPW 3100 Introduction to Spanish Literature 1 3 Credits
Grading Scheme: Letter Grade
Selected readings in epic, lyric, ballad and popular poetry, early forms of recreational and didactic prose and dramatic works from Spain's Medieval and Golden Ages are presented with attention to form and historical context. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.
Attributes: General Education - Humanities, General Education - International

SPW 3101 Introduction to Spanish Literature 2 3 Credits
Grading Scheme: Letter Grade
Provides an overview of Spanish literature and its cultural context from the 18th century to the present. Introduces principal literary movements and authors and trains students to read critically and to analyze literary Spanish. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.
Attributes: General Education - Humanities, General Education - International

SPW 4190 Seminar in Spanish-American Literature and Culture 3 Credits
Grading Scheme: Letter Grade
The advanced study of a writer, period, movement, region or topic of Spanish-American literature not ordinarily offered in the department. Refer to department website for specific description.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4213 Spanish Prose Fiction of the Golden Age 3 Credits
Grading Scheme: Letter Grade
Examines a literary landscape of rampant generic diversity before novelistic norms were solidified as known them today. Readings and lectures in Spanish.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4263 Readings in the Spanish Novel of the Nineteenth Century 3 Credits
Grading Scheme: Letter Grade
Readings in the Spanish novel of the 19th century. A survey of major authors from costumbrismo to the realism and naturalism of Galdos, Clarin and Pardo Bazan.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4270 Readings in Post-war Narrative 3 Credits
Grading Scheme: Letter Grade
Outstanding stories and novels of contemporary Spanish writers in relation to the historical and cultural context of post-civil war Spain.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4282 Readings in Contemporary Spanish-American Narrative 1 3 Credits
Grading Scheme: Letter Grade
The period of modernization of fiction and the development of new narrative modes in the 1940s and the 1950s; may include magical realism, the detective story and the new urban narratives.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4283 Readings in Contemporary Spanish-American Narrative 2 3 Credits
Grading Scheme: Letter Grade
The new narrative or the boom and post-boom of Latin-American fiction, 1960s to the present.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4310 Readings in Spanish Drama of the Golden Age 3 Credits
Grading Scheme: Letter Grade
Variable readings in Spanish Classical Theater by Lope de Vega, Pedro Calderon de la Barca, Tirso de Molina and others, including entremeses and Autos sacramentales. Focuses on the comedia's appeal to lettered and unlettered spectators and its potential for mass control and social protest.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4354 Readings in Contemporary Spanish-American Poetry 3 Credits
Grading Scheme: Letter Grade
A close reading and critical analysis of masterpieces by the major 20th-century poets of Spanish-America, including recent writers.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4364 Readings in the Spanish-American Essay 3 Credits
Grading Scheme: Letter Grade
Examination of major texts from the early 19th century to the present focusing on such themes as the search for identity and the definition of ethnic, racial, social and class categories.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4521 U.S. Hispanic Literature 3 Credits
Grading Scheme: Letter Grade
Reading, discussion and analysis of works by U.S. Hispanic or Latino/a writers with an examination of the cultural life and social conditions of the Puerto Rican, Cuban and Chicano communities in the U.S.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4532 Introduction to Spanish Romanticism 3 Credits
Grading Scheme: Letter Grade
By studying the canonical works of that moment (Rousseau, Feijoo, Cadalso, Jovellanos, Miranda, Bolivariable, Zorrilla, Rivas, Larra, Espronceda, Gomez de Avellaneda, Goya), the course explores the achievements, contradictions and failures of the enlightenment as well as the new organization by Romanticism in Spain and Latin America.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4604 Don Quixote 3 Credits
Grading Scheme: Letter Grade
A close reading of Cervantes' masterpiece that emphasizes the origins of the modern novel as a genre and its implication in the history of ideas.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4720 Readings in Spanish Literature from the Generation of 1898 to 1927 3 Credits
Grading Scheme: Letter Grade
A survey of turn-of-the-century Spanish crises from the perspective of the first generation of Spanish modernists. Authors include Unamuno, Costa, Machado, Valle-Inclin, Baroja and Ortega y Gassett.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4723 Readings in Spanish Literature from the Generation of 1927 to the Present 3 Credits
Grading Scheme: Letter Grade
Studies the development of Spanish literature in this century beginning with the brilliant poets of the generation of 1927, continuing with representative fiction, drama and poetry of the years after the Civil War and concluding with fiction and poetry of the 1990s.
Prerequisite: any one 3000-level SPW course or equivalent.

SPW 4780 Hispanic Women Writers 3 Credits
Grading Scheme: Letter Grade
A seminar dedicated to the exploration of literary works written in Spanish by women of Spain, Latin America and/or the United States.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4930 Revolving Topics in Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Variable content provides opportunity for in-depth study of literary and cultural topics not offered in other courses.
Prerequisite: any one 3000-level SPW course or the equivalent.

Speech, Language and Hearing Sciences

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

ASL 1110 American Sign Language 1 4 Credits
Grading Scheme: Letter Grade
First in a series on American Sign Language concepts and principles; introduces receptive and expressive skills in formal and informal interactions. Signs, fingerspelling, numbers, and classifiers are practiced in conversational and storytelling contexts. Also introduces ASL literature and cultural information.

ASL 1120 American Sign Language 2 4 Credits
Grading Scheme: Letter Grade
Second in a series on American Sign Language concepts and principles; develops receptive and expressive skills in formal and informal interactions. Signs, fingerspelling, numbers, classifiers, and indexing are practiced in conversational and storytelling contexts. Familiarization with ASL culture and literary genres continues.

ASL 1130 American Sign Language 3 3 Credits
Grading Scheme: Letter Grade
Advanced study of American Sign Language.

ASL 2510 Deaf Culture 1 Credit
Grading Scheme: Letter Grade
The pathological and cultural aspects of deaf people in language acquisition, education and compliance with accommodation issues.

COM 4930 Special Topics in Communication 3 Credits
Grading Scheme: Letter Grade
Seminar study of theory and research in a specific area of communication.
Prerequisite: COM 1000 or equivalent.

IDH 2931 Honors Seminar 3 Credits
Grading Scheme: Letter Grade
Special topics restricted to those in the university-wide Honors Program. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

LIN 3201 The Sounds of Human Language 3 Credits
Grading Scheme: Letter Grade
Emphasizes the sounds employed in languages of the world for a comprehensive understanding of the mechanism underlying the production of speech sounds and the ability to recognize, distinguish and phonetically transcribe speech sounds from an unfamiliar language. Includes investigation of the patterning and functions of sounds in languages of the world and application of the methods of analyzing a language sound system.
Prerequisite: LIN 3010.

LIN 4905 Individual Study in Linguistics 3 Credits
Grading Scheme: Letter Grade
Individual study for linguistics majors.

SPA 2109 Language Breakdown in the Brain 3 Credits
Grading Scheme: Letter Grade
Introduces brain structures as they relate to language development and use. Also emphasizes the effects of damage or developmental anomalies in different brain areas. (B)
Attributes: General Education - Biological Science

SPA 3003 Phonetic Theory and Transcription 3 Credits
Grading Scheme: Letter Grade
Introduces human speech production, classification, and transcription. Also provides intensive training in the use of the International Phonetics Alphabet for transcribing American English.
Prerequisite: COM 1000 or equivalent.

SPA 3011 Speech Acoustics 3 Credits
Grading Scheme: Letter Grade
Introduces scientific methodologies, physics of sound, acoustics and elementary instrumentation related to human speech communication.
Prerequisite: communication sciences and disorders or health science major.

SPA 3032 Fundamentals of Hearing 3 Credits
Grading Scheme: Letter Grade
Concepts and principles relevant to the normal hearing processes: acoustics, gross anatomy, psychophysical methods and basic subjective correlates of the auditory system.

SPA 3101 Speech Anatomy and Physiology 3 Credits
Grading Scheme: Letter Grade
Introduces elementary anatomy, physiology and neurophysiology of the speaking mechanism.
Prerequisite: communication sciences and disorders or health science major.

SPA 3475 Deaf Culture in America 3 Credits
Grading Scheme: Letter Grade
Provides an overview of the lives and experiences of deaf and hard of hearing persons and examines the reasons why many deaf people consider themselves to belong to a unique cultural group. Discussions focus on deaf communities and cultures, signed languages, education, accessibility, literature, and other issues.
Prerequisite: (PSY 2012 and ASL 1110) or instructor permission.

SPA 3800 Critical Review of Scientific Evidence 3 Credits
Grading Scheme: Letter Grade
Provides scientific process concepts (inductive and deductive reasoning, foundations of inductive statistics, research design) as well as offering practice in critical thinking and avoiding the cognitive illusions that lead to invalid conclusions. The goal is to become critical consumers of information.
Prerequisite: STA 2023 or more advanced statistics course

SPA 4004 Language Development 3 Credits
Grading Scheme: Letter Grade
Study of language-based disorders of communication: language impairment in children, traumatic brain injury, aphasia and dementia.
Prerequisite: communication sciences and disorders or health science major.

SPA 4050 Clinical Observations in Speech-Language Pathology and Audiology 3 Credits
Grading Scheme: Letter Grade
Supervised clinical observations of diagnostics and remediation at the UF Speech and Hearing Clinic.
Prerequisite: senior standing.

SPA 4104 Neural Basis of Communication 3 Credits
Grading Scheme: Letter Grade
Understanding the structures and functions of the human nervous system and the neurological processes involved in communication and communication disorders.

SPA 4106 Neuroplasticity and Rehabilitation 3 Credits
Grading Scheme: Letter Grade
Introduces Foundational Knowledge About Neuroplasticity and How It Impacts Treatment Design and Implementation Across All Health Sciences. Also Introduces Different Types of Rehabilitation Approaches Offered By the Various Health Sciences.
Prerequisite: enrolled in a limited access BHS major or instructor permission.

SPA 4250 Introduction to Speech Disorders 3 Credits
Grading Scheme: Letter Grade
Studies speech-based disorders of communication: phonology, motor speech, resonation, voice and stuttering.
Prerequisite: LIN 3010 or SPA 3003 and SPA 3101.

SPA 4302 Audiometry and Hearing Disorders 3 Credits
Grading Scheme: Letter Grade
Basic techniques in pure-tone and speech audiometry, measurements of middle-ear function and test interpretation. Supervised clinical/laboratory experience in hearing testing.
Prerequisite: SPA 3032.

SPA 4321 Audiologic Rehabilitation 3 Credits
Grading Scheme: Letter Grade
Overview of aural rehabilitation and methods in auditory training and speech reading with hearing-impaired individuals.
Prerequisite: SPA 4302 or instructor permission.

SPA 4400 Introduction to Language Disorders 3 Credits
Grading Scheme: Letter Grade
Studies language-based disorders of communication: specific language impairment in children, traumatic brain injury, aphasia and dementia.
Prerequisite: SPA 4004 and SPA 4104.

SPA 4904 Individual Study 1-3 Credits
Grading Scheme: Letter Grade
A project, reading or research course.

SPA 4931 Honors in Communication Sciences and Disorders 1-3 Credits
Grading Scheme: Letter Grade
The design, implementation and reporting of an original research project.
Prerequisite: 3.5 overall GPA, a 3.75 GPA in the major and completion (including current enrollment) of 21 credits in the major.

SPC 3605 Speechwriting 3 Credits
Grading Scheme: Letter Grade
Consideration of and practice with word choice and word arrangement as sources of style that influence memorability, credibility, and ease and accuracy of comprehension.

SPC 4680 Rhetorical Criticism 3 Credits
Grading Scheme: Letter Grade
Critical analyses of rhetorical elements and processes in oratorical and non-oratorical forms.

Sport and Fitness Program

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

HLP 4933 Variable International Topics 1-6 Credits
Grading Scheme: Letter Grade
Provides the opportunity to study in a wide range of cultural settings.

PEN 1136 Openwater Scuba Diving 2 Credits
Grading Scheme: Letter Grade
Beginning scuba diving including compass navigation, openwater diving environment, dive preparation and five openwater dives. Payment of required additional course fees and successful completion results in national certification as Openwater Scuba Diver.
Prerequisite: swim test.

Statistics

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

STA 2023 Introduction to Statistics 1 3 Credits
Grading Scheme: Letter Grade
Graphical and numerical descriptive measures. Simple linear regression. Basic probability concepts, random variables, sampling distributions, central limit theorem. Large and small sample confidence intervals and significance tests for parameters associated with a single population and for comparison of two populations. Use of statistical computer software and computer applets to analyze data and explore new concepts. (M)
Attributes: General Education - Mathematics

STA 3024 Introduction to Statistics 2 3 Credits
Grading Scheme: Letter Grade
An introduction to the analysis of variance. Nonparametric statistical methods and applications. Analysis of count data: chi-square and contingency tables. Simple and multiple linear regression methods with applications.
Prerequisite: STA 2023 or the equivalent.

STA 3032 Engineering Statistics 3 Credits
Grading Scheme: Letter Grade
The basic concepts in probability and statistics with engineering applications. Topics include probability, discrete and continuous random variables, estimation, hypothesis testing, and linear and multiple regression. (M)
Prerequisite: MAC 2311.
Attributes: General Education - Mathematics

STA 4183 Theory of Interest 3 Credits
Grading Scheme: Letter Grade
Measurement of simple and compound interest, accumulated and present value. Annuities, yield rates, amortization schedules, sinking funds, bonds, securities and related funds.
Prerequisite: MAC 2312.

STA 4210 Regression Analysis 3 Credits
Grading Scheme: Letter Grade
Simple linear regression and multiple linear regression models. Inference about model parameters and predictions, diagnostic and remedial measures about the model, independent variable selection, multicolinearity, autocorrelation and nonlinear regression. SAS implementation of the above topics.
Prerequisite: STA 3024 or STA 3032 or (STA 4321 and STA 2023) or (MAS 3114 and STA 2023) or (MAS 4105 and STA 2023).

STA 4211 Design of Experiments 3 Credits
Grading Scheme: Letter Grade
The basic principles of experimental design: analysis of variance for experiments with a single factor; randomized blocks and Latin square designs: multiple comparison of treatment means; factorial and nested designs; analysis of covariance; response surface methodology.
Prerequisite: STA 4210.

STA 4222 Sample Survey Design 3 Credits
Grading Scheme: Letter Grade
An introduction to the design of sample surveys and the analysis of survey data, the course emphasizes practical applications of survey methodology. Topics include sources of errors in surveys, questionnaire construction, simple random, stratified, systematic and cluster sampling, ratio and regression estimation, and a selection of special topics such as applications to quality control and environmental science.
Prerequisite: STA 4321 and either STA 2023 or STA 3032 or STA 4322.

STA 4321 Introduction to Probability 3 Credits
Grading Scheme: Letter Grade
Introduction to the theory of probability, counting rules, conditional probability, independence, additive and multiplicative laws, Bayes Rule. Discrete and continuous random variables, their distributions, moments and moment generating functions. Multivariate probability distributions, independence, covariance. Distributions of functions of random variables, sampling distributions, central limit theorem.
Prerequisite: MAC 2313 with a minimum grade of C.

STA 4322 Introduction to Statistics Theory 3 Credits
Grading Scheme: Letter Grade
Sampling distributions, central limit theorem, estimation, properties of point estimators, confidence intervals, hypothesis testing, common large sample tests, normal theory small sample tests, uniformly most powerful and likelihood ratio tests, linear models and least squares, correlation. Introduction to analysis of variance.
Prerequisite: STA 4321 or the equivalent.

STA 4502 Nonparametric Statistical Methods 3 Credits
Grading Scheme: Letter Grade
Introduction to nonparametric statistics, including one- and two-sample testing and estimation methods, one- and two-way layout models and correlation and regression models.
Prerequisite: STA 2023 or STA 3032 or STA 4210 or STA 4322.

STA 4504 Categorical Data Analysis 3 Credits
Grading Scheme: Letter Grade
Description and inference using proportions and odds ratios, multi-way contingency tables, logistic regression and other generalized linear models, log-linear models applications.
Prerequisite: STA 3024 or STA 3032 or STA 4210 or STA 4322.

STA 4702 Multivariate Statistical Methods 3 Credits
Grading Scheme: Letter Grade
Review of matrix theory, univariate normal, t, chi-squared and F distributions and multivariate normal distribution. Inference about multivariate means including Hotelling's T2, multivariate analysis of variance, multivariate regression and multivariate repeated measures. Inference about covariance structure including principal components, factor analysis and canonical correlation. Multivariate classification techniques including discriminant and cluster analyses. Additional topics at the discretion of the instructor, time permitting.
Prerequisite: (STA 3024 or STA 4210 or STA 4322 or STA 6127 or STA 6167) and either MAS 3114 or MAS 4105 or the equivalent.

STA 4712 Introduction to Survival Analysis 3 Credits
Grading Scheme: Letter Grade
Survival analysis data methods including Kaplan-Meier and Nelson estimators of the survival, accelerated failure time and proportional hazards models and frailty and recurrent event models.
Prerequisite: STA 4210.

STA 4821 Stochastic Processes 3 Credits
Grading Scheme: Letter Grade
Theoretical development of elementary stochastic processes, including Poisson processes and their generalizations, Markov chains, birth and death processes, branching processes, renewal processes, queuing processes and genetic and ecological processes.
Prerequisite: STA 4321 or equivalent.

STA 4853 Introduction to Time Series and Forecasting 3 Credits
Grading Scheme: Letter Grade
Stationarity, autocorrelation, ARMA models; frequency domain methods and the spectral density; forecasting methods; and computationally-oriented application to case studies.
Prerequisite: STA 4210 and STA 4321.

STA 4905 Individual Work 1-5 Credits
Grading Scheme: Letter Grade
Special topics designed to meet the needs and interests of individual students.
Prerequisite: department permission.

STA 4911 Undergraduate Research in Statistics 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

STA 4930 Special Topics 3 Credits
Grading Scheme: Letter Grade
Variable topics designed to meet the students' needs and interests.
Prerequisite: department permission.

STA 4940 Internship 1-3 Credits
Grading Scheme: S/U
Supervised activity associated with planning and/or analyzing data from a research project. Supervision by a faculty member or delegated authority and a post-internship written report are required. (S-U)
Prerequisite: STA 4211 and undergraduate coordinator permission.

Sustainability and the Built Environment

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

DCP 3200 Methods of Inquiry for Sustainability and the Built Environment 3 Credits
Grading Scheme: Letter Grade
The breadth of methods of inquiry (the process of asking and then answering questions) commonly used by planners, designers and builders as well as those who study the built and managed environments.
Prerequisite: BCN 1582 or IDS 2154, or a course approved in the topic area.

DCP 3210 Sustainable Solutions for the Built Environment 3 Credits
Grading Scheme: Letter Grade
Uses case studies to examine how sustainability can be achieved in the built environment, from choosing materials and finishes to patterns of regional land use.
Prerequisite: BCN 1582 or IDS 2154, or a course approved in the topic area.

DCP 3220 Social and Cultural Sustainability and the Built Environment 3 Credits
Grading Scheme: Letter Grade
Explores the importance of considering the human users of the built environment when searching for sustainable solutions. Examines social, behavioral and multicultural perspectives related to social sustainability.
Prerequisite: BCN 1582 or IDS 2154, or a course approved in the topic area, and junior or senior standing.

DCP 4290 Capstone Project in Sustainability and the Built Environment 6 Credits
Grading Scheme: Letter Grade
Undertake an individual project under the direction of a faculty member, with a focus on comprehensive solutions to a problem in sustainability.
Prerequisite: DCP 4941.

DCP 4911 Undergraduate Research in Design, Construction, and Planning. 0-3 Credits
Grading Scheme: S/U
Undertake firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, creativity, discovery or application. (S-U)

DCP 4941 Practicum in Sustainability and the Built Environment 6 Credits
Grading Scheme: Letter Grade
Students from diverse backgrounds engage in service and learning through the development of sustainable solutions to challenges in the built environment.
Prerequisite: DCP 3210 and DCP 3220.

DCP 4942 Field Experience in Sustainability and the Built Environment 1-6 Credits
Grading Scheme: S/U
Field experience with a government, non-government or private office that focuses on issues of sustainability.
Prerequisite: DCP 3210.

Swahili | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

SSW 3303 Swahili Oral Literature 3 Credits
Grading Scheme: Letter Grade
Introduces various genres of Swahili oral literatures and shows their importance, relevance and function within Swahili culture.

SWA 1130 Beginning Swahili 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

SWA 1131 Beginning Swahili 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: SWA 1130 with minimum grade of C, or S, or the equivalent.

SWA 2200 Intermediate Swahili 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: SWA 1131 with minimum grade of C or S, or the equivalent.

SWA 2201 Intermediate Swahili 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: SWA 2200 with minimum grade of C or S, or the equivalent.

SWA 3410 Advanced Swahili 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: SWA 2201 with minimum grade of C, or the equivalent.

SWA 3411 Advanced Swahili 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study of the four skills with attention to more complex structures.
Prerequisite: SWA 3410 with minimum grade of C, or S, or the equivalent.

SWA 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course.
Prerequisite: instructor permission.

SWW 4100 Readings in Swahili 3 Credits
Grading Scheme: Letter Grade

Telecommunication

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Students who have not been admitted to the College of Journalism and Communications must have a 3.0 overall grade point average to enroll in any course other than RTV 2100, RTV 3405, RTV 3601, and RTV 4420.

Entry into the broadcast news sequence is limited to students in the Department of Telecommunication who have taken a competitive entrance exam. Contact the department office for the examination date.

Courses

JOU 3002 Understanding Audiences 3 Credits
Grading Scheme: Letter Grade
Overview of the nature of media audiences and their behaviors, as well as industry measurement practices and applications.
Prerequisite: Junior standing.

MMC 1009 Introduction to Media and Communications 1 Credit
Grading Scheme: Letter Grade
Introduces the tools, resources and academic and extra-curricular activities offered by the College of Journalism and Communications. Includes lessons on the history and organization of the college and academic and career preparation.
Prerequisite: 1JM or exploratory major, 2JM, or 3JM classification, or instructor approval.

MMC 2121 Writing Fundamentals for Communicators 3 Credits
Grading Scheme: Letter Grade
One-third of the course is to ensure students have sufficient skill in grammar and punctuation to write with clarity. In two-thirds of the course, students put principles of good writing into practice with short writing assignments that have real-world applications.

MMC 2740 Introduction to Media and Sports 1 Credit
Grading Scheme: Letter Grade
Introduces sports professions relative to opportunities, responsibilities and current issues involving sports media professionals. Topics include distinctions among careers in sports media, including sports journalism and communications, values, ethics and issues related to race, gender and sexual orientation, and emerging media.

MMC 3030 Personal Branding for Communicators 1 Credit
Grading Scheme: Letter Grade
Professional development course that stresses how to communicate and connect as professionals. Emphasizes mastery of writing, speaking, presentation and employment-seeking skills, working with media, handling media interviews and using social media to establish a professional identity.
Prerequisite: 3JM designation.

MMC 3203 Ethics and Problems in Mass Communications 3 Credits
Grading Scheme: Letter Grade
A cross-disciplinary introduction to ethics-relevant situations faced by media professionals. Topics include professional standards of conduct, audience representation and engagement and issues associated with the production, presentation and delivery of messages that reflect the best interests of audiences, clients and stakeholders.
Prerequisite: 2JM designation and ADV 3008, JOU 1001, PUR 3000 or RTV 3001 with minimum grade of C.

MMC 3210 Sports Media Law and Ethics 3 Credits
Grading Scheme: Letter Grade
Instruction and analysis of laws, cases and legal and ethical issues related to sports and media. Gain a working knowledge of legal and ethical issues and recent court decisions, and develop critical analytical perspectives on actual examples of recent sports media legal and ethical problems.
Prerequisite: Junior standing.

MMC 3254 Media Entrepreneurship 1 Credit
Grading Scheme: Letter Grade
Introduces media entrepreneurship with a focus on how digital technologies are transforming industries. Students work in teams to develop new digital media businesses. Develop and pitch ideas, explore market analysis, develop business and financial plans and study social media strategies.
Prerequisite: sophomore standing.

MMC 3260 Communications on the Internet 3 Credits
Grading Scheme: Letter Grade
History, development and current state of online communications from teletext to the World Wide Web. Focuses on how online services relate to mass media in the past, present and future. Analyzes content methods, audiences and income sources. Create online projects related to mass communication.
Prerequisite: 3JM designation or instructor permission.

MMC 3420 Consumer and Audience Analytics 3 Credits
Grading Scheme: Letter Grade
Provides practical analytical skill-sets, benefiting those who plan careers in analytics/research, social media, media business, advertising/marketing and public relations.
Prerequisite: Junior standing.

MMC 3614 Media and Politics 3 Credits
Grading Scheme: Letter Grade
Provides an understanding of the role of the media in the political system. Topics include televised debates, political advertising, political journalism, Internet and alternative media.

MMC 3630 Social Media and Society 3 Credits
Grading Scheme: Letter Grade
Explores the structure and consequences of the growing presence of social media networks. Addresses such areas as privacy, democracy, health care, commerce, entertainment, and journalism.
Prerequisite: Junior standing.

MMC 4302 World Communication Systems 3 Credits
Grading Scheme: Letter Grade
Theoretical bases of world mass media systems, international channels of communications, analysis of press and broadcasting systems by regional and national categories.

RTV 2100 Writing for Electronic Media 3 Credits
Grading Scheme: Letter Grade
A preprofessional course designed to provide fundamental instruction and practice in writing for the electronic media.
Prerequisite: 6 credits of English composition, sophomore standing or above, and the ability to type 20 words per minute.

RTV 3001 Introduction to Media Industries and Professions 3 Credits
Grading Scheme: Letter Grade
Introduces the cultural, social, legal, business and career aspects of the electronic media.

RTV 3101 Advanced Writing for Electronic Media 3 Credits
Grading Scheme: Letter Grade
Study and practice of electronic media writing, including commercials, corporate communication, documentaries, drama and adaptations. (WR)
Prerequisite: RTV 2100 or MMC 2100 and RTV 3001 with minimum grades of C and sophomore standing or higher in telecommunication.
Attributes: Satisfies 6000 Words of Writing Requirement

RTV 3320 Electronic Field Production 3 Credits
Grading Scheme: Letter Grade
Advanced electronic field production and editing theory and practice.
Prerequisite: RTV 3101 and RTV 3511 with minimum grades of C.

RTV 3405 Media and Society 3 Credits
Grading Scheme: Letter Grade
Examines the structure and effects of television in such areas as politics gender race and violence. Discusses criteria for evaluating television content. (S)
Attributes: General Education - Social Science

RTV 3411 Race, Gender, Class and the Media 3 Credits
Grading Scheme: Letter Grade
Analyzes issues confronting the communications industries, professionals and media audiences in relation to the context of global and national diversity.

RTV 3502C Introduction to Sports Production 3 Credits
Grading Scheme: Letter Grade
Prepares for Sports Broadcasting Production by developing professional skills specific to sports media. Through active participation and hands-on experiences, sharpen storytelling skills and develop shooting and editing abilities. Covers multiple sports, providing opportunities to create diversified content for professional portfolios.
Prerequisite: (VIC 3001 or JOU 3220C) and (MMC 2121 or JOU 3101 or RTV 2100).

RTV 3511 Fundamentals of Production 3 Credits
Grading Scheme: Letter Grade
Basic principles and operations of radio and television equipment for utilization in industry and commercial and educational radio television stations. Students are required to purchase special computer equipment.
Prerequisite: RTV 2100 or MMC 2100 or JOU 3109C and RTV 3001 with minimum grades of C.

RTV 3516 Electronic Field Production II 4 Credits
Grading Scheme: Letter Grade
Gives career-path communication students advanced instruction in the use of digital audio and video production tools as well as the fundamentals of effective visual storytelling.
Prerequisite: RTV 3320 with a grade of C or better;
Corequisite: RTV 4929C.

RTV 3593 Multimedia Sports Reporting 3 Credits
Grading Scheme: Letter Grade
Instruction and training in sports information gathering and writing, interviewing and reporting. Special emphasis on enhancing sports writing skills, basic sports production for radio, generation of sports journalism for radio and the internet, and ethics and values of quality sports reporting.
Prerequisite: C or better in RTV 2100, MMC 2100, or JOU 3109C. Approval of Director of Sports Journalism and Communications in conjunction with sports personnel at WRUF-AM ESPN 850.

RTV 3945 Electronic Media Practicum 1-3 Credits
Grading Scheme: S/U
Provides an immersive experience in one or more areas of electronic media operations, such as program production, journalism, audience research, sales or promotions. (S-U)
Prerequisite: instructor permission.

RTV 4420 New Media Systems 3 Credits
Grading Scheme: Letter Grade
New electronic media systems of mass communication in cable television and satellite communication.
Prerequisite: RTV 2100 or MMC 2100 and RTV 3001 with minimum grade of C and junior standing, or instructor permission.

RTV 4432 Ethics and Problems in Telecommunication 3 Credits
Grading Scheme: Letter Grade
Investigation and discussion of social problems, ethics and responsibilities in telecommunication.
Prerequisite: RTV 2100, RTV 3001, RTV 3405 and junior standing.

RTV 4500 Telecommunication Programming 3 Credits
Grading Scheme: Letter Grade
Audience, economic and placement considerations in scheduling programs for broadcast radio, television and cable television, and other electronic media of mass communication. This course must be completed before enrolling in RTV 4800.
Prerequisite: RTV 2100 or MMC 2100 and RTV 3001 with minimum grades of C.

RTV 4506 Telecommunication Research 3 Credits
Grading Scheme: Letter Grade
Techniques in telecommunication research. Strategies of analysis of audience attitudes and characteristics, and ascertainment of community needs. Emphasis on survey research, sampling techniques and interpretation of market and ratings data.
Prerequisite: RTV 4500 with minimum grade of C.

RTV 4590 Digital Games in Communications 3 Credits
Grading Scheme: Letter Grade
Focuses on the application of digital games in the communication fields including journalism (news games), entertainment (transmedia storytelling/alternate reality game), advertising (advergames), and other fields such as education, health, and politics.
Prerequisite: junior standing.

RTV 4591 Applications of Mobile Technology 3 Credits
Grading Scheme: Letter Grade
Review of developments of mobile devices and use these tools in the creation and distribution of content. Instruction in developing apps.
Prerequisite: junior standing.

RTV 4700 Telecommunication Law and Regulation 3 Credits
Grading Scheme: Letter Grade
Legal structure and regulation of telecommunications industries, First Amendment and regulatory constructs of broadcast, cable satellite and the Internet, and defamation libel and copyright law.
Prerequisite: RTV 2100 or MMC 2100 and RTV 3001 with minimum grade of C.

RTV 4800 Telecommunication Planning and Operations 3 Credits
Grading Scheme: Letter Grade
Organization and administration of the local telecommunication outlet, including personnel supervision, financial control, regulatory requirements and social responsibilities.
Prerequisite: RTV 4500 and (RTV 4506 or MMC 3420).

RTV 4811 Innovation in Media 3 Credits
Grading Scheme: Letter Grade
Overview of the processes and practice innovation and entrepreneurship as applied to the mass communication industries.
Prerequisite: RTV 2100 and RTV 3001.

RTV 4905 Individual Projects in Telecommunication 1-3 Credits
Grading Scheme: Letter Grade
The student and the instructor choose a problem or project that will give the student experience in telecommunication.
Prerequisite: 10 credits minimum of junior/senior-level telecommunication courses, and instructor and department permission.

RTV 4910 Telecommunication Undergraduate Research 0-3 Credits
Grading Scheme: S/U
Provides an opportunity for firsthand, supervised research. "Research" is defined as mentored, but self-directed, work that enables individuals or a small group to explore an issue of interest to them and to communicate the results to others. (S-U)
Prerequisite: RTV 2100 or MMC 2100 or JOU 3109C and RTV 3001 with minimum grades of C or instructor permission.

RTV 4929C Senior Advanced Workshop in Telecommunication Production 1-3 Credits
Grading Scheme: Letter Grade
Requires three hours per week outside of class for work at assigned production sites. Emphasis is on producing sophisticated video productions in various formats, including drama, sports, documentaries and corporate communication. Topics can include concept development and scriptwriting, directing, advanced camera and lighting techniques, post-production and special effects/graphics.
Prerequisite: RTV 3101, RTV 3511 and RTV 3320 with minimum grades of C, and instructor permission.

RTV 4930 Special Study in Telecommunication 1-3 Credits
Grading Scheme: Letter Grade
Variable content, providing opportunity for study in areas of broadcasting such as television staging and lighting, film criticism, communication theory and other fields.
Prerequisite: instructor permission.

RTV 4940 Telecommunication Internship 1-4 Credits
Grading Scheme: S/U
Student and instructor will select an appropriate work area related to the field of broadcasting for on-the-job training. Student will work a minimum of 100 hours on the job for every credit to be received. Progress reports and summary required. (S-U)
Prerequisite: appropriate professional courses, a 2.5 GPA and department permission.

RTV 4959C Sports Capstone 3 Credits
Grading Scheme: Letter Grade
Integrates material from previous courses and requires each student to prepare a final project as well as a comprehensive e-portfolio to assist the student in a job search. Prepares students to perform satisfactorily in entry-level sports communication and media positions.
Prerequisite: PUR 3463 and JOU 4313C with minimum grades of C.

VIC 3001 Sight, Sound and Motion 4 Credits
Grading Scheme: Letter Grade
Visual literacy is a prerequisite for success in most areas of mass communication. Teaches fundamentals of design across print, web and multimedia platforms. Also emphasizes how visual forms convey messages to readers.
Prerequisite: sophomore standing.

Theatre and Dance

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

DAA 1000 Fundamentals of Dance Technique 3 Credits
Grading Scheme: Letter Grade
Practice and principles of fundamentals and stylistic characteristics common to ballet, jazz and modern dance. (H)
Attributes: General Education - Humanities

DAA 2104 Basic Modern Dance 2 Credits
Grading Scheme: Letter Grade
Experience in beginning level technique, readings, observations and movement exploration.
Prerequisite: DAA 1000 with minimum grade of C, or audition.

DAA 2204 Basic Ballet 2 Credits
Grading Scheme: Letter Grade
Basic ballet technique with discussion of terminology and history.
Prerequisite: DAA 1000 with minimum grade of C, or audition.

DAA 2331 West African Dance and Music 2 Credits
Grading Scheme: Letter Grade
Introduces traditional West African dance and music. Focuses on the learning of material emphasizing practice and performance with application to classroom and outreach-oriented projects.

DAA 2381 World Dance and Intercultural Performance 3 Credits
Grading Scheme: Letter Grade
Introduces the performance of traditional and popular dance styles representing a selection of world dance perspectives. Emphasizing practice and performance, the course examines dance forms in relation to their specific cultural contexts. Readings, video viewing and class projects enhance laboratory exploration. (H and N)
Prerequisite: dance major/minor or audition.
Attributes: General Education - Humanities, General Education - International

DAA 2504 Basic Jazz 2 Credits
Grading Scheme: Letter Grade
Basic jazz technique with emphasis on style, movement skills and vocabulary.
Prerequisite: DAA 1000 with minimum grade of C, or audition.

DAA 2610 Dance Composition 1 2 Credits
Grading Scheme: Letter Grade
Introduces improvisation and composition with emphasis on process and movement elements. Solo choreography.
Prerequisite: DAA 2104 or instructor permission.

DAA 2611 Dance Composition 2 2 Credits
Grading Scheme: Letter Grade
Practice and study of basic compositional crafting, emphasizing solo and small group works.
Prerequisite: DAA 2610 or instructor permission.

DAA 3108 Intermediate Modern Dance 2 Credits
Grading Scheme: Letter Grade
Experience in intermediate level technique, readings, observations and movement exploration exercises.
Prerequisite: audition.

DAA 3113 Modern Dance for the Theatre 3-2 3 Credits
Grading Scheme: Letter Grade
Offered in Miami only.

DAA 3114 Modern Dance 3 3 Credits
Grading Scheme: Letter Grade

DAA 3208 Intermediate Ballet 2 Credits
Grading Scheme: Letter Grade
Intermediate ballet technique with discussion of terminology and theory.
Prerequisite: audition.

DAA 3224 Pointe 1 Credit
Grading Scheme: Letter Grade
Instruction in pointe technique with the study of variations from classical ballet repertory.
Prerequisite: DAA 3208 or higher, and faculty permission.

DAA 3508 Intermediate Jazz 2 Credits
Grading Scheme: Letter Grade
Intermediate level classes in jazz combining technique, style and movement skills.
Prerequisite: audition.

DAA 3524 Tap 2 Credits
Grading Scheme: Letter Grade
Basic and intermediate techniques of musical theatre styles and choreography.
Prerequisite: audition.

DAA 3614 Dance Composition 3 2 Credits
Grading Scheme: Letter Grade
Practice and study in choreography with focus on various compositional styles, both traditional and nontraditional.
Prerequisite: DAA 2611 or instructor permission.

DAA 3615 Dance Composition 4 2 Credits
Grading Scheme: Letter Grade
Practice and study in choreography of group works, including theory and aesthetics.
Prerequisite: DAA 3614 or instructor permission.

DAA 3634 Commercial Choreography 2 Credits
Grading Scheme: Letter Grade
Practice and study in choreography with focus on various compositional styles, both traditional and nontraditional.
Prerequisite: DAA 2611 or instructor permission.

DAA 4110 Advanced Modern Dance 2 Credits
Grading Scheme: Letter Grade
Advanced level techniques, readings, observation, informal performance and movement exploration exercises.
Prerequisite: audition.

DAA 4112 Modern Dance for the Theatre 4-2 3 Credits
Grading Scheme: Letter Grade
Offered in Miami only.

DAA 4210 Advanced Ballet 2 Credits
Grading Scheme: Letter Grade
Advanced ballet technique with discussion of terminology and style.
Prerequisite: audition.

DAA 4510 Advanced Jazz 2 Credits
Grading Scheme: Letter Grade
Teaches advanced-level jazz technique and style, including a study of style variations, readings, observations, movement projects and choreography.
Prerequisite: audition.

DAA 4685 Dance Ensemble 1 Credit
Grading Scheme: Letter Grade
Experience in dance ensemble: preparation, performance and production.
Prerequisite: audition.

DAA 4755 Pilates Technique for the Dancer 1-3 Credits
Grading Scheme: Letter Grade
Systematic achievement of strength, tone, flexibility and posture for optimal physical performance in dance. May be repeated with a change of content up to six credits.
Corequisite: junior or senior level dance major or instructor permission.

DAA 4920 Summer Dance Intensive 1-6 Credits
Grading Scheme: Letter Grade
An intensive workshop including technique (ballet, jazz, modern, multicultural), improvisation, composition, repertory, production work and culminating in performance.
Prerequisite: audition.

DAA 4930 Special Topics in Dance 1-3 Credits
Grading Scheme: Letter Grade
Lecture, seminar or studio sessions covering selected topics of current interest in dance.
Prerequisite: instructor permission.

DAE 4300 Dance Teaching Methods 3 Credits
Grading Scheme: Letter Grade
Methods and skills for teaching in ballet, modern and jazz, including theory and practice.
Prerequisite: junior or senior level dance major/minor and instructor permission.

DAN 2100 Dance Appreciation for the Twenty-first Century 3 Credits
Grading Scheme: Letter Grade
A critical examination of dance as a form of communication and as an art; a cross-cultural survey of theories and styles of dance, their relationships to societal contexts and to other art forms. (H and N)
Attributes: General Education - Humanities, General Education - International

DAN 3614L Music for Dance 3 Credits
Grading Scheme: Letter Grade
Explores musical forms and their direct relationship to dance and dance-making. Includes basic music reading skills, creating sound scores, the basic elements of music and how to read and analyze scores as choreographers and musicians do.
Prerequisite: instructor permission.

DAN 3644 20th Century Music and Literature for Dance 2 Credits
Grading Scheme: Letter Grade
Offered in Miami only.

DAN 3775 Dance in Medicine 2-3 Credits
Grading Scheme: Letter Grade
This experiential course explores the links between the creative and the healing arts, focusing on the many ways that dance and movement can be used to enhance the healing process. It includes lecture/discussion, student workshops in dance and the other arts and laboratory experiences (3 hours/week for 2 credits, 6 hours/week for 3 credits) with Shands Hospital's Arts in Medicine program. This course is appropriate for students of the arts and/or of health related fields who are willing to access their creative potentials.
Prerequisite: instructor permission.

DAN 4124 Dance History 3 Credits
Grading Scheme: Letter Grade
Survey of the historical development of dance with reference to social contexts, periods and culture. (H and N)
Prerequisite: DAN 2100 with minimum grade of C or dance major/minor.
Attributes: General Education - Humanities, General Education - International

DAN 4154 Dance Criticism 2 Credits
Grading Scheme: Letter Grade
Offered in Miami only.

DAN 4155 Seminar in Dance Theory and Criticism 3 Credits
Grading Scheme: Letter Grade
Survey of theoretical and critical concepts of dance with emphasis on diversity of styles and concepts as set forth by professional dance companies.
Prerequisite: DAN 4124 and dance major.

DAN 4180 Professional Development for Dance 1 Credit
Grading Scheme: Letter Grade
Addresses crucial professional issues in dance. Student knowledge of technique, professional resources and networking, dance research, current events and professional presentation with experiences to prepare major for graduation into a career in dance.
Prerequisite: dance major.

DAN 4434 Laban Move Analysis 3 Credits
Grading Scheme: Letter Grade

DAN 4503 Dance Production 1 2 Credits
Grading Scheme: Letter Grade
Offered in Miami only.

DAN 4860L Dance Clinical Practice 1-3 Credits
Grading Scheme: Letter Grade
Offers practical clinical experience in the use of movement to enhance healing in a hospital or community setting. The student will work though Shands Arts in Medicine or a comparable program in individually contracted situations.
Prerequisite: DAN 3755 and instructor permission.

DAN 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
A reading, research, practical or creative project in an area of dance.
Prerequisite: instructor permission.

DAN 4912 Senior Dance Project 2 Credits
Grading Scheme: Letter Grade
Offered in Miami only.
Prerequisite: dance major and instructor permission.

DAN 4959 Senior Project 1-4 Credits
Grading Scheme: Letter Grade
A publicly presented project representing the culmination of the student's university experience and demonstrating a high level of competence in dance performance, choreography or production.
Prerequisite: instructor permission.

HUM 3599 Applied Theater for Health: Theory & Practice 3 Credits
Grading Scheme: Letter Grade
Immersion in the world of applied theatre for health education, community development, and social change. Develop an understanding of how theatre can be a catalyst for discussion, change, and health promotion by investigating the work of revolutionary artists, as well as contemporary applied theatre practitioners.
Prerequisite: Sophomore status or higher.

MVV 4341 Voice for Theatre 2 Credits
Grading Scheme: Letter Grade
Offered in Miami only.

ORI 2000 Oral Performance of Literature 1 3 Credits
Grading Scheme: Letter Grade
Introduces the presentational mode of interpreting literature with emphasis on the improvement and application of vocal skills.

THE 2000 Theatre Appreciation 3 Credits
Grading Scheme: Letter Grade
Studies history, literature, forms, styles and philosophies of theatre from a humanistic approach. (D and H)
Attributes: General Education - Diversity, General Education - Humanities

THE 3173 Contemporary European Theatre 3 Credits
Grading Scheme: Letter Grade
Introduces the theatre scene in present-day Western and Eastern Europe with emphasis on UK, France, Germany. Readings and discussions of dramatic literature and criticism.
Prerequisite: THE 2000 or THE 2020 and junior/senior level, or instructor permission.

THE 3231 African American Theatre History and Practice 3 Credits
Grading Scheme: Letter Grade
Examines origins and development of theatre by, for and about Black Americans
Prerequisite: THE 2000 or THE 2020.

THE 3234 Diversity and Multiculturalism in American Theatre 3 Credits
Grading Scheme: Letter Grade
Development of images of marginalized peoples as presented in the American Theatre from Colonial period to the present. (H and D)
Prerequisite: THE 2000 or THE 2020.
Attributes: General Education - Diversity, General Education - Humanities

THE 4110 History of Theatre on Stage 1 3 Credits
Grading Scheme: Letter Grade
Surveys the history of dramatic literature and stage performance from Greek and Roman times to the Restoration, including Japan and India. Concentrating on plays, theatrical spaces and performance practices of each era in the context of social and artistic movements. (H and N)
Prerequisite: THE 2000 or THE 2020.
Attributes: General Education - Humanities, General Education - International

THE 4111 History of Theatre on Stage 2 3 Credits
Grading Scheme: Letter Grade
Continues the survey of THE 4110 from the 18th century to the present, with featured segments on African and contemporary world theatre. Particular emphasis on the 19th century and the emergence of modernist movements: realism, expressionism, Artaud, Brecht. (H and N)
Prerequisite: THE 2000 or THE 2020.
Attributes: General Education - Humanities, General Education - International

THE 4260 Historic Costume for the Stage 3 Credits
Grading Scheme: Letter Grade
Examines the costume timeline, its relationship to the general climate of the era and its application by theatrical designers.

THE 4285 History of Decor and Architecture for the Stage 3 Credits
Grading Scheme: Letter Grade
Studies architecture and decor from prehistoric time to the 19th century as they reflect time and spirit in preparation for play production.

THE 4481 Production Dramaturgy 3 Credits
Grading Scheme: Letter Grade
Introduces the field and concepts of production dramaturgy. Includes script analysis, text editing, research, adaptation, new play development, season selection and programs. Students complete a production protocol.
Prerequisite: THE 2000 or THE 2020.

THE 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
A reading, research or performance project.
Prerequisite: instructor permission.

THE 4930 Special Topics in Theatre 1-3 Credits
Grading Scheme: Letter Grade
Lecture, seminar or studio sessions covering selected topics of current interest in theatre.
Prerequisite: instructor permission.

THE 4945 Summer Repertory Theatre 3-9 Credits
Grading Scheme: Letter Grade
Practical experience in repertory theatre with direct skills application in all areas of theatre production.
Prerequisite: instructor permission.

THE 4950 Production and Performance 1 Credit
Grading Scheme: Letter Grade
Participation in the production program of the curriculum with work in preparation and performance. Focus on area of specialization.
Prerequisite: instructor permission.

THE 4959 Senior Project 1-4 Credits
Grading Scheme: Letter Grade
Final project presented in public performance demonstrating expertise in declared area of specialization.
Prerequisite: BFA majors and instructor permission.

THE 4970 Senior Project 1 Credit
Grading Scheme: Letter Grade
Senior project for Bachelor of Arts theatre majors. Completion of a research project and/or preparation of a dramaturgical project to be undertaken with advisor's consent in the final semester.
Prerequisite: BFA majors and instructor permission.

TPA 2074 Drawing and Rendering 3 Credits
Grading Scheme: Letter Grade
Drawing and painting techniques unique to the theatre. Emphasis on portfolio development and media experimentation: watercolor, markers, charcoal and acrylics.

TPA 2075 Scene Painting 3 Credits
Grading Scheme: Letter Grade
Utilization of advanced and experimental techniques unique to theatre graphics; exploration of various media for 3-dimensional representation in scene and design and model building.
Prerequisite: TPA 2074.

TPA 2120C Beginning Makeup 1 Credit
Grading Scheme: Letter Grade
Introduces the skill and artistry of theatrical makeup.
Prerequisite: theatre or dance major/minor.

TPA 2202C Stagecraft 4 Credits
Grading Scheme: Letter Grade
Introduces skills and craft of technical theatre. Includes knowledge of materials, techniques, tools and supplies basic to the execution of environment. Course requires additional laboratory hours.
Prerequisite: theatre or dance major/minor.

TPA 2232C Beginning Costume 3 Credits
Grading Scheme: Letter Grade
Introduces skills and craft of costume design and execution. Knowledge of materials, techniques and tools basic to revelation of character.
Prerequisite: theatre/dance major or theatre production minor.

TPA 3208 Drawing/Drafting for the Stage 3 Credits
Grading Scheme: Letter Grade
Techniques and basic principles of drafting as applied to stage design: lights and sets.
Prerequisite: TPA 2202C or TPA 2232C; theatre major or minor.

TPA 3217 Introduction to Lighting and Sound 4 Credits
Grading Scheme: Letter Grade
Introduces electricity and technical skills basic to lighting and sound technology.

TPA 3238 Advanced Costume Construction 3 Credits
Grading Scheme: Letter Grade
Focuses on costume construction skills and techniques; patterning, fitting, alteration, dyeing and accessories.
Prerequisite: TPA 2232C and theatre major.

TPA 4020 Lighting Design 3 Credits
Grading Scheme: Letter Grade
Lighting aesthetics, design and control; application of principles of design to lighting in the theatre.
Prerequisite: TPA 3217.

TPA 4021 Lighting Design 2 3 Credits
Grading Scheme: Letter Grade
Advanced lighting design with focus on automation programming and presentation techniques.
Prerequisite: TPA 4020.

TPA 4049 Costume Design 3 Credits
Grading Scheme: Letter Grade
Application of fundamentals of costume design to various genres of dramatic literature.
Prerequisite: TPA 2074.

TPA 4066 Scene Design 3 Credits
Grading Scheme: Letter Grade
Studies the basic processes and functions of scenic design within theatrical production. Development of the ability to create spaces based on scripts and choreography.
Prerequisite: TPA 2074.

TPA 4076 Advanced Theatre Graphics 3 Credits
Grading Scheme: Letter Grade
Specialized study in scene painting with focus on professional studio work and union examination.
Prerequisite: TPA 2074 and TPA 3208.

TPA 4206 Advanced Crafts for the Stage 3 Credits
Grading Scheme: Letter Grade
Emphasizes advanced materials construction for the designer/technician in scenic design and technical direction.
Prerequisite: TPA 2202C and TPA 2232C.

TPA 4239 Costume Patterning 3 Credits
Grading Scheme: Letter Grade
Advanced costume construction of period garments. Pattern drafting, tailoring and period accessories.
Prerequisite: TPA 2232C and production majors/minors.

TPA 4240 Costume Patterning: Draping 3 Credits
Grading Scheme: Letter Grade
Utilizes draping techniques to create garments.
Prerequisite: TAP 2232C and TPA 4239 and production major/ minor.

TPA 4352 Digital Design for Theatre and Dance 3 Credits
Grading Scheme: Letter Grade
Lectures and hands-on labs with emphasis on technologically innovative uses of media. Students attain a performing arts foundation of the history and intersections of live performance with projection, film, video, art and interactive sound design through experimentation with current media tools.
Prerequisite: TPA 3217 or instructor permission.

TPA 4601 Stage and Theatre Management 3 Credits
Grading Scheme: Letter Grade
Studies stage and theatre management skills from technical expertise.
Prerequisite: TPA 2202C, TPA 2232C, TPA 3217 and TPP 2110.

TPA 4930 Special Topics in Theatre Production 1-3 Credits
Grading Scheme: Letter Grade
Lecture, seminar or studio sessions covering selected topics of current interest in theatre production.

TPA 4931 Advanced Stage Management Seminar 1 Credit
Grading Scheme: Letter Grade
This seminar serves as a forum for peer sharing and problem solving on current production assignments. Rotating topics are specific to the stage management profession and industry trends.
Prerequisite: TPA 4601 with minimum grade of C.

TPA 4940 Internship in Theatre Design or Production 1-9 Credits
Grading Scheme: S/U
Work with a professional theatre, dance, ballet, opera company or other approved professional situation. (S-U)

TPA 4946 Production Practicum 1-3 Credits
Grading Scheme: Letter Grade
Production experience in the design or execution of department productions.

TPP 2100 Acting for Non-Majors 3 Credits
Grading Scheme: Letter Grade
The discipline and the creative process of acting, including formal and improvisational techniques for developing vocal, physical and analytical skills. (H)
Attributes: General Education - Humanities

TPP 2110 Acting 1-Instrument and Discipline 3 Credits
Grading Scheme: Letter Grade
The foundation for all performance majors and students seeking entrance into the program. Introduces basic physical, vocal and analytical concepts, methods, vocabulary, discipline, and explores the creative process through exercises in observation and awareness.
Prerequisite: theatre or dance major.

TPP 2250 Song and Dance for the Theatre 1 Credit
Grading Scheme: Letter Grade
Preparation and performance in song and dance ensemble in musical revues and cabaret; development of style, interpretation and flexibility.
Prerequisite: instructor permission; open to music theatre students; audition required.

TPP 2260 Acting for the Camera 3 Credits
Grading Scheme: Letter Grade
Principles and techniques of various performance methods in acting for television and motion pictures.
Prerequisite: TPP 3103.

TPP 2282 Movement Training for the Actor 1 3 Credits
Grading Scheme: Letter Grade
Emphasizes physical preparation and character development through movement. Focusing on the preparation of the body, this course aids the actor's approach to performance.
Prerequisite: TPP 2110 and theatre major.

TPP 3103 Acting 2: Analysis and Application 3 Credits
Grading Scheme: Letter Grade
Experimentation with scripted material: scene study, analysis, audition and performance.
Prerequisite: refer to the department.

TPP 3113 Acting 3 3 Credits
Grading Scheme: Letter Grade
Emphasizes versatility and expanding the repertory of roles through physical, vocal and psychological transformation.
Prerequisite: TPP 3103 with a minimum grade of C and theatre major.

TPP 3124 Beginning Improvisation 1-3 Credits
Grading Scheme: Letter Grade
The fundamentals of improvisation; learn performance techniques concerning conceptual agreement, character creation, team building, and active listening in order to create intelligent and honest scenework.

TPP 3142 Acting 3/2 3 Credits
Grading Scheme: Letter Grade
Continuation of the third level acting course with emphasis on beginning the development of the professional actor's knowledge of theatre repertoire.

TPP 3165 Voice and Movement 3/2 3 Credits
Grading Scheme: Letter Grade
Offered in Miami only.

TPP 3251 Fundamentals of Music Theatre Acting 3 Credits
Grading Scheme: Letter Grade
Acting techniques as applied to music theatre material. Audition techniques in music and dance.
Prerequisite: TPP 3103 with a minimum grade of C and theatre performance major.

TPP 3252 Music Theatre Acting Styles 3 Credits
Grading Scheme: Letter Grade
Analysis and preparation of roles from music theatre genres. Exploration of vocal styles and staging.
Prerequisite: TPP 3251 with a minimum grade of C and theatre major.

TPP 3253 Advanced Studies in Music Theatre Acting 3 Credits
Grading Scheme: Letter Grade
Analysis and preparation in musical theatre styles, repertoire and technique. Vocal skills and choreography techniques and audition techniques are examined.
Prerequisite: TPP 3252 with a minimum grade of C and theatre major.

TPP 3283 Movement Training for the Actor 2 3 Credits
Grading Scheme: Letter Grade
Character development through movement analyses; exploration of the physical demands pf performance; practical applications of movement vocabulary to aid the actor's search for believability.
Prerequisite: TPP 2282 with a minimum grade of C and theatre major.

TPP 3290 Introduction to the Alexander Technique 3 Credits
Grading Scheme: Letter Grade
Introduces the Alexander Technique (AT); a mind-body approach to the use of self as applied to acting.
Prerequisite: B.A. or BFA theatre major or instructor permission.

TPP 3311 Directing 3 Credits
Grading Scheme: Letter Grade
Practical application of theoretical concepts of directing applied to scene study.
Prerequisite: refer to the department.

TPP 3650 Script Analysis 3 Credits
Grading Scheme: Letter Grade
Teaches the skills of script analysis for actors, directors and designers using a formalist approach.
Prerequisite: THE 2000 or THE 2020 and theatre major.

TPP 4114 Acting 4 3 Credits
Grading Scheme: Letter Grade
Continuation of Acting series, TPP 3103 / 3113 / 4114.
Prerequisite: TPP 3113 with a minimum grade of C and theatre major.

TPP 4140 Acting: Shakespeare and Period Styles 3 Credits
Grading Scheme: Letter Grade
Experimentation and experience with classical literature: analysis and performance.
Prerequisite: TPP 4114 with a minimum grade of C and theatre major.

TPP 4144 Acting Style: 18th Century to Post Modernism 3 Credits
Grading Scheme: Letter Grade
Experimentation and experience with the stylistic techniques, analysis, and performance of plays from the 18th century to Post-Modernism.
Prerequisite: TPP 4140 with a minimum grade of C and theatre major.

TPP 4221 Acting: Audition Workshop and Synthesis 3 Credits
Grading Scheme: Letter Grade
Synthesis and exploration of techniques for auditioning; information and advice about the business of acting-trade unions, contracts, agents, etc.
Prerequisite: TPP 3103 and theatre major.

TPP 4236 BFA Company Workshop 6 Credits
Grading Scheme: Letter Grade
Capstone course for all BFA Acting students. Student actors study, experiment and produce in laboratory. This course may be taken online the final semester with permission of the instructor.
Prerequisite: TPP 3113, TPP 4114, TPP 4140, TPP 4144; theatre-acting major.

TPP 4265 Acting for the Camera 3 Credits
Grading Scheme: Letter Grade
Principles and techniques of various performance methods in acting for television and motion pictures.
Prerequisite: TPP 2110.

TPP 4287 Voice, Speech and Body Training for the Actor 1 3 Credits
Grading Scheme: Letter Grade
Designed to recover and free the voice and integrate the body, mind and emotions of the actor in finding clear and honest expression in performance.
Prerequisite: THE 2020.

TPP 4288 Voice, Speech, and Body Training for the Actor 2 3 Credits
Grading Scheme: Letter Grade
A continuation of TPP 4287 with an emphasis on scene work, monologues and vocal techniques for heightened and period styles.
Prerequisite: TPP 4287 with a minimum grade of C and theatre major.

TPP 4291 Alexander Technique and the Actor 3 Credits
Grading Scheme: Letter Grade
Studies the Alexander Technique (AT) principles in greater depth and applying those principles to acting challenges. This course provides experimental integration of the AT principles in experiential anatomy, selected acting/performance techniques, voice and movement.
Prerequisite: TPP 3290.

TPP 4531 Stage Combat: Unarmed and Light Weaponry 3 Credits
Grading Scheme: Letter Grade
Introduces stage combat techniques including unarmed, rapier and dagger and/or single sword. Emphasizes safety and control.
Prerequisite: TPP 3113.

TPP 4532 Stage Combat: Theatrical Weapon Styles 3 Credits
Grading Scheme: Letter Grade
Instruction in standard armed stage combat techniques: weapon styles may include broad sword, quarterstaff, knife, small sword, sword and shield, or single sword. Safety is emphasized in the creation of the illusion of armed violence.
Prerequisite: TPP 3133 or instructor permission.
Corequisite: TPP 3113.

TPP 4600 Playwriting Workshop 3 Credits
Grading Scheme: Letter Grade
An introductory workshop in playwriting, culminating in the creation of a complete, one-act play by each student.
Prerequisite: instructor permission.

TPP 4730 Stage Dialects 3 Credits
Grading Scheme: Letter Grade
Prerequisite: TPP 3103.

TPP 4930 Special Topics in Theatre Performance 1-3 Credits
Grading Scheme: Letter Grade
Lecture, seminar or studio sessions covering selected topics of current interest in theatre performance.
Prerequisite: instructor permission.

TPP 4940 Internship in Theatre Performance 1-9 Credits
Grading Scheme: S/U
Work with a professional theatre or other approved professional situation. (S-U)

Tourism, Recreation and Sport Management

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

APK 4940C Internship 12 Credits
Grading Scheme: S/U
Internship in applied physiology and kinesiology. (S-U)
Prerequisite: department permission.

HFT 2750 Event Management 3 Credits
Grading Scheme: Letter Grade
An overview of the meetings, conventions, special events and expositions industry.

HFT 3253 Lodging Operations and Management 3 Credits
Grading Scheme: Letter Grade
Provides a realistic managerial examination of each major operating department within a lodging firm.
Prerequisite: Sophomore standing or higher.

HFT 3512 Event Promotion 3 Credits
Grading Scheme: Letter Grade
Advanced course in event promotion and sponsorship acquisition, involving a wide range of subjects relevant to event marketing from both macro (global) and micro (organization) perspectives. The course focuses on the components of development and marketing plans for various venues in the special events sector.
Prerequisite: HFT 2750.

HFT 4468 Hospitality Revenue Management 3 Credits
Grading Scheme: Letter Grade
Provides an applied understanding of the strategies and tactics used in hospitality revenue management. Addresses fundamental principles and concepts of revenue management, including capacity management, duration control, demand and revenue forecasting, discounting, overbooking practices, displacement analysis, rate management and sales mix analysis.
Prerequisite: ACG 2021.

HFT 4517 Convention Sales and Service 3 Credits
Grading Scheme: Letter Grade
Studies the scope of sales and meeting management within the hospitality industry. The reciprocal relationship between selling and service is presented within the context of hospitality marketing practices.
Prerequisite: LEI 3360.

HFT 4743 Tourism and Hospitality Marketing 3 Credits
Grading Scheme: Letter Grade
Explores a wide range of subjects relevant to tourism and hospitality marketing from both macro (global) and micro (organization) perspectives.
Prerequisite: LEI 3301 and MAR 3023.

HFT 4754 Advanced Event Management 3 Credits
Grading Scheme: Letter Grade
Advances an understanding of the strategic event management process, including the selection and assessment of methods and techniques utilized in planning, organizing, promoting and delivering major events.
Prerequisite: HFT 2750.

HLP 4933 Variable International Topics 1-6 Credits
Grading Scheme: Letter Grade
Provides the opportunity to study in a wide range of cultural settings.

LEI 2000 Introduction to Recreation and Leisure (Non-Recreation Majors) 3 Credits
Grading Scheme: Letter Grade
Understanding the various roles that recreation has in contemporary society. Provides the opportunity to examine recreation as a potential profession.

LEI 2181 Leisure Contemporary Society 3 Credits
Grading Scheme: Letter Grade
Examines leisure as a condition of being human, as a cultural mirror and as a social instrument; reflects a wide range of literature from a number of academic disciplines. (S)
Attributes: General Education - Social Science

LEI 3120 Introduction to Outdoor Recreation and Parks 3 Credits
Grading Scheme: Letter Grade
Surveys the history, terminology and current issues of outdoor recreation and parks. Overview of urban, private, NGO, local, state and federal roles in the provision of outdoor recreation opportunities. Explores the tension between recreational use and conservation values.
Prerequisite: Sophomore standing or instructor permission.

LEI 3140 Philosophy and History of Recreation 3 Credits
Grading Scheme: Letter Grade
Overview of the philosophical and historical foundations of recreation, leisure and play with the intent of providing students a base on which to interpret the recreation profession. (H)
Prerequisite: 2HH - REC or LEI or HHP majors.
Attributes: General Education - Humanities

LEI 3301 Principles of Travel and Tourism 3 Credits
Grading Scheme: Letter Grade
Overview of the travel and tourism industry. Course content covers historical, behavioral, societal and business aspects of travel and tourism.
Prerequisite: Sophomore standing or instructor permission.

LEI 3303 Fundamentals of Tourism Planning 3 Credits
Grading Scheme: Letter Grade
Examines the planning of tourism services and facilities, including the identification, planning and use of the physical, social and economic resources necessary to develop and support tourism.
Prerequisite: Sophomore standing or higher.

LEI 3320 Leadership in Recreation and Leisure Services 2 Credits
Grading Scheme: Letter Grade
Opportunity to explore and develop leadership and abilities to successfully implement recreation programs and services in leisure delivery systems.
Prerequisite: 3HH standing.

LEI 3340 Resort and Destination Development 4 Credits
Grading Scheme: Letter Grade
Studies resort and destination development and management in resort planning, development and management. Includes current examples from the industry itself as well as laboratory experience for on-site research and study.
Prerequisite: LEI 3301.

LEI 3360 Hospitality Management 3 Credits
Grading Scheme: Letter Grade
Overview of the hospitality industry, including hotel management, food and beverage operations, business and leisure travel markets, convention services, hospitality trends, quest-based customer service strategies and career opportunities.
Prerequisite: Sophomore standing or department permission.

LEI 3400 Recreation Program Design and Leadership 3 Credits
Grading Scheme: Letter Grade
Focuses on designing and staging leisure experiences using a servant leadership approach. Provides information and practical experiences required to successfully translate agency vision, philosophy and policies into the design, implementation and program evaluation of recreation program and services in community or commercial contexts.
Prerequisite: 3HH standing.

LEI 3500 Administration of Leisure Services 3 Credits
Grading Scheme: Letter Grade
Organizing and administering leisure and recreation services, emphasizing problem solving. Limited to recreation majors or those with instructor permission.
Prerequisite: 2HH-REC or LEI; Prereq or
Corequisite: LEI 3320 and LEI 3400.

LEI 3546 Park Management 3 Credits
Grading Scheme: Letter Grade
Park operations and management including planning, maintenance, law enforcement, resource management and visitor contact. Examines user conflicts and reviews case studies of existing park operations and research.
Prerequisite: FNR 3153, LEI 3140 or LEI 3250, or instructor permission.

LEI 3705 Leisure Services for People with Disabilities 3 Credits
Grading Scheme: Letter Grade
Leisure and recreation services for special population groups with a focus on access/inclusion, barriers to participation, disabling conditions, special population groups, program development, service delivery and legislation.

LEI 3843 Entrepreneurship in Tourism, Recreation and Sport Management 3 Credits
Grading Scheme: Letter Grade
Analyzes the entrepreneurial opportunities in tourism, hospitality, recreation, events and sport by examining the process of creating, planning and managing business ventures in these sectors.
Prerequisite: sophomore standing or department permission.

LEI 3921 Field Experience in TRSM 3 Credits
Grading Scheme: Letter Grade
Practical field experience in leisure service delivery. Students apply skill and knowledge as volunteers where they utilize leadership and management skills to enhance participant involvement and agency operations. In addition, the student prepares a resume, investigates agencies as potential intern sites and submits the appropriate forms for approval of an internship site.
Prerequisite: department permission.

LEI 4321 Ecotourism 3 Credits
Grading Scheme: Letter Grade
Studies the components, history, practice and current issues of nature-based tourism. Explores principles and problems of ecotourism for natural resources and host populations and includes rural tourism, economic impacts, tourism life cycle and case studies.
Prerequisite: 6 credits of biological science.

LEI 4540 Management and Supervision of Leisure Facilities and Personnel 3 Credits
Grading Scheme: Letter Grade
The management process as it relates to planning and operation of leisure service facilities. Subjects include traditional and contemporary management theory, the management process, legal and financial aspects, risk management and contemporary issues in leisure services management. Facility topics include feasibility studies and design issues.
Prerequisite: junior standing or department permission.

LEI 4570 Revenue Resources Management 3 Credits
Grading Scheme: Letter Grade
Identifies the many and variable forms of revenue resources available in recreation and the methods of managing that revenue.
Prerequisite: LEI 3400 and ACG 2021.

LEI 4800 Legal Aspects of Tourism, Events and Recreation 3 Credits
Grading Scheme: Letter Grade
Concentrates on the legal aspects of recreation, tourism, hospitality and event management. Enables students to better understand the law as it pertains to their area of specialization and improves risk management practice.
Prerequisite: LEI 2181 and LEI 3301.

LEI 4845 Outdoor Recreation Enterprises 3 Credits
Grading Scheme: Letter Grade
Introduces a range of private enterprise recreation, park and ecotourism business opportunities and provides guidance and practice in writing an operations business plan for such businesses. Examines customer motivations for engaging with outdoor recreation related businesses, product, services, marketing analysis and methods of providing excellent service.
Prerequisite: LEI 2181.

LEI 4880 Research Methods in Tourism, Recreation and Sport Management 3 Credits
Grading Scheme: Letter Grade
Introductory course providing a broad understanding of measurement and evaluation in recreation, sports, events, tourism and hospitality; introduces diverse aspects of research, from setting the theoretical background to evaluating the results of analyses.
Prerequisite: LEI 2181 or SPM 2000 and STA 2023.

LEI 4905 Variable Topics 1-4 Credits
Grading Scheme: Letter Grade
Offered upon request to meet special interests not adequately provided in other courses, such as Multidisciplinary Perspectives of Gerontology and Health and Physical Aspects of Aging.
Prerequisite: department permission.

LEI 4912 TRSM Research 0-5 Credits
Grading Scheme: S/U
Participate in supervised research experiences. For this purpose, research is defined as an independent, self-directed experience that enables the student to investigate an issue in tourism, recreation or sport management and then to communicate the results to others. (S-U)

LEI 4940 Internship in Leisure Services 1-15 Credits
Grading Scheme: S/U
Practical field experience in selected off-campus leisure service agencies. Normally taken during the last semester before graduation. (S-U)
Prerequisite: department permission.

LEI 4941 Practicum in Tourism, Event and Recreation Management 1-3 Credits
Grading Scheme: S/U
Provides practical experience for Tourism, Events and Recreation Management majors who will maintain a part-time workload in an approved setting appropriate to their specialization.
Prerequisite: HH-TRM majors only.

LEI 4955 Travel Studies 1-6 Credits
Grading Scheme: Letter Grade

PET 3121 History of Sport and Exercise Sciences 3 Credits
Grading Scheme: Letter Grade
Development of sport and exercise sciences in the United States from colonial America to the present. Interpretations of sport and exercise sciences and the relation to society.
Prerequisite: Sport Management majors only

PET 4905C Variable Topics in Exercise and Sport Sciences 1-5 Credits
Grading Scheme: Letter Grade
Offered upon request to meet students' special interests that are not adequately provided in other courses.
Prerequisite: department chair permission.

PET 4948C Practicum in Exercise and Sport Sciences 1-5 Credits
Grading Scheme: Letter Grade
Practical experience in such specialty areas as adult fitness programs, health clubs, exercise testing laboratories, clinical laboratories and athletic training rooms. May include senior thesis with oral defense.
Prerequisite: department chair permission.

SPM 2000 Introduction to Sport Management 3 Credits
Grading Scheme: Letter Grade
Introduces management, marketing, financial and legal principles regarding sport facilities, events and organizations within interscholastic, intercollegiate, professional and international sport industries. The conduct of amateur and professional sport programs.

SPM 3012 Sport and Society 3 Credits
Grading Scheme: Letter Grade
Societal implications of sport in history and heritage, youth programs, collegiate and professional situations and the involvement of minority groups, women, business and industry. (WR)
Prerequisite: sophomore standing or instructor permission.
Attributes: Satisfies 6000 Words of Writing Requirement

SPM 3204 Ethical Issues in Sport 3 Credits
Grading Scheme: Letter Grade
Review and study of ethical issues that affect sport.

SPM 3306 Sport Marketing 3 Credits
Grading Scheme: Letter Grade
Key marketing concepts and strategies in sports referent to sport consumer behavior and implications for marketing. Analyzes marketing cases to solve marketing-related problems and to help students prepare and evaluate a comprehensive marketing plan.
Prerequisite: MAR 3023 and SPM 2000 with minimum grades of C.

SPM 3403 Sport Information Management 3 Credits
Grading Scheme: Letter Grade
Instruction, Analysis, and Training in the Principles and Practice of Sport Information Management in Sports Organizations. Emphasizes Skills Essential for Sports Management Professionals, Including Handling Media Interactions Across Platforms, Problems, Crises, and Integration of Positive Communications Strategies With Strategic Goals of Sports Organizations.
Prerequisite: sophomore standing or instructor permission.

SPM 4104 Sport Facility Design and Management 3 Credits
Grading Scheme: Letter Grade
Planning and management of sport facilities.
Prerequisite: 3 or 4HH - SPM majors.

SPM 4154 Administration of Sport and Physical Activity 3 Credits
Grading Scheme: Letter Grade
Managerial principles and techniques applicable to a variety of sport, physical education and fitness settings.
Prerequisite: MAN 3025 and SPM 2000 with minimum grades of C.

SPM 4515 Sport Business and Finance 3 Credits
Grading Scheme: Letter Grade
Financial expense categories and sources of revenue for sport organizations. Determines and calculates facility revenues and non-facility revenues. Develops potential solutions for improving revenue sources to increase revenue and decrease costs while maintaining a viable product.
Prerequisite: SPM 2000.

SPM 4723 Legal Issues in Sport and Physical Activity 3 Credits
Grading Scheme: Letter Grade
Legal structures, major laws, regulations and case precedents that establish legal responsibilities, rights, privileges and controls related to sport management.
Prerequisite: SPM 2000; 3 or 4HH - SPM majors only.

SPM 4905 Variable Topics in Sport Management 1-3 Credits
Grading Scheme: Letter Grade
Offered upon request to meet special interests that not adequately provided in other courses.
Prerequisite: department permission.

SPM 4941C Internship in Sport Management 1-15 Credits
Grading Scheme: S/U
Internship with a public or private enterprise in sport management. (S-U)

SPM 4948 Practicum in Sport Management 1-3 Credits
Grading Scheme: S/U
Practical experience in sport management. May include a senior thesis with oral defense.
Prerequisite: department permission.

Turkish | European Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

TUR 1130 Beginning Turkish 1 5 Credits
Grading Scheme: Letter Grade
This course and its sequel, TUR 1131, constitute the introductory sequence in Turkish.

TUR 1131 Beginning Turkish 2 5 Credits
Grading Scheme: Letter Grade
Second semester of the introductory sequence in Turkish.
Prerequisite: TUR 1130 with minimum grade of C.

TUR 2220 Intermediate Turkish 1 4 Credits
Grading Scheme: Letter Grade
Intermediate study of speaking, reading, writing and listening comprehension skills with new vocabulary and grammar.
Prerequisite: TUR 1131 or placement test.

TUR 2221 Intermediate Turkish 2 4 Credits
Grading Scheme: Letter Grade
Improves speaking, reading, writing and listening skills by building upon language principles introduced in TUR 2220.
Prerequisite: TUR 2220 or placement test.

Urban and Regional Planning

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

DCP 4000 Overview of Historic Preservation 3 Credits
Grading Scheme: Letter Grade
Overview of historic preservation and its relationship to historic communities. The course covers terminology, theory, legal, design, social issues and community assessments.
Prerequisite: junior standing or higher.

URP 3001 Cities of the World 3 Credits
Grading Scheme: Letter Grade
Comparative case studies of contemporary cities in the U.S. and a series of foreign countries, both industrialized and developing. Special consideration is given to energy consumption. (S and N)
Attributes: General Education - International, General Education - Social Science

URP 4000 Preview of Urban and Regional Planning 3 Credits
Grading Scheme: Letter Grade
An overview of the comprehensive planning process or students who may be considering a career in urban and regional planning or who may be pursuing studies where some knowledge of the planning process is desirable. (H)
Attributes: General Education - Humanities

URP 4230 3D Modeling, Visualization, and Simulation 3 Credits
Grading Scheme: Letter Grade
Introduces a variety of methods and techniques to interactively model and visualize physical urban environments in two, three, and four dimensions through a hands-on approach using computer software.
Prerequisite: DCP 2002 or instructor permission.

URP 4273 Survey of Planning Information Systems 3 Credits
Grading Scheme: Letter Grade
Introduces concepts and theories associated with Geographic Information Systems (GIS) as related to urban and environmental planning. Lectures, class assignments and homework assignments are required.

URP 4283 Automation for Geospatial Modeling and Analysis 3 Credits
Grading Scheme: Letter Grade
Covers methods and techniques for automating geospatial modeling and analysis for planning and built environment by using visual models, computer programming, and custom-built applications and tools that utilize Geographic Information Systems (GIS) technology in the context of planning information systems.
Prerequisite: junior standing or higher.

URP 4640 Sustainable Urbanism in Europe 3 Credits
Grading Scheme: Letter Grade
Explores the diverse urban places that make up modern Europe, its historic development since the pre-industrial city, challenges and accomplishments of urbanization in Europe in recent decades and current accomplishments in achieving sustainable development.
Prerequisite: junior standing.

URP 4740 Housing and Urban Development 3 Credits
Grading Scheme: Letter Grade
Concepts and theories about the economics of the housing market, land development and home building process, and the growth of cities.

URP 4882 Defensible Space and CPTED in Urban Design 3 Credits
Grading Scheme: Letter Grade
Explore the history, theory, application and possibilities associated with crime prevention planning. Course investigates theories and strategies in the planner's toolkit and how police, planning and other agencies interact to implement them. The course focuses on real-world applications and students will visit sites that offer teaching and research opportunities.

URP 4905 Special Studies 1-3 Credits
Grading Scheme: Letter Grade
Variable topics course of lecture, studio and seminar that explores current issues in urban planning, from geographic information systems to transportation planning.

URP 4942 Community Service 3 Credits
Grading Scheme: S/U
Provides an opportunity to work directly with a community service agency. Public sector agencies, such as a city or county office and nonprofit organizations, qualify as community service agencies. In lieu of meeting in a classroom, students will be placed in a community service agency and will work as volunteers for a minimum of 60 hours during the academic semester.
Prerequisite: URP 3001 or URP 4000.

Veterinary Medical Sciences

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

VME 3001 The Dog 3 Credits
Grading Scheme: Letter Grade
Designed for students planning careers in veterinary medicine and veterinary technical programs. Students who want to learn more about dogs will be introduced to a number of topics, including evolution, domestication, anatomy, role in society, physiology, behavior and health of the dog.
Prerequisite: BSC 2010/BSC 2010L and BSC 2011/BSC 2011L; six credits from: AGR 3303, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2311, MCB 3020, PHY 2053, PHY 2054, or STA 2023.

VME 4012 Aquatic Animal Conservation Issues 3 Credits
Grading Scheme: Letter Grade
Controversial conservation issues surrounding aquatic species, from invertebrates to marine mammals.
Prerequisite: two courses beyond basic biology in anatomy, behavior, ecology, physiology, or zoology.

VME 4013 Aquatic Wildlife Health Issues 3 Credits
Grading Scheme: Letter Grade
Introduces the natural history, anatomy, physiology, behavior and health issues of aquatic wildlife: marine mammals, sea turtles, crocodiles and some fish and invertebrates.
Prerequisite: BSC 2010 and BSC 2011 and six credits with course prefixes of ANS, PCB, WIS or ZOO with minimum grades of C, or instructor permission.

VME 4016 Manatee Health and Conservation 3 Credits
Grading Scheme: Letter Grade
Introduces undergraduate students to manatee natural history, anatomy, physiology, behavior, conservation and health issues. Students will be exposed to current experts in these fields, be able to name and to describe common health and mortality issues and be able to explain current management strategies.
Prerequisite: BSC 2010 and BSC 2011 and six credits with course prefixes of ANS, PCB, WIS or ZOO with minimum grades of C, or instructor permission.

VME 4103 Livestock Health/Disease Prevention 2 Credits
Grading Scheme: Letter Grade
The principal diseases of livestock and practical methods for their prevention and control.
Prerequisite: instructor permission.

VME 4906 Problems in Veterinary Science 1-3 Credits
Grading Scheme: Letter Grade
Study, research and investigation of an approved problem in veterinary medicine.
Prerequisite: instructor permission.

Vietnamese | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

VTN 1130 Beginning Vietnamese 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

VTN 1131 Beginning Vietnamese 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: VTN 1130 with minimum grade of C or S, or the equivalent.

VTN 2220 Intermediate Vietnamese 1 4 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: VTN 1131 with minimum grade of C or S, or the equivalent.

VTN 2221 Intermediate Vietnamese 2 4 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: VTN 2220 with minimum grade of C or S, or the equivalent.

VTN 2340 Vietnamese for Heritage Learners 1 4 Credits
Grading Scheme: Letter Grade
For those with significant speaking and listening skills, but limited reading and writing skills. Emphasis on developing latter two skills.
Prerequisite: instructor permission.

VTN 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For independent work not offered in another course. Available only by special arrangement.

VTN 4930 Special Topics in Vietnamese Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in Vietnamese studies. Available only by special arrangement.

VTT 3500 Vietnamese Culture 3 Credits
Grading Scheme: Letter Grade
Overview of Vietnamese culture, language and history. Focuses on Vietnamese cultural norms, attitudes, values and culture through an examination of history, religious practices, language, literature, family structures, cuisine, daily life and the arts. (H and N)
Prerequisite: Any Asia-related ASH, CHI, CHT, JPN, JPT, REL, or VTN course.
Attributes: General Education - Humanities, General Education - International

Wildlife Ecology and Conservation

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

WIS 2040 Wildlife Issues in a Changing World 3 Credits
Grading Scheme: Letter Grade
The biological and ecological basis of wildlife issues and the pathways humans use to resolve these issues. Topics include major animal phyla; evolutionary history of vertebrates; state, federal and international agencies that manage wildlife worldwide; and the impact of human activities on wildlife. (B)
Attributes: General Education - Biological Science

WIS 2552 Biodiversity Conservation: Global Perspectives 3 Credits
Grading Scheme: Letter Grade
The relationship between humans and the global biotic environment that supports them. This course explores human patterns of resource use and population biology that determine the status of the earth's biodiversity resources. Helps students understand how today's human society affects global life support systems, and how individuals can make lifetime contributions to environmental solutions. (B and N)
Attributes: General Education - Biological Science, General Education - International

WIS 2920 Wildlife Colloquium 1 Credit
Grading Scheme: Letter Grade
Wildlife ecology and conservation as a major and career.
Prerequisite: majors/minors only.

WIS 3401 Wildlife Ecology and Management 3 Credits
Grading Scheme: Letter Grade
Wildlife as a natural resource with emphasis on principles of conservation, ecology and management.
Prerequisite: BSC 2011 and BSC 2011L.

WIS 3402 Wildlife of Florida 3 Credits
Grading Scheme: Letter Grade
The diversity of wildlife species in Florida with emphasis on amphibians, reptiles, mammals and birds.

WIS 3402L Wildlife of Florida Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory exploring the diversity of wildlife in Florida's ecosystems with emphasis on field identification, natural history and ecology of birds, mammals, amphibians and reptiles.

WIS 3404 Natural Resource Ecology 3 Credits
Grading Scheme: Letter Grade
Application of ecological principles and natural history information to conserve and sustainably manage natural resources with an emphasis on animals and plants.
Prerequisite: BSC 2011 or eqivalent.

WIS 3434 Tropical Wildlife 3 Credits
Grading Scheme: Letter Grade
An interdisciplinary course that teaches the ecology of animals and the socio-economics of wildlife use. The first part of the course deals with the biology of tropical wildlife and the second with the historical, economic and political aspects of the use and management of tropical wildlife.
Prerequisite: BSC 2011/BSC 2011L; WIE major; junior standing.

WIS 3553C Introduction to Conservation Genetics 4 Credits
Grading Scheme: Letter Grade
Types of molecular polymorphisms found in nature, including how genetic information is organized, what evolutionary and demographic forces act to shape genetic polymorphisms, and how and why genetics are useful in population conservation and management.
Prerequisite: STA 2023 and (FOR 3153C or PCB 3601C or PCB 4044C).

WIS 4203C Landscape Ecology and Conservation 3 Credits
Grading Scheme: Letter Grade
Central constructs and methods of landscape ecology are applied to wildlife ecology and conservation.
Prerequisite: STA 2023 and (FOR 3153C or PCB 3601C or PCB 4043C) and (FOR 3434C or GIS 3043 or GIS 3072C or URP 4273).

WIS 4427C Wildlife Habitat Management 3 Credits
Grading Scheme: Letter Grade
Application of land management practices and their effects on wildlife habitats in Florida.
Prerequisite: WIS 3401.

WIS 4443C Wetland Wildlife Ecology 4 Credits
Grading Scheme: Letter Grade
Ecological principles of conservation and management of wildlife in wetland environments, including a survey of the structure and function of major wetland types.
Prerequisite: WIS 3401.

WIS 4454 Ecology of Bird Introductions and Invasions 3 Credits
Grading Scheme: Letter Grade
Ecology and conservation implications of introductions and invasions of birds. The course covers the invasion pathway model as well as the four levels of factors that can influence introduction outcomes.
Prerequisite: BSC 2010 and BSC 2011.

WIS 4501 Introduction to Wildlife Population Ecology 3 Credits
Grading Scheme: Letter Grade
The dynamics and regulation of biological populations and life-history theory.
Prerequisite: PCB 3034C and WIS 3401; and FOR 3153C, PCB 3601C or PCB 4044C.

WIS 4523 Human Dimensions of Natural Resource Conservation 3 Credits
Grading Scheme: Letter Grade
Local and international models are used to provide an interdisciplinary overview of the theory and practice of conservation education, environmental communication and integrated resource management and conservation.
Prerequisite: WIS 3401 or WIS 4554.

WIS 4547C Avian Field Techniques 2 Credits
Grading Scheme: Letter Grade
Intensive advanced field experience in scientific study design and ecology of wild bird populations and communities.
Prerequisite: 1 course each in ecology and vertebrate ecology.

WIS 4554 Conservation Biology 3 Credits
Grading Scheme: Letter Grade
Overview of the major problems in conservation and of the biological principles and theories to preserve this diversity.
Prerequisite: PCB 3063 or WIS 3553C; and FOR 3153C, PCB 3034C, PCB 3601C or PCB 4044C; and WIS 3401.

WIS 4570C Wildlife Behavior and Conservation 3 Credits
Grading Scheme: Letter Grade
Concise, current, and thorough grounding to the field (theory, practice, and relevance) of animal behavior, with a strong focus on applications of wildlife behavior to achieve successful wildlife conservation gains.
Prerequisite: BSC 2010

WIS 4601C Quantitative Wildlife Ecology 3 Credits
Grading Scheme: Letter Grade
Concepts and applications of quantitative techniques in ecology and wildlife management.
Prerequisite: STA 2023 and WIS 3401.

WIS 4900 Supervised Extension Experience in Wildlife Ecology and Conservation 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation.

WIS 4905 Individual Problems 1-4 Credits
Grading Scheme: Letter Grade
Individual study of a selected topic related to wildlife ecology and conservation as contracted with the instructor at the start of the term.
Prerequisite: instructor permission.

WIS 4911 Supervised Research in Wildlife Ecology and Conservation 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application. (S-U)

WIS 4915 Honors Thesis Research in Wildlife Ecology and Conservation 0-3 Credits
Grading Scheme: S/U
Independent research in wildlife ecology and conservation leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

WIS 4934 Topics in Wildlife Ecology and Conservation 1-4 Credits
Grading Scheme: Letter Grade
Variable current issues and in-depth study in wildlife, forestry, range, recreation and fisheries issues not covered in other courses.

WIS 4941 Internship in Wildlife Ecology and Conservation 1-12 Credits
Grading Scheme: Letter Grade
Practical teaching, research, and extension experience in the field of wildlife ecology and conservation. Offered every semester.
Prerequisite: instructor permission.

WIS 4945C Wildlife Techniques 4 Credits
Grading Scheme: Letter Grade
Practical training in wildlife research techniques, including radiotelemetry, trapping methods, immobilization and marking of birds, mammals and herps.
Prerequisite: WIS 3402.

Wolof | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

WOL 1130 Beginning Wolof 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

WOL 1131 Beginning Wolof 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: WOL 1130 with minimum grade of C, or the equivalent.

WOL 2200 Intermediate Wolof 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: WOL 1131 with minimum grade of C, or the equivalent.

WOL 2201 Intermediate Wolof 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study.
Prerequisite: WOL 2200 with minimum grade of C, or the equivalent.

WOL 3410 Advanced Wolof 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: WOL 2201 with minimum grade of C, or the equivalent.

WOL 3411 Advanced Wolof 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study of the four skills with attention to more complex structures.
Prerequisite: WOL 3410 with minimum grade of C, or the equivalent.

Women's Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

WST 2322 Introduction to Health Disparities 3 Credits
Grading Scheme: Letter Grade
Examination of the multifaceted issue of health disparities based upon race and ethnicity, gender, socioeconomic status, education, sexuality, disability, physical and mental health, geography and other factors. Related issues include social determinants of health, cultural competency, health literacy, advocacy, social justice and health equity. (S and D)
Attributes: General Education - Diversity, General Education - Social Science

WST 2611 Humanities Perspectives on Gender and Sexuality 3 Credits
Grading Scheme: Letter Grade
Close readings of cultural representations (in literature, the visual arts, movies, television, the Internet, etc.) facilitates the understanding of intersecting categories of identity such as gender, sexuality, class and race. Examines how such categories operate in everything from novels to YouTube to the evening news. (H and D) (WR)
Attributes: General Education - Diversity, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

WST 2612 Social Science Perspectives on Gender and Sexuality 3 Credits
Grading Scheme: Letter Grade
The social construction of gender, sexuality, race, class and other identity categories. Readings focus on individuals, families and cultural groups, mainly in the U.S. but with attention to other nations. Subjects as intimate as the body and violence and as pervasive as politics and the law are included. The course emphasizes differences in daily life experiences of health care, education, sports and religion. Finally, it examines the potential of movements for social change. (S and D) (WR)
Attributes: General Education - Diversity, General Education - Social Science, Satisfies 4000 Words of Writing Requirement

WST 3015 Interdisciplinary Perspectives in Women's Studies 3 Credits
Grading Scheme: Letter Grade
Drawing on materials and methodologies from a variety of disciplines, this class explores the diverse experiences of women in past eras and in the present, and in the U.S. and abroad. Required for the women's studies major and minor. (H or S, and D) (WR)
Attributes: General Education - Diversity, General Education - Humanities, General Education - Social Science, Satisfies 4000 Words of Writing Requirement

WST 3323 Gender, Bodies, and Health 3 Credits
Grading Scheme: Letter Grade
Examines how gender is "worn" on the female body. Adopting a feminist interdisciplinary approach, explores three themes: cisgender female biology in social context, bodily practices concerning food and exercise, and disease (i.e., cancer). Examines intersections of gender, race, class, and disability, and role of activism/policy changes in improving people's health.
Prerequisite: Sophomore standing.

WST 3335 Women and Gender Analysis through American Film: 1950-Present 3 Credits
Grading Scheme: Letter Grade
Traces how film and Hollywood cinema represent women, gender, and feminism over the past sixty years. Analyzes the relationship of film and the sociology and history of feminist movements. Addresses intersections of race, gender, sexual orientation, age, and class found in American cinema. (C, D, and H) (WR)
Prerequisite: Sophomore standing or instructor permission.
Attributes: General Education - Diversity, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

WST 3349 Ecofeminism 3 Credits
Grading Scheme: Letter Grade
A holistic framework for understanding the connections between environmental, feminist and social justice issues. This course critically analyzes positions within ecofeminist theory. (WR)
Attributes: Satisfies 4000 Words of Writing Requirement

WST 3371 Women, Leadership & Diversity in the Global Environment 3 Credits
Grading Scheme: Letter Grade
Examines leadership concepts in general, and for women in particular. Covers leadership strategies in a historical framework, leadership dilemmas in various industries (locally and globally), and experiential and case-study based leadership.
Prerequisite: Sophomore standing or instructor permission.

WST 3415 Transnational Feminism 3 Credits
Grading Scheme: Letter Grade
Women and feminism in a transnational perspective, focusing on various theories and movements engendered by women in contemporary national contexts. The course examines development, reproductive politics and women's health. (S and N)
Attributes: General Education - International, General Education - Social Science

WST 3603 Sexualities Studies 3 Credits
Grading Scheme: Letter Grade
The interdisciplinary study of sexualities covering diverse theories of sexualities and desire, and how these theories are socially constructed and regulated. Central to the class are the connections between sexualities and other social locators such as race, ethnicity, gender, social class, age and ability or disability.
Prerequisite: sophomore standing or instructor permission.

WST 3610 Gender, Race and Science 3 Credits
Grading Scheme: Letter Grade
Feminist theories of nature, science and technology, and how gender and race are critical to the origins of science, the making of scientists and the politics of contemporary practice.

WST 3663 Gender and Food Politics 3 Credits
Grading Scheme: Letter Grade
Survey of the gendered history of food and foodways from the early 17th century to the modern period; may be taught with a service learning component.
Prerequisite: Sophomore standing.

WST 3703 History of American Medicine: Race, Class, Gender, and Science 3 Credits
Grading Scheme: Letter Grade
Overview of the development of the medical profession in the US with attention to ways that class, gender, and race have shaped the idea of "scientific medicine.
Prerequisite: Sophomore standing or departmental permission.

WST 3930 Special Interdisciplinary Topics in Women's Studies 1-4 Credits
Grading Scheme: Letter Grade
Variable topics from different fields of study in gender/ women's studies based on a feminist approach. Topics can include gender issues in education, women's autobiography and women's health issues.

WST 4326 Women and Therapy 3 Credits
Grading Scheme: Letter Grade
Survey of the development of mental health interventions from the 19th century to the present, with attention to women as patients, practitioners, and consumers.
Prerequisite: Any WST 3000 level course or PPE 3003 or CLP 3144

WST 4630 Gender, Culture, and Place 3 Credits
Grading Scheme: Letter Grade
How are the experiences of gender and sexuality configured by geography, location and the built environment? How do gender relations and sexual practices define and give meaning to space and place? This class explores these questions through interdisciplinary consideration of the gendered relationships that unfold in significant spaces and places in the U.S. and the world.

WST 4641 Lesbian and Gay Studies 3 Credits
Grading Scheme: Letter Grade
Overview of lesbian and gay studies, including a portrait of the field, challenges, core debates and possible future directions of such research.
Prerequisite: instructor permission.

WST 4704 Discrimination and Health 3 Credits
Grading Scheme: Letter Grade
Examines discrimination and health from a variety of perspectives. Explores links of discrimination experiences with health behaviors and outcomes, discrimination in healthcare settings, and routes to improving health at individual, group, and legislative levels. Addresses multiple forms of discrimination (e.g., race, sex, class, sexual orientation/gender identity) and their intersections.
Prerequisite: PSY 2012 or any WST course or junior standing.

WST 4905 Independent Study in Women's Studies 1-3 Credits
Grading Scheme: Letter Grade
For advanced undergraduate students who want to supplement regular courses with independent reading or research.

WST 4911 Undergraduate Research in Women's Studies 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

WST 4930 Special Topics 1-6 Credits
Grading Scheme: Letter Grade
Lectures and seminars covering selected topics of current interest in women's studies and/or gender studies.
Prerequisite: instructor permission.

WST 4935 Capstone Seminar 1-6 Credits
Grading Scheme: Letter Grade
This capstone course, required for all majors, is the culmination of the women's studies major. It explores past and present scholarship to reaffirm the interdisciplinary nature of the field and to highlight relationships among feminist theory, intellectual practice and social change. The bulk of the semester is devoted to an independent writing project on the student's selected topic.
Prerequisite: WST 3015.

WST 4940 Internship 1-3 Credits
Grading Scheme: S/U
Practical experience in the community with a local agency, group or business involved in women's issues. (S-U)
Prerequisite: instructor and program director permission.

WST 4941C Practicum in Health Disparities 3 Credits
Grading Scheme: Letter Grade
Capstone experience for seniors enrolled in the health disparities in society minor. Students are matched with preceptors from community agencies that work with underserved, disadvantaged and disenfranchised populations. Students will learn about the agency and its organizational culture while applying concepts of cultural competence, linguistic appropriateness and health disparities.
Prerequisite: WST 2322 and enrollment in health disparities minor.

WST 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
This course provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: advisor permission.

WST 4970 Women's/Gender Studies Honors Thesis 3 Credits
Grading Scheme: Letter Grade
For students pursuing an honors thesis in WST, in accordance with the protocols established by the WST and honors programs. Students design and pursue an independent research project with guidance from an advisor.
Prerequisite: WST 4935 and WST majors.

Writing Program, University

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

ENC 1101 Expository and Argumentative Writing 3 Credits
Grading Scheme: Letter Grade
The principal elements of writing clearly, efficiently and effectively. ENC 1101 also focuses on writing logical arguments, building research skills and developing critical thinking through reading, writing and discussion. (C) (WR)
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 1102 Argument and Persuasion 3 Credits
Grading Scheme: Letter Grade
Writing techniques and forms of argument in a range of disciplines. For their major writing assignment in this course, students will write an extensively researched and well-documented research paper, learning professional and academic writing conventions and developing their critical thinking skills. (C) (WR)
Prerequisite: ENC 1101.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 2305 Analytical Writing and Thinking 3 Credits
Grading Scheme: Letter Grade
Advances students critical thinking and writing skills beyond first-year composition. With wide-ranging themes in areas such as languages, political science, anthropology or biology, this course exposes students to the advanced analytical techniques and communication strategies that professors in all disciplines expect them to know. (C) (WR)
Prerequisite: ENC 1101 or ENC 1102.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 3246 Professional Communication for Engineers 3 Credits
Grading Scheme: Letter Grade
Students master a variety of communication strategies and genres of writing relevant to engineering, such as composing email, memos, letters, technical descriptions, instructions, academic research reports and professional proposals. Students also respond to complex rhetorical situations, thus preparing for work in their professional communities. (C) (WR)
Prerequisite: ENC 1101 or ENC 1102.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 3252 Writing for Strategic Communication 3 Credits
Grading Scheme: Letter Grade
Effective writing strategies for pitching, planning, and delivering content on behalf of organizations and within professional communities. Rhetorical analysis of strategic communication in content-rich marketing published via digital platforms. Intended for public relations, advertising, and telecom majors.
Prerequisite: ENC 1101 or ENC 1102.

ENC 3254 Professional Writing in the Discipline 3 Credits
Grading Scheme: Letter Grade
A communication course adjusted to a specific professional discipline, the discipline to be determined by need. Covers major elements of organizational communication with emphasis on composition of reports, proposals, letters and memos, manuals, and oral presentations. Course materials and assignments are relevant to the specific discipline. (C) (WR)
Prerequisite: ENC 1101 or ENC 1102.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 3453 Writing in the Health Professions 3 Credits
Grading Scheme: Letter Grade
Designed to help students master a variety of communication strategies and genres of writing relevant to the health professions. Students learn to compose clear messages to professionals, patients, and the public, preparing them for upper-division courses and building a foundation for work in their professional communities.
Prerequisite: ENC 1101 or ENC 1102.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 3459 Writing in the Medical Sciences 3 Credits
Grading Scheme: Letter Grade
Training in advanced literacy skills for medical practitioners, including the use of medical databases and the presentation of medical research to professional and lay audiences. Work in teams that are typical of medical practice to learn techniques for effective patient interaction. (C) (WR)
Prerequisite: ENC 1101 or ENC 1102.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 3464 Writing in the Social Sciences 3 Credits
Grading Scheme: Letter Grade
Designed to help students master a variety of communication strategies and genres of writing relevant to the social sciences. Conducting original research, students learn the relationship between clear, simple prose and thoughtful social analysis. Students write literature reviews, develop methodologies, present results, analyze data, and draft graduate or internship applications.
Prerequisite: ENC 1101 or ENC 1102.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 3465 Writing in the Law 3 Credits
Grading Scheme: Letter Grade
Designed to help students master a variety of communication strategies and genres of writing relevant to law, with special emphasis on legal reasoning and logic. Students write legal briefs, a legal memorandum, business correspondence, and law school applications and are introduced to legal research and moot court debate.
Prerequisite: ENC 1101 or ENC 1102.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 3466 Writing in the Communication Sciences 3 Credits
Grading Scheme: Letter Grade
For communication science professionals who interact with audiences that range from school counselors to caregivers and colleagues, excellent writing an essential skill. Focus is on writing in graduate school and as practitioners: research-based reports, clinical documents, and career portfolios. (C) (WR)
Prerequisite: ENC 1101 or ENC 1102.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 3483 Writing in the Physical Sciences 3 Credits
Grading Scheme: Letter Grade
Designed to improve writing skills necessary for success in the physical sciences, both in graduate school and the workplace. Investigating an area of special interest, students learn advanced library research, correct documentation, stylistic conventions for their major fields, and how to present research effectively. (C) (WR)
Prerequisite: ENC 1101 or ENC 1102.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 3934 Special Topics in Rhetoric and Writing 3 Credits
Grading Scheme: Letter Grade
Designed to advance students? ability to write in specific genres or to develop their understanding of special topics related to the field. Specific sections will be tailored to the expertise of the faculty members teaching the course.
Prerequisite: ENC 1101 or ENC 1102.

ENC 4458 Writing the Science Thesis 3 Credits
Grading Scheme: Letter Grade
In this course, students learn to write an academic thesis and a publishable version of their research, preparing them for both academic and scientific audiences. Assignments include a literature review, thesis, research report, and conference poster. Frequent peer review prepares students for collaboration, a necessary skill in contemporary science.
Prerequisite: ENC 1102 with minimum grade of C.

ENC 4493 Peer Tutoring in Rhetoric and Writing 2 Credits
Grading Scheme: Letter Grade
Examines the theories and best practices used by writing tutors with the goal of preparing to be peer writing tutors. Includes preparation on conducting needs assessments, prioritizing advice, and giving effective writing feedback. Observe experienced tutors and be guided through the first tutorial sessions.
Prerequisite: ENC 1102.

ENC 4905 Directed Independent Study in Rhetoric and Writing 1-3 Credits
Grading Scheme: Letter Grade
Designed for the advanced student who wants to pursue in depth an area of study not provided in regularly offered courses. Independent study can involve independent reading or projects under faculty guidance.
Prerequisite: Permission of instructor.

ENC 4930 Special Topics in Rhetoric and Writing 1-3 Credits
Grading Scheme: Letter Grade
Designed to advance students' ability to write in specific genres and to develop their understanding of special topics related to the field. Specific sections will be tailored to the expertise of the faculty members teaching the course.
Prerequisite: completed 60 credits.

ENG 1001 Modes of Inquiry 3 Credits
Grading Scheme: Letter Grade
Strategies for dealing successfully with various media types common to the college experience (web-based, film, traditional readings, etc.). Through reading, writing, research and small group discussion, students will develop and refine reading, writing and speaking skills. Modes of Inquiry employ a cross-discipline approach so that student encounter reading and writing as it happens in the humanities, social sciences and business. Course also utilizes the electronic classroom, giving students the opportunity to polish computer skills and take advantage of online resources. The critical thinking, reading and writing skills learned in this course enhance the communications skills needed for a successful college career. (WR)
Attributes: Satisfies 2000 Words of Writing Requirement

RED 1343 Reading and Writing Content Area 1-7 Credits
Grading Scheme: Letter Grade
Covers the fundamentals of beginning college writing and critical reading skills.

Xhosa | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

XHO 1130 Beginning Xhosa 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

XHO 1131 Beginning Xhosa 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: XHO 1130 with minimum grade of C, or the equivalent.

XHO 2200 Intermediate Xhosa 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: XHO 1131 with minimum grade of C, or the equivalent

XHO 2201 Intermediate Xhosa 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: XHO 2200 with minimum grade of C, or the equivalent.

XHO 3410 Advanced Xhosa 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: XHO 2201 with minimum grade of C, or the equivalent.

XHO 3411 Advanced Xhosa 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study.
Prerequisite: 3410 with minimum grade of C, or the equivalent.

Yoruba | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

SSA 3730 Language in African Society 3 Credits
Grading Scheme: Letter Grade
The role of language in the development of African societies. Language and nation building. (S and N)
Attributes: General Education - International, General Education - Social Science

YOR 1130 Beginning Yoruba 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

YOR 1131 Beginning Yoruba 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: YOR 1130 with minimum grade of C or S, or the equivalent.

YOR 2200 Intermediate Yoruba 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: YOR 1131 with minimum grade of C or S, or the equivalent.

YOR 2201 Intermediate Yoruba 2 3 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: YOR 2200 with minimum grade of C or S, or the equivalent.

YOR 3410 Advanced Yoruba 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: YOR 2201 with minimum grade of C, or the equivalent.

YOR 3411 Advanced Yoruba 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study of the four skills with attention to more complex structures.
Prerequisite: YOR 3410 with minimum grade of C, or the equivalent.

YOR 4502 Yoruba Oral Literature 3 Credits
Grading Scheme: Letter Grade
Overview of the genres of Yoruban oral literature, stressing the importance of the spoken word in Yoruban culture and the training of Yoruban verbal artists and their place in Yoruban society.
Prerequisite: YOR 1131 or instructor permission;
Corequisite: YOR 2200, YOR 2201, or instructor permission.

YOR 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course.
Prerequisite: instructor permission.

YOT 3500 Yoruba Diaspora in the New World 3 Credits
Grading Scheme: Letter Grade
Introduction to the scope and importance of Yoruban culture in the New World and its role and significance in the resilience of African cultures in North America, South America and the Caribbean. (WR)
Prerequisite: HUM 2420, HUM 2424, or instructor permission.
Attributes: Satisfies 6000 Words of Writing Requirement

YRW 4130 Readings in Yoruba Literature 3 Credits
Grading Scheme: Letter Grade
Reading skills and the analysis of literature in the original language.
Prerequisite: YOR 3411 or the equivalent.

Zoology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

AST 2037 Life in the Universe 3 Credits
Grading Scheme: Letter Grade
The origin of life on Earth and the possibility of life elsewhere. A multidisciplinary approach is followed. Conditions for life to form and the likelihood that such conditions may exist elsewhere in the universe are discussed. Also considered are schemes proposed for the search for extraterrestrial intelligence (SETI). (P)
Attributes: General Education - Physical Science

BSC 3402 Theory and Practice in the Biological Sciences 2 Credits
Grading Scheme: Letter Grade
Presents the scientific method, in its many formulations, from historical, philosophical and sociological perspectives. Explores generation and presentation of data, formulation of hypotheses and theories and dissemination of results. Also examines the ethical implication of biological research.

GLY 3603C Paleontology 4 Credits
Grading Scheme: Letter Grade
Investigation of the history of life on earth, including aspects of invertebrate and vertebrate paleontology, micropaleontology and paleobotany.
Prerequisite: refer to the department.

PCB 3063 Genetics 4 Credits
Grading Scheme: Letter Grade
The fundamental properties of inheritance in eukaryotic organisms emphasizing examples in man. Basic concepts are developed for the nature, organization, transmission, expression, recombination and function of genetic materials and principles are derived for genetically characterizing populations.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C and general chemistry.

PCB 3713C Cellular and Systems Physiology 4 Credits
Grading Scheme: Letter Grade
How cells, organs and higher level systems are integrated and coordinated in the functions of humans and other animals. Emphasizes the use of model organisms, mathematical models and the physical sciences to understand the mechanistic basis of normal physiology and dysfunction.
Prerequisite: BSC 2010 and CHM 2046, CHM 2047, CHM 2051, or CHM 2096 and PHY 2048 or PHY 2060, all with minimum grades of C;
Corequisite: PHY 2049 or PHY 2061.

PCB 4043C General Ecology 4 Credits
Grading Scheme: Letter Grade
Ecological processes and organization in terrestrial and aquatic habitats. Laboratory and field exercises emphasize techniques of ecological analysis.
Prerequisite: BSC 2011 and 2011L, or equivalent, with minimum grades of C.

PCB 4674 Evolution 4 Credits
Grading Scheme: Letter Grade
Processes and mechanisms of evolution, including population genetics, speciation, patterns of evolution and molecular evolution.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C;
Corequisite: one semester of calculus; PCB 3063 recommended.

PCB 4712 Comparative Biomechanics 3 Credits
Grading Scheme: Letter Grade
Reviews physical principles governing the form and function of organisms.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C; PHY 2048, PHY 2053L, PCB 4674 and ZOO 3713C.

PCB 4723C Physiology and Molecular Biology of Animals 5 Credits
Grading Scheme: Letter Grade
Discusses the processes and mechanisms of maintenance, activity and integration in animals with emphasis on vertebrates. Laboratory experience in quantitative methods and techniques of physiological investigation.
Prerequisite: BSC 2011, and CHM 2046 or CHM 2047. Recommended: PHY 2053 and PHY 2054, or PHY 2060 and PHY 2061, PCB 3063, and PCB 4674; all with a minimum grade of C or above.

ZOO 3513C Animal Behavior 4 Credits
Grading Scheme: Letter Grade
The causes, origins and evolution of animal behavior emphasizing field observations and experiments on the behavior of a variety of animal groups.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and PCB 4674.

ZOO 3603C Evolutionary Developmental Biology 4 Credits
Grading Scheme: Letter Grade
Analysis of embryonic development, underlying genetic mechanisms and how these processes have driven the evolutionary diversification of animal body plans.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C.

ZOO 3713C Functional Vertebrate Anatomy 4 Credits
Grading Scheme: Letter Grade
The form and function of chordates accompanied by laboratory work dealing with a selected series of chordates.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C.

ZOO 4205C Invertebrate Biodiversity 4 Credits
Grading Scheme: Letter Grade
Comparative biology of invertebrates, emphasizing morphology, evolution, ecology and life history.
Prerequisite: BSC 2011 and BSC 2011L with minimum grades of C.

ZOO 4307C Vertebrate Biodiversity 4 Credits
Grading Scheme: Letter Grade
Comparative biology of vertebrates, emphasizing morphology, evolution, ecology and behavior.
Prerequisite: BSC 2011 and (BSC 2011L or ISC 2401L) with minimum grades of C.

ZOO 4403C Marine Biology 4 Credits
Grading Scheme: Letter Grade
Survey of major marine taxa, systematics of local marine fauna and flora, with familiarization of the marine environment. Laboratory emphasizes field work and independent projects.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C.

ZOO 4472C Avian Biology 4 Credits
Grading Scheme: Letter Grade
The basic biological characteristics of birds, which, as exceptionally unique flying vertebrates, are confronted with a spectrum of problems in terms of anatomy, physiology, behavior, migration and population ecology.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and PCB 4674 (recommended).

ZOO 4905 Individual Studies in Zoology 1-4 Credits
Grading Scheme: Letter Grade
Qualified students and the instructor concerned may choose a particular topic or problem for study.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and instructor permission.

ZOO 4911 Undergraduate Research in Zoology 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

ZOO 4926 Special Topics in Zoology 1-4 Credits
Grading Scheme: Letter Grade
Lectures, conferences or laboratory sessions covering selected topics of current interest in zoology.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and instructor permission.

ZOO 4940 Practical Experience in Teaching Zoology 2 Credits
Grading Scheme: S/U
Participation in teaching approved zoology courses with practical experience in instructional procedures, testing and grading, course and laboratory preparation and laboratory assistance. Cannot be used to satisfy minimum hour requirement for zoology major. (S-U)
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, one zoology laboratory-based course, senior status and instructor permission.

ZOO 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: BSC 2011 and BSC 2011L with minimum grades of C and undergraduate advisor permission.

PREVIOUS CATALOGS

Each catalog remains in effect for an academic year, from the beginning of Summer B, late June, through the end of the following Summer A term the following June. The catalog is published for the new academic year each May.
