Students interested in the dual language specialization should consult with the undergraduate coordinator to determine the best course of study and to discuss practical and intellectually advantageous language pairings.

Coursework for the Major

The Dual Language specialization consists of two years of study of two languages. The 33 credits required includes 6 credits earned at the intermediate level in the second language, 18 credits of study in language, literature, and culture at the 3000 level or higher, and the 9 credit critical concentration. Students select a principal language of specialization and combine it with any of the other languages taught in the Department of Languages, Literatures, and Cultures. Course selections for the 18 credits of advanced electives will reflect the literature and culture of either language of specialization.

All coursework for the major must be completed with minimum grades of C.

Required Foundation Coursework
(not included in the 33 credits for the major)

First Language of Specialization
16-20 credits

### Required Core Coursework

33 credits

Students must complete four upper-division courses in the specialization while in residence at UF. Students should consult with their major advisor to ensure they are meeting this requirement.

### Second Language of Specialization, Intermediate Level

6-8 credits (maximum 6 credits apply to the 33 credits required for the major)

**Credits**: 3-5

**Total Credits**: 6-10

### Advanced Elective Coursework

18 credits of advanced language and culture study with at least 6 credits at the 4000 level

Specific course offerings in this section will depend on the language(s) selected, but these courses should be selected from the advanced elective offerings (3000/4000 level courses) associated with either language of specialization. Selections should include at least two courses at the 4000 level. Students should consult with the undergraduate coordinator to develop the best course of study.

### Critical Concentration

9 credits from one of the following concentrations

- Comparative Cultural Studies
- Film and Visual Culture
- Intensive Area Studies: Specific course offerings in this section will depend on the languages selected, but these courses should be selected from the advanced elective offerings (3000/4000 level courses) associated with the first and second language of specialization and their broader geographical area of cultural influence.
- Literary Studies
- Medieval and Early Modern Studies

A maximum of 15 credits non-UF overseas study credit may apply to the major. Students must have all overseas study credit that will transfer to the major approved by their major advisor.

### Overseas Study

The department recommends no more than 12-15 credits from overseas study, depending on the requirements of the language specialization and in consultation with the appropriate Undergraduate Coordinator.

### Placement

Students with previous training in their language of specialization as well as those with heritage background in that language should consult with the LLC undergraduate coordinator in order to have their level assessed before enrolling in any language course.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.
For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160501&track=01) may be used for transfer students.

**Semester 1**
- 2.0 UF GPA required

**Semester 2**
- 2.0 UF GPA required

**Semester 3**
- Complete Language A: Semester 1 or higher-level Language A course with a minimum grade of C
- 2.0 UF GPA required

**Semester 4**
- Complete Language A: Semester 2 or higher-level Language A course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**Semester 5**
- Complete Language A: Semester 3 or higher-level Language A course and Language B: Semester 1 with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**Semester 6**
- Complete Language A: Semester 4 or a higher-level Language A course
- Complete Language B: Semester 2 or a higher-level Language B course
- Complete 2 Advanced elective courses
- 2.0 UF GPA required

**Semester 7**
- Complete Language B: Semester 3 or a higher-level Language B course
- Complete Advanced elective courses at the 4000 level
- Complete 2 Critical Concentration courses
- 2.0 UF GPA required

**Semester 8**
- Complete Language B: Semester 4 or a higher-level Language B course
- Complete 2 Advanced elective courses
- Complete 1 Critical Concentration course
- 2.0 UF GPA required

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

**Student Learning Outcomes (SLOs)**

**Content**

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

**Critical Thinking**

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

**Communication**

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.

4. Display oral and written proficiency in language(s) of specialization.

**Curriculum Map**

$I = Introduced; R = Reinforced; A = Assessed$

</tr>
</tbody>
</table>

$^1$ Courses focus on the acquisition of the language(s) of specialization at the advanced level.

$^2$ Courses address literary, cultural, cinematic, historical, and/or social questions.

**Assessment Types**

- Proficiency exams
- Term papers or final projects
- Oral presentations

**French and Francophone Studies**

**Foreign Languages and Literatures**

French is considered a strategic language for global communications in matters of security, health, business, and cultural exchange. It is the key language to understanding the culture and history of the Francophone world. A specialization in French and Francophone Studies offers the linguistic, cultural, and intellectual training students need for an increasingly globalized future. In addition, the specialization forges links between the present and the past, as it encourages students to explore the exceptionally rich humanistic tradition of France and the Francophone world from the Middle Ages through the modern period.
About this Program

- **College**: Liberal Arts and Sciences (p. 978)
- **Degree**: Bachelor of Arts
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

A French and Francophone studies specialization of the Foreign Languages and Literatures major provides students with a strong command of the French language and an understanding of the cultures of the Francophone world. The specialization gives a foundation in the French Language, including speaking, reading, writing, and listening. Our emphasis on communicative approaches and linguistic and cultural competencies trains our students to compete in an increasingly globalized workforce. In addition, the major develops skills in critical thinking and research through in-
depth study of the exceptionally rich humanistic tradition of France and the Francophone world throughout history. The program allows each student the flexibility to explore a variety of disciplines within the specialization and to design an individual course of study to reflect a particular interest in linguistics, literatures, cinema, cultural production, or other fields.

The specialization offers an excellent base for diverse careers including diplomacy, international relations, journalism, translation, education, global health, banking, and business. Many of our students choose to combine the French and Francophone specialization with another field of study, including majors in physical sciences and engineering.

Coursework for the Major

The French and Francophone studies specialization in Foreign Languages and Literatures consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

FRW 4770  African and Caribbean Literatures

Critical Concentration
Select 9 credits from one of the following concentrations (although courses may appear in more than one group they may be counted toward only one group):

- Intensive Area Studies: French and Francophone Studies (recommended for those planning to pursue careers requiring advanced level skills in French or graduate work in French and Francophone studies)
- Comparative Cultural Studies
- Film and Visual Culture
- Literary Studies
- Medieval and Early Modern Studies

Total Credits 33

Overseas Studies
Students specializing in French and Francophone studies are encouraged to study abroad for a summer or a semester. Students regularly participate in UF Programs in Paris or UF-approved study-abroad programs in other regions of France or in the Francophone world. Students also can consider the opportunities offered with UF's reciprocal exchange agreements with Rennes II and Sciences Po. Students in approved overseas study programs can earn up to 15 credits beyond the 120 credits required for graduation. Refer to UF International Center information and contact a department advisor. More Info (https://internationalcenter.ufl.edu/study-abroad/)

Placement
Students with previous training should speak with the department before registering.

- Students with previous study or experience in French should enroll in FRE 1134 or use standardized French examination scores (AICE, AP, CLEP or IB) to determine their appropriate placement in a higher-level course. Such students cannot enroll in FRE 1130 or FRE 1131.
- Any student who has lived in a French-speaking country for more than a year or who is francophone must consult a department advisor before enrolling in any FRE course.

Research
Students with an upper-division GPA of 3.5 are encouraged to write a thesis for high or highest honors at graduation. Students planning to specialize in French and Francophone studies should see a department advisor before registering.

Critical Tracking
Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160901&track=01) may be used for transfer students.

SEMMESTER 1
- 2.0 UF GPA required

SEMMESTER 2
- Complete FRE 1130 or a higher-level French language course with a minimum grade of C
- 2.5 critical-tracking GPA
- 2.0 UF GPA required

SEMMESTER 3
- Complete FRE 1131 or FRE 1134 or a higher-level French language with a minimum grade of C
- 2.5 critical-tracking GPA
- 2.0 UF GPA required
SEMESTER 4
• Complete FRE 2220 or a higher-level French language course with a minimum grade of C
• 2.5 critical-tracking GPA
• 2.0 UF GPA required

SEMESTER 5
• Complete FRE 2221 with a minimum grade of C
• 2.5 critical-tracking GPA
• 2.0 UF GPA required

SEMESTER 6
• Complete FRE 3300
• Complete 1 Critical Concentration course
• Complete 1 Culture elective such as FRE 3500 or FRE 3502 or FRE 3564
• Complete 1 Literature elective: FRW 3100 or FRW 3101
• 2.0 UF GPA required

SEMESTER 7
• Complete FRE 3320
• Complete 2 Critical Concentration courses
• 2.0 UF GPA required

SEMESTER 8
• Complete 1 Linguistics elective: FRE 4501 or FRE 4780 or FRE 4850 or FRE 4822
• Complete 2 4000-level electives
• Complete FRW 4932
• 2.0 UF GPA Required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). 3000 level or above critical concentration courses outside of French may count toward the 3000 level or above electives outside of the major.

Beginning language is best started semester 1 and absolutely no later than semester 3, but study abroad or accredited intensive summer courses can be used to fall in with an ideal semester progression.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking
2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication
3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

</tr>
</tbody>
</table>

¹ Courses focus on the acquisition of the language(s) of specialization at the advanced level.
² Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types
- Proficiency exams
- Term papers or final projects
- Oral presentations

French and Francophone Studies Minor

French is considered a strategic language for global communications in matters of security, diplomacy, health, business, and cultural exchange. A minor in French and Francophone Studies enhances language skills and cultural competency and complements majors from the humanities to the sciences, engineering, business, and the arts.

About this Program
- **College**: Liberal Arts and Sciences (p. 978)
- **Credits**: 16 | Completed with minimum grades of C
- **Contact**: 301 Pugh Hall (http://campusmap.ufl.edu/?loc=0072)

Department Information
Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

### Geography

Geography is the science of place, space, and environment. Each place on earth is distinguished by a unique mix of natural resources, cultural practices, and socioeconomic and political systems. Geographers study what makes each place unique, as well as the connections and interactions between places.

### About this Program

• **College:** Liberal Arts and Sciences (p. 978)
• **Degrees:** Bachelor of Arts (p. 1214) | B.A.: Environmental Geosciences (p. 1220) | B.A.: Medical Geography in Global Health (p. 1225) | B.S.: Medical Geography in Global Health (p. 1237)
• **Credits for Degree:** 120
• **Contact:** Email (liangmao@ufl.edu)
• **More Info**

*To graduate with this major, students must complete all university, college, and major requirements.*

### Department Information

The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, B.A. and B.S. undergraduate degrees, M.A., M.S., and PhD degrees, as well as the largest Medical Geography program in the United States.

Website (https://geog.ufl.edu/)
Geography offers exciting undergraduate degrees at UF. Students learn from world-renowned faculty and award-winning mentors, and contribute to groundbreaking research, all while studying topics that have great environmental and social significance. Geography is an integrated and highly interdisciplinary field of study spanning the physical world and society. It is also a hands-on discipline, with a strong emphasis on computer-based tools and field studies.

Geographers can choose to study an enormous range of subjects, essentially anything that has a spatial component. Students who major in geography use the lens of space to examine issues as diverse as climate variability and change on the African continent, malaria outbreaks in Africa and South America, deforestation and land conflict in the Amazon, and the origin and spread of blues music in the Southeastern United States. Across the globe, geographers study tropical cyclones, river restoration, disease outbreaks, the role of parks and other protected areas, changes in land cover, forest management and fragmentation, community conservation, emerging infectious diseases, environmental influences on the elderly, and economic development.

Geography explores the relationship between human and biophysical systems and deals with some of the most critical issues of our time such as environmental hazards, climate change, sustainability of resource management systems, international development, and community and urban planning. Understanding the concept of place, including how and why places differ from each other, is a central concern. Students who have social and economic interests can enter into careers in international development, urban and regional planning, geographic information systems, and environmental consultancy. Students who combine the study of socioeconomic factors and the biophysical world can work in resource management, conservation, environmental assessment, and watershed and coastal planning.

Coursework for the Major

The geography major has five different programs: the Bachelor of Arts, the Bachelor of Science, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geological Sciences), the Bachelor of Arts in medical geography in global health, and the Bachelor of Science in medical geography in global health. Coursework for the major will depend upon the program, which are all flexible. Students must earn a minimum grade of C in all coursework for the major.

Students who are uncertain of a program should contact the Department of Geography's undergraduate coordinator for information and curriculum planning.

Required Coursework

All majors take some techniques courses, including GEO 3162C and a minimum of two additional courses that involve working with data and computers. All majors take a regional course, focusing on the countries, cultures and landscapes of one region in the world. The systematic courses include specialized courses in human or environmental/physical geography, but majors can also take additional techniques courses as part of this requirement. Students can concentrate coursework in economic geography and planning, environmental/physical geography, geospatial technologies, medical geography, or natural resource management.

Coursework for the major will depend upon the degree program. Courses for each program are listed below under Critical Tracking and Model Semester Plan.

Bachelor of Arts in Geography

Best suited for students interested in careers in urban and regional planning, business geography, medical geography, and geographic education, or for students who want a broad overview of the discipline with a focus on human geography.
Bachelor of Arts in Environmental Geosciences
A joint program between the Department of Geography and the Department of Geological Sciences and is intended for students interested in land and water aspects of the environment. The degree focuses on human impacts, water and mineral resource exploitation and management, disasters, environmental planning, earth science education, or environmental law.

Bachelor of Science in Geography
Best suited for someone who wishes to pursue a career in environmental consulting or graduate work in physical geography or related natural sciences, including atmospheric science, geosciences, hydrologic sciences, or meteorology.

Bachelor of Arts in Medical Geography in Global Health
Intended for students interested in social and cultural aspects of medical geography and global health and disease issues. The degree focuses on human impacts, cultural and social aspects of health and disease, and public health planning and management.

Bachelor of Science in Medical Geography in Global Health
Best suited for someone who wishes to pursue a career in public or animal health or disease management or graduate work in medical geography, public health or related natural sciences, including ecology, biology, or epidemiology/public health. This specialization offers the flexibility for students to prepare for admission to health professions programs.

Academic Learning Compact
A major in geography enables students to know the earth's physical environment, to learn social, cultural and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically and/or with statistics.

The Bachelor of Arts in geography enables students to learn how geographic techniques, skills and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

Before Graduating Students Must
• Complete a capstone exam in GEO 4930, as developed by geography faculty.
• Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human#environment interactions, and the techniques of geographic science.

Critical Thinking
2. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

Communication
3. Interpret and effectively communicate information spatially, graphically and/or with statistics.

The same course may **not** be used to satisfy requirements for more than one bulleted group.

Transfer coursework is considered on a case-by-case basis. Upper division transfer courses with no UF equivalent will be substituted as GEO 4938.

### Related Coursework
- STA 2023

### Critical Tracking
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

#### Semester 1
- 2.0 UF GPA required

#### Semester 2
- 2.0 UF GPA required

#### Semester 3
- Complete 1 geography course (GEA 1000 not acceptable)
- 2.0 UF GPA required

#### Semester 4
- Complete 1 additional geography course (1 of the 2 must be GEO 2200; GEA 1000 not acceptable) or complete STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

#### Semester 5
- Complete all critical-tracking courses (STA 2023 and 2 geography courses, 1 of which must be GEO 2200; GEA 1000 not acceptable) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

#### Semester 6
- Complete a GIS 3000/4000 technique course.
- 2.0 UF GPA required

#### Semester 7
- Complete 1 additional geography technique course (GEO or GIS 4000 level)
- 2.0 UF GPA required

#### Semester 8
- Complete all remaining geography (GEO, GIS, or MET) 3000/4000 required courses
- 2.0 UF GPA required
# Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

**Academic Learning Compact**

A major in geography enables students to know the earth's physical environment, to learn social, cultural and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically and/or with statistics.

The Bachelor of Arts in geography enables students to learn how geographic techniques, skills and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

**Before Graduating Students Must**

- Complete a capstone exam in GEO 4930, as developed by geography faculty.
- Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human-environment interactions, and the techniques of geographic science.

**Critical Thinking**

2. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

**Communication**

3. Interpret and effectively communicate information spatially, graphically and/or with statistics.

**Curriculum Map**

*I = Introduced; R = Reinforced; A = Assessed*

• Capstone exam
• Portfolio

BA | Environmental Geosciences

Geography is the science of place, space, and environment. Each place on earth is distinguished by a unique mix of natural resources, cultural practices, and socioeconomic and political systems. Geographers study what makes each place unique, as well as the connections and interactions between places.

About this Program
• College: Liberal Arts and Sciences (p. 978)
• Degrees: Bachelor of Arts (p. 1214) | B.A.: Environmental Geosciences (p. 1220) | Bachelor of Science (p. 1231) | B.A.: Medical Geography in Global Health (p. 1225) | B.S.: Medical Geography in Global Health (p. 1237)
• Credits for Degree: 120
• Contact: Email (liangmao@ufl.edu)
• More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, B.A. and B.S. undergraduate degrees, M.A., M.S., and PhD degrees, as well as the largest Medical Geography program in the United States.

Curriculum
• Combination Degrees
• Geography
• Geography Minor
• Geography Minor UF Online
• Geography UF Online
• Geospatial Information Analysis Certificate
• Medical Geography Certificate
• Medical Geography in Global Health Minor
• Meteorology and Climatology Certificate

Geography offers exciting undergraduate degrees at UF. Students learn from world-renowned faculty and award-winning mentors, and contribute to groundbreaking research, all while studying topics that have great environmental and social significance. Geography is an integrated and highly interdisciplinary field of study spanning the physical world and society. It is also a hands-on discipline, with a strong emphasis on computer-based tools and field studies.

Geographers can choose to study an enormous range of subjects, essentially anything that has a spatial component. Students who major in geography use the lens of space to examine issues as diverse as climate variability and change on the African continent, malaria outbreaks in Africa and South America, deforestation and land conflict in the Amazon, and the origin and spread of blues music in the Southeastern United States. Across the globe, geographers study tropical cyclones, river restoration, disease outbreaks, the role of parks and other protected areas, changes in land cover, forest management and fragmentation, community conservation, emerging infectious diseases, environmental influences on the elderly, and economic development.

Geography explores the relationship between human and biophysical systems and deals with some of the most critical issues of our time such as environmental hazards, climate change, sustainability of resource management systems, international development, and community and urban
planning. Understanding the concept of place, including how and why places differ from each other, is a central concern. Students who have social and economic interests can enter into careers in international development, urban and regional planning, geographic information systems, and environmental consultancy. Students who combine the study of socioeconomic factors and the biophysical world can work in resource management, conservation, environmental assessment, and watershed and coastal planning.

Coursework for the Major
The geography major has five different programs: the Bachelor of Arts, the Bachelor of Science, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geological Sciences), the Bachelor of Arts in medical geography in global health, and the Bachelor of Science in medical geography in global health. Coursework for the major will depend upon the program, which are all flexible. Students must earn a minimum grade of C in all coursework for the major.

Students who are uncertain of a program should contact the Department of Geography’s undergraduate coordinator for information and curriculum planning.

Required Coursework
All majors take some techniques courses, including GEO 3162C and a minimum of two additional courses that involve working with data and computers. All majors take a regional course, focusing on the countries, cultures and landscapes of one region in the world. The systematic courses include specialized courses in human or environmental/physical geography, but majors can also take additional techniques courses as part of this requirement. Students can concentrate coursework in economic geography and planning, environmental/physical geography, geospatial technologies, medical geography, or natural resource management.

Coursework for the major will depend upon the degree program. Courses for each program are listed below under Critical Tracking and Model Semester Plan.

Bachelor of Arts in Geography
Best suited for students interested in careers in urban and regional planning, business geography, medical geography, and geographic education, or for students who want a broad overview of the discipline with a focus on human geography.

Bachelor of Arts in Environmental Geosciences
A joint program between the Department of Geography and the Department of Geological Sciences and is intended for students interested in land and water aspects of the environment. The degree focuses on human impacts, water and mineral resource exploitation and management, disasters, environmental planning, earth science education, or environmental law.

Bachelor of Science in Geography
Best suited for someone who wishes to pursue a career in environmental consulting or graduate work in physical geography or related natural sciences, including atmospheric science, geosciences, hydrologic sciences, or meteorology.

Bachelor of Arts in Medical Geography in Global Health
Intended for students interested in social and cultural aspects of medical geography and global health and disease issues. The degree focuses on human impacts, cultural and social aspects of health and disease, and public health planning and management.

Bachelor of Science in Medical Geography in Global Health
Best suited for someone who wishes to pursue a career in public or animal health or disease management or graduate work in medical geography, public health or related natural sciences, including ecology, biology, or epidemiology/public health. This specialization offers the flexibility for students to prepare for admission to health professions programs.

Bachelor of Arts: Environmental Geosciences
The Bachelor of Arts in environmental geosciences requires a minimum of 35 credits of coursework, plus 3 credits of Statistics. Students must earn a minimum grade of C in all coursework for the major.

Total Credits 35-40

*The same course may not be used to satisfy requirements for more than one bulleted group.*

**Related Coursework**

- STA 2023

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

**For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

**Semester 1**

- 2.0 UF GPA required

**Semester 2**

- Complete 1 critical-tracking course with laboratory (GEO 2200/GEO 2200L or GLY 2010C) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**Semester 3**

- Complete the other critical-tracking course with laboratory (GEO 2200/GEO 2200L or GLY 2010C) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**Semester 4**

- Complete STA 2023 and maintain a 2.5 critical-tracking GPA
- 2.0 UF GPA required
## Semester 5
- Complete 2 additional GLY or GEO courses with a 2.5 critical-tracking GPA. Recommended GLY courses include GLY 2100C or GLY 3105C.
- Recommended GEO courses include GEO 3250, GEO 3280, GEO 3315, GEO 3341, GEO 3352, GEO 3372, or MET 3503.
- 2.0 UF GPA required

## Semester 6
- Complete 1 geography 3000/4000 elective course.
- 2.0 UF GPA required

## Semester 7
- Complete 1 additional geography and 1 additional geology elective courses
- 2.0 UF GPA required

## Semester 8
- Complete all remaining geography and geology 3000/4000 courses
- 2.0 UF GPA required

### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

3000 level or above Geology courses count towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Total Credits 120

Electives to reach the 120-credit minimum will vary depending on whether students select minimum or maximum credit course options.

Academic Learning Compact
A major in geography enables students to know the earth's physical environment, to learn social, cultural and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically and/or with statistics.

The Bachelor of Arts in geography enables students to learn how geographic techniques, skills and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

Before Graduating Students Must
• Complete a capstone exam in GEO 4930, as developed by geography faculty.
• Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)
Content
1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human-environment interactions, and the techniques of geographic science.

Critical Thinking
2. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

Communication
3. Interpret and effectively communicate information spatially, graphically and/or with statistics.

BA | Medical Geography in Global Health

Geography is the science of place, space, and environment. Each place on earth is distinguished by a unique mix of natural resources, cultural practices, and socioeconomic and political systems. Geographers study what makes each place unique, as well as the connections and interactions between places.

About this Program

• College: Liberal Arts and Sciences (p. 978)
• Degrees: Bachelor of Arts (p. 1214) | B.A.: Environmental Geosciences (p. 1220) | Bachelor of Science (p. 1231) | B.A.: Medical Geography in Global Health (p. 1225) | B.S.: Medical Geography in Global Health (p. 1237)
• Credits for Degree: 120
• Contact: Email (liangmao@ufl.edu)
• More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, B.A. and B.S. undergraduate degrees, M.A., M.S., and PhD degrees, as well as the largest Medical Geography program in the United States.

Curriculum

- Combination Degrees
- Geography
- Geography Minor
- Geography Minor UF Online
- Geography UF Online
- Geospatial Information Analysis Certificate
- Medical Geography Certificate
- Medical Geography in Global Health Minor
- Meteorology and Climatology Certificate

Geography offers exciting undergraduate degrees at UF. Students learn from world-renowned faculty and award-winning mentors, and contribute to groundbreaking research, all while studying topics that have great environmental and social significance. Geography is an integrated and highly interdisciplinary field of study spanning the physical world and society. It is also a hands-on discipline, with a strong emphasis on computer-based tools and field studies.

Geographers can choose to study an enormous range of subjects, essentially anything that has a spatial component. Students who major in geography use the lens of space to examine issues as diverse as climate variability and change on the African continent, malaria outbreaks in Africa and South America, deforestation and land conflict in the Amazon, and the origin and spread of blues music in the Southeastern United States. Across the globe, geographers study tropical cyclones, river restoration, disease outbreaks, the role of parks and other protected areas, changes in land cover, forest management and fragmentation, community conservation, emerging infectious diseases, environmental influences on the elderly, and economic development.

Geography explores the relationship between human and biophysical systems and deals with some of the most critical issues of our time such as environmental hazards, climate change, sustainability of resource management systems, international development, and community and urban planning. Understanding the concept of place, including how and why places differ from each other, is a central concern. Students who have social and economic interests can enter into careers in international development, urban and regional planning, geographic information systems, and environmental consultancy. Students who combine the study of socioeconomic factors and the biophysical world can work in resource management, conservation, environmental assessment, and watershed and coastal planning.

Coursework for the Major

The geography major has five different programs: the Bachelor of Arts, the Bachelor of Science, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geological Sciences), the Bachelor of Arts in medical geography in global health, and the Bachelor of Science in medical geography in global health. Coursework for the major will depend upon the program, which are all flexible. Students must earn a minimum grade of C in all coursework for the major.

Students who are uncertain of a program should contact the Department of Geography's undergraduate coordinator for information and curriculum planning.

Required Coursework

All majors take some techniques courses, including GEO 3162C and a minimum of two additional courses that involve working with data and computers. All majors take a regional course, focusing on the countries, cultures and landscapes of one region in the world. The systematic courses include specialized courses in human or environmental/physical geography, but majors can also take additional techniques courses as part of this requirement. Students can concentrate coursework in economic geography and planning, environmental/physical geography, geospatial technologies, medical geography, or natural resource management.

Coursework for the major will depend upon the degree program. Courses for each program are listed below under Critical Tracking and Model Semester Plan.

Bachelor of Arts in Geography
Best suited for students interested in careers in urban and regional planning, business geography, medical geography, and geographic education, or for students who want a broad overview of the discipline with a focus on human geography.

Bachelor of Arts in Environmental Geosciences
A joint program between the Department of Geography and the Department of Geological Sciences and is intended for students interested in land and water aspects of the environment. The degree focuses on human impacts, water and mineral resource exploitation and management, disasters, environmental planning, earth science education, or environmental law.

Bachelor of Science in Geography
Best suited for someone who wishes to pursue a career in environmental consulting or graduate work in physical geography or related natural sciences, including atmospheric science, geosciences, hydrologic sciences, or meteorology.
Bachelor of Arts in Medical Geography in Global Health
Intended for students interested in social and cultural aspects of medical geography and global health and disease issues. The degree focuses on human impacts, cultural and social aspects of health and disease, and public health planning and management.

Bachelor of Science in Medical Geography in Global Health
Best suited for someone who wishes to pursue a career in public or animal health or disease management or graduate work in medical geography, public health or related natural sciences, including ecology, biology, or epidemiology/public health. This specialization offers the flexibility for students to prepare for admission to health professions programs.

Bachelor of Arts: Medical Geography in Global Health
The Bachelor of Arts in medical geography in global health requires a minimum of 33 credits of coursework, plus 3 credits of Statistics. Students must earn a minimum grade of C in all coursework for the major.

Total Credits 33-37

The same course may not be used to satisfy requirements for more than one bulleted group.

Transfer coursework is considered on a case-by-case basis. Upper division transfer courses with no UF equivalent will be substituted as GEO 4938.

Related Coursework
- STA 2023

Critical Tracking
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

Semester 1
- 2.0 UF GPA required

Semester 2
- 2.0 UF GPA required

Semester 3
- Complete 1 geography course (GEA 1000 not acceptable)
- 2.0 UF GPA required

Semester 4
- Complete 1 additional geography course (1 of the 2 must be GEO 2200; GEA 1000 not acceptable) or complete STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5
- Complete all critical-tracking courses (STA 2023 and 2 geography courses, 1 of which must be GEO 2200; GEA 1000 not acceptable) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required
### Semester 6
- Complete 1 geography technique course.
- 2.0 UF GPA required

### Semester 7
- Complete 1 geography elective course
- 2.0 UF GPA required

### Semester 8
- Complete all remaining geography (GEO, GIS, or MET) 3000/4000 required courses
- 2.0 UF GPA required

---

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

Required Coursework

All majors take some techniques courses, including GEO 3162C and a minimum of two additional courses that involve working with data and computers. All majors take a regional course, focusing on the countries, cultures and landscapes of one region in the world. The systematic courses include specialized courses in human or environmental/physical geography, but majors can also take additional techniques courses as part of this requirement. Students can concentrate coursework in economic geography and planning, environmental/physical geography, geospatial technologies, medical geography, or natural resource management.

Coursework for the major will depend upon the degree program. Courses for each program are listed below under Critical Tracking and Model Semester Plan.

**Bachelor of Arts in Geography**
Best suited for students interested in careers in urban and regional planning, business geography, medical geography, and geographic education, or for students who want a broad overview of the discipline with a focus on human geography.

**Bachelor of Arts in Environmental Geosciences**
A joint program between the Department of Geography and the Department of Geological Sciences and is intended for students interested in land and water aspects of the environment. The degree focuses on human impacts, water and mineral resource exploitation and management, disasters, environmental planning, earth science education, or environmental law.

**Bachelor of Science in Geography**
Best suited for someone who wishes to pursue a career in environmental consulting or graduate work in physical geography or related natural sciences, including atmospheric science, geosciences, hydrologic sciences, or meteorology.

**Bachelor of Arts in Medical Geography in Global Health**
Intended for students interested in social and cultural aspects of medical geography and global health and disease issues. The degree focuses on human impacts, cultural and social aspects of health and disease, and public health planning and management.
Bachelor of Science in Medical Geography in Global Health
Best suited for someone who wishes to pursue a career in public or animal health or disease management or graduate work in medical geography, public health or related natural sciences, including ecology, biology, or epidemiology/public health. This specialization offers the flexibility for students to prepare for admission to health professions programs.

Bachelor of Science in Geography
The Bachelor of Science in geography requires 30-32 credits of geography coursework and 24-25 credits of related coursework in physics, chemistry, geology, and soil science. Students must earn a minimum grade of C in all coursework for the major.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

#### Semester 1
- 2.0 UF GPA required

#### Semester 2
- 2.0 UF GPA required

#### Semester 3
- Complete 1 geography course (GEA 1000 not acceptable)
- 2.0 UF GPA required

#### Semester 4
- Complete 1 additional geography course (1 of the 2 must be GEO 2200; GEA 1000 not acceptable) or complete STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

#### Semester 5
- Complete all critical-tracking courses (STA 2023 and 2 geography courses, 1 of which must be GEO 2200; GEA 1000 not acceptable) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

#### Semester 6
- Complete a GIS 3000/4000 technique course.
- 2.0 UF GPA required

#### Semester 7
- Complete 1 geography (GEO, GIS, or MET) 3000/4000 systematic course
- 2.0 UF GPA required
### Semester 8

- Complete all remaining geography (GEO or GIS) 3000/4000 courses
- 2.0 UF GPA required

### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

Academic Learning Compact

A major in geography enables students to know the earth's physical environment, to learn social, cultural and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically and/or with statistics.

The Bachelor of Arts in geography enables students to learn how geographic techniques, skills and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

Before Graduating Students Must

- Complete a capstone exam in GEO 4930, as developed by geography faculty.
- Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human-environment interactions, and the techniques of geographic science.

Critical Thinking
2. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

Communication
3. Interpret and effectively communicate information spatially, graphically and/or with statistics.

Electives to reach the 120-credit minimum will vary depending on whether students select minimum or maximum credit course options.
### Assessment Types
- Capstone exam
- Portfolio

### BS | Medical Geography in Global Health

Geography is the science of place, space, and environment. Each place on earth is distinguished by a unique mix of natural resources, cultural practices, and socioeconomic and political systems. Geographers study what makes each place unique, as well as the connections and interactions between places.

### About this Program
- **College:** Liberal Arts and Sciences (p. 978)
- **Degrees:** Bachelor of Arts (p. 1214) | B.A.: Environmental Geosciences (p. 1220) | Bachelor of Science (p. 1231) | B.A.: Medical Geography in Global Health (p. 1225) | B.S.: Medical Geography in Global Health (p. 1237)
- **Credits for Degree:** 120
- **Additional Information**
- **Contact:** Email (liangmao@ufl.edu)
- **Related Geography Programs**

To graduate with this major, students must complete all university, college, and major requirements.

Geography offers exciting undergraduate degrees at UF. Students learn from world-renowned faculty and award-winning mentors, and contribute to groundbreaking research, all while studying topics that have great environmental and social significance. Geography is an integrated and highly interdisciplinary field of study spanning the physical world and society. It is also a hands-on discipline, with a strong emphasis on computer-based tools and field studies.

Geographers can choose to study an enormous range of subjects, essentially anything that has a spatial component. Students who major in geography use the lens of space to examine issues as diverse as climate variability and change on the African continent, malaria outbreaks in Africa and South America, deforestation and land conflict in the Amazon, and the origin and spread of blues music in the Southeastern United States. Across the globe, geographers study tropical cyclones, river restoration, disease outbreaks, the role of parks and other protected areas, changes in land cover, forest management and fragmentation, community conservation, emerging infectious diseases, environmental influences on the elderly, and economic development.

Geography explores the relationship between human and biophysical systems and deals with some of the most critical issues of our time such as environmental hazards, climate change, sustainability of resource management systems, international development, and community and urban planning. Understanding the concept of place, including how and why places differ from each other, is a central concern. Students who have social and economic interests can enter into careers in international development, urban and regional planning, geographic information systems, and environmental consultancy. Students who combine the study of socioeconomic factors and the biophysical world can work in resource management, conservation, environmental assessment, and watershed and coastal planning.

### Coursework for the Major

The geography major has five different programs: the Bachelor of Arts, the Bachelor of Science, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geological Sciences), the Bachelor of Arts in medical geography in global health, and the Bachelor of Science in medical geography in global health. Coursework for the major will depend upon the program, which are all flexible. Students must earn a minimum grade of C in all coursework for the major.
Students who are uncertain of a program should contact the Department of Geography's undergraduate coordinator for information and curriculum planning.

**Required Coursework**

All majors take some techniques courses, including GEO 3162C and a minimum of two additional courses that involve working with data and computers. All majors take a regional course, focusing on the countries, cultures and landscapes of one region in the world. The systematic courses include specialized courses in human or environmental/physical geography, but majors can also take additional techniques courses as part of this requirement. Students can concentrate coursework in economic geography and planning, environmental/physical geography, geospatial technologies, medical geography, or natural resource management.

Coursework for the major will depend upon the degree program. Courses for each program are listed below under Critical Tracking and Model Semester Plan.

**Bachelor of Arts in Geography**

Best suited for students interested in careers in urban and regional planning, business geography, medical geography, and geographic education, or for students who want a broad overview of the discipline with a focus on human geography.

**Bachelor of Arts in Environmental Geosciences**

A joint program between the Department of Geography and the Department of Geological Sciences and is intended for students interested in land and water aspects of the environment. The degree focuses on human impacts, water and mineral resource exploitation and management, disasters, environmental planning, earth science education, or environmental law.

**Bachelor of Science in Geospatial Technologies**

Best suited for someone who wishes to pursue a career in environmental consulting or graduate work in physical geography or related natural sciences, including atmospheric science, geosciences, hydrologic sciences, or meteorology.

**Bachelor of Arts in Medical Geography in Global Health**

Intended for students interested in social and cultural aspects of medical geography and global health and disease issues. The degree focuses on human impacts, cultural and social aspects of health and disease, and public health planning and management.

**Bachelor of Science in Medical Geography in Global Health**

Best suited for someone who wishes to pursue a career in public or animal health or disease management or graduate work in medical geography, public health or related natural sciences, including ecology, biology, or epidemiology/public health. This specialization offers the flexibility for students to prepare for admission to health professions programs.

---

**Bachelor of Science: Medical Geography in Global Health**

The Bachelor of Science in medical geography in global health requires a minimum of 34 credits of geography coursework and 19 credits of related coursework in biology, chemistry, and statistics. Students must earn a minimum grade of C in all coursework for the major.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

Semester 1
- 2.0 UF GPA required

Semester 2
- 2.0 UF GPA required

Semester 3
- Complete 1 geography course (GEA 1000 not acceptable)
- 2.0 UF GPA required

Semester 4
- Complete 1 additional geography course (1 of the 2 must be GEO 2200; GEA 1000 not acceptable) or complete STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5
- Complete all critical-tracking courses (STA 2023 and 2 geography courses, 1 of which must be GEO 2200; GEA 1000 not acceptable) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6
- Complete 1 medical geography core course and 1 geography technique course.
- 2.0 UF GPA required

Semester 7
- Complete 1 additional geography technique course and 1 geography elective course
- 2.0 UF GPA required

Semester 8
- Complete all remaining geography (GEO, GIS, or MET) 3000/4000 required courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

1. PSY 2012 or SYG 2000 recommended.
2. The following are recommended:
   • ENC 3459
   • ENC 3254
   • ENC 3453
   • ENC 3464
3. GEO 3452 or GEO 3454 recommended.

Electives to reach the 120-credit minimum will vary depending on whether students select minimum or maximum credit course options.

**Academic Learning Compact**

A major in geography enables students to know the earth’s physical environment, to learn social, cultural and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically and/or with statistics.

The Bachelor of Arts in geography enables students to learn how geographic techniques, skills and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

**Before Graduating Students Must**

- Complete a capstone exam in GEO 4930, as developed by geography faculty.
- Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human-environment interactions, and the techniques of geographic science.

**Critical Thinking**

2. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

**Communication**

3. Interpret and effectively communicate information spatially, graphically and/or with statistics.

Bachelor of Arts
Geography is the science of place, space, and environment. Each place on earth is distinguished by a unique mix of natural resources, cultural practices, and socio-economic and political systems. Geographers study what makes each place unique, as well as the connections and interactions between places.

About this Program
- **College:** Liberal Arts and Sciences (p. 978)
- **Degrees:** Bachelor of Arts (p. 1243) | B.A.: Environmental Geosciences (p. 1252)

Curriculum
- **Combination Degrees**
- **Geography**
- **Geography Minor**
- **Geography Minor UF Online**
- **Geography UF Online**
- **Geospatial Information Analysis Certificate**
- **Medical Geography Certificate**
- **Medical Geography in Global Health Minor**
- **Meteorology and Climatology Certificate**

Geography offers exciting undergraduate degrees at UF. Students learn from world-renowned faculty and award-winning mentors, and contribute to groundbreaking research, all while studying topics that have great environmental and social significance. Geography is an integrated and highly interdisciplinary field of study spanning the physical world and society. It is also a hands-on discipline, with a strong emphasis on computer-based tools and field studies.

Geographers can choose to study an enormous range of subjects, essentially anything that has a spatial component. Students who major in geography use the lens of space to examine issues as diverse as climate variability and change on the African continent, malaria outbreaks in Africa and South America, deforestation and land conflict in the Amazon, and the origin and spread of blues music in the Southeastern United States. Across the globe, geographers study tropical cyclones, river restoration, disease outbreaks, the role of parks and other protected areas, changes in land cover, forest management and fragmentation, community conservation, emerging infectious diseases, environmental influences on the elderly, and economic development.

Geography explores the relationship between human and biophysical systems and deals with some of the most critical issues of our time such as environmental hazards, climate change, sustainability of resource management systems, international development, and community and urban planning. Understanding the concept of place, including how and why places differ from each other, is a central concern. Students who have social
and economic interests can enter into careers in international development, urban and regional planning, geographic information systems, and environmental consultancy. Students who combine the study of socioeconomic factors and the biophysical world can work in resource management, conservation, environmental assessment, and watershed and coastal planning.

## Coursework for the Major

The Bachelor of Arts degree requires 33-35 credits of coursework in geography, plus 3 credits of STA 2023. Students must earn a minimum grade of C in all coursework for the major.

¹ Upper division transfer courses with no UF equivalent will be substituted as GEO 4938.

Transfer coursework is considered on a case-by-case basis.

*The same course may not be used to satisfy requirements for more than one bulleted group.*

## Related Geography Programs

- Bachelor of Science or Bachelor of Arts in Geography (p. 1211)
- Geography minor (p. 1257)
- Geography minor, UF Online (p. 1258)
- Geospatial Information Analysis certificate (p. 1284)
- Medical Geography certificate (p. 1399)
- Meteorology and Climatology certificate (p. 1401)
Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete 1 geography course
- 2.0 UF GPA required

Semester 4

- Complete 1 additional geography course (1 of the 2 must be GEO 2200) or complete STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses (STA 2023 and 2 geography courses, 1 of which must be GEO 2200) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6

- Complete 1 GIS 3000/4000 technique course
- 2.0 UF GPA required

Semester 7

- Complete 1 additional geography technique course (GEO or GIS 4000 level)
- 2.0 UF GPA required

Semester 8

- Complete all remaining geography (GEO, GIS, or MET) 3000/4000 required courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

**Related Coursework**

STA 2023 | Introduction to Statistics 1                          | 3       |

Total Credits 36-38

1. Upper division transfer courses with no UF equivalent will be substituted as GEO 4938.

Transfer coursework is considered on a case-by-case basis.

The same course may not be used to satisfy requirements for more than one bulleted group.

**Related Geography Programs**

- Bachelor of Science or Bachelor of Arts in Geography (p. 1211)
- Geography minor (p. 1257)
- Geography minor, UF Online (p. 1258)
- Geospatial Information Analysis certificate (p. 1284)
- Medical Geography certificate (p. 1399)
- Meteorology and Climatology certificate (p. 1401)

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.
Semester 1
• 2.0 UF GPA required

Semester 2
• 2.0 UF GPA required

Semester 3
• Complete 1 geography course
• 2.0 UF GPA required

Semester 4
• Complete 1 additional geography course (1 of the 2 must be GEO 2200) or complete STA 2023 with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 5
• Complete all critical-tracking courses (STA 2023 and 2 geography courses, 1 of which must be GEO 2200) with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 6
• Complete 1 GIS 3000/4000 technique course
• 2.0 UF GPA required

Semester 7
• Complete 1 additional geography technique course (GEO or GIS 4000 level)
• 2.0 UF GPA required

Semester 8
• Complete all remaining geography (GEO, GIS, or MET) 3000/4000 required courses
• 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Electives to reach the 120-credit minimum will vary depending on whether students select minimum or maximum credit course options.

**Academic Learning Compact**

A major in geography enables students to know the earth's physical environment, to learn social, cultural and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically and/or with statistics.
The Bachelor of Arts in geography enables students to learn how geographic techniques, skills and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

Before Graduating Students Must

- Complete a capstone exam in GEO 4930, as developed by geography faculty.
- Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human-environment interactions, and the techniques of geographic science.

Critical Thinking

2. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

Communication

3. Interpret and effectively communicate information spatially, graphically and/or with statistics.

Environmental Geosciences

Environmental Geosciences is an interdisciplinary curriculum integrating physical, chemical and biological aspects of the environment and environmental systems. There remains a huge demand for scientists with quantitative, interdisciplinary training in environmental geosciences to address, mitigate, and manage a multitude of complex environmental problems facing society.

About this Program

The Bachelor of Arts in environmental geosciences is a joint program between the Department of Geography and the Department of Geological Sciences and is intended for students interested in land and water aspects of the environment. The degree focuses on human impacts, water and mineral resource exploitation and management, disasters, environmental planning, earth science education, or environmental law. Potential careers include natural resource management, environment protection, USGS, NGOs, etc.

**Coursework**

The Bachelor of Arts in environmental geosciences requires a minimum of 37 credits of coursework, including STA 2023 Students must earn a minimum grade of C in all coursework for the major.

**Critical Tracking**  
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.  

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.  

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.  

**Semester 1**  
- 2.0 UF GPA required  

**Semester 2**  
- Complete 1 critical-tracking course with laboratory (GEO 2200/GEO 2200L or GLY 2010C) with a 2.5 critical-tracking GPA  
- 2.0 UF GPA required  

**Semester 3**  
- Complete the other critical-tracking course with laboratory (GEO 2200/GEO 2200L or GLY 2010C) with a 2.5 critical-tracking GPA  
- 2.0 UF GPA required  

**Semester 4**  
- Complete STA 2023 and maintain a 2.5 critical-tracking GPA  
- 2.0 UF GPA required
Semester 5
• Complete 2 additional GLY or GEO courses with a 2.5 critical-tracking GPA. Recommended GLY courses include GLY 2100C or GLY 3105C. Recommended GEO courses include GEO 3250, GEO 3280, GEO 3315, GEO 3341, GEO 3352, GEO 3372, or MET 3503.
• 2.0 UF GPA required

Semester 6
• Complete 1 geography 3000/4000 elective course.
• 2.0 UF GPA required

Semester 7
• Complete 1 additional geography and 1 additional geology elective courses
• 2.0 UF GPA required

Semester 8
• Complete all remaining geography and geology 3000/4000 courses
• 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

3000 level or above Geology courses count towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact
The Bachelor of Arts in geology provides knowledge of the basic concepts related to earth materials and processes, and how to collect and organize geological data in the field. Through laboratory and field-based exercises, students will learn how to interpret geologic maps and cross sections, and to understand the application of the scientific method to solve these problems in teams and individually.

Before Graduating Students Must
• Pass GLY 4155C according to the department grading rubric.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to
Student Learning Outcomes (SLOs)
Content
1. Identify, describe and define the basic concepts related to earth materials and processes.
2. Collect data in the field.
3. Organize geologic, temporal and spatial data.

Critical Thinking
1. Interpret geologic maps and cross sections.
2. Interpret results using the scientific method.

Communication
1. Produce a clearly and effectively written synthesis of data collected in the field.
2. Work in teams to solve geologic problems and to present the results of such collaboration effectively.

Geography Minor

Geography is the science of place, space, and environment. It is an interdisciplinary field investigating topics of environmental and social significance through data collection, use of computer-based tools, and field studies. A Geography minor complements majors in agricultural sciences, business, environmental sciences, geology, health sciences, international studies, journalism, social sciences, and travel and tourism.

About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Credits:** 15 | Completed with minimum grades of C

Department Information

The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, B.A. and B.S. undergraduate degrees, M.A., M.S., and PhD degrees, as well as the largest Medical Geography program in the United States.

Geography Minor UF Online

Geography is the science of place, space, and environment. It is an interdisciplinary field investigating topics of environmental and social significance through data collection, use of computer-based tools, and field studies. A Geography minor complements majors in agricultural sciences, business, environmental sciences, geology, health sciences, international studies, journalism, social sciences, and travel and tourism.

About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Credits:** 15 | Completed with minimum grades of C
- **Contact:** 1.855.99GATOR
- **More Info**

Department Information

The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, B.A. and B.S. undergraduate degrees, M.A., M.S., and PhD degrees, as well as the largest Medical Geography program in the United States.

Curriculum

- Combination Degrees
- Geography
- Geography Minor
- Geography Minor UF Online
- Geography UF Online
- Geospatial Information Analysis Certificate
- Medical Geography Certificate
- Medical Geography in Global Health Minor
- Meteorology and Climatology Certificate

Students pursuing the Bachelor of Arts in geology with a specialization in environmental geosciences are not eligible for this minor.

No more than six transfer credits may count toward the minor. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major or other minors.

### Geological Sciences Certificate

The Geological Sciences certificate offers coursework relevant to environmental policy and law, resource economics, teaching, regional planning, building construction, and related fields. The certificate program includes courses required to take the professional geologist licensure exam.

#### About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Credits:** 16-17 | Completed with minimum grades of C
- **Contact:** Email (jmeert@ufl.edu) | 352.846.2414

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

#### Department Information

The Department of Geological Sciences aims to provide a comprehensive understanding of Earth and Planetary sciences along with their formative and evolutionary processes. We train students to excel in the geoscience workforce and create sustainable solutions to societal needs.

Geology

A Geology degree provides an understanding of issues associated with the physical earth and skills which are in demand in today’s job market. The Geology graduate will have a detailed understanding of climate change, sustainability of the Earth’s resources, and the close interplay between human activity and the environment.

About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Degrees:** Bachelor of Arts (p. 1262) | B.A.: Environmental Geosciences (p. 1273) | Bachelor of Science (p. 1267)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Curriculum

- Combination Degrees
- Geological Sciences Certificate
- Geology
- Geology Minor
- Geology UF Online

Techniques such as environmental assessment, geological hazard assessment, field-based techniques, and geographic information systems (GIS) are used to evaluate the impact of humans on the physical earth and hydrologic environment. The practical and flexible curriculum, small class sizes, computer-based learning, strong faculty, and coursework in several areas of general education make this major appealing to students who want skills linked to employment or preparation for entry to professional schools (e.g., law, medicine, business).

Geology majors learn about the Earth’s physical environment including climate, non-renewable geological resources, renewable geological resources, geological hazards and remediation as well as basic skills required by geologists. These skills and the geological perspective open doors to employment in government agencies and private firms that deal with water management, mining and petroleum exploration, climate change, the environment, and education.

Coursework for the Major

The geology major has three different specializations: the Bachelor of Arts, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geography), and the Bachelor of Science. Students who are uncertain which program best suits them should consult the Department of Geology's undergraduate coordinator for information and guidance on curriculum planning.

Bachelor of Arts

This degree is the most flexible degree, and best suited for students interested in careers in education or environmental policy making. The degree also allows students flexibility to pursue advanced degrees in environmental law or environmental medicine.

Bachelor of Arts | Environmental Geosciences

Co-offered by the Department of Geography, this specialization is designed for students interested in land and water aspects of the environment. It can be tailored to focus on water and mineral exploration and management, geological hazards, environmental planning, resource sustainability, or earth science education.
Bachelor of Science
This degree is designed for students planning to take the professional geology (PG) licensure exam and/or to continue on to graduate study in geology. It emphasizes a core understanding of petrology, structural geology, field methodology and paleontology, and it requires significant introductory coursework in calculus, general chemistry, and physics.

Relevant Minors and/or Certificates
UFTeach Program
There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see the undergraduate coordinator about the UFTeach program. UFTeach students can complete the UFTeach minor in science teaching along with their B.A. or B.S in geology and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (http://education.ufl.edu/uf-teach/)

Research
Students in geology who wish to graduate with high or highest honors will be required to conduct an independent research project under the direction of a faculty member. Students are also afforded the opportunity to conduct research within the department’s laboratories regardless of their honors status.

Academic Learning Compact

Bachelor of Arts
The Bachelor of Arts in geology provides knowledge of the basic concepts related to earth materials and processes, and how to collect and organize geological data in the field. Through laboratory and field-based exercises, students will learn how to interpret geologic maps and cross sections, and to understand the application of the scientific method to solve these problems in teams and individually.

Before Graduating Students Must
• Pass GLY 4155C Geology of Florida according to the department grading rubric.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)
Content
1. Identify, describe and define the basic concepts related to earth materials and processes.
2. Collect data in the field.
3. Organize geologic, temporal and spatial data.

Critical Thinking
4. Interpret geologic maps and cross sections.
5. Interpret results using the scientific method.

Communication
6. Produce a clearly and effectively written synthesis of data collected in the field.
7. Work in teams to solve geologic problems and to present the results of such collaboration effectively.

Bachelor of Science
The Bachelor of Science in geology provides knowledge of the basic concepts, theories, observational findings related to earth materials and processes, minerals and rocks, geologic time, stratigraphy and landforms. Through laboratory and field-based exercises, students will learn how to analyze data in the published literature, synthesize analog and digital datasets to produce geological maps, and understand the application of the scientific method to solve geological problems in teams and individually.

Before Graduating Students Must
• Pass GLY 4790 Summer Field Camp according to the department grading rubric.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)
Content
1. Identify, describe and define the basic concepts related to earth materials and processes.
2. Identify and describe minerals and rocks.
3. Define geologic time, stratigraphy and landforms.

Critical Thinking
4. Analyze data in the published literature.
5. Synthesize analog and digital datasets to produce geologic maps.
6. Apply the scientific method to the analysis of published and self-generated data.

Communication
7. Use computers for the presentation of geologic maps and data.
8. Solve geologic problems in teams and present the result of such collaboration effectively.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400601&track=1/2) may be used for transfer students.

Semester 1
- 2.0 UF GPA required

Semester 2
- 2.0 UF GPA required

Semester 3
- Complete one General Education Mathematics course
- Complete 1 of 3 critical-tracking courses with a 2.5 critical-tracking GPA. Choose one from a general introductory course (GLY 2010C, GLY 2030C, or any 1000-2000 level GLY, OCE or ESC course), a historical geology course (GLY 3105C or GLY 2100C), or a 3000-level geology course.

GLY 2010C or GLY 2030C is recommended as one of these is prerequisite to many upper-level courses.
- 2.0 UF GPA required

Semester 4
- Complete one additional critical-tracking course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required
Semester 5
• Complete all tracking courses with a 2.5 critical-tracking GPA; one general introductory course (GLY 2010C, GLY 2030C, or any 1000-2000 level GLY, OCE, or ESC course), one historical geology course (GLY 3105C or GLY 2100C), and one 3000-level geology course.
• 2.0 UF GPA required

Semester 6
• Complete 1 GLY elective 3000 level or above (3-4 credits)
• 2.0 UF GPA required

Semester 7
• Complete 2 additional GLY electives 3000 level and above (6-8 credits)
• 2.0 UF GPA required

Semester 8
• Complete any remaining GLY electives 3000 level and above
• Complete GLY 4155C (Capstone) Geology of Florida
• 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically GE-C, H, or S). One of the two general education mathematics courses must be a pure math course.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

*I = Introduced; R = Reinforced; A = Assessed*
Bachelor of Science

The Bachelor of Science in geology provides knowledge of the basic concepts, theories, observational findings related to earth materials and processes, minerals and rocks, geologic time, stratigraphy and landforms. Through laboratory and field-based exercises, students will learn how to analyze data in the published literature, synthesize analog and digital datasets to produce geological maps, and understand the application of the scientific method to solve geological problems in teams and individually.

Before Graduating Students Must

- Pass GLY 4790 Summer Field Camp according to the department grading rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe and define the basic concepts related to earth materials and processes.
2. Identify and describe minerals and rocks.
3. Define geologic time, stratigraphy and landforms.

Critical Thinking
4. Analyze data in the published literature.
5. Synthesize analog and digital datasets to produce geologic maps.
6. Apply the scientific method to the analysis of published and self-generated data.

Communication
7. Use computers for the presentation of geologic maps and data.
8. Solve geologic problems in teams and present the result of such collaboration effectively.

Bachelor of Science

A Geology degree provides an understanding of issues associated with the physical earth and skills which are in demand in today’s job market. The Geology graduate will have a detailed understanding of climate change, sustainability of the Earth’s resources, and the close interplay between human activity and the environment.
About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Degrees:** Bachelor of Arts (p. 1262) | B.A.: Environmental Geosciences (p. 1273) | Bachelor of Science (p. 1267)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Geological Sciences aims to provide a comprehensive understanding of Earth and Planetary sciences along with their formative and evolutionary processes. We train students to excel in the geoscience workforce and create sustainable solutions to societal needs.

Curriculum

- Combination Degrees
- Geological Sciences Certificate
- Geology
- Geology Minor
- Geology UF Online

Techniques such as environmental assessment, geological hazard assessment, field-based techniques, and geographic information systems (GIS) are used to evaluate the impact of humans on the physical earth and hydrologic environment. The practical and flexible curriculum, small class sizes, computer-based learning, strong faculty, and coursework in several areas of general education make this major appealing to students who want skills linked to employment or preparation for entry to professional schools (e.g., law, medicine, business).

Geology majors learn about the Earth's physical environment including climate, non-renewable geological resources, renewable geological resources, geological hazards and remediation as well as basic skills required by geologists. These skills and the geological perspective open doors to employment in government agencies and private firms that deal with water management, mining and petroleum exploration, climate change, the environment, and education.

Coursework for the Major

The geology major has three different specializations: the Bachelor of Arts, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geography), and the Bachelor of Science. Students who are uncertain which program best suits them should consult the Department of Geology's undergraduate coordinator for information and guidance on curriculum planning.

**Bachelor of Arts**

This degree is the most flexible degree, and best suited for students interested in careers in education or environmental policy making. The degree also allows students flexibility to pursue advanced degrees in environmental law or environmental medicine.

**Bachelor of Arts | Environmental Geosciences**

Co-offered by the Department of Geography, this specialization is designed for students interested in land and water aspects of the environment. It can be tailored to focus on water and mineral exploration and management, geological hazards, environmental planning, resource sustainability, or earth science education.

**Bachelor of Science**

This degree is designed for students planning to take the professional geology (PG) licensure exam and/or to continue on to graduate study in geology. It emphasizes a core understanding of petrology, structural geology, field methodology and paleontology, and it requires significant introductory coursework in calculus, general chemistry, and physics.
Relevant Minors and/or Certificates

UFTeach Program

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see the undergraduate coordinator about the UFTeach program. UFTeach students can complete the UFTeach minor in science teaching along with their B.A. or B.S in geology and have the coursework and preparation for professional teacher certification in Florida when they graduate.

More Info (http://education.ufl.edu/uf-teach/)

Research

Students in geology who wish to graduate with high or highest honors will be required to conduct an independent research project under the direction of a faculty member. Students are also afforded the opportunity to conduct research within the department's laboratories regardless of their honors status.

Bachelor of Science

The professional degree is for students who want to pursue graduate school and careers in geosciences and/or environmental science. The major is extremely flexible and allows specialization in a number of subdisciplines (geochemistry, geophysics, geobiology, and hydrogeology).

The major requires 39-40 credits of geology coursework. Students must earn minimum grades of C for coursework to count toward the major.

Specific courses selected from among the alternatives listed above will depend upon the student’s primary interest.

Students interested in graduate school are urged to take a year of chemistry, calculus and physics. Students should contact a departmental advisor as early as possible.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400601&track=01) may be used for transfer students.

#### Semester 1
- 2.0 UF GPA required

#### Semester 2
- 2.0 UF GPA required

#### Semester 3
- Complete one general introductory course (GLY 2010C Physical Geology, GLY 2030C Environmental and Engineering Geology, or any 1000-2000 level GLY, OCE, or ESC course).
  - GLY 2010C is recommended as it is a prerequisite for many upper-level courses.
- 2.0 UF GPA required

#### Semester 4
- Complete historical geology course (GLY 2100C or GLY 3105C) or GLY 3000-level geology course.
- Complete one related coursework requirement (CHM 2045/CHM 2045L, MAC 2311, or PHY 2004/PHY 2048/PHY 2053 and associated lab)
- 2.0 UF GPA required

#### Semester 5
- Complete one 3000-level geology course (or historical geology course if not taken in semester 4)
- Complete one additional related coursework requirement (CHM 2045/CHM 2045L, MAC 2311, or PHY 2004/PHY 2048/PHY 2053 and associated lab)
- 2.0 UF GPA required

#### Semester 6
- Complete GLY 4310C or GLY 4400C
- 2.0 UF GPA required
Semester 7
- Complete GLY 4750L and GLY 4552C
- 2.0 UF GPA required

Semester 8
- Complete any remaining GLY required courses and electives required for GLY 4790 (Capstone)

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically GE-C, H, or S). MAC 2312, MAC 2313, PHY 2049, PHY 2049L, PHY 2054, and PHY 2054L may count towards 3000 level or above electives outside of the major if taken.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

**Academic Learning Compact**

**Bachelor of Arts**

The Bachelor of Arts in geology provides knowledge of the basic concepts related to earth materials and processes, and how to collect and organize geological data in the field. Through laboratory and field-based exercises, students will learn how to interpret geologic maps and cross sections, and to understand the application of the scientific method to solve these problems in teams and individually.

**Before Graduating Students Must**

- Pass GLY 4155C Geology of Florida according to the department grading rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Identify, describe and define the basic concepts related to earth materials and processes.
2. Collect data in the field.
3. Organize geologic, temporal and spatial data.

**Critical Thinking**

4. Interpret geologic maps and cross sections.
5. Interpret results using the scientific method.

**Communication**

6. Produce a clearly and effectively written synthesis of data collected in the field.
7. Work in teams to solve geologic problems and to present the results of such collaboration effectively.

**Curriculum Map**

*I = Introduced; R = Reinforced; A = Assessed*

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.
Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

**Semester 1**
- 2.0 UF GPA required

**Semester 2**
- Complete one critical-tracking course with laboratory (GEO 2200/GEO 2200L or GLY 2010C) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**Semester 3**
- Complete the other critical-tracking course with laboratory (GEO 2200/GEO 2200L or GLY 2010C) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**Semester 4**
- Complete STA 2023 and maintain a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**Semester 5**
- Complete 2 additional GLY or GEO courses with a 2.5 critical-tracking GPA. (GLY 2100C or GLY 3105C recommended)
- 2.0 UF GPA required

**Semester 6**
- Complete GLY 3202C
- 2.0 UF GPA required

**Semester 7**
- Complete GEO level 3000 or above elective (3-4 credits)
- Complete GLY level 3000 or above elective (3-4 credits)
- 2.0 UF GPA required

**Semester 8**
- Complete GLY 4155C (Capstone)
- Complete any remaining GEO and GLY level 3000 or above electives
- 2.0 UF GPA required

---

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically GE-C, H, or S). 3000 level or above Geography courses may count towards 3000 level electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

### Academic Learning Compact

#### Bachelor of Arts

The Bachelor of Arts in geology provides knowledge of the basic concepts related to earth materials and processes, and how to collect and organize geological data in the field. Through laboratory and field-based exercises, students will learn how to interpret geologic maps and cross sections, and to understand the application of the scientific method to solve these problems in teams and individually.
Before Graduating Students Must
- Pass GLY 4155C Geology of Florida according to the department grading rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe and define the basic concepts related to earth materials and processes.
2. Collect data in the field.
3. Organize geologic, temporal and spatial data.

Critical Thinking
4. Interpret geologic maps and cross sections.
5. Interpret results using the scientific method.

Communication
6. Produce a clearly and effectively written synthesis of data collected in the field.
7. Work in teams to solve geologic problems and to present the results of such collaboration effectively.

Bachelor of Science

The Bachelor of Science in geology provides knowledge of the basic concepts, theories, observational findings related to earth materials and processes, minerals and rocks, geologic time, stratigraphy and landforms. Through laboratory and field-based exercises, students will learn how to analyze data in the published literature, synthesize analog and digital datasets to produce geological maps, and understand the application of the scientific method to solve geological problems in teams and individually.

Before Graduating Students Must
- Pass GLY 4790 Summer Field Camp according to the department grading rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe and define the basic concepts related to earth materials and processes.
2. Identify and describe minerals and rocks.
3. Define geologic time, stratigraphy and landforms.

Critical Thinking
4. Analyze data in the published literature.
5. Synthesize analog and digital datasets to produce geologic maps.
6. Apply the scientific method to the analysis of published and self-generated data.
Communication
7. Use computers for the presentation of geologic maps and data.
8. Solve geologic problems in teams and present the result of such collaboration effectively.

Assessment Types
- Six weeks of practical field exercises and mapping, including observation and data collection in New Mexico and the western USA

Geology UF Online
A Geology degree provides an understanding of issues associated with the physical earth and skills which are in demand in today’s job market. The Geology graduate will have a detailed understanding of climate change, sustainability of the Earth’s resources, and the close interplay between human activity and the environment.

About this Program
- **College:** Liberal Arts and Sciences (p. 978)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Geological Sciences aims to provide a comprehensive understanding of Earth and Planetary sciences along with their formative and evolutionary processes. We train students to excel in the geoscience workforce and create sustainable solutions to societal needs.

Curriculum
- Combination Degrees
- Geological Sciences Certificate
- Geology
- Geology Minor
- Geology UF Online

Techniques such as environmental assessment, geological hazard assessment, field-based techniques, and geographic information systems (GIS) are used to evaluate the impact of humans on the physical earth and hydrologic environment. The practical and flexible curriculum, small class sizes, computer-based learning, strong faculty and coursework in several areas of general education make this major appealing to students who want skills linked to employment or preparation for entry to professional schools (e.g., law, medicine, business).
Geology majors learn about the Earth's physical environment including climate, non-renewable geological resources, renewable geological resources, geological hazards and remediation as well as basic skills required by geologists. These skills and the geological perspective open doors to employment in government agencies and private firms that deal with water management, mining and petroleum exploration, climate change, the environment and education.

The Bachelor of Arts in geology is best suited for students interested in careers in education or environmental policy making. The degree also allows students flexibility to pursue advanced degrees in environmental law or environmental medicine.

**Research**

Students in geology who wish to graduate with high or highest honors will be required to conduct an independent research project under the direction of a faculty member. Students are also afforded the opportunity to conduct research within the department's laboratories regardless of their honors status.

**Coursework for the Major**

The geology B.A. requires a minimum of 32 credits of coursework in the major. At least 23 credits must be GLY-prefixed courses at the 3000 level or above, excluding GLY 3105C. Students must earn a minimum grade of C for coursework to count toward the major.

1. Excluding GLY 3105C; minimum 17 credits.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400601&track=1/2) may be used for transfer students.

### Semester 1

- 2.0 UF GPA required

### Semester 2

- 2.0 UF GPA required

### Semester 3

- Complete one General Education Mathematics course

- Complete 1 of 3 critical-tracking courses with a 2.5 critical-tracking GPA. Choose one from a general introductory course (GLY 2010C, GLY 2030C, or any 1000-2000 level GLY, OCE or ESC course), a historical geology course (GLY 3105C or GLY 2100C), or a 3000-level geology course.
GLY 2010C or GLY 2030C is recommended as one of these is prerequisite to many upper-level courses.

- 2.0 UF GPA required

### Semester 4

- Complete one additional critical-tracking course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

### Semester 5

- Complete all tracking courses with a 2.5 critical-tracking GPA; one general introductory course (GLY 2010C, GLY 2030C, or any 1000-2000 level GLY, OCE or ESC course), one historical geology course (GLY 3105C or GLY 2100C), and one 3000-level geology course.
- 2.0 UF GPA required

### Semester 6

- Complete 1 GLY elective 3000 level or above (3-4 credits)
- 2.0 UF GPA required

### Semester 7

- Complete 2 additional GLY electives 3000 level and above (6-8 credits)
- 2.0 UF GPA required

### Semester 8

- Complete any remaining GLY electives 3000 level and above
- Complete GLY 4155C (Capstone)
- 2.0 UF GPA required

---

### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically GE-C, H, or S). One of the two general education mathematics courses must be a pure math course.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

`This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.`

241 WILLIAMSON HALL
Geospatial Information Analysis Certificate

Geospatial Information Analysis is used increasingly in both research and practice with job opportunities expected to grow 29% from 2014 to 2024.

About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Credits:** 11-12 | Completed with minimum average grade of 2.67
- **Contact:** Email (liangmao@ufl.edu) | 352.294.7516

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information
The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, B.A. and B.S. undergraduate degrees, M.A., M.S., and PhD degrees, as well as the largest Medical Geography program in the United States.

Curriculum

- Combination Degrees
- Geography
- Geography Minor
- Geography Minor UF Online
- Geography UF Online
- Geospatial Information Analysis Certificate
- Medical Geography Certificate
- Medical Geography in Global Health Minor
- Meteorology and Climatology Certificate

Covers a variety of geospatial technologies and analytical methods such as digital mapping, geographic information system (GIS), and remotely sensed image processing, aiming to develop spatial thinking ability for students. Lab-based applications emphasize hands-on experiences of these technologies.

Open to all currently enrolled undergraduate students. At least nine credits of coursework must be unique to the Geospatial Information Analysis certificate out of all other certificates and minors.

**German**

**Foreign Languages and Literatures**

German studies encompasses the works of German literature, the culture of the Middle Ages, German cinema, writings of ethnic minorities in German-speaking countries, economics, and the European Union. By acquiring proficiency in the German language, students learn the most widely spoken language in Europe and join a community of more than 130 million speakers of German around the world.

**About this Program**

- **College:** Liberal Arts and Sciences (p. 978)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **More Info**
To graduate with this major, students must complete all university, college, and major requirements.

**Department Information**

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

The German specialization of the Foreign Languages and Literatures major is not limited to knowing the language, but instead helps the student achieve multiple literacies. In the major, the study of language merges with the study of culture and includes:

- The works of German literature as well as German culture and civilization from the Middle Ages through the end of the 20th and the beginning of the 21st century
- German cinema
- The writings of ethnic minorities in German-speaking countries
- The terminology of business, economics, and the European Union
- Summer studies or full-semester studies at a German or Austrian university.
For many students, the curriculum is an enriching discovery of their own past: more than 60 million Americans are at least partly of German heritage. More Americans can trace their ancestry to Germany than to any other foreign country, and since the middle of the 20th century more Americans have lived and worked in Germany than in any other foreign country.

Coursework for the Major

The German specialization in Foreign Languages and Literatures consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

Ordinarily, students will need to have completed GER 2200 Intermediate German 1 by their fifth semester at UF to be able to complete the German major.

Required Foundation Coursework | 16 Credits

Critical Concentration

Although courses may appear in more than one group they may be counted toward only one group

Select 9 credits from one concentration:

Intensive Area Studies: German (Recommended for those planning to pursue careers requiring advanced level skills in German or graduate work in German Studies)
Up to 15 credits of 3000/4000-level classes can be transferred from another institution.

No more than 3 credits can be earned in independent studies courses such as GEW 4905.

**Overseas Study**

The program recommends its summer program in Mannheim, Germany. Students can complete nine credits at the intermediate or advanced level depending on prerequisites met.

**Placement**

Students without prior German should take the GER 1130 and GER 1131 sequence (five credits each). An alternative manner of completing the basic language sequence in a single year is by taking the online German sequence GER 1125 and GER 1126, Discover German. These 10 credit sequences fulfill the college’s language requirement.

Students with previous training in one of the languages should speak with the department.

---

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160501&track=01) may be used for transfer students.

**Semester 1**

- 2.0 UF GPA required

**Semester 2**

- Complete GER 1125 or GER 1130 or higher-level German course
- 2.0 UF GPA required

**Semester 3**

- Complete GER 1126 or GER 1131 or higher-level German course with a minimum grade of C
- 2.0 UF GPA required

**Semester 4**

- Maintain completion of GER 1131 or GER 1126 or higher-level German course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**Semester 5**

- Complete GER 2200 or any 2000-level German course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**SEMESTER 6**

- Complete GER 2240 or a higher-level German language course with a minimum grade of C
- Complete 2 Advanced Elective courses with minimum grades of C
- 2.0 UF GPA required
### SEMESTER 7

- Complete GER 3234, GER 3300, GER 3413, or GER 3470 with a minimum grade of C
- Complete 2 Advanced Elective courses with minimum grades of C
- Complete 1 Critical Concentration course with a minimum grade of C
- 2.0 UF GPA required

### SEMESTER 8

- Complete 2 Advanced Elective courses with minimum grades of C
- Complete 2 Critical Concentration courses with minimum grades of C
- 2.0 UF GPA required

---

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). 3000 level or above critical concentration courses outside of German may count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

**Academic Learning Compact**

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target.
language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must
- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking
2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication
3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

### About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Credits:** 15-19 | Completed with minimum grades of C

### Department Information

The Department of Classics offers an interdisciplinary Classical Studies major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek. The department also offers minors in Classical Studies and Greek Studies.

### Health Disparities in Society Minor

Health disparities describe the disproportionate burden of disease, lack of access to health care, and poorer health outcomes found among members of socially disenfranchised populations. Health disparities exist at multiple levels of society (global, national, institutional, local, and personal) and among people of diverse geographic locations, linguistic groups, socioeconomic status, and sociocultural groups. Housed in the Center for Gender, Sexualities, and Women's Studies Research (CGSWSR), the Health Disparities in Society (HDS) minor provides an interdisciplinary, intersectional framework to examine how multiple social identities (e.g., race, gender, sexual orientation, and socioeconomic status) intersect to reveal interlocking inequalities and preventable disparities in health.

### About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Credits:** 15 | Completed with minimum grades of C and no optional S/U | 9 must be at the 3000-level or above

### Center Information

The Center for Gender, Sexualities, and Women's Research advances research, teaching, and leadership on how multiple systems of power intertwine to shape culture, society, and people’s lived experiences. Students explore how gender, class, race, sexuality, and other systems of power shape important domains such as health, work, culture, media, politics, leadership, and organizations. Students also learn how to put this knowledge into practice to transform these systems.

### Curriculum

- Combination Degrees
- Health Disparities in Society Minor
- Theories and Politics of Sexuality Minor
• Women's Studies
• Women's Studies Minor

Requirements
• No more than three credits of independent study may count toward the minor.
• Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.
• Students must complete at least three courses at the 3000 level or higher and each must be at least three credits.
• Sometimes, and with the approval of the undergraduate coordinator for Women's Studies, students may petition to have other, relevant classes approved as substitutes within each category of electives within the minor. Such courses could include department special topics offering with numbers like 3930, 4930.

Each semester, courses offered for this minor are listed on the Women's Studies courses website.

Hebrew

Foreign Languages and Literatures

By assuming an interdisciplinary approach to Hebrew language and culture, students acquire knowledge of the close relationship between politics, history, religions, arts and cultures in Israel. In addition to working toward proficiency in Hebrew, students will develop close reading and critical thinking skills. Students graduating with this major will find job opportunities in Jewish community organizations, the government, and consulting. In addition, due to the interdisciplinary nature of the major, students will be well prepared for the rigor of graduate studies in the humanities.

About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world. Website (https://languages.ufl.edu/)

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills, and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

Coursework for the Major

The Hebrew specialization of the Foreign Languages and Literatures major consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

- HMW 4201 Readings in Modern Hebrew Literature 2

Critical Concentration

Although courses may appear in more than one group, they may be counted toward only one group

Select 9 credits from one area:

- Comparative Cultural Studies
- Film and Visual Culture
- Literary Studies
- Medieval and Early Modern Studies

Total Credits: 33

Placement

In all languages, students with either a native background in the language or prior study in that language, might be eligible to place out of the preparatory language courses and should meet with the undergraduate coordinator to arrange for placement assessment.
Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://dlss.flvc.org/pbhs/ULe4z16deG03frpwE3/actionHandler.jsp/doc.pdf) may be used for transfer students.

Semester 1
• 2.0 UF GPA required

Semester 2
• 2.0 UF GPA required

Semester 3
• Complete HBR 1130 or higher-level Hebrew Language course with a minimum grade of C
• 2.0 UF GPA required

Semester 4
• Complete HBR 1131 or higher-level Hebrew Language course with a minimum grade of C and a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 5
• Complete HBR 2220 or a higher-level Hebrew Language course with a minimum grade of C and a 2.5 critical-tracking GPA
• 2.0 UF GPA required

SEMESTER 6
• Complete HBR 2221 or a higher-level Hebrew Language course with a minimum grade of C
• Complete 2 Advanced Elective courses
• Complete 1 Critical Concentration course
• 2.0 UF GPA required

SEMESTER 7
• Complete HBR 3410 or a higher-level Hebrew Language course with a minimum grade of C
• Complete 2 Advanced Elective courses
• Complete 1 Critical Concentration course
• 2.0 UF GPA required

SEMESTER 8
• Complete HBR 3411 or a higher-level Hebrew Language course with a minimum grade of C
• Complete 2 Advanced Elective courses at the 4000 level
• Complete 1 Critical Concentration course
• 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.
This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

**Before Graduating Students Must**
- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

**Critical Thinking**
2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

**Communication**
3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

¹ Courses focus on the acquisition of the language(s) of specialization at the advanced level.
² Courses address literary, cultural, cinematic, historical, and/or social questions.

**Assessment Types**
- Proficiency exams
- Term papers or final projects
- Oral presentations

**Hebrew Minor**

UF offers a number of new courses on Hebrew, Israeli, and Yiddish language and culture. These include language and content courses, advanced seminars, and a reading honors course. This complete program takes students from the Hebrew alphabet into contemporary Israeli and Jewish culture.

**About this Program**
- **College:** Liberal Arts and Sciences (p. 978)
- **Credits:** 15 | Completed with minimum grades of C
Department Information
Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

Hispanic and Latin American Languages, Literatures and Linguistics

Focusing on globalization, diversity, and public engagement, the Hispanic and Latin American Languages, Literatures and Linguistics major provides an interdisciplinary, multilingual approach to the study of Spanish- and Portuguese-speaking cultures drawing from a variety of contemporary perspectives on linguistics, literature, film, theatre, social service, and professions in health, law, business, education, and media.

About this Program

- **College**: Liberal Arts and Sciences (p. 978)
- **Degree**: Bachelor of Arts
- **Specializations**: Spanish (p. 1509) | Portuguese (p. 1450) | Spanish and Portuguese (p. 1309)
- **Credits for Degree**: 120
- **Contact**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Spanish and Portuguese Studies endeavors to achieve excellence in research, teaching, and public service related to the languages, literature, and cultures of the areas and countries where Spanish and Portuguese are spoken.

Curriculum

• Combination Degrees
• Hispanic and Latin American Languages, Literatures and Linguistics
• Portuguese
• Portuguese Minor
• Spanish
• Spanish and Portuguese
• Spanish for the Professions Certificate

Related Programs

• Latin American Studies Certificate
• Latin American Studies Minor

The Hispanic and Latin American Languages, Literatures and Linguistics major offers the opportunity to gain proficiency in Spanish and/or Portuguese, two of the most important languages spoken in the United States, the Western Hemisphere and the world. The department offers courses of study in language, culture, linguistics, and literature, as well as a series of courses in languages for the professions, which focus on medical, legal, business and other professional contexts.

By studying the literary and linguistic heritage of Spanish and Portuguese, students gain critical reading and writing skills that help them acquire and refine their abilities to speak, understand, read and write one of both of these languages.

The Spanish specialization focuses on the language and culture of Spain and Spanish-America, while the Portuguese specialization stresses the language and culture of Brazil, with complementary study of Portugal and Lusophone Africa. The combined specialization recognizes the increasingly prominent roles that Brazil, Spain and Latin America all play in international affairs, especially as they relate to Florida. Spanish- and Portuguese-speakers constitute the fastest growing immigrant populations in Florida. Studying both languages and cultures provide a competitive edge for those seeking careers in business, industry, tourism, health care, agricultural affairs, government, and education.

Coursework for the Major

The different specializations within the Hispanic and Latin American Languages, Literatures and Linguistics major require different coursework, depending on the student focus.

Academic Learning Compact

The Bachelor of Arts in Hispanic and Latin American Languages, Literatures and Linguistics enables students to achieve communicative competence in Spanish and/or Portuguese, with an emphasis on all four language skills: speaking, comprehension, reading, and writing. Students will become knowledgeable in the areas of Hispanic and Lusophone cultures, literatures and/or linguistics, and they will learn how to interpret Spanish- and/or Portuguese language texts according to their cultural, literary and linguistic content.

Before Graduating Students Must

• Complete all requirements for the baccalaureate degree, as determined by faculty.
• Satisfactorily complete a written assignment in a 4000-level course that includes the written analysis of a text according to its cultural, literary and/or linguistic content. The text analyzed and the analysis will be in Spanish/Portuguese.
• Satisfactorily deliver an oral presentation in Spanish/Portuguese on the topic of the written paper. Presentation will include answering questions from audience members.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.

Critical Thinking
2. Analyze cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.

Communication
3. Demonstrate competence in written Spanish and/or Portuguese, including knowledge of grammar, vocabulary, orthography and appropriate stylistic conventions.
4. Demonstrate communicative competence in spoken Spanish and/or Portuguese, including the ability to understand the spoken language, speak with correct grammar, vocabulary and pronunciation, and use appropriate registers.

Coursework for the Major
The different specializations within the Hispanic and Latin American Languages, Literatures and Linguistics major require different coursework, depending on the student focus.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160905&track=01) may be used for transfer students.

The combined track is designed for students who already possess some proficiency in one or both languages and do not need to begin with beginning coursework in both. The more common case of previous coursework in Spanish is represented in the critical tracking, but students who have prior knowledge of Portuguese and need to start with basic Spanish should consult with the undergraduate advisors.

### Semester 1
- Complete POR 1130 if needed
- Complete SPN 2200
- 2.0 UF GPA required

### Semester 2
- Complete POR 1131 (or POR 3010)
- Complete SPN 2200
- 2.0 UF GPA required

### Semester 3
- Complete POR 3242
- Complete SPN 2240 or SPN 2340
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

### Semester 4
- Complete one additional POR 3XXX course
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required
Semester 5
- Complete SPN 3300 or SPN 3350
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Semester 6
- Complete 2 of the remaining SPN/SPW/POR/POW 3XXX/4XXX required courses
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Semester 7
- Complete 2 of the remaining SPN/SPW/POR/POW 3XXX/4XXX required courses
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Semester 8
- Complete all remaining SPN/SPW/POR/POW 4XXX required courses
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

History

The history department fosters a learning experience that stands apart from newer modes of instruction at large universities. Amid the shift to larger classes, televised lectures and machine-gradable exams, history faculty have chosen to follow a more traditional path. The department’s emphasis on small courses, analytical reading, lively debate, and interpretative writing offers committed students unique rewards. It also comes with high expectations.

About this Program

- **College**: Liberal Arts and Sciences (p. 978)
- **Degree**: Bachelor of Arts
- **Specializations**: History (p. 1315) | Legal History (p. 1320)
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Undergraduate students in the Department of History have a number of ways of enhancing their experience: from completing a senior thesis in conjunction with our Honors Program (https://history.ufl.edu/undergraduate-studies/undergraduate-honors-program/), or by participating in a study abroad program. (https://history.ufl.edu/undergraduate-studies/study-abroad-and-language-training/) The graduate program is home to a number of fields: African History, European History, Latin American History, and United States History. Curriculum

- Combination Degrees
- History
• History Minor
• Legal History Certificate

The history major focuses on the development of three related skill sets critical to professional success in today's complex world:

**Writing**

History is a writing-intensive discipline. Although assignments vary by course, students will be taught a set of critical skills and research techniques that will help them gather and analyze sources and then marshal the evidence in the presentation of coherent historical arguments.

**Critical Analysis**

In the typical upper-division course, students read an average of 75 to 125 pages each week. Students will be expected to synthesize the material effectively and come to class prepared to discuss the readings.

**Oral Communication**

Rather than merely recounting facts from readings and lectures, students will develop their own interpretations of historical events and ideas and discuss them with their peers and professor. They will be expected to contribute actively in the classroom and will on occasion lead discussions and give short reports.

**Coursework for the Major**

**Required Coursework**

All history majors must complete a minimum of 36 credits in history with minimum grades of C. Majors must take a minimum of 21 credits of history at UF. History majors may enroll in a maximum of three history courses per semester.

Requirements include:

- HIS 3942, a methodological introduction to the study of history, should be taken in the first year in the major and it must be taken no later than Semester 5.
- AMH 4930 / AFH 4930 / ASH 4930 / EUH 4930 / HIS 4930 / LAH 4930 / WOH 4930 is the capstone course of the major and normally taken in the senior year, although students who plan to write an honors thesis are encouraged to take the course as juniors. In this seminar, students produce a substantial research paper based on primary source research. Enrollment in the research seminar is restricted to majors. The History Research Seminar must be taken at UF.
- 30 additional credits of history courses:
  - at least 21 of the 30 credits must be at the 3000/4000 level
  - At least 9 credits (three courses) in American history (AMH) and European history (EUH), with at least one course in AMH, one course in EUH, and one course in AMH or EUH
  - At least 9 credits (three courses) in AFH, ASH, LAH, or WOH, with a maximum of two courses under any one prefix.
  - The history research seminar may count toward the regional distribution, depending on the prefix of the course taken (AFH, AMH, ASH, EUH, LAH, or WOH).

Prior to graduating, history majors complete an online exit survey.

Only exam (AICE, AP, CLEP, or IB) credits with course equivalencies for UF courses count toward the requirements for the major and then only at the 2000 level. AMH 0301, EUH 0301, and WOH 0301 do not count toward the major.

**Recommended Coursework**

Majors are encouraged, but not required, to take a total of nine credits at the introductory 2000 level, including one course in American history (AMH), one course in European history (EUH), and one course in African, Asian, Latin American, or World history (AFH, ASH, LAH, WOH courses).

**Combination Degree Program**

Majors who are interested in advanced training are encouraged to consider the 4/1 combination degree program.

More Info (http://history.ufl.edu/undergraduate-studies/41-program/)

**Research**

Majors are encouraged to consider advanced research opportunities in history. The department places special emphasis on participation in the history honors program.

More Info (http://history.ufl.edu/undergraduate-studies/undergraduate-honors-program/)
Academic Learning Compact

The history major exposes students to key issues in the history of the United States, Europe and areas of Africa, Asia and Latin America. Students will develop the critical interpretative skills needed to assess both primary and secondary sources in the complex task of thinking about the past. Students will master a set of research skills that help them develop their own historical arguments. Significant emphasis is laid on effective written communication reflected in the cogency of arguments and use of evidence.

Before Graduating Students Must

- Complete the distribution requirements of the major (6 credits in AMH, 6 credits EUH, 6 credits in AFH, ASH or LAH) with minimum grades of C, as graded by department rubric.
- Complete HIS 3942 and HIS 4930 with minimum grades of C, as graded by department rubric.
- Complete 35 credits in history, including at least 26 at the 3000/4000 level, and all with minimum grades of C, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Acquire and apply basic research skills learned through use of print and electronic resources of the library and web.

Critical Thinking
2. Critically assess and interpret primary and secondary sources.
3. Identify a historical research topic related to the focus of the research seminar, develop knowledge of the topic through research, and create historical arguments using evidence effectively with clear purpose.

Communication
4. Produce an effectively written analytical research paper based in research of primary sources, framed within the secondary literature and offering a coherent historical argument supported by evidence.

More Info (http://history.ufl.edu/undergraduate-studies/41-program/)

**Research**

Majors are encouraged to consider advanced research opportunities in history. The department places special emphasis on participation in the history honors program.

More Info (http://history.ufl.edu/undergraduate-studies/undergraduate-honors-program/)

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

**For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=540101&track=01) may be used for transfer students.

Students are advised to take **HIS 3942** in their first year as a history major, and it must be taken no later than Semester 5.

**Semester 1**

• 2.0 UF GPA required

**Semester 2**

• Complete 1 history course at the 2000 level or above
• 2.0 UF GPA required

**Semester 3**

• Complete 1 additional history course at the 2000 level or above with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

**Semester 4**

• Complete 1 additional history course at the 3000 level or above (recommended) with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

**Semester 5**

• By the end of semester 5, students must have completed 4 history courses: **HIS 3942**, two history courses at the 2000 level or above and one history course at the 3000 level or above
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required
Semester 6
• Complete 1 distribution course (prefix of LAH, AFH, WOH, or ASH)
• 2.0 UF GPA required

Semester 7
• Complete 1 distribution course (prefix of AMH or EUH)
• 2.0 UF GPA required

Semester 8
• Complete XXX 4930 research seminar
• 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

1. If AMH 2020 not taken in Semester two or three.

**Academic Learning Compact**

The history major exposes students to key issues in the history of the United States, Europe and areas of Africa, Asia and Latin America. Students will develop the critical interpretative skills needed to assess both primary and secondary sources in the complex task of thinking about the past. Students will master a set of research skills that help them develop their own historical arguments. Significant emphasis is laid on effective written communication reflected in the cogency of arguments and use of evidence.

**Before Graduating Students Must**

- Complete the distribution requirements of the major (6 credits in AMH, 6 credits EUH, 6 credits in AFH, ASH or LAH) with minimum grades of C, as graded by department rubric.
- Complete HIS 3942 and HIS 4930 with minimum grades of C, as graded by department rubric.
- Complete 35 credits in history, including at least 26 at the 3000/4000 level, and all with minimum grades of C, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Acquire and apply basic research skills learned through use of print and electronic resources of the library and web.

**Critical Thinking**

2. Critically assess and interpret primary and secondary sources.
3. Identify a historical research topic related to the focus of the research seminar, develop knowledge of the topic through research, and create historical arguments using evidence effectively with clear purpose.

**Communication**

4. Produce an effectively written analytical research paper based in research of primary sources, framed within the secondary literature and offering a coherent historical argument supported by evidence.

**Curriculum Map**

*I* = Introduced; *R* = Reinforced; *A* = Assessed

Legal History

The history department fosters a learning experience that stands apart from newer modes of instruction at large universities. Amid the shift to larger classes, televised lectures and machine-gradable exams, history faculty have chosen to follow a more traditional path. The department’s emphasis on small courses, analytical reading, lively debate, and interpretative writing offers committed students unique rewards. It also comes with high expectations.

About this Program

- **College**: Liberal Arts and Sciences (p. 978)
- **Degree**: Bachelor of Arts
- **Specializations**: History (p. 1315) | Legal History (p. 1320)
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Undergraduate students in the Department of History have a number of ways of enhancing their experience: from completing a senior thesis in conjunction with our Honors Program (https://history.ufl.edu/undergraduate-studies/undergraduate-honors-program/), or by participating in a study abroad program (https://history.ufl.edu/undergraduate-studies/study-abroad-and-language-training/) The graduate program is home to a number of fields: African History, European History, Latin American History, and United States History.

Curriculum

- Combination Degrees
- History
- History Minor
- Legal History Certificate

The history major focuses on the development of three related skill sets critical to professional success in today's complex world:
Writing
History is a writing-intensive discipline. Although assignments vary by course, students will be taught a set of critical skills and research techniques that will help them gather and analyze sources and then marshal the evidence in the presentation of coherent historical arguments.

Critical Analysis
In the typical upper-division course, students read an average of 75 to 125 pages each week. Students will be expected to synthesize the material effectively and come to class prepared to discuss the readings.

Oral Communication
Rather than merely recounting facts from readings and lectures, students will develop their own interpretations of historical events and ideas and discuss them with their peers and professor. They will be expected to contribute actively in the classroom and will on occasion lead discussions and give short reports.

Coursework for the Major

Required Coursework
All history majors must complete a minimum of 36 credits in history with minimum grades of C. Majors must take a minimum of 21 credits of history at UF. History majors may enroll in a maximum of three history courses per semester.

Requirements include:

- HIS 3942, a methodological introduction to the study of history, should be taken in the first year in the major and it must be taken no later than Semester 5.
- AMH 4930 / AFH 4930 / ASH 4930 / EUH 4930 / HIS 4930 / LAH 4930 / WOH 4930 is the capstone course of the major and normally taken in the senior year, although students who plan to write an honors thesis are encouraged to take the course as juniors. In this seminar, students produce a substantial research paper based on primary source research. Enrollment in the research seminar is restricted to majors. The History Research Seminar must be taken at UF.
- 30 additional credits of history courses:
  - at least 21 of the 30 credits must be at the 3000/4000 level
  - At least 9 credits (three courses) in American history (AMH) and European history (EUH), with at least one course in AMH, one course in EUH, and one course in AMH or EUH
  - At least 9 credits (three courses) in AFH, ASH, LAH, or WOH, with a maximum of two courses under any one prefix.
  - The history research seminar may count toward the regional distribution, depending on the prefix of the course taken (AFH, AMH, ASH, EUH, LAH, or WOH).

Prior to graduating, history majors complete an online exit survey.

Only exam (AICE, AP, CLEP, or IB) credits with course equivalencies for UF courses count toward the requirements for the major and then only at the 2000 level. AMH 0301, EUH 0301, and WOH 0301 do not count toward the major.

Recommended Coursework
Majors are encouraged, but not required, to take a total of nine credits at the introductory 2000 level, including one course in American history (AMH), one course in European history (EUH), and one course in African, Asian, Latin American, or World history (AFH, ASH, LAH, WOH courses).

Combination Degree Program
Majors who are interested in advanced training are encouraged to consider the 4/1 combination degree program.
More Info (http://history.ufl.edu/undergraduate-studies/41-program/)

Research
Majors are encouraged to consider advanced research opportunities in history. The department places special emphasis on participation in the history honors program.
More Info (http://history.ufl.edu/undergraduate-studies/undergraduate-honors-program/)

Legal History
The History Department also offers a specialization in Legal History. The specialization is open to majors (non-majors may obtain a certificate in Legal History). To successfully complete the specialization in Legal History, students are required to complete 9 credit hours.
One course must be selected from Group A and one course must be selected from the courses listed in Group B. The third course may be selected from either Group A or B. Students must pass each course taken for the certificate with a grade of C or higher.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=540101&track=01) may be used for transfer students.

Students are advised to take HIS 3942 in their first year as a history major, and it must be taken no later than Semester 5.

**Semester 1**

- 2.0 UF GPA required

**Semester 2**

- Complete 1 history course at the 2000 level or above
- 2.0 UF GPA required

**Semesters 3-4**

- Complete 1 history course at the 3000 level or above with a 2.5 critical-tracking GPA (this course may be a course from Group A or B if it is passed with a 2.0 GPA or above)
- 2.5 GPA in critical-tracking history courses
- 2.0 UF GPA required

**Semesters 5-6**

- Complete 1 history course at the 3000 level or above with a 2.5 critical-tracking GPA (this course may be a course from Group A or B if it is passed with a 2.0 GPA or above)
- 2.5 GPA in critical-tracking history courses
- 2.0 UF GPA required

**Semesters 7-8**

- By the end of semester 8, students seeking the Legal History Specialization must have completed 3 courses toward the specialization (either from the approved list or with the approval of the undergraduate coordinator) as follows: 1 from Group A, 1 from Group B, and 1 from either Group A or B with a 2.0 GPA or higher
- 2.5 GPA in critical-tracking history courses
- 2.0 UF GPA required

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

In addition to the above courses, the undergraduate coordinator may authorize other legal history courses for the specialization.

Academic Learning Compact

The history major exposes students to key issues in the history of the United States, Europe and areas of Africa, Asia and Latin America. Students will develop the critical interpretative skills needed to assess both primary and secondary sources in the complex task of thinking about the past. Students will master a set of research skills that help them develop their own historical arguments. Significant emphasis is laid on effective written communication reflected in the cogency of arguments and use of evidence.

Before Graduating Students Must

- Complete the distribution requirements of the major (6 credits in AMH, 6 credits EUH, 6 credits in AFH, ASH or LAH) with minimum grades of C, as graded by department rubric.
- Complete HIS 3942 and HIS 4930 with minimum grades of C, as graded by department rubric.
- Complete 35 credits in history, including at least 26 at the 3000/4000 level, and all with minimum grades of C, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Acquire and apply basic research skills learned through use of print and electronic resources of the library and web.

Critical Thinking
2. Critically assess and interpret primary and secondary sources.
3. Identify a historical research topic related to the focus of the research seminar, develop knowledge of the topic through research, and create historical arguments using evidence effectively with clear purpose.

Communication
4. Produce an effectively written analytical research paper based in research of primary sources, framed within the secondary literature and offering a coherent historical argument supported by evidence.

**Assessment Types**
- Skills-set exam
- Capstone statement for final project

**History Minor**
This minor provides a solid foundation in the study of history, while enhancing a range of skills including critical thinking, historical analysis, persuasive writing, and oral communication.

**About this Program**
- **College**: Liberal Arts and Sciences (p. 978)
- **Credits**: 15 | Completed with minimum grades of C and no optional S/U

**Department Information**
Undergraduate students in the Department of History have a number of ways of enhancing their experience: from completing a senior thesis in conjunction with our Honors Program (https://history.ufl.edu/undergraduate-studies/undergraduate-honors-program/), or by participating in a study abroad program. (https://history.ufl.edu/undergraduate-studies/study-abroad-and-language-training/) The graduate program is home to a number of fields: African History, European History, Latin American History, and United States History.

Holocaust Studies Certificate

The Holocaust Studies certificate provides students from any undergraduate major with an interdisciplinary concentration that focuses on intellectual approaches to the Holocaust, other human rights catastrophes, and their representation.

About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Credits:** 18 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Center Information

The Center for Jewish Studies promotes academic study of Jewish culture, history, and politics for all students at the University of Florida. The Center’s curriculum encourages critical thinking, textual analysis, research, oral argumentation, and writing. The Center has scholarship opportunities for undergraduate and graduate students, as well as study abroad opportunities.

The Holocaust is the greatest crime in human history. It has spawned international libraries of historical studies, religious and philosophical treatises, social science studies in psychology and other fields, novels, poems, and films to say nothing of art, monuments, and architecture.

In and of itself, the Holocaust is critical for an understanding of the depths of human experience through a variety of disciplines. But it also provides a way for understanding how practitioners of different disciplines, from history to anthropology to literature to film, approach the human experience through a crucial common theme.

The certificate provides social science and humanities majors with additional background for a number of career choices ranging from the study of law to human rights work to work in NGOs to library or museum employment or even international business.

Required Courses

Course substitutions are possible at the discretion of the director of the Center for Jewish Studies.

Innovation Minor

The Innovation minor provides undergraduates in the Innovation Academy an overview of the major functional elements of innovation — creativity, entrepreneurship, ethics, and leadership — and an opportunity to apply them in a multidisciplinary project.

About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Credits:** 15-17 | Completed with minimum grades of C and no S/U

IA Information

The Innovation Academy (IA) equips students with the 21st-century skills needed to thrive in an innovative culture. IA is a living-learning community embedded within the traditional University of Florida experience. Students select from over 25 UF majors and earn their degree with a minor in Innovation. The IA academic calendar operates on a Spring-Summer schedule, giving students the opportunity to enjoy Fall co-curricular activities, pursue internships, study abroad, or enjoy the break at home.

Interdisciplinary Studies | CLAS

The College of Liberal Arts and Sciences recognizes that students’ academic and professional interests may include more than one discipline and that some majors are not formally available at the university. Because interdisciplinary approaches, research, and curricular activities are becoming increasingly appropriate and valuable within the liberal arts and sciences and other fields, UF students have the option to develop and pursue interdisciplinary (IDS) majors that cross the boundaries of numerous disciplines.

About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Degree:** Bachelor of Arts | Bachelor of Science
IDS is a limited-access major in CLAS that requires a minimum 3.0 UF GPA. Students must select two tenured or tenure-accruing faculty members who agree to work with them from the planning stages to completion of the thesis research proposal. At least one faculty advisor must be a member of CLAS; faculty advisors cannot be from the same department.

Students should begin planning early. They should declare a related CLAS major and then apply to IDS as early as semester four or at the latest by semester five. Transfer students must complete their first semester with a UF GPA of 3.0 before they can apply to this program. Late application may result in denial of admission to the program. Students interested in pursuing an interdisciplinary major should contact the director of the particular specialization listed below or view the IDS information on the college’s website.

Each applicant and their interdisciplinary program must be approved by the inter-college Committee on Interdisciplinary Studies and include at least 20 credits of 3000/4000-level coursework taken in two or more departments. All other CLAS degree requirements (e.g., foreign language, basic distribution, electives, etc.) must be met. The student must also take at least seven credits of IDS 4906 (or equivalent courses) under the direction of one or both of the supervisory faculty members and produce a senior thesis.

Interdisciplinary majors may also graduate with honors recognition. Requirements are the same as for department majors, with the additional provision that magna cum laude or summa cum laude recognition must be recommended by two members of the student’s supervisory committee (including the principal supervisor), who will affirm that the student conducted an individual project in IDS 4906 (or equivalent).

Students in science tracks who are enrolled in IDS 4905 work 3-4 hours per week in the laboratory for each credit earned.

All students with IDS majors are required to complete IDS 1161 in semester 1 or 2.

In addition to the ten established concentrations, students may design a customized course of study in consultation with faculty advisors relevant to the interdisciplinary thesis project. If interested in this option, students should first contact the associate dean for IDS majors.

American Indian and Indigenous Studies | IDS

The College of Liberal Arts and Sciences recognizes that students’ academic and professional interests may include more than one discipline and that some majors are not formally available at the university. Because interdisciplinary approaches, research, and curricular activities are becoming increasingly appropriate and valuable within the liberal arts and sciences and other fields, UF students have the option to develop and pursue interdisciplinary (IDS) majors that cross the boundaries of numerous disciplines.

Department Information

Anthropology lies at the intersection of the multiple approaches to the study of humankind that characterize other disciplines – biological, social, cultural, historical, linguistic, cognitive, material, technological and aesthetic – because of its unique holistic perspective. These multiple approaches are encapsulated in the four traditional subfields that have composed the discipline since its establishment in the 19th century: cultural (http://sites.clas.ufl.edu/anthropology/department-subfields/cultural-anthropology/), archaeological (http://sites.clas.ufl.edu/anthropology/department-subfields/archaeology/), biological (http://sites.clas.ufl.edu/anthropology/department-subfields/biological-anthropology/) and linguistic (http://sites.clas.ufl.edu/anthropology/department-subfields/linguistic-anthropology/) anthropology.

Related Programs
- American Indian and Indigenous Studies Minor

The Department of Anthropology and the College of Liberal Arts and Sciences have established a concentration in American Indian and Indigenous Studies (IDS-AIIS). The AIIS concentration is an extension of the minor and is open to all students with an interest in American Indian topics.

The concentration offers courses which cut across all disciplines, including anthropology, botany, geology, history, Latin American studies, religion, and wildlife studies. This concentration deals with the issues and concerns of indigenous peoples. Students will have the opportunity to pursue research, write a senior thesis and prepare themselves for graduate work in the field of American Indian and/or indigenous studies.

Academic Learning Compact
The interdisciplinary studies major with a concentration in American Indian and indigenous studies provides students with knowledge of the issues and concerns of indigenous peoples of the Western hemisphere. Students will be able to identify and conduct research or field work and understand historical, political, social and religious structures from an indigenous perspective. Students will evaluate the significance, quality and veracity of information gathered in the literature and to apply it effectively. Students will also be able articulate the results of research clearly and effectively.

Before Graduating Students Must
- Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe and define major issues of indigenous peoples and conduct research in any of the disciplines which incorporate American Indian topics.

Critical Thinking
2. Integrate different sources and types of knowledge into holistic perspectives about indigenous peoples.
3. Evaluate the significance, quality and veracity of information gathered in the literature and apply it effectively.

Communication
4. Articulate research results clearly and effectively in speech and in writing in an accepted style of presentation.

Curriculum

- Chemistry Minor
- Chemistry | Biochemistry

Applicants with a strong background in basic chemistry and biology can pursue advanced-level work, including required courses in the Department of Biochemistry and Molecular Biology, research in biochemistry and molecular biology and other electives in biochemistry and molecular biology, botany, chemistry, microbiology, neuroscience, pharmacology, and zoology.

Graduates will have excellent backgrounds for research in a variety of the basic medical sciences and are qualified for graduate and professional school programs.

Academic Learning Compact

This interdisciplinary studies major in biochemistry and molecular biology provides students with an understanding of and competence in biochemistry, molecular biology and molecular cell biology. Students will understand and use the scientific approach to gather and verify knowledge. They will be able to draw appropriate conclusions and inferences from properly conducted laboratory research. Students will be able to evaluate the significance, quality and veracity of information gathered via experiment and literature and apply them effectively. Students will also possess the ability to articulate results clearly and effectively.

Before Graduating Students Must

- Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

- **More Info**

This program provides a broad program in biological illustration to students preparing to work with museums, university botany, zoology, entomology, anthropology or medical departments and botanical gardens or research organizations.

Enrollment is restricted because of the tutorial nature of much of the instruction. The program admits only a few well-qualified students each year.

For this specialization only, students need to apply in their second semester at UF.

Academic Learning Compact

The interdisciplinary studies major in biological illustration provides knowledge of and competence in biology, structural biology and structural zoology. Students will know and use the scientific approach to gather and verify knowledge. Students will be able to draw appropriate conclusions and inferences from properly conducted laboratory research. They will be able to evaluate the significance, quality and veracity of information gathered via experiment and literature and to apply them effectively. Students will also possess the ability to articulate results clearly and effectively.

Before Graduating Students Must

Related Programs

- English

The interdisciplinary B.A., with a concentration in film and media studies, enables students to pursue a liberal arts approach to audio-visual studies. The courses offered provide a range of training from professional and applied (anthropology, architecture, education and theatre) to historical and experimental (art, English, Germanic, Slavic and Romance languages).

The film and media studies major encourages students to integrate these offerings by working in both theory and production. For the senior thesis, a student may choose an essay, a film script, a short film or video, or work in a related medium.

The major requires 27 credits minimum, 20 credits of core courses and seven credits from IDS 4906 senior independent work. Majors should take ENG 3115, because it serves as the prerequisite for ENG 4136. Students and sponsors select courses for CLAS electives.

Because many of the courses in the departments of Art, English and Theatre have prerequisites, students should plan their freshman and sophomore work with the major in mind. Under certain circumstances, instructors will waive some prerequisites for IDS majors, but with space at a premium (especially in studio and production classes), students should not try to avoid any requirements. Students may, however, use up to nine credits of 2000-level prerequisites as electives.

Early preparation for the major should include ENG 2300. Other useful courses are:

- Combination Degrees
- Latin American Studies
- Latin American Studies Certificate
- Latin American Studies Minor

Related Programs

- Latin American Studies Certificate

The UF Center for Latin American Studies was founded in 1930 and is one of the largest and most prestigious institutions of its kind in the United States. UF has approximately 180 faculty members whose teaching and research focus to a significant extent is on Latin America and the Caribbean. The Latin American Collection of the George A. Smathers Library is one of few stand-alone collections in the United States and features extraordinary holdings on Brazil, the Caribbean and other areas of Latin America.

This program is built upon the social sciences, humanities, languages and area studies. It requires 21 credits of 3000/4000-level coursework in Latin American and Caribbean area courses, intermediate proficiency in a language of Latin America and the Caribbean (typically Spanish, Portuguese or Haitian Creole), a senior thesis and at least seven credits of IDS 4906.

Academic Learning Compact

The interdisciplinary major in Latin American studies provides students with broad knowledge of contemporary and historical issues relevant to Latin America. The program offers training in areas such as the geography, history, society, economy, politics, religion, arts and culture of Latin America. Students will demonstrate or otherwise acquire proficiency in at least one major Latin American language and will learn how to identify and conduct relevant research or field work on a Latin America-related topic.

Upon completion of the program, students should be able to evaluate the significance, quality and veracity of information gathered from scholarly sources and to apply it effectively. They also will be able to construct analytical arguments and communicate their perspective confidently in spoken and written form.

Before Graduating Students Must

- Demonstrate satisfactory proficiency in a major Latin American language as determined by successful course completion, adequate score on the AP or SAT II exams or individual oral examination (for native speakers).
- Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Conduct interdisciplinary research on a Latin American topic and articulate research results clearly.

Critical Thinking
2. Critically evaluate the significance, quality and veracity of information gathered in the literature and apply it effectively.

Communication
3. Communicate effectively in spoken and written formats.

Related Programs

- Medieval and Early Modern Studies Minor

This major focuses on medieval and early modern European culture and its influences on the modern world. Students examine the distinctive forms of cultural organization in these periods, obtain knowledge about medieval and early modern communities (monastic, chivalric, peasant, early urban), and familiarize themselves with some of the world’s greatest literature.

Students are encouraged to seek historical perspectives that can contribute to current discussions about ethnicity and nationality, colonialism, technologies and their effects, gender and sexuality and the characteristics of historical and fictional narratives. This IDS major involves critical thinking, textual analysis and creativity, and is excellent preprofessional preparation for careers in law, journalism, government services, medicine, library science, international work and teaching.

Academic Learning Compact

The interdisciplinary studies major in medieval and early modern studies provides students with knowledge of the key issues, figures, social and cultural trends and basic chronology of the period or field studied. Students will be able to evaluate the significance, quality and veracity of information gathered in the literature and to apply it effectively. Students will also articulate the results of research clearly and effectively.

Before Graduating Students Must

- Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

**Content**

1. Identify, describe and explain the key issues, figures, social and cultural trends and basic chronology of the period or field studied.

**Critical Thinking**

2. Evaluate the significance, quality and veracity of information gathered in the literature and apply it effectively.

**Communication**

3. Articulate research results clearly and effectively in speech and in writing in an accepted style of presentation.

Middle Eastern Languages and Cultures | IDS

The College of Liberal Arts and Sciences recognizes that students’ academic and professional interests may include more than one discipline and that some majors are not formally available at the university. Because interdisciplinary approaches, research, and curricular activities are becoming increasingly appropriate and valuable within the liberal arts and sciences and other fields, UF students have the option to develop and pursue interdisciplinary (IDS) majors that cross the boundaries of numerous disciplines.

- Arabic Language and Literature Minor
- Hebrew
- Hebrew Minor
- Jewish Studies Minor

Students design a concentration that focuses on an Arabic or Hebrew language and culture. Students acquire knowledge of relationships among language, literature, politics, religion, arts and economics. The major consists of 33 credits and culminates in a senior thesis.

This program provides a two-track major, Arabic and Hebrew. In addition to the major’s other requirements and electives, all students must take at least one course (language or content-based) in the track of the second language.

Arabic

The Arabic language is the key to understanding the culture and history of more than 22 nations and more than 206 million speakers. It is the language of an ancient civilization and today is spoken widely across North Africa, the Middle East and the Arabian Peninsula. Arabic is also the liturgical language of more than a billion Muslims, and it is one of the six official languages of the United Nations. The interdisciplinary major in Arabic language and culture enables students to develop an appreciation for the complexity of the many facets of the Arab world: its society, culture, history, arts, religions, and literary heritage. This major is therefore ideal for students considering careers in diplomacy, journalism, consulting, business, foreign service, translation, and academia. Future graduates would be in great demand for advanced studies in any of these fields.

*Three to six credits from courses with these prefixes*

- ARA, ABT, REL (with reference to Islam or Judaism)
- AFH (with reference to North Africa) and
- CPO and WHO (with reference to the Middle East)

Hebrew

By assuming an interdisciplinary approach to Hebrew language and culture, students acquire knowledge of the close relationship between politics, history, religions, arts, and cultures in Israel. In addition to working toward proficiency in Hebrew, students will develop close reading and critical
thinking skills. Students graduating with this major will find job opportunities in Jewish community organizations, the government and consulting. In addition, due to the interdisciplinary nature of the major, students will be well prepared for the rigor of graduate studies in the humanities.

Center Information

The Center for European Studies (CES), housed within the College of Liberal Arts & Sciences (CLAS), is an interdisciplinary area studies center focused on the study of Europe, and facilitating the training of scholars and experts in European studies in the United States. In addition to the minors, certificates, and major, the center offers study abroad programs in Europe and various scholarships and grants for undergraduates.

Map (http://campusmap.ufl.edu/#/index/0267)

Curriculum

- East-Central European Studies Minor
- European Union Studies Certificate
- European Union Studies Minor
- Modern European Studies

The concentration in modern European studies provides the opportunity to study the geographic region of Europe from an interdisciplinary perspective that incorporates area and language studies. MES students gain extensive language proficiency and experience in modern European studies by fulfilling an expanded language requirement (two additional semesters) and participating in available study-abroad programs.

The requirements for IDS-MES major are commensurate with the requirements for established IDS concentrations within CLAS. A 3.0 GPA and approval of the CLAS IDS committee are required.

Students choose appropriate disciplines such as anthropology, economics, geography, history, modern languages, political science, and/or sociology to design the core of a major that culminates in a thesis. Through such experience students acquire a thorough knowledge of cultural, economic, political, and social interrelationships. If unable to participate in study abroad program, students may choose to complete the capstone requirement through internship in an organization that enables them to practice the chosen language and/or fits their selected area of study.

Detailed information is available on the website and students are encouraged to discuss their interests with the Center for European Studies.

Academic Learning Compact

The interdisciplinary studies major in modern European studies provides knowledge of major European issues. Students will be able to identify and conduct modern Europe-relevant research. They will evaluate the significance, quality and veracity of information gathered in the literature and to apply it effectively. Students will also be able articulate the results of research clearly and effectively.

Before Graduating Students Must

- Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, define and explain issues of modern Europe and identify and conduct Europe-relevant research.

2. Integrate different sources and types of knowledge into holistic perspectives about Europe.

Critical Thinking

3. Evaluate the significance, quality and veracity of information gathered in the literature and apply it effectively.
Communication
4. Articulate research results clearly and effectively in speech and in writing in an accepted style of presentation.

Related Programs
- Psychology

This major focuses on the characteristics and functions of the nervous system. Core courses ensure that students acquire a background in basic sciences, biology and brain science. Through elective courses and completion of an independent research project, supervised by one of the 45 faculty within the Center for Neurobiological Sciences, students can specialize in area(s) of particular interest to them. These areas can include neurochemistry, neurophysiology, neuroembryology, neuroplasticity, and brain/behavior relations. Concentrations are available in behavioral neurobiology, cellular and molecular neurobiology, and cognitive neuroscience.

Many graduates continue their study in neural sciences, including graduate school, professional school in health sciences, and the pharmaceutical industry.

Academic Learning Compact
The interdisciplinary studies major in neurobiological sciences provides students with an understanding of and competence in the neurobiological sciences. Students will understand and use the scientific approach to gather and verify knowledge. They will be able to draw appropriate conclusions and inferences from properly conducted laboratory research. Students will be able to evaluate the significance, quality and veracity of information gathered via experiment and literature and to apply them effectively. Students will also possess the ability to articulate results clearly and effectively.

Before Graduating Students Must
- Satisfactorily complete IDS 4906 (capping 7-12 credits of thesis research), graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

International Relations Certificate

The International Relations certificate is for those who are interested in international affairs and who are considering careers in this field (e.g., working for the U.S. government’s foreign policy or intelligence agencies; foreign policy think tanks; international non-governmental organizations).

About this Program
• College: Liberal Arts and Sciences (p. 978)
• Credits: 18 | Completed with minimum grades of C
• More Info

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information
The Department of Political Science provides a high quality educational program for undergraduate students as well as a rigorous honors program (http://sites.clas.ufl.edu/polisci/undergraduate/programs/undergraduate-honors/). The department also offers a highly selective graduate education ranging from innovative M.A. programs to a comprehensive Ph.D. program. Website (https://polisci.ufl.edu/)

Subfield courses

Main subfields of international relations courses (3000 level)

Advanced subfield course (4000 level)

Total Credits 18

While successful completion of this 18-credit program will qualify students for the certificate, most graduate programs, foreign service organizations, and private corporations will be looking for individuals with broader training. Therefore, students are encouraged to pursue related study in other political science fields and other departments. Students interested in U.S. foreign policy, for example, should consider taking courses in American government. Likewise, students interested in international trade or finance would do well to pursue coursework in economics.

In addition, students interested in the international relations of a particular geographical region would benefit from learning about the comparative domestic political systems and/or cultures of those regions and may find courses in comparative politics, geography, anthropology or foreign languages and literatures helpful. Many other opportunities for enrichment through interdisciplinary work are available on campus.

International Studies

The International Studies interdisciplinary program provides knowledge of major international or global issues including regional and global political economies; comparative cultural and political systems; ethnicity, identity and belief systems; peace, conflict and wars; gender, culture and politics; and environment, health, and science issues.

About this Program

• College: Liberal Arts and Sciences (p. 978)
• Degree: Bachelor of Arts

• Sustainability Studies Minor

Students acquire proficiency in a modern foreign language, and knowledge of at least one major region of the world and significant global issues; are encouraged to experience living and studying abroad or working with an international organization focused on international issues; and conduct research on a global issue in conjunction with a senior research seminar, study abroad experience, or relevant internship or service learning opportunity.

The major provides cross-cultural and interdisciplinary training that prepares students for graduate study or international careers as specialists in international relations, international development, communications and media, education, business, global health, sustainability, public affairs, government foreign service, export sales, and international research.

**Coursework for the Major**

Students are required to designate a region of the world on which to focus. This region then determines the courses appropriate for the major’s primary requirements (Category A) as well as the major’s foreign language requirement.

The major requires 36 credits of coursework in addition to the language requirement. All courses must be completed with minimum grades of C. A minimum of 15 credits of Category A and/or B courses must be completed at UF.

**Required Coursework**

- INS 3004
- INS 4930

*With prior approval*, students may substitute:

- Study abroad with a research project; internship or work experience abroad with a research project; international studies research poster with presentation; international studies-related service learning with a research project; or independent study course with a research project. Students pursuing any of these alternatives must still register for 3 credits of coursework to replace INS 4930. All research papers will be graded by a common grading rubric. S/U grades are acceptable for these alternatives to INS 4930 with prior approval and successful completion of the research project.

- Category A: 15 credits of international studies-approved courses in social science, humanities or professional courses that focus on the region of the world selected by the student: Africa, Asia, Europe, Latin America and the Caribbean, or the Middle East.
  - Twelve credits of Category A coursework must be at the 3000/4000 level.

- Category B: 15 credits of international studies-approved courses in social science, humanities, or professional courses that focus on regions of the world other than the student’s regional focus and/or focus on global issues.
  - Nine credits of Category B coursework must be at the 3000/4000 level. *(These 9 credits of 3000/4000-level Category B courses will be accepted toward the CLAS 3000-level elective requirement. INT majors still will need to take 9 additional credits of 3000-level electives from courses NOT approved for any INT category.)*

- Four semesters minimum (0-20 credits) of a single modern foreign language or demonstrated proficiency equivalent to completion of the intermediate level. The language for which proficiency is demonstrated must be logically linked to the selected primary region of focus (Category A).

**Region Focus**

The links below determine the region courses appropriate for Category A and Category B requirements as well as the region’s foreign language requirement.

- Africa ([http://intstudies.program.ufl.edu/academic-program/africa/](http://intstudies.program.ufl.edu/academic-program/africa/))
- Asia ([http://intstudies.program.ufl.edu/academic-program/asia/](http://intstudies.program.ufl.edu/academic-program/asia/))
- Europe ([http://intstudies.program.ufl.edu/academic-program/europe/](http://intstudies.program.ufl.edu/academic-program/europe/))
- Latin America and the Caribbean ([http://intstudies.program.ufl.edu/academic-program/latin-america-and-the-caribbean/](http://intstudies.program.ufl.edu/academic-program/latin-america-and-the-caribbean/))
- Middle East ([http://intstudies.program.ufl.edu/academic-program/middle-east/](http://intstudies.program.ufl.edu/academic-program/middle-east/))

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

*For degree requirements outside of the major, refer to CLAS Degree Requirements:* Structure of a CLAS Degree (p. 985).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites ([http://www.flvc.org/cpp/displayRecord.jsp?cip=302001&track=01](http://www.flvc.org/cpp/displayRecord.jsp?cip=302001&track=01)) may be used for transfer students.
Semester 1
• Complete 1 international studies course from Category A or Category B at the 2000-level or higher with a 2.0 critical-tracking GPA
  • 2.0 UF GPA required

Semester 2
• Complete 1 international studies course from Category A or Category B at the 2000-level or higher with a 2.5 critical-tracking GPA
  • 2.0 UF GPA required
  • Students must have at least one Category A and one Category B class completed by the end of Semester 2

Semester 3
• Complete 1 foreign language course from the selected region and 1 additional international studies course from Category B at the 2000-level or higher with a 2.75 critical-tracking GPA
  • 2.0 UF GPA required
  • Students should take INS 3004 as soon as they have completed three Category courses. For many students, this will be either semester 3 or 4

Semester 4
• Complete 1 additional foreign language course from the selected region with a 3.0 critical-tracking GPA
  • 2.0 UF GPA required

Semester 5
• Complete INS 3004 International Studies Perspectives and one additional international studies course from Category A at the 3000-level or higher with a 3.0 critical-tracking GPA
  • 2.0 UF GPA required
  • By the end of Semester 5, students must complete two Category A classes, two Category B classes, one year of a relevant foreign language, and INS 3004.

Semester 6
• Take 2 major classes at the 3000-level or above (may be any mixture of Category A and/or Category B)
  • Students should have completed at least 21 credits of the 36 total (excluding language) required for the major

Semester 7
• Complete 2 major classes at the 3000-level or above (may be any mixture of Category A, Category B, and/or INS 4930 or pre-approved alternative)
  • Complete Foreign Language Intermediate 1
  • Students should have completed at least 27 credits of the 36 total (excluding language) required for the major

Semester 8
• Complete 3 major courses at the 3000-level or above (may be any mixture of Category A, Category B, and/or INS 4930 or pre-approved alternative)
  • Complete Foreign Language Intermediate 2
  • By the end of semester 8, students must complete a minimum of 15 credits of Category A coursework, 15 credits of Category B coursework, INS 3004, INS 4930 or pre-approved alternative, and the intermediate level or equivalent of a foreign language relevant to the primary region of study.

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

Nine credits of 3000 level or above Category B courses count towards the 3000 level or above electives outside of the major.

Depending upon the international studies courses chosen, students may meet some of their GE-H, GE-S and GE-N requirements through courses for the major. In that case, the student can substitute general elective credit.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.
This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

**Total Credits: 15**

### Semester Eight
INS 4930 Senior Research Seminar in International Studies (Critical Tracking; Capstone Experience)  
[3 credits]
Select one:

International studies course (Critical Tracking; Category A, 3000 level or higher)  
[3 credits]
Gen Ed Social and Behavioral Sciences (if needed)  
Elective  

**Electives**  
[8 credits]

**Total Credits: 17**

1. Majors are encouraged to use some of their electives to pursue a minor, combination degree, dual degree, or double major.

---

**Academic Learning Compact**

The international studies major provides knowledge of major international issues. Students will be able to identify and conduct internationally relevant research. They will evaluate the significance, quality and veracity of information gathered in the literature and to apply it effectively. Students will also be able articulate the results of research clearly and effectively.

**Before Graduating Students Must**
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Describe, explain and apply basic knowledge of the modern history, culture, politics, geography, economy or sociology of one major region of the world (Africa, Asia, Europe, Latin America or the Middle East).

**Critical Thinking**
2. Use analytical intellectual tools to examine global issues.

**Communication**
3. Interpret and effectively communicate about global issues.

**Curriculum Map**

<sup>1</sup> **Category A:** Students focus on a region of the world, taking 15 credits of approved courses in social science, humanities or professional courses that deal with the region chosen.

<sup>2</sup> **Category B:** Students take 15 credits of approved courses that deal with regions of the world other than the region chosen in Category A.

<sup>3</sup> **Foreign Language:** Students take a minimum of four semesters of a single modern foreign language linked to their focus region, or demonstrate intermediate level-proficiency.
Assessment Types
• Direct assessment of research paper

Italian

Foreign Languages and Literatures
The Italian specialization in Foreign Languages and Literatures provides the linguistic and cultural knowledge students need to understand and appreciate the language, literature, cinema, history, and society of the Italian peninsula. Courses reflect the complex cultural traditions of this Mediterranean nation from the Middle Ages and the Renaissance to the modern period.

About this Program
• College: Liberal Arts and Sciences (p. 978)
• Degree: Bachelor of Arts
• Credits for Degree: 120
• More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances
critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

The Italian specialization of the Foreign Languages and Literatures major offers a basis for a broad variety of careers including arts and culture, fashion, business, international law, education, diplomacy, international relations, and journalism. The program also constitutes a strong foundation for graduate work in Italian Studies or related fields, allowing students to develop strengths in fields such as film studies, medieval studies, Mafia studies, Modernism, detective fiction, theater studies, Dante studies, and Animal Studies. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

Coursework for the Major

The Italian specialization in Foreign Languages and Literatures consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

Total Credits 33

Overseas Study

Students specializing in Italian are encouraged to participate in a study abroad for a summer or an entire semester. Students regularly participate in UF Programs in Rome or UF-approved study-abroad programs in other Italian cities or regions. Refer to UF International Center information and contact a department advisor for study abroad recommendations.

More Info (https://internationalcenter.ufl.edu/)

Placement

In all languages, students with either a native background in the language or prior study in that language might be eligible to place out of the preparatory language courses and should meet with the undergraduate coordinator to arrange for placement assessment.

Research

Students with an upper-division GPA of 3.5 are encouraged to write a thesis for high or highest honors at graduation.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160501&track=01) may be used for transfer students.

Semester 1
- 2.0 UF GPA required

Semester 2
- 2.0 UF GPA required

Semester 3
- Complete ITA 1130 or higher-level Italian Language course with a minimum grade of C
- 2.0 UF GPA required

Semester 4
- Complete ITA 1131 or higher-level Italian Language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5
- Complete ITA 2220 or a higher-level Italian Language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

SEMESTER 6
- Complete ITA 2221
- Complete 1 Critical Concentration course
- 2.0 UF GPA required
**SEMESTER 7**
- Complete ITA 3420
- Complete 2 ITA/ITW 3xxx/4xxx advanced electives
- Complete 2 Critical Concentration courses
- 2.0 UF GPA required

**SEMESTER 8**
- Complete ITA 3564
- Complete all remaining FLL-Italian 3xxx/4xxx advanced electives
- 2.0 UF GPA required

---

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). 3000 level or above critical concentration courses outside of Italian may count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

**Academic Learning Compact**

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

**Before Graduating Students Must**

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
• Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

**Critical Thinking**
2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

**Communication**
3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

**Curriculum Map**

*I = Introduced; R = Reinforced; A = Assessed*

<sup>1</sup> Courses focus on the acquisition of the language(s) of specialization at the advanced level.

<sup>2</sup> Courses address literary, cultural, cinematic, historical, and/or social questions.

**Assessment Types**

• Proficiency exams
• Term papers or final projects
• Oral presentations

**Italian Studies Minor**

An Italian Studies minor complements any major in any discipline. A concentration in Italian language, literature, culture, and civilization can also become the basis for graduate studies in Italian.

**About this Program**

• **College:** Liberal Arts and Sciences (p. 978)
• **Credits:** 19 | Completed with minimum grades of C and no optional S-U
• **Contact:** Email (dambers@ufl.edu)

**Department Information**

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

### Japanese

#### Foreign Languages and Literatures

The Japanese specialization in Foreign Languages and Literatures develops proficiency in the Japanese language and acquaints students with the literature and cultural history of Japan. Courses are also available for those interested in business Japanese, classical Japanese, film, and women's studies.

#### About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

#### Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

301 PUGH HALL
The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

The Japanese specialization of the Foreign Languages and Literatures major provides a foundation for graduate-level work in East Asian studies or allied fields (anthropology, art history, history, linguistics, political science, and religion). The specialization is excellent general preparation for entry to professional schools (business, journalism, law, and medicine) or careers in foreign service, commerce, diplomacy, translation, business, import and export of information and culture, museums, libraries, and tourism.

Coursework for the Major

The Japanese specialization in Foreign Languages and Literatures consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

Critical Concentration

Although courses may appear in more than one group they may be counted toward only one group.

Select 9 credits from one area:

- Intensive Area Studies: Japanese (Recommended for those planning to pursue careers requiring advanced level skills in Japanese or graduate work in Japanese studies)
- Contemporary Cultural Studies
- Film and Visual Culture
- Literary Studies
- Medieval and Early Modern Studies

Total Credits: 33

All languages offered through this department may fulfill college language requirements. Students pursuing the Japanese specialization in Foreign Languages and Literatures are not allowed to minor in Asian studies (either option 1 or 2).

Transfer Students Interested in Majoring in Japanese

If a student’s current institution does not offer Japanese and the student has no previous knowledge of Japanese, it’s recommended that they take the following Summer Intensive Beginning Japanese program:

Summer A: JPN 1130. A minimum grade C is required to advance to the next level course.

Summer B: JPN 1131.

Overseas Study

Two year-long study abroad programs are available in Japan. The Asian Studies Program at Kansai Gaidai University in Osaka, Japan is specifically designed for international students for an academic year program of study abroad. The program offers courses in Japanese language (all levels) and area studies focusing on Japan and its international role. Another academic year study abroad program at Aoyama Gakuin, Tokyo, offers students the challenge of taking courses in the target language, thus it is limited to those who have completed three years of language study at UF, or the equivalent. These two programs also offer the option of one semester of study abroad.
There is a one or two semester study abroad program at Shimane University in Matsue, Japan. This program focuses on Japanese language, culture, history and environment, and is limited to students who have completed three years of language study at UF, or the equivalent. There is a one or two semester study abroad program at Nagoya University in Nagoya. This program is open to students with no previous study of Japanese language, and is ideal for students from a variety of majors including the STEM majors as it offers a broad-based English-language curriculum in international studies, biological and physical sciences, and engineering, in addition to courses in Japan studies.

A maximum of 15 credits non-UF overseas study credit may apply to the major. Students must have all overseas study credit that will transfer to the major approved by their major advisor. JPT 3500 must be taken at UF. No substitution is allowed for JPT 3500.

Placement

Students with previous training in Japanese, as well as those with heritage background in these languages, should consult the undergraduate coordinator or the language coordinator of the Japanese specialization before enrolling in any JPN or JPW course. Placement tests are given at the start of each semester; refer to the Department of Languages, Literatures and Cultures for location and times.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160399&track=01) may be used for transfer students.

Semester 1
- 2.0 UF GPA required

Semester 2
- 2.0 UF GPA required

Semester 3
- Complete JPN 1130 or higher level language course with a minimum grade of C
- 2.0 UF GPA required

Semester 4
- Complete JPN 1131 or higher level with a minimum grade of C and 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5
- Complete JPN 2230 or higher level language course with a minimum grade of C and 2.5 critical-tracking GPA
- 2.0 UF GPA required

SEMESTER 6
- Complete JPN 2231 or higher level language course with a minimum grade of C
- 2.0 UF GPA required

SEMESTER 7
- Complete JPN 3410 or higher course with a minimum grade of C
- Complete JPT 3500 with a minimum grade of C
- 2.0 UF GPA required

SEMESTER 8
- Complete JPN 3411 or higher course with a minimum grade of C
- 2.0 UF GPA required
Model Semester Plan

Actual courses may be different depending on language preparation and availability of courses. In particular, beginning language is best started semester 1 and no later than semester 3, but study abroad or accredited intensive summer courses can be used to catch up.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). Several courses in this major count for GE-H and N or GE-S and N requirements. 3000 level or above critical concentration courses outside of Japanese may count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must
- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking
2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication
3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

¹ Courses focus on the acquisition of the language(s) of specialization at the advanced level.
² Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types
- Proficiency exams
- Term papers or final projects
- Oral presentations

Jewish Studies

The Center for Jewish Studies offers a Bachelor of Arts in Jewish Studies, a minor, and two certificate programs. A strong interdisciplinary curriculum with a language requirement provides a basis for understanding the broad spectrum of Jewish cultures, languages, and histories.

About this Program
- **College**: Liberal Arts and Sciences (p. 978)
- **Degree**: Bachelor of Arts
• Credits for Degree: 120
• More Info

To graduate with this major, students must complete all university, college, and major requirements.

Center Information
The Center for Jewish Studies promotes academic study of Jewish culture, history, and politics for all students at the University of Florida. The Center’s curriculum encourages critical thinking, textual analysis, research, oral argumentation, and writing. The Center has scholarship opportunities for undergraduate and graduate students, as well as study abroad opportunities. Website (https://jst.ufl.edu/)

Curriculum
• European Jewish Studies Certificate
• Holocaust Studies Certificate
• Jewish Studies
• Jewish Studies Minor

Related Programs
• Hebrew
• Hebrew Minor
• Middle Eastern Languages and Cultures

The Center for Jewish Studies fosters the academic study of Jewish cultures, languages, history, society and religion for all students at the University of Florida. Students are expected to develop as critical thinkers, aware of the diversity and complexity of the field. The center promotes a broad and interdisciplinary approach including the arts, social sciences, and textuality. The curriculum emphasizes historical transformations and comparative frameworks among various Jewish communities and with other groups and religions. Courses draw upon a variety of theoretical approaches to the study of class, ethnicity, gender, race, and sexuality with methodologies that are both textual and performance oriented.

The program may serve as preparation for graduate work in Jewish studies, as background for a career in Jewish education or community service or as an area of special interest that will enrich the undergraduate experience. Students often combine the JST major or minor with other majors and go on to careers in law, medicine, journalism, business, or other professions.

Coursework for the Major
The major requires a minimum of 27 credits in Jewish studies and related courses with minimum grades of C. In addition, one year of Hebrew or equivalent language with significant Jewish culture production is required. A minimum of 15 credits for the major must be taken at the University of Florida. Students should consult the undergraduate coordinator in 201 Walker Hall.

Required Coursework
• JST 2930 Introduction to Jewish studies or an introduction to Jewish culture or, Jewish history or a survey course in Jewish studies (3 credits)
• Senior seminar, generally offered every other spring, or an approved equivalent JST course requiring a comprehensive research paper
• Minimum 21 credits at the 3000 level or above

Special topics courses in other departments may be counted toward the major provided they include substantial coverage of material relevant to Jewish studies. Individual work (JST 4905), which also fulfills requirements for the major, is also available for independent study and special projects. No more than six credits of independent study (JST 4905) will be counted toward the minimum. Normally, no more than 12 credits of the minimum may be transfer credit; however, all transfer credits in JST-related courses from UF-approved programs abroad will apply toward the major.

Course Details
Most JST courses are listed in the schedule of courses under Jewish Studies. Related courses offered by other departments are listed in departments of Anthropology, English, History, Languages, Literatures and Cultures, Political Science, Religion, and Sociology. A list of courses is available in the center each semester before advance registration.
More Info (https://jst.ufl.edu/major-minor/)
Specializations

- European Jewish Studies
- Holocaust Studies
- Israel Studies

Honors

Honors in Jewish studies can be earned by students who have at least a 3.5 GPA in their upper-division work and a 3.5 GPA in the major. Students who seek honors are required to complete an honors project, with a grade of A or B, under the guidance of a Jewish studies faculty member. In their senior year, honors students should register for JST 4970, a 2-3 credit course.

Internship in Jewish Communal Services

Students can gain practical experience as an undergraduate through the internship option of JST 4940. The goal of this program is both to expose the student to the opportunities for service in the world of organized Jewry and to provide a means for students to understand how Jewish values are propagated in organized settings. Students earn credit for volunteer work and training in applied settings such as Jewish family and social services agencies, community centers, federations, educational institutions, museums, newspapers, denominational organizations, public affairs groups, synagogues, Hillel or equivalent institutions. To qualify for JST credit, the organization must have an explicit public tie to Judaism and be approved for internship credit by the Center for Jewish Studies.

Overseas Study

The Center for Jewish Studies provides counsel regarding study abroad at the Hebrew University of Jerusalem, Tel Aviv University, Haifa University, and Ben-Gurion University of the Negev. The overseas programs at these Israeli universities offer summer, one semester and full-year courses of study. Information is available in 201 Walker Hall and at the UF International Center, 170 Hub.

Scholarships are available. Travel restriction updates are available on the department website.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=380206&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required

Semester 3

- Complete HBR 1130
- 2.0 UF GPA required

Semester 4

- Complete HBR 1131 and one Jewish studies course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete 2 of the remaining Jewish Studies courses
- 2.0 UF GPA required
**Semester 7**
- Complete 2 of the remaining Jewish Studies courses
- 2.0 UF GPA required

**Semester 8**
- Complete all remaining Jewish Studies major requirements
- 2.0 UF GPA required

---

### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Total Credits 120

**Academic Learning Compact**

This major familiarizes students with the aspects of Jewish history, religion, languages and cultures. Emphasis is placed on basic language acquisition, analysis and critical evaluation of texts and contexts, integration of cultural data with disciplinary concerns outside of Jewish studies and comparative frameworks among different Jewish groups and with co-territorial non-Jews.

**Before Graduating Students Must**

- Satisfactory evaluation of paper written for the CJS capstone course, graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Demonstrate knowledge of and competence in the Jewish experience, including minority and diasporic communities within a comparative framework.
2. Demonstrate knowledge of transformations of Jewish communities over time and space.

**Critical Thinking**

3. Understand the significance of language in assessing Jewish culture(s).
4. Evaluate and apply effectively the significance, quality and veracity of information (both primary and secondary) in the literature.

**Communication**

5. Articulate research results clearly and effectively in an accepted style of presentation.

**Curriculum Map**

### Assessment Types

- Direct assessment of essays and final tests (by track: Holocaust studies, Israel studies, general studies)

### Jewish Studies Minor

The Center for Jewish Studies offers a minor with similar parameters to the major though with fewer credit requirements. Students are also encouraged to pursue one of two existing certificate programs that dovetail with disciplinary interests beyond Jewish Studies.

### About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Credits:** 25 | Completed with minimum grades of C
- **Contact:** Email (center@jst.ufl.edu) | 201 Walker Hall (http://campusmap.ufl.edu/?loc=0003) | 352.392.9247
- **More Info**

### Center Information

The Center for Jewish Studies promotes academic study of Jewish culture, history, and politics for all students at the University of Florida. The Center's curriculum encourages critical thinking, textual analysis, research, oral argumentation, and writing. The Center has scholarship opportunities for undergraduate and graduate students, as well as study abroad opportunities.

### Curriculum

- European Jewish Studies Certificate
- Holocaust Studies Certificate
- Jewish Studies
- Jewish Studies Minor

### Related Programs

- Hebrew
- Hebrew Minor
- Middle Eastern Languages and Cultures

Students should plan the minor under the guidance of a Jewish studies faculty member. Each program must be approved by the director of the Center for Jewish Studies.

At least three courses (none can be individual work) of no fewer than three credits each must be at the 3000 level or above. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

• Holocaust Studies certificate (p. 1326)

**Latin American Studies Minor**

The Latin American Studies minor is an excellent option for those who wish to concentrate their work in a specific discipline yet maintain a Latin American focus in their coursework. Students can take courses with Latin American content in the fields of anthropology, economics, politics, geography, history, mass communication, music, women's studies, and more. Students who pursue the minor will enhance their career prospects through their knowledge of Latin American languages and cultures.

**About this Program**

• **College:** Liberal Arts and Sciences (p. 978)
• **Credits:** 15 | Completed with minimum grades of C and no optional S/U
• **Contact:** Email (tresende@latam.ufl.edu) | 318 Grinter Hall (http://campusmap.ufl.edu/?loc=0002) | 352.273.4715

**Center Information**

The Center for Latin American Studies advances knowledge about Latin America and the Caribbean and its peoples throughout the Hemisphere, enhances the scope and quality of research, teaching, and outreach in Latin American, Caribbean and Latinx Studies.

LAS 6938 may be substituted with the approvals of the instructor and undergraduate coordinator.

A student may take LAS 4935 up to three times if the subject matter varies. The first Seminar will count toward the Seminar requirement, the second and third may count toward the Approved courses with 100% Latin American or Caribbean content.

As listed in the Latin American Studies course guide (http://www.latam.ufl.edu/academics/latin-american-studies-courses/).

Language courses above the 3000 level can count toward the minor if they are not used to meet the language requirement.

Students with prior knowledge of a Latin American or Caribbean language must demonstrate proficiency through a written placement test (SAT II for Spanish) or oral examination for speakers of Portuguese or Haitian Créole.

Candidates for the minor are encouraged to spend a summer, a semester or an academic year studying in a Latin American country. UF sponsors study abroad programs in Argentina, Brazil, Costa Rica, Chile, Dominican Republic, Guatemala, Mexico, Panama, and Peru. For more information, contact Study Abroad Services in the UF International Center.

Latin American Studies Certificate

The Center for Latin American Studies, in cooperation with the colleges of Liberal Arts and Sciences, Agricultural and Life Sciences, Business, Design, Construction and Planning, Education, Fine Arts, and Journalism and Communications, offers a certificate in Latin American Studies for undergraduate students. Through special arrangements, students in other colleges also may obtain the certificate.

About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Credits:** 21 | Completed with minimum grades of C
- **Contact:** Email (nochoa@latam.ufl.edu) | 318 Grinter Hall (http://campusmap.ufl.edu/?loc=0002) | 352.273.4715
- **More Info**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Center Information

The Center for Latin American Studies advances knowledge about Latin America and the Caribbean and its peoples throughout the Hemisphere, enhances the scope and quality of research, teaching, and outreach in Latin American, Caribbeans and Latinx Studies.

GAINESVILLE FL 32611-5530
Map (http://campusmap.ufl.edu/#/index/0002)

Curriculum

- Combination Degrees
- Latin American Studies
- Latin American Studies Certificate
- Latin American Studies Minor

The program is designed to supplement a major with broad cultural and language training appropriate for graduate work or a Latin America-related career in business, government or teaching. In general, it is for students who plan to live in Latin America, work with Latin Americans, or interpret Latin American culture to others.

Required Courses

21 credits with Latin American content, distributed as follows:

- Three credits of LAS 4935, the undergraduate seminar in Latin American studies. Students may repeat LAS 4935 for an additional six credits if the topics vary.
- Six credits of courses outside the student’s major with 100% Latin American content (designated by a C in the LAS course guide).
  More Info (http://www.latam.ufl.edu/academics/latin-american-studies-courses/)
• Twelve credits of additional courses with Latin American content, including courses in the student's major; at least three credits must be core courses (with 100% Latin American content, designated by a C in the LAS course guide); up to nine credits may be electives with at least 25% Latin American content (designated by an E in the LAS course guide).

• Only courses at 2000 level or above will count toward the certificate. Advanced Placement credits do not count. Overseas study credits can count as core or elective courses pending review of the undergraduate advisor at the Center for Latin American Studies.

In addition, the student must demonstrate high-intermediate proficiency in a Latin American language through coursework (Spanish, SPN 2240; Portuguese, POR 3242; Haitian Creole, HAI 2200) or examination (Advanced Placement scores of 4-5 plus approval or an SAT 2 score of 700). Language courses at the 3000 level can count as core courses.

Students with prior knowledge of a Latin American or Caribbean language must demonstrate proficiency through a written placement test (SAT 2 test for Spanish) or oral examination for speakers of Portuguese or Haitian Creole. Courses in a second Latin American language at or above the 3000 level may count toward the certificate if these courses are not used to meet the language requirement.

---

Legal History Certificate

The Legal History certificate considers how law works around the world by studying legal histories outside of the U.S. This historical exploration introduces the ways in which law influences society and the ways in which society influences law.

About this Program

• College: Liberal Arts and Sciences (p. 978)
• Credits: 9 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

Undergraduate students in the Department of History have a number of ways of enhancing their experience: from completing a senior thesis in conjunction with our Honors Program (https://history.ufl.edu/undergraduate-studies/undergraduate-honors-program/), or by participating in a study abroad program. (https://history.ufl.edu/undergraduate-studies/study-abroad-and-language-training/) The graduate program is home to a number of fields: African History, European History, Latin American History, and United States History.

Linguistics studies language in many domains and from multiple perspectives. The core courses analyze speech sounds, words, and the structure of language(s).

**About this Program**

- **College:** Liberal Arts and Sciences (p. 978)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

**Department Information**

The Linguistics Department offers the Ph.D., M.A. (both thesis and non-thesis), B.A., and two undergraduate minors (the Linguistics minor and the TESL minor). A TESL certificate is offered at the undergraduate level, and a SLAT (Second Language Acquisition and Teaching) certificate at the graduate level. We currently have almost 30 faculty (combining budgeted and affiliated personnel), well over 100 undergraduate majors, and approximately 40 graduate students.

Map (http://campusmap.ufl.edu/#/index/0267)

**Curriculum**

- Combination Degrees
- Linguistics
- Linguistics Minor
- Teaching English as a Second Language Certificate
- Teaching English as a Second Language Minor

The discipline also covers old and new languages, speech in ordinary conversation, the workplace, and the classroom. Child acquisition of languages and adult acquisition of a second language are important topics. Linguists also study language in relation to gender, the brain and computers, and the interrelationship of languages and dialects.

Linguists analyze and contribute to mass communication, they testify about language meaning and use in the courtroom, and they analyze natural language processing. Their expertise helps all people communicate more effectively: patients and doctors, spouses and partners, students and teachers. Linguists also teach non-native speakers to speak, read, write, and comprehend English and other languages.

**Coursework for the Major**

Students must earn minimum grades of C within two attempts in a minimum of 33 credits.

**Required Coursework**

1 Students must complete two consecutive semesters of the same language for the courses to count towards the major. Appropriate languages include: Akan, American Sign Language, Amharic, Arabic, Czech, Chinese, Greek, Hebrew, Hindi, Hungarian, Japanese, Korean, Lingala, Polish, Russian, Swahili, Turkish, Vietnamese, Wolof, Xhosa, and Yoruba.

**Combination Degree Program**

Linguistics offers a combination-degree program that allows students to obtain a B.A. and an M.A. in five years.

Students enroll in four graduate courses in their senior year that count toward both the B.A. and M.A. degrees:

<table>
<thead>
<tr>

Overseas Studies

Some study abroad programs that offer linguistics courses are the University of Mannheim (Germany), University of Haifa (Israel), University of Madrid (Spain), and the University of Utrecht (The Netherlands). For more information and programs, contact the linguistics undergraduate advisor.

Relevant Minors and/or Certificates

Linguistics students may want to consider a minor (p. 1539) or certificate (p. 1540) in Teaching English as a Second Language.
More Info (http://lin.ufl.edu/undergraduate/minor/)

Research

Students are encouraged to engage in individual study with a faculty member or to volunteer in a laboratory.
More Info (http://lin.ufl.edu/undergraduate/major/)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160102&track=01) may be used for transfer students.

Semester 1
  • 2.0 UF GPA required

Semester 2
  • 2.0 UF GPA required

Semester 3
  • Complete 1 foreign language or linguistics course (LIN 3010 recommended) with a 2.5 critical-tracking GPA
  • 2.0 UF GPA required

Semester 4
  • Complete 1 additional foreign language or linguistics course with a 2.75 critical-tracking GPA
  • 2.0 UF GPA required

Semester 5
  • Complete LIN 3010 and maintain a 2.75 critical-tracking GPA
  • 2.0 UF GPA required

Semester 6
  • Complete LIN 3201 or LIN 3460
  • Complete at least 3 of the remaining LIN 3000/4000 required courses
  • 2.0 UF GPA required
**Semester 7**
- Complete one of the following: LIN3201 or LIN3460
- Complete at least 3 LIN department electives or approved linguistics-related electives
- 2.0 UF GPA required

**Semester 8**
- Complete all remaining LIN department electives and approved linguistics-related electives
- 2.0 UF GPA required

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

3000 level or above approved Language Related Courses may apply towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

### Academic Learning Compact

The Bachelor of Arts in linguistics provides students with the ability to analyze language structure and use on multiple levels and to apply knowledge, concepts and skills developed from previous research. The major emphasizes students’ ability to analyze patterns in language in terms of the sound system (phonetics and phonology) and word and sentence structure (morphology and syntax), to present and justify these analyses and to apply linguistic knowledge and analytical skills to the study of language use, learning, teaching, processing and change.

### Before Graduating Students Must

- Achieve a minimum grade of C on the critical assignment from LIN 3201, graded according to department rubric.
- Achieve a minimum grade of C on critical assignments from LIN 3460, graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

**Student Learning Outcomes (SLOs)**

**Content**

1. Identify, describe and explain the concepts related to phonetics and phonology (sounds and sound systems).
2. Examine and explain the concepts related to morphology and syntax (word and sentence structures).

**Critical Thinking**

3. Analyze linguistic data by applying concepts and knowledge from phonetics and phonology.
4. Analyze linguistic data by applying concepts and knowledge from morphology and syntax.

**Communication**

5. Articulate research results clearly and effectively in an accepted style of presentation.

- Language project
Linguistics Minor

Language is a means of communication and a unique property of the human mind. Linguistics is the scientific study of language: a set of disciplines that investigates the structure, meaning, and use of language using descriptive, theoretical, computational, and experimental approaches.

About this Program

- **College**: Liberal Arts and Sciences (p. 978)
- **Credits**: 15 | Completed with minimum grades of C

Department Information

The Linguistics Department offers the Ph.D., M.A. (both thesis and non-thesis), B.A., and two undergraduate minors (the Linguistics minor and the TESL minor). A TESL certificate is offered at the undergraduate level, and a SLAT (Second Language Acquisition and Teaching) certificate at the graduate level. We currently have almost 30 faculty (combining budgeted and affiliated personnel), well over 100 undergraduate majors, and approximately 40 graduate students.

Curriculum

- Combination Degrees
- Linguistics
- Linguistics Minor
- Teaching English as a Second Language Certificate
- Teaching English as a Second Language Minor

To be eligible for this minor, students must have a minimum 2.75 overall GPA.

Of the total credits, no more than three may be individual work. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Total Credits 15

Marine Sciences | CLAS

Oceans are an important facet of our global environment: covering more than 70 percent of the Earth’s surface, oceans provide us with food, transport, and resources and they play a significant role in controlling climate. However, the world’s oceans remain largely unexplored below the surface, making them one of the last great frontiers for scientific discovery. Marine environments are inherently dynamic and governed by a broad suite of interactive biological, chemical, and physical processes.

About this Program

- **College**: Liberal Arts and Sciences (p. 978)
- **Degree**: Bachelor of Science
- **Credits for Degree**: 120
To graduate with this major, students must complete all university, college, and major requirements.

**Related Programs**

- Fisheries and Aquatic Sciences Minor
- Marine Sciences | CALS

The university promotes an integrated approach to marine science education and research to prepare students for rewarding academic and professional careers. This major, offered cooperatively with the College of Agricultural and Life Sciences, lets students tailor a curriculum that suits their interests and career goals.

The curriculum provides the core scientific and quantitative skills necessary for success. Lower-division courses build a strong foundation in basic sciences and math while upper-division courses provide opportunity for specialization. Students in the College of Liberal Arts and Sciences (CLAS) complete an upper-division core that integrates the physical and biological sciences, mathematics, and engineering. They work closely with a faculty advisor to create an individualized curriculum of at least 12 credits of approved electives; this plan must be approved by the program’s undergraduate coordinator before the student has earned 70 credits.

**Coursework for the Major**

The major requires 63-67 credits of coursework completed with minimum grades of C. At least 30 credits of coursework in the major must be completed at UF.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

---

1. 12 credits of approved marine sciences electives, approved by the undergraduate coordinator before the student has earned 70 credits. Electives may be chosen from the Approved Electives tab.
For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

For the purposes of critical-tracking, associated lecture and lab courses are considered one critical-tracking course (e.g., BSC 2010/BSC 2010L = 1 critical-tracking course).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=309999&track=01) may be used for transfer students.

**Semester 1**
- Complete OCE 1001 and 1 critical-tracking course from BSC 2010/BSC 2010L, BSC 2011/BSC 2011L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2311, PHY 2053/PHY 2053L (or PHY 2048/PHY 2048L), PHY 2054/PHY 2054L (or PHY 2049/PHY 2049L)
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 2**
- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 3**
- Complete 1 additional critical-tracking course
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 4**
- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 5**
- Complete all 8 critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 6**
- Complete FAS 4270 or PCB 4460
- 2.0 UF GPA required

**Semester 7**
- Complete General Education course
- 2.0 UF GPA required

**Semester 8**
- Complete all remaining General Education requirements
- 2.0 UF GPA required

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

Academic Learning Compact
This major provides integrative understanding of the basic concepts, theories and observational findings related to marine materials and processes, geologic time, the diversity of marine life, the structure and function of marine organisms and ecosystems and marine resource management.

The marine sciences major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences and utilizes faculty, courses and resources of the Fisheries and Aquatic Sciences Program (CALS), the Department of Geological Sciences (CLAS), the Department of Biology (CLAS), and the Department of Civil and Coastal Engineering (Herbert Wertheim College of Engineering).

Before Graduating Students Must
• Achieve a passing score on the subject test. The content of the examination has been reviewed and approved by the Marine Sciences Committee.
• Achieve a passing score on the analytical skills test. The content of the examination has been reviewed and approved by the Marine Sciences Committee.
• Achieve a passing score on the bioethics quiz. The content of the examination has been reviewed and approved by the Marine Sciences Committee.
• Achieve a passing score on the scientific literacy paper. This paper is assessed using a rubric that has been reviewed and approved by the Marine Sciences Committee.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)
Content
1. Demonstrate competence in the basic terminology, concepts, methodologies and theories used within the marine sciences.

Critical Thinking
2. Analyze information in the marine sciences and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication
4. Communicate knowledge, ideas and reasoning clearly, effectively and objectively in written or oral forms appropriate to the marine sciences.

Mathematics

Studying Mathematics develops such skills as critical thinking, oral and written communication, arguing logically and rigorously, thinking abstractly, formulating and solving problems, analyzing data, analyzing mathematical models, quantitative and computer proficiency, and the ability to work in groups. Employers value these skills; consequently, Mathematics majors find themselves in demand by employers for careers in a wide spectrum of fields.

About this Program

- **College**: Liberal Arts and Sciences (p. 978)
- **Degrees**: Bachelor of Arts (p. 1385) | Bachelor of Science (p. 1390)
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Graduates from the Department of Mathematics might take a job that uses their math major in an area like statistics, biomathematics, operations research, actuarial science, mathematical modeling, cryptography, or mathematics education. Or they might continue into graduate school leading to a research career. Professional schools in business, law, and medicine appreciate mathematics majors because of the analytical and problem solving skills developed in the math courses.

358 LITTLE HALL
GAINESVILLE FL 32611
Map (http://campusmap.ufl.edu/#/index/0655)

Curriculum

- Combination Degrees
- Mathematics
- Mathematics Minor

The Department of Mathematics offers two undergraduate degree programs in mathematics:

**Bachelor of Arts**

Intended for students who wish to pursue a career in a mathematical field or to teach mathematics at the secondary-school level, but who do not currently contemplate graduate study in mathematics.

**Bachelor of Science**

Intended for students who wish to pursue graduate study in mathematics as well as for other strong students with a deep interest in mathematics.

Coursework for the Major

Students are required to take eight core courses, providing a broad base in mathematics, and four electives chosen from a list of approved courses. All but two of the core courses are the same for both degrees. Students pursuing the B.A. degree have greater flexibility in their choice of electives, facilitating the possibility of a double-major with another scientific discipline.

A minimum of 39 credits of mathematics and mathematics-approved electives is required for each degree. All coursework for the major must be completed with minimum grades of C, with the exception of MAS 4105 for students in the B.S. specialization, which requires a minimum grade of B.

**Relevant Minors and/or Certificates**

Mathematics majors are encouraged to consider taking a minor in computer science, industrial and systems engineering, physics, or statistics. The Department of Statistics offers a minor in actuarial science. In addition, the UFTeach program offers a minor in mathematics teaching.

**UFTeach Program**

There is a severe shortage of qualified high school mathematics teachers in Florida and nationwide. Students interested in entering this high-demand profession should see a departmental advisor about the UFTeach program. Mathematics majors in this program complete the requirements for the
UF Teach minor in mathematics, as well as those for the B.A. or B.S. in mathematics. These students graduate with all the coursework and preparation the State of Florida requires for professional certification as a high school mathematics teacher.

More Info (http://education.ufl.edu/uf-teach/)

Research
Research and scholarly opportunities are described on the mathematics website under Opportunities for Undergraduates.

More Info (http://www.math.ufl.edu/mathematics-major/opportunities-for-undergraduates/)

Combination Degree Programs
Mathematics majors who complete the requirements for major by the end of the junior year are eligible for the combination-degree program. Students in this program take the graduate sequences MAA 5228 and MAA 5229 and MAS 5311 and MAS 5312 in their senior year. These 12 credits, which apply toward the undergraduate degree, will then also apply toward a master's degree in mathematics if the student is admitted to the graduate program. The student should successfully complete this degree with one full-time year of graduate school following receipt of a bachelor's degree.

Academic Learning Compact
The major in mathematics enables students to develop proficiency in calculus, differential equations, advanced calculus, linear algebra and abstract algebra, and expose them to several other mathematical areas beyond these core fields. Students will learn to read and to construct mathematical proofs, to reason in abstract mathematical systems and to use mathematical models. Students will also acquire the ability to read new mathematics and to formulate mathematical models and arguments.

Before Graduating Students Must
- Be evaluated on your responses to certain examination questions in upper-division courses that are required for your degree.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
   
   Bachelor of Science: Explain conceptual and computational competency in core mathematics: calculus, differential equations, advanced calculus, linear algebra and abstract algebra.

Critical Thinking
2. Identify correct mathematical arguments in abstract mathematical systems.
3. Develop and analyze mathematical models of scientific problems.

Communication
4. Develop and write correct mathematical arguments.

Additional Required Coursework for B.A.

Select one sequence:

- MAA 4102 & MAA 4103: Introduction to Advanced Calculus for Engineers and Physical Scientists 1 and Introduction to Advanced Calculus for Engineers and Physical Scientists 2
- MAA 4211 & MAA 4212: Advanced Calculus 1 and Advanced Calculus 2

Select four electives, 12 credits minimum, from the approved electives; at least one must be a course offered by the Department of Mathematics at the 4000 level or above

Total Credits

39

The mathematics major is expected to take the following upper-division core courses at UF: Linear Algebra, Abstract Algebra, Advanced Calculus 1 and 2, and either Advanced Calculus 1 and 2 or Advanced Calculus for Engineers and Physical Sciences 1 and 2. A combination of MAA 4211 and MAA 4103 is permissible for students in the B.A. track.

These courses are common to all math majors and most clearly define the experience of the mathematics major at UF.

Recommended Coursework for Both Degrees

All math majors are encouraged to meet the college distribution requirement in the physical sciences with the sequence PHY 2048/PHY 2049 or the sequence PHY 2060/PHY 2061. Math majors should also take no mathematics course at the 3000 level or below that is not on the lists of core courses or approved electives, except with advisor approval. Students who want to pursue careers in applied mathematics are urged to take STA 4321/STA 4322 and learn a scientific programming language.

Recommended Coursework for B.A.

B.A. students can use their electives choices creatively. By choosing courses in statistics, computer science, physics, and industrial engineering from the list below, math B.A. majors can enhance their career prospects in applied math, data analysis, information technology and operations research.

Math majors who plan to teach secondary-school mathematics should investigate the UFTeach program (http://education.ufl.edu/uf-teach/) and they should include MTG 3212, MAA 4402 and STA 4321 among their electives.
Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=270101&track=01) may be used for transfer students.

Semester 1
- Complete MAC 2311
- 2.0 UF GPA required

Semester 2
- Complete MAC 2312
- 2.0 UF GPA required

Semester 3
- Complete MAC 2313
- 2.0 UF GPA required

Semester 4
- Complete MHF 3202 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5
- Complete MAS 4105 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6
- Complete at least 1 3000/4000 mathematics elective
- 2.0 UF GPA required

Semester 7
- Complete MAA 4102
- Complete at least 2 3000/4000 mathematics electives
- 2.0 UF GPA required

Semester 8
- Complete all remaining mathematics major requirements
- 2.0 UF GPA required

Model Semester Plan

The semester plans below are sample programs; they may be adjusted to reflect background and goals. Students should consult a department advisor in 358 Little Hall early to plan their programs.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Bachelor of Science
Studying Mathematics develops such skills as critical thinking, oral and written communication, arguing logically and rigorously, thinking abstractly, formulating and solving problems, analyzing data, analyzing mathematical models, quantitative and computer proficiency, and the ability to work in groups. Employers value these skills; consequently, Mathematics majors find themselves in demand by employers for careers in a wide spectrum of fields.

About this Program
• College: Liberal Arts and Sciences (p. 978)
• Degrees: Bachelor of Arts (p. 1385) | Bachelor of Science (p. 1390)
• Credits for Degree: 120
• More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
Graduates from the Department of Mathematics might take a job that uses their math major in an area like statistics, biomathematics, operations research, actuarial science, mathematical modeling, cryptography, or mathematics education. Or they might continue into graduate school leading to a research career. Professional schools in business, law, and medicine appreciate mathematics majors because of the analytical and problem solving skills developed in the math courses.

CONTACT
Email (undergraduatecoordinator@math.ufl.edu) | 352.294.2350
The Department of Mathematics offers two undergraduate degree programs in mathematics:

**Bachelor of Arts**
Intended for students who wish to pursue a career in a mathematical field or to teach mathematics at the secondary-school level, but who do not currently contemplate graduate study in mathematics.

**Bachelor of Science**
Intended for students who wish to pursue graduate study in mathematics as well as for other strong students with a deep interest in mathematics.

### Coursework for the Major

Students are required to take eight core courses, providing a broad base in mathematics, and four electives chosen from a list of approved courses. All but two of the core courses are the same for both degrees. Students pursuing the B.A. degree have greater flexibility in their choice of electives, facilitating the possibility of a double-major with another scientific discipline.

A minimum of 39 credits of mathematics and mathematics-approved electives is required for each degree. All coursework for the major must be completed with minimum grades of C, with the exception of MAS 4105 for students in the B.S. specialization, which requires a minimum grade of B.

### Relevant Minors and/or Certificates

Mathematics majors are encouraged to consider taking a minor in computer science, industrial and systems engineering, physics, or statistics. The Department of Statistics offers a minor in actuarial science. In addition, the UFTeach program offers a minor in mathematics teaching.

### UFTeach Program

There is a severe shortage of qualified high school mathematics teachers in Florida and nationwide. Students interested in entering this high-demand profession should see a departmental advisor about the UFTeach program. Mathematics majors in this program complete the requirements for the UFTeach minor in mathematics, as well as those for the B.A. or B.S. in mathematics. These students graduate with all the coursework and preparation the State of Florida requires for professional certification as a high school mathematics teacher.

More Info ([http://education.ufl.edu/uf-teach/](http://education.ufl.edu/uf-teach/))

### Research

Research and scholarly opportunities are described on the mathematics website under Opportunities for Undergraduates.

### Combination Degree Programs

Mathematics majors who complete the requirements for major by the end of the junior year are eligible for the combination-degree program. Students in this program take the graduate sequences MAA 5228 and MAA 5229 and MAS 5311 and MAS 5312 in their senior year. These 12 credits, which apply toward the undergraduate degree, will then also apply toward a master’s degree in mathematics if the student is admitted to the graduate program. The student should successfully complete this degree with one full-time year of graduate school following receipt of a bachelor’s degree.

### Bachelor of Science

The Bachelor of Science (B.S.) is intended for students who wish to pursue graduate study in mathematics as well as for other strong students with a deep interest in mathematics.

12

Total Credits
39

1 Students must earn a minimum grade of B in MAS 4105 before taking MAA 4211.

The mathematics major is expected to take the following upper-division core courses at UF: Linear Algebra, Abstract Algebra, and either Advanced Calculus 1 and 2 or Advanced Calculus for Engineers and Physical Sciences 1 and 2. A combination of MAA 4211 and MAA 4103 is permissible for students in the B.A. track.

These courses are common to all math majors and most clearly define the experience of the mathematics major at UF.

Recommended Coursework for Both Degrees

All math majors are encouraged to meet the college distribution requirement in the physical sciences with the sequence PHY 2048/PHY 2049 or the sequence PHY 2060/PHY 2061. Math majors should also take no mathematics course at the 3000 level or below that is not on the lists of core courses or approved electives, except with advisor approval. Students who want to pursue careers in applied mathematics are urged to take STA 4321/STA 4322 and learn a scientific programming language.

Recommended Coursework for B.S.

Students who want to pursue graduate study in a Ph.D. program in mathematics should complete MAS 4301 and MAA 4211/MAA 4212 by the end of their junior year. They should include MAS 5311 and MAA 4226 among their electives, and they are encouraged to take more than four electives.

Graduate tuition fees will apply for MAS 5311.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=270101&track=01) may be used for transfer students.

Semester 1
• Complete MAC 2311
• 2.0 UF GPA required

Semester 2
• Complete MAC 2312
• 2.0 UF GPA required

Semester 3
• Complete MAC 2313
• 2.0 UF GPA required

Semester 4
• Complete MHF 3202 with a 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required
### Semester 5
- Complete MAS 4105 with a minimum grade of B and a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester 6
- Complete at least 1 3000/4000 mathematics elective
- 2.0 UF GPA required

### Semester 7
- Complete MAA 4211 or MAA 4226
- Complete at least 2 3000/4000 mathematics electives
- 2.0 UF GPA required

### Semester 8
- Complete all remaining mathematics major requirements
- 2.0 UF GPA required

---

### Model Semester Plan

The semester plans below are sample programs; they may be adjusted to reflect background and goals. Students should consult a department advisor in 358 Little Hall early to plan their programs.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

Academic Learning Compact

The major in mathematics enables students to develop proficiency in calculus, differential equations, advanced calculus, linear algebra and abstract algebra, and expose them to several other mathematical areas beyond these core fields. Students will learn to read and to construct mathematical proofs, to reason in abstract mathematical systems and to use mathematical models. Students will also acquire the ability to read new mathematics and to formulate mathematical models and arguments.

Before Graduating Students Must

- Be evaluated on your responses to certain examination questions in upper-division courses that are required for your degree.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

   Bachelor of Science: Explain conceptual and computational competency in core mathematics: calculus, differential equations, advanced calculus, linear algebra and abstract algebra.

Critical Thinking

2. Identify correct mathematical arguments in abstract mathematical systems.
3. Develop and analyze mathematical models of scientific problems.

Communication

4. Develop and write correct mathematical arguments.

Mathematics Minor

The College of Liberal Arts and Sciences is the largest college on campus, with more than 10,000 undergraduate students pursuing a variety of disciplines through over 40 majors and 49 minors. Undergraduate students acquire an intellectual foundation based on a well-rounded and comprehensive education designed for an increasingly technological and rapidly changing society.

About this Program

- College: Liberal Arts and Sciences (p. 978)
- Credits: 23-24 | Completed with minimum grades of C

Department Information

Graduates from the Department of Mathematics might take a job that uses their math major in an area like statistics, biomathematics, operations research, actuarial science, mathematical modeling, cryptography, or mathematics education. Or they might continue into graduate school leading to a research career. Professional schools in business, law, and medicine appreciate mathematics majors because of the analytical and problem solving skills developed in the math courses.

Curriculum

- Combination Degrees
- Mathematics
- Mathematics Minor

Open to students not majoring in mathematics.

The linear algebra course and three 4000-level electives must be taken from the UF Department of Mathematics; no substitutions from other institutions or departments are allowed.

A prerequisite for admission to the minor is prior completion of one of these 4000-level courses with a minimum grade of C+.

Of the total credits, no more than three may be individual work. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

1 Three courses at the 4000 level or above, excluding MAS 4105; all three courses must be taken at UF.

## Medical Anthropology Certificate

The Medical Anthropology certificate provides an intensive foundation in medical anthropology for undergraduate anthropology and non-anthropology majors. Courses emphasize the role that biology, culture, language, and prehistory play in human health, and the experience of healing across cultures.

### About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Credits:** 12 | Completed with a 3.0 GPA average in all attempted courses

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

### Department Information

Anthropology lies at the intersection of the multiple approaches to the study of humankind that characterize other disciplines – biological, social, cultural, historical, linguistic, cognitive, material, technological and aesthetic – because of its unique holistic perspective. These multiple approaches are encapsulated in the four traditional subfields that have composed the discipline since its establishment in the 19th century: cultural (http://sites.clas.ufl.edu/anthropology/department-subfields/cultural-anthropology/), archaeological (http://sites.clas.ufl.edu/anthropology/department-subfields/archaeology/), biological (http://sites.clas.ufl.edu/anthropology/department-subfields/biological-anthropology/) and linguistic (http://sites.clas.ufl.edu/anthropology/department-subfields/linguistic-anthropology/) anthropology.

Medical Geography in Global Health Minor

The world faces a pressing need for geographic theories, methods, and techniques to address global health issues. The Medical Geography in Global Health minor provides training in spatial disease ecology, global health, and essential geostatistical approaches to public health. Hands-on experiences of geospatial analysis are emphasized through lab-based applications.

Medieval and Early Modern Studies Minor

The Medieval and Early Modern Studies minor focuses on medieval and early modern European culture and its influences on the modern world. Students acquire historical perspectives that contribute to current discussions about ethnicity and nationality, colonialism, technologies and their effects, gender and sexuality, and the characteristics of historical and fictional narratives.

About this Program
• College: Liberal Arts and Sciences (p. 978)
• Credits: 18 | Completed with minimum grades of C

Related Programs
• Medieval and Early Modern Studies

Requirements
Of the required credits, at least six credits must be at the 3000 level and at least three credits must be at the 4000 level. An additional 3-credit requirement is completion of a 2000-level foreign language course.
Courses (http://mems.center.ufl.edu/mems-courses/)
Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

---

**Meteorology and Climatology Certificate**

The Meteorology and Climatology certificate provides a working knowledge of atmospheric processes across spatial and temporal scales. This certificate is applicable to many disciplines in the physical sciences and enables students to supplement their majors with an understanding and awareness of the societal impacts of natural hazards and climate change.

**About this Program**

- **College:** Liberal Arts and Sciences (p. 978)
- **Credits:** 12 | Completed with minimum grades of B- in each course
- **More Info**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

**Department Information**

The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, B.A. and B.S. undergraduate degrees, M.A., M.S., and PhD degrees, as well as the largest Medical Geography program in the United States.

Microbiology and Cell Sciences | CLAS

The Bachelor of Science in Microbiology and Cell Sciences offers students flexibility in a curriculum that develops an excellent knowledge base and an understanding of concepts in microbiology, cell biology, and the biomolecular sciences. Emphasizes application of the scientific method to gain an understanding of the biological world at the cellular and molecular levels. Students learn to evaluate hypotheses, to interpret experimental data, and to communicate results effectively.

About this Program
• College: Liberal Arts and Sciences (p. 978)
• Degree: Bachelor of Science
• Credits for Degree: 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Microbiology and Cell Science is committed to excellence in education, research and service to the community. The curriculum provides an excellent preparation for students who wish to enter the workforce or continue their education in professional programs such as medical, dental, pharmacy, veterinary programs, graduate school or public health degrees. B.S. degrees are offered through both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences and the M.S. and Ph.D. degrees are offered through the College of Agricultural and Life Sciences. Combination degrees are available.

Curriculum
• Bioinformatics Minor
• Combination Degrees
• Microbiology and Cell Science UF Online
• Microbiology and Cell Sciences | CALS
• Microbiology and Cell Sciences | CLAS
• Pathogenesis Minor

This major prepares students for entry into professional programs in medicine, dentistry, and veterinary medicine and provides a strong foundation for graduate studies in microbiology, cell biology, and related cellular and biomedical sciences. The major also provides a background for entry into government, industrial research, and diagnostic laboratories.

The curriculum develops fundamental knowledge of prokaryotic and eukaryotic cells and viruses. Courses include the physiology and genetics of microorganisms, mechanisms of pathogenesis and innate immunity systems, astrobiology, bacterial and genome sequencing and bioinformatics.

More Info (http://microcell.ufl.edu/undergraduate-programs/)

Coursework for the Major
All majors must complete 28 credits: 18 credits of core requirements, at least 6 credits of department electives, and 3 credits for the quantitative requirement. A minimum of one credit in an advanced laboratory is required in addition to the 6 department-elective credits. In addition, students must complete 35-38 hours of required foundation coursework.

Minimum grades of C within two attempts, including withdrawals, are required in all critical-tracking courses, major courses, department core requirements, department electives and the quantitative requirement. Second attempts must be completed the next semester of enrollment. A cumulative 2.0 GPA is also required.

All majors must complete the biology and general chemistry sequences and calculus by the end of the sophomore year. Organic Chemistry, CHM 2210, must be completed by the end of tracking term five. To continue in the major, students must attain a cumulative GPA in these graded courses of no less than 2.5 and with no grade lower than a C.

Total Credits 21

If students take both "or" classes, one will count as a core course and the other will roll over into the 10-credit department elective requirement.

# Department Elective Requirement

A total of 6 credits of approved department electives, and additionally one credit in an advanced lab, are required. The list of approved department electives is available on the department website. A maximum of four credits of approved department electives may be taken in other departments.

# Programming or Biostatistics Requirement

A total of 3 credits of approved courses meets this requirement. Select from BSC 2891, MCB 4325C, or an equivalent biostatistics programming class. Several of these courses are also department electives and cannot be used to fulfill both the quantitative and the department elective requirements. No overlap is allowed. STA 2023 will not fulfill this requirement.
Course Details

MCB 4911 may be taken for a maximum of three credits per semester and six credits total. This policy also applies to microbiology and cell science majors registered for undergraduate research in other departments’ undergraduate research courses, such as BCH 4905, BMS 4905, ZOO 4911, etc.

MCB 4934 is often used for TA positions as “Supervised Teaching.” TA positions may be repeated for a total of two semesters.

Enrollment in MCB 4911, MCB 4905 and MCB 4934 (Supervised Teaching) will not fulfill any credits toward the microbiology major requirements; they will count only as general elective credit toward the 120 credits for the B.S. degree.

Combination Degree Program

A Bachelor of Science and Master of Science (non-thesis) program is offered by the College of Agricultural and Life Sciences. Microbiology majors in both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences are eligible for admission to the Combination Degree Program. Other combination programs are available. For more information, please speak with an advisor.

• Combination Degrees

Relevant Minors and/or Certificates

The Microbiology and Cell Science Department also offers an undergraduate minor in bioinformatics to students majoring in any biology-related subject, including and not limited to microbiology, biology, or biochemistry.

So integrated is bioinformatics with biology that it is difficult to find an active research program that does not rely on bioinformatic analysis to achieve results. Unfortunately, the integration of bioinformatic and traditional methods is not stressed in many undergraduate programs, leaving the next generation of biologists without the skills they need to succeed in tomorrow’s research environment. The undergraduate minor in bioinformatics provides this critical training to future professionals in the biological disciplines.

Research

A majority of majors are actively involved in undergraduate research for credit with mentors throughout the university. Preprofessional and graduate school-bound majors are encouraged to do a minimum of two semesters of undergraduate research. The department has a comprehensive list of mentors across campus who allow undergraduate students to do valuable research under their guidance. Please refer to the department website for more information on undergraduate research, finding a mentor and a contact list of UF faculty who have worked with microbiology and cell science majors.

Enrollment in MCB 4911 will not fulfill any credits toward the microbiology major requirements; they will count only as general elective credit toward the 120 credits for the B.S. degree.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260503&track=01) may be used for transfer students.

Semester 1

• Complete CHM 1025 or CHM 2045/CHM 2045L
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 2

• Complete CHM 2045/CHM 2045L and MAC 2311
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 3

• Complete CHM 2046/CHM 2046L and BSC 2010/BSC 2010L
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required
 Semester 4
• Complete BSC 2011/BSC 2011L
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

 Semester 5
• Complete CHM 2210
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

 Semester 6
• Complete MCB 3023
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

 Semester 7
• Complete MCB 4203 (Fall) or PCB 4233 (Spring) or PCB 3134 (Fall/Spring) or MCB 4403 (Fall)
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

 Semester 8
• Complete MCB 4034L
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). Microbiology electives outside of the department do not count towards the 3000 level or above electives outside of the major requirement. CHM 2211, CHM 2211L, BCH 4024, PHY 2054, PHY 2054L, PHY 2049, and PHY 2049L may count towards 3000 level or above electives outside of the major.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 985).

Degree Comparison between the Colleges

</tbody>
</table>

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

ENC 1101 recommended.

MCB 4203 is taught only in fall; PCB 4233 is taught only in spring.

MCB 4304 is taught only in fall; PCB 4522 is taught only in spring.

A 2.5 GPA with minimum grades of C in the bolded science and math courses listed above is required to continue in the major after Semester 4.

**Academic Learning Compact**

The Bachelor of Science in microbiology and cell science, offered by both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences, offers students flexibility in a curriculum that develops an excellent knowledge base and an understanding of concepts in microbiology, cell biology and the biomolecular sciences. Emphasis will be placed on application of the scientific method to gain an understanding of the biological world at the cellular and molecular levels. Students will learn to evaluate hypotheses, to interpret experimental data and to communicate results effectively.

**Before Graduating Students Must**

Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Describe fundamental concepts, skills and processes in microbiology, molecular biology and in host/pathogen interactions.
2. Apply fundamental concepts, skills and protocols used to conduct research in fields of microbiology, molecular biology and in host/pathogen.

**Critical Thinking**
3. Evaluate information and data in the general areas of microbiology and the cellular and molecular biological sciences.
4. Solve typical problems that are encountered in general areas of microbiology and cellular and molecular biological sciences.

**Communication**
5. Communicate effectively in written form in a manner appropriate in microbiology and the cellular and molecular biological sciences.
6. Communicate orally (including visual aids) in an effective manner appropriate in microbiology and the cellular and molecular biological sciences.

**Philosophy**

Philosophy addresses the most fundamental problems that arise when reflecting on the nature of the world and our place in it. Philosophers ask questions such as: What can we know? What are the general features of reality? What is the relation between mind and body? How should one live?
About this Program

• **College:** Liberal Arts and Sciences (p. 978)
• **Degree:** Bachelor of Arts
• **Credits for Degree:** 120

*To graduate with this major, students must complete all university, college, and major requirements.*

Department Information

The Department of Philosophy addresses foundation questions. These are questions the answers to which inform our basic understanding of one or another domain of inquiry, or some fundamental aspect of the world or ourselves or our relation to the world.

Curriculum

• Combination Degrees
• Philosophy
• Philosophy Minor

Philosophical problem examination is primarily conceptual rather than empirical, in that philosophers seek to develop conceptual accounts adequate to the phenomena they want to understand. The study of philosophy equips one to address difficult issues with critical thinking and sound reasoning, skills essential to effective thought and communication.

This major is excellent preparation for professional schools in law, business, medicine and journalism, and for careers in the private and public sector. More Info (http://www.phil.ufl.edu/ugrad/ugrad-major.html)

Coursework for the Major

The major requires 33 credits of coursework in philosophy with minimum grades of C.

• Spring course information (http://www.phil.ufl.edu/courses/spring/latest/)

Research
It is possible to write an honors thesis, which involves independent research under the supervision of a faculty director. This is usually a two-semester process in the final year.
More Info (http://www.phil.ufl.edu/ugrad/ugrad-major.html)

Critical Tracking
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.
Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=380101&track=01) may be used by transfer students.

Semester 1
• 2.0 UF GPA required

Semester 2
• Complete 1 philosophy course
• 2.0 UF GPA required

Semester 3
• Maintain coursework from semester 2
• 2.0 UF GPA required

Semester 4
• Complete 1 additional philosophy course with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 5
• Complete 1 additional philosophy course (1 of the 3 courses must be at the 3000 level) with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

SEMESTER 6
• Complete 1 additional philosophy course (1 of the 4 courses must be taken from PHH 3100, PHH 3400, PHI 3130, PHI 3650, and either PHI 3300 or PHI 3500)

SEMESTER 7
• Complete 3 additional upper division philosophy courses (2 of the 7 courses must be taken from PHH 3100, PHH 3400, PHI 3130, PHI 3650, and either PHI 3300 or PHI 3500)

SEMESTER 8
• Complete 2 additional upper division philosophy courses (4 of the 9 courses must be taken from PHH 3100, PHH 3400, PHI 3130, PHI 3650, and either PHI 3300 or PHI 3500)

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). Generally, it is a good idea to take the area requirement courses as early as possible; in particular, PHI 3130 is best taken earlier rather than later.
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The major in philosophy provides a thorough knowledge of philosophical problems and arguments as well as critical thinking skills applicable to a wide variety of intellectual areas. Students will become familiar with key positions in the history of Western philosophy, learn how to navigate the contemporary philosophical terrain and acquire a working knowledge of formal logic. They will learn how to represent complex arguments in a clear and fair fashion, to evaluate them for cogency and to construct arguments of their own. Finally, students will become practiced in writing about abstract and elusive topics in a critical and compelling manner.

Before Graduating Students Must

• Earn minimum grades of C in all courses satisfying the major’s distribution requirements, thereby demonstrating achievement of SLOs 1-3.
• Complete a model paper in a 4000-level philosophy class with a minimum grade of B, thereby demonstrating achievement of SLOs 4-7.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe and explain the major questions addressed, the range of answers offered and the methods employed in the history of Western philosophy.
2. Identify, describe and explain the major arguments and options in core areas of contemporary philosophy, such as ethics, epistemology and metaphysics.
3. Employ the fundamental tools of formal logic, including the propositional and predicate calculus.

Critical Thinking
4. Discern the structure of arguments, to represent them fairly and clearly and to evaluate them for cogency.
5. Formulate original arguments, anticipating objections and responding in a conscientious fashion.

Communication
6. Read and discuss complex philosophical texts from both historical sources and contemporary works.
7. Speak and write clearly and persuasively about abstract and conceptually elusive matters.

Philosophy Minor

The Philosophy minor allows exploration of a variety of areas in the field, as well as complementing studies in other disciplines with a philosophically informed perspective.

About this Program

- College: Liberal Arts and Sciences (p. 978)
- Credits: 15 | Completed with minimum grades of C
- More Info

Department Information

The Department of Philosophy addresses foundation questions. These are questions the answers to which inform our basic understanding of one or another domain of inquiry, or some fundamental aspect of the world or ourselves or our relation to the world.

Physics

Physics is the most fundamental natural science. The laws of physics are the starting point for most scientific research and engineering applications. Students majoring in physics obtain broad-based knowledge and expertise applying these laws, as well as hands-on experience building electronic equipment and performing experiments.

About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Degrees:** Bachelor of Arts | Bachelor of Science
- **Specializations:** Bachelor of Arts (p. 1415) | Bachelor of Science (p. 1420) | Medical Physics (p. 1426) | Nanoscience (p. 1431) | Optics (p. 1435)
- **Credits for Degree:** 120
- **Contact:** Email (advising@phys.ufl.edu?Subject=Physics%20Major)
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Physics is making strides toward becoming one of the premier physics departments in the United States. With active groups in astrophysics, biological physics, condensed matter/materials physics, and elementary particle physics, undergraduate and graduate students participate in cutting-edge research that prepares them for successful careers in a wide variety of fields.

P.O. Box 118440
2001 Museum Road
Gainesville FL 32611-8545

Curriculum

- **Combination Degrees**
- **Physics**
- **Physics Minor**

A physics major provides a wide range of career options. Many students pursue further studies in physics, other scientific disciplines, and various branches of engineering and medicine. Professional physicists work in universities and government laboratories seeking answers to fundamental questions about nature, in industry leading the development of new technologies, and in the medical sector performing clinical service and research. The analytical, problem-solving, and communications skills acquired by physics majors also lead to career opportunities in business and finance.

The Department of Physics offers two undergraduate degree programs: The Bachelor of Science (B.S.) is intended for students who wish to pursue graduate study in physics as well as for other students with a deep interest in the subject. The Bachelor of Arts (B.A.) is intended for students who seek the benefits of a physics degree but desire greater flexibility to follow interests in other fields.

Coursework for the Major

Coursework for the major will depend upon the degree program chosen.

Courses for the B.S. or B.A. degree include four pairs of alternative courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHY 2048</td>
<td>Physics with Calculus 1</td>
<td>3</td>
</tr>
<tr>
<td>or PHY 2060</td>
<td>Enriched Physics with Calculus 1</td>
<td></td>
</tr>
<tr>
<td>PHY 2049</td>
<td>Physics with Calculus 2</td>
<td>3</td>
</tr>
<tr>
<td>or PHY 2061</td>
<td>Enriched Physics with Calculus 2</td>
<td></td>
</tr>
<tr>
<td>PHY 3101</td>
<td>Introduction to Modern Physics</td>
<td>3</td>
</tr>
<tr>
<td>or PHY 3063</td>
<td>Enriched Modern Physics</td>
<td></td>
</tr>
<tr>
<td>PHY 3221</td>
<td>Mechanics 1</td>
<td>3</td>
</tr>
<tr>
<td>or PHZ 3113</td>
<td>Introduction to Theoretical Physics</td>
<td></td>
</tr>
</tbody>
</table>

In each case, the second course includes selected advanced topics not covered in the first. While both courses prepare students for upper-level physics classes, students should see a department advisor to determine which course meets their needs.
Required coursework for each degree can be found below in the Critical Tracking section. Transfer students must take a minimum of 15 credits of required physics courses at UF.

Course Details
Several courses meet the criteria for the general education physical sciences (P) requirement. Some mathematical training (indicated in parentheses) is desirable or required for many of these courses. Of the courses below, only PHY 2048/PHY 2049 count toward the major.

<table>
<thead>
<tr>

<td></td>
</tr>
</tbody>
</table>

1 MAC 1147 provides mathematical training desirable or required for this course.
2 Students should check the prerequisites carefully before enrolling in a general physics course.

Placement
Students with Advanced Placement credit should consult the catalog’s Academic Advising section for course equivalencies. Sequences for advanced students are available from any physics advisor or the department website.

Research
All undergraduate majors are encouraged to participate in research activities. The majority of physics students participate in research during the academic year and/or through summer research programs. Advanced students may also be eligible to enroll in certain graduate courses, thereby accelerating their education. Physics majors are urged to confer with a department advisor as early as possible and especially as their educational goals evolve.

Academic Learning Compact
The laws of physics are the starting point for most scientific research and engineering applications. Students majoring in physics obtain broad-based knowledge and experience applying these laws as well as hands-on experience building electronic equipment and performing experiments. Many students go on to graduate study in physics, and a considerable number pursue advanced degrees in other science disciplines, all branches of engineering and medical school. Physics majors are employed in industry doing applied work and in academia seeking the answers to fundamental questions.

Before Graduating Students Must
• Pass the UF physics field test, which consists of five parts. One part is given in each of these required courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHY 2060 or PHY 3221</td>

Placement
Students with Advanced Placement credit should consult the catalog’s Academic Advising section for course equivalencies. Sequences for advanced students are available from any physics advisor or the department website.

Research
All undergraduate majors are encouraged to participate in research activities. The majority of physics students participate in research during the academic year and/or through summer research programs. Advanced students may also be eligible to enroll in certain graduate courses, thereby accelerating their education. Physics majors are urged to confer with a department advisor as early as possible and especially as their educational goals evolve.
Bachelor of Arts

The B.A. degree program is for students who want to major in physics but are not presently contemplating graduate studies in physics. It provides a good foundation in the fundamentals while offering increased flexibility in the major, through fewer required courses and more electives, and opportunity for parallel studies in another discipline and/or preprofessional studies.

The B.A. requires a minimum of 32 credit hours in physics plus 25 credits of related coursework. Minimum grades of C are required for coursework counted toward the major.

1. Select a course beyond MAP 2302. Certain computer science courses may substitute for the math elective.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 985).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400801&track=01) may be used for transfer students.

**Semester 1**

- Complete CHM 1025 or CHM 2045; or PHY 2048 or PHY 2060; and a MAC course with minimum grades of C
- 2.0 UF GPA required

**Semester 2**

- Complete CHM 2045/CHM 2045L and MAC 2311 with minimum grades of C
- 2.0 UF GPA required
Semester 3
• Complete CHM 2046, MAC 2312, and PHY 2048 or PHY 2060 with minimum grades of C
• 2.0 UF GPA required

Semester 4
• Complete MAC 2313; and PHY 2049 or PHY 2061 with minimum grades of C
• 2.5 critical-tracking GPA required
• 2.0 UF GPA required

Semester 5
• Complete MAP 2302 with a minimum grade of C
• Complete 2 required 3000-level physics courses with minimum grades of C
• 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 6
• Complete the remaining required 3000-level physics courses with minimum grades of C
• 2.0 UF GPA required

Semester 7
• Complete 2 required 4000-level physics courses with minimum grades of C
• 2.0 UF GPA required

Semester 8
• Complete the remaining required 4000-level physics courses with minimum grades of C
• 2.0 UF GPA required

Model Semester Plan
This plan is structured for students taking Calculus 1 the first semester. Students can have different schedules when they enter UF because of their backgrounds. In particular, students are encouraged to take Physics with Calculus 1 (PHY 2048 or PHY 2060) as soon as they have completed Calculus 1, even if this means delaying chemistry. For all physics courses, adequate mathematical preparation is essential and is built into the suggested plans. Physics majors should meet with a department advisor before planning their schedules.

Additional sample schedules are available on the department's website.
More Info (http://www.phys.ufl.edu/academics/undergraduate/degrees.shtml/)

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). MAC 2312, MAC 2313, MAP 2302, and math electives count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Identify, define and describe the core fields of physics: classical mechanics, electricity and magnetism, thermal physics and quantum mechanics.
2. Identify, define and explain experimental physics and data analysis.

Critical Thinking
3. Formulate, solve problems and draw conclusions from data.

Communication
4. Effectively and clearly communicate ideas in speech and in writing in an accepted style.

Bachelor of Science

Physics is the most fundamental natural science. The laws of physics are the starting point for most scientific research and engineering applications. Students majoring in physics obtain broad-based knowledge and expertise applying these laws, as well as hands-on experience building electronic equipment and performing experiments.

About this Program

- **College**: Liberal Arts and Sciences (p. 978)
- **Degrees**: Bachelor of Arts | Bachelor of Science
- **Specializations**: Bachelor of Arts (p. 1415) | Bachelor of Science (p. 1420) | Medical Physics (p. 1426) | Nanoscience (p. 1431) | Optics (p. 1435)
- **Credits for Degree**: 120
To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Physics is making strides toward becoming one of the premier physics departments in the United States. With active groups in astrophysics, biological physics, condensed matter/materials physics, and elementary particle physics, undergraduate and graduate students participate in cutting-edge research that prepares them for successful careers in a wide variety of fields.

Gainesville FL 32611-8545

Curriculum

- Combination Degrees
- Physics
- Physics Minor

A physics major provides a wide range of career options. Many students pursue further studies in physics, other scientific disciplines, and various branches of engineering and medicine. Professional physicists work in universities and government laboratories seeking answers to fundamental questions about nature, in industry leading the development of new technologies, and in the medical sector performing clinical service and research. The analytical, problem-solving, and communications skills acquired by physics majors also lead to career opportunities in business and finance.

The Department of Physics offers two undergraduate degree programs: The Bachelor of Science (B.S.) is intended for students who wish to pursue graduate study in physics as well as for other students with a deep interest in the subject. The Bachelor of Arts (B.A.) is intended for students who seek the benefits of a physics degree but desire greater flexibility to follow interests in other fields.

Coursework for the Major

Courses for the major will depend upon the degree program chosen.

Courses for the B.S. or B.A. degree include four pairs of alternative courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHY 2048 or PHY 2060</td>
<td>Physics with Calculus 1 Enriched Physics with Calculus 1</td>
<td>3</td>
</tr>
<tr>
<td>PHY 2049 or PHY 2061</td>
<td>Physics with Calculus 2 Enriched Physics with Calculus 2</td>
<td>3</td>
</tr>
<tr>
<td>PHY 3101 or PHY 3063</td>
<td>Introduction to Modern Physics Enriched Modern Physics</td>
<td>3</td>
</tr>
<tr>
<td>PHY 3221 or PHZ 3113</td>
<td>Mechanics 1 Introduction to Theoretical Physics</td>
<td>3</td>
</tr>
</tbody>
</table>

In each case, the second course includes selected advanced topics not covered in the first. While both courses prepare students for upper-level physics classes, students should see a department advisor to determine which course meets their needs.

Required coursework for each degree can be found below in the Critical Tracking section. Transfer students must take a minimum of 15 credits of required physics courses at UF.

Course Details

Several courses meet the criteria for the general education physical sciences (P) requirement. Some mathematical training (indicated in parentheses) is desirable or required for many of these courses. Of the courses below, only PHY 2048PHY 2049 count toward the major.

<table>

**Total Credits**

44

1. PHY 4905 and PHY 4911 are not acceptable for this requirement.

### Placement

Students with Advanced Placement credit should consult the catalog's Academic Advising section for course equivalencies. Sequences for advanced students are available from any physics advisor or the department website.

### Research

All undergraduate majors are encouraged to participate in research activities. The majority of physics students participate in research during the academic year and/or through summer research programs. Advanced students may also be eligible to enroll in certain graduate courses, thereby accelerating their education. Physics majors are urged to confer with a department advisor as early as possible and especially as their educational goals evolve.

### Bachelor of Science

The B.S. degree program is intended for students planning to do graduate work in physics or related science and engineering disciplines. The B.S. requires a minimum of 41 credits in Physics plus 28 credits of related coursework. Minimum grades of C are required for coursework counted toward the major.

Total Credits: 28

1. Select a course beyond MAP 2302. Certain computer science courses may substitute for the math elective.

- Minimum grades of C for coursework counted toward the major

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites ([http://www.flvc.org/cpp/displayRecord.jsp?cip=400801&track=01](http://www.flvc.org/cpp/displayRecord.jsp?cip=400801&track=01)) may be used for transfer students.

**Semester 1**
- Complete CHM 1025 or CHM 2045; or PHY 2048 or PHY 2060; and a MAC course
- 2.0 UF GPA required

**Semester 2**
- Complete CHM 2045/CHM 2045L and MAC 2311 with minimum grades of C
- 2.0 UF GPA required

**Semester 3**
- Complete CHM 2046, MAC 2312, and PHY 2048 or PHY 2060 with minimum grades of C
- 2.0 UF GPA required

**Semester 4**
- Complete MAC 2313; and PHY 2049 or PHY 2061 with minimum grades of C
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

**Semester 5**
- Complete MAP 2302 with a with a minimum grade of C
- Complete 2 required 3000-level physics courses with minimum grades of C
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

**Semester 6**
- Complete the remaining required 3000-level physics courses with minimum grades of C
- 2.0 UF GPA required

**Semester 7**
- Complete PHY 4802L or PHY 4803L
- Complete 2 required 4000-level physics courses in addition to PHY 4802L with minimum grade of C
- 2.0 UF GPA required

**Semester 8**
- Complete the remaining 4000-level physics courses required for Physics Majors with minimum grades of C
- Complete one 4000-level or higher Physics Elective with a minimum grade of C
- 2.0 UF GPA required

**Model Semester Plan**

This plan is structured for students taking Calculus 1 the first semester. Students can have different schedules when they enter UF because of their backgrounds. In particular, students are encouraged to take Physics with Calculus 1 (PHY 2048 or PHY 2060) as soon as they have completed
Calculus 1, even if this means delaying chemistry. For all physics courses, adequate mathematical preparation is essential and is built into the suggested plans. Physics majors should meet with a department advisor before planning their schedules.

Additional sample schedules are available from the department.

More Info (http://www.phys.ufl.edu/academics/undergraduate/degrees.shtml/)

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). MAC 2312, MAC 2313, MAP 2302, and upper-division math electives count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

**Medical Physics**

Physics is the most fundamental natural science. The laws of physics are the starting point for most scientific research and engineering applications. Students majoring in physics obtain broad-based knowledge and expertise applying these laws, as well as hands-on experience building electronic equipment and performing experiments.

**About this Program**

- **College**: Liberal Arts and Sciences (p. 978)
- **Degrees**: Bachelor of Arts | Bachelor of Science
- **Specializations**: Bachelor of Arts (p. 1415) | Bachelor of Science (p. 1420) | Medical Physics (p. 1426) | Nanoscience (p. 1431) | Optics (p. 1435)
- **Credits for Degree**: 120
- **Contact**: Email (advising@phys.ufl.edu?Subject=Physics%20Major)
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

**Department Information**

The Department of Physics is making strides toward becoming one of the premier physics departments in the United States. With active groups in astrophysics, biological physics, condensed matter/materials physics, and elementary particle physics, undergraduate and graduate students participate in cutting-edge research that prepares them for successful careers in a wide variety of fields.

**Curriculum**

- Combination Degrees
- Physics
- Physics Minor

A physics major provides a wide range of career options. Many students pursue further studies in physics, other scientific disciplines, and various branches of engineering and medicine. Professional physicists work in universities and government laboratories seeking answers to fundamental questions about nature, in industry leading the development of new technologies, and in the medical sector performing clinical service and research. The analytical, problem-solving, and communications skills acquired by physics majors also lead to career opportunities in business and finance.

The Department of Physics offers two undergraduate degree programs: The Bachelor of Science (B.S.) is intended for students who wish to pursue graduate study in physics as well as for other students with a deep interest in the subject. The Bachelor of Arts (B.A.) is intended for students who seek the benefits of a physics degree but desire greater flexibility to follow interests in other fields.
Medical Physics

The Physics B.S specialization in Medical Physics requires a minimum of 41 credits in Physics including a specific Physics elective, 3 specific courses outside of Physics (9-11 credits), and 28 other credits of related coursework. Minimum grades of C are required for coursework counted toward the major. The coursework is listed below in three different categories: Physics Required Coursework, Required Electives for the Medical Physics specialization, and Related Coursework required for all Physics B.S. degrees.

**Related Coursework**

- Three semesters of Calculus (MAC 2311, MAC 2312, MAC 2313; 12 credits)
- One year of college-level general chemistry, including one chemistry laboratory course (CHM 2045 and CHM 2046, CHM 2045L; 7 credits)
- Differential Equations MAP 2302 (3 credits)
- Six credits minimum in approved math courses beyond MAP 2302 Differential Equations.
- Certain computer science courses may substitute for one of the math electives.
- Minimum grades of C for coursework counted toward the major

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 985).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400801&track=01) may be used for transfer students.

**Semester 1**

- Complete CHM 1025 or CHM 2045; or PHY 2048 or PHY 2060; and a MAC course with minimum grades of C
- 2.0 UF GPA required
Model Semester Plan

This plan is structured for students taking Calculus 1 the first semester. Students can have different schedules when they enter UF because of their backgrounds. In particular, students are encouraged to take Physics with Calculus 1 (PHY 2048 or PHY 2060) as soon as they have completed Calculus 1, even if this means delaying chemistry. For all physics courses, adequate mathematical preparation is essential and is built into the suggested plans. Physics majors should meet with a department advisor before planning their schedules.

Additional sample schedules are available on the department’s website.
More Info (http://www.phys.ufl.edu/academics/undergraduate/degrees.shtml/)

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). MAC 2312, MAC 2313, MAP 2302, and math electives count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The laws of physics are the starting point for most scientific research and engineering applications. Students majoring in physics obtain broad-based knowledge and experience applying these laws as well as hands-on experience building electronic equipment and performing experiments. Many students go on to graduate study in physics, and a considerable number pursue advanced degrees in other science disciplines, all branches of engineering and medical school. Physics majors are employed in industry doing applied work and in academia seeking the answers to fundamental questions.

Before Graduating Students Must

- Pass the UF physics field test, which consists of five parts. One part is given in each of these required courses:

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 985).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400801&track=01) may be used for transfer students.

Semester 1

- Complete CHM 1025 or CHM 2045; or PHY 2048 or PHY 2060; and a MAC course with minimum grades of C
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311 with minimum grades of C
- 2.0 UF GPA required

Semester 3

- Complete CHM 2046, MAC 2312, and PHY 2048 or PHY 2060 with minimum grades of C
- 2.0 UF GPA required
Semester 4
• Complete MAC 2313; and PHY 2049 or PHY 2061 with minimum grades of C
• 2.5 critical-tracking GPA required
• 2.0 UF GPA required

Semester 5
• Complete MAP 2302 with a minimum grade of C
• Complete 2 required 3000-level physics courses with minimum grades of C (upper-division tracking)
• 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 6
• Complete the remaining required 3000-level physics courses with minimum grades of C
• Complete 1 of 4 courses required for the Nanoscience specialization
• 2.0 UF GPA required

Semester 7
• Complete PHY 4802L or PHY 4803L
• Complete 2 required 4000-level physics courses with minimum grades of C in addition to PHY 4802L
• Complete 2 of 4 courses required for the Nanoscience specialization
• 2.0 UF GPA required

Semester 8
• Complete the remaining required 4000-level physics courses with minimum grades of C
• Complete 1 4000-level or higher physics elective with a minimum grade of C
• Complete all 4 courses required for the Nanoscience specialization
• 2.0 UF GPA required

Model Semester Plan
This plan is structured for students taking Calculus 1 the first semester. Students can have different schedules when they enter UF because of their backgrounds. In particular, students are encouraged to take Physics with Calculus 1 (PHY 2048 or PHY 2060) as soon as they have completed Calculus 1, even if this means delaying chemistry. For all physics courses, adequate mathematical preparation is essential and is built into the suggested plans. Physics majors should meet with a department advisor before planning their schedules.

Additional sample schedules are available on the department’s website.
More Info (http://www.phys.ufl.edu/academics/undergraduate/degrees.shtml/)

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). MAC 2312, MAC 2313, MAP 2302, and math electives count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

**Optics**

Physics is the most fundamental natural science. The laws of physics are the starting point for most scientific research and engineering applications. Students majoring in physics obtain broad-based knowledge and expertise applying these laws, as well as hands-on experience building electronic equipment and performing experiments.
About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Degrees:** Bachelor of Arts | Bachelor of Science
- **Specializations:** Bachelor of Arts (p. 1415) | Bachelor of Science (p. 1420) | Medical Physics (p. 1426) | Nanoscience (p. 1431) | Optics (p. 1435)
- **Credits for Degree:** 120
- **Contact:** Email (advising@phys.ufl.edu?Subject=Physics%20Major)
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Physics is making strides toward becoming one of the premier physics departments in the United States. With active groups in astrophysics, biological physics, condensed matter/materials physics, and elementary particle physics, undergraduate and graduate students participate in cutting-edge research that prepares them for successful careers in a wide variety of fields.

Curriculum

- **Combination Degrees**
- **Physics**
- **Physics Minor**

A physics major provides a wide range of career options. Many students pursue further studies in physics, other scientific disciplines, and various branches of engineering and medicine. Professional physicists work in universities and government laboratories seeking answers to fundamental questions about nature, in industry leading the development of new technologies, and in the medical sector performing clinical service and research. The analytical, problem-solving, and communications skills acquired by physics majors also lead to career opportunities in business and finance.

The Department of Physics offers two undergraduate degree programs: The Bachelor of Science (B.S.) is intended for students who wish to pursue graduate study in physics as well as for other students with a deep interest in the subject. The Bachelor of Arts (B.A.) is intended for students who seek the benefits of a physics degree but desire greater flexibility to follow interests in other fields.

Optics

The Physics B.S. specialization in Optics requires a minimum of 41 credits in Physics including a specific Physics elective, 3 specific courses outside of Physics (9-11 credits), and 28 other credits of related coursework. Minimum grades of C are required for coursework counted toward the major. The coursework is listed below in three different categories: Physics Required Coursework, Required Electives for the Optics specialization, and Related Coursework required for all Physics B.S. degrees.

**Related Coursework**

- Three semesters of Calculus (MAC 2311, MAC 2312, MAC 2313; 12 credits)
- One year of college-level general chemistry, including one chemistry laboratory course (CHM 2045 and CHM 2046, CHM 2045L; 7 credits)
- Differential Equations MAP 2302 (3 credits)
- Six credits minimum in approved math courses beyond MAP 2302 Differential Equations.
- Certain computer science courses may substitute for one of the math electives.
- Minimum grades of C for coursework counted toward the major

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 985).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400801&track=01) may be used for transfer students.

**Semester 1**

- Complete CHM 1025 or CHM 2045; or PHY 2048 or PHY 2060; and a MAC course with minimum grades of C
- 2.0 UF GPA required

**Semester 2**

- Complete CHM 2045/CHM 2045L and MAC 2311 with minimum grades of C
- 2.0 UF GPA required

**Semester 3**

- Complete CHM 2046, MAC 2312, and PHY 2048 or PHY 2060 with minimum grades of C
- 2.0 UF GPA required

**Semester 4**

- Complete MAC 2313; and PHY 2049 or PHY 2061 with minimum grades of C
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

**Semester 5**

- Complete MAP 2302 with a minimum grade of C
- Complete 2 required 3000-level physics courses with minimum grades of C (upper-division tracking)
- 2.5 critical-tracking GPA
- 2.0 UF GPA required
Semester 6
• Complete the remaining required 3000-level physics courses with minimum grades of C
• Complete 1 of 4 courses required for the Optics specialization
• 2.0 UF GPA required

Semester 7
• Complete PHY 4802L or PHY 4803L
• Complete 2 required 4000-level physics courses with minimum grades of C in addition to PHY 4802L
• Complete 2 of 4 courses required for the Optics specialization
• 2.0 UF GPA required

Semester 8
• Complete the remaining required 4000-level physics courses with minimum grades of C
• Complete 1 4000-level or higher physics elective with a minimum grade of C
• Complete all 4 courses required for the Optics specialization
• 2.0 UF GPA required

Model Semester Plan
This plan is structured for students taking Calculus 1 the first semester. Students can have different schedules when they enter UF because of their backgrounds. In particular, students are encouraged to take Physics with Calculus 1 (PHY 2048 or PHY 2060) as soon as they have completed Calculus 1, even if this means delaying chemistry. For all physics courses, adequate mathematical preparation is essential and is built into the suggested plans. Physics majors should meet with a department advisor before planning their schedules.

Additional sample schedules are available on the department’s website.
More Info (http://www.phys.ufl.edu/academics/undergraduate/degrees.shtml/)

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). MAC 2312, MAC 2313, MAP 2302, and math electives count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

**Physics Minor**

The Physics minor consists of the complete sequence in general physics, modern physics, and two 3000/4000-level courses in the Physics major course sequence. Students should consult a physics advisor and obtain the required approval no later than the beginning of the junior year.

**About this Program**

- **College**: Liberal Arts and Sciences (p. 978)
- **Credits**: 17 | Completed with minimum grades of C

**Department Information**

The Department of Physics is making strides toward becoming one of the premier physics departments in the United States. With active groups in astrophysics, biological physics, condensed matter/materials physics, and elementary particle physics, undergraduate and graduate students participate in cutting-edge research that prepares them for successful careers in a wide variety of fields.

**Curriculum**

- Combination Degrees
- Physics
- Physics Minor

All 3000/4000-level courses must be taken from the UF Department of Physics. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Students pursuing an astronomy major must complete six credits of physics coursework beyond what is required for the astronomy major before they will be approved for the physics minor.

The following cannot count toward this minor:

<table>

Two 3000/4000-level courses in the physics major course sequence: 6 credits total

**Total Credits:** 17

---

**Political Campaigning Certificate**

Political science and non-major students may pursue undergraduate training in campaigns and elections, earning a Political Campaigning certificate. The certificate is designed for students who may pursue careers in practical politics, including campaign management, lobbying, and issue advocacy.

**About this Program**

- **College:** Liberal Arts and Sciences (p. 978)
- **Credits:** 18 | Completed with minimum grades of C
- **Contact**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

**Department Information**

The Department of Political Science provides a high quality educational program for undergraduate students as well as a rigorous honors program (http://sites.clas.ufl.edu/polisci/undergraduate/programs/undergraduate-honors/). The department also offers a highly selective graduate education ranging from innovative M.A. programs to a comprehensive Ph.D. program.

Students may petition the director of the political campaigning program for permission to substitute one other course for one of the courses in the electives list.

Political Science

The Political Science major prepares students for a wide range of careers in government, non-governmental organizations, politics, law, and the private sector. Students take coursework in areas as diverse as American and comparative politics, political theory, international relations, public policy, and public administration.

About this Program

- College: Liberal Arts and Sciences (p. 978)
- Degree: Bachelor of Arts
- Credits for Degree: 120
- More Info

To graduate with this major, students must complete all university, college, and major requirements.
Department Information

The Department of Political Science provides a high quality educational program for undergraduate students as well as a rigorous honors program (http://sites.clas.ufl.edu/polisci/undergraduate/programs/undergraduate-honors/). The department also offers a highly selective graduate education ranging from innovative M.A. programs to a comprehensive Ph.D. program.

Map (http://campusmap.ufl.edu/#/index/0007)

Curriculum

• Combination Degrees
• International Relations Certificate
• Political Campaigning Certificate
• Political Science
• Public Affairs Certificate

Political science majors are encouraged to serve in a political internship and participate in an overseas studies program. There are also numerous opportunities for students to conduct independent research with faculty. Recent graduates serve throughout federal, state and local government, attend law and graduate school, and work in the non-profit and private sectors.

Students leave the major with an understanding of how politics and government operate, an appreciation for the values governments pursue, and the critical and analytic skills necessary for understanding the empirical and normative dimensions of the political world.

Coursework for the Major

Majors must complete 30 credits of political science coursework, plus STA 2023, all with minimum grades of C. A minimum of 15 credits of political science courses (of the 30 required) must be completed at UF, per the department’s residency requirement.

Required Coursework

• 30 credits of political science coursework, including 3 of these 4 core courses:

<table>
<thead>
<tr>
<th>Code</th>

• The remaining political science courses may include:
  • No more than three additional credits of 1000/2000-level courses
  • Additional courses at the 3000 level or higher, including
    • No more than three credits of POS 4905
    • No more than three credits of POS 4940 (graded S/U)

Required Coursework

• STA 2023

Recommended Coursework

The following centers and programs are affiliated with the Department of Political Science. Many of them offer minors and/or certificates that complement a degree in political science.

The Bob Graham Center for Public Service

A community of students, scholars and politically engaged citizens devoted to enhanced citizenship; the training of current and future public and civic leaders who can identify problems and spearhead change; and the development of policy on issues of importance to Florida, the United States and the global community. The center offers a minor in public leadership (p. 1482), an interdisciplinary program of study that provides students with the skills and knowledge critical to serving as effective and ethical public leaders.
More Info
The Bob Graham Center was established in 2006 with the goal of creating a community of students, scholars, and citizens who share a commitment to revitalizing the civic culture of Florida and the nation. Former Governor and U. S. Senator Bob Graham founded the Center as a place where students acquire the skills and knowledge to become informed citizens, with the expressed purpose of strengthening the nation's democratic institutions. Curriculum
• Public Leadership Minor

The Center for African Studies
Promotes excellence in teaching and research on Africa in all disciplines at the University of Florida. In addition to undergraduate education, the center promotes and supports graduate studies as essential for the development of a continuing community of Africanist scholars. The center has over 100 affiliated teaching and research faculty in a variety of fields, including languages, the humanities, the social sciences, agriculture, business, engineering, education, fine arts, environmental studies and conservation, journalism, and law. The center offers an African studies minor (p. 998) that provides a multidisciplinary grounding in an important world area for those who want to pursue careers in a range of professions as well as for those who intend to go on to graduate school.

More Info
As a National Resource Center for African Studies, the mission of the center is to promote excellence in teaching and research on Africa in all the disciplines at the University of Florida. The Center for African Studies also disseminates knowledge about Africa to the wider community through an integrated outreach program to schools, colleges, community groups, and businesses. Curriculum
• African Studies Minor

The Center for European Studies
Designed to assist in the development of area and language skills among students through fostering rich academic and cultural environments, including broad language and areas studies courses, degree options, and study abroad opportunities. It also fosters greater international awareness in the broader community through educational programs for state and local government, business organizations, K-12 students and teachers, the media and the general public. The center offers a

• European Union studies certificate (p. 1188) and minor (p. 1187), which are designed to give students the opportunity to gain European Union expertise through multidisciplinary coursework.

• East-Central European studies certificate (p. 1174) and minor (p. 1173), which give students the opportunity to study Eastern and Central Europe from an interdisciplinary perspective that incorporates both area and language studies.

More Info
The Center for European Studies (CES), housed within the College of Liberal Arts & Sciences (CLAS), is an interdisciplinary area studies center focused on the study of Europe, and facilitating the training of scholars and experts in European studies in the United States. In addition to the minors, certificates, and major, the center offers study abroad programs in Europe and various scholarships and grants for undergraduates. Website (https://ces.ufl.edu/)

3324 TURLINGTON HALL
The Center for Jewish Studies
Provides an undergraduate, interdepartmental curriculum that serves as a basis for understanding the broad spectrum of Jewish culture, religion, and civilization. The center offers both a major and minor (p. 1367) through the College of Liberal Arts and Sciences. These may serve as preparation for graduate work in Jewish studies and the rabbinate, as background for a career in Jewish education or community service, or as an area of special interest which enriches the undergraduate experience.

The Center for Gender, Sexualities, and Women's Research

An interdisciplinary forum for the study of gender and sexualities, their intersections with race/ethnicity, class, and other sociocultural systems. The Center’s core faculty members have expertise in gender, race/ethnicity, and sexualities/LGBTQ+ studies; feminist intersectional analysis; transnational and postcolonial feminist analysis; Chicana/o, Latina/o, Afro-Latino Studies, Haitian and Caribbean studies; and cultural and literary studies. They apply this expertise in the study of critical domains such as collective identity and activism, health and medicine, law and politics, immigration, work, leadership and business, history, literatures and cultures, media and art, and social movements. In addition, the Center has over 100 affiliate faculty members with wide-ranging expertise and course offerings. Besides the major (p. 1541) in Women's Studies, students may pursue one of three minors: Women's Studies (p. 1546), Theories and Politics of Sexuality (p. 1540), and Health Disparities in Society (p. 1297).

More Info

The Center for Gender, Sexualities, and Women's Research advances research, teaching, and leadership on how multiple systems of power intertwine to shape culture, society, and people’s lived experiences. Students explore how gender, class, race, sexuality, and other systems of power shape important domains such as health, work, culture, media, politics, leadership, and organizations. Students also learn how to put this knowledge into practice to transform these systems.

- Women's Studies Minor

Combination Degree Program

The combination bachelor’s/master’s degree program is designed for superior students who have the ability to pursue an accelerated program in political science leading to the Master of Arts in political science. This program is not generally recommended for students considering a Ph.D. program in political science at UF. Admission to the combination-degree program is highly competitive and therefore very limited numbers of students are approved for this program.

Students in the combination program may pursue the general M.A. in political science or certificates in public affairs or political campaigning. Up to 12 semester credits of approved graduate-level political science courses can be used as dual credit for both degrees. All other requirements for the bachelor’s and the master’s degrees must be satisfied. For more application process information, contact the undergraduate and graduate coordinators in the Department of Political Science.

- Combination Degrees

Overseas Studies

Majors are encouraged to seek out opportunities for international study, during the summer or for the academic year. The credit generally will be applied toward the major and the degree. Contact the undergraduate coordinator about credit for study abroad. Visit the UF International Center in room 170 of the Hub for more information.

Relevant Minors and Certificates

International Relations Certificate

Political science and non-major students who are interested in international relations can pursue undergraduate training in two ways: through an interdisciplinary major in International Studies that includes courses on comparative politics and international relations or through a certificate in international relations. Credits earned toward the certificate also count toward the political science major. More information can be found under interdisciplinary studies majors listing and certificate programs.

- International Relations Certificate
Political Campaigning Certificate
The Department of Political Science offers a certificate in political campaigning to its undergraduate majors. The certificate is designed for students who may wish to consider pursuing careers in practical politics, including campaign management, lobbying, issue advocacy, and others. Credits earned toward the certificate also count toward the political science major. Additional information is available on the department website.

- Political Campaigning Certificate

Public Affairs Certificate
The certificate in public affairs is designed for those students interested in a career in or near government. Students take courses in public administration, policy process, policy analysis and one or more substantive policy courses in foreign policy, education, health, immigration, civil rights, welfare, or environmental protection. Credits earned toward the certificate also count toward the political science major. The certificate is open to non-political science majors as well. Additional information is available on the department website.

- Public Affairs Certificate

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=451001&track=01) may be used for transfer students.

Semester 1
- Complete 1 of 4 political science critical-tracking courses: CPO 2001, INR 2001, POS 2041, or POT 2002
- 2.0 UF GPA required

Semester 2
- Complete 1 additional political science critical-tracking course or STA 2023 with a 2.25 critical-tracking GPA
- 2.0 UF GPA required

Semester 3
- Complete 1 additional political science critical-tracking course or STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 4
- Complete 3 of 4 political science critical-tracking courses and STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5
- Complete 1 additional political science course at the 3000 level or higher with a minimum grade of C and maintain a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6
- Complete 1 additional political science course at the 3000 level or higher with a minimum grade of C and maintain a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 7
- Complete 1 additional political science course at the 3000 level or higher with a minimum grade of C and maintain a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 8
- Complete 1 additional political science course at the 3000 level or higher with a minimum grade of C and maintain a 2.5 critical-tracking GPA
- 2.0 UF GPA required
**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

Because a large number of political science courses are approved for general education social and behavioral sciences, the plan below assumes students will take at least 9 credits of GE-S courses. Students should monitor their progress toward general education in their degree audit to ensure they meet the GE-S requirement.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

Total Credits 120

1 If POS 2041 not taken previously.

2 Students are encouraged to use some electives to pursue a minor.

Academic Learning Compact

The major in political science provides an understanding of how government and politics operate in the U.S. and elsewhere. Students will develop the critical analytic and research skills to study government and politics and be able to articulate information and ideas about government and politics.

Before Graduating Students Must

- Complete 30 credits of political science coursework with minimum grades of C, including a minimum of 18 credits at the 3000/4000 levels.
- Complete an introductory statistics course.
- Complete two 3000/4000-level political science courses with a writing component, graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe and define basic factual information and analytical concepts concerning political systems.

Critical Thinking
2. Analyze political issues and phenomena using political science concepts, theories and methods through internships and research projects.

Communication
3. Use argument and evidence effectively to communicate original analysis of political phenomena.

Portuguese

Hispanic and Latin American Languages, Literatures and Linguistics

Focusing on globalization, diversity, and public engagement, the Hispanic and Latin American Languages, Literatures and Linguistics major provides an interdisciplinary, multilingual approach to the study of Spanish- and Portuguese-speaking cultures drawing from a variety of contemporary perspectives on linguistics, literature, film, theatre, social service, and professions in health, law, business, education, and media.

About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Degree:** Bachelor of Arts
- **Specializations:** Spanish (p. 1509) | Portuguese (p. 1450) | Spanish and Portuguese (p. 1309)
- **Credits for Degree:** 120
- **Contact**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Spanish and Portuguese Studies endeavors to achieve excellence in research, teaching, and public service related to the languages, literature, and cultures of the areas and countries where Spanish and Portuguese are spoken.

Website (http://spanishandportuguese.ufl.edu/)

Curriculum

- Combination Degrees
- Hispanic and Latin American Languages, Literatures and Linguistics
- Portuguese
- Portuguese Minor
- Spanish
- Spanish and Portuguese
- Spanish for the Professions Certificate

Related Programs

- Latin American Studies Certificate
- Latin American Studies Minor

The Hispanic and Latin American Languages, Literatures and Linguistics major offers the opportunity to gain proficiency in Spanish and/or Portuguese, two of the most important languages spoken in the United States, the Western Hemisphere and the world. The department offers courses of study in language, culture, linguistics, and literature, as well as a series of courses in languages for the professions, which focus on medical, legal, business and other professional contexts.
By studying the literary and linguistic heritage of Spanish and Portuguese, students gain critical reading and writing skills that help them acquire and refine their abilities to speak, understand, read and write one of both of these languages.

The Spanish specialization focuses on the language and culture of Spain and Spanish-America, while the Portuguese specialization stresses the language and culture of Brazil, with complementary study of Portugal and Lusophone Africa. The combined specialization recognizes the increasingly prominent roles that Brazil, Spain and Latin America all play in international affairs, especially as they relate to Florida. Spanish- and Portuguese-speakers constitute the fastest growing immigrant populations in Florida. Studying both languages and cultures provide a competitive edge for those seeking careers in business, industry, tourism, health care, agricultural affairs, government, and education.

**B.A. in Portuguese**

The major requires 33 credits, beginning with foundational work in Portuguese and then moving on to more advanced coursework in language, culture and literature.

Students must earn minimum grades of C for coursework to count toward the major.

**POR 3010** is an accelerated course for speakers of Spanish (or French). It fulfills the CLAS foreign language requirement but it does not count as a 3000-level course for the major requirements. **POR 3010 will satisfy the same requirement as the POR 1130/POR 1131 sequence.**

**Required Coursework**

- POR 3242
- 30 additional hours of POR or POW courses at the 3000 and 4000 levels.
  - A minimum of 12 credits must be at the 4000 level.
  - Only one class in English (PRT) can count towards the major, substituting for POR/POW.
  - Classes must be passed with a grade of C or better in order to be counted for the major.
  - Two Individual Work courses (POW 4905) may be accepted as part of the major’s requirements.
  - Select courses outside the department may also count toward the major under special conditions.

**Overseas Study**

The university sponsors a reasonably priced summer B program in Rio de Janeiro, Brazil. Majors and minors are encouraged to participate at the 3000/4000 level, where they will earn six credits. The program also fulfills the summer residency requirement.

**Placement**

See the undergraduate coordinator for placement information, especially for transfer students and heritage speakers.

**Relevant Minors and/or Certificates**

Majors may want to pursue a certificate in Latin American Studies.

**Research**

Students who wish to complete a senior thesis for honors should consult Portuguese faculty at least two semesters in advance of graduation.

---

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160904&track=01) may be used for transfer students.

**Semester 1**

- 2.0 UF GPA required

**Semester 2**

- 2.0 UF GPA required
Semester 3
• Complete POR 1130
• 2.0 UF GPA required

Semester 4
• Complete POR 1131
• 2.0 UF GPA required

Semester 5
• Complete POR 3242 and one additional Portuguese course with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 6
• Complete 3 of the remaining 3XXX/4XXX required courses
• 2.5 critical-tracking GPA required
• 2.0 UF GPA required

Semester 7
• Complete 3 of the remaining 3XXX/4XXX required courses
• 2.5 critical-tracking GPA required
• 2.0 UF GPA required

Semester 8
• Complete all remaining 4XXX required courses
• 2.5 critical-tracking GPA required
• 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

1. POR 3010 satisfies the CLAS language requirement, and satisfies the same requirement as the POR 1130/POR 1131 sequence.

### Academic Learning Compact

The Bachelor of Arts in Hispanic and Latin American Languages, Literatures and Linguistics enables students to achieve communicative competence in Spanish and/or Portuguese, with an emphasis on all four language skills: speaking, comprehension, reading, and writing. Students will become knowledgeable in the areas of Hispanic and Lusophone cultures, literatures and/or linguistics, and they will learn how to interpret Spanish- and/or Portuguese language texts according to their cultural, literary and linguistic content.

### Before Graduating Students Must

- Complete all requirements for the baccalaureate degree, as determined by faculty.
- Satisfactorily complete a written assignment in a 4000-level course that includes the written analysis of a text according to its cultural, literary and/or linguistic content. The text analyzed and the analysis will be in Spanish/Portuguese.
- Satisfactorily deliver an oral presentation in Spanish/Portuguese on the topic of the written paper. Presentation will include answering questions from audience members.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Identify cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.
Critical Thinking
2. Analyze cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.

Communication
3. Demonstrate competence in written Spanish and/or Portuguese, including knowledge of grammar, vocabulary, orthography and appropriate stylistic conventions.
4. Demonstrate communicative competence in spoken Spanish and/or Portuguese, including the ability to understand the spoken language, speak with correct grammar, vocabulary and pronunciation, and use appropriate registers.

Portuguese Minor
The Portuguese minor offers excellent career preparation for a wide variety of fields, including tourism, business, journalism, telecommunications, law, health fields, and education.

About this Program
- **College:** Liberal Arts and Sciences (p. 978)
- **Credits:** 15 | Completed with minimum grades of C and no optional S/U

Department Information
The Department of Spanish and Portuguese Studies endeavors to achieve excellence in research, teaching, and public service related to the languages, literature, and cultures of the areas and countries where Spanish and Portuguese are spoken.

- Portuguese
- Portuguese Minor
- Spanish
• Spanish and Portuguese
• Spanish for the Professions Certificate

Related Programs
• Latin American Studies Certificate
• Latin American Studies Minor

To earn a minor in Portuguese, students must complete 15 credits of coursework at the 3000/4000 level with a POR/POW/PRT prefix. Two of the courses must be taken at the 4000 level.

Students cannot apply POR 3010 toward the minor.

A minimum of nine credits must be completed at UF. Students can apply up to three credits of POW 4905 toward the minor and they must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Psychology

Psychology is the science of human and animal behavior. Psychology majors receive a broad science-based liberal arts education. As a result, those with a Bachelor of Science in psychology are widely sought in business, education, and mental health fields. For a professional career in psychology, a graduate degree is needed.

About this Program

• College: Liberal Arts and Sciences (p. 978)
• Degree: Bachelor of Science
• Specializations: General Psychology (p. 1470) | Behavior Analysis (p. 1458) | Behavioral and Cognitive Neuroscience (p. 1464)
• Credits for Degree: 120
• Contact: Email (psych-advISING@ufl.edu?Subject=Psychology%20Major)

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Psychology is dedicated to the pursuit of excellence in the generation of psychological science and to its application and dissemination. The department is committed to creating and sustaining a diverse, inclusive, and nondiscriminatory environment.

Curriculum

• Psychology
• Psychology UF Online

The psychology curriculum at UF provides a strong background to pursue careers in psychology or to prepare students for entry into advanced professional schools such as law or medicine. The curriculum emphasizes the principles and applications of psychological knowledge, both as a natural science and as a social science.

Students in the psychology major can specialize in general psychology, behavioral and cognitive neuroscience, and behavior analysis. All specializations require coursework in psychology, statistics, mathematics, and biology, and all offer the option to conduct a senior honors thesis if desired. The specializations vary in the specific courses necessary to complete the degree requirements. General psychology requires courses in four
core areas within the discipline as well as elective psychology courses. Behavioral and cognitive neuroscience focuses more specifically on natural science-oriented psychology courses and allows students to take limited approved non-psychology courses relevant to contemporary neuroscience. This specialization also requires more math and biology courses than general psychology. Behavior analysis also focuses more specifically on natural science-oriented psychology courses and how the environment around an organism can be modified to change behavior.

**Coursework for the Major**

A psychology major consists of a minimum of 36 credits with related coursework in biological science, mathematics, and statistics. At least 18 of the 36 credits must be taken at the University of Florida. Courses used toward the major must be earned with minimum grades of C.

**Required Coursework**

Required coursework will depend on the program the student chooses. Coursework for each specialization can be found below.

**Recommended Coursework**

In addition to regularly scheduled courses, the department offers six individual work courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PCO 4911</td>
<td>Undergraduate Research in Psychology of Health Disparities</td>
<td>3</td>
</tr>
<tr>
<td>PSY 4911</td>
<td>Undergraduate Research in Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSY 4905</td>
<td>Individual Work</td>
<td>1-3</td>
</tr>
<tr>
<td>PSY 4970</td>
<td>Senior Thesis</td>
<td>1-3</td>
</tr>
<tr>
<td>PSY 4940</td>
<td>Introduction to Teaching in Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSY 4949</td>
<td>Community Work in Psychology</td>
<td>1-3</td>
</tr>
</tbody>
</table>

In each case, a psychology faculty member or other approved professional serves as supervisor. A maximum of nine credits of individual work courses from the following can count toward the major:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CLP 3911</td>
<td>Introduction to Clinical Research</td>
<td>1-3</td>
</tr>
<tr>
<td>PCO 4911</td>
<td>Undergraduate Research in Psychology of Health Disparities</td>
<td>3</td>
</tr>
<tr>
<td>PSY 4911</td>
<td>Undergraduate Research in Psychology</td>
<td>0-3</td>
</tr>
<tr>
<td>PSY 4905</td>
<td>Individual Work</td>
<td>1-3</td>
</tr>
<tr>
<td>PSY 4940</td>
<td>Introduction to Teaching in Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSY 4949</td>
<td>Community Work in Psychology</td>
<td>1-3</td>
</tr>
<tr>
<td>PSY 4970</td>
<td>Senior Thesis</td>
<td>1-3</td>
</tr>
</tbody>
</table>

**Research**

Research in psychology means asking questions about behavior, designing and running experiments and collecting data regarding those questions, analyzing and interpreting the results, and communicating these results to colleagues. Developing research skills is encouraged, especially if students anticipate graduate school in psychology or in other professional areas.

**Academic Learning Compact**

The Bachelor of Science in psychology enables students to achieve a high level of proficiency in the science of psychology, including the core natural and social science areas of psychology. Laboratory courses emphasize students' understanding of the design, analysis and critical interpretation of psychological research. Students will also refine their core knowledge and understanding of psychological research with advanced coursework in statistics, biology and mathematics.

**Before Graduating Students Must**

- Demonstrate satisfactory (minimum grade of C) performance on exams, papers and other coursework for six credits in core psychology natural sciences (course prefixes CBH, EAB, EXP and PSB), six credits of core psychology social sciences (course prefixes CLP, DEP, SOP and PPE) and three or four credits of psychological research methodology, design and analysis, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.
### Students in the Major Will Learn to
### Student Learning Outcomes (SLOs)

#### Content
1. Critical knowledge of basic and applied aspects of core natural science areas within psychology as well as core social science areas within psychology.
2. Knowledge of the design, analysis and interpretation of psychological research.

#### Critical Thinking
3. Review, interpret and analyze the literature in psychological science.

#### Communication
4. Clearly and effectively present ideas in speech and in writing that contribute to the dissemination of advances in research in psychological science.

### Curriculum Map

All courses available to students are listed in the table; however, students choose six credits in core psychology natural sciences, six credits of core psychology social sciences and three-to-four credits in psychological research methodology, design and analysis.

Curriculum

- Psychology
- Psychology UF Online

The psychology curriculum at UF provides a strong background to pursue careers in psychology or to prepare students for entry into advanced professional schools such as law or medicine. The curriculum emphasizes the principles and applications of psychological knowledge, both as a natural science and as a social science.

Students in the psychology major can specialize in general psychology, behavioral and cognitive neuroscience, and behavior analysis. All specializations require coursework in psychology, statistics, mathematics, and biology, and all offer the option to conduct a senior honors thesis if desired. The specializations vary in the specific courses necessary to complete the degree requirements. General psychology requires courses in four core areas within the discipline as well as elective psychology courses. Behavioral and cognitive neuroscience focuses more specifically on natural science-oriented psychology courses and allows students to take limited approved non-psychology courses relevant to contemporary neuroscience. This specialization also requires more math and biology courses than general psychology. Behavior analysis also focuses more specifically on natural science-oriented psychology courses and how the environment around an organism can be modified to change behavior.

Required Coursework

Students in the behavior analysis specialization are required to complete 36 credits of psychology coursework with minimum grades of C. At least 30 of the 36 credits must be at the 3000-level or above.

- 3 credits, introductory level: PSY 2012 (or equivalent, such as a general psychology course taken elsewhere or credit by exam for PSY 2012 via AP, IB, AICE).
- 12 credits, behavior analysis courses:
  - EAB 3002
  - EAB 3764
  - EAB 4184
  - EAB 4930
- 3 credits, laboratory course: PSY 3213L
- 4 credits, laboratory course: EAB 4714C
- 14 credits additional psychology courses: Students must choose additional 3000/4000-level psychology courses to meet the 36-credit minimum requirement (with the exception that three credits of 2000-level courses can count toward this requirement). In addition, up to nine credits of individual work courses will count toward the 36-credit minimum requirement. Students can also take designated courses in the Women's Studies as part of the 14 elective credits (WST 3323, WST 3371, WST 4704).

Students who wish to transfer courses in psychology toward the major must see an advisor in the department for approval.

Related Coursework

Statistics

STA 2023 and STA 3024 are also required. STA 2023 is a prerequisite for some 4000-level psychology and laboratory courses. STA 3024 must be taken before or concurrently with any specialized psychology laboratory, and it also counts toward the CLAS requirement of 3000-level electives not in the major.

Mathematics

Proficiency through precalculus is required. MAC 1147 (or higher course) will meet this requirement. The combination of MAC 1114 and MAC 1140 may be substituted for MAC 1147.

Biological Science

BSC 2005 or BSC 2010 is required.

All majors are encouraged to see a psychology advisor in 135 Psychology Building. No appointments are necessary and walk-ins are welcome. Advising office hours (http://www.psych.ufl.edu/%7EUndergrad/)

Most of the foundation-level courses and the laboratory methods course are offered each semester. Special topic and other advanced courses are offered less frequently. Fewer courses are offered in summer.
**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=420101&track=01) may be used for transfer students.

The following critical-tracking courses are required:

- BSC 2005 or BSC 2010
- MAC 1147 or MAC 1140 and MAC 1114
- PSY 2012
- PSY 3213L
- STA 2023

Although not required in the first five semesters, additional psychology courses taken in semesters 1-5 count toward the critical-tracking GPA for the major.

**Semester 1**
- Complete MAC 1140 or MAC 1147
- 2.4 UF GPA required

**Semester 2**
- Complete PSY 2012; if MAC 1140 is taken in semester 1, MAC 1114 must be taken semester 2
- 2.6 UF GPA required

**Semester 3**
- Complete 2 critical-tracking courses from BSC 2005 or BSC 2010, STA 2023 or PSY 3213L with a 2.6 critical-tracking GPA
  - Students should take PSY 3213L in semester 3 or 4 before taking any additional 3000-level or above psychology courses.
- 2.7 UF GPA required

**Semester 4**
- Complete BSC 2005 or BSC 2010 and STA 2023 (if not previously taken) with a 2.75 critical-tracking GPA
- 2.8 UF GPA required

**Semester 5**
- Complete PSY 3213L (if not previously taken) with 2.75 critical-tracking GPA. Additional Psychology courses taken in semesters 1-5 are included in the critical-tracking GPA.
- 2.8 UF GPA required

**Semester 6**
- Complete two of the remaining EABxxx/4xxx required courses
- Complete STA 3024

**Semester 7**
- Complete two of the remaining EABxxx/4xxx required courses

**Semester 8**
- Complete all remaining EAB 4xxx required courses

---

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

**Academic Learning Compact**

The Bachelor of Science in psychology enables students to achieve a high level of proficiency in the science of psychology, including the core natural and social science areas of psychology. Laboratory courses emphasize students’ understanding of the design, analysis and critical interpretation of psychological research. Students will also refine their core knowledge and understanding of psychological research with advanced coursework in statistics, biology and mathematics.

**Before Graduating Students Must**

- Demonstrate satisfactory (minimum grade of C) performance on exams, papers and other coursework for six credits in core psychology natural sciences (course prefixes CBH, EAB, EXP and PSB), six credits of core psychology social sciences (course prefixes CLP, DEP, SOP and PPE) and three or four credits of psychological research methodology, design and analysis, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Critical knowledge of basic and applied aspects of core natural science areas within psychology as well as core social science areas within psychology.
2. Knowledge of the design, analysis and interpretation of psychological research.

**Critical Thinking**

1. Review, interpret and analyze the literature in psychological science.

**Communication**

1. Clearly and effectively present ideas in speech and in writing that contribute to the dissemination of advances in research in psychological science.

**Curriculum Map**

All courses available to students are listed in the table; however, students choose six credits in core psychology natural sciences, six credits of core psychology social sciences and three-to-four credits in psychological research methodology, design and analysis.

$I = Introduced; R = Reinforced; A = Assessed$

**Assessment Types**

- Exams
- Papers
Behavioral and Cognitive Neuroscience

Psychology is the science of human and animal behavior. Psychology majors receive a broad science-based liberal arts education. As a result, those with a Bachelor of Science in psychology are widely sought in business, education, and mental health fields. For a professional career in psychology, a graduate degree is needed.

About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Degree:** Bachelor of Science
- **Specializations:** General Psychology (p. 1470) | Behavior Analysis (p. 1458) | Behavioral and Cognitive Neuroscience (p. 1464)
- **Credits for Degree:** 120
- **Contact:** Email (psych-advising@ufl.edu?Subject=Psychology%20Major)
- **More Info**

**To graduate with this major, students must complete all university, college, and major requirements.**

Department Information

The Department of Psychology is dedicated to the pursuit of excellence in the generation of psychological science and to its application and dissemination. The department is committed to creating and sustaining a diverse, inclusive, and nondiscriminatory environment.

Curriculum

- Psychology
- Psychology UF Online

The psychology curriculum at UF provides a strong background to pursue careers in psychology or to prepare students for entry into advanced professional schools such as law or medicine. The curriculum emphasizes the principles and applications of psychological knowledge, both as a natural science and as a social science.

Students in the psychology major can specialize in general psychology, behavioral and cognitive neuroscience, and behavior analysis. All specializations require coursework in psychology, statistics, mathematics, and biology, and all offer the option to conduct a senior honors thesis if desired. The specializations vary in the specific courses necessary to complete the degree requirements. General psychology requires courses in four core areas within the discipline as well as elective psychology courses. Behavioral and cognitive neuroscience focuses more specifically on natural science-oriented psychology courses and allows students to take limited approved non-psychology courses relevant to contemporary neuroscience. This specialization also requires more math and biology courses than general psychology. Behavior analysis also focuses more specifically on natural science-oriented psychology courses and how the environment around an organism can be modified to change behavior.

Coursework for the Major

A psychology major consists of a minimum of 36 credits with related coursework in biological science, mathematics, and statistics. At least 18 of the 36 credits must be taken at the University of Florida. Courses used toward the major must be earned with minimum grades of C.

Required Coursework

Required coursework will depend on the program the student chooses. Coursework for each specialization can be found below.

Recommended Coursework

In addition to regularly scheduled courses, the department offers six individual work courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PCO 4911</td>
<td>Undergraduate Research in Psychology of Health Disparities</td>
<td>3</td>
</tr>
<tr>
<td>PSY 4911</td>
<td>Undergraduate Research in Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSY 4905</td>
<td>Individual Work</td>
<td>1-3</td>
</tr>
<tr>
<td>PSY 4970</td>
<td>Senior Thesis</td>
<td>1-3</td>
</tr>
</tbody>
</table>
In each case, a psychology faculty member or other approved professional serves as supervisor. A maximum of nine credits of individual work courses from the following can count toward the major:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CLP 3911</td>
<td>Introduction to Clinical Research</td>
<td>1-3</td>

<td>PSY 4949</td>
<td>Community Work in Psychology</td>
<td>1-3</td>
</tr>
<tr>
<td>PSY 4970</td>
<td>Senior Thesis</td>
<td>1-3</td>
</tr>
</tbody>
</table>

**Research**

Research in psychology means asking questions about behavior, designing and running experiments and collecting data regarding those questions, analyzing and interpreting the results, and communicating these results to colleagues. Developing research skills is encouraged, especially if students anticipate graduate school in psychology or in other professional areas.

**Behavioral and Cognitive Neuroscience**

**Required Coursework**

Students in the behavioral and cognitive neuroscience specialization are required to complete 36 credits of coursework with minimum grades of C. At least 22 credits must be taken in psychology.

<table>
<thead>
<tr>

</tbody>
</table>

**Psychology courses**

4000-level psychology courses with a PSB or EXP prefix or approval of the undergraduate coordinator. These courses must be taken in addition to the required laboratory course and individual work courses.

**Additional courses**

Psychology courses or approved neuroscience-relevant courses outside psychology to meet the 36-credit minimum requirement

- 3 credits may be at the 2000 level or higher
- The remaining 11 or more credits must be at the 3000/4000 level
- Any neuroscience-relevant courses outside psychology must be approved by a psychology advisor before enrollment

Students who wish to transfer courses in psychology toward the major must see an advisor in the department for approval.
Related Coursework

Statistics
STA 2023 and STA 3024 are also required. STA 2023 is a prerequisite for some 4000-level psychology and laboratory courses. STA 3024 must be taken before or concurrently with any specialized psychology laboratory, and it counts as a 3000+ level elective not in the major.

Mathematics
Proficiency is required. MAC 2311 meets this requirement.

Biological Science
BSC 2010 and BSC 2011 are required.

All majors are encouraged to see a psychology advisor in 135 Psychology Building. No appointments are necessary and walk-ins are welcome.

Most of the foundation-level courses and the laboratory methods course are offered each semester. Special topic and other advanced courses are offered less frequently. Fewer courses are offered in summer.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=420101&track=01) may be used for transfer students.

These critical-tracking courses are required: BSC 2010, MAC 2311, PSY 2012, PSY 3213L, PSB 3340, and STA 2023.

Although not required in the first five semesters, additional psychology courses taken in semesters 1-5 count toward the critical-tracking GPA for the major.

Semester 1
• Complete MAC 1147 or MAC 2311
• 2.4 UF GPA required

Semester 2
• Complete MAC 2311
• Complete PSY 2012
• 2.6 UF GPA required

Semester 3
• Complete 2 of the following critical-tracking courses with a 2.6 critical-tracking GPA: BSC 2010, PSB 3340, or PSY 3213L
Students should take PSY 3213L in semester 3 or 4 before taking any additional 3000-level or above psychology courses.
• 2.7 UF GPA required

Semester 4
• Complete 1 tracking course from BSC 2010, PSB 3340, PSY 3213L or STA 2023 with a 2.75 critical-tracking GPA
• 2.8 UF GPA required

Semester 5
• Complete the final tracking course (BSC 2010, PSB 3340, PSY 3213L or STA 2023) with a 2.75 critical-tracking GPA. Additional psychology courses taken in semesters 1-5 are included in the critical-tracking GPA.
• 2.8 UF GPA required

Semester 6
• Complete 2 of the remaining PSY 3XXX/4XXX required courses
• Complete STA 3024
Semester 7
• Complete 2 of the remaining PSY 3XXX/4XXX required courses
• Complete neuroscience lab: PSB 4343C, EAB 4714C, EXP 4174C

Semester 8
• Complete all remaining PSY 3XXX/4XXX required courses and/or neuroscience relevant courses.

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). STA 3024 and approved 3000 level or above neuroscience-relevant courses outside the psychology department may count towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

1. Take MAC 1147, if needed.
2. Counts as a 3000-level or above elective, not in the major.

---

### Academic Learning Compact

The Bachelor of Science in psychology enables students to achieve a high level of proficiency in the science of psychology, including the core natural and social science areas of psychology. Laboratory courses emphasize students’ understanding of the design, analysis and critical interpretation of psychological research. Students will also refine their core knowledge and understanding of psychological research with advanced coursework in statistics, biology and mathematics.

### Before Graduating Students Must

- Demonstrate satisfactory (minimum grade of C) performance on exams, papers and other coursework for six credits in core psychology natural sciences (course prefixes CBH, EAB, EXP and PSB), six credits of core psychology social sciences (course prefixes CLP, DEP, SOP and PPE) and three or four credits of psychological research methodology, design and analysis, as graded by department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Critical knowledge of basic and applied aspects of core natural science areas within psychology as well as core social science areas within psychology.
2. Knowledge of the design, analysis and interpretation of psychological research.

**Critical Thinking**

3. Review, interpret and analyze the literature in psychological science.

**Communication**

4. Clearly and effectively present ideas in speech and in writing that contribute to the dissemination of advances in research in psychological science.

### Curriculum Map

All courses available to students are listed in the table; however, students choose six credits in core psychology natural sciences, six credits of core psychology social sciences and three-to-four credits in psychological research methodology, design and analysis.

General Psychology

Psychology is the science of human and animal behavior. Psychology majors receive a broad science-based liberal arts education. As a result, those with a Bachelor of Science in psychology are widely sought in business, education, and mental health fields. For a professional career in psychology, a graduate degree is needed.

About this Program
- **College:** Liberal Arts and Sciences (p. 978)
- **Degree:** Bachelor of Science
- **Specializations:** General Psychology (p. 1470) | Behavior Analysis (p. 1458) | Behavioral and Cognitive Neuroscience (p. 1464)
- **Credits for Degree:** 120
- **Contact:** Email (psych-advising@ufl.edu?Subject=Psychology%20Major)
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Psychology is dedicated to the pursuit of excellence in the generation of psychological science and to its application and dissemination. The department is committed to creating and sustaining a diverse, inclusive, and nondiscriminatory environment.

Curriculum
- Psychology
- Psychology UF Online

The psychology curriculum at UF provides a strong background to pursue careers in psychology or to prepare students for entry into advanced professional schools such as law or medicine. The curriculum emphasizes the principles and applications of psychological knowledge, both as a natural science and as a social science.

Students in the psychology major can specialize in general psychology, behavioral and cognitive neuroscience, and behavior analysis. All specializations require coursework in psychology, statistics, mathematics, and biology, and all offer the option to conduct a senior honors thesis if desired. The specializations vary in the specific courses necessary to complete the degree requirements. General psychology requires courses in four core areas within the discipline as well as elective psychology courses. Behavioral and cognitive neuroscience focuses more specifically on natural science-oriented psychology courses and allows students to take limited approved non-psychology courses relevant to contemporary neuroscience. This specialization also requires more math and biology courses than general psychology. Behavior analysis also focuses more specifically on natural science-oriented psychology courses and how the environment around an organism can be modified to change behavior.

Coursework for the Major
A psychology major consists of a minimum of 36 credits with related coursework in biological science, mathematics, and statistics. At least 18 of the 36 credits must be taken at the University of Florida. Courses used toward the major must be earned with minimum grades of C.
Required Coursework
Required coursework will depend on the program the student chooses. Coursework for each specialization can be found below.

Recommended Coursework
In addition to regularly scheduled courses, the department offers six individual work courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Research</td>
<td></td>
<td></td>
</tr>
<tr>
<td>PCO 4911</td>
<td>Undergraduate Research in Psychology of Health Disparities</td>
<td>3</td>
</tr>
<tr>
<td>PSY 4911</td>
<td>Undergraduate Research in Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSY 4905</td>
<td>Individual Work</td>
<td>1-3</td>
</tr>
<tr>
<td>PSY 4970</td>
<td>Senior Thesis</td>
<td>1-3</td>
</tr>
<tr>
<td>Teaching</td>

<td>3</td>
</tr>
<tr>
<td>Community Work</td>
<td></td>
<td></td>
</tr>
<tr>
<td>PSY 4949</td>
<td>Community Work in Psychology</td>
<td>1-3</td>
</tr>
</tbody>
</table>

In each case, a psychology faculty member or other approved professional serves as supervisor. A maximum of nine credits of individual work courses from the following can count toward the major:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Research</td>
<td></td>
<td></td>
</tr>
<tr>

<td>1-3</td>
</tr>
<tr>
<td>PSY 4970</td>
<td>Senior Thesis</td>
<td>1-3</td>
</tr>
</tbody>
</table>

Research
Research in psychology means asking questions about behavior, designing and running experiments and collecting data regarding those questions, analyzing and interpreting the results, and communicating these results to colleagues. Developing research skills is encouraged, especially if students anticipate graduate school in psychology or in other professional areas.

General Psychology
Required Coursework
Students in the general psychology specialization are required to complete 36 credits of psychology coursework with minimum grades of C. At least 30 of the 36 credits must be at the 3000-level or above.

<table>
<thead>
<tr>

</tr>
</thead>
</table>

Students may not take both PSB 3002 and PSB 3340 under any circumstances.

In addition, up to nine credits of individual work courses will count toward the 36-credit minimum requirement.

Two courses from the Women's Studies department can also be utilized as part of the 12 additional psychology credits (WST 3371; WST 4704, WST 3323, WST 4XXX).

Students who wish to transfer courses in psychology toward the major must see an advisor in the department for approval.

Related Coursework

Statistics
STA 2023 and STA 3024 are also required. STA 2023 is a prerequisite for some 4000-level psychology and laboratory courses. STA 3024 must be taken before or concurrently with any specialized psychology laboratory, and it also counts toward the CLAS requirement of 3000-level electives not in the major.

Mathematics
Proficiency through precalculus is required. MAC 1147 (or higher course) will meet this requirement. The combination of MAC 1114 and MAC 1140 may be substituted for MAC 1147.

Biological Science
BSC 2005 or BSC 2010 is required.

All majors are encouraged to see a psychology advisor in 135 Psychology Building. No appointments are necessary and walk-ins are welcome.

Most of the foundation-level courses and the laboratory methods course are offered each semester. Special topic and other advanced courses are offered less frequently. Fewer courses are offered in summer.

Related Psychology Programs
• Bachelor of Arts in Psychology, UF Online (p. 1476)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=420101&track=01) may be used for transfer students.

The following critical-tracking courses are required: BSC 2005 or BSC 2010, MAC 1147 or MAC 1140 and MAC 1114, PSY 2012, PSY 3213L, and STA 2023.

Although not required in the first five semesters, additional psychology courses taken in semesters 1-5 count toward the critical-tracking GPA for the major.

Semester 1
• Complete MAC 1140 or MAC 1147
• 2.4 UF GPA required

Semester 2
• Complete PSY 2012; if MAC 1140 is taken in semester 1, MAC 1114 must be taken semester 2
• 2.6 UF GPA required
Semester 3
- Complete 2 critical-tracking courses from BSC 2005 or BSC 2010, STA 2023 or PSY 3213L with a 2.6 critical-tracking GPA
  Students should take PSY 3213L in semester 3 or 4 before taking any additional 3000-level or above psychology courses.
- 2.7 UF GPA required

Semester 4
- Complete BSC 2005 or BSC 2010 and STA 2023 (if not previously taken) with a 2.75 critical-tracking GPA
- 2.8 UF GPA required

Semester 5
- Complete PSY 3213L (if not previously taken) with 2.75 critical-tracking GPA. Additional Psychology courses taken in semesters 1-5 are included in the critical-tracking GPA.
- 2.8 UF GPA required

Semester 6
- Complete 2 of the remaining PSY 3XXX/4XXX required courses
- Complete STA 3024

Semester 7
- Complete 2 of the remaining PSY 3XXX/4XXX required courses

Semester 8
- Complete all remaining PSY 3XXX/4XXX required courses

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

**Psychology UF Online**

Psychology is the science of human and animal behavior. Psychology majors receive a broad science-based liberal arts education. As a result, those with a Bachelor of Arts in psychology are widely sought in business, education, and certain mental health fields. For a professional career in psychology, a graduate degree is needed.

**About this Program**

- **College:** Liberal Arts and Sciences (p. 978)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR | Email (psych-advising@ufl.edu)
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

**Department Information**

The Department of Psychology is dedicated to the pursuit of excellence in the generation of psychological science and to its application and dissemination. The department is committed to creating and sustaining a diverse, inclusive, and nondiscriminatory environment.

Website (https://psych.ufl.edu/)

**Curriculum**

- Psychology
- Psychology UF Online

The psychology curriculum provides a strong background to pursue careers in psychology, business, education, or health-related fields. The curriculum emphasizes the principles and applications of psychological knowledge, both as a natural science and as a social science. The B.A. in psychology requires courses in four core areas within the discipline as well as elective psychology courses.
Coursework for the Major

A B.A. in psychology consists of a minimum of 30 credits in psychology plus related coursework in biological science, mathematics, and statistics. At least 18 of the 30 credits must be taken at UF, and at least 24 of the 30 credits must be at the 3000-level or above. Courses used toward the major must be earned with minimum grades of C.

<tr>
<td>PSY 2012</td>
<td>General Psychology (or equivalent, such as a general psychology course taken elsewhere or credit by exam for this course via AP, IB, AICE)</td>
<td>3</td>
</tr>
</tbody>
</table>

Foundation Level Core

Select at least one course from each of the four foundation areas:

- CBH 3003 Comparitive Psychology (Biological Bases)  
- or PSB 3002 Physiological Psychology
- DEP 3053 Developmental Psychology (Developmental Changes)
- or EAB 3002 Principles of Behavior Analysis (Learning and Cognition)
- or EXP 3604 Cognitive Psychology
- CLP 3144 Abnormal Psychology (Sociocultural / Individual Differences Approaches)  
- or SOP 3004 Social Psychology

Laboratory Course

PSY 3213L Laboratory Methods in Psychology  

3

Additional Psychology Courses

3000/4000-level psychology courses to meet the 30-hour minimum requirement (with the exception that three credits of 2000-level courses may count toward this requirement)

Laboratory Course

PSY 3213L Laboratory Methods in Psychology  

3

Recommended Coursework

Select a maximum of six credits of individual work courses to count toward the major:

- PSY 4911 Undergraduate Research in Psychology  
- PSY 4905 Individual Work
- PSY 4970 Senior Thesis
- PSY 4949 Community Work in Psychology
- CLP 3911 Introduction to Clinical Research

Total Credits

40-47

1 In addition, up to six credits of individual work courses will count toward the 30-hour minimum requirement.

2 In addition to regularly scheduled courses, the department offers four individual work courses, three involving research (PSY 4911, PSY 4905, and PSY 4970) and one involving community work (PSY 4949). Students may enroll in these courses by permission of relevant faculty supervisors.

Students who wish to transfer courses in psychology toward the major must see an advisor in the department for approval.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=420101&track=01) may be used for transfer students.

The following critical-tracking courses are required:

- BSC 2005
- MAC 1147 or MAC 1140 and MAC 1114
- PSY 2012
• PSY 3213L
• STA 2023

**Semester 1**
- Complete MAC 1140 or MAC 1147
- 2.2 UF GPA required

**Semester 2**
- Complete PSY 2012; if MAC 1140 is taken in semester one, MAC 1114 must be taken semester two
- 2.3 UF GPA required

**Semester 3**
- 2.4 UF GPA required
- Complete 2 critical-tracking courses from BSC 2005, STA 2023 or PSY 3213L with a 2.5 critical-tracking GPA

*Students should take PSY 3213L in semester 3 or 4 before taking any additional 3000-level or above psychology courses.*

**Semester 4**
- Complete BSC 2005 and STA 2023 (if not previously taken) with a 2.5 critical-tracking GPA
- 2.5 UF GPA required

**Semester 5**
- Complete PSY 3213L (if not previously taken) with 2.5 critical-tracking GPA
- 2.5 UF GPA required

**Semester 6**
- Complete 2 of the remaining PSY 3XXX/4XXX required courses

**Semester 7**
- Complete 2 of the remaining PSY 3XXX/4XXX required courses

**Semester 8**
- Complete all remaining PSY 3XXX/4XXX required courses

---

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

Academic Learning Compact

The Bachelor of Arts in psychology enables students to achieve a high level of proficiency in the science of psychology, including the core natural and social science areas of psychology. Laboratory courses emphasize students' understanding of the design, analysis and critical interpretation of psychological research. Students will also refine their core knowledge and understanding of psychological research with advanced coursework in statistics, biology and mathematics.

Before Graduating Students Must

• Demonstrate satisfactory (minimum grade of C) performance on exams, papers and other coursework for six credits in core psychology natural sciences (course prefixes CBH, EAB, EXP and PSB), six credits of core psychology social sciences (course prefixes CLP, DEP, SOP and PPE) and three or four credits of psychological research methodology, design and analysis, as graded by department rubric.

• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Critical knowledge of basic and applied aspects of core natural science areas within psychology as well as core social science areas within psychology.
2. Knowledge of the design, analysis and interpretation of psychological research.

Critical Thinking
3. Review, interpret and analyze the literature in psychological science.
Communication
4. Clearly and effectively present ideas in speech and in writing that contribute to the dissemination of advances in research in psychological science.

Curriculum Map
All courses available to students are listed in the table; however, students choose six credits in core psychology natural sciences, six credits of core psychology social sciences and three-to-four credits in psychological research methodology, design and analysis.

*I = Introduced; R = Reinforced; A = Assessed*

Public Affairs Certificate

The Public Affairs certificate is for those interested in government careers and requires courses in public policy and public administration.

About this Program

- **College**: Liberal Arts and Sciences (p. 978)
- **Credits**: 15 | Completed with minimum grades of C
- **More Info**

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

The Department of Political Science provides a high quality educational program for undergraduate students as well as a rigorous honors program (http://sites.clas.ufl.edu/polisci/undergraduate/programs/undergraduate-honors/). The department also offers a highly selective graduate education ranging from innovative M.A. programs to a comprehensive Ph.D. program.

Select three 3000/4000-level courses from one of the following:

- The policy process (e.g., bureaucratic politics)
- A substantive policy area (e.g., health politics and policy or politics and ecology)

Total Credits: 15

Students are encouraged to serve an internship in government and to complete an honors thesis in the area of public affairs.

Public Leadership Minor

The interdisciplinary Public Leadership minor, offered by the Bob Graham Center for Public Service, is for students interested in careers in the public and private sectors and those interested in acquiring skills to develop as civically responsible citizens. Through coursework and practical experience, students gain the skills and knowledge necessary for effective and ethical leadership careers. The minor complements a variety of majors, including the natural sciences, humanities, social sciences, journalism, and business.

About this Program

- **College**: Liberal Arts and Sciences (p. 978)
- **Credits**: 21 | Completed with a minimum cumulative 3.0 GPA
- **More Info**

Center Information

The Bob Graham Center was established in 2006 with the goal of creating a community of students, scholars, and citizens who share a commitment to revitalizing the civic culture of Florida and the nation. Former Governor and U. S. Senator Bob Graham founded the Center as a place where students acquire the skills and knowledge to become informed citizens, with the expressed purpose of strengthening the nation's democratic institutions.

Curriculum

- Public Leadership Minor

Students pursuing the minor are expected to engage in the intellectual life of the Bob Graham Center for Public Service by participating in public lectures, workshops, seminars, and civic engagement opportunities the Center offers.

Students must have a 2.75 GPA for admission to the minor, and should normally apply during the sophomore or junior year, though they may apply later as long as they will still be able to complete all requirements for the minor within a timely manner that does not delay graduation. Students should apply by completing the standard Application to Add or Cancel an Undergraduate Minor form.

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward their major(s) or other minors.

### Religion

Events at home and abroad show that religion continues to be a powerful force, with both positive and negative consequences. An undergraduate major in Religion provides students with the basic tools to understand the diversity of religious phenomena throughout the world in their proper historical, socio-political, psychological, cultural, and philosophical contexts.

### About this Program

Map (http://campusmap.ufl.edu/#/index/0030)
Curriculum

• Combination Degrees
• Religion
• Religion Minor
• Religious Ethics Minor

Students majoring in religion receive truly interdisciplinary training and many pursue advanced degrees in the humanities, social sciences, law, education, journalism, and social services. Religion majors have also gone on to work in non-governmental organizations, private companies, and religious communities. The religion program complements many other programs at the University of Florida, including Latin American studies, sustainability studies, Jewish studies, African studies, and Asian studies.

Coursework for the Major

The program consists of 10 courses, which include at least one class in three of the following four areas: Asian religions; Islam; and Jewish or Christian scripture; and religion and ethics in contemporary society. In addition, all majors must complete a junior seminar on methods and theories in the study of religion and a comparative East-West capstone seminar.

The 10 courses (30 credits) for the undergraduate major in religion must be completed with minimum grades of C. These courses must be taken from the introductory, intermediate and advanced levels of the religion curriculum and they must expose the student to both eastern and western thought.

REL 3931  Junior Seminar (during the junior year)  3
4000-level courses, one of which must be the following:  9
REL 4933  The Comparative Study of Religion

Total Credits  24

- Majors cannot count more than three introductory courses (2000-level, 9 credits) toward the 30 credits.
- No more than three courses (9 credits) can be in approved cognate courses from other departments.
- No more than four courses (12 credits) can be transferred from another institution.
- Every two semesters all majors must consult the undergraduate advisor.

There are no prerequisites for 2000-level courses. Detailed descriptions of current and prospective courses are available in 107 Anderson Hall and from faculty members before registration.

**Overseas Studies**

The department encourages study abroad. Overseas Studies, within the UF International Center (UFIC), offers the opportunity to study in a wide range of academic and cultural settings. The office coordinates 32 semester and yearlong programs and 28 summer programs in 24 countries. Study abroad programs satisfy the general education international and diversity requirements and also may fulfill requirements for a major or minor, as well as basic distribution area requirements and UF summer residency. Interested students should contact the UF International Center in 170 Hub or the undergraduate coordinator.

More Info [here](http://www.ufic.ufl.edu/)

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites ([here](http://www.flvc.org/cpp/displayRecord.jsp?cip=380201&track=01)) may be used for transfer students.

**Semester 1**
- 2.0 UF GPA required

**Semester 2**
- 2.0 UF GPA required

**Semester 3**
- Complete 1 religion course
- 2.0 UF GPA required

**Semester 4**
- Complete 1 additional religion course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**Semester 5**
- Complete 1 additional religion course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**Semester 6**
- Completed 2 of the remaining REL 3XX/4XX required courses
- 2.0 UF GPA required
Semester 7
- Completed 2 of the remaining REL 3XXX/4XXX required courses
- 2.0 UF GPA required

Semester 8
- Completed all remaining REL 3XXX/4XXX required courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

**Academic Learning Compact**

The major in religion examines religion as a significant and pervasive element in human culture. Through study of a variety of religious traditions, students learn about the history, beliefs and practices of the world’s religions. Emphasis on method and theory and religion’s comparative dimensions enables students to read and analyze current literature. Students will be able to locate and use reference tools and demonstrate the ability to communicate independent, critical perspectives.

**Before Graduating Students Must**

- Achieve satisfactory evaluation of assignment from REL 3931.
- Achieve satisfactory evaluation of assignment from REL 4933.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Identify, describe and explain religion as a significant and pervasive element in human culture.

**Critical Thinking**

2. Read and analyze current literature on method and theory in a study of religion.
3. Read and analyze current literature on comparative religion.

**Communication**

4. Effectively communicate, in speech and in writing, and disseminate the results of research in a coherent and organized manner.

**Curriculum Map**

## Curriculum

- Combination Degrees
- Religion
- Religion Minor
- Religious Ethics Minor

The religion minor consists of five REL-prefixed religion courses. Three of these courses must be taken at the intermediate or advanced level at UF.

No more than three credits of REL 4905 will apply. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Russian

Foreign Languages and Literatures
Students who major in Russian graduate with a solid working knowledge of the language and a thorough understanding of Russian culture and everyday life.

About this Program
• College: Liberal Arts and Sciences (p. 978)
• Degree: Bachelor of Arts
• Credits for Degree: 120
• More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

Curriculum
• African Languages
• Arabic
• Arabic Language and Literature Minor
• Chinese
• Combination Degrees
• Dual Languages
The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills, and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

Foreign Languages and Literatures Options (p. 1189)

Students can tailor their program of study to fit their personal and career goals, be it reading Tolstoy in the original or tapping into one of the hottest emerging global markets. Majors also receive priority placement in our popular study-abroad programs in Moscow.

Completed alone or in combination with a second major, the Russian specialization of the Foreign Languages and Literatures major prepares students for a variety of careers, including law, government, national security, international relations, business, education and graduate programs in the humanities and social sciences. Beyond this, it equips students with analytical skills essential for performing effectively in today’s multicultural world.

Small class sizes and an outstanding professional teaching staff ensure that students have every opportunity to learn and excel.

Students who intend to pursue the Russian specialization or a Russian minor should consult the undergraduate coordinator for Russian studies as soon as possible.

Coursework for the Major

The Russian specialization in Foreign Languages and Literatures consists of preparatory language study at the beginning and Intermediate levels and 33 hours of advanced language, literature, and culture study in the upper division.

All coursework for the major must be completed with minimum grades of C.

**Critical Concentration**

Select 9 credits from one concentration: ¹ ²

- Intensive Area Studies: Russian
- Comparative Cultural Studies
- Film and Visual Culture
- Literary Studies
- Medieval and Early Modern Studies

**Total Credits** 33

---

¹ Although courses may appear in more than one group they may be counted toward only one group.

² Recommended for those planning to pursue careers requiring advanced level skills in Russian or graduate work in Russian Studies.

**Overseas Study**

Students are encouraged to consider the UF summer program in Russian language and culture at Moscow State University in Russia.
Research

Students with an upper-division GPA of 3.5 are encouraged to write a thesis for high or highest honors at graduation.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160402&track=01) may be used for transfer students.

Semester 1

- Complete RUS 1130 or higher-level Russian course with a minimum grade of C
- Complete 1 Russian Literature and Culture in English course (3000 level or above)
- 2.0 UF GPA required

Semester 2

- Complete RUS 1131 or higher-level Russian course with 2.5 critical-tracking GPA
- Complete 1 Russian Literature and Culture in English course (3000 level or above)
- 2.0 UF GPA required

Summer A – Moscow Summer Program (8 credit hours in advanced electives) highly recommended any time after completing two semesters of Russian (RUS 1130/RUS 1131)

Semester 3

- Complete RUS 2220 or any 2000-level Russian course with 2.5 critical-tracking GPA
- Complete 1 Advanced elective (RUS 3240)
- Complete 1 Russian Literature and Culture in English course (3000 level or above)
- 2.0 UF GPA required

Semester 4

- Complete RUS 3400 with 2.5 critical-tracking GPA
- Complete 1 advanced elective (RUS 4780)
- 2.0 UF GPA required

Semester 5

- Complete RUS 4000 with 2.5 critical-tracking GPA
- Complete 1 advanced elective
- 2.0 UF GPA required

Semester 6

- Complete RUS 4001
- Complete 1 3000/4000-level elective
- 2.0 UF GPA required

Semester 7

- Complete RUS 4501
- Complete 1 3000/4000-level elective
- 2.0 UF GPA required
Semester 8

• Complete RUS 4911 or 1 3000/4000-level elective
• 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically GE-C, H, or S). One of the two general education mathematics courses must be a pure math course. 3000 level or above critical concentration courses outside of Russian may count toward the 3000 level or above electives outside of the major.

Beginning language is best started semester 1 and absolutely no later than semester 3, but study abroad or accredited intensive summer courses can be used to fall in with an ideal semester progression.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact
The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must
- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking
2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication
3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

1 Courses focus on the acquisition of the language(s) of specialization at the advanced level.
2 Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types
• Proficiency exams
• Term papers or final projects
• Oral presentations

Russian Minor
This minor provides foundational proficiency in Russian language and culture for work in international relations, national security, global business, finance, journalism, education, and NGOs.

About this Program
• College: Liberal Arts and Sciences (p. 978)
• Credits: 15 | Completed with minimum grades of C

Department Information
Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

Related Programs
• Russian and East-European Area Studies Certificate

For the minor, students must complete at least five Russian courses beyond the 1000 level. Up to six credits transferred from another institution may be applied toward the minor.

Students are required to take RUS 2220 and one 3000/4000 level RUT course. The remaining credits should be RUS and RUW-prefixed courses at the 3000/4000 level.

Students who place out of RUS 2220 and RUS 3240 (without transfer credits) can apply up to nine credits of RUT courses toward the minor. No more than three credits of RUS 4905 can apply.

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Russian and East-European Area Studies Certificate

The Russian and East-European Area Studies certificate provides a foundation for graduate work in the field of and careers in government service. The program is based on a major in economics, foreign languages, geography, history, philosophy, political science, or religion.

About this Program
• College: Liberal Arts and Sciences (p. 978)
• Credits: 24 | Completed with minimum grades of C
• Contact

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Center Information

The Center for European Studies (CES), housed within the College of Liberal Arts & Sciences (CLAS), is an interdisciplinary area studies center focused on the study of Europe, and facilitating the training of scholars and experts in European studies in the United States. In addition to the minors, certificates, and major, the center offers study abroad programs in Europe and various scholarships and grants for undergraduates.

Website (https://ces.ufl.edu/)
Ten credits maximum from the student's major may be used to fulfill the 24-credit area requirement. At least nine credits of coursework must be unique to the Russian and East-European Area Studies certificate out of all other certificates and minors.

Total Credits 24

Students are encouraged to include at least one course in economics, history, political science, and Russian or East-European culture or literature to diversify their program, or to participate in an overseas study program.

Sociology

Sociology is the study of social life and the social causes and consequences of human behavior. Award-winning faculty teach diverse and multifaceted coursework in the broad categories of health, illness and aging; marriage, families and gender; criminology and deviance; inequality, poverty and stratification; social psychology; and race and ethnic studies. Students examine the most pressing social problems in these areas, as well as how different social groups experience and perceive these issues. The communication and analytical skills developed by sociology majors, complemented by their sensitivity to and appreciation for diversity in many aspects of social relationships, provide our students with essential conceptual tools for navigating today's global marketplace and information society.

About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
To graduate with this major, students must complete all university, college, and major requirements.

**Department Information**
The Department of Sociology and Criminology & Law has over 1,000 undergraduate majors and 100 graduate students. The department’s faculty are internationally known for their research in the areas of families, gender, and sexualities; health, aging, and the life course; environmental and resource sociology; race and ethnicity; criminology and criminal justice; and psychology and law.

**Curriculum**
- Combination Degrees
- Criminology
- Criminology UF Online
- Sociology
- Sociology Minor
- Sociology Minor UF Online
- Sociology UF Online

A liberal arts degree in sociology provides students with opportunities to develop skills deemed essential for many different types of careers. These skills include learning how to identify and solve problems, conduct research, relate to others, and write effectively. Graduates frequently are employed in business (e.g., advertising staff member, human resource manager), community and social services (e.g., environmental organizer, family planning worker), education (e.g., teacher, public health educator), government (e.g., human rights officer, urban planner), and research (e.g., social research assistant and market researcher). Sociology is also an excellent major for pre-law, pre-health, M.A., and Ph.D. studies.

**Coursework for the Major**
Majors are required to complete 32 credits of coursework in sociology and 3 credits of statistics with minimum grades of C. At least 23 credits of sociology must be in courses numbered 3000 or higher and at least 18 credits must be completed at UF.

To graduate, students must also pass a department exam covering fundamental sociological concepts developed by the sociology faculty.

**Required Coursework**

<table>

</tbody>
</table>

1 STA 2023 is a prerequisite for SYA 4300.

Students select additional sociology courses to complete the 32-credit minimum by matching interests in different substantive areas.

Majors can only apply two other 2000-level courses besides SYG 2000, for a maximum of nine credits at the 2000 level. There are no prerequisites for 2000-level courses.

**Related Coursework**
In addition to the 32 credits of sociology coursework, majors are required to complete STA 2023 Introduction to Statistics 1 with a minimum grade of C. STA 2023 must be taken no later than the end of the third semester.

**Course Details**
All majors should review the department’s guidelines or visit 3231 Turlington Hall for information about the major, the plan of study worksheet, an informational handout, descriptions of current and prospective courses and other information.
Combination Degrees
The Department of Sociology and Criminology offers a combination B.A./M.A. degree to eligible undergraduate students. Please see the graduate coordinator for more information regarding this degree option. Sociology majors may also consider various combination degrees with other departments and colleges. For example, a Master of Science in Business Administration with a concentration in management is offered through the Warrington College of Business to eligible students who have majored in sociology. Please see the undergraduate coordinator for more information about such degree options.

- Combination Degrees

Research
The department encourages students to engage in the research process, either by conducting their own projects in collaboration with a sociology faculty member or by working with sociology faculty on their current research. These opportunities may be pursued by conducting a senior honors thesis or registering for SYA 4911 Undergraduate Research credit. Please see the undergraduate coordinator for more information and eligibility requirements.

Critical Tracking
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=451101&track=01) may be used for transfer students.

Semester 1
- 2.0 UF GPA required

Semester 2
- Complete 1 sociology course
- 2.0 UF GPA required

Semester 3
- Complete 1 additional sociology course (1 of the 2 courses must be SYG 2000)
- Complete STA 2023
- 2.75 GPA required for all 3 critical-tracking courses
- 2.0 UF GPA required

Semester 4
- 2.75 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5
- Complete 1 additional sociology course (1 of the 3 must be at the 3000/4000 level)
- 2.75 GPA required for all 5 critical-tracking courses
- 2.0 UF GPA required

Semester 6
- Complete SYA 4300 or SYA 4110
- Complete 1 additional 2000 level or above sociology course (maximum of 2 sociology electives at the 2000 level)
- 2.0 UF GPA required

Semester 7
- Complete 2 additional 3000/4000 level sociology courses
- 2.0 UF GPA required
Semester 8

- Complete SYA 4110
- Complete all remaining 3000/4000 level sociology courses (7 total sociology elective courses/21 SY elective credits required)
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Bachelor of Arts in sociology provides students with knowledge of the basic concepts in the field, sociological perspectives on social structure, process and institutions and sociological perspectives on the relationship between individuals and society. Emphasis is on the ability to understand, analyze and interpret the sociological literature and on effectively communicating sociological concepts and research in the accepted style of presentation.

Before Graduating Students Must

• Pass a department exam developed by the sociology faculty that covers fundamental sociological concepts.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, explain and apply basic concepts in sociology.

Critical Thinking
2. Analyze, critique and interpret the sociological literature.
3. Define, classify and compare sociological perspectives on social structure, processes and institutions.
4. Define, classify and compare sociological perspectives on the relationship between individuals and society.

Communication
5. Effectively communicate in speech and in writing sociological concepts and research.

Sociology UF Online

Sociology is the study of social life and the social causes and consequences of human behavior. Award-winning faculty teach diverse and multifaceted coursework in the broad categories of health, illness and aging; marriage, families and gender; criminology and deviance; inequality, poverty and stratification; social psychology; and race and ethnic studies. Students examine the most pressing social problems in these areas, as well as how different social groups experience and perceive these issues. The communication and analytical skills developed by sociology majors, complemented by their sensitivity to and appreciation for diversity in many aspects of social relationships, provide our students with essential conceptual tools for navigating today’s global marketplace and information society.

- Sociology Minor
- Sociology Minor UF Online
- Sociology UF Online

A liberal arts degree in sociology provides students with opportunities to develop skills deemed essential for many different types of careers. These skills include learning how to identify and solve problems, conduct research, relate to others, and write effectively. Graduates frequently are employed in business (e.g., advertising staff member, human resource manager), community and social services (e.g., environmental organizer, family planning worker), education (e.g., teacher, public health educator), government (e.g., human rights officer, urban planner), and research (e.g., social research assistant and market researcher). Sociology is also an excellent major for pre-law, pre-health, M.A., and Ph.D. studies.

Coursework for the Major

Majors are required to complete 32 credits of coursework in sociology and 3 credits of statistics with minimum grades of C. At least 23 credits of sociology must be in courses numbered 3000 or higher and at least 18 credits must be completed at UF.

To graduate, students must also pass a department exam covering fundamental sociological concepts developed by the sociology faculty.

---

1 Majors can only apply two other 2000-level courses besides SYG 2000, for a maximum of nine credits at the 2000 level. There are no prerequisites for 2000-level courses.
STA 2023 is a prerequisite for SYA 4300.

Students select additional sociology courses to complete the 32-credit minimum by matching interests in different substantive areas.

**Course Details**

All majors should review the department's guidelines (http://soccrim.clas.ufl.edu/undergraduate/sociology/academics/requirements/) for information about the major, the plan of study worksheet, an informational handout, descriptions of current and prospective courses, and other information.

Spanish
Hispanic and Latin American Languages, Literatures and Linguistics
Focusing on globalization, diversity, and public engagement, the Hispanic and Latin American Languages, Literatures and Linguistics major provides an interdisciplinary, multilingual approach to the study of Spanish- and Portuguese-speaking cultures drawing from a variety of contemporary perspectives on linguistics, literature, film, theatre, social service, and professions in health, law, business, education, and media.

About this Program
- College: Liberal Arts and Sciences (p. 978)
- Degree: Bachelor of Arts
- Specializations: Spanish (p. 1509) | Portuguese (p. 1450) | Spanish and Portuguese (p. 1309)
- Credits for Degree: 120
- Contact

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Spanish and Portuguese Studies endeavors to achieve excellence in research, teaching, and public service related to the languages, literature, and cultures of the areas and countries where Spanish and Portuguese are spoken.
The Hispanic and Latin American Languages, Literatures and Linguistics major offers the opportunity to gain proficiency in Spanish and/or Portuguese, two of the most important languages spoken in the United States, the Western Hemisphere and the world. The department offers courses of study in language, culture, linguistics, and literature, as well as a series of courses in languages for the professions, which focus on medical, legal, business and other professional contexts.

By studying the literary and linguistic heritage of Spanish and Portuguese, students gain critical reading and writing skills that help them acquire and refine their abilities to speak, understand, read and write one of both of these languages.

The Spanish specialization focuses on the language and culture of Spain and Spanish-America, while the Portuguese specialization stresses the language and culture of Brazil, with complementary study of Portugal and Lusophone Africa. The combined specialization recognizes the increasingly prominent roles that Brazil, Spain and Latin America all play in international affairs, especially as they relate to Florida. Spanish- and Portuguese-speakers constitute the fastest growing immigrant populations in Florida. Studying both languages and cultures provide a competitive edge for those seeking careers in business, industry, tourism, health care, agricultural affairs, government, and education.

B.A. in Spanish

The major requires 33 credits, beginning with foundational work in Spanish and then moves on to introductory coursework in culture, literature and linguistics. Pre-foundational coursework required to prepare the student for SPN 2240 or SPN 2340 depends on the student's background in Spanish and an appropriate placement score.

Students must earn minimum grades of C for coursework to count toward the major.

Additionally, there are separate courses designed students who speak Spanish as a heritage language (i.e., who grew up hearing or using Spanish at home).

Required Coursework

- SPN 2240 and SPN 3300 (non-bilingual track) or SPN 2340 and SPN 3350 (bilingual track)
- SPN 3700
- At least one SPW 3000-level course, 3 credits
- An additional 21 credits of Spanish courses at the 3000/4000 levels
  - At least 12 of the 21 credits must be at the 4000 level (four courses total)
- Students who transfer credits toward the Spanish major must take at least four 4000-level courses in Spanish at UF
- No more than 3 credits of SPN 4905 may count toward the major

Recommended Coursework

Students who have studied six semesters of Spanish or who have equivalent fluency may enroll in one-credit Spanish discussion sections that accompany selected Latin American studies courses in anthropology, art, business, philosophy, religion, sociology, etc. A maximum of three such courses may be credited toward the Spanish major and minor. Refer to the course description for SPN 3224.
More Info (http://spanishandportuguese.ufl.edu/undergraduate-programs/)

- SPN 3301 is the prerequisite for SPN 4420
- SPN 3700 is the prerequisite for 4000-level SPN linguistics courses
- SPN 4780 is the prerequisite for SPN 4840
- The prerequisite for 4000-level SPW courses is one SPW 3000-level course.

Concentrations
After completing the introductory courses (SPN 3700 and SPW 3xxx), students may choose to complete their remaining upper division coursework in Hispanic Literatures or Hispanic Linguistics, or a combination of the two. Courses in the literature concentration (indicated with the prefix SPW) focus on the reading, contextualization and critical analysis of literary texts from across the Spanish-speaking world and including a wide range of periods and genres. Courses in the linguistics concentration (indicated with the prefix SPN) focus on the scientific study of the Spanish language and its structures, such as morphology, phonetics, phonology and syntax; as well as more applied linguistic areas such as psycholinguistics, bilingualism, and language acquisition.

Overseas Study
Students pursuing a major or a minor in Spanish are strongly encouraged to spend a summer, a semester, or an academic year in a Spanish-speaking country. UF programs are encouraged because they allow for easy transfer of UF credits and courses or course equivalencies. Most financial aid applies in this case as well. Interested students should contact the undergraduate coordinator and the UF International Center, 170 Hub.

Placement
Students with no previous study or experience in Spanish will need to complete the beginning language sequence (SPN 1130-SPN 1131) and the intermediate language sequence (SPN 2200-SPN 2201) to prepare for SPN 2240.

Students with prior study or knowledge of Spanish who wish to enroll in a Spanish course can present dual enrollment, AP, IB, or AICE scores, or can take the WebCAPE online placement test (http://spanishandportuguese.ufl.edu/undergraduate-programs/lower-division-spanish-program/spanish-placement/).

Any student who has lived in a Spanish-speaking country for more than a year or who has significant Spanish-speaking experience at home or in a community must consult the coordinator of the bilingual program before enrolling in any SPN language, literature, or culture course. Heritage speakers not planning to take Spanish who wish to show proficiency should consult the Department for information on how to fulfill their foreign language proficiency requirement.

More Info (http://spanishandportuguese.ufl.edu/undergraduate-programs/lower-division-spanish-program/)

Research
Students who wish to complete a senior thesis for honors should consult Spanish faculty at least two semesters in advance of graduation.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160905&track=01) may be used for transfer students.

Semester 1
- 2.0 UF GPA required

Semester 2
- Complete SPN 1130 or a higher-level Spanish course
- 2.0 UF GPA required

Semester 3
- Complete SPN 1131 or a higher-level Spanish course
- 2.0 UF GPA required
Semester 4
- Complete SPN 2200 or continue taking higher-level Spanish coursework with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5
- Complete SPN 2201 or a higher-level Spanish course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6
- Complete 3 of the remaining SPANISH 3xxx/4xxx required courses
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Semester 7
- Complete 3 of the remaining SPANISH 3xxx/4xxx required courses
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Semester 8
- Complete all remaining SPANISH 4xxx required courses
- 2.5 critical-tracking GPA required
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.
### Gen Ed Biological Sciences
- Credits: 3

### Electives
- Credits: 6

### Semester Five

Select one (if not taken previously):
- **SPN 2240** Intensive Communication Skills (**Critical Tracking**) $^1$
- **SPN 2340** Introduction to Reading and Writing Spanish for Heritage Learners (**Critical Tracking**)

Select one:
- **SPN 3300** Spanish Grammar and Composition 1 (**Critical Tracking**)
- **SPN 3350** Spanish Grammar and Composition for Heritage Learners (**Critical Tracking**)

**Gen Ed Composition; Writing Requirement**
- Credits: 3

**Elective**
- Credits: 3

**Elective (3000 level or above, not in major)**
- Credits: 3

### Semester Six

**SPN 3700** Introduction to Hispanic Linguistics (**Critical Tracking**)
- Credits: 3

**SPW course (3000 level)** $^2$
- Credits: 3

**SPN or SPW course (**Critical Tracking;** 3000 level)** $^2$
- Credits: 3

**Elective (3000 level or above, not in major)**
- Credits: 3

**Gen Ed Physical Sciences**
- Credits: 3

### Semester Seven

**SPN or SPW courses (**Critical Tracking;** 3000/4000 level)** $^2$
- Credits: 6

**SPN or SPW courses (**Critical Tracking;** 4000 level)** $^2$
- Credits: 3

**Electives (3000 level or above, not in major)**
- Credits: 6

### Semester Eight

**SPN or SPW courses (**Critical Tracking;** 4000 level)** $^2$
- Credits: 9

**Electives (3000 level or above, not in major)**
- Credits: 6

**Total Credits**
- Credits: 120

---

$^1$ SPN 2240 (or SPN 2340) is the first course that earns credit toward the major or minor. SPN 3300 can be taken concurrently with SPN 2240.

$^2$ Some Spanish courses may also fulfill the H and N general education requirements: SPW 3030, SPW 3031, SPW 3100 and SPW 3101, SPN 3510, and SPN 3520; SPN 3440 fulfills the S and N general education categories.

---

### Academic Learning Compact
The Bachelor of Arts in Hispanic and Latin American Languages, Literatures and Linguistics enables students to achieve communicative competence in Spanish and/or Portuguese, with an emphasis on all four language skills: speaking, comprehension, reading, and writing. Students will become knowledgeable in the areas of Hispanic and Lusophone cultures, literatures and/or linguistics, and they will learn how to interpret Spanish- and/or Portuguese language texts according to their cultural, literary and linguistic content.

### Before Graduating Students Must
- Complete all requirements for the baccalaureate degree, as determined by faculty.
- Satisfactorily complete a written assignment in a 4000-level course that includes the written analysis of a text according to its cultural, literary and/or linguistic content. The text analyzed and the analysis will be in Spanish/Portuguese.
- Satisfactorily deliver an oral presentation in Spanish/Portuguese on the topic of the written paper. Presentation will include answering questions from audience members.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Identify cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.
**Critical Thinking**
2. Analyze cultural correlates, literary production and/or linguistic structure of texts written in Spanish and/or Portuguese.

**Communication**
3. Demonstrate competence in written Spanish and/or Portuguese, including knowledge of grammar, vocabulary, orthography and appropriate stylistic conventions.
4. Demonstrate communicative competence in spoken Spanish and/or Portuguese, including the ability to understand the spoken language, speak with correct grammar, vocabulary and pronunciation, and use appropriate registers.

Statistics

Statistics, the science of learning from data, has become increasingly important as scientists, businesses, and governments rely more and more on data-driven decision-making. Statisticians work in many areas, including business, economics, medicine, epidemiology, agriculture, environmental sciences, sports, and all aspects of government. With the increasing digitization and networking of society, data have become ever more ubiquitous, further expanding the demand for statisticians and their expertise in the collection and analysis of data.

About this Program

• College: Liberal Arts and Sciences (p. 978)
• Degrees: Bachelor of Arts (p. 1519) | Bachelor of Science (p. 1524)
• Credits for Degree: 120
• Contact: Email (dathien@stat.ufl.edu?Subject=Statistics%20Major)
• More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The mission of the Department of Statistics is to provide its students with a fundamental understanding of statistical reasoning and methodology, to train them to apply this knowledge to the collection and analysis of data, and to prepare them for careers in a highly technological society in which science and decision-making are increasingly driven by a rapid expansion in the quantity and availability of data.

Curriculum

- Actuarial Science Minor
- Combination Degrees
- Data Science
- Statistics
- Statistics Minor

Statistics majors learn how to design studies that effectively address the purpose of a research project and how to properly analyze the data collected in such studies. Core courses cover statistical methods applicable in a wide variety of settings (e.g., regression and design of experiments) as well as the conceptual and mathematical foundations of statistics. Other courses explore specific data types often encountered in practical settings. Statistics majors have the option to minor in actuarial science, a profession involving the statistical and financial practices of insurance.

Students who wish to major in statistics must consult a department advisor early in their programs.

Coursework for the Major

The College of Liberal Arts and Sciences offers the Bachelor of Science and the Bachelor of Arts in statistics.

Bachelor of Arts

Intended for students who wish to pursue a career in the field of statistics or to teach statistics at the secondary-school level, but who do not currently contemplate graduate study in statistics.

Bachelor of Science

Intended for students who wish to pursue graduate study in statistics or a closely related area, and for other strong students with a deeper interest in the mathematical foundations of statistics.

Required Coursework for Both Degrees

The B.A. in statistics requires a minimum of 42 credits in statistics and related coursework. The B.S. in statistics requires a minimum of 49 credits in statistics and related coursework. It is important that the prerequisites of each class are met before the class is attempted.

Students must receive minimum grades of C within two attempts (including withdrawals) in every required core course and in every course counted toward the 12 credit elective requirement, with the exception of MAC 2312 and MAC 2313 where students must receive a minimum grade of B-.

Students cannot retake core or statistics elective courses after earning a minimum grade of C, with the exception of MAC 2312 and MAC 2313, in which students must receive a minimum grade of B-. A minimum GPA of 2.0 must be achieved on all attempts of core and major elective courses and 2.67 on MAC 2312 and MAC 2313. The grades from all attempts to satisfy core requirements will be used to compute the minimum GPA. A minimum of 18 credits of major coursework must be taken at UF, including a minimum of 12 credits of core coursework.

Statistics

STA 4930  Special Topics  

| Total Credits | 33 |

1. The course sequences, STA 4210-STA 4211 and STA 4321-STA 4322 should be completed by the end of the junior year.

2. Prerequisite: STA 4210.

3. Prerequisite: STA 4321.

4. Students pursuing the major must enroll in the restricted to STA majors only section of STA 4211.

Combination Degree Program

Superior students can earn both the bachelor’s and master’s degrees in a shorter time than typically would be possible by counting up to 12 credits of approved graduate courses toward both degrees. For information and application, contact the undergraduate or graduate coordinator.

Relevant Minors and/or Certificates

Statistics majors may want to consider a minor in actuarial science, which prepares students for careers as actuaries. Required courses cover the material for the beginning examinations and VEE credits leading to an associateship in the major national actuarial societies.

Academic Learning Compact

The statistics major enables students to achieve proficiency in the fundamentals of statistical reasoning. Through study of both theoretical and applied statistics and through data analysis projects, students will gain knowledge in problem solving, statistical applications and data-based inferences. Emphasis is on developing the ability to approach real world problems and through the use of statistical methods to be able to analyze and to draw valid scientific inferences.

Before Graduating Students Must

- Complete an exam on the fundamentals of statistics, which will be 5% of your grade in STA 4211.
- Complete a data analysis project, which will be 10% of your grade in STA 4211.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, define and describe concepts and issues in statistics, including those involved in designing a statistical study, in statistical estimation and in tests of hypotheses.

Critical Thinking

2. Identify sources of variability in a given problem setting and formulate an appropriate statistical analysis.

Communication

3. Clearly and effectively present ideas in speech and in writing concerning statistical issues and analyses of data.

Total Credits 33

1 The course sequences, STA 4210-STA 4211 and STA 4321-STA 4322 should be completed by the end of the junior year.
2 Prerequisite: STA 4210.
3 Prerequisite: STA 4321.
4 Students pursuing the major must enroll in the restricted to STA majors only section of STA 4211.

## Combination Degree Program

Superior students can earn both the bachelor's and master's degrees in a shorter time than typically would be possible by counting up to 12 credits of approved graduate courses toward both degrees. For information and application, contact the undergraduate or graduate coordinator.

## Relevant Minors and/or Certificates

Statistics majors may want to consider a minor in actuarial science, which prepares students for careers as actuaries. Required courses cover the material for the beginning examinations and VEE credits leading to an associateship in the major national actuarial societies.

## Bachelor of Arts

The B.A. is intended for students who wish to pursue a career in the field of statistics or to teach statistics at the secondary-school level, but who do not currently contemplate graduate study in statistics.

### Additional Required Coursework for B.A.

COP 3275  Computer Programming Using C
COP 3502  Programming Fundamentals 1

Math and Science Elective
Select one of the following: 3-4

COT 4501  Numerical Analysis: a Computational Approach
ESI 3312  Operations Research 1
MAA 4102  Introduction to Advanced Calculus for Engineers and Physical Scientists 1
MAA 4211  Advanced Calculus 1
MAA 4402  Functions of a Complex Variable
MAD 4401  Introduction to Numerical Analysis
MAS 4105  Linear Algebra 1
MHF 4102  Elements of Set Theory

Total Credits 9-11

Prerequisite: MHF 3202.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=270501&track=01) may be used for transfer students.

Semester 1
• 2.0 UF GPA required

Semester 2
• Complete MAC 1147 or higher-level calculus
• 2.0 UF GPA required

Semester 3
• Complete MAC 2311
• 2.0 UF GPA required

Semester 4
• Complete MAC 2312 with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 5
• Complete MAC 2313 and a programming elective or any STA course with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 6
• Complete Programming elective and MAS 3114 and STA 4210 and STA 4321
• 2.0 UF GPA required

Semester 7
• Complete STA 4211 and STA 4322
• 2.0 UF GPA required
**Semester 8**

- Complete STA 4504 and all remaining Statistics and Math and Sciences electives
- 2.0 UF GPA required

### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

MAC 2312, MAC 2313, MAS 4105, and the math elective count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact
The statistics major enables students to achieve proficiency in the fundamentals of statistical reasoning. Through study of both theoretical and applied statistics and through data analysis projects, students will gain knowledge in problem solving, statistical applications and data-based inferences. Emphasis is on developing the ability to approach real world problems and through the use of statistical methods to be able to analyze and to draw valid scientific inferences.

Before Graduating Students Must
• Complete an exam on the fundamentals of statistics, which will be 5% of your grade in STA 4211.
• Complete a data analysis project, which will be 10% of your grade in STA 4211.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)
Content
1. Identify, define and describe concepts and issues in statistics, including those involved in designing a statistical study, in statistical estimation and in tests of hypotheses.

Critical Thinking
2. Identify sources of variability in a given problem setting and formulate an appropriate statistical analysis.

Communication
3. Clearly and effectively present ideas in speech and in writing concerning statistical issues and analyses of data.

Bachelor of Science

Statistics, the science of learning from data, has become increasingly important as scientists, businesses, and governments rely more and more on data-driven decision-making. Statisticians work in many areas, including business, economics, medicine, epidemiology, agriculture, environmental sciences, sports, and all aspects of government. With the increasing digitization and networking of society, data have become ever more ubiquitous, further expanding the demand for statisticians and their expertise in the collection and analysis of data.

About this Program

- **College**: Liberal Arts and Sciences (p. 978)
- **Degrees**: Bachelor of Arts (p. 1519) | Bachelor of Science (p. 1524)
- **Credits for Degree**: 120
- **Contact**: Email (dathien@stat.ufl.edu?Subject=Statistics%20Major)
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The mission of the Department of Statistics is to provide its students with a fundamental understanding of statistical reasoning and methodology, to train them to apply this knowledge to the collection and analysis of data, and to prepare them for careers in a highly technological society in which science and decision-making are increasingly driven by a rapid expansion in the quantity and availability of data.

Curriculum

- Actuarial Science Minor
- Combination Degrees
- Data Science
- Statistics
- Statistics Minor

Statistics majors learn how to design studies that effectively address the purpose of a research project and how to properly analyze the data collected in such studies. Core courses cover statistical methods applicable in a wide variety of settings (e.g., regression and design of experiments) as well as the conceptual and mathematical foundations of statistics. Other courses explore specific data types often encountered in practical settings. Statistics majors have the option to minor in actuarial science, a profession involving the statistical and financial practices of insurance.

Students who wish to major in statistics must consult a department advisor early in their programs.

Coursework for the Major

The College of Liberal Arts and Sciences offers the Bachelor of Science and the Bachelor of Arts in statistics.

Bachelor of Arts

Intended for students who wish to pursue a career in the field of statistics or to teach statistics at the secondary-school level, but who do not currently contemplate graduate study in statistics.

Bachelor of Science

Intended for students who wish to pursue graduate study in statistics or a closely related area, and for other strong students with a deeper interest in the mathematical foundations of statistics.

Required Coursework for Both Degrees

The B.A. in statistics requires a minimum of 42 credits in statistics and related coursework. The B.S. in statistics requires a minimum of 49 credits in statistics and related coursework. It is important that the prerequisites of each class are met before the class is attempted.
Students must receive minimum grades of C within two attempts (including withdrawals) in every required core course and in every course counted toward the 12 credit elective requirement, with the exception of MAC 2312 and MAC 2313 where students must receive a minimum grade of B-. Students cannot retake core or statistics elective courses after earning a minimum grade of C, with the exception of MAC 2312 and MAC 2313, in which students must receive a minimum grade of B-. A minimum GPA of 2.0 must be achieved on all attempts of core and major elective courses and 2.67 on MAC 2312 and MAC 2313. The grades from all attempts to satisfy core requirements will be used to compute the minimum GPA. A minimum of 18 credits of major coursework must be taken at UF, including a minimum of 12 credits of core coursework.

**Student Learning Outcomes (SLOs)**

**Content**

1. Identify, define and describe concepts and issues in statistics, including those involved in designing a statistical study, in statistical estimation and in tests of hypotheses.

**Critical Thinking**

2. Identify sources of variability in a given problem setting and formulate an appropriate statistical analysis.

**Communication**

3. Clearly and effectively present ideas in speech and in writing concerning statistical issues and analyses of data.

**Curriculum Map**

*I = Introduced; R = Reinforced; A = Assessed*

**Statistics Minor**

The Statistics minor complements and enhances a wide variety of undergraduate majors by providing valuable training in data analysis and statistical modeling and inference.
About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Credits:** 15 | Completed with minimum grades of C and no optional S/U

Department Information

The mission of the Department of Statistics is to provide its students with a fundamental understanding of statistical reasoning and methodology, to train them to apply this knowledge to the collection and analysis of data, and to prepare them for careers in a highly technological society in which science and decision-making are increasingly driven by a rapid expansion in the quantity and availability of data.

Curriculum

- Actuarial Science Minor
- Combination Degrees
- Data Science
- Statistics
- Statistics Minor

- This minor requires a minimum of five STA courses.
  - The sequence STA 4210 and STA 4211, and at least three approved electives.
- STA 3024 or STA 3032 should be taken prior to the STA 4210 and STA 4211.
- No more than three transfer credits may be applied to the minor.
- Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Sustainability Studies

A Sustainability Studies major prepares students for global citizenship with a firm grounding in the natural sciences, the social sciences, and the humanities. Students in the major explore how to maintain ecological and environmental health, create economic welfare, and pursue social justice in
a changing world. Sustainability studies students gain understanding of the ways in which these three goals are interdependent and explore how they best can be pursued over the long term on local, national, and global levels.

About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Contact:** Email (advisor@advising.ufl.edu?Subject=Sustainability%20Studies%20Major)

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Sustainability Studies prepares students for global citizenship while providing a broad foundation of sustainability knowledge and professional skill sets. Students gain experience and put their learning to work in the capstone internship course, Sustainability in Action.

Website (https://sustainability.clas.ufl.edu/)

GAINESVILLE FL 32611-7325
Map (http://campusmap.ufl.edu/#/index/0007)

Curriculum

- Sustainability Studies
- Sustainability Studies Minor

Sustainability studies investigates the means to maintain environmental health, create economic welfare, and pursue social justice in a changing world. Students gain an understanding of the ways in which these three goals are interdependent and explore how they can best be pursued in the long term at local, national, and global levels.

Coursework

Students are required to complete 33 credits of sustainability studies coursework; 15 of these 33 credits must be at the 3000/4000 level. All courses must be completed with minimum grades of C and a minimum of 15 credits of sustainability studies courses must be completed at UF.

For more information about Sustainability Studies and listings of newly available Core Courses and Cluster Courses, please visit the program website. More Info (https://sustainability.clas.ufl.edu/)

Core Courses

Select one 2000-level core course from each disciplinary groups:

- **Humanities**
  - AMH 2631 History of Sustainability
  - CLA 2521 Classical Antiquity and Sustainability
  - REL 2071 Sustainability and Religion

- **Natural Sciences**
  - BSC 2862 Global Change Ecology and Sustainability
  - GEO 2351 Geographical Sciences and Sustainability

- **Social Sciences**
  - ANT 2402 Anthropology of Sustainability
  - ECO 2310 Economics of Sustainability
  - PSY 3626 Psychology of Sustainability
  - POS 2032 Politics of Sustainability

Cluster Courses

Select six cluster courses with at least one course chosen from each of the four clusters: 1

- **Cluster A: Ethics, Culture and Human Behavior**
- **Cluster B: Economics, Law and Policy**
- **Cluster C: Production Systems and the Built Environment**
Cluster D: Ecology and Environmental Stewardship

Total Credits: 33

1. Four of the six courses (12 credits) must be taken at the 3000 level or higher

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 985).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=303301&track=01) may be used for transfer students.

Five courses required by the end of the fifth semester, selected from:

- IDS 2154; required in either semester 1 or 2
- 3 Sustainability Studies Core courses; one from each of the disciplinary areas
- 2 Sustainability Studies Cluster courses; one at the 3000 level or higher

Semester 1

- Complete IDS 2154 or one critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete IDS 2154 or one critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.5 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.75 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 3.0 UF GPA required

Semester 5

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 3.0 UF GPA required

Semester 5
Semester 6
• Complete 1 additional tracking course
• 2.0 GPA required for all critical-tracking courses

Semester 7
• Complete 1 additional tracking course
• 2.0 GPA required for all critical-tracking courses

Semester 8
• Complete 1 additional tracking course
• Complete IDS 4942
• 2.0 GPA required for all critical-tracking courses

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

Electives (3000 level or above, not in major) 6
Credits          16

Semester Eight
IDS 4942                Sustainability in Action (capstone course; Critical Tracking) 3
Electives credits       7
Electives (3000 level or above, not in major) 6
Credits          16
Total Credits        120

1 Depending on the course(s) taken, the sustainability studies core courses and cluster courses may also meet the following general education categories: biological sciences, humanities, international, physical sciences, or social and behavioral sciences. If a general education category is met through a core or cluster course, the student may substitute elective credit where the GE requirement is listed in the model semester plan.

2 If BSC 2862 taken as natural science core course for major

3 If ECO 2013 not taken.

4 If GLY 2038 taken as natural science core course for major

### Academic Learning Compact

The Bachelor of Arts in sustainability studies requires students to demonstrate an understanding of the relationship between the goals of sustainability and the activities of the built environment disciplines, including architecture, building construction, historic preservation, interior design, landscape architecture and urban and regional planning.

### Before Graduating Students Must

- Complete a capstone or independent research project, present your results to a committee of the program's faculty and receive acceptable assessment.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Define and explain sustainability scholarship, including natural scientific, social scientific and humanistic approaches.
2. Define and explain the relationship of sustainability to ethics, culture and human behavior; economics, law and policy; production systems and the built environment; ecology and environmental stewardship.

**Critical Thinking**

3. Critically assess sustainability principles and practices.

**Communication**

4. Effectively write and/or orally communicate a range of approaches, frameworks, principles and practices of sustainability.

Sustainability Studies Minor

The interdisciplinary Sustainability Studies minor benefits from the teaching and research of faculty in multiple departments and colleges, and complements any major.

About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Credits:** 18 | Completed with minimum grades of C

Department Information

Sustainability Studies prepares students for global citizenship while providing a broad foundation of sustainability knowledge and professional skill sets. Students gain experience and put their learning to work in the capstone internship course, Sustainability in Action.

Website (https://sustainability.clas.ufl.edu/)

<td></td>
<td>Select five approved electives with at least one from each cluster.¹</td>
<td>15</td>
</tr>
</tbody>
</table>

 ¹ A minimum of three courses of no fewer than three credits each must be at the 3000 level or above.

Students may apply to enroll in IDS 4942, a 3-credit capstone course that has a service learning, internship, or integrative research project component. If accepted into this capstone course students need only complete four cluster courses (12 credits), one from each of the four clusters.

Approved Cluster Courses

Courses for each cluster include those listed as approved cluster courses (p. ) for the sustainability studies major, plus the following options:
Teaching English as a Second Language Minor

The Teaching English as a Second Language (TESL) minor is intended for undergraduates who might want to work in English language programs in the United States or abroad.

About this Program

- **College**: Liberal Arts and Sciences (p. 978)
- **Credits**: 15 | Completed with minimum grades of C
- **More Info**

Department Information

The Linguistics Department offers the Ph.D., M.A. (both thesis and non-thesis), B.A., and two undergraduate minors (the Linguistics minor and the TESL minor). A TESL certificate is offered at the undergraduate level, and a SLAT (Second Language Acquisition and Teaching) certificate at the graduate level. We currently have almost 30 faculty (combining budgeted and affiliated personnel), well over 100 undergraduate majors, and approximately 40 graduate students.

Total Credits 18

1 Linguistics majors may count LIN 3010 and LIN 4721 toward both the major in linguistics and the TESL certificate.

2 Prerequisite: completion of at least four of the courses above. Fifth course must be taken simultaneously with TSL 4940.

Theories and Politics of Sexuality Minor

The Theories and Politics of Sexuality minor is useful for anyone who is curious about the place of sexuality and the institutions and practices organized around it (marriage, reproduction, the law, etc.) in life and culture.
About this Program

- **College**: Liberal Arts and Sciences (p. 978)
- **Credits**: 18 | Completed with minimum grades of C

Center Information

The Center for Gender, Sexualities, and Women's Research advances research, teaching, and leadership on how multiple systems of power intertwine to shape culture, society, and people's lived experiences. Students explore how gender, class, race, sexuality, and other systems of power shape important domains such as health, work, culture, media, politics, leadership, and organizations. Students also learn how to put this knowledge into practice to transform these systems.

Curriculum

- Combination Degrees
- Health Disparities in Society Minor
- Theories and Politics of Sexuality Minor
- Women's Studies
- Women's Studies Minor

Students pursuing the women's studies major are not eligible to receive the minor in theories and politics of sexuality (TPS).

- No more than three credits of independent study may apply to the minor.
- All courses must be passed with minimum grades of C except internships, which are taken S/U.
- Six transfer credits can apply toward the minor.
- Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Each semester, classes approved for this minor will be listed on the Women's Studies courses webpage and flagged TPS.

Women's Studies

The Center for Gender, Sexualities, and Women's Studies Research administers the Women's Studies program, which offers students the opportunity to investigate how questions of gender and sexuality shape the human experience in the United States and abroad, from the past to the present.

About this Program

- **College**: Liberal Arts and Sciences (p. 978)
- **Degree**: Bachelor of Arts
- **Concentrations**: General Concentration | International Perspectives on Gender | Theories and Politics of Sexuality
- **Credits for Degree**: 120
- **More info**

To graduate with this major, students must complete all university, college, and major requirements.
Center Information
The Center for Gender, Sexualities, and Women's Research advances research, teaching, and leadership on how multiple systems of power intertwine to shape culture, society, and people's lived experiences. Students explore how gender, class, race, sexuality, and other systems of power shape important domains such as health, work, culture, media, politics, leadership, and organizations. Students also learn how to put this knowledge into practice to transform these systems.

Map (http://campusmap.ufl.edu/#/index/0014)

Curriculum

- Combination Degrees
- Health Disparities in Society Minor
- Theories and Politics of Sexuality Minor
- Women's Studies
- Women's Studies Minor

The B.A. in women's studies offers undergraduates an opportunity to explore the way gender works in the lives of people (men as well as women) from a variety of academic perspectives. The major gives a solid Liberal Arts education but also takes advantage of resources outside the college: students take courses offered through the Center for Gender, Sexualities, and Women's Studies Research as well as approved courses offered in departments across the university.

Students may elect to follow the general concentration in the major, or choose one of the more specialized concentrations: International Perspectives on Gender, or Theories and Politics of Sexuality. Minors are available in women's studies, theories and politics of sexuality, and health disparities in society. All of the courses of study offer a rigorous academic curriculum, along with exciting experiential learning opportunities, including service-learning courses, internships and study abroad; the major culminates in an independent capstone project.

Women's studies majors complete their degrees ready to make competitive applications to graduate and professional school, or to pursue careers in a wide variety of fields, including education, journalism, community activism, arts and entertainment, international relations, and the helping professions. Students should refer to the department website and contact the women's studies undergraduate coordinator for a complete course listing.

More Info (http://wst.ufl.edu/)

Coursework for the Major

The major requires 30 credits of coursework in women's studies core and elective courses, at least 27 credits of which must be at the 3000/4000 level. All 30 credits must be completed with minimum grades of C. To ensure a good grasp of the content, theories and methods of women's studies scholarship, students will take courses from a variety of disciplines in addition to those offered under the WST prefix designation.

Students are encouraged to fulfill some of the requirements with appropriate study-abroad courses and may petition the program to count courses outside of WST toward the major if they have significant (greater than 50 percent) gender content. Because the major is so flexible, students should use the approved plan of study (http://wst.ufl.edu/undergraduate-studies/forms/) worksheets to plan and track their progress through the degree. Many courses offered in other departments are approved for women's studies credit.

1 Prereq.: WST 3015

A minimum of 18 credits for the major must be taken at UF.

Combination Degree Programs

Women's studies is an interdisciplinary field, and at the undergraduate and masters level provides general training in critical thinking, written and oral communication, and specific training in gender analysis. The combination B.A./M.A. degree offers a useful program for well-qualified students...
who may want careers in social service, law, business, education, policy planning, government and nongovernment organizations and international development. Some MA recipients also choose to pursue the Ph.D. in women's studies (not currently available at UF).

For those students interested in using the MA to develop job qualifications, this accelerated program provides quicker access to advanced training in research and analytic skills. Students who have a Ph.D. as their goal will be able to abbreviate the length of time engaged in coursework. Undergraduates enrolled in graduate courses also will benefit from the more intense level of intellectual engagement involved in graduate training.

More info (http://wst.ufl.edu/undergraduate-studies/bama-degree/)

Concentrations

General Concentration

Students in the general concentration tailor their coursework for maximum exposure to the various issues covered by women’s studies scholarship. In addition to the core requirements, students take nine credits of approved electives focused on humanities, nine credits of approved electives focused on social science, and three credits of a gender and science-focused course or an internship (WST 4940).

International Perspectives on Gender

This concentration emphasizes the experiences of women and men around the globe, with an eye to achieving a cross-cultural perspective on gender, power, sexuality, and the way social and cultural changes impact gender relations. In addition to the core requirements, students must take at least 21 credits from an approved list of IPG electives.

Theories and Politics of Sexuality

This concentration introduces students to new ways of theorizing sex, sexual identities, and the significance of sexualities in social organization. In addition to taking the three core requirements, students take a required three-credit sexualities course, ENG 4844 Queer Theory, or WST 3603 Sexualities Studies. The remaining 18 credits are drawn from an approved list of TPS electives.

Course Details

The core courses in women’s studies give coherence to the plan of study that individual students devise.

- WST 3015 Interdisciplinary Perspectives in Women’s Studies draws on various materials and methodologies to explore the diverse experiences of women, both in past eras and in the present, focusing on the U.S.
- WST 3415 Transnational Feminism introduces theories of gender and social change engendered by women in diverse national and international contexts. Contemporary economic development, reproductive politics, women’s health, and migration are among the examined topics.
- WST 4935 Capstone Seminar is taken in the final year and allows students to reflect on their experience in the major and carry their interests forward through structured independent research tied to their scholarly or career interests.
- Students in the Theories and Politics of Sexualities concentration take an additional core course (WST 3603 or ENG 4844) that introduces them to key issues in contemporary Sexualities Studies.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=050207&track=01) may be used for transfer students.

Women’s studies is a flexible major without a specific gateway course or prerequisites for upper-division courses. In addition to maintaining a 2.0 overall UF GPA and a 2.5 critical-tracking GPA, students should have four women's studies courses (three at the 3000 level) completed by the fifth semester. It is required that one of these 3000-level courses be WST 3015 or WST 3415, and it is highly recommended that students take WST 3015 or WST 3415 in semester 4. Additionally, it is highly recommend that students complete both WST 3015 and WST 3415 by semester 5.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required
Semester 3
• Complete one women's studies course
• 2.0 UF GPA required

Semester 4
• Complete 1 additional women's studies course at the 3000 level (WST 3015 or WST 3415 recommended) with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 5
• Complete 2 additional women's studies courses at the 3000 level, including WST 3015 or WST 3415, with a 2.5 critical-tracking GPA. At least three of the four courses taken must be at the 3000 level or higher.
• 2.0 UF GPA required

Semester 6
• Complete 2 additional women's studies courses at the 3000 or 4000 level (recommendations: remaining 3000-level core course if not taken yet, WST 4940 or Gender and Science designated course). At least five of the six courses taken must be at the 3000-level or higher.
• 2.0 UF GPA required

Semester 7
• Complete 2 additional women's studies courses at the 3000 or 4000 level (recommendations: remaining 3000-level core course if not taken yet, WST 4940 or Gender and Science designated course). At least seven of the eight courses taken must be at the 3000-level or higher.
• 2.0 UF GPA required

Semester 8
• Complete 2 additional women's studies courses at the 3000 level, (this must include any remaining core courses: WST 3015, WST 3415, WST 4940 or alternate, WST 4935, and any remaining Women's Studies humanities or social science electives). At least nine of the ten courses taken must be at the 3000-level or higher.
• 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically GE-C, H, or S).

Approved Women's Studies and gender-related courses may not count towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

The Bachelor of Arts in women and gender studies provides knowledge of the core concepts of the interdisciplinary fields of gender and women's studies. It offers insights into gender’s role in shaping human experience in U.S. and international contexts. Students will learn the theories behind gender and women’s studies and how to interpret texts in light of those theories. They will also learn the field’s research methods and they will demonstrate the ability to communicate critical perspectives in the field.

**Before Graduating Students Must**

- Satisfactorily complete an internship with an outside agency, a service learning course or a research-based project submitted for evaluation to core or affiliated women's studies faculty. Assessment will be based on SLOs 1-3.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Identify the terminology and concepts central to the interdisciplinary field of gender and women's studies.

Critical Thinking
2. Examine and interpret material using the theory and research methods of gender and women's studies and apply these ideas to current social issues.

Communication
3. Present ideas concerning gender and women's studies in spoken and written form.

Women's Studies Minor

The Women's Studies minor complements work in humanities, social science or natural science majors, focusing on questions of gender, sex, and power that may be discussed but not explored in depth in traditional disciplines.

About this Program
- **College:** Liberal Arts and Sciences (p. 978)
- **Credits:** 18 | Completed with minimum grades of C

Center Information

The Center for Gender, Sexualities, and Women's Research advances research, teaching, and leadership on how multiple systems of power intertwine to shape culture, society, and people's lived experiences. Students explore how gender, class, race, sexuality, and other systems of power shape important domains such as health, work, culture, media, politics, leadership, and organizations. Students also learn how to put this knowledge into practice to transform these systems website (http://wst.ufl.edu/)

Curriculum
- Combination Degrees
- Health Disparities in Society Minor
- Theories and Politics of Sexuality Minor
- Women's Studies
- Women's Studies Minor
Requirements

• No more than three credits of independent study may apply to the minor.
• All courses must be completed with minimum grades of C except internships, which are taken S/U.
• Six transfer credits can apply toward the minor.
• Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Each semester, classes approved for this minor will be listed on the Women's Studies courses webpage.

Zoology

Zoology majors focus on the study of individual organisms and populations, as well as their relationships to each other and the environment, with the core foundation of evolution and ecology. Courses also emphasize the disciplines of anatomy, behavior, genetics, physiology, and other specialized fields.

About this Program

• **College:** Liberal Arts and Sciences (p. 978)
• **Degree:** Bachelor of Science
• **Credits for Degree:** 120
• **More info**

*To graduate with this major, students must complete all university, college, and major requirements.*

Department Information

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. Our teaching and research provide the integrative and conceptual foundations of the life sciences.

Curriculum

• Biology UF Online
• Biology | CALS
• Biology | CLAS
• Botany Minor
• Botany | CALS
• Botany | CLAS
• Combination Degrees
• Zoology
• Zoology Minor

Courses introduce zoology majors to a wide variety of topics while allowing individual interests to be pursued. Advanced undergraduate students are encouraged to participate in research with faculty.
Most career opportunities require advanced studies beyond the bachelor's degree. This includes preparation for graduate studies or employment in disciplines such as zoology, ecology, conservation, and biology research; preparation for medical, dental, or veterinary programs; or preparation for secondary-school teaching.

Ultimately, the undergraduate degree in zoology will be shaped by students' coursework, laboratory experience, field work, and the instructors they encounter. These experiences will help to shape their goals as biologists with a focus on zoology.

Majors should work both with a department advisor and a CLAS advisor. CLAS advisors will assist with degree requirements, university and college policy and course selection. Department advisors will help students select appropriate graduate programs, guide them in the admissions process, and help identify appropriate career choices.

More Info (https://biology.ufl.edu/undergraduates/zoology/)

Coursework for the Major

A zoology major consists of a minimum of 32 credits of core zoology coursework plus a minimum of 31 credits of foundation coursework in chemistry, physics, and mathematics/statistics. Courses used toward the major must be completed with minimum grades of C.

### Code Required Foundation Coursework

Zoology or zoology-related electives

Select at least three courses in zoology:

- **One or more 3000/4000-level ZOO course(s) offered through the Department of Biology**
  - BSC 3402 Theory and Practice in the Biological Sciences
  - BSC 4936 Critical Analysis of Biological Research
  - PCB 4043C General Ecology
  - PCB 4674 Evolution
  - PCB 4723C Physiology and Molecular Biology of Animals
  - PCB 5415C Behavioral Ecology

### Additional zoology courses (minimum)

- **11 credits**

Total Credits

83-87

---

1 Students may not apply ZOO 4232, ZOO 4905, ZOO 4911, or ZOO 4940 toward this requirement.

2 Including up to two zoology major-approved biological science courses (https://biology.ufl.edu/undergraduates/approvedcourses/) (3000/5000 level) outside of zoology.
Up to six credits of Individual Studies in Zoology will count toward this requirement:

- BOT 4911
- BSC 4910
- BSC 4912
- ZOO 4905
- ZOO 4911

Students should begin the chemistry and math sequences as soon as possible. A full year of calculus and a course in statistics (such as STA 2023) are highly recommended.

Transfer students must take at least three courses from the Department of Biology (excluding ZOO 4905, ZOO 4911, and ZOO 4940) at the University of Florida as part of the requirements for the major.

### Additional Zoology Courses

<table>

</tr>
</tbody>
</table>

1. Up to six credits of Individual Studies in Zoology will count toward this requirement:
- BOT 4911
- BSC 4910
- BSC 4912
- ZOO 4905
- ZOO 4911

2. Students may not apply ZOO 4232 or ZOO 4940 toward this requirement.

### Relevant Minors and/or Certificates

Majors in zoology can minor in most other disciplines, and this is a good way to organize students’ electives around areas of interest. For instance, a zoology major can earn a minor in chemistry by adding just two chemistry courses: CHM 3400, CHM 3610, or any 4000-level CHM course. Students could also consider language and humanities minors. Note that zoology majors cannot minor in biology, nor can biology majors minor in zoology (the curricula for the zoology and biology majors are too similar).

Zoology students might want to consider the UFTeach Program. There is a severe shortage of qualified high school science teachers in Florida and nationwide. Students interested in the high-demand teaching profession should see a biology department advisor or the UFTeach advisor. Students who complete the UFTeach minor in science teaching and a B.S. in zoology will have the coursework and preparation for professional teacher certification in Florida when they graduate.

More Info ([http://education.ufl.edu/uf-teach/](http://education.ufl.edu/uf-teach/))

### Research

All zoology majors are strongly encouraged to participate in research. Research experience is valuable on many levels: it diversifies your college experience; it teaches you how scientists apply the knowledge gained in the classroom to real-world questions; it gives you the opportunity to work with and get to know researchers who are the best in their field; it introduces you to cutting-edge scientific questions and techniques; it enhances your resume/CV if you apply to graduate or professional school; and finally, it is essential in helping you determine if science is a good career choice for you.

CLAS zoology majors may participate in research for course credit, as a scholar (e.g., University Scholar, HHMI Science for Life Scholar, Beckman Scholar), as a volunteer, or, in rare cases, as a paid research assistant. Please visit Undergraduate Research for more information regarding course credit. Students who plan to enroll for course credit must contact potential research mentors before the end of drop/add. If they miss the drop/add window, they should still contact potential research mentors, if only to discuss upcoming opportunities.

More Info ([https://cur.aa.ufl.edu/](https://cur.aa.ufl.edu/))

### Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.
Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260701&track=01) may be used for transfer students.

### Semester 1
- Complete one of the following in BSC, CHM, or MAC: BSC 2010/BSC 2010L; CHM 1025 or CHM 2045/CHM 2045L; MAC 1114, MAC 1140, MAC 1147, or MAC 2311
- 2.0 UF GPA required

### Semester 2
- Complete CHM 2045/CHM 2045L; and BSC 2010/BSC 2010L or MAC 2311
- 2.0 UF GPA required

### Semester 3
- Complete BSC 2010/BSC 2010L and MAC 2311 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

### Semester 4
- Complete CHM 2046/CHM 2046L and BSC 2011/BSC 2011L with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

### Semester 5
- Complete CHM 2210 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

### Semester 6
- Complete at least one 3000/4000 level course towards the required core coursework (3000/4000 level ZOO course, PCB 3063, BSC 3402, PCB 4043C, PCB 4674, PCB 5415C, PCB 4723C, or approved biological science course)
- 2.0 UF GPA required

### Semester 7
- Complete Physics I requirement: PHY 2053 PHY 2053L or PHY 2048 PHY 2048L
- Complete at least two 3000/4000 level courses towards the required core coursework
- 2.0 UF GPA required

### Semester 8
- Complete all remaining major course requirements.
- 2.0 UF GPA required

#### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

Approved Zoology electives outside of the department may not count towards the 3000 level or above elective outside of the major requirement. CHM 2211, CHM 2211L, PHY 2054, PHY 2054L, PHY 2049, and PHY 2049L may count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Bachelor of Science in zoology offers students an education in the life sciences with an emphasis on animal systems. Students gain knowledge about the diversity of life (its evolution and significance) and about the structure of organisms and ecosystems and how they function (i.e., the acquisition, flow, organization and uses of information, energy and nutrients in living systems). They will learn about the scientific method and how it facilitates the discovery of new knowledge in zoology and biology. This includes how to critically evaluate hypotheses and conclusions in science using verifiable data and how to clearly and effectively communicate the major concepts and hypotheses in zoology and biology and in an appropriate style of presentation.

Before Graduating Students Must

- Pass an assessment in the two or three 3000/5000-level zoology courses.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and define the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking

2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.

3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication

4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Zoology Minor

The Zoology minor provides a solid foundation in the biology of animals, from the molecular to the organismal level, as well as their relationships to each other and the environment.
About this Program

- **College**: Liberal Arts and Sciences (p. 978)
- **Credits**: 17-18 | Completed with minimum grades C

Department Information

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. Our teaching and research provide the integrative and conceptual foundations of the life sciences. Website (https://biology.ufl.edu/)

Total Credits 17-18

1. Minimum of three courses and nine credits; must include at least one ZOO course.

Not all PCB and ZOO courses are offered by the Department of Biology. Students should search “Zoology” or “Biological Sciences” on https://one.ufl.edu/soc/ to ensure that their desired courses are in the correct department.

Excluding PCB 1050, PCB 1051, PCB 2050, PCB 2441, PCB 3134, PCB 3601C, PCB 4233, PCB 4522, PCB 4917, ZOO 4232, and any other courses not offered by the Department of Biology.
Natural Resources and Environment, School of

The School of Natural Resources and Environment provides interdisciplinary environmental degree programs and develops leaders with integrated thinking about natural and social systems. The school's undergraduate curriculum spans the range of human knowledge needed to solve complex environmental problems not amenable to narrowly based solutions.

Established
1995

Degrees
Bachelor of Science in environmental science with specializations in environmental science and natural resource management, and a Bachelor of Arts in environmental science with specializations in environmental education, environmental policy and environmental policy and business.

Internships and Career Guidance
The dean's office maintains a list of potential sources of internships. The school grants course credit for internships (S-U grades, 1-3 credits, one per semester up to a maximum of three semesters) to enable maintenance of student status.

Programs
The school operates horizontally across UF’s structure of academic disciplines, offering more than 200 courses taught in 50 departments. Faculty members from these departments are affiliated with the school.

Scholarships
General financial aid information is available from the Office of Student Financial Affairs. Students are eligible for scholarships awarded by the College of Agricultural and Life Sciences. More Info (http://cals.ufl.edu/students/scholarships.php)

Academic Policies

Admission Requirements
Admission requirements for freshmen and students other than first-semester freshmen are found in the College of Agricultural and Life Sciences' Academic Policies.

School Requirements and Regulations
Students admitted to the school have full responsibility for registering for appropriate courses and fulfilling school and university requirements. During their first term in the school, students must obtain academic advising and a plan of study worksheet from 103 Black Hall.

Students should review the relevant information in this catalog each term to track and plan the progress of their academic work. Failure to understand and follow these guidelines could cause unnecessary hardship, delay and expense.

Dean's List (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#deanslisttext)

Probation
Refer to the College of Agricultural and Life Sciences' Academic Policies.

Degree Requirements
Graduation requires satisfactory completion of 120 credits for the B.S. or B.A. degree and a cumulative 2.00 GPA in both the upper-division and the overall UF GPA.

Graduating with Honors (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonorstext)

Programs

MAJORS
- Combination Degrees
- Environmental Science

MINORS
- Environmental Science Minor

Combination Degrees
Eligible seniors in the School of Natural Resources and Environment can also participate in a combination degree that combines a B.A./B.S. in environmental science with a Master of Science in interdisciplinary ecology.

More Info (p. 1658)
Environmental Science

Environmental Science is the study of people's role in our natural systems. Using an interdisciplinary approach, the Environmental Science program approaches complex environmental issues across multiple perspectives. Environmental Science students study ecology, soil and water sciences, and natural resource management as well as environmental ethics, economics, policy, and law.

103 BLACK HALL
GAINESVILLE FL 32611-6455
Map (http://campusmap.ufl.edu/#/index/0724)

Curriculum

- Combination Degrees
- Environmental Science
- Environmental Science Minor

The environmental science degree approaches complex environmental issues with reliable knowledge and interdisciplinary perspectives, and provides the full range of knowledge relevant to complex environmental problems. This includes biological and physical sciences, ethics, economics, policy and law.

The degree prepares graduates for jobs in environmental consulting companies, government environmental offices or land and water management agencies, or non-government organizations. About one-third of environmental science students advance to graduate or professional degree programs. The combination of the school's broad undergraduate degree with a subsequent degree is highly marketable.

The school also offers a combination-degree program offering a bachelor's degree in environmental science and a Master of Science in interdisciplinary ecology.

Core Requirements for Both Degrees

Students take a core of courses, including a general course in environmental science and courses in ethics, ecology, chemistry, earth science, global science, hydrologic systems, and policy and natural resource management.

The core provides 31-32 credits of coursework in physical, biological and social sciences. The B.S. and B.A. tracks are similar. The B.S. includes one course in policy and one in organic chemistry; the B.A. includes two policy courses and no organic chemistry.

Beyond the core requirement, each student selects 21-27 additional credits from electives for the major. During the fourth year, all students take a capstone course where critical thinking skills are developed.

The freshmen and sophomore years lay a foundation of coursework for building later expertise. Students need to know the natural sciences of physics, chemistry and biology, with laboratory experience in each area. Study of microeconomics and macroeconomics are required to understand the human economy. Introductory statistics empowers students to independently evaluate sets of numbers. College algebra and an introduction to calculus enable students to work with rates of change, the heart of ecological science.

Coursework in the core of the major provides a base of common knowledge and experience in subjects essential to environmental science. Then students diverge into electives chosen according to individual interest. Senior-year students return to a common course that develops critical-thinking
skills by confronting conflicts of ecological and economic paradigms, synthesizing across physical, biological and social systems, and engaging
diverse knowledge and views to help resolve key environmental problems.

The preprofessional courses for the Bachelor of Science prepare students for a more science-oriented major. The requirements for the Bachelor of
Arts include less chemistry, physics and mathematics, in preparation for a major that is more focused on the sociopolitical aspects of environmental
science.

Total Credits: 28-38

1 If taken from one group, this course does not satisfy the requirement for a course from the other group.

Preprofessional Requirements for Both Degrees
Each student must fulfill preprofessional requirements that differ slightly for the B.S. and B.A. degrees. These consist of courses in chemistry, physics, biology, calculus, statistics and economics, totaling 39-46 (typically 43) credits for the B.S. and 31-39 (typically 34) credits for the B.A.

In addition to the preprofessional requirements, all students are responsible for completing the university's general education and the writing requirement.

Certain preprofessional requirements simultaneously satisfy 18-21 credits (depending on courses selected) of the general education mathematics, physics, biology, and social and behavioral science. Remaining general education requirements include 15-18 credits (depending on preprofessional courses taken) in composition, humanities and social and behavioral sciences.

The 12 credits of writing requirements include 3-12 credits taken for general education and preprofessional requirements, depending on selections. The six credits of math requirements are satisfied by preprofessional requirements.

For efficiency, freshmen should seek to maximize overlap of preprofessional requirements with general education and the writing requirement, as outlined below:

- Science preprofessional requirements satisfy up to 12 credits of physical and biological sciences (the basic nine-credit requirement plus the variable three credits from a category). Students should allocate the variable three credits to physical and biological sciences to reduce the humanities requirement from nine to six credits.
- Economics preprofessional requirements satisfy up to eight of the nine-credit social and behavioral sciences requirement (eight if satisfied with ECO 2013 and ECO 2023; four if satisfied with AEB 3103).
- Policy preprofessional requirement (POS 2041) for B.A. students satisfies the remaining social and behavioral sciences requirement. B.S. students can satisfy the remaining social and behavioral sciences requirement with certain core courses, under ethics (AEB 4126) and policy.
- Satisfying the preceding requirements leaves 18 credits: six for humanities, three for composition and nine for writing.
- Students should take humanities, composition and writing courses that also satisfy the three-credit international studies requirement, such as LIT 2110 or LIT 2120, and the three-credit diversity requirement with a REL 2388 or WST 2611 overlap.

Academic Learning Compact
Environmental science is the science of humanity's role in natural systems, the basis of our economy. This program accesses courses university-wide and provides numerous opportunities for international study. Students will acquire reliable knowledge and interdisciplinary perspectives of complex environmental issues, gaining the full range of knowledge relevant to a professional understanding of complex environmental problems in the biological and physical sciences, ethics, economics, policy and law.

Before Graduating Students Must
- Complete at least one course in each of the foundation areas.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Acquire knowledge and demonstrate understanding of basic terminology, concepts, methodologies and theories in the physical and biological sciences that describe environmental systems.
2. Acquire knowledge of essential concepts in the social sciences that describe human activity in the environment.

Critical Thinking
3. Apply the scientific method to develop reasoned solutions to environmental problems.

Total Credits: 28-38

1. If taken from one group, this course does not satisfy the requirement for a course from the other group.

**Preprofessional Requirements for Both Degrees**

Each student must fulfill preprofessional requirements that differ slightly for the B.S. and B.A. degrees. These consist of courses in chemistry, physics, biology, calculus, statistics and economics, totaling 39-46 (typically 43) credits for the B.S. and 31-39 (typically 34) credits for the B.A.

In addition to the preprofessional requirements, all students are responsible for completing the university’s general education and the writing requirement.
Certain preprofessional requirements simultaneously satisfy 18-21 credits (depending on courses selected) of the general education mathematics, physics, biology, and social and behavioral science. Remaining general education requirements include 15-18 credits (depending on preprofessional courses taken) in composition, humanities and social and behavioral sciences.

The 12 credits of writing requirements include 3-12 credits taken for general education and preprofessional requirements, depending on selections. The six credits of math requirements are satisfied by preprofessional requirements.

For efficiency, freshmen should seek to maximize overlap of preprofessional requirements with general education and the writing requirement, as outlined below:

- Science preprofessional requirements satisfy up to 12 credits of physical and biological sciences (the basic nine-credit requirement plus the variable three credits from a category). Students should allocate the variable three credits to physical and biological sciences to reduce the humanities requirement from nine to six credits.
- Economics preprofessional requirements satisfy up to eight of the nine-credit social and behavioral sciences requirement (eight if satisfied with ECO 2013 and ECO 2023; four if satisfied with AEB 3103).
- Policy preprofessional requirement (POS 2041) for B.A. students satisfies the remaining social and behavioral sciences requirement. B.S. students can satisfy the remaining social and behavioral sciences requirement with certain core courses, under ethics (AEB 4126) and policy.
- Satisfying the preceding requirements leaves 18 credits: six for humanities, three for composition and nine for writing.
- Students should take humanities, composition and writing courses that also satisfy the three-credit international studies requirement, such as LIT 2110 or LIT 2120, and the three-credit diversity requirement with a REL 2388 or WST 2611 overlap.

Bachelor of Arts

The Bachelor of Arts degree in environmental science focuses on the social sciences that connect the natural sciences and engineering to society.

Electives in the areas of policy, law, public administration and resource economics make this the preferred specialization for students interested in advancing to law school or to the policy aspects of environmental consulting and public agency work.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=030104&track=01) may be used for transfer students.

Semester 1
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2
- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3
- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4
- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required
Semester 5
• Complete all 9 critical-tracking courses, including labs
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 6
• Complete at least 2 core classes
• 2.0 upper division GPA required
• 2.0 UF GPA required

Semester 7
• Complete at least 2 core classes
• 2.0 upper division GPA required
• 2.0 UF GPA required

Semester 8
• Complete EVS 4021 (capstone) and the remaining courses for the degree
• 2.0 upper division GPA required
• 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

---

1. If students take MAC 1140 and MAC 1114 in place of MAC 1147, the extra credits count toward the degree as electives.
2. If CHM 1025 was taken in preparation for CHM 2045, the extra credits count toward the degree.
3. These courses may be used as substitutes:
   - PHY 2053 for PHY 2020 or PHY 2004.
4. From master list.

---

**Approved Electives | 9 courses | 27 credits**

Students can substitute appropriate graduate courses for electives, with approval of the school and permission of the instructor. To substitute a 5000-level course or higher, the student must have senior standing and a minimum junior/senior-level GPA of 3.0.

If this course was taken to fulfill the core requirement, it cannot fulfill the elective requirement. Students must select a substitution from the electives for the major.

Academic Learning Compact

Environmental science is the science of humanity’s role in natural systems, the basis of our economy. This program accesses courses university-wide and provides numerous opportunities for international study. Students will acquire reliable knowledge and interdisciplinary perspectives of complex environmental issues, gaining the full range of knowledge relevant to a professional understanding of complex environmental problems in the biological and physical sciences, ethics, economics, policy and law.

Before Graduating Students Must

• Complete at least one course in each of the foundation areas.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Acquire knowledge and demonstrate understanding of basic terminology, concepts, methodologies and theories in the physical and biological sciences that describe environmental systems.
2. Acquire knowledge of essential concepts in the social sciences that describe human activity in the environment.

Critical Thinking
3. Apply the scientific method to develop reasoned solutions to environmental problems.

Communication
4. Communicate knowledge, ideas and reasoning clearly, effectively and objectively in both written and oral forms.

Bachelor of Science

Environmental Science is the study of people’s role in our natural systems. Using an interdisciplinary approach, the Environmental Science program approaches complex environmental issues across multiple perspectives. Environmental Science students study ecology, soil and water sciences, and natural resource management as well as environmental ethics, economics, policy, and law.

About this Program
- College: Agricultural and Life Sciences (p. 79)
- School: Natural Resources and Environment (p. 1554)
- Degrees: Bachelor of Arts (p. 1558) | Bachelor of Science (p. 1566)
- Credits for Degree: 120
- More Info

To graduate with this major, students must complete all university, college, and major requirements.

School Information
The School of Natural Resources and Environment (SNRE) offers campus-wide, interdisciplinary degree programs at both the undergraduate and graduate levels. SNRE is governed by the SNRE Advisory Board and advised by the SNRE Faculty Advisory Council.

Curriculum
- Combination Degrees
- Environmental Science
- Environmental Science Minor

The environmental science degree approaches complex environmental issues with reliable knowledge and interdisciplinary perspectives, and provides the full range of knowledge relevant to complex environmental problems. This includes biological and physical sciences, ethics, economics, policy and law.

The degree prepares graduates for jobs in environmental consulting companies, government environmental offices or land and water management agencies, or non-government organizations. About one-third of environmental science students advance to graduate or professional degree programs. The combination of the school’s broad undergraduate degree with a subsequent degree is highly marketable.

The school also offers a combination-degree program offering a bachelor’s degree in environmental science and a Master of Science in interdisciplinary ecology.

Core Requirements for Both Degrees
Students take a core of courses, including a general course in environmental science and courses in ethics, ecology, chemistry, earth science, global science, hydrologic systems, and policy and natural resource management.

The core provides 31-32 credits of coursework in physical, biological and social sciences. The B.S. and B.A. tracks are similar. The B.S. includes one course in policy and one in organic chemistry; the B.A. includes two policy courses and no organic chemistry.

Beyond the core requirement, each student selects 21-27 additional credits from electives for the major. During the fourth year, all students take a capstone course where critical thinking skills are developed.

The freshmen and sophomore years lay a foundation of coursework for building later expertise. Students need to know the natural sciences of physics, chemistry and biology, with laboratory experience in each area. Study of microeconomics and macroeconomics are required to understand the human economy. Introductory statistics empowers students to independently evaluate sets of numbers. College algebra and an introduction to calculus enable students to work with rates of change, the heart of ecological science.
Coursework in the core of the major provides a base of common knowledge and experience in subjects essential to environmental science. Then students diverge into electives chosen according to individual interest. Senior-year students return to a common course that develops critical-thinking skills by confronting conflicts of ecological and economic paradigms, synthesizing across physical, biological and social systems, and engaging diverse knowledge and views to help resolve key environmental problems.

The preprofessional courses for the Bachelor of Science prepare students for a more science-oriented major. The requirements for the Bachelor of Arts include less chemistry, physics and mathematics, in preparation for a major that is more focused on the sociopolitical aspects of environmental science.

Bachelor of Science

Natural Resource Management

Select one:

- AGG 3501 Environment, Food and Society
- ALS 3133 Agricultural and Environmental Quality
- EES 3008 Energy and Environment (Gen Ed Physical Sciences; B.A. only)
- FAS 4305C Introduction to Fishery Science
- FOR 3004 Forests, Conservation and People
- FOR 3200C Foundations of Natural Resources and Conservation
- FOR 4621 Forest Economics and Management (Gen Ed Physical Sciences)
- LEI 3546 Park Management
- PLS 3004C Principles of Plant Science
- SWS 4231C Soil, Water and Land Use (Gen Ed Physical Sciences) ¹
- SWS 4932 Special Topics in Soil and Water Science (Forest and Soil Ecosystem Services)

Required Capstone Course

- EVS 4021 Critical Thinking in Environmental Science 3

Total Credits 28-38

¹ If taken from one group, this course does not satisfy the requirement for a course from the other group.

Preprofessional Requirements for Both Degrees

Each student must fulfill preprofessional requirements that differ slightly for the B.S. and B.A. degrees. These consist of courses in chemistry, physics, biology, calculus, statistics and economics, totaling 39-46 (typically 43) credits for the B.S. and 31-39 (typically 34) credits for the B.A.

In addition to the preprofessional requirements, all students are responsible for completing the university's general education and the writing requirement.

Certain preprofessional requirements simultaneously satisfy 18-21 credits (depending on courses selected) of the general education mathematics, physics, biology, and social and behavioral science. Remaining general education requirements include 15-18 credits (depending on preprofessional courses taken) in composition, humanities and social and behavioral sciences.

The 12 credits of writing requirements include 3-12 credits taken for general education and preprofessional requirements, depending on selections. The six credits of math requirements are satisfied by preprofessional requirements.

For efficiency, freshmen should seek to maximize overlap of preprofessional requirements with general education and the writing requirement, as outlined below:

- Science preprofessional requirements satisfy up to 12 credits of physical and biological sciences (the basic nine-credit requirement plus the variable three credits from a category). Students should allocate the variable three credits to physical and biological sciences to reduce the humanities requirement from nine to six credits.
- Economics preprofessional requirements satisfy up to eight of the nine-credit social and behavioral sciences requirement (eight if satisfied with ECO 2013 and ECO 2023; four if satisfied with AEB 3103).
- Policy preprofessional requirement (POS 2041) for B.A. students satisfies the remaining social and behavioral sciences requirement. B.S. students can satisfy the remaining social and behavioral sciences requirement with certain core courses, under ethics (AEB 4126) and policy.
- Satisfying the preceding requirements leaves 18 credits: six for humanities, three for composition and nine for writing.
- Students should take humanities, composition and writing courses that also satisfy the three-credit international studies requirement, such as LIT 2110 or LIT 2120, and the three-credit diversity requirement with a REL 2388 or WST 2611 overlap.

Bachelor of Science

The Bachelor of Science degree in environmental science emphasizes the applied sciences and the basic sciences from which they derive. The track is designed to prepare for employment or for graduate or professional school.

Elective courses required beyond the core requirements are distributed among four categories: physical sciences, biological sciences, human dimensions and additional skills and concepts. For advice on choice of electives, consult the advisor in 103 Black Hall. Students pursuing the Bachelor of Science who want more environmental policy electives can substitute them for the courses in human dimensions.

Courses taken to fulfill the core requirements cannot fulfill elective requirements. Students can substitute graduate courses for electives, with approval of the school and permission of the instructor. To substitute a 5000-level course or higher, the student must have senior standing and a junior/senior-level GPA of at least 3.0.
Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=030104&track=01) may be used for transfer students.

Semester 1

• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 2

• Complete 3 additional courses of the 11 critical-tracking courses, excluding labs
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 3

• Complete 3 additional critical-tracking courses, excluding labs
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 4

• Complete 3 additional critical-tracking courses, excluding labs
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 5

• Complete all 11 critical-tracking courses, including labs
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required
• 2.0 upper division GPA required

Semester 6

• Complete at least 2 core classes
• 2.0 upper division GPA required
• 2.0 UF GPA required

Semester 7

• Complete EVS 4021 (capstone)
• 2.0 upper division GPA required
• 2.0 UF GPA required

Semester 8

• Complete the remaining core classes
• 2.0 upper division GPA required
• 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.
This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Semester Eight

| Biological sciences elective | 3 |
| Human dimensions elective   | 3 |
| Physical sciences elective  | 3 |
| Electives for the major (if needed) | 5 |

Credits 14

Total Credits 120

1 If CHM 1025 was taken in preparation for CHM 2045, the extra credits count toward the degree.
2 If students precede this sequence with MAC 1114 and MAC 1140 or MAC 1147, the extra credits count as electives toward the degree. Students can substitute MAC 2233 and MAC 2234 for MAC 2311 and MAC 2312, but this may preclude access to certain courses.
3 These courses may be used as substitutes:
   • PHY 2053 and PHY 2053L for PHY 2004 and PHY 2004L;
   • PHY 2054 and PHY 2054L for PHY 2005 and PHY 2005L.
4 From master list.

Students preparing for science modeling in graduate school should take MAP 2302 as an elective.

Environmental science is the science of humanity’s role in natural systems, the basis of our economy. This program accesses courses university-wide and provides numerous opportunities for international study. Students will acquire reliable knowledge and interdisciplinary perspectives of complex environmental issues, gaining the full range of knowledge relevant to a professional understanding of complex environmental problems in the biological and physical sciences, ethics, economics, policy and law.
Before Graduating Students Must
• Complete at least one course in each of the foundation areas.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Acquire knowledge and demonstrate understanding of basic terminology, concepts, methodologies and theories in the physical and biological sciences that describe environmental systems.
2. Acquire knowledge of essential concepts in the social sciences that describe human activity in the environment.

Critical Thinking
3. Apply the scientific method to develop reasoned solutions to environmental problems.

Communication
4. Communicate knowledge, ideas and reasoning clearly, effectively and objectively in both written and oral forms.

Environmental Science Minor

The Environmental Science minor is intended for majors in science, engineering or business, providing exposure to the major subject areas of the environmental core.

About this Program
• College: Agricultural and Life Sciences (p. 79)
• School: Natural Resources and Environment (p. 1554)
• Credits: 15-17 | Completed with minimum grades of C

School Information
The School of Natural Resources and Environment (SNRE) offers campus-wide, interdisciplinary degree programs at both the undergraduate and graduate levels. SNRE is governed by the SNRE Advisory Board and advised by the SNRE Faculty Advisory Council. Website (http://snre.ifas.ufl.edu/)

**Curriculum**
- Combination Degrees
- Environmental Science
- Environmental Science Minor

Students outside the School of Natural Resources and Environment can apply for admission to the minor as long as they earn 45 credits before applying. The application is available in 2020 McCarty Hall D. Students first must obtain their college’s approval before submitting the completed form for processing.

Transfer work will be accepted only for PCB 4043C and an earth and soil systems course (refer to core requirements for the major). Admission consideration requires a minimum overall 2.0 GPA on all UF coursework attempted.

Nursing, College of
The College of Nursing is recognized nationally and internationally for innovative education, dynamic programs of research and creative approaches to practice. Gator Nurses are prepared for leadership as clinicians, scientists and educators who reflect and care for a diverse society; foster interdisciplinary collaboration; and improve the health of individuals, families and communities.

Established
1956

Accredited
Degree programs approved by the Florida State Board of Nursing and accredited by the Commission on Collegiate Nursing Education.

Academic Advising
Students interested in a career in nursing should contact the Office of Student Affairs for advising before they submit an application for admission.

Degrees
Bachelor of Science in Nursing (BSN) with three track options: traditional, accelerated, and RN-BSN. The college also offers a Doctor of Nursing Practice (DNP) and a Doctor of Philosophy (PhD) in nursing science.

Training Opportunities
The colleges of the Health Science Center and their associated healthcare delivery networks provide students access to an integrated system of community hospitals and clinics, statewide home health care, a veterans' health system and UF Health Shands Hospital. The College of Nursing maintains and participates in nursing and interdisciplinary care across the lifespan including women, children, adults, and the elderly with special emphasis on under-served and rural populations.

Academic Policies

Admission to the College
More Info (https://admissions.nursing.ufl.edu/)

Students planning to enter the Traditional BSN program must complete general education and pre-professional requirements by the end of spring semester of the sophomore year. Standards for continuation are established for nursing majors and continuing students are monitored by the college.

Degree audits identify progress toward the degree and are posted on ONE.UF (https://one.ufl.edu/) after the fall and spring semesters. Critical-tracking criteria are outlined in the curriculum plans.

Students who desire to change their major to nursing should do so by the completion of their first academic year.

The college’s online application for admission to upper-division coursework must be made by the March 1 deadline. Students will be admitted after spring grades have been posted.

Admission evaluation factors include, but are not limited to, academic record, cumulative grade point average, performance in pre-professional
courses, the extent to which the applicant exceeds minimum
requirements, relevant student attributes, experiences, and career goals.

Students begin upper-division nursing studies in the fall semester of the
junior year.

**Limited-Access Program**
The University of Florida's baccalaureate nursing curriculum is a high-
demand, limited-access program. Enrollment is limited because of the
high cost for program delivery as well as limited availability of clinical
learning facilities and limited availability of qualified faculty necessary
to maintain appropriate faculty-to-student ratios in all clinical areas.
Because of limited enrollment and the number of applications, many
qualified applicants are unable to be admitted to the College of Nursing's
upper-division nursing courses.

**Minimum Application Requirements for Native UF Students**
- Completed 60 credits of required preprofessional and general
education courses by the end of the spring semester prior to
admission
- Minimum GPA of 3.0 (on a 4.0 scale) overall and for preprofessional
courses
- Minimum grades of C in all required preprofessional courses
- Satisfactory completion of communication and computations
  requirement (Gordon Rule).
- Completion of the HESI Academic Assessment (A2) Test

**Minimum Application Requirements for Transfer Students**
More Info (p. 25)

For application information, all transfer students should refer to the
admission as a transfer student section of the catalog. Transfer
applicants must meet all university and college-specific admission
requirements. Applicants from other institutions who have satisfied
minimum requirements will be considered for admission at the junior
level on a space-available basis.

**Students from Florida Public Colleges**
- Associate of Arts degree by the end of springs semester prior to
  admission
- Completed 60 credits of required preprofessional and general
education courses by the end of the spring semester prior to
admission
- Completed two sequential courses of foreign language in secondary
  school or 8-10 semester credits at the postsecondary level, or
document an equivalent level of proficiency
- Minimum overall 3.0 GPA (4.0 scale) and a 3.0 GPA on all
  preprofessional courses
- Completion of required prerequisite courses with a grade of C
- Completion of the HESI Academic Assessment (A2) Test, application
  requirement

**Students from Other Universities**
- Completed 60 credits of required preprofessional and general
education courses by the end of the spring semester prior to
admission
- Completed two sequential courses of foreign language in secondary
  school or 8-10 semester credits at the post-secondary level, or
document an equivalent level of proficiency
- Minimum overall 3.0 GPA (4.0 scale) and a 3.0 GPA on all
  preprofessional courses
- Minimum grades of C in all required preprofessional courses
- Completion of the HESI Academic Assessment (A2) Test, application
  requirement

**College Regulations, All Students**

**Before Enrolling in Nursing Courses**
- Compliance with university, college and agency health policy
  requirements and immunizations
- Certification in basic cardiopulmonary resuscitation (CPR) for
  healthcare providers
- Proof of current health insurance coverage
- Criminal Background Check and Drug Screen

**Expenditures**
Expenditures specific to nursing courses include, but are not limited to,
specialized equipment, uniforms, laboratory fees for clinical courses and
transportation for off-campus experiences.

**Health Policy**
The college requires specific immunizations and periodic health
screenings. Compliance with health policies is required for clinical
coursework. Students are expected to be physically and mentally able
to perform the essential functions of the nursing curriculum and may be
requested to provide appropriate medical documentation.

**Degree Requirements**
For graduation from the BSN program:
- **Traditional Track**: Completion of 120 credits, including 60 junior/
senior-level credits
- **Accelerated Track**: Completion of 60 credits, post-baccalaureate
- **RN-BSN Track**: Completion of 60 credits, post AA degree or 60
  transferable semester credits
- A minimum grade of C in each nursing course.
- Adherence to the standards of acceptable conduct as outlined in
  the American Nurses Association Code of Ethics, the Florida Nurse
  Practice Act, the university's Student Guide and the Undergraduate
  Catalog.

Graduating with Honors (http://catalog.ufl.edu/UGRD/academic-
programs/graduate/graduatingwithhonors/

**Traditional Track Only**

**Licensure**
Upon satisfactory completion of the baccalaureate curriculum, the
graduate will be awarded the Bachelor of Science in Nursing and is
academically eligible to apply for the NCLEX-RN examination for state licensure as a registered nurse.

**Programs**

**MAJORS**
- Nursing

**UF ONLINE MAJORS**
- Nursing | RN to BSN UF Online

**Accelerated Baccalaureate Degree Program**

The College of Nursing offers an accelerated course of study for a baccalaureate degree in nursing. This program is for students with a baccalaureate or higher degree in another field.

The accelerated baccalaureate curriculum begins each summer and is completed in four consecutive semesters of fulltime study. More Info [here](https://admissions.nursing.ufl.edu/)

**Minimum Application Requirements**
- A baccalaureate or higher degree from a nationally accredited college or university in a field other than nursing
- 3.0 GPA (on 4.0 scale), calculated on the most recent 60 credits taken toward the bachelor’s degree or a cumulative 3.0 GPA toward a masters or doctoral degree
- Required prerequisite course must have been completed within the past seven years with a minimum grade of C. No more than two prerequisite courses can be in progress during the spring semester prior to admission
- 1 academic letter of reference and 1 personal letter of reference
- Resume / curriculum vitae
- Essay that responds to questions specified on the NursingCAS site

**Before Enrolling in Nursing Courses**
- Compliance with college health policy requirements and immunizations
- Criminal Background Check and Drug Screen
- Certification in basic cardiopulmonary resuscitation (CPR) for healthcare providers
- Proof of current health insurance coverage
- Criminal Background Check and Drug Screen

**Expenditures**

Expenditures specific to nursing courses include, but are not limited to, specialized equipment, uniforms, laboratory fees for clinical courses and transportation for off-campus experiences.

**Health Policy**

The college requires specific immunizations and periodic health screenings. Compliance with health policies is required for clinical coursework. Students are expected to be physically and mentally able to perform the essential functions of the nursing curriculum and may be requested to provide appropriate medical documentation.

Nursing

The junior/senior-level Traditional BSN program is four semesters long and provides learning experiences in a variety of clinical settings. The Accelerated BSN program (https://admissions.nursing.ufl.edu/) prepares students with a baccalaureate degree in another field for entrance into the nursing profession with a BSN. The RN to BSN program prepares those current Registered Nurses who have previously earned an associate degree.

About this Program

- **College**: Nursing (p. 1577)
- **Degree**: Bachelor of Science
- **Credits for Degree**: 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The nursing education programs offered at UF address gaps in the health care system, as do the college's innovations in technological resources and initiatives linking students to diverse and international populations. The College of Nursing has a history of pioneering leadership in nursing education, having offered Florida's first nurse practitioner programs and first PhD in Nursing Science program.

Curriculum

- Nursing
- Nursing | RN to BSN UF Online

The College of Nursing prepares baccalaureate nurses to care, lead and inspire. Nursing courses include classroom and laboratory activities correlated with supervised clinical experiences. Students may be required to travel outside of Gainesville for selected clinical experiences.

The curriculum is logically organized from simple to complex so that students acquire the cognitive, affective, and technical competencies of a professional nurse. Students are required to demonstrate competence at each semester in sequence to progress to more advanced concepts and skills. Knowledge from general education courses, nursing pre-professional courses, and introductory nursing courses is integrated and refined as student progress through increasingly complex theoretical nursing content and clinical application courses.

Courses in the first two semesters focus on foundational knowledge and principles of personalized nursing care. Students gain an understanding of the context of contemporary nursing practice, the meaning of professionalism, ethical and legal guidelines, professional values, and standards of professional nursing practice. Course content and concepts are aligned with clinical experiences to develop beginning clinical reasoning. Students acquire the knowledge, skills, and attitudes to provide evidence-based, safe, cost-effective quality care to achieve optimal health outcomes.

Courses in the final two semesters build upon prior learning and are characterized by increased complexity in content and outcomes. Students enhance clinical reasoning and critical thinking through nursing practice in a variety of settings for individuals across the lifespan, families and other groups, and communities. Learning experiences are designed to enable students to demonstrate leadership, interprofessional collaboration, and advocacy skills that improve the health of diverse individuals and populations. In the final semester, students participate in a project to develop an innovative solution for a problem or issue relevant to professional nursing.

Progression

Students must earn minimum grades of C in all required nursing courses and maintain a minimum 2.0 GPA every semester while enrolled. Students may repeat only one required nursing course. Students earning less than a C in any required nursing course may repeat that course only once and on a space-available basis. Students who do not achieve a passing grade on their second attempt in a course will be dismissed from the nursing program. Students may withdraw only once from any required nursing course.

Students are expected to comply with college health policy requirements.

Students in the health professions are held to standards of conduct that exceed those usually expected of university students. Consequently, nursing students are required to demonstrate safe practice in the care of patients and to exercise appropriate judgment as beginning-level professionals, including appropriate demeanor and appearance. Students must adhere to the standards of conduct outlined in the American Nurses Association
Code of Ethics and the Florida Nurse Practice Act in addition to the University of Florida College of Nursing handbook. Students can be removed from the nursing curriculum, and/or any college-sponsored programs or organizations, based on violation of professional conduct.

**Bachelor of Science**

The junior/senior-level Traditional BSN program is four semesters long and provides learning experiences in a variety of clinical settings.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=513801&track=01) may be used for transfer students.

The following recommended curriculum plan enables students to satisfy university-wide general education requirements and required preprofessional courses. The plan includes the courses and academic standards (overall GPA and preprofessional GPA) required each semester for continuation in the pre-nursing program and application for admission to the nursing major.

**Semester 1**

- Complete 2 critical-tracking courses with minimum grades of C: APK 2100C, APK 2105C, DEP 3053 or EDF 3110 (recommended), HUN 2201, MCB 2000/MCB 2000L, STA 2023, 3 credits of social and behavioral science (with PSY, SOP or SYG prefix), and 3 credits of physical or biological sciences (with BSC, CHM or PHY prefix)
- 3.0 GPA required for all critical-tracking courses
- 3.0 overall GPA on work from all institutions

**Semester 2**

- Complete 2 additional critical-tracking courses with minimum grades of C
- 3.1 GPA required for all critical-tracking courses
- 3.1 overall GPA on work from all institutions

**Semester 3**

- Complete 2 additional critical-tracking courses with minimum grades of C
- 3.2 GPA required for all critical-tracking courses
- 3.2 overall GPA on work from all institutions

**Semester 4**

- Complete all critical-tracking courses with minimum grades of C
- Complete writing requirement
- Complete all general education coursework with minimum grades of C
- Complete a total of 60 credits
- 3.3 GPA required for all critical-tracking courses
- 3.3 overall GPA on work from all institutions

**Semester 5**

- Complete all nursing courses with minimum grades of C
- Course required score on the external nursing skills examination in NUR 3066C

**Semester 6**

- Complete all nursing courses with minimum grades of C
- Course required score on the external nursing skills examination in NUR 3227C

**Semester 7**

- Complete all nursing courses with minimum grades of C
- Course required score on the external nursing skills examination in NUR 4768C
# Semester 8

- Complete all nursing courses with minimum grades of C
- Course required score on the external nursing exit examination in NUR 4766C

## Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

### Academic Learning Compact

The major in nursing prepares graduates as generalists to provide holistic care that addresses the healthcare needs of diverse individuals, families, communities and populations across the lifespan. Nursing practice is built on nursing knowledge, theory and research. Graduates will translate, integrate and apply knowledge that leads to improvements in patient outcomes.

### Before Graduating Students Must

- Achieve a passing grade of C or higher in all required courses.
- Pre-licensure student must achieve a score of 850 on the Health Education Systems Incorporated (HESI) RN Exit Examination.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Apply critical thinking to synthesize knowledge grounded in liberal education and nursing, in the practice of professional nursing in the global community.
2. Utilize knowledge of health care regulation to advocate for policy change to improve health care systems and professional nursing practice.
3. Utilize health promotion, health maintenance, and disease prevention strategies across settings to improve the health of diverse individuals and populations across the lifespan.

**Critical Thinking**

4. Integrate evidence-based findings in decision-making in the practice of professional nursing.
5. Appraise current evidence to evaluate health care safety and quality improvement initiatives for individuals and groups.
6. Analyze information from health care technology systems to apply evidence that will guide nursing practice.
7. Illustrate the importance of advocacy in the improvements in nursing practice and throughout the healthcare system.
8. Demonstrate professional competence and values reflective of professional nursing standards and mutual respect within a global society.

**Communication**

9. Collaborate with the healthcare team and clients to provide safe and cost effective high quality health care.
10. Demonstrate professional communication, collaboration and documentation with healthcare teams to support improvement in patient health outcomes.
11. Build therapeutic alliance with patients and families to provide personalized care.

Assessment Types

- Faculty evaluation
- Achievement of minimum benchmark score on Health Education Systems, Inc. (HESI) Exam
- Exit Survey (Skyfactor)
- Passing score on the National Council Licensure Examination

Nursing | RN to BSN UF Online

The College of Nursing’s RN to BSN program enables current RNs who have previously earned an associate degree to earn a baccalaureate degree in nursing. The program is designed for working nurses and can be completed in 5 semesters of primarily online part-time study.

About this Program

- **College:** Nursing (p. 1577)
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **More Info**

Department Information

The nursing education programs offered at UF address gaps in the health care system, as do the college’s innovations in technological resources and initiatives linking students to diverse and international populations. The College of Nursing has a history of pioneering leadership in nursing education, having offered Florida’s first nurse practitioner programs and first PhD in Nursing Science program.

Curriculum

- Nursing
- Nursing | RN to BSN UF Online

The baccalaureate prepared nurse is equipped to manage complex and changing healthcare environments. Coursework focuses on development of problem solving that will broaden and strengthen the registered nurse student’s preparation for professional nursing practice.

Admission

Students must be accepted into the RN to BSN program, which is competitive. The online application for admission must be submitted by the posted deadline.

Minimum Application Requirements

- Associate of Science degree in nursing from an ACEN (formerly NLNAC) accredited program.
- Active, unencumbered Florida RN license.
- An overall GPA of at least 2.8.
- A minimum grade of C in all required pre-professional courses.
- Resume/curriculum vita.
- Two professional reference from persons familiar with the applicant’s recent work.
A statement of intent, not to exceed two typed double-spaced pages, which discusses the applicant’s expectations of the BSN program and the student’s career goals.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites ([http://www.flvc.org/cpp/displayRecord.jsp?cip=513801&track=01](http://www.flvc.org/cpp/displayRecord.jsp?cip=513801&track=01)) may be used for transfer students.

**Semester 1**
- Complete NUR 3066C

**Semester 2**
- Complete NUR 3123

**Semester 3**
- Complete NUR 3169

**Semester 4**
- Complete NUR 4636C

**Semester 5**
- Complete NUR 4815

**Model Semester Plan**

**Degree Requirements**
- Completion of 120 credits, including 60 junior/senior-level credits
- A minimum grade of C in each nursing course
- RN to BSN students will be awarded 30 upper-level credit hours based upon current RN licensure and by satisfying the professional portfolio
- Adherence to the standards of acceptable conduct as outlined in the American Nurses Association Code of Ethics, the Florida Nurse Practice Act, the University's Student Guide and the undergraduate catalog

Academic Learning Compact

The major in nursing prepares graduates as generalists to provide holistic care that addresses the healthcare needs of diverse individuals, families, communities and populations across the lifespan. Nursing practice is built on nursing knowledge, theory and research. Graduates will translate, integrate and apply knowledge that leads to improvements in patient outcomes.

Before Graduating Students Must

- Achieve a rating of satisfactory in all courses, graded according to College of Nursing rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

**Student Learning Outcomes (SLOs)**

**Content**

1. Integrate knowledge, skills and values derived from a solid base in liberal education to deliver quality care to individuals and groups across the lifespan and across healthcare environments.

**Critical Thinking**

2. Provide leadership in the delivery of safe, high-quality healthcare to diverse individuals and groups across the lifespan and across healthcare environments.

3. Utilize current evidence to improve healthcare outcomes for clients.

4. Utilize information management and healthcare technology to improve the quality of care.

5. Analyze processes through which healthcare policies are developed and changed to influence professional nursing practice and healthcare systems.

6. Utilize wellness promotion and illness prevention strategies with individuals and groups to improve population health outcomes across the lifespan.

7. Integrate professional values in the delivery of safe, culturally-sensitive care to clients across the lifespan.

**Communication**

8. Communicate and collaborate as members of interprofessional teams to deliver safe, high-quality healthcare.

Public Health and Health Professions, College of

The college offers a diverse variety of degree programs — two bachelor's, seven master's, eight Ph.D. and three professional degrees, as well as several certificate programs. By combining the population perspective of public health with the patient focus of our health professions disciplines, the continuum of care is covered, from prevention and treatment to rehabilitation that supports the health and well-being of communities and individuals.

Rankings
Eight programs are ranked in the Top 20 among AAU public universities, according to U.S. News & World Report.

Accredited
The college is accredited by the Council on Education for Public Health. In addition, all clinical programs are accredited by the appropriate national organization.

Degrees
The college offers a Bachelor of Health Science in Communication Sciences and Disorders or Health Science, and a Bachelor of Public Health degree. The Public Health program is designed to provide students with foundational skills for both individual and community based health care. The Health Science program is designed to provide students with knowledge and skills to pursue careers in medicine, rehabilitation, therapeutic care, and communication sciences. Health Science specializations include: general health science, pre-occupational therapy, occupational therapy accelerated, pre-physical therapy, and pre-professional.

Academic Advising
Make an appointment with an academic advisor at 352.273.6400, option 1.
More Info (https://bhs.phhp.ufl.edu/)

Libraries
In addition to the university's other libraries, students access the Health Science Center Libraries, one of the largest biomedical library systems in the country.
More Info (http://www.library.health.ufl.edu/)

Internships and Career Guidance
College academic advisors and the Career Connections Center are available to help with career planning. Shadowing healthcare providers is also encouraged.

**Academic Policies**

**Admission**

Admission requirements vary for the different majors; therefore, applicants should contact an academic advisor in the college to ensure appropriate academic planning.

In addition to specific GPA and coursework requirements, applicants should have evidence of service through volunteer experiences. Additional admission information may be found on the college's undergraduate programs (https://undergrad.phhp.ufl.edu/) page.

**Application Deadlines**

Application deadlines and instructions may be found on the college's undergraduate program (https://undergrad.phhp.ufl.edu/) page.

**Student Selection**

Undergraduate programs are limited access. Admission to the college at the junior level is limited and selective. Satisfaction of minimum GPA and course requirements does not guarantee admission to the junior level. A student's total record, including educational objectives, courses completed, quality of academic record and application essay are considered when evaluating an applicant for admission.

**Native UF Student Admission**

**Freshmen and Sophomores**

Students can declare a major in one of the college's undergraduate programs upon admission to the university. However, continued progress as a junior in the major is contingent upon selection and requires completion of an application process. Progression standards include courses completed, cumulative and tracking GPAs, and academic conduct. Students apply for junior level limited access admission in their sophomore year.

**Juniors Level Admission**

A formal application process is required for admission consideration. STUDENTS MUST SUBMIT an online program application for the major/specialization of interest and should carefully follow the instructions for the particular specialization.

Students eligible for admission consideration at the junior level must

• Earn at least 60 semester credits of acceptable college credit with a minimum overall 3.0 GPA for all majors for all college/university-level coursework.
• Complete all critical-tracking coursework with the required GPA. (Critical-tracking courses are listed in the semester plans under Majors in this catalog.)
• Fulfill the general education requirements described in the Academic Advising section of this catalog. Specific course sequences for each program of study indicate how to fulfill these requirements while planning careers in public health and/or discipline-specific health professions.
• Complete all writing requirements.

• Submit a completed program application (https://undergrad.phhp.ufl.edu/admissions/) to the College of Public Health and Health Professions.
• Complete all requirements by the end of spring for Summer B admission consideration or by the end of Summer A for fall admission consideration.

**Transfer Student Admission**

Meeting minimum standards as freshmen and sophomores does not guarantee admission to the junior year within the college because space is limited.

**Application Materials**

Non-UF students must apply to the University of Florida and to the College of Public Health and Health Professions for admission consideration at the junior year. These are separate applications. Students with questions should speak with a college advisor 352.273.6400, option 1.

Florida public college students must have:

• Received the A.A. degree.
• Completed all critical-tracking coursework with the required GPA.
• Completed 60 semester credits of transferable college-level credit with a minimum overall GPA of 3.0.
• Submitted a transfer application (http://www.admissions.ufl.edu/start.html) to UF.
• Submitted a program application to the College of Public Health and Health Professions.

**PHHP Academic Policies**

**Double Majors**

PHHP does not offer a double major; however, students in this college can pursue an additional degree outside of the college. Students from other colleges can also consider a dual degree within PHHP Permission of both colleges is required. Students are eligible to apply for a dual degree after they have completed 45 credits and before completion of 96 credits. Students must meet all requirements for both degrees.

**Minors**

The college offers four minors:

• communication sciences and disorders
• deaf and hearing sciences
• disability science
• health science
• public health

These minors are open to students in other colleges who meet the prerequisite and GPA requirements. The minor form and course information are available from the college website. (https://undergrad.phphp.ufl.edu)

Specific minors are available to PHHP juniors and seniors based on the student's specialization, as noted below.

**Communication Sciences and Disorders Students:** deaf and hearing sciences, health science, disability science and public health minors.
**Health Science Students:** communication sciences and disorders and public health minors.

**Public Health Students:** communication sciences and disorders minors.

**S/U Option**
The S/U option is not permitted for prerequisite or major courses; however, it can be used for electives.

**Academic Performance**

**Juniors and Seniors**
Students must receive minimum grades of C in all courses required for the major. Unsatisfactory grades, defined as grades lower than a C or grades of unsatisfactory in classes graded S/U, are grounds for probation and/or dismissal from the college. In addition, dismissal from the college can result from honor code violations.

If a student in the college receives one grade of C- or lower in a college course, the student is placed on academic probation. Faculty will provide an opportunity for the student to make up material (e.g., through independent study, repeating the course, etc.). If the student receives at least a C in the course for which probation was implemented, the student will return to good academic standing. If the student receives a C- or lower while on probation, the student must withdraw from the program unless the college determines mitigating circumstances warrant a probationary extension. If a student receives the first and second C- or lower in the same term, the college has the right to dismiss the student without first offering probation.

If a student receives a C- or lower in a second college course, regardless of whether this occurs in the same term or a different term as the first C- or lower, the student can be required to withdraw from the program. The student has the right to petition this decision.

In order to petition the faculty committee, the student must provide the program director with a letter stating the reasons that the student should be allowed to remediate their academic performance. Upon successful petition and on a space-available basis, the student will be placed on academic probation and allowed to make up material in an appropriate manner determined by the instructor and program director (e.g., via independent study, course repetition, etc.)

If the student successfully completes the remediation requirements and receives a minimum course grade of C, the student can continue in the program. However, if the student again receives a C- or lower, the student must withdraw from the program. The college will help the student choose another major at UF, if desired, if they withdraw from a college major.

In the first two cases above, the individual instructor is responsible for assigning student grades. The program director, in consultation with the instructor and program faculty as needed, is responsible for determining if a student who appeals a dismissal will be placed on academic probation or dismissed from the program. The student will be notified in writing of the director’s decision concerning academic probation or dismissal.

If the student is placed on probation, the letter will include the activities that the student must successfully complete to remedy the academic deficiencies and the timeframe in which these activities must be completed. Failure to adhere to or to meet the terms of the letter constitutes grounds for dismissal from the program. The student will be offered assistance, if desired, to select a different major.

If the student disagrees with the director’s decision regarding dismissal or the terms of the probation letter, the student may appeal in writing within one week to the associate dean overseeing academic affairs. The associate dean will review both the director’s decision and the student’s concerns and make a determination about academic probation/dismissal. Both the student and director have the right to further appeal to the dean, who will review the case in its entirety and make the final decision.

**Changing Majors**
Freshmen and sophomores wishing to change majors must contact a college advisor in the new major. Juniors and seniors wishing to change majors in the college must contact the program director. If a student withdraws from the major, specific permission from the program and the college must be given at the time of withdrawal for the student to be eligible to re-enter the college.

**Health Policy**
The college requires evidence of ability to meet the physical and academic requirements of the program. Personnel in the Department of Student Health will test each student for sensitivity to tuberculosis. The Department of Student Health will verify immunization against diphtheria, rubella (German measles) and tetanus.

All students must be immunized against Hepatitis B and varicella (chicken pox) or provide the Student Health Center with medical documentation that they have had chicken pox. All students must participate in annual bloodborne pathogen training, repeat their TB test annually if observing in a clinical setting, and be HIPAA compliant.

Students registered in clinical courses must have hospitalization insurance. Full-time students are eligible for the health insurance plans sponsored by Student Government. Twelve-month coverage may be purchased at the time of registration.

**Expenses**
Required immunizations and other expenses are the student’s responsibility.

**Degree Requirements**
Students must satisfy all college and university degree requirements for their major and specialization.

**College requirements include:**
- Completion of 120 semester credits with a 2.0 GPA, including 60 hours of upper division college credit
- Completion of all core courses with minimum grades of C
- Satisfactory completion of all approved college and general electives
- Completion of a PHHP degree candidate exit survey

To graduate in the desired term, students must submit by the deadline a completed degree application to the Office of University Registrar. More Info (http://www.registrar.ufl.edu/currents/degreeapp.html)

**Dean’s List**
The dean’s list recognizes outstanding academic achievement at the completion of each semester. Students receiving a final grade of U or a failing grade may not be considered for the dean’s list, regardless of overall grade point average. Students may request a letter confirming dean’s list status from the college’s dean’s office.
Graduating with Honors
More Info (p. 1645)
Postbaccalaureate students are not eligible to receive honors recognition. Guidelines for completion of honors program requirements (http://www.bahealthsci.phhp.ufl.edu/) to graduate magna cum laude or summa cum laude.

Guidelines for completion of honors program requirements (http://www.bahealthsci.phhp.ufl.edu/) to graduate magna cum laude or summa cum laude.

CERTIFICATES

UF ONLINE MAJORS
• Communication Sciences and Disorders UF Online

Students are encouraged to participate in organizations that will help them gain leadership and teamwork experience.

Examples of student organizations, include, but are not limited to:
• Student Occupational Therapy Association
• Health Science Student Organization
• Generational Relief in Prosthetics (GRiP)
• Multicultural Association of Pre-Health Students
• PHHP College Council

Communication Sciences and Disorders
The Communication Sciences and Disorders major includes didactic and experiential activities for students to learn foundational skills necessary for success in professions such as speech-language pathology, audiology and communication sciences, all of which require graduate degrees.

About this Program
• College: Public Health and Health Professions (p. 1587)
• Degree: Bachelor of Health Science
• Credits for Degree: 120
• Contact:
  • Junior/Senior | 2127 HPNP Complex (http://campusmap.ufl.edu/#/index/0212) | 352.294.8476
  • Freshman/Sophomore | Email (advising@phhp.ufl.edu) | G-205 HPNP Complex (http://campusmap.ufl.edu/#/index/0212) | 352.273.6400, option 1

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Speech, Language, and Hearing Sciences works to improve the lives of people affected by communication and related disorders through excellence and innovation in clinical training, service, and research. Website (https://slhs.phhp.ufl.edu/)

Curriculum
• Communication Sciences and Disorders
• Communication Sciences and Disorders Minor
• Communication Sciences and Disorders UF Online
• Deaf and Hearing Sciences Minor
Students should follow the plan below for course choices.

The undergraduate program exposes students to information about

1. normal aspects of speech, language, and hearing as they relate to human communication, and
2. introductory concepts pertaining to the nature, assessment, and treatment of communication disorders.

Students complement the core major courses with various elective courses that align with their academic and career interests.

Upon successful completion of the major, students receive the Bachelor of Health Science degree. The majority of undergraduate students pursue graduate or professional training in a health field (e.g., speech language pathology, audiology or other graduate degree program); however, some students seek employment immediately after completing the BHS degree program, usually in organizations with either a health or education component.

Certified clinicians (graduate degree required) often on a team that may include psychologists, teachers, families, physical and occupational therapists, physicians, nurses, dietitians and social workers to screen, diagnose and treat individuals ranging from infants to the elderly. Professionals typically work in schools, clinics, hospitals, other health organizations and/or private practice. Communication sciences and disorders professions offer a high degree of satisfaction to their practitioners by making a significant impact on people’s lives. Both speech-language pathology and audiology are growing professions with competitive salaries.

Course Requirements and Sequence

By the End of Semester Four
To be considered for admission at the junior level, students must complete these requirements:

- Minimum overall and prerequisite GPAs of 3.0
- For transfer students, AA degree or 60 transferrable credits (including general education and major prerequisites)
- 18,000 words of the writing requirement
- These courses (or their equivalents) with minimum grades of C:
  - BSC 2005 or higher
  - Additional biological science (3 credits); APK 2105C is highly recommended
  - Physical science (3 credits); must be physics or chemistry
  - Science lab (1 credit)
  - PSB 3002 or DEP 3053 or CLP 3144; PSB 3002 is recommended strongly
  - PSY 2012
  - STA 2023

By the End of Semester Five
Students must also have completed:

- EEX 3093 with a minimum grade of C (satisfies general education diversity)
- SPA 3003

By the End of the Senior Year
Students must have completed:

- 120 credits, including all prerequisites
- 30 credits of core SPA coursework with minimum grades of C
- ENC 3254 with minimum grade of C; satisfies 6000 words of writing requirement
- PHC 4101 with minimum grade of C
- 12 credits of electives at the 3000/4000 level
- 9 credits of PHHP electives

Majors should see a department advisor to create a plan of study, which becomes the contract for graduation.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.
Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=510204&track=01) may be used for transfer students.

**Semester 1**
- Complete BSC 2005 or higher or PSY 2012 with minimum grade of C
- Complete 9 credits of general education courses
- 2.3 GPA on all college-level coursework from all institutions

**Semester 2**
- Complete BSC 2005 or higher or PSY 2012 with minimum grade of C
- Complete 12 additional credits of general education courses for a total of 18 credits
- 2.7 GPA on all college-level coursework from all institutions

**Semester 3**
- Complete STA 2023 with minimum grade of C
- Complete 1 additional tracking psychology course (PSB 3002, DEP 3053 or CLP 3144) or 3 credits of physical science (CHM 2045 or PHY 2004 recommended) with minimum grade of C
- SPA 3003 recommended this semester if available, with minimum grade of C
- Complete science lab with minimum grade of C or S
- Complete 9 additional credits of general education courses for a total of 30 credits
- 3.0 GPA on all college-level coursework from all institutions

**Semester 4**
- Complete all critical-tracking courses with minimum grades of C
- Complete all general education courses except diversity
- Complete the 18,000 words of the writing requirement
- 3.0 critical-tracking GPA based on all attempts
- 3.0 GPA on all college-level coursework from all institutions

**Semester 5**
- Complete EEX 3093, SPA 3003, SPA 3011, SPA 3032, and SPA 3101
- 3.0 prerequisite and overall GPA on college-level coursework from all institutions
- Complete five CMS 3000 required courses
- 2.0 UF GPA required

**Semester 6**
- Complete ENC 3254, SPA 4004, SPA 4104, and SPA 4302
- Complete four of the remaining CMS 3000/4000 required courses
- 2.0 UF GPA required

**Semester 7**
- Complete SPA 4250 and SPA 4321
- Complete 2 of the remaining CMS 4000 required courses
- 2.0 UF GPA required

**Semester 8**
- Complete SPA 4050 and SPA 4400
- Complete 3 of the remaining CMS 4000 required courses
- 2.0 UF GPA required

**Model Semester Plan**

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.
This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Total Credits: 120

Academic Learning Compact

The undergraduate program provides an understanding of the expected processes involved in human communication so that students will be prepared for graduate programs where they will be immersed in dealing with atypical or pathological conditions related to speech, language, swallowing and/or hearing.

Before Graduating Students Must

- Pass the undergraduate CSD written examination.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Explain fundamental theories and principles of basic acoustics, psychoacoustics, (neuro)anatomy and (neuro)physiology as they pertain to the normal development of speech, language and hearing.
2. Explain key concepts that pertain to the etiology and characteristics of speech, language and auditory disorders.
3. Describe basic concepts that pertain to the assessment and treatment of speech, language and auditory disorders.
4. Explain fundamental concepts that pertain to professional practice patterns and ethical standards.
5. Explain fundamental concepts that pertain to the relationship between aging and communication, the effect of culture on communication and modalities of communication.
6. Transcribe normal and disordered speech phonetically.
7. Explain the impact of disease and disability on the health of populations.

Critical Thinking

8. Apply clinical problem-solving skills to defend assessment and treatment choices.

Communication

9. Present information accurately and effectively during an oral presentation on a topic related to communication sciences or disorders.
10. Write a coherent analytical essay on a topic related to communication sciences or disorders.

*Students should follow the plan below for course choices.*

The undergraduate program exposes students to information about:

1. normal aspects of speech, language, and hearing as they relate to human communication, and
2. introductory concepts pertaining to the nature, assessment, and treatment of communication disorders.

Students complement the core major courses with various elective courses that align with their academic and career interests.

Upon successful completion of the major, students receive the Bachelor of Health Science degree. The majority of undergraduate students pursue graduate or professional training in a health field (e.g., speech language pathology, audiology or other graduate degree program); however, some
students seek employment immediately after completing the BHS degree program, usually in organizations with either a health or education component.

Certified clinicians (graduate degree required) often on a team that may include psychologists, teachers, families, physical and occupational therapists, physicians, nurses, dietitians and social workers to screen, diagnose and treat individuals ranging from infants to the elderly. Professionals typically work in schools, clinics, hospitals, other health organizations and/or private practice. Communication sciences and disorders professions offer a high degree of satisfaction to their practitioners by making a significant impact on people’s lives. Both speech-language pathology and audiology are growing professions with competitive salaries.

**Course Requirements and Sequence**

To be considered for admission at the junior level, students must complete these requirements:

- Minimum overall and pre-requisite GPAs of 3.0
- For transfer students, AA degree or 60 transferrable credits (including general education and major prerequisites)
- 18,000 words of the writing requirement
- These courses (or their equivalents) with minimum grades of C:

</tr>
</tbody>
</table>

By the end of semester five, all students must also have completed:

- EEX 3093 with a minimum grade of C
- SPA 3003 with a minimum grade of C

By the end of the senior year, students must have completed:

- 120 credits, including all prerequisites
- 30 credits of core SPA coursework with minimum grades of C
- ENC 3254 with minimum grade of C; satisfies 6000 words of writing requirement
- PHC 4101 with minimum grade of C
- 12 credits at the 3000/4000 level
- 9 credits of PHHP electives

Majors should see a department advisor to create a plan of study, which becomes the contract for graduation.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=510204&track=01) may be used for transfer students.

**Semester 1**

- Complete BSC 2005 or higher or PSY 2012 with minimum grade of C
- Complete 9 credits of general education courses
- 2.3 GPA on all college-level coursework from all institutions
Semester 2
• Complete BSC 2005 or higher or PSY 2012 with minimum grade of C
• Complete 12 additional credits of general education courses for a total of 18 credits
• 2.7 GPA on all college-level coursework from all institutions

Semester 3
• Complete STA 2023 with minimum grade of C
• Complete 1 additional tracking psychology course (PSB 3002, DEP 3053 or CLP 3144) or 3 credits of physical science (CHM 2045 or PHY 2004 recommended) with minimum grade of C
• SPA 3003 recommended this semester if available, with minimum grade of C
• Complete science lab with minimum grade of C or S
• Complete 9 additional credits of general education courses for a total of 30 credits
• 3.0 GPA on all college-level coursework from all institutions

Semester 4
• Complete all critical-tracking courses with minimum grades of C
• Complete all general education courses except diversity
• Complete the 18,000 words of the writing requirement
• 3.0 critical-tracking GPA based on all attempts
• 3.0 GPA on all college-level coursework from all institutions

Semester 5
• Complete EEX 3093, SPA 3003, SPA 3011, SPA 3032, and SPA 3101
• 3.0 prerequisite and overall GPA on college-level coursework from all institutions
• Complete five CMS 3000 required courses
• 2.0 UF GPA required

Semester 6
• Complete ENC 3254, SPA 4004, SPA 4104, and SPA 4302
• Complete four of the remaining CMS 3000/4000 required courses
• 2.0 UF GPA required

Semester 7
• Complete SPA 4250 and SPA 4321
• Complete 2 of the remaining CMS 4000 required courses
• 2.0 UF GPA required

Semester 8
• Complete SPA 4050 and SPA 4400
• Complete 3 of the remaining CMS 4000 required courses
• 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

| Total Credits | 120 |

1 Or higher level course.
Academic Learning Compact

The undergraduate program provides an understanding of the expected processes involved in human communication so that students will be prepared for graduate programs where they will be immersed in dealing with atypical or pathological conditions related to speech, language, swallowing and/or hearing.

Before Graduating Students Must

• Pass the undergraduate CSD written examination.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Explain fundamental theories and principles of basic acoustics, psychoacoustics, (neo)anatomy and (neo)physiology as they pertain to the normal development of speech, language and hearing.
2. Explain key concepts that pertain to the etiology and characteristics of speech, language and auditory disorders.
3. Describe basic concepts that pertain to the assessment and treatment of speech, language and auditory disorders.
4. Explain fundamental concepts that pertain to professional practice patterns and ethical standards.
5. Explain fundamental concepts that pertain to the relationship between aging and communication, the effect of culture on communication and modalities of communication.
6. Transcribe normal and disordered speech phonetically.
7. Explain the impact of disease and disability on the health of populations.

Critical Thinking
8. Apply clinical problem-solving skills to defend assessment and treatment choices.

Communication
9. Present information accurately and effectively during an oral presentation on a topic related to communication sciences or disorders.
10. Write a coherent analytical essay on a topic related to communication sciences or disorders.

Communication Sciences and Disorders Minor

The Communication Sciences and Disorders minor is appropriate for students with majors in computer science, education, engineering, health professions, linguistics, music, psychology, and special education.

About this Program

- **College**: Public Health and Health Professions (p. 1587)
- **Credits**: 15 | Completed with minimum grades of C and no S/U

Department Information

The Department of Speech, Language, and Hearing Sciences works to improve the lives of people affected by communication and related disorders through excellence and innovation in clinical training, service, and research.

Website (https://slhs.phhp.ufl.edu/)

CONTACT

352.294.8476 (tel) | 352.273.6545 (fax)

Curriculum

- Communication Sciences and Disorders
- Communication Sciences and Disorders Minor
- Communication Sciences and Disorders UF Online
- Deaf and Hearing Sciences Minor

The minor is open to all students except those majoring in communication sciences and disorders.

Courses that are required for the CSD major do not count toward a minor in CSD if the courses are required by the student’s home department.

Students applying for the minor should have a minimum 3.0 GPA and should plan the minor in consultation with the undergraduate coordinator.

Deaf and Hearing Sciences Minor

The Deaf and Hearing Sciences minor includes language classes in American Sign Language and classes to deepen awareness of the impact of hearing loss on everyday life and function. Students also gain an appreciation of the anatomy and physiology of the ear and rehabilitation approaches for individuals with hearing loss.

About this Program

• College: Public Health and Health Professions (p. 1587)
• Credits: 17

BHS-CSD students will also be required take ASL 1130, due to overlap with their major courses.

Disability Science Minor

The Disability Science minor provides a basic scientific foundation to understand the impact of disability on physical and psychosocial health.

About this Program

• College: Public Health and Health Professions (p. 1587)
• Credits: 17 | Completed with minimum grades of C

Department Information

Students in the Department of Special Education are uniquely positioned to learn from leaders in the field while simultaneously applying that learning in individually relevant professional settings.

Curriculum
• Disabilities in Society Minor
• Disability Science Minor
• Education | Unified Early Childhood Education ProTeach | Pre-K-Grade 3
• Education | Unified Elementary/Special Education ProTeach | Grades K-6

This minor is available to all juniors and seniors in PHHP’s communication sciences and disorders major and to students in other colleges who meet the prerequisites. The minor is not available to Bachelor of Health Science students in health science, pre-OT or pre-public health specializations.

All credits toward the minor must be completed at the 3000/4000-level. As long as the program director approves, the student can use up to three credits of relevant 3000-level or higher transfer coursework or electives outside the health science program to fulfill elective credits. Lower-division transfer credit is not accepted.

Prerequisites
• Junior standing (60+ credits)
• Overall 2.75 GPA
• 2.75 prerequisite GPA based on general college biology, general psychology, abnormal/developmental/physiological psychology, physiology, and statistics (STA 2023).

Health Science

The Health Science program leading to the Bachelor of Health Science (BHS) degree includes didactic and experiential activities for students to learn the foundation skills necessary for success in the dynamic health environment.

About this Program

• College: Public Health and Health Professions (p. 1587)
• Degree: Bachelor of Health Science
• Specializations: General Health Science (p. 1604) | Occupational Therapy Accelerated (p. 1609) | Pre-Occupational Therapy (p. 1615) | Pre-Physical Therapy (p. 1619) | Pre-Professional (p. 1625)
• Credits for Degree: 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Bachelor of Health Science (BHS) program is a limited access program designed for students whose career goal is to work in the health professions providing service to individuals and communities. BHS students are typically pursuing health related professions such as medicine, physician assistant, physical therapy, occupational therapy, audiology, speech-language pathology, dentistry, epidemiology, or public health.
The program has two major goals: to teach foundational skills to students whose career goal is to work in health care, particularly for those who want to become health care providers, and to teach foundational skills to students who want to work with individuals, groups or communities who face social, economic or health challenges. In addition, interested students have the opportunity to explore a combination-degree program in public health.

The college offers five specializations in the freshman and sophomore years:

**General Health Science**
For students who want to work in a health care field not mentioned in the other specializations below. The number of electives allowed in this specialization affords the student the opportunity to incorporate a range of prerequisites for different career paths.

**Occupational Therapy Accelerated**
A combination-degree program that allows students to take first-year Doctor of Occupational Therapy (OTD) Program courses during their junior and senior years in the health science program.

**Pre-Physical Therapy**
Offers a suggested prerequisite course sequence for students interested in pursuing entry-level physical therapy education at the graduate/professional level.

**Pre-Occupational Therapy**
 Offers the core health science curriculum plus OT prerequisites necessary for the Master of Occupational Therapy program at UF.

**Pre-Professional**
For students pursuing careers in fields such as medicine, physician assistant and dentistry, all of which require significant basic science prerequisites. This specialization is set up to integrate commonly required pre-professional courses with requirements for the health science major.

The general health science, pre-professional and pre-physical therapy specializations collapse into one track beginning in the junior year and follow the same core curriculum, focusing on the health care system, different diseases and disabilities, the role of the health care provider in prevention and treatment, research methods and understanding core public health concepts. The senior year focuses on patient provider communication, effective leadership and critical-thinking skills important to clinical problem solving and the bioethical and legal issues impacting health care.

Regardless of specialization selected, students complement core courses with electives to round out their academic skills and interests.

Upon successful completion of the health science program, students receive the Bachelor of Health Science degree. While the majority of students pursue graduate or professional training in a health field (e.g. occupational therapy, physical therapy, medicine, physician assistant, health administration, dentistry, public health), some students seek employment in hospital or related community organizations after completing the B.H.S.

**Course Sequence**
While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

All course specializations in the health science program require a minimum 3.0 overall and prerequisite GPA for admission at the junior level.

Each specialization incorporates general education math and writing requirements and health science prerequisites. All specializations accept AP IB, or AICE credit for any prerequisite course. Students must earn a minimum of C in any BHS prerequisite course that is not satisfied by AP/IB/AICE credit. NOTE: While students can use AP/IB/AICE credit to satisfy BHS prerequisites, students should be aware that graduate/professional programs
may not accept AP/IB/AICE credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

**Academic Learning Compact**

The Bachelor of Health Science prepares students for a career in health care systems or organizations that provide health or general human services to individuals/communities with health concerns. Students will learn the foundational interprofessional skills necessary to succeed in the dynamic healthcare environment and/or enter postbaccalaureate academic programs such as medicine, physical therapy and public health.

**Before Graduating Students Must**
- Receive a satisfactory grade (S) in the BHS capstone portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Describe key elements of the U.S. healthcare system.
2. Comprehensively describe major chronic illnesses and disabilities.
3. Describe the core functions of public health.
4. Apply knowledge and application of core bioethical principles to contemporary health issues.
5. Develop appropriate professional behaviors for health careers.

**Critical Thinking**
6. Develop and apply critical analysis skills to contemporary health issues.

**Communication**
7. Apply effective basic communication skills for health professionals.

**Curriculum Map**

**Course Sequence**

While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

All course specializations in the health science program require a minimum 3.0 overall and prerequisite GPA for admission at the junior level.

Each specialization incorporates general education math and writing requirements and health science prerequisites. All specializations accept AP, IB, or AICE credit for any prerequisite course. Students must earn a minimum of C in any BHS prerequisite course that is not satisfied by AP/IB/AICE credit. NOTE: While students can use AP/IB/AICE credit to satisfy BHS prerequisites, students should be aware that graduate/professional programs may not accept AP/IB/AICE credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

**General Health Science**

The general specialization is designed to accommodate students interested in diverse health care fields (e.g., health administration, nursing, clinical psychology).

To be on-track for the junior year, students must meet the critical-tracking criteria listed below, beginning with the first fall or spring term.

To be considered for admission at the junior level, students must:

- Remain on track each fall and spring term, for a total of four semesters.
- Complete the following prerequisites or equivalents by the end of the fourth semester:

<table>

- The online application to the BHS program goes live as a link on the BHS website ([http://bhs.phhp.ufl.edu/](http://bhs.phhp.ufl.edu/)) in November. Apply formally to the college by the February 1 deadline. Transfer students must apply separately to UF and to the college so they must submit two different applications.

Off-track UF freshmen and sophomores must speak with a college advisor before registering for the next semester and prior to applying for junior-year admission consideration.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites ([http://www.flvc.org/cpp/displayRecord.jsp?cip=510000&track=01](http://www.flvc.org/cpp/displayRecord.jsp?cip=510000&track=01)) may be used for transfer students.

**Semester 1**

- Complete ENC 1101 or ENC 1102 with a minimum grade of C
- Complete 9 credits of general education courses, including ENC 1101 or higher, with minimum grades of C
- 2.3 cumulative GPA on work from all institutions

**Semester 2**

- Complete STA 2023 with a minimum grade of C
- Complete PSY 2012 with a minimum grade of C
• Complete 9 additional credits of general education courses for a total of 18, including the university writing requirement
• 2.7 cumulative GPA on work from all institutions

Semester 3
• Complete BSC 2005 or BSC 2010 with minimum grade of C
• Complete CLP 3144 or DEP 3053 with a minimum grade of C
• Complete STA 2023 with minimum grades of C
• Complete 9 additional credits of general education courses for a total of 27
• 3.0 GPA required for all critical-tracking courses, based on all attempts
• 3.0 cumulative GPA on work from all institutions

Semester 4
• Complete all general education courses, including IDS 1161 and all state core courses
• Complete the university writing requirement, which must include ENC 3453 or a substitution approved by a PHHP advisor
• Complete APK 2105C with a minimum grade of C
• Complete 60 cumulative credits
• 3.0 GPA required for all critical-tracking courses and minimum grades of C on all critical-tracking courses, based on all attempts
• 3.0 cumulative GPA on work from all institutions

Semester 5
• Complete HSA 3111 with a minimum grade of C
• Complete HSC 3502 with a minimum grade of C
• Complete PHC 4101 with a minimum grade of C

Semester 6
• Complete HSC 3057 with a minimum grade of C
• Complete HSC 4558 with a minimum grade of C
• Complete OTH 3416 with a minimum grade of C
• Complete 3 credits of College Approved Electives

Semester 7
• Complete HSC 3661 with a minimum grade of C
• Complete RCS 4415L with a minimum grade of C
• Complete HSC 4184 with a minimum grade of C

Semester 8
• Complete HSC 4608L with a minimum grade of C
• Complete HSC 4652L with a minimum grade of C
• Complete HSC 4008 with a Satisfactory grade
• Complete 9 credits of College Approved Electives

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

**Total Credits**

| Credits | 120 |

Minimum grade of C required.

For semesters 5-8, students must enroll in all semesters and take all core courses in the term/order indicated.
Academic Learning Compact

The Bachelor of Health Science prepares students for a career in health care systems or organizations that provide health or general human services to individuals/communities with health concerns. Students will learn the foundational interprofessional skills necessary to succeed in the dynamic healthcare environment and/or enter postbaccalaureate academic programs such as medicine, physical therapy and public health.

Before Graduating Students Must

• Receive a satisfactory grade (S) in the BHS capstone portfolio.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Describe key elements of the U.S. healthcare system.
2. Comprehensively describe major chronic illnesses and disabilities.
3. Describe the core functions of public health.
4. Apply knowledge and application of core bioethical principles to contemporary health issues.
5. Develop appropriate professional behaviors for health careers.

Critical Thinking
6. Develop and apply critical analysis skills to contemporary health issues.

Communication
7. Apply effective basic communication skills for health professionals.

• The Bachelor of Health Science (BHS) capstone exam in the final semester
• The degree candidate’s exit survey

Occupational Therapy Accelerated

The Health Science program leading to the Bachelor of Health Science (BHS) degree includes didactic and experiential activities for students to learn the foundation skills necessary for success in the dynamic health environment.

About this Program

• College: Public Health and Health Professions (p. 1587)
• Degree: Bachelor of Health Science
• **Specializations:** General Health Science (p. 1604) | Occupational Therapy Accelerated (p. 1609) | Pre-Occupational Therapy (p. 1615) | Pre-Physical Therapy (p. 1619) | Pre-Professional (p. 1625)

• **Credits for Degree:** 120

*To graduate with this major, students must complete all university, college, and major requirements.*

**Department Information**

The Bachelor of Health Science (BHS) program is a limited access program designed for students whose career goal is to work in the health professions providing service to individuals and communities. BHS students are typically pursuing health related professions such as medicine, physician assistant, physical therapy, occupational therapy, audiology, speech-language pathology, dentistry, epidemiology, or public health. Website (https://bhs.phhp.ufl.edu/)

GAINESVILLE FL 32610
Map (http://campusmap.ufl.edu/#/index/0212)

**Curriculum**

• Health Science
• Health Science Minor

**Related Programs**

• Public Health

The program has two major goals: to teach foundational skills to students whose career goal is to work in health care, particularly for those who want to become health care providers, and to teach foundational skills to students who want to work with individuals, groups or communities who face social, economic or health challenges. In addition, interested students have the opportunity to explore a combination-degree program in public health.

The college offers five specializations in the freshman and sophomore years:

**General Health Science**

For students who want to work in a health care field not mentioned in the other specializations below. The number of electives allowed in this specialization affords the student the opportunity to incorporate a range of prerequisites for different career paths.

**Occupational Therapy Accelerated**

A combination-degree program that allows students to take first-year Doctor of Occupational Therapy (OTD) Program courses during their junior and senior years in the health science program.

**Pre-Physical Therapy**

Offers a suggested prerequisite course sequence for students interested in pursuing entry-level physical therapy education at the graduate/professional level.

**Pre-Occupational Therapy**

Offers the core health science curriculum plus OT prerequisites necessary for the Master of Occupational Therapy program at UF.

**Pre-Professional**

For students pursuing careers in fields such as medicine, physician assistant and dentistry, all of which require significant basic science prerequisites. This specialization is set up to integrate commonly required pre-professional courses with requirements for the health science major.

The general health science, pre-professional and pre-physical therapy specializations collapse into one track beginning in the junior year and follow the same core curriculum, focusing on the health care system, different diseases and disabilities, the role of the health care provider in prevention and treatment, research methods and understanding core public health concepts. The senior year focuses on patient provider communication, effective leadership and critical-thinking skills important to clinical problem solving and the bioethical and legal issues impacting health care.

Regardless of specialization selected, students complement core courses with electives to round out their academic skills and interests.

Upon successful completion of the health science program, students receive the Bachelor of Health Science degree. While the majority of students pursue graduate or professional training in a health field (e.g. occupational therapy, physical therapy, medicine, physician assistant, health administration, dentistry, public health), some students seek employment in hospital or related community organizations after completing the B.H.S.
Course Sequence
While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

All course specializations in the health science program require a minimum 3.0 overall and prerequisite GPA for admission at the junior level.

Each specialization incorporates general education math and writing requirements and health science prerequisites. All specializations accept AP IB, or AICE credit for any prerequisite course. Students must earn a minimum of C in any BHS prerequisite course that is not satisfied by AP/IB/AICE credit. NOTE: While students can use AP/IB/AICE credit to satisfy BHS prerequisites, students should be aware that graduate/professional programs may not accept AP/IB/AICE credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

Occupational Therapy Accelerated
Occupational therapy is a professional program. The Occupational Therapy Accelerated Program gives students the opportunity to learn core health science content while simultaneously completing the first-year professional-level coursework required for the doctor of occupational therapy program at UF.

Competitive applicants to the Occupational Therapy Accelerated Program will have met the following requirements:

- Applicants must be accepted into the Bachelor of Health Science Program.
- Applicants must have completed all 2000-level prerequisites required for the professional program in occupational therapy.
- A minimum cumulative 3.8 GPA for lower division (freshman and sophomore level) undergraduate college coursework.
- A minimum 3.7 GPA for all prerequisite courses with no grade lower than a C.
- All applicants are required to complete a total of 30 hours of observational hours in at least two diverse OT settings. Diverse settings are settings that service clientele are significantly different; inpatient, outpatient, long term care, school-based, elders, pediatrics, orthopedics, rehabilitation, etc.
- Applicants must submit three recommendations. One of the recommendations must be from a professional level OT. The other two should be from professionals, such as a present or former faculty member, academic advisor, or employer.
- Applicants must submit a personal statement that addresses why they selected OT as a career and how an Occupational Therapy degree relates to their immediate and long-term professional goals. They must describe how their personal, educational, and professional background will help achieve their goals.

Critical Tracking
Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cid=510000&track=01) may be used for transfer students.

Semester 1
- Complete BSC 2005 and BSC 2005L with minimum grades of C
- Complete ENC 1101 or ENC 1102 with a minimum grade of C
- Complete sociology or anthropology with a minimum grade of C
- Complete 9 credits of general education courses, including ENC 1101 or higher, with minimum grades of C
- 3.2 cumulative GPA on work from all institutions

Semester 2
- Complete ENC 1102 with a minimum grade of C
- Complete HSC 2000 with a minimum grade of C (recommended)
- Complete PSY 2012 and HSC 3537 with minimum grades of C
- Complete 9 additional credits of general education courses for a total of 18
- Complete 28 cumulative credits
- 3.4 cumulative GPA on work from all institutions

Semester 3
- Complete 3 additional critical-tracking courses: APK 2100C or APK 2105C, CLP 3144 and STA 2023 with minimum grades of C
- Complete 9 additional credits of general education courses for a total of 27
• Complete ENC 3453 or a substitution approved by a PHHP advisor
• Complete 42 cumulative credits
• 3.6 GPA required for all critical-tracking courses, based on all attempts
• 3.6 cumulative GPA on work from all institutions

**Semester 4**
• Complete all laboratories
• Complete all general education courses, including IDS 1161 and all state core courses
• Complete the university writing requirement
• Complete 60 cumulative credits
• Complete all critical-tracking courses with no grade below C and with a 3.7 critical-tracking GPA
• 3.8 cumulative GPA on work from all institutions

**Semester 5**
• Complete HSC 3502
• Complete HSA 3111
• Complete OTH 6002
• Complete OTH 6209

**Semester 6**
• Complete PHC 4101
• Complete HSC 4558
• Complete HSC 3057
• Complete HSC 4652L
• Complete OTH 6539

**Semester 7**
• Complete HSC 4184
• Complete HSC 3661
• Complete RCS 4415L
• Complete OTH 6008C
• Complete OTH 6419

**Semester 8**
• Complete HSC 4608L
• Complete OTH 6242
• Complete OTH 6423
• Complete OTH 6722

---

**Model Semester Plan**

### Total Credits
120
Minimum grade of C required.

Minimum grade of B required.

Students can complete missing coursework in the summer, but all first-year tracking criteria must be completed by the end of the summer term.

For semesters 5-8, students must enroll in all semesters and take all core courses in the term/order indicated, with the exception of Introduction to Statistics, which must be completed by the end of spring term of the junior year.

Academic Learning Compact

The Bachelor of Health Science prepares students for a career in health care systems or organizations that provide health or general human services to individuals/communities with health concerns. Students will learn the foundational interprofessional skills necessary to succeed in the dynamic healthcare environment and/or enter postbaccalaureate academic programs such as medicine, physical therapy and public health.

Before Graduating Students Must

- Receive a satisfactory grade (S) in the BHS capstone portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Describe key elements of the U.S. healthcare system.
2. Comprehensively describe major chronic illnesses and disabilities.
3. Describe the core functions of public health.
4. Apply knowledge and application of core bioethical principles to contemporary health issues.
5. Develop appropriate professional behaviors for health careers.

Critical Thinking
6. Develop and apply critical analysis skills to contemporary health issues.

Communication
7. Apply effective basic communication skills for health professionals.

Curriculum

- Health Science
- Health Science Minor

Related Programs

- Public Health

The program has two major goals: to teach foundational skills to students whose career goal is to work in health care, particularly for those who want to become health care providers, and to teach foundational skills to students who want to work with individuals, groups or communities who face social, economic or health challenges. In addition, interested students have the opportunity to explore a combination-degree program in public health.

The college offers five specializations in the freshman and sophomore years:

General Health Science

For students who want to work in a health care field not mentioned in the other specializations below. The number of electives allowed in this specialization affords the student the opportunity to incorporate a range of prerequisites for different career paths.

Occupational Therapy Accelerated

A combination-degree program that allows students to take first-year Doctor of Occupational Therapy (OTD) Program courses during their junior and senior years in the health science program.

Pre-Physical Therapy

Offers a suggested prerequisite course sequence for students interested in pursuing entry-level physical therapy education at the graduate/professional level.

Pre-Occupational Therapy

Offers the core health science curriculum plus OT prerequisites necessary for the Master of Occupational Therapy program at UF.

Pre-Professional

For students pursuing careers in fields such as medicine, physician assistant and dentistry, all of which require significant basic science prerequisites. This specialization is set up to integrate commonly required pre-professional courses with requirements for the health science major.
The general health science, pre-professional and pre-physical therapy specializations collapse into one track beginning in the junior year and follow
the same core curriculum, focusing on the health care system, different diseases and disabilities, the role of the health care provider in prevention and
treatment, research methods and understanding core public health concepts. The senior year focuses on patient provider communication, effective
leadership and critical-thinking skills important to clinical problem solving and the bioethical and legal issues impacting health care.

Regardless of specialization selected, students complement core courses with electives to round out their academic skills and interests.

Upon successful completion of the health science program, students receive the Bachelor of Health Science degree. While the majority of students
pursue graduate or professional training in a health field (e.g. occupational therapy, physical therapy, medicine, physician assistant, health
administration, dentistry, public health), some students seek employment in hospital or related community organizations after completing the B.H.S.

**Course Sequence**

While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates
their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

All course specializations in the health science program require a minimum 3.0 overall and prerequisite GPA for admission at the junior level.

Each specialization incorporates general education math and writing requirements and health science prerequisites. All specializations accept AP,
IB, or AICE credit for any prerequisite course. Students must earn a minimum of C in any BHS prerequisite course that is not satisfied by AP/IB/AICE
credit. NOTE: While students can use AP/IB/AICE credit to satisfy BHS prerequisites, students should be aware that graduate/professional programs
may not accept AP/IB/AICE credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need
assistance or have questions about a specific course schedule.

**Pre-Occupational Therapy**

Occupational therapy is a graduate-level program. The preprofessional OT track within the health science program gives students the opportunity
to learn core health science content while simultaneously completing 3000/4000-level prerequisite coursework required for the graduate-level
occupational therapy program at UF.

To be admitted to the pre-OT track, students must have completed all 2000-level prerequisites required for the master’s program in occupational
therapy and have a minimum 3.0 GPA. Students who make satisfactory academic progress in their health science and pre-OT coursework receive the
Bachelor of Health Science and, while admission to the OT program is not guaranteed, students in the pre-OT track have priority for admission to the
graduate-level OT program.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements
below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?
cip=510000&track=01) may be used for transfer students.

**Semester 1**

- Complete BSC 2005 and BSC 2005L with minimum grades of C
- Complete ENC 1101 or ENC 1102 with a minimum grade of C
- Complete sociology or anthropology with a minimum grade of C
- Complete 9 credits of general education courses, including ENC 1101 or higher, with minimum grades of C
  - 2.3 cumulative GPA on work from all institutions

**Semester 2**

- Complete ENC 1102 with a minimum grade of C
- Complete HSC 2000 with a minimum grade of C (recommended)
- Complete PSY 2012 and HSC 3537 with minimum grades of C
- Complete 9 additional credits of general education courses for a total of 18
- Complete 28 cumulative credits
  - 2.7 cumulative GPA on work from all institutions

**Semester 3**

- Complete 3 additional critical-tracking courses: APK 2100C or APK 2105C, CLP 3144 and STA 2023 with minimum grades of C
- Complete 9 additional credits of general education courses for a total of 27
- Complete ENC 3453 or a substitution approved by a PHHP advisor
• Complete 42 cumulative credits
• 3.0 GPA required for all critical-tracking courses, based on all attempts
• 3.0 cumulative GPA on work from all institutions

Semester 4
• Complete all laboratories
• Complete all general education courses, including Quest 1 and all state core courses
• Complete the university writing requirement
• Complete 60 cumulative credits
• Complete all critical-tracking courses with no grade below C and with a 3.7 critical-tracking GPA
• 3.0 cumulative GPA on work from all institutions

Semester 5
• Complete PHC 4101
• Complete HSC 3502
• Complete HSA 3111

Semester 6
• Complete OTH 3416
• Complete HSC 4558
• Complete HSC 3057
• Complete a minimum of 3 total credits of college approved electives

Semester 7
• Complete HSC 4184
• Complete HSC 3661
• Complete RCS 4415L

Semester 8
• Complete HSC 4608L
• Complete HSC 4652L
• Complete a minimum of 9 total credits of college approved electives
• Completion of all coursework with a minimum of 2.0 overall GPA

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

</tbody>
</table>

1 Minimum grade of C required.

Students can complete missing coursework in the summer, but all first-year tracking criteria must be completed by the end of the summer term.
For semesters 5-8, students must enroll in all semesters and take all core courses in the term/order indicated, with the exception of Introduction to Statistics, which must be completed by the end of spring term of the junior year.

**Academic Learning Compact**

The Bachelor of Health Science prepares students for a career in health care systems or organizations that provide health or general human services to individuals/communities with health concerns. Students will learn the foundational interprofessional skills necessary to succeed in the dynamic healthcare environment and/or enter postbaccalaureate academic programs such as medicine, physical therapy and public health.

**Before Graduating Students Must**

- Receive a satisfactory grade (S) in the BHS capstone portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Describe key elements of the U.S. healthcare system.
2. Comprehensively describe major chronic illnesses and disabilities.
3. Describe the core functions of public health.
4. Apply knowledge and application of core bioethical principles to contemporary health issues.
5. Develop appropriate professional behaviors for health careers.

**Critical Thinking**

6. Develop and apply critical analysis skills to contemporary health issues.

**Communication**

7. Apply effective basic communication skills for health professionals.

**Curriculum Map**

**Assessment Types**

- Assignment
- The Bachelor of Health Science (BHS) capstone exam in the final semester
- The degree candidate’s exit survey

**Pre-Physical Therapy**

The Health Science program leading to the Bachelor of Health Science (BHS) degree includes didactic and experiential activities for students to learn the foundation skills necessary for success in the dynamic health environment.
About this Program

- **College**: Public Health and Health Professions (p. 1587)
- **Degree**: Bachelor of Health Science
- **Specializations**: General Health Science (p. 1604) | Occupational Therapy Accelerated (p. 1609) | Pre-Occupational Therapy (p. 1615) | Pre-Physical Therapy (p. 1619) | Pre-Professional (p. 1625)
- **Credits for Degree**: 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Bachelor of Health Science (BHS) program is a limited access program designed for students whose career goal is to work in the health professions providing service to individuals and communities. BHS students are typically pursuing health related professions such as medicine, physician assistant, physical therapy, occupational therapy, audiology, speech-language pathology, dentistry, epidemiology, or public health.

Curriculum

- Health Science
- Health Science Minor

Related Programs

- Public Health

The program has two major goals: to teach foundational skills to students whose career goal is to work in health care, particularly for those who want to become health care providers, and to teach foundational skills to students who want to work with individuals, groups or communities who face social, economic or health challenges. In addition, interested students have the opportunity to explore a combination-degree program in public health.

The college offers five specializations in the freshman and sophomore years:

General Health Science

For students who want to work in a health care field not mentioned in the other specializations below. The number of electives allowed in this specialization affords the student the opportunity to incorporate a range of prerequisites for different career paths.

Occupational Therapy Accelerated

A combination-degree program that allows students to take first-year Doctor of Occupational Therapy (OTD) Program courses during their junior and senior years in the health science program.

Pre-Physical Therapy

Offers a suggested prerequisite course sequence for students interested in pursuing entry-level physical therapy education at the graduate/professional level.

Pre-Occupational Therapy

Offers the core health science curriculum plus OT prerequisites necessary for the Master of Occupational Therapy program at UF.

Pre-Professional

For students pursuing careers in fields such as medicine, physician assistant and dentistry, all of which require significant basic science prerequisites. This specialization is set up to integrate commonly required pre-professional courses with requirements for the health science major.

The general health science, pre-professional and pre-physical therapy specializations collapse into one track beginning in the junior year and follow the same core curriculum, focusing on the health care system, different diseases and disabilities, the role of the health care provider in prevention and treatment, research methods and understanding core public health concepts. The senior year focuses on patient provider communication, effective leadership and critical-thinking skills important to clinical problem solving and the bioethical and legal issues impacting health care.

Regardless of specialization selected, students complement core courses with electives to round out their academic skills and interests.
Upon successful completion of the health science program, students receive the Bachelor of Health Science degree. While the majority of students pursue graduate or professional training in a health field (e.g. occupational therapy, physical therapy, medicine, physician assistant, health administration, dentistry, public health), some students seek employment in hospital or related community organizations after completing the B.H.S.

**Course Sequence**

While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

All course specializations in the health science program require a minimum 3.0 overall and prerequisite GPA for admission at the junior level.

Each specialization incorporates general education math and writing requirements and health science prerequisites. All specializations accept AP, IB, or AICE credit for any prerequisite course. Students must earn a minimum of C in any BHS prerequisite course that is not satisfied by AP/IB/AICE credit. NOTE: While students can use AP/IB/AICE credit to satisfy BHS prerequisites, students should be aware that graduate/professional programs may not accept AP/IB/AICE credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

**Pre-Physical Therapy**

Physical therapy is a doctoral-level program. Listed below is the suggested undergraduate prerequisite course sequence. For a description of the program and additional information, please refer to the Department of Physical Therapy.

**Course Sequence**

The following course sequence permits completion of general education requirements and UF health science and physical therapy prerequisites.

To be admitted to the pre-PT track, students must meet the health science critical-tracking criteria each semester, beginning with the first fall or spring term.

To be considered for admission at the junior level, students must:

- Remain on track each fall and spring term, for a total of four semesters.
- Complete the following prerequisites or equivalents by the end of the fourth semester:

<table>

</table>

The online application to the BHS program goes live as a link on the BHS website (http://bhs.phhp.ufl.edu/) in November. Apply formally to the college by the February 1 deadline. Transfer students must apply separately to UF and to the college so they must submit two different applications.

Off-track UF freshmen and sophomores must speak with a college advisor before registering for the next semester and prior to applying for junior-year admission consideration.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=510000&track=01) may be used for transfer students.

**Semester 1**

- Complete ENC 1101 or ENC 1102
- Complete MAC 1140 or MAC 1147 with a minimum grade of C
- Complete PSY 2012 with a minimum grade of C
- Complete 9 credits of general education courses, including ENC 1101 or higher, with minimum grades of C
- 2.3 GPA on work from all institutions
Semester 2
• Complete ENC 1102 with a minimum grade of C
• Complete BSC 2010 with a minimum grade of C
• Complete STA 2023 or DEP 3053 with a minimum grade of C
• Complete 9 additional credits of general education courses for a total of 18
• 2.7 GPA on work from all institutions

Semester 3
• Complete APK 2105C, BSC 2010, DEP 3053, STA 2023 with minimum grades of C
• Complete 9 additional credits of general education courses for a total of 27
• 3.0 GPA required for all critical-tracking courses, based on all attempts
• 3.0 cumulative GPA on work from all institutions

Semester 4
• Complete HSC 2000 with a minimum grade of C (recommended)
• Complete all general education courses, including IDS 1161 and all state core courses
• Complete the university writing requirement, which must include ENC 3453 or a substitution approved by a PHHP advisor
• Complete 60 cumulative credits
• Complete all critical-tracking courses with no grades below C and with a 3.0 critical-tracking GPA
• 3.0 cumulative GPA on work from all institutions

Semester 5
• Complete HSA 3111 with a minimum grade of C
• Complete HSC 3502 with a minimum grade of C
• Complete PHC 4101 with a minimum grade of C

Semester 6
• Complete HSC 3057 with a minimum grade of C
• Complete HSC 4558 with a minimum grade of C
• Complete OTH 3416 with a minimum grade of C
• Complete 3 credits of College Approved Electives

Semester 7
• Complete HSC 3661 with a minimum grade of C
• Complete RCS 4415L with a minimum grade of C
• Complete HSC 4184 with a minimum grade of C

Semester 8
• Complete HSC 4608L with a minimum grade of C
• Complete HSC 4652L with a minimum grade of C
• Complete HSC 4008 with a Satisfactory grade
• Complete 9 credits of College Approved Electives

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

College Approved Electives (Critical Tracking) 1 6
Elective (3000/4000 level) 1 15

Total Credits 120

1 Minimum grade of C required.

For semesters 5-8, students must enroll in all semesters and take all core courses in the term/order indicated.

Academic Learning Compact
The Bachelor of Health Science prepares students for a career in health care systems or organizations that provide health or general human services to individuals/communities with health concerns. Students will learn the foundational interprofessional skills necessary to succeed in the dynamic healthcare environment and/or enter postbaccalaureate academic programs such as medicine, physical therapy and public health.

Before Graduating Students Must
• Receive a satisfactory grade (S) in the BHS capstone portfolio.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)
Content
1. Describe key elements of the U.S. healthcare system.
2. Comprehensively describe major chronic illnesses and disabilities.
3. Describe the core functions of public health.
4. Apply knowledge and application of core bioethical principles to contemporary health issues.
5. Develop appropriate professional behaviors for health careers.

Critical Thinking
6. Develop and apply critical analysis skills to contemporary health issues.

Communication
7. Apply effective basic communication skills for health professionals.

Assessment Types
• Assignment
• The Bachelor of Health Science (BHS) capstone exam in the final semester
• The degree candidate’s exit survey
Pre-Professional

The Health Science program leading to the Bachelor of Health Science (BHS) degree includes didactic and experiential activities for students to learn the foundation skills necessary for success in the dynamic health environment.

About this Program

- **College:** Public Health and Health Professions (p. 1587)
- **Degree:** Bachelor of Health Science
- **Specializations:** General Health Science (p. 1604) | Occupational Therapy Accelerated (p. 1609) | Pre-Occupational Therapy (p. 1615) | Pre-Physical Therapy (p. 1619) | Pre-Professional (p. 1625)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Bachelor of Health Science (BHS) program is a limited access program designed for students whose career goal is to work in the health professions providing service to individuals and communities. BHS students are typically pursuing health related professions such as medicine, physician assistant, physical therapy, occupational therapy, audiology, speech-language pathology, dentistry, epidemiology, or public health.

Curriculum

- Health Science
- Health Science Minor

Related Programs

- Public Health

The program has two major goals: to teach foundational skills to students whose career goal is to work in health care, particularly for those who want to become health care providers, and to teach foundational skills to students who want to work with individuals, groups or communities who face social, economic or health challenges. In addition, interested students have the opportunity to explore a combination-degree program in public health.

The college offers five specializations in the freshman and sophomore years:

General Health Science

For students who want to work in a health care field not mentioned in the other specializations below. The number of electives allowed in this specialization affords the student the opportunity to incorporate a range of prerequisites for different career paths.

Occupational Therapy Accelerated

A combination-degree program that allows students to take first-year Doctor of Occupational Therapy (OTD) Program courses during their junior and senior years in the health science program.

Pre-Physical Therapy

Offers a suggested prerequisite course sequence for students interested in pursuing entry-level physical therapy education at the graduate/professional level.

Pre-Occupational Therapy

Offers the core health science curriculum plus OT prerequisites necessary for the Master of Occupational Therapy program at UF.

Pre-Professional

For students pursuing careers in fields such as medicine, physician assistant and dentistry, all of which require significant basic science prerequisites. This specialization is set up to integrate commonly required pre-professional courses with requirements for the health science major.
The general health science, pre-professional and pre-physical therapy specializations collapse into one track beginning in the junior year and follow the same core curriculum, focusing on the health care system, different diseases and disabilities, the role of the health care provider in prevention and treatment, research methods and understanding core public health concepts. The senior year focuses on patient provider communication, effective leadership and critical-thinking skills important to clinical problem solving and the bioethical and legal issues impacting health care.

Regardless of specialization selected, students complement core courses with electives to round out their academic skills and interests.

Upon successful completion of the health science program, students receive the Bachelor of Health Science degree. While the majority of students pursue graduate or professional training in a health field (e.g. occupational therapy, physical therapy, medicine, physician assistant, health administration, dentistry, public health), some students seek employment in hospital or related community organizations after completing the B.H.S.

**Course Sequence**

While all specializations are designed for students interested in health care, students should select the specialization that most closely approximates their career plans and overall academic performance. Included in specific tracks are typical prerequisites for UF graduate and professional programs.

All course specializations in the health science program require a minimum 3.0 overall and prerequisite GPA for admission at the junior level.

Each specialization incorporates general education math and writing requirements and health science prerequisites. All specializations accept AP, IB, or AICE credit for any prerequisite course. Students must earn a minimum of C in any BHS prerequisite course that is not satisfied by AP/IB/AICE credit. NOTE: While students can use AP/IB/AICE credit to satisfy BHS prerequisites, students should be aware that graduate/professional programs may not accept AP/IB/AICE credits in lieu of letter grades for their respective prerequisites. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

**Preprofessional**

Students interested in health careers requiring strong basic science backgrounds, such as medicine and physician assistant programs, should enroll in the pre-professional specialization.

To be on track for the junior year, students must meet the critical-tracking criteria listed below, beginning with the first fall or spring term.

To be considered for admission at the junior level, students must:

- Remain on track each fall and spring term, for a total of four semesters.
- Complete the following prerequisites or equivalents by the end of the fourth semester:

<table>

The online application to the BHS program goes live as a link on the BHS website (http://bhs.phhp.ufl.edu/) in November. Apply formally to the college by the February 1 deadline. Transfer students must apply separately to UF and to the college so they must submit two different applications.

Off-track UF freshmen and sophomores must speak with a college advisor before registering for the next semester and prior to applying for junior-year admission consideration.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=510000&track=01) may be used for transfer students.

**Semester 1**

- Complete PSY 2012, and ENC 1101 or ENC 1102 with minimum grades of C
- Complete 9 credits of general education courses, including ENC 1101 or ENC 1102, with minimum grades of C
- 2.3 cumulative GPA on work from all institutions
Semester 2
- Complete ENC 1101 or ENC 1102 with a minimum grade of C
- Complete 9 additional credits of general education courses for a total of 18
- 2.7 cumulative GPA on work from all institutions

Semester 3
- Complete BSC 2010 with a minimum grade of C
- Complete 9 additional credits of general education courses for a total of 27
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

Semester 4
- Complete DEP 3053 or CLP 3144 with a minimum grade of C
- Complete APK 2105C with a minimum grade of C
- Complete all general education courses, including IDS 1161 and all state core courses
- Complete the university writing requirement, which must include ENC 3453 or a substitution approved by a PHHP advisor
- Complete 60 cumulative credits
- Complete all critical-tracking courses with no grades below C and with a 3.0 critical-tracking GPA
- 3.0 cumulative GPA on work from all institutions

Semester 5
- Complete HSA 3111 with a minimum grade of C
- Complete HSC 3502 with a minimum grade of C
- Complete PHC 4101 with a minimum grade of C

Semester 6
- Complete HSC 3057 with a minimum grade of C
- Complete HSC 4558 with a minimum grade of C
- Complete OTH 3416 with a minimum grade of C
- Complete 3 credits of College Approved Electives

Semester 7
- Complete HSC 3661 with a minimum grade of C
- Complete RCS 4415L with a minimum grade of C
- Complete HSC 4184 with a minimum grade of C

Semester 8
- Complete HSC 4608L with a minimum grade of C
- Complete HSC 4652L with a minimum grade of C
- Complete HSC 4008 with a Satisfactory grade
- Complete 9 credits of College Approved Electives

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Curriculum

- Health Science
- Health Science Minor

Related Programs

- Public Health

The minor is open to all juniors and seniors with majors outside the College of Public Health and Health Professions who meet the prerequisites. It is also open to communication sciences and disorders students.

Prerequisites include junior standing (60+ credits), a 3.0 overall GPA and a 3.0 prerequisite GPA based on general college biology, general psychology, abnormal/developmental/physiological psychology, physiology and statistics (STA 2023). Students can transfer up to three credits of approved coursework.

Interested students should obtain an application and a list of current coursework.

Required Courses

Complete the first three courses before taking electives.

- Health Science
- Health Science Minor

A primary goal of the public health bachelor’s degree program is to prepare students for advanced (master’s) training in the health professions and in public health specifically, considered the entry level degree for the field. Students interested in a specific area of public health have the opportunity to organize some of their electives around a cohesive public health topic. In addition, interested students have the opportunity to explore a combination-degree program in public health.

Upon successful completion of the public health program, students receive the Bachelor of Public Health degree. While the majority of students pursue graduate or professional training in public health or a related field, some students seek employment in not-for-profit and for-profit agencies, or related community health organizations after completing the B.P.H.
Course Sequence

The public health program is designed primarily for students who want to pursue advanced degree work in public health or a related field. It is also appropriate for those who want to acquire foundational public health knowledge before continuing to graduate or professional school or who will work in a health-care setting after graduation. In order to be on track for pre-public health at the junior level, students must meet the critical-tracking criteria listed below, beginning with their first fall or spring term.

To be considered for admission at the junior level, students must:

- Complete these prerequisites:
  
<table>

</tbody>
</table>

- 3.0 overall GPA and 3.0 prerequisite GPA
- AA degree or 60 transferable college level credits
- Completion of all general education and university writing requirements
- Apply formally to the college by February 1. The college application packet (https://bph.phhp.ufl.edu/resources-for-prospective-students/application/) is available online. Transfer students must apply separately to UF and to the college so they must submit two different applications.

Off-track UF freshmen and sophomores must speak with a college advisor before registering for the next semester and prior to applying for junior-year admission consideration.

The program accepts AP or IB credit for one prerequisite course. All other prerequisite courses must be completed with minimum grades of C at the university level. Students should consult a college advisor if they need assistance or have questions about a specific course schedule.

Students must apply by February 1 for Summer B and fall admission. All prerequisites must be completed by the end of Summer.

Critical Tracking

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=510000&track=01) may be used for transfer students.

Semester 1

- Complete ENC 1101 or ENC 1102 with a minimum grade of C
- Complete 9 credits of general education courses, including ENC 1101 or higher, with minimum grades of C
- 2.3 cumulative GPA on work from all institutions

Semester 2

- Complete STA 2023 with a minimum grade of C
- Complete PSY 2012 with a minimum grade of C
- Complete 9 additional credits of general education courses for a total of 18, and including the university writing requirement
- 2.7 cumulative GPA on work from all institutions

Semester 3

- Complete BSC 2005 or BSC 2010 with minimum grade of C
- Complete Social and Behavioral Sciences (GE-S) with a minimum grade of C
- Complete 9 additional credits of general education courses for a total of 27
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions
**Semester 4**
- Complete all general education courses, including IDS 1161 GE-B/P, GE-S, and all state core courses
- Complete the university writing requirement, which must include ENC 3453 or a substitution approved by a PHHP advisor
- Complete Physical or Biological Science (GE-P or B) with a minimum grade of C
- Complete 60 cumulative credits
- 3.0 critical tracking GPA and minimum grades of C on all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

**SEMESTER 5**
- Complete PHC 4101 with a minimum grade of C
- Complete PHC 4094 with a minimum grade of C
- Complete PHC 3603 with a minimum grade of C
- Complete HSC 3502 with a minimum grade of C
- Complete HSA 3111 with a minimum grade of C
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

**SEMESTER 6**
- Complete HSC 4558 with a minimum grade of C
- Complete HSC 3057 with a minimum grade of C
- Complete PHC 3440 with a minimum grade of C
- Complete 1 Approved college elective with a minimum grade of C
- Complete 1 Specialty elective (3000/4000) with a minimum grade of C
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

**SEMESTER 7**
- Complete PHC 4024 with a minimum grade of C
- Complete PHC 4320 with a minimum grade of C
- Complete 2 Approved college electives with a minimum grade of C
- Complete 1 Specialty elective (3000/4000) with a minimum grade of C
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

**SEMESTER 8**
- Complete PHC 4943 with a minimum grade of C
- Complete PHC 4117 with a minimum grade of C
- Complete 1 Specialty elective (3000/4000) with a minimum grade of C
- Complete General electives (3000/4000) with a minimum grade of C
- Complete a minimum of 6 college approved electives
- Complete 60 upper division credits
- 3.0 GPA required for all critical-tracking courses, based on all attempts
- 3.0 cumulative GPA on work from all institutions

---

**Model Semester Plan**
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

### Total Credits

1 Minimum grade of C required.
For semesters 5-8, students must enroll in all semesters and take all core courses in the term and order indicated.

**Academic Learning Compact**

Students graduating with a Bachelor of Public Health will be prepared for careers in health care systems or organizations addressing the health or more general human service needs of communities and populations. They will learn the foundational skills necessary to enter post baccalaureate academic programs in public health or complementary fields and success in the dynamic public health workforce.

**Before Graduating Students Must**

- Earn minimum grades of C in all public health core courses.
- Pass a BPH capstone exam and service learning experience.
- Complete requirements for the post baccalaureate degree, as determined by the faculty and the university.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Explain the five major areas of public health (biostatistics, environmental health services, epidemiology, health services administration, and social behavioral science), and each area's contribution to public health.

2. Identify, describe, and explain the ways that social determinants of health impact disability, disease and illness in populations.

**Critical Thinking**

3. Identify, critically evaluate, and propose solutions to public health challenges.

**Communication**

4. Communicate in oral and written forms public health concepts and their relationship to policy, communities, organizations, interpersonal dynamics and individual perspectives.

**Curriculum Map**

*I = Introduced; R = Reinforced; A = Assessed*

**Assessment Types**

- Assignment
- The Bachelor of Health Science capstone exam
- The degree candidate's exit survey

**Public Health Minor**

The Public Health minor enables preprofessional students to acquire public health knowledge that complements their career paths. The minor is designed for students going into careers other than public health who can benefit from public health knowledge in the delivery of their services. A
few examples of these careers include anthropology, dentistry, environmental engineering, health education, medicine, nursing, nutritional sciences, occupational therapy, physician assistant, and psychology.

**About this Program**

**Curriculum**

- Public Health
- Public Health Minor

**Related Programs**

- Health Science
- Health Science Minor

*Students interested in public health careers should consider a combination-degree program rather than this minor.*

For students in the College of Public Health and Health Professions, successful completion of this minor satisfies the 9-credit college elective requirement and six credits of general elective credit. Therefore, no additional credits beyond 120 are required for graduation with a minor in public health.

Students must have completed the prerequisites for the BPH program with minimum grades of C to be considered for a minor. Prerequisites include:

- Junior status (60+ credits)
- 3.0 overall GPA
- 3.0 prerequisite GPA
- Completion of the following:

<table>

</tr>
</tbody>
</table>

Health Psychology

Students may transfer up to three credits of approved coursework toward the minor. All remaining credits must be taken from the course list below.

Interested students should submit the required UF application to add or cancel a minor. Students also must submit a proposed *plan of study that includes courses for the minor.*

More Info (http://bhs.phhp.ufl.edu/forms-2/)

Application materials should be submitted to the Bachelor of Public Health office in the College of Public Health and Health Professions, HPNP 4150. Minors are considered on a space-available basis. Students within the Bachelors of Health Science program are only able to apply one of their core curriculum courses towards the public health minor.

The communication sciences and disorders program and health science program also offers minors.

### Counting Credits for Undergraduate or Graduate Degrees

Undergraduates who are interested in public health as a career path, but do not want to pursue the Bachelors of Public Health, should consider the Bachelors/MPH Combination Degree. This would allow courses taken in a student's senior year to count toward an MPH degree. More Info (http://mph.ufl.edu/)

### Academic Advising

#### Mission

The university is committed to quality academic advising for all students. The academic advising mission is to assist students in attaining their educational goals. New students are required to attend, and will receive advising during Preview, UF's new student orientation. After Preview, student advising is handled by college and departmental advisors.

#### University Responsibilities

The Academic Advising Center in Farrior Hall is responsible for certain university advising functions: coordinating academic advising during Preview, advising exploratory students, and providing resources and information to students interested in post-baccalaureate professional programs such as dentistry, law, medicine, and veterinary medicine. Map (http://campusmap.ufl.edu/?loc=0019) More Info (http://www.advising.ufl.edu/)

#### College/School and Department Responsibilities

The dean of each college or school ultimately is responsible for ensuring that academic advising is available and accessible to all students within the college or school. Some colleges' advisors are located in college-level offices, while others are located in departmental offices.

Academic Advising Contacts at UF (http://www.ufadvising.ufl.edu/)

#### Student Academic Responsibilities

To graduate, students are responsible for knowing and fulfilling all university, college, and major requirements.

All students must:

- Complete the Preview orientation program to receive academic advising before their first term of enrollment
- Maintain a GatorLink email address and read official university correspondence sent to this address
- Meet with an advisor in the appropriate college/major upon entrance to a major
- Confer with an advisor on a regular basis about options for a major if the student is undecided about a major
- Review the degree audit each semester to ensure they fully understand their remaining degree requirements
- Seek advising when experiencing academic difficulty to avoid, if possible, academic probation or off-track status, or to understand their options if on probation or off-track
- Maintain their own personal academic records, including transcripts, degree audits, evaluation of transfer work, and notes from previous advising sessions.

Students who at any time are confused about academic requirements or their progress toward a degree are encouraged and expected to meet with an advisor.

Academic Progress

Universal Tracking

Universal Tracking is the university’s monitoring system that assesses progress toward the student’s degree requirements. It provides feedback on the student’s progress in a major, helping them find the best academic path to complete their degree. For each major, there is a model semester plan which represents an example progression for completing the degree in a timely fashion.

Each semester, students are reminded via GatorLink email and Registration Prep in ONE.UF to review their degree audit before registration for the next term. The audit fits the student’s courses and grades into the degree requirements for their major, indicating the requirements that have been completed as well as showing which requirements have yet to be completed.

Students Who Enroll During the Fall and Spring Semesters

Progress toward a degree is monitored in those semesters to ensure that students are on track. For these students, the summer terms may provide opportunities to catch up on critical-tracking courses or to improve their GPA.

Students Who Enroll Only in the Spring and Summer Semesters

Innovation Academy Students

Progress toward a degree is monitored in those semesters to ensure that students are on track. For these students, the fall semester may provide opportunities to catch up on critical-tracking courses or to improve their GPA.

Critical-Tracking Criteria

Critical-tracking criteria usually include a minimum GPA (UF or overall, depending on the academic program), completion of certain courses toward the major (critical-tracking or preprofessional courses), and a minimum GPA in the critical-tracking courses (tracking or preprofessional GPA). The critical-tracking criteria are listed on the Critical Tracking tab for each major. For many majors, critical-tracking courses are bolded in the semester plan.
Minimum Academic Progress Under Universal Tracking During Semesters 1-5

- Students do not have to complete all of the courses in the model plan each semester to remain on track; they simply have to meet certain minimum requirements known as critical-tracking criteria.
- In the degree audit, a summary of critical-tracking criteria for the first five semester as well as an area that tracks your progress through all eight semesters appears near the top of the audit.
- The critical-tracking criteria are minimum requirements for progression; students should consult their degree audit and their advisor to ensure they meet all requirements for graduation.
- All students admitted as freshmen are monitored in their first semester for the Semester 1 critical-tracking criteria, regardless of the number of credits they have earned through dual enrollment and credit by examination.
- During the first five critical tracking semesters, an off-track student will have a hold placed on their registration to require a meeting with an advisor to discuss the student's progress. This enables the student to determine what is necessary to get back on track, or to change to a more appropriate major.
- If a student is off-track for two consecutive terms in the first five critical tracking semesters, they must change to a major more appropriate to their skills, goals, and performance. Once the student selects a new major, they should contact the college offering that major to schedule an appointment with an advisor to discuss changing majors.

Off-Track Notification During Semesters 1-5

Student progress toward tracking is assessed twice a semester. An analysis of whether the student will be on track at the end of the term ('predictive' analysis) occurs in the fourth week. If a student is predicted to be off-track at the end of the term, a hold may be placed on their registration requiring the student meet with an advisor to make a plan to get back on track or change majors.

If a student is predicted to be on-track during the term, but ends up off-track at the end of term, they should meet with an advisor in their college/major before the end of drop/add for the next term to make a plan to get on track or change majors.

Students should review any holds on ONE.UF (http://one.uf.edu/) when planning their registration for the next semester.

How Tracking Holds affect a Student

- Holds applied before advance registration prevent students from registering until they consult an advisor to develop an academic plan to complete the critical-tracking courses for the current major or identify a more appropriate major.
- Holds applied at the end of the semester for failure to be on track for two consecutive semesters require students to see an advisor before the next term of enrollment to select a new major and to avoid cancellation of enrollment.

Minimum Academic Progress Under Universal Tracking During Semesters 6-8

- The critical-tracking criteria are minimum requirements for progression; students should consult their degree audit and their advisor to ensure they meet all requirements for graduation.
- During the critical tracking semesters six through eight, an off-track student may have a hold placed on their record requiring them to formulate a plan for getting on track and preparing for graduation in a timely manner.
- If a student is off-track for two consecutive terms in during critical tracking semesters six through eight, they will be required to revise their graduation plan and undergo more intensive academic counseling to ensure they meet all academic requirements for timely graduation.

Off-Track Notification During Semesters 6-8

Student progress toward tracking is assessed twice a semester. An analysis of whether the student will be on track at the end of the term ('predictive' analysis) occurs in the fourth week. If a student is predicted to be off-track at the end of the term, a hold may be placed on their registration requiring the student meet with an advisor to make a plan to get back on track.

Academic Probation and Dismissal

Academic probation and dismissal follow the academic standards of the university and require the maintenance of grade point averages and reasonable adherence to the program of study.

A minimum grade point average of 2.0 is required to graduate from any UF undergraduate degree program. Any college may specify additional academic standards and students are responsible for observing these regulations.

Additional Information

- Probation (p. 1683)
- Dismissal (p. 1683)
- Changing Majors (p. 68)

Academic Support Programs

Academic Support, Office of | 311 Little Hall

The Office of Academic Support (OAS) for Undergraduate Affairs, in collaboration with faculty and staff, provides programs and services to enrich the experience of UF students. Our mission is to offer supportive resources and opportunities that help students thrive and grow professionally. OAS is committed to creating an encouraging and inclusive learning community that challenges our students to achieve academic excellence. Our comprehensive academic support includes peer coaching, tutoring, general advising, and other resources to promote the empowerment and growth of students as scholars. Our students are prepared to set and achieve academic goals, persist, graduate, and advance in their careers.

Map (http://campusmap.ufl.edu/?loc=0655) More Info (http://oas.aa.ufl.edu/)

Career Connections Center | Level Two Reitz Union

The Career Connections Center (Career Center) provides events and services to help students develop and implement their Career Action Plan to realize their next steps. Students can work with Career Center staff to
clarify their interests and abilities, select a major, develop professionally, build experience, and prepare for future internship, graduate school, or employment searches.

Students should activate their Gator CareerLink account to learn about the range of in-person and online career planning services available to them, and to see which employers are actively recruiting University of Florida candidates.

The Career Connections Center hosts hundreds of employers annually as they attend a variety of career events, hold on-campus interviews, present information sessions, and interact informally with students.

Map (http://campusmap.ufl.edu/?loc=0686) More Info (http://www.dso.ufl.edu/care/)

Center for Undergraduate Research | 202 Newell Hall
The Center for Undergraduate Research (CUR) is committed to fostering a culture of research that encourages students in all levels and disciplines to include a research component as a critical part of their undergraduate experience. CUR provides guidance to students interested in pursuing research opportunities and coordinates campus undergraduate research activities. CUR also works to expand undergraduate research opportunities across campus.

Map (http://campusmap.ufl.edu/?loc=0013) More Info (http://cur.aa.ufl.edu/)

Collegiate Veterans Success Center | 4th Floor Yon Hall
The Collegiate Veterans Success Center serves over 2,000 student Veterans, Active Duty Service members, and military families at UF by providing a designated location on campus for student Veterans to study, meet with on and off campus resources, and to spend time with and support each other in a fun and relaxing space. The Collegiate Veterans Success Center at UF is also one of ninety-four universities to host the U.S. Department of Veterans Affairs’ VetSuccess on Campus Counselor (VSOC). The VSOC Program serves as the on-campus face for the U.S. Department of Veterans Affairs. UF has been honored for its support services for student Veterans, Active Duty Service members, and military families.

- UF is ranked 1st out of 63 colleges and universities in Florida for Veteran friendliness (by College Factual);
- UF is ranked 4th out of 1,751 colleges and universities for Veteran friendliness (by College Factual);
- UF is ranked in the Top Ten of Tier One research institutions with outstanding programs and support for our nation’s Veterans and their Families (Military Friendly 2019); and
- UF was awarded a Best For Vets college award for excellent academic support of military students (Military Times 2019).

Map (http://campusmap.ufl.edu/?loc=0158) More Info (https://www.dso.ufl.edu/veteran/)

Dean of Students Office Care Area | 202 Peabody Hall
Professionals in the Dean of Students Office work with students, their families, and campus and community resources to develop success plans and provide ongoing support for students in distress dealing with a variety of issues.

Map (http://campusmap.ufl.edu/?loc=0004) More Info (https://www.dso.ufl.edu/care/)

Disability Resource Center | Reid Hall and Cypress Hall
The Disability Resource Center (DRC) in the Division of Student Affairs, celebrates disability identity as a valued aspect of diversity. We champion a universally accessible community that supports the holistic advancement of individuals with disabilities.

The DRC serves more than 3,000 registered students to provide access within the academic environment. This may be done through academic accommodations as well as collaborating with faculty and staff across the University to proactively address barriers. Students are able to register online by visiting our website (https://disability.ufl.edu/). DRC staff are available to consult with faculty and staff on how to best support the access needs of gators with disabilities. Students and their families can schedule an inquiry appointment to learn more about the DRC by emailing drcaccessuf@ufs.a.ufl.edu or calling 352.392.8565.

Map (http://campusmap.ufl.edu/?loc=0020) More Info (https://www.dso.ufl.edu/drc/)

Graduate Diversity Initiatives, Office of | 123 Grinter Hall
The Office of Graduate Diversity Initiatives (OGDI) is a function of the Graduate School dedicated to the recruitment and retention of underrepresented graduate students. This includes increasing the number of UF graduate students from underrepresented ethnic/racial populations, low-income or first-generation college students, as well as advancing and promoting professional development for all graduate students at the University of Florida. OGDI strives to provide currently enrolled graduate students with programs and services to assist and support the pursuit of a successful graduate education. OGDI provides students with social, informational, referral, mentoring, and, in some cases, financial support. Additionally, OGDI maintains partnerships with administrative offices, academic units, research centers, student services, and organizations across campus to help students with the graduate experience. OGDI accomplishes its mission through several programs held throughout the academic year.

Undergraduates Interested in Graduate School
OGDI aims to improve our UF undergraduates’ access to information about graduate school opportunities and to assist graduate schools in identifying qualified underrepresented candidates interested in graduate studies. In this effort, OGDI maintains The University of Florida’s membership to the National Name Exchange Consortium (https://apps.grad.uw.edu/nne/). This consortium matches undergraduate underrepresented students interested in graduate studies to graduate schools across the nation. The name exchange seeks to increase the number of qualified minority students accepted into graduate school. OGDI also participates in several recruitment events throughout the state and beyond.

Office of Graduate Diversity Initiatives
123 Grinter Hall
Gainesville, FL 32611
352.392.6444
The Teaching Center offers various academic resources to help students succeed in their studies. All of our tutoring services are free to current students. The following tutoring services are available:

- Drop-in tutoring: best for students who have a few questions or want a place to study with the opportunity to ask questions of a tutor.
- Appointment tutoring: best for students who want to meet regularly with a tutor for an entire class period. These appointments meet at the same time each week of the term.
- Study Groups / SI: group tutoring which allows students to work together with a peer leader. In SI students actively process concepts through social interaction.
- Test Reviews: large auditorium tutoring is great for an overall review of what to expect on upcoming course exams. GRE preparation workshops are also available each semester.
- Video Resources: features tutors explaining how they think about concepts and how they approach problem solving. These online resources are available any time.

A study skills/learning strategies improvement program is also available. Students may work individually with a learning strategist or participate in workshops covering a variety of topics. Study skills videos are available online as well.

The Teaching Center is a certified Prometric, Pearson Vue Select, and NCTA Testing Center, and also provides test proctoring for distance education courses and CLEP exams. There is a fee for test proctoring/administration, however. Please be aware that CLEP exams must be taken and scores reported to UF before the end of the first semester of enrollment (or Fall semester for students entering Summer B).

The Teaching Center also provides tutoring in satellite centers (mathematics through Calculus 1 in LIT 215 and chemistry in TUR 1315). Tutoring schedules may be found on the website.

The Ronald E. McNair Scholars Achievement Program encourages undergraduate students to pursue advanced studies at the Ph.D. level. This intense academic research program, one of the most prestigious in the country, is designed for first-generation and low-income college students, as well as students from groups underrepresented at the graduate level. There are 187 McNair programs nationally, which are funded by Federal TRIO Program grants from the U.S. Department of Education.

New scholars begin the program in the summer with an intensive research internship, which includes a three-credit Research Methods and Writing course, GRE preparation, and workshops on the graduate school application process and other topics related to graduate study at the doctoral level.

McNair Scholars receive mentoring, academic support, faculty-guided research experience, and a research stipend of up to $2,800, and travel funding to present at professional conferences and visit prospective graduate programs. Application information is available online.

The Marston Science Library and Library West are the largest libraries on campus. In Marston, the first floor Collaboration Commons has 21 group study rooms and a multipurpose conference room featuring a multi-touch visualization wall. The first floor is also home to MADE@UF, a collaboration space created by the Libraries and Academic Technology with equipment, software and training for virtual reality and augmented reality applications. A 3D printing lab is located on the second floor and includes 3D scanners and printers available for lending.

Library West (Humanities and Social Sciences) offers 18 group study rooms, a graduate student floor, graduate student/faculty study carrels, and the Scott Nygren Scholars Studio, an emerging community center for digital humanities and digital scholarship. The One Button Video Recording Studio is available for student and faculty checkout. Six ProctorU testing carrels are available by reservation. Library West also has a Tutoring Center, Accessibility Studio and FitDesk study bikes.

Other campus libraries include the Health Science Center Library, Education Library, Architecture & Fine Arts Library, Smathers Library (special and area studies) and the Legal Information Center.
University Minority Mentor Program

The University Minority Mentor Program is an opportunity open to first-year students from underrepresented populations. The program pairs each participant with a faculty/staff mentor to assist with the students’ transition to college. Mentoring programs have a dramatic and positive effect on student retention, graduation rates, and faculty-student relations. This six-month program cycle is administered by Multicultural and Diversity Affairs. For more information, email ummp@multicultural.ufl.edu.

More Info (https://multicultural.ufl.edu/programs/ummp/)

University Writing Program | 2215 Turlington Hall

The University Writing Program (UWP) offers writing-intensive courses, workshops, and tutorial support to students and faculty. Instruction is based on the premise that writing is a transferable skill necessary for success in all academic and professional fields.

The University Writing Program also provides one-on-one consultations on any topic related to writing in the Writing Studio. Students can make an appointment online or by contacting the UWP office.

Courses taught by writing program faculty include:

Academic Honors

Honors Program
The mission of the University of Florida Honors Program is to connect, nurture, and engage the next generation of scholars who change the world. The program does this by recruiting high achieving students from around the world; inspiring curiosity, intellectual daring and creativity; and building a lifelong community of like-minded peers, top-notch faculty and supportive staff. The Honors Program values the power of opportunity, the strength in community, and the love of a challenge.

More Info (http://www.honors.ufl.edu/)

There are two pathways to admission / participation in the Honors Program.

Freshman Honors Program
The Freshmen Honors Program (FHP) is open to high school seniors who are entering UF as incoming freshmen.

More Info (http://www.honors.ufl.edu/prospective/admissions/freshmen-honors-program-fhp/)

Members of the Freshmen Honors Program must earn at least a 3.5 cumulative UF GPA and take at least 2 credits of Honors courses (earned with a B or higher) during their first year. The first year includes Summer B, Fall, and Spring, but not the following summer. Students who enter the FHP starting in Summer B 2020 or later will be required to take the Honors version of their Quest 1 / Good Life requirement in addition to the 2 credits of Honors courses. Students who complete these requirements will move automatically into University Honors for the remainder of their time at UF.

University Honors Program
The University Honors Program (UHP) is open to sophomores through seniors. Members of the Freshmen Honors Program are automatically advanced to University Honors if they complete the FHP. Currently enrolled freshmen who are not members of FHP may apply to UHP at the conclusion of their first year at UF, provided they have earned at least a 3.5 cumulative UF GPA and 28 credits during that first year (not including incoming credits via accelerated mechanisms).

More Info (http://www.honors.ufl.edu/prospective/admissions/university-honors-program-uhp/)

To complete the University Honors Program, students must graduate with honors in their major and earn 8 academic and 6 enrichment points through various activities. Students who meet the UHP completion requirements will receive a notation on their official UF transcript and a medallion to wear at commencement.

More Info (http://www.honors.ufl.edu/current/completion-requirements/)

Students in the Honors Program have access to:

- Specialized honors courses (http://www.honors.ufl.edu/current/courses/)
- Housing in the Honors Residential College at Hume Hall (https://www.housing.ufl.edu/housing/hume-hall/)
- Holistic academic advising and coaching (http://www.honors.ufl.edu/current/advising/#form)
- Honors student involvement opportunities (http://www.honors.ufl.edu/about/student-orgs/)

In addition, students in the Honors Program have early course registration for their first 10 credits each semester. Early registration privileges are limited to students in good standing with either the FHP or UHP.

Honor Roll
Students will appear on the President’s Honor Roll if they achieve a perfect 4.0 GPA with at least 15 credits of graded academic course work (no S/U) in the fall or spring semester, or at least 12 credits of graded coursework in the summer semester (consisting of any combination of credits earned in Summer A, B, or C). This achievement will appear on the student’s transcript as a permanent record. Students with questions about the President’s Honor Roll should contact the Office of the University Registrar in 222 Criser Hall.

Map (http://campusmap.ufl.edu/#/index/0031) Email (help@registrar.ufl.edu)

Students registered with the Disability Resource Center may be allowed to vary the number of credits required, but not the GPA requirement, following certification by the DRC.
Dean's List

Students will appear on their college's Dean's List if they meet the requirements. In addition, please note the following conditions:

• S/U and internship courses are not counted in the GPA calculation for Dean's List.
• GPA value is determined to the hundredths place and cannot be rounded up (e.g., 3.495 = 3.49).
• Grades of I, NG, * or N* cannot be calculated into the GPA.
• Students registered with the Disability Resource Center may be allowed to vary the number of credits required, but not the GPA requirement, following certification by the DRC.
• Students are eligible to earn the Dean's List designation only once for the entire summer semester.
• In all colleges except Public Health and Health Professions, the credits in the Summer Requirements column can be earned in any combination of Summer A, B, or C courses. For Public Health and Health Professions, the six credits may be earned in either Summer A or Summer B, but not Summer C, and those students can only appear on their Dean's List once for the summer semester.

### Graduating With Honors

The university offers three levels of honors: **cum laude**, **magna cum laude** and **summa cum laude**.

Please be aware that:

- GPA value is determined to the hundredths place (e.g., 3.495 = 3.49)
- Transfer credits and S/U option credits are excluded
- Postbaccalaureate students are not eligible for honors recognition
- Honors recognition is printed on the university diploma
- Students should check with an academic advisor for complete details

Academic Terminology

- **A.A. Degree**
  Associate of Arts degree, awarded upon satisfactory completion of 60 credits (at least 36 at UF) with an overall C (2.0) average, including the general education requirement, foreign language competency, the civic literacy requirement, and the writing requirement.
  More Info (p. 1687)

- **Academic Learning Compact | ALC**
  UF’s definition for each major of the minimum communication skills, critical thinking skills and content knowledge appropriate for that major.

- **Academic Year**
  The annual cycle of academic terms: Summer B, Fall, Spring, Summer A, Summer C.
  More Info (p. 11)

- **Admission Requirements**
  The necessary minimum criteria every applicant must have to be admitted to UF. Many majors have additional requirements for admission as a junior.
  More Info (p. 25)

- **Admitted**
  Term used to describe students who have applied and have been accepted to the university in a degree-seeking status. Admission is not validated until the student registers for and attends classes.
  More Info (p. 25)

- **Audit**
  Permission to attend and to participate in a course without benefit of a grade or credit. Continuing education units (CEUs) may be awarded at the discretion of the instructor.
  More Info (p. 1699)
• **Baccalaureate**
  Bachelor's degree, the traditional undergraduate degree. B.A. is the Bachelor of Arts degree and B.S. is the Bachelor of Science degree. It is awarded upon satisfactory completion of at least 120 credits with an overall C (2.0) average.

• **Calendar, University**
  An annual publication listing all official dates and deadlines for the academic year.
  More Info (p. 11)

• **Catalog Year**
  The year during which the regulations published in a specific edition of the undergraduate catalog apply. A student's catalog year determines their academic requirements for completing a degree based upon the requirements published in the catalog in effect at the time the student begins degree-seeking enrollment.
  More Info (p. 1687)

• **Certificate**
  An organized concentration of study in an approved subject area. University-approved certificate programs began appearing on the student transcript in Spring 2012. Non-university approved certificate programs are not recognized on a student transcript although individual courses are reflected.
  More Info (p. 68)

• **Classification/College**
  A code indicating a student's academic level (year) and college affiliation.
  More Info (p. 1700)

• **Combination Degrees**
  Combination degrees allow students to double count graduate credits toward their bachelor's degree at no loss of integrity or quality of either degree.
  More Info (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees/)

• **Common Course Numbering System**
  A statewide system of course prefixes and numbers developed to facilitate the transfer of credit by identifying equivalent courses.
  More Info (http://scns.fldoe.org/)

• **Continuing Education Unit | CEU**
  Courses taken to maintain licensure in professions that require a state or professional board license.

• **Continuous Enrollment**
  Undergraduate students who enroll for at least one course in one term in an academic year are continuously enrolled.
  More Info (p. 1687)

• **Corequisite**
  Two courses that must be taken concurrently.

• **Course Sequence**
  The specified order of enrollment for a series of courses; e.g., SPN 1130, SPN 1131, SPN 2200, SPN 2201.

• **Credit**
  Every course taught is designated a total number of credits. The number of credits for a class reflects approximately the total hours a student spends per week in class.

• **Critical Tracking Criteria**
  The courses required for progression in a major. These courses are in bold or otherwise noted in the undergraduate catalog and on the degree audit.
  More Info (p. 1637)

• **Cum Laude**
  Graduating with honors.
  More Info (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonorstext)

• **Deficit Record**
  A combination of UF cumulative credits and UF cumulative grade point average, where the UF cumulative GPA falls below a 2.0.
  More Info (p. 1684)

• **Degree Audit**
  A computerized evaluation of a student's progress towards completion of a degree. See ONE.UF.
  More Info (https://one.uf.edu/dashboard/)

• **Dismissal**
  Academic dismissal from the university denies registration privileges to students who have a cumulative GPA at or below the standard required for their cumulative UF credit hours carried. The student will be dismissed from the university and any advance registrations will be cancelled.
  More Info (p. 1683)

• **Drop**
  To drop a single course from a given term after the drop/add period. Students are liable for fees for a dropped course and a W is posted to the student's transcript.
  More Info (p. 1689)

• **Drop/Add**
  A period of time beginning with the first day of classes when students can adjust schedules by dropping or adding courses or changing sections of a course. Courses dropped by 11:59 p.m. on the last day of drop/add are not subject to fees.
  More Info (p. 1689)

• **Dual Enrollment**
  Simultaneous registration at two educational institutions.
  More Info (p. 1666)

• **Early Admission**
  Admission as a freshman following completion of the junior year of high school.
  More Info (p. 26)

• **Electives**
  Any course not required as part of a student's degree requirements, but applying to the minimum credits for the degree.
• **Enrollment**  
Registration for coursework and payment of fees constitutes official enrollment.

• **Excess Hours**  
Credits exceeding a state-specified threshold of credits taken toward the degree requirements. Additional tuition is assessed for credits exceeding this threshold.  
More Info (p. 1690)

• **FERPA**  
The Family Educational Rights and Privacy Act, which affords students certain rights with respect to their education records.  
More Info (p. 1694)

• **Flexible Learning**  
Division of Continuing Education course offerings. Consult the college dean’s office for restrictions and limitations.  
More Info (p. 1672)

• **GatorLink**  
A student’s computer identity at UF, which consists of a username and password to allow access to secure UF sites. It also includes official UF email service, usually in the format of username@ufl.edu. All students are required to sign up for a GatorLink account and email service because official university communications are sent to this email address.  
More Info (p. 1701)

• **Gator 1 Card**  
UF’s official university photo identification. All enrolled students must have a university ID card.  
More Info (p. 1701)

• **General Education Requirement**  
University-wide requirement of basic studies that form the foundation of all undergraduate degree programs.  
More Info (p. 31)

• **Good Standing**  
Eligible to continue to register for university coursework.  
More Info (p. 1683)

• **Grade Point Average | GPA**  
The ratio of grade points earned to semester credits carried. The UF GPA is computed on University of Florida coursework only. The UF GPA is displayed to the hundredths place and not rounded up (i.e. 3.528 = 3.52).  
More Info (p. 1697)

• **Grade Points**  
The number of points attributed to a grade (A=4, B=3, etc.) times the number of credits in the course.  
More Info (p. 1697)

• **Graduate Student**  
A student who has earned a baccalaureate degree and who has been admitted to the Graduate School to pursue a graduate degree program (master’s, specialist, engineer, doctorate).  
More Info (http://www.graduateschool.ufl.edu/)

• **Graduation Requirements**  
University-wide, college- and major-specific requirements that must be met for graduation from UF.  
More Info (p. 1687)

• **Individual Students Assessments | ISA**  
The different ways in which UF will measure whether students have successfully completed the learning outcomes for a particular major. These may include a passing score on a particular test, a final project, term paper, portfolio and so on.

• **Innovation Academy | IA**  
A unique undergraduate program experience, IA creates a small-college experience that focuses on delivering innovation, creativity, entrepreneurship, ethics, and leadership. IA students take courses on campus during the spring and summer, leaving the fall term free for online courses, study abroad, internships, research, community service, and/or employment. IA students follow this spring-summer on campus schedule throughout their entire degree program.  
More Info (http://innovationacademy.aa.ufl.edu/)

• **Learning Outcomes**  
What students are expected to learn by completing a particular major.

• **Magna Cum Laude**  
Graduating with high honors.  
More Info (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonorstext)

• **Major**  
A subject of academic study chosen as a field of specialization.  
More Info (p. 67)

• **Matriculation**  
Initial term of enrollment and attendance at UF. Can be as an admitted, degree-seeking student or as a non-degree student.

• **Medical Withdrawal**  
Student withdraws from all courses in a given term based on medical documentation. Fees for the semester will be refunded if a successful petition is filed within six months of given term.  
More Info (https://care.dso.ufl.edu/medical-withdrawal-process/)

• **Minor**  
An officially recognized secondary concentration of study in an approved subject area, consisting of at least 15 credits of appropriate coursework. Minors are optional.  
More Info (p. 68)

• **Ombuds**  
The university ombuds assists all members of the university community to solve problems and conflicts. They will listen, discuss issues, answer questions, interpret policies, provide information and referrals, and help develop options for problem resolution. The
ombuds serves as an advocate for fairness for all members of the university community.

More Info (p. 1683)

- **On-track or Off-track**
  On-track refers to students who are meeting progress requirements each term, according to their majors' critical tracking plans. Off-track refers to students who are not progressing toward their degree requirements each term.
  More Info (p. 1683)

- **ONE.UF**
  Enables students to access and manage their records online.
  More Info (https://one.uf.edu/)

- **Overall GPA**
  Cumulative GPA of UF coursework. GPA's are displayed to the hundredths place and not rounded up.
  More Info (p. 1697)

- **PaCE | Pathway to Campus Enrollment**
  PaCE offers degree programs through a combination of online and residential or campus-based learning options.
  More Info (http://www.admissions.ufl.edu/pace/)

- **Permanent Academic Record**
  The complete list of a student’s courses attempted, grades and credit earned, degrees awarded and any other pertinent academic information.

- **Petition**
  A written request seeking a waiver of or an exception to a university regulation, policy or deadline. Petitions may be considered if the circumstances are beyond the student's control.
  More Info (p. 1683)

- **Postbaccalaureate**
  A student who has earned a baccalaureate degree and been admitted for continued study but who has not been admitted as a graduate or professional student.

- **Preprofessional GPA**
  The grade point average achieved in the specific courses required for admission to a major (a.k.a. tracking GPA); these courses generally are completed in the first two years of study and the required GPA is often higher than 2.0.

- **Prerequisite**
  A condition that must be met to establish eligibility to enroll in a program or course.

- **Prerequisite Courses**
  The courses students must take and successfully complete before they can enroll in a subsequent course.

- **Probation, Academic**
  Any undergraduate with less than a 2.0 cumulative UF GPA shall be placed on academic probation while a grade point deficit exists. Refer to deficit points.
  More Info (p. 1683)

- **Professional Student**
  A student who is admitted to pursue a Doctor of Dental Medicine, Juris Doctor, Doctor of Medicine, Doctor of Nursing Practice, Doctor of Pharmacy, Doctor of Physical Therapy, Physician Assistant or Doctor of Veterinary Medicine degree.

- **Readmission**
  The procedure for a previously enrolled UF student to re-enroll in a degree-seeking status after a break in enrollment of more than three terms; a readmission fee is required.
  More Info (p. 29)

- **Registration**
  The process by which a student officially selects and enrolls in university coursework.
  More Info (p. 1699)

- **Residence**
  A student’s tenure within the university and/or a specific college or school in campus-based learning opportunities.
  More Info (p. 1687)

- **Residency**
  Classification of students as Florida residents or non-Florida residents for tuition purposes.
  More Info (p. 29)

- **Schedule Adjustment**
  A period of time following registration before the beginning of classes when students can adjust their course schedules.

- **Schedule of Courses**
  A listing of courses offered by semester.
  More Info (https://registrar.ufl.edu/soc/)

- **Semester**
  A standard academic term (fall, spring, or summer). Refer to term.
  More Info (p. 11)

- **Student**
  Any individual who is attending or has attended a postsecondary educational agency or institution that maintains academic records.

- **Specialization**
  A detailed set of courses and/or semester plan for graduation for an emphasis of study within a major.

- **Student Learning Outcomes | SLOs**
  What students are expected to learn by completing a particular major.

- **Summa Cum Laude**
  Graduating with highest honors.
  More Info (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonorstext)

- **S/U Option**
  A provision by which a student may elect, with college approval, to enroll in a course, the grade for which is not computed in the grade point average. Grades awarded are S (satisfactory) or U
(unsatisfactory). The S grade is equivalent to a grade of C (2.0) or better. A grade of U does not grant credit for the course.
More Info (p. 1697)

• SUS
The State University System of Florida. The University of Florida is one of the state-supported universities and colleges in the SUS.
More Info (http://www.flbog.edu/)

T
• Term
A period of instruction. During the fall and spring, the term is a standard 16-week semester. During the summer, various shorter length periods of instruction are offered: Summer A and Summer B are six-week terms; Summer C is a 12-week term.
More Info (p. 11)

• Textbook Adoption
The process by which textbook requirements are submitted by faculty and displayed online for students to see and to purchase for their courses.

• Transcript
An official copy of the student’s complete coursework, grades, credit and degrees earned at the University of Florida.

• Transfer Credit
Coursework completed at another institution that is accepted at the University of Florida and which may be applicable toward a specific major, minor, or degree.
More Info (p. 28)

• Transient Student
A student of another accredited institution who receives permission to register (for one term) as a non-degree-seeking student to earn credit to transfer back to their parent institution.

U
• UFID
A unique eight-digit number that serves as the primary identifier for all university records and transactions. No two people have the same number and each person has only one UFID.
More Info (p. 1701)

• UF Online
Bachelor degrees and minors offered exclusively through distance learning.
More Info (http://ufonline.ufl.edu/)

• Unit
An alternate term for credit. One unit equals one credit.

• Universal Tracking System and Audits
UF’s academic monitoring system, feature semester-by-semester plans for each major.
More Info (p. 1637)

W
• What-If Report
Exploring possible majors to determine a student’s interest and to estimate whether the coursework they have completed meets any of the degree requirements for a specific major.

• Withdraw
To drop all courses for a given term. Students are liable for fees and a grade of W will appear on the transcript for each course.
More Info (p. 1689)

• Writing Requirement
The University of Florida requires all students to complete courses that involve substantial writing and meet specific criteria for a total of 24,000 words. Courses are identified by category in the schedule of courses.
More Info (p. 1680)

Accelerated Degrees
College of Dentistry’s Honors Combination B.S./D.M.D. Program
Incoming freshmen who intend to pursue a career in dentistry can, through a cooperative agreement between the College of Agricultural and Life Sciences and the College of Dentistry, qualify for provisional admission to the preprofessional program leading to the D.M.D. This honors program helps highly motivated students complete a B.S. degree in Nutritional Sciences or Microbiology and Cell Science and the D.M.D. degree.
More Info (http://dental.ufl.edu/admissions/dmd-program/honors-combined-bs-dmd-program/)
Admission Criteria (http://dental.ufl.edu/admissions/dmd-program/honors-combined-bs-dmd-program/)
Contact: 352.273.5955

Medical Honors Program
An accelerated path to medical school. Students apply to this highly competitive program in the second semester of the second year of undergraduate study. If selected, they begin coursework for medical school in the third year and enter the M.D. program in the fourth year. After completion of the first year of medical school, students earn their B.S. degrees.
More Info (http://jhmp.med.ufl.edu/)
Admission Criteria: Apply during sophomore year
Contact: Email (med-admissions@ufl.edu) | 352.273.7990

Master of Agribusiness (MAB)
A professional degree for students who desire careers in marketing and management in agriculture, food processing and distribution, forest products and related industry where there has been strong demand for MAB graduates. Offered by the Department of Food and Resource Economics (FRE), the MAB can be completed in three semesters (fall, spring and summer). A bachelor’s degree in economics or business is not required.
More Info (http://www.fred.ifas.ufl.edu/graduate/mab/)
Combination Degrees

The Combination Degree program allows undergraduate students who qualify academically to obtain both a bachelor’s and master’s degree. Minimum qualifications for many programs include a 3.2 GPA and a competitive GRE score for admission to graduate school.

Combination degree programs allow students to get a head start on their graduate education by taking graduate courses throughout the junior and senior undergraduate years. In most programs, 12 credit hours of graduate work will also count toward an undergraduate degree, thus reducing the time it takes to get both degrees. Students should consult their department advisors to determine whether the department offers combination degree programs and whether they qualify.

There are a number of financial considerations to keep in mind. Students are responsible for paying the difference between undergraduate and graduate tuitions. Florida Prepaid College Tuition Program participants will receive funding for the first 120 credit hours. The program will fund graduate courses taken toward the undergraduate degree at the undergraduate level. Financial aid may be available to assist with the graduate degree portion of the program.

Advantages

- Combination degrees allow students to double count graduate credits toward their bachelor’s degree at no loss of integrity or quality of either degree.
- Qualified students can obtain an undergraduate and a graduate degree in much less time than two separate degrees.
- The cost of both degrees is reduced, since at least 12 credits apply toward both degrees.
- Students have time to decide whether to pursue further graduate or professional study.
- A student’s marketability is greatly enhanced; many professions now require a master’s degree for entry-level positions.

Combination Degrees by College

Accounting, Fisher School of Accounting | 3/2 MAcc/BSAc
Non-thesis only
This is an integrated, five-year, 150-hour program that leads to the joint award of a Bachelor of Science in Accounting and a Master of Accounting. Students may pursue a general accounting curriculum, or select an auditing or taxation concentration. This program is for students seeking a professional accounting career. Completion fulfills the state's requirements to take the CPA examination to practice in Florida.

Admission Criteria

More Info (https://warrington.ufl.edu/3-2-bsac-macc/)

Agricultural and Life Sciences, College of Agricultural Education and Communication | BS/MS
Admission Criteria: Competitive GRE score; 3.2 GPA
Contact: Email (nstedman@ufl.edu)
More Info (http://aec.ifas.ufl.edu/undergraduate/)

Agricultural Operations Management | BS/MS
Overlapping Credits: 12
Admission Criteria: Competitive GRE score; 3.3 GPA
Contact: 352.392.1864 ext. 116 | Email (rsnyder@ufl.edu)

Animal Sciences | BS/MS
Admission Criteria: Competitive GRE score; junior or senior status; 3.2 GPA
Contact: 352.392.7527 | Email (raluca@ufl.edu)
More Info (http://www.animal.ufl.edu/teaching/indexteaching.shtml/)

Biology/Biochemistry and Molecular Biology | BS/MS
Overlapping Credits: 12
Students must identify a College of Medicine faculty member who will serve as their graduate faculty advisor. A written agreement must be approved by both the Undergraduate Coordinator in the Department of Biology and the Graduate Coordinator in the College of Medicine. To count toward the MS degree, courses must be graduate level and letter-graded.

Admission Criteria: 3.2 cumulative GPA, 3.3 upper division GPA, completion of all critical-tracking requirements in the Biology B.S. degree, completion of at least three semester hours of mentored research (e.g., through BSC 4910 and BSC 4912) or equivalent research experience, and completion of BCH4024 (or equivalent).
Contact: 352.392.1521 | Email (http://catalog.ufl.eduMAILTO:bioadvising@advising.ufl.edu)
More info (https://biology.ufl.edu/undergraduates/undergraduate-combined-degree-program-offerings/)

Biology/Botany | BS/MS
Overlapping Credits: 12

Students must identify a Department of Biology faculty member who will serve as their graduate faculty advisor. A written agreement must be approved by both the Undergraduate Coordinator and Graduate Coordinator in the Department of Biology. To count toward the MS degree, courses must be graduate level and letter-graded.

Admission Criteria: 3.2 cumulative GPA, 3.3 upper division GPA, completion of all critical-tracking requirements in the Biology B.S. degree, and completion of at least three semester hours of mentored research (e.g., through BSC 4910 and BSC 4912) or equivalent research experience.

Entomology and Nematology | BS/MS
Overlapping Credits: 12

Admission Criteria: Competitive GRE score; 3.5 GPA

Contact: 352.273.3913 | Email (hjmca@ufl.edu) or 352.273.3974 | Email (baldwinr@ufl.edu)
More info (http://entnemdept.ufl.edu/academics/About_Us.html)

Family, Youth and Community Sciences | BS/MS and BS/MFYCS
Overlapping Credits: 12

Admission Criteria: Competitive GRE score; 3.2 GPA

Contact: 352.273.3514 | Email (ghenderschiedt@ufl.edu)
More Info (http://fycs.ifas.ufl.edu/)

Fisheries and Aquatic Sciences | BS/MS or MFAS
BS Degree in Another Discipline
Overlapping Credits: 12

Students must find a Fisheries and Aquatic Sciences faculty member to serve as their graduate faculty advisor. A written agreement must be approved by both the undergraduate and future graduate academic advisor. To count for the MS or MFAS degree, FAS courses must be taken at the graduate level.

Admission Criteria: Competitive GRE score; 3.2 GPA

Contact: 352.846.0847 | Email (khaselier@ufl.edu)
More Info (http://sfrc.ufl.edu/fish/degreeprograms/graduate/)

Food and Resource Economics | BS/MS
Overlapping Credits: up to 15 credit hours. Specific courses will be determined by the undergraduate and graduate program offices.

Admission Criteria: Competitive GRE score; 3.2 GPA

Contact: Email (jherman@ufl.edu)
More Info (http://www.fred.ifas.ufl.edu/graduate/)

Forest Resources and Conservation | BSFRC/MFRC or MS
Overlapping Credits: 12

Students must find a Forest Resources & Conservation faculty member to serve as their graduate faculty advisor. A written agreement must be approved by both the undergraduate and future graduate academic advisors. To count for the MS or MFRC degree, FOR/FNR courses must be taken at the graduate level.

Admission Criteria: Competitive GRE score; 3.2 GPA

Contact: 352.846.0847 | Email (khaselier@ufl.edu)
More Info (http://www.sfcc.ufl.edu/gradprograms.html)

Geomatics | BS/MFRC or MS
Overlapping Credits: 12

Students must find a Geomatics faculty member to serve as their graduate faculty advisor. A written agreement must be approved by both the undergraduate and future graduate academic advisor. To count for the MS or MFRC degree, GIS/SUR courses must be taken at the graduate level.

Admission Criteria: Competitive GRE score; 3.0 GPA

Contact: 352.8460847 | Email (khaselier@ufl.edu)
More Info (http://sfrc.ufl.edu/geomatics/degreeprograms/graduate/)

Horticultural Sciences | BS/MS
Overlapping Credits: 12

Students must find a Horticultural Sciences faculty member to serve as their graduate faculty advisor. A written agreement must be approved by both the undergraduate and future graduate academic advisor.

Admission Criteria: Competitive GRE score; 3.2 GPA

Contact: 352.273.4847 | Email (brath@ufl.edu)

Interdisciplinary Studies, Marine Sciences | BS/MFAS or MS
Overlapping Credits: 12

Students must find a Fisheries and Aquatic Sciences faculty member to serve as their graduate faculty advisor. A written agreement must be approved by both the undergraduate and future graduate academic advisor.
The Bachelor of Science and Master of Arts in Arts in Medicine Combination Program allows pre-health students (majoring in Public Health, Biology, Microbiology, Chemistry or Psychology) to begin completing requirements towards a master's degree (MA) in Arts in Medicine while completing their undergraduate degree (BS/BAS).

Admission Criteria: Completed GRE; 3.2 GPA on all upper-division courses
Contact: Email (camadmissions@arts.ufl.edu)
More Info (https://arts.ufl.edu/academics/center-for-arts-in-medicine/programs/arts-in-medicine/ways-to-study/)

Business, Warrington College of Business Administration, Major in Entrepreneurship | MSE
Overlapping Credits: 2-10
Through a stimulating curriculum and transformational experiential learning opportunities, this one-year, intensive program equips promising entrepreneurs with the skills and savvy to plan, launch and sustain innovative ventures on their terms.

Admission Criteria: Adequate GMAT score; 3.2 minimum GPA
Contact: 352.273.0337 | Email (MSE@warrington.ufl.edu)
More Info (https://warrington.ufl.edu/undergraduate-academics/combined-degrees/)

Business Administration, Major in Management | MSM
Overlapping Credits: 2-12
This degree provides nonbusiness majors the opportunity to combine knowledge from other academic disciplines with functional business applications to create a dynamic skillset in demand by employers in business and nonbusiness industries.

Admission Criteria: Competitive GMAT or GRE score; 3.2 minimum GPA
Contact: 352.273.0344 | Email (jane.mcnulty@warrington.ufl.edu)
More Info (https://warrington.ufl.edu/undergraduate-academics/combined-degrees/)

Finance, Master of Science | MSF
Overlapping Credits: 2-12
Students have the opportunity to study finance at the second-year MBA level. Courses cover nearly all areas of finance, including derivative securities, fixed income markets, equity valuation, international finance and real estate finance. With early application students can receive their undergraduate and graduate degrees in four years. The best time to apply is two years before the undergraduate degree would be received.

Admission Criteria: 465 GMAT (650+ average); 3.0 GPA (3.5+ average)
Contact: 352.392.9249 | Email (kelly.herring@warrington.ufl.edu)

Information Systems | BS/MS
Non-thesis only
Overlapping Credits: 12-16
This program develops the computing, quantitative and applications skills vital to a business problem-solving setting.

Admission Criteria: Competitive GMAT or GRE score; 3.0 GPA
Contact: 352.846.1370 | Email (chandra.hardy@warrington.ufl.edu)
Master of International Business | MIB
Overlapping Credits: 2-12
This one-year degree allows UF business majors or minors to enhance their undergraduate business education with an in-depth study of global business issues and trends. The MIB program allows curriculum flexibility and incorporates practical global business components with a required one-week Global Immersion Experience course abroad and optional participation in an international exchange program.
Admission Criteria: Competitive GMAT or GRE score; 3.2 minimum GPA
Contact: 352.273.0343 | Email (mta@dcp.ufl.edu)
More Info (https://warrington.ufl.edu/undergraduate-academics/combined-degrees/)

Real Estate, Master of Science | MSRE
Non-thesis only
Overlapping Credits: 2-12
The MSRE thrives on innovation, a dynamic student body and significant interaction with high-level working professionals and nationally recognized professors. The program is a unique combination of theory and practice that will enhance the student's commercial real estate education and develop professional skills. Undergraduate students from any college/major may apply. Prior coursework in accounting, business, economics, finance or statistics is preferred but not required.
Admission Criteria: 465 GMAT (600+ average); 3.0 GPA (3.4+ average).
Admission is based on a number of factors, including GMAT and academic record.

**Overlapping credits:** 12

Qualified students with any undergraduate major can pursue a Master of Science degree in Biostatistics. The Master of Science degree in Biostatistics is designed to facilitate students’ development of a strong theoretical foundation in biostatistics and of a broad-based understanding of biostatistical methods.

**Admission Criteria:** Junior status; 3.2 UF GPA; Minimum combined (verbal + quantitative) GRE score of 300; Completion of the following 5 prerequisites with a GPA of 3.3 or better: STA 2023, MAC 2311, MAC 2312, MAC 2313, and either MAS 3114 or MAS 4105.

**Contact:** 352.294.5926 | Email (kcason@ufl.edu)

Public Health | Any Bachelor's Degree/MPH

**Overlapping credits:** 15

Qualified students with any undergraduate major can pursue a master's degree in public health. Students complete 15 credits of public health core courses as an undergraduate and then complete the remaining 33 credits after admission to graduate school. Students select a concentration in public health management and policy, social and behavioral sciences, epidemiology, biostatistics or environmental health.

**Admission Criteria:** Competitive GRE score; 3.2 GPA; completion of the following 5 prerequisites (depending on concentration):

- STA 2023
- MAC 2311
- MAC 2312
- either MAS 3114 or MAS 4105
- MAC 2313

**Contact:** 352.273.6377 | Email (shanson@phhp.ufl.edu)

Applying

Meet with an academic advisor to determine the most-appropriate combination degree option. Qualified students can pursue the graduate degree outside the undergraduate major or department. Application normally occurs in the junior or senior year. If accepted, students must take the GRE the first semester of their senior year.

More Info (http://www.admissions.ufl.edu/pdf/combdegrequest.pdf)

Financial aid is available for the graduate portion of the program. Undergraduate degree costs should be satisfied with existing financial aid such as Bright Futures and Prepaid Tuition. Bright Futures can cover the undergraduate costs of up to 12 hours of graduate courses that apply to the undergraduate degree. Each student is responsible for the difference in tuition between the undergraduate and graduate course rates. If available, the Florida Prepaid Tuition Program can fund the first 120 hours. Graduate courses that apply toward the undergraduate degree are funded at the undergraduate rate, and the student is responsible for the difference.

FAQ

**What is a combination bachelor’s and master’s degree program?**

Combination degrees allow students to double count graduate credits toward their bachelor’s degree at no loss of integrity or quality of either degree. A combination degree program allows students to complete a specific number of graduate-level credits while enrolled as an undergraduate.

**Why should I participate in a combination degree program?**

The program allows students to take graduate coursework before they make a decision to complete a graduate degree. If the student continues in a graduate program, they’ll save at least one full semester of graduate enrollment.

**At what point in the undergraduate program should I apply?**

Students can apply as early as the second semester of their sophomore year or as late as their senior year depending upon the combination degree program.

**At what point do I enroll in graduate courses?**

If approved, students can take graduate courses during their junior and senior years as specified by the particular combination degree program.

**What is required for approval?**

As an undergraduate applying for entry into a combination degree program, students must have a minimum cumulative 3.2 UF GPA (some majors require a higher GPA) and have completed all critical-tracking requirements to enroll in graduate coursework while they are completing their undergraduate degree. After students apply for admission to the Graduate School, however, they must meet the minimum cumulative GPA requirement and GRE/GMAT score the particular master program requires.

**What is required so that 12 to 21 hours of graduate coursework (depending on the major) can also count toward my master's degree?**

To apply the graduate credit to both degrees, students must be admitted to the Graduate School and receive a grade of B or higher in each course. A graduate coordinator can provide the admission requirements for a particular department.

**If I do not continue in graduate school, can the graduate coursework I complete still be used to satisfy my undergraduate degree requirements?**

Yes.

**What about my financial aid?**

Bright Futures and/or the Florida Prepaid Tuition Program will pay the undergraduate tuition rate for the graduate courses students take; each student will have to pay the difference between undergraduate and graduate course costs.

**Why would I want to pay additional tuition to enroll in graduate courses?**

If a student continues to graduate school, they will save on the tuition costs for the 12 to 21 graduate credits (depending on the major) taken while still classified as an undergraduate. Remember that graduate course costs will be partially paid by the student’s undergraduate financial aid.

**How do I apply?**

Contact an undergraduate advisor and complete the combination degree application. Students will need the approval of the undergraduate coordinator, the graduate coordinator, and the dean’s office of their undergraduate college.

**What do I do if I want to create my own combination degree program?**

Students should contact the coordinator in the graduate department of the new combination degree program.
Are there other accelerated degree programs available other than combination degrees?
Yes, there are several accelerated degree programs available.
More Info (p. 1657)

Dual Enrollment Credit
In general, you may transfer up to 60 credits from public/state colleges as part of the credits needed for your UF degree, regardless when these credits are earned, but subject to university and college degree requirements. It is the prerogative of your college to determine how transfer credit satisfies a specific degree’s course requirements.

Students are required to submit to the Office of Admissions final official transcripts from all institutions attended before or during their enrollment at UF.
More Info (p. 1700)

Credit from Florida Public Colleges and State Universities
Courses from Florida public colleges and State University System schools generally adhere to the Statewide Course Numbering System.

Exam Credit

Award of Incoming Credits
- Credit will be awarded only once for the same course, whether from credit by examination, dual enrollment, transfer credit, or UF course credit.
- UF course credit takes precedence over all other forms of credit for the same course.
- Credit awarded for acceptable dual enrollment or transfer courses takes precedence over credit by examination.
- If duplicate credit exists among AICE, AP, CLEP, or IB, the exam yielding the most credit will be awarded.

Guidelines for Credit Awarded by AICE, AP, CLEP, or IB Examinations
- A maximum of 45 credit hours may be granted by combining AICE, AP, CLEP, and IB credit.
- Beginning with the 2019 Catalog year, students may be awarded a maximum of 30 credit hours for IB exams and a maximum of 30 credit hours for AICE exams.
- Students beginning in the fall or spring term must have taken the exams (AICE, AP, CLEP, and IB) and have their scores reported to the university before the end of their first term of enrollment at UF.
- Students who begin in the Summer A term must have taken the exam(s) and had their scores reported to the university before the end of their first Summer B/C term.
- Students who begin in the Summer B term must have taken the exam(s) and had their scores reported to the university before the end of their first fall term.
- If a student submits appropriate scores, UF will grant credit for the UF course(s) that most closely match the content of the exam as determined by the State of Florida. The transcript will reflect the course(s) with grades of P (for Pass). P grades will not be calculated into the student’s GPA.
- Equivalent courses earned by examination generally fulfill the same requirements that the UF course fulfills.

Exams

AICE Exam Credit
Students completing approved AICE examinations with scores of A-E will earn UF credit.

Scores of E or higher on AICE French Language, German, Latin Language, and Spanish Language examinations fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences, the College of Journalism and Communications, and B.A. programs in the College of the Arts.

The chart specifies which UF course credit students will earn depending on their score on each exam and whether the credit earned will count for general education (p. 33) and the writing requirement (p. 1680) (6,000 words).

Beginning with the 2019 Catalog, students may be awarded a maximum of 30 credit hours for AICE exams.

The L000 course number has no UF course equivalent. The credit applies to the minimum credits for the degree but does not provide credit for general education, writing requirement or count toward the major.

2 Writing requirement (6000 words).

**AP Exam Credit**

Students completing approved AP examinations with scores of three or higher will earn UF credit.

Scores of three or higher on AP Chinese, French, German, Italian, Japanese, Latin, Russian, and Spanish language examinations fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences, the College of Journalism and Communications, and B.A. programs in the College of the Arts.

AP Calculus Placement Scores More AP Information (http://www.collegeboard.com/student/testing/ap/about.html)

The UF course credit that students earn depends on their score on each AP exam and whether the credit earned will count for general education (p. 33) and the writing requirement (p. 1680) (6,000 words).

1 The L000 course number has no UF course equivalent. The credit applies to the minimum credits for the degree but does not provide general education credit or count toward the major.

2 Writing requirement (6000 words).

### IB Exam Credit

Students will receive credit for scores of 4 or higher on both higher-level and standard-level examinations.

Scores of 4 or higher on IB French B, German B, Italian B, Latin, and Spanish B examinations fulfill the foreign language proficiency requirement for the College of Liberal Arts and Sciences, the College of Journalism and Communications, and B.A. programs in the College of the Arts.

The chart specifies which UF course credit students will earn depending on their score on each IB exam and whether the credit earned will count for general education (p. 33) and the writing requirement (p. 1680) (6,000 words).

*Beginning with the 2019 Catalog, students may be awarded a maximum of 30 credit hours for IB exams.*

Flexible Learning

Distance and Continuing Education

Distance & Continuing Education (DCE) offers fully online undergraduate courses for college credit through UF Flexible Learning.

The primary purpose of this program is to provide high-quality flexible educational opportunities for students in the State University System, Florida College System, and beyond who are not currently enrolled at UF and:

- Have conflicting schedules
- Need to meet general education or writing requirement
- Need to meet course prerequisites
- Want personal enrichment

Students who are not enrolled at UF should consult an academic advisor at their institution prior to enrolling in courses to ensure transfer of the credit. DCE is not responsible for ensuring that any credit received is transferrable.

UF students interested in taking a Flexible Learning course must first consult with their academic advisor. UF students may apply up to two (2) Flexible Learning courses toward a degree and must seek college dean’s office approval to exceed this limit. Advisors and the DCE office will approve access to a Flexible Learning course if the student is below the two (2) course limit and meets at least one (1) of the following criteria:

- The student has a health concern
- There are circumstances preventing the student from physically being on campus and the course is not offered online
- The student requires off-calendar, flexible format solution required for scholarship, tracking, and/or graduation requirements

Students can register for these courses online. More Info (http://flexible.dce.ufl.edu/)

Enrolling in Flexible Learning courses does not require a transcript of previous academic work, nor are students required to apply for, or to be admitted, to the University of Florida to earn college credit. These courses operate on an open enrollment policy and do not follow UF's academic calendar. Registrations are processed and accepted Monday-Friday, excluding UF holidays.

UF Flexible Learning courses are self-paced, allowing students to complete coursework more quickly than typical online or residential courses. Students have a maximum of sixteen (16) weeks to complete their course, but in many courses, may take as few as four (4) weeks. If the on-campus academic semester changes during this time, a non-punitive deferred grade of H will appear on the student’s transcript.

When the registration process has been finalized, UF Flexible Learning will send students their expiration date. Students should take note of this date and plan their work accordingly. Any coursework not completed by this date may result in grade penalties.

If students make significant progress in their coursework, but are unable to complete it due to extenuating circumstances, they are expected to contact instructor about receiving an incomplete grade.

Contact
352.392.1711 | Email (learn@dce.ufl.edu)

Complete Course Listing (http://flexible.dce.ufl.edu/courses/)
Placement

Placement is an assessment of a student’s level of preparation in a subject. The purpose of placement is to help students enroll in the courses in which they are most likely to be successful.

- Incoming Credit and Credit by Examination Information (p. 1666)

English Composition

Unless students already have college credit for an English Composition course, they need to review placement requirements for these courses.

Students will be placed based on their SAT or ACT verbal score, unless they already have college credit for an English composition course.

- Students with a 640 (or lower) on the verbal portion of the SAT and/or a 28 (or lower) on the verbal portion of the ACT must enroll in ENC 1101.
- Students with a 650 (or higher) on the verbal portion of the SAT or a 29 (or higher) on the verbal portion of the ACT may enroll in any 1000/2000-level composition course beyond ENC 1101. These students should not enroll in ENC 1101.
- Students with college credit for English Composition (from AICE, AP, CLEP, IB, or dual enrollment) should consult an advisor to determine which, if any, additional courses are needed to meet degree requirements.

Mathematics

If a student intends to pursue a science or engineering major or intends to go on to a health profession after completing the bachelor’s degree, they should take these algebra, precalculus, and calculus courses. A number of business and technical majors require specific math courses. Students should check the information on their majors and health professions of interest to determine if algebra/precalculus/calculus are required.

More Info (p. 67)

Placement is used for the following MAC courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAC 1105</td>
<td>Basic College Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MAC 1140</td>
<td>Precalculus Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MAC 1147</td>
<td>Precalculus Algebra and Trigonometry (a fast-paced review of both areas)</td>
<td>4</td>
</tr>
<tr>
<td>MAC 2233</td>
<td>Survey of Calculus</td>
<td>3</td>
</tr>
<tr>
<td>MAC 2311</td>
<td>Analytic Geometry and Calculus 1 (typically recommended for pre-health students)</td>
<td>4</td>
</tr>
</tbody>
</table>

1 The sequence MAC 1140 and MAC 1114 covers the same material as MAC 1147, but at a slower pace.

The math course(s) you take will depend on what your major requires (or if you are pre-health), whether you have incoming math credit, the math course you took last year and whether you were able to use a calculator during exams, whether you want to strengthen your foundation before moving on to new material, and your ALEKS placement score.

To determine which math course (if any) is required for a major, please check the requirements for that major (p. 67). If a student’s major requires MAC 2234 or MAC 2312 or higher, they must have credit for the prerequisite course. If a student has credit via exam or dual enrollment, consult with an academic advisor. General guidelines for using AP scores for placement appear below.

Some graduate programs in the health professions such as pharmacy, optometry, and veterinary medicine may require calculus as a prerequisite to admission. Consult the Pre-Health Pre-Requisite Course Chart (https://www.advising.ufl.edu/pre-health/apply/prepare/academic-preparation/) for more information.

- If a major requires no particular math course, students may take Gen Ed math courses such as MGF 1106 or MGF 1107 without any placement.
- If a student needs one of the MAC courses listed above and doesn't have incoming credit, they should take the ALEKS placement exam, and then discuss which math course should be taken with an advisor.
- If a student has incoming math credit, they may use that as placement into MAC courses if the credit appears on their UF transcript or the student provides proof of credit. However, the ALEKS placement is the best predictor of success in UF MAC courses. Even if a student has credit, they are strongly encouraged to take ALEKS. Taking ALEKS will assess a student’s current knowledge base and its fit with the UF curriculum. After taking ALEKS, the student should discuss which math course they should take with an advisor.

It can be helpful for students to take a lower course or even retake a course to strengthen their foundation before moving on to a higher class. A student’s ALEKS score can help assess their current preparation. Consult with an academic advisor if unsure.
ALEKS

Placement via ALEKS Score

Majors that Require MAC 1105, MAC 1140, MAC 1147, or MAC 2311; or for Pre-Health

<table>
<thead>
<tr>

</tbody>
</table>

Incoming Credit

Placement via Incoming Credit

If a student has earned credit with a C or better for:

- MAC 1105: take MAC 1140 (if needed)
- MAC 1140: take MAC 1114 or MAC 2233 (if needed, course depends on major requirements)
- MAC 1147 (or both MAC 1140 and MAC 1114): take MAC 2311 if needed. **Credit must be in progress at UF, completed and on the student’s UF transcript or the student must provide proof of incoming credit.**

- It may be helpful for students to retake a course to strengthen their foundation before moving on to a higher class. This is especially true if the incoming credit course was taken more than one year ago or if the student earned a grade lower than B. A student’s ALEKS score can help assess their current preparation. Consult with an academic advisor if unsure.

AICE, AP, or IB Exam Credit

Refer to award of incoming credits to see which courses earn credit. For courses through MAC 2311, ALEKS is still the best predictor of success in MAC courses at UF, so students are encouraged to take ALEKS and follow the score guidelines. General guidelines for using AP scores for placement appear below.

Transfer Credit

Earning the minimum grades in prerequisite courses does not guarantee success in the next math course. The Department of Mathematics encourages students to take the ALEKS exam even if they have credit for a MAC course. Quite often, a student’s skills may need review and placement assessment can provide information and specific areas for additional study.

Please read the complete information about the mathematics placement exam (https://www.student.ufl.edu/aleksinfo.html).

AP Scores for Calculus

Placement via AP Scores for Calculus

UF offers two introductory calculus courses: MAC 2233 and MAC 2311 as well as subsequent courses in both sequences. Students should consult the majors (p. 67) section to determine which calculus course(s) may be required for their major.

¹ Course descriptions (p. 1704)

---

**General Chemistry**

*If a student intends to pursue a science or engineering major or intends to go on to a health profession after completing the bachelor’s degree, they should take these general chemistry courses. Students should check the information on their majors of interest to determine if general chemistry is required.*

The general chemistry sequence CHM 2045/CHM 2045L and CHM 2046/CHM 2046L meets the preprofessional requirements for many science and engineering majors. CHM 2095/CHM 2095L and CHM 2096/CHM 2096L is an alternate general chemistry sequence specifically for engineering majors.

**Placement into CHM 2045 or CHM 2095 Requires**

- Successful completion with a grade of C or better of MAC 1147 (or both MAC 1140 and MAC 1114) or higher

**AND**

- Successful completion with a grade of C or better of CHM 1025

  OR

  a 76% on the ALEKS math placement exam.

If a student enrolls in and successfully completes CHM 1025 and MAC 1147 (or MAC 1140 and MAC 1114), they can enroll in CHM 2045 or CHM 2095 the next semester. Students who enroll in CHM 1025 but do not successfully complete with a C or better cannot place into CHM 2045 using an ALEKS score of 76%. Such students will need to repeat CHM 1025 and earn a C or better to go on to CHM 2045.

**Students with credit for CHM 2045** via AP and IB scores or dual enrollment (with a minimum grade of C) should discuss their next chemistry course with an advisor. Students who wish to repeat CHM 2045, take CHM 2095 or go on to CHM 2046/CHM 2096 must have successfully completed MAC 1147, MAC 1140 and MAC 1114, or higher or the equivalent as determined by the Mathematics Department.

Students who wish to enroll in CHM 2047, the one-semester General Chemistry, and its co-requisite laboratory CHM 2047L, must meet the following conditions:
• AICE, AP, or IB credit for at least CHM 2045 and laboratory
• Approval of the Honors Program office or the Department of Chemistry.

**Foreign Languages**

*College-level foreign language is required by several programs: Liberal Arts and Sciences and the B.A. programs in the College of the Arts have a proficiency requirement; students in Journalism and Communications may choose between foreign language proficiency or a quantitative option. Construction management majors must complete one semester of Spanish.*

**French**

• Students with no prior study of French or a maximum of French 1 on their high school transcript may enroll directly in FRE 1130. No placement exam is required.
• Students with French 2 on their high school transcript may enroll directly in FRE 1134. No placement test is required.
• Students with French 3 or 4 on their high school transcript may enroll directly in FRE 2220, but are strongly encouraged to speak with the department to determine the best course based on their background. Students with French 3 or 4 may NOT enroll in 1000-level FRE courses without the permission of the French lower-division coordinator.
• Students who have taken French exams via Advanced International Certificate of Education (AICE), Advanced Placement (AP), College Level Examination Program (CLEP), or International Baccalaureate (IB), should consult the French Placement and Course Equivalency ([http://languages.ufl.edu/files/french-placement-handout-2019-revised.pdf](http://languages.ufl.edu/files/french-placement-handout-2019-revised.pdf)) page to determine whether they have received credit for a French course and which course to take next.
• Students who wish to demonstrate proficiency in French in order to meet the College of Liberal Arts and Sciences (CLAS), College of Journalism and Communications (JM), or B.A. in the College of the Arts (FA) degree requirements must do one of the following:
  • Complete the terminal course in the Beginning French sequence (or higher) with a satisfactory grade
  • Earn sufficient scores on an AICE, AP CLEP or IB exam.
  • Earn a passing score on the Foreign Language Proficiency Exam (FLPE) ([https://teachingcenter.ufl.edu/testing/flpe/](https://teachingcenter.ufl.edu/testing/flpe/))

**Spanish**

*Students with any prior study or knowledge of Spanish who wish to enroll in a Spanish course are required to take the WebCAPE online placement test ([http://spanishandportuguese.ufl.edu/undergraduate-programs/lower-division-spanish-program/spanish-placement/](http://spanishandportuguese.ufl.edu/undergraduate-programs/lower-division-spanish-program/spanish-placement/)), which is designed to help them determine the best course based on their background.*

• Students who took a language other than Spanish in high school are not required to take this test. They may enroll in SPN 1130.
• Students who have taken Spanish exams via Advanced International Certificate of Education (AICE), Advanced Placement (AP), College Level Examination Program (CLEP), or International Baccalaureate (IB) are encouraged but not required to take the WebCAPE and should consult the Spanish Placement and Course Equivalency ([http://spanishandportuguese.ufl.edu/files/SPNPlacementEquivalencyCharts.pdf](http://spanishandportuguese.ufl.edu/files/SPNPlacementEquivalencyCharts.pdf)) page to determine whether they have received credit for a Spanish course and which course to take next.
• Students who wish to demonstrate proficiency in Spanish in order to meet the College of Liberal Arts and Sciences (CLAS), College of Journalism and Communications (JM), or B.A. in the College of the Arts (FA) degree requirements must do one of the following:
  • Complete the terminal course in the Beginning Spanish sequence (or higher) with a satisfactory grade
  • Earn sufficient scores on an AICE, AP CLEP or IB exam.
  • Earn a passing score on the Foreign Language Proficiency Exam (FLPE) ([https://teachingcenter.ufl.edu/testing/flpe/](https://teachingcenter.ufl.edu/testing/flpe/))

Anyone with any prior study or knowledge of Spanish MUST provide a test score to register for a Spanish course.

A passing grade in SPN 1131 or a higher level SPN courses successfully fulfills the foreign language proficiency requirement for the College of Liberal Arts and Sciences, the College of Journalism and Communications and B.A. programs in the College of the Arts. Students wishing to satisfy the foreign language proficiency requirement by examination must do so through the appropriate AP, IB, or AICE Spanish scores. WebCAPE is only a placement exam.

**Other Languages**

*Students with a prior background in languages other than French or Spanish should consult with the department regarding placement. Students who wish to demonstrate proficiency in that language in order to meet the College of Liberal Arts and Sciences (CLAS), College of Journalism and Communications (JM), or B.A. in the College of the Arts (FA) degree requirements must do one of the following:*  

• Complete the terminal course in the Beginning sequence (or higher) of that language with a satisfactory grade
• Earn sufficient scores on an AICE, AP CLEP or IB exam.
• Earn a passing score on the Foreign Language Proficiency Exam (FLPE) ([https://teachingcenter.ufl.edu/testing/flpe/](https://teachingcenter.ufl.edu/testing/flpe/))
• Consult the department regarding proficiency for languages not offered by the FLPE.
Preprofessional Advising

Pre-Health Advising Office offers resources and information to students from all UF majors who intend to pursue a graduate program in the health professions such as medical, dental, veterinary, pharmacy, physician assistant, optometry, physical therapy, or occupational therapy school. Pre-Health students may choose almost any major. Pre-Health students should review the detailed information on the Pre-Health advising website (https://www.advising.ufl.edu/pre-health/) to discover and keep track of necessary steps to take throughout their time at UF in order to become competitive for the programs to which they intend to apply.

All pre-health students are encouraged to enroll in Pre-Health Essentials, a non-credit e-learning resource offered by the Pre-Health Advising Office. Pre-Health Essentials offers workshops and resources for pre-health students to help explore and prepare for a healthcare profession.

Pre-Health Students

Plan to complete the following courses, which are the basic prerequisites for many pre-health graduate programs. However, some health professions do not require all of these courses, and some require more. Also, requirements vary from program to program, so you should carefully investigate the requirements of the institutions to which you plan to apply.

Students can also find all pre-health timelines online for assistance in career plans, under Suggested Course Timelines.

Mathematics

At least two semesters of college-level mathematics; one semester of statistics (STA 2023) is required. Calculus (MAC 2311 or MAC 3472) is recommended for pre-medical students, and required for pre-pharmacy and pre-optometry students.

Pre-Law

UF's pre-law advisors offer students assistance as they explore their interest in law and provide guidance during the law school application process. Students are encouraged to utilize UF's pre-law resources:

- **Pre-law Website**: Review pre-law tips, timelines and resources at www.advising.ufl.edu/prelaw (http://www.advising.ufl.edu/pre-law/).
- **Pre-law Listserv**: Join the listserv to receive pre-law announcements and stay connected with UF's abundant pre-law activities. Instructions are available at: www.advising.ufl.edu/pre-law/pre-law-listserv/.
- **Pre-law Advising**: Pre-law advisors are located in the College of Liberal Arts and Sciences Academic Advising Center in Farrior Hall. Students may call to make an appointment (352.392.1521) or come in as a walk-in. In addition, students may reach the pre-law advisors at prelaw@advising.ufl.edu.

Choosing a Major

Pre-law students must develop analytic and problem-solving skills, critical reading abilities, writing skills, oral communication and listening abilities, research skills, and organization and priority management skills. These skills can be attained through virtually any major in combination with a wide variety of complementary electives. There is no "pre-law" major at UF; students should choose a major in which they have a true interest and select a broad, diverse, and challenging array of courses from demanding instructors in order to prepare for success in law school.

Exploration

Pre-law students are encouraged to carefully assess their interest in and motivation for attending law school. The pre-law timeline, featured on the website, encourages you to shadow attorneys, conduct informational interviews, complete internships, and speak to admission officers to learn about law schools and the legal profession. Students should also consider studying overseas, writing an honors thesis, and getting involved in leadership opportunities. These activities will enhance the depth and value of students' undergraduate education and may also distinguish students from other top law school applicants.

Student Responsibilities

**Academic Honesty**

In 1995 the UF student body enacted an honor code and voluntarily committed itself to the highest standards of honesty and integrity. When students enroll at the university, they commit themselves to the standard drafted and enacted by students.

More Info (https://sccr.dso.ufl.edu/students/student-conduct-code/)

**Preamble**

In adopting this honor code, the students of the University of Florida recognize that academic honesty and integrity are fundamental values of the university community. Students who enroll at the university commit to holding themselves and their peers to the high standard of honor required by the honor code. Any individual who becomes aware of a violation of the honor code is bound by honor to take corrective action. The quality of a University of Florida education is dependent upon community acceptance and enforcement of the honor code.

**The Honor Pledge**

We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity.

On all work submitted for credit by students at the university, the following pledge is either required or implied: On my honor, I have neither given nor received unauthorized aid in doing this assignment.

The university requires all members of its community to be honest in all endeavors. A fundamental principle is that the whole process of learning and pursuit of knowledge is diminished by cheating, plagiarism and other acts of academic dishonesty. In addition, every dishonest act in the academic environment affects other students adversely, from the skewing of the grading curve to giving unfair advantage for honors or for professional or graduate school admission. Therefore, the university will take severe action against dishonest students. Similarly, measures will be taken against faculty, staff and administrators who practice dishonest or demeaning behavior.

**Student Responsibility**

Students should report any condition that facilitates dishonesty to the instructor, department chair, college dean, Student Honor Council or Student Conduct and Conflict Resolution in the Dean of Students Office.

**Faculty Responsibility**

Faculty members have a duty to promote honest behavior and to avoid practices and environments that foster cheating in their classes. Teachers should encourage students to bring negative conditions or incidents of dishonesty to their attention. In their own work, teachers should practice the same high standards they expect from their students.
Administration Responsibility
As highly visible members of our academic community, administrators should be ever vigilant to promote academic honesty and conduct their lives in an ethically exemplary manner.

Student Conduct Code
Students enjoy the rights and privileges that accrue to membership in a university community and are subject to the responsibilities that accompany that membership. For a system of effective campus governance, it is incumbent upon all members of the campus community to notify appropriate officials of any violations of regulations and to assist in their enforcement. The university’s conduct regulations, available to all students, are set forth in Florida administrative code. Questions can be directed to the Dean of Students Office. More Info (https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/)

Alcohol and Drugs
The use of alcohol and other drugs can have a negative impact on judgments and reactions, health and safety, and may lead to legal complications as well. The university’s principal role is to engage in education that leads to high standards and respectful conduct. When those are compromised, the university will take disciplinary action against organizations and individuals violating either the law or the unreasonable use of alcohol. It also must provide help for students who are alcohol-dependent. The university will deal severely with students convicted of the illegal possession, use or sale of drugs.

What the University Community Can Do to Prevent Alcohol Abuse and Drug Use
Students can help control substance abuse by declining to use or to condone the use of drugs and by insisting that organizations and individuals use alcohol within the bounds of the law and reasonable conduct. Students should make an effort to prevent persons who have abused alcohol or used drugs from harming themselves or others, especially while driving a motor vehicle. They should encourage those needing professional help to seek it. The same standards and regulations apply equally to faculty, staff and administration.

Relations between People and Groups
One of the major benefits of higher education and membership in the university community is greater knowledge of and respect for other religious, racial and cultural groups. Indeed, genuine appreciation for individual differences and cultural diversity is essential to the environment of learning. Another major aspect of university life involves sexual relationships. Sexual attitudes or actions that are intimidating, harassing, coercive or abusive, or that invade the right to privacy of the individual are not acceptable. Only in an atmosphere of equality and respect can all members of the university community grow.

Service to Others
An important outcome of a University of Florida education should be a commitment to serving other people. This sense of service should be encouraged throughout the institution by faculty, administration, staff and students. Through experience in helping individuals and the community, students can put into practice the values they learn in the classroom.

Standard of Ethical Conduct
Honesty, integrity and caring are essential qualities of an educational institution, and the concern for values and ethics is important to the whole educational experience. Individual students, faculty and staff members, as well as the university’s formal organizations, must assume responsibility for these qualities. The concern for values and ethics should be expressed in classes, seminars, laboratories and in all aspects of university life. By definition, the university community includes members of the faculty, staff and administration as well as students.

Education at the University of Florida is not an ethically neutral experience. The university stands for, and seeks to inculcate, high standards. Moreover, the concern for values goes well beyond the observance of rules.

A university is a place where self-expression, voicing disagreement and challenging outmoded customs and beliefs are prized and honored. However, all such expressions need to be civil, manifesting respect for others.

As a major sector in the community, students are expected to follow the university’s rules and regulations that, by design, promote an atmosphere of learning. Faculty, staff and administrators are expected to provide encouragement, leadership and example. While the university seeks to educate and encourage, it also must restrict behavior that adversely affects others. The Standard of Ethical Conduct summarizes what is expected of the members of the university community.

Study Abroad Opportunities
Study Abroad Services offers students the opportunity to study overseas in a wide range of academic and cultural settings. The office coordinates numerous year-long, semester, summer and short-term programs in more than 80 countries on all seven continents.

Credits earned in study abroad programs may count toward a major or minor and can satisfy general education, language and summer residency requirements.

Writing Requirement
The University of Florida requires all students \(^1\) to complete a writing requirement. AICE, AP, CLEP, and IB examination credit (p. 1666) as well as dual enrollment or transfer credit may count toward this requirement.

To graduate, students must complete courses that involve substantial writing for a total of 24,000 words.

Courses that count toward this requirement will be in one of three categories:
• 2: Coursework with at least 2,000 words
• 4: Coursework with at least 4,000 words
• 6: Coursework with at least 6,000 words

Some sections of qualified courses may not offer substantial writing in a particular term. In the schedule of courses (http://www.registrar.ufl.edu/ soc/), the course sections and amount of writing credit awarded (2, 4, or 6 thousand) are identified for a given term.

The writing course grade assigned by the instructor has two components: the writing component and a course grade. Therefore, to receive writing credit, students must satisfactorily complete the writing component and receive a minimum grade of C (2.0) for the course. It is possible to not meet the writing requirement and still earn a minimum grade of C in a class, so students should review their degree audit after receiving their grade to verify receipt of credit for the writing component.

Courses intended to satisfy the writing requirement may not be taken S-U.

The writing must be evaluated on content, organization and coherence, effectiveness, style, grammar, and punctuation. Assignments must be returned to students with a grade and comments that address the students' writing skills. Consequently, feedback on all assignments should be provided by the last day of class, or if provided electronically, by the end of finals.

Evaluation of writing is based on individual work. Class notes, quizzes and in-class writing assignments or essay examinations may not be counted. Team-written documents may not be counted for credit unless clear individual sections are identified for grading, such that an individual student's writing may be evaluated and graded. Drafts cannot be counted separately from final drafts as part of the total number of words completed during the course.

Students may not take the same course multiple times to meet the writing requirement, unless the course allows for multiple registration based upon rotating course content.

All courses that require writing will not necessarily count toward the writing requirement. In writing requirement courses, students will be evaluated as described above.

1 Except those transferring to UF with an A.A. degree from a Florida public college or an A.A. certificate from a Florida public state university.

Academic Progress Policies
Regulations for academic probation and dismissal follow the academic standards of the university and require the maintenance of grade point averages and reasonable conformance to a program of study.

A minimum grade point average of 2.0 is required to graduate from any UF undergraduate degree program. Any college may specify additional academic standards and students are responsible for observing these regulations.

The probation and dismissal regulations that apply to undergraduate students also apply to postbaccalaureate students. Notations on the student’s academic record shall reflect all actions taken to enforce these regulations; some of these notations can be permanent.

Academic Standing
The University of Florida considers students to be in good standing if they are eligible to continue or to re-enroll at the university, even if on probation.

Colleges may choose not to consider students for admission and may deny continuation in a degree program if the student fails to maintain reasonable academic progress, as specified by the college or department.

Policies on academic standing, probation and dismissal are based on the possibility that a student can overcome academic difficulty and make appropriate progress toward a degree.
Petitions

Students may file a petition for a waiver of a deadline or regulation if they can document extenuating circumstances that led to their failure to meet or conform to the deadline/regulation.

In general, petitions for waiver of an academic regulation for the current term should be directed to the school or college in which the student is enrolled. For example, petitions to drop or add after the drop/add period should be presented to the school or college. Exceptions to the course load regulation are to be presented to the school or college. Petitions approved by the school or college must be reported to the Office of the University Registrar before the action is official.

All other petitions should be presented to the Office of the University Registrar, which will refer them to the University Student Petitions Committee. Petitions pertaining to academic records approved by the committee will be reflected on the student’s transcript.

Per BOG Regulation 7.002(11), all requests for a refund of fees must be submitted to the university within six months of the close of the semester to which the refund is applicable. Any request for a refund of fees submitted outside this timeframe will not be reviewed.

Detailed information on petition procedures is available from the student's college or the Office of the University Registrar.

More Info (http://www.registrar.ufl.edu/currents/petitioninstructs.html)

A student seeking waiver of a regulation through petition must remember that no petitions committee can direct an instructor to change a grade, nor can the University Student Petitions Committee require any college or school to grant a degree by waiving any regulation.

Probation

The intent of academic probation is to serve formal notice that a student may not be making satisfactory progress. The conditions of academic probation are intended to specify the achievement standards required to graduate, to identify unsatisfactory academic performance at an early date, to provide occasion for counseling, and to give students whose ultimate success is in question further opportunity to demonstrate their ability to meet academic expectations.

Academic probation can occur for the following reasons:

• Students may be placed on probation by their college for failure to maintain normal academic progress in their degree program. College probation will be removed when the college determines that satisfactory academic progress has been demonstrated.

• Undergraduate students with less than a 2.0 cumulative grade point average for University of Florida coursework.

• Academic probation will be continued for all undergraduate students as long as they have less than a 2.0 cumulative grade point average. It will be removed when the grade point average becomes 2.0 or higher. Should the grade point average fall far enough, the student will be dismissed based on Dismissal policy.

More Info (p. 1684)

Dismissal and Suspension

Academic dismissal from the university denies registration privileges to students who have a cumulative GPA at or below that listed below (given their UF Cumulative Credits). The student will be dismissed from the university and any advance registrations will be cancelled.

• Students who are dismissed will not be permitted to enroll again unless they complete an application for readmission by the application deadline, and the college approves readmission. A student who is readmitted after academic dismissal will be dismissed again if their grade point average is at or below the corresponding GPA (given their UF Cumulative Credits) indicated in the table at the end of any term.

• UF Cumulative Credits only include credits taken toward the GPA and do not include credits for courses taken S/U, credits dropped/withdrawn resulting in a W on the transcript, or credits not counting in the UF Cumulative GPA due to repeat or non-degree policy.

• An undergraduate student under any kind of dismissal or suspension at the University of Florida may earn credit toward a degree at the University of Florida by taking courses at another institution. Upon the student’s reinstatement to the University of Florida, the University will accept credit from courses that fall under the Florida statewide course numbering system. A reinstated student may follow standard practice of consulting the student’s degree-granting unit to consider whether credit for courses not under the state course numbering system and earned while dismissed or suspended will be accepted. Credits earned at another institution and accepted by the University of Florida will not count towards the UF GPA calculation but will factor into the student’s total credit hour count towards excess hours.

Grade Point Deficits

University Ombuds

When an academic regulation appears to result in undue hardship, students may petition for waiver of the regulation. If a student wishes to appeal a decision of the University Student Petitions Committee, the student must contact the Office of the Ombuds.

More Info (http://www.ombuds.ufl.edu/)

Attendance Policies

Absences

Students are responsible for satisfying all academic objectives as defined by the instructor. Absences count from the first class meeting.

In general, acceptable reasons for absence from or failure to participate in class include illness, serious family emergencies, special curricular requirements (e.g., judging trips, field trips, professional conferences), military obligation, severe weather conditions, religious holidays, and
participation in official university activities such as music performances, athletic competition or debate. Absences from class for court-imposed legal obligations (e.g., jury duty or subpoena) must be excused. Other reasons also may be approved.

Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence.

Students cannot participate in classes unless they are registered officially or approved to audit with evidence of having paid audit fees. The Office of the University Registrar provides official class rolls to instructors.

If a student does not participate in at least one of the first two class meetings of a course or laboratory in which they are registered, and they have not contacted the department to indicate their intent, the student can be dropped from the course. Students must not assume that they will be dropped, however. The department will notify students if they have been dropped from a course or laboratory.

The university recognizes the right of the individual professor to make attendance mandatory. After due warning, professors can prohibit further attendance and subsequently assign a failing grade for excessive absences.

**Religious Holidays**

At the University of Florida, students and faculty work together to allow students the opportunity to observe the holy days of their faith. A student should inform the faculty member of the religious observances of their faith that will conflict with class attendance, with tests or examinations, or with other class activities prior to the class or occurrence of that test or activity. The faculty member is then obligated to accommodate that particular student's religious observances. Because students represent a myriad of cultures and many faiths, the University of Florida is not able to assure that scheduled academic activities do not conflict with the holy days of all religious groups. Accordingly, individual students should make their need for an excused absence known in advance of the scheduled activities.

The Florida Board of Education and state law govern university policy regarding observance of religious holidays.

The following guidelines apply:

- Students, upon prior notification to their instructors, shall be excused from class or other scheduled academic activity to observe a religious holy day of their faith.
- Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence.
- Students shall not be penalized due to absence from class or other scheduled academic activity because of religious observances.

If a faculty member is informed of or is aware that a significant number of students are likely to be absent from class because of a religious observance, the faculty member should not schedule a major exam or other academic event at that time.

A student who is to be excused from class for a religious observance is not required to provide a second party certification of the reason for the absence. Furthermore, a student who believes that they have been unreasonably denied an education benefit due to religious beliefs or practices may seek redress through the student grievance procedure.

**Illness Policy**

If a student is absent from classes or examinations because of illness, they should contact their instructors. Students should contact their college by the deadline to drop a course for medical reasons. Students can petition the Dean of Students Office ([https://www.dso.ufl.edu/](https://www.dso.ufl.edu/)) to drop a course for medical reasons. The university's policy regarding medical excuse ([http://shcc.ufl.edu/forms-records/excuse-notes/](http://shcc.ufl.edu/forms-records/excuse-notes/)) from classes is maintained by the Student Health Care Center.

Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence.

**Twelve-Day Rule**

Students who participate in university-sponsored athletic or scholarly activities are permitted to be absent 12 scholastic days per semester without penalty. A scholastic day is any day on which regular class work is scheduled as defined in the approved university calendar. More Info (p. 11)

The student or student's advisor must notify the instructor as early as possible prior to the anticipated absence to allow ample time for accommodations. Instructors must be flexible and not penalize students when re-scheduling during-term and final exams, assignments, and other required activities and must follow the UF Attendance Policy herein and UF Examination Policies. As noted in the UF Examination Policies, during-term exams should be re-scheduled no later than before the end of the semester, while final exams no later than 90 days after the originally scheduled exam time. However, instructors are encouraged to re-schedule final and during-term exams, assignments, and other activities as soon as possible after the last day of the absence and must not penalize the student in any way. More Info (p. 1690)

A group's schedule that requires absence of more than 12 scholastic days should be adjusted so that no student is absent from campus more than 12 scholastic days. Students who previously have been warned in writing by their instructor about the impact of absences on their individual class performance should not incur additional absences, even if they have not been absent 12 scholastic days. The student is responsible to maintain satisfactory academic performance and attendance.

**Civic Literacy Requirement**

**Students Subject to the Requirement**

**Students who Need to Complete the Requirement**

1. First time in College (FTIC) students without an AA degree from a State of Florida University or Florida College System institution entering Fall 2018 or after.

OR

2. Students transferring to UF from an Out of State or Private Institution Fall 2018 or later.

OR

3. Students who entered a State of Florida University System or Florida College System institution Fall 2018 or after and transferred to UF, and did NOT meet the requirement at the previous institution.
Note: The University of Florida has elected to include 2018 Summer B admits as part of the Fall 2018 cohort. Therefore, Summer B 2018 admits are included in the cohort to meet this requirement. More Info (http://undergrad.aag.ufl.edu/for-students/)

**Options for Students to Meet the Civic Literacy Requirement**

1. Successfully passing either POSX041 American Government or AMHX020 Introductory Survey Since 1877. Each of the courses must include the following competencies:
   - Understanding of the basic principles and practices of American democracy and how they are applied in our republican form of government,
   - An understanding of the United States Constitution and its application,
   - Knowledge of the founding documents and how they have shaped the nature and functions of our institutions of self-government, and
   - An understanding of landmark Supreme Court cases, landmark legislation and landmark executive actions and their impact on law and society.

   OR

2. Achieving the standard score on one of the following assessments:

<table>
<thead>
<tr>
<th>Assessment</th>
<th>Standard Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>U.S. Citizenship and Immigration Services Naturalization Test-Civics (U.S. history and government) with supplemental questions</td>
<td>60</td>
</tr>
<tr>
<td>Advanced Placement Government and Politics: United States History</td>
<td>3</td>
</tr>
<tr>
<td>Advanced Placement United States History</td>
<td>4</td>
</tr>
<tr>
<td>CLEP American Government</td>
<td>50</td>
</tr>
</tbody>
</table>

**NOTE:** Dual enrollment courses taken prior to Fall 2018 do not satisfy the civic literacy requirement as those courses did not include the competencies required by statute until Fall 2018.

**Board of Governors Definitions**

**FTIC**

FTIC freshmen are defined as students who have earned a standard high school diploma from a Florida public or regionally accredited high school, or its equivalent, and who have earned fewer than twelve (12) semester hours of transferable college credit since receiving a standard high school diploma or its equivalent (Board of Governors Regulation 6.002).

- High school students who earn dual enrollment credits (regardless of the number of credit hours earned) prior to high school graduation who then graduate from high school and are admitted to an SUS institution in Fall 2018 or later are considered FTIC and are subject to the civic literacy requirement.
- High school students who have been admitted to an SUS institution as a degree-seeking student in Fall 2018 or later and who earn dual enrollment credits prior to graduating from high school are considered Early Admit FTIC and are subject to the civic literacy requirement.
- High school graduates who earn less than twelve (12) credit hours of college coursework after graduating from high school are considered FTIC at SUS institutions and are subject to the civic literacy requirement.

**Undergraduate Transfer Student**

Undergraduate transfer students are defined as students who have earned twelve (12) or more semester hours of transferable college credit since receiving a standard high school diploma or its equivalent (BOG Regulation 6.004).

**For More Information**

- Florida Statute 1007.25(4)(a)(b) (http://www.leg.state.fl.us/statutes/).
- BOG Regulation 8.006 (https://www.flbog.edu/board/regulated/).
- Questions regarding Florida College System (FCS) requirements should be directed to FCS staff and local FCS institutions.

**Degree and Graduation Policies**

**Degree Application**

Undergraduates must file an application for degree by the deadline with the Office of the University Registrar at ONE.UF (https://one.ufl.edu/). To file an application, select Certificate/Degree Application under My Record on the left menu.

Students must apply in the term in which they expect to graduate, regardless of applications in previous terms. If the student has completed all the requirements for degree, they will be required to graduate. Degree application deadlines are available under Dates and Deadlines. More Info (p. 11)

**Associate of Arts Degree**

Although not required, students may receive an A.A. degree, which is awarded by the College of Liberal Arts and Sciences. The degree must be awarded prior to or at the same time as the bachelor’s degree. The application is available on ONE.UF (https://one.ufl.edu/).

The Associate of Arts degree will be awarded upon satisfactory completion of:

- 60 credits; at least 36 of these credits must have been completed at UF
- General education requirements; 36 credits in communication, mathematics, social sciences, humanities, and natural sciences.
- Foreign language competence as described in Rule 6A-10.02412, F.A.C.

The rule can be obtained from:

Office of Articulation
Florida Department of Education
325 West Gaines Street
Tallahassee, Florida 32399

- An overall UF GPA of 2.0 (C)
- Writing requirement courses

**Catalog Year**

UF operates on a semester system. There are two semesters averaging 15 weeks of instruction, plus a week of final examinations and two six-
week summer terms. Semesters begin in August, January and May. The summer term is offered as a whole as Term C, or in two sessions as half terms, with Term A beginning in May and Term B beginning in June.

Catalog year determines the set of academic requirements that must be fulfilled for completion of a certificate or to graduate from a degree-granting program. Students complete a program under the catalog in effect at the time of their initial enrollment as a certificate or degree-seeking student at UF, a Florida public college or other Florida state institution, provided they maintain continuous enrollment (enrolling for at least one course in one term in an academic year). Students pursuing minors, dual degrees or double majors must have the same catalog year for each program. Students pursuing certificates may have separate catalog years for their certificate(s) and degree-seeking programs(s).

Students who do not maintain continuous enrollment will be assigned the catalog in effect at the time they resume enrollment. With the approval of the student's college dean's office they may choose to graduate under the requirements of a later catalog, but the student must fulfill all graduation requirements from that alternative catalog year.

The university will make every reasonable effort to honor the curriculum requirements appropriate to each student's catalog year. However, courses and programs will sometimes be discontinued and requirements may change as a result of curricular review or actions by accrediting associations and other agencies.

**College Dean's Certification**
Students who have completed all requirements for their degree will be required to graduate. The dean certifies that all requirements have been completed and that the student has been recommended by the faculty for graduation.

**Completion Deadline to Receive a Degree**
All work must be completed by the end of the final exam period for the fall and spring terms and by the last day of classes for the summer terms. A minimum UF cumulative grade point average of 2.0 must be earned for award of an undergraduate degree.

**Continuous Enrollment**
Undergraduate students who enroll for at least one course in one term in an academic year are continuously enrolled.

**Curriculum Requirements**
Students must complete all degree requirements established by the university, their college, their major and minor (if applicable); this includes completion of general education, writing requirement and the summer term enrollment requirements.

Minors are awarded only in conjunction with the receipt of a baccalaureate degree. To determine program requirements, refer to the academic advising (p. 1637) and majors (p. 67) sections.

**Degree Certification and Graduation Date**
All colleges, excluding professional programs in the colleges of Dentistry, Law, Medicine and Veterinary Medicine, will certify their graduates the Tuesday following the last day of classes for the summer terms or the Tuesday following the end of the final exam period for the fall and spring terms. This certification date will appear on the transcript and the diploma as the official date of graduation. Professional programs in the aforementioned colleges will use the date of their official commencement ceremony as the date of graduation. This date will appear on both the transcript and diploma as the official date of graduation, as required by professional accreditation guidelines.

**Diploma Replacement**
Each diploma ordered subsequent to the student’s initial degree application can result in a diploma replacement charge.

**Dual Degrees and Multiple Majors**
At the discretion of UF colleges and schools students can be permitted to pursue multiple degrees or majors.

- A student completing major and college requirements in two or more different colleges at the same time will receive two or more degrees. The transcript will list each degree and the appropriate majors.
- A student completing major and college requirements in one college and major requirements only in another college will receive a degree from the first college. The transcript will list the degree and each major.
- A student completing multiple majors that have the same degree, i.e., Bachelor of Arts or Bachelor of Science, will receive a single degree. The transcript will list the degree and each major.

**Foreign Language Requirement**
As a condition of admission to the university, students must complete two sequential courses of a foreign language in secondary school, 8-10 semester credits at the postsecondary level or document an equivalent level of proficiency.

Some degrees also have additional, specific foreign language requirements. To earn a UF degree, students must meet the requirements of their major and college in addition to the university’s foreign language requirement for admission.

**Pending Charge of Academic Dishonesty or Conduct Violation**
No degree will be conferred if a charge of academic dishonesty or student conduct violation is pending and the penalty could be dismissal, expulsion, failing grade or any combination of the above, until the charge is resolved and degree requirements are met.

**Residence Requirements**
The minimum residence requirement for the baccalaureate degree is two semesters.

- Students are required to complete the last 25% of the credits needed to satisfy the requirements of their major by taking UF courses.

**Summer Term Enrollment**
Students who enter a state university in Florida with fewer than 60 credits must earn at least nine credits before graduation during summer terms at State University System (SUS) institutions (http://www.flabog.edu/universities/). However, students who earn six credits through UF-sponsored, UF exchange or approved SUS study-abroad programs during one or two summer terms completely satisfy the summer-term enrollment requirement. In addition, credits earned through any of the study-abroad programs approved by UF during a summer term count toward satisfaction of the summer-term enrollment requirement.
Dropping Courses and Withdrawals

Dropping Courses

Dropping is defined as dropping an individual course or courses but not all courses in a term. Failure to attend a class does not constitute a drop.

During Drop/Add

- Courses can be dropped or added during drop/add without penalty.
- Classes that meet for the first time after drop/add closes can be dropped without penalty or fee liability if the request is submitted by the end of the next business day after the first class meeting. Students first must drop the course with their college advising office and then submit a written explanation to the Office of the University Registrar. This does not apply to laboratory sections.

After Drop/Add but Prior to the Drop Deadline

After drop/add, students may drop a course with the approval of their college until the drop deadline listed in the academic calendar. A grade of W will appear on the transcript, and students are liable for course fees.

All drops after drop/add must be completed by the drop deadline with the student’s college advising office and are subject to the following restrictions:
- Students get two drops in their first 60 credits attempted at UF. Credits attempted are defined as:
  - Credits carried excluding credits taken prior to the first term of degree-seeking enrollment, plus S/U credits, and repeats of satisfactory grades.
  - Full-term withdrawals from all courses and dropped courses do not count in credits carried.
- Students get two additional drops in the second 60 credits attempted. Unused drops do not carry over from the first 60 credits attempted to the second 60 credits attempted.
- Students entering UF as transfer students with an A.A. degree from a Florida public college or with 60 or more transfer credits earned from another college or university only get two drops.
- Students with disabilities who need to drop a course due to disability-related reasons are allowed to petition for additional drops. More information is available from the Disability Resource Center.
  - Approval to drop a course must be obtained from the student’s college.

After the Drop Deadline

- After the deadline and before the last day of classes, students may petition their college. Typically, they will need to demonstrate an extenuating circumstance justifying approval of a drop after the deadline.
- After the last day of classes, students would need to complete a University Petition Request for a Retroactive Drop.

Withdrawals

Withdrawal is defined as dropping all courses, not individual courses, in a term. Students who leave UF without withdrawing formally will receive failing grades for all courses.

Students should read the withdrawal instructions carefully before submitting their withdrawal online.

More Info (http://registrar.ufl.edu/services/withdrawals.html)

During Drop/Add

- Students may withdraw from all courses during drop/add without penalty.

After Drop/Add but Prior to the Withdrawal Deadline

- Students who withdraw after drop/add and before the withdrawal deadline will receive a grade of W for all courses.
- Students on university academic probation who withdraw before the Withdrawal Deadline will continue on probation until their UF cumulative GPA becomes a 2.0 or greater. Students on Admissions Committee probation must meet the terms of their probation.
- Students on college probation should check with their college/departmental advisor about college-specific requirements.
- Students considering petitioning for a medical withdrawal (https://dso.ufl.edu/2017/07/11/involuntary-medical-withdrawal-policy/) or retroactive medical withdrawal (https://care.dso.ufl.edu/submit-medical-petition/retroactive-medical-withdrawal/) should contact the Dean of Students Office for additional information about the process.

After the Withdrawal Deadline

- Students who wish to withdraw after the withdrawal deadline and before the last day of classes may petition their college. Typically, the student will need to demonstrate an extenuating circumstance justifying approval of a withdrawal after the deadline.
- After the last day of classes, students would need to complete a University Petition Request for a Retroactive Withdrawal.
  - More Info (http://registrar.ufl.edu/currents/petitioninstructs.html)

Withdrawal Due to Military Service

Per Florida Statute 1004.07, any student enrolled in a postsecondary course or courses at a state university shall not incur academic or financial penalties by virtue of performing military service on behalf of our country. These students shall be permitted the option of completing the course(s) at a later date without penalty or withdrawing from the course(s) with a full refund of fees paid. (Refer to refund of fees (p. 1690) information in the fees and fiscal section.) If the student chooses to withdraw, the record shall reflect that the withdrawal is due to active military service.

National Guard Troops Ordered into Active Service

Per Florida Statute 250.482, if a member of the Florida National Guard is ordered into active service, no private or public employer and no employing or appointing authority of this state, its counties,
municipalities, political subdivisions, public colleges or universities shall discharge, reprimand or in any other way penalize such member because of their absence by reason of state active duty.

Examination Policies and Reading Days

Final Exams
Final exams are determined by course meeting times, except for certain large courses.

- No student is required to take more than three final exams in one day.
- If two exams are scheduled at the same time, assembly exams take priority over time-of-class exams.
- When two assembly exams or two time-of-class exams conflict, the course with the higher number will take priority. Instructors giving make-up exams will make the necessary adjustments.
- Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence. A reasonable amount of time to make up a final exam is within 60 days of the originally scheduled final exam date; however, students in their graduation semester may require expedited accommodations to ensure graduation as scheduled.

During Term Exams

- During-term examinations are held during regular class times or during assembly exam periods, which are Monday-Friday from 8:20 - 10:10 p.m. (periods E2-E3) for the fall and spring terms and Monday-Friday from 7:00 - 9:45 p.m. (periods E1-E2) for the summer terms.
- If other classes are scheduled during an exam time, instructors must provide make-up class work for students who miss class because of an assembly exam.
- When two exams conflict, assembly exams (multiple sections and/or enrollment over 300) take precedence over non-assembly exams (single sections and/or enrollment under 300). If two assembly exams conflict, the course with the higher number will take priority. Likewise, if two non-assembly exams conflict, the higher number will again take priority. Instructors giving make-up exams will make the necessary adjustments.
- Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence. A reasonable amount of time to make up a during-term exam is before the end of the semester in which the student is enrolled in the class.

Reading Days

The two days before the start of examinations in the fall and spring semesters, generally a Thursday and Friday, are designated reading days. No classes or exams are held on these days; instead, students are encouraged to use these days for study and review.

There are no reading days in the summer terms because examinations are given during regular class periods.

Excused Absences

Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence. For assignments and during-term exams, a reasonable amount of time is within the term in which the student is enrolled in the class. For final exams, a reasonable amount of time is within 60 days after the originally scheduled final exam date; however, students in their graduation semester may require expedited accommodations to ensure graduation as scheduled.

Fees Fiscal Information

Admission Application Fee
An individual who applies for admission to the University of Florida shall pay a non-refundable application fee of $30.00. This fee is waived for applicants who provide documentation that they have received a fee waiver because of economic need as determined by the College Board or the American College Testing Program (UF 3.0376, Regulations of the University of Florida).

Admission Tuition Deposit
The $200 admission deposit (UF-3.0376 Regulations of the University of Florida) paid by the individual shall be applied toward payment of that individual’s tuition upon enrollment. The admission deposit shall not be reimbursed to an individual who does not enroll in the term offered for admission and who does not withdraw their acceptance of admission prior to the applicable deadline as published in the University Record. The deposit is waived for those individuals who have provided documentation that they have received an application fee waiver because of economic need as determined by the College Board, American College Testing Program, Law School Admissions Council, the American Association of Medical Colleges Fee Assistance Program or the American Association of Dental Schools Application Service.

Registration and Tuition and Fees Liability
Registration shall be defined as consisting of two components (UF-3.037 Regulations of the University of Florida):
1. formal enrollment in one or more credit courses approved and scheduled by the university; and
2. tuition and fee payments, or other appropriate arrangements for tuition and fee payment (deferment or third-party billing) for the courses in which the student is enrolled as of the end of the drop/add period.

Registration must be completed on or before the date specified in the university calendar. Students are not authorized to attend class unless they are on the class roll or have been approved to audit. Unauthorized class attendance will result in fee liability.

Fee Liability
All students are liable for all tuition and fees associated with all courses for which the student is registered at the end of the drop/add period (UF-3.037 Regulations of the University of Florida). The fee payment deadline is 3:30 p.m. of the last day of the second week of classes.

Assessment of Tuition and Fees
Tuition shall be assessed to students for enrollment in credit courses (UF-3.0375 Regulations of the University of Florida).

Students can calculate and pay their own tuition and fees on the secure ONE.UF portal.
More Info (https://one.uf.edu/dashboard/)

Students can estimate their tuition and fees on the University Bursar website.
Assessment of Student Fees

Activity and Service Fee
All students must pay an activity and service fee that is assessed on a per credit-hour or semiannual basis. (UF-3.0372, Regulations of the University of Florida)

Athletic Fee
All students must pay an athletic fee that is assessed on a per credit-hour or semiannual basis. Half-time research and teaching assistants enrolled for eight (8) or more credit hours during the Fall or Spring Semester and all other students enrolled for nine (9) or more credit hours are eligible to purchase football tickets at the student rate. (UF-3.0372, Regulations of the University of Florida)

Diploma Replacement Fee
Each diploma ordered after a student's initial degree application can result in a diploma replacement charge, variable, not to exceed $10.00 per item. (UF-3.0376, Regulations of the University of Florida)

Distance Learning Fee
Online courses may be assessed a per credit hour amount. (1009.24, Florida Statutes)

Health Fee
All students must pay a health fee that is assessed on a per credit-hour or semiannual basis. The health fee is not part of any health insurance a student may purchase. (UF-3.0372, Regulations of the University of Florida)

Material and Supply and Equipment Use Fee
Material and supply fees are assessed for certain courses to offset the cost of materials or supplies consumed in the course of instruction. A list of approved courses and fees is published in the Schedule of Courses each semester. (UF-3.0374 Regulations of the University of Florida)

The equipment use fee program allows units to charge for courses that use equipment in the educational process, which is used to prepare students for their careers or professions and is used for instructional purposes only with direct use by students. Material and supply and equipment use fee information is available from the academic departments or from the schedule of courses (Florida Statutes 1009.24).

Off-Campus Educational Activities
The president or the president's designee will establish fees for off-campus course offerings when the location results in specific identifiable increased costs to the university. These fees will be in addition to the regular tuition and fees charged to students enrolling in these courses on campus. The additional fees charged are for the purpose of recovering the increased costs resulting from off campus vis-a-vis on campus offerings. As used herein, off campus refers to locations other than main campus, branch campuses and centers. (UF-3.0376, Regulations of the University of Florida)

Registration for Zero Credits
The student is assessed the applicable resident or non-resident per credit-hour cost as set forth in Regulation UF-3.0375, for one credit hour. (UF-3.0376, Regulations of the University of Florida)

Technology Fee
All students must pay a technology fee that is assessed on a per credit-hour or semiannual basis. (UF-3.0375, Regulations of the University of Florida)

Transcript Fee
An official transcript may be purchased on the Registrar website or your ONE.UF (https://one.uf.edu/) account for a charge. (UF-3.0376, Regulations of the University of Florida)

Transportation Access Fee
All students must pay a transportation access fee that is assessed on a per credit-hour or semiannual basis. (UF-3.0372, Regulations of the University of Florida)

Repeat Course Fee
Beginning Fall 1997, any undergraduate course numbered 1000-4999 at the university for which a student registers three or more times will be subject to a repeat course fee at 100 percent of the full cost of instruction, calculated annually. (Section 1009.285, Florida Statutes)

Excess Hours Fee
All credit hours for courses taken at the state university from which the student is seeking a baccalaureate degree.

Pursuant to Section 1009.286, Florida Statutes, an additional student payment for credit hours exceeding baccalaureate degree program completion requirements at state universities.

Payment of Tuition and Fees
Tuition and fees are payable on the dates listed in the academic calendar. Deadlines are enforced.

More info (p. 11)

Tuition and fee payments are processed by University Bursar. Payments sent via U.S. mail must be received in the university cashier’s office by the established fee payment deadline. An on time payment for the tuition and fees deadline date is a receipt date, not a postmark date.
More Info (http://www.fa.ufl.edu/bursar/current-students/payments/)

According to university policy, university cashiers will accept checks only for the amount due in payment of tuition and fees, accounts receivable, loans and other student debts. Checks from international countries must be payable through a United States bank in U.S. dollars. The university can refuse two-party checks, altered checks and checks that will not photocopy. The university does not have the authority to waive late payment fees unless extraordinary circumstances warrant such a waiver or the university is primarily responsible for the delinquency. (UF 3.0022, University of Florida Regulations)

**Pay for tuition and fees and other charges at ONE.UF.**
More Info (https://one.ufl.edu/dashboard/)

### Payment Options
- Electronic check; there is no service charge for the electronic check payments.
- Credit cards: MasterCard, Discover, American Express, or Visa will include a 2.6 percent service charge for tuition and fees and accounts receivable charges (e.g., laser print, library fines, parking decals, etc.).
- International Payment via Western Union is a wire transfer; provides a competitive rate of exchange for many international currencies.
- In person payments: check, money order, or cashier's check. International paper checks or demand drafts must be drawn on a U.S. bank in U.S. dollars and amounts cannot be greater than the amount due. Any payment that is more than the amount due will not be refunded and will automatically be applied to a future debt.
- Cash and debit cards are not available payment options.

### Returned Payments
Returned electronic checks or paper checks will be charged a service fee of $25.00 if the returned payment is less than $50.00; $30.00 if the returned payment is $50.01 - $299.99 and $40.00 if the returned payment is $300.00 or more. Payments for returned electronic check payments, returned paper checks and the returned service fee must be paid by money order or cashier's check.

A $10.00 service fee will be charged if the bank information provided for the electronic check payment is inaccurate for electronic funds transfer. Payment for this type of return does not require a money order or a cashier's check.

*All financial obligations to the university will be applied on the basis of age of the debt. The oldest debt will be paid first.*

### Late Registration and Late Payment Fees

#### Late Registration Fee
Any student who fails to register prior to the late registration date published in the academic calendar will be subject to the late registration fee of $100.00. (UF-3.037, Regulations of the University of Florida)
More Info (p. 11)

#### Late Payment Fee
Any student who fails to pay all tuition and fees due or to make appropriate arrangements for tuition and fee payment (deferment or third party billing) by the fee payment deadline published in the academic calendar will be subject to a late payment fee of $100.00. (UF-3.037, Regulations of the University of Florida)
More Info (p. 11)

### Waiver of Late Fees
A student who believes that a late fee should not be assessed because of university error or extraordinary circumstances that prevented all conceivable means of compliance by the deadline may petition for a waiver. Late registration fee: Office of the University Registrar; Late payment fee: University Bursar. The university reserves the right to require documentation to substantiate these circumstances.

### Deferment of Tuition and Fees
Deferment extends the deadline for payment of tuition and fees for a specific term. A tuition and fee deferment is granted based on information from Student Financial Affairs (financial aid deferments) or the Office of the University Registrar (veterans). Refer questions on eligibility to the appropriate office. A tuition and fee deferment must be established by the tuition fee payment deadline for each term. A tuition and fee deferment is provided to students in the following circumstances:

- Students receiving benefits from state or federal financial assistance programs (1009.27, Florida Statutes).
- Students receiving veterans or other educational benefits under Chapter 30, Chapter 31, Chapter 32, Chapter 33, Chapter 34, Chapter 35, Chapter 106 or Title 10, U.S.C.; or
- Students for whom formal arrangements have been made with the university for payment by an acceptable third-party sponsor.

A $100.00 late payment fee will be assessed if a student fails to pay all tuition and fees due by the deferment deadline.

### Deadlines
**Deadlines are enforced.**

The university does not have the authority to waive late payment fees unless extraordinary circumstances warrant such waiver or the university is primarily responsible for the delinquency.

### Waiver or Exemption of Tuition and Fees
UF may waive tuition and fees as follows:

- Any dependent child of a special risk member killed in the line of duty, pursuant to Chapter 112.19, Florida Statutes.
- A student enrolled through the Florida Linkage Institutes Program is entitled to a waiver of the non-resident tuition and fees pursuant to 288.8175 Florida Statutes.
- Intern supervisors for institutions within the State University System may be given one non-transferable certificate (fee waiver) for each full academic term during which the person serves as an intern supervisor, pursuant to 1009.26, Florida Statutes.
- Persons 60 years of age or older who are Florida residents, pursuant to Chapter 1009.26, Florida Statutes.
- A student who is or was at the time he or she reached 18 years of age in the custody of a relative or non-relative under s. 39.5085 or s. 39.6225 or who was adopted from the Department of Children and Families after May 5, 1997. Such exemption includes fees associated with enrollment in applied academics for adult education instruction. The exemption remains valid until the student reaches 28 years of age after May 5, 1997, pursuant to Chapter 1009.25, Florida Statutes.
- A student who lacks a fixed, regular, and adequate nighttime residence or whose primary nighttime residence is a public or private shelter designed to provide temporary residence, a public or private transitional living program, or a public or private place not designed...
for, or ordinarily used as, a regular sleeping accommodation for human beings. This includes a student who would otherwise meet the requirements of this paragraph, as determined by a college or university, but for his or her residence in college or university dormitory housing.

- Purple Heart recipients pursuant to Chapter 1009.26, Florida Statutes.
- Apply for enrollment in an institution of higher education within 24 months after high school graduation; and submit an official Florida high school transcript as evidence of attendance and graduation, may have the non-Florida resident fee waivered as provided by Chapter 1009.26, Florida Statutes.
- Non-Florida resident fee for a veteran; C.W. “Bill” Young Veteran Tuition Waiver, pursuant to Chapter 1009.26, Florida Statutes.

The non-Florida student financial aid fee may not be waived for students receiving an out-of-state tuition and fee waiver.

### Non-Payment of Tuition and Fees

The university shall temporarily suspend further academic progress of any student who has not paid the entire balance of their tuition and fee liability by the established deadlines. This will be accomplished by placing a financial hold on the student’s record, which will prevent the student from receiving grades, transcripts and/or diploma, and the student’s registration will be denied for future terms until the account has been satisfied. (UF-3.037 Regulations of the University of Florida)

Students who have not paid any portion of their tuition and fee liability by the established university payment deadline will be withdrawn from all courses. Students will continue to be held fee liable for these courses, but will not be allowed to attend these courses until payment is made in full and the student has been re-registered.

To re-register for courses, students must submit a Current Term Re-Enrollment Request petition to the Office of the University Registrar.

Students who re-register after being withdrawn for non-payment of tuition and fees will be subject to both late registration and late payment fees.

### Refund of Tuition and Fees

The following circumstances may constitute a tuition and fees refund (UF 3.0371 Regulations of the University of Florida):

- If notice of withdrawal from the University is approved prior to the end of the drop/add period and written documentation is received from the student
- Credits dropped during drop/add period
- Courses cancelled by the university
- Involuntary call to active military duty
- Death of the student or member of the immediate family (parent, spouse, child, sibling)
- Illness of the student of such severity or duration, as confirmed in writing by a physician, that completion of the semester is precluded
- Exceptional circumstances, upon approval of the university president or his designee

A refund of 25 percent of the total fees paid (less late fees) is available for withdrawal of enrollment of all courses from the university prior to the deadlines listed in the academic calendar.

More Info (p. 11)

Refunds are issued by University Bursar and will be applied against any university debts. The university reserves the right to set minimum amounts for which refunds will be produced for overpayments on student accounts.

Tuition refunds due to cancellation, withdrawal or termination of attendance for students receiving financial aid will first be refunded to the appropriate financial aid programs. If the student is a recipient of federal financial aid, such as Grad Plus Loan, Pell Grant, TEACH Grant, Supplemental Educational Opportunity Grant (SEOG), Perkins Loan, Federal Direct Stafford Loans or PLUS loans, federal rules require that any unearned portion of the federal aid must be returned to the U.S. Department of Education.

### Direct Deposit Requirement

Due to the university’s continuing support for sustainable practices, as well as the costs associated with producing, mailing, and tracking undelivered checks, direct deposit is now required for the delivery of refunds, whether financial aid or student overpayments. This electronic method will deposit any overpayments to the student’s checking account. Students must give authorization on ONE.UF (https://one.uf.edu/dashboard/), select the Campus Finances (Bursar) card > Related Links > Sign up for Direct Deposit to have financial aid or overpayments electronically credited to a U.S. bank or other U.S. financial institution checking account.

### Florida Prepaid Tuition College Program

The Florida Prepaid College Program is a state of Florida administered program that provides Florida families affordable means to save for their children’s future college education.

At the University of Florida, students with a Florida Prepaid account will not have to show their Florida Prepaid documentation. University Bursar works directly from an electronic file provided by the Florida Prepaid College Program. University Bursar matches that file to the names and social security numbers of enrolled UF students to determine eligibility and available credits that can be billed to the program. If Prepaid is not showing on the student’s ONE.UF record the first week of classes, contact the University Bursar at 352.392.9545.

More Info (https://one.uf.edu/dashboard/)

University Bursar will automatically bill the Florida Prepaid Program for the tuition and applicable fees of eligible students. The program will be billed each term that a student is registered at UF and continues to have credits available.

Florida Prepaid Program has a variety of plans. However, no plan pays 100 percent of tuition and fees. Listed below are fees that are not covered by a prepaid plan and must be paid by the fee payment deadline each term to avoid assessment of a $100.00 late payment fee:

- Distance learning fees
- Equipment fees
- Excess credit hour surcharge fees
- Late payment fees
- Late registration fees
- Material and supply fees
- Repeat course surcharge
- Transportation access fees
- Test fees
- Technology fees
Opting out of Florida Prepaid

Eligible students can choose to decline the use of the prepaid plan online for a fall, spring, or summer term.

Opt out of Florida Prepaid at ONE.UF.
More Info (https://one.uf.edu/dashboard/)

The option to opt out online for the current term must be completed prior the day prior to the tuition deadline. The online opt out option is not available on the fee payment deadline day; therefore, students choosing to opt out on the deadline day or those who need to cancel an online selection must contact the University Bursar at 352.392.9545 or Ask Bursar Help (https://uf.tfaforms.net/125/).

Students must opt out each term they decline to use their prepaid plan. Only one academic term will be available online to opt out any given time.

Florida Prepaid and Financial Aid

Students participating in the Florida Prepaid College Program who are also expecting to receive financial aid (i.e., Bright Futures, Pell, student loans, other scholarships/grants) will have the Florida Prepaid applied first to tuition and applicable fees. Financial aid received will be disbursed and applied to outstanding charges, which may include tuition and fees not covered by the program. Any excess financial aid that remains after debts have been paid will be refunded to the student or if there is a Plus loan this will be refunded to the student or parent.

Study Abroad Programs and Distance Learning

Students participating in any study abroad program or receiving instruction through flexible learning, also can bill the Florida Prepaid College Program. Students must contact the following departments for assistance with billing the Florida Prepaid program:

Study Abroad Programs
UF International Center, Study Abroad Services
170 HUB Stadium Road
Gainesville, FL 32611
352.273.1539

Flexible Learning Courses
Distance Learning
2124 NE Waldo Road, Suite 1101
Gainesville, FL 32609
352.392.2137

Additional questions regarding the UF Florida Prepaid billing process? Call University Bursar at 352.392.9545 or Ask Bursar Help (https://uf.tfaforms.net/125/)

Questions about the Florida Prepaid Program?
Call 1.800.552.4723 (552.GRAD)

General Fiscal Information

Students can pay on their ONE.UF account the exact amount of tuition and fees and/or other amounts owed the university. The online payment system accepts the following payment methods: American Express, MasterCard, Discover, or Visa credit cards and electronic checks from checking accounts and international payments via wire transfer. More Info (https://one.uf.edu/dashboard/)

Students can also pay at the University Bursar office with personal checks, cashier’s checks and money orders, which can be placed in the 24-hour drop box located outside 113 Criser Hall. Payments on all financial obligations to the university will be applied on the basis of age of the debt. The oldest debt will be paid first.

University Bursar does not accept cash or debit card payments and does not cash checks or make cash refunds.

It is the student’s responsibility to maintain a correct current address in the UF directory. More Info (http://www.registrar.ufl.edu/directoryinfo.html)

Address changes should be made online at ONE.UF. More Info (https://one.uf.edu/dashboard/)

Past-Due Student Accounts

All student accounts are payable at the University Bursar office or on ONE.UF at the time such charges are incurred. Graduating students with outstanding financial obligations will have a hold placed on their records withholding release of a diploma, transcript and other university services until the debt is satisfied.

More Info (https://one.uf.edu/dashboard/)

University regulations prohibit the following for any student whose account with the university is delinquent until the debt has been satisfied:

• Registration
• Release of transcript, diploma, grades or schedules
• Loans
• The use of UF facilities and/or services
• Admission to UF functions and athletic events

Delinquent accounts, including those debts for which the student’s records have a financial hold, may require payment by cashier’s check or money order.

Delinquent debts may be placed with a billing agent, reported to a credit bureau and referred to collection agencies without further notice or litigated, at which time additional collection costs will be assessed in accordance with UF-3.0376, Regulations of the University of Florida. All payments received are applied to the oldest debt first.

FERPA and Confidentiality of Student Records

The university ensures the confidentiality of student records in accordance with the provisions of various federal, state, and university regulations, including the Family Educational Rights and Privacy Act of 1974 (FERPA), as amended, also known as the Buckley Amendment. The statutes and regulations also provide certain rights to students concerning their education records.
The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include:

1. **The right to inspect and review the student’s education records within 45 days of the day the University receives a request for access.** A student should submit to the registrar, dean, head of the academic department, or other appropriate official, a written request that identifies the record(s) the student wishes to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. **The right to request the amendment of the student’s education records that the student believes are inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA.** A student who wishes to ask the University to amend a record should write the University official responsible for the record the student wants changed, and specify why it should be changed. If the University decides not to amend the record as requested, the University will notify the student in writing of the decision and the student’s right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. **The right to provide written consent before the University discloses personally identifiable information from the student’s education records, except to the extent that FERPA authorizes disclosure without consent.** FERPA authorizes disclosure without consent in several situations, including but not limited to the following: A) The University may disclose education records without a student’s prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position; a person or entity with whom the University has contracted as its agent to provide a service instead of using University employees or officials; a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing their tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill their professional responsibilities for the University. B) Upon request, the University may disclose education records without consent to an official of another school in which a student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student’s enrollment or transfer. C) Directory information (https://directory.ufl.edu/) may be released freely unless the student files the appropriate form requesting that certain public information not be released. This form is available in the Office of the University Registrar.

4. **The right to file a complaint with the U. S. Department of Education concerning alleged failures by the University of Florida to comply with the requirements of FERPA.**

The name and address of the office that administers FERPA is:

Family Policy Compliance Office
US Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-5901

Release of student record information is generally not permitted at the University of Florida without the express, written consent of the student. There are, however, some important exceptions.

**Directory Information** is defined as the student’s name, class and college, local and permanent addresses, listed telephone number, email address, enrollment status, most recent previous educational institution attended, dates of attendance at the University of Florida, majors, minors, certificates, concentrations and degrees earned, nature and place of employment at the University, honors and awards received, publication titles, participation in officially recognized or registered activities and sports, and weight and height of members of athletic teams.

Under FERPA, the university may release directory information without a student’s prior consent, unless the student tells the university not to release this information, by placing what is known as a privacy hold. Please note that selecting the “Do not publish” option in the UF directory is not the same as placing a privacy hold under FERPA. In order to place a privacy hold, the student must complete a Request for Restriction of Directory Information (Full Privacy Hold). This form is available by contacting the Office of the University Registrar by email (help@registrar.ufl.edu), phone (352.392.1374), or by visiting the Registrar’s Information Counter in 222 Criser Hall.

Two important details regarding placing a privacy hold on a student’s record:

- The university receives many inquiries for directory information from a variety of sources outside the institution, including friends, parents, relatives, prospective employers, the news media and honor societies. A privacy hold will preclude the release of such information, even to those people.
- A privacy hold applies to all elements of directory information in a student’s student record. The Office of the University Registrar does not apply the privacy hold differentially to the various directory information data elements. A request for a privacy hold will result in all data elements being withheld. Changes made by the online student directory will not be reflected on the student’s academic record.

A copy of FERPA, more details (http://www.registrar.ufl.edu/ferpa.html) about student rights and any university policies related to the FERPA are available from the Office of the University Registrar. Please refer any questions concerning FERPA to that office in 222 Criser Hall, 352.392.1374.
Confidentiality of Student Records

Directory Information that can be released to the public is limited to:

- Student name
- Class and college
- Local and permanent addresses
- Listed telephone number
- Email address
- Enrollment status
- Most recent previous educational institution attended
- Dates of attendance at the University of Florida
- Majors
- Minors
- Certificates
- Concentrations
- Degree earned
- Nature and place of employment at the university
- Honors and awards received
- Publication titles
- Participation in officially recognized or registered activities and sports
- Weight and height of university athletes

The Office of the University Registrar routinely releases directory information to the public. Directory information may also be released by other university departments and/or employees. Currently enrolled students who want to restrict directory information must contact the Office of the University Registrar for assistance.

More Info (http://www.registrar.ufl.edu/currents/addresschange.html)

Student educational records may be released without the student’s consent to school officials who have a legitimate educational interest in accessing the records. School officials shall include:

- An employee, agent or officer of the university or State University System of Florida in an administrative, supervisory, academic, research or support staff position;
- Persons serving on university committees, boards and/or councils; and
- Persons employed by or under contract to the university to perform a special task, such as an attorney or an auditor.

Legitimate educational interest shall mean any authorized interest or activity undertaken in the name of the university for which access to an educational record is necessary or appropriate to the operation of the university or to the proper performance of the educational mission of the university.

The university also may disclose information from the student’s educational record without their consent to individuals or entities permitted such access under applicable federal and state law.

Students have the right to review their own educational records for information and to determine accuracy. A photo I.D., other equivalent documentation or personal recognition by the custodian of record will be required before access is granted. Parents of dependent students, as defined by the Internal Revenue Service, have these same rights upon presentation of proof of the student’s dependent status. Each spring when the catalog is published, students are notified of their FERPA rights.

If a student believes their educational record contains information that is inaccurate, misleading or in violation of their rights, they can ask the institution to amend the record. The UF Student Guide outlines the procedures for challenging the content of a student record, as well as the policies governing access to and maintenance of student records.

More Info (https://sccr.dso.ufl.edu/students/student-conduct-code/)

If a student believes the university has not maintained the confidentiality of their educational record as required by law, they may file a complaint by contacting:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue SW
Washington, D.C. 20202-5901
Grades and Grading Policies

Grades

The Office of the University Registrar records student grades. The word credit refers to one semester hour, generally representing one hour per week of lecture or two or more hours per week of laboratory work.

Passing Grades and Grade Points

Credit Earned Prior to May 11, 2009 - Summer A

Definitions

E
- Failure

H
- Deferred grade assigned only in approved sequential courses or flexible learning

I* / I
- Incomplete

N* / NG
- No grade reported

S
- Satisfactory

U
- Unsatisfactory

W
- Withdrew

WF
- Withdrew failing

I*, N* and I, NG Grades

I* or N* grades recorded on the student record indicate the non-punitive initial-term receipt of an I or NG. A grade of I* or N* is not considered a failing grade for the term in which it is received, and it is not computed in the grade point average. However, if the I* or N* has not been changed after 150 days, it will be counted as a failing grade and used in computation of a student's grade point average.

For purposes of determining grade point average after the initial receipt of an I* or N* grade, the three summer terms are considered collectively as a single term. I* and N* grades are not assigned to graduating students; they receive failing grades of I or NG.

An incomplete grade may be assigned at the discretion of the instructor as an interim grade for a course in which the student has completed a major portion of the course with a passing grade, been unable to complete course requirements before the end of the term because of extenuating circumstances, and obtained agreement from the instructor and arranged for resolution of the incomplete grade. Instructors are not required to assign incomplete grades.

If make-up work requires classroom or laboratory attendance in a subsequent term, students must not register for the course again. Instead, they should audit the course and pay course fees.

Non-Punitive Grades and Grade Points

<table>
<thead>
<tr>
<th>Grade Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
</tr>
</tbody>
</table>

Passing Grades and Grade Points

The degree-granting college may require a specific minimum grade in particular courses.
If the make-up work does not require classroom or laboratory attendance, the student and their instructor should decide on an appropriate plan and deadline for completing the course.

When the course is completed, the instructor will initiate the change of grade. These procedures cannot be used to repeat a course for a different grade. An I grade should not be assigned to a student who never attended class; instead, instructors should assign a failing grade.

W and WF Grades
Courses dropped after drop/add and before the withdrawal deadline will be graded W. WF grades are no longer issued by the university, but in previous years they reflect courses dropped after the withdrawal deadline.

More Info (p. 1689)

Satisfactory/Unsatisfactory Grade Option (S/U)
Subject to college degree program and department guidelines, students can take elective coursework and earn grades of S (satisfactory) or U (unsatisfactory). A grade of S is equal to a C (2.0) or better. Grades earned under the S/U option do not carry grade point values and are not computed in the University of Florida grade point average. Courses with a grade of S will count as credits earned in a degree program. Such grades are included in the student’s permanent academic record and are reflected on the transcript. After the S/U option is approved, the grade cannot revert to a letter grade.

Other academic institutions and agencies may interpret a grade of U as a failing grade.

If a student chooses the S/U option they must be in good standing and not on university academic probation. To elect the S/U option, students must obtain the approvals indicated on the form. Students can elect the S/U option for one course only each term; this option is in addition to courses that are taught only on an S/U basis. Courses taken to fulfill the general education and the writing requirement cannot be taken S/U.

For fall, spring and summer C terms, the S/U option deadline is Friday of the third week of classes. For summer A and summer B terms, the deadline is Wednesday of the second week of classes.

H Grades
An H grade, which signifies a deferred grade assignment, is normally assigned at the end of a term when a specific course’s class calendar differs from the traditional course calendar. Now that UF flexible learning courses have been incorporated into the student records system, H grades will also be assigned to students who cannot complete their flexible learning course requirements before the end of the traditional grade cycle.

While H grades for traditional courses become punitive at a date determined by the college, H grades for flexible learning coursework generally become punitive 32 weeks after course enrollment. However, any grade of H received by a degree candidate will become punitive (and calculated as a failing grade) at degree certification.

Grading Policies

Grade Point Averaging
The term average refers to the grade point average (GPA) for work completed in the current or most recent academic program attended at the University of Florida. Grades received at other institutions are NOT averaged with grades received at the University of Florida for the purpose of meeting university GPA requirements. Other agencies and honorary societies will compute averages in accordance with their own standards and policies. Averages are determined by computing the ratio of grade points to semester credits attempted.

Dismissal for Insufficient GPA
Just as a sufficient GPA is critical for academic success, an insufficient GPA could lead to dismissal from the university. Students must maintain a minimum GPA based on their cumulative UF credits to avoid dismissal and cancellation of advanced registrations.

To see calculations based upon former grade values, please refer to the 2009-10 undergraduate catalog (http://www.registrar.ufl.edu/catalog0910/policies/regulationgrades.html).

Repeat Coursework
University of Florida coursework that is repeated is counted in the computation of your UF grade point average as many times as grades for that course are recorded, although credits will be awarded only once.

When you earn a C (2.0) or higher in a course, you will not be allowed to repeat that course. Any exceptions to this policy must be made via an approved petition to the student's college.

If you entered UF with credit for Advanced Placement (AP) or International Baccalaureate (IB) courses and you then repeat and pass the equivalent course at UF, you will receive a grade for the UF course and no credit for the prior work.

Grades received at other institutions will not be averaged with grades received at the University of Florida. Repeat coursework taken at the
University of Florida will result in calculation of the UF grade in the UF grade point average only, with credit earned only once.

**Outcomes when Repeated Coursework involves Transfer Coursework**

Coursework taken at another institution, then repeated at UF
Only UF grade computed in GPA; credit earned only once.

Coursework taken at UF, then repeated at another institution
Only UF grade computed in GPA; credit earned only once.

Coursework taken and repeated at another institution
No grades will be calculated into the UF GPA and credit is awarded only once.

Repeat course equivalencies are identified based on the state’s common course taxonomy. Refer to the statewide course numbering system (p. 1704) for the definition of course equivalencies.

Colleges may not accept grade points and credits earned from lower level courses if they are taken after the student has received credit/grades for advanced courses or exam credit in the same field.

**Grade Changes**

Grade changes will be accepted and processed by the Office of the University Registrar for one calendar year after the term in which the course was attempted.

Any grade changes submitted after the deadline must be accompanied by additional supporting information or documentation justifying the extension and submitted to the appropriate college dean. If the dean approves the exception, they will forward an authorized grade change form to the Office of the University Registrar.

One calendar year is specified as the published grades due date of the same semester in the following year.

This policy does not apply to grades of I or I*, which designate a grade of incomplete.

**Registration Policies**

**Course Load Requirements**

The minimum full-time load for undergraduate students is 12 credits. The minimum full-time load for a summer term is 12 credits. Postbaccalaureate students are considered undergraduates.

Students with disabilities who are registered with the Disability Resources Center are eligible for full-time status and all the benefits thereof at or below 12 credits.

More Info (http://www.dso.ufl.edu/drc/)

The minimum load for full-time undergraduate student benefits from the Veterans Administration is 12 credits for fall, spring, and summer terms. The minimum load for full-time undergraduate student benefits from the Social Security Administration is 12 credits per semester; a full-time load for graduate students is 9 credits. Inquiries related to Social Security benefits should be directed to the student’s local Social Security Office.

The Office of the University Registrar will complete enrollment certificates issued by the Social Security Administration for students eligible to receive educational benefits, as long as the student is a full-time undergraduate. Students receiving financial aid and students with disabilities should refer to Financial Aid's enrollment requirements for complete information.

More Info (http://www.sfa.ufl.edu/receiving/enrollment-requirements/)

University regulations allow a maximum load of 18 credits. Some colleges have differing maximum loads; refer to the college sections for specific information.

With college approval you may register for less than the minimum or more than the maximum load. After late registration, you cannot drop below the minimum load without successfully petitioning your college dean.

Simultaneous enrollment in flexible learning courses or extension work at another college or university is counted when computing the maximum course load but not the minimum course load.

**Non-Degree Registration**

Non-degree enrollment is restricted to participants in special programs, off-campus programs, university-affiliated exchange programs, and high school/college dual-credit enrollment. (Special regulations govern high school/college dual enrollment for academically advanced students in Florida high schools.)

More Info (http://www.registrar.ufl.edu/registration/transients.html)

Undergraduate students who have been denied admission to UF for any term are not eligible for non-degree registration. If you previously have attended UF in a degree-seeking status and did not subsequently earn a bachelor’s degree, you are not eligible for non-degree registration.

Non-degree enrollment is subject to the availability of faculty, space and facilities. No application for admission is required.

Non-degree enrollment is generally limited to the summer terms.

**UF Students Attending Other Schools**

Normally, UF students are not permitted to register at another institution for a course or its equivalent that is offered at UF.

More Info (http://www.registrar.ufl.edu/currents/transients.html)

**Visiting Students Attending UF**

Undergraduate students in good standing at another accredited collegiate institution can enroll full time at UF as non-degree transient students to complete work to transfer back to the parent institution.

More Info (http://www.registrar.ufl.edu/currents/transients2.html)

UF will not evaluate work previously completed, and it is the student’s responsibility to secure approvals required by the parent institution. Certification to Social Security and Veterans Administration programs also is the responsibility of the student, who must request each institution to furnish records.

Non-degree students are subject to the following restrictions:

- Non-degree students must meet state of Florida immunization requirements.
- Course enrollment requires the approval of the college at the beginning of each term. The college of enrollment has the authority to terminate a non-degree enrollment before registration for any term. Generally, non-degree registration is for one term only.
- Registration is not permitted until the last three days of the fall/ spring drop/add period and must be completed by the end of drop/
add; failure to register by that deadline will result in a late registration fee.

- Registration is not permitted until the first day of the summer drop/add period and must be completed by the end of drop/add; failure to register by that deadline will result in a late registration fee.
- The same grading system is applicable to degree and non-degree students. Non-degree credit may be applicable to a UF degree upon subsequent admission to degree status and determination of appropriate application of such credit in the student's degree program. Authorization to enroll as a non-degree student in no way implies future approval for admission as a degree-seeking student.
- Non-degree enrollment status will be denied to any student under suspension or dismissal from a postsecondary institution or not in good standing at any institution previously enrolled, including UF, even if the student has subsequently attended another institution. Non-degree students are subject to other regulations and restrictions imposed by the college or department in which they wish to enroll.
- Non-degree students taking courses at the university will be required to register for and to attend classes under the university calendar. Non-degree students must pay appropriate UF fees based on course level, number of credits and residency status.

Auditing Courses

Auditing a course is approved on a space-available basis. In addition to paying tuition and fees, the student must obtain approvals from both the instructor and dean of the college offering the course. Immunizations also are required. More Info (http://www.registrar.ufl.edu/currents/specialregistrations.html)

Audited courses are reflected on the academic transcript with a grade value of AUD.

Students auditing a course to complete course requirements should refer to Grades and Grading Policies. More Info (p. 1697)

Transfer Credit

Credit is awarded for college-level coursework completed at a U.S. institution of higher education accredited by one of the following institutional accreditors or its equivalent from a foreign institution:

- Western Association of Schools and Colleges, Accrediting Commission for Community and Junior Colleges (ACCJC)
- New England Commission of Higher Education (NECHE)
- Higher Learning Commission (HLC)
- Middle States Commission on Higher Education (MSCHE)
- Northwest Commission on Colleges and Universities (NWCCU)
- Southern Association of Colleges and Schools Commission on Colleges (SACSCOC)
- WASC Senior College and University Commission

Courses must be similar in nature and content to courses in our undergraduate curriculum to be transferred. Courses that are remedial, technical, vocational, or doctrinal in nature are not transferable to an undergraduate degree. It is the prerogative of the student’s UF college to determine how transfer credits apply to a degree. Students should expect to receive 60 transfer credits with an AA degree from a Florida public community/state college.

Junior/senior-level (courses numbered 3000-4000) course requirements for the major must be completed at UF or, with permission of the student’s UF college, at another accredited baccalaureate degree-granting institution. Refer to Residence Requirements for additional policy regarding graduation requirements. More Info (p. 1687)

Students are required to submit final official transcripts from all institutions attended before or during their enrollment at UF.

Failure to declare attendance at another institution can invalidate admission to UF and any credits or degrees earned.

Transcript Policies

The Office of the University Registrar maintains all students’ academic records. At the end of each term of enrollment, students can view their grades, cumulative credits earned, grade points, probationary status and degrees earned, if any, on ONE.UF. More Info (https://one.ufl.edu/)
The University of Florida transcript is the comprehensive record of courses taken at UF, credit earned by examination, university-level honors, certifications and certificates, and degrees awarded. The student’s name will appear on the transcript as it appears on their university record.

Transcripts can be ordered online on ONE UF. Payment must accompany each transcript order; transcripts cannot be ordered by telephone, fax or email. Current and former students will need a valid GatorLink account (with an active username and password) to order an official transcript or to view and print an unofficial copy of their UF transcripts on ONE UF. The unofficial copy of the UF transcript may not be accepted by other institutions or potential employers. More Info (https://one.uf.edu/)

The university maintains the right to withhold release of a transcript if a student has an outstanding financial obligation to the university. To reflect a complete academic record for undergraduate, graduate and professional students, the university will issue complete transcripts only. Transcripts do not differentiate between degrees or courses taken in a classroom or online format.

Student Life

Student Services

Division of Student Affairs

The University of Florida Division of Student Affairs creates a signature student experience, developing bold and highly effective graduates. We take pride in guiding the university’s efforts for students centered on: Health and Wellness, Leadership, Success Services, and Career Readiness.

The Office of the Vice President for Student Affairs, located in 135 Tigert Hall, has administrative responsibility for the Career Resource Center, Counseling and Wellness Center, Dean of Students Office, First Generation Student Success, GatorWell Health Promotion Services, Housing and Residence Education, J. Wayne Reitz Union, Machen Florida Opportunity Scholars Program, Multicultural and Diversity Affairs, Recreational Sports, Student Activities and Involvement, and Student Legal Services. More Info (http://www.ufsa.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0026)

Campus Facilities

On 2,000 acres, most of it within the limits of a 125,000-population urban area, the university operates out of close to 1,000 buildings, almost 200 of them equipped with classrooms and laboratories. Facilities are valued at more than $1.5 billion. Notable among these are the Brain Institute, the physics building, University Art Gallery, a microkelvin laboratory capable of producing some of the coldest temperatures in the universe, a 100-kilowatt training and research nuclear reactor, the second largest academic computing center in the South, and a self-contained intensive-care hyperbaric chamber for treating near-drowning victims.

Ben Hill Griffin Stadium

Ben Hill Griffin Stadium, or The Swamp, is widely recognized as one of the toughest environments for a visiting team in all of college football. Several facelifts after the stadium’s original construction in 1930 have made Florida Field at Ben Hill Griffin Stadium a state-of-the-art facility. The Swamp is the largest stadium in the state of Florida.

Florida Museum of Natural History

The Florida Museum of Natural History is the largest natural history/anthropology museum in the Southeast and one of the top 10 in the nation. Its research collections contain nearly 6.5 million specimens. More Info (http://www.flimnh.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0181)

Harn Museum of Art

The Samuel P. Harn Museum of Art, with 18,000 square feet of exhibit space, is one of the largest museums in the Southeast. The Curtis M. Phillips Center for the Performing Arts attracts world-class symphony orchestras, Broadway plays, operas, and large-scale ballet productions to Gainesville. More Info (http://harn.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0309)

Newell Hall

Originally built in 1909, Newell Hall is the 3rd oldest building on campus. The facility was completely repurposed to create an active learning environment for both undergraduate and graduate students. It provides a high-tech, collaborative environment with open plan study rooms to foster a creative environment focused on innovation, flexibility, and accessibility. Map (http://campusmap.ufl.edu/?loc=0013)

O’Connell Center

The Stephen C. O’Connell Center covers three acres and is used by the university for classes, intercollegiate sports, general recreation, and a variety of other entertainment events. An Olympic-sized swimming pool, dance studio, gymnastics studio, martial arts room, free style weight room, Nautilus center, track, badminton, volleyball courts, and practice basketball court are located in and around the perimeter of the 12,000 seat main arena. The versatility of this facility permits as many as eight recreational activities to be conducted simultaneously. All recreational, educational and entertainment facilities within the O’Connell Center have been designed to accommodate persons with disabilities. More Info (http://oconnellcenter.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0094)

Reitz Student Union

The newly expanded J. Wayne Reitz Student Union provides space for a myriad of student and faculty activities. More than 20,000 people use the Reitz Union daily for various activities, including shopping, dining, student organizations and hotel services. More Info (https://www.union.ufl.edu/default/) Map (http://campusmap.ufl.edu/?loc=0686)

Campus Safety and Security

Contact: Email (wbarber@ufl.edu?Subject=Campus%20Safety%20and %20Security) 352.273.3309

The University of Florida Police Department (UFPD) recognizes that it must maintain the safest and most secure environment possible for all students, faculty and staff, and campus visitors. The UFPD has...
the utmost concern for personal and property safety, but with an open campus environment, safety becomes a shared responsibility.

The UFPD is a state of Florida and nationally accredited law enforcement agency. There are more than 90 fully certified and sworn officers who patrol the UF campus and its surrounding properties 24 hours per day, every day. The department has its own Criminal Investigations Division employing highly trained detectives to investigate any reported crime on campus. The officers of the Uniformed Patrol Division are highly trained campus law enforcement professionals who are equipped with the most contemporary crime-fighting techniques and tools. The Community Services Division is proactive in providing everyone in the campus community with the very latest information regarding personal and property protection through classes, programs and documents.

U Matter, We Care
At UF, every Gator counts. U Matter, We Care serves as UF’s umbrella program for UF’s caring culture and provides students in distress with support and coordination of the wide variety of appropriate resources. Families, faculty and students can contact U Matter, We Care seven days a week for assistance for students in distress.

Emergency Response
Coordinates the university’s response to student emergencies and crises. Assistance for students in distress is available 7 days a week.

New Student and Family Programs
Organizes first-year experience and new student programs including new student orientation.

Student Conduct and Conflict Resolution
Administers the university’s student conduct code and academic honesty guidelines.

Medical Withdrawals
Conducts the petitions process for students who withdraw from the university for medical reasons.

Collegiate Veterans Success Center
As a Veteran Friendly Campus, it is important to provide a place for student veterans where veterans can meet, study, and spend time in a safe and relaxing environment. Ranked among the top centers for veterans in the country, the veteran’s success center looks to provide ongoing support for those who have served in our armed forces.

Disability Resource Center

Contact: Email (DRCaccess@uflsa.ufl.edu) | 352.392.8565

The Disability Resource Center (DRC) in the Dean of Students Office utilizes knowledge and expertise in the fields of disability and higher education to create an inclusive environment.

Counseling and Wellness Center

As the primary provider of mental health services on campus, the Counseling and Wellness Center offers high quality counseling and psychiatric case as well as developmental and preventative services to UF students.

The Counseling and Wellness Center at 3190 Radio Road provides counseling, consultation and crisis intervention services to currently enrolled undergraduate and graduate students and their spouses/partners. These services include individual, couples and group counseling; outreach programs and consultations; classes/guest lectures and research; and an extensive professional training program for mental health professionals. All of the Center’s programs and services are designed to help students develop the personal awareness and skills necessary to take advantage of the educational opportunities at the university.

More Info (http://www.counseling.ufl.edu/cwc/) Map (http://campusmap.ufl.edu/?loc=0081)

Dean of Students
The Dean of Students Office in 202 Peabody Hall provides programs and services to support students’ academic success and personal development.

More Info (http://www.dso.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0004)

Career Connections Center
The Career Connections Center (Career Center) provides events and services to help students develop and implement their Career Action Plan to realize their next steps. Students can work with Career Center staff to select a major, clarify their interests and abilities, develop professionally, build experience, and prepare for future internship, graduate school, or employment searches.

Students should activate their Gator CareerLink account to learn about the range of in-person and online career planning services available to them and see which employers are actively recruiting University of Florida candidates.

The Career Connections Center hosts hundreds of employers annually as they attend a variety of career events, hold on-campus interviews, and present information sessions and informal interactions with students.

More Info (https://career.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0686)

Visit the Career Connections Center to:

- Assess skills and interests to help choose a major (https://career.ufl.edu/students/explore-majors-careers/choose-or-change-a-majorcareer/)
- Explore various career options (http://ufi.myplan.com/)
- Secure internships and other work experience (https://career.ufl.edu/engage/) before graduating
- Conduct mock interviews (https://career.ufl.edu/excel/)
- Prepare for graduate school (https://career.ufl.edu/explore/)
- Start a full-time job search (https://career.ufl.edu/engage/)
- Create a Gator CareerLink to find internships and full-time positions

Disability Resource Center

Contact: Email (DRCaccess@uflsa.ufl.edu) | 352.392.8565

The Disability Resource Center (DRC) in the Dean of Students Office utilizes knowledge and expertise in the fields of disability and higher education to create an inclusive environment by:

- Acting as a resource for students with physical, learning, sensory, or psychological disabilities;
- Facilitating and providing support for reasonable accommodations for students in order to afford equal access to academic courses, programs, and activities;
- Providing services to address the impact of disabilities on student performance and success in and out of the classroom;
- Empowering students to articulate their strengths and advocate for their accommodations; and
- Creating opportunities to educate the campus community on disability laws, trends, universal design, programs, and services.
The DRC serves more than 2,300 registered students through classroom accommodations, support groups, a testing center that proctors 10,000 tests annually, and one-to-one skills coaching. DRC staff are available to provide individual strategy sessions and consultation with students, faculty, and families. Email accessuf@dso.ufl.edu or call to schedule an appointment.

More Info (https://www.dso.ufl.edu/drc/) Map (http://campusmap.ufl.edu/?loc=0020)

Gator Dining Services
Gator Dining is the official food service provider for the university. There are more than 45 dining locations on campus, including many national franchises like Subway, Chick-fil-A, and Starbucks. There are also nutritious and vegetarian options as well as special treats like yogurt smoothies, gourmet coffees, and chocolate chip cookies.

Gator Dining Services offers two types of meal plans (http://gatordining.com/meal-plan-information/): the all campus meal plan and the regular declining balance account.

GatorLink, Gator 1 Card, and UFID
GatorLink
GatorLink establishes a unique computer identity for every student. The GatorLink account provides access to all online services and creates the UF “username@ufl.edu” email address.

More Info (http://helpdesk.ufl.edu/self-help/new-gator-resources/gatorlink/)

All students must maintain and regularly check their GatorLink email as this is where all official university communications are sent.

Gator 1 Card
The Gator 1 card is the official university photo ID. The ID Card Services office is located on the ground floor of the UF Bookstore and Welcome Center complex on Museum Road.

More Info (http://www.gator1card.ufl.edu/Gator1C_info.asp)

All enrolled students, faculty and staff must have this card to:

- Enter CIRCA computer labs, university libraries, the infirmary, recreation centers.
- Sign up for intramural sports activities.
- Participate in the textbook deferment program at the UF Bookstore.
- Purchase tickets to university events.
- Vote in student government elections.
- Purchase food on campus with a Gator Dining or prepaid vending account.
- Use laundry facilities in some residence halls.
- Use as an ATM/debit card when activated through Wells Fargo Bank.

More Info (https://www.wellsfargo.com/student/banking/campuscard/)

UFID
UFID is an eight-digit number that serves as the primary identifier for all university records and transactions. Similar to a social security number, no two people will have the same number, and each person has only one. The UFID is assigned by the university, not chosen like a PIN. All students, faculty and staff have UFIDs, and the number is printed on the Gator 1 card.

More Info (https://identity.it.ufl.edu/process/uf-identifier/)

Housing and Residence Education
Welcome to #WhereGatorsLive at the University of Florida. On-campus living means students are in on all the action and seconds away from everything as they get involved, build the path to their successful future, and make connections that will last a lifetime. UF Housing offers 26 different residence halls for undergraduate students and 6 different villages for graduate students and their families. Explore the options.

More Info (http://www.housing.ufl.edu/) Map (http://campusmap.ufl.edu/?loc=0753)

Beginning Freshmen
Freshmen entering the university will be offered a housing agreement based on the term they were admitted. Residence hall contracts are available for the academic year (summer B/fall/spring, fall/spring, spring/summer, and the summer terms).

Applying for campus housing does not guarantee an offer of residence hall space. If space is available, admitted students will receive an email link to the online residence hall contract process. To secure campus housing, the student must complete a contract, sign it and submit the advance rent payment by the deadline.

- Residence Halls (https://www.housing.ufl.edu/housing/)
- Apply for Housing (http://www.housing.ufl.edu/apply/)
- Transfer Student Information (https://housing.ufl.edu/living-options/apply/incoming-students/)
- Villages (http://www.housing.ufl.edu/gfh/choices/)
- Off-campus Housing Information (http://www.offcampus.ufl.edu/)

Student Financial Affairs
The Office for Student Financial Affairs (SFA) in 107 Criser Hall administers financial aid programs and provides financial assistance and counseling. SFA awards aid according to financial need (the difference between current educational costs and what the individual student can pay toward these costs).

More Info (http://www.sfa.ufl.edu/programs/) Map (http://campusmap.ufl.edu/?loc=0031)

Financial Aid
Financial aid is money provided to students and their families as gift aid (scholarships, grants) or self-help programs (loans and/or work) to help pay college costs. Financial aid can be awarded singly (one type of aid) or as a package.

More Info (http://www.sfa.ufl.edu/programs/)

Grants
Grants are awarded for financial need. The largest grant program at UF is the Federal Pell Grant. Other grants include Federal Supplemental Educational Opportunity Grants, Federal Academic Competitiveness Grants, National SMART Grants, the Teacher Education Assistance for College and Higher Education (TEACH) Grant, Florida Student Assistance Grants, Turner Grants and UF Graduate Grants.

More Info (http://www.sfa.ufl.edu/programs/grants/)

Scholarships
Scholarships are awarded based on academic performance and financial need. Most academic scholarships are awarded through the UF Office of Admissions and individual UF colleges. SFA administers a limited number of scholarships from private donors.

More Info (http://www.sfa.ufl.edu/programs/scholarships/)
Student Employment
Federal Work-Study jobs may be awarded by SFA to students with demonstrated financial need as part of an aid package. Other job programs, such as OPS employment, do not require financial need and are open to any student with the desire to work who meets the basic criteria of half-time enrollment and a 2.0 GPA. Student jobs usually are 15-20 hours a week and pay at least minimum wage.
More Info (http://www.sfa.ufl.edu/programs/employment/)

Loans
Loan programs for undergraduates include: Federal Direct Stafford loans, Federal Direct Unsubsidized Stafford loans, Federal Direct Graduate PLUS loans, Federal Perkins Loans and UF institutional loans. These programs offer long-term, low-interest loans that must be repaid when the borrower graduates, withdraws or drops to less than half-time enrollment. Parents of dependent undergraduate students can take out educational loans through the Federal Direct PLUS loan program. Graduate students can take out educational loans through the Federal Grad PLUS loan program.
More Info (http://www.sfa.ufl.edu/programs/loans/)

When to Apply
Applications are available January 1 each year. Although SFA cannot award financial aid until students have been admitted to UF, they should apply for aid as soon as possible after January 1. Students are considered for aid according to the date their aid file is complete. Federal Pell Grants, Federal Academic Competitiveness Grants (ACG), Federal SMART Grants, Federal Direct Stafford Loans and OPS employment are open throughout.

March 15 is UF’s on-time deadline for financial aid application. SFA must receive students’ application information from the federal need analysis processor by March 15 in order to be considered for Federal Work Study, Federal Perkins loans, Federal Supplemental Educational Opportunity Grants, Turner Grants and institutional (UF) loans. Financial aid at UF is awarded first-come, first-served. Students missing the deadline will only be considered for aid remaining after on-time students have received their awards.

• How to Apply for Financial Aid (http://www.sfa.ufl.edu/applying/)
• Enrollment Requirements for Financial Aid (http://www.sfa.ufl.edu/receiving/enrollment-requirements/)
• How to Apply for Student Employment (http://www.sfa.ufl.edu/programs/employment/)

Financial Aid Academic Progress Requirements
UF students receiving financial aid are required to be in good standing and to maintain satisfactory academic progress.
More Info (http://www.sfa.ufl.edu/additional/academic-progress/)

Recreational Sports
With an active student body and an abundance of Florida sunshine, recreations is a big part of life on campus. The university offers more than 60 intramural and club sports, personal training, a midnight fun run, a lake and one of the best fitness facilities in the country. So no matter a student’s interest or skill level, there’s always a great way to get involved with other Gators.

RecSports offers experiences that enrich the lives of University of Florida students through excellence in facilities, fitness, sport, adventure and play. RecSports is committed to fostering leaders, encouraging lifelong healthy lifestyles and maintaining welcoming and safe environments, including student activities and programs, campus recreation facilities, aquatics, Lake Wauburg and more.
More Info (http://www.recsports.ufl.edu/locations/)

Student Health Care Center
More Info (http://shcc.ufl.edu/)

General Information and Helpful Links
Appointments, Hours and Locations, Excuse Notes, Fees for Services, etc.
The Student Health Care Center (SHCC), established in 1906, is an accredited outpatient clinic staffed by licensed, board-certified medical providers who pride themselves on keeping UF’s students, faculty and staff healthy through a variety of primary and specialty care services, including general medical care, immunizations, dermatology, massage therapy, nutrition, occupational medicine, physical therapy, sports medicine, travel, women’s health and workers compensation. The SHCC also conducts the annual campus flu shot campaign.
More Info (http://shcc.ufl.edu/services/primary-care/flu/)

All registered UF students paying the tuition-included health fee may access SHCC services. If a student takes time off (for example, no summer classes), they must pay the per-semester optional health fee to receive care, which covers the costs associated with most SHCC office visits, but is not considered health insurance. Items not covered by the health fee that patients are financially responsible for include, but are not limited to health insurance, hospital visits, external community providers/ facilities, physicals, procedures, X-rays, lab tests, medical equipment, prescriptions, non-prescription medications, vaccinations, massage and physical therapy.

In addition to university-sponsored insurance plans, the SHCC can direct-bill many private insurance companies for covered medical charges. Visit the SHCC's Health Insurance Options for more information on private insurance usage and verification, as well as current university-sponsored insurance details.
More Info (http://shcc.ufl.edu/fees-and-insurance/health-insurance-options/)

UF Bookstore and Welcome Center
The University of Florida Bookstores are located in the UF Welcome Center on Museum Road just next to the student union, in the Health Science Center and in the College of Veterinary Medicine. UF Bookstores offer new and used textbooks, school supplies, gifts and clothing. Bookstore programs include textbook reservations and a 50% guaranteed book buyback.
More Info (http://wwwbsd.ufl.edu/bookstore/) Map (http://campusmap.ufl.edu/?loc=0086)

UF Welcome Center is within the main UF Bookstore next to the Reitz Union. The Welcome Center is maintained by the Office of Admissions and is the university’s front door to visitors, providing weekday and Saturday information sessions and walking tours of campus.
More Info (http://www.admissions.ufl.edu/visit.html)

Courses
Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)
Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

About Courses
Statewide Course Numbering System
Courses in this catalog are identified by prefixes and numbers that were assigned by Florida’s Statewide Course Numbering System (SCNS). This
numbering system is used by all public postsecondary institutions in Florida and 27 participating non-public institutions. The major purpose of this system is to facilitate the transfer of courses between participating institutions. Students and administrators can use the online SCNS to obtain course descriptions and specific information about course transfer between participating Florida institutions. More Info (http://scns.fldoe.org/)

Each participating institution controls the title, credit and content of its own courses and recommends the first digit of the course number to indicate the level at which students normally take the course. Course prefixes and the last three digits of the course numbers are assigned by members of faculty discipline committees appointed for that purpose by the Florida Department of Education in Tallahassee. Individuals nominated to serve on these committees are selected to maintain a representative balance as to type of institution and discipline field or specialization.

The course prefix and each digit in the course number have a meaning in the SCNS. The listing of prefixes and associated numbers is referred to as the SCNS taxonomy. Descriptions of the content of courses are referred to as statewide course profiles.

Example of Course Identifier

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Level Code (1st digit)</th>
<th>Century Digit (2nd digit)</th>
<th>Decade Digit (3rd digit)</th>
<th>Unit Digit (4th digit)</th>
<th>Lab Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENC</td>
<td>1</td>
<td>1</td>
<td>0</td>
<td>1</td>
<td></td>
</tr>
<tr>
<td>English Composition (Freshman)</td>
<td>Lower Level at this institution</td>
<td>Freshman Composition Skills</td>
<td>Freshman Composition Skills</td>
<td>Freshman Composition Skills</td>
<td>No lab component in this course</td>
</tr>
</tbody>
</table>

General Rule for Course Equivalencies

Equivalent courses at different institutions are identified by the same prefixes and the same last three digits of the course number and are guaranteed to be transferable between participating institutions that offer the course, with a few exceptions, as listed below in Exceptions to the General Rule for Equivalency.

For example, a freshman composition skills course is offered by 59 different postsecondary institutions. Each institution uses ENC 101 to identify its freshman composition skills course. The level code is the first digit and represents the year in which students normally take the course at a specific institution. In the SCNS taxonomy, ENC means English Composition, the century digit 1 represents Freshman Composition, the decade digit 0 represents Freshman Composition Skills and the unit digit 1 represents Freshman Composition Skills 1.

In the sciences and certain other areas, a C or L after the course number is known as a lab indicator. The C represents a combined lecture and laboratory course that meets in the same place at the same time. The L represents a laboratory course or the laboratory part of a course that has the same prefix and course number but meets at a different time or place.

Transfer of any successfully completed course from one participating institution to another is guaranteed in cases where the course to be transferred is equivalent to one offered by the receiving institution. Equivalencies are established by the same prefix and last three digits and comparable faculty credentials at both institutions. For example, ENC 1101 is offered at a community college. The same course is offered at a state university as ENC 2101. A student who has successfully completed ENC 1101 at the community college is guaranteed to receive transfer credit for ENC 2101 at the state university if the student transfers. The student cannot be required to take ENC 2101 again since ENC 1101 is equivalent to ENC 2101.

Transfer credit must be awarded for successfully completed equivalent courses and used by the receiving institution to determine satisfaction of requirements by transfer students on the same basis as credit awarded to the native students. It is the prerogative of the receiving institution, however, to offer transfer credit for courses successfully completed that have not been designated as equivalent.

Credit generated at institutions on the quarter-term system may not transfer the equivalent number of credits to institutions on the semester-term system. For example, 4.0 quarter hours often transfers as 2.67 semester hours.

About the Course Prefix

The course prefix is a three-letter designator for a major division of an academic discipline, subject matter area or subcategory of knowledge. The prefix is not intended to identify the department in which a course is offered. Rather, the content of a course determines the assigned prefix to identify the course.

Authority for Acceptance of Equivalent Courses

Section 1007.24(7), Florida Statutes, states: Any student who transfers among postsecondary institutions that are fully accredited by a regional or national accrediting agency recognized by the United States Department of Education and that participate in the statewide course numbering system shall be awarded credit by the receiving institution for courses satisfactorily completed by the student at the previous institutions.

Credit shall be awarded if the courses are judged by the appropriate statewide course numbering system faculty committees representing school districts, public postsecondary educational institutions and participating non-public postsecondary educational institutions to be academically equivalent to courses offered at the receiving institution, including equivalency of faculty credentials, regardless of the public or non-public control of the previous institution.

The Department of Education shall ensure that credits to be accepted by a receiving institution are generated in courses for which the faculty possess credentials that are comparable to those required by the accrediting association of the receiving institution. The award of credit may be limited to courses that are entered in the statewide course numbering system. Credits awarded pursuant to this subsection shall satisfy institutional requirements on the same basis as credits awarded to native students.

Exceptions to the General Rule for Equivalency

Since the initial implementation of the SCNS, specific disciplines or types of courses have been excepted from the guarantee of transfer for equivalent courses. These include courses that must be evaluated individually or courses in which the student must be evaluated for mastery of skill and technique. The following courses are exceptions to the general rule for course equivalencies and may not transfer. Transferability is at the discretion of the receiving institution.
Courses at Non-regionally Accredited Institutions

The SCNS makes available on its home page (in the Latest News box) a report entitled Courses at Non-regionally Accredited Institutions that contains a comprehensive listing of all non-public institution courses in the SCNS inventory, as well as each course's transfer level and transfer effective date. This report is updated monthly.

Questions about the SCNS and appeals regarding course credit transfer decisions should be directed to the Office of Admissions in 201 Criser Hall or, The Florida Department of Education
Office of Articulation
1401 Turlington Building
Tallahassee, Florida 32399-0400

Special reports and technical information may be requested by calling the SCNS office at 850-245-0427 or visiting scns.fldoe.org.

Rec. 11/09/12; Office of Articulation, Florida Department of Education

Graduate Accounting Courses

Courses at the 5000 level are available to undergraduates who are admitted to the Fisher School of Accounting, who have met the admissions requirements for the Master of Accounting program and who have advisor approval. Prerequisites and graduate courses are listed in the graduate catalog.

More Info (http://gradcatalog.ufl.edu/)

Courses

ACG 2021 Introduction to Financial Accounting 4 Credits
Grading Scheme: Letter Grade
Conceptual introduction to financial accounting. Emphasis is placed on wealth and income measurement and the preparation and interpretation of conventional financial statements.
Prerequisite: sophomore standing or higher.

ACG 2071 Introduction to Managerial Accounting 4 Credits
Grading Scheme: Letter Grade
Accounting for cost reporting and control. Reports, statements and analytical tools used by management.
Prerequisite: ACG 2021.

ACG 3101 Financial Accounting and Reporting 1 4 Credits
Grading Scheme: Letter Grade
Covers the theoretical structure of financial accounting, required financial statements, revenue recognition, operating assets and current liabilities.
Prerequisite: ACG 2021 and ACG 2071 with minimum grades of B.

ACG 3401 Business Processes and Accounting Information System 4 Credits
Grading Scheme: Letter Grade
Examination of the accounting information systems in a business organization. Coverage extends over topics such as business processes, internal controls, and the fundamentals of accounting information systems analysis, design, implementation and control.
Prerequisite: (ACG 2021 and ACG 2071 with minimum grades of B) and (CGS 2531 or ISM 3013).

ACG 3802 Professional Speakers Series 1 Credit
Grading Scheme: S/U
To expose students to technical topics and emerging issues in accounting, business and related professions such as law. The course addresses career opportunities in the practice of public accounting, industry, financial services, government, and in business more generally.

(S-U)
ACG 4111 Financial Accounting and Reporting 2 4 Credits
Grading Scheme: Letter Grade
Continuation of ACG 3101 and includes coverage of accounting for investments, non-current liabilities and equities, accounting for income taxes, derivatives, accounting changes, statement of cash flows and earnings per share.
Prerequisite: ACG 3101 with minimum grade of C and FIN 3403.

ACG 4341 Cost and Managerial Accounting 4 Credits
Grading Scheme: Letter Grade
Extends cost and managerial coverage beyond that covered in ACG 2071. Topics include quantitative cost estimation, standard costing, flexible budgets, inventory management, pricing decisions, balanced scorecard, costs of quality, capital budgeting, transfer pricing and performance evaluations.
Prerequisite: (ACG 301 and ACG 3401 with minimum grades of C) and QMB 3250 and (MAC 2234 or MAC 2312).

ACG 4632 Introduction to Auditing 3 Credits
Grading Scheme: Letter Grade
Introduces the basic concepts, principles and environment of financial statement auditing. The course emphasizes the audit decision-making process, researching audit standards, audit planning, evidence evaluation, audit reports, ethics and legal liability.
Prerequisite: ACG 4111 and ACG 4341 with minimum grades of C and AC classification.

ACG 4931 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Opportunity for in-depth study of topics not offered in other courses and of topics of special current significance.

ACG 4941 Supervised Accounting Internship 2-4 Credits
Grading Scheme: S/U
Applied work in professional accounting. Requires several papers and reports. (S-U)
Prerequisite: advanced permission of accounting internship coordinator.

ACG 4970 Honors Thesis 1 Credit
Grading Scheme: S/U
The thesis must be submitted to the Fisher School no later than the published deadline and includes an abstract. (S-U)
Prerequisite: Minimum 3.6 overall and a minimum 3.6 accounting GPA is required to earn the magna cum laude distinction. Minimum 3.8 overall and a minimum 3.8 accounting GPA is required to earn the summa cum laude distinction.

TAX 4001 Introduction to Federal Income Tax 3 Credits
Grading Scheme: Letter Grade
Introduces federal income taxation to those who pursue careers in accounting; develops a basic understanding of the federal income tax laws relating to businesses and provides a framework for integrating income tax planning into the business decision-making process.
Prerequisite: ACG 4111 and ACG 4341 with minimum grades of C and Accounting major.

TAX 4930 Special Topics in Taxation 1-4 Credits
Grading Scheme: Letter Grade
Course provides an opportunity for in-depth study of topics not offered in other courses and of topics of special current significance.
Prerequisite: Permission of school.

Advertising

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information
The Department of Advertising is recognized as one of the largest and most respected programs in the U.S. Courses are designed to provide a foundation for problem-solving, strategic thinking and persuasion techniques that drive marketplace communication.

Courses
ADV 2104C Advertising Writing 3 Credits
Grading Scheme: Letter Grade
Instruction and practice in writing for advertising. Emphasis on various types of writing in the field including creative briefs, copy and headlines.
Prerequisite: ENC 1102 and Journalism and Communications major.

ADV 3001 Advertising Strategy 3 Credits
Grading Scheme: Letter Grade
Overview of the strategic planning process required to develop a successful strategic, persuasive communication plan such as an advertising, integrated marketing communications, or social marketing campaign. Case studies and projects teach the skills needed to address a variety of communications management issues and engage audiences in diverse marketplaces.
Prerequisite: MAR 3023 and ADV 3008 with minimum grades of C and ADV major.

ADV 3008 Principles of Advertising 3 Credits
Grading Scheme: Letter Grade
Overview of the concepts, strategies, and tactics of modern advertising. Explores the role of advertising in society, culture, and economics, as well as the industry and its key organizations. Introduces specific practices used to develop, place, and evaluate both traditional and digital ads.
Prerequisite: sophomore standing or higher.
ADV 3403 Branding 3 Credits
Grading Scheme: Letter Grade
Principles of branding and brand strategy; learn to think creatively and critically about strategies and tactics applied to build and manage brands with insight into diverse audiences.
Prerequisite: MAR 3023 and ADV 3008 with minimum grades of C.

ADV 3420 Health Communication 3 Credits
Grading Scheme: Letter Grade
Overview of health communication in research, industry, and practice. Explore and better understand the role communication plays in health care delivery, health promotion, disease prevention, environmental and risk communication, media and mass communication, and technology.
Prerequisite: junior standing or higher.

ADV 3500 Digital Insights 3 Credits
Grading Scheme: Letter Grade
Acquiring, evaluating, and analyzing information for advertising decisions. Emphasizes understanding the scientific method, developing explicit and measurable research objectives, selecting appropriate methodologies, and analyzing data.
Prerequisite: MAR 3023 and ADV 3008 with minimum grades of C and ADV major.

ADV 3502 Advertising Sales 3 Credits
Grading Scheme: Letter Grade
Principles of selling media time and space to advertisers. An overview of sales opportunities and challenges in the various advertising media. How to prepare and deliver effective sales presentations.
Prerequisite: MAR 3023 and ADV 3008 with minimum grades of C and junior standing or higher in ADV.

ADV 3824 Advertising Strategy: Health / Social Influence Approach 3 Credits
Grading Scheme: Letter Grade
Learn the process of advertising and promotional strategy from a health/social marketing approach, which centers on global health issues. Learn to "sell science" and market public health messages to help change the world.
Prerequisite: (MAR 3023 and ADV 3008 with minimum grades of C) and Advertising major.

ADV 3920C Professional Workshop in Advertising 1-3 Credits
Grading Scheme: Letter Grade
Short-term intensive workshops in selected areas of professional development, skills, and projects. Workshops taught by professionals and often occur over three-day weekend periods. Topics change from semester to semester, with a focus on industry skills and subjects learned best from within a professional context.
Prerequisite: ADV 3008 with a minimum grade of C.

ADV 4101 Copywriting and Visualization 3 Credits
Grading Scheme: Letter Grade
Application of creative strategy/concepts, copywriting and design to the creation of advertising for traditional and nontraditional media. To evaluate and present creative work, create ads for multicultural audiences.
Prerequisite: 3JM ADV; minimum grades of C or better in ENC 3254, ADV 3001 and VIC 3001.
Corequisite: ADV 3500.

ADV 4102 Advanced Copywriting 3 Credits
Grading Scheme: Letter Grade
Advanced course in the application of creative strategy for print and electronic media requiring preparation of advertisements. Emphasis placed on research, planning, development of creative concepts, writing and design.
Prerequisite: 4JM ADV; minimum grade of B in ADV 4101.

ADV 4200 Advertising Graphics and Production 3 Credits
Grading Scheme: Letter Grade
Designed to acquaint students with print production techniques. Emphasis is placed on techniques related to the advertising business. Lectures review specific uses of design, typography and print production with lab sessions dedicated to practicing layout and production techniques.
Prerequisite: 3JM ADV, minimum grades of C in ADV 3008 and VIC 3001.

ADV 4300 Media Planning 3 Credits
Grading Scheme: Letter Grade
Provides an in-depth overview of the media planning process. Emphasizes the value of various media channels and evaluation methods to design innovative and integrated media strategies to reach and engage diverse audiences.
Prerequisite: 3JM ADV; minimum grades of C in ADV 3001 and ADV 3500.

ADV 4302 Great Ideas in Marketplace Communications 3 Credits
Grading Scheme: Letter Grade
Focuses on two aspects of strategic communications. First: creating, developing and producing advertising and promotional content for real live case studies. Second: evaluating topical issues and industry innovation in media content innovation.
Prerequisite: ADV 3008 and ENC 3254 and junior standing or higher in ADV.

ADV 4400 International and Cross Cultural Advertising 3 Credits
Grading Scheme: Letter Grade
Major concepts and issues in international and cross cultural advertising campaign planning including primary and secondary research to assess environmental situations, setting objectives, budgeting, media, creative, ethics and social responsibility.
Prerequisite: ADV 3008 with a minimum grade of C.

ADV 4800 Advertising Campaigns 3 Credits
Grading Scheme: Letter Grade
An advanced advertising course requiring the student to prepare and produce a complete general advertising campaign. Emphasis is placed on production methods, costs, research and media analysis.
Prerequisite: 4JM ADV; minimum grades of C or better in ADV 4101 and ADV 4300.

ADV 4801 Creative Advertising Competitions 1-3 Credits
Grading Scheme: Letter Grade
Create either a competitive creative campaign for a real-world client or participate in a creative advertising competition. Hone creative skills and learn to prepare professional pitches or presentations.
Prerequisite: ENC 3254

ADV 4905 Individual Problems 1-3 Credits
Grading Scheme: Letter Grade
The student and instructor will choose a problem or project which provides the student experience in his or her major field.
Prerequisite: 3JM ADV; at least 10 credits of 3000/4000-level advertising courses and department permission.
ADV 4910 Advertising Undergraduate Research 0-3 Credits
Grading Scheme: S/U
Mentored but self-directed work enables individuals or small groups to explore an issue of interest to them and to communicate their results to others. Depending on the topic, projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Prerequisite: ADV 3500 with a minimum grade of C.
ADV 4930 Special Study in Advertising 2-3 Credits
Grading Scheme: Letter Grade
Variable advertising-related topics not covered in other advertising courses.
Prerequisite: 3JM ADV.
ADV 4931 Seminar: Ethics and Problems in Advertising 3 Credits
Grading Scheme: Letter Grade
Major concepts and issues in the effects of advertising on society, culture, and the economy with emphasis on ethical systems and ethical decision making.
Prerequisite: 3JM ADV; minimum grade of C in MMC 3202
ADV 4940 Advertising Internship 1-4 Credits
Grading Scheme: S/U
Complete an internship in advertising or related field with supervised on-the-job training. Requires 65 hours of work per credit, weekly progress reports, a summary report, and a supervisor's evaluation.
Prerequisite: ADV major; 2.50 minimum professional GPA; minimum grades of C in ADV 3008 and MAR 3023; one completed advertising-related course as needed; and department permission.
ADV 4941 Advanced Advertising Internship 1-3 Credits
Grading Scheme: Letter Grade
A structured internship program that is approved by the department as an immersion experience related to the field of advertising. Requires 65 hours of work per credit hour and submission of electronic portfolio including a culminating project from the internship.
Prerequisite: 4JM ADV; 2.50 minimum professional GPA; minimum grades of C in ADV 3008, MAR 3023 and ENC 3254; and department permission.
COM 3251C STEM Research and Application 3 Credits
Grading Scheme: Letter Grade
This course provides an immersive experience to understand fundamental aspects of translational health communication research. Students will learn through structured readings, class discussions and applications, and guest lectures. Special attention will be paid to communicating your health/science research to diverse audiences.
Prerequisite: Junior level standing.
MMC 1009 Introduction to Media and Communications 1 Credit
Grading Scheme: Letter Grade
Introduces the tools, resources and academic and extra-curricular activities offered by the College of Journalism and Communications. Includes lessons on the history and organization of the college and academic and career preparation.
Prerequisite: 1JM or exploratory major, 2JM, or 3JM classification, or instructor approval.
MMC 2100 Writing for Mass Communication 3 Credits
Grading Scheme: Letter Grade
A preprofessional course designed to provide fundamental instruction and practice in writing as a basis for upper-division courses in advertising, journalism and public relations. Stresses the basic similarities in writing for all mass media. (WR)
Prerequisite: Journalism and Communications major and 6 credits of English.
Attributes: Satisfies 6000 Words of Writing Requirement
MMC 2121 Writing Fundamentals for Communicators 3 Credits
Grading Scheme: Letter Grade
One-third of the course is to ensure students have sufficient skill in grammar and punctuation to write with clarity. In two-thirds of the course, students put principles of good writing into practice with short writing assignments that have real-world applications.
MMC 3030 Personal Branding for Communicators 1 Credit
Grading Scheme: Letter Grade
Professional development course that stresses how to communicate and connect as professionals. Emphasizes mastery of writing, speaking, presentation and employment-seeking skills, working with media, handling media interviews and using social media to establish a professional identity.
Prerequisite: Journalism and Communications major of junior standing or higher.
MMC 3203 Ethics and Problems in Mass Communications 3 Credits
Grading Scheme: Letter Grade
A cross-disciplinary introduction to ethics-relevant situations faced by media professionals. Topics include professional standards of conduct, audience representation and engagement and issues associated with the production, presentation and delivery of messages that reflect the best interests of audiences, clients and stakeholders.
Prerequisite: Journalism and Communications major of sophomore standing or higher and (ADV 3008 or MMC 1009 or MMC 2604 or PUR 3000 or RTV 3001 with minimum grade of C).
MMC 3254 Media Entrepreneurship 1 Credit
Grading Scheme: Letter Grade
Introduces media entrepreneurship with a focus on how digital technologies are transforming industries. Work in teams to develop new digital media businesses. Develop and pitch ideas, explore market analysis, develop business and financial plans, and study social media strategies.
Prerequisite: sophomore standing or higher.
MMC 3420 Consumer and Audience Analytics 3 Credits
Grading Scheme: Letter Grade
Provides practical analytical skill-sets, benefiting those who plan careers in analytics/research, social media, media business, advertising/marketing, and public relations.
Prerequisite: junior standing or higher.
VIC 3001 Sight, Sound and Motion 4 Credits
Grading Scheme: Letter Grade
Visual literacy is a prerequisite for success in most areas of mass communication. Teaches fundamentals of design across print, web, and multimedia platforms. Also emphasizes how visual forms convey messages to readers.
Prerequisite: sophomore standing or higher.
African and Asian | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

Courses

HUM 2420 African Humanities 3 Credits
Grading Scheme: Letter Grade
A general education course similar in philosophy and purpose to the basic sequence. Content selected from the philosophies, literature, arts and music of various African countries and regions. (H and N)
Attributes: General Education - Humanities, General Education - International

HUM 2424 African Cultures and Literatures 3 Credits
Grading Scheme: Letter Grade
A culturally based study of folktales, proverbs, drama, poetry and novels; and how these forms are used to portray African arts and ideas. (H and N)
Attributes: General Education - Humanities, General Education - International

SSA 3730 Language in African Society 3 Credits
Grading Scheme: Letter Grade
The role of language in the development of African societies. Language and nation building. (S and N)
Attributes: General Education - International, General Education - Social Science

SSA 4905 Individual Work 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course.
Prerequisite: department permission.

SSA 4930 Special Topics in African Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in African studies.

SST 2501 African Elements in the Americas 3 Credits
Grading Scheme: Letter Grade
Traces African influence in the Americas from the arrival of Africans on the continent until the present.

SST 4502 African Oral Literature 3 Credits
Grading Scheme: Letter Grade
An overview of African oral literature, introduces methodological and theoretical problems, and examines the sociopolitical and cultural relevance of the literature.
Prerequisite: instructor permission.

Center Information

As a National Resource Center for African Studies, the mission of the center is to promote excellence in teaching and research on Africa in all the disciplines at the University of Florida. The Center for African Studies also disseminates knowledge about Africa to the wider community through an integrated outreach program to schools, colleges, community groups, and businesses.
Website (https://africa.ufl.edu/)
AFS 2002 The African Experience: An Introduction to African Studies 3 Credits
Grading Scheme: Letter Grade
Introductory study of African society and culture that examines the richness, diversity, and time-depth of African civilizations. (S and N)
Attributes: General Education - International, General Education - Social Science

AFS 3300 Poverty and Development in Africa 3 Credits
Grading Scheme: Letter Grade
Contemporary study of development issues in Africa, their challenges and possible solutions; theme based and includes economic development, agriculture and the environment, social issues and gender equality, and democracy and political development.

AFS 3352 Culture, Health and Arts in Sub-Saharan Africa 3 Credits
Grading Scheme: Letter Grade
Explores Sub-Saharan African cultures, health issues and belief systems related to health and the arts. Also provides a framework to better understand health and health care systems in other cultures.
Prerequisite: junior standing or 6 credits minimum from AFH 2000 or AFS 4905 or AFS 4935 or HUM 2420 or HUM 2424.

AFS 3500 History of Islam in Africa 3 Credits
Grading Scheme: Letter Grade
Introduces the role of Islam in African history, with particular attention to the religion’s place in economic and political systems.

AFS 3800 Childhood in African Literature and Cinema 3 Credits
Grading Scheme: Letter Grade
Explores African conceptions of childhood through the mediums of literature and film; examines how childhood is represented in diverse African cultures.

AFS 3930 Special Topics in African Studies 3 Credits
Grading Scheme: Letter Grade
Selected variable topics in African Studies.
Prerequisite: Junior standing or AFS 2002 with minimum grade of C.

AFS 4240 The African Family 3 Credits
Grading Scheme: Letter Grade
Understanding African societies south of the Sahara through the study of the functions, roles and meanings of households and families. Emphasizes diversity within and commonalities among the myriad forms of African families.

AFS 4260 Africans Abroad 3 Credits
Grading Scheme: Letter Grade
Examines lives of Africans and formation of African communities in contemporary Western settings. Also addresses the relationship between Africans in the contemporary Diaspora and their home communities in Africa.

AFS 4315 Critical Issues in Contemporary Africa 3 Credits
Grading Scheme: Letter Grade
Upper-division seminar that discusses perspectives on conflict resolution, corruption, economic development, environmental management, food security, governance, international assistance and public health in contemporary Africa. In addition, enhances skills in analysis, discussion and debate.

AFS 4330 Women and Politics in Africa 3 Credits
Grading Scheme: Letter Grade
Introduces historical and contemporary roles of women in African political systems, from local to national governance.

AFS 4335 Women in Africa 3 Credits
Grading Scheme: Letter Grade
Explores issues of gender, development and culture through memoirs, ethnographies, narratives and films about women in Africa.
Prerequisite: junior or senior standing.

AFS 4340 Community Conservation and Rural Development in Africa 3 Credits
Grading Scheme: Letter Grade
Examines the practicalities and theoretical foundations of community conservation in Africa, with particular attention to the relationship between conservation and rural development issues. Main themes include property rights, governance and local-global relations.

AFS 4345 Political Economy of Conservation in Africa 3 Credits
Grading Scheme: Letter Grade
Analyzes effectiveness of diverse approaches to natural resource preservation and uses. Case studies are primarily from southern and eastern Africa and readings focus on political and economic aspects of conservation strategies.

AFS 4350 HIV / AIDS in Africa 3 Credits
Grading Scheme: Letter Grade
Utilizes the social science literature on AIDS in Africa to explore the social, economic and broad cultural impacts of the epidemic.

AFS 4365 Urban Africa Today 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary seminar incorporates scholarship from anthropology, geography, history, political science, sociology, and urban planning to understand African cities, their rapid growth, and their future development.
Prerequisite: junior standing or 6 credits minimum from AFS 2002 or AFS 3300 or AFS 4260 or AFS 4315 or AFS 4330 or AFS 4350 or AFS 4935.

AFS 4905 Individual Work 1-9 Credits
Grading Scheme: Letter Grade
Individual study and research for topics not covered in other courses.

AFS 4911 Undergraduate Research in African Studies 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

AFS 4935 African Studies Interdisciplinary Seminar 3 Credits
Grading Scheme: Letter Grade
Seminar on a selected interdisciplinary theme.
Prerequisite: junior or senior standing, or instructor permission.
AFS 4940 African Studies Internship 1-3 Credits  
Grading Scheme: S/U  
Complements an Africa-related internship experience through guided reflection, critical analysis, synthesis, and discussion.  
Prerequisite: junior standing or higher and undergraduate coordinator approval.

African-American Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings. 
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

The African American Studies program is one of the fastest growing majors at UF. The degree program provides students with a variety of innovative courses by applying creative cultural methods of teaching while examining the African American experience.

Curriculum

- African-American Studies  
- African-American Studies Minor

Courses

AFA 2000 Introduction to African-American Studies 3 Credits  
Grading Scheme: Letter Grade  
An integrated interdisciplinary exploration of selected themes and representative materials in the African-American experience in North America, emphasizing continuity and change. (H) (WR)  
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AFA 3110 Key Issues in African-American and Black-Atlantic Thought 3 Credits  
Grading Scheme: Letter Grade  
The leading voices of resistance and social change that have influenced African-American intellectual history, black public consciousness, political action and social theory. (H and D) (WR).  
Attributes: General Education - Diversity, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AFA 3240 The African Diaspora 3 Credits  
Grading Scheme: Letter Grade  
Overview of transnational fields of cultural contact, power and competing economic interests in which the African Diaspora developed. (WR)  
Attributes: Satisfies 6000 Words of Writing Requirement

AFA 3303 The Wire 3 Credits  
Grading Scheme: Letter Grade  
Critically examine various themes presented in the television show, The Wire. Major topics include the illegal drug trade, race and ethnicity, sexuality, public policy and politics, K-12 education, and the news media.  
Prerequisite: AFA 2000.  
Attributes: General Education - Diversity, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

AFA 3332 Black Feminist and Womanist Theory 3 Credits  
Grading Scheme: Letter Grade  
Interdisciplinary survey of African-American and Afro-descendant women's contributions to feminist theory. (WR)  
Attributes: Satisfies 6000 Words of Writing Requirement

AFA 3333 Black Power Movement 3 Credits  
Grading Scheme: Letter Grade  
An examination of the Black Power Movement, including major themes, roots in previous black organizing, associated groups and figures, and its influence on present society and activism.  
Prerequisite: AFA 2000.

AFA 3350 Black Masculinity 3 Credits  
Grading Scheme: Letter Grade  
Integrated interdisciplinary exploration of selected themes and resources that represent the Black Masculine experience in North America, emphasizing continuity and change. (C, H, D, and E6)  
Prerequisite: AFA 2000  
Attributes: General Education - Diversity, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AFA 3354 Race, Religion and Rebellion 3 Credits  
Grading Scheme: Letter Grade  
Examination of the interplay of religion, race and rebellion in the organization and execution of the various revolts, insurrections and social movements of black people in the U.S. from the slavery period through the Civil Rights and Black Power Eras.  
Prerequisite: AFA 2000

AFA 3356 African American Religion 3 Credits  
Grading Scheme: Letter Grade  
Exposes the African American religious experience from the beginning of the African sojourn here in North America until the present.  
Prerequisite: AFA 2000

AFA 3357 Civil Rights and Religion 3 Credits  
Grading Scheme: Letter Grade  
Examination of the role of religion in the African American Civil Rights Movement from the 1950s through the 1980s.  
Prerequisite: AFA 2000

AFA 3360 Archaeology of African-American Life and Culture 3 Credits  
Grading Scheme: Letter Grade  
Historical overview of African-American archaeology, including important cases, key figures, major issues and development of the field. (S) (WR)  
Attributes: General Education - Social Science, Satisfies 2000 Words of Writing Requirement
AFA 3363 The Black Experience: Psychological Perspectives 3 Credits
Grading Scheme: Letter Grade
An interdisciplinary course examining themes, premises and theories presented by major psychological theorists in their depictions and accounts of the behavior of Black people in America; the growth of Black psychology. (S and D) (WR)
Prerequisite: AFA 2000.
Attributes: General Education - Diversity, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

AFA 3371 History of Hip Hop 3 Credits
Grading Scheme: Letter Grade
Examines the blossoming of Hip Hop as a musical genre and as a cultural and political youth movement from the 1970s to the present, extending from its origins in New York city to the rest of the nation and the world.
Prerequisite: AFA 2000.

AFA 3850 Research Methods in African-American History 3 Credits
Grading Scheme: Letter Grade
Research methods in African-American history. (H and N OR S and N)
Prerequisite: AFA 2000 or instructor permission.
Attributes: General Education - Humanities, General Education - International, General Education - Social Science

AFA 3915C Mentoring At-Risk Youth 3 Credits
Grading Scheme: Letter Grade
A community service-learning course that develops mentoring and critical-thinking skills through instruction, analysis and service. (S and N) (WR)
Prerequisite: AFA 2000 or instructor permission.
Attributes: General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

AFA 3930 Special Topics in African-American Studies 3 Credits
Grading Scheme: Letter Grade
Lectures and seminars covering selected topics of current interests in African-American studies.
Prerequisite: junior or senior standing, or instructor permission.

AFA 4135 Theories of Black America 3 Credits
Grading Scheme: Letter Grade
A multi-disciplinary examination of some of the important theories and concepts used to explain Black social, political and cultural behavior in the United States for the past 150 years.
Prerequisite: AFA 2000.
Attributes: General Education - Diversity, General Education - Social Science

AFA 4225 Blacks in Florida 3 Credits
Grading Scheme: Letter Grade
Addresses the history and themes of Blacks in Florida between 1492 and 1975.
Prerequisite: AFA 2000 or instructor permission.

AFA 4352 Black Hair Politics 3 Credits
Grading Scheme: Letter Grade
Provides a comprehensive interdisciplinary examination of the history, sociology, psychology and economics of Black hair. Students will explore the textures, styles and meanings of Black hair as they relate to identity and power in society.
Prerequisite: AFA 2000.

AFA 4430 Black Lives Matter 3 Credits
Grading Scheme: Letter Grade
Examination of the particular historical, geographical, cultural, social, and political ways in which race was, and continues to be configured and deployed in the United States.
Prerequisite: AFA 2000.

AFA 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
Directed individual reading or research on topics in African-American studies.
Prerequisite: director or research permission.

AFA 4931 Special Topics 3 Credits
Grading Scheme: Letter Grade
Selected topics in African-American studies.
Prerequisite: AFA 2000.

AFA 4936 African-American Studies Senior Integrative Seminar 3 Credits
Grading Scheme: Letter Grade
Examination of bibliographic resources and analysis of theory, method and special problems in the field of African-American studies.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

AFA 4940 African-American Studies Internship 3 Credits
Grading Scheme: Letter Grade
Students complete internships with companies, individuals, institutions or organizations whose work adds to the knowledge and well-being of the African-American community.
Prerequisite: AFA 2000, at least two 3000-level AFA courses, African-American studies minor or major, and sophomore or higher standing.

AFA 4970 Honors Thesis 3 Credits
Grading Scheme: S/U
Comprehensive research paper that examines a relevant topic in the discipline of African-American studies. (S-U)
Prerequisite: AFA 2000.

Agricultural and Biological Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

The Department of Agricultural and Biological Engineering is founded on developing, teaching, and applying engineering principles to improve and sustain agricultural and biological systems for current and future generations.

Frazier Rogers Hall
1741 Museum Road, Bldg 474
GAINESVILLE FL 32611-0570
Map (http://campusmap.ufl.edu/#/index/0474)

**Curriculum**
- Agricultural Operations Management
- Biological Engineering
- Combination Degrees
- Packaging Engineering Certificate
- Packaging Science Minor
- Precision Agriculture Minor

**Courses**

**ABE 2012C Introduction to Biological Engineering 3 Credits**  
Grading Scheme: Letter Grade  
Introduces the process of design along with approaches to solving engineering problems, manipulations and presentations of engineering data and applied engineering concepts. (WR)  
Prerequisite: MAC 2311.  
Attributes: Satisfies 2000 Words of Writing Requirement

**ABE 2062 Biology for Engineers 3 Credits**  
Grading Scheme: Letter Grade  
Principles and engineering applications of biology. Principles and applications of biochemistry, genetics, microbial systems, animal systems, ecological systems and global systems. (B) (WR)  
Attributes: General Education - Biological Science, Satisfies 6000 Words of Writing Requirement

**ABE 3000C Applications in Biological Engineering 3 Credits**  
Grading Scheme: Letter Grade  
Overview of the research and applications of biological engineering, such as bioprocessing, biotechnology, transport processes, biosensors, bioremediation, biological materials and biomedicine.  
Prerequisite: BSC 2010 or equivalent.

**ABE 3212C Land and Water Resources Engineering 4 Credits**  
Grading Scheme: Letter Grade  
Introduces hydrology, flow through porous media, flood routing, grade control structures and erosion control.  
Prerequisite: ENV 3040C and MAP 2302.  
Corequisite: CWR 3201 or EGN 3353C.

**ABE 3612C Heat and Mass Transfer in Biological Systems 4 Credits**  
Grading Scheme: Letter Grade  
Transport phenomena, steady and unsteady-state heat conduction, radiation, free and forced convection, mass transfer, psychrometrics and thermodynamics of biological processes.  
Corequisite: ENV 3040C or CGN 3421 or ESI 4327C or (COP 2271 and COP 2271L).

**ABE 3652C Physical and Rheological Properties of Biological Materials 3 Credits**  
Grading Scheme: Letter Grade  
Theory and use of physical and rheological properties of biological materials in agricultural engineering applications.  
Prerequisite: CHM 2045 and MAC 2313 and PHY 2048.

**ABE 4000 Nonpoint Source Pollution Modeling 2 Credits**  
Grading Scheme: Letter Grade  

**ABE 4008 Control Methods in SmartAg Systems 3 Credits**  
Grading Scheme: Letter Grade  
Design, analysis, simulation, and programming modern control methods for applications in production agriculture, biological and food engineering, land and water resources. Learn theoretical concepts, application programming, and simulation techniques using classical and modern control approaches, fuzzy logic, neural networks, and other intelligent learning algorithms.  
Prerequisite: MAP 2302 and PHY 2048;  
Corequisite: EGM 3400.

**ABE 4033 Fundamentals and Applications of Biosensors 3 Credits**  
Grading Scheme: Letter Grade  
Provides a broad introduction to the field of biosensors, as well as an in-depth and quantitative view of biosensor design and performance analysis. Fundamental application of biosensor theory will be demonstrated, including: recognition, transduction, signal acquisition, and post processing/data analysis.  
Prerequisite: MAP 2302 and BSC 2100 and CHM 2200.

**ABE 4034 Remote Sensing in Engineering: Science, Sensors and Applications 3 Credits**  
Grading Scheme: Letter Grade  
Develop an understanding of remote sensing theory, systems and applications using information obtained from the visible/near infrared, thermal infrared and microwave regions of the EM spectrum.  
Prerequisite: MAP 2302 or the equivalent.

**ABE 4042C Biological Engineering Design 1 2 Credits**  
Grading Scheme: Letter Grade  
Design of engineered agricultural and biological systems and devices. Problem definition analysis, synthesis, project management, economic, environmental and social impacts. Individual and team projects.

**ABE 4043C Biological Engineering Design 2 2 Credits**  
Grading Scheme: Letter Grade  
Senior capstone design project.  
Prerequisite: senior standing (4EG), ABE 4042C and two courses in area of specialization.

**ABE 4171 Power and Machines for Biological Systems 3 Credits**  
Grading Scheme: Letter Grade  
Design and specification of power and machine elements applied to agricultural, biological and land and water resources or food engineering; fundamentals of power units, design of machine elements and power transmission.  
Prerequisite: EGM 3520 and (EGM 3400 or EGM 3401).

**ABE 4231C Irrigation and Drainage Engineering 4 Credits**  
Grading Scheme: Letter Grade  
Irrigation and drainage systems design, including pump sizing and specification, water distribution systems, plant water requirement, drainage systems and flood control.  
Prerequisite: ABE 3212C.
ABE 4303C Structural and Environmental Design 3 Credits
Grading Scheme: Letter Grade
Design and analysis of structures and environmental modification systems used in agricultural production.
Prerequisite: ABE 2012C and ABE 3612C.

ABE 4413C Post-Harvest Operations Engineering 3 Credits
Grading Scheme: Letter Grade
Engineering principles and practices of post-harvest operations for the maintenance of quality of agricultural products. Design of systems and facilities.
Prerequisite: ABE 3612C.

ABE 4641 Modeling Coupled Natural-Human Systems 3 Credits
Grading Scheme: Letter Grade
Explore approaches to modeling coupled natural-human systems, drawing from both natural and social sciences. Topics include regime shift from dynamical systems and basic concepts from game theory and social-ecological system literature. These are combined in models that operationalize a conceptual framework. With guidance, develop models for final projects.
Prerequisite: MAC 2312 or equivalent.

ABE 4655C Bio-Based Products from Renewable Resources 3 Credits
Grading Scheme: Letter Grade
Provides the knowledge for the production of fuels, chemicals, and materials from renewable resources; includes the fundamental principles and practical applications of bio-based products: biorefinery and biobased products overview, fundamental concepts in understanding biorefinery and biobased products; materials, chemical platforms, and fuels from biomass.
Prerequisite: (CHM 2045 or CHM 2095) and (CHM 2046 or CHM 2096) or equivalent general chemistry courses or instructor permission.

ABE 4660 Applied Microbial Biotechnology 3 Credits
Grading Scheme: Letter Grade
Principles of microbial biotechnology with emphasis on applications of microorganisms for industrial processes; e.g., energy, environmental, food, pharmaceutical and chemical.

ABE 4662 Quantification of Biological Processes 3 Credits
Grading Scheme: Letter Grade
Quantitative description and analysis of biological processes pertaining to microbes, plants, animals and ecosystems. Biological transport phenomena, bioenergetics, enzyme kinetics, metabolism, bioregulation, circulatory and muscle systems, agroecosystems. Analytical and experimental laboratory for development of quantitative skills.
Prerequisite: (ABE 2062 or BSC 2010) and (EGN 3353C or CWR 3201).

ABE 4812 Food and Bioprocess Engineering Unit Operations 4 Credits
Grading Scheme: Letter Grade
Analysis of thermal freezing, evaporation, dehydration, contact equilibrium and mechanical separation processes as governed by the reaction kinetics and rheology of processed foods.
Prerequisite: ABE 3612C or CWR 3201 or EGN 3353C.

ABE 4905 Individual Study in Biological Engineering 1-4 Credits
Grading Scheme: Letter Grade
Selected problems of projects in the student's major field of engineering study.
Prerequisite: recommendation of department chair.

ABE 4912 Integrated Product and Processing Design 1 in Biological Engineering 3 Credits
Grading Scheme: Letter Grade
First part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes on time and within budget.

ABE 4913 Integrated Product and Process Design 2 in Biological Engineering 3 Credits
Grading Scheme: Letter Grade
Second part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes on time and within budget.
Prerequisite: ABE 4912.

ABE 4931 Professional Issues in Agricultural and Biological Engineering 1 Credit
Grading Scheme: Letter Grade
Current developments in agricultural and biological engineering, principles of agricultural and biological engineering practice and professional standards and ethics.

ABE 4932 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Variable subjects provide content for the study of agricultural engineering topics not offered in other courses.
Prerequisite: instructor permission.

ABE 4935 Writing Grant Proposals for Scholarships and Fellowships 2 Credits
Grading Scheme: Letter Grade
Introduces seniors in the Agricultural and Biological Engineering department to opportunities for obtaining scholarships, fellowships, internships, and teaching/research assistantships from federal funding agencies; includes funding sources and opportunities, provide guidelines for proposal writing. Requires preparing a proposal.
Prerequisite: Senior standing, must be pursuing a degree within the Agricultural and Biological Engineering department, and instructor permission.

ABE 4949 Work Experience in Biological Engineering 1-3 Credits
Grading Scheme: S/U
Work experience in the biological engineering industry with advisor approval. (S-U)
Prerequisite: Advisor approval

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

Agricultural and Life Sciences | General

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)
Courses

ALS 2410 Challenge 2050: Global Uncertainty 3 Credits
Grading Scheme: Letter Grade
Explores questions in human well-being and sustainability building a foundation for addressing global challenges associated with global population. Transdisciplinary experts lead diverse and innovative discussions, complex adaptive problem solving; and the integration of economic, environmental, food, health, and social system perspectives. Prerequisite: arrange with advisor and department permission.

ALS 2931 Agricultural Honors 1-4 Credits
Grading Scheme: Letter Grade
Various courses offered. (WR)
Prerequisite: refer to the department.
Attributes: Satisfies 6000 Words of Writing Requirement

ALS 3030C Urban Agriculture 3 Credits
Grading Scheme: Letter Grade
Work with faculty and guest field experts to explore the concepts, issues, and opportunities for urban agricultural sustainability, and on the development and implementation of demonstrations of community urban agricultural projects. Culminates in a group presentation for campus and community stakeholders. Prerequisite: sophomore standing or higher.

ALS 3133 Agricultural and Environmental Quality 3 Credits
Grading Scheme: Letter Grade
Analysis of effects of agriculture on environmental quality; emphasis on agricultural wastes and practices; potential for using agricultural systems for disposal of other wastes; effects of pollution on the agricultural environment. (P) Attributes: General Education - Physical Science

ALS 3153 Agricultural Ecology 3 Credits
Grading Scheme: Letter Grade
Introduces the study of ecology from an agricultural perspective. Emphasizes ecological principles with examples and applications from agriculture.

ALS 3415 Challenge 2050: Developing Tools for Changing the World 3 Credits
Grading Scheme: Letter Grade
The global population is projected to exceed 9 billion by the year 2050. Challenge 2050 requires innovative development of transdisciplinary solutions to complex, global issues. This course explores individual and team-based skills, competencies, and dispositions necessary to addressing the complex adaptive issues surrounding the challenge. Prerequisite: ALS 2410.

ALS 3923 Honors Orientation 1 Credit
Grading Scheme: Letter Grade
Introduces the CALS honors program and develop the skills needed to complete a creative, scholarly project and an honors thesis. A variety of guest speakers, in-class and outside activities, discussion, writing and oral presentation are used to accomplish the learning objectives. Prerequisite: must be enrolled in CALS upper-division honors program.

ALS 3940 Challenge 2050: the Experience 3 Credits
Grading Scheme: Letter Grade
Emphasizes trust building, accompaniment, and community development experiences within developing global contexts. Uses immersion experience to gain an understanding for concerns relating to population fluctuation, including issues related to economics, environment, food, health, and social systems. International immersion facilitates applying sustainable practices in developing areas. Prerequisite: ALS 2410.

ALS 4404 International Studies 1-15 Credits
Grading Scheme: Letter Grade
Supervised study abroad. Prerequisite: sophomore standing and minimum 18 years old.

ALS 4419 Challenge 2050: Creating Solutions 1 Credit
Grading Scheme: Letter Grade
Through this capstone experience course, students demonstrate and apply knowledge, skills, and dispositions in assigned transdisciplinary teams. Students complete a comprehensive proposal for a developmental initiative focused on addressing the 2050 Challenge of sustaining a global population. Prerequisite: ALS 2410.

ALS 4900 Supervised Extension Experience in Agricultural and Life Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

ALS 4905 Individual Study in Agricultural and Life Sciences 1-3 Credits
Grading Scheme: Letter Grade
Individual study in agricultural and life sciences. Prerequisite: permission of dean and instructor.

ALS 4911 Supervised Research in Agricultural and Life Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in agricultural and life sciences under faculty supervision. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

ALS 4915 Honors Thesis Research in Agricultural and Life Sciences 0-3 Credits
Grading Scheme: S/U
Independent research in agricultural and life sciences leading to an honors thesis. Student are mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U) Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

ALS 4932 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Variable subjects provide content for the study of agricultural topics not offered in other courses.

ALS 4936 CALS Leadership Institute Seminar 1 2 Credits
Grading Scheme: Letter Grade
Discussion-based seminar provides an introduction to leadership studies and personal leadership development. Exploration of personal leadership characteristics through various assessments and the development of a personal leadership development plan. Prerequisite: admission to the CALS Leadership Institute Program.
Curriculum

- Agricultural Communication Minor
- Agricultural Curriculum and Development Minor
- Agricultural Education and Communication
- Combination Degrees
- Extension Education Minor
- Leadership Minor

Courses

AEC 3030C Effective Oral Communication 3 Credits
Grading Scheme: Letter Grade
Strategies and techniques for effective presentations in the food, agricultural and natural resource professions. Emphasis on oral and visual techniques for formal and informal situations including leadership and group settings.

AEC 3033C Research and Business Writing in Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Establishes the importance of effective communication to success in both the educational and professional environments; emphasizes writing as a primary form of communication; examines the elements of effective written communication in organizational and scholarly areas; and explores the causes of ineffective writing and ways to correct them. (WR)
Prerequisite: Junior or senior standing.
Attributes: Satisfies 6000 Words of Writing Requirement

AEC 3065 Issues in Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Methods used to effectively communicate, inform, and influence policy decisions about agricultural and life sciences issues.
Prerequisite: Sophomore standing or higher.

AEC 3070C Digital Media Production in Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Introduces the history and incorporation of electronic media used in agricultural and natural resources sciences. Hands-on learning of electronic media technology as it relates to agriculture is emphasized.

AEC 3071 Social Media Strategy and Leadership for Agricultural and Life Sciences 3 Credits
Grading Scheme: Letter Grade
Learn how, when, and why to use various social media tools. Also learn to measure the effectiveness of these tools in reaching audiences with agricultural and life science messages.
Prerequisite: Sophomore standing or higher.
### AEC 3073 Intercultural Communication 3 Credits
**Grading Scheme:** Letter Grade
Basic culturally coded communication behaviors, such as cultural values and beliefs, attitudes and verbal and non-verbal behavior, are examined to identify basic differences among individuals from diverse cultural backgrounds. Special emphasis on cultural communication issues in the agricultural and natural resources sciences are addressed. (S and N OR S and D)
**Attributes:** General Education - Diversity, General Education - International, General Education - Social Science

### AEC 3209 Instructional and Event Planning in Agricultural and Life Sciences 3 Credits
**Grading Scheme:** Letter Grade
Instructional methodology that focuses on the selection and use of innovative teaching, presentation, meeting planning and evaluation strategies for teaching agricultural subjects in various educational settings.

### AEC 3313 Development and Role of Extension Education 3 Credits
**Grading Scheme:** Letter Grade
Extension philosophy, programs, methods and leadership principles, and history of federal, state and local leadership in the development of the cooperative extension service.

### AEC 3322 Moral Leadership in Agriculture and Natural Resources 3 Credits
**Grading Scheme:** Letter Grade
Explores ethical and moral foundations for organizational and personal practice within the context of agriculture, natural resources, and beyond; gain a greater understanding for the intersection between morality and ethics, effective decision-making, and applied organizational ethics.
**Prerequisite:** junior standing or higher.

### AEC 3410 Fostering Innovation through Leadership 3 Credits
**Grading Scheme:** Letter Grade
By studying key leadership theories and models students will develop the basic skills and knowledge necessary to move an innovation from creation to implementation. Using specifically designed experiences, students will be able to think critically about leadership's direct application to innovation and change.
**Corequisite:** Enrollment in the Innovation Academy.

### AEC 3413 Working with People: Interpersonal Leadership Skills 3 Credits
**Grading Scheme:** Letter Grade
Identifies and defines leadership in terms of intrapersonal and interpersonal skills.

### AEC 3414 Leadership Development 3 Credits
**Grading Scheme:** Letter Grade
An understanding of the dynamic interactions of personal characteristics, technical skills, interpersonal influence, commitment, goals and power necessary for effective organizational leader and follower behaviors.

### AEC 4031 The Communication Process in Agricultural and Life Sciences 3 Credits
**Grading Scheme:** Letter Grade
Survey of basic communication concepts as they apply to agriculture and natural resource industries. (WR)
**Attributes:** Satisfies 6000 Words of Writing Requirement

### AEC 4035 Communication Practices for Agricultural and Life Sciences 3 Credits
**Grading Scheme:** Letter Grade
This course provides students the opportunity to master a variety of writing styles used in corporate and mass media settings. Emphasis is placed on mastery of writing skills. (WR)
**Prerequisite:** AEC 3070C and (AEC 4031 or JOU 3101) with minimum grades of C.
**Attributes:** Satisfies 6000 Words of Writing Requirement

### AEC 4036 Advanced Agricultural Communication Production 3 Credits
**Grading Scheme:** Letter Grade
Provides directed experience in the following areas of agricultural communication: video production, graphic design, visual composition, desktop publishing and multimedia development.
**Prerequisite:** AEC 3070C.

### AEC 4052 Communication Campaign Strategies in Agricultural and Life Sciences 3 Credits
**Grading Scheme:** Letter Grade
Examines the role of communication in agriculture, focusing on strategies and methods for agricultural information transfer.
**Prerequisite:** AEC 4031 with a minimum grade of C.

### AEC 4200 Teaching Methods in Agricultural Education 3 Credits
**Grading Scheme:** Letter Grade
Focuses on the selection and use of teaching strategies, methods/approaches and techniques; evaluating learning; managing learning environments; and classroom management for teaching agricultural subjects in formal educational settings.

### AEC 4202 Curriculum Development and Assessment Techniques in Emerging Agricultural Technologies 3 Credits
**Grading Scheme:** Letter Grade
Introduces new and emerging areas in food agriculture and natural resource sciences. Emphasizes appropriate teaching techniques, curricula, and resources.
**Prerequisite:** AEC 4200.

### AEC 4224 Special Methods in Teaching Agricultural Education 3 Credits
**Grading Scheme:** Letter Grade
Emphasizes supervised agricultural experience programs, record keeping, and related FFA awards. Classroom management techniques, discipline and liability issues are also discussed.
**Prerequisite:** AEC 4200 and AEC 4323.

### AEC 4228 Laboratory Practices in Teaching Agricultural Education 3 Credits
**Grading Scheme:** Letter Grade
Laboratory practices in teaching mechanics and other operative skills, conducting field and laboratory classes and providing space and teaching facilities.
**Prerequisite:** AEC 4200, AEC 3323 and AOM 3220.

### AEC 4323 Development and Philosophy of Agricultural Education 3 Credits
**Grading Scheme:** Letter Grade
Examines evolving concepts and philosophies of agricultural education programs by emphasizing the history, legislation, and principles underlying organization and practice.
**Prerequisite:** Junior or senior standing.
AEC 4417 Leadership for Personal and Organizational Change 3 Credits
Grading Scheme: Letter Grade
To prepare students for addressing complex personal and organizational issues related to leading change.
Prerequisite: AEC 3414.

AEC 4434 Communication and Leadership in Groups and Teams 3 Credits
Grading Scheme: Letter Grade
Focuses on leadership and communication in groups and teams. Topics include: what makes effective groups and teams, processes of groups and teams, relationships of members, and improving group/team performance.

AEC 4465 Global Leadership 3 Credits
Grading Scheme: Letter Grade
Integrated, practical, and dynamic framework for students to develop global literacy and leadership competencies. (N and S)
Prerequisite: AEC 3413 or AEC 3414.
Attributes: General Education - International, General Education - Social Science

AEC 4500 Program Development and Evaluation 3 Credits
Grading Scheme: Letter Grade
In-depth analysis of the development and evaluation of human and community resource programs based on programming theories, concepts and research. Emphasizes dimensions of responsive communities, determination of community needs and goals.

AEC 4504 Curriculum and Program Planning for Agricultural Education 3 Credits
Grading Scheme: Letter Grade
Principles and practices used in designing courses of instruction for effective teaching and total program development.

AEC 4900 Supervised Extension in Agricultural Education and Communication 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural education and communication under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

AEC 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
Topics and special problems selected from fields such as 4-H and FFA work, demonstrations, farm and home management, rural development, pre-school planning and post-school evaluation and planning.
Prerequisite: instructor permission.

AEC 4911 Supervised Research in Agricultural Education and Communication 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in Agricultural Education and Communication under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

AEC 4915 Honors Thesis Research in Agricultural Education and Communication 0-3 Credits
Grading Scheme: S/U
Independent research in Agricultural Education and Communication leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

AEC 4930 Communication and Leadership Development Capstone Experience 3 Credits
Grading Scheme: Letter Grade
Integrates content and skills that communication and leadership development students have learned in their prerequisite courses.
Prerequisite: AEC 3070C and AEC 4031 and AEC 4035 and AEC 4036.

AEC 4932 Special Topics in Agricultural Education and Communication 1-3 Credits
Grading Scheme: Letter Grade
Special topics in Agricultural Education and Communication.
Prerequisite: Sophomore standing or higher.

AEC 4941 Agricultural Education Internship 1-9 Credits
Grading Scheme: Letter Grade
Practical experience in agricultural training and development through agricultural education organizations, agribusiness and natural resources education, and/or agricultural outreach programming.
Prerequisite: junior or senior standing; AEC or TCH major.

AEC 4942 Agricultural Education Internship 6-9 Credits
Grading Scheme: Letter Grade
Individual capstone internship within a school-based setting where students observe, participate in, and lead educational instruction, curricula development, assessment of school-based student learning, supervision, and assist in advising a student leadership organization.
Prerequisite: senior standing and successful completion of all three portions of the Florida Teacher Certification Examination (FTCE) - General Knowledge, Professional Education and Agriculture 6-12.

AEC 4943 Leadership Development Internship 2-6 Credits
Grading Scheme: Letter Grade
An individual program whereby students are apprenticed to officials to gain practical experience in agricultural organizations, industry and/or the county extension program.
Prerequisite: 15 credits of communication and leadership courses with no grade below C. Nine credits must include AEC 3070C, AEC 4031, and AEC 3413 or AEC 4434.

AEC 4944 Cooperative Extension Internship 4-6 Credits
Grading Scheme: Letter Grade
The cooperative extension internship provides students the opportunity to develop practical on-the-job supervised experience in cooperative extension, primarily at the county level.
Prerequisite: senior standing, AEC 3313; minimum 2.0 GPA.

AEC 4948 Agricultural Communication Internship 2-6 Credits
Grading Scheme: Letter Grade
An individual program whereby students gain supervised experience in agricultural communications including reporting, writing, editing, photography, graphics, broadcasting, advertising or public relations.
Prerequisite: 15 credits of communication and leadership courses with no grade below C. Nine credits must include AEC 3070C, AEC 4031, and AEC 3413 or AEC 4434.

ALS 2410 Challenge 2050: Global Uncertainty 3 Credits
Grading Scheme: Experience
Explores questions in human well-being and sustainability building a foundation for addressing global challenges associated with global population. Transdisciplinary experts lead diverse and innovative discussions, complex adaptive problem solving; and the integration of economic, environmental, food, health, and social system perspectives.
Prerequisite: arrange with advisor and department permission.

**Courses**

**ALS 3415 Challenge 2050: Developing Tools for Changing the World 3 Credits**  
**Grading Scheme:** Letter Grade  
The global population is projected to exceed 9 billion by the year 2050. Challenge 2050 requires innovative development of transdisciplinary solutions to complex, global issues. This course explores individual and team-based skills, competencies, and dispositions necessary to addressing the complex adaptive issues surrounding the challenge.  
**Prerequisite:** ALS 2410.

**ALS 3940 Challenge 2050: the Experience 3 Credits**  
**Grading Scheme:** Letter Grade  
Emphasizes trust building, accompaniment, and community development experiences within developing global contexts. Uses immersion experience to gain an understanding for concerns relating to population fluctuation, including issues related to economics, environment, food, health, and social systems. International immersion facilitates applying sustainable practices in developing areas.  
**Prerequisite:** ALS 2410.

**ALS 4419 Challenge 2050: Creating Solutions 1 Credit**  
**Grading Scheme:** Letter Grade  
Through this capstone experience course, students demonstrate and apply knowledge, skills, and dispositions in assigned transdisciplinary teams. Students complete a comprehensive proposal for a developmental initiative focused on addressing the 2050 Challenge of sustaining a global population.  
**Prerequisite:** ALS 2410.

**ALS 4932 Special Topics 1-3 Credits**  
**Grading Scheme:** Letter Grade  
Variable subjects provide content for the study of agricultural topics not offered in other courses.

**ALS 4950 Challenge 2050: Taking Action 2-6 Credits**  
**Grading Scheme:** Letter Grade  
Through supervised practical training, in conjunction with academic assignments at professional organizations, the Taking Action internship provides the opportunity to professionally examine and engage the global challenges associated with Challenge 2050.  
**Prerequisite:** maintain GPA of 3.0, must be in good standing and must have completed the Challenge 2050 Global Challenge certificate with 3.0 average.

**ALS 4932 Special Topics 1-3 Credits**  
**Grading Scheme:** Letter Grade  
Variable subjects provide content for the study of agricultural topics not offered in other courses.

**PLS 3080 Introduction to Horticultural Therapy 3 Credits**  
**Grading Scheme:** Letter Grade  
Examine the profession and practice of horticultural therapy including its history, current state, and relevant literature and theories. Explore peopleplant relationships, therapeutic methods and benefits, and populations served, as well as being introduced to existing programs and the role of therapeutic gardens.  
**Prerequisite:** sophomore standing or higher.

**Agricultural Operations Management**

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.  
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.
AOM 4062 Principles of Food Engineering 4 Credits
Grading Scheme: Letter Grade
The functional requirements and principles of operation of systems for handling and processing food and agricultural products.
Prerequisite: MAC 1147 and 3 credits of physics.

AOM 4314C Power and Machinery Management 3 Credits
Grading Scheme: Letter Grade
Functional requirements, operating principles, performance, safety and economic application of agricultural power units and field machines for citrus, vegetable and field crop production.

AOM 4344C Electrical Power and Instrumentation for Agricultural Operations Management 3 Credits
Grading Scheme: Letter Grade
Fundamental concepts of electricity, power, instrumentation, computer control operations and selected transducers. Foundation to aid in management of agricultural processing operations.

AOM 4434 Precision Agriculture 3 Credits
Grading Scheme: Letter Grade
Principles and applications of technologies supporting precision farming and planning for natural resource data management. Global positioning systems (GPS), geographic information systems (GIS), variable rate technologies (VRT), data layering of independent variables, automated guidance, Internet, information access and computer software for management.
Prerequisite: junior standing or higher.

AOM 4444C Agricultural Operations Management 3 Credits
Grading Scheme: Letter Grade
Principles and applications of technologies supporting precision farming and planning for natural resource data management. Global positioning systems (GPS), geographic information systems (GIS), variable rate technologies (VRT), data layering of independent variables, automated guidance, Internet, information access and computer software for management.
Prerequisite: senior standing and PHY 2004 or the equivalent.

AOM 4455 Agricultural Operations and Systems 3 Credits
Grading Scheme: Letter Grade
Quantitative and managerial techniques for management and planning of technical resources in agriculture. Applications of queuing theory, project scheduling, optimization and expert decision systems.
Prerequisite: MAC 1147 and a computer course.

AOM 4461 Sustainable Agricultural Systems 3 Credits
Grading Scheme: Letter Grade
Minimizing energy and costs in agricultural and natural resource systems and industries. Students explore ways to enhance sustainable systems by improving efficiency. Topics include agricultural machinery, pumps, motors, fans, refrigeration, lights and construction methods.
Prerequisite: senior standing and PHY 2004 or the equivalent.

AOM 4521 Introduction to Biofuels 3 Credits
Grading Scheme: Letter Grade
An overview of biofuel production related to technologies and feedstocks, economics of producing biofuels and impact on the environment and the local economy. Dealing specifically with liquid and gaseous biofuels and bioenergy produced from renewable resources, it provides a summary of the past, present and future production technologies and applications.
Prerequisite: BSC 2010 and PHY 2004 and CHM 2045 or the equivalents.

AOM 4642 Environmental Systems for Agricultural Structures 3 Credits
Grading Scheme: Letter Grade
Effects of the environment on plant and animal production, processing operations and quality of stored produce. Selection of building materials and sizing of components of environmental systems in agricultural structures to enhance more efficient agricultural production, processing and storage.
Prerequisite: MAC 1147 and 3 credits of physics.

AOM 4643 Environmental Hydrology: Principles and Issues 3 Credits
Grading Scheme: Letter Grade
This is a basic course in environmental hydrology intended for agricultural and natural resource managers. The first half of the course covers scientific principles of the hydrologic cycle while the second half investigates case studies of current water quality and water management issues.

AOM 4900 Supervised Extension Experience in Agricultural Operations Management 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural operations management under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

AOM 4905 Special Problems in Agricultural Operations Management 1-4 Credits
Grading Scheme: Letter Grade
Selected problems or projects in the student's major field of mechanized study.
Prerequisite: permission of department chair or advisor.

AOM 4911 Supervised Research in Agricultural Education and Communication 0-3 Credits
Grading Scheme: S/U
Independent research in Agricultural Education and Communication leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

AOM 4915 Honors Thesis Research in Agricultural Education and Communication 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural operations management under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

AOM 4932 Special Topics in Agricultural Operations Management 1 Credit
Grading Scheme: Letter Grade
Variable topics provide content for the study of mechanized agriculture topics not offered in other courses.
Prerequisite: instructor permission.

AOM 4933 Professional Practices in Agricultural Operations Management 0-3 Credits
Grading Scheme: S/U
Professionalism and interfacing of technical skills. Topics include ethics, continuing education, placement skills and professional development in agricultural operations management.
Prerequisite: junior standing in agricultural operations management.

AOM 4941 Full-Time Practical Work Experience in Agricultural Operations Management 1-4 Credits
Grading Scheme: S/U

Agronomy

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information
The Department of Agronomy's vision is to improve and sustain food production while conserving natural resources and promoting healthy and active lives by creating and disseminating knowledge in the plant sciences. The department’s mission is to achieve excellence in the science of using plants for food, feed, fuel, fiber and turf, as well as in the management of weed species, through research, teaching, and outreach programs that serve the people of Florida, our nation, and the world. Website (https://agronomy.ifas.ufl.edu/)

Curriculum

• Combination Degrees

• Golf and Sports Turf Management Minor

• Plant Science

Courses

AGG 3501 Environment, Food and Society 3 Credits
Grading Scheme: Letter Grade
Global issues and trends in population growth, natural resource (soil, water and plant genetic biodiversity) utilization, climate change and potential impacts of current trends on agriculture, natural resources, global food security and sustainability. (B)
Attributes: General Education - Biological Science

AGR 3303 Genetics 3 Credits
Grading Scheme: Letter Grade
The science and physical basis of inheritance, genes as units of heredity and development, and the qualitative and quantitative aspects of genetic variation. (B)
Prerequisite: basic course in biology, botany or zoology.
Attributes: General Education - Biological Science

AGR 4212 Alternative Cropping Systems 3 Credits
Grading Scheme: Letter Grade
Examines alternative cropping systems, focusing on issues of sustainability, against a backdrop of trends occurring in conventional agriculture.

AGR 4214C Applied Field Crop Production 3 Credits
Grading Scheme: Letter Grade
Students will plant and manage a group of field crops. Experience in soil sampling, interpretation of nutrient and nematode test results, fertilization, pest control and harvesting are gained. Students will submit a term report.

AGR 4231C Forage Science and Range Management 4 Credits
Grading Scheme: Letter Grade
Scientific and technological developments in the selection, production and utilization of forage crops, and in the development and management of grazing areas. (B)
Attributes: General Education - Biological Science

AGR 4304 Plant Chromosomes and Genomes 3 Credits
Grading Scheme: Letter Grade
Concepts of plant DNA organization in chromosome structure, the principles and technologies of cytogenetics, the plant genomic DNA structure and function, concepts of transcriptome, the plant genomic databases, the DNA sequencing technologies and the basic tools for nucleotide sequence analysis.
Prerequisite: AGR 3303 or PCB 3063.

AGR 4320 Plant Breeding 3 Credits
Grading Scheme: Letter Grade
The science and technology of plant improvement.
Prerequisite: AGR 3303 or PCB 3063.

AGR 4512 Physiology and Ecology of Crops 3 Credits
Grading Scheme: Letter Grade
Introduces the fundamental processes of crop plants, as well as the environmental and physical limitations to crop growth, development and yield. Focus is on physiology and ecology of agronomic crop plants. (B)
Prerequisite: AGR 3005 or the equivalent.
Attributes: General Education - Biological Science

AGR 4900 Supervised Extension in Agronomy 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agronomy under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

AGR 4905 Individual Study 1-3 Credits
Grading Scheme: Letter Grade
Scientific study of individual problems in crop production, weed science, genetics or plant breeding.
Prerequisite: minimum of one course in agronomy and instructor permission.

AGR 4911 Supervised Research in Agronomy 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in Agronomy under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

AGR 4915 Honors Thesis Research in Agronomy 0-3 Credits
Grading Scheme: S/U
Independent research in agronomy leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

AGR 4932 Agronomy Topics 1-3 Credits
Grading Scheme: Letter Grade
Critical review of selected topics in specific agronomic areas.

ALS 4154 Global Agroecosystems 3 Credits
Grading Scheme: Letter Grade
Focuses on the principles of agroecology and presentation of topics that integrate ecological with agricultural principles to optimize resource conservation, productivity, societal benefit, and profitability.
Prerequisite: SWS 3022 and ALS 3153 and AGR 4214C or the equivalent.
ALS 4914 Project Team Research: Building Skills in Agrobiology 3 Credits
Grading Scheme: Letter Grade
Hands-on experience in addressing a real-world problem faced by an agricultural industry partner. Production of a detailed plan, project design, and preliminary data for evaluating and solving the problem. Offered every term.
Prerequisite: Junior standing or higher.

PCB 2441 Biological Invaders 3 Credits
Grading Scheme: Letter Grade
Introduces plants and animals that are invading Florida and the U.S. Why biological invaders are second only to habitat destruction as threats to natural ecosystems, what makes some species invasive, how to control or prevent invasions, where international commerce may be regulated, and who is affected by such issues. (B)
Attributes: General Education - Biological Science

PLS 3004C Principles of Plant Science 3 Credits
Grading Scheme: Letter Grade
Introduces the principles and practices of plant production systems. An overview of plant evolution, anatomy, physiology, improvement, pest, water and nutrient management as applied to a variety of plant production systems. (B)
Prerequisite: BOT 2010C or BSC 2010.
Attributes: General Education - Biological Science

PLS 4613 Aquatic Weed Control 3 Credits
Grading Scheme: Letter Grade
Florida's aquatic weed problems and methods of chemical, biological, mechanical and physical weed control. Topics include plant biology/ecology, herbicide residue, lake reclamation, fish-plant interactions and laws regulating aquatic weed control.
Prerequisite: refer to the department.

PLS 4941 Practical Work Experience 1-3 Credits
Grading Scheme: S/U
Practical, hands-on experience in the plant sciences through a paid internship in the industry. This must be a new experience and related to the student's field of study. One month of full-time work is required for each credit.
Prerequisite: Plant Science major of junior standing or higher.

Akan | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

Courses
AKA 1130 Beginning Akan 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.
AKA 1131 Beginning Akan 2 5 Credits  
**Grading Scheme:** Letter Grade  
Continued study of the four skills with additional vocabulary and grammar.  
**Prerequisite:** AKA 1130 with minimum grade of C or the equivalent.

AKA 2200 Intermediate Akan 1 3 Credits  
**Grading Scheme:** Letter Grade  
Intermediate study of the four skills with new vocabulary and grammar.  
**Prerequisite:** AKA 1131 with minimum grade of C, or the equivalent.

AKA 2201 Intermediate Akan 2 3 Credits  
**Grading Scheme:** Letter Grade  
Continuation of intermediate study.  
**Prerequisite:** AKA 2200 with minimum grade of C, or the equivalent.

AKA 3410 Advanced Akan 1 3 Credits  
**Grading Scheme:** Letter Grade  
Advanced study of the four skills with attention to more complex structures.  
**Prerequisite:** AKA 2201 with minimum grade of C, or the equivalent.

AKA 3411 Advanced Akan 2 3 Credits  
**Grading Scheme:** Letter Grade  
Continuation of advanced study.  
**Prerequisite:** AKA 3410 with minimum grade of C, or the equivalent.

Curriculum
• Animal Sciences
• Combination Degrees

Courses

ALS 4932 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Variable subjects provide content for the study of agricultural topics not offered in other courses.

ANS 2002 The Meat We Eat 3 Credits
Grading Scheme: Letter Grade
Consumer-oriented elective covering meat as a food, its inspection for wholesomeness, meat grading, identification, processing, selection, preparation, and serving. Emphasizes preparation of economical, nutritious and palatable meals centered on meat. (B)
Attributes: General Education - Biological Science

ANS 2005 The Role of Animals in Human History 3 Credits
Grading Scheme: Letter Grade
Surveys the importance of animals through human history, from the Stone Age to the present. The domestication of dogs, cats, major farm animals and some less familiar, such as camels, reindeer, and buffalo and the role they played in different societies and cultures across human history. (H, N)
Attributes: General Education - Humanities, General Education - International

ANS 2615C Meat Selection and Grading 2 Credits
Grading Scheme: Letter Grade
Grading and classifying beef, pork, and lamb carcasses and cuts.

ANS 3006 Introduction to Animal Science 3 Credits
Grading Scheme: Letter Grade
Role of beef cattle, dairy cattle, swine, sheep, poultry, and horses in serving humans. Introduces anatomy and physiology of digestion, growth, reproduction, and the application of genetics to livestock improvement.

ANS 3006L Introduction to Animal Science Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory experiences designed to accompany ANS 3006; must be registered for ANS 3006 concurrently or have already completed the lecture course.
Corequisite: ANS 3006 for AL majors only.

ANS 3008 Livestock Behavior and Welfare 3 Credits
Grading Scheme: Letter Grade
Introduces basic principles and applications of animal behavior, including approaches to improve animal welfare through an understanding of animal behavior. Examples are drawn from a wide range of species, but the focus is on applying concepts to understand the behavior and welfare of livestock.
Prerequisite: sophomore or junior standing.

ANS 3043 Growth and Development of Farm Animals 3 Credits
Grading Scheme: Letter Grade
An integration of the physiological, genetic, and nutritional bases of animal growth, development, and body composition with application to livestock production.
Prerequisite: BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L and ANS3006C or equivalents and AL major.

ANS 3079L Relationship of Form to Function in Horses 2 Credits
Grading Scheme: Letter Grade
Principles of conformation and performance evaluation of horses. Studies the anatomy, physiology, and dynamics of the horse as it affects athletic potential and performance.

ANS 3216 Introduction to Equine Science 3 Credits
Grading Scheme: Letter Grade
For those with an interest in equine sciences but with limited equine experience. Principles of equine selection, care, and utilization.

ANS 3217C Equine Health Management 2 Credits
Grading Scheme: Letter Grade
Principles and practices for planning, implementing, and maintaining equine herd health.
Prerequisite: ANS 3006 and AL-equine major.

ANS 3239L Techniques in Equine Science 2 Credits
Grading Scheme: Letter Grade
Introduces the knowledge, horseback, and management skills required for proper daily horse care and conditioning. Designed for those seeking employment requiring basic horse care skills and for novice horse owners.
Prerequisite: ANS 3216 and AL major.

ANS 3246L Beef Production Practicum 2 Credits
Grading Scheme: Letter Grade
Participate in beef cattle production systems under close supervision of faculty and staff; gain knowledge of best management practices regarding cattle handling, tractor, and equipment use, as well as cattle hauling by participating in experiential learning opportunities.
Prerequisite: sophomore or junior standing;
Corequisite: ANS 4243.

ANS 3250L Dairy Cattle Practicum 2 Credits
Grading Scheme: Letter Grade
Practical application of the principles of biology and management of dairy cattle. Topics include milking procedures, behavior, cattle handling, records, and computer applications in dairy production; body condition, lameness and hygiene scoring; dairy farm evaluation; on-farm practica and field trips.
Corequisite: ANS 3251.
ANS 3251 Biology and Management of Dairy Cattle 2 Credits
Grading Scheme: Letter Grade
Biology of dairy cattle and the interrelationship between biology and management. Topics include anatomy and physiology, nutrition, reproduction, genetics, behavior, diseases, dairy products, housing, management, economics, and the environmental impact of dairy production.

ANS 3319C Reproductive Physiology and Endocrinology in Domestic Animals 4 Credits
Grading Scheme: Letter Grade
Principles of reproduction in avian and mammalian farm animals including factors related to the estrous cycle, pregnancy, lactation, semen-production, artificial insemination, pregnancy diagnosis, and environmental factors affecting reproduction.
Prerequisite: ANS 3006 and BSC 2010 and BSC 2010L or equivalents.

ANS 3384C Genetics of Domestic Animals 3 Credits
Grading Scheme: Letter Grade
Basic principles of Mendelian, population, and quantitative genetics as applied to improvement of domestic animals. Selection, inbreeding, and crossbreeding strategies for genetic improvement of livestock.
Prerequisite: ANS 3006 and BSC 2011 and BSC 211L or equivalents.

ANS 3404C Food Animal Nutrition and Feeding 3 Credits
Grading Scheme: Letter Grade
Studies the basic nutrient requirements of food animals, primarily beef cattle and swine, at specific stages of growth, production, and reproduction; and how scientific methods and experimentation are applied to animal nutrition.
Prerequisite: ANS 3440.

ANS 3405 Equine Nutrition and Feeding Management 2 Credits
Grading Scheme: Letter Grade
The influence of growth, reproduction, and work on the nutrient requirements of horses and the application of that information to the planning of life cycle feeding programs.
Prerequisite: ANS 3440.

ANS 3440 Principles of Animal Nutrition 4 Credits
Grading Scheme: Letter Grade
The nutrients required by animals, their functions interrelationships, and processes of utilization; feedstuff composition and their use in diet and ration formulation.
Prerequisite: CHM 2045 and CHM 2045L, or equivalent.

ANS 3613L Livestock and Meat Evaluation 2 Credits
Grading Scheme: Letter Grade
Basic principles of livestock evaluation, grading, and pricing of meat animals, carcasses and meat cuts.
Prerequisite: ANS 3006.

ANS 3634C Meats 3 Credits
Grading Scheme: Letter Grade
Integrated studies of the science and technology involved in the utilization of meat animals for food with focus on animal growth, carcass cutability, wholesomeness, palatability, and merchandising of red meat.

ANS 3934 Careers in the Livestock Industry 2 Credits
Grading Scheme: Letter Grade
Careers in the livestock industry. Interactive exposure to employment opportunities in the animal sciences.

ANS 4218L Horse Psychology and Training 3 Credits
Grading Scheme: Letter Grade
Horse behavior, instinct and senses as they relate to training. Principles of training the young foal; ground work, liberty training, and starting the young yearling under saddle; and principles of performance training.

ANS 4231 Practicum in Horse Management and Training Technique 1 Credit
Grading Scheme: Letter Grade
Practicum in horse management and training technique

ANS 4234 Horse Enterprise Management 2 Credits
Grading Scheme: Letter Grade
Management principles essential to the planning and operation of commercial horse enterprises.
Prerequisite: AEB 3133 and AGR 4231C and ANS 3217C and ANS 3319C and ANS 3384C and ANS 3405 and ANS 3440.

ANS 4241L Intermediate Horse Training 2 Credits
Grading Scheme: Letter Grade
Continue the training of a recently started under-saddled horse, exhibit horse to potential buyers, and produce annual sealed bid sale.
Prerequisite: AEB 3133 and AGR 4231C and ANS 3217C and ANS 3319C and ANS 3384C and ANS 3405 and ANS 3440.

ANS 4243 Beef Cow-Calf Management 5 Credits
Grading Scheme: Letter Grade
Development and implementation of management programs for commercial cow-calf and purebred beef cattle enterprises.
Prerequisite: AEB 3133 and AGR 4231C and ANS 3319C and ANS 3384C and ANS 3405 and ANS 3440.

ANS 4245C Beef Background and Feedlot Management 2 Credits
Grading Scheme: Letter Grade
Management, marketing, and utilization of beef cattle after weaning. Spring break field trip required.
Prerequisite: AEB 3133 and AGR 4231C and ANS 3440 and ANS 3404C and ANS 3613L and ANS 3634C.

ANS 4318C Equine Reproductive Management 3 Credits
Grading Scheme: Letter Grade
Equine reproduction to include anatomy, the estrous cycle, hormones and pharmacologic manipulation, gametogenesis, embryonic and fetal development, parturition, foal care, assisted technologies, and management strategies.
Prerequisite: ANS 3319C.

ANS 4320C Applied Ruminant Reproductive Management 4 Credits
Grading Scheme: Letter Grade
In-depth assessment and application of bovine reproductive management practices that affect the efficiency of reproduction including managerial, physiological, biological, and economical.
Prerequisite: ANS 3319C.

ANS 4382 Equine Genetics 2 Credits
Grading Scheme: Letter Grade
Examines the underlying mechanisms and inheritance of a number of traits in the horse; includes the impact of domestication on the genome, relationships between breeds, coat color, genetic disease and complex traits of performance and behavior.
Prerequisite: ANS 3384C.
ANS 4388 Canine and Feline Genetics 3 Credits
Grading Scheme: Letter Grade
Lectures, seminars, and lab exercises on application of genetic principles to canine and feline characteristics provide an in-depth understanding of how these traits are inherited and analyzed. Information on new genomic technologies and their impact on studying specific traits, including coat color and genetic disorders, are discussed.
Prerequisite: ANS 3384C or AGR 3303 or PCB 3063 or equivalent.

ANS 4389L Molecular Techniques in Domestic Animal Genetics 2 Credits
Grading Scheme: Letter Grade
Studies the principles of basic domestic animal molecular biology techniques and provides hands-on experience through laboratory exercises.
Prerequisite: ANS 3384C.

ANS 4604C Live Animal Evaluation 2 Credits
Grading Scheme: Letter Grade
Instruction of live animal selection and evaluation, relative to improving the efficiency of meat and animal production.

ANS 4605 Animal and Products Evaluation 1 Credit
Grading Scheme: Letter Grade
Intensive training in animal and animal products evaluation.
Prerequisite: instructor permission.

ANS 4623C Pork Production 3 Credits
Grading Scheme: Letter Grade
Principles of modern pork production, including all aspects of swine production management systems (breeding systems, disease control, applied economics, housing, marketing, pork quality, and nutrition in a systems approach), relative to the US/Global pork supply.
Prerequisite: ANS 3440 and ANS 3319C and (ANS 3613L or ANS 4604C).

ANS 4635C Meat Processing 3 Credits
Grading Scheme: Letter Grade
Basic principles of the use of muscle as food, process technology, meat inspection, regulations, quality control procedures, and marketing aspects.
Prerequisite: ANS 3006 or FOS 3042.

ANS 4701 Physiology of the Mammary Gland and Lactation 2 Credits
Grading Scheme: Letter Grade
Insight into the endocrinology and physiology of the defining characteristics of mammals: the mammary gland and lactation, focusing on the anatomy and development of the mammary gland with an overview of the biochemical, cellular and molecular processes controlling lactation emphasizing on livestock species.
Prerequisite: BSC 2011 and BSC 2011L and ANS 3319C and AG senior.

ANS 4900 Supervised Extension Experience in Animal Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in animal sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

ANS 4905 Problems in Animal Science 1-3 Credits
Grading Scheme: Letter Grade
Qualified students are assigned a problem involving care and management of livestock or the investigation of a current topic in animal science.
Prerequisite: instructor permission.

ANS 4911 Supervised Research in Animal Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in animal sciences under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

ANS 4915 Honors Thesis Research in Animal Sciences 0-3 Credits
Grading Scheme: S/U
Independent research in animal sciences leading to an honors thesis, mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

ANS 4931 Senior Seminar 1 Credit
Grading Scheme: Letter Grade
Oral presentation and papers on issues facing the livestock industry.
Prerequisite: AL senior.

ANS 4932 Special Topics in Animal Sciences 1-3 Credits
Grading Scheme: Letter Grade
Special topics in Animal Sciences.
Prerequisite: Sophomore standing or higher.

ANS 4941 Full-Time Practical Work Experience in Animal Science 2-8 Credits
Grading Scheme: S/U
Credit is earned on the basis of one hour per month of employment. (S-U)
Prerequisite: prior arrangement with advisor.

ATE 2511 Companion Animal Biology and Management 3 Credits
Grading Scheme: Letter Grade
Principles and practices of proper selection, care, nutrition, genetics, reproduction, and training of companion animals, with emphasis on dogs, cats, and selected bird species.

VME 4103 Livestock Health/Disease Prevention 2 Credits
Grading Scheme: Letter Grade
The principal diseases of livestock and practical methods for their prevention and control.
Prerequisite: instructor permission.

Anthropology
Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information
Anthropology lies at the intersection of the multiple approaches to the study of humankind that characterize other disciplines - biological, social, cultural, historical, linguistic, cognitive, material, technological and aesthetic - because of its unique holistic perspective. These multiple approaches are encapsulated in the four traditional subfields that have composed the discipline since its establishment in the 19th century: cultural (http://sites.clas.ufl.edu/anthropology/department-subfields/cultural-anthropology/), archaeological (http://sites.clas.ufl.edu/anthropology/department-subfields/archaeology/), biological (http://sites.clas.ufl.edu/anthropology/department-subfields/biological-
ANT 2301 Human Sexuality and Culture 3 Credits
Grading Scheme: Letter Grade
Examines cultural, biological, and archaeological aspects of human sexuality through time and space, while evaluating sexuality ideas to societal discourse. Investigates personal and cross-cultural views on sexuality, presenting gender identity, sexual orientation, relationships, and sexual ethics. Appropriate for those seeking an integrative approach to human sexuality. (S and D) (WR)
Attributes: General Education - Diversity, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ANT 2402 Anthropology of Sustainability 3 Credits
Grading Scheme: Letter Grade
Application of the sustainability concept to the study of human interactions with the biophysical environment across space and time. Focuses on human perceptions of and interactions with their biotic surroundings and the myriad linkages between biological, cultural and linguistic diversity.

ANT 2410 Cultural Anthropology 3 Credits
Grading Scheme: Letter Grade
The nature of culture. The content of cultures; languages, subsistence, economic structures, art and religion in human societies. The integration of culture. (S and D)
Attributes: General Education - Diversity, General Education - Social Science

ANT 2700 Introduction to Applied Anthropology 3 Credits
Grading Scheme: Letter Grade
The utility and application of anthropological theories, methods and knowledge for the solution of specific human problems, including discrimination, hunger, disease and underdevelopment. (S and D)
Attributes: General Education - Diversity, General Education - Social Science

ANT 3141 Development of World Civilization 3 Credits
Grading Scheme: Letter Grade
Discussion of archeological evidence for the development of civilization in its regional variants from the earliest beginning to the dawn of written history. Analyzes causes of cultural development in Old and New World Centers. (H and N)
Attributes: General Education - Humanities, General Education - International

ANT 3153 North American Archaeology 3 Credits
Grading Scheme: Letter Grade
Archaeological materials relating to prehistoric North American cultures. The origins of the North American Indian, Historic Indian and colonial materials. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

ANT 3162 Aztec Civilization 3 Credits
Grading Scheme: Letter Grade
Detailed examination of Aztec culture and society at 1500 AD from ethnohistorical and archaeological evidence, including family life; social, political and economic organization; warfare; religion; and relationships with neighboring peoples. (H and N)
Attributes: General Education - Humanities, General Education - International

ANT 3164 The Inca and Their Ancestors 3 Credits
Grading Scheme: Letter Grade
Evolution of the Inca Empire is traced back archaeologically through earlier Andean states and societies to the beginning of native civilization. (H and N)
Attributes: General Education - Humanities, General Education - International

ANT 3181 Anthropological Museology 3 Credits
Grading Scheme: Letter Grade
The history and purpose of anthropological museums in the formation of the discipline and the modern role of the museum in both anthropological education and research.
ANT 3186 Introduction to Zooarchaeology 3 Credits  
Grading Scheme: Letter Grade  
Introduces the identification, analysis and interpretation of animal remains from archaeological sites. Methods of quantification and skeletal measurements to understand technology and human behavior are addressed. Topics include identification of subsistence patterns, coastal economies, animal domestication, taphonomy, environmental inferences from faunal remains and historical use of subsistence resources.  
Prerequisite: one course in archaeology.

ANT 3241 Anthropology of Religion 3 Credits  
Grading Scheme: Letter Grade  
Cross-cultural survey of beliefs and practices dealing with the supernatural, magic, and religion. Conceptualization of the supernatural, sacred specialists, their function, and social position. Theories of comparative religion in light of anthropological data. (S and D)  
Attributes: General Education - Diversity, General Education - Social Science

ANT 3302 Sex Roles: a Cross-Cultural Perspective 3 Credits  
Grading Scheme: Letter Grade  
Anthropological perspective on division of labor by sex in different world societies. Variation in sex roles in economic, religious, political domains. Socialization and the life cycle. (S and D)  
Attributes: General Education - Diversity, General Education - Social Science

ANT 3364 Peoples and Cultures of China 3 Credits  
Grading Scheme: Letter Grade  
A comprehensive introduction to the diversity and change of Chinese culture and society based on ethnographic studies, theoretical analysis, and historical survey by Western as well as Chinese scholars. (S and N) (WR)  
Attributes: General Education - International, General Education - Social Science, Satisfies 2000 Words of Writing Requirement

ANT 3390 Visual Anthropology 3 Credits  
Grading Scheme: Letter Grade  
Uses photography and film as tools and products of social science. Ways of describing, analyzing and presenting behavior and cultural ideas through visual means. Projects and laboratory work with visual anthropology. (WR)  
Prerequisite: basic knowledge of photography or instructor permission.  
Attributes: Satisfies 6000 Words of Writing Requirement

ANT 3420 Consumer Culture 3 Credits  
Grading Scheme: Letter Grade  
Examination of the cultural bases for the consumption of commodities in modern society, employing anthropological concepts and social science methods. Primary emphasis is on the social relationships enacted between people and the things they live with. (S)  
Prerequisite: sophomore standing or higher.  
Attributes: General Education - Social Science

ANT 3451 Race and Racism 3 Credits  
Grading Scheme: Letter Grade  
Survey of the race concept from the perspectives of cultural and biological anthropology. Examines patterns of human biological variation, traces history of race concept and explores experiences of racism in cross-cultural perspective. (S and D) (WR)  
Attributes: General Education - Diversity, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ANT 3467 Food and Culture 3 Credits  
Grading Scheme: Letter Grade  
The role of food in human culture through time and in different geographical settings. Among topics considered are the biological basis of human diet and how it differs from other primates; how food habits develop and change as a result of cultural interaction; and the ritual and religious uses of food. Diets of traditional cultures and the effects of modernization on diet and health are examined.  
ANT 3478 Global Health Culture 3 Credits  
Grading Scheme: Letter Grade  
Examines the ways in which diverse societies in the United States and abroad construct illness and health experiences, balance healing traditions with multiple forms of medical practice and integrate the human experiences of illness, recovery and death with the technical world of biomedicine.  
Prerequisite: sophomore standing or higher.  
Attributes: General Education - International, General Education - Social Science

ANT 3514C Introduction to Biological Anthropology 4 Credits  
Grading Scheme: Letter Grade  
Introduces the subfield of anthropology that focuses on the natural history of humankind. Through lecture and laboratory, the course surveys a range of materials that focus on the diversity of the Order Primates with emphasis on human and primate variation, adaptation and evolution. (B)  
Attributes: General Education - Biological Science

ANT 3515 Human Evolutionary Anatomy 3 Credits  
Grading Scheme: Letter Grade  
Survey of human anatomy from evolutionary and embryological perspectives. The phylogenetic and functional basis for human form. Anatomical principles underlying developmental and functional disorders are explored through clinical and comparative examples.  
Prerequisite: ANT 3514C or (BSC 2010 and BSC 2011) or PCB 4674.

ANT 3520 Skeleton Keys: Forensic Identification 3 Credits  
Grading Scheme: Letter Grade  
Survey of forensic anthropology, an applied field of biological anthropology, focusing the wider scope of skeletal biology on problems of medicolegal significance, primarily in determining personal identity and cause of death from human remains.  
ANT 3555 The Primates 3 Credits  
Grading Scheme: Letter Grade  
ANT 3620 Language and Culture 3 Credits  
Grading Scheme: Letter Grade  
The role of speech in individual, social and cultural settings. Linguistic basis of thought and perception. Mythological studies and analysis. Bilingualism, biculturalism and minority language politics in current perspective. (S and N) (WR)  
Attributes: General Education - International, General Education - Social Science, Satisfies 4000 Words of Writing Requirement

ANT 3703 Business Anthropology 3 Credits  
Grading Scheme: Letter Grade  
How to get a field-specific job: writing resumes, job interviews, and social science methods and their applications. Provides a general overview of the business anthropology field.
ANT 3860 Writing in Anthropology 3 Credits
Grading Scheme: Letter Grade
Professional writing in the discipline of anthropology. (C) (WR)
Prerequisite: Junior standing or higher in anthropology.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ANT 3930 Junior Topics Class in Anthropology 3 Credits
Grading Scheme: Letter Grade
This course is designed for junior level students to explore special topics classes in the various subfields of anthropology.

ANT 4006 Human Rights and Culture 3 Credits
Grading Scheme: Letter Grade
Examines the nature of human rights cross-culturally, focusing on the history of the concept, universalism vs. particularism, religion, gender, race, regionalism, and modern human rights conventions.

ANT 4034 History of Anthropological Theory 3 Credits
Grading Scheme: Letter Grade
The history and development of anthropological theory. Methods in anthropological research. Directed reading of major theoretical publications. (S) (WR)
Prerequisite: one cultural anthropology course or instructor permission.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ANT 4110 Archaeological Theory 3 Credits
Grading Scheme: Letter Grade
Survey of the theoretical and methodological tenets of anthropological archaeology; critical review of archaeological theories, past and present; relation of archaeology to anthropology. (S)
Prerequisite: one course in archeology and/or anthropology, or instructor permission.
Attributes: General Education - Social Science

ANT 4112 Ideology and Symbolic Approaches in Archaeology 3 Credits
Grading Scheme: Letter Grade
Critically examines the development of thought in archaeology that goes beyond a materialist interpretation of culture. This seminar explores questions of causality and the role of mind and culture as a mediator between the environment and political, economic and social structures.
Prerequisite: instructor permission.

ANT 4113 Experimental Archaeology 3 Credits
Grading Scheme: Letter Grade
Introduces the principles and applications of experimental archaeology, drawing on a broad range of case studies that illustrate the numerous experimental methods that archaeologists have used to solve analytic or interpretive problems.
Prerequisite: instructor permission.

ANT 4114 Principles of Archaeology 3 Credits
Grading Scheme: Letter Grade
Basic principles of archaeological science. Field and laboratory techniques (site survey, mapping, excavation, artifact analysis, dating). Foundational methods to interpret archaeological data to understand cultural and natural processes in the past. Legal and ethical issues of heritage management and stewardship of the archaeological record. (WR)
Prerequisite: ANT 2140 or ANT 3141.

ANT 4147C Environmental Archaeology 3 Credits
Grading Scheme: Letter Grade
Theory and case studies in environmental archaeology, integrating zooarchaeology, archaeobotany and geoarchaeology, are used to interpret past human interactions with the natural environment.
Prerequisite: instructor permission.

ANT 4168 Maya Civilization 3 Credits
Grading Scheme: Letter Grade
In-depth study of the pre-Hispanic Maya civilization based on archaeological and epigraphic information. Includes methods for constructing knowledge of this civilization and discussion of current controversies.
Prerequisite: ANT 2140 or ANT 3141 or instructor permission.

ANT 4180L Laboratory Training in Archaeology 1-3 Credits
Grading Scheme: Letter Grade
Processing of data recovered in field excavations; includes cleaning, identification, cataloguing, classification, drawing, analysis, responsibilities of data reporting.
Prerequisite: an introductory-level archeology course.

ANT 4193 Ethnoarchaeology 3 Credits
Grading Scheme: Letter Grade
A seminar that draws on case studies to examine the theoretical and methodological approaches to ethnarchaeology. Students will apply these approaches in field exercises.
Prerequisite: instructor permission.

ANT 4194 A Critical Archaeology of Time 3 Credits
Grading Scheme: Letter Grade
Seminar that draws on case studies to explore problems at the intersection of measured time in archaeology, and the practice and reckoning of time in mostly non-Western societies.
Prerequisite: instructor permission.

ANT 4213 Global Humankind 3 Credits
Grading Scheme: Letter Grade
Advanced analysis of experiences and strategies for tackling classic dilemmas of the human condition in interconnected cultural works.
Examination of how basic lifestyle decisions and actions are experienced locally and their global consequences. Anthropological theories and concepts are discussed in tandem with case studies from around the world.
Prerequisite: one 2000 or 3000 level ANT course or instructor permission.

ANT 4266 Economic Anthropology 3 Credits
Grading Scheme: Letter Grade
A consideration of economic philosophies and the behavioral bases of formal economic theories. Cross-cultural studies of production, distribution and consumption, money and the acquisition of goods. The latest materials from cultural ecology, Marxism, formalism, substantivism and discourse centered approaches are reviewed. (S) (WR)
Prerequisite: one anthropology course or instructor permission.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ANT 4273 Anthropology of Law 3 Credits
Grading Scheme: Letter Grade
An examination of legal systems cross-culturally with a focus on the interrelationship of law with culture, society, economics and politics.
ANT 4274 Political Anthropology 3 Credits
Grading Scheme: Letter Grade
The problem of identifying political behavior. Natural leadership in bands, tribes and small groups. Acephalous societies and republican structures. Kingship and early despotic states. Theories of bureaucracy. (S)
Prerequisite: an introductory course in the social sciences, or instructor permission.
Attributes: General Education - Social Science

ANT 4323 People of Mexico and Central America 3 Credits
Grading Scheme: Letter Grade
The settlement and early cultures of the area with an emphasis on the rise of the major culture centers. The impact of European civilization and surviving Indians. (S and N) (WR)
Attributes: General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ANT 4336 The Peoples of Brazil 3 Credits
Grading Scheme: Letter Grade
Ethnology of Brazil; historical, geographic, and socioeconomic material is covered and representative monographs from the various regions of Brazil are read. The contribution of the Indian, Portuguese and African to modern Brazilian culture. (S and N) (WR)
Attributes: General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ANT 4340 Anthropology of the Caribbean 3 Credits
Grading Scheme: Letter Grade
Investigation into cultural contact that has taken place in the Caribbean and results of that contact in terms of peoples and sociocultural units produced and processes of cultural change involved. (S and N)
Attributes: General Education - International, General Education - Social Science

ANT 4352 Peoples of Africa 3 Credits
Grading Scheme: Letter Grade
An anthropological survey of the culture, history and ethnographic background of the peoples of Africa. A basis for appreciation of current problems of acculturation, nationalism, and cultural survival and change among African peoples. (S and N) (WR)
Attributes: General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ANT 4354 The Anthropology of Modern Africa 3 Credits
Grading Scheme: Letter Grade
Study of continuity and change in contemporary African societies with special reference to cultural and ethnic factors in modern nations. (S and N) (WR)
Attributes: General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ANT 4366 Family, Gender and Population in China 3 Credits
Grading Scheme: Letter Grade
This seminar examines the processes by which the family system, gender relations, and population configuration interact with each other to become powerful forces in shaping contemporary China's political, social and economic conditions. (S and N)
Prerequisite: instructor permission.
Attributes: General Education - International, General Education - Social Science

ANT 4392 Peoples of the Artic 3 Credits
Grading Scheme: Letter Grade
An anthropological survey of the culture, history and ethnographic background of the circumpolar Artic. An investigation of the problems of acculturation, human ecology, cultural survival and self-determination of Northern Indigenous Peoples.
Prerequisite: ANT 2140.

ANT 4403 Environment and Cultural Behavior 3 Credits
Grading Scheme: Letter Grade
The interaction of people and their environment as mediated by cultural institutions. Levels of socioeconomic adaptation in hunting and gathering, pastoral and agricultural societies. Warfare and ritual as ecological mechanisms. (S) (WR)
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ANT 4462 Culture and Medicine 3 Credits
Grading Scheme: Letter Grade
A survey of the field of medical anthropology and its interdisciplinary context. The course examines contemporary approaches and the development of an applied field concerned with human sickness and healing.

ANT 4468 Health and Disease in Human Evolution 3 Credits
Grading Scheme: Letter Grade
Review of pathology as evidenced in fossil and archaeological records. Interpretation of disease in a biocultural context.
Prerequisite: ANT 3514C, or instructor permission.

ANT 4495 Ethnographic Methods 3 Credits
Grading Scheme: Letter Grade
Introduces the basic theoretical, methodological, ethical and practical concerns in the making of ethnography. In addition to readings and discussions, students will conduct a micro-project to gain hands-on experience in ethnography. (S)
Prerequisite: ANT 2000.
Attributes: General Education - Social Science

ANT 4525 Human Osteology and Osteometry 3 Credits
Grading Scheme: Letter Grade
Human skeletal identification for the physical anthropologist and archaeologist. Techniques for estimated age at death, race and sex from human skeletal remains. The measurement of human skeleton for comparative purposes. (B)
Prerequisite: ANT 3514C and instructor permission.
Attributes: General Education - Biological Science

ANT 4530 Seminar in Molecular Anthropology 3 Credits
Grading Scheme: Letter Grade
Course examines current applications of molecular data to questions of human evolution and genetics, based on most recent journal articles.
Prerequisite: BSC 2011 or instructor permission.

ANT 4531 Molecular Genetics of Disease 3 Credits
Grading Scheme: Letter Grade
Examines molecular genetics of human disease. Discusses a range of diseases from single-gene recessive defects to complex diseases.
Prerequisite: BSC 2011 or instructor permission.

ANT 4552 Primate Behavior 3 Credits
Grading Scheme: Letter Grade
Deals with the taxonomy, distribution and ecology of primates. The range of primate behavior for each major taxonomic group is explored. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement
ANT 4554C Primate Evolution 3 Credits  
**Grading Scheme:** Letter Grade  
**Prerequisite:** ANT 3514C or instructor permission.  

ANT 4586 Human Evolution 3 Credits  
**Grading Scheme:** Letter Grade  
This course surveys the evidence for the evolution of humankind. Emphasis is placed on the late Miocene to Pleistocene human fossil record and its interpretation. Basic principles of geology, systematics, evolutionary theory, functional morphology, and phylogenetic reconstruction are introduced and used to aid in understanding the human fossil and archaeological records. (B)  
**Prerequisite:** ANT 3514C or the equivalent.  
**Attributes:** General Education - Biological Science  

ANT 4740 Introduction to Forensic Science 3 Credits  
**Grading Scheme:** Letter Grade  
Basic concepts and topics in forensic science, medicine and criminalistics. Also provides basic understanding of the fundamental concepts of scientific methodology.  

ANT 4824 Field Sessions in Archaeology 6 Credits  
**Grading Scheme:** Letter Grade  
Excavation of archaeological sites, recording of data, laboratory handling and analysis of specimens, and study of the theoretical principles which underlie field methods and artifact analysis.  
**Prerequisite:** 6 credits of anthropology or instructor permission.  

ANT 4851 Digital Anthropology 3 Credits  
**Grading Scheme:** Letter Grade  
Investigation into how our emerging digital environment is affecting humans and societies. The study of digital technologies in comparative cultural contexts. Analysis of digital technology as a form of material culture. Introduction to theoretical perspectives on digital phenomena and the applications of these technologies in anthropology and other disciplines.  
**Prerequisite:** one 2000 or 3000 level ANT, LAS, or AFS course or instructor permission.  

ANT 4905 Individual Work 1-5 Credits  
**Grading Scheme:** Letter Grade  
Individual, supervised research on a specific topic in anthropology.  
**Prerequisite:** instructor permission.  

ANT 4907 Research Projects in Anthropology 1-5 Credits  
**Grading Scheme:** Letter Grade  
For students undertaking directed research in supplementary or regular coursework or on special problems.  
**Prerequisite:** instructor permission.  

ANT 4911 Undergraduate Research in Anthropology 0-3 Credits  
**Grading Scheme:** Letter Grade  
Course provides firsthand, supervised research in Anthropology. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Anthropology.  

ANT 4914 Department Honors in Anthropology 3 Credits  
**Grading Scheme:** Letter Grade  
Open to students meeting department honors criteria and normally taken in the senior year. Students will develop special interests and write an essay based upon this research.  
**Prerequisite:** undergraduate coordinator permission.  

ANT 4930 Special Topics in Anthropology 3-5 Credits  
**Grading Scheme:** Letter Grade  
Rotating content in anthropology.  
**Prerequisite:** 10 credits in anthropology or instructor permission. With permission, can be repeated with change in content up to 9 credits.  

ANT 4931 Capstone in Anthropology 3 Credits  
**Grading Scheme:** Letter Grade  
Capstone course for anthropology majors focusing on the integration of core knowledge from the subfields of anthropology and their application to historical and contemporary topics. Explores application of anthropological knowledge for both pre-professional development and non-professional careers.  
**Prerequisite:** Senior standing in anthropology.  

ANT 4956 Overseas Studies in Cultural Anthropology 3-9 Credits  
**Grading Scheme:** Letter Grade  
Provides a mechanism by which coursework taken as part of an approved UF study abroad program can be recorded on the UF transcript and counted toward graduation.  
**Prerequisite:** undergraduate advisor permission.  

---

**Applied Physiology and Kinesiology**

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.  

**Courses**

APK 2100C Applied Human Anatomy with Laboratory 4 Credits  
**Grading Scheme:** Letter Grade  
Study of general anatomy of the human body from a systematic approach. Understanding anatomical terminology, gross structures, and locations of different body structures are primary concerns. Cells, tissues and organs of the integumentary, skeletal, muscular, nervous, circulatory, respiratory, digestive, urinary and reproductive systems are emphasized. (B)  
**Attributes:** General Education - Biological Science  

APK 2105C Applied Human Physiology with Laboratory 4 Credits  
**Grading Scheme:** Letter Grade  
Introduces body functions at the cellular, tissue, organ and systems level with emphasis on the mechanisms of operation. Designed for students interested in pursuing study in the health professions. (B)  
**Prerequisite:** sophomore standing or higher.  
**Attributes:** General Education - Biological Science
APK 3110C Physiology of Exercise and Training 3 Credits
Grading Scheme: Letter Grade
Survey in exercise physiology which provides an overview of the acute and chronic responses to exercise. Particular attention is placed on understanding muscle bioenergetics and metabolism as well as the cardiopulmonary responses to exercise. Special topics include exercise testing, training technologies and exercise in hot and cold environments.
Prerequisite: APK 2105C with minimum grade of C; junior standing or above; HH-APK and HH-AT majors only.

APK 3113C Principles of Strength and Conditioning 3 Credits
Grading Scheme: Letter Grade
For individuals who are interested in becoming certified personal trainers (NSCA-PT) or certified strength and conditioning specialists (CSCS) through the National Strength and Conditioning Association.
Prerequisite: APK 2100C and APK 2105C with minimum grades of C.

APK 3163 Sport Nutrition 3 Credits
Grading Scheme: Letter Grade
Addresses the aspects of nutrition that are related to exercise performance. Emphasis is on bioenergetic systems, nutrient components, nutritional and body composition assessments, ergogenic aids and diet modifications for physically active individuals and athletes.
Prerequisite: HUN 2201 and APK 2105C.

APK 3200 Motor Learning 3 Credits
Grading Scheme: Letter Grade
Provides background for understanding, analyzing and teaching skills in sports and dance. Attention to specific aspects of psychomotor developments and theoretical models of skill acquisition.
Prerequisite: junior standing or higher and Applied Physiology and Kinesiology major.

APK 3220C Biomechanical Basis of Movement 3 Credits
Grading Scheme: Letter Grade
Prerequisite: junior or senior standing; APK 2100C and MAC 1140 with minimum grades of C; or PHY 2048 or PHY 2053 with minimum grade of C.

APK 3400 Introduction to Sport Psychology 3 Credits
Grading Scheme: Letter Grade
Provides an understanding of the science and practice of sport psychology from both a theoretical and applied perspective. The primary emphasis is on the educational and performance enhancement roles of the field with little discussion of clinical issues.
Prerequisite: junior or senior standing.

APK 3405 Exercise Psychology 3 Credits
Grading Scheme: Letter Grade
Introduces exercise psychology. Topics include the effects of exercise on psychological well-being, exercise adherence and intervention from both theoretical and applied perspectives.
Prerequisite: junior or senior standing.

APK 4050 Research Methods 3 Credits
Grading Scheme: Letter Grade
Provides an understanding of basic research methods and techniques used in applied physiology and kinesiology. Students will demonstrate their knowledge of the course materials by analyzing, interpreting and summarizing research writing in professional journals and by planning a research study.
Prerequisite: APK major with 3, 4, 6 or 7 classification.

APK 4101 Fundamentals of Skeletal Muscle 3 Credits
Grading Scheme: Letter Grade
Provides a comprehensive background of skeletal muscle properties, focusing on key aspects of function at the protein, cellular, and whole organ level. Major topics include muscle contraction and force generation, fuel sources and energy utilization, growth and development, and an introduction to pathology.
Prerequisite: APK 2105C with a minimum grade of B and junior standing or higher.

APK 4103C Kinetic Anatomy 3 Credits
Grading Scheme: Letter Grade
Provides in-depth coverage of musculoskeletal anatomy as a foundation for learning components of simple and complex motor tasks; emphasizes proper execution and analysis of joint movement and common exercises.
Prerequisite: APK 2100C and APK 3220C.

APK 4112 Advanced Exercise Physiology 3 Credits
Grading Scheme: Letter Grade
Provides a detailed understanding of acute and chronic responses to exercise. Particular attention is placed upon understanding the physiological responses to exercise at both a systems and cellular level. Emphasis is placed on muscle contractile properties, muscle bioenergetics and the endocrine responses to exercise.
Prerequisite: APK 3110C with minimum grade of C.

APK 4115 Neuromuscular Aspects of Exercise 3 Credits
Grading Scheme: Letter Grade
Provides an in-depth analysis of muscle structure and function; how muscles produce movement; adaptation of muscle to resistance training, endurance training and various manipulations used in rehabilitations; adaptation of muscle to disuse; and muscle responses to injury.
Prerequisite: APK 3110C with minimum grade of C.

APK 4120 Clinical Exercise Physiology 3 Credits
Grading Scheme: Letter Grade
Provides an understanding of recent advances in exercise physiology and exercise prescription for clinical populations. Particular attention is placed upon the study of acute and chronic responses to exercise in patients with cardiac, pulmonary, metabolic and musculoskeletal diseases.
Prerequisite: APK 3110C with minimum grade of C.

APK 4125C Physical Fitness Assessment and Exercise Prescription 3 Credits
Grading Scheme: Letter Grade
Techniques of assessing physical fitness using traditional and state of the art processes. Techniques of prescribing exercise programs based upon assessments of physical parameters. Supervised practical lab experiences in assessment and prescription in a clinical setting.
Prerequisite: APK 3110C with minimum grade of C and Health and Human Performance major.

APK 4144 Movement Neuroscience 3 Credits
Grading Scheme: Letter Grade
Covers both anatomical and physiological aspects of movement-related components of the nervous system from a functional perspective. Topics include: neuronal signaling; somatosensation; proprioception; nociception; vision and eye movements; audition; lower vs. upper motor neurons; cortical, basal ganglia and cerebellar regulation of movement; and posture.
Prerequisite: (APK 2100C and APK 2105C with minimum grades of C) and (sophomore standing or higher) and Applied Physiology and Kinesiology major.
APK 4912 Undergraduate Research 0-5 Credits
Grading Scheme: S/U
Provides APK students the opportunity for involvement in supervised research experiences. "Research" is operationally defined here as mentored, but self-directed work that allows students to explore an issue of interest to them and to communicate the results to others. (S-U)

APK 4940C Internship 12 Credits
Grading Scheme: S/U
Internship in applied physiology and kinesiology. (S-U)
Prerequisite: department permission.

APK 4943 Teaching Experience in APK 1 Credit
Grading Scheme: S/U
Experience teaching as an undergraduate assistant; responsibilities meet the needs of the particular course and instructor, including, but not limited to, giving short lectures, holding study/discussion sections, grading, and helping with exam/quiz/assignment preparation and proctoring. (S-U)
Prerequisite: instructor permission.

ATR 2010C Prevention and Care of Athletic Injuries 3 Credits
Grading Scheme: Letter Grade
Prevention of athletic injuries, including protective equipment, safe facilities and proper supervision of practice and contests. Recognition, referral and follow-up of injuries in athletics. Legal implications of athletic training.
Prerequisite: APK 2100C and Health and Human Performance major.

ATR 3102 Principles of Athletic Training 4 Credits
Grading Scheme: Letter Grade
Provides the student with knowledge of basic principles of athletic training, including prevention, recognition and treatment of athletic injuries. Addresses the proper application of protective equipment, bracing/wrapping/taping techniques utilized by athletic trainers and introduces emergency management skills appropriate for sport.
Prerequisite: admission to the athletic training specialization.

ATR 4018 Professionalism and Communication in Sports Healthcare 3 Credits
Grading Scheme: Letter Grade
Foundational knowledge course in professionalism, inter-professional cooperation, cultural competence, client interactions, and basic legal concepts related to sport and exercise.
Prerequisite: APK majors with junior standing.

ATR 4112C Emergency Management of Athletic Trauma 3 Credits
Grading Scheme: Letter Grade
Learn to recognize, assess, treat, and refer traumatic injury and acute emergent illness.
Prerequisite: Athletic Training major.

ATR 4212C Athletic Injury Assessment: Upper Extremity 4 Credits
Grading Scheme: Letter Grade
Provides background information to conduct a thorough initial evaluation of upper extremity injuries commonly sustained by the physically active population.
Prerequisite: ATR 3102 with minimum grade of C and admission to the athletic training specialization.

ATR 4213C Athlete Injury Assessment: Lower Extremity 4 Credits
Grading Scheme: Letter Grade
Provides background information to conduct a thorough initial evaluation of lower extremity injuries commonly sustained by the physically active population.
Prerequisite: ATR 4212C with minimum grade of C.

ATR 4302C Therapeutic Modalities in Athletic Training 4 Credits
Grading Scheme: Letter Grade
Introduces physiological principles, concepts and operational procedures of contemporary therapeutic modalities as they relate to the care and treatment of athletic injuries.
Prerequisite: ATR 3102 with minimum grade of C and admission to the athletic training specialization.

ATR 4314C Rehabilitation Techniques in Athletic Training 4 Credits
Grading Scheme: Letter Grade
Introduces the concepts and principles of a comprehensive rehabilitation program including determination of therapeutic goals and objectives, selection of therapeutic exercises, methods of evaluating and recording rehabilitation progress, development of criteria for progress and return to competition and the physiological effects of trauma/wound healing and inactivity/immobilization.
Prerequisite: ATR 4302C with minimum grade of C.

ATR 4315 Functional Sport Conditioning 3 Credits
Grading Scheme: Letter Grade
Enhances knowledge in design and implementation of functional exercise techniques as it relates to injury rehabilitation. Nutritional considerations for the injured athlete and proper design of the pre and post event meal planning for optimal performance and recovery are also covered.
Prerequisite: ATR 4314C.

ATR 4432 Clinical Pathology and Pharmacology 3 Credits
Grading Scheme: Letter Grade
Provides a thorough understanding of injury, illness and/or disease of various body systems; addresses specific understanding of medical diagnostics, interventions (including pharmacology) and participation considerations for the athletic population.
Prerequisite: ATR 4822 with minimum grade of C.

ATR 4512 Athletic Training Administration 3 Credits
Grading Scheme: Letter Grade
In-depth background of the standards, policies and practices of organization, supervision and administration of athletic training programs.
Prerequisite: ATR 4832 with minimum grade of C; athletic training seniors only.

ATR 4812 Athletic Training Clinical Experience 1 Credits
Grading Scheme: Letter Grade
Provides the student with the opportunity necessary to grow both clinically and professionally within the field of athletic training through attendance at seminars, and the integration and synthesis of cognitive and psychomotor skills learned in previous semesters.
Prerequisite: ATR 3102 with minimum grade of C and admission to the athletic training specialization.

ATR 4822 Athletic Training Clinical Experience 2 Credits
Grading Scheme: Letter Grade
Provides the student with the opportunity necessary to grow both clinically and professionally within the field of athletic training through attendance at seminars, and the integration and synthesis of cognitive and psychomotor skills learned in previous semesters.
Prerequisite: ATR 4812 with minimum grade of C.

ATR 4832 Athletic Training Clinical Experience 3 Credits
Grading Scheme: Letter Grade
Provides the student with the opportunity necessary to grow both clinically and professionally within the field of athletic training through attendance at seminars, and the integration and synthesis of cognitive and psychomotor skills learned in previous semesters.
Prerequisite: ATR 4822 with minimum grade of C.
ATR 4842 Athletic Training Clinical Experience 4 4 Credits
Grading Scheme: Letter Grade
Provides the student with the opportunity necessary to grow both clinically and professionally within the field of athletic training through attendance at seminars, and the integration and synthesis of cognitive and psychomotor skills learned in previous semesters.
Prerequisite: ATR 4832 with minimum grade of C.

BSC 3096 Human Physiology 3 Credits
Grading Scheme: Letter Grade
Functioning of human tissues, organs and organ systems, emphasizing the physical, chemical and mechanistic bases of normal physiology and the integrated function of the human body. Also introduces pathophysiological changes associated with human diseases.
Prerequisite: (CHM 1031 or CHM 2046 or CHM 2047) and BSC 2011.

HLP 4933 Variable International Topics 1-6 Credits
Grading Scheme: Letter Grade
Provides the opportunity to study in a wide range of cultural settings.

PET 4905C Variable Topics in Exercise and Sport Sciences 1-5 Credits
Grading Scheme: Letter Grade
Offered upon request to meet students' special interests that are not adequately provided in other courses.
Prerequisite: department chair permission.

PET 4948C Practicum in Exercise and Sport Sciences 1-5 Credits
Grading Scheme: Letter Grade
Practical experience in such specialty areas as adult fitness programs, health clubs, exercise testing laboratories, clinical laboratories and athletic training rooms. May include senior thesis with oral defense.
Prerequisite: department chair permission.

SPM 4154 Administration of Sport and Physical Activity 3 Credits
Grading Scheme: Letter Grade
Managerial principles and techniques applicable to a variety of sport, physical education and fitness settings.
Prerequisite: MAN 3025 and SPM 2000 with minimum grades of C.

Arabic | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

Courses

ABT 3130 Arabic Literary Heritage 1 3 Credits
Grading Scheme: Letter Grade
A survey of classical Arabic literature in translation. Covers pre-Islamic poetry and early Islamic poetry, Omayyad, Abbasid and Andalusian literatures. All readings in English. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

ABT 3500 Arabic Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to Arabic culture with special reference to art, literature, religion and society. Emphasis on Arab contributions to philosophy, medicine, mathematics and architecture. All readings in English. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

ABT 4131 The Qur’an as Literature 3 Credits
Grading Scheme: Letter Grade
Approaches the Qur’an from a literary standpoint by examining its history, structure, style, major themes, and impact on Arabic literature, Islamic thought, and Muslim culture.
Prerequisite: ARA 1131 or ABT 3500 or REL 2000 or REL 2362 or REL 4361 or senior standing.

ARA 1130 Beginning Arabic 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading, and writing.
ARA 1131 Beginning Arabic 2 5 Credits  
Grading Scheme: Letter Grade  
Continued study of the four skills with additional vocabulary and grammar.  
Prerequisite: ARA 1130 with minimum grade of C or the equivalent.

ARA 2220 Intermediate Arabic 1 4 Credits  
Grading Scheme: Letter Grade  
Continuation of the study of standard Arabic language. Develops reading, writing, listening and speaking skills and helps with comprehension of written and audio texts. Students can use their knowledge of the Arabic language to clearly express their personal views in a meaningful and well-structured language.  
Prerequisite: ARA 1131 with minimum grade of C or the equivalent.

ARA 2221 Intermediate Arabic 2 4 Credits  
Grading Scheme: Letter Grade  
Continues the study of Arabic language at the intermediate level. Emphasizes developing reading comprehension, writing, listening and speaking, and vocabulary and grammar.  
Prerequisite: ARA 1131 with minimum grade of C or the equivalent.

ARA 2240 Spoken Arabic 3 Credits  
Grading Scheme: Letter Grade  
Develops listening and conversational skills at an intermediate level of proficiency. Focuses on a middle variety of Arabic known as Educated Spoken Arabic that enables successful communication with educated Arab speakers from virtually any country in the Arab world.  
Prerequisite: ARA 1131.

ARA 3241 Spoken Arabic 3 Credits  
Grading Scheme: Letter Grade  
Develops listening and conversational skills at an intermediate level of proficiency. Focuses on a middle variety of Arabic known as Educated Spoken Arabic that enables successful communication with educated Arab speakers from virtually any country in the Arab world.  
Prerequisite: ARA 2221.

ARA 3410 Advanced Arabic 1 3 Credits  
Grading Scheme: Letter Grade  
Advanced study of the four skills with attention to more complex structures.  
Prerequisite: ARA 2221 with minimum grade of C or the equivalent.

ARA 3411 Advanced Arabic 2 3 Credits  
Grading Scheme: Letter Grade  
Continuation of advanced study.  
Prerequisite: ARA 3410 with minimum grade of C or the equivalent.

ARA 3510 The Arab Woman 3 Credits  
Grading Scheme: Letter Grade  
Examines the role and status of Arab women in their respective societies; specifically examines the internal dynamic of Arab culture that influences the role of the Arab woman. (H and N OR S and N) (WR)  
Attributes: General Education - Humanities, General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ARA 4400 Fourth Year Arabic 1 3 Credits  
Grading Scheme: Letter Grade  
Development to an advanced level of speaking, hearing, reading and writing of spoken and mass communication and literary Arabic. (H and N)  
Prerequisite: ARA 3411 or the equivalent.  
Attributes: General Education - Humanities, General Education - International

ARA 4401 Fourth Year Arabic 2 3 Credits  
Grading Scheme: Letter Grade  
Continuation of ARA 4400. Development of a more advanced level of speaking, hearing, reading and writing of spoken and mass communication and literary Arabic. (H and N)  
Prerequisite: ARA 4400 or the equivalent.  
Attributes: General Education - Humanities, General Education - International

ARA 4420 Arabic through the Texts 3 Credits  
Grading Scheme: Letter Grade  
For advanced students of Arabic. Teaches the more complex grammar, idiomatic expressions and sophisticated stylistic forms of the language. Required for the Arabic minor.  
Prerequisite: ARA 3411 or the equivalent.

ARA 4822 Arabic Sociolinguistics 3 Credits  
Grading Scheme: Letter Grade  
Focus on the relationship between language and society in the Arab world. An examination of the different varieties of Arabic and the relation between linguistic variation and other social variables, such as ethnicity, religion, urbanization, social class, gender, power and ideology.  
Prerequisite: ARA 1131 or LIN 3010.

ARA 4850 Structure of Standard Arabic 3 Credits  
Grading Scheme: Letter Grade  
Describes and analyzes the sound system, word structure, and sentence structure of Arabic.  
Prerequisite: ARA 1131 or LIN 3010.

ARA 4905 Individual Study 1-5 Credits  
Grading Scheme: Letter Grade  
For those who seek independent work not offered in another course.  
Prerequisite: instructor permission.

ARA 4915 Honors Thesis 3 Credits  
Grading Scheme: S/U  
Directed research leading to an honors thesis on a topic approved by the thesis director. Not a substitute for a required course in Foreign Languages and Literatures - Arabic Specialization or Minor in Arabic Studies.  
Prerequisite: minimum 3.5 GPA and instructor permission.

ARA 4930 Special Topics 3 Credits  
Grading Scheme: Letter Grade  
One of the core courses in the Middle Eastern languages and cultures major offered through interdisciplinary studies. Also useful for students in linguistics, religion, Arabic, Hebrew and Jewish studies.  
Prerequisite: one year of Hebrew or equivalent, one year of Arabic or equivalent, LIN 3010 or equivalent, or instructor permission.

ARA 4956 Overseas Studies 1 1-15 Credits  
Grading Scheme: Letter Grade  
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.  
Prerequisite: undergraduate advisor permission.

Architecture

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)
Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

The School of Architecture recognizes design as a synthesis of thinking, analyzing and making — an iterative process that engages, issues of space, historical precedent, sustainability, ecology, urbanity, landscape, built-form, and construction toward innovation. The School of Architecture is uniquely positioned to respond to these issues by deploying studio based design methodologies in collaboration with a new generation of experts in engineering, ecology, business, anthropology, energy, fine arts, medicine, and construction.

Curriculum
• Architecture

Courses

ARC 1000 Architecture and Humanity 3 Credits
Grading Scheme: Letter Grade
Introduces the issues and opportunities derived through actively engaging the sustainable and ethical design of the environments in which we live: urban, landscape and architectural. (H)
Attributes: General Education - Humanities

ARC 1301 Architectural Design 1 4 Credits
Grading Scheme: Letter Grade
Introduces interfacing communication skills with design thinking. Emphasizes awareness and understanding of basic organization ideas in design.
Prerequisite: (architecture or interior design or landscape architecture major) or college advising center permission.

ARC 1302 Architectural Design 2 4 Credits
Grading Scheme: Letter Grade
An analysis course that uses the study of architectural precedent as a foundation for the development of communication and design skills.
Prerequisite: ARC 1301.

ARC 1701 Architectural History 1 3 Credits
Grading Scheme: Letter Grade
General survey of social, political, and cultural factors that have generated art and architecture. (H and N) (WR)
Prerequisite: architecture major.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

ARC 1702 Architectural History 2 3 Credits
Grading Scheme: Letter Grade
A survey of the history of architecture from 1400 to 1850. Lectures examine the effects of social, political, material, technological and cultural forces on the design and construction of the built environment and explore the role of the architect in civil society. Emphasizes the theoretical positions of the architects and architectural schools. (H and N)
Prerequisite: architecture major.
Corequisite: ARC 1301 or ARC 4072.
Attributes: General Education - Humanities, General Education - International

ARC 1720 Survey of Architecture History 3 Credits
Grading Scheme: Letter Grade
A survey of monumental buildings and their embodied architectural intentions from the pre-historical ages to the current age. Demonstrating interactive relationships between form and idea in architecture throughout history across cultural and regional differences. (H and N) (WR)
Prerequisite: non-architecture majors only.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

ARC 2180 Introduction to Digital Architecture 3 Credits
Grading Scheme: Letter Grade
Introduces computer-aided design programs currently utilized by professional practices.
Prerequisite: architecture majors only;
Corequisite: ARC 2303 or ARC 4071.

ARC 2201 Theory of Architecture 1 3 Credits
Grading Scheme: Letter Grade
Critical study of the processes that influence the form and image of architecture with an emphasis on an understanding of ordering principles and concepts of how space and architecture systems are interrelated. (H)
Prerequisite: architecture major.
Corequisite: ARC 2303 or ARC 4071.
Attributes: General Education - Humanities

ARC 2303 Architectural Design 3 5 Credits
Grading Scheme: Letter Grade
Studio course explores the influence of history and culture on design decision-making.
Prerequisite: ARC 1302.

ARC 2304 Architectural Design 4 5 Credits
Grading Scheme: Letter Grade
Explores context as a generator of architectural design ideas. Contemporary cultural influences also are examined and incorporated in the design process.
Prerequisite: ARC 2303.

ARC 2461 Materials and Methods of Construction 1 3 Credits
Grading Scheme: Letter Grade
The nature of materials used in construction. Criteria for evaluation and selection related to design decision-making.
Prerequisite: architecture major.
Corequisite: ARC 2304.

ARC 3181 Advanced Topics in Digital Architecture 3 Credits
Grading Scheme: Letter Grade
Continued investigation of computer-aided design programs currently utilized by professional practices.
Prerequisite: ARC 2180.
ARC 3291 Special Studies in Architecture 1-6 Credits
Grading Scheme: Letter Grade
Special studies in architecture adjusted to individual needs of undergraduate students.
Prerequisite: completion of lower division in architecture and recommendation of advisor.

ARC 3320 Architectural Design 5 6 Credits
Grading Scheme: Letter Grade
Architectural design and its relationship to regional contextual influences are investigated through a range of projects which vary in scale and complexity.
Prerequisite: ARC 2304.

ARC 3321 Architectural Design 6 6 Credits
Grading Scheme: Letter Grade
Architectural design within a large scale urban context. Theory, methodology and evolution of urban form in response to social, cultural, economic and technological forces.
Prerequisite: ARC 3320.

ARC 3463 Materials and Methods of Construction 2 3 Credits
Grading Scheme: Letter Grade
Methods of assembling and selecting materials; detailed systems of construction are investigated.
Corequisite: ARC 4323 or ARC 4073.

ARC 3503 Introduction to Architectural Structures 3 Credits
Grading Scheme: Letter Grade
A foundation course that investigates principles of structural behavior in withstanding gravity and lateral forces; consider structural layout, load distribution and preliminary design techniques; and examines contemporary structural systems through case studies emphasizing trussed, framed, funicular and shell structural systems.
Prerequisite: PHY 2004 or PHY 2053;
Corequisite: ARC 3320 or ARC 4073.

ARC 3610 Environmental Technology 1 3 Credits
Grading Scheme: Letter Grade
Principles and practices relating to control of the thermal/atmospheric environment and to plumbing in buildings.
Corequisite: ARC 3321 or ARC 4074.

ARC 3743 Architectural History 3 3 Credits
Grading Scheme: Letter Grade
A survey of the history of architecture from 1850 to present. Lectures examine the effects of social, political, material, technological and cultural forces on the design and construction of the built environment and explore the role of the architect in civil society. Emphasizes the theoretical positions of the architects and architectural schools.
Prerequisite: architecture major.
Corequisite: ARC 3320.

ARC 3880 Sustainable Architecture 3 Credits
Grading Scheme: Letter Grade
How environmentalism informs architectural discourses and how discourses on the built environment and urbanism impact environmentalism globally.
Prerequisite: junior standing or higher or instructor permission.

ARC 4071 Core Studio 1 6 Credits
Grading Scheme: Letter Grade
Introduces a variety of design techniques, including design theory, three-dimensional development and spatial relationships.

ARC 4072 Core Studio 2 6 Credits
Grading Scheme: Letter Grade
Continuation of core studio sequence with increased emphasis on manipulation of architectural elements.
Prerequisite: ARC 4071.

ARC 4073 Core Studio 3 6 Credits
Grading Scheme: Letter Grade
Continuation of core studio sequence with studio projects related to program development, structural integration, energy analysis and introduction to mechanical integration systems.
Prerequisite: ARC 4072.

ARC 4074 Core Studio 4 6 Credits
Grading Scheme: Letter Grade
Continuation of core studio sequence with increased emphasis on complex building types.
Prerequisite: ARC 4073.

ARC 4220 Architectural Theory 2 3 Credits
Grading Scheme: Letter Grade
Investigates the theoretical, historical and ideological ideas in architecture that took place during the early decades of the twentieth century.
Corequisite: ARC 4322 or ARC 6241.

ARC 4310C Building Information Modeling 3 Credits
Grading Scheme: Letter Grade
Emerging technology in building information modeling (BIM) in the context of architectural design development and documentation. Theoretical and technological evolution of different topologies of software with hands-on experience designing and modeling with BIM software.
Prerequisite: ARC 2180.

ARC 4322 Architectural Design 7 6 Credits
Grading Scheme: Letter Grade
Emphasizes the notion of control over architectural design processes needed to arrive at solutions that respond to needs through appropriate use of program development and construction technology. Course emphasizes the complete building as a final product and focuses on the urban and suburban housing project.
Prerequisite: ARC 3321.

ARC 4323 Architectural Design 8 6 Credits
Grading Scheme: Letter Grade
Architecture designs focus on architectural detail and articulation. An investigation of landscape provides the context for this study.
Prerequisite: ARC 4322.

ARC 4511 Structural Modeling 3 Credits
Grading Scheme: Letter Grade
Introduces the fundamentals of structural modeling including building information modeling (BIM), digital design, and approximate systems analysis and detailing for architectural structures. Students will learn how to efficiently implement building information modeling to organize, coordinate and communicate information to convey data necessary for structural systems.
Prerequisite: ARC 3503.

ARC 4620 Environmental Technology 2 3 Credits
Grading Scheme: Letter Grade
Fundamentals of architectural lighting, acoustics, electrical power distribution and building communications.
Corequisite: ARC 4322 or ARC 6241.
ARC 4684 LEED for Sustainable Design and Construction 3 Credits
Grading Scheme: Letter Grade
Campus projects demonstrate design and construction of high performance buildings and application of green building technologies. Economics and market development associated with the application of green building rating systems, with a focus on LEED. Successful completion helps prepare for LEED V4 Green Associate exam credentials.
Prerequisite: junior standing or higher.

ARC 4882 Vernacular Architecture and Sustainability 3 Credits
Grading Scheme: Letter Grade
Investigates vernacular architecture in the discourse of architectural sustainability with an emphasis on the way that vernacular architecture has been constructed, represented and consumed in the environmental histories of architecture.
Prerequisite: junior standing or higher or instructor permission.

ARC 4930 Special Topics Seminar in Architecture 1-6 Credits
Grading Scheme: Letter Grade
Miscellaneous topics in architecture and related fields.
Prerequisite: junior standing or higher or instructor permission.

ARC 4941 Architectural Education 2 Credits
Grading Scheme: Letter Grade
Provides an awareness of curriculum development, project preparation, program/project presentation, constructive criticism and evaluation techniques.
Prerequisite: ARC 3321.

ARC 4950 Vicenza Institute of Architecture: Italian Language and Culture 3 Credits
Grading Scheme: Letter Grade
Taught through the Vicenza Institute of Architecture, located in Vicenza, Italy. It is intended for architecture students participating in the VIA program. The course establishes a basic level of competency in Italian language and culture as it relates to the architectural goals of the VIA program.
Prerequisite: ARC 3321.

ARC 4951 Vicenza Institute of Architecture: Architectural Design Studio 6 Credits
Grading Scheme: Letter Grade
Architectural design examining the regional contextual relationships found in northern Italy as well as central and southern Europe. Design exercises focus on the immediate relationships of European urban space, ideas of building program and the potential development of architectural details and material systems.
Prerequisite: ARC 3321.

ARC 4952 Vicenza Institute of Architecture: Analytical Sketching 3 Credits
Grading Scheme: Letter Grade
Introduces sketching as an analytical skill in understanding constructed space within the context of Italy’s Veneto region as well as central and southern Europe.
Prerequisite: ARC 3321.

Art + Art History

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

School Information

The School of Art + Art History nurtures a culture of critical inquiry in our scholarly and creative work. We empower each individual with knowledge, skills, and insight to engage thoughtfully with our changing world.

Curriculum
• Art Education Certificate
• Art History
• Art History Minor
• Art Minor
• Art | BA
• Art | BFA
• Ceramics Certificate
• Graphic Design
• Graphic Design Certificate

All studio art and photography courses, except where noted as non-major courses, are restricted to majors in the School of Art and Art History. Non-majors wishing to register for 2000-level courses need to consult with the undergraduate advisor to determine possibilities of enrolling in art courses. Each semester the school offers non-major courses in ceramics and some other media.

Courses

ARE 2045 Introduction to Teaching Art 3 Credits
Grading Scheme: Letter Grade
Overview of the art-teaching field. Study of rationales for teaching art, contemporary art teaching practices, community art experiences and alternative career options.

Grading Scheme: Letter Grade
Introduces the modern and contemporary art of Latin America with topics such as the emergence and establishment of a modern canon, experimentations in surrealism, neo-concretism, conceptual art, and performance.
Prerequisite: sophomore standing or higher.

ARH 3727 History of American Illustration 3 Credits
Grading Scheme: Letter Grade
Introduces the history of illustration in America from the colonial period to the present. In addition to presenting major illustrators, the course provides artistic, technological and cultural contexts for understanding the functions and meaning of illustration at different historical moments.
Prerequisite: ARH 2051 recommended.

ARH 3800 Criticism of Art 3 Credits
Grading Scheme: Letter Grade
Reviews principal theories in the history of criticism. Analysis and evaluation of works of art. Problems in the criticism of contemporary art. Required for art history majors. (H)
Prerequisite: (ARH 2050 and ARH 2051) and (art major or art history minor).
Attributes: General Education - Humanities

ARH 3871 Gender, Representation and the Visual Arts, 1600-1900 3 Credits
Grading Scheme: Letter Grade
Considers historical and theoretical issues posed for visual media by attention to issues of gender, with particular emphasis on women artists. (H and D) (WR)
Prerequisite: ARH 2051 or instructor permission.
Attributes: General Education - Diversity, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

ARH 4135 Greek Sculpture 3 Credits
Grading Scheme: Letter Grade
Greek sculpture from its beginnings in the Geometric period through the Hellenistic period. (H and N)
Prerequisite: (ARH 2050 or CLA 3700) and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4200 Early Medieval and Byzantine Art 3 Credits
Grading Scheme: Letter Grade
Art and architecture of Europe during the Romanesque and Gothic periods. (H and N)
Prerequisite: ARH 2050 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4251 Romanesque and Gothic Art 3 Credits
Grading Scheme: Letter Grade
The art and architecture of Europe and the Mediterranean region from approximately the 4th to the 14th centuries A.D. (H and N)
Prerequisite: ARH 2050 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4304 Italian Renaissance Architecture 3 Credits
Grading Scheme: Letter Grade
The architecture of the Italian Renaissance from the mid-14th century through the mid-16th century. (H and N)
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4310 Early Renaissance Art in Italy 3 Credits
Grading Scheme: Letter Grade
Italian art from 1200 to 1500. Emphasis upon painting and sculpture. (H and N)
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4312 Late Renaissance Art in Italy 3 Credits
Grading Scheme: Letter Grade
