- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
Category A[1]	I, R	I	I	I, R, A
Category B[2]	I, R, A	I, R, A	I, R, A	

1 Courses focus on the acquisition of the language(s) of specialization at the advanced level.

2 Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types

- Proficiency exams
- Term papers or final projects
- Oral presentations

French and Francophone Studies Minor

French is considered a strategic language for global communications in matters of security, diplomacy, health, business, and cultural exchange. A minor in French and Francophone studies enhances language skills and cultural competency and complements majors from the humanities to the sciences, engineering, business, and the arts.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 16 | Completed with minimum grades of C
- **Contact:** 301 Pugh Hall (http://campusmap.ufl.edu/?loc=0072)
- **Related French and Francophone Studies Programs**

The minor is open to all UF undergraduates with a minimum overall 2.0 GPA.

- At least three courses (none can be individual work) of no fewer than three credits each must be at the 3000 level or above.
- Of the total credits, no more than three may be individual work.
- A minimum of nine credits must be completed at UF.
- Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Code	Title	Credits
FRE 2221	Intermediate French 2	4
FRE 3300	Grammar and Composition	3
FRE 3320	Composition and Stylistics	3
FRE, FRW, or FRT courses [1]		6
Total Credits		16

1 At a level higher than FRE 2221.

To graduate with this major, students must complete all university, college, and major requirements.

Geography offers exciting undergraduate degrees at UF. Students learn from world-renowned faculty and award-winning mentors, and contribute to groundbreaking research, all while studying topics that have great environmental and social significance. Geography is an integrated and highly interdisciplinary field of study spanning the physical world and society. It is also a hands-on discipline, with a strong emphasis on computer-based tools and field studies.

Geographers can choose to study an enormous range of subjects, essentially anything that has a spatial component. Students who major in geography use the lens of space to examine issues as diverse as climate variability and change on the African continent, malaria outbreaks in Africa and South America, deforestation and land conflict in the Amazon, and the origin and spread of blues music in the Southeastern United States. Across the globe, geographers study tropical cyclones, river restoration, disease outbreaks, the role of parks and other protected areas, changes in land cover, forest management and fragmentation, community conservation, emerging infectious diseases, environmental influences on the elderly, and economic development.

Geography explores the relationship between human and biophysical systems and deals with some of the most critical issues of our time such as environmental hazards, climate change, sustainability of resource management systems, international development, and community and urban planning. Understanding the concept of place, including how and why places differ from each other, is a central concern. Students who have social and economic interests can enter into careers in international development, urban and regional planning, geographic information systems, and environmental consultancy. Students who combine the study of socioeconomic factors and the biophysical world can work in resource management, conservation, environmental assessment, and watershed and coastal planning.

Coursework for the Major

The geography major has five different programs: the Bachelor of Arts, the Bachelor of Science, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geological Sciences), the Bachelor of Arts in medical geography in global health, and the Bachelor of Science in medical geography in global health. Coursework for the major will depend upon the program, which are all flexible. Students must earn a minimum grade of C in all coursework for the major.

Students who are uncertain of a program should contact the Department of Geography's undergraduate coordinator for information and curriculum planning.

Required Coursework

All majors take some techniques courses, including GEO 3162C and a minimum of two additional courses that involve working with data and computers. All majors take a regional course, focusing on the countries, cultures and landscapes of one region in the world. The systematic courses include specialized courses in human or environmental/physical geography, but majors can also take additional techniques courses as part of this requirement. Students can concentrate coursework in economic geography and planning, environmental/physical geography, geospatial technologies, medical geography, or natural resource management.

Coursework for the major will depend upon the degree program. Courses for each program are listed below under Critical Tracking and Model Semester Plan.

Bachelor of Arts in Geography

Best suited for students interested in careers in urban and regional planning, business geography, medical geography, and geographic education, or for students who want a broad overview of the discipline with a focus on human geography.

Bachelor of Arts in Environmental Geosciences

A joint program between the Department of Geography and the Department of Geological Sciences and is intended for students interested in land and water aspects of the environment. The degree focuses on human impacts, water and mineral resource exploitation and management, disasters, environmental planning, earth science education, or environmental law.

Bachelor of Science in Geography

Best suited for someone who wishes to pursue a career in environmental consulting or graduate work in physical geography or related natural sciences, including atmospheric science, geosciences, hydrologic sciences, or meteorology.

Bachelor of Arts in Medical Geography in Global Health

Intended for students interested in social and cultural aspects of medical geography and global health and disease issues. The degree focuses on human impacts, cultural and social aspects of health and disease, and public health planning and management.

Bachelor of Science in Medical Geography in Global Health
Best suited for someone who wishes to pursue a career in public or animal health or disease management or graduate work in medical geography, public health or related natural sciences, including ecology, biology, or epidemiology/public health. This specialization offers the flexibility for students to prepare for admission to health professions programs.

Academic Learning Compact

A major in geography enables students to know the earth's physical environment, to learn social, cultural and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically and/or with statistics.

The Bachelor of Arts in geography enables students to learn how geographic techniques, skills and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

Before Graduating Students Must

- Complete a capstone exam in GEO 4930, as developed by geography faculty.
- Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

- STA 2023

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete 1 geography course (GEA 1000 not acceptable)
- 2.0 UF GPA required

Semester 4

- Complete 1 additional geography course (1 of the 2 must be GEO 2200; GEA 1000 not acceptable) or complete STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses (STA 2023 and 2 geography courses, 1 of which must be GEO 2200; GEA 1000 not acceptable) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete 1 geography course (GEA 1000 not acceptable)
- 2.0 UF GPA required

Semester 4

- Complete 1 additional geography course (1 of the 2 must be GEO 2200; GEA 1000 not acceptable) or complete STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses (STA 2023 and 2 geography courses, 1 of which must be GEO 2200; GEA 1000 not acceptable) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
GEO 2200	Physical Geography (**Critical Tracking**; Gen Ed Physical Sciences)	3
GEO 2200L	Physical Geography Laboratory (Gen Ed Physical Sciences)	1
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
STA 2023	Introduction to Statistics 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	3

Electives		6
	Credits	16
	Total Credits	120

[1] GEO 3452 or GEO 3454 recommended.

[2] Biological Science recommended.

Electives to reach the 120-credit minimum will vary depending on whether students select minimum or maximum credit course options.

Academic Learning Compact

A major in geography enables students to know the earth's physical environment, to learn social, cultural and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically and/or with statistics.

The Bachelor of Arts in geography enables students to learn how geographic techniques, skills and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

Before Graduating Students Must

- Complete a capstone exam in GEO 4930, as developed by geography faculty.
- Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

To graduate with this major, students must complete all university, college, and major requirements.

Geography offers exciting undergraduate degrees at UF. Students learn from world-renowned faculty and award-winning mentors, and contribute to groundbreaking research, all while studying topics that have great environmental and social significance. Geography is an integrated and highly interdisciplinary field of study spanning the physical world and society. It is also a hands-on discipline, with a strong emphasis on computer-based tools and field studies.

Geographers can choose to study an enormous range of subjects, essentially anything that has a spatial component. Students who major in geography use the lens of space to examine issues as diverse as climate variability and change on the African continent, malaria outbreaks in Africa and South America, deforestation and land conflict in the Amazon, and the origin and spread of blues music in the Southeastern United States. Across the globe, geographers study tropical cyclones, river restoration, disease outbreaks, the role of parks and other protected areas, changes in land cover, forest management and fragmentation, community conservation, emerging infectious diseases, environmental influences on the elderly, and economic development.

Geography explores the relationship between human and biophysical systems and deals with some of the most critical issues of our time such as environmental hazards, climate change, sustainability of resource management systems, international development, and community and urban planning. Understanding the concept of place, including how and why places differ from each other, is a central concern. Students who have social and economic interests can enter into careers in international development, urban and regional planning, geographic information systems, and environmental consultancy. Students who combine the study of socioeconomic factors and the biophysical world can work in resource management, conservation, environmental assessment, and watershed and coastal planning.

Coursework for the Major

The geography major has five different programs: the Bachelor of Arts, the Bachelor of Science, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geological Sciences), the Bachelor of Arts in medical geography in global health, and the Bachelor of Science in medical geography in global health. Coursework for the major will depend upon the program, which are all flexible. Students must earn a minimum grade of C in all coursework for the major.

Students who are uncertain of a program should contact the Department of Geography's undergraduate coordinator for information and curriculum planning.

Required Coursework

All majors take some techniques courses, including GEO 3162C and a minimum of two additional courses that involve working with data and computers. All majors take a regional course, focusing on the countries, cultures and landscapes of one region in the world. The systematic courses include specialized courses in human or environmental/physical geography, but majors can also take additional techniques courses as part of this requirement. Students can concentrate coursework in economic geography and planning, environmental/physical geography, geospatial technologies, medical geography, or natural resource management.

Coursework for the major will depend upon the degree program. Courses for each program are listed below under Critical Tracking and Model Semester Plan.

Bachelor of Arts in Geography

Best suited for students interested in careers in urban and regional planning, business geography, medical geography, and geographic education, or for students who want a broad overview of the discipline with a focus on human geography.

Bachelor of Arts in Environmental Geosciences

A joint program between the Department of Geography and the Department of Geological Sciences and is intended for students interested in land and water aspects of the environment. The degree focuses on human impacts, water and mineral resource exploitation and management, disasters, environmental planning, earth science education, or environmental law.

Bachelor of Science in Geography

Best suited for someone who wishes to pursue a career in environmental consulting or graduate work in physical geography or related natural sciences, including atmospheric science, geosciences, hydrologic sciences, or meteorology.

Bachelor of Arts in Medical Geography in Global Health

Intended for students interested in social and cultural aspects of medical geography and global health and disease issues. The degree focuses on human impacts, cultural and social aspects of health and disease, and public health planning and management.

Bachelor of Science in Medical Geography in Global Health

Best suited for someone who wishes to pursue a career in public or animal health or disease management or graduate work in medical geography, public health or related natural sciences, including ecology, biology, or epidemiology/public health. This specialization offers the flexibility for students to prepare for admission to health professions programs.

Intended for students interested in social and cultural aspects of medical geography and global health and disease issues. The degree focuses on human impacts, cultural and social aspects of health and disease, and public health planning and management.

Bachelor of Science in Medical Geography in Global Health

Best suited for someone who wishes to pursue a career in public or animal health or disease management or graduate work in medical geography, public health or related natural sciences, including ecology, biology, or epidemiology/public health. This specialization offers the flexibility for students to prepare for admission to health professions programs.

Bachelor of Science: Medical Geography in Global Health

The Bachelor of Science in medical geography in global health requires a minimum of 34 credits of geography coursework and 19 credits of related coursework in biology, chemistry, and statistics. Students must earn a minimum grade of C in all coursework for the major.

Required Coursework

Code	Title	Credits
GEO 2200	Physical Geography	4
& 2200L	and Physical Geography Laboratory	

GEO 3162C	Introduction to Quantitative Analysis for Geographers	4
GEO 4930	Senior Seminar	1
Select one:		3
GEO 2410	Social Geography	
GEO 2420	Introduction to Human Geography	
GEO 2500	Global and Regional Economies	
Select two technique courses:		6-8
GIS 3043	Foundations of Geographic Information Systems (required)	
Select one:		
GEO 4167C	Intermediate Quantitative Analysis for Geographers	
GIS 3001C	Spatial Maps and Graphs	
GIS 4021C	Aerial Photo Interpretation	
GIS 4037	Digital Image Processing	
GIS 4113	Introduction to Spatial Networks	
GIS 4115	Applied Geostats	
GEO 4930	Senior Seminar	1
Select one regional geography course:		3
GEA 2270	Geography of Florida	
GEA 3405	Geography of Latin America	
GEA 3500	Geography of Europe	
GEA 3600	Geography of Africa	
GEA 4465	Amazonia	
Select two medical geography core courses:		6
GEO 3452	Introduction to Medical Geography	
GEO 3454	Peoples and Plagues	
GEO 3427	Plants, Health and Spirituality	
GEO 4612	Shelter and Care Options for U.S. Elderly	
Select two geography elective courses:		6
GEO 2242	Extreme Weather	
GEO 3250	Climatology	
GEO 3280	Principles of Geographic Hydrology	
GEO 3315	Geography of Crop Plants	
GEO 3341	Extreme Floods	
GEO 3352	The Human Footprint on Landscape	
GEO 3372	Conservation of Resources	
GEO 3427	Plants, Health and Spirituality	
GEO 3430	Population Geography	
GEO 3452	Introduction to Medical Geography	
GEO 3454	Peoples and Plagues	
GEO 3502	Economic Geography	
GEO 3602	Urban and Business Geography	
GEO 3611	Housing, People and Places in a Spatially Diverse America	
GEO 3803	Geography of Alcohol	
GEO 3930	Special Topics	
GEO 4167C	Intermediate Quantitative Analysis for Geographers	
GEO 4281	River Forms and Processes	
GEO 4285	Models in Geographic Hydrology	
GEO 4300	Environmental Biogeography	
GEO 4306C	Geography of Vector-borne Diseases	
GEO 4554	Regional Development	
GEO 4612	Shelter and Care Options for U.S. Elderly	
GEO 4938	Selected Topics in Geography	
GEO 4970	Honors Thesis	
GIS 2002	The Digital Earth	
GIS 3420C	GIS Models for Public Health	
GIS 4021C	Aerial Photo Interpretation	
GIS 4037	Digital Image Processing	
GIS 4102C	GIS Programming	
GIS 4113	Introduction to Spatial Networks	
GIS 4115	Applied Geostats	
MET 3503	Weather and Forecasting	
MET 4532	Hurricanes	

MET 4560	Atmospheric Teleconnections	
MET 4750	Spatial Analysis of Atmospheric Data using GIS

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete 1 geography course (GEA 1000 not acceptable)
- 2.0 UF GPA required

Semester 4

- Complete 1 additional geography course (1 of the 2 must be GEO 2200; GEA 1000 not acceptable) or complete STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses (STA 2023 and 2 geography courses, 1 of which must be GEO 2200; GEA 1000 not acceptable) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One

Geography elective		3
Electives (3000 level or above, not in major)		9
Electives		5
	Credits	18
	Total Credits	120

[1] PSY 2012 or SYG 2000 recommended.

[2] The following are recommended:
- ENC 3459
- ENC 3254
- ENC 3453
- ENC 3464

[3] GEO 3452 or GEO 3454 recommended.

Electives to reach the 120-credit minimum will vary depending on whether students select minimum or maximum credit course options.

Academic Learning Compact

A major in geography enables students to know the earth's physical environment, to learn social, cultural and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically and/or with statistics.

The Bachelor of Arts in geography enables students to learn how geographic techniques, skills and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

Before Graduating Students Must

- Complete a capstone exam in GEO 4930, as developed by geography faculty.
- Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human#environment interactions, and the techniques of geographic science.

Critical Thinking

2. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

Communication

3. Interpret and effectively communicate information spatially, graphically and/or with statistics.

Geography | BA | Environmental Geosciences

Geography is the science of place, space, and environment. Each place on earth is distinguished by a unique mix of natural resources, cultural practices, and socioeconomic and political systems. Geographers study what makes each place unique, as well as the connections and interactions between places.

About this Program

To graduate with this major, students must complete all university, college, and major requirements.

Geography offers exciting undergraduate degrees at UF. Students learn from world-renowned faculty and award-winning mentors, and contribute to groundbreaking research, all while studying topics that have great environmental and social significance. Geography is an integrated and highly interdisciplinary field of study spanning the physical world and society. It is also a hands-on discipline, with a strong emphasis on computer-based tools and field studies.

Geographers can choose to study an enormous range of subjects, essentially anything that has a spatial component. Students who major in geography use the lens of space to examine issues as diverse as climate variability and change on the African continent, malaria outbreaks in Africa and South America, deforestation and land conflict in the Amazon, and the origin and spread of blues music in the Southeastern United States. Across the globe, geographers study tropical cyclones, river restoration, disease outbreaks, the role of parks and other protected areas, changes in land cover, forest management and fragmentation, community conservation, emerging infectious diseases, environmental influences on the elderly, and economic development.

Geography explores the relationship between human and biophysical systems and deals with some of the most critical issues of our time such as environmental hazards, climate change, sustainability of resource management systems, international development, and community and urban planning. Understanding the concept of place, including how and why places differ from each other, is a central concern. Students who have social and economic interests can enter into careers in international development, urban and regional planning, geographic information systems, and environmental consultancy. Students who combine the study of socioeconomic factors and the biophysical world can work in resource management, conservation, environmental assessment, and watershed and coastal planning.

Coursework for the Major

The geography major has five different programs: the Bachelor of Arts, the Bachelor of Science, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geological Sciences), the Bachelor of Arts in medical geography in global health, and the Bachelor of Science in medical geography in global health. Coursework for the major will depend upon the program, which are all flexible. Students must earn a minimum grade of C in all coursework for the major.

Students who are uncertain of a program should contact the Department of Geography's undergraduate coordinator for information and curriculum planning.

Required Coursework

All majors take some techniques courses, including GEO 3162C and a minimum of two additional courses that involve working with data and computers. All majors take a regional course, focusing on the countries, cultures and landscapes of one region in the world. The systematic courses include specialized courses in human or environmental/physical geography, but majors can also take additional techniques courses as part of this requirement. Students can concentrate coursework in economic geography and planning, environmental/physical geography, geospatial technologies, medical geography, or natural resource management.

Coursework for the major will depend upon the degree program. Courses for each program are listed below under Critical Tracking and Model Semester Plan.

Bachelor of Arts in Geography
Best suited for students interested in careers in urban and regional planning, business geography, medical geography, and geographic education, or for students who want a broad overview of the discipline with a focus on human geography.

Bachelor of Arts in Environmental Geosciences
A joint program between the Department of Geography and the Department of Geological Sciences and is intended for students interested in land and water aspects of the environment. The degree focuses on human impacts, water and mineral resource exploitation and management, disasters, environmental planning, earth science education, or environmental law.

Bachelor of Science in Geography
Best suited for someone who wishes to pursue a career in environmental consulting or graduate work in physical geography or related natural sciences, including atmospheric science, geosciences, hydrologic sciences, or meteorology.

Bachelor of Arts in Medical Geography in Global Health
Intended for students interested in social and cultural aspects of medical geography and global health and disease issues. The degree focuses on human impacts, cultural and social aspects of health and disease, and public health planning and management.

Bachelor of Science in Medical Geography in Global Health
Best suited for someone who wishes to pursue a career in public or animal health or disease management or graduate work in medical geography, public health or related natural sciences, including ecology, biology, or epidemiology/public health. This specialization offers the flexibility for students to prepare for admission to health professions programs.

Geography Minor

Geography is the science of place, space, and environment. It is an interdisciplinary field investigating topics of environmental and social significance through data collection, use of computer-based tools, and field studies. A geography minor complements majors in agricultural sciences, business, environmental sciences, geology, health sciences, international studies, journalism, social sciences, and travel and tourism.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 15 | Completed with minimum grades of C
- **Related Geography Programs**

Students pursuing the Bachelor of Arts in geology with a specialization in environmental geosciences are not eligible for this minor.

No more than six transfer credits may count toward the minor. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major or other minors.

Required Courses

Code	Title	Credits

Geography | Environmental Geosciences

Environmental Geosciences is an interdisciplinary curriculum integrating physical, chemical and biological aspects of the environment and environmental systems. There remains a huge demand for scientists with quantitative, interdisciplinary training in environmental geosciences to address, mitigate, and manage a multitude of complex environmental problems facing society.

About this Program

- **Degrees:** Bachelor of Arts
- **Credits for Degree:** 120
- **Additional Information**
- **Contact:** Email (liangmao@ufl.edu?subject=UF Online Geography Major) | 1.855.99GATOR
- **Related Geography Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The Bachelor of Arts in environmental geosciences is a joint program between the Department of Geography and the Department of Geological Sciences and is intended for students interested in land and water aspects of the environment. The degree focuses on human impacts, water and mineral resource exploitation and management, disasters, environmental planning, earth science education, or environmental law. Potential careers include natural resource management, environment protection, USGS, NGOs, etc.

Coursework

The Bachelor of Arts in environmental geosciences requires a minimum of 37 credits of coursework, including STA 2023 Students must earn a minimum grade of C in all coursework for the major.

Required Coursework

Code	Title	Credits
GEO 2200	Physical Geography	4
& 2200L	and Physical Geography Laboratory	
GIS 3043	Foundations of Geographic Information Systems	4
GLY 2010C	Physical Geology	3-4
or GLY 2030C	Environmental and Engineering Geology	
GLY 2100C	Historical Geology	4
or GLY 3105C	Evolution of Earth and Life	
GLY 3202C	Earth Materials	3
GEO 4930	Senior Seminar	1
Select three geography electives:		9-12
GEO 2242	Extreme Weather	
GEO 3250	Climatology	
GEO 3452	Introduction to Medical Geography	
GEO 4281	River Forms and Processes	
GEO 4911	Undergraduate Research in Geography	

GEO 4938	Selected Topics in Geography	
GEO 4905	Individual Work	
GEO 4944	Internship	
GEO 4970	Honors Thesis	
GIS 3001C	Spatial Maps and Graphs	
GIS 4021C	Aerial Photo Interpretation	
GIS 4037	Digital Image Processing	
GIS 4911	Undergraduate Research in Geospatial Trends	
MET 4560	Atmospheric Teleconnections	
Select two geology electives:		6-7
GLY 3163	Geology American National Parks	
GLY 3603C	Paleontology	
GLY 3882C	Hydrogeology and Human Affairs	
GLY 4155C	Geology of Florida	
GLY 4552C	Sedimentary Geology	
GLY 4700	Geomorphology	
GLY 4822	Groundwater Geology	
Total Credits		34-39

Up to 3 credits of geography electives can come from the group of GEO 4944, GEO 4970, and GEO 4905

The same course may not be used to satisfy requirements for more than one group.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete one critical-tracking course with laboratory (GEO 2200/GEO 2200L or GLY 2010C) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 3

- Complete the other critical-tracking course with laboratory (GEO 2200/GEO 2200L or GLY 2010C) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 4

- Complete STA 2023 and maintain a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete 2 additional GLY or GEO courses with a 2.5 critical-tracking GPA.
  Recommended GLY courses include GLY 2100C or GLY 3105C. Recommended GEO courses include GEO 3250, GEO 4281, and GIS 4037.
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically GE-C, H, or S). 3000 level or above Geography courses may count towards 3000 level electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
State Core Gen Ed Composition (p. 23); Writing Requirement		3
State Core Gen Ed Mathematics (p. 23) [1]		3
Foreign language		4-5
Elective		3
	Credits	16-17

Academic Learning Compact

The Bachelor of Arts in geology provides knowledge of the basic concepts related to earth materials and processes, and how to collect and organize geological data in the field. Through laboratory and field-based exercises, students will learn how to interpret geologic maps and cross sections, and to understand the application of the scientific method to solve these problems in teams and individually.

Before Graduating Students Must

- Pass GLY 4155C according to the department grading rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and define the basic concepts related to earth materials and processes.
2. Collect data in the field.
3. Organize geologic, temporal and spatial data.

Critical Thinking

1. Interpret geologic maps and cross sections.
2. Interpret results using the scientific method.

Communication

1. Produce a clearly and effectively written synthesis of data collected in the field.
2. Work in teams to solve geologic problems and to present the results of such collaboration effectively.

Geography UF Online

Geography is the science of place, space, and environment. Each place on earth is distinguished by a unique mix of natural resources, cultural practices, and socio-economic and political systems. Geographers study what makes each place unique, as well as the connections and interactions between places.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Contact:** Email (liangmao@ufl.edu) | 1.855.99GATOR
- **Additional Information**
- **Related Geography Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Geography offers exciting undergraduate degrees at UF. Students learn from world-renowned faculty and award-winning mentors, and contribute to groundbreaking research, all while studying topics that have great environmental and social significance. Geography is an integrated and highly interdisciplinary field of study spanning the physical world and society. It is also a hands-on discipline, with a strong emphasis on computer-based tools and field studies.

Geographers can choose to study an enormous range of subjects, essentially anything that has a spatial component. Students who major in geography use the lens of space to examine issues as diverse as climate variability and change on the African continent, malaria outbreaks in Africa and South America, deforestation and land conflict in the Amazon, and the origin and spread of blues music in the Southeastern United States. Across the globe, geographers study tropical cyclones, river restoration, disease outbreaks, the role of parks and other protected areas, changes in land cover, forest management and fragmentation, community conservation, emerging infectious diseases, environmental influences on the elderly, and economic development.

Geography explores the relationship between human and biophysical systems and deals with some of the most critical issues of our time such as environmental hazards, climate change, sustainability of resource management systems, international development, and community and urban planning. Understanding the concept of place, including how and why places differ from each other, is a central concern. Students who have social and economic interests can enter into careers in international development, urban and regional planning, geographic information systems, and environmental consultancy. Students who combine the study of socioeconomic factors and the biophysical world can work in resource management, conservation, environmental assessment, and watershed and coastal planning.

Coursework for the Major

The Bachelor of Arts degree requires 33-35 credits of coursework in geography, plus 3 credits of STA 2023. Students must earn a minimum grade of C in all coursework for the major.

Code	Title	Credits
Required Coursework		
GEO 2200 & 2200L	Physical Geography and Physical Geography Laboratory	4

Electives to reach the 120-credit minimum will vary depending on whether students select minimum or maximum credit course options.

Academic Learning Compact

A major in geography enables students to know the earth's physical environment, to learn social, cultural and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically and/or with statistics.

The Bachelor of Arts in geography enables students to learn how geographic techniques, skills and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

Before Graduating Students Must

- Complete a capstone exam in GEO 4930, as developed by geography faculty.
- Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human#environment interactions, and the techniques of geographic science.

Critical Thinking

2. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

Communication

3. Interpret and effectively communicate information spatially, graphically and/or with statistics.

Geological Sciences Certificate

This certificate offers coursework in geological sciences relevant to environmental policy and law, resource economics, teaching, regional planning, building construction, and related fields. The certificate program includes courses required to take the professional geologist licensure exam.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 16-17 | Completed with minimum grades of C
- **Contact:** Email (jmeert@ufl.edu) | 352.846.2414
- **Related Geology Programs**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

This certificate is offered via distance learning to UF students. Degree-seeking geological science majors are not eligible for this certificate.

Geology

A geology degree provides an understanding of issues associated with the physical earth and skills which are in demand in today's job market. The geology graduate will have a detailed understanding of climate change, sustainability of the Earth's resources, and the close interplay between human activity and the environment.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degrees:** Bachelor of Arts (p. 751) | B.A.: Environmental Geosciences (p. 761) | Bachelor of Science (p. 756)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Geology Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Techniques such as environmental assessment, geological hazard assessment, field-based techniques, and geographic information systems (GIS) are used to evaluate the impact of humans on the physical earth and hydrologic environment. The practical and flexible curriculum, small class sizes, computer-based learning, strong faculty, and coursework in several areas of general education make this major appealing to students who want skills linked to employment or preparation for entry to professional schools (e.g., law, medicine, business).

Geology majors learn about the Earth's physical environment including climate, non-renewable geological resources, renewable geological resources, geological hazards and remediation as well as basic skills required by geologists. These skills and the geological perspective open doors to employment in government agencies and private firms that deal with water management, mining and petroleum exploration, climate change, the environment, and education.

Coursework for the Major

The geology major has three different specializations: the Bachelor of Arts, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geography), and the Bachelor of Science. Students who are uncertain which program best suits them should consult the Department of Geology's undergraduate coordinator for information and guidance on curriculum planning.

Bachelor of Arts

This degree is the most flexible degree, and best suited for students interested in careers in education or environmental policy making. The degree also allows students flexibility to pursue advanced degrees in environmental law or environmental medicine.

Bachelor of Arts | Environmental Geosciences

Co-offered by the Department of Geography, this specialization is designed for students interested in land and water aspects of the environment. It can be tailored to focus on water and mineral exploration and management, geological hazards, environmental planning, resource sustainability, or earth science education.

Bachelor of Science

This degree is designed for students planning to take the professional geology (PG) licensure exam and/or to continue on to graduate study in geology. It emphasizes a core understanding of petrology, structural geology, field methodology and paleontology, and it requires significant introductory coursework in calculus, general chemistry, and physics.

Relevant Minors and/or Certificates

UFTeach Program

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see the undergraduate coordinator about the UFTeach program. UFTeach students can complete the UFTeach minor in science teaching along with their B.A. or B.S in geology and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (http://education.ufl.edu/uf-teach)

Research

Students in geology who wish to graduate with high or highest honors will be required to conduct an independent research project under the direction of a faculty member. Students are also afforded the opportunity to conduct research within the department's laboratories regardless of their honors status.

- **Related Geology Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Techniques such as environmental assessment, geological hazard assessment, field-based techniques, and geographic information systems (GIS) are used to evaluate the impact of humans on the physical earth and hydrologic environment. The practical and flexible curriculum, small class sizes, computer-based learning, strong faculty, and coursework in several areas of general education make this major appealing to students who want skills linked to employment or preparation for entry to professional schools (e.g., law, medicine, business).

Geology majors learn about the Earth's physical environment including climate, non-renewable geological resources, renewable geological resources, geological hazards and remediation as well as basic skills required by geologists. These skills and the geological perspective open doors to

employment in government agencies and private firms that deal with water management, mining and petroleum exploration, climate change, the environment, and education.

Coursework for the Major

The geology major has three different specializations: the Bachelor of Arts, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geography), and the Bachelor of Science. Students who are uncertain which program best suits them should consult the Department of Geology's undergraduate coordinator for information and guidance on curriculum planning.

Bachelor of Arts

This degree is the most flexible degree, and best suited for students interested in careers in education or environmental policy making. The degree also allows students flexibility to pursue advanced degrees in environmental law or environmental medicine.

Bachelor of Arts | Environmental Geosciences

Co-offered by the Department of Geography, this specialization is designed for students interested in land and water aspects of the environment. It can be tailored to focus on water and mineral exploration and management, geological hazards, environmental planning, resource sustainability, or earth science education.

Bachelor of Science

This degree is designed for students planning to take the professional geology (PG) licensure exam and/or to continue on to graduate study in geology. It emphasizes a core understanding of petrology, structural geology, field methodology and paleontology, and it requires significant introductory coursework in calculus, general chemistry, and physics.

Relevant Minors and/or Certificates

UFTeach Program

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see the undergraduate coordinator about the UFTeach program. UFTeach students can complete the UFTeach minor in science teaching along with their B.A. or B.S in geology and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (http://education.ufl.edu/uf-teach)

Research

Students in geology who wish to graduate with high or highest honors will be required to conduct an independent research project under the direction of a faculty member. Students are also afforded the opportunity to conduct research within the department's laboratories regardless of their honors status.

Bachelor of Arts

The geology B.A. requires a minimum of 32 credits of coursework in the major. At least 23 credits must be GLY-prefixed courses at the 3000 level or above, excluding GLY 3105C. Students must earn a minimum grade of C for coursework to count toward the major.

Required Coursework

Code	Title	Credits
Introductory Coursework		
Select one general introductory course:		3-4
GLY 2010C	Physical Geology	
GLY 2030C	Environmental and Engineering Geology	
Any 1000-2000-level GLY, OCE or ESC course		
Select one historical geology courses:		4
GLY 3105C	Evolution of Earth and Life	
GLY 2100C	Historical Geology	
Core Coursework		
GLY 3202C	Earth Materials	3-4
or GLY 3200C	Principles of Mineralogy	

Additional Geology courses at the 3000 level or higher [1]		17
1000-4000 level Geology course		2-4
Capstone Course		
GLY 4155C	Geology of Florida	3
Total Credits		32-36

[1] Excluding GLY 3105C; minimum 17 credits.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400601&track=1/2) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete one General Education Mathematics course
- Complete 1 of 3 critical-tracking courses with a 2.5 critical-tracking GPA. Choose one from a general introductory course (GLY 2010C, GLY 2030C, or any 1000-2000 level GLY, OCE or ESC course), a historical geology course (GLY 3105C or GLY 2100C), or a 3000-level geology course.

  GLY 2010C or GLY 2030C is recommended as one of these is prerequisite to many upper-level courses.
- 2.0 UF GPA required

Semester 4

- Complete one additional critical-tracking course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete all tracking courses with a 2.5 critical-tracking GPA; one general introductory course (GLY 2010C, GLY 2030C, or any 1000-2000 level GLY, OCE, or ESC course), one historical geology course (GLY 3105C or GLY 2100C), and one 3000-level geology course.
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically GE-C, H, or S). One of the two general education mathematics courses must be a pure math course.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

This degree is the most flexible degree, and best suited for students interested in careers in education or environmental policy making. The degree also allows students flexibility to pursue advanced degrees in environmental law or environmental medicine.

Bachelor of Arts | Environmental Geosciences

Co-offered by the Department of Geography, this specialization is designed for students interested in land and water aspects of the environment. It can be tailored to focus on water and mineral exploration and management, geological hazards, environmental planning, resource sustainability, or earth science education.

Bachelor of Science

This degree is designed for students planning to take the professional geology (PG) licensure exam and/or to continue on to graduate study in geology. It emphasizes a core understanding of petrology, structural geology, field methodology and paleontology, and it requires significant introductory coursework in calculus, general chemistry, and physics.

Relevant Minors and/or Certificates

UFTeach Program

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see the undergraduate coordinator about the UFTeach program. UFTeach students can complete the UFTeach minor in science teaching along with their B.A. or B.S in geology and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (http://education.ufl.edu/uf-teach)

Research

Students in geology who wish to graduate with high or highest honors will be required to conduct an independent research project under the direction of a faculty member. Students are also afforded the opportunity to conduct research within the department's laboratories regardless of their honors status.

Bachelor of Arts: Environmental Geosciences

This specialization is well-suited for students interested in environmental science, environmental policy, Earth science teaching, or environmental law and offers a unique interdisciplinary perspective between geology and geography. The major requires a minimum of 40 credits of coursework

and is a joint offering between the Department of Geological Sciences and Department of Geography. Students must earn a minimum grade of C for coursework to count toward the major.

Required Coursework

Code	Title	Credits
GEO 2200	Physical Geography	4
& 2200L	and Physical Geography Laboratory

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete one critical-tracking course with laboratory (GEO 2200/GEO 2200L or GLY 2010C) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 3

- Complete the other critical-tracking course with laboratory (GEO 2200/GEO 2200L or GLY 2010C) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 4

- Complete STA 2023 and maintain a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete 2 additional GLY or GEO courses with a 2.5 critical-tracking GPA. (GLY 2100C or GLY 3105C recommended)
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically GE-C, H, or S). 3000 level or above Geography courses may count towards 3000 level electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

Bachelor of Arts

The Bachelor of Arts in geology provides knowledge of the basic concepts related to earth materials and processes, and how to collect and organize geological data in the field. Through laboratory and field-based exercises, students will learn how to interpret geologic maps and cross sections, and to understand the application of the scientific method to solve these problems in teams and individually.

Before Graduating Students Must

- Pass GLY 4155C Geology of Florida according to the department grading rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and define the basic concepts related to earth materials and processes.
2. Collect data in the field.
3. Organize geologic, temporal and spatial data.

Critical Thinking

4. Interpret geologic maps and cross sections.
5. Interpret results using the scientific method.

Communication

6. Produce a clearly and effectively written synthesis of data collected in the field.
7. Work in teams to solve geologic problems and to present the results of such collaboration effectively.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4	SLO 5	SLO 6	SLO 7

Assessment Types

- Lab assignments
- Projects
- Exams

Bachelor of Science

The Bachelor of Science in geology provides knowledge of the basic concepts, theories, observational findings related to earth materials and processes, minerals and rocks, geologic time, stratigraphy and landforms. Through laboratory and field-based exercises, students will learn how to analyze data in the published literature, synthesize analog and digital datasets to produce geological maps, and understand the application of the scientific method to solve geological problems in teams and individually.

Before Graduating Students Must

- Pass GLY 4790 Summer Field Camp according to the department grading rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and define the basic concepts related to earth materials and processes.
2. Identify and describe minerals and rocks.
3. Define geologic time, stratigraphy and landforms.

Critical Thinking

4. Analyze data in the published literature.
5. Synthesize analog and digital datasets to produce geologic maps.
6. Apply the scientific method to the analysis of published and self-generated data.

Communication

7. Use computers for the presentation of geologic maps and data.
8. Solve geologic problems in teams and present the result of such collaboration effectively.

- Six weeks of practical field exercises and mapping, including observation and data collection in New Mexico and the western USA

Geology Minor

The College of Liberal Arts and Sciences is the largest college on campus, with more than 10,000 undergraduate students pursuing a variety of disciplines through its 33 majors and 48 minors. Undergraduate students acquire an intellectual foundation based on a well-rounded and comprehensive education designed for an increasingly technological and rapidly changing society.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 17 | Completed with minimum grades of C
- **Related Geology Programs**

Students pursuing the Bachelor of Arts in geography with a specialization in environmental geosciences are not eligible to receive this minor. All students should consult the undergraduate advisor.

A minimum of nine credits must be completed at UF and nine credits must be at the 3000/4000 level. No more than one credit of independent study will be accepted. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Geology UF Online

A geology degree provides an understanding of issues associated with the physical earth and skills which are in demand in today's job market. The geology graduate will have a detailed understanding of climate change, sustainability of the Earth's resources, and the close interplay between human activity and the environment.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **Additional Information**
- **Related Geology Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Techniques such as environmental assessment, geological hazard assessment, field-based techniques, and geographic information systems (GIS) are used to evaluate the impact of humans on the physical earth and hydrologic environment. The practical and flexible curriculum, small class sizes, computer-based learning, strong faculty and coursework in several areas of general education make this major appealing to students who want skills linked to employment or preparation for entry to professional schools (e.g., law, medicine, business).

Geology majors learn about the Earth's physical environment including climate, non-renewable geological resources, renewable geological resources, geological hazards and remediation as well as basic skills required by geologists. These skills and the geological perspective open doors to employment in government agencies and private firms that deal with water management, mining and petroleum exploration, climate change, the environment and education.

The Bachelor of Arts in geology is best suited for students interested in careers in education or environmental policy making. The degree also allows students flexibility to pursue advanced degrees in environmental law or environmental medicine.

Research

Students in geology who wish to graduate with high or highest honors will be required to conduct an independent research project under the direction of a faculty member. Students are also afforded the opportunity to conduct research within the department's laboratories regardless of their honors status.

Coursework for the Major

The geology B.A. requires a minimum of 32 credits of coursework in the major. At least 23 credits must be GLY-prefixed courses at the 3000 level or above, excluding GLY 3105C. Students must earn a minimum grade of C for coursework to count toward the major.

Required Coursework

Code	Title	Credits
Introductory Coursework		
Select one general introductory course:		3-4
GLY 2010C	Physical Geology	
GLY 2030C	Environmental and Engineering Geology	
Any 1000-2000-level GLY, OCE or ESC course		
Select one historical geology course:		4
GLY 3105C	Evolution of Earth and Life	
GLY 2100C	Historical Geology	
Core Coursework		
GLY 3202C	Earth Materials	3-4
or GLY 3200C	Principles of Mineralogy	
Additional Geology courses at the 3000 level or higher [1]		17
1000-4000 level Geology course		2-4
Capstone Course		
GLY 4155C	Geology of Florida	3

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400601&track=1/2) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete one General Education Mathematics course
- Complete 1 of 3 critical-tracking courses with a 2.5 critical-tracking GPA. Choose one from a general introductory course (GLY 2010C, GLY 2030C, or any 1000-2000 level GLY, OCE or ESC course), a historical geology course (GLY 3105C or GLY 2100C), or a 3000-level geology course.

  GLY 2010C or GLY 2030C is recommended as one of these is prerequisite to many upper-level courses.
- 2.0 UF GPA required

Semester 4

- Complete one additional critical-tracking course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete all tracking courses with a 2.5 critical-tracking GPA; one general introductory course (GLY 2010C, GLY 2030C, or any 1000-2000 level GLY, OCE or ESC course), one historical geology course (GLY 3105C or GLY 2100C), and one 3000-level geology course.
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically GE-C, H, or S). One of the two general education mathematics courses must be a pure math course.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Geospatial Information Analysis Certificate

Geospatial information analysis is used increasingly in both research and practice with job opportunities expected to grow 29% from 2014 to 2024.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 11-12 | Completed with minimum average grade of 2.67
- **Contact:** Email (liangmao@ufl.edu) | 352.294.7516

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Covers a variety of geospatial technologies and analytical methods such as digital mapping, geographic information system (GIS), and remotely sensed image processing, aiming to develop spatial thinking ability for students. Lab-based applications emphasize hands-on experiences of these technologies.

Open to all currently enrolled undergraduate students. At least nine credits of coursework must be unique to the Geospatial Information Analysis certificate out of all other certificates and minors.

Required Courses

German

Foreign Languages and Literatures

German studies encompasses the works of German literature, the culture of the Middle Ages, German cinema, writings of ethnic minorities in German-speaking countries, economics, and the European Union. By acquiring proficiency in the German language, students learn the most widely spoken language in Europe and join a community of more than 130 million speakers of German around the world.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Additional Information**
- **Related German Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

The German specialization of the Foreign Languages and Literatures major is not limited to knowing the language, but instead helps the student achieve multiple literacies. In the major, the study of language merges with the study of culture and includes:

- The works of German literature as well as German culture and civilization from the Middle Ages through the end of the 20th and the beginning of the 21st century
- German cinema
- The writings of ethnic minorities in German-speaking countries
- The terminology of business, economics, and the European Union
- Summer studies or full-semester studies at a German or Austrian university.

For many students, the curriculum is an enriching discovery of their own past: more than 60 million Americans are at least partly of German heritage. More Americans can trace their ancestry to Germany than to any other foreign country, and since the middle of the 20th century more Americans have lived and worked in Germany than in any other foreign country.

Coursework for the Major

The German specialization in Foreign Languages and Literatures consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

Ordinarily, students will need to have completed GER 2200 Intermediate German 1 by their fifth semester at UF to be able to complete the German major.

Required Foundation Coursework | 16 Credits

Code	Title	Credits
GER 1130	Beginning Intensive German 1	5

Critical Concentration		
Although courses may appear in more than one group they may be counted toward only one group		
Select 9 credits from one concentration:		9
Intensive Area Studies: German (Recommended for those planning to pursue careers requiring advanced level skills in German or graduate work in German Studies)		
Comparative Cultural Studies		
Film and Visual Culture		
Literary Studies		
Medieval and Early Modern Studies		
Total Credits		33

Up to 15 credits of 3000/4000-level classes can be transferred from another institution.

No more than 3 credits can be earned in independent studies courses such as GEW 4905.

Overseas Study

The program recommends its summer program in Mannheim, Germany. Students can complete nine credits at the intermediate or advanced level depending on prerequisites met.

Placement

Students without prior German should take the GER 1130 and GER 1131 sequence (five credits each). An alternative manner of completing the basic language sequence in a single year is by taking the online German sequence GER 1125 and GER 1126, Discover German. These 10 credit sequences fulfill the college's language requirement.

Students with previous training in one of the languages should speak with the department.

Related German Programs

- German minor (p. 779)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160501&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete GER 1125 or GER 1130 or higher-level German course
- 2.0 UF GPA required

Semester 3

- Complete GER 1126 or GER 1131 or higher-level German course with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Maintain completion of GER 1131 or GER 1126 or higher-level German course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete GER 2200 or any 2000-level German course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). 3000 level or above critical concentration courses outside of German may count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
Category A[1]	I, R	I	I	I, R, A
Category B[2]	I,R, A	I, R, A	I, R, A	

1 Courses focus on the acquisition of the language(s) of specialization at the advanced level.

2 Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types

- Proficiency exams
- Term papers or final projects
- Oral presentations

German Minor

This minor provides a linguistic foundation in the German language equivalent to the B1-B2 level according to the Common European Framework of Reference for Languages, and practical experience with different kinds of texts, films, and cultural issues important to speakers of German.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 15 | Completed with minimum grades of C
- **Related German Programs**

Students cannot transfer more than six credits toward the minor. No more than three credits can be Individual Work (GEW 4905).

One German course taught in English (GET prefix) can count toward the minor and can be taken concurrently with the basic language sequence.

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Code	Title	Credits

Health Disparities in Society Minor

Health disparities describe the disproportionate burden of disease, lack of access to health care, and poorer health outcomes found among members of socially disenfranchised populations. Health disparities exist at multiple levels of society (global, national, institutional, local, and personal) and among people of diverse geographic locations, linguistic groups, socioeconomic status, and sociocultural groups. Housed in the Center for Gender, Sexualities, and Women's Studies Research (CGSWSR), the Health Disparities in Society (HDS) minor provides an interdisciplinary, intersectional framework to examine how multiple social identities (e.g., race, gender, sexual orientation, and socioeconomic status) intersect to reveal interlocking inequalities and preventable disparities in health.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 15 | Completed with minimum grades of C and no optional S-U | 9 must be at the 3000-level or above
- **Related Women's Studies Programs**

Requirements

- No more than three credits of independent study may count toward the minor.
- Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.
- Students must complete at least three courses at the 3000 level or higher and each must be at least three credits.

- Sometimes, and with the approval of the undergraduate coordinator for Women's Studies, students may petition to have other, relevant classes approved as substitutes within each category of electives within the minor. Such courses could include department *special topics* offering with numbers like 3930, 4930.

Each semester, courses offered for this minor are listed on the Women's Studies courses website.

Hebrew

Foreign Languages and Literatures

By assuming an interdisciplinary approach to Hebrew language and culture, students acquire knowledge of the close relationship between politics, history, religions, arts and cultures in Israel. In addition to working toward proficiency in Hebrew, students will develop close reading and critical thinking skills. Students graduating with this major will find job opportunities in Jewish community organizations, the government, and consulting. In addition, due to the interdisciplinary nature of the major, students will be well prepared for the rigor of graduate studies in the humanities.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Related Hebrew or Jewish Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills, and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

Coursework for the Major

The Hebrew specialization of the Foreign Languages and Literatures major consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

Required Foundation Coursework | 18 Credits

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160501&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete HBR 1130 or higher-level Hebrew Language course with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete HBR 1131 or higher-level Hebrew Language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete HBR 2220 or a higher-level Hebrew Language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
HBR 1130	Beginning Modern Hebrew 1 (**Critical Tracking**)	5
State Core Gen Ed Biological or Physical Sciences (p. 23)		3
State Core Gen Ed Composition (p. 23); Writing Requirement		3
State Core Gen Ed Social and Behavioral Sciences (p. 23)		3
	Credits	14
Semester Two		
HBR 1131	Beginning Modern Hebrew 2 (**Critical Tracking**)	5
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
Gen Ed Biological or Physical Sciences (area **not** taken in semester one)		3
State Core Gen Ed Mathematics (p. 23)		3
Select one science laboratory (Gen Ed Physical Sciences or Biological)		1
	Credits	15
Semester Three		
HBR 2220	Intermediate Modern Hebrew 1 (**Critical Tracking**)	4
State Core Gen Ed Humanities (p. 23)		3
Gen Ed Mathematics		3
Gen Ed Physical Sciences		3
Gen Ed Social and Behavioral Sciences		3
	Credits	16
Semester Four		
HBR 2221	Intermediate Modern Hebrew 2	4
Advanced elective (3000 level or above, in the major)		3
Electives (3000 level or above, not in major)		6
Gen Ed Social and Behavioral Sciences and Diversity		3
	Credits	16
Semester Five		
HBR 3410	Advanced Modern Hebrew 1 (Gen Ed Humanities and International)	3
Critical concentration course		3
Gen Ed Biological Sciences		3
Gen Ed Composition; Writing Requirement		3
Advanced elective (3000 level or above; in the major)		3
	Credits	15

Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
Category A[1]	I, R	I	I	I, R, A
Category B[2]	I, R, A	I, R, A	I, R, A	

1 Courses focus on the acquisition of the language(s) of specialization at the advanced level.

2 Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types

- Proficiency exams
- Term papers or final projects
- Oral presentations

Hebrew Minor

UF offers a number of new courses on Hebrew, Israeli, and Yiddish language and culture. These include language and content courses, advanced seminars, and a reading honors course. This complete program takes students from the Hebrew alphabet into contemporary Israeli and Jewish culture.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 15 | Completed with minimum grades of C
- **Related Hebrew or Jewish Programs**

Students pursuing a major in Jewish studies are not eligible for this minor.

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Hispanic and Latin American Languages, Literatures and Linguistics

Focusing on globalization, diversity, and public engagement, the Hispanic and Latin American Languages, Literatures and Linguistics major provides an interdisciplinary, multilingual approach to the study of Spanish- and Portuguese-speaking cultures drawing from a variety of contemporary perspectives on linguistics, literature, film, theatre, social service, and professions in health, law, business, education, and media.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Specializations:** Spanish (p. 942) | Portuguese (p. 891) | Spanish and Portuguese (p. 790)
- **Credits for Degree:** 120
- **Contact**
- **Additional Information**
- **Related Hispanic and Latin American Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The Hispanic and Latin American Languages, Literatures and Linguistics major offers the opportunity to gain proficiency in Spanish and/or Portuguese, two of the most important languages spoken in the United States, the Western Hemisphere and the world. The department offers courses of study in language, culture, linguistics, and literature, as well as a series of courses in languages for the professions, which focus on medical, legal, business and other professional contexts.

By studying the literary and linguistic heritage of Spanish and Portuguese, students gain critical reading and writing skills that help them acquire and refine their abilities to speak, understand, read and write one of both of these languages.

The Spanish specialization focuses on the language and culture of Spain and Spanish-America, while the Portuguese specialization stresses the language and culture of Brazil, with complementary study of Portugal and Lusophone Africa. The combined specialization recognizes the increasingly prominent roles that Brazil, Spain and Latin America all play in international affairs, especially as they relate to Florida. Spanish- and Portuguese-speakers constitute the fastest growing immigrant populations in Florida. Studying both languages and cultures provide a competitive edge for those seeking careers in business, industry, tourism, health care, agricultural affairs, government, and education.

Coursework for the Major

The different specializations within the Hispanic and Latin American Languages, Literatures and Linguistics major require different coursework, depending on the student focus.

Related Hispanic and Latin American Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Portuguese minor (p. 895)
- Spanish minor (p. 947)
- Spanish for the Professions certificate (p. 947)

Academic Learning Compact

The Bachelor of Arts in Hispanic and Latin American Languages, Literatures and Linguistics enables students to achieve communicative competence in Spanish and/or Portuguese, with an emphasis on all four language skills: speaking, comprehension, reading, and writing. Students will become knowledgeable in the areas of Hispanic and Lusophone cultures, literatures and/or linguistics, and they will learn how to interpret Spanish- and/or Portuguese language texts according to their cultural, literary and linguistic content.

Before Graduating Students Must

- Complete all requirements for the baccalaureate degree, as determined by faculty.
- Satisfactorily complete a written assignment in a 4000-level course that includes the written analysis of a text according to its cultural, literary and/or linguistic content. The text analyzed and the analysis will be in Spanish/Portuguese.
- Satisfactorily deliver an oral presentation in Spanish/Portuguese on the topic of the written paper. Presentation will include answering questions from audience members.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.

Critical Thinking

2. Analyze cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.

Communication

3. Demonstrate competence in written Spanish and/or Portuguese, including knowledge of grammar, vocabulary, orthography and appropriate stylistic conventions.
4. Demonstrate communicative competence in spoken Spanish and/or Portuguese, including the ability to understand the spoken language, speak with correct grammar, vocabulary and pronunciation, and use appropriate registers.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160905&track=01) may be used for transfer students.

The combined track is designed for students who already possess some proficiency in one or both languages and do not need to begin with beginning coursework in both. The more common case of previous coursework in Spanish is represented in the critical tracking, but student who have prior knowledge of Portuguese and need to start with basic Spanish should consult with the undergraduate advisors.

Semester 1

- Complete POR 1130 if needed
- Complete SPN 2200
- 2.0 UF GPA required

Semester 2

- Complete POR 1131 (or POR 3010)
- Complete SPN 2200
- 2.0 UF GPA required

Semester 3

- Complete POR 3242
- Complete SPN 2240 or SPN 2340
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Semester 4

- Complete one additional POR 3XXX course
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Semester 5

- Complete SPN 3300 or SPN 3350
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

History

The history department fosters a learning experience that stands apart from newer modes of instruction at large universities. Amid the shift to larger classes, televised lectures and machine-gradable exams, history faculty have chosen to follow a more traditional path. The department's emphasis

on small courses, analytical reading, lively debate, and interpretative writing offers committed students unique rewards. It also comes with high expectations.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Additional Information**
- **Related History Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The history major focuses on the development of three related skill sets critical to professional success in today's complex world:

Writing

History is a writing-intensive discipline. Although assignments vary by course, students will be taught a set of critical skills and research techniques that will help them gather and analyze sources and then marshal the evidence in the presentation of coherent historical arguments.

Critical Analysis

In the typical upper-division course, students read an average of 75 to 125 pages each week. Students will be expected to synthesize the material effectively and come to class prepared to discuss the readings.

Oral Communication

Rather than merely recounting facts from readings and lectures, students will develop their own interpretations of historical events and ideas and discuss them with their peers and professor. They will be expected to contribute actively in the classroom and will on occasion lead discussions and give short reports.

Coursework for the Major

Required Coursework

All history majors must complete a minimum of 36 credits in history with minimum grades of C. Majors must take a minimum of 21 credits of history at UF. History majors may enroll in a maximum of three history courses per semester.

Requirements include:

- HIS 3942, a methodological introduction to the study of history, should be taken in the first year in the major and it must be taken no later than Semester 5.
- AMH 4930 / AFH 4930 / ASH 4930 / EUH 4930 / HIS 4930 / LAH 4930 / WOH 4930 is the capstone course of the major and normally taken in the senior year, although students who plan to write an honors thesis are encouraged to take the course as juniors. In this seminar, students produce a substantial research paper based on primary source research. Enrollment in the research seminar is restricted to majors. The History Research Seminar must be taken at UF.
- 30 additional credits of history courses:
  - at least 21 of the 30 credits must be at the 3000/4000 level
  - At least 9 credits (three courses) in American history (AMH) and European history (EUH), with at least one course in AMH, one course in EUH, and one course in AMH or EUH
  - At least 9 credits (three courses) in AFH, ASH, LAH, or WOH, with a maximum of two courses under any one prefix.
  - The history research seminar may count toward the regional distribution, depending on the prefix of the course taken (AFH, AMH, ASH, EUH, LAH, or WOH).

Prior to graduating, history majors complete an online exit survey (http://our.ufl.edu/historysurvey).

Only exam (AICE, AP, CLEP or IB) credits with course equivalencies for UF courses count toward the requirements for the major and then only at the 2000 level. AMH 0301, EUH 0301, and WOH 0301 do not count toward the major.

Recommended Coursework

Majors are encouraged, but not required, to take a total of nine credits at the introductory 2000 level, including one course in American history (AMH), one course in European history (EUH), and one course in African, Asian, Latin American, or World history (AFH, ASH, LAH, WOH courses).

Combined Degree Program

Majors who are interested in advanced training are encouraged to consider the 4/1 combined degree program.
More Info (http://history.ufl.edu/undergraduate-studies/41-program)

Research

Majors are encouraged to consider advanced research opportunities in history. The department places special emphasis on participation in the history honors program.
More Info (http://history.ufl.edu/undergraduate-studies/undergraduate-honors-program)

Related History Programs

- History minor (p. 797)
- Legal History certificate (p. 835)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=540101&track=01) may be used for transfer students.

Students are advised to take HIS 3942 in their first year as a history major, and it must be taken no later than Semester 5.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 history course at the 2000 level or above
- 2.0 UF GPA required

Semester 3

- Complete 1 additional history course at the 2000 level or above with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 4

- Complete 1 additional history course at the 3000 level or above (recommended) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- By the end of semester 5, students must have completed 4 history courses: HIS 3942, two history courses at the 2000 level or above and one history course at the 3000 level or above
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
HIS 3942	History Practicum (**Critical Tracking**; recommended in the first year)	3
State Core Gen Ed Composition (p. 23); Writing Requirement		3
State Core Gen Ed Humanities (p. 23)		3
State Core Gen Ed Mathematics (p. 23)		3
Foreign language		3-5
	Credits	15-17
Semester Two		
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
State Core Gen Ed Biological or Physical Sciences (p. 23)		3
History course (**Critical Tracking**; 2000 level or above)		3
Science laboratory (Gen Ed Biological or Physical Sciences)		1
Foreign language		3-5
	Credits	13-15
Semester Three		
Gen Ed Biological or Physical Sciences (area **not** taken in semester two)		3
History course (**Critical Tracking**; Gen Ed Humanities; 2000 level or above)		3
Gen Ed Physical Sciences		3
Electives or foreign language if 4-3-3 option		6
	Credits	15
Semester Four		
Electives		6
History course (**Critical Tracking**; 3000 level or above)		3

History courses (3000 level or above)		6
	Credits	15
	Total Credits	120

[1] If AMH 2020 not taken in Semester two or three.

Academic Learning Compact

The history major exposes students to key issues in the history of the United States, Europe and areas of Africa, Asia and Latin America. Students will develop the critical interpretative skills needed to assess both primary and secondary sources in the complex task of thinking about the past. Students will master a set of research skills that help them develop their own historical arguments. Significant emphasis is laid on effective written communication reflected in the cogency of arguments and use of evidence.

Before Graduating Students Must

- Complete the distribution requirements of the major (6 credits in AMH, 6 credits EUH, 6 credits in AFH, ASH or LAH) with minimum grades of C, as graded by department rubric.
- Complete HIS 3942 and HIS 4930 with minimum grades of C, as graded by department rubric.
- Complete 35 credits in history, including at least 26 at the 3000/4000 level, and all with minimum grades of C, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Acquire and apply basic research skills learned through use of print and electronic resources of the library and web.

Critical Thinking

2. Critically assess and interpret primary and secondary sources.
3. Identify a historical research topic related to the focus of the research seminar, develop knowledge of the topic through research, and create historical arguments using evidence effectively with clear purpose.

Communication

4. Produce an effectively written analytical research paper based in research of primary sources, framed within the secondary literature and offering a coherent historical argument supported by evidence.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
AFH, ASH, LAH 3000-4000 level (6 credits)	R	R	R	R
AMH 3000-4000 level (6 credits)	R	R	R	R
AFH, AMH, ASH, EUH, HIS, LAH, WOH 3000-4000 level (15 credits)	R	R	R	R
AFH 4930, AMH 4930, ASH 4930, EUH 4930, HIS 4930, LAH 4930: Senior Seminar	A	A	A	A
EUH 3000-4000 level (6 credits)	R	R	R	R
HIS 3942 History Practicum	I, A	I, A	I	I

Assessment Types

- Skills-set exam
- Capstone statement for final project

History Minor

This minor provides a solid foundation in the study of history, while enhancing a range of skills including critical thinking, historical analysis, persuasive writing, and oral communication.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 15 | Completed with minimum grades of C and no optional S-U
- **Related History Programs**

Requirements

- Only three credits may be taken at the 1000/2000 level
- Individual study courses will not be accepted
- Transfer students must take at least nine credits of history at UF.
- All 15 credits for the minor must be taken in courses with the prefix AFH, AMH, ASH, EUH, HIS, LAH, or WOH
- Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Code	Title	Credits
AFH, AMH, ASH, EUH, LAH, or WOH course (2000 level)		3
AFH, AMH, ASH, EUH, HIS, LAH, or WOH courses (3000/4000 level)		12-15
Total Credits		15-18

Related History Programs

- Bachelor of Arts in History (p. 793)
- Legal History certificate (p. 835)

Holocaust Studies Certificate

The Holocaust studies certificate provides students from any undergraduate major with an interdisciplinary concentration that focuses on intellectual approaches to the Holocaust, other human rights catastrophes, and their representation.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 18 | Completed with minimum grades of C
- **Related Hebrew or Jewish Programs**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

The Holocaust is the greatest crime in human history. It has spawned international libraries of historical studies, religious and philosophical treatises, social science studies in psychology and other fields, novels, poems, and films to say nothing of art, monuments, and architecture.

In and of itself, the Holocaust is critical for an understanding of the depths of human experience through a variety of disciplines. But it also provides a way for understanding how practitioners of different disciplines, from history to anthropology to literature to film, approach the human experience through a crucial common theme.

The certificate provides social science and humanities majors with additional background for a number of career choices ranging from the study of law to human rights work to work in NGOs to library or museum employment or even international business.

Required Courses

Course substitutions are possible at the discretion of the director of the Center for Jewish Studies.

Code	Title	Credits
EUH 3033/JST 3930	History of the Holocaust	3
EUH 3930/JST 3930	Holocaust Studies	3
Holocaust-related courses in history and the social sciences		6
Suggested Holocaust-related courses in literature and film		6
Total Credits		18

- Jewish Studies minor (p. 833)
- European Jewish Studies certificate (p. 688)

Innovation Minor

This minor provides undergraduates in the Innovation Academy an overview of the major functional elements of innovation – creativity, entrepreneurship, ethics, and leadership – and an opportunity to apply them in a multidisciplinary project.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 15-17 | Completed with minimum grades of C and no S-U
- **Additional Information**

Requirements

- Open only to Innovation Academy students.
- All courses for the minor must be completed at UF.
- Flexible learning courses will not apply toward the minor.

With advance approval from the Innovation Academy office, additional 2000-level and above courses may be substituted for required courses.

Required Courses

Code	Title	Credits
IDS 1940	Creativity in Context	2
IDS 1359	Creativity in Action	2
ENT 3003	Principles of Entrepreneurship	3-4
or EGN 4641	Engineering Entrepreneurship

or GEB 3017	Leading Organizations	
PHI 3641	Conduct, Change and Consequences: Making Ethical Decisions	3
ENT 4015	The Venture Accelerator	2
or IDS 4950	Innovation Academy Senior Project	
Total Credits		15-17

Interdisciplinary Studies | CLAS

The College of Liberal Arts and Sciences recognizes that students' academic and professional interests may include more than one discipline and that some majors are not formally available at the university. Because interdisciplinary approaches, research, and curricular activities are becoming increasingly appropriate and valuable within the liberal arts and sciences and other fields, UF students have the option to develop and pursue interdisciplinary (IDS) majors that cross the boundaries of numerous disciplines.

Overviews

- **Additional Information**

IDS is a limited-access major in CLAS that requires a minimum 3.0 UF GPA. Students must select two tenured or tenure-accruing faculty members who agree to work with them from the planning stages to completion of the thesis research proposal. At least one faculty advisor must be a member of CLAS; faculty advisors cannot be from the same department.

Students should begin planning early. They should declare a related CLAS major and then apply to IDS as early as semester four or at the latest by semester five. Transfer students must complete their first semester with a UF GPA of 3.0 before they can apply to this program. Late application may

result in denial of admission to the program. Students interested in pursuing an interdisciplinary major should contact the director of the particular specialization listed below or view the IDS information on the college's website.

Each applicant and their interdisciplinary program must be approved by the inter-college Committee on Interdisciplinary Studies and include at least 20 credits of 3000/4000-level coursework taken in two or more departments. All other CLAS degree requirements (e.g., foreign language, basic distribution, electives, etc.) must be met. The student must also take at least seven credits of IDS 4906 (or equivalent courses) under the direction of one or both of the supervisory faculty members and produce a senior thesis.

Interdisciplinary majors may also graduate with honors recognition. Requirements are the same as for department majors, with the additional provision that *magna cum laude* or *summa cum laude* recognition must be recommended by two members of the student's supervisory committee (including the principal supervisor), who will affirm that the student conducted an individual project in IDS 4906 (or equivalent).

Students in science tracks who are enrolled in IDS 4905 work 3-4 hours per week in the laboratory for each credit earned.

All students with IDS majors are required to complete IDS 1161 in semester 1 or 2.

In addition to the ten established concentrations, students may design a customized course of study in consultation with faculty advisors relevant to the interdisciplinary thesis project. If interested in this option, students should first contact the associate dean for IDS majors.

American Indian and Indigenous Studies

The Department of Anthropology and the College of Liberal Arts and Sciences have established a concentration in American Indian and Indigenous Studies (IDS-AIIS). The AIIS concentration is an extension of the minor and is open to all students with an interest in American Indian topics.

About this IDS Major

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Additional Information**
- **Contact:** Email (baniwa05@ufl.edu) | 352.392.3625
- **Related Programs:** American Indian and Indigenous Studies minor (p. 530)

The concentration offers courses which cut across all disciplines, including anthropology, botany, geology, history, Latin American studies, religion, and wildlife studies. This concentration deals with the issues and concerns of indigenous peoples. Students will have the opportunity to pursue research, write a senior thesis and prepare themselves for graduate work in the field of American Indian and/or indigenous studies.

Biochemistry and Molecular Biology

Applicants with a strong background in basic chemistry and biology can pursue advanced-level work, including required courses in the Department of Biochemistry and Molecular Biology, research in biochemistry and molecular biology and other electives in biochemistry and molecular biology, botany, chemistry, microbiology, neuroscience, pharmacology, and zoology.

About this IDS Major

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **Additional Information**
- **Contact:** Email (korolymj@ufl.edu) | Center for Precollegiate Education and Training | 352.392.7685
- **Related Programs:** Bachelor of Science in Chemistry, Biochemistry (p. 615); Chemistry minor (p. 611)

Graduates will have excellent backgrounds for research in a variety of the basic medical sciences and are qualified for graduate and professional school programs.

Biological Illustration

This program provides a broad program in biological illustration to students preparing to work with museums, university botany, zoology, entomology, anthropology or medical departments and botanical gardens or research organizations.

About this IDS Major

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **Additional Information**
- **Contact:** Email (mfields@ufl.edu) | 2014 Turlington Hall (http://campusmap.ufl.edu/?loc=0267) | 352.392.2264

Enrollment is restricted because of the tutorial nature of much of the instruction. The program admits only a few well-qualified students each year.

For this specialization only, students need to apply in their second semester at UF.

Film and Media Studies

The interdisciplinary B.A., with a concentration in film and media studies, enables students to pursue a liberal arts approach to audio-visual studies. The courses offered provide a range of training from professional and applied (anthropology, architecture, education and theatre) to historical and experimental (art, English, Germanic, Slavic and Romance languages).

About this IDS Major

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Additional Information**
- **Contact:** Email (mturim@ufl.edu) | 4330 Turlington Hall (http://campusmap.ufl.edu/?loc=0267) | 352.294.2835
- **Related Programs:** Bachelor of Arts in English, Film and Media Studies (p. 683)

The film and media studies major encourages students to integrate these offerings by working in both theory and production. For the senior thesis, a student may choose an essay, a film script, a short film or video, or work in a related medium.

The major requires 27 credits minimum, 20 credits of core courses and seven credits from IDS 4906 senior independent work. Majors should take ENG 3115, because it serves as the prerequisite for ENG 4136. Students and sponsors select courses for CLAS electives.

Because many of the courses in the departments of Art, English and Theatre have prerequisites, students should plan their freshman and sophomore work with the major in mind. Under certain circumstances, instructors will waive some prerequisites for IDS majors, but with space at a premium (especially in studio and production classes), students should not try to avoid any requirements. Students may, however, use up to nine credits of 2000-level prerequisites as electives.

Early preparation for the major should include ENG 2300. Other useful courses are:

Code	Title	Credits
GET 3520	Early German Cinema: 1945	4
TPP 2100	Acting for Non-Majors	3
TPP 2110	Acting 1-Instrument and Discipline	3
TPP 2260	Acting for the Camera	3
ARH 2051	Introduction to the Principles and History of Art 2	3
PGY 2441C	Photography: Images, Order and Idea	3
PGY 2442C	Photography: Figure and Ground	3

The major is selective, requiring a 3.0 minimum GPA, two sponsors chosen from faculty in the program and approval of the Interdisciplinary Studies Committee. The application form and information are available online.

Latin American Studies

The Latin American studies concentration offers students the opportunity to pursue individualized study in an increasingly important region of the world (e.g., Brazil is Florida's largest trading partner), making use of UF's extraordinary resources.

About this IDS Major

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120

- **Additional Information**
- **Contact:** Email (pjw@latam.ufl.edu) | 352.392.0375
- **Related Programs:** Latin American Studies minor (p. 834); Latin American Studies certificate (p. 833)

The UF Center for Latin American Studies was founded in 1930 and is one of the largest and most prestigious institutions of its kind in the United States. UF has approximately 180 faculty members whose teaching and research focus to a significant extent is on Latin America and the Caribbean. The Latin American Collection of the George A. Smathers Library is one of few stand-alone collections in the United States and features extraordinary holdings on Brazil, the Caribbean and other areas of Latin America.

This program is built upon the social sciences, humanities, languages and area studies. It requires 21 credits of 3000/4000-level coursework in Latin American and Caribbean area courses, intermediate proficiency in a language of Latin America and the Caribbean (typically Spanish, Portuguese or Haitian Creole), a senior thesis and at least seven credits of IDS 4906.

Medieval and Early Modern Studies

This major focuses on medieval and early modern European culture and its influences on the modern world. Students examine the distinctive forms of cultural organization in these periods, obtain knowledge about medieval and early modern communities (monastic, chivalric, peasant, early urban), and familiarize themselves with some of the world's greatest literature.

About this IDS Major

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Additional Information**
- **Contact:** Email (hasty@ufl.edu) | 263 Dauer Hall (http://campusmap.ufl.edu/?loc=0111) | 352.392.2101
- **Related Programs:** Medieval and Early Modern Studies minor (p. 862)

Students are encouraged to seek historical perspectives that can contribute to current discussions about ethnicity and nationality, colonialism, technologies and their effects, gender and sexuality and the characteristics of historical and fictional narratives. This IDS major involves critical thinking, textual analysis and creativity, and is excellent preprofessional preparation for careers in law, journalism, government services, medicine, library science, international work and teaching.

Middle Eastern Languages and Cultures

Students design a concentration that focuses on an Arabic or Hebrew language and culture. Students acquire knowledge of relationships among language, literature, politics, religion, arts and economics. The major consists of 33 credits and culminates in a senior thesis.

About this IDS Major

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Additional Information:**
  - **Arabic**
  - **Hebrew**
- **Contact:**
  - Arabic: Email (yah@ufl.edu) | 352.273.2958
  - Hebrew: Email (yah@ufl.edu) | 352.846.3845
- **Related Programs:** Bachelor of Arts in Foreign Languages and Literatures, Arabic (p. 550) or Hebrew (p. 782); Arabic Language and Literature minor (p. 556); Hebrew minor (p. 787); Jewish Studies minor (p. 833)

This program provides a two-track major, Arabic and Hebrew. In addition to the major's other requirements and electives, all students must take at least one course (language or content-based) in the track of the second language.

Arabic

The Arabic language is the key to understanding the culture and history of more than 22 nations and more than 206 million speakers. It is the language of an ancient civilization and today is spoken widely across North Africa, the Middle East and the Arabian Peninsula. Arabic is also the liturgical language of more than a billion Muslims, and it is one of the six official languages of the United Nations. The interdisciplinary major in Arabic language

and culture enables students to develop an appreciation for the complexity of the many facets of the Arab world: its society, culture, history, arts, religions, and literary heritage. This major is therefore ideal for students considering careers in diplomacy, journalism, consulting, business, foreign service, translation, and academia. Future graduates would be in great demand for advanced studies in any of these fields.

Arabic Requirements

Code	Title	Credits
ARA 3410	Advanced Arabic 1	6
& ARA 3411	and Advanced Arabic 2	
ARA 4420	Arabic through the Texts	3
ABT 3130	Arabic Literary Heritage 1 (Gen Ed Humanities and International; Writing Requirement)	3
ABT 3500	Arabic Culture (Gen Ed Humanities and International; Writing Requirement; core course)	3
ARA/HBR 4930	Special Topics (Introduction of Semitic Languages; core course)	3
IDS 4906	Interdisciplinary Thesis Research	7
Total Credits		25

Electives

Three to six credits from courses with these prefixes

- ARA, ABT, REL (with reference to Islam or Judaism)
- AFH (with reference to North Africa) and
- CPO and WHO (with reference to the Middle East)

Hebrew

By assuming an interdisciplinary approach to Hebrew language and culture, students acquire knowledge of the close relationship between politics, history, religions, arts, and cultures in Israel. In addition to working toward proficiency in Hebrew, students will develop close reading and critical thinking skills. Students graduating with this major will find job opportunities in Jewish community organizations, the government and consulting. In addition, due to the interdisciplinary nature of the major, students will be well prepared for the rigor of graduate studies in the humanities.

Hebrew Requirements

33 credits

Code	Title	Credits
HBR 3410	Advanced Modern Hebrew 1	6
& HBR 3411	and Advanced Modern Hebrew 2 (Gen Ed Humanities and International)	
ARA/HBR 4930	Special Topics (Comparative Semitic Languages)	3
IDS 4906	Interdisciplinary Thesis Research	7
Select three to six elective credits from prefixes: REL, HBR, HMW, JST, POS (courses related to Judaism, the Bible or the Middle East)		3-6
Total Credits		19-22

An intensive summer study abroad program in Fez, Morocco, is recommended for students at all levels from beginning to advanced. The six-week program earns six transferable credits or 10 credits for beginners.

Modern European Studies

The concentration in modern European studies provides the opportunity to study the geographic region of Europe from an interdisciplinary perspective that incorporates area and language studies. MES students gain extensive language proficiency and experience in modern European studies by fulfilling an expanded language requirement (two additional semesters) and participating in available study-abroad programs.

About this IDS Major

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Contact:** Email (lbooth@ufl.edu) | Center for European Studies | 352.294.7152
- **Additional Information**

The requirements for IDS-MES major are commensurate with the requirements for established IDS concentrations within CLAS. A 3.0 GPA and approval of the CLAS IDS committee are required.

Students choose appropriate disciplines such as anthropology, economics, geography, history, modern languages, political science, and/or sociology to design the core of a major that culminates in a thesis. Through such experience students acquire a thorough knowledge of cultural, economic,

political, and social interrelationships. If unable to participate in study abroad program, students may choose to complete the capstone requirement through internship in an organization that enables them to practice the chosen language and/or fits their selected area of study.

Detailed information is available on the website and students are encouraged to discuss their interests with the Center for European Studies (http://www.ces.ufl.edu/index.shtml).

Neurobiological Sciences

This major focuses on the characteristics and functions of the nervous system. Core courses ensure that students acquire a background in basic sciences, biology and brain science. Through elective courses and completion of an independent research project, supervised by one of the 45 faculty within the Center for Neurobiological Sciences, students can specialize in area(s) of particular interest to them. These areas can include neurochemistry, neurophysiology, neuroembryology, neuroplasticity, and brain/behavior relations. Concentrations are available in behavioral neurobiology, cellular and molecular neurobiology, and cognitive neuroscience.

About this IDS Major

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Additional Information**
- **Contact:** Email (mfields@ufl.edu) | 352.392.2264
- **Related Programs:** Bachelor of Science in Psychology, Behavioral and Cognitive Neuroscience (p. 903)

Many graduates continue their study in neural sciences, including graduate school, professional school in health sciences, and the pharmaceutical industry.

Academic Learning Compacts

American Indian and Indigenous Studies

The interdisciplinary studies major with a concentration in American Indian and indigenous studies provides students with knowledge of the issues and concerns of indigenous peoples of the Western hemisphere. Students will be able to identify and conduct research or field work and understand historical, political, social and religious structures from an indigenous perspective. Students will evaluate the significance, quality and veracity of information gathered in the literature and to apply it effectively. Students will also be able articulate the results of research clearly and effectively.

Before Graduating Students Must

- Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and define major issues of indigenous peoples and conduct research in any of the disciplines which incorporate American Indian topics.

Critical Thinking

2. Integrate different sources and types of knowledge into holistic perspectives about indigenous peoples.
3. Evaluate the significance, quality and veracity of information gathered in the literature and apply it effectively.

Communication

4. Articulate research results clearly and effectively in speech and in writing in an accepted style of presentation.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
IDS 4906, course 1	I, R, A	I, R, A	I, R, A	I, R, A
IDS 4906, course 2	I, R, A	I, R, A	I, R, A	I, R, A
IDS 4906 is the only required course for this major (or equivalent with other prefixes)				

Assessment Types

- Direct assessment of research in the thesis

Biochemistry and Molecular Biology

This interdisciplinary studies major in biochemistry and molecular biology provides students with an understanding of and competence in biochemistry, molecular biology and molecular cell biology. Students will understand and use the scientific approach to gather and verify knowledge. They will be able to draw appropriate conclusions and inferences from properly conducted laboratory research. Students will be able to evaluate the significance, quality and veracity of information gathered via experiment and literature and to apply them effectively. Students will also possess the ability to articulate results clearly and effectively.

Before Graduating Students Must

- Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and explain biochemistry, molecular biology and molecular cell biology.
2. Draw appropriate conclusions and inferences from properly conducted laboratory research.

Critical Thinking

3. Evaluate the significance, quality and veracity of information gathered via experiment and literature and apply them effectively.

Communication

4. Articulate research results clearly and effectively in speech and in writing in an accepted style of presentation.

Assessment Types

- Direct assessment of research in the thesis

Biological Illustration

The interdisciplinary studies major in biological illustration provides knowledge of and competence in biology, structural biology and structural zoology. Students will know and use the scientific approach to gather and verify knowledge. Students will be able to draw appropriate conclusions and inferences from properly conducted laboratory research. They will be able to evaluate the significance, quality and veracity of information gathered via experiment and literature and to apply them effectively. Students will also possess the ability to articulate results clearly and effectively.

Before Graduating Students Must

- Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Demonstrate knowledge of and competence in biology, structural botany and structural zoology.
2. Demonstrate knowledge and use of the scientific approach to gather and verify knowledge.

Critical Thinking

3. Draw appropriate conclusions and inferences from properly conducted laboratory research.
4. Evaluate the significance, quality and veracity of information gathered via experiment and literature and apply them effectively.

Communication

5. Articulate research results clearly and effectively in speech and in writing in an accepted style of presentation.

IDS 4906, course 2	R, A	R, A	R, A	R, A	R, A
IDS 4906 is the only required course for this major (or equivalent with other prefixes)					

Assessment Types

- Direct assessment of research in the thesis

Film and Media Studies

The interdisciplinary studies major in film and media studies provides students with knowledge of film in its diversity and through its techniques. Students will learn film theory and criticism and implement these ideas in the practice of viewing and/or making films. Students will also present ideas clearly and effectively in writing and/or in film/video format as an optional ability.

Before Graduating Students Must

- Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and explain film in its diversity and through its techniques.

Critical Thinking

2. Identify and examine film and/or media theory and criticism and implement these ideas in the practice of viewing and/or making films.

Communication

3. Present ideas clearly and effectively in a well-argued essay.

Curriculum Map

Courses	SLO 1	SLO 2	SLO 3
IDS 4906, course 1	I, R	I, R	I, R
IDS 4906, course 2	R, A	R, A	R, A
IDS 4906 is the only required course for this major (or equivalent with other prefixes).			

Assessment Types

- Direct assessment of project: essay, new media work, or film or video.

Latin American Studies

The interdisciplinary major in Latin American studies provides students with broad knowledge of contemporary and historical issues relevant to Latin America. The program offers training in areas such as the geography, history, society, economy, politics, religion, arts and culture of Latin America.

Students will demonstrate or otherwise acquire proficiency in at least one major Latin American language and will learn how to identify and conduct relevant research or field work on a Latin America-related topic.

Upon completion of the program, students should be able to evaluate the significance, quality and veracity of information gathered from scholarly sources and to apply it effectively. They also will be able to construct analytical arguments and communicate their perspective confidently in spoken and written form.

Before Graduating Students Must

- Demonstrate satisfactory proficiency in a major Latin American language as determined by successful course completion, adequate score on the AP or SAT II exams or individual oral examination (for native speakers).
- Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Conduct interdisciplinary research on a Latin American topic and articulate research results clearly.

Critical Thinking

2. Critically evaluate the significance, quality and veracity of information gathered in the literature and apply it effectively.

Communication

3. Communicate effectively in spoken and written formats.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3
IDS 4906	I, R, A	I, R, A	I, R, A
LAS 4935	I, R, A	I, R, A	I, R, A

These are the only required courses for this major (or equivalent with other prefixes).

Assessment Types

- Direct assessment of thesis and research paper

Medieval and Early Modern Studies

The interdisciplinary studies major in medieval and early modern studies provides students with knowledge of the key issues, figures, social and cultural trends and basic chronology of the period or field studied. Students will be able to evaluate the significance, quality and veracity of information gathered in the literature and to apply it effectively. Students will also articulate the results of research clearly and effectively.

Before Graduating Students Must

- Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and explain the key issues, figures, social and cultural trends and basic chronology of the period or field studied.

Critical Thinking

2. Evaluate the significance, quality and veracity of information gathered in the literature and apply it effectively.

Communication

3. Articulate research results clearly and effectively in speech and in writing in an accepted style of presentation.

IDS 4906, course 2	I, R, A	I, R, A	I, R, A
IDS 4906 is the only required course for this major (or equivalent with other prefixes).			

Assessment Types

- Direct assessment of research in the thesis

Middle Eastern Languages and Cultures, Arabic and Hebrew

The interdisciplinary studies major in middle eastern languages and cultures provides students with knowledge of political, cultural, literary, linguistic and historical issues of the Middle East. Students will be able to evaluate the significance, quality and veracity of information gathered in the literature and to apply it effectively. Students will also articulate research results clearly and effectively.

Before Graduating Students Must

- Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and explain political, cultural, literary, linguistic and historical issues of the Middle East.

Critical Thinking

2. Evaluate the significance, quality and veracity of information gathered in the literature and apply it effectively.

Communication

3. Articulate research results clearly and effectively in speech and in writing in an accepted style of presentation.

IDS 4906 is the only required course for this major (or equivalent with other prefixes).			

Assessment Types

- Direct assessment of research in the thesis

Modern European Studies

The interdisciplinary studies major in modern European studies provides knowledge of major European issues. Students will be able to identify and conduct modern Europe-relevant research. They will evaluate the significance, quality and veracity of information gathered in the literature and to apply it effectively. Students will also be able articulate the results of research clearly and effectively.

Before Graduating Students Must

- Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, define and explain issues of modern Europe and identify and conduct Europe-relevant research.
2. Integrate different sources and types of knowledge into holistic perspectives about Europe.

Critical Thinking

3. Evaluate the significance, quality and veracity of information gathered in the literature and apply it effectively.

Communication

4. Articulate research results clearly and effectively in speech and in writing in an accepted style of presentation.

Curriculum Map

IDS 4906, course 2	I, R, A	I, R, A	I, R, A	I, R, A
IDS 4906 is the only required course for this major (or equivalent with other prefixes).				

Assessment Types

- Direct assessment of research in the thesis

Neurobiological Sciences

The interdisciplinary studies major in neurobiological sciences provides students with an understanding of and competence in the neurobiological sciences. Students will understand and use the scientific approach to gather and verify knowledge. They will be able to draw appropriate conclusions and inferences from properly conducted laboratory research. Students will be able to evaluate the significance, quality and veracity of information gathered via experiment and literature and to apply them effectively. Students will also possess the ability to articulate results clearly and effectively.

Before Graduating Students Must

- Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and examine neurobiological sciences.
2. Use the scientific approach to gather and verify knowledge.

Critical Thinking

3. Evaluate the significance, quality and veracity of information gathered via experiment and literature and apply them effectively.

Communication

4. Articulate research results clearly and effectively in speech and in writing in an accepted style of presentation.

IDS 4906, course 2 (Taken two or more times)	I, R, A	I, R, A	I, R, A	I, R, A
IDS 4906 is the only required course for this major (or equivalent with other prefixes).				

Assessment Types

- Direct assessment of research in the thesis

International Relations Certificate

This certificate is for those who are interested in international affairs and who are considering careers in this field (e.g., working for the U.S. government's foreign policy or intelligence agencies; foreign policy think tanks; international non-governmental organizations).

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 18 | Completed with minimum grades of C
- **Additional Information**
- **Related International Studies Programs**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

The international relations certificate requires a combined 3.0 GPA for all certificate coursework.

Required Courses

Code	Title	Credits
Core courses in international relations theory		
INR 2001	Introduction to International Relations	3
INR 3603	Theories of International Relations	3
Subfield courses		
Main subfields of international relations courses (3000 level)		9
Advanced subfield course (4000 level)		3
Total Credits		18

While successful completion of this 18-credit program will qualify students for the certificate, most graduate programs, foreign service organizations, and private corporations will be looking for individuals with broader training. Therefore, students are encouraged to pursue related study in other political science fields and other departments. Students interested in U.S. foreign policy, for example, should consider taking courses in American government. Likewise, students interested in international trade or finance would do well to pursue coursework in economics.

In addition, students interested in the international relations of a particular geographical region would benefit from learning about the comparative domestic political systems and/or cultures of those regions and may find courses in comparative politics, geography, anthropology or foreign languages and literatures helpful. Many other opportunities for enrichment through interdisciplinary work are available on campus.

Related International Studies Programs

- Bachelor of Arts in International Studies (p. 810)

International Studies

The international studies interdisciplinary program provides knowledge of major international or global issues including regional and global political economies; comparative cultural and political systems; ethnicity, identity and belief systems; peace, conflict and wars; gender, culture and politics; and environment, health, and science issues.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Specializations:** Africa | Asia | Europe | Latin America and Caribbean | Middle East
- **Credits for Degree:** 120
- **Additional Information**
- **Related International Studies Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Students develop a working knowledge of a modern foreign language, become knowledgeable about at least one major region of the world, become knowledgeable about significant global issues, are encouraged to experience living and studying abroad or working with an international organization focused on international issues, and conduct research on a global issue in conjunction with a senior research seminar, study abroad experience, or relevant internship.

The major prepares students for graduate study or international careers as specialists or representatives in international relations, international publications, cross-cultural training in educational and business fields, public affairs, government foreign service, export sales, and international research.

Coursework for the Major

Students are required to designate a region of the world on which to focus. This region then determines the courses appropriate for the major's primary requirements (Category A) as well as the major's foreign language requirement.

All courses must be completed with minimum grades of C. A minimum of 15 credits of Category A and/or B courses must be completed at UF.

Required Coursework

- INS 3004
- INS 4930
  With prior approval, students may substitute:
  - Study abroad with a research project; internship or work experience abroad with a research project; international studies research poster presentation with research project; international studies-related service learning project with a research paper; or independent study course with a research paper. Students pursuing any of these alternatives must still register for 3 credits of coursework to replace INS 4930. All research papers and projects will be graded by a common grading rubric.
- Category A: 15 credits of international studies-approved courses in social science, humanities or professional courses that focus on the region of the world selected by the student: Africa, Asia, Europe, Latin America and the Caribbean or the Middle East.
  - Twelve credits of Category A coursework must be at the 3000/4000 level.
- Category B: 15 credits of international studies-approved courses in social science, humanities, or professional courses that focus on regions of the world other than the student's regional focus and/or focus on global issues.
  - Nine credits of Category B coursework must be at the 3000/4000 level. *(These 9 credits of 3000/4000-level Category B courses will be accepted toward the CLAS 3000-level elective requirement. INT majors still will need to take 9 additional credits of 3000-level electives from courses NOT approved for any INT category.)*
- Four semesters minimum (0-20 credits) of a single modern foreign language or demonstrated proficiency equivalent to completion of the intermediate level. The language for which proficiency is demonstrated must be logically linked to the selected primary region of focus (Category A).

Region Focus

The links below determine the region courses appropriate for Category A and Category B requirements as well as the region's foreign language requirement.

- Africa (http://intstudies.program.ufl.edu/academic-program/africa)
- Asia (http://intstudies.program.ufl.edu/academic-program/asia)
- Europe (http://intstudies.program.ufl.edu/academic-program/europe)
- Latin America and the Caribbean (http://intstudies.program.ufl.edu/academic-program/latin-america-and-the-caribbean)
- Middle East (http://intstudies.program.ufl.edu/academic-program/middle-east)

Related International Studies Programs

- Latin American Studies certificate (p. 833)
- Russian and East-European Area Studies certificate (p. 933)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 514)**.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=302001&track=01) may be used for transfer students.

Semester 1

- Complete one international studies course from Category A at the 2000 level or higher with a 2.0 critical-tracking GPA
- 2.0 UF GPA required

Semester 2

- Complete one international studies course from Category B at the 2000 level or higher with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 3

- Complete one foreign language course from the selected region and one additional international studies course from Category B at the 2000 level or higher with a 2.75 critical-tracking GPA
- **Students should take INS 3004 as soon as they have completed three Category courses. For many students, this will be either semester 3 or 4**
- 2.0 UF GPA required

Semester 4

- Complete one additional foreign language course from the selected region with a 3.0 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete INS 3004 and one additional international studies course from Category A at the 3000-level or higher with a 3.0 critical-tracking GPA
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

Nine credits of 3000 level or above Category B courses count towards the 3000 level or above electives outside of the major.

Depending upon the international studies courses chosen, students may meet some of their GE-H, GE-S and GE-N requirements through courses for the major. In that case, the student can substitute general elective credit.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Beginning foreign language course (**Critical Tracking**)		3-5
State Core Gen Ed Biological or Physical Sciences (p. 23)		3
State Core Gen Ed Composition (p. 23); Writing Requirement		3

International studies course (Category A, 3000 level or higher)		3
	Credits	17
	Total Credits	120

[1] Majors are encouraged to use some of their electives to pursue a minor, combined degree, dual degree or double major.

Academic Learning Compact

The international studies major provides knowledge of major international issues. Students will be able to identify and conduct internationally relevant research. They will evaluate the significance, quality and veracity of information gathered in the literature and to apply it effectively. Students will also be able articulate the results of research clearly and effectively.

Before Graduating Students Must

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe, explain and apply basic knowledge of the modern history, culture, politics, geography, economy or sociology of one major region of the world (Africa, Asia, Europe, Latin America or the Middle East).

Critical Thinking

2. Use analytical intellectual tools to examine global issues.

Communication

3. Interpret and effectively communicate about global issues.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3
Category A Courses[1]	R	R	R
Category B Courses[2]	R	R	R
Foreign Language[3]	I, R	I, R	I, R
INS 3004	I	I	I
INS 4930	R, A	R, A	R, A

[1] **Category A**: Students focus on a region of the world, taking 15 credits of approved courses in social science, humanities or professional courses that deal with the region chosen.

[2] **Category B**: Students take 15 credits of approved courses that deal with regions of the world other than the region chosen in Category A.

[3] **Foreign Language**: Students take a minimum of four semesters of a single modern foreign language linked to their focus region, or demonstrate intermediate level-proficiency.

Assessment Types

- Direct assessment of research paper

Italian

Foreign Languages and Literatures

The Italian specialization in Foreign Languages and Literatures provides the linguistic and cultural knowledge students need to understand and appreciate the language, literature, cinema, history, and society of the Italian peninsula. Courses reflect the complex cultural traditions of this Mediterranean nation from the Middle Ages and the Renaissance to the modern period.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Additional Information**
- **Related Italian Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

The Italian specialization of the Foreign Languages and Literatures major offers a basis for a broad variety of careers including arts and culture, fashion, business, international law, education, diplomacy, international relations, and journalism. The program also constitutes a strong foundation for graduate work in Italian Studies or related fields, allowing students to develop strengths in fields such as film studies, medieval studies, Mafia studies, Modernism, detective fiction, theater studies, Dante studies, and Animal Studies. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

Coursework for the Major

The Italian specialization in Foreign Languages and Literatures consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

Overseas Study

Students specializing in Italian are encouraged to participate in a study abroad for a summer or an entire semester. Students regularly participate in UF Programs in Rome or UF-approved study-abroad programs in other Italian cities or regions. Refer to UF International Center (http://www.ufic.ufl.edu/SAS) information and contact a department advisor for study abroad recommendations.

Placement

In all languages, students with either a native background in the language or prior study in that language might be eligible to place out of the preparatory language courses and should meet with the undergraduate coordinator to arrange for placement assessment.

Research

Students with an upper-division GPA of 3.5 are encouraged to write a thesis for high or highest honors at graduation.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160501&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete ITA 1130 or higher-level Italian Language course with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete ITA 1131 or higher-level Italian Language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete ITA 2220 or a higher-level Italian Language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). 3000 level or above critical concentration courses outside of Italian may count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
Category A[1]	I, R	I	I	I, R, A
Category B[2]	I, R, A	I, R, A	I, R, A	

1 Courses focus on the acquisition of the language(s) of specialization at the advanced level.

2 Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types

- Proficiency exams
- Term papers or final projects
- Oral presentations

Italian Studies Minor

An Italian studies minor complements any major in any discipline. A concentration in Italian language, literature, culture, and civilization can also become the basis for graduate studies in Italian.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 19 | Completed with minimum grades of C and no optional S-U
- **Contact:** Email (dambers@ufl.edu)
- **Related Italian Programs**

Of the total credits, no more than three may be Individual Work (ITA 4905). Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Code	Title	Credits
ITA 2221	Intermediate Italian 2	4
ITA or ITW courses (3000/4000 level)		12
ITT course or another 3000/4000-level course from an affiliated department [1]		3
Total Credits		19

1 Consult the Italian Studies program coordinator for course approval.

Related Italian Programs

- Bachelor of Arts in Foreign Languages and Literatures, Italian (p. 815)

Japanese

Foreign Languages and Literatures

The Japanese specialization in foreign languages and literatures develops proficiency in the Japanese language and acquaints students with the literature and cultural history of Japan. Courses are also available for those interested in business Japanese, classical Japanese, film, and women's studies.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Additional Information**
- **Related East Asian Languages and Literatures Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

The Japanese specialization of the Foreign Languages and Literatures major provides a foundation for graduate-level work in East Asian studies or allied fields (anthropology, art history, history, linguistics, political science, and religion). The specialization is excellent general preparation for entry to professional schools (business, journalism, law, and medicine) or careers in foreign service, commerce, diplomacy, translation, business, import and export of information and culture, museums, libraries, and tourism.

Coursework for the Major

The Japanese specialization in Foreign Languages and Literatures consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

All languages offered through this department may fulfill college language requirements. Students pursuing the Japanese specialization in Foreign Languages and Literatures are not allowed to minor in Asian studies (either option 1 or 2).

Transfer Students Interested in Majoring in Japanese

If a student's current institution does not offer Japanese and the student has no previous knowledge of Japanese, it's recommended that they take the following Summer Intensive Beginning Japanese program:

Summer A: JPN 1130. A minimum grade C is required to advance to the next level course.

Summer B: JPN 1131.

Overseas Study

Two year-long study abroad programs are available in Japan. The Asian Studies Program at Kansai Gaidai University in Osaka, Japan is specifically designed for international students for an academic year program of study abroad. The program offers courses in Japanese language (all levels) and area studies focusing on Japan and its international role. Another academic year study abroad program at Aoyama Gakuin, Tokyo, offers students the challenge of taking courses in the target language, thus it is limited to those who have completed three years of language study at UF, or the equivalent. These two programs also offer the option of one semester of study abroad.

There is a one or two semester study abroad program at Shimane University in Matsue, Japan. This program focuses on Japanese language, culture, history and environment, and is limited to students who have completed three years of language study at UF, or the equivalent. There is a one or two semester study abroad program at Nagoya University in Nagoya. This program is open to students with no previous study of Japanese language, and is ideal for students from a variety of majors including the STEM majors as it offers a broad-based English-language curriculum in international studies, biological and physical sciences, and engineering, in addition to courses in Japan studies.

A maximum of 15 credits non-UF overseas study credit may apply to the major. Students must have all overseas study credit that will transfer to the major approved by their major advisor. JPT 3500 must be taken at UF. No substitution is allowed for JPT 3500.

Placement

Students with previous training in Japanese, as well as those with heritage background in these languages, should consult the undergraduate coordinator or the language coordinator of the Japanese specialization before enrolling in any JPN or JPW course. Placement tests are given at the start of each semester; refer to the Department of Languages, Literatures and Cultures for location and times.

- East Asian Languages and Literatures minor (p. 676)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160399&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete JPN 1130 or higher level language course with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete JPN 1131 or higher level with a minimum grade of C and 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete JPN 2230 or higher level language course with a minimum grade of C and 2.5 critical-tracking GPA
- 2.0 UF GPA required

Model Semester Plan

Actual courses may be different depending on language preparation and availability of courses. In particular, beginning language is best started semester 1 and no later than semester 3, but study abroad or accredited intensive summer courses can be used to catch up.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). Several courses in this major count for GE-H and N *or* GE-S and N requirements. 3000 level or above critical concentration courses outside of Japanese may count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
Category A[1]	I, R	I	I	I, R, A
Category B[2]	I, R, A	I, R, A	I, R, A	

1 Courses focus on the acquisition of the language(s) of specialization at the advanced level.

2 Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types

- Proficiency exams
- Term papers or final projects
- Oral presentations

Jewish Studies

The Center for Jewish Studies offers a Bachelor of Arts in Jewish studies, a minor, and two certificate programs. A strong interdisciplinary curriculum with a language requirement provides a basis for understanding the broad spectrum of Jewish cultures, languages, and histories.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Additional Information**
- **Related Jewish or Hebrew Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The Center for Jewish Studies fosters the academic study of Jewish cultures, languages, history, society and religion for all students at the University of Florida. Students are expected to develop as critical thinkers, aware of the diversity and complexity of the field. The center promotes a broad and interdisciplinary approach including the arts, social sciences, and textuality. The curriculum emphasizes historical transformations and comparative frameworks among various Jewish communities and with other groups and religions. Courses draw upon a variety of theoretical approaches to the study of class, ethnicity, gender, race, and sexuality with methodologies that are both textual and performance oriented.

The program may serve as preparation for graduate work in Jewish studies, as background for a career in Jewish education or community service or as an area of special interest that will enrich the undergraduate experience. Students often combine the JST major or minor with other majors and go on to careers in law, medicine, journalism, business, or other professions.

Coursework for the Major

The major requires a minimum of 27 credits in Jewish studies and related courses with minimum grades of C. In addition, one year of Hebrew or equivalent language with significant Jewish culture production is required. A minimum of 15 credits for the major must be taken at the University of Florida. Students should consult the undergraduate coordinator in 201 Walker Hall.

Required Coursework

- JST 2930 Introduction to Jewish studies or an introduction to Jewish culture or, Jewish history or a survey course in Jewish studies (3 credits)
- Senior seminar, generally offered every other spring, or an approved equivalent JST course requiring a comprehensive research paper
- Minimum 21 credits at the 3000 level or above

Special topics courses in other departments may be counted toward the major provided they include substantial coverage of material relevant to Jewish studies. Individual work (JST 4905), which also fulfills requirements for the major, is also available for independent study and special projects. No more than six credits of independent study (JST 4905) will be counted toward the minimum. Normally, no more than 12 credits of the minimum may be transfer credit; however, all transfer credits in JST-related courses from UF-approved programs abroad will apply toward the major.

Course Details

Most JST courses are listed in the schedule of courses under Jewish Studies. Related courses offered by other departments are listed in departments of Anthropology, English, History, Languages, Literatures and Cultures, Political Science, Religion, and Sociology. A list of courses is available in the center each semester before advance registration.
More Info (https://jst.ufl.edu/major-minor)

Specializations

- European Jewish Studies
- Holocaust Studies
- Israel Studies

Honors

Honors in Jewish studies can be earned by students who have at least a 3.5 GPA in their upper-division work and a 3.5 GPA in the major. Students who seek honors are required to complete an honors project, with a grade of A or B, under the guidance of a Jewish studies faculty member. In their senior year, honors students should register for JST 4970, a 2-3 credit course.

Internship in Jewish Communal Services

Students can gain practical experience as an undergraduate through the internship option of JST 4940. The goal of this program is both to expose the student to the opportunities for service in the world of organized Jewry and to provide a means for students to understand how Jewish values are propagated in organized settings. Students earn credit for volunteer work and training in applied settings such as Jewish family and social services agencies, community centers, federations, educational institutions, museums, newspapers, denominational organizations, public affairs groups, synagogues, Hillel or equivalent institutions. To qualify for JST credit, the organization must have an explicit public tie to Judaism and be approved for internship credit by the Center for Jewish Studies.

Overseas Study

The Center for Jewish Studies provides counsel regarding study abroad at the Hebrew University of Jerusalem, Tel Aviv University, Haifa University, and Ben-Gurion University of the Negev. The overseas programs at these Israeli universities offer summer, one semester and full-year courses of study. Information is available in 201 Walker Hall and at the UF International Center, 170 Hub.

Scholarships are available. Travel restriction updates are available on the department website.

Related Jewish or Hebrew Programs

- Bachelor of Arts in Foreign Languages and Literatures, Hebrew (p. 782)
- Bachelor of Arts in Interdisciplinary Studies, Middle Eastern Languages and Cultures (p. 799)
- Hebrew minor (p. 787)
- Jewish Studies minor (p. 833)
- European Jewish Studies certificate (p. 688)
- Holocaust Studies certificate (p. 798)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=380206&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete HBR 1130
- 2.0 UF GPA required

Semester 4

- Complete HBR 1131 and one Jewish studies course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
HBR 1130	Beginning Modern Hebrew 1 (**Critical Tracking**)	5
JST 2930	Special Topics in Jewish Studies (**Critical Tracking**; Gen Ed Humanities and International)	3

	Credits	15
	Total Credits	120

Academic Learning Compact

This major familiarizes students with the aspects of Jewish history, religion, languages and cultures. Emphasis is placed on basic language acquisition, analysis and critical evaluation of texts and contexts, integration of cultural data with disciplinary concerns outside of Jewish studies and comparative frameworks among different Jewish groups and with co-territorial non-Jews.

Before Graduating Students Must

- Satisfactory evaluation of paper written for the CJS capstone course, graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Demonstrate knowledge of and competence in the Jewish experience, including minority and diasporic communities within a comparative framework.
2. Demonstrate knowledge of transformations of Jewish communities over time and space.

Critical Thinking

3. Understand the significance of language in assessing Jewish culture(s).
4. Evaluate and apply effectively the significance, quality and veracity of information (both primary and secondary) in the literature.

Communication

5. Articulate research results clearly and effectively in an accepted style of presentation.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4	SLO 5
Courses are taken multiple times with changes in topic.					
JST 2930 Introduction to Jewish Studies	I	I	I	I

JST 4936 Israeli Society	A	A	A	A	A

Assessment Types

- Direct assessment of essays and final tests (by track: Holocaust studies, Israel studies, general studies)

Jewish Studies Minor

The Center for Jewish Studies offers a minor with similar parameters to the major though with fewer credit requirements. Students are also encouraged to pursue one of two existing certificate programs that dovetail with disciplinary interests beyond Jewish studies.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 25 | Completed with minimum grades of C
- **Contact:** Email (center@jst.ufl.edu) | 201 Walker Hall (http://campusmap.ufl.edu/?loc=0003) | 352.392.9247
- **Related Jewish or Hebrew Programs**

Students should plan the minor under the guidance of a Jewish studies faculty member. Each program must be approved by the director of the Center for Jewish Studies.

At least three courses (none can be individual work) of no fewer than three credits each must be at the 3000 level or above. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Code	Title	Credits
HBR 1130	Beginning Modern Hebrew 1	5
HBR 1131	Beginning Modern Hebrew 2	5
JST 2930	Special Topics in Jewish Studies (Introduction to Jewish Studies or equivalent)	3
Jewish studies or related courses [1]		12
Total Credits		25

Latin American Studies Certificate

The Center for Latin American Studies, in cooperation with the colleges of Liberal Arts and Sciences, Agricultural and Life Sciences, Business, Design, Construction and Planning, Education, Fine Arts, and Journalism and Communications, offers a certificate in Latin American studies for undergraduate students. Through special arrangements, students in other colleges also may obtain the certificate.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 21 | Completed with minimum grades of C

- **Contact:** Email (nochoa@latam.ufl.edu) | 318 Grinter Hall (http://campusmap.ufl.edu/?loc=0002) | 352.273.4715
- **Additional Information**
- **Related Latin American Studies Programs**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

The program is designed to supplement a major with broad cultural and language training appropriate for graduate work or a Latin America-related career in business, government or teaching. In general, it is for students who plan to live in Latin America, work with Latin Americans, or interpret Latin American culture to others.

Required Courses

21 credits with Latin American content, distributed as follows:

- Three credits of LAS 4935, the undergraduate seminar in Latin American studies. Students may repeat LAS 4935 for an additional six credits if the topics vary.
- Six credits of courses outside the student's major with 100% Latin American content (designated by a C in the LAS course guide). More Info (http://www.latam.ufl.edu/academics/latin-american-studies-courses)
- Twelve credits of additional courses with Latin American content, including courses in the student's major; at least three credits must be core courses (with 100% Latin American content, designated by a C in the LAS course guide); up to nine credits may be electives with at least 25% Latin American content (designated by an E in the LAS course guide).
- Only courses at 2000 level or above will count toward the certificate. Advanced Placement credits do not count. Overseas study credits can count as core or elective courses pending review of the undergraduate advisor at the Center for Latin American Studies.

In addition, the student must demonstrate high-intermediate proficiency in a Latin American language through coursework (Spanish, SPN 2240; Portuguese, POR 3242; Haitian Creole, HAI 2200) or examination (Advanced Placement scores of 4-5 plus approval or an SAT 2 score of 700). Language courses at the 3000 level can count as core courses.

Students with prior knowledge of a Latin American or Caribbean language must demonstrate proficiency through a written placement test (SAT 2 test for Spanish) or oral examination for speakers of Portuguese or Haitian Creole. Courses in a second Latin American language at or above the 3000 level may count toward the certificate if these courses are not used to meet the language requirement.

Related Latin American Studies Programs

- Bachelor of Arts in Interdisciplinary Studies, Latin American (p. 799)
- Latin American Studies minor (p. 834)

Latin American Studies Minor

The Latin American studies minor is an excellent option for those who wish to concentrate their work in a specific discipline yet maintain a Latin American focus in their coursework. Students can take courses with Latin American content in the fields of anthropology, economics, politics, geography, history, mass communication, music, women's studies, and more. Students who pursue the minor will enhance their career prospects through their knowledge of Latin American languages and cultures.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 15 | Completed with minimum grades of C and no optional S-U
- **Contact:** Email (rresende@latam.ufl.edu) | 318 Grinter Hall (http://campusmap.ufl.edu/?loc=0002) | 352.273.4715
- **Additional Information**
- **Related Latin American Studies Programs**

Only courses at the 2000 level or above will count toward the minor. In addition, students must earn nine credits at the 3000 level or above, in addition to the Seminar Requirement. Exam credits (AICE/AP/CLEP/IB) do not count toward the minor. Overseas study credits can count as core or elective courses if approved by the undergraduate advisor in the Center for Latin American Studies.

Of the total credits, no more than three may be individual work. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Code	Title	Credits
LAS 4935	Latin American Area Seminar [1]	3
Approved courses with 100% Latin American or Caribbean content [2, 3]		9
Approved course with 25% Latin American or Caribbean content [3]		3
High-Intermediate Language Proficiency		
Select one:		
SPN 2240	Intensive Communication Skills	
POR 3242	Oral and Written Practice	
HAI 2200	Intermediate Haitian Creole 1	
Language courses in Spanish, Portuguese or Haitian Creole (3000 level) [4]		
Proficiency through written or oral examination [5]		
Total Credits		15

1. LAS 6938 may be substituted with the approvals of the instructor and undergraduate coordinator.
2. A student may take LAS 4935 up to three times if the subject matter varies. The first Seminar will count toward the Seminar requirement, the second and third may count toward the Approved courses with 100% Latin American or Caribbean content.
3. As listed in the Latin American Studies course guide (http://www.latam.ufl.edu/academics/latin-american-studies-courses).
4. Language courses above the 3000 level can count toward the minor if they are not used to meet the language requirement.
5. Students with prior knowledge of a Latin American or Caribbean language must demonstrate proficiency through a written placement test (SAT II for Spanish) or oral examination for speakers of Portuguese or Haitian Créole.

Candidates for the minor are encouraged to spend a summer, a semester or an academic year studying in a Latin American country. UF sponsors study abroad programs in Argentina, Brazil, Costa Rica, Chile, Dominican Republic, Guatemala, Mexico, Panama, and Peru. For more information, contact Study Abroad Services in the UF International Center (https://internationalcenter.ufl.edu/study-abroad).

- Latin American Studies certificate (p. 833)

Legal History

This historical exploration introduces the ways in which law influences society and the ways in which society influences law. The certificate considers how law works around the world by studying legal histories outside of the U.S.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 9 | Completed with minimum grades of C
- **Related History Programs**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

The certificate is open to non-majors while majors may obtain a specialization in legal history. Students minoring in history are eligible for the certificate so long as none of their certificate courses are counted towards their minor.

Required Courses

Code	Title	Credits
Group A course		*3*
AMH 3551	Constitutional History of the United States to 1877	
AMH 3552	Constitutional History of the United States Since 1877	
AMH 3558	United States Legal History	
AMH 4319	Crime and Punishment in American History	
AMH 4550	Origins of the U.S. Constitution	
Group B course		*3*
EUH/LAH 3931	Special Topics in European History (Inquisitions)	
EUH 3931	Special Topics in European History (The Holocaust in the Courtroom)	
LAH 3931	Special Topics in Latin American History (Crime and Criminality in the Americas)	
WOH 3205	History of Human Rights	

Group A or Group B course [1]	*3*
Total Credits	9

In addition to these courses, the undergraduate coordinator may authorize substitute courses.

[1] Course not previously taken.

Related History Programs

- Bachelor of Arts in History (p. 793)

Linguistics

Linguistics studies language in many domains and from multiple perspectives. The core courses analyze speech sounds, words, and the structure of language(s).

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Additional Information**
- **Related Linguistics Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The discipline also covers old and new languages, speech in ordinary conversation, the workplace, and the classroom. Child acquisition of languages and adult acquisition of a second language are important topics. Linguists also study language in relation to gender, the brain and computers, and the interrelationship of languages and dialects.

Linguists analyze and contribute to mass communication, they testify about language meaning and use in the courtroom, and they analyze natural language processing. Their expertise helps all people communicate more effectively: patients and doctors, spouses and partners, students and teachers. Linguists also teach non-native speakers to speak, read, write, and comprehend English and other languages.

Coursework for the Major

Students must earn minimum grades of C within two attempts in a minimum of 33 credits.

Required Coursework

Code	Title	Credits
LIN 3010	Introduction to Linguistics	3
LIN 3201	The Sounds of Human Language	3
LIN 3460	The Structure of Human Language	3
Select 15 credits from linguistics electives (3000/4000 level)		15
Select 9 credits from approved electives from a combination of the following options:		9
Additional Linguistics electives at the 3000/4000-level		
Linguistics electives offered by other departments		
Language-related courses OR a two-semester sequence of a non-Romance or non-Germanic language [1]		
Total Credits		33

[1] Up to 6 of the 9 credits may come from language-related courses OR a two-semester sequence of a non-Romance or non-Germanic language. (No more than six 6 language credits will apply to the major.)

Consult the undergraduate coordinator or program director for emphasis areas and electives. Courses must be completed at UF; if taken at another accredited university, they must be approved by the department.

Language-Related Courses		
ANT 3620	Language and Culture (ANT)	
DEP 3053	Developmental Psychology (PSY)	
DEP 4163	Cognitive Development (PSY)	
DEP 4930	Revolving Topics in Developmental Psychology (Psychology of Language Development) (PSY)	
EXP 3604	Cognitive Psychology (PSY)	
PHI 4220	Philosophy of Language (PPY)	
SPA 3011	Speech Acoustics (SLHS)	
SPA 3032	Fundamentals of Hearing (SLHS)	
SPA 4004	Language Development (SLHS)	
SPA 4104	Neural Basis of Communication (SLHS)	

SPC 3331	Nonverbal Communication (W and O)
SPC 4425	Small Group Communication (W and O)
SPC 4710	Patterns of Intercultural Communication (W and O)
OR	
Foreign Language Courses	
A two-semester sequence of a non-Romance/non-Germanic language. [1]	

[1] Students must complete two consecutive semesters of the same language for the courses to count towards the major. Appropriate languages include: Akan, American Sign Language, Amharic, Arabic, Czech, Chinese, Greek, Hebrew, Hindi, Hungarian, Japanese, Korean, Lingala, Polish, Russian, Swahili, Turkish, Vietnamese, Wolof, Xhosa, and Yoruba.

Combined Degree Program

Linguistics offers a combined-degree program that allows students to obtain a B.A. and an M.A. in five years.
More Info (http://lin.ufl.edu/undergraduate)

Students enroll in four graduate courses in their senior year that count toward both the B.A. and M.A. degrees:

Code	Title	Credits
LIN 6084	Intro Grad Research	3
LIN 6323	Phonology 1	3
LIN 6402	Morphology 1	3
LIN 6501	Syntax 1	3

Students need to apply by February 15 of the spring semester of their junior year.

Course Details

Linguistics offers a variety of courses and students are free to pick any combination. Suggested specializations within the major include:

- Theoretical linguistics, covering the theory of sounds (phonology), word structure (morphology), sentences (syntax), and meaning (semantics):

Code	Title	Credits
LIN 4320	Introduction to Phonology	3
LIN 4400	Introduction to Morphology	3
LIN 4500	Introduction to Syntax	3
LIN 4803	Introduction to Semantics	3
LIN 4850	Formal Semantics	3

- Human language processing, dealing with how language is processed in the mind and brain:

Code	Title	Credits
LIN 4701	Psycholinguistics	3
LIN 4205	Fundamentals of Phonetics	3
LIN 4702C	Methods in Psycholinguistics	3
LIN 4790	Brain and Language	3

- Sociolinguistics, dealing with how language works in society:

Code	Title	Credits
LIN 4600	Survey of Sociolinguistics	3
LIN 4656	Gender and Language	3

Overseas Studies

Some study abroad programs that offer linguistics courses are the University of Mannheim (Germany), University of Haifa (Israel), University of Madrid (Spain), and the University of Utrecht (The Netherlands). For more information and programs, contact the linguistics undergraduate advisor.

Relevant Minors and/or Certificates

More Info (http://lin.ufl.edu/undergraduate/minor)

Linguistics students may want to consider a minor (p. 969) or certificate (p. 969) in Teaching English as a Second Language.

Research

More Info (http://lin.ufl.edu/undergraduate/major)

Students are encouraged to engage in individual study with a faculty member or to volunteer in a laboratory.

Related Linguistics Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Linguistics minor (p. 841)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160102&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete 1 foreign language or linguistics course (LIN 3010 recommended) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 4

- Complete 1 additional foreign language or linguistics course with a 2.75 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete LIN 3010 and maintain a 2.75 critical-tracking GPA
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

3000 level or above approved Language Related Courses may apply towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
State Core Gen Ed Composition (p. 23); Writing Requirement		3
Foreign language (**Critical Tracking**; non-romance or non-Germanic recommended)		4-5
State Core Gen Ed Mathematics, pure math (p. 23)		3
State Core Gen Ed Social and Behavioral Sciences (p. 23)		3
	Credits	13-14
Semester Two		
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
State Core Gen Ed Biological or Physical Sciences (p. 23)		3
Electives		7
Foreign language (**Critical Tracking**; non-romance or non-Germanic recommended)		3-5
	Credits	16-18

Semester Three		
LIN 3010	Introduction to Linguistics (**Critical Tracking**; Gen Ed Humanities)	3
Electives or non-romance or non-Germanic foreign language if 4-3-3 option		6
Gen Ed Biological or Physical Sciences (area **not** taken in semester two)		3
Science laboratory (Gen Ed Physical or Biological Sciences)		1
Gen Ed Social and Behavioral Sciences		3
	Credits	16
Semester Four		
Gen Ed Biological Sciences		3
Gen Ed Composition; Writing Requirement		3
Elective		3

LIN 3201	The Sounds of Human Language	3
or LIN 3460	or The Structure of Human Language	
Electives (3000 level, outside of linguistics)		9
Linguistics or linguistics-related course (3000 level or above)		3
	Credits	15
Semester Six		
LIN 3201	The Sounds of Human Language	3
or LIN 3460	or The Structure of Human Language	
Elective (3000 level, outside of linguistics)		3
State Core Gen Ed Humanities (p. 23)		3
Linguistics or linguistics-related course (3000 level or above)		3
Gen Ed Physical Sciences		3
	Credits	15
Semester Seven		
Electives (3000 level, outside of linguistics)		6
Linguistics course (3000 level or above)		3
Linguistics courses (3000 level or above, 4000 level recommended)		6
	Credits	15
Semester Eight		
Electives		6
Linguistics courses (3000 level or above, 4000 level recommended)		9
	Credits	15
	Total Credits	120

Academic Learning Compact

The Bachelor of Arts in linguistics provides students with the ability to analyze language structure and use on multiple levels and to apply knowledge, concepts and skills developed from previous research. The major emphasizes students' ability to analyze patterns in language in terms of the sound system (phonetics and phonology) and word and sentence structure (morphology and syntax), to present and justify these analyses and to apply linguistic knowledge and analytical skills to the study of language use, learning, teaching, processing and change.

Before Graduating Students Must

- Achieve a minimum grade of C on the critical assignment from LIN 3201, graded according to department rubric.
- Achieve a minimum grade of C on critical assignments from LIN 3460, graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and explain the concepts related to phonetics and phonology (sounds and sound systems).
2. Examine and explain the concepts related to morphology and syntax (word and sentence structures).

Critical Thinking

3. Analyze linguistic data by applying concepts and knowledge from phonetics and phonology.
4. Analyze linguistic data by applying concepts and knowledge from morphology and syntax.

Communication

5. Articulate research results clearly and effectively in an accepted style of presentation.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4	SLO 5
LIN 3010	I, R	I, R	I, R	I, R	I, R
LIN 3201	R, A		R, A		R, A
LIN 3460		R, A		R, A	R, A

Assessment Types

- Exams
- Language project

Linguistics Minor

Language is a means of communication and a unique property of the human mind. Linguistics is the scientific study of language: a set of disciplines that investigates the structure, meaning, and use of language using descriptive, theoretical, computational, and experimental approaches.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 15 | Completed with minimum grades of C
- **Related Linguistics Programs**

To be eligible for this minor, students must have a minimum 2.75 overall GPA.

Of the total credits, no more than three may be individual work. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Code	Title	Credits
LIN 3010	Introduction to Linguistics	3
LIN 3201	The Sounds of Human Language	3
LIN 3460	The Structure of Human Language	3
Select one:		6
Two LIN courses (4000 level)		
One LIN course (4000 level) AND one non-Germanic/non-Romance language course		
Total Credits		15

Marine Sciences | CLAS

Oceans are an important facet of our global environment: covering more than 70 percent of the Earth's surface, oceans provide us with food, transport, and resources and they play a significant role in controlling climate. However, the world's oceans remain largely unexplored below the surface, making them one of the last great frontiers for scientific discovery. Marine environments are inherently dynamic and governed by a broad suite of interactive biological, chemical, and physical processes.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **Related Marine Sciences Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The university promotes an interdisciplinary approach to marine science education and research to prepare students for rewarding academic and professional careers. This interdisciplinary studies major, offered cooperatively with the College of Agricultural and Life Sciences, lets students tailor a curriculum that suits their interests and career goals.

The curriculum provides the core scientific and quantitative skills necessary for success. Lower-division courses build a strong foundation in basic sciences and math while upper-division courses provide opportunity for specialization. Students in the College of Liberal Arts and Sciences (CLAS) complete an upper-division core that integrates the physical and biological sciences, mathematics, and engineering. They work closely with a faculty advisor to create an individualized curriculum of at least 12 credits of approved electives; this plan must be approved by the program's undergraduate coordinator before the student has earned 70 credits.

Coursework for the Major

The major requires 63-67 credits of coursework completed with minimum grades of C. At least 30 credits of coursework in the major must be completed at UF.

Required Coursework

Code	Title	Credits
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory 1	4

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

For the purposes of critical-tracking, associated lecture and lab courses are considered one critical-tracking course (e.g., BSC 2010/BSC 2010L = 1 critical-tracking course).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=309999&track=01) may be used for transfer students.

Semester 1

- Complete OCE 1001 and 1 critical-tracking course from BSC 2010/BSC 2010L, BSC 2011/BSC 2011L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2311, PHY 2053/PHY 2053L (or PHY 2048/PHY 2048L), PHY 2054/PHY 2054L (or PHY 2049/PHY 2049L)
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 8 critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

This interdisciplinary studies major provides integrative understanding of the basic concepts, theories and observational findings related to marine materials and processes, geologic time, the diversity of marine life, the structure and function of marine organisms and ecosystems and marine resource management.

The marine sciences major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences and utilizes faculty, courses and resources of the Fisheries and Aquatic Sciences Program (CALS), the Department of Geological Sciences (CLAS), the Department of Biology (CLAS), and the Department of Civil and Coastal Engineering (Herbert Wertheim College of Engineering).

Before Graduating Students Must

- Achieve a passing score on the subject test. The content of the examination has been reviewed and approved by the Marine Sciences Committee.
- Achieve a passing score on the analytical skills test. The content of the examination has been reviewed and approved by the Marine Sciences Committee.
- Achieve a passing score on the bioethics quiz. The content of the examination has been reviewed and approved by the Marine Sciences Committee.
- Achieve a passing score on the scientific literacy paper. This paper is assessed using a rubric that has been reviewed and approved by the Marine Sciences Committee.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Demonstrate competence in the basic terminology, concepts, methodologies and theories used within the marine sciences.

Critical Thinking

2. Analyze information in the marine sciences and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas and reasoning clearly, effectively and objectively in written or oral forms appropriate to the marine sciences.

Curriculum Map

- Scientific paper

Mathematics

Studying mathematics develops such skills as critical thinking, oral and written communication, arguing logically and rigorously, thinking abstractly, formulating and solving problems, analyzing data, analyzing mathematical models, quantitative and computer proficiency, and the ability to work in groups. Employers value these skills; consequently, math majors find themselves in demand by employers for careers in a wide spectrum of fields.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degrees:** Bachelor of Arts (p. 848) | Bachelor of Science (p. 853)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Mathematics Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The Department of Mathematics offers two undergraduate degree programs in mathematics:

Bachelor of Arts

Intended for students who wish to pursue a career in a mathematical field or to teach mathematics at the secondary-school level, but who do not currently contemplate graduate study in mathematics.

Bachelor of Science

Intended for students who wish to pursue graduate study in mathematics as well as for other strong students with a deep interest in mathematics.

Coursework for the Major

Students are required to take eight core courses, providing a broad base in mathematics, and four electives chosen from a list of approved courses. All but two of the core courses are the same for both degrees. Students pursuing the B.A. degree have greater flexibility in their choice of electives, facilitating the possibility of a double-major with another scientific discipline.

A minimum of 39 credits of mathematics and mathematics-approved electives is required for each degree. All coursework for the major must be completed with minimum grades of C, with the exception of MAS 4105 for students in the B.S. specialization, which requires a minimum grade of B.

Relevant Minors and/or Certificates

Mathematics majors are encouraged to consider taking a minor in computer science, industrial and systems engineering, physics, or statistics. The Department of Statistics offers a minor in actuarial science. In addition, the UFTeach program offers a minor in mathematics teaching.
More Info (https://stat.ufl.edu/academics/undergraduate/minor-in-actuarial-science)

UFTeach Program

There is a severe shortage of qualified high school mathematics teachers in Florida and nationwide. Students interested in entering this high-demand profession should see a departmental advisor about the UFTeach program. Mathematics majors in this program complete the requirements for the UFTeach minor in mathematics, as well as those for the B.A. or B.S. in mathematics. These students graduate with all the coursework and preparation the State of Florida requires for professional certification as a high school mathematics teacher.
More Info (http://education.ufl.edu/uf-teach)

Research

Research and scholarly opportunities are described on the mathematics website under Opportunities for Undergraduates.
More Info (http://www.math.ufl.edu/mathematics-major/opportunities-for-undergraduates)

Combined Degree Programs

Mathematics majors who complete the requirements for major by the end of the junior year are eligible for the combined degree program. Students in this program take the graduate sequences MAA 5228 and MAA 5229 and MAS 5311 and MAS 5312 in their senior year. These 12 credits, which apply

toward the undergraduate degree, will then also apply toward a master's degree in mathematics if the student is admitted to the graduate program. The student should successfully complete this degree with one full-time year of graduate school following receipt of a bachelor's degree.

Related Mathematics Programs

- Combined Degree (p. 1400)
- Mathematics minor (p. 858)

Academic Learning Compact

The major in mathematics enables students to develop proficiency in calculus, differential equations, advanced calculus, linear algebra and abstract algebra, and expose them to several other mathematical areas beyond these core fields. Students will learn to read and to construct mathematical proofs, to reason in abstract mathematical systems and to use mathematical models. Students will also acquire the ability to read new mathematics and to formulate mathematical models and arguments.

Before Graduating Students Must

- Be evaluated on your responses to certain examination questions in upper-division courses that are required for your degree.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Bachelor of Arts: Explain conceptual and computational competency in core mathematics: calculus, differential equations, real analysis, linear algebra and abstract algebra.
   Bachelor of Science: Explain conceptual and computational competency in core mathematics: calculus, differential equations, advanced calculus, linear algebra and abstract algebra.

Critical Thinking

2. Identify correct mathematical arguments in abstract mathematical systems.
3. Develop and analyze mathematical models of scientific problems.

Communication

4. Develop and write correct mathematical arguments.

Coursework

Code	Title	Credits
Required Coursework for Both Degrees		
MAC 2312	Analytic Geometry and Calculus 2	4
or MAC 3473	Honors Calculus 2	
MAC 2313	Analytic Geometry and Calculus 3	4
or MAC 3474	Honors Calculus 3	
MAP 2302	Elementary Differential Equations	3
MHF 3202	Sets and Logic	3
MAS 4105	Linear Algebra 1	4
MAS 4301	Abstract Algebra 1	3
Additional Required Coursework for B.A.		
Select one sequence:		6
MAA 4102 & MAA 4103	Introduction to Advanced Calculus for Engineers and Physical Scientists 1 and Introduction to Advanced Calculus for Engineers and Physical Scientists 2	
MAA 4211 & MAA 4212	Advanced Calculus 1 and Advanced Calculus 2	
Select four electives, 12 credits minimum, from the approved electives; at least one must be a course offered by the Department of Mathematics at the 4000 level or above		12
Total Credits		39

The mathematics major is expected to take the following upper-division core courses at UF: Linear Algebra, Abstract Algebra, Advanced Calculus 1 and 2, and either Advanced Calculus 1 and 2 or Advanced Calculus for Engineers and Physical Sciences 1 and 2. A combination of MAA 4211 and MAA 4103 is permissible for students in the B.A. track.

These courses are common to all math majors and most clearly define the experience of the mathematics major at UF.

Recommended Coursework for Both Degrees

All math majors are encouraged to meet the college distribution requirement in the physical sciences with the sequence PHY 2048/PHY 2049 or the sequence PHY 2060/PHY 2061. Math majors should also take no mathematics course at the 3000 level or below that is not on the lists of core courses or approved electives, except with advisor approval. Students who want to pursue careers in applied mathematics are urged to take STA 4321/STA 4322 and learn a scientific programming language.

Recommended Coursework for B.A.

B.A. students can use their electives choices creatively. By choosing courses in statistics, computer science, physics, and industrial engineering from the list below, math B.A. majors can enhance their career prospects in applied math, data analysis, information technology and operations research.

Math majors who plan to teach secondary-school mathematics should investigate the UFTeach program (http://education.ufl.edu/uf-teach) and they should include MTG 3212, MAA 4402 and STA 4321 among their electives.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=270101&track=01) may be used for transfer students.

Semester 1

- Complete MAC 2311
- 2.0 UF GPA required

Semester 2

- Complete MAC 2312
- 2.0 UF GPA required

Semester 3

- Complete MAC 2313
- 2.0 UF GPA required

Semester 4

- Complete MHF 3202 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete MAS 4105 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

Model semesters 1-4 are the same for both degrees.

The semester plans below are sample programs; they may be adjusted to reflect background and goals. Students should consult a department advisor in 358 Little Hall early to plan their programs.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

IDS 1161	What is the Good Life (Gen Ed Humanities)	3
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	4
State Core Gen Ed Biological or Physical Sciences (p. 23)		3
State Core Gen Ed Social and Behavioral Sciences (p. 23)		3
	Credits	13
Semester Two		
MAC 2312	Analytic Geometry and Calculus 2 (**Critical Tracking**; Gen Ed Mathematics)	4
Gen Ed Biological or Physical Sciences (area **not** taken in semester 1)		3
State Core Gen Ed Composition (p. 23); Writing Requirement		3
State Core Gen Ed Humanities (p. 23)		3
Elective		3
	Credits	16
Semester Three		
MAC 2313	Analytic Geometry and Calculus 3 (**Critical Tracking**; Gen Ed Mathematics)	4
MHF 3202	Sets and Logic (**Critical Tracking**)	3
Gen Ed Humanities		3
Gen Ed Physical Sciences		3
Science laboratory (Gen Ed Physical or Biological Sciences)		1
Gen Ed Social and Behavioral Sciences		3
	Credits	17
Semester Four		
MAP 2302	Elementary Differential Equations (Gen Ed Mathematics)	3
MAS 4105	Linear Algebra 1 (**Critical Tracking**)	4
Gen Ed Composition; Writing Requirement		3
Gen Ed Biological or Physical Sciences		3
Gen Ed Social and Behavioral Sciences		3
	Credits	16
Semester Five		
MAA 4211	Advanced Calculus 1	3
MAS 4301	Abstract Algebra 1	3
Elective (3000 level or higher, not in major)		3
Foreign language		4-5
	Credits	13-14
Semester Six		
MAA 4212	Advanced Calculus 2	3
Elective (3000 level or higher, not in major)		3-4
Elective		3
Foreign language		3-5
Mathematics elective		3
	Credits	15-18

Semester Seven		
MAA 4226	Introduction to Modern Analysis 1 (or another math elective)	3
MAS 5311	Intro Algebra 1 (or another math elective)	3
Elective or foreign language if 4-3-3 option		3
Electives (3000 level or higher, not in major)		6
	Credits	15
Semester Eight		
MAA 4227	Introduction to Modern Analysis 2 (or another math elective)	3
Elective (inside or outside major)		3
Electives (3000 level or higher, not in major)		6
Mathematics elective		3
	Credits	15
	Total Credits	120

Approved Electives

Approved Electives for Both Degrees | Except as Noted

Code	Title	Credits
MAA 4226	Introduction to Modern Analysis 1	3
MAA 4227	Introduction to Modern Analysis 2	3
MAA 4402	Functions of a Complex Variable	3
MAD 3107	Discrete Mathematics	3
MAD 4203	Introduction to Combinatorics 1	3
MAD 4204	Introduction to Combinatorics 2	3
MAD 4401	Introduction to Numerical Analysis	3
MAP 4305	Differential Equations for Engineers and Physical Scientists	3
MAP 4341	Elements of Partial Differential Equations	3
MAP 4413	Fourier Analysis	3
MAP 4484	Modeling in Mathematical Biology	3
MAP 4102	Probability Theory and Stochastic Processes 2	3
MAS 4124	Introduction to Numerical Linear Algebra	3
MAS 4203	Introduction to Number Theory	3
MAT 4930	Special Topics in Mathematics (only if approved by undergraduate coordinator)	1-3
MHF 4102	Elements of Set Theory	3
MHF 4203	Foundations of Mathematics	3
MTG 3212	Geometry	3
MTG 4302	Elements of Topology 1	3
MTG 4303	Elements of Topology 2	3
Any course offered by the mathematics department at the 5000 level or above and any of the following courses offered outside the mathematics department:		
CDA 3101	Introduction to Computer Organization	
COP 3530	Data Structures and Algorithm	
COP 4600	Operating Systems	
ESI 3312	Operations Research 1	
ESI 4313	Operations Research 2	
PHY 3063	Enriched Modern Physics	
PHY 3221	Mechanics 1	
PHY 3323	Electromagnetism 1	
PHY 3513	Thermal Physics 1	
PHY 4222	Mechanics 2	
PHY 4324	Electromagnetism 2	
PHY 4424	Optics 1	
PHY 4523	Statistical Physics	
PHY 4604	Introductory Quantum Mechanics 1	
PHY 4605	Introductory Quantum Mechanics 2	
STA 4210	Regression Analysis	
STA 4211	Design of Experiments	
STA 4321	Introduction to Probability	
STA 4322	Introduction to Statistics Theory	
STA 4853	Introduction to Time Series and Forecasting	

Academic Learning Compact

The major in mathematics enables students to develop proficiency in calculus, differential equations, advanced calculus, linear algebra and abstract algebra, and expose them to several other mathematical areas beyond these core fields. Students will learn to read and to construct mathematical proofs, to reason in abstract mathematical systems and to use mathematical models. Students will also acquire the ability to read new mathematics and to formulate mathematical models and arguments.

Before Graduating Students Must

- Be evaluated on your responses to certain examination questions in upper-division courses that are required for your degree.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Bachelor of Arts: Explain conceptual and computational competency in core mathematics: calculus, differential equations, real analysis, linear algebra and abstract algebra.
   Bachelor of Science: Explain conceptual and computational competency in core mathematics: calculus, differential equations, advanced calculus, linear algebra and abstract algebra.

Critical Thinking

2. Identify correct mathematical arguments in abstract mathematical systems.
3. Develop and analyze mathematical models of scientific problems.

Communication

4. Develop and write correct mathematical arguments.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
Bachelor of Arts

- Exams

Mathematics Minor

The College of Liberal Arts and Sciences is the largest college on campus, with more than 10,000 undergraduate students pursuing a variety of disciplines through its 33 majors and 48 minors. Undergraduate students acquire an intellectual foundation based on a well-rounded and comprehensive education designed for an increasingly technological and rapidly changing society.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 23-24 | Completed with minimum grades of C
- **Related Mathematics Programs**

Open to students not majoring in mathematics.

The linear algebra course and three 4000-level electives must be taken from the UF Department of Mathematics; no substitutions from other institutions or departments are allowed.

A prerequisite for admission to the minor is prior completion of one of these 4000-level courses with a minimum grade of C+.

Of the total credits, no more than three may be individual work. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Code	Title	Credits
Calculus 2		
MAC 2312	Analytic Geometry and Calculus 2	4
or MAC 3473	Honors Calculus 2	
Calculus 3		
MAC 2313	Analytic Geometry and Calculus 3	4
or MAC 3474	Honors Calculus 3	
Differential Equations		
MAP 2302	Elementary Differential Equations	3
Linear Algebra		
MAS 4105	Linear Algebra 1	3-4
or MAS 3114	Computational Linear Algebra	
Electives		
MAA, MAD, MAP, MAS, MHF, or MTG courses (4000 level or above) [1]		9
Total Credits		23-24

[1] Three courses at the 4000 level or above, excluding MAS 4105; all three courses must be taken at UF.

Related Mathematics Programs

- Bachelor of Arts or Bachelor of Science in Mathematics (p. 847)

Medical Anthropology Certificate

This certificate provides an intensive foundation in medical anthropology for undergraduate anthropology and non-anthropology majors. Courses emphasize the role that biology, culture, language, and prehistory play in human health, and the experience of healing across cultures.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 12 | Completed with a 3.0 GPA average in all attempted courses

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

The Medical Anthropology certificate provides the opportunity to intensively investigate medical and life science problems through a social science framework which integrates the major elements of anthropology:

- biological anthropology
- forensic anthropology
- archeology
- cultural anthropology
- linguistics

Prerequisites

- Undergraduate student in good standing
- Department faculty and college dean approval
- Successful completion of at least one of the following courses:

Code	Title	Credits
ANT 2000	General Anthropology	3
ANT 2301	Human Sexuality and Culture	3
ANT 2410	Cultural Anthropology	3
ANT 3514C	Introduction to Biological Anthropology	4

Required Courses

Code	Title	Credits
Select 12 credits:		12
ANT 3302	Sex Roles: a Cross-Cultural Perspective	
ANT 3451	Race and Racism	
ANT 3467	Food and Culture	
ANT 3478	Global Health Culture	
ANT 3514C	Introduction to Biological Anthropology	
ANT 3515	Human Evolutionary Anatomy	
ANT 4462	Culture and Medicine	
ANT 4468	Health and Disease in Human Evolution	
ANT 4525	Human Osteology and Osteometry	
ANT 4531	Molecular Genetics of Disease	
If approved, select up to 3 credits:		
ANT 4930	Special Topics in Anthropology [1]	
Approved independent research topics course		
Total Credits		12

- Anthropology of Global Health *or*
- Anthropology of Pregnancy and Birth *or*
- Evolutionary Medicine *or*
- Global Gender Violence *or*
- Global Mental Health

Medical Geography in Global Health Minor

The world faces a pressing need for geographic theories, methods, and techniques to address global health issues. This minor provides training in spatial disease ecology, global health, and essential geostatistical approaches to public health. Hands-on experiences of geospatial analysis are emphasized through lab-based applications.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 19 | Completed with minimum grades of C
- **Additional Information**

Open to all undergraduate students of sophomore standing or higher.

Students take three foundation courses, one techniques course, and two advanced courses, for a total of 19 credits.

Required Courses

Code	Title	Credits
Foundation Courses		
GEO 3452	Introduction to Medical Geography	3
GEO 3454	Peoples and Plagues	3
STA 2023	Introduction to Statistics 1	3

- BA | Medical Geography in Global Health (p. 717)
- BS | Medical Geography in Global Health (p. 728)

Medieval and Early Modern Studies Minor

The minor focuses on medieval and early modern European culture and its influences on the modern world. Students acquire historical perspectives that contribute to current discussions about ethnicity and nationality, colonialism, technologies and their effects, gender and sexuality, and the characteristics of historical and fictional narratives.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 18 | Completed with minimum grades of C
- **Contact:** 263A Dauer Hall (http://campusmap.ufl.edu/?loc=0111)
- **Additional Information**
- **Related Medieval and Early Modern Studies Programs**

Requirements

Of the required credits, at least six credits must be at the 3000 level and at least three credits must be at the 4000 level. An additional 3-credit requirement is completion of a 2000-level foreign language course.
Courses (http://mems.center.ufl.edu/mems-courses)

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Related Medieval and Early Modern Studies Programs

- Bachelor of Arts in Interdisciplinary Studies, Medieval and Early Modern Studies (p. 799)

Meteorology and Climatology Certificate

The meteorology and climatology certificate provides a working knowledge of atmospheric processes across spatial and temporal scales. This certificate is applicable to many disciplines in the physical sciences and enables students to supplement their majors with an understanding and awareness of the societal impacts of natural hazards and climate change.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 12 | Completed with minimum grades of B- in each course
- **Additional Information**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

The program is open to all undergraduate students.

Students take one introductory course, one or two intermediate courses, and one or two advanced courses for a minimum of 12 credits.

Required Courses

Code	Title	Credits
Introductory Course		
GEO 2242	Extreme Weather	3
or MET 1010	Introduction to Weather and Climate	
Intermediate Courses		
Select one or two:		3-7
GEO 3250	Climatology	
GEO 3280	Principles of Geographic Hydrology	
GEO 3341	Extreme Floods	
GLY 3074	Oceans and Global Climate Change	
MET 3503	Weather and Forecasting	
Advanced Courses		
Select one or two:		3-6
MET 4532	Hurricanes	
MET 4560	Atmospheric Teleconnections	
MET 4750	Spatial Analysis of Atmospheric Data using GIS	

Microbiology and Cell Sciences | CLAS

The Bachelor of Science in Microbiology and Cell Sciences offers students flexibility in a curriculum that develops an excellent knowledge base and an understanding of concepts in microbiology, cell biology, and the biomolecular sciences. Emphasizes application of the scientific method to gain an understanding of the biological world at the cellular and molecular levels. Students learn to evaluate hypotheses, to interpret experimental data, and to communicate results effectively.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **Additional Information**
- **Related Microbiology and Cell Science Programs**

To graduate with this major, students must complete all university, college, and major requirements.

This major prepares students for entry into professional programs in medicine, dentistry, and veterinary medicine and provides a strong foundation for graduate studies in microbiology, cell biology, and related cellular and biomedical sciences. The major also provides a background for entry into government, industrial research, and diagnostic laboratories.

The curriculum develops fundamental knowledge of prokaryotic and eukaryotic cells and viruses. Courses include the physiology and genetics of microorganisms, mechanisms of pathogenesis and innate immunity systems, astrobiology, bacterial and genome sequencing and bioinformatics. More Info (http://microcell.ufl.edu/undergraduate-programs)

Coursework for the Major

All majors must complete 28 credits: 18 credits of core requirements, at least 7 credits of department electives and 3 credits for the quantitative requirement. A minimum of one credit in an advanced laboratory is required as part of the 7 department-elective credits. In addition, students must complete 35-38 hours of required foundation coursework.

Minimum grades of C within two attempts, including withdrawals, are required in all critical-tracking courses, major courses, department core requirements, department electives and the quantitative requirement. Second attempts must be completed the next semester of enrollment. A cumulative 2.0 GPA is also required.

Required Foundation Coursework

Code	Title	Credits
BSC 2010	Integrated Principles of Biology 1	4
& 2010L	and Integrated Principles of Biology Laboratory 1	
BSC 2011	Integrated Principles of Biology 2	4
& 2011L	and Integrated Principles of Biology Laboratory 2	
CHM 2045	General Chemistry 1	4
& 2045L	and General Chemistry 1 Laboratory	
CHM 2046	General Chemistry 2	4
& 2046L	and General Chemistry 2 Laboratory	
MAC 2311	Analytic Geometry and Calculus 1	4
Select one:		8-10
Option One		
PHY 2053	Physics 1	
& 2053L	and Laboratory for Physics 1	
PHY 2054	Physics 2	
& 2054L	and Laboratory for Physics 2	
Option Two		
PHY 2048	Physics with Calculus 1	
& 2048L	and Laboratory for Physics with Calculus 1	
PHY 2049	Physics with Calculus 2	
& 2049L	and Laboratory for Physics with Calculus 2	
CHM 2210	Organic Chemistry 1	3
CHM 2211	Organic Chemistry 2	5
& 2211L	and Organic Chemistry Laboratory	
Total Credits		36-38

All majors must complete the biology and general chemistry sequences and calculus by the end of the sophomore year. Organic Chemistry, CHM 2210, must be completed by the end of tracking term five. To continue in the major, students must attain a cumulative GPA in these graded courses of no less than 2.5 and with no grade lower than a C.

Core Requirements

Code	Title	Credits
BCH 4024	Introduction to Biochemistry and Molecular Biology	4
or CHM 3218	Organic Chemistry/Biochemistry 2	
BSC 2891	Python Programming for Biology	3
or MCB 4325C	R for Functional Genomics	
MCB 3023	Principles of Microbiology	5
& 3023L	and Principles of Microbiology Laboratory	
MCB 4203	Bacterial Pathogens	3
or PCB 4233	Immunology	
MCB 4304	Genetics of Microorganisms	3
or PCB 4522	Molecular Genetics	
MCB 4403	Prokaryotic Cell Structure and Function	3
or PCB 3134	Eukaryotic Cell Structure and Function	
Select one:		3
BSC 2891	Python Programming for Biology	
MCB 4325C	R for Functional Genomics	
Similar Programming or Biostatistics with Programming course		
Total Credits		24

If students take both "or" classes, one will count as a core course and the other will roll over into the 10-credit department elective requirement.

Department Elective Requirement

A total of 7 credits of approved department electives, including one credit in an advanced lab, are required. The list of approved department electives is available on the department website. A maximum of four credits of approved department electives may be taken in other departments. The remaining six credits must be chosen from approved department electives.

Programming or Biostatistics with Programming Requirement

A total of 3 credits of approved courses meets this requirement. Select from BSC 2891, MCB 4325C, or any equivalent programming class. Several of these courses are also department electives and cannot be used to fulfill both the quantitative and the department elective requirements. No overlap is allowed. STA 2023 will not fulfill this requirement

Course Details

MCB 4911 may be taken for a maximum of three credits per semester and six credits total. This policy also applies to microbiology and cell science majors registered for undergraduate research in other departments' undergraduate research courses, such as BCH 4905, BMS 4905, ZOO 4911 etc.

MCB 4934 is often used for TA positions as “Supervised Teaching.” TA positions may be repeated for a total of two semesters with one lab assignment per semester.

Enrollment in MCB 4911, MCB 4905 and MCB 4934 (Supervised Teaching) will not fulfill any credits toward the microbiology major requirements; they will count only as general elective credit toward the 120 credits for the B.S. degree.

Combined Degree Program

A Bachelor of Science and Master of Science (non-thesis) program is offered by the College of Agricultural and Life Sciences. Microbiology majors in both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences are eligible for admission to the Combined Degree Program.

Relevant Minors and/or Certificates

The Microbiology and Cell Science Department also offers an undergraduate minor in bioinformatics to students majoring in any biology-related subject, including and not limited to microbiology, biology, or biochemistry.

So integrated is bioinformatics with biology that it is difficult to find an active research program that does not rely on bioinformatic analysis to achieve results. Unfortunately, the integration of bioinformatic and traditional methods is not stressed in many undergraduate programs, leaving the next generation of biologists without the skills they need to succeed in tomorrow’s research environment. The undergraduate minor in bioinformatics provides this critical training to future professionals in the biological disciplines.

Research

A majority of majors are actively involved in undergraduate research for credit with mentors throughout the university. Preprofessional and graduate school-bound majors are encouraged to do a minimum of two semesters of undergraduate research. The department has a comprehensive list of mentors across campus who allow undergraduate students to do valuable research under their guidance. Please refer to the department website for more information on undergraduate research, finding a mentor and a contact list of UF faculty who have worked with microbiology and cell science majors.
More Info (http://microcell.ufl.edu/programs)

Enrollment in MCB 4911 will not fulfill any credits toward the microbiology major requirements; they will count only as general elective credit toward the 120 credits for the B.S. degree.

Related Microbiology and Cell Science Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Bachelor of Science in Microbiology and Cell Science, CALS (p. 229)
- Bachelor of Science in Microbiology and Cell Science, UF Online (p. 224)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260503&track=01) may be used for transfer students.

Semester 1

- Complete CHM 1025 or CHM 2045/CHM 2045L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete CHM 2046/CHM 2046L and BSC 2010/BSC 2010L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete BSC 2011/BSC 2011L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete CHM 2210
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). Microbiology electives outside of the department do not count towards the 3000 level or above electives outside of the major requirement. CHM 2211, CHM 2211L, BCH 4024, PHY 2054, PHY 2054L, PHY 2049, and PHY 2049L may count towards 3000 level or above electives outside of the major.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 514)**.**

Degree Comparison between the Colleges

CALS | MCB	CLAS | MCY
Effective Oral Communication (AEC 3030C, SPC 2608)	College-level Foreign Language Sequence (8-10 credits)
Technical Writing (ENC 2210, ENC 3254, AEC 3033C)	1 additional Humanity course
Economics (ECO 2013, ECO 2023, AEB 2014)	1 additional Social Science course

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Electives		6
	Credits	14-15
	Total Credits	120

1 ENC 1101 recommended.

2 MCB 4203 is taught only in fall; PCB 4233 is taught only in spring.

3 MCB 4304 is taught only in fall; PCB 4522 is taught only in spring.

A 2.5 GPA with minimum grades of C in the bolded science and math courses listed above is required to continue in the major after Semester 4.

Academic Learning Compact

The Bachelor of Science in microbiology and cell science, offered by both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences, offers students flexibility in a curriculum that develops an excellent knowledge base and an understanding of concepts in microbiology, cell biology and the biomolecular sciences. Emphasis will be placed on application of the scientific method to gain an understanding of the biological world at the cellular and molecular levels. Students will learn to evaluate hypotheses, to interpret experimental data and to communicate results effectively.

Before Graduating Students Must

- Pass a microbiology and cell sciences competency test consisting of four parts, one part from each of these required courses:

Code	Title	Credits
MCB 3023	Principles of Microbiology	3
MCB 3023L	Principles of Microbiology Laboratory	3
& MCB 4034L	and Advanced Microbiology Laboratory (or equivalent)	
MCB 4203	Bacterial Pathogens	3
or PCB 4233	Immunology	
MCB 4304	Genetics of Microorganisms	3
or PCB 4522	Molecular Genetics	

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe fundamental concepts, skills and processes in microbiology, molecular biology and in host/pathogen interactions.
2. Apply fundamental concepts, skills and protocols used to conduct research in fields of microbiology, molecular biology and in host/pathogen.

Critical Thinking

3. Evaluate information and data in the general areas of microbiology and the cellular and molecular biological sciences.
4. Solve typical problems that are encountered in general areas of microbiology and cellular and molecular biological sciences.

Communication

5. Communicate effectively in written form in a manner appropriate in microbiology and the cellular and molecular biological sciences.
6. Communicate orally (including visual aids) in an effective manner appropriate in microbiology and the cellular and molecular biological sciences.

Curriculum Map

Philosophy

Philosophy addresses the most fundamental problems that arise when reflecting on the nature of the world and our place in it. Philosophers ask questions such as: What can we know? What are the general features of reality? What is the relation between mind and body? How should one live?

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Additional Information**
- **Related Philosophy Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Philosophical problem examination is primarily conceptual rather than empirical, in that philosophers seek to develop conceptual accounts adequate to the phenomena they want to understand. The study of philosophy equips one to address difficult issues with critical thinking and sound reasoning, skills essential to effective thought and communication.

This major is excellent preparation for professional schools in law, business, medicine and journalism, and for careers in the private and public sector. More Info (http://www.phil.ufl.edu/ugrad/ugrad-major.html)

Coursework for the Major

The major requires 33 credits of coursework in philosophy with minimum grades of C.

Required Coursework

Code	Title	Credits
PHH 3100	Ancient Greek Philosophy	3
PHH 3400	Modern Philosophy	3
PHI 3130	Symbolic Logic	3
PHI 3300	Theory of Knowledge	3
or PHI 3500	Metaphysics	
PHI 3650	Moral Philosophy	3

Philosophy electives	18
Total Credits	33

- At least six credits must be at the 4000 level or above, excluding the following:

Code	Title	Credits
PHH 4911	Undergraduate Research in History of Philosophy	3
PHI 4905	Individual Work	1-3
PHI 4911	Undergraduate Research in Philosophy	3
PHI 4912	Honors Project	3

  (To enroll in a 4000-level course, a student must complete a 3000-level philosophy course or receive instructor permission.)
- At least 27 of the 33 credits must be at the 3000 level or above.

No more than 15 credits of transfer credit can count toward the degree and no more than three credits of individual work (PHH 4911, PHI 4905 or PHI 4911) can count toward the required minimum. Prior to advance registration each semester, the department makes available on its website customized descriptions of its undergraduate courses offered in the upcoming semester.

Course Details

- Fall course information (http://www.phil.ufl.edu/courses/fall/latest)
- Spring course information (http://www.phil.ufl.edu/courses/spring/latest)

Research

It is possible to write an honors thesis, which involves independent research under the supervision of a faculty director. This is usually a two-semester process in the final year.
More Info (http://www.phil.ufl.edu/ugrad/ugrad-major.html)

Related Philosophy Programs

- Philosophy minor (p. 872)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=380101&track=01) may be used by transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 philosophy course
- 2.0 UF GPA required

Semester 3

- Maintain coursework from semester 2
- 2.0 UF GPA required

Semester 4

- Complete 1 additional philosophy course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete 1 additional philosophy course (1 of the 3 courses must be at the 3000 level) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). Generally, it is a good idea to take the area requirement courses as early as possible; in particular, PHI 3130 is best taken earlier rather than later.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One

or PHI 3500	Metaphysics	
PHI 3650	Moral Philosophy (Gen Ed Humanities)	3

Academic Learning Compact

The major in philosophy provides a thorough knowledge of philosophical problems and arguments as well as critical thinking skills applicable to a wide variety of intellectual areas. Students will become familiar with key positions in the history of Western philosophy, learn how to navigate the contemporary philosophical terrain and acquire a working knowledge of formal logic. They will learn how to represent complex arguments in a clear and fair fashion, to evaluate them for cogency and to construct arguments of their own. Finally, students will become practiced in writing about abstract and elusive topics in a critical and compelling manner.

Before Graduating Students Must

- Earn minimum grades of C in all courses satisfying the major's distribution requirements, thereby demonstrating achievement of SLOs 1-3.
- Complete a model paper in a 4000-level philosophy class with a minimum grade of B, thereby demonstrating achievement of SLOs 4-7.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and explain the major questions addressed, the range of answers offered and the methods employed in the history of Western philosophy.
2. Identify, describe and explain the major arguments and options in core areas of contemporary philosophy, such as ethics, epistemology and metaphysics.
3. Employ the fundamental tools of formal logic, including the propositional and predicate calculus.

Critical Thinking

4. Discern the structure of arguments, to represent them fairly and clearly and to evaluate them for cogency.
5. Formulate original arguments, anticipating objections and responding in a conscientious fashion.

Communication

6. Read and discuss complex philosophical texts from both historical sources and contemporary works.
7. Speak and write clearly and persuasively about abstract and conceptually elusive matters.

Philosophy Minor

This minor allows exploration of a variety of areas in the field of philosophy, as well as complementing studies in other disciplines with a philosophically informed perspective.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 15 | Completed with minimum grades of C
- **Additional Information**
- **Related Philosophy Programs**

Requirements

- No more than six credits below the 3000 level
- No more than three credits of independent study or research (PHH 4911, PHI 4905, or PHI 4911)
- Six transfer credits may apply toward the minor
- A minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors

Required Courses

Code	Title	Credits
Select one course from 2 of 4 options:		6
Logic Option		
PHI 2100	Logic	
or PHI 3130	Symbolic Logic	
History Option		
PHH 3100	Ancient Greek Philosophy	
or PHH 3400	Modern Philosophy	
Metaphysics and Epistemology Option		
PHI 3300	Theory of Knowledge	
or PHI 3500	Metaphysics	
Value Theory Option		
PHI 3650	Moral Philosophy	
or PHM 3202	Political Philosophy

Total Credits		15

Related Philosophy Programs

- Bachelor of Arts in Philosophy (p. 868)

Physics

Physics is the most fundamental natural science. The laws of physics are the starting point for most scientific research and engineering applications. Students majoring in physics obtain broad-based knowledge and expertise applying these laws, as well as hands-on experience building electronic equipment and performing experiments.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degrees:** Bachelor of Arts (p. 875) | Bachelor of Science (p. 880)
- **Credits for Degree:** 120
- **Contact:** Email (advising@phys.ufl.edu?Subject=Physics Major)
- **Additional Information**
- **Related Physics Programs**

To graduate with this major, students must complete all university, college, and major requirements.

A physics major provides a wide range of career options. Many students pursue further studies in physics, other scientific disciplines, and various branches of engineering and medicine. Professional physicists work in universities and government laboratories seeking answers to fundamental questions about nature, in industry leading the development of new technologies, and in the medical sector performing clinical service and research. The analytical, problem-solving, and communications skills acquired by physics majors also lead to career opportunities in business and finance.

The Department of Physics offers two undergraduate degree programs: The Bachelor of Science (B.S.) is intended for students who wish to pursue graduate study in physics as well as for other students with a deep interest in the subject. The Bachelor of Arts (B.A.) is intended for students who seek the benefits of a physics degree but desire greater flexibility to follow interests in other fields.

Coursework for the Major

Coursework for the major will depend upon the degree program chosen.

Courses for the B.S. or B.A. degree include four pairs of alternative courses:

Code	Title	Credits
PHY 2048	Physics with Calculus 1	3
or PHY 2060	Enriched Physics with Calculus 1	
PHY 2049	Physics with Calculus 2	3
or PHY 2061	Enriched Physics with Calculus 2	
PHY 3101	Introduction to Modern Physics	3
or PHY 3063	Enriched Modern Physics	
PHY 3221	Mechanics 1	3
or PHZ 3113	Introduction to Theoretical Physics	

In each case, the second course includes selected advanced topics not covered in the first. While both courses prepare students for upper-level physics classes, students should see a department advisor to determine which course meets their needs.

Required coursework for each degree can be found below in the Critical Tracking section. Transfer students must take a minimum of 15 credits of required physics courses at UF.

Course Details

Several courses meet the criteria for the general education physical sciences (P) requirement. Some mathematical training (indicated in parentheses) is desirable or required for many of these courses. Of the courses below, only PHY 2048/PHY 2049 count toward the major.

Code	Title	Credits
MET 1010	Introduction to Weather and Climate	3
PHY 1033C	Discovering Physics	3
PHY 2020	Introduction to Principles of Physics [1]	3
Select one general physics sequence: [2]		6-8
PHY 2004	Applied Physics 1	
& PHY 2005	and Applied Physics 2	
PHY 2048	Physics with Calculus 1	
& PHY 2049	and Physics with Calculus 2	
PHY 2053	Physics 1	
& PHY 2054	and Physics 2	

1 MAC 1147 provides mathematical training desirable or required for this course.

2 Students should check the prerequisites carefully before enrolling in a general physics course.

Placement

Students with Advanced Placement credit should consult the catalog's Academic Advising section for course equivalencies. Sequences for advanced students are available from any physics advisor or the department website.

Research

All undergraduate majors are encouraged to participate in research activities. The majority of physics students participate in research during the academic year and/or through summer research programs. Advanced students may also be eligible to enroll in certain graduate courses, thereby accelerating their education. Physics majors are urged to confer with a department advisor as early as possible and especially as their educational goals evolve.

Related Physics Programs

- Physics minor (p. 885)

Academic Learning Compact

The laws of physics are the starting point for most scientific research and engineering applications. Students majoring in physics obtain broad-based knowledge and experience applying these laws as well as hands-on experience building electronic equipment and performing experiments. Many students go on to graduate study in physics, and a considerable number pursue advanced degrees in other science disciplines, all branches of engineering and medical school. Physics majors are employed in industry doing applied work and in academia seeking the answers to fundamental questions.

Before Graduating Students Must

- Pass the UF physics field test, which consists of five parts. One part is given in each of these required courses:

Code	Title	Credits
PHY 2060	Enriched Physics with Calculus 1	3
or PHY 3221	Mechanics 1	
PHY 3323	Electromagnetism 1	3
PHY 3513	Thermal Physics 1	3
PHY 4604	Introductory Quantum Mechanics 1	3
PHY 4802L	Laboratory Physics 1	3

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, define and describe the core fields of physics: classical mechanics, electricity and magnetism, thermal physics and quantum mechanics.
2. Identify, define and explain experimental physics and data analysis.

Critical Thinking

3. Formulate, solve problems and draw conclusions from data.

Communication

4. Effectively and clearly communicate ideas in speech and in writing in an accepted style.

Critical Tracking

Note that critical tracking is the same for both degrees.

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 514)**.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400801&track=01) may be used for transfer students.

Semester 1

- Complete CHM 1025 or CHM 2045; or PHY 2048 or PHY 2060; and a MAC course
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.0 UF GPA required

Semester 3

- Complete CHM 2046, MAC 2312, and PHY 2048 or PHY 2060
- 2.0 UF GPA required

Semester 4

- Complete MAC 2313; and PHY 2049 or PHY 2061 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete MAP 2302 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Model Semester Plan

This plan is structured for students taking Calculus 1 the first semester. Students can have different schedules when they enter UF because of their backgrounds. In particular, students are encouraged to take Physics with Calculus 1 (PHY 2048 or PHY 2060) as soon as they have completed Calculus 1, even if this means delaying chemistry. For all physics courses, adequate mathematical preparation is essential and is built into the suggested plans. Physics majors should meet with a department advisor before planning their schedules.

Additional sample schedules are available on the department's website.
More Info (http://www.phys.ufl.edu/academics/undergraduate/degrees.shtml)

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). MAC 2312, MAC 2313, MAP 2302, and math electives count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The laws of physics are the starting point for most scientific research and engineering applications. Students majoring in physics obtain broad-based knowledge and experience applying these laws as well as hands-on experience building electronic equipment and performing experiments. Many students go on to graduate study in physics, and a considerable number pursue advanced degrees in other science disciplines, all branches of engineering and medical school. Physics majors are employed in industry doing applied work and in academia seeking the answers to fundamental questions.

Before Graduating Students Must

- Pass the UF physics field test, which consists of five parts. One part is given in each of these required courses:

Code	Title	Credits
PHY 2060	Enriched Physics with Calculus 1	3
or PHY 3221	Mechanics 1	
PHY 3323	Electromagnetism 1	3
PHY 3513	Thermal Physics 1	3
PHY 4604	Introductory Quantum Mechanics 1	3
PHY 4802L	Laboratory Physics 1	3

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, define and describe the core fields of physics: classical mechanics, electricity and magnetism, thermal physics and quantum mechanics.
2. Identify, define and explain experimental physics and data analysis.

Critical Thinking

3. Formulate, solve problems and draw conclusions from data.

Communication

4. Effectively and clearly communicate ideas in speech and in writing in an accepted style.

Physics | BS

Physics is the most fundamental natural science. The laws of physics are the starting point for most scientific research and engineering applications. Students majoring in physics obtain broad-based knowledge and expertise applying these laws, as well as hands-on experience building electronic equipment and performing experiments.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degrees:** Bachelor of Arts (p. 875) | Bachelor of Science (p. 880)
- **Credits for Degree:** 120
- **Contact:** Email (advising@phys.ufl.edu?Subject=Physics Major)
- **Additional Information**
- **Related Physics Programs**

To graduate with this major, students must complete all university, college, and major requirements.

A physics major provides a wide range of career options. Many students pursue further studies in physics, other scientific disciplines, and various branches of engineering and medicine. Professional physicists work in universities and government laboratories seeking answers to fundamental questions about nature, in industry leading the development of new technologies, and in the medical sector performing clinical service and research. The analytical, problem-solving, and communications skills acquired by physics majors also lead to career opportunities in business and finance.

The Department of Physics offers two undergraduate degree programs: The Bachelor of Science (B.S.) is intended for students who wish to pursue graduate study in physics as well as for other students with a deep interest in the subject. The Bachelor of Arts (B.A.) is intended for students who seek the benefits of a physics degree but desire greater flexibility to follow interests in other fields.

Coursework for the Major

Coursework for the major will depend upon the degree program chosen.

Courses for the B.S. or B.A. degree include four pairs of alternative courses:

Code	Title	Credits
PHY 2048	Physics with Calculus 1	3
or PHY 2060	Enriched Physics with Calculus 1	
PHY 2049	Physics with Calculus 2	3
or PHY 2061	Enriched Physics with Calculus 2	
PHY 3101	Introduction to Modern Physics	3
or PHY 3063	Enriched Modern Physics	
PHY 3221	Mechanics 1	3
or PHZ 3113	Introduction to Theoretical Physics	

In each case, the second course includes selected advanced topics not covered in the first. While both courses prepare students for upper-level physics classes, students should see a department advisor to determine which course meets their needs.

Required coursework for each degree can be found below in the Critical Tracking section. Transfer students must take a minimum of 15 credits of required physics courses at UF.

Course Details

Several courses meet the criteria for the general education physical sciences (P) requirement. Some mathematical training (indicated in parentheses) is desirable or required for many of these courses. Of the courses below, only PHY 2048/PHY 2049 count toward the major.

Code	Title	Credits
MET 1010	Introduction to Weather and Climate	3
PHY 1033C	Discovering Physics	3
PHY 2020	Introduction to Principles of Physics [1]	3
Select one general physics sequence: [2]		6-8

PHY 2004	Applied Physics 1
& PHY 2005	and Applied Physics 2
PHY 2048	Physics with Calculus 1
& PHY 2049	and Physics with Calculus 2
PHY 2053	Physics 1
& PHY 2054	and Physics 2

[1] MAC 1147 provides mathematical training desirable or required for this course.

[2] Students should check the prerequisites carefully before enrolling in a general physics course.

Placement

Students with Advanced Placement credit should consult the catalog's Academic Advising section for course equivalencies. Sequences for advanced students are available from any physics advisor or the department website.

Research

All undergraduate majors are encouraged to participate in research activities. The majority of physics students participate in research during the academic year and/or through summer research programs. Advanced students may also be eligible to enroll in certain graduate courses, thereby accelerating their education. Physics majors are urged to confer with a department advisor as early as possible and especially as their educational goals evolve.

Related Physics Programs

- Physics minor (p. 885)

Bachelor of Science

The B.S. degree program is intended for students planning to do graduate work in physics or related science and engineering disciplines. The B.S. requires a minimum of 41 credits in Physics plus 28 credits of related coursework. Minimum grades of C are required for coursework counted toward the major.

Critical Tracking

Note that critical tracking is the same for both degrees.

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400801&track=01) may be used for transfer students.

Semester 1

- Complete CHM 1025 or CHM 2045; or PHY 2048 or PHY 2060; and a MAC course
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.0 UF GPA required

Semester 3

- Complete CHM 2046, MAC 2312, and PHY 2048 or PHY 2060
- 2.0 UF GPA required

Semester 4

- Complete MAC 2313; and PHY 2049 or PHY 2061 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete MAP 2302 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Model Semester Plan

This plan is structured for students taking Calculus 1 the first semester. Students can have different schedules when they enter UF because of their backgrounds. In particular, students are encouraged to take Physics with Calculus 1 (PHY 2048 or PHY 2060) as soon as they have completed Calculus 1, even if this means delaying chemistry. For all physics courses, adequate mathematical preparation is essential and is built into the suggested plans. Physics majors should meet with a department advisor before planning their schedules.

Additional sample schedules are available from the department.
More Info (http://www.phys.ufl.edu/academics/undergraduate/degrees.shtml)

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). MAC 2312, MAC 2313, MAP 2302, and upper-division math electives count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Physics Minor

The physics minor consists of the complete sequence in general physics, modern physics, and two 3000/4000-level courses in the physics major course sequence. Students should consult a physics advisor and obtain the required approval no later than the beginning of the junior year.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 17 | Completed with minimum grades of C
- **Related Physics Programs**

All 3000/4000-level courses must be taken from the UF Department of Physics. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Students pursuing an astronomy major must complete six credits of physics coursework beyond what is required for the astronomy major before they will be approved for the physics minor.

The following cannot count toward this minor:

Code	Title	Credits
PHY 3400	Light, Color and Holography	3
PHY 3840L	Building Scientific Equipment	2
PHY 4905	Individual Work	1-4
PHY 4911	Undergraduate Research in Physics	3

Required Courses

Code	Title	Credits
Select one option:		8
Option A		
PHY 2048	Physics with Calculus 1	
& 2048L	and Laboratory for Physics with Calculus 1	
PHY 2049	Physics with Calculus 2	
& 2049L	and Laboratory for Physics with Calculus 2	
Option B		
PHY 2048L	Laboratory for Physics with Calculus 1	
PHY 2049L	Laboratory for Physics with Calculus 2	
PHY 2060	Enriched Physics with Calculus 1	
PHY 2061	Enriched Physics with Calculus 2	
PHY 3063	Enriched Modern Physics	3
or PHY 3101	Introduction to Modern Physics	
Two 3000/4000-level courses in the physics major course sequence		6
Total Credits		17

Related Physics Programs

- Bachelor of Arts or Bachelor of Science in Physics (p. 872)

Political Campaigning Certificate

Political science and non-major students may pursue undergraduate training in campaigns and elections, earning a certificate in political campaigning. The certificate is designed for students who may pursue careers in practical politics, including campaign management, lobbying, and issue advocacy.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 18 | Completed with minimum grades of C
- **Contact**
- **Related Political Science Programs**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

The application can also be picked up from the political science office in 234 Anderson Hall (http://campusmap.ufl.edu/?loc=0007).

POS 4275	Modern Political Campaigns	
POS 4443	Political Parties and Elections	
POS 4463	Interest Group Politics	
Approved electives		9
Total Credits		18

Approved Electives

Choose from the preceding or following list, including one or both of the remaining basic courses (POS 3204/POS 4275/POS 4443/POS 4463).

Code	Title	Credits
POS 3122	State Politics	3
POS 3173	Southern Politics	3
POS 3233	Politics and Public Opinion	3
POS 4291	Religion and Politics in the United States	3
POS 4931	Special Topics (Beyond the Beltway: Politics in States, Counties and Communities)	3
POS 4931	Special Topics (Election Law)	3
POS 4931	Special Topics (Ethics in American Politics)	3
POS 4931	Special Topics (Media and Politics)	3
POS 4931	Special Topics (Money and Politics in America)	3
POS 4931	Special Topics (Race/Poverty/Voting Rights)	3
POS 4931	Special Topics (Survey Research)	3
PUP 3323	Women in Politics	3

Students may petition the director of the political campaigning program for permission to substitute one other course for one of the courses in the electives list.

Related Political Science Programs

- Bachelor of Arts in Political Science (p. 886)

Political Science

The political science major prepares students for a wide range of careers in government, non-governmental organizations, politics, law, and the private sector. Students take coursework in areas as diverse as American and comparative politics, political theory, international relations, public policy and public administration.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Additional Information**
- **Related Political Science Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Political science majors are encouraged to serve in a political internship and participate in an overseas studies program. There are also numerous opportunities for students to conduct independent research with faculty. Recent graduates serve throughout federal, state and local government, attend law and graduate school, and work in the non-profit and private sectors.

Students leave the major with an understanding of how politics and government operate, an appreciation for the values governments pursue, and the critical and analytic skills necessary for understanding the empirical and normative dimensions of the political world.

Coursework for the Major

Majors must complete 30 credits of political science coursework, plus STA 2023, all with minimum grades of C. A minimum of 15 credits of political science courses (of the 30 required) must be completed at UF, per the department's residency requirement.

Required Coursework

- 30 credits of political science coursework, including 3 of these 4 core courses:

Code	Title	Credits
CPO 2001	Comparative Politics (Gen Ed Social and Behavioral Sciences and International)	3
INR 2001	Introduction to International Relations (Gen Ed Social and Behavioral Sciences and International)	3
POS 2041	American Federal Government (Gen Ed Social and Behavioral Sciences)	3
POT 2002	Introduction to Political Theory (Gen Ed Humanities)	3

- The remaining political science courses may include:
  - No more than three additional credits of 1000/2000-level courses
  - Additional courses at the 3000 level or higher, including
    - No more than three credits of POS 4905
    - No more than three credits of POS 4940 (graded S/U)

Required Coursework

- STA 2023 Introduction to Statistics, 3 credits

Recommended Coursework

The following centers and programs are affiliated with the Department of Political Science. Many of them offer minors and/or certificates that complement a degree in political science.

The Bob Graham Center for Public Service

A community of students, scholars and politically engaged citizens devoted to enhanced citizenship; the training of current and future public and civic leaders who can identify problems and spearhead change; and the development of policy on issues of importance to Florida, the United States and the global community. The center offers a minor in public leadership (p. 920), an interdisciplinary program of study that provides students with the skills and knowledge critical to serving as effective and ethical public leaders.

The Center for African Studies

Promotes excellence in teaching and research on Africa in all disciplines at the University of Florida. In addition to undergraduate education, the center promotes and supports graduate studies as essential for the development of a continuing community of Africanist scholars. The center has over 100 affiliated teaching and research faculty in a variety of fields, including languages, the humanities, the social sciences, agriculture, business, engineering, education, fine arts, environmental studies and conservation, journalism, and law. The center offers an African studies minor (p. 525) that provides a multidisciplinary grounding in an important world area for those who want to pursue careers in a range of professions as well as for those who intend to go on to graduate school.

The Center for European Studies

Designed to assist in the development of area and language skills among students through fostering rich academic and cultural environments, including broad language and areas studies courses, degree options, and study abroad opportunities. It also fosters greater international awareness in the broader community through educational programs for state and local government, business organizations, K-12 students and teachers, the media and the general public. The center offers a

- European Union studies certificate (p. 689) and minor (p. 690), which are designed to give students the opportunity to gain European Union expertise through multidisciplinary coursework.
- East-Central European studies certificate (p. 677) and minor (p. 678), which give students the opportunity to study Eastern and Central Europe from an interdisciplinary perspective that incorporates both area and language studies.

The Center for Jewish Studies

Provides an undergraduate, interdepartmental curriculum that serves as a basis for understanding the broad spectrum of Jewish culture, religion, and civilization. The center offers both a major and minor (p. 833) through the College of Liberal Arts and Sciences. These may serve as preparation for graduate work in Jewish studies and the rabbinate, as background for a career in Jewish education or community service, or as an area of special interest which enriches the undergraduate experience.

The Center for Latin American Studies

Advances knowledge about Latin America and the Caribbean and enhances the scope and quality of Latin American studies at the University of Florida. The center administers an interdisciplinary graduate and undergraduate academic program in Latin American studies as well as a minor (p. 834) and certificate (p. 833).

The Center for Gender, Sexualities, and Women's Research
An interdisciplinary forum for the study of gender and sexualities, their intersections with race/ethnicity, class, and other sociocultural systems. The Center's core faculty members have expertise in gender, race/ethnicity, and sexualities/LGBTQ+ studies; feminist intersectional analysis; transnational and postcolonial feminist analysis; Chicana/o, Latina/o, Afro-Latino Studies, Haitian and Caribbean studies; and cultural and literary studies. They apply this expertise in the study of critical domains such as collective identity and activism, health and medicine, law and politics, immigration, work, leadership and business, history, literatures and cultures, media and art, and social movements. In addition, the Center has over 100 affiliate faculty members with wide-ranging expertise and course offerings. Besides the major (p. 970) in Women's Studies, students may pursue one of three minors: Women's Studies (p. 974), Theories and Politics of Sexuality (p. 970), and Health Disparities in Society (p. 780).

Combined Degree Program

The combined bachelor's/master's degree program is designed for superior students who have the ability to pursue an accelerated program in political science leading to the Master of Arts in political science. This program is not generally recommended for students considering a Ph.D. program in political science at UF. Admission to the combined degree program is highly competitive and therefore very limited numbers of students are approved for this program.

Students in the combined program may pursue the general M.A. in political science or certificates in public affairs or political campaigning. Up to 12 semester credits of approved graduate-level political science courses can be used as dual credit for both degrees. All other requirements for the bachelor's and the master's degrees must be satisfied. For more application process information, contact the undergraduate and graduate coordinators in the Department of Political Science.

Overseas Studies

Majors are encouraged to seek out opportunities for international study, during the summer or for the academic year. The credit generally will be applied toward the major and the degree. Contact the undergraduate coordinator about credit for study abroad. Visit the UF International Center in room 170 of the Hub for more information.

Relevant Minors and Certificates

International Relations Certificate

Political science and non-major students who are interested in international relations can pursue undergraduate training in two ways: through an interdisciplinary major in International Studies that includes courses on comparative politics and international relations or through a certificate in international relations. Credits earned toward the certificate also count toward the political science major. More information can be found under interdisciplinary studies majors listing and certificate programs.
More Info (p. 810)

Political Campaigning Certificate

The Department of Political Science offers a certificate in political campaigning to its undergraduate majors. The certificate is designed for students who may wish to consider pursuing careers in practical politics, including campaign management, lobbying, issue advocacy, and others. Credits earned toward the certificate also count toward the political science major. Additional information is available on the department website.
More Info (p. 885)

Public Affairs Certificate

The certificate in public affairs is designed for those students interested in a career in or near government. Students take courses in public administration, policy process, policy analysis and one or more substantive policy courses in foreign policy, education, health, immigration, civil rights, welfare, or environmental protection. Credits earned toward the certificate also count toward the political science major. The certificate is open to non-political science majors as well. Additional information is available on the department website.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=451001&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 4 political science critical-tracking courses: CPO 2001, INR 2001, POS 2041, or POT 2002
- 2.0 UF GPA required

Semester 2

- Complete 1 additional political science critical-tracking course or STA 2023 with a 2.25 critical-tracking GPA
- 2.0 UF GPA required

Semester 3

- Complete 1 additional political science critical-tracking course or STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 4

- Complete 3 of 4 political science critical-tracking courses and STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete 1 additional political science course at the 3000 level or higher with a minimum grade of C and maintain a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

Because a large number of political science courses are approved for general education social and behavioral sciences, the plan below assumes students will take at least 9 credits of GE-S courses. Students should monitor their progress toward general education in their degree audit to ensure they meet the GE-S requirement.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Select one political science core course (**Critical Tracking**):		3
CPO 2001	Comparative Politics

	Total Credits	120

1 If POS 2041 not taken previously.

2 Students are encouraged to use some electives to pursue a minor.

Academic Learning Compact

The major in political science provides an understanding of how government and politics operate in the U.S. and elsewhere. Students will develop the critical analytic and research skills to study government and politics and be able to articulate information and ideas about government and politics.

Before Graduating Students Must

- Complete 30 credits of political science coursework with minimum grades of C, including a minimum of 18 credits at the 3000/4000 levels.
- Complete an introductory statistics course.
- Complete two 3000/4000-level political science courses with a writing component, graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and define basic factual information and analytical concepts concerning political systems.

Critical Thinking

2. Analyze political issues and phenomena using political science concepts, theories and methods through internships and research projects.

Communication

3. Use argument and evidence effectively to communicate original analysis of political phenomena.

Portuguese

Hispanic and Latin American Languages, Literatures and Linguistics

Focusing on globalization, diversity, and public engagement, the Hispanic and Latin American Languages, Literatures and Linguistics major provides an interdisciplinary, multilingual approach to the study of Spanish- and Portuguese-speaking cultures drawing from a variety of contemporary perspectives on linguistics, literature, film, theatre, social service, and professions in health, law, business, education, and media.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Specializations:** Spanish (p. 942) | Portuguese (p. 891) | Spanish and Portuguese (p. 790)
- **Credits for Degree:** 120
- **Contact**
- **Additional Information**
- **Related Hispanic and Latin American Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The Hispanic and Latin American Languages, Literatures and Linguistics major offers the opportunity to gain proficiency in Spanish and/or Portuguese, two of the most important languages spoken in the United States, the Western Hemisphere and the world. The department offers courses

of study in language, culture, linguistics, and literature, as well as a series of courses in languages for the professions, which focus on medical, legal, business and other professional contexts.

By studying the literary and linguistic heritage of Spanish and Portuguese, students gain critical reading and writing skills that help them acquire and refine their abilities to speak, understand, read and write one of both of these languages.

The Spanish specialization focuses on the language and culture of Spain and Spanish-America, while the Portuguese specialization stresses the language and culture of Brazil, with complementary study of Portugal and Lusophone Africa. The combined specialization recognizes the increasingly prominent roles that Brazil, Spain and Latin America all play in international affairs, especially as they relate to Florida. Spanish- and Portuguese-speakers constitute the fastest growing immigrant populations in Florida. Studying both languages and cultures provide a competitive edge for those seeking careers in business, industry, tourism, health care, agricultural affairs, government, and education.

B.A. in Portuguese

The major requires 33 credits, beginning with foundational work in Portuguese and then moving on to more advanced coursework in language, culture and literature.

Students must earn minimum grades of C for coursework to count toward the major.
POR 3010 is an accelerated course for speakers of Spanish (or French). It fulfills the CLAS foreign language requirement but it does ***not*** *count as a 3000-level course for the major requirements.*

Required Coursework

- POR 3242
- 30 additional hours of POR or POW courses at the 3000 and 4000 levels.
  - A minimum of 12 credits must be at the 4000 level.
- Only one class in English (PRT) can count towards the major, substituting for POR/POW.
- Classes must be passed with a grade of C or better in order to be counted for the major.
- Two Individual Work courses (POW 4905) may be accepted as part of the major's requirements.
- Select courses outside the department may also count toward the major under special conditions.

Recommended Coursework

These courses are recommended to enhance students' overall understanding and appreciation of Portuguese-speaking people and their culture.

Code	Title	Credits
ANT 4336	The Peoples of Brazil	3
LAH 4630	Brazil after 1750	3
LAS 2001	Introduction to Latin American Studies	3
MUH 3541	Latin American Music	3

Humanities, arts, and social science courses that relate to the Portuguese-speaking world

Overseas Study

The university sponsors a reasonably priced summer B program in Rio de Janeiro, Brazil. Majors and minors are encouraged to participate at the 3000/4000 level, where they will earn six credits. The program also fulfills the summer residency requirement.

Placement

See the undergraduate coordinator for placement information, especially for transfer students and heritage speakers.

Relevant Minors and/or Certificates

Majors may want to pursue a certificate in Latin American Studies.

Research

Students who wish to complete a senior thesis for honors should consult Portuguese faculty at least two semesters in advance of graduation.

	Total Credits	120

[1] POR 3010 may be offered in the Fall, Spring, or Summer A terms and satisfies the CLAS language requirement.

Academic Learning Compact

The Bachelor of Arts in Hispanic and Latin American Languages, Literatures and Linguistics enables students to achieve communicative competence in Spanish and/or Portuguese, with an emphasis on all four language skills: speaking, comprehension, reading, and writing. Students will become knowledgeable in the areas of Hispanic and Lusophone cultures, literatures and/or linguistics, and they will learn how to interpret Spanish- and/or Portuguese language texts according to their cultural, literary and linguistic content.

Before Graduating Students Must

- Complete all requirements for the baccalaureate degree, as determined by faculty.
- Satisfactorily complete a written assignment in a 4000-level course that includes the written analysis of a text according to its cultural, literary and/or linguistic content. The text analyzed and the analysis will be in Spanish/Portuguese.
- Satisfactorily deliver an oral presentation in Spanish/Portuguese on the topic of the written paper. Presentation will include answering questions from audience members.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.

Critical Thinking

2. Analyze cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.

Communication

3. Demonstrate competence in written Spanish and/or Portuguese, including knowledge of grammar, vocabulary, orthography and appropriate stylistic conventions.
4. Demonstrate communicative competence in spoken Spanish and/or Portuguese, including the ability to understand the spoken language, speak with correct grammar, vocabulary and pronunciation, and use appropriate registers.

Portuguese Minor

The Portuguese minor offers excellent career preparation for a wide variety of fields, including tourism, business, journalism, telecommunications, law, health fields, and education.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 15 | Completed with minimum grades of C and no optional S-U
- **Related Portuguese Programs**

To earn a minor in Portuguese, students must complete 15 credits of coursework at the 3000/4000 level with a POR/POW/PRT prefix. Two of the courses must be taken at the 4000 level.

Students cannot apply POR 3010 toward the minor.

A minimum of nine credits must be completed at UF. Students can apply up to three credits of POW 4905 toward the minor and they must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Code	Title	Credits
POR, POW, or PRT courses (3000/4000 level; at least two must be 4000 level)		15
Total Credits		15

Related Portuguese Programs

- Bachelor of Arts in Portuguese (p. 891)

Psychology

Psychology is the science of human and animal behavior. Psychology majors receive a broad science-based liberal arts education. As a result, those with a Bachelor of Science in psychology are widely sought in business, education, and mental health fields. For a professional career in psychology, a graduate degree is needed.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Science
- **Specializations:** General Psychology (p. 909) | Behavior Analysis (p. 899) | Behavioral and Cognitive Neuroscience (p. 903)
- **Credits for Degree:** 120
- **Contact:** Email (psych-advising@ufl.edu?Subject=Psychology Major)
- **Additional Information**
- **Related Psychology Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The psychology curriculum at UF provides a strong background to pursue careers in psychology or to prepare students for entry into advanced professional schools such as law or medicine. The curriculum emphasizes the principles and applications of psychological knowledge, both as a natural science and as a social science.

Students in the psychology major can specialize in general psychology or behavioral and cognitive neuroscience. Both specializations require coursework in psychology, statistics, mathematics, and biology, and both offer the option to conduct a senior honors thesis if desired. The specializations vary in the specific courses necessary to complete the degree requirements. General psychology requires courses in four core areas within the discipline as well as elective psychology courses. Behavioral and cognitive neuroscience focuses more specifically on natural science-oriented psychology courses and allows students to take limited approved non-psychology courses relevant to contemporary neuroscience. This specialization also requires more math and biology courses than general psychology.

Coursework for the Major

A psychology major consists of a minimum of 36 credits with related coursework in biological science, mathematics, and statistics. At least 18 of the 36 credits must be taken at the University of Florida. Courses used toward the major must be earned with minimum grades of C.

Required Coursework

Required coursework will depend on the program the student chooses. Coursework for each specialization can be found below.

Recommended Coursework

More Info (http://www.psych.ufl.edu/~undergrad)

In addition to regularly scheduled courses, the department offers six individual work courses:

Code	Title	Credits
Research		
PCO 4911	Undergraduate Research in Psychology of Health Disparities	3
PSY 4911	Undergraduate Research in Psychology	3
PSY 4905	Individual Work	1-3
PSY 4970	Senior Thesis	1-3
Teaching		
PSY 4940	Introduction to Teaching in Psychology	3
Community Work		
PSY 4949	Community Work in Psychology	1-3

In each case, a psychology faculty member or other approved professional serves as supervisor. A maximum of nine credits of individual work courses from the following can count toward the major.

Code	Title	Credits
CLP 3911	Introduction to Clinical Research	1-3
PCO 4911	Undergraduate Research in Psychology of Health Disparities	3
PSY 4911	Undergraduate Research in Psychology	0-3
PSY 4905	Individual Work	1-3
PSY 4940	Introduction to Teaching in Psychology	3
PSY 4949	Community Work in Psychology	1-3
PSY 4970	Senior Thesis	1-3

Research

More Info (http://www.psych.ufl.edu/~undergrad)

Research in psychology means asking questions about behavior, designing and running experiments and collecting data regarding those questions, analyzing and interpreting the results, and communicating these results to colleagues. Developing research skills is encouraged, especially if students anticipate graduate school in psychology or in other professional areas.

Related Psychology Programs

- Bachelor of Arts in Psychology, UF Online (p. 915)

Academic Learning Compact

The Bachelor of Science in psychology enables students to achieve a high level of proficiency in the science of psychology, including the core natural and social science areas of psychology. Laboratory courses emphasize students' understanding of the design, analysis and critical interpretation of psychological research. Students will also refine their core knowledge and understanding of psychological research with advanced coursework in statistics, biology and mathematics.

Before Graduating Students Must

- Demonstrate satisfactory (minimum grade of C) performance on exams, papers and other coursework for six credits in core psychology natural sciences (course prefixes CBH, EAB, EXP and PSB), six credits of core psychology social sciences (course prefixes CLP, DEP, SOP and PPE) and three or four credits of psychological research methodology, design and analysis, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Critical knowledge of basic and applied aspects of core natural science areas within psychology as well as core social science areas within psychology.
2. Knowledge of the design, analysis and interpretation of psychological research.

Critical Thinking

3. Review, interpret and analyze the literature in psychological science.

Communication

4. Clearly and effectively present ideas in speech and in writing that contribute to the dissemination of advances in research in psychological science.

Curriculum Map

All courses available to students are listed in the table; however, students choose six credits in core psychology natural sciences, six credits of core psychology social sciences and three-to-four credits in psychological research methodology, design and analysis.

Psychology | Behavior Analysis

Psychology is the science of human and animal behavior. Psychology majors receive a broad science-based liberal arts education. As a result, those with a Bachelor of Science in psychology are widely sought in business, education, and mental health fields. For a professional career in psychology, a graduate degree is needed.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Science
- **Specializations:** General Psychology (p. 909) | Behavior Analysis (p. 899) | Behavioral and Cognitive Neuroscience (p. 903)
- **Credits for Degree:** 120
- **Contact:** Email (psych-advising@ufl.edu?Subject=Psychology Major)
- **Additional Information**
- **Related Psychology Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Required Coursework

Students in the behavior analysis specialization are required to complete 36 credits of psychology coursework with minimum grades of C. At least 30 of the 36 credits must be at the 3000-level or above.

- 3 credits, introductory level: PSY 2012 (or equivalent, such as a general psychology course taken elsewhere or credit by exam for PSY 2012 via AP, IB, AICE).
- 12 credits, behavior analysis courses:
    - EAB 3002
    - EAB 3764
    - EAB 4184
    - EAB 4930
- 3 credits, laboratory course: PSY 3213L
- 4 credits, laboratory course: EAB 4714C
- 14 credits additional psychology courses: Students must choose additional 3000/4000-level psychology courses to meet the 36-credit minimum requirement (with the exception that three credits of 2000-level courses can count toward this requirement). In addition, up to nine credits of individual work courses will count toward the 36-credit minimum requirement. Students can also take designated courses in the Women's Studies as part of the 14 elective credits (WST 3323, WST 3371, WST 4704).

Students who wish to transfer courses in psychology toward the major must see an advisor in the department for approval.

Related Coursework

Statistics

STA 2023 and STA 3024 are also required. STA 2023 is a prerequisite for some 4000-level psychology and laboratory courses. STA 3024 must be taken before or concurrently with any specialized psychology laboratory, and it also counts toward the CLAS requirement of 3000-level electives not in the major.

Mathematics

Proficiency through precalculus is required. MAC 1147 (or higher course) will meet this requirement. The combination of MAC 1114 and MAC 1140 may be substituted for MAC 1147.

Biological Science

BSC 2005 or BSC 2010 is required.

All majors are encouraged to see a psychology advisor in 135 Psychology Building. No appointments are necessary and walk-ins are welcome. Advising office hours (http://www.psych.ufl.edu/%7EUndergrad)

Most of the foundation-level courses and the laboratory methods course are offered each semester. Special topic and other advanced courses are offered less frequently. Fewer courses are offered in summer.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=420101&track=01) may be used for transfer students.

The following critical-tracking courses are required:

- BSC 2005 or BSC 2010
- MAC 1147 or MAC 1140 and MAC 1114
- PSY 2012
- PSY 3213L
- STA 2023

Although not required in the first five semesters, additional psychology courses taken in semesters 1-5 count toward the critical-tracking GPA for the major.

Semester 1

- Complete MAC 1140 or MAC 1147
- 2.4 UF GPA required

Semester 2

- Complete PSY 2012; if MAC 1140 is taken in semester 1, MAC 1114 must be taken semester 2
- 2.6 UF GPA required

Semester 3

- Complete 2 critical-tracking courses from BSC 2005 or BSC 2010, STA 2023 or PSY 3213L with a 2.6 critical-tracking GPA
  Students should take PSY 3213L in semester 3 or 4 before taking any additional 3000-level or above psychology courses.
- 2.7 UF GPA required

Semester 4

- Complete BSC 2005 or BSC 2010 and STA 2023 (if not previously taken) with a 2.75 critical-tracking GPA
- 2.8 UF GPA required

Semester 5

- Complete PSY 3213L (if not previously taken) with 2.75 critical-tracking GPA. Additional Psychology courses taken in semesters 1-5 are included in the critical-tracking GPA.
- 2.8 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One

Elective (3000 level or above, not in major)		3
Electives		6
	Credits	15
	Total Credits	120

Academic Learning Compact

The Bachelor of Science in psychology enables students to achieve a high level of proficiency in the science of psychology, including the core natural and social science areas of psychology. Laboratory courses emphasize students' understanding of the design, analysis and critical interpretation of psychological research. Students will also refine their core knowledge and understanding of psychological research with advanced coursework in statistics, biology and mathematics.

Before Graduating Students Must

- Demonstrate satisfactory (minimum grade of C) performance on exams, papers and other coursework for six credits in core psychology natural sciences (course prefixes CBH, EAB, EXP and PSB), six credits of core psychology social sciences (course prefixes CLP, DEP, SOP and PPE) and three or four credits of psychological research methodology, design and analysis, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Critical knowledge of basic and applied aspects of core natural science areas within psychology as well as core social science areas within psychology.
2. Knowledge of the design, analysis and interpretation of psychological research.

Critical Thinking

1. Review, interpret and analyze the literature in psychological science.

Communication

1. Clearly and effectively present ideas in speech and in writing that contribute to the dissemination of advances in research in psychological science.

Curriculum Map

All courses available to students are listed in the table; however, students choose six credits in core psychology natural sciences, six credits of core psychology social sciences and three-to-four credits in psychological research methodology, design and analysis.

Psychology | Behavioral and Cognitive Neuroscience

Psychology is the science of human and animal behavior. Psychology majors receive a broad science-based liberal arts education. As a result, those with a Bachelor of Science in psychology are widely sought in business, education, and mental health fields. For a professional career in psychology, a graduate degree is needed.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Science
- **Specializations:** General Psychology (p. 909) | Behavior Analysis (p. 899) | Behavioral and Cognitive Neuroscience (p. 903)
- **Credits for Degree:** 120
- **Contact:** Email (psych-advising@ufl.edu?Subject=Psychology Major)
- **Additional Information**
- **Related Psychology Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The psychology curriculum at UF provides a strong background to pursue careers in psychology or to prepare students for entry into advanced professional schools such as law or medicine. The curriculum emphasizes the principles and applications of psychological knowledge, both as a natural science and as a social science.

Students in the psychology major can specialize in general psychology or behavioral and cognitive neuroscience. Both specializations require coursework in psychology, statistics, mathematics, and biology, and both offer the option to conduct a senior honors thesis if desired. The specializations vary in the specific courses necessary to complete the degree requirements. General psychology requires courses in four core areas within the discipline as well as elective psychology courses. Behavioral and cognitive neuroscience focuses more specifically on natural science-oriented psychology courses and allows students to take limited approved non-psychology courses relevant to contemporary neuroscience. This specialization also requires more math and biology courses than general psychology.

Coursework for the Major

A psychology major consists of a minimum of 36 credits with related coursework in biological science, mathematics, and statistics. At least 18 of the 36 credits must be taken at the University of Florida. Courses used toward the major must be earned with minimum grades of C.

Required Coursework

Required coursework will depend on the program the student chooses. Coursework for each specialization can be found below.

Recommended Coursework

More Info (http://www.psych.ufl.edu/~undergrad)

In addition to regularly scheduled courses, the department offers six individual work courses:

Code	Title	Credits
Research		
PCO 4911	Undergraduate Research in Psychology of Health Disparities	3
PSY 4911	Undergraduate Research in Psychology	3
PSY 4905	Individual Work	1-3
PSY 4970	Senior Thesis	1-3
Teaching		
PSY 4940	Introduction to Teaching in Psychology	3
Community Work		
PSY 4949	Community Work in Psychology	1-3

In each case, a psychology faculty member or other approved professional serves as supervisor. A maximum of nine credits of individual work courses from the following can count toward the major:

Code	Title	Credits
CLP 3911	Introduction to Clinical Research	1-3
PCO 4911	Undergraduate Research in Psychology of Health Disparities	3
PSY 4911	Undergraduate Research in Psychology	0-3
PSY 4905	Individual Work	1-3
PSY 4940	Introduction to Teaching in Psychology	3
PSY 4949	Community Work in Psychology	1-3
PSY 4970	Senior Thesis	1-3

Research

More Info (http://www.psych.ufl.edu/~undergrad)

Research in psychology means asking questions about behavior, designing and running experiments and collecting data regarding those questions, analyzing and interpreting the results, and communicating these results to colleagues. Developing research skills is encouraged, especially if students anticipate graduate school in psychology or in other professional areas.

Related Psychology Programs

- Bachelor of Arts in Psychology, UF Online (p. 915)

Behavioral and Cognitive Neuroscience

Required Coursework

Students in the behavioral and cognitive neuroscience specialization are required to complete 36 credits of coursework with minimum grades of C. At least 22 credits must be taken in psychology.

Code	Title	Credits
Introductory level		
PSY 2012	General Psychology (or its equivalent, such as a general psychology course taken elsewhere or credit by exam for this course via AP, IB, AICE, etc.)	3
Foundation core		
Each is an introduction to the substantive areas of behavioral and cognitive neuroscience. Select one course from each area:		6
Biological Bases		
PSB 3340	Behavioral Neuroscience	
Learning and Cognition		
EXP 3604	Cognitive Psychology	
Laboratory courses		
PSY 3213L	Laboratory Methods in Psychology	3
Select one specialized psychology laboratory course:		4
EAB 4714C	Laboratory in Applied Behavior Analysis	
EXP 4174C	Laboratory in Sensory Processes	
PSB 4343C	Laboratory in Cognitive Neuroscience	
PSY 4905	Individual Work	
Psychology courses		
4000-level psychology courses with a PSB or EXP prefix or approval of the undergraduate coordinator. These courses must be taken in addition to the required laboratory course and individual work courses.		6
Additional courses		
Psychology courses or approved neuroscience-relevant courses outside psychology to meet the 36- credit minimum requirement [1]		14
Total Credits		36

[1]
- 3 credits may be at the 2000 level or higher
- The remaining 11 or more credits must be at the 3000/4000 level
- Any neuroscience-relevant courses outside psychology must be approved by a psychology advisor before enrollment
  Students may not take both PSB 3002 and PSB 3340 under any circumstances.

Students who wish to transfer courses in psychology toward the major *must* see an advisor in the department for approval.

Related Coursework

Statistics

STA 2023 and STA 3024 are also required. STA 2023 is a prerequisite for some 4000-level psychology and laboratory courses. STA 3024 must be taken before or concurrently with any specialized psychology laboratory, and it counts as a 3000+ level elective not in the major.

Mathematics

Proficiency is required. MAC 2311 meets this requirement.

Biological Science

BSC 2010 and BSC 2011 are required.

All majors are encouraged to see a psychology advisor in 135 Psychology Building. No appointments are necessary and walk-ins are welcome.

Most of the foundation-level courses and the laboratory methods course are offered each semester. Special topic and other advanced courses are offered less frequently. Fewer courses are offered in summer.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=420101&track=01) may be used for transfer students.

These critical-tracking courses are required: BSC 2010, MAC 2311, PSY 2012, PSY 3213L, PSB 3340, and STA 2023.

Although not required in the first five semesters, additional psychology courses taken in semesters 1-5 count toward the critical-tracking GPA for the major.

Semester 1

- Complete MAC 1147 or MAC 2311
- 2.4 UF GPA required

Semester 2

- Complete MAC 2311
- Complete PSY 2012
- 2.6 UF GPA required

Semester 3

- Complete 2 of the following critical-tracking courses with a 2.6 critical-tracking GPA: BSC 2010, PSB 3340, or PSY 3213L
  Students should take PSY 3213L **in semester 3 or 4 before taking any additional 3000-level or above psychology courses.**
- 2.7 UF GPA required

Semester 4

- Complete 1 tracking course from BSC 2010, PSB 3340, PSY 3213L or STA 2023 with a 2.75 critical-tracking GPA
- 2.8 UF GPA required

Semester 5

- Complete the final tracking course (BSC 2010, PSB 3340, PSY 3213L or STA 2023) with a 2.75 critical-tracking GPA. Additional psychology courses taken in semesters 1-5 are included in the critical-tracking GPA.
- 2.8 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). STA 3024 and approved 3000 level or above neuroscience-relevant courses outside the psychology department may count towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Code	Title	Credits
Introductory level		
PSY 2012	General Psychology (or equivalent, such as a general psychology course taken elsewhere or credit by exam for this course via AP, IB, AICE.)	3
Foundation level core		
Each of the four foundation areas is an introduction to a substantive area of psychology. Select at least one course from each:		12
Biological Bases		
CBH 3003	Comparative Psychology	
EXP 3104	Sensory Processes	
PSB 3002	Physiological Psychology [1]	
PSB 3340	Behavioral Neuroscience [1]	
Developmental Changes		
DEP 3053	Developmental Psychology	
Learning and Cognition		
EAB 3002	Principles of Behavior Analysis	
EAB 3764	Applied Behavior Analysis	
EXP 3604	Cognitive Psychology	
Sociocultural / Individual Differences Approaches		
CLP 3144	Abnormal Psychology	
PPE 3003	Psychology of Personality	
SOP 3004	Social Psychology	
Laboratory course		
PSY 3213L	Laboratory Methods in Psychology	3
Psychology courses		
4000-level courses (does not count individual work courses)		6
Additional Psychology courses		
3000/4000-level courses to meet the 36-credit minimum requirement (with the exception that three credits of 2000-level courses can count toward this requirement) [2, 3]		12
Total Credits		36

1. Students may not take both PSB 3002 and PSB 3340 under any circumstances.
2. In addition, up to nine credits of individual work courses will count toward the 36-credit minimum requirement.
3. Two courses from the Women's Studies department can also be utilized as part of the 12 additional psychology credits (WST 3371; WST 4704, WST 3323, WST 4XXX).

Students who wish to transfer courses in psychology toward the major must see an advisor in the department for approval.

Related Coursework

Statistics

STA 2023 and STA 3024 are also required. STA 2023 is a prerequisite for some 4000-level psychology and laboratory courses. STA 3024 must be taken before or concurrently with any specialized psychology laboratory, and it also counts toward the CLAS requirement of 3000-level electives not in the major.

Mathematics

Proficiency through precalculus is required. MAC 1147 (or higher course) will meet this requirement. The combination of MAC 1114 and MAC 1140 may be substituted for MAC 1147.

Biological Science

BSC 2005 or BSC 2010 is required.

All majors are encouraged to see a psychology advisor in 135 Psychology Building. No appointments are necessary and walk-ins are welcome.

Most of the foundation-level courses and the laboratory methods course are offered each semester. Special topic and other advanced courses are offered less frequently. Fewer courses are offered in summer.

Related Psychology Programs

- Bachelor of Arts in Psychology, UF Online (p. 915)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=420101&track=01) may be used for transfer students.

The following critical-tracking courses are required: BSC 2005 or BSC 2010, MAC 1147 or MAC 1140 and MAC 1114, PSY 2012, PSY 3213L, and STA 2023.

Although not required in the first five semesters, additional psychology courses taken in semesters 1-5 count toward the critical-tracking GPA for the major.

Semester 1

- Complete MAC 1140 or MAC 1147
- 2.4 UF GPA required

Semester 2

- Complete PSY 2012; if MAC 1140 is taken in semester 1, MAC 1114 must be taken semester 2
- 2.6 UF GPA required

Semester 3

- Complete 2 critical-tracking courses from BSC 2005 or BSC 2010, STA 2023 or PSY 3213L with a 2.6 critical-tracking GPA
  Students should take PSY 3213L **in semester 3 or 4 before taking any additional 3000-level or above psychology courses.**
- 2.7 UF GPA required

Semester 4

- Complete BSC 2005 or BSC 2010 and STA 2023 (if not previously taken) with a 2.75 critical-tracking GPA
- 2.8 UF GPA required

Semester 5

- Complete PSY 3213L (if not previously taken) with 2.75 critical-tracking GPA. Additional Psychology courses taken in semesters 1-5 are included in the critical-tracking GPA.
- 2.8 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

Academic Learning Compact

The Bachelor of Science in psychology enables students to achieve a high level of proficiency in the science of psychology, including the core natural and social science areas of psychology. Laboratory courses emphasize students' understanding of the design, analysis and critical interpretation of psychological research. Students will also refine their core knowledge and understanding of psychological research with advanced coursework in statistics, biology and mathematics.

Before Graduating Students Must

- Demonstrate satisfactory (minimum grade of C) performance on exams, papers and other coursework for six credits in core psychology natural sciences (course prefixes CBH, EAB, EXP and PSB), six credits of core psychology social sciences (course prefixes CLP, DEP, SOP and PPE) and three or four credits of psychological research methodology, design and analysis, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Critical knowledge of basic and applied aspects of core natural science areas within psychology as well as core social science areas within psychology.
2. Knowledge of the design, analysis and interpretation of psychological research.

Critical Thinking

3. Review, interpret and analyze the literature in psychological science.

Communication

4. Clearly and effectively present ideas in speech and in writing that contribute to the dissemination of advances in research in psychological science.

Curriculum Map

All courses available to students are listed in the table; however, students choose six credits in core psychology natural sciences, six credits of core psychology social sciences and three-to-four credits in psychological research methodology, design and analysis.

Psychology UF Online

Psychology is the science of human and animal behavior. Psychology majors receive a broad science-based liberal arts education. As a result, those with a Bachelor of Arts in psychology are widely sought in business, education, and certain mental health fields. For a professional career in psychology, a graduate degree is needed.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR | Email (psych-advising@ufl.edu)
- **Additional In formation**
- **Related Psychology Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The psychology curriculum provides a strong background to pursue careers in psychology, business, education, or health-related fields. The curriculum emphasizes the principles and applications of psychological knowledge, both as a natural science and as a social science. The B.A. in psychology requires courses in four core areas within the discipline as well as elective psychology courses.

Coursework for the Major

A B.A. in psychology consists of a minimum of 30 credits in psychology plus related coursework in biological science, mathematics, and statistics. At least 18 of the 30 credits must be taken at UF, and at least 24 of the 30 credits must be at the 3000-level or above. Courses used toward the major must be earned with minimum grades of C.

Code	Title	Credits
Required Coursework		
Introductory Level		
PSY 2012	General Psychology (or equivalent, such as a general psychology course taken elsewhere or credit by exam for this course via AP, IB, AICE)	3
Foundation Level Core		
Select at least one course from each of the four foundation areas:		12
CBH 3003 or PSB 3002	Comparative Psychology (Biological Bases) Physiological Psychology	

DEP 3053	Developmental Psychology (Developmental Changes)	
EAB 3002	Principles of Behavior Analysis (Learning and Cognition)	
or EXP 3604	Cognitive Psychology	
CLP 3144	Abnormal Psychology (Sociocultural / Individual Differences Approaches)	
or SOP 3004	Social Psychology	
Laboratory Course		
PSY 3213L	Laboratory Methods in Psychology	3
Additional Psychology Courses		
3000/4000-level psychology courses to meet the 30-hour minimum requirement (with the exception that three credits of 2000-level courses may count toward this requirement) [1]		12
Related Coursework		
STA 2023	Introduction to Statistics 1 (required; prerequisite for some 4000-level psychology courses)	3
Select one to achieve proficiency through precalculus:		4-5
MAC 1147	Precalculus Algebra and Trigonometry (or higher course)	
MAC 1114	Trigonometry	
& MAC 1140	and Precalculus Algebra	
BSC 2005	Biological Sciences	3
Recommended Coursework		
Select a maximum of six credits of individual work courses to count toward the major: [2]		0-6
PSY 4911	Undergraduate Research in Psychology	
PSY 4905	Individual Work	
PSY 4970	Senior Thesis	
PSY 4949	Community Work in Psychology	
CLP 3911	Introduction to Clinical Research	
Total Credits		40-47

1 In addition, up to six credits of individual work courses will count toward the 30-hour minimum requirement.

2 In addition to regularly scheduled courses, the department offers four individual work courses, three involving research (PSY 4911, PSY 4905, and PSY 4970) and one involving community work (PSY 4949). Students may enroll in these courses by permission of relevant faculty supervisors.

Students who wish to transfer courses in psychology toward the major must see an advisor in the department for approval.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=420101&track=01) may be used for transfer students.

The following critical-tracking courses are required:

- BSC 2005
- MAC 1147 or MAC 1140 and MAC 1114
- PSY 2012
- PSY 3213L
- STA 2023

Semester 1

- Complete MAC 1140 or MAC 1147
- 2.2 UF GPA required

Semester 2

- Complete PSY 2012; if MAC 1140 is taken in semester one, MAC 1114 must be taken semester two
- 2.3 UF GPA required

Semester 3

- 2.4 UF GPA required
- Complete 2 critical-tracking courses from BSC 2005, STA 2023 or PSY 3213L with a 2.5 critical-tracking GPA

Students should take PSY 3213L in semester 3 or 4 before taking any additional 3000-level or above psychology courses.

Semester 4

- Complete BSC 2005 and STA 2023 (if not previously taken) with a 2.5 critical-tracking GPA
- 2.5 UF GPA required

Semester 5

- Complete PSY 3213L (if not previously taken) with 2.5 critical-tracking GPA
- 2.5 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Public Affairs Certificate

The public affairs certificate is for those interested in government careers and requires courses in public policy and public administration.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 15 | Completed with minimum grades of C
- **Additional Information**
- **Related Political Science Programs**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Credits earned toward the certificate also count toward the political science major.

Required Courses

Code	Title	Credits
PAD 3003	Introduction to Public Administration (a core course in public administration)	3
PUP 3002	Current Controversies in Public Policy (a core course in public policy)	3
Select three 3000/4000-level courses from one of the following:		9
The policy process (e.g., bureaucratic politics)		
A substantive policy area (e.g., health politics and policy or politics and ecology)		
Total Credits		15

Students are encouraged to serve an internship in government and to complete an honors thesis in the area of public affairs.

Related Political Science Programs

- Bachelor of Arts in Political Science (p. 886)

Public Leadership Minor

This interdisciplinary minor, offered by the Bob Graham Center for Public Service, is for students interested in careers in the public and private sectors and those interested in acquiring skills to develop as civically responsible citizens. Through coursework and practical experience, students gain the skills and knowledge necessary for effective and ethical leadership careers. The minor complements a variety of majors, including the natural sciences, humanities, social sciences, journalism, and business.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 21 | Completed with a minimum cumulative 3.0 GPA
- **Additional Information**

Students pursuing the minor are expected to attend six events before graduation: public lectures, workshops, seminars, and the speakers series offered by the center. These events provide an opportunity to interact with visiting speakers on topics of current interest. Students are required to submit online a one page paper about the event within 24 hours of participation.

Students must have a 3.25 GPA and normally apply during the sophomore or junior year; application deadlines are October 1 and April 1.

Applications must include:

- A 2-3 page statement of purpose indicating why the student is applying and how the minor will help their future career
- One letter of recommendation, preferably from a faculty member, and
- A brief résumé.

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward their major(s) or other minors.

Religion

Events at home and abroad show that religion continues to be a powerful force, with both positive and negative consequences. An undergraduate major in religion provides students with the basic tools to understand the diversity of religious phenomena throughout the world in their proper historical, socio-political, psychological, cultural, and philosophical contexts.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Contact:** Email (info@religion.ufl.edu?Subject=Religion Major)
- **Additional Information**
- **Related Religion Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Students majoring in religion have gone on to work with non-government organizations and religious communities, including pastoral work and administration. Students receive truly interdisciplinary training and many have gone on to pursue advanced degrees in the humanities, social sciences,

law, education, journalism, and social services. The religion program complements many other programs at the University of Florida, including Latin American studies, sustainability studies, Jewish studies, African studies, and Asian studies.

Coursework for the Major

The program consists of 10 courses, which include at least one in Asian religions, one in Islam, and one in Jewish or Christian scripture. In addition, all majors must complete a junior seminar on methods and theories in the study of religion and a comparative East-West capstone seminar.

The 10 courses (30 credits) for the undergraduate major in religion must be completed with minimum grades of C. These courses must be taken from the introductory, intermediate and advanced levels of the religion curriculum and they must expose the student to both eastern and western thought.

Required Coursework

Code	Title	Credits
Asian Religion		
Select one:		3
REL 2315	Religion in Asia	
REL 2341	Introduction to Buddhism	
REL 3318	Chinese Religions

REL 3291	Gender and the Hebrew Bible	
REL 4221	The Pentateuch	
REL 3931	Junior Seminar (during the junior year)	3
4000-level courses, one of which must be the following:		9
REL 4933	The Comparative Study of Religion	
Total Credits		21

- Majors cannot count more than three introductory courses (2000-level, 9 credits) toward the 30 credits.
- No more than three courses (9 credits) can be in approved cognate courses from other departments.
- No more than four courses (12 credits) can be transferred from another institution.
- Every two semesters all majors must consult the undergraduate advisor.

There are no prerequisites for 2000-level courses. Detailed descriptions of current and prospective courses are available in 107 Anderson Hall and from faculty members before registration.

Overseas Studies

The department encourages study abroad. Overseas Studies, within the UF International Center (http://www.ufic.ufl.edu) (UFIC), offers the opportunity to study in a wide range of academic and cultural settings. The office coordinates 32 semester and yearlong programs and 28 summer programs in 24 countries. Study abroad programs satisfy the general education international and diversity requirements and also may fulfill requirements for a major

or minor, as well as basic distribution area requirements and UF summer residency. Interested students should contact the UF International Center in 170 Hub or the undergraduate coordinator.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=380201&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete 1 religion course
- 2.0 UF GPA required

Semester 4

- Complete 1 additional religion course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete 1 additional religion course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The major in religion examines religion as a significant and pervasive element in human culture. Through study of a variety of religious traditions, students learn about the history, beliefs and practices of the world's religions. Emphasis on method and theory and religion's comparative dimensions enables students to read and analyze current literature. Students will be able to locate and use reference tools and demonstrate the ability to communicate independent, critical perspectives.

Before Graduating Students Must

- Achieve satisfactory evaluation of assignment from REL 3931.
- Achieve satisfactory evaluation of assignment from REL 4933.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and explain religion as a significant and pervasive element in human culture.

Critical Thinking

2. Read and analyze current literature on method and theory in a study of religion.
3. Read and analyze current literature on comparative religion.

Communication

4. Effectively communicate, in speech and in writing, and disseminate the results of research in a coherent and organized manner.

Religion Minor

The religion minor provides the opportunity to explore various religions around the world: their scriptures, histories, beliefs, rituals, and communities.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 15 | Completed with minimum grades of C
- **Additional Information**
- **Related Religion Programs**

The religion minor consists of five REL-prefixed religion courses. Three of these courses must be taken at the intermediate or advanced level at UF.

No more than three credits of REL 4905 will apply. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Code	Title	Credits
REL courses (2000 level)		0-6
REL courses (3000/4000 level) [1]		9-15

[1] No more than three credits of REL 4905.

Related Religion Programs

- Bachelor of Arts in Religion (p. 921)
- Religious Ethics minor (p. 925)

Religious Ethics Minor

This minor provides the opportunity to learn about ethical theories and issues, from both philosophical and religious perspectives, past and present.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 15 | Completed with minimum grades of C
- **Additional Information**

Russian

Foreign Languages and Literatures

Students who major in Russian graduate with a solid working knowledge of the language and a thorough understanding of Russian culture and everyday life.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Additional Information**
- **Related Russian Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills, and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

Foreign Languages and Literatures Options (p. 691)

Students can tailor their program of study to fit their personal and career goals, be it reading Tolstoy in the original or tapping into one of the hottest emerging global markets. Majors also receive priority placement in our popular study-abroad programs in Moscow.

Completed alone or in combination with a second major, the Russian specialization of the Foreign Languages and Literatures major prepares students for a variety of careers, including law, government, national security, international relations, business, education and graduate programs in the humanities and social sciences. Beyond this, it equips students with analytical skills essential for performing effectively in today's multicultural world.

Small class sizes and an outstanding professional teaching staff ensure that students have every opportunity to learn and excel.

Students who intend to pursue the Russian specialization or a Russian minor should consult the undergraduate coordinator for Russian studies as soon as possible.

Coursework for the Major

The Russian specialization in Foreign Languages and Literatures consists of preparatory language study at the beginning and Intermediate levels and 33 hours of advanced language, literature, and culture study in the upper division.

All coursework for the major must be completed with minimum grades of C.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160402&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete RUS 1130 or higher-level Russian course with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete RUS 1131 or higher-level Russian course with 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete RUS 2220 or any 2000-level Russian course with 2.5 critical-tracking GPA
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically GE-C, H, or S). One of the two general education mathematics courses must be a pure math course. 3000 level or above critical concentration courses outside of Russian may count toward the 3000 level or above electives outside of the major.

Beginning language is best started semester 1 and absolutely no later than semester 3, but study abroad or accredited intensive summer courses can be used to fall in with an ideal semester progression.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
Category A[1]	I, R	I	I	I, R, A
Category B[2]	I, R, A	I, R, A	I, R, A	

1 Courses focus on the acquisition of the language(s) of specialization at the advanced level.

2 Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types

- Proficiency exams
- Term papers or final projects
- Oral presentations

Russian and East-European Area Studies Certificate

This certificate provides a foundation for graduate work in the field of and careers in government service. The program is based on a major in economics, foreign languages, geography, history, philosophy, political science, or religion.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 24 | Completed with minimum grades of C
- **Contact**
- **Related Russian and European Studies Programs**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Ten credits maximum from the student's major may be used to fulfill the 24-credit area requirement. At least nine credits of coursework must be unique to the Russian and East-European Area Studies certificate out of all other certificates and minors.

Required Courses

Code	Title	Credits
Select one:		10
RUS 1130 & RUS 1131	Introduction to Russian Language and Culture 1 and Introduction to Russian Language and Culture 2	
CZE 1130 & CZE 1131	Introduction to Czech Language and Culture 1 and Introduction to Czech Language and Culture 2	
GER 1130 & GER 1131	Beginning Intensive German 1 and Beginning Intensive German 2	
HNG 1130 & HNG 1131	Beginning Hungarian 1 and Beginning Hungarian 2	
POL 1130 & POL 1131	Introduction to Polish Language and Culture 1 and Introduction to Polish Language and Culture 2	
TUR 1130 & TUR 1131	Beginning Turkish 1 and Beginning Turkish 2	

OR	
Demonstrate an equivalent reading knowledge in Russian or an East-European area language	
Relevant courses (approved by the program advisor)	14
Total Credits	24

Students are encouraged to include at least one course in economics, history, political science, and Russian or East-European culture or literature to diversify their program, or to participate in an overseas study program.

Russian Minor

This minor provides foundational proficiency in Russian language and culture for work in international relations, national security, global business, finance, journalism, education, and NGOs.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 15 | Completed with minimum grades of C
- **Related Russian Programs**

For the minor, students must complete at least five Russian courses beyond the 1000 level. Up to six credits transferred from another institution may be applied toward the minor.

Students are required to take RUS 2220 and one 3000/4000 level RUT course. The remaining credits should be RUS and RUW-prefixed courses at the 3000/4000 level.

Students who place out of RUS 2220 and RUS 3240 (without transfer credits) can apply up to nine credits of RUT courses toward the minor. No more than three credits of RUS 4905 can apply.

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Code	Title	Credits
RUS 2220	Intermediate Russian 1	4
RUT course (3000/4000 level)		3
RUS and RUW courses (3000/4000 level)		8
Total Credits		15

Sociology

Sociology is the study of social life and the social causes and consequences of human behavior. Award-winning faculty teach diverse and multifaceted coursework in the broad categories of health, illness and aging; marriage, families and gender; criminology and deviance; inequality, poverty and stratification; social psychology; and race and ethnic studies. Students examine the most pressing social problems in these areas, as well as how different social groups experience and perceive these issues. The communication and analytical skills developed by sociology majors, complemented by their sensitivity to and appreciation for diversity in many aspects of social relationships, provide our students with essential conceptual tools for navigating today's global marketplace and information society.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Related Sociology Programs**

To graduate with this major, students must complete all university, college, and major requirements.

A liberal arts degree in sociology provides students with opportunities to develop skills deemed essential for many different types of careers. These skills include learning how to identify and solve problems, conduct research, relate to others, and write effectively. Graduates frequently are employed in business (e.g., advertising staff member, human resource manager), community and social services (e.g., environmental organizer, family planning worker), education (e.g., teacher, public health educator), government (e.g., human rights officer, urban planner), and research (e.g., social research assistant and market researcher). Sociology is also an excellent major for pre-law, pre-health, M.A., and Ph.D. studies.

Coursework for the Major

Majors are required to complete 32 credits of coursework in sociology and 3 credits of statistics with minimum grades of C. At least 23 credits of sociology must be in courses numbered 3000 or higher and at least 18 credits must be completed at UF.

To graduate, students must also pass a department exam covering fundamental sociological concepts developed by the sociology faculty.

Required Coursework

Code	Title	Credits
SYG 2000	Principles of Sociology (sociology majors are encouraged to take this as their first class)	3
SYA 4110	Development of Sociological Thought (must be taken after 90 credits)	4
SYA 4300	Methods of Social Research (should be completed by the end of the sixth semester.) [1]	4
Additional sociology coursework		21
Total Credits		32

[1] STA 2023 is a prerequisite for SYA 4300.

Students select additional sociology courses to complete the 32-credit minimum by matching interests in different substantive areas.

Majors can only apply two other 2000-level courses besides SYG 2000, for a maximum of nine credits at the 2000 level. There are no prerequisites for 2000-level courses.

Related Coursework

In addition to the 32 credits of sociology coursework, majors are required to complete STA 2023 Introduction to Statistics 1 with a minimum grade of C. STA 2023 must be taken no later than the end of the third semester.

Course Details

All majors should review the department's guidelines or visit 3231 Turlington Hall for information about the major, the plan of study worksheet, an informational handout, descriptions of current and prospective courses and other information.

Combined Degree Programs

The Department of Sociology and Criminology offers a combined B.A./M.A. degree to eligible undergraduate students. Please see the graduate coordinator for more information regarding this degree option. Sociology majors may also consider various combined degree programs with other departments and colleges. For example, a Master of Science in Business Administration with a concentration in management is offered through the Warrington College of Business to eligible students who have majored in sociology. Please see the undergraduate coordinator for more information about such degree options.

Research

The department encourages students to engage in the research process, either by conducting their own projects in collaboration with a sociology faculty member or by working with sociology faculty on their current research. These opportunities may be pursued by conducting a senior honors thesis or registering for SYA 4911 Undergraduate Research credit. Please see the undergraduate coordinator for more information and eligibility requirements.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=451101&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 sociology course
- 2.0 UF GPA required

Semester 3

- Complete 1 additional sociology course (1 of the 2 courses must be SYG 2000)
- Complete STA 2023
- 2.75 GPA required for all 3 critical-tracking courses
- 2.0 UF GPA required

Semester 4

- 2.75 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete 1 additional sociology course (1 of the 3 must be at the 3000/4000 level)
- 2.75 GPA required for all 5 critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

	Credits	14
	Total Credits	120

[1] In addition to SYG 2000 (GE-S), the remaining six credits of GE-S can be satisfied by sociology or non-sociology GE-S courses.

Academic Learning Compact

The Bachelor of Arts in sociology provides students with knowledge of the basic concepts in the field, sociological perspectives on social structure, process and institutions and sociological perspectives on the relationship between individuals and society. Emphasis is on the ability to understand, analyze and interpret the sociological literature and on effectively communicating sociological concepts and research in the accepted style of presentation.

Before Graduating Students Must

- Pass a department exam developed by the sociology faculty that covers fundamental sociological concepts.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, explain and apply basic concepts in sociology.

Critical Thinking

2. Analyze, critique and interpret the sociological literature.
3. Define, classify and compare sociological perspectives on social structure, processes and institutions.
4. Define, classify and compare sociological perspectives on the relationship between individuals and society.

Communication

5. Effectively communicate in speech and in writing sociological concepts and research.

Spanish

Hispanic and Latin American Languages, Literatures and Linguistics

Focusing on globalization, diversity, and public engagement, the Hispanic and Latin American Languages, Literatures and Linguistics major provides an interdisciplinary, multilingual approach to the study of Spanish- and Portuguese-speaking cultures drawing from a variety of contemporary perspectives on linguistics, literature, film, theatre, social service, and professions in health, law, business, education, and media.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Specializations:** Spanish (p. 942) | Portuguese (p. 891) | Spanish and Portuguese (p. 790)
- **Credits for Degree:** 120
- **Contact**
- **Additional Information**

- **Related Hispanic and Latin American Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The Hispanic and Latin American Languages, Literatures and Linguistics major offers the opportunity to gain proficiency in Spanish and/or Portuguese, two of the most important languages spoken in the United States, the Western Hemisphere and the world. The department offers courses of study in language, culture, linguistics, and literature, as well as a series of courses in languages for the professions, which focus on medical, legal, business and other professional contexts.

By studying the literary and linguistic heritage of Spanish and Portuguese, students gain critical reading and writing skills that help them acquire and refine their abilities to speak, understand, read and write one of both of these languages.

The Spanish specialization focuses on the language and culture of Spain and Spanish-America, while the Portuguese specialization stresses the language and culture of Brazil, with complementary study of Portugal and Lusophone Africa. The combined specialization recognizes the increasingly prominent roles that Brazil, Spain and Latin America all play in international affairs, especially as they relate to Florida. Spanish- and Portuguese-speakers constitute the fastest growing immigrant populations in Florida. Studying both languages and cultures provide a competitive edge for those seeking careers in business, industry, tourism, health care, agricultural affairs, government, and education.

B.A. in Spanish

The major requires 33 credits, beginning with foundational work in Spanish and then moves on to introductory coursework in culture, literature and linguistics. Pre-foundational coursework required to prepare the student for SPN 2240 or SPN 2340 depends on the student's background in Spanish and an appropriate placement score.

Students must earn minimum grades of C for coursework to count toward the major.

Additionally, there are separate courses designed students who speak Spanish as a heritage language (i.e., who grew up hearing or using Spanish at home).

Required Coursework

- SPN 2240 and SPN 3300 (non-bilingual track) or SPN 2340 and SPN 3350 (bilingual track)
- SPN 3700
- At least one SPW 3000-level course, 3 credits
- An additional 21 credits of Spanish courses at the 3000/4000 levels
  - At least 12 of the 21 credits must be at the 4000 level (four courses total)
- Students who transfer credits toward the Spanish major must take at least four 4000-level courses in Spanish at UF
- No more than 3 credits of SPN 4905 may count toward the major

Recommended Coursework

Students who have studied six semesters of Spanish or who have equivalent fluency may enroll in one-credit Spanish discussion sections that accompany selected Latin American studies courses in anthropology, art, business, philosophy, religion, sociology, etc. A maximum of three such courses may be credited toward the Spanish major and minor. Refer to the course description for SPN 3224.
More Info (http://spanishandportuguese.ufl.edu/undergraduate-programs)

- SPN 3301 is the prerequisite for SPN 4420
- SPN 3700 is the prerequisite for 4000-level SPN linguistics courses
- SPN 4780 is the prerequisite for SPN 4840
- The prerequisite for 4000-level SPW courses is one SPW 3000-level course.

Concentrations

After completing the introductory courses (SPN 3700 and SPW 3xxx), students may choose to complete their remaining upper division coursework in Hispanic Literatures or Hispanic Linguistics, or a combination of the two. Courses in the literature concentration (indicated with the prefix SPW) focus on the reading, contextualization and critical analysis of literary texts from across the Spanish-speaking world and including a wide range of periods and genres. Courses in the linguistics concentration (indicated with the prefix SPN) focus on the scientific study of the Spanish language and its structures, such as morphology, phonetics, phonology and syntax; as well as more applied linguistic areas such as psycholinguistics, bilingualism, and language acquisition.

Overseas Study

Students pursuing a major or a minor in Spanish are strongly encouraged to spend a summer, a semester, or an academic year in a Spanish-speaking country. UF programs are encouraged because they allow for easy transfer of UF credits and courses or course equivalencies. Most financial aid applies in this case as well. Interested students should contact the undergraduate coordinator and the UF International Center, 170 Hub.

Placement

Students with no previous study or experience in Spanish will need to complete the beginning language sequence (SPN 1130-SPN 1131) and the intermediate language sequence (SPN 2200-SPN 2201) to prepare for SPN 2240.

Students with prior study or knowledge of Spanish who wish to enroll in a Spanish course can present dual enrollment, AP, IB, or AICE scores, or can take the WebCAPE online placement test (http://spanishandportuguese.ufl.edu/undergraduate-programs/lower-division-spanish-program/spanish-placement).

Any student who has lived in a Spanish-speaking country for more than a year or who has significant Spanish-speaking experience at home or in a community must consult the coordinator of the bilingual program before enrolling in any SPN language, literature, or culture course. Heritage speakers not planning to take Spanish who wish to show proficiency should consult the Department for information on how to fulfill their foreign language proficiency requirement.
More Info (http://spanishandportuguese.ufl.edu/undergraduate-programs/lower-division-spanish-program)

Research

Students who wish to complete a senior thesis for honors should consult Spanish faculty at least two semesters in advance of graduation.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160905&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete SPN 1130 or a higher-level Spanish course
- 2.0 UF GPA required

Semester 3

- Complete SPN 1131 or a higher-level Spanish course
- 2.0 UF GPA required

Semester 4

- Complete SPN 2200 or continue taking higher-level Spanish coursework with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete SPN 2201 or a higher-level Spanish course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

1 SPN 2240 (or SPN 2340) is the first course that earns credit toward the major or minor. SPN 3300 can be taken concurrently with SPN 2240.

2 Some Spanish courses may also fulfill the H and N general education requirements: SPW 3030, SPW 3031, SPW 3100 and SPW 3101, SPN 3510, and SPN 3520; SPN 3440 fulfills the S and N general education categories.

Academic Learning Compact

The Bachelor of Arts in Hispanic and Latin American Languages, Literatures and Linguistics enables students to achieve communicative competence in Spanish and/or Portuguese, with an emphasis on all four language skills: speaking, comprehension, reading, and writing. Students will become knowledgeable in the areas of Hispanic and Lusophone cultures, literatures and/or linguistics, and they will learn how to interpret Spanish- and/or Portuguese language texts according to their cultural, literary and linguistic content.

Before Graduating Students Must

- Complete all requirements for the baccalaureate degree, as determined by faculty.
- Satisfactorily complete a written assignment in a 4000-level course that includes the written analysis of a text according to its cultural, literary and/or linguistic content. The text analyzed and the analysis will be in Spanish/Portuguese.
- Satisfactorily deliver an oral presentation in Spanish/Portuguese on the topic of the written paper. Presentation will include answering questions from audience members.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.

Critical Thinking

2. Analyze cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.

Communication

3. Demonstrate competence in written Spanish and/or Portuguese, including knowledge of grammar, vocabulary, orthography and appropriate stylistic conventions.
4. Demonstrate communicative competence in spoken Spanish and/or Portuguese, including the ability to understand the spoken language, speak with correct grammar, vocabulary and pronunciation, and use appropriate registers.

Spanish for the Professions Certificate

The Spanish for the professions certificate provides the linguistic skills and cultural knowledge necessary for working in our increasingly global community, focusing specifically on the Spanish-speaking world. Coursework builds cultural background and communicative proficiency, while providing profession-specific language and experience.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 12 | Completed with minimum grades of C
- **Contact:** Email (moreland@ufl.edu?Subject=Spanish for the Professions Certificate)
- **Additional Information**
- **Related Spanish Programs**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

To be eligible to complete the certificate, students must have a minimum grade of C in SPN 3300 or SPN 3350, or equivalent background. Nine of the twelve credits must be earned in a UF program. At least nine credits of coursework must be unique to the Spanish for the Professions certificate out of all other certificates and minors.

Required Courses

Code	Title	Credits
SPN 3414	Advanced Spanish Conversation 2	3
or SPN 4314	Advanced Spanish Composition and Structure for Heritage Learners	
SPN 3510	Culture and Civilization of Spain	3
or SPN 3520	Culture and Civilization of Spanish America	
SPN 3948	Spanish in the Community	3
Select one professional Spanish course:		3
SPN 3036	Spanish for Health Professions	
SPN 3440	Commercial Spanish	
SPN 3443	Marketing and Advertising in the Spanish-Speaking World	
SPN 3451	Spanish Translation and Interpretation: Theory and Practice	
SPN 3831	Spanish for the Legal Professions	
SPN 3930	Topics in Spanish and Spanish American Culture and Civilization (Spanish for Educators) [1]	
Total Credits		12

[1] Or an alternative selected topics section approved by the undergraduate coordinator.

Students must also achieve a minimum score of 50 on the Versant Spanish Test (at student's cost).

Related Spanish Programs

- Bachelor of Arts in Spanish (p. 942)
- Spanish minor (p. 947)

Spanish Minor

The Spanish minor offers excellent preparation for a career in virtually any field, and especially in areas such as business, journalism, telecommunications, law, medicine, education, and tourism.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 18 | Completed with minimum grades of C
- **Related Spanish Programs**

A minimum of nine credits must be completed at the University of Florida, including one 4000-level course. No more than three credits of SPN 4905 can apply.

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Certain 3000/4000-level courses have prerequisites:

- For SPN 4420: SPN 3301
- For 4000-level SPN linguistics courses: SPN 3700
- For SPN 4840: SPN 4780
- For 4000-level SPW courses: one SPW 3000-level course

Required Courses

Code	Title	Credits
SPN 2240	Intensive Communication Skills	3
or SPN 2340	Introduction to Reading and Writing Spanish for Heritage Learners	
SPN 3300	Spanish Grammar and Composition 1	3
or SPN 3350	Spanish Grammar and Composition for Heritage Learners	
SPN or SPW courses (3000/4000 level; at least three credits at the 4000 level)		12
Total Credits		18

Statistics

Statistics, the science of learning from data, has become increasingly important as scientists, businesses, and governments rely more and more on data-driven decision-making. Statisticians work in many areas, including business, economics, medicine, epidemiology, agriculture, environmental sciences, sports, and all aspects of government. With the increasing digitization and networking of society, data have become ever more ubiquitous, further expanding the demand for statisticians and their expertise in the collection and analysis of data.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degrees:** Bachelor of Arts (p. 950) | Bachelor of Science (p. 955)
- **Credits for Degree:** 120
- **Contact:** Email (dathien@stat.ufl.edu?Subject=Statistics Major)
- **Additional Information**
- **Related Statistics Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Statistics majors learn how to design studies that effectively address the purpose of a research project and how to properly analyze the data collected in such studies. Core courses cover statistical methods applicable in a wide variety of settings (e.g., regression and design of experiments) as well as the conceptual and mathematical foundations of statistics. Other courses explore specific data types often encountered in practical settings. Statistics majors have the option to minor in actuarial science, a profession involving the statistical and financial practices of insurance.

Students who wish to major in statistics must consult a department advisor early in their programs.

Coursework for the Major

The College of Liberal Arts and Sciences offers the Bachelor of Science and the Bachelor of Arts in statistics.

Bachelor of Arts

Intended for students who wish to pursue a career in the field of statistics or to teach statistics at the secondary-school level, but who do not currently contemplate graduate study in statistics.

Bachelor of Science

Intended for students who wish to pursue graduate study in statistics or a closely related area, and for other strong students with a deeper interest in the mathematical foundations of statistics.

Students must receive minimum grades of C within two attempts (including withdrawals) in every required core course and in every course counted toward the 12 credit elective requirement, with the exception of MAC 2312 and MAC 2313 where students must receive a minimum grade of B-. Students cannot retake core or statistics elective courses after earning a minimum grade of C, with the exception of MAC 2312 and MAC 2313, in which students must receive a minimum grade of B-. A minimum GPA of 2.0 must be achieved on all attempts of core and major elective courses and 2.67 on MAC 2312 and MAC 2313. The grades from all attempts to satisfy core requirements will be used to compute the minimum GPA. A minimum of 18 credits of major coursework must be taken at UF, including a minimum of 12 credits of core coursework.

Required Coursework for Both Degrees

The B.A. in statistics requires a minimum of 42 credits in statistics and related coursework. The B.S. in statistics requires a minimum of 49 credits in statistics and related coursework. It is important that the prerequisites of each class are met before the class is attempted.

1 The course sequences, STA 4210-STA 4211 and STA 4321-STA 4322 should be completed by the end of the junior year.

2 Prerequisite: STA 4210.

3 Prerequisite: STA 4321.

4 Students pursuing the major must enroll in the restricted to STA majors only section of STA 4211.

Combined Degree Program

Superior students can earn both the bachelor's and master's degrees in a shorter time than typically would be possible by counting up to 12 credits of approved graduate courses toward both degrees. For information and application, contact the undergraduate or graduate coordinator.

Relevant Minors and/or Certificates

Statistics majors may want to consider a minor in actuarial science, which prepares students for careers as actuaries. Required courses cover the material for the beginning examinations and VEE credits leading to an associateship in the major national actuarial societies.

Related Statistics Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Statistics minor (p. 959)

Academic Learning Compact

The statistics major enables students to achieve proficiency in the fundamentals of statistical reasoning. Through study of both theoretical and applied statistics and through data analysis projects, students will gain knowledge in problem solving, statistical applications and data-based inferences. Emphasis is on developing the ability to approach real world problems and through the use of statistical methods to be able to analyze and to draw valid scientific inferences.

Before Graduating Students Must

- Complete an exam on the fundamentals of statistics, which will be 5% of your grade in STA 4211.
- Complete a data analysis project, which will be 10% of your grade in STA 4211.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, define and describe concepts and issues in statistics, including those involved in designing a statistical study, in statistical estimation and in tests of hypotheses.

Critical Thinking

2. Identify sources of variability in a given problem setting and formulate an appropriate statistical analysis.

Communication

3. Clearly and effectively present ideas in speech and in writing concerning statistical issues and analyses of data.

Academic Learning Compact

The statistics major enables students to achieve proficiency in the fundamentals of statistical reasoning. Through study of both theoretical and applied statistics and through data analysis projects, students will gain knowledge in problem solving, statistical applications and data-based inferences. Emphasis is on developing the ability to approach real world problems and through the use of statistical methods to be able to analyze and to draw valid scientific inferences.

Before Graduating Students Must

- Complete an exam on the fundamentals of statistics, which will be 5% of your grade in STA 4211.
- Complete a data analysis project, which will be 10% of your grade in STA 4211.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, define and describe concepts and issues in statistics, including those involved in designing a statistical study, in statistical estimation and in tests of hypotheses.

Critical Thinking

2. Identify sources of variability in a given problem setting and formulate an appropriate statistical analysis.

Communication

3. Clearly and effectively present ideas in speech and in writing concerning statistical issues and analyses of data.

Statistics | BS

Statistics, the science of learning from data, has become increasingly important as scientists, businesses, and governments rely more and more on data-driven decision-making. Statisticians work in many areas, including business, economics, medicine, epidemiology, agriculture, environmental sciences, sports, and all aspects of government. With the increasing digitization and networking of society, data have become ever more ubiquitous, further expanding the demand for statisticians and their expertise in the collection and analysis of data.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degrees:** Bachelor of Arts (p. 950) | Bachelor of Science (p. 955)
- **Credits for Degree:** 120
- **Contact:** Email (dathien@stat.ufl.edu?Subject=Statistics Major)
- **Additional Information**
- **Related Statistics Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Statistics majors learn how to design studies that effectively address the purpose of a research project and how to properly analyze the data collected in such studies. Core courses cover statistical methods applicable in a wide variety of settings (e.g., regression and design of experiments) as well as the conceptual and mathematical foundations of statistics. Other courses explore specific data types often encountered in practical settings. Statistics majors have the option to minor in actuarial science, a profession involving the statistical and financial practices of insurance.

Students who wish to major in statistics must consult a department advisor early in their programs.

Coursework for the Major

The College of Liberal Arts and Sciences offers the Bachelor of Science and the Bachelor of Arts in statistics.

Bachelor of Arts

Intended for students who wish to pursue a career in the field of statistics or to teach statistics at the secondary-school level, but who do not currently contemplate graduate study in statistics.

Bachelor of Science

Intended for students who wish to pursue graduate study in statistics or a closely related area, and for other strong students with a deeper interest in the mathematical foundations of statistics.

Students must receive minimum grades of C within two attempts (including withdrawals) in every required core course and in every course counted toward the 12 credit elective requirement, with the exception of MAC 2312 and MAC 2313 where students must receive a minimum grade of B-. Students cannot retake core or statistics elective courses after earning a minimum grade of C, with the exception of MAC 2312 and MAC 2313, in which students must receive a minimum grade of B-. A minimum GPA of 2.0 must be achieved on all attempts of core and major elective courses and

2.67 on MAC 2312 and MAC 2313. The grades from all attempts to satisfy core requirements will be used to compute the minimum GPA. A minimum of 18 credits of major coursework must be taken at UF, including a minimum of 12 credits of core coursework.

Required Coursework for Both Degrees

The B.A. in statistics requires a minimum of 42 credits in statistics and related coursework. The B.S. in statistics requires a minimum of 49 credits in statistics and related coursework. It is important that the prerequisites of each class are met before the class is attempted.

Code	Title	Credits
Core		
Select one:		12

& MAC 3474	and Honors Calculus 3	
STA 4210	Regression Analysis [1]	3
STA 4211	Design of Experiments [1,2,4]	3
STA 4321	Introduction to Probability [1]	3
STA 4322	Introduction to Statistics Theory [1,3]	3
STA 4504	Categorical Data Analysis	3
Statistics Electives		
Select two:		6
STA 4222	Sample Survey Design	
STA 4502	Nonparametric Statistical Methods	
STA 4702	Multivariate Statistical Methods	
STA 4712	Introduction to Survival Analysis	
STA 4821	Stochastic Processes	
STA 4853	Introduction to Time Series and Forecasting	
STA 4930	Special Topics	
Total Credits		33

1. The course sequences, STA 4210-STA 4211 and STA 4321-STA 4322 should be completed by the end of the junior year.
2. Prerequisite: STA 4210.
3. Prerequisite: STA 4321.
4. Students pursuing the major must enroll in the restricted to STA majors only section of STA 4211.

Combined Degree Program

Superior students can earn both the bachelor's and master's degrees in a shorter time than typically would be possible by counting up to 12 credits of approved graduate courses toward both degrees. For information and application, contact the undergraduate or graduate coordinator.

Relevant Minors and/or Certificates

Statistics majors may want to consider a minor in actuarial science, which prepares students for careers as actuaries. Required courses cover the material for the beginning examinations and VEE credits leading to an associateship in the major national actuarial societies.

Related Statistics Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Statistics minor (p. 959)

Bachelor of Science

The B.S. is intended for students who wish to pursue graduate study in statistics or a closely related area, and for other strong students with a deeper interest in the mathematical foundations of statistics.

Additional Required Coursework for B.S.

Code	Title	Credits

Total Credits		16

[1] Prerequisite: MHF 3202.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=270501&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete MAC 1147 or higher-level calculus
- 2.0 UF GPA required

Semester 3

- Complete MAC 2311
- 2.0 UF GPA required

Semester 4

- Complete MAC 2312 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete MAC 2313 and a programming elective or any STA course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

MAC 2312, MAC 2313, MAS 4105, and the math elective count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Statistics Minor

The minor in statistics complements and enhances a wide variety of undergraduate majors by providing valuable training in data analysis and statistical modeling and inference.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 15 | Completed with minimum grades of C and no optional S-U
- **Related Statistics Programs**

- This minor requires a minimum of five STA courses.
  - The sequence STA 4210 and STA 4211, and at least three approved electives.
- STA 3024 or STA 3032 should be taken prior to the STA 4210 and STA 4211.
- No more than three transfer credits may be applied to the minor.
- Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Sustainability Studies

A sustainability studies major prepares students for global citizenship with a firm grounding in the natural sciences, the social sciences, and the humanities. Students in the major explore how to maintain ecological and environmental health, create economic welfare, and pursue social justice in a changing world. Sustainability studies students gain understanding of the ways in which these three goals are interdependent and explore how they best can be pursued over the long term on local, national, and global levels.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Contact:** Email (advisor@advising.ufl.edu?Subject=Sustainability Studies Major)
- **Additional Information**
- **Related Sustainability Studies Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Sustainability studies investigates the means to maintain environmental health, create economic welfare, and pursue social justice in a changing world. Students gain an understanding of the ways in which these three goals are interdependent and explore how they can best be pursued in the long term at local, national, and global levels.

Coursework

Students are required to complete 33 credits of sustainability studies coursework; 15 of these 33 credits must be at the 3000/4000 level. All courses must be completed with minimum grades of C and a minimum of 15 credits of sustainability studies courses must be completed at UF.

For more information about Sustainability Studies and listings of newly available Core Courses and Cluster Courses, please visit the program website. More Info (https://sustainability.clas.ufl.edu)

Related Sustainability Studies Programs

- Sustainability Studies minor (p. 968)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 514)**.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=303301&track=01) may be used for transfer students.

Five courses required by the end of the fifth semester,

- IDS 2154: required in either semester 1 or 2; and four additional courses - either
  - three Sustainability Studies Core courses (one from each of the disciplinary areas) and one Sustainability Studies Cluster course (at the 3000 level or higher), or
  - two Sustainability Studies Core courses (from different disciplinary areas) and two Sustainability Studies Cluster courses (one must be at the 3000 level or higher).

Semester 1

- Complete IDS 2154 or one critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete IDS 2154 or one critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.5 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.75 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 3.0 UF GPA required

Semester 5

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 3.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

1 Depending on the course(s) taken, the sustainability studies core courses and cluster courses may also meet the following general education categories: biological sciences, humanities, international, physical sciences, or social and behavioral sciences. If a general education category is met through a core or cluster course, the student may substitute elective credit where the GE requirement is listed in the model semester plan.

2 If BSC 2862 taken as natural science core course for major

3 If ECO 2013 not taken.

4 If GLY 2038 taken as natural science core course for major

Approved Cluster Courses

Academic Learning Compact

The Bachelor of Arts in sustainability studies requires students to demonstrate an understanding of the relationship between the goals of sustainability and the activities of the built environment disciplines, including architecture, building construction, historic preservation, interior design, landscape architecture and urban and regional planning.

Before Graduating Students Must

- Complete a capstone or independent research project, present your results to a committee of the program's faculty and receive acceptable assessment.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Define and explain sustainability scholarship, including natural scientific, social scientific and humanistic approaches.
2. Define and explain the relationship of sustainability to ethics, culture and human behavior; economics, law and policy; production systems and the built environment; ecology and environmental stewardship.

Critical Thinking

3. Critically assess sustainability principles and practices.

Communication

4. Effectively write and/or orally communicate a range of approaches, frameworks, principles and practices of sustainability.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4

Sustainability Studies Minor

The interdisciplinary sustainability studies minor benefits from the teaching and research of faculty in multiple departments and colleges, and complements any major.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 18 | Completed with minimum grades of C
- **Additional Information**
- **Related Sustainability Studies Programs**

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Code	Title	Credits
IDS 2154	Facets of Sustainability	3
Select five approved electives with at least one from each cluster: [1]		15
Cluster A: Ethics, Culture and Human Behavior		
Cluster B: Economics, Law and Policy		
Cluster C: Production Systems and the Built Environment		
Cluster D: Ecology and Environmental Stewardship		
Total Credits		18

[1] A minimum of three courses of no fewer than three credits each must be at the 3000 level or above.

Students may apply to enroll in IDS 4942, a 3-credit capstone course that has a service learning, internship, or integrative research project component. If accepted into this capstone course students need only complete four cluster courses (12 credits), one from each of the four clusters.

Approved Cluster Courses

Courses for each cluster include those listed as approved cluster courses (p.) for the sustainability studies major, plus the following options:

Code	Title	Credits
Cluster A		
AMH 2631	History of Sustainability	3
ANT 2402	Anthropology of Sustainability	3
CLA 2521	Classical Antiquity and Sustainability (GE-H)	3
REL 2071	Sustainability and Religion (GE-H)	3
Cluster B		
POS 2032	Politics of Sustainability (GE-S)	3
Cluster C		
No additional courses		

Cluster D		
BSC 2862	Global Change Ecology and Sustainability (GE-B)	3

Related Sustainability Studies Programs

Teaching English as a Second Language Certificate

The teaching English as a second language (TESL) certificate is for students who want to teach English as a second language to adults, overseas or in the US.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 18 | Completed with minimum grades of C
- **Additional Information**
- **Related TESL Programs**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

The certificate is open to students in any undergraduate program.

Students may earn either the TESL certificate or minor but not both.

Required Courses

Code	Title	Credits
LIN 3010	Introduction to Linguistics [1]	3
LIN 3680	Modern English Structure	3
LIN 4721	Second Language Acquisition [1]	3
TSL 3360	Introduction to Teaching English as a Second Language	3
TSL 3378	Pronunciation for Teaching English as a Second Language	3
TSL 4940	Teaching English as a Second Language Internship [2]	3
Total Credits		18

1 Linguistics majors may count LIN 3010 and LIN 4721 toward both the major in linguistics and the TESL certificate.

2 Prerequisite: completion of at least four of the courses above.

Related TESL Programs

- Teaching English as a Second Language minor (p. 969)

Teaching English as a Second Language Minor

The teaching English as a second language (TESL) minor is intended for undergraduates who might want to work in English language programs in the United States or abroad.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 15 | Completed with minimum grades of C
- **Additional Information**
- **Related TESL Programs**

All work must be completed at UF. Only LIN 3010 and LIN 4721 may count toward both a linguistics major and a TESL minor. Students may earn either the TESL certificate or minor but not both.

Required Courses

Code	Title	Credits
LIN 3010	Introduction to Linguistics	3
LIN 3680	Modern English Structure	3

LIN 4721	Second Language Acquisition	3
TSL 3360	Introduction to Teaching English as a Second Language	3
TSL 3378	Pronunciation for Teaching English as a Second Language	3
Total Credits		15

Related TESL Programs

- Teaching English as a Second Language certificate (p. 969)

Theories and Politics of Sexuality Minor

The theories and politics of sexuality minor is useful for anyone who is curious about the place of sexuality and the institutions and practices organized around it (marriage, reproduction, the law, etc.) in life and culture.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 18 | Completed with minimum grades of C
- **Related Women's Studies Programs**

Students pursuing the women's studies major are not eligible to receive the minor in theories and politics of sexuality (TPS).

- No more than three credits of independent study may apply to the minor.
- All courses must be passed with minimum grades of C except internships, which are taken S/U.
- Six transfer credits can apply toward the minor.
- Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Each semester, classes approved for this minor will be listed on the Women's Studies courses (http://wst.ufl.edu/courses/electives-for-womens-studies-major-and-minor) webpage and flagged TPS.

Required Courses

Code	Title	Credits
WST 3603	Sexualities Studies	3
or ENG 4844	Queer Theory	
Women's studies-approved TPS electives (3000 level or above) [1]		15
Total Credits		18

[1] 3 credits of WST 2611 or WST 2612 may be substituted for one 3 credit 3000-level approved elective.

Women's Studies

The Center for Gender, Sexualities, and Women's Studies Research administers the women's studies program, which offers students the opportunity to investigate how questions of gender and sexuality shape the human experience in the United States and abroad, from the past to the present.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Arts
- **Concentrations:** General Concentration | International Perspectives on Gender | Theories and Politics of Sexuality
- **Credits for Degree:** 120
- **Additional Information**
- **Related Women's Studies Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The B.A. in women's studies offers undergraduates an opportunity to explore the way gender works in the lives of people (men as well as women) from a variety of academic perspectives. The major gives a solid Liberal Arts education but also takes advantage of resources outside the college: students take courses offered through the Center for Gender, Sexualities, and Women's Studies Research as well as approved courses offered in departments across the university.

Students may elect to follow the general concentration in the major, or choose one of the more specialized concentrations: International Perspectives on Gender, or Theories and Politics of Sexuality. Minors are available in women's studies, theories and politics of sexuality, and health disparities in society. All of the courses of study offer a rigorous academic curriculum, along with exciting experiential learning opportunities, including service-learning courses, internships and study abroad; the major culminates in an independent capstone project.

Women's studies majors complete their degrees ready to make competitive applications to graduate and professional school, or to pursue careers in a wide variety of fields, including education, journalism, community activism, arts and entertainment, international relations, and the helping professions. Students should refer to the department website and contact the women's studies undergraduate coordinator for a complete course listing.
More Info (http://wst.ufl.edu)

Coursework for the Major

The major requires 30 credits of coursework in women's studies core and elective courses, at least 27 credits of which must be at the 3000/4000 level. All 30 credits must be completed with minimum grades of C. To ensure a good grasp of the content, theories and methods of women's studies scholarship, students will take courses from a variety of disciplines in addition to those offered under the WST prefix designation.

Students are encouraged to fulfill some of the requirements with appropriate study-abroad courses and may petition the program to count courses outside of WST toward the major if they have significant (greater than 50 percent) gender content. Because the major is so flexible, students should use the approved plan of study (http://wst.ufl.edu/undergraduate-studies/forms) worksheets to plan and track their progress through the degree. Many courses offered in other departments are approved for women's studies credit.

Code	Title	Credits
Required Coursework		
WST 3015	Interdisciplinary Perspectives in Women's Studies	3
WST 3415	Transnational Feminism	3
WST 4935	Capstone Seminar [1]	1-6
Select Approved women's studies and gender-related courses		21
Total Credits		28-33

[1] Prereq.: WST 3015

A minimum of 18 credits for the major must be taken at UF.

Combined Degree Programs

Women's studies is an interdisciplinary field, and at the undergraduate and masters level provides general training in critical thinking, written and oral communication, and specific training in gender analysis. The combined B.A./M.A. degree offers a useful program for well-qualified students who may want careers in social service, law, business, education, policy planning, government and nongovernment organizations and international development. Some MA recipients also choose to pursue the Ph.D. in women's studies (not currently available at UF).

For those students interested in using the MA to develop job qualifications, this accelerated program provides quicker access to advanced training in research and analytic skills. Students who have a Ph.D. as their goal will be able to abbreviate the length of time engaged in coursework. Undergraduates enrolled in graduate courses also will benefit from the more intense level of intellectual engagement involved in graduate training. More information (http://wst.ufl.edu/undergraduate-studies/bama-degree).

Concentrations

General Concentration

Students in the general concentration tailor their coursework for maximum exposure to the various issues covered by women's studies scholarship. In addition to the core requirements, students take nine credits of approved electives focused on humanities, nine credits of approved electives focused on social science, and three credits of a gender and science-focused course or an internship (WST 4940).

International Perspectives on Gender

This concentration emphasizes the experiences of women and men around the globe, with an eye to achieving a cross-cultural perspective on gender, power, sexuality, and the way social and cultural changes impact gender relations. In addition to the core requirements, students must take at least 21 credits from an approved list of IPG electives.

Theories and Politics of Sexuality

This concentration introduces students to new ways of theorizing sex, sexual identities, and the significance of sexualities in social organization. In addition to taking the three core requirements, students take a required three-credit sexualities course, ENG 4844 Queer Theory, or WST 3603 Sexualities Studies. The remaining 18 credits are drawn from an approved list of TPS electives.

Course Details

The core courses in women's studies give coherence to the plan of study that individual students devise.

- WST 3015 Interdisciplinary Perspectives in Women's Studies draws on various materials and methodologies to explore the diverse experiences of women, both in past eras and in the present, focusing on the U.S.
- WST 3415 Transnational Feminism introduces theories of gender and social change engendered by women in diverse national and international contexts. Contemporary economic development, reproductive politics, women's health, and migration are among the examined topics.
- WST 4935 Capstone Seminar is taken in the final year and allows students to reflect on their experience in the major and carry their interests forward through structured independent research tied to their scholarly or career interests.
- Students in the Theories and Politics of Sexualities concentration take an additional core course (WST 3603 or ENG 4844) that introduces them to key issues in contemporary Sexualities Studies.

Related Women's Studies Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Health Disparities in Society minor (p. 780)
- Theories and Politics of Sexuality minor (p. 970)
- Women's Studies minor (p. 974)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=050207&track=01) may be used for transfer students.

Women's studies is a flexible major without a specific gateway course or prerequisites for upper-division courses. In addition to maintaining a 2.0 overall UF GPA and a 2.5 critical-tracking GPA, students should have four women's studies courses (three at the 3000 level) completed by the fifth semester. It is required that one of these 3000-level courses be WST 3015 or WST 3415, and it is highly recommended that students take WST 3015 or WST 3415 in semester 4. Additionally, it is highly recommend that students complete both WST 3015 and WST 3415 by semester 5.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete one women's studies course
- 2.0 UF GPA required

Semester 4

- Complete 1 additional women's studies course at the 3000 level (WST 3015 or WST 3415 recommended) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete 2 additional women's studies courses at the 3000 level, including WST 3015 or WST 3415, with a 2.5 critical-tracking GPA. At least three of the four courses taken must be at the 3000 level or higher.
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically GE-C, H, or S).

Approved Women's Studies and gender-related courses may not count towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One

Academic Learning Compact

The Bachelor of Arts in women and gender studies provides knowledge of the core concepts of the interdisciplinary fields of gender and women's studies. It offers insights into gender's role in shaping human experience in U.S. and international contexts. Students will learn the theories behind gender and women's studies and how to interpret texts in light of those theories. They will also learn the field's research methods and they will demonstrate the ability to communicate critical perspectives in the field.

Before Graduating Students Must

- Satisfactorily complete an internship with an outside agency, a service learning course or a research-based project submitted for evaluation to core or affiliated women's studies faculty. Assessment will be based on SLOs 1-3.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify the terminology and concepts central to the interdisciplinary field of gender and women's students.

Critical Thinking

2. Examine and interpret material using the theory and research methods of gender and women's studies and apply these ideas to current social issues.

Communication

3. Present ideas concerning gender and women's studies in spoken and written form.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3

Assessment Types

- Entering and final essays
- Internship, service learning, or research project

Women's Studies Minor

The women's studies minor complements work in humanities, social science or natural science majors, focusing on questions of gender, sex, and power that may be discussed but not explored in depth in traditional disciplines.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 18 | Completed with minimum grades of C
- **Related Women's Studies Programs**

Requirements

- No more than three credits of independent study may apply to the minor.
- All courses must be completed with minimum grades of C except internships, which are taken S-U.
- Six transfer credits can apply toward the minor.
- Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Each semester, classes approved for this minor will be listed on the Women's Studies courses webpage.

Zoology

Zoology majors focus on the study of individual organisms and populations, as well as their relationships to each other and the environment, with the core foundation of evolution and ecology. Courses also emphasize the disciplines of anatomy, behavior, genetics, physiology, and other specialized fields.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **Additional Information**
- **Related Zoology Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Courses introduce zoology majors to a wide variety of topics while allowing individual interests to be pursued. Advanced undergraduate students are encouraged to participate in research with faculty.

Most career opportunities require advanced studies beyond the bachelor's degree. This includes preparation for graduate studies or employment in disciplines such as zoology, ecology, conservation, and biology research; preparation for medical, dental, or veterinary programs; or preparation for secondary-school teaching.

Ultimately, the undergraduate degree in zoology will be shaped by students' coursework, laboratory experience, field work, and the instructors they encounter. These experiences will help to shape their goals as biologists with a focus on zoology.

Majors should work both with a department advisor and a CLAS advisor. CLAS advisors will assist with degree requirements, university and college policy and course selection. Department advisors will help students select appropriate graduate programs, guide them in the admissions process, and help identify appropriate career choices.
More Info (https://biology.ufl.edu/undergraduates/zoology)

Coursework for the Major

A zoology major consists of a minimum of 32 credits of core zoology coursework plus a minimum of 31 credits of foundation coursework in chemistry, physics, and mathematics/statistics. Courses used toward the major must be completed with minimum grades of C.

Code	Title	Credits
Required Foundation Coursework		
CHM 2045	General Chemistry 1	4
& 2045L	and General Chemistry 1 Laboratory	
CHM 2046	General Chemistry 2	4
& 2046L	and General Chemistry 2 Laboratory	
CHM 2210	Organic Chemistry 1	3
CHM 2211	Organic Chemistry 2	5
& 2211L	and Organic Chemistry Laboratory	
MAC 2311	Analytic Geometry and Calculus 1	4
MAC 2312	Analytic Geometry and Calculus 2	3-4
or STA 2023	Introduction to Statistics 1	
Select one:		8-10
Option A		
PHY 2053	Physics 1	
& 2053L	and Laboratory for Physics 1	
PHY 2054	Physics 2	
& 2054L	and Laboratory for Physics 2	
Option B		
PHY 2048	Physics with Calculus 1	
& 2048L	and Laboratory for Physics with Calculus 1	
PHY 2049	Physics with Calculus 2	
& 2049L	and Laboratory for Physics with Calculus 2	
Required Core Coursework		
BSC 2010	Integrated Principles of Biology 1	4
& 2010L	and Integrated Principles of Biology Laboratory 1	
BSC 2011	Integrated Principles of Biology 2	4
& 2011L	and Integrated Principles of Biology Laboratory 2	
PCB 3063	Genetics	4
Select at least three courses in zoology: [1]		9-10
Any 3000/4000-level zoology course offered through the Department of Biology		
BSC 3402	Theory and Practice in the Biological Sciences	
BSC 4936	Critical Analysis of Biological Research	
PCB 4043C	General Ecology	
PCB 4674	Evolution	
PCB 5415C	Behavioral Ecology	
PCB 4723C	Physiology and Molecular Biology of Animals	
Additional zoology courses (minimum) [2, 3]		11
Total Credits		63-67

1. Students may not apply ZOO 4232, ZOO 4905 or ZOO 4940 toward this requirement.
2. Including up to two zoology major-approved biological science courses (https://biology.ufl.edu/undergraduates/approvedcourses) (3000/5000 level) outside of zoology.
3. Up to six credits of Individual Studies in Zoology will count toward the 32 credit requirement:
   - BOT 4911
   - BSC 4910
   - BSC 4912
   - ZOO 4905
   - ZOO 4911

Students should begin the chemistry and math sequences as soon as possible. A full year of calculus and a course in statistics (such as STA 2023) are highly recommended.

Transfer students must take at least three courses from the Department of Biology (excluding ZOO 4905, ZOO 4926 and ZOO 4940) at the University of Florida as part of the requirements for the major.

Relevant Minors and/or Certificates

Majors in zoology can minor in most other disciplines, and this is a good way to organize students' electives around areas of interest. For instance, a zoology major can earn a minor in chemistry by adding just two chemistry courses: CHM 3400, CHM 3610, or any 4000-level CHM course. Students could also consider language and humanities minors. Note that zoology majors cannot minor in biology, nor can biology majors minor in zoology (the curricula for the zoology and biology majors are too similar).

Zoology students might want to consider the UFTeach Program. There is a severe shortage of qualified high school science teachers in Florida and nationwide. Students interested in the high-demand teaching profession should see a biology department advisor or the UFTeach advisor. Students who complete the UFTeach minor in science teaching and a B.S. in zoology will have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (http://education.ufl.edu/uf-teach)

Research

All zoology majors are strongly encouraged to participate in research. Research experience is valuable on many levels: it diversifies your college experience; it teaches you how scientists apply the knowledge gained in the classroom to real-world questions; it gives you the opportunity to work with and get to know researchers who are the best in their field; it introduces you to cutting-edge scientific questions and techniques; it enhances your resume/CV if you apply to graduate or professional school; and finally, it is essential in helping you determine if science is a good career choice for you.
More Info (http://www.biology.ufl.edu/Undergraduates/Research.aspx)

CLAS zoology majors may participate in research for course credit, as a scholar (e.g., University Scholar, HHMI Science for Life Scholar, Beckman Scholar), as a volunteer, or, in rare cases, as a paid research assistant. Please visit Undergraduate Research for more information regarding course credit. Students who plan to enroll for course credit must contact potential research mentors before the end of drop/add. If they miss the drop/add window, they should still contact potential research mentors, if only to discuss upcoming opportunities.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260701&track=01) may be used for transfer students.

Semester 1

- Complete one of the following in BSC, CHM, or MAC: BSC 2010/BSC 2010L; CHM 1025 or CHM 2045/CHM 2045L; MAC 1114, MAC 1140, MAC 1147, or MAC 2311
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L; and BSC 2010/BSC 2010L or MAC 2311
- 2.0 UF GPA required

Semester 3

- Complete BSC 2010/BSC 2010L and MAC 2311 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 4

- Complete CHM 2046/CHM 2046L and BSC 2011/BSC 2011L with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete CHM 2210 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

Approved Zoology electives outside of the department may not count towards the 3000 level or above elective outside of the major requirement. CHM 2211, CHM 2211L, PHY 2054, PHY 2054L, PHY 2049, and PHY 2049L may count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Foreign language		5
Zoology course		3-5
Zoology course (or other approved biological sciences course)		3-4
	Credits	15-18
	Total Credits	120

[1] Select CHM 2211 if CHM 2210 was taken Semester 3.

Academic Learning Compact

The Bachelor of Science in zoology offers students an education in the life sciences with an emphasis on animal systems. Students gain knowledge about the diversity of life (its evolution and significance) and about the structure of organisms and ecosystems and how they function (i.e., the acquisition, flow, organization and uses of information, energy and nutrients in living systems). They will learn about the scientific method and how it facilitates the discovery of new knowledge in zoology and biology. This includes how to critically evaluate hypotheses and conclusions in science using verifiable data and how to clearly and effectively communicate the major concepts and hypotheses in zoology and biology and in an appropriate style of presentation.

Before Graduating Students Must

- Pass an assessment in the two or three 3000/5000-level zoology courses.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and define the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking

2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

- Bioethics module quiz
- Scientific literacy paper

Zoology Minor

The Zoology minor provides a solid foundation in the biology of animals, from the molecular to the organismal level, as well as their relationships to each other and the environment.

About this Program

- **College:** Liberal Arts and Sciences (p. 506)
- **Credits:** 17-18 | Completed with minimum grades C
- **Related Zoology Programs**

A minimum of nine credits must be completed at UF. Individual Studies in Zoology will not count toward the minor.

Code	Title	Credits
BSC 4910	Individual Mentored Research in Biology	3
BSC 4912	Advanced Mentored Research in Biology	4
BOT 4911	Undergraduate Research in Botany	3
ZOO 4905	Individual Studies in Zoology	1-4
ZOO 4911	Undergraduate Research in Zoology	3

Students pursuing majors of biology, entomology, food science and human nutrition, microbiology, natural resource conservation or wildlife ecology are not eligible to receive the minor in zoology.

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Code	Title	Credits
BSC 2010	Integrated Principles of Biology 1	4
& 2010L	and Integrated Principles of Biology Laboratory 1	
BSC 2011	Integrated Principles of Biology 2	4
& 2011L	and Integrated Principles of Biology Laboratory 2	
PCB or ZOO courses from the Department of Biology [1]		9-10
Total Credits		17-18

[1] Three courses of 3 or more credits each; must include at least one ZOO course.

Accredited

Degree programs approved by the Florida State Board of Nursing and accredited by the Commission on Collegiate Nursing Education.

Academic Advising

Students interested in a career in nursing should contact the Office of Student Affairs for advising before they submit an application for admission.

Degrees

Bachelor of Science in Nursing (BSN) with three track options: traditional, accelerated, and RN-BSN. The college also offers a Doctor of Nursing Practice (DNP) and a Doctor of Philosophy (PhD) in nursing science.

Training Opportunities

The colleges of the Health Science Center and their associated healthcare delivery networks provide students access to an integrated system of community hospitals and clinics, statewide home health care, a veterans' health system and quaternary care at UF Health Shands Hospital. The College of Nursing maintains and participates in nursing and interdisciplinary care across the lifespan including women, children, adults, and the elderly with special emphasis on under-served and rural populations.

Academic Policies

Admission to the College

More Info (https://admissions.nursing.ufl.edu)

Students planning to enter the Traditional BSN program must complete general education and preprofessional requirements by the end of spring semester of the sophomore year. Standards for continuation are established for nursing majors and continuing students are monitored by the college.

Degree audits identify progress toward the degree and are posted on ONE.UF (https://one.uf.edu) after the fall and spring semesters. Critical-tracking criteria are outlined in the curriculum plans.

Students who desire to change their major to nursing should do so by the completion of their first academic year.

The college's online application for admission to upper-division coursework must be made by the March 1 deadline. Students will be admitted after spring grades have been posted.

Admission evaluation factors include, but are not limited to, academic record, cumulative grade point average, performance in preprofessional courses, the extent to which the applicant exceeds minimum requirements, performance on the HESI Academic Assessment Test, relevant student attributes, experiences, and career goals.

Students begin upper-division nursing studies in the fall semester of the junior year.

Limited-Access Program

The University of Florida's baccalaureate nursing curriculum is a high-demand, limited-access program. Enrollment is limited because of the high cost for program delivery as well as limited availability of clinical learning facilities and limited availability of qualified faculty necessary to maintain appropriate faculty-to-student ratios in all clinical areas. Because of limited enrollment and the number of applications, many qualified applicants are unable to be admitted to the College of Nursing's upper-division nursing courses.

Minimum Application Requirements for Native UF Students

- Completed 60 credits of required preprofessional and general education courses by the end of the spring semester prior to admission
- Minimum GPA of 3.0 (on a 4.0 scale) overall and for preprofessional courses
- Minimum grades of C in all required preprofessional courses
- Satisfactory completion of communication and computations requirement (Gordon Rule).
- Completion of the HESI Academic Assessment (A2) Test

Minimum Application Requirements for Transfer Students

More Info (p. 15)

For application information, all transfer students should refer to the admission as a transfer student section of the catalog. Transfer applicants must meet all university and college-specific admission requirements. Applicants from other institutions who have satisfied minimum requirements will be considered for admission at the junior level on a space-available basis.

Students from Florida Public Colleges

- Associate of Arts degree by the end of springs semester prior to admission
- Completed 60 credits of required preprofessional and general education courses by the end of the spring semester prior to admission

- Completed two sequential courses of foreign language in secondary school or 8-10 semester credits at the postsecondary level, or document an equivalent level of proficiency
- Minimum overall 3.0 GPA (4.0 scale) and a 3.0 GPA on all preprofessional courses
- Completion of required prerequisite courses with a grade of C
- Completion of the HESI Academic Assessment (A2) Test

Students from Other Universities

- Completed 60 credits of required preprofessional and general education courses by the end of the spring semester prior to admission
- Completed two sequential courses of foreign language in secondary school or 8-10 semester credits at the postsecondary level, or document an equivalent level of proficiency
- Minimum overall 3.0 GPA (4.0 scale) and a 3.0 GPA on all preprofessional courses
- Minimum grades of C in all required preprofessional courses
- Completion of the HESI Academic Assessment (A2) Test

College Regulations, All Students

Before Enrolling in Nursing Courses

- Compliance with college health policy requirements and immunizations
- Certification in basic cardiopulmonary resuscitation (CPR) for healthcare providers
- Proof of current health insurance coverage
- Criminal Background Check and Drug Screen

Expenditures

Expenditures specific to nursing courses include, but are not limited to, specialized equipment, uniforms, laboratory fees for clinical courses and transportation for off-campus experiences.

Health Policy

The college requires specific immunizations and periodic health screenings. Compliance with health policies is required for clinical coursework. Students are expected to be physically and mentally able to perform the essential functions of the nursing curriculum and may be requested to provide appropriate medical documentation.

Degree Requirements

For graduation from the BSN program:

- **Traditional Track**: Completion of 120 credits, including 60 junior/senior-level credits
- **Accelerated Track**: Completion of 60 credits, post-baccalaureate
- **RN-BSN Track**: Completion of 60 credits, post AA degree or 60 transferable semester credits
- A minimum grade of C in each nursing course.
- Adherence to the standards of acceptable conduct as outlined in the American Nurses Association Code of Ethics, the Florida Nurse Practice Act, the university's Student Guide and the Undergraduate Catalog.

Graduating with Honors (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonorstext)

Traditional Track Only

Licensure

Upon satisfactory completion of the baccalaureate curriculum, the graduate will be awarded the Bachelor of Science in Nursing and is academically eligible to apply for the NCLEX-RN examination for state licensure as a registered nurse.

Accelerated Baccalaureate Degree Program

The College of Nursing offers an accelerated course of study for a baccalaureate degree in nursing. This program is for students with a baccalaureate or higher degree in another field.

The accelerated baccalaureate curriculum begins each summer and is completed in four consecutive semesters of fulltime study.
More Info (https://admissions.nursing.ufl.edu)

Minimum Application Requirements

- A baccalaureate or higher degree from a nationally accredited college or university in a field other than nursing
- 3.0 GPA (on 4.0 scale), calculated on the most recent 60 credits taken toward the bachelor's degree or a cumulative 3.0 GPA toward a masters or doctoral degree
- Required prerequisite course must have been completed within the past seven years with a minimum grade of C. No more than two prerequisite courses can be in progress during the spring semester prior to admission.
- Two professional/academic references attesting to the applicant's potential for accelerated study.
- Resume / curriculum vitae
- A 1-2 page double spaced statement to include rationale for change in career, expectations of the program, and anticipated goals after graduation.

Before Enrolling in Nursing Courses

- Compliance with college health policy requirements and immunizations
- Criminal Background Check and Drug Screen
- Certification in basic cardiopulmonary resuscitation (CPR) for healthcare providers
- Proof of current health insurance coverage
- Criminal Background Check and Drug Screen

Expenditures

Expenditures specific to nursing courses include, but are not limited to, specialized equipment, uniforms, laboratory fees for clinical courses and transportation for off-campus experiences.

Health Policy

The college requires specific immunizations and periodic health screenings. Compliance with health policies is required for clinical coursework. Students are expected to be physically and mentally able to perform the essential functions of the nursing curriculum and may be requested to provide appropriate medical documentation.

Nursing

The junior/senior-level Traditional BSN program is four semesters long and provides learning experiences in a variety of clinical settings. The Accelerated BSN program (https://admissions.nursing.ufl.edu) prepares students with a baccalaureate degree in another field for entrance into the nursing profession with a BSN. The RN to BSN program prepares those current Registered Nurses who have previously earned an associate degree.

About this Program

- **College:** Nursing (p. 980)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **Additional Information**
- **Related Nursing Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The College of Nursing prepares baccalaureate nurses to care, lead and inspire. Nursing courses include classroom and laboratory activities correlated with supervised clinical experiences. Students may be required to travel outside of Gainesville for selected clinical experiences.

The curriculum is logically organized from simple to complex so that students acquire the cognitive, affective, and technical competencies of a professional nurse. Students are required to demonstrate competence at each semester in sequence to progress to more advanced concepts and skills. Knowledge from general education courses, nursing pre-professional courses, and introductory nursing courses is integrated and refined as student progress through increasingly complex theoretical nursing content and clinical application courses.

Courses in the first two semesters focus on foundational knowledge and principles of personalized nursing care. Students gain an understanding of the context of contemporary nursing practice, the meaning of professionalism, ethical and legal guidelines, professional values, and standards of professional nursing practice. Course content and concepts are aligned with clinical experiences to develop beginning clinical reasoning. Students acquire the knowledge, skills, and attitudes to provide evidence-based, safe, cost-effective quality care to achieve optimal health outcomes.

Courses in the final two semesters build upon prior learning and are characterized by increased complexity in content and outcomes. Students enhance clinical reasoning and critical thinking through nursing practice in a variety of settings for individuals across the lifespan, families and other groups, and communities. Learning experiences are designed to enable students to demonstrate leadership, interprofessional collaboration, and

advocacy skills that improve the health of diverse individuals and populations. In the final semester, students participate in a project to develop an innovative solution for a problem or issue relevant to professional nursing.

Progression

Students must earn minimum grades of C in all required nursing courses and maintain a minimum 2.0 GPA every semester while enrolled. Students may repeat only one required nursing course. Students earning less than a C in any required nursing course may repeat that course only once and on a space-available basis. Students who do not achieve a passing grade on their second attempt in a course will be dismissed from the nursing program. Students may withdraw only once from any required nursing course.

Students are expected to comply with college health policy requirements.

Students in the health professions are held to standards of conduct that exceed those usually expected of university students. Consequently, nursing students are required to demonstrate safe practice in the care of patients and to exercise appropriate judgment as beginning-level professionals, including appropriate demeanor and appearance. Students must adhere to the standards of conduct outlined in the American Nurses Association Code of Ethics and the Florida Nurse Practice Act in addition to the University of Florida College of Nursing handbook. Students can be removed from the nursing curriculum, and/or any college-sponsored programs or organizations, based on violation of professional conduct.

Bachelor of Science

The junior/senior-level Traditional BSN program is four semesters long and provides learning experiences in a variety of clinical settings.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=513801&track=01) may be used for transfer students.

The following recommended curriculum plan for semesters 1-4 enables students to satisfy university-wide general education requirements and required preprofessional courses. The plan includes the courses and academic standards (overall GPA and preprofessional GPA) required each semester for continuation in the pre-nursing program and application for admission to the nursing major.

Semester 1

- Complete 2 critical-tracking courses with minimum grades of C: APK 2100C, APK 2105C, DEP 3053 or EDF 3110 (recommended), HUN 2201, MCB 2000/MCB 2000L, STA 2023, 3 credits of social and behavioral science (with PSY, SOP or SYG prefix), and 3 credits of physical or biological sciences (with BSC, CHM or PHY prefix)
- 3.0 GPA required for all critical-tracking courses
- 3.0 overall GPA on work from all institutions

Semester 2

- Complete 2 additional critical-tracking courses with minimum grades of C
- 3.1 GPA required for all critical-tracking courses
- 3.1 overall GPA on work from all institutions

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C
- 3.2 GPA required for all critical-tracking courses
- 3.2 overall GPA on work from all institutions

Semester 4

- Complete all critical-tracking courses with minimum grades of C
- Complete writing requirement
- Complete all general education coursework with minimum grades of C
- Complete a total of 60 credits

- 3.3 GPA required for all critical-tracking courses
- 3.3 overall GPA on work from all institutions

Semesters 5-8

Students cannot register for courses in semesters 5-8 before admission to the nursing major, which is competitive. The online application for admission must be submitted by March 1.

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
ENC 1101	Expository and Argumentative Writing (State Core Gen Ed Composition (p. 23); Writing Requirement)	3
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
State Core Gen Ed Mathematics, pure math (p. 23)		3
State Core Gen Ed Biological or Physical Sciences (**Critical Tracking**) [1]		3
Select one (**Critical Tracking**; State Core Gen Ed Social and Behavioral Sciences):		3
PSY 2012 or SYG 2000	General Psychology or Principles of Sociology	
	Credits	15
Semester Two		
Select one (**Critical Tracking**; Gen Ed Social and Behavioral Sciences):		3
EDF 3110 or DEP 3053	Human Growth and Development or Developmental Psychology	
STA 2023	Introduction to Statistics 1 (**Critical Tracking**; Gen Ed Mathematics)	3
Gen Ed Composition; Writing Requirement		3
Elective [2]		3
Elective		3
	Credits	15
Semester Three		
APK 2100C	Applied Human Anatomy with Laboratory (**Critical Tracking**; Gen Ed Biological Sciences)	4
MCB 2000 & 2000L	Microbiology and Microbiology Laboratory (**Critical Tracking**; Gen Ed Biological Sciences)	4
Elective (Writing Requirement)		3
State Core Gen Ed Humanities (p. 23)		3
	Credits	14

	Credits	15
	Total Credits	120

[1] BSC, CHM, or PHY prefix.

[2] Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements. This is often done concurrently with another general education requirement (typically, GE-C, H or S).

[3] Requires External Nursing Skills Test exam score of 800 to pass the course.

Academic Learning Compact

The major in nursing prepares graduates as generalists to provide holistic care that addresses the healthcare needs of diverse individuals, families, communities and populations across the lifespan. Nursing practice is built on nursing knowledge, theory and research. Graduates will translate, integrate and apply knowledge that leads to improvements in patient outcomes.

Before Graduating Students Must

- Achieve a passing grade of C or higher in all required courses.
- Pre-licensure student must achieve a score of 850 on the Health Education Systems Incorporated (HESI) RN Exit Examination.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Apply critical thinking to synthesize knowledge grounded in liberal education and nursing, in the practice of professional nursing in the global community.
2. Utilize knowledge of health care regulation to advocate for policy change to improve health care systems and professional nursing practice.
3. Utilize health promotion, health maintenance, and disease prevention strategies across settings to improve the health of diverse individuals and populations across the lifespan.

Critical Thinking

4. Integrate evidence-based findings in decision-making in the practice of professional nursing.
5. Appraise current evidence to evaluate health care safety and quality improvement initiatives for individuals and groups.
6. Analyze information from health care technology systems to apply evidence that will guide nursing practice.
7. Illustrate the importance of advocacy in the improvements in nursing practice and throughout the healthcare system.
8. Demonstrate professional competence and values reflective of professional nursing standards and mutual respect within a global society.

Communication

9. Collaborate with the healthcare team and clients to provide safe and cost effective high quality health care.
10. Demonstrate professional communication, collaboration and documentation with healthcare teams to support improvement in patient health outcomes.
11. Build therapeutic alliance with patients and families to provide personalized care.

Nursing | RN to BSN UF Online

The College of Nursing's RN to BSN program enables current RNs who have previously earned an associate degree to earn a baccalaureate degree in nursing. The program is designed for working nurses and can be completed in 5 semesters of primarily online part-time study.

About this Program

- **College:** Nursing (p. 980)
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **Additional Information**
- **Related Nursing Programs**

The baccalaureate prepared nurse is equipped to manage complex and changing healthcare environments. Coursework focuses on development of problem solving that will broaden and strengthen the registered nurse student’s preparation for professional nursing practice.

Admission

Students must be accepted into the RN to BSN program, which is competitive. The online application for admission must be submitted by the posted deadline.

Minimum Application Requirements

- Associate of Science degree in nursing from an ACEN (formerly NLNAC) accredited program.
- Active, unencumbered Florida RN license.
- An overall GPA of at least 2.8.
- A minimum grade of C in all required pre-professional courses.
- Resume/curriculum vita.
- Two professional reference from persons familiar with the applicant's recent work.
- A statement of intent, not to exceed two typed double-spaced pages, which discusses the applicant's expectations of the BSN program and the student's career goals.

Related Nursing Programs

- Bachelor of Science in Nursing (p. 983)

Model Semester Plan

Degree Requirements

- Completion of 120 credits, including 60 junior/senior-level credits
- A minimum grade of C in each nursing course
- RN to BSN students will be awarded 30 upper-level credit hours based upon current RN licensure and by satisfying the professional portfolio
- Adherence to the standards of acceptable conduct as outlined in the American Nurses Association Code of Ethics, the Florida Nurse Practice Act, the University's Student Guide and the undergraduate catalog

Student Learning Outcomes (SLOs)

Content

1. Integrate knowledge, skills and values derived from a solid base in liberal education to deliver quality care to individuals and groups across the lifespan and across healthcare environments.

Critical Thinking

2. Provide leadership in the delivery of safe, high-quality healthcare to diverse individuals and groups across the lifespan and across healthcare environments.
3. Utilize current evidence to improve healthcare outcomes for clients.
4. Utilize information management and healthcare technology to improve the quality of care.
5. Analyze processes through which healthcare policies are developed and changed to influence professional nursing practice and healthcare systems.

6. Utilize wellness promotion and illness prevention strategies with individuals and groups to improve population health outcomes across the lifespan.
7. Integrate professional values in the delivery of safe, culturally-sensitive care to clients across the lifespan.

Communication

8. Communicate and collaborate as members of interprofessional teams to deliver safe, high-quality healthcare.

Rankings

Highly ranked programs throughout the college.

Accredited

The college is accredited by the Council on Education for Public Health. In addition, all clinical programs are accredited by the appropriate national organization.

Degrees

The college offers a Bachelor of Health Science and a Bachelor of Public Health degree. Public Health offers specialty electives across many disciplines within the university to promote interdisciplinary coursework. Health Science specializations include general health science, pre-occupational therapy, pre-physical therapy, and pre-professional.

Academic Advising

Make an appointment with an academic advisor at 352.273.6400, option 1.
More Info (http://phhp.ufl.edu/academics/undergraduate/advisement)

Libraries

In addition to the university's other libraries, students access the Health Science Center Libraries, one of the largest biomedical library systems in the country.
More Info (http://www.library.health.ufl.edu)

Internships and Career Guidance

College academic advisors and the Career Connections Center are available to help with career planning. Shadowing healthcare providers is also encouraged.

Academic Policies

Admission

Admission requirements vary for the different pre-professional career options; therefore, applicants should contact an academic advisor in the college to ensure appropriate academic planning.

In addition to specific GPA and coursework requirements, all health science majors require evidence of commitment to the field. Students are encouraged to volunteer in a human services field to demonstrate this commitment. An interview may be required for admission to the college.

Contact the Bachelor of Health Science office directly for additional admission information. The BHS office is located in the HPNP Building, room # 3189. Phone: 352.273.6379

Application Deadlines

The Bachelor of Public Health Deadline is February 1. The Bachelor of Health Science application deadline is February 1 for all tracks - General Health Science, Pre-Occupational Therapy, Pre-Physical Therapy, and Pre-Professional admissions. Communication Sciences deadline is January 15. After the deadline has passed, student applications are considered on a space-available basis.

Student Selection

Admission to the college at the junior level is limited and selective. Satisfaction of minimum GPA and course requirements does not guarantee admission to the junior level. A student's total record, including educational objectives, courses completed, quality of academic record and application essay are considered when evaluating an applicant for admission.

Native UF Student Admission

Freshmen and Sophomores

Students can declare a major in one of the college's undergraduate programs upon admission to the university. Progression standards include courses completed, cumulative and tracking GPAs, and academic conduct. Students apply for junior level limited access admission in their sophomore year.

Juniors Level Admission

A formal application process is required for admission *consideration*. STUDENTS MUST SUBMIT an online program application for the major/specialization of interest and should carefully follow the instructions for the particular specialization.

Students eligible for admission consideration at the junior level must

- Earn at least 60 semester credits of acceptable college credit with a minimum overall 3.0 GPA for health science, pre-occupational therapy and public health, and a minimum 2.7 GPA for communication sciences and disorders on all college/university-level work attempted.
- Complete all critical-tracking coursework with the required GPA. (Critical-tracking courses are listed in the semester plans under Majors in this catalog.)
- Fulfill the general education requirements described in the Academic Advising section of this catalog. Specific course sequences for each program of study indicate how to fulfill these requirements while planning careers in public health and/or discipline-specific health professions.
- Complete all writing requirements.
- Submit a completed program application (http://bhs.phhp.ufl.edu) to the College of Public Health and Health Professions.
- Complete all requirements by the end of spring for Summer B admission consideration or by the end of Summer A for fall admission consideration.

Transfer Student Admission

Meeting minimum standards as freshmen and sophomores does not guarantee admission to the junior year within the college because space is limited.

Application Materials

Non-UF students must apply to the University of Florida and to the College of Public Health and Health Professions for admission consideration at the junior year. These are *separate applications*. Students with questions should speak with a college advisor 352.273.6400, option 1.

Florida public college students must have:

- Received the A.A. degree.
- Completed all critical-tracking coursework with the required GPA (3.0 health science, pre-occupational therapy and public health; 2.7 for communication sciences and disorders).
- Completed 60 semester credits of transferable college-level credit with a minimum overall GPA of 3.0 for health science, pre-OT and public health, and a minimum 2.7 GPA for communication sciences and disorders.
- Submitted a transfer application (http://www.admissions.ufl.edu/start.html) to UF.
- Submitted a program application to the College of Public Health and Health Professions.

PHHP Academic Policies

Double Majors/Dual Degrees

PHHP does not offer a double major; however, students in this college can pursue an additional degree outside of the college. Students from other colleges can also consider a dual degree within PHHP. Permission of both colleges is required. Students are eligible to apply for a dual degree after they have completed 45 credits and before completion of 96 credits. Students must meet all requirements for both degrees.

Minors

The college offers four minors:

- health science
- disability science
- public health
- communication sciences and disorders

These minors are open to students in other colleges who meet the prerequisite and GPA requirements. The minor form and course information are available from the college website. (http://bhs.phhp.ufl.edu)

Specific minors are available to PHHP juniors and seniors based on the student's specialization, as noted below.

Communication Sciences and Disorders Students: health science, disability science and public health minors.

Health Science Students: communication sciences and disorders and public health minors.

Public Health Students: communication sciences and disorders minors.

S/U Option

The S/U option is not permitted for prerequisite or major courses; however, it can be used for electives.

BHS Program Probation / Off-Track Students

Students who do not make sufficient progress toward program completion or students who demonstrate inappropriate professional conduct are considered to be *off track*. Off-track status means the student has not met all tracking criteria for the designated term. Students who are off track can be placed on college probation. The purpose of probation is to develop a plan to help the student return to good academic and/or professional conduct standing. Off-track students can be dismissed from the college based on the college's policy below.

Freshmen and Sophomores

Freshmen and sophomores can be off track for one of two reasons: low GPA or missing or low grades in prerequisite or major courses.

- All students who are off track at the end of any semester are required to meet with an academic advisor in the college to determine the steps needed to get back on track.
- The academic performance of all off track students after two semesters will be reviewed by a college academic advisor. If, in the opinion of the advisor, the student could return to on-track status within one additional semester, the student will be considered for continuation in the college. Otherwise, the student will need to select a different major.
- If a student fails to meet requirements to return to on-track status and/or is off track after three semesters, the student must withdraw from the major. Students who must withdraw from the college will be offered assistance in choosing a different major at the university.
- Students dismissed from the college for academic reasons who believe they have remediated all college pre-application requirements by the deadline for the major have the right to apply for admission. However, dismissal from the college can be considered when making admissions decisions.
- Regardless of the number of semesters the student is off track, if a student meets university guidelines for dismissal, that student can be dismissed consistent with university policy. *Dismissal can be based on academic progression and/or honor code issues.*

Juniors and Seniors

Students must receive minimum grades of C in all courses required for the major. Unsatisfactory grades, defined as grades lower than a C or grades of unsatisfactory in classes graded S/U, are grounds for probation and/or dismissal from the college. In addition, dismissal from the college can result from honor code violations.

If a student in the college receives one grade of C- or lower in a college course, the student is placed on academic probation. Faculty will provide an opportunity for the student to make up material (e.g., through independent study, repeating the course, etc.). If the student receives at least a C in the course for which probation was implemented, the student will return to good academic standing. If the student receives a C- or lower while on probation, the student must withdraw from the program unless the college determines mitigating circumstances warrant a probationary extension. *If a student receives the first and second C- or lower in the same term, the college has the right to dismiss the student without first offering probation.*

If a student receives a C- or lower in a second college course, regardless of whether this occurs in the same term or a different term as the first C-

or lower, the student can be required to withdraw from the program. The student has the right to petition this decision.

In order to petition the faculty committee, the student must provide the program director with a letter stating the reasons that the student should be allowed to remediate their academic performance. Upon successful petition and on a space-available basis, the student will be placed on academic probation and allowed to make up material in an appropriate manner determined by the instructor and program director (e.g., via independent study, course repetition, etc.)

If the student successfully completes the remediation requirements and receives a minimum course grade of C, the student can continue in the program. However, if the student again receives a C- or lower, the student must withdraw from the program. The college will help the student choose another major at UF, if desired, if they withdraw from a college major.

In the first two cases above, the individual instructor is responsible for assigning student grades. The program director, in consultation with the instructor and program faculty as needed, is responsible for determining if a student who appeals a dismissal will be placed on academic probation or dismissed from the program. The student will be notified in writing of the director's decision concerning academic probation or dismissal.

If the student is placed on probation, the letter will include the activities that the student must successfully complete to remedy the academic deficiencies and the timeframe in which these activities must be completed. Failure to adhere to or to meet the terms of the letter constitutes grounds for dismissal from the program. The student will be offered assistance, if desired, to select a different major.

If the student disagrees with the director's decision regarding dismissal or the terms of the probation letter, the student may appeal in writing within one week to the associate dean overseeing academic affairs. The associate dean will review both the director's decision and the student's concerns and make a determination about academic probation/dismissal. Both the student and director have the right to further appeal to the dean, who will review the case in its entirety and make the final decision.

Changing Majors

Freshmen and sophomores wishing to change majors must contact a college advisor in the new major. Juniors and seniors wishing to change majors in the college must contact the program director. If a student withdraws from the major, specific permission from the program and the college must be given at the time of withdrawal for the student to be eligible to re-enter the college.

Health Policy

The college requires evidence of ability to meet the physical and academic requirements of the program. Personnel in the Department of Student Health will test each student for sensitivity to tuberculosis. The Department of Student Health will verify immunization against diphtheria, rubella (German measles) and tetanus.

All students must be immunized against Hepatitis B and varicella (chicken pox) or provide the Student Health Center with medical documentation that they have had chicken pox. All students must participate in annual bloodborne pathogen training, repeat their TB test annually if observing in a clinical setting, and be HIPAA compliant.

Students registered in clinical courses must have hospitalization insurance. Full-time students are eligible for the health insurance plans sponsored by Student Government. Twelve-month coverage may be purchased at the time of registration.

Expenses

Required immunizations and other expenses are the student's responsibility.

Degree Requirements

Students must satisfy all college and university degree requirements for their major and specialization.

College requirements include:

- Completion of 120 semester credits with a 2.0 GPA, including 60 hours of upper division college credit
- Completion of all core courses with minimum grades of C
- Satisfactory completion of all approved college and general electives
- Completion of a PHHP degree candidate exit survey

To graduate in the desired term, students must submit by the deadline a completed degree application to the Office of University Registrar.
More Info (http://www.registrar.ufl.edu/currents/degreeapp.html)

Dean's List

The dean's list recognizes outstanding academic achievement at the completion of each semester. Students receiving a final grade of U or a failing grade may not be considered for the dean's list, regardless of overall grade point average. Students may request a letter confirming dean's list status from the college's dean's office.
More Info (p. 1387)

Graduating with Honors

More Info (p. 1387)

Postbaccalaureate students are not eligible to receive honors recognition. Guidelines for completion of honors program requirements (http://www.bahealthsci.phhp.ufl.edu) to graduate *magna cum laude* or *summa cum laude*.

Communication Sciences and Disorders

The communication sciences and disorders major includes didactic and experiential activities for students to learn foundational skills necessary for success in professions such as speech-language pathology, audiology and communication sciences, all of which require graduate degrees.

About this Program

- **College:** Public Health and Health Professions (p. 989)
- **Degree:** Bachelor of Health Science
- **Credits for Degree:** 120
- **Contact:**
  - Junior/Senior | 2127 HPNP Complex | 352.294.8476
  - Freshman/Sophomore | Email (advising@phhp.ufl.edu) | G-205 HPNP Complex | 352.273.6400, option 1
- **Additional Information**
- **Related Communication Sciences and Disorder Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Students should follow the plan below for course choices.

The undergraduate program exposes students to information about

1. normal aspects of speech, language, and hearing as they relate to human communication, and
2. introductory concepts pertaining to the nature, assessment, and treatment of communication disorders.

Students complement the core major courses with various elective courses that align with their academic and career interests.

Upon successful completion of the major, students receive the Bachelor of Health Science degree. The majority of undergraduate students pursue graduate or professional training in a health field (e.g., speech language pathology, audiology or other graduate degree program); however, some students seek employment immediately after completing the BHS degree program, usually in organizations with either a health or education component.

Certified clinicians (graduate degree required) often on a team that may include psychologists, teachers, families, physical and occupational therapists, physicians, nurses, dietitians and social workers to screen, diagnose and treat individuals ranging from infants to the elderly. Professionals typically work in schools, clinics, hospitals, other health organizations and/or private practice. Communication sciences and disorders professions offer a high degree of satisfaction to their practitioners by making a significant impact on people's lives. Both speech-language pathology and audiology are growing professions with competitive salaries.

Course Requirements and Sequence

By the End of Semester Four

Students must have completed all college requirements:

- 60 credits
- All general education except diversity
- 18,000 words of the writing requirement
- These courses (or their equivalents) with minimum grades of C:

    - BSC 2005 or higher
    - Additional biological science (3 credits); APK 2105C is recommended
    - Physical science (3 credits); must be physics or chemistry
    - Science lab (1 credit)
- PSB 3002 or DEP 3053 or CLP 3144; PSB 3002 is recommended strongly
- COM 1000 or SPC 2300 or SPC 2608
- PSY 2012
- STA 2023

By the End of Semester Five

Students must also have completed:

- EEX 3093 with a minimum grade of C (satisfies general education diversity)
- SPA 3003

By the End of the Senior Year

Students must have completed:

- 120 credits, including all prerequisites
- 30 credits of core SPA coursework with minimum grades of C
- ENC 3254 with minimum grade of C; satisfies 6000 words of writing requirement
- PHC 4101 with minimum grade of C
- 12 credits at the 3000/4000 level
- 9 credits of PHHP electives

Majors should see a department advisor to create a plan of study, which becomes the contract for graduation.

- Communication Sciences and Disorder minor (p. 997)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=510204&track=01) may be used for transfer students.

Semester 1

- Complete BSC 2005 or higher or PSY 2012 with minimum grade of C
- Complete 9 credits of general education courses
- 2.0 GPA on all college-level coursework from all institutions

Semester 2

- Complete COM 1000 (or SPC 2300 or SPC 2608) with minimum grade of C
- Complete BSC 2005 or higher or PSY 2012 with minimum grade of C
- Complete 9 additional credits of general education courses for a total of 18 credits
- 2.3 GPA on all college-level coursework from all institutions

Semester 3

- Complete STA 2023 with minimum grade of C
- Complete 1 additional tracking psychology course (PSB 3002, DEP 3053 or CLP 3144) or 3 credits of physical science (CHM 2045 or PHY 2004 recommended) with minimum grade of C
- SPA 3003 recommended this semester if available, with minimum grade of C
- Complete science lab with minimum grade of C or S

- Complete 9 additional credits of general education courses for a total of 27 credits
- 2.7 GPA on all college-level coursework from all institutions

Semester 4

- Complete all critical-tracking courses with minimum grades of C
- Complete all general education courses except diversity
- Complete the 18,000 words of the writing requirement
- 2.7 critical-tracking GPA based on all attempts
- 2.7 GPA on all college-level coursework from all institutions

Semester 5

- Complete EEX 3093 and SPA 3003 with minimum grades of C
- 2.7 prerequisite and overall GPA on college-level coursework from all institutions

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
MAC 1105	Basic College Algebra (or higher level; State Core Gen Ed Mathematics (p. 23))	3
Select one:		3
PSY 2012	General Psychology (**Critical Tracking**; Gen Ed Social and Behavioral Sciences)	
BSC 2005	Biological Sciences (**Critical Tracking**; or higher level biological science; State Core Gen Ed Biological Sciences)	
State Core Gen Ed Composition (p. 23); Writing Requirement		3
Elective		3
	Credits	15
Semester Two		
Select one:		3
BSC 2005	Biological Sciences (**Critical Tracking**; or higher level biological science; Gen Ed Biological Sciences)	
PSY 2012	General Psychology (**Critical Tracking**; State Core Gen Ed Social and Behavioral Sciences)	
Select one:		3
COM 1000	Introduction to Communication Studies (**Critical Tracking**)	
SPC 2300	Introduction to Interpersonal Communication (**Critical Tracking**)	
SPC 2608	Introduction to Public Speaking (**Critical Tracking**)	
STA 2023	Introduction to Statistics 1 (**Critical Tracking**; Gen Ed Mathematics)	3
Gen Ed Composition; Writing Requirement		3
State Core Gen Ed Humanities with International (p. 23)		3
	Credits	15
Semester Three		
SPA 3003	Phonetic Theory and Transcription (**Critical Tracking**; if available this semester; otherwise select an elective)	3
Select one physical science course:		3
PHY 2020	Introduction to Principles of Physics (**Critical Tracking**; or higher level course; Gen Ed Physical Sciences)	
CHM 1030	Basic Chemistry Concepts and Applications 1 (**Critical Tracking**; or higher level course; Gen Ed Physical Sciences)	
Select one advanced psychology course:		3
PSB 3002	Physiological Psychology (**Critical Tracking**)	
DEP 3053	Developmental Psychology (**Critical Tracking**)	
CLP 3144	Abnormal Psychology (**Critical Tracking**)	
Science Laboratory (**Critical Tracking**; Gen Ed Biological or Physical Sciences)		1
Gen Ed Social and Behavioral Sciences		3

Elective		3
	Credits	16
Semester Four		
APK 2105C	Applied Human Physiology with Laboratory (**Critical Tracking**; highly recommended; or other Biological Science course; Gen Ed Biological Sciences)	4
SPA 3003	Phonetic Theory and Transcription (if not taken previously; or elective)	3
Electives		4
Gen Ed Humanities		3
	Credits	14
Semester Five		
EEX 3093	Exceptional People in School and Society (**Critical Tracking**)	3
SPA 3003	Phonetic Theory and Transcription (**Critical Tracking**; if not taken previously)	3
SPA 3011	Speech Acoustics (**Critical Tracking**)	3
SPA 3032	Fundamentals of Hearing (**Critical Tracking**)	3
SPA 3101	Speech Anatomy and Physiology (**Critical Tracking**)	3
	Credits	15
Semester Six		
ENC 3254	Professional Writing in the Discipline (**Critical Tracking**)	3
SPA 4004	Language Development (**Critical Tracking**)	3
SPA 4104	Neural Basis of Communication (**Critical Tracking**)	3
SPA 4302	Audiometry and Hearing Disorders (**Critical Tracking**)	3
Elective (3000 level or above)		3
	Credits	15
Semester Seven		
SPA 4250	Introduction to Speech Disorders (**Critical Tracking**)	3
SPA 4321	Audiologic Rehabilitation (**Critical Tracking**)	3
Elective (college-approved; 3000 level or above)		3
Electives (3000 level or above)		6
	Credits	15
Semester Eight		
PHC 4101	Public Health Concepts	3
SPA 4050	Clinical Observations in Speech-Language Pathology and Audiology (**Critical Tracking**)	3
SPA 4400	Introduction to Language Disorders	3
Electives (college-approved; 3000 level or above)		6
	Credits	15
	Total Credits	120

Academic Learning Compact

The undergraduate program provides an understanding of the expected processes involved in human communication so that students will be prepared for graduate programs where they will be immersed in dealing with atypical or pathological conditions related to speech, language, swallowing and/or hearing.

Before Graduating Students Must

- Pass the undergraduate CSD written examination.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Explain fundamental theories and principles of basic acoustics, psychoacoustics, (neuro)anatomy and (neuro)physiology as they pertain to the normal development of speech, language and hearing.
2. Explain key concepts that pertain to the etiology and characteristics of speech, language and auditory disorders.
3. Describe basic concepts that pertain to the assessment and treatment of speech, language and auditory disorders.
4. Explain fundamental concepts that pertain to professional practice patterns and ethical standards.
5. Explain fundamental concepts that pertain to the relationship between aging and communication, the effect of culture on communication and modalities of communication.

6. Transcribe normal and disordered speech phonetically.
7. Explain the impact of disease and disability on the health of populations.

Critical Thinking

8. Apply clinical problem-solving skills to defend assessment and treatment choices.

Communication

9. Present information accurately and effectively during an oral presentation on a topic related to communication sciences or disorders.
10. Write a coherent analytical essay on a topic related to communication sciences or disorders.

Communication Sciences and Disorders Minor

The communication sciences and disorders minor is appropriate for students with majors in computer science, education, engineering, health professions, linguistics, music, psychology, and special education.

About this Program

- **College:** Public Health and Health Professions (p. 989)
- **Credits:** 15 | Completed with minimum grades of C and no S-U
- **Related Communication Sciences and Disorders Programs**

The minor is open to all students except those majoring in communication sciences and disorders.

Courses that are required for the CSD major do not count toward a minor in CSD if the courses are required by the student's home department.

Students applying for the minor should have a minimum 3.0 GPA and should plan the minor in consultation with the undergraduate coordinator.

Required Courses

Code	Title	Credits
SPA 3032	Fundamentals of Hearing	3
SPA 3101	Speech Anatomy and Physiology	3
SPA 4004	Language Development	3

Approved electives	6

Communication Sciences and Disorders UF Online

The communication sciences and disorders major includes didactic and experiential activities for students to learn foundational skills necessary for success in professions such as speech-language pathology, audiology and communication sciences, all of which require graduate degrees.

About this Program

- **College:** Public Health and Health Professions (p. 989)
- **Degree:** Bachelor of Health Science
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **Additional Information**
- **Related Communication Sciences and Disorders Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Students should follow the plan below for course choices.

The undergraduate program exposes students to information about:

1. normal aspects of speech, language, and hearing as they relate to human communication, and
2. introductory concepts pertaining to the nature, assessment, and treatment of communication disorders.

Students complement the core major courses with various elective courses that align with their academic and career interests.

Upon successful completion of the major, students receive the Bachelor of Health Science degree. The majority of undergraduate students pursue graduate or professional training in a health field (e.g., speech language pathology, audiology or other graduate degree program); however, some students seek employment immediately after completing the BHS degree program, usually in organizations with either a health or education component.

Certified clinicians (graduate degree required) often on a team that may include psychologists, teachers, families, physical and occupational therapists, physicians, nurses, dietitians and social workers to screen, diagnose and treat individuals ranging from infants to the elderly. Professionals typically work in schools, clinics, hospitals, other health organizations and/or private practice. Communication sciences and disorders professions offer a high degree of satisfaction to their practitioners by making a significant impact on people's lives. Both speech-language pathology and audiology are growing professions with competitive salaries.

Course Requirements and Sequence

By the end of semester four, students must have completed all college requirements:

- 60 credits
- All general education except diversity
- 18,000 words of the writing requirement
- These courses (or their equivalents) with minimum grades of C:

Code	Title	Credits
BSC 2005	Biological Sciences	3
APK 2105C	Applied Human Physiology with Laboratory (recommended or additional biological science)	4
Physical science (must be physics or chemistry)		3
Science lab		1
Select one:		3
PSB 3002	Physiological Psychology (strongly recommended)	
DEP 3053	Developmental Psychology	
CLP 3144	Abnormal Psychology	
Select one:		3
COM 1000	Introduction to Communication Studies	
SPC 2300	Introduction to Interpersonal Communication	
SPC 2608	Introduction to Public Speaking	
PSY 2012	General Psychology	3
STA 2023	Introduction to Statistics 1	3

By the end of semester five, all students must also have completed:

- EEX 3012 with a minimum grade of C
- SPA 3003 with a minimum grade of C

By the end of the senior year, students must have completed:

- 120 credits, including all prerequisites
- 30 credits of core SPA coursework with minimum grades of C
- ENC 3254 with minimum grade of C; satisfies 6000 words of writing requirement
- PHC 4101 with minimum grade of C
- 12 credits at the 3000/4000 level
- 9 credits of PHHP electives

Majors should see a department advisor to create a plan of study, which becomes the contract for graduation.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=510204&track=01) may be used for transfer students.

Semester 1

- Complete BSC 2005 or higher or PSY 2012 with minimum grade of C
- Complete 9 credits of general education courses
- 2.0 GPA on all college-level coursework from all institutions

Semester 2

- Complete COM 1000 (or SPC 2300 or SPC 2608) with minimum grade of C
- Complete BSC 2005 or higher or PSY 2012 with minimum grade of C
- Complete 9 additional credits of general education courses for a total of 18 credits
- 2.3 GPA on all college-level coursework from all institutions

Semester 3

- Complete STA 2023 with minimum grade of C
- Complete 1 additional tracking psychology course (PSB 3002, DEP 3053 or CLP 3144) or 3 credits of physical science (CHM 2045 or PHY 2004 recommended) with minimum grade of C
- SPA 3003 recommended this semester if available, with minimum grade of C
- Complete science lab with minimum grade of C or S
- Complete 9 additional credits of general education courses for a total of 27 credits
- 2.7 GPA on all college-level coursework from all institutions

Semester 4

- Complete all critical-tracking courses with minimum grades of C
- Complete all general education courses except diversity
- Complete the 18,000 words of the writing requirement
- 2.7 critical-tracking GPA based on all attempts
- 2.7 GPA on all college-level coursework from all institutions

Semester 5

- Complete EEX 3012 and SPA 3003 with minimum grades of C
- 2.7 prerequisite and overall GPA on college-level coursework from all institutions

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Disability Science Minor

The disability science minor provides a basic scientific foundation to understand the impact of disability on physical and psychosocial health.

About this Program

- **College:** Public Health and Health Professions (p. 989)
- **Credits:** 17 | Completed with minimum grades of C

This minor is available to all juniors and seniors in PHHP's communication sciences and disorders major and to students in other colleges who meet the prerequisites. The minor is not available to Bachelor of Health Science students in health science, pre-OT or pre-public health specializations.

All credits toward the minor must be completed at the 3000/4000-level. As long as the program director approves, the student can use up to three credits of relevant 3000-level or higher transfer coursework or electives outside the health science program to fulfill elective credits. Lower-division transfer credit is not accepted.

Prerequisites

- Junior standing (60+ credits)
- Overall 2.75 GPA

- 2.75 prerequisite GPA based on general college biology, general psychology, abnormal/developmental/physiological psychology, physiology, and statistics (STA 2023).

Required Courses

Code	Title	Credits
HSC 3502	Survey of Diseases and Disability	3
HSC 4558	Survey of Diseases and Disabilities 2	3
OTH 3416	Pathophysiology	3
Select one option: [1]		8
Option A		
OTH 4412 & 4412L	Musculoskeletal Anatomy and Musculoskeletal Anatomy Laboratory	
OTH 3413C	Applied Kinesiology	
Option B		
OTH 4418 & 4418L	The Nervous System and Disorders and The Nervous System and Disorders Laboratory	
CLP 4420	Introduction to Neuropsychology	
Total Credits		17

[1] Open only to Seniors.

Health Science

The health science program leading to the Bachelor of Health Science (BHS) degree includes didactic and experiential activities for students to learn the foundation skills necessary for success in the dynamic health environment.

About this Program

- **College:** Public Health and Health Professions (p. 989)
- **Degree:** Bachelor of Health Science
- **Specializations:** General Health Science (p. 1005) | Occupational Therapy Accelerated (p. 1010) | Pre-Physical Therapy (p. 1014) | Preprofessional (p. 1019)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Health Science Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The program has two major goals: to teach foundational skills to students whose career goal is to work in health care, particularly for those who want to become health care providers, and to teach foundational skills to students who want to work with individuals, groups or communities who face social, economic or health challenges. In addition, interested students have the opportunity to explore a combined-degree program in public health.

The college offers four specializations in the freshman and sophomore years:

General Health Science

For students who want to work in a health care field not mentioned in the other specializations below. The number of electives allowed in this specialization affords the student the opportunity to incorporate a range of prerequisites for different career paths.

Occupational Therapy Accelerated

A combined degree program that allows students to take first-year Doctor of Occupational Therapy (OTD) Program courses during their junior and senior years in the health science program.

Pre-Physical Therapy

Offers a suggested prerequisite course sequence for students interested in pursuing entry-level physical therapy education at the graduate/professional level.

Preprofessional

For students pursuing careers in fields such as medicine, physician assistant and dentistry, all of which require significant basic science prerequisites. This specialization is set up to integrate commonly required preprofessional courses with requirements for the health science major.

The general health science, preprofessional and pre-physical therapy specializations collapse into one track beginning in the junior year and follow the same core curriculum, focusing on the health care system, different diseases and disabilities, the role of the health care provider in prevention and treatment, research methods and understanding core public health concepts. The senior year focuses on patient provider communication, effective leadership and critical-thinking skills important to clinical problem solving and the bioethical and legal issues impacting health care.

Regardless of specialization selected, students complement core courses with electives to round out their academic skills and interests.

Upon successful completion of the health science program, students receive the Bachelor of Health Science degree. While the majority of students pursue graduate or professional training in a health field (e.g. occupational therapy, physical therapy, medicine, physician assistant, health administration, dentistry, public health), some students seek employment in hospital or related community organizations after completing the B.H.S.

Course Sequence

While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

All course specializations in the health science program require a minimum 3.0 overall and prerequisite GPA for admission at the junior level.

Each specialization incorporates general education math and writing requirements and health science prerequisites. All specializations accept AP or IB credit for any prerequisite course. Students must earn a minimum of C in any BHS prerequisite course that is not satisfied by AP/IB credit. NOTE: While students can use AP or IB credit to satisfy BHS prerequisites, students should be aware that graduate/professional programs may not accept AP/IB credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

Students must apply by February 1 for Summer B or Fall admission. All prerequisites must be completed by the end of Summer A. However, for admission consideration at the junior level, all students must have completed the following or equivalents before the application deadline:

Code	Title	Credits
BSC 2005	Biological Sciences	3
or BSC 2010	Integrated Principles of Biology 1	
PSY 2012	General Psychology	3
STA 2023	Introduction to Statistics 1	3
CLP 3144	Abnormal Psychology	3
or DEP 3053	Developmental Psychology	

Other remaining prerequisites should be in progress at the time of application or completed by the end of the Summer A term.

Related Health Science Programs

- Bachelor of Public Health (p. 1024)
- Health Science minor (p. 1023)

Academic Learning Compact

The Bachelor of Health Science prepares students for a career in health care systems or organizations that provide health or general human services to individuals/communities with health concerns. Students will learn the foundational interprofessional skills necessary to succeed in the dynamic healthcare environment and/or enter postbaccalaureate academic programs such as medicine, physical therapy and public health.

Before Graduating Students Must

- Receive a satisfactory grade (S) in the BHS capstone portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe key elements of the U.S. healthcare system.
2. Comprehensively describe major chronic illnesses and disabilities.
3. Describe the core functions of public health.
4. Apply knowledge and application of core bioethical principles to contemporary health issues.
5. Develop appropriate professional behaviors for health careers.

Critical Thinking

6. Develop and apply critical analysis skills to contemporary health issues.

Communication

7. Apply effective basic communication skills for health professionals.

Health Science | General Health Science

The health science program leading to the Bachelor of Health Science (BHS) degree includes didactic and experiential activities for students to learn the foundation skills necessary for success in the dynamic health environment.

About this Program

- **College:** Public Health and Health Professions (p. 989)
- **Degree:** Bachelor of Health Science
- **Specializations:** General Health Science (p. 1005) | Occupational Therapy Accelerated (p. 1010) | Pre-Physical Therapy (p. 1014) | Preprofessional (p. 1019)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Health Science Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The program has two major goals: to teach foundational skills to students whose career goal is to work in health care, particularly for those who want to become health care providers, and to teach foundational skills to students who want to work with individuals, groups or communities who face social, economic or health challenges. In addition, interested students have the opportunity to explore a combined-degree program in public health.

The college offers four specializations in the freshman and sophomore years:

General Health Science

For students who want to work in a health care field not mentioned in the other specializations below. The number of electives allowed in this specialization affords the student the opportunity to incorporate a range of prerequisites for different career paths.

Occupational Therapy Accelerated

A combined degree program that allows students to take first-year Doctor of Occupational Therapy (OTD) Program courses during their junior and senior years in the health science program.

Pre-Physical Therapy

Offers a suggested prerequisite course sequence for students interested in pursuing entry-level physical therapy education at the graduate/professional level.

Preprofessional

For students pursuing careers in fields such as medicine, physician assistant and dentistry, all of which require significant basic science prerequisites. This specialization is set up to integrate commonly required preprofessional courses with requirements for the health science major.

The general health science, preprofessional and pre-physical therapy specializations collapse into one track beginning in the junior year and follow the same core curriculum, focusing on the health care system, different diseases and disabilities, the role of the health care provider in prevention and treatment, research methods and understanding core public health concepts. The senior year focuses on patient provider communication, effective leadership and critical-thinking skills important to clinical problem solving and the bioethical and legal issues impacting health care.

Regardless of specialization selected, students complement core courses with electives to round out their academic skills and interests.

Upon successful completion of the health science program, students receive the Bachelor of Health Science degree. While the majority of students pursue graduate or professional training in a health field (e.g. occupational therapy, physical therapy, medicine, physician assistant, health administration, dentistry, public health), some students seek employment in hospital or related community organizations after completing the B.H.S.

Course Sequence

While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

All course specializations in the health science program require a minimum 3.0 overall and prerequisite GPA for admission at the junior level.

Each specialization incorporates general education math and writing requirements and health science prerequisites. All specializations accept AP or IB credit for any prerequisite course. Students must earn a minimum of C in any BHS prerequisite course that is not satisfied by AP/IB credit. NOTE: While students can use AP or IB credit to satisfy BHS prerequisites, students should be aware that graduate/professional programs may not accept AP/IB credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

Students must apply by February 1 for Summer B or Fall admission. All prerequisites must be completed by the end of Summer A. However, for admission consideration at the junior level, all students must have completed the following or equivalents before the application deadline:

Code	Title	Credits
BSC 2005	Biological Sciences	3
or BSC 2010	Integrated Principles of Biology 1	
PSY 2012	General Psychology	3
STA 2023	Introduction to Statistics 1	3
CLP 3144	Abnormal Psychology	3
or DEP 3053	Developmental Psychology	

Other remaining prerequisites should be in progress at the time of application or completed by the end of the Summer A term.

Related Health Science Programs

- Bachelor of Public Health (p. 1024)
- Health Science minor (p. 1023)

General Health Science

The general specialization is designed to accommodate students interested in diverse health care fields (e.g., health administration, nursing, clinical psychology).

To be on-track for the junior year, students must meet the critical-tracking criteria listed below, beginning with the first fall or spring term.

To be *considered* for admission at the junior level, students must:

- Remain on track each fall and spring term, for a total of four semesters.
- Complete the following prerequisites or equivalents by the end of the fourth semester:

Code	Title	Credits
APK 2105C	Applied Human Physiology with Laboratory	4
BSC 2005	Biological Sciences	3
or BSC 2010	Integrated Principles of Biology 1	

PSY 2012	General Psychology	3
STA 2023	Introduction to Statistics 1	3
CLP 3144	Abnormal Psychology	3
or DEP 3053	Developmental Psychology	

- The online application to the BHS program goes live as a link on the BHS website (http://bhs.phhp.ufl.edu) in November. Apply formally to the college by the February 1 deadline. Transfer students must apply separately to UF and to the college so they must submit two different applications.

Off-track UF freshmen and sophomores must speak with a college advisor before registering for the next semester and prior to applying for junior-year admission consideration.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=510000&track=01) may be used for transfer students.

Semester 1

- Complete ENC 1101 or ENC 1102 with a minimum grade of C
- Complete 9 credits of general education courses, including ENC 1101 or higher, with minimum grades of C
- 2.3 cumulative GPA on work from all institutions

Semester 2

- Complete STA 2023 with a minimum grade of C
- Complete PSY 2012 with a minimum grade of C
- Complete 9 additional credits of general education courses for a total of 18, including the university writing requirement
- 2.7 cumulative GPA on work from all institutions

Semester 3

- Complete BSC 2005 or BSC 2010 with minimum grade of C
- Complete CLP 3144 or DEP 3053 with a minimum grade of C
- Complete STA 2023 with minimum grades of C
- Complete 9 additional credits of general education courses for a total of 27
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

Semester 4

- Complete all general education courses, including IDS 1161 and all state core courses
- Complete the university writing requirement, which must include ENC 3453 or a substitution approved by a PHHP advisor
- Complete APK 2105C with a minimum grade of C
- Complete 60 cumulative credits
- 3.0 GPA required for all critical-tracking courses and minimum grades of C on all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Select one:		3

	Total Credits	120

[1] Minimum grade of C required.

For semesters 5-8, students must enroll in all semesters and take all core courses in the term/order indicated.

Academic Learning Compact

The Bachelor of Health Science prepares students for a career in health care systems or organizations that provide health or general human services to individuals/communities with health concerns. Students will learn the foundational interprofessional skills necessary to succeed in the dynamic healthcare environment and/or enter postbaccalaureate academic programs such as medicine, physical therapy and public health.

Before Graduating Students Must

- Receive a satisfactory grade (S) in the BHS capstone portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe key elements of the U.S. healthcare system.
2. Comprehensively describe major chronic illnesses and disabilities.
3. Describe the core functions of public health.
4. Apply knowledge and application of core bioethical principles to contemporary health issues.
5. Develop appropriate professional behaviors for health careers.

Critical Thinking

6. Develop and apply critical analysis skills to contemporary health issues.

Communication

7. Apply effective basic communication skills for health professionals.

Health Science | Occupational Therapy Accelerated

The health science program leading to the Bachelor of Health Science (BHS) degree includes didactic and experiential activities for students to learn the foundation skills necessary for success in the dynamic health environment.

About this Program

- **College:** Public Health and Health Professions (p. 989)
- **Degree:** Bachelor of Health Science
- **Specializations:** General Health Science (p. 1005) | Occupational Therapy Accelerated (p. 1010) | Pre-Physical Therapy (p. 1014) | Preprofessional (p. 1019)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Health Science Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The program has two major goals: to teach foundational skills to students whose career goal is to work in health care, particularly for those who want to become health care providers, and to teach foundational skills to students who want to work with individuals, groups or communities who face social, economic or health challenges. In addition, interested students have the opportunity to explore a combined-degree program in public health.

The college offers four specializations in the freshman and sophomore years:

General Health Science

For students who want to work in a health care field not mentioned in the other specializations below. The number of electives allowed in this specialization affords the student the opportunity to incorporate a range of prerequisites for different career paths.

Occupational Therapy Accelerated

A combined degree program that allows students to take first-year Doctor of Occupational Therapy (OTD) Program courses during their junior and senior years in the health science program.

Pre-Physical Therapy

Offers a suggested prerequisite course sequence for students interested in pursuing entry-level physical therapy education at the graduate/professional level.

Preprofessional

For students pursuing careers in fields such as medicine, physician assistant and dentistry, all of which require significant basic science prerequisites. This specialization is set up to integrate commonly required preprofessional courses with requirements for the health science major.

The general health science, preprofessional and pre-physical therapy specializations collapse into one track beginning in the junior year and follow the same core curriculum, focusing on the health care system, different diseases and disabilities, the role of the health care provider in prevention and treatment, research methods and understanding core public health concepts. The senior year focuses on patient provider communication, effective leadership and critical-thinking skills important to clinical problem solving and the bioethical and legal issues impacting health care.

Regardless of specialization selected, students complement core courses with electives to round out their academic skills and interests.

Upon successful completion of the health science program, students receive the Bachelor of Health Science degree. While the majority of students pursue graduate or professional training in a health field (e.g. occupational therapy, physical therapy, medicine, physician assistant, health administration, dentistry, public health), some students seek employment in hospital or related community organizations after completing the B.H.S.

Course Sequence

While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

All course specializations in the health science program require a minimum 3.0 overall and prerequisite GPA for admission at the junior level.

Each specialization incorporates general education math and writing requirements and health science prerequisites. All specializations accept AP or IB credit for any prerequisite course. Students must earn a minimum of C in any BHS prerequisite course that is not satisfied by AP/IB credit. NOTE: While students can use AP or IB credit to satisfy BHS prerequisites, students should be aware that graduate/professional programs may not accept AP/IB credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

Students must apply by February 1 for Summer B or Fall admission. All prerequisites must be completed by the end of Summer A. However, for admission consideration at the junior level, all students must have completed the following or equivalents before the application deadline:

Code	Title	Credits
BSC 2005	Biological Sciences	3
or BSC 2010	Integrated Principles of Biology 1	
PSY 2012	General Psychology	3
STA 2023	Introduction to Statistics 1	3
CLP 3144	Abnormal Psychology	3
or DEP 3053	Developmental Psychology	

Other remaining prerequisites should be in progress at the time of application or completed by the end of the Summer A term.

Related Health Science Programs

- Bachelor of Public Health (p. 1024)
- Health Science minor (p. 1023)

Occupational Therapy Accelerated

Occupational therapy is a professional program. The Occupational Therapy Accelerated Program gives students the opportunity to learn core health science content while simultaneously completing the first-year professional-level coursework required for the doctor of occupational therapy program at UF.

Competitive applicants to the Occupational Therapy Accelerated Program will have met the following requirements:

- Applicants must be accepted into the Bachelor of Health Science Program.
- Applicants must have completed all 2000-level prerequisites required for the professional program in occupational therapy.
- A minimum cumulative 3.8 GPA for lower division (freshman and sophomore level) undergraduate college coursework.
- A minimum 3.7 GPA for all prerequisite courses with no grade lower than a C.
- All applicants are required to complete a total of 30 hours of observational hours in at least two diverse OT settings. Diverse settings are settings that service clientele are significantly different; inpatient, outpatient, long term care, school-based, elders, pediatrics, orthopedics, rehabilitation, etc.
- Applicants must submit three recommendations. One of the recommendations must be from a professional level OT. The other two should be from professionals, such as a present or former faculty member, academic advisor, or employer.
- Applicants must submit a personal statement that addresses why they selected OT as a career and how an Occupational Therapy degree relates to their immediate and long-term professional goals. They must describe how their personal, educational, and professional background will help achieve their goals.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=510000&track=01) may be used for transfer students.

Semester 1

- Complete BSC 2005 and BSC 2005L with minimum grades of C
- Complete ENC 1101 or ENC 1102 with a minimum grade of C
- Complete sociology or anthropology with a minimum grade of C
- Complete 9 credits of general education courses, including ENC 1101 or higher, with minimum grades of C
- 3.2 cumulative GPA on work from all institutions

Semester 2

- Complete ENC 1102 with a minimum grade of C
- Complete HSC 2000 with a minimum grade of C (recommended)
- Complete PSY 2012 and HSC 3537 with minimum grades of C
- Complete 9 additional credits of general education courses for a total of 18

- Complete 28 cumulative credits
- 3.4 cumulative GPA on work from all institutions

Semester 3

- Complete 3 additional critical-tracking courses: APK 2100C or APK 2105C, CLP 3144 and STA 2023 with minimum grades of C
- Complete 9 additional credits of general education courses for a total of 27
- Complete ENC 3453 or a substitution approved by a PHHP advisor
- Complete 42 cumulative credits
- 3.6 GPA required for all critical-tracking courses, based on all attempts
- 3.6 cumulative GPA on work from all institutions

Semester 4

- Complete all laboratories
- Complete all general education courses, including IDS 1161 and all state core courses
- Complete the university writing requirement
- Complete 60 cumulative credits
- Complete all critical-tracking courses with no grade below C and with a 3.7 critical-tracking GPA
- 3.8 cumulative GPA on work from all institutions

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

While the majority of students pursue graduate or professional training in a health field (e.g. occupational therapy, physical therapy, medicine, physician assistant, health administration, dentistry, public health), some students seek employment in hospital or related community organizations after completing the B.H.S.

Course Sequence

While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

All course specializations in the health science program require a minimum 3.0 overall and prerequisite GPA for admission at the junior level.

Each specialization incorporates general education math and writing requirements and health science prerequisites. All specializations accept AP or IB credit for any prerequisite course. Students must earn a minimum of C in any BHS prerequisite course that is not satisfied by AP/IB credit. NOTE: While students can use AP or IB credit to satisfy BHS prerequisites, students should be aware that graduate/professional programs may not accept AP/IB credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

Students must apply by February 1 for Summer B or Fall admission. All prerequisites must be completed by the end of Summer A. However, for admission consideration at the junior level, all students must have completed the following or equivalents before the application deadline:

Code	Title	Credits
BSC 2005	Biological Sciences	3
or BSC 2010	Integrated Principles of Biology 1	
PSY 2012	General Psychology	3
STA 2023	Introduction to Statistics 1	3
CLP 3144	Abnormal Psychology	3
or DEP 3053	Developmental Psychology	

Other remaining prerequisites should be in progress at the time of application or completed by the end of the Summer A term.

Related Health Science Programs

- Bachelor of Public Health (p. 1024)
- Health Science minor (p. 1023)

Pre-Physical Therapy

Physical therapy is a doctoral-level program. Listed below is the suggested undergraduate prerequisite course sequence. For a description of the program and additional information, please refer to the Department of Physical Therapy.

Course Sequence

The following course sequence permits completion of general education requirements and UF health science and physical therapy prerequisites.

All specializations accept AP or IB credit for any prerequisite course. Students must earn a minimum of C in any BHS prerequisite course that is not satisfied by AP/IB credit. NOTE: While students can use AP or IB credit to satisfy BHS prerequisites, students should be aware that graduate/

professional programs are unlikely to accept AP/IB credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

To be admitted to the pre-PT track, students must meet the health science critical-tracking criteria each semester, beginning with the first fall or spring term. To be *considered* for admission at the junior level, students must remain on track each fall and spring term, for a total of four semesters. Students also must submit an application to the college. Transfer students must apply to UF in addition to applying to the college.

The online application to the BHS program goes live as a link on the BHS website (http://bhs.phhp.ufl.edu) in November. Apply formally to the college by the February 1 deadline. Transfer students must apply separately to UF and to the college so they must submit two different applications.

Off-track UF freshmen and sophomores must speak with a college advisor before registering for the next semester and prior to applying for junior-year admission consideration.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=510000&track=01) may be used for transfer students.

Semester 1

- Complete ENC 1101 or ENC 1102
- Complete MAC 1140 or MAC 1147 with a minimum grade of C
- Complete PSY 2012 with a minimum grade of C
- Complete 9 credits of general education courses, including ENC 1101 or higher, with minimum grades of C
- 2.3 GPA on work from all institutions

Semester 2

- Complete ENC 1102 with a minimum grade of C
- Complete BSC 2010 with a minimum grade of C
- Complete STA 2023 or DEP 3053 with a minimum grade of C
- Complete 9 additional credits of general education courses for a total of 18
- 2.7 GPA on work from all institutions

Semester 3

- Complete APK 2105C, BSC 2010, DEP 3053, STA 2023 with minimum grades of C
- Complete 9 additional credits of general education courses for a total of 27
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

Semester 4

- Complete HSC 2000 with a minimum grade of C (recommended)
- Complete all general education courses, including IDS 1161 and all state core courses
- Complete the university writing requirement, which must include ENC 3453 or a substitution approved by a PHHP advisor
- Complete 60 cumulative credits
- Complete all critical-tracking courses with no grades below C and with a 3.0 critical-tracking GPA
- 3.0 cumulative GPA on work from all institutions

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
CHM 1025	Introduction to Chemistry	2

Select one:		3
ENC 1101	Expository and Argumentative Writing (**Critical Tracking**; State Core Gen Ed Composition; Writing Requirement)	
ENC 1102	Argument and Persuasion (**Critical Tracking**; State Core Gen Ed Composition; Writing Requirement)	
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
Select one:		3-4

OTH 3416	Pathophysiology [1]	3
Approved college electives [1]		6
	Credits	15
Semester Seven		
HSC 3661	Therapeutic Communication Skills with Patients, Families and the Health Care Team [1]	2
HSC 4184	Health Care Leadership: Skills and Styles [1]	3
RCS 4415L	Therapeutic Communication Skills Laboratory [1]	1
Approved college elective [1]		3

Electives (3000/4000 level)		6
	Credits	15
Semester Eight		
HSC 4608L	Critical Thinking in Health Care [1]	4
HSC 4652L	Ethical and Legal Issues in the Health Professions [1]	3
Electives (3000/4000 level)		6
	Credits	13
	Total Credits	124-125

[1] Minimum grade of C required.

For semesters 5-8, students must enroll in all semesters and take all core courses in the term/order indicated, with the exception of Introduction to Statistics 2, which must be completed by the end of spring term of the junior year.

The health science program requires 120 credits for degree. Students following the pre-PT guidelines will require more than 120 credits and includes all pre-professional coursework.

Academic Learning Compact

The Bachelor of Health Science prepares students for a career in health care systems or organizations that provide health or general human services to individuals/communities with health concerns. Students will learn the foundational interprofessional skills necessary to succeed in the dynamic healthcare environment and/or enter postbaccalaureate academic programs such as medicine, physical therapy and public health.

Before Graduating Students Must

- Receive a satisfactory grade (S) in the BHS capstone portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe key elements of the U.S. healthcare system.
2. Comprehensively describe major chronic illnesses and disabilities.
3. Describe the core functions of public health.
4. Apply knowledge and application of core bioethical principles to contemporary health issues.
5. Develop appropriate professional behaviors for health careers.

Critical Thinking

6. Develop and apply critical analysis skills to contemporary health issues.

Communication

7. Apply effective basic communication skills for health professionals.

Health Science | Preprofessional

The health science program leading to the Bachelor of Health Science (BHS) degree includes didactic and experiential activities for students to learn the foundation skills necessary for success in the dynamic health environment.

About this Program

- **College:** Public Health and Health Professions (p. 989)
- **Degree:** Bachelor of Health Science
- **Specializations:** General Health Science (p. 1005) | Occupational Therapy Accelerated (p. 1010) | Pre-Physical Therapy (p. 1014) | Preprofessional (p. 1019)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Health Science Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The program has two major goals: to teach foundational skills to students whose career goal is to work in health care, particularly for those who want to become health care providers, and to teach foundational skills to students who want to work with individuals, groups or communities who face social, economic or health challenges. In addition, interested students have the opportunity to explore a combined-degree program in public health.

The college offers four specializations in the freshman and sophomore years:

General Health Science

For students who want to work in a health care field not mentioned in the other specializations below. The number of electives allowed in this specialization affords the student the opportunity to incorporate a range of prerequisites for different career paths.

Occupational Therapy Accelerated

A combined degree program that allows students to take first-year Doctor of Occupational Therapy (OTD) Program courses during their junior and senior years in the health science program.

Pre-Physical Therapy

Offers a suggested prerequisite course sequence for students interested in pursuing entry-level physical therapy education at the graduate/professional level.

Preprofessional

For students pursuing careers in fields such as medicine, physician assistant and dentistry, all of which require significant basic science prerequisites. This specialization is set up to integrate commonly required preprofessional courses with requirements for the health science major.

The general health science, preprofessional and pre-physical therapy specializations collapse into one track beginning in the junior year and follow the same core curriculum, focusing on the health care system, different diseases and disabilities, the role of the health care provider in prevention and treatment, research methods and understanding core public health concepts. The senior year focuses on patient provider communication, effective leadership and critical-thinking skills important to clinical problem solving and the bioethical and legal issues impacting health care.

Regardless of specialization selected, students complement core courses with electives to round out their academic skills and interests.

Upon successful completion of the health science program, students receive the Bachelor of Health Science degree. While the majority of students pursue graduate or professional training in a health field (e.g. occupational therapy, physical therapy, medicine, physician assistant, health administration, dentistry, public health), some students seek employment in hospital or related community organizations after completing the B.H.S.

Course Sequence

While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

All course specializations in the health science program require a minimum 3.0 overall and prerequisite GPA for admission at the junior level.

Each specialization incorporates general education math and writing requirements and health science prerequisites. All specializations accept AP or IB credit for any prerequisite course. Students must earn a minimum of C in any BHS prerequisite course that is not satisfied by AP/IB credit. NOTE: While students can use AP or IB credit to satisfy BHS prerequisites, students should be aware that graduate/professional programs may not accept AP/IB credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

Students must apply by February 1 for Summer B or Fall admission. All prerequisites must be completed by the end of Summer A. However, for admission consideration at the junior level, all students must have completed the following or equivalents before the application deadline:

Code	Title	Credits
BSC 2005	Biological Sciences	3
or BSC 2010	Integrated Principles of Biology 1	
PSY 2012	General Psychology	3
STA 2023	Introduction to Statistics 1	3
CLP 3144	Abnormal Psychology	3
or DEP 3053	Developmental Psychology	

Other remaining prerequisites should be in progress at the time of application or completed by the end of the Summer A term.

Related Health Science Programs

- Bachelor of Public Health (p. 1024)
- Health Science minor (p. 1023)

Preprofessional

Students interested in health careers requiring strong basic science backgrounds, such as medicine and physician assistant programs, should enroll in the preprofessional specialization.

Additional science coursework is included within the track to help students meet preprofessional course requirements, **but this coursework is not required for the health science program unless it appears in bold**.

Students should meet with a pre-health advisor in the Academic Advising Center (100 Farrior Hall) and a PHHP advisor to ensure adequate preparation for professional entrance exams and the professional school application process. Students are responsible for ensuring they have the correct prerequisites for the professional program of their choice.

To be on track for the junior year, students must meet the critical-tracking criteria listed below, beginning with the first fall or spring term. All critical-tracking courses appear in bold. To be *considered* for admission at the junior level, students must remain on track each fall and spring term, for a total of four semesters.

The online application to the BHS program goes live as a link on the BHS website (http://bhs.phhp.ufl.edu) in November. Apply formally to the college by the February 1 deadline. Transfer students must apply separately to UF and to the college so they must submit two different applications.

Off-track UF freshmen and sophomores must speak with a college advisor before registering for the next semester and prior to applying for junior-year admission consideration.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=510000&track=01) may be used for transfer students.

Semester 1

- Complete PSY 2012, and ENC 1101 or ENC 1102 with minimum grades of C
- Complete 9 credits of general education courses, including ENC 1101 or ENC 1102, with minimum grades of C
- 2.3 cumulative GPA on work from all institutions

Semester 2

- Complete ENC 1101 or ENC 1102 with a minimum grade of C
- Complete DEP 3053 or CLP 3144 with a minimum grade of C
- Complete STA 2023 with a minimum grade of C
- Complete 9 additional credits of general education courses for a total of 18
- 2.7 cumulative GPA on work from all institutions

Semester 3

- Complete APK 2105C and BSC 2010 with minimum grades of C
- Complete 9 additional credits of general education courses for a total of 27
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

Semester 4

- Complete all general education courses, including IDS 1161 and all state core courses
- Complete the university writing requirement, which must include ENC 3453 or a substitution approved by a PHHP advisor
- Complete 60 cumulative credits
- Complete all critical-tracking courses with no grades below C and with a 3.0 critical-tracking GPA
- 3.0 cumulative GPA on work from all institutions

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Health Science Minor

The health science minor provides foundational knowledge and skills in the changing healthcare delivery system.

About this Program

- **College:** Public Health and Health Professions (p. 989)
- **Credits:** 15 | Completed with minimum grades of C
- **Related Health Science Programs**

The minor is open to all juniors and seniors with majors outside the College of Public Health and Health Professions who meet the prerequisites. It is also open to communication sciences and disorders students.

Prerequisites include junior standing (60+ credits), a 3.0 overall GPA and a 3.0 prerequisite GPA based on general college biology, general psychology, abnormal/developmental/physiological psychology, physiology and statistics (STA 2023). Students can transfer up to three credits of approved coursework.

Interested students should obtain an application and a list of current coursework.

- Bachelor of Public Health (p. 1024)

Public Health

The Bachelor of Public Health (BPH) program prepares students for advanced education in public health or related fields. It also provides students with foundational public health skills to succeed in the dynamic public health workforce.

About this Program

- **College:** Public Health and Health Professions (p. 989)
- **Degree:** Bachelor of Public Health
- **Credits for Degree:** 120
- **Additional Information**
- **Related Health Science Programs**

To graduate with this major, students must complete all university, college, and major requirements.

A primary goal of the public health bachelor's degree program is to prepare students for advanced (master's) training in the health professions and in public health specifically, considered the entry level degree for the field. Students interested in a specific area of public health have the opportunity to organize some of their electives around a cohesive public health topic. In addition, interested students have the opportunity to explore a combined-degree program in public health.

Upon successful completion of the public health program, students receive the Bachelor of Public Health degree. While the majority of students pursue graduate or professional training in public health or a related field, some students seek employment in not-for-profit and for-profit agencies, or related community health organizations after completing the B.P.H.

Course Sequence

The public health program is designed primarily for students who want to pursue advanced degree work in public health or a related field. It is also appropriate for those who want to acquire foundational public health knowledge before continuing to graduate or professional school or who will work in a health-care setting after graduation. In order to be on track for pre-public health at the junior level, students must meet the critical-tracking criteria listed below, beginning with their first fall or spring term.

To be *considered* for admission at the junior level, students must:

- Complete these prerequisites:

Code	Title	Credits
BSC 2005	Biological Sciences	3
or BSC 2010	Integrated Principles of Biology 1	
STA 2023	Introduction to Statistics 1	3
Select 6 credits of social and behavioral sciences, including the following as the state core:		6
PSY 2012	General Psychology	
ENC 1101	Expository and Argumentative Writing	3
ENC 1102	Argument and Persuasion	3
ENC 2210	Technical Writing	3
or ENC 3453	Writing in the Health Professions	

- 3.0 overall GPA and 3.0 prerequisite GPA
- AA degree or 60 transferable college level credits
- Completion of all general education and university writing requirements
- Apply formally to the college by February 1. The college application packet (https://bph.phhp.ufl.edu/resources-for-prospective-students/application) is available online. Transfer students must apply separately to UF and to the college so they must submit two different applications.

Off-track UF freshmen and sophomores must speak with a college advisor before registering for the next semester and prior to applying for junior-year admission consideration.

The program accepts AP or IB credit for one prerequisite course. All other prerequisite courses must be completed with minimum grades of C at the university level. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

Students must apply by February 1 for Summer B and fall admission. All prerequisites must be completed by the end of Summer.

- Health Science minor (p. 1023)

Critical Tracking

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=510000&track=01) may be used for transfer students.

Semester 1

- Complete ENC 1101 or ENC 1102 with a minimum grade of C
- Complete 9 credits of general education courses, including ENC 1101 or higher, with minimum grades of C
- 2.3 cumulative GPA on work from all institutions

Semester 2

- Complete STA 2023 with a minimum grade of C
- Complete PSY 2012 with a minimum grade of C
- Complete 9 additional credits of general education courses for a total of 18, and including the university writing requirement
- 2.7 cumulative GPA on work from all institutions

Semester 3

- Complete BSC 2005 or BSC 2010 with minimum grade of C
- Complete Social and Behavioral Sciences (GE-S) with a minimum grade of C
- Complete 9 additional credits of general education courses for a total of 27

- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

Semester 4

- Complete all general education courses, including IDS 1161 GE-B/P, GE-S, and all state core courses
- Complete the university writing requirement, which must include ENC 3453 or a substitution approved by a PHHP advisor
- Complete Physical or Biological Science (GE-P or B) with a minimum grade of C
- Complete 60 cumulative credits
- 3.0 critical tracking GPA and minimum grades of C on all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Select one:		3
ENC 1101	Expository and Argumentative Writing (**Critical Tracking**; State Core Gen Ed Composition; Writing Requirement)	
ENC 1102	Argument and Persuasion (**Critical Tracking**; State Core Gen Ed Composition; Writing Requirement)	
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
Gen Ed Biological Sciences or Physical Sciences (**Critical Tracking**)		3
Gen Ed Mathematics (**Critical Tracking**)		3
Elective		3
	Credits	15
Semester Two		
ENC 1102	Argument and Persuasion (**Critical Tracking**; Gen Ed Composition; Writing Requirement)	3
HSC 2000	Introduction to Health Professions	3

Elective (3000/4000 level)		3
	Credits	15
Semester Eight		
PHC 4117	Public Health Management Leadership [1]	3
PHC 4943	Service Learning Practicum [1]	3
Specialty elective (3000/4000 level)		3
Electives (3000/4000 level)		6
	Credits	15
	Total Credits	120

[1] Minimum grade of C required.

For semesters 5-8, students must enroll in all semesters and take all core courses in the term and order indicated.

Academic Learning Compact

Students graduating with a Bachelor of Public Health will be prepared for careers in health care systems or organizations addressing the health or more general human service needs of communities and populations. They will learn the foundational skills necessary to enter post baccalaureate academic programs in public health or complementary fields and success in the dynamic public health workforce.

Before Graduating Students Must

- Earn minimum grades of C in all public health core courses.
- Pass a BPH capstone exam and service learning experience.
- Complete requirements for the post baccalaureate degree, as determined by the faculty and the university.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Explain the five major areas of public health (biostatistics, environmental health services, epidemiology, health services administration, and social behavioral science), and each area's contribution to public health.
2. Identify, describe, and explain the ways that social determinants of health impact disability, disease and illness in populations.

Critical Thinking

3. Identify, critically evaluate, and propose solutions to public health challenges.

Communication

4. Communicate in oral and written forms public health concepts and their relationship to policy, communities, organizations, interpersonal dynamics and individual perspectives.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4

Assessment Types

- Assignment
- The Bachelor of Health Science capstone exam
- The degree candidate's exit survey

Public Health Minor

This minor enables preprofessional students to acquire public health knowledge that complements their career paths. The minor is designed for students going into careers other than public health who can benefit from public health knowledge in the delivery of their services. A few examples of these careers include anthropology, dentistry, environmental engineering, health education, medicine, nursing, nutritional sciences, occupational therapy, physician assistant and psychology.

About this Program

- **College:** Public Health and Health Professions (p. 989)
- **Credits:** 15 | Completed with minimum grades of C
- **Related Public Health Programs**

Students interested in public health careers should consider a combined-degree program rather than this minor.

For students in the College of Public Health and Health Professions, successful completion of this minor satisfies the 9-credit college elective requirement and six credits of general elective credit. Therefore, no additional credits beyond 120 are required for graduation with a minor in public health.

Students must have completed the prerequisites for the BPH program with minimum grades of C to be considered for a minor. Prerequisites include:

- Junior status (60+ credits)
- 3.0 overall GPA
- 3.0 prerequisite GPA
- Completion of the following:

Code	Title	Credits
BSC 2005	Biological Sciences	3
or BSC 2010	Integrated Principles of Biology 1	
PSY 2012	General Psychology	3
STA 2023	Introduction to Statistics 1	3
Select one:		3
CLP 3144	Abnormal Psychology	
DEP 3053	Developmental Psychology	
Health Psychology		

Students may transfer up to three credits of approved coursework toward the minor. All remaining credits must be taken from the course list below.

Interested students should submit the required UF application to add or cancel a minor. Students also must submit a proposed *plan of study that includes courses for the minor*.
More Info (http://bhs.phhp.ufl.edu/forms-2)

Application materials should be submitted to the Bachelor of Public Health office in the College of Public Health and Health Professions, HPNP 4150. Minors are considered on a space-available basis. Students within the Bachelors of Health Science program are only able to apply one of their core curriculum courses towards the public health minor.

The communication sciences and disorders program and health science program also offers minors.

More Info (http://slhs.phhp.ufl.edu/academics/undergrad)

Required Courses

Code	Title	Credits
PHC 4101	Public Health Concepts	3
Select four:		12
HSA 3111	U.S. Health Care System	
PHC 3440	Global Public Health	
PHC 3603	Critical Issues in Ph	
PHC 4024	Applied Epidemiology	
PHC 4094	Introduction to Biostatistics for Health Science and Public Health	
PHC 4320	Environmental Concepts in Public Health	
RCS 4451	Rehabilitation Aspects of Substance Abuse	
Total Credits		15

Counting Credits for Undergraduate or Graduate Degrees

Undergraduates who are interested in public health as a career path, but do not want to pursue the Bachelors of Public Health, should consider the Bachelors/MPH Combined Degree. This would allow courses taken in a student's senior year to count toward an MPH degree.
More Info (http://mph.ufl.edu)

Related Public Health Programs

- Bachelor of Science in Health-Science (p. 1003)

Speech and Hearing Sciences Certificate

The speech and hearing sciences certificate provides a specialized credential in audiology or speech language pathology which could be used to apply for graduate work in audiology or speech language pathology; also helps meet the academic requirements for licensure as an audiology assistant or a speech-language pathology assistant. It provides an understanding of the fundamentals of speech and hearing as well as an introduction to speech, language and hearing disorders.

About this Program

- **College:** Public Health and Health Professions (p. 989)
- **Credits:** 24

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Two paths to program admission

Postbaccalaureate Students

- A bachelor's degree with a 2.7 GPA or better
- A phonetics course is required but may be taken concurrently while in the certificate program

Current Undergraduate Students outside the Department of Speech Language and Hearing Science

- In good standing at UF
- A 2.7 GPA or better
- A course in phonetics

Required Courses

Code	Title	Credits
SPA 3011	Speech Acoustics	3
SPA 3032	Fundamentals of Hearing	3
SPA 3101	Speech Anatomy and Physiology	3
SPA 4004	Language Development	3
SPA 4104	Neural Basis of Communication	3

Academic Policies

Admission Requirements

Students planning to major in any program in the arts should contact the College of the Arts as soon as possible. Because of limitations in faculty and space, the college cannot accept all eligible applicants; admission, therefore, is selective.
More Info (http://arts.ufl.edu/about/programs)

Auditions are required for admission to all music programs and to the B.F.A. programs in theatre and dance. Refer to the appropriate school for audition information. A student's entire record, including educational objective, pattern of courses completed, quality of academic record, successful audition or portfolio review and test data will be considered.

Native Freshmen and Sophomores

Because the College of the Arts offers professional degrees (B.F.A. and B.Mus.) and a limited access B.A. program in digital arts and sciences, the admissions process often occurs in two phases.

1. Conditional admission as a freshman to the college and a program of choice in the School of Theatre and Dance (B.A only), the School of Art and Art History or the UF Digital Worlds Institute. There is no conditional admission for music students; they must audition for direct admission to music programs before registering for classes.
2. Direct or confirmed admission into a specific program of choice occurs in different stages of the academic career for different programs.

Art

Students desiring to change from another major within the university must submit a portfolio for conditional admission. All art students must pass a portfolio review at the end of their sophomore year before direct admission to a specific program.

Digital Arts and Sciences

Students must submit a portfolio of original student work, demonstrating competency in digital art and computer programming, by March 15 of the sophomore year for approval to begin upper division coursework the following Fall.

Music

All students must audition for admission to a music major.

Theatre and Dance

Students must audition for direct admission to B.F.A. programs.

Students, even those in the conditional phase of their program, maintain the College of the Arts (FA) classification as long as they meet the standards set by the college and UF for admission and universal tracking.

Transfer Students

To be eligible for admission to the college, a transfer student must satisfy the minimum requirements for UF admission.

The primary criterion for any art, dance, digital arts and sciences, music or theatre program is proficiency in the discipline. All students, except for B.A. in theatre or dance, must present an audition, portfolio or other required support material for review.

The majority of 3000/4000-level professional courses required for the major in the junior and senior years generally cannot be taken at other schools. Students attending four-year colleges should take courses similar to the first two years' preparatory courses for their intended major.

The associate of arts (A.A.) degree is recommended for students transferring from a Florida public college; the degree should be posted on the student's transcript before admission.

Transfer students are advised to plan their studies as outlined below for each department or school. Transfer students, even with completed A.A. degrees, will usually be required to take additional preprofessional, lower-division (2000 level) courses beyond the minimum courses, required for entry into a specific program.

Art

Students are admitted to studio degree programs following completion of a satisfactory portfolio review. Applicants should note that the UF Office of Admissions deadline for the fall or summer B term is March 1; the submission deadline for the art portfolio is March 15. The UF Office of Admissions deadline for the spring term is September 15 and the submission deadline for the art portfolio is October 1.

Please see the website for up-to-date prerequisite information and application instructions.
More Info (https://arts.ufl.edu/about/programs/#art-and-art-history)

All majors within the School of Art and Art History require a portfolio review, except art history, which does require a letter of intent outlining the applicant's goals as related to that major. Refer to the School of Art and Art History website for further clarification.

Dance

Students are admitted to the B.F.A program following completion of the following:

- A satisfactory in-person or videotaped audition
- A résumé
- Acceptable proficiency in dance technique

The state college program should include:

- Two years of dance technique, including ballet, modern and jazz
- One year of dance composition
- Dance appreciation

Digital Arts and Sciences

Students are admitted to the program following completion of the following:

- Satisfactory submission of the portfolio of original student work, demonstrating competency in digital art and computer programming.
- Completion of the following prerequisite courses with a minimum 2.5 GPA:

Code	Title	Credits
ARH 2000	Art Appreciation: American Diversity and Global Arts	3
ARH 2050	Introduction to the Principles and History of Art 1	3
ARH 2051	Introduction to the Principles and History of Art 2	3
MAC 1140	Precalculus Algebra (or higher)	3

At least one course in Studio Art or Computer Programming.

The state college program should include work required to earn the A.A. degree and the type of general education and recommended electives found in the degree description. Applicants should note that the UF Office of Admissions deadline for fall is March 1 and the submission deadline for the portfolio is March 15. Refer to the Digital Worlds Institute website for instructions on submitting the portfolio.
More Info (https://digitalworlds.ufl.edu)

Music

Upper-division ***professional*** students have an AA or at least 60 hours at the time of matriculation, and ***have*** completed the coursework required for admission at the professional level (listed below). Transfer students who do not meet the criteria for admission at the professional level may

be admitted as *provisional*. If a student does not have an AA degree or at least 60 credit hours, they should refer to the lower division information above. All transfer students with an Associate of Arts degree or with 60 hours of accumulated credit must be accepted into a specific college when they apply to the University of Florida.

Upper-division ***provisional*** students have an AA or at least 60 hours at the time of matriculation, but ***have not*** completed the coursework required for admission at the professional level (listed below). This includes students who have transferred from community colleges that do not offer music programs, students who have not successfully completed the theory requirements, etc. Community college students, with or without an AA degree, who ***have not*** completed the required pre-professional course work will audition at the "pre-professional level". All students auditioning at the "pre-professional level" will take a theory exam for placement within the theory program and must then successfully pass the final Comprehensive Musicianship Exam upon completion of the theory coursework assigned for remediation.

Requirements for admission at the Professional level:

Courses

- Four semesters of applied studio (8 hours)
- Four semesters of ensemble (4 hours)
- Four semesters of recital attendance
- Four semesters of theory (12 hours)
- Four semesters of secondary piano (4 hours)

Competency Requirements

- 3000 level Pre-professional Jury
- Comprehensive Musicianship Examination (CME)

Grade Point Average Minimums

- 2.5 for Music Education
- 2.0 for all other degree tracks

Theatre

Students are admitted to the program following completion of a satisfactory audition in performance or a portfolio review in production.

The state college program should include:

- One course in acting
- Introduction to theatre
- Costume and stage make-up
- Stagecraft

Timely Graduation

The College of the Arts expects full-time enrollment for students enrolled in bachelor's level degree programs. COTA majors are expected to graduate within the following timeframes: eight full-time fall/spring semesters for students admitted as freshmen, and four fall/spring semesters for students admitted as junior transfers. Full-term withdrawals, full-term semesters of overseas study, or full-term semesters of internship away from UF are not included in this count, although students should be mindful of potential excess hours implications of extending their time at UF.

Students who cannot meet their degree requirements within the eight full-time semesters (four for transfer students) are expected to enroll in summer terms to complete their degree requirements.

Due to the sequencing of course requirements, some A.A. and upper division transfer students may be unable to complete their degree requirements in the four allotted semesters. Students should see their respective advisor to determine an appropriate academic plan to complete their degrees.

REQUEST FOR ADDITIONAL SEMESTERS GUIDELINES

COTA recognizes that unexpected life events, individual circumstances, or complex educational goals may necessitate additional time to complete degree requirements. Additional time to degree is permitted with the approval of the College Petitions Committee, and may be limited to fulfillment of unmet degree requirements only.

COTA generally approves graduation extensions for the following reasons:

- Series of approved medical drops, medical withdrawals, or approved reduced course load lower than 12 credits for full-time status via the DRC
- Personal/financial hardship necessitating the student cease enrollment or enroll at less than full time for one or more semesters More Info (p. 19)

COTA does not approve graduation extensions for students on academic probation nor for students seeking to finish requirements for minors or certificates, or prerequisites for graduate study.

DUAL DEGREES/DOUBLE MAJORS/ COMBINED DEGREES

We recognize and commend the many COTA students with ambitious educational goals involving the pursuit of dual-degree/double major/combined degree plans. COTA expects these students to utilize robust fall/spring course loads (i.e., more than 12 credits in fall/spring terms) and summer term enrollment to complete all degree requirements as expeditiously as possible.

- Students who plan to pursue a dual-degree/double major should work with their advisor/s to create a reasonable semester plan that achieves degree completion as soon as possible. COTA generally permits a maximum of one additional year (two full-time semesters with some additional summer course work) for students pursuing dual-degree/double majors.
- COTA approves additional semesters for dual degrees with majors that already require more than eight full-time semesters for degree completion (e.g., mechanical engineering).

CHANGE OF Major

COTA recognizes that the major selected when a student starts at UF is not always the right major. Students wishing to change majors into a COTA major should work with the respective advisor to determine the feasibility of timely graduation in the new major.

- COTA expects these students to utilize robust fall/spring course loads (i.e., more than 12 credits in fall/spring terms) and summer term enrollment to catch up and complete all degree requirements as expeditiously as possible.
- COTA generally permits a maximum of one additional year (two full-time semesters with some additional summer course work) for

students who have changed majors into a COTA major and are unable to complete degree requirements in the standard eight-semester timeframe.

- Due to state of Florida excess hours legislation, it is critical to consult with your COTA advisor to explore the options available so as to graduate as soon as possible but also incur the least amount of excess hours. Many students find pursuing the BA degree options enable timely graduation with a more reasonable number of credits.

PROCEDURES

1. Meet with your undergraduate advisor for guidance regarding your academic goals and graduation timeline

2. If graduation timeline exceeds the allotted four-year timeframe, submit a Graduation Extension Petition.

3. Your undergraduate advisor will review the petition in consultation with the COTA Petitions Committee and notify you of the status (approved, denied, or additional information requested).

Students should discuss their excess hours standing with their advisor as they are making their plan. In addition, students should discuss their financial aid/scholarship situation with Student Financial Affairs in 107 Criser Hall or Veterans Services in 222 Criser Hall.

College Requirements

Student Responsibility

Students are responsible for staying on track, for registering for the proper courses and for fulfilling all requirements for their degrees.

While the college maintains an academic advisory service and carefully works to keep accurate records of individual students in the college, the student is responsible for meeting all degree requirements. Students should read their online-tracking audits each term and visit an advisor to review progress toward the degree.

Students may be required to take additional courses to remove skill deficiencies when deemed necessary by proficiency exams.

Course Load

The college expects all students to be enrolled as full-time students (a minimum of 12 credits per semester). The college strongly encourages students to take 15 credits per semester to successfully meet degree requirements as soon as possible. A student who wishes to carry more than 18 credits must get approval at the time of registration from a college academic advisor.

Satisfactory Academic Progress

Students maintain satisfactory academic progress by earning a minimum 2.0 (C) GPA for all work attempted while classified in the college (2.5, C+ average in music education and a 3.0 (B) average for all School of Art and Art History majors).

Students must take courses as outlined in the semester plan for each major. Students should see an advisor for more information. Students are required to take courses in sequence. Students may be excluded from a program of study in the college if they fail or refuse to maintain normal academic progress.

College Probation and Dismissal

Students should see an advisor in their department for information about department level probation. Students should review the University of Florida's probation and dismissal policies.
More Info (https://catalog.ufl.edu/ugrad/current/regulations/info/progress.aspx#probation)

Adding/Dropping/Withdrawing

Refer to the policy for dropping courses.
More Info (p. 1430)

Petitions

Any student who feels that college regulations created a particular hardship or injustice may petition for a waiver of the regulation. Information on procedures is available in the advisor's office. Anyone who believes that they have been discriminated against should contact the advisor or associate dean for student affairs.

Helpful Links

- Dean's List (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#deanslisttext)

Degree Requirements

To be eligible for graduation, the student must earn a minimum 2.0 (C) GPA for all work attempted in the appropriate curriculum while classified in the college (2.5 for music education, art and art education). Specific grade requirements for various curricula are available from the school or dean's office.

Graduating with Honors (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonorstext)

Residence Requirement

The last 30 semester credits applied toward a degree must be completed in residence in the college. This requirement may be waived only in special cases and must be approved in advance.

Student Work

The college reserves the right to retain student work for the purpose of record, exhibition or instruction.

Admission and Satisfactory Progress

Art

Admission requirements for UF freshmen and sophomores not currently majoring in art

Freshmen and sophomores who would like to change their majors to an art studio major must submit a conditional portfolio of no more than ten pieces of artwork. An art faculty committee will review these portfolios and accept or deny conditional admission into an art studio major. Upon conditional admission, a student will begin lower-division art studio courses. A professional portfolio must be submitted to gain admission into the upper-division studio art programs (3000/4000-level classes).

Students interested in changing their majors to art history must complete ARH 2050 and ARH 2051 with no grade lower than a B before gaining admission.

Students may not change their majors to an art major if they are currently on probation in their college. Students may not change their majors to an art major after having completed 75 credits, which includes current enrollment.

Preparation for Degrees in Art (art education, art history, graphic design, and studio art): Admission to the B.F.A., B.A.A.Ed., B.A.H.A. or B.A. degree programs is not automatic. At the end of the sophomore year or 60 credits, all students must meet minimum GPA requirements and submit a portfolio based upon the previous two years' art work for admission to the 3000-level course sequence in their concentration. All students are encouraged to work with faculty members in order to submit the best portfolio possible. Admission is highly selective and competitive. The portfolio deadline for fall admission is March 15.

Upper-division transfer admission: The Office of Admissions determines the transferability of credit earned at other institutions. Upper-division transfer students (applicants with at least 60 credit credits) may transfer no more than 60 credits from a public college as part of the credits required for a UF degree; this limit does not apply to coursework taken at a four-year institution. Students who have achieved advanced upper-division status, 90 credits or more at a four-year institution, may not be admitted.

Transfer students who have been accepted into UF to a major other than one in SAAH must complete all of the prerequisite courses at another institution and submit a professional portfolio according to the March 15 deadline for admission into an upper-division art major.

Dance

Admission

Admission is selective and students must audition successfully. Dance auditions may be scheduled throughout the year. Students audition in two technique classes of different styles, one class at intermediate level or higher. A résumé also is required. Video audition tapes will be considered. Performance audition ratings may be used for placement level in studio course sequences. Students must consult the department advisor for specific information regarding selective admission protocols.

Satisfactory Progress

Students must receive a minimum grade of C in all major courses and stand for periodic academic and artistic reviews. Majors are guaranteed participation in the production program through the production and performance laboratory course and are expected to attend scheduled departmentals.

Digital Arts and Sciences (DAS)

Admission

Admission to the upper-division BA in DAS degree is not automatic. By the end of the sophomore year (or 60 credits of undergraduate coursework), all students must meet minimum GPA requirements and have submitted a portfolio of original work, demonstrating competency in digital art and computer programming. The UF Office of Admissions deadline for fall is March 1; the deadline for portfolio submission is March 15.

Satisfactory Progress

Students must receive minimum grades of C in all courses for the major and stand for periodic academic and program reviews.

Upper-division transfer admission

The Office of Admissions determines the transferability of credit earned at other institutions. Upper-division transfer students (applicants with at least 60 credits) may transfer no more than 60 credits from a public college as part of the credits required for a UF degree; this limit does not apply to coursework taken at a four-year institution. Students who have achieved advanced upper-division status, 90 credits or more at a four-year institution, may not be admitted.

Transfer students who do not have a completed application on file by the deadline, including all required documentation, transcripts, etc., will not be considered for admission and must apply for a subsequent term.

Music

Admission

Admission to any curricula in the School of Music includes an audition and acceptance in a performance area. A minimum 2.0 GPA is required, except in music education where a 2.5 GPA is required. Prospective majors should contact the school's director of admission as early as possible.

School Requirements

For admission to the professional level of study, all music majors must complete:

- Musicianship Assessment Jury, taken at the end of the theory sequence (usually at completion of 60 credits)
- Secondary Piano Levels I to IV with minimum grades of C or successful completion of the secondary piano proficiency exam
- The Preprofessional Performance Jury (taken the last semester of MV_ 2XXX)
- Ensemble semesters as required by the student's degree track
- Four semesters of Recital Attendance (MUS 1010) with grades of S

A comprehensive musicianship jury will take place at the end of each semester of theory. The final comprehensive musicianship exam will be taken at this jury after four semester of theory. All students must pass this exam whether theory courses are completed at UF or are transferred from another institution. Transfer students must successfully complete at UF, with minimum grades of C, any remedial coursework assigned by the School of Music before taking the final comprehensive musicianship exam.

Students who exhibit excellent potential as music majors but who are not adequately prepared to enter the theory sequence as required by the degree track, may be granted provisional status. Students with provisional status are placed in MUT 1001. After successfully completing MUT 1001, provisional students are eligible for classification as preprofessional music majors.

Transfer students, with or without A.A. degrees, who have satisfactorily completed the required four semesters of music theory sequence and four semesters of lower-division performance study, and four semesters of piano skills, must **successfully** pass a comprehensive musicianship exam during auditions to the School of Music to be considered a junior. Those students who have not met the above requirements must take a **comprehensive musicianship exam for placement within the theory program and must then successfully pass a comprehensive musicianship exam upon completion of the theory coursework assigned for remediation.**

Music majors must earn a minimum grade of C in each required music course, both to fulfill degree requirements and to advance to the next level. All music students must stand for a performance examination each term they are enrolled in performance study. No course can be repeated more than once, except for ensembles, performance courses and project courses. Consult the school's undergraduate student handbook for specific requirements.

General Education Requirements

- Students can fulfill three credits of the mathematics requirements by taking PHI 2100 or computer sciences courses.
- All music majors will take in humanities:

Code	Title	Credits
MUH 3211	Music History Survey 1	3
MUH 3212	Music History Survey 2	3
MUH 3213	Music History Survey 3	3
Select one of the following:		3
MUH 2501	Introduction to World Musics	
MUH 3530	Popular and Traditional Musics of Africa	3
MUH 3541	Latin American Music	

- Students in the Bachelor of Music in music education program must fulfill six of the 9-credit social/behavioral sciences requirement by taking EDF 2085 and PSY 2012.
- In the School of Music, the following required courses are classified as international courses: MUH 3211 and MUH 3212.
- A student should take a minimum of three credits in biological or physical science while completing the 9-credit physical/biological science requirement. Music education majors cannot vary credits in general education, but must complete them according to state mandates.

Speech and Reading Requirements / Education Requirements: The speech requirement for music education is met through MUE 3311 and MUE 3330; the reading requirement is met through RED 3312. The introductory education and technology courses required by the College of Education are MUE 2040 and MUS 1360.

Theatre

Admission

Admission to the Department of Theatre and Dance is selective. Before admission to the B.F.A. program, students must audition successfully for the acting or music theatre major, or present a portfolio for the production major in scene, costume or lighting design. A résumé also is required. Video audition tapes will be considered.

Performance audition or design portfolio review ratings can establish the student's placement level in studio course sequences. Students must consult the department advisor for admission audition/portfolio requirements and deadlines.

Students seeking admission to the B.A. programs must schedule an admission interview with the theatre advisor before starting the preprofessional courses.

Satisfactory Progress

Students must receive minimum grades of C in all courses in the major and stand for periodic academic and artistic reviews. All majors are guaranteed participation in the production program through the production and performance laboratory course and are expected to attend scheduled departmentals.

Art | BFA

School of Art and Art History's comprehensive curriculum provides instruction in studio art, design, art history, art education and museum studies (graduate students only). It also prepares students for advanced study or employment in art-related fields as diverse as museum operations, advertising, information graphics and production, and management in the arts.

About this Program

- **College:** Arts (p. 1030)
- **School:** School of Art and Art History
- **Degree:** Bachelor of Fine Arts
- **Specializations:** Art and Technology (p. 1038) | Ceramics (p. 1042) | Creative Photography (p. 1046) | Drawing (p. 1051) | Painting (p. 1055) | Printmaking (p. 1059) | Sculpture (p. 1063)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Art Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The school's size, diverse programs and degree offerings, as well as facilities result in a fully configured art school within the largest university in the Southeast. The school, with the other units of the College of the Arts and the Harn Museum of Art, shares the mission of serving as an educational, professional and cultural resource in the visual arts for the campus, community, state and region.

All coursework required for the major must be completed with minimum grades of C.

Related Art Programs

- Bachelor of Arts in Art Education (http://catalog.ufl.edu/UGRD/colleges-schools/UGART/ARE_BAED)
- Bachelor of Arts in History of Art (p. 1068)
- Bachelor of Arts in Visual Art Studies (p. 1180)
- Art History minor (p. 1072)
- Studio Art minor (p. 1151)
- Art Education certificate (p. 1067)
- Arts in Medicine certificate (p. 1073)
- Ceramics certificate (p. 1073)
- Graphic Design certificate (p. 1093)

Academic Learning Compact

The Bachelor of Fine Arts in art studio enables students to achieve proficiency in the principles and practices utilized by professional artists and affiliated industries. Through the study of art theory, art history and historic and contemporary art, students gain knowledge of art genres and systems of thought. Emphasis is on development of the concepts and skills related to art studio and the development of a personal artistic idiom. Students will learn to use research practices effectively and to discuss the development of their work in speech and in writing.

Before Graduating Students Must

- Pass a particular test, a final project, a term paper and/or a portfolio, as determined by specialization.
- Pass a senior-level capstone course that includes an exhibition of the student's work (portfolio). The portfolio will be evaluated by appropriate faculty prior to graduation.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Understand the principals and elements of artistic practice in the area of study.
2. Produce artworks choosing and employing media and techniques appropriate within the area of study.

Critical Thinking

3. Develop sound research methods and production practices to create a focused body of work.
4. Manage a studio practice that demonstrates complex thought, analysis and reasoning.

Communication

5. Create a professional portfolio.
6. Describe art research and practice in writing.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500702&track=01) may be used for transfer students.

Semester 1

- Complete ART 1803C for 6 credits or six credits of any ART/PGY/GRA course at the 2000 level with minimum grades of C
- 2.0 UF GPA required

Semester 2

- Complete 2 of 5 critical-tracking courses with minimum grades of C: ARH 2050, ARH 2051, ART 2305C, DIG 2131C, DIG 2282C
- 2.5 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.75 UF GPA required

Semester 4

- Complete remaining critical-tracking courses with minimum grades of C
- 3.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
ART 1803C	Workshop for Art Research and Practice: WARP (**Critical Tracking**)	6
DIG 1000C	Workshop in Fundamental Digital Technologies	3
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
State Core Gen Ed Composition (p. 23); Writing Requirement		3
	Credits	15
Semester Two

Academic Learning Compact

The Bachelor of Fine Arts in art studio enables students to achieve proficiency in the principles and practices utilized by professional artists and affiliated industries. Through the study of art theory, art history and historic and contemporary art, students gain knowledge of art genres and systems

of thought. Emphasis is on development of the concepts and skills related to art studio and the development of a personal artistic idiom. Students will learn to use research practices effectively and to discuss the development of their work in speech and in writing.

Before Graduating Students Must

- Pass a particular test, a final project, a term paper and/or a portfolio, as determined by specialization.
- Pass a senior-level capstone course that includes an exhibition of the student's work (portfolio). The portfolio will be evaluated by appropriate faculty prior to graduation.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Understand the principals and elements of artistic practice in the area of study.
2. Produce artworks choosing and employing media and techniques appropriate within the area of study.

Critical Thinking

3. Develop sound research methods and production practices to create a focused body of work.
4. Manage a studio practice that demonstrates complex thought, analysis and reasoning.

Communication

5. Create a professional portfolio.
6. Describe art research and practice in writing.

Art | Creative Photography

School of Art and Art History's comprehensive curriculum provides instruction in studio art, design, art history, art education and museum studies (graduate students only). It also prepares students for advanced study or employment in art-related fields as diverse as museum operations, advertising, information graphics and production, and management in the arts.

About this Program

- **College:** Arts (p. 1030)
- **School:** School of Art and Art History
- **Degree:** Bachelor of Fine Arts
- **Specializations:** Art and Technology (p. 1038) | Ceramics (p. 1042) | Creative Photography (p. 1046) | Drawing (p. 1051) | Painting (p. 1055) | Printmaking (p. 1059) | Sculpture (p. 1063)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Art Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The school's size, diverse programs and degree offerings, as well as facilities result in a fully configured art school within the largest university in the Southeast. The school, with the other units of the College of the Arts and the Harn Museum of Art, shares the mission of serving as an educational, professional and cultural resource in the visual arts for the campus, community, state and region.

All coursework required for the major must be completed with minimum grades of C.

Related Art Programs

- Bachelor of Arts in Art Education (http://catalog.ufl.edu/UGRD/colleges-schools/UGART/ARE_BAED)
- Bachelor of Arts in History of Art (p. 1068)
- Bachelor of Arts in Visual Art Studies (p. 1180)
- Art History minor (p. 1072)
- Studio Art minor (p. 1151)
- Art Education certificate (p. 1067)
- Arts in Medicine certificate (p. 1073)
- Ceramics certificate (p. 1073)
- Graphic Design certificate (p. 1093)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500702&track=01) may be used for transfer students.

Semester 1

- Complete ART 1803C for 6 credits or six credits of any ART/PGY/GRA course at the 2000 level with minimum grades of C
- 2.0 UF GPA required

Semester 2

- Complete 2 of 6 critical-tracking courses with minimum grades of C: ARH 2050, ARH 2051, ART 2305C, PGY 2101C, PGY 2441C, PGY 2442C
- 2.5 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C
- 2.75 UF GPA required

Semester 4

- Complete remaining critical-tracking courses with minimum grades of C
- 3.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

Students also must complete a 2-D, a 3-D and a 4-D course as part of their 2000-level studio requirements. A portfolio review will be required of students before admission into junior-level studio courses.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Art | Painting

School of Art and Art History's comprehensive curriculum provides instruction in studio art, design, art history, art education and museum studies (graduate students only). It also prepares students for advanced study or employment in art-related fields as diverse as museum operations, advertising, information graphics and production, and management in the arts.

About this Program

- **College:** Arts (p. 1030)
- **School:** School of Art and Art History
- **Degree:** Bachelor of Fine Arts
- **Specializations:** Art and Technology (p. 1038) | Ceramics (p. 1042) | Creative Photography (p. 1046) | Drawing (p. 1051) | Painting (p. 1055) | Printmaking (p. 1059) | Sculpture (p. 1063)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Art Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The school's size, diverse programs and degree offerings, as well as facilities result in a fully configured art school within the largest university in the Southeast. The school, with the other units of the College of the Arts and the Harn Museum of Art, shares the mission of serving as an educational, professional and cultural resource in the visual arts for the campus, community, state and region.

All coursework required for the major must be completed with minimum grades of C.

Related Art Programs

- Bachelor of Arts in Art Education (http://catalog.ufl.edu/UGRD/colleges-schools/UGART/ARE_BAED)
- Bachelor of Arts in History of Art (p. 1068)
- Bachelor of Arts in Visual Art Studies (p. 1180)
- Art History minor (p. 1072)
- Studio Art minor (p. 1151)
- Art Education certificate (p. 1067)
- Arts in Medicine certificate (p. 1073)
- Ceramics certificate (p. 1073)
- Graphic Design certificate (p. 1093)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500702&track=01) may be used for transfer students.

Semester 1

- Complete ART 1803C for 6 credits or six credits of any ART/PGY/GRA course at the 2000 level with minimum grades of C
- 2.0 UF GPA required

Semester 2

- Complete 2 of 6 critical-tracking courses with minimum grades of C: ARH 2050, ARH 2051, ART 2305C, ART 2500C, ART 2501C, ART 2503C
- 2.5 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.75 UF GPA required

Semester 4

- Complete remaining critical-tracking courses with minimum grades of C
- 3.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
ART 1803C	Workshop for Art Research and Practice: WARP (**Critical Tracking**)	6
DIG 1000C	Workshop in Fundamental Digital Technologies	3
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
State Core Gen Ed Composition (p. 23); Writing Requirement		3
	Credits	15
Semester Two		
ARH 2050	Introduction to the Principles and History of Art 1 (**Critical Tracking**; Gen Ed Humanities and International)	3
ART 2305C	Perceptual Drawing (**Critical Tracking**)	3
ART 2500C	Painting: Investigations in Black and White (**Critical Tracking**)	3
ART 2757C or ART 2701C	Ceramics: 3D Concepts or Sculpture: Shaping Form and Space	3
Gen Ed Composition		3
	Credits	15
Semester Three		
ARH 2051	Introduction to the Principles and History of Art 2 (**Critical Tracking**; Gen Ed Humanities and International)	3
ART 2501C	Painting: Investigations in Color (**Critical Tracking**)	3
PGY 2101C	Visual Literacy: Photography (Gen Ed Humanities)	3
State Core Gen Ed Mathematics (p. 23)		3
Studio elective (ART/GRA/PGY prefix at 2000 level)		3
	Credits	15
Semester Four		
ART 2503C	Painting from Observation (**Critical Tracking**)	3
DIG 2131C or DIG 2282C	Digital Imaging or Time-based Media	3
State Core Gen Ed Biological or Physical Sciences (p. 23)		3
Gen Ed Mathematics, pure math		3
Studio elective (ART/GRA/PGY prefix at 2000 level)		3
	Credits	15
Semester Five		
ART 3560C	Figure Painting	3
ART 3561C	Projects in Painting: Experiments in Media	3
State Core Gen Ed Social and Behavioral Sciences (p. 23)		3
Art history elective (ARH prefix at 3000/4000 level)		3
Approved elective (3000/4000 level)		3
	Credits	15

Semester Six		
ART 3504C	Painting: Structure and Transformation	3
ART 3522C	Painting: Exploring the Series	3
State Core Gen Ed Biological or Physical Sciences (p. 23)		3
Art history elective (ARH prefix at 3000/4000 level)		3
Studio elective (ART/DIG/GRA/PGY prefix at 3000/4000 level)		3
	Credits	15
Semester Seven		
ART 4505C	Advanced Painting	6
Gen Ed Social and Behavioral Sciences		3
Studio elective (ART/DIG/GRA/PGY prefix at 3000/4000 level)		3
Elective		3
	Credits	15
Semester Eight		
ART 4505C	Advanced Painting (repeat)	6
ART 4955C	Senior Project	1
State Core Gen Ed Humanities (p. 23)		3
Studio elective (ART/DIG/GRA/PGY prefix at 3000/4000 level)		3
Elective		2
	Credits	15
	Total Credits	120

Academic Learning Compact

The Bachelor of Fine Arts in art studio enables students to achieve proficiency in the principles and practices utilized by professional artists and affiliated industries. Through the study of art theory, art history and historic and contemporary art, students gain knowledge of art genres and systems of thought. Emphasis is on development of the concepts and skills related to art studio and the development of a personal artistic idiom. Students will learn to use research practices effectively and to discuss the development of their work in speech and in writing.

Before Graduating Students Must

- Pass a particular test, a final project, a term paper and/or a portfolio, as determined by specialization.
- Pass a senior-level capstone course that includes an exhibition of the student's work (portfolio). The portfolio will be evaluated by appropriate faculty prior to graduation.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Understand the principals and elements of artistic practice in the area of study.
2. Produce artworks choosing and employing media and techniques appropriate within the area of study.

Critical Thinking

3. Develop sound research methods and production practices to create a focused body of work.
4. Manage a studio practice that demonstrates complex thought, analysis and reasoning.

Communication

5. Create a professional portfolio.
6. Describe art research and practice in writing.

- **Specializations:** Art and Technology (p. 1038) | Ceramics (p. 1042) | Creative Photography (p. 1046) | Drawing (p. 1051) | Painting (p. 1055) | Printmaking (p. 1059) | Sculpture (p. 1063)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Art Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The school's size, diverse programs and degree offerings, as well as facilities result in a fully configured art school within the largest university in the Southeast. The school, with the other units of the College of the Arts and the Harn Museum of Art, shares the mission of serving as an educational, professional and cultural resource in the visual arts for the campus, community, state and region.

All coursework required for the major must be completed with minimum grades of C.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500702&track=01) may be used for transfer students.

Semester 1

- Complete ART 1803C for 6 credits or six credits of any ART/PGY/GRA course at the 2000 level with minimum grades of C
- 2.0 UF GPA required

Semester 2

- Complete 2 of 5 critical-tracking courses with minimum grades of C: ARH 2050, ARH 2051, ART 2305C, ART 2701C, ART 2702C
- 2.5 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.75 UF GPA required

Semester 4

- Complete remaining critical-tracking courses with minimum grades of C
- 3.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
ART 1803C	Workshop for Art Research and Practice: WARP (**Critical Tracking**)	6
DIG 1000C	Workshop in Fundamental Digital Technologies	3
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
State Core Gen Ed Composition (p. 23); Writing Requirement		3

Academic Learning Compact

The Bachelor of Fine Arts in art studio enables students to achieve proficiency in the principles and practices utilized by professional artists and affiliated industries. Through the study of art theory, art history and historic and contemporary art, students gain knowledge of art genres and systems of thought. Emphasis is on development of the concepts and skills related to art studio and the development of a personal artistic idiom. Students will learn to use research practices effectively and to discuss the development of their work in speech and in writing.

Before Graduating Students Must

- Pass a particular test, a final project, a term paper and/or a portfolio, as determined by specialization.
- Pass a senior-level capstone course that includes an exhibition of the student's work (portfolio). The portfolio will be evaluated by appropriate faculty prior to graduation.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Understand the principals and elements of artistic practice in the area of study.
2. Produce artworks choosing and employing media and techniques appropriate within the area of study.

Critical Thinking

3. Develop sound research methods and production practices to create a focused body of work.
4. Manage a studio practice that demonstrates complex thought, analysis and reasoning.

Communication

5. Create a professional portfolio.
6. Describe art research and practice in writing.

Art Education Certificate

This certificate meets the needs of students who wish to teach art in Florida's public schools. The certificate's curriculum covers the special subject knowledge and pedagogical skills associated with teaching art, and prepares candidates for licensure as PreK-12 art teachers in Florida public schools.

About this Program

- **Colleges:** Arts (p. 1030) and Education (p. 341)
- **Credits:** 21 | Completed with minimum grades of B

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

This certificate provides the skills and competencies required for effectively teaching art in Florida's PreK-12 public schools, as identified by the State of Florida's Six Florida Educator Accomplished Practices (or FEAPS). The School of Art and Art History in cooperation with the College of Education oversees this program.

Students must demonstrate a basic level of competency in a studio area or design, as verified by an acceptable portfolio. It is strongly recommended that students have coursework in one or more of the following areas: ceramics, drawing, painting, sculpture, printmaking, photography, art and technology, graphic design, or art history. This certificate is best suited for students enrolled in a Bachelor of Arts or Bachelor of Fine Arts degree program in the visual arts, design, or art history.

Interested students must meet with the School of Art and Art History undergraduate advisor for more information, course planning, and to obtain provisional approval prior to enrolling in certificate coursework.

To qualify for admission to the certificate program, a student must complete the following:

- Submit an acceptable portfolio of ten digital images of personal works of art and an academic writing sample.
- Pass a background check and meet state fingerprint requirements.

- Submit passing scores on the General Knowledge Test of the Florida Teacher Certification Exam (FTCE).
- Apply and be admitted to the certificate program following the processes and procedures of the University, the academic unit offering the Certificate, and the College dean or designee.
- Purchase a Livetext™ account via the College of Education for documentation of the six FEAPS and tasks, and official observation evaluations by the Field and University supervisors.
- Complete ARE 2045 or EDF 1005 with grade of B or better.

Course Requirements

Students must earn grades of B or better in all required courses. Additionally, 2000-level coursework should be taken before 3000-level coursework. Exceptions may be made with advisor approval.

Prerequisite

Complete the following course before making formal application to the certificate program. It's recommended this course be taken before end of the sophomore year.

Code	Title	Credits
ARE 2045	Introduction to Teaching Art	3
or EDF 1005	Introduction to Education	

Required Courses

Complete after approval of formal application to the certificate program. It's recommended these courses be taken in the junior and senior years.

Code	Title	Credits
ARE 4242	Teaching Art: the Study of Practice	3
ARE 4243	Principles of Teaching Art	3
ARE 4934C	Student Teaching Seminar	1
ARE 4940	Student Teaching in Art Education	8
TSL 4324	ESOL Strategies for Content Area Teachers (College of Education)	3

To complete this certificate program, students must also achieve these non-course requirements:

- Successful completion of ARE 4940 as evidenced by overall ratings of "accomplished" or "exceptional on each of the six FEAP categories indicated on the Intern Evaluation form.
- Satisfactory review of a teaching portfolio conducted by art education faculty and an external professional art educator at the culmination of the internship practicum.
- Passing scores on the Art Subject Area Examination (SAE) ART K-12 and the Professional Education examination (PED) portions of the Florida Teacher Certification Exam (FTCE).

Art History

The art history program introduces students to global culture through the lens of art and architecture. Art history embraces an interdisciplinary approach that draws on history, archaeology, anthropology, religion, literature, and other allied disciplines to understand and interpret visual culture. The curriculum cultivates skills in critical analysis, research, oral and written communication, and visual literacy that prepare students for careers and graduate/professional schools in diverse fields in and outside the arts. We are able to offer face-to-face instruction by permanent faculty who are actively engaged in international research.

About this Program

- **College:** Arts (p. 1030)
- **Degree:** Bachelor of Arts in History of Art
- **Credits for Degree:** 120
- **Additional Information**
- **Related Art Programs**

To graduate with this major, students must complete all university, college, and major requirements.

All coursework required for the major must be completed with minimum grades of C.

Students pursuing the BA in Art History take 14 courses (42 credits) in the School of Art + Art History:

Code	Title	Credits
ARH 2050	Introduction to the Principles and History of Art 1	3
ARH 2051	Introduction to the Principles and History of Art 2	3
Any 1000 or 2000 level ART course for majors or non-majors		3
Select one:		3
2000-level ARH survey course that focuses on the art of Africa, Asia, and/or Latin America and/or on the art of Native Americans, Aboriginal Australians, and/or Pacific Islanders		
ARH 2500	Non-Western Art	
Any 3000 or 4000-level ARH courses		21
Any 3000 or 4000-level ARH or ART courses		6
ARH 4931	Art History Seminar	3
Total Credits		42

ARH 3000/4000 Electives Distribution Requirements

The ARH courses at the 3000 /4000 level must be distributed chronologically:

- at least 3 credits, Art before 1300
- at least 3 credits, Art from 1300 to 1750
- at least 3 credits, Art after 1750

If a course applies to two chronological categories; a student may use it to fulfill the requirement for only one chronological category.

The ARH courses at the 3000/4000 level must also be distributed in the following ways:

- at least 3 credits, Art of the ancient Mediterranean basin and/or ancient Near East and/or the art of Europe and/or the United States
- at least 3 credits, Art of Africa, Asia, and/or Latin America and/or the art of Native Americans, Aboriginal Australians, and/or Pacific Islanders

If a course applies to both of these categories; a student can use it to fulfill the requirement for only one category.

Beyond the required courses in the SA+AH, students must take 5 of their electives (15 credits) at the 3000/4000 level in any discipline.

Majors also need to demonstrate college-level foreign language proficiency. Foreign language skills prepare students for art historical research and greater international engagement. You may already be proficient in a foreign language or you may need additional study to demonstrate proficiency. The art history program requires the same level of proficiency as the majors in the College of Liberal Arts and Sciences. See CLAS Foreign Language Requirement for ways to demonstrate proficiency by exam, college-level credit from another institution, or taking coursework at UF.

Students planning to attend graduate school in art history should develop foreign language skills beyond the minimum requirement. Advanced art historical research requires reading complex primary and secondary sources in multiple foreign languages. The faculty will gladly advise students on foreign language study.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500703&track=01) may be used for transfer students.

Semester 1

- Complete 2 of 5 critical-tracking courses with minimum grades of C: ARH 2050, ARH 2051, ARH 2500 or any 2000 level ARH survey course that focuses on the art of Africa, Asia, and/or Latin America and/or on the art of Native Americans, Aboriginal Australians, and/or Pacific Islanders, one ART at 1000/2000 level, beginning sequence of a foreign language that can be used for art historical research
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses with minimum grades of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.75 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking courses with minimum grades of C
- 3.0 GPA required for all critical-tracking courses
- 2.0 UF GPA

Semester 5

- Complete all additional critical-tracking courses with minimum grades of C
- 3.0 GPA on all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Bachelor of Arts in art history enables students to achieve proficiency in historical theory and criticism of art, to communicate independent, critical perspectives and to employ research methodology effectively. Through study of literature, social forces, ideology, cultural history and visual representation students will develop knowledge of the ancient, medieval, Renaissance/Baroque and modern world arts. Students will also develop the ability to construct arguments and engage in advanced thought and analysis, in speech and in writing.

Before Graduating Students Must

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and interpret works of art and other materials about art's cultural and historical context.

Critical Thinking

2. Examine and assess an art historical topic by applying appropriate research practices.
3. Examine and assess scholarly literature, including scholarly methodology.

Communication

4. Formulate oral analysis of works of art in their historical or cultural context.
5. Produce written analysis of works of art in their historical or cultural context.

Visual Arts in Medicine Certificate

The certificate focuses on the use of the visual arts to enhance individual and community health and healthcare environments. Students will learn theory and practice in the field of arts in health and will develop skills for applying the visual arts to health and wellbeing in healthcare and community settings.

About this Program

- **College**: Arts (p. 1030)
- **Credits**: 13
- **Contact**: Email (fcarytsas@arts.ufl.edu)
- **Additional Information** (http://www.arts.ufl.edu/CAHRE)
- **Related Arts in Medicine Programs**

The Center for Arts in Medicine's certificate in visual arts in medicine is open to all students and accepts applications November 1 through April 30.

Application Procedures

Students interested in obtaining this certificate should apply to the program (http://www.admissions.ufl.edu/start.html) by their junior year. Students from any major may apply to the program, but must complete at least 50% of certificate requirements after they have been accepted into the program.

The application process includes:

- Completion of the online application (http://www.admissions.ufl.edu/apply/more) (students should email (fcarytsas@arts.ufl.edu) when they submit the application)
- Submission of a one-page personal statement and two letters of recommendation to the undergraduate certificate advisor
- An interview with the advisor and/or Center for Arts in Medicine director

Requirements

To qualify for the certificate, students must attain a 3.0 average in all courses included in the certificate curriculum within six months of graduation.

Required Courses

Ceramics Certificate

The School of Art and Art History (SAAH) certificate program enables students with a major outside of the visual arts to take a series of classes within the studio arts where clay is used as the art material. Classes expose students to art-making practices within the field of ceramics, develop

manual skills in clay forming, increase visual understanding of content in art and enable the student to explore personal decision-making and creative problem-solving in art-making.

About this Program

- **College:** Arts (p. 1030)
- **Credits:** 18-21
- **Contact:**
  - General Information | Email (dmyers@arts.ufl.edu)
  - Contact, Portfolios, and Coursework | Email (nan@ufl.edu)

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

The certificate is awarded by the SAAH to acknowledge a concentration in ceramics within a student's external major and general course of study. Students must maintain a minimum GPA of 3.0 in the certificate program. Students are admitted based on a portfolio review by faculty in the ceramics.

The coursework includes 4-5 sequenced ceramics classes plus a required course in art theory and art fundamentals. Students will leave the program with the ability to throw on the potter's wheel, model, and carve. They also will have developed skills in hand-forming processes and gained knowledge of glaze application techniques and kiln firing methods.

Required Courses

Code	Title	Credits
Select one:		3
ARH 2002	Introduction to Art: the Artistic Experience	
ARH 2050	Introduction to the Principles and History of Art 1	
ARH 2051	Introduction to the Principles and History of Art 2	
ARH 2500	Non-Western Art	
ART 2305C	Perceptual Drawing	6
& ART 2757C	and Ceramics: 3D Concepts	
ART 2704C	Figurative Ceramics	6
& ART 2752C	and Throwing: Skills and Concepts	
Select one to two:		3-6
ART 3764C	Ceramic Sculpture 1	
ART 3768C	Ceramic Sculpture 2 (offered spring only)	
ART 3783C	Ceramic Design	
ART 3784C	Vessel Aesthetic 2 (offered spring only)	
Total Credits		18-21

Dance in Medicine Certificate

The School of Theatre and Dance, in conjunction with the Center for the Arts in Medicine, offers this certificate to recognize special competencies and achievements in the use of movement to enhance health and healing.

About this Program

- **College:** Arts (p. 1030)
- **Credits:** 14
- **Contact:** Email (fcarytsas@arts.ufl.edu)
- **Related Arts in Medicine Programs**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Students who complete the requirements for this certificate leave UF with unique capabilities and experiences. This certificate can serve as a credential for developing complementary career options and can encourage healthcare facilities to expand or to initiate arts programs.

Students should apply by their junior year and contact the center director to schedule an initial meeting to discuss requirements.

Students must attain a 3.0 GPA in the required courses, all of which have prerequisites.

Required Courses

Code	Title	Credits
DAA 2610	Dance Composition 1	2
DAA 2611	Dance Composition 2	2
DAA 3108	Intermediate Modern Dance	2
Select one:		3
DAA 4930	Special Topics in Dance (Introduction to the Arts in Healthcare)	
Arts in Medicine Summer Intensive (non-credit, must earn certificate of completion)		
DAN 3775	Dance in Medicine	2
DAN 4860L	Dance Clinical Practice	3
Total Credits		14

Additional Requirement

- Capstone: 20 clinical hours
  Additionally: interviews, self-evaluation, and faculty evaluation

Dance Minor

The dance minor is designed to bring the student in close contact with classroom expertise in technique, as well as the enriching artistic and production aspects of dance.

About this Program

- **College:** Arts (p. 1030)
- **Credits:** 16-18
- **Related Dance Programs**

Admission to the dance minor requires the completion of Basic Modern Dance at UF with a minimum grade of B. Students then will meet with the dance minor advisor for approval to enter the program and to establish a program of study.

The minor is comprised of a core of 10-11 credits plus 6-7 credits of emphasis as approved by the advisor. At least 12 of these credits must be completed at UF. It normally takes four semesters to complete the minor.

DAA 1000 does not count towards the minor.

Required Courses

Code	Title	Credits
DAA Technique course		2-3
DAA 2104	Basic Modern Dance [1]	2
DAA 2610	Dance Composition 1 (fall only)	2
DAN 2100	Dance Appreciation for the Twenty-first Century	3
DAA 4930	Special Topics in Dance [2]	1
Emphasis Electives		6-7
Total Credits		16-18

[1] Minimum grade of B required.

[2] Showcase Experience. Assignment in dance area.

Dance | Bachelor of Arts

The Bachelor of Arts (B.A.) in dance is designed to educate the student as a generalist in dance studies. In addition to a course of study essential to the field of dance the B.A. provides the student with the flexibility to pursue other areas of study.

About this Program

- **College:** Arts (p. 1030)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Additional Information**
- **Related Dance Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Admission

Admission to the B.A. dance program for incoming freshmen does not require an audition. Transfer students should consult with the department regarding admission requirements.

Satisfactory Progress

Students must receive minimum grades of C in all courses for the major. After completion of the second semester students are evaluated by faculty for permission to continue in the program.

Related Dance Programs

- Bachelor of Fine Arts in Dance (p. 1079)
- Dance minor (p. 1075)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500301&track=02) may be used for transfer students.

Semester 1

- Complete 2 of 7 critical-tracking courses with minimum grades of C: DAA 2104 twice, DAA 2204, two DAA technique dance courses (as placed), DAN 2100, and THE 2000
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses with minimum grades of C
- Complete a successful audition/jury as determined by the dance faculty (only for students who did not complete an audition prior to semester 1)
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
DAA 2104	Basic Modern Dance (**Critical Tracking**)	2

DAN 4959	Senior Project	2
Outside elective credits (3000 level or above; can't be from theatre or dance)		9
	Credits	13-14
	Total Credits	120

Intermediate and advanced-level courses must be approved by the dance advisor and appropriate to the student's technical level.

Academic Learning Compact

The degree program in dance offers two specializations, one leading to a Bachelor of Fine Arts (BFA) and one leading to a Bachelor of Arts (BA).

The Bachelor of Fine Arts in dance provides extensive training and skills in contemporary dance and choreography with four interlocking areas of 21st century dance study: choreography and performance, intercultural dance studies, dance and medicine, and dance theatre. Dance is studied as a major performing art that impacts artistic, cultural, intellectual and social spheres.

The Bachelor of Arts in dance educates the student as a generalist in dance studies. Students follow a course of study essential to the field of dance, including performance, history, theory, literature, design, technology and related disciplines, all while enjoying sufficient flexibility to pursue other areas of study, including a minor or a major in a field other than dance. Successful degree candidates develop independent, interdisciplinary critical thought, and can articulate the power and agency of the arts over time and across cultures and perspectives.

Before Graduating Students Must

- Develop and complete a senior project approved and evaluated by faculty. The BA project would be research oriented; the BFA would be choreographically related.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Develop competency in the terminology, concepts, methodologies and theories of dance studies, and knowledge of varied applications of dance.

Critical Thinking

2. Analyze and fosters dance studies inquiry in correlation with diverse creative, historical, social, cultural perspectives and/or other disciplinary perspectives.

Communication

3. Develop and articulates in writing and/or practice applications of dance studies.

Dance | Bachelor of Fine Arts

The Bachelor of Fine Arts (B.F.A.) in dance is intended for professional careers, allied fields or graduate study. This B.F.A. also is offered at the New World School of the Arts in Miami. In addition, the department offers a minor in dance.

About this Program

- **College:** Arts (p. 1030)
- **Degree:** Bachelor of Fine Arts
- **Credits for Degree:** 124
- **Additional Information**
- **Related Dance Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Admission

Admission is selective and students must audition successfully. Auditions are held twice yearly. Prospective students should check Theatre and Dance for audition dates and information. The audition is in the form of a technique class including ballet, modern and West African dance styles. Video auditions are accepted in cases where attending the live audition presents a particular hardship. Specific requirements for the video audition are also found on the website. Students may consult the school's undergraduate advisor for admissions information.
More Info (http://www.arts.ufl.edu/theatreanddance/default.aspx)

Satisfactory Progress

Students must receive minimum grades of C in all courses for the major and participate in academic and artistic jury reviews. Majors are expected to participate in the production/performance program through such courses as Production and Performance, World Dance, and Intercultural Performance and Ensembles.

Related Dance Programs

Digital Arts and Sciences Minor

The digital arts and sciences (DAS) minor crosses traditional college boundaries between the arts, communications, and engineering. Students will become versed in contemporary issues in social and interactive media, critical thinking and creative design solutions. The DAS minor gives students experience working in collaborative teams on media projects including digital storytelling, animation, and game design including serious and applied games.

About this Program

- **College:** Arts (p. 1030)
- **Credits:** 15 | Completed with minimum grades of C
- **Related Digital Arts and Sciences Programs**

Students can apply for the minor through the academic advisor of the Institute. Applications should consist of a proposed curriculum for the minor, a rationale explaining how the proposed courses create a cohesive program and what the student hopes to gain through taking the chosen courses.

Required Courses

All students must complete DIG 3020. The remaining four courses are proposed by the student and approved by the department. The student's proposal must provide a rationale explaining how the proposed courses create a cohesive program and what the student hopes to gain through taking the chosen courses.

Code	Title	Credits

- Bachelor of Arts in Digital Arts and Sciences (p. 1083)
- Bachelor of Science in Digital Arts and Sciences (p. 1284)

Digital Arts and Sciences | Bachelor of Arts

The interdisciplinary digital arts and sciences (DAS) program crosses college boundaries between arts, communications, and engineering.

About this Program

- **College:** Arts (p. 1030)
- **Degree:** Bachelor of Arts in Digital Arts and Sciences
- **Credits for Degree:** 120
- **Additional Information**
- **Related Digital Arts and Sciences Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The Bachelor of Arts in Digital Arts and Sciences (BADAS) crosses traditional college boundaries between the arts, communications, and engineering. Students will become versed in contemporary issues in social and interactive media, critical thinking and creative design solutions. The DAS graduate

will gain experience working in collaborative teams on media projects including digital storytelling, animation, and game design including serious and applied games.

Department Requirements

In addition to meeting university-level requirements, students seeking admission to this program must submit a portfolio of original student work, demonstrating competency in digital art and computer programming, as well as a personal statement, to the UF Digital Worlds Institute. The content and quality of these submissions, in addition to previous academic GPA, will be significant factors to determine admission into the program.

The personal statement refers to an original document created by the applicant that details interests, motivations and rationale for seeking program admission. The statement should be one to two pages in length and demonstrate a serious intent to pursue the program and the writing ability appropriate for admission as an upper-division student at a major American university.

Portfolio materials refer to a body of original creative or technical work authored, documented and presented in a contemporary digital format. The portfolio will contain examples of the applicant's best original work including digital art and programming completed before seeking admission to the BADAS program.

The portfolio is due by March 15 of the sophomore year for admission into upper-division coursework. Students may not take 3000/4000-level DIG courses without submission of the portfolio.

Students must complete all critical-tracking courses with minimum grades of C in each course and the minimum critical-tracking GPA must be 2.5. Students who do not meet these requirements will be placed on academic probation and required to prepare a probation contract with an advisor. Students normally are given two terms in which to remove their deficit points; however, students who do not satisfy the conditions of the first term of probation may be dismissed from the program.

1. Transfer students who have not taken DIG 3020 or an acceptable substitute should take DIG 3020.
2. Transfer students who have not taken DIG 3313C or an acceptable substitute should take DIG 3313C.
3. Transfer students who have not taken DIG 3525C or an acceptable substitute should take DIG 3525C.
4. Transfer students who have not taken DIG 3526C or an acceptable substitute should take DIG 3526C.

Academic Learning Compact

The B.A. in digital arts and sciences crosses college boundaries between communications, engineering and the arts. Students will become versed in contemporary issues in social and interactive media, critical thinking and creative design solutions. The DAS graduate will gain experience working in collaborative teams on media projects, including serious and applied games, live digital performances and virtual worlds.

Before Graduating Students Must

- Pass assessment of performance on a major design experience, according to department grading rubric.
- Pass assessment in one or more core courses or individual assignments targeted to each SLO.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Apply knowledge of multimedia, human-computer interaction, graphics and simulation to application domains.
2. Conceptualize, design and develop a digital interface involving animation, sound and immersive environments.

Critical Thinking

3. Successfully solve the problems and engage in the systems thinking necessary to develop contemporary interactive digital media.
4. Think critically about contemporary digital media and culture and analyze attendant digital communications practices.

Communication

5. Communicate and collaborate successfully in a team environment comprised of artists, designers and application developers.

Digital Arts and Sciences | Bachelor of Arts

The interdisciplinary digital arts and sciences (DAS) program crosses college boundaries between arts, communications, and engineering.

About this Program

- **College:** Arts (p. 1030)
- **Degree:** Bachelor of Arts in Digital Arts and Sciences
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **Additional Information**
- **Related Digital Arts and Sciences Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The Bachelor of Arts in Digital Arts and Sciences (BADAS) crosses traditional college boundaries between the arts, communications, and engineering. Students will become versed in contemporary issues in social and interactive media, critical thinking and creative design solutions. The DAS graduate will gain experience working in collaborative teams on media projects including digital storytelling, animation, and game design including serious and applied games.

Department Requirements

In addition to meeting university-level requirements, students seeking admission to this program must submit a portfolio of original student work, demonstrating competency in digital art and computer programming, as well as a personal statement, to the UF Digital Worlds Institute. The content and quality of these submissions, in addition to previous academic GPA, will be significant factors to determine admission into the program.

The personal statement refers to an original document created by the applicant that details interests, motivations and rationale for seeking program admission. The statement should be one to two pages in length and demonstrate a serious intent to pursue the program and the writing ability appropriate for admission as an upper-division student at a major American university.

Portfolio materials refer to a body of original creative or technical work authored, documented and presented in a contemporary digital format. The portfolio will contain examples of the applicant's best original work including digital art and programming completed before seeking admission to the BADAS program.

The portfolio is due by March 15 of the sophomore year for admission into upper-division coursework. Students may not take 3000/4000-level DIG courses without submission of the portfolio.

Students must complete all critical-tracking courses with minimum grades of C in each course and the minimum critical-tracking GPA must be 2.5. Students who do not meet these requirements will be placed on academic probation and required to prepare a probation contract with an advisor. Students normally are given two terms in which to remove their deficit points; however, students who do not satisfy the conditions of the first term of probation may be dismissed from the program.

- Digital Arts and Sciences minor (p. 1082)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500102&track=01) may be used for transfer students.

Semester 1

- Complete 2 of 7 critical-tracking courses: ARH 2000; DIG 2121; DIG 2632; DIG 3525C; DIG 3526C; DIG 3873; or MAC 1140 with a minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA

Semester 2

- Complete 2 additional critical-tracking courses with a minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA

Semester 3

- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA

Semester 4

- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA

Semester 5

- Complete remaining critical-tracking courses with minimum grades of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Fine Arts | Interdisciplinary Studies Minor

The interdisciplinary studies in fine arts minor provides maximum flexibility, enabling students outside of the College of the Arts to explore paths of discovery and creativity within the various fine arts disciplines. The minor consists of an approved curriculum of 15 credits taken in at least two of the college's academic units.

About this Program

- **College:** Arts (p. 1030)
- **Credits:** 15 | Completed with minimum grades of C
- **Contact:** Email (jhodges@arts.ufl.edu)
- **Additional Information**

Students can apply for the minor through the academic coordinator of the college. Applications should consist of a proposed curriculum for the minor, a rationale explaining how the proposed courses create a cohesive program and what the student hopes to gain through taking the chosen courses.

Graphic Design

Graphic Design is a professional program for careers in graphic design and related fields. The curriculum includes a series of introductory courses in design, drawing, 2D, 3D, and 4D studio courses, and art history.

About this Program

- **College:** Arts (p. 1030)
- **Degree:** Bachelor of Fine Arts in Graphic Design
- **Credits for Degree:** 120

- **Additional Information**
- **Related Graphic Design Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The degree program in graphic design prepares students for serious professional work in the field. The curriculum emphasizes concept development and application, work with clients and professional development, including the establishment of a working portfolio.

All students must lease, purchase or otherwise obtain a computer system by the junior year. Specific system requirements are available from the school or the graphic design coordinator.

All coursework required for the major must be completed with minimum grades of C.

Related Graphic Design Programs

- Graphic Design certificate (p. 1093)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500409&track=01) may be used for transfer students.

Semester 1

- Complete ART 1803C for 6 credits or a total of 6 credits of any ART or GRA or PGY course at the 2000 level with minimum grades of C
- 2.0 UF GPA required

Semester 2

- Complete 2 of 5 critical-tracking courses with minimum grades of C: ARH 2050, ARH 2051, ART 2305C, GRA 2111C, GRA 2208C
- 2.50 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C
- 2.75 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course with a minimum grade of C
- Students must complete a 2-D, a 3-D and a 4-D 2000-level course as part of their 2000-level studio requirements
- 3.0 UF GPA required

Semester 5

- 3.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Bachelor of Fine Arts in graphic design enables students to achieve proficiency in the principles and practices utilized by professional designers and affiliated industries. Through the study of art theory, art history and historic and contemporary art, students gain knowledge of design genres

and systems of thought. Emphasis is on development of the concepts and skills related to graphic design and the development of a personal artistic idiom. Students will learn to use research practices effectively and to discuss the development of their work in speech and in writing.

Before Graduating Students Must

- Pass a particular test, a final project, a term paper and/or a portfolio, as determined by a particular major.
- Pass a senior-level capstone course that includes a portfolio exhibition of the student's work, evaluated by appropriate faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Design visual form in response to communication problems.
2. Exhibit principles of visual organization/composition, information hierarchy, symbolic representation, typography, aesthetics and the construction of meaningful images.
3. Exhibit appropriate use tools and technology, including their roles in the creation, reproduction and distribution of visual messages.

Critical Thinking

4. Exhibit the ability to describe and respond to the audiences and contexts which communication solutions must address, including recognition of the physical, cognitive, cultural and social human factors that shape design decisions.

Communication

5. Produce solutions to communication problems, including the skills of problem identification, research and information gathering, analysis, generation of alternative solutions, prototyping and evaluation of outcomes.

Graphic Design Certificate

This certificate meets the needs of students who wish to add a graphic and communication design component to their current degree program in order to better understand and use these processes and practices to create effective graphic communication works.

About this Program

- **College:** Arts (p. 1030)
- **Credits:** 15 | Completed with minimum grades of B
- **Related Graphic Design Programs**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

This certificate is available to all undergraduates except those majoring in design and visual communications.

The curriculum guides students toward coursework the graphic design faculty considers essential to gain a better understanding of graphic design thinking, processes, methods, and practices in order to create effective graphic and communication design works. Students who complete this certificate will have a focused skillset sought by many disciplines, industries and professions.

Interested students must meet with the School of Art and Art History undergraduate advisor for more information, course planning, and to apply. Students should obtain provisional approval from the advisor prior to enrolling in certificate coursework. Formal certificate applications should be made after completion of the 2000-level coursework.

- Studio art related majors (art, art education, design and visual communications and visual art studies) have priority access to 2000-level certificate courses. Students must work with the SA+AH advisor to gain access to these courses.
- 12 of the 15 total credits and all 3000-level coursework must be taken at UF.

Students should take certificate courses in the order indicated below, with all 2000-level coursework taken before 3000-level coursework. Exceptions may be made with advisor approval. Please note we generally advise students take no more than one certificate course in any given semester.

Required Courses

Code	Title	Credits
Complete before making formal application to the certificate program [1]		
Select one:		3
ART 2305C	Perceptual Drawing	
2000/3000-level drawing course focusing on sketchbook ideation and/or perception (see advisor for options)		
GRA 2111C	Visual Methods and Processes	3
GRA 2208C	Typography 1: Letterform	3
Complete after approval of formal application to the certificate program [2]		
GRA 3816C	Design Thinking	3
GRA 3138C	Graphic Design Practice	3
Total Credits		15

1 It's recommended these courses be taken before end of the sophomore year.

2 Students should take these courses in their junior and senior years.

Related Graphic Design Programs

- Bachelor of Fine Arts in Graphic Design (p. 1090)

Jazz Studies Minor

The jazz studies minor provides access to commercial music skills that are vital to participating in today's music industry. Courses provide critical musical training in the styles of swing, latin, rock, funk, pop, bebop, etc. They also target a theoretical understanding of jazz harmony, chord symbols, jazz scales and modes, jazz articulations, blues forms, piano voicings, the basics of tune writing, commercial arranging, and techniques for memorizing jazz standards.

About this Program

- **College:** Arts (p. 1030)
- **Credits:** 19 | Completed with grades of B
- **Contact:** Email (mcitim@arts.ufl.edu)

Requirements

- Students must pass the Jazz Theory Proficiency Exam with a minimum grade of B. Students who receive a grade of B- or below will be permitted to study suggested materials and re-take the proficiency exam the following semester. Students will be allowed only one attempt per semester to take and pass the exam.
- A passing grade of B is required for all courses in the minor. If the student does not achieve the minimum grade requirement in every course for the minor within two attempts, they will not be eligible to continue the minor.
- Students may take Jazz Band at any time after completing a successful audition.
- Students should contact the undergraduate advisor before enrolling in coursework.

Required Courses

Code	Title	Credits
MUN 1710	Jazz Bands (2 semesters)	2
MUN 2800	World Music Ensemble	1
MUN 3713	Jazz Bands (2 semesters)	2
MUN 3714	Jazz Chamber Music 1 (keyboard lab fee)	1

MUT 1362	Jazz Fundamentals 2	2
MUT 2641	Jazz Improvisation (proficiency exam required)	2
MUT 4365	Jazz Arranging 1 (keyboard lab fee)	2
MUT 4366	Jazz Arranging 2 (keyboard lab fee)	2
MUT 4663	Advanced Jazz Musicianship (keyboard lab fee) [1]	2
Total Credits		19

[1] May be repeated for credit. Requires Exit Exam with performance of eight standard tunes from memory to count toward the minor.

Music Education

The Bachelor of Music in music education curriculum (B.Mus.Ed.) prepares students to become musicians and music teachers in private life and in the public schools. It is offered in cooperation with the College of Education and includes work in music history, literature, theory, performance, conducting, ensemble, and music education.

About this Program

- **College:** Arts (p. 1030)
- **Degree:** Bachelor of Music in Music Education
- **Specializations:** Choral (p. 1096) | Instrumental (p. 1100)
- **Credits for Degree:** 122 - 125
- **Additional Information**
- **Related Music Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Music education programs are available in choral and instrumental. More than one-half of the students in the School of Music are preparing for careers as music teachers in elementary or secondary schools. In addition, undergraduates interested primarily in performance careers often take advantage of the teacher-preparation curriculum, which fulfills the educational requirements for Florida teaching certification in grades K-12, and in most other states. Programs are accredited by NASM and the Southern Association of Colleges and Schools (SACS).

Related Music Programs

- Bachelor of Arts in Music (p. 1108)

- Music History/Ethnomusicology minor (p. 1104)
- Music Performance minor (p. 1106)
- Music Theory minor (p. 1107)
- Music Performance certificate (p. 1105)

Academic Learning Compact

The Bachelor of Music in music education prepares students to become musicians and music teachers in a K-12 instructional setting. Through studies in conducting, rehearsal planning, teaching techniques, and theory, applied performance, music literature and history and piano, students will be able to structure and apply music for meaningful and effective music class and ensemble instruction.

Before Graduating Students Must

- Pass the General Knowledge Test and the Music (K-12) Subject Area Test of the Florida Teacher Certification Examination.
- Satisfactory faculty evaluation of a student portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Apply pedagogical content knowledge necessary to effectively teach K-12 music classes and ensembles as an entry-level educator.

Critical Thinking

2. Consistently and accurately make instructional decisions using a variety of assessment data.

Communication

3. Communicate, verbally and in writing, regarding music, pedagogy, and other aspects of music learning to diverse educational stakeholders.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=131312&track=01) may be used for transfer students.

Semester 1

- Complete MUE 2470, MUS 2211, MUS 2241, and MVK 1111 with minimum grades of C
- Complete MUN 1000 with a minimum grade of C
- Complete MUS 1010 with a grade of S
- Complete MUT 1001 or (MUT 1111 and MUT 1241L) with minimum grade of C
- Complete 2 credits of MVV 1411 with a minimum grade of C
- 2.5 UF GPA required

Semester 2

- Complete MUN 1000 with a minimum grade of C
- Complete MUS 1010 with a grade of S
- Complete MUE 1090, MUE 2430, MUS 2221, MUS 2231, and MVK 1112 with minimum grades of C
- Complete 2 additional credits of MVV 1411 with a minimum grade of C
- 2.5 UF GPA required

Semester 3

- Complete MUE 2040, MUE 2450, MUT 2116, MUT 2246L, and MVK 2221 with minimum grades of C
- Complete MUN 1000 with a minimum grade of C
- Complete MUS 1010 with a grade of S
- Complete 2 credits of MVV 2421 with a minimum grade of C
- 2.5 UF GPA required

Semester 4

- Complete MUH 3211 with a minimum grade of C
- Complete MUN 1000 with a minimum grade of C
- Complete MUS 1010 with a grade of S
- Complete MUT 2117, MUT 2247L, and MVK 2222 with minimum grades of C
- Complete 2 additional credits of MVV 2421 with a minimum grade of C
- 2000-level Performance Jury
- Comprehensive Musicianship Exam
- 2.5 UF GPA required

Semester 5

- Complete MUE 3311, MUG 4104 and MVV 3431 with minimum grades of C
- 2.5 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
MUE 2470	Percussion Skills (**Critical Tracking**)	1
MUN Ensemble (**Critical Tracking**; 1000 level)		1
MUS 1010	Recital Attendance (**Critical Tracking**)	0

[1] Students who place into MUT 1001 take MUT 1111 and MUT 1241L in the spring, followed by MUT 1112 and MUT 1242L in the summer.

All students are required to pass the Florida Teacher Certification Exam (FTCE) general knowledge test by end of the sophomore year.

For the B.Mus.Ed., students must complete at least 50 major and elective credits at the 3000/4000 levels.

Remaining portions of the FTCE and an online portfolio showing evidence of the Florida Accomplished Practices as prescribed by the Florida Department of Education must be completed prior to student teaching.

Academic Learning Compact

The Bachelor of Music in music education prepares students to become musicians and music teachers in a K-12 instructional setting. Through studies in conducting, rehearsal planning, teaching techniques, and theory, applied performance, music literature and history and piano, students will be able to structure and apply music for meaningful and effective music class and ensemble instruction.

Before Graduating Students Must

- Pass the General Knowledge Test and the Music (K-12) Subject Area Test of the Florida Teacher Certification Examination.
- Satisfactory faculty evaluation of a student portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Apply pedagogical content knowledge necessary to effectively teach K-12 music classes and ensembles as an entry-level educator.

Critical Thinking

2. Consistently and accurately make instructional decisions using a variety of assessment data.

Communication

3. Communicate, verbally and in writing, regarding music, pedagogy, and other aspects of music learning to diverse educational stakeholders.

Music Education | Instrumental

The Bachelor of Music in music education curriculum (B.Mus.Ed.) prepares students to become musicians and music teachers in private life and in the public schools. It is offered in cooperation with the College of Education and includes work in music history, literature, theory, performance, conducting, ensemble, and music education.

About this Program

- **College:** Arts (p. 1030)
- **Degree:** Bachelor of Music in Music Education
- **Specializations:** Choral (p. 1096) | Instrumental (p. 1100)
- **Credits for Degree:** 122 - 125
- **Additional Information**
- **Related Music Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Music education programs are available in choral and instrumental. More than one-half of the students in the School of Music are preparing for careers as music teachers in elementary or secondary schools. In addition, undergraduates interested primarily in performance careers often take advantage of the teacher-preparation curriculum, which fulfills the educational requirements for Florida teaching certification in grades K-12, and in most other states. Programs are accredited by NASM and the Southern Association of Colleges and Schools (SACS).

Related Music Programs

- Bachelor of Music in Music (p. 1131)
- Music History/Ethnomusicology minor (p. 1104)
- Music Performance minor (p. 1106)
- Music Theory minor (p. 1107)
- Music Performance certificate (p. 1105)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=131312&track=01) may be used for transfer students.

Semester 1

- Complete MUE 2440 and MVK 1111 with minimum grades of C
- Complete MUN 1000 with a minimum grade of C
- Complete MUS 1010 with a grade of S
- Complete MUT 1001 or (MUT 1111 and MUT 1241L) with minimum grade of C
- Complete 2 credits of MV_ 141_ Performance Principal with a minimum grade of C
- 2.5 UF GPA required

Semester 2

- Complete MUE 1090, MUE 2430, MUE 2442, and MVK 1112 with minimum grades of C
- Complete MUN 1000 with a minimum grade of C
- Complete MUS 1010 with a grade of S
- Complete (MUT 1111 and MUT 1241L) or (MUT 1112 and MUT 1242L) with minimum grade of C
- Complete 2 additional credits of MV_ 141_ Performance Principal with a minimum grade of C
- 2.5 UF GPA required

Semester 3

- Complete MUE 2040, MUE 2450, MUT 2116, MUT 2246L, and MVK 2221 with minimum grades of C
- Complete MUN 1000 with a minimum grade of C
- Complete MUS 1010 with a grade of S
- Complete 2 credits of MV_ 242_ Performance Principal with a minimum grade of C
- 2.5 UF GPA required

Semester 4

- Complete MUE 2452, MUE 2680, MUT 2117, MUT 2247L, and MVK 2222 with minimum grades of C
- Complete MUN 1000 with a minimum grade of C
- Complete MUH 3211 with a minimum grade of C
- Complete MUS 1010 with a grade of S
- Complete 2 additional credits of MV_ 242_ Performance Principal with a minimum grade of C
- 2000-level Performance Jury
- Comprehensive Musicianship Exam
- 2.5 UF GPA required

Semester 5

- Complete MUE 3311 and MUG 4104 with minimum grades of C
- Complete 2 credits of MVK 343_ Performance Principal with a minimum grade of C
- 2.5 UF GPA required

1 Students who place into MUT 1001 take MUT 1111 and MUT 1241L in the spring, followed by MUT 1112 and MUT 1242L.

2 All instruments except for strings; strings should select 3 credits of applied study on a secondary string instrument.

All students are required to pass the Florida Teacher Certification Exam (FTCE) general knowledge test by end of the sophomore year.

For the B.Mus.Ed., students must complete at least 50 major and elective credits at the 3000/4000 levels.

Remaining portions of the FTCE and an online portfolio showing evidence of the Florida Accomplished Practices as prescribed by the Florida Department of Education must be completed prior to student teaching.

Music education majors must take one semester of Marching Band (wind and percussion).

Academic Learning Compact

The Bachelor of Music in music education prepares students to become musicians and music teachers in a K-12 instructional setting. Through studies in conducting, rehearsal planning, teaching techniques, and theory, applied performance, music literature and history and piano, students will be able to structure and apply music for meaningful and effective music class and ensemble instruction.

Before Graduating Students Must

- Pass the General Knowledge Test and the Music (K-12) Subject Area Test of the Florida Teacher Certification Examination.
- Satisfactory faculty evaluation of a student portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Music History | Ethnomusicology Minor

The music history/ethnomusicology minor does not require an audition, but a background in music is recommended. A theory placement exam is required to determine the appropriate level of theory the student should be taking.

About this Program

- **College:** Arts (p. 1030)
- **Credits:** 18 | Completed with minimum grades of C
- **Contact:** Email (mcitim@arts.ufl.edu)
- **Related Music Programs**

In addition to the required courses, participation in one or more of the School of Music's ensembles is recommended. Only nine credits below the 3000 level will count toward the minor and at least 12 credits of coursework must be completed at UF.

Students should contact the undergraduate advisor before enrolling in coursework.

Required Courses

Code	Title	Credits
Select one: [1]		6
MUT 1121 & MUT 1122	Theory of Music 1 and Theory of Music 2	
MUT 2126 & MUT 2127	Theory of Music 3 and Theory of Music 4

Music in Medicine Certificate

The Center for Arts in Medicine, in conjunction with the School of Music, offers this certificate as an opportunity for students to explore the intersections between music and health and professional opportunities for engaging both disciplines.

About this Program

- **College:** Arts (p. 1030)
- **Credits:** 12
- **Contact:** Email (fcarytsas@arts.ufl.edu)
- **Related Arts in Medicine Programs**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

The certificate recognizes special competency and achievement related to research and practical application of music in healthcare and health-related settings. Students who complete the requirements for the certificate gain unique life experience and capabilities. This certificate, recognizing these special skills, can serve as a credential for developing post-baccalaureate educational pathways and career options.

Students should apply by their junior year and schedule an initial meeting to discuss requirements.

Required Courses

Code	Title	Credits
HUM 2592	Introduction to the Arts in Medicine in a Global Context	3
IDH 3931	Interdisciplinary Junior Honors	3
MUN 1000/3000	Music ensemble	3
HUM 3940L	Arts in Medicine Practicum 1	2
HUM 4594	Music in Medicine Capstone	1
Total Credits		12

Additional Requirements

- 3.0 average in all courses included in the certificate curriculum
- Demonstrate a minimum intermediate level proficiency on their primary instrument, as demonstrated by completion of or enrollment in a 2000 level studio course and an audition.
- Be a current UF student
- 3.0 average in all courses included in the certificate curriculum within 6 months of graduation.

Related Arts in Medicine Programs

- Visual Arts in Medicine certificate (p. 1073)
- Dance in Medicine certificate (p. 1074)

Music Performance Certificate

This certificate provides performance credentials to music majors or minors in non-performance tracks who have made a significant achievement in repertoire, technique, and artistic presentation.

About this Program

- **College:** Arts (p. 1030)
- **Credits:** 26-29
- **Related Music Programs**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

The certificate requires students to take additional private lessons, participate in ensembles and present solo recitals. An audition is required for admission.
More Info (http://www.arts.ufl.edu/music/resources/audition_requirements.asp)

Any changes to the curriculum of the music performance degree automatically pertain to the requirements of the certificate. The certificate is awarded at the discretion of the music faculty to graduating seniors who fulfill the required music performance components of the Bachelor of Music in music performance.

Required Courses

Code	Title	Credits
MUN 1000 Level	Ensemble (1 credit; 4 semesters)	4
MUN 3000 Level	Ensemble (1 credit; 3 semesters)	3

Music Theory Minor

The music theory minor does not require an audition, but a background in music is recommended. A theory placement exam is required to determine the appropriate level of theory.

About this Program

- **College:** Arts (p. 1030)
- **Credits:** 21 | Completed with minimum grades of C
- **Contact:** Email (mcitim@arts.ufl.edu)
- **Related Music Programs**

A minimum of nine credits at the 3000 level or above must count toward the minor and at least 12 credits of coursework must be completed at UF. Students interested in composition can also take MUC 1211 and MUC 1212 to add a composition component to the minor.

Students should contact the undergraduate advisor before enrolling in coursework.

Music | Bachelor of Arts

The B.A. curriculum is for students who want a liberal arts education with an emphasis in music. Students can minor in other subject areas such as English, psychology or history.

About this Program

- **College:** Arts (p. 1030)
- **Degree:** Bachelor of Arts
- **Concentrations:** Entrepreneurship (p. 1113) I Event Management (p. 1117) | Music (p. 1110) | Music History and Literature (p. 1121) | Music History and Literature: Ethnomusicology (p. 1124) | Music Theory and Composition (p. 1128)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Music Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Programs are available in music, music history and literature, music history and literature with emphasis in ethnomusicology, and music theory or composition. Programs are accredited by NASM and the Southern Association of Colleges and Schools (SACS).

Foreign Language

Students must take 10 credits of foreign language or show a minimum proficiency in a single language by taking a placement test. If the proficiency is met, it does not reduce the 120 credits required for the degree. Foreign language courses can be taken S-U or for a letter grade, and the minimum grade is a C. Foreign language credit cannot be obtained through CLEP examinations.

All students pursuing the B.A. must consult a department advisor and get approval before attempting the elective portion of this program.

- Music Performance minor (p. 1106)
- Music Theory minor (p. 1107)
- Music Performance certificate (p. 1105)

Academic Learning Compact

The Bachelor of Arts in music provides a liberal arts education with an emphasis in ethnomusicology, music history and literature, music theory and composition, or performance. Studies in music theory, applied performance, music literature, music history and piano, provide knowledge of the structure and expression of music within the historical context of musical genres. Students will also be able to apply their knowledge through singing or performing a musical instrument and they will be able to apply critical thinking skills when hearing musical sounds.

Before Graduating Students Must

- Satisfactory faculty evaluation of a student portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Perform at a pre-professional level on an instrument or voice.

Critical Thinking

2. Utilize theoretical analysis of music.

Communication

3. Write about music within different historical and cultural contexts.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500901&track=01) may be used for transfer students.

Semester 1

- Complete MUN 1000 with a minimum grade of C (keyboard emphasis must take MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUT 1111 and MUT 1241L with minimum grades of C
- Complete MVK 1111 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 credits of (MV_ 141_) Performance Principal coursework with minimum grade of C
- Voice emphasis only must take MUS 2211 and MUS 2241
- 2.0 UF GPA required

Semester 2

- Complete MUN 1000 with a minimum grade of C (keyboard emphasis must take MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUS 1360 and MUT 1112 and MUT 1242L with minimum grades of C
- Complete MVK 1112 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 additional credits of (MV_ 141_) Performance Principal with minimum grade of C

- Voice emphasis only must take MUS 2221 and MUS 2231
- 2.0 UF GPA required

Semester 3

- Complete MUN 1000 and MUT 2116 and MUT 2246L with minimum grades of C
- Complete MUS 1010 with a grade of S
- Complete MVK 2221 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 credits of (MV_ 242_) Performance Principal with minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete MUN 1000 and MUT 2117 and MUT 2247L with minimum grades of C
- Complete MUS 1010 with a grade of S
- Complete MVK 2222 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 additional credits of (MV_ 242_) Performance Principal with minimum grade of C
- Comprehensive Musicianship Jury
- 2000-level Performance Jury
- 2.0 UF GPA required

Semester 5

- Complete 3 credits of (MV_ 343_) Performance Principal with a minimum grade of C
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500901&track=01) may be used for transfer students.

Semester 1

- Complete MUN 1000 with a minimum grade of C (keyboard emphasis must take MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUT 1111 and MUT 1241L with a minimum grade of C
- Complete MVK 1111 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 credits of (MV_ 141_) Performance Principal coursework with minimum grade of C
- Voice emphasis only must take MUS 2211 and MUS 2241
- 2.0 UF GPA required

Semester 2

- Complete MUN 1000 with a minimum grade of C (keyboard emphasis must take MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUS 1360 and MUT 1112 and MUT 1242L with minimum grades of C
- Complete MVK 1112 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 additional credits of (MV_ 141_) Performance Principal with minimum grade of C
- Voice emphasis only must take MUS 2221 and MUS 2231
- 2.0 UF GPA required

Semester 3

- Complete MUN 1000 and MUT 2116 and MUT 2246L with minimum grades of C
- Complete MUS 1010 with a grade of S
- Complete MVK 2221 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 credits of (MV_ 242_) Performance Principal with minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete MUN 1000 and MUT 2117 and MUT 2247L with minimum grades of C
- Complete MUS 1010 with a grade of S
- Complete MVK 2222 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 additional credits of (MV_ 242_) Performance Principal with minimum grade of C
- Comprehensive Musicianship Jury
- 2000-level Performance Jury
- 2.0 UF GPA required

Semester 5

- Complete 3 credits of (MV_ 343_) Performance Principal with a minimum grade of C
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
IDS 1161	What is the Good Life (Gen Ed Humanities)	3

MUN Ensemble (**Critical Tracking**; 1000 level) [1]		1
MUS 1010	Recital Attendance (**Critical Tracking**)	0
Select one (placement test determines if the student starts in Rudiments or Theory 1/Aural Skills 1):		3

Gen Ed Biological Sciences		3
Elective		3
	Credits	15
	Total Credits	120

1 Keyboard emphasis must take MVK 3702.

2 Students who place into MUT 1001 take MUT1111 Theory 1 and MUT 1241L Aural Skills 1 in the spring, followed by MUT 1112 Theory 2 and MUT 1242L Aural Skills 2 in the summer.

For the B.A. with concentration in music, students must complete at least 35 major and elective credits at the 3000/4000 levels.

Academic Learning Compact

The Bachelor of Arts in music provides a liberal arts education with an emphasis in ethnomusicology, music history and literature, music theory and composition, or performance. Studies in music theory, applied performance, music literature, music history and piano, provide knowledge of the structure and expression of music within the historical context of musical genres. Students will also be able to apply their knowledge through singing or performing a musical instrument and they will be able to apply critical thinking skills when hearing musical sounds.

Before Graduating Students Must

- Satisfactory faculty evaluation of a student portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Perform at a pre-professional level on an instrument or voice.

Critical Thinking

2. Utilize theoretical analysis of music.

Communication

3. Write about music within different historical and cultural contexts.

2000-Level Performance & Comprehensive Musicianship Juries	A

Assessment Types

- Rubric from the pre-professional jury
- Final exams

Music | Music History and Literature

The B.A. curriculum is for students who want a liberal arts education with an emphasis in music. Students can minor in other subject areas such as English, psychology or history.

About this Program

- **College:** Arts (p. 1030)
- **Degree:** Bachelor of Arts
- **Concentrations:** Entrepreneurship (p. 1113) I Event Management (p. 1117) | Music (p. 1110) | Music History and Literature (p. 1121) | Music History and Literature: Ethnomusicology (p. 1124) | Music Theory and Composition (p. 1128)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Music Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Programs are available in music, music history and literature, music history and literature with emphasis in ethnomusicology, and music theory or composition. Programs are accredited by NASM and the Southern Association of Colleges and Schools (SACS).

Foreign Language

Students must take 10 credits of foreign language or show a minimum proficiency in a single language by taking a placement test. If the proficiency is met, it does not reduce the 120 credits required for the degree. Foreign language courses can be taken S-U or for a letter grade, and the minimum grade is a C. Foreign language credit cannot be obtained through CLEP examinations.

All students pursuing the B.A. must consult a department advisor and get approval before attempting the elective portion of this program.

Related Music Programs

- Bachelor of Music in Music (p. 1131)
- Bachelor of Music in Music Education (p. 1095)
- Music History/Ethnomusicology minor (p. 1104)
- Music Performance minor (p. 1106)
- Music Theory minor (p. 1107)
- Music Performance certificate (p. 1105)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500901&track=01) may be used for transfer students.

Semester 1

- Complete MUN 1000 with a minimum grade of C (keyboard emphasis must take MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUT 1111 and MUT 1241L with minimum grades of C
- Complete MVK 1111 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 credits of (MV_ 141_) Performance Principal with minimum grade of C
- 2.0 UF GPA required

Semester 2

- Complete MUN 1000 with a minimum grade of C (keyboard emphasis must take MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUS 1360 and MUT 1112 and MUT 1242L with minimum grades of C
- Complete MVK 1112 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 additional credits of (MV_ 141_) Performance Principal with minimum grade of C
- 2.0 UF GPA required

Semester 3

- Complete MUS 1010 with a grade of S
- Complete MUT 2116 and MUT 2246Lwith minimum grades of C
- Complete MVK 2221 with a minimum grade of C (keyboard emphasis students exempt)
- 2.0 UF GPA required

Semester 4

- Complete MUS 1010 with a grade of S
- Complete MUT 2117 and MUT 2247L with minimum grades of C
- Complete MVK 2222 with a minimum grade of C (keyboard emphasis students exempt)
- Comprehensive Musicianship Jury
- 2.0 UF GPA required

To graduate with this major, students must complete all university, college, and major requirements.

Programs are available in music, music history and literature, music history and literature with emphasis in ethnomusicology, and music theory or composition. Programs are accredited by NASM and the Southern Association of Colleges and Schools (SACS).

Foreign Language

Students must take 10 credits of foreign language or show a minimum proficiency in a single language by taking a placement test. If the proficiency is met, it does not reduce the 120 credits required for the degree. Foreign language courses can be taken S-U or for a letter grade, and the minimum grade is a C. Foreign language credit cannot be obtained through CLEP examinations.

All students pursuing the B.A. must consult a department advisor and get approval before attempting the elective portion of this program.

Related Music Programs

- Bachelor of Music in Music (p. 1131)
- Bachelor of Music in Music Education (p. 1095)
- Music History/Ethnomusicology minor (p. 1104)
- Music Performance minor (p. 1106)
- Music Theory minor (p. 1107)
- Music Performance certificate (p. 1105)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500901&track=01) may be used for transfer students.

Semester 1

- Complete MUN 1000 with a minimum grade of C (keyboard emphasis must take MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUT 1111 and MUT 1241L with minimum grades of C
- Complete MVK 1111 with a minimum grade of C (keyboard emphasis students exempt)
- Complete MUC 1211 with a minimum grade of C (theory majors should take a one-credit MUT elective)

- Complete 2 credits of (MV_ 141_) Performance Principal with a minimum grade of C
- 2.0 UF GPA required

Semester 2

- Complete MUC 1212 with a minimum grade of C (theory majors should take an additional one-credit MUT elective)
- Complete MUN 1000 with a minimum grade of C (keyboard emphasis must take MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUS 1360 and MUT 1112 and MUT 1242L with minimum grades of C
- Complete MVK 1112 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 additional credits of (MV_ 141_) Performance Principal with minimum grade of C
- 2.0 UF GPA required

Semester 3

- Complete MUC 2101 with a minimum grade of C (theory majors should take an additional one-credit MUT elective)
- Complete MUS 1010 with a grade of S
- Complete MUT 2116 and MUT 2246L with minimum grades of C
- Complete MVK 2221 with a minimum grade of C (keyboard emphasis students exempt)
- 2.0 UF GPA required

Semester 4

- Complete MUC 2102 with a minimum grade of C (theory majors should take an additional one-credit MUT elective)
- Complete MUT 2117 and MUT 2247LA with minimum grades of C
- Complete MVK 2222 with a minimum grade of C (keyboard emphasis students exempt)
- Comprehensive Musicianship Jury
- 2.0 UF GPA required

Semester 5

- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
MUC 1211	Composition Skills 1 (**Critical Tracking**) [1]	1
MUN Ensemble (**Critical Tracking**; 1000 level) [2]		1

Semester Eight		
MUS 4905	Projects and Problems in Music	3
Gen Ed Physical Sciences		3
Electives		6
	Credits	12
	Total Credits	119-120

1 Theory majors do not take composition skills and should add four credits of MUT electives.

2 Keyboard emphasis must take MVK 3702.

[3] Students who place into MUT 1001 take MUT1111 Theory 1 and MUT 1241L Aural Skills 1 in the spring, followed by MUT 1112 Theory 2 and MUT 1242L Aural Skills 2 in the summer.

[4] Bachelor of Arts degrees require 2 courses in physical sciences and 2 courses in biological sciences.

For the B.A. with concentration in theory and composition, students must complete at least 35 major and elective credits at the 3000/4000 levels.

Academic Learning Compact

The Bachelor of Arts in music provides a liberal arts education with an emphasis in ethnomusicology, music history and literature, music theory and composition, or performance. Studies in music theory, applied performance, music literature, music history and piano, provide knowledge of the structure and expression of music within the historical context of musical genres. Students will also be able to apply their knowledge through singing or performing a musical instrument and they will be able to apply critical thinking skills when hearing musical sounds.

Before Graduating Students Must

- Satisfactory faculty evaluation of a student portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Perform at a pre-professional level on an instrument or voice.

Critical Thinking

2. Utilize theoretical analysis of music.

Communication

3. Write about music within different historical and cultural contexts.

Music | Bachelor of Music

The Bachelor of Music curriculum is intended for students who plan to enter professional music careers, graduate study in music or private studio teaching.

About this Program

- **College:** Arts (p. 1030)
- **Degree:** Bachelor of Music

- **Credits for Degree:** 120
- **Specializations:** Music in Combination with an Outside Field (p. 1136) | Music Composition (p. 1133) | Performance: Instrumental (p. 1144) | Performance: Vocal (p. 1148) | Music Theory (p. 1140)
- **Additional Information**
- **Related Music Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Music programs are available in music in combination with an outside field, music composition, music theory, music performance: instrumental (brass, keyboard, percussion, strings, winds) and music performance: vocal. Programs are accredited by NASM and the Southern Association of Colleges and Schools (SACS).

Related Music Programs

- Bachelor of Arts in Music (p. 1108)
- Bachelor of Music in Music Education (p. 1095)
- Music History/Ethnomusicology minor (p. 1104)
- Music Performance minor (p. 1106)
- Music Theory minor (p. 1107)
- Music Performance certificate (p. 1105)

Academic Learning Compact

The Bachelor of Music enables students to enter a professional career in music, to teach music privately and to achieve proficiency in a performance area such as composition, instrumental or voice. With study in theory, music literature, music history, piano and applied instruction, students learn the structure and expression of music and the historical context of musical genres. Through applied study, students develop advanced skills and can apply this knowledge through singing, performing on a musical instrument or composing a musical work and they can apply advanced critical thinking skills when hearing musical sounds.

Before Graduating Students Must

- Satisfactory faculty evaluation of a student portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

1 Keyboard emphasis must take MVK 3702.

2 Students who place into MUT 1001 take MUT1111 Theory 1 and MUT 1241L Aural Skills 1 in the spring, followed by MUT 1112 Theory 2 and MUT 1242L Aural Skills 2 in the summer.

3 Students must take 18 of the 27 credits of outside field courses at the 3000/4000 levels and complete them with minimum grades of C.

For the B.Mus. in combination with outside field, students must complete at least 45 major and elective credits at the 3000/4000 levels.

Academic Learning Compact

The Bachelor of Music enables students to enter a professional career in music, to teach music privately and to achieve proficiency in a performance area such as composition, instrumental or voice. With study in theory, music literature, music history, piano and applied instruction, students learn the structure and expression of music and the historical context of musical genres. Through applied study, students develop advanced skills and can apply this knowledge through singing, performing on a musical instrument or composing a musical work and they can apply advanced critical thinking skills when hearing musical sounds.

Before Graduating Students Must

- Satisfactory faculty evaluation of a student portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Perform at a pre-professional level on an instrument or voice.

Critical Thinking

2. Utilize theoretical analysis of music.

Communication

3. Write about music within different historical and cultural contexts.

Music | Music Theory

The Bachelor of Music curriculum is intended for students who plan to enter professional music careers, graduate study in music or private studio teaching.

About this Program

- **College:** Arts (p. 1030)
- **Degree:** Bachelor of Music
- **Credits for Degree:** 120
- **Specializations:** Music in Combination with an Outside Field (p. 1136) | Music Composition (p. 1133) | Performance: Instrumental (p. 1144) | Performance: Vocal (p. 1148) | Music Theory (p. 1140)
- **Additional Information**
- **Related Music Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Music programs are available in music in combination with an outside field, music composition, music theory, music performance: instrumental (brass, keyboard, percussion, strings, winds) and music performance: vocal. Programs are accredited by NASM and the Southern Association of Colleges and Schools (SACS).

Related Music Programs

- Bachelor of Arts in Music (p. 1108)
- Bachelor of Music in Music Education (p. 1095)
- Music History/Ethnomusicology minor (p. 1104)
- Music Performance minor (p. 1106)

- Music Theory minor (p. 1107)
- Music Performance certificate (p. 1105)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500901&track=01) may be used for transfer students.

Semester 1

- Complete MUN 1000 with a minimum grade of C (keyboard emphasis students must complete MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUT 1111 and MUT 1241L with minimum grades of C
- Complete MVK 1111 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 credits of (MV_ 141_) Performance Principal with a minimum grade of C
- Voice emphasis only must complete MUS 2211 and MUS 2241
- 2.0 UF GPA required

Semester 2

- Complete MUN 1000 with a minimum grade of C (keyboard emphasis students must complete MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUS 1360, MUT 1112 and MUT 1242L with minimum grades of C
- Complete MVK 1112 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 additional credits of (MV_ 141_) Performance Principal with minimum grade of C
- Voice emphasis only must complete MUS 2221 and MUS 2231
- 2.0 UF GPA required

Semester 3

- Complete MUC 1211, MUT 2116, MUT 2246L, and MUN 1000 with minimum grades of C
- Complete MUS 1010 with a grade of S
- Complete MVK 2221 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 credits of (MV_ 242_) Performance Principal with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete MUC 1212, MUT 2117, MUT 2247L, and MUN 1000 with minimum grades of C
- Complete MUN 1000 with minimum grade of C
- Complete MUS 1010 with a grade of S
- Complete MVK 2222 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 additional credits of (MV_ 242_) Performance Principal with minimum grade of C
- 2000-level Performance Jury
- Comprehensive Musicianship Jury
- 2.0 UF GPA required

Semester 5

- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
MUC 1211	Composition Skills 1 (**Critical Tracking**)	1
MUN Ensemble (**Critical Tracking**; 1000 level) [1]		1
MUS 1010	Recital Attendance (**Critical Tracking**)	0

State Core Gen Ed Humanities (p. 23)		3
Gen Ed Social and Behavioral Sciences		3
	Credits	14
Semester Eight		
Select one:		3
MUH 2501	Introduction to World Musics (Gen Ed Humanities and International)	
MUH 3530	Popular and Traditional Musics of Africa	
MUH 3541	Latin American Music (Gen Ed Humanities and International)	
MUN choral ensemble (3000 level)		1
MVV 4441	Voice	3
MVV 4640	Vocal Pedagogy	3
MV_ 4971	Senior Recital	1
Elective		1
	Credits	12
	Total Credits	119-120

1 Keyboard emphasis must take MVK 3702.

2 Students who place into MUT 1001 take MUT1111 Theory 1 and MUT 1241L Aural Skills 1 in the spring, followed by MUT 1112 Theory 2 and MUT 1242L Aural Skills 2 in the summer.

For the B.Mus. in music performance: vocal, students must complete at least 41 major and elective credits at the 3000/4000 levels.

Academic Learning Compact

The Bachelor of Music enables students to enter a professional career in music, to teach music privately and to achieve proficiency in a performance area such as composition, instrumental or voice. With study in theory, music literature, music history, piano and applied instruction, students learn

the structure and expression of music and the historical context of musical genres. Through applied study, students develop advanced skills and can apply this knowledge through singing, performing on a musical instrument or composing a musical work and they can apply advanced critical thinking skills when hearing musical sounds.

Before Graduating Students Must

- Satisfactory faculty evaluation of a student portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Perform at a pre-professional level on an instrument or voice.

Critical Thinking

2. Utilize theoretical analysis of music.

Communication

3. Write about music within different historical and cultural contexts.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3
MV_ 141_	I		
MV_ 242_	R		
MUH 3211			I
MUH 3212			R

MUH 3213			A
2000-Level Performance & Comprehensive Musicianship Juries	A		

Assessment Types

- Rubric from the pre-professional jury.
- Final exams.

Art Minor

The art minor provides the opportunity to combine creative and artistic practice with other academic pursuits. Students seeking this minor are not necessarily pursuing careers as practicing professional artists; rather, they are looking to enhance their programs of study with an interdisciplinary learning experience that develops their perceptual, creative problem solving and visual communication skills.

About this Program

- **College:** Arts (p. 1030)
- **Credits:** 21 | Completed with minimum grades of C

The curriculum guides students toward coursework that the art faculty considers essential to understanding art making in a material and conceptual sense. Students completing the minor in art will graduate from UF with a more versatile and well-rounded skillset sought by many disciplines, industries and professions.

The minor is available to all UF undergraduates, except those majoring in art, art education, graphic design and visual art studies. Interested students must meet with the School of Art and Art History undergraduate advisor to apply.

- Studio art-related majors (art, art education, and design and visual comunications) have priority access to studio classes. Art minors must work with the SA+AH advisor to gain access to studio courses on a space-available basis.
- Independent studies and internships will not fulfill credits for this minor.
- 15 credits of the 21 total and all 3000/4000-level coursework must be taken at UF.
- Up to six credits of 2000-level coursework may be transferred in from another institution or accelerated mechanism (e.g., AP, IB) or may be taken from UF non-art major studio courses. All transfer credits are subject to SA+AH approval.
- Credit taken toward this minor cannot also be applied to any studio certificate program.

Required Courses

Code	Title	Credits
Complete before application to the minor		
Select one 2000-level art history course, for example:		3
ARH 2002	Introduction to Art: the Artistic Experience	
ARH 2050	Introduction to the Principles and History of Art 1	
ARH 2051	Introduction to the Principles and History of Art 2	
ARH 2500	Non-Western Art	
Art studio course (2000 level) [1]		3
Complete after approval to the minor		
Art studio courses (2000 level) [1]		9
Art studio courses (3000/4000 level) [1, 2]		6
Total Credits		21

1 See advisor for access to studio courses.

2 GRA courses at the 3/4000 level cannot be taken by non-graphic design majors.

Theatre

The Bachelor of Arts in theatre is designed for students who want a liberal arts education with an emphasis in theatre. In addition to a broad liberal arts background, the B.A. provides the creative experiences of studio and performance work. Students are expected not only to master critical thinking about performance through courses such as theatre history, playwriting, and dramaturgy, but also to audition for productions or involve themselves in the creation of theatrical experiences on many levels.

The Bachelor of Arts provides broad career opportunities in several fields and an opportunity to minor in other subject areas. Examples of possible minors are English, business, or communications.

About this Program

- **College:** Arts (p. 1030)
- **Degree:** Bachelor of Arts
- **Specializations:** General (p. 1153) | Stage Management (p. 1157)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Theatre Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The Bachelor of Arts degree program in theatre prepares graduates to pursue additional academic degrees or enter professional theatre, teaching, or allied fields such as communication or public relations. If they choose to pursue advanced degrees, B.A. graduates traditionally enter MA, JD, or PhD programs. Regardless of degree or career expectations, students complete a core of foundation courses in theatre and dance in addition to general education courses required by the College of the Arts, the university, and the state of Florida.

Related Theatre Programs

- Bachelor of Fine Arts in Theatre Performance (p. 1161)
- Bachelor of Fine Arts in Theatre Production (p. 1168)
- Theatre minor (p. 1161)
- Theatre Production minor (p. 1179)

Academic Learning Compact

The Bachelor of Arts in general theatre provides a liberal arts education with an emphasis in theatre that includes creative experiences in studio and performance. Students can combine the degree with a minor in another subject area to enhance their opportunities for graduate work or entry to professional theatre, teaching or allied fields such as communication and public relations.

Before Graduating Students Must

- Satisfactory faculty evaluation of a senior project.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Understands and appreciates the art form and the artistic and the collaborative processes.
2. Understands the structure and content of representative dramatic literature important in history and culture.
3. Understands the creative process and the functions of individual practitioners.
4. Applies the basic skills required in theatre/dance practice.

Critical Thinking

5. Applies valid artistic criteria to drama and theatre.
6. Understands the major trends in the development of theatre arts and dramatic literature through exploration of theatre studies.

Communication

7. Demonstrates effective verbal and written communication in general theatre studies.
8. Demonstrates effective verbal and written proficiency in a foreign language.

Theatre | General

The Bachelor of Arts in theatre is designed for students who want a liberal arts education with an emphasis in theatre. In addition to a broad liberal arts background, the B.A. provides the creative experiences of studio and performance work. Students are expected not only to master critical thinking about performance through courses such as theatre history, playwriting, and dramaturgy, but also to audition for productions or involve themselves in the creation of theatrical experiences on many levels.

The Bachelor of Arts provides broad career opportunities in several fields and an opportunity to minor in other subject areas. Examples of possible minors are English, business, or communications.

About this Program

- **College:** Arts (p. 1030)
- **Degree:** Bachelor of Arts
- **Specializations:** General (p. 1153) | Stage Management (p. 1157)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Theatre Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The Bachelor of Arts degree program in theatre prepares graduates to pursue additional academic degrees or enter professional theatre, teaching, or allied fields such as communication or public relations. If they choose to pursue advanced degrees, BA graduates traditionally enter MA, JD, or PhD programs. Regardless of degree or career expectations, students complete a core of foundation courses in theatre and dance in addition to general education courses required by the College of the Arts, the university, and the state of Florida.

A minimum of 120 semester credits is required to complete the B.A. general theatre degree. An outside elective is any course taken outside of the major. Unless an approved minor is included, 18 credits of electives must be chosen from 3000/4000-level courses outside of the School of Theatre and Dance. Transfer students with A.A. degrees must complete additional courses in the basic distribution, which includes general education requirements. Students must earn minimum grades of C in each of these courses and they may not be taken S-U.

Students must take 10 credits of foreign language or show a minimum proficiency in a single foreign language by taking a placement test. If the proficiency is met, it does not reduce the number of credits required for the degree. Foreign language may be taken S-U or for a letter grade, and the minimum grade is C; no credit is given through CLEP examinations.

All students pursuing the B.A. degree must consult the department advisor and get approval before attempting the elective portion of this program.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500501&track=02) may be used for transfer students.

Semester 1

- Complete 2 of 8 critical-tracking courses with minimum grades of C: DAN 2100, THE 2000, TPA 2202C, TPA 2120C, TPA 2232C, TPP 2110, TPP 3103, TPP 3650
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.0 UF GPA required

Semester 5

- Complete TPP 3103 and TPP 3650 with minimum grades of C
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Bachelor of Arts in general theatre provides a liberal arts education with an emphasis in theatre that includes creative experiences in studio and performance. Students can combine the degree with a minor in another subject area to enhance their opportunities for graduate work or entry to professional theatre, teaching or allied fields such as communication and public relations.

Before Graduating Students Must

- Satisfactory faculty evaluation of a senior project.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Understands and appreciates the art form and the artistic and the collaborative processes.
2. Understands the structure and content of representative dramatic literature important in history and culture.
3. Understands the creative process and the functions of individual practitioners.
4. Applies the basic skills required in theatre/dance practice.

Critical Thinking

1. Applies valid artistic criteria to drama and theatre.
2. Understands the major trends in the development of theatre arts and dramatic literature through exploration of theatre studies.

Communication

1. Demonstrates effective verbal and written communication in general theatre studies.
2. Demonstrates effective verbal and written proficiency in a foreign language.

Theatre Minor

The School of Theatre and Dance offers a minor in general theatre or theatre production.

About this Program

- **College:** Arts (p. 1030)
- **Credits:** 17 | Completed with minimum grades of C and no S-U
- **Related Theatre Programs**

All students who plan to minor in theatre must consult the School of Theatre and Dance's undergraduate advisor to select a program of study.

Of the required credits, eight credits must be at the 3000 level or above and 11 credits must be completed at UF.

Required Courses

Code	Title	Credits
THE 2000	Theatre Appreciation	3
THE 4950	Production and Performance	1
THE 4950	Production and Performance	1
TPP 2100	Acting for Non-Majors	3
Select two:		6
DAN 2100	Dance Appreciation for the Twenty-first Century	
THE 3234	Diversity and Multiculturalism in American Theatre	
THE 4930	Special Topics in Theatre (African-American Theatre)	
TPP 3124	Beginning Improvisation (Strike Force)	
Theatre or dance elective (consult the department advisor)		3
Total Credits		17

Theatre Performance

The B.F.A. in theatre performance is also offered at the New World School of the Arts in Miami.

About this Program

- **College:** Arts (p. 1030)
- **Degree:** Bachelor of Fine Arts
- **Specializations:** Acting (p. 1162) | Musical Theatre (p. 1165)
- **Credits for Degree:** 124
- **Contact:** Email (kaustin@ufl.edu)
- **Additional Information**
- **Related Theatre Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Placement in the BFA Theatre program is determined by audition or portfolio interview. There are two specialization areas in the program: Acting, and Musical Theatre. Students enrolled in Theatre Performance: acting or musical theatre will proceed through studio coursework by demonstrated proficiency.

Transfer students entering the musical theatre program may be required to take a placement exam by the School of Music for placement in music courses. If a student has earned college credit with a minimum grade of C for music courses taken at another SUS institution with course prefixes and the last three digits matching a UF music course, this is usually granted as transfer credit when evaluated by the music faculty.

All theatre majors should consult the academic advisor as early as possible.

Related Theatre Programs

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500501&track=02) may be used for transfer students.

Semester 1

- Complete 2 of 10 critical-tracking courses with minimum grade of C: THE 2000, TPA 2202C, TPA 2232C, TPP 2110, TPP 2282, TPP 3103, TPP 3113, TPP 3283, TPP 3650, TPP 4114
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking courses with a minimum grade of C
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

TPP 3311	Directing	3
TPP 4531	Stage Combat: Unarmed and Light Weaponry	3
TPP 4600	Playwriting Workshop	3

Academic Learning Compact

The Bachelor of Fine Arts in acting develops the highest possible level of performance as an actor. Students develop advanced theatrical movement and vocal skills, including stage combat, voice, makeup, movement and period styles. They learn to perform through workshop and mainstage productions in formal and informal settings. Students also develop a repertory and techniques for auditions.

Before Graduating Students Must

- Satisfactory presentation and faculty evaluation of a jury and a senior project.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify and describe primary examples of theatre history, literature, dramatic structure and theory.
2. Explain specific acting techniques.

Critical Thinking

3. Analyze and apply effective acting technique strategies.
4. Create strategic audition material packages for professional auditions.

Communication

5. Construct a personal process for character creation and actualization.
6. Explain complex facets of theatre performance and production.

Theatre Production

The B.F.A. in theatre performance is also offered at the New World School of the Arts in Miami.

About this Program

- **College:** Arts (p. 1030)
- **Degree:** Bachelor of Fine Arts
- **Specializations:** Costume Design (p. 1170) | Lighting Design (p. 1173) | Scene Design (p. 1176)
- **Credits for Degree:** 124
- **Contact:** Email (kaustin@ufl.edu)

- **Additional Information**
- **Related Theatre Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The BFA Theatre Production program has 3 specialization areas: costume design, lighting design, and scene design.

Students enrolled in Theatre Production will complete coursework in all three areas. Selected independent studies, advanced electives, and production assignments in THE 4950 focus on the specialization.

Today's theatre design and production depends heavily on complex electronic mechanical systems used in professional theatres, film, and television. Students must pass a portfolio review for admission to any production program. For more information consult the department handbook or the academic advisor.

All theatre majors should consult the academic advisor as early as possible.

Related Theatre Programs

- Bachelor of Arts in Theatre (p. 1152)
- Bachelor of Fine Arts in Theatre Performance (p. 1161)
- Theatre minor (p. 1161)
- Theatre Production minor (p. 1179)

Academic Learning Compact

The Bachelor of Fine Arts in theatre production meets the diverse aesthetic and technological demands of contemporary society. Today's theatre design and production depend heavily on the complex electronic and mechanical systems used in professional theatres. This curriculum provides academic instructing and professional training in costume design and technology, scenic design and lighting design. The program provides a laboratory environment where students can apply the skills learned in classroom exercises and theories.

Before Graduating Students Must

- Present a senior project and review your portfolio with representatives from the appropriate faculty. You must pass the senior project and portfolio review with a satisfactory rating.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes (SLOs)

Content

1. Apply principles of two and three-dimensional design aesthetics to costume, lighting or scene design for live performance as a method of bringing text, choreographic work or public exposition to the stage.

Critical Thinking

2. Organize, develop and participate in the art, craft and process of moving the script onto the stage by organizing, developing and participating in a creative process resulting in a live performance that incorporates successful application of design and technological principles.

Communication

3. Use effective communication and collaboration skills throughout the creative process.

	Credits	12
	Total Credits	124

For the B.F.A. in production, students must complete at least 59 credits at the 3000/4000 levels.

Complete 15 credits of theatre courses by end of the junior year and maintain a 2.0 GPA.

Academic Learning Compact

The Bachelor of Fine Arts in theatre production meets the diverse aesthetic and technological demands of contemporary society. Today's theatre design and production depend heavily on the complex electronic and mechanical systems used in professional theatres. This curriculum provides academic instructing and professional training in costume design and technology, scenic design and lighting design. The program provides a laboratory environment where students can apply the skills learned in classroom exercises and theories.

Before Graduating Students Must

- Present a senior project and review your portfolio with representatives from the appropriate faculty. You must pass the senior project and portfolio review with a satisfactory rating.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes (SLOs)

Content

1. Apply principles of two and three-dimensional design aesthetics to costume, lighting or scene design for live performance as a method of bringing text, choreographic work or public exposition to the stage.

Critical Thinking

2. Organize, develop and participate in the art, craft and process of moving the script onto the stage by organizing, developing and participating in a creative process resulting in a live performance that incorporates successful application of design and technological principles.

Communication

3. Use effective communication and collaboration skills throughout the creative process.

Theatre Production | Lighting Design

The B.F.A. in theatre performance is also offered at the New World School of the Arts in Miami.

About this Program

- **College:** Arts (p. 1030)
- **Degree:** Bachelor of Fine Arts
- **Specializations:** Costume Design (p. 1170) | Lighting Design (p. 1173) | Scene Design (p. 1176)
- **Credits for Degree:** 124
- **Contact:** Email (kaustin@ufl.edu)
- **Additional Information**
- **Related Theatre Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The BFA Theatre Production program has 3 specialization areas: costume design, lighting design, and scene design.

Students enrolled in Theatre Production will complete coursework in all three areas. Selected independent studies, advanced electives, and production assignments in THE 4950 focus on the specialization.

Today's theatre design and production depends heavily on complex electronic mechanical systems used in professional theatres, film, and television. Students must pass a portfolio review for admission to any production program. For more information consult the department handbook or the academic advisor.

All theatre majors should consult the academic advisor as early as possible.

Related Theatre Programs

- Bachelor of Arts in Theatre (p. 1152)
- Bachelor of Fine Arts in Theatre Performance (p. 1161)
- Theatre minor (p. 1161)
- Theatre Production minor (p. 1179)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500501&track=01) may be used for transfer students.

Semester 1

- Complete 2 of 11 critical-tracking courses with minimum grades of C: THE 2000, THE 4950, TPA 2074, TPA 2120C, TPA 2202C, TPA 2232C, TPA 3208, TPA 3217, TPA 4020, TPP 2110, TPP 3650
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.0 UF GPA required

Semester 5

- Complete 5 additional critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
TPA 2074	Drawing and Rendering (**Critical Tracking**)	3
TPA 2202C	Stagecraft (**Critical Tracking**)	4
THE 2000	Theatre Appreciation (**Critical Tracking**; State Core Gen Ed Humanities and Diversity)	3
TPP 2110	Acting 1-Instrument and Discipline (**Critical Tracking**)	3
Gen Ed Mathematics		3

Art | BA

The B.A. in Art allows students to focus on studio art but in a more flexible and less studio-rigorous fashion than the B.F.A. degree options. The B.A. in Art encourages students to consider a double major or dual-degree, minors, or certificates in specific art or non-art related disciplines, and/or complete preprofessional requirements for other non-art related programs.

Many students graduating with a B.A. in Art go on to pursue professional programs in healthcare (medical school, veterinary school, art therapy graduate programs, etc.) and other graduate programs in both non-art and art-related disciplines (i.e., law, business, counseling, etc.).

About this Program

- **College:** Arts (p. 1030)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Additional Information**
- **Related Art Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The undergraduate Art program provides a wide range of experiences in studio art, including technical and formal concerns, experimental approaches and conceptual development, while also exploring coursework required for other academic disciplines within the university.

All coursework required for the major must be completed with minimum grades of C.

Related Art Programs

- Bachelor of Arts in History of Art (p. 1068)
- Art History minor (p. 1072)
- Studio Art minor (p. 1151)
- Art Education certificate (p. 1067)
- Arts in Medicine certificate (p. 1073)
- Ceramics certificate (p. 1073)
- Graphic Design certificate (p. 1093)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500702&track=01) may be used for transfer students.

Semester 1

- Complete ART 1803C for 6 credits or complete 6 credits of any ART/GRA/PGY courses at the 2000 level with minimum grades of C
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses: ARH 2050, ARH 2051, ART 2305C or two 2000-level ART/GRA/PGY courses with minimum grades of C
- 2.5 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C
- 2.75 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course with a minimum grade of C
- 3.0 UF GPA required

Semester 5

- 3.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Gen Ed Composition		3
Electives		8
	Credits	14
	Total Credits	120

Outside elective requirement: An outside elective is any course taken outside of the School of Art and Art History. At least 18 credits of electives must be chosen from 3000/4000-level courses. These courses **cannot** also count toward general education requirements.

Students must take 10 credits of foreign language or show a minimum proficiency in a single foreign language by taking a placement test. If proficiency is met, it does not reduce the number of credits required for the degree. Foreign language can be taken S-U or for a letter grade, which must be a minimum grade of C.

Academic Learning Compact

The Bachelor of Arts in visual art studies is a general arts degree. Students will achieve proficiency in general art concepts, experimental approaches, techniques and formal composition in art. Through the study of art theory, art history and historic and contemporary art, students gain knowledge of art genres and systems of thought. Emphasis is on the development of new approaches to making art. Students will learn to use research practices effectively, to discuss the development of their work in speech and in writing and to develop a portfolio and resume.

Before Graduating Students Must

- Pass a particular test, a final project, a term paper and/or a portfolio, as determined and evaluated by the appropriate faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Understand the principles and elements of artistic practice.
2. Produce artworks choosing and employing media and techniques that support ideation.

Critical Thinking

3. Develop sound research methods and production practices.
4. Develop a studio practice that demonstrates complex thought, analysis and reasoning.

Communication

5. Create a portfolio of artwork.
6. Describe art research and practice in writing.

Accounting, Fisher School of

Accounting at UF traces its roots back to 1923 when the first accounting course was offered. Today, as one of the nation's few free-standing accounting schools, the Fisher School of Accounting has cultivated a distinctive identity at the University of Florida and among the nation's top business programs.

Map (http://campusmap.ufl.edu/?loc=0054) More Info (http://www.warrington.ufl.edu/accounting)

Established

1933. Endowed in 1985 through a gift from alumnus Frederick E. Fisher.

Rankings

2019. *US News & World Report* ranks the undergraduate program 17th overall in the nation and 9th among public institutions.

Accredited

The Association to Advance Collegiate Schools of Business (AACSB) International.

Programs

Four-year undergraduate program, five-year 3/2 program with joint award of bachelor's and master's degrees in accounting.

Degrees

Bachelor of Science in Accounting (BSAc), Master of Accounting (MAcc).

Scholarships

Fifth-year accounting students should obtain scholarship applications from the Fisher School and complete them early in the spring term of their fourth year. General financial aid information is available from the Office of Student Financial Affairs.

Academic Policies

The information provided in this catalog is necessarily brief. In addition to the information herein, students are responsible for compliance with the policies and procedures described in the Fisher School of Accounting Student Handbook.

More Info (https://warrington.ufl.edu/accounting-current-students/bachelor-of-science-in-accounting)

Admission Requirements

Submitting an Undergraduate Application

UF students who have selected accounting as their major upon entering the university will automatically be classified as accounting students. This classification will remain as long as the student meets universal tracking and other academic requirements. Other UF students who want to change their major to accounting apply at the Fisher School office. Transfer students apply through the university's Office of Admissions.

Junior Applicant Pool

The Fisher School of Accounting is a limited access program; it uses an applicant pool to select candidates for admission to its Bachelor of Science in Accounting program—BSAc. All applications that meet the minimum standards are placed into a pool from which the most qualified are selected for admission each term.

Admission decisions use a holistic evaluation method which considers attributes such as, but not limited to: pattern of repeated coursework, drops, withdrawals, general education deficiencies, the rigor of electives coursework completed and the academic reputation of the program attended (its accreditation and affiliation with the Florida SUS system).

Due to limited capacity, it is unlikely that all candidates who meet the minimum standards for inclusion into the applicant pool will be admitted. Historically, a 3.5 overall and a 3.5 preprofessional, or higher, grade point average are required to be a competitive candidate for admission, but the actual admission profile varies annually. Average GPAs for previously admitted junior transfer cohorts can be found on the Demographics section of the Fisher School of Accounting website. It is critical to note that admission decisions are not based exclusively on grades. Serious candidates are encouraged to complete additional coursework in mathematics such as Calculus 2 (MAC 2234 or MAC 2312).

Minimum Standards for Inclusion in the Undergraduate Applicant Pool

- **Meet the Office of Admissions minimum requirements for junior transfers.**
- **Completion of, or in the process of completing, at least 60 semester credits of transferable coursework from an accredited institution**.
  - Applicants from Florida state colleges are required to complete their Associate of Arts degree before enrollment in the Fisher School of Accounting. Florida community or state public college Associate of Arts graduates and candidates from Florida Public Universities who have successfully completed 60 semester credits of coursework, including the 36-credit general education requirement, shall receive priority for admission to limited access programs over out-of-state applicants and transfer students from Florida private institutions.
- **Applicants will not be eligible for admission if they have earned 90 transferable hours.**
- **A 3.0 cumulative GPA calculated on *all attempts* of all college-level coursework**.
- **Official Grades for all Preprofessional Coursework**.
  - Applicants should have official grades for all coursework completed at the time of the application, but if official grades for ALL preprofessional coursework described herein has not been provided by the applicable credentials deadline for the term the applicant is seeking admission, then the application will be deemed incomplete and denied without further notification from our office.
- **Completion of seven preprofessional courses with a 3.0 GPA**.

Code	Title	Credits
ACG 2021	Introduction to Financial Accounting (or equivalent)	4
ACG 2071	Introduction to Managerial Accounting (or equivalent)	4
CGS 2531	Problem Solving Using Computer Software (or equivalent)	3
or ISM 3013	Introduction to Information Systems	
ECO 2013	Principles of Macroeconomics (or equivalent)	4
ECO 2023	Principles of Microeconomics (or equivalent)	4
MAC 2233	Survey of Calculus 1 (or equivalent)	3
STA 2023	Introduction to Statistics 1 (or equivalent)	3

CLEP credit is not acceptable to replace preprofessional coursework.

- **ACG 2021 Introduction to Financial Accounting and ACG 2071 Introduction to Managerial Accounting, or their equivalents, must be completed with a minimum grade of B** .
  - Applicants are permitted a maximum of two attempts (including drops and withdrawals) to earn the minimum B grade required in ACG 2021 and ACG 2071.If a series of courses is taken, which upon completion is equivalent to ACG 2021, then a minimum grade of B must be achieved in each course.
- **Foreign Language Tests:**
  - Foreign applicants who are not exempt under university guidelines must complete the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System).
    - Minimum Scores:
      - TOEFL: Total > 100 / Listening > 26 / Writing > 17 / Reading > 20 / Speaking > 23
      - IELTS: Total > 7.0/ Listening > 7.0 / Writing > 7.0 / Reading > 7.0 / Speaking > 7.0

Admission Policies

Detailed computation of the cumulative GPA and preprofessional GPAs:

- Courses deemed vocational are not factored into the GPA computations
- If an applicant has attended the University of Florida and another institution, the cumulative GPA calculation will be based only on the University of Florida coursework.
- When an applicant is repeating a course after having earned a grade of C, S or P, or higher, the repeat grade will not be averaged into the preprofessional GPA computation (unless the repeated grade is lower than a C). However, when ACG 2021 or ACG 2071 is repeated after earning a C, C+, or B-, only the second attempt is computed in the preprofessional GPA.
- When the applicant completes two or more different courses (and each course fulfills the same preprofessional requirement), the course used to compute the preprofessional GPA shall only include the first course completed. For example, if an applicant completes MAC 2311 with a C, S or P grade and then later completes MAC 2233 receiving an A grade, only the grade earned in MAC 2311 will be used to compute the applicant's preprofessional GPA.
- Grade forgiveness is not considered when computing the preprofessional GPA.

For students who are not offered admission to the BSAc, the State University System (SUS) (https://www.flbog.edu/universities) website provides links to other accounting programs within the SUS.

More Info (http://www.flbog.edu/universities)

Admission to the university does not guarantee admission to the Fisher School. Admission to the Fisher School does not constitute admission to the 3/2 program. This requires a separate application to the graduate school.

Admission requirements for the Fisher School are subject to change. Please check the Fisher School (http://warrington.ufl.edu/accounting) website for the current standards.

Candidates with incomplete applications or who do not meet all minimum standards for inclusion in the applicant pool will be denied without further contact from our office.

Meeting the minimum standards as stated herein does not guarantee admission into the Fisher School. Admission is selective.

Courses Taken at Other Institutions Before Admission to the University

Professional coursework that is required as part of the third, fourth or fifth year should be taken only at the University of Florida.

A maximum of one 3000/4000-level approved business core course may count toward the student's undergraduate degree. The student will be required to take another course in the area waived. Completion of more than one upper-division business or accounting course prior to admission will negatively affect prospects for transfer admission.

Upper-division accounting coursework taken elsewhere cannot be substituted for the accounting courses required for the BSAc degree.

Courses Taken at Other Institutions After Admission to the University

After being admitted to the Fisher School of Accounting, a student may not take *any* preprofessional, critical tracking, communication, accounting or business core coursework required as part of the Bachelor of Science in Accounting degree at *any* other institution.

Elective and general education courses may be taken outside the university only if:

- The student will have more than 30 credits left to graduate upon completion of such courses.
- The student obtains the advance approval of the undergraduate advising coordinator or associate director.

Distance Learning Courses

Web-based courses offered in the university schedule of courses may be taken. However, UF Online courses, distance learning or flexible learning courses offered by the Division of Continuing Education are not permitted.

Performance Policies

Satisfactory/Unsatisfactory Grade Option

An undergraduate student may request the S/U option for elective courses only. Courses taken to satisfy general education, degree requirements, or preparatory coursework for the program cannot be taken S/U.

Unsatisfactory Performance

Students who do not make satisfactory academic progress will be dropped from the accounting program. In addition to university regulations concerning unsatisfactory performance, the school will exclude students from further registration for the following reasons:

Freshmen and Sophomores

1. The student does not comply with the minimum universal tracking requirements.
2. Failure to comply with all additional universal tracking requirements listed in the Fisher School of Accounting Handbook and the

Freshman and Sophomore Guide after one subsequent term of enrollment.

3. The student has not earned a B grade in ACG 2021 or ACG 2071 after two attempts (including drop or withdrawal).
4. The UF GPA fell below 3.0 and remained there after one subsequent term of enrollment.
5. The Cumulative GPA on all attempts of preprofessional coursework fell below the minimum 3.0 required and remained there after one subsequent term of enrollment.
6. The student has withdrawn from the university three times while classified as an AC student.

Juniors and Seniors

1. The student earns two grades below a C in accounting courses numbered 3000 and above regardless of whether the student was in the Fisher School of Accounting at the time they earned those grades.
2. The student's cumulative grade point average on all coursework completed at the University of Florida falls below 2.0 and, after **one** subsequent term of enrollment, this or any other grade point average described herein, is below a 2.0.
3. The student's cumulative upper-division grade point average falls below a 2.0, after **one** subsequent term of enrollment, this or any other grade point average described herein, is below a 2.0.
4. The student's accounting grade point average, calculated on **all attempts** of required accounting courses numbered 3000 and above, falls below 2.0 and, after **one** subsequent term of enrollment, this or any other grade point average described herein, is below a 2.0.
5. The student withdraws from the university three times after admission into the Fisher School of Accounting.
6. The student fails to complete two required 3000 level and above accounting course in one academic year, defined as Fall, Spring, Summer (or Spring, Summer, Fall for Innovation Academy Students). The following exceptions apply:
   a. If no courses for which the student is eligible are offered over the Summer, the student will be granted an additional semester to complete a course.
   b. For upper-division transfer students, academic year begins the semester the student matriculates. So, for Spring admits, the year is Spring, Summer, Fall.
   c. If the student is enrolled in a study abroad program, the student will be granted one additional semester to complete the next course.
   d. If the student is on an internship, but enrolled in UF courses, the student will be granted one additional semester to complete the next course. The student must either be enrolled in an internship course or provide documentation of the internship.

For purposes of all of the above policies, the following rule applies to the definition of a **term**:

- Any term for which a student registers for a course at the University of Florida counts as a term of enrollment, even if the student subsequently withdraws from the term (after the drop/add period).
- Summer registration is viewed as registration for one term, (e.g., whether a student registers for Summer A alone, or registers for Summer A and Summer B and C, the student is considered to have registered for one term).

Refer to the University Grades and Grading policies for a discussion on grade point average computation.

Undergraduate Drop Policies

During a student's first 60 credits completed at UF, a total of two drops are permitted. Two additional drops are provided for the student's second 60 credits. Unused drops from the student's first 60 credits are not available to use during the second 60 credits.

The associate director, as advised by the Petitions Committee, must act upon all other drop requests. The committee is very strict when considering such requests and will not approve drops for reasons that are not clearly beyond the student's control.

This policy applies to drop requests made after drop/add and before the period governed by the Faculty Senate's Student Petitions Committee.

Degree Requirements

Application for Graduation

Each student should plan to see an advisor in the semester before the term they intend to graduate. This allows the student to confirm that all degree requirements will be met.

It is the student's responsibility to apply for graduation through the degree application link on ONE.UF (https://one.uf.edu) by the deadline (p. 1442) for that term. Failure to submit a timely application may prevent graduation.

Requirements for Degree Certification

To graduate with a BSAc degree, a student must have satisfactorily completed 120 credits of prescribed coursework.

A student must also complete the following requirements:

- A minimum of 60 credits must be completed outside the Warrington College of Business and Fisher School of Accounting.
- A minimum of 60 credits of coursework for the BSAc degree must be at the 3000 level or above.
- The last 30 credits of coursework must have been completed in residence at the University of Florida.
- Must have completed at least 22 credits at the 3000 level or above in required accounting courses at the Fisher School.
- Waivers received for any coursework required for the BSAc degree will not reduce the credits required for graduation.
- Graduation credits will not be given for repeated courses. In addition, the degree candidate must have the following requirements:
  - A minimum 2.0 GPA on all UF coursework.
  - A minimum 2.0 GPA on all courses taken in excess of 60 credits.

- A minimum 2.0 GPA on all required accounting courses at the 3000 level or above.

Accounting

The Bachelor of Science in Accounting (BSAc) is a four-year degree program that provides an excellent foundation in accounting and business. Its conceptual focus is designed to prepare students for success in a constantly evolving business environment and to prepare students for graduate studies.

About this Program

- **College:** Warrington College of Business
- **School:** Fisher School of Accounting (p. 1183)
- **Degree:** Bachelor of Science in Accounting
- **Credits for Degree:** 120
- **Contact:** Email (fsoa@warrington.ufl.edu) | 352.273.0200 | 210 Gerson Hall (http://campusmap.ufl.edu/?loc=0054)
- **Additional Information**
- **Related Accounting Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Students enrolled in the BSAc program are eligible to submit an application for early admission to graduate school via the school's combined 3/2 Program. Students who complete this combined program meet education requirements to sit for the Uniform Certified Public Accountant exam and to practice as a CPA in Florida.

Some students enter the Fisher School of Accounting with the intention of limiting their accounting studies at UF to undergraduate coursework. These students view the BSAc degree as providing valuable preparation for post-graduate studies in areas other than accounting, (e.g., law) or they plan to complete their graduate accounting studies at another institution. Students are cautioned that completion of the Bachelor of Science in Accounting degree alone will not satisfy the educational requirements to be licensed as a CPA in Florida.

Related Accounting Programs

- Combined Degree (p. 1400)
  - *Five-year program with joint conferral of bachelor's and master's degrees in accounting.*
  - *Credits for the degree: 150*
- Accounting Minor (p. 1191)
- Accounting Minor UF Online (p. 1191)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=520301&track=01) may be used for transfer students.

Additional Information about Selecting General Education Courses

- To ensure accounting students have breadth in their general education experience, 3000/4000-level business core courses may not be used to satisfy general education requirements. For example, MAN 3025 and MAR 3023 may not be used to fulfill social science and behavioral science requirements.
- The selection of general education courses in the model semester plan is intended as a guide. Accounting students may vary their choice of general education courses, providing the selection of coursework complies with all university requirements. For additional information, refer to the General Education Program (p. 21) or meet with an undergraduate advisor.

Semester 1

- Complete 2 of the 8 critical-tracking courses: ACG 2021, ACG 2071, CGS 2531 (or ISM 3013), ECO 2013, ECO 2023, MAC 2233, MAC 2234, STA 2023
- 3.0 GPA required on all attempts of preprofessional courses
- 3.0 UF GPA required

Semester 2

- Complete 2 additional courses of the 8 critical-tracking courses (1 of the 4 courses must be MAC 2233 or equivalent)
- 3.0 GPA required on all attempts of preprofessional courses
- 3.0 UF GPA required

Semester 3

- Complete 2 additional courses of the 8 critical-tracking courses (1 of the 6 courses must be ACG 2021 with a minimum grade of B)
- 3.0 GPA required on all attempts of preprofessional courses
- 3.0 UF GPA required

Semester 4

- Complete all 8 critical-tracking courses (ACG 2071 must be completed with a minimum grade of B)
- Complete general education and the university writing requirements
- 3.0 GPA required on all attempts of preprofessional courses
- 3.0 UF GPA required

Semester 5

- Complete ACG 3101 and ACG 3401
- 3.0 GPA required on all attempts of preprofessional courses
- 3.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Electives (3000 level or higher)		6
	Credits	14
	Total Credits	120

Academic Learning Compact

The major offers a balanced, intellectually vibrant study of accounting. Upon completion of the baccalaureate program, students will possess the requisite accounting skills for entry-level positions in the practice of public accounting, in industry, in financial services, in government and in business more generally. Students also will be prepared for graduate study in accounting, in business and in related professions such as the law. More broadly, students will be prepared for success in a constantly evolving global economy.

Before Graduating Students Must

- Take the Business Field Test as prepared and administered by the Educational Testing Service (ETS). The score will be incorporated into a core business course taken in the final term.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe individual business disciplines and their relationship to the global business environment.
2. Prepare financial statements based upon generally accepted accounting principles.
3. Identify basic U.S. tax laws applicable to businesses and individuals.

4. Explain the attestation function and describe generally accepted auditing standards.
5. Describe the basic concepts of cost and managerial accounting and explain its role in business.

Critical Thinking

6. Apply mathematical concepts and technology to interpret, understand and communicate quantitative data.
7. Apply the conceptual framework, economic reasoning and generally accepted accounting principles to solving accounting problems.
8. Analyze and interpret economic and financial events for internal decision-making purposes.
9. Attest to the fairness of financial representations and to the adequacy of internal controls.
10. Prepare basic individual and business tax returns and apply U.S. tax laws for tax planning purposes.

Communication

11. Effectively produce, interpret and analyze written text, oral messages and multimedia presentations used in business.

Accounting Minor

The accounting minor is open to all non-accounting students, offering a strong foundation in financial and managerial accounting beyond the introductory level.

About this Program

- **College:** Warrington College of Business
- **School:** Fisher School of Accounting (p. 1183)
- **Credits:** 24
- **Contact:** Email (fsoa@warrington.ufl.edu) | 352.273.0200 | 210 Gerson Hall (http://campusmap.ufl.edu/?loc=0054)
- **Related Accounting Programs**

With the increasingly interdisciplinary model used by businesses, completion of the minor broadens career opportunities and increases the student's marketability. With careful course selection, completion of the minor will accrue enough accounting credits for students from any major to apply for direct admission to the Master of Accounting program upon completion of the undergraduate degree.

Required Courses

Code	Title	Credits
ACG 2021	Introduction to Financial Accounting [1]	4
ACG 2071	Introduction to Managerial Accounting	4
ACG 3101	Financial Accounting and Reporting 1 [2]	4
ACG 3401	Business Processes and Accounting Information System [3]	4
ACG 4111	Financial Accounting and Reporting 2 [4]	4
ACG 4341	Cost and Managerial Accounting [5]	4
Total Credits		24

1 Prereq: sophomore standing.

2 Prereq: ACG 2021 and ACG 2071 with minimum grades of B.

3 Prereq: ACG 2021 and ACG 2071 with minimum grades of B; CGS 2531 or ISM 3013.

4 Prereq: ACG 3101 with minimum grade of C, FIN 3403.

5 Prereq: ACG 3101 and ACG 3401 with minimum grades of C, MAC 2234 and QMB 3250.

Additional Requirements

- All 3000-level and above coursework must be completed at the University of Florida.
- All course and grade prerequisites must be satisfied. Because the prerequisites for some upper-division accounting courses include business courses not included herein, non-business majors typically have to complete additional business courses to complete this minor.
- A minimum grade of C is required for each course in the minor, except for ACG 2021 and ACG 2071, which require a minimum grade of B.
- With advanced approval from the associate director, additional 3000-level or above accounting courses may be substituted for the requirements listed above.

Related Accounting Programs

- Bachelor of Science in Accounting (p. 1187)

ACG 4111	Financial Accounting and Reporting 2 [4]	4
ACG 4341	Cost and Managerial Accounting [5]	4
Total Credits		24

1 Prereq: sophomore standing.

2 Prereq: ACG 2021 and ACG 2071 with minimum grades of B.

3 Prereq: ACG 2021 and ACG 2071 with minimum grades of B; CGS 2531 or ISM 3013.

4 Prereq: ACG 3101 with a minimum grade of C, FIN 3403.

5 Prereq: ACG 3101 and ACG 3401 with minimum grades of C, MAC 2234 and QMB 3250.

Additional Requirements

- All 3000-level and above coursework must be completed at the University of Florida.
- All course and grade prerequisites must be satisfied. Because the prerequisites for some upper-division accounting courses include business courses not included herein, non-business majors typically have to complete additional business courses to complete this minor.
- A minimum grade of C is required for each course in the minor, except for ACG 2021 and ACG 2071, which require a minimum grade of B.

Academic Advising
Heavener Hall 333
352.273.0165

Established

1926. In 2012, named for James W. 'Bill' Heavener, an alumnus whose generous gift benefits the school.

Accredited

The Warrington College of Business is accredited by the AACSB International. The college was the first in the nation to be accredited by the European Foundation for Management Development (EFMD).

Academic Advising and Career Coaching

The Heavener School of Business provides academic advising, career coaching, professional development opportunities and study abroad programs for undergraduate students.
More Info (https://warrington.ufl.edu/undergraduate-current-students/academic-advising) Email (undergraduate.business@ufl.edu)

Programs

The Warrington College of Business has three schools:

- The Hough Graduate School of Business,
- The Fisher School of Accounting, and
- The Heavener School of Business.

The Fisher School of Accounting administers a Bachelor of Science in Accounting (BSAc). The Heavener School of Business administers a Bachelor of Science in Business Administration (on campus), an online Bachelor of Science in Business Administration (off campus) and a Bachelor of Arts in Business Administration. The Heavener School of Business also offers minors in business administration (for nonbusiness majors only), entrepreneurship, information systems and operations management, real estate and retailing.

The table below provides a summary of academic programs in the Heavener School of Business.

The college also offers combined-degree and one-year master's programs in information systems and operations management (MSISOM), entrepreneurship (MAE), finance (MSF), international business (MAIB), management (MSM, for non-business majors only) and real estate (MSRE).

In addition to completing a degree, all business majors are encouraged to gain practical work experience through co-ops, internships and community service. The Heavener School of Business also offers students a variety of professional development and leadership opportunities, including study abroad, the Florida Leadership Academy, involvement in student organizations and research activities. For more details on all of these opportunities, consult an academic advisor in 267 Stuzin Hall.

The school encourages all first year students to take Warrington Welcome - First Year Florida (SLS 1102 for business majors), which serves as an introduction to the school and provides students with the opportunity to connect with faculty, advisors and fellow business students.

Scholarships

The school offers academic and need-based scholarships to business majors and study abroad scholarships to business majors and minors who study abroad via a Heavener School of Business study abroad program. Applications for summer and fall semester scholarships are due in March and applications for spring semester scholarships are due in October.
More Info (https://warrington.ufl.edu/undergraduate-current-students/scholarships)

Student Organizations

The school has more than 20 business-related student organizations that provide direct access to employment recruiters, leadership opportunities, work experience and the means to develop valuable business-related skills. All business majors are encouraged to join at least one business student organization during their college career.

Academic Policies

Admission

Freshmen

The university's Office of Admissions (p. 15) coordinates freshman admission.

Transfer Students (On Campus Programs)

The Heavener School of Business makes admission decisions for upper-division transfer applicants who have earned 60 or more college credits. Only applicants with an A.A. or A.S. degree from a Florida public or state college will be considered for admission. Students seeking transfer from other universities or out-of-state schools may be considered for admission on a space-available basis. Transfer students who are admitted by another UF college/school are not eligible for admission to the Heavener School of Business.

Transfer applicants' academic catalog year guarantees their graduation requirements, but not their admission requirements. Admission and preprofessional course and GPA requirements are subject to change without notice for students who are not enrolled in the Heavener School.

Transfer applicants are admitted in the fall, spring and summer C terms. Florida public and state college transfer students are considered for admission if they fulfill all Heavener School transfer admission requirements (https://warrington.ufl.edu/undergraduate-academics/admissions/transfer-admission). Students who do not have a complete application on file by the application deadline (http://www.admissions.ufl.edu/ugrad/trappdates.html) will not be considered for admission and must reapply for a subsequent term. After being admitted, transfer students are required to attend UF's transfer orientation program.

Current UF Students

UF students who matriculated as freshmen can change to a business major if they have a 3.0 UF GPA with no critical-tracking courses completed or a 2.0 UF GPA and a 3.0 critical-tracking GPA. Additionally, students cannot exceed the maximum 130 credits allowed for the degree (excluding AP/IB/AICE/dual enrollment credit). Business majors can change from one business major to another if they are on track and have not completed more than half of their major courses. Upper-division transfer students who are admitted to UF as non-business majors are not eligible for admission to the Heavener School of Business.

Online Business Program (off-campus program)

The school makes admission decisions for the online business program, a degree program designed for individuals who live outside of Gainesville or have work and/or family commitments that make traditional campus attendance unfeasible. To be considered for admission, applicants

must complete an A.A. or A.S. degree (or have earned 60 transferable credits) and fulfill all of the Heavener School online business program admission requirements. Students who are admitted to this program are not permitted to change to another business major unless they meet the transfer admission requirements for the school's on campus degree programs.

Readmission

UF students who have not attended the university for two consecutive terms must apply for readmission and meet all university readmission requirements (p. 19). To be eligible for readmission, students must meet Heavener School critical-tracking GPA and course requirements, have a 2.0 UF GPA and no deficits in the core or major/area of specialization GPA *and* be able to complete a business degree in 130 credits or less. Students who do not meet these requirements should contact an academic advisor.

Non-Degree Registration

An individual who wishes to enroll in the Heavener School as a non-degree-seeking student may do so for the summer term only. Non-degree applicants must meet the school's non-degree registration requirements.

Academic Policies

Academic Advising and Career Coaching

Business majors are expected to register for the proper courses and to fulfill degree requirements in a timely manner. To avoid unnecessary delays in academic progress, students should consult the UF undergraduate catalog to familiarize themselves with university and school policies.

Heavener School academic advisors and career coaches are available to assist students with scheduling, registration, course selection, major changes, career decisions, professional development, study abroad and related matters. Students are encouraged to speak with an academic advisor each semester to ensure they are on track with their academic and career plans.
More Info (https://warrington.ufl.edu/undergraduate-current-students/academic-advising)

Academic Probation

The school closely monitors the academic progress of its students, requiring them to maintain a 2.0 UF, core and major/area of specialization GPA. Students who do not meet these requirements are placed on academic probation for a maximum of two semesters. Students who do not meet the terms of their probation will be prohibited from continuing in a business major.

Dean's List

Business majors who complete 12-14 credits and earn a 3.7 GPA or higher (or 15 credits or more and a 3.5 GPA or higher) in the fall, spring, or summer semester are named to the dean's list. Courses taken S/U (i.e., pass/fail) do not count toward the required credits. Students who make the dean's list will receive a certificate of recognition for their achievement.

Dropping and Adding Courses

The school adheres to all university drop/add policies and deadlines. Students who wish to drop and add a course after the initial drop/add period in the first week of each semester will be fee liable for both courses unless they can provide documentation of administrative error. Students who have used their two lower or upper division drops can petition the school for additional drops if they can document an extenuating circumstance.

Dual Degrees

With approval from an academic advisor, business majors are permitted to earn two UF undergraduate degrees concurrently (one in the Heavener School and one in another college/school, except for Liberal Arts and Sciences - economics). Dual degree students should plan to complete both degrees in eight fall/spring semesters (or four fall/spring semesters for transfer students). Students pursuing dual degrees must complete coursework for both degrees simultaneously, adhere to the academic plan approved by their academic advisor and graduate in the designated semester. Journalism majors are eligible to pursue the Bachelor of Arts in Business Administration - general studies (BABA-GBA) degree only.

Flexible Learning

Business majors must have prior approval from an academic advisor to take flexible learning courses. No more than six credits of flexible learning coursework can be used to fulfill undergraduate degree requirements. Flexible learning courses cannot be taken to fulfill required core, major, area of specialization or restricted elective courses. Students on academic probation are not permitted to take flexible learning courses.

International Study

Business undergraduates are encouraged to study abroad for at least one semester. Students must be in good academic standing and have a 2.5 overall UF GPA (or a minimum 3.0 UF GPA if applying for a Warrington exchange program). Refer to the Heavener School study abroad program for details, scholarship opportunities, and advisor contact information.
More Info (https://warrington.ufl.edu/undergraduate-international-study/outgoing)

Normal Course Load

The school's degree programs are designed for full-time study. Students are encouraged to register for 15 credits and are expected to register for a minimum of 12 credits each fall and spring. Students must petition the Heavener School to take more than 18 credits in a single term.

S/U Grade Option

Business majors can use the S/U grade option for free elective courses only. All other required courses, including critical-tracking, general education, core business, major or area of specialization, and restricted elective courses, must be taken for a letter grade. Students can request to take only one S/U course per term using the S/U grade option, although they can take other pre-established S/U graded courses.

Transfer Coursework

Florida public or state college students who have taken equivalent business core or major courses at another institution will be required to retake the course at UF or petition the Heavener School to take a higher-level course in the same subject area. Additional credits will not be earned when repeating equivalent courses. Waiving a required course does not reduce the total credits required for graduation.

Transient Coursework

With approval from an academic advisor, business majors may take critical-tracking, general education and free elective courses at another accredited institution. Students should refer to the school's guidelines and instructions.

More Info (https://warrington.ufl.edu/undergraduate-current-students/academic-advising/transient-students)

UF students who are in Florida but away from Gainesville have the option to take UF core business courses online in the fall, spring and summer terms.

Degree Requirements

All Heavener School of Business students must complete the following requirements, including the 120 credits required for graduation as calculated by the school. All required courses, excluding free elective courses, must be taken for a letter grade (not S/U). Business majors are strongly encouraged to use their elective requirement to build skills, obtain a minor or certificate and/or develop proficiency in a foreign language.
More Info (p. 1429)

General Education Requirement

Code	Title	Credits
Composition		3
Mathematical Sciences		6
Humanities		9
Social and Behavioral Sciences		9
Physical or Biological Sciences [1]		9
International (N)		3
Diversity (D)		3

[1] 6 credits biological science and 3 credits physical science or vice versa for a total of 9 credits.

A minimum grade of C is required for all courses fulfilling the general education requirement and the writing requirement.

Critical-Tracking Requirement

To prepare for upper-division business courses, all business majors are required to complete a specified number of critical-tracking courses each semester during the first four fall/spring semesters, meet the required critical-tracking GPA for each term and maintain a 2.0 UF GPA (see table below). Finance majors must earn a minimum grade of C in ACG 2021 and ACG 2071.

Heavener School of Business Critical-Tracking Requirements

Semester	Number Critical Tracking Courses	Critical Tracking GPA	UF GPA
1	2	2.5	2.0
2	2	2.75	2.0
3	2 (including ACG 2021)	3.0	2.0
4	1	3.0	2.0

Certain business degree programs require an eighth critical-tracking course in the fifth fall/spring term (or first fall/spring term for upper-division transfer students). Students must earn the required grade in the eighth tracking course to continue in the corresponding major (see table below). The grade earned in this course does not factor into the critical-tracking GPA.

Additional Critical-Tracking Requirements

Major	Eighth Tracking Course	Minimum Grade
General Business (Online)	NA	NA
General Studies	NA	NA
Finance	FIN 3403	B
Information Systems	NA	NA
Management	MAN 3025	C
Marketing	MAR 3023	C

Core Business Requirement

All business majors are required to take the following seven core courses, which cover the major functional areas of business:

Code	Title	Credits
BUL 4310	The Legal Environment of Business	4
FIN 3403	Business Finance	4
GEB 3373	International Business	4
MAN 3025	Principles of Management	4
MAN 4504	Operations and Supply Chain Management	4
MAR 3023	Principles of Marketing	4
QMB 3250	Statistics for Business Decisions	4

Major (BSBA) or Area of Specialization (BABA) Requirement

BSBA students take 12-20 credits of specific major courses. BABA-GBA students take 12 credits of 3000/4000-level area of specialization courses.

Restricted Elective Requirement

All business majors must take 11-12 credits of restricted electives. One electronic platform course (ENT 3003, GEB 3035, ISM 3004 or REE 3043) can be taken to fulfill the restricted elective requirement. Internship, independent study or assistantship credit will not count toward this requirement.

BABA-GBA students take 11-12 credits of restricted *business* electives from an approved list (students pursuing the international studies area of specialization are exempt from this requirement; instead, they must complete a foreign language minor). BSBA students take 11-12 credits of any 3000/4000-level courses or 1000/4000-level foreign language courses.

GPA and Graduation Requirements

A minimum overall UF GPA of 2.0 is required in coursework attempted at the university. Business majors must earn:

- a 3.0 critical-tracking GPA;
- a 2.0 core GPA or minimum grades of C in all seven business core courses; and
- a 2.0 major or area of specialization GPA or minimum grades of C in all major or area of specialization courses.

Business majors must earn a minimum of 120 credits. Heavener School undergraduates who have completed all requirements for degree will be required to graduate. To receive a diploma and participate in commencement, students must complete the UF graduation checklist,

which includes the submission of an online degree application by the established deadline.
More Info (https://commencement.ufl.edu/checklist.html)

Honors Requirements

Heavener School of Business honors designations are based on three grade point averages: business core GPA, major or area of specialization GPA and UF GPA. To graduate with honors (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonorstext), students must meet the following minimum standards at the time of graduation: cum laude (3.5 GPA), magna cum laude (3.7 GPA) and summa cum laude (3.9 GPA). Students who are pursuing a magna or summa cum laude designation are also required to complete an honors thesis. Each business major has its own specific thesis guidelines (https://warrington.ufl.edu/undergraduate-current-students/graduation). Students who participate in the University Scholars Program can use their required research paper as an honors thesis.

Internship Requirement

Heavener School majors are required to enroll in GEB 4941 and complete an internship of at least 150 hours before the start of the senior year. The internship requirement can be waived for students who participate in a study abroad experience of at least six weeks. Students who waive this requirement via study abroad are strongly encouraged to complete at least one internship to improve their chances of obtaining full-time employment and/or admission to graduate programs or law school. Consult a school academic advisor/career coach for more information.

Professional Communication Requirement

Heavener School majors are required to take GEB 3213, GEB 3218, SPC 2608, ENC 3312 or a similar course with prior approval. A minimum grade of C is required.

Residence Requirements

Students are not allowed to enroll simultaneously at UF and another institution. All business core, major, area of specialization and restricted elective courses must be taken in residence at the University of Florida or as part of an approved study abroad program. The last 30 credits of the degree program must be completed in residence at the University of Florida; however, this requirement will be waived for preapproved study abroad coursework. Otherwise, the residence requirement will be waived only in special cases and must be approved in advance by the school's petitions committee.

Undergraduate Degrees

The Heavener School of Business offers Bachelor of Science in Business Administration degrees in finance, general business (for off campus students), information systems, management and marketing and a Bachelor of Arts in Business Administration degree in general studies with an outside area of specialization. All undergraduate degrees require 120 credits and all include universal tracking, general education, business core, major or area of specialization, and restricted elective courses. The degree programs are designed to provide students with a strong foundation in the functional areas of business.

The school encourages all freshmen to take Warrington Welcome: First Year Florida (SLS 1102, for business majors), which serves as an introduction to the school and provides students with the opportunity to connect with faculty, advisors and fellow business students.

Minors and Certificates

Minors in business administration (for nonbusiness majors only), entrepreneurship, information systems, and real estate and a certificate in retailing leadership are available to undergraduate students.

Combined Degrees and One-Year Master's Programs

The Warrington College of Business offers the following combined-degree and one-year master's programs:

- Master of Arts in Business Administration: major in International Business (MAIB),
- Master of Science in Business Administration: concentration in Information Systems and Operations Management (MSISOM),
- Master of Arts in Business Administration: concentration in Entrepreneurship (MAE),
- Master of Science in Finance (MSF), and
- for non-business majors, the Master of Science in Business Administration: major in Management (MSM).

Undergraduates can seek permission to take graduate courses from the graduate coordinator of the appropriate department.
More Info (http://warrington.ufl.edu/academics)

Career and Leadership Programs

Business majors are encouraged to gain practical work experience through co-ops, internships and community service. The school also offers career and leadership programs, including professional development courses, the Florida Leadership Academy, involvement in national and international business case study competitions, student organizations and research options.
More Info (https://warrington.ufl.edu/undergraduate-current-students/career-and-leadership)

International Programs and Study Abroad

To broaden their curriculum, business majors are advised to study abroad, learn a foreign language, pursue the school's Bachelor of Arts in Business Administration: General Studies (BABA-GBA) degree with an area of specialization in international studies, complete an

international or international-related minor or take international courses, and participate in international or multicultural student organizations. More Info (https://warrington.ufl.edu/undergraduate-international-study)

Business Administration Minor

The business administration minor, which can be completed online, provides non-business UF undergraduates with an overview of the major functional elements of business. This minor is not open to business majors.

About this Program

- **College:** Heavener School of Business (p. 1192)
- **Credits:** 24 | Completed with an overall 2.0 GPA in the minor and a cumulative 2.0 UF GPA
- **Related Business Administration Programs**

All courses for the minor must be taken for letter grade. All attempts at courses for the minor will be averaged into the minor GPA. All 3000/4000-level courses required for the minor must be taken at UF or via a study abroad program preapproved by the Heavener School of Business. Flexible learning courses will not count toward the minor.

Students who completed BUL 4310, FIN 3403, MAN 3025 or MAR 3023 or its equivalent at another institution can petition the school to take a higher-level course in that discipline to satisfy requirements for the minor.

Business Administration | General Business | BSBA UF Online

The online Bachelor of Science in Business Administration-General Business (BSBA-IBA ONL) degree program, which provides a broad overview of the functional areas of business, is designed for students who live outside the Gainesville community or have work and/or family commitments that make traditional campus attendance impractical. Students take foundational courses in economics, mathematics, computing skills and accounting; core courses that relate to the basic functions of business, such as finance, management, marketing and operations management; and professional development courses such as business communication and career management.

About this Program

- **College:** Heavener School of Business (p. 1192)

- **Related Business Administration Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The online BSBA program provides a broad academic background in a variety of business disciplines and prepares students for a wide array of business careers and for graduate studies in business.

Requirements for the Major

To graduate with this major, students must complete all university, college and major requirements.

BSBA online students must meet general education requirements and maintain a 2.0 core, major and UF GPA. Students must read the individual course descriptions in this catalog to determine the prerequisites for their required courses. Along with the critical-tracking, general education and writing requirements outlined below, majors take 120 credits.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

To remain on track for the major, students must meet the critical-tracking criteria listed below. The critical-tracking GPA is calculated based on all attempts of the critical-tracking courses or their equivalents. After a student receives a minimum grade of C in a critical-tracking course or its equivalent, no higher grade in that course or its equivalent will be used in the calculation of the critical-tracking GPA.

Semester 1

- Complete 1 of the following critical-tracking courses: ACG 2021, ACG 2071, CGS 2531 or ISM 3013, ECO 2013, ECO 2023, MAC 2233, STA 2023
- 2.25 GPA on all attempts of critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses for a total of 3 critical-tracking courses
- 2.25 GPA on all attempts of critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses (including ACG 2021) for a total of 5 critical-tracking courses
- 2.5 GPA on all attempts of critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete all 7 critical-tracking courses
- 2.5 GPA on all attempts of critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Meet all term 1-4 critical-tracking requirements
- 2.0 UF GPA required

Model Semester Plan

This is a sample plan. Students should consult with an academic advisor/career coach to create an individualized academic plan. Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=520201&track=01) may be used for transfer students.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

A bachelor's degree in business administration enables students to achieve foundation knowledge in economics, accounting, finance, management, marketing, business law, statistics, operations management, human resource management, information technology and entrepreneurship. Special emphasis is placed on understanding the links between various business disciplines and the development of sound business plans. Students will be able to effectively analyze a business entity's strengths and weaknesses as well as investigate the opportunities and threats present in the business environment.

The major in general business places a special emphasis on understanding the links between various business disciplines and the development of sound business plans. Students will be able to effectively analyze a business entity's strengths and weaknesses as well as investigate the opportunities and threats present in the business environment.

Before Graduating Students Must

- Take the ETS Major Field Test in Business as part of MAN 4504. The ETS exam covers nine content areas in business. The score describes your performance relative to other seniors in business and accounting at 600+ colleges and universities (e.g., top 15% in the nation compared to your peers).
- Complete requirements for the baccalaureate degree, as determined by the faculty.

Students in the Major will Learn to

Student Learning Outcomes (SLOs)

Content

1. Demonstrate knowledge and understanding of elements of economics, financial accounting, marketing, operations management, organizational behavior, business law, information technology, business statistics and social responsibility.
2. Demonstrate proficiency in the use of business-related software applications.
3. Define the ethical responsibilities of business organizations and identify relevant ethical issues.
4. Understand how the business environment, including culture, differs across countries.
5. Possess awareness of cultural differences and how these differences affect business decisions.
6. Identify characteristics and roles of groups and teams.
7. Identify characteristics and roles of managers and leaders.
8. Possess knowledge in an area of specialization outside the disciplines of business and accounting.

Critical Thinking

9. Specify and implement a framework for identifying a business problem and develop alternative solutions and a set of evaluation criteria.
10. Assess the outcomes of a course of action and make appropriate adjustments.

Communication

11. Write business documents clearly, concisely and analytically.
12. Speak in groups and in public clearly, concisely and analytically, with appropriate use of visual aids.

Business Administration | General Studies | BABA

The Bachelor of Arts in Business Administration-General Studies degree provides a broad overview of the functional areas of business with a selected area of specialization. Students take foundation courses in economics, mathematics, computing skills and accounting; core courses that relate to the basic functions of business, such as finance, management, marketing and operations management; and area of specialization courses that focus on a specific topic, such as international studies, mass communication, criminology, science or a foreign language.

About this Program

- **College:** Heavener School of Business (p. 1192)
- **Degree:** Bachelor of Arts in Business Administration
- **Credits for Degree:** 120
- **Additional Information**
- **Related Business Administration Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The Bachelor of Arts in Business Administration-General Studies (BABA-GBA) degree program allows students to couple a business major with an outside interest. BABA-GBA students can choose from more than 70 areas of specialization that are comprised of courses taught by other UF colleges and departments. The BABA-GBA degree prepares students for a wide variety of business-related careers, for graduate studies in business and for graduate programs related to the area of specialization.

BABA-GBA majors are encouraged to gain practical work experience through internships, student organizations and community service. In addition, the Heavener School of Business offers students a wide variety of academic and career and leadership programs, including study abroad, the Florida Leadership Academy, involvement in student organizations and research activities. Students should consult an academic advisor/career coach for specific information.

Requirements for the Major

BABA-GBA majors must maintain a 2.0 core, area of specialization and UF GPA. Students must read the individual course descriptions in this catalog to determine the prerequisites for their required courses. In addition to the critical-tracking and general education courses outlined below, BABA-GBA majors take 120 credits, including:

Core Courses

Code	Title	Credits
BUL 4310	The Legal Environment of Business	4
FIN 3403	Business Finance	4
GEB 3373	International Business	4
MAN 3025	Principles of Management	4
MAN 4504	Operations and Supply Chain Management	4
MAR 3023	Principles of Marketing	4
QMB 3250	Statistics for Business Decisions	4

Area of Specialization Courses

Complete 12 credits at the 3000/4000 level in a chosen discipline outside the Heavener School of Business

Business Electives

Complete 11-12 credits from a list of approved business electives. Internship, independent study or assistantship credit will not count toward this requirement. Note: Students who are pursuing the international studies area of specialization must complete a foreign language minor in lieu of the business elective requirement.

Professional Communication Course

Code	Title	Credits
Select one:		
GEB 3213	Professional Writing in Business	3
GEB 3218	Professional Speaking in Business	3
SPC 2608	Introduction to Public Speaking	3
ENC 3312	Advanced Argumentative Writing	3
or a similar course with prior approval (requires a minimum grade of C)		

Internship Course

GEB 4941 in conjunction with an internship of at least 150 credits before the start of the senior year. The internship requirement can be waived for students who participate in a study abroad experience of at least six weeks. Students who waive the requirement via study abroad are strongly encouraged to complete at least one internship to improve their chances of obtaining full-time employment and/or admission to graduate programs or law school. Students should consult an academic advisor/career coach for more information.

- Bachelor of Science in Business Administration, UF Online (p. 1198)
- Business Administration minor (p. 1197)
- Business Administration minor, UF Online (p. 1197)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=520201&track=01) may be used for transfer students.

To remain on track for the BABA-GBA major, students must meet the critical-tracking criteria listed below. The critical-tracking GPA is calculated based on all attempts of the critical-tracking courses or their equivalents. After a student receives a minimum grade of C in a critical-tracking course or its equivalent, no subsequent grade in that course or its equivalent will be used in the calculation of the critical-tracking GPA.

Semester 1

- Complete 1 critical-tracking course from ACG 2021, ACG 2071, CGS 2531 or ISM 3013, ECO 2013, ECO 2023, MAC 2233, STA 2023
- 2.5 GPA on all attempts of critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses for a total of 3 critical-tracking courses
- 2.75 GPA on all attempts of critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses (including ACG 2021) for a total of 5 critical-tracking courses
- 3.0 GPA on all attempts of critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete all 7 critical-tracking courses
- 3.0 GPA on all attempts of critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Meet all semester 1-4 critical-tracking requirements
- 2.0 UF GPA required (and maintained through semester 8)

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Entrepreneurship Minor

This minor provides all interested undergraduates with a robust set of entrepreneurship courses and experiential learning activities from which to master the core entrepreneurial competencies required to create or work in new ventures.

About this Program

- **College:** Heavener School of Business (p. 1192)
- **Credits:** 17-19 | Completed with an overall 2.0 GPA in the minor and a cumulative 2.0 UF GPA

All courses for the minor must be taken for letter grade. All attempts at courses for the minor will be averaged into the minor GPA. All 3000/4000-level courses required for the minor must be taken at UF or via a study abroad program preapproved by the Heavener School of Business. UF flexible learning courses will not count toward the minor.

To declare the minor, students must first complete ACG 2021 with a minimum grade of C and ENT 3003 with a minimum grade of B.

Required Courses

Finance

The Bachelor of Science in Business Administration-Finance (BSBA–FIN) degree program provides a broad overview of the functional areas of business with an emphasis in finance. Students take foundation courses in economics, mathematics, computing skills and accounting; core courses that relate to the basic functions of business, such as finance, management, marketing and operations management; and major courses that develop students' financial decision-making skills.

About this Program

- **College:** Heavener School of Business (p. 1192)
- **Degree:** Bachelor of Science in Business Administration
- **Credits for Degree:** 120
- **Additional Information**
- **Related Finance Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The Bachelor of Science in Business Administration-Finance (BSBA-FIN) degree program focuses on the acquisition and management of funds by businesses, financial markets, security analysis and valuation, management of financial institutions, interest rates, investments and securities, financial risk management, security trading, government policy and financial markets, financial forecasting, capital structure, venture capital and security issuance. The finance curriculum prepares students for careers in corporate financial management and the financial services industry. Finance graduates can also pursue graduate studies in business, law and public administration.

BSBA-FIN majors are encouraged to gain practical work experience through internships, student organizations and community service. In addition, the Heavener School of Business offers students a wide variety of academic and career and leadership programs, including study abroad, the Florida

Leadership Academy, involvement in student organizations and research activities. Students should consult an academic advisor/career coach for specific information.

Requirements for the Major

BSBA-FIN majors must maintain a 2.0 core, major and UF GPA. Students must read the individual course descriptions in this catalog to determine the prerequisites for their required courses. In addition to the critical-tracking and general education courses outlined below, BSBA-FIN majors must take 120 credits, including:

Code	Title	Credits
Core Courses		
BUL 4310	The Legal Environment of Business	4
FIN 3403	Business Finance	4
GEB 3373	International Business	4
MAN 3025	Principles of Management	4
MAN 4504	Operations and Supply Chain Management	4
MAR 3023	Principles of Marketing	4
QMB 3250	Statistics for Business Decisions	4
Major Courses		
ACG 3101	Financial Accounting and Reporting 1	4
ACG 4111	Financial Accounting and Reporting 2	4
FIN 4243	Debt and Money Markets	4
FIN 4414	Financial Management	4
FIN 4504	Equity and Capital Markets	4
Restricted Elective Courses		
Any 3000/4000-level courses or 1000/4000-level foreign language courses [1]		11-12
Professional Communication Course		
Select one (requires a minimum grade of C):		
GEB 3213	Professional Writing in Business	
GEB 3218	Professional Speaking in Business	
SPC 2608	Introduction to Public Speaking	
ENC 3312	Advanced Argumentative Writing	
A similar course with prior approval		
Internship Course		
GEB 4941	Internship in Business Administration [2]	1
Total Credits		60-61

1 One electronic platform course (ENT 3003, GEB 3035, ISM 3004 or REE 3043) can be taken to fulfill the restricted elective requirement. Internship, independent study or assistantship credit will not count toward this requirement.

2 GEB 4941 (one credit) in conjunction with an internship of at least 150 credits before the start of the senior year. The internship requirement can be waived for students who participate in a study abroad experience of at least six weeks. Students who waive the requirement via study abroad are strongly encouraged to complete at least one internship to improve their chances of obtaining full-time employment and/or admission to graduate programs or law school. Students should consult an academic advisor/career coach for more information.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=520801&track=01) may be used for transfer students.

To remain on track for the BSBA-FIN major, students must meet the critical-tracking criteria, including earning a minimum grade of B in ACG 2021 and ACG 2071 and a minimum grade of B in FIN 3403. The critical-tracking GPA is calculated based on all attempts of the critical-tracking courses or their equivalents. After a student receives a minimum grade of C in a critical-tracking course or its equivalent, no subsequent grade in that course or its equivalent will be used in the calculation of the critical-tracking GPA.

Semester 1

- Complete 2 critical-tracking courses from ACG 2021, ACG 2071, CGS 2531 or ISM 3013, ECO 2013, ECO 2023, MAC 2233, MAC 2234, STA 2023
- 2.5 GPA on all attempts of critical-tracking courses, excluding FIN 3403
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses for a total of 4 critical-tracking courses
- 2.75 GPA on all attempts of critical-tracking courses, excluding FIN 3403
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses (including ACG 2021) for a total of 6 critical-tracking courses
- Complete ACG 2021 with a minimum grade of B
- 3.0 GPA on all attempts of critical-tracking courses, excluding FIN 3403
- 2.0 UF GPA required

Semester 4

- Complete 8 of the 9 critical-tracking courses, excluding FIN 3403
- Complete ACG 2071 with a minimum grade of B
- 3.0 GPA on all attempts of critical-tracking courses, excluding FIN 3403
- 2.0 UF GPA required

Semester 5

- Complete FIN 3403 with a minimum grade of B
- Meet all semester 1-4 critical-tracking requirements
- 2.0 UF GPA required and maintained through semester 8

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

	Total Credits	120

Academic Learning Compact

A bachelor's degree in business administration enables students to achieve foundation knowledge in economics, accounting, finance, management, marketing, business law, statistics, operations management, human resource management, information technology and entrepreneurship. Special emphasis is placed on understanding the links between various business disciplines and the development of sound business plans. Students will be able to effectively analyze a business entity's strengths and weaknesses as well as investigate the opportunities and threats present in the business environment.

The finance major covers the basics of financial statements, working capital management, capital budgeting decisions, the types of securities available to investors, and the risk/return attributes of those securities as well as factors affecting pricing.

Before Graduating Students Must

- Take the ETS Major Field Test in Business as part of MAN 4504. The ETS exam covers nine content areas in business. The score describes your performance relative to other seniors in business and accounting at 600+ colleges and universities (e.g., top 15% in the nation compared to your peers).
- Complete requirements for the baccalaureate degree, as determined by the faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Demonstrate knowledge and understanding of elements of economics, financial accounting, marketing, operations management, organizational behavior, business law, information technology, business statistics and social responsibility.

2. Demonstrate proficiency in the use of business-related software applications.
3. Define the ethical responsibilities of business organizations and identify relevant ethical issues.
4. Understand how the business environment, including culture, differs across countries.
5. Possess awareness of cultural differences and how these differences affect business decisions.
6. Identify characteristics and roles of groups and teams.
7. Identify characteristics and roles of managers and leaders.
8. Possess knowledge in an area of specialization outside the disciplines of business and accounting.

Critical Thinking

9. Specify and implement a framework for identifying a business problem and develop alternative solutions and a set of evaluation criteria.
10. Assess the outcomes of a course of action and make appropriate adjustments.

Communication

11. Write business documents clearly, concisely and analytically.
12. Speak in groups and in public clearly, concisely and analytically, with appropriate use of visual aids.

Information Systems

The Bachelor of Science in Business Administration–Information Systems (BSBA-IST) degree program provides a broad overview of the functional areas of business with an emphasis in information systems. Students take foundation courses in economics, mathematics, computing skills and accounting; core courses that relate to the basic functions of business, such as finance, management, marketing and operations management; and major courses that focus on the computing, quantitative and application skills that are vital to a business problem-solving setting.

About this Program

- **College:** Heavener School of Business (p. 1192)
- **Degree:** Bachelor of Science in Business Administration
- **Credits for Degree:** 120
- **Additional Information**
- **Related Information Systems Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The Bachelor of Science in Business Administration–Information Systems (BSBA-IST) degree program is designed for students who are interested in information systems, information technology and supply chain management. The information systems curriculum prepares students for positions as decision support specialists, information systems specialists and systems analysts. Graduates of this program can pursue graduate studies in information systems, operations management, supply chain management or business.

BSBA-IST majors are encouraged to gain practical work experience through internships, student organizations and community service. In addition, the Heavener School of Business offers students a wide variety of academic and career and leadership programs, including study abroad, the Florida Leadership Academy, involvement in student organizations (http://warrington.ufl.edu/undergraduate/myheavener/organizations.asp) and research activities. Students should consult an academic advisor/career coach for specific information.

Requirements for the Major

BSBA-IST majors must maintain a 2.0 core, major and UF GPA. Students must read the individual course descriptions in this catalog to determine the prerequisites for their required courses. Information Systems Minor

The information systems minor provides undergraduates with a major in business or accounting with an overview of the computing, quantitative, and application skills that are vital to a business problem-solving setting.

About this Program

- **College:** Heavener School of Business (p. 1192)
- **Credits:** 17 | Completed with a 2.0 GPA in the minor and a 2.0 cumulative UF GPA
- **Related Information Systems Programs**

This minor is only open to undergraduate students majoring in business or accounting.

All courses for the minor must be taken for letter grade. All attempts at courses for the minor will be averaged into the minor GPA. All 3000/4000-level courses required for the minor must be taken at UF or via a study abroad program that is pre-approved by the Heavener School of Business. Flexible learning courses will not count toward the minor.

Management

The Bachelor of Science in Business Administration-Management (BSBA-MGT) degree program provides a broad overview of the functional areas of business with an emphasis in management. Students take foundation courses in economics, mathematics, computing skills and accounting; core courses that relate to the basic functions of business, such as finance, management, marketing and operations management; and major courses that focus on the behavioral and organizational problems of management.

About this Program

- **College:** Heavener School of Business (p. 1192)
- **Degree:** Bachelor of Science in Business Administration
- **Credits for Degree:** 120
- **Additional Information**
- **Related Management Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The BSBA-MGT curriculum focuses on the structure and behavior of organizations, the management of human resources, and the creation, use and evaluation of strategies that help organizations achieve competitive advantages. The BSBA-MGT degree prepares students for a broad range of occupations in virtually every sector of the economy. Graduates can also pursue graduate studies in business, hospital administration, urban and regional planning and the social sciences.

BSBA-MGT majors are encouraged to gain practical work experience through internships, student organizations and community service. In addition, the Heavener School of Business offers students a wide variety of academic and career and leadership programs, including study abroad, the Florida Leadership Academy, involvement in student organizations and research activities. Students should consult an academic advisor/career coach for specific information.

Requirements for the Major

BSBA-MGT majors must maintain a 2.0 core, major and UF GPA. Students must read the individual course descriptions in this catalog to determine the prerequisites for their required courses. In addition to the critical-tracking and general education courses outlined below, BSBA-MGT majors must take 120 credits, including:

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=520201&track=01) may be used for transfer students.

To remain on track for the BSBA-MGT major, students must meet the critical-tracking criteria listed below. The critical-tracking GPA is calculated based on all attempts of the critical-tracking courses or their equivalents. After a student receives a minimum grade of C in a critical-tracking course or its equivalent, no subsequent grade in that course or its equivalent will be used in the calculation of the critical-tracking GPA.

Semester 1

- Complete 1 critical-tracking course from ACG 2021, ACG 2071, CGS 2531 or ISM 3013, ECO 2013, ECO 2023, MAC 2233, STA 2023
- 2.50 GPA on all attempts of critical-tracking courses, excluding MAN 3025
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses for a total of 3 critical-tracking courses
- 2.75 GPA on all attempts of critical-tracking courses, excluding MAN 3025
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses (including ACG 2021) for a total of 5 critical-tracking courses
- 3.0 GPA on all attempts of critical-tracking courses, excluding MAN 3025
- 2.0 UF GPA required

Semester 4

- Complete 7 of the 8 critical-tracking courses, excluding MAN 3025
- 3.0 GPA on all attempts of critical-tracking courses, excluding MAN 3025
- 2.0 UF GPA required

Semester 5

- Complete MAN 3025 with a minimum grade of C
- Meet all semester 1-4 critical-tracking requirements
- 2.0 UF GPA required (and maintained through semester 8)

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
ECO 2023	Principles of Microeconomics (**Critical Tracking**; Gen Ed Social and Behavioral Sciences)	4

[1] Minimum grade of C required.

Academic Learning Compact

A bachelor's degree in business administration enables students to achieve foundation knowledge in economics, accounting, finance, management, marketing, business law, statistics, operations management, human resource management, information technology and entrepreneurship. Special emphasis is placed on understanding the links between various business disciplines and the development of sound business plans. Students will be able to effectively analyze a business entity's strengths and weaknesses as well as investigate the opportunities and threats present in the business environment.

The management major covers the key topics of organizational behavior, human resource management and business strategy. Within these three main topics, students learn about important areas such as leadership, effective teams and groups, employee evaluation systems and corporate governance.

Before Graduating Students Must

- Take the ETS Major Field Test in Business as part of MAN 4504. The ETS exam covers nine content areas in business. The score describes your performance relative to other seniors in business and accounting at 600+ colleges and universities (e.g., top 15% in the nation compared to your peers).
- Complete requirements for the baccalaureate degree, as determined by the faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Demonstrate knowledge and understanding of elements of economics, financial accounting, marketing, operations management, organizational behavior, business law, information technology, business statistics and social responsibility.
2. Demonstrate proficiency in the use of business-related software applications.
3. Define the ethical responsibilities of business organizations and identify relevant ethical issues.
4. Understand how the business environment, including culture, differs across countries.
5. Possess awareness of cultural differences and how these differences affect business decisions.
6. Identify characteristics and roles of groups and teams.
7. Identify characteristics and roles of managers and leaders.
8. Possess knowledge in an area of specialization outside the disciplines of business and accounting.

Critical Thinking

9. Specify and implement a framework for identifying a business problem and develop alternative solutions and a set of evaluation criteria.
10. Assess the outcomes of a course of action and make appropriate adjustments.

Communication

11. Write business documents clearly, concisely and analytically.
12. Speak in groups and in public clearly, concisely and analytically, with appropriate use of visual aids.

Marketing

The Bachelor of Science in Business Administration-Marketing (BSBA-MKG) degree program provides a broad overview of the functional areas of business with an emphasis in marketing. Students take foundation courses in economics, mathematics, computing skills and accounting; core courses that relate to the basic functions of a business, such as finance, management, marketing and operations management; and major courses that teach students how to plan and execute the conception, pricing, promotion and distribution of products and manage customer relationships in ways that benefit organizations and their stakeholders.

About this Program

- **College:** Heavener School of Business (p. 1192)
- **Degree:** Bachelor of Science in Business Administration
- **Credits for Degree:** 120
- **Additional Information**

To graduate with this major, students must complete all university, college, and major requirements.

The BSBA-MKG curriculum focuses on consumer behavior, development and analysis of marketing strategies, retail management, marketing research, sales management and international marketing. The BSBA-MKG curriculum prepares students for careers in sales, marketing research, brand management, retail marketing and marketing communications, and for graduate studies in business, advertising and the social sciences.

BSBA-MKG majors are encouraged to gain practical work experience through internships, student organizations and community service. In addition, the Heavener School of Business offers students a wide variety of academic and career and leadership programs, including study abroad, the Florida Leadership Academy, involvement in student organizations and research activities. Students should consult an academic advisor/career coach for specific information.

Requirements for the Major

BSBA-MKG majors must maintain a 2.0 core, major and UF GPA. Students must read the individual course descriptions in this catalog to determine the prerequisites for their required courses. In addition to the critical-tracking and general education courses outlined below, BSBA-MKG majors must take 120 credits, including:

Code	Title	Credits

Internship Course		
GEB 4941	Internship in Business Administration [2]	
Total Credits		61-62

1 Internship, independent study or assistantship credit will not count toward this requirement.

2 In conjunction with an internship of at least 150 credits before the start of the senior year. The internship requirement can be waived for students who participate in a study abroad experience of at least six weeks. Students who waive the requirement via study abroad are strongly encouraged to complete at least one internship to improve their chances of obtaining full-time employment and/or admission to graduate programs or law school. Students should consult an academic advisor/career coach for more information.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=521401&track=01) may be used for transfer students.

To remain on track for the BSBA-MKG major, students must meet the critical-tracking criteria listed below. The critical-tracking GPA is calculated based on all attempts of the critical-tracking courses or their equivalents. After a student receives a minimum grade of C in a critical-tracking course or its equivalent, no subsequent grade in that course or its equivalent will be used in the calculation of the critical-tracking GPA.

Semester 1

- Complete 1 critical-tracking course from ACG 2021, ACG 2071, CGS 2531 or ISM 3013, ECO 2013, ECO 2023, MAC 2233, STA 2023
- 2.50 GPA on all attempts of critical-tracking courses, excluding MAR 3023
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses for a total of 3 critical-tracking courses
- 2.75 GPA on all attempts of critical-tracking courses, excluding MAR 3023
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses (including ACG 2021) for a total of 5 critical-tracking courses
- 3.0 GPA on all attempts of critical-tracking courses, excluding MAR 3023
- 2.0 UF GPA required

Semester 4

- Complete 7 of the 8 critical-tracking courses, excluding MAR 3023
- 3.0 GPA on all attempts of critical-tracking courses, excluding MAR 3023
- 2.0 UF GPA required

Semester 5

- Complete MAR 3023 with a minimum grade of C
- Meet all semester 1-4 critical-tracking requirements
- 2.0 UF GPA required (and maintained through semester 8)

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Real Estate Minor

The real estate minor: (1) introduces the business of commercial real estate, including the roles, activities, and players in the industry, common terminology, and the real estate transaction process, and (2) prepares students to make sound decisions concerning real estate use and investment. The minor also exposes the numerous career paths available in the commercial real estate industry, including development, real estate appraisal and investment, leasing and asset management, mortgage lending, and commercial brokerage.

About this Program

- **College:** Heavener School of Business (p. 1192)
- **Credits:** 22-23 | Completed with an overall 3.0 GPA in the minor and a cumulative UF GPA of 2.0

All courses for the minor must be taken for letter grade. All attempts at courses for the minor will be averaged into the minor GPA. All 3000/4000-level courses required for the minor must be taken at UF or via a study abroad program preapproved by the Heavener School of Business. Flexible learning courses will not count toward the minor.

Students who completed BUL 4310 at another Florida public university can petition the school to take a higher-level course in that discipline to satisfy requirements for the minor.

Required Courses

Academic Advising and Career Coaching

Center for Student Excellence
204 Weil Hall
352.392.0944

Established

1910

Programs

A four-year undergraduate program and combined-degree program with joint award of bachelor's and master's degrees in 15 engineering specializations.

Degrees

Bachelor of Science, Master of Science, Master of Civil Engineering, Master of Engineering, Doctorate.

Academic Advising

First Year students receive academic advising and career coaching in the Center for Student Excellence. All first-year student complete a required First Year Engineering Advising (https://www.eng.ufl.edu/students/advising) course designed to teach them how to navigate their academic

planning, and successfully transition from high school to college. Students who successfully complete their first year are transitioned to departmental advising. All engineering students must contact an advisor before registering for classes each semester.

Scholarships

Scholarship awards are made each spring for the following academic year and are based on demonstrated need and scholastic performance. Applications are available in the fall semester and students are notified by Undergraduate Student Affairs.

Internships and Career Guidance

Professional development guidance is available from academic advisors, faculty, and the Career Connections Center. Visit the Career Connections Center in the J. Wayne Reitz Student Union.

College Mission

The Herbert Wertheim College of Engineering fosters and provides world-class programs in engineering education, research and service to enhance the economic and social well-being of the citizens of Florida, the nation and the world.

Graduates of the Herbert Wertheim College of Engineering at the University of Florida will exhibit the following in pursuit of their profession:

- Vision, as evidenced by an ability to use creative approaches to problem solving.
- Values, as evidenced by an understanding of the importance of employing strong professional ethics.
- Leadership, as evidenced by serving as:
  - A team/project leader with solid project management and planning skills
  - A mentor to less experienced staff
  - A volunteer in the community
- Professional expertise, as evidenced by:
  - Making meaningful contributions to technical engineering problem solving as both an individual contributor and in team situations
  - Continually enhancing both technical and non-technical skills
  - Applying professional expertise to increasingly complex problems/projects
  - Increasingly capable communications skills, both verbal and written
  - Knowledge about the interaction of financial, societal, legal or cultural influences with science and technology.

Accreditation

For information about a specific major, please refer to the departmental webpage, contact the undergraduate coordinator in the department, or visit the Center for Student Excellence in 204 Weil Hall.

Particle Engineering Research Center (PERC)
More Info (http://www.erc.ufl.edu)

Information about the center's research, education and technology transfer programs: 352.846.1194 or Email (erc@erc.ufl.edu).

Engineering Undergraduate Student Affairs

Engineering student services are provided through Engineering Undergraduate Student Affairs located in 312 and 204 Weil Hall (http://campusmap.ufl.edu/?loc=0024). Undergraduate Student Affairs is responsible on a college-wide basis for coordinating academic advising and developing and implementing other student support programs and services, including career/college life coaching, success workshops, study halls, tutoring and mentoring, retention efforts, and new student programs.

The division informs students of educational opportunities such as scholarships, tuition waivers, co-op and internship opportunities and available campus resources. The division also serves as liaison between the Herbert Wertheim College of Engineering and university-wide student services and facilities.

First Year Academic Advising and Career Coaching

First year engineering students receive individualized academic, career, and personal coaching from the Herbert Wertheim College of Engineering's professional academic advisors and career coaches in our comprehensive First Year Advising program. One-on-one and small group sessions are offered to assist students in identifying majors, resources, and opportunities that will enhance their personal, professional, and academic goals. Engineering Peer Advisors are also available to answer questions, discuss student organizations and design teams, and provide mentoring to new students. The Engineering Center for Student Excellence is located in 204 Weil Hall (http://campusmap.ufl.edu/?loc=0024).

Multicultural and Diversity Programs

These programs provide focused support to under-represented groups in the engineering profession. Students receive the personal, academic, social and cultural support they need to achieve academic success.

Services include orientation to UF and the college, academic and career advice, leadership development, engineering success skill development, coaching, financial assistance and tutoring.

First Year College Transition Programs

The college offers transition programs for incoming freshmen to help them adjust to college life at the university.

STEP-UP is a multifaceted bridge program designed to promote academic and personal success among entering engineering students throughout their first year (Summer B, fall and spring). This program combines faculty and peer mentoring with team-building, industry involvement and academic enhancement classes in engineering foundation courses. An engineering design component provides the opportunity to apply foundational concepts in problem-solving, team-building and interpersonal communications.

Pre-Collegiate K-12 Programs

The Herbert Wertheim College of Engineering supports the university's land-grant mission through a wide range of programs that support student preparation in grades K-12. These include the Gator Engineering

Outreach Program, SECME, Engineering GatorTrax and information programs for students and guidance counselors.

Information about these programs: Engineering Undergraduate Student Affairs, 212 Weil Hall (http://campusmap.ufl.edu/?loc=0024).

Academic Policies

Admission to the College

Preparation for Freshmen and Sophomores

The beginning engineering student should have a good understanding of the basic physical sciences, a demonstrated ability in mathematics and the competence to read rapidly with comprehension.

Minimum high school preparation should include the basics outlined below. Students who need additional foundation courses can complete appropriate math and chemistry courses before proceeding with the regular engineering curriculum.

Refer to freshman admission for complete information.
More Info (p. 16)

Essentials	Years
Intermediate and advanced algebra	1
Plane geometry	1
Trigonometry	1/2
Chemistry	1
Physics	1
Calculus	1

General Education

Students must complete general education and prescribed foundation coursework in mathematics and the physical and biological sciences before pursuing junior/senior-level courses in the college. All courses used to satisfy general education requirements must be taken for a letter grade and a minimum grade of C is required. Requirements of the Accreditation Board for Engineering and Technology (ABET) in general education are satisfied by the university's general education requirements.

Transfer from Florida State Colleges

Florida state college students who have completed the Associate of Arts degree and the required technical foundation courses in calculus, differential equations, chemistry and physics with calculus are eligible to apply for transfer directly into the Herbert Wertheim College of Engineering. Admission to the college is selective and is based on the total record. Students with excessive withdrawals from coursework may not be eligible.

In particular, transfer students must meet the following minimum requirements:

- Earn an Associate of Arts degree from a Florida public state college with a minimum GPA of 2.00.
- Satisfy the general education requirements of the state college and comply with the general education requirements of UF and the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology.
- Complete two sequential courses of foreign language in secondary school or 8-10 semester credits at the post-secondary level or document an equivalent level of proficiency.
- Satisfy critical-tracking criteria in accordance with specific program requirements and overall grade point average.
- Complete critical-tracking courses in calculus, differential equations, chemistry and physics with calculus with minimum grades of C in each course and a minimum GPA of 2.5 (as computed on the last of a maximum of two attempts allowed for each course, including withdrawals). For certain majors, a higher grade is required in each course. Some majors have additional critical tracking courses.

Upper Division Transfer from a Non-Florida State College

All students who transfer from four-year institutions must meet the general admission requirements of the university. In addition, students must meet the college's admission requirements to transfer directly into an engineering program. Students with 60 or more credits earned but less than 90 credits will be considered on a space-available basis.

Students with more than 90 credits earned and applying from a non-Florida state/public college are generally not considered for admission.

All students transferring to UF must complete a minimum of 60 credits of acceptable 3000/4000-level coursework at UF to receive a degree from this college.

Unless previous arrangements have been made for course certification by faculty of the Herbert Wertheim College of Engineering, only engineering courses taken in programs accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology will be considered for transfer to this college.

Postbaccalaureate Admission

A student who has received a baccalaureate degree who wants to meet specific requirements for admission to graduate school may be admitted as a postbaccalaureate student. Space is limited for postbaccalaureate study and only where space is available will admissions be made for postbaccalaureate studies.

Overseas Studies

HWCOE International Engineering Programs offers students the opportunity to participate in international experiences, through study, research, internship and service learning abroad. Students can study abroad for a semester and take major classes or participate in a summer program to gain research or internship experiences. There are more than 40 semester-long exchange programs in more than 20 countries that offer engineering classes in English to help students stay on track for their academic program. Credits earned in study abroad programs may count toward a major or minor and can satisfy general education, language and summer residency requirements.

Every engineering student has a unique academic plan and we work with the individual student to customize their international experience. For more information, go to https://www.eng.ufl.edu/international or talk to your academic advisor to find out more.

Academic Regulations

Credit for Special Work

- With department approval, a student can receive practical industry work experience under supervision. With a previously approved outline, a student can receive up to three college credits by submitting a satisfactory report and by passing an examination.
- Students can receive credit for research work by registering for EGN 4912. See your academic advisor for details.
- A student cannot apply more than eight credits of individual study, including high honors projects, co-op work experience, practical work experience and special problems or special topics, for credit toward a degree program.

Dean's List (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#deanslisttext)

Drop Policy

Students are allowed two drops in the first 60 credits of UF coursework and two drops in upper division (60 or more credits completed at UF).

A student with an initial course load of 15 credits or more will be permitted an extra drop if the drop is completed by the end of the seventh week of class and if the total credits remaining are 12 or more.

Petitions to drop courses beyond the allotted number will be approved only when circumstances beyond the student's control prevented the satisfactory completion of a course. All such petitions must be submitted to Engineering Undergraduate Student Affairs, along with a written recommendation from the student's department advisor.

English Requirement

Each student in the college is required to complete ENC 1101 or ENC 1102. All students must also complete an appropriate course in professional communication with a minimum grade of C.

Any instructor in the college may require a student with a deficiency in English to complete additional coursework beyond the curriculum requirements for the degree, with approval of the department chair.

Flexible Learning

An enrolled engineering student will not be permitted to register for flexible learning courses unless the associate dean for student affairs and the registrar grant special permission. A student on probation must have permission of the associate dean to register for flexible learning courses when not enrolled in the college. A student who has been dismissed cannot take flexible learning courses for credit until the suspension is removed. A minimum grade of C is required for credit in a flexible learning course.

Grievance Procedures

The college supports the university's Affirmative Action and Equal Opportunity program. Anyone who believes that they have been discriminated against should contact the associate dean for student affairs.

If a student feels that their performance in a course has not been evaluated accurately, the situation should be discussed with the instructor. If the disagreement is not resolved, the student can pursue the matter with the instructor's department chair, the associate dean for student affairs and the university ombudsman.

Honors and Accelerated Courses

Honors and accelerated courses can be taken in place of their regular tracking counterparts. A prerequisite for any college course can be met by an honors or accelerated equivalent. Accelerated physics and honors chemistry courses are not restricted to students in the honors program, but honors calculus courses are controlled by the university honors program. Currently approved substitutions include:

- PHY 2060 instead of PHY 2048
- PHY 2061 instead of PHY 2049

Independent Study

Under certain circumstances, credit toward graduation may be obtained through independent study by registering for a course carrying a department prefix. A student cannot apply more than eight credits of independent study toward a degree program, including *magna cum laude* or *summa cum laude* honors projects, co-op work experience, practical work experience and special problems or special topics. Registration for one to four credits of variable credit in a semester requires department approval.

Probation Policy and Dismissal

An undergraduate student who is off-track or whose upper-division, university or department grade point average falls below 2.00 will be placed on academic probation. The student will be allowed two semesters to attain good academic standing. Students may not be on academic probation for more than two semesters during their undergraduate program. A student who fails to meet the conditions of probation must petition their department to be allowed to continue in the major. Approval of this petition is at the discretion of the student's department.

As a condition of probation, students must see an advisor at designated intervals to review progress toward meeting the conditions of probation. Failure to keep such appointments without valid reason will be considered a violation of probation and may result in dismissal from the program.

Students dismissed from the Herbert Wertheim College of Engineering should seek admission to another program.

Students should acquaint themselves with their department's probation and exclusion procedures and guidelines.

ROTC

Engineering students can enroll in the advanced ROTC programs offered by the Army, Navy and Air Force. Graduates will be commissioned as second lieutenants or ensigns. Advanced courses in military science are not normally acceptable credit as technical or nontechnical electives toward an engineering degree.

S-U Grade Option

All courses taken at the university to satisfy engineering degree requirements, general education and writing requirements must be taken for letter grade, unless the course is offered only on a satisfactory-unsatisfactory (S-U) basis. Nontechnical electives in the junior and senior years can be taken S-U.

Physical education courses taken when an engineering student has reached junior status must be taken S-U.

Students should check with their departments to determine policy.

Student Responsibility

It is the student's responsibility to review and consider all pertinent information about the university and the college. Special attention must be paid to required documentation and deadlines.

Summer Attendance

Students who have completed a summer study abroad program, co-op, internship, research experience, or other engineering-related work can petition to waive this requirement once they have earned 75 credit hours. All petitions must be submitted to the university petitions committee with all appropriate documentation.

Transient Students

This category includes students who are admitted to the college who wish to pursue studies temporarily at another two- or four-year institution. Students who wish to transfer credits for coursework completed at other institutions must first obtain department and college approvals.

A transient student who is a degree-seeking candidate at another institution who wishes to transfer credit from the University of Florida must file a non-degree application with the Office of the University Registrar in Criser Hall.

Withdrawal from the University

Any undergraduate who withdraws from the university a second time will be placed on college probation automatically until graduation. Any student on college probation who withdraws from the university a third time may be, at the discretion of the associate dean for undergraduate student affairs, ineligible for further registration in the college.

Degree Requirements

The Herbert Wertheim College of Engineering confers a Bachelor of Science degree upon all students who have successfully completed a program of study and have fulfilled all requirements for a specific major in the college.

A thesis is not required for the baccalaureate degree. However, the department can grant permission to exceptional students to undertake a thesis in lieu of up to four semester credits of required or elective work in the student's department.

Required Minimum Grade Point Averages

- 2.5 GPA is required in critical-tracking courses
- 2.0 GPA is required for all courses in the college
- 2.0 GPA is required in all courses in the department
- 2.0 GPA is required in all courses taken after being classified as an upper division student
- 2.0 cumulative GPA is required in all work attempted at the university

All grade point averages are based on a 4.0 scale computed on the last of the maximum two attempts (including withdrawals) allowed for each course.

Technical Foundation Courses

Technical coursework is required of all students. This coursework also satisfies the mathematics and physical/biological science categories of the general education requirement. Generally, all technical coursework must be completed or be in final progress before a student can register for junior/senior-level engineering courses. Minimum grades of C are required in all calculus, chemistry and physics coursework based on a maximum of two attempts, including withdrawals.

Some departments may have higher requirements.

Critical-Tracking Criteria

The Herbert Wertheim College of Engineering has established tracking criteria for all programs. Applicants with specific questions can contact the department or Engineering Undergraduate Student Affairs.

Students must fulfill the performance criteria for their program's tracking courses. Students who are off-track will be placed on probation. Students who fail to meet the conditions of their probation may not be allowed to continue in the Herbert Wertheim College of Engineering.

A minimum grade of C (based on a maximum of two attempts, including withdrawals) is required for each tracking course. Students may repeat a maximum of three critical tracking courses. A minimum 2.5 critical-tracking GPA is required for students to continue to the upper-division engineering program. Some departments require a grade higher than C in critical-tracking courses. Students are expected to complete all critical tracking courses by the fifth fall/spring semester.

To be on track, students must meet or exceed these minimum performance criteria.

Tracking Courses

Semesters at UF	Minimum Completed	Minimum GPA	Minimum Overall UF GPA
First	1	2.5	2.0
Second	2	2.5	2.0
Third	4	2.5	2.0
Fourth	6	2.5	2.0
Fifth	8	2.5	2.0

Required Tracking Courses: All Engineering Majors

Courses	Credits
Mathematics	15 credits
Calculus	
MAC 2311[1]	4
MAC 2312	4
MAC 2313	4
Differential Equations	
MAP 2302	3
Physical/Biological Sciences	16 credits
Physics	
PHY 2048	3
PHY 2048L	1
PHY 2049	3
PHY 2049L	1
Chemistry	

CHM 2045 or CHM 2095[1,2]	3
CHM 2045L	1
CHM 2046 or CHM 2096[3]	3
CHM 2046L	1
Additional critical tracking requirements[4]	
Refer to specific major plan	

1. Calculus and chemistry placement will be determined by student scores on the online ALEKS assessment test, which is required for all engineering students.
2. Industrial and systems engineering majors: CHM 2045 is not required for tracking; however, it is required for graduation.
3. Aerospace engineering, civil engineering, computer engineering, computer science, digital arts and sciences, electrical engineering, industrial and systems engineering, mechanical engineering, and nuclear engineering either do not require CHM 2046/CHM 2096 or may substitute another course.
4. Additional critical tracking requirements for specific majors are listed in the major degree programs.

Progression to Graduation

The programs leading to bachelor's degrees in engineering are carefully planned and organized sequences. The highly motivated student with proper high school preparation can complete these programs in four years, including at least one summer term, by scheduling an average of 15 credits each semester.

Usually, foundation subjects common to all fields of engineering are studied in the first two years at the university or in a pre-engineering program at a state or community college. Specialized study is taken in the junior and senior years within a department of the college, where the program is tailored to the student's preparation, interests and career goals.

The specific requirements for each major are outlined. Students must consult their academic advisors each semester before registering for classes.

Graduating with Honors (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonorstext)

Programs

MAJORS

- Aerospace Engineering
- Biological Engineering
- Biomedical Engineering
- Chemical Engineering
- Civil Engineering
- Computer Engineering
- Computer Science | Herbert Wertheim College of Engineering
- Digital Arts and Sciences | Bachelor of Science
- Electrical Engineering
- Engineering | Exploring Engineering Studies
- Environmental Engineering
- Industrial and Systems Engineering
- Materials Science and Engineering
- Mechanical Engineering
- Nuclear and Radiological Sciences
- Nuclear Engineering

MINORS

- Biomechanics Minor
- Biomolecular Engineering Minor
- Computer and Information Science and Engineering Minor
- Electrical Engineering Minor
- Engineering Innovation Minor
- Materials Science and Engineering Minor
- Nuclear and Radiological Engineering Minor
- Sales Engineering Minor

CERTIFICATES

- Advanced Engineering Ceramics Certificate
- Biomaterials Certificate
- Engineering Innovation Certificate
- Engineering Leadership Certificate
- Metallurgical Engineering Certificate
- Nuclear Radiation and Reactor Analysis Certificate
- Nuclear Thermal Systems Analysis Certificate
- Polymer Science and Engineering Certificate
- Semiconductor Materials Certificate

Computer-Related Degrees

The Herbert Wertheim College of Engineering has responsibility for teaching all computer courses included in computer-related degree programs at the University of Florida. These degrees are offered in the colleges of Business, Engineering, and Liberal Arts and Sciences.

Computer Engineering Programs

Computer Engineering (CPE) is a joint program of the Computer and Information Science and Engineering (CISE) and the Electrical and Computer Engineering (ECE) departments. The Bachelor of Science in Computer Engineering (BSCPE) is offered by both departments and requires 126 credits for graduation.

This degree program produces a computer engineer who has the knowledge of hardware and software to build working computer systems from electronic components and to program them for a variety of tasks.

Students with interests in software systems and algorithms should pursue a major through the CISE department; students with interests in computer hardware or electrical engineering should pursue a major through the ECE department.

Refer to the CISE and ECE department sections for the BSCPE degree curriculum. For additional information on computer engineering degree options, please contact an academic advisor in either department or the dean's office.

Other Combined Degree Programs in Engineering

Qualified students can pursue a bachelor's and a master's degree concurrently. These combined-degree programs are offered in all departments within the Herbert Wertheim College of Engineering.

More Info (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)

Advanced Engineering Ceramics Certificate

The advanced engineering ceramics certificate enables students to specialize in a concentration of modern approaches to the analysis of technical ceramic materials. It also helps students from other disciplines enhance their degree by including a dedicated knowledge of a specific material class.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)
- **Credits:** 10 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Upon completion of the certificate, students will have a fundamental basis for designing and analyzing structures and components made of advanced technical ceramic materials.

Prerequisite Courses

Code	Title	Credits
CHM 2045	General Chemistry 1	3
or CHM 2095	Chemistry for Engineers 1	
EMA 3010	Materials	3
EMA 3050	Introduction to Inorganic Materials	3

Required Courses

Code	Title	Credits
EMA 4144	Physical Ceramics 1	3
EMA 4145	Physical Ceramics 2	3
EMA 4645	Processing of Ceramic Materials	3
EMA 4041L	Advanced Ceramics Laboratory 1	1
Total Credits		10

Aerospace Engineering

Aerospace engineers are called upon to solve exciting problems of design, construction and operation of aircraft and spacecraft to meet the ever-increasing requirement for improved performance at lower unit cost. These challenges mean that aerospace engineers work at the continuously changing forefront of science, technology and systems management.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)
- **Degree:** Bachelor of Science in Aerospace Engineering
- **Credits for Degree:** 128
- **Additional Information**
- **Related Aerospace Engineering Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The undergraduate curriculum in aerospace engineering is a fully accredited baccalaureate program that provides a broad education with a strong foundation in mathematics, science and basic engineering sciences. Advanced courses in aeronautics and astronautics complete the degree. Graduates will be prepared to work in the aerospace and related industries or to pursue graduate study.

Combined Bachelor's/Master's Degree Program

The aerospace engineering professional often benefits from an advanced degree to meet the challenging needs of industry and government. Accordingly, the MAE department actively participates in the combined B.S./M.S. degree program that allows students to double-count graduate

courses toward both degrees. The combined-degree program reduces the cost for both degrees and enhances the student's marketability for career advancement. Interested students should contact the Department of Mechanical and Aerospace Engineering or its website for more information.

Department Requirements

Minimum grades of C are required for EGM 2511, EGM 3401 and EML 3100. The minimum grade of C is considered part of the prerequisite requirement for courses that list EGM 2511, EGM 3401 or EML 3100 as a prerequisite. The prerequisite course and subsequent course cannot be taken in the same term, even if the prerequisite is being repeated.

An aerospace or mechanical engineering student whose cumulative, upper-division or department grade point average falls below a 2.0 or whose critical-tracking grades do not meet department requirements will be placed on academic probation and required to complete a probation contract with an MAE academic advisor. Students normally are allowed a maximum of two terms (consecutive or non-consecutive) on academic probation. Students who do not satisfy the conditions of the first term on probation may be dismissed from the department.

All graduating seniors must complete an exit interview.

Dual-Degree Programs

There is great overlap between the aerospace engineering and mechanical engineering curriculum. The first six semesters of the two degree programs are identical. Through proper selection of electives, students can earn dual mechanical engineering/aerospace engineering B.S. degrees with one semester of additional work. Interested students should contact the Department of Mechanical and Aerospace Engineering or its website for more information.

Educational Objectives

The objective of the aerospace engineering program at UF is to prepare students to attain the following goals within a few years of graduation:

- Graduates will meet the expectations of employers of aerospace engineers.
- Qualified graduates will pursue advanced study if they so desire.

Mission

The mission of the undergraduate program is to:

- serve the state of Florida, the United States and the engineering profession by providing quality educational programs in aerospace engineering;
- conduct a nationally recognized research program; and
- foster ongoing professional development of students and faculty.

Research Programs

The department's active research programs are sponsored by private industry, the National Science Foundation, Department of Defense, NASA, National Institutes of Health and other agencies. These programs keep faculty at the leading edge of technology and provide opportunities for students to participate in research through classroom assignments, individual studies, undergraduate research scholarships and employment as research assistants.

Related Aerospace Engineering Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Dual Degree in Mechanical Engineering and Aerospace Engineering
- Bachelor of Science in Mechanical Engineering (p. 1311)
- Biomechanics minor (p. 1261)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=140201&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 8 tracking courses with a minimum grade of C within two attempts:
  CHM 2045 or CHM 2095, EML 2023, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049

- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses with minimum grades of C within two attempts
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
CHM 2045 or CHM 2095	General Chemistry 1 (**Critical Tracking**; Gen Ed Physical Sciences) or Chemistry for Engineers 1	3
CHM 2045L	General Chemistry 1 Laboratory (Gen Ed Physical Sciences)	1
EML 2920	Department and Professional Orientation	1
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	4
Gen Ed Composition; Writing Requirement: 6,000 words [1,2]		3
	Credits	15
Semester Two		
EML 2023	Computer Aided Graphics and Design (**Critical Tracking**)	3
ENC 3246	Professional Communication for Engineers (State Core Gen Ed Composition (p. 23); Writing Requirement: 6,000 words)	3
MAC 2312	Analytic Geometry and Calculus 2 (**Critical Tracking**; Gen Ed Mathematics)	4
PHY 2048	Physics with Calculus 1 (**Critical Tracking**; State Core Gen Ed Physical Sciences)	3
PHY 2048L	Laboratory for Physics with Calculus 1 (Gen Ed Physical Sciences)	1
Approved Science elective		3
	Credits	17
Semester Three		
COP 2271	Computer Programming for Engineers (take the matlab section)	2
EAS 2011	Introduction to Aerospace Engineering	3
EGM 2511	Engineering Mechanics: Statics [3]	3
MAC 2313	Analytic Geometry and Calculus 3 (**Critical Tracking**; Gen Ed Mathematics)	4
PHY 2049	Physics with Calculus 2 (**Critical Tracking**; Gen Ed Biological and Physical Sciences)	3
PHY 2049L	Laboratory for Physics with Calculus 2	1
	Credits	16

Semester Four		
EGM 3344	Introduction to Numerical Methods of Engineering Analysis [3]	3
EGM 3520	Mechanics of Materials [3]	3
EMA 3010	Materials	3
EML 2322L	Design and Manufacturing Laboratory	2
EML 3100	Thermodynamics [3]	3
MAP 2302	Elementary Differential Equations (**Critical Tracking**)	3
	Credits	17
Semester Five		
EAS 4101	Aerodynamics	3
EEL 3003	Elements of Electrical Engineering [4]	3
EGM 3401	Engineering Mechanics: Dynamics [3]	3
MAP 4305	Differential Equations for Engineers and Physical Scientists	3
EML 3301C	Mechanics of Materials Laboratory (Writing Requirement: 6,000 words)	3
State Core Gen Ed Social and Behavioral Sciences (p. 23) [1]		3
	Credits	18
Semester Six		
EAS 4132	Compressible Flow	3
EAS 4510	Astrodynamics	3
EAS 4810C	Aerospace Sciences Lab and Design	3
EML 4312	Control of Mechanical Engineering Systems	3
Select one:		3
Gen Ed Humanities; Writing Requirement: 6,000 words [1]		
Gen Ed Social and Behavioral Sciences; Writing Requirement: 6,000 words [1]		
	Credits	15
Semester Seven		
EAS 4200	Aerospace Structures	3
EAS 4400	Stability and Control of Aircraft	3
State Core Gen Ed Humanities (p. 23) [1]		3
Approved Aerospace electives		6
	Credits	15
Semester Eight		
EAS 4300	Aerospace Propulsion	3
EAS 4700 or EAS 4710	Aerospace Design 1 or Aerospace Design 2	3
Gen Ed Social and Behavioral Sciences		3
Approved Technical electives		6
	Credits	15
	Total Credits	128

1 Students are also expected to complete the Gen Ed International and Gen Ed Diversity requirements. This is often done concurrently with another general education requirement (typically, Gen Ed Composition, Gen Ed Humanities or Gen Ed Social and Behavioral Sciences).

2 ACT/SAT placement scores do not exempt this requirement.

3 Minimum grade of C required.

4 Can substitute EEL 3111C.

Approved Electives

Academic Learning Compact

Aerospace engineers solve exciting problems of design, construction and operation of aircraft and spacecraft to meet the ever-increasing requirement for improved performance at lower unit cost. The undergraduate curriculum provides a broad education with a strong foundation in mathematics, science and basic engineering sciences. Advanced courses in aeronautics and astronautics complete the degree program and prepares students to work in aerospace industries or to pursue graduate study.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation).

Before Graduating Students Must

- Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
- Pass assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor according to department standards.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Apply knowledge of mathematics, science and engineering principles to aerospace engineering problems.
2. Design and conduct aerospace engineering experiments, analyzing and interpreting the data.

Critical Thinking

3. Design an aerospace engineering system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints.

Communication

4. Communicate technical data and design information effectively in writing and in speech to other aerospace engineers.

Biological Engineering

Biological engineering (BE) applies engineering principles to protect natural resources and to produce food, biofuels, pharmaceuticals, and other biobased products. It incorporates foundations of biology with engineering theory and practice to develop sustainable solutions to problems facing a broad range of industries.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)
- **Degree:** Bachelor of Science in Biological Engineering
- **Specializations:** Agricultural Production Engineering (p. 1243) | Biosystems Engineering (p. 1247) | Land and Water Resources Engineering (p. 1252) | Packaging Engineering (p. 1256)
- **Credits for Degree:** 128
- **Additional Information**
- **Related Biological Engineering Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Biological engineers pioneer new designs and techniques in such areas as agricultural robotics, remote sensing, bioprocessing, biofuels, precision agriculture, plant space biology, sustainability of our natural resources, and packaging product design and development.

Graduates are educated in the biological and environmental sciences as well as in engineering. They will address critical problems involving land and water resources, biological systems, production agriculture and innovations in packaging. Students can choose a focus area based on their courses of specialization and individual selection of electives. Areas of specialization are biosystems engineering, land and water resources engineering, packaging engineering, and agricultural production engineering.

In addition to abundant job opportunities in Florida's agricultural industry, graduates have career opportunities in biotechnology and in fields related to Florida's water quality and water resources, including water management districts, environmental companies, consulting firms, equipment manufacturers, bio-energy, food engineering and the packaging industry.

The BE curriculum can also fulfill requirements for admission to professional programs as well as to graduate programs including biomedical engineering, civil engineering and mechanical engineering.

Educational Objectives

Graduates from the University of Florida's undergraduate degree program in biological engineering will be prepared for at least one of the following:

- Successful careers in the profession of biological engineering or other related fields.
- Gaining admission to a graduate and/or professional degree program.

Goals

To develop biological engineering professionals with technical proficiency and societal responsibility.

Mission

The department will develop professionals, create and disseminate knowledge, and promote the application of engineering and management principles to meet societal needs with respect to agriculture, packaging, land and water resources, and biological systems.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=144501&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 8 tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, CHM 2046 or CHM 2096, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 8 critical-tracking courses with minimum grades of C in each course within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Biological engineers pioneer new designs and techniques in such areas as agricultural robotics, remote sensing, bioprocessing, biofuels, precision agriculture, plant space biology, sustainability of our natural resources, and packaging product design and development.

Graduates are educated in the biological and environmental sciences as well as in engineering. They will address critical problems involving land and water resources, biological systems, production agriculture and innovations in packaging. Students can choose a focus area based on their courses of specialization and individual selection of electives. Areas of specialization are biosystems engineering, land and water resources engineering, packaging engineering, and agricultural production engineering.

In addition to abundant job opportunities in Florida's agricultural industry, graduates have career opportunities in biotechnology and in fields related to Florida's water quality and water resources, including water management districts, environmental companies, consulting firms, equipment manufacturers, bio-energy, food engineering and the packaging industry.

The BE curriculum can also fulfill requirements for admission to professional programs as well as to graduate programs including biomedical engineering, civil engineering and mechanical engineering.

Educational Objectives

Graduates from the University of Florida's undergraduate degree program in biological engineering will be prepared for at least one of the following:

- Successful careers in the profession of biological engineering or other related fields.
- Gaining admission to a graduate and/or professional degree program.

Goals

To develop biological engineering professionals with technical proficiency and societal responsibility.

Mission

The department will develop professionals, create and disseminate knowledge, and promote the application of engineering and management principles to meet societal needs with respect to agriculture, packaging, land and water resources, and biological systems.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=144501&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 8 tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, CHM 2046 or CHM 2096, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA on all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional tracking course with a minimum grade of C within two attempts
- 2.5 GPA on all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional tracking courses with minimum grades of C within two attempts
- 2.5 GPA on all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional tracking courses with minimum grades of C within two attempts
- 2.5 GPA on all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 8 critical-tracking courses with minimum grades of C in each course within two attempts
- 2.5 GPA on all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The curriculum emphasizes engineering solutions to problems associated with biological and agricultural systems that often are related to renewable natural resources. Students gain knowledge through formal courses, laboratory experimentation and individual experience. Students will learn to utilize math, science and engineering principles to analyze and interpret data, to design and conduct experiments, systems and components and to effectively communicate results within an appropriate presentation style.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation).

Before Graduating Students Must

- Pass assessment by two or more faculty and/or industry practitioners of student performance on a major design experience.
- Pass assessment in two courses of individual assignments targeted to each learning outcome.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Apply knowledge of mathematics, science and engineering principles to biological engineering problems. Students will be able to apply fundamental concepts, skills and processes in biological engineering.
2. Design and conduct biological and/or agricultural engineering experiments, analyzing and interpreting the data in biological engineering.

Critical Thinking

3. Design a biological and/or agricultural system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints in biological engineering.

Communication

4. Communicate technical data and design information effectively in writing and in speech to other engineers in biological engineering.

Biological Engineering | Packaging Engineering

Biological engineering (BE) applies engineering principles to protect natural resources and to produce food, biofuels, pharmaceuticals, and other biobased products. It incorporates foundations of biology with engineering theory and practice to develop sustainable solutions to problems facing a broad range of industries.

About this Program

Biomedical Engineering

The biomedical engineering (BME) field has grown rapidly in the last 20 years. This growth was fueled by breakthroughs in molecular biology and many engineering technologies, symbolized by the Human Genome Project, arguably the greatest biomedical engineering accomplishment ever, and realized

with creation of the National Institute of Biomedical Imaging and Bioengineering. BME now is clearly recognized as an integral part of the nation's and the world's efforts to deliver more effective and efficient medical care.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)
- **Degree:** Bachelor of Science in Biomedical Engineering
- **Credits for Degree:** 131
- **Additional Information**

To graduate with this major, students must complete all university, college, and major requirements.

A biomedical engineer uses traditional engineering expertise to analyze and solve problems in biology and medicine, providing an overall enhancement of health care. Students choose biomedical engineering to serve people, to work with living systems and to apply advanced technology to the complex problems of medical care. The biomedical engineer is called upon to design instruments, devices and software, to bring together knowledge from many technical sources to develop new procedures and to conduct the research needed to solve clinical problems.

Bioengineering integrates sciences and engineering for the study of biology, medicine, behavior or health. It advances fundamental concepts, creates knowledge for the molecular to the organ systems levels, and develops innovative biologics, materials, processes, implants and devices. Biomedical engineers create informatics approaches to prevent, diagnose and treat disease, applying systematic, quantitative and integrative thinking and solutions to problems important to biology, medical research and population studies.

BME typically is among the three most popular engineering majors and very often is the largest. The job market in biomedical engineering is the fastest growing of all engineering disciplines. It has become clear that the nation needs a variety of engineers with knowledge of biomedicine, including a cadre of exceptional people whose education thoroughly immerses them in engineering and biomedicine. The intellectual foundation of this limited-access undergraduate program is captured in this vision: Biomedicine comprises the science core while engineering provides the framework for inquiry. The curriculum incorporates exceptional rigor in both.

Educational Objectives

The program educational objectives of the J. Crayton Pruitt Family Department of Biomedical Engineering at the University of Florida are that:

1. Graduates will excel in top graduate programs of professional schools and will have successful careers in a multi-disciplinary, global industry.
2. Graduates will be active leaders in their profession, creating innovative, ethical and socially beneficial solutions to human health problems.

Department Vision Statement

The faculty, students, and alumni of the J. Crayton Pruitt Family Department of Biomedical Engineering will lead in the discovery and development of innovative biomedical solutions to improve healthcare in the State of Florida and worldwide. To achieve this vision, the department will leverage the unique co-localization of talent and resources in engineering, biology, medicine, veterinary science, dentistry, and technology commercialization at the University of Florida, thereby maximizing opportunities for interdisciplinary student education and clinical translation of technologies to improve human health.

Department Mission

The J. Crayton Pruitt Family Department of Biomedical Engineering at the University of Florida is dedicated to developing innovative and clinically translatable biomedical technologies, educating future generations of biomedical engineers, and cultivating leaders, by nurturing the integration of engineering, science, and healthcare in a collaborative and dynamic educational and research environment.

Admission Requirements

The biomedical engineering undergraduate major is a limited enrollment program. Students who enter the University of Florida as freshmen identify pre-BME as their major of choice and begin enrolling in the required critical tracking courses to prepare for upper division.

During the fall semester of sophomore year (semester 3), pre-BME majors apply for admission to the upper division major, which begins in the spring semester of sophomore year (semester 4).

Current UF students must meet the following minimum requirements to be considered for admission to the upper division program.

- Minimum 3.0 grade point average in critical tracking courses (best attempt)*
- No more than two attempts allowed for each critical tracking course (withdrawals included)
- Minimum grade of C in each critical tracking course
- Completion of the first three semesters of the Model Plan of Study by Fall semester of application
- BME Departmental online application

*Only the best attempt in each critical tracking course is considered for admission to the upper division program.

All application requirements and details are available on the department website (http://bme.ufl.edu/academics/undergraduate/admissions).

Department Requirements

Minimum grades of C are required for BME 3508, BME 3053C, CHM 3217, COP 2271, COP 2271L, EEL 3003, and ENC 3246. The minimum C grade is part of the prerequisite requirement for several 3000/4000-level BME courses. The prerequisite course and subsequent course cannot be taken in the same term, even if the prerequisite is being repeated.

All BME Electives must be selected from an approved list. Students may petition to take courses not included in the approved list toward this requirement. The BME Electives allow students to explore topic areas within their interests and are designed to build upon biomedical engineering foundation courses and laboratories.

A biomedical engineering student whose cumulative, upper-division or department grade point average falls below a 2.0 or whose critical tracking grades do not meet department requirements will be placed on academic probation and be required to complete a probation contract with a BME academic advisor. Students normally are allowed a maximum of two terms (consecutive or non-consecutive) on academic probation. Students who do not satisfy the conditions of the first term of probation may be dismissed from the department.

All graduating seniors must complete an exit interview with their advisor before graduating.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=140501&track=01) may be used for transfer students.

Semester 1

- Complete 3 of 11 critical-tracking courses with minimum grades of C within two attempts: BSC 2010; CHM 2045 or CHM 2095; CHM 2046 or CHM 2096; MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048; PHY 2049; BME 3060 and PCB 3713C
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 3 additional critical-tracking courses with minimum grades of C within two attempts
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete all critical-tracking courses with minimum grades of C within two attempts
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

This program is limited access and competitive. Students cannot register for courses in semesters 5-8 before they have been admitted to the biomedical engineering major.

Course	Title	Credits
Semester One		
BME 1008	Introduction to Biomedical Engineering	1
BSC 2010	Integrated Principles of Biology 1 (**Critical Tracking**; Gen Ed Biological Sciences)	3
BSC 2010L	Integrated Principles of Biology Laboratory 1 (Gen Ed Biological and Physical Sciences)	1
Select one:		3
CHM 2045	General Chemistry 1 (**Critical Tracking**; Gen Ed Physical Sciences)	
CHM 2095	Chemistry for Engineers 1 (**Critical Tracking**)

COP 2271L	Computer Programming for Engineers Laboratory [4]	1
MAC 2313	Analytic Geometry and Calculus 3 (**Critical Tracking**; Gen Ed Mathematics)	4
PHY 2049	Physics with Calculus 2 (**Critical Tracking**; Gen Ed Physical Sciences)	3
PHY 2049L	Laboratory for Physics with Calculus 2 (Gen Ed Physical Sciences)	1
	Credits	15
Semester Four		
BME 3053C	Computer Applications for BME	2
BME 3060	Biomedical Fundamentals (**Critical Tracking**)	3
EEL 3003	Elements of Electrical Engineering	3
ENC 3246	Professional Communication for Engineers (Gen Ed Composition; writing requirement)	3
MAP 2302	Elementary Differential Equations (**Critical Tracking**; Gen Ed Mathematics)	3
PCB 3713C	Cellular and Systems Physiology (**Critical Tracking**)	4
	Credits	18
Semester Five		
BME 3101	Biomedical Materials	3
BME 3508	Biosignals and Systems	3
BME 4311	Molecular Biomedical Engineering	3
BME 4503	Biomedical Instrumentation	3
BME 4503L	Biomedical Instrumentation Laboratory	1
EGM 2511	Engineering Mechanics: Statics	3
	Credits	16
Semester Six		
BME 3012	Clinically-Inspired Engineering Design	3
BME 3323L	Cellular Engineering Laboratory	3
BME 4632	Biomedical Transport Phenomena	3
STA 3032	Engineering Statistics	3
Gen Ed Social and Behavioral Sciences with International; Writing Requirement: 6,000 words [3]		3
BME elective [2]		3
	Credits	18
Semester Seven		
BME 4409	Quantitative Physiology	3
BME 4621	Biomolecular Thermodynamics and Kinetics	3
BME 4882	Senior Design, Professionalism and Ethics 1	3
State Core Gen Ed Social and Behavioral Sciences (p. 23) [3]		3

BME electives [2]		6
	Credits	18
Semester Eight		
BME 4531	Medical Imaging	3
BME 4883	Senior Design, Professionalism and Ethics 2	3
State Core Gen Ed Humanities with Diversity (p. 23) [3]		3
BME electives [2]		6
	Credits	15
	Total Credits	131

1. Can substitute CHM 2210 and CHM 2211.
2. BME Electives: A total of 15 credits of 3000/4000-level courses (9 credits of engineering electives and 6 credits technical electives, both of which must be selected from an approved list).
3. Courses should cover 12,000 words.
4. Course and corresponding laboratory to be completed in same language (Matlab or C++).

Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements. This is often done concurrently with another general education requirement (typically, GE-C, H or S).

Academic Learning Compact

Biomedical engineering blends traditional engineering techniques with biological sciences and medicine to improve the quality of human health and life. The discipline focuses on understanding complex living systems via experimental and analytical techniques and on development of devices, methods and algorithms that advance medical and biological knowledge while improving the effectiveness and delivery of clinical medicine.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation).

Before Graduating Students Must

- Pass assessment by two or more faculty and/or industry practitioners of student performance on a major design experience.
- Pass assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete an exit interview in the final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Solve biomedical engineering problems by applying knowledge of mathematics, science and engineering principles.
2. Design and conduct biomedical engineering experiments and analyzing and interpreting the data.

Critical Thinking

3. Design a biomedical device, component, technology or process to meet identified clinical needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and regulatory constraints.

Communication

4. Communicate technical data and design information effectively in speech and in writing to other biomedical engineers.

Biomolecular Engineering Minor

This minor is for engineering and science students who desire knowledge of diverse biomedical and biotechnological applications encompassing biomolecular function, interactions and transport.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)
- **Credits:** 15-16 | Completed with minimum grades of C

The Department of Chemical Engineering administers this minor.

Prerequisites

To apply for the minor, students must have completed these eight engineering preprofessional courses with a 2.5 GPA and no course grade lower than C.

Code	Title	Credits
CHM 2045	General Chemistry 1	3
CHM 2046	General Chemistry 2	3
MAC 2311	Analytic Geometry and Calculus 1	4
MAC 2312	Analytic Geometry and Calculus 2	4
MAC 2313	Analytic Geometry and Calculus 3	4
MAP 2302	Elementary Differential Equations	3
PHY 2048	Physics with Calculus 1	3
PHY 2049	Physics with Calculus 2	3

Required Courses

Code	Title	Credits
ABE 2062	Biology for Engineers	3
or BSC 2011	Integrated Principles of Biology 2	
BME 3406	Introduction to Biomolecular Engineering	3
ECH 3023	Material and Energy Balances	4
Select two:		5-6
ABE 3000C	Applications in Biological Engineering	
ABE 4662	Quantification of Biological Processes	
ABE 5442	Advanced Process Engineering	
BME 4220	Biomolecular Cell Mechanics	
BME 4321	Dynamics of Cellular Processes	
ECH 4905	Special Problems in Chemical Engineering [1]	
EGN 4912	Engineering Directed Independent Research [2]	
Total Credits		15-16

[1] Nanoscale Transport and other approved electives.

[2] Research problems related to biomolecular engineering.

Chemical Engineering

Although chemical engineering has existed for only 100 years, its name is no longer completely descriptive of this dynamic profession. The work of the chemical engineer is not restricted to the chemical industry, chemical changes or chemistry. Instead, modern chemical engineers are concerned with all the physical, chemical and biological changes of matter that can produce an economic product or result that is useful to mankind.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)
- **Degree:** Bachelor of Science in Chemical Engineering
- **Credits for Degree:** 131
- **Additional Information**
- **Related Chemical Engineering Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The education of the chemical engineer is based on the fundamental sciences of physics, chemistry and biology, on mathematical and computer techniques, and on basic engineering principles. This background makes the chemical engineer extremely versatile and capable of working in a variety of industries: chemical, biochemical, petroleum, materials, microelectronics, environmental, food processing, consumer products, consulting and project management. It is also good preparation for law and medical schools.

Department Requirements

Successful applicants must have earned a minimum 2.5 grade point average in the better of two attempts of the eight preprofessional courses and have earned a minimum grade point average in the better of two attempts of 2.5 in the preprofessional calculus course sequence.

For the purposes of determining admission to or retention in the department, grade point averages will be based on no more than two attempts for each course. Students must maintain satisfactory progress (minimum GPA of 2.0) in chemical engineering courses and in their overall record.

To proceed to succeeding courses, minimum grades of C are required in the following within two enrollments (including drops and/or withdrawals) for each course:

Code	Title	Credits
ECH 3023	Material and Energy Balances	4
ECH 3101	Process Thermodynamics	3
ECH 3203	Fluid and Solid Operations	3
ECH 3223	Energy Transfer Operations	3
ECH 3264	Elementary Transport Phenomena	3
COT 3502	Computer Model Formulation	4
ECH 4714	Chemical Process Safety	3

Any course taken to satisfy a degree requirement (general education, required course or technical elective) cannot be taken S-U, with the exception of the following:

Code	Title	Credits
ECH 4912	Integrated Product and Process Design 1	3
ECH 4948	Internship Work Experience	1
ECH 4949	Co-op Work Experience	1

Educational Objectives

Within a few years of obtaining a bachelor's degree in chemical engineering from the University of Florida, the recent graduate will achieve one or more of the following:

- Graduates will demonstrate professional engineering competence via promotions and/or positions of increasing responsibility.
- Graduates will be successful in pursuing advanced degrees in chemical engineering or in other disciplines.
- Graduates will be able to work in diverse professional environments as demonstrated in their pursuit of continuing education, professional certification/registration and/or career path into business, government, education, etc.

The chemical industry alone provides an opportunity for the chemical engineer to participate in the research, development, design or operation of plants for the production of new synthetic fibers, plastics, chemical fertilizers, vitamins, antibiotics, rocket fuels, nuclear fuels, paper pulp, photographic products, paints, fuel cells, semiconductors and the thousands of chemicals that are used as intermediates in the manufacture of these products.

Goal

To prepare students for lifelong careers in chemical engineering.

Mission

To offer high-quality undergraduate and graduate degree programs in chemical engineering and to conduct research that helps educate graduate students and serves the needs of Florida and the nation.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=140701&track=01) may be used for transfer students.

Semester 1

- 2.5 GPA in MAC 2311, MAC 2312 and MAC 2313 sequence based on the best of two attempts
- Complete 1 of 8 critical-tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, CHM 2046 or CHM 2096, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses based on the best of two attempts
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses based on the best of two attempts
- 2.5 GPA in MAC 2311, MAC 2312 and MAC 2313 sequence based on the best of two attempts
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses based on the best of two attempts
- 2.5 GPA in MAC 2311, MAC 2312 and MAC 2313 sequence based on the best of two attempts
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA in MAC 2311, MAC 2312 and MAC 2313 sequence based on the best of two attempts
- 2.5 GPA required for all critical-tracking courses based on the best of two attempts
- 2.0 UF GPA required

Semester 5

- Complete all 8 critical-tracking courses with minimum grades of C in each course within two attempts and a 2.5 GPA on all critical-tracking courses based on the best of two attempts.
- 2.5 GPA in MAC 2311, MAC 2312 and MAC 2313 sequence based on the best of two attempts
- 2.5 GPA required for all critical-tracking courses based on the best of two attempts
- 2.0 UF GPA required

1. Minimum grade of C required.
2. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements. This is often done concurrently with another general education requirement (typically, GE-C, H or S).
3. Register for ECH 4224L immediately following completion of ECH 3101, ECH 3203 and ECH 3223.
4. The Integrated Product and Process Design program (ECH 4912 and ECH 4913) requires six credits of coursework and is offered as a sequence of two three-credit courses during fall and spring of the senior year. These two courses are pre-approved substitutes for three credits of technical electives and for ECH 4644.
5. If the Physical Chemistry Topics 3 credit requirement is satisfied by a 4 credit class, the additional credit satisfies 1 credit of the Technical elective requirement.
   Most students will have credit for research or industry experiential education during the previous summer.

Technical Electives

Technical electives are defined as department-approved, upper-division courses with significant technical science, engineering, and/or math content. Provision is made to receive up to five credits of approved co-op, internship and/or research experience with no more than three credits coming from industry work and no more than three coming from academic research. Military courses cannot be used for technical electives.

Academic Learning Compact

The chemical engineering program enables students to apply knowledge of mathematics, science and engineering principles to chemical engineering problems; to design and conduct chemical engineering experiments and to analyze and interpret the data; to design a chemical engineering system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints; and to communicate technical data and design information effectively in speech and in writing to other chemical engineers.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation).

Before Graduating Students Must

- Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
- Pass assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Civil Engineering

Civil engineering is the oldest and most diverse branch of engineering. In its broadest sense, the civil engineer adapts the physical features of the earth to the needs of society. Approximately one out of four engineers is engaged in civil engineering.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)
- **Degree:** Bachelor of Science in Civil Engineering
- **Credits for Degree:** 128
- **Additional Information**
- **Related Civil Engineering Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Civil engineering includes the design and construction of bridges, buildings, dams, waterways, coastal protection works, airports, pipelines, space launching facilities, railroads, highways, sanitary systems, ocean structures and facilities, foundations, harbors, waterworks and many other systems and structures upon which modern civilization depends.

Department Requirements

A minimum grade of C is required for all courses marked below. A minimum GPA of 2.0 is required for all civil engineering courses. Before graduating, all BSCE students must take the Fundamentals of Engineering exam.

The basic program provides the minimum education for practice. Beyond the bachelor's degree, advanced degrees are available in geosensing, transportation, water resources, structural engineering, geotechnical engineering, construction, public works, civil engineering materials, and coastal and oceanographic engineering.

Educational Objectives

The undergraduate program in civil engineering will prepare graduates to

- Meet the needs and expectations of civil engineering employers and proceed toward the attainment of a Professional Engineering (P.E.) license;
- Continue their education and pursue advanced degrees if they so desire.

Goals

- To develop civil engineering professionals with proficiency in the fundamentals of science and engineering;
- To develop an understanding of the planning, design, construction and operation of civil engineering projects;
- To develop enhanced communication skills;
- To develop an appreciation of professionalism and ethics in the practice of engineering.

Mission

The department strives to build upon a leading program of exceptional teaching, innovative research and dedicated service by maintaining a strong curriculum, a highly qualified and committed faculty, outstanding facilities and essential funding.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=140801&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 7 critical-tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 7 critical-tracking courses with minimum grades of C in each course within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Academic Learning Compact

Civil engineering is the oldest and most diverse branch of engineering and includes the design and construction of bridges, buildings, dams, waterways, coastal protection works, airports, pipelines, space launching facilities, railroads, highways, sanitary systems, ocean structures and facilities, foundations, harbors, waterworks and many other systems and structures upon which modern civilization depends. In its broadest sense, the civil engineer adapts the physical features of the earth to the needs of society. Approximately one out of four engineers is engaged in civil engineering.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation).

Before Graduating Students Must

- Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
- Pass an assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete the Fundamentals of Engineering examination.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Apply knowledge of mathematics, science and engineering principles to civil engineering problems.
2. Conduct civil engineering experiments, analyzing and interpreting the data.

Critical Thinking

3. Design a civil engineering system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints.

Communication

4. Communicate technical data and design information effectively in writing and in speech to other civil engineers.

  - The Fundamentals of Engineering (FE) exam
  - The exit and employer surveys

Computer and Information Science and Engineering Minor

This minor provides the academic background in the application of computers to scientific and engineering problems and prepares students for graduate study in computer-related disciplines.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)
- **Credits:** 20-23 | Completed with minimum grades of C
- **Related Computer and Information Science and Engineering Programs**

The Department of Computer and Information Science and Engineering administers this minor, which requires a minimum 2.5 grade point average to apply for admission.

Majors Not Eligible for this Minor

- Computer engineering, computer science, and digital arts and sciences majors (CEN, CSE, CEE, DAS) in the CISE and ECE departments
- Computer science majors (CSC) in the College of Liberal Arts and Sciences

Required Courses

Code	Title	Credits
CDA 3101	Introduction to Computer Organization	3
Select one:		3-6
COP 3502	Programming Fundamentals 1	
& COP 3503	and Programming Fundamentals 2	
COP 3504	Advanced Programming Fundamentals for CIS Majors	
COP 3530	Data Structures and Algorithm	4
COP 4600	Operating Systems	3
COT 3100	Applications of Discrete Structures	3
MAC 2312	Analytic Geometry and Calculus 2	4
Total Credits		20-23

At least three of the CDA, CIS, COP, and COT courses must be taken at UF.

Related Computer and Information Science and Engineering Programs

- Bachelor of Science in Computer Engineering (p. 1276)
- Bachelor of Science in Computer Science, College of Engineering (p. 1281)
- Bachelor of Science in Computer Science, CLAS (p. 662)
- Bachelor of Science in Computer Science, UF Online (p. 658)

Computer Engineering

Computer engineering (CpE) is a discipline that embodies the science and technology of design, construction, implementation and maintenance of software and hardware components of computing systems and computer-controlled equipment. Studies in computer engineering integrate fields from both computer science (CS) and electrical engineering (EE).

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)
- **Degree:** Bachelor of Science in Computer Engineering
- **Credits for Degree:** 126
- **Additional Information**
- **Related Computer Engineering Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Computer engineering (CpE) brings a core competency and unique value of integrated knowledge in both computer software and hardware, providing a balance among computer systems, hardware and software as well as theory and applications. Specialization in computer engineering is provided via technical electives from the Department of Computer and Information Science (www.cise.ufl.edu) and Engineering and the Department of Electrical and Computer Engineering (www.ece.ufl.edu). By properly choosing electives, students can specialize in knowledge areas such as computer architecture, computer system engineering, digital signal processing, embedded systems, intelligent systems, networking and communication and security. Also, opportunities for cooperative education provide students a better understanding of the industrial applications of computer engineering technologies. Graduates will be prepared to pursue graduate studies in computer engineering or they can choose from many different careers related to computers and their applications in high technology environments.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation).

Educational Objectives

The objective of the program leading to the Bachelor of Science in Computer Engineering is to prepare a student such that three to five years after graduation, a CpE graduate will:

- Excel in a career utilizing their education in computer engineering
- Continue to enhance their knowledge
- Be effective in multidisciplinary and diverse professional environments
- Provide leadership and demonstrate professional integrity

Mission

- To educate undergraduate majors as well as the broader campus community in the fundamental concepts of the computing discipline
- To create and disseminate computing knowledge and technology
- To use our expertise in computing to help society solve problems.

Admission Requirements

Successful applicants must have earned a 2.5 grade point average, based on the first two attempts, in the eight preprofessional courses and have earned a minimum grade of C in each course of Calculus 1, Calculus 2, Calculus 3, Physics with Calculus 1, Physics with Calculus 2, General Chemistry 1, General Chemistry 2 or 2000 level Biological or Physical Science, and Differential Equations. Only the first two attempts (including withdrawals) in each course will be considered for admission to or retention in the department.

Computer Engineering Requirements

A minimum grade of C is required for each critical-tracking course and the critical-tracking GPA must be a minimum of 2.5.

A minimum grade of C is required in any computer engineering course that is a prerequisite for another computer engineering course. The prerequisite course and its subsequent course cannot be taken the same term, even if the prerequisite course is being repeated.

Minimum grades of C are required in:

Code	Title	Credits
COP 3502	Programming Fundamentals 1	3
COP 3503	Programming Fundamentals 2	3
EEL 3701C	Digital Logic and Computer Systems	4
ENC 3246	Professional Communication for Engineers	3
CpE Design 2; select one:		
CEN 4914	Computer and Information Science and Engineering Design 2	
CIS 4914	Senior Project	

EEL 4913	Integrated Product and Process Design 2
EEL 4924C	Electrical Engineering Design 2

A CpE major grade point average (GPA) is calculated as the average of the grades of all the CISE and ECE courses taken by the student. CpE students must maintain a cumulative, upper-division and CpE major GPA minimum of 2.0.

Students who do not meet these requirements will be placed on academic probation and will be required to prepare a probation contract with a CpE advisor. Students are normally given two terms to remove their deficit points; however, students who do not satisfy the conditions of the first term of probation may be dismissed from the program.

All graduating seniors must complete an exit survey with their advisor before graduating.

Related Computer Engineering Programs

- Computer and Information Science and Engineering minor (p. 1276)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=140901&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 8 critical-tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, CHM 2046 or CHM 2096 or a 2000-level or higher advisor-approved science course, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 8 critical-tracking courses with minimum grades of C in each course within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the general education International (GE-N) and Diversity (GE-D) requirements. This is often done concurrently with another general education requirement, typically GE-C, H, or S.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Technical Electives

18 Credits

- At least 12 credits must be from the CISE and/or ECE department(s). These courses must be 3000-level or higher.
- Courses not permitted as technical electives: EEL 3003, CGS 3063, and CGS 3065
- A CpE student will have credit for two programming courses (Java and C++). One additional programming language course (not Java or C++) can count as a technical elective. COP 3275 and EEL 3834 are acceptable.
- A maximum of 6 credits can come from the following categories:
  - 4000-level courses in the mathematics department
  - 3000-level courses in the physics department
  - 4000-level courses in the statistics courses
  - 3000-level courses in any Herbert Wertheim College of Engineering department
  - Any advisor-approved course

Academic Learning Compact

The Bachelor of Science in Computer Engineering is concerned with the theory, design, development and application of computer systems and information processing techniques. Students will be equally proficient working with computer systems, hardware and software, as with computer theory and applications.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation).

Before Graduating Students Must

- Pass assessment according to department rubric of student performance on a major design experience.
- Pass assessment in one or more core courses of individual assignments targeted to each SLO.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Computer Science | Herbert Wertheim College of Engineering

The computer science program combines a strong engineering-oriented technical basis with a flexible interdisciplinary component and an emphasis on communication skills. This flexibility will be increasingly important in the future as computers become more important tools in an ever-increasing number of disciplines.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)
- **Degree:** Bachelor of Science in Computer Science
- **Credits for Degree:** 120
- **Additional Information**
- **Related Computer Science Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Students in the engineering computer science (EG-CSE) program will satisfy the same requirements for general education and obtain the same engineering preprofessional background in mathematics and science as other engineering students. The program contains a strong technical component comprising a set of required courses covering essential areas in computing and a set of technical electives enabling students to deepen their knowledge in chosen areas of computer science and engineering.

In addition, the program includes a set of interdisciplinary electives in an area of the student's choice from anything the university offers. Students may choose an established minor, a predefined track or if nothing meets their needs, they can work with an advisor to develop their own program. Thus, students will not need to wait for an interdisciplinary program to be established; they can create their own.

To answer the demands of industry for employees with both technical competence and the ability to communicate effectively, the program requires communication courses beyond the usual general education requirements for engineering.

Department Requirements

Students must complete all critical-tracking courses with minimum grades of C in each course and the critical-tracking GPA must be 2.5 minimum. A minimum grade of C is required in all other courses that are prerequisites to a required course: CDA 3101, COP 3503, COP 3530, COP 4600, COT 3100 and MAS 3114. In addition, CISE requires all computer science students to maintain a cumulative, upper-division and department grade point average minimum of 2.0.

Students who do not meet these requirements will be placed on academic probation and will be required to prepare a probation contract with a CISE advisor. Students are normally given two terms to remove their deficit points; however, students who do not satisfy the conditions of the first term of probation may be dismissed from the department.

Placement

Students who have scored at least a 4 or 5 on the AP Computer Science exam are eligible to start the programming fundamentals sequence with COP 3503. Students will need to see an advisor in the major to adjust their degree audit.

Digital Arts and Sciences | Bachelor of Science

The digital arts and sciences (DAS) program crosses college boundaries between engineering and the arts. This degree is an interdisciplinary engineering program.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)
- **Degree:** Bachelor of Science in Digital Arts and Sciences
- **Credits for Degree:** 120
- **Additional Information**
- **Related Digital Arts and Sciences Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The Digital Arts and Sciences (DAS) degree is a core computer science degree with special emphasis on human-centered computing, which includes art, design and computing courses that are related to digital media, interaction and communication.

Graduates will be well versed in issues and solutions for basic art techniques and graphic art design as well as modeling 3D virtual worlds. The DAS graduate also will be well versed in collaborative multidisciplinary team models. Intermediate and final class projects are centered around a balanced-team composition focusing on multimedia productions.

Department Requirements

Students must complete all critical-tracking courses with minimum grades of C in each course and the critical-tracking GPA must be 2.5 or higher. A minimum grade of C is required in all other courses that are prerequisites to a required course:

Code	Title	Credits
CAP 3027	Introduction to Digital Arts and Sciences	3
CDA 3101	Introduction to Computer Organization	3
COP 3502	Programming Fundamentals 1	3
COP 3530	Data Structures and Algorithm	4
COP 4600	Operating Systems	3
COT 3100	Applications of Discrete Structures	3
MAS 3114	Computational Linear Algebra	3

In addition, CISE requires all DAS students to maintain a cumulative, upper-division and department GPA minimum of 2.0.

Students who do not meet these requirements will be placed on academic probation and will be required to prepare a probation contract with a CISE advisor. Students normally are given two terms in which to remove their deficit points or to remedy their probation status; however, students who do not satisfy the conditions of the first term of probation may be dismissed from the department.

Related Digital Arts and Sciences Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Bachelor of Arts in Digital Arts and Sciences (p. 1083)
- Bachelor of Arts in Digital Arts and Sciences | UF Online (p. 1087)
- Digital Arts and Sciences minor (p. 1082)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500102&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 8 critical-tracking courses with a minimum grade of C within two attempts: ARH 2051, CHM 2045 or CHM 2095, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 8 critical-tracking courses with minimum grades of C in each course within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the general education international (GE-N) and diversity (GE-D) requirements. This is often done concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
Select one:		3

Interdisciplinary elective		3
	Credits	15
Semester Eight		
CAP 4730	Computational Structures in Computer Graphics	3
CIS 4914	Senior Project	3
COP 4020 or COP 4600	Programming Language Concepts or Operating Systems	3
Interdisciplinary electives		6
	Credits	15
	Total Credits	120

Academic Learning Compact

The major crosses college boundaries between engineering and the arts. This degree is an interdisciplinary engineering program combining developing skills in art and computers. Students will be well-versed in issues and solutions for basic art technique and graphic art design, as well as modeling 3D virtual worlds. Students will be experienced in collaborative multidisciplinary teams, compositions and projects focusing on multimedia productions.

Before Graduating Students Must

- Pass assessment of performance on a major design experience, according to department grading rubric.
- Pass assessment in one or more core courses of individual assignments targeted to each SLO.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Apply knowledge of mathematics and science to computer science problems.
2. Apply knowledge of multimedia, human-computer interaction, computer graphics and simulation to application domains.

Critical Thinking

3. Design a human-computer interface involving animation, sound and immersive virtual environments.

Communication

4. Communicate technical information in a collaborative team environment.

Electrical Engineering

Electrical engineering is concerned with all phases and development of the transmission and utilization of electric energy and intelligence. From communication systems to electronic components that run computers and motor vehicles, electrical engineers design products and systems that meet the needs of today and tomorrow's electrical and electronic systems.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)
- **Degree:** Bachelor of Science in Electrical Engineering
- **Credits for Degree:** 128
- **Additional Information**
- **Related Electrical Engineering Programs**

To graduate with this major, students must complete all university, college, and major requirements.

While it is essential that electrical engineers understand the fundamentals of their chosen fields, they must also understand the role that other branches of engineering play in completed work. The curriculum provides a foundation in basic engineering as well as depth and breadth in electrical engineering and sufficient electives to allow specialization in academic areas including:

- Electronic Devices and Circuits
- Electromagnetics, Power and Photonics
- Computers, Communications and Systems and Controls

The curriculum also prepares an engineer for professional licensure.

The department's extensive laboratory facilities and varied research programs assist in both experimental and theoretical approaches to electrical and computer engineering.

Admission Requirements

It is the department's policy to admit the best-qualified students as demonstrated by academic achievement.

To be admitted, a student must have an overall 2.5 grade point average in critical-tracking courses, based on the first two attempts in eight professional courses and have earned a minimum grade of C in each course of Calculus 1, Calculus 2, Calculus 3, Physics with Calculus 1, Physics with Calculus 2, Differential Equations and General Chemistry. Only the first two attempts (including withdrawals and drops) in each course will be considered for admission to or retention in the department.

Department Requirements

A minimum grade of C is required in any course transferred into the junior-senior years from another institution.

Courses marked below with a footnote[1] must be completed with minimum grade of C. For a course to be used as a prerequisite for an EEE/EEL-prefixed course, a minimum grade of C is required in the prerequisite course. Any 3000/4000 level EEL/EEE-prefixed course not taken to satisfy the breadth or depth requirement can be applied as EE technical elective, excluding EEL 3834 only counts for computer programming requirement and EEL 3003, which does not apply toward degree requirements.

ECE majors must have an overall 2.0 GPA in all ECE courses to meet degree requirements.

A student must complete both EEL 3111C **and** EEL 3701C **before taking any 4000-level EEE or EEL course. Electrical Engineering majors must have** EEL 3923C **completed or in progress to apply for the IPPD program.**
More Info (http://www.ippd.ufl.edu)

Any course taken to satisfy a degree requirement (general education, required course or technical elective), with the exception of EGN 4912, EEL 4948, and EEL 4949, cannot be taken S-U.

An electrical engineering student whose cumulative, upper-division or department grade point average falls below 2.0 or whose pre-professional grades do not meet department admission requirements will be placed on academic probation and be required to prepare a probation contract with an ECE academic advisor. If a student is not making normal academic progress, they will be placed on academic probation.

Students normally are given two terms in which to remove their deficit points. Students who do not satisfy the conditions of the first term of probation may be dismissed from the department.

All graduating seniors must complete an exit interview with their advisor before graduating.

Educational Objectives

The objectives of the Electrical Engineering program at the University of Florida are to prepare students to be good citizens engaged in ethical engineering for the betterment of society and enabling them, so that within a few years of graduation, they:

1. Have successful careers providing leadership in a dynamic industry that is global, multi-disciplinary, and evolving;
2. Are excelling in the top advanced studies programs in the world.

Goals

The baccalaureate program prepares students to embark upon professional careers in electrical and computer engineering or to begin graduate study. The department's educational objectives are consistent with the ABET general criteria for accrediting programs in engineering in the United States.

Mission

The department offers undergraduate and graduate programs in electrical and computer engineering and conducts research to serve the needs of Florida and the nation.

Related Electrical Engineering Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Electrical Engineering minor (p. 1292)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=141001&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 7 tracking courses. MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049, and CHM 2045 or CHM 2095 must be completed with minimum grade of C in each course within two attempts (including withdrawals).
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course with the appropriate minimum grade within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with the appropriate minimum grades within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses with the appropriate minimum grades within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete remaining 7 critical-tracking courses with the appropriate minimum grades within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Electrical Engineering Depth | 6 Credits

Select one EE Depth course from 2 different EE Breadth areas.
More Info (https://www.ece.ufl.edu/sites/default/files/pictures/EE%20Curriculum%20breadth-depth%20chart.pdf)

Interdisciplinary Technical Electives | Select 3 Courses

Students are able to select courses that are 3000-4000 level from the Biology/Biochemistry courses (prefixes of BSC, BCH, CHM, PCB, and ZOO); Mathematics courses (prefixes of MAA, MAD, MAP, and MAS); Physics courses (prefixes of PHY and PHZ). Students are able to count CHM 2046, CHM 2210, and CHM 2211. Students are able to select courses that are 3000-4000 level from HWCOE (non-ECE) courses.

Electrical Engineering Technical Electives | 17 Credits

Any 3000 level or above course in ECE, with the exception of EEL 3003 and EEL 3008.

Academic Learning Compact

Electrical engineering emphasizes development of the transmission and utilization of electric energy and intelligence. Electrical engineers design products and systems that meet the needs of today and tomorrow's electrical and electronic systems. Students will be able to design communication systems; design the electronic components that run computers, motor vehicles, TVs, stereo systems and robots for automated factories; design aircraft and spacecraft control systems; design utility and industrial power systems; and design biological and biomedical systems.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation).

Before Graduating Students Must

- Pass an assessment of performance on a major design experience. Assessment will be provided by two or more faculty and/or industry practitioners.

- Pass assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe, and interpret mathematics, science and engineering principles to electrical engineering problems.

Critical Thinking

2. Design and conduct electrical engineering experiments as well as analyze and interpret data.
3. Design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.

Communication

4. Convey technical data and design information effectively for a range of audiences using a variety of methods and media.

Electrical Engineering Minor

This minor, administered by the Department of Electrical and Computer Engineering, provides additional knowledge in electrical engineering.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)
- **Credits:** 15 | Completed with minimum grades of C
- **Related Electrical Engineering Programs**

Students pursuing the BSEE or BSCEN degree are not eligible for this minor.

To be admitted to the minor, students are expected to meet the admission requirements of the Department of Electrical and Computer Engineering.

All courses for the minor must be completed at UF. EEL 3003 and EEL 3111C do not both count toward the minor.

Required Courses

Code	Title	Credits
EEE or EEL-prefixed courses [1]		12
EEE or EEL-prefixed course (4000 level)		3
Total Credits		15

[1] Must include EEL 3003 or EEL 3111C.

Related Electrical Engineering Programs

- Bachelor of Science in Electrical Engineering (p. 1288)

Engineering Innovation Certificate

With core themes involving the study of innovation, entrepreneurship, leadership, and ethics, this certificate develops a comprehensive skill set that is applied in innovation-driven enterprises and within larger organizations.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)
- **Credits:** 9 | Completed with minimum grades of B
- **Related Engineering Innovation Programs**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

This certificate is open to undergraduate students in any engineering discipline. Students cannot earn both the Engineering Innovation certificate and minor.

Required Courses

Code	Title	Credits
EGN 4641	Engineering Entrepreneurship	3
EGN 4643	Engineering Innovation	3
EGS 4038	Engineering Leadership	3
Total Credits		9

Related Engineering Innovation Programs

- Engineering Innovation minor (p. 1293)

Engineering Innovation Minor

Graduates with this minor across all engineering disciplines are better prepared to enter the market place as innovators and leaders in myriad technology-centric industries. The minor provides the academic background for graduates to think more creatively, innovatively, and entrepreneurially. Graduates are more rounded with innovation skill sets that enhance career advancement opportunities, either for employers or in their own entrepreneurial pursuits.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)
- **Credits:** 15 | Completed with a minimum 2.8 combined GPA
- **Related Engineering Innovation Programs**

Open to all Herbert Wertheim College of Engineering majors. Students can only complete one UF Innovation minor. Students cannot earn both the Engineering Innovation minor and certificate.

The curriculum enhances the engineering discipline with courses in engineering attributes, communications, innovation, entrepreneurship, creativity, leadership, and project management, completed with an internship/co-op experience. The UF Engineering Innovation Institute oversees this minor.

This minor develops a deep and comprehensive skill set in undergraduate engineering students that can be applied innovation-driven enterprises as well as in “intrapreneurial” initiatives within larger organizations. The core themes involve creativity, the study of engineering-focused innovations, technological entrepreneurship, leadership of teams focused on technology and engineering, engineering project management, and professional development for engineers via an engineering innovation-related internship.

This minor complements the technical training in the student’s major discipline by providing the tools and knowledge required for engineering innovators.

Required Courses

Code	Title	Credits
ENC 3246	Professional Communication for Engineers	3
EGN 4643	Engineering Innovation	3
Select 6 credits:		6
EGS 2036	Fundamentals of the New Engineer

Engineering | Exploring Engineering Studies

This plan is intended for students who want to major in engineering but have not yet chosen a specific discipline or for students who need to take both pre-tracking chemistry and mathematics courses in their first semester.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)
- **Degree:** None
- **Credits for Degree:** N/A

This is *not* a degree-granting major. Students should work with their academic advisors to choose a degree-granting engineering major by semester three.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Semester 1

- Complete CHM 1025 and MAC 1147 with minimum grades of C within 2 attempts, including withdrawals. At least one course must be passed in semester 1
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 of the 8 critical-tracking courses with minimum grades of C within two attempts, including withdrawals: CHM 2045 or CHM 2095, CHM 2046 or CHM 2096, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts, including withdrawals
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional courses with minimum grades of C within two attempts, including withdrawals
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 8 critical-tracking courses with minimum grades of C in each course, within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

Undecided engineering students who are ready to begin one or both critical-tracking courses in semester 1 should meet with their academic advisor to adjust the recommended plan of study.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
ENC 1101	Expository and Argumentative Writing ((If you do not place out of this course, take it in the fall))	0-3
CHM 1025	Introduction to Chemistry (Gen Ed Physical Sciences)	2
EGS 1006	Introduction to Engineering (recommended)	1
MAC 1147	Precalculus Algebra and Trigonometry (Gen Ed Mathematics)	4
Gen Ed Humanities		3
Gen Ed Social and Behavioral Sciences		3
	Credits	13-16
Semester Two		
Select one:		3
CHM 2045	General Chemistry 1 (**Critical Tracking**; Gen Ed Physical Sciences)	
CHM 2095	Chemistry for Engineers 1 (**Critical Tracking**)	
CHM 2045L	General Chemistry 1 Laboratory (Gen Ed Physical Sciences)	1
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	4
Gen Ed Social and Behavioral Sciences		3
	Credits	14
Semester Three		
Select one:		3
CHM 2046	General Chemistry 2 (**Critical Tracking**; Gen Ed Physical Sciences)	
CHM 2096	Chemistry for Engineers 2 (**Critical Tracking**; or approved substitute)	
CHM 2046L	General Chemistry 2 Laboratory (Gen Ed Physical Sciences)	1
ENC 3246	Professional Communication for Engineers (Gen Ed Composition)	3

	Credits	13
	Total Credits	68-71

Environmental Engineering

Environmental engineering applies engineering and scientific principles to protect and preserve human health and the environment. It embraces broad environmental concerns, including air and water quality, solid and hazardous wastes, groundwater protection and remediation, water resources management, environmental policy, radiological health, environmental biology and chemistry, systems ecology, water and wastewater treatment and wetlands ecology.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)
- **Degree:** Bachelor of Science in Environmental Engineering
- **Credits for Degree:** 128

- **Additional Information**
- **Related Environmental Engineering Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Department Recommendations

All students are strongly encouraged to take the Fundamentals of Engineering Exam which is the first exam leading to licensure as a professional engineer. Application should be made in the semester before graduation.

Qualified students are encouraged to pursue master's and doctoral studies to increase their knowledge and broaden their employment opportunities.

Educational Objectives

Environmental engineering graduates will continue to develop and apply their knowledge and skills to identify, prevent, and solve environmental problems. Evidence of achievement of this objective includes one or more of the following:

- Passing the Fundamentals of Engineering Examination
- Obtaining and maintaining a Professional Engineering License
- Admission to graduate school, including medical, law or other professional schools
- Completing educational and professional short courses

Program graduates can aspire to careers that benefit society as a result of their educational experiences in science, analysis and design, as well as in their social and cultural activities. Evidence of achievement of this objective includes the following:

- Employment as an engineer or in a related technical capacity
- Participating in professional organizations
- Providing community service

Program graduates will be able to communicate and work effectively in all work settings including those that are multidisciplinary. Evidence of achievement of this objective includes one or more of the following:

- Publication in scientific and engineering journals
- Presenting at scientific and engineering conferences
- Teaching
- Contributing to scientific and engineering studies
- Service as a task or team leader

Mission

The mission of the Department of Environmental Engineering Sciences (EES) is to provide quality undergraduate and graduate educational programs in environmental engineering sciences, to conduct an internationally recognized environmental research program that benefits humanity, and to provide authoritative guidance to individuals and organizations charged with preventing and solving local, state, national and global environmental problems. EES serves as a leader in interdisciplinary programs aimed at solving environmental problems and as a major on campus crucible for identification, conceptualization and resolution of environmental issues.

Related Environmental Engineering Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=141401&track=01) may be used for transfer students.

Semester 1

- Complete 1 critical-tracking course (CHM 2045 or CHM 2095, CHM 2046 or CHM 2096, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048 and PHY 2049) with a minimum grade of C within two attempts, including withdrawals.
- 2.5 GPA on the best of a maximum of two attempts at each critical-tracking course
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts, including withdrawals
- 2.5 GPA on the best of a maximum of two attempts at each critical-tracking course
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts, including withdrawals
- 2.5 GPA on the best of a maximum of two attempts at each critical-tracking course
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts, including withdrawals
- 2.5 GPA on the best of a maximum of two attempts at each critical-tracking course
- 2.0 UF GPA required

Semester 5

- Complete the remaining critical-tracking courses with minimum grades of C in each course within two attempts, including withdrawals
- 2.5 GPA on the best of a maximum of two attempts at each critical-tracking course
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the general education International (GE-N) and Diversity (GE-D) requirements. This is often done concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

ENV 4913	Integrated Product and Process Design 2: Environmental Engineering Sciences [1]	3

[1] By application only. The ENV 4912/ENV 4913 sequence counts as a technical elective and the capstone design elective. Both courses must be completed to receive credit.

Academic Learning Compact

Environmental engineering applies engineering and scientific principles to protect and preserve human health and the environment. It embraces broad environmental concerns, including air and water quality, solid and hazardous wastes, groundwater protection and remediation, water resources and management, environmental policy, radiological health, environmental biology and chemistry, systems ecology, water and wastewater treatment and wetlands ecology.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation).

Before Graduating Students Must

- Pass assessment by two or more faculty and/or industrial practitioners of student performance on a major design experience.
- Pass assessment in two courses of individual assignments targeted to each particular learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Apply knowledge of mathematics, science and engineering principles to environmental engineering problems.
2. Design and conduct environmental engineering experiments and analyze and interpret the data collected.

Critical Thinking

3. Design an environmental engineering system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints.

Communication

4. Communicate technical data and design information effectively in writing and in speech to project stakeholders.

Industrial and Systems Engineering

Industrial and systems engineering deals with the optimization of complex processes or systems. It typically focuses on the development, improvement, implementation and evaluation of integrated systems of people, money, knowledge, information, equipment, energy, materials, etc. Industrial and systems engineering often relies on, among others, the analysis and synthesis of mathematical, physical, social sciences, and the principles and methods of engineering design to specify, predict and evaluate results from such systems or processes.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)
- **Degree:** Bachelor of Science in Industrial and Systems Engineering
- **Credits for Degree:** 125
- **Additional Information**
- **Related Industrial and Systems Engineering Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Industrial and systems engineering prepares students for industrial practice in product design, process design, plant operation, production control, quality control, facilities planning, work system analysis and evaluation, and economic analysis of operational systems.

Students are prepared to use engineering principles to solve problems that require a quantitative basis for decision making and the application of economics, operations research, statistics, mathematics and engineering analysis, with dependence on the computer. The curriculum also provides the preparation necessary for graduate study.

Admission Requirements

The minimum requirements for admission to the undergraduate program are an overall 2.5 grade point average and a 2.5 grade point average in the designated pre-engineering technical courses. Students who have not met these requirements at 60 credits may be admitted on probation with successful petition.

Department Requirements

Students must complete successfully every required course with minimum grades of C in at most three attempts. Grades of H, I, N, U, and W are considered attempts. Registration canceled for non-payment is also considered an attempt.

Educational Objectives

The objective of the industrial and systems engineering program is to produce graduates who:

- will be successful professionals in industrial and systems engineering or other disciplines
- can acquire advanced knowledge through continuing education or advanced degree programs
- can become active leaders in their profession and/or community

Mission

The mission of the undergraduate program is to provide a top quality, state-of-the-art education in industrial and systems engineering and to foster leading-edge instruction. The program seeks national recognition by peer institutions and key employers of industrial and systems engineering graduates.

Related Industrial and Systems Engineering Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=142701&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 8 critical-tracking courses with a minimum grade of C within two attempts: COP 2271 (VB.NET), ESI 3327C, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking course with a minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

ESI 4357	Web-Based Decision Support Systems for Industrial and Systems Engineers [1]	4
Technical elective [4]		2
	Credits	15
	Total Credits	125

1. Minimum grade of C required. A C- will not satisfy this requirement.
2. The curriculum requires the completion of both the Diversity (D) component and the International (N) component.
3. Students with deficient backgrounds in physics should first take a lower-level course such as PHY 2020. After successful remediation, they can begin the physics sequence: PHY 2048/PHY 2048L and PHY 2049/PHY 2049L.
4. The curriculum requires five technical elective credits. Students should choose technical electives that are related to one another and provide expertise in an ISE concentration area. Several minors provide such concentrations; information is available in 368 Weil.
5. As an alternative, students can participate in the Integrated Product and Process Design (IPPD) program. Multidisciplinary teams of engineering students in this program work closely with a liaison engineer to design a new product or process for an industry sponsor. The program requires students to take, typically in their senior year, a sequence of two 3-credit courses, EIN 4912 in fall and EIN 4913 in spring. The former is a course approved for a technical elective and the latter can replace EIN 4335.

Fundamentals of Engineering Exam Preparation

Approximately 10 percent of the members of the Institute of Industrial Engineers pursue a professional engineer (PE) license. A PE license is especially desirable for engineers who want to start their own businesses. The industrial and systems engineering curriculum does not require certain courses that are necessary for the Fundamentals of Engineering (FE) exam (also known as the Engineer Intern exam). The latter is also a prerequisite for pursuing professional engineer license.

Students preparing for the FE exam should choose a set of technical electives that properly prepare them for this exam, such as EGM 3520 and EGM 3400 / EGM 3401.

Academic Learning Compact

Industrial and systems engineering prepares students for industrial practice in product design, process design, plant operation, production control, quality control, facilities planning, work system analysis and evaluation and economic analysis of operational systems. Students will be prepared to use engineering principles to solve problems that require a quantitative basis for decision making and the application of economics, operations research, statistics, mathematics and engineering analysis, with dependence on the computer.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation).

Before Graduating Students Must

- Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
- Pass assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Apply knowledge of mathematics, science and engineering principles to industrial and systems engineering problems.
2. Design and conduct experiments relevant to industrial and systems engineering processes and problems, as well as to analyze and interpret the data.

Critical Thinking

3. Design industrial engineering decision support systems and manufacturing/service system processes to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints.

Communication

4. Communicate technical information effectively in speech and in writing to other industrial engineers and managers.

Materials Science and Engineering

Everything Americans use is composed of materials, from computer chips to flexible concrete skyscrapers, from plastic bags to artificial hips, from fiber optical cables to automobiles. Materials science and engineering makes these materials reliable and useful through design, processing and analysis of controlled compositions, microstructures and properties. Without new materials, the next generation of computers, automobiles, aircraft telecommunications, skyscrapers and medical implants will not exist. Materials of the future will be smart and will think on their own, in addition to meeting traditional property demands. This field abounds with scientific challenges and technological excitement.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)
- **Degree:** Bachelor of Science in Materials Science and Engineering
- **Credits for Degree:** 125
- **Additional Information**
- **Related Materials Science and Engineering Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The bachelor's degree program provides a broad materials science and engineering core with specialization in ceramics, electronic materials, metals or polymeric and biomaterials. Biomaterials also is taught at the combined bachelor's/master's level.

Admission Requirements

It is the department's policy to admit the best-qualified transfer applicants as demonstrated by academic achievement.

Successful applicants must have earned:

- An overall 2.5 grade point average, based on the first two attempts, in the eight preprofessional (critical-tracking) courses
- A minimum grade of C in the following:

Code	Title	Credits
MAC 2311	Analytic Geometry and Calculus 1	4
MAC 2312	Analytic Geometry and Calculus 2	4
MAC 2313	Analytic Geometry and Calculus 3	4
MAP 2302	Elementary Differential Equations	3
CHM 2045/2095	General Chemistry 1	3
CHM 2045L	General Chemistry 1 Laboratory	1
CHM 2046/2096	General Chemistry 2	3
CHM 2046L	General Chemistry 2 Laboratory	1
PHY 2048 & 2048L	Physics with Calculus 1 and Laboratory for Physics with Calculus 1	4
PHY 2049 & 2049L	Physics with Calculus 2 and Laboratory for Physics with Calculus 2	4

  Only the first two attempts in each course, including withdrawals, will be considered for admission to or retention in the department
- A cumulative minimum GPA of 2.0 is required for all courses

Educational Objectives

The program objectives of the MSE program at the University of Florida are to produce engineering practitioners and graduate students who in three to five years after graduation will:

- Have successful careers in Materials Science and Engineering or related disciplines.
- Be prepared to successfully participate in continuing education or education toward advanced degrees.

Department Requirements

A minimum grade of C is required in ENC 3246.

The department encourages students to accept internships and opportunities to study abroad. However, it is highly recommended that students seek academic advising for appropriate registration planning.

Mission

The department strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting and distance learning to promote engineering in the field.

Related Materials Science and Engineering Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Materials Science and Engineering minor (p. 1310)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Semester 1

- Complete 1 of 9 critical-tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, CHM 2046 or CHM 2096, EMA 3010, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 9 critical-tracking courses with minimum grades of C in each course within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the general education international (N) and diversity (D) requirements. This is often done concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
ENC 1101	Expository and Argumentative Writing (Take in the fall if you don't place out of it)	
Select one:		3
CHM 2045	General Chemistry 1 (**Critical Tracking**; Gen Ed Physical Sciences)	
CHM 2095	Chemistry for Engineers 1 (**Critical Tracking**; Gen Ed Physical Sciences)	
CHM 2045L	General Chemistry 1 Laboratory (Gen Ed Physical Sciences)	1
MAC 2311	Analytic Geometry and Calculus 1 (**Critical Tracking**; State Core Gen Ed Mathematics)	4
State Core Gen Ed Composition (p. 23); Writing Requirement: 6,000 words [1]		3
State Core Gen Ed Social and Behavioral Sciences (p. 23)		3
	Credits	14
Semester Two		
Select one:		3
CHM 2046	General Chemistry 2 (**Critical Tracking**; Gen Ed Physical Sciences)	
CHM 2096	Chemistry for Engineers 2 (**Critical Tracking**; Gen Ed Physical Sciences)	
CHM 2046L	General Chemistry 2 Laboratory (Gen Ed Physical Sciences)	1
ENC 3246	Professional Communication for Engineers (Gen Ed Composition; Writing Requirement: 6,000 words)	3
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
MAC 2312	Analytic Geometry and Calculus 2 (**Critical Tracking**)	4
	Credits	14
Semester Three		
Select one:		3-4
EIN 3354	Engineering Economy	
MAN 3025	Principles of Management	
MAR 3023	Principles of Marketing	
EMA 3010	Materials (**Critical Tracking**)	3
MAC 2313	Analytic Geometry and Calculus 3 (**Critical Tracking**; Gen Ed Mathematics)	4
PHY 2048	Physics with Calculus 1 (**Critical Tracking**; State Core Gen Ed Physical Sciences)	3

PHY 2048L	Laboratory for Physics with Calculus 1 (Gen Ed Physical Sciences)	1
Select a computer programming course:		2
COP 2271	Computer Programming for Engineers (or see advisor for approved list)	
	Credits	16-17
Semester Four		
EGM 2511	Engineering Mechanics: Statics	3
EMA 3000L	Sophomore Materials Laboratory	1
EMA 3011	Fundamental Principles of Materials	3
EMA 3800	Error Analyses and Optimization Methodologies in Materials Research	3
MAP 2302	Elementary Differential Equations (**Critical Tracking**)	3
PHY 2049	Physics with Calculus 2 (**Critical Tracking**)	3
PHY 2049L	Laboratory for Physics with Calculus 2	1
	Credits	17
Semester Five		
EEL 3003	Elements of Electrical Engineering	3
EGM 3520	Mechanics of Materials	3
EMA 3050	Introduction to Inorganic Materials	3
EMA 3066	Introduction to Organic Materials	3
EMA 3080C	Materials Laboratory 1 (Writing Requirement: 4,000 words)	2
EMA 4314	Energetics and Kinetics in Materials Science	3
	Credits	17
Semester Six		
EMA 3013C	Materials Laboratory 2 (Writing Requirement: 2,000 words)	2
EMA 3413	Electronic Properties of Materials	3
EMA 3513C	Analysis of the Structure of Materials	4
EMA 4125	Transport Phenomena in Materials Processing	3
EMA 4223	Mechanical Behavior of Materials	3
	Credits	15
Semester Seven		
EMA 4324	Stability of Materials	3
EMA 4913	Research in Materials Science and Engineering 1	1-3
or EMA 4915	or Integrated Product and Process Design Program 1	
Gen Ed Social and Behavioral Sciences; Writing Requirement: 6,000 words; with International or Diversity		3
Senior materials laboratory elective		1
Technical electives		9
	Credits	17-19
Semester Eight		
EMA 4121	Interfacial Engineering	3
EMA 4714	Materials Selection and Failure Analysis	3
EMA 4914	Research in Materials Science and Engineering 2	3
or EMA 4916	or Integrated Product and Process Design Program 2	
State Core Gen Ed Humanities with International or Diversity		3
Technical elective		3
	Credits	15
	Total Credits	125

[1] ACT/SAT placement scores do not exempt this requirement.

Approved Electives

Senior Materials Laboratory Electives

There are corequisite requirements for certain electives. Students taking a laboratory elective must also be enrolled in the corresponding corequisite technical elective course.

Code	Title	Credits
Laboratory Elective		
EMA 4041L	Advanced Ceramics Laboratory 1 [1]	1
EMA 4020L	Metallurgy Laboratory [2]	1
EMA 4061L	Biomaterials Laboratory [3]	1

EMA 4161L	Polymers Laboratory [4]	1
EMA 4414L	Electronic Materials Laboratory [5]	1

1 Corequisite: EMA 4645.

2 Corequisite: EMA 4120.

3 Corequisite: EMA 4061.

4 Corequisite: EMA 4161.

5 Corequisite: EMA 4614.

Technical Electives

Code	Title	Credits
EMA/ENU Courses		
Typically taught in Fall		
EMA 4061	Biomaterials: Structure and Properties	3
EMA 4120	Physical Metallurgy 1	3
EMA 4144	Physical Ceramics 1	3
EMA 4161	Physical Properties of Polymers	3
EMA 4614	Production of Electronic Materials	3
EMA 4623	Process Metallurgy	3
EMA 4645	Processing of Ceramic Materials	3
EMA 4666	Polymer Processing	3
CEMA/ENU Courses		
Typically taught in Spring		
EMA 4062	Biopolymers: Manufacture, Stability and Biocompatibility	3
EMA 4145	Physical Ceramics 2	3
EMA 4224	Physical Metallurgy 2	3
EMA 4462	Polymer Characterization	3
EMA 4615	Compound Semiconductor Materials	3
ENU 4800	Introduction to Nuclear Reactor Materials	3

- 3 credits minimum of technical electives in the fall semester needs to be a materials processing course.
- 3 credits maximum of non-EMA or ENU technical electives can be approved courses from outside the MSE department.

Academic Learning Compact

The major enables students to develop an understanding of materials systems and their role in engineering. Emphasis is placed on the ability to apply knowledge of mathematics, science and engineering principles to materials science and engineering; to design and conduct experiments, as well as to analyze and interpret data; and to design a *program name* system, component or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation).

Before Graduating Students Must

- Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
- Pass assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Apply knowledge of mathematics, science and engineering principles to materials science and engineering.
2. Design and conduct materials science and engineering experiments and analyze and interpret the data.

Critical Thinking

3. Design a materials science and engineering system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints.

Communication

4. Communicate technical data and design information effectively in speech and in writing to other materials engineers.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
EMA 3013C				R
EMA 3050	I			
EMA 3066	R		I	
EMA 3080C		I		I
EMA 3513C		R		A
EMA 4223			R	
EMA 4714	A	A	A	

Assessment Types

- Assignments
- Laboratory reports
- Research papers
- Oral presentations
- Exams
- Additional assessments include:
  - Outcome assessment
  - Student exit survey

Materials Science and Engineering Minor

This minor is for engineering and science students with interests in materials science and engineering. Materials concerns are critical to engineering design and analysis and new materials are needed for microelectronic packages, biomedical applications, super-conducting films, tool bits, cutting tools, construction, fuel-efficient engines and other industrial and scientific applications.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)
- **Credits:** 15 | Completed with minimum grades of C
- **Contact:** 108 Rhines Hall (http://campusmap.ufl.edu/?loc=0184)
- **Related Materials Science and Engineering Programs**

This minor provides the academic background to understand materials design, selection and processing. Students are required to complete a minimum of 15 credits of materials-related courses that complement their degree programs.

Required Courses

Code	Title	Credits
EMA 3010	Materials	3
EMA courses (approved by undergraduate coordinator)		12
Total Credits		15

Related Materials Science and Engineering Programs

- Bachelor of Science in Materials Science and Engineering (p. 1305)

Mechanical Engineering

Mechanical engineering is concerned with motion and the processes whereby other energy forms are converted into motion. Mechanical engineers are responsible for conceiving, designing, manufacturing, testing and marketing devices and systems that alter, transfer, transform and utilize the energy forms that cause motion.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)
- **Degree:** Bachelor of Science in Mechanical Engineering
- **Credits for Degree:** 128
- **Additional Information**
- **Related Mechanical and Aerospace Engineering Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The baccalaureate program in mechanical engineering is fully accredited and provides a broad education with a strong foundation in mathematics, science and basic engineering sciences. Advanced courses are available to develop specialized interests in the engineering aspects of manufacturing, robotics, solid mechanics, thermal and fluid systems, dynamics and controls, and biomechanics. Graduates are prepared to work in a variety of industries or to pursue graduate study.

Students considering a career in biomedical engineering should be aware that graduate education is often required. The Herbert Wertheim College of Engineering offers M.S. and Ph.D. degrees in biomedical engineering.

Combined Bachelor's/Master's Degree Program

The mechanical engineering professional often benefits from an advanced degree to meet the challenging needs of industry and government. Accordingly, the Department of Mechanical and Aerospace Engineering actively participates in the combined B.S./M.S. degree program that allows students to double-count graduate courses toward both degrees. The combined-degree program reduces the cost for both degrees and enhances the student's marketability for career advancement. Interested students should contact the MAE department or its website for more information.

Department Requirements

Minimum grades of C are required for the following:

Code	Title	Credits
EGM 2511	Engineering Mechanics: Statics	3
EGM 3344	Introduction to Numerical Methods of Engineering Analysis	3
EGM 3401	Engineering Mechanics: Dynamics	3
EGM 3520	Mechanics of Materials	3
EML 3100	Thermodynamics	3

The minimum C grade is part of the prerequisite requirement for courses listing EGM 2511, EGM 3344, EGM 3401, EGM 3520, or EML 3100 as a prerequisite. The prerequisite course and subsequent course cannot be taken in the same term, even if the prerequisite is being repeated.

An aerospace or mechanical engineering student whose cumulative, upper-division or department grade point average falls below a 2.0 or who does not meet critical tracking requirements will be placed on academic probation and required to complete a probation contract with an MAE academic advisor. Students normally are allowed a maximum of two terms (consecutive or non-consecutive) on academic probation. Students who do not satisfy the conditions of the first term on probation may be dismissed from the department.

All graduating seniors must complete an exit interview with their advisor before graduating.

Dual-Degree Programs

There is much overlap between the aerospace engineering and mechanical engineering curriculum. The first six semesters are identical for both programs. Through proper selection of electives, students can earn a dual mechanical engineering/aerospace engineering degree with one semester of additional work. Contact the Department of Mechanical and Aerospace Engineering or visit the website for more information.

Educational Objectives

The objective of the mechanical engineering program at UF is to prepare students to attain the following goals within a few years of graduation:

- Graduates will meet the expectations of employers of mechanical engineers.
- Qualified graduates will pursue advanced study if they so desire.

Mission

The mission of the undergraduate program is to serve the state of Florida, the United States and the engineering profession by providing quality educational programs in mechanical engineering; conduct a nationally recognized research program; and foster ongoing professional development of students and faculty.

Research Programs

The department's active research programs are sponsored by private industry, the National Science Foundation, Department of Defense, NASA, National Institutes of Health and other agencies.

These programs keep faculty at the leading edge of technology and provides opportunities for students to participate in research through classroom assignments, individual studies, undergraduate research scholarships and employment as research assistants.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=141901&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 8 critical-tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, EML 2023, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses with minimum grades of C in each course within two attempts
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Metallurgical Engineering Certificate

The metallurgical engineering certificate provides a foundation in the interrelationship of processing, microstructure, and properties of structural metals and alloys.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)
- **Credits:** 10 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Upon completion of the certificate, students have a fundamental understanding of the processing, microstructures, and properties of metallic structural alloys, as well as materials/process selection and failure analysis.

Prerequisite Courses

Code	Title	Credits
CHM 2045	General Chemistry 1	3
or CHM 2095	Chemistry for Engineers 1	
EMA 3010	Materials	3
EMA 3050	Introduction to Inorganic Materials	3
EMA 4223	Mechanical Behavior of Materials	3

EMA 4224	Physical Metallurgy 2	3
EMA 4623	Process Metallurgy	3
EMA 4020L	Metallurgy Laboratory	1
Total Credits		10

Nuclear and Radiological Engineering Minor

Established in 1910, the Herbert Wertheim College of Engineering is the largest professional school, the second-largest college and one of the three largest research units at the University of Florida. The curricula is designed to produce highly skilled engineers and provide each student with a broad range of degree and career choices.

- Bachelor of Science in Nuclear Engineering (p. 1325)
- Bachelor of Science in Nuclear and Radiological Sciences (p. 1317)
- Nuclear Radiation and Reactor Analysis certificate (p. 1330)

Nuclear and Radiological Sciences

This degree emphasizes the nuclear sciences rather than nuclear engineering. Students pursue a pre-medical specialization or a pre-medical physics specialization. Any student pursuing this degree must have a selected program, including option area electives, approved in advance by an advisor.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)
- **Degree:** Bachelor of Science
- **Specializations:** Pre-Medical (p. 1318) | Pre-Medical Physics (p. 1322)
- **Credits for Degree:** 125
- **Additional Information**
- **Related Nuclear Engineering and Science Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Diverse opportunities await graduates of the Department of Nuclear and Radiological Engineering (NRE) because nuclear sciences have and will continue to make major contributions to electricity production, medical diagnostic imaging and therapy, non-destructive testing as well as radiation detection and measurement. These opportunities will continue to grow as we face more challenges in energy production and medicine. For the last three decades, the nuclear industry has contributed over 20% of our country's electricity production, and major advances continue to be made in the development of radiation diagnostics and treatment for medical and industrial applications.

Related Nuclear Engineering and Science Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Bachelor of Science in Nuclear Engineering (p. 1325)
- Nuclear and Radiological Engineering minor (p. 1316)
- Nuclear Radiation and Reactor Analysis certificate (p. 1330)

Academic Learning Compact

The major in nuclear and radiological sciences educates students to work professionally in areas related to the control and safe utilization of nuclear energy, radiation and radioactivity.

Before Graduating Students Must

- Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
- Pass assessment in two or more courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Apply knowledge of mathematics, science and engineering for problem solving in engineering.
2. Analyze and interpret experimental data.

Critical Thinking

3. Develop an engineering design to meet specific technical requirements within realistic constraints such as economic, environmental, health and safety and reliability.
4. Foster the need for lifelong learning and the ability to adapt this to engineering practice.

Communication

5. Function effectively on multidisciplinary skills teams.
6. Communicate effectively, using both oral and written presentations, in engineering practice.

Nuclear and Radiological Sciences | Pre-Medical

This degree emphasizes the nuclear sciences rather than nuclear engineering. Students pursue a pre-medical specialization or a pre-medical physics specialization. Any student pursuing this degree must have a selected program, including option area electives, approved in advance by an advisor.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)
- **Degree:** Bachelor of Science
- **Specializations:** Pre-Medical (p. 1318) | Pre-Medical Physics (p. 1322)
- **Credits for Degree:** 125
- **Additional Information**
- **Related Nuclear Engineering and Science Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Diverse opportunities await graduates of the Department of Nuclear and Radiological Engineering (NRE) because nuclear sciences have and will continue to make major contributions to electricity production, medical diagnostic imaging and therapy, non-destructive testing as well as radiation detection and measurement. These opportunities will continue to grow as we face more challenges in energy production and medicine. For the last three decades, the nuclear industry has contributed over 20% of our country's electricity production, and major advances continue to be made in the development of radiation diagnostics and treatment for medical and industrial applications.

Related Nuclear Engineering and Science Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Bachelor of Science in Nuclear Engineering (p. 1325)

- Nuclear and Radiological Engineering minor (p. 1316)
- Nuclear Radiation and Reactor Analysis certificate (p. 1330)

Critical Tracking

Note that critical tracking is the same for both specializations.

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=142301&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 8 critical-tracking courses with a minimum grade of C within two attempts: BSC 2010, CHM 2045 or CHM 2095, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 8 critical-tracking courses with minimum grades of C in each course within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

Students are required to complete IDS 1161 in semester 1 or 2. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements. This is often done concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
BSC 2010	Integrated Principles of Biology 1 (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	3
BSC 2010L	Integrated Principles of Biology Laboratory 1	1
Select one:		3
CHM 2045	General Chemistry 1 (**Critical Tracking**; Gen Ed Physical Sciences)

Engineering elective		3
Pre-med electives		6
	Credits	14
	Total Credits	125

[1] All nuclear engineering and nuclear engineering sciences majors must pass all required undergraduate department courses with an overall C average.

Approved Electives

Engineering Electives

All technical engineering electives must be approved by a department advisor. At least five credits of technical engineering electives must be ENU courses. Examples include courses in nuclear engineering, engineering materials, thermodynamics, statics, dynamics, and advanced programming.

Examples of Pre-Medical Electives

Code	Title	Credits
PCB 3063	Genetics	4
or AGR 3303	Genetics	
PCB 4723C	Physiology and Molecular Biology of Animals	5
PCB 5235	Immunology	3

Academic Learning Compact

The major in nuclear and radiological sciences educates students to work professionally in areas related to the control and safe utilization of nuclear energy, radiation and radioactivity.

Before Graduating Students Must

- Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
- Pass assessment in two or more courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Nuclear Engineering

Nuclear engineering includes the design, development and operation of nuclear power systems; numeric simulation of nuclear systems; health physics and radiation protection; radiation imaging; radiation measurements; national security and non-proliferation; nondestructive examination of materials and structures using radiation techniques; use of radiation in medicine for treatment and diagnostics; and using radiation in food processing, industrial processing and manufacturing control.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)
- **Degree:** Bachelor of Science in Nuclear Engineering
- **Credits for Degree:** 127
- **Additional Information**
- **Related Nuclear Engineering and Science Programs**

To graduate with this major, students must complete all university, college, and major requirements.

A full complement of experimental facilities is available, including a 100 KW research and training reactor, a neutron activation analysis laboratory and a D-D neutron source for radiation studies. The department also has specialized nuclear instrumentation in the radiation detection laboratories located in the Nuclear Science Building and the Nuclear Field Building.

Students should concentrate electives in one discipline to achieve solid familiarity in a minor field of study. These electives, chosen with an advisor, allow option area specialization in reactor engineering, reactor operations, radioisotopes and nuclear radiation technology, and radiation and biological systems.

Transfer Admission Requirements

It is the department's policy to admit the best-qualified transfer applicants as demonstrated by academic achievement. Successful applicants must have earned:

- An overall 2.5 grade point average, based on the first two attempts in the eight preprofessional (critical-tracking) courses;
- Minimum grades of C in the following. Only the first two attempts in each course, including withdrawals, will be considered for admission to or retention in the department:

Code	Title	Credits
MAC 2311	Analytic Geometry and Calculus 1	4
MAC 2312	Analytic Geometry and Calculus 2	4
MAC 2313	Analytic Geometry and Calculus 3	4
MAP 2302	Elementary Differential Equations	3
CHM 2045	General Chemistry 1	3
or CHM 2095	Chemistry for Engineers 1	
CHM 2045L	General Chemistry 1 Laboratory	1
Select one:		3
CHM 2046	General Chemistry 2	
or CHM 2096	Chemistry for Engineers 2	
BSC 2010	Integrated Principles of Biology 1	

- A cumulative minimum 2.0 GPA is required for all courses.

Department Requirements

- Minimum grades of C are required in the following:

Code	Title	Credits
ENC 3246	Professional Communication for Engineers	3
ENU 4001	Nuclear Engineering Analysis 1	4
ENU 4191	Elements of Nuclear and Radiological Engineering Design	1
ENU 4192	Nuclear and Radiological Engineering Design	3
ENU 4605	Radiation Interactions and Sources 1	4

- The department encourages students to accept internships and opportunities to study abroad. It is highly recommended that students seek academic advising for appropriate registration planning.
- All nuclear engineering and nuclear radiological sciences majors must pass all required undergraduate department courses with an overall C average.
- All technical electives must be approved by a department advisor. At least six credits of technical electives must be ENU courses.

Educational Objectives

The Department of Nuclear and Radiological Engineering has established the following educational objectives for its undergraduate program.

Graduates will:

- Have successful careers in nuclear engineering or related disciplines
- Pursue continuing education or advanced degrees

Mission

The department will provide quality education and conduct nationally recognized research in nuclear and radiological engineering to serve the needs of Florida and the nation.

Related Nuclear Engineering and Science Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Bachelor of Science in Nuclear and Radiological Sciences (p. 1317)

- Nuclear and Radiological Engineering minor (p. 1316)
- Nuclear Radiation and Reactor Analysis certificate (p. 1330)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=142301&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 8 critical-tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095; CHM 2046 or CHM 2096 or BSC 2010; MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 8 critical-tracking courses with minimum grades of C in each course within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the general education international (GE-N) and diversity (GE-D) requirements. This is often done concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

ENU 4641C	Applied Radiation Protection (Writing Requirement: 2,000 words)	2
Technical elective		3
	Credits	14
	Total Credits	127

[1] ACT/SAT Placement scores do not exempt this requirement.

Technical Electives

The choice of engineering science and technical electives allows emphasis in nuclear power engineering, nuclear instrumentation, criticality safety safeguards, radiation imaging, plasmas/fusion, advanced nuclear reactor concepts and non-proliferation.

Of the nine credits of technical electives required, six credits must be ENU courses 3000-level or above. A maximum of three credits, combined, may come from ENU 4905 or ENU 4949. The final three credits may be any engineering (including ENU), mathematics or science course 3000-level or above.

Academic Learning Compact

The major in nuclear engineering educates students to work professionally in areas related to the control and safe utilization of nuclear energy, radiation and radioactivity.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation).

Before Graduating Students Must

- Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
- Pass assessment in two or more courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Apply knowledge of mathematics, science and engineering for problem solving in engineering.
2. Design and conduct experiments and analyze and interpret experimental data.

Critical Thinking

3. Develop an engineering design to meet specific technical requirements within realistic constraints such as economic, environmental, health and safety and reliability.
4. Foster the need for lifelong learning and the ability to adapt this to engineering practice.

Communication

5. Function effectively on multidisciplinary skills teams.
6. Communicate effectively, using both oral and written presentations, in engineering practice.

Curriculum Map

Nuclear Radiation and Reactor Analysis Certificate

The nuclear radiation and reactor analysis certificate provides a foundation in radiation and reactor concepts for engineers across multiple majors and industries. The certificate is designed with prerequisites and courses to promote nuclear engineering education across a numerous engineering disciplines.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)
- **Credits:** 11 | Completed with minimum grades of C
- **Related Nuclear Engineering and Science Programs**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Prerequisites

Code	Title	Credits
CHM 2045	General Chemistry 1	3
or CHM 2095	Chemistry for Engineers 1	
CHM 2046	General Chemistry 2	3
or CHM 2096	Chemistry for Engineers 2	
MAC 2311	Analytic Geometry and Calculus 1	4
MAC 2312	Analytic Geometry and Calculus 2	4
MAC 2313	Analytic Geometry and Calculus 3	4
PHY 2048	Physics with Calculus 1	3
PHY 2049	Physics with Calculus 2	3
Select one:		3
EGM 4313	Intermediate Engineering Analysis	
MAP 4305	Differential Equations for Engineers and Physical Scientists	

Required Courses

Polymer Science and Engineering Certificate

The polymer science and engineering (PSE) certificate provides a foundation in polymer synthesis, processing and characterization, and how this relates to polymer structure and properties. This facilitates the proper selection of polymers for various applications such as plastics, composites, biomaterials, organic electronics, and rheology modifiers.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)

Sales Engineering Minor

Graduates with this minor are regarded highly by recruiters for industries seeking sales engineering staff. The minor provides the academic background for careers in sales, managerial and entrepreneurial pursuits. Graduates are more effective communicators and are trained to promote and market new technologies and related products.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 1231)
- **Credits:** 16-18 | Completed with a minimum 2.8 combined GPA
- **Contact:** 371 Weil Hall (http://campusmap.ufl.edu/?loc=0024)

Any engineering major is eligible to apply for this minor.

The curriculum enhances the engineering discipline with courses in communications, business, management and accounting. There is a core requirement of seven to eight credits, a communication skills elective requirement of three credits and a management skills elective requirement of six to eight credits.

Required Courses

Code	Title	Credits
Required		
ACG 2021	Introduction to Financial Accounting	3-4
or AEB 3144	Introduction to Agricultural Finance	
AEB 3341	Selling Strategically	3
EGN 4930	Sales Engineer Seminar	1
Select one:		3
CGN 4101	Civil Engineering Cost Analysis	
ECH 4604	Process Economics and Optimization	
EIN 3354	Engineering Economy	
AEB 3300	Agricultural and Food Marketing	3-4
or MAR 3023	Principles of Marketing	
Communications Skills elective		3
Total Credits		16-18

Communications Skills Electives

Code	Title	Credits
AEC 3030C	Effective Oral Communication	3

Construction Management, M.E. Rinker, Sr., School of

Established in 1935, the M.E. Rinker, Sr. School of Construction Management is the oldest continuous construction management program in the country. The school offers majors in Construction Management and Fire and Emergency Services; and certificates in Construction Management, Emergency Medical Services Management, and Fire and Emergency Services Management.

Academic Advising
301 Rinker Hall
352.273.1180

Established

1935 through the architecture program. Became a department in 1957 and a school in 1976.

Accredited

American Council for Construction Education

Degrees

Bachelor of Science in Construction Management (B.S.C.M), Bachelor of Science in Fire and Emergency Services (B.S.F.E.S.)

Certificates

EMS Management, FES Management, Construction Management

Scholarships

General financial aid information is available from the Office of Student Financial Affairs. The school can provide scholarship information for third- and fourth-year building construction students.

Internships and Career Guidance

The school has a job placement office and also hosts a building construction job fair each semester.

Research Centers

Shimberg Center for Housing Studies, the Powell Center for Construction and Environment, the Fluor Program for Construction Safety and the Center for Advanced Construction Information Modeling.

Academic Policies

Application Deadlines

Students are admitted for third-year professional coursework in the fall and spring semesters for construction management and each semester for fire and emergency services. Application procedures, receipt of transcripts and school requirements for admission should be completed by the application deadline (http://www.admissions.ufl.edu/ugrad/trappdates.html). Late applications are not accepted.

Dean's List (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#deanslisttext)

Normal Academic Progress

Students must maintain normal academic progress with a minimum GPA of 2.0 for all courses attempted in the junior and senior years. Students must take courses in the sequence specified. Students may be dismissed from the program if they fail to maintain normal academic progress.

Normal Course Loads

The average course load for building construction students is 16 credits. Students who wish to take fewer than 12 credits should be aware that certain university privileges and benefits require a minimum course load. It is the student's responsibility to verify the minimum course load necessary for these privileges and benefits.

Student Work

The Rinker School reserves the right to retain all student work for the purpose of record, exhibition or instruction.

Probation and Dismissal

Students who do not make satisfactory academic progress will be excluded from further registration.

Students who receive a failing grade in a BCN course will be dismissed if they subsequently receive a failing grade in the same course.

Students failing two or more BCN courses in any semester will be dismissed.

Student Responsibility

Before enrolling, it is the student's responsibility to review and consider all pertinent information about the university and the school. Special attention must be paid to required documentation, degree requirements and deadlines.

Waiver of Liability

Several courses require field trips. All students must sign a waiver of liability and a hold harmless agreement as a prerequisite to admission to the School of Construction Management. In addition, student organizations are represented at conferences, seminars and projects outside of campus. A separate, similar waiver will be used for students who participate in these voluntary activities.

Admission to Construction Management

Admission to CM is **selective** and is given to those applicants whose potential indicates the greatest likelihood of success in the program.

All Students

- The school has limited admission. An applicant's satisfaction of minimum requirements does not guarantee admission. The school has established a selective process for admission and only a limited number of new students are accepted each fall and spring term. No distinction is made between internal and external transfers. Students may apply only twice to upper division.
- Students must attain a minimum 2.50 GPA in construction management prerequisite coursework and have an overall 2.50 GPA for all freshman and sophomore work required for a baccalaureate degree in construction management.
- Students must submit SAT or ACT scores, which will be evaluated for admission selection. Students are ranked and admitted based on an evaluation of their construction management prerequisite coursework and their SAT or ACT scores.
- Students must submit a personal statement outlining their reasons for applying to the Rinker School. Consideration is also given to the number of preprofessional courses remaining, as well as to the applicant's letter of intent, work experience, personal references and participation in student organizations and community events.
- Students must complete two sequential courses of foreign language in secondary school, 8-10 credits at the postsecondary level or document an equivalent level of proficiency.

Transfer Students

Students attending four-year colleges should follow a program of general education and preprofessional courses equivalent to the basic curriculum for entry to the Rinker School.

Junior college and public college students must meet the following requirements:

- Complete the university transfer program at the junior college.
- Complete the A.A. degree.
- Complete all prerequisite general education and preprofessional courses, or acceptable substitutes.
- Meet with an academic advisor in the Rinker School before applying to upper division.
- Can transfer up to 15 credits from another ACCE accredited four-year program.

Admission to Fire and Emergency Services

All Students

- An Associate of Arts degree from a Florida state college -OR- 60+ transferrable credits from a regionally accredited college or university (may require additional coursework to satisfy the state of Florida general education requirements).
- A minimum 2.30 GPA in fire and emergency services prerequisite coursework and have an overall 2.30 GPA for all freshman and

sophomore work required for a baccalaureate degree in fire and emergency services.
- Complete two sequential courses of foreign language in secondary school, 8-10 credits at the postsecondary level *or* document an equivalent level of proficiency.
- Credits beyond the 60 required for admission to the school will not reduce the number of credits to be completed in the junior and senior years to earn a degree. These courses may not be accepted for equivalent credit.
- Travel may be required

Transfer Students

Students attending four-year colleges should follow a program of general education and preprofessional courses equivalent to the basic curriculum for entry to the school.

Junior college and public college students should:

- Complete the university transfer program at the junior college.
- Complete the A.A. degree.
- Complete all prerequisite general education and preprofessional courses, or acceptable substitutes.

Degree Requirements

Seniors must file a formal application for degree on ONE.UF (https://one.uf.edu) by the deadline (p. 1442), which is early in the semester in which they expect to receive the degree.

To receive the Bachelor of Science in Construction Management, a student must complete all of the following satisfactorily:

- Complete 64 credits of construction management prerequisite requirements.
- Complete the approved program in construction management, consisting of 61 credits of 3000/4000-level coursework taken in the junior/senior years.
- Attain a minimum 2.0 overall GPA.
- Attain a minimum 2.0 GPA on all 3000/4000-level degree requirements.
- A minimum of 125 credits is required for graduation. The waiving of any required course does not reduce the credits required for graduation.

Degree Requirements for Fire and Emergency Services

Seniors must file a formal application for degree on ONE.UF (https://one.uf.edu), by the deadline (p. 1442), which is early in the semester in which they expect to receive the degree.

To receive the Bachelor of Science in Fire and Emergency Services, a student must complete all of the following satisfactorily:

- Complete the approved program in fire and emergency services, consisting of 60 credits of 3000/4000-level coursework taken in the junior/senior years.
- Attain a minimum 2.0 overall GPA.
- Complete a minimum of 120 credits. The waiving of any required course does not reduce the credits required for graduation.

Construction Management

Bachelor of Science in Construction Management is a four-year program for students interested in careers in construction management, techniques, operations and related areas in the construction industry. The degree draws upon skills in communication and interpersonal relations.

About this Program

- **College:** Design, Construction and Planning (p. 313)
- **School:** M.E. Rinker, Sr. School of Construction Management (p. 1333)
- **Degree:** Bachelor of Science in Construction Management
- **Credits for Degree:** 125
- **Contact:** 352.273.1180 | 304 Rinker Hall (http://campusmap.ufl.edu/?loc=0272)
- **Additional Information**
- **Related Construction Management Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Opportunities for advancement and increasing responsibility exist in all areas of the construction industry, including land development; home building; public building; industrialized building systems; commercial, industrial, marine and heavy construction; underwater development; space-age facilities; materials and equipment sales and installations; and construction product research, development, sales and applications.

Related Construction Management Programs

- Combined Degree (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- Construction Management certificate (p. 1339)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=151001&track=01) may be used for transfer students.

Semester 1

- Complete 3 of 14 critical-tracking courses for a total of 9 credits: ACG 2021, BCN 1210, BCN 1251C (or ARC 1301 and ARC 1302), BCN 2405C, BUL 4310, ECO 2013, ENC 1102, ENC 3254, MAC 2311, STA 2023, PHY 2053/PHY 2053L, PHY 2054/PHY 2054L, SPC 2608, SPN 1180
- 2.35 UF GPA required

Semester 2

- Complete 13 additional credits of critical-tracking courses
- 2.4 UF GPA required

Semester 3

- Complete 11 additional credits of critical-tracking courses
- 2.45 UF GPA required

Semester 4

- Complete 15 additional credits of critical-tracking courses
- 2.5 GPA on all attempts of critical-tracking courses
- 2.5 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
BCN 1210	Construction Materials (**Critical Tracking**) [2]	3
BCN 1582	International Sustainable Development (Gen Ed Social and Behavioral Sciences and International)	3
DCP 1003 or BCN 1001	Creating our Built Environment or Introduction to Construction Management	1

Total Credits for M.S.C.M.		143
Fifth Year Additional Credits for M.C.M.		24
Total Credits for M.C.M.		149

Academic Learning Compact

The Bachelor of Science in Construction Management prepares students for a career in the construction industry.

Before Graduating Students Must

- Pass the performance based capstone course utilizing Construction Project Simulation.
- Successfully utilize and interpret the Florida Building Code in classroom tests and reports.
- Satisfy formal presentation requirements; attend field trips and submit reports for them that demonstrate proficiency in writing professional memos and letters.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Interpret knowledge of engineering, materials, methods, equipment and processes to safely construct buildings and structures.
2. Survey and quantify building components to estimate project costs, analyze progress and control expenditures.

Critical Thinking

3. Create an effective planning, scheduling and control system by identifying, evaluating and organizing the diverse elements of a construction project.
4. Set up and manage project administration and management systems to efficiently document and monitor the construction process.

Communication

5. Describe technical and financial data effectively in speech and in writing to all stakeholders in the construction process.

Construction Management Certificate

The construction management certificate is intended for seniors enrolled in construction-related programs (e.g., civil engineering) in universities other than UF wherein students spend one semester at UF completing four construction management courses.

About this Program

- **College:** Design, Construction and Planning (p. 313)
- **School:** M.E. Rinker, Sr. School of Construction Management (p. 1333)
- **Credits:** 12 | Completed with minimum grades of C or better and a combined grade average of 2.50 from all courses
- **Contact:** 352.273.1180 | 304 Rinker Hall (http://campusmap.ufl.edu/?loc=0272)
- **Related Construction Management Programs**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Prerequisites

- A senior enrolled in an undergraduate degree program in a construction-related field (e.g., civil engineering) reviewed and approved by the school's faculty.
- Demonstrated English communication skills.
- Students from non-exempt countries must demonstrate proficiency in English by providing TOEFL or TSE scores.

Required Courses

Students will be awarded the certificate if they complete four of the following upper-division construction management courses with a combined GPA of 2.5 or better and a 2.0 or better in each course.

Code	Title	Credits
Select four:		12
BCN 3224C	Construction Techniques	
BCN 3240C	Equipment and Methods for Heavy/Highway Construction	
BCN 5784		
BCN 3255C	Graphic Communication in Construction	
BCN 3611C	Construction Estimating 1	
or BCN 5618C	Comprehen Estimating

Fire and Emergency Services UF Online

Fire and emergency services degree program is designed to add the academic substance to prepare graduates to lead public or private sector fire, EMS and emergency management. Students earn a bachelor of science with the ability to specialize in fire, emergency medical services management or emergency management.

About this Program

- **College:** Design, Construction and Planning (p. 313)
- **School:** M.E. Rinker, Sr. School of Construction Management (p. 1333)
- **Degree:** Bachelor of Science in Fire and Emergency Services
- **Specializations:** Fire Management (p. 1352) | Emergency Medical Services Management (p. 1348) | Emergency Management (p. 1344)
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **Additional Information**
- **Related Fire and Emergency Services Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The program specializations offer the student the ability to focus their degree in three different aspects of the emergency services industry. The program prepares the graduates for advancement in the ranks for the fire service, EMS and emergency management. In addition, graduates can find jobs at the local, state and national level of government, insurance companies, industry, and other areas. Students may apply to the university at the junior year after earning the Associate of Arts degree from a Florida state college or other regionally accredited academic institution. Freshman and sophomore coursework will be taken at a Florida state or public college or other regionally accredited academic institution.

After being accepted, students can pursue a Bachelor of Science without moving to Gainesville. Coursework for the junior and senior years will be offered via electronic distance learning, and UF faculty will teach and advise students in the program.

Students need access to a personal computer capable of connecting to the Internet.

Course requirements for the Degree

The B.S. degree is for students with different professional objectives. All students, regardless of specialization, are required to take FES 3015 Principles of Fire and Emergency Services Management as their opening course.

Each specialization has a specific set of required core courses required courses and electives of upper-division courses that represent important interdisciplinary topic areas. Core courses provide students with the knowledge and fundamental concepts essential to the specialization. The required courses are designed to be applicable across all specializations. The electives allow the students to select courses that meet their career interest. Upper-division courses are designed to build knowledge, competency and skills applicable to professional development.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

Academic Learning Compact

The School of Construction Management offers an accessible Bachelor of Science program for members of the fire and emergency services. This degree program is designed to build on students' experience in the fire service and to add the academic substance to prepare students to lead public or private sector fire and emergency service units.

Before Graduating Students Must

- Demonstrate ability in management, labor issues and operations.
- Demonstrate ability in services related to medical, disaster and human resources.
- Demonstrate ability in public relations, ethical practices and leadership.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify and evaluate organizational problems associated with fire and emergency services.
2. Identify and demonstrate proper knowledge and use of comprehensive emergency management/command and control skills in major catastrophic incidents in fire and emergency services.
3. Illustrate knowledge and legal application of safety, health and environmental regulations at state and federal levels.

Critical Thinking

4. Demonstrate effective leadership behavior and skills in fire and emergency services.
5. Properly address issues of management, code regulations and the labor market in fire and emergency services.

Communication

6. Demonstrate strong verbal and written communication skills for leadership in fire and emergency services.

Fire and Emergency Services | Fire Management UF Online

Fire and emergency services degree program is designed to add the academic substance to prepare graduates to lead public or private sector fire, EMS and emergency management. Students earn a bachelor of science with the ability to specialize in fire, emergency medical services management or emergency management.

About this Program

- **College:** Design, Construction and Planning (p. 313)
- **School:** M.E. Rinker, Sr. School of Construction Management (p. 1333)
- **Degree:** Bachelor of Science in Fire and Emergency Services
- **Specializations:** Fire Management (p. 1352) | Emergency Medical Services Management (p. 1348) | Emergency Management (p. 1344)
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **Additional Information**
- **Related Fire and Emergency Services Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The program specializations offer the student the ability to focus their degree in three different aspects of the emergency services industry. The program prepares the graduates for advancement in the ranks for the fire service, EMS and emergency management. In addition, graduates can find jobs at the local, state and national level of government, insurance companies, industry, and other areas. Students may apply to the university at the junior year after earning the Associate of Arts degree from a Florida state college or other regionally accredited academic institution. Freshman and sophomore coursework will be taken at a Florida state or public college or other regionally accredited academic institution.

After being accepted, students can pursue a Bachelor of Science without moving to Gainesville. Coursework for the junior and senior years will be offered via electronic distance learning, and UF faculty will teach and advise students in the program.

Students need access to a personal computer capable of connecting to the Internet.

Course requirements for the Degree

The B.S. degree is for students with different professional objectives. All students, regardless of specialization, are required to take FES 3015 Principles of Fire and Emergency Services Management as their opening course.

Each specialization has a specific set of required core courses required courses and electives of upper-division courses that represent important interdisciplinary topic areas. Core courses provide students with the knowledge and fundamental concepts essential to the specialization. The required courses are designed to be applicable across all specializations. The electives allow the students to select courses that meet their career interest. Upper-division courses are designed to build knowledge, competency and skills applicable to professional development.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

Fire Management

For students who wish to work in the fire service or a fire related career. The program focuses on the area of fire science.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=430203&track=01%20class=) may be used for transfer students.

Model Semester Plan

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits

Academic Learning Compact

The School of Construction Management offers an accessible Bachelor of Science program for members of the fire and emergency services. This degree program is designed to build on students' experience in the fire service and to add the academic substance to prepare students to lead public or private sector fire and emergency service units.

Before Graduating Students Must

- Demonstrate ability in management, labor issues and operations.
- Demonstrate ability in services related to medical, disaster and human resources.
- Demonstrate ability in public relations, ethical practices and leadership.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify and evaluate organizational problems associated with fire and emergency services.
2. Identify and demonstrate proper knowledge and use of comprehensive emergency management/command and control skills in major catastrophic incidents in fire and emergency services.
3. Illustrate knowledge and legal application of safety, health and environmental regulations at state and federal levels.

Critical Thinking

4. Demonstrate effective leadership behavior and skills in fire and emergency services.
5. Properly address issues of management, code regulations and the labor market in fire and emergency services.

Communication

6. Demonstrate strong verbal and written communication skills for leadership in fire and emergency services.

Senior Fire Officer Certificate

This certificate focuses on the management and communication skills necessary for working professionals in the fire and emergency services industry.

About this Program

- **College:** Design, Construction and Planning (p. 313)
- **School:** M.E. Rinker, Sr. School of Construction Management (p. 1333)
- **Credits:** 18 | Completed with minimum grades of C
- **Related Fire and Emergency Services Programs**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Prerequisites

- Experience or certification in fire or emergency services
- Associate's (A.A./A.S.) degree

Required Courses

1995

Degrees

Bachelor of Science in environmental science with specializations in environmental science and natural resource management, and a Bachelor of Arts in environmental science with specializations in environmental education, environmental policy and environmental policy and business.

Internships and Career Guidance

The dean's office maintains a list of potential sources of internships. The school grants course credit for internships (S-U grades, 1-3 credits, one per semester up to a maximum of three semesters) to enable maintenance of student status.

Programs

The school operates horizontally across UF's structure of academic disciplines, offering more than 200 courses taught in 50 departments. Faculty members from these departments are affiliated with the school.

Scholarships

General financial aid information is available from the Office of Student Financial Affairs. Students are eligible for scholarships awarded by the College of Agricultural and Life Sciences.

Academic Policies

Admission Requirements

Admission requirements for freshmen and students other than first-semester freshmen are found in the College of Agricultural and Life Sciences' Academic Policies.

School Requirements and Regulations

Students admitted to the school have full responsibility for registering for appropriate courses and fulfilling school and university requirements.

During their first term in the school, students must obtain academic advising and a plan of study worksheet from 103 Black Hall.

Students should review the relevant information in this catalog each term to track and plan the progress of their academic work. Failure to understand and follow these guidelines could cause unnecessary hardship, delay and expense.

Dean's List (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#deanslisttext)

Probation

Refer to the College of Agricultural and Life Sciences' Academic Policies.

Degree Requirements

Graduation requires satisfactory completion of 120 credits for the B.S. or B.A. degree and a cumulative 2.00 GPA in both the upper-division and the overall UF GPA.

Combined Degree Opportunities

Eligible seniors in the School of Natural Resources and Environment can also participate in a combined degree that combines a B.A./B.S. in environmental science with a Master of Science in interdisciplinary ecology.
More Info (p. 1400)

Environmental Science

Environmental science is the study of people's role in our natural systems. Using an interdisciplinary approach, the Environmental Science program approaches complex environmental issues across multiple perspectives. Environmental Science students study ecology, soil and water sciences, and natural resource management as well as environmental ethics, economics, policy, and law.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **School:** Natural Resources and Environment (p. 1356)
- **Degrees:** Bachelor of Arts (p. 1360) | Bachelor of Science (p. 1367)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Environmental Science Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The environmental science degree approaches complex environmental issues with reliable knowledge and interdisciplinary perspectives, and provides the full range of knowledge relevant to complex environmental problems. This includes biological and physical sciences, ethics, economics, policy and law.

The degree prepares graduates for jobs in environmental consulting companies, government environmental offices or land and water management agencies, or non-government organizations. About one-third of environmental science students advance to graduate or professional degree programs. The combination of the school's broad undergraduate degree with a subsequent degree is highly marketable.

The school also offers a combined-degree program offering a bachelor's degree in environmental science and a Master of Science in interdisciplinary ecology.

Core Requirements for Both Degrees

Students take a core of courses, including a general course in environmental science and courses in ethics, ecology, chemistry, earth science, global science, hydrologic systems, and policy and natural resource management.

The core provides 31-32 credits of coursework in physical, biological and social sciences. The B.S. and B.A. tracks are similar. The B.S. includes one course in policy and one in organic chemistry; the B.A. includes two policy courses and no organic chemistry.

Beyond the core requirement, each student selects 21-27 additional credits from electives for the major. During the fourth year, all students take a capstone course where critical thinking skills are developed.

The freshmen and sophomore years lay a foundation of coursework for building later expertise. Students need to know the natural sciences of physics, chemistry and biology, with laboratory experience in each area. Study of microeconomics and macroeconomics are required to understand

the human economy. Introductory statistics empowers students to independently evaluate sets of numbers. College algebra and an introduction to calculus enable students to work with rates of change, the heart of ecological science.

Coursework in the core of the major provides a base of common knowledge and experience in subjects essential to environmental science. Then students diverge into electives chosen according to individual interest. Senior-year students return to a common course that develops critical-thinking skills by confronting conflicts of ecological and economic paradigms, synthesizing across physical, biological and social systems, and engaging diverse knowledge and views to help resolve key environmental problems.

The preprofessional courses for the Bachelor of Science prepare students for a more science-oriented major. The requirements for the Bachelor of Arts include less chemistry, physics and mathematics, in preparation for a major that is more focused on the sociopolitical aspects of environmental science.

[1] If taken from one group, this course does not satisfy the requirement for a course from the other group.

Preprofessional Requirements for Both Degrees

Each student must fulfill preprofessional requirements that differ slightly for the B.S. and B.A. degrees. These consist of courses in chemistry, physics, biology, calculus, statistics and economics, totaling 39-46 (typically 43) credits for the B.S. and 31-39 (typically 34) credits for the B.A.

In addition to the preprofessional requirements, all students are responsible for completing the university's general education and the writing requirement.

Certain preprofessional requirements simultaneously satisfy 18-21 credits (depending on courses selected) of the general education mathematics, physics, biology, and social and behavioral science. Remaining general education requirements include 15-18 credits (depending on preprofessional courses taken) in composition, humanities and social and behavioral sciences.

The 12 credits of writing requirements include 3-12 credits taken for general education and preprofessional requirements, depending on selections. The six credits of math requirements are satisfied by preprofessional requirements.

For efficiency, freshmen should seek to maximize overlap of preprofessional requirements with general education and the writing requirement, as outlined below:

- Science preprofessional requirements satisfy up to 12 credits of physical and biological sciences (the basic nine-credit requirement plus the variable three credits from a category). Students should allocate the variable three credits to physical and biological sciences to reduce the humanities requirement from nine to six credits.
- Economics preprofessional requirements satisfy up to eight of the nine-credit social and behavioral sciences requirement (eight if satisfied with ECO 2013 and ECO 2023; four if satisfied with AEB 3103).
- Policy preprofessional requirement (POS 2041) for B.A. students satisfies the remaining social and behavioral sciences requirement. B.S. students can satisfy the remaining social and behavioral sciences requirement with certain core courses, under ethics (AEB 4126) and policy.
- Satisfying the preceding requirements leaves 18 credits: six for humanities, three for composition and nine for writing.
- Students should take humanities, composition and writing courses that also satisfy the three-credit international studies requirement, such as LIT 2110 or LIT 2120, and the three-credit diversity requirement with a REL 2388 or WST 2611 overlap.

Total Credits		28-38

[1] If taken from one group, this course does not satisfy the requirement for a course from the other group.

Preprofessional Requirements for Both Degrees

Each student must fulfill preprofessional requirements that differ slightly for the B.S. and B.A. degrees. These consist of courses in chemistry, physics, biology, calculus, statistics and economics, totaling 39-46 (typically 43) credits for the B.S. and 31-39 (typically 34) credits for the B.A.

In addition to the preprofessional requirements, all students are responsible for completing the university's general education and the writing requirement.

Certain preprofessional requirements simultaneously satisfy 18-21 credits (depending on courses selected) of the general education mathematics, physics, biology, and social and behavioral science. Remaining general education requirements include 15-18 credits (depending on preprofessional courses taken) in composition, humanities and social and behavioral sciences.

The 12 credits of writing requirements include 3-12 credits taken for general education and preprofessional requirements, depending on selections. The six credits of math requirements are satisfied by preprofessional requirements.

For efficiency, freshmen should seek to maximize overlap of preprofessional requirements with general education and the writing requirement, as outlined below:

- Science preprofessional requirements satisfy up to 12 credits of physical and biological sciences (the basic nine-credit requirement plus the variable three credits from a category). Students should allocate the variable three credits to physical and biological sciences to reduce the humanities requirement from nine to six credits.
- Economics preprofessional requirements satisfy up to eight of the nine-credit social and behavioral sciences requirement (eight if satisfied with ECO 2013 and ECO 2023; four if satisfied with AEB 3103).
- Policy preprofessional requirement (POS 2041) for B.A. students satisfies the remaining social and behavioral sciences requirement. B.S. students can satisfy the remaining social and behavioral sciences requirement with certain core courses, under ethics (AEB 4126) and policy.
- Satisfying the preceding requirements leaves 18 credits: six for humanities, three for composition and nine for writing.
- Students should take humanities, composition and writing courses that also satisfy the three-credit international studies requirement, such as LIT 2110 or LIT 2120, and the three-credit diversity requirement with a REL 2388 or WST 2611 overlap.

- Environmental Science minor (p. 1376)

Bachelor of Arts

The Bachelor of Arts degree in environmental science focuses on the social sciences that connect the natural sciences and engineering to society.

Electives in the areas of policy, law, public administration and resource economics make this the preferred specialization for students interested in advancing to law school or to the policy aspects of environmental consulting and public agency work.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=030104&track=01) may be used for transfer students.

Semester 1

- Complete 2 of 9 critical-tracking courses, excluding labs: BSC 2005/BSC 2005L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, ECO 2013, ECO 2023, MAC 1147, PHY 2020 or PHY 2004, POS 2041, STA 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 9 critical-tracking courses, including labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Course	Title	Credits
Semester One		
BSC 2005 & 2005L	Biological Sciences and Laboratory in Biological Sciences (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	4
IDS 1161	What is the Good Life (Gen Ed Humanities)	3
MAC 1147	Precalculus Algebra and Trigonometry (**Critical Tracking**; State Core Gen Ed Mathematics) [1]	4
Gen Ed Composition (according to placement)		3
	Credits	14
Semester Two		
ECO 2013	Principles of Macroeconomics (**Critical Tracking**; State Core Gen Ed Social and Behavioral Sciences)	4

Semester Eight		
EVS 4021	Critical Thinking in Environmental Science	3
Electives		5
Electives for the major [4]		9
	Credits	17
	Total Credits	120

1 If students take MAC 1140 and MAC 1114 in place of MAC 1147, the extra credits count toward the degree as electives.

2 If CHM 1025 was taken in preparation for CHM 2045, the extra credits count toward the degree.

3 These courses may be used as substitutes:
- BSC 2010/BSC 2010L and BSC 2011/BSC 2011L for BSC 2005 and BSC 2005L;
- PHY 2053 for PHY 2020 or PHY 2004.

4 From master list.

Approved Electives | 9 courses | 27 credits

Students can substitute appropriate graduate courses for electives, with approval of the school and permission of the instructor. To substitute a 5000-level course or higher, the student must have senior standing and a minimum junior/senior-level GPA of 3.0.

ZOO 4472C	Avian Biology	4

[1] If this course was taken to fulfill the core requirement, it cannot fulfill the elective requirement. Students must select a substitution from the electives for the major.

Academic Learning Compact

Environmental science is the science of humanity's role in natural systems, the basis of our economy. This program accesses courses university-wide and provides numerous opportunities for international study. Students will acquire reliable knowledge and interdisciplinary perspectives of complex environmental issues, gaining the full range of knowledge relevant to a professional understanding of complex environmental problems in the biological and physical sciences, ethics, economics, policy and law.

Before Graduating Students Must

- Complete at least one course in each of the foundation areas.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Acquire knowledge and demonstrate understanding of basic terminology, concepts, methodologies and theories in the physical and biological sciences that describe environmental systems.
2. Acquire knowledge of essential concepts in the social sciences that describe human activity in the environment.

Critical Thinking

3. Apply the scientific method to develop reasoned solutions to environmental problems.

Communication

4. Communicate knowledge, ideas and reasoning clearly, effectively and objectively in both written and oral forms.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4

Environmental Science | BS

Environmental science is the study of people's role in our natural systems. Using an interdisciplinary approach, the Environmental Science program approaches complex environmental issues across multiple perspectives. Environmental Science students study ecology, soil and water sciences, and natural resource management as well as environmental ethics, economics, policy, and law.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **School:** Natural Resources and Environment (p. 1356)
- **Degrees:** Bachelor of Arts (p. 1360) | Bachelor of Science (p. 1367)
- **Credits for Degree:** 120
- **Additional Information**
- **Related Environmental Science Programs**

To graduate with this major, students must complete all university, college, and major requirements.

The environmental science degree approaches complex environmental issues with reliable knowledge and interdisciplinary perspectives, and provides the full range of knowledge relevant to complex environmental problems. This includes biological and physical sciences, ethics, economics, policy and law.

The degree prepares graduates for jobs in environmental consulting companies, government environmental offices or land and water management agencies, or non-government organizations. About one-third of environmental science students advance to graduate or professional degree programs. The combination of the school's broad undergraduate degree with a subsequent degree is highly marketable.

The school also offers a combined-degree program offering a bachelor's degree in environmental science and a Master of Science in interdisciplinary ecology.

Core Requirements for Both Degrees

Students take a core of courses, including a general course in environmental science and courses in ethics, ecology, chemistry, earth science, global science, hydrologic systems, and policy and natural resource management.

The core provides 31-32 credits of coursework in physical, biological and social sciences. The B.S. and B.A. tracks are similar. The B.S. includes one course in policy and one in organic chemistry; the B.A. includes two policy courses and no organic chemistry.

Beyond the core requirement, each student selects 21-27 additional credits from electives for the major. During the fourth year, all students take a capstone course where critical thinking skills are developed.

The freshmen and sophomore years lay a foundation of coursework for building later expertise. Students need to know the natural sciences of physics, chemistry and biology, with laboratory experience in each area. Study of microeconomics and macroeconomics are required to understand the human economy. Introductory statistics empowers students to independently evaluate sets of numbers. College algebra and an introduction to calculus enable students to work with rates of change, the heart of ecological science.

Coursework in the core of the major provides a base of common knowledge and experience in subjects essential to environmental science. Then students diverge into electives chosen according to individual interest. Senior-year students return to a common course that develops critical-thinking skills by confronting conflicts of ecological and economic paradigms, synthesizing across physical, biological and social systems, and engaging diverse knowledge and views to help resolve key environmental problems.

The preprofessional courses for the Bachelor of Science prepare students for a more science-oriented major. The requirements for the Bachelor of Arts include less chemistry, physics and mathematics, in preparation for a major that is more focused on the sociopolitical aspects of environmental science.

- Environmental Science minor (p. 1376)

Bachelor of Science

The Bachelor of Science degree in environmental science emphasizes the applied sciences and the basic sciences from which they derive. The track is designed to prepare for employment or for graduate or professional school.

Elective courses required beyond the core requirements are distributed among four categories: physical sciences, biological sciences, human dimensions and additional skills and concepts. For advice on choice of electives, consult the advisor in 103 Black Hall. Students pursuing the Bachelor of Science who want more environmental policy electives can substitute them for the courses in human dimensions.

Courses taken to fulfill the core requirements cannot fulfill elective requirements. Students can substitute graduate courses for electives, with approval of the school and permission of the instructor. To substitute a 5000-level course or higher, the student must have senior standing and a junior/senior-level GPA of at least 3.0.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=030104&track=01) may be used for transfer students.

Semester 1

- Complete 2 of 11 critical-tracking courses, excluding labs: BSC 2010/BSC 2010L, BSC 2011/BSC 2011L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, ECO 2013 and ECO 2023 or AEB 3103, MAC 2311, MAC 2312, PHY 2004/PHY 2004L, PHY 2005/PHY 2005L and STA 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 3 additional courses of the 11 critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 3 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 3 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 11 critical-tracking courses, including labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

	Credits	16
Semester Three		
BSC 2010 & 2010L	Integrated Principles of Biology 1 and Integrated Principles of Biology Laboratory 1 (**Critical Tracking**; State Core Gen Ed Biological and Physical Sciences)	4
ECO 2013	Principles of Macroeconomics (**Critical Tracking**; State Core Gen Ed Social and Behavioral Sciences)	4
PHY 2004 & 2004L	Applied Physics 1 and Laboratory for Applied Physics 1 (**Critical Tracking**; Gen Ed Biological Sciences and Physical Sciences) [3]	4
State Core Gen Ed Humanities with Diversity or International (p. 23)		3
	Credits	15
Semester Four		
BSC 2011 & 2011L	Integrated Principles of Biology 2 and Integrated Principles of Biology Laboratory 2 (**Critical Tracking**; Gen Ed Biological Sciences and Physical Sciences)	4
Select one:		4
ECO 2023	Principles of Microeconomics (**Critical Tracking**; Gen Ed Social and Behavioral Sciences)	
Elective (**Critical Tracking**)		
PHY 2005 & 2005L	Applied Physics 2 and Laboratory for Applied Physics 2 (**Critical Tracking**; Gen Ed Biological Sciences and Physical Sciences) [3]	4
State Core Gen Ed Composition (p. 23)		3
	Credits	15
Semester Five		
EVS 3000 & 3000L	Environmental Science and Environmental Science Laboratory	4
Ecology elective [4]		3-4
Environmental ethics elective [4]		3
Environmental policy elective [4]		3-4
Organic chemistry elective [4]		3-4
	Credits	16-19
Semester Six		
Earth and soil science elective [4]		3-4

Global systems elective [4]		3
Hydrologic systems elective [4]		3-4
Natural resource management elective [4]		3
Elective for the major [4]		3
	Credits	15-17
Semester Seven		
EVS 4021	Critical Thinking in Environmental Science	3
Elective		3
Electives for the major [4]		9
	Credits	15
Semester Eight		
Biological sciences elective [4]		3
Human dimensions elective		3
Physical sciences elective [4]		3
Electives for the major (if needed)		5
	Credits	14
	Total Credits	120

1 If CHM 1025 was taken in preparation for CHM 2045, the extra credits count toward the degree.

2 If students precede this sequence with MAC 1114 and MAC 1140 or MAC 1147, the extra credits count as electives toward the degree. Students can substitute MAC 2233 and MAC 2234 for MAC 2311 and MAC 2312, but this may preclude access to certain courses.

3 These courses may be used as substitutes:
- PHY 2053 and PHY 2053L for PHY 2004 and PHY 2004L;
- PHY 2054 and PHY 2054L for PHY 2005 and PHY 2005L.

4 From master list.

Students preparing for science modeling in graduate school should take MAP 2302 as an elective.

Approved Electives | Select According to Concentrations

No Concentration | 21 credits

Code	Title	Credits
Physical Sciences: Select 3-12 credits		3-12
Biological Sciences: Select 3-12 credits		3-12
Human Dimensions: Select 3-9 credits		3-9
Additional Skills and Concepts: Select 3-12 credits		3-12

Preprofessional Concentration | 9 courses | 22-25 Credits

This concentration includes chemistry and biology courses needed for admission into medical or veterinary school.

Code	Title	Credits
Biological Sciences		
BCH 4024	Introduction to Biochemistry and Molecular Biology	4
PCB 3713C	Cellular and Systems Physiology	4-5
or PCB 4723C	Physiology and Molecular Biology of Animals	
MCB 3020	Basic Biology of Microorganisms	4
& 3020L	and Laboratory for Basic Biology of Microorganisms	
AGR 3303	Genetics	3-4
or PCB 3063	Genetics	
Additional Skills and Concepts		
CHM 2210	Organic Chemistry 1	3
CHM 2211	Organic Chemistry 2	3
CHM 2211L	Organic Chemistry Laboratory	2

[1] If the course was taken to fulfill the core requirement, it cannot fulfill the elective requirement.

Academic Learning Compact

Environmental science is the science of humanity's role in natural systems, the basis of our economy. This program accesses courses university-wide and provides numerous opportunities for international study. Students will acquire reliable knowledge and interdisciplinary perspectives of complex environmental issues, gaining the full range of knowledge relevant to a professional understanding of complex environmental problems in the biological and physical sciences, ethics, economics, policy and law.

Before Graduating Students Must

- Complete at least one course in each of the foundation areas.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Acquire knowledge and demonstrate understanding of basic terminology, concepts, methodologies and theories in the physical and biological sciences that describe environmental systems.
2. Acquire knowledge of essential concepts in the social sciences that describe human activity in the environment.

Critical Thinking

3. Apply the scientific method to develop reasoned solutions to environmental problems.

Communication

4. Communicate knowledge, ideas and reasoning clearly, effectively and objectively in both written and oral forms.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed

Courses	SLO 1	SLO 2	SLO 3	SLO 4
EVS 3000 and EVS 3000L	I	I	I	I
EVS 4021	A	A	A	A
Earth and Soil Sciences	R			
Ecology	R	R	R	
Environmental Ethics		R	R	R
Environmental Policy		R	R	R
Global Systems	R			
Hydrologic Systems	R			
Human Dimensions		R	R	R
Natural Resource Management	R	R	R	

Assessment Types

- Oral presentation or written essay

Environmental Science Minor

The environmental science minor is intended for majors in science, engineering or business, providing exposure to the major subject areas of the environmental core.

About this Program

- **College:** Agricultural and Life Sciences (p. 40)
- **School:** Natural Resources and Environment (p. 1356)

- **Credits:** 15-17 | Completed with minimum grades of C
- **Related Environmental Science Programs**

Students outside the School of Natural Resources and Environment can apply for admission to the minor as long as they earn 45 credits before applying. The application is available in 2020 McCarty Hall D. Students first must obtain their college's approval before submitting the completed form for processing.

Transfer work will be accepted only for PCB 4043C and an earth and soil systems course (refer to core requirements for the major). Admission consideration requires a minimum overall 2.0 GPA on all UF coursework attempted.

Majors

Index of all Majors (http://catalog.ufl.edu/UGRD/programs/#filter=filter_22)

An academic major represents each student's principal interest and the majority of their efforts during their undergraduate studies. Each major's core curriculum covers a range of subjects that provide the student with a solid foundation in their chosen field of study.

Declaring a Major

Upon entering UF as a freshman, students are encouraged to declare the major that they are most likely to pursue. Students may declare Exploratory if they are unsure. In their first few terms, students should take courses to explore multiple academic areas. Many students have varied interests and will graduate with minors, certificates, double majors, dual degrees and/or combined degrees.

Exploring Areas of Interest

Exploring areas of interest early helps students determine whether they want to pursue additional academic programs. In addition, quite a few students change majors in their first or second year, so exploring multiple areas early helps students to confirm their choice of major or identify a more desirable major.
More Info (https://www.advising.ufl.edu/exploratory)

Declaring an Exploratory Category

First-year students with no major preference can declare one of three exploratory categories (humanities and letters, social and behavioral sciences, or science and engineering) for the first three fall/spring terms. Exploratory students are advised by the Academic Advising Center and affiliated with the College of Liberal Arts and Sciences. Exploratory students should be purposeful in all of their decisions, particularly when it comes to choosing classes for each semester to be sure they are taking courses to explore potential majors. They must also actively work to narrow down UF majors to one that fits their aspirations and abilities.

Changing Majors

It's not unusual for students to change their minds about majors and career paths as they gain educational and practical experience. To help ensure that students make the best choices regarding their major and degree, UF provides guidance, information, and technical assistance.

Students should proactively determine their major to obtain the degree that fits them best instead of being forced to select a major due to pending academic deadlines.

There is often little relationship between undergraduate degrees and specific types of employment. A specific major does not guarantee employment in a specific field, nor does a specific major limit employment to a specific field.

Ways to Explore Areas of Study at UF

Review the Undergraduate Majors

Students should search for majors that interest them and explore required courses; they should also speak to faculty or advisors in those departments.

Use ONE.UF to Explore Majors by Subject Area, College, or Major

Current students can use What-If reports in ONE.UF (https://one.uf.edu) to discover if coursework they have taken applies toward a given major's requirements. For additional information, students should contact the department offering the degree or the advising office of the appropriate college.
More Info (https://one.uf.edu)

Meet with an Academic Advisor

Students can discuss majors and career options with an advisor in the college affiliated with their interests.
More Info (http://www.ufadvising.ufl.edu/college-advising-contacts)

Utilize the Exploratory Website

Students who are considering different majors can review advising suggestions, an exploratory timeline, resources, and tips on choosing a major.
More Info (https://www.advising.ufl.edu/exploratory)

Visit the Career Connections Center

The Career Connections Center located on the first floor of the J. Wayne Reitz Union helps students make choices about their major and career. In addition to providing individual and group career counseling, the Career Connections Center library covers everything from accounting to zoology. Many other resources are available through the explore majors and careers section (https://www.crc.ufl.edu/students/explore-majors-

careers) of their website, including information about career planning and numerous helpful exercises. After a tentative decision is made, the Career Connections Center helps students test their choice by participating in externships, internships, co-ops, and career fairs.
More Info (https://career.ufl.edu) Map (http://campusmap.ufl.edu/?loc=0686)

Talk to a College or Department Representative

Students should be sure to discuss various academic programs and their potential career implications. Websites and contact information for each major can be found on its major page.

Minors

Index of all Minors (http://catalog.ufl.edu/UGRD/programs/#filter=filter_23)

The minor provides a traditional, well-accepted way to recognize that a student has completed a significant body of work outside the major. Students can follow-up on long-time personal interests, satisfy intellectual curiosity generated by introductory courses, differentiate their program of study from those of fellow students or enhance their opportunities for employment or for admission to graduate or professional schools.

Applying for a Minor

Students should review the information about their minor of interest in this catalog. In general, each minor page explains which students are eligible to pursue the minor, any qualifications or prerequisites necessary to be eligible for the minor and the requirements to complete the minor. Students are also encouraged to discuss the minor with the offering department.

Students interested in pursuing a minor must complete an application. The application requires the approval of the student's college as well as the college offering the minor. Students who are about to graduate and who have already completed all the requirements for the minor still must apply for admission using the button below to be granted the minor upon graduation. The approval process can take some time so students are strongly encouraged to apply to pursue a minor early.

Apply for a Minor (http://www.registrar.ufl.edu/pdf/minorapp.pdf)

Certificates

Index of all Certificates (http://catalog.ufl.edu/UGRD/programs/#filter=filter_24)

Each certificate program must have at least nine credits that are distinct from every other certificate or minor. That is, certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors. All courses required must be completed with minimum grades of C or S in each course. The undergraduate certificate does not require completion of graduate courses.

Applying for a Certificate Program

Students should review the information about their certificate of interest in this catalog. In general, each certificate page explains which students are eligible to pursue the certificate, any qualifications or prerequisites necessary to be eligible for the certificate and the requirements to complete the certificate. Students are also encouraged to discuss the certificate with the offering department.

Students interested in pursuing a certificate must first apply for program admission. After being admitted and completing the requirements, students will be able to apply to be granted the certificate through ONE.UF (https://one.uf.edu). Students who are about to graduate and who have already completed all the requirements for the certificate still must apply for admission using the button below before applying to be granted the certificate through ONE.UF. The certificate approval process can take some time so students are strongly encouraged to apply to pursue a certificate early.

Apply for a Certificate Program (http://www.admissions.ufl.edu/start.html)

Academic Advising

Mission

The university is committed to quality academic advising for all students. The academic advising mission is to assist students in attaining their educational goals. New students are required to attend, and will receive advising during Preview, UF's new student orientation. After Preview, student advising is handled by college and departmental advisors.

University Responsibilities

The Academic Advising Center (http://www.advising.ufl.edu) in 1000 Farrior Hall (http://campusmap.ufl.edu/?loc=0019) is responsible for certain university advising functions: coordinating academic advising during Preview, advising exploratory students, and providing resources and information to students interested in post-baccalaureate professional programs such as dentistry, law, medicine, and veterinary medicine.

College/School and Department Responsibilities

The dean of each college or school ultimately is responsible for ensuring that academic advising is available and accessible to all students within the college or school. Some colleges' advisors are located in college-level offices, while others are located in departmental offices.

Academic Advising Contacts at UF (http://www.ufadvising.ufl.edu/college-advising-contacts)

Student Academic Responsibilities

To graduate, students are responsible for knowing and fulfilling all university, college, and major requirements.

All students must:

- Attend the Preview orientation program to receive academic advising before their first term of enrollment
- Maintain a GatorLink email address and read official university correspondence sent to this address
- Meet with an advisor in the appropriate college/major upon entrance to a major
- Confer with an advisor on a regular basis about options for a major if the student is undecided about a major

- Review the degree audit each semester to ensure they fully understand their remaining degree requirements
- Seek advising when experiencing academic difficulty to avoid, if possible, academic probation or off-track status, or to understand their options if on probation or off-track
- Maintain their own personal academic records, including transcripts, degree audits, evaluation of transfer work, and notes from previous advising sessions.

Students who at any time are confused about academic requirements or their progress toward a degree are encouraged and expected to meet with an advisor.

Associate of Arts

Area of Interest	Where to Go for Academic Assistance
• Degree certification	• Apply for the degree by the deadline
• Requirements	• The Academic Advising Center to confirm A.A. eligibility

Majors

Area of Interest	Where to Go for Academic Assistance
• Applying to receive a degree and degree certification	• Apply for the degree by the deadline, and
	• The student's college to confirm eligibility for graduation
• Information about a major	• The college/department that offers that major
• Admission to a major	• The college/department that offers that major or minor
• Degree requirements	• The student's college
• Planning future semesters	• The student's college
• Exploring majors/unsure about a major	• Exploratory advising services: Academic Advising Center
	• Colleges offering majors of interest
	• Career Connections Center
• Pursuing a double major or dual degree	• The student's college to determine eligibility, then
	• The departments/colleges offering the majors of interest

Minors

Area of Interest	Where to Go for Academic Assistance
• Information about a minor	• The college/department that offers that minor

Drops/Adds and Withdrawals

Area of Interest	Where to Go for Academic Assistance
• Add a class after drop/add	• The department that offers the class for the approval to add, then
	• The student's college to determine the next step
• Drop a class after drop/add	• The student's college
• Drop a class after the deadline	• The student's college to determine the eligibility and the next step
• Withdrawal from all current term courses	• ONE.UF
	• Registrar's Office

Requirements and Regulations

Area of Interest	Where to Go for Academic Assistance
• State of Florida Summer Term Enrollment Requirement	• The student's college to understand the requirement and if they have met the requirement
	• The Registrar's Office if the student wishes to petition the requirement
• Excess Hours Surcharge	• The student's college
• Flexible learning classes	• The student's college
• General education requirements	• The student's college
• Transient status	• The student's college

Help with Grades

Area of Interest	Where to Go for Academic Assistance
• Tutoring or help with specific courses	• Academic Support Programs
• Study skills and learning strategies to improve grades	• Academic Support Programs

Academic Progress

Universal Tracking

Universal Tracking is the university's monitoring system that assesses progress toward the student's degree requirements. It provides feedback on the student's progress in a major, helping them find the best academic path to complete their degree. For each major, there is a model semester plan which represents an example progression for completing the degree in a timely fashion.

Each semester, students are reminded via GatorLink email and Registration Prep in ONE.UF to review their degree audit before registration for the next term. The audit fits the student's courses and grades into the degree requirements for their major, indicating the requirements that have been completed as well as showing which requirements have yet to be completed.

Students Who Enroll During the Fall and Spring Semesters

Progress toward a degree is monitored in those semesters to ensure that students are on track. For these students, the summer terms may provide opportunities to catch up on critical-tracking courses or to improve their GPA.

Students Who Enroll Only in the Spring and Summer Semesters

Innovation Academy Students

Progress toward a degree is monitored in those semesters to ensure that students are on track. For these students, the fall semester may provide opportunities to catch up on critical-tracking courses or to improve their GPA.

Critical-Tracking Criteria

Minimum Academic Progress Under Universal Tracking

- Students do not have to complete all of the courses in the model plan each semester to remain on track; they simply have to meet certain minimum requirements known as **critical-tracking criteria**.
- Critical-tracking criteria usually include a minimum GPA (UF or overall, depending on the academic program), completion of certain courses toward the major (critical-tracking or preprofessional courses), and a minimum GPA in the critical-tracking courses (tracking or preprofessional GPA). The critical-tracking criteria for the first five terms are listed just before the model semester plan for that major. For many majors, critical-tracking courses are bolded in the semester plan. In the degree audit, a summary of critical-tracking criteria appears near the top of the audit. Each major also has a tracking audit that can be accessed through ONE.UF.
- The critical-tracking criteria are minimum requirements for progression; students should consult their degree audit and their advisor to ensure they meet all requirements for graduation.
- All students admitted as freshmen are monitored in their first semester for the Semester 1 critical-tracking criteria, regardless of the number of credits they have earned through dual enrollment and credit by examination.
- An **off-track** student will have a hold placed on their registration to require a meeting with an advisor to discuss the student's progress. This enables the student to determine what is necessary to get back on track, or to change to a more appropriate major.
- If a student is **off-track for two consecutive terms**, they must change to a major more appropriate to their skills, goals, and performance. Once the student selects a new major, they should contact the college offering that major to schedule an appointment with an advisor to discuss changing majors.

Off-Track Notification

Student progress toward tracking is assessed twice a semester. An analysis of whether the student will be on track at the end of the term ('predictive' analysis) occurs in the fourth week. If a student is predicted to be off-track at the end of the term, a hold is placed on their registration requiring the student meet with an advisor to make a plan to get back on track or change majors.

If a student is predicted to be on-track during the term, but ends up off-track at the end of term, they should meet with an advisor in their college/major before the end of drop/add for the next term to make a plan to get on track or change majors.

Students should review any holds on ONE.UF (http://one.uf.edu) when planning their registration for the next semester.

How Tracking Holds affect a Student

- Holds applied before advance registration prevent students from registering until they consult an advisor to develop an academic plan to complete the critical-tracking courses for the current major or identify a more appropriate major.
- Holds applied at the end of the semester for failure to be on track for two consecutive semesters require students to see an advisor before the next term of enrollment to select a new major and to avoid cancellation of enrollment.

Academic Probation and Dismissal

Academic probation and dismissal follow the academic standards of the university and require the maintenance of grade point averages and reasonable adherence to the program of study.

A minimum grade point average of 2.0 is required to graduate from any UF undergraduate degree program. Any college may specify additional academic standards and students are responsible for observing these regulations.

Additional Information

- Probation (p. 1425)
- Dismissal (p. 1425)
- Changing Majors (p. 1378)

Academic Support Programs

Academic Support, Office of, 311 Little Hall

The Office of Academic Support (OAS) for Undergraduate Affairs, in collaboration with faculty and staff, provides programs and services to enrich the experience of UF students. Our mission is to offer supportive resources and opportunities that help students thrive and grow professionally. OAS is committed to creating an encouraging and inclusive learning community that challenges our students to achieve academic excellence. Our comprehensive academic support includes peer coaching, tutoring, general advising, and other resources to promote the empowerment and growth of students as scholars. Our students

are prepared to set and achieve academic goals, persist, graduate, and advance in their careers.
Map (http://campusmap.ufl.edu/?loc=0655) More Info (http://oas.aa.ufl.edu)

Career Connections Center, Level Two Reitz Union

The Career Connections Center (Career Center) provides events and services to help students develop and implement their Career Action Plan to realize their next steps. Students can work with Career Center staff to clarify their interests and abilities, select a major, develop professionally, build experience, and prepare for future internship, graduate school, or employment searches.

Students should activate their Gator CareerLink account to learn about the range of in-person and online career planning services available to them, and to see which employers are actively recruiting University of Florida candidates.

The Career Connections Center hosts hundreds of employers annually as they attend a variety of career events, hold on-campus interviews, present information sessions, and interact informally with students.
Map (http://campusmap.ufl.edu/?loc=0686) More Info (http://www.crc.ufl.edu)

Center for Undergraduate Research, 202 Newell Hall

The Center for Undergraduate Research (CUR) is committed to fostering a culture of research that encourages students in all levels and disciplines to include a research component as a critical part of their undergraduate experience. CUR provides guidance to students interested in pursuing research opportunities and coordinates campus undergraduate research activities. CUR also works to expand undergraduate research opportunities across campus.
Map (http://campusmap.ufl.edu/?loc=0013) More Info (http://cur.aa.ufl.edu)

Collegiate Veterans Success Center, 4th Floor Yon Hall

The Collegiate Veterans Success Center serves over 2,000 student Veterans, Active Duty Service members, and military families at UF by providing a designated location on campus for student Veterans to study, meet with on and off campus resources, and to spend time with and support each other in a fun and relaxing space. The Collegiate Veterans Success Center at UF is also one of ninety-four universities to host the U.S. Department of Veterans Affairs' VetSuccess on Campus Counselor (VSOC). The VSOC Program serves as the on-campus face for the U.S. Department of Veterans Affairs. UF has been honored for its support services for student Veterans, Active Duty Service members, and military families.

- UF is ranked 2nd out of 81 colleges and universities in Florida for Veteran friendliness (by College Factual);
- UF is ranked 11th out of 1,820 colleges and universities for Veteran friendliness (by College Factual);
- UF is ranked 6th out of 39 Tier One research institutions with outstanding programs and support for our nation's Veterans and their Families (Military Friendly 2019); and
- UF was awarded a Best For Vets college award for excellent academic support of military students (Military Times 2019).

Map (http://campusmap.ufl.edu/?loc=0158) More Info (https://www.dso.ufl.edu/veteran)

Dean of Students Office Care Area, 202 Peabody Hall

Professionals in the Dean of Students Office work with students, their families, and campus and community resources to develop success plans and provide ongoing support for students in distress dealing with a variety of issues.
Map (http://campusmap.ufl.edu/?loc=0004) More Info (https://www.dso.ufl.edu/care)

Disability Resource Center, Reid Hall and Cypress Hall

The Disability Resource Center (DRC) in the Division of Student Affairs, celebrates disability identity as a valued aspect of diversity. We champion a universally accessible community that supports the holistic advancement of individuals with disabilities.

The DRC serves more than 3.000 registered students to provide access within the academic environment. This may be done through academic accommodations as well as collaborating with faculty and staff across the University to proactively address barriers. Students are able to register online by visiting our website (https://disability.ufl.edu). DRC staff are available to consult with faculty and staff on how to best support the access needs of gators with disabilities. Students and their families can schedule an inquiry appointment to learn more about the DRC by emailing drcaccessuf@ufsa.ufl.edu or calling 352.392.8565..

Graduate Diversity Initiatives, Office of, 123 Grinter Hall

The Office of Graduate Diversity Initiatives (OGDI) is a function of the Graduate School dedicated to the recruitment and retention of underrepresented graduate students. This includes increasing the number of UF graduate students from underrepresented ethnic/racial populations, low-income or first-generation college students, as well as advancing and promoting professional development for all graduate students at the University of Florida. OGDI strives to provide currently enrolled graduate students with programs and services to assist and support the pursuit of a successful graduate education. OGDI provides students with social, informational, referral, mentoring, and, in some cases, financial support. Additionally, OGDI maintains partnerships with administrative offices, academic units, research centers, student services, and organizations across campus to help students with the graduate experience. OGDI accomplishes its mission through several programs held throughout the academic year.

Undergraduates Interested in Graduate School

OGDI aims to improve our UF undergraduates' access to information about graduate school opportunities and to assist graduate schools in identifying qualified underrepresented candidates interested in graduate studies. In this effort, OGDI maintains The University of Florida's membership to the National Name Exchange Consortium (https://apps.grad.uw.edu/nne). This consortium matches undergraduate

underrepresented students interested in graduate studies to graduate schools across the nation. The name exchange seeks to increase the number of qualified minority students accepted into graduate school. OGDI also participates in several recruitment events throughout the state and beyond.

International Center, 170 Hub

The UF International Center (UFIC) supports and promotes international education and research across the university and provides valuable support services for all students and faculty at UF through its various units. International Student Services provides orientation and immigration services to international students throughout their studies at UF. Exchange Visitor Services provides administrative support for international scholars at UF. Undergraduate Academic Programs provides opportunities for all undergraduate students to add an international dimension to their education. The Office of Global Engagement supports faculty development of international research and training programs.

The center also coordinates study abroad, which offers spring break, summer, semester, and academic-year programs. Students can live and study abroad while fulfilling UF degree requirements. Exchange programs enable students to pay UF tuition for study overseas. Scholarships and financial aid can help to finance the international academic experience. Study abroad advisors work with students to find a program that fits both their personal and academic needs.
Map (http://campusmap.ufl.edu/?loc=0032) More Info (http://www.ufic.ufl.edu)

McNair Scholars Program, 319 Infirmary Building

The Ronald E. McNair Scholars Achievement Program encourages undergraduate students to pursue advanced studies at the Ph.D. level. This intense academic research program, one of the most prestigious in the country, is designed for first-generation and low-income college students, as well as students from groups underrepresented at the graduate level. There are 187 McNair programs nationally, which are funded by Federal TRIO Program grants from the U.S. Department of Education.

New scholars begin the program in the summer with an intensive research internship, which includes a three-credit Research Methods and Writing course, GRE preparation, and workshops on the graduate school application process and other topics related to graduate study at the doctoral level.

McNair Scholars receive mentoring, academic support, faculty-guided research experience, and a research stipend of up to $2,800, and travel funding to present at professional conferences and visit prospective graduate programs. Application information (http://mcnair.aa.ufl.edu/application.aspx).

Map (http://campusmap.ufl.edu/?loc=0018) More Info (http://mcnair.aa.ufl.edu)

Teaching Center, SW Broward Hall (Main office)

The Teaching Center offers various academic resources to help students succeed in their studies. All of our tutoring services are free to current students. The following tutoring services are available:

- Drop-in tutoring: best for students who have a few questions or want a place to study with the opportunity to ask questions of a tutor.
- Appointment tutoring: best for students who want to meet regularly with a tutor for an entire class period. These appointments meet at the same time each week of the term.
- Study Groups / SI: group tutoring which allows students to work together with a peer leader. In SI students actively process concepts through social interaction.
- Test Reviews: large auditorium tutoring is great for an overall review of what to expect on upcoming course exams. GRE preparation workshops are also available each semester.
- Video Resources: features tutors explaining how they think about concepts and how they approach problem solving. These online resources are available any time.

A study skills/learning strategies improvement program is also available. Students may work individually with a learning strategist or participate in workshops covering a variety of topics. Study skills videos are available online as well.

The Teaching Center is a certified Prometric, Pearson Vue Select, and NCTA Testing Center, and also provides test proctoring for distance education courses and CLEP exams. There is a fee for test proctoring/administration, however. Please be aware that CLEP exams must be taken and scores reported to UF before the end of the first semester of enrollment (or Fall semester for students entering Summer B).

The Teaching Center also provides tutoring in satellite centers (mathematics through Calculus 1 in LIT 215 and chemistry in TUR 1315). Tutoring schedules may be found on the website.
Map (http://campusmap.ufl.edu/?loc=0011) More Info (https://teachingcenter.ufl.edu)

University of Florida Libraries

All seven of the libraries on campus serve the entire community, and each has a special mission to be the primary support of specific colleges and degree programs. The Libraries home page (http://cms.uflib.ufl.edu) offers a wealth of information about the Libraries and links to a vast array of resources.

The Marston Science Library and Library West are the largest libraries on campus. In Marston, the first floor Collaboration Commons has 21 group study rooms and a multipurpose conference room featuring a multi-touch visualization wall. The first floor is also home to MADE@UF, a collaboration space created by the Libraries and Academic Technology with equipment, software and training for virtual reality and augmented reality applications. A 3D printing lab is located on the second floor and includes 3D scanners and printers available for lending.

Library West offers 18 group study rooms, a graduate student floor, graduate student/faculty study carrels, and the Scott Nygren Scholars Studio, an emerging community center for digital humanities and digital

scholarship. The One Button Video Recording Studio is available for student and faculty checkout. Six ProctorU testing carrels are available by reservation. Library West also has a Tutoring Center, Accessibility Studio and FitDesk study bikes.

More Info (http://cms.uflib.ufl.edu)

University Minority Mentor Program

The University Minority Mentor Program is an opportunity open to first-year students from underrepresented populations. The program pairs each participant with a faculty/staff mentor to assist with the students' transition to college. Mentoring programs have a dramatic and positive effect on student retention, graduation rates, and faculty-student relations. This six month program cycle is administered by Multicultural and Diversity Affairs. For more information, email ummp@multicultural.ufl.edu.
More Info (https://multicultural.ufl.edu/programs/ummp)

University Writing Program, 2215 Turlington Hall

The University Writing Program (UWP) offers writing-intensive courses, workshops, and tutorial support to students and faculty. Instruction is based on the premise that writing is a transferable skill necessary for success in all academic and professional fields.

The University Writing Program also provides one-on-one consultations on any topic related to writing in the Writing Studio. Students can make an appointment online or by contacting the UWP office.

Courses taught by writing program faculty include:

Code	Title	Credits
ENC 1101	Expository and Argumentative Writing	3
ENC 1102	Argument and Persuasion	3
ENC 2305	Analytical Writing and Thinking	3
ENC 3246	Professional Communication for Engineers	3
ENC 3254	Professional Writing in the Discipline	3
ENC 3453	Writing in the Health Professions	3
ENC 3459	Writing in the Medical Sciences	3
ENC 3464	Writing in the Social Sciences	3
ENC 3465	Writing in the Law	3
ENC 3466	Writing in the Communication Sciences	3
ENC 3483	Writing in the Physical Sciences	3

Academic Honors

Honors Program

The vision of the University of Florida Honors Program (http://www.honors.ufl.edu) is to encourage and cultivate the full intellectual growth of preeminent undergraduates and aspiring scholars through curricular and co-curricular experiences to fulfill their potential and goals. The Honors Program provides intellectually stimulating experiences designed to create graduates that have disciplinary depth and who also have the ability to fully engage in meaningful dialog across disciplines.

There are two pathways to admission / participation in the Honors Program:

1. Freshman Honors Program. The Freshmen Honors Program (http://www.honors.ufl.edu/prospective/admissions/freshmen-honors-program-fhp) (FHP) is open to high school seniors who are entering UF as incoming freshmen.

Members of the Freshmen Honors Program must earn at least a 3.5 cumulative UF GPA and take at least 2 credits of Honors courses (earned with a B or higher) during their first year. The first year includes Summer B, Fall, and Spring, but not the following summer. Students who complete these requirements will move automatically into University Honors for the remainder of their time at UF.

2. University Honors Program. The University Honors Program (http://www.honors.ufl.edu/prospective/admissions/university-honors-program-uhp) (UHP) is open to sophomores through seniors. Members of the Freshmen Honors Program are automatically advanced to University Honors if they complete the FHP. Currently enrolled freshmen who are not members of FHP may apply to UHP at the conclusion of their first year at UF, provided they have earned at least a 3.5 cumulative UF GPA and 28 credits during that first year (not including incoming credits via accelerated mechanisms).

To complete (http://www.honors.ufl.edu/current/completion-requirements) the University Honors Program, students must graduate with honors in their major and earn 8 academic and 6 enrichment points through various activities. Students who meet the UHP completion requirements will receive a notation on their official UF transcript and a medallion to wear at commencement.

Students in the Honors Program have access to specialized honors courses (http://www.honors.ufl.edu/current/courses), housing in the Honors Residential College at Hume Hall (https://www.housing.ufl.edu/housing/hume-hall), holistic academic advising and coaching (http://www.honors.ufl.edu/current/advising/#form), and honors student involvement opportunities (http://www.honors.ufl.edu/about/student-orgs), in addition to early course registration for their first 10 credits each semester through the junior year. Early registration privileges are limited to students in good standing with either the FHP or UHP.

Honor Roll

Students will appear on the President's Honor Roll if they achieve a perfect 4.0 GPA with at least 15 credits of graded academic course work (no S/U) in the fall or spring semester, or at least 12 credits of graded coursework in the summer semester (consisting of any combination of credits earned in Summer A, B, or C). This achievement will appear on the student's transcript as a permanent record. Students with questions about the President's Honor Roll should contact the Office of the University Registrar in 222 Criser Hall.

Students registered with the Disability Resource Center may be allowed to vary the number of credits required, but not the GPA requirement, following certification by the DRC.

Dean's List

Students will appear on their college's Dean's List if they meet the requirements. In addition, please note the following conditions:

- S/U and internship courses are not counted in the GPA calculation for Dean's List.
- GPA value is determined to the hundredths place and cannot be rounded up (e.g., 3.495 = 3.49).
- Grades of I, NG, I* or N* cannot be calculated into the GPA.

- Students registered with the Disability Resource Center may be allowed to vary the number of credits required, but not the GPA requirement, following certification by the DRC.
- Students are eligible to earn the Dean's List designation only once for the entire summer semester.
- In all colleges except Public Health and Health Professions, the credits in the Summer Requirements column can be earned in any combination of Summer A, B, or C courses. For Public Health and Health Professions, the six credits may be earned in either Summer A or Summer B, but not Summer C, and those students can only appear on their Dean's List once for the summer semester.

Agricultural and Life Sciences, College of

Graduating With Honors

The university offers three levels of honors: **cum laude**, **magna cum laude** and **summa cum laude**.

Please be aware that:

- GPA value is determined to the hundredths place (e.g., 3.495 = 3.49).
- Transfer credits and S/U option credits are excluded.
- Postbaccalaureate students are not eligible for honors recognition.
- Honors recognition is printed on the university diploma.
- Students should check with an academic advisor for complete details.

Honors by College and Major

Fisher School of Accounting

Cum Laude	Magna Cum Laude	Summa Cum Laude
3.2 GPA in all upper-division accounting coursework and a 3.2 upper-division GPA, which includes all courses taken after the student reaches 60 semester credit hours.	3.6 GPA in all upper-division accounting coursework and a 3.6 upper-division GPA, which includes all courses taken after the student reaches 60 semester credit hours. Completion of ACG 4970, with thesis and abstract.	3.8 GPA in all upper-division accounting coursework and a 3.8 upper-division GPA, which includes all courses taken after the student reaches 60 semester credit hours. Completion of ACG 4970, with thesis and abstract.

College of the Arts

Art and Art History

Cum Laude	Magna Cum Laude	Summa Cum Laude
3.5 upper-division GPA on all courses taken at UF beginning the semester after accumulating 60 credits.	3.75 upper-division GPA on all courses taken at UF beginning the semester after accumulating 60 credits. Completion of a creative project or thesis. Department recommends the distinction awarded.	3.90 upper-division GPA on all courses taken at UF beginning the semester after accumulating 60 credits. Completion of a creative project or thesis. Department recommends the distinction awarded.
	Art: Studio, graphic design and art education candidates are expected to work with their thesis advisor to determine appropriate content for their honors thesis submission. Art history candidates must submit a research paper. Art education candidates must submit their teaching portfolio.	**Art:** Studio, graphic design and art education candidates are expected to work with their thesis advisor to determine appropriate content for their honors thesis submission. Art history candidates must submit a research paper. Art education candidates must submit their teaching portfolio.

Digital Arts and Sciences

Cum Laude	Magna Cum Laude	Summa Cum Laude

Completion of a creative project. Department recommends the distinction awarded.	3.90 upper-division GPA on all courses taken at UF beginning the semester after accumulating 60 credits. Completion of a creative project. Department recommends the distinction awarded.

Music and Music Education

Cum Laude	Magna Cum Laude	Summa Cum Laude
3.4 upper-division GPA on all courses taken at UF beginning the semester after accumulating 60 credits.	3.75 upper-division GPA on all courses taken at UF beginning the semester after accumulating 60 credits. Completion of a creative project or thesis. Department recommends the distinction awarded.	3.90 upper-division GPA on all courses taken at UF beginning the semester after accumulating 60 credits. Completion of a creative project or thesis. Department recommends the distinction awarded.

	Music: Music majors must submit a creative or research project under the guidance of a music faculty member. Music education majors must complete the project prior to student teaching.	**Music:** Music majors must submit a creative or research project under the guidance of a music faculty member. Music education majors must complete the project prior to student teaching.

Theatre and Dance

Cum Laude	Magna Cum Laude	Summa Cum Laude
3.4 upper-division GPA on all courses taken at UF beginning the semester after accumulating 60 credits.	3.75 upper-division GPA on all courses taken at UF beginning the semester after accumulating 60 credits. Completion of a written thesis. Department recommends the distinction awarded.	3.75 upper-division GPA on all courses taken at UF beginning the semester after accumulating 60 credits. Completion of a written thesis. Department recommends the distinction awarded.

College of Agricultural and Life Sciences

Cum Laude	Magna Cum Laude	Summa Cum Laude
3.5 or higher GPA on all courses taken at UF beginning the semester after accumulating 60 credits.	3.75 GPA on all courses taken at UF beginning the semester after accumulating 60 credits. Completion of an approved research project or creative work and submission of an honors thesis based on that work.	3.85 GPA on all courses taken at UF beginning the semester after accumulating 60 credits. Completion of an approved research project or creative work and submission of an honors thesis based on that work.

Heavener School of Business

Cum Laude	Magna Cum Laude	Summa Cum Laude
3.5 GPA in all UF, core and major courses.	3.7 GPA in all UF, core and major courses. Completion of 90 credits prior to enrolling in honors thesis course and completion of an approved thesis.	3.9 GPA in all UF, core and major courses. Completion of 90 credits prior to enrolling in honors thesis course and completion of an approved thesis.

M.E. Rinker, Sr. School of Construction Management

Cum Laude	Magna Cum Laude	Summa Cum Laude
3.3 GPA in all upper-division courses.	3.6 GPA in all upper-division courses. Completion of an approved research project and formal presentation.	3.75 GPA in all upper-division courses. Completion of an approved research project and formal presentation.

College of Design, Construction and Planning

Architecture

Cum Laude	Magna Cum Laude	Summa Cum Laude
3.3 GPA in all upper-division courses.	3.6 GPA in all upper-division courses. Completion of an approved fourth-year design project.	3.8 GPA in all upper-division courses. Completion of an approved fourth-year design project.

Interior Design

Cum Laude	Magna Cum Laude	Summa Cum Laude
3.3 GPA in all upper-division courses.	3.6 GPA in all upper-division courses. Completion of an approved fourth-year design project.	3.8 GPA in all upper-division courses. Completion of an approved fourth-year design project.

Landscape Architecture

Cum Laude	Magna Cum Laude	Summa Cum Laude
3.2 GPA in all upper-division courses.	3.5 GPA in all upper-division courses. Completion of an approved fifth-year design project.	3.75 GPA in all upper-division courses. Completion of an approved fifth-year design project.

Sustainability and the Built Environment

Cum Laude	Magna Cum Laude	Summa Cum Laude
3.5 GPA in all upper-division courses.	3.65 GPA in all upper-division courses. Completion of an approved fourth-year project.	3.8 GPA in all upper-division courses. Completion of an approved fourth-year project.

College of Education

Cum Laude	Magna Cum Laude	Summa Cum Laude
3.75 GPA on all courses taken at UF beginning the semester after accumulating 60 credits.	3.75 GPA on all courses taken at UF beginning the semester after accumulating 60 credits; submission of an approved scholarly project.	Not available.

Herbert Wertheim College of Engineering

Cum Laude	Magna Cum Laude	Summa Cum Laude
3.3 GPA on all courses taken at UF beginning the semester after accumulating 60 credits.	3.5 GPA on all courses taken at UF beginning the semester after accumulating 60 credits. Completion of an approved research project or creative work.	3.8 GPA on all courses taken at UF beginning the semester after accumulating 60 credits. Completion of an approved research project or creative work.

College of Health and Human Performance

All Majors Except Applied Physiology and Kinesiology

Cum Laude	Magna Cum Laude	Summa Cum Laude
3.4 GPA on all courses taken at UF beginning the semester after accumulating 60 credits, excluding internship, flexible learning courses and extension courses.	3.7 GPA on all courses taken at UF beginning the semester after accumulating 60 credits, excluding internship, flexible learning courses and extension courses. Completion of a senior paper or creative project. Department recommends the distinction awarded.	3.7 GPA on all courses taken at UF beginning the semester after accumulating 60 credits, excluding internship, flexible learning courses and extension courses. Completion of a senior paper or a creative project or thesis. Department recommends the distinction awarded.

Applied Physiology and Kinesiology

Cum Laude	Magna Cum Laude	Summa Cum Laude
3.4 GPA on all courses taken at UF beginning the semester after accumulating 60 credits, excluding internship, flexible learning courses and extension courses.	3.7 GPA on all courses taken at UF beginning the semester after accumulating 60 credits, excluding internship, flexible learning courses and extension courses.	3.7 GPA on all courses taken at UF beginning the semester after accumulating 60 credits, excluding internship, flexible learning courses and extension courses. Completion of a senior paper or a creative project or thesis. Department recommends the distinction awarded.

College of Journalism and Communications

Cum Laude	Magna Cum Laude	Summa Cum Laude
3.5 GPA on all courses taken at UF beginning the semester after accumulating 60 credits (excluding internship) and professional courses.	3.6 GPA on all courses taken at UF beginning the semester after accumulating 60 credits (excluding internship) and professional courses. Submit evidence of professional competency based on student's area of study.	3.8 GPA on all courses taken at UF beginning the semester after accumulating 60 credits (excluding internship) and professional courses. Submit evidence of professional competency based on student's area of study.

College of Liberal Arts and Sciences

To graduate with honors, students must meet the college requirements for cum laude, magna cum laude or summa cum laude. Students will be granted magna or summa cum laude if they meet the college requirements AND the requirements specified by their major in the tables below.

College Requirements

Cum Laude	Magna Cum Laude	Summa Cum Laude
3.50 or higher GPA on all courses taken at UF beginning the semester after accumulating 60 credits.	Eligible students must have a 3.50 or higher GPA on all courses taken at UF beginning the semester after accumulating 60 credits and completion of, and faculty evaluation of, a thesis, research project or other creative work. Distinction of magna or summa cum laude may be granted based on faculty evaluation of the thesis, and the department will make the determination whether and what level of distinction will be awarded.	Eligible students must have a 3.50 or higher GPA on all courses taken at UF beginning the semester after accumulating 60 credits and completion of, and faculty evaluation of, a thesis, research project or other creative work. Distinction of magna or summa cum laude may be granted based on faculty evaluation of the thesis, and the department will make the determination whether and what level of distinction will be awarded.

Major Requirements

Anthropology

Cum Laude	Magna Cum Laude	Summa Cum Laude
	Student must register for three credits of ANT 4914 in their final semester and successfully complete and defend an honors thesis. Students must have an approved faculty mentor and signed thesis contract. Distinction of magna or summa cum laude is based on faculty committee evaluation of the thesis.	Student must register for three credits of ANT 4914 in their final semester and successfully complete and defend an honors thesis. Students must have an approved faculty mentor and signed thesis contract. Distinction of magna or summa cum laude is based on faculty committee evaluation of the thesis.

Astronomy

Cum Laude	Magna Cum Laude	Summa Cum Laude
	In addition, student must complete six credits of AST 4911 and write a thesis. A committee of at least three faculty members evaluates the thesis and makes a recommendation to the astronomy adviser regarding the level of honors awarded.	In addition, student must complete six credits of AST 4911 and write a thesis. A committee of at least three faculty members evaluates the thesis and makes a recommendation to the astronomy adviser regarding the level of honors awarded.

Biology

Cum Laude	Magna Cum Laude	Summa Cum Laude
	Distinction of magna cum laude requires a 3.50 or higher GPA on all courses taken at UF beginning the semester after accumulating 60 credits. Student must also complete the equivalent of at least six credits of approved undergraduate research (contact undergraduate coordinator), complete a thesis research project and submit a mentor-approved honors thesis. The undergraduate coordinator will review the thesis and submit a recommendation for approval or disapproval to the Biology Major Executive Committee.	Distinction of summa cum laude requires a 3.75 or higher GPA on all courses taken at UF beginning the semester after accumulating 60 credits. Student must also complete the equivalent of at least six credits of approved undergraduate research (contact undergraduate Coordinator), complete a thesis research project and submit a mentor-approved honors thesis. The undergraduate coordinator will review the thesis and submit a recommendation for approval or disapproval to the Biology Major Executive Committee.

Botany

Cum Laude	Magna Cum Laude	Summa Cum Laude
	Student must complete one semester (3-4 credits) of BOT 4911, complete a research project, and write a thesis.	Student must complete two semesters (6-8 credits) of BOT 4911, complete a research project, and write a thesis.

Chemistry

Cum Laude	Magna Cum Laude	Summa Cum Laude
	Student must complete six credits of CHM 4910 and write a thesis. Distinction of magna or summa cum laude is based on both GPA and faculty evaluation of the thesis.	Student must complete six credits of CHM 4910 and write a thesis. Distinction of magna or summa cum laude is based on both GPA and faculty evaluation of the thesis.

Classical Studies

Cum Laude	Magna Cum Laude	Summa Cum Laude
	Student must also write an honors thesis under supervision of a faculty mentor. Contact the Classics undergraduate adviser for more information.	Student must also write an honors thesis under supervision of a faculty mentor. Contact the Classics undergraduate adviser for more information.

Computer Science

Cum Laude	Magna Cum Laude	Summa Cum Laude
	Requires two additional approved CISE courses.	3.80 GPA. Requires two additional approved CISE courses.

Criminology

Cum Laude	Magna Cum Laude	Summa Cum Laude
	Student must defend a thesis and may enroll in CCJ 4970 or honors-focused courses for credit to write a thesis. Distinction of magna or summa cum laude is based on faculty evaluation of the thesis.	Student must defend a thesis and may enroll in CCJ 4970 or honors-focused courses for credit to write a thesis. Distinction of magna or summa cum laude is based on faculty evaluation of the thesis.

Economics

Cum Laude	Magna Cum Laude	Summa Cum Laude
	Student must earn a 3.30 GPA for all UF economics courses, complete ECO 4935 or ECO 4905, and submit an acceptable thesis.	Student must earn a 3.70 GPA on all courses taken at UF the semester after accumulating 60 credits and a 3.50 GPA for all UF economics courses. Must also complete ECO 4935 or ECO 4905 and submit an acceptable thesis.

English

Cum Laude	Magna Cum Laude	Summa Cum Laude
	Student must earn an A or B grade in at least one semester of ENG 4936 and a minimum grade of B + in ENG 4970.	Student must earn a minimum grade of B and at least one A in no fewer than two semesters of ENG 4936 and an A in ENG 4970.

Foreign Languages and Literatures

Cum Laude	Magna Cum Laude	Summa Cum Laude
	Students must complete a thesis and receive approval of the completed project by two full-time faculty members (excluding adjunct faculty), one of whom must be affiliated with Languages, Literatures and Cultures and serve as the student's primary advisor. In consultation with the primary advisor, the student should identify the second faculty member no later than the mid-point of the semester. It is strongly recommended that the student complete up to 6 credits of 4911 in their area of specialization. (In the case of the Chinese and Japanese tracks, it is strongly recommended that the student complete up to 3 credits of CHI 4911/ CHT 4911 or CHW 4911 or JPN 4911/JPT 4911 or JPW 4911, prior to completing 3 credits of CHI 4935 or JPN 4935 (Senior Thesis).	Students must complete a thesis and receive approval of the completed project by two full-time faculty members (excluding adjunct faculty), one of whom must be affiliated with Languages, Literatures and Cultures and serve as the student's primary advisor. 	It is possible that a student may complete a thesis and not receive a magna or summa cum laude designation.	It is possible that a student may complete a thesis and not receive a magna or summa cum laude designation.
	Students must have earned an A or B in at least one semester of an approved 4911/4935 course. The distinction of magna cum laude is based on an evaluation of the thesis by the faculty advisor and second reader.	Students must have earned an A or B in at least one semester of an approved 4911/4935 course. Students' writing and research must be excellent, of nearly publishable quality. The distinction of summa cum laude is based on an evaluation of the thesis by the faculty advisor and second reader.

Geography

Cum Laude	Magna Cum Laude	Summa Cum Laude
	Student must earn an A in GEO 4970 or GEO 4905 and submit an honors thesis. Distinction of magna or summa cum laude is based on evaluation of the thesis by a faculty adviser and a second reader.	Student must earn an A in GEO 4970 or GEO 4905 and submit an honors thesis. Distinction of magna or summa cum laude is based on evaluation of the thesis by a faculty adviser and a second reader.

Geology

Cum Laude	Magna Cum Laude	Summa Cum Laude
	Students must complete two semesters of GLY 4911 with grades of B or higher and submit an honors thesis. Distinction of magna or summa cum laude is based on faculty evaluation of the thesis.	Students must complete two semesters of GLY 4911 with grades of B or higher and submit an honors thesis. Distinction of magna or summa cum laude is based on faculty evaluation of the thesis.

History

Cum Laude	Magna Cum Laude	Summa Cum Laude
	In the fall semester, student must pass the History Honors Seminar: Thesis Workshop while completing thesis research. Then, in the spring semester, student must enroll in HIS 4970 and write an acceptable thesis. Distinction of magna or summa cum laude is based on faculty evaluation of the thesis. Contact the undergraduate coordinator or history honors coordinator for information.	In the fall semester, student must pass the History Honors Seminar: Thesis Workshop while completing thesis research. Then, in the spring semester, student must enroll in HIS 4970 and write an acceptable thesis. Distinction of magna or summa cum laude is based on faculty evaluation of the thesis. Contact the undergraduate coordinator or history honors coordinator for information.

Interdisciplinary Studies

Cum Laude	Magna Cum Laude	Summa Cum Laude
	Student with a GPA of 3.5 or higher must be recommended by two members of the student's supervisory committee, including the principal supervisor, who will affirm that the student conducted an individual project in IDS 4906 (or equivalent). Distinction of magna or summa cum laude is based on faculty evaluation of the project.	Student with a GPA of 3.5 or higher must be recommended by two members of the student's supervisory committee, including the principal supervisor, who will affirm that the student conducted an individual project in IDS 4906 (or equivalent). Distinction of magna or summa cum laude is based on faculty evaluation of the project.

Jewish Studies

Cum Laude	Magna Cum Laude	Summa Cum Laude
	Student must enroll in JST 4970 and complete an honors project. Distinction of magna or summa cum laude is based on faculty evaluation of the project.	Student must enroll in JST 4970 and complete an honors project. Distinction of magna or summa cum laude is based on faculty evaluation of the project.

Linguistics

Cum Laude	Magna Cum Laude	Summa Cum Laude
	Student must complete at least three credits of LIN 4905, followed by LIN 4970. Distinction of magna or summa cum laude is based on faculty evaluation of the thesis.	Student must complete at least three credits of LIN 4905, followed by LIN 4970. Distinction of magna or summa cum laude is based on faculty evaluation of the thesis.

Mathematics

Cum Laude	Magna Cum Laude	Summa Cum Laude
	Student must write a thesis that fulfills the department's honors standards.[1]	Student must satisfy the B.S. degree requirements and write a thesis that fulfills the department's honors standards.[1]

[1] More Info (https://math.ufl.edu/mathematics-major)

Microbiology and Cell Science

Cum Laude	Magna Cum Laude	Summa Cum Laude
	3.75 GPA. Student must have grade of S in at least four credits of MCB 4911, MCB 4915 or other department undergraduate research course previously approved.	3.85 GPA. Student must have grade of S in at least four credits of MCB 4911, MCB 4915 or other department undergraduate research course previously approved.

Philosophy

Cum Laude	Magna Cum Laude	Summa Cum Laude
	Student must complete an honors thesis while enrolled in PHI 4912. A formal proposal must be submitted the semester prior to that during which the student writes the thesis. Upon completion, the thesis is reviewed by the department's undergraduate committee, which also conducts an oral examination. The undergraduate coordinator, in consultation with that committee, will determine the distinction awarded.[1]	Student must complete an honors thesis while enrolled in PHI 4912. Academic Terminology

| A (p. 1395) | B (p. 1395) | C (p. 1395) | D (p. 1396) | E (p. 1396) | F (p. 1396) | G (p. 1397) | H | I (p. 1397) | J | K | L (p. 1397) | M (p. 1397) | N | O (p. 1397) | P (p. 1398) | Q | R (p. 1398) | S (p. 1398) | T (p. 1398) | U (p. 1399) | V | W (p. 1399) | X | Y | Z |

A

- **A.A. Degree**
  Associate of Arts degree, awarded upon satisfactory completion of 60 credits (at least 36 at UF) with an overall C (2.0) average, including general education requirements, foreign language competency, and the writing requirement.
  More Info (p. 1429)

- **Academic Learning Compact (ALC)**
  UF's definition for each major of the minimum communication skills, critical thinking skills and content knowledge appropriate for that major.

- **Academic Year**
  The annual cycle of academic terms: Summer B, Fall, Spring, Summer A, Summer C.
  More Info (p. 1442)

- **Admission Requirements**
  The necessary minimum criteria every applicant must have to be admitted to UF. Many majors have additional requirements for admission as a junior.
  More Info (p. 15)

- **Admitted**
  Term used to describe students who have applied and have been accepted to the university in a degree-seeking status. Admission is not validated until the student registers for and attends classes.
  More Info (p. 15)

- **Audit**
  Permission to attend and to participate in a course without benefit of a grade or credit. Continuing education units (CEUs) may be awarded at the discretion of the instructor.
  More Info (p. 1440)

B

- **Baccalaureate**
  Bachelor's degree, the traditional undergraduate degree. B.A. is the Bachelor of Arts degree and B.S. is the Bachelor of Science degree. It is awarded upon satisfactory completion of at least 120 credits with an overall C (2.0) average.

C

- **Calendar, University**
  An annual publication listing all official dates and deadlines for the academic year.
  More Info (p. 1442)

- **Catalog Year**
  The year during which the regulations published in a specific edition of the undergraduate catalog apply. A student's catalog year determines their academic requirements for completing a degree based upon the requirements published in the catalog in effect at the time the student begins degree-seeking enrollment.
  More Info (p. 1429)

- **Certificate**
  An organized concentration of study in an approved subject area. University-approved certificate programs began appearing on the student transcript in Spring 2012. Non-university approved certificate programs are not recognized on a student transcript although individual courses are reflected.
  More Info (p. 1379)
- **Classification/College**
  A code indicating a student's academic level (year) and college affiliation.
  More Info (p. 1441)
- **Combined Degrees**
  An accelerated program that allows students to count 12 graduate credits toward their undergraduate degree.
  More Info (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees)
- **Common Course Numbering System**
  A statewide system of course prefixes and numbers developed to facilitate the transfer of credit by identifying equivalent courses.
  More Info (http://scns.fldoe.org)
- **Continuing Education Unit (CEU)**
  Courses taken to maintain licensure in professions that require a state or professional board license.
- **Continuous Enrollment**
  Undergraduate students who enroll for at least one course in one term in an academic year are continuously enrolled.
  More Info (p. 1429)
- **Corequisite**
  Two courses that must be taken concurrently.
- **Course Sequence**
  The specified order of enrollment for a series of courses; e.g., SPN 1130, SPN 1131, SPN 2200, SPN 2201.
- **Credit**
  Every course taught is designated a total number of credits. The number of credits for a class reflects approximately the total hours a student spends per week in class.
- **Critical Tracking Criteria**
  The courses required for entry to a major; these courses are in bold or otherwise noted in the undergraduate catalog and on the degree audit.
  More Info (p. 1379)
- **Cum Laude**
  Graduating with honors.
  More Info (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonorstext)

D

- **Deficit Record**
  A combination of UF cumulative credits and UF cumulative grade point average, where the UF cumulative GPA falls below a 2.0.
  More Info (p. 1425)
- **Degree Audit**
  A computerized evaluation of a student's progress towards completion of a degree. See ONE.UF.
  More Info (https://one.uf.edu/dashboard)
- **Dismissal**
  Students with a grade point deficit of 15 or more will be placed on academic dismissal and will not be permitted further registration at UF.
  More Info (p. 1425)
- **Distance Learning**
  Online courses that are administered through an e-learning delivery system.
  More Info (p. 1413)
- **Drop**
  To drop a single course from a given term after the drop/add period. Students are liable for fees for a dropped course and a W is posted to the student's transcript.
  More Info (p. 1430)
- **Drop/Add**
  A period of time beginning with the first day of classes when students can adjust schedules by dropping or adding courses or changing sections of a course. Courses dropped by 11:59 p.m. on the last day of drop/add are not subject to fees.
  More Info (p. 1430)
- **Dual Enrollment**
  Simultaneous registration at two educational institutions.
  More Info (p. 1407)

E

- **Early Admission**
  Admission as a freshman following completion of the junior year of high school.
  More Info (p. 16)
- **Electives**
  Any course not required as part of a student's degree requirements.
- **Enrollment**
  Registration for coursework and payment of fees constitutes official enrollment.
- **Excess Hours**
  Credits exceeding a state-specified threshold of the degree requirements. Additional tuition is assessed for credits exceeding this threshold.
  More Info (p. 1431)

F

- **FERPA**
  The Family Educational Rights and Privacy Act, which affords students certain rights with respect to their education records.
  More Info (p. 1436)
- **Flexible Learning**
  Division of Continuing Education course offerings. Consult the college dean's office for restrictions and limitations.
  More Info (p. 1413)

G

- **GatorLink**
  A student's computer identity at UF, which consists of a username and password to allow access to secure UF sites. It also includes official UF email service, usually in the format of username@ufl.edu. All students are required to sign up for a GatorLink account and email service because official university communications are sent to this email address.
  More Info (p. 1452)

- **Gator 1 Card**
  UF's official university photo identification. All enrolled students must have a university ID card.
  More Info (p. 1452)

- **General Education Requirement**
  University-wide requirement of basic studies that form the foundation of all undergraduate degree programs.
  More Info (p. 21)

- **Good Standing**
  Eligible to continue to register for university coursework.
  More Info (p. 1425)

- **Grade Point Average (GPA)**
  The ratio of grade points earned to semester credits carried. The UF GPA is computed on University of Florida coursework only. The UF GPA is displayed to the hundredths place and not rounded up (i.e. 3.528 = 3.52).
  More Info (p. 1438)

- **Grade Points**
  The number of points attributed to a grade (A=4, B=3, etc.) times the number of credits in the course.
  More Info (p. 1438)

- **Graduate Student**
  A student who has earned a baccalaureate degree and who has been admitted to the Graduate School to pursue a graduate degree program (master's, specialist, engineer, doctorate).
  More Info (http://www.graduateschool.ufl.edu)

- **Graduation Requirements**
  University-wide, college- and major-specific requirements that must be met for graduation from UF.
  More Info (p. 1429)

I

- **Individual Students Assessments (ISA)**
  The different ways in which UF will measure whether students have successfully completed the learning outcomes for a particular major. These may include a passing score on a particular test, a final project, term paper, portfolio and so on.

- **Innovation Academy (IA)**
  Innovation Academy, a unique undergraduate program experience, creates a small-college experience that focuses on delivering innovation, creativity, entrepreneurship, ethics, and leadership. IA students take courses on campus during the spring and summer, leaving the fall term free for online courses, study abroad, internships, research, community service, and/or employment. IA students follow this spring-summer on campus schedule throughout their entire degree program.
  More Info (http://innovationacademy.aa.ufl.edu)

L

- **Learning Outcomes**
  What students are expected to learn by completing a particular major.
  More Info

M

- **Magna Cum Laude**
  Graduating with high honors.
  More Info (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonorstext)

- **Major**
  A subject of academic study chosen as a field of specialization.
  More Info (p. 1378)

- **Matriculation**
  Initial term of enrollment and attendance at UF. Can be as an admitted, degree-seeking student or as a non-degree student.

- **Medical Withdrawal**
  Student drops all courses in a given term based on medical documentation. Fees for the semester will be refunded if a successful petition is filed within six months of given term.
  More Info (https://care.dso.ufl.edu/medical-withdrawal-process)

- **Minor**
  An officially recognized secondary concentration of study in an approved subject area, consisting of at least 15 credits of appropriate coursework. Minors are optional.
  More Info (p. 1379)

O

- **Ombuds**
  The university ombuds assists all members of the university community to solve problems and conflicts. They will listen, discuss issues, answer questions, interpret policies, provide information and referrals, and help develop options for problem resolution. The ombuds serves as an advocate for fairness for all members of the university community.
  More Info (p. 1425)

- **On-track or Off-track**
  On-track refers to students who are meeting progress requirements each term, according to their majors' critical tracking plans. Off-track refers to students who are not meeting their degree requirements each term.
  More Info (p. 1425)

- **ONE.UF**
  Enables students to access and manage their records online.
  More Info (https://one.uf.edu)

- **Overall GPA**
  Cumulative GPA of UF coursework. GPA's are displayed to the hundredths place and not rounded up.
  More Info (p. 1438)

P

- **PaCE: Pathway to Campus Enrollment**
  PaCE offers degree programs through a combination of online and residential or campus-based learning options.
  More Info (http://www.admissions.ufl.edu/pace)

- **Permanent Academic Record**
  The complete list of a student's courses attempted, grades and credit earned, degrees awarded and any other pertinent academic information.

- **Petition**
  A written request seeking a waiver of or an exception to a university regulation, policy or deadline. Petitions may be considered if the circumstances are beyond the student's control.
  More Info (p. 1425)

- **Postbaccalaureate**
  A student who has earned a baccalaureate degree and been admitted for continued study but who has not been admitted as a graduate or professional student.

- **Preprofessional GPA**
  The grade point average achieved in the specific courses required for admission to a major; these courses generally are completed in the first two years of study and the required GPA is often higher than 2.0.

- **Prerequisite**
  A condition that must be met to establish eligibility to enroll in a program or course.

- **Prerequisite Courses**
  The courses students must take and successfully complete before they can enroll in a subsequent course.

- **Probation, Academic**
  Any undergraduate with less than a 2.0 cumulative UF GPA shall be placed on academic probation while a grade point deficit exists. Refer to deficit points.
  More Info (p. 1425)

- **Professional Student**
  A student who is admitted to pursue a Doctor of Dental Medicine, Juris Doctor, Doctor of Medicine, Doctor of Nursing Practice, Doctor of Pharmacy, Doctor of Physical Therapy, Physician Assistant or Doctor of Veterinary Medicine degree.

R

- **Readmission**
  The procedure for a previously enrolled UF student to re-enroll in a degree-seeking status after a break in enrollment of more than one term; a readmission fee is required.
  More Info (p. 19)

- **Registration**
  The process by which a student officially selects and enrolls in university coursework.
  More Info (p. 1440)

- **Residence**
  A student's tenure within the university and/or a specific college or school in campus-based learning opportunities.
  More Info (p. 1429)

- **Residency**
  Classification of students as Florida residents or non-Florida residents for tuition purposes.
  More Info (p. 19)

S

- **Schedule Adjustment**
  A period of time following registration before the beginning of classes when students can adjust their course schedules.

- **Schedule of Courses**
  A listing of courses offered by semester.
  More Info (https://registrar.ufl.edu/soc)

- **Semester**
  A standard academic term (fall, spring or summer). Refer to term.
  More Info (p. 1442)

- **Student**
  Any individual who is attending or has attended a postsecondary educational agency or institution that maintains academic records.

- **Specialization**
  A detailed set of courses and/or semester plan for graduation for an emphasis of study within a major.

- **Student Learning Outcomes (SLOs)**
  What students are expected to learn by completing a particular major.

- **Summa Cum Laude**
  Graduating with highest honors.
  More Info (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonorstext)

- **S/U Option**
  A provision by which a student may elect, with college approval, to enroll in a course, the grade for which is not computed in the grade point average. Grades awarded are S (satisfactory) or U (unsatisfactory). The S grade is equivalent to a grade of C (2.0) or better.
  More Info (p. 1438)

- **SUS**
  The State University System of Florida. The University of Florida is one of the state-supported universities and colleges in the SUS.
  More Info (http://www.flbog.edu)

T

- **Term**
  A period of instruction. During the fall and spring, the term is a standard 16-week semester. During the summer, various shorter length periods of instruction are offered: Summer A and Summer B are six-week terms; Summer C is a 12-week term.
  More Info (p. 1442)

- **Textbook Adoption**
  The process by which textbook requirements are submitted by faculty and displayed online for students to see and to purchase for their courses.

- **Transcript**
  An official copy of the student's complete coursework, grades, credit and degrees earned at the University of Florida.
  More Info (https://registrar.ufl.edu/services/transcripts.html)

- **Transfer Credit**
  Coursework completed at another institution that is accepted at the University of Florida and which may be applicable toward a specific major, minor or degree.
  More Info (p. 18)

- **Transient Student**
  A student of another accredited institution who receives permission to register (for one term) as a non-degree-seeking student to earn credit to transfer back to their parent institution.

U

- **UFID**
  A unique eight-digit number that serves as the primary identifier for all university records and transactions. No two people have the same number and each person has only one UFID.
  More Info (p. 1452)

- **UF Online**
  Bachelor degrees and minors offered exclusively through distance learning.
  More Info (http://ufonline.ufl.edu)

- **Unit**
  An alternate term for credit. One unit equals one credit.

- **Universal Tracking System and Audits**
  UF's academic monitoring system, feature semester-by-semester plans for each major.
  More Info (p. 1379)

W

- **What-If Report**
  Exploring possible majors to determine a student's interest and to estimate whether the coursework they have completed meets any of the degree requirements for a specific major.

- **Withdraw**
  To drop all courses for a given term. Students are liable for fees and a grade of W will appear on the transcript for each course.
  More Info (p. 1430)

- **Writing Requirement**
  The University of Florida requires all students to complete courses that involve substantial writing for a total of 24,000 words. Courses are identified by category in the schedule of courses.
  More Info (p. 1421)

Accelerated Degrees

College of Dentistry's Honors Combined B.S./D.M.D. Program

Incoming freshmen who intend to pursue a career in dentistry can, through a cooperative agreement between the College of Agricultural and Life Sciences and the College of Dentistry, qualify for provisional admission to the preprofessional program leading to the D.M.D. This honors program helps highly motivated students complete a B.S. degree in Nutritional Sciences or Microbiology and Cell Science and the D.M.D. degree.
More Info (http://dental.ufl.edu/admissions/dmd-program/honors-combined-bs-dmd-program)

Admission Criteria (http://dental.ufl.edu/admissions/dmd-program/honors-combined-bs-dmd-program)
Contact: 352.273.5955

Junior Honors Medical Program

An accelerated path to medical school. Students apply to this highly competitive program in the second semester of the second year of undergraduate study. If selected, they begin coursework for medical school in the third year and enter the M.D. program in the fourth year. After completion of the first year of medical school, students earn their B.S. degrees.
More Info (http://jhmp.med.ufl.edu)

Admission Criteria: Apply during sophomore year
Contact: Email (med-admissions@ufl.edu); 352.273.7990

Master of Agribusiness (MAB)

A professional degree for students who desire careers in marketing and management in agriculture, food processing and distribution, forest products and related industry where there has been strong demand for MAB graduates. Offered by the Department of Food and Resource Economics (FRE), the MAB can be completed in three semesters (fall, spring and summer). A bachelor's degree in economics or business is not required.
More Info (http://www.fred.ifas.ufl.edu/graduate/mab)

Admission Criteria: Competitive GRE or GMAT score; 3.0 upper-division GPA
Contact: Email (fregradprogram@ifas.ufl.edu)

Master of Science in Management (MSM)

Provides non–business majors with the opportunity to combine the knowledge gained from other academic disciplines with functional business applications to create a dynamic skill set that is in demand by employers.
More Info (https://warrington.ufl.edu/master-of-science-in-management)

Admission Criteria: Refer to Web site for next information session.
Contact: Email (msm@cba.ufl.edu); 352.273.0344.

Master of Public Health

This degree offers diverse career opportunities, including identifying and tracking biohazards, keeping communities safe, investigating disease outbreaks, creating community health promotion programs and measuring the impact of health policy on access to care.

More Info (http://mph.ufl.edu)

Students are admitted to one of six concentrations:

- biostatistics
- environmental health
- epidemiology
- public health management and policy
- public health practice
- social and behavioral sciences

Admission Criteria: 1000 GRE and a 3.0 GPA for last 60 hours of undergraduate coursework.
Contact: Email (shanson@phhp.ufl.edu); 352.273.6379

Combined Degrees

The Combined Degree program allows undergraduate students who qualify academically to obtain both a bachelor's and master's degree. Minimum qualifications for many programs include a 3.2 GPA and a competitive GRE score for admission to graduate school.

Combined degree programs allow students to get a head start on their graduate education by taking graduate courses throughout the junior and senior undergraduate years. In most programs, 12 credit hours of graduate work will also count toward an undergraduate degree, thus reducing the time it takes to get both degrees. Students should consult their department advisors to determine whether the department offers combined-degree programs and whether they qualify.

There are a number of financial considerations to keep in mind. Students are responsible for paying the difference between undergraduate and graduate tuitions. Florida Prepaid College Tuition Program participants will receive funding for the first 120 credit hours. The program will fund graduate courses taken toward the undergraduate degree at the undergraduate level. Financial aid may be available to assist with the graduate degree portion of the program.

Advantages

- Qualified students can obtain an undergraduate and a graduate degree in much less time than two separate degrees.
- The cost of both degrees is reduced, since at least 12 credits apply toward both degrees.
- Students have time to decide whether to pursue further graduate or professional study.
- A student's marketability is greatly enhanced; many professions now require a master's degree for entry-level positions.

Combined Degrees by College

Accounting, Fisher School of

Accounting | 3/2 MAcc/BSAc

Non-thesis only

This is an integrated, five-year, 150-hour program that leads to the joint award of a Bachelor of Science in Accounting and a Master of Accounting. Students may pursue a general accounting curriculum, or select an auditing or taxation concentration. This program is for students seeking a professional accounting career. Completion fulfills the state's requirements to take the CPA examination to practice in Florida.

Arts, College of the

BM in Music and MA in Arts in Medicine
Arts in Medicine is a diverse, multidisciplinary and rapidly expanding field dedicated to transforming health and the healthcare experience through the arts. Today, artists are working at approximately half of hospitals in the US, as well as in community programs that enhance health and wellbeing.

The Bachelor of Music and Master of Arts in Arts in Medicine Combined Program allows students to begin completing requirements towards a master's degree (MA) in Arts in Medicine while completing their undergraduate degree (BM) in music. The degree is suitable for student who wish to explore the intersections between music and health or to pursue careers that integrate the two disciplines.
Admission Criteria: Completed GRE; 3.2 GPA on all upper-division courses
Contact: Email (camadmissions@arts.ufl.edu)
Overlapping Credits: 12
More Info (https://arts.ufl.edu/academics/center-for-arts-in-medicine/programs/arts-in-medicine/ways-to-study)

BS Pre-Health and MA in Arts in Medicine
Arts in Medicine is a diverse, multidisciplinary and rapidly expanding field dedicated to transforming health and the healthcare experience through the arts. Today, artists are working at approximately half of hospitals in the US, as well as in community programs that enhance health and well being.

The Bachelor of Science and Master of Arts in Arts in Medicine Combined Program allows pre-health students (majoring in Public Health, Biology, Microbiology, Chemistry or Psychology) to begin completing requirements towards a master's degree (MA) in Arts in Medicine while completing their undergraduate degree (BS/BAS).
Admission Criteria: Completed GRE; 3.2 GPA on all upper-division courses

Business, Warrington College of

Business Administration, Major in Entrepreneurship | MSE
Through a stimulating curriculum and transformational experiential learning opportunities, this one-year, intensive program equips promising entrepreneurs with the skills and savvy to plan, launch and sustain innovative ventures on their terms.
Admission Criteria: Adequate GMAT score; 3.2 minimum GPA
Contact: 352.273.0337 | Email (MSE@warrington.ufl.edu)
Overlapping Credits: 2-10
More Info (https://warrington.ufl.edu/undergraduate-academics/combined-degrees)

Business Administration, Major in Management | MSM
This degree provides nonbusiness majors the opportunity to combine knowledge from other academic disciplines with functional business applications to create a dynamic skillset in demand by employers in business and nonbusiness industries.
Admission Criteria: Competitive GMAT or GRE score; 3.2 minimum GPA
Contact: 352.273.0344 | Email (jane.mcnulty@warrington.ufl.edu)
Overlapping Credits: 2-12
More Info (https://warrington.ufl.edu/undergraduate-academics/combined-degrees)

Finance, Master of Science | MSF
Students have the opportunity to study finance at the second-year MBA level. Courses cover nearly all areas of finance, including derivative securities, fixed income markets, equity valuation, international finance and real estate finance. With early application students can receive their undergraduate and graduate degrees in four years. The best time to apply is two years before the undergraduate degree would be received.
Admission Criteria: 465 GMAT (650+ average); 3.0 GPA (3.5+ average)
Contact: 352.392.9249 | Email (kelly.herring@warrington.ufl.edu)
Overlapping Credits: 2-12
More Info (https://warrington.ufl.edu/master-of-science-in-finance)

Information Systems | BS/MS
Non-thesis only
This program develops the computing, quantitative and applications skills vital to a business problem-solving setting.
Admission Criteria: Competitive GMAT or GRE score; 3.0 GPA
Contact: 352.846.1370 | Email (chandra.hardy@warrington.ufl.edu)
Overlapping Credits: 12-16
More Info (https://warrington.ufl.edu/undergraduate-academics/combined-degrees)

Master of International Business | MIB
This one-year degree allows UF business majors or minors to enhance their undergraduate business education with an in-depth study of global business issues and trends. The MIB program allows curriculum flexibility and incorporates practical global business components with a required one-week Global Immersion Experience course abroad and optional participation in an international exchange program.
Admission Criteria: Competitive GMAT or GRE score; 3.2 minimum GPA
Contact: 352.273.0343 | Email (mib@warrington.ufl.edu)
Overlapping Credits: 2-12
More Info (https://warrington.ufl.edu/undergraduate-academics/combined-degrees)

Real Estate, Master of Science | MSRE
Non-thesis only
The MSRE thrives on innovation, a dynamic student body and significant interaction with high-level working professionals and nationally recognized professors. The program is a unique combination of theory and practice that will enhance the student's commercial real estate education and develop professional skills. Undergraduate students from any college/major may apply. Prior coursework in accounting, business, economics, finance or statistics is preferred but not required.
Admission Criteria: 465 GMAT (600+ average); 3.0 GPA (3.4+ average). Admission is based on a number of factors, including GMAT and academic record.

Public Health and Health Professions, College of

Public Health | Any Bachelor's Degree/MPH
Qualified students with any undergraduate major can pursue a master's degree in public health. Students complete 15 credits of public health core courses as an undergraduate and then complete the remaining 33 credits after admission to graduate school. Students select a concentration in public health management and policy, social and behavioral sciences, epidemiology, biostatistics or environmental health.
Admission Criteria: Competitive GRE score; 3.2 GPA; completion of APK 2105C, BSC 2005 or BSC 2010, PSY 2012, STA 2023, advanced psychology (abnormal or developmental) and any additional prerequisites (depends on concentration).

Applying

Meet with an academic advisor to determine the most-appropriate combined-degree option. Qualified students can pursue the graduate degree outside the undergraduate major or department. Application normally occurs in the junior or senior year. If accepted, students must take the GRE the first semester of their senior year.
More Info (http://www.admissions.ufl.edu/pdf/combdegreerequest.pdf)

Financial aid is available for the graduate portion of the program. Undergraduate degree costs should be satisfied with existing financial

aid such as Bright Futures and Prepaid Tuition. Bright Futures can cover the undergraduate costs of up to 12 hours of graduate courses that apply to the undergraduate degree. Each student is responsible for the difference in tuition between the undergraduate and graduate course rates. If available, the Florida Prepaid Tuition Program can fund the first 120 hours. Graduate courses that apply toward the undergraduate degree are funded at the undergraduate rate, and the student is responsible for the difference.

FAQ

What is a combined bachelor's and master's degree program?
A combined-degree program allows students to complete a specific number of graduate-level credits (typically ranging from 12 to 21 hours of approved coursework) while enrolled as an undergraduate. Approved hours satisfy degree requirements for both degrees.

Why should I participate in a combined-degree program?
The program allows students to take graduate coursework before they make a decision to complete a graduate degree. If the student continues in a graduate program, they'll save at least one full semester of graduate enrollment.

At what point in the undergraduate program should I apply?
Students can apply as early as the second semester of their sophomore year or as late as their senior year depending upon the combined-degree program.

At what point do I enroll in graduate courses?
If approved, students can take graduate courses during their junior and senior years as specified by the particular combined-degree program.

What is required for approval?
As an undergraduate applying for entry into a combined-degree program, students must have a minimum cumulative 3.2 UF GPA (some majors require a higher GPA) and have completed all critical-tracking requirements to enroll in graduate coursework while they are completing their undergraduate degree. After students apply for admission to the Graduate School, however, they must meet the minimum cumulative GPA requirement and GRE/GMAT score the particular master program requires.

What is required so that 12 to 21 hours of graduate coursework (depending on the major) can also count toward my master's degree?
To apply the graduate credit to both degrees, students must be admitted to the Graduate School and receive a grade of B or higher in each course. A graduate coordinator can provide the admission requirements for a particular department.

If I do not continue in graduate school, can the graduate coursework I complete still be used to satisfy my undergraduate degree requirements?
Yes.

What about my financial aid?
Bright Futures and/or the Florida Prepaid Tuition Program will pay the undergraduate tuition rate for the graduate courses students take; each student will have to pay the difference between undergraduate and graduate course costs.

Why would I want to pay additional tuition to enroll in graduate courses?
If a student continues to graduate school, they will save on the tuition costs for the 12 to 21 graduate credits (depending on the major) taken while still classified as an undergraduate. Remember that graduate course costs will be partially paid by the student's undergraduate financial aid.

How do I apply?
Contact an undergraduate advisor and complete the combined degree application. Students will need the approval of the undergraduate coordinator, the graduate coordinator, and the dean's office of their undergraduate college.

What do I do if I want to create my own combined-degree program?
Students should contact the coordinator in the graduate department of the new combined-degree program.

Are there other accelerated degree programs available other than combined degrees?
Yes, there are several accelerated degree programs available.
More Info (p. 1399)

Dual Enrollment Credit

In general, you may transfer up to 60 credits from public/state colleges as part of the credits needed for your UF degree, regardless when these credits are earned, but subject to university and college degree requirements. It is the prerogative of your college to determine how transfer credit satisfies a specific degree's course requirements.

Students are required to submit to the Office of Admissions final official transcripts from all institutions attended before or during their enrollment at UF.
More Info (p. 1441)

Credit from Florida Public Colleges and State Universities

Courses from Florida public colleges and State University System schools generally adhere to the Statewide Course Numbering System. If the prefix (first three letters) and the last three digits of the course number are the same, the courses are considered equivalent.
More Info (p. 1455)

Equivalent courses will generally fulfill the same requirements (e.g., general education) that the UF course fulfills. However, whether a course fulfills the writing requirement is determined by specific criteria, not course number equivalency.
More Info (p. 1423)

Courses from Private or Out-of-State Institutions

College credit from private or out-of-state institutions earned through a dual-enrollment program may transfer to UF, but must be evaluated by your college to determine if courses completed will fulfill specific requirements.

Exam Credit

Award of Incoming Credits

- Credit will be awarded only once for the same course, whether from credit by examination, dual enrollment, transfer credit, or UF course credit.
- UF course credit takes precedence over all other forms of credit for the same course.
- Credit awarded for acceptable dual enrollment or transfer courses takes precedence over credit by examination.
- If duplicate credit exists among AICE, AP, CLEP, or IB, the exam yielding the most credit will be awarded.

Guidelines for Credit Awarded by AICE, AP, CLEP, or IB Examinations

- A maximum of 45 credit hours may be granted by combining AICE, AP, CLEP, and IB credit.
- Beginning with the 2019 Catalog year, students may be awarded a maximum of 30 credit hours for IB exams and a maximum of 30 credit hours for AICE exams.
- Students beginning in the fall or spring term must have taken the exams (AICE, AP, CLEP, and IB) and have their scores reported to the university before the end of their first term of enrollment at UF.
- Students who begin in the Summer A term must have taken the exam(s) and had their scores reported to the university before the end of their first Summer B/C term.
- Students who begin in the Summer B term must have taken the exam(s) and had their scores reported to the university before the end of their first fall term.
- If a student submits appropriate scores, UF will grant credit for the UF course(s) that most closely match the content of the exam as determined by the State of Florida. The transcript will reflect the course(s) with grades of P (for *Pass*). P grades will not be calculated into the student's GPA.
- Equivalent courses earned by examination generally fulfill the same requirements that the UF course fulfills.

Exams

AICE Exam Credit

Students completing approved AICE examinations with scores of A-E will earn UF credit.

Scores of E or higher on AICE French Language, German, Latin Language, and Spanish Language examinations fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences, the College of Journalism and Communications, and B.A. programs in the College of the Arts.

The chart specifies which UF course credit students will earn depending on their score on each exam and whether the credit earned will count for general education (p. 23) and the writing requirement (p. 1421) (6,000 words).

Beginning with the 2019 Catalog, students may be awarded a maximum of 30 credit hours for AICE exams.
