Restricted Electives

One electronic platform course can be taken to fulfill the restricted elective requirement:

- ENT 3003 | Principles of Entrepreneurship              |
- GEB 3035 | Effective Career Management in Business     |
- ISM 3004 | Computing in the Business Environment       |
- REE 3043 | Real Estate Analysis                        |

1. Required coursework includes 11-12 credits of 3000/4000-level courses or 1000/4000-level foreign language courses.
Professional Communication Course
Select one: 3
- GEB 3213 Professional Writing in Business
- GEB 3218 Professional Speaking in Business
- SPC 2608 Introduction to Public Speaking
- ENC 3312 Advanced Argumentative Writing

A similar course with prior approval (requires a minimum grade of C)

Internship Course
- GEB 4941 Internship in Business Administration

Total Credits: 61-62

1 Internship, independent study or assistantship credit will not count toward this requirement.
2 In conjunction with an internship of at least 150 credits before the start of the senior year. The internship requirement can be waived for students who participate in a study abroad experience of at least six weeks. Students who waive the requirement via study abroad are strongly encouraged to complete at least one internship to improve their chances of obtaining full-time employment and/or admission to graduate programs or law school. Students should consult an academic advisor/career coach for more information.

Critical Tracking
Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=521401&track=01) may be used for transfer students.

To remain on track for the BSBA-MKG major, students must meet the critical-tracking criteria listed below. The critical-tracking GPA is calculated based on all attempts of the critical-tracking courses or their equivalents. After a student receives a minimum grade of C in a critical-tracking course or its equivalent, no subsequent grade in that course or its equivalent will be used in the calculation of the critical-tracking GPA.

Semester 1
- Complete 1 critical-tracking course from ACG 2021, ACG 2071, CGS 2531 or ISM 3013, ECO 2013, ECO 2023, MAC 2233, STA 2023
- 2.50 GPA on all attempts of critical-tracking courses, excluding MAR 3023
- 2.0 UF GPA required

Semester 2
- Complete 2 additional critical-tracking courses for a total of 3 critical-tracking courses
- 2.75 GPA on all attempts of critical-tracking courses, excluding MAR 3023
- 2.0 UF GPA required

Semester 3
- Complete 2 additional critical-tracking courses (including ACG 2021) for a total of 5 critical-tracking courses
- 3.0 GPA on all attempts of critical-tracking courses, excluding MAR 3023
- 2.0 UF GPA required

Semester 4
- Complete 7 of the 8 critical-tracking courses, excluding MAR 3023
- 3.0 GPA on all attempts of critical-tracking courses, excluding MAR 3023
- 2.0 UF GPA required

Semester 5
- Complete MAR 3023 with a minimum grade of C
- Meet all semester 1-4 critical-tracking requirements
- 2.0 UF GPA required
### Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact
A bachelor's degree in business administration enables students to achieve foundation knowledge in economics, accounting, finance, management, marketing, business law, statistics, operations management, human resource management, information technology and entrepreneurship. Special emphasis is placed on understanding the links between various business disciplines and the development of sound business plans. Students will be able to effectively analyze a business entity's strengths and weaknesses as well as investigate the opportunities and threats present in the business environment.

The marketing major provides a fundamental understanding of consumer behavior, market segmentation and positioning, the role of marketing in corporate strategy and methods by which the tactical tools of pricing, promotion and distribution are utilized by marketing practitioners.

Before Graduating Students Must
• Take the ETS Major Field Test in Business as part of MAN 4504. The ETS exam covers nine content areas in business. The score describes your performance relative to other seniors in business and accounting at 600+ colleges and universities (e.g., top 15% in the nation compared to your peers).
• Complete requirements for the baccalaureate degree, as determined by the faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)
Content
1. Demonstrate knowledge and understanding of elements of economics, financial accounting, marketing, operations management, organizational behavior, business law, information technology, business statistics and social responsibility.
2. Demonstrate proficiency in the use of business-related software applications.
3. Define the ethical responsibilities of business organizations and identify relevant ethical issues.
4. Understand how the business environment, including culture, differs across countries.
5. Possess awareness of cultural differences and how these differences affect business decisions.
6. Identify characteristics and roles of groups and teams.
7. Identify characteristics and roles of managers and leaders.
8. Possess knowledge in an area of specialization outside the disciplines of business and accounting.
Critical Thinking
9. Specify and implement a framework for identifying a business problem and develop alternative solutions and a set of evaluation criteria.
10. Assess the outcomes of a course of action and make appropriate adjustments.

Communication
11. Write business documents clearly, concisely and analytically.
12. Speak in groups and in public clearly, concisely and analytically, with appropriate use of visual aids.

Professional Selling Minor
The Professional Selling minor provides the knowledge and skills necessary to be consultative sellers. Develop a blend of hard and soft skills that are necessary to be successful in this very analytical discipline through the coursework. Students who complete this minor will learn professional selling skills and techniques, gain knowledge necessary to properly administer a sales force, and be more prepared to start down an entrepreneurial path through knowledge of how to build, manage, and maintain a consultative sales force.
About this Program

- **College:** Heavener School of Business (p. 571)
- **Credits:** 22-24 | Completed with an overall 2.0 GPA in the minor and a cumulative 2.0 UF GPA
- **Contact:** Email (cecilia.schulz@warrington.ufl.edu)

Department Information

The Marketing Department is a recognized leader in the discipline of marketing. For over a decade, the department’s faculty has ranked as one of the most productive and influential in the field, and is known for conducting provocative, cutting-edge research that contributes both to the scientific understanding and practice of marketing.

Real Estate Minor

The Real Estate minor (1) introduces the business of commercial real estate, including the roles, activities, and players in the industry, common terminology, and the real estate transaction process, and (2) prepares students to make sound decisions concerning real estate use and investment.

The minor also exposes the numerous career paths available in the commercial real estate industry, including development, real estate appraisal and investment, leasing and asset management, mortgage lending, and commercial brokerage.

About this Program

- **College:** Heavener School of Business (p. 571)
- **Credits:** 22-23 | Completed with an overall 3.0 GPA in the minor and a cumulative UF GPA of 2.0
Department Information

The Finance, Insurance and Real Estate Department offers degree programs at the doctoral, masters, and undergraduate level. Besides standard finance offerings, specialized academic programs in entrepreneurship, real estate, and value investing are available. The department’s faculty boasts top experts on topic matter as diverse as banking, initial public offerings, investments, international finance, mergers, and acquisitions and real estate. Academic Advising
301 Rinker Hall
352.273.1180

Established
1935, through the architecture program. Became a department in 1957 and a school in 1976.

Accredited
American Council for Construction Education

Degrees
Bachelor of Science in Construction Management (B.S.C.M), Bachelor of Science in Fire and Emergency Services (B.S.F.E.S.)

Certificates
EMS Management, FES Management, Construction Management, Senior Fire Officer

Scholarships
General financial aid information is available from the Office of Student Financial Affairs. The school can provide scholarship information for third- and fourth-year building construction students.

Internships and Career Guidance
The school has a job placement office and also hosts a building construction job fair each semester.

Research Centers
Shimberg Center for Housing Studies, the Powell Center for Construction and Environment, the Flor Program for Construction Safety and the Center for Advanced Construction Information Modeling.

Helpful Links
- School Website (https://dcp.ufl.edu/rinker/)

Academic Policies

Application Deadlines
Students are admitted for third-year professional coursework in the fall and spring semesters for construction management and each semester for fire and emergency services. Application procedures, receipt of transcripts and school requirements for admission should be completed by the application deadline. Late applications are not accepted.

More Info (http://www.admissions.ufl.edu/ugrad/trappdates.html)

Dean's List (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#deanslisttext)

Normal Academic Progress
Students must maintain normal academic progress with a minimum GPA of 2.0 for all courses attempted in the junior and senior years. Students must take courses in the sequence specified. Students may be dismissed from the program if they fail to maintain normal academic progress.

Normal Course Loads
The average course load for building construction students is 16 credits. Students who wish to take fewer than 12 credits should be aware that certain university privileges and benefits require a minimum course load. It is the student's responsibility to verify the minimum course load necessary for these privileges and benefits.

Student Work
The Rinker School reserves the right to retain all student work for the purpose of record, exhibition or instruction.

Probation and Dismissal
Students who do not make satisfactory academic progress will be excluded from further registration.

Students who receive a failing grade in a BCN course will be dismissed if they subsequently receive a failing grade in the same course.

Students failing two or more BCN courses in any semester will be dismissed.

Student Responsibility
Before enrolling, it is the student’s responsibility to review and consider all pertinent information about the university and the school. Special attention must be paid to required documentation, degree requirements and deadlines.

Waiver of Liability
Several courses require field trips. All students must sign a waiver of liability and a hold harmless agreement as a prerequisite to admission to the School of Construction Management. In addition, student organizations are represented at conferences, seminars and projects outside of campus. A separate, similar waiver will be used for students who participate in these voluntary activities.
Admission to Construction Management

Admission to CM is selective and is given to those applicants whose potential indicates the greatest likelihood of success in the program.

All Students

- The school has limited admission. An applicant’s satisfaction of minimum requirements does not guarantee admission. The school has established a selective process for admission and only a limited number of new students are accepted each fall and spring term. No distinction is made between internal and external transfers. Students may apply only twice to upper division.
- Students must attain a minimum 2.50 GPA in construction management prerequisite coursework and have an overall 2.50 GPA for all freshman and sophomore work required for a baccalaureate degree in construction management.
- Students must submit SAT or ACT scores, which will be evaluated for admission selection. Students are ranked and admitted based on an evaluation of their construction management prerequisite coursework and their SAT or ACT scores.
- Students must submit a personal statement outlining their reasons for applying to the Rinker School. Consideration is also given to the number of preprofessional courses remaining, as well as to the applicant’s letter of intent, work experience, personal references and participation in student organizations and community events.
- Students must complete two sequential courses of foreign language in secondary school, 8-10 credits at the postsecondary level or document an equivalent level of proficiency.

Transfer Students

Students attending four-year colleges should follow a program of general education and preprofessional courses equivalent to the basic curriculum for entry to the school.

Junior college and public college students should:

- Complete the university transfer program at the junior college.
- Complete the A.A. degree.
- Complete all prerequisite general education and preprofessional courses, or acceptable substitutes.

Degree Requirements

Seniors must file a formal application for degree on ONE.UF (https://one.uf.edu/) by the deadline (p. 11), which is early in the semester in which they expect to receive the degree.

To receive the Bachelor of Science in Construction Management, a student must complete all of the following satisfactorily:

- Complete 64 credits of construction management prerequisite requirements.
- Complete the approved program in construction management, consisting of 61 credits of 3000/4000-level coursework taken in the junior/senior years.
- Attain a minimum 2.0 overall GPA.
- Attain a minimum 2.0 GPA on all 3000/4000-level degree requirements.
- A minimum of 125 credits is required for graduation. The waiving of any required course does not reduce the credits required for graduation.

Degree Requirements for Fire and Emergency Services

Seniors must file a formal application for degree on ONE.UF (https://one.uf.edu/), by the deadline (p. 11), which is early in the semester in which they expect to receive the degree.

To receive the Bachelor of Science in Fire and Emergency Services, a student must complete all of the following satisfactorily:

- Complete the approved program in fire and emergency services, consisting of 60 credits of 3000/4000-level coursework taken in the junior/senior years.
- Attain a minimum 2.0 overall GPA.
- Complete a minimum of 120 credits. The waiving of any required course does not reduce the credits required for graduation.

Construction Management

Bachelor of Science in Construction Management is a four-year program for students interested in careers in construction management, techniques, operations, and related areas in the construction industry. The degree draws upon skills in communication and interpersonal relations.

About this Program
- **College:** Design, Construction and Planning (p. 642)
- **School:** M.E. Rinker, Sr. School of Construction Management (p. 617)
- **Degree:** Bachelor of Science in Construction Management
- **Credits for Degree:** 125
- **Contact:** 352.273.1180 | 304 Rinker Hall (http://campusmap.ufl.edu/?loc=0272)

To graduate with this major, students must complete all university, college, and major requirements.

School Information
The mission of the M. E. Rinker, Sr. School of Construction Management is to be the center of excellence for construction. The Rinker School will pursue this by promoting professional and ethical behavior in education and practice, advancing the industry by creating new knowledge through research and scholarly activities, educating individuals in principles, knowledge, and skills required to be successful in their professional careers, and providing service and transferring knowledge to the citizens of Florida, the construction industry, professional societies, the nation, and the world.

Curriculum
- Combination Degrees
- Construction Management
- Construction Management Certificate
- Emergency Management Certificate
- Emergency Medical Services Management Certificate
- Fire and Emergency Services UF Online
- Senior Fire Officer Certificate

Opportunities for advancement and increasing responsibility exist in all areas of the construction industry, including land development; home building; public building; industrialized building systems; commercial, industrial, marine and heavy construction; underwater development; space-age facilities; materials and equipment sales and installations; and construction product research, development, sales and applications.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=151001&track=01) may be used for transfer students.
Semester 1
• Complete 3 of 14 critical-tracking courses for a total of 9 credits:
  - ACG 2021, BCN 1210, BCN 1251C (or ARC 1301 and ARC 1302), BCN 2405C, BUL 4310, ECO 2013, ENC 1102, ENC 3254, MAC 2311, STA 2023, PHY 2053/PHY 2053L, PHY 2054/PHY 2054L, SPC 2608, SPN 1180
• 2.35 UF GPA required

Semester 2
• Complete 13 additional credits of critical-tracking courses
• 2.4 UF GPA required

Semester 3
• Complete 11 additional credits of critical-tracking courses
• 2.45 UF GPA required

Semester 4
• Complete 15 additional credits of critical-tracking courses
• 2.5 GPA on all attempts of critical-tracking courses
• 2.5 UF GPA required

Semester 5
• Complete BCN 3730

Semester 6
• Complete BCN 3700

Semester 7
• Complete BCN 4612C

Semester 8
• Complete BCN 4787C

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Bachelor of Science in Construction Management prepares students for a career in the construction industry.

Before Graduating Students Must

- Pass the performance based capstone course utilizing Construction Project Simulation.
- Successfully utilize and interpret the Florida Building Code in classroom tests and reports.
- Satisfy formal presentation requirements; attend field trips and submit reports for them that demonstrate proficiency in writing professional memos and letters.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Interpret knowledge of engineering, materials, methods, equipment and processes to safely construct buildings and structures.
2. Survey and quantify building components to estimate project costs, analyze progress and control expenditures.

Critical Thinking

3. Create an effective planning, scheduling and control system by identifying, evaluating and organizing the diverse elements of a construction project.
4. Set up and manage project administration and management systems to efficiently document and monitor the construction process.

Communication

5. Describe technical and financial data effectively in speech and in writing to all stakeholders in the construction process.

- Presentations
- The American Institute of Constructors (AIC) Level 1: Associate Constructor’s exam, the first step toward AIC Professional Constructor Certification

Construction Management Certificate

The Construction Management certificate is intended for seniors enrolled in construction-related programs (e.g., civil engineering) in universities other than UF wherein students spend one semester at UF completing four construction management courses.

About this Program

- **College:** Design, Construction and Planning (p. 642)
- **School:** M.E. Rinker, Sr. School of Construction Management (p. 617)
- **Credits:** 12 | Completed with minimum grades of C or better and a combined grade average of 2.50 from all courses
- **Contact:** 352.273.1180 | 304 Rinker Hall (http://campusmap.ufl.edu/?loc=0272)

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

School Information

The mission of the M. E. Rinker, Sr. School of Construction Management is to be the center of excellence for construction. The Rinker School will pursue this by promoting professional and ethical behavior in education and practice, advancing the industry by creating new knowledge through research and scholarly activities, educating individuals in principles, knowledge, and skills required to be successful in their professional careers, and providing service and transferring knowledge to the citizens of Florida, the construction industry, professional societies, the nation, and the world. Curriculum
- Combination Degrees
- Construction Management
- Construction Management Certificate
- Emergency Management Certificate
- Emergency Medical Services Management Certificate
- Fire and Emergency Services UF Online
- Senior Fire Officer Certificate

The program specializations offer the student the ability to focus their degree in three different aspects of the emergency services industry. The program prepares the graduates for advancement in the ranks for the fire service, EMS and emergency management. In addition, graduates can find jobs at the local, state and national level of government, insurance companies, industry, and other areas. Students may apply to the university at the
junior year after earning the Associate of Arts degree from a Florida state college or other regionally accredited academic institution. Freshman and sophomore coursework will be taken at a Florida state or public college or other regionally accredited academic institution.

After being accepted, students can pursue a Bachelor of Science without moving to Gainesville. Coursework for the junior and senior years will be offered via electronic distance learning, and UF faculty will teach and advise students in the program.

Students need access to a personal computer capable of connecting to the Internet.

Course requirements for the Degree

The B.S. degree is for students with different professional objectives. All students, regardless of specialization, are required to take FES 3015 Principles of Fire and Emergency Services Management as their opening course.

Each specialization has a specific set of required core courses required courses and electives of upper-division courses that represent important interdisciplinary topic areas. Core courses provide students with the knowledge and fundamental concepts essential to the specialization. The required courses are designed to be applicable across all specializations. The electives allow the students to select courses that meet their career interest. Upper-division courses are designed to build knowledge, competency and skills applicable to professional development.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

**Academic Learning Compact**

The School of Construction Management offers an accessible Bachelor of Science program for members of the fire and emergency services. This degree program is designed to build on students’ experience in the fire service and to add the academic substance to prepare students to lead public or private sector fire and emergency service units.

**Before Graduating Students Must**

- Demonstrate ability in management, labor issues and operations.
- Demonstrate ability in services related to medical, disaster and human resources.
- Demonstrate ability in public relations, ethical practices and leadership.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Identify and evaluate organizational problems associated with fire and emergency services.
2. Identify and demonstrate proper knowledge and use of comprehensive emergency management/command and control skills in major catastrophic incidents in fire and emergency services.
3. Illustrate knowledge and legal application of safety, health and environmental regulations at state and federal levels.

**Critical Thinking**

4. Demonstrate effective leadership behavior and skills in fire and emergency services.
5. Properly address issues of management, code regulations and the labor market in fire and emergency services.

**Communication**

6. Demonstrate strong verbal and written communication skills for leadership in fire and emergency services.

- **Credits for Degree**: 120
- **Contact**: 1.855.99GATOR
- **More Info**

*To graduate with this major, students must complete all university, college, and major requirements.*

School Information
The mission of the M. E. Rinker, Sr. School of Construction Management is to be the center of excellence for construction. The Rinker School will pursue this by promoting professional and ethical behavior in education and practice, advancing the industry by creating new knowledge through research and scholarly activities, educating individuals in principles, knowledge, and skills required to be successful in their professional careers, and providing service and transferring knowledge to the citizens of Florida, the construction industry, professional societies, the nation, and the world.

- Combination Degrees
- Construction Management
- Construction Management Certificate
- Emergency Management Certificate
- Emergency Medical Services Management Certificate
Emergency Management

• Fire and Emergency Services UF Online
• Senior Fire Officer Certificate

The program specializations offer the student the ability to focus their degree in three different aspects of the emergency services industry. The program prepares the graduates for advancement in the ranks for the fire service, EMS and emergency management. In addition, graduates can find jobs at the local, state and national level of government, insurance companies, industry, and other areas. Students may apply to the university at the junior year after earning the Associate of Arts degree from a Florida state college or other regionally accredited academic institution. Freshman and sophomore coursework will be taken at a Florida state or public college or other regionally accredited academic institution.

After being accepted, students can pursue a Bachelor of Science without moving to Gainesville. Coursework for the junior and senior years will be offered via electronic distance learning, and UF faculty will teach and advise students in the program.

Students need access to a personal computer capable of connecting to the Internet.

Course requirements for the Degree

The B.S. degree is for students with different professional objectives. All students, regardless of specialization, are required to take FES 3015 Principles of Fire and Emergency Services Management as their opening course.

Each specialization has a specific set of required core courses required courses and electives of upper-division courses that represent important interdisciplinary topic areas. Core courses provide students with the knowledge and fundamental concepts essential to the specialization. The required courses are designed to be applicable across all specializations. The electives allow the students to select courses that meet their career interest. Upper-division courses are designed to build knowledge, competency and skills applicable to professional development.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

## Emergency Management

For students seeking careers in emergency management in the public or private sector.

### Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites ([http://www.flvc.org/cpp/displayRecord.jsp?cip=430203&track=01](http://www.flvc.org/cpp/displayRecord.jsp?cip=430203&track=01)) may be used for transfer students.

### Model Semester Plan

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Emergency Medical Services Management

For students seeking careers in managing an EMS system, working in a governing agency for EMS, or management and leadership positions for the hospital environment.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=430203&track=01) may be used for transfer students.

Model Semester Plan

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

The School of Construction Management offers an accessible Bachelor of Science program for members of the fire and emergency services. This degree program is designed to build on students’ experience in the fire service and to add the academic substance to prepare students to lead public or private sector fire and emergency service units.

Before Graduating Students Must

- Demonstrate ability in management, labor issues and operations.
- Demonstrate ability in services related to medical, disaster and human resources.
- Demonstrate ability in public relations, ethical practices and leadership.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify and evaluate organizational problems associated with fire and emergency services.
2. Identify and demonstrate proper knowledge and use of comprehensive emergency management/command and control skills in major catastrophic incidents in fire and emergency services.
3. Illustrate knowledge and legal application of safety, health and environmental regulations at state and federal levels.

Critical Thinking

4. Demonstrate effective leadership behavior and skills in fire and emergency services.
5. Properly address issues of management, code regulations and the labor market in fire and emergency services.

Communication

6. Demonstrate strong verbal and written communication skills for leadership in fire and emergency services.

## Fire Management

The Fire and Emergency Services degree program is designed to add the academic substance to prepare graduates to lead public or private sector fire, EMS, and emergency management. Students earn a bachelor of science with the ability to specialize in fire, emergency medical services management, or emergency management.

## About this Program

- **College:** Design, Construction and Planning (p. 642)
- **School:** M.E. Rinker, Sr. School of Construction Management (p. 617)
- **Degree:** Bachelor of Science in Fire and Emergency Services
- **Specializations:** Fire Management (p. 637) | Emergency Medical Services Management (p. 633) | Emergency Management (p. 629)
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

## School Information

The mission of the M. E. Rinker, Sr. School of Construction Management is to be the center of excellence for construction. The Rinker School will pursue this by promoting professional and ethical behavior in education and practice, advancing the industry by creating new knowledge through research and scholarly activities, educating individuals in principles, knowledge, and skills required to be successful in their professional careers, and providing service and transferring knowledge to the citizens of Florida, the construction industry, professional societies, the nation, and the world.

Curriculum

- Combination Degrees
- Construction Management
- Construction Management Certificate
- Emergency Management Certificate
- Emergency Medical Services Management Certificate
- Fire and Emergency Services UF Online
- Senior Fire Officer Certificate

The program specializations offer the student the ability to focus their degree in three different aspects of the emergency services industry. The program prepares the graduates for advancement in the ranks for the fire service, EMS and emergency management. In addition, graduates can find jobs at the local, state and national level of government, insurance companies, industry, and other areas. Students may apply to the university at the junior year after earning the Associate of Arts degree from a Florida state college or other regionally accredited academic institution. Freshman and sophomore coursework will be taken at a Florida state or public college or other regionally accredited academic institution.

After being accepted, students can pursue a Bachelor of Science without moving to Gainesville. Coursework for the junior and senior years will be offered via electronic distance learning, and UF faculty will teach and advise students in the program.

Students need access to a personal computer capable of connecting to the Internet.

Course requirements for the Degree

The B.S. degree is for students with different professional objectives. All students, regardless of specialization, are required to take FES 3015 Principles of Fire and Emergency Services Management as their opening course.

Each specialization has a specific set of required core courses required courses and electives of upper-division courses that represent important interdisciplinary topic areas. Core courses provide students with the knowledge and fundamental concepts essential to the specialization. The required courses are designed to be applicable across all specializations. The electives allow the students to select courses that meet their career interest. Upper-division courses are designed to build knowledge, competency and skills applicable to professional development.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

Senior Fire Officer Certificate

This certificate focuses on the management and communication skills necessary for working professionals in the fire and emergency services industry.

About this Program

- **College**: Design, Construction and Planning (p. 642)
- **School**: M.E. Rinker, Sr. School of Construction Management (p. 617)
- **Credits**: 18 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

School Information

The mission of the M. E. Rinker, Sr. School of Construction Management is to be the center of excellence for construction. The Rinker School will pursue this by promoting professional and ethical behavior in education and practice, advancing the industry by creating new knowledge through research and scholarly activities, educating individuals in principles, knowledge, and skills required to be successful in their professional careers, and providing service and transferring knowledge to the citizens of Florida, the construction industry, professional societies, the nation, and the world. Academic Advising
331 Architecture Building
352.392.4863

Established
1925. Today it is one of the largest design, planning and construction institutions in the country with more than 1,500 students.

Location
Academic programs and other resources are located in three campus buildings:

Schools and Departments
• School of Architecture
• Department of Interior Design
• Department of Landscape Architecture
• Department of Urban and Regional Planning
• M.E. Rinker Sr. School of Construction Management

Accredited
The following academic programs are accredited by the respective professional organizations of each unit.

Architecture
National Architectural Accrediting Board
1101 Connecticut Ave NW STE 410
Washington, DC 20036

Construction Management
American Council for Construction Education
825 W. Bitters Road, STE 103
San Antonio, Texas 78216

Interior Design
Council for Interior Design Accreditation
The college's advising center in 331 Architecture Building provides academic advising to undergraduate students in architecture, interior design, landscape architecture, and sustainability and the built environment.

Map (http://campusmap.ufl.edu/#/index/0268)

Undergraduate students in the Rinker School of Construction Management should report to 301 Rinker Hall for academic advising. Map (http://campusmap.ufl.edu/#/index/0272)

Scholarships
Scholarships within the college are available to students in the upper-division and graduate professional programs.

Guidance
Internships vary by academic unit. Consult the academic unit regarding its requirements for internships. The academic unit and the dean’s office (331 ARCH) provide career guidance.
More Info (http://www.dcp.ufl.edu/faculty/)

Students considering application to the college should anticipate expenditures for computers, travel, equipment and tools essential to their education as design, planning and construction professionals. For further information, contact the appropriate department/school.

Academic Policies

Admission Protocols for Native UF Students
Freshmen at the university are admitted directly into architecture, construction management, interior design, landscape architecture and sustainability and the built environment programs.

The college will monitor the progress of all students. Students who fall below the critical-tracking criteria for the degree program will have a hold placed on their records. They must see an advisor in the college/academic unit before they can advance register and continue in the program. They also may be referred to the Academic Advising Center to seek admission to another college.

Admission Protocols for Transfer Students without Coursework in Architecture, Interior Design and Landscape Architecture
Conditional admission is open to applicants who have:

- Accumulated 60 credits of college-level coursework (for university transfer only) or earned the A.A. degree (Florida public state college transfer students only),
- Completed two sequential foreign language courses in secondary school or 8-10 credits at the postsecondary level (or documented an equivalent level of proficiency), and
- Met the general admissions criteria, yet still need to complete first-year and second-year preprofessional courses.
  - Summer A is the primary semester for transfer admission for students without architecture or interior design prerequisites.
  - Fall is the primary entry semester for landscape architecture.
  - Transfer students without preprofessional courses are admitted conditionally and will be reviewed for selective admission into the third year of the program upon completion of the preprofessional courses, review of their academic performance and portfolio of work. These students may require as many as four semesters at the university to complete preprofessional requirements because of the sequential nature of the courses.

Each department/school may consider any or all of the following for admissions review:

- Architecture: Completion of MAC 1147 (or MAC 1140 and MAC 1114), PHY 2004 or PHY 2053
- Interior Design: Completion of MAC 1147 (or MAC 1140 and MAC 1114), PHY 2004 or PHY 2053, ARH 2051
- Landscape Architecture: Completion of MAC 1147 (or MAC 1140 and MAC 1114), BOT 2010C or BSC 2005
- Preprofessional GPA
- Achievements in preprofessional courses and/or courses related to the chosen plan of study
- Portfolio review or pin-up (design students)
Admission Protocols for Transfer Students in the Sustainability and the Built Environment Program

Conditional admission is open to applicants who have:

- Accumulated 60 credits of college-level coursework (for university transfer only) or earned the A.A. degree (Florida public state colleges and universities)
- Completed the standard online UF transfer application
- Completed two sequential foreign language courses in secondary school or 8-10 credits at the postsecondary level (or documented an equivalent level of proficiency)
- Completed ECO 2013, ECO 2023, MAC 1147 (or MAC 1140 and MAC 1114) and STA 2023 with minimum grades of C
- Achieved an overall minimum GPA of 3.0

Admission Protocols for Transfer Students with Coursework in Architecture, Interior Design or Landscape Architecture

Transfer students who will receive their Associate of Arts degree from a Florida public institution must exceed or meet the 60-credit admission protocols for admission to the college. The admission protocols for each department follow below:

Architecture Upper-Division Transfer

Any student who has earned an Associate of Arts degree in the course of completing a two-year pre-architecture program at one of the Florida public state colleges and universities (Broward College, Hillsborough College, Indian River College, Miami-Dade College, Palm Beach College, St. Petersburg College, Valencia College) can apply for admission into the UF Bachelor of Design program’s upper division.

Both UF and Florida state college applicants for upper-division placement are ranked competitively according to overall grade point average, architectural grade point average and faculty evaluation of design studio work in the annual Pin-Up Exhibits (all calculated by UF standards) to determine whether or not they qualify for placement into UF’s upper-division Bachelor of Design curriculum.

All applicants must apply to the university’s Office of Admissions by the deadline to qualify for admission to the School of Architecture.

This is in addition to sending the School of Architecture the Notice to Pin Up by the deadline.

Students wishing to transfer from an institution with some design and related preprofessional courses may present a portfolio of work to the school for review and placement. Students will be placed in the program the committee determines is appropriate, which may necessitate a repeat of previous coursework.

Interior Design

Transfer students must contact the department to determine admission timing and eligibility. All students must complete general education and preprofessional coursework before admission to professional studies. Criteria for admission include review of design performance, transcript, letter and interview.

Students who need to complete preprofessional requirements should apply to the Summer A term to begin the required tracking courses. The remaining preprofessional courses may be completed during the next academic year. Students accepted for the sequence are admitted conditionally and their records will be reviewed during the next spring term for entry into professional courses in the junior year.

Students are admitted selectively to the professional program on the basis of portfolio review, overall grade point average, interview and letter of application. Notification of the admission decision will be made before the end of the spring semester for the junior class that begins that fall. Contact the department for current information.

Landscape Architecture

Transfer students must contact the department to determine admission timing and eligibility. All students must complete general education and preprofessional coursework before admission to professional studies. Criteria for admission include review of design performance, transcript, letter and interview.

Construction Management

Refer to the M.E. Rinker, Sr. School of Construction Management (p. 617).

Application Deadlines

More Info (http://www.admissions.ufl.edu/ugrad/trappdates.html)

The programs in architecture, interior design and landscape architecture will admit students for third-year professional coursework only in the fall semester. Students who need to complete some or all of the preprofessional requirements shall be reviewed for the fall and Summer A semesters only.

The programs in building construction and fire and emergency services in the M.E. Rinker, Sr. School of Construction Management will admit students for third-year professional coursework in the fall and spring semesters.

The Office of Admissions (for transfer students) or the college dean’s office (for UF students) must receive applications and all required credentials by the college/school application deadlines.

College Regulations

Dean's List (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/)

Field Trips

There are required field trips to give students an opportunity to broaden and expand their educational experience through study of planning, design, construction and sustainability projects. Students may also be required to attend state and national professional meetings.

Maximum and Minimum Loads

A normal load is 14-16 credits per semester. A student may be permitted to register for more than 17 credits when the advisor feels the student’s record justifies it.

The minimum is 12 credits for full-time status; students who wish to take fewer credits should be aware that certain university privileges and benefits require full-time status. It is the student’s responsibility to verify the minimum academic load necessary.
Students who seek an adjustment to their academic load may petition the dean through the director of student services and the appropriate department chair.

While the preprofessional and professional course sequence must be maintained, variation of general education and elective coursework may occur. The four-year plans shown require an average of more than 16 credits per term, which may not be appropriate for all students. Students should plan their curricula well in advance so the course sequence and credit loads will accommodate the most effective academic progress, regardless of the number of terms required.

**Practical Experience**

Before graduating, students should get experience in the employment of practicing professionals in their field or in some allied profession. Such employment provides an introduction to the methods of actual practice and enables the student to derive increased benefit from advanced work in school. Students should contact their advisor for recommended or required practical experience.

**Student Work**

The college can retain student work for the purpose of record, accreditation, exhibition or instruction. Work produced while the student is enrolled in the college is the property of the college.

---

**Degree Requirements**

To be eligible for graduation, students must earn a 2.0 minimum overall grade point average and a 2.0 grade point average for all work attempted in the college. Students planning to enter the Graduate School must maintain a 3.0 average in the junior and senior years.

Graduating with Honors ([link](http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/))

- Interior Design
- Landscape Architecture | 5-Year Professional Program
- Sustainability and the Built Environment

**MINORS**

- Landscape Architecture Minor
- Sustainability and the Built Environment Minor
- Urban and Regional Planning Minor

---

**Architecture**

A student’s creativity and individuality are rewarded in the School of Architecture’s studio-based learning experience. Students benefit from the close student-to-teacher ratios and a true interdisciplinary learning environment.

**About this Program**

- **College**: Design, Construction and Planning (p. 642)
- **Degree**: Bachelor of Design | B.Des., a preprofessional degree
- **Credits for Degree**: 120

To graduate with this major, students must complete all university, college, and major requirements.

**School Information**

The School of Architecture recognizes design as a synthesis of thinking, analyzing and making — an iterative process that engages, issues of space, historical precedent, sustainability, ecology, urbanity, landscape, built-form, and construction toward innovation. The School of Architecture is uniquely positioned to respond to these issues by deploying studio based design methodologies in collaboration with a new generation of experts in engineering, ecology, business, anthropology, energy, fine arts, medicine, and construction.

**Curriculum**

- Architecture

Many students supplement their education with study-abroad and off-site learning opportunities in Vicenza, Asia, Mexico, Nantucket and more. An extensive library, modern computer labs, woodshop, 3D fabrication lab and beautiful college environment facilitate creativity. Students regularly exhibit their models and drawings in the college’s gallery.
The studio sequence progressively and thoroughly explores various formal, conceptual and technical considerations and how they interrelate in the creation of space. The ideas and experience that students gain in design studio are reinforced and amplified by support courses in history, theory, structural tectonics, building technology and construction materials and methods.

Field trips to broaden and expand students’ educational experience are required and will be paid for by students. Students may also be required to attend state and national professional meetings.

The School of Architecture’s preprofessional Bachelor of Design program prepares students for graduate school studies toward the accredited two-year Master of Architecture degree or for jobs in private practice.

**National Architectural Accrediting Board**

Most states require architects to hold accredited degrees. Two types of degrees accredited by the National Architectural Accrediting Board (NAAB) are the Bachelor of Architecture (5 years) and the Master of Architecture (1, 2 or 3 years depending on institution). Both degrees are structured for registration and licensure. UF’s four-year preprofessional degree is not accredited by the NAAB; the two-year Master of Architecture degree is an accredited degree.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites ([http://www.flvc.org/cpp/displayRecord.jsp?cip=040201&track=01](http://www.flvc.org/cpp/displayRecord.jsp?cip=040201&track=01)) may be used for transfer students.

**Semester 1**
- Complete DCP 1003 in Semester 1 or 2
- Complete ARC 1301 and ARC 1701
- 2.75 UF GPA required

**Semester 2**
- Complete DCP 1003, if not completed in Semester 1
- Complete ARC 1302 and ARC 1702
- 2.75 UF GPA required

**Semester 3**
- Complete ARC 2490C ARC 2201, ARC 2303
- Complete MAC 1147 or PHY 2053
- 2.75 UF GPA required

**Semester 4**
- Complete ARC 2304 and ARC 2491C
- Complete MAC 1147 and PHY 2053
- Complete pin-up requirement
- 2.75 UF GPA required

**Semester 5**
- Complete ARC 3320, ARC 3492C, and ARC 3743

**Semester 6**
- Complete ARC 3321 and ARC 3493C

**Semester 7**
- Complete ARC 4322 and ARC 4494C

**Semester 8**
- Complete ARC 4323
Summer transfer students should complete DCP 1003 by Semester 4.

### Model Semester Plan

Students are required to complete a Quest 1 course in semester 1 or 2.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

1 The School of Architecture requires students to complete MAC 1147 and PHY 2053 before semester 5. Due to the rigorous nature of design studio, students should complete these courses during the summer semesters. MAC 2233 is recommended before graduating because of the admissions requirements of some graduate programs.

2 The School of Architecture strongly recommends taking ARC 4310C as part of Semester 8, as BIM systems have become commonplace within the architecture profession.

3 Any 3000-level or higher academic course, any 1000-level or higher foreign language where the student is not a native speaker and where the course is taken at an SUS institution, or any course sequence toward a minor.

This program is limited access. At the end of semester 4, students will be selected according to a competitive ranking of all applicants by overall GPA, architectural GPA and faculty evaluation of design quality in the annual pin-up exhibits.

### Academic Learning Compact

The Bachelor of Design requires students to demonstrate and to understand the creative design process and associated skills as they relate to problem solving and spatial organization. Students will develop skills in spatial design, graphic communication, materials, technology and environmental issues. Programs analyze existing and projected examples of build form, define fundamental principles and knowledge of the discipline, develop students’ skills in the formation and projection of spatial experience and relate creativity to cultural and physical environment.

### Before Graduating Students Must

- Follow and achieve national accreditation (NAAB) guidelines for terminal project and portfolio assessments.
- Receive acceptable review and assessment of studio work from faculty, industry professionals and peers.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Implement a creative and synthetic design process to produce unique and appropriate architectural proposals.
2. Create presentations utilizing appropriate disciplinary vocabulary and graphic skills that support design methodologies.
3. Acquire, interpret and analyze information as the basis for design proposals.

**Critical Thinking**

4. Communicate about the discipline to a variety of audiences using a variety of formats and approaches.
5. Acquire skills in drawing, electronic imaging, materials and environmental issues.

**Communication**

6. Create conceptually clear and expressive design proposals based on appropriate prioritization of issues, thoughtful analysis of project parameters and critical reflection of schematic ideas.
7. Produce designs built upon the relationship between human behavior and perception in relation to the built environment.

Interior Design
Consistently positioned as a leader nationally, the Interior Design program is recognized as an excellent major for students with strong creative and analytical skills who are self-motivated and work well in teams.

About this Program
- **College:** Design, Construction and Planning (p. 642)
- **Degree:** Bachelor of Design
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Interior Design engages in research and creative scholarship with expertise in technology, design, communication, sustainability, lighting, history, and materials. The department’s newest ventures involve virtual reality (VR).

Website (https://dcp.ufl.edu/interior/)

CONTACT
Email (mmatckie@dcp.ufl.edu) 352-294-1430
P.O. Box 115705

ARCHITECTURE BUILDING, OFFICE 331
GAINESVILLE FL 32611-5701
Map (http://campusmap.ufl.edu/#/index/0268)

Curriculum
- Combination Degrees
- Interior Design

Interior design is both an art and a science that involves the creation of imaginative and well-conceived spaces that:
  - Serve the needs, function and requirements of individuals
  - Provide a sense of place within both public and private spaces for group and individual activity
  - Are appropriate and sustainable
  - Include the community, owners, users, designers, planners and contractors as active participants in the design process.

Through the learning design process, graduates develop on all levels: as a thoughtful leader, an innovator, a collaborator and as an ethical and socially engaged human being. This program prepares students for professional careers in office design, retail, healthcare, residential and hospitality design. Examples of interior design specializations include historic preservation and environmental sustainability.

To give students first-hand design exposure, the department organizes trips to interact with designers in experienced firms, installations, significant buildings and exhibitions in cities such as Atlanta and Chicago. During the summer, upper-division students have opportunities to enroll in the international programs including the Detmold School for Architecture and Interior Architecture at the University of the Applied Sciences in Detmold, Germany. The department offers academic credit to explore professional opportunities through the required Design Field Experience (DFE) program. Interior design students may consider pursuing graduate studies in the program’s 4+1 option to receive a Master of Interior Design.

Organized trips to experience interior design, architecture and art in urban settings are required in the junior and senior years. Students should plan to have adequate funds for these required field trips and for their design studio project materials.

The four-year program is accredited by the Council for Interior Design Accreditation (CIDA).

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.
Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500408&track=01) may be used for transfer students.

### Semester 1
- Complete ARC 1301, DCP 1003, IND 1020, and IND 2100 with minimum grades of C
- 2.6 UF GPA required

### Semester 2
- Complete ARC 1302 and IND 2130 with minimum grades of C
- 2.6 UF GPA required

### Semester 3
- Complete ARC 2303, ARH 2051, IND 2313, and IND 2635
- 2.8 UF GPA required

### Semester 4
- Complete IND 2214, IND 2422 and IND 2460C
- Successfully complete the selective admissions guidelines
- 2.85 UF GPA required
- Complete MAC 1147 and PHY 2053 prior to moving into Semester 5

### Semester 5
- Complete IND 3215, IND 3468, and IND 3483

### Semester 6
- Complete IND 3216

### Semester 7
- Complete IND 4225

### Semester 8
- Complete IND 4226

---

1. The Department of Interior Design requires students to complete MAC 1147 and PHY 2053 before semester 5. Due to the rigorous nature of design studio, students should complete these courses during the summer semesters.

2. The Department of Interior Design requires students to complete IND 4940 no later than semester 7. Due to the rigorous nature of design studio, students should complete this course the summer between semesters 6 and 7.

Interior design is a limited-access program. During the spring semester of the sophomore year, interior design faculty review each sophomore student’s work and determine whether the student is prepared to continue as an interior design major. For more information, please contact the department regarding its selective admissions guidelines.

---

**Academic Learning Compact**

The four-year bachelor of design degree in Interior Design requires students to demonstrate and understand the creative design process and associated skills as they relate to problem solving and spatial organization. Students will develop skills in interior design, computer rendering and modeling, graphic communication, theory, materials and the history of interior design. In the studio, students explore advanced problem solving, communication skills and issues related to environmental technology, lighting, professional practice and interior construction.

**Before Graduating Students Must**

- Complete Council of Interior Design Accreditation academic requirements.
- Receive acceptable review and assessment of studio work from faculty, industry professionals and peers.
- Complete Design Field Experience assessments.
- Submit senior project.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Apply knowledge of the behavioral sciences and human factors.
2. Apply all aspects of the design process to creative problem solving.

Critical Thinking
3. Evaluate, select and apply information and research findings to design.

Communication
4. Communicate visually, verbally and in written form appropriate to the purpose and audience.

Landscape Architecture | 5-Year Professional Program

The Bachelor of Landscape Architecture is an accredited professional degree that qualifies graduates to sit for state licensure. Graduates are well equipped to practice and advance the profession of landscape architecture or to continue in graduate studies. Students from the UF landscape architecture program have won numerous state and national American Society of Landscape Architecture (ASLA) Awards.

About this Program
- **College**: Design, Construction and Planning (p. 642)
- **Degree**: Bachelor of Landscape Architecture
- **Credits for Degree**: 144

To graduate with this major, students must complete all University, college, and major requirements.

Department Information
The Department of Landscape Architecture conducts research to enhance the understanding and practice of the profession of landscape architecture and address societal challenges; trains practitioners and scholars who are committed to advancing the efficacy, impact, and knowledge of the discipline of landscape architecture; and provides service to the diverse communities of our state, region, and abroad.

Curriculum

- Combination Degrees
- Landscape Architecture Minor
- Landscape Architecture | 5-Year Professional Program

Students in the major take advantage of nationally and internationally respected faculty, particularly in the final undergraduate independent project. Student work shows strength in ecologically based planning and design, urban issues and conservation; all of strategic concern in Florida and elsewhere.

Educational options include an eight-month internship, focused electives for individual specialization, competitions, and interdisciplinary certificates in historic preservation, sustainable design, geographical information systems (GIS) and wetlands. Studies abroad in international landscape architecture include a fall semester option at The Prague Institute in the Czech Republic.

Required field trips broaden and expand students’ educational experiences. Students may have the opportunity to attend state and national professional meetings.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=040601&track=01) may be used for transfer students.

All coursework must be completed successfully in no more than two attempts with minimum grades of C.

Semester 1
- Complete DCP 1003 and LAA 1920 with a minimum grades of C
- 2.35 UF GPA required

Semester 2
- Complete ARC 1701 or ARC 1720, (MAC 1140 and MAC 1114) or MAC 1147, and BOT 2010C or BSC 2005
- 2.5 UF GPA required

Semester 3
- Complete ARC 1301
- Complete LAA 2330, LAA 2376C and LAA 2710 with minimum grades of C
- 2.75 UF GPA required

Semester 4
- Complete LAA 2360C, LAA 2379C and LAA 2532 with minimum grades of C
- Complete Selective Admission Portfolio Review
- 2.75 UF GPA required

Semester 5
- Complete LAA 3352C and LAA 3420 with minimum grades of C
- Complete ORH 3513C
- 2.75 UF GPA required

Semester 6
- Complete LAA 3421

Semester 7
- Complete LAA 4940
Semester 8  
• Complete LAA 4353C

Semester 9  
• Complete LAA 4356

Semester 10  
• Complete LAA 4210

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

1 Summer and fall professional experience: Complete the LAA 4940 and LAA 4941C landscape internship in the summer and fall of the fourth year of study.

This program is limited access. During the spring semester of the sophomore year, students must participate in an exhibit of their work in studio courses. Admission to the junior year is based on this exhibit and the preprofessional GPA.

Academic Learning Compact
The Bachelor of Landscape Architecture degree requires students to demonstrate and understand the ethical planning, design, implementation and management of the natural and cultural landscapes in Florida as the basis for professional studies and training.

Before Graduating Students Must
• Satisfy professional, faculty and peer review of studio work.
• Complete senior final studio project.
• Submit internship assessments.
• Complete internships that emphasize application of your design, planning and management knowledge.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Integrate concepts from the general body of knowledge of the profession of landscape architecture in design decision-making.
2. Apply core professional landscape architecture skills in design decision-making.
3. Apply ethical understanding to design decision-making.

Critical Thinking
4. Combine and analyze information from multiple sources to support design decision-making.

Communication
5. Produce professional visual, oral and written communications.

## Assessment Types

- Selective admission, including a pin-up
- A juried capstone presentation and evaluation
- Employer evaluation of summer internship
- The Landscape Architectural Accreditation Board (LAAB) exam

## Landscape Architecture Minor

The Landscape Architecture minor provides an overview of the profession, an introduction to environmental and cultural issues, and to design, planning, and management theory and applications. This minor does not qualify a student for practice or for professional licensure.

## About this Program

- **College**: Design, Construction and Planning (p. 642)
- **Credits**: 15 | Completed with minimum grades of C

## Department Information

The Department of Landscape Architecture conducts research to enhance the understanding and practice of the profession of landscape architecture and address societal challenges; trains practitioners and scholars who are committed to advancing the efficacy, impact, and knowledge of the discipline of landscape architecture; and provides service to the diverse communities of our state, region, and abroad.

Curriculum

• Combination Degrees
• Landscape Architecture Minor
• Landscape Architecture | 5-Year Professional Program

To help chart coursework, application to the minor should be made as soon as possible after the student has been admitted to an upper-division college. To be considered, students must have a minimum 2.5 GPA.

Of the 15-credit minimum requirement, six credits are required. The remaining credits can be based on interests and background. Students with design, construction, engineering or other technical backgrounds may participate in design and/or construction studios in addition to lecture courses. Acceptance into studio courses is granted with instructor permission, if space is available.

Additional courses in the professional design and construction sequences and in graduate seminars may be possible for students with specialized backgrounds such as other design fields, building construction or engineering. The instructor’s permission is required to take courses other than those listed below.

ARCHITECTURE BUILDING
GAINESVILLE FL 32611-5701
Curriculum

- Sustainability and the Built Environment
- Sustainability and the Built Environment Minor

Whether it is the redesign and rehabilitation of existing structures or innovative new design, students will be provided a theoretical foundation for seeking sustainable solutions to problems in the built environment. The degree program is supported by the globally recognized expertise in sustainability of the faculty in the College of Design, Construction and Planning and from across campus.

Graduates will have excellent opportunities for work in various green industries, for government agencies involved with regulation and management of the built environment and with nonprofit organizations promoting the principles of sustainability. Additionally students will be prepared to enter graduate school in architecture, building construction, historic preservation, interior design, landscape architecture and urban and regional planning.

Transfer students for either specialization must complete the A.A. degree, MAC 1147 or (MAC 1140 and MAC 1114), STA 2023, and ECO 2013 and ECO 2023 with minimum grades of C. Students must also have a 3.0 minimum overall GPA. Refer to the admissions website for transfer admission information, application deadlines and the online application.

Certain highly qualified students may have the option of pursuing a 4+1 or a 4+2 degree in urban and regional planning, landscape architecture or building construction.

Field trips to broaden and expand students’ educational experiences through study of planning, design, construction, and sustainability projects are required and will be paid for by students.

Coursework for the Major

All students, regardless of specialization, are required to take 53 hours of core courses to develop knowledge of the fundamental concepts for sustainability and the built environment.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

Total Credits 38

Academic Learning Compact

The Bachelor of Science in Sustainability and the Built Environment requires students to demonstrate an understanding of the relationship between the goals of sustainability and the activities of the built environment disciplines, including architecture, building construction, historic preservation, interior design, landscape architecture and urban and regional planning.

Before Graduating Students Must

- Complete a capstone or independent research project, present your results to a committee of the program’s faculty and receive acceptable assessment.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Explain sustainability principles.
2. Integrate knowledge and principles from sustainability-related disciplines.
3. Describe the role of the built environment in sustainability.
4. Combine information from multiple sources to solve problems.

Critical Thinking
5. Frame sustainable problems and potential solutions within a global context.
6. Collect and analyze data to solve problems.
7. Produce sustainable solutions for problems of the built environment.
8. Integrate multiple disciplinary, cultural and stakeholder perspectives for sustainable problem solving.

Communication
9. Produce an effective oral presentation.
10. Produce effective written communications.
11. Integrate a variety of visual techniques to enhance the communication of ideas and solutions.
12. Solve a built environment sustainability problem in a multidisciplinary team.

- Final project evaluation

Geodesign

The Bachelor of Science in Sustainability and the Built Environment (BSSBE) enables students to explore creative solutions for the planning, design and construction of human structures and settlements.

About this Program

- **College:** Design, Construction and Planning (p. 642)
- **Degree:** Bachelor of Science in Sustainability and the Built Environment
- **Specializations:** Interdisciplinary (p. 665) | Geodesign (p. 660)
- **Credits for Degree:** 120
- **Contact:** Email (advising@dcp.ufl.edu?Subject=Sustainability%20and%20the%20Built%20Environment%20Major)

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Sustainability and the Built Environment (SBE) Program at the College of Design, Construction and Planning teaches hands-on sustainability by using the university as a learning laboratory.

Map (http://campusmap.ufl.edu/#/index/0268)

Curriculum

- Sustainability and the Built Environment
- Sustainability and the Built Environment Minor

Whether it is the redesign and rehabilitation of existing structures or innovative new design, students will be provided a theoretical foundation for seeking sustainable solutions to problems in the built environment. The degree program is supported by the globally recognized expertise in sustainability of the faculty in the College of Design, Construction and Planning and from across campus.

Graduates will have excellent opportunities for work in various green industries, for government agencies involved with regulation and management of the built environment and with nonprofit organizations promoting the principles of sustainability. Additionally students will be prepared to enter graduate school in architecture, building construction, historic preservation, interior design, landscape architecture and urban and regional planning.

Transfer students for either specialization must complete the A.A. degree, MAC 1147 or (MAC 1140 and MAC 1114), STA 2023, and ECO 2013 and ECO 2023 with minimum grades of C. Students must also have a 3.0 minimum overall GPA. Refer to the admissions website for transfer admission information, application deadlines and the online application.

Certain highly qualified students may have the option of pursuing a 4+1 or a 4+2 degree in urban and regional planning, landscape architecture or building construction.

Field trips to broaden and expand students’ educational experiences through study of planning, design, construction, and sustainability projects are required and will be paid for by students.

Coursework for the Major

All students, regardless of specialization, are required to take 53 hours of core courses to develop knowledge of the fundamental concepts for sustainability and the built environment.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

### Geodesign

The geodesign specialization is for students interested in the application of geographic information systems in the sustainable design of the built environment.

### Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=303301&track=01) may be used for transfer students.

#### Semester 1
- Complete BCN 1582 with minimum grade of C+
- Complete DCP 1010, DCP 1003, and LAA 2330 with minimum grades of C
- Complete MAC 1147 or (MAC 1140 and MAC 1114)
- 2.00 UF GPA required

#### Semester 2
- Complete ARC 1701 or ARC 1720 or BCN 3012 or IND 2100 or IND 2130 or LAA 2710 or URP 4000 with minimum grade of C
- Complete ECO 2023 with minimum grade of C
- 2.50 UF GPA required

#### Semester 3
- Complete DCP 2001 with minimum grade of C
- Complete ECO 2013 with minimum grade of C
- Complete STA 2023
- 2.75 UF GPA required

#### Semester 4
- Complete DCP 2002 with minimum grade of C
- Complete ENC 3254 with minimum grade of C
- 3.0 UF GPA required
Semester 5
• Complete DCP 3210 with minimum grades of C+
• Complete one: AEB 4126, REL 2104, or REL 3492 with minimum grade of C
• Complete GEO 3162C with minimum grade of C
• 3.0 UF GPA required

Semester 6
• Complete DCP 3220

Semester 7
• Complete DCP 3200

Semester 8
• Complete DCP 4290

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Students will not be required to take more credit hours than required in semesters with less than 3 credit hours in electives. DCP advisors have a list of 1 and 2 credit hour electives in which students may enroll.

</table>
The Bachelor of Science in Sustainability and the Built Environment requires students to demonstrate an understanding of the relationship between the goals of sustainability and the activities of the built environment disciplines, including architecture, building construction, historic preservation, interior design, landscape architecture and urban and regional planning.

Before Graduating Students Must
  • Complete a capstone or independent research project, present your results to a committee of the program’s faculty and receive acceptable assessment.
  • Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Explain sustainability principles.
2. Integrate knowledge and principles from sustainability-related disciplines.
3. Describe the role of the built environment in sustainability.
4. Combine information from multiple sources to solve problems.

Critical Thinking
5. Frame sustainable problems and potential solutions within a global context.
6. Collect and analyze data to solve problems.
7. Produce sustainable solutions for problems of the built environment.
8. Integrate multiple disciplinary, cultural and stakeholder perspectives for sustainable problem solving.

Communication
9. Produce an effective oral presentation.
10. Produce effective written communications.
11. Integrate a variety of visual techniques to enhance the communication of ideas and solutions.
12. Solve a built environment sustainability problem in a multidisciplinary team.

Interdisciplinary

The interdisciplinary specialization is for students who want a general degree that emphasizes the importance of sustainability for all of the built environment fields.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=303301&track=01) may be used for transfer students.

Semester 1

- Complete BCN 1582 with minimum grade of C+
- Complete DCP 1003 and LAA 2330 with a minimum grades of C
Complete MAC 1147 or (MAC 1140 and MAC 1114)
2.00 UF GPA required

**Semester 2**
- Complete ARC 1701 or ARC 1720 or BCN 3012 or IND 2100 or IND 2130 or LAA 2710 or URP 4000 with minimum grade of C
- Complete ECO 2023 with minimum grade of C
- 2.50 UF GPA required

**Semester 3**
- Complete ECO 2013 with minimum grade of C
- Complete STA 2023
- 2.75 UF GPA required

**Semester 4**
- Complete ENC 3254 with minimum grade of C
- 3.0 UF GPA required

**Semester 5**
- Complete DCP 3210 with minimum grades of C+
- Complete one: AEB 4126, REL 2104, or REL 3492 with minimum grade of C
- 3.0 UF GPA required

**Semester 6**
- Complete DCP 3220

**Semester 7**
- Complete DCP 3200

**Semester 8**
- Complete DCP 4290

**Model Semester Plan**
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

### Academic Learning Compact

The Bachelor of Science in Sustainability and the Built Environment requires students to demonstrate an understanding of the relationship between the goals of sustainability and the activities of the built environment disciplines, including architecture, building construction, historic preservation, interior design, landscape architecture and urban and regional planning.

**Before Graduating Students Must**

- Complete a capstone or independent research project, present your results to a committee of the program’s faculty and receive acceptable assessment.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Explain sustainability principles.
2. Integrate knowledge and principles from sustainability-related disciplines.
3. Describe the role of the built environment in sustainability.
4. Combine information from multiple sources to solve problems.

**Critical Thinking**

5. Frame sustainable problems and potential solutions within a global context.
6. Collect and analyze data to solve problems.
7. Produce sustainable solutions for problems of the built environment.
8. Integrate multiple disciplinary, cultural and stakeholder perspectives for sustainable problem solving.

**Communication**
9. Produce an effective oral presentation.
10. Produce effective written communications.
11. Integrate a variety of visual techniques to enhance the communication of ideas and solutions.
12. Solve a built environment sustainability problem in a multidisciplinary team.

1 Student chooses from courses listed in semesters 5-7 of the major’s semester plan.

**Assessment Types**
- Capstone evaluation
- Final project evaluation

---

**Sustainability and the Built Environment Minor**

The Sustainability and the Built Environment minor introduces the challenges of planning, design, and construction of human structures and settlements. Courses provide an overview of environmental and cultural issues as they apply to design, planning sustainable applications, and solutions.
About this Program

- **College:** Design, Construction and Planning (p. 642)
- **Credits:** 15 | Completed with minimum grades of C

Department Information

The Sustainability and the Built Environment (SBE) Program at the College of Design, Construction and Planning teaches hands-on sustainability by using the university as a learning laboratory.

Curriculum

- Sustainability and the Built Environment
- Sustainability and the Built Environment Minor

This minor is open to all students.

Field trips to broaden and expand students’ educational experiences through study of planning, design, construction and sustainability projects are required and are paid for by the student.

Urban and Regional Planning Minor

Society’s demands on the natural environment continue to increase as communities grow to meet population demands. Planning addresses the interface between the social, environmental and economic dimensions of communities and regions. Never before has the need to shape visions and guide community outcomes been greater.

The Urban and Regional Planning minor introduces the challenging and vital aspects of creating, improving, and sustaining communities and regions.

About this Program

- **College:** Design, Construction and Planning (p. 642)
- **Credits:** 15 | Completed with minimum grades of C+, with the exception of URP 4942, which is graded S/U
**Department Information**
The Department of Urban and Regional Planning (URP) strives to be a leading graduate program with excellence in planning education, research, and service for the citizens of the state, the nation, and the world. The department values diversity and strives to recruit and retain faculty and students with diverse racial, ethnic, cultural, and economic backgrounds.

**Curriculum**
- Combination Degrees
- Urban and Regional Planning Minor

Application should be made early so that guidance can be given for course selection and special studies parameters. Students must have a C+ GPA for admission to the minor and they must maintain a C+ GPA in all coursework for the minor. The only S/U course accepted is URP 4942.

The minor does not provide professional certification.

It is each student’s responsibility to declare the minor through their major degree department or college and to obtain the required signatures from their department and URP.

**Study Abroad/Off-Campus Studies**
Students need approval before signing up for study abroad or off-campus studies for inclusion in the URP minor. Credits will not be accepted after a student has started study abroad or off-campus studies. Eligible programs should be offered by UF’s International Center or the College of Design, Construction and Planning. URP’s undergraduate coordinator must determine eligibility of study abroad or off-campus coursework prior to taking the class. Accepted credits may vary from three to six, depending on the intensity and appropriateness of the selected program.

**Education, College of**
Consistently ranked among the top 20 public education schools in the nation, the College of Education prepares students to serve and lead in a diverse field. The College offers pathways to professional teacher certification, promotes an understanding of learning systems, policies, and outcomes in traditional and non-traditional contexts, and prepares graduates for careers in the public, private, or nonprofit sectors.

The U.S. Department of Education’s Higher Education Act addresses accountability requirements for teacher preparation programs. The act mandates that teacher preparation programs publish annually pertinent program information including but not limited to the following:

- Program accreditation
- Pass rates of graduates on state teacher certification assessments
- Programs that have been designated as low performing by the state

Accordingly, information about the state- and CAEP-accredited teacher preparation programs at UF is available online, and in print upon request. More Info (http://education.ufl.edu/about-the-college/)

### Academic Policies

#### Admission Requirements

Freshman applicants will be admitted to the College of Education when they declare a major in education sciences, elementary education, or early childhood education.

Students who wish to change their major to education sciences are required to have a 2.3 GPA for freshmen and 2.5 GPA for sophomores and above. Students who wish to change their major to elementary education or early childhood education must have a 2.3 GPA for freshmen and 2.6 GPA for sophomores and above.

Elementary education and early childhood education students remain in a pre-education status, as long as they meet the critical-tracking standards set by the college and UF, until formally admitted to ProTeach. ProTeach students must be on track at the 60-credit level to continue in the elementary/special education or early childhood education major and to be considered competitive for admission to the three-year teacher preparation program.

Transfer Admission Requirements

Education sciences transfer applicants must meet the following requirements for admission:

- 2.5 cumulative GPA
- Completing the common course prerequisite, EDF1005 Introduction to the Teaching Profession, as established by the state of Florida’s Articulation Coordinating Committee. The common course prerequisite must be completed with a minimum grade of C.

ProTeach majors in the College of Education are limited access programs. Transfer applicants must meet the following requirements for admission consideration on a space-available basis:

- 2.6 cumulative GPA; 3.0 upper-division GPA
- Passing scores on all sections of the general knowledge portion of the Florida Teacher Certification Exam (http://fl.nesinc.com/) (FTCE)
- Completing the university’s writing (24,000 words) requirement
- Completing the common course prerequisite, EDF1005 Introduction to the Teaching Profession, as established by the state of Florida’s

#### Higher Education Act | 1998

The act mandates that teacher preparation programs publish annually pertinent program information including but not limited to the following:

- Program accreditation
- Pass rates of graduates on state teacher certification assessments
- Programs that have been designated as low performing by the state

Accordingly, information about the state- and CAEP-accredited teacher preparation programs at UF is available online, and in print upon request. More Info (http://education.ufl.edu/about-the-college/)
Articulation Coordinating Committee. The common course prerequisites must be completed with a minimum grade of B.

- A course in human growth and development is a college requirement.

State college transfer students and state university transfer students must document award of the A.A. Other transfer students are evaluated individually upon application for admission. No change of major will be approved for transfer students admitted to another college at UF.

Critical-Tracking Program

All undergraduates are monitored for progress toward the bachelor’s degree by the critical-tracking program. Students who fall below the tracking requirements at any stage must see an academic advisor for approval to continue in the major.

Students must make satisfactory academic progress to continue to enroll in the College of Education.

Minimum requirements for education sciences include

- Education core prerequisites completed with no grade below C and a 3.0 GPA; one repeat allowed:

<table>

</tbody>
</table>

- Completion of the common course prerequisite, EDF1005 Introduction to the Teaching Profession, as established by the State of Florida Articulation Coordinating Committee; the common course prerequisite must be completed with a minimum grade of C.

ProTeach is a limited-access major with competitive admission. Due to space limitations, meeting minimum admission requirements does not guarantee selection for admission. Minimum requirements for ProTeach admission for UF students and transfer students at the completion of 60 semester credits:

- Complete the university’s writing (24,000 words) requirement
- Complete all General Education requirements
- FTCE General Knowledge Requirement. All students must pass all sections of the general knowledge portion of the Florida Teacher Certification Examination (http://fl.nesinc.com/) (FTCE) before ProTeach admission at the junior level.

Education core prerequisites completed with no grade below C and a 3.0 GPA; one repeat allowed:

<table>

- Completion of the common course prerequisite, EDF1005 Introduction to the Teaching Profession, as established by the State of Florida Articulation Coordinating Committee; the common course prerequisite must be completed with a minimum grade of B.
- Cumulative UF and transfer GPA of 2.6 and an upper-division GPA of 3.0

The college admissions committee will consider an applicant’s entire record, including educational objectives, quality of courses completed and test data.

College Requirements

Career Placement

The Career Connections Center offers a Careers in Education recruitment event annually (usually in April) where representatives from school districts in Florida and several other states meet with students who are completing teacher education programs and others interested in teaching.

More Info (https://career.ufl.edu/)

Criminal Background Check

Classroom field experience is a vital component to any teacher preparation program. To have access to classrooms, students in a ProTeach program or UFTeach minor must submit to a Level 2 background screening. Individuals who are not cleared will not be permitted to continue in or graduate from a teacher preparation program. After clearance, it is the student’s responsibility to report immediately any new criminal charges to the university’s certification officer in 1-106 Norman Hall.

Dean’s List (p. 1644)

Financial Responsibility

Students are responsible for all costs associated with the criminal background check, LiveText subscription, transportation to and from field placements and relevant examinations required for the program.

Overseas Study

ProTeach students are encouraged to complete any overseas studies before reaching junior status or in a summer term.

Program Plan

During the first term of enrollment in the upper-division ProTeach program, the student will sign a planned program of courses for the degree. Education sciences students must submit a plan that includes an approved specialization or general studies track before the end of the junior year. The program coordinator must approve all programs. Each student is responsible for registering for the appropriate courses and fulfilling all requirements for the degree, including test requirements.

Satisfactory Progress

Students in undergraduate ProTeach programs are expected to maintain a minimum junior/senior-level 3.0 GPA. Education sciences majors must maintain a 2.5 GPA. Academic progress is reviewed each semester. If requirements are not met, the student must be approved for continuation by the program coordinator before further registration. Students are required to earn a minimum grade of C for all major courses for award of the bachelor’s degree.

Probation

The department and the college monitor students for academic progress. Students with unsatisfactory academic progress may be placed on probation. College probation may be removed if it is determined that satisfactory progress has been demonstrated.

Dismissal

If the department or the college determines that a student has not met probationary terms or is not progressing academically, the student may
be prohibited from continuing in the College of Education. Students on probation, as well as students who are unable to meet degree requirements, are encouraged to investigate alternatives in other areas of study.

Students dismissed by the university may not register for courses. Courses taken at other institutions under these conditions will not count toward a UF degree.

**Student Responsibility**

Students are expected to review the information in the undergraduate catalog as a guide to planning their academic careers at UF. Failure to read, understand and follow the guidelines may cause significant delays in academic progress. Clarification of college requirements is available in the Office of Student Services, EduGator Central, 1-106 Norman Hall.

**Student Teaching Assignment**

Student teaching assignments are fulfilled at various sites in Florida, in accordance with program objectives and the student's professional goals. Department approval is required for placements outside Alachua County. In addition to regular tuition expenses, students are responsible for transportation to and/or housing in the community where student teaching is to occur. Fees imposed by school districts relating to requirements for personnel screening (e.g., fingerprinting, background checks and substance abuse testing) are also the student's responsibility.

**S/U Option**

The S/U option may be used for elective courses only. It does not apply to the university’s writing requirement courses or to general education course requirements. The deadline for declaring the S/U option is published in the academic calendars in this catalog.

**Transient Student Status**

With approval of the College of Education, students may take a limited number of credits at another accredited institution. Before registration as a transient student at another institution, the student must complete a transient student form and obtain approval from the college and university. No transient courses will be permitted during the last 30 credits of enrollment. More Info (https://www.floridashines.org/succeed-in-college/take-a-course-at-another-school/)

**Undergraduate Registration for Graduate Courses**

With department approval, an undergraduate student with senior standing may enroll in 5000/6000-level courses. After a student has been admitted to the Graduate School, up to 15 credits of graduate-level courses with grades of A, A-, B+ or B may be applied toward a graduate degree at the university, provided the credit was not used toward an undergraduate degree.

**Degree Requirements**

Students who complete an approved undergraduate program in the College of Education are awarded the Bachelor of Arts (B.A.) for the education sciences major or the Bachelor of Arts in Education (B.A.E.) for a ProTeach major.

Grades below C will not fulfill requirements for major requirements or the university's general education areas.

Before program completion, ProTeach students must demonstrate satisfactory performance on the Florida Educator Accomplished Practices. Students in unified early childhood education are required to provide proof of completion of up-to-date CPR and first aid training. All prospective teachers are encouraged to do the same.

ProTeach students are required to complete an additional year of study in a master's degree or postbaccalaureate program to receive a statement on the transcript verifying completion of a Florida Department of Education (DOE) and Council for Accreditation of Educator Preparation (CAEP) approved program.

All students in the ProTeach unified elementary/special education and early childhood program must provide evidence of a passing score on all pertinent sections of the Florida Teacher Certification Examination (FTCE) before graduation from the B.A.E. program and the M.Ed. or postbaccalaureate program.

More Info (http://fl.nesinc.com/)

**Residence**

The last 30 semester credits applied toward a degree must be completed in residence at UF in the College of Education.

**ProTeach | Preparation of Professional Teachers**

The College of Education prepares professional teachers in unified elementary/special education, unified early childhood education and the various areas of secondary education.

ProTeach is a rigorous five-year program designed to culminate in both a bachelor’s and a master’s degree.

Students engage in early observation, supervised practice and a concluding internship in the public schools, as well as campus-based clinical experiences in microteaching, simulation and other controlled situations.

ProTeach students in unified elementary/special education and unified early childhood education receive a Bachelor of Arts in Education upon
successful completion of the first phase of the teacher education program, including a prescribed set of courses and experiences.

An additional year beyond the bachelor's degree is required for completion of the second phase of the teacher education programs.

Secondary Teaching
Students who wish to teach at the high school level complete a bachelor's degree in an appropriate content discipline while pursuing a minor in Florida Teaching or UFTeach, or before pursuing a graduate certificate in secondary teaching in the College of Education. The approved subject areas of study for a graduate certificate in secondary teaching include:

- English (recommended major in English);
- science (recommended major in biology, botany, chemistry, entomology, microbiology, physics, wildlife ecology or zoology); and
- social science (recommended major in anthropology, economics, geography, history, political science, psychology or sociology)
- mathematics (recommended major in mathematics)

Disabilities in Society Minor
The Disabilities in Society minor provides opportunities for undergraduates in all colleges to enhance their knowledge of disabilities and to recognize the impact disabilities have on the lives of people who experience them and on the people with whom they live and interact.

About this Program
- College: Education (p. 672)
- Credits: 15 minimum | Completed with minimum grades of C
- Contact: Email (studenthelp@coe.ufl.edu) | 1-106 Norman Hall (https://campusmap.ufl.edu/#/index/0101) | 352.273.4376

Department Information
Students in the Department of Special Education are uniquely positioned to learn from leaders in the field while simultaneously applying that learning in individually relevant professional settings.

Curriculum
- Disabilities in Society Minor
- Disability Science Minor
- Education | Unified Early Childhood Education ProTeach | Pre-K-Grade 3
- Education | Unified Elementary/Special Education ProTeach | Grades K-6

This minor facilitates understanding of disabilities and disability-related issues that are applicable in a variety of settings. Focus is on understanding types of disabilities, how disabilities are perceived in society, the ways people with disabilities are included in recreational, leisure, employment, educational and other community activities, and the legal aspects of disability policies.

Prerequisites
- Apply for the minor after earning 45 credits and before earning 100 credits.
- Minimum 2.0 GPA is required and transfer credits are not accepted. All courses must be taken at UF.

Cooperating College Teacher Education Programs
In collaboration with the College of Education our cooperating colleges offer four-year teacher preparation programs in agriculture, art and music. Please contact the individual colleges for additional information:

- Agricultural Education and Communication (6-12), College of Agricultural and Life Sciences, 305 ROL
- Art Education (K-12), College of the Arts, 302 FAC
- Music Education (K-12), College of the Arts, 130 MUB

Program Planning
Program changes related to teacher certification requirements are possible. The curriculum of a state-approved teacher preparation program is subject to revision to accommodate legislative or Department of Education mandates. New rules may affect required courses in all teacher preparation programs.
• Obtain college approval on the application for minor (http://www.registrar.ufl.edu/pdf/minorapp.pdf) before submitting the form to 1-106 Norman Hall (http://campusmap.ufl.edu/?loc=0101).
• EEX 2000 or EEX 3093 are prerequisites for the online courses.

Education Sciences

The Education Sciences major promotes an understanding of education and learning systems, policy, and outcomes in traditional and non-traditional contexts. This degree prepares individuals for a variety of career paths and for graduate school.

About this Program

• **College:** Education (p. 672)
• **Degree:** Bachelor of Arts
• **Specializations:** Disabilities in Society (p. 679) | Educational Psychology and Research (p. 683) | Educational Technology (p. 687) | General Studies (p. 691) | Schools, Society and Policy (p. 695)
• **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Related Programs

• Education Sciences UF Online
• Education | Unified Early Childhood Education ProTeach | Pre-K:Grade 3
• Education | Unified Elementary/Special Education ProTeach | Grades K-6
• Florida Teaching Minor
• UF Teach | Mathematics or Science Minor

This major is not a teacher or educator preparation program, rather an exploration of the educational and psychological foundations, research and policy as applied to instruction, learning, and professional development in school and community settings. Core courses serve as an introduction to the many fields of professional practice and research. Students may develop a General Studies curriculum or may choose a specialization in Disabilities in Society, Educational Psychology and Research, Educational Technology, or Schools, Society and Policy.

Graduates of the major would be prepared for a career in a government, non-profit, or education setting and for graduate studies. It would be appropriate for students interested in leading discussions about schools and education, informing policy, optimizing e-learning, advocating for accessibility, and supporting the mission of institutions of learning.

Coursework for the Major

Students must complete 30 credits of coursework for the education sciences major to include a 15-credit core and a 15-credit specialization. The specialization must be declared no later than semester 6. Each specialization’s coursework requirements are specified after the Critical Tracking section. Students must earn a minimum grade of C in a course for it to be applied to the major. A minimum 15 credits of major-related courses must be completed at the University of Florida.

All education sciences majors are required to attend colloquia, contribute to seminars, and participate in experiential learning.

Critical Tracking Courses | 3 courses total

• EDF 1005
• EDF 2085 (GE-S,D)
• EME 2040

**Critical Tracking**
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites may be used for transfer students.

**Semester 1**
- 2.0 UF GPA required

**Semester 2**
- Complete 1 of 3 critical tracking courses (EDF 1005, EDF 2085, or EME 2040)
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required
**Semester 3**
- Complete 2 of 3 critical tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 4**
- Complete 3 of 3 critical tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 5**
- Complete 1 core course: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 6**
- Complete 3 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.5 UF GPA required

**Semester 7**
- Complete 4 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- Complete 2 specialization courses: EEX 3093, EEX 3097, EEX 4520, EEX 4280, EEX 4810
- 2.5 UF GPA required

**Semester 8**
- 2.5 UF GPA required

---

**Model Semester Plan**

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S). One of the two general education mathematics courses must be a pure math course. A course in statistics is recommended for this major but not required.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Educational Psychology and Research
The Education Sciences major promotes an understanding of education and learning systems, policy, and outcomes in traditional and non-traditional contexts. This degree prepares individuals for a variety of career paths and for graduate school.

About this Program
• **College:** Education (p. 672)
• **Degree:** Bachelor of Arts
• **Specializations:** Disabilities in Society (p. 679) | Educational Psychology and Research (p. 683) | Educational Technology (p. 687) | General Studies (p. 691) | Schools, Society and Policy (p. 695)
• **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Related Programs
• Education Sciences UF Online
• Education | Unified Early Childhood Education ProTeach | Pre-K-Grade 3
• Education | Unified Elementary/Special Education ProTeach | Grades K-6
• Florida Teaching Minor
• UFTeach | Mathematics or Science Minor

This major is not a teacher or educator preparation program, rather an exploration of the educational and psychological foundations, research and policy as applied to instruction, learning, and professional development in school and community settings. Core courses serve as an introduction to the many fields of professional practice and research. Students may develop a General Studies curriculum or may choose a specialization in Disabilities in Society, Educational Psychology and Research, Educational Technology, or Schools, Society and Policy.

Graduates of the major would be prepared for a career in a government, non-profit, or education setting and for graduate studies. It would be appropriate for students interested in leading discussions about schools and education, informing policy, optimizing e-learning, advocating for accessibility, and supporting the mission of institutions of learning.
Coursework for the Major

Students must complete 30 credits of coursework for the education sciences major to include a 15-credit core and a 15-credit specialization. The specialization must be declared no later than semester 6. Each specialization's coursework requirements are specified after the Critical Tracking section. Students must earn a minimum grade of C in a course for it to be applied to the major. A minimum 15 credits of major-related courses must be completed at the University of Florida.

All education sciences majors are required to attend colloquia, contribute to seminars, and participate in experiential learning.

Critical Tracking Courses | 3 courses total
- EDF 1005
- EDF 2085 (GE-S,D)
- EME 2040

Core Courses | 5 courses total
- EDF 3210
- EDF 3604 (GE-S)
- EDF 3423
- EEX 2000 (GE-S,D)
- EME 3813

Specializations

Disabilities in Society
Advocating for accessibility and inclusion

Educational Psychology and Research
Research methods for understanding cognitive development and learning theory

Educational Technology
Preparing for a career in instructional design and e-learning

General Studies
Engaging in interdisciplinary and cross-disciplinary studies

Schools, Society and Policy
Searching for solutions to enduring problems in education

Critical Issues & Research in Education (EDG 4930 - 1 credit; S/U)
A colloquium series that explores current education issues and research. Guest lectures from faculty.

Senior Seminar (EDG 4930 - 2 semesters x 1 credit each; S/U)
Seniors present findings/summary of experiential learning.

Experiential Learning (EDG 4910 or EDG 4905 - choose one)
Research, Internship, Service Learning, Study Abroad

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites may be used for transfer students.

SEMESTER 1
- 2.0 UF GPA required
**SEMESTER 2**
- Complete 1 of 3 critical-tracking courses: EDF 1005, EDF 2085, EME 2040
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**SEMESTER 3**
- Complete 2 of 3 critical-tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**SEMESTER 4**
- Complete 3 of 3 critical-tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**SEMESTER 5**
- Complete 1 core course: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**SEMESTER 6**
- Complete 3 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.0 UF GPA required

**SEMESTER 7**
- Complete 4 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- Complete 2 specialization courses: EDF 3110, EDF 4430, EDF 4140, EDF 4440, EDF 4470
- 2.0 UF GPA required

**SEMESTER 8**
- 2.0 UF GPA required

---

**Model Semester Plan**

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S). One of the two general education mathematics courses must be a pure math course. A course in statistics is recommended for this major but not required.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

### Academic Learning Compact

Across the country, graduates with education majors typically are prepared to teach in preschool through grade 12 settings. While many university students complete an education degree with teacher certification and begin teaching, others pursue graduate school or employment in fields where preparation in education is an asset. The BAES is appropriate for students interested in leading and supporting the design and implementation of learning environments, studying and informing education policy, optimizing e-learning, advocating for and developing accessible education options for citizens with disabilities, and supporting the learning and training missions of institutions in the modern economy.

### Before Graduating Students Must

- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Explain foundational ideas and best practices in educational practices and policies, educational psychology, human exceptionalities, educational statistics and measurement, and educational technologies.
2. Apply foundational ideas and best practices to understand problems of practice and generate viable solutions in formal and informal education and training settings.

Critical Thinking
3. Enact goals for professional growth, ethical practices, and continuous improvement.

Communication
4. Communicate effectively in all forms in a professional environment, adapting appropriately for exceptionality and diversity among individuals.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites may be used for transfer students.

#### Semester 1
- 2.0 UF GPA required

#### Semester 2
- Complete 1 of 3 critical-tracking courses: EDF 1005, EDF 2085, or EME 2040
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 3
- Complete 2 of 3 critical-tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 4
- Complete 3 of 3 critical-tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 5
- Complete 1 core course: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**SEMESTER 6**
- Complete 3 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.0 UF GPA required

**SEMESTER 7**
- Complete 4 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- Complete 2 specialization courses (3000 and 4000 level education courses)
- 2.0 UF GPA required

**SEMESTER 8**
- 2.0 UF GPA required

### Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S). One of the two general education mathematics courses must be a pure math course. A course in statistics is recommended for this major but not required.
This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

1 Gen Ed Social and Behavioral Sciences with International; Gen Ed Humanities with International; Gen Ed Biological or Physical Sciences with International
**Academic Learning Compact**

Across the country, graduates with education majors typically are prepared to teach in preschool through grade 12 settings. While many university students complete an education degree with teacher certification and begin teaching, others pursue graduate school or employment in fields where preparation in education is an asset. The BAES is appropriate for students interested in leading and supporting the design and implementation of learning environments, studying and informing education policy, optimizing e-learning, advocating for and developing accessible education options for citizens with disabilities, and supporting the learning and training missions of institutions in the modern economy.

**Before Graduating Students Must**

- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Explain foundational ideas and best practices in educational practices and policies, educational psychology, human exceptionalities, educational statistics and measurement, and educational technologies.
2. Apply foundational ideas and best practices to understand problems of practice and generate viable solutions in formal and informal education and training settings.

**Critical Thinking**

3. Enact goals for professional growth, ethical practices, and continuous improvement.

**Communication**

4. Communicate effectively in all forms in a professional environment, adapting appropriately for exceptionality and diversity among individuals.

**Curriculum Map**

**Schools, Society and Policy**

The Education Sciences major promotes an understanding of education and learning systems, policy, and outcomes in traditional and non-traditional contexts. This degree prepares individuals for a variety of career paths and for graduate school.

**About this Program**

- **College:** Education (p. 672)
- **Degree:** Bachelor of Arts
- **Specializations:** Disabilities in Society (p. 679) | Educational Psychology and Research (p. 683) | Educational Technology (p. 687) | General Studies (p. 691) | Schools, Society and Policy (p. 695)
- **Credits for Degree:** 120
To graduate with this major, students must complete all university, college, and major requirements.

**Related Programs**
- Education Sciences UF Online
- Education | Unified Early Childhood Education ProTeach | Pre-K-Grade 3
- Education | Unified Elementary/Special Education ProTeach | Grades K-6
- Florida Teaching Minor
- UFTeach | Mathematics or Science Minor

This major is not a teacher or educator preparation program, rather an exploration of the educational and psychological foundations, research and policy as applied to instruction, learning, and professional development in school and community settings. Core courses serve as an introduction to the many fields of professional practice and research. Students may develop a General Studies curriculum or may choose a specialization in Disabilities in Society, Educational Psychology and Research, Educational Technology, or Schools, Society and Policy.

Graduates of the major would be prepared for a career in a government, non-profit, or education setting and for graduate studies. It would be appropriate for students interested in leading discussions about schools and education, informing policy, optimizing e-learning, advocating for accessibility, and supporting the mission of institutions of learning.

### Coursework for the Major

Students must complete 30 credits of coursework for the education sciences major to include a 15-credit core and a 15-credit specialization. The specialization must be declared no later than semester 6. Each specialization’s coursework requirements are specified after the Critical Tracking section. Students must earn a minimum grade of C in a course for it to be applied to the major. A minimum 15 credits of major-related courses must be completed at the University of Florida.

All education sciences majors are required to attend colloquia, contribute to seminars, and participate in experiential learning.

#### Critical Tracking Courses | 3 courses total
- EDF 1005
- EDF 2085 (GE-S,D)
- EME 2040

#### Core Courses | 5 courses total
- EDF 3210
- EDF 3604 (GE-S)
- EDF 3423
- EEX 2000 (GE-S,D)
- EME 3813

### Specializations

- **Disabilities in Society**
  Advocating for accessibility and inclusion

- **Educational Psychology and Research**
  Research methods for understanding cognitive development and learning theory

- **Educational Technology**
  Preparing for a career in instructional design and e-learning

- **General Studies**
  Engaging in interdisciplinary and cross-disciplinary studies

- **Schools, Society and Policy**
  Searching for solutions to enduring problems in education

- **Critical Issues & Research in Education (EDG 4930 - 1 credit; S/U)**
  A colloquium series that explores current education issues and research. Guest lectures from faculty.
Senior Seminar (EDG 4930 - 2 semesters x 1 credit each; S/U)

Seniors present findings/summary of experiential learning.

Experiential Learning (EDG 4910 or EDG 4905 - choose one)

Research, Internship, Service Learning, Study Abroad

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites may be used for transfer students.

Semester 1

• 2.0 UF GPA required

Semester 2

• Complete 1 of 3 critical-tracking courses: EDF 1005, EDF 2085, EME 2040
• 2.33 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 3

• Complete 2 of 3 critical-tracking courses
• 2.33 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 4

• Complete 3 of 3 critical-tracking courses
• 2.33 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 5

• Complete 1 core course: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
• 2.33 GPA required for all critical-tracking courses
• 2.0 UF GPA required

SEMESTER 6

• Complete 3 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
• 2.0 UF GPA required

SEMESTER 7

• Complete 4 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
• Complete 2 specialization courses: EDF 3609, EDF 3514, EDF 3083, EDF 4930, EDH 3410
• 2.0 UF GPA required

SEMESTER 8

• 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S). One of the two general education mathematics courses must be a pure math course. A course in statistics is recommended for this major but not required.
This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Disabilities in Society

The Education Sciences major promotes an understanding of education and learning systems, policy, and outcomes in traditional and non-traditional contexts. This degree prepares individuals for a variety of career paths and for graduate school.

About this Program

- **College:** Education (p. 672)
- **Degree:** Bachelor of Arts
- **Specializations:** Disabilities in Society (p. 702) | Educational Psychology and Research (p. 706) | Educational Technology (p. 710) | General Studies (p. 714) | Schools, Society and Policy (p. 718)
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Related Programs

- Education Sciences
  - Education | Unified Early Childhood Education ProTeach | Pre-K-Grade 3
  - Education | Unified Elementary/Special Education ProTeach | Grades K-6
  - Florida Teaching Minor
  - UFTeach | Mathematics or Science Minor

This major is not a teacher or educator preparation program, rather an exploration of the educational and psychological foundations, research and policy as applied to instruction, learning, and professional development in school and community settings. Core courses serve as an introduction to the many fields of professional practice and research. Students may develop a General Studies curriculum or may choose a specialization in Disabilities in Society, Educational Psychology and Research, Educational Technology, or Schools, Society and Policy.

Graduates of the major would be prepared for a career in a government, non-profit, or education setting and for graduate studies. It would be appropriate for students interested in leading discussions about schools and education, informing policy, optimizing e-learning, advocating for accessibility, and supporting the mission of institutions of learning.

Coursework for the Major

Students must complete 30 credits of coursework for the education sciences major to include a 15-credit core and a 15-credit specialization. The specialization must be declared no later than semester 6. Each specialization's coursework requirements are specified after the Critical Tracking section. Students must earn a minimum grade of C in a course for it to be applied to the major. A minimum 15 credits of major-related courses must be completed at the University of Florida.

All education sciences majors are required to attend colloquia, contribute to seminars, and participate in experiential learning.

Critical Tracking Courses | 3 courses total

- EDF 1005
- EDF 2085 (GE-S,D)
- EME 2040

Core Courses | 5 courses total

- EDF 3210
- EDF 3604 (GE-S)
- EDF 3423
- EEX 2000 (GE-S,D)
- EME 3813

Specializations

Disabilities in Society

Advocating for accessibility and inclusion
Educational Psychology and Research
Research methods for understanding cognitive development and learning theory

Educational Technology
Preparing for a career in instructional design and e-learning

General Studies
Engaging in interdisciplinary and cross-disciplinary studies

Schools, Society and Policy
Searching for solutions to enduring problems in education

Critical Issues & Research in Education (EDG 4930 - 1 credit; S/U)
A colloquium series that explores current education issues and research. Guest lectures from faculty.

Senior Seminar (EDG 4930 - 2 semesters x 1 credit each; S/U)
Seniors present findings/summary of experiential learning.

Experiential Learning (EDG 4910 or EDG 4905 - choose one)
Research, Internship, Service Learning, Study Abroad

Critical Tracking
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites may be used for transfer students.

Semester 1
- 2.0 UF GPA required

Semester 2
- Complete 1 of 3 critical tracking courses (EDF 1005, EDF 2085, or EME 2040)
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3
- Complete 2 of 3 critical tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4
- Complete 3 of 3 critical tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5
- Complete 1 core course: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6
- Complete 3 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.5 UF GPA required
**Semester 7**
- Complete 4 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- Complete 2 specialization courses: EEX 3093, EEX 3097, EEX 4520, EEX 4280, EEX 4810
- 2.5 UF GPA required

**Semester 8**
- 2.5 UF GPA required

### Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S). One of the two general education mathematics courses must be a pure math course. A course in statistics is recommended for this major but not required.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

**Academic Learning Compact**

Across the country, graduates with education majors typically are prepared to teach in preschool through grade 12 settings. While many university students complete an education degree with teacher certification and begin teaching, others pursue graduate school or employment in fields where preparation in education is an asset. The BAES is appropriate for students interested in leading and supporting the design and implementation of learning environments, studying and informing education policy, optimizing e-learning, advocating for and developing accessible education options for citizens with disabilities, and supporting the learning and training missions of institutions in the modern economy.

**Before Graduating Students Must**

- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Explain foundational ideas and best practices in educational practices and policies, educational psychology, human exceptionalities, educational statistics and measurement, and educational technologies.

2. Apply foundational ideas and best practices to understand problems of practice and generate viable solutions in formal and informal education and training settings.

**Critical Thinking**

3. Enact goals for professional growth, ethical practices, and continuous improvement.

**Communication**

4. Communicate effectively in all forms in a professional environment, adapting appropriately for exceptionality and diversity among individuals.

**Curriculum Map**

Core courses serve as an introduction to the many fields of professional practice and research. Students may develop a General Studies curriculum or may choose a specialization in Disabilities in Society, Educational Psychology and Research, Educational Technology, or Schools, Society and Policy.

Graduates of the major would be prepared for a career in a government, non-profit, or education setting and for graduate studies. It would be appropriate for students interested in leading discussions about schools and education, informing policy, optimizing e-learning, advocating for accessibility, and supporting the mission of institutions of learning.

Coursework for the Major

Students must complete 30 credits of coursework for the education sciences major to include a 15-credit core and a 15-credit specialization. The specialization must be declared no later than semester 6. Each specialization’s coursework requirements are specified after the Critical Tracking section. Students must earn a minimum grade of C in a course for it to be applied to the major. A minimum 15 credits of major-related courses must be completed at the University of Florida.

All education sciences majors are required to attend colloquia, contribute to seminars, and participate in experiential learning.
Critical Tracking Courses | 3 courses total
- EDF 1005
- EDF 2085 (GE-S,D)
- EME 2040

Core Courses | 5 courses total
- EDF 3210
- EDF 3604 (GE-S)
- EDF 3423
- EEX 2000 (GE-S,D)
- EME 3813

Specializations
Disabilities in Society
Advocating for accessibility and inclusion

Educational Psychology and Research
Research methods for understanding cognitive development and learning theory

Educational Technology
Preparing for a career in instructional design and e-learning

General Studies
Engaging in interdisciplinary and cross-disciplinary studies

Schools, Society and Policy
Searching for solutions to enduring problems in education

Critical Issues & Research in Education (EDG 4930 - 1 credit; S/U)
A colloquium series that explores current education issues and research. Guest lectures from faculty.

Senior Seminar (EDG 4930 - 2 semesters x 1 credit each; S/U)
Seniors present findings/summary of experiential learning.

Experiential Learning (EDG 4910 or EDG 4905 - choose one)
Research, Internship, Service Learning, Study Abroad

Critical Tracking
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites may be used for transfer students.

Semester 1
- 2.0 UF GPA required

Semester 2
- Complete 1 of 3 critical tracking courses: EDF 1005, EDF 2085, EME 2040
- 2.33 GPA required for all critical tracking courses
- 2.0 UF GPA required
**Semester 3**
- Complete 2 of 3 critical tracking courses
- 2.33 GPA required for all critical tracking courses
- 2.0 UF GPA required

**Semester 4**
- Complete 3 of 3 critical tracking courses
- 2.33 GPA required for all critical tracking courses
- 2.0 UF GPA required

**Semester 5**
- Complete 1 core course: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.33 GPA required for all critical tracking courses
- 2.0 UF GPA required

**SEMESTER 6**
- Complete 3 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.0 UF GPA required

**SEMESTER 7**
- Complete 4 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- Complete 2 specialization courses: EME 3044, EME 3319, EME 4010, EME 4320, EME 4673
- 2.0 UF GPA required

**SEMESTER 8**
- 2.0 UF GPA required

---

**Model Semester Plan**

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S). One of the two general education mathematics courses must be a pure math course. A course in statistics is recommended for this major but not required.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

---

**Academic Learning Compact**

Across the country, graduates with education majors typically are prepared to teach in preschool through grade 12 settings. While many university students complete an education degree with teacher certification and begin teaching, others pursue graduate school or employment in fields where preparation in education is an asset. The BAES is appropriate for students interested in leading and supporting the design and implementation of learning environments, studying and informing education policy, optimizing e-learning, advocating for and developing accessible education options for citizens with disabilities, and supporting the learning and training missions of institutions in the modern economy.

**Before Graduating Students Must**

- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Explain foundational ideas and best practices in educational practices and policies, educational psychology, human exceptionalities, educational statistics and measurement, and educational technologies.

2. Apply foundational ideas and best practices to understand problems of practice and generate viable solutions in formal and informal education and training settings.
Critical Thinking
3. Enact goals for professional growth, ethical practices, and continuous improvement.

Communication
4. Communicate effectively in all forms in a professional environment, adapting appropriately for exceptionality and diversity among individuals.

Engaging in interdisciplinary and cross-disciplinary studies

Schools, Society and Policy
Searching for solutions to enduring problems in education

Critical Issues & Research in Education (EDG 4930 - 1 credit; S/U)
A colloquium series that explores current education issues and research. Guest lectures from faculty.

Senior Seminar (EDG 4930 - 2 semesters x 1 credit each; S/U)
Seniors present findings/summary of experiential learning.

Experiential Learning (EDG 4910 or EDG 4905 - choose one)
Research, Internship, Service Learning, Study Abroad
Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 of 3 critical-tracking courses: EDF 1005, EDF 2085, EME 2040
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 of 3 critical-tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 3 of 3 critical-tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete 1 core course: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6

- Complete 3 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.0 UF GPA required

Semester 7

- Complete 4 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- Complete 2 specialization courses: EDF 3609, EDF 3514, EDF 3083, EDF 4930, EDH 3410
- 2.0 UF GPA required

Semester 8

- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S). One of the two general education mathematics courses must be a pure math course. A course in statistics is recommended for this major but not required.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

---

### Academic Learning Compact

Across the country, graduates with education majors typically are prepared to teach in preschool through grade 12 settings. While many university students complete an education degree with teacher certification and begin teaching, others pursue graduate school or employment in fields where preparation in education is an asset. The BAES is appropriate for students interested in leading and supporting the design and implementation of
learning environments, studying and informing education policy, optimizing e-learning, advocating for and developing accessible education options for citizens with disabilities, and supporting the learning and training missions of institutions in the modern economy.

Before Graduating Students Must
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Explain foundational ideas and best practices in educational practices and policies, educational psychology, human exceptionalities, educational statistics and measurement, and educational technologies.
2. Apply foundational ideas and best practices to understand problems of practice and generate viable solutions in formal and informal education and training settings.

Critical Thinking
3. Enact goals for professional growth, ethical practices, and continuous improvement.

Communication
4. Communicate effectively in all forms in a professional environment, adapting appropriately for exceptionality and diversity among individuals.

Education | Unified Early Childhood Education ProTeach | Pre-K-Grade 3

The Unified Early Childhood Education ProTeach program prepares students to teach at the preschool and pre-kindergarten levels through grade 3.

About this Program
• College: Education (p. 672)
• Program: Bachelor of Arts in Education and Master of Education
• Credits for Degree: 120 (B.A.E.) | 36 (M.Ed.)
• Contact: Email (studenthelp@coe.ufl.edu) | 1-106 Norman Hall (http://campusmap.ufl.edu/?loc=0101) | 352.273.4376
• More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
Students in the Department of Special Education are uniquely positioned to learn from leaders in the field while simultaneously applying that learning in individually relevant professional settings.
The unified early childhood ProTeach program prepares students to teach at the preschool and pre-kindergarten level through third grade. The program unifies early childhood education and early childhood special education.

Students who successfully complete this five-year program will be recommended for certifications in both preschool education (birth - age 4) and pre-kindergarten/primary (age 3 - grade 3) with endorsements in pre-kindergarten disabilities and English for speakers of other languages (ESOL).

The professional choices for graduates include directing preschools and Head Start programs, teaching in the primary grades, and providing early intervention in home, community, and medical settings.

**Fifth-Year Requirement**

Students must complete the fifth year requirement as a graduate student earning a Master of Education or as a postbaccalaureate student.

Passing scores on appropriate portions of the Florida Teacher Certification Examination (FTCE) will be required before program completion.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=131202&track=01) may be used for transfer students.

**Semester 1**
- Complete coursework with minimum grades of C
- 21 ACT with writing or 1010 SAT Reading plus Math (minimum 440 reading & writing and 440 math)
- 2.0 UF GPA required

**Semester 2**
- Complete coursework with minimum grades of C
- Complete 1 of 3 critical-tracking courses: EDF 1005 or EDF 2085 or EME 2040
- 2.3 UF GPA required

**Semester 3**
- Complete coursework with minimum grades of C
- Complete 1 additional critical-tracking course
- 2.6 UF GPA required
Semester 4
- Complete coursework with minimum grades of C
- Complete all 3 critical-tracking courses with a 3.0 critical-tracking GPA
- 2.6 UF GPA required

Semester 5
- Document passing general knowledge test scores from the FTCE (see audit and/or advisor to determine which test to take)
- Complete all General Education requirements
- Complete the university writing requirement
- Students cannot register for courses in semesters 5-8 before ProTeach admission, which is competitive and available in fall semesters only. Students should meet with the admissions coordinator in G416 Norman Hall to complete an application in February.
- 3.0 upper-division GPA required
- 2.6 UF GPA required

Semester 6
- 3.0 upper-division GPA

Semester 7
- 3.0 upper-division GPA

Semester 8
- 3.0 upper-division GPA

Model Semester Plan

For electives, students are encouraged to choose courses that will strengthen their knowledge of the content areas of literature, social sciences, natural sciences, and mathematics.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Credits 15
Total Credits 120

Passing score on all subtests of the FTCE subject area exam in preschool education (birth-age 4) required for completion of the bachelor's degree.

Certification
During the fifth year, students complete a dual certification and dual endorsement track, 36-credit master's degree program or a 27-credit postbaccalaureate program.

Program completion confers recommendation for:
- Preschool Education (birth-age 4) Certification
- Pre-K/Primary (age 3-grade 3) Certification
- ESOL Endorsement
- Pre-K Disabilities Endorsement

Academic Learning Compact
This degree is the first step of a two-step process that prepares students for certification to teach Preschool Education (birth-age 4) in the state of Florida. The second step requires completion of the Master of Education degree in prekindergarten education (age 3-grade 3). The undergraduate program develops the foundation knowledge and skills for effective planning, teaching and evaluating young children's learning and development.
Before Graduating Students Must
• Pass the General Knowledge Test and the Preschool Education Subject Area Test of the Florida Teacher Certification Examination.
• Demonstrate mastery of effective teaching practices by meeting Florida Educator Accomplished Practices 1-6, as determined by multiple instructors across the program.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Demonstrate competency for children, birth to age 4, in child development, contemporary research in early childhood, cultural and linguistic diversity, strategies for engaging families, developmentally appropriate instructional practices, special services for children, screening and assessment, safety and mental and physical health.
2. Create, select and implement specific learning goals, appropriate teaching methods and instructional materials and evaluation strategies aligned with goals, using knowledge of children and developmentally appropriate practices.

Critical Thinking
3. Critically evaluate your own instructional effectiveness to plan future lessons and improve your teaching of all students over time.

Communication
4. Effectively communicate with students, including students whose home language is not standard English, as well as parents and other school personnel.

The professional education curriculum incorporates important topics in special education, classroom management, inclusive classroom settings, English for speakers of other languages (ESOL), reading and other related issues.

Graduates of the unified elementary/special education ProTeach program will be able to create and maintain supportive and productive classrooms for diverse student populations. These teachers also will be prepared to work collaboratively with school personnel, families, and members of the community to develop alternative ways to educate all students.

Fifth-Year Requirement
Students must complete the fifth year requirement as a graduate student earning a Master of Education or as a postbaccalaureate student.

Passing scores on appropriate portions of the Florida Teacher Certification Examination (FTCE) will be required before program completion.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=131001&track=01) may be used for transfer students.

Semester 1
- Complete coursework with minimum grades of C
- 21 ACT with writing or 1010 SAT Reading plus Math (minimum 440  reading & writing and 440 math)
- 2.0 UF GPA required

Semester 2
- Complete coursework with minimum grades of C
- Complete 1 of 3 critical-tracking courses: EDF 1005 or EDF 2085 or EME 2040
- 2.3 UF GPA required
Semester 3
• Complete coursework with minimum grades of C
• Complete 1 additional critical-tracking course
• 2.6 UF GPA required

Semester 4
• Complete coursework with minimum grades of C
• Complete all 3 critical-tracking courses with a 3.0 critical-tracking GPA
• 2.6 UF GPA required

Semester 5
• Document passing general knowledge test scores from the FTCE series (see audit and/or advisor to determine which test to take)
• Complete all General Education requirements
• Complete the university writing requirement
• Students cannot register for courses in semesters 5-8 before ProTeach admission, which is competitive and available in fall and spring semesters only. Students should meet with the admissions coordinator in G416 Norman Hall to complete an application in February for fall admission or in September for spring admission.
• 3.0 upper-division GPA required
• 2.6 UF GPA required

Semester 6
• 3.0 upper-division GPA

Semester 7
• 3.0 upper-division GPA

Semester 8
• 3.0 upper-division GPA

Model Semester Plan
For electives students are encouraged to choose courses that will strengthen their knowledge of the content areas of literature, social sciences, natural sciences, and mathematics.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

*Passing score on all subtests of the FTCE subject area exam in elementary education (K-6) required for completion of the bachelor's degree.*

## Certification Options

During the fifth year, students may select from two certification tracks:

### Dual-Certification Track

36-credit master's degree program or 30-credit postbaccalaureate program

- Confers recommendation for certifications in elementary (grades K-6) and exceptional student education (ESE K-12) with endorsements in ESOL and reading
Single-Certification Track
36-credit master’s degree program or 21-credit postbaccalaureate program

• Confers recommendation for certification in elementary (grades K-6) with endorsements in ESOL and reading

Academic Learning Compact
This degree is the first step of a two-step process that prepares students for certification to teach grades K - 6 in the state of Florida. The second step requires completion of the Master of Education degree in elementary education or special education. The undergraduate program develops the foundation knowledge and skills for effective planning, teaching and evaluating pupil learning.

Before Graduating Students Must
• Pass the General Knowledge Test and the Elementary Education Subject Area Test of the Florida Teacher Certification Examination.
• Demonstrate mastery of effective teaching practices by meeting Florida Educator Accomplished Practices 1-6, as determined by multiple instructors across the program.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Demonstrate subject matter competency for grades K - 6 in language arts, social science, mathematics, science, technology, physical education and health and the arts.
2. Create, select and implement: specific learning goals, appropriate teaching methods and instructional materials and evaluation strategies aligned with goals, using knowledge of subject matter, learners and classroom management.

Critical Thinking
3. Critically evaluate your own instructional effectiveness to plan future lessons and improve your teaching of all students over time.

Communication
4. Effectively communicate with students, including students whose home language is not standard English, as well as with parents and other school personnel.

About this Program

- **College:** Education (p. 672)
- **Credits:** 15 minimum | Completed with minimum grades of C
- **Contact:** Email (studenthelp@coe.ufl.edu) | 1-106 Norman Hall (http://campusmap.ufl.edu/?loc=0101) | 352.273.4376

The minor combines learning theories, technology, multimedia, and creativity to build a unique professional skill set aimed to empower teaching and learning in real-world situations. Students utilize advance technology and gain hands-on proficiency in creating interactive and engaging multimedia products that are in high demand. Beyond utilizing hardware and software, the minor provides students with solid pedagogical foundations, contemporary research, and proven practices for improving learning outcomes.

The minor welcomes undergraduate students who prefer a flexible online learning schedule and activities. All required courses are offered fully online.

At the completion of the minor, students will have created a Web portfolio showcasing their mastery in designing, developing and utilizing a variety of digital multimedia products and technology to enhance learning effectiveness.

**PREREQUISITES**

- Apply for the minor after earning 45 credits and before earning 100 credits.
- Minimum 2.0 GPA is required. All 3000 and 4000 level courses in the minor must be taken at UF.
- Obtain college approval on the application for minor (http://www.registrar.ufl.edu/pdf/minorapp.pdf) before submitting the form to 1-106 Norman Hall (http://campusmap.ufl.edu/?loc=0101).

Educational Technology Minor UF Online

The Educational Technology minor focuses on facilitating the educational process in technology-infused 21st century learning environments. This program is designed for future professionals who are seeking a career in educational institutions or industry, small and medium business or corporate settings. Possible employment opportunities include but are not limited to: media specialist, instructional designer, technology trainer, media or web developer or eLearning consultant.

### Florida Teaching Minor

The Florida Teaching minor is an alternative certification program, specifically a Professional Training Option (PTO) meant to prepare students for temporary teacher certification in Florida by completing the professional education coursework necessary for certification.

### About this Program

- **College**: Education (p. 672) offered jointly with Liberal Arts and Sciences (p. 978)
- **Credits**: 18 | Completed with minimum grades of C
- **Contact**: Email (studenthelp@coe.ufl.edu) | 1-106 Norman Hall (http://campusmap.ufl.edu/?loc=0101) | 352.273.4376
- **More Info**

### Related Programs

- Education Sciences
- Education Sciences UF Online
- Education | Unified Early Childhood Education ProTeach | Pre-K-Grade 3
- Education | Unified Elementary/Special Education ProTeach | Grades K-6
- UFTeach | Mathematics or Science Minor

The minor requires completion of coursework in the professional preparation areas of human development and learning, assessment, classroom management, instructional strategies, reading competency and curriculum and special methods. Students will have extensive opportunities to integrate their teacher education coursework with actual classroom experience.

The minor is open to undergraduates with a major other than mathematics, science or education. Students with majors in mathematics or science should refer to the UFTeach minor.

Admission to this minor requires a cumulative 2.5 GPA. Students must make written application for admission to the minor in 1-106 Norman Hall after 45 credits and before earning 100 credits. For additional information, students can speak with an advisor in the College of Education Student Services office in 1-106 Norman Hall or refer to the College of Education.

More Info (http://education.ufl.edu/student-services/)

Those pursuing the minor are encouraged to complete the Florida Teacher Certification Examination (FTCE) General Knowledge Test (recommended in sophomore/junior year), the FTCE Subject Area Exam (recommended early in senior year) and the FTCE Professional Education Test (recommended mid-senior year).

More Info (http://fl.nesinc.com/)

*FTCE tests are not required for award of the minor, but they are required for certification.*

### Reading Competency
UFTeach | Mathematics or Science Minor

The UFTeach (https://education.ufl.edu/uf-teach/) minor in mathematics or science is appropriate for students who wish to teach mathematics or science at the middle school and high school levels in Florida. This is an alternative certification program, specifically a Professional Training Option (PTO), meant to prepare math and science students for temporary teacher certification in Florida. Professional teacher certification is attainable after one year of successful teaching in a Florida public school.

Mathematics

UFTeach | Mathematics

The minor requires completion of coursework in the professional preparation areas of human development, learning, assessment, classroom management, instructional strategies, reading competency, curriculum and special methods. Students will have extensive opportunities to integrate their teacher education coursework with practice in formal and informal K-12 environments focusing on learning mathematics. This program includes field experiences in local schools. A level 2 background check (fingerprinting) by the School Board of Alachua County will be required before placement.

The minor is open to undergraduates with majors in mathematics, quantitative science or related fields. Admission to this minor requires a UF GPA of 2.5 or better. Students must apply for acceptance to the minor within the college of their major and the College of Education after 45 but before 100 credits are earned.

More Info (https://www.advising.ufl.edu/academicinfo/minors/)

Those pursuing the minor are encouraged to complete the Florida Teacher Certification Examination (FTCE) General Knowledge Test (recommended in the junior year), the FTCE Subject Area Exam (recommended early in the senior year) and the FTCE Professional Education Test (recommended mid-senior year).
FTCE tests are not required for award of the minor, but they are required for certification.

352.392.0944

Established
1910

Programs
A four-year undergraduate program and combination-degree program with joint award of bachelor’s and master’s degrees in 15 engineering specializations.

Degrees
Bachelor of Science, Master of Science, Master of Civil Engineering, Master of Engineering, Doctorate.

Academic Advising
First Year students receive academic advising and career coaching in the Center for Student Excellence. All first-year student complete a required First Year Engineering Advising (https://www.eng.ufl.edu/students/advising/) course designed to teach them how to navigate their academic planning, and successfully transition from high school to college. Students who successfully complete their first year are transitioned to departmental advising. All engineering students must contact an advisor before registering for classes each semester.

Scholarships
Scholarship awards are made each spring for the following academic year and are based on demonstrated need and scholastic performance. Applications are available in the fall semester and students are notified by Undergraduate Student Affairs.

Internships and Career Guidance
Professional development guidance is available from academic advisors, faculty, and the Career Connections Center. Visit the Career Connections Center in the J. Wayne Reitz Student Union.

College Mission
The Herbert Wertheim College of Engineering fosters and provides world-class programs in engineering education, research and service to enhance the economic and social well-being of the citizens of Florida, the nation and the world.

Graduates of the Herbert Wertheim College of Engineering at the University of Florida will exhibit the following in pursuit of their profession:

- Vision, as evidenced by an ability to use creative approaches to problem solving.
- Values, as evidenced by an understanding of the importance of employing strong professional ethics.
- Leadership, as evidenced by serving as:
• A team/project leader with solid project management and planning skills
• A mentor to less experienced staff
• A volunteer in the community
• Professional expertise, as evidenced by:
  • Making meaningful contributions to technical engineering problem solving as both an individual contributor and in team situations
  • Continuously enhancing both technical and non-technical skills
  • Applying professional expertise to increasingly complex problems/projects
  • Increasingly capable communications skills, both verbal and written
  • Knowledge about the interaction of financial, societal, legal or cultural influences with science and technology.

Accreditation
For information about a specific major, please refer to the departmental webpage, contact the undergraduate coordinator in the department, or visit the Center for Student Excellence in 204 Weil Hall.

Particle Engineering Research Center (PERC)
More Info (http://www.erc.ufl.edu/)

Information about the center’s research, education and technology transfer programs: 352.846.1194 or Email (erc@erc.ufl.edu).

Engineering Undergraduate Student Affairs
Engineering student services are provided through Engineering Undergraduate Student Affairs located in 312 and 204 Weil Hall (http://campusmap.ufl.edu/?loc=0024). Undergraduate Student Affairs is responsible on a college-wide basis for coordinating academic advising and developing and implementing other student support programs and services, including career/college life coaching, success workshops, study halls, tutoring and mentoring, retention efforts, and new student programs.

The division informs students of educational opportunities such as scholarships, tuition waivers, co-op and internship opportunities and available campus resources. The division also serves as liaison between the Herbert Wertheim College of Engineering and university-wide student services and facilities.

First Year Academic Advising and Career Coaching
First year engineering students receive individualized academic, career, and personal coaching from the Herbert Wertheim College of Engineering’s professional academic advisors and career coaches in our comprehensive First Year Advising program. One-on-one and small group sessions are offered to assist students in identifying majors, resources, and opportunities that will enhance their personal, professional, and academic goals. Engineering Peer Advisors are also available to answer questions, discuss student organizations and design teams, and provide mentoring to new students. The Engineering Center for Student Excellence is located in 204 Weil Hall (http://campusmap.ufl.edu/?loc=0024).

Multicultural and Diversity Programs
These programs provide focused support to under-represented groups in the engineering profession. Students receive the personal, academic, social and cultural support they need to achieve academic success.

Services include orientation to UF and the college, academic and career advice, leadership development, engineering success skill development, coaching, financial assistance and tutoring.

First Year College Transition Program
STEP-UP is a multifaceted bridge program designed to promote academic and personal success among entering engineering students throughout their first year (Summer B, fall and spring). This program combines faculty and peer mentoring with team-building, industry involvement and academic enhancement classes in engineering foundation courses. An engineering design component provides the opportunity to apply foundational concepts in problem-solving, team-building and interpersonal communications.

Pre-Collegiate K-12 Programs
The Herbert Wertheim College of Engineering supports the university’s land-grant mission through a wide range of programs that support student preparation in grades K-12. These include the Gator Engineering Outreach Program, SECME, Engineering GatorTrax and information programs for students and guidance counselors.

Information about these programs: Engineering Undergraduate Student Affairs, 212 Weil Hall (http://campusmap.ufl.edu/?loc=0024).

Academic Policies
Admission to the College
Preparation for Freshmen and Sophomores
The beginning engineering student should have a good understanding of the basic physical sciences, a demonstrated ability in mathematics and the competence to read rapidly with comprehension.

Minimum high school preparation should include the basics outlined below. Students who need additional foundation courses can complete appropriate math and chemistry courses before proceeding with the regular engineering curriculum.

Refer to freshman admission for complete information.

Physics 1
Calculus 1

General Education
Students must complete general education and prescribed foundation coursework in mathematics and the physical and biological sciences before pursuing junior/senior-level courses in the college. All courses used to satisfy general education requirements must be taken for a letter grade and a minimum grade of C is required. Requirements of the Accreditation Board for Engineering and Technology (ABET) in general education are satisfied by the university’s general education requirements.

Transfer from Florida State Colleges
Florida state college students who have completed the Associate of Arts degree and the required technical foundation courses in calculus, differential equations, chemistry and physics with calculus are eligible to apply for transfer directly into the Herbert Wertheim College of Engineering. Admission to the college is selective and is based on the total record. Students with excessive withdrawals from coursework may not be eligible.

In particular, transfer students must meet the following minimum requirements:

- Earn an Associate of Arts degree from a Florida public state college with a minimum GPA of 2.00.
- Satisfy the general education requirements of the state college and comply with the general education requirements of UF and the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology.
- Complete two sequential courses of foreign language in secondary school or 8-10 semester credits at the post-secondary level or document an equivalent level of proficiency.
- Satisfy critical-tracking criteria in accordance with specific program requirements and overall grade point average.
- Complete critical-tracking courses in calculus, differential equations, chemistry and physics with calculus with minimum grades of C in each course and a minimum GPA of 2.5 (as computed on the last of a maximum of two attempts allowed for each course, including withdrawals). Certain majors have higher minimum GPA requirements and may have additional critical tracking course requirements.

Upper Division Transfer from a Non-Florida State College
All students who transfer from four-year institutions must meet the general admission requirements of the university. In addition, students must meet the college's admission requirements to transfer directly into an engineering program. Students with 60 or more credits earned but less than 90 credits will be considered on a space-available basis.

Students with more than 90 credits earned and applying from a non-Florida state/public college are generally not considered for admission.

All students transferring to UF must complete a minimum of 60 credits of acceptable 3000/4000-level coursework at UF to receive a degree from this college.

Unless previous arrangements have been made for course certification by faculty of the Herbert Wertheim College of Engineering, only engineering courses taken in programs accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology will be considered for transfer to this college.

Postbaccalaureate Admission
A student who has received a baccalaureate degree who wants to meet specific requirements for admission to graduate school may be admitted as a postbaccalaureate student. Space is limited for postbaccalaureate study and only where space is available will admissions be made for postbaccalaureate studies.

Overseas Studies
HWCOE International Engineering Programs offers students the opportunity to participate in international experiences, through study, research, internship and service learning abroad. Students can study abroad for a semester and take major classes or participate in a summer program to gain research or internship experiences. There are more than 40 semester-long exchange programs in more than 20 countries that offer engineering classes in English to help students stay on track for their academic program. Credits earned in study abroad programs may count toward a major or minor and can satisfy general education, language and summer residency requirements.

Every engineering student has a unique academic plan and we work with the individual student to customize their international experience. For more information, go to https://www.eng.ufl.edu/international (https://www.eng.ufl.edu/international/) or talk to your academic advisor to find out more.

Academic Regulations
Credit for Special Work

- With department approval, a student can receive practical industry work experience under supervision. With a previously approved outline, a student can receive up to three college credits by submitting a satisfactory report and by passing an examination.
- Students can receive credit for research work by registering for EGN 4912. See your academic advisor for details.
- A student cannot apply more than eight credits of individual study, including high honors projects, co-op work experience, practical work experience and special problems or special topics, for credit toward a degree program.

Dean’s List (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#deanslisttext)

Drop Policy
Students are allowed two drops in the first 60 credits of UF coursework and two drops in upper division (60 or more credits completed at UF).

A student with an initial course load of 15 credits or more will be permitted an extra drop if the drop is completed by the end of the seventh week of class and if the total credits remaining are 12 or more.

Petitions to drop courses beyond the allotted number will be approved only when circumstances beyond the student’s control prevented the satisfactory completion of a course. All such petitions must be submitted to Engineering Undergraduate Student Affairs, along with a written recommendation from the student’s department advisor.
English Requirement
Each student in the college is required to complete ENC 1101 or ENC 1102. All students must also complete an appropriate course in professional communication with a minimum grade of C.

Any instructor in the college may require a student with a deficiency in English to complete additional coursework beyond the curriculum requirements for the degree, with approval of the department chair.

Flexible Learning
An enrolled engineering student will not be permitted to register for flexible learning courses unless the associate dean for student affairs and the registrar grant special permission. A student on probation must have permission of the associate dean to register for flexible learning courses when not enrolled in the college. A student who has been dismissed cannot take flexible learning courses for credit until the suspension is removed. A minimum grade of C is required for credit in a flexible learning course.

Grievance Procedures
The college supports the university’s Affirmative Action and Equal Opportunity program. Anyone who believes that they have been discriminated against should contact the associate dean for student affairs.

If a student feels that their performance in a course has not been evaluated accurately, the situation should be discussed with the instructor. If the disagreement is not resolved, the student can pursue the matter with the instructor’s department chair, the associate dean for student affairs and the university ombudsman.

Honors and Accelerated Courses
Honors and accelerated courses can be taken in place of their regular tracking counterparts. A prerequisite for any college course can be met by an honors or accelerated equivalent. Accelerated physics and honors chemistry courses are not restricted to students in the honors program, but honors calculus courses are controlled by the university honors program. Currently approved substitutions include:

- PHY 2060 instead of PHY 2048
- PHY 2061 instead of PHY 2049

Independent Study
Under certain circumstances, credit toward graduation may be obtained through independent study by registering for a course carrying a department prefix. A student cannot apply more than eight credits of independent study toward a degree program, including magna cum laude or summa cum laude honors projects, co-op work experience, practical work experience and special problems or special topics. Registration for one to four credits of variable credit in a semester requires department approval.

Probation Policy and Dismissal
An undergraduate student who is off-track or whose university, upper-division, or department grade point average falls below 2.00 will be placed on academic probation. The student will be allowed up two semesters to attain good academic standing and are expected to make satisfactory academic progress in probation semesters. Students may not be on academic probation for more than two semesters during their undergraduate program. A student who fails to meet the conditions of probation must petition their department to be allowed to continue in the major. Approval of this petition is at the discretion of the student’s department.

As a condition of probation, students must see an academic advisor at designated intervals to review progress toward meeting the conditions of probation. Failure to keep such appointments without valid reason will be considered a violation of probation and may result in dismissal from the program.

Students dismissed from the Herbert Wertheim College of Engineering should seek admission to another program.

Students should acquaint themselves with their department’s probation and exclusion procedures and guidelines.

ROTC
Engineering students can enroll in the advanced ROTC programs offered by the Army, Navy and Air Force. Graduates will be commissioned as second lieutenants or ensigns. Advanced courses in military science are not normally acceptable credit as technical or nontechnical electives toward an engineering degree.

S/U Grade Option
All courses taken at the university to satisfy engineering degree requirements, general education and writing requirements must be taken for letter grade, unless the course is offered only on a satisfactory/unsatisfactory (S/U) basis. Nontechnical electives in the junior and senior years can be taken S/U.

Physical education courses taken when an engineering student has reached junior status must be taken S/U.

Students should check with their departments to determine policy.

Student Responsibility
It is the student's responsibility to review and consider all pertinent information about the university and the college. Special attention must be paid to required documentation and deadlines.

Summer Attendance
Students who have completed a summer study abroad program, co-op, internship, research experience, or other engineering-related work can petition to waive this requirement once they have earned 75 credit hours. All petitions must be submitted to the university petitions committee with all appropriate documentation.

Transient Students
This category includes students who are admitted to the college who wish to pursue studies temporarily at another two- or four-year institution. Students who wish to transfer credits for coursework completed at other institutions must first obtain department and college approvals.

A transient student who is a degree-seeking candidate at another institution who wishes to transfer credit from the University of Florida must file a non-degree application with the Office of the University Registrar in Criser Hall.
Withdrawal from the University

Any undergraduate who withdraws from the university a second time will be placed on college probation automatically until graduation. Any student on college probation who withdraws from the university a third time may be, at the discretion of the associate dean for undergraduate student affairs, ineligible for further registration in the college.

Degree Requirements

The Herbert Wertheim College of Engineering confers a Bachelor of Science degree upon all students who have successfully completed a program of study and have fulfilled all requirements for a specific major in the college.

A thesis is not required for the baccalaureate degree. However, the department can grant permission to exceptional students to undertake a thesis in lieu of up to four semester credits of required or elective work in the student’s department.

Required Minimum Grade Point Averages

- 2.5 - 2.8 GPA is required in critical-tracking courses depending on major
- 2.0 GPA is required for all courses in the college
- 2.0 GPA is required in all courses in the department
- 2.0 GPA is required in all courses taken after being classified as an upper division student
- 2.0 cumulative GPA is required in all work attempted at the university

All grade point averages are based on a 4.0 scale. Critical tracking grade point averages are computed on the best of the maximum two attempts (including withdrawals) allowed for each course.

Technical Foundation Courses

Technical coursework is required of all students. This coursework also satisfies the mathematics and physical/biological science categories of the general education requirement. Generally, all technical coursework must be completed or be in final progress before a student can register for junior/senior-level engineering courses. Minimum grades of C are required in all critical tracking coursework based on a maximum of two attempts, including withdrawals.

Some departments may have higher requirements.

Critical-Tracking Criteria

The Herbert Wertheim College of Engineering has established tracking criteria for all programs. Applicants with specific questions can contact the department or Engineering Undergraduate Student Affairs.

Students must fulfill the performance criteria for their program’s tracking courses. Students who are off-track will be placed on probation. Students who fail to meet the conditions of their probation may not be allowed to continue in the Herbert Wertheim College of Engineering.

A minimum grade of C (based on a maximum of two attempts, including withdrawals) is required for each tracking course. Students may repeat a maximum of three critical tracking courses. Students must meet the minimum critical tracking GPA for their specific major to continue to the upper-division engineering program. Some departments require a grade higher than C in critical tracking courses. Students are expected to complete all critical tracking courses by the fifth tracking semester.

To be on track, students must meet or exceed these minimum performance criteria.

</tbody>
</table>

1. Calculus and chemistry placement will be determined by student scores on the online ALEKS assessment test, which is required for all engineering students.
2. Industrial and systems engineering majors: CHM 2045 is not required for tracking; however, it is required for graduation.
3. Aerospace engineering, civil engineering, computer engineering, computer science, digital arts and sciences, electrical engineering, industrial and systems engineering, mechanical engineering, and nuclear engineering either do not require CHM 2046/CHM 2096 or may substitute another course.
4. Additional critical tracking requirements for specific majors are listed in the major degree programs.

Progression to Graduation

The programs leading to bachelor’s degrees in engineering are carefully planned and organized sequences. The highly motivated student with proper high school preparation can complete these programs in four years, including at least one summer term, by scheduling an average of 15 credits each semester.
Usually, foundation subjects common to all fields of engineering are studied in the first two years at the university or in a pre-engineering program at a state or community college. Specialized study is taken in the junior and senior years within a department of the college, where the program is tailored to the student’s preparation, interests and career goals.

The specific requirements for each major are outlined. Students must consult their academic advisors each semester before registering for classes.

Graduating with Honors (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonortext)

## Programs

### MAJORS

- Aerospace Engineering
- Biological Engineering
- Biomedical Engineering
- Chemical Engineering
- Civil Engineering
- Combination Degrees
- Computer Engineering
- Computer Science | Herbert Wertheim College of Engineering
- Digital Arts and Sciences | Bachelor of Science
- Electrical Engineering
- Engineering | Exploring Engineering Studies
- Environmental Engineering
- Industrial and Systems Engineering
- Materials Science and Engineering
- Mechanical Engineering
- Nuclear and Radiological Sciences
- Nuclear Engineering

### MINORS

- Biomechanics Minor
- Biomolecular Engineering Minor
- Computer and Information Science and Engineering Minor
- Electrical Engineering Minor
- Engineering Innovation Minor
- Materials Science and Engineering Minor
- Nuclear and Radiological Engineering Minor
- Sales Engineering Minor

### CERTIFICATES

- Advanced Engineering Ceramics Certificate
- Biomaterials Certificate
- Engineering Innovation Certificate
- Engineering Leadership Certificate
- Engineering Project Management Certificate
- Metallurgical Engineering Certificate
- Nuclear Radiation and Reactor Analysis Certificate
- Nuclear Thermal Systems Analysis Certificate
- Packaging Engineering Certificate
- Polymer Science and Engineering Certificate
- Semiconductor Materials Certificate

### Computer-Related Degrees

The Herbert Wertheim College of Engineering has responsibility for teaching all computer courses included in computer-related degree programs at the University of Florida. These degrees are offered in the colleges of Business, Engineering, and Liberal Arts and Sciences.

### Computer Engineering Programs

Computer Engineering (CPE) is a joint program of the Computer and Information Science and Engineering (CISE) and the Electrical and Computer Engineering (ECE) departments. The Bachelor of Science in Computer Engineering (BSCPE) is offered by both departments and requires 126 credits for graduation.

This degree program produces a computer engineer who has the knowledge of hardware and software to build working computer systems from electronic components and to program them for a variety of tasks.

Students with interests in software systems and algorithms should pursue a major through the CISE department; students with interests in computer hardware or electrical engineering should pursue a major through the ECE department.

Refer to the CISE and ECE department sections for the BSCPE degree curriculum. For additional information on computer engineering degree options, please contact an academic advisor in either department or the dean’s office.

### Combination Degree Programs

Qualified students can pursue a bachelor's and a master's degree concurrently. These combination-degree programs are offered in all departments within the Herbert Wertheim College of Engineering. More Info (http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees/)

---

### Advanced Engineering Ceramics Certificate

The Advanced Engineering Ceramics certificate enables students to specialize in a concentration of modern approaches to the analysis of technical ceramic materials. It also helps students from other disciplines enhance their degree by including a dedicated knowledge of a specific material class.

### About this Program

- **College:** Herbert Wertheim College of Engineering (p. 736)
- **Credits:** 10 | Completed with minimum grades of C
Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information
The Department of Materials Science and Engineering strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting, and distance learning to promote engineering in the field.

Aerospace Engineering

Aerospace engineers are called upon to solve exciting problems of design, construction and operation of aircraft and spacecraft to meet the ever-increasing requirement for improved performance at lower unit cost. These challenges mean that aerospace engineers work at the continuously changing forefront of science, technology, and systems management.
About this Program

- **College**: Herbert Wertheim College of Engineering (p. 736)
- **Degree**: Bachelor of Science in Aerospace Engineering
- **Credits for Degree**: 128

To graduate with this major, students must complete all university, college, and major requirements.

**Department Information**

The Department of Mechanical and Aerospace Engineering (MAE) is the largest academic program on campus by student enrollment. The Mechanical Engineering program celebrated its 100 year anniversary in 2009 and is one of the founding departments of the Herbert Wertheim College of Engineering. More than a decade after the successful merger of the mechanical and aerospace programs, MAE remains a vibrant and intellectually diverse program at both the undergraduate and graduate level.

MECHANICAL & AEROSPACE ENGINEERING C
GAINESVILLE FL 32611-6250
Map (http://campusmap.ufl.edu/#/index/0183)

**Curriculum**

- Aerospace Engineering
- Biomechanics Minor
- Combination Degrees
- Mechanical Engineering

**Related Programs**

- Dual Degree in Mechanical Engineering and Aerospace Engineering

The undergraduate curriculum in aerospace engineering is a fully accredited baccalaureate program that provides a broad education with a strong foundation in mathematics, science and basic engineering sciences. Advanced courses in aeronautics and astronautics complete the degree. Graduates will be prepared to work in the aerospace and related industries or to pursue graduate study.

**Combination Bachelor’s/Master’s Degree Program**

The aerospace engineering professional often benefits from an advanced degree to meet the challenging needs of industry and government. Accordingly, the MAE department actively participates in the combination B.S./M.S. degree program that allows students to double-count graduate courses toward both degrees. The combination-degree program reduces the cost for both degrees and enhances the student's marketability for career advancement. Interested students should contact the Department of Mechanical and Aerospace Engineering or its website for more information.

**Department Requirements**

Minimum grades of C are required for EGM 2511, EGM 3401, EGM 3520, EGM 3344, and EML 3100. The minimum grade of C is considered part of the prerequisite requirement for courses that list EGM 2511, EGM 3401, EGM 3520, EGM 3344, or EML 3100 as a prerequisite. The prerequisite course and subsequent course cannot be taken in the same term, even if the prerequisite is being repeated.

An aerospace or mechanical engineering student whose cumulative, upper-division or department grade point average falls below a 2.0 or whose critical-tracking grades do not meet department requirements will be placed on academic probation and required to complete a probation contract with an MAE academic advisor. Students normally are allowed a maximum of two terms (consecutive or non-consecutive) on academic probation. Students who do not satisfy the conditions of the first term on probation may be dismissed from the department.

All graduating seniors must complete an exit interview.

**Dual-Degree Programs**

There is great overlap between the aerospace engineering and mechanical engineering curriculum. The first six semesters of the two degree programs are identical. Through proper selection of electives, students can earn dual mechanical engineering/aerospace engineering B.S. degrees with one semester of additional work. Interested students should contact the Department of Mechanical and Aerospace Engineering or its website for more information.
Educational Objectives
The objective of the aerospace engineering program at UF is to prepare students to attain the following goals within a few years of graduation:

- Graduates will meet the expectations of employers of aerospace engineers.
- Qualified graduates will pursue advanced study if they so desire.

Mission
The mission of the undergraduate program is to:

- serve the state of Florida, the United States and the engineering profession by providing quality educational programs in aerospace engineering;
- conduct a nationally recognized research program; and
- foster ongoing professional development of students and faculty.

Research Programs
The department’s active research programs are sponsored by private industry, the National Science Foundation, Department of Defense, NASA, National Institutes of Health and other agencies. These programs keep faculty at the leading edge of technology and provide opportunities for students to participate in research through classroom assignments, individual studies, undergraduate research scholarships and employment as research assistants.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=140201&track=01) may be used for transfer students.

Semester 1
- Complete 1 of 8 tracking courses with a minimum grade of C within two attempts:
  - CHM 2045 or CHM 2095, EML 2023, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2
- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3
- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
  - EGM 2511 with minimum grade of C
  - EAS 2011
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4
- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
  - EGM 3344 with minimum grade of C
  - EGM 3520 with minimum grade of C
  - EML 3100 with minimum grade of C
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5
- Complete all critical-tracking courses with minimum grades of C within two attempts
  - EGM 3401 with minimum grade of C
- EAS 4101
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**SEMESTER 6**
- Complete three of the remaining EAS 3XXX/4XXX required courses

**SEMESTER 7**
- Complete two of the remaining EAS 3XXX/4XXX required courses

**SEMESTER 8**
- Complete all remaining EAS 3XXX/4XXX required courses

### Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

science and basic engineering sciences. Advanced courses in aeronautics and astronautics complete the degree program and prepares students to work in aerospace industries or to pursue graduate study.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (https://urldefense.proofpoint.com/v2/url/?u=http-3A__www.abet.org&d=DwMGaQ&c=pZJPUDQ3SB9JphYbifm4nt2IEVG5pWx2KikqlNpWlZM&rs=BF73BYn6kEYD7Qfs6kPA&m=-KFG1JwscME70kGBMIRty2Iy4YuqEwzRran98WV1M&s=73PhSd8lhcnu3AXiyLsL37VMVoiB1R3Z0qAHJTCUThog&e=).

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation/).

Before Graduating Students Must

• Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
• Pass assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor according to department standards.
• Complete an exit interview in your final semester.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Apply knowledge of mathematics, science and engineering principles to aerospace engineering problems.
2. Design and conduct aerospace engineering experiments, analyzing and interpreting the data.

Critical Thinking
3. Design an aerospace engineering system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints.

Communication
4. Communicate technical data and design information effectively in writing and in speech to other aerospace engineers.

Biological Engineering

Biological Engineering (BE) applies engineering principles to protect natural resources and to produce food, biofuels, pharmaceuticals, and other biobased products. BE incorporates foundations of biology with engineering theory and practice to develop sustainable solutions to problems facing a broad range of industries.

About this Program

• **College:** Herbert Wertheim College of Engineering (p. 736)
• **Degree:** Bachelor of Science in Biological Engineering
• **Specializations:** Agricultural Production Engineering (p. 750) | Biosystems Engineering (p. 754) | Land and Water Resources Engineering (p. 759) | Packaging Engineering (p. 764)
• **Credits for Degree:** 128

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Agricultural and Biological Engineering is founded on developing, teaching, and applying engineering principles to improve and sustain agricultural and biological systems for current and future generations.

Map (http://campusmap.ufl.edu/#/index/0474)

Curriculum

• Agricultural Operations Management
• Biological Engineering
• Combination Degrees
• Packaging Engineering Certificate
• Packaging Science Minor
• Precision Agriculture Minor

Biological engineers pioneer new designs and techniques in such areas as agricultural robotics, remote sensing, bioprocessing, biofuels, precision agriculture, plant space biology, sustainability of our natural resources, and packaging product design and development.

Graduates are educated in the biological and environmental sciences as well as in engineering. They will address critical problems involving land and water resources, biological systems, production agriculture and innovations in packaging. Students can choose a focus area based on their courses of specialization and individual selection of electives. Areas of specialization are biosystems engineering, land and water resources engineering, packaging engineering, and agricultural production engineering.

In addition to abundant job opportunities in Florida's agricultural industry, graduates have career opportunities in biotechnology and in fields related to Florida's water quality and water resources, including water management districts, environmental companies, consulting firms, equipment manufacturers, bio-energy, food engineering and the packaging industry.
The BE curriculum can also fulfill requirements for admission to professional programs as well as to graduate programs including biomedical engineering, civil engineering and mechanical engineering.

**Educational Objectives**

Graduates from the University of Florida's undergraduate degree program in biological engineering will be prepared for at least one of the following:

- Successful careers in the profession of biological engineering or other related fields.
- Gaining admission to a graduate and/or professional degree program.

**Goals**

To develop biological engineering professionals with technical proficiency and societal responsibility.

**Mission**

The department will develop professionals, create and disseminate knowledge, and promote the application of engineering and management principles to meet societal needs with respect to agriculture, packaging, land and water resources, and biological systems.

**Academic Learning Compact**

The curriculum emphasizes engineering solutions to problems associated with biological and agricultural systems that often are related to renewable natural resources. Students gain knowledge through formal courses, laboratory experimentation and individual experience. Students will learn to utilize math, science and engineering principles to analyze and interpret data, to design and conduct experiments, systems and components and to effectively communicate results within an appropriate presentation style.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (https://urldefense.proofpoint.com/v2/url/?u=http-3A__www.abet.org&d=DwMGaQ&c=pZJPUDQ3SB9JwYbfm4nt2IEVG5pWx2rkbq1NpWIZM&r=-Bf73BYn6kEY-D7Qfs6kPA&m=-KF2GJwXcME70KGBMR1TY24YuqEwzRan98wV1M&s=73PhSd8hcwKu3AXlyLsL37MvOlB1R3Z0qAHJTCUThog&e=).

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=144501&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 8 tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, CHM 2046 or CHM 2096, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required
### Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Biosystems Engineering

utilize math, science and engineering principles to analyze and interpret data, to design and conduct experiments, systems and components and to effectively communicate results within an appropriate presentation style.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (https://urldefense.proofpoint.com/v2/url/?u=http-3A__www.abet.org&d=DwMGaQ&c=pZJPUDQ3SB9JpJYbfm4nt2lEV05pWx2KikqINpWIZM&rs=-BF738Ym6kLEY-D7Qfs6kPA&m=-KF2G1JwsvsME7okGMBIYfYy2i4YqEwzRran98WV1M8s-73PhSd8hcuNu3AXlyLsL37MvolB1R3Z0qAHJTCUThog&e=).

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation/).

Before Graduating Students Must

• Pass assessment by two or more faculty and/or industry practitioners of student performance on a major design experience.
• Pass assessment in two courses of individual assignments targeted to each learning outcome.
• Complete an exit interview in your final semester.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Apply knowledge of mathematics, science and engineering principles to biological engineering problems. Students will be able to apply fundamental concepts, skills and processes in biological engineering.
2. Design and conduct biological and/or agricultural engineering experiments, analyzing and interpreting the data in biological engineering.

Critical Thinking
3. Design a biological and/or agricultural system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints in biological engineering.

Communication
4. Communicate technical data and design information effectively in writing and in speech to other engineers in biological engineering.

Biosystems Engineering

Biological Engineering (BE) applies engineering principles to protect natural resources and to produce food, biofuels, pharmaceuticals, and other biobased products. BE incorporates foundations of biology with engineering theory and practice to develop sustainable solutions to problems facing a broad range of industries.

About this Program

• College: Herbert Wertheim College of Engineering (p. 736)
• Degree: Bachelor of Science in Biological Engineering
• Specializations: Agricultural Production Engineering (p. 750) | Biosystems Engineering (p. 754) | Land and Water Resources Engineering (p. 759) | Packaging Engineering (p. 764)
• Credits for Degree: 128
• More Info
To graduate with this major, students must complete all university, college, and major requirements.

**Department Information**

The Department of Agricultural and Biological Engineering is founded on developing, teaching, and applying engineering principles to improve and sustain agricultural and biological systems for current and future generations.

**Curriculum**

- Agricultural Operations Management
- Biological Engineering
- Combination Degrees
- Packaging Engineering Certificate
- Packaging Science Minor
- Precision Agriculture Minor

Biological engineers pioneer new designs and techniques in such areas as agricultural robotics, remote sensing, bioprocessing, biofuels, precision agriculture, plant space biology, sustainability of our natural resources, and packaging product design and development.

Graduates are educated in the biological and environmental sciences as well as in engineering. They will address critical problems involving land and water resources, biological systems, production agriculture and innovations in packaging. Students can choose a focus area based on their courses of specialization and individual selection of electives. Areas of specialization are biosystems engineering, land and water resources engineering, packaging engineering, and agricultural production engineering.

In addition to abundant job opportunities in Florida's agricultural industry, graduates have career opportunities in biotechnology and in fields related to Florida's water quality and water resources, including water management districts, environmental companies, consulting firms, equipment manufacturers, bio-energy, food engineering and the packaging industry.

The BE curriculum can also fulfill requirements for admission to professional programs as well as to graduate programs including biomedical engineering, civil engineering and mechanical engineering.

**Educational Objectives**

Graduates from the University of Florida's undergraduate degree program in biological engineering will be prepared for at least one of the following:

- Successful careers in the profession of biological engineering or other related fields.
- Gaining admission to a graduate and/or professional degree program.

**Goals**

To develop biological engineering professionals with technical proficiency and societal responsibility.

**Mission**

The department will develop professionals, create and disseminate knowledge, and promote the application of engineering and management principles to meet societal needs with respect to agriculture, packaging, land and water resources, and biological systems.

### Critical Tracking

Courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=144501&track=01) may be used for transfer students.

### Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

- **Specializations:** Agricultural Production Engineering (p. 750) | Biosystems Engineering (p. 754) | Land and Water Resources Engineering (p. 759) | Packaging Engineering (p. 764)
- **Credits for Degree:** 128
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Agricultural and Biological Engineering is founded on developing, teaching, and applying engineering principles to improve and sustain agricultural and biological systems for current and future generations.

Curriculum

- Agricultural Operations Management
- Biological Engineering
- Combination Degrees
- Packaging Engineering Certificate
- Packaging Science Minor
- Precision Agriculture Minor

Biological engineers pioneer new designs and techniques in such areas as agricultural robotics, remote sensing, bioprocessing, biofuels, precision agriculture, plant space biology, sustainability of our natural resources, and packaging product design and development.

Graduates are educated in the biological and environmental sciences as well as in engineering. They will address critical problems involving land and water resources, biological systems, production agriculture and innovations in packaging. Students can choose a focus area based on their courses of specialization and individual selection of electives. Areas of specialization are biosystems engineering, land and water resources engineering, packaging engineering, and agricultural production engineering.

In addition to abundant job opportunities in Florida's agricultural industry, graduates have career opportunities in biotechnology and in fields related to Florida's water quality and water resources, including water management districts, environmental companies, consulting firms, equipment manufacturers, bio-energy, food engineering and the packaging industry.

The BE curriculum can also fulfill requirements for admission to professional programs as well as to graduate programs including biomedical engineering, civil engineering and mechanical engineering.

Educational Objectives

Graduates from the University of Florida's undergraduate degree program in biological engineering will be prepared for at least one of the following:

- Successful careers in the profession of biological engineering or other related fields.
- Gaining admission to a graduate and/or professional degree program.

Goals

To develop biological engineering professionals with technical proficiency and societal responsibility.

Mission

The department will develop professionals, create and disseminate knowledge, and promote the application of engineering and management principles to meet societal needs with respect to agriculture, packaging, land and water resources, and biological systems.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=144501&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 8 tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, CHM 2046 or CHM 2096, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
• 2.5 GPA on all critical-tracking courses
• 2.0 UF GPA required

**Semester 2**
• Complete 1 additional tracking course with a minimum grade of C within two attempts
• 2.5 GPA on all critical-tracking courses
• 2.0 UF GPA required

**Semester 3**
• Complete 2 additional tracking courses with minimum grades of C within two attempts
• 2.5 GPA on all critical-tracking courses
• 2.0 UF GPA required

**Semester 4**
• Complete 2 additional tracking courses with minimum grades of C within two attempts
• 2.5 GPA on all critical-tracking courses
• 2.0 UF GPA required

**Semester 5**
• Complete all 8 critical-tracking courses with minimum grades of C in each course within two attempts
• Complete EGM 3520
• 2.5 GPA on all critical-tracking courses
• 2.0 UF GPA required

**Semester 6**
• Complete ENC 3246

**Semester 7**
• Complete ABE 3000C

**Semester 8**
• Complete ABE 4042C

**Semester 9**
• Complete ABE 4043C

---

**Model Semester Plan**

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

### Academic Learning Compact

The curriculum emphasizes engineering solutions to problems associated with biological and agricultural systems that often are related to renewable natural resources. Students gain knowledge through formal courses, laboratory experimentation and individual experience. Students will learn to utilize math, science and engineering principles to analyze and interpret data, to design and conduct experiments, systems and components and to effectively communicate results within an appropriate presentation style.

Accredited by the Engineering Accreditation Commission of ABET, [http://www.abet.org](http://www.abet.org) ([https://urldefense.proofpoint.com/v2/url/?u=http-3A__www.abet.org&d=DwMGaQ&c=pZJPUDQ3SB9JpYbiWm4nt2IEVG5pWx2KikqI NPw2ZM&r=-Bf738Yn6kEY-D7Qfs6kPA&m=KF2G1JwsXcMe70kGBMlRYTy2i4YuyqEwzRan98WV1M&s=73PhSd8hcuNu3AXIyLsL37Mv0B1R3Z0qAHJTCUThog&e=]).

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website ([https://www.eng.ufl.edu/academics/degree-programs/accreditation/](https://www.eng.ufl.edu/academics/degree-programs/accreditation/)).

### Before Graduating Students Must

- Pass assessment by two or more faculty and/or industry practitioners of student performance on a major design experience.
- Pass assessment in two courses of individual assignments targeted to each learning outcome.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Apply knowledge of mathematics, science and engineering principles to biological engineering problems. Students will be able to apply fundamental concepts, skills and processes in biological engineering.

2. Design and conduct biological and/or agricultural engineering experiments, analyzing and interpreting the data in biological engineering.

**Critical Thinking**

3. Design a biological and/or agricultural system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints in biological engineering.

**Communication**

4. Communicate technical data and design information effectively in writing and in speech to other engineers in biological engineering.

Packaging Engineering

Biological Engineering (BE) applies engineering principles to protect natural resources and to produce food, biofuels, pharmaceuticals, and other biobased products. BE incorporates foundations of biology with engineering theory and practice to develop sustainable solutions to problems facing a broad range of industries.

About this Program

- **College**: Herbert Wertheim College of Engineering (p. 736)
- **Degree**: Bachelor of Science in Biological Engineering
- **Specializations**: Agricultural Production Engineering (p. 750) | Biosystems Engineering (p. 754) | Land and Water Resources Engineering (p. 759) | Packaging Engineering (p. 764)
- **Credits for Degree**: 128
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Agricultural and Biological Engineering is founded on developing, teaching, and applying engineering principles to improve and sustain agricultural and biological systems for current and future generations.

Curriculum

- Agricultural Operations Management
- Biological Engineering
- Combination Degrees
- Packaging Engineering Certificate
- Packaging Science Minor
- Precision Agriculture Minor

Biological engineers pioneer new designs and techniques in such areas as agricultural robotics, remote sensing, bioprocessing, biofuels, precision agriculture, plant space biology, sustainability of our natural resources, and packaging product design and development.

Graduates are educated in the biological and environmental sciences as well as in engineering. They will address critical problems involving land and water resources, biological systems, production agriculture and innovations in packaging. Students can choose a focus area based on their courses of specialization and individual selection of electives. Areas of specialization are biosystems engineering, land and water resources engineering, packaging engineering, and agricultural production engineering.

In addition to abundant job opportunities in Florida’s agricultural industry, graduates have career opportunities in biotechnology and in fields related to Florida's water quality and water resources, including water management districts, environmental companies, consulting firms, equipment manufacturers, bio-energy, food engineering and the packaging industry.

The BE curriculum can also fulfill requirements for admission to professional programs as well as to graduate programs including biomedical engineering, civil engineering and mechanical engineering.

Educational Objectives

Graduates from the University of Florida’s undergraduate degree program in biological engineering will be prepared for at least one of the following:

- Successful careers in the profession of biological engineering or other related fields.
- Gaining admission to a graduate and/or professional degree program.
Goals
To develop biological engineering professionals with technical proficiency and societal responsibility.

Mission
The department will develop professionals, create and disseminate knowledge, and promote the application of engineering and management principles to meet societal needs with respect to agriculture, packaging, land and water resources, and biological systems.

Academic Learning Compact

The curriculum emphasizes engineering solutions to problems associated with biological and agricultural systems that often are related to renewable natural resources. Students gain knowledge through formal courses, laboratory experimentation and individual experience. Students will learn to utilize math, science and engineering principles to analyze and interpret data, to design and conduct experiments, systems and components and to effectively communicate results within an appropriate presentation style.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (https://urldefense.proofpoint.com/v2/url/?u=http-3A__www.abet.org&d=DwMGaQ&c=pZJPUDQ3SB9Jpjylbfm4nt2IEVG5pWz2KlqlNpWizM&rf=-BF738Yn6kEY-D7Qfs6kPA&m=-KF2GJwxsCE70kB6MRY2y2I4YuqEwzRan98WV1M&s=73PdS8hcuNu3AXIyLs3L7MVoiB1R3Z0qAHJTCUThog&e=).

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation/).

Before Graduating Students Must
• Pass assessment by two or more faculty and/or industry practitioners of student performance on a major design experience.
• Pass assessment in two courses of individual assignments targeted to each learning outcome.
• Complete an exit interview in your final semester.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Apply knowledge of mathematics, science and engineering principles to biological engineering problems. Students will be able to apply fundamental concepts, skills and processes in biological engineering.
2. Design and conduct biological and/or agricultural engineering experiments, analyzing and interpreting the data in biological engineering.

Critical Thinking
3. Design a biological and/or agricultural system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints in biological engineering.

Communication
4. Communicate technical data and design information effectively in writing and in speech to other engineers in biological engineering.

Biomaterials Certificate

The Biomaterials certificate emphasizes biomedical materials and provides a foundation in the areas of biocompatibility, the biological performance of materials, and material design, and selection for medical applications.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 736)
- **Credits:** 10 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

The Department of Materials Science and Engineering strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting, and distance learning to promote engineering in the field.

Biomechanics Minor

Biomechanics, a subfield of biomedical engineering, blends the life sciences with the traditional engineering disciplines of dynamics, solid mechanics and fluid mechanics. The Department of Mechanical and Aerospace Engineering administers this minor.

About this Program

- **College**: Herbert Wertheim College of Engineering (p. 736)
- **Credits**: 16

Department Information

The Department of Materials Science and Engineering strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting, and distance learning to promote engineering in the field.

### Biomedical Engineering

The Biomedical Engineering (BME) field has grown rapidly in the last 20 years. This growth was fueled by breakthroughs in molecular biology and many engineering technologies, symbolized by the Human Genome Project, arguably the greatest biomedical engineering accomplishment ever, and realized with creation of the National Institute of Biomedical Imaging and Bioengineering. BME now is clearly recognized as an integral part of the nation's and the world's efforts to deliver more effective and efficient medical care.

### About this Program

- **College:** Herbert Wertheim College of Engineering (p. 736)
- **Degree:** Bachelor of Science in Biomedical Engineering
- **Credits for Degree:** 131
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

### Department Information

The J. Crayton Pruitt Family Department of Biomedical Engineering (BME) is part of the Herbert Wertheim College of Engineering and is a prime resource for biomedical engineering education, training, research, and technology development. BME is an ever-evolving field that uses and applies engineering principles to the study of biology and medicine in order to improve health care.

**Curriculum**

- Biomedical Engineering
- Combination Degrees
A biomedical engineer uses traditional engineering expertise to analyze and solve problems in biology and medicine, providing an overall enhancement of health care. Students choose biomedical engineering to serve people, to work with living systems and to apply advanced technology to the complex problems of medical care. The biomedical engineer is called upon to design instruments, devices and software, to bring together knowledge from many technical sources to develop new procedures and to conduct the research needed to solve clinical problems.

Bioengineering integrates sciences and engineering for the study of biology, medicine, behavior or health. It advances fundamental concepts, creates knowledge for the molecular to the organ systems levels, and develops innovative biologics, materials, processes, implants and devices. Biomedical engineers create informatics approaches to prevent, diagnose and treat disease, applying systematic, quantitative and integrative thinking and solutions to problems important to biology, medical research and population studies.

BME typically is among the three most popular engineering majors and very often is the largest. The job market in biomedical engineering is the fastest growing of all engineering disciplines. It has become clear that the nation needs a variety of engineers with knowledge of biomedicine, including a cadre of exceptional people whose education thoroughly immerses them in engineering and biomedicine. The intellectual foundation of this limited-access undergraduate program is captured in this vision: Biomedicine comprises the science core while engineering provides the framework for inquiry. The curriculum incorporates exceptional rigor in both.

Educational Objectives
The program educational objectives of the J. Crayton Pruitt Family Department of Biomedical Engineering at the University of Florida are that:

1. Graduates will excel in top graduate programs of professional schools and will have successful careers in a multi-disciplinary, global industry.
2. Graduates will be active leaders in their profession, creating innovative, ethical and socially beneficial solutions to human health problems.

Department Vision Statement
The faculty, students, and alumni of the J. Crayton Pruitt Family Department of Biomedical Engineering will lead in the discovery and development of innovative biomedical solutions to improve healthcare in the State of Florida and worldwide. To achieve this vision, the department will leverage the unique co-localization of talent and resources in engineering, biology, medicine, veterinary science, dentistry, and technology commercialization at the University of Florida, thereby maximizing opportunities for interdisciplinary student education and clinical translation of technologies to improve human health.

Department Mission
The J. Crayton Pruitt Family Department of Biomedical Engineering at the University of Florida is dedicated to developing innovative and clinically translatable biomedical technologies, educating future generations of biomedical engineers, and cultivating leaders, by nurturing the integration of engineering, science, and healthcare in a collaborative and dynamic educational and research environment.

Admission Requirements
The biomedical engineering undergraduate major is a limited enrollment program. Students who enter the University of Florida as freshmen identify pre-BME as their major of choice and begin enrolling in the required critical tracking courses to prepare for upper division.

During the fall semester of sophomore year (semester 3), pre-BME majors apply for admission to the upper division major, which begins in the spring semester of sophomore year (semester 4).

Current UF students must meet the following minimum requirements to be considered for admission to the upper division program.

- Minimum 3.0 grade point average in critical tracking courses (best attempt)*
- No more than two attempts allowed for each critical tracking course (withdrawals included)
- Minimum grade of C in each critical tracking course
- Completion of the first three semesters of the Model Plan of Study by Fall semester of application
- BME Departmental online application

*Only the best attempt in each critical tracking course is considered for admission to the upper division program.

All application requirements and details are available on the department website.
More Info (http://bme.ufl.edu/academics/undergraduate/admissions/)

Department Requirements
Minimum grades of C are required for BME 3508, BME 3053C, CHM 3217, COP 2271, COP 2271L, EEL 3003, and ENC 3246. The minimum C grade is part of the prerequisite requirement for several 3000/4000-level BME courses. The prerequisite course and subsequent course cannot be taken in the same term, even if the prerequisite is being repeated.
All BME Electives must be selected from an approved list. Students may petition to take courses not included in the approved list toward this requirement. The BME Electives allow students to explore topic areas within their interests and are designed to build upon biomedical engineering foundation courses and laboratories.

A biomedical engineering student whose cumulative, upper-division or department grade point average falls below a 2.0 or whose critical tracking grades do not meet department requirements will be placed on academic probation and be required to complete a probation contract with a BME academic advisor. Students normally are allowed a maximum of two terms (consecutive or non-consecutive) on academic probation. Students who do not satisfy the conditions of the first term of probation may be dismissed from the department.

All graduating seniors must complete an exit interview with their advisor before graduating.

### Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=140501&track=01) may be used for transfer students.

#### Semester 1
- Complete 3 of 11 critical-tracking courses with minimum grades of C within two attempts: BSC 2010; CHM 2045 or CHM 2095; CHM 2046 or CHM 2096; MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048; PHY 2049; BME 3060 and PCB 3713C
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 2
- Complete 3 additional critical-tracking courses with minimum grades of C within two attempts
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 3
- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 4
- Complete all critical-tracking courses with minimum grades of C within two attempts
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 5
- Complete 4 of the remaining critical-tracking courses
- 2.0 UF GPA required

#### Semester 6
- Complete 3 of the remaining critical-tracking courses
- 2.0 UF GPA required

#### Semester 7
- Complete 3 of the remaining critical-tracking courses
- 2.0 UF GPA required

#### Semester 8
- Complete all remaining Biomedical Engineering critical-tracking courses
- 2.0 UF GPA required
# Biomedical Engineering

## Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

This program is limited access and competitive. Students cannot register for courses in semesters 5-8 before they have been admitted to the biomedical engineering major.

**Credits**

| Semester Seven | 18 |
| Semester Eight  | 18 |

**Total Credits**: 131

1. Can substitute CHM 2210 and CHM 2211.
2. BME Electives: A total of 15 credits of 3000/4000-level courses (9 credits of engineering electives and 6 credits technical electives, both of which must be selected from an approved list).
3. Courses should cover 12,000 words.
4. Course and corresponding laboratory to be completed in same language (Matlab or C++).

Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements. This is often done concurrently with another general education requirement (typically, GE-C, H or S).

**Academic Learning Compact**

Biomedical engineering blends traditional engineering techniques with biological sciences and medicine to improve the quality of human health and life. The discipline focuses on understanding complex living systems via experimental and analytical techniques and on development of devices, methods and algorithms that advance medical and biological knowledge while improving the effectiveness and delivery of clinical medicine.

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website ([https://eng.ufl.edu/academics/degree-programs/accreditation/](https://eng.ufl.edu/academics/degree-programs/accreditation/)).

**Before Graduating Students Must**

- Pass assessment by two or more faculty and/or industry practitioners of student performance on a major design experience.
- Pass assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete an exit interview in the final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Solve biomedical engineering problems by applying knowledge of mathematics, science and engineering principles.
2. Design and conduct biomedical engineering experiments and analyzing and interpreting the data.

**Critical Thinking**

3. Design a biomedical device, component, technology or process to meet identified clinical needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and regulatory constraints.
Communication
4. Communicate technical data and design information effectively in speech and in writing to other biomedical engineers.

Biomolecular Engineering Minor
This minor is for engineering and science students who desire knowledge of diverse biomedical and biotechnological applications encompassing biomolecular function, interactions and transport.

About this Program
• College: Herbert Wertheim College of Engineering (p. 736)
• Credits: 15-16 | Completed with minimum grades of C

Department Information
The work of the Department of Chemical Engineering is not restricted to the chemical industry, chemical changes or chemistry. Instead, modern chemical engineers are concerned with all the physical, chemical, and biological changes of matter that can produce an economic product or result that is useful to mankind.

Curriculum
• Biomolecular Engineering Minor
• Chemical Engineering
• Combination Degrees

Prerequisites
To apply for the minor, students must have completed these eight engineering preprofessional courses with a 2.5 GPA and no course grade lower than C.

**Chemical Engineering**

Although Chemical Engineering has existed for only 100 years, its name is no longer completely descriptive of this dynamic profession. The work of the chemical engineer is not restricted to the chemical industry, chemical changes, or chemistry. Instead, modern chemical engineers are concerned with all the physical, chemical, and biological changes of matter that can produce an economic product or result that is useful to mankind.

**About this Program**

- **College**: Herbert Wertheim College of Engineering (p. 736)
- **Degree**: Bachelor of Science in Chemical Engineering
- **Credits for Degree**: 131

*To graduate with this major, students must complete all university, college, and major requirements.*

**Department Information**

The work of the Department of Chemical Engineering is not restricted to the chemical industry, chemical changes or chemistry. Instead, modern chemical engineers are concerned with all the physical, chemical, and biological changes of matter that can produce an economic product or result that is useful to mankind.

GAINESVILLE FL 32611-2030
Map (http://campusmap.ufl.edu/#/index/0958)

**Curriculum**

- Biomolecular Engineering Minor
- Chemical Engineering
- Combination Degrees

The education of the chemical engineer is based on the fundamental sciences of physics, chemistry and biology, on mathematical and computer techniques, and on basic engineering principles. This background makes the chemical engineer extremely versatile and capable of working in a variety
of industries: chemical, biochemical, petroleum, materials, microelectronics, environmental, food processing, consumer products, consulting and project management. It is also good preparation for law and medical schools.

**Department Requirements**

Successful applicants must have earned a minimum 2.5 grade point average in the better of two attempts of the eight preprofessional courses and have earned a minimum grade point average in the better of two attempts of 2.5 in the preprofessional calculus course sequence.

For the purposes of determining admission to or retention in the department, grade point averages will be based on no more than two attempts for each course. Students must maintain satisfactory progress (minimum GPA of 2.0) in chemical engineering courses and in their overall record.

To proceed to succeeding courses, minimum grades of C are required in the following within two enrollments (including drops and/or withdrawals) for each course:

<table>
<thead>
<tr>

**Educational Objectives**

Within a few years of obtaining a bachelor’s degree in chemical engineering from the University of Florida, the recent graduate will achieve one or more of the following:

- Graduates will demonstrate professional engineering competence via promotions and/or positions of increasing responsibility.
- Graduates will be successful in pursuing advanced degrees in chemical engineering or in other disciplines.
- Graduates will be able to work in diverse professional environments as demonstrated in their pursuit of continuing education, professional certification-registration and/or career path into business, government, education, etc.

The chemical industry alone provides an opportunity for the chemical engineer to participate in the research, development, design or operation of plants for the production of new synthetic fibers, plastics, chemical fertilizers, vitamins, antibiotics, rocket fuels, nuclear fuels, paper pulp, photographic products, paints, fuel cells, semiconductors and the thousands of chemicals that are used as intermediates in the manufacture of these products.

**Goal**

To prepare students for lifelong careers in chemical engineering.

**Mission**

To offer high-quality undergraduate and graduate degree programs in chemical engineering and to conduct research that helps educate graduate students and serves the needs of Florida and the nation.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=140701&track=01) may be used for transfer students.
**Semester 1**
- 2.5 GPA in MAC 2311, MAC 2312 and MAC 2313 sequence based on the best of two attempts
- Complete 1 of 8 critical-tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, CHM 2046 or CHM 2096, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses based on the best of two attempts
- 2.0 UF GPA required

**Semester 2**
- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses based on the best of two attempts
- 2.5 GPA in MAC 2311, MAC 2312 and MAC 2313 sequence based on the best of two attempts
- 2.0 UF GPA required

**Semester 3**
- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses based on the best of two attempts
- 2.5 GPA in MAC 2311, MAC 2312 and MAC 2313 sequence based on the best of two attempts
- 2.0 UF GPA required

**Semester 4**
- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA in MAC 2311, MAC 2312 and MAC 2313 sequence based on the best of two attempts
- 2.5 GPA required for all critical-tracking courses based on the best of two attempts
- 2.0 UF GPA required

**Semester 5**
- Complete all 8 critical-tracking courses with minimum grades of C in each course within two attempts and a 2.5 GPA on all critical-tracking courses based on the best of two attempts.
- 2.5 GPA in MAC 2311, MAC 2312 and MAC 2313 sequence based on the best of two attempts
- 2.5 GPA required for all critical-tracking courses based on the best of two attempts
- 2.0 UF GPA required

**Semester 6**
- Complete 1 of 4 upper division critical-tracking courses with a minimum grade of C: ENC 3246, ECH 4224L, ECH 4404L, ECH 4714
- 2.0 CHE GPA required
- 2.0 UF GPA required

**Semester 7**
- Complete 2 additional upper division critical-tracking courses with a minimum grade of C
- 2.0 CHE GPA required
- 2.0 UF GPA required

**Semester 8**
- Complete 1 additional upper division critical-tracking course with a minimum grade of C
- 2.0 CHE GPA required
- 2.0 UF GPA required

**Model Semester Plan**
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

Technical elective  3

Credits  17

Total Credits  131

1 Minimum grade of C required.
2 Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements. This is often done concurrently with another general education requirement (typically, GE-C, H or S).
3 Register for ECH 4224L immediately following completion of ECH 3101, ECH 3203 and ECH 3223.
4 The Integrated Product and Process Design program (ECH 4912 and ECH 4913) requires six credits of coursework and is offered as a sequence of two three-credit courses during fall and spring of the senior year. These two courses are pre-approved substitutes for three credits of technical electives and for ECH 4644.
5 If the Physical Chemistry Topics 3 credit requirement is satisfied by a 4 credit class, the additional credit satisfies 1 credit of the Technical elective requirement.

Most students will have credit for research or industry experiential education during the previous summer.

Technical Electives

Technical electives are defined as department-approved, upper-division courses with significant technical science, engineering, and/or math content. Provision is made to receive up to five credits of approved co-op, internship and/or research experience with no more than three credits coming from industry work and no more than three coming from academic research. Military courses cannot be used for technical electives.

Academic Learning Compact

The chemical engineering program enables students to apply knowledge of mathematics, science and engineering principles to chemical engineering problems; to design and conduct chemical engineering experiments and to analyze and interpret the data; to design a chemical engineering system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints; and to communicate technical data and design information effectively in speech and in writing to other chemical engineers.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (https://urldefense.proofpoint.com/v2/url/?u=http-3A__www.abet.org&d=DwMGaQ&c=pZJPUDQ3SB0JplYbifm4nt2lEVG5pWx2KlkqIIPnWhZM&r=-Bf738Yn6kEY-D7Qfs6kPA&m=-KF2G1JwsXcME70kGBMIRyTy2i4YuqEwzRran98WV1M&s=73PhSd8hcuNu3AXlyLsL37MvoIB1R32OqAHJTCUThog&e=).

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation/).

Before Graduating Students Must

• Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
• Pass assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
• Complete an exit interview in your final semester.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Civil Engineering
Civil Engineering is the oldest and most diverse branch of engineering. In its broadest sense, the civil engineer adapts the physical features of the earth to the needs of society. Civil engineering engages approximately one out of four engineers.

About this Program
- College: Herbert Wertheim College of Engineering (p. 736)
- Degree: Bachelor of Science in Civil Engineering
- Credits for Degree: 128

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
Website (https://www.essie.ufl.edu/civil-coastal-engineering/)

Curriculum
- Civil Engineering
- Combination Degrees

Civil engineering includes the design and construction of bridges, buildings, dams, waterways, coastal protection works, airports, pipelines, space launching facilities, railroads, highways, sanitary systems, ocean structures and facilities, foundations, harbors, waterworks and many other systems and structures upon which modern civilization depends.

Department Requirements
A minimum grade of C is required for all courses marked below. A minimum GPA of 2.0 is required for all civil engineering courses. Before graduating, all BSCE students must take the Fundamentals of Engineering exam.

The basic program provides the minimum education for practice. Beyond the bachelor’s degree, advanced degrees are available in geosensing, transportation, water resources, structural engineering, geotechnical engineering, construction, public works, civil engineering materials, and coastal and oceanographic engineering.
Educational Objectives
The undergraduate program in civil engineering will prepare graduates to

• Meet the needs and expectations of civil engineering employers and proceed toward the attainment of a Professional Engineering (P.E.) license;
• Continue their education and pursue advanced degrees if they so desire.

Goals
• To develop civil engineering professionals with proficiency in the fundamentals of science and engineering;
• To develop an understanding of the planning, design, construction and operation of civil engineering projects;
• To develop enhanced communication skills;
• To develop an appreciation of professionalism and ethics in the practice of engineering.

Mission
The department strives to build upon a leading program of exceptional teaching, innovative research and dedicated service by maintaining a strong curriculum, a highly qualified and committed faculty, outstanding facilities and essential funding.

Critical Tracking
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=140801&track=01) may be used for transfer students.

Semester 1
• Complete 1 of 7 critical-tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 2
• Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 3
• Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 4
• Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 5
• Complete final lower division critical-tracking course and EGM 3400 with minimum grades of C
• Complete EGM 3520 with minimum grade of C
• 2.0 UF GPA required

Semester 6
• Complete CWR 3201, CGN 3501C, and CES 3102 with minimum grades of C
• 2.0 UF GPA required
## Semester 7
- Complete 3 second-level core courses (of CEG 4012, CES 4702, CGN 4503, CWR 4202, EIN 3354) and CEG 4011
- 2.0 UF GPA required

## Semester 8
- Complete CGN 4806 or CGN 4910
- Complete all remaining Civil Engineering required courses
- 2.0 UF GPA required

### Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

Academic Learning Compact

Civil engineering is the oldest and most diverse branch of engineering and includes the design and construction of bridges, buildings, dams, waterways, coastal protection works, airports, pipelines, space launching facilities, railroads, highways, sanitary systems, ocean structures and facilities, foundations, harbors, waterworks and many other systems and structures upon which modern civilization depends. In its broadest sense, the civil engineer adapts the physical features of the earth to the needs of society. Approximately one out of four engineers is engaged in civil engineering. Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (https://urldefense.proofpoint.com/v2/url/?u=http-3A__www.abet.org&d=DwMGaQ&c=pZJPUDQ3SB9JplYbifm4nt2iEVG5pWx2KiklNpWIZM&r=-Bf738Yh6kEY-D7Qfs6kPA&m=-KF2G1JwsXcME70kGMBtRvY2r4YuqEwzRran98WV1M&s=73PhSd8hcuNu3AAYyLsL37MvoIB1R3Z0qAHJTCUT hog&e=).

Before Graduating Students Must
• Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
• Pass an assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
• Complete the Fundamentals of Engineering examination.
• Complete an exit interview in your final semester.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Apply knowledge of mathematics, science and engineering principles to civil engineering problems.
2. Conduct civil engineering experiments, analyzing and interpreting the data.

Critical Thinking
3. Design a civil engineering system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints.

Communication
4. Communicate technical data and design information effectively in writing and in speech to other civil engineers.

Assessment Types

- Laboratory reports
- Exams
- Design projects
- Presentations
- Additional assessments include:
  - The Fundamentals of Engineering (FE) exam
  - The exit and employer surveys

Computer Engineering

Computer Engineering (CpE) is a discipline that embodies the science and technology of design, construction, implementation, and maintenance of software and hardware components of computing systems and computer-controlled equipment. Studies in computer engineering integrate fields from both computer science (CS) and electrical engineering (EE).

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 736)
- **Degree:** Bachelor of Science in Computer Engineering
- **Credits for Degree:** 126
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Electrical engineers study electricity and design electrical systems that solve problems—how to make your smartphones smarter; how to make your refrigerator run more efficiently; coming up with the optimal temperature to heat pizza in your microwave; designing the audio and visual technology that brings movies to life. Website (https://www.ece.ufl.edu/)

968 Center Drive
216 LARSEN HALL
GAINESVILLE FL 32611-6200
Map (http://campusmap.ufl.edu/#/index/0722)
Computer engineering (CpE) brings a core competency and unique value of integrated knowledge in both computer software and hardware, providing a balance among computer systems, hardware and software as well as theory and applications. Specialization in computer engineering is provided via technical electives from the Department of Computer and Information Science (www.cise.ufl.edu) and Engineering and the Department of Electrical and Computer Engineering (www.ece.ufl.edu). By properly choosing electives, students can specialize in knowledge areas such as computer architecture, computer system engineering, digital signal processing, embedded systems, intelligent systems, networking and communication and security. Also, opportunities for cooperative education provide students a better understanding of the industrial applications of computer engineering technologies. Graduates will be prepared to pursue graduate studies in computer engineering or they can choose from many different careers related to computers and their applications in high technology environments.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (https://urldefense.proofpoint.com/v2/url/?u=http-3A__www.abet.org&d=DwMGaQ&c=pZJPUDQ3SB9-JplYbifm4nt2IEVG5pWx2KiklNpWIZM&r=-Bf73BYn6kEY-D7Qfs6kPA&m=-KF2G1JwsXcME70kGMBiRYTy2i4YupEwzRan98WV1M&s=73PhSd8hcuNu3AXlyLsL37MvolB1R3Z0qAHJTCUThog&e=).

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation/).

Program Education Objectives
Graduates from the Bachelor of Science in Computer Engineering will:

1. Advance in careers utilizing their education in computer engineering;
2. Continue to enhance their knowledge through graduate or professional studies, self-learning, and on-job training;
3. Become leaders in multidisciplinary and diverse professional environments.

Mission
- To educate undergraduate majors as well as the broader campus community in the fundamental concepts of the computing discipline
- To create and disseminate computing knowledge and technology
- To use our expertise in computing to help society solve problems.

Admission Requirements
Successful applicants must have earned a 2.5 grade point average, based on the first two attempts, in the eight pre-professional courses and have earned a minimum grade of C in each course of Calculus 1, Calculus 2, Calculus 3, Physics with Calculus 1, Physics with Calculus 2, General Chemistry 1, General Chemistry 2 or 2000 level Biological or Physical Science, and Differential Equations. Only the first two attempts (including withdrawals) in each course will be considered for admission to or retention in the department.

Computer Engineering Requirements
A minimum grade of C is required for each critical-tracking course and the critical-tracking GPA must be a minimum of 2.5.

A minimum grade of C is required in any computer engineering course that is a prerequisite for another computer engineering course. The prerequisite course and its subsequent course cannot be taken the same term, even if the prerequisite course is being repeated.

Minimum grades of C are required in:

A CpE major grade point average (GPA) is calculated as the average of the grades of all the CISE and ECE courses taken by the student. CpE students must maintain a cumulative, upper-division and CpE major GPA minimum of 2.0.

Students who do not meet these requirements will be placed on academic probation and will be required to prepare a probation contract with a CpE advisor. Students are normally given two terms to remove their deficit points; however, students who do not satisfy the conditions of the first term of probation may be dismissed from the program.

All graduating seniors must complete an exit survey with their advisor before graduating.

### Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=140901&track=01) may be used for transfer students.

#### Semester 1
- Complete 1 of 8 critical-tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, CHM 2046 or CHM 2096 or a 2000-level or higher advisor-approved science course, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 2
- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 3
- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 4
- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 5
- Complete all 8 critical-tracking courses with minimum grades of C in each course within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 6
- Complete EEL 3744C and CEN 3031 with a grade of C or better
- 2.0 departmental GPA required
- 2.0 UF GPA required

#### Semester 7
- Complete CpE Design 1 course with a grade of C or better
- Complete at least 4 of 6 Technical Electives
- 2.0 departmental GPA required
- 2.0 UF GPA required
Semester 8

- Compete CpE Design 2 course with a grade of C or better
- 2.0 departmental GPA required
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the general education International (GE-N) and Diversity (GE-D) requirements. This is often done concurrently with another general education requirement, typically GE-C, H, or S.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Total Credits: 126

Technical Electives

18 Credits

- At least 12 credits must be from the CISE and/or ECE department(s). These courses must be 3000-level or higher.
- Courses not permitted as technical electives: any core cores, EEL 3834, EEL 3003, CGS 3063, CGS 3065, and COP 3275
- A CpE student will have credit for two programming courses (Java and C++). One additional programming language course (not Java or C++) can count as a technical elective.
- A maximum of 6 credits can come from the following categories:
  - 4000-level courses in the mathematics department
  - 3000-level courses in the physics department
  - 4000-level courses in the statistics courses
  - Any advisor-approved course

Academic Learning Compact

The Bachelor of Science in Computer Engineering is concerned with the theory, design, development and application of computer systems and information processing techniques. Students will be equally proficient working with computer systems, hardware and software, as with computer theory and applications.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (https://urldefense.proofpoint.com/v2/url/?u=http-3A__www.abet.org&d=DwMGaQ&c=pZJPUDQ3SB9-jpYbifm4nt2I6EVR5pWx2KkqlNpWZM&r=BF738Yn6KEY-D7Qfs6kPA&m=-KF2G1JwvXcm7GMBmIRYTY2I4YyqEwzRan98W11M&s=73PhSd8hcuNu3AXIyLsL37Mv0BI13Z0qAHJbCTUThog&e=).

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation/).

Before Graduating Students Must

- Pass assessment according to department rubric of student performance on a major design experience.
- Pass assessment in one or more core courses of individual assignments targeted to each SLO.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Apply knowledge of mathematics and science to computer engineering problems.
2. Design and conduct computer-engineering experiments, analyzing and interpreting the data.

Critical Thinking
3. Design a computer engineering system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints.

Communication
4. Communicate technical data and design information effectively in writing and in speech to other computer scientists and engineers.

Computer and Information Science and Engineering Minor

This minor provides the academic background in the application of computers to scientific and engineering problems and prepares students for graduate study in computer-related disciplines.

About this Program
- **College**: Herbert Wertheim College of Engineering (p. 736)
- **Credits**: 20-23 | Completed with minimum grades of C

Department Information
The mission of the Department of Computer & Information Science & Engineering is to educate students, as well as the broader campus community, in the fundamental concepts of the computing discipline; to create and disseminate computing knowledge and technology; and to use expertise in computing to help society solve problems.
Website (https://www.cise.ufl.edu/)

**Total Credits:** 20-23

*At least three of the CDA, CIS, COP, and COT courses must be taken at UF.*

---

**Computer Science | Herbert Wertheim College of Engineering**

The Computer Science program combines a strong engineering-oriented technical basis with a flexible interdisciplinary component and an emphasis on communication skills. This flexibility is increasingly important as computers become more important tools in an ever-increasing number of disciplines.

**About this Program**
- **College:** Herbert Wertheim College of Engineering (p. 736)
- **Degree:** Bachelor of Science in Computer Science
- **Credits for Degree:** 120
- **More Info**

*To graduate with this major, students must complete all university, college, and major requirements.*

**Department Information**

The mission of the Department of Computer & Information Science & Engineering is to educate students, as well as the broader campus community, in the fundamental concepts of the computing discipline; to create and disseminate computing knowledge and technology; and to use expertise in computing to help society solve problems.

**Curriculum**
- Combination Degrees
- Computer and Information Science and Engineering Minor
- Computer Science UF Online
- Computer Science | CLAS
Students in the engineering computer science (EG-CSE) program will satisfy the same requirements for general education and obtain the same engineering preprofessional background in mathematics and science as other engineering students. The program contains a strong technical component comprising a set of required courses covering essential areas in computing and a set of technical electives enabling students to deepen their knowledge in chosen areas of computer science and engineering.

In addition, the program includes a set of interdisciplinary electives in an area of the student’s choice from anything the university offers. Students may choose an established minor, a predefined track or if nothing meets their needs, they can work with an advisor to develop their own program. Thus, students will not need to wait for an interdisciplinary program to be established; they can create their own.

To answer the demands of industry for employees with both technical competence and the ability to communicate effectively, the program requires communication courses beyond the usual general education requirements for engineering.

**Department Requirements**

Students must complete all critical-tracking courses with minimum grades of C in each course and the critical-tracking GPA must be 2.5 minimum. A minimum grade of C is required in all other courses that are prerequisites to a required course: CDA 3101, COP 3503, COP 3530, COP 4600, COT 3100 and MAS 3114. In addition, CISE requires all computer science students to maintain a cumulative, upper-division and department grade point average minimum of 2.0.

Students who do not meet these requirements will be placed on academic probation and will be required to prepare a probation contract with a CISE advisor. Students are normally given two terms to remove their deficit points; however, students who do not satisfy the conditions of the first term of probation may be dismissed from the department.

**Placement**

Students who have scored at least a 4 or 5 on the AP Computer Science exam are eligible to start the programming fundamentals sequence with COP 3503. Students will need to see an advisor in the major to adjust their degree audit.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=140901&track=01) may be used for transfer students.

**Semester 1**

- Complete 1 of 7 critical-tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, MAC 2311, MAC 2312, MAC 2313, COP 3502, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 2**

- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 3**

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 4**

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required
**Semester 5**
- Complete all 7 critical-tracking courses with minimum grades of C in each course within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 6**
- Complete COP 3503 and COT 3100
- 2.0 departmental GPA required
- 2.0 UF GPA required

**Semester 7**
- Complete COP 3530
- 2.0 departmental GPA required
- 2.0 UF GPA required

**Semester 8**
- Complete COP 4600
- 2.0 departmental GPA required
- 2.0 UF GPA required

---

**Model Semester Plan**

Students are expected to complete the general education international (GE-N) and diversity (GE-D) requirements. This is often done concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Herbert Wertheim College of Engineering's computer science program combines a strong engineering technical basis with a flexible interdisciplinary component and strong communication skills. This program emphasizes the technical aspects of computer science and is less flexible than the computer science program in the College of Liberal Arts and Sciences.

Before Graduating Students Must

- Pass assessment according to department rubric of student performance on a major design experience.
- Pass assessment in one or more core courses of individual assignments targeted to each SLO.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Apply knowledge of mathematics and science to computer science problems.
2. Design and conduct computer-science experiments, analyzing and interpreting the data.

Critical Thinking

3. Design a computer science system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints.
Communication
4. Communicate technical data and design information effectively in writing and in speech to other computer scientists and engineers.

• Computer Science | CLAS
• Computer Science | Herbert Wertheim College of Engineering
• Digital Arts and Sciences | Bachelor of Science

Related Programs
• Digital Arts and Sciences Minor
• Digital Arts and Sciences | Bachelor of Arts
• Digital Arts and Sciences | Bachelor of Arts UF Online
The Digital Arts and Sciences (DAS) degree is a core computer science degree with special emphasis on human-centered computing, which includes art, design and computing courses that are related to digital media, interaction and communication.

Graduates will be well versed in issues and solutions for basic art techniques and graphic art design as well as modeling 3D virtual worlds. The DAS graduate also will be well versed in collaborative multidisciplinary team models. Intermediate and final class projects are centered around a balanced-team composition focusing on multimedia productions.

### Department Requirements

Students must complete all critical-tracking courses with minimum grades of C in each course and the critical-tracking GPA must be 2.5 or higher. A minimum grade of C is required in all other courses that are prerequisites to a required course:

<table>
<thead>
<tr>
<th>Code</th>

</tbody>
</table>

In addition, CISE requires all DAS students to maintain a cumulative, upper-division and department GPA minimum of 2.0.

Students who do not meet these requirements will be placed on academic probation and will be required to prepare a probation contract with a CISE advisor. Students normally are given two terms in which to remove their deficit points or to remedy their probation status; however, students who do not satisfy the conditions of the first term of probation may be dismissed from the department.

### Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500102&track=01) may be used for transfer students.

#### Semester 1

- Complete 1 of 8 critical-tracking courses with a minimum grade of C within two attempts: ARH 2051, CHM 2045 or CHM 2095, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 2

- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 4

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required
Semester 5
• Complete all 8 critical-tracking courses with minimum grades of C in each course within two attempts
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 6
• Complete COP 3503 and COT 3100
• 2.0 departmental GPA required
• 2.0 UF GPA required

Semester 7
• Complete COP 3530
• 2.0 departmental GPA required
• 2.0 UF GPA required

Semester 8
• Complete CAP 3020
• 2.0 departmental GPA required
• 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the general education international (GE-N) and diversity (GE-D) requirements. This is often done concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

**Academic Learning Compact**

The major crosses college boundaries between engineering and the arts. This degree is an interdisciplinary engineering program combining developing skills in art and computers. Students will be well-versed in issues and solutions for basic art technique and graphic art design, as well as modeling 3D virtual worlds. Students will be experienced in collaborative multidisciplinary teams, compositions and projects focusing on multimedia productions.

**Before Graduating Students Must**

- Pass assessment of performance on a major design experience, according to department grading rubric.
- Pass assessment in one or more core courses of individual assignments targeted to each SLO.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Apply knowledge of mathematics and science to computer science problems.
2. Apply knowledge of multimedia, human-computer interaction, computer graphics and simulation to application domains.

**Critical Thinking**

3. Design a human-computer interface involving animation, sound and immersive virtual environments.
Communication
4. Communicate technical information in a collaborative team environment.

Electrical Engineering
Electrical Engineering is concerned with all phases and development of the transmission and utilization of electric energy and intelligence. From communication systems to electronic components that run computers and motor vehicles, electrical engineers design products and systems that meet the needs of today and tomorrow’s electrical and electronic systems.

About this Program
- **College**: Herbert Wertheim College of Engineering (p. 736)
- **Degree**: Bachelor of Science in Electrical Engineering
- **Credits for Degree**: 128

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
Electrical engineers study electricity and design electrical systems that solve problems—how to make your smartphones smarter; how to make your refrigerator run more efficiently; coming up with the optimal temperature to heat pizza in your microwave; designing the audio and visual technology that brings movies to life.

Website (https://www.ece.ufl.edu/)

Map (http://campusmap.ufl.edu/#/index/0722)

Curriculum
- Combination Degrees
- Computer Engineering
- Electrical Engineering
- Electrical Engineering Minor

While it is essential that electrical engineers understand the fundamentals of their chosen fields, they must also understand the role that other branches of engineering play in completed work. The curriculum provides a foundation in basic engineering as well as depth and breadth in electrical engineering and sufficient electives to allow specialization in academic areas including:

- Electronic Devices and Circuits
- Electromagnetics, Power and Photonics
- Computers, Communications and Systems and Controls
The curriculum also prepares an engineer for professional licensure.

The department’s extensive laboratory facilities and varied research programs assist in both experimental and theoretical approaches to electrical and computer engineering.

**Admission Requirements**

It is the department’s policy to admit the best-qualified students as demonstrated by academic achievement.

To be admitted, a student must have an overall 2.5 grade point average in critical-tracking courses, based on the first two attempts in eight professional courses and have earned a minimum grade of C in each course of Calculus 1, Calculus 2, Calculus 3, Physics with Calculus 1, Physics with Calculus 2, Differential Equations and General Chemistry. Only the first two attempts (including withdrawals and drops) in each course will be considered for admission to or retention in the department.

**Department Requirements**

A minimum grade of C is required in any course transferred into the junior-senior years from another institution.

Courses marked below with a footnote must be completed with minimum grade of C. For a course to be used as a prerequisite for an EEE/EEL-prefixed course, a minimum grade of C is required in the prerequisite course. Any 3000/4000 level EEL/EEE-prefixed course not taken to satisfy the breadth or depth requirement can be applied as EE technical elective, excluding EEL 3834 only counts for computer programming requirement and EEL 3003, which does not apply toward degree requirements.

ECE majors must have an overall 2.0 GPA in all ECE courses to meet degree requirements.

**A student must complete both EEL 3111C and EEL 3701C before taking any 4000-level EEE or EEL course.** Electrical Engineering majors must have EEL 3923C completed or in progress to apply for the IPPD program.

More Info ([http://www.ippd.ufl.edu/](http://www.ippd.ufl.edu/))

Any course taken to satisfy a degree requirement (general education, required course or technical elective), with the exception of EGN 4912, EEL 4948, and EEL 4949, cannot be taken S-U.

An electrical engineering student whose cumulative, upper-division or department grade point average falls below 2.0 or whose pre-professional grades do not meet department admission requirements will be placed on academic probation and be required to prepare a probation contract with an ECE academic advisor. If a student is not making normal academic progress, they will be placed on academic probation.

Students normally are given two terms in which to remove their deficit points. Students who do not satisfy the conditions of the first term of probation may be dismissed from the department.

All graduating seniors must complete an exit interview with their advisor before graduating.

**Educational Objectives**

The objectives of the Electrical Engineering program at the University of Florida are to prepare students to be good citizens engaged in ethical engineering for the betterment of society and enabling them, so that within a few years of graduation, they:

1. Have successful careers providing leadership in a dynamic industry that is global, multi-disciplinary, and evolving;
2. Are excelling in the top advanced studies programs in the world.

**Goals**

The baccalaureate program prepares students to embark upon professional careers in electrical and computer engineering or to begin graduate study. The department’s educational objectives are consistent with the ABET general criteria for accrediting programs in engineering in the United States.

**Mission**

The department offers undergraduate and graduate programs in electrical and computer engineering and conducts research to serve the needs of Florida and the nation.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites ([http://www.flvc.org/cpp/displayRecord.jsp?cip=141001&track=01](http://www.flvc.org/cpp/displayRecord.jsp?cip=141001&track=01)) may be used for transfer students.
Semester 1
• Complete 1 of 7 tracking courses. MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049, and CHM 2045 or CHM 2095 must be completed with minimum grade of C in each course within two attempts (including withdrawals).
  • 2.5 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

Semester 2
• Complete 1 additional critical-tracking course with the appropriate minimum grade within two attempts
  • 2.5 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

Semester 3
• Complete 2 additional critical-tracking courses with the appropriate minimum grades within two attempts
  • 2.5 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

Semester 4
• Complete 2 additional critical-tracking courses with the appropriate minimum grades within two attempts
  • 2.5 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

Semester 5
• Complete remaining 7 critical-tracking courses with the appropriate minimum grades within two attempts
  • 2.5 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

Semester 6
• Complete the 2 remaining Electrical Engineering Breadth required courses.
  • Complete 1 EE Technical Elective courses
  • 2.0 UF GPA required

Semester 7
• Complete EEL 3923C
• Complete first EE Depth course
• Complete 2 EE Technical Electives (7 credits)
  • 2.0 UF GPA required

Semester 8
• Complete EEL 4924C
• Complete last EE Depth course
• Complete remaining Electrical Engineering Technical Electives (7 credits)
  • 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

### Electrical Engineering Depth | 6 Credits

Select one EE Depth course from 2 different EE Breadth areas.

### Interdisciplinary Technical Electives | Select 3 Courses

Students are able to select courses that are 3000-4000 level from the Biology/Biochemistry courses (prefixes of BSC, BCH, CHM, PCB, and ZOO); Mathematics courses (prefixes of MAA, MAD, MAP, and MAS); Physics courses (prefixes of PHY and PHZ). Students are able to count CHM 2046, CHM 2210, and CHM 2211. Students are able to select courses that are 3000-4000 level from HWCOE (non-ECE) courses. Students can count EML 2023 and EGM 2511.

### Electrical Engineering Technical Electives | 17 Credits

Any 3000 level or above course in ECE, with the exception of EEL 3003 and EEL 3008.

### Academic Learning Compact

Electrical engineering emphasizes development of the transmission and utilization of electric energy and intelligence. Electrical engineers design products and systems that meet the needs of today and tomorrow's electrical and electronic systems. Students will be able to design communication systems; design the electronic components that run computers, motor vehicles, TVs, stereo systems and robots for automated factories; design aircraft and spacecraft control systems; design utility and industrial power systems; and design biological and biomedical systems.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation/).

Before Graduating Students Must

- Pass an assessment of performance on a major design experience. Assessment will be provided by two or more faculty and/or industry practitioners.
- Pass assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Identify, describe, and interpret mathematics, science and engineering principles to electrical engineering problems.

Critical Thinking
2. Design and conduct electrical engineering experiments as well as analyze and interpret data.
3. Design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.

Communication
4. Convey technical data and design information effectively for a range of audiences using a variety of methods and media.

Electrical Engineering Minor

This minor, administered by the Department of Electrical and Computer Engineering, provides additional knowledge in Electrical Engineering.

About this Program
- College: Herbert Wertheim College of Engineering (p. 736)
- Credits: 15 | Completed with minimum grades of C

Department Information
Electrical engineers study electricity and design electrical systems that solve problems—how to make your smartphones smarter; how to make your refrigerator run more efficiently; coming up with the optimal temperature to heat pizza in your microwave; designing the audio and visual technology that brings movies to life.

Curriculum
- Combination Degrees
- Computer Engineering
Students pursuing the BSEE or BSCEN degree are not eligible for this minor.

To be admitted to the minor, students are expected to meet the admission requirements of the Department of Electrical and Computer Engineering.

All courses for the minor must be completed at UF. EEL 3003 and EEL 3111C do not both count toward the minor.

**Required Courses**

1. Must include EEL 3003 or EEL 3111C.

**Engineering Innovation Minor**

Graduates with this minor across all engineering disciplines are better prepared to enter the market place as innovators and leaders in myriad technology-centric industries. The minor provides the academic background for graduates to think more creatively, innovatively, and entrepreneurially. Graduates are more rounded with innovation skill sets that enhance career advancement opportunities, either for employers or in their own entrepreneurial pursuits.

**About this Program**

- **College:** Herbert Wertheim College of Engineering (p. 736)
- **Credits:** 15 | Completed with a minimum 2.8 combined GPA

**Related Programs**

- Engineering Innovation Certificate

Open to all Herbert Wertheim College of Engineering majors. Students can only complete one UF Innovation minor. Students cannot earn both the Engineering Innovation minor and certificate.

The curriculum enhances the engineering discipline with courses in engineering attributes, communications, innovation, entrepreneurship, creativity, leadership, and project management, completed with an internship/co-op experience. The UF Engineering Innovation Institute oversees this minor.

This minor develops a deep and comprehensive skill set in undergraduate engineering students that can be applied innovation-driven enterprises as well as in “intrapreneurial” initiatives within larger organizations. The core themes involve creativity, the study of engineering-focused innovations, technological entrepreneurship, leadership of teams focused on technology and engineering, engineering project management, and professional development for engineers via an engineering innovation-related internship.

This minor complements the technical training in the student’s major discipline by providing the tools and knowledge required for engineering innovators.

Engineering Innovation Certificate

With core themes involving the study of innovation, entrepreneurship, leadership, and ethics, this certificate develops a comprehensive skill set that is applied in innovation-driven enterprises and within larger organizations.

About this Program

* College: Herbert Wertheim College of Engineering (p. 736)
* Credits: 9 | Completed with minimum grades of B

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Engineering Leadership Certificate

Engineering undergraduate students completing this certificate will reflect a comprehensive set of industry-preferred competencies that prepares them for leadership roles in their engineering careers.

About this Program

* College: Herbert Wertheim College of Engineering (p. 736)
* Credits: 9 | Completed with minimum grades of B

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

This certificate is open to undergraduate students in any engineering discipline. Students cannot earn both the Engineering Innovation certificate and minor.

The certificate's core studies include engineering leadership, advanced engineering leadership development, and one of the courses engineering project management, engineering entrepreneurship, or engineering innovation.

Engineering | Exploring Engineering Studies

The Exploring Engineering Studies plan is intended for students who want to major in engineering but have not yet chosen a specific discipline or for students who need to take both pre-tracking chemistry and mathematics courses in their first semester.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 736)
- **Degree:** None
- **Credits for Degree:** N/A

This is *not* a degree-granting major. Students should work with their academic advisors to choose a degree-granting engineering major by semester three.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Semester 1

- Complete CHM 1025 and MAC 1147 with minimum grades of C within 2 attempts, including withdrawals. At least one course must be passed in semester 1
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 of the 8 critical-tracking courses with minimum grades of C within two attempts, including withdrawals: CHM 2045 or CHM 2095, CHM 2046 or CHM 2096, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts, including withdrawals
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional courses with minimum grades of C within two attempts, including withdrawals
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 8 critical-tracking courses with minimum grades of C in each course, within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required
Model Semester Plan

Undecided engineering students who are ready to begin one or both critical-tracking courses in semester 1 should meet with their academic advisor to adjust the recommended plan of study.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Engineering Project Management Certificate

The Engineering Project Management certificate reflects a comprehensive set of competencies that are aligned with a common career path through wide sectors in the practice of engineering.
About this Program
- **College:** Herbert Wertheim College of Engineering (p. 736)
- **Credits:** 9 | Completed with minimum grades of B

This certificate is open to undergraduate students in any engineering discipline.

The certificate’s core studies include fundamentals of engineering project management, engineering economy, and one of several optional courses offered through the various departments in the college.

Prerequisites
Undergraduate engineering student of junior or senior status. The only required course prerequisite is Calculus 2.

Environmental Engineering

Environmental Engineering applies engineering and scientific principles to protect and preserve human health and the environment. It embraces broad environmental concerns, including air and water quality, solid and hazardous wastes, groundwater protection and remediation, water resources management, environmental policy, radiological health, environmental biology and chemistry, systems ecology, water and wastewater treatment, and wetlands ecology.

About this Program
- **College:** Herbert Wertheim College of Engineering (p. 736)
- **Degree:** Bachelor of Science in Environmental Engineering
- **Credits for Degree:** 128

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The broad undergraduate environmental engineering curriculum of EES has earned the department a ranking as a leading undergraduate program. The ABET-accredited engineering bachelor’s degree is comprehensively based on physical, chemical, and biological principles to solve environmental problems affecting air, land, and water resources. An advising scheme including select faculty, led by the undergraduate coordinator, guides each student through the program.

GAINESVILLE FL 32611-6450
Map (http://campusmap.ufl.edu/#/index/0724)

**Curriculum**
- Combination Degrees
- Environmental Engineering
**Department Recommendations**

All students are strongly encouraged to take the Fundamentals of Engineering Exam which is the first exam leading to licensure as a professional engineer. Application should be made in the semester before graduation.

Qualified students are encouraged to pursue master’s and doctoral studies to increase their knowledge and broaden their employment opportunities.

**Educational Objectives**

Environmental engineering graduates will continue to develop and apply their knowledge and skills to identify, prevent, and solve environmental problems. Evidence of achievement of this objective includes one or more of the following:

- Passing the Fundamentals of Engineering Examination
- Obtaining and maintaining a Professional Engineering License
- Admission to graduate school, including medical, law or other professional schools
- Completing educational and professional short courses

Program graduates can aspire to careers that benefit society as a result of their educational experiences in science, analysis and design, as well as in their social and cultural activities. Evidence of achievement of this objective includes the following:

- Employment as an engineer or in a related technical capacity
- Participating in professional organizations
- Providing community service

Program graduates will be able to communicate and work effectively in all work settings including those that are multidisciplinary. Evidence of achievement of this objective includes one or more of the following:

- Publication in scientific and engineering journals
- Presenting at scientific and engineering conferences
- Teaching
- Contributing to scientific and engineering studies
- Service as a task or team leader

**Mission**

The mission of the Department of Environmental Engineering Sciences (EES) is to provide quality undergraduate and graduate educational programs in environmental engineering sciences, to conduct an internationally recognized environmental research program that benefits humanity, and to provide authoritative guidance to individuals and organizations charged with preventing and solving local, state, national and global environmental problems. EES serves as a leader in interdisciplinary programs aimed at solving environmental problems and as a major campus crucible for identification, conceptualization and resolution of environmental issues.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites ([http://www.flvc.org/cpp/displayRecord.jsp?cip=141401&track=01](http://www.flvc.org/cpp/displayRecord.jsp?cip=141401&track=01)) may be used for transfer students.

**Semester 1**

- Complete 1 critical-tracking course (CHM 2045 or CHM 2095, CHM 2046 or CHM 2096, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048 and PHY 2049) with a minimum grade of C within two attempts, including withdrawals.
- 2.5 GPA on the best of a maximum of two attempts at each critical-tracking course
- 2.0 UF GPA required

**Semester 2**

- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts, including withdrawals
- 2.5 GPA on the best of a maximum of two attempts at each critical-tracking course
- 2.0 UF GPA required
Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts, including withdrawals
- 2.5 GPA on the best of a maximum of two attempts at each critical-tracking course
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts, including withdrawals
- 2.5 GPA on the best of a maximum of two attempts at each critical-tracking course
- 2.0 UF GPA required

Semester 5

- Complete the remaining critical-tracking courses with minimum grades of C in each course within two attempts, including withdrawals
- 2.5 GPA on the best of a maximum of two attempts at each critical-tracking course
- 2.0 UF GPA required

SEMEREST 6

- Complete ENV 4453
- 2.0 UF GPA required

SEMEREST 7

- Complete ENV 4454
- 2.0 UF GPA required

SEMEREST 8

- Complete ENV 4009
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the general education International (GE-N) and Diversity (GE-D) requirements. This is often done concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

| Total Credits | 128 |

The ENV 4912/ENV 4913 sequence is by application only.
Technical Elective
3 credits of technical elective must be 3000 level or higher EES or ENV course(s) not specified above. The remaining technical electives can be any 3000 level or higher course(s) in one of the following departments, with permission of the student's advisor:

- Department of Agricultural and Biological Engineering
- Department of Biomedical Engineering
- Department of Chemical Engineering
- Department of Civil & Coastal Engineering
- Department of Computer & Information Science & Engineering
- Department of Electrical and Computer Engineering
- Department of Industrial Engineering
- Department of Mechanical & Aerospace Engineering
- Engineering Innovation Institute
- Engineering Leadership Institute
- Department of Chemistry
- Department of Geography
- Department of Geological Sciences
- Department of Microbiology and Cell Science
- School of Forest Resources and Conservation
- Department of Soil and Water Science
- Department of Urban and Regional Planning
- Department of Wildlife Ecology and Conservation

Academic Learning Compact

Environmental engineering applies engineering and scientific principles to protect and preserve human health and the environment. It embraces broad environmental concerns, including air and water quality, solid and hazardous wastes, groundwater protection and remediation, water resources and management, environmental policy, radiological health, environmental biology and chemistry, systems ecology, water and wastewater treatment and wetlands ecology.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (https://urldefense.proofpoint.com/v2/url/?u=http-3A__www.abet.org&d=DwMGaQ&c=pZJPUDQ3SB9JplYbifm4nt2lEVG5pWx2KiqlNpWFZM&r=-Bf73BYn6kEY-D7Qfs6kPA&m=-KF2G1JwzXcME70kGBMiRYTy2i4YuqEwzRfan98WV1M&s=73PhSd8hcuNu3AXlyLsL37MvoIB1R3ZoqAHJTCUTHog&e=).

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation/).

Before Graduating Students Must

- Pass assessment by two or more faculty and/or industrial practitioners of student performance on a major design experience.
- Pass assessment in two courses of individual assignments targeted to each particular learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Apply knowledge of mathematics, science and engineering principles to environmental engineering problems.
2. Design and conduct environmental engineering experiments and analyze and interpret the data collected.
Industrial and Systems Engineering

Critical Thinking
3. Design an environmental engineering system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints.

Communication
4. Communicate technical data and design information effectively in writing and in speech to project stakeholders.

Industrial and Systems Engineering
Industrial and Systems Engineering deals with the optimization of complex processes or systems. It typically focuses on the development, improvement, implementation, and evaluation of integrated systems of people, money, knowledge, information, equipment, energy, materials, etc. Industrial and systems engineering often relies on, among others, the analysis and synthesis of mathematical, physical, social sciences, and the principles and methods of engineering design to specify, predict, and evaluate results from such systems or processes.

About this Program
- **College:** Herbert Wertheim College of Engineering (p. 736)
- **Degree:** Bachelor of Science in Industrial and Systems Engineering
- **Credits for Degree:** 125
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Industrial and Systems Engineering strives to be a resource for comprehensive ISE education and research training; a department with research thrusts and coursework covering a breadth of disciplines; a department making use of advanced computing technology, cutting-edge programming languages, social media, data mining, AI, etc. to best support needs, interests, and training of students.

Curriculum
• Combination Degrees
• Industrial and Systems Engineering

Industrial and systems engineering prepares students for industrial practice in product design, process design, plant operation, production control, quality control, facilities planning, work system analysis and evaluation, and economic analysis of operational systems.

Students are prepared to use engineering principles to solve problems that require a quantitative basis for decision making and the application of economics, operations research, statistics, mathematics and engineering analysis, with dependence on the computer. The curriculum also provides the preparation necessary for graduate study.

Admission Requirements
The minimum requirements for admission to the undergraduate program are an overall 2.5 grade point average and a 2.5 grade point average in the designated pre-engineering technical courses. Students who have not met these requirements at 60 credits may be admitted on probation with successful petition.

Department Requirements
Students must complete successfully every required course with minimum grades of C in at most three attempts. Grades of H, I, N, U, and W are considered attempts. Registration canceled for non-payment is also considered an attempt.

Educational Objectives
The objective of the industrial and systems engineering program is to produce graduates who:

• will be successful professionals in industrial and systems engineering or other disciplines
• can acquire advanced knowledge through continuing education or advanced degree programs
• can become active leaders in their profession and/or community

Mission
The mission of the undergraduate program is to provide a top quality, state-of-the-art education in industrial and systems engineering and to foster leading-edge instruction. The program seeks national recognition by peer institutions and key employers of industrial and systems engineering graduates.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=142701&track=01) may be used for transfer students.

Semester 1
• Complete 1 of 8 critical-tracking courses with a minimum grade of C within two attempts: COP 2271 (VB.NET), ESI 3327C, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 2
• Complete 2 additional critical-tracking course with a minimum grades of C within two attempts
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required
**Industrial and Systems Engineering**

**Semester 3**
- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 4**
- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 5**
- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 6**
- Complete ESI 4356 and STA 4322
- Complete 2 additional required courses
- 2.0 UF GPA required

**Semester 7**
- Complete ESI 4523
- Complete 2 additional required courses
- 2.0 UF GPA required

**Semester 8**
- Complete all remaining required ISE courses
- 2.0 UF GPA required

---

**Model Semester Plan**

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Total Credits: 125

1 Minimum grade of C required. A C- will not satisfy this requirement.
2 The curriculum requires the completion of both the Diversity (D) component and the International (N) component.
3 Students with deficient backgrounds in physics should first take a lower-level course such as PHY 2020. After successful remediation, they can begin the physics sequence: PHY 2048/PHY 2048L and PHY 2049/PHY 2049L.
4 The curriculum requires five technical elective credits. Students should choose technical electives that are related to one another and provide expertise in an ISE concentration area. Several minors provide such concentrations; information is available in 368 Weil.
5 As an alternative, students can participate in the Integrated Product and Process Design (IPPD) program. Multidisciplinary teams of engineering students in this program work closely with a liaison engineer to design a new product or process for an industry sponsor. The program requires students to take, typically in their senior year, a sequence of two 3-credit courses, EIN 4912 in fall and EIN 4913 in spring. The former is a course approved for a technical elective and the latter can replace EIN 4335.
Fundamentals of Engineering Exam Preparation

Approximately 10 percent of the members of the Institute of Industrial Engineers pursue a professional engineer (PE) license. A PE license is especially desirable for engineers who want to start their own businesses. The industrial and systems engineering curriculum does not require certain courses that are necessary for the Fundamentals of Engineering (FE) exam (also known as the Engineer Intern exam). The latter is also a prerequisite for pursuing professional engineer license.

Students preparing for the FE exam should choose a set of technical electives that properly prepare them for this exam, such as EGM 3520 and EGM 3400 / EGM 3401.

Academic Learning Compact

Industrial and systems engineering prepares students for industrial practice in product design, process design, plant operation, production control, quality control, facilities planning, work system analysis and evaluation and economic analysis of operational systems. Students will be prepared to use engineering principles to solve problems that require a quantitative basis for decision making and the application of economics, operations research, statistics, mathematics and engineering analysis, with dependence on the computer.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (https://urldefense.proofpoint.com/v2/url/?u=http-3A__www.abet.org&d=DwMGaQ&c=pZJPUDQ3SB9JpYy6fm4nt2IEVG5pw2KkqlNpWIZM&r=-BF73BYh6kAY-D7Qfs6kPA&m=-KF2G1JwsXcm70GBMIRYy2I4YuyqEwzRran988W1M&s=73PhSD8hcuNu3AXlyLsL37MvoI1R3ZQquAHJTCUThog&). ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation/).

Before Graduating Students Must

• Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
• Pass assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
• Complete an exit interview in your final semester.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Apply knowledge of mathematics, science and engineering principles to industrial and systems engineering problems.
2. Design and conduct experiments relevant to industrial and systems engineering processes and problems, as well as to analyze and interpret the data.

Critical Thinking
3. Design industrial engineering decision support systems and manufacturing/service system processes to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints.

Communication
4. Communicate technical information effectively in speech and in writing to other industrial engineers and managers.

Materials Science and Engineering
Everything Americans use is composed of materials, from computer chips to flexible concrete skyscrapers, from plastic bags to artificial hips, from fiber optical cables to automobiles. Materials Science and Engineering makes these materials reliable and useful through design, processing, and analysis of controlled compositions, microstructures, and properties. Without new materials, the next generation of computers, automobiles, aircraft telecommunications, skyscrapers, and medical implants will not exist. Materials of the future will be smart and think on their own, in addition to meeting traditional property demands. This field abounds with scientific challenges and technological excitement.

About this Program
- **College**: Herbert Wertheim College of Engineering (p. 736)
- **Degree**: Bachelor of Science in Materials Science and Engineering
- **Credits for Degree**: 125

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Materials Science and Engineering strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting, and distance learning to promote engineering in the field.

Curriculum
- Advanced Engineering Ceramics Certificate
- Biomaterials Certificate
- Combination Degrees
- Materials Science and Engineering
- Materials Science and Engineering Minor
- Metallurgical Engineering Certificate
- Nuclear and Radiological Engineering Minor
- Nuclear and Radiological Sciences
- Nuclear Engineering
- Nuclear Radiation and Reactor Analysis Certificate
- Nuclear Thermal Systems Analysis Certificate
• Polymer Science and Engineering Certificate
• Semiconductor Materials Certificate

The bachelor’s degree program provides a broad materials science and engineering core with specialization in ceramics, electronic materials, metals or polymeric and biomaterials. Biomaterials is also taught at the combination bachelor’s/master’s level.

Admission Requirements
It is the department’s policy to admit the best-qualified transfer applicants as demonstrated by academic achievement.

Successful applicants must have earned:

• An overall 2.5 grade point average, based on the first two attempts, in the eight preprofessional (critical-tracking) courses
• A minimum grade of C in the following:

<table>

</tr>
</tbody>
</table>

Only the first two attempts in each course, including withdrawals, will be considered for admission to or retention in the department
• A cumulative minimum GPA of 2.0 is required for all courses

Educational Objectives
The program objectives of the MSE program at the University of Florida are to produce engineering practitioners and graduate students who in three to five years after graduation will:

• Have successful careers in Materials Science and Engineering or related disciplines.
• Be prepared to successfully participate in continuing education or education toward advanced degrees.

Department Requirements
A minimum grade of C is required in ENC 3246.

The department encourages students to accept internships and opportunities to study abroad. However, it is highly recommended that students seek academic advising for appropriate registration planning.

Mission
The department strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting and distance learning to promote engineering in the field.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Semester 1
• Complete 1 of 9 critical-tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, CHM 2046 or CHM 2096, EMA 3010, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required
Semester 2
• Complete 2 additional critical-tracking course with a minimum grade of C within two attempts
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 3
• Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 4
• Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 5
• Complete all 9 critical-tracking courses with minimum grades of C in each course within two attempts
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 6
• Complete EMA 4125 and 1 additional EMA 3000/4000 level course

Semester 7
• Complete 2 additional EMA 3000/4000 level courses

Semester 8
• Complete all remaining EMA 3000/4000 level required courses

Model Semester Plan
Students are expected to complete the general education international (N) and diversity (D) requirements. This is often done concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

- 3 credits minimum of technical electives in the fall semester needs to be a materials processing course.
- 3 credits maximum of non-EMA or ENU technical electives can be approved courses from outside the MSE department.

Academic Learning Compact

The major enables students to develop an understanding of materials systems and their role in engineering. Emphasis is placed on the ability to apply knowledge of mathematics, science and engineering principles to materials science and engineering; to design and conduct experiments, as well as to analyze and interpret data; and to design a program name system, component or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (https://urldefense.proofpoint.com/v2/url/?u=http-3A__www.abet.org&d=DwMGaQ&c=pZJPUDQ3SB9JpYbIfm4nt2IEVGSpWx2KikqINpWIZM&r=-Bf73BYm6kEY-D7Qfs6kPA&m=-KF2G1Jw6xCMET0kGBMRYTy2r4YyqEw2Rran98WV1M&s=73PhSd8hcuNu3AXyLsL37MvolB1R3Z0qAHJSCUTCfog&e=).

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation/).
Before Graduating Students Must

- Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
- Pass assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Apply knowledge of mathematics, science and engineering principles to materials science and engineering.
2. Design and conduct materials science and engineering experiments and analyze and interpret the data.

Critical Thinking
3. Design a materials science and engineering system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints.

Communication
4. Communicate technical data and design information effectively in speech and in writing to other materials engineers.

Materials Science and Engineering Minor

This minor is for engineering and science students with interests in Materials Science and Engineering. Materials concerns are critical to engineering design and analysis and new materials are needed for microelectronic packages, biomedical applications, super-conducting films, tool bits, cutting tools, construction, fuel-efficient engines, and other industrial and scientific applications.

About this Program

- **College**: Herbert Wertheim College of Engineering (p. 736)
- **Credits**: 15 | Completed with minimum grades of C
- **Contact**: 108 Rhines Hall (http://campusmap.ufl.edu/?loc=0184)
Department Information
The Department of Materials Science and Engineering strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting, and distance learning to promote engineering in the field.
Website (https://mse.ufl.edu/)

Curriculum
• Advanced Engineering Ceramics Certificate
• Biomaterials Certificate
• Combination Degrees
• Materials Science and Engineering
• Materials Science and Engineering Minor
• Metallurgical Engineering Certificate
• Nuclear and Radiological Engineering Minor
• Nuclear and Radiological Sciences
• Nuclear Engineering
• Nuclear Radiation and Reactor Analysis Certificate
• Nuclear Thermal Systems Analysis Certificate
• Polymer Science and Engineering Certificate
• Semiconductor Materials Certificate

This minor provides the academic background to understand materials design, selection and processing. Students are required to complete a minimum of 15 credits of materials-related courses that complement their degree programs.

Mechanical Engineering
Mechanical Engineering is concerned with motion and the processes whereby other energy forms are converted into motion. Mechanical engineers are responsible for conceiving, designing, manufacturing, testing, and marketing devices and systems that alter, transfer, transform, and utilize the energy forms that cause motion.

About this Program
• College: Herbert Wertheim College of Engineering (p. 736)
• Degree: Bachelor of Science in Mechanical Engineering
• Credits for Degree: 128

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Mechanical and Aerospace Engineering (MAE) is the largest academic program on campus by student enrollment. The Mechanical Engineering program celebrated its 100 year anniversary in 2009 and is one of the founding departments of the Herbert Wertheim College of Engineering. More than a decade after the successful merger of the mechanical and aerospace programs, MAE remains a vibrant and intellectually diverse program at both the undergraduate and graduate level.

Map (http://campusmap.ufl.edu/#/index/0183)

Curriculum
- Aerospace Engineering
- Biomechanics Minor
- Combination Degrees
- Mechanical Engineering

Related Programs
Dual Degree in Mechanical Engineering and Aerospace Engineering

The baccalaureate program in mechanical engineering is fully accredited and provides a broad education with a strong foundation in mathematics, science and basic engineering sciences. Advanced courses are available to develop specialized interests in the engineering aspects of manufacturing, robotics, solid mechanics, thermal and fluid systems, dynamics and controls, and biomechanics. Graduates are prepared to work in a variety of industries or to pursue graduate study.

Students considering a career in biomedical engineering should be aware that graduate education is often required. The Herbert Wertheim College of Engineering offers M.S. and Ph.D. degrees in biomedical engineering.

Combination Bachelor’s/Master’s Degree Program
The mechanical engineering professional often benefits from an advanced degree to meet the challenging needs of industry and government. Accordingly, the Department of Mechanical and Aerospace Engineering actively participates in the combination B.S./M.S. degree program that allows students to double-count graduate courses toward both degrees. The combination-degree program reduces the cost for both degrees and enhances the student’s marketability for career advancement. Interested students should contact the MAE department or its website for more information.

Department Requirements
Minimum grades of C are required for the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EGM 2511</td>
<td>Engineering Mechanics: Statics</td>
<td>3</td>
</tr>
<tr>
<td>EGM 3344</td>
<td>Introduction to Numerical Methods of Engineering Analysis</td>
<td>3</td>
</tr>
<tr>
<td>EGM 3401</td>
<td>Engineering Mechanics: Dynamics</td>
<td>3</td>
</tr>
<tr>
<td>EGM 3520</td>
<td>Mechanics of Materials</td>
<td>3</td>
</tr>
<tr>
<td>EML 3100</td>
<td>Thermodynamics</td>
<td>3</td>
</tr>
</tbody>
</table>

The minimum C grade is part of the prerequisite requirement for courses listing EGM 2511, EGM 3344, EGM 3401, EGM 3520, or EML 3100 as a prerequisite. The prerequisite course and subsequent course cannot be taken in the same term, even if the prerequisite is being repeated.

An aerospace or mechanical engineering student whose cumulative, upper-division or department grade point average falls below a 2.0 or who does not meet critical tracking requirements will be placed on academic probation and required to complete a probation contract with an MAE academic advisor. Students normally are allowed a maximum of two terms (consecutive or non-consecutive) on academic probation. Students who do not satisfy the conditions of the first term on probation may be dismissed from the department.

All graduating seniors must complete an exit interview with their advisor before graduating.

Dual-Degree Programs
There is much overlap between the aerospace engineering and mechanical engineering curriculum. The first six semesters are identical for both programs. Through proper selection of electives, students can earn a dual mechanical engineering/aerospace engineering degree with one semester of additional work. Contact the Department of Mechanical and Aerospace Engineering or visit the website for more information.

Educational Objectives
The objective of the mechanical engineering program at UF is to prepare students to attain the following goals within a few years of graduation:
• Graduates will meet the expectations of employers of mechanical engineers.
• Qualified graduates will pursue advanced study if they so desire.

Mission
The mission of the undergraduate program is to serve the state of Florida, the United States and the engineering profession by providing quality educational programs in mechanical engineering; conduct a nationally recognized research program; and foster ongoing professional development of students and faculty.

Research Programs
The department’s active research programs are sponsored by private industry, the National Science Foundation, Department of Defense, NASA, National Institutes of Health and other agencies.

These programs keep faculty at the leading edge of technology and provides opportunities for students to participate in research through classroom assignments, individual studies, undergraduate research scholarships and employment as research assistants.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=141901&track=01) may be used for transfer students.

Semester 1
• Complete 1 of 8 critical-tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, EML 2023, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
• 2.8 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 2
• Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
• 2.8 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 3
• Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
• Complete EGM 2511 with minimum grade of C
• 2.8 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 4
• Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
• Complete EGM 3344, EGM 3520, and EML 3100 with minimum grades of C
• 2.8 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 5
• Complete all critical-tracking courses with minimum grades of C in each course within two attempts
• Complete EGM 3401 with minimum grade of C
• Complete EGN 3353C
• 2.8 GPA required for all critical-tracking courses
• 2.0 UF GPA required

SEMESTER 6
• Complete 4 of the remaining EML 3XXX/4XXX required courses
 SEMESTER 7

• Complete 3 of the remaining EML 3XXX/4XXX required courses

 SEMESTER 8

• Complete all remaining EML 3XXX/4XXX required courses

### Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Assessment Types

- Written exams
- Laboratory and oral reports
- Design project
- Additional assessments include:
  - Exit interview
  - Alumni survey
Metallurgical Engineering Certificate

The Metallurgical Engineering certificate provides a foundation in the interrelationship of processing, microstructure, and properties of structural metals and alloys.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 736)
- **Credits:** 10 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

The Department of Materials Science and Engineering strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting, and distance learning to promote engineering in the field. Website (https://mse.ufl.edu/)

RHINES HALL
GAINESVILLE FL 32611-6400
Map (http://campusmap.ufl.edu/#/index/0184)

Curriculum

- Advanced Engineering Ceramics Certificate
- Biomaterials Certificate
- Combination Degrees
- Materials Science and Engineering
- Materials Science and Engineering Minor
- Metallurgical Engineering Certificate
- Nuclear and Radiological Engineering Minor
- Nuclear and Radiological Sciences
- Nuclear Engineering
- Nuclear Radiation and Reactor Analysis Certificate
- Nuclear Thermal Systems Analysis Certificate
- Polymer Science and Engineering Certificate
- Semiconductor Materials Certificate

Upon completion of the certificate, students have a fundamental understanding of the processing, microstructures, and properties of metallic structural alloys, as well as materials/process selection and failure analysis.

Nuclear and Radiological Engineering Minor

Established in 1910, the Herbert Wertheim College of Engineering is the largest professional school, the second-largest college and one of the three largest research units at the University of Florida. The curricula is designed to produce highly skilled engineers and provide each student with a broad range of degree and career choices.

### Nuclear and Radiological Sciences

This degree emphasizes the nuclear sciences rather than nuclear engineering. Students pursue a pre-medical specialization or a pre-medical physics specialization. Any student pursuing this degree must have a selected program, including option area electives, approved in advance by an advisor.

### About this Program

- **College:** Herbert Wertheim College of Engineering (p. 736)
- **Degree:** Bachelor of Science
- **Specializations:** Pre-Medical (p. 837) | Pre-Medical Physics (p. 841)
- **Credits for Degree:** 125

*To graduate with this major, students must complete all university, college, and major requirements.*

### Department Information

The Department of Materials Science and Engineering strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting, and distance learning to promote engineering in the field.

• Nuclear and Radiological Sciences
• Nuclear Engineering
• Nuclear Radiation and Reactor Analysis Certificate
• Nuclear Thermal Systems Analysis Certificate
• Polymer Science and Engineering Certificate
• Semiconductor Materials Certificate

Diverse opportunities await graduates of the Department of Nuclear and Radiological Engineering (NRE) because nuclear sciences have and will continue to make major contributions to electricity production, medical diagnostic imaging and therapy, non-destructive testing as well as radiation detection and measurement. These opportunities will continue to grow as we face more challenges in energy production and medicine. For the last three decades, the nuclear industry has contributed over 20% of our country’s electricity production, and major advances continue to be made in the development of radiation diagnostics and treatment for medical and industrial applications.

Academic Learning Compact

The major in nuclear and radiological sciences educates students to work professionally in areas related to the control and safe utilization of nuclear energy, radiation and radioactivity.

Before Graduating Students Must

• Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
• Pass assessment in two or more courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Apply knowledge of mathematics, science and engineering for problem solving in engineering.
2. Analyze and interpret experimental data.

Critical Thinking
3. Develop an engineering design to meet specific technical requirements within realistic constraints such as economic, environmental, health and safety and reliability.
4. Foster the need for lifelong learning and the ability to adapt this to engineering practice.

Communication
5. Function effectively on multidisciplinary skills teams.
6. Communicate effectively, using both oral and written presentations, in engineering practice.

**Critical Tracking**

*Note that critical tracking is the same for both specializations.*

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.
Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=142301&track=01) may be used for transfer students.

**Semester 1**
- Complete 1 of 8 critical-tracking courses with a minimum grade of C within two attempts: BSC 2010, CHM 2045 or CHM 2095, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 2**
- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 3**
- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 4**
- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 5**
- Complete all 8 critical-tracking courses with minimum grades of C in each course within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Model Semester Plan

Students are required to complete IDS 1161 in semester 1 or 2. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements. This is often done concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

1 All nuclear engineering and nuclear engineering sciences majors must pass all required undergraduate department courses with an overall C average.
Approved Electives

Engineering Electives

All technical engineering electives must be approved by a department advisor. At least five credits of technical engineering electives must be ENU courses. Examples include courses in nuclear engineering, engineering materials, thermodynamics, statics, dynamics, and advanced programming.

Pre-Medical Physics

This degree emphasizes the nuclear sciences rather than nuclear engineering. Students pursue a pre-medical specialization or a pre-medical physics specialization. Any student pursuing this degree must have a selected program, including option area electives, approved in advance by an advisor.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 736)
- **Degree:** Bachelor of Science
- **Specializations:** Pre-Medical (p. 837) | Pre-Medical Physics (p. 841)
- **Credits for Degree:** 125

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Materials Science and Engineering strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting, and distance learning to promote engineering in the field.

Curriculum

- Advanced Engineering Ceramics Certificate
- Biomaterials Certificate
- Combination Degrees
- Materials Science and Engineering
- Materials Science and Engineering Minor
- Metallurgical Engineering Certificate
- Nuclear and Radiological Engineering Minor
- Nuclear and Radiological Sciences
- Nuclear Engineering
- Nuclear Radiation and Reactor Analysis Certificate
- Nuclear Thermal Systems Analysis Certificate
- Polymer Science and Engineering Certificate
- Semiconductor Materials Certificate

Diverse opportunities await graduates of the Department of Nuclear and Radiological Engineering (NRE) because nuclear sciences have and will continue to make major contributions to electricity production, medical diagnostic imaging and therapy, non-destructive testing as well as radiation detection and measurement. These opportunities will continue to grow as we face more challenges in energy production and medicine. For the last three decades, the nuclear industry has contributed over 20% of our country’s electricity production, and major advances continue to be made in the development of radiation diagnostics and treatment for medical and industrial applications.

Critical Tracking

*Note that critical tracking is the same for both specializations.*

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=142301&track=01) may be used for transfer students.
Semester 1
• Complete 1 of 8 critical-tracking courses with a minimum grade of C within two attempts: BSC 2010, CHM 2045 or CHM 2095, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 2
• Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 3
• Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 4
• Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 5
• Complete all 8 critical-tracking courses with minimum grades of C in each course within two attempts
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

1 All nuclear engineering and nuclear engineering sciences majors must pass all required undergraduate department courses with an overall C average.

### Approved Electives

#### Engineering Electives

All technical engineering electives must be approved by a department advisor. At least five credits of the technical engineering electives must be ENU courses. Examples include courses in nuclear engineering, engineering materials, thermodynamics, statics, dynamics, and advanced programming.
Examples of Pre-Medical Physics Electives

Academic Learning Compact
The major in nuclear and radiological sciences educates students to work professionally in areas related to the control and safe utilization of nuclear energy, radiation and radioactivity.

Before Graduating Students Must

- Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
- Pass assessment in two or more courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Apply knowledge of mathematics, science and engineering for problem solving in engineering.
2. Analyze and interpret experimental data.

Critical Thinking
3. Develop an engineering design to meet specific technical requirements within realistic constraints such as economic, environmental, health and safety and reliability.
4. Foster the need for lifelong learning and the ability to adapt this to engineering practice.

Communication
5. Function effectively on multidisciplinary skills teams.
6. Communicate effectively, using both oral and written presentations, in engineering practice.

- Additional assessment includes the senior exit survey

Nuclear Engineering

Nuclear Engineering includes the design, development, and operation of nuclear power systems; numeric simulation of nuclear systems; health physics and radiation protection; radiation imaging; radiation measurements; national security and non-proliferation; nondestructive examination of materials and structures using radiation techniques; use of radiation in medicine for treatment and diagnostics; and using radiation in food processing, industrial processing, and manufacturing control.
About this Program

• **College:** Herbert Wertheim College of Engineering (p. 736)

• **Degree:** Bachelor of Science in Nuclear Engineering

• **Credits for Degree:** 127

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Materials Science and Engineering strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting, and distance learning to promote engineering in the field.

Map (http://campusmap.ufl.edu/#/index/0184)

Curriculum

• Advanced Engineering Ceramics Certificate

• Biomaterials Certificate

• Combination Degrees

• Materials Science and Engineering

• Materials Science and Engineering Minor

• Metallurgical Engineering Certificate

• Nuclear and Radiological Engineering Minor

• Nuclear and Radiological Sciences

• Nuclear Engineering

• Nuclear Radiation and Reactor Analysis Certificate

• Nuclear Thermal Systems Analysis Certificate

• Polymer Science and Engineering Certificate

• Semiconductor Materials Certificate

A full complement of experimental facilities is available, including a 100 KW research and training reactor, a neutron activation analysis laboratory and a D-D neutron source for radiation studies. The department also has specialized nuclear instrumentation in the radiation detection laboratories located in the Nuclear Science Building and the Nuclear Field Building.

Students should concentrate electives in one discipline to achieve solid familiarity in a minor field of study. These electives, chosen with an advisor, allow option area specialization in reactor engineering, reactor operations, radioisotopes and nuclear radiation technology, and radiation and biological systems.

Transfer Admission Requirements

It is the department’s policy to admit the best-qualified transfer applicants as demonstrated by academic achievement. Successful applicants must have earned:

• An overall 2.5 grade point average, based on the first two attempts in the eight preprofessional (critical-tracking) courses;

• Minimum grades of C in the following. Only the first two attempts in each course, including withdrawals, will be considered for admission to or retention in the department:

<table>

</tr>
</tbody>
</table>

- The department encourages students to accept internships and opportunities to study abroad. It is highly recommended that students seek academic advising for appropriate registration planning.
- All nuclear engineering and nuclear radiological sciences majors must pass all required undergraduate department courses with an overall C average.
- All technical electives must be approved by a department advisor. At least six credits of technical electives must be ENU courses.

**Educational Objectives**

The Department of Nuclear and Radiological Engineering has established the following educational objectives for its undergraduate program.

Graduates will:

- Have successful careers in nuclear engineering or related disciplines
- Pursue continuing education or advanced degrees

**Mission**

The department will provide quality education and conduct nationally recognized research in nuclear and radiological engineering to serve the needs of Florida and the nation.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=142301&track=01) may be used for transfer students.

**Semester 1**

- Complete 1 of 8 critical-tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095; CHM 2046 or CHM 2096 or BSC 2010; MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 2**

- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 3**

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required
Semester 4
- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5
- Complete all 8 critical-tracking courses with minimum grades of C in each course within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6
- Complete ENU 4001 and ENU 4605 with a minimum grade of C

Semester 7
- Complete 2 additional 4000 level ENU courses

Semester 8
- Complete 2 additional 4000 level ENU courses

Semester 9
- Complete all remaining 4000 level ENU required courses

Model Semester Plan
Students are expected to complete the general education international (GE-N) and diversity (GE-D) requirements. This is often done concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Technical Electives

The choice of engineering science and technical electives allows emphasis in nuclear power engineering, nuclear instrumentation, criticality safety safeguards, radiation imaging, plasmas/fusion, advanced nuclear reactor concepts and non-proliferation.

Of the nine credits of technical electives required, six credits must be ENU courses 3000-level or above. A maximum of three credits, combined, may come from ENU 4905 or ENU 4949. The final three credits may be any engineering (including ENU), mathematics or science course 3000-level or above.

Academic Learning Compact

The major in nuclear engineering educates students to work professionally in areas related to the control and safe utilization of nuclear energy, radiation and radioactivity.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (https://urldefense.proofpoint.com/v2/url/?u=http-3A__www.abet.org&d=DwMGaQ&c=pZJPUUDQ3SB9JplYbfm4nt2iEVG5pWx2KikqiNpWIZM&r=-BF738yn6kEY-D7Qfs6kPA&m=kF2G1JwsXcME70kGMIRYTy2I4YuqEwzRran98WV1M&s=73PhSd8hcuNu3AXlyLsL37MvoIBR1Z2qAHJTCUThog&h=).

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation/).

Before Graduating Students Must

• Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
• Pass assessment in two or more courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
• Complete an exit interview in your final semester.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Apply knowledge of mathematics, science and engineering for problem solving in engineering.
2. Design and conduct experiments and analyze and interpret experimental data.

Critical Thinking
3. Develop an engineering design to meet specific technical requirements within realistic constraints such as economic, environmental, health and safety and reliability.
4. Foster the need for lifelong learning and the ability to adapt this to engineering practice.

Communication
5. Function effectively on multidisciplinary skills teams.
6. Communicate effectively, using both oral and written presentations, in engineering practice.

Nuclear Radiation and Reactor Analysis Certificate

The Nuclear Radiation and Reactor Analysis certificate provides a foundation in radiation and reactor concepts for engineers across multiple majors and industries. The certificate’s prerequisites and courses promote nuclear engineering education across a numerous engineering disciplines.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 736)
- **Credits:** 11 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

The Department of Materials Science and Engineering strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting, and distance learning to promote engineering in the field.

Nuclear Thermal Systems Analysis Certificate

The Nuclear Thermal Systems Analysis certificate provides a more in-depth education of thermal systems principles related to nuclear industries. The certificate promotes thermal system understanding of nuclear systems for mechanical engineers or closely related majors.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 736)
- **Credits:** 10 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

The Department of Materials Science and Engineering strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting, and distance learning to promote engineering in the field.

Polymer Science and Engineering Certificate

The Polymer Science and Engineering (PSE) certificate provides a foundation in polymer synthesis, processing, and characterization, and how this relates to polymer structure and properties. This facilitates the proper selection of polymers for various applications such as plastics, composites, biomaterials, organic electronics, and rheology modifiers.

About this Program

- **College**: Herbert Wertheim College of Engineering (p. 736)
- **Credits**: 10 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

Sales Engineering Minor

Sales Engineering Minor Graduates with this minor are regarded highly by recruiters for industries seeking sales engineering staff. The minor provides the academic background for careers in sales, managerial, and entrepreneurial pursuits. Graduates are more effective communicators and are trained to promote and market new technologies and related products.

About this Program
- **College:** Herbert Wertheim College of Engineering (p. 736)
- **Credits:** 16-18 | Completed with a minimum 2.8 combined GPA
- **Contact:** 371 Weil Hall (http://campusmap.ufl.edu/?loc=0024)

*Only students enrolled in an engineering degree-granting major are eligible for this minor.*

The curriculum enhances the engineering discipline with courses in communications, business, management and accounting. There is a core requirement of seven to eight credits, a communication skills elective requirement of three credits and a management skills elective requirement of six to eight credits.

- Department of Tourism, Hospitality and Event Management

Academic Advising
Each academic department has its own academic advisor. It is a college policy that each student discuss their academic plan with an academic advisor before each registration and at any time regarding academic and/or career counseling matters.
More Info (http://hhp.ufl.edu/current-students/academic-advising/)

Scholarships
General financial aid information can be obtained from the Office of Student Financial Affairs. In addition, the college offers annual merit-based scholarships.
More Info (http://hhp.ufl.edu/current-students/scholarships/)

Internships and Career Guidance
During the semester of expected graduation, all students - except athletic training students - must complete a full semester internship. All coursework must be completed successfully prior to the internship.

Helpful Links

Academic Policies

Academic Contract
An academic contract is an agreement between the student and advisor that identifies specific actions (grades needed, specific course completion, etc.) which must be completed during an assigned semester or date.

A student may have only one academic contract as a lower-division student and one contract as an upper-division student. A student cannot have an academic contract for consecutive semesters. While on academic contract, no I, N or NG grades are permitted.

Failure to meet the academic contract can result in, and is not limited to, one or more of the following actions:
- A college hold preventing future registration
- Cancelation of HHP course registration, and/or
- Change to a new major

Admission Requirements
Students classified as first-semester freshmen at the university will be admitted to the college when they declare a major within the college. At that time, their college classification will become HH.

Students maintain the HH classification as long as they meet the standards set by the college and UF for admission and critical-tracking. Students who are not making satisfactory academic progress may be required to seek admission to another college or to make alternative academic plans.

Students who fall below minimum performance standards will have a registration hold placed on their record. They must meet with an advisor to determine a plan of action before the hold will be removed.

Change of Major
To be considered for a change in major, students must meet the following criteria:
Lower-Division Students

- Minimum UF GPA
- Minimum critical-tracking GPA as designated by department curriculum
- No deficit points
- Completion of the Letter of intent
- Must have the ability to complete all tracking requirements by the required tracking term

Upper-Division Students

- Minimum UF GPA
- Minimum critical-tracking GPA as designated by department curriculum
- No deficit points
- Ability to graduate within 138 credits or 8 semesters (not including summer) without exceeding the maximum credits per semester. (excludes AP/IB courses not needed for HHP degree program)
- Completed 75% of all critical-tracking courses for the desired major
- Met all writing requirements
- Completed a minimum of 27 credits of the general education requirement
- Completion of the Letter of intent

Transfer students will not be permitted to change majors into the college.

In addition to the above, the following applies to current and/or previous HHP majors:

- Current HHP majors may not change to another HHP major unless they currently meet that major’s criteria.
- Students who were dismissed from a college major cannot change out of HHP and then be re-accepted to the college as a change of major.

Combination Degree (4-1) Program

The combination degree is available with the Bachelor of Science in Health Education, Tourism, Hospitality and Event Management, and Sport Management. The combination degree provides academically talented students the opportunity to complete their bachelor’s and master’s degrees within the same major in a shorter period of time. The combination degree in health education and behavior is open to all majors. The combination degrees in tourism, hospitality and event management and sport management are limited to majors only. Students should review department guidelines for requirements and criteria needed for successful application. Students should apply for the program as a second semester sophomore/first semester junior. Students should discuss this option early with their academic advisor and then contact the appropriate program's graduate coordinator for more information.

Critical-Tracking Courses

All critical-tracking courses must be taken at the University of Florida.

- All critical-tracking attempts will be counted toward the critical-tracking GPA.
- Students may retake a critical-tracking course one time only.
- All critical-tracking courses must be completed by the time noted in the catalog for each major.
- Completing tracking courses beyond the specified time is at the advisor's discretion and must be approved by the advisor in advance.
- Any students completing tracking courses during the first semester of the junior year cannot complete any upper-division HHP courses that semester.

Dean's List (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#deanslisttext)

Deficit Points

Academic dismissal from the college denies registration privileges to students who have a grade point deficit of 15 or more in their upper-division coursework. The student will be dismissed from the college and a hold will be placed on registration.

A student who has been dismissed from the college due to grade point deficit will not be considered for readmission.

Drop Policy

During drop/add, courses can be dropped without penalty. After drop/add, courses may be dropped only through the college's petition process in accordance with university deadlines.

Before completing 60 credits of coursework, students are allowed two unrestricted drops after drop/add. After the completion of 60 credits of UF coursework, students also are allowed two unrestricted drops after drop/add. Students seeking to drop all classes do not have to petition the college; dropping all classes is considered withdrawal and is processed through the Office of the University Registrar in 222 Criser Hall.

If a student is registered for one course only and is seeking to drop that course, this is considered a withdrawal because the student is dropping all courses that semester. Refer to the college withdrawal policy.

Dual Degree or Double Major

The college can permit students to pursue dual degrees in multiple majors.

To request a dual degree the student must:

- Have between 45 and 96 credits (excluding AP, IB, dual enrollment or overseas study credit),
- Have a minimum 3.0 UF GPA at the time the application is submitted, if at least one of the majors is in this college,
- Meet all critical-tracking requirements for the HHP major requested. If one of the majors is outside the college, applicants must get approval from the appropriate college.
- Meet all other college progression standards for both majors and demonstrate potential for success in both majors (successful completion of major and major-related courses without excessive W’s, grades less than C or multiple repeats),
- Be able to complete both degrees within 138 credits or eight semesters (not including summer) without exceeding the maximum credits per semester. (Excludes AP/IB courses not needed for HHP degree program.) Additional study is permitted only with the associate dean's approval, and
- Have demonstrated a well-articulated educational goal for which the double major or dual degree is appropriate and/or necessary.
Request for Additional Semesters

Students who wish additional semesters must complete the general petition request and submit it with the graduation plan to their academic advisor.

The request requires:

- Minimum 2.0 UF GPA
- Minimum critical-tracking GPA as designated by department curriculum
- Minimum upper-division GPA as designated by department curriculum
- Minimum major GPA as designated by department curriculum

First Aid and CPR

Some HHP majors may require students to have current first aid, adult CPR and AED certification (American Red Cross or American Heart Association) at the time of registering for internship. Please refer to departmental guidelines for internships (http://hhp.ufl.edu/current-students/internships/) or contact a departmental internship coordinator for more information.

Fresh Start Program

This program is for former degree-seeking students who wish to return to the university after an absence of no fewer than five calendar years. During this absence the student should have engaged predominately in non-academic activities. Students who wish to apply under the Fresh Start Program should follow the UF guidelines.

More Info (p. 29)

Grade Appeals

Any student in the college who feels their performance in a course has not been evaluated accurately should discuss any concerns with the instructor first. If the disagreement is not resolved, the student should consult the department chair, and if still unresolved, contact the associate dean for academic affairs.

The college is a strong supporter of the university’s equal opportunity program. Any student who believes they have been discriminated against on the basis of race, color, religion, sex, disability, sexual orientation, age, or national origin should contact the associate dean for academic affairs.

Graduation Participation

All requirements for the bachelor's degree must be completed successfully prior to graduation to participate in graduation ceremonies, including the successful completion of an internship, if required. The college will determine who is eligible to participate in the graduation ceremony. Students must participate in the ceremony that corresponds to the semester they graduate. Students cannot participate in an earlier (walk early) or later ceremony; there are no exceptions.

Health Insurance

All students must secure health insurance or a signed health insurance disclaimer before they begin their internship.

Honors

The university offers three levels of honors at graduation: cum laude, magna cum laude and summa cum laude.

More Info (p. 1643)

Please note that:

- Transfer credits and S/U option credits are excluded.
- Postbaccalaureate students are not eligible for honors recognition.
- Honors recognition is printed on the university diploma.

Follow these guidelines when preparing an honors thesis:

- Submission of an undergraduate thesis to request graduation with magna cum laude or summa cum laude must reflect a high caliber of work.
- The thesis submission form should be secured to the thesis as the first page. This form must be completed with a typewriter or computer; handwritten forms will not be accepted.
- When completing the submission form, pay special attention to the Key Words entry, as these words will be used to index the thesis. Think of these words as instrumental in leading a potential reader to the thesis.
- The thesis should be stapled or secured with a binder clip. Binders and folders are discouraged, as they will be discarded when the thesis is filed on microfiche.
- Have the abstract reviewed for organization, content, grammar and spelling before submission.
- The abstract should begin with a definitive statement of the problem or project. The purpose, scope and limit of the thesis should be clearly delineated. Then, as concisely as possible, describe research methods and design, major findings, the significance of your work (if appropriate) and conclusions. The abstract should be 100-200 words.
- Students whose thesis involves creative work such as original fine art, music, writing, theatre, film or dance should describe process and production, indicating the forms of documentation on file as thesis materials.
- Type the abstract into the space allotted on the submission form.

Looking for help writing a thesis? The honors program recommends Conquering Your Undergraduate Thesis by Nataly Kogan. This book offers helpful and practical advice from fellow students and recent graduates.

HHP honors thesis submission deadlines: Honors thesis/graduation requirements are completed during the last one or two semesters at UF. The final thesis submission is due to the college's associate dean for academic affairs three days before the last day of classes. Refer to the departmental for process information found here (http://hhp.ufl.edu/current-students/academic-advising/honors/).

Incomplete Grades

An incomplete grade may be assigned at the discretion of the instructor as an interim grade for a course in which the student has completed a major portion of the course with a passing grade, been unable to complete course requirements before the end of the term (e.g., before the final exam is taken) because of extenuating circumstances and obtained agreement from the instructor and arranged for resolution of the incomplete grade.

I grades are not to be used when the student is doing unsatisfactory work and the instructor wants to provide another chance to improve. Instructors are not required to assign incomplete grades.

The I grade arrangement should stipulate all conditions for completing the course and earning a letter grade, including a specific expiration date.
date for the arrangement and designation of the grade to be assigned for incomplete work. I grade arrangements should be recorded on a standard contract form, kept in a file in the department’s central office and monitored by staff, so that the appropriate grade changes will be made by the end of the following semester. This practice will be particularly useful if the instructor is on leave or has left UF permanently.

If make-up work requires classroom or laboratory attendance in a subsequent term, the student should not register for the course again.

Instead, the student must audit the course and pay course fees. Students who need to audit a course should be referred to the registrar’s office to complete audit registration.

If the make-up work does not require classroom or laboratory attendance, the instructor and student should decide on an appropriate plan and deadline for completing the course.

When the course is completed or the arrangement has expired, the instructor will submit a change of grade to the Office of the University Registrar. An I grade should not be assigned to a student who never attended class; instead, instructors may assign a failing grade or no grade at all, which will result in assignment of N*.

The only time a letter grade should be changed to an I is when the instructor made an error in the grade. For example, there is an I grade arrangement on file for the student, but the instructor forgot and recorded an E instead. The college will approve such grade changes only when clear instructor error has occurred and when the grade is submitted with a copy of the I grade arrangement, which must be dated prior to the final exam period for the course.

These procedures cannot be used to repeat a course for a different grade.

Internships

Prior to graduation, all students – except athletic training students – are required to complete a full semester of internship. This requirement is completed during the semester of expected graduation, after successful completion of all other required coursework (see below). Credits for this requirement are included in the credit total required for graduation. Students will not be granted permission to participate in the graduation ceremony prior to successfully completing the internship experience. Refer to graduation participation, above.

Students are eligible to complete the internship semester if they have:

- Successfully completed ALL courses and are therefore eligible to graduate upon completion of the internship semester. This includes, but is not limited to, majors, minors/certificates, flex learning, general education, study abroad and prerequisites for graduate programs.
- Secured professional liability insurance
- Current certification in First Aid and CPR (or equivalent) and AED
- UF upper-division cumulative, major and critical-tracking GPA of at least a 2.0, with no I, N or NG grades or flags.
- No deficit points
- All grades posted to UF transcript two weeks before starting internship.
- Submitted all internship materials by the department deadlines and been approved by the department for internship.

Upon submission of the required application for internship (as determined by the department), an academic advisor will determine whether or not the student is academically eligible to complete the internship during the desired semester. For in-depth information regarding internships, please contact a department internship coordinator.

Students can only register and attempt to complete the practicum (if required by the major) and internship two times. If unable to complete successfully after two attempts, the student may be dismissed from the program.

Liability Insurance

All students must secure professional insurance before they begin their internship.

Maximum Credit Load

UF policy allows a maximum of 18 credits; therefore, to exceed 18 credits, college policy requires students to have

- 3.0 GPA in all categories (e.g., UF GPA, critical-tracking GPA),
- One drop available, and
- Academic advisor approval

Non-Degree Requests

The college follows the university’s Employee Education Program (EEP) policies. Non-degree enrollment is restricted to University of Florida employees during the fall and spring semesters only. For college credit and non-UF employees, enrollment is restricted to summer terms only. Non-degree enrollment is subject to the availability of faculty, space and facilities. No application for admission is required. More Info (http://www.registrar.ufl.edu/forms.html)

Undergraduate students who have been denied admission to UF for any term are not eligible for non-degree registration. Students who have previously attended UF in a degree-seeking status who did not subsequently earn a bachelor’s degree are not eligible for non-degree registration.

Visiting Students Attending UF: Undergraduate students in good standing at another accredited collegiate institution can enroll full time at UF as non-degree transient students to complete work to transfer back to the parent institution. The university and this college do not allow transient students during the fall and spring semesters.

Petition Request

Students who are petitioning a department or college policy must complete the general petition request and submit it along with all required documentation to an academic advisor.

The college’s associate dean makes the final decision for graduation participation, internship eligibility, appeals of department petitions, change of major to the college and universal tracking transient course requests. These policies require petition review by an academic advisor, the department chair and/or department petitions committee or designated faculty member, and the college petitions committee. The associate dean for academic affairs or the college’s academic affairs representative will notify the student of the outcome/decision.

Petitionable items at the department level include course substitutions, non-critical-tracking transient course requests, continuation in a major, department internship deadline, residency requirement and readmission to a major.
For all department-level petitions the academic advisor makes a decision or defers decision to the department chair and/or department petitions committee. If the academic advisor approves, no further action is needed by the department and the student is notified by the advisor. If the academic advisor denies or defers the petition, it is reviewed by the department petitions committee. If the department chair and/or department petitions committee reviews and approves the denied or deferred petition, the student will be notified of the decision by the academic advisor.

If the department chair and/or department petitions committee denies the petition, the student can appeal to the college petition committee. Regardless of a recommendation to approve or deny, the petition will be reviewed for final decision by the associate dean for academic affairs. The student will be notified of the decision by the associate dean or the college's authorized representative.

If the petition is denied at the college level the student may contact the UF Ombuds Office and/or submit a senate petition, if appropriate.

**Postbaccalaureate Status**
The university limits the options for postbaccalaureate studies to
- Certificate program/state licensure
- Teacher certification
- Prerequisites for graduate study
- Distance learning

The college abides by the university’s postbaccalaureate policy and therefore limits students to the above criteria. In addition, any student wishing to apply under item 3, prerequisites for graduate study, will be required to apply to a specific department, not the department that offers the course they wish to complete. For example: A student wishing to apply to the physical therapy graduate program who needs anatomy and physiology as prerequisites should apply to the College of Public Health and Health Professions as a postbaccalaureate student.

More Info (http://www.admissions.ufl.edu/grad/postbacc.html)

**Prerequisite Coursework**
The state of Florida has determined that the prerequisite coursework required for a major in the state university system (SUS) will be the same for all SUS schools offering the major. Generally, and in most cases, meeting the prerequisites for admission will be sufficient to meet any course prerequisites. UF students who follow the sequence of courses identified in the critical-tracking plan for their major will satisfy all course prerequisites for that major, provided they achieve the minimum grades required.

**Progress toward Degree**
The college has identified specific performance standards to help students progress toward a degree.

To meet these standards, students must:
- Maintain a minimum 2.0 UF GPA
- Maintain the minimum critical-tracking GPA as designated by department curriculum
- Maintain the minimum upper-division GPA as designated by department curriculum
- Maintain the minimum major GPA as designated by department curriculum
- Complete the degree within 138 credits or 8 semesters (not including summer) without exceeding the maximum credits per semester (excludes AP/IB courses not needed for HHP degree program).

**Request for Fifth Year**
Students who wish to receive a fifth year must complete the general petition request and submit it to their academic advisor along with a graduation plan.

Students also must:
- Maintain a minimum 2.0 UF GPA
- Maintain the minimum critical-tracking GPA as designated by department curriculum
- Maintain the minimum upper-division GPA as designated by department curriculum
- Maintain the minimum major GPA as designated by department curriculum

**Readmission**
To be considered for readmission to the College of Health and Human Performance, students must have a:

- 2.0 UF GPA
- 2.0 critical-tracking GPA, and
- Upper-division GPA as determined by the department/major.

Students who have been dismissed and/or on academic probation (with deficit points) will not be considered for readmission. Readmission is not automatic or guaranteed. In addition to the UF readmission application, applicants must also complete the college's letter of intent.

**Student Responsibility**
Each student is responsible for registering for and completing the proper courses and for fulfilling all requirements for a degree. The student’s advisor will help and counsel, but the student must take the initiative and assume responsibility for meeting all requirements.

Course requirements for each major have been determined and approved by department faculty. The student’s program of study is subject to the approval of an advisor in the major.

To make informed decisions and fulfill personal goals, students must take a responsible and active role in their own advising. More specifically, students must:

**Knowledge**
- Understand the university’s and college’s academic requirements
- Understand the requirements for the major and minor
- Be familiar with general university academic and behavioral policies, and
- Have a sense of academic and career interests, learning strengths and weaknesses and educational needs.

**Behavior**
- Meet as needed with advisor
- Come to appointments on time
- Register in a timely fashion
- Follow through with registration, drop/add and withdrawals in a timely fashion
• Review audit regularly
• Check communication regularly, using a UFL email account
• Respond to communication in a timely fashion, and
• Be an effective self-advocate.

Dispositions
• Work cooperatively
• Be open to new ideas and be willing to explore curricular options
• Be interested in and dedicated to the major, and
• Believe in the value of responsibility and accountability.

Study Abroad
The College of Health and Human Performance encourages students in good standing to study abroad. Students are required to meet with an academic advisor regarding degree requirements prior to registering for any study abroad program.

Students wishing to study abroad must:
• Be in good standing with a minimum 2.5 UF GPA (Students cannot be on academic contract nor under conditional admission.)
• Have completed non-UF study abroad courses prior to term 7
• Be in residence at UF for the last 30 credits. This applies to transient (non-UF; credit earning) programs.
• Not delay or extend the UF timeframe of eight terms, excluding summer, for degree completion
• Have transcripts posted to UF before being cleared for internship.

S/U Option
Students are not permitted to complete required courses using the S/U option. However, courses that are not required for degree certification can be completed using the S/U option. Students choosing to complete a course with the S/U option are required to follow UF policy and deadlines. More Info (p. 1697)

Transfer or Flexible Learning Credit
Transfer and/or flexible learning course credit may be allowed even if taken after the student has been admitted to the major. These courses must be approved in advance by the academic advisor. Students are discouraged from taking such courses after 60 credits. As per UF policy, no more than six credits of flexible learning credit and/or a maximum of 60 credits of community college academic credit can apply toward a UF degree. In general, these courses are recorded on the transcript and can be used to meet core curriculum requirements if approved in advance by the department. Flexible learning and extension course credit are excluded from honors GPA calculation for the College of Health and Human Performance and will not be used to determine Dean’s List GPA.

Transfer Students
For application information, all transfer students should refer to the admission as a transfer section. Within space and fiscal limitations, applicants from other institutions who have satisfied minimum requirements will be considered for admission at the junior level. More Info (p. 28)

Florida state college applicants to the College of Health and Human Performance must complete an Associate of Arts degree and meet all university and college-specific requirements. Admission evaluation factors include:
• academic record,
• cumulative grade point average,
• performance in critical-tracking courses,
• extent to which the applicant exceeds minimum requirements, and
• achievements and career goals as stated in the letter of intent.

The admission review process is a holistic review of the applicant’s overall record and potential in the chosen academic field. Students who complete preprofessional courses outside the state system (students who attend out-of-state, private and/or international institutions) must submit course descriptions to the department advisor.

In addition to the UF transfer application, applicants must also complete the college’s letter of intent. Transfer admission is limited and extremely competitive. Priority will be given to applicants who have completed an A.A. degree from a Florida public college, per the state of Florida articulation agreement.

The departments of Applied Physiology and Kinesiology, Tourism, Recreation and Sport Management, and Health Education and Behavior accept transfer students during the fall and spring semesters only and on a limited basis because of space and fiscal limitations.

Transient Request
Students are not permitted to complete critical-tracking courses as a transient student. Upper-division coursework taken as a transient student is discouraged and approvals will be at the discretion of the department. Students wishing to complete work at another institution must submit the college transient request and be approved by an advisor in advance of taking the course.
More Info (http://www.flvc.org/flvc/portal/Home_Page/Student%20Services/College_Transfer_Center/Transient_Student_Admission_Application?ut/p/c5/04_SB8K8xLLM9MSZ2PyB90CPO0o3IDETPTx9TQwOLAbdDA093dw8vA29nQ0d3/d3/L2dJQsVEVUJ0S9ZQnZ3LzlXMFQ5/)

After being approved at the college level, students may complete the UF transient request on the Florida Virtual Campus website.

Withdrawal Policy
An HHP student who withdraws from the university a second time, with a registration of more than one course that semester, will be placed on college probation. Probation terms will be determined by the advisor working with the student.

Degree Requirements

Successful Progress Toward a Degree
The college has identified specific performance standards to help students complete degree requirements. Successfully meeting these standards will enable students to continue in the major and to graduate in a timely manner.

In those cases where the grade point average or grade in a preprofessional requirement is higher for the major or specialization than for the college, the major/specialization requirement takes precedence.

Students who do not meet performance standards will have to meet with an academic advisor to determine an appropriate course of action.
Failure to meet the performance standards will result in a registration hold.

Graduating with Honors (http://hhp.ufl.edu/current-students/academic-advising/honors/)

Programs

**MAJORS**
- Applied Physiology and Kinesiology
- Combination Degrees
- Health Education and Behavior
- Sport Management
- Tourism, Hospitality and Event Management
- Tourism, Hospitality and Event Management UF Online

**MINORS**
- Event Management Minor
- Event Management Minor UF Online
- Health Promotion Minor

**CERTIFICATES**
- Sport Management Certificate

**UF ONLINE MAJORS**
- Health Education and Behavior | Community Health Promotion UF Online
- Sport Management UF Online
- Tourism, Hospitality and Event Management UF Online

**UF ONLINE MINORS**
- Event Management Minor UF Online
- Health Promotion Minor UF Online

**Applied Physiology and Kinesiology**

Significant research, education and service are at the core of the Department of Applied Physiology and Kinesiology with a focus on the relationship between mind, body and human movement to improve quality of life in regards to health and disease. This multidisciplinary program incorporates medicine, the life sciences and their application to clinical, healthy and athletic populations. Opportunities after graduation include educational institutions, health agencies and organizations, corporate or private fitness programming centers, and other health-related business and industry opportunities.

**Health Education and Behavior**

With a foundation in the social and biological sciences, the department of Health Education and Behavior looks at health education on both the individual and community level. Faculty and student research in the department is focused on the growing array of health problems linked to lack of exercise, diet, substance abuse, stress, unintentional injuries, pollution and how many of these conditions can be prevented and controlled.

**Sport Management**

The sport industry needs highly trained professionals to meet the ever-changing economic and lifestyle growth patterns in tomorrow’s marketplace. With the proliferation of both recreational and spectator sports, the sport management discipline is growing increasingly complex. As a result, successful organizations in the sports industry are constantly searching for leaders with specialized training. The department prepares students for management and leadership positions with professional sports teams, intercollegiate and intramural athletics, and recreation programs at colleges, universities and amateur athletic organizations.

**Tourism, Hospitality and Event Management**

Tourism, Hospitality and Events is the fastest growing industry in the world. The sustained growth has created a major need for skilled human resources. The Department of Tourism, Hospitality and Event Management prepares students to gain competency in industry knowledge, develop intellectual abilities, and foster adaptive and technical leadership skills. In addition, the focus on the growth of individual and group dynamics through critical thinking and experiential learning is emphasized so that students will create change in an ever-evolving industry. Graduates pursue a wide range of exciting career opportunities including travel and tourism, resorts, hotels and attractions, event management, and many other options.
Curriculum

- Applied Physiology and Kinesiology

The University of Florida admits students as freshmen into the Department of Applied Physiology and Kinesiology. Our faculty are award-winning teachers, mentors, and researchers who are passionate about providing students with learning experiences in and out of the classroom that will prepare them for success in any number of professional areas. Our curriculum is designed to give students a foundation in traditional Exercise Physiology and allow for a bit of personal tailoring in the upper division. Students who graduate with a Bachelor of Science degree in APK will be forward-thinking leaders and top-notch problem solvers.

This curriculum provides a strong basic science background and requires additional coursework in the biological aspects of exercise. Students who wish to focus on fitness, wellness, and allied health professions can take classes that focus on exercise programming and techniques and anatomical aspects of movement. Students who are more interested in preparing for graduate school or other post-baccalaureate programs in health sciences can opt for classes with more clinical and advanced physiological content. All students will complete a one-semester internship as a capstone experience. All required courses must be completed before the internship.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=310505&track=02) may be used for transfer students.

Semester 1
- Complete 2 of 9 critical-tracking courses with a 2.8 GPA on tracking coursework: APK 2100C, APK 2105C, APK 3110C, BSC 2010 and BSC 2010L, BSC 2011 and BSC 2011L, CHM 1025 or CHM 2045 and CHM 2045L, MAC 1147 or MAC 2311, PSY 2012, HUN 2201
- 2.0 UF GPA required

Semester 2
- Complete 2 additional critical-tracking courses with a 2.8 GPA on tracking coursework
- 2.0 UF GPA required

Semester 3
- Complete 2 additional critical-tracking courses with a 2.8 GPA on tracking coursework
- 2.0 UF GPA required

Semester 4
- Complete 2 critical-tracking courses with a 2.8 GPA on all tracking coursework
- 2.0 UF GPA required

Semester 5
- Complete all 9 critical-tracking courses with a 2.8 GPA on all tracking coursework
- Complete 2 APK 3XXX or APK 4XXX courses
- 2.0 UF GPA required

Semester 6
- Complete 4 APK 3XXX or APK 4XXX courses
- 2.0 UF GPA required

Semester 7
- Complete all remaining APK 3XXX or APK 4XXX courses, excluding APK 4940C
- 2.0 UF GPA required

Semester 8
- Complete APK 4940C
- 2.0 UF GPA required
# Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

---

**Academic Learning Compact**

The Bachelor of Science in Applied Physiology and Kinesiology offers specializations in exercise physiology and in fitness/wellness. Students will gain extensive understanding of the anatomical, physiological and psychological bases and consequences of human movement. Students will explore the relationship between physical activity and health and learn how to prevent and treat athletic injuries.

**Before Graduating Students Must**

- Pass a comprehensive critique performed by an approved professional in the field of applied physiology and kinesiology and as determined by the department's grading rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Integrate principles and methods of math, social sciences and arts and humanities to applied physiology and kinesiology, wellness and/or fitness environments.
2. Identify and relate the nomenclature, structures and locations of components of human anatomy to health, disease and physical activity.
3. Identify, examine and explain physiological mechanisms of homeostasis at various levels of an organism (i.e., cells, tissues, organs, systems).
4. Investigate and explain the effects of physical activity on psychological health as well as the perspectives used to enhance adherence to healthier lifestyles.
5. Identify and explain the acute and chronic anatomical and physiological adaptations to exercise, training and physical activity.

**Critical Thinking**

6. Select and utilize the appropriate scientific principles when assessing the health and fitness of an individual and prescribing physical activity based on those assessments.
7. Solve applied physiology and kinesiology problems from personal, scholarly and professional perspectives using fundamental concepts of health and exercise, scientific inquiry, and analytical critical and creative thinking.
8. Collect, compare and interpret qualitative or quantitative data in an applied physiology and kinesiology context.

**Communication**

9. Effectively employ written, oral, visual and electronic communication techniques to foster inquiry, collaboration and engagement among applied physiology and kinesiology peers and professionals as well as with patients, clients and/or subjects.

Event Management Minor
This minor provides an opportunity to acquire specialized knowledge and skills in the field of event management. Event Management students can apply the knowledge and skills gained to a variety of settings including but not limited to corporate, non-profits, associations, exhibitions, sport, government, and entertainment. The additional knowledge, skills, and experience gained from this minor can potentially elevate a student’s marketability to future employers.

About this Program
- **College:** Health and Human Performance (p. 856)
- **Credits:** 15 | Completed with a 2.0 cumulative GPA and no S-U grades
- **Contact:** 240 Florida Gym (http://campusmap.ufl.edu/?loc=0021)

Department Information
The Department of Tourism, Hospitality and Event Management prepares students to gain competency in industry knowledge, develop intellectual abilities, and foster adaptive and technical leadership skills. Website (http://hhp.ufl.edu/about/departments/them/)

Health Education and Behavior

The Department of Health Education and Behavior, with a foundation in the social and biological sciences, offers coursework focused on health information and theory application. Health Education and Behavior students learn techniques to promote healthy lifestyle choices in individual and group settings, with special attention given to diversity and culturally appropriate health education methodologies.

About this Program

- **College:** Health and Human Performance (p. 856)
- **Degree:** Bachelor of Science in Health Education
- **Specializations:** Community Health Promotion (p. 869) | Health Studies (p. 874)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

For more than 60 years, the Department of Health Education & Behavior has been at the forefront of the health promotion and public health field, demonstrating leadership in instruction and mentoring, research and scholarship, and service and practice. By emphasizing innovation and data-driven advancements, the department’s efforts ensure that students are well prepared for the health promotion and public health careers of the future.

Curriculum

- Combination Degrees
- Health Education and Behavior
- Health Education and Behavior | Community Health Promotion UF Online
- Health Promotion Minor
- Health Promotion Minor UF Online

The Bachelor of Science in Health Education degree program allows students maximum flexibility to choose department specialization coursework during the junior and senior years that relates to personal interests in the health field. Students can focus their coursework on interest areas in health education and health promotion in community, clinical or worksite settings or in health studies as they prepare for professional health occupations.

Academic Learning Compact

The Bachelor of Science in health education prepares students to work as a health education specialist in schools, government agencies, voluntary health organizations, philanthropic foundations, colleges and universities, private-sector industry and healthcare settings. Health education specialists improve the health and well-being of individuals, families, groups and community populations.

Grounded in social, behavioral, biological and health sciences, the curriculum develops understanding of the causes and determinants of mortality and morbidity and develops specific competencies required of entry-level health education specialists. Graduates will be eligible to take the Certified Health Education Specialist examination governed by The National Commission for Health Education Credentialing, Inc.

Before Graduating Students Must

- Satisfactory performance on at least one major assignment or examination for each core course required for the degree, as determined by performance criteria developed specifically for the assignment.
- Satisfactory completion of the 15 credit health education internship (HSC 4876) as indicated on the final performance appraisal.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

**Content**
1. Identify and apply theories-based strategies for assessing individual and community needs for health education/promotion.
2. Identify and utilize appropriate theory-based models for planning effective health education/promotion programs.
3. Identify and apply a variety of theories, models and strategies for implementing health education/promotion programs.
4. Identify and apply methods and procedures appropriate for evaluating the effectiveness of health education/promotion programs.
5. Coordinate the provisions of health education/promotion services.
6. Describe and employ methods to obtain and disseminate health education/promotion information.

7. Identify and apply the major concepts and principles related to nutrition, substance abuse, emotional health, human sexuality and environmental health.

**Critical Thinking**
8. Examine situations, conditions and events to solve problems independently and to evaluate health education/promotion outcomes.
9. Select health education/promotion programs and services based on best-evidence.

**Communication**
10. Communicate health needs, concerns and resources to identified clients and consumers.
11. Communicate health concepts and health information using a variety of channels to individuals, families and groups from diverse backgrounds in various settings.

**Curriculum**
• Combination Degrees
• Health Education and Behavior
• Health Education and Behavior | Community Health Promotion UF Online
• Health Promotion Minor
• Health Promotion Minor UF Online

The Bachelor of Science in Health Education degree program allows students maximum flexibility to choose department specialization coursework during the junior and senior years that relates to personal interests in the health field. Students can focus their coursework on interest areas in health education and health promotion in community, clinical or worksite settings or in health studies as they prepare for professional health occupations.

**Community Health Promotion**
Students with a primary interest in community health education or worksite health promotion should select the Community Health Promotion specialization. Coursework in this specialization is focused on illness and disease prevention among special target groups within a particular community, with the ultimate goal of providing practical health information to diverse population groups through the use of behavioral interventions. Community health promotion specialists generally find employment in local, state or national government health agencies (state or county health departments, CDC, NIH) and in voluntary organizations such as the American Cancer Society, the March of Dimes and American Heart Association. Worksite health promotion specialists find employment opportunities within diverse small and large businesses and organizations.

This specialization is also appropriate for students planning to pursue graduate programs in health education or related fields (community or public health, health administration, health policy and epidemiology and disease prevention).

Students majoring in health education and behavior are also eligible for the Bachelor/Master of Science combined degree program, thus receiving both degrees within approximately five years. Students interested in this program should schedule an appointment with the department academic advisor before the start of their junior year. More information about the health education and behavior BS/MS program ([http://heb.hhp.ufl.edu/index.php/academia/undergraduate/combined-degree-programs/](http://heb.hhp.ufl.edu/index.php/academia/undergraduate/combined-degree-programs/)).

**Critical Tracking**
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites ([http://www.flvc.org/cpp/displayRecord.jsp?cip=512208&track=01](http://www.flvc.org/cpp/displayRecord.jsp?cip=512208&track=01)) may be used for transfer students.

**Semester 1**
• Complete 2 of 6 critical-tracking courses: APK 2100C, APK 2105C, BSC 2005/BSC 2005L, MAC 1105 or MAC 1140 or MAC 1147, PSY 2012, STA 2023
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

**Semester 2**
• Complete 2 additional critical-tracking courses
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required
**Semester 3**
- Complete 1 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 4**
- Complete all 6 critical-tracking courses, including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

All general education requirements, including international (N) and diversity (D), must be completed prior to the final internship semester.

**Semester 5**
- Complete 2 major courses: HSC 3032, HSC 3102
- Complete 2 of 6 HSC specialization courses – see degree audit for course list options
- 2.0 UF GPA required

**Semester 6**
- Complete 2 additional major courses: HSC 3201, HSC 4713
- Complete 2 additional HSC specialization courses
- 2.0 UF GPA required

**Semester 7**
- Complete 2 additional major courses: HSC 4302, HSC 4800
- Complete all remaining HSC specialization courses
- 2.0 UF GPA required

**Semester 8**
- Complete remaining major courses: HSC 4876
- 2.0 UF GPA required

**Model Semester Plan**
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

4. Identify and apply methods and procedures appropriate for evaluating the effectiveness of health education/promotion programs.
5. Coordinate the provisions of health education/promotion services.
6. Describe and employ methods to obtain and disseminate health education/promotion information.
7. Identify and apply the major concepts and principles related to nutrition, substance abuse, emotional health, human sexuality and environmental health.

Critical Thinking

8. Examine situations, conditions and events to solve problems independently and to evaluate health education/promotion outcomes.
9. Select health education/promotion programs and services based on best-evidence.

Communication

10. Communicate health needs, concerns and resources to identified clients and consumers.
11. Communicate health concepts and health information using a variety of channels to individuals, families and groups from diverse backgrounds in various settings.

Health Studies

The Department of Health Education and Behavior, with a foundation in the social and biological sciences, offers coursework focused on health information and theory application. Health Education and Behavior students learn techniques to promote healthy lifestyle choices in individual and group settings, with special attention given to diversity and culturally appropriate health education methodologies.

About this Program

- **College:** Health and Human Performance (p. 856)
- **Degree:** Bachelor of Science in Health Education
- **Specializations:** Community Health Promotion (p. 869) | Health Studies (p. 874)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

For more than 60 years, the Department of Health Education & Behavior has been at the forefront of the health promotion and public health field, demonstrating leadership in instruction and mentoring, research and scholarship, and service and practice. By emphasizing innovation and data-driven advancements, the department’s efforts ensure that students are well prepared for the health promotion and public health careers of the future. Curriculum

- Combination Degrees
- Health Education and Behavior
- Health Education and Behavior | Community Health Promotion UF Online
- Health Promotion Minor
- Health Promotion Minor UF Online

The Bachelor of Science in Health Education degree program allows students maximum flexibility to choose department specialization coursework during the junior and senior years that relates to personal interests in the health field. Students can focus their coursework on interest areas in health education and health promotion in community, clinical or worksite settings or in health studies as they prepare for professional health occupations.

Health Studies

Students who want in-depth knowledge of diverse health topics, with the intention to complete postbaccalaureate work in a professional health program such as medicine, dentistry, optometry, pharmacy, physician assistant, occupational therapy and physical therapy should select the health
studies specialization. This specialization enables students to gain knowledge on a variety of health issues plaguing diverse population groups and to complete required prerequisite coursework for professional health programs. Students may also pursue graduate programs in health education or related fields (public health, health administration and epidemiology and disease prevention).

Additional science coursework is included within the semester plan to help students meet prerequisites for professional health programs. However, it is imperative that students review the requirements for targeted graduate programs as additional prerequisite coursework outside the curriculum for the major. Students should meet regularly with a pre-health advisor in the Academic Advising Center (100 Farrior Hall) as well as the department academic advisor to ensure adequate preparation for application to professional health programs. Ultimately, students are responsible for ensuring completion of the required prerequisites for their chosen professional health program.

Students majoring in health education and behavior are also eligible for the Bachelor/Master of Science combined degree program, thus receiving both degrees within approximately five years. Students interested in this program should schedule an appointment with the department academic advisor before the start of their junior year. More information about the health education and behavior BS/MS program (http://heb.hhp.ufl.edu/index.php/academia/undergraduate/combined-degree-programs/).

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=512208&track=01) may be used for transfer students.

**Semester 1**
- Complete 2 of 7 critical-tracking courses: APK 2100C, APK 2105C, BSC 2010/BSC 2010L, CHM 2045/CHM 2045L, MAC 1140 or higher level course, PSY 2012, STA 2023
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 2**
- Complete 2 additional critical-tracking courses
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 3**
- Complete 2 additional critical-tracking courses
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 4**
- Complete all 7 critical-tracking courses, including labs
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

All general education requirements, including international (N) and diversity (D), must be completed prior to the final internship semester.

**Semester 5**
- Complete 2 major courses: HSC 3032, HSC 3537
- Complete 1 of 4 HSC specialization courses – see degree audit for course list options
- 2.0 UF GPA required

**Semester 6**
- Complete 2 additional major courses: HSC 4233, HSC 4713
- Complete 1 additional HSC specialization course
- 2.0 UF GPA required
Semester 7

- Complete 2 additional major courses: HSC 4302, HSC 4800
- Complete all remaining HSC specialization courses
- 2.0 UF GPA required

Semester 8

- Complete all remaining major courses: HSC 4876
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Health Studies

Academic Learning Compact

The Bachelor of Science in health education prepares students to work as a health education specialist in schools, government agencies, voluntary health organizations, philanthropic foundations, colleges and universities, private-sector industry and healthcare settings. Health education specialists improve the health and well-being of individuals, families, groups and community populations.

Grounded in social, behavioral, biological and health sciences, the curriculum develops understanding of the causes and determinants of mortality and morbidity and develops specific competencies required of entry-level health education specialists. Graduates will be eligible to take the Certified Health Education Specialist examination governed by The National Commission for Health Education Credentialing, Inc.

Before Graduating Students Must

- Satisfactory performance on at least one major assignment or examination for each core course required for the degree, as determined by performance criteria developed specifically for the assignment.
- Satisfactory completion of the 15 credit health education internship (HSC 4876) as indicated on the final performance appraisal.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify and apply theories-based strategies for assessing individual and community needs for health education/promotion.
2. Identify and utilize appropriate theory-based models for planning effective health education/promotion programs.
3. Identify and apply a variety of theories, models and strategies for implementing health education/promotion programs.
4. Identify and apply methods and procedures appropriate for evaluating the effectiveness of health education/promotion programs.
5. Coordinate the provisions of health education/promotion services.
6. Describe and employ methods to obtain and disseminate health education/promotion information.
7. Identify and apply the major concepts and principles related to nutrition, substance abuse, emotional health, human sexuality and environmental health.

Critical Thinking

8. Examine situations, conditions and events to solve problems independently and to evaluate health education/promotion outcomes.
9. Select health education/promotion programs and services based on best-evidence.

Communication

10. Communicate health needs, concerns and resources to identified clients and consumers.
11. Communicate health concepts and health information using a variety of channels to individuals, families and groups from diverse backgrounds in various settings.

Curriculum
- Combination Degrees
- Health Education and Behavior
- Health Education and Behavior | Community Health Promotion UF Online
- Health Promotion Minor
- Health Promotion Minor UF Online

The Bachelor of Science in Health Education | Community health promotion is designed for students with a primary interest in community health education or worksite health promotion. Coursework is focused on illness and disease prevention among special target groups within a particular community, with the ultimate goal of providing practical health information to diverse population groups through the use of behavioral interventions.

Community health promotion specialists generally find employment in local, state or national government health agencies (state or county health departments, CDC, NIH) and in voluntary organizations such as the American Cancer Society, the March of Dimes and American Heart Association. Worksieh health promotion specialists find employment opportunities within diverse small and large businesses and organizations.

Community health promotion also is appropriate for students planning to pursue graduate programs in health education or related fields (community or public health, health administration, health policy and epidemiology and disease preventions).
Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=512208&track=01) may be used for transfer students.

Semester 1
• Complete 2 of 6 critical-tracking courses: APK 2100C, APK 2105C, BSC 2005/BSC 2005L, MAC 1105 or MAC 1140 or MAC 1147, PSY 2012, STA 2023
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 2
• Complete 2 additional critical-tracking courses
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 3
• Complete 1 additional critical-tracking courses
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 4
• Complete all 6 critical-tracking courses, including labs
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

All general education requirements, including international (N) and diversity (D), must be completed prior to the final internship semester.

Semester 5
• Complete 2 major courses: HSC 3032, HSC 3102
• Complete 2 of 6 HSC specialization courses – see degree audit for course list options
• 2.0 UF GPA required

Semester 6
• Complete 2 additional major courses: HSC 3201, HSC 4713
• Complete 2 additional HSC specialization courses
• 2.0 UF GPA required

Semester 7
• Complete 2 additional major courses: HSC 4302, HSC 4800
• Complete all remaining HSC specialization courses
• 2.0 UF GPA required

Semester 8
• Complete remaining major courses: HSC 4876
• 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.
This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Bachelor of Science in health education prepares students to work as a health education specialist in schools, government agencies, voluntary health organizations, philanthropic foundations, colleges and universities, private-sector industry and healthcare settings. Health education specialists improve the health and well-being of individuals, families, groups and community populations.

Grounded in social, behavioral, biological and health sciences, the curriculum develops understanding of the causes and determinants of mortality and morbidity and develops specific competencies required of entry-level health education specialists. Graduates will be eligible to take the Certified Health Education Specialist examination governed by The National Commission for Health Education Credentialing, Inc.

Before Graduating Students Must

• Satisfactory performance on at least one major assignment or examination for each core course required for the degree, as determined by performance criteria developed specifically for the assignment.
• Satisfactory completion of the 15 credit health education internship (HSC 4876) as indicated on the final performance appraisal.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify and apply theories-based strategies for assessing individual and community needs for health education/promotion.
2. Identify and utilize appropriate theory-based models for planning effective health education/promotion programs.
3. Identify and apply a variety of theories, models and strategies for implementing health education/promotion programs.
4. Identify and apply methods and procedures appropriate for evaluating the effectiveness of health education/promotion programs.
5. Coordinate the provisions of health education/promotion services.
6. Describe and employ methods to obtain and disseminate health education/promotion information.
7. Identify and apply the major concepts and principles related to nutrition, substance abuse, emotional health, human sexuality and environmental health.

Critical Thinking
8. Examine situations, conditions and events to solve problems independently and to evaluate health education/promotion outcomes.
9. Select health education/promotion programs and services based on best-evidence.

Communication
10. Communicate health needs, concerns and resources to identified clients and consumers.
11. Communicate health concepts and health information using a variety of channels to individuals, families and groups from diverse backgrounds in various settings.

Health Promotion Minor

The Health Promotion minor provides a basic understanding of the community health field and an opportunity to gain background in a variety of health issues related to disease prevention and health promotion. Coursework for this minor focuses on health promotion and disease prevention among special target groups within a particular community, with the ultimate goal of providing practical health information to diverse population groups through the use of behavioral interventions.

About this Program

- **College:** Health and Human Performance (p. 856)
- **Credits:** 15 | Completed with a 2.5 cumulative GPA and no grades below C
- **Contact:** 11 Florida Gym (http://campusmap.ufl.edu/?loc=0021)

Department Information

For more than 60 years, the Department of Health Education & Behavior has been at the forefront of the health promotion and public health field, demonstrating leadership in instruction and mentoring, research and scholarship, and service and practice. By emphasizing innovation and data-driven advancements, the department’s efforts ensure that students are well prepared for the health promotion and public health careers of the future.

**Sport Management**

A Bachelor of Science in Sport Management enables students to ethically apply the fundamental concepts of management, marketing, finance, and law to sport organizations. Coursework prepares students for a range of opportunities in the sport industry, including positions with professional, collegiate, and amateur sport organizations.

**About this Program**

- **College**: Health and Human Performance (p. 856)
- **Degree**: Bachelor of Science in Sport Management
- **Credits for Degree**: 120

To graduate with this major, students must complete all university, college, and major requirements.

**Department Information**

The Department of Sport Management (SPM) studies the impact of professional and amateur sports on the personal, social, economic, environmental, and resource infrastructures of society. SPM's goal is to improve the overall quality of life by learning and teaching what leads individuals, families, and industry to value and benefit from sports. Website (http://hhp.ufl.edu/about/departments/spm/)

**CONTACT**

P.O. Box 118208
GAINESVILLE FL 32611-8208

**Curriculum**

- Combination Degrees
- Sport Management
The acquisition of knowledge regarding the internal and external factors that influence sport in society enables students to use accepted techniques of discovery and critical thinking to solve problems, evaluate opinions and determine outcomes within the sport management area.

To earn a Bachelor of Science in Sport Management, a student must successfully complete 120 credits of prescribed coursework. Professional core courses, related option courses and specialization electives are taken during your last two years of work. An approved 13-week internship is required upon completion of all coursework. The 12 credit internship is included in the 120 credits prescribed for the degree.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=310504&track=01) may be used for transfer students.

**Semester 1**

- Complete 2 of 6 critical-tracking courses: ECO 2013 or ECO 2023, MAC 1105, MAR 3023, MAN 3025, PSY 2012 and STA 2023
- 2.2 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 2**

- Complete 2 additional critical-tracking course
- 2.2 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 3**

- Complete 1 additional critical-tracking course
- 2.2 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 4**

- Complete all 6 critical-tracking course
- 2.2 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 5**

- Complete a minimum of 2 SPM or LEI courses at the 3000 or 4000 level
- 2.0 UF GPA required

**Semester 6**

- Complete a minimum of 2 SPM or LEI courses at the 3000 or 4000 level
- 2.0 UF GPA required

**Semester 7**

- Complete remaining SPM or LEI courses
- 2.0 UF GPA required

**Semester 8**

- Complete SPM 4941C with a minimum of 12 credits
- 2.0 UF GPA required
# Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

**Academic Learning Compact**

The Bachelor of Science in Sport Management enables students to apply the fundamental concepts of management, marketing, finance and law to sport organizations. The acquisition of knowledge regarding the internal and external factors that influence sport in society enables students to use accepted techniques of discovery and critical thinking to solve problems, evaluate opinions and determine outcomes within sport management. They will also be able to use qualitative and quantitative analysis to assess problems and to determine solutions for sport organizations, effectively communicating these assessments in speech and in writing to internal and external constituencies.

**Before Graduating Students Must**
- Demonstrate competence (minimum final grades of C) in the core courses SPM 4154, SPM 4515 and SPM 4723.
- Critically demonstrate mastery of critical skills (with a minimum score of 21) needed in planning and delivery of tourism, recreation and sport management programs as assessed by the internship supervisor using a select core of questions in the final internship evaluation.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Discuss the interdisciplinary nature of the study of sport management.
2. Examine and explain the internal and external factors that influence and shape sport in society.
3. Explain what constitutes management and what constitutes an organization. Apply the concepts of planning, organizing, leading, and evaluating organizational goals to sport organizations.
4. Examine and explain how ethical behavior influences financial, marketing and managerial decision-making.
5. Identify fundamental marketing concepts to the sport industry, create marketing plans, evaluate market segments and predict consumer behavior.
6. Develop financial strategies and evaluate budgets and sources of revenues and expenses relevant to sport organizations.
7. Explain and judge fundamental legal concepts relevant to tort, contract and constitutional law, and how they apply to the sport management field.

**Critical Thinking**
8. Use accepted techniques of discovery and critical thinking to solve problems independently and to evaluate opinions and outcomes within and outside of the sport management area.
9. Explain and use qualitative and quantitative analysis through formal and informal assessment strategies.

**Communication**
10. Effectively produce, interpret and analyze written text, oral messages and multimedia presentations used in sport management related settings.

Curriculum

- Combination Degrees
- Sport Management
- Sport Management Certificate
- Sport Management UF Online

The acquisition of knowledge regarding the internal and external factors that influence sport in society enables students to use accepted techniques of discovery and critical thinking to solve problems, evaluate opinions and determine outcomes within the sport management area.

To earn a Bachelor of Science in Sport Management, a student must successfully complete 120 credits of prescribed coursework. Professional core courses, related option courses and specialization electives are taken during your last two years of work. Students are also required to complete a 12-credit internship their last semester. The 12-credit internship is part of the 120 credits prescribed for the degree.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites ([http://www.flvc.org/cpp/displayRecord.jsp?cip=310504&track=01](http://www.flvc.org/cpp/displayRecord.jsp?cip=310504&track=01)) may be used for transfer students.

Semester 1

- Complete 2 of 6 critical-tracking courses: ECO 2013 or ECO 2023, MAC 1105, STA 2023, MAN 3025, MAR 3023, PSY 2012
- 2.2 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking course
- 2.2 GPA required for all critical-tracking courses
- 2.0 UF GPA required
Semester 3
• Complete 1 additional critical-tracking course
• 2.2 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 4
• Complete all 6 additional critical-tracking course
• 2.2 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 5
• Complete a minimum of 2 SPM or LEI courses at the 3000 or 4000 level
• 2.0 UF GPA required

Semester 6
• Complete a minimum of 2 SPM or LEI courses at the 3000 or 4000 level
• 2.0 UF GPA required

Semester 7
• Complete remaining SPM or LEI courses
• 2.0 UF GPA required

Semester 8
• Complete SPM 4941C with a minimum of 12 credits
• 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Bachelor of Science in Sport Management enables students to apply the fundamental concepts of management, marketing, finance and law to sport organizations. The acquisition of knowledge regarding the internal and external factors that influence sport in society enables students to use accepted techniques of discovery and critical thinking to solve problems, evaluate opinions and determine outcomes within sport management. They will also be able to use qualitative and quantitative analysis to assess problems and to determine solutions for sport organizations, effectively communicating these assessments in speech and in writing to internal and external constituencies.

Before Graduating Students Must

• Demonstrate competence (minimum final grades of C) in the core courses SPM 4154, SPM 4515 and SPM 4723.
• Critically demonstrate mastery of critical skills (with a minimum score of 21) needed in planning and delivery of tourism, recreation and sport management programs as assessed by the internship supervisor using a select core of questions in the final internship evaluation.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes (SLOs)

Content

1. Discuss the interdisciplinary nature of the study of sport management.
2. Examine and explain the internal and external factors that influence and shape sport in society.
3. Explain what constitutes management and what constitutes an organization. Apply the concepts of planning, organizing, leading, and evaluating organizational goals to sport organizations.
4. Examine and explain how ethical behavior influences financial, marketing and managerial decision-making.
5. Identify fundamental marketing concepts to the sport industry, create marketing plans, evaluate market segments and predict consumer behavior.
6. Develop financial strategies and evaluate budgets and sources of revenues and expenses relevant to sport organizations.

7. Explain and judge fundamental legal concepts relevant to tort, contract and constitutional law, and how they apply to the sport management field.

**Critical Thinking**

8. Use accepted techniques of discovery and critical thinking to solve problems independently and to evaluate opinions and outcomes within and outside of the sport management area.

9. Explain and use qualitative and quantitative analysis through formal and informal assessment strategies.

**Communication**

10. Effectively produce, interpret and analyze written text, oral messages and multimedia presentations used in sport management related settings.

### Tourism, Hospitality and Event Management

The curriculum prepares students to gain competency in industry knowledge, develop intellectual abilities, and foster adaptive and technical leadership skills. In addition, the focus on the growth of individual and group dynamics through critical thinking is emphasized so that students will become leaders, decision-makers, and entrepreneurs and create change in an ever-evolving industry. Graduates pursue a wide range of exciting career opportunities including hotels, resorts, theme parks, cruise lines, casinos, clubs, restaurants, convention centers, tour operators, corporate, public, and private meetings and events, inclusive of the music, festivals, entertainment, fashion, attractions, and many other options. The curriculum is also designed to prepare students to pursue graduate studies in a similar field or business management.

### About this Program

- **College:** Health and Human Performance (p. 856)
- **Degree:** Bachelor of Science in Tourism, Hospitality and Event Management
- **Specializations:** Event Management (p. 894) | General (p. 898) | Tourism and Hospitality Management (p. 902)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

### Department Information

The Department of Tourism, Hospitality and Event Management prepares students to gain competency in industry knowledge, develop intellectual abilities, and foster adaptive and technical leadership skills. Website (http://hhp.ufl.edu/about/departments/them/)

Map (http://campusmap.ufl.edu/#/index/0021)

### Curriculum

- Combination Degrees
- Event Management Minor
- Event Management Minor UF Online
- Tourism, Hospitality and Event Management
- Tourism, Hospitality and Event Management UF Online

To earn the Bachelor of Science in Tourism, Hospitality and Event Management courses must be completed successfully in general education, the major, and related professional and specialized courses. All students take a common core of classes providing them with foundational knowledge within the discipline. Subsequently, students select one of three specializations: **Tourism and Hospitality Management, Event Management, or General.** An approved 13-week internship is required upon completion of all coursework or the successful completion of the Academic Option (for those who qualify). Both options are included in the 120 credits for the degree. Students that have current or past industry experience (supervisory or entry level but not seasonal employment) will be able to substitute the full-time internship engagement with a choice of five department course electives taken
over the course of several semesters. Students interested in the academic option will need to submit the following documents for approval beginning of their junior year: 1) notice of intent form, 2) current resume, and 3) statement that outlines personal and professional goals, along with an overview of how past industry experience has prepared for a desired career position.

### Academic Learning Compact

The curriculum prepares students to gain competency in industry knowledge, develop intellectual abilities, and foster adaptive and technical leadership skills. In addition, the focus on the growth of individual and group dynamics through critical thinking is emphasized so that students will become leaders, decision-makers, and entrepreneurs and create change in an ever-evolving industry. Graduates pursue a wide range of exciting career opportunities including hotels, resorts, theme parks, cruise lines, casinos, clubs, restaurants, convention centers, tour operators, corporate, public, and private meetings and events, inclusive of the music, festivals, entertainment, fashion, attractions, and many other options. The curriculum is also designed to prepare students to pursue graduate studies in a similar field or business management.

### Before Graduating Students Must

- Demonstrate competence (minimum final grades of C) in the core courses LEI 3301, LEI 4540, HFT 4468, and LEI 4880..
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Identify major concepts, principles and theories associated with tourism, hospitality, and event management.
2. Apply management functions of planning, organizing, leading and controlling the use of resources to accomplish performance goals in tourism, hospitality, and event management.
3. Identify economic, sociological, psychological, political, legal and environmental issues that influence the delivery of tourism, hospitality, and event services to residents and tourists.
4. Interpret information technology and statistical techniques in assessment, planning, delivery and evaluation of tourism, hospitality, and event management programs.
5. Apply programming and marketing strategies aligned to the development of tourism, events and hospitality services.
6. Develop financial strategies and evaluate budgets and sources of revenues and expenses relevant to financial strategies to tourism, events and hospitality services.

**Critical Thinking**

7. Identify and apply diverse sources of information and data integrated with theoretical frameworks, models and trends to issues related to leadership, management and delivery of tourism, hospitality, and events management services.

**Communication**

8. Communicate to consumer publics and professional cohorts through written text, oral messages and multimedia presentations.

### Academic Learning Compact

The curriculum prepares students to gain competency in industry knowledge, develop intellectual abilities, and foster adaptive and technical leadership skills. In addition, the focus on the growth of individual and group dynamics through critical thinking is emphasized so that students will become leaders, decision-makers, and entrepreneurs and create change in an ever-evolving industry. Graduates pursue a wide range of exciting career opportunities including hotels, resorts, theme parks, cruise lines, casinos, clubs, restaurants, convention centers, tour operators, corporate, public, and private meetings and events, inclusive of the music, festivals, entertainment, fashion, attractions, and many other options. The curriculum is also designed to prepare students to pursue graduate studies in a similar field or business management.

### Before Graduating Students Must

- Demonstrate competence (minimum final grades of C) in the core courses LEI 3301, LEI 4540, HFT 4468, and LEI 4880.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major will Learn to
Student Learning Outcomes (SLOs)

Content
1. Identify major concepts, principles and theories associated with tourism, hospitality, and event management.
2. Apply management functions of planning, organizing, leading and controlling the use of resources to accomplish performance goals in tourism, hospitality, and event management.
3. Identify economic, sociological, psychological, political, legal and environmental issues that influence the delivery of tourism, hospitality, and event services to residents and tourists.
4. Interpret information technology and statistical techniques in assessment, planning, delivery and evaluation of tourism, hospitality, and event management programs.
5. Apply programming and marketing strategies aligned to the development of tourism, events and hospitality services.
6. Develop financial strategies and evaluate budgets and sources of revenues and expenses relevant to financial strategies to tourism, events and hospitality services.

Critical Thinking
7. Identify and apply diverse sources of information and data integrated with theoretical frameworks, models and trends to issues related to leadership, management and delivery of tourism, hospitality, and events management services.

Communication
8. Communicate to consumer publics and professional cohorts through written text, oral messages and multimedia presentations.

Curriculum

- Combination Degrees
- Event Management Minor
- Event Management Minor UF Online
- Tourism, Hospitality and Event Management
- Tourism, Hospitality and Event Management UF Online

To earn the Bachelor of Science in Tourism, Hospitality and Event Management courses must be completed successfully in general education, the major, and related professional and specialized courses. All students take a common core of classes providing them with foundational knowledge within the discipline. Subsequently, students select one of three specializations: Tourism and Hospitality Management, Event Management, or General. An approved 13-week internship is required upon completion of all coursework or the successful completion of the Academic Option (for those who qualify). Both options are included in the 120 credits for the degree. Students that have current or past industry experience (supervisory or entry level but not seasonal employment) will be able to substitute the full-time internship engagement with a choice of five department course electives taken over the course of several semesters. Students interested in the academic option will need to submit the following documents for approval beginning of their junior year: 1) notice of intent form, 2) current resume, and 3) statement that outlines personal and professional goals, along with an overview of how past industry experience has prepared for a desired career position.

General

Gain the knowledge and skills necessary to work in a wide array of sectors related to the tourism, hospitality, and event management. This provides an opportunity to select courses within the department to develop broad content knowledge.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=310301&track=3/6) may be used for transfer students.

Semester 1

- Complete 1 of 5 critical-tracking courses: Complete 1 of 5 critical-tracking courses: ECO 2013 or ECO 2023, SPC 2608 or AEC 3030C, Two LEI or HFT courses and one of the following EDF 3110, DEP 3053, PSY 2012 or SYG 2000
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required
Semester 5
• Complete all 5 critical-tracking courses
• 2.0 UF GPA required

Semester 6
• Complete any additional LEI or HFT course
• 2.0 UF GPA required

Semester 7
• Complete LEI 3921 or Departmental Elective Toward Academic Option
• 2.0 UF GPA required

Semester 8
• Complete LEI 4940 Departmental Elective Toward Academic Option
• 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

1. Identify major concepts, principles and theories associated with tourism, hospitality, and event management.
2. Apply management functions of planning, organizing, leading and controlling the use of resources to accomplish performance goals in tourism, hospitality, and event management.
3. Identify economic, sociological, psychological, political, legal and environmental issues that influence the delivery of tourism, hospitality, and event services to residents and tourists.
4. Interpret information technology and statistical techniques in assessment, planning, delivery and evaluation of tourism, hospitality, and event management programs.
5. Apply programming and marketing strategies aligned to the development of tourism, events and hospitality services.
6. Develop financial strategies and evaluate budgets and sources of revenues and expenses relevant to financial strategies to tourism, events and hospitality services.

Critical Thinking
7. Identify and apply diverse sources of information and data integrated with theoretical frameworks, models and trends to issues related to leadership, management and delivery of tourism, hospitality, and events management services.

Communication
8. Communicate to consumer publics and professional cohorts through written text, oral messages and multimedia presentations.

Tourism, Hospitality and Event Management UF Online

The curriculum prepares students to gain competency in industry knowledge, develop intellectual abilities, and foster adaptive and technical leadership skills. In addition, the focus on the growth of individual and group dynamics through critical thinking is emphasized so that students will become leaders, decision-makers, and entrepreneurs and create change in an ever-evolving industry. Graduates pursue a wide range of exciting career opportunities including hotels, resorts, theme parks, cruise lines, casinos, clubs, restaurants, convention centers, tour operators, corporate, public, and private meetings and events, inclusive of the music, festivals, entertainment, fashion, attractions, and many other options. The curriculum is also designed to prepare students to pursue graduate studies in a similar field or business management.

About this Program
• College: Health and Human Performance (p. 856)
• Degree: Bachelor of Science in Tourism, Hospitality and Event Management
• Specializations: Event Management (http://catalog.ufl.edu/UGRD/colleges-schools/UGHHU/TRM_BSTM_UFO/TRM_BSTM01_UFO/) | Tourism and Hospitality Management (http://catalog.ufl.edu/UGRD/colleges-schools/UGHHU/TRM_BSTM_UFO/TRM_BSTM03_UFO/)

Curriculum
• Combination Degrees
• Event Management Minor
• Event Management Minor UF Online
• Tourism, Hospitality and Event Management
• Tourism, Hospitality and Event Management UF Online

To earn the Bachelor of Science in Tourism, Hospitality and Event Management courses must be completed successfully in general education, the major, and related professional and specialized courses. All students take a common core of classes providing them with foundational knowledge within the discipline. Subsequently, students select one of three specializations: Tourism and Hospitality Management, Event Management, or General. An approved 13-week internship is required upon completion of all coursework or the successful completion of the Academic Option (for those who qualify). Both options are included in the 120 credits for the degree. Students that have current or past industry experience (supervisory or entry level but not seasonal employment) will be able to substitute the full-time internship engagement with a choice of five department course electives taken over the course of several semesters. Students interested in the academic option will need to submit the following documents for approval beginning of their junior year: 1) notice of intent form, 2) current resume, and 3) statement that outlines personal and professional goals, along with an overview of how past industry experience has prepared for a desired career position.

Academic Learning Compact
The curriculum prepares students to gain competency in industry knowledge, develop intellectual abilities, and foster adaptive and technical leadership skills. In addition, the focus on the growth of individual and group dynamics through critical thinking is emphasized so that students will become leaders, decision-makers, and entrepreneurs and create change in an ever-evolving industry. Graduates pursue a wide range of exciting career opportunities including hotels, resorts, theme parks, cruise lines, casinos, clubs, restaurants, convention centers, tour operators, corporate, public,
and private meetings and events, inclusive of the music, festivals, entertainment, fashion, attractions, and many other options. The curriculum is also designed to prepare students to pursue graduate studies in a similar field or business management.

**Before Graduating Students Must**

- Demonstrate competence (minimum final grades of C) in the core courses LEI 3301, LEI 4540, HFT 4468, and LEI 4880.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Identify major concepts, principles and theories associated with tourism, hospitality, and event management.
2. Apply management functions of planning, organizing, leading and controlling the use of resources to accomplish performance goals in tourism, hospitality, and event management.
3. Identify economic, sociological, psychological, political, legal and environmental issues that influence the delivery of tourism, hospitality, and event services to residents and tourists.
4. Interpret information technology and statistical techniques in assessment, planning, delivery and evaluation of tourism, hospitality, and event management programs.
5. Apply programming and marketing strategies aligned to the development of tourism, events and hospitality services.
6. Develop financial strategies and evaluate budgets and sources of revenues and expenses relevant to financial strategies to tourism, events and hospitality services.

**Critical Thinking**

7. Identify and apply diverse sources of information and data integrated with theoretical frameworks, models and trends to issues related to leadership, management and delivery of tourism, hospitality, and events management services.

**Communication**

8. Communicate to consumer publics and professional cohorts through written text, oral messages and multimedia presentations.

**Established**

1925

The University of Florida College of Journalism and Communications is driving innovation and engagement across the disciplines of advertising, journalism, public relations and telecommunication. The strength of its programs, faculty, students and alumni – in research and in practice
— has earned the college ongoing recognition as one of the best in the nation among its peers.

The college offers bachelor’s, master’s and doctoral degrees, a mass communication minor, and certificates, both online and on campus. The college’s strength is drawn from both academic rigor and experiential learning. CJC students gain practical experience in the Innovation News Center, which generates content across multiple platforms, and The Agency, a strategic communication agency that began operation in 2015.

The college includes seven broadcast and digital media properties.

Accredited
Accrediting Council on Education in Journalism and Mass Communications (ACEJMC)

Academic Divisions
- Department of Advertising
- Department of Journalism
- Department of Public Relations
- Department of Telecommunication
- Division of Graduate Studies and Research

Degrees
Bachelor’s degrees in advertising, journalism, public relations and telecommunication, Master of Arts and a Ph.D. in mass communication.

Academic Advising
Professional Advising and Teaching Hub (PATH), 1060 Weimer Hall, maintains student records and offers undergraduate academic advising.

Internships
Students can earn credits by completing professional internships. Grades for internships must be S/U. Internship credit can be repeated with change of assignment for a maximum of six credits. Any internship credit beyond the six, such as through the Honors office, will not count toward a student’s 124-credit total needed for the degree.

Learning/Training Tools
The college is home to PBS affiliate (WUFT-TV), NPR affiliates (WUF-FM, WJUF-FM) for North Central Florida, two commercial radio stations (WRUF-AM/FM), a low-power television station (WLUF-TV), the student magazine Orange and Blue, the Brechner Center for Freedom of Information, the Innovation News Center (INC), Brechner Project, The Agency, Center for Public Interest Communications, and STEM Translational Communication Research Program.

Scholarships
The College’s Knight Division for Scholarships, Career Services and Multicultural Affairs provides undergraduates with information about scholarships and assistantships, internships, placement services, and the college’s minority recruitment and retention activities.

The College awards more than $400,000 annually in undergraduate scholarships and assistantships. The application deadline is February 1. For more information, write to:

Academic Policies

Freshman Information
The university’s Office of Admissions coordinates freshman admission.

Transfer Information
The College of Journalism and Communications evaluates applicants on a space-available basis. A 2.5 grade point average (on all work attempted) and 60 credits of acceptable credit are generally required for admission at the junior year.

"An AA graduate from a Florida public postsecondary institution shall receive priority for admission to a state university over out-of-state transfer students." - Florida Board of Governors articulation agreement

To be eligible for admission, a transfer student from a Florida public college must have an Associate of Arts degree, including all prerequisite tracking courses. Transfer students from other universities and non-Florida public colleges should complete the first two years’ requirements for the major before transferring.

Students denied admissions may petition. Petitions are available from PATH: Professional Advising and Teaching Hub, 1060 Weimer Hall.

Double Major/Dual Degrees
Students who want to specialize in more than one field can earn one of the bachelor’s degrees in this college and a second outside the college. Individuals who want to earn dual bachelor’s degrees must complete the required form, including approval signatures from each department/college. Students are expected to complete all undergraduate coursework in 4 years, or two if transferring. Journalism and Communications majors cannot double major or minor within the college.

Combination Degrees
A combination-degree program allows interested undergraduates to take up to four graduate classes. These classes fulfill undergraduate college requirements and can then be used a second time to satisfy the requirements for a Master’s degree if graded B or higher. Undergraduates from all four departments may apply to participate in one of the combination-degree programs in the college.

- Combination Degrees
Transfer Credit
Transfer students may transfer up to 60 semester credits from a state of Florida public university or community college. Credits taken beyond 60 may meet certain requirements but will not count toward the 124 credits needed to graduate. After 60 credits, credit taken with permission as a transient student at another university can be transferred to UF, but the last 31 credits needed must be UF courses. Professional courses required for a student’s major generally cannot be taken at other schools.

Satisfactory/Unsatisfactory Option
Undergraduate students in the college may not take courses designated ADV, JOU, MMC, PUR, RTV or VIC under the satisfactory-unsatisfactory (S/U) option, except courses which are offered only for an S/U grade. More Info (http://www.flvc.org/flvc/portal/Home_Page/Student%20Services/College_Transfer_Center/Transient_Student_Admission_Application/u/t/p/c5/04_SBBK8xLLM9MSZzSbPy8xBz9CPoos3iDEETPfx9TQwOLUMbDA093dw8vA29h0C08eM30L_wVP7G5CDEAC02eVEU/d3/d3/L2dJQSEvUUh3QS9QnZ3LzZMFQ5/)

Students are permitted to take elective courses outside the college on an S/U basis, subject to university rules published in the Academic Regulations section of this catalog.

After the S/U option is approved, students must not elect to convert to a letter-grade. Writing requirement courses cannot be taken S/U.

Courses for the outside concentration may be taken S/U with the following restrictions (in addition to university restrictions):

• The option may not be applied to any course below the 3000 level.
• Not more than three credits of S/U work may be taken to fulfill the outside concentration requirement.
• No beginning-level course may be offered for outside concentration credit under S/U.
• 9 credits of English required by the college may not be taken S/U.
• Courses used for the quantitative option may not be taken S/U.
• Refer to the university calendar for deadlines to apply for the S/U option.

Probation and Suspension
A student will be placed on college probation if they fail to maintain a 2.0 overall average and a 2.0 professional average. A student will be flagged if either or both of these averages falls below a 2.0 GPA for two consecutive terms. Students on college suspension must successfully petition the college for reinstatement.

Dropping Courses
Petitions to drop courses beyond the first two may be approved only when documented circumstances beyond the student’s control prevent the satisfactory completion of a course.

In all cases, students must file the petition with the PATH: Professional Advising and Teaching Hub, 1060 Weimer Hall. Consideration of petitions normally takes 1-2 weeks. All petitions must be submitted before the semester deadline. After these dates, all petitions are processed through the University Petitions Committee in 222 Criser Hall.

Flexible Learning
No CJC student can receive credit for a required professional course in the major through flexible learning study. No more than six semester credits of flexible learning coursework can be used to fulfill undergraduate degree requirements.

Please note: Concurrent enrollment at another institution is not allowed by the College of Journalism and Communications while enrolled in UF courses.

Outside Concentration
The College of Journalism and Communications requires that all students complete 12 credits of coursework in a department outside of the college or 12 hours in an approved area of study recommended by the department to meet specific career goals. Nine of the twelve credits should be at the 3000 level or above. In lieu of an outside concentration, a student may complete an approved UF minor that is offered outside of the college.

Professional Limit
The college stresses a broad background in liberal arts and sciences. Students spend most of their time on general background courses. The remaining time involves development of professional techniques in relation to this general knowledge.

Because the college insists on a general education background, the number of professional credits (ADV, JOU, MMC, PUR, RTV and VIC) applied toward graduation is limited to 52.

Professional courses as defined by the college and accepted by transfer are counted toward the 52 credits. A student must earn a minimum of 72 credits of non-college courses as part of the 124 credits required.

Dean’s List
More Info (p. 1644)

Students cannot qualify for dean’s list if they have grades of I, N or U. Certificates of recognition are issued by request from the PATH: Professional Advising and Teaching Hub in 1060 Weimer Hall.

Degree Requirements
To earn a bachelor’s degree, a student must satisfy these requirements:

• Earn at least 124 credits, up to 60 credits of which may be accepted by transfer from another college or university. The last 31 of these credits must be earned while the student is enrolled in classes in this college. A minimum of 72 credits must come from courses outside the college and a minimum of 52 credits must come from inside the college.
• Earn a minimum 2.0 in all work attempted while an upper-division student and a minimum 2.0 in all work attempted in courses with prefixes ADV, JOU, MMC, PUR, RTV, and VIC.
• Earn a minimum grade of C in required English, speech and foreign language courses. Advertising majors also must earn minimum grades of C in MAR 3023 and STA 2023. Public relations majors must earn a minimum grade of C in STA 2023.

According to the student’s major, minimum grades of C are also required in:

thus achieve an exemption from a foreign language requirement.”

From the UF catalog: "UF students may use the FLPE (Foreign Language Proficiency Examinations) to prove proficiency in a foreign language and thus achieve an exemption from a foreign language requirement.”

CLEP
Students may also take the corresponding CLEP test for foreign language. From the university catalog: "Students beginning in the fall or spring term must have taken the exams...and have their scores reported to the university before the end of their first term of enrollment at UF."

For other languages not listed above, students should consult an advisor to discuss acceptable options for demonstrating proficiency. Students who wish to demonstrate proficiency must do so before earning 90 credits.

Quantitative Option
Students who don’t want to complete the college foreign language requirements need to take 8 credits of the quantitative options listed below.

Outside Concentration
The College of Journalism and Communications requires that all students complete 12 credits of coursework in a department outside of the college. Nine of the twelve credits should be at the 3000 level or above. In lieu of an outside concentration, a student may complete an approved UF minor that is offered outside of the college.

Policy for Unsuccessful Completion of Required Courses
Students who complete a course and do not earn at least the minimum grade required for satisfying a degree requirement may repeat the course once. If they are not successful the second time they may not retake the course. Students may petition this restriction if there are extenuating circumstances.

Curriculum
• Advertising
• Advertising | Persuasive Messaging UF Online
• Combination Degrees

UF’s Department of Advertising consistently ranks as one of the top U.S. advertising programs. It is based in a college accredited by the Accrediting Council for Education in Journalism and Mass Communication. The department’s curriculum, among the most comprehensive in the United States, is taught by a faculty with the knowledge and experience to bring a balance of professional skills and conceptual orientation to the classroom.

Students choose one of two specializations:

Advertising Agency
Emphasizes skills that are necessary for entry-level positions in an advertising agency and is designed to provide a foundation for advancement to positions of leadership in these organizations. This specialization introduces the concepts and skills needed to prepare for careers in account management, account planning, media planning, research, art direction, and copywriting. All students in the Advertising Campaigns course are required to complete a program-level assessment.

Persuasive Messaging
Focuses on the skill set required to engage media audiences with the use of strategic, persuasive communications. The specialization emphasizes the concepts and application of audience and media analytics, advertising sales, brand storytelling, and message persuasion. The specialization prepares students for careers in a broad array of industries and organizations.
Academic Learning Compact

The advertising curriculum is designed to provide a foundation for problem-solving, strategic thinking, and persuasion techniques that drive audience-centered marketplace communications. Skills attained can be applied to the advertising industry, to entrepreneurism, and to health marketing, among others. Learning outcomes prepare students for the challenges of culturally diverse and technologically changing marketplaces.

Students choose one of two specializations:

Advertising Agency
The Advertising Agency specialization emphasizes skills that are necessary for entry-level positions in an advertising agency and is designed to provide a foundation for advancement to positions of leadership in these organizations. This track introduces students to the concepts and skills needed to prepare for careers in account management, account planning, media planning, research, art direction and copywriting.

Persuasive Messaging
The Persuasive Messaging specialization focuses on the skill set required to engage media audiences through the use of strategic, persuasive communications. The track emphasizes the concepts and application of audience and media analytics, advertising sales, brand storytelling, and message persuasion. The track prepares students for careers in a broad array of industries and organizations.

Before Graduating Students Must

- Achieve a passing score of 70% on your student portfolio, which will be evaluated by two faculty members as part of ADV 4800, the major’s capstone course.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Correctly identify information and trends related to the history and roles of professionals and institutions in shaping strategic communications.

Critical Thinking
2. Formulate accurate audience insights from research and consumer information.
3. Correctly analyze strategic communication from case studies in branding.

Communication
4. Work effectively in teams to solve strategic communication problems.
5. Orally present ideas and recommendations clearly and effectively.

Professional Elective | 2
Outside concentration courses | 6
Electives (outside college) | 4
Credits | 15
Total Credits | 124

1. Minimum grade of C required.
2. Pure math.

Students are expected to Experiential learning Course I during their junior year and Experiential Learning Course II during their senior year.

**Professional Electives**

**12 Credits Minimum**

MMC 1009 and 11 additional credits

Students may take any other courses in the College of Journalism and Communications to count as professional electives. Students are encouraged to work with faculty members to select electives that best meet career goals.

*Up to six credits of professional internship credit may count toward graduation.*

*Minimum grade of C required in these courses.*

**Academic Learning Compact**

The advertising curriculum is designed to provide a foundation for problem-solving, strategic thinking, and persuasion techniques that drive audience-centered marketplace communications. Skills attained can be applied to the advertising industry, to entrepreneurism, and to health marketing, among others. Learning outcomes prepare students for the challenges of culturally diverse and technologically changing marketplaces.

Students choose one of two specializations:

**Advertising Agency**

The Advertising Agency specialization emphasizes skills that are necessary for entry-level positions in an advertising agency and is designed to provide a foundation for advancement to positions of leadership in these organizations. This track introduces students to the concepts and skills needed to prepare for careers in account management, account planning, media planning, research, art direction and copywriting.

**Persuasive Messaging**

The Persuasive Messaging specialization focuses on the skill set required to engage media audiences through the use of strategic, persuasive communications. The track emphasizes the concepts and application of audience and media analytics, advertising sales, brand storytelling, and message persuasion. The track prepares students for careers in a broad array of industries and organizations.

**Before Graduating Students Must**

- Achieve a passing score of 70% on your student portfolio, which will be evaluated by two faculty members as part of ADV 4800, the major’s capstone course.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Correctly identify information and trends related to the history and roles of professionals and institutions in shaping strategic communications.

**Critical Thinking**

2. Formulate accurate audience insights from research and consumer information.
3. Correctly analyze strategic communication from case studies in branding.

**Communication**

4. Work effectively in teams to solve strategic communication problems.
5. Orally present ideas and recommendations clearly and effectively.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=090903&track=01) may be used for transfer students.

**Semester 1**
- 2.0 GPA on all work at all institutions

**Semester 2**
- Complete 2 of 8 critical-tracking courses: ADV 3008, ENC 1102, ECO 2013, MAR 3023, MMC 1009, MMC 2604, POS 2041, or PSY 2012, and STA 2023
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

**Semester 3**
- Complete 2 additional critical-tracking courses
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

**Semester 4**
- Complete 2 additional critical-tracking courses
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

**Semester 5**
- Complete all critical-tracking courses
- Complete ADV 3001, ADV 3403, MMC 3420, VIC 3001
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions
### SEMESTER 6
- Complete ADV 3500
- Complete Experiential Learning Course 1
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

### SEMESTER 7
- Complete MMC 4200
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

### SEMESTER 8
- Complete Experiential Learning Course 2
- Complete Outside Writing Elective (Outside the college 6000 word)
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

---

**Total Credits: 124**

1. Minimum grade of C required.
2. Pure math.

For semesters 7-8, students must complete two professional courses.

### Professional Electives

**18 credits minimum**

MMC 1009 and 17 additional credits

Students may take any other courses in the College of Journalism and Communications to count as professional electives. Students are encouraged to work with faculty members to select electives that best meet career goals. Recommended certificate options (e.g., International Communication, Graphic Design), combined degree options (Global Strategic Communication, Web Design, Social Media), and various concentrations of strategic messaging courses (e.g., media management, audiences and media, audience engagement) are available in the PATH office and advertising department office.

*Up to six credits of professional internship credit may count toward graduation.*

*Minimum grade of C required in these courses.*

### Academic Learning Compact

The advertising curriculum is designed to provide a foundation for problem-solving, strategic thinking, and persuasion techniques that drive audience-centered marketplace communications. Skills attained can be applied to the advertising industry, to entrepreneurship, and to health marketing, among others. Learning outcomes prepare students for the challenges of culturally diverse and technologically changing marketplaces.

Students choose one of two specializations:
Advertising Agency
The Advertising Agency specialization emphasizes skills that are necessary for entry-level positions in an advertising agency and is designed to provide a foundation for advancement to positions of leadership in these organizations. This track introduces students to the concepts and skills needed to prepare for careers in account management, account planning, media planning, research, art direction and copywriting.

Persuasive Messaging
The Persuasive Messaging specialization focuses on the skill set required to engage media audiences through the use of strategic, persuasive communications. The track emphasizes the concepts and application of audience and media analytics, advertising sales, brand storytelling, and message persuasion. The track prepares students for careers in a broad array of industries and organizations.

Before Graduating Students Must
- Achieve a passing score of 70% on your student portfolio, which will be evaluated by two faculty members as part of ADV 4800, the major’s capstone course.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Correctly identify information and trends related to the history and roles of professionals and institutions in shaping strategic communications.

Critical Thinking
2. Formulate accurate audience insights from research and consumer information.
3. Correctly analyze strategic communication from case studies in branding.

Communication
4. Work effectively in teams to solve strategic communication problems.
5. Orally present ideas and recommendations clearly and effectively.

Curriculum

- Advertising
- Advertising | Persuasive Messaging UF Online
- Combination Degrees

UF’s Department of Advertising consistently ranks as one of the top U.S. advertising programs. It is based in a college accredited by the Accrediting Council for Education in Journalism and Mass Communication. The department’s curriculum, among the most comprehensive in the United States, is taught by a faculty with the knowledge and experience to bring a balance of professional skills and conceptual orientation to the classroom.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=090903&track=01) may be used for transfer students.

Semester 1

- 2.0 GPA on all work at all institutions
Semester 2
• Complete 2 of 8 critical-tracking courses: ADV 3008, ENC 1102, ECO 2013, MAR 3023, MMC 1009, MMC 2604, POS 2041, or PSY 2012, and STA 2023
• 2.0 GPA required for all critical-tracking courses
• 2.5 GPA on all work at all institutions

Semester 3
• Complete 2 additional critical-tracking courses
• 2.0 GPA required for all critical-tracking courses
• 2.5 GPA on all work at all institutions

Semester 4
• Complete 2 additional critical-tracking courses
• 2.0 GPA required for all critical-tracking courses
• 2.5 GPA on all work at all institutions

SEMMER 5
• Complete all critical-tracking courses
• Complete ADV 3001, ADV 3403, MMC 3420, VIC 3001
• 2.0 GPA required for all critical-tracking courses
• 2.0 GPA on all work at all institutions

SEMESTER 6
• Complete ADV 3500
• Complete Experiential Learning Course 1
• 2.0 GPA required for all critical-tracking courses
• 2.0 GPA on all work at all institutions

SEMESTER 7
• Complete MMC 4200
• 2.0 GPA required for all critical-tracking courses
• 2.0 GPA on all work at all institutions

SEMESTER 8
• Complete Experiential Learning Course 2
• Complete Outside Writing Elective (Outside the college 6000 word)
• 2.0 GPA required for all critical-tracking courses
• 2.0 GPA on all work at all institutions

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

1 Minimum grade of C required.
2 Pure math.
For semesters 7-8, students must complete two professional courses.

**Professional Electives**

18 credits minimum

MMC 1009 and 17 additional credits

Students may take any other courses in the College of Journalism and Communications to count as professional electives. Students are encouraged to work with faculty members to select electives that best meet career goals. Recommended certificate options (e.g., International Communication, Graphic Design), combined degree options (Global Strategic Communication, Web Design, Social Media), and various concentrations of strategic messaging courses (e.g., media management, audiences and media, audience engagement) are available in the PATH office and advertising department office.

*Up to six credits of professional internship credit may count toward graduation.*

*Minimum grade of C required in these courses.*

**Academic Learning Compact**

The advertising curriculum is designed to provide a foundation for problem-solving, strategic thinking, and persuasion techniques that drive audience-centered marketplace communications. Skills attained can be applied to the advertising industry, to entrepreneurism, and to health marketing, among others. Learning outcomes prepare students for the challenges of culturally diverse and technologically changing marketplaces.

Students choose one of two specializations:

**Advertising Agency**

The Advertising Agency specialization emphasizes skills that are necessary for entry-level positions in an advertising agency and is designed to provide a foundation for advancement to positions of leadership in these organizations. This track introduces students to the concepts and skills needed to prepare for careers in account management, account planning, media planning, research, art direction and copywriting.

**Persuasive Messaging**

The Persuasive Messaging specialization focuses on the skill set required to engage media audiences through the use of strategic, persuasive communications. The track emphasizes the concepts and application of audience and media analytics, advertising sales, brand storytelling, and message persuasion. The track prepares students for careers in a broad array of industries and organizations.

**Before Graduating Students Must**

- Achieve a passing score of 70% on your student portfolio, which will be evaluated by two faculty members as part of ADV 4800, the major’s capstone course.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Correctly identify information and trends related to the history and roles of professionals and institutions in shaping strategic communications.

**Critical Thinking**

2. Formulate accurate audience insights from research and consumer information.
3. Correctly analyze strategic communication from case studies in branding.

**Communication**

4. Work effectively in teams to solve strategic communication problems.
5. Orally present ideas and recommendations clearly and effectively.

**Curriculum Map**

- International Communication Certificate
- Journalism
- Journalism | Sports and Media UF Online
- Mass Communication Studies Minor
- Mass Communication Studies Minor UF Online

The courses enable students to develop their storytelling talent - in words, visuals or data - and prepare them for careers in all kinds of media professions, including as reporters, writers, photographers, editors, designers, multimedia storytellers, broadcast journalists, and more. The flexible curriculum allows students to work in all kinds of traditional and new media platforms. Excellent writing skills are essential. Graduates of the program work with major journalism and media companies, as well as other industries, and have won prolific honors, including the Pulitzer Prize.

In this curriculum, core courses offer students foundational skills and professional electives and capstones allow students to develop strengths and specialization in one or more areas, such as data, coding, photojournalism, specialized reporting, audio storytelling, TV reporting and producing, design, newsroom skills, narrative nonfiction, and more.

Equipment Requirement

All students who major in journalism are required to own a Mac laptop computer with the appropriate software, a digital audio recorder and a digital camera.

More Info (http://www.jou.ufl.edu/academics/bachelors/journalism/equipment-requirement/)

**Academic Learning Compact**

The journalism curriculum provides a foundation in reporting, writing, numeracy, the use of public records, First Amendment/media law, history of media, and storytelling in a variety of platforms. Specialized coursework is offered in a variety of subjects, and the curriculum is designed to allow
flexibility for faculty to develop curriculum in evolving areas (such is the case for the robust development of courses in data journalism and coding, both areas that did not exist several years ago).

Skills developed are applicable to traditional platforms of journalism, as well as new, hybrid, or non-traditional forms of media. Learning outcomes prepare students for the challenges of culturally diverse and technologically changing marketplaces.

The department has two specializations:

**Journalism**
Students learn base skills required for journalism- and journalism-related careers. Students gain a foundation in reporting, writing, public records, and more, and they all develop a two-course specialization in their area of interest (such as photojournalism, coding, data journalism, specialized reporting, magazine writing, and more). Students come together after these two-course specializations to work in small teams in a common capstone that emphasizes advanced project work.

**Sports and Media**
While still having roots in traditional journalism, this curriculum has an emphasis on sports-related coursework across the college's departments. Students are prepared for a variety of careers in sports media. Students are required to do an internship in this curriculum, which can serve as a capstone experience.

**Before Graduating Students Must**
• Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Apply basic numerical and statistical concepts used by journalists.

**Critical Thinking**
2. Conduct research and evaluation information that is accessible through advanced database and public records.
3. Demonstrate reporting skills that reflect a diverse and pluralistic society.
4. Understand and apply the principles and laws of freedom of speech and press.

**Communication**
5. Write correctly and clearly in forms and styles appropriate for the journalism and communications professions and audiences.

Minimum grades of C are required in all journalism courses.

**Pre-Approved Two-Course Sequences**

*6 credits*

Students select a two-course sequence in an area of specialization. Students may work with an advisor and the department chair to customize a plan. Students must have appropriate prereqs to enter the first course in the specialization. Students must take course 1 before JOU 4950 and can be simultaneously enrolled in course 2 with JOU 4950, but it is preferred that both courses are completed before taking JOU 4950.

*Minimum grade of C required in these courses*

Selecting an area of emphasis does not preclude students from taking courses in other areas. Students are able to create personalized degree plans in collaboration with an advisor.

**Professional Electives | 14 credits**

Students may take any other 3000-level or above courses in the College of Journalism and Communications to count as electives, including other courses in two-course sequences above. Students are encouraged to work with faculty members to construct electives that best meet career goals.

*Up to six credits of professional Journalism Internship (JOU 4940) and up to 3 credits of Electronic Media Practicum (RTV 3945) will count as Professional Elective credit. Internship courses in Public Relations, Advertising, and Telecommunication will not count as Professional Elective credit. Minimum grade of C required in College of Journalism and Communications upper division courses.*

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=090401&track=01) may be used for transfer students.

**Semester 1**

- Complete 1 of 6 critical tracking courses: MMC 1009, ENC 1102, MMC 2604, STA 2023, ECO 2013, JOU 3110
- 2.0 GPA on all work at all institutions

**Semester 2**

- Complete an additional 2 of 6 critical-tracking courses
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions
### Semester 3
- Complete 1 additional critical-tracking courses
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

### Semester 4
- Complete all critical-tracking courses
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

### Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

---

**Academic Learning Compact**

The journalism curriculum provides a foundation in reporting, writing, numeracy, the use of public records, First Amendment/media law, history of media, and storytelling in a variety of platforms. Specialized coursework is offered in a variety of subjects, and the curriculum is designed to allow flexibility for faculty to develop curriculum in evolving areas (such is the case for the robust development of courses in data journalism and coding, both areas that did not exist several years ago).

Skills developed are applicable to traditional platforms of journalism, as well as new, hybrid, or non-traditional forms of media. Learning outcomes prepare students for the challenges of culturally diverse and technologically changing marketplaces.

The department has two specializations:

**Journalism**

Students learn base skills required for journalism- and journalism-related careers. Students gain a foundation in reporting, writing, public records, and more, and they all develop a two-course specialization in their area of interest (such as photojournalism, coding, data journalism, specialized reporting, magazine writing, and more). Students come together after these two-course specializations to work in small teams in a common capstone that emphasizes advanced project work.

**Sports and Media**

While still having roots in traditional journalism, this curriculum has an emphasis on sports-related coursework across the college’s departments. Students are prepared for a variety of careers in sports media. Students are required to do an internship in this curriculum, which can serve as a capstone experience.

**Before Graduating Students Must**

- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Apply basic numerical and statistical concepts used by journalists.

Critical Thinking
2. Conduct research and evaluation information that is accessible through advanced database and public records.
3. Demonstrate reporting skills that reflect a diverse and pluralistic society.
4. Understand and apply the principles and laws of freedom of speech and press.

Communication
5. Write correctly and clearly in forms and styles appropriate for the journalism and communications professions and audiences.

Sports and Media
The Department of Journalism consistently ranks among the best journalism programs in the country. It is housed in a college professionally accredited by the Accrediting Council for Education in Journalism and Mass Communication. The department’s mission is to teach the art and craft of journalism and to foster an appreciation for accuracy, fairness, truth, and diversity.

About this Program
- **College**: Journalism and Communications (p. 907)
- **Degree**: Bachelor of Science in Journalism
- **Specializations**: Journalism (p. 928) | Sports and Media (p. 933)
- **Credits for Degree**: 124
- **Contact**: Email (jouasst@jou.ufl.edu) | 352.392.0500 | 2070 Weimer Hall (http://campusmap.ufl.edu/?loc=0030)
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
Graduates of the Department of Journalism work in traditional forms of media, emerging platforms, and in corporate roles. Ultimately, the department offers transferrable skills that creates outstanding leaders with successful achievements across all fields.

Curriculum

• /UGRD/colleges-schools/UGJRC/JRC_UCT0X/
• Combination Degrees
• International Communication Certificate
• Journalism
• Journalism | Sports and Media UF Online
• Mass Communication Studies Minor
• Mass Communication Studies Minor UF Online

The courses enable students to develop their storytelling talent - in words, visuals or data - and prepare them for careers in all kinds of media professions, including as reporters, writers, photographers, editors, designers, multimedia storytellers, broadcast journalists, and more. The flexible curriculum allows students to work in all kinds of traditional and new media platforms. Excellent writing skills are essential. Graduates of the program work with major journalism and media companies, as well as other industries, and have won prolific honors, including the Pulitzer Prize.

In this curriculum, core courses offer students foundational skills and professional electives and capstones allow students to develop strengths and specialization in one or more areas, such as data, coding, photojournalism, specialized reporting, audio storytelling, TV reporting and producing, design, newsroom skills, narrative nonfiction, and more.

Equipment Requirement

All students who major in journalism are required to own a Mac laptop computer with the appropriate software, a digital audio recorder and a digital camera.

More Info (http://www.jou.ufl.edu/academics/bachelors/journalism/equipment-requirement/)

Sports and Media

The Sports and Media specialization in Journalism teaches students to be skilled in multiples areas of sports media and communications. Students will learn strategies and skills in reporting, writing, video, audio, social media, and more. Students will engage in critical thinking about current issues and trends in today’s sports media—and have multiple opportunities to gain practical and immersive experience in media properties inside and outside of the College of Journalism and Communications.

The Sports and Media specialization is not available for Innovation Academy.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=090401&track=01) may be used for transfer students.

**Semester 1**
- Complete 1 of 8 critical tracking courses: MMC 2450, ENC 1102, MMC 3703, STA 2023, ECO 2013, RTV 3502, JOU 4313 or RTV 3593, RTV 4959
- 2.0 GPA on all work at all institutions

**Semester 2**
- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

**Semester 3**
- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

**Semester 4**
- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

**Semester 5**
- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

**Semester 6**
- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

**Semester 7**
- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

**Semester 8**
- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

**Model Semester Plan**

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.
This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Journalism | Sports and Media UF Online
The Department of Journalism consistently ranks among the best journalism programs in the country. It is housed in a college professionally accredited by the Accrediting Council for Education in Journalism and Mass Communication. The department’s mission is to teach the art and craft of journalism and to foster an appreciation for accuracy, fairness, truth, and diversity.

About this Program
• **College**: Journalism and Communications (p. 907)
• **Degree**: Bachelor of Science in Journalism
• **Credits for Degree**: 124
To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Graduates of the Department of Journalism work in traditional forms of media, emerging platforms, and in corporate roles. Ultimately, the department offers transferrable skills that creates outstanding leaders with successful achievements across all fields.

- Combination Degrees
- International Communication Certificate
- Journalism
- Journalism | Sports and Media UF Online
- Mass Communication Studies Minor
- Mass Communication Studies Minor UF Online

The courses enable students to develop their storytelling talent - in words, visuals or data - and prepare them for careers in all kinds of media professions, including as reporters, writers, photographers, editors, designers, multimedia storytellers, broadcast journalists, and more. The flexible curriculum allows students to work in all kinds of traditional and new media platforms. Excellent writing skills are essential. Graduates of the program work with major journalism and media companies, as well as other industries, and have won prolific honors, including the Pulitzer Prize.

In this curriculum, core courses offer students foundational skills and professional electives and capstones allow students to develop strengths and specialization in one or more areas, such as data, coding, photojournalism, specialized reporting, audio storytelling, TV reporting and producing, design, newsroom skills, narrative nonfiction, and more.

Equipment Requirement

All students who major in journalism are required to own a Mac laptop computer with the appropriate software, a digital audio recorder and a digital camera.

More Info (http://www.jou.ufl.edu/academics/bachelors/journalism/equipment-requirement/)

Sports and Media

The Sports and Media specialization in Journalism teaches students to be skilled in multiples areas of sports media and communications. Students will learn strategies and skills in reporting, writing, video, audio, social media, and more. Students will engage in critical thinking about current issues and trends in today’s sports media—and have multiple opportunities to gain practical and immersive experience in media properties inside and outside of the College of Journalism and Communications.

The Sports and Media specialization is not available for Innovation Academy.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=090401&track=01) may be used for transfer students.

**Semester 1**
- Complete 1 of 8 critical tracking courses: MMC 2450, ENC 1102, MMC 3703, STA 2023, ECO 2013, RTV 3502, JOU 4313 or RTV 3593, RTV 4959
- 2.0 GPA on all work at all institutions

**Semester 2**
- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

**Semester 3**
- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

**Semester 4**
- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

**Semester 5**
- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

**Semester 6**
- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

**Semester 7**
- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions
### Semester 8

- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

#### Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

Up to six credits of professional internship credit may count toward graduation.
Academic Learning Compact

The journalism curriculum provides a foundation in reporting, writing, numeracy, the use of public records, First Amendment/media law, history of media, and storytelling in a variety of platforms. Specialized coursework is offered in a variety of subjects, and the curriculum is designed to allow flexibility for faculty to develop curriculum in evolving areas (such as the case for the robust development of courses in data journalism and coding, both areas that did not exist several years ago).

Skills developed are applicable to traditional platforms of journalism, as well as new, hybrid, or non-traditional forms of media. Learning outcomes prepare students for the challenges of culturally diverse and technologically changing marketplaces.

The department has two specializations:

Journalism
Students learn base skills required for journalism- and journalism-related careers. Students gain a foundation in reporting, writing, public records, and more, and they all develop a two-course specialization in their area of interest (such as photojournalism, coding, data journalism, specialized reporting, magazine writing, and more). Students come together after these two-course specializations to work in small teams in a common capstone that emphasizes advanced project work.

Sports and Media
While still having roots in traditional journalism, this curriculum has an emphasis on sports-related coursework across the college’s departments. Students are prepared for a variety of careers in sports media. Students are required to do an internship in this curriculum, which can serve as a capstone experience.

Before Graduating Students Must
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Apply basic numerical and statistical concepts used by journalists.

Critical Thinking
2. Conduct research and evaluation information that is accessible through advanced database and public records.
3. Demonstrate reporting skills that reflect a diverse and pluralistic society.
4. Understand and apply the principles and laws of freedom of speech and press.

Communication
5. Write correctly and clearly in forms and styles appropriate for the journalism and communications professions and audiences.

Media Sales and Account Management Certificate

The Media Sales and Account Management certificate emphasizes sales within the changing media landscape. It offers modern training in media buying, planning, and selling. Students learn and apply best practice for providing customers traditional and digital solutions, cross-media platform selling, best sales practices, and revenue management. They apply these practices in a sales internship.

About this Program

- College: Journalism and Communications (p. 907)
- Credits: 14

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

Graduates of the Department of Journalism work in traditional forms of media, emerging platforms, and in corporate roles. Ultimately, the department offers transferrable skills that creates outstanding leaders with successful achievements across all fields.

### Public Relations

Public Relations is designed to prepare students for entry-level jobs as technicians, such as producing social media strategies and tactics or effective multimedia news releases, as well as for career advancement as managers, such as formulating a communication plan for a new initiative or forecasting the reputational impact of an organizational decision or action. Excellent writing and critical thinking skills are essential.

### About this Program

- **College:** Journalism and Communications (p. 907)
- **Degree:** Bachelor of Science in Public Relations
- **Credits for Degree:** 124

To graduate with this major, students must complete all university, college, and major requirements.

### Department Information

The Department of Public Relations provides exemplary leadership, education, and scholarship to advance public relations’ unique role and responsibilities to foster organization-public relationships through effective communication and actions in support of a civil society and democratic ideals.

Website (https://www.jou.ufl.edu/current-students/current-undergraduate/current-academics/public-relations/)

Curriculum

- Combination Degrees
- Public Relations
- Public Relations UF Online

The public relations curriculum is one of the most in-depth curricula in the country, with a balance between skills and conceptual courses. The Department of Public Relations consistently ranks among the top public relations education programs in the United States, and it is among the largest programs in terms of the number of faculty and students, including one of the largest chapters of the Public Relations Student Society of America. The program is housed in a college accredited by the Accrediting Council for Education in Journalism and Mass Communication.

Graduates of the program are well-prepared for careers as public relations practitioners in businesses, public relations firms, government agencies and nonprofit organizations, nationally and internationally. Their education makes them attractive candidates for graduate degree programs (master’s and Ph. D.) ranging from public relations to business and international relations.

Certificate in International Communication

Students may pursue a certificate in international communication, which is designed to prepare students for career advancement and development. Courses emphasize the impact of internationalization and globalization on communication across disciplines.

¹ Minimum grade of C required.

Equipment Requirement

All public relations students are required to have a laptop computer. Laptops must be capable of running the Adobe Creative Cloud suite software. Students registered for VIC 3001, which is required of all public relations majors, must subscribe to, download, and install the Adobe Creative Cloud suite of software before class begins.

Other courses in the public relations curriculum require Microsoft Office software or equivalent, including spreadsheets and statistics software (e.g., Excel, SPSS) and presentation software (e.g., PowerPoint or Keynote).

Some software is available for free or at a steep student discount through UF Apps. Please inquire with UF Apps before making software purchases. More Info (http://info.apps.ufl.edu/)

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=090902&track=01) may be used for transfer students.

Semester 1

- Complete 1 critical-tracking course: MMC 1009.
- 2.0 GPA on all work at all institutions
Semester 2
• Complete 3 critical-tracking courses: POS 2041/PSY 2012, ENC 1102, ECO 2013
• 2.0 GPA required for all critical-tracking courses
• 2.5 GPA on all work at all institutions

Semester 3
• Complete 1 critical-tracking course: VIC 3001
• 2.0 GPA required for all critical-tracking courses
• 2.5 GPA on all work at all institutions

Semester 4
• Complete 2 critical-tracking courses: STA 2023, PUR 3000
• 2.0 GPA required for all critical-tracking courses
• 2.5 GPA on all work at all institutions

Semester 5
• Complete 2 critical-tracking courses: MMC 3203, MMC 4200
• 2.0 GPA required for all critical-tracking courses
• 2.5 GPA on all work at all institutions

Semester 6
• Complete 2 critical-tracking courses: JOU 3101, PUR 3500
• 2.0 GPA required for all critical-tracking courses
• 2.0 GPA on all work at all institutions

Semester 7
• Complete 1 critical-tracking course: PUR 4100
• 2.0 GPA required for all critical-tracking courses
• 2.0 GPA on all work at all institutions

Semester 8
• Complete 1 critical-tracking course: PUR 4800
• 2.0 GPA required for all critical-tracking courses
• 2.0 GPA on all work at all institutions

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact
The major in public relations enables students to develop the knowledge and skills, including analytical and communication skills, necessary for the effective practice of public relations. Students will learn public relations principles, perspectives for understanding and communicating with targeted and diverse publics and a systematic process for problem solving that emphasizes programming based on formative and evaluative research. Special attention is paid to writing skills and students will acquire the ability to write correctly and clearly in forms and styles appropriate for public relations practice. They will learn to use tools and relevant technologies, including new media, and students will also develop an understanding of ethical principles, including the importance of truth and accuracy, which guide public relations practice.

Before Graduating Students Must
- Achieve a passing score of 70% or higher on a major individual project (e.g., media kit) developed in PUR 4100 Public Relations Writing and evaluated by the class instructor.
- Achieve a passing score of 70% or higher on a comprehensive campaign plan for an organizational client, developed in the major's capstone course, PUR 4800 Public Relations Campaigns, and evaluated by the class instructor.
- Achieve a satisfactory rating on four of the five SLOs on a standardized evaluation completed by internship supervisors as part of PUR 4940 Public Relations Internship.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Identify and discuss concepts and theories relevant to effective public relations practice.
2. Describe the history and role of professionals and institutions in shaping public relations practice.
3. Display professional ethical principles and exemplify the values of truth, honesty, accuracy, fairness and diversity.
4. Appropriately apply tools and technologies relevant to public relations practice.

Critical Thinking
5. Gather information and conduct research for public relations planning and evaluation.
6. Appropriately apply basic numerical and statistical concepts for public relations planning and evaluation.
7. Creatively and independently analyze public relations problems.

Communication
8. Write correctly and clearly in forms and styles appropriate for public relations practice.
9. Select and use images and information for public relations practice.

**Academic Learning Compact**

The major in public relations enables students to develop the knowledge and skills, including analytical and communication skills, necessary for the effective practice of public relations. Students will learn public relations principles, perspectives for understanding and communicating with targeted and diverse publics and a systematic process for problem solving that emphasizes programming based on formative and evaluative research. Special attention is paid to writing skills and students will acquire the ability to write correctly and clearly in forms and styles appropriate for public relations practice. They will learn to use tools and relevant technologies, including new media, and students will also develop an understanding of ethical principles, including the importance of truth and accuracy, which guide public relations practice.

**Before Graduating Students Must**

- Achieve a passing score of 70% or higher on a major individual project (e.g., media kit) developed in PUR 4100 Public Relations Writing and evaluated by the class instructor.
- Achieve a passing score of 70% or higher on a comprehensive campaign plan for an organizational client, developed in the major’s capstone course, PUR 4800 Public Relations Campaigns, and evaluated by the class instructor.
- Achieve a satisfactory rating on four of the five SLOs on a standardized evaluation completed by internship supervisors as part of PUR 4940 Public Relations Internship.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Identify and discuss concepts and theories relevant to effective public relations practice.
2. Describe the history and role of professionals and institutions in shaping public relations practice.
3. Display professional ethical principles and exemplify the values of truth, honesty, accuracy, fairness and diversity.
4. Appropriately apply tools and technologies relevant to public relations practice.

**Critical Thinking**

5. Gather information and conduct research for public relations planning and evaluation.
6. Appropriately apply basic numerical and statistical concepts for public relations planning and evaluation.
7. Creatively and independently analyze public relations problems.

**Communication**

8. Write correctly and clearly in forms and styles appropriate for public relations practice.
9. Select and use images and information for public relations practice.

Curriculum

- Combination Degrees
- Telecommunication
- Telecommunication | Media and Society UF Online

Specializations

**Digital Film and Television Production**

Prepares students for careers in program creation, writing and the creative applications of video and audio technology.

**Management and Strategy**

Prepares students to enter the profession through positions in audience research analytics, sales, and marketing and promotion. Focuses on the theories, methods and techniques used to play, produce and distribute audio and video programs and messages; personnel and facilities management; marketing and distribution; media regulations, law and policy; and principles of broadcast technology.
Media and Society
Prepares individuals to work in media organizations and those organizations that use electronic media, social media, and emerging technologies such as political campaigns, government, education, and business. The specialization allows for several combinations of courses to fulfill degree requirements.

Students can also use the communication skills they acquire to pursue graduate degrees. Students majoring in telecommunication participate in the university's six broadcast stations, other on campus facilities such as the Gator Network and elective internships throughout the world.

Academic Learning Compact
The major in telecommunication, which includes specializations in management, media and society, and digital film and television production, prepares students to understand the means of communicating with diverse audiences and to use the tools of information gathering and storytelling to communicate with those audiences through electronic media such as video, audio and interactive technologies. Through study and practical application, students gain knowledge of the history, norms and legal and ethical milieu of the telecommunication professions. Students learn to locate and use reference tools and to demonstrate the ability to communicate independent, critical perspectives.

Before Graduating Students Must
• Achieve a passing score of 70% on your student portfolio, which will be evaluated by faculty members and/or professionals in each specialty.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to
Student Learning Outcomes (SLOs)

Content
1. Identify, describe or apply concepts and theories in the use and presentation of content.
2. Identify, describe or apply professional ethical principles and the importance of truth, accuracy, fairness and diversity.
3. Identify, describe or apply the tools and technologies appropriate for the telecommunication professions.

Critical Thinking
4. Gather information, conduct research and evaluate information by methods appropriate to the telecommunication professions.
5. Produce appropriate output that demonstrates creativity and critical thinking, independently or collaboratively.

Communication
6. Communicate effectively in forms and styles appropriate to the telecommunication professions, audiences and the purposes they serve.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=090701&track=01) may be used for transfer students.

Semester 1

- Complete critical-tracking course STA 2023 or ENC 1101
- 2.0 GPA on all work at all institutions

Semester 2

- Complete 2 of 5 critical-tracking courses: ENC 1101, ECO 2013, MMC 1009, RTV 2100 (MMC 2100 can be substituted for RTV 2100), RTV 3001
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions
Semester 3
• Complete 2 additional critical-tracking courses
• 2.0 GPA required for all critical-tracking courses
• 2.5 GPA on all work at all institutions

Semester 4
• Complete 1 additional critical-tracking course
• 2.0 GPA required for all critical-tracking courses
• 2.5 GPA on all work at all institutions

Semester 5
• Complete all critical-tracking courses

Semester 6
• Complete RTV 4500
• 2.0 UF GPA required

Semester 7
• Complete MMC 3420 or RTV 4506
• Complete RTV 4700
• 2.0 UF GPA required

Semester 8
• Complete RTV 4432 or MMC 3203
• Complete RTV 4800
• 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Total Credits: 124

1 Minimum grade of C required
2 MMC 2100 or JOU 3109C is accepted in lieu of RTV 2100

For semesters 7-8, students must complete two professional courses.

Up to six credits of professional internship credit may count toward graduation. Internships for credit require department approval, and a letter from the internship supervisor outlining duties and contact information. Internship application forms, information, and policies are available on the Department of Telecommunication website.

---

Academic Learning Compact

The major in telecommunication, which includes specializations in management, media and society, and digital film and television production, prepares students to understand the means of communicating with diverse audiences and to use the tools of information gathering and storytelling to communicate with those audiences through electronic media such as video, audio and interactive technologies. Through study and practical application, students gain knowledge of the history, norms and legal and ethical milieu of the telecommunication professions. Students learn to locate and use reference tools and to demonstrate the ability to communicate independent, critical perspectives.
Before Graduating Students Must

• Achieve a passing score of 70% on your student portfolio, which will be evaluated by faculty members and/or professionals in each specialty.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe or apply concepts and theories in the use and presentation of content.
2. Identify, describe or apply professional ethical principles and the importance of truth, accuracy, fairness and diversity.
3. Identify, describe or apply the tools and technologies appropriate for the telecommunication professions.

Critical Thinking
4. Gather information, conduct research and evaluate information by methods appropriate to the telecommunication professions.
5. Produce appropriate output that demonstrates creativity and critical thinking, independently or collaboratively.

Communication
6. Communicate effectively in forms and styles appropriate to the telecommunication professions, audiences and the purposes they serve.

Curriculum

- Combination Degrees
- Telecommunication
- Telecommunication | Media and Society UF Online

Specializations

Digital Film and Television Production

Prepares students for careers in program creation, writing and the creative applications of video and audio technology.

Management and Strategy

Prepares students to enter the profession through positions in audience research analytics, sales, and marketing and promotion. Focuses on the theories, methods and techniques used to play, produce and distribute audio and video programs and messages; personnel and facilities management; marketing and distribution; media regulations, law and policy; and principles of broadcast technology.

Media and Society

Prepares individuals to work in media organizations and those organizations that use electronic media, social media, and emerging technologies such as political campaigns, government, education, and business. The specialization allows for several combinations of courses to fulfill degree requirements.

Students can also use the communication skills they acquire to pursue graduate degrees. Students majoring in telecommunication participate in the university's six broadcast stations, other on campus facilities such as the Gator Network and elective internships throughout the world.

**Management Specialization**

**Media and Society Specialization**
Assessment Types

- Policy memo and exam in addition to:
  - **Management**: written and oral presentation of a strategic plan developed for a client
  - **Media and Society**: written final project
  - **Digital Film and Television Production**: final video project

Digital Film and Television Production

The Department of Telecommunication consistently ranks among the top five in the United States and is accredited by the Accrediting Council for Education in Journalism and Mass Communication.

About this Program

- **College**: Journalism and Communications (p. 907)
- **Degree**: Bachelor of Science in Telecommunication
- **Specializations**: Digital Film and Television Production (p. 969) | Management and Strategy (p. 959) | Media and Society (p. 964)
- **Credits for Degree**: 124
- **Contact**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Telecommunication program is one of the most comprehensive in the country, with complete specializations in Digital Film and Video Production, Management and Strategy, and Media and Society.

Curriculum

- Combination Degrees
- Telecommunication
- Telecommunication | Media and Society UF Online

Specializations

Digital Film and Television Production

Prepares students for careers in program creation, writing and the creative applications of video and audio technology.

Management and Strategy

Prepares students to enter the profession through positions in audience research analytics, sales, and marketing and promotion. Focuses on the theories, methods and techniques used to play, produce and distribute audio and video programs and messages; personnel and facilities management; marketing and distribution; media regulations, law and policy; and principles of broadcast technology.

Media and Society

Prepares individuals to work in media organizations and those organizations that use electronic media, social media, and emerging technologies such as political campaigns, government, education, and business. The specialization allows for several combinations of courses to fulfill degree requirements.
Students can also use the communication skills they acquire to pursue graduate degrees. Students majoring in telecommunication participate in the university's six broadcast stations, other on campus facilities such as the Gator Network and elective internships throughout the world.

¹ Minimum grade of C required

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=090701&track=01) may be used for transfer students.

Semester 1

- Complete critical-tracking course STA 2023 or ENC 1101
- 2.0 GPA on all work at all institutions

Semester 2

- Complete 2 of 5 critical-tracking courses: ENC 1101, ECO 2013, MMC 1009, RTV 2100 (MMC 2100 can be substituted for RTV 2100), RTV 3001
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

Semester 3

- Complete 2 additional critical-tracking courses
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

Semester 4

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions
SEMESTER 5
• Complete all lower division critical-tracking courses
• 2.0 GPA on all work at all institutions

SEMESTER 6
• Complete RTV 3320
• 2.0 GPA on all work at all institutions

SEMESTER 7
• Complete RTV 3516 and RTV 4500
• Complete RTV 4929C with a minimum grade of C
• 2.0 GPA on all work at all institutions

SEMESTER 8
• Complete RTV 4432 with a minimum grade of C
• Complete RTV 4700
• 2.0 GPA on all work at all institutions

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

### Total Credits

124

¹ Minimum grade of C required
² MMC 2100 or JOU 3109C is accepted in lieu of RTV 2100

For semesters 7-8, students must complete two professional courses.

Up to six credits of professional internship credit may count toward graduation. Internships for credit require department approval, and a letter from the internship supervisor outlining duties and contact information. Internship application forms, information, and policies are available on the Department of Telecommunication website.

### Academic Learning Compact

The major in telecommunication, which includes specializations in management, media and society, and digital film and television production, prepares students to understand the means of communicating with diverse audiences and to use the tools of information gathering and storytelling to communicate with those audiences through electronic media such as video, audio and interactive technologies. Through study and practical application, students gain knowledge of the history, norms and legal and ethical milieu of the telecommunication professions. Students learn to locate and use reference tools and to demonstrate the ability to communicate independent, critical perspectives.

### Before Graduating Students Must

- Achieve a passing score of 70% on your student portfolio, which will be evaluated by faculty members and/or professionals in each specialty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major will Learn to

**Student Learning Outcomes (SLOs)**

**Content**

1. Identify, describe or apply concepts and theories in the use and presentation of content.
2. Identify, describe or apply professional ethical principles and the importance of truth, accuracy, fairness and diversity.
3. Identify, describe or apply the tools and technologies appropriate for the telecommunication professions.
**Critical Thinking**
4. Gather information, conduct research and evaluate information by methods appropriate to the telecommunication professions.
5. Produce appropriate output that demonstrates creativity and critical thinking, independently or collaboratively.

**Communication**
6. Communicate effectively in forms and styles appropriate to the telecommunication professions, audiences and the purposes they serve.

RTV 4500 Telecommunication Programming

Total Credits 55
Minimum grade of C required
These courses cannot be used to meet other requirements

Students may substitute a 12-credit combination degree program for one block.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=090701&track=01) may be used for transfer students.

**Semester 1**
- Complete critical-tracking course STA 2023 or ENC 1101
- 2.0 GPA on all work at all institutions

**Semester 2**
- Complete 2 of 5 critical-tracking courses: ENC 1101, ECO 2013, MMC 1009, RTV 2100 (MMC 2100 can be substituted for RTV 2100), RTV 3001
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

**Semester 3**
- Complete 2 additional critical-tracking courses
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

**Semester 4**
- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

**Semester 5**
- Complete all critical-tracking courses

**SEMESTER 6**
- Complete Specialization Block Courses (6 Credits)
- 2.0 UF GPA required

**SEMESTER 7**
- Complete RTV 4700 or MMC 4200
- 2.0 UF GPA required

**SEMESTER 8**
- Complete RTV 4420
- 2.0 UF GPA required

**Model Semester Plan**

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

1 Minimum grade of C required.

2 MMC 2100 or JOU 3109C is accepted in lieu of RTV 2100.

Up to six credits of professional internship credit may count toward graduation. Internships for credit require department approval, and a letter from the internship supervisor outlining the duties and contact information. Internship application forms, information, and policies are available on the Department of Telecommunication website.

**Academic Learning Compact**

The major in telecommunication, which includes specializations in management, media and society, news, and digital film and television production, prepares students to understand the means of communicating with diverse audiences and to use the tools of information gathering and storytelling to communicate with those audiences through electronic media such as video, audio and interactive technologies. Through study and practical application, students gain knowledge of the history, norms and legal and ethical milieu of the telecommunication professions. Students learn to locate and use reference tools and to demonstrate the ability to communicate independent, critical perspectives.

**Before Graduating Students Must**

- Achieve a passing score of 70% on your student portfolio, which will be evaluated by faculty members and/or professionals in each specialty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Identify, describe or apply concepts and theories in the use and presentation of content.
2. Identify, describe or apply professional ethical principles and the importance of truth, accuracy, fairness and diversity.
3. Identify, describe or apply the tools and technologies appropriate for the telecommunication professions.

**Critical Thinking**

4. Gather information, conduct research and evaluate information by methods appropriate to the telecommunication professions.
5. Produce appropriate output that demonstrates creativity and critical thinking, independently or collaboratively.
Communication
6. Communicate effectively in forms and styles appropriate to the telecommunication professions, audiences and the purposes they serve.

Assessment Types
- Policy memo and exam in addition to:
  - Management: written and oral presentation of a strategic plan developed for a client
  - Media and Society: written final project
  - News: portfolio of two radio or television news stories produced in RTV 3304
  - Digital Film and Television Production: final video project

Liberal Arts and Sciences, College of
The College of Liberal Arts and Sciences is the largest college on campus, with more than 10,000 undergraduate students pursuing a variety of disciplines through over 40 majors and 49 minors. Undergraduate students acquire an intellectual foundation based on a well-rounded and comprehensive education designed for an increasingly technological and rapidly changing society.

Academic Divisions
The College of Liberal Arts and Sciences has 21 departments and 28 centers and institutes.

Degrees
Bachelor of Arts and Bachelor of Science degrees in over 40 majors, as well as a number of interdisciplinary studies fields.

The college also offers combination-degree (bachelor’s-master’s) programs in biology, botany, computer science, economics, French and Francophone studies, geography, geology, history, international relations, Latin American studies, linguistics, mathematics, philosophy, physics, political science, Portuguese, religion, Russian, sociology, Spanish, statistics, women’s studies, and zoology.

Academic Advising
Department advisors assist students with their majors’ requirements and options within the major. The Academic Advising Center helps CLAS students understand college and university degree requirements and regulations and the critical-tracking requirements for their major. More Info (http://www.advising.ufl.edu/)

Pre-Health and Pre-Law
Students interested in attending professional school in medicine, dentistry, law, optometry, pharmacy, or veterinary medicine after completing the bachelor’s degree should seek advising from the Pre-Health and Pre-Law Advising in the Academic Advising Center. The AAC offers workshops and individual advising to guide pre-health and pre-law students.
Pre-Health (http://www.advising.ufl.edu/pre-health/) Pre-Law (http://www.advising.ufl.edu/pre-law/)

Career Guidance
Students who need to explore majors and careers can find resources on the college’s Explore our Majors (https://clas.ufl.edu/undergraduate/) page and the Academic Advising Center (https://www.advising.ufl.edu/exploratory/) website. Additionally, students are encouraged to utilize the Career Connections Center (https://career.ufl.edu/) for career and major exploration as well as other career-related needs.

Students should consult their major department regarding internship credit. Additional information is available in 2014 Turlington, 352.392.6800. The college also offers an opportunity for students to receive internship credit outside of their major; more information can be found on the Academic Advising Center (https://www.advising.ufl.edu/liberal-arts-and-sciences-internship-ids4940/) website. The Bob Graham Center provides information on internship programs at the Washington Center in Washington, D.C. and other sites.
More Info (http://www.bobgrahamcenter.ufl.edu/students/internships/)

Scholarships
For additional information regarding scholarships offered by CLAS, visit 2014 Turlington Hall.
More Info (https://clas.ufl.edu/undergraduate/undergrad-scholarships/)

The Honors Office also has scholarship information for students in the honors program.
More Info (http://www.honors.ufl.edu/current/internal-scholarships/)

Student Organizations
CLASSC, the college’s student council, serves as a resource for CLAS students and as an advocate for student issues within the college.
More Info (https://classc.clas.ufl.edu/)

In addition, CLASSC provides funding for programs and travel to conferences for more than 25 student organizations specific to CLAS.
More Info (https://classc.clas.ufl.edu/organizations/)

Phi Beta Kappa is another organization for CLAS student involvement.

Research Experience
In most departments, students can conduct research under the direction of a faculty member. Consult a department advisor for information about faculty research areas or the Finding a Research Project (https://cur.ua.ufl.edu/research-search/) page on Center for Undergraduate Research’s website. In addition, students in CLAS are eligible to apply for the CLAS Scholars Program (https://clas.ufl.edu/undergraduate/clas-scholars/) and the University Scholars Program (https://cur.ua.ufl.edu/university-scholars-program/). Teamed with faculty mentors, CLAS Scholars and University Scholars identify a topic, initiate research during the summer, and continue investigation throughout the following academic year. Students chosen as CLAS Scholars receive a $2,000 stipend, and University Scholars receive a $1,750 stipend.

Special Academic Recognition
Dean’s Medal
The college believes that the best preparation for success draws deeply across the full range of the college’s offerings. The Dean’s Medal recognizes those CLAS graduates who have gone above and beyond in their pursuit of broad study in the liberal arts and sciences. Medal winners have not only undertaken a significant range of courses, but have acquired the range of skills and experiences valued by graduate and professional schools, organizations, employers, and communities.

Honors
The college offers a variety of opportunities for independent and seminar honors work to undergraduates who demonstrate appropriate qualifications. Superior students should take initiative in planning undergraduate and graduate programs. They should consult the honors coordinator in their department about requirements for the baccalaureate degree cum laude, magna cum laude, or summa cum laude. Postbaccalaureate students are not eligible to receive honors recognition.

Study Abroad
Students in the college are encouraged to participate in study-abroad programs administered by the UF International Center, and scholarships
are available. Study-abroad programs may satisfy certain requirements, such as general education, CLAS distribution, foreign language, summer term enrollment, and UF residency. Some study-abroad courses may also count toward a student’s major.

More Info (https://internationalcenter.ufl.edu/)

CLAS has many programs overseas for undergraduates for a semester, a summer, or an academic year, each providing a wide range of academic and cultural experiences.

UF International Center, 170 Hub, 352.392.5323.

Teacher Preparation: Professional Training Options

A PTO is an alternative certification program meant to prepare students for temporary teacher certification in Florida. Professional teacher certification is attainable with passing scores on relevant teacher certification exams, a clear criminal history background report, and one year of successful teaching in a Florida public school. Please review state certification information (http://www.fldoe.org/edcert/level3.asp).

There are three PTO programs at UF:
- UFTeach Mathematics Teaching minor
- UFTeach Science Teaching minor
- Florida Teaching minor

The UFTeach (http://education.ufl.edu/uf-teach/) minor in mathematics teaching, available to students pursuing a major in mathematics, is meant to prepare students to be middle school and high school mathematics teachers in Florida. The UFTeach (http://education.ufl.edu/uf-teach/) minor in science teaching, available to students pursuing a major in a science discipline, is meant to prepare students to be middle school general science teachers and high school biology, chemistry, earth/space science, or physics teachers. There is a critical shortage of qualified high school mathematics and science teachers in Florida. Students interested in this high-demand profession should see the advisor in their major or the UFTeach advisor for more information.

The Florida Teaching minor is available to non-mathematics and non-science majors (ideally pursuing a major that would build competence in the subject the student wants to teach). It can lead to certification in a variety of subject areas and grade levels. Students interested in pursuing this minor should visit the College of Education Office of Student Services in G416 Norman Hall.

Center for Written and Oral Communication

The William and Grace Dial Center for Written and Oral Communication offers courses focusing on the communication skills students need for their majors and future careers. Students interested in business, education, law, medicine, and other fields can develop oral communication skills essential to success in their professions. The center also offers a minor in communication studies, comprised of courses in public speaking, interpersonal communication, and a variety of upper-division courses that focus on different communication contexts.

More Info (http://cwoc.ufl.edu/)

The University Writing Program

The University Writing Program prepares students and faculty to meet their academic and professional writing goals by delivering broad-based instruction in composition and discipline-specific writing courses, by providing a writing studio for individualized help, and by hosting faculty and student workshops.

The UWP houses coursework in First-Year Writing, Second-Year Analytical Thinking and Writing, and Third-Year Professional Writing in the Disciplines. Individual third-year courses focus on writing in specific disciplines (anthropology, communication science and disorders, engineering, law, neurobiological sciences, physical sciences, political science, sociology, etc.). These courses address the form, content, and style of professional and academic writing. Depending on the discipline, students may prepare proposals, scientific research reports, lab reports, professional correspondence, legal briefs and memoranda, analytical essays, applications to graduate programs, applications for employment, and presentations of research.

More Info (http://writing.ufl.edu/)

Degree Programs

Bachelor of Arts | 120 Credits
Conferred upon students who fulfill degree requirements with majors in African-American studies, astronomy, classical studies, criminology, economics, English, foreign languages and literatures, Hispanic and Latin American languages, literatures, and linguistics, history, international studies, Jewish studies, linguistics, philosophy, political science, Portuguese, religion, sociology, Spanish, sustainability studies, and women’s studies.

Bachelor of Science | 120 Credits
Conferred upon students who fulfill degree requirements with majors in astrophysics, botany, chemistry, computer science, marine sciences, microbiology and cell science, and zoology.

A Bachelor of Arts or Bachelor of Science will be conferred upon those students who fulfill the requirements for the specific degree with majors in anthropology, biology, geography, geology, mathematics, physics, psychology, statistics, or interdisciplinary studies. Students should consult the undergraduate coordinator in their major department to discuss the appropriate curriculum for either degree.

Admission

First-Year Students
First-year students select a major and enter the college when they enroll at UF. Students selecting a CLAS major should start planning their major early in their UF careers by speaking with a general advisor in
the Academic Advising Center (http://www.advising.ufl.edu/) (AAC), 100 Farrior Hall, and a department advisor in their major's department (https://clas.ufl.edu/departments/).

Three temporary enrollment categories are provided to facilitate exploration of academic options for students who are unsure about a choice of major:

- Exploring Humanities and Letters
- Exploring Social and Behavioral Science
- Exploring Sciences and/or Engineering

Students select the exploratory category that most closely fits their academic interests.

Advisors in the AAC can help students determine an appropriate program of study. Students may be enrolled in exploratory registration categories for the first three fall/spring terms only (not counting summer terms). Students must be admitted to a major before registering for their fourth term.

Transfer Students

Detailed information about transfer admission requirements is available for each CLAS major.

More Info (https://www.advising.ufl.edu/admissions/transfer-admissions/)

Transfer students are expected to graduate from the major into which they were admitted. An appeal to change majors after transferring is unlikely to be approved.

Admission to the College of Liberal Arts and Sciences is competitive due to space limitations. Priority is given to transfer applicants completing their Associate of Arts (AA) degree at one of the public state colleges or universities within the state of Florida (under the state's articulation agreement).

Admitted students who do not enroll in the term for which they have been admitted must submit a new application by the deadline to be considered for a future term.

After being admitted, transfer students are required to attend orientation (Transfer Preview) and are responsible for meeting with their department advisor and an advisor in the AAC to ensure that their transfer credits are evaluated properly and that they understand the requirements to complete their UF degrees.

Change of Major

Changing Majors in Terms 1-5

Students who want to change to a CLAS major in terms 1-5 must meet with an advisor in the AAC. The tracking term of students who entered UF as Summer B/Fall freshmen, is based on the number of fall/spring semesters in which they enrolled for 10 or more credits. For students who entered UF as an Innovation Academy freshman, their tracking term is based on the number of spring/summer semesters in which they enrolled for 10 or more credits. Full-term withdrawals and study abroad are not included as a tracking term.

Students should meet the critical-tracking criteria for their real tracking term. Students who do not may be permitted to change majors, provided they:

- Can get on track in a reasonable number of terms
- Demonstrate potential for success in the new major (successful completion of major and major-related courses in two attempts, including withdrawals, with a C or better)
- Meet all other CLAS progression standards

Generally, students who transfer into CLAS as juniors will not be able to change majors.

Changing Majors in Term 6 or Later

The further along a student is, the harder it may be to change majors and progress and graduate in a timely fashion. Students wishing to change to a CLAS major in term 6 or later must meet with an advisor in the AAC.

Students must:

- Meet the critical-tracking criteria (pre-professional GPA and minimum cumulative UF GPA) for the major
- Meet all other CLAS progression standards for the desired major
- Demonstrate potential for success in the major (successful completion of major and major-related courses without excessive Ws, grades lower than C, or multiple repeats)
- Provide clear and purposeful reasons for which the change of major is appropriate, and
- Be able to graduate in a timely fashion

Students in term 6 or later must also submit a program plan identifying the courses they intend to complete for the new major as well as a statement explaining their educational goals. The department offering the desired major must support the student's admission to the major. Students may pursue only the major to which they have been admitted and they must follow the approved program plan.

Progression to Graduation

Every student is expected to make satisfactory progress toward graduation each semester. Students who fail to make satisfactory progress may be required to seek advisement, be denied further registration, or mandated to meet specific conditions in order to continue in the major and/or CLAS.

Critical Tracking for CLAS Majors

Students are required to meet the critical-tracking criteria for their majors in each term. The critical-tracking criteria are listed for each CLAS major. CLAS counts all attempts of critical-tracking courses when calculating the pre-professional GPA for a major. For more information about tracking, refer to Tracking Progress toward a Degree (p. 1683).

Additional Progression Standards

All CLAS students must meet these standards or they may be denied further registration:

- Maintain a minimum overall UF cumulative grade point average of 2.0
- College Probation: Students who have an overall UF cumulative grade point average under 2.0 are placed on college probation and are required to meet with an advisor to discuss their academic progress.
- Achieve a minimum 2.0 GPA on all coursework each semester.
- Successfully complete (with a minimum grade of C) at least one course in the major each term during the junior and senior years until major course requirements are completed. Students can pursue only the major to which they have been admitted.
• Earn a minimum grade of C within two attempts (including drops/withdrawals) in each course in the major. Certain majors may require grades higher than C in specific courses. Students must meet major requirements.
• Maintain a minimum cumulative GPA of 2.0 for courses required in the major.
• Withdraw from the university no more than twice while enrolled in this college.
• Graduate in a timely fashion (see Timely Graduation, below).
• Students who have completed all of the academic requirements for the degree but have not obtained the degree may be denied further registration in the college. Students who were admitted as a freshman and have completed fewer than eight full-time semesters may be approved to continue provided the student demonstrates an educational plan that will enhance the achievement of their academic goals, consistent with CLAS policies. Students in this situation should consult with an advisor in the AAC.

Each semester, the university emails students reminding them to check Registration Prep in ONE.UF. Upon receipt of this email, students should consult their record to determine if they have any registration holds and to review their degree audit on ONE.UF (https://one.ufl.edu/). The degree audit outlines the requirements for the degree and indicates whether or not a student has met each requirement. Students should use their degree audit to plan a program of satisfactory progress each term.

It is recommended that students begin work on the foreign language requirement during the first two years, unless the major department indicates otherwise.

Timely Graduation
CLAS majors are expected to graduate in a "timely fashion," defined as eight full-time fall/spring semesters for students admitted as summer b/fall freshmen, eight full-time spring/summer semesters for students admitted as Innovation Academy freshmen, and four fall/spring semesters for students admitted as junior transfers. Full-term withdrawals, full-term semesters of overseas study, or full-term semesters of internship away from UF are not included in this count, though students should be mindful of potential excess hours implications of extending their time at UF.

Students who cannot meet their degree requirements in a timely fashion are expected to enroll in summer terms to complete their degree requirements. Additional study is permitted with the approval of an advisor in the CLAS Academic Advising Center or the College Petitions Committee, and may be limited to fulfillment of unmet degree requirements.

Due to the sequencing of course requirements, some A.A. and upper division transfer students may be unable to complete their degree requirements in the four allotted terms. Students should see an advisor in the AAC to determine an appropriate academic plan to complete their degrees.

CLAS understands that while many beginning UF freshmen students come in with significant credit from accelerated mechanisms and could meet the minimum requirements for the degree in 2-3 years, simply meeting the minimum academic requirements for the degree does not necessarily signify that the student is well-prepared to achieve their educational goals. Because of this, CLAS will allow a student to enroll in up to eight full-time semesters provided the student demonstrates an educational plan that will enhance the achievement of those academic goals, consistent with CLAS policies. Students in this situation should consult with an advisor in the AAC.

Students should discuss their excess hours standing with their advisor as they are making their plan. In addition, students should discuss their financial aid/scholarship situation with Student Financial Affairs in 107 Criser Hall or Veterans Services in 222 Criser Hall.

Registration Policies
Normal Course Loads
CLAS students normally enroll in 12-18 credits per term (a minimum of 12 credits is considered full-time). A CLAS academic advisor in the AAC (Farrior Hall) must approve loads above 18 credits. Students who wish to enroll for fewer than 12 credits should discuss their plan and academic standing with a CLAS academic advisor in the AAC.

Adding Courses
Students may add courses any time during drop/add. Additional coursework may be added via ONE.UF after the drop/add period but prior to the published drop deadline with appropriate department and college approval.

Dropping Courses
Students may drop courses during drop/add without penalty. After the drop/add period, a course may be dropped via ONE.UF until the published Drop Deadline. The drop policy is explained in the Academic Regulations section.

More Info (p. 1689)

All such drops are subject to the following restrictions:

• Two unrestricted drops are permitted before attempting 60 credits at UF.
• Two unrestricted drops are permitted for CLAS students after attempting 60 credits at UF or after transferring to UF with 60 credits or an A.A. from a public institution in Florida.
• Students wishing to drop courses beyond the two unrestricted drops may petition the CLAS petitions committee. The petition must include a personal statement explaining an extenuating circumstance that prevents completion of the course(s). Documentation supporting the personal statement must also be included. Please examine the general petition form (https://www.advising.ufl.edu/docs/general_petition.PDF) in the AAC for guidelines and for documentation.
• Students who wish to drop a course after the drop deadline may complete a college petition to do so until the last day of classes (fall and spring semesters only). Students must include substantial documentation of an extenuating circumstance (usually severe medical condition) that occurred after the drop deadline and that prevents completion of the course(s). Students should first discuss their options with the instructor of the class before submitting a petition.

Students should discuss with an academic advisor how a dropped course will affect their academic standing and should also discuss with a financial aid advisor how it will affect their financial aid and/or scholarships. Students may be required to pay back scholarship monies when they drop a course. Students receiving VA benefits should talk to the Veterans Services office.
Withdrawing
Students who want to drop all courses for any current term are able to do so via ONE.UF (https://one.uf.edu/) prior to the withdrawal deadline. Dropping the entire load constitutes withdrawal from the university.

Courses dropped via full term withdrawal do not count toward a student’s number of unrestricted drops. Students must discuss with an academic advisor how the withdrawal will affect their academic standing and discuss with a financial aid advisor how it will affect their financial aid. Students receiving VA benefits should talk to the Veterans Services office. Students wanting to withdraw from all courses after the withdrawal deadline may submit a college petition before the last day of classes and consistent with the guidelines listed in the Dropping Courses section above.

Petitions
Students who have an extenuating circumstance that prevents them from adhering to a college regulation may petition for a waiver. The CLAS petitions committee considers petitions weekly on a case-by-case basis. All petitions must include a statement explaining the hardship and documentation supporting the claim. Information is available at 100 Farrior Hall; instructions are on the college petition form. More Info (http://www.advising.ufl.edu/resources/forms/)

Registration in Graduate Courses
Advanced undergraduate students with excellent academic records can register for graduate courses (5000 level and above) with permission of the department advisor. Students will be charged graduate-level fees for enrolling in graduate courses. Refer to the information on combination bachelor’s/master’s programs.

Flexible Learning
Distance & Continuing Education (DCE) offers fully online undergraduate courses for college credit through UF Flexible Learning. CLAS students interested in taking a Flexible Learning course must first consult with their academic advisor. The student must have a cumulative 2.0 UF GPA. CLAS students may apply up to two (2) Flexible Learning courses toward a degree and must seek college dean’s office approval to exceed this limit. CLAS Advisors and the DCE office will approve access to a Flexible Learning course if the student is below the two (2) course limit and meets at least one (1) of the following criteria:

• The student has a health concern
• There are circumstances preventing the student from physically being on campus and the course is not offered online
• The student requires off-calendar, flexible format solution required for scholarship, tracking, and/or graduation requirements

More Info (https://flexible.dce.ufl.edu/)

Transient Study
UF Students Attending Other Schools
Students may submit a transient form (https://www.floridashines.org/succeed-in-college/take-a-course-at-another-school/) via Floridashines.org to request permission to enroll at another institution and have the credits apply to their UF degrees. More Info (https://www.advising.ufl.edu/academicinfo/transient-study/)

To be eligible for transient work, students must:

• Have a minimum 2.0 UF GPA
• Be on-track for the current major
• Not break the residency requirement (Students MUST complete their last 30 credits continuously at UF)

Students who have already transferred 60 credits from a public/state college may not apply additional public/state college credits toward their degree.

If approved for transient enrollment elsewhere, students may still need to have courses approved for the fulfillment of any specific requirement. Courses intended to meet major or minor requirements are subject to the approval of the appropriate department. Courses whose numbers are not consistent with the common course numbering system need to be reviewed and approved by an AAC advisor to meet general education or basic distribution requirements.

Writing requirement credits are posted based on how the course is coded at the institution where the course is taken. Students should not assume they will receive the same writing credit from another institution they would if they took the course(s) at UF. All writing requirement questions should be directed to the Office of the University Registrar.

Students must ensure that a final transcript is sent to UF after completion of the course(s). Grades for courses taken elsewhere will not be calculated into the UF GPA but may be considered as part of the preprofessional GPA used by critical-tracking. Grades in courses taken elsewhere do appear on the UF transcript.

Supplemental Academic Programs
In addition to the major, CLAS offers other ways for students to pursue their academic interests. Students may opt to pursue a minor, certificate, double major, dual degree, or combination bachelor’s/master’s program.

The college must approve supplemental programs of study. In considering applications for supplemental programs, CLAS will consider the following:

• Whether the student meets the minimum requirements for consideration for the program
• The student’s goals and whether the student has demonstrated the potential for success in the program
• Whether completing the supplemental program will allow the student to graduate in a timely fashion
• Space availability in the desired program

Supplemental programs are optional and meeting the minimum requirements for consideration does not guarantee approval to pursue the program.

Funding for supplemental programs depends on the kinds of financial support the student receives. Students should discuss their excess hours standing with their academic advisor. Students should also discuss their plans for supplemental programs with Student Financial Affairs in 107 Criser Hall (for financial aid/scholarships) or the Veterans Services office in 222 Criser Hall (for VA benefits). Students also should be aware of their excess hours status and whether they may be liable for a surcharge. Students can discuss their excess hours status with an academic advisor.

Minors and Their Requirements
The minor provides a traditional, well-accepted way to recognize that a student has completed a significant body of work outside the major. A minor shall consist of no fewer than 15 semester credits of coursework,
earned with minimum grades of C. At least three courses (none can be individual work) of no fewer than three credits each must be at the 3000 level or above. Of the total credits, no more than three may be individual work. Students should consult an advisor in the appropriate department for the requirements for each minor.

A minor may not inherently overlap with the student’s major (e.g., a history major may not declare a history minor, even if the student takes additional history credits beyond what is required for the major). In addition, students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the student’s major(s) or other minor(s).

View the AAC website regarding minors to review a list of majors/minors that will not be approved due to overlap. This list is not all-inclusive, for each minor application an AAC advisor will review whether your intended major/minor combination is acceptable. More Info (https://www.advising.ufl.edu/academicinfo/minors/)

To be eligible for a minor, students must:

- Have an established UF minimum GPA of 2.0 (some minors require a higher GPA, see catalog description of the minor)
- Be on-track for their major
- Have at least 45 credits earned
- Be able to complete the minor in a timely fashion and thus able to graduate on time
- Complete a minimum of six credits exclusive to the minor; i.e., credits that cannot count toward major(s) or other minor(s)

CLAS students should make a written application (http://www.registrar.ufl.edu/pdf/minorapp.pdf) for admission to the minor in 100 Farrior Hall after earning 45 credits and are encouraged to do so before the end of their junior year. Applicants must meet the minimum admission requirements for the minor. Students are limited to three minors.

Students may use 3000-level courses in the minor to fulfill the college elective requirement. Students should plan the minor so that the courses will count for the minor and as 3000-level electives outside their major.

Approval to pursue a minor does not guarantee that students will be granted the minor upon graduation. Students must complete all minor requirements and at least 6 credits exclusive to the minor without overlap with their major(s) or other minors.

A minor will be awarded when the academic unit offering the minor certifies that the applicant has completed the requirements. Such award(s) will be noted on the UF transcript. Students must be certified for the minor at the same time that they complete the bachelor’s degree.

Certificates

UF offers 30 different certificates. Each certificate program must have at least nine credits that are exclusive to the certificate and may not count toward any other certificate or minor. All courses required must be completed with minimum grades of C or S in each course.

Double Major And Combination Degree

Students who are interested in studying two disciplines may pursue a double major or a combination degree. The two disciplines may not extensively overlap. Each double major/combination degree application will be reviewed to ensure that the student will complete a minimum of 15 credits of coursework exclusive to each major that will not count toward the other major or any minors. The AAC website lists double major/combination degree combinations (https://www.advising.ufl.edu/academicinfo/duals-and-doubles/) that will not be approved because of extensive overlap. This list is not all-inclusive, so students should consult an AAC advisor to verify that the intended major/degree combination is acceptable.

More Info (http://www.advising.ufl.edu/academicinfo/duals-and-doubles/)

Approval to pursue a double major/combination degree does not guarantee the student will be granted both upon graduation. To be certified to receive the majors/degrees, all requirements must be met for each and at least 15 credits exclusive to each major (not applying to the other major or any minors) must have been completed.

To earn a double major or combination degree, a student must be certified for and graduate from all undergraduate programs of study at the same time.

Double Major

Completing two majors in the College of Liberal Arts and Sciences for which the degree is the same (both Bachelor of Arts or both Bachelor of Science). Upper-level courses used for one major can fulfill College of Liberal Arts and Sciences’ elective requirement for the other major, and vice versa.

A student completing two majors that have the same degree, B.A. or B.S., will receive a single degree. The diploma and transcript will identify the degree and the two majors.

Combination Degree

Completing two majors for which the degree is different (a Bachelor of Arts and a Bachelor of Science; or one major in the College of Liberal Arts and Sciences and another in another college). Upper-level courses used for one major can fulfill College of Liberal Arts and Sciences’ elective requirement for the other major.

A student completing two CLAS majors that have different degrees, or major and college requirements in two different colleges, will receive two degrees. The student will receive two diplomas, each with the appropriate major listed, and the transcript will identify each degree and major.

Students applying for a double major or combination degree must:

- Already be admitted to one of the majors and have between 45 and 96 credits (not including AICE, AP, CLEP, IB, dual enrollment, or overseas study credit).
- Have not previously been denied admission as a transfer student to the CLAS major for which the student is applying.
- Meet the minimum UF GPA (specified below) required to pursue a CLAS double major or combination degree (determined in part by whether the major is over-enrolled (http://www.advising.ufl.edu/academicinfo/duals-and-doubles/)).
  - Have a 3.5 GPA when both majors are in LS and BOTH majors are overenrolled.
  - Have a 3.0 GPA for two majors/degrees and no more than one is an overenrolled LS major.
- Meet all critical-tracking term 5 requirements for all CLAS majors before submitting the application. If one of the majors is outside CLAS, applicants must get approval from the appropriate college for that major.
Students applying for triple majors/degrees must:

- Meet all other CLAS progression standards for both majors and demonstrate potential for success in both majors (successful completion of major and major-related courses without excessive Ws, grades less than C or multiple repeats);
- Be able to complete the degree in a timely fashion (typically eight fall/spring semesters for students who entered UF as Summer B/Fall freshmen, eight spring/summer semesters for students who entered UF as Innovation Academy freshmen, and four fall/spring semesters for students who entered UF as transfer students). Additional study is permitted only with approval of a CLAS AAC advisor or the college petitions committee.
- Have clearly articulated and purposeful reasons for which the double major or combination degree is appropriate.

Students should obtain an application (http://www.registrar.ufl.edu/forms.html) for a double major or combination degree. Students must submit a program plan identifying the courses they intend to complete for both majors, as well as a statement explaining their educational goals. For some majors with potential significant overlap, students may need to complete a certain number of credits exclusive to both majors before the application may be approved. After being approved, students must follow the program plan outlined in their application or the approval for the supplemental program of study will be voided.

**Students can pursue a double major or dual degree only if approved in advance by the college.**

### Triple Majors/Degrees

Students who are interested in studying three disciplines may choose to pursue triple majors/degrees. The three disciplines may not extensively overlap. Each triple major/degree application will be reviewed to ensure that the student will complete a minimum of 15 credits of coursework exclusive to each major that will not count toward the other majors or any minors. View the triple majors/degrees page for a list of major combinations that will not be approved due to extensive overlap.

More Info (http://www.advising.ufl.edu/academicinfo/duals-and-doubles/#tdeligibility)

Approval to pursue triple majors/degrees does not guarantee the student will be granted all majors/degrees upon graduation. To be certified to receive the majors/degrees, all requirements must be met for each and at least 15 credits exclusive to each major (not applying to the other majors or any minors) must have been completed.

**To earn triple majors/degrees, a student must be certified for and graduate from all undergraduate programs of study at the same time.**

**Students applying for triple majors/degrees must:**

- Have selected at least one CLAS major that is considered under-enrolled (http://www.advising.ufl.edu/academicinfo/duals-and-doubles/#tdeligibility) if all three majors are in CLAS.
- Already be admitted to one of the majors and have between 45 and 96 credits (not including AICE, AP, CLEP, IB, dual enrollment, or overseas study credit).
- Have a minimum 3.5 UF GPA required if two of the LS majors are overenrolled.
- Have a minimum 3.0 UF GPA if no more than one of the majors is an overenrolled LS major.
- Meet all critical-tracking term 5 requirements for all CLAS majors, before submitting the application. If one of the majors is outside CLAS, applicants must get approval from the appropriate college for that major.
- Meet all other CLAS progression standards for all majors and demonstrate potential for success in all majors (successful completion of major and major-related courses without excessive W’s, grades less than C, or multiple repeats).
- Be able to complete the degree in a timely fashion (typically eight fall/ spring semesters for students who entered UF as freshmen, eight spring/summer semesters for students who entered UF as Innovation Academy freshmen, and four fall/spring semesters for students who entered UF as transfer students). Additional study is permitted only with approval of a CLAS AAC advisor.
- Have clearly articulated and purposeful reasons for which the triple majors/degrees are appropriate.
- Have not previously been denied admission as a transfer student to any of the CLAS majors.

Students must submit a program plan identifying the courses they intend to complete for all majors, as well as a statement explaining their educational goals. For some majors with potential significant overlap, students may need to complete a certain number of credits exclusive to both majors before the application may be approved. After approval, students must follow the program plan outlined in their application or the approval for the supplemental program of study will be voided.

**Students can pursue triple majors/degrees only if approved in advance by the college.**

### Combination Bachelor’s/Master’s Programs

Combination bachelor’s/master’s programs allow students to complete two degrees more quickly. Outstanding advanced undergraduate students can apply for admission to this program. CLAS offers combination-degree programs in biology, botany, computer science, economics, French and Francophone studies, geography, geology, history, international relations, Latin American studies, linguistics, mathematics, philosophy, physics, political science, Portuguese, religion, Russian, sociology, Spanish, statistics, women’s studies, and zoology.

More Info (p. 1658)

Students on financial aid should check with that office. In general, students on financial aid should retain their undergraduate status as long as possible. The program requires admission to the Graduate School.

### Degree Requirements

#### Student Responsibility

Students are responsible for ensuring that they understand and meet all major and college degree requirements. Any questions about these requirements should be raised with a department advisor (for major requirements) or college advisor (for college requirements).

Students must meet college progression standards each term. They are expected to keep the Office of the University Registrar informed of their accurate address and to read their GatorLink email. Students also are expected to review their holds and degree audit on ONE.UF (https://one.ufl.edu/) each term and to discuss any questions or discrepancies with an advisor.
Graduation under a Particular Catalog

Students are placed into the catalog year for the academic year in which they entered UF unless they request to follow the academic requirements in effect when they initially enrolled in a Florida public college or other Florida state institution. Such a request is possible only if they have maintained continuous enrollment, defined as enrolling for at least one course in one term in each academic year. Students wanting to change catalog years should review a degree audit with an advisor in the AAC.

Applying for a Degree

Early in the term in which they expect to graduate, students must submit a degree application on ONE.UF (https://one.uf.edu/). The academic calendar (p. 11) will provide the deadline for a current-term degree application.

Students should meet with an advisor in the AAC before registering for their final term to review the college graduation requirements that still need to be fulfilled. Students should also meet with an advisor in the major department to verify completion of requirements for the major.

Additionally, seniors who plan to graduate should convert all I, N, and H grades to letter grades no later than the fifth week of their final semester. Seniors are responsible for ensuring that all grade changes are submitted properly and are recorded in a timely fashion.

CLAS Degree Requirements

The college has seven requirements for award of a degree. Students must also meet all requirements for the major.

Credits

All CLAS students must satisfactorily complete a minimum of 120 acceptable credits for the degree. Up to 30 credits earned in a UF overseas study or exchange program may be applied to this requirement. Students may petition to have more credits accepted; however, approval is rarely given.

Grade Point Average

Students must achieve a minimum overall average of C (2.0) in all work attempted at the university.

Residence

The last 30 credits applied to the degree must be completed in residence at the University of Florida. In extenuating circumstances, the last three credits may be waived by petition. Participation in a UF-approved study abroad or exchange program is not considered a break in residence. However, students must see an advisor to be sure the degree audit accurately reflects this.

University / State of Florida Requirements

To earn a degree, all students must complete:

- A general education (p. 31) program,
- The writing requirement,
- The summer term enrollment requirement, and
- The Civic Literacy requirement.

Basic Distribution

To ensure that students gain a rich and varied general education, the college requires students to complete basic distribution requirements.

Basic Distribution is comprised of the General Education Program Requirements (p. 31) plus additional credits beyond those requirements (see table below for overall credits required in each Subject Area).

- The same course may NOT be used to satisfy requirements in two different Subject Areas (C, H, S, P, or B).
- Three of the credits must also be designated as international studies (N) and three of the credits must be designated as diversity studies (D).
- A minimum grade of C is required for all courses fulfilling the general education requirement, the writing requirement, and the basic distribution requirements. The S/U grade option (p. 1697) is not acceptable for these credits.

Summary of CLAS Basic Distribution (Includes Gen Ed Program Requirements)

<table>
<thead>
<tr>
<th>Subject</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Composition (C)</td>
<td>6 credits</td>
</tr>
<tr>
<td>Mathematical Sciences (M) (including 3 credits with a math prefix)</td>
<td>6 credits</td>
</tr>
<tr>
<td>Humanities (H)</td>
<td>9 credits, 3 of these credits must be IDS 1161, unless student is exempt</td>
</tr>
<tr>
<td>Social and Behavioral Sciences (S)</td>
<td>9 credits</td>
</tr>
<tr>
<td>Physical Science (P)</td>
<td>6 credits</td>
</tr>
<tr>
<td>Biological Science (B)</td>
<td>6 credits</td>
</tr>
<tr>
<td>Natural Science Laboratory</td>
<td>1 credit</td>
</tr>
</tbody>
</table>

1. Must include three credits of international studies (N) and three credits of diversity studies (D).
2. Students in the Innovation Academy program and students who transfer to UF with an A.A. from a public college or university in Florida are exempt from the requirement to take IDS 1161.
3. Natural science laboratory. A one-credit science lab with a minimum grade of C is required. Students can elect a laboratory course that is approved for the general education physical or biological sciences requirement or any psychology laboratory. (Most laboratory courses cannot be taken without prerequisite or corequisite courses.)

Electives | 3000 level or Above | Not in Major

Electives are defined as courses taken outside the major or major department. The degree program must include 18 credits of electives at the 3000 level or above. Several 2000-level natural science or mathematical science courses (those beyond the entry course in a sequence) can contribute to the 18-credit requirement.

Eligible courses are:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHM 2211</td>
<td>Organic Chemistry 2</td>
<td>3</td>
</tr>
<tr>
<td>CHM 2211L</td>
<td>Organic Chemistry Laboratory</td>
<td>2</td>
</tr>
<tr>
<td>PHY 2049</td>
<td>Physics with Calculus 2</td>
<td>3</td>
</tr>
<tr>
<td>PHY 2049L</td>
<td>Laboratory for Physics with Calculus 2</td>
<td>1</td>
</tr>
<tr>
<td>PHY 2054</td>
<td>Physics 2</td>
<td>4</td>
</tr>
<tr>
<td>PHY 2054L</td>
<td>Laboratory for Physics 2</td>
<td>1</td>
</tr>
<tr>
<td>MAC 2234</td>

<td>4</td>
</tr>
<tr>
<td>MAC 2313</td>
<td>Analytic Geometry and Calculus 3</td>
<td>4</td>
</tr>
</tbody>
</table>
Elective course selection will depend on goals and interests. Some students may choose to use electives to pursue a minor or a double major/dual degree.

**Foreign Language**

CLAS students must demonstrate proficiency in a foreign language. Foreign language is an important component of a liberal education. Study of foreign languages provides access to the cultural and intellectual heritage of cultures other than one's own. Such study also provides a new perspective on the structure and complexity of the English language.

Proficiency in a foreign language is considered to be the level of skill a student has upon completion of a beginning language sequence at UF. Students do not need to earn a certain number of credits to complete this requirement. It can be met in ONE of the following ways:

- Satisfactory completion (minimum grade of C or S) of the terminal course in a beginning foreign language sequence (normally at the end of 10 credits at UF). Students may take foreign language requirement courses on an S/U basis (S = C or better).
- A score of three or above in an Advanced Placement foreign language exam.
- A score of four to seven on an International Baccalaureate foreign language exam.
- A score on a foreign language exam (except for the Latin Literature A level exam).
- Certain scores on CLEP foreign language exams give credit for the terminal course in the beginning sequence of a foreign language. Those scores meet the CLAS foreign language requirement. Consult the CLEP course equivalency chart (p. 1666) for more course credit granted.
- A passing score on the Foreign Language Proficiency Exam (FLPE) (https://teachingcenter.ufl.edu/testing/flpe/). Mandarin Chinese and Russian language proficiency testing will be handled by those UF language programs. Students should contact the Chinese or Russian programs for information on assessing proficiency.

Students who are proficient in languages not available through FLPE should speak with a general advisor in the Academic Advising Center (https://www.advising.ufl.edu/).

Students in this college can study the following languages: Akan, American Sign Language, Amharic, Ancient Greek, Arabic, Catalan, Chinese, Czech, Dutch, French, German, Haitian Creole, Hebrew, Hungarian, Italian, Japanese, Latin, Lingala, Modern Greek, Polish, Portuguese, Russian, Sanskrit, Spanish, Swahili, Turkish, Vietnamese, Wolof, Yoruba, and Xhosa.

**Placement in Foreign Language**

Students who have studied a language in high school and wish to continue that language should refer to the placement page or consult the department for placement information.

More Info (p. 1673)

Graduating with Honors (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonorstext)
MINORS

The minor provides a traditional, well-accepted way to recognize that a student has completed a significant body of work outside the major. A minor shall consist of no fewer than 15 semester credits of coursework, earned with minimum grades of C. At least three courses (none can be individual work) of no fewer than three credits each must be at the 3000 level or above. Of the total credits, no more than three may be individual work. Students should consult an advisor in the appropriate department for the requirements for each minor.

A minor may not inherently overlap with the student’s major (e.g., a history major may not declare a history minor, even if the student takes additional history credits beyond what is required for the major). In addition, students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the student’s major(s) or other minor(s).

View the AAC website (https://www.advising.ufl.edu/academicinfo/minors/) for information on eligibility, considering a minor and how to apply for a minor. The site also provides a list of majors/minor combinations that will not be approved due to overlap. This list is not all-inclusive; for each minor application an AAC advisor will review whether your intended major/minor combination is acceptable.

CERTIFICATES

Each certificate program must have at least nine credits that are exclusive to the certificate and may not count toward any other certificate or minor. All courses required must be completed with minimum grades of C or S in each course.

- East-Central European Studies Certificate
- European Jewish Studies Certificate
- European Union Studies Certificate

Actuarial Science Minor
The Actuarial Science minor prepares students for careers as actuaries.

About this Program
• College: Liberal Arts and Sciences (p. 978)
• Credits: 25 | Completed with minimum grades of C and no optional S/U
• More Info

Department Information
The mission of the Department of Statistics is to provide its students with a fundamental understanding of statistical reasoning and methodology, to train them to apply this knowledge to the collection and analysis of data, and to prepare them for careers in a highly technological society in which science and decision-making are increasingly driven by a rapid expansion in the quantity and availability of data.

African Languages

Foreign Languages and Literatures

The specialization in African Languages enables students to develop the critical, analytical, and interpretive tools essential for successfully working and living in today's increasingly globalizing world. It focuses on a selected group of languages that function as languages of wider communication (lingua franca) in their sub-Saharan African regions. Through study of these languages students not only gain communicative proficiency in the language(s) of their choice, but also an understanding of the diverse literary and cultural traditions that make Africa such a unique and complex continent today.

About this Program

- **College**: Liberal Arts and Sciences (p. 978)
- **Degree**: Bachelor of Arts
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

Foreign Languages and Literatures Options (p. 1189)

The African languages specialization of the Foreign Languages and Literatures major offers students the opportunity to gain proficiency in any of the following languages:

- Akan/Twi (Ghana – West Africa)
- Amharic (Ethiopia - the Horn of Africa)
- Swahili (eastern and central Africa)
- Wolof (Senegal and the Gambia – West Africa)
- Yoruba (Nigeria and Benin – West Africa and the Diaspora)
- Zulu (South Africa)

The specialization in African languages offers a unique opportunity when it comes to seeking employment in multi-national corporations or research undertakings based on the African continent. It also prepares students for the rigors of graduate studies in the humanities and for fields such as comparative literature, religious/diaspora studies, African cinema, developmental practices, humanitarian services, language learning businesses, translations & interpretation for United Nations organizations and other international agencies, to mention just a few.

Our faculty brings together scholars with diverse research interests, ranging from African oral literature through post-colonial African women writers, from language documentation to languages of urban Africa as well as contemporary African film, pop-culture, and media. These nationally and internationally recognized researchers are also dedicated and innovative teachers who draw on their own scholarship to offer a variety of courses in literature, cinema, linguistics, and language.

Coursework for the Major

The African languages specialization in Foreign Languages and Literatures consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

</tbody>
</table>

**Critical Concentration**

Select nine credits from one area:

- Intensive Area Studies: African
- Comparative Cultural Studies
- Film and Visual Culture
- Literary Studies
- Medieval and Early Modern Studies

**Total Credits**: 55

> Although courses may appear in more than one group they may be counted toward only one group.

*Recommended for those planning to pursue careers requiring advanced level skills in African languages or graduate work in African studies.*

**Overseas Study**

Students should speak with the Undergraduate Coordinator to discuss overseas study options in Africa.
Placement
In all languages, students with either a native background in the language or prior study in that language, might be eligible to place out of the preparatory language courses and should meet with the undergraduate coordinator to arrange for placement assessment.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160501&track=01) may be used for transfer students.

Semester 1
• 2.0 UF GPA required

Semester 2
• 2.0 UF GPA required

Semester 3
• Complete Beginning African Language 1 or higher-level African Language course with a minimum grade of C
• 2.0 UF GPA required

Semester 4
• Complete Beginning African Language 2 or higher-level African Language course with a minimum grade of C and a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 5
• Complete Intermediate African Language 1 or a higher-level African Language course with a minimum grade of C and a 2.5 critical-tracking GPA
• 2.0 UF GPA required

SEMESTER 6
• Complete 2221 Intermediate African Language 2 with a minimum grade of C
• Complete 2 Advanced Elective courses
• 2.0 UF GPA required

SEMESTER 7
• Complete 3410 Advanced African Language 1 with a minimum grade of C
• Complete 2 Advanced Elective courses
• Complete 1 Critical Concentration course
• 2.0 UF GPA required

SEMESTER 8
• Complete 3411 Advanced African Language 2 with a minimum grade of C
• Complete 2 Critical Concentration courses
• 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). 3000 level or above critical concentration courses outside of African Languages may count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.
This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must
- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking
2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication
3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

</table>

1. Courses focus on the acquisition of the language(s) of specialization at the advanced level.

2. Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types
- Proficiency exams
- Term papers or final projects
- Oral presentations

African Studies Minor

The African Studies minor provides a solid foundation for careers in teaching, research, and other professional work for which knowledge of Africa is essential. The faculty is composed of more than 100 members campus-wide who teach courses with African content.

About this Program
- **College:** Liberal Arts and Sciences (p. 978)
- **Credits:** 15 | Completed with minimum grades of C
- **Contact:** 427 Grinter Hall (http://campusmap.ufl.edu/?loc=0002) | 352.392.2183
- **More Info**

Center Information
As a National Resource Center for African Studies, the mission of the center is to promote excellence in teaching and research on Africa in all the disciplines at the University of Florida. The Center for African Studies also disseminates knowledge about Africa to the wider community through an integrated outreach program to schools, colleges, community groups, and businesses. Website (https://africa.ufl.edu/)

• International Studies

Choose to complete a general concentration or select a track:
• Track One: Languages and Linguistics
• Track Two: Arts and Literatures
• Track Three: Culture, History, and Politics
• Track Four: Environment, Resources, and Development

The Center for African Studies offers semester and academic-year programs at the University of Dar es Salaam (Tanzania) and Makerere University (Uganda), as well as various summer programs.

The list of approved Africa-related electives can be found on the Center for African Studies website.
More Info (https://africa.ufl.edu/)

Requirements | General Concentration
• Students seeking to apply UF study abroad credit toward the minor must complete one three-credit minor course in residence at UF.
• Transfer students must complete at least two three-credit minor courses in residence at UF.
• No more than three credits of 4905 coursework (Individual Work) can be used toward the minor and none of the credits can apply to the 3000-level or above elective requirement.
• Students must complete a minimum of six credits exclusive to the minor that cannot count toward the major(s) or other minors.

African-American Studies

The primary emphasis of the African-American Studies program is to educate students about the theories and methodologies pertaining to the study of African-Americans. Students will be able to compare and contrast the experiences of people of African descent in the U.S. to those in the wider African Diaspora. They will also learn through participation in community-service activities.

About this Program
• College: Liberal Arts and Sciences (p. 978)
• Degree: Bachelor of Arts
• Credits for Degree: 120

To graduate with this major, students must complete all university, college, and major requirements.
Department Information
The African American Studies program is one of the fastest growing majors at UF. The degree program provides students with a variety of innovative courses by applying creative cultural methods of teaching while examining the African American experience.

Map (http://campusmap.ufl.edu/#/index/0111)

Curriculum
• African-American Studies
• African-American Studies Minor

This interdisciplinary major provides students with vital writing, research, and communication skills. The curriculum emphasizes anthropology, mass communications, education, English, history, linguistics, political science, psychology, religion, and sociology. The program also includes courses that emphasize US-Canadian, US-Caribbean, and US-African relations and assists students in finding internships for college credit and in applying for study abroad programs.

After obtaining a degree in African-American studies, students can seek careers as archivists, attorneys, civil rights professionals, community organizers, government employees, librarians, public policy professionals, professors, teachers, and researchers. Graduates will also be prepared to enter graduate programs in African-American studies and other liberal arts fields, professional degree programs, and teacher-training programs.

Coursework for the Major
The major requires 30 credits of coursework in African-American studies core and elective courses. All coursework must be completed with minimum grades of C. A minimum of 15 credits of coursework in the major must be completed at UF. Core and elective courses are often cross-listed with other departments, enabling students to examine the African-American experience from a variety of disciplines.

Overseas Study

The African-American Studies Program currently sponsors one study abroad course. This is a two-credit African Americans in Paris course that is offered during the spring semester, and includes the study of the African-American cultural, historical and political experience in Paris, France. Students travel to Paris during spring break.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

To graduate with this major, students must complete all university, college and major requirements. For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 978).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=050201&track=01) may be used for transfer students.

Semester 1
• 2.0 UF GPA required

Semester 2
• Complete AFA 2000
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 3
• Complete AFA 3110
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 4
• Complete AFA-prefix course at 3000 level or above
• Complete AFA-prefix course or AFA-approved course.
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 5
• Complete AFA-prefix or AFA-approved course
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 6
• Complete AFA-prefix course at 3000 level or above
• Complete AFA-prefix course or AFA-approved course
• Complete applied, experiential, or research methods course
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required
Semester 7

- Complete AFA-prefix course or AFA-approved course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 8

- Complete AFA 4936
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

### Academic Learning Compact

The African-American Studies program's mission closely resembles that of the university, emphasizing exceptional teaching, outstanding scholarly research and service to the campus and the larger Gainesville community. The primary emphasis is to educate students about the theories and methodologies pertaining to the study of African-Americans. Students will be able to compare and contrast the experiences of people of African descent in the U.S. to those in the wider African Diaspora. They also will learn through participation in community-service activities. Program graduates will develop the academic, scholarly and experiential skills needed to succeed at the next level of study in the field, for they will be well-trained in critical thinking, analysis and effective communication.

### Before Graduating Students Must

- Satisfactory evaluation of paper written for the African-American Studies approved topic, graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Identify, describe and explain the theories in African American Studies and the African Diaspora.

Critical Thinking
2. Examine social issues of concern to African Americans.

Communication
3. Effectively articulate ideas in speech and in writing.

Curriculum
- African-American Studies
- African-American Studies Minor

Of the total credits, no more than three may be individual work or internship credit. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.
American Indian and Indigenous Studies Minor

The American Indian and Indigenous Studies minor focuses on North, Central, and South America with additional interdisciplinary focus in anthropology, art history, history, literature, and religion.

About this Program

- **College**: Liberal Arts and Sciences (p. 978)
- **Credits**: 18 | Completed with minimum grades of C and no optional S/U

Related Programs

- American Indian and Indigenous Studies

Students must take 18 credits for the minor. Two required courses, for a total of six credits and four elective courses, or twelve credits. The two required courses are exclusive to the minor and cannot count toward the major(s) or other minors. Three of the elective courses must be taken at the University of Florida.

The election of a minor is noted on a student’s transcript, but it is not reflected on the diploma. Students should consult the catalog for important undergraduate information and description of AIIS courses.

Religion
Anthropology is the study of people in their cultural context and the examination of all aspects of patterned social behavior. The discipline is worldwide in scope and encompasses all aspects of human, biological, and social life from earliest times to the present. It is a broad, holistic field that seeks to understand human adaptation to natural and social environments.

About this Program

- **College**: Liberal Arts and Sciences (p. 978)
- **Degrees**: Bachelor of Arts (p. 1009) | Bachelor of Science (p. 1014)
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Anthropology lies at the intersection of the multiple approaches to the study of humankind that characterize other disciplines — biological, social, cultural, historical, linguistic, cognitive, material, technological and aesthetic — because of its unique holistic perspective. These multiple approaches are encapsulated in the four traditional subfields that have composed the discipline since its establishment in the 19th century: cultural (http://sites.clas.ufl.edu/anthropology/department-subfields/cultural-anthropology/), archaeological (http://sites.clas.ufl.edu/anthropology/department-subfields/archaeology/), biological (http://sites.clas.ufl.edu/anthropology/department-subfields/biological-anthropology/) and linguistic (http://sites.clas.ufl.edu/anthropology/department-subfields/linguistic-anthropology/) anthropology.

**Curriculum**

- American Indian and Indigenous Studies
- Anthropology
- Anthropology Minor
- Anthropology Minor UF Online
- Anthropology UF Online
- Medical Anthropology Certificate
Anthropology includes four subfields: cultural anthropology, archaeology, biological anthropology, and linguistics. Undergraduates may concentrate their studies in one of these four subfields or pursue a focus in an interdisciplinary track with another major or minor. The anthropology major has two different programs: the Bachelor of Arts and the Bachelor of Science. Coursework for the major will depend upon the program, both of which are flexible. Both degrees are earned in anthropology rather than in any one subfield.

Students who are uncertain of a program should contact the Department of Anthropology’s undergraduate coordinator for information and curriculum planning.

**B.A. in Anthropology**

Provides a broad-based liberal arts education and prepares students to work in an increasingly complex world. B.A. majors learn about different groups of people, their prehistory, and their biological and cultural diversity through disciplines that combine social science, natural science, and the humanities. Many undergraduate anthropology majors go on to graduate school in the social sciences, while others use anthropology to prepare themselves for professional careers in other disciplines. In a world of increasing globalization and need for effective international relations and understanding, anthropology is a highly relevant liberal arts and sciences major for students interested in pursuing careers in business, education, government, health, and law.

**B.S. in Anthropology**

Provides a degree option that blends their interest in basic science with the holistic lens of anthropology. B.S. majors engage in anthropology through coursework, lab and field-based research, and outreach. A grounding in scientific-based research, community initiatives, and multicultural skillsets enables our students to address pressing needs in both local and global contexts. For example, students often participate in independent and collaborative initiatives on and off campus and receive pre-graduate training in life sciences, health-related disciplines, natural history, and/or archaeological science fields. A B.S. in anthropology will encourage students to develop STEM-based skill sets and enhance scientific inquiry to address salient anthropological issues. This degree inevitably draws upon multidisciplinary fields including anatomy, biology, chemistry, ecology, engineering, genetics, geology, physics, mathematics, statistics, zoology, and botany.

**Coursework for the Major**

Both the B.A. and the B.S. require a minimum of 34 semester credits in anthropology and all coursework must be completed with minimum grades of C. A minimum of 18 credits of anthropology coursework must be completed at UF.

For the BS degree, all required anthropology, and required related coursework must be completed with a minimum GPA of 2.5.

**Overseas Studies**

Students concentrating in any subfield, particularly cultural anthropology and/or archaeology, are also encouraged to complete either an ethnographic study abroad program or an archaeological field school before their senior year.

**Relevant Minors and/or Certificates**

The department encourages students pursuing the B.A. to choose a minor or an interdisciplinary certificate option in African studies, Asian studies, environmental studies, Jewish studies, Latin American studies, linguistics or women’s studies. Relevant courses in anthropology may be used to fulfill some requirements.

**Academic Learning Compact**

Students will develop critical thinking, problem solving and communication skills in the social sciences and in studies of natural history pertaining to human and non-human primates. Through study of human biological and cultural history and diversity, students will learn holistic, comparative and relative perspectives of anthropology, both scientific and humanistic. Emphasis is on critical thinking skills in the evaluation of alternative knowledge claims. Students will learn to identify western cultural biases, to integrate diverse sources of information into holistic perspectives and to apply anthropological knowledge and perspectives to solve problems of broad human relevance in contemporary contexts.

**Before Graduating Students Must**

- Achieve satisfactory evaluation of a term paper written for an upper-division course or senior honors thesis.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Identify, describe, explain and apply factual, conceptual and procedural knowledge in the four subfields of anthropology (cultural anthropology, archaeology, biological anthropology, linguistics).
Critical Thinking
2. Apply scientific and humanistic approaches to investigate human variation in its biological, social, and cultural dimensions, and identify and evaluate disparate knowledge claims culturally and historically.

Communication
3. Articulate anthropological knowledge professionally in written and verbal form.

1. There are no prerequisites for 2000-level courses. Students in the honors program may take honors sections of any offered anthropology class. Any student at the sophomore level and above with the appropriate prerequisites or permission of the instructor may enroll in cross-listed graduate-level courses. Students are encouraged to take courses that address theory and method in the discipline, in addition to survey courses and area studies.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450201&track=01) may be used for transfer students.

**Semester 1**

- 2.0 UF GPA required
Semester 2
• Complete 1 anthropology course
• 2.0 UF GPA required

Semester 3
• Complete 1 additional anthropology course or STA 2023
• 2.0 UF GPA required

Semester 4
• Complete 1 additional anthropology course
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 5
• Complete 2 additional anthropology courses
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 6
• Complete 2 additional anthropology courses
• 2.0 UF GPA required

Semester 7
• Complete 2 additional anthropology courses
• 2.0 UF GPA required

Semester 8
• Complete ANT 4931
• Complete 1 additional anthropology course
• 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

ANT Capstone | I, R, A | A | A |

Assessment Types

- Exams
Bachelor of Science

Anthropology is the study of people in their cultural context and the examination of all aspects of patterned social behavior. The discipline is worldwide in scope and encompasses all aspects of human, biological, and social life from earliest times to the present. It is a broad, holistic field that seeks to understand human adaptation to natural and social environments.

About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Degrees:** Bachelor of Arts (p. 1009) | Bachelor of Science (p. 1014)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Anthropology lies at the intersection of the multiple approaches to the study of humankind that characterize other disciplines – biological, social, cultural, historical, linguistic, cognitive, material, technological and aesthetic – because of its unique holistic perspective. These multiple approaches are encapsulated in the four traditional subfields that have composed the discipline since its establishment in the 19th century: cultural (http://sites.clas.ufl.edu/anthropology/department-subfields/cultural-anthropology/), archaeological (http://sites.clas.ufl.edu/anthropology/department-subfields/archaeology/), biological (http://sites.clas.ufl.edu/anthropology/department-subfields/biological-anthropology/) and linguistic (http://sites.clas.ufl.edu/anthropology/department-subfields/linguistic-anthropology/) anthropology.

Curriculum

- American Indian and Indigenous Studies
- Anthropology
- Anthropology Minor
- Anthropology Minor UF Online
- Anthropology UF Online
- Medical Anthropology Certificate

Anthropology includes four subfields: cultural anthropology, archaeology, biological anthropology, and linguistics. Undergraduates may concentrate their studies in one of these four subfields or pursue a focus in an interdisciplinary track with another major or minor. The anthropology major has two different programs: the Bachelor of Arts and the Bachelor of Science. Coursework for the major will depend upon the program, both of which are flexible. Both degrees are earned in anthropology rather than in any one subfield.

Students who are uncertain of a program should contact the Department of Anthropology’s undergraduate coordinator for information and curriculum planning.

**B.A. in Anthropology**

Provides a broad-based liberal arts education and prepares students to work in an increasingly complex world. B.A. majors learn about different groups of people, their prehistory, and their biological and cultural diversity through disciplines that combine social science, natural science, and the humanities. Many undergraduate anthropology majors go on to graduate school in the social sciences, while others use anthropology to prepare themselves for professional careers in other disciplines. In a world of increasing globalization and need for effective international relations and understanding, anthropology is a highly relevant liberal arts and sciences major for students interested in pursuing careers in business, education, government, health, and law.

**B.S. in Anthropology**

Provides a degree option that blends their interest in basic science with the holistic lens of anthropology. B.S. majors engage in anthropology through coursework, lab and field-based research, and outreach. A grounding in scientific-based research, community initiatives, and multicultural skillsets enables our students to address pressing needs in both local and global contexts. For example, students often participate in independent and collaborative initiatives on and off campus and receive pre-graduate training in life sciences, health-related disciplines, natural history, and/or archaeological science fields. A B.S. in anthropology will encourage students to develop STEM-based skill sets and enhance scientific inquiry to
address salient anthropological issues. This degree inevitably draws upon multidisciplinary fields including anatomy, biology, chemistry, ecology, engineering, genetics, geology, physics, mathematics, statistics, zoology, and botany.

Coursework for the Major

Both the B.A. and the B.S. require a minimum of 34 semester credits in anthropology and all coursework must be completed with minimum grades of C. A minimum of 18 credits of anthropology coursework must be completed at UF.

For the BS degree, all required anthropology, and required related coursework must be completed with a minimum GPA of 2.5.

Overseas Studies

Students concentrating in any subfield, particularly cultural anthropology and/or archaeology, are also encouraged to complete either an ethnographic study abroad program or an archaeological field school before their senior year.

Relevant Minors and/or Certificates

The department encourages students pursuing the B.A. to choose a minor or an interdisciplinary certificate option in African studies, Asian studies, environmental studies, Jewish studies, Latin American studies, linguistics or women’s studies. Relevant courses in anthropology may be used to fulfill some requirements.

Bachelor of Science

The B.S. in anthropology provides students with a degree option that blends their interest in basic science with the holistic lens of anthropology. B.S. majors engage in anthropology through coursework, lab and field-based research, and outreach. A grounding in scientific-based research, community initiatives, and multicultural skillsets enable our students to address pressing needs in both local and global contexts. For example, students often participate in independent and collaborative initiatives on and off campus and receive pre-graduate training in life sciences, health-related disciplines, natural history, and/or archaeological science fields. A B.S. in anthropology will encourage students to develop STEM-based skill sets and enhance scientific inquiry to address salient anthropological issues. This degree inevitably draws upon multidisciplinary fields including anatomy, biology, chemistry, ecology, engineering, genetics, geology, physics, mathematics, statistics, zoology, and botany.

Required Coursework for the B.S.

Complete with a minimum 2.5 GPA.

### Total Credits

62-69

---

1. Students should consult with the Undergraduate Coordinator.

2. Complete with a minimum 2.5 GPA.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450201&track=01) may be used for transfer students.
**Semester 1**
- 2.5 UF GPA required

**Semester 2**
- Complete 1 anthropology course and 1 related foundation course
- 2.5 UF GPA required

**Semester 3**
- Complete 1 additional anthropology course or STA 2023, and 1 additional related foundation course
- 2.5 UF GPA required

**Semester 4**
- Complete 1 additional anthropology course and 1 additional related foundation course
- 2.5 GPA required for all critical-tracking courses
- 2.5 UF GPA required

**Semester 5**
- Complete 2 additional anthropology courses and 1 related foundation course
- 2.5 GPA required for all critical-tracking courses
- 2.5 UF GPA required

**Semester 6**
- Complete 2 additional anthropology courses
- Complete related science core course
- 2.5 UF GPA required

**Semester 7**
- Complete 2 additional anthropology courses
- Complete related science core course
- 2.5 UF GPA required

**Semester 8**
- Complete ANT 4931
- Complete 1 additional anthropology course
- 2.5 UF GPA required

---

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). PHY 2049, PHY 2049L, PHY 2054, PHY 2054L, STA 3024, and 3000 level or above related science core coursework outside of the Anthropology department may count towards the 3000 level or above electives outside of the major if taken.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

#### Total Credits

120

---

1 One of three required foundation coursework sequences *(BSC 2010, BSC 2010L and BSC 2011, BSC 2011L; CHM 2045, CHM 2045L and CHM 2046, CHM 2046L; and MAC 2311 or STA 3024)* can be substituted with either Physics 1 and 2 and Laboratories *(PHY 2053, PHY 2053L and PHY 2054 and PHY 2054L)* or Physics with Calculus 1 and 2 and Laboratories *(PHY 2048, PHY 2048L and PHY 2049, PHY 2049L)*.

2 MAC 1147 or higher recommended for Chemistry sequence.

### Academic Learning Compact

Students will develop critical thinking, problem solving and communication skills in the social sciences and in studies of natural history pertaining to human and non-human primates. Through study of human biological and cultural history and diversity, students will learn holistic, comparative and relative perspectives of anthropology, both scientific and humanistic. Emphasis is on critical thinking skills in the evaluation of alternative knowledge.
claims. Students will learn to identify western cultural biases, to integrate diverse sources of information into holistic perspectives and to apply anthropological knowledge and perspectives to solve problems of broad human relevance in contemporary contexts.

**Before Graduating Students Must**
- Achieve satisfactory evaluation of a term paper written for an upper-division course or senior honors thesis.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Identify, describe, explain and apply factual, conceptual and procedural knowledge in the four subfields of anthropology (cultural anthropology, archaeology, biological anthropology, linguistics).

**Critical Thinking**
2. Apply scientific and humanistic approaches to investigate human variation in its biological, social, and cultural dimensions, and identify and evaluate disparate knowledge claims culturally and historically.

**Communication**
3. Articulate anthropological knowledge professionally in written and verbal form.

**Curriculum Map**

*I = Introduced; R = Reinforced; A = Assessed*

Total Credits: 37

There are no prerequisites for 2000-level courses. Students in the honors program may take honors sections of any offered anthropology class. Any student at the sophomore level and above with the appropriate prerequisites or permission of the instructor may enroll in cross-listed graduate-level courses. Students are encouraged to take courses that address theory and method in the discipline, in addition to survey courses and area studies.

Overseas Studies

Students concentrating in any subfield, particularly cultural anthropology and/or archaeology, are also encouraged to complete either an ethnographic study abroad program or an archaeological field school before their senior year.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450201&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 anthropology course
- 2.0 UF GPA required

Semester 3

- Complete 1 additional anthropology course or STA 2023
- 2.0 UF GPA required

Semester 4

- Complete 1 additional anthropology course
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required
Semester 5
- Complete 2 additional anthropology courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6
- Complete 2 additional anthropology courses
- 2.0 UF GPA required

Semester 7
- Complete 2 additional anthropology courses
- 2.0 UF GPA required

Semester 8
- Complete ANT 4931
- Complete 1 additional anthropology course
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

Students will develop critical thinking, problem solving and communication skills in the social sciences and in studies of natural history pertaining to human and non-human primates. Through study of human biological and cultural history and diversity, students will learn holistic, comparative and relative perspectives of anthropology, both scientific and humanistic. Emphasis is on critical thinking skills in the evaluation of alternative knowledge claims. Students will learn to identify western cultural biases, to integrate diverse sources of information into holistic perspectives and to apply anthropological knowledge and perspectives to solve problems of broad human relevance in contemporary contexts.

Before Graduating Students Must

- Achieve satisfactory evaluation of a term paper written for an upper-division course or senior honors thesis.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe, explain and apply factual, conceptual and procedural knowledge in the four subfields of anthropology (cultural anthropology, archaeology, biological anthropology, linguistics).

Critical Thinking
2. Apply scientific and humanistic approaches to investigate human variation in its biological, social, and cultural dimensions, and identify and evaluate disparate knowledge claims culturally and historically.

Communication
3. Articulate anthropological knowledge professionally in written and verbal form.

### Anthropology Minor

The College of Liberal Arts and Sciences is the largest college on campus, with more than 10,000 undergraduate students pursuing a variety of disciplines through over 40 majors and 49 minors. Undergraduate students acquire an intellectual foundation based on a well-rounded and comprehensive education designed for an increasingly technological and rapidly changing society.

### Assessment Types

- Exams
**About this Program**

- **College**: Liberal Arts and Sciences (p. 978)
- **Credits**: 15-16 | Completed with minimum grades of C and no optional S/U

**Department Information**

Anthropology lies at the intersection of the multiple approaches to the study of humankind that characterize other disciplines — biological, social, cultural, historical, linguistic, cognitive, material, technological and aesthetic — because of its unique holistic perspective. These multiple approaches are encapsulated in the four traditional subfields that have composed the discipline since its establishment in the 19th century: cultural ([sites.clas.ufl.edu/anthropology/department-subfields/cultural-anthropology/](http://sites.clas.ufl.edu/anthropology/department-subfields/cultural-anthropology/)), archaeological ([sites.clas.ufl.edu/anthropology/department-subfields/archaeology/](http://sites.clas.ufl.edu/anthropology/department-subfields/archaeology/)), biological ([sites.clas.ufl.edu/anthropology/department-subfields/biological-anthropology/](http://sites.clas.ufl.edu/anthropology/department-subfields/biological-anthropology/)), and linguistic ([sites.clas.ufl.edu/anthropology/department-subfields/linguistic-anthropology/](http://sites.clas.ufl.edu/anthropology/department-subfields/linguistic-anthropology/)) anthropology.

Arabic

Foreign Languages and Literatures

The Arabic language is the key to understanding the culture and history of North Africa, the Middle East, and the Arabian Peninsula. Arabic is also the liturgical language of more than a billion Muslims, and it is one of the six official languages of the United Nations. The Arabic specialization of the Foreign Languages and Literatures major enables students to develop an appreciation for the complexity of the many facets of the Arab world: its society, culture, history, arts, religions, and literary heritage.

About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

Related Programs

- Dual Languages
- Foreign Languages and Literatures
- Middle Eastern Languages and Cultures

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

The Arabic specialization of the Foreign Languages and Literatures major provides students with a solid background in the linguistic, literary, and cultural aspects of the Arab World, including North Africa, the Arab Middle East and the Arabian Peninsula. The major gives students a foundation in the Arabic language, including speaking, reading, writing, and listening, as well as the opportunity to advance their knowledge of Arab cultures. It prepares students for graduate school and is ideal for students considering careers in government and diplomacy, academia, business, and international development. Many students choose to double major in the Arabic specialization of the Foreign Languages and Literatures major and another subject in social sciences, humanities, business, or journalism.

Coursework for the Major

The Arabic specialization of the Foreign Languages and Literatures major consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

Total Credits 51
Although courses may appear in more than one group they may be counted toward only one group.

Recommended for those planning to pursue careers requiring advanced level skills in Arabic or graduate work in Arabic studies.

**Overseas Study**

Students of the Arabic specialization of the Foreign Languages and Literatures major are encouraged to study abroad for a summer or a semester. Students may choose the nine-week summer UF-sponsored program in the Arabic Language Institute in Fez (ALIF) in Morocco. The program offers students the opportunity to earn 11 credit hours (only 6 may be transferred as part of the Required Foundation Coursework).

Students may also choose another UF-approved study-abroad program in Morocco or another Arab country (e.g., in Jordan, Qatar).

**Placement**

In all languages, students with either a native background in the language or prior study in that language might be eligible to place out of the preparatory language courses and should meet with the undergraduate coordinator to arrange for placement assessment.

**Research**

Students with an upper-division GPA of 3.5 are encouraged to write a thesis for high or highest honors at graduation.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites ([https://dlss.flvc.org/pbhs/cqkjp36deG03JcO5t3/actionHandler.jsp/doc.pdf](https://dlss.flvc.org/pbhs/cqkjp36deG03JcO5t3/actionHandler.jsp/doc.pdf)) may be used for transfer students.

**SEMESTER 1**

- Complete ARA 1130 or higher-level Arabic Language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**SEMESTER 2**

- Complete ARA 1131 or higher-level Arabic Language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**SEMESTER 3**

- Complete ARA 2220 or higher-level Arabic Language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**SEMESTER 4**

- Complete ARA 2221 or higher-level Arabic Language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**SEMESTER 5**

- Complete ARA 3410 or a higher-level Arabic Language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**Semester 6**

- Complete ARA 3411 or a higher-level Arabic language course
- Complete 2 Advanced Electives
- 2.0 UF GPA required

**Semester 7**

- Complete ARA 4400
- Complete Advanced Elective
• Complete 1 Critical Concentration course
• 2.0 UF GPA required

**Semester 8**
• Completed ARA 4420
• Complete 2 Advanced Electives
• Complete 2 Critical Concentration courses
• 2.0 UF GPA required

---

### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). 3000 level or above critical concentration courses outside of Arabic may count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

### Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

### Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

### Students in the Major Will Learn to

**Student Learning Outcomes (SLOs)**

**Content**

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

**Critical Thinking**

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.
Communication
3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

¹ Courses focus on the acquisition of the language(s) of specialization at the advanced level.
² Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types
• Proficiency exams
• Term papers or final projects
• Oral presentations

Arabic Language and Literature Minor

The Arabic language is the key to understanding the culture and history of North Africa, the Middle East, and the Arabian Peninsula. Arabic is also the liturgical language of more than a billion Muslims, and it is one of the six official languages of the United Nations.

About this Program
• College: Liberal Arts and Sciences (p. 978)
• Credits: 15 | Completed with minimum grades of C and no optional S/U

Department Information
Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

Asian Studies Minor

The Asian Studies minor provides multidisciplinary expertise and practical experience in Asia-related affairs through coursework and study abroad opportunities.

About this Program

• **College:** Liberal Arts and Sciences (p. 978)
• **Credits:** 15-22, depending on option | Completed with minimum grades of C

Related Programs

• International Studies

The minor provides two options of study. Language credits earned at other institutions may be accepted.

Students pursuing the major in Foreign Languages and Literatures, Chinese specialization; or Foreign Languages and Literatures, Japanese specialization; or Foreign Languages and Literatures, Dual Language specialization in which one of the languages is Chinese, Japanese, Korean, or Vietnamese, are not eligible to receive the minor in Asian studies.

Of the total credits, no more than three may be individual study (CHI 4905/JPN 4905). Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Asian-American Studies Minor

The Asian-American Studies minor examines the diverse experience of Asian-Americans and Pacific Islanders in the U.S., including their literatures, cultures, religions, histories, racial and gender identities, political participations, and their relationships to their homelands and other Asian diasporas.

About this Program

- **College**: Liberal Arts and Sciences (p. 978)
- **Credits**: 15 | Completed with minimum grades of C and no optional S/U
- **Contact**: Email (malini@ufl.edu)
- **More Info**

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Required courses are generally offered every other year. Sometimes new required courses might be offered. To check the required courses being offered for a particular semester, please see the contact information above.

Astronomy and Astrophysics

Curious about what’s out there? Students who are comfortable with mathematics and physics and who want to understand the nature of the Solar System and other planetary systems, stars, galaxies and/or the universe are encouraged to pursue a B.A. in Astronomy or a B.S. in Astrophysics.

About this Program

• **College**: Liberal Arts and Sciences (p. 978)
• **Degrees**: Bachelor of Arts in Astronomy (p. 1039) | Bachelor of Science in Astrophysics (p. 1044)
• **Credits for Degree**: 120
• **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Astronomy is home to a vibrant community actively engaged in research, education, and outreach. The department’s faculty are involved in a wide range of research programs (https://www.astro.ufl.edu/research/) using world-class resources including an in-house design-through-fabrication instrumentation program (https://www.astro.ufl.edu/instrumentation/past-current-projects/), partner level access to the Gran Telescope Canarias (https://www.astro.ufl.edu/research/telescopes/), the HiPerGator-2 (https://www.astro.ufl.edu/research/computing/) supercomputer, and more.

Map (http://campusmap.ufl.edu/#/index/0038)

Curriculum

• Astronomy and Astrophysics
• Astronomy Minor

The knowledge acquired and the analytical skills developed provide excellent broad-based training for careers in industry, education and government as well as preparation for graduate study in astronomy and astrophysics, science education, engineering, law, and medicine.

The Department of Astronomy offers two undergraduate degree options. The Bachelor of Science (B.S.) in astrophysics is designed for students who intend to pursue careers in a scientific or technical field by continuing to study astronomy, astrophysics or physics at the graduate level or to commence study in some related field such as planetary science.

The Bachelor of Arts (B.A.) in astronomy is broader and less specialized than the B.S., with the aim of developing and sharpening analytical and quantitative reasoning while at the same time cultivating broader knowledge that can be applied to a variety of careers, including business, law, the health professions, science writing, and teaching.

Coursework for the Major

All students are required to take 10 core courses in mathematics, physics and astronomy. The B.A. in astronomy requires a total of 41 credits; the B.S. in astrophysics requires a minimum of 62 credits. Students pursuing the B.A. have fewer additional required astronomy and physics courses, which offers greater flexibility for taking courses in other disciplines.

All required courses must be completed with minimum grades of C.

**Required Courses for Both Degrees**

<table>
<thead>
<tr>

Recommended Coursework for Graduate Study

Students should talk with the undergraduate coordinator and plan to take:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHY 4604</td>
<td>Introductory Quantum Mechanics 1</td>
<td>3</td>
</tr>
</tbody>
</table>

Select additional courses:

- COP 2271 Computer Programming for Engineers
- MAA 4402 Functions of a Complex Variable
- MAS 3114 Computational Linear Algebra
- PHY 3513 Thermal Physics 1
- PHY 4424 Optics 1
- PHY 4523 Statistical Physics
- STA 3032 Engineering Statistics

Students of exceptional ability who have some background in physics are encouraged to take the enriched physics with calculus sequence PHY 2060/PHY 2061 instead of PHY 2048/PHY 2049; PHY 3063 may then be taken in place of PHY 3101; and PHZ 3113 may be substituted for PHY 3221.

Relevant Minors and/or Certificates

UFTeach Program

More Info (https://education.ufl.edu/uf-teach/)

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see the undergraduate coordinator about the UFTeach program. UFTeach students can complete the UFTeach minor in science teaching along with their B.A. in astronomy and have the coursework and preparation for professional teacher certification in Florida when they graduate.

Research

Students pursuing the B.S. in astrophysics are encouraged to engage in research with astronomy faculty by signing up for at least three credits of AST 4911; 3 credits of AST 4911 may count toward the 4000 level requirement; an additional 3 credits of AST 4911 may be applied toward the 4000 level requirement with the approval of the undergraduate coordinator.

Academic Learning Compact

Astronomy and astrophysics provide knowledge of basic concepts, theories and observational findings concerning the structure and evolution of planetary systems, stars, stellar systems such as galaxies, and cosmology. Students will learn scientific methodology and its application in specific contexts, the use of observations in testing hypotheses and the limitations of astronomical observations as well as how to critically evaluate them.

The Bachelor of Arts in Astronomy enables students to become familiar with modern physics and to understand mathematics, including calculus. The Bachelor of Science in Astrophysics enables students to understand the basic concepts, theories and experimental findings in modern physics, electricity and magnetism, and mechanics as they apply to astronomy and astrophysics.

Before Graduating Students Must

- Demonstrate satisfactory (minimum grades of C) performance on a selection of coursework from each of the 4000-level astronomy courses as graded by a faculty committee independent of the instructor and not as part of the course grade.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Bachelor of Arts in Astronomy
   Identify, describe and define the fundamentals of astronomy, including the basic concepts, theories and observational results for planetary systems, stars, stellar systems and cosmology.

   Bachelor of Science in Astrophysics
   Identify, describe and define the fundamentals of astrophysics, including mechanics, electromagnetism, modern physics and the basic concepts, theories and observational results for planetary systems, stars, stellar systems and cosmology.

2. Define and use the techniques of astronomical observation.

Critical Thinking
3. Critically evaluate results of astronomical research.

Communication
4. Effectively and clearly communicate ideas and results in speech and in writing in an accepted style of presentation.

Astronomy
Curious about what’s out there? Students who are comfortable with mathematics and physics and who want to understand the nature of the Solar System and other planetary systems, stars, galaxies and/or the universe are encouraged to pursue a B.A. in Astronomy or a B.S. in Astrophysics.

About this Program
- College: Liberal Arts and Sciences (p. 978)
- Degrees: Bachelor of Arts in Astronomy (p. 1039) | Bachelor of Science in Astrophysics (p. 1044)
- Credits for Degree: 120
- More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Astronomy is home to a vibrant community actively engaged in research, education, and outreach. The department’s faculty are involved in a wide range of research programs (https://www.astro.ufl.edu/research/) using world-class resources including an in-house design-through-fabrication instrumentation program (https://www.astro.ufl.edu/instrumentation/past-current-projects/), partner level access to the Gran Telescope Canarias (https://www.astro.ufl.edu/research/telescopes/), the HiPerGator-2 (https://www.astro.ufl.edu/research/computing/) supercomputer, and more.

Website (https://www.astro.ufl.edu/)
Curriculum

- Astronomy and Astrophysics
- Astronomy Minor

The knowledge acquired and the analytical skills developed provide excellent broad-based training for careers in industry, education and government as well as preparation for graduate study in astronomy and astrophysics, science education, engineering, law, and medicine.

The Department of Astronomy offers two undergraduate degree options. The Bachelor of Science (B.S.) in astrophysics is designed for students who intend to pursue careers in a scientific or technical field by continuing to study astronomy, astrophysics or physics at the graduate level or to commence study in some related field such as planetary science.

The Bachelor of Arts (B.A.) in astronomy is broader and less specialized than the B.S., with the aim of developing and sharpening analytical and quantitative reasoning while at the same time cultivating broader knowledge that can be applied to a variety of careers, including business, law, the health professions, science writing, and teaching.

Coursework for the Major

All students are required to take 10 core courses in mathematics, physics and astronomy. The B.A. in astronomy requires a total of 41 credits; the B.S. in astrophysics requires a minimum of 62 credits. Students pursuing the B.A. have fewer additional required astronomy and physics courses, which offers greater flexibility for taking courses in other disciplines.

All required courses must be completed with minimum grades of C.

- MAA 4402 Functions of a Complex Variable
- MAS 3114 Computational Linear Algebra
- PHY 3513 Thermal Physics 1
- PHY 4424 Optics 1
- PHY 4523 Statistical Physics
- STA 3032 Engineering Statistics

Students of exceptional ability who have some background in physics are encouraged to take the enriched physics with calculus sequence PHY 2060/PHY 2061 instead of PHY 2048/PHY 2049; PHY 3063 may then be taken in place of PHY 3101; and PHZ 3113 may be substituted for PHY 3221.
Relevant Minors and/or Certificates

UFTeach Program

More Info (https://education.ufl.edu/uf-teach/)

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see the undergraduate coordinator about the UFTeach program. UFTeach students can complete the UFTeach minor in science teaching along with their B.A. in astronomy and have the coursework and preparation for professional teacher certification in Florida when they graduate.

Research

Students pursuing the B.S. in astrophysics are encouraged to engage in research with astronomy faculty by signing up for at least three credits of AST 4911; 3 credits of AST 4911 may count toward the 4000 level requirement; an additional 3 credits of AST 4911 may be applied toward the 4000 level requirement with the approval of the undergraduate coordinator.

Bachelor of Arts in Astronomy

The B.A. in astronomy is broader and less specialized than the B.S., with the aim of developing and sharpening analytical and quantitative reasoning while at the same time cultivating broader knowledge that can be applied to a variety of careers, including business, law, the health professions, and teaching.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 978).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400201&track=01) may be used for transfer students.

All students must meet these criteria to remain on track for the major.

Semester 1

• Complete MAC 1147 or MAC 2311
• 2.0 UF GPA required

Semester 2

• Complete MAC 2311
• 2.0 UF GPA required

Semester 3

• Complete MAC 2312, PHY 2048 and PHY 2048L with a 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required
Semester 4
• Complete MAC 2313, PHY 2049 and PHY 2049L with 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

UF freshmen and sophomores should take AST 3018 by semester 4

Semester 5
• 2.5 critical-tracking GPA with completion of AST 3018
• 2.0 UF GPA required

Semester 6
• Complete 2 3000/4000 level courses in AST, PHY, or other science courses approved by the major
• 2.0 UF GPA required

Semester 7
• Complete 2 3000/4000 level courses in AST, PHY, or other science courses approved by the major
• 2.0 UF GPA required

Semester 8
• Complete 2 AST 3000/4000 level courses
• Complete MAP 2302
• 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Electives 6
Electives (3000 level, non-major, if needed) 7

Credits 16

Total Credits 120

Academic Learning Compact
Astronomy and astrophysics provide knowledge of basic concepts, theories and observational findings concerning the structure and evolution of planetary systems, stars, stellar systems such as galaxies, and cosmology. Students will learn scientific methodology and its application in specific contexts, the use of observations in testing hypotheses and the limitations of astronomical observations as well as how to critically evaluate them.

The Bachelor of Arts in Astronomy enables students to become familiar with modern physics and to understand mathematics, including calculus. The Bachelor of Science in Astrophysics enables students to understand the basic concepts, theories and experimental findings in modern physics, electricity and magnetism, and mechanics as they apply to astronomy and astrophysics.

Before Graduating Students Must
• Demonstrate satisfactory (minimum grades of C) performance on a selection of coursework from each of the 4000-level astronomy courses as graded by a faculty committee independent of the instructor and not as part of the course grade.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Bachelor of Arts in Astronomy
   Identify, describe and define the fundamentals of astronomy, including the basic concepts, theories and observational results for planetary systems, stars, stellar systems and cosmology.
   Bachelor of Science in Astrophysics
   Identify, describe and define the fundamentals of astrophysics, including mechanics, electromagnetism, modern physics and the basic concepts, theories and observational results for planetary systems, stars, stellar systems and cosmology.
2. Define and use the techniques of astronomical observation.

Critical Thinking
3. Critically evaluate results of astronomical research.

Communication
4. Effectively and clearly communicate ideas and results in speech and in writing in an accepted style of presentation.

Curriculum Map: B.A. and B.S.
I = Introduced; R = Reinforced; A = Assessed
### Assessment Types for Both Degrees
- Exams
- Portfolios
- Papers
- Oral presentations

### Astronomy Minor

The College of Liberal Arts and Sciences is the largest college on campus, with more than 10,000 undergraduate students pursuing a variety of disciplines through over 40 majors and 49 minors. Undergraduate students acquire an intellectual foundation based on a well-rounded and comprehensive education designed for an increasingly technological and rapidly changing society.

### About this Program

- **College**: Liberal Arts and Sciences (p. 978)
- **Credits**: 15 | Completed with minimum grades of C

### Department Information

The Department of Astronomy is home to a vibrant community actively engaged in research, education, and outreach. The department's faculty are involved in a wide range of research programs (https://www.astro.ufl.edu/research/) using world-class resources including an in-house design-through-fabrication instrumentation program (https://www.astro.ufl.edu/instrumentation/past-current-projects/), partner level access to the Gran Telescope Canarias (https://www.astro.ufl.edu/research/telescopes/), the HiPerGator-2 (https://www.astro.ufl.edu/research/computing/) supercomputer, and more.

Biology | CLAS

The Biology majors combine the faculty and resources of the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences to prepare undergraduates for careers in the biological sciences, advanced study in professional and graduate schools, productive citizenship and leadership, and lifelong learning. The program is comprehensive and flexible, emphasizing the diverse forms, processes, and systems of life. Students in the program complete required and elective courses that promote critical thinking through the investigation and understanding of principles and unifying themes that govern living systems. The Biology major offers a broader approach to biology than is available through a major in botany, zoology, or other specialized biological sciences majors.

About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Degrees:** Bachelor of Arts (p. 1052) | B.S.: Integrative Biology (p. 1060) | B.S.: Preprofessional Biology (p. 1066)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. Our teaching and research provide the integrative and conceptual foundations of the life sciences.

Map (http://campusmap.ufl.edu/#/index/0747)

Curriculum

- Biology UF Online
- Biology | CALS
- Biology | CLAS
- Botany Minor
- Botany | CALS
- Botany | CLAS
- Combination Degrees
• Zoology
• Zoology Minor

The biology degrees develop fundamental knowledge of animals, plants and microorganisms. The degrees and specializations are tailored to meet the needs of preprofessional students, those students preparing for graduate studies in biology or specialized areas, and those seeking careers in education, the allied health professions and interdisciplinary fields such as environmental or biotechnology law, science journalism, and bioscience management.

**Bachelor of Science**
The CLAS Bachelor of Science in biology offers two specializations.

**Bachelor of Science | Integrative Biology**
Designed for students preparing for graduate studies in biology or specialized areas such as ecology, evolution, genetics, molecular biology, physiology, and systematics.

**Bachelor of Science | Preprofessional Biology**
Designed for students preparing for admission to medical, dental, optometry, veterinary, or other professional schools.

**Bachelor of Arts**
The CLAS Bachelor of Arts in biology is a flexible degree that is best suited for students interested in a career in education, the allied health professions, and interdisciplinary fields such as environmental or biotechnology law, science journalism, and bioscience management.

**Coursework for the Majors**
The B.S. biology specializations require significant introductory coursework and credits in general biology, calculus and/or statistics, general chemistry, organic chemistry, and physics. The B.A. requires less preparation in mathematics, chemistry and physics. Students who are uncertain about the program that best suits their goals should consult a biology advisor for information and curriculum planning. Students can also individualize their curricula with additional life science courses from other departments, colleges and units at UF.

**Relevant Minors and/or Certificates**

**UFTeach Program**
There is a severe shortage of qualified secondary school biology teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a biology advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their B.A. or B.S. in biology and have the coursework and preparation for professional teacher certification in Florida when they graduate.

More Info ([http://education.ufl.edu/uf-teach/](http://education.ufl.edu/uf-teach/))

**Research**
All biology majors are encouraged to participate in research. Research experience is valuable on many levels: it diversifies the college experience, teaches how scientists apply the knowledge gained in the classroom to real world questions, provides the opportunity to work with and get to know researchers who are the best in their field, enables participation in cutting edge scientific questions and techniques, enhances the student’s resume/CV when applying to graduate or professional school and, finally, it is essential to help the student determine if science is an appropriate career choice.

CLAS biology majors may participate in research for course credit, as a scholar (e.g., University Scholar), as a volunteer, or, in rare cases, as a paid research assistant.

**Academic Learning Compact**

Biology is the study of the many diverse forms, processes and systems of life. These studies range across all levels of the biological hierarchy, from the simplest to the most complex life forms, across all environments on the earth and across recent and evolutionary time that interconnects ancestors to their descendants.

To understand this vast diversity, the field of biology correspondingly relies on integrative and comparative approaches for the resolution of the general processes, principles and unifying themes that govern living systems. Biology is therefore very interdisciplinary and biologists rely on knowledge from the physical sciences and mathematics, as well as from across the disciplines and subdisciplines of biology for advances and breakthroughs.

The biology major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences.

**Before Graduating Students Must**
• Achieve a passing score for all content subsections of the Major Field Test for Biology. Content subscore areas are molecular biology and genetics, organismal biology, evolution, ecology and population biology.
• Achieve a passing score on the analytical skills assessment indicator of the Major Field Test for Biology.
• Achieve a passing score on the bioethics module quiz in BSC 4936. The content of the module and quiz are reviewed and approved by a faculty committee.
• Achieve a passing score on the scientific literacy paper assignment given in BSC 4936. This paper is graded using a faculty-developed rubric.
• Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

**Critical Thinking**
2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

**Communication**
4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

**Curriculum Map**

B.A. Electives

Approved biological science courses (minimum) 15

Capstone
BSC 4936  Critical Analysis of Biological Research 2

Total Credits 55-64

1 This major requires a minimum of 30 credits in core courses. At least 18 of the 30 credits of the required core coursework must be taken at UF. Any additional credits remaining after completion of required coursework must be met by taking courses from the approved additional life sciences electives.

2 At least two Biology Distribution Courses must be taken at UF. Only one 2000-level course may be applied to the Biology Distribution Course requirement.

3 Course has specific prerequisites. Students should consult the course description when planning their programs to ensure that they may select this course.

4 At least nine credits of B.A. Electives must be taken at UF.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260101&track=01) may be used for transfer students.

Semester 1

- Complete one of the following: BSC 2010/BSC 2010L; or CHM 1025 or CHM 1030 or CHM 2045/CHM 2045L; or MAC 1147 or equivalent or higher math course
- 2.0 UF GPA required
Semester 2
- Complete CHM 1030 or CHM 2045/CHM 2045L and one of the following: BSC 2010/BSC 2010L or MAC 1147 or equivalent or higher MAC course
- 2.0 UF GPA required

Semester 3
- Complete BSC 2010/BSC 2010L and MAC 1147 or equivalent or higher MAC course
- 2.0 UF GPA required

Semester 4
- Complete CHM 1031 or CHM 2046/CHM 2046L; BSC 2011/BSC 2011L; and MAC 1147 or equivalent or higher MAC course with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5
- Complete at least one biology distribution course
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6
- Complete a minimum of 2 of the remaining Biology major 3000/4000 level required core courses

Semester 7
- Complete a minimum of 2 of the remaining Biology major 3000/4000 level required core courses

Semester 8
- Complete BSC 4936 (Capstone)
- Complete all remaining Biology major 3000/4000 level required core courses

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

Approved Biology electives may not count towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

Biology is the study of the many diverse forms, processes and systems of life. These studies range across all levels of the biological hierarchy, from the simplest to the most complex life forms, across all environments on the earth and across recent and evolutionary time that interconnects ancestors to their descendants.

To understand this vast diversity, the field of biology correspondingly relies on integrative and comparative approaches for the resolution of the general processes, principles and unifying themes that govern living systems. Biology is therefore very interdisciplinary and biologists rely on knowledge from the physical sciences and mathematics, as well as from across the disciplines and subdisciplines of biology for advances and breakthroughs.

The biology major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences.

Before Graduating Students Must

• Achieve a passing score for all content subsections of the Major Field Test for Biology. Content subscore areas are molecular biology and genetics, organismal biology, evolution, ecology and population biology.
• Achieve a passing score on the analytical skills assessment indicator of the Major Field Test for Biology.
• Achieve a passing score on the bioethics module quiz in BSC 4936. The content of the module and quiz are reviewed and approved by a faculty committee.
• Achieve a passing score on the scientific literacy paper assignment given in BSC 4936. This paper is graded using a faculty-developed rubric.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.
Critical Thinking
2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication
4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Assessment Types
- Major field test for biology
- Bioethics module
- Scientific literacy paper

Integrative Biology
The Biology majors combine the faculty and resources of the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences to prepare undergraduates for careers in the biological sciences, advanced study in professional and graduate schools, productive citizenship and leadership, and lifelong learning. The program is comprehensive and flexible, emphasizing the diverse forms, processes, and systems of life. Students in the program complete required and elective courses that promote critical thinking through the investigation and understanding of principles and unifying themes that govern living systems. The Biology major offers a broader approach to biology than is available through a major in botany, zoology, or other specialized biological sciences majors.

About this Program
- College: Liberal Arts and Sciences (p. 978)
- Degrees: Bachelor of Arts (p. 1052) | B.S.: Integrative Biology (p. 1060) | B.S.: Preprofessional Biology (p. 1066)
- Credits for Degree: 120
- More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. Our teaching and research provide the integrative and conceptual foundations of the life sciences.

Curriculum

- Biology UF Online
- Biology | CALS
- Biology | CLAS
- Botany Minor
- Botany | CALS
- Botany | CLAS
- Combination Degrees
- Zoology
- Zoology Minor

The biology degrees develop fundamental knowledge of animals, plants and microorganisms. The degrees and specializations are tailored to meet the needs of preprofessional students, those students preparing for graduate studies in biology or specialized areas, and those seeking careers in education, the allied health professions and interdisciplinary fields such as environmental or biotechnology law, science journalism, and bioscience management.

Bachelor of Science

The CLAS Bachelor of Science in biology offers two specializations.

Bachelor of Science | Integrative Biology

Designed for students preparing for graduate studies in biology or specialized areas such as ecology, evolution, genetics, molecular biology, physiology, and systematics.

Bachelor of Science | Preprofessional Biology

Designed for students preparing for admission to medical, dental, optometry, veterinary, or other professional schools.

Bachelor of Arts

The CLAS Bachelor of Arts in biology is a flexible degree that is best suited for students interested in a career in education, the allied health professions, and interdisciplinary fields such as environmental or biotechnology law, science journalism, and bioscience management.

Coursework for the Majors

The B.S. biology specializations require significant introductory coursework and credits in general biology, calculus and/or statistics, general chemistry, organic chemistry, and physics. The B.A. requires less preparation in mathematics, chemistry and physics. Students who are uncertain about the program that best suits their goals should consult a biology advisor for information and curriculum planning. Students can also individualize their curricula with additional life science courses from other departments, colleges and units at UF.

Relevant Minors and/or Certificates

UFTeach Program

There is a severe shortage of qualified secondary school biology teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a biology advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their B.A. or B.S. in biology and have the coursework and preparation for professional teacher certification in Florida when they graduate.

More Info (http://education.ufl.edu/uf-teach/)

Research

All biology majors are encouraged to participate in research. Research experience is valuable on many levels: it diversifies the college experience, teaches how scientists apply the knowledge gained in the classroom to real world questions, provides the opportunity to work with and get to know researchers who are the best in their field, enables participation in cutting edge scientific questions and techniques, enhances the student’s resume/CV when applying to graduate or professional school and, finally, it is essential to help the student determine if science is an appropriate career choice.

More Info (http://major.biology.ufl.edu/do-research/)

CLAS biology majors may participate in research for course credit, as a scholar (e.g., University Scholar), as a volunteer, or, in rare cases, as a paid research assistant.

Bachelor of Science | Integrative Biology

The B.S. | Integrative Biology specialization is designed for students seeking admission to graduate school in biology or specialized areas such as ecology, evolution, genetics, molecular biology, physiology, and systematics.

All coursework for the major must be completed with minimum grades of C.

---

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

---

1. This degree requires a minimum of 27 credits in core courses.
For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260101&track=01) may be used for transfer students.

**Semester 1**
- Complete one of the following in BSC, CHM or MAC: BSC 2010/BSC 2010L; CHM 1025 or CHM 2045/CHM 2045L; MAC 1140, MAC 1114, MAC 1147 or MAC 2311
- 2.0 UF GPA required

**Semester 2**
- Complete CHM 2045/CHM 2045L; and BSC 2010/BSC 2010L or MAC 2311
- 2.0 UF GPA required

**Semester 3**
- Complete BSC 2010/BSC 2010L and MAC 2311 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 4**
- Complete CHM 2046/CHM 2046L and BSC 2011/BSC 2011L with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 5**
- Complete CHM 2210 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 6**
- Complete a minimum of 2 of the remaining Biology major 3000/4000 level required core courses

**Semester 7**
- Complete a minimum of 2 of the remaining Biology major 3000/4000 level required core courses

**Semester 8**
- Complete BSC 4936 (Capstone)
- Complete all remaining Biology major 3000/4000 level required core courses

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

CHM 2211, CHM 2211L, PHY 2054, PHY 2054L, PHY 2049, and PHY 2049L count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

Total Credits 120

1 Select CHM 2211 if CHM 2210 was taken previously.

Academic Learning Compact

Biology is the study of the many diverse forms, processes and systems of life. These studies range across all levels of the biological hierarchy, from the simplest to the most complex life forms, across all environments on the earth and across recent and evolutionary time that interconnects ancestors to their descendants.

To understand this vast diversity, the field of biology correspondingly relies on integrative and comparative approaches for the resolution of the general processes, principles and unifying themes that govern living systems. Biology is therefore very interdisciplinary and biologists rely on knowledge from the physical sciences and mathematics, as well as from across the disciplines and subdisciplines of biology for advances and breakthroughs.

The biology major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences.

Before Graduating Students Must

• Achieve a passing score for all content subsections of the Major Field Test for Biology. Content subscore areas are molecular biology and genetics, organismal biology, evolution, ecology and population biology.
• Achieve a passing score on the analytical skills assessment indicator of the Major Field Test for Biology.
• Achieve a passing score on the bioethics module quiz in BSC 4936. The content of the module and quiz are reviewed and approved by a faculty committee.
• Achieve a passing score on the scientific literacy paper assignment given in BSC 4936. This paper is graded using a faculty-developed rubric.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking
2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication
4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Preprofessional Biology

The Biology majors combine the faculty and resources of the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences to prepare undergraduates for careers in the biological sciences, advanced study in professional and graduate schools, productive citizenship and leadership, and lifelong learning. The program is comprehensive and flexible, emphasizing the diverse forms, processes, and systems of life. Students in the program complete required and elective courses that promote critical thinking through the investigation and understanding of principles and unifying themes that govern living systems. The Biology major offers a broader approach to biology than is available through a major in botany, zoology, or other specialized biological sciences majors.

About this Program
- **College**: Liberal Arts and Sciences (p. 978)
- **Degrees**: Bachelor of Arts (p. 1052) | B.S.: Integrative Biology (p. 1060) | B.S.: Preprofessional Biology (p. 1066)
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. Our teaching and research provide the integrative and conceptual foundations of the life sciences.

Curriculum
- Biology UF Online
- Biology | CALS
- Biology | CLAS
- Botany Minor
- Botany | CALS
- Botany | CLAS
- Combination Degrees
- Zoology
- Zoology Minor

The biology degrees develop fundamental knowledge of animals, plants and microorganisms. The degrees and specializations are tailored to meet the needs of preprofessional students, those students preparing for graduate studies in biology or specialized areas, and those seeking careers in education, the allied health professions and interdisciplinary fields such as environmental or biotechnology law, science journalism, and bioscience management.

Bachelor of Science
The CLAS Bachelor of Science in biology offers two specializations.
Bachelor of Science | Integrative Biology
Designed for students preparing for graduate studies in biology or specialized areas such as ecology, evolution, genetics, molecular biology, physiology, and systematics.

Bachelor of Science | Preprofessional Biology
Designed for students preparing for admission to medical, dental, optometry, veterinary, or other professional schools.

Bachelor of Arts
The CLAS Bachelor of Arts in biology is a flexible degree that is best suited for students interested in a career in education, the allied health professions, and interdisciplinary fields such as environmental or biotechnology law, science journalism, and bioscience management.

Coursework for the Majors
The B.S. biology specializations require significant introductory coursework and credits in general biology, calculus and/or statistics, general chemistry, organic chemistry, and physics. The B.A. requires less preparation in mathematics, chemistry and physics. Students who are uncertain about the program that best suits their goals should consult a biology advisor for information and curriculum planning. Students can also individualize their curricula with additional life science courses from other departments, colleges and units at UF.

Relevant Minors and/or Certificates

UFTeach Program
There is a severe shortage of qualified secondary school biology teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a biology advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their B.A. or B.S. in biology and have the coursework and preparation for professional teacher certification in Florida when they graduate. More Info (http://education.ufl.edu/uf-teach/)

Research
All biology majors are encouraged to participate in research. Research experience is valuable on many levels: it diversifies the college experience, teaches how scientists apply the knowledge gained in the classroom to real world questions, provides the opportunity to work with and get to know researchers who are the best in their field, enables participation in cutting edge scientific questions and techniques, enhances the student’s resume/CV when applying to graduate or professional school and, finally, it is essential to help the student determine if science is an appropriate career choice. More Info (http://major.biology.ufl.edu/do-research/)

CLAS biology majors may participate in research for course credit, as a scholar (e.g., University Scholar), as a volunteer, or, in rare cases, as a paid research assistant.

Bachelor of Science | Preprofessional Biology
The B.S. | Preprofessional Biology specialization is designed for students preparing for admission to medical, dental, optometry, veterinary, or other professional schools. Students in this track should contact the biology advisor or the Academic Advising Center in 100 Farrior Hall for specific requirements.

All coursework for the major must be completed with minimum grades of C.

B.S. Preprofessional Electives

Additional approved life sciences courses (Minimum; a maximum of 6 credits of approved research may be applied to this requirement)

Total Credits

67-73

This degree requires a minimum of 28 credits in core courses. Any additional credits remaining after completion of the required core coursework must be met by taking courses from the approved B.S. preprofessional electives in the biological sciences.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260101&track=01) may be used for transfer students.

Semester 1

- Complete one of the following in BSC, CHM or MAC: BSC 2010/BSC 2010L; CHM 1025 or CHM 2045/CHM 2045L; MAC 1140, MAC 1114, MAC 1147 or MAC 2311
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L; and BSC 2010/BSC 2010L or MAC 2311
- 2.0 UF GPA required

Semester 3

- Complete BSC 2010/BSC 2010L and MAC 2311 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete CHM 2046/CHM 2046L and BSC 2011/BSC 2011L with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required
**Semester 5**
- Complete CHM 2210 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 6**
- Complete a minimum of 2 of the remaining Biology major 3000/4000 level required core courses

**Semester 7**
- Complete a minimum of 2 of the remaining Biology major 3000/4000 level required core courses

**Semester 8**
- Complete BSC 4936 (Capstone)
- Complete all remaining Biology major 3000/4000 level required core courses

### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

Additional Life Science courses may not count as 3000 level or above electives outside of the major. CHM 2211, CHM 2211L, PHY 2054, PHY 2054L, PHY 2049, and PHY 2049L may count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

Academic Learning Compact

Biology is the study of the many diverse forms, processes and systems of life. These studies range across all levels of the biological hierarchy, from the simplest to the most complex life forms, across all environments on the earth and across recent and evolutionary time that interconnects ancestors to their descendants.

To understand this vast diversity, the field of biology correspondingly relies on integrative and comparative approaches for the resolution of the general processes, principles and unifying themes that govern living systems. Biology is therefore very interdisciplinary and biologists rely on knowledge from the physical sciences and mathematics, as well as from across the disciplines and subdisciplines of biology for advances and breakthroughs.

The biology major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences.

Before Graduating Students Must

- Achieve a passing score for all content subsections of the Major Field Test for Biology. Content subscore areas are molecular biology and genetics, organismal biology, evolution, ecology and population biology.
- Achieve a passing score on the analytical skills assessment indicator of the Major Field Test for Biology.
- Achieve a passing score on the bioethics module quiz in BSC 4936. The content of the module and quiz are reviewed and approved by a faculty committee.
- Achieve a passing score on the scientific literacy paper assignment given in BSC 4936. This paper is graded using a faculty-developed rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking
2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication
4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

### Assessment Types
- Major field test for biology
- Bioethics module
- Scientific literacy paper

### Biology UF Online

The online Biology major prepares undergraduates for careers in the biological sciences, advanced study in graduate schools, productive citizenship, and leadership and lifelong learning. The program is comprehensive and flexible, emphasizing the diverse forms, processes, and systems of life. Students in the program complete required and elective courses that promote critical thinking through the investigation and understanding of principles and unifying themes that govern living systems. The Biology major offers a broader approach to biology than is available through a major in botany, zoology, or other specialized biological sciences majors.

### About this Program
- **College:** Liberal Arts and Sciences (p. 978)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

### Department Information

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. Our teaching and research provide the integrative and conceptual foundations of the life sciences.

Website [https://biology.ufl.edu/](https://biology.ufl.edu/)

### Curriculum
- Biology UF Online
- Biology | CALS
- Biology | CLAS
- Botany Minor
- Botany | CALS
- Botany | CLAS
- Combination Degrees
The biology major develops fundamental knowledge of animals, plants, and microorganisms. The Bachelor of Arts in biology is a flexible degree that is best suited for students interested in a career in education, the allied health professions, and interdisciplinary fields such as environmental or biotechnology law, science journalism, and bioscience management. This degree is not recommended for students seeking admission into professional schools such as medicine, dentistry, or veterinary medicine. Please contact an academic advisor for more information.

Coursework for the Major

All coursework for the major must be completed with minimum grades of C.

1. This major requires a minimum of 30 credits in core courses. At least 18 of the 30 credits of the required core coursework must be taken at UF. Any additional credits remaining after completion of required coursework must be met by taking courses from the approved additional life sciences electives. Any additional credits remaining after completion of the required core coursework must be met by taking courses from the approved B.A. electives in the biological sciences.

2. At least two Biology Distribution Courses must be taken at UF. Only one 2000-level course may be applied to the Biology Distribution Course requirement. Students must complete at least one course from three of the five following group. Please note: classes vary from 3-5 credits in each category.

3. Course has specific prerequisites; students should consult the course description when planning their programs to ensure they may select this course.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.
Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260101&track=01) may be used for transfer students.

Semester 1
- Complete 1 of the following: BSC 2010 and BSC 2010L; or CHM 1025 or CHM 1030 or CHM 2045 and CHM 2045L; or MAC 1147 or equivalent or higher math course
- 2.0 UF GPA required

Semester 2
- Complete CHM 1030 or CHM 2045 and CHM 2045L and one of the following: BSC 2010 and BSC 2010L or MAC 1147 or equivalent or higher MAC course
- 2.0 UF GPA required

Semester 3
- Complete BSC 2010 and BSC 2010L and MAC 1147 or equivalent or higher MAC course
- 2.0 UF GPA required

Semester 4
- Complete CHM 1031 or CHM 2046 and CHM 2046L; BSC 2011 and BSC 2011L; and MAC 1147 or equivalent or higher MAC course with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5
- Complete at least 1 biology distribution course
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6
- Complete a minimum of 2 of the remaining Biology major 3000/4000 level required core courses

Semester 7
- Complete a minimum of 2 of the remaining Biology major 3000/4000 level required core courses

Semester 8
- Complete BSC 4936 (Capstone)
- Complete all remaining Biology major 3000/4000 level required core courses

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

1 Cannot be counted as both an elective and a Biology Distribution Course.

## Academic Learning Compact

Academic Learning Compact

Biology is the study of the many diverse forms, processes and systems of life. These studies range across all levels of the biological hierarchy, from the simplest to the most complex life forms, across all environments on the earth and across recent and evolutionary time that interconnects ancestors to their descendants.

To understand this vast diversity, the field of biology correspondingly relies on integrative and comparative approaches for the resolution of the general processes, principles and unifying themes that govern living systems. Biology is therefore very interdisciplinary and biologists rely on knowledge from the physical sciences and mathematics, as well as from across the disciplines and subdisciplines of biology for advances and breakthroughs.

The biology major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences.
Before Graduating Students Must

- Achieve a passing score for all content subsections of the Major Field Test for Biology. Content subscore areas are molecular biology and genetics, organismal biology, evolution, ecology and population biology.
- Achieve a passing score on the analytical skills assessment indicator of the Major Field Test for Biology.
- Achieve a passing score on the bioethics module quiz in BSC 4936. The content of the module and quiz are reviewed and approved by a faculty committee.
- Achieve a passing score on the scientific literacy paper assignment given in BSC 4936. This paper is graded using a faculty-developed rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking
2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication
4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Botany | CLAS

The Botany curriculum provides a broad background in the biology of plants, from the molecular to the organismic level. Students who major in Botany will take courses in ecology, genetics, physiology, taxonomy, evolution, cells and tissues, molecular biology, and biodiversity of plants.

About this Program

- **College**: Liberal Arts and Sciences (p. 978)
- **Degree**: Bachelor of Science
- **Specializations**: General Botany (p. 1088) | Botanical Research (p. 1081)
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.
Department Information
The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. Our teaching and research provide the integrative and conceptual foundations of the life sciences.

• Botany | CALS
• Botany | CLAS
• Combination Degrees
• Zoology
• Zoology Minor

Small classes are taught by faculty who have a commitment to undergraduate education. Students participate in mentored research, assisting faculty with research projects on campus and abroad. The major prepares students for careers in industry and government agencies, for graduate and professional schools, and for teaching jobs in high schools.

General Botany
For students who may not intend to pursue a graduate degree but are interested in a career in plant biology. This specialization provides some flexibility in tailoring the courses needed in order to pursue specific interests. Students are encouraged to consult with an advisor and botany faculty member when deciding on which courses to take.

Botanical Research
For students who intend to pursue a graduate degree, and requires research with a faculty member. This specialization provides the coursework background typically required by botany graduate programs. Students are encouraged to consult with an advisor and biology faculty member when deciding on which courses to take.

Coursework for the Major
Required coursework is dependent upon the specialization. Coursework for each specialization can be found below under Critical Tracking and Model Semester Plan.

Relevant Minors and/or Certificates
Students majoring in botany can minor in most other disciplines, and this is a good way to organize students' electives around areas of interest. Note that botany majors cannot minor in biology or chemistry, nor can biology majors minor in botany (the curricula for the botany and biology majors are too similar).

UFTeach Program
There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a botany advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their B.S. in botany and have the coursework and preparation for professional teacher certification in Florida when they graduate.

Research
Botany majors are strongly encouraged to participate in research, and research is required for the Botanical Research specialization. Research experience is valuable on many levels: it diversifies the college experience; it teaches students how scientists apply the knowledge gained in the classroom to real world questions; it provides the opportunity to work with and get to know researchers who are the best in their field; it introduces students to cutting edge scientific questions and techniques; it can enhance a student's resume/CV when applying to graduate or professional school; and, finally, it is essential in helping students determine if science is a good career choice.
CLAS biology, botany, and zoology majors may participate in research for course credit, as a scholar (e.g., University Scholar, Science for Life Scholar, Beckman Scholar), as a volunteer, or, in rare cases, as a paid research assistant. Students who plan to enroll for course credit must contact potential research mentors, develop a project, and turn in the required application and proposal no later than the week of drop/add. If the window is missed, students should still contact potential research mentors to discuss upcoming opportunities.

More Info (https://biology.ufl.edu/undergraduates/research/)

Academic Learning Compact
The botany major is offered by both the College of Liberal Arts and Sciences and the College of Agricultural and Life Sciences. This major provides a foundation in the life sciences with emphasis on plant systems. Students will learn the diversity of life, the structure of organisms and ecosystems and how they function (i.e., the acquisition, flow, organization and uses of information, energy and nutrients in living systems). Students will learn the scientific method and how it facilitates the discovery of new knowledge in botany and biology, including how to critically evaluate hypotheses and conclusions.

Before Graduating Students Must
- Achieve acceptable performance in all required botany courses.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260301&track=01) may be used for transfer students.

#### Semester 1

- Complete 1 of 5 critical-tracking courses, including lab: BSC 2010/BSC 2010L or BOT 2010C, BSC 2011/BSC 2011L or BOT 2011C, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2311
- 2.0 UF GPA required

#### Semester 2

- Complete 1 additional critical-tracking course, including labs
- 2.0 UF GPA required
Semester 3
• Complete 1 additional critical-tracking course, including labs, with a 2.5 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

Semester 4
• Complete 1 additional critical-tracking course, including labs, with a 2.5 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

Semester 5
• Complete all 5 critical-tracking courses, including labs, with a 2.5 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

Semester 6
• Complete at least 2 required courses for this specialization
  • 2.0 UF GPA required

Semester 7
• Complete CHM 2210 or CHM 3217
• Complete PHY 2053/PHY 2053L or PHY 2048/PHY 2048L
• Complete at least 2 additional (4 total) required courses for this specialization
  • 2.0 UF GPA required

Semester 8
• Complete all remaining major course requirements
  • 2.0 UF GPA required

Model Semester Plan

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

CHM 2211, CHM 2211L, PHY 2054, PHY 2054L, PHY 2049, and PHY 2049L count towards 3000 level or above electives outside of the major. COP 3275 may also count towards the requirement if taken.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

**Academic Learning Compact**

The botany major is offered by both the College of Liberal Arts and Sciences and the College of Agricultural and Life Sciences. This major provides a foundation in the life sciences with emphasis on plant systems. Students will learn the diversity of life, the structure of organisms and ecosystems and how they function (i.e., the acquisition, flow, organization and uses of information, energy and nutrients in living systems). Students will learn the scientific method and how it facilitates the discovery of new knowledge in botany and biology, including how to critically evaluate hypotheses and conclusions.

**Before Graduating Students Must**

- Achieve acceptable performance in all required botany courses.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

**Critical Thinking**
2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

**Communication**
4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

**Curriculum Map**

$I$ = Introduced; $R$ = Reinforced; $A$ = Assessed

General Botany

The Botany curriculum provides a broad background in the biology of plants, from the molecular to the organismic level. Students who major in Botany will take courses in ecology, genetics, physiology, taxonomy, evolution, cells and tissues, molecular biology, and biodiversity of plants.

About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Degree:** Bachelor of Science
- **Specializations:** General Botany (p. 1088) | Botanical Research (p. 1081)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. Our teaching and research provide the integrative and conceptual foundations of the life sciences.

- Biology | CALS
- Biology | CLAS
- Botany Minor
- Botany | CALS
- Botany | CLAS
- Combination Degrees
- Zoology
- Zoology Minor

Coursework for the Major

Required coursework is dependent upon the specialization. Coursework for each specialization can be found below under Critical Tracking and Model Semester Plan.
Relevant Minors and/or Certificates

Students majoring in botany can minor in most other disciplines, and this is a good way to organize students' electives around areas of interest. Note that botany majors cannot minor in biology or chemistry, nor can biology majors minor in botany (the curricula for the botany and biology majors are too similar).

UFTeach Program

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a botany advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their B.S. in botany and have the coursework and preparation for professional teacher certification in Florida when they graduate.

Research

Botany majors are strongly encouraged to participate in research, and research is required for the Botanical Research specialization. Research experience is valuable on many levels: it diversifies the college experience; it teaches students how scientists apply the knowledge gained in the classroom to real world questions; it provides the opportunity to work with and get to know researchers who are the best in their field; it introduces students to cutting edge scientific questions and techniques; it can enhance a student’s resume/CV when applying to graduate or professional school; and, finally, it is essential in helping students determine if science is a good career choice.

CLAS biology, botany, and zoology majors may participate in research for course credit, as a scholar (e.g., University Scholar, Science for Life Scholar, Beckman Scholar), as a volunteer, or, in rare cases, as a paid research assistant. Students who plan to enroll for course credit must contact potential research mentors, develop a project, and turn in the required application and proposal no later than the week of drop/add. If the window is missed, students should still contact potential research mentors to discuss upcoming opportunities.

More Info (https://biology.ufl.edu/undergraduates/research/)

General Botany

This option is intended for students who do not plan to attend graduate or professional school, but are planning a career in government, public service, or secondary education. A student must achieve a minimum grade of C in all required courses for the major.

**Required Courses for the General Botany Specialization**
General Botany

AGR 3303  Genetics  3-4
or PCB 3063  Genetics
PCB 4674  Evolution  4
BOT 2710C  Practical Plant Taxonomy  3
BOT 3503  Physiology and Molecular Biology of Plants  5
& 3503L  and Physiology and Molecular Biology of Plants Laboratory
BSC 4936  Critical Analysis of Biological Research  2

Ecology and Florida Biodiversity
Select two:  6-8
PCB 4043C  General Ecology
PCB 3601C  Plant Ecology
BOT 3151C  Local Flora of North Florida
BSC 3307C  Climate Change Biology

Cells and Tissues
BOT*UF (EEP) AND STATE EMPLOYEE REGISTRATION*4935/5225C  Special Topics (Plant Anatomy)  3-4
or PCB 3023  Essential Cell Biology

Biodiversity Breadth
Select one:  3-4
BOT 2011C  Plant Diversity  1
BOT 4650  Plant Symbiosis
PCB 4460  Biodiversity and Ecology Field Immersion
ZOO 4205C  Invertebrate Biodiversity
ZOO 4307C  Vertebrate Biodiversity
ZOO 4472C  Avian Biology
ZOO 4926  Special Topics in Zoology (Mammalogy)
ENY 3005  Principles of Entomology
& 3005L  and Principles of Entomology Laboratory
WIS 4934  Topics in Wildlife Ecology and Conservation (Mammalogy)
PLP 3002C  Fundamentals of Plant Pathology
PLP 4653C  Basic Fungal Biology
MCB 2000  Microbiology
& 2000L  and Microbiology Laboratory
MCB 3020  Basic Biology of Microorganisms
& 3020L  and Laboratory for Basic Biology of Microorganisms

Botany Electives
Select two additional courses from the above Ecology, Cells and Tissues, or Biodiversity categories, or from the list of approved electives  4-8

Total Credits  63-73

1  Students who choose BOT 2011C to fulfill the foundation requirements may not use BOT 2011C to fulfill the biodiversity breadth requirements for the major.

Recommended and Approved Electives
Some courses may have prerequisites.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260301&track=01) may be used for transfer students.

**Semester 1**
- Complete 1 of 5 critical-tracking courses, including lab: BSC 2010/BSC 2010L or BOT 2010C, BSC 2011/BSC 2011L or BOT 2011C, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 1147 or MAC 2311 or STA 2023
- 2.0 UF GPA required

**Semester 2**
- Complete 1 additional critical-tracking course, including labs
- 2.0 UF GPA required

**Semester 3**
- Complete 1 additional critical-tracking course, including labs, with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 4**
- Complete 1 additional critical-tracking course, including labs, with 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 5**
- Complete all critical-tracking courses, including labs, with 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required
Semester 6
• Complete at least 2 required courses for this specialization
• 2.0 UF GPA required

Semester 7
• Complete one of the remaining Required Foundation courses: CHM 2200/CHM 2200L, PHY 2004/PHY 2004L, MAC 1147/MAC 2311, or STA 2023/COP 2800/COP 3275/BSC 2891
• Complete at least 2 additional (4 total) required courses for this specialization
• 2.0 UF GPA required

Semester 8
• Complete all remaining major course requirements
• 2.0 UF GPA required

Model Semester Plan
For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

CHM 2211, CHM 2211L, PHY 2054, PHY 2054L, PHY 2049, and PHY 2049L may count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

### Academic Learning Compact

The botany major is offered by both the College of Liberal Arts and Sciences and the College of Agricultural and Life Sciences. This major provides a foundation in the life sciences with emphasis on plant systems. Students will learn the diversity of life, the structure of organisms and ecosystems and how they function (i.e., the acquisition, flow, organization and uses of information, energy and nutrients in living systems). Students will learn the
scientific method and how it facilitates the discovery of new knowledge in botany and biology, including how to critically evaluate hypotheses and conclusions.

**Before Graduating Students Must**
- Achieve acceptable performance in all required botany courses.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

**Critical Thinking**
2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

**Communication**
4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

**Assessment Types**
- Major field test for biology
- Bioethics quiz
- Scientific paper

**Botany Minor**
The Botany minor provides a solid foundation in the biology of plants, from the molecular to the organismal level, and their role in larger ecosystems.

**About this Program**
- **College:** Liberal Arts and Sciences (p. 978)
- **Credits:** 15 | Completed with minimum grades of C
- **Contact:** Email (biouc-l@lists.ufl.edu)

**Department Information**
The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. Our teaching and research provide the integrative and conceptual foundations of the life sciences.

Total Credits 15

1 Up to six credits may come from BOT 2010C, BOT 2011C, BOT 2710C, BOT 2800C
2 No more than three credits may be individual work (BOT 4905, BOT 4911).

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Chemistry | Biochemistry

Chemistry is often called the central science because of the pivotal role it plays in the biological and physical sciences, as well as in engineering, agriculture, medicine, and allied health disciplines. Bachelor’s degree chemists choose from diverse paths for their short-term and lifetime careers, including graduate study in a variety of programs, rewarding employment in industry or government laboratories, professional or law school, or much-needed teaching in high schools.

About this Program
- **College**: Liberal Arts and Sciences (p. 978)
- **Degree**: Bachelor of Science
- **Specializations**: Biochemistry (p. 1099) | General Chemistry (p. 1106)
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Chemistry is a comprehensive department granting bachelor's, master's, and Ph.D. degrees with specialization in all areas including biochemistry, nanotechnology, analytical, inorganic, organic, physical, polymer, synthetic and theoretical chemistry. The University of Florida ranks in
the top five chemistry departments nationally in Ph.D. production (http://pubs.acs.org/cen/acs/8747news1.pdf) and is among the top 20 in bachelor's graduates. Website (https://www.chem.ufl.edu/)

214 LEIGH HALL
GAINESVILLE FL 32611-7200
Map (http://campusmap.ufl.edu/#/index/0009)

Curriculum
- Chemistry Minor
- Chemistry | Biochemistry

Students can choose the standard chemistry program, which is comparable to that offered in any major university, or the biochemistry program, which is designed to give more flexibility to students wanting to pursue courses with biological focus. The department encourages students in either specialization to include undergraduate research with one of the department's internationally recognized faculty as a component of the undergraduate experience. Undergraduate research will frequently result in journal publications and/or presentations at scientific meetings.

Coursework for the Major
For either specialization (standard chemistry or biochemistry), all required courses must be completed within two attempts with minimum grades of C. Any foreign language acceptable to the college can be taken with this minimum program and language courses can be taken S-U. ENC 3254 is suggested to fulfill part of the university writing requirement.

Required Coursework
Required coursework will depend upon the program chosen. Coursework for each specialization can be found below under Critical Tracking and Model Semester Plan.

Recommended Coursework
A.C.S. Certified Program: To receive American Chemical Society certification, a student must complete the standard chemistry major. In addition, credit must be earned for CHM 3610L and CHM 3218 plus an additional two credits of advanced work in chemistry courses such as the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHM 4034</td>
<td>Advanced Biochemistry and Chemical Biology</td>
<td>4</td>
</tr>
<tr>
<td>CHM 4272</td>
<td>The Organic Chemistry of Polymers</td>
<td>2</td>
</tr>
<tr>
<td>CHM 4300L</td>
<td>Laboratory in Biochemistry and Molecular Biology</td>
<td>2</td>
</tr>
<tr>
<td>CHM 4304</td>
<td>Chemical Aspects of Cellular Control</td>
<td>3</td>
</tr>
<tr>
<td>CHM 4910</td>
<td>Undergraduate Research</td>
<td>3</td>
</tr>
</tbody>
</table>

If CHM 4910 is used, a thesis must be written.

Course Details
Introduction to General Chemistry
CHM 1025, a two-credit course, is offered for students who need to strengthen their understanding of basic concepts of atomic structure and stoichiometry before beginning the general chemistry sequence:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHM 2045 &amp; 2045L</td>
<td>General Chemistry 1 and General Chemistry 1 Laboratory</td>
<td>4</td>
</tr>
<tr>
<td>CHM 2046 &amp; 2046L</td>
<td>General Chemistry 2 and General Chemistry 2 Laboratory</td>
<td>4</td>
</tr>
</tbody>
</table>

A placement exam is offered via ONE.UF (https://one.uf.edu/) and the score achieved determines whether CHM 1025 or CHM 2045 is the appropriate first course in chemistry.

General Chemistry
The following general chemistry offerings are available:
• CHM 1030/CHM 1031 is a terminal sequence for non-science students that presents chemistry from a medical and nursing perspective.
• CHM 1020 is a terminal general education course that explores chemistry in terms of society.
• CHM 2045/CHM 2045L and CHM 2046/CHM 2046L is the standard general chemistry sequence and is an acceptable preprofessional requirement for many science and engineering majors. Students are presumed to have good backgrounds in high school chemistry and mathematics (through MAC 1147) and are expected to pass the placement exam offered via ONE.UF (https://one.uf.edu/) before registering for CHM 2045.
• CHM 2095/CHM 2045L and CHM 2096/CHM 2046L is an alternative general chemistry sequence especially designed for engineering majors.
• CHM 2047/CHM 2047L is a one-semester program for entering first-year students with strong backgrounds in chemistry, normally reflected by high AP or IB chemistry test scores. This program enables students to move more quickly into advanced work.
• CHM 2051 is offered as an alternative to CHM 2046 for students who have done particularly well in CHM 2045.
• CHM 2054L is a 2-credit, inquiry-based lab focusing on major concepts in chemistry and their application to quantitative life-sciences research. This course is equivalent to CHM 2045L and CHM 2046L or CHM 2047L.

Placement
For placement into the appropriate first course in chemistry, please refer to the Academic Advising section or consult a chemistry advisor. All students should complete their general chemistry studies at the same institution.

Minors and/or Certificates
UFTeach Program
There is a severe shortage of qualified high school chemistry teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a chemistry advisor about the UFTeach program. UFTeach students complete the UFTeach minor in science teaching with their B.S. in chemistry and have the coursework and preparation for professional teacher certification in Florida when they graduate.

Before Graduating Students Must
• Achieve at least 50% on the Diagnostic of Undergraduate Chemistry Knowledge (DUCK) exam.
• Obtain minimum grades of C in laboratory courses:

<table>
<thead>
<tr>

• Complete requirements for the baccalaureate degree, as determined by the chemistry faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)
Content
1.

• Standard Chemistry
  Explain and apply facts, theories and concepts in
  i. physical
  ii. organic
  iii. inorganic
  iv. analytical chemistry

• Biochemistry
  Explain and apply facts, theories and concepts in
  i. physical
  ii. organic
  iii. inorganic
iv. analytical chemistry  
v. biochemistry

2. • Standard Chemistry  
Demonstrate and safely apply laboratory skills in
i. synthetic  
ii. quantitative  
iii. instrumental methods as scientific approaches to gathering and verifying knowledge

• Biochemistry  
Apply laboratory skills in
i. synthetic  
ii. quantitative  
iii. instrumental  
iv. biochemical methods as scientific approaches to gathering and verifying knowledge

Critical Thinking
3. Standard Chemistry and Biochemistry  
Interpret, evaluate, explain and critically assess theories and experimental results in chemistry or biochemistry.

Communication
4. Standard Chemistry and Biochemistry  
Collect, analyze and articulate results clearly and effectively in both oral and written formats.

---

1 CHM 2054L can substitute for the CHM 2045L/CHM 2046L sequence or for CHM 2047L.

ISC 2400L can substitute for the CHM 2045L, BSC 2010L and PHY 2053L requirements. ISC 2401L can substitute for the CHM 2046L, BSC 2011L and PHY 2054L requirements.

**Required Exit Exam**

Students must also complete the exit exam (Diagnostic of Undergraduate Chemistry Knowledge) with a minimum score of 30 out of 60.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.
Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400501&track=01) may be used for transfer students.

**Semester 1**
- Complete one CHM course and one MAC course
- 2.0 UF GPA required

**Semester 2**
- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.50 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

**Semester 3**
- Complete CHM 2046/CHM 2046L and BSC 2010/BSC 2010L
- 2.65 critical-tracking GPA any additional CHM courses
- 2.0 UF GPA required

**Semester 4**
- Complete BSC 2011/BSC 2011L
- 2.75 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

**Semester 5**
- Complete MAC 2312 and CHM 2212, CHM 2210, or CHM 3217
- 2.75 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

**Semester 6**
- Complete CHM 3120/CHM 3120L, and CHM 2213/CHM 2211L or CHM 2211/CHM 2211L
- 2.0 UF GPA required

**Semester 7**
- Complete CHM 3218 and at least 1 of the remaining CHM 3XXX/4XXX or Biochemistry elective required courses
- 2.0 UF GPA required

**Semester 8**
- Complete all of the remaining CHM 3XXX/4XXX and Biochemistry elective required courses
- 2.0 UF GPA required

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

MAC 2312, MCB 3020, PHY 2049, PHY 2049L, PHY 2054, PHY 2054L, and Biochemistry electives outside of the Chemistry department count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

Chemistry is the study of matter: the structure and properties of matter, the transformations from one form of matter to another and the energy transformations associated with these transformations.

Before Graduating Students Must

- Achieve at least 50% on the Diagnostic of Undergraduate Chemistry Knowledge (DUCK) exam.
- Obtain minimum grades of C in laboratory courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>

</tr>
<tr>
<td>or CHM 4413L</td>
<td>Biophysical Chemistry Laboratory</td>
<td></td>
</tr>
</tbody>
</table>

- Complete requirements for the baccalaureate degree, as determined by the chemistry faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. **Standard Chemistry**
   - Explain and apply facts, theories and concepts in
     - i. physical
     - ii. organic
     - iii. inorganic
     - iv. analytical chemistry

2. **Biochemistry**
   - Explain and apply facts, theories and concepts in
     - i. physical
     - ii. organic
     - iii. inorganic
     - iv. analytical chemistry
     - v. biochemistry
• **Standard Chemistry**
  Demonstrate and safely apply laboratory skills in
  i. synthetic
  ii. quantitative
  iii. instrumental methods as scientific approaches to gathering and verifying knowledge

• **Biochemistry**
  Apply laboratory skills in
  i. synthetic
  ii. quantitative
  iii. instrumental
  iv. biochemical methods as scientific approaches to gathering and verifying knowledge

**Critical Thinking**
3. **Standard Chemistry and Biochemistry**
   Interpret, evaluate, explain and critically assess theories and experimental results in chemistry or biochemistry.

**Communication**
4. **Standard Chemistry and Biochemistry**
   Collect, analyze and articulate results clearly and effectively in both oral and written formats.

**Curriculum Map**

I = Introduced; R = Reinforced; A = Assessed

Assessment Types for Both Specializations

- Oral tests or reports
- Written reports
- Lab practicals

General Chemistry

Chemistry is often called the central science because of the pivotal role it plays in the biological and physical sciences, as well as in engineering, agriculture, medicine, and allied health disciplines. Bachelor’s degree chemists choose from diverse paths for their short-term and lifetime careers, including graduate study in a variety of programs, rewarding employment in industry or government laboratories, professional or law school, or much-needed teaching in high schools.

About this Program

- College: Liberal Arts and Sciences (p. 978)
- Degree: Bachelor of Science
- Specializations: Biochemistry (p. 1099) | General Chemistry (p. 1106)
- Credits for Degree: 120
- More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Chemistry is a comprehensive department granting bachelor’s, master’s, and Ph.D. degrees with specialization in all areas including biochemistry, nanochemistry, analytical, inorganic, organic, physical, polymer, synthetic and theoretical chemistry. The University of Florida ranks in the top five chemistry departments nationally in Ph.D. production (http://pubs.acs.org/cen/acs/8747news1.pdf) and is among the top 20 in bachelor’s graduates.

Curriculum

- Chemistry Minor
- Chemistry | Biochemistry

Students can choose the standard chemistry program, which is comparable to that offered in any major university, or the biochemistry program, which is designed to give more flexibility to students wanting to pursue courses with biological focus. The department encourages students in either specialization to include undergraduate research with one of the department’s internationally recognized faculty as a component of the undergraduate experience. Undergraduate research will frequently result in journal publications and/or presentations at scientific meetings.

Coursework for the Major

For either specialization (standard chemistry or biochemistry), all required courses must be completed within two attempts with minimum grades of C. Any foreign language acceptable to the college can be taken with this minimum program and language courses can be taken S-U. ENC 3254 is suggested to fulfill part of the university writing requirement.

Required Coursework

Required coursework will depend upon the program chosen. Coursework for each specialization can be found below under Critical Tracking and Model Semester Plan.
Recommended Coursework

A.C.S. Certified Program: To receive American Chemical Society certification, a student must complete the standard chemistry track. In addition, credit must be earned for CHM 3218, either CHM 3610L or CHM 4300L, and an additional two credits of advanced work in chemistry courses such as the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHM 4034</td>
<td>Advanced Biochemistry and Chemical Biology</td>
<td>4</td>
</tr>
<tr>
<td>CHM 4230</td>
<td>Organic Spectroscopy</td>
<td>2</td>
</tr>
<tr>
<td>CHM 4272</td>
<td>The Organic Chemistry of Polymers</td>
<td>2</td>
</tr>
<tr>
<td>CHM 4304</td>
<td>Chemical Aspects of Cellular Control</td>
<td>3</td>
</tr>
<tr>
<td>CHM 4910</td>
<td>Undergraduate Research</td>
<td>3</td>
</tr>
</tbody>
</table>

If CHM 4910 is used, a thesis must be written.

Course Details

Introduction to General Chemistry

CHM 1025, a two-credit course, is offered for students who need to strengthen their understanding of basic concepts of atomic structure and stoichiometry before beginning the general chemistry sequence:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHM 2045</td>
<td>General Chemistry 1 and General Chemistry 1 Laboratory</td>
<td>4</td>
</tr>
<tr>
<td>CHM 2046</td>
<td>General Chemistry 2 and General Chemistry 2 Laboratory</td>
<td>4</td>
</tr>
</tbody>
</table>

A placement exam is offered via ONE.UF (https://one.uf.edu/) and the score achieved determines whether CHM 1025 or CHM 2045 is the appropriate first course in chemistry.

General Chemistry

The following general chemistry offerings are available:

- CHM 1030/CHM 1031 is a terminal sequence for non-science students that presents chemistry from a medical and nursing perspective.
- CHM 1020 is a terminal general education course that explores chemistry in terms of society.
- CHM 2045/CHM 2045L and CHM 2046/CHM 2046L is the standard general chemistry sequence and is an acceptable preprofessional requirement for many science and engineering majors. Students are presumed to have good backgrounds in high school chemistry and mathematics (through MAC 1147) and are expected to pass the placement exam offered via ONE.UF (https://one.uf.edu/) before registering for CHM 2045.
- CHM 2095/CHM 2045L and CHM 2096/CHM 2046L is an alternative general chemistry sequence especially designed for engineering majors.
- CHM 2047/CHM 2047L is a one-semester program for entering first-year students with strong backgrounds in chemistry, normally reflected by high AP or IB chemistry test scores. This program enables students to move more quickly into advanced work.
- CHM 2051 is offered as an alternative to CHM 2046 for students who have done particularly well in CHM 2045.
- CHM 2054L is a 2-credit, inquiry-based lab focusing on major concepts in chemistry and their application to quantitative life-sciences research. This course is equivalent to CHM 2045L and CHM 2046L or CHM 2047L.

Placement

For placement into the appropriate first course in chemistry, please refer to the Academic Advising section or consult a chemistry advisor. All students should complete their general chemistry studies at the same institution.

More Info (p. 1673)

Minors and/or Certificates

UFTeach Program

There is a severe shortage of qualified high school chemistry teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a chemistry advisor about the UFTeach program. UFTeach students complete the UFTeach minor in science teaching with their B.S. in chemistry and have the coursework and preparation for professional teacher certification in Florida when they graduate.

---

1. CHM 2054L can substitute for the CHM 2045L/CHM 2046L sequence or for CHM 2047L.

ISC 2400L can substitute for the CHM 2045L, BSC 2010L and PHY 2053L requirements. ISC 2401L can substitute for the CHM 2046L, BSC 2011L and PHY 2054L requirements.
**Required Exit Exam**

Students must also complete the exit exam (Diagnostic of Undergraduate Chemistry Knowledge) with a minimum score of 30 out of 60.

The required courses in the standard chemistry major are generally offered every fall and spring. Because of budgetary and other restrictions, summer schedules cannot be predetermined and required courses generally are offered in Summer C (12 weeks).

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400501&track=01) may be used for transfer students.

**Semester 1**

- Complete one CHM course and one MAC course
- 2.0 UF GPA required

**Semester 2**

- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.50 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

**Semester 3**

- Complete CHM 2046/CHM 2046L and MAC 2312
- 2.65 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

**Semester 4**

- 2.75 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

**Semester 5**

- Complete MAC 2313, and CHM 2212 or CHM 2210
- 2.75 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

**Semester 6**

- Complete CHM 3120/CHM 3120L, and CHM 2213/CHM 2211L or CHM 2211/CHM 2211L
- 2.0 UF GPA required

**Semester 7**

- Complete 2 of the remaining CHM 3XXX/4XXX required courses
- 2.0 UF GPA required

**Semester 8**

- Complete all of the remaining 3XXX/4XXX required courses
- 2.0 UF GPA required

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).
MAC 2312, MAC 2313, PHY 2049, PHY 2049L, PHY 2054, and PHY 2054L count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Take CHM 3120/CHM 3120L after CHM 2046/CHM 2046L, but no later than the first semester of the third year.

Academic Learning Compact

Chemistry is the study of matter: the structure and properties of matter, the transformations from one form of matter to another and the energy transformations associated with these transformations.

Before Graduating Students Must

• Achieve at least 50% on the Diagnostic of Undergraduate Chemistry Knowledge (DUCK) exam.
• Obtain minimum grades of C in laboratory courses:

• Complete requirements for the baccalaureate degree, as determined by the chemistry faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1.

• Standard Chemistry
  Explain and apply facts, theories and concepts in
  i. physical
  ii. organic
  iii. inorganic
  iv. analytical chemistry

• Biochemistry
  Explain and apply facts, theories and concepts in
  i. physical
  ii. organic
  iii. inorganic
  iv. analytical chemistry
  v. biochemistry

2.

• Standard Chemistry
  Demonstrate and safely apply laboratory skills in
  i. synthetic
  ii. quantitative
  iii. instrumental methods as scientific approaches to gathering and verifying knowledge

• Biochemistry
  Apply laboratory skills in
i. synthetic
ii. quantitative
iii. instrumental
iv. biochemical methods as scientific approaches to gathering and verifying knowledge

**Critical Thinking**
3. **Standard Chemistry and Biochemistry**
   Interpret, evaluate, explain and critically assess theories and experimental results in chemistry or biochemistry.

**Communication**
4. **Standard Chemistry and Biochemistry**
   Collect, analyze and articulate results clearly and effectively in both oral and written formats.

**Curriculum Map**

* I = Introduced; R = Reinforced; A = Assessed

- Lab practicals

Chemistry Minor

The Chemistry minor provides a solid foundation in general, organic, and analytical chemistry, while enhancing critical thinking and analytical skills.

About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Credits:** 20-26 | Completed with minimum grades of C

Department Information

The Department of Chemistry is a comprehensive department granting bachelor’s, master’s, and Ph.D. degrees with specialization in all areas including biochemistry, nanochemistry, analytical, inorganic, organic, physical, polymer, synthetic and theoretical chemistry. The University of Florida ranks in the top five chemistry departments nationally in Ph.D. production (http://pubs.acs.org/cen/acs/8747news1.pdf) and is among the top 20 in bachelor’s graduates.

Curriculum

- Chemistry Minor
- Chemistry | Biochemistry

At least nine chemistry credits applied toward the minor must be completed at UF. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward other majors or minors.

Students pursuing majors in biology-biotechnology, botany or chemical engineering are not eligible to receive this minor.

Chinese

Foreign Languages and Literatures

The Chinese specialization in foreign languages and literatures develops proficiency in the Chinese language and acquaints students with the literature and cultural history of China. Courses are also available for those interested in business Chinese, classical Chinese, film, and women's studies.

About this Program

- **College**: Liberal Arts and Sciences (p. 978)
- **Degree**: Bachelor of Arts
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

The Chinese specialization of the Foreign Languages and Literatures major provides a foundation for graduate-level work in East Asian studies or allied fields (anthropology, art history, history, linguistics, political science and religion). The major is excellent general preparation for entry to professional schools (business, journalism, law and medicine) or careers in foreign service, commerce, diplomacy, translation, business, import and export of information and culture, museums, libraries, and tourism.

Coursework for the Major

The Chinese specialization of the Foreign Languages and Literatures major consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

Critical Concentration

Select 9 credits from one concentration: 1

- Intensive Area Studies 2
- Comparative Cultural Studies
- Film and Visual Culture
- Literary Studies
- Medieval and Early Modern Studies

Total Credits 51-53

1 Although courses may appear in more than one group they may be counted toward only one group.
2 Recommended for those planning to pursue careers requiring advanced level skills in Chinese or graduate work in Chinese studies.

Students must take the Chinese STAMP 4s Proficiency Test or the equivalent, with level 4 or above proficiency, during or immediately following the second semester of Advanced Chinese or other advanced level course.

Students also must achieve satisfactory faculty evaluation of a self-selected research term paper written for an upper-division course or senior thesis.

Overseas Study

UF in Chengdu at Southwestern University of Finance and Economics is a summer program that provides the equivalent of the UF courses Intermediate Chinese 1 and 2 (CHI 2230/2231) and Advanced Chinese 1 and 2 (CHI 3410/3411) through a 10-week summer session, and uses the same syllabus and required textbooks. Its transfer-credit program features courses in English, CHI 4930 Chinese Society and CHI 4956 Sichuan Culture, that also may apply toward the Chinese specialization.

Placement

Students with previous training in Chinese, as well as those with heritage background in the language, should consult the undergraduate coordinator or the language coordinator of the Chinese specialization before enrolling in any CHI or CHW course. Placement tests are given at the start of each semester; refer to the Department of Languages, Literatures and Cultures for location and times.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160399&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- 2.0 UF GPA required
Semester 3
• Complete CHI 1130 or higher level language course with a minimum grade of C
• 2.0 UF GPA required

Semester 4
• Complete CHI 1131 or higher level language course with a minimum grade of C and a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 5
• Complete CHI 2230 or higher level language course with a minimum grade of C and a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 6
• Complete CHI 2231 or a higher-level Chinese language course with a minimum grade of C
• Complete 2 Advanced Elective courses with a minimum grade of C
• 2.0 UF GPA required

Semester 7
• Complete CHI 3410 or a higher-level Chinese language course with a minimum grade of C
• Complete 2 Advanced Elective courses with a minimum grade of C
• Complete 1 Critical Concentration course with a minimum grade of C
• 2.0 UF GPA required

Semester 8
• Complete CHI 3411 or a higher-level Chinese language course with a minimum grade of C
• Complete 2 Advanced Elective courses with a minimum grade of C
• Complete 2 Critical Concentration courses with a minimum grade of C
• 2.0 UF GPA required

Model Semester Plan

Actural courses may be different depending on language preparation and availability of courses. In particular, beginning language is best started semester 1 and no later than semester 3, but study abroad or accredited intensive summer courses can be used to catch up.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). Several courses in this major count for GE-H and N or GE-S and N requirements. 3000 level or above critical concentration courses outside of Chinese may count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.
Gen Ed Biological or Physical Sciences (area NOT taken in semester 1) 3
Credits 15

**Semester Three**

CHI 2230 Intermediate Chinese 1 *(Critical Tracking)* 5
State Core Gen Ed Humanities (p. 33) 3
Gen Ed Mathematics 3
Gen Ed Physical Sciences 3
Gen Ed Social and Behavioral Sciences 3
Credits 15

**Semester Four**

CHI 2231 Intermediate Chinese 2 *(Critical Tracking)* 5
Advanced elective (3000 level or above; in the major) 3
Elective (3000 level or above; not in major) 3
Elective 3
Credits 14

**Semester Five**

CHI 3410 Advanced Chinese 1 *(Critical Tracking; Gen Ed Social and Behavioral Sciences and International)* 3
LIN 3010 Introduction to Linguistics (recommended elective; Gen Ed Humanities) 3
Gen Ed Biological Sciences 3
Gen Ed Composition; Writing Requirement 3
Advanced elective (3000 level or above; in the major) 3
Credits 15

**Semester Six**

CHI 3411 Advanced Chinese 2 *(Critical Tracking; Gen Ed Social and Behavioral Sciences and International)* 3
Critical concentration course *(Critical Tracking)* 3
Elective credits (3000 level or above; in the major) 6
Elective (3000 level or above; not in major) 3
Credits 15

**Semester Seven**

Critical concentration course *(Critical Tracking)* 3
Advanced elective *(Critical Tracking; 4000 level or above; in the major)* 3
Electives (3000 level or above; not in major) 6
Elective or senior thesis option 3
Credits 15

**Semester Eight**

Critical concentration course *(Critical Tracking)* 3
Advanced elective *(Critical Tracking; 4000 level or above; in the major)* 3
Electives (3000 level or above; not in major) 6
Elective 3
Credits 15

Total Credits 120

**Critical Concentration Courses**

9 Credits from One Concentration

Although courses may appear in more than one group they may be counted toward only one group

**Intensive Area Studies | Chinese**

Recommended for those planning to pursue careers requiring advanced level skills in Chinese or graduate work in Chinese studies

Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking
2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication
3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

Curriculum Map

</table>

<sup>1</sup> Courses focus on the acquisition of the language(s) of specialization at the advanced level.

<sup>2</sup> Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types
- Proficiency exams
- Term papers or final projects
- Oral presentations

Classical Studies
Classical Studies is an interdisciplinary major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek.

About this Program
- **College**: Liberal Arts and Sciences (p. 978)
- **Degree**: Bachelor of Arts
- **Specializations**: Ancient Language (p. 1125) | Classical Civilization (p. 1130) | Modern Greek (p. 1135) | Teacher Certification (p. 1140)
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Classics offers an interdisciplinary Classical Studies major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek. The department also offers minors in Classical Studies and Greek Studies.

Curriculum

- Classical Studies
- Classical Studies Minor
- Greek Studies Minor

Students who major in classical studies often pursue graduate studies in classical languages and literature, art history, ancient history, archaeology, comparative literature, and museum studies. Additional career opportunities are possible depending upon the specialization the student chooses. Small class sizes, emphasis on critical thinking and expression, and a faculty committed to involvement in lower-level undergraduate courses also make this major appealing to students who want excellent preparation for entry to professional schools (e.g., medicine or law).

Specializations

Ancient Language
The ancient language specialization is appropriate for students wishing to have direct contact with the literature and culture of the ancients, and for those who plan to do graduate study in Greek or Latin. Students interested in admission to competitive graduate programs need a minimum of three years of upper-division courses in ancient Greek or Latin and an additional year in the remaining language.

Classical Civilization
The classical civilization specialization is appropriate for those who desire a broad humanities background or are considering admission to graduate school in archaeology, ancient history or an unrelated field such as medicine or law. Students interested in admission to competitive graduate programs in archaeology or ancient history should consult the Department of Classics' undergraduate coordinator for information on specific requirements.

Modern Greek
The modern Greek specialization is appropriate for students wishing to have direct contact with the language, literature, and culture of modern Greece and a closer acquaintance with ancient and medieval Greek civilization. Students study in greater detail the numerous communities of the diaspora, which includes the large and flourishing Greek-American communities of Florida, their history and contemporary culture. By learning a modern European language, students can work in translation, education, services, tourism, the entertainment industry, and political or financial institutions with ties to Greece or Cyprus.

Teacher Certification
Students who want to be high-school Latin teachers should follow the teacher certification specialization. Students who pursue the Florida Teaching minor have the coursework and preparation for professional teacher certification in Florida when they graduate. Alternatively, students can consider a minor in educational studies that would be beneficial if applying to the ProTeach program. Students should consult the College of Education for more information.

Coursework for the Major

Students must complete 21-30 credits of coursework for the classical studies major; the total is dependent upon the specialization. Students must earn a minimum grade of C in a course for it to be applied to the major; no S/U courses can be applied. The Department of Classics requires that a minimum 15 credits of major-related courses be completed at the University of Florida.

All classical studies majors are also required to demonstrate proficiency in Latin, ancient Greek, or modern Greek, depending on the specialization. Credits earned in language courses are not included in the 21-30 credits of coursework for the major.

Overseas Studies

Students may participate in summer, semester, or academic year programs in Italy and Greece. Competitive scholarships for study abroad are available. Students in the modern Greek specialization are encouraged to participate in programs in Greece or Cyprus supported with competitive scholarships by the Center for Greek Studies and other organizations in the United States, Greece, and the European Union.

Placement

Refer to Placement Testing and Evaluation for information on placement into Latin.

Academic Learning Compact

The Bachelor of Arts in classical studies, with specializations in classical civilization, ancient language, teacher certification or modern Greek studies provides a strong foundation in the liberal arts through study of the language, literature, monuments and history of ancient Greece and Rome. Students will develop linguistic, critical thinking and writing skills while gaining knowledge of classical civilization. Students also will explore the connection between the ancient and modern worlds and discover the contributions of classical culture to western civilization.
Before Graduating Students Must

- Successfully complete a department capstone course for majors.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Translate passages of Latin, ancient Greek or Modern Greek literature into English.

Critical Thinking
2. Recognize and explain the connection between the ancient and modern worlds and the contribution of Classical culture to Western civilization.

Communication
3. Write competently in Latin, ancient Greek, or Modern Greek using correct grammar and vocabulary of one or more of these languages. For Modern Greek, speak and comprehend competently.

Ancient Language
Classical Studies is an interdisciplinary major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek.

About this Program
- **College:** Liberal Arts and Sciences (p. 978)
- **Degree:** Bachelor of Arts
- **Specializations:** Ancient Language (p. 1125) | Classical Civilization (p. 1130) | Modern Greek (p. 1135) | Teacher Certification (p. 1140)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Classics offers an interdisciplinary Classical Studies major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek. The department also offers minors in Classical Studies and Greek Studies.

Curriculum
- Classical Studies
- Classical Studies Minor
- Greek Studies Minor

Students who major in classical studies often pursue graduate studies in classical languages and literature, art history, ancient history, archaeology, comparative literature, and museum studies. Additional career opportunities are possible depending upon the specialization the student chooses. Small class sizes, emphasis on critical thinking and expression, and a faculty committed to involvement in lower-level undergraduate courses also make this major appealing to students who want excellent preparation for entry to professional schools (e.g., medicine or law).

Specializations
Ancient Language
The ancient language specialization is appropriate for students wishing to have direct contact with the literature and culture of the ancients, and for those who plan to do graduate study in Greek or Latin. Students interested in admission to competitive graduate programs need a minimum of three years of upper-division courses in ancient Greek or Latin and an additional year in the remaining language.

Classical Civilization
The classical civilization specialization is appropriate for those who desire a broad humanities background or are considering admission to graduate school in archaeology, ancient history or an unrelated field such as medicine or law. Students interested in admission to competitive graduate
programs in archaeology or ancient history should consult the Department of Classics' undergraduate coordinator for information on specific requirements.

**Modern Greek**

The modern Greek specialization is appropriate for students wishing to have direct contact with the language, literature, and culture of modern Greece and a closer acquaintance with ancient and medieval Greek civilization. Students study in greater detail the numerous communities of the diaspora, which includes the large and flourishing Greek-American communities of Florida, their history and contemporary culture. By learning a modern European language, students can work in translation, education, services, tourism, the entertainment industry, and political or financial institutions with ties to Greece or Cyprus.

**Teacher Certification**

Students who want to be high-school Latin teachers should follow the teacher certification specialization. Students who pursue the Florida Teaching minor have the coursework and preparation for professional teacher certification in Florida when they graduate. Alternatively, students can consider a minor in educational studies that would be beneficial if applying to the ProTeach program. Students should consult the College of Education for more information.

**Coursework for the Major**

Students must complete 21-30 credits of coursework for the classical studies major; the total is dependent upon the specialization. Students must earn a minimum grade of C in a course for it to be applied to the major; no S/U courses can be applied. The Department of Classics requires that a minimum 15 credits of major-related courses be completed at the University of Florida.

All classical studies majors are also required to demonstrate proficiency in Latin, ancient Greek, or modern Greek, depending on the specialization. Credits earned in language courses are not included in the 21-30 credits of coursework for the major.

**Overseas Studies**

Students may participate in summer, semester, or academic year programs in Italy and Greece. Competitive scholarships for study abroad are available. Students in the modern Greek specialization are encouraged to participate in programs in Greece or Cyprus supported with competitive scholarships by the Center for Greek Studies and other organizations in the United States, Greece, and the European Union.

**Placement**

Refer to Placement Testing and Evaluation for information on placement into Latin.

**Ancient Language**

**Required Coursework**

Students must demonstrate proficiency in Latin or ancient Greek through one of these four options:

1. **10 credits of beginning Latin or beginning ancient Greek:**

<table>

</table>

1. Students with high school Latin complete the sequence based upon their score on the SAT II Latin test (or other placement mechanism).

2. A score of 3 or above on one of the AP Latin exams (Latin Literature or Vergil).
3. Completion of LNW 2630 or a 2000-level ancient Greek course.
4. A 3000-level course in the original Latin or Greek literature.

In addition to demonstrating proficiency in Latin or ancient Greek, students must complete 21 credits of coursework for the major:

- Two courses on the ancient Graeco-Roman world (in English translation) from the Department of Classics or approved courses from the departments of Anthropology, Art, History, Philosophy, Political Science, and Religion. At least one course must be 3000 level or above.
- Five courses at the 3000 level or above in Latin or Greek or a combination of Greek and Latin, including CLA 4931. Students who complete the language requirement using a 3000-level course in Latin or Greek literature need only four Latin or Greek courses at the 3000 level or above.
- Students planning to go to graduate school in classical languages and literature will need more credits in ancient languages.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=161200&track=01) may be used for transfer students.

**Semester 1**

- 2.0 UF GPA required

**Semester 2**

- Complete one Latin or ancient Greek course ¹
  - 2.0 UF GPA required

**Semester 3**

- 2.0 UF GPA required

**Semester 4**

- Complete one additional Latin or ancient Greek course with 2.5 critical-tracking GPA
  - 2.0 UF GPA required

**Semester 5**

- Complete two Latin or ancient Greek courses with 2.5 critical-tracking GPA
  - 2.0 UF GPA required

**Semester 6**

- Complete 2 of the remaining required courses
  - 2.0 UF GPA required

**Semester 7**

- Complete all of the remaining required courses
  - 2.0 UF GPA required

**Semester 8**

- Complete CLA 4931 (Capstone)
  - 2.0 UF GPA required

¹ Students with prior Greek or Latin and an SAT II Latin score of 540 or higher, a 3 or higher on the AP Latin exam or a 4 or higher on the IB exam will begin with more advanced courses.
Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete
the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C,
H, or S). One of the two general education mathematics courses must be a pure math course.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the
terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s
academic record and scheduling availability of courses. Prerequisites still apply.

Elective or honors thesis 3
Electives 7

Total Credits 120

1 Students with prior Greek or Latin and an SAT II Latin score of 540 or higher, a 3 or higher on the AP Latin exam or a 4 or higher on the IB exam will begin with more advanced courses.

---

**Academic Learning Compact**

The Bachelor of Arts in classical studies, with specializations in classical civilization, ancient language, teacher certification or modern Greek studies provides a strong foundation in the liberal arts through study of the language, literature, monuments and history of ancient Greece and Rome. Students will develop linguistic, critical thinking and writing skills while gaining knowledge of classical civilization. Students also will explore the connection between the ancient and modern worlds and discover the contributions of classical culture to western civilization.

**Before Graduating Students Must**

- Successfully complete a department capstone course for majors.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Translate passages of Latin, ancient Greek or Modern Greek literature into English.

**Critical Thinking**

2. Recognize and explain the connection between the ancient and modern worlds and the contribution of Classical culture to Western civilization.

**Communication**

3. Write competently in Latin, ancient Greek, or Modern Greek using correct grammar and vocabulary of one or more of these languages. For Modern Greek, speak and comprehend competently.

Classical Civilization

Classical Studies is an interdisciplinary major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek.

About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Degree:** Bachelor of Arts
- **Specializations:** Ancient Language (p. 1125) | Classical Civilization (p. 1130) | Modern Greek (p. 1135) | Teacher Certification (p. 1140)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Classics offers an interdisciplinary Classical Studies major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek. The department also offers minors in Classical Studies and Greek Studies. Website (http://classics.ufl.edu/)
Students who major in classical studies often pursue graduate studies in classical languages and literature, art history, ancient history, archaeology, comparative literature, and museum studies. Additional career opportunities are possible depending upon the specialization the student chooses. Small class sizes, emphasis on critical thinking and expression, and a faculty committed to involvement in lower-level undergraduate courses also make this major appealing to students who want excellent preparation for entry to professional schools (e.g., medicine or law).

**Specializations**

**Ancient Language**
The ancient language specialization is appropriate for students wishing to have direct contact with the literature and culture of the ancients, and for those who plan to do graduate study in Greek or Latin. Students interested in admission to competitive graduate programs need a minimum of three years of upper-division courses in ancient Greek or Latin and an additional year in the remaining language.

**Classical Civilization**
The classical civilization specialization is appropriate for those who desire a broad humanities background or are considering admission to graduate school in archaeology, ancient history or an unrelated field such as medicine or law. Students interested in admission to competitive graduate programs in archaeology or ancient history should consult the Department of Classics’ undergraduate coordinator for information on specific requirements.

**Modern Greek**
The modern Greek specialization is appropriate for students wishing to have direct contact with the language, literature, and culture of modern Greece and a closer acquaintance with ancient and medieval Greek civilization. Students study in greater detail the numerous communities of the diaspora, which includes the large and flourishing Greek-American communities of Florida, their history and contemporary culture. By learning a modern European language, students can work in translation, education, services, tourism, the entertainment industry, and political or financial institutions with ties to Greece or Cyprus.

**Teacher Certification**
Students who want to be high-school Latin teachers should follow the teacher certification specialization. Students who pursue the Florida Teaching minor have the coursework and preparation for professional teacher certification in Florida when they graduate. Alternatively, students can consider a minor in educational studies that would be beneficial if applying to the ProTeach program. Students should consult the College of Education for more information.

**Coursework for the Major**
Students must complete 21-30 credits of coursework for the classical studies major; the total is dependent upon the specialization. Students must earn a minimum grade of C in a course for it to be applied to the major; no S/U courses can be applied. The Department of Classics requires that a minimum 15 credits of major-related courses be completed at the University of Florida.

All classical studies majors are also required to demonstrate proficiency in Latin, ancient Greek, or modern Greek, depending on the specialization. Credits earned in language courses are not included in the 21-30 credits of coursework for the major.

**Overseas Studies**
Students may participate in summer, semester, or academic year programs in Italy and Greece. Competitive scholarships for study abroad are available. Students in the modern Greek specialization are encouraged to participate in programs in Greece or Cyprus supported with competitive scholarships by the Center for Greek Studies and other organizations in the United States, Greece, and the European Union.

**Placement**
Refer to Placement Testing and Evaluation for information on placement into Latin.
Classical Civilization

Required Coursework

Students must demonstrate proficiency in Latin or ancient Greek through one of these four options:

10 credits of beginning Latin or beginning ancient Greek:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

1 Students with high school Latin complete the sequence based upon their score on the SAT II Latin test (or other placement mechanism).

1. A score of 3 or above in one of the AP Latin exams (Latin Literature or Vergil).
2. Completion of LNW 2630 or a 2000-level ancient Greek course.
3. A 3000-level course in the original Latin or Greek literature.

In addition to demonstrating proficiency in Latin or ancient Greek, students must complete 24 credits of coursework for the major:

- 24 credits covering the ancient Graeco-Roman world (in English translation) from the Department of Classics or approved courses from the departments of Anthropology, Art, History, Philosophy, Political Science, and Religion.
  - At least 18 credits must be 3000 level or above, including CLA 4931.
  - Modern Greek may be taken for the six credits at the 1000/2000 level.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=161200&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete one Latin or ancient Greek course
  - 2.0 UF GPA required

Semester 3

- 2.0 UF GPA required

Semester 4

- Complete one additional Latin or ancient Greek course with 2.5 critical-tracking GPA
  - 2.0 UF GPA required
**Semester 5**
- Complete two additional Latin or ancient Greek courses with 2.5 critical-tracking GPA
- 2.0 UF GPA required

**Semester 6**
- Complete 2 of the remaining required courses
- 2.0 UF GPA required

**Semester 7**
- Complete all of the remaining required courses
- 2.0 UF GPA required

**Semester 8**
- Complete CLA 4931 (Capstone)
- 2.0 UF GPA required

*Students with prior Greek or Latin and an SAT II Latin score of 540 or higher, a 3 or higher on the AP Latin exam or a 4 or higher on the IB exam will begin with more advanced courses.*

---

### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). One of the two general education mathematics courses must be a pure math course.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

---

1 Students with prior Greek or Latin and an SAT II Latin score of 540 or higher, a 3 or higher on the AP Latin exam or a 4 or higher on the IB exam will begin with more advanced courses.

---

## Academic Learning Compact

The Bachelor of Arts in classical studies, with specializations in classical civilization, ancient language, teacher certification or modern Greek studies provides a strong foundation in the liberal arts through study of the language, literature, monuments and history of ancient Greece and Rome. Students will develop linguistic, critical thinking and writing skills while gaining knowledge of classical civilization. Students also will explore the connection between the ancient and modern worlds and discover the contributions of classical culture to western civilization.

## Before Graduating Students Must

- Successfully complete a department capstone course for majors.
- Complete requirements for the baccalaureate degree, as determined by faculty.

## Students in the Major Will Learn to

### Student Learning Outcomes (SLOs)

#### Content

1. Translate passages of Latin, ancient Greek or Modern Greek literature into English.

#### Critical Thinking

2. Recognize and explain the connection between the ancient and modern worlds and the contribution of Classical culture to Western civilization.

#### Communication

3. Write competently in Latin, ancient Greek, or Modern Greek using correct grammar and vocabulary of one or more of these languages. For Modern Greek, speak and comprehend competently.

Modern Greek

Classical Studies is an interdisciplinary major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek.
About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Degree:** Bachelor of Arts
- **Specializations:** Ancient Language (p. 1125) | Classical Civilization (p. 1130) | Modern Greek (p. 1135) | Teacher Certification (p. 1140)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Classics offers an interdisciplinary Classical Studies major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek. The department also offers minors in Classical Studies and Greek Studies.

Curriculum

- Classical Studies
- Classical Studies Minor
- Greek Studies Minor

Students who major in classical studies often pursue graduate studies in classical languages and literature, art history, ancient history, archaeology, comparative literature, and museum studies. Additional career opportunities are possible depending upon the specialization the student chooses. Small class sizes, emphasis on critical thinking and expression, and a faculty committed to involvement in lower-level undergraduate courses also make this major appealing to students who want excellent preparation for entry to professional schools (e.g., medicine or law).

Specializations

**Ancient Language**

The ancient language specialization is appropriate for students wishing to have direct contact with the literature and culture of the ancients, and for those who plan to do graduate study in Greek or Latin. Students interested in admission to competitive graduate programs need a minimum of three years of upper-division courses in ancient Greek or Latin and an additional year in the remaining language.

**Classical Civilization**

The classical civilization specialization is appropriate for those who desire a broad humanities background or are considering admission to graduate school in archaeology, ancient history or an unrelated field such as medicine or law. Students interested in admission to competitive graduate programs in archaeology or ancient history should consult the Department of Classics’ undergraduate coordinator for information on specific requirements.

**Modern Greek**

The modern Greek specialization is appropriate for students wishing to have direct contact with the language, literature, and culture of modern Greece and a closer acquaintance with ancient and medieval Greek civilization. Students study in greater detail the numerous communities of the diaspora, which includes the large and flourishing Greek-American communities of Florida, their history and contemporary culture. By learning a modern European language, students can work in translation, education, services, tourism, the entertainment industry, and political or financial institutions with ties to Greece or Cyprus.

**Teacher Certification**

Students who want to be high-school Latin teachers should follow the teacher certification specialization. Students who pursue the Florida Teaching minor have the coursework and preparation for professional teacher certification in Florida when they graduate. Alternatively, students can consider a minor in educational studies that would be beneficial if applying to the ProTeach program. Students should consult the College of Education for more information.
Coursework for the Major
Students must complete 21-30 credits of coursework for the classical studies major; the total is dependent upon the specialization. Students must earn a minimum grade of C in a course for it to be applied to the major; no S/U courses can be applied. The Department of Classics requires that a minimum 15 credits of major-related courses be completed at the University of Florida.

All classical studies majors are also required to demonstrate proficiency in Latin, ancient Greek, or modern Greek, depending on the specialization. Credits earned in language courses are not included in the 21-30 credits of coursework for the major.

Overseas Studies
Students may participate in summer, semester, or academic year programs in Italy and Greece. Competitive scholarships for study abroad are available. Students in the modern Greek specialization are encouraged to participate in programs in Greece or Cyprus supported with competitive scholarships by the Center for Greek Studies and other organizations in the United States, Greece, and the European Union.

Placement
Refer to Placement Testing and Evaluation for information on placement into Latin.

Modern Greek
Required Coursework
Students in the modern Greek specialization are required to demonstrate proficiency in modern Greek by completing the beginning sequence of modern Greek (10 credits: GRK 1130 and GRK 1131) or (with department approval) the intermediate modern Greek sequence (3-6 credits).

In addition to demonstrating proficiency in modern Greek, students must complete 24 credits of coursework for the major:

- GRK 2200.
- Two courses at the 3000 level on the modern, medieval or ancient Greek world from the Department of Classics or approved courses from the departments of Anthropology, Art, European Studies, History, Philosophy, Political Science, Religion, and Women's Studies.
- Five courses in modern Greek, Byzantine Greek, ancient Greek or Latin at the 3000 level or above, of which at least two courses must be in modern Greek. Included in these five courses is CLA 4931.

Study-abroad programs are recommended and supported with scholarships for the cultivation of greater fluency in modern Greek.

Critical Tracking
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=161200&track=01) may be used for transfer students.

Semester 1
• 2.0 UF GPA required

Semester 2
• Complete one modern Greek course ¹
  Select the language based on the specialization chosen.
• 2.0 UF GPA required

Semester 3
• 2.0 UF GPA required

Semester 4
• Complete one additional modern Greek course with 2.5 critical-tracking GPA
• 2.0 UF GPA required
### Semester 5
- Complete two additional modern Greek courses with 2.5 critical-tracking GPA
- 2.0 UF GPA required

### Semester 6
- Complete 2 of the remaining required courses
- 2.0 UF GPA required

### Semester 7
- Complete all of the remaining required courses
- 2.0 UF GPA required

### Semester 8
- Complete CLA 4931 (Capstone)
- 2.0 UF GPA required

1 At least two of these courses must be in modern Greek.

---

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). One of the two general education mathematics courses must be a pure math course.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

- Greek Studies Minor

Students who major in classical studies often pursue graduate studies in classical languages and literature, art history, ancient history, archaeology, comparative literature, and museum studies. Additional career opportunities are possible depending upon the specialization the student chooses. Small class sizes, emphasis on critical thinking and expression, and a faculty committed to involvement in lower-level undergraduate courses also make this major appealing to students who want excellent preparation for entry to professional schools (e.g., medicine or law).

Specializations
Ancient Language
The ancient language specialization is appropriate for students wishing to have direct contact with the literature and culture of the ancients, and for those who plan to do graduate study in Greek or Latin. Students interested in admission to competitive graduate programs need a minimum of three years of upper-division courses in ancient Greek or Latin and an additional year in the remaining language.

Classical Civilization
The classical civilization specialization is appropriate for those who desire a broad humanities background or are considering admission to graduate school in archaeology, ancient history or an unrelated field such as medicine or law. Students interested in admission to competitive graduate programs in archaeology or ancient history should consult the Department of Classics’ undergraduate coordinator for information on specific requirements.

Modern Greek
The modern Greek specialization is appropriate for students wishing to have direct contact with the language, literature, and culture of modern Greece and a closer acquaintance with ancient and medieval Greek civilization. Students study in greater detail the numerous communities of the diaspora, which includes the large and flourishing Greek-American communities of Florida, their history and contemporary culture. By learning a modern European language, students can work in translation, education, services, tourism, the entertainment industry, and political or financial institutions with ties to Greece or Cyprus.

Teacher Certification
Students who want to be high-school Latin teachers should follow the teacher certification specialization. Students who pursue the Florida Teaching minor have the coursework and preparation for professional teacher certification in Florida when they graduate. Alternatively, students can consider a minor in educational studies that would be beneficial if applying to the ProTeach program. Students should consult the College of Education for more information.

Coursework for the Major
Students must complete 21-30 credits of coursework for the classical studies major; the total is dependent upon the specialization. Students must earn a minimum grade of C in a course for it to be applied to the major; no S/U courses can be applied. The Department of Classics requires that a minimum 15 credits of major-related courses be completed at the University of Florida.

All classical studies majors are also required to demonstrate proficiency in Latin, ancient Greek, or modern Greek, depending on the specialization. Credits earned in language courses are not included in the 21-30 credits of coursework for the major.
Overseas Studies

Students may participate in summer, semester, or academic year programs in Italy and Greece. Competitive scholarships for study abroad are available. Students in the modern Greek specialization are encouraged to participate in programs in Greece or Cyprus supported with competitive scholarships by the Center for Greek Studies and other organizations in the United States, Greece, and the European Union.

Placement

Refer to Placement Testing and Evaluation for information on placement into Latin.

Teacher Certification

Required Coursework

Students in this specialization must demonstrate proficiency in Latin by fulfilling one of these four options:

1. 10 credits of beginning Latin:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>LAT 1120</td>
<td>Beginning Latin 1</td>
<td>4</td>
</tr>
<tr>
<td>LAT 1101</td>
<td>Beginning Latin 2</td>
<td>3</td>
</tr>
<tr>
<td>LAT 1104</td>
<td>Beginning Latin 3</td>
<td>3</td>
</tr>
</tbody>
</table>

Option 1

Option 2

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>LAT 1130</td>
<td>Accelerated Beginning Latin 1</td>
<td>5</td>
</tr>
<tr>
<td>LAT 1131</td>
<td>Accelerated Beginning Latin 2</td>
<td>5</td>
</tr>
</tbody>
</table>

1 Students with high school Latin complete the sequence based upon their score on the SAT II Latin test (or other placement mechanism).

2. A score of 3 or above in one of the AP Latin exams (Latin Literature or Vergil).
3. Completion of LNW 2630.
4. A 3000-level course in the original Latin literature.

In addition to demonstrating proficiency in Latin, students must complete 30 credits of coursework for the major:

- 24 credits of advanced Latin, including:
  - 9 credits in Latin vocabulary, grammar, and composition
  - 12 credits in Latin literature (not in translation)
  - 3 credits of CLA 4931
- Two courses on the ancient Roman world (not in English translation) from the Department of Classics or from the departments of Anthropology, Art, History, Philosophy, Political Science, and Religion. At least one of these must be 3000 level or above.
- Students planning to earn a state of Florida Latin teaching certificate need to make certain which courses dealing with Rome are appropriate for this option.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=161200&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete one Latin or ancient Greek course
- 2.0 UF GPA required

Semester 3

- 2.0 UF GPA required
Semester 4
- Complete one additional Latin or ancient Greek course with 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5
- Complete two additional Latin or ancient Greek courses with 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 6
- Complete 3 of the remaining required courses
- 2.0 UF GPA required

Semester 7
- Complete 4 of the remaining required courses
- 2.0 UF GPA required

Semester 8
- Complete all of the remaining required courses
- Complete CLA 4931 (Capstone)
- 2.0 UF GPA required

1 Students with prior Greek or Latin and an SAT II Latin score of 540 or higher, a 3 or higher on the AP Latin exam or a 4 or higher on the IB exam will begin with more advanced courses.

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). One of the two general education mathematics courses must be a pure math course.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

</table>

1. Students with prior Greek or Latin and an SAT II Latin score of 540 or higher, a 3 or higher on the AP Latin exam or a 4 or higher on the IB exam will begin with more advanced courses.
2. If placed out by SAT II, or having taken LAT 1130, LAT 1131.

---

### Academic Learning Compact

The Bachelor of Arts in classical studies, with specializations in classical civilization, ancient language, teacher certification or modern Greek studies provides a strong foundation in the liberal arts through study of the language, literature, monuments and history of ancient Greece and Rome. Students will develop linguistic, critical thinking and writing skills while gaining knowledge of classical civilization. Students also will explore the connection between the ancient and modern worlds and discover the contributions of classical culture to western civilization.

### Before Graduating Students Must

- Successfully complete a department capstone course for majors.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Translate passages of Latin, ancient Greek or Modern Greek literature into English.

**Critical Thinking**

2. Recognize and explain the connection between the ancient and modern worlds and the contribution of Classical culture to Western civilization.
Communication
3. Write competently in Latin, ancient Greek, or Modern Greek using correct grammar and vocabulary of one or more of these languages. For Modern Greek, speak and comprehend competently.

Classical Studies Minor

The College of Liberal Arts and Sciences is the largest college on campus, with more than 10,000 undergraduate students pursuing a variety of disciplines through over 40 majors and 49 minors. Undergraduate students acquire an intellectual foundation based on a well-rounded and comprehensive education designed for an increasingly technological and rapidly changing society.

About this Program
• College: Liberal Arts and Sciences (p. 978)
• Credits: 15 | Completed with minimum grades of C

Department Information
The Department of Classics offers an interdisciplinary Classical Studies major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek. The department also offers minors in Classical Studies and Greek Studies.

Curriculum
• Classical Studies
• Classical Studies Minor
• Greek Studies Minor

The minor consists of five Greek, Latin, or classics courses. At least nine of these credits must be in courses at the 3000 level or above. Of the total credits, no more than three may be individual work.

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Communication Studies Minor

Effective communication skills at the personal and professional levels are essential prerequisites for success in today's world. The Communication Studies minor provides an interdisciplinary forum for the study of communication and the opportunity for students to add indispensable tools to their educational program.

About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Credits:** 18 | Completed with minimum grades of C and no optional S-U
- **Contact:** 402 Rolfs Hall (http://campusmap.ufl.edu/?loc=0012) | 352.392.5421

Center Information

The William and Grace Dial Center for Written and Oral Communication assists in preparing University of Florida students to speak and write effectively using the major conventions governing the presentation of knowledge in their chosen disciplines. Additionally, the students gain an understanding of the importance of communicating information from within their discipline to general audiences.

Computer Science | CLAS

This program combines the study of computer science with a liberal arts education. It prepares students for employment as computing professionals while offering significant freedom to choose coursework in other areas. The major is especially popular with students who want the technical education in computer science with the flexibility to take other non-technical courses, sometimes in the form of a minor or certificate.

About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **More Info**

*To graduate with this major, students must complete all university, college, and major requirements.*
Department Information
The mission of the Department of Computer & Information Science & Engineering is to educate students, as well as the broader campus community, in the fundamental concepts of the computing discipline; to create and disseminate computing knowledge and technology; and to use expertise in computing to help society solve problems.

Curriculum
- Combination Degrees
- Computer and Information Science and Engineering Minor
- Computer Science UF Online
- Computer Science | CLAS
- Computer Science | Herbert Wertheim College of Engineering
- Digital Arts and Sciences | Bachelor of Science

Computer science majors in CLAS take a solid foundation of core computer science courses while fulfilling requirements for a liberal arts education, including courses from the humanities, social and behavioral sciences, and the study of a foreign language. Questions about the major should be directed to a department advisor.

Coursework for the Major
This major requires a minimum of 29 credits in foundation coursework, 35 credits in core coursework, and 6 credits of major electives. A student can transfer in a maximum of four courses toward required core or required major elective coursework. Students must earn minimum grades of C in coursework for the major. An exit interview is required in the student’s last semester.

A student can request to transfer in a maximum of four courses toward required core Computer Science or required Computer Science elective coursework, dependent upon courses being deemed equivalent by the Department. Course equivalency requests should begin with the department advising office, followed by the undergraduate coordinator.

Students must earn minimum grades of C in coursework for the major. An exit interview is required in the student’s last semester.

Required Core Coursework
- CDA 3101 Introduction to Computer Organization | 3
- CEN 3031 Introduction to Software Engineering | 3
- COP 3502 Programming Fundamentals 1 | 3
- COP 3503 Programming Fundamentals 2 | 3
CIS 4301 Information and Database Systems 1 3
CIS 4914 Senior Project 3
or CIS 4913C Integrated Product and Process Design 2 3
COP 3530 Data Structures and Algorithm 4
COP 4600 Operating Systems 3
COT 3100 Applications of Discrete Structures 3
COT 4501 Numerical Analysis: a Computational Approach 3
or MAD 4401 Introduction to Numerical Analysis 3
EEL 3701C Digital Logic and Computer Systems 1 4

Required Major Electives 2 6
Any 4000-level or higher CISE course, beyond the Core Requirements
CIS 4940 Practical Work (Internship, 1 credit, repeatable up to 3 credits)
EGN 4912 Engineering Directed Independent Research (0-3 credits)
EEL 3744C Microprocessor Applications
EEL 4712C Digital Design
EEL 4713C Digital Computer Architecture

Total Credits 70-73

1 Students may substitute EGN 4641 and EGS 4034. Please see department advisor to request the substitution.
2 Students should check prerequisites when planning their major electives. Students should discuss electives with an advisor in the department. Individual study, co-op, internship, research, and special topics credits must be approved by an advisor in the department.

Combination Degree Program
The computer science combination-degree program is a joint program between the colleges of Engineering and Liberal Arts and Sciences, and is coordinated by the Department of Computer and Information Science and Engineering.

Placement
Students who have scored at least a 4 or 5 on the AP Computer Science exam are eligible to start the programming fundamentals sequence with COP 3503. Students will need to see an advisor in the major to adjust their degree audit.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=110101&track=01) may be used for transfer students.

Semester 1
- Complete MAC 1147 or MAC 2311
- 2.0 UF GPA required

Semester 2
- Complete MAC 2311
- 2.0 UF GPA required

Semester 3
- Complete MAC 2312
- 2.0 UF GPA required

Semester 4
- Complete MAC 2313; and PHY 2053/PHY 2053L or PHY 2048/PHY 2048L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required
Semester 5
• Complete COP 3502; and PHY 2054/PHY 2054L or PHY 2049/PHY 2049L
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 6
• Complete COP 3503 and COT 3100
• 2.0 UF GPA required

Semester 7
• Complete COP 3530
• 2.0 UF GPA required

Semester 8
• Complete COP 4600
• 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

ENC 3246, MAC 2312, MAC 2313, PHY 2049, PHY 2049L, PHY 2054, PHY 2054L, STA 3032, MAS 3114, and MAS 4105 may count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

### Academic Learning Compact

The College of Liberal Arts and Sciences’ computer science program exposes students to a broad range of disciplines, including programming languages, theory of computer science, physical science, mathematics and software engineering. Students will graduate with the ability to apply knowledge of science and mathematics to computer science problems, to design computer systems or components to satisfy users’ needs and to communicate technical information regarding computer systems to other computer scientists. This program emphasizes the broader aspects of computer science and is less technical in depth than the computer science program in the Herbert Wertheim College of Engineering.

**Before Graduating Students Must**

- Pass assessment according to department rubric of student performance on a major design experience.
- Pass assessment in one or more core courses or individual assignments targeted to each SLO.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Apply knowledge of mathematics and science to computer science problems.
2. Design a computing system, component or process, analyzing and interpreting the data.
3. Use the techniques, skills and tools necessary for computer science practice.
Critical Thinking
4. Design a computing system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, and health and safety constraints.
5. Identify, formulate and solve computer science problems.

Communication
6. Communicate technical data and design information effectively in writing, in speech and in multidisciplinary teams to other computer scientists.

Computer Science UF Online
This program combines the study of computer science with a liberal arts education. It prepares students for employment as computing professionals while offering significant freedom to choose coursework in other areas. The major is especially popular with students who want the technical education in computer science with the flexibility to take other non-technical courses, sometimes in the form of a minor or certificate.

About this Program
• College: Liberal Arts and Sciences (p. 978)
• Degree: Bachelor of Science
• Credits for Degree: 120
• Contact: 1.855.99GATOR
• More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The mission of the Department of Computer & Information Science & Engineering is to educate students, as well as the broader campus community, in the fundamental concepts of the computing discipline; to create and disseminate computing knowledge and technology; and to use expertise in computing to help society solve problems.

Curriculum

- Combination Degrees
- Computer and Information Science and Engineering Minor
- Computer Science UF Online
- Computer Science | CLAS
- Computer Science | Herbert Wertheim College of Engineering
- Digital Arts and Sciences | Bachelor of Science

Computer science majors in CLAS take a solid foundation of core computer science courses while fulfilling requirements for a liberal arts education, including courses from the humanities, social and behavioral sciences, and the study of a foreign language. Questions about the major should be directed to a department advisor.

Coursework for the Major

This major requires a minimum of 29 credits in foundation coursework, 35 credits in core coursework and 6 credits of major electives. A student can request to transfer in a maximum of four courses toward required core Computer Science or required Computer Science elective coursework, dependent upon courses being deemed equivalent by the department. Course equivalency requests should begin with the department advising office, followed by the undergraduate coordinator.

Students must earn minimum grades of C in coursework for the major. An exit interview is required in the last semester.

Total Credits 70-72

1 Not expected to be developed for online delivery; substitute EGN 4641 and EGS 4034. Please see department advisor to process the substitution.
Students should check prerequisites when planning their major electives. Students should discuss electives with an advisor in the department. Individual study, co-op, internship, research, and special topics credits must be approved by an advisor in the department.

**Placement**

Students who have scored at least a 4 on the AP Computer Science A exam are eligible to start the programming fundamentals sequence with COP 3503. Students will need to consult an advisor in the major to adjust their degree audit.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=110101&track=01) may be used for transfer students.

**Semester 1**
- Complete MAC 1147 or MAC 2311
- 2.0 UF GPA required

**Semester 2**
- Complete MAC 2311
- 2.0 UF GPA required

**Semester 3**
- Complete MAC 2312
- 2.0 UF GPA required

**Semester 4**
- Complete MAC 2313; and PHY 2053/PHY 2053L or PHY 2048/PHY 2048L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 5**
- Complete COP 3502; and PHY 2054/PHY 2054L or PHY 2049/PHY 2049L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 6**
- Complete COP 3503 and COT 3100
- 2.0 UF GPA required

**Semester 7**
- Complete COP 3530
- 2.0 UF GPA required

**Semester 8**
- Complete COP 4600
- 2.0 UF GPA required

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).
ENC 3246, MAC 2312, MAC 2313, PHY 2049, PHY 2049L, PHY 2054, PHY 2054L, STA 3032, MAS 3114, and MAS 4105 may count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Criminology

The Department of Sociology and Criminology offers the largest interdisciplinary degree program at UF. Students seeking a degree in criminology will study the complexities of relationships among the legal, social, political, historical, and psychological influences affecting law processes and crime and justice.

About this Program

- **College**: Liberal Arts and Sciences (p. 978)
- **Degree**: Bachelor of Arts
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Sociology and Criminology & Law has over 1,000 undergraduate majors and 100 graduate students. The department’s faculty are internationally known for their research in the areas of families, gender, and sexualities; health, aging, and the life course; environmental and resource sociology; race and ethnicity; criminology and criminal justice; and psychology and law.

Curriculum

- Combination Degrees
- Criminology
- Criminology UF Online
- Sociology
- Sociology Minor
- Sociology Minor UF Online
- Sociology UF Online

Courses focus on explanations for the development of law within society, why people break laws and how society reacts to law-breaking. Interdisciplinary breadth in the study of criminology is essential for those majoring in criminology. Majors may enroll in relevant courses offered outside the department to help satisfy tracking requirements (listed below under Foundation Coursework).

After obtaining a B.A. in criminology, students can seek careers as professionals working within the criminal or juvenile justice systems (i.e., courts, law enforcement, corrections). Many students also attend law school, while others attend graduate school where they may conduct research on criminological issues.

Coursework for the Major

The major requires 34 credits. At least 22 of the 34 must be taken at UF in courses offered by the department with prefixes of CCJ, CJC, CJE, CJJ, or CJL. Students may apply no more than 6 credits of 1000/2000-level coursework to the major.

A maximum of 12 credits of criminology courses can be transferred toward the major. Students who transfer six credits of 1000/2000-level (lower division) credits into the major should not take CJL 2000 ([https://catalog.ufl.edu/search/?P=CJL%202000](https://catalog.ufl.edu/search/?P=CJL%202000)). There are restrictions on which lower-division courses will transfer to the major. Lower-division courses that transfer into the major include introductory courses on criminology, criminal justice and criminal law/procedure. Students who wish to take interdisciplinary courses and transfer credits from another institution need to be careful about the 22-credit residency requirement.
Minimum grades of C must be earned in courses that count toward the major. The only exceptions are CCJ 4940 and CCJ 4905 which require grades of S.

**Foundation (Tracking) Coursework**

In the first four terms, students enroll in criminology-related foundation courses, which include:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>STA 2023</td>
<td>Introduction to Statistics 1</td>
<td>3</td>
</tr>
</tbody>
</table>

Select one option:

- **Option A:** Select 9 credits of introductory criminal justice/criminology courses (CCJ, CJL or CJE prefixes), including:
  - CCJ 3024: Advanced Principles of Criminal Justice
  - CJL 2000: Law and the Legal Process
  - CJL 3038: Law and Society

- **Option B:** Select 9 credits from the following or their equivalents:
  - AMH 2010: United States to 1877
  - AMH 2020: United States Since 1877
  - ANT 2000: General Anthropology
  - ANT 2410: Cultural Anthropology
  - ECO 2013: Principles of Macroeconomics
  - ECO 2023: Principles of Microeconomics
  - PHI 2010: Introduction to Philosophy
  - PHI 2630: Contemporary Moral Issues

Total Credits: 46-55

1. These courses are the basis for meeting the student learning outcomes in the major’s academic learning compact, therefore they must be taken at UF.
2. Students should take this course only if they have not already completed six credits of 1000/2000-level criminology courses.
3. Majors may choose from any course offered in the department not used to meet this requirement.
4. These approved interdisciplinary courses may also apply to the CLAS electives requirement. These courses do not apply toward the 22-credit residency requirement.

Students may apply only 3 credits of CCJ 4940 or 3 credits of CCJ 4911 (if taken as S/U) to the 34 credits for the major. CCJ 4940 is automatically graded S/U. CCJ 4911 may be taken as either a letter grade or S/U, but the student must submit an application to the registrar’s office for this course to be taken as an S/U grade.

**Exit Exam Requirement**

To complete the major students must pass a department exit examination regarding crime, criminal justice, law and society, and criminological theory, administered online.
**Recommended Coursework**

Students who meet CLAS honors criteria (3.5 upper-division GPA) may take up to six credits in CCJ 4970 or enroll in up to two graduate seminars as honors courses, depending on instructor permission and course availability. However, students should keep in mind the tuition differences between undergraduate and graduate credits.

**Combination Degree Programs**

The opportunity to get an early start on graduate work by enrolling in graduate credits exists in a combination B.A./M.A. program. Interested students must apply and be accepted to the undergraduate phase (so that graduate credits can count toward the major to earn the B.A. degree). Independently, they also must apply for admission to the graduate phase and compete with all other applicants for admission to a limited number of openings each fall.

**Overseas Studies**

The major has no affiliated overseas programs. Criminology majors, however, frequently study abroad and can often transfer credits to the major.

**Placement**

CCJ 3024 is a prerequisite or corequisite for most of the other courses in the major. During advanced registration, there may be restrictions placed on lower-division students for registration in many upper-division courses to make sure juniors and seniors get the credits they need to graduate on time.

**Research**

Majors may pursue original research through the upper-division honors program in the major, especially via senior thesis credits (CCJ 4970). Others pursue independent research through Undergraduate Research in Criminology (CCJ 4911). The major also offers a research internship (CCJ 4940), which enables students to work in ongoing research projects.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450401&track=01) may be used for transfer students.

**Semester 1**

- Complete 1 criminology-related foundation course (criminology-related foundation courses include introductory criminal justice and criminology courses – CCJ, CJL, or CJE prefixes, such as CCJ 3024, CJL 2000, CJL 3038 – or related courses: AMH 2010, AMH 2020, ANT 2000, ANT 2410, ECO 2013, ECO 2023, PHI 2010, PHI 2630, POS 2041, POS 2112, PSY 2012, SYG 2000, SYG 2010).
  - 2.3 UF GPA required

**Semester 2**

- Complete 1 additional criminology-related foundation course
  - 2.5 UF GPA required

**Semester 3**

- Complete 1 additional criminology-related foundation course with 2.65 critical-tracking GPA
  - 2.65 UF GPA required

**Semester 4**

- Complete STA 2023 with a 2.75 critical-tracking GPA
  - 2.8 UF GPA required

**Semester 5**

- Complete CCJ 3024 (if not previously taken) and maintain 2.75 critical-tracking GPA
  - 2.80 UF GPA required
Semester 6
• Complete at least 2 additional core criminology courses: CJL 3038, CCJ 4014, CCJ 3701 with minimum grades of C
• Or 1 core criminology course and 1 law-based course: CJL 2000, CJL 4050, CJL 4110, CJL 4410 with minimum grades of C
• Complete 1 criminology elective or an additional core criminology course with a minimum grade of C

Semester 7
• Complete at least 1 additional core criminology course with minimum grades of C
• Complete 3 additional criminology electives

Semester 8
• Complete the last core criminology course, if needed, with a minimum grade of C
• Complete the law-based requirement, if needed: CJL 2000, CJL 4050, CJL 4410, or CJL 4410 with a minimum grade of C
• Complete the 2 remaining criminology electives
• Pass the criminology exit exam

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

Up to 9 hours of approved Criminology electives outside of the Criminology department may also count towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Bachelor of Arts in criminology (both the on campus and the online degree programs) introduces students to the study of criminal behavior, criminal justice systems from a multidisciplinary, liberal arts perspective. It enables students to understand crime, how society reacts to it (especially through the criminal justice system) and the interrelationships between features of society and law. It includes learning about the theories of crime and methods for studying crime, law and society.

Before Graduating Students Must

• Pass a department exit examination regarding crime, criminal justice, law and society and criminological theory.
• Complete a research paper for CCJ 3701 demonstrating the ability to research and to interpret research in criminology, law and society.
• Complete requirements for the baccalaureate degree as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Define and describe the criminal justice system, the interrelationships among its components and their fit with society.
2. Define and describe the legal institutions, the law and their interaction in society.

Critical Thinking
3. Analyze theories of crime and their implications for programs and policies to reduce crime.
4. Interpret and evaluate research in criminology, law and society and exhibit proficiency in the techniques used to conduct such research.

Communication
5. Communicate ideas clearly and effectively in an accepted style of presentation.

Criminology UF Online

The Department of Sociology and Criminology offers an online interdisciplinary degree program in criminology. Students seeking this degree will study the complexities of relationships among the legal, social, political, historical, and psychological influences affecting law processes and crime and justice.

About this Program

• College: Liberal Arts and Sciences (p. 978)
• Degree: Bachelor of Arts
• Credits for Degree: 120
• Contact: 1.855.99GATOR
• More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Sociology and Criminology & Law has over 1,000 undergraduate majors and 100 graduate students. The department’s faculty are internationally known for their research in the areas of families, gender, and sexualities; health, aging, and the life course; environmental and resource sociology; race and ethnicity; criminology and criminal justice; and psychology and law.
Courses focus on explanations for the development of law within society, why people break laws, and how society reacts to law-breaking. Interdisciplinary breadth in the study of criminology and law is essential for those majoring in criminology. Majors may enroll in relevant courses offered outside the department to help satisfy tracking requirements (listed below under Foundation Coursework).

After obtaining a B.A. in criminology, students can seek careers as professionals working within the criminal or juvenile justice systems (i.e., courts, law enforcement, corrections). Many students also attend law school, while others attend graduate school where they may conduct research on criminological issues.

After being accepted to this program, students can pursue the degree without moving to Gainesville. Coursework will be offered via electronic distance learning, and UF faculty will teach and advise students in the program. This program is designed to be pursued entirely online, and thus, students will not be permitted to take any courses on campus while enrolled in the program.

Students will need access to a personal computer capable of connecting to the web and sending and receiving electronic mail. It is recommended but not required that the student's computer have a video conferencing capability.

Coursework for the Major

The major requires 34 credits. At least 22 of the 34 must be taken from UF in courses offered by the department with prefixes of CCJ, CJC, CJE, CJJ or CJL. Students may apply no more than six credits of 1000/2000-level coursework to the major, including CJL 2000.

A maximum of 12 credits of criminology courses can be transferred toward the major. Students who transfer six credits of 1000/2000-level (lower division) credits into the major should not take UF’s CJL 2000. There are restrictions on which lower-division courses will transfer to the major. Lower-division courses that transfer into the major include introductory courses on criminology, criminal justice, and criminal law/procedure. Students who wish to take interdisciplinary courses and transfer credits from another institution need to be careful about the 22-credit residency requirement.

Minimum grades of C must be earned in courses that count toward the major. The only exceptions are CCJ 4940 and CCJ 4905 which require grades of S.

**Total Credits**

46-55

1. These courses are the basis for meeting the student learning outcomes in the major’s academic learning compact, therefore they must be taken at UF.
2. Students should take this course only if they have not already completed six credits of 1000/2000-level criminology courses.
3. Majors may choose from any course offered in the department not used to meet this requirement.
4. These approved interdisciplinary courses may also apply to the CLAS electives requirement. These courses do not apply toward the 22-credit residency requirement. A list of the approved interdisciplinary courses appears below the recommended semester plan.

Students may apply only 3 credits of CCJ 4940 or 3 credits of CCJ 4911 (if taken as S/U) to the 34 credits for the major. CCJ 4940 is automatically graded S/U. CCJ 4911 may be taken as either a letter grade or S/U, but the student must submit an application to the registrar’s office for this course to be taken as an S/U grade.

### Additional Requirements

**Exit Exam**

To complete the major students must pass a department exit examination regarding crime, criminal justice, law and society, and criminological theory, administered online.

### Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450401&track=01) may be used for transfer students.

### Semester 1

- Complete 1 criminology-related foundation course (criminology-related foundation courses include introductory criminal justice and criminology courses -- CCJ, CJL or CJE prefixes, such as CCJ 3024, CJL 2000, CJL 3038 -- or related courses: AMH 2010, AMH 2020, ANT 2000, ANT 2410, ECO 2013, ECO 2023, PHI 2010, PHI 2630, POS 2041, POS 2112, PSY 2012, SYG 2000, SYG 2010)
- 2.3 UF GPA required
Semester 2
• Complete 1 additional criminology-related foundation course
• 2.5 UF GPA required

Semester 3
• Complete 1 additional criminology-related foundation course with 2.65 critical-tracking GPA
• 2.65 UF GPA required

Semester 4
• Complete STA 2023 with a 2.75 critical-tracking GPA
• 2.8 UF GPA required

Semester 5
• Complete CCJ 3024 (if not previously taken) and maintain 2.75 critical-tracking GPA
• 2.80 UF GPA required

Semester 6
• Complete at least 2 additional core criminology courses: CJL 3038, CCJ 4014, CCJ 3701 with minimum grades of C
  • Or 1 core criminology course and 1 law-based course: CJL 2000, CJL 4050, CJL 4110, CJL 4410 with minimum grades of C
• Complete 1 criminology elective or an additional core criminology course with a minimum grade of C

Semester 7
• Complete at least 1 additional core criminology course with minimum grades of C
• Complete 3 additional criminology electives

Semester 8
• Complete the last core criminology course, if needed, with a minimum grade of C
• Complete the law-based requirement, if needed: CJL 2000, CJL 4050, CJL 4410, or CJL 4410 with a minimum grade of C
• Complete the 2 remaining criminology electives
• Pass the criminology exit exam

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

Up to 9 hours of approved Criminology electives outside of the Criminology department may also count towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Semester Three

Criminology-related course (Critical Tracking) 3
STA 2023 Introduction to Statistics 1 (Critical Tracking; recommended; Gen Ed Mathematics) 3
State Core Gen Ed Humanities (p. 33) 3
Elective (or foreign language if 4-3-3 option) 3
Elective 4

Semester Four

Gen Ed Biological or Physical Sciences (area not taken in semester one) 3
Gen Ed Humanities 3
State Core Gen Ed Social and Behavioral Sciences (p. 33) (if needed; several criminology-related courses meet this requirement) 3
Science laboratory (Gen Ed Physical or Biological Sciences) 1
Electives 5-6

Semester Five

CCJ 3024 Advanced Principles of Criminal Justice (Critical Tracking; if not taken previously; Gen Ed Social and Behavioral Sciences) 3
Gen Ed Biological Sciences 3
Gen Ed Composition (Writing Requirement) 3
Approved Criminology elective 3
Elective (3000 level or above, not in major) 3

Semester Six

Criminology core courses; Critical Tracking 6-7
Approved Criminology electives; Critical Tracking 6
Elective (3000 level or above, not in major) 3

Semester Seven

Criminology core course; Critical Tracking 3-4
Approved Criminology elective; Critical Tracking 3
Gen Ed Physical Sciences 3
Electives (3000 level or above, not in major) 6

Semester Eight

Criminology core course; Critical Tracking 3
Approved Criminology electives; Critical Tracking 6
Electives (3000 level or above, not in major) 6

Total Credits 120

Approved Electives

Choose any CCJ, CJE, CJL or CJJ elective and up to 9 credits from these approved interdisciplinary courses.

Academic Learning Compact

The Bachelor of Arts in criminology (both the on campus and the online degree programs) introduces students to the study of criminal behavior, criminal justice systems from a multidisciplinary, liberal arts perspective. It enables students to understand crime, how society reacts to it (especially
through the criminal justice system) and the interrelationships between features of society and law. It includes learning about the theories of crime and methods for studying crime, law and society.

**Before Graduating Students Must**

- Pass a department exit examination regarding crime, criminal justice, law and society and criminological theory.
- Complete a research paper for CCJ 3701 demonstrating the ability to research and to interpret research in criminology, law and society.
- Complete requirements for the baccalaureate degree as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Define and describe the criminal justice system, the interrelationships among its components and their fit with society.
2. Define and describe the legal institutions, the law and their interaction in society.

**Critical Thinking**
3. Analyze theories of crime and their implications for programs and policies to reduce crime.
4. Interpret and evaluate research in criminology, law and society and exhibit proficiency in the techniques used to conduct such research.

**Communication**
5. Communicate ideas clearly and effectively in an accepted style of presentation.

**Curriculum Map**

**Data Science**

Data Science is a field of study that combines computer science (programming, databases, and algorithms) and statistical methodology, both with a strong mathematical foundation, to apply to diverse areas in ethical ways. Data scientists work in many areas, including business, economics, medicine, epidemiology, agriculture, environmental sciences, sports, and all aspects of government. With the increasing digitization and networking of society, data have become ever more ubiquitous, further expanding the demand for data scientists and their expertise in the collection, management, and analysis of data.

**About this Program**

- **College:** Liberal Arts and Sciences (p. 978)
- **Degrees:** Bachelor of Science
- **Credits for Degree:** 120
- **Contact:** Email (dathien@stat.ufl.edu)
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

**Department Information**

The mission of the Department of Statistics is to provide its students with a fundamental understanding of statistical reasoning and methodology, to train them to apply this knowledge to the collection and analysis of data, and to prepare them for careers in a highly technological society in which science and decision-making are increasingly driven by a rapid expansion in the quantity and availability of data.

Website (https://stat.ufl.edu/)
Student Information

Data Science majors draw inference from large data generated from a variety of disciplines. Core courses cover mathematical foundations of data science, programming, algorithms, and databases as well as statistical methods for data science. Majors will also learn about data science in practice within subject matter areas.

Students who wish to major in data science must consult a department advisor early in their programs.

Coursework for the Major

To enter the program, students must receive a minimum grade in the perquisites: STA 2023, B OR STA 3032, B- or AP Statistics, 4 (out of 5). Students also must receive minimum grades of C within two attempts (including withdrawals) in every required core course and in every course counted toward the 9 credit elective requirement, with the exception of MAC 2312 and MAC 2313 where students must receive a minimum grade of B-. Students cannot retake core or statistics elective courses after earning a minimum grade of C, with the exception of MAC 2312 and MAC 2313, in which students must receive a minimum grade of B-. A minimum GPA of 2.0 must be achieved on all attempts of core and major elective courses and 2.67 on MAC 2312 and MAC 2313. The grades from all attempts to satisfy core requirements will be used to compute the minimum GPA. A minimum of 18 credits of major coursework must be taken at UF, including a minimum of 12 credits of core coursework.

Required Coursework

The B.S. in data science requires a minimum of 62 credits in data science and related coursework. It is important that the prerequisites of each class are met before the class is attempted.

### Relevant Minors and/or Certificates
Data Science majors may want to consider a minor in actuarial science, which prepares students for careers as actuaries. Required courses cover the material for the beginning examinations and VEE credits leading to an associateship in the major national actuarial societies.

### Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=270501&track=01) may be used for transfer students.

### Semester 1
- Complete MAC 2311 and STA 2023

### Semester 2
- Complete MAC 2312 and COP 3502

### Semester 3
- Complete MAC 2313 and MAD 2502 and COP 3503

### Semester 4
- Complete (MAD 3107 or COT 3100) and STA 3100

### Semester 5
- Complete STA 4210 and PHI 3681 and MAS 3114

### Semester 6
- Complete STA 4321 and COP 3530 and MAS 4115

### Semesters 7-8
- Complete STA 4322 and STA 4273 and CIS 4301 and one Subject Area elective

### Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

The Subject Area electives and Data Ethics course count towards 3000 level or above electives outside of this multidisciplinary major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.
This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Data Science major enables students to achieve proficiency in the fundamentals of programming, databases, and statistical reasoning. Through coursework and projects, students will gain knowledge in problem solving, data science applications and ethics, and statistical inference. Emphasis is on developing the ability to approach real world problems and through the use of computing and statistical methods to draw valid scientific inferences.

Before Graduating Students Must

- Complete an exam on the fundamentals of data science, which will be 5% of their grade in STA 4241.
- Complete a data analysis project, which will be 10% of their grade in STA 4241.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, define, and describe concepts and issues in data science, including those involved in computing and programming, databases, ethics, mathematical foundations, and statistical methods.

Critical Thinking

2. Identify sources of variability and bias in a given set of data and formulate and carefully program an appropriate statistical analysis.

Communication

3. Clearly and effectively present ideas in speech and in writing concerning issues in the proper analysis of data.

East Asian Languages and Literatures Minor

The East Asian Languages and Literatures minor provides a solid foundation in either the Chinese or Japanese language and its cultural dimensions, with potential for use in international and other careers.
East Asian Languages and Literatures Minor

About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Credits:** 15-19 | Completed with minimum grades of C and no optional S/U

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

East-Central European Studies Minor

The East-Central European Studies minor provides the opportunity to study the region of Central and Eastern Europe from an interdisciplinary perspective that incorporates both area and language studies.

About this Program

- **College**: Liberal Arts and Sciences (p. 978)
- **Credits**: 18-22 | Completed with minimum grades of C

Center Information

The Center for European Studies (CES), housed within the College of Liberal Arts & Sciences (CLAS), is an interdisciplinary area studies center focused on the study of Europe, and facilitating the training of scholars and experts in European studies in the United States. In addition to the minors, certificates, and major, the center offers study abroad programs in Europe and various scholarships and grants for undergraduates.

Website (https://ces.ufl.edu/)

CONTACT

Email (academicprograms@ces.ufl.edu) | 352.294.7142 (tel) | 352.392.8966 (fax)

P.O. Box 117342
3324 TURLINGTON HALL
GAINESVILLE FL 32611-7342
Map (http://campusmap.ufl.edu/#/index/0267)

Curriculum

- East-Central European Studies Minor
- European Union Studies Certificate
- European Union Studies Minor
- Modern European Studies

The minor is open to all undergraduates.

By requiring two semesters of language study (beyond the College of Liberal Arts and Sciences’ language proficiency requirement), the program gives students the opportunity to enhance their language skills beyond the introductory level. Furthermore, an area studies minor that includes less commonly taught languages (Czech, Hungarian, Polish) as core requirements offers students a special opportunity as there are no comparable programs in the state of Florida.

The curriculum requires two semesters of a language beyond the CLAS language requirement, one East-Central European studies course and three electives from an approved list.

Of the total credits, no more than three may be individual work. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Required Courses

Code | Title | Credits
--- | --- | ---
Select one: | | 3
CPO*UF (EEP) AND STATE EMPLOYEE REGISTRATION*3614/EUS 3930 | Eastern European Politics | 3
EUH 3330 | Late Modern Central and Eastern Europe | 3
EUH 3564 | Central and Eastern Europe in the 20th Century | 3
Two semesters of one language beyond the CLAS language proficiency requirement: Czech, German, Hungarian, Polish, or Russian | | 6-10
East-Central European Studies Certificate

The East-Central European Studies certificate provides the opportunity to study the region of Central and Eastern Europe from an interdisciplinary perspective that incorporates both area and language studies.

About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Credits:** 12-14 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

By requiring one semester of language study (beyond the College of Liberal Arts and Sciences’ language proficiency requirement), the program gives students the opportunity to enhance their language skills beyond the introductory level. Furthermore, an area studies minor that includes less commonly taught languages (Czech, Hungarian, Polish) as core requirements offers a special opportunity as there are no comparable programs in the state of Florida.

The certificate program is open to all undergraduates. To be eligible, students must have a minimum 2.5 overall GPA and a 3.0 GPA in their declared major. Completion of the certificate requires a combined 3.0 GPA for all certificate coursework.

At least nine credits of coursework must be unique to the East Central European Studies certificate out of all other certificates and minors.

Economics

Through the study of Economics, students learn how to look at a complex world and make sense of the wide variety of behaviors they observe. Students majoring in economics learn the analytical skills used to understand how households, firms and governments make economic decisions, comparing costs and benefits in an effort to maximize their impact.

About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Economics offers a vibrant undergraduate curriculum. Students enjoy close and meaningful interactions with the faculty through rigorous and engaging courses. A diverse menu of elective courses covers exciting and relevant topics like growth and development, international trade and finance, public policy analysis and evaluation, and strategic business decisions. Students are strongly encouraged to pursue outside-of-the-classroom learning through internships and study abroad.

Map (http://campusmap.ufl.edu/#/index/0406)

Curriculum

- Combination Degrees
- Economics
- Economics Minor

Students will learn the critical skills used to determine the implications of economic decisions for the allocation of society’s scarce resources, the pricing of goods and services, the distribution of income, the behavior of macroeconomic variables, and the effect of government intervention.

Classes within the economics major include, among others, international trade, law and economics, economics of sports, game theory, and public choice. The analytical skills students develop are useful preparation for careers in business, law, government, public policy and academia. A degree in economics is also appropriate for students intending to pursue advanced degrees in the social sciences and in professional schools.

Coursework for the Major

The major requires 37-39 credits. Students must achieve minimum grades of C in each required foundation and economics course, including the economics electives and outside substitutes.

<table>

Students taking advanced statistics might not be required to take STA 2023.
2 Complete ECO 3101 early in the sequence, because it is a prerequisite for some economics electives.
3 Defined as any 3000 or 4000 level course with an ECO, ECP or ECS prefix; not including ECO 3101, ECO 3203, ECO 3703, ECO 4095, or ECO 4941. Course prerequisites are strictly enforced.
4 This substitute cannot double count toward the CLAS 3000-level elective requirement.
5 Students cannot receive credit for both ECO 3101 and ECO 3703.

**Recommended Coursework**

Students planning to pursue graduate study in economics should consider a minor in mathematics or statistics or take the following mathematics and statistics courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

<td>3</td>
</tr>
</tbody>
</table>

$^1$ Students taking advanced statistics might not be required to take STA 2023.

**Overseas Studies**

Economics students are strongly encouraged to complete a study abroad or internship abroad program. The College of Liberal Arts and Sciences' Beyond 120 program, the Heavener School of Business' International Programs Office, and the UF International Center offer several excellent study abroad programs that allow economics majors the opportunity to study or work abroad and still make timely progress toward their degree requirements. Contact the undergraduate coordinator or a study abroad advisor for more information.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450601&track=01) may be used for transfer students.

**Semester 1**
- 2.0 UF GPA required

**Semester 2**
- Complete 1 of 4 courses from ECO 2013, ECO 2023, MAC 2233 and STA 2023 with a 2.5 critical-tracking GPA, excluding ECO 3101
- 2.0 UF GPA required

**Semester 3**
- Complete 1 additional course of the 4 with a 2.75 critical-tracking GPA, excluding ECO 3101
- 2.0 UF GPA required
Semester 4
• Complete 2 additional courses of the 4 with a 3.0 critical-tracking GPA, excluding ECO 3101
• 2.0 UF GPA required

Semester 5
• Complete ECO 3101 with a minimum grade of C
• Maintain a 3.0 critical-tracking GPA, excluding ECO 3101
• 2.0 UF GPA required

Semester 6
• Complete 1 3000/4000 level Economics course
• 2.0 UF GPA required

Semester 7
• Complete ECO 3203 and 1 additional 3000/4000 level Economics course
• 2.0 UF GPA required

Semester 8
• Complete 2 additional 3000/4000 level Economics courses
• 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education course (typically, GE-C, H, or S).

FIN 3403, AEB 3450, AEB 4931, and GEO 3502, if taken, do not also count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

This major teaches students the skills used to understand how households, firms and governments make economic decisions and the implications of those decisions for resource allocation, pricing, the distribution of income and macroeconomic variables.

Before Graduating Students Must

• Take the Economics Field Test conducted by the ETS. This test will be 10% of the student's grade in ECO 3203. The goal of the Department of Economics is that each student's average score exceeds the national average of 154; however, a score of 154 is not a graduation requirement.

• Students who want to graduate magna cum laude or summa cum laude must propose and defend an honors thesis before the department's undergraduate committee.

• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify indifference curves as representations of consumer preferences, and to evaluate these indifference curves in the context of preference relations.

Critical Thinking
2. Model and analyze unfamiliar social interactions using a formal economic framework.

Communication
3. Communicate effectively the concept of opportunity costs and tradeoffs.

Curriculum Map

Assessment Types

- Embedded questions in exams and papers
- The ETS Field Test

Economics Minor

Through the study of Economics, students learn how to look at a complex world and make sense of the wide variety of behaviors they observe. Students minoring in economics are introduced to the analytical skills used to understand how households, firms, and governments make economic decisions, comparing costs and benefits in an effort to maximize their own well-being or social objectives.

About this Program

- **College:** Liberal Arts and Sciences (p. 978)
- **Credits:** 22-23 | Completed with minimum grades of B for ECO 2013 and ECO 2023, minimum grades of C for remaining courses, and no optional S/U

Department Information

The Department of Economics offers a vibrant undergraduate curriculum. Students enjoy close and meaningful interactions with the faculty through rigorous and engaging courses. A diverse menu of elective courses covers exciting and relevant topics like growth and development, international trade and finance, public policy analysis and evaluation, and strategic business decisions. Students are strongly encouraged to pursue outside-of-the-classroom learning through internships and study abroad.

Curriculum

- Combination Degrees
- Economics
- Economics Minor

The Economics minor is a suitable option for students of all undergraduate majors. Students minoring in economics can, for example, pursue coursework in managerial decision-making, international development, and quantitative methods.

1 Upper-division; any 3,000 or 4,000 level course with an ECO, ECP, or ECS prefix (not including ECO 3101, ECO 3203, ECO 4905, ECO 4941), and one of AEB 3450, FIN 3403, or GEO 3502.

English

Undergraduate study in English prepares students for diverse careers in law, publishing, advertising, media and business, teaching, and advanced degree work.
About this Program

• **College:** Liberal Arts and Sciences (p. 978)
• **Degree:** Bachelor of Arts
• **Specializations:** Models of Study
• **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of English fosters a dynamic nexus of critical thinking, writing, and making. English offers students innovative opportunities for individual and collaborative learning through BA, MFA, and PhD programs. Students work with a variety of materials, including: global Anglophone literature, African-American literature, children's literature, comics, critical theory, digital modes, film and media. In-house journals and media reflect the scholarly, creative, and interdisciplinary work done by the department. Active across campus through its affiliations, English produces next-generation arts and humanities.

4008 TURLINGTON HALL
GAINESVILLE FL 32611-7310
Map (http://campusmap.ufl.edu/#/index/0267)

Curriculum

• English
• English Minor

Courses offered by the department introduce students to a world of experiences that cannot be exhausted in the brief span of a college education; new authors, new works, new media, and new tools for understanding continually enlarge and transform the world. With the help of faculty advisors, undergraduate majors in English select from courses in various forms, periods and approaches. In addition, students may develop special expertise in one of several models; for example, communication and creative writing, theory of media, literary study, or cultural studies.

Coursework for the Major

Students pursuing the B.A. in English must take ten courses offered by the English department. These courses must be 3000 level or above, of no fewer than three credits each and completed with minimum grades of C. (The requirement is ten courses, not 30 credits).

Prerequisite to all 3000/4000-level courses are six credits of English at the 1000/2000 level or department permission. Students must take at least five of their 3000-level or above English courses at UF. Of 3000-level courses with an ENC prefix, only the following apply to the English major:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENC 3250</td>
<td>Professional Communication</td>
<td>3</td>
</tr>
<tr>

<td>3</td>
</tr>
<tr>
<td>ENC 3312</td>
<td>Advanced Argumentative Writing</td>
<td>3</td>
</tr>
<tr>
<td>ENC 3414</td>
<td>Hypermedia</td>
<td>3</td>
</tr>
</tbody>
</table>

The student is responsible for consulting an advisor and preparing a plan of study.

Course Details

Because English majors will not be tracked for a specific set of courses, but must meet the ten-course requirement described above, there are no particular English courses that majors must take on a semester-by-semester basis.

The only prerequisite for most 3000/4000-level English courses is earning six credits of lower-division English course credit by coursework or placement (refer to Placement Section below). The classes that may have additional prerequisites are 3000/4000-level creative-writing (CRW) workshops, 4000-level film and video production workshops (ENG 4136 and ENG 4146), 3000/4000-level advanced writing (ENC) courses, department seminars (ENG 4953), honors seminars (ENG 4936), and the department's internship course (ENG 4940). Refer to the catalog's course descriptions to view the prerequisites for these courses.

As students try to decide which 3000/4000-level courses to take, they should not be concerned about differences between the two levels. The higher-level courses are not more difficult, except in the rare cases where the 4000-level course has 3000-level prerequisites. Course numbers are not
created by the English Department but by a statewide course numbering system. Students can gauge a course’s level of difficulty by reviewing the department’s detailed course descriptions.

The majority of the department’s upper-division courses are variable or rotating topics courses, many of which can be repeated for credit given a change in topic. The only way to discover what the actual course topics will be in a specific semester is to consult the department’s course descriptions, which explain topics and approaches, and generally give some idea of the texts and assignments. These descriptions are usually posted online three to four weeks before advance registration so that students have ample time to consult them before registering.

Specializations | Models of Study
The department encourages students to follow models of study to help them create coherent patterns of focus and breadth in their coursework. Models of study range from traditional courses of study such as British and American Literature, through film and media studies, creative writing and studies in theory, to cultural studies, postcolonial studies and studies in feminisms, genders and sexualities.

Models of study do not have tracking status. Students will never be monitored, electronically or otherwise, for completion of models of study. The models identify to English majors the faculty’s enthusiastic recommendations about coursework distributions for various interests they might want to pursue. Department advisors also can recommend which models of study seem most appropriate for particular post-undergraduate career and educational goals.

- Advanced Writing
- African-American/African Diaspora Studies
- American Literature
- British Literature
- Children’s Literature
- Creative Writing
- Cultural Studies
- Drama/Theatre
- Feminisms, Genders and Sexualities
- Film and Media Studies
- Postcolonial Studies
- Studies in Theory

Because the models of study do not have tracking status, students do not need to declare their intention to follow models of study with the department. Models of study structure the coursework, but students do not have to take specific courses to complete degree requirements for the major, and they can modify or combine models of study. While the department understands that students may be disappointed if they are unable to take specific courses relevant to their models of study, the demand for seats in courses is very high and the department is not able to accommodate all course requests.

Placement
Scores on the verbal portion of the SAT or scores on the AICE, AP, IB or CLEP tests will determine the appropriate composition course. Refer to the charts in the Academic Advising section (p. 1673) for course equivalency and placement information.

The department recommends that all students take one 2000-level English department course (without duplicating any course for which they have received placement credit) before moving on to 3000/4000-level coursework. Courses taught at the university level are bound to differ from those taught at the high school level, no matter how enriched the high school curriculum may have been.

Freshmen who intend to major in English should consult a department advisor as soon as possible. Students who intend to establish an emphasis in film studies should take ENG 2300. Creative writing students should take CRW 1101 or CRW 1301.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=230101&track=01) may be used for transfer students.

Semester 1
- 2.0 UF GPA required
Semester 2
• 2.1 UF GPA required

Semester 3
• Complete 1 English department course at the 2000 level or higher
• 2.3 UF GPA required

Semester 4
• Complete 1 additional English department course at the 2000 level or higher with a 2.5 critical-tracking GPA

Semester 5
• Complete 1 additional English department course (1 of the 3 courses must be at the 3000 level) with a 2.5 critical-tracking GPA
• 2.5 UF GPA required

Semesters 6 – 8
• Complete a total of 10 English courses at 3000/4000 level. English does not require a certain number of courses per each semester for these two years. However, it is strongly recommended that students take at least two courses per semester.
• 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). One of the two general education mathematics courses must be a pure math course.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

**Academic Learning Compact**

Home to UF’s programs in Creative Writing and Film and Media Studies, The Center for Children’s Literature and Culture, and The Institute for the Psychological Study of the Arts, the Department of English bridges traditional literary studies with new critical and theoretical disciplines. These include: critical theory and cultural studies; creative writing; rhetoric and composition; children’s and young adult literature; contact period studies; postcolonial and/or diasporic studies; film studies/film and video production; gender studies and feminist theory; new media; psychology and literature; and imagetext studies.

Individualized programs balance focus with a flexible curriculum that spans periods, genres and media, and fosters careful analysis across disciplines and methodologies. Received traditions are renovated and new intersections of critical and literary practice are fostered within the framework of the Context Model system. Students are encouraged to define and pursue original work and/or creative work.

The study of English is vitally concerned with the texts and contexts of public culture. The department’s curriculum cultivates a responsible understanding of the cultural and material conditions that shape historical and contemporary texts, and instructs students in the communication skills necessary to produce materials that disseminate new thought and knowledge by engaging with "fundamental questions" in the arts and humanities.

**Before Graduating Students Must**

- Complete ten English courses (3000 or above) that demonstrate proficiency in the student learning outcomes; assessments will be graded according to an evaluation rubric during the student’s inaugural and final semesters in the major.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Identify materials, terminologies, methodologies and theories within one or more context models:
   - Advanced Writing
   - African-American/African Diaspora Studies
   - American Literature
   - British Literature
   - Children’s Literature
   - Creative Writing
   - Cultural Studies
   - Drama/Theater
   - Feminisms, Genders and Sexualities
   - Film and Media Studies
   - Medieval/Early Modern Studies
   - Postcolonial Studies
   - Studies in Theory
Critical Thinking
2. Communicate knowledge, ideas and reasoning effectively in written, oral or other forms appropriate to the context model(s).

Communication
3. Evaluate cultural narratives and/or objects, employing methodologies and criteria appropriate to the context model(s).

1 Course selection and sequence vary by student choice and courses can be affiliated with multiple context models.

Assessment Types
- Instructors rely on course assignments, most often critical essays, as prescribed by context models and as assessed the inaugural and final semesters of the student's enrollment in the upper-division major.

English Minor

The English minor provides the opportunity to study literature, rhetoric, creative writing or film and media, while gaining critical, analytical, and intellectual skills.

About this Program
- College: Liberal Arts and Sciences (p. 978)
- Credits: 15 minimum | Completed with minimum grades of C and no optional S/U

Department Information

The Department of English fosters a dynamic nexus of critical thinking, writing, and making. English offers students innovative opportunities for individual and collaborative learning through BA, MFA, and PhD programs. Students work with a variety of materials, including: global Anglophone literature, African-American literature, children's literature, comics, critical theory, digital modes, film and media. In-house journals and media reflect the scholarly, creative, and interdisciplinary work done by the department. Active across campus through its affiliations, English produces next-generation arts and humanities.

Select five at the 3000/4000 level: 1

**Only these Prefixes Apply**
- AML American Literature
- CRW Creative Writing
- ENC English Composition
- ENG English
- ENL English Literature
- LIT Literature

**Other Courses that Apply**
- LIN 3010 Introduction to Linguistics
- SPC 3605 Speechwriting
- SPC 4680 Rhetorical Criticism

Total Credits 15

1 Three courses must be completed at UF.

**European Jewish Studies Certificate**

The European Jewish Studies certificate is an interdisciplinary, individualized, and experiential study of European Jewry, including comparison with North African and Middle Eastern populations outside and sometimes within continent's borders.

**About this Program**

- **College**: Liberal Arts and Sciences (p. 978)
- **Credits**: 15 | Completed with minimum grades of C
- **Contact**: Email (zachmann@ufl.edu) | Email (jkugelma@ufl.edu)

**Center Information**

The Center for Jewish Studies promotes academic study of Jewish culture, history, and politics for all students at the University of Florida. The Center’s curriculum encourages critical thinking, textual analysis, research, oral argumentation, and writing. The Center has scholarship opportunities for undergraduate and graduate students, as well as study abroad opportunities.

  - Jewish Studies Minor

**Related Programs**

- Hebrew
- Hebrew Minor
- Middle Eastern Languages and Cultures

*Open to all students enrolled in an undergraduate degree program at the University of Florida.*
Offered by the Center for Jewish Studies in cooperation with the Center for European Studies and participating UF units, the certificate in European Jewish Studies is designed to familiarize students with key issues in the Jewish experience in Europe, including relations with other groups; the trajectory of Jewish integration in European societies and cultures; representations of the Jew within European cultures; and comparisons with North African and Middle Eastern populations outside and within the continent’s borders.

The EJS certificate provides students with multiple opportunities for concentrated and experiential areas of study. It allows students to work closely with their EJS faculty advisor to develop targeted, individualized areas of expertise from an array of specialists and perspectives to complement their majors and/or to prepare them for careers in governmental and non-governmental organizations, education, international business and politics, museums, festivals, libraries, Jewish associations and foundations. Students may specialize in national contexts or comparative and transnational cases, events and issues.

**Requirements**

Requirements consist of EJS approved individual study plans of 15 credit hours and attendance at a minimum of five relevant public lectures sponsored or co-sponsored by the Center for Jewish Studies and the Center for European Studies. Since availability of courses varies from year to year and new courses are often added, students should consult with a faculty adviser to determine which courses are approved for the certificate.

Approved Experiential Capstone

Select one:
- Director-approved courses with completion of a faculty approved assessment (research project).
- Approved faculty-guided research in EJS (including approved JST 4905), with assessment
- JST approved study abroad

CERTIFICATE WITH HONORS

Students may also participate in approved experiential learning projects, approved USP funded EJS research, and Honors theses in European Jewish Studies to receive certificate with Honors.

European Union Studies Minor

The European Union Studies minor provides multidisciplinary expertise and hands-on practical experience in EU-related affairs through coursework, internships, and study abroad opportunities.

About this Program

- **College**: Liberal Arts and Sciences (p. 978)
- **Credits**: 18 | Completed with minimum grades of C

Center Information

The Center for European Studies (CES), housed within the College of Liberal Arts & Sciences (CLAS), is an interdisciplinary area studies center focused on the study of Europe, and facilitating the training of scholars and experts in European studies in the United States. In addition to the minors, certificates, and major, the center offers study abroad programs in Europe and various scholarships and grants for undergraduates.

Map (http://campusmap.ufl.edu/#/index/0267)

Curriculum

- East-Central European Studies Minor
- European Union Studies Certificate
- European Union Studies Minor
- Modern European Studies
This minor is open to all undergraduates.

To be eligible, students must have a minimum overall 2.5 GPA and a 3.0 GPA in their major. The combined GPA for all coursework applied toward the minor must be a minimum 3.0.

Of the total credits, no more than three may be individual work. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Completion of the minor requires participation in an EU-related internship or CES study abroad or preapproved alternative with substantive EU content.

### Foreign Languages and Literatures

The major provides a foundation for graduate work in Foreign Languages and Literatures or allied fields (anthropology, art history, history, linguistics, political science, religion). A Foreign Languages and Literatures major is excellent general preparation for entry to professional schools (business, journalism, law, and medicine) or careers in foreign service, diplomacy, translation, commerce, business, import and export of information and culture, museums and libraries, and tourism.

### About this Program

- **College**: Liberal Arts and Sciences (p. 978)
- **Degree**: Bachelor of Arts
- **Credits for Degree**: 120
- **More Info**
To graduate with this major, students must complete all university, college, and major requirements.

Department Information
Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

- German
- Hebrew
- Italian
• Japanese
• Russian

**Academic Learning Compact**

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

**Before Graduating Students Must**

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

**Critical Thinking**

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

**Communication**

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

**Curriculum Map**

* I = Introduced; R = Reinforced; A = Assessed

Dual Language Specialization

The Dual Language specialization of the Foreign Languages and Literature major offers students the opportunity to specialize in two of the languages offered by the Department of Languages, Literatures and Cultures (LLC). Students can combine any of the languages offered as specializations and/or they can combine any of these languages with a specialization in Haitian Creole or Vietnamese.

Students who choose this track will develop proficiency in two languages as well as acquire cultural knowledge of more than one language area. Dual language majors will be specially poised to make both broad and deep linguistic and cultural comparisons and to build cross-cultural and cross-linguistic connections, skills that will prepare them to operate and work in multi-lingual and multi-cultural societies as well as across various complex regions of the world. Further, dual language majors will be able to apply the language-learning skills gained in the study of one language of specialization to reinforce their acquisition of a second language of specialization.

In the Dual Language specialization, students will complete two years of study of a principal language of specialization and two years of study of a second language taught in LLC. Students will also complete advanced coursework in the languages, their literatures and cultures, as well as a critical concentration.

There are a number of possibilities inherent in the Dual Language major. The following are some potential paths of study:

1. Dual Language: Haitian Creole with French and Francophone Studies
2. Dual Language: Vietnamese with Chinese
