Continuation of ARH 4310. Italian art and architecture from 1460 to 1590. Emphasis on painting and sculpture. (H and N)
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International
ARH 4331 Renaissance Art in Northern Europe 3 Credits
Grading Scheme: Letter Grade
Sources and development of late 14th, 15th and 16th century art outside Italy. Emphasis on painting and prints. (H and N)
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4332 The Religious Image in the Renaissance and Reformation 3 Credits
Grading Scheme: Letter Grade
Art produced for devotional and liturgical use in the 15th and 16th centuries with particular attention to the period debate over the proper role for images in worship and society. Addresses altar pieces, personal devotion, pilgrimage, iconoclasm and the Reformation. Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).

ARH 4350 Baroque Art in Europe 3 Credits
Grading Scheme: Letter Grade
Continuation of ARH 4311-4331. European art and architecture in the 17th and 18th centuries. Emphasis on painting and sculpture. (H and N)
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4352 Baroque Rome 3 Credits
Grading Scheme: Letter Grade
Examines sculptors, painters and architects working in Rome between the period of 1564 and 1750 and considers the art of Bernini, Caravaggio and Borromini and many more major artists who made Rome the art capital of the world in the seventeenth century. Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).

ARH 4356 French Art of the Ancien Régime 1650-1780 3 Credits
Grading Scheme: Letter Grade
Deals with major artists, artistic movements, works and issues in art theory and criticism in Europe from the late 17th century to the 1780s. Special emphasis is given to painting in France and to the reaction against the Rococo. (H and N) (WR)
Prerequisite: ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International, Satisfies 4000 Words of Writing Requirement

ARH 4359 Eighteenth Century European Art Seminar 3 Credits
Grading Scheme: Letter Grade
Topics in 18th century European art. Prerequisite: ARH 2051 and (art major or art history minor).

ARH 4370 European Decorative Arts 1400-1600 3 Credits
Grading Scheme: Letter Grade
Tapestry, ceramics, glass, metalwork, furniture and interior design considered in the cultural, social and economic context of Renaissance, Baroque and Enlightenment Europe. Examines role of objects in the arrangement and use of spaces designed for daily and ceremonial life. Prerequisite: ARH 2051 and (art major or art history minor).

ARH 4450 Early Twentieth Century Art 3 Credits
Grading Scheme: Letter Grade
European and American art from Post-Impressionism to 1945. Emphasis on painting and sculpture. (H)
Prerequisite: ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities

ARH 4453 Mid-Twentieth Century Art 3 Credits
Grading Scheme: Letter Grade
Emphasis on international art from the 1940s through the 1960s. (H)
Prerequisite: ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities

ARH 4471 Late Twentieth Century Art 3 Credits
Grading Scheme: Letter Grade
Continuation of mid-twentieth century art (ARH 4453). International art and American diversity in art from about 1970 to the present. Prerequisite: ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4514 Arts of Southern Africa 3 Credits
Grading Scheme: Letter Grade
Focuses on diverse regions, time periods and genres in the visual arts in southern Africa, with particular attention to the arts of South Africa. It explores art in archaeological contexts, arts associated with indigenous cultures, art that emerged out of encounters with European cultures and contemporary arts. (H and N)

ARH 4533 Asian Monuments and Heritage Conservation 3 Credits
Grading Scheme: Letter Grade
Introduces the theories and basic issues in the studies of monuments in Asian art. Course provides a solid grounding in both the theories and practices of heritage conservation so that students can reach a better understanding of the artistic, social and political elements in the making of monuments.

ARH 4559 Archaeology of Death in Ancient China 3 Credits
Grading Scheme: Letter Grade
Explores death-ritual and burial in China's classical period (800 BCE-200 CE) from archaeology's comparative perspective. It offers an interdisciplinary approach to the religious dimensions of mortuary practices in the Warring States, Qin and Han China.

ARH 4710 History of Photography 3 Credits
Grading Scheme: Letter Grade
Surveys major technical, stylistic, and critical directions in photography from the 19th century to the present. (H and N)
Prerequisite: ARH 2051 and (art major or art history minor).
Attributes: General Education - Humanities, General Education - International

ARH 4744 History of Art Film and Video 3 Credits
Grading Scheme: Letter Grade
Introduces the history of art, film and video art practices in the 20th century. Prerequisite: ARH 2051.

ARH 4882 Art and Colonialism: Focus on Africa 3 Credits
Grading Scheme: Letter Grade
What does visual art reveal about European and African experiences of colonial rule? Along with the famous history of African arts influence on European modern art, this course investigates the African response to colonial power and addresses contemporary manifestations of this history in the postcolonial museum worlds of Europe and Africa. Prerequisite: ARH 2500 or (junior status or higher with an Art History major or African Studies minor).
ARH 4905 Individual Study 1-3 Credits  
Grading Scheme: Letter Grade  
With consent of faculty, students can take this course under special circumstances: student needs a specific course for the degree and the class in not offered or student (senior) wishes to explore an area of inquiry in greater depth after completing all 3000-level courses in their major.  
Prerequisite: art or art history major and department permission.

ARH 4930 Special Topics in Art History 1-3 Credits  
Grading Scheme: Letter Grade  
Rotating special topics in art history.  
Prerequisite: ARH 2050 or ARH 2051 and (art major or art history minor).

ARH 4931 Art History Seminar 3 Credits  
Grading Scheme: Letter Grade  
In-depth discussion of selected field of art, either a period and area or a topic. Analysis of art-historical writings through class presentations and written papers. Offered by members of the art history faculty on alternating basis.  
Prerequisite: ARH 2050 and ARH 2051 and (art major or art history minor).

ARH 4940 Internship 3 Credits  
Grading Scheme: S/U  
Supervised practical experience with an art, graphic design or museum facility according to an approved program. Special seminar and evaluation sessions with faculty advisor and art facility manager. (S-U)  
Prerequisite: arrangement with art advisor and chair and dean permission.

ART 1010C Non-Major Photography: Imaging Society, Culture and Diversity in America 3 Credits  
Grading Scheme: Letter Grade  
In this course for non-majors, students use photographs they make to spur discussions about how photography shapes U.S. culture, diversity, and history. Through hands-on projects, critical readings, online lectures, quizzes and small-group discussions, students develop skills to create and understand engaging and conceptually rich photography.

ART 1803C Workshop for Art Research and Practice: WARP 6 Credits  
Grading Scheme: Letter Grade  
Interdisciplinary, team-taught introductory course pairing studio experiences in a wide variety of media with introduction to concepts, theories and practices in contemporary art. In-depth exploration of creative processes, artistic integrity and the nature of artistic meaning.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2013C Space Studio 3 Credits  
Grading Scheme: Letter Grade  
A project-based studio foundation course for spatial investigations where students will explore methods for defining space, conceptualizing space, three-dimensional design strategies, form development and an overview of concepts that shape the contemporary artists understandings of form and space.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design

ART 2030C Introduction to Painting 3 Credits  
Grading Scheme: Letter Grade  
Investigates the visual language of painting and introduces the fine arts major to techniques and concepts relevant to painting including a comprehensive study of lights and darks, color.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2305C Perceptual Drawing 3 Credits  
Grading Scheme: Letter Grade  
Introduces descriptive drawing. Basic theories of observation and depiction including perspective and chiaroscuro.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2330C Figure Drawing 1 3 Credits  
Grading Scheme: Letter Grade  
Introduces drawing the male and female figure from a live model using a variety of art materials, techniques and artistic approaches.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2353C Drawing Studio 3 Credits  
Grading Scheme: Letter Grade  
Development of drawing, design, philosophical and critical skills for making observational and expressive works in drawing media.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2374C Drawing: Movement and Motion 3 Credits  
Grading Scheme: Letter Grade  
Introduces the principles of visual movement in 2D art as well as the depiction of figurative gesture in drawing.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2401C Printmaking: Color Theory 3 Credits  
Grading Scheme: Letter Grade  
Basic monoprint technique, methods and materials. Color theory as applied to printmaking and other art media.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2468C Printmaking: Figure Ground 3 Credits  
Grading Scheme: Letter Grade  
Explores figure ground theory as related to 2D visual design and picture making. Basic skills in relief printing and Linocut-woodcut.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2500C Painting: Investigations in Black and White 3 Credits  
Grading Scheme: Letter Grade  
The organization of lights and darks in design and pictorial applications. Basic painting techniques in oil, acrylic and gouache.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2501C Painting: Investigations in Color 3 Credits  
Grading Scheme: Letter Grade  
Investigates color interaction and its role in pictorial composition. Exploration of color and light as well as the expressive use of color in painting.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2503C Painting from Observation 3 Credits  
Grading Scheme: Letter Grade  
Exercises and projects in seeing and painting. Emphasis on depicting of form, space and light.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2620C Net Art 4 Credits  
Grading Scheme: Letter Grade  
Explores practical and theoretical issues related to the Internet as a medium for making art rather than as a tool for delivering information. Emphasizes the creation of dynamic and interactive experiences on the web that integrate video, graphics, animation, sound, image, and typography.  
Prerequisite: ART 1803C and must be (BFA Art or BA Art or BFA Graphic Design).
ART 2680C Time Studio 3 Credits
Grading Scheme: Letter Grade
Introduces the concepts of time-based, participatory art practice through animation, video, sound, performance, and installation. Students create artwork that explores linear and non-linear narrative, seriality, context, embodiment, virtuality, and networks. Aesthetic, technical, historical, and conceptual issues within the context of contemporary art and theory will be addressed through lectures, demonstrations, exercises, projects, screenings, research, and readings.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2701C Sculpture: Shaping Form and Space 3 Credits
Grading Scheme: Letter Grade
Investigates the co-shaping of form and space in full three dimensions. Emphasis on additive and subtractive processes.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2702C Sculpture: Gravity and Buoyancy 3 Credits
Grading Scheme: Letter Grade
Based on objects that float, inflate or suspend; examines weight, mass, and space as artistic phenomena and includes instruction in appropriate construction techniques.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2704C Figurative Ceramics 3 Credits
Grading Scheme: Letter Grade
Introduces figure sculpture and life modeling using fired clay; techniques include building, surfacing and firing. Includes perceptual studies from model and concept development, centering on using the figure as a vehicle for personal expression. Class format includes slide and video presentations, a life model sequence and critiques.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2750C Ceramics for Non-Majors 3 Credits
Grading Scheme: Letter Grade
A studio based introductory course that teaches ceramic art through techniques of handforming.

ART 2752C Throwing: Skills and Concepts 3 Credits
Grading Scheme: Letter Grade
Introduces wheel throwing, pottery from, functional design and aesthetics.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2757C Ceramics: 3D Concepts 3 Credits
Grading Scheme: Letter Grade
Introduces three-dimensional form and design concepts using fired clay; includes hand-forming techniques, an introduction to glazing (fired color) and electric kiln firing.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2773C Ceramics: Skills and Concepts - Sculpture 3 Credits
Grading Scheme: Letter Grade
Introduces ceramic sculpture, sculpture techniques and processes using fired clay supported by design and idea development. Modeling and carving, slab fabrication and coil-building, color and surfacing through glazing and firing support, creative expression and communication of personal ideas.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2777C Ceramics Skills and Concepts: Vessel 3 Credits
Grading Scheme: Letter Grade
Introduces conceptualization and expression of personal ideas using the vessel as an art form: functional design and aesthetics, formation and communication of personal ideas through design, clay as a material, technical handbuilding and wheel throwing forming methods, surfacing methods, and firing of work.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2825C Perceptual Studio 3 Credits
Grading Scheme: Letter Grade
Questions and expands an understanding of seeing and how seeing is informed by physical, psychological, and ideological systems. Emphasizes experimentation and research focused on contemporary art and 2D design practices and theories to strengthen visual organization through hand, lens, and digital processes.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2826C The Culture of the Image 3 Credits
Grading Scheme: Letter Grade
This is an introductory course that focuses on the critical processes by which images acquire meaning, and how artists and artworks produce knowledge. The course provides students with an overview of visual representation that facilitates their understanding of the issues involved in the production, distribution and reception of images.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major.

ART 2930C Special Topics in Art 3 Credits
Grading Scheme: Letter Grade
Rotating special topics in studio art and studio practice.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

ART 2934C Special Topics in Studio Art for Non-Art Majors 3 Credits
Grading Scheme: Letter Grade
Rotating topics in introductory studio art and studio practice for non-art majors. This course cannot count toward degree requirements for any majors in the School of Art + Art History.
Prerequisite: non-art major or non-art history major.

ART 2936C Rotating Topics in Drawing for Non-Art Majors 3 Credits
Grading Scheme: Letter Grade
Use dynamic drawing techniques and approaches to explore contemporary art and connections across disciplines.
Prerequisite: non-art major or non-art history major.

ART 3043C Interdisciplinary Mixed Media: Painting, Drawing, Photo 3 Credits
Grading Scheme: Letter Grade
Inter-media mixed media dissolves the normal boundaries between painting, drawing, and photography. Students identify a core idea or sensibility that is the essence of who they are as an artist and then are required to work in at least the three media: painting, drawing, and photography.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.
ART 3310C Color Drawing 3 Credits
Grading Scheme: Letter Grade
Explores color theory and color usages in drawing. Emphasis on techniques, strategies and materials.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3311C Thematic Projects in Drawing 3 Credits
Grading Scheme: Letter Grade
Intermediate-level emphasis of conceptual strategies and image construction through the lens of themes in film, literature, and art using color drawing media.
Prerequisite: (ART 2353C or ART 2305C or ART 2374C or ART 2330C) and a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

ART 3332C Figure Drawing 2 3 Credits
Grading Scheme: Letter Grade
Comprehensive study of the figure from observation of live models. Study of anatomy, composition and conceptual strategies.
Prerequisite: ART 2330C Figure Drawing 1 and a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

ART 3380C Experimental Drawing 3 Credits
Grading Scheme: Letter Grade
Exposure to unfamiliar materials and techniques both antique and modern. Invention strategies and contemporary motivating factors explored.
Prerequisite: ART 2305C and ART 2374C and art major of junior standing or higher.

ART 3381C Sketch Journal: Uses and Development 3 Credits
Grading Scheme: Letter Grade
Historic and contemporary uses of sketch journals. Exploration of notation, studies, invention and conceptualization in sketchbook drawing techniques.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3420C Printmaking: Lithography 3 Credits
Grading Scheme: Letter Grade
Studio and print shop training in lithographic technique, including plate and stone methods. Emphasis on continued conceptual development.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3433C Screen Printing 3 Credits
Grading Scheme: Letter Grade
Explores screen printing techniques utilizing drawn and photo-generated stencil processes.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3442C Printmaking: Intaglio 3 Credits
Grading Scheme: Letter Grade
Studio training in this basic printmaking process including dry point, etching and color intaglio. Continued emphasis on artistic inquiry.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3462C Print Photo Intaglio 3 Credits
Grading Scheme: Letter Grade
Application of film and digital photography to printmaking media utilizing intaglio printmaking.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3504C Painting: Structure and Transformation 3 Credits
Grading Scheme: Letter Grade
Examines form and structure theory in painting and its application in development of idea and painterly process.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3521C Site-Specific Painting Studio 3 Credits
Grading Scheme: Letter Grade
Development of idea through the creation of series, groups and suites.
Prerequisite: (ART 2030C or ART 2500C or ART 2501C or ART 2503C) and a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

ART 3522C Painting: Exploring the Series 3 Credits
Grading Scheme: Letter Grade
The human figure serves as a formal and expressive motif as well as a departure point for creating individual painting statements.
Prerequisite: (ART 2030C or ART 2500C or ART 2501C or ART 2503C) and a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

ART 3560C Figure Painting 3 Credits
Grading Scheme: Letter Grade
Students contract with their instructor to create a body of work in painting, experimenting with materials and methods related to disciplines in painting.
Prerequisite: (ART 2030C or ART 2500C or ART 2501C or ART 2503C) and a (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

ART 3615C Digital Art and Animation 2 3 Credits
Grading Scheme: Letter Grade
Explores 3D modeling techniques and tools; Students will learn advanced animation techniques using 3D software that builds upon skills acquired from Digital Art and Animation 1.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3616C Digital Art and Animation 1 3 Credits
Grading Scheme: Letter Grade
Explores time-based computer art including animation, interactive and Internet-based projects.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.
ART 3711C Sculpture: Materials and Methods 3 Credits  
**Grading Scheme:** Letter Grade  
Problems in sculptural form and composition with work in plaster, clay, metal and other materials.  
**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3712C Sculpture: Concepts and Strategies 3 Credits  
**Grading Scheme:** Letter Grade  
Continues the emphasis on sculptural materials such as mixed media, metal fabrication, and casting.  
**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3730C Machine Sculpture 3 Credits  
**Grading Scheme:** Letter Grade  
Explores the boundaries of physical and electronic media including the use of sound, light, computers and motion in sculpture.  
**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3734C Sculpture Metals 3 Credits  
**Grading Scheme:** Letter Grade  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3764C Ceramic Sculpture 1 3 Credits  
**Grading Scheme:** Letter Grade  
Investigates the intermediate level of technical, conceptual and aesthetic issues involved with sculpting using ceramic materials. Students will learn to use sculptural form to convey ideas based on contemporary culture. Projects focus on the use of low-fire materials, image development and glaze electric fired to enhance sculpture.  
**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3768C Ceramic Sculpture 2 3 Credits  
**Grading Scheme:** Letter Grade  
Investigates the intermediate level in experimental sculpture processes using fired clay, plaster and latex mold-making as well as technical and aesthetic explorations with large scale works. Historical and contemporary precedents of ceramic sculpture are presented. Concept development and expression through sculptural form are core elements in the course.  
**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3783C Ceramic Design 3 Credits  
**Grading Scheme:** Letter Grade  
Investigates the intermediate level of technical, aesthetic, and conceptual issues in ceramics. Study the formulation of clay and preparation of glaze materials with an emphasis on personalized expression through the ceramic design process.  
**Prerequisite:** ART 2752C and must be (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

ART 3784C Vessel Aesthetic 2 3 Credits  
**Grading Scheme:** Letter Grade  
Investigates the intermediate level of technical, aesthetic and conceptual issues in pottery. Students study the formulation and use of color in glaze materials. Emphasis on personalized expression through vessel surface techniques.  
**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3787C Interdisciplinary Studio 3 Credits  
**Grading Scheme:** Letter Grade  
Critical thinking, problem solving, and creative activity in collaboration and cross media art-making.  
**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3842C Performance and Installation 3 Credits  
**Grading Scheme:** Letter Grade  
Explores the complex relationships among object, body, site, space, and architecture using various visual media in the creation of installation and performance art.  
**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3857C PROFESSIONAL PRACTICES 3 Credits  
**Grading Scheme:** Letter Grade  
An introduction to creative professional practices including research proposals, exhibition planning, website development, graduate school applications and more. Integrating on campus resources, students will be introduced to the skills sets necessary for developing a sustainable career in visual art.  
**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3870C Reinterpreting Global Masterpieces: Recontextualizing Masterworks from the Harn Museum of Art 3 Credits  
**Grading Scheme:** Letter Grade  
Studies masterpieces from the harn through observation and research investigating intensions, meanings, and technical processes. Examines why and how various cultures developed unique styles and approaches. Students reinterpret global masterpieces through choice of media and processes to create new artworks inspired by existing cultural objects.  
**Prerequisite:** Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 3892 Art and Theory 3 Credits  
**Grading Scheme:** Letter Grade  
Art and Theory introduces students to the study of theory, with a focus on its applications to the analysis, contextualization, and production of art, film and popular culture.  
**Prerequisite:** Must be a BFA Art or BA Art or BFA Graphic Design major, and must have passed sophomore portfolio review.

ART 3930C Special Topics in Studio Art for Non-Art Majors 3 Credits  
**Grading Scheme:** Letter Grade  
Rotating topics in studio art and studio practice for juniors and seniors not majoring in art. This course cannot count toward any major within the School of Art and Art History.  
**Prerequisite:** junior or senior level.

ART 3959C Video Art 3 Credits  
**Grading Scheme:** Letter Grade  
Explores video with an emphasis on editing and building a personal vocabulary through the electronic image.  
**Prerequisite:** ART 2680C and must be (BFA Art or BA Art or BFA Graphic Design major) and must have passed sophomore portfolio review.

ART 4312C Advanced Drawing 6 Credits  
**Grading Scheme:** Letter Grade  
Emphasizes individual and creative expression.  
**Prerequisite:** ART 3310C and ART 3332C and ART 3380C and ART 3381C.
ART 4402C Advanced Printmaking 3-6 Credits  
Grading Scheme: Letter Grade  
Advanced problems in creative printmaking.  
Prerequisite: ART 3442C, ART 3420C and ART 3443C.

ART 4505C Advanced Painting 6 Credits  
Grading Scheme: Letter Grade  
Emphasizes individual creative expression.  
Prerequisite: ART 3522C and ART 3560C and ART 3561C.

ART 4612C Digital Media Workshop 3 Credits  
Grading Scheme: Letter Grade  
Bridges the study of digital media and broadly envisioned professional practices in the field. Emphasis on portfolio and project development for transition to advanced study or professional, expressive or applied practices in integrated media.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 4630C Video Art: Advanced Projects 3 Credits  
Grading Scheme: Letter Grade  
Focusses on the completion of larger scale student-directed projects with a special emphasis on pre-production planning and advanced editing techniques.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 4631C Computer Art: Advanced Projects 6 Credits  
Grading Scheme: Letter Grade  
Advanced work in computer-mediated art, including animation and interactive works in both the physical and virtual domain, with special emphasis on completion of larger scale student-directed projects.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 4639C Advanced Experiments in Art and Technology 3 Credits  
Grading Scheme: Letter Grade  
Special topics course that explores new forms of digital media production. Topics reflect emerging forms of digital media.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 4642C Digital Fabrication 3 Credits  
Grading Scheme: Letter Grade  
Interdisciplinary studio combines in-depth analysis of the role of the physical object in diverse conceptual art practices with project-based experimentation using rapid prototyping and manufacturing technologies.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 4645C Sensors and Electronics-Based Art 3 Credits  
Grading Scheme: Letter Grade  
Physical computing HCI (human computer interaction) explores how devices respond to and interact with human physical action. Students will create artwork that explores physical interfaces beyond mouse/keyboard/screen interactions through the use of microcontrollers and sensors.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 4710C Advanced Sculpture 6 Credits  
Grading Scheme: Letter Grade  
Advanced problems in sculptural form with development of processes and techniques.  
Prerequisite: ART 3711C and ART 3712C.

ART 4760C Advanced Ceramics 3-6 Credits  
Grading Scheme: Letter Grade  
Focuses on advanced technical and creative concepts with emphasis on developing personal work and professional practices preparation.  
Prerequisite: ART 3783C and ART 3764C and ART 3768C and ART 3784C.

ART 4828C Senior Studio 3 Credits  
Grading Scheme: Letter Grade  
Senior Studio is designed to support students to articulate, challenge, and refine their individual art practices in a mentored open studio environment.  
Prerequisite: Must be a Senior BFA Art or BA Art major and must have passed sophomore portfolio review and be in final year of study.

ART 4848C Installation Using Digital Processes 3 Credits  
Grading Scheme: Letter Grade  
Explores site specificity and intervention in 3D space through installation, using digital media to understand concepts such as sequence, narration, interactivity, motion and recursion.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 4858C Presentation of Practices 3 Credits  
Grading Scheme: Letter Grade  
Presentation of Practices is designed to give students a platform for presenting research/creative work in public forums and venues. The course provides a framework for students to understand the professional best practice expectations and develop the skills necessary in planning, creating, documenting, publicizing and exhibiting/presenting creative work.  
Prerequisite: Must be a Senior BFA Art or BA Art major and must have passed sophomore portfolio review and be in final year of study; Corequisite: ART 4828C.

ART 4883C Making and Meaning 3 Credits  
Grading Scheme: Letter Grade  
Explores the creation of art in combination with non-art related research. Develop a deeper connection with created artwork and discover how the act of making can reveal both intentions and underlying motives.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 4905C Individual Study 1-3 Credits  
Grading Scheme: Letter Grade  
With consent of faculty, students can take this course for special circumstances: student needs a specific course for the degree and the class is not offered or student (senior) wishes to explore an area of inquiry in greater depth after completing all 3000-level courses in their major.  
Prerequisite: senior-level art major and arrangement by and permission of the art advisor and director.

ART 4930C Special Topics in Studio Practice 1-6 Credits  
Grading Scheme: Letter Grade  
Rotating special topics in studio art and studio practice.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

ART 4940 Internship 3 Credits  
Grading Scheme: S/U  
Supervised practical experience with an art, graphic design or museum facility according to an approved program. Special seminar and evaluation sessions with faculty advisor and art facility manager. (S-U)  
Prerequisite: arrangement with art advisor and chair and dean permission.
ART 4955C Senior Project 1-3 Credits  
Grading Scheme: Letter Grade  
Visual verification of artistic qualifications for BFA degree. Preparations and activities (exhibition, portfolio, installation, etc.) to be determined in consultation with faculty advisor.  
Prerequisite: senior-level art major.

DIG 1000C Workshop in Fundamental Digital Technologies 3 Credits  
Grading Scheme: Letter Grade  
Introduces the language and applications of digital media. Expect to achieve competency level in the basic use of technology through application and process.  
Prerequisite: Art major.

DIG 2021 Foundations of Digital Culture 3 Credits  
Grading Scheme: Letter Grade  
Interdisciplinary overview of the technological and cultural developments that continue to shape the modern world. Student research covers topics including telecommunications, digital and analog technologies, video games, computer-generated entertainment and the rise of social media.  
Prerequisite: (Digital Arts and Sciences BA major) or instructor permission.  
Attributes: Satisfies 4000 Words of Writing Requirement.

DIG 2131C Digital Imaging 3 Credits  
Grading Scheme: Letter Grade  
Emphasizes the aesthetic and conceptual practices of image making using digital media. An exploration of a range of processes, concepts and theories including scanning, printing, image manipulation and color correction. Course emphasizes color theory and its application to image construction and expression.  
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

DIG 2111C Visual Methods and Processes 3 Credits  
Grading Scheme: Letter Grade  
Emphasizes design process, methodologies and communication theories that foster the relationship between content and meaning. Course includes experiences in visual analysis, symbol conceptualization, figure-ground, spatial concepts and compositional dynamics and an introduction to semiotics, design principles and design methods.  
Prerequisite: ART 1803C or provisional Graphic Design certificate students.

GRA 2111C Visual Methods and Processes 3 Credits  
Grading Scheme: Letter Grade  
Emphasizes design process, methodologies and communication theories that foster the relationship between content and meaning. Course includes experiences in visual analysis, symbol conceptualization, figure-ground, spatial concepts and compositional dynamics and an introduction to semiotics, design principles and design methods.  
Prerequisite: ART 1803C or provisional Graphic Design certificate students.

GRA 2208C Typography 1: Letterform 3 Credits  
Grading Scheme: Letter Grade  
Explores the expressive potential of letter form as visual art. Emphasizes shaping and spacing forms into meaningful communications.  
Prerequisite: ART 1803C or provisional Graphic Design certificate students.

GRA 3138C Design: Visualization and Creativity 3 Credits  
Grading Scheme: Letter Grade  
Creative thinking and form making in design. Emphasizes visual invention and compositional dynamics.  
Prerequisite: GRA 2111C and GRA 2208C with grades of B or better and enrollment in the Graphic Design Certificate.

GRA 3193C Design: Visualization and Creativity 3 Credits  
Grading Scheme: Letter Grade  
Creative thinking and form making in design. Emphasizes visual invention and compositional dynamics.  
Prerequisite: GRA 2111C and GRA 2208C with grades of B or better and enrollment in the Graphic Design Certificate.

GRA 3194C Technologies and Processes 3 Credits  
Grading Scheme: Letter Grade  
Training in tools and materials of graphic design, including printing processes, computer and video processes, photographic and electronic media.  
Prerequisite: GRA 3209C and GRA 3193C and BFA Graphic Design major and must have passed sophomore portfolio review.

GRA 3198C Image, Form and Meaning 3 Credits  
Grading Scheme: Letter Grade  
Emphasizes development of concepts, metaphors, narratives and visual translations. Projects in line art, screen process, photography, and color.  
Prerequisite: GRA 3209C and GRA 3193C and BFA Graphic Design major and must have passed sophomore portfolio review.

GRA 3209C Typography 2: Composition 3 Credits  
Grading Scheme: Letter Grade  
Explores the visual organization and integration of typographic information with images in printed documents. Emphasizes nomenclature, mechanical processes, design, and historical contexts.  
Prerequisite: GRA 2111C and GRA 2208C and a BFA Graphic Design major and must have passed sophomore portfolio review.

GRA 3816C Design Thinking 3 Credits  
Grading Scheme: Letter Grade  
Design thinking is interdisciplinary, human-centered, collaborative, contextual, and iterative. It offers an exceptionally dynamic framework to approach idea generation, creative investigation, and divergent thinking. Learn principles of design thinking through exercises, brainstorming, sketching, case studies, and presentations.  
Prerequisite: GRA 2111C and GRA 2208C with minimum grades of B and enrollment in the Graphic Design Certificate.
GRA 4186C Senior Design Studio 3 Credits
Grading Scheme: Letter Grade
Emphasizes self-directed design, research and study leading to the development and realization of complex design projects. Public dissemination of final projects.
Prerequisite: GRA 4196C and GRA 4197C and a BFA Graphic Design major of senior standing.

GRA 4187C Design Workshop 3 Credits
Grading Scheme: Letter Grade
Bridges the study of design and professional practice. Emphasis on practical graphic design issues applied to real-world experiences.
Prerequisite: GRA 4196C and GRA 4197C and a BFA Graphic Design major of senior standing.

GRA 4196C Design: Ideas and Styles 3 Credits
Grading Scheme: Letter Grade
Special emphasis on history and theories of graphic design including innovations and contemporary issues.
Prerequisite: GRA 3198C and GRA 3194C and a BFA Graphic Design major of senior standing.

GRA 4197C Graphic Design: Visual Systems in Design 3 Credits
Grading Scheme: Letter Grade
Self-directed complex and integrated design projects.
Prerequisite: GRA 3198C and GRA 3194C and Graphic Design major of senior standing.

GRA 4923C Design and Professional Practice Studio 3 Credits
Grading Scheme: Letter Grade
Advanced study in graphic design and professional practices of design in business and multidisciplinary learning experiences. Students repeating this course will have demonstrated excellence during the first semester, been selected for their leadership abilities and assigned advanced roles in the studio environment.
Prerequisite: (BFA Graphic Design and passed sophomore portfolio review) or via department application process.

GRA 4953C Senior Project in Design 1 Credit
Grading Scheme: Letter Grade
Emphasizes the development of a personal website to showcase the student’s professional portfolio, design philosophy and credentials. Students will be required to launch a website with a proprietary URL on a commercial server prior to completing the course. Students are evaluated on the appropriateness and completion level of the website as well as their conceptual, formal and technical development.
Prerequisite: BFA Graphic Design major of senior standing;
Corequisite: GRA 4187C and GRA 4186C.

HUM 2500 A Taste of the Arts: Behind the Scenes 3 Credits
Grading Scheme: Letter Grade
Online course develops basic art vocabulary and aesthetic tools in visual arts, theatre, dance and music. View rehearsals and installations and learn about the back-stage preparations involved in creating arts exhibitions and performances from actors, artists, designers, producers, and other arts professionals. For non-arts majors who want to develop cultural awareness that will accentuate any major and career. (H)
Attributes: General Education - Humanities

HUM 2510 Design for Understanding the Visual and Performing Arts 3 Credits
Grading Scheme: Letter Grade
Analysis of the basic elements and concepts of the visual arts, music, theater, and the dance to establish a fundamental base from which decisions can be made about what one sees, hears, and feels. Understanding, appreciation, and literacy in the arts are developed and are strengthened by participating in arts experiences. (H) (WR)
Attributes: General Education - Humanities, Satisfies 2000 Words of Writing Requirement

HUM 2511 Basic Fundamentals and Skills in the Visual Arts and Music 3 Credits
Grading Scheme: Letter Grade
Fundamentals of visual arts and of music needed by the classroom teacher for teaching art and music in the elementary school. Students with sufficient background may exempt the course by examination.

IDC 3500C Programming for Artists 3 Credits
Grading Scheme: Letter Grade
Introduces understanding interactivity as an art form, providing an in-depth exploration of the tools, theories and applications of interactive media as they are used for creative inquiry, research and production.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

PGY 2101C Visual Literacy: Photography 3 Credits
Grading Scheme: Letter Grade
Introduces the practices, theories and histories of photography. Acquisition of basic darkroom skills and key elements of contemporary theoretical approaches to visual art. (H)
Prerequisite: ART 1803C.
Attributes: General Education - Humanities

PGY 2441C Photography: Images, Order and Idea 3 Credits
Grading Scheme: Letter Grade
Use of non-traditional light-sensitive processes to explore aspects of image manipulation.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

PGY 2442C Photography: Figure and Ground 3 Credits
Grading Scheme: Letter Grade
Light and shape aspects of photographic images; theories of space and 2D composition; and basic camera and darkroom techniques.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design.

PGY 3410C Photography: Color 3 Credits
Grading Scheme: Letter Grade
Consideration of the use and technique of color photography. Covers cameras, films, and darkroom developing techniques.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

PGY 3444C Photography: Black and White 3 Credits
Grading Scheme: Letter Grade
Fundamentals of photography, operation of the camera and developing, printing, and enlarging. Principles of photography as a means of personal expression.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.
PGY 3820C Photography: Digital 3 Credits
Grading Scheme: Letter Grade
Studio methods and techniques in creating still images using electronic digital technology.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

PGY 4156C Large Format Photography 3 Credits
Grading Scheme: Letter Grade
Advanced study in artificial lighting, color balancing of mixed light sources, view camera techniques to control distortion, focus and painting with light.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

PGY 4420C Advanced Photography 6 Credits
Grading Scheme: Letter Grade
Use of the camera as a medium of individual creative expression. Experimental projects in black and white and color photography.
Prerequisite: PGY 3410C, PGY 3421C, PGY 3444C, PGY 3820C, and senior-level art major.

Astronomy and Astrophysics

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

The Department of Astronomy is home to a vibrant community actively engaged in research, education, and outreach. The department's faculty are involved in a wide range of research programs (https://www.astro.ufl.edu/research/) using world-class resources including an in-house design-through-fabrication instrumentation program (https://www.astro.ufl.edu/instrumentation/past-current-projects/), partner level access to the Gran Telescope Canarias (https://www.astro.ufl.edu/research/telescopes/), the HiPerGator-2 (https://www.astro.ufl.edu/research/computing/) supercomputer, and more. Website (https://www.astro.ufl.edu/)

Curriculum
• Astronomy and Astrophysics
• Astronomy Minor

Courses

AST 1002 Discovering the Universe 3 Credits
Grading Scheme: Letter Grade
An elementary, largely nonmathematical survey of our universe of stars, planets and galaxies. Acquaints the student with the development of astronomy as a human activity with how we know as well as what we know. Primarily for those not majoring in physical science or mathematics. (P)
Attributes: General Education - Physical Science

AST 1022L Astronomy Laboratory 1 Credit
Grading Scheme: Letter Grade
Introduces experimental work in astronomy including scheduled laboratory exercises during the day in the teaching lab and evening observational astronomy at the on campus teaching observatory. (P)
Attributes: General Education - Physical Science

AST 1000 Cosmology 3 Credits
Grading Scheme: Letter Grade
Overview of cosmology, the study of the large-scale structure and history of the universe, in four components: ideas about the universe as a whole predating the twentieth century; ideas from twentieth century physics that impact modern cosmology; stars, black holes, galaxies and quasars as probes of the universe; and the Hot Big Bang Model.

AST 2003 Introduction to the Solar System 3 Credits
Grading Scheme: Letter Grade
Survey of the solar system including the sun, planets, satellites, asteroids, meteorites and comets. (P)
Prerequisite: simple algebra.
Attributes: General Education - Physical Science

AST 2037 Life in the Universe 3 Credits
Grading Scheme: Letter Grade
The origin of life on Earth and the possibility of life elsewhere. A multidisciplinary approach is followed. Conditions for life to form and the likelihood that such conditions may exist elsewhere in the universe are discussed. Also considered are schemes proposed for the search for extraterrestrial intelligence (SETI). (P)
Attributes: General Education - Physical Science

AST 3018 Astronomy and Astrophysics 1 3 Credits
Grading Scheme: Letter Grade
First part of a two part sequence. Survey of astronomy and astrophysics for physical science, engineering or mathematics majors. Covers gravitation, orbits and tides; the Moon's phases and eclipses; light and spectra; the solar system; and a few historical milestones. (P)
Prerequisite: (PHY 2048 or PHY 2060) and (MAC 2311 or MAC 3472).
Corequisite: PHY 2049.
Attributes: General Education - Physical Science

AST 3019 Astronomy and Astrophysics 2 3 Credits
Grading Scheme: Letter Grade
Second part of a two part sequence. Stellar distance determination; spectral classification, magnitudes and the nature of color indices; binary stars; the interstellar medium; the Sun as a star; stellar interiors; star formation and stellar evolution; the structure of the Milky Way; the kinds of galaxies and their properties; groups, clusters and superclusters of galaxies; and cosmology. (P)
Prerequisite: (PHY 2048 or PHY 2060) and (MAC 2311 or MAC 3472).
Corequisite: PHY 2049.
Attributes: General Education - Physical Science
AST 3043 History of Astronomy through Newton 3 Credits
Grading Scheme: Letter Grade
Astronomy from its beginnings through Newton. Emphasis is on the works of Ptolemy, Copernicus, Kepler, Galileo and Newton. (H or P, and N)
Attributes: General Education - Humanities, General Education - International, General Education - Physical Science

AST 3722C Techniques of Observational Astronomy 1 3 Credits
Grading Scheme: Letter Grade
First part of the AST 3722C-4723C sequence. The fundamental principles and techniques used in planning, making, reducing and analyzing modern astronomical observations. Includes classroom lectures and discussion, indoor laboratory work, data analysis and outdoor night observations. Introduces numerical treatment of observations, CCD imaging, digital imaging processing and astronomical spectroscopy.
Corequisite: AST 3018.

AST 4211 Essentials of Astrophysics 3 Credits
Grading Scheme: Letter Grade
Foundation and background on topics in astrophysics, including broadening mechanisms of spectral lines, equations of state of gases, thermodynamics, radiation sources, radiative transport, kinetic theory of gases and stellar structure.
Prerequisite: AST 3018, AST 3019 and a working knowledge of calculus.

AST 4300 Galactic Astronomy 3 Credits
Grading Scheme: Letter Grade
Intensive introduction to the fundamental properties of the Milky Way and its system of satellite galaxies. Course is intended for astronomy majors and natural science students. Topics include the ages, chemical abundances and kinematics of field stars and star clusters, the properties of the interstellar medium and its role in star formation, the dark matter content and models of the Milky Way's physical structure.
Prerequisite: AST 3018, AST 3019 and a working knowledge of calculus.

AST 4402 Galaxies and Cosmology 3 Credits
Grading Scheme: Letter Grade
An investigation into the properties of galaxies and their distribution in space. Some cosmological implications of this distribution are discussed. Intended for astronomy majors and advanced students of other mathematical sciences.
Prerequisite: AST 3018, AST 3019 and a working knowledge of calculus.

AST 4723C Techniques of Observational Astronomy 2 3 Credits
Grading Scheme: Letter Grade
Second part of a sequence. The fundamental principles and techniques used in planning, making, reducing and analyzing modern astronomical observations. Includes classroom lectures and discussion, indoor laboratory work, data analysis, and outdoor night observations. Introduces numerical treatment of observations, CCD imaging, digital imaging processing, and astronomical spectroscopy.
Prerequisite: AST 3722C.

AST 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Assigned reading or research for qualified undergraduates.
Prerequisite: AST 3018 and AST 3019, or two years of college physics and instructor permission.

AST 4911 Undergraduate Research in Astronomy 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Astronomy. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Astronomy.

AST 4930 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Lecture, seminar or laboratory sessions covering selected topics of current interest in astronomy.
Prerequisite: instructor permission.

Biochemistry and Molecular Biology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

The department offers a full program of courses for the undergraduate student preparing for advanced degrees in the biological, agricultural and life sciences and for professional school.

The major course offering, BCH 4024, is designed to provide students with a general background in biochemistry and molecular biology for professional school or advanced studies in specialized areas.

The department offers an independent interdisciplinary major in biochemistry and molecular biology, in cooperation with the College of Liberal Arts and Sciences, to those undergraduates with strong interests in cell processes, molecular biology, metabolism or physical or structural biochemistry (See Biochemistry and Molecular Biology entry under Majors).

Undergraduate students in other majors who are interested in a research career in biochemistry and molecular biology should take BCH 4024 as early in their undergraduate program as possible. Students interested in supplementing these didactic course offerings with laboratory research experience can register for BMS 4905 after obtaining department approval. Further information on such research opportunities, advanced study and early admission can be obtained from the undergraduate studies coordinator.

Students with interests in medicine or other health sciences may also choose to enroll in the interdisciplinary major program and should contact the assistant dean for preprofessional education in the College of Medicine at the end of the sophomore year or at the beginning of the junior year.

BCH 4024 Introduction to Biochemistry and Molecular Biology 4 Credits
Grading Scheme: Letter Grade
Introduces physical biochemistry, intermediary metabolism and molecular biology. Topics include a survey of structure, chemistry and function of proteins and nucleic acids, enzyme kinetics and mechanisms of catalysis; a survey of the pathways of carbohydrate, lipid and nitrogen metabolism and their metabolic control; regulation of gene expression at the level of DNA, RNA and protein synthesis.
Prerequisite: CHM 2211 or CHM 3217, or instructor permission.
BCH 4905 Biochemistry Senior Research 1-7 Credits
Grading Scheme: Letter Grade
Laboratory investigations of biochemical problems of current interest. Senior thesis required.
Prerequisite: CHM 2210, CHM 2211, and CHM 3217 or the equivalent, BCH 4024 and interdisciplinary major status.

Biology | Botany | Zoology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. Our teaching and research provide the integrative and conceptual foundations of the life sciences.

Courses

Biology

BOT 4650 Plant Symbiosis 3 Credits
Grading Scheme: Letter Grade
Examines the crucial role of symbioses in shaping the diversity of life. Topics include generalities among symbioses, origins and establishment of symbioses, and coevolution and cospeciation, as well as specifics of well-studied exemplars of bacterial, fungal, animal, and plant symbioses with plants.
Prerequisite: BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of C.

BOT 4851C Medical and Forensic Plant Biology 3 Credits
Grading Scheme: Letter Grade
Basic plant taxonomy, systematics, phytochemicals, uses of plants by animals and various human cultures, and in the development of modern medicine and drug development. Uses of plant tissues and products in forensic investigations will also be discussed.
Prerequisite: BSC 2011 with a minimum grade of B.

BSC 1920 First Year Introduction: Biology at UF 1 Credit
Grading Scheme: S/U
Introduces the field of biology and the academic resources specific to this discipline at UF. Discussions of the nature and practice of scientific research, laboratory safety, advising and career resources for biologists. Developments in the instructor's area of expertise are used to illustrate key subjects. (S-U)
Prerequisite: biology, botany, zoology or exploring science and engineering majors only.

BSC 2005 Biological Sciences 3 Credits
Grading Scheme: Letter Grade
A comprehensive introduction to living systems, including the scientific basis of biology, cell structure and function, genetic mechanisms, animal and plant anatomy and physiology, and ecology and evolutionary processes. Recommended for students not majoring in the natural sciences. (B)
Attributes: General Education - Biological Science

BSC 2005L Laboratory in Biological Sciences 1 Credit
Grading Scheme: Letter Grade
A laboratory for students who need experience in a nonprofessionally oriented laboratory or for those who need laboratory experience to satisfy requirements for graduation. (B)
Attributes: General Education - Biological Science

BSC 2010 Integrated Principles of Biology 1 3 Credits
Grading Scheme: Letter Grade
General Biology Core: the first of a two-semester sequence that prepares students for advanced biological sciences courses and allied fields. Studies the origin of life systems; of biological molecules and organization of living things at the subcellular, cellular and organismic levels; and of the activities of living forms in obtaining and utilizing energy and materials in growth, maintenance and reproduction. (B)
Prerequisite: Degree-seeking students only.
Attributes: General Education - Biological Science

BSC 2010L Integrated Principles of Biology Laboratory 1 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to accompany BSC 2010. Students should register for BSC 2010 and 2010L concurrently. (B)
Prerequisite: Degree-seeking students only.
Corequisite: BSC 2010 or the equivalent.
Attributes: General Education - Biological Science

BSC 2011 Integrated Principles of Biology 2 3 Credits
Grading Scheme: Letter Grade
General Biology Core: the second of a two-semester sequence that prepares students for advanced biological sciences courses and allied fields. Examination in living things of the principles of information storage, transmission and utilization at the cell, organism and population levels; of the mechanisms of evolutionary change in the diversification of living things and their life styles; of population growth and regulation; and of energy flow and biogeochemical cycling in the biosphere. (B)
Prerequisite: BSC 2010 or the equivalent. Degree-seeking students only.
Attributes: General Education - Biological Science
BSC 2011L Integrated Principles of Biology Laboratory 2 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to accompany BSC 2011. Students should register for BSC 2011 and 2011L concurrently. (B)
Prerequisite: Degree-seeking students only.
Corequisite: BSC 2011 or the equivalent.
Attributes: General Education - Biological Science

BSC 2044L Accelerated, Integrated Principles of Biology Laboratory 2 Credits
Grading Scheme: Letter Grade
A cross-disciplinary inquiry-based curriculum that focuses on major themes and concepts in biology with an emphasis on their physical and chemical foundations and applications in quantitative research. Equivalent to BSC 2010L and BSC 2011L.
Corequisite: BSC 2010 or the equivalent.

BSC 2862 Global Change Ecology and Sustainability 3 Credits
Grading Scheme: Letter Grade
Examines key issues in sustainability and global environmental change from an ecological perspective. Major themes include impacts of climate change on terrestrial ecological communities; feedback between the terrestrial biosphere and the atmosphere; and implications of climate change for the sustainability of natural and managed ecosystems. (B)
Attributes: General Education - Biological Science

BSC 2930 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Special topics in general biology.

BSC 3096 Human Physiology 3 Credits
Grading Scheme: Letter Grade
Functioning of human tissues, organs and organ systems, emphasizing the physical, chemical and mechanistic bases of normal physiology and the integrated function of the human body. Also introduces pathophysiological changes associated with human diseases.
Prerequisite: (CHM 1031 or CHM 2046 or CHM 2047) and BSC 2011.

BSC 3307C Climate Change Biology 4 Credits
Grading Scheme: Letter Grade
Climate change and its impacts on biological communities, feedbacks from the biosphere to the climate system and human impacts on the carbon cycle. Emphasis on the response of vegetation to climate change and rising atmospheric CO2 concentrations and the role of terrestrial ecosystems in regulating climate via the carbon cycle.
Prerequisite: BSC 2011 and BSC 2011L with minimum grades of C.

BSC 3422C Principles of the Biotechnology Industry 2 Credits
Grading Scheme: Letter Grade
Introduces practices, skills, and careers in the biotechnology industry; provides an applied understanding of regulatory compliance, product development, process development, manufacture, testing, and release-for-sale of biomedical products. Learn the profiles of major departments and participate in simulated departmental roles through lecture and hands-on laboratory applications.
Prerequisite: BSC 2011 and BSC 2011L and CHM 2046 and CHM 2046L.

BSC 3911 Entering Research in Biology 1 Credit
Grading Scheme: Letter Grade
A seminar course to complement a students mentored research experience. Must be taken concurrently with research credits. Students meet weekly to share their research experiences and to get feedback on the progress of their research projects.
Corequisite: BSC 4910 or BOT 4905 or ZOO 4905 or IDH 4912

BSC 4452 Computational Tools for Research in Biology 3 Credits
Grading Scheme: Letter Grade
Introduces computational tools for research: Linux command line, Python scripting, databases. Prepares students to conduct large-scale data analysis on high performance computing resources.
Prerequisite: junior standing or higher.

BSC 4821C Evolutionary Biogeography 3 Credits
Grading Scheme: Letter Grade
How to interpret biological data sets in a biogeographical context. Topics and methods in historical and ecological biogeography are discussed.
Prerequisite: BSC 2011 and BSC 2011L with minimum grades of C.

BSC 4910 Individual Mentored Research in Biology 0-3 Credits
Grading Scheme: Letter Grade
Qualified students work with a supervising instructor on a research project in biology.
Prerequisite: BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of C.
Corequisite: BSC 3911.

BSC 4912 Advanced Mentored Research in Biology 0-4 Credits
Grading Scheme: Letter Grade
Advanced students work with a supervising instructor on a research project in biology. May be repeated for full credit.
Prerequisite: BSC 3911 and BSC 4910 with minimum grades of C.

BSC 4930 Special Topics in Biology 1-4 Credits
Grading Scheme: Letter Grade
Special topics of current interest in biology.
Prerequisite: (BSC 2011 and BSC 2011L) or equivalent with minimum grades of C.

BSC 4936 Critical Analysis of Biological Research 2 Credits
Grading Scheme: Letter Grade
Critical analysis of current life sciences research through online discussions of research seminars and peer reviewed scientific publications.
Prerequisite: senior standing in biology, botany or zoology.

BSC 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade

ISC 2400L Cross-Disciplinary Laboratory 1 3 Credits
Grading Scheme: Letter Grade
First course in a two-semester inquiry-based laboratory focusing on major themes and concepts in biology, chemistry and physics with an emphasis on their integrated applications in modern, quantitative research. Satisfies course requirements for BSC 2010L, CHM 2045L and PHY 2053L.
Prerequisite: high school algebra or equivalent. Degree-seeking students only.

ISC 2401L Cross-Disciplinary Laboratory 2 3 Credits
Grading Scheme: Letter Grade
Second course in a two-semester inquiry-based laboratory focusing on major themes and concepts in biology, chemistry and physics with an emphasis on their integrated applications in modern, quantitative research. Satisfies course requirements for BSC 2011L, CHM 2046L and PHY 2054L.
Prerequisite: ISC 2400L and MAC 1147 or equivalent;
Corequisite: BSC 2010 and CHM 2045 or CHM 2047 or CHM 2095.
ISC 3523 Integrative Biomedical Science 3 Credits  
Grading Scheme: Letter Grade  
Introduces biomedical science as the application of the natural sciences to medicine. Focuses on integration of biological and biochemical sciences, chemical and physical sciences, and social and behavioral sciences in the context of health. Activities promote skills in problem-solving, critical analysis, and quantitative reasoning.  
Prerequisite: BSC 2011 and (CHM 2211 or CHM 2213 or CHM 3217) and (PHY 2048 or PHY 2053 or PHY 2060) and (MAC 2311 or STA 2023) and (PSY 2012 or SYG 2000).

PCB 3109 Cancer Biology 3 Credits  
Grading Scheme: Letter Grade  
Introduces the dysregulation of cellular processes in cancer cells including the mechanisms of action of anti-cancer drugs.

PCB 4085 Genetical Ethics 1 Credit  
Grading Scheme: Letter Grade  
Presentation and critical discussion of new genetic discoveries and discoveries in the context of society. Includes policy, historical, and legal perspectives. Covers responsible conduct of research.  
Prerequisite: PCB 3063 or AGR 3303.

PCB 4460 Biodiversity and Ecology Field Immersion 4 Credits  
Grading Scheme: Letter Grade  
Five-week intensive study of the earth’s rich biodiversity. Emphasizes comparative study of form and function, and of complexity and diversity in phylogenetic and environmental contexts. Focuses on the study of living organisms in the laboratory and field in diverse habitats. Focal organisms and settings rotate according to instructor and semester.  
Prerequisite: BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L.

PCB 4553 Population Genetics 4 Credits  
Grading Scheme: Letter Grade  
Population and quantitative genetics, including the theory of gene frequency dynamics within and between populations, and deterministic and stochastic processes in evolution.  
Prerequisite: BSC 2011 and 2011L with minimum grades of C.

PCB 4917 Molecular Biology Lab Immersion 4 Credits  
Grading Scheme: Letter Grade  
Perform authentic research employing techniques of molecular biology in an intensive 5 week format. Each semester the instructor chooses a general area of research and set of techniques for projects. Design hypotheses, plan and carry out experiments, and analyze data.  
Prerequisite: BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of B.

ZOO 4050 Animal Behavior 3 Credits  
Grading Scheme: Letter Grade  
The scientific study of the mechanistic and evolutionary causes of animal behavior. Topics include communication, foraging and anti-predator behavior, spatial behavior, aggressive behavior, mating behavior, parental care, and social behaviors.  
Prerequisite: BSC 2011 and BSC 2011L with minimum grades of C.

ZOO 4405 Sea Turtle Biology and Conservation 3 Credits  
Grading Scheme: Letter Grade  
Biology of sea turtles and their roles in marine ecosystems, current major issues in sea turtle biology, and challenges in their conservation and management.  
Prerequisite: BSC 2010 and BSC 2011 with a minimum grade of C.

Botany  
BCH 3023 Elementary Organic and Biological Chemistry 3 Credits  
Grading Scheme: Letter Grade  
Elementary organic chemistry and biochemistry for students in the agricultural technical curricula. This is a terminal course and is not part of any sequence.  
Prerequisite: CHM 2046 or CHM 2047.

BOT 2010C Introductory Botany 3 Credits  
Grading Scheme: Letter Grade  
Survey of major plant groups with regard to structure, life histories and uses accompanied by a laboratory showing the diversity of plants in the world.  
Prerequisite: introductory college biology/botany course or the equivalent.  
Attributes: General Education - Biological Science

BOT 2011C Plant Diversity 4 Credits  
Grading Scheme: Letter Grade  
The role of plants in the development of civilization and the influence of plants on world history, politics, economics and culture. A survey of useful and harmful plants and plant products.  
Attributes: General Education - Biological Science

BOT 2710C Practical Plant Taxonomy 3 Credits  
Grading Scheme: Letter Grade  
Introduces plant taxonomy including principles of systematic botany, nomenclature and classification, but emphasizing identification. Student will be able to identify the common ferns, fern allies, gymnosperms and flowering plants of field and garden.

BOT 2800C Plants in Human Affairs 3 Credits  
Grading Scheme: Letter Grade  
The role of plants in the development of civilization and the influence of plants on world history, politics, economics and culture. A survey of useful and harmful plants and plant products.  
Attributes: General Education - Biological Science

BOT 3151C Local Flora of North Florida 3 Credits  
Grading Scheme: Letter Grade  
Survey of major plant groups with regard to structure, life histories and uses accompanied by a laboratory showing the diversity of plants in the northern Florida. Field trips.  
Attributes: General Education - Biological Science

BOT 3503 Physiology and Molecular Biology of Plants 3 Credits  
Grading Scheme: Letter Grade  
The chemical organization, cellular organization, metabolism, nutrition, growth and molecular biology of the higher plants.  
Prerequisite: (BOT 2010C or BSC 2005 or BSC 2010) and CHM 2046 and CHM 2046L.  
Corequisite: BOT 3503L; laboratory may be taken in subsequent term.

BOT 3503L Physiology and Molecular Biology of Plants Laboratory 2 Credits  
Grading Scheme: Letter Grade  
Laboratory experiments to accompany BOT 3503.  
Corequisite: BOT 3503.

BOT 4053 Practical Experience in Teaching Botany 2 Credits  
Grading Scheme: Letter Grade  
Participation in teaching one 3000-level botany course with practical experience in instructional procedures, testing and grading, course and laboratory preparation and laboratory assistance.  
Prerequisite: generally, senior standing with recommendations from two faculty members, including the course instructor.
BOT 4621 Plant Geography 2 Credits
Grading Scheme: Letter Grade
Patterns in the distribution of plants around the earth and factors that influence plant geography. Topics include similarities of plant communities in different parts of the world, common distribution patterns among individual taxa, and methods for inferring biogeographic history and predicting future changes in plant distribution.
Prerequisite: (BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of C) or instructor permission.

BOT 4650 Plant Symbiosis 3 Credits
Grading Scheme: Letter Grade
Examines the crucial role of symbioses in shaping the diversity of life. Topics include generalities among symbioses, origins and establishment of symbioses, and coevolution and cospeciation, as well as specifics of well-studied exemplars of bacterial, fungal, animal, and plant symbioses with plants.
Prerequisite: BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of C.

BOT 4905 Individual Studies in Botany 2-4 Credits
Grading Scheme: Letter Grade
Qualified students and an instructor choose a particular problem for study.
Prerequisite: 8 credits of botany.

BOT 4911 Undergraduate Research in Botany 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Botany. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Botany.

BOT 4935 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Special topics in botany.

BOT 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Overseas Studies

PCB 3023 Essential Cell Biology 3 Credits
Grading Scheme: Letter Grade
Introduces the basic concepts of molecular cell biology in prokaryotic and eukaryotic systems including experimental strategies and methodology. This course is intended for those interested in plants.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent.

PCB 3034C Introduction to Ecology 4 Credits
Grading Scheme: Letter Grade
Basic principles of ecology as they apply to environmental problems including major terrestrial and aquatic ecosystems of Florida.
Prerequisite: introductory college biology.

PCB 3601C Plant Ecology 3 Credits
Grading Scheme: Letter Grade
Principles of ecology at scales ranging from individual plants to landscapes. Emphasis is on species, ecosystems and environmental programs in Florida.
Prerequisite: introductory college biology or botany.

Zoology

AST 2037 Life in the Universe 3 Credits
Grading Scheme: Letter Grade
The origin of life on Earth and the possibility of life elsewhere. A multidisciplinary approach is followed. Conditions for life to form and the likelihood that such conditions may exist elsewhere in the universe are discussed. Also considered are schemes proposed for the search for extraterrestrial intelligence (SETI). (P)
Attributes: General Education - Physical Science

BSC 3402 Theory and Practice in the Biological Sciences 2 Credits
Grading Scheme: Letter Grade
Presents the scientific method, in its many formulations, from historical, philosophical and sociological perspectives. Explores generation and presentation of data, formulation of hypotheses and theories and dissemination of results. Also examines the ethical implication of biological research.

GLY 3603C Paleontology 4 Credits
Grading Scheme: Letter Grade
Investigation of the history of life on earth, including aspects of invertebrate and vertebrate paleontology, micropaleontology and paleobotany.
Prerequisite: refer to the department.

PCB 3063 Genetics 4 Credits
Grading Scheme: Letter Grade
The fundamental properties of inheritance in eukaryotic organisms emphasizing examples in man. Basic concepts are developed for the nature, organization, transmission, expression, recombination and function of genetic materials and principles are derived for genetically characterizing populations.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C and general chemistry.

PCB 3713C Cellular and Systems Physiology 4 Credits
Grading Scheme: Letter Grade
How cells, organs, and higher level systems are integrated and coordinated in the functions of humans and other animals. Emphasizes the use of model organisms, mathematical models, and the physical sciences to understand the mechanistic basis of normal physiology and dysfunction.
Prerequisite: BSC 2010 and (CHM 2046 or CHM 2047 or CHM 2051 or CHM 2096) and (PHY 2048 or PHY 2060), all with minimum grades of C.
Corequisite: PHY 2049 or PHY 2061.

PCB 4043C General Ecology 4 Credits
Grading Scheme: Letter Grade
Ecological processes and organization in terrestrial and aquatic habitats. Laboratory and field exercises emphasize techniques of ecological analysis.
Prerequisite: BSC 2011 and 2011L, or equivalent, with minimum grades of C.

PCB 4674 Evolution 4 Credits
Grading Scheme: Letter Grade
Processes and mechanisms of evolution, including population genetics, speciation, patterns of evolution and molecular evolution.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C.
Corequisite: one semester of calculus; PCB 3063 recommended.
PCB 4712 Comparative Biomechanics 3 Credits
Grading Scheme: Letter Grade
Reviews physical principles governing the form and function of organisms.
Prerequisite: (BSC 2011 and BSC 2011L or equivalent with minimum grades of C) and PHY 2048 and PHY 2053L and PCB 4674 and ZOO 3713C.

PCB 4723C Physiology and Molecular Biology of Animals 5 Credits
Grading Scheme: Letter Grade
Processes and mechanisms of maintenance, activity, and integration in animals with emphasis on vertebrates. Laboratory experience in quantitative methods and techniques of physiological investigation.
Prerequisite: BSC 2011 and (CHM 2046 or CHM 2047) with a minimum grades of C. Recommended: ((PHY 2053 and PHY 2054) or (PHY 2060 and PHY 2061)) and PCB 3063 and PCB 4674.

ZOO 3513C Animal Behavior 4 Credits
Grading Scheme: Letter Grade
The causes, origins and evolution of animal behavior emphasizing field observations and experiments on the behavior of a variety of animal groups.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and PCB 4674.

ZOO 3603C Evolutionary Developmental Biology 4 Credits
Grading Scheme: Letter Grade
Analysis of embryonic development, underlying genetic mechanisms and how these processes have driven the evolutionary diversification of animal body plans.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C.

ZOO 3713C Functional Vertebrate Anatomy 4 Credits
Grading Scheme: Letter Grade
The form and function of chordates accompanied by laboratory work dealing with a selected series of chordates.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C.

ZOO 4205C Invertebrate Biodiversity 4 Credits
Grading Scheme: Letter Grade
Comparative biology of invertebrates, emphasizing morphology, evolution, ecology and life history.
Prerequisite: BSC 2011 and BSC 2011L with minimum grades of C.

ZOO 4307C Vertebrate Biodiversity 4 Credits
Grading Scheme: Letter Grade
Comparative biology of vertebrates, emphasizing morphology, evolution, ecology and behavior.
Prerequisite: BSC 2011 and (BSC 2011L or ISC 2401L) with minimum grades of C.

ZOO 4403C Marine Biology 4 Credits
Grading Scheme: Letter Grade
Survey of major marine taxa, systematics of local marine fauna and flora, with familiarization of the marine environment. Laboratory emphasizes field work and independent projects.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C.

ZOO 4472C Avian Biology 4 Credits
Grading Scheme: Letter Grade
The basic biological characteristics of birds, which, as exceptionally unique flying vertebrates, are confronted with a spectrum of problems in terms of anatomy, physiology, behavior, migration and population ecology.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and PCB 4674 (recommended).

ZOO 4905 Individual Studies in Zoology 1-4 Credits
Grading Scheme: Letter Grade
Qualifed students and the instructor concerned may choose a particular topic or problem for study.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and instructor permission.

ZOO 4911 Undergraduate Research in Zoology 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

ZOO 4926 Special Topics in Zoology 1-4 Credits
Grading Scheme: Letter Grade
Lectures, conferences or laboratory sessions covering selected topics of current interest in zoology.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and instructor permission.

ZOO 4940 Practical Experience in Teaching Zoology 2 Credits
Grading Scheme: S/U
Participation in teaching approved zoology courses with practical experience in instructional procedures, testing and grading, course and laboratory preparation and laboratory assistance. Cannot be used to satisfy minimum hour requirement for zoology major. (S-U)
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, one zoology laboratory-based course, senior status and instructor permission.

ZOO 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: BSC 2011 and BSC 2011L with minimum grades of C and undergraduate advisor permission.

Biomedical Engineering
Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information
The J. Crayton Pruitt Family Department of Biomedical Engineering (BME) is part of the Herbert Wertheim College of Engineering and is a prime resource for biomedical engineering education, training, research, and technology development. BME is an ever-evolving field that uses and applies engineering principles to the study of biology and medicine in order to improve health care.
Website (https://www.bme.ufl.edu/)
Courses

BME 1008 Introduction to Biomedical Engineering 1 Credit
Grading Scheme: Letter Grade
Introduction to and overview of biomedical engineering. Lectures are given by faculty expert in an area of biomedical engineering. The goal is to give beginning students an appreciation for the breadth of the field and to guide them in making curriculum, major and career choices.

BME 1930 Special Topics in Biomedical Engineering 1-4 Credits
Grading Scheme: Letter Grade
Selected topics in biomedical engineering.

BME 3012 Clinically-Inspired Engineering Design 3 Credits
Grading Scheme: Letter Grade
Through exposure to real clinical problems, learn to communicate with medical professionals in order to identify unmet needs, to develop prototypes and initial concepts for clinical problems, and to critically evaluate potential solutions for clinical problems.
Prerequisite: BME 3060, PCB 3713C, and ENC 3246 with minimum grades of C;
Corequisite: BME 3101 and EGM 2511.

BME 3053C Computer Applications for BME 2 Credits
Grading Scheme: Letter Grade
Computer programming lab and lecture utilizes Matlab to analyze biomedical measurements.
Prerequisite: COP 2271 and COP 2271L or equivalent and MAC 2312, with minimum grades of C.

BME 3060 Biomedical Fundamentals 3 Credits
Grading Scheme: Letter Grade
Working specifically within the framework of biomedical engineering applications, provides the engineering fundamentals of the conservation laws of mass, energy, charge, and momentum.
Prerequisite: (CHM 2046 or CHM 2096) and MAC 2313 with minimum grades of C;
Corequisite: PHY 2049, MAP 2302, and BME 1008.

BME 3101 Biomedical Materials 3 Credits
Grading Scheme: Letter Grade
Restoration of physiological function by engineering biomaterials for biological environment, covering principles underlying use and design of medical implants and matrices/scaffolds. Strong emphasis on transition from engineering material to biological tissue, including molecular and cellular interactions with biomaterials, tissue and organ regeneration, and design of intact, biodegradable, and bioreplaceable materials.
Prerequisite: BME 3060 with minimum grade of C and CHM 3217.

BME 3234 Mechanical Behavior of Biological Tissues and Systems 3 Credits
Grading Scheme: Letter Grade
Focuses on understanding the mechanical behavior of biological tissues and systems by evaluating structure-function relationships, stress-strain relationships, and the mechanical complexity of biological systems; introduces the basics of viscoelastic behavior as it applies to biological tissues.
Prerequisite: BME 3060 with minimum grade of C and EGM 2511.

BME 3323L Cellular Engineering Laboratory 3 Credits
Grading Scheme: Letter Grade
The cellular engineering laboratory teaches the fundamentals of cell culture for use in biomedical engineering investigations. Acquire skills in cell culture, quantitative analyses, notebook keeping, report writing, and oral presentation.
Prerequisite: PCB 3713C;
Corequisite: BME 4311 or instructor permission.

BME 3508 Biosignals and Systems 3 Credits
Grading Scheme: Letter Grade
Basic theory and techniques of biosignals and systems. Topics include sampling, noise in biological signals, signal averaging of noisy biological signals, Fourier analysis and filtering.
Prerequisite: (EEL 3003 or EEL 3111C) and MAC 2313 with a minimum grade of C.

BME 3941 Internship Experience in Biomedical Engineering 0-3 Credits
Grading Scheme: S/U
Engineering work experience under the supervision of an engineer.
Prerequisite: Biomedical Engineering major.

BME 4160 Magnetic Biomaterials 3 Credits
Grading Scheme: Letter Grade
Consists of classroom lectures on fundamental concepts in magnetism and magnetic micro and nano-materials and their applications in biomedicine. Participants present a critical review of recent literature in the field and lead a group discussion on a specific, recent paper.
Prerequisite: PHY 2048 and CHM 2046 or CHM 2096 with minimum grades of C.

BME 4311 Molecular Biomedical Engineering 3 Credits
Grading Scheme: Letter Grade
Introduces the fundamentals of molecular biology for biomedical engineers. Designed for juniors or seniors majoring in biomedical engineering to learn the nomenclature and current state of knowledge of the eukaryotic cell and its related structures. Topics include protein structure and function, enzymes, the structure and nature of DNA and the cellular structure and function of various cellular organelles. Learn about energy and the function of mitochondria and chloroplast, cellular communication and the function of the extracellular matrix.
Prerequisite: BSC 2010 and (CHM 3217 or CHM 2210) and PCB 3713C with minimum grades of C.

BME 4361 Neural Engineering 3 Credits
Grading Scheme: Letter Grade
Applying engineering to neuroscience; includes such diverse areas as neural tissue engineering, models of neural function, and neural interface technology. Focuses mainly in the context of neural interfaces and prosthetics, from basic neural physiology and models of neural mechanisms to advanced neural interfaces currently in development or produced commercially.
Prerequisite: BME 3508 or EEL 3135.
BME 4409 Quantitative Physiology 3 Credits
Grading Scheme: Letter Grade
A junior/senior level physiology course. Quantitative modeling of organ system physiology of the nervous system, the cardiovascular system and the respiratory system are discussed and students work on quantitative problems.
Prerequisite: PCB 3713C, BME 3053C, BME 3060, and BME 3508 with minimum grades of C.

BME 4503 Biomedical Instrumentation 3 Credits
Grading Scheme: Letter Grade
Covers engineering and medical bases of application, measurement and processing of signals to and from living systems. Biomedical transducers for measurements of movement, biopotentials, pressure, flow, concentrations and temperature are discussed, as well as treatment devices such as ventilators and infusion pumps.
Prerequisite: MAC 2313 and MAP 2302 and PHY 2049 and (EEL 3003 or EEL 3111C) with minimum grades of C.
Corequisite: BME 3508.

BME 4503L Biomedical Instrumentation Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory for BME 4503.
Prerequisite: MAC 2313 and MAP 2302 and PHY 2049 and (EEL 3003 or EEL 3111C) with minimum grades of C;
Corequisite: BME 3508 and BME 4503.

BME 4531 Medical Imaging 3 Credits
Grading Scheme: Letter Grade
Medical imaging technologies from a biomedical engineering perspective. The physics, mathematics, instrumentation and clinical applications of all common medical imaging modalities, including x-ray radiography, computed tomography (CT), ultrasound imaging, positron emission tomography (PET) and magnetic resonance imaging (MRI) are discussed. Emerging imaging modalities, including optical imaging, fluorescence imaging and photoacoustic imaging are also introduced.
Prerequisite: MAC 2313, MAP 2302, PHY 2049, BME 3053C, and BME 3508 with minimum grades of C.

BME 4621 Biomolecular Thermodynamics and Kinetics 3 Credits
Grading Scheme: Letter Grade
Principles of thermodynamics and kinetics from a biomolecular perspective. The mathematics, analysis, and applications of classical thermodynamics, statistical thermodynamics, and reaction kinetics are introduced in the context of molecular interactions, binding equilibria, metabolism, and biomolecular transport common to living systems.
Prerequisite: CHM 3217 or (CHM 2210 and CHM 2211), with minimum grades of C, and BME 3060 and BME 4311.

BME 4632 Biomedical Transport Phenomena 3 Credits
Grading Scheme: Letter Grade
Introduces and applies the concepts of momentum, mass, and thermal energy transport in the context of problems of interest in biomedical sciences and engineering. Macroscopic and microscopic analysis of momentum, mass, and thermal energy transport problems in biomedical systems.
Prerequisite: BME 3060 with minimum grade of C.

BME 4648 Biomaterials for Drug Delivery 3 Credits
Grading Scheme: Letter Grade
Focuses on the principles of engineering controlled release systems, and integrates topics in polymer chemistry, biomaterials, pharmacokinetics/pharmacodynamics, and mass transport phenomena.
Prerequisite: BME 3060 with a minimum grade of C.
Corequisite: BME 4632

BME 4760 Biomedical Data Science 3 Credits
Grading Scheme: Letter Grade
Covers the biomedical applications of data science techniques, which include pre-processing techniques, machine learning data analysis, and data visualization techniques.
Prerequisite: BME 3053C and COP 2271 and COP 2271L.

BME 4882 Senior Design, Professionalism and Ethics 1 3 Credits
Grading Scheme: Letter Grade
Design of custom strategies to address real-life issues in the development of biocompatible and biomimetic devices for biotechnology or biomedical applications. Teams work with a client in the development of projects that incorporate various aspects of biomedical engineering including instrumentation, biomechanics, biotransport, tissue engineering and others. Emphasizes formal engineering design principles; overview of intellectual properties, engineering ethics, risk analysis, safety in design and FDA regulations are reviewed. Part 1 focuses on design.
Prerequisite: BME 3012 and senior standing.

BME 4883 Senior Design, Professionalism and Ethics 2 3 Credits
Grading Scheme: Letter Grade
Design of custom strategies to address real-life issues in the development of biocompatible and biomimetic devices for biotechnology or biomedical applications. Teams work with a client in the development of projects that incorporate various aspects of biomedical engineering including instrumentation, biomechanics, biotransport, tissue engineering and others. Emphasizes formal engineering design principles; overview of intellectual properties, engineering ethics, risk analysis, safety in design and FDA regulations are reviewed. Part 2 focuses on implementation and testing.
Prerequisite: BME 4882 and senior standing.

BME 4931 Special Topics in Biomedical Engineering 1-4 Credits
Grading Scheme: Letter Grade
Selected topics in biomedical engineering.

EGN 1935 Special Topics in Freshman Engineering 1-3 Credits
Grading Scheme: Letter Grade
Laboratory, lectures or conferences cover selected topics in engineering.

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

EGS 1005 Prep for Success 1-4 Credits
Grading Scheme: S/U
Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)
Prerequisite: EG student.

Botany

Courses
Please note that a complete list of all courses offered by the Department of Biology can be found here (p. 1755).

BCH 3023 Elementary Organic and Biological Chemistry 3 Credits
Grading Scheme: Letter Grade
Elementary organic chemistry and biochemistry for students in the agricultural technical curricula. This is a terminal course and is not part of any sequence.
Prerequisite: CHM 2046 or CHM 2047.

BOT 2010C Introductory Botany 3 Credits
Grading Scheme: Letter Grade
Structures and functions of cells, tissues and organs of flowering plants. Students with credit in BSC 2005 or BSC 2010 cannot register for this course; they should take BOT 2011C. (B)
Attributes: General Education - Biological Science

BOT 2011C Plant Diversity 4 Credits
Grading Scheme: Letter Grade
Survey of major plant groups with regard to structure, life histories and uses accompanied by a laboratory showing the diversity of plants in the world. (B)
Prerequisite: introductory college biology/botany course or the equivalent.
Attributes: General Education - Biological Science

BOT 2710C Practical Plant Taxonomy 3 Credits
Grading Scheme: Letter Grade
Introduces plant taxonomy including principles of systematic botany, nomenclature and classification, but emphasizing identification. Student will be able to identify the common ferns, fern allies, gymnosperms and flowering plants of field and garden.

BOT 2800C Plants in Human Affairs 3 Credits
Grading Scheme: Letter Grade
The role of plants in the development of civilization and the influence of plants on world history, politics, economics and culture. A survey of useful and harmful plants and plant products. (B)
Attributes: General Education - Biological Science

BOT 3151C Local Flora of North Florida 3 Credits
Grading Scheme: Letter Grade
Laboratory observation of the gross features of vascular plants and practice in the use of keys to identify plants. Elementary ecology of principal types of plant communities in northern Florida. Field trips.

BOT 3503 Physiology and Molecular Biology of Plants 3 Credits
Grading Scheme: Letter Grade
The chemical organization, cellular organization, metabolism, nutrition, growth and molecular biology of the higher plants.
Prerequisite: (BOT 2010C or BSC 2005 or BSC 2010) and CHM 2046 and CHM 2046L.
Corequisite: BOT 3503L; laboratory may be taken in subsequent term.

BOT 3503L Physiology and Molecular Biology of Plants Laboratory 2 Credits
Grading Scheme: Letter Grade
Laboratory experiments to accompany BOT 3503.
Corequisite: BOT 3503.

BOT 4053 Practical Experience in Teaching Botany 2 Credits
Grading Scheme: Letter Grade
Participation in teaching one 3000-level botany course with practical experience in instructional procedures, testing and grading, course and laboratory preparation and laboratory assistance.
Prerequisite: generally, senior standing with recommendations from two faculty members, including the course instructor.

BOT 4621 Plant Geography 2 Credits
Grading Scheme: Letter Grade
Patterns in the distribution of plants around the earth and factors that influence plant geography. Topics include similarities of plant communities in different parts of the world, common distribution patterns among individual taxa, and methods for inferring biogeographic history and predicting future changes in plant distribution.
Prerequisite: (BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of C) or instructor permission.

BOT 4650 Plant Symbiosis 3 Credits
Grading Scheme: Letter Grade
Examines the crucial role of symbioses in shaping the diversity of life. Topics include generalities among symbioses, origins and establishment of symbioses, and coevolution and cospeciation, as well as specifics of well-studied exemplars of bacterial, fungal, animal, and plant symbioses with plants.
Prerequisite: BSC 2010 and BSC 2010L and BSC 2011 and BSC 2011L with minimum grades of C.

BOT 4905 Individual Studies in Botany 2-4 Credits
Grading Scheme: Letter Grade
Qualified students and an instructor choose a particular problem for study.
Prerequisite: 8 credits of botany.

BOT 4911 Undergraduate Research in Botany 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Botany. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Botany.
Courses

GEB 2015 Introduction to Business 1 Credit
Grading Scheme: Letter Grade
Introduces the business world by focusing on various disciplines within business and management. Also introduces personal and professional development opportunities that enhance career preparedness.

GEB 2951 Special Projects 1-3 Credits
Grading Scheme: S/U
Projects related to business as approved by the college. (S-U)

GEB 3017 Leading Organizations 4 Credits
Grading Scheme: Letter Grade
Provides a Strategic Foundation for Leadership Practice in a Variety of Professions. Increases the Capacity to Lead With and Without Authority, Across Boundaries, and From Any Political or Organizational Position. Prerequisite: MAN 3025.

GEB 3035 Effective Career Management in Business 4 Credits
Grading Scheme: Letter Grade
Systematically designed course based on the cognitive information processing theory for career problem solving and decision-making. Delivered via modularized multimedia instructional materials. The course is designed to inform students about career planning and management interventions and to accommodate students at different levels of decidedness about their career aspirations.

GEB 3213 Professional Writing in Business 3 Credits
Grading Scheme: Letter Grade
Teaches business students fundamental written communication skills focusing on those areas central to professional writing in business. (C) (WR)
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

GEB 3218 Professional Speaking in Business 3 Credits
Grading Scheme: Letter Grade
Teaches fundamental oral communication skills necessary for succeeding in a business setting including presentations and speeches, interpersonal skills and interviewing.

GEB 3219 Writing and Speaking in Business 4 Credits
Grading Scheme: Letter Grade
Online content teaches business students the fundamentals of both written and spoken communication, enabling them to express their ideas effectively and efficiently and to prepare them for the demands of the business workspace. (C) (WR)
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

GEB 3373 International Business 4 Credits
Grading Scheme: Letter Grade
Exposes the business environments (culture, politics, laws and economics) encountered in other parts of the world; to the tools and skills necessary to analyze the potential of other countries as locations for production, distribution and marketing; to how managing and integrating international operations in many parts of the world differs from the domestic focus of many business courses; and to the broad perspective required of successful managers working in international business. Prerequisite: MAN 3025 and MAR 3023.

GEB 3523 Business Case Analysis 2 Credits
Grading Scheme: Letter Grade
Introduces case analysis and prepares students for national and international case competitions.
Courses

SLS 1501 College Study Skills 1 1-3 Credits
Grading Scheme: Letter Grade
A developmental course designed to assist students who may be having difficulty in their college-level coursework or those who simply wish to improve basic skills essential for college success. The course begins with an individual self-assessment followed by topics such as motivation, time management, active reading, memory, note taking and test taking. Students will also develop a career portfolio for their final lesson.

SLS 2301 Career Planning 1 Credit
Grading Scheme: Letter Grade
SLS 2302 Job Strategies 1 Credit
Grading Scheme: Letter Grade
Interactive course covering all aspects of a successful job search, long-term career planning and success in the professional environment. Enrollment is restricted to juniors and seniors.

Catalan | Spanish and Portuguese Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information
The Department of Spanish and Portuguese Studies endeavors to achieve excellence in research, teaching, and public service related to the languages, literature, and cultures of the areas and countries where Spanish and Portuguese are spoken.

• Combination Degrees
• Hispanic and Latin American Languages, Literatures and Linguistics
• Portuguese
• Portuguese Minor
• Spanish
• Spanish and Portuguese
• Spanish for the Professions Certificate
Courses

CAT 3180 Introduction to Catalan 1 3 Credits
Grading Scheme: Letter Grade
Acquire a working knowledge of the Catalan language and the aspects of Catalan culture and society. No previous experience with Catalan required, although knowledge of another Romance language (through intermediate level) is required.
Prerequisite: completion of second year in another Romance language or instructor permission.

CAT 3182 Introduction to Catalan 2 3 Credits
Grading Scheme: Letter Grade
To expand the linguistic and cultural knowledge acquired in CAT 3180 and to further develop an understanding of Catalan art, culture and society. Emphasis on speaking, listening, reading and writing.
Prerequisite: CAT 3180 or instructor permission.

CAT 3280 Intermediate Catalan 3 Credits
Grading Scheme: Letter Grade
Review and extend knowledge of grammar, vocabulary, culture; develop oral and written skills; begin reading literary works; and consolidate knowledge of Catalan culture.
Prerequisite: CAT 3182 or equivalent.

CAT 3281 Intermediate Catalan 2 3 Credits
Grading Scheme: Letter Grade
Second semester in the intermediate Catalan language and culture sequence, continuing the study of the language and culture of Catalonia with emphasis on linguistic proficiency and cultural knowledge.
Prerequisite: CAT 3180 or equivalent.

Chemical Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

The work of the Department of Chemical Engineering is not restricted to the chemical industry, chemical changes or chemistry. Instead, modern chemical engineers are concerned with all the physical, chemical, and biological changes of matter that can produce an economic product or result that is useful to mankind.

Curriculum

- Biomolecular Engineering Minor
- Chemical Engineering
- Combination Degrees

Courses

ABE 2062 Biology for Engineers 3 Credits
Grading Scheme: Letter Grade
Principles and engineering applications of biology. Principles and applications of biochemistry, genetics, microbial systems, animal systems, ecological systems and global systems. (B) (WR)
Attributes: General Education - Biological Science, Satisfies 6000 Words of Writing Requirement

BME 3406 Introduction to Biomolecular Engineering 3 Credits
Grading Scheme: Letter Grade
Introduces chemical engineering students interested in bio-related careers to the chemical engineering discipline. Emphasizes the link between biology and chemical engineering and the interface between them.
Prerequisite: ABE 2062 or ECH 2062.

BME 4220 Biomolecular Cell Mechanics 3 Credits
Grading Scheme: Letter Grade
Covers the biomolecular basis of cell mechanics and cell motility, emphasizing quantitative models and systems-biology approaches.

BME 4321 Dynamics of Cellular Processes 3 Credits
Grading Scheme: Letter Grade
Introduces chemical engineering students interested in bio-related careers to the chemical engineering discipline. Emphasizes the link between biology and chemical engineering and the interface between them.
Prerequisite: ABE 2062 or ECH 2062.

ECH 3023 Material and Energy Balances 4 Credits
Grading Scheme: Letter Grade
Formulation and solution of material and energy balances utilizing physical/chemical properties of matter as applied to analyzing unit operations systems.
Prerequisite: CHM 2046 or (MAC 2312 and PHY 2048).
Corequisite: PHY 2049, MAC 2313 and MAP 2302.

ECH 3101 Process Thermodynamics 3 Credits
Grading Scheme: Letter Grade
Introduces fundamental principles of classical thermodynamics. Applications to modeling and analysis of physical and chemical processes undergoing change.
Prerequisite: (CHM 4411 or PHY 3513) and ECH 3264.

ECH 3203 Fluid and Solid Operations 3 Credits
Grading Scheme: Letter Grade
Characteristics of laminar and turbulent flow, mechanical energy balance, flow through packed beds and fluidization of solids, design of pumping systems and piping networks and metering of fluids.
Prerequisite: COT 3502 and ECH 3264.
ECH 3223 Energy Transfer Operations 3 Credits
Grading Scheme: Letter Grade
Steady state conduction in solids and heterogeneous materials, transient conduction, convection heat transfer, heat transfer during boiling and condensation, radiation heat transfer, design of heat-transfer equipment and heat exchange networks.
Prerequisite: COT 3502 and ECH 3264.

ECH 3264 Elementary Transport Phenomena 3 Credits
Grading Scheme: Letter Grade
Flux law and conservation equations of mass, energy and momentum; steady and unsteady states as applied to physical and chemical processing; macroscopic and microscopic analysis.
Prerequisite: ECH 3023 and MAP 2302 and MAC 2313.

ECH 4123 Phase and Chemical Equilibria 3 Credits
Grading Scheme: Letter Grade
Application of thermodynamic principles to systems of variable composition including the study of phase and chemical equilibria.
Prerequisite: ECH 3101 and ECH 3203 and ECH 3223.

ECH 4224L Fluid and Energy Transfer Operations Laboratory 2 Credits
Grading Scheme: Letter Grade
Laboratory work in unit operations involving heat and momentum transfer. (WR)
Prerequisite: ECH 3101 and ECH 3203 and ECH 3223 and ENC 3246.
Corequisite: ECH 4714.
Attributes: Satisfies 6000 Words of Writing Requirement

ECH 4323 Process Control Theory 3 Credits
Grading Scheme: Letter Grade
The analysis and automatic control of process systems in chemical engineering.
Prerequisite: COT 3502 or ECH 3023 or MAP 2302;
Corequisite: ECH 4323L.

ECH 4323L Chemical Engineering Laboratory 5 1 Credit
Grading Scheme: Letter Grade
Laboratory work associated with ECH 4323.
Corequisite: ECH 4323.

ECH 4403 Separation and Mass Transfer Operations 3 Credits
Grading Scheme: Letter Grade
Theory, design, and evaluation of diffusional and staged mass transfer processes including distillation, absorption and extraction, leaching, and membrane separations. Computer-aided design methods.
Prerequisite: ECH 3101 and ECH 3203 and ECH 3223.

ECH 4404L Separation and Mass Transfer Operations Laboratory 2 Credits
Grading Scheme: Letter Grade
Laboratory work in unit operations involving mass transfer. (WR)
Prerequisite: ECH 4403 and ECH 4224L and ECH 4714.
Attributes: Satisfies 6000 Words of Writing Requirement

ECH 4504 Chemical Kinetics and Reactor Design 4 Credits
Grading Scheme: Letter Grade
Homogeneous and heterogeneous reaction kinetic modeling and data analysis. Analysis and design of ideal batch, mixed, plug and recycle reactors. Heterogeneous catalysis and reactor design.
Prerequisite: ECH 3264 and ECH 4123.

ECH 4524 Heterogeneous Chemical Kinetics Reactor Design 2 Credits
Grading Scheme: Letter Grade
Theories of catalytic reactions of adsorbed species at solid surfaces, development or rate expressions with heat and mass transport properties through porous catalyst materials for design of heterogeneous chemical reactors.
Prerequisite: ECH 4504.

ECH 4604 Process Economics and Optimization 3 Credits
Grading Scheme: Letter Grade
Introduces the principles of process economics including specifications and costing of equipment, operations costing and economic evaluation of processes.
Prerequisite: ECH 3203 and ECH 3223;
Corequisite: ECH 4403.

ECH 4644 Process Design 3 Credits
Grading Scheme: Letter Grade
Preliminary design of conventional chemical processes including process specifications, siting and layout, equipment sizing, utility and manpower needs, safety and hazard analysis, environmental considerations and economic evaluation. Planning techniques for detailed engineering, construction and startup.
Prerequisite: ECH 4403 and ECH 4504 and ECH 4604 and ECH 4824.

ECH 4714 Chemical Process Safety 3 Credits
Grading Scheme: Letter Grade
Laboratory and process safety analysis which emphasizes prevention and mitigation. Application of chemical engineering principles to assessing hazards and risk. Integrated with ECH 4224L.
Prerequisite: ENC 3246;
Corequisite: ECH 4224L and STA 3032.

ECH 4824 Materials of Chemical Engineering 2 Credits
Grading Scheme: Letter Grade
Relations between microscopic structure and macroscopic mechanical, thermal and electrical properties of organic and inorganic solids. Engineering applications, including corrosion.
Prerequisite: ECH 4123.

ECH 4827 Processing of Complex Fluids 3 Credits
Grading Scheme: Letter Grade
Principles involved in quantitative adoption of chemical engineering unit operations and unit processes for the analysis and design of systems involving complex fluids.
Prerequisite: (ECH 3203 and ECH 3223 and ECH 4123 and ECH 4824) or instructor permission.

ECH 4905 Special Problems in Chemical Engineering 1-6 Credits
Grading Scheme: Letter Grade
Study of chemical engineering problems identified by the student and instructor.

ECH 4912 Integrated Product and Process Design 1 3 Credits
Grading Scheme: Letter Grade
The first part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic product and processes, on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: senior standing.
Ech 4913 Integrated Product and Process Design 2 3 Credits
Grading Scheme: Letter Grade
The second part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic product and processes, on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: senior standing.

Ech 4934 Professional Seminar 1 Credit
Grading Scheme: Letter Grade
Discussion of issues associated with development of a professional career in chemical engineering. Topics include ethics presented in a case study format, legal and ethical issues associated with intellectual property, interviewing strategies and presentation skills.
Prerequisite: senior standing.

Ech 4944 Practical Work in Chemical Engineering 1-5 Credits
Grading Scheme: Letter Grade
One term industrial employment, including extra work according a pre-approved outline. Practical engineering work under industrial supervision as set forth in college regulations.
Prerequisite: Engineering major.

Ech 4948 Internship Work Experience 1 Credit
Grading Scheme: S/U
Practical internship work experience under approved industrial supervision, as set forth in college regulations.
Prerequisite: Engineering major.

Egn 1935 Special Topics in Freshman Engineering 1-3 Credits
Grading Scheme: Letter Grade
Laboratory, lectures or conferences cover selected topics in engineering.

Egn 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

Egs 1005 Prep for Success 1-4 Credits
Grading Scheme: S/U
Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)
Prerequisite: EG student.

Chemistry

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

The Department of Chemistry is a comprehensive department granting bachelor’s, master’s, and Ph.D. degrees with specialization in all areas including biochemistry, nanochemistry, analytical, inorganic, organic, physical, polymer, synthetic and theoretical chemistry. The University of Florida ranks in the top five chemistry departments nationally in Ph.D. production (http://pubs.acs.org/cen/acs/8747news1.pdf) and is among the top 20 in bachelor’s graduates. Curriculum
- Chemistry Minor
- Chemistry | Biochemistry

Introduction to General Chemistry

CHM 1025, a two-credit course, is offered for students who wish to strengthen their understanding of basic concepts of atomic structure and stoichiometry before beginning the general chemistry sequence (CHM 2045/CHM 2045L, CHM 2046/CHM 2046L). A chemistry placement exam is offered online on ONE.UF (https://one.uf.edu/). The score achieved determines whether CHM 1025 or CHM 2045 is the appropriate first course in chemistry.

General Chemistry

For placement into the appropriate first course in chemistry, please refer to the Academic Advising section or consult a chemistry advisor. All students should complete their general chemistry studies without interruption.

The following general chemistry offerings are available:

- CHM 1030/CHM 1031 is a terminal sequence that meets preprofessional requirements in the College of Nursing and some majors in the College of Agricultural and Life Sciences.
- CHM 1020 is a terminal general education course that explores chemistry in terms of consumer products. This course meets preprofessional requirements in certain areas of the College of Agricultural and Life Sciences.
- CHM 2045/CHM 2045L and CHM 2046/CHM 2046L is the standard general chemistry sequence. This sequence meets the preprofessional requirement for a broad range of science and engineering majors. Students are presumed to have a good background in high school chemistry and mathematics (through MAC 1147) and are expected to pass the chemistry placement exam offered online on ONE.UF (https://one.uf.edu/) before registering for CHM 2045.
- CHM 2047/CHM 2047L is a one-semester program for entering students with strong backgrounds in chemistry, normally reflected by high AP or IB chemistry test scores. This program enables students to move more quickly into advanced work.
• CHM 2051 General Chemistry Honors is offered as an alternative to CHM 2046 for students who have done particularly well in CHM 2045.

**Attendance Requirement**

Students missing the first session of a laboratory, which includes the required safety instruction, will not be allowed to start late.

**Courses**

**CHM 1020 Chemistry for the Liberal Arts 3 Credits**
*Grading Scheme:* Letter Grade
Provides non-science majors with a basic understanding of the substances and chemical transformations central to our lives. Introduces chemical concepts and principles helping the student better understand the role and impact of modern chemistry in society. (P)
*Attributes:* General Education - Physical Science

**CHM 1025 Introduction to Chemistry 2 Credits**
*Grading Scheme:* Letter Grade
Introductory readiness course in general chemistry for those with weak yet satisfactory backgrounds in high school chemistry and algebra. (P)
*Corequisite:* MAC 1147 or the equivalent.
*Attributes:* General Education - Physical Science

**CHM 1030 Basic Chemistry Concepts and Applications 1 3 Credits**
*Grading Scheme:* Letter Grade
The first half of the CHM 1030/CHM 1031 sequence. A terminal sequence for non-science students that presents chemistry from a medical/nursing perspective. Topics in inorganic chemistry and properties of both ionic and covalent compounds. (P)
*Prerequisite:* high school algebra.
*Attributes:* General Education - Physical Science

**CHM 1031 Basic Chemistry Concepts and Applications 2 3 Credits**
*Grading Scheme:* Letter Grade
The second half of the CHM 1030/CHM 1031 sequence. Topics in organic chemistry and biochemistry. (P)
*Prerequisite:* CHM 1030.
*Attributes:* General Education - Physical Science

**CHM 2045 General Chemistry 1 3 Credits**
*Grading Scheme:* Letter Grade
The first semester of the CHM 2045/CHM 2045L and CHM 2046/CHM 2046L sequence. Stoichiometry, atomic and molecular structure, the states of matter, reaction rates and equilibria. A minimum grade of C is required to progress to CHM 2046. (P)
*Prerequisite:* CHM 1025 with a minimum grade of C, or a passing score on Chem placement plus no attempt of CHM 1025 w/grade <C or W, and MAC 1147, or MAC 1140 plus MAC 1114, or higher MAC course with a minimum grade of C.
*Attributes:* General Education - Physical Science

**CHM 2045L General Chemistry 1 Laboratory 1 Credit**
*Grading Scheme:* Letter Grade
Laboratory experiments designed to reflect the topics presented in CHM 2045L. (P)
*Prerequisite:* CHM 1025 with a minimum grade of C, or a passing score on Chem placement plus no attempt of CHM 1025 w/grade <C or W, and MAC 1147, or MAC 1140 plus MAC 1114, or higher MAC course with a minimum grade of C.
*Attributes:* General Education - Physical Science

**CHM 2046 General Chemistry 2 3 Credits**
*Grading Scheme:* Letter Grade
The second semester of the CHM 2045/CHM 2045L and CHM 2046/CHM 2046L sequence. Students who completed CHM 2045 or equivalent at another institution should consult a chemistry advisor before registering for this course. Acids and bases, additional aspects of chemical equilibria, thermodynamics, electrochemistry, complex ions and descriptive chemistry. (P)
*Prerequisite:* CHM 2045 with a grade of C or better and [MAC 1147 or (MAC 1140 and MAC 1114)] or (MAC 2### or MAC 3### or MAC 4###).
*Attributes:* General Education - Physical Science

**CHM 2046L General Chemistry 2 Laboratory 1 Credit**
*Grading Scheme:* Letter Grade
Laboratory experiments designed to reflect the topics presented in CHM 2046L. (P)
*Prerequisite:* CHM 2045L AND (MAC 1147 or (MAC 1140 and MAC 1114) or MAC 2###) AND (CHM 2045 or CHM 2095 or CHM 2050).
*Attributes:* General Education - Physical Science

**CHM 2047 One-Semester General Chemistry 4 Credits**
*Grading Scheme:* Letter Grade
Designed for entering (not transfer) students who wish to move more quickly into advanced coursework. Electronic structure and bonding, gases, liquids, solids, kinetics, equilibria, acids and bases, thermodynamics, oxidation-reduction, metals and non-metals. (P)
*Prerequisite:* AP, IB or high honors high school chemistry courses and a high score on the chemistry placement exam.
*Corequisite:* CHM 2047L.

**CHM 2047L One-Semester General Chemistry Laboratory 1 Credit**
*Grading Scheme:* Letter Grade
Laboratory experiments designed to accompany CHM 2047.
*Corequisite:* CHM 2047.

**CHM 2051 Honors General Chemistry 2 3 Credits**
*Grading Scheme:* Letter Grade
Second semester of the CHM 2045/CHM 2045L and CHM 2051/CHM 2046L sequence. Open to students with superior performance in CHM 2045 or its equivalent. Acids and bases, additional aspects of chemical equilibria, thermodynamics, electrochemistry, complex ions, descriptive chemistry and instructor-chosen topics. (P)
*Prerequisite:* CHM 2045, CHM 2045L and instructor permission.
*Corequisite:* CHM 2046L.

**CHM 2054L Accelerated General Chemistry Laboratory 2 Credits**
*Grading Scheme:* Letter Grade
A cross-disciplinary, inquiry-based curriculum that focuses on major themes and concepts in chemistry with an emphasis on their application in modern, quantitative life sciences research. Equivalent to CHM 2045L and CHM 2046L or CHM 2047L.
*Prerequisite:* CHM 2050 minimum grade of B+, or CHM 2095 minimum grade of B+, or CHM 2045 minimum grade of B+, or a score of 5 in AP Chem or 6 in IB Chem, and MAC1147, or MAC1140 plus MAC1114, or higher MAC course minimum grade of C.
CHM 2095 Chemistry for Engineers 1 3 Credits
Grading Scheme: Letter Grade
The first semester of the CHM 2095/CHM 2096 sequence. Topics include stoichiometry, energy and thermodynamics, atomic and molecular structural chemistry, the states of matter, reaction rates and introduces chemical equilibria. All topics are taught in an engineering case-study context. (P)
Prerequisite: Engineering major, and CHM 1025 with a minimum grade of C, or a passing score on Chem placement plus no attempt of CHM 1025 w/grade <C or W, and MAC 1147, or MAC 1140 plus MAC 1114, or higher MAC course w/ a minimum grade of C;
Corequisite: CHM 2045L.
Attributes: General Education - Physical Science
CHM 2095L Chemistry Lab 1 for Engineers 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to complement CHM 2095.
CHM 2096 Chemistry for Engineers 2 3 Credits
Grading Scheme: Letter Grade
The second course in a two-semester sequence. Topics include chemical equilibria, acid-base and solubility equilibria, entropy, free energy, electrochemical devices, solution dynamics and descriptive inorganic and organic chemistry. All topics are taught in an engineering case-study context. (P)
Prerequisite: CHM 2045 or CHM 2095 with a minimum grade of C.
Attributes: General Education - Physical Science
CHM 2096L Chemistry Lab 2 for Engineers 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to complement CHM2096.
Prerequisite: (CHM 2045 or CHM 2095) and (CHM 2045L or CHM 2095L) with minimum grades of C and ENG college;
Corequisite: CHM 2096.
CHM 2200 Fundamentals of Organic Chemistry 3 Credits
Grading Scheme: Letter Grade
An elementary course embracing the more important aspects of organic chemistry. Intended for students in programs requiring only one semester of organic chemistry. Not intended for pre-med, pre-dentistry or pre-vet students.
Prerequisite: CHM 2046 or CHM 2047 or CHM 2051 or CHM 2096, or the equivalent.
CHM 2200L Fundamentals of Organic Chemistry Laboratory 1 Credit
Grading Scheme: Letter Grade
Organic laboratory experiments to accompany CHM 2200.
Corequisite: CHM 2200.
CHM 2210 Organic Chemistry 1 3 Credits
Grading Scheme: Letter Grade
The first half of the CHM 2210/CHM 2211 sequence intended for majors and preprofessional students. A study of the structures, syntheses and reactions of organic compounds.
Prerequisite: CHM 2046 or CHM 2096 or CHM 2047 or CHM 2051.
CHM 2211 Organic Chemistry 2 3 Credits
Grading Scheme: Letter Grade
The second half of the CHM 2210/CHM 2211 sequence intended for majors and preprofessional students. A study of the structures, syntheses and reactions of organic compounds.
Prerequisite: CHM 2210 or CHM 2212 with a minimum grade of C;
Corequisite: CHM 2211L.
CHM 2211L Organic Chemistry Laboratory 2 Credits
Grading Scheme: Letter Grade
Organic laboratory experiments designed to accompany CHM 2210/CHM 2211 or CHM 3217/CHM 3218.
Prerequisite: (CHM 2210 or CHM 2212 with a minimum grade of C) or CHM 3217.
CHM 2212 Organic Chemistry 1 for Majors 3 Credits
Grading Scheme: Letter Grade
First half of the CHM 2212/CHM 2213 sequence for chemistry majors. A study of structures, synthesis, and reactions of organic compounds, with emphasis on mechanism and spectroscopy.
Prerequisite: (CHM 2046 or CHM 2047 or CHM 2051 or CHM 2096) and chemistry major.
CHM 2213 Organic Chemistry 2 for Majors 3 Credits
Grading Scheme: Letter Grade
Second half of the CHM 2212/CHM 2213 sequence is for chemistry majors. Study of structures, synthesis, and reactions of organic compounds, with emphasis on mechanism and spectroscopy.
Prerequisite: (CHM 2210 or CHM 2212 with a minimum grade of C) and chemistry major.
Corequisite: CHM 2211L.
CHM 3120 Introduction to Analytical Chemistry 3 Credits
Grading Scheme: Letter Grade
Principles involved in quantitative analysis. Topics include acid-base equilibria and titrations, precipitation and complex formation, oxidation reduction and statistical treatment of data. Introduces spectrochemical and electrochemical methods of analysis and chemical separations.
Prerequisite: (CHM 2046 or CHM 2047 or CHM 2051) and (CHM 2046L or CHM 2047L).
CHM 3120L Analytical Chemistry Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments designed to accompany CHM 3120.
Corequisite: CHM 3120 or equivalent.
CHM 3217 Organic Chemistry/Biochemistry 1 4 Credits
Grading Scheme: Letter Grade
A rigorous, one-semester overview of the structure, properties and reactions of organic compounds. This is the first half of a two-semester sequence in biochemistry. Students are expected to take CHM 3218 after completing CHM 3217.
Prerequisite: (CHM 2046 or CHM 2047 or CHM 2096 or CHM 2046C) and (CHM 2046L or CHM 2047L).
CHM 3218 Organic Chemistry/Biochemistry 2 4 Credits
Grading Scheme: Letter Grade
Introduces the basic concepts of biochemistry and molecular biology from the structural and mechanistic perspective of organic chemistry.
Prerequisite: CHM 3217 or CHM 2211, or instructor permission.
CHM 3400 Physical Chemistry for the Biosciences 3 Credits
Grading Scheme: Letter Grade
Thermodynamics, electrochemistry, transport, chemical kinetics and molecular structure with emphasis on biological systems.
Prerequisite: (MAC 2312 or MAC 2512 or MAC 3473) and (CHM 2200 or CHM 2210 or CHM 2212), and two semesters of college physics; background in analytical chemistry recommended.
CHM 3610 Inorganic Chemistry 3 Credits
Grading Scheme: Letter Grade
Basic theoretical concepts involved in inorganic chemistry. Periodic trends, chemical bonding, structure and reactivity.
Prerequisite: CHM 2211 or CHM 2213 or CHM 3217.
CHM 3610L Inorganic Chemistry Laboratory 2 Credits
Grading Scheme: Letter Grade
Synthesis and characterization of inorganic and organometallic compounds.
Prerequisite: CHM 2211L and CHM 3120L, or instructor permission.

CHM 4034 Advanced Biochemistry and Chemical Biology 4 Credits
Grading Scheme: Letter Grade
Secondary metabolism and biosynthetic pathways, bioinorganic chemistry, protein folding and trafficking, cellular signaling, replication and translation from a chemist’s perspective. Applications in bioanalytical chemistry and in molecular and cell biology.
Prerequisite: CHM 3218 or BCH 4024.

CHM 4130 Instrumental Analysis 3 Credits
Grading Scheme: Letter Grade
Concepts of instrumentation for chemical analysis. In-depth examination of spectrochemical and electrochemical methods and chemical separations.
Prerequisite: CHM 2211 or CHM 2213 or CHM 3217 and CHM 3120 and (MAC 2312 or MAC 2512 or MAC 3473) and (PHY 2053 or PHY 2048 or PHY 2060).
Corequisite: PHY 2054 or equivalent.

CHM 4130L Instrumental Analysis Laboratory 2 Credits
Grading Scheme: Letter Grade
Laboratory experiments designed to accompany CHM 4130.
Prerequisite: (CHM 2211 or CHM 2213 or CHM 3217) and CHM 3120 and CHM 3120L and (MAC 2312 or MAC 2512 or MAC 3473) and (PHY 2053 or PHY 2048 or PHY 2060).
Corequisite: CHM 4130

CHM 4143C Electronics and Instrumentation 3 Credits
Grading Scheme: Letter Grade
Principles of operation of instrumentation, optimization of instrumental conditions, and interpretation of instrumental data for qualitative and quantitative analysis. Application of electronic principles necessary to code for automated electronic measurements in chemical research.
Prerequisite: CHM 4130, or CHM 3400 and CHM 4413L or permission of instructor.

CHM 4230 Organic Spectroscopy 2 Credits
Grading Scheme: Letter Grade
Characterization and identification of organic compounds by spectral methods including IR, UV, NMR and mass spectrometry.
Prerequisite: CHM 2211 or CHM 2213 or CHM 3217

CHM 4272 The Organic Chemistry of Polymers 2 Credits
Grading Scheme: Letter Grade
Prerequisite: CHM 2200, CHM 2211, CHM 2213 and CHM 3217, or the equivalent.

CHM 4300L Laboratory in Biochemistry and Molecular Biology 2 Credits
Grading Scheme: Letter Grade
Introduces experimental techniques in biochemistry, especially those used in DNA isolation and manipulation, protein purification and enzyme kinetic studies.
Prerequisite: CHM 2211L and either CHM 3218, or CHM 2211 and BCH 4024.

CHM 4304 Chemical Aspects of Cellular Control 3 Credits
Grading Scheme: Letter Grade
Control of information, materials and energy within cellular systems. Examples taken from the biochemistry of plants, bacteria and higher organisms.
Prerequisite: (CHM 3218 or CHM 2211) and BCH 4024.

CHM 4308 Introduction to Enzyme Mechanism 3 Credits
Grading Scheme: Letter Grade
Principles of enzyme structure, isolation and purification and principles of the physical chemistry of enzyme/substrate interactions. Overview of concepts of biological catalysis, including transition state theory, descriptions and examples of mechanisms of biochemical catalysis, survey of co-factors, and catalytic antibodies, ribosome structure and catalysis.
Prerequisite: BCH 4024 or CHM 3218;
Corequisite: CHM 3400 or CHM 4411.

CHM 4411 Physical Chemistry: Thermodynamics and Kinetics 4 Credits
Grading Scheme: Letter Grade
Gas laws, kinetic theory, classical and statistical thermodynamics and applications to solutions, phase equilibria, chemical equilibria and electrochemistry.
Prerequisite: one year of general chemistry and one year of physics;
Corequisite: MAC 2313; background in analytical and organic chemistry recommended.

CHM 4411L Physical Chemistry Laboratory 2 Credits
Grading Scheme: Letter Grade
A series of laboratory experiments designed to accompany CHM 4411.
Prerequisite: CHM 3120L;
Corequisite: CHM 4411.

CHM 4412 Physical Chemistry: Chemical Bonding and Spectroscopy 4 Credits
Grading Scheme: Letter Grade
Introduces quantum theory, atomic and molecular structure, chemical bonding and spectra, chemical reaction rate laws and mechanisms, and statistical and collision theories of reaction rates.
Prerequisite: (CHM 2046 or CHM 2046C or CHM 2047 or CHM 2051 or CHM 2096) and (PHY 2049 or PHY 2054 or PHY 2061).
Corequisite: MAC 2313.

CHM 4413L Biophysical Chemistry Laboratory 2 Credits
Grading Scheme: Letter Grade
Laboratory experiments to demonstrate basic concepts of the physical chemistry of biological systems.
Prerequisite: CHM 2211L and CHM 3120L;
Corequisite: CHM 3400.

CHM 4611 Advanced Inorganic Chemistry 3 Credits
Grading Scheme: Letter Grade
Introduces advanced concepts of modern inorganic chemistry. Major themes include application of group theory to structure and bonding, molecular orbital treatment of reactivity, fundamental organometallic chemistry and introduces vibrational and electronic spectroscopy.
Prerequisite: CHM 3120 and CHM 3610;
Corequisite: CHM 4412.

CHM 4671 Bioinorganic Chemistry 3 Credits
Grading Scheme: Letter Grade
From an inorganic perspective, introduces the structure and function of a variety of metalloproteins and metalloenzymes, concentrating on systems containing transition metals. Emphasizes the role that metal ion(s) play in the function of the biomolecules.
Prerequisite: CHM 3610 and (CHM 3218 or BCH 4024).
CHM 4905 Individual Problems 1-3 Credits
Grading Scheme: Letter Grade
Double registration permitted. An assigned reading program or development of an assigned experimental problem. 
Prerequisite: permission of faculty member supervising the work.

CHM 4910 Undergraduate Research 0-3 Credits
Grading Scheme: Letter Grade
Laboratory or literature investigations of chemical problems of current interest.
Prerequisite: permission of faculty member supervising the work.

CHM 4930 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Special Topics

CHM 4940 Supervised Teaching 1-2 Credits
Grading Scheme: Letter Grade
Supervised teaching, usually at the general chemistry level. Required is a superior record at UF in the course in which the student will assist and evidence that the student’s own progress will not be delayed.
Prerequisite: instructor permission.

CHM 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade

IDH 3931 Interdisciplinary Junior Honors 1-3 Credits
Grading Scheme: Letter Grade
Special topics restricted to those in the university-wide honors program.
Attributes: Satisfies 6000 Words of Writing Requirement

ISC 2400L Cross-Disciplinary Laboratory 1-3 Credits
Grading Scheme: Letter Grade
First course in a two-semester inquiry-based laboratory focusing on major themes and concepts in biology, chemistry and physics with an emphasis on their integrated applications in modern, quantitative research. Satisfies course requirements for BSC 2010L, CHM 2045L and PHY 2053L.
Prerequisite: high school algebra or equivalent. Degree-seeking students only.

ISC 2401L Cross-Disciplinary Laboratory 2-3 Credits
Grading Scheme: Letter Grade
Second course in a two-semester inquiry-based laboratory focusing on major themes and concepts in biology, chemistry and physics with an emphasis on their integrated applications in modern, quantitative research. Satisfies course requirements for BSC 2011L, CHM 2046L and PHY 2054L.
Prerequisite: ISC 2400L and MAC 1147 or equivalent; 
Corequisite: BSC 2010 and CHM 2045 or CHM 2047 or CHM 2095.

ISC 3523C Research Methods 3 Credits
Grading Scheme: Letter Grade
The tools scientists use to solve scientific problems, including use of experiments to answer scientific questions, design of experiments to reduce systematic and random errors, use of statistics to interpret experimental results and deal with sampling errors, mathematical modeling of scientific phenomena and oral presentation of scientific work.
Prerequisite: UFTeach Step 1 and one year of college biology, chemistry or physics.

Chinese | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information
Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

Courses

**CHI 1130 Beginning Chinese 1** 3 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing. Materials are designed for learners with no prior exposure to the language. Those with native background or education for four years or more in a Chinese speaking country must take a placement test before enrolling in any Chinese language class.

**CHI 1131 Beginning Chinese 2** 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: CHI 1130 with minimum grade of C, or S, or the equivalent.

**CHI 2230 Intermediate Chinese 1** 5 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: CHI 1131 with minimum grade of C, or S, or the equivalent.

**CHI 2231 Intermediate Chinese 2** 5 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: CHI 2230 with minimum grade of C, or S, or the equivalent.

**CHI 2340 Chinese for Heritage Learners 1** 4 Credits
Grading Scheme: Letter Grade
For those with significant bilingual speaking and listening backgrounds. Emphasis is on recognition of the characters and writing, and pronunciation and speaking.

**CHI 2341 Chinese for Heritage Learners 2** 4 Credits
Grading Scheme: Letter Grade
To consolidate the foundation built in CHI 2341, to expand vocabulary and to introduce more complex grammatical structures. Emphasis is on reading and writing. Those who successfully complete CHI 2341 are eligible for CHI 3410.

**CHI 3403 Chinese Calligraphy 3 Credits**
Grading Scheme: Letter Grade
Introductory study of the origin, composition, development, variations and aesthetic styles of Chinese characters with laboratory sessions for appreciating and practicing calligraphic skills. (H and N)
Prerequisite: (CHI 2231 or JPN 2231) or CHI 3410 or JPN 3410 or CHI 3411 or JPN 3411 or CHW 4120 or CHW 4130 or CHW 4140 or JPW 4130 or JPW 4131) or instructor permission.
Attributes: General Education - Humanities, General Education - International

**CHI 3410 Advanced Chinese 1** 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures. (S and N)
Prerequisite: CHI 2231 with minimum grade of C, or S, or the equivalent.
Attributes: General Education - International, General Education - Social Science

**CHI 3411 Advanced Chinese 2** 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study of the four skills with attention to more complex structures. (S and N)
Prerequisite: CHI 3410 with minimum grade of C, or S, or the equivalent.
Attributes: General Education - International, General Education - Social Science

**CHI 3440 Business Chinese 3 Credits**
Grading Scheme: Letter Grade
Development of language skills and protocol issues used in Chinese business environments. Acquire vocabulary, phrases, and sentence patterns essential for business transactions and develop oral presentations, business cards, and resumes.
Prerequisite: completion of second-year Chinese required, or by permission.

**CHI 4050 Fourth Year Chinese 1** 3 Credits
Grading Scheme: Letter Grade
Introduces and analyzes the documentary prose style used in Chinese newspapers and media. By studying a variety of short texts students develop skill in listening, speaking, reading and writing about issues commonly encountered in Chinese newspaper editorials and in television news programs, debate roundtables, or TV documentaries.
Prerequisite: CHI 3411 or equivalent with a minimum grade of C.

**CHI 4051 Fourth Year Chinese 2** 3 Credits
Grading Scheme: Letter Grade
Solidifies and improves students’ knowledge of advanced Chinese through literature as a continuation of CHI 4050. Emphasizes formulating strategies to learn the difference between written language and spoken language and approaches meaningful writing with an eye toward careful examination of authentic writing samples.
Prerequisite: CHI 4050

**CHI 4850 Structure of Chinese 3 Credits**
Grading Scheme: Letter Grade
Introduction to phonological, grammatical and discourse structures of Mandarin Chinese, with an emphasis on its contrastive aspects with the English language. (S and N)
Prerequisite: CHI 1131 with minimum grade of C or LIN 3010, or instructor permission.
Attributes: General Education - International, General Education - Social Science

**CHI 4905 Individual Study 1-5 Credits**
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course. Includes all individual study courses offered by the Chinese section.

**CHI 4911 Undergraduate Research in Language or Linguistics 0-3 Credits**
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Language or Linguistics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Language or Linguistics.

**CHI 4930 Special Topics in Chinese Studies 3 Credits**
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in Chinese studies.

**CHI 4935 Senior Thesis 3 Credits**
Grading Scheme: Letter Grade
Select a Chinese faculty member to act as director for an independent research project that culminates in the preparation of an honors thesis.
Prerequisite: minimum 3.5 GPA and instructor permission.

**CHI 4940 Internship 1-6 Credits**
Grading Scheme: Letter Grade
Gain practical experience that enhances classroom learning.

**CHI 4956 Overseas Studies 1-18 Credits**
Grading Scheme: Letter Grade
CHT 3110 Chinese Literary Heritage 3 Credits
Grading Scheme: Letter Grade
Introduces pre-modern Chinese literature in translation. Topics chosen from classical poetry, short stories, novels and drama. Emphasis is on the interplay between orthodox values and the folk tradition. All readings in English. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

CHT 3123 Pre-Modern Chinese Fiction in Translation 3 Credits
Grading Scheme: Letter Grade
Pre-modern Chinese narrative from its philosophical and historical origins to the fiction at the turn of the 20th century. Emphasizes the 16th and 17th centuries when Chinese vernacular fiction flourished. (H and N)
Attributes: General Education - Humanities, General Education - International

CHT 3124 Modern Chinese Fiction in Translation 3 Credits
Grading Scheme: Letter Grade
A survey of modern Chinese fiction in translation. Samples are from the early 20th century through the contemporary era and include writers of the early Republic, the P.R.C. and Taiwan. Focus is on fiction as a vehicle for social change. All readings in English. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

CHT 3391 Chinese Film and Media 4 Credits
Grading Scheme: Letter Grade
Examination of Chinese cinema and other forms of media such as television, music and print culture in a broad sociopolitical and historical context. An interdisciplinary approach with a diversity of readings and multimedia tools incorporated into discussions.
Prerequisite: One ENG, CHI, CHT, or CHW course, or instructor permission.

CHT 3500 Chinese Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to Chinese culture with emphasis on its philosophy, language, society, art and people as a whole. All readings in English. (H and N)
Attributes: General Education - Humanities, General Education - International

CHT 3513 Taoism and Chinese Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to the general history and culture of Taoism in ancient and modern China: its thoughts, belief systems, cultural influences, practices and rituals.

CHT 3523 Hong Kong, Taiwan, and the New Global Cinema 4 Credits
Grading Scheme: Letter Grade
Overview of Sinophone film in Hong Kong, Taiwan, and the broader sphere of Chinese diaspora. Addresses film history, culture, and aesthetics.
Prerequisite: CHI 1130 or ENG 1400 or ENG 2300 or instructor permission.

CHT 4111 Dream of the Red Chamber 3 Credits
Grading Scheme: Letter Grade
Explores the intellectual and social life of traditional China through the 18th century epic novel, Story of the Stone. Also studies interpretive theories of the novel, both Chinese and Western. All readings are in English. (H and N OR S and N) (WR)
Prerequisite: CHI 3500 or CHT 3110, or instructor permission.
Attributes: General Education - Humanities, General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

CHT 4603 Journey to the West 3 Credits
Grading Scheme: Letter Grade
Exploration of traditional Chinese religious culture, cultural history and literacy expression through a 100 chapter novel known as Journey to the West, or Monkey.
Prerequisite: one course in Chinese culture or instructor permission.

CHT 4911 Undergraduate Research in English Translation 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in English Translation. Projects may involve inquiry, design, investigation, scholarship, discovery or application in English Translation.

CHW 4120 Classical Chinese 1 3 Credits
Grading Scheme: Letter Grade
Introduction to classical Chinese prose with texts drawn mainly from early histories and philosophical writings (500 BC - AD 100). Emphasis on reading comprehension, grammar analysis and translation.
Prerequisite: CHI 2231 with minimum grade of C or instructor permission.

CHW 4121 Classical Chinese 2 3 Credits
Grading Scheme: Letter Grade
Continuation of CHW 4120 focusing on classical Chinese prose with texts drawn from early historical and philosophical texts to belles lettres of the medieval era and later periods. Emphasis on reading comprehension, grammar analysis and translation.
Prerequisite: CHW 4120 or instructor permission.

CHW 4130 Readings in Chinese Literature 3 Credits
Grading Scheme: Letter Grade
Introduces advanced language students to a sampling of Chinese writers. Materials chosen from classic or modern/contemporary Chinese literature rotated across semesters. All readings in Chinese. (H and N)
Prerequisite: CHI 3410 or the equivalent.
Attributes: General Education - Humanities, General Education - International

CHW 4140 Newspaper Chinese 3 Credits
Grading Scheme: Letter Grade
Development of ability to understand and translate the documentary prose style used in Chinese newspapers and academic journals. Introduces literary function words and grammar structures, with comparison to the vernacular. Most readings in the simplified character form used in the PRC; all readings in Chinese. Applications for research on modern China.
Prerequisite: CHI 3410 or instructor permission.

CHW 4911 Undergraduate Research in Target Language 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery or application.

Civil and Coastal Engineering
Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information
Website (https://www.essie.ufl.edu/civil-coastal-engineering/)
Curriculum

- Civil Engineering
- Combination Degrees

Courses

CCE 4015 Civil Engineering Estimating 3 Credits
Grading Scheme: Letter Grade
Prerequisite: CCE 4204 and engineering major of junior standing or higher.

CCE 4204 Construction Equipment, Methods and Management 3 Credits
Grading Scheme: Letter Grade
Theory and practice of construction operations, equipment utilization and construction methods. Analysis of costs. Optimizing crew and equipment. Heavy equipment costs. New emphasis on planning and executing a construction project.
Prerequisite: junior standing or higher or instructor permission.
Corequisite: CGN 4101.

CCE 4811 Construction Engineering Design 3 Credits
Grading Scheme: Letter Grade
Simulation of comprehensive construction project involving all phases of planning, scheduling and control from start to finish, which involves making major decisions. Oral presentation at the end of course.
Prerequisite: CGN 4160 and (CGN 4101 or EIN 3354).

CEG 4011 Soil Mechanics 4 Credits
Grading Scheme: Letter Grade
Physical properties of soils, compaction, flow of water through soil, distribution of stress within soil and consolidation. Laboratory.
Prerequisite: EGM 3520.

CEG 4012 Geotechnical Engineering 3 Credits
Grading Scheme: Letter Grade
Subsurface exploration settlements analysis, slope stability, earth pressure and an introduction to foundation design.
Prerequisite: CEG 4011.

CEG 4104 Retaining Wall and Embankment Design 3 Credits
Grading Scheme: Letter Grade
The application of soil mechanics to the design and analysis of various types of retaining structures and earthen embankments.
Prerequisite: CEG 4012.

CEG 4111 Foundation Engineering Design 3 Credits
Grading Scheme: Letter Grade
Comprehensive design of geotechnical system, focusing on design of complete project and utilizing CAD programs. Designs, drawings and oral presentations through group effort.
Prerequisite: CEG 4012.

CES 4102 Mechanics of Engineering Structures 4 Credits
Grading Scheme: Letter Grade
Introduces structural load, equilibrium, shear and bending moment diagrams, structural analysis software, classical methods for displacement determination, method of consistent deformations, slope deflection method, moment distribution method.
Prerequisite: EGM 3520.

CES 4141 Matrix Structural Analysis 3 Credits
Grading Scheme: Letter Grade
Determining structural loads, solving matrix equations, direct stiffness method, formulation of element matrices, transformations, modeling realistic frame and truss systems, introduces the finite element method, determining convergence, interpretation of results, model validation.
Prerequisite: (CES 3102 and CGN 3421 and Engineering major) or instructor permission.

CES 4605 Analysis and Design in Steel 3 Credits
Grading Scheme: Letter Grade
Elastic and plastic theories of design, design of members subjected to tension, compression, flexure and torsion. Design of connections and rigid frames.
Prerequisite: CES 3102 and CGN 3501C and Engineering major.

CES 4608 Advanced Steel Design 3 Credits
Grading Scheme: Letter Grade
Advanced topics in the design of steel structural building systems, advanced column and beam design, base plate design, moment amplification, second-order analysis, bracing considerations, beam-columns, interaction equations, connection design, composite design, plate girders.
Prerequisite: CES 4605 and Engineering major.

CES 4702 Analysis and Design in Reinforced Concrete 3 Credits
Grading Scheme: Letter Grade
Ultimate strength analysis and design of reinforced beams and columns, working stress design for flexure, design of footings and retaining walls.
Prerequisite: CES 3102 and CGN 3501C and Engineering major.

CES 4704 Advanced Reinforced Concrete Design 3 Credits
Grading Scheme: Letter Grade
Advanced topics in the design of concrete building systems. Long columns and frames, floor and roof systems, including two-way slabs, continuous beams, spandrel beams, torsion, foundations, introduces prestressed concrete.
Prerequisite: CES 4702 and Engineering major.

CGN 2002 Introduction to Civil Engineering 1 Credit
Grading Scheme: Letter Grade
Introduces the broad field of civil engineering.

CGN 3421 Computer Methods in Civil Engineering 3 Credits
Grading Scheme: Letter Grade
Review of computer programming. Numerical methods as applied to civil engineering problems and civil engineering software.
Prerequisite: COP 2271

CGN 3501C Civil Engineering Materials 4 Credits
Grading Scheme: Letter Grade
Studies the principal materials used for engineering purposes with special attention to mechanical properties and their importance to the engineer. Hands-on experience in testing of civil engineering materials.
Corequisite: EGM 3520.

CGN 3510 Introduction to Sustainable Engineering 3 Credits
Grading Scheme: Letter Grade
Overview of the principles of sustainability as they relate to civil and environmental engineering issues. Discussions and projects facilitate a basic understanding of the production-consumption model and life cycle assessment.
Prerequisite: Engineering major.
CGN 3710 Experimentation and Instrumentation in Civil Engineering 3 Credits
Grading Scheme: Letter Grade
Fundamentals and applications of measuring systems commonly used in civil engineering. Topics include recording techniques, strain, force, displacement, flow, temperature, humidity and PH measurements.
Prerequisite: PHY 2049.

CGN 4101 Civil Engineering Cost Analysis 3 Credits
Grading Scheme: Letter Grade
Prerequisite: 3EG classification or instructor permission.

CGN 4160 Civil Engineering Practice 3 Credits
Grading Scheme: Letter Grade
Fundamentals of civil engineering professional practice: project management, construction delivery processes, business concepts, public policy, administration and leadership.
Prerequisite: EGM 2511 or equivalent.
Corequisite: CGN 2328.

CGN 4503 Pavement Design 3 Credits
Grading Scheme: Letter Grade
Function and material requirements of different elements of flexible and rigid pavement systems; characterization of soils, materials, traffic loads, and environment for design; flexible and rigid pavement design; new developments.
Prerequisite: CGN 3501C.

CGN 4600 Public Works Engineering and Management Practices 3 Credits
Grading Scheme: Letter Grade
Public works profession, organization, administration and management of operating divisions with emphasis on role of engineer.

CGN 4806 Transportation-Water-Materials Design 3 Credits
Grading Scheme: Letter Grade
Simulation of a design project experience through the completion and presentation of a comprehensive roadway project design. Students work in multi-disciplinary groups to complete a system design that includes traffic, materials, hydrologic and geotechnical considerations.
Prerequisite: senior standing.

CGN 4905 Special Problems in Civil Engineering 1-4 Credits
Grading Scheme: Letter Grade
Selected problems or projects in the student's major field of engineering study.
Prerequisite: undergraduate coordinator permission.

CGN 4910 Structures-Geotechnical-Construction Comprehensive System Design 3 Credits
Grading Scheme: Letter Grade
Simulation of a design office experience through the completion and presentation of a comprehensive building design. Students work in multi-disciplinary groups to complete a system design that includes structural, geotechnical and construction management considerations.
Prerequisite: instructor permission.

CGN 4949 Co-op Work Experience 1 Credit
Grading Scheme: S/U
Co-op work experience in a related field.
Prerequisite: Engineering major.

CWR 3201 Hydrodynamics 4 Credits
Grading Scheme: Letter Grade
Classification and properties of fluids, hydrostatics, and conservation of mass, momentum and energy in fluid flow. Potential flow, similitude and physical modeling. Laminar and turbulent pipe flow. Introduces turbomachines.
Prerequisite: EGM 3400 and MAP 2302.

CWR 4114 Surface Hydrology 3 Credits
Grading Scheme: Letter Grade
Occurrence and distribution of water by natural processes, including atmospheric thermodynamics, precipitation, runoff, infiltration, water losses, flood routing and catchment characteristics, analysis and methods of runoff prediction.
Prerequisite: CWR 4202.

CWR 4120 Groundwater 3 Credits
Grading Scheme: Letter Grade
Introduces groundwater hydraulics, including hydrologic cycle, Darcy's equation, Dupuit assumption, well hydraulics, regional flow, freshwater-saltwater interface, flow in the unsaturated zone, fate and transport of contaminants and contaminant plume model.
Prerequisite: CWR 4202.

CWR 4202 Hydraulics 3 Credits
Grading Scheme: Letter Grade
Fundamental equations for pipe and open conduit flow. Development of design oriented formulas for pipes and open channels. Introduces hydrology.
Prerequisite: CWR 3201 or instructor permission.

CWR 4306 Urban Stormwater Systems Design 3 Credits
Grading Scheme: Letter Grade
Surface-water system design including: time of concentration, peak runoff rate, open-channel flow, gravity storm sewer, culvert, stormwater pumping, filtration systems, hydrograph generation, flood routing, site layout, site grading and permitting.
Corequisite: CWR 4202.

CWR 4542 Water Resources Engineering 3 Credits
Grading Scheme: Letter Grade
Study of water resources engineering applications including hydrology and statistics, groundwater, hydraulic machinery, dams and reservoirs, water quality, water quality modeling, water and waste-water treatment and water law and institutions.
Prerequisite: CWR 4202.

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

EGS 1005 Prep for Success 1-4 Credits
Grading Scheme: S/U
Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)
Prerequisite: EG student.

ENV 4514C Water and Wastewater Treatment 3 Credits
Grading Scheme: Letter Grade
Design of water and wastewater treatment units.
OCE 3016 Introduction to Coastal and Oceanographic Engineering 3 Credits
Grading Scheme: Letter Grade
Introduces important coastal and oceanographic processes. Geophysical fluid motions; waves and tides; air-sea interaction; pollutant transport; coastal hydraulic and sedimentary processes. Not intended for engineering majors.

TTE 4004C Transportation Engineering 4 Credits
Grading Scheme: Letter Grade
Overview of the significance of highway transportation to the social and economic underpinnings of society. Introduces road vehicle performance, geometric design of highways, traffic flow and queuing theory, highway capacity and level of service analysis, traffic control and analysis at signalized intersections, and travel demand and traffic forecasting. Prerequisite: 3EG classification.

TTE 4106 Urban Transportation Planning 3 Credits
Grading Scheme: Letter Grade
Overview of the four-step urban transportation planning process; includes analytical techniques for estimating future travel demand and state-of-the-art approaches. Prerequisite: TTE 4004C.

TTE 4201 Traffic Engineering 3 Credits
Grading Scheme: Letter Grade
General review of the fundamentals of traffic engineering with emphasis on field studies and data analysis. Prerequisite: TTE 4004C.

TTE 4203 Highway Capacity Analysis 3 Credits
Grading Scheme: Letter Grade
Provide students with detailed instruction on the procedures defined within the 2010 Highway Capacity Manual (HCM), including analytical chapters for uninterrupted and interrupted flow. Prerequisite: TTE 4004C.

TTE 4300 Transportation Systems Analysis 3 Credits
Grading Scheme: Letter Grade
Systems analysis in transportation planning and engineering, including supply, demand, equilibrium, evaluation and decision analysis. Prerequisite: TTE 4004C.

TTE 4824 Transportation Facility Design 3 Credits
Grading Scheme: Letter Grade
Simulates a comprehensive design of a transportation facility, specifically an arterial-freeway interchange. Utilizes state and national-level design manuals in preparation of standard plans. Applies the theoretical background gained in supporting classes, in areas such as traffic analysis, roadway design, roadway drainage and pavement design. Some review of this material is provided, as well as introduction of several new concepts. Emphasizes teamwork skills and technical communication skills. Prerequisite: SUR 4201 and TTE 4004C.

Classics

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

The Department of Classics offers an interdisciplinary Classical Studies major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek. The department also offers minors in Classical Studies and Greek Studies. Website (http://classics.ufl.edu/)

Courses

CLA 2100 The Glory That Was Greece 3 Credits
Grading Scheme: Letter Grade
A broad cultural view of the classical Greek world. Greek sources are read in translation. (H and N) Attributes: General Education - Humanities, General Education - International

CLA 2120 The Grandeur That Was Rome 3 Credits
Grading Scheme: Letter Grade
Provides a multi-faceted introduction to the culture of Rome. Primary source material is read in translation. (H and N) Attributes: General Education - Humanities, General Education - International

CLA 2521 Classical Antiquity and Sustainability 3 Credits
Grading Scheme: Letter Grade
Examines classical antiquity, applying methods and theories of sustainability to explore the impact of the ancient Greeks and Romans on their environment and focusing on the distribution of wealth, social stratification, land use and classical representations of the natural world. (H) Attributes: General Education - Humanities

CLA 3111 Athens in Topography and Monuments 3 Credits
Grading Scheme: Letter Grade
Explores the topography and monuments of ancient Athens to understand social, historical, economic and religious institutions. Attributes: General Education - Humanities, General Education - International

CLA 3114 Greece Today and Yesterday 3 Credits
Grading Scheme: Letter Grade
An interdisciplinary course examining various aspects of ancient and modern Greek life and culture. (H and N) (WR) Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement
CLA 3151 Pompeii: An Archaeological Laboratory 3 Credits
Grading Scheme: Letter Grade
Studies the material remains of a Roman town through an examination of the excavated finds: architecture, wall-paintings and inscriptions. (H and N)
Attributes: General Education - Humanities, General Education - International

CLA 3160 Ancient Egypt 3 Credits
Grading Scheme: Letter Grade
Studies the civilization, culture and monuments of ancient Egypt from prehistoric times to the New Kingdom and Late period. (H and N)
Attributes: General Education - Humanities, General Education - International

CLA 3161 Introduction to Hieroglyphics 3 Credits
Grading Scheme: Letter Grade
A beginner's course in Egyptian hieroglyphics of the Middle Kingdom. Also designed for students with no former instruction in ancient languages.
Prerequisite: CLA 3160.

CLA 3433 The Athenian Democracy 3 Credits
Grading Scheme: Letter Grade
Studies ancient Athens from c.650-322 BCE, with attention to the political, social and cultural institutions of the democracy, drawing on primary sources and modern theory to explain democratic changes from the archaic to the classical period. (H)
Attributes: General Education - Humanities

CLA 3434 Classical Greece 3 Credits
Grading Scheme: Letter Grade
Studies the social, political and cultural developments of classical Greece from the Persian Wars to the death of Alexander (500-322 BCE). (H)
Attributes: General Education - Humanities

CLA 3500 Sport and Recreation in the Ancient World 3 Credits
Grading Scheme: Letter Grade
Examines literary and archaeological sources to determine the social, economic, political and cultural importance of games in the ancient Mediterranean world from the time of Homer to the fall of the Roman Empire.
Prerequisite: sophomore standing or higher.

CLA 3504 Gender and Sexuality in Classical Antiquity 3 Credits
Grading Scheme: Letter Grade
Explores perceptions of the masculine and feminine in Ancient Greece and Rome, discussing these stereotypes in their political, social, economic and cultural contexts. (H)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

CLA 3700 Classical Archaeology 3 Credits
Grading Scheme: Letter Grade
Illustrated lectures on archaeology, its process of discovery and methods. History of major archaeological exploration in Mediterranean lands compared with extant literary information. (H and N)
Attributes: General Education - Humanities, General Education - International

CLA 3791 The Ancient City: Greek Cities 3 Credits
Grading Scheme: Letter Grade
Development of the cities of classical Greece from Minoan centers through Byzantium. All aspects of city life are covered: design, building techniques, culture and ideas. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

CLA 3793 The Ancient City: Roman Cities 3 Credits
Grading Scheme: Letter Grade
Studies the cities of the Roman Empire from the founding of Rome to the establishment of Constantinople as the Eastern capital. Emphasis on life in imperial Rome and in European and North African cities. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International

CLA 3930 Special Topics in Classical Civilization 3 Credits
Grading Scheme: Letter Grade
Examines various aspects of Greek and Roman culture based on the ancient sources, literary and archaeological. (H and N)
Attributes: General Education - Humanities, General Education - International

CLA 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
Reading, conference and reports. All work in will be in translation.
Prerequisite: instructor permission.

CLA 4911 Undergraduate Research in Classical Civilization 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Classical Civilization. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Classical Civilization.

CLA 4931 Classics Capstone Seminar 3 Credits
Grading Scheme: Letter Grade
Introduces scholarly literature on a significant topic in classics. Students will write a research paper showing proper use of primary and secondary sources on the topic.
Prerequisite: classics major with at least 18 credits of CLA and/or CLT courses and at least 8 credits of Latin or Ancient Greek.

CLA 4956 Overseas Studies 1 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

CLT 2044 English Vocabulary from Greek and Latin 3 Credits
Grading Scheme: Letter Grade
Historical study of the origins, development and lexicography of English vocabulary with emphasis on elements derived from Greek and Latin. (H)
Attributes: General Education - Humanities

CLT 3123 Survey of Roman Literature 3 Credits
Grading Scheme: Letter Grade
Critical study of the development of Roman literature. Includes readings from Plautus, Cicero, Catullus, Vergil, Ovid and Tacitus, read in translation. (H and N)
Attributes: General Education - Humanities, General Education - International
CLT 3291 Greek Drama 3 Credits
Grading Scheme: Letter Grade
The classical Greek theater, archaeological remains of important theaters and selected plays of Aeschylus, Sophocles, Euripides, Aristophanes and Menander. All works are read in translation. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

CLT 3340 Ancient Greek and Roman Epic 3 Credits
Grading Scheme: Letter Grade
Examines the origin and development of the ancient Greek and Roman epic traditions in the political and social context of the Mediterranean region and Near East from the first millennium BCE through the first century CE. (H)
Attributes: General Education - Humanities

CLT 3370 Myths of the Greeks and Romans 3 Credits
Grading Scheme: Letter Grade
Development, importance and influence of Graeco-Roman mythology. The main Greek and Latin literary sources are read in translation. (H and N)
Attributes: General Education - Humanities, General Education - International

CLT 3371 Religions of the Graeco-Roman World 3 Credits
Grading Scheme: Letter Grade
Development, importance and influence of Greek and Roman religion and cult practice. The main literary and epigraphical sources are read in translation. (H and N)
Attributes: General Education - Humanities, General Education - International

CLT 3421 Classics and Science Fiction 3 Credits
Grading Scheme: Letter Grade
Studies science fiction's origins in Greek and Roman texts to investigate the influence of Greco-Roman literature on modern works of science fiction.
Prerequisite: CLA 2100 or CLA 2120 or CLT 2044.

CLT 3510 Ancient World in Film 4 Credits
Grading Scheme: Letter Grade
Examines film and television characterizations of the ancient world and how these accord with the facts as we know them through historical and archaeological evidence. Viewing of selected movies along with background readings, lectures and discussion. (H)
Attributes: General Education - Humanities

CLT 3531 Legendary Rome 3 Credits
Grading Scheme: Letter Grade
The myths and history associated with Rome's early foundation stories and examination of works of literature about Rome's foundation in their political, social and cultural contexts.

CLT 3930 Special Topics in Classical Literature 3 Credits
Grading Scheme: Letter Grade
Examines various aspects of Greek and Roman literature with focus on special genres (e.g., historiography), periods (e.g., the age of Augustus) or subjects (e.g., slavery). (H)
Attributes: General Education - Humanities

CLT 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
Reading, conference and reports. All works are read in translation.
Prerequisite: instructor permission.

GMT 3223 Lovers in the Greek Novel 3 Credits
Grading Scheme: Letter Grade
Examines Ancient Greek and Byzantine novels that feature the adventures of virtuous young lovers as they handle with sophistication issues of ethnicity and identity, as well as political and social concerns.
Prerequisite: sophomore standing or higher.

GMT 3513 Greece in the European Context in the 20th Century 3 Credits
Grading Scheme: Letter Grade
Overview of Greek politics, society and culture in the 20th century.

GMT 4110 The Literature of Byzantium 3 Credits
Grading Scheme: Letter Grade
Overview of major genres of Byzantine literature (Patristic literature, oratory, historiography, chronicle, hagiography, hymnography, epic poetry) from the years CE 330-1453. (H) (WR)
Prerequisite: instructor permission.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

GMT 4911 Undergraduate Research in Modern Greek Language and Literature 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

GRE 1120 Beginning Ancient Greek 1 4 Credits
Grading Scheme: Letter Grade
The basics of ancient Greek grammar, morphology, syntax and vocabulary.

GRE 1121 Beginning Ancient Greek 2 4 Credits
Grading Scheme: Letter Grade
The basics of ancient Greek grammar, morphology, syntax and translation, with special attention to irregular verbs.
Prerequisite: GRE 1120 or GRE 1130.

GRE 1130 Accelerated Beginning Ancient Greek 1 5 Credits
Grading Scheme: Letter Grade
This course and its sequel, GRE 1131, constitute the basic sequence for development of overall skill in the language.

GRE 1131 Accelerated Beginning Ancient Greek 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the basic sequence for development of overall skill in the language.
Prerequisite: GRE 1130 or the equivalent.

GRK 1130 Beginning Modern Greek 1 5 Credits
Grading Scheme: Letter Grade
This course and its sequel, GRK 1131, constitute the basic sequence for development of overall skill in the language.

GRK 1131 Beginning Modern Greek 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the basic sequence for development of overall skill in the language.
Prerequisite: GRK 1130 or the equivalent.

GRK 2200 Intermediate Modern Greek 1 3 Credits
Grading Scheme: Letter Grade
Readings in modern Greek literature, history and culture. (H and N)
Prerequisite: GRK 1131 or the equivalent.
Attributes: General Education - Humanities, General Education - International
GRK 2201 Intermediate Modern Greek 2 3 Credits
Grading Scheme: Letter Grade
Additional readings in modern Greek literature, history and culture. (H and N)
Prerequisite: GRK 2200 or the equivalent.
Attributes: General Education - Humanities, General Education - International

GRK 4300 Modern Greek Literature Since 1830 3 Credits
Grading Scheme: Letter Grade
Advanced study of representative modern Greek prose, poetry and drama in the original from independence (1830) to the present. The course combines the study of the modern Greek language with readings, analysis and discussion of major literary works.
Prerequisite: GRK 2201 or the equivalent.

GRK 4905 Individual Work in Modern Greek 1-4 Credits
Grading Scheme: Letter Grade
For advanced students who seek independent work not offered in another course. Must be arranged individually with Greek faculty.
Prerequisite: GRK 1131.

GRW 2211 Intermediate Greek Prose 3 Credits
Grading Scheme: Letter Grade
Readings selected from Attic Greek prose authors designed to aid students in the transition from grammar to connected prose passages.
Prerequisite: GRE 1121 or GRE 1131 or the equivalent.

GRW 2240 New Testament Greek 3 Credits
Grading Scheme: Letter Grade
Reviews grammar and forms. Readings from several books of the New Testament. (H and N)
Prerequisite: some knowledge of Greek and instructor permission.
Attributes: General Education - Humanities, General Education - International

GRW 3102 Survey of Greek Literature 2 3 Credits
Grading Scheme: Letter Grade
Studies representative texts from various periods of Greek literature. (H and N)
Attributes: General Education - Humanities, General Education - International

GRW 3301 Greek Drama 3 Credits
Grading Scheme: Letter Grade
Selected plays of Aeschylus, Sophocles or Euripides.
Prerequisite: one 2000-level Greek course or the equivalent.

GRW 3501 Plato 3 Credits
Grading Scheme: Letter Grade
Studies Plato's Meno and Apology. (H and N)
Prerequisite: GRE 1131 or the equivalent.
Attributes: General Education - Humanities, General Education - International

GRW 4330 Greek Lyric Poetry 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of Greek lyric poetry, from Archilochus to Bacchylides. (H and N)
Prerequisite: two 3000-level Greek courses or the equivalent.
Attributes: General Education - Humanities, General Education - International

GRW 4340 Homer and Greek Epic 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of selections from Homer's Iliad and Odyssey. (H and N)
Prerequisite: two 3000-level Greek courses or the equivalent.
Attributes: General Education - Humanities, General Education - International

GRW 4380 Greek Historians 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of selections of Herodotus, Thucydides, Xenophon and Plutarch. (H and N)
Prerequisite: two 3000-level Greek courses or the equivalent.
Attributes: General Education - Humanities, General Education - International

GRW 4700 Greek Orators 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of selections from Lysias, Demosthenes and Isocrates. (H and N)
Prerequisite: two 3000-level Greek courses or the equivalent.
Attributes: General Education - Humanities, General Education - International

GRW 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
Reading, conference and reports.
Prerequisite: GRE 1131 or the equivalent.

GRW 4911 Undergraduate Research in Greek Language and Literature 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

GRW 4930 Studies in Greek Literature 3 Credits
Grading Scheme: Letter Grade
Advanced study of a particular author, genre, period or subject.
Prerequisite: one 3000-level course in ancient Greek.

LAT 1101 Beginning Latin 2 3 Credits
Grading Scheme: Letter Grade
The second part of the sequence for those with little or no background in Latin.
Prerequisite: LAT 1100 with minimum grade of C or S, or the equivalent.

LAT 1104 Beginning Latin 3 3 Credits
Grading Scheme: Letter Grade
The third part of the sequence for students with little background in high-school Latin.
Prerequisite: LAT 1101 with minimum grade of C or S, or the equivalent.

LAT 1120 Beginning Latin 1 4 Credits
Grading Scheme: Letter Grade
The first of a 3-semester sequence for students with little or no background in Latin. Others enrolling in the course will be required to take it for an S-U grade.

LAT 1130 Accelerated Beginning Latin 1 5 Credits
Grading Scheme: Letter Grade
This course and its sequel, LAT 1131, constitute the basic sequence for development of overall skill in the language. Students are expected to have little or no background in Latin. Others enrolling in the course will be required to take it for an S-U grade.
LAT 1131 Accelerated Beginning Latin 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the basic sequence for development of overall skill in the language.
Prerequisite: LAT 1130 with minimum grade of C, or S, or the equivalent.

LIT 2000 Introduction to Literature 3 Credits
Grading Scheme: Letter Grade
Examines the important role literature has played in individuals' lives and in society, presenting a range of literary styles and genres, from different countries and historical periods. Special attention paid to development of critical skills of analysis and interpretation. (H)
Prerequisite: ENC 1101
Attributes: General Education - Humanities

LNW 2321 Introduction to Vergil 3 Credits
Grading Scheme: Letter Grade
Readings in Vergil's Eclogues, Georgics and/or the Aeneid, with emphasis on introducing Vergilian style, diction poetic techniques and basic genre differences. Review of Latin grammar and syntax. (H)
Prerequisite: LAT 1104 or LAT 1131 or two years of high school Latin.
Attributes: General Education - Humanities

LNW 2560 Readings in Latin Literature 3 Credits
Grading Scheme: Letter Grade
Examines various aspects of Roman life through readings in Latin literature (with a focus on either special subjects, authors, genres or periods) and a review of Latin grammar. (H)
Prerequisite: LAT 1104 or LAT 1131 or two years of high school Latin or instructor permission.
Attributes: General Education - Humanities

LNW 2630 Latin Love Poetry 3 Credits
Grading Scheme: Letter Grade
Translation and interpretation of selected poems of Catullus and a thorough review of Latin grammar. (H and N)
Prerequisite: LAT 1104 or LAT 1131 or two years of high school Latin, or instructor permission.
Attributes: General Education - Humanities, General Education - International

LNW 3220 The Ancient Novel 3 Credits
Grading Scheme: Letter Grade
Readings from Medieval Latin 350 - 1200 A.D. (H and N)
Prerequisite: LAT 1130 with minimum grade of C, or S, or the equivalent.

LNW 3300 Roman Drama 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of the comedies of Plautus and Terence or the tragedies of Seneca. (H)
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.
Attributes: General Education - Humanities, General Education - International

LNW 3310 Roman Satire 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of the Roman satirists Horace, Juvenal or Martial. (H and N)
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.
Attributes: General Education - Humanities, General Education - International

LNW 3316 The Roman Historians 3 Credits
Grading Scheme: Letter Grade
Readings in Latin from one of the Roman historians: Sallust, Caesar, Livy or Tacitus. (H and N)
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.
Attributes: General Education - Humanities, General Education - International

LNW 3360 Roman Satire 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of the Roman satirists Horace, Persius, Juvenal or Martial. (H and N)
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.
Attributes: General Education - Humanities, General Education - International

LNW 3644 Cicero 3 Credits
Grading Scheme: Letter Grade
Essays, speeches and letters of Cicero. (H and N)
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.
Attributes: General Education - Humanities, General Education - International

LNW 3660 Vergil and Roman Epic 3 Credits
Grading Scheme: Letter Grade
Translation and analysis of selections from Vergil's Aeneid in the light of his epic techniques and the spirit of the Augustan Age. (H and N)
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.
Attributes: General Education - Humanities, General Education - International

LNW 3930 Studies in Latin Literature 3 Credits
Grading Scheme: Letter Grade
A rotating topics course providing in-depth study of a particular author (e.g., Suetonius), genre (e.g., didactic poetry) or period (e.g., The Silver Age).
Prerequisite: one 2000-level Latin course, advanced placement or equivalent high school study.

LNW 3990 Undergraduate Research in Latin Language and Literature 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.
Clinical and Health Psychology

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

CLP 2001 Personal Growth 3 Credits
Grading Scheme: Letter Grade
Introduces the concepts and techniques in psychology that apply to personal growth and development. All students have the opportunity to participate in research projects or alternative experiences. (S)
Attributes: General Education - Social Science

CLP 3144 Abnormal Psychology 3 Credits
Grading Scheme: Letter Grade
The varieties of disordered experience and conduct, and their contribution to an understanding of more effective personal and social adjustment. Includes the neuroses, psychoses and psychosomatic and conduct disturbances. (S)
Prerequisite: PSY 2012.
Attributes: General Education - Social Science

CLP 3911 Introduction to Clinical Research 1-3 Credits
Grading Scheme: S/U
Hands-on, faculty-supervised research experience in an area of interest to the student. Introduces current research techniques, including the design and development of clinical research projects and data analysis. Three hours of laboratory work or other research activity (e.g., literature searches, grant preparation, recruitment of study participants, etc.) are required for each semester credit. (S-U)

CLP 4110 Eating Disorders 3 Credits
Grading Scheme: Letter Grade
Overview of the causes and treatments associated with the full range of recognized eating disorders, including anorexia, bulimia and binge eating disorder, as well as a variety of subclinical forms of problematic eating behaviors and their surrounding factors and issues.
Prerequisite: PSY 2012.

CLP 4134 Introduction to Clinical Child/Pediatric Psychology 3 Credits
Grading Scheme: Letter Grade
Survey and exploration of the science and practice of clinical child/pediatric psychology, including application of clinical science to problems faced by children and their families. Course also emphasizes assessment and intervention methodologies related to child behavior and health.
Prerequisite: PSY 2012 and CLP 3144, and STA 2023.

CLP 4160 Advanced Abnormal Psychology 3 Credits
Grading Scheme: Letter Grade
Detailed coverage of the origins, treatments and controversies associated with select forms of emotional distress or mental illness. Includes theoretical and empirical contributions to understanding select mood disorders, anxiety disorders, substance disorders, and psychotic disorders, among others.
Prerequisite: PSY 2012 and CLP 3144.

CLP 4302 Introduction to Clinical Psychology 3 Credits
Grading Scheme: Letter Grade
Survey and exploration of contemporary roles of clinical psychologists. Course also emphasizes the integration of science and practice when solving problems of individuals, families and groups.
Prerequisite: PSY 2012 and CLP 3144 and STA 2023 and (communication sciences and disorders or health science majors or health science minor).

CLP 4314 Introduction to Health Psychology 3 Credits
Grading Scheme: Letter Grade
Survey and exploration of the science and practice of clinical health psychology. Course also emphasizes application of the biopsychosocial model of health and illness to health promotion, disease prevention and the treatment and rehabilitation of existing illness and disability.
Prerequisite: PSY 2012 and CLP 3144 and (three additional credits in psychology or health science or statistics) and (communication sciences and disorders or health science majors or health science minor).

CLP 4420 Introduction to Neuropsychology 3 Credits
Grading Scheme: Letter Grade
Survey and exploration of the science and practice of clinical neuropsychology. Course also emphasizes discussion of major neuropsychological disorders and the mechanisms underlying higher cognitive function.
Prerequisite: PSY 2012 and CLP 3144 and (three additional credits in psychology or health science or statistics).

Computer & Information Science & Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

The mission of the Department of Computer & Information Science & Engineering is to educate students, as well as the broader campus community, in the fundamental concepts of the computing discipline; to create and disseminate computing knowledge and technology; and to use expertise in computing to help society solve problems.

Curriculum
- Combination Degrees
- Computer and Information Science and Engineering Minor
- Computer Science UF Online
- Computer Science | CLAS
• Computer Science | Herbert Wertheim College of Engineering
• Digital Arts and Sciences | Bachelor of Science

Bachelor's degree programs are currently available through the College of Liberal Arts and Sciences and the Herbert Wertheim College of Engineering. A minor in computer and information science, master's degree programs and a Ph.D. program also are available.

There are strict limitations on the use of CGS and survey courses in the programs offered by the department.

College of Engineering degree program in computer engineering: Refer to the Herbert Wertheim College of Engineering section of the catalog for degree requirements; this program is offered by the CISE department.

The Herbert Wertheim College of Engineering offers two degrees in computer engineering: the CEN degree (computer engineering: software option) is offered by the CISE department and the CEE degree (computer engineering: hardware option) is offered by the ECE department.

The college also offers a computer science degree program through the CISE department.

College of Liberal Arts and Sciences degree program in computer science: refer to the College of Liberal Arts and Sciences section of the catalog for degree requirements.

Courses

CAP 3220 Introduction to Computer-Aided Modeling 3 Credits
Grading Scheme: Letter Grade
Prerequisite: MAC 1147 or equivalent.

CAP 4053 Artificial Intelligence for Computer Games 3 Credits
Grading Scheme: Letter Grade
Examines the use of A.I. in computer games. Topics include general A.I. knowledge, path finding, movement, tactics and planning, strategy, state machines, learning, dialogue, and emotions.
Prerequisite: COP 3530.

CAP 4621 Artificial Intelligence and Heuristics 3 Credits
Grading Scheme: Letter Grade
Introduces artificial intelligence concepts. Heuristic search, clause form logic, knowledge representation, reasoning and inference, overview of computer vision, planning, natural language, Lisp and Prolog. (M)
Prerequisite: COP 3530.

CAP 4680 Knowledge-Based System: Theory and Practice 3 Credits
Grading Scheme: Letter Grade
Concepts, theory and various applications for knowledge-based (expert) systems, reasoning schemes, knowledge representation, knowledge-based system tools, building knowledge bases, knowledge acquisition, reasoning under certainty and inexact reasoning.
Prerequisite: COP 3530.

CAP 4730 Computational Structures in Computer Graphics 3 Credits
Grading Scheme: Letter Grade
Introduces the basics of computer graphics including programming for computer vision, planning, natural language, Lisp and Prolog. (M)
Prerequisite: COP 3530.

CAP 4770 Introduction to Data Science 3 Credits
Grading Scheme: Letter Grade
Prerequisite: MAC 1147 or equivalent.

CAP 4773 Projects Data Science 3 Credits
Grading Scheme: Letter Grade
Organization of computing systems. Logical basis of computer structure. Machine representation of instructions and data, flow of control, and basic machine instructions. Assembly language programming. (M)
Prerequisite: (COP 3530 or COP 3503) and (MAC 2233 or MAC 2311 or MAC 3472) and COT 3100.

CDA 3101 Introduction to Computer Organization 3 Credits
Grading Scheme: Letter Grade
Introduces computer architecture and system organization including virtual memory supports cache, pipeline, vector processing, multiprocessor and RISC architecture.
Prerequisite: CDA 3101 and COP 3530.

CDA 4630 Embedded Systems 3 Credits
Grading Scheme: Letter Grade
CEN 3031 Introduction to Software Engineering 3 Credits
Grading Scheme: Letter Grade
Topics include software planning, specifications, coding, testing and maintenance. Gain experience in the team approach to large system development. (M)
Prerequisite: COP 3530.

CEN 3907C Computer Engineering Design 1 3 Credits
Grading Scheme: Letter Grade
Reinforce basic computer engineering skills; design, produce, and report on a computer engineering project, meeting defined specifications and using a structured design methodology and project management.
Prerequisite: CEN 3031 and EEL 3744C with minimum grades of C.

CEN 3908C Computer Engineering Design 2 3 Credits
Grading Scheme: Letter Grade
Selected capstone design projects involving engineering applications in the various areas of computer engineering. Must be taken prior to the semester of graduation.
Prerequisite: CEN 3907C with minimum grade of C and senior standing.

CEN 3913 Computer and Information Science and Engineering Design 1 3 Credits
Grading Scheme: Letter Grade
Preparatory skills are developed for CISE Design 2 for Computer Engineering students. Teams design, produce and report on a software prototype, meeting defined specifications and using a structured design methodology and project management.
Prerequisite: CEN 3031.

CEN 4072 Software Testing and Verification 3 Credits
Grading Scheme: Letter Grade
Concepts, principles and techniques of software testing and verification. Strengths and limitations of black-box and white-box testing methods; techniques for proving the correctness of programs.
Prerequisite: CEN 3031.

CEN 4721 Human-Computer Interaction 3 Credits
Grading Scheme: Letter Grade
Studies the major topics in the study, planning and design of the interaction between people and computers. Topics include interface design (principles, theories and guidelines), virtual environments, interactive devices and collaboration.
Prerequisite: CEN 3031.

CEN 4722 User Experience Design 3 Credits
Grading Scheme: Letter Grade
Introduces methods and tools used in User Experience Design (UXD): the early stages of software design focused on meeting user needs. Key concepts include user research, contextual design, design thinking, ideation, iterative design, prototyping, and design documentation. Projects utilize software tools used in the industry.
Prerequisite: COP 3530.

CEN 4725 Natural User Interaction 3 Credits
Grading Scheme: Letter Grade
Introduces the design, development and evaluation of Natural User Interaction (NUI) technologies (e.g., non-keyboard and mouse technologies such as touchscreen interaction, gesture interaction, speech interaction, etc.). Discussion of the hardware-to-software NUI pipeline and key considerations when developing NUI software, including existing platforms, toolkits and APIs used to create NUI software.
Prerequisite: COP 3530 with minimum grade of C.

CEN 4914 Computer and Information Science and Engineering Design 2 3 Credits
Grading Scheme: Letter Grade
Involves completing a significant CEN-related project. Coordinate with the instructor and a project advisor; prepare a detailed technical report and deliver an oral presentation.
Prerequisite: CEN 3913.

CIS 2354 Introduction to Cybersecurity 3 Credits
Grading Scheme: Letter Grade
Explores the history, the myth, the ethics, the law and the risks of computer-based technology in modern society. Emphasizes critical analysis of hypotheticals and case studies. Published material is supplemented with online references.
Prerequisite: previous experience in Unix environment.

CIS 3204 Penetration Testing: Ethical Hacking 3 Credits
Grading Scheme: Letter Grade
Introduces principles and techniques associated with the cybersecurity practice known as penetration testing or ethical hacking. Covers planning, reconnaissance, scanning, exploitation, post-exploitation, and result reporting. Discover how system vulnerabilities can be exploited and learn to avoid such problems.
Prerequisite: COP 3530.

CIS 3401 Information and Database Systems 1 3 Credits
Grading Scheme: Letter Grade
First part of a two-course sequence that studies the essential concepts, principles and techniques of modern database systems. Topics include modeling and querying of data using conceptual data models as well as the development of a database application. (M)
Prerequisite: (COP 3504 or COP 3503) and COT 3100.
CIS 4360 Computer and Information Security 3 Credits
Grading Scheme: Letter Grade
Covers systematic threat and risk assessment; programmed threats and controls in hardware, software, and human procedures; security policies, models, and mechanisms; theoretical limitations and practical implementations; certification and accreditation standards; and case study reviews. Includes projects.
Prerequisite: COP 4600 or equivalent.

CIS 4362 Introduction to Cryptology 3 Credits
Grading Scheme: Letter Grade
Introduces classical and modern cryptography and cryptanalysis, including symmetric and asymmetric (public key) ciphers. Covers cryptograph ic hash functions, block and stream ciphers, as well as differential and linear cryptanalysis. Reviews applications of cryptography, cryptographic standards and protocols, and analyzes case studies of failed implementations.
Prerequisite: COT 3100 or the equivalent.

CIS 4905 Individual Study in CISE 1-4 Credits
Grading Scheme: Letter Grade
Problems in different areas of computer science.

CIS 4912C Integrated Product and Process Design 1 3 Credits
Grading Scheme: Letter Grade
First part of a two-course sequence where teams of engineering and business students partner with industry sponsors to design and build authentic products and processes. Working closely with an industry liaison engineer and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills. Weekly workshop activities adapt lecture topics to individual projects. Learn firsthand how to develop products and processes that meet customer requirements on time and within budget.
Prerequisite: CDA 3101, COP 3530, COT 3100 and instructor permission.

CIS 4913C Integrated Product and Process Design 2 3 Credits
Grading Scheme: Letter Grade
Second part of a sequence where teams of engineering and business students partner with industry sponsors to design and build authentic products and processes.

CIS 4914 Senior Project 3 Credits
Grading Scheme: Letter Grade
Involves completing a significant CISE-related project. Coordinate with the instructor and a project advisor, prepare a detailed technical report and deliver an oral presentation. (M)
Prerequisite: senior CISE standing and approved project proposal.

CIS 4930 Special Topics in CISE 1-4 Credits
Grading Scheme: Letter Grade
Variable content provides an opportunity for in-depth study of topics not offered elsewhere and of topics of current significance.
Prerequisite: COP 3503 or instructor permission.

CIS 4940 Practical Work 1 Credit
Grading Scheme: S/U
One term practical software engineering work under industrial supervision as set forth in the Herbert Wertheim College of Engineering regulations. (S-U)

CIS 4949 Co-Op Work in CISE 1 Credit
Grading Scheme: S/U
Practical engineering work under industrial supervision, as set forth in the Herbert Wertheim College of Engineering regulations. (S-U)

CIS 4956 Overseas Studies 1 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

CNT 4007C Computer Network Fundamentals 4 Credits
Grading Scheme: Letter Grade
Fundamental concepts, principles and standards of computer networks. Topics are introduced in bottom-up approach, starting from physical layer in OSI system architecture with a stronger focus on data link, mac, network and transport layers. (M)
Prerequisite: COP 4600.

CNT 4409 Network and System Security 3 Credits
Grading Scheme: Letter Grade
Examines networked threats and vulnerabilities; trust, identification, authentication, and authorization in networked and distributed systems; secure network protocols and standards; certification of network products; firewall configurations, intrusion detection, and anomaly detection; security flaws in network protocols and distributed applications. Includes projects.
Prerequisite: CNT 4007C and COP 4600 or equivalent.

COP 2271 Computer Programming for Engineers 2 Credits
Grading Scheme: Letter Grade
Computer programming and the use of computers to solve engineering and mathematical problems. Emphasizes applying problem solving skills; directed toward technical careers in fields employing a reasonably high degree of mathematics. The programming language used depends on the demands of the departments in the college. Several languages may be taught each semester, no more than one per section. Those required to learn a specific language must enroll in the correct section. (M)
Prerequisite: MAC 2312 with minimum grade of C.

COP 2800 Computer Programming Using JAVA 3 Credits
Grading Scheme: Letter Grade
In-depth treatment of computer programming using JAVA. Problems related to a variety of disciplines are solved. Introduces the basic concepts of software and hardware; develop a variety of stand-alone applications and applets. For non-CISE majors only.
Prerequisite: MAC 1147 or the equivalent.

COP 3229 Computer Programming Using C++ 3 Credits
Grading Scheme: Letter Grade
Prerequisite: COP 3504 or COP 3503.

COP 3275 Computer Programming Using C 3 Credits
Grading Scheme: Letter Grade
Solve problems related to a variety of disciplines; introduces the basic concepts of software and hardware. (M)
Prerequisite: MAC 1147 or the equivalent.

COP 3502 Programming Fundamentals 1 3 Credits
Grading Scheme: Letter Grade
First course of a two-semester introductory sequence for those planning further study in computer science, digital arts and sciences or computer engineering. Concepts of computer science and the process of computer programming, including object-oriented programming, procedural and data abstraction and program modularity.
Corequisite: MAC 2311.
COP 3503 Programming Fundamentals 2 3 Credits
Grading Scheme: Letter Grade
Second course of a two-semester introductory sequence for those planning further study in computer science, digital arts and sciences or computer engineering. Concepts of computer science and the process of computer programming, including object-oriented programming, procedural and data abstraction and program modularity. 
Prerequisite: (COP 3502 with a minimum grade of C or an AP exam in computer science with a minimum grade of 4) and MAC 2311 with a minimum grade of C.

COP 3504 Advanced Programming Fundamentals for CIS Majors 3 Credits
Grading Scheme: Letter Grade
Fast-paced introduction to computer science for those with prior programming experience. Explores major concepts of computer science and the process of computer programming, including object-oriented programming, procedural and data abstraction and program modularity. (M) 
Prerequisite: (MAC 2311 or MAC 3472) and programming experience.

COP 3530 Data Structures and Algorithm 4 Credits
Grading Scheme: Letter Grade
Algorithm development using pseudo languages, basic program structures, program design techniques, storage and manipulation of basic data structures like arrays, stacks, queues, sorting and searching and string processing. Linked linear lists. Trees and multilinked structures. (M) 
Prerequisite: (COP 3504 or COP 3503) and COT 3100 and (MAC 2234 or MAC 2312 or MAC 2512 or MAC 3473), all with a minimum grade of C.

COP 4020 Programming Language Concepts 3 Credits
Grading Scheme: Letter Grade
Introduces programming language principles, including language constructs, design goals, run-time structures, implementation techniques and exposure to a wide variety of programming paradigms. 
Prerequisite: COP 3530.

COP 4331 Object-oriented Programming 3 Credits
Grading Scheme: Letter Grade
Fundamental conceptual models for programming languages illustrated with specific programming languages and application problems. Specific topics include class and object models, inheritance among classes, objects and static and dynamic systems and implementations. 
Prerequisite: COP 3530.

COP 4600 Operating Systems 3 Credits
Grading Scheme: Letter Grade
Design and implementation of various components of a modern operating system, including I/O programming, interrupt handling, process and resource management, computer networks and distributed systems. (M) 
Prerequisite: CDA 3101 and COP 3530; knowledge of C or C++ recommended.

COP 4620 Translators and Translator Writing Systems 3 Credits
Grading Scheme: Letter Grade
Translation of languages, scanning and parsing techniques. Translator writing systems. The implementation of a compiler. (M) 
Prerequisite: COP 3530.

COP 4720 Information and Database Systems 2 3 Credits
Grading Scheme: Letter Grade
Part two of a two-course sequence. Provides a basic understanding of the internals of a modern database system. Topics include data storage, indexing, query processing and advanced concepts such as database tuning, alternate data models and emerging applications. (M) 
Prerequisite: CIS 4301 and COP 3530.

COT 3100 Applications of Discrete Structures 3 Credits
Grading Scheme: Letter Grade
Covers the mathematics of discrete events; i.e., events that involve distinct elements, finite structures of distinct elements or finite sampled versions of continuous phenomena (such as movement). (M) 
Prerequisite: MAC 2233 or MAC 2311 or MAC 3472; 
Corequisite: COP 3504 or COP 3503. 
Attributes: General Education - Mathematics

COT 4501 Numerical Analysis: a Computational Approach 3 Credits
Grading Scheme: Letter Grade
Numerical integration, nonlinear equations, linear and nonlinear systems of equations, differential equations and interpolation. 
Prerequisite: (COP 3504 or COP 3503) and MAS 3114.

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U 
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

EGS 1005 Prep for Success 1-4 Credits
Grading Scheme: S/U 
Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)

Prerequisite: EG student.

Construction Management
Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings. 
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

School Information
The mission of the M. E. Rinker, Sr. School of Construction Management is to be the center of excellence for construction. The Rinker School will pursue this by promoting professional and ethical behavior in education and practice, advancing the industry by creating new knowledge through research and scholarly activities, educating individuals in principles, knowledge, and skills required to be successful in their professional careers, and providing service and transferring knowledge to the citizens of Florida, the construction industry, professional societies, the nation, and the world.

304 RINKER HALL
Prerequisite:
advanced writing and presentation skills for construction professionals.
in all aspects of construction business and operations. Development of administration of a construction project. Importance of ethical conduct
Examines the role of various players involved in the construction and the administration of a construction project. Importance of ethical conduct in all aspects of construction business and operations. Development of advanced writing and presentation skills for construction professionals.

BCN 3027C Principles of Construction Management 3 Credits
Grading Scheme: Letter Grade
Examines the role of various players involved in the construction and the administration of a construction project. Importance of ethical conduct in all aspects of construction business and operations. Development of advanced writing and presentation skills for construction professionals.
Prerequisite: junior standing or higher or instructor permission.

GAINESVILLE FL 32611-5703
Map (http://campusmap.ufl.edu/#/index/0272)

Courses

BCN 1001 Introduction to Construction Management 1 Credit
Grading Scheme: S/U
Familiarizes pre-construction students with the nature and functioning of the construction industry and the building construction curriculum. Emphasizes the specific safety regulations pertaining to the construction industry. (S-U)

BCN 1210 Construction Materials 3 Credits
Grading Scheme: Letter Grade
Sources, properties and uses of construction materials.

BCN 1251C Construction Drawing 3 Credits
Grading Scheme: Letter Grade
Provides basic working knowledge of architectural graphics, practice in instrumental drawing and experience in free hand sketching.

BCN 1582 International Sustainable Development 3 Credits
Grading Scheme: Letter Grade
An overview of international trends in reducing the environmental impacts of land development and construction. Surveys best practices in a dozen countries around the world. (N and S)
Attributes: General Education - International, General Education - Social Science

BCN 2405C Construction Mechanics 4 Credits
Grading Scheme: Letter Grade
Introduces the evaluation of structural behavior as it relates to buildings, the properties of structural materials and the structural behavior of load-resisting members. Primarily for building construction majors.
Prerequisite: PHY 2004 and PHY 2004L.

BCN 3012 History of Construction 3 Credits
Grading Scheme: Letter Grade
Traces Western building technology from prehistoric man to the present. Development of the art and science of building. (H and N)
Attributes: General Education - Humanities, General Education - International

BCN 3027C Principles of Construction Management 3 Credits
Grading Scheme: Letter Grade
Examines the role of various players involved in the construction and the administration of a construction project. Importance of ethical conduct in all aspects of construction business and operations. Development of advanced writing and presentation skills for construction professionals.
Prerequisite: BCN 3027C.

BCN 3223C Soils and Concrete 3 Credits
Grading Scheme: Letter Grade
Studies the construction process to include soils, demolition, earth-moving equipment, foundations, concrete mix design and concrete placement techniques. Includes field visits and soils and concrete laboratories.
Prerequisite: BCN 1210 and BCN 2405C and BCN 3224C.

BCN 3224C Construction Techniques 3 Credits
Grading Scheme: Letter Grade
Studies the vertical construction process to include wooden platform frame construction, cast-in-place and pre-cast concrete construction and steel erection. Included are masonry construction, interior and exterior finishes, vertical transportation systems, roofing and other building components.
Prerequisite: BCN 1210 and BCN 1251C.

BCN 3240C Equipment and Methods for Heavy/Highway Construction 3 Credits
Grading Scheme: Letter Grade
Prerequisite: junior standing or higher.

BCN 3255C Graphic Communication in Construction 3 Credits
Grading Scheme: Letter Grade
Studies construction communication tools, including the use of computer-aided drafting (applications of 4-D modeling in construction), blueprint reading, free hand sketching, model building, piece-based simulations and the Internet.
Prerequisite: BCN 1251C.

BCN 3281C Construction Methods Laboratory 2 Credits
Grading Scheme: Letter Grade
Construction aspects of surveying with field and classroom exercises in the use of transit, level, chain and related equipment.

BCN 3431C Structures 3 Credits
Grading Scheme: Letter Grade
Examines the material properties, code requirements, analysis and construction procedures for steel and reinforced concrete structures.

BCN 3521C Electrical Systems 3 Credits
Grading Scheme: Letter Grade
Principles and practices of electrical systems, including code provisions and cost estimations.

BCN 3611C Construction Estimating 3 Credits
Grading Scheme: Letter Grade
Classification of work, quantity survey techniques and basic estimating principles applied to simple construction projects.
Prerequisite: BCN 3027C and BCN 3224C and BCN 3255C.

BCN 3700 Construction Contracts 3 Credits
Grading Scheme: Letter Grade
Function of the construction industry, construction contracting practices and construction contracts and delivery methods.
Prerequisite: BCN 3027C.
BCN 3730 Construction, Safety, Health and the Environment 3 Credits
Grading Scheme: Letter Grade
Construction safety issues, concerns, requirements and procedures. The analysis includes costs, planning, administration, inspection, prevention, loss control and drug-free workplace. Understanding of the major health issues encountered on construction sites. Appreciation for the need to be environmentally responsible.

BCN 4105 Sustainable Housing: Putting the 3 E's into Residential Practice 3 Credits
Grading Scheme: Letter Grade
Sustainability is more than just building green; it’s the balance and intersection of "the 3 e’s" environment, economics, and social equity. Examine approaches to advancing sustainable housing in ways that postindustrial residential planning and building practices have thus far neglected to address.
Prerequisite: junior standing or higher.

BCN 4237 Roofing Systems 3 Credits
Grading Scheme: Letter Grade
Studies and analyzes building various roof systems including design, materials, installation, inspection and maintenance. Includes damp-proofing and waterproofing techniques.

BCN 4252 Introduction to Building Information Modeling 3 Credits
Grading Scheme: Letter Grade
Learn current Building Information Modeling (BIM) software to identify design errors and improve the construction process.
Prerequisite: BCN 3255C.

BCN 4423C Temporary Structures 3 Credits
Grading Scheme: Letter Grade
Studies the temporary structures that contractors have to build in order to construct the primary structure. This includes formwork, scaffolding and equipment for hoisting materials, personnel and erecting structures.
Prerequisite: BCN 3431C and senior standing.

BCN 4510C Mechanical Systems 4 Credits
Grading Scheme: Letter Grade
Principles and practices of building piping systems, hydraulics and pumps, comfort conditioning systems for building, heating and refrigeration equipment, building code considerations, plan reading and cost estimation.
Prerequisite: senior standing.

BCN 4594 Building Energy Modeling 3 Credits
Grading Scheme: Letter Grade
As energy becomes a more precious commodity, it is crucial to design and operate high performance buildings. A solid foundation of energy engineering and sustainability principles is essential to achieving these higher performance standards.
Prerequisite: junior standing or higher.

BCN 4612C Construction Estimating 2 3 Credits
Grading Scheme: Letter Grade
Analysis and determination of cost of construction operations including applicable indirect and overhead costs and the preparation of bid proposals for commercial construction projects. A cost-control system is introduced and implemented with sample field-generated problems.
Prerequisite: BCN 3611C and senior standing.

BCN 4709C Construction Project Management 3 Credits
Grading Scheme: Letter Grade
Understanding the various forms of project delivery methods (Design-Bid-Build, Design-Build, and Construction Management) and the underlying principles for choosing the appropriate system. Recognizing the complexity of the preconstruction process including conceptual estimating and scheduling, life cycle costing, constructability reviews, value engineering, risk management and special contract requirements. Understanding management and administration of a construction project.
Prerequisite: BCN 4612C and senior standing.

BCN 4712C Leadership and Management in Construction 3 Credits
Grading Scheme: Letter Grade
Leadership and management principles for construction professionals with a major emphasis on the diverse workforce, ethical issues in construction and the development of negotiation and conflict-resolution skills.
Prerequisite: senior standing.

BCN 4720 Construction Planning and Control 3 Credits
Grading Scheme: Letter Grade
Computer application of cost and manpower estimates as construction scheduling and management techniques.
Prerequisite: BCN 3611C and senior standing.

BCN 4723 Design-Build Delivery Methods 3 Credits
Grading Scheme: Letter Grade
Theory and practice of design-build contract delivery method. Includes an explanation of the history of design-build, the advantages and disadvantages of design-build as a delivery method and a thorough analysis of the major components of design and construction.
Prerequisite: junior standing or higher.

BCN 4753 Construction Finance 3 Credits
Grading Scheme: Letter Grade
Basic principles and applications of construction finance with an emphasis on the acquisition and management of construction loans, mortgages and construction accounting.
Prerequisite: senior standing.

BCN 4787C Construction Capstone Project 3 Credits
Grading Scheme: Letter Grade
A construction project is simulated with each student being responsible for designing, developing, estimating, scheduling, contracting and administering the work for the completion of a small commercial, residential or light industrial project.
Prerequisite: BCN 4612C and BCN 4720 and BCN 4753 and senior standing.

BCN 4880 Management of Heavy/Highway Construction 3 Credits
Grading Scheme: Letter Grade
Understanding management and administration of a construction project. Appreciation for the need to be environmentally responsible.
Prerequisite: senior standing.

BCN 4905 Special Studies in Construction 1-4 Credits
Grading Scheme: Letter Grade
Special areas of study in construction adjusted to the needs of individual students. Enrollment upon recommendation of director only.
BCN 4949 Construction Management Internship 3 Credits  
**Grading Scheme:** S/U  
Minimum two-term employment in construction management. Requires advance approval. Internship work reports and oral presentation also required. (S-U)

BCN 4956 International Studies in Construction 1-4 Credits  
**Grading Scheme:** Letter Grade  
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation. The course focus is on the construction industry in the host country. Course content varies and may address various construction issues including local construction techniques, construction materials and the influence on construction of the local culture, traditions, architecture, history and political climate.

EMS 1055 Emergency Medical Responder 3 Credits  
**Grading Scheme:** Letter Grade  
Introduces a basic understanding of pre-hospital emergency medicine; explore issues in patient assessment, distinguishing medical scenarios from trauma scenarios, taking appropriate actions and precautionary measures to ensure patient safety, and treating a patient’s injuries within the scope of their certification.

EMS 1055L Lab for Emergency Medical Responder 1 Credit  
**Grading Scheme:** Letter Grade  
Practical applications of pre-hospital emergency medicine, including medical and trauma skills, basic anatomy, and physiology as related to EMR requirements. Practice the skills learned in the Emergency Medical Responder course. Offered only on UF main campus.

EMS 4315 Analytical Approaches to EMS 3 Credits  
**Grading Scheme:** Letter Grade  
Focuses on the practice and principles of emergency medical services systems management, including effective daily operations within an EMS organization. Topics include purpose of analysis; analysis in parallel professions; problem identification; foundational analysis; data collection; financial analysis; cost-benefit analysis; policy and impact analysis; and project development.  
**Prerequisite:** junior or senior standing.

FES 2941 Emergency Management Internship 3 Credits  
**Grading Scheme:** S/U  
Gain experience in an emergency management situation to identify and apply best practices in the development of preparation, planning, responding, recovering, and mitigating disasters; participate in supervised disaster management work activities that provide experiential learning in emergency management.

FES 3004 Political and Legal Foundations of Fire Protection 3 Credits  
**Grading Scheme:** Letter Grade  
Examines the legal aspects of fire service and the political and social impacts of legal issues; reviews the American legal system and covers legal and political issues involving employment and personnel matters, administration and operations, and planning and code enforcement with regard to the fire service.  
**Prerequisite:** junior standing or higher.

FES 3015 Principles of Fire and Emergency Services Management 3 Credits  
**Grading Scheme:** Letter Grade  
Fundamentals of management underlying the solution of problems of organization and operation of fire and emergency services agencies. (S) (WR)  
**Prerequisite:** junior standing or higher.  
**Attributes:** General Education - Social Science, Satisfies 6000 Words of Writing Requirement

FES 3033 Fire and Emergency Services Labor Issues 3 Credits  
**Grading Scheme:** Letter Grade  
Determinants of demand for labor and labor supply. Labor market equilibrium and changes in the equilibrium due to changes in unionization, public policies and technology. Study of the effects of skill, job amenities and discrimination on wage differentials. A review of PERC, FSLA and unions is included.  
**Prerequisite:** junior standing or higher.

FES 3153 FES Communication and Informational Technology 3 Credits  
**Grading Scheme:** Letter Grade  
Communications systems used in fire and emergency services such as high frequency voice/data, Internets and Intranets, satellite communications, GPS and GIS. An introduction, examination, equipment assessment, implementation program and maintenance management module are provided for each system covered.  
**Prerequisite:** junior standing or higher.

FES 3223 Foundations of EMS 3 Credits  
**Grading Scheme:** Letter Grade  
Covers the design and operation of EMS systems, service delivery, and echelons of care. The history of EMS, interface of public and private organizations and review of the various personnel who comprise these systems, will be examined in relation to their impact on the health care delivery system.  
**Prerequisite:** junior standing or higher.

FES 3227 Ambulance Operations 3 Credits  
**Grading Scheme:** Letter Grade  
Overview of the application of management principles to the provision of medical transport services. Includes an analysis of the economic, geographic, temporal, and clinical characteristics of ambulance demand, the key processes for providing transport services, and an evaluation of industry best practices.  
**Prerequisite:** junior standing or higher.

FES 3233 EMS Safety and Risk Management 3 Credits  
**Grading Scheme:** Letter Grade  
Introduces the risk management principles of an EMS agency. Emphasizes safety from the perspective of the field provider.  
**Prerequisite:** junior standing or higher.

FES 3263 Public Safety Educator 3 Credits  
**Grading Scheme:** Letter Grade  
Introduces the EMS professional to the education system as it relates to EMS education. Explores issues in curriculum development, teaching, program direction, and development.  
**Prerequisite:** junior or senior standing.

FES 3284 Management of Emergency Medical Services 3 Credits  
**Grading Scheme:** Letter Grade  
Personnel and resource management issues in providing emergency medical services function. Quality assurance, utilization review techniques, and practices and techniques for delivery of services and distribution of resources are included.  
**Prerequisite:** junior standing.
FES 3285 Advanced Leadership Issues in Emergency Medical Services 3 Credits
Grading Scheme: Letter Grade
Organizational development issues in providing emergency medical services function in the fire-based, hospital-based and third-service environments. Establishing and directing emergency medical services' work teams is also covered.
Prerequisite: junior or senior standing.

FES 3533 Community Risk Reduction for Emergency Services 3 Credits
Grading Scheme: Letter Grade
Provides a theoretical framework for the understanding of the ethical, sociological, organizational, political, and legal components of community risk reduction, and a methodology for the development of a comprehensive community risk reduction plan.
Prerequisite: junior standing.

FES 3720 Strategic Planning for FES 3 Credits
Grading Scheme: Letter Grade
Provides the conceptual framework for the development of a strategic plan for emergency management, fire protection, and emergency medical service. Also provides guidance through the process of the needs, resources, and capabilities of the organization and how to establish a plan to achieve improved performance.
Prerequisite: junior standing.

FES 3753 Fire and Emergency Services Financial Management 3 Credits
Grading Scheme: Letter Grade
Planning, developing, presenting, funding and implementing a budget for a fire and emergency services agency. Additional topics include special taxing districts, bond issues and fund-raising campaigns.
Prerequisite: junior standing.

FES 3755 Fire and Emergency Services Capital Equipment and Facilities 3 Credits
Grading Scheme: Letter Grade
Procedures for the acquisition, utilization and disposition of fire and emergency services apparatus and station facilities. Specification and purchasing of apparatus are included. An examination of facility siting, building design and land acquisition and financing is conducted. Additional material addresses special capital purchases such as communications, safety and operational equipment.
Prerequisite: FES 3753 and junior standing.

FES 3780 Analytical Approaches to Fire Protection 3 Credits
Grading Scheme: Letter Grade
Examines the tools and techniques of rational decision making in fire and emergency services agencies, including data collection, statistics, probability, decision analysis, utility modeling, resource allocation, and cost benefit analysis.
Prerequisite: junior or senior standing.

FES 3782 Applications of Fire Research 3 Credits
Grading Scheme: Letter Grade
Examines methodology for analyzing fire-related research; provides a framework for independent research in fire dynamics, fire test standards, fire safety, fire modeling, structural fire safety, life-safety, firefighter safety, automatic detection and suppression, risk analysis and loss control, applied research, and fire-related research trends.
Prerequisite: junior or senior standing.

FES 3803 Multi-Agency Incident Command 3 Credits
Grading Scheme: Letter Grade
Managing complex incidents that may require response from fire-rescue, emergency medical services, law enforcement and/or other public safety sectors. Use of the incident management system is emphasized.
Prerequisite: junior standing.

FES 3815 Command and Control at Catastrophic Fire-Rescue Incidents 3 Credits
Grading Scheme: Letter Grade
Incident command at multiple-alarm incidents, emphasizing rapid fireground decision-making, safety, personnel accountability and communications. Settings for scenarios include multi-family occupancies, hotels, high-rises, healthcare facilities and large retail centers.
Prerequisite: junior standing.

FES 3822 Disaster Policy in Emergency Management 3 Credits
Grading Scheme: Letter Grade
Describes the functional demands that emergency managers should be aware of in crafting effective emergency management plans, policies, and programs. Addresses how public policy choices impact emergency planning and the consequences of a disaster event. Emphasizes the emergency planning process.
Prerequisite: junior or senior standing.

FES 3823 Fire and Emergency Services Integrated Operations 3 Credits
Grading Scheme: Letter Grade
The broad issues involved in comprehensive emergency management at the local level. The emergency management cycle of preparedness, mitigation, response and recovery is emphasized as are the legal, operational and administrative aspects of state and federal interface.
Prerequisite: junior standing.

FES 4003 Fire and Emergency Services Administration 3 Credits
Grading Scheme: Letter Grade
Demonstrates the importance of persuasion and influence, budgeting, anticipation of challenges and change, and management tools for analyzing and solving problems; explores how the leadership of a fire and emergency services department develops internal and external cooperation to achieve the department's mission.
Prerequisite: junior or senior standing.

FES 4014 Foundations of Emergency Management 3 Credits
Grading Scheme: Letter Grade
Prerequisite: junior or senior standing.

FES 4023 Fire and Emergency Services Ethical Practices and Leadership 3 Credits
Grading Scheme: Letter Grade
The role of agency leadership and its impact on the continuing professionalization of the fire and emergency services. Examines traditional and evolving definitions, practices and skills in leadership behavior, including discussions of power, influence, ethics and organizational behavior.
Prerequisite: senior standing.
FES 4034 Regulatory Issues in Fire and Emergency Services 3 Credits
Grading Scheme: Letter Grade
Introduces safety, health and environmental regulations on the state and federal levels that impact the delivery of fire and emergency services. OSHA, EPA and NFPA regulatory requirements are introduced along with methods and techniques to implement compliance programs.
Prerequisite: FES 4003 and senior standing.

FES 4045 Fire and Emergency Services Human Resource Management 3 Credits
Grading Scheme: Letter Grade
Major human resource management functional areas for fire and emergency services agencies. Topics include organizational employment planning, employment regulation, job analysis, performance assessment, recruitment and regulation, job analysis, performance assessment, recruitment and selection, training and development, employee/labor relations and compensation.
Prerequisite: FES 3015 and senior standing.

FES 4055 Fire and Emergency Services Public Relations 3 Credits
Grading Scheme: Letter Grade
Implementation of principles and methods in advocating factual claims and policy proposals: prepositional analysis, evidence as demonstration, effective reasoning processes and ethics in controversy. Also focuses on public speaking and presentations, especially in the areas of technology, defense of budgets and political leadership.
Prerequisite: senior standing.

FES 4224 Management of Mass Casualty Incidents 3 Credits
Grading Scheme: Letter Grade
Covers systematic approaches to triage, treatment and transport in response to large-scale emergency medical services incidents. Resource planning and coordination with hospital systems is also emphasized.
Prerequisite: senior standing.

FES 4226 EMS Special Operations 3 Credits
Grading Scheme: Letter Grade
Discusses the various special roles in which EMS personnel may serve, such as hazardous materials, water rescue, and technical rescue.
Prerequisite: junior or senior standing.

FES 4234 EMS Community Risk Reduction 3 Credits
Grading Scheme: Letter Grade
Provides a theoretical framework for the understanding of the ethical, sociological, organizational, political, and legal components of community risk reduction, and a methodology for the development of a comprehensive community risk reduction plan.
Prerequisite: junior or senior standing.

FES 4244 Legal, Political, and Regulatory in EMS 3 Credits
Grading Scheme: Letter Grade
Introduces the EMS professional to the legal aspects of Emergency Medical Services. Explores issues in malpractice, consent and refusal of treatment, OSHA, employment issues, and risk management. EMS students gain insights into the legal liabilities in Emergency Medical Services.
Prerequisite: junior or senior standing.

FES 4274 Quality Management and Research in Emergency Services 3 Credits
Grading Scheme: Letter Grade
Introduces the EMS professional to benefits of quality improvement, the history of quality in EMS, measuring quality, and the uses of quality in EMS.
Prerequisite: junior or senior standing.

FES 4585 Management of Fire Prevention Programs 3 Credits
Grading Scheme: Letter Grade
Planning, promoting and executing fire prevention functions, including an emphasis on legal responsibilities, needs assessments, negotiation and planning activities.
Prerequisite: senior standing.

FES 4685 Fire Investigation and Analysis 3 Credits
Grading Scheme: Letter Grade
Examines the technical, investigative, legal, and social aspects of arson, including principles of incendiary fire analysis and detection, environmental and psychological factors of arson, legal considerations, intervention, and mitigation strategies.
Prerequisite: senior standing.

FES 4804 Disaster Recovery and Mitigation 3 Credits
Grading Scheme: Letter Grade
Provides the opportunity to understand real world disaster response efforts through academic study and interactive applied activities. Topics include the Incident Command System (ICS), Emergency Operations Center (EOC) management, Resource Management (RM), and Command-Communications-Coordination (C3).
Prerequisite: junior or senior standing.

FES 4820 Critical Incident Management for Emergency Managers 3 Credits
Grading Scheme: Letter Grade
Examines disaster planning and emergency management. Focuses on the four phases of planning, mitigation, response, and preparedness. Includes FEMA and federal government NIMS ICS-700 and ICS-800 certifications.
Prerequisite: junior or senior standing.

FES 4825 Disaster Planning and Control 3 Credits
Grading Scheme: Letter Grade
Examines concepts and principles of community risk assessment, planning and response to fires and natural and human-caused disasters, including National Incident Management System--Incident Command Systems (NIMS ICS), mutual aid and automatic response, training and preparedness, communications, civil disturbances, terrorist threats/ incidents, hazardous materials planning, mass casualty incidents, earthquake preparedness, and disaster mitigation and recovery.
Prerequisite: FES 3823 and senior standing.

FES 4835 Natural Disaster Phenomena in Florida 3 Credits
Grading Scheme: Letter Grade
Natural disasters prevalent in Florida: past, present, and future, including hurricanes, flooding, freezes, and agricultural emergencies. Also addresses planning, operations, mitigation, recovery, and evaluation concerns.
Prerequisite: junior or senior standing.

FES 4884 Introduction to Terrorism in Emergency Management 3 Credits
Grading Scheme: Letter Grade
Introduces the fundamental concepts, theories, principles, and practice of terrorism and terrorist events.
Prerequisite: junior or senior standing.

FES 4905 Special Studies in Fire and Emergency Services 1-3 Credits
Grading Scheme: Letter Grade
Special areas of study in fire and emergency services adjusted to the needs of individual students.
Prerequisite: instructor permission.
FES 4935 Current Issues in Fire and Emergency Services 3 Credits  
Grading Scheme: Letter Grade  
Information and direction for fire service administrators on current legislative, legal, labor and/or technology concerns facing fire and emergency services agencies.  
Prerequisite: senior standing.

FPP 4507 Management of Fire-Related Human Behavior 3 Credits  
Grading Scheme: Letter Grade  
Focuses on human behavior in emergencies; examines research on human behavior, systems models, life-safety education, and building design, exploring a best-practice building life-safety system in terms of psychology and sociology joined with engineering and education to produce best outcomes of human survivability in emergencies.  
Prerequisite: Junior or Senior standing.

Criminology

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.

Courses

CCJ 3024 Advanced Principles of Criminal Justice 3 Credits  
Grading Scheme: Letter Grade  
Advanced overview of criminal law, criminal procedure and criminological theory. Emphasis on the components of the criminal justice system: the police, the prosecutorial and defense functions, the judiciary and the field of corrections. This course is required of all majors. (S)  
Attributes: General Education - Social Science  
Prerequisite: CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

CCJ 3701 Research Methods in Criminology 4 Credits  
Grading Scheme: Letter Grade  
Advanced research design and data analysis. Study of experimental and non-experimental research designs; probability and nonprobability sampling techniques; construction of scales; and indexes and methods of bivariate and multivariate data analysis. Previous completion of an introductory course in statistics is recommended but not required. (S) (WR)  
Prerequisite: CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

CCJ 4014 Criminological Theory 3 Credits  
Grading Scheme: Letter Grade  
Advanced overview of criminal law, criminal procedure and criminological theory. Emphasis on the components of the criminal justice system: the police, the prosecutorial and defense functions, the judiciary and the field of corrections. This course is required of all majors. (S)  
Attributes: General Education - Social Science  
Prerequisite: CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

CCJ 4644 White-Collar Crime 3 Credits  
Grading Scheme: Letter Grade  
Examines individual criminality in the course of one's occupation and the crimes of organizations and corporations. Studies the societal reaction to these upper class illegalities. (S) (WR)  
Prerequisite: CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

CCJ 4681 Intimate Violence 3 Credits  
Grading Scheme: Letter Grade  
Examines the factors that increase the risk for intimate violence, the effects of violence on victims, interventions to prevent and treat violence, and public policies. Topics include child physical and sexual abuse, domestic violence and sexual assault. Law, social science and feminist scholarship are used to examine current controversies in these fields.  
Prerequisite: Liberal Arts and Sciences major of junior standing or higher.

CCJ 4905 Individual Work 1-3 Credits  
Grading Scheme: Letter Grade  
Qualified students and the instructor will develop a course of study or investigation designed to extend available coursework. A formal written report is required. Course can be repeated, but no more than three credits earned in CCJ 4905 may be applied to the major or to minimum degree requirements established by the university.  
Prerequisite: CCJ 3024, 3LS or 4LS major, and instructor permission.

CCJ 4911 Undergraduate Research in Criminology 0-3 Credits  
Grading Scheme: Letter Grade  
Provides firsthand, supervised research in Criminology. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Criminology.
**CJC 4934 Contemporary Issues in Criminal Justice 3 Credits**  
*Grading Scheme: Letter Grade*  
A variable topic seminar that examines current issues, techniques and problems in criminal justice.  
**Prerequisite:** CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

**CCJ 4940 Practicum 1-3 Credits**  
*Grading Scheme: S/U*  
Supervised experience in a criminal justice agency. Course can be repeated, but no more than three credits earned in CCJ 4905 may be applied to the major or to minimum degree requirements established by the university. (S-U)  
**Prerequisite:** CCJ 3024, 3LS or 4LS major, and instructor permission.

**CCJ 4970 Senior Thesis 3 Credits**  
*Grading Scheme: Letter Grade*  
Qualified students submit a formal research proposal, carry out individual research under the supervision of a faculty member and prepare a formal written report of the research to a faculty committee. Course can be repeated, but no more than six credits earned in CCJ 4905 may be applied to the major or to minimum degree requirements established by the university.  
**Prerequisite:** CCJ 3024 and director permission.

**CCJ 4010 Introduction to Corrections 3 Credits**  
*Grading Scheme: Letter Grade*  
Introduces the field of penology and corrections. Consideration is given to conflicting philosophies of punishment; criminological theory as it applies to the field of corrections; the selectivity of the process through which offenders move before their involvement in correctional programs; alternative correctional placements, and empirical assessments of the short-term and long-term consequences of involvement in correctional programs. (S)  
**Corequisite:** CCJ 3024 and 3LS or 4LS major.  
**Attributes:** General Education - Social Science

**CJE 3114 Introduction to Law Enforcement 3 Credits**  
*Grading Scheme: Letter Grade*  
The role of the police in the criminal justice system of a democratic society. Topics include the organization of police work, discretion and the role of law enforcement in a socio-legal context.  
**Corequisite:** CCJ 3024 and 3LS or 4LS major.

**CJE 4144 Private Security and Control 3 Credits**  
*Grading Scheme: Letter Grade*  
Understanding the role of private security in the prevention of crime. Examines deviance against the assets of formal organizations and their employees, such as business corporations, retail stores and educational institutions.  
**Prerequisite:** CCJ 3024 with a minimum grade of C and Liberal Arts and Sciences major of junior standing or higher.

**CJJ 4010 Juvenile Justice 3 Credits**  
*Grading Scheme: Letter Grade*  
Examines the development, change and operation of the American juvenile justice system. Emphasizes the nature of juvenile law and the methods of dealing with youthful offenders. (S)  
**Prerequisite:** CCJ 3024 and 2LS major or higher.  
**Attributes:** General Education - Social Science

**CJL 2000 Law and the Legal Process 3 Credits**  
*Grading Scheme: Letter Grade*  
Understanding the law as it relates to everyday encounters with the legal system. Actual legal cases may be studied to analyze how disputes are resolved by application of legal principles to factual situations, whether justice was served by the decision and the potential implications of the decision on future cases. (S)  
**Attributes:** General Education - Social Science

**CJL 3038 Law and Society 3 Credits**  
*Grading Scheme: Letter Grade*  
Introduces the scholarly study of law from a multidisciplinary, liberal arts perspective. Examines legal ideas, legal institutions and the legal process with emphasis on the study of criminal behavior and the American criminal justice process.

**CJL 4037 Psychology and Law 3 Credits**  
*Grading Scheme: Letter Grade*  
Application of behavioral science research and practice to the legal system. Topics include psychologists and the legal system; lawyers' socialization, training and ethics; legality, morality and justice; forensic assessment; the insanity defense; competence in the legal system; eyewitness identification; jury selection; theories of crime; and punishment and sentencing.  
**Prerequisite:** CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

**CJL 4050 Juvenile Law 3 Credits**  
*Grading Scheme: Letter Grade*  
Examines the juvenile justice system, including delinquency, dependency and laws that apply especially to juveniles. Studies operation of the Florida juvenile code and the relationship between children and society.  
**Prerequisite:** CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

**CJL 4110 Criminal Law 3 Credits**  
*Grading Scheme: Letter Grade*  
Studies substantive criminal law, including historical development, the tension between social and legal definitions of crime, the basic dimensions of criminality, the specific elements of major crimes and the nature of criminal sanctions. (S)  
**Attributes:** General Education - Social Science

**CJL 4410 Criminal Procedure 3 Credits**  
*Grading Scheme: Letter Grade*  
Studies constitutional rights of the accused in criminal proceedings. Focuses on analysis of case materials involving the law of arrest, search and seizure, the use of confessions, fair trial and the prohibition of cruel and unusual punishments.  
**Prerequisite:** CCJ 3024 and Liberal Arts and Sciences major of junior standing or higher.

**IDH 2931 Honors Seminar 3 Credits**  
*Grading Scheme: Letter Grade*  
Special topics restricted to those in the university-wide Honors Program. (WR)  
**Attributes:** Satisfies 6000 Words of Writing Requirement

Courses
CZE 1130 Introduction to Czech Language and Culture 1 5 Credits
Grading Scheme: Letter Grade
CZE 1130 and its sequel, CZE 1131, offer a comprehensive introduction to Czech, using interactive methods to develop competence in speaking, listening, reading, writing and cultural interaction.

CZE 1131 Introduction to Czech Language and Culture 2 5 Credits
Grading Scheme: Letter Grade
Continuation of series. A comprehensive introduction to Czech, using interactive methods to develop competence in speaking, listening, reading, writing and cultural interaction.
Prerequisite: CZE 1130 with minimum grade of C, or S, or the equivalent.

Dial Center for Written and Oral Communication
Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Center Information
The William and Grace Dial Center for Written and Oral Communication assists in preparing University of Florida students to speak and write effectively using the major conventions governing the presentation of knowledge in their chosen disciplines. Additionally, the students gain an understanding of the importance of communicating information from within their discipline to general audiences.

Curriculum
• Communication Studies Minor

Courses
COM 1000 Introduction to Communication Studies 3 Credits
Grading Scheme: Letter Grade
Introduces various theoretical perspectives for understanding human communication. (S)
Attributes: General Education - Social Science
COM 3125 Organizational Communication 3 Credits
Grading Scheme: Letter Grade
Explores the processes, practices and difficulties of communication among large groups engaged principally in the work environment. Examines organizational structures, patterns of communication, task and social roles, extrinsic influences and methods of producing intrinsic motivation and innovation.

COM 3225 Global and Cultural Issues in Health Communication 3 Credits
Grading Scheme: Letter Grade
Explores the complex associations among communication and the many contexts, issues, and relationships surrounding health and well-being in the world. Investigates cultural, historical, social, and ethical meanings of health and illness. Considers issues in global health, culture, and communication in health care initiatives.
Prerequisite: Sophomore standing

COM 3462 Interpersonal Conflict Management 3 Credits
Grading Scheme: Letter Grade
Introduces fundamental communication skills, principles, theories and research relevant to effective conflict management in a variety of interpersonal contexts and relationships.
Prerequisite: COM 1000 or SPC 2300 or instructor permission.

COM 3465 Conflict Management and Negotiation in the Professions 3 Credits
Grading Scheme: Letter Grade
Introduces fundamental concepts and skills relevant to effective communication in business and professional conflicts. Topics include conflict management, ADR, and interpersonal, organizational, community and international negotiation. Emphasizes helping students to understand and improve the conflict management and negotiation skills required in their professional careers.
Prerequisite: COM 1000 or SPC 2608 or instructor permission.

COM 4013 Family Communication 3 Credits
Grading Scheme: Letter Grade
Provides students with an understanding of how communication functions to develop, maintain, enrich, or limit family relationships.
Prerequisite: COM 1000 or SPC 2300 or instructor permission.

COM 4022 Health Communication 3 Credits
Grading Scheme: Letter Grade
Surveys theory, research and practice of communication in the contexts of healthcare and health promotion. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

COM 4706 Language and Power 3 Credits
Grading Scheme: Letter Grade
Explores the role of language in articulating, maintaining, and subverting power relations in society. Drawing from Communication Studies and Applied Linguistics, the course provides the tools to uncover, describe, and critically analyze the various strategic biases in language that create and reinforce power asymmetries in society.
Prerequisite: COM 1000 or SPC 2300 for Communication Studies minor; LIN3010 for LIN major; with instructor permission.
Attributes: General Education - Diversity, General Education - Social Science

COM 4911 Undergraduate Research in Communication Studies 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Communication Studies. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Communication Studies.

COM 4930 Special Topics in Communication 3 Credits
Grading Scheme: Letter Grade
Seminar study of theory and research in a specific area of communication.
Prerequisite: COM 1000 or equivalent.

LIS 2001 Introduction to Library and Internet Research 1 Credit
Grading Scheme: Letter Grade
Learn how to conduct solid and reliable library research. Critical thinking skills are used to find, evaluate and use relevant scholarly resources in a variety of disciplines. This dynamic, hands-on course emphasizes creative thinking and media production tools while exploring the social responsibilities of using digital age information.

SPC 2300 Introduction to Interpersonal Communication 3 Credits
Grading Scheme: Letter Grade
Studies how two people interact with one another and how factors such as listening skills, gender and culture influence that communication. (S)
Attributes: General Education - Social Science

SPC 2351 Listening 3 Credits
Grading Scheme: Letter Grade
Theory and practice in responsible, participatory listening. Also includes principles of listening for literal comprehension and critical evaluation of ideas in response to various spoken and nonverbal messages.

SPC 2594 Intercollegiate Forensics 1 Credit
Grading Scheme: Letter Grade
Participation in intercollegiate debate and individual speaking.
Prerequisite: satisfactory completion of one semester of intercollegiate forensics participation at UF.

SPC 2608 Introduction to Public Speaking 3 Credits
Grading Scheme: Letter Grade
Theory and practice presenting public speeches, determining communication purpose(s) and adapting to organization, evidence, language and other message characteristics for designated audiences.

SPC 2608 Advanced Public Speaking 3 Credits
Grading Scheme: Letter Grade
Studies principles and methods of selected forms of public speaking for various purposes, audiences and contexts.
Prerequisite: SPC 2608 or equivalent.

SPC 3331 Nonverbal Communication 3 Credits
Grading Scheme: Letter Grade
Surveys theory and research in nonverbal communication including eye behavior, facial expressions, gestures and vocal cues.
Prerequisite: COM 1000.

SPC 3513 Argumentation 3 Credits
Grading Scheme: Letter Grade
Implementation of principles and methods advocating factual claims and policy proposals. Also discusses propositional analysis, evidence as demonstration, effecting reasoning processes to become experimental for listeners and ethics in controversy.
Prerequisite: SPC 2608 or instructor permission.

SPC 3513 Research Methods 3 Credits
Grading Scheme: Letter Grade
Studies principles and methods of selected forms of public speaking for various purposes, audiences and contexts.
Prerequisite: SPC 2608 or equivalent.

SPC 4301 Advanced Interpersonal Communication 3 Credits
Grading Scheme: Letter Grade
Analysis of interpersonal communication in various professional and social settings shown through case studies, role plays and discussion that all illustrate how emotions and social expectations shape communication.
Prerequisite: SPC 2300 or instructor permission.
SPC 4425 Small Group Communication 3 Credits
Grading Scheme: Letter Grade
Communication in small groups with emphasis in practical applications, skill development and current research and theory.
Prerequisite: COM 1000.

SPC 4710 Patterns of Intercultural Communication 3 Credits
Grading Scheme: Letter Grade
Explores practices and difficulties of communication between and among people of contrasting cultures. Includes investigation of theory and research by which intercultural communication problems can be mitigated. (N and S) (WR)
Prerequisite: COM 1000 or equivalent.
Attributes: General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

SPC 4905 Directed Individual Study in Communication Studies 1-3 Credits
Grading Scheme: Letter Grade
Directed individual study in communication studies designed for the advanced student who wants to pursue an in-depth area of study not provided in regularly offered courses. Directed individual study could involve independent readings or individual projects under faculty guidance.
Prerequisite: instructor permission.

SPC 4911 Undergraduate Research in Speech Communication 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in speech communication. Projects may involve inquiry, design, investigation, scholarship, discovery, or application in speech communication.

Digital Worlds Institute

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

The Digital Worlds Institute is on the cutting edge of digital arts and sciences — both in research initiatives and innovative approach to education. The institute is a recognized leader in combining arts, communications, engineering and science, with a focus on advanced media systems.

102 FINE ARTS A
GAINESVILLE FL 32611
Map (http://campusmap.ufl.edu/#/index/0597)

Curriculum
• Digital Arts and Sciences Minor
• Digital Arts and Sciences | Bachelor of Arts
• Digital Arts and Sciences | Bachelor of Arts UF Online

Courses

DIG 2005 Introduction to Digital Technologies 3 Credits
Grading Scheme: Letter Grade
Comprehensive introduction to fundamental digital technologies and computing concepts; covers history of computing, binary arithmetic, Boolean logic, file formats, computer architecture, databases, networking, security/privacy, and ethics.

DIG 2121 Principles of Digital Visualization 3 Credits
Grading Scheme: Letter Grade
Develops appreciation and basic fluency in the application of visual and design literacy into emergent forms of digital media. Historical and theoretical perspectives inform hands-on learning across topics including pre-visualization and storyboarding in static and time-based media, and the critical analysis of contemporary and iconic visual storytelling.

DIG 2632 Creating Mobile Games 3 Credits
Grading Scheme: Letter Grade
Introduces designing mobile video games with simple drag and drop programming and basic asset creation. Covers the essential principles of design and development needed to create effective arcade-style games. Provides a solid foundation in the technical skills needed to create multi-platform mobile games.

DIG 2930 Special Topics: Foundations of Digital Culture 3 Credits
Grading Scheme: Letter Grade
In-depth examination of the technological and cultural underpinnings that shape current electronic media including video games, the internet, computer-animated movies, and virtual reality.

DIG 2931C Special Topics in Digital Media 1-3 Credits
Grading Scheme: Letter Grade
Special topics course to address contemporary digital arts and sciences issues. This flexible pedagogic mechanism provides DAS a dimension of vitality that compliments theory-based offerings with an up-to-the-minute examination of emergent cultural and technological events and developments.
Prerequisite: instructor permission.

DIG 2930 Special Topics: Foundations of Digital Culture 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary overview of the technological and cultural developments that continue to shape the modern world. Student research covers topics including telecommunications, digital and analog technologies, video games, computer-generated entertainment and the rise of social media. (WR)
Prerequisite: (Digital Arts and Sciences BA major) or instructor permission.
Attributes: Satisfies 4000 Words of Writing Requirement

DIG 3020 Foundations of Digital Culture 3 Credits
Grading Scheme: Letter Grade
Introduces designing mobile video games with simple drag and drop programming and basic asset creation. Covers the essential principles of design and development needed to create effective arcade-style games. Provides a solid foundation in the technical skills needed to create multi-platform mobile games.

DIG 3097 Entrepreneurship in New Media 3 Credits
Grading Scheme: Letter Grade
Introduces designing mobile video games with simple drag and drop programming and basic asset creation. Covers the essential principles of design and development needed to create effective arcade-style games. Provides a solid foundation in the technical skills needed to create multi-platform mobile games.

DIG 3031C Special Topics in Digital Media 1-3 Credits
Grading Scheme: Letter Grade
Special topics course to address contemporary digital arts and sciences issues. This flexible pedagogic mechanism provides DAS a dimension of vitality that compliments theory-based offerings with an up-to-the-minute examination of emergent cultural and technological events and developments.
Prerequisite: instructor permission.

DIG 3090 Entrepreneurship in New Media 3 Credits
Grading Scheme: Letter Grade
Introduces designing mobile video games with simple drag and drop programming and basic asset creation. Covers the essential principles of design and development needed to create effective arcade-style games. Provides a solid foundation in the technical skills needed to create multi-platform mobile games.

DIG 3031C Special Topics in Digital Media 1-3 Credits
Grading Scheme: Letter Grade
Special topics course to address contemporary digital arts and sciences issues. This flexible pedagogic mechanism provides DAS a dimension of vitality that compliments theory-based offerings with an up-to-the-minute examination of emergent cultural and technological events and developments.
Prerequisite: instructor permission.

DIG 3110 Digital Arts and Sciences 3 Credits
Grading Scheme: Letter Grade
Introduces designing mobile video games with simple drag and drop programming and basic asset creation. Covers the essential principles of design and development needed to create effective arcade-style games. Provides a solid foundation in the technical skills needed to create multi-platform mobile games.

DIG 3910 Directed Individual Study in Digital Technologies 1-3 Credits
Grading Scheme: Letter Grade
Directed individual study in digital technologies designed for the advanced student who wants to pursue an in-depth area of study not provided in regularly offered courses. Directed individual study could involve independent readings or individual projects under faculty guidance.
Prerequisite: instructor permission.

DIG 3911 Undergraduate Research in Speech Communication 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in speech communication. Projects may involve inquiry, design, investigation, scholarship, discovery, or application in speech communication.

DIG 3920 Foundations of Digital Culture 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary overview of the technological and cultural developments that continue to shape the modern world. Student research covers topics including telecommunications, digital and analog technologies, video games, computer-generated entertainment and the rise of social media. (WR)
Prerequisite: (Digital Arts and Sciences BA major) or instructor permission.
Attributes: Satisfies 4000 Words of Writing Requirement

DIG 3930 Special Topics: Foundations of Digital Culture 3 Credits
Grading Scheme: Letter Grade
In-depth examination of the technological and cultural underpinnings that shape current electronic media including video games, the internet, computer-animated movies, and virtual reality.

DIG 3931C Special Topics in Digital Media 1-3 Credits
Grading Scheme: Letter Grade
Special topics course to address contemporary digital arts and sciences issues. This flexible pedagogic mechanism provides DAS a dimension of vitality that compliments theory-based offerings with an up-to-the-minute examination of emergent cultural and technological events and developments.
Prerequisite: instructor permission.

DIG 3990 Entrepreneurship in New Media 3 Credits
Grading Scheme: Letter Grade
Introduces designing mobile video games with simple drag and drop programming and basic asset creation. Covers the essential principles of design and development needed to create effective arcade-style games. Provides a solid foundation in the technical skills needed to create multi-platform mobile games.

DIG 3991 Undergraduate Research in Speech Communication 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in speech communication. Projects may involve inquiry, design, investigation, scholarship, discovery, or application in speech communication.

DIG 39920 Foundations of Digital Culture 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary overview of the technological and cultural developments that continue to shape the modern world. Student research covers topics including telecommunications, digital and analog technologies, video games, computer-generated entertainment and the rise of social media. (WR)
Prerequisite: (Digital Arts and Sciences BA major) or instructor permission.
Attributes: Satisfies 4000 Words of Writing Requirement

DIG 39930 Special Topics: Foundations of Digital Culture 3 Credits
Grading Scheme: Letter Grade
In-depth examination of the technological and cultural underpinnings that shape current electronic media including video games, the internet, computer-animated movies, and virtual reality.

DIG 39931C Special Topics in Digital Media 1-3 Credits
Grading Scheme: Letter Grade
Special topics course to address contemporary digital arts and sciences issues. This flexible pedagogic mechanism provides DAS a dimension of vitality that compliments theory-based offerings with an up-to-the-minute examination of emergent cultural and technological events and developments.
Prerequisite: instructor permission.
DIG 3124 Principles of Interaction & Usability 3 Credits
Grading Scheme: Letter Grade
This course introduces students to the principles of interaction and usability for digital interfaces and systems. The course focuses on identifying end-users' needs and providing solutions tailored to those needs through interaction design, cognitive and emotional aspects of digital interfaces, visual aesthetics, data gathering, prototyping, and evaluation.
Prerequisite: Digital Arts and Sciences major.

DIG 3305C 3D Digital Animation Techniques 3 Credits
Grading Scheme: Letter Grade
Introduces the foundations of creating 3D digital environments and animations; implement industry-standard animation principles and practices, including reference-centric animation and polygonal modeling.
Prerequisite: DAR major and DIG 3313C with minimum grade of C.

DIG 3313C 2D Digital Animation Techniques 3 Credits
Grading Scheme: Letter Grade
Introduces foundational knowledge of animation in a 2D space; learn how to design and implement character, abstract, and shape animation.
Prerequisite: Digital Arts and Sciences BA major.

DIG 3433 Digital Storytelling 3 Credits
Grading Scheme: Letter Grade
Develops a framework for integrating participation and storytelling as the foundation of interactivity. Explores how story is incorporated into contemporary interactive platforms such as games and other digital media, including virtual worlds, video blogs and social networks.
Prerequisite: Digital Arts and Sciences BA major with junior standing or higher.

DIG 3506 Interdisciplinary Design Methods for Digital Arts and Sciences 2 Credits
Grading Scheme: Letter Grade
Comprehensive overview of industry and academy standard design methods and processes. Interdisciplinary design practices from process-focused fields like interaction design, human-centered design, design research and computer-supported collaborative work. Construction and delivery of needs analyses, audience analyses, and design documents, and iterative design practices including rapid prototyping, user-testing, real-time research, conceptual design and agile development. Students will use one of these design frameworks to take a DAS design prototype from conceptualization to user-testing.
Prerequisite: Digital Arts and Sciences BA major with junior standing or higher.

DIG 3521 Project Methodologies 3 Credits
Grading Scheme: Letter Grade
This course introduces skills for successfully planning and managing digital projects. Focusing on the production of digital games, animation, and digital audio/video, students will learn about management life cycle, project parameters, matrix management challenges, effective project management tools and techniques, interpersonal skills, and the role of a project manager.
Prerequisite: Digital Arts and Sciences major.

DIG 3525C DAS Design and Production Studio 1 3 Credits
Grading Scheme: Letter Grade
Provides digital imaging and design foundations in visualization. Also offers an introduction to the foundation of interface tools in industry standard digital imaging software.
Prerequisite: Digital Arts and Sciences BA major.

DIG 3525C DAS Design and Production Studio 2 3 Credits
Grading Scheme: Letter Grade
Working within an interdisciplinary digital arts and sciences (DAS) design and production studio environment, students will focus on network and Internet-based technologies, delivery systems and content generation. Students will participate in the creation of two major collaborative group projects or one major semester-long project.
Prerequisite: Digital Arts and Sciences BA major and DIG 3525C with minimum grade of C.

DIG 3588C Digital Portfolio 1-3 Credits
Grading Scheme: Letter Grade
Provides technical and design skills for the creation of a digital portfolio with interactive media suitable for distribution, including DVD and a portfolio website. Also covers techniques for using and linking social media, digital branding and personal marketing.
Prerequisite: Digital Arts and Sciences BA major of junior standing or higher.

DIG 3691 Blockchain Innovation in Digital Arts and Sciences 3 Credits
Grading Scheme: Letter Grade
Comprehensive survey of relevant topics in blockchain and its impact on digital arts and sciences; provides an overview of the technology behind blockchain and explores current and potential real-world applications in arts, digital entrepreneurship, and creativity.
Prerequisite: Digital Arts and Sciences B.A. major with junior standing or higher.

DIG 3713 Game Content Production 1 3 Credits
Grading Scheme: Letter Grade
Provides both theoretical and practical knowledge and essential technical skills for the conceptualization and digital visualization of video game assets. Covers the principles and practical applications of industry-standard software suites. Emphasizes developing strong foundational skills, compelling conceptual ideas, and self-motivated problem solving.
Prerequisite: Digital Arts and Sciences BA major.

DIG 3713 Game Content Production 2 3 Credits
Grading Scheme: Letter Grade
Elaborates on concepts, processes and technical practices introduced in DIG3713C; use game design fundamentals to craft effective digital games. Detailed examination of conceptual techniques in game design and their use in DAS design practice; comparative introduction of frameworks for game design; technical components of 2D and 3D game design.
Prerequisite: Digital Arts and Sciences major and DIG 3713 with minimum grade of C.

DIG 3873 Game Systems Development 1 3 Credits
Grading Scheme: Letter Grade
This course will introduce the fundamental principles of game development and programming language. Students will become familiar with input output, variables, arithmetic operations, if-else conditional statement and their use in game development. Students will also learn about the basic understanding of object-oriented programming (OOP) within the industry.
Prerequisite: Digital Arts and Sciences BA major
DIG 3878 Game Systems Development 2 3 Credits
Grading Scheme: Letter Grade
This course will cover fundamental principles of game engine programming such as basic collision detection, input detection, instantiate, destroy game object, and others. The student will also learn how to use game engines to develop various applications such as personal computer (PC) and mobile games, augmented/virtual reality projects, and others.
Prerequisite: DIG 3873 with minimum grade of C.

DIG 4151 Advanced Writing for Interactive Media 3 Credits
Grading Scheme: Letter Grade
DIG 4154 Writing for Interactive Media 3 Credits
Grading Scheme: Letter Grade
Provides in-depth analysis and opportunity to hone writing skills needed in the creation and development of interactive digital media. Students will investigate approaches for generating high-quality writing and the blend between development, planning, technical and creative writing through writing the documents to support a digital media project's development and production.
Prerequisite: Digital Arts and Sciences BA major of senior standing.

DIG 4171C Digital Tools for Arts and Humanities 3 Credits
Grading Scheme: Letter Grade
Study of digital applications, games, tools, and social networks to enhance research in the arts and humanities; examines and expands on current theoretical discussions, applications, and methodologies. An interdisciplinary group project embraces collaborative research and offers hands-on experience with digital tools.
Prerequisite: Junior level or higher

DIG 4255C Audio Design for Digital Production 3 Credits
Grading Scheme: Letter Grade
Professional techniques for the creation of audio content for variety of applications in the digital arts and sciences. Software tools for conversion, storing, processing and retrieval of sound in a variety of digital formats. Fundamentals of loop-based audio design, sampling and work with an industry standard software with linear and interactive digital media.
Prerequisite: Digital Arts and Sciences BA major of senior standing.

DIG 4283 Music and Sound Design for Digital Media 3 Credits
Grading Scheme: Letter Grade
Investigates techniques, tools and current research in music and sound design for digital media for DAR and DAS non-music majors.

DIG 4306C Advanced Digital Animation Techniques 3 Credits
Grading Scheme: Letter Grade
Practical principles and techniques of 3D software environments for animation. Includes triangular mesh design and editing, splines (NURBS), shading techniques and lighting, different camera projection models, rendering techniques, and efficient use of GPU for photo realistic real-time 3D animation.
Prerequisite: (Digital Arts and Sciences BA major and DIG 3305C with minimum grade of C) or instructor permission.

DIG 4354 3D Character Animation 3 Credits
Grading Scheme: Letter Grade
This course teaches techniques for 3D character animations. Students will practice character development, pipeline management, procedural framework simulation, and basic rigging alongside studies of motion picture animation. By the end of the course, students will master industry-standard tools to animate basic 3D objects, 3D bipedal motion, and key-framing.
Prerequisite: DAR major and DIG4306C with minimum grade of C.

DIG 4361C Advanced 2D Digital Animation Techniques 3 Credits
Grading Scheme: Letter Grade
Develop advanced industry-standard practices in digital 2D animation. Within a collaborative environment, create a 3D second film in order to learn the production pipeline, time management, and task allocation while demonstrating advanced animation techniques.
Prerequisite: DIG 3313C with minimum grade of C and Digital Arts and Sciences B.A. major.

DIG 4527C Game Design and Production 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary approach to game design and production. Emphasizes rapid prototyping, agile design, collaboration, and project management in a relatively short development cycle. Work on idea pitches, write concept proposals, and work to develop a video game.
Prerequisite: DAR major and DIG3715(C) AND DIG3878(C)

DIG 4540C Production of Immersive Environments 3 Credits
Grading Scheme: Letter Grade
Projects cover the foundational knowledge of immersive technologies such as AR and VR; provides hands-on experience developing a fully functioning immersive experience prototype.
Prerequisite: DIG 3305C and DIG 3878 with minimum grades of C and Digital Arts and Sciences B.A. major with junior standing or higher.

DIG 4583C DAS Design and Production Studio 4 3 Credits
Grading Scheme: Letter Grade
As the capstone academic experience resulting from work within the interdisciplinary DAS environment, students will choose their own semester-long project that solves a problem or presents a new technical or cultural capability via enhanced human-computer interaction.
Prerequisite: DAR major and DIG 4527C with minimum grade of C.

DIG 4634 Wearable and Mobile App Development 3 Credits
Grading Scheme: Letter Grade
Examines software development protocols for wearable and mobile electronics such as head-mounted displays, watches, and cellphones. Studies several embedded input/output interfaces, including position and orientation sensors, hand trackers, holographic, and stereoscopic displays. Materials are practiced by developing prototype software applications for such devices.
Prerequisite: DIG 3878 with minimum grade of C.

DIG 4841 Undergraduate Research Forum 3 Credits
Grading Scheme: Letter Grade
Seminar focuses on collaborative interdisciplinary research in the digital arts and sciences. Develop, refine, and present research projects and process related to traditional and contemporary industry concerns, practices, and trajectories.
Prerequisite: DAR major and senior standing.

DIG 4905 Independent Study 1-4 Credits
Grading Scheme: Letter Grade
Independent study of special or individual DIG projects and issues, under faculty supervision.
Prerequisite: consent of faculty member supervising the study.

DIG 4917 Undergraduate Research in DAS 0-3 Credits
Grading Scheme: S/U
Provides research experience at the intersection of digital arts and sciences. Research assistants work directly with faculty to explore and produce various research in interactive tools and technologies. Accelerate professional development as both a researcher and digital artist.
Prerequisite: Junior level or higher.
DIG 4930 Special Topics in DAS 1-4 Credits  
Grading Scheme: Letter Grade  
Special Topics provides upper-level DAS students with a comprehensive study of current/significant topics in the digital arts and sciences. Special Topics allows faculty to offer courses in emergent technologies, theories, and methodologies not already included in the curriculum, and provide students with the knowledge and skills necessary in these areas.  
Prerequisite: Digital Arts and Sciences major.

DIG 4932 Colloquium in Digital Arts and Sciences 1 Credit  
Grading Scheme: S/U  
Seminars explores current affairs in the field of digital arts and sciences. Research, communicate, and analyze the contemporary trends in digital arts and sciences.  
Prerequisite: DAR major and senior standing.

DIG 4940 Internship 1-3 Credits  
Grading Scheme: S/U  
Internship encourages reflection on position, company, industry, and experience. After completing the assignments, students should be able to articulate the role internship had in their career development.  
Prerequisite: DAR major.

DIG 4942 Undergraduate Course Assistant 0-3 Credits  
Grading Scheme: S/U  
Provides hands-on experience teaching digital arts and sciences at the college level. Under the supervision of a faculty member, lab assistants help prepare and discuss course materials, work with students during office hours, and play a critical role in facilitating learning.  
Prerequisite: DAR major and junior or higher standing.

DIG 4944C Production Practicum 0-3 Credits  
Grading Scheme: S/U  
Production Practicum will provide DAS students hands-on experience producing and executing real-world digital media projects. Students will participate in many production roles, collaborating with peers and clients in a professional studio environment. In the process, students will accelerate their professional development as a producer within the digital arts and sciences.  
Prerequisite: Junior level or higher.

DIG 4970 Senior Project in DAS 2-3 Credits  
Grading Scheme: Letter Grade  
Successful completion of this capstone experience demonstrates mastery of requisite knowledge, technical acumen, and problem solving skills in the digital arts and sciences. May be either an individual or team-based project.  
Prerequisite: senior status enrolled in the BA in DAS program.

Dutch | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.  
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information
The Department of Economics offers a vibrant undergraduate curriculum. Students enjoy close and meaningful interactions with the faculty through rigorous and engaging courses. A diverse menu of elective courses covers exciting and relevant topics like growth and development, international trade and finance, public policy analysis and evaluation, and strategic business decisions. Students are strongly encouraged to pursue outside-of-the-classroom learning through internships and study abroad.

Curriculum
- Combination Degrees
- Economics
- Economics Minor

Courses
ECO 2013 Principles of Macroeconomics 4 Credits
Grading Scheme: Letter Grade
The nature of economics, economic concepts and institutions; growth, unemployment and inflation; money and banking; economic policies; and the international economy. (S)
Attributes: General Education - Social Science

ECO 2023 Principles of Microeconomics 4 Credits
Grading Scheme: Letter Grade
Theories of production, determination of prices and distribution of income in regulated and unregulated industries. Attention is also given to industrial relations, monopolies and comparative economic systems. (S)
Attributes: General Education - Social Science

ECO 2310 Economics of Sustainability 3 Credits
Grading Scheme: Letter Grade
Examines issues of environmental sustainability from an economic perspective. Discusses economic treatment of renewable and nonrenewable resources, land constraints, and global climate change. Identifies potential policy solutions grounded in economic theory.

ECO 3101 Intermediate Microeconomics 4 Credits
Grading Scheme: Letter Grade
Nature, scope and purpose of economic analysis. Examines the theory of consumer behavior, production, costs, firm behavior and the allocation of resources. (S)
Prerequisite: (ECO 2023 and (MAC 2233 or higher level calculus course)) or AEB 3103
Attributes: General Education - Social Science

ECO 3203 Intermediate Macroeconomics 4 Credits
Grading Scheme: Letter Grade
Theoretical determinants of aggregate employment, income, expenditures and the price level. Keynesian and neoclassical models are analyzed.
Prerequisite: ECO 2013 and ECO 2023 and (MAC 2233 or higher level calculus course).

ECO 3532 Public Choice 4 Credits
Grading Scheme: Letter Grade
Role of voters, special interests, legislators and the bureaucracy in determining government expenditure, taxation and other economic policies. Economic models of voting and the structure of governments. (S)
Prerequisite: ECO 2023.
Attributes: General Education - Social Science

ECO 3704 International Trade 4 Credits
Grading Scheme: Letter Grade
Prerequisite: ECO 2013 and ECO 2023.

ECO 3713 International Macroeconomics 4 Credits
Grading Scheme: Letter Grade
Macroeconomic theory of an open economy. Current monetary issues of the world economy. The international monetary system, exchange rate determination, balance of payments adjustment mechanism, international financial institutions and their policies. Macroeconomic policies and national income determination in an open economy.
Prerequisite: ECO 2013 and (ECO 2023 or AEB 3103).

ECO 4104 Economics of Competitive Strategy 4 Credits
Grading Scheme: Letter Grade
Focuses on identification and analysis of competitive strategies in expanding markets. Draws on strategic management, the economics of technological change and RD investments, and dynamic game theory, to address challenges faced by firms. Examines demand-based network externalities, the dynamics of pricing rivalry, industry evolution, RD strategies entry and exit decisions.
Prerequisite: ECO 2013 and ECO 2023 and (ECO 3101 or ECO 3704) and (MAC 2233 or higher).

ECO 4213 Monetary Economics 4 Credits
Grading Scheme: Letter Grade
An integrated examination of how banks impact the money supply, monetary policy and financial markets. Topics include: the historical features of money; banking and money supply; goals and tools of monetary policy; and banks as financial intermediaries.
Prerequisite: ECO 2013 and ECO 2023.

ECO 4270 Economic Growth 4 Credits
Grading Scheme: Letter Grade
Examines global history of economic growth and development. Introduces classical and modern theories of economic growth. Develops mainstream models of exogenous and endogenous growth. Compares insights from these models to real-world data.
Prerequisite: (MAC 2233 or higher) and (ECO 3101 or ECP 3703)
ECO 4400 Game Theory and Applications 4 Credits  
**Grading Scheme:** Letter Grade  
Introduces modern game theory, including the formal theory of Nash equilibrium and solutions techniques. Applications include strategic barriers of entry; cooperative behavior in oligopoly, auctions and bidding strategies; and durable goods sales.  
**Prerequisite:** ECO 2023 and (MAC 2233 or MAC 2234 or MAC 2311 or MAC 2312 or MAC 2313) and (ECO 3101 or ECP 3703).  

ECO 4401 Mathematical Economics 4 Credits  
**Grading Scheme:** Letter Grade  
Introduces fundamental mathematical tools employed in economic analysis. Covers comparative static analysis, introduces linear algebra, constrained and unconstrained optimization, and dynamic analysis using differential and difference equations. Examines applications from a wide range of subfields in economics, including consumer theory, macroeconomics, economic growth, and environmental economics.  
**Prerequisite:** (ECO 2013 and ECO 2023 and ECO 3101) or (ECO 3203 and MAC 2233 or higher).  

ECO 4421 Econometrics 4 Credits  
**Grading Scheme:** Letter Grade  
Introduces concepts and methods used in empirical economic research. Emphasizes practical use of basic econometric techniques to estimate economic relationships and evaluate policy. Covers topics needed to plan and implement empirical projects, and understand potential problems with the empirical analyses of others.  
**Prerequisite:** STA 2023 and (MAC 2233 or higher) and ECO 3101.  

ECO 4422 Econometrics 2 4 Credits  
**Grading Scheme:** Letter Grade  
**Prerequisite:** ECO 4421.  

ECO 4504 Public Economics 4 Credits  
**Grading Scheme:** Letter Grade  
Market failures and the role of the government in providing goods and services, like education and infrastructure, in a market economy. The role of the government in the provision of various types of social insurance like health insurance, social security and welfare. The effects of taxes on economic behavior.  
**Prerequisite:** ECO 2013 and ECO 2023 and (MAC 2233 or higher) and (ECO 3101 or ECP 3703).  

ECO 4935 Empirical Research in Economics Seminar 4 Credits  
**Grading Scheme:** Letter Grade  
After getting some background in economic empirical methodology, statistics, and statistical software and discussing some representative empirical papers, each economics student develops an empirical model and subjects it to statistical testing, helped by several class presentations.  
**Prerequisite:** ECO 2013 and ECO 2023.  

ECO 4941 Internship in Economics 1-3 Credits  
**Grading Scheme:** S/U  
Applied work in economics. Requires several papers and reports. Counted as a free-elective credit only. (S-U)  
**Prerequisite:** department permission.  

ECO 4956 International Studies in Economics 1-4 Credits  
**Grading Scheme:** Letter Grade  
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.  

ECO 4970 Honors Thesis 1-4 Credits  
**Grading Scheme:** S/U  
A thesis is required for the awarding of the magna cum laude or summa cum laude designations. To qualify, students will normally have completed 90 semester credits of coursework (exceptions may be made by the honors coordinator of the student’s major department) and must have at least the grade point average (3.6) required for the magna cum laude designation at the time they enroll. The thesis will be reviewed by at least one faculty member chosen by the honors coordinator for the student’s major department. Counted as a free-elective credit only. (S-U)  
**Prerequisite:** 90 credits earned and 3.6 UF GPA.  

ECP 3006 Economics of Sports 4 Credits  
**Grading Scheme:** Letter Grade  
Examines the business of sports using economic theory as a framework for analysis. Topics covered include the economics of sports leagues, labor negotiations and arbitration, pricing decisions, discrimination, corruption in sports, gambling, sports memorabilia and antitrust policy.  
**Prerequisite:** ECO 2023 and (MAC 2233 or higher level calculus course) and (ECO 3101 or ECP 3703).  

ECP 3203 Labor Economics 4 Credits  
**Grading Scheme:** Letter Grade  
Determinants of demand for labor and labor supply. Labor market equilibrium and changes in the equilibrium due to changes in unionization, public policies, technology and trade. Study of the effects of skill, job amenities and discrimination on wage differentials. (S)  
**Prerequisite:** ECO 3101 or ECP 3703  
**Attributes:** General Education - Social Science  

ECP 3302 Environmental Economics and Resource Policy 4 Credits  
**Grading Scheme:** Letter Grade  
The relations between environmental quality, resource utilization, and economic institutions and policy. Examines alternative strategies and policies in solving the problems of environmental quality and resource scarcity. (S)  
**Prerequisite:** ECO 2023. Credit will not be awarded for both ECP 3302 and AEB 3450.  
**Attributes:** General Education - Social Science
ECP 3403 Industrial Organization 4 Credits  
**Grading Scheme:** Letter Grade  
Examines the structure of markets and the behavior of firms operating in imperfectly competitive markets. Develops models of imperfectly competitive markets and compares the insights and predictions from each. Investigates firms’ strategic profit-maximizing decisions regarding prices, product differentiation, market entry and exit, and product promotion.  
**Prerequisite:** ECO 2023, (MAC 2233 or higher level calculus course), and (ECO 3101 or ECP 3703)

ECP 3510 Economics of Education 4 Credits  
**Grading Scheme:** Letter Grade  
Uses economic concepts to analyze the education system and education policy options. Topics covered include class size, No Child Left Behind legislation, public vs. private schools, and vouchers.  
**Prerequisite:** ECO 2023.

ECP 3530 Health Care Economics 4 Credits  
**Grading Scheme:** Letter Grade  
Analysis of health care markets, employing efficiency and equity criteria. Evaluation of current health care policies and their effects on cost, access and quality. Topics covered include the production of and demand for health and medical care; information asymmetries between patients, doctors, and payers; health insurance coverage; the effects of managed care (including HMOs) on competition, efficiency, and quality; training and practice of physicians; hospitals; prescription drug pricing; government regulations; Medicare and Medicaid; health care reform.  
**Prerequisite:** ECO 2023.

ECP 3703 Managerial Economics 4 Credits  
**Grading Scheme:** Letter Grade  
Analysis of the firm’s decisions regarding prices, outputs and inputs, advertising, etc. under various market conditions. Reliance is placed upon both theories and applications.  
**Prerequisite:** ECO 2023 and MAC 2233 or higher. Credit will not be awarded ECO 3101 and ECP 3703.

ECP 4403 Government Regulation of Business 4 Credits  
**Grading Scheme:** Letter Grade  
The evolution, statutory foundation and methods of governmental regulation. Antitrust regulation of competitive practices. (S)  
**Prerequisite:** ECO 2023 and (MAC 2233 or higher level calculus course) and (ECO 3101 or ECP 3703).  
**Attributes:** General Education - Social Science

ECP 4451 Law and Economics 4 Credits  
**Grading Scheme:** Letter Grade  
Analyzes the interaction between law and economics, and evolution of legal rules; efficiency of alternative rules on pollution and public goods, enforcement of contracts, deterrence of crime, and protection of consumers; and efficiency versus fairness.  
**Prerequisite:** ECO 2023 and (MAC 2233 or higher level calculus course) and (ECO 3101 or ECP 3703).

ECS 3403 Economic Development of Latin America 4 Credits  
**Grading Scheme:** Letter Grade  
A critical assessment of Latin American political economy and economic development. Topics covered include economic history from the colonial period forward; commodity price cycles and balance of payment fluctuations; import substitution industrialization; international indebtedness; trade liberalization; inflation stabilization policies; poverty eradication difficulties.  
**Prerequisite:** ECO 2013 and ECO 2023.

ECS 4013 Economic Development 4 Credits  
**Grading Scheme:** Letter Grade  
Examines different theories of economic growth and development of low-income and middle-income countries. Covers microeconomic and macroeconomic models relevant to understanding development and analyzing various policy proposals. Analyzes history and empirical evidence of global economic growth and development.  
**Prerequisite:** ECO 2013, ECO 2023, MAC 2233 or higher, and ECO 3101

ECS 4110 Africa in the Global Economy 4 Credits  
**Grading Scheme:** Letter Grade  
Examines the African continent position globally, looking both at the challenges as well as at the options available to African nations to get a fair and better deal in the global economy. Main topics: international trade and global value chains; WTO rules and negotiations especially with regard to agriculture; aid to Africa; economic reforms, the World Bank and IMF; the debt crisis; migration and African Diaspora.  
**Prerequisite:** ECO 2013 and ECO 2023. Students with credit for ECS 4111 will not get credit for ECS 4110.

ECS 4111 African Economic Development 4 Credits  
**Grading Scheme:** Letter Grade  
Deals with the most pressing issues facing Sub-Saharan African countries in their quest for socio-economic development. Although the main focus is on contemporary issues and forthcoming challenges, we will also turn to more or less recent historical facts whenever necessary to shed light on the present. Main topics are economic growth, politics and institutions, international trade, agricultural and industrial development, poverty and inequality, access to basic social services, the environment and gender issues.  
**Prerequisite:** ECO 2013 and ECO 2023. Students with credit for ECS 4110 will not get credit for ECS 4111.

**Education | School of Human Development and Organizational Studies**

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.

*Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.*

**Courses**

EDA 4930 Special Topics 1-3 Credits  
**Grading Scheme:** Letter Grade  
Topics vary.

EDF 3110 Human Growth and Development 3 Credits  
**Grading Scheme:** Letter Grade  
A life span survey of human growth and development beginning at conception and ending with death. Students will have the opportunity to apply general principles in appropriate educational settings. (S)  
**Attributes:** General Education - Social Science
EDF 3115 Child Development for Inclusive Education 3 Credits
Grading Scheme: Letter Grade
Examines psychological theories and research on typical and atypical development and their application in general education classrooms that include children with sensory, mental, emotional, and learning disabilities and gifted and talented children.

EDF 3132 The Young Adolescent 3 Credits
Grading Scheme: Letter Grade
Development of the young adolescent between the ages of ten and fifteen.

EDF 3135 The Adolescent 3 Credits
Grading Scheme: Letter Grade
The special role that the adolescent plays in total development. Emphasis is on the psychological development of the adolescent in the school.
Prerequisite: junior standing or higher or department permission.

EDF 3210 Educational Psychology 3 Credits
Grading Scheme: Letter Grade
Introduces the application of psychology to the problems of education in a variety of educational settings. It examines the theoretical and applied aspects of learning, motivation, human development, personality, and measurement and evaluation. (S) (WR)
Attributes: General Education · Social Science, Satisfies 6000 Words of Writing Requirement

EDF 3423 Educational Research Design 3 Credits
Grading Scheme: Letter Grade
Prerequisite: EDF 4430.

EDF 3935 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Topics vary.
Prerequisite: department permission.

EDF 4140 Cognition in Education 3 Credits
Grading Scheme: Letter Grade
Examines cognitive science that explains learning in educational contexts. Specifically, reviewing memory, attention, thinking, and problem solving in classroom or applied settings. Pays special attention to the connections between research and everyday phenomena; designed to help students apply course material to enhance their lives.
Prerequisite: EDF 3210

EDF 4430 Measurement and Evaluation in Education 3 Credits
Grading Scheme: Letter Grade
The basic principles and methods of measurement, evaluation and test construction.
Prerequisite: junior standing or higher or department permission.

EDF 4440 Program Evaluation in Educational Settings 3 Credits
Grading Scheme: Letter Grade
Overview to the skills and methods required to assess the effectiveness and impact of educational programs and institutions. First presents program evaluation in the broader setting of the social sciences, followed by evaluation readings and activities tailored specifically to educational settings.
Prerequisite: EDF 4430

EDF 4470 Survey Research Methods in Education 3 Credits
Grading Scheme: Letter Grade
Overview of the theory and application of survey research methods, with special emphasis on conducting survey research in educational settings. Presents the full process of survey research, including design, implementation, analysis, and data management.
Prerequisite: EDF 4430

EDF 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
For juniors or seniors who wish to explore areas of inquiry in psychological, social, or philosophical foundations of education, or research or measurement, under faculty guidance.

EDG 4910 Education Undergraduate Research 0-3 Credits
Grading Scheme: S/U
Supports mentored scholarship work that enables individual students to engage in the research process of posing questions, collecting and analyzing data, drawing evidence-based conclusions and communicating the results to others. Projects may involve inquiry, design, investigation, scholarship, discovery or application depending on the topic. (S-U)

EDH 3410 Introduction to Education Policy 3 Credits
Grading Scheme: Letter Grade
Introduces education policy and analysis that explores the history and purpose of education policy, key federal and state policies impacting K12 and higher education, and theoretical and conceptual approaches to policy analysis.
Prerequisite: EDF 3604.

MHS 3930 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Topics vary.

MHS 4900 Individual Work 2-4 Credits
Grading Scheme: Letter Grade
Topics vary.
Prerequisite: department permission.

SDS 3340 Career and Life Span Planning 3 Credits
Grading Scheme: Letter Grade
Presentations, discussions and experiential activities for making effective life plans and adjustments are covered.

SDS 3430 Family and Community Involvement in Education 3 Credits
Grading Scheme: Letter Grade
Examines existing models and practices for enhancing family-school-community interaction with emphasis on communication, conflict resolution and climate-building skill development.

SDS 3480 Student Development in a University Setting 2 Credits
Grading Scheme: Letter Grade
Available to selected undergraduate students only. Examines factors affecting student growth and development in the university setting, current problems facing students, and the use of group processes and leadership training in solving problems and facilitating growth.

SDS 3481 Alcohol and Drug Abuse 2 Credits
Grading Scheme: Letter Grade
General information of effects and problems associated with alcohol and other drug abuse.

SDS 3482 Stress and Anxiety Management 3 Credits
Grading Scheme: Letter Grade
Overview of theories and methods of stress and anxiety control and reduction.
SDS 4410 Interpersonal Communication Skills 3 Credits
Grading Scheme: Letter Grade
The application of basic principles of interpersonal communication with emphasis on the affective dimensions. Attention is given to using basic counseling strategies and psychological techniques as an aid to effective communication.

Education | School of Special Education, School Psychology and Early Childhood Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

EDF 2085 Teaching Diverse Populations 3 Credits
Grading Scheme: Letter Grade
Surveys educational demographics, foundations of prejudice, elements of culture, political and philosophical roots of diversity and commonality, exceptionalities, and barriers to cultural understanding and diversity in the classroom. A minimum of 30 hours of field experience is required with 15 hours in a diverse setting. See also: EDF 1005 and EME 2040. (D and S)
Attributes: General Education - Diversity, General Education - Social Science

EDF 3122 The Young Child 3 Credits
Grading Scheme: Letter Grade
Studies growth and development during infancy and early childhood. Laboratory includes observation and participation in nursery school and kindergarten.

EDF 3433 Introduction to Educational Measurement and Evaluation 2 Credits
Grading Scheme: Letter Grade
Surveys principles and methods of educational measurement with an emphasis on evaluation and diagnosis of students in school settings.
Prerequisite: STA 2023; knowledge of descriptive statistics, correlation and regression; inferential statistics and tests on means; and department permission for freshmen and sophomores.

EDG 4910 Education Undergraduate Research 0-3 Credits
Grading Scheme: S/U
Supports mentored scholarship work that enables individual students to engage in the research process of posing questions, collecting and analyzing data, drawing evidence-based conclusions and communicating the results to others. Projects may involve inquiry, design, investigation, scholarship, discovery or application depending on the topic. (S-U)

EEC 3005 Professionalism in Preschool and Childcare 3 Credits
Grading Scheme: Letter Grade
Ethical standards, professional guidelines, informed advocacy, and collaboration to support the development of children in child care and preschool settings.
Prerequisite: admission to B.S. in Early Childhood Studies.

EEC 3213 Language and Literacy Development in Preschool 4 Credits
Grading Scheme: Letter Grade
Provides an understanding of the phases of language and literacy development in children ages 3-5.
Prerequisite: admission to B.S. in Early Childhood Studies.

EEC 3404 Families, Diversity and Multicultural Considerations in Early Childhood 4 Credits
Grading Scheme: Letter Grade
The role of family and influence of community on development and learning of young children in diverse society.

EEC 3421 Teaching Math and Science in Early Childhood 3 Credits
Grading Scheme: Letter Grade
Techniques and methods for teaching preschool to third grade mathematics and science. Topics include psychological understandings, problem solving processes, integration of mathematics and science curricula, organizing for instruction, teaching methodology, alternative assessments and applying the process approach to learning activities through use of centers, cooperative learning, hands-on manipulatives and discovery type experiments.
Prerequisite: junior/senior-level EMR in Unified Early Childhood Education.

EEC 3941 Practicum in Early Childhood Education 1-3 Credits
Grading Scheme: S/U
Field experience in pre-service early childhood education.
Prerequisite: enrollment in Unified Early Childhood PROTEACH.

EEC 4204 Infant-Toddler Curriculum 3 Credits
Grading Scheme: Letter Grade
Design, implementation and evaluation of curriculum to support the development of infants and toddlers in child care programs.
Prerequisite: admission to B.S. in Early Childhood Studies.

EEC 4212 Mathematics and Science in the Preschool Years 3 Credits
Grading Scheme: Letter Grade
Development and promotion of mathematics and science skills, concepts and dispositions in the preschool years.
Prerequisite: admission to B.S. in Early Childhood Studies.

EEC 4215 Early Childhood Science and Social Studies 3 Credits
Grading Scheme: Letter Grade
Integrated curriculum course for science and social studies from the perspective of constructivist theory. Designed to promote understanding of similarities in ways in which children construct basic science and social studies concepts.
Prerequisite: junior/senior-level EMR in Unified Early Childhood Education.

EEC 4252 Early Childhood Curriculum and Management 3 Credits
Grading Scheme: Letter Grade
Develops knowledge of best practices in curriculum, management, and teaching in the early childhood years. Includes the contribution of child development theory and research to the design and implementation of appropriate early childhood programming, and discusses using theme-based units and play for integrating curriculum.

EEC 4268 Play and Integrated Curriculum in the Preschool Years 3 Credits
Grading Scheme: Letter Grade
Uses theme-based units and play to integrate curriculum for preschool-aged children.
Prerequisite: admission to B.S. in Early Childhood Studies.
EEC 4314 Behavior Management in the Preschool Years 3 Credits
Grading Scheme: Letter Grade
Understanding, preventing and responding to challenging behavior in preschool age children.

EEC 4315 Promoting Social Competence in the Preschool Years 3 Credits
Grading Scheme: Letter Grade
Methods to facilitate peer interaction and promote the development of social competence for preschool age children.

EEC 4712 Social Competence in Early Childhood 3 Credits
Grading Scheme: Letter Grade
Techniques for implementing developmentally appropriate strategies that promote children's self-responsibility and self-discipline. Examination of practices that help young children learn conflict resolution, effective interaction skills and prosocial behavior.
Prerequisite: junior/senior-level EMR in Unified Early Childhood Education.

EEC 4942 Practicum in Early Literacy 3 Credits
Grading Scheme: Letter Grade
This practicum course provides students with an opportunity to practice and demonstrate competence in early literacy assessment, instruction, and intervention in an early childhood classroom setting. Students will apply their literacy knowledge and skills with PreK-Grade 3 students. The practicum will include both small-group and whole-class instruction.

EEX 2000 Impact of Disabilities: Home, Community and Workplace 3 Credits
Grading Scheme: Letter Grade
How disabilities impact the lives of individuals who have disabling conditions and how the presence of individuals with disabilities enhances diversity in a variety of settings. The impact of disabilities in home, community and work environments. Physical, cognitive and emotional/behavioral disabilities are considered. (D and S)
Attributes: General Education - Diversity, General Education - Social Science

EEX 3012 Introduction to Special Education 3 Credits
Grading Scheme: Letter Grade
Overview of special education characteristics and definitions of disabilities, the referral process and service delivery models. Information on the history of, legal basis for and contemporary issues in special education.

EEX 3062 Early Childhood Special Education Curriculum 3 Credits
Grading Scheme: Letter Grade
Content knowledge in developing and implementing individualized educational programs for the pre-kindergarten child with disabilities, including developmentally appropriate curriculum; methods, interventions strategies, teaming approaches, inclusion and mainstreaming issues; and approaches and techniques for serving the child and the family.

EEX 3070 Teachers and Learners in the Inclusive School 3 Credits
Grading Scheme: Letter Grade
Characteristics of, identification of and teaching practices for exceptional children in mainstream education. Designed for general education majors, both elementary and secondary.
Prerequisite: junior standing or higher.

EEX 3093 Exceptional People in School and Society 3 Credits
Grading Scheme: Letter Grade
Persons with disabilities and people from other diverse groups and the services they need from school and society for success. Consideration of the abilities, causes and educational implications. May not be taken in lieu of EDF 2085. (D and S)
Attributes: General Education - Diversity, General Education - Social Science

EEX 3097 Social Perspectives on Disability 3 Credits
Grading Scheme: Letter Grade
Covers issues relevant to people with disabilities, their families and others with whom they have contact through community, employment or other settings. Specifically, historical views of people with disabilities and current disability-related issues are examined. Provides a framework for understanding disabilities and disability-related issues within cultural contexts.
Prerequisite: EEX 2000 or EEX 3093.

EEX 3226 Assessment in Early Childhood Special Education 3 Credits
Grading Scheme: Letter Grade
Use of informal and formal evaluation techniques to develop individualized educational programs for young children with disabilities and individualized family support plans for infants and toddlers with disabilities and their families. An emphasis is the implementation of a multidisciplinary team approach in the assessment of young children.

EEX 3257 Core Teaching Strategies 3 Credits
Grading Scheme: Letter Grade
Helps pre-service teachers develop instruction that provides diverse learners meaningful access to the school curriculum, and assist them in becoming self-regulated learners.

EEX 3261 Core Classroom Management Strategies 3 Credits
Grading Scheme: Letter Grade
Helps pre-service teachers learn classroom management strategies that develop a positive classroom community for students with disabilities and other diverse learners. They will learn organizational and management strategies to assist students in managing their behavior.

EEX 3604 Educational Programming for Infants and Toddlers with Disabilities 3 Credits
Grading Scheme: Letter Grade
Overview of issues, trends and best practices in the education of infants and toddlers who are at-risk or disabled (birth to three).

EEX 4280 Disabilities in Community and Employment 3 Credits
Grading Scheme: Letter Grade
In-depth look at aspects of the community and work experiences for adults with disabilities and the individuals who interact with them. Effective practices that foster accepting and supportive environments that ensure successful life outcomes are discussed.
Prerequisite: EEX 2000 or EEX 3093.

EEX 4294 Differentiated Instruction 3 Credits
Grading Scheme: Letter Grade
Provides preservice teachers with information and expertise related to instruction to that effectively meets the academic needs of all students in inclusive settings.
EEX 4520 Disabilities: Legal Aspects and Policies 3 Credits  
**Grading Scheme:** Letter Grade  
Development and enactment of laws and policies designed to protect the rights of persons with disabilities. Examines The Americans with Disabilities Act as well as other significant legislation contributing to policies affecting this population. Examines disability legislation/policy on local, state, national, and international levels.  
**Prerequisite:** EEX 2000 or EEX 3093.

EEX 4754 Family Focused Involvement in Early Childhood Special Education 3 Credits  
**Grading Scheme:** Letter Grade  
Professional skills working with families of young children with disabilities, including understanding of family systems theory, assessing family strengths and needs, developing individual family support plans (IFSP) or individual educational plan (IEP), and enhancing communication and counseling skills. Understanding families from diverse cultures.

EEX 4790 Multicultural Issues in Early Childhood Special Education 3 Credits  
**Grading Scheme:** Letter Grade  
Cultural and linguistic diversity among young children with disabilities and their families.

EEX 4810 Seminar on Disability 3 Credits  
**Grading Scheme:** Letter Grade  
Identify and analyze current disability issues and literature on the integration of individuals with disabilities in the workplace, post-secondary education, community, and adult life. Students complete a culminating activity investigating a disability topic or applying disability-related knowledge to their academic discipline or anticipated professional practice.  
**Prerequisite:** EEX 3097 or EEX 4280 or EEX 4520.

EEX 4837 Practicum Early Child 3 Credits  
**Grading Scheme:** S/U  
Student-teaching classroom experience in art.

EDE 4905 Individual Study 1-3 Credits  
**Grading Scheme:** Letter Grade  
In-depth study of a problem that relates to teacher preparation. The project must be approved and supervised by a department faculty member.

EDE 4942 Integrated Teaching in Elementary Education 2 Credits  
**Grading Scheme:** S/U  
This field component is an intensive experience completed during the integrated semester in language arts and social studies in the inclusive classrooms. (S-U)  
**Prerequisite:** EEX 3070;  
**Corequisite:** EEX 4905

EDF 1005 Introduction to Education 3 Credits  
**Grading Scheme:** Letter Grade  
Overview of education, teaching and schools; a survey of historical, philosophical and social foundations; and an orientation to professional education and the code of ethics. Thirty hours of field experience is required. This is the first of three prerequisite core courses for those who plan to be teachers. EDF 2085 and EME 2040 continue the sequence.
EDF 3083 International and Comparative Education 3 Credits
Grading Scheme: Letter Grade
Examines the political, economic, and cultural contexts of schooling in various parts of the world; introduces theoretical perspectives and comparative methods for interpreting the significance of educational policies and practices in light of globalization.
Prerequisite: EDF 3604.

EDF 3514 History of Education in the United States 3 Credits
Grading Scheme: Letter Grade
The development of American schools and major problems in American education; emphasizes the relationships among the schools, intellectual movements and social institutions. (H)
Attributes: General Education - Humanities

EDF 3604 Social Foundations of Education 3 Credits
Grading Scheme: Letter Grade
Educative effects of social structures and social values and the issues involved in appraising these effects, including the resulting social demands upon schools.
Attributes: General Education - Social Science

EDF 3609 Sociological and Historical Foundations of Education 3 Credits
Grading Scheme: Letter Grade
A sociological and historical analysis of schooling in American society. Aims of education are examined in relation to social structures, institutions and values; subcultures; social stratification; school law; and democracy and the sociology of the teaching profession.
Prerequisite: junior standing or higher or department permission.

EDF 4930 Schools on Screen: American Education in Popular Media 3 Credits
Grading Scheme: Letter Grade
Explores how the movies and television have portrayed educators and students over time; investigates the ways in which those representations have helped to shape popular impressions of American schooling.
Prerequisite: EDF 3604.

EDF 4003 Global Issues in K-12 Education 3 Credits
Grading Scheme: Letter Grade
Overview of current global issues and strategies for incorporating them into the K-college curriculum.

EDG 4203 Elementary and Secondary Curriculum 3 Credits
Grading Scheme: Letter Grade
Purposes, organization, curriculum and issues of elementary and secondary schools and roles of educators.

EDG 4905 Individual Study 1-6 Credits
Grading Scheme: Letter Grade
Individual Study

EDG 4910 Education Undergraduate Research 0-3 Credits
Grading Scheme: S/U
Supports mentored scholarship work that enables individual students to engage in the research process of posing questions, collecting and analyzing data, drawing evidence-based conclusions and communicating the results to others. Projects may involve inquiry, design, investigation, scholarship, discovery or application depending on the topic. (S-U)

EDG 4930 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Topics vary.

EME 2040 Introduction to Educational Technology 3 Credits
Grading Scheme: Letter Grade
Introduces computer productivity (word processing, databases, spreadsheets, painting, drawing, layouts); multimedia (media design, digital video, presentation); communications (internet, Eric); educational software (computer-aided instruction, public domain software); interactive media (linked environments, one-to-many, presentations using electronic tools); reference materials (electronic encyclopedia, atlases, clip art, libraries, internet); instructional applications (techniques); and ethical.

EME 3044 Issues and Trends in Educational Technology 3 Credits
Grading Scheme: Letter Grade
Introduces the field of educational technology and its history and allows an exploration of current topics and trends in educational technology research and application.
Prerequisite: EME 3813.

EME 3319 Design and Development of Educational Multimedia 3 Credits
Grading Scheme: Letter Grade
Introduces the principles, methods, and tools for the design and development of multimedia applications, including incorporation of sound, animation, still images, video, and other media in educational technology.
Prerequisite: EME 3813.

EME 3813 Technology-Enhanced Learning Environments 3 Credits
Grading Scheme: Letter Grade
Analyzes how people learn in technology-enhanced environments, outlines how the design of technology-enhanced systems can support or undermine learning, and considers critical issues for instructors, designers, and learners in the digital age.
Prerequisite: EME 2040.

EME 4010 Distance Education Research and Practice 3 Credits
Grading Scheme: Letter Grade
Examines the concepts, technologies, and issues related to the analysis, design, development, implementation, policy-making, and evaluation of distance education courses and programs. Create an online module based on design principles and quality guidelines.
Prerequisite: EME 3813.

EME 4320 Instructional Development for Teaching and Learning 3 Credits
Grading Scheme: Letter Grade
Design and develop instructional materials using emerging technologies. Topics include programming, authoring packages, design principles, and development procedures. Development includes web-based and mobile-based authoring and programming activities.
Prerequisite: EME 4673.

EME 4401 Integrating Technology in the Elementary Curriculum 3 Credits
Grading Scheme: Letter Grade
Prepares elementary majors to effectively use technology in teaching and learning.
Prerequisite: Formal admission to the upper division Unified Elementary ProTeach program.

EME 4406 Integrating Technology into the Secondary Curriculum 3 Credits
Grading Scheme: Letter Grade
Gain experience with curriculum design and course development, which assumes use of technology.
EME 4673 Introduction to Instructional Design 3 Credits
Grading Scheme: Letter Grade
Introduces the processes, methods, and techniques involved with systematic design on instruction. Topics include needs assessment, goal analysis, learner and context analysis, performance objectives, assessment instruments, instructional strategies, development procedures, formative and summative evaluation.
Prerequisite: EME 3813.

ESE 4340C Effective Teaching and Classroom Management in Secondary Education 3 Credits
Grading Scheme: Letter Grade
Basic strategies for curriculum planning, instruction, classroom organization and student behavior management.

ESE 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
In-depth study of a problem that relates to preparation as secondary education teachers. The project must be approved and supervised by a department faculty member.

LAE 3005 Children's Literature 3 Credits
Grading Scheme: Letter Grade
Introduces genres of children’s literature, critical response theory, strategies for critically evaluating books for instructional and aesthetic purposes, and strategies for generating personal, critical and aesthetic responses to literature from diverse and inclusive student populations.

LAE 4314 Language Arts for Diverse Learners 3 Credits
Grading Scheme: Letter Grade
Analysis of content, materials and methods for teaching language arts in an inclusive elementary school classroom.
Prerequisite: Formal admission to the upper division Unified Elementary ProTeach program.

LAE 4604 Language Arts for Diverse Learners in Early Education 3 Credits
Grading Scheme: Letter Grade
Focuses on the early developmental levels of writing and different definitions of writing, including writing as composing, writing as spelling/encoding and writing as handwriting. Addresses instructional strategies appropriate for teaching young children to write and explores instructional approaches from different theoretical perspectives.
Prerequisite: RED 3309.

MAE 2364 Explorations Teaching Secondary Mathematics and Science 3 Credits
Grading Scheme: Letter Grade
Introduces prospective teachers to teaching secondary mathematics and science (grades 6-12).

MAE 3312 Mathematics Content for Elementary Teachers 3 Credits
Grading Scheme: Letter Grade
Analysis of the content and methods necessary to effectively teach content from the number, algebra, and geometry strands of mathematics in the inclusive elementary classroom. Provides pre-service teachers with the underlying content and pedagogical content knowledge necessary to effectively teach mathematics.
Prerequisite: Elementary Education major.

MAE 4310 Teaching Mathematics in the Inclusive Elementary School 3 Credits
Grading Scheme: Letter Grade
Analyzes content, materials and methods of teaching mathematics in the inclusive elementary classroom. Prepares the future teacher of mathematics for facilitation of instruction to meet the needs of all children, including children with disabilities.
Prerequisite: Formal admission to the upper division Unified Elementary ProTeach program.

MUE 4940 Student Teaching in Music Education 9-10 Credits
Grading Scheme: S/U
Student teaching in selected classrooms of public schools. Special seminars and continuous evaluation of teaching experiences. (S-U)
Prerequisite: Music major.

RED 3307 Teaching Reading in Primary Grades 3 Credits
Grading Scheme: Letter Grade
Studies constructivist theory of how children learn and the sociopsycholinguistic theory of language learning. Focuses on how children construct knowledge about and learn to use written language.

RED 3309 Emergent Literacy and Beginning Reading Instruction 3 Credits
Grading Scheme: Letter Grade
Provides students with knowledge to support emergent literacy in young children and teaching beginning reading in the early primary grades. Designed to provide students with theoretical and practical knowledge and experiences that prepare them to teach in a variety of applicable educational settings.
Prerequisite: LIN 3710.

RED 3312 Content Area Literacy 3 Credits
Grading Scheme: Letter Grade
Studies the fundamental knowledge necessary to teach basic reading skills in the elementary school classroom.

RED 4324 Reading in the Intermediate Grades 3 Credits
Grading Scheme: Letter Grade
Theory and practice for teaching reading in grades 3-6; develop expertise in literacy strategy and instruction in the classroom. Instruction is always embedded in the context of current educational policies. Become familiar with current research on reading, recent educational policy development, and issues of teaching in a diverse society.
Prerequisite: Formal admission to the upper division Unified Elementary ProTeach program.

SCE 4113L Elementary Science Content 3 Credits
Grading Scheme: Letter Grade
Overview of integrated science content essential for developing K-6 science curriculum. The course includes science-specific pedagogy and translation of the science content knowledge into grade specific activities aligned with the national science content standards for K-12 and the Next Generation Sunshine State Standards.
Prerequisite: Elementary education majors

SCE 4310 Elementary Science Methods for the Inclusive Classroom 3 Credits
Grading Scheme: Letter Grade
Materials and methodology related to teaching the concepts and processes of science. Prepares pre-service teachers to teach science concepts and processes to all children, including those with disabilities.
Prerequisite: Formal admission to the upper division Unified Elementary ProTeach program.
SMT 1661 Step 1: Inquiry Approaches to Teaching Mathematics and Science 1 Credit
Grading Scheme: Letter Grade
Introduces the evidence-based teaching practices necessary to design and deliver excellent mathematics and science instruction. Students engage in early field experiences in a local elementary school classroom to explore mathematics and science teaching as a career.

SMT 1662 Step 2: Inquiry Based Lesson Design in Mathematics and Science Education 2 Credits
Grading Scheme: Letter Grade
Introduces inquiry-based lesson design that supports effective instructional techniques for middle school mathematics and science teaching.
Prerequisite: SMT 1661 with minimum grade of C.

SMT 3100 Knowing and Learning in Mathematics and Science Teaching 3 Credits
Grading Scheme: Letter Grade
Investigates theories of knowing and learning in mathematics and science and implications for teaching secondary mathematics and science. (S)
Prerequisite: sophomore standing or higher.
Attributes: General Education - Social Science

SMT 3301C Classroom Interactions in Mathematics and Science Education 3 Credits
Grading Scheme: Letter Grade
Overview of principles for teaching middle and secondary school mathematics or science through an exploration of the role of content, pedagogy, curriculum and technology as they promote learning and impact equity.
Prerequisite: MAE 2364 and SMT 3100 with minimum grades of C.

SMT 3664 Project-Based Instruction in Math and Science Education 3 Credits
Grading Scheme: Letter Grade
Overview of project-based instruction as an investigative and collaborative teaching approach in mathematics and science education.
Prerequisite: MAE 2364; Corequisite: SMT 3100

SMT 4945 Apprenticeship in Secondary Mathematics and Science Teaching 4-6 Credits
Grading Scheme: Letter Grade
UFTeach capstone experience. Students apply previously learned techniques and theoretical perspectives of mathematics or science education within a secondary school classroom setting.
Prerequisite: SMT 1661 and (SMT 1662 or MAE 2364) and SMT 3100 with minimum grades of C.

SSE 4312 Social Studies for Diverse Learners 3 Credits
Grading Scheme: Letter Grade
Studies goals, methods and evaluation procedures for social studies curriculum in elementary schools (K - 6).

TSL 3323 ESOL and Reading for Teachers 3 Credits
Grading Scheme: Letter Grade
Develop an understanding of literacy teaching and learning, with a dual focus on native speakers of English and English language learners; focuses on methods and materials used to support the development of proficient and critical adolescent readers in academic content areas.

TSL 3520 Foundations: Language and Culture in Classrooms 3 Credits
Grading Scheme: Letter Grade
Examines issues of language and culture relevant to school-age learners of English as a Second Language (ESOL).

TSL 4100 ESOL Curriculum, Methods and Assessment 3 Credits
Grading Scheme: Letter Grade
Extends understanding of ways that language and culture affect second-language learners' participation and learning in elementary classrooms. Create appropriate and challenging curriculum content, materials and assessments to create meaningful and equitable learning environments for native English speakers and second-language learners.
Prerequisite: TSL 3520.

TSL 4324 ESOL Strategies for Content Area Teachers 3 Credits
Grading Scheme: Letter Grade
Overview of the issues relevant to ESOL learners and develops the skills to teach ESOL students in content area classes.

Electrical and Computer Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

Electrical engineers study electricity and design electrical systems that solve problems—how to make your smartphones smarter; how to make your refrigerator run more efficiently; coming up with the optimal temperature to heat pizza in your microwave; designing the audio and visual technology that brings movies to life.

Curriculum
• Combination Degrees
• Computer Engineering
• Electrical Engineering
• Electrical Engineering Minor

Although not specifically stated in each course description, the prerequisites for all courses, except those required by other departments, may include classification as an electrical engineering student in good standing. In order to use a course as a prerequisite for an EEE/EEL-prefixed course, a minimum grade of C is required in the prerequisite course.
Courses

CEN 3907C Computer Engineering Design 1 3 Credits
Grading Scheme: Letter Grade
Reinforce basic computer engineering skills; design, produce, and report on a computer engineering project, meeting defined specifications and using a structured design methodology and project management.
Prerequisite: CEN 3031 and EEL 3744C with minimum grades of C.

CEN 3908C Computer Engineering Design 2 3 Credits
Grading Scheme: Letter Grade
Selected capstone design projects involving engineering applications in the various areas of computer engineering. Must be taken prior to the semester of graduation.
Prerequisite: CEN 3907C with minimum grade of C and senior standing.

EEE 3308C Electronic Circuits 1 4 Credits
Grading Scheme: Letter Grade
Fundamentals of electronic circuits and systems. Laboratory.
Prerequisite: EEL 3008 and EEL 3112.

EEE 3396C Solid-State Electronic Devices 4 Credits
Grading Scheme: Letter Grade
Introduces the principles of semiconductor electron device operation. Laboratory.
Prerequisite: EEL 3008.

EEE 4210 Introduction to Biophotonics 3 Credits
Grading Scheme: Letter Grade
Introduces the principles of optics, lasers and biology, the interaction of light with cells and tissues, and various optical imaging, sensing and activation techniques and their applications in biomedicine.
Prerequisite: EEL 3003 or EEL 3111C with minimum grade of C.

EEE 4222 Resonant MEMS 3 Credits
Grading Scheme: Letter Grade
Fundamentals of resonant micro-electro-mechanical systems (resonant MEMS) and their applications.
Prerequisite: EEL 3135 and EEL 3112 or instructor permission.

EEE 4260C Bioelectrical Systems 4 Credits
Grading Scheme: Letter Grade
Covers the theoretical and quantitative perspective of bioelectrical signals reflecting the activity of the brain, the muscles, and the heart. Examines bases of modeling, measuring, processing and analyzing bioelectrical signals and systems, as well as common clinical applications. Laboratory.
Prerequisite: EEL 3008 and EEL 3112.

EEE 4306 Electronic Circuits II 3 Credits
Grading Scheme: Letter Grade
Design-oriented continuation of EEE 3308C; feedback, op amp circuits and applications, digital electronics.
Prerequisite: EEE 3308C.

EEE 4310 Digital Integrated Circuits 3 Credits
Grading Scheme: Letter Grade
Analysis and design of digital circuits using MOS and bipolar devices.
Prerequisite: EEE 3308C and EEL 3701C.

EEE 4329 Future of Microelectronics Technology 3 Credits
Grading Scheme: Letter Grade
Surveys state-of-the-art microelectronics technology and prospects for future technologies. Topics include nanoscale MOSFETs, strained Si, high-k gate dielectrics, carbon nanotubes, molecular electronics and single-electron devices.
Prerequisite: EEE 3396C or equivalent.

EEE 4331 Microelectronic Fabrication Technologies 3 Credits
Grading Scheme: Letter Grade
Principles of microelectronic device fabrication. Emphasis on the fundamentals of microfabrication processing and microelectronic device process flows.
Prerequisite: EEE 3396C.

EEE 4373 Radio-Frequency Electronics 3 Credits
Grading Scheme: Letter Grade
Fundamental RF theory (such as resonant circuits, matching, noise and transmission lines), radio operation and design of key RF circuit blocks (such as amplifiers, mixers and oscillators).
Prerequisite: EEE 3308C.

EEE 4404 Mixed Signal IC Testing I 3 Credits
Grading Scheme: Letter Grade
Fundamentals of testing IC devices and systems: test specifications, parametric training, measurement accuracy, test hardware, sampling theory, digital signal processing based testing, and calibrations. Circuit analysis and design with analog and mixed-signal systems. Labs on testing passive components, LDOs, Op-amps, DACs/ADCs, Mixed-Signal ICs Labview and the National Instruments Savage Tester.
Prerequisite: EEE 3308C and EEL 3701C with minimum grades of C.

EEE 4414 Modern Memory Device Technologies 3 Credits
Grading Scheme: Letter Grade
State-of-the-art volatile and nonvolatile memory device technologies and their limitations. Emerging memory device technologies, including those that could be adopted by industry in the next decades due to their potential performance, density, power and cost advantages.
Prerequisite: EEE3396C

EEE 4420 Introduction to Nanodevices 3 Credits
Grading Scheme: Letter Grade
Physical principles of modern solid-state devices and their applications, quantum mechanics and fundamentals of nanoelectronics.
Prerequisite: EEE 3396C.

EEE 4511C Real Time Digital Signal Processing Applications 4 Credits
Grading Scheme: Letter Grade
Real world digital signal processing (DSP) tasks are presented and solved in a lab environment that utilizes a Floating Point DSP and a development simulation and hardware emulation tool. Laboratory.
Prerequisite: EEL 3135 and EEL 3744C.

EEE 4701 Automated Hardware/Software Verification 3 Credits
Grading Scheme: Letter Grade
Develop modeling, formal specification, and automated verification skills for analyzing complex hardware and/or software systems. Hands-on experience with model checking tools.
Prerequisite: EEL 3744C or equivalent and COP 3530 or equivalent.

EEE 4714 Introduction to Hardware Security and Trust 3 Credits
Grading Scheme: Letter Grade
Fundamentals of hardware security and trust for integrated circuits. Cryptographic hardware, invasive and non-invasive attacks, side-channel attacks, physically unclonable functions (PUFs), true random number generation (TRNG), watermarking of Intellectual Property (IP) blocks, FPGA security, counterfeit detection, hardware Trojan detection, and prevention in IP cores and integrated circuits.
Prerequisite: EEL 4712C with minimum grade of C.
EEE 4720 Acoustics 3 Credits
Grading Scheme: Letter Grade
Governing equations for wave theory of sound; Character of plane acoustic waves and 3-D acoustic fields; Sound transmission/reflection at an interface between two media; Waves transmission/attenuation inducts; Low frequency approximations (lumped-element modeling) and transducers; sources of sound.
Prerequisite: MAP 2302 and (EEL 3111C or EEL 3003) with minimum grades of C or instructor permission.

EEE 4773 Fundamentals of Machine Learning 3 Credits
Grading Scheme: Letter Grade
Overview of machine intelligence and the role of machine learning in a variety of real-world problems. Probability and statistics to handle uncertain data. Topics covered include: learning models from data in both a supervised and unsupervised fashion, linear models and non-linear models for classification, and linear dimensionality reduction.
Prerequisite: EEL 3135 or equivalent and STA 3032 or equivalent.

EEL 3000 Introduction to Electrical and Computer Engineering 2 Credits
Grading Scheme: Letter Grade
Introduces electrical and computer engineering tools, both hardware and software. Professional ethics, career development. Assemble and test hardware project to provide hands-on experience.
Prerequisite: MAC 2311.

EEL 3008 Physics of Electrical Engineering 3 Credits
Grading Scheme: Letter Grade
Introduces the fundamental physics underlying components and devices and their application to electronics, power, and wireless.
Prerequisite: EEL 3111C and MAC 2313 and MAP 2302.

EEL 3111C Circuits 1 4 Credits
Grading Scheme: Letter Grade
Basic analysis of DC and AC electric circuits. Laboratory.
Prerequisite: MAC 2312 and PHY 2049.

EEL 3112 Circuits 2 Credits
Grading Scheme: Letter Grade
Continuous-time signals and linear systems: Fourier series and transforms, frequency, response, Laplace transform and system function, analog filters; emphasis on electrical circuits. Sampling.
Prerequisite: EEL 3000 and EEL 3111C and EEL 3135 and MAP 2302.

EEL 3135 Introduction to Signals and Systems 4 Credits
Grading Scheme: Letter Grade
Continuous-time and discrete-time signal analysis including Fourier series and discrete-time and discrete Fourier transforms; sampling; discrete-time linear system analysis with emphasis on FIR and IIR systems: impulse response, frequency response, and system function; MATLAB-based programming for Signals and Systems.
Prerequisite: MAC 2313.

EEL 3211C Basic Electric Energy Engineering 4 Credits
Grading Scheme: Letter Grade
Analysis and modeling of power system components. Magnetic circuits, energy conservation, transformers, and AC and DC rotating machines. Laboratory.
Prerequisite: EEL 3008.

EEL 3402 Remote Sensing in Engineering: Science, Sensors and Applications 3 Credits
Grading Scheme: Letter Grade
Remote sensing theory, systems and applications using information obtained from the visible/near infrared, thermal infrared and microwave regions of the EM spectrum.
Prerequisite: MAP 2302 or equivalent.

EEL 3472C Fundamentals of Electromagnetic Fields 4 Credits
Grading Scheme: Letter Grade
Reviews the vector calculus needed for the study of electromagnetic fields and their applications. Considers both static and dynamic fields, including radiation and propagation both in free space and in waveguide structures. The associated laboratory reinforces classroom instruction.
Prerequisite: EEL 3008.

EEL 3701C Digital Logic and Computer Systems 4 Credits
Grading Scheme: Letter Grade
Overview of logic design, algorithms, computer organization and assembly language programming and computer engineering technology. Laboratory.
Prerequisite: Knowledge of a programming language.

EEL 3744C Microprocessor Applications 4 Credits
Grading Scheme: Letter Grade
Experience in the elements of microprocessor-based systems, hardware interfacing and software design for their application. Laboratory.
Prerequisite: EEL 3701C.

EEL 3834 Programming for Electrical and Computer Engineers 4 Credits
Grading Scheme: Letter Grade
Overview of logic design, algorithms, computer organization and assembly language programming and computer engineering technology. Laboratory.
Prerequisite: Knowledge of a programming language.

EEL 3923C Electrical Engineering Design 1 3 Credits
Grading Scheme: Letter Grade
Teams design, produce, and report on a hardware prototype, meeting defined specifications and using a structured design methodology. Includes project management, hardware prototyping, and project reporting.
Prerequisite: EEE 3008 and EEE 3112 and EEL 3744C and 1 course from breadth elective list.

EEL 4242C Power Electronic Circuits 3 Credits
Grading Scheme: Letter Grade
Circuit topologies, analysis, design and simulation of electronic circuits such as power supplies, and motor drives.
Prerequisite: EEL 3308.

EEL 4248 Fundamentals of RF and Power Electronic Devices 3 Credits
Grading Scheme: Letter Grade
Introduces important semiconductor device technologies for high speed electronics, power electronics, and energy harvesting applications.
Prerequisite: EEE 3396C.

EEL 4251 Power System Analysis 3 Credits
Grading Scheme: Letter Grade
Development of power system equivalents by phase network analysis, load flow, symmetrical components, sequence networks, and fault analysis.
Prerequisite: EEL 3211C.
EEL 4598 Computer Communications 3 Credits
Grading Scheme: Letter Grade
Introduces computer networking, emphasizing data communication, and the lower layers of the OSI and TCP/IP protocol architectures.
Prerequisite: EEL 4514C.

EEL 4523 Audio Engineering 3 Credits
Grading Scheme: Letter Grade
Introduces audio and sound engineering that includes the underlying theory of acoustics, electronics and signal processing; demonstrates modern audio engineering practice as applied to music, home audio, recording and sound reinforcement.
Prerequisite: EEL 3111C or EEL 3003, or instructor permission.

EEL 4540 Introduction to Radar 3 Credits
Grading Scheme: Letter Grade
Basic principles of cw and pulsed radar; angle, range, and Doppler tracking; accuracy and resolution; signal design.
Prerequisite: EEL 4514C.

EEL 4598 Computer Communications 3 Credits
Grading Scheme: Letter Grade
Introduces computer networking, emphasizing data communication, and the lower layers of the OSI and TCP/IP protocol architectures.
Prerequisite: (EEL 3834 or COP 2271 or equivalent) and junior standing or higher.

EEL 4599 Wireless and Mobile Networks 3 Credits
Grading Scheme: Letter Grade
Senior-level study of wireless and mobile networks. Investigates telecommunication architectures and protocols for wireless sensor networks and wireless embedded systems; Wi-Fi and wireless local area networks; mobile ad-hoc networks; next generation cellular systems and satellite networks.
Prerequisite: EEL 3701C.
EEL 4610 State Variable Methods in Linear Systems 3 Credits
Grading Scheme: Letter Grade
Development of state-variable approach to linear continuous-time and discrete-time systems with emphasis on the design of feedback control systems.
Prerequisite: EEL 4657C.

EEL 4657C Linear Control Systems 4 Credits
Grading Scheme: Letter Grade
Theory and design of linear control systems. Laboratory.
Prerequisite: EEL 3112 and EEL 3744C.

EEL 4665C Intelligent Machines Design Laboratory 4 Credits
Grading Scheme: Letter Grade
Design simulation, fabrication, assembly and testing of intelligent robotic machines. Laboratory.
Prerequisite: (EEL 3744C or EML 3005) or instructor permission.

EEL 4712C Digital Design 4 Credits
Grading Scheme: Letter Grade
Advanced modular logic design, design languages, finite state machines and binary logic. Laboratory.
Prerequisite: EEL 3701C.

EEL 4713C Digital Computer Architecture 4 Credits
Grading Scheme: Letter Grade
The use of electronic digital modules to design computers. Includes the organization and operation of computers, hardware/software trade-offs and design of computer interfacing. Laboratory.
Prerequisite: EEL 3701C and EEL 4712C.

EEL 4720 Reconfigurable Computing 3 Credits
Grading Scheme: Letter Grade
Fundamental concepts at advanced undergraduate level in reconfigurable computing based upon advanced technologies in field-programmable logic devices. Topics include general concepts, device architectures, design tools, metrics and kernels, system architectures and application case studies.
Prerequisite: EEL 4712C.

EEL 4732 Advanced Systems Programming 3 Credits
Grading Scheme: Letter Grade
Develop a deep understanding of operating system concepts and systems programming fundamentals and gain hands-on experience in systems programming by using Pthreads as well as implementing Linux device drivers and testing/verifying systems code for deadlock and race-freedom.
Prerequisite: EEL 3701C and EEL 3834 and COP 4600 or equivalents.

EEL 4736 Principles of Computer System Design 3 Credits
Grading Scheme: Letter Grade
Broadly introduces the main principles and abstractions for engineering hardware and software systems. Includes in-depth studies of their use on computer systems across a variety of designs, be it an operating system, a client/server application, a database server or a fault-tolerant disk cluster.
Prerequisite: EEL 4712C and EEL 3834.

EEL 4745C Microprocessor Applications 2 4 Credits
Grading Scheme: Letter Grade
Implementation of a Real-Time Operating System on an ARM Cortex M processor to create more robust and complex microprocessor applications. Introduction to IoT applications.
Prerequisite: EEL 3744C with minimum grade of C and proficiency in programming in C.

EEL 4750 Foundations of Digital Signal Processing 3 Credits
Grading Scheme: Letter Grade
Analysis and design of digital filters for discrete signal processing, spectral analysis and fast Fourier transform.
Prerequisite: EEL 3135.

EEL 4853 Cross Layered System Security 3 Credits
Grading Scheme: Letter Grade
Develop an understanding of the principles of computer security, as it crosses layers of abstraction (application, operating system, hardware, and network). Learn the challenges of building secure computer systems with examples and hands-on assignments. Current research on these challenges will be discussed. Students will review and present conference papers.
Prerequisite: EEL 3834 or equivalent and EEL 4736 or equivalent.

EEL 4905 Individual Problems in Electrical Engineering 1-4 Credits
Grading Scheme: Letter Grade
Selected problems or projects in the student’s major field of engineering study.

EEL 4912 Integrated Product and Process Design 1 3 Credits
Grading Scheme: Letter Grade
First part of two in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes, on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: EEE 3308C and EEL 3701C.

EEL 4913 Integrated Product and Process Design 2 3 Credits
Grading Scheme: Letter Grade
Second part of two in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes, on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: EEL 4912.

EEL 4924C Electrical Engineering Design 2 3 Credits
Grading Scheme: Letter Grade
Selected design projects involving engineering applications in the various areas of electrical engineering. Laboratory.
Prerequisite: EEL 3923C and two breadth electives and one depth elective.

EEL 4930 Special Topics in Electrical Engineering 1-4 Credits
Grading Scheme: Letter Grade
Special courses covering selected topics in electrical engineering.

EEL 4948 Practical Work in Electrical and Computer Engineering 1 Credit
Grading Scheme: S/U
One term industrial employment, including extra work according to a pre-approved outline. Practical engineering work under industrial supervision, as set forth in the Herbert Wertheim College of Engineering regulations. 
Prerequisite: Engineering major of junior standing or higher.

EEL 4949 Co-op Work Experience 1 Credit
Grading Scheme: S/U
Practical co-op engineering work under approved industrial supervision.
Prerequisite: Engineering major.
EGN 1935 Special Topics in Freshman Engineering 1-3 Credits
Grading Scheme: Letter Grade
Laboratory, lectures or conferences cover selected topics in engineering.

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

EGS 1005 Prep for Success 1-4 Credits
Grading Scheme: S/U
Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)
Prerequisite: EG student.

Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

CGN 2328 Technical Drawing and Visualization 3 Credits
Grading Scheme: Letter Grade
Two- and three-dimensional graphical methods of visualizing and communicating features of projects for construction involving parcel boundaries, topography, drainage, site modeling, site development, structures, buildings and objects using both traditional and computer-aided drafting and design techniques.
Prerequisite: minimum 2EG classification.

CGS 2531 Problem Solving Using Computer Software 3 Credits
Grading Scheme: Letter Grade
Problem-solving introduction and thorough exploration of word processing, spreadsheet management, data analysis, graphical display of data, and multimedia presentations. The problem-solving approach also aids students in their specific majors through software applications requiring major-specific professional communication skills in written, graphical, and presentation forms. (M)
Attributes: General Education - Mathematics

COP 2271 Computer Programming for Engineers 2 Credits
Grading Scheme: Letter Grade
Computer programming and the use of computers to solve engineering and mathematical problems. Emphasizes applying problem solving skills; directed toward technical careers in fields employing a reasonably high degree of mathematics. The programming language used depends on the demands of the departments in the college. Several languages may be taught each semester, no more than one per section. Those required to learn a specific language must enroll in the correct section. (M)
Prerequisite: MAC 2312 with minimum grade of C.

COP 2271L Computer Programming for Engineers Laboratory 1 Credit
Grading Scheme: Letter Grade
Optional laboratory for COP 2271. Required for ISE majors. (M)
Prerequisite: MAC 2312;
Corequisite: COP 2271.

EEL 3003 Elements of Electrical Engineering 3 Credits
Grading Scheme: Letter Grade
Introduces the theory and practice of electrical engineering for those not majoring in electrical engineering. Discusses circuits, machines, electronics and systems.
Prerequisite: MAC 2313 and PHY 2049.

EGM 3400 Elements of Dynamics 2 Credits
Grading Scheme: Letter Grade
Dynamics of particles and rigid bodies for rectilinear translation, curvilinear motion, rotation and plane motion. Also includes principles of work and energy, and impulse and momentum.
Prerequisite: EGM 2511 and (MAC 2313 with a minimum grade of C).

EGN 1935 Special Topics in Freshman Engineering 1-3 Credits
Grading Scheme: Letter Grade
Laboratory, lectures or conferences cover selected topics in engineering.

EGN 2020C Engineering Design & Society 2 Credits
Grading Scheme: Letter Grade
Introduces the concepts of innovative thinking and innovation practices. Using lectures, case studies, team exercises and guest speakers, the course teaches life skills in entrepreneurial thought and action that students can utilize when starting technology companies or executing research and development projects in large companies.
Prerequisite: junior standing or higher.

EGN 4641 Engineering Entrepreneurship 3 Credits
Grading Scheme: Letter Grade
Engineering Entrepreneurship introduces engineering students to the concepts and practices of technological entrepreneurial thinking and entrepreneurship. Using lectures, case studies, business plans and student presentations, the course teaches life skills in entrepreneurial thought and action that students can utilize when starting technology companies or executing research and development projects in large companies.
Prerequisite: junior standing or higher.

EGN 4643 Engineering Innovation 3 Credits
Grading Scheme: Letter Grade
Engineering Innovation introduces students to the concepts of innovative thinking and innovation practices. Using lectures, case studies, team exercises and guest speakers, the course teaches life skills in innovative thought and action that students can use in careers ranging from starting companies to executing research and development projects in large companies.
Prerequisite: junior standing or higher.

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

EGN 4932 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Covers selected, rotating topics in engineering.

EGN 4940 NSF Fellowship Preparation 1 Credit
Grading Scheme: Letter Grade
Overview of fellowship preparation pertaining to intellectual merit and broader impacts.
EGN 4949 Engineering Internship/Co-op 1-3 Credits
Grading Scheme: S/U
Prerequisite: Engineering major.

EGN 4956 International Studies in Engineering 1-4 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: admission to an approved UF study abroad program and undergraduate programs director permission through advising form.

EGS 1006 Introduction to Engineering 1 Credit
Grading Scheme: Letter Grade
Introduces the 11 departments that offer undergraduate degrees at UF. Students break into groups of 20, rotating weekly through each department. During these visits, students participate in hands-on experiments to help them make informed decisions about career alternatives.

EGS 2036 Fundamentals of the New Engineer 1 Credit
Grading Scheme: Letter Grade
Fundamentals of the New Engineer introduces students to key attributes of 21st century engineering leaders and innovators. Student learn concepts and practice of engineering leadership and innovation through study of the "Attributes of a New Engineer?; Creativity, Leadership, Integrity, Professional Excellence, and Service to the Global Community.

EGS 4034 Engineering Ethics and Professionalism 1 Credit
Grading Scheme: Letter Grade
Provides students with an interactive study of ethical theory and the development of professionalism. Students review case studies of ethical conflicts in engineering practice. Course covers engineering codes of ethics and requires students to resolve theoretical situations through application of ethical codes.
Prerequisite: junior level standing.

EGS 4038 Engineering Leadership 3 Credits
Grading Scheme: Letter Grade
Engineering Leadership introduces engineering graduate students to the concepts, theory and practice of engineering leadership; effective written and oral communications and presentations; engineering leadership characteristics, individual differences and self-awareness; developing and building teams; managing change, conflicts, and crises; and understanding real-world ethics and core values.
Prerequisite: junior or senior standing.

EGS 4100 Divergent Thinking 3 Credits
Grading Scheme: Letter Grade
Acquire divergent thinking skills to support the engineering design process. Emphasizes the importance of practices such as observing, questioning, learning, and experimenting; Stresses cultivating an openness to new experiences in order to generate ideas and devise solutions to complex design problems.
Prerequisite: junior or senior level standing.

EGS 4625 Fundamentals of Engineering Project Management 3 Credits
Grading Scheme: Letter Grade
Provides a comprehensive understanding of how to plan, optimize, and efficiently manage projects (or tasks) to implement products, services, or developments. Includes building the structure, processes, components, and linkages with a team for successful project delivery within schedule, budget, and quality requirements.
Prerequisite: junior or senior level standing.

EGS 4627 Applied Engineering Project Management 3 Credits
Grading Scheme: Letter Grade
Applied Engineering Project Management expands on foundational project management practices to include complex as well as new project delivery concepts. Topics include project acquisition; negotiation skills; advanced risk planning and management; program management; project life cycle models and their applicability; and diagnostics and remedies for problem projects.
Prerequisite: EGS 4625 or equivalent, with instructor permission.

EGS 4680 Advanced Engineering Leadership Development 3 Credits
Grading Scheme: Letter Grade
Further develops the leadership framework and capabilities; involves a case study-based instructional approach that reviews and applies strategic leadership concepts and knowledge critical to the success of engineering-based companies that operate in a highly uncertain and volatile business environment.
Prerequisite: EGS 4038 or instructor permission.

EML 3007 Elements of Thermodynamics and Heat Transfer 3 Credits
Grading Scheme: Letter Grade
Applications of first and second laws of thermodynamics to closed and open systems. Steady one-dimensional conduction, lumped parameter analysis, convection, radiation. Intended for non-mechanical engineering students.
Prerequisite: CHM 2045 and MAC 2313 and PHY 2048.

English
Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information
The Department of English fosters a dynamic nexus of critical thinking, writing, and making. English offers students innovative opportunities for individual and collaborative learning through BA, MFA, and PhD programs. Students work with a variety of materials, including: global Anglphone literature, African-American literature, children's literature, comics, critical theory, digital modes, film and media. In-house journals and media reflect the scholarly, creative, and interdisciplinary work done by the department. Active across campus through its affiliations, English produces next-generation arts and humanities.

Curriculum
- English
- English Minor
Courses

AML 2070 Survey of American Literature 3 Credits
Grading Scheme: Letter Grade
Introduces some of the major writers, issues and forms found in the history of American literature. The instructor determines the breadth and focus of this survey. (C or H) (WR)
Prerequisite: ENC 1101 or test score equivalent.
Attributes: General Education - Composition, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AML 2410 Issues in American Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Introduces some of the most important issues that arise in the study of American literature and culture. The instructor determines the breadth and focus of the topic. (C or H) (WR)
Prerequisite: ENC 1101 or test score equivalent.
Attributes: General Education - Composition, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AML 3031 American Literatures 1 3 Credits
Grading Scheme: Letter Grade
Selected texts from the Contact Period to 1865, in diverse historical and cultural contexts, usually organized around a theme or several themes.

AML 3041 American Literatures 2 3 Credits
Grading Scheme: Letter Grade
Selected texts from 1865 to the present, in diverse historical and cultural contexts, usually organized around a theme or several themes.

AML 3284 Surveys in American Women’s Literatures 3 Credits
Grading Scheme: Letter Grade
Surveys traditions in American women’s writings, covering a wide range of texts or focusing on a single theme, genre, period, literary movement or cultural tradition. Topics may include women’s writings about feminism, family, work, nationalism or social justice; women’s autobiography, poetry, experimental prose or domestic fiction; 19-century literature by women, contemporary women’s poetry or colonial women’s writing; realist, postmodern or sentimental fiction by American women; African American, New England, Native American, Southern or working-class writing; Chicano, Latina or lesbian literary traditions. Refer to department website.

AML 3285 Variable Surveys of American Literatures 3 Credits
Grading Scheme: Letter Grade
The rich cultural traditions found in American literature. Topics may include gay and lesbian, Jewish American, Chicano/a, Latino/a, Native American, Southern and other literatures. Refer to department website.

AML 3605 African-American Literature 1 3 Credits
Grading Scheme: Letter Grade
Surveys the development of African-American literature from its beginning to 1945.

AML 3607 African-American Literature 2 3 Credits
Grading Scheme: Letter Grade
Surveys the development of African-American Literature from 1945 to the present.

AML 3673 Asian-American Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics or survey focus on the major issues, movements or themes in the study of Asian-American literature and culture from the beginnings to the present. Topics may include Kung Fu films, cultural nationalism and feminism, model minorities, Angel Island literature, Asian-Americans in film and media, and several major authors. Consult department website.

AML 4170 Studies in American Literary Forms 3 Credits
Grading Scheme: Letter Grade
Study of genre, such as the novel, detective novel, political novel, historical novel, utopian fiction or Western; drama; short story; sermon traditions; African-American cultural forms, African-American folklore; long poem, lyric, philosophical poem, oral poetry; nature writing, autobiography, captivity narrative; narratives of exploration; political oratory, postmodernism; coming-out stories; humor. Refer to department website.

AML 4213 Studies in American Literature and Culture Before 1800 3 Credits
Grading Scheme: Letter Grade
Variable topics focus on one or more of the major issues, movements, forms or themes in the study of American literature and culture before 1800. Topics may include narratives of exploration and encounter, Puritan and/or Enlightenment writings, captivity and slave narratives, traditions of spiritual autobiography, post-colonial approaches to colonial rhetoric and poetry, and/or in-depth studies of selected writers. Refer to department website.

AML 4225 Studies in Nineteenth-Century American Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Variable topics focus on the major issues, movements, forms or themes in the study of American literature and culture before 1900. Topics may include the American Renaissance, literature and abolition, African American novels and poetry, romance and romanticism, race and sexuality, the rise of the short story, realism, naturalism, representations of the city, representations of the South, tropes such as the Noble Savage or the American Girl, and/or in-depth studies of selected writers. Refer to department website.

AML 4242 Studies in Twentieth-Century American Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Variable topics focus on one or more of the major issues, movements, forms or themes in the study of 20th-century American literature and culture. Topics may include Modernism, Post-Modernism, the Harlem Renaissance, Depression-era literature, American writers in Paris, consumer society, American fiction since 1945, poetry, Civil Rights literature, rhetorics of imperialism, and/or several major authors. Refer to department website.

AML 4282 Studies of Genders and Sexualities in American Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Variable topics focus on one or more of the major issues, movements, forms or themes in the study of American literature and culture. Topics may include masculinity and femininity in literature, lesbian possibilities in popular culture, feminism and womanism, traditions of gay self-representation. Refer to department website.

AML 4311 Major Figures of American Literature and Culture 3 Credits
Grading Scheme: Letter Grade
In-depth focus on one major author, such as Dickinson, Twain, Faulkner, Hurston, or Morrison. Refer to department website.
AML 4453 Studies in American Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Variable topics examine issues, movements, forms or themes that cross traditional period boundaries. Topics may include the city and the country in American fiction, Southern masculinity, reading and literacy in America, representations of class and religion in American literature, the body and technology, American regionalisms, the Pragmatist tradition, and nature and eco-criticism in American letters. Refer to department website.

AML 4685 Race and Ethnicity 3 Credits
Grading Scheme: Letter Grade
Variable topics examine issues, movements, forms or themes related to race and ethnicity in American literature. Topics may include Pacific Rim cultures in America, Chicano-Latino literature, the Black Arts Movement, constructing Native America, border-crossing and migration, post-war Jewish fiction, literature and the psychology of prejudice, comparative representations of racial and ethnic experience, representing whiteness, literatures of assimilation and multi-racial identities.

CRW 1101 Beginning Fiction Writing 3 Credits
Grading Scheme: Letter Grade
Beginning writing fiction workshop. Starts with the basics and students read a lot of fiction (you can't be a fiction writer without reading shelves of fiction). Students write stories and their fiction is discussed in workshop. (C) (WR)
Prerequisite: (freshman or sophomore standing) and (ENC 1101 or test score equivalency).
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

CRW 1301 Beginning Poetry Writing 3 Credits
Grading Scheme: Letter Grade
Workshop concentrates on the basics of reading and writing poetry (in order to write you have to read, and in order to be a reader you have to be a critic). Students write poems and some are discussed in workshop. (C) (WR)
Prerequisite: (freshman or sophomore standing) and (ENC 1101 or test score equivalency).
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

CRW 2100 Fiction Writing 3 Credits
Grading Scheme: Letter Grade
Continues instruction in basic techniques of voice, plot and character, while introducing advanced ones. Students read a lot of good stories and write a few themselves. Samuel Johnson said, “No man but a blockhead ever wrote, except for money.” Juniors or seniors who have not taken CRW 1101 or CRW 1301 must have strong composition skills. (C) (WR)
Prerequisite: CRW 1101 or junior/senior standing.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

CRW 2300 Poetry Writing 3 Credits
Grading Scheme: Letter Grade
Writing poetry may become an addiction. This workshop continues with matter-of-fact techniques and some fancy ones as well. Students write poems and read some difficult and thrilling poetry of the past and present. By the end, the student may be able to say, with Humpty Dumpty, I can explain all the poems that ever were invented - and a good many that haven't been invented just yet. Juniors or seniors who have not taken CRW 1101 or CRW 1301 must have strong composition skills. (C) (WR)
Prerequisite: CRW 1301 or junior/senior standing.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

CRW 3110 Advanced Seminar in Fiction Writing 3 Credits
Grading Scheme: Letter Grade
Small workshop for students who have made their way out of beginner’s workshops with sanity intact. Now the work gets more difficult, more deranged and more delightful. Emerson said, “People do not deserve to have good writing, they are so pleased with bad.” Admission by manuscript review during advanced registration (refer to department website); by prerequisite during drop/add.
Prerequisite: CRW 2100.

CRW 3310 Advanced Seminar in Poetry Writing 3 Credits
Grading Scheme: Letter Grade
More reeling and writhing” as Lewis Carroll said. An intense workshop for a small group of poets who have staked at the Pacific with a wild surprise. Like Balboa - or was it Cortez? Admission by manuscript review during advanced registration (refer to department website); by prerequisite during drop/ add.
Prerequisite: CRW 1301 or CRW 2300.

CRW 4905 Senior Advanced Workshop in Fiction Writing 3 Credits
Grading Scheme: Letter Grade
For students who want to trouble the literary editors and readers of the future. Many members of this class have gone on to graduate school in writing. Ants eat everything that is written, said an explorer. This is a workshop for ants. Admission by manuscript review during advanced registration (refer to department website); by prerequisite during drop/ add.
Prerequisite: CRW 3110.

CRW 4906 Senior Advanced Workshop in Poetry Writing 3 Credits
Grading Scheme: Letter Grade
For battle-scarred veterans of previous workshops who now want the full treatment, this is a small workshop for serious poets who want to write their names in water, as long as they are also in the Norton Anthology. Students often go from this class into MFA programs in poetry. Admission by manuscript review during advanced registration (refer to department website); by prerequisite during drop/add.
Prerequisite: CRW 3310.

ENC 1136 Multimodal Writing and Digital Literacy 3 Credits
Grading Scheme: Letter Grade
Teaches digital literacy and digital creativity. Compose and convey creative, well-researched, carefully crafted information through digital platforms and multimodal documents. Also promotes digital writing and research as central to academic, civic, and personal expression.
Attributes: Satisfies 6000 Words of Writing Requirement

ENC 1145 Topics for Composition 3 Credits
Grading Scheme: Letter Grade
Instruction in expository-argumentative writing related to one special topic selected by the instructor. Readings include variable genres from different disciplines. (C or H) (WR)
Prerequisite: ENC 1101 or test score equivalency.
Attributes: General Education - Composition, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

ENC 2210 Technical Writing 3 Credits
Grading Scheme: Letter Grade
Surveys the forms and methods of communication used in business, industry and government, including nonformal and formal reports, letters, resumes and proposals. (C) (WR)
Prerequisite: ENC 1101 or test score equivalency.
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement
ENC 3250 Professional Communication 3 Credits
Grading Scheme: Letter Grade
Professional writing course relevant in business, industry, government
and other institutional settings. Covers major elements of organizational
communication with emphasis on composition of letters and memos,
reports, proposals and manuals. (WR)
Prerequisite: junior or senior standing and two 1000- or 2000-level
English courses.
Attributes: Satisfies 6000 Words of Writing Requirement

ENC 3310 Advanced Exposition 3 Credits
Grading Scheme: Letter Grade
Advanced composition course in methods of exposition: definition,
classification, comparison and contrast, analysis, illustration and
identification. (WR)
Prerequisite: junior/senior standing and two 1000/2000-level English
courses.
Attributes: Satisfies 6000 Words of Writing Requirement

ENC 3312 Advanced Argumentative Writing 3 Credits
Grading Scheme: Letter Grade
Advanced composition concerned with the writing of argument and
critical analysis. (WR)
Prerequisite: junior/senior standing and two 1000/2000-level English
courses.
Attributes: Satisfies 6000 Words of Writing Requirement

ENC 3414 Hypermedia 3 Credits
Grading Scheme: Letter Grade
The study and production of digital media, with emphasis on the World
Wide Web.

ENC 4212 Professional Editing 3 Credits
Grading Scheme: Letter Grade
How to perform different levels of editing on a range of professional texts,
including both printed and online texts as well as both technical and
literary ones.
Prerequisite: ENC 3250 or ENC 2210, and instructor permission.

ENC 4260 Advanced Professional Writing 3 Credits
Grading Scheme: Letter Grade
Administrative communication, professional papers, research reports,
proposals and other major professional documents, depending on the
needs of the students who must have developed communication skills.
(WR)
Prerequisite: ENC 2210 or ENC 3250, or instructor permission.
Attributes: Satisfies 6000 Words of Writing Requirement

ENC 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved
study abroad program can be recorded on the UF transcript and counted
toward graduation.
Prerequisite: undergraduate advisor permission.

ENG 1131 Writing through Media 4 Credits
Grading Scheme: Letter Grade
The media studies equivalent of ENC 1102, Writing about Literature.
Explores the practices of literacy in the context of popular culture,
including cinema, television, advertising, popular fiction and journalism.
(C or H) (WR)
Prerequisite: ENC 1101 or test score equivalent.
Attributes: General Education - Composition, General Education -
Humanities, Satisfies 6000 Words of Writing Requirement

ENG 1400 Introduction to Popular Film 3 Credits
Grading Scheme: Letter Grade
Designed for non-majors seeking humanities credit in the areas of film
and popular culture. Introduces the study of contemporary movies
through attention to film form and structure, film genres and attention to
popular culture. Students are expected to see new movies off campus.
Attributes: General Education - Humanities

ENG 2300 Film Analysis 4 Credits
Grading Scheme: Letter Grade
Introduces thinking and writing about the cinema by means of film theory
and history. (C or H) (WR)
Prerequisite: ENC 1101 or test score equivalent.
Attributes: General Education - Composition, General Education -
Humanities, Satisfies 6000 Words of Writing Requirement

ENG 2935 English: College Honors 1 3 Credits
Grading Scheme: Letter Grade
An intensive introductory study of 20th-century theory.

ENG 3010 The Theory and Practice of Modern Criticism 3 Credits
Grading Scheme: Letter Grade
An extensive and sophisticated study of grammar, as well as a practical
appreciation of its rhetorical purposes.

ENG 3011 The Theorists 3-6 Credits
Grading Scheme: Letter Grade
Studies one or more theorists, contemporary or historical.

ENG 3063 Advanced Grammar: Analysis and Application 3 Credits
Grading Scheme: Letter Grade
An intensive introductory study of 20th-century theory.
ENG 4060 History of the English Language 3 Credits
Grading Scheme: Letter Grade
Origins of the English language and its development from Old English to the present. Students should have completed an introductory linguistics course (LIN 2000, LIN 2001 or LIN 3010). Refer to department website.

ENG 4130 Race and Ethnicity in Film 4 Credits
Grading Scheme: Letter Grade
Critical and historical study of films and videos by and about people of color in the Americas, Africa, Australia and Europe.

ENG 4133 Film Studies 4 Credits
Grading Scheme: Letter Grade
Variable topics provide in-depth study of film genres, notable film directors, and other significant topics on subjects related to film.

ENG 4134 Women and Film 4 Credits
Grading Scheme: Letter Grade
Studies the roles and function of women in mainstream and alternative cinema, including study of feminist film criticism and theories of gender.

ENG 4135 National Cinemas 4 Credits
Grading Scheme: Letter Grade
Variable topics study of the films of historically important national cinemas, such as American, French, German, Italian, Russian, Japanese.

ENG 4136 Film and Video Production 4 Credits
Grading Scheme: Letter Grade
Seminar on the independent and experimental uses of small-format film and video production.

ENG 4139 Television and Electronic Culture 4 Credits
Grading Scheme: Letter Grade
Explores the development of new modes of thought, forms of art, popular culture, and social practices based on the electronic technology of video and computers.

ENG 4146 Advanced Film and Video Production 4 Credits
Grading Scheme: Letter Grade
Variable topics focus on one or more advanced aspects of film and video production, including such topics as editing of film and video or the production of 16mm films.
Prerequisite: ENG 4136.

ENG 4310 Film Genres Directors 4 Credits
Grading Scheme: Letter Grade
Overview of major concerns, methodologies and texts in queer theory, illuminating the theoretical insights, assumptions and implications of various constructions of gender, sex and sexuality.

ENG 4905 Independent Study 1-3 Credits
Grading Scheme: Letter Grade
For advanced students who desire to supplement the regular courses by independent reading or research under guidance.
Prerequisite: instructor and/or department permission.

ENG 4911 Undergraduate Research in English 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in English. Projects may involve inquiry, design, investigation, scholarship, discovery or application in English.

ENG 4936 Honors Seminar 3 Credits
Grading Scheme: Letter Grade
Open to English majors who have maintained an overall junior/senior level GPA of 3.5. Small seminar classes study topics in English and American literature or film.
Prerequisite: undergraduate coordinator and/or department permission.

ENG 4940 English Internship 1-3 Credits
Grading Scheme: S/U
Admission requires a written proposal of appropriate work experience from the student and a written acceptance for employment from the employer, including designation of a supervisor. Successful completion requires a written summation of the work experience from the student and a written evaluation of performance by the supervisor. (S-U)
Prerequisite: 12 credits of 3000/4000-level work in English and undergraduate coordinator permission.

ENG 4953 Department Seminar 3 Credits
Grading Scheme: Letter Grade
Seminar offered on a space-available basis allowing department majors to develop their individual programs of study while focusing on a common topic.
Prerequisite: English major and 9 credits of 3000/4000-level work in English.

ENG 4970 Honors Thesis Project 3 Credits
Grading Scheme: Letter Grade
Student selects an English faculty member to act as director for an independent research project that culminates in preparation of an honors thesis. An abstract and one copy of the thesis must be delivered to 101 Academic Advising Center by the semester deadline specified by the Honors Office.
Prerequisite: completion of one semester of ENG 4936; undergraduate coordinator permission. Open to English honors students.

ENL 2012 Survey of English Literature: Medieval to 1750 3 Credits
Grading Scheme: Letter Grade
Introduces some of the major writers, issues and forms found in the history of the period. The instructor determines the breadth and focus of this survey. (C or H) (WR)
Prerequisite: ENC 1101 or test score equivalent.
Attributes: General Education - Composition, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

ENL 2022 Survey of English Literature: 1750 to the Present 3 Credits
Grading Scheme: Letter Grade
Introduces some of the major writers, issues and forms found in the history of the period. The instructor determines the breadth and focus of this survey. (C or H) (WR)
Prerequisite: ENC 1101 or test score equivalent.
Attributes: General Education - Composition, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

ENL 2330 Introduction to Shakespeare 3 Credits
Grading Scheme: Letter Grade
Introduces the pleasure and wisdom of Shakespeare's plays. Various approaches are used: movie versions of the plays, staging of scenes from the plays and discussion. (H)
Prerequisite: ENC 1101 or test score equivalent.
Attributes: General Education - Humanities

ENL 2930 Special Topics 3 Credits
Grading Scheme: Letter Grade
Variable topics focus on major issues and themes in British literature and culture.
Prerequisite: ENC 1101 or equivalent.
ENL 3112 The British Novel: 18th Century 3 Credits
Grading Scheme: Letter Grade
Covers a wide range of eighteenth-century British novelists, from Aphra Behn, Daniel Defoe, and Samuel Richardson to Henry Fielding, Frances Burney, and Jane Austen. The instructor determines the breadth and focus of each course; refer to department website.
Prerequisite: Six credits of English at the 1000/2000 level.

ENL 3122 The English Novel: 19th Century 3 Credits
Grading Scheme: Letter Grade
Includes works by such writers as Scott, Austen, Dickens, Thackeray, Eliot and Hardy.

ENL 3132 The English Novel: 20th Century 3 Credits
Grading Scheme: Letter Grade
Includes works by such writers as Conrad, Lawrence, Joyce, Forster, Woolf, Greene and Waugh.

ENL 3154 Twentieth-Century British Poetry 3 Credits
Grading Scheme: Letter Grade
General study of the most prominent British poets of the 20th Century with particular emphasis on Yeats, Lawrence, Graves, Eliot, Sitwell, Dylan Thomas and Ted Hughes.

ENL 3210 Medieval English Literature 3 Credits
Grading Scheme: Letter Grade
Surveys representative works of the Middle English period such as Sir Gawain and the Green Knight, Pearl, Malory's Morte D'Arthur and selections from medieval drama, lyric poetry, mystical writings and writings by and about women.

ENL 3230 The Age of Dryden and Pope 3 Credits
Grading Scheme: Letter Grade
Selections from the best works of such writers as Dryden, Congreve, Addison, Swift and Pope.

ENL 3234 The Long Eighteenth Century: Themes and Interpretation 3 Credits
Grading Scheme: Letter Grade
Rotating topics courses on eighteenth-century British literature, with an emphasis on themes rather than genres. These include but are not limited to literature's engagement with social issues, material history, and the history of ideas. The instructor determines the breadth and focus of this course; refer to department website.
Prerequisite: 6 credits of English at the 1000/2000 level, or department permission.

ENL 3235 The Long Eighteenth Century: Imaginative Genres 3 Credits
Grading Scheme: Letter Grade
Rotating topics courses on eighteenth-century British literature, focusing on imaginative genres; especially genres other than the novel, such as drama, poetry, and non-novelistic prose fiction. The instructor determines the breadth and focus of this course; refer to department website.
Prerequisite: 6 credits of English at the 1000/2000 level, or department permission.

ENL 3240 The Romantic Period 3 Credits
Grading Scheme: Letter Grade

ENL 3251 Victorian Literature 3 Credits
Grading Scheme: Letter Grade
Selections from Tennyson, Browning, C. Bronte, Wilde, G.M. Hopkins and Arnold. Examines the beliefs and paradoxes of Victorian culture through the poetry, fiction, drama, visual arts and critical theory of representative figures. Investigates the social and cultural assumptions which underlie the artists' approaches to their themes as well as the themes themselves. Refer to department website.

ENL 3350 Age of Johnson 3 Credits
Grading Scheme: Letter Grade

ENL 4220 Renaissance Literature: 16th Century 3 Credits
Grading Scheme: Letter Grade
Variable topics in Tudor literature and culture, 1485-1603. Focuses on or combine topics such as the development of literary genres; the works of single or paired authors; the social institutions and material conditions of textual production; thematically organized studies of cultural relations between literary and nonliterary texts; issues of gender, religion, nationhood and race; and writing in the emergence of an English literature. Refer to department website.

ENL 4221 Renaissance Literature: 17th Century 3 Credits
Grading Scheme: Letter Grade
Variable topics in Stuart literature and culture, 1603-1700. Focuses on or combine topics such as the progress of literary genres; the works of single or paired authors; the social institutions and material conditions of textual production; thematically organized studies of cultural relations between literary and nonliterary texts; issues of gender, religion, nationhood and race; and writing in the era before, during and after the English Revolution. Refer to department website.

ENL 4273 Twentieth Century British Literature 3 Credits
Grading Scheme: Letter Grade
Variable topics on major works of drama, poetry or prose from twentieth-century Britain. Refer to department website.

ENL 4333 Shakespeare 3-6 Credits
Grading Scheme: Letter Grade
Reading and critical study of Shakespeare's poetry with emphasis on the Canterbury Tales and Troilus and Criseyde, in addition to some attention to the minor works.

ENL 4311 Chaucer 3 Credits
Grading Scheme: Letter Grade
Reading and critical study of Chaucer's poetry with emphasis on the Canterbury Tales and Troilus and Criseyde, in addition to some attention to the minor works.

LIN 4400 Introduction to Morphology 3 Credits
Grading Scheme: Letter Grade
Theory of word structure, derivation and inflection, with examples and problems from a variety of languages. Includes the position of morphology in grammar, the relationship between morphology and grammar, typology, cultural and conceptual categories, and predictions of various theories of morphology. May be taught in conjunction with a graduate class that bears the same title.
Prerequisite: LIN 3010 and LIN 3460.

LIT 2000 Introduction to Literature 3 Credits
Grading Scheme: Letter Grade
Examines the important role literature has played in individuals' lives and in society, presenting a range of literary styles and genres, from different countries and historical periods. Special attention paid to development of critical skills of analysis and interpretation. (H)
Prerequisite: ENC 1101
Attributes: General Education - Humanities
LIT 2110 Survey of World Literature: Ancient to Renaissance 3 Credits
Grading Scheme: Letter Grade
Introduces some of the major writers, issues and forms found in the history of the period. The instructor determines the breadth and focus of this survey. (C or H, and N) (WR)
Prerequisite: ENC 1101 or test score equivalent.
Attributes: General Education - Composition, General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

LIT 2120 Survey of World Literature: 17th Century to Modern 3 Credits
Grading Scheme: Letter Grade
Introduces some of the major writers, issues and forms found in history of the period. The instructor determines the breadth and focus of this survey. (C or H, and N) (WR)
Prerequisite: ENC 1101 or test score equivalent.
Attributes: General Education - Composition, General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

LIT 3003 The Forms of Narrative 3 Credits
Grading Scheme: Letter Grade
A close reading and critical analysis of representative forms and styles of narrative, to improve the student's ability to study narrative structures and theories of narrative. Refer to department website.

LIT 3031 Studies in Poetry 3 Credits
Grading Scheme: Letter Grade
Variable topics provide in-depth study of genre such as the lyric, epic or sonnet, or of developments in periods of literature such as the medieval, American or African. Emphasis on refining the ability to read and analyze texts carefully and accurately. Refer to department website.

LIT 3041 Studies in Drama 3 Credits
Grading Scheme: Letter Grade
Variable topics provide in-depth study of genre such as comedy or tragedy, or of developments in periods such as the Elizabethan, Jacobean or Restoration. Refer to department website.

LIT 3043 Studies in Modern Drama 3 Credits
Grading Scheme: Letter Grade
Representative selections from continental, British and American playwrights. Refer to department website.

LIT 3173 Jewish Literature 3 Credits
Grading Scheme: Letter Grade
Variable topics in the Jewish literary experience, from the biblical narrative and classical tales to Yiddish and Hebrew literature, the modern European novel, and American Jewish fiction. (H and N)
Attributes: General Education - Humanities, General Education - International

LIT 3362 The Age of the Avant-Garde 3 Credits
Grading Scheme: Letter Grade
Examines the revolutionary experimentalist aspects of modern and contemporary culture, such as cubism, surrealism, structuralism, and conceptualism.

LIT 3374 The Bible as Literature 3 Credits
Grading Scheme: Letter Grade
Literary analysis from the Hebrew and Christian Bibles, with emphasis upon poetry and narrative. (H and N)
Attributes: General Education - Humanities, General Education - International

LIT 3383 Women in Literature 3 Credits
Grading Scheme: Letter Grade
Critical and thematic study of women in literature that may include fiction, poetry or drama in English, American or world literature. Refer to department website. (D and H)
Attributes: General Education - Diversity, General Education - Humanities

LIT 3400 Interdisciplinary Topics in Literature 3 Credits
Grading Scheme: Letter Grade
Interdisciplinary variable-topics study of the vital relationship between literature and other creative arts, other humanistic disciplines or the sciences and technology. Refer to department website.

LIT 4188 World English Language Literatures 3 Credits
Grading Scheme: Letter Grade
Variable topics focus on one or more of the diverse English language literary traditions, including those of Ireland, Scotland, India, Nigeria, the Caribbean, Canada and Australia. Refer to department website.

LIT 4192 Caribbean Literature in English 3 Credits
Grading Scheme: Letter Grade
Variable topics focus on the critical and analytical study of representative Caribbean authors writing in English. Refer to department website.

LIT 4194 African Literature in English 3 Credits
Grading Scheme: Letter Grade
Critical and analytical study of representative Black-African authors writing in English, notably Achebe, Awoonor, Ngugi, Aidoo, Soyinka, Armah, Ekwensi, Mphalele and p'Bitek'. (H and N)
Attributes: General Education - Humanities, General Education - International

LIT 4233 Postcolonial Literature, Culture and Theory 3 Credits
Grading Scheme: Letter Grade
Variable topics focus on the critical and analytical study of representative topics on related subjects.

LIT 4322 The Folktale 3 Credits
Grading Scheme: Letter Grade
Reading folktales, myths and legends, particularly those told orally by ethnic, indigenous and emigrant cultures within the USA. Attention is paid to critical theory and the scholarly study of the folktale. In addition, the use of the folktale by creative writers and teachers is discussed.

LIT 4331 Children's Literature 3 Credits
Grading Scheme: Letter Grade
Designed to arouse a genuine interest in children's books and to aid the student in obtaining a critical knowledge of the literature.

LIT 4332 Literature for Young Children 3 Credits
Grading Scheme: Letter Grade
Explores kinds and qualities of literature for the younger child, examining the child's first experience with literature in oral forms, then moving on to picture and story books and poetry.

LIT 4333 Literature for the Adolescent 3 Credits
Grading Scheme: Letter Grade
Studies the types of literature read by adolescents, with emphasis upon the criteria for the choice of good books and upon developing a familiarity with the many books available.
Entomology and Nematology

Not all courses are offered every semester. Refer to the schedule of courses for term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information
The Entomology and Nematology Department prepares students for exciting careers in a variety of fields. Entomology and Nematology majors can enter medical, dental, or veterinary school; progress to graduate study in any of several biological sciences such as ecology, nematology, entomology, horticulture, or zoology; or move directly to a variety of careers in fields such as pest management, ecotourism, or biosecurity.

Curriculum
- Combination Degrees
- Entomology and Nematology
- Entomology and Nematology Minor
- Landscape Pest Management Certificate
- Medical Entomology Certificate
- Pest Control Technology Certificate
- Urban Pest Management Certificate

Courses
ALS 2160 Bioterrorism 3 Credits
Grading Scheme: Letter Grade
Bioterrorism directed against agriculture and human health has scientific (development of the threat agent, its deployment and mitigation), social and legal components. Discusses how threats may be alleviated and future attacks responded to, and how risk is best communicated to affected citizens.
Prerequisite: admission to the honors program.

ALS 2931 Agricultural Honors 1-4 Credits
Grading Scheme: Letter Grade
Various courses offered. (WR)
Prerequisite: refer to the department.
Attributes: Satisfies 6000 Words of Writing Requirement

ALS 3153 Agricultural Ecology 3 Credits
Grading Scheme: Letter Grade
Introduces the study of ecology from an agricultural perspective. Emphasizes ecological principles with examples and applications from agriculture.

ALS 4161 Exotic Species and Biosecurity Issues 3 Credits
Grading Scheme: Letter Grade
Studies U.S. policies and programs affecting agricultural biosecurity as applied to current agricultural and extension and regulatory programs. Emphasis is on policies and procedures used to detect and report non-indigenous species. Students will develop the analytical capabilities to assess the consequences of agricultural biosecurity threats.
Prerequisite: BSC 2010/BSC 2010L and BSC 2011/BSC 2011L, or equivalent.

ALS 4162 Consequences of Biological Invasions 3 Credits
Grading Scheme: Letter Grade
Non-native species invasions and environmental effects of these invaders. Students will develop analytical capabilities to assess the consequences of biological invasions.
Prerequisite: BSC 2010/BSC 2010L and BSC 2011/BSC 2011L, or equivalent.
ALS 4163 Challenges in Plant Resource Protection 3 Credits
Grading Scheme: Letter Grade
Applied training in the regulatory aspects of plant protection, using real-world case studies, scenarios and issues.
Prerequisite: BSC 2010/BSC 2010L and BSC 2011/BSC 2011L, or equivalent.
Corequisite: HOS 3020C or ENY 3005/ENY 3005L or PLP 3002C.

ENY 1001 Bugs and People 3 Credits
Grading Scheme: Letter Grade
Introduction for lower-division students who want to learn popular information about insects and associated organisms. (B)
Attributes: General Education - Biological Science

ENY 2040 The Insects 3 Credits
Grading Scheme: Letter Grade
Introduces insect biology, insect-organism interaction and insect association with man. Features discussion of basic biological principles using insects as examples. (B)
Attributes: General Education - Biological Science

ENY 2041C Practical Beekeeping 3 Credits
Grading Scheme: Letter Grade
Establish colonies of European-derived honey bees and manage them to be healthy and productive; A hybrid approach combines online lectures and in-person field experiences.

ENY 2890 Using Insect Research to Understand the Nature of Scientific Engagement 3 Credits
Grading Scheme: Letter Grade
A classroom undergraduate research experience (CURE) which bridges the divide between the classroom and the science laboratory and prepares for advanced opportunities in entomological science. Become part of an entomology research team, collecting publishable data on insect evolution, ecology, and systematics.

ENY 3005 Principles of Entomology 2 Credits
Grading Scheme: Letter Grade
Introduces principles of insect study, including insect structure, insect development, evolutionary insect history and its ecological significance. (B)
Corequisite: ENY 3005L.
Attributes: General Education - Biological Science

ENY 3005L Principles of Entomology Laboratory 1 Credit
Grading Scheme: Letter Grade
Provides practical laboratory experience working with insects, dissecting insects and preparing lab reports. Insect collection is required. (B)
Corequisite: ENY 3005.
Attributes: General Education - Biological Science

ENY 3007C Life Science 3 Credits
Grading Scheme: Letter Grade
Introduces insects and their interactions with man and the environment.

ENY 3030C Insect Field Biology 3 Credits
Grading Scheme: Letter Grade
The roles of insects in nature, emphasizing field exercises and experiments. For non-majors.

ENY 3163 Invertebrate Field Biology 3 Credits
Grading Scheme: Letter Grade
Field-oriented surveys of invertebrate biodiversity and conservation.

ENY 3222C Biology and Identification of Urban Pests 3 Credits
Grading Scheme: Letter Grade
Biology, behavior, ID and damage recognition of insect and vertebrate pests.
Prerequisite: ENY 3005 and ENY 3005L.

ENY 3225C Principles of Urban Pest Management 3 Credits
Grading Scheme: Letter Grade
Methods of controlling household, structural and occasional pests with emphasis placed on cockroaches, termites and fleas.
Prerequisite: ENY 3005 and ENY 3005L.

ENY 3228 Urban Vertebrate Pest Management 2 Credits
Grading Scheme: Letter Grade
The biology, ecology, health risks, exclusions and control of vertebrate pests in the urban environment.

ENY 3451C Insect Behavior 3 Credits
Grading Scheme: Letter Grade
Provides a theoretical and empirical overview of insect behavior, ranging from physiology underlying behavior to the evolution of behavioral diversity. Focuses on recent and current research on insect behavior, the diversity of approaches for studying it, and how this knowledge can be applied to solve human challenges.
Prerequisite: ENY 1001 or ENY 2040 or ENY 3005 or BSC 2005 or BSC 2010, or instructor permission.

ENY 3510C Turf and Ornamental Entomology 3 Credits
Grading Scheme: Letter Grade
Biology, identification and management of arthropods that infect turfgrass and ornamental plants in urban landscape and in nurseries and greenhouses.

ENY 3541C Tree and Shrub Insects 3 Credits
Grading Scheme: Letter Grade
Emphasizes biology and management options for the control of insect pests associated with woody plants.

ENY 3561C Urban Vertebrate Pest Management 2 Credits
Grading Scheme: Letter Grade
Natural history, ecology and behavior of tropical insects in natural and agroecosystems. Designed for students without previous experience in tropics.
Prerequisite: ENY 3005 and ENY 3005L.

ENY 3564L Tropical Entomology Field Laboratory 2 Credits
Grading Scheme: Letter Grade
A 10-day trip to a tropical country to study the insect faunas of natural and agroecosystems. Each student is assigned a field project.
Prerequisite: ENY 3563.

ENY 4161 Insect Classification 3 Credits
Grading Scheme: Letter Grade
Classification of major families of adult insects with emphasis on their identification, habitat and niche. A properly curated collection is required. (B)
Prerequisite: ENY 3005 and ENY 3005L.
Attributes: General Education - Biological Science

ENY 4202 Ecology of Vector-Borne Disease 2 Credits
Grading Scheme: Letter Grade
Introduces critical components of vector-borne disease systems and basic concepts inherent to disease ecology. Focuses on vector-borne diseases of humans and wildlife and how aspects of the environment and host/vector biology influence disease transmission. Topics include epidemiology, transmission models, and emerging diseases.
Prerequisite: BSC 2010 or equivalent.
ENY 4208 Ecology and Conservation of Pollinators 3 Credits  
**Grading Scheme:** Letter Grade  
Examines interactions between animals and the plants that they pollinate, current threats to pollinator populations, and the conservation of pollinators worldwide; explore these topics through readings, discussion, and a field research project.  
**Prerequisite:** BSC 2010 and BSC 2010L or equivalents with minimum grades of C-, and junior standing or higher.

ENY 4210 Insects and Wildlife 3 Credits  
**Grading Scheme:** Letter Grade  
Introduces insects and other arthropods and their relationships with wild vertebrate animals.  
**Prerequisite:** ENY 3005L or equivalent entomology laboratory.

ENY 4221 Termite Biology and Control 2 Credits  
**Grading Scheme:** Letter Grade  
Taxonomy, identification, behavior, ecology and methods of control for the economically important termites in the New World.

ENY 4230 Urban Pesticide Application 1-6 Credits  
**Grading Scheme:** Letter Grade  
Practical work experience in urban pesticide application; study pest management problems on campus and in residences.  
**Prerequisite:** ENY 3005 and ENY 3005L.

ENY 4453 Behavioral Ecology and Systematics 3 Credits  
**Grading Scheme:** Letter Grade  
Introduces behavioral ecology and systematics of insects.  
**Prerequisite:** ENY 3005 and ENY 3005L.  
**Attributes:** General Education - Biological Science

ENY 4455C Social Insects 3 Credits  
**Grading Scheme:** Letter Grade  
Introduces social wasps, bees, ants and termites: their natural history; social behavior; division of labor, caste differentiation, evolution, identification and rearing. Laboratory involves live insects.

ENY 4473 Beekeeping I 3 Credits  
**Grading Scheme:** Letter Grade  
The biology of honey bees and the craft of apiculture will be examined by exploring the life cycle of honey bees, biogeography and evolution of beekeeping. Equipment, techniques, management practices, pollination ecology, economic practices and current issues within beekeeping will be discussed.  
**Prerequisite:** BSC 2005.

ENY 4474 Beekeeping II 3 Credits  
**Grading Scheme:** Letter Grade  
This course will provide more depth on topics introduced in Beekeeping I including beekeeping styles, colony stressors and yearly management. This course will also explore issues affecting the beekeeping industry including integrated pest management, pests/diseases, African bees, commercial pollination, queen production, bee removals and pesticides will be discussed.  
**Prerequisite:** ENY 4573.

ENY 4590C Mosquito Identification 3 Credits  
**Grading Scheme:** Letter Grade  
Intensive, hands-on training on morphological features and the identification of adult and larval mosquito species that occur in North America.  
**Prerequisite:** junior standing or higher.

ENY 4592 Mosquito Biology 3 Credits  
**Grading Scheme:** Letter Grade  
This modular course covers six critical areas of mosquito biology; classification, natural history and ecology, physiology, population dynamics, mosquito-borne diseases and control of mosquitoes. Students will understand the fundamental processes governing mosquitoes and mosquito-borne diseases.  
**Prerequisite:** junior standing or higher.

ENY 4660 Medical and Veterinary Entomology 2 Credits  
**Grading Scheme:** Letter Grade  
Introduces behavioral ecology and systematics of insects.  
**Prerequisite:** ENY 3005 and ENY 3005L.  
**Attributes:** General Education - Biological Science

ENY 4660L Medical and Veterinary Entomology Laboratory 1 Credit  
**Grading Scheme:** Letter Grade  
Identifying mosquitoes, ticks, lice, fleas and other disease vectors. Insect collection required.  
**Prerequisite:** ENY 4660.  
**Attributes:** General Education - Biological Science

ENY 4701 Forensic Entomology 3 Credits  
**Grading Scheme:** Letter Grade  
The role of arthropods in decomposition, in criminal and civil investigations and the increasing importance of science on society. Material and discussions deal with death and some may consider course images and concepts disturbing.

ENY 4823 Molecular Biology of Insects and Nematodes 3 Credits  
**Grading Scheme:** Letter Grade  
Provides foundation knowledge of molecular biology, with emphasis on scientific discoveries from insects and nematodes. Presents information on the current innovations and trends of molecular technologies (e.g. high throughput sequencing, different types of omics, genome editing by CRISPR).  
**Prerequisite:** Students must complete a college-level biology course: BSC 2005, BSC 2010, ABE 2062, AGR 3303, ANS 3006, BCH 4024, ENY 2040, ENY 3005 or equivalent, or instructor permission.

ENY 4900 Supervised Extension Experience in Entomology and Nematology 0-3 Credits  
**Grading Scheme:** S/U  
Firsthand, authentic extension experiences in entomology and nematology under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation.  
(S-U)

ENY 4905 Problems in Entomology 1-5 Credits  
**Grading Scheme:** Letter Grade  
Problems in any field of specialization in entomology and nematology.  
**Prerequisite:** ENY 3005 and the basic course in selected specialization.

ENY 4911 Supervised Research in Entomology 0-3 Credits  
**Grading Scheme:** Letter Grade  
Firsthand, authentic research in entomology under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application.
Environmental Engineering Sciences

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

The broad undergraduate environmental engineering curriculum of EES has earned the department a ranking as a leading undergraduate program. The ABET-accredited engineering bachelor’s degree is comprehensively based on physical, chemical, and biological principles to solve environmental problems affecting air, land, and water resources. An advising scheme including select faculty, led by the undergraduate coordinator, guides each student through the program.

• Environmental Engineering

Courses

EES 3000L Environmental Science and Humanity Laboratory 1 Credit
Grading Scheme: Letter Grade
Field and laboratory instruction on ecosystems, environmental treatment and control systems, and methods of environmental analysis. Intended for junior level environmental science majors and minors. (B)
Attributes: General Education - Biological Science

EES 3008 Energy and Environment 3 Credits
Grading Scheme: Letter Grade
Consideration of the energy basis for man and nature including principles of energy analysis, systems ecology and public policy. (P)
Attributes: General Education - Physical Science

EES 3206 Environmental Chemistry 4 Credits
Grading Scheme: Letter Grade
This course is designed to provide students with fundamental knowledge needed to solve pollution problems specific to environmental systems. The course focuses primarily on thermodynamic equilibrium and kinetic principles associated with both natural and engineered systems.
Prerequisite: (CHM 2046 or CHM 2096) and MAC 2311.

Environmental Engineering Sciences

ENY 4915 Honors Thesis Research in Entomology 0-3 Credits
Grading Scheme: S/U
Independent research in entomology leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

ENY 4932 Special Topics in Entomology and Nematology 1-3 Credits
Grading Scheme: Letter Grade
Special topics in Entomology and Nematology.
Prerequisite: sophomore standing or higher.

IPM 3022 Fundamentals of Pest Management 3 Credits
Grading Scheme: Letter Grade
IPM 4114 Insect Pest and Vector Management 3 Credits
Grading Scheme: Letter Grade
IPM 4254 Landscape Integrated Pest Management: Ornamentals and Turf 3 Credits
Grading Scheme: Letter Grade
Landscape pest pressure is influenced by many factors. The development of sound integrated pest management plans for landscapes focuses on identification of abiotic factors, weeds, insects, mites, pathogens and nematodes that occur on Florida landscape ornamentals, turfgrass and palms.
Prerequisite: An introductory course in entomology is required.

IPM 4254 Fundamentals of Pest Management 3 Credits
Grading Scheme: Letter Grade
Introduces nematology, including studies of morphology, life histories and control of the major nematode parasites of plants. Also includes studies of the bionomics of certain soil nematodes and nematode parasites of vertebrates and arthropods. (B)
Attributes: General Education - Biological Science

IPM 3022 Special Topics in Nematology 3 Credits
Grading Scheme: Letter Grade
NEM 3002 Principles of Nematology 3 Credits
Grading Scheme: Letter Grade
NEM 4905 Problems in Nematology 1-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in nematology under the supervision of a faculty member. Projects may involve inquiry, research, investigation, scholarship, discovery or application. (S-U)

NEM 4915 Honors Thesis Research in Nematology 0-3 Credits
Grading Scheme: S/U
Independent research in nematology leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

PMA 4570C Field Techniques in IPM 2 Credits
Grading Scheme: Letter Grade
Prerequisite: IPM 3022.
EES 4050 Environmental Planning and Design 3 Credits
Grading Scheme: Letter Grade

EES 4102 Wastewater Microbiology 2 Credits
Grading Scheme: Letter Grade
General concepts in microbiology and cell biology with major emphasis on the role of microorganisms in polluted environments. (B)
Prerequisite: CHM 2046.
Attributes: General Education - Biological Science

EES 4102L Environmental Biology Laboratory 1 Credit
Grading Scheme: Letter Grade
Focuses on the biota (microorganisms, algae, zooplankton, fish, and plants) found in natural (lakes and wetlands) and engineered systems, ecological engineering approach to management of surface waters and ecological modeling.

EES 4103 Applied Ecology 2 Credits
Grading Scheme: Letter Grade
Application of ecological principles to technological resource management and problem solving. (B)
Attributes: General Education - Biological Science

EES 4201 Water Chemistry 3 Credits
Grading Scheme: Letter Grade
Kinetics and equilibrium of aqueous chemistry including acid-base, complexation, precipitation and redox equilibria. (P)
Prerequisite: CHM 2046 or CHM 2096 and MAC 2311 or MAC 2233.
Attributes: General Education - Physical Science

EES 4203 Phase Partitioning in the Environment 4 Credits
Grading Scheme: Letter Grade
A study of the fate of organic pollutants in the environment through application of principles of organic chemistry and chemical thermodynamics, including phase partitioning between environmental media.
Prerequisite: CHM 2046 or CHM 2096.

EES 4316 Industrial Ecology 3 Credits
Grading Scheme: Letter Grade

EES 4411 Public Health Engineering 3 Credits
Grading Scheme: Letter Grade
Application of engineering principles to protect public health. Areas covered include water supply, waste treatment, air pollution, radiological health, occupational health, milk and food sanitation, vector control, solid wastes, and housing hygiene. (P)
Attributes: General Education - Physical Science

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

EGS 1005 Prep for Success 1-4 Credits
Grading Scheme: S/U
Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)
Prerequisite: EG student.

EMA 4535 Sustainable Nanotechnology 3 Credits
Grading Scheme: Letter Grade
Increase in production and use of engineered nanomaterials (ENMs) raises concerns on their potential impacts on the environment and human health. The sustainable development of nanotechnology requires knowledge of life cycle and environmental fate/implications of ENMs. Focuses on linkages between ENMs properties and environmental implications.
Prerequisite: CHM 2046 or CHM 2096 or CHM 2096.

ENV 2003 Introduction to Environmental Engineering 1 Credit
Grading Scheme: S/U
Introduction to topics in environmental engineering, including water and air quality, sustainable materials management, and ecosystems.
Prerequisite: Environmental Engineering Sciences major.

ENV 3001 Core 1: Introduction to Environmental Systems 4 Credits
Grading Scheme: Letter Grade
Introduction to environmental systems, including water, air, materials, and ecological resources with motivating case studies across topics and fundamental definitions, laws, and theories in environmental engineering sciences. Throughout the course, students will build knowledge base and relevant skills in topics that bridge disciplines, including statistics, thermodynamics, microbiology, and organic chemistry.
Prerequisite: PHY 2048 and CHM 2046 and MAC 2312.

ENV 3002 Core 2: Fundamentals of Environmental Engineering 4 Credits
Grading Scheme: Letter Grade
Fundamentals of environmental engineering, including water, air, materials, and ecological resources. Environmental laws and regulations that motivate environmental engineering practice. Theoretical approaches for quantifying fundamental environmental processes, interactions, impact and risks. Students will build knowledge and relevant skills in topics that bridge disciplines, including statistics, thermodynamics, microbiology, and organic chemistry.
Prerequisite: ENV 3001.

ENV 3040C Computational Methods in Environmental Engineering 3 Credits
Grading Scheme: Letter Grade
Numerical modeling techniques and their application to environmental engineering. Use of personal computers and spreadsheets to solve numerical models. Solution techniques include numerical methods and their implementation using Excel and Visual Basic for Applications (VBA).
Prerequisite: MAC 2313;
Corequisite: MAP 2302.

ENV 3930 Environmental Engineering Ethics Seminar 1 Credit
Grading Scheme: Letter Grade
Intended for undergraduates majoring in environmental engineering. Lectures and discussion on ethics topics in environmental engineering sciences. (H)
Attributes: General Education - Humanities
ENV 4009 Core 5: Environmental Engineering Practice 4 Credits
Grading Scheme: Letter Grade
Utilize fundamental and applied concepts in environmental engineering practice, including applications of ecological engineering, air pollution control, waste facilities design, and advanced water treatment processes. Throughout the course, students will build knowledge base and relevant skills in topics that bridge disciplines, including statistics, thermodynamics, microbiology, and organic chemistry.
Prerequisite: ENV 4454.

ENV 401C Environmental Analysis 3 Credits
Grading Scheme: Letter Grade
Theory and laboratory techniques for the analysis of air and water pollutants and basic concepts of ecosystems structure and analysis.
Prerequisite: (CHM 2046 or CHM 2096) and (STA 3032 or STA 2023).

ENV 4101 Elements of Atmospheric Pollution 3 Credits
Grading Scheme: Letter Grade
Sources, effects and regulation of air pollutants. Meteorology and dispersion of pollutants. Sampling and analysis of gaseous and particulate air pollutants. Photochemical air pollution and mobile sources. (P)
Prerequisite: EES 4203 and PHY 2049.
Attributes: General Education - Physical Science

ENV 4122 Design of Air Pollution Control System 3 Credits
Grading Scheme: Letter Grade
Design of a complete air pollution control system including the industrial ventilation system needed to capture, transport and condition the hot, corrosive gases from an industrial process.
Prerequisite: ENV 4101 and ENV 4121.

ENV 4211 Solid Waste Management 4 Credits
Grading Scheme: Letter Grade
Generation of solid and hazardous wastes. Collection, methods, equipment, costs and disposal. Rules, regulations and management systems for proper control of solid and hazardous wastes. Evaluation of engineering systems to minimize costs and regulatory problems. (P)
Prerequisite: EES 4201.
Attributes: General Education - Physical Science

ENV 4222 Nuclear Power Radioactive Waste Technology 3 Credits
Grading Scheme: Letter Grade
Characterization and description of low and high level radwastes, regulatory requirements and method of treatment. Transportation, burial and surveillance of radwaste. Decommissioning of nuclear facilities.
Prerequisite: refer to the department.

ENV 4300 Solid Waste Containment Design 3 Credits
Grading Scheme: Letter Grade
Design fundamentals of solid and hazardous waste landfills, waste piles, monofills and surface impoundments. Regulations, site requirements, sizing, liner design, leachate and gas management system design, operations and closure.
Prerequisite: ENV 4351;
Corequisite: ENV 4561 or CWR 4202.

ENV 4351 Solid and Hazardous Waste Management 4 Credits
Grading Scheme: Letter Grade
Generation of solid and hazardous wastes. Collection, methods, equipment, costs and disposal. Rules, regulations and management systems for proper control of solid and hazardous wastes. Evaluation of engineering systems to minimize costs and regulatory problems. (P)
Prerequisite: EES 4201.
Attributes: General Education - Physical Science

ENV 4353 Solid Waste Systems Design 3 Credits
Grading Scheme: Letter Grade
A capstone design experience focusing on the design of solid waste management systems such as landfills, waste-to-energy facilities, compost operations, recycling facilities and hazardous waste treatment/storage/disposal facilities.
Prerequisite: ENV 4351.

ENV 4405 Nutrient Control and Water Reuse 3 Credits
Grading Scheme: Letter Grade
Biological and physicochemical processes for advanced treatment of municipal wastewater. Reuse guidelines and applications.

ENV 4411 Stormwater Control Systems 3 Credits
Grading Scheme: Letter Grade
Chemical, physical, biological and hydrologic aspects of rainfall runoff and control through unit operations and processes (UOPs). Stormwater physical and chemical loads. Interactions between hydrologic processes, water chemistry, sediment transport, infrastructure materials and UOPs for treatment and reuse.
Prerequisite: EES 4201 or instructor permission.

ENV 4432 Potable Water System Design 3 Credits
Grading Scheme: Letter Grade
Design of selected water treatment processes including disinfection, air stripping, adsorption, ion exchange and membrane processes.
Prerequisite: ENV 4514C and EES 4201.

ENV 4433 Water Treatment Process Design 3 Credits
Grading Scheme: Letter Grade
Design of conventional water treatment operations, including reactor design, coagulation, flocculation, mixing, sedimentation, filtration, softening, disinfection and sludge management.
Prerequisite: EES 4201 and ENV 4514C.

ENV 4453 Core 3: Processes in Environmental Engineering 4 Credits
Grading Scheme: Letter Grade
Theoretical and applied knowledge in environmental engineering processes across the air, water, and solid phases. Quantitative tools for describing materials and energy flows and transformations. Throughout the course, students will build knowledge base and relevant skills in topics that bridge disciplines, including statistics, thermodynamics, microbiology, and organic chemistry.
Prerequisite: ENV 3002.

ENV 4454 Core 4: Environmental Engineering Applications 4 Credits
Grading Scheme: Letter Grade
Application of fundamental concepts and laws to design, assess, and predict outcomes in environmental engineering systems handling water, air, materials and ecosystems. Throughout the course, students will build knowledge base and relevant skills in topics that bridge disciplines, including statistics, thermodynamics, microbiology, and organic chemistry.
Prerequisite: ENV 4453.
ENV 4501 Environmental Hydrology 1 3 Credits
Grading Scheme: Letter Grade
Surface and atmospheric hydrology. Hydrologic processes controlling streamflow events. Practical application to stormwater management.
Prerequisite: ENV 3040C and (STA 3032 or STA 2023) and (CWR 3201 or EGN 3353C).

ENV 4506 Environmental Hydrology 2 3 Credits
Grading Scheme: Letter Grade
Subsurface hydrology. Properties of porous media governing flow and chemical transport in the subsurface. Environmental site evaluation methods.
Prerequisite: ENV 3040C and (CWR 3201 or EGN 3353C).

ENV 4514C Water and Wastewater Treatment 3 Credits
Grading Scheme: Letter Grade
Design of water and wastewater treatment units.

ENV 4532 Wastewater System Design 3 Credits
Grading Scheme: Letter Grade
Detailed design and layout of gravity wastewater collection systems, pumping facilities, force mains, and a wastewater treatment plant. Emphasis on the preparation of design drawings and estimating costs.
Prerequisite: ENV 4514C;
Corequisite: ENV 4561 or CWR 4202.

ENV 4545 Environmental Hydrology 4 Credits
Grading Scheme: Letter Grade
Atmospheric, surface, subsurface hydrology and interactions as part of the water cycle. Properties of natural and anthropogenic surfaces and porous media governing flow and transport.
Prerequisite: (ENV 3040C or CGN 3421) and (STA 3032 or STA 2023) and (CWR 3201 or EGN 3353C).

ENV 4561 Hydraulic Systems Design 3 Credits
Grading Scheme: Letter Grade
Hydraulic design of water distribution systems, wastewater collection and disposal systems, and water and wastewater treatment plants.
Prerequisite: CWR 3201.

ENV 4601 Environmental Resources Management 2 Credits
Grading Scheme: Letter Grade
Theory and application of engineering economics and systems analysis to the design of environmental management systems.
Prerequisite: ENV 3040C.

ENV 4892 Environmental Engineering Design 1 3 Credits
Grading Scheme: Letter Grade
The first semester of a two-semester capstone design experience where environmental engineering seniors work in teams on an actual project. Students will be encouraged to use their creativity, innovation, curiosity and educational foundation to solve complex real-world problems.
Prerequisite: ENV 4453.

ENV 4893 Environmental Engineering Design 2 3 Credits
Grading Scheme: Letter Grade
The second semester of a two-semester capstone design experience where environmental engineering seniors work in teams on an actual project. Students will be encouraged to use their creativity, innovation, curiosity and educational foundation to solve complex real-world problems.
Prerequisite: ENV 4892.

ENV 4905 Individual Studies in Environmental Engineering Sciences 1-4 Credits
Grading Scheme: Letter Grade
Selected problems or projects in the student’s major field of study.

ENV 4912 Integrated Product and Process Design 1: Environmental Engineering Sciences 3 Credits
Grading Scheme: Letter Grade
The first part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: ENV 4514C;
Corequisite: ENV 4121 or ENV 4351.

ENV 4913 Integrated Product and Process Design 2: Environmental Engineering Sciences 3 Credits
Grading Scheme: Letter Grade
The second part of the sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: ENV 4912.

ENV 4932 Special Problems in Environmental Engineering Sciences 1-4 Credits
Grading Scheme: Letter Grade
Special problems in environmental engineering science.

ENV 4949 Environmental Engineering Internship/Co-op 1-3 Credits
Grading Scheme: S/U
Practical internship/co-op work experience under approved industrial supervision. (S/U)
Prerequisite: Engineering major.

Environmental Horticulture
Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information
Environmental Horticulture is the science and art of breeding, propagating, installing and maintaining plants to enhance the human and natural environment.

Curriculum
- Environmental Horticulture Management Certificate
- Environmental Horticulture Minor

Courses

BCH 3023 Elementary Organic and Biological Chemistry 3 Credits
Grading Scheme: Letter Grade
Elementary organic chemistry and biochemistry for students in the agricultural technical curricula. This is a terminal course and is not part of any sequence.
Prerequisite: CHM 2046 or CHM 2047.

EVR 3323 Introduction to Ecosystem Restoration 4 Credits
Grading Scheme: Letter Grade
Restoration theory and planning, disturbed land reclamation, woodland/wetland/river restoration, invasive species, community involvement, and monitoring, and emphasizes plant selection, establishment and maintenance.
Corequisite: BOT 2010C or BSC 2010, or instructor permission.

HOS 3305 Introduction to Plant Molecular Biology 3 Credits
Grading Scheme: Letter Grade
Introduces plant molecular biology and genetic engineering, emphasizing plant genes and genomes, transformation of plants and basic molecular biology.
Prerequisite: APB 2150 or BOT 2010C or BSC 2010.

LDE 3410C Residential Landscape Design 3 Credits
Grading Scheme: Letter Grade
Basics of residential landscape design including preparation, evaluation and implementation of simple landscape plans. Emphasizes the use of ornamental plants for functional and aesthetic improvement of home environments. Expect to attend one or two Saturday field trips.
Corequisite: ORH 3513C.

LDE 4404C Advanced Residential Landscape Design 3 Credits
Grading Scheme: Letter Grade
Sustainable landscape design concepts and practices to create regenerative and resilient residential landscapes that demonstrate advanced design skills and knowledge.
Prerequisite: LDE 3410C or LAA 2360C.

ORH 1030 Plants, Gardening and You 1 Credit
Grading Scheme: Letter Grade
A non-majors overview of environmental horticulture that emphasizes the art and science of growing, installing and maintaining plants used to enhance and improve the human environment indoors and outdoors. Gain familiarity with the science and the industries associated with environmental horticulture.

ORH 1283 Survey of Orchids 1 Credit
Grading Scheme: Letter Grade
Overview of the complexities of the orchid family, how selected genera are produced and the potential these plants offer to commercial nursery operators and hobbyists for profit or enjoyment.

ORH 2752 Sensory Gardening 2 Credits
Grading Scheme: Letter Grade
Hands-on, multidisciplinary approach to environmental horticulture delivered through the context of the human senses. Class activities, assignments, and projects enhance awareness and understanding of how horticulture relates to the natural and built world, as well as the ways in which people perceive those worlds.
ORH 3815C Florida Native Landscaping 3 Credits
Grading Scheme: Letter Grade
An upper-division, environmental horticulture course designed to introduce students with a plant science background to the nomenclature, effective utilization and design elements of plants native to Florida.
Prerequisite: junior standing.

ORH 4223 Golf and Sports Turf Management 2 Credits
Grading Scheme: Letter Grade
Strategies involved in golf course and athletic field operations, including development of management cultural practices, adherence to environment regulations, personnel management and budgeting. Students may be expected to attend Saturday field trips.
Prerequisite: ORH 3222C.

ORH 4236C Ornamental Landscape Management 3 Credits
Grading Scheme: Letter Grade
Provide foundational knowledge and the skills needed to successfully manage and maintain residential and commercial landscapes. Additionally, provides students with a greater understanding of the landscape management industry and familiarizes students with sustainable landscape management techniques.
Prerequisite: ORH 3222C.

ORH 4242C Arboriculture 4 Credits
Grading Scheme: Letter Grade
Introduces urban trees: biology, management requirements, design of urban spaces for trees, site modifications and construction techniques, tree selection, installation techniques, establishing trees in adverse sites, tree pruning and related tree management practices. A written tree management plan is required.
Prerequisite: ORH 3513C.

ORH 4256 Nutritional Management of Nursery Crops 3 Credits
Grading Scheme: Letter Grade
Techniques for determining, interpreting and managing the nutritional status of container grown greenhouse and nursery crops. Includes water quality, substrate physical and chemical parameters, irrigation and fertilization practices.

ORH 4264 Greenhouse and Nursery Crop Culture 3 Credits
Grading Scheme: Letter Grade
Principles and practices used for commercial production of economically important environmental horticulture crops.

ORH 4264L Greenhouse and Nursery Crop Culture Laboratory 1 Credit
Grading Scheme: Letter Grade
Advanced hands-on laboratory growing a wide range of greenhouse plants through the application of crop cultural practices discussed in lecture.
Prerequisite: ORH 3513C; Corequisite: ORH 4264.

ORH 4280 Orchidology 3 Credits
Grading Scheme: Letter Grade
Principles and practices involved in the production of orchid plants and flowers, including nomenclature, breeding, seed culture, harvesting and handling.
Prerequisite: BOT 2011C or BSC 2011.

ORH 4527C Florida Flora and Ecosystem Landscapes 3 Credits
Grading Scheme: Letter Grade
Introductory, upper-division environmental course on plant identification and environmental aspects of Florida’s diverse ecosystems.

ORH 4804 Annual and Perennial Gardening 2 Credits
Grading Scheme: Letter Grade
Identification, selection, use and management of annuals, perennials, vines, ornamental grasses and ground covers in the landscape. Hands-on care for plants in the outdoor laboratory. Learn the irrigation, fertilization, pruning and cultural needs of these popular plants. Laboratory complements lecture.
Prerequisite: ORH 3513C and PLS 3223; Corequisite: ORH 4804L.

ORH 4804L Annual and Perennial Gardening Laboratory 1 Credit
Grading Scheme: Letter Grade
Taxonomy of ornamental landscape annuals and perennials. Site evaluation, diagnostics, preparation, installation and maintenance of the color portion of commercial and residential landscaping.
Prerequisite: ORH 3513 and PLS 3223; Corequisite: ORH 4804.

ORH 4848 Landscape Plant Establishment 2 Credits
Grading Scheme: Letter Grade
Techniques for selecting and installing plants, building decks and patios, walls, trellises, landscape lighting, irrigation, water gardens and other landscape elements. Prepare balance sheets, bid specifications and contracts and perform landscape installations from completed landscape plants.

ORH 4900 Supervised Extension Experience in Environmental Horticulture 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

ORH 4905 Independent Study of Environmental Horticulture 1-5 Credits
Grading Scheme: Letter Grade
Three topics for independent study: a research investigation and review of literature, drafting of proposal, conducting an experiment, collection of data, summation and interpretation of results and preparation of a report; a library or studio assignment, including analysis of several sources of information on a specific topic with a written evaluation and list of conclusions; or assist in teaching a laboratory of selected courses in environmental horticulture.

ORH 4911 Supervised Research in Environmental Horticulture 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in environmental horticulture under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

ORH 4915 Honors Thesis Research in Environmental Horticulture 0-3 Credits
Grading Scheme: S/U
Independent research in environmental horticulture leading to an honors thesis. Student are mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

ORH 4932 Special Topics in Environmental Horticulture 1-4 Credits
Grading Scheme: Letter Grade
Topics of current interest concerning environmental plants.
ORH 4933 Professional Seminar in Environmental Horticulture 1 Credit
Grading Scheme: Letter Grade
A senior-level course for students seeking career opportunities in environmental horticulture. Special emphasis is placed on the expectations of and the relevant issues facing the landscape plant production, landscape management and turfgrass industries. Field trips and attendance at selected commercial trade shows are mandatory.
Prerequisite: AEC 3030C and AEC 3033C and ORH 3513C.

ORH 4941 Practical Work Experience 1-3 Credits
Grading Scheme: S/U
Prerequisite: previous arrangement with advisor and department chair and dean permission.

PLS 3223 Plant Propagation 2 Credits
Grading Scheme: Letter Grade
Principles, practices and physiological aspects of the propagation of horticultural and agronomic crops by cutting, grafting, seedage, micropropagation and other methods.
Prerequisite: BOT 2010C or BSC 2010;
Corequisite: PLS 3223L.

PLS 3223L Plant Propagation Laboratory 1 Credit
Grading Scheme: Letter Grade
Methods of propagating by seeds, bulbs, divisions, layering, cuttings, budding, grafting and micropropagation in a hands-on environment.
Prerequisite: BOT 2010C or BSC 2010.

PLS 4081 Techniques in Horticultural Therapy 3 Credits
Grading Scheme: Letter Grade
Examine the effectiveness of horticultural therapy across a diverse range of client populations, programs, and environments, and the physical, cognitive, and psychosocial implications. Explore therapeutic, vocational, and social modalities employing plants, as well as task analysis, activity analysis and tool and site adaptations.
Prerequisite: PLS 3080 with a minimum grade of C.

PLS 4082 Program Management in Horticultural Therapy 3 Credits
Grading Scheme: Letter Grade
Learn to develop, manage, and evaluate horticultural therapy programs in diverse environments. Explore strategies for program proposals and funding, along with recruitment of clients and required regulations and documentation. Discuss staff and volunteer management, as well as plant materials, gardens, and other program resources.
Prerequisite: PLS 3080 and PLS 4081 with minimum grades of C.

PLS 4242C Micropropagation of Horticultural Crops 4 Credits
Grading Scheme: Letter Grade
Lectures and laboratory exercises emphasizing the practical application of plant tissue culture for the clonal propagation of horticultural crops. Emphasis on aseptic technique, culture methodology and micropropagation systems development.
Prerequisite: ORH 3513C recommended.

PLS 4941 Practical Work Experience 1-3 Credits
Grading Scheme: S/U
Practical, hands-on experience in the plant sciences through a paid internship in the industry. This must be a new experience and related to the student’s field of study. One month of full-time work is required for each credit.
Prerequisite: Plant Science major of junior standing or higher.

PLS 4950 Plant Science Capstone 3 Credits
Grading Scheme: Letter Grade
Identify a problem or topic in plant sciences and develop a poster presentation about this problem or topic. This course discusses the following topics: how to develop a hypothesis, how to complete a reliable literature review, the importance of peer review and how to present results and findings.
Prerequisite: PLS 3004C and PLS 4941 One year of employment experience in plant science may be substituted for PLS 4941 with instructor permission.

Environmental Science

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.

Curriculum
- Combination Degrees
- Environmental Science
- Environmental Science Minor

Courses

EVR 2001 Introduction to Environmental Science 3 Credits
Grading Scheme: Letter Grade
Delivered from a systems perspective, an interdisciplinary approach explores contemporary environments that are comprised of both human and non-human elements. Explores physical, chemical, and biological processes to understand pressing environmental challenges and cultural values, attitudes, and norms expressed by individuals and populations around the globe. (B) (N) (P)

Attributes: General Education - Biological Science, General Education - International, General Education - Physical Science

EVS 3000 Environmental Science 3 Credits
Grading Scheme: Letter Grade
Interactions of humans and their environments, Earth’s resources, pollution and environmental management.
Prerequisite: CHM 2045 or CHM 2047 or CHM 2095.
EVS 3000L Environmental Science Laboratory 1 Credit
Grading Scheme: Letter Grade
Hands-on experience in data collection and analysis for environmental science and management.
Prerequisite: CHM 2045 or CHM 2047 or CHM 2095.

EVS 4021 Critical Thinking in Environmental Science 3 Credits
Grading Scheme: Letter Grade
Develops critical thinking and communication skills in the practicing environmental scientist. Students analyze the strengths, limitations and strategies of arguments regarding environmental science, policy and management, and craft arguments consistent with the scientific method.
Prerequisite: NE classification and senior standing.

EVS 4903 Supervised Extension Experience in Natural Resources and Environment 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic experiences in natural resources and environment under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

EVS 4905 Individual Study in Environmental Science 1-3 Credits
Grading Scheme: Letter Grade

EVS 4911 Supervised Research in Environmental Science 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in environmental science under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

EVS 4915 Honors Thesis Research in Environmental Science 0-3 Credits
Grading Scheme: S/U
Independent research in environmental science leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

EVS 4932 Special Topics in Environmental Science 1-3 Credits
Grading Scheme: Letter Grade
Special topics in environmental science.
Prerequisite: sophomore standing or higher.

EVS 4949 Environmental Science Internship 1-3 Credits
Grading Scheme: S/U
Employment or volunteer work in a natural resource- or environment-related business or government agency, with job description related to field of study and written work report of each term's activities. (S-U)
Prerequisite: NE classification and permission of dean. Can be counted as an elective for the major or as a free elective.

European Studies
Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Center Information
The Center for European Studies (CES), housed within the College of Liberal Arts & Sciences (CLAS), is an interdisciplinary area studies center focused on the study of Europe, and facilitating the training of scholars and experts in European studies in the United States. In addition to the minors, certificates, and major, the center offers study abroad programs in Europe and various scholarships and grants for undergraduates.

Curriculum
• East-Central European Studies Minor
• European Union Studies Certificate
• European Union Studies Minor
• Modern European Studies

Courses
EUS 2001 European Experience: a Humanities Perspective 3 Credits
Grading Scheme: Letter Grade
Introductory interdisciplinary study of contemporary Europe from an arts and humanities perspective. (H and N)
Attributes: General Education - Humanities, General Education - International

EUS 2003 European Experience: a Social Science Perspective 3 Credits
Grading Scheme: Letter Grade
Introductory interdisciplinary study of contemporary Europe from a social science perspective. (N and S)
Attributes: General Education - International, General Education - Social Science

EUS 2131 Spices, Dumplings, and Coffee: Food Customs in Europe 3 Credits
Grading Scheme: Letter Grade

EUS 3030 Greece During the Second World War 4-12 Credits
Grading Scheme: Letter Grade
A broad history of Greece during WWII, including the German occupation of Greece, the resistance movement in Greece, and the fate of Greece immediately following the end of WWII.
Prerequisite: Sophomore standing or higher.

EUS 3100 European Cinema 4-12 Credits
Grading Scheme: Letter Grade
A study of films of one or more of the historically important national cinemas in Europe. The course is taught in English.

EUS 3110 Culture and Society in Europe 1-4 Credits
Grading Scheme: Letter Grade
Examines central issues in one or more of the various cultures and societies in Europe.
EUS 3111 Greece and Turkey: Myths and Misconceptions 3 Credits
Grading Scheme: Letter Grade
Examines the major political, historical, and cultural aspects of the animosity between Greeks and Turks. Aims to dispel common myths and misconceptions.
Prerequisite: sophomore standing or higher.

EUS 3113 History of Turks 3 Credits
Grading Scheme: Letter Grade
Broad historical study of the Turks in world history. Emphasizes the Ottoman Turks, the Young Turks, and various upheavals in Turkey alongside social and cultural topics including gender, daily life, workers, and migrations.
Prerequisite: sophomore standing or higher or instructor approval.

EUS 3120 War and Culture in Europe 3 Credits
Grading Scheme: Letter Grade
A survey of war in the modern era, its impact on European society and the corresponding cultures of victory and defeat.

EUS 3140 Culture in Crisis: the European Avant-Garde between the Wars 3 Credits
Grading Scheme: Letter Grade
Introduces the ideology and aesthetics of the major movements of the 20th century avant-garde, focusing on developments in Paris, Berlin, Prague and Moscow. (H and N)
Attributes: General Education - Humanities, General Education - International

EUS 3142 Islam and Turkey 3 Credits
Grading Scheme: Letter Grade
Explores what Islam is and what Turks believe that it is. Also explores Islamic sources, Turkish conversions, Turkish mysticism, and Islamist politics. Explains these topics through the prism of original sources and emphasizes ways cultural forces contribute to the making of modern Islam.
Prerequisite: sophomore standing or higher or instructor permission.

EUS 3220 Secret Police under Communism 3 Credits
Grading Scheme: Letter Grade
Overview of the secret-police forces and the political use of terror in the Central-European countries of Germany, Hungary, Czechoslovakia, Poland, Romania, and Bulgaria between 1945 and 1990.
Prerequisite: instructor permission.

EUS 3221 Socialist Control and Resistance in Eastern Europe After 1945 3 Credits
Grading Scheme: Letter Grade
Explores the political, intellectual, social and cultural history of Eastern Europe from 1945 to 1990 and discusses ways in which the Soviet leadership manipulated the governing and legal systems of the Eastern European Communist countries.
Prerequisite: EUS 2001 or EUS 2003.

EUS 3400 Migration in Europe 3 Credits
Grading Scheme: Letter Grade
Examines migration in Europe, examining topics ranging from the first modern refugee crisis in the aftermath of World War I and the Russian Revolution to contemporary debates about immigration in the European Union.
Prerequisite: instructor permission.

EUS 3900 Directed Readings in European Studies 1 Credit
Grading Scheme: Letter Grade
Rotating readings on a country, region, or current issue in Europe.
Prerequisite: Sophomore-standing or higher.

EUS 3930 Undergraduate Seminar in European Studies 3 Credits
Grading Scheme: Letter Grade
Intermediate rotating topics course on various European issues. (H)
Prerequisite: department permission.
Attributes: General Education - Humanities

EUS 3937 Applied European Language 1 Credit
Grading Scheme: Letter Grade
An enhancement section designed to accompany and complement area studies courses offered in other departments. Readings and discussions are in a continental European language to enable students to develop specific vocabulary and fluency related to the content of the companion course and to provide them with an international perspective on the issues of the main course.
Prerequisite: instructor permission.

EUS 3938 European Less Commonly Taught Languages 1-4 Credits
Grading Scheme: Letter Grade
Rotating topics course to facilitate language instruction for European lesser/least commonly taught languages. Instruction is in a European language to enable students to develop relevant competencies in speaking, writing, listening, and comprehension.
Prerequisite: placement test or instructor permission.

EUS 4210 Politics and Institutions of the European Union 3 Credits
Grading Scheme: Letter Grade
Examines the European Union's enlargement process and politics, and on the domestic politics of the applicant countries.
Prerequisite: Sophomore standing or higher.

EUS 4211 European Union and Its Enlargement 3 Credits
Grading Scheme: Letter Grade
Examines the European Union's enlargement process and politics, and on the domestic politics of the applicant countries.
Prerequisite: Sophomore standing or higher.

EUS 4212 European Economic Integration: Politics and Policy 3 Credits
Grading Scheme: Letter Grade
Examines the political economy of European Union (EU) economic integration from an interdisciplinary perspective.
Prerequisite: three EUS-prefixed credits and instructor permission.

EUS 4213 Turkey and the EU: History, Present and the Future 3 Credits
Grading Scheme: Letter Grade
The dynamics and developments in Turkish politics with regard to Turkey's EU path. Students will understand the challenges the EU faces at present with Turkey, as this country's candidacy highlights the unresolved issues facing a more integrated EU.
Prerequisite: EUS 2001 or EUS 2003.

EUS 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Reading and discussions in advanced topics of European studies.

EUS 4911 Undergraduate Research in European Studies 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery or application.

EUS 4930 Special Topics in European Studies 3 Credits
Grading Scheme: Letter Grade
Advanced variable-topics course on European issues.
Prerequisite: three EUS-prefixed credits or instructor permission.
EUS 4932 Jean Monnet Special Seminar: the EU Today 1-3 Credits
Grading Scheme: Letter Grade
Advanced variable topics on current European Union issues from multiple
disciplinary perspectives, and taught by visiting EU scholar(s).
Prerequisite: (CPO 4104 or EUS 4210) and INR 4531, or instructor
permission.

EUS 4944 Seminar in European Union Studies 3 Credits
Grading Scheme: Letter Grade
Advanced topics related to the European Union.
Prerequisite: 3 credits of EUS-prefix courses or instructor permission.

EUS 4950 Overseas Study in Europe 1-6 Credits
Grading Scheme: Letter Grade
Advanced course on European issues taught during study abroad in
Europe.
Prerequisite: three EUS-prefix credits or instructor permission.

HNG 1130 Beginning Hungarian 1 5 Credits
Grading Scheme: Letter Grade
This course and its sequel, HNG 1131, constitute the basic sequence in
Hungarian.

HNG 1131 Beginning Hungarian 2 5 Credits
Grading Scheme: Letter Grade
Second semester of basic sequence in Hungarian.
Prerequisite: HNG 1130 with minimum grade of C, or S, or the equivalent.

HNG 1180 Elementary Hungarian: Review and Progress 1 3 Credits
Grading Scheme: Letter Grade
Alternative to HNG 1130, for students who have some experience in
Hungarian. Reviews basic grammar and improves reading, writing and
listening skills.

HNG 1182 Elementary Hungarian: Review and Progress 2 3 Credits
Grading Scheme: Letter Grade
An accelerated one-semester coverage of HNG 1130 and HNG 1131 for
students with some experience in Hungarian.
Prerequisite: instructor permission.

TUR 2300 Intensive Intermediate Turkish 5 Credits
Grading Scheme: Letter Grade
Immersive intermediate study of Turkish. Equivalent to, and substitute for,
the second-year sequence of TUR 2220 / TUR 2221. Classes meet daily;
see the weekly schedule of topics.
Prerequisite: (TUR 1130 and TUR 1131) or instructor approval.

Family, Youth and Community Sciences
Not all courses are offered every semester. Refer to the schedule of
courses for each term’s specific offerings.

Curriculum
• Combination Degrees
• Family Life Educator Certificate
• Family, Youth and Community Sciences
• Family, Youth and Community Sciences Minor

Courses
FYC 3001 Principles of Family, Youth and Community Sciences 3 Credits
Grading Scheme: Letter Grade
Introduces the study and practice of family, youth and community
sciences. Presents analytic concepts used in the study of family, youth
and community sciences. Emphasizes the vulnerabilities and needs of
U.S. children, youth, families and communities, and describes human
services that maximize human potential and minimize personal and
societal costs. Introduces the roles and skills of the human service
professional. (S)
Prerequisite: PSY 2012 or SYG 2000.
Attributes: General Education - SYG Social Science
FYC 3005 Introduction to Personal and Family Financial Planning 3 Credits
Grading Scheme: Letter Grade
Management of personal and family financial resources throughout the life span. A study of individual and family finances as related to planning, credit, saving, investment, insurance, taxes, housing costs, transportation costs, retirement, and estate planning.
Prerequisite: sophomores standing or higher.

FYC 3101 Parenting and Family Development 3 Credits
Grading Scheme: Letter Grade
Introduces the challenges and changes associated with parenthood. Includes strategies, skills and resources for understanding parenting. Also addresses diverse family types and parenting risks.
Corequisite: FYC 3001.

FYC 3112 Contemporary Family Problems and Interventions 3 Credits
Grading Scheme: Letter Grade
The major social and family problems contemporary families face, including poverty, violence and care of dependent elders. Emphasizes family strengths and resiliency as well as social programs that help families withstand and overcome difficulties. Emphasizes the role of society, race and gender in constructing family problems.
Prerequisite: FYC 3001, SYG 2430 or FYC 3101, and SYG 2000, all with minimum grades of C; FYC majors only.

FYC 3115 Human Services 3 Credits
Grading Scheme: Letter Grade
In-depth look at human services that assist children and families, with focus on income support, child protection, adoption and family support programs offered through human services agencies. Emphasizes professional development of helping skills for working directly with children and families.
Prerequisite: (SYG 2000 or PSY 2012) and junior standing or higher.

FYC 3201 Foundations of Youth Development 3 Credits
Grading Scheme: Letter Grade
Introduces youth development principles utilizing an ecological framework, including major theories relevant to domains of development. Then, major physical, cognitive, social and emotional changes experienced by youth in middle childhood through adolescence are explored. Application of youth development principles in context of family, school and community are also emphasized.
Corequisite: FYC 3001.

FYC 3401 Introduction to Social and Economic Perspectives on the Community 3 Credits
Grading Scheme: Letter Grade
Introduces the study of community in American society. Addresses the theoretical underpinnings of the concept of community and explores changes that have affected urban and rural communities. (S)
Corequisite: FYC 3001.

FYC 3521 Community Food Systems 3 Credits
Grading Scheme: Letter Grade
Examines theory and practice in food and agriculture from a social science perspective within the context of sustainable community food systems.
Prerequisite: junior standing or higher.

FYC 4003 Personal and Family Financial Counseling 3 Credits
Grading Scheme: Letter Grade
Examines family economics and resource management issues and impact on the well-being of family across the major transitions of the family life-cycle. The complex process of financial decision-making and the role of the financial counselor are addressed.
Prerequisite: FYC 3005.

FYC 4004 Personal and Family Tax Planning 3 Credits
Grading Scheme: Letter Grade
Principles, current law and practice of income taxation and its impact on financial planning for individuals, couples and families in their roles as investors, employees and business owners.
Prerequisite: (FYC 4003 or ACG 2021) and STA 2023 and (AEB 2014 or ECO 2013 or ECO 2023).

FYC 4102 Personal and Family Retirement and Estate Planning 3 Credits
Grading Scheme: Letter Grade
Provides knowledge of public and private retirement plans, including Social Security, Medicare, Medicaid, defined benefit, defined contribution plans and their regulatory provisions. Estate planning focuses on the efficient conservation and transfer of wealth through trusts, wills, probate and charitable giving consistent with the client’s goals.
Prerequisite: (FYC 4003 or ACG 2021) and STA 2023 and (AEB 2014 or ECO 2013 or ECO 2023).

FYC 4114 Ethical Issues in Family, Youth and Community Sciences 3 Credits
Grading Scheme: Letter Grade
Ethics and ethical decision-making by professionals working individually and their families is addressed. Emphasizes ethical issues related to family relationships and family life.
Prerequisite: junior standing or higher.

FYC 4126 Urban and Rural America in Transition 3 Credits
Grading Scheme: Letter Grade
Communities in America are being confronted with a number of significant changes. Such shifts are not felt in the same manner across various regions or communities in the U.S. Explore current and emerging issues that have differential consequences for urban and rural areas in this country.
Prerequisite: SYG 2000, FYC 3001 and FYC 3401 with minimum grades of C; FYC majors only.

FYC 4202 Youth and Family Relations 3 Credits
Grading Scheme: Letter Grade
Youth within the family system. Reviews basic theory and research on youth development and how it is intertwined with family development, family processes and extended family systems. Students also work with youth and their families.
Prerequisite: FYC 3001.

FYC 4212 Contemporary Youth Problems and Solutions 3 Credits
Grading Scheme: Letter Grade
Youth development and its ecology, emphasizing the challenges and issues facing adolescents/ youth, and the creation of communities that foster positive youth development and resiliency. Includes theoretical, methodological, empirical and practical issues regarding youth development issues and solutions. Also examines the ecology of youth development, focusing on the dynamics of interactions and reciprocal relationships between youth and various systems of the environment.
Prerequisite: (FYC 3001 and FYC 3201 and SYG 2000 with minimum grades of C) and Family, Youth and Community Sciences major.
FYC 4301 Engaging Communities for Decision Making and Action 3 Credits
Grading Scheme: Letter Grade
Survey citizens and analyze data of scientific, technological, environmental, and societal issues at the community level. Implement and evaluate methodologically correct research that aids in the resolution of issues and improves decision-making skills as they relate to community issues.

FYC 4408 Organizational Leadership for Nonprofits 3 Credits
Grading Scheme: Letter Grade
Examines the challenges for nonprofit leaders, incorporating leadership theories as they apply to these organizations. Equips students with the leadership skills needed to lead nonprofit organizations.
Prerequisite: junior standing or higher or instructor permission.

FYC 4409 Working with Nonprofit Organizations in Community Settings 3 Credits
Grading Scheme: Letter Grade
Overview of nonprofit organizations, their functions and purpose, how they are organized and operate, and the basic structure of an incorporated nonprofit.
Prerequisite: junior or senior standing.

FYC 4410 Fund Raising for Community Nonprofit Organizations 3 Credits
Grading Scheme: Letter Grade
Contemporary fund raising practices in the nonprofit sector applied to community organizations.
Prerequisite: FYC 4409.

FYC 4426 Risk Management in Nonprofit Organizations 3 Credits
Grading Scheme: Letter Grade
Foundation in the theory, principles and techniques associated with risk management; the general risk management exposures facing nonprofit organizations; and risk financing strategies for nonprofits.
Prerequisite: FYC 4409.

FYC 4427 Non-Governmental Organizations 3 Credits
Grading Scheme: Letter Grade
Explores the nature, role, operations and impacts of non-governmental organizations (NGOs) across the globe. Provides a foundation in understanding NGOs within the geographical, social, political and economic realities under which they operate. Lectures, reading assignments, student presentations and a group project are designed for a better understanding of NGO operations.
Prerequisite: junior or senior standing.

FYC 4428 Human Resource Management for Nonprofits 3 Credits
Grading Scheme: Letter Grade
Presents the various HRM activities such as recruitment, testing, selection, performance management, labor relations, volunteer management, compensation and training, for more effective management. Experiential exercises are used to simulate personnel/HRM tasks and issues that managers face in nonprofit organizations, such as conflict and leadership.
Prerequisite: junior or senior standing.

FYC 4503 Methods of Family Life Education 3 Credits
Grading Scheme: Letter Grade
Educational techniques for family life educators and human science providers who help individuals and families address key issues of development and human relationships at each stage of the life cycle.
Prerequisite: (FYC 3101 and FYC 3201) or SYG 2430.

FYC 4622 Planning and Evaluating Family, Youth and Community Science Programs 3 Credits
Grading Scheme: Letter Grade
Basic philosophy, theory and process of planning and evaluating family, youth and community programs.

FYC 4660 Family Policy 3 Credits
Grading Scheme: Letter Grade
Understanding how professionals can influence family policy and the impact of government policies on families.
Prerequisite: FYC 3101 or SYG 2430.

FYC 4801 Applied Social Research Methods 4 Credits
Grading Scheme: Letter Grade
Understand and apply the principles of social science research methods. Learn a variety of research methods and have hands-on experience with data collection and analysis.
Prerequisite: FYC 3001 with minimum grade of C or STA 2023.

FYC 4803 Advanced Social Research Methods 3 Credits
Grading Scheme: Letter Grade
Design, implement, and interpret social research as part of an advanced team. Collaboratively conduct original social research under faculty supervision and produce a manuscript suitable for submission to a scholarly outlet.
Prerequisite: FYC 4801 and Instructor approval.

FYC 4900 Supervised Extension Experience in Family, Youth and Community Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

FYC 4905 Individual Study in Family, Youth and Community Sciences 1-3 Credits
Grading Scheme: Letter Grade
Selected topics and problems related to family, youth and community sciences and the student’s specific area of interest.

FYC 4911 Supervised Research in Family, Youth and Community Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in family, youth and community sciences under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

FYC 4915 Honors Thesis Research in Family, Youth and Community Sciences 0-3 Credits
Grading Scheme: S/U
Independent research in family, youth and community sciences leading to an honors thesis. Students are mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

FYC 4930 Personal and Family Financial Planning Capstone 3 Credits
Grading Scheme: Letter Grade
Critical thinking and decision making about personal and family financial management in the context of the financial planning process. Analyze and prioritize goals and make recommendations for a client in household accounting, taxes, investments, risk management, retirement planning and estate planning.
Prerequisite: FYC 4004, FYC 4007 and FYC 4102.
Film and Media Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.

More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

**FYC 4931 Family, Youth, and Community Sciences Professional Development 3 Credits**

Grading Scheme: Letter Grade

Provides a professional development experience for students in FYCS including: search for employment during their final semesters of undergraduate study and information regarding graduate education and research possibilities. Emphasis is placed on career placement, graduate education, practicum readiness, professional business etiquette and elements for a successful transition to the workforce.

Prerequisite: FYC 3001 and (FYC 3101 or SYG 2430) and FYC 3201 and FYC 3401.

**FYC 4932 Special Topics in Family, Youth, and Community Science 1-3 Credits**

Grading Scheme: Letter Grade

Special topics in Family, Youth, and Community Science.

Prerequisite: Sophomore standing.

**FYC 4941 Practicum in Family, Youth and Community Sciences 3 Credits**

Grading Scheme: Letter Grade

Work experience in a human/community services agency and a professional seminar to discuss student progress, workplace experiences and issues, and critical topics in professional development.

Prerequisite: FYC 3001 and (FYC 3101 or SYG 2430) and FYC 3201 and FYC 3401 and FYP 4622 and FYC 4801 and FYC 4931.

**FYC 4950 UF in Ireland Field Study 3 Credits**

Grading Scheme: Letter Grade

This course explores Irish culture through observation, participation, and reflection on a variety of Irish cultural experiences. Students will also participate, summarize, and report on a capstone project.

Prerequisite: 1 entry-level youth development course (FYC 3001, FYC 3201, EDF 3110, EDF 3132, EDF 3135, or PSY 2012).

**ARH 4471 Late Twentieth Century Art 3 Credits**

Grading Scheme: Letter Grade

Continuation of mid-twentieth century art (ARH 4453). International art and American diversity in art from about 1970 to the present.

Prerequisite: ARH 2051 and (art major or art history minor).

Attributes: General Education - Humanities, General Education - International

**ART 4710 History of Photography 3 Credits**

Grading Scheme: Letter Grade

Surveys major technical, stylistic, and critical directions in photography from the 19th century to the present. (H and N)

Prerequisite: ARH 2051 and (art major or art history minor).

Attributes: General Education - Humanities, General Education - International

**ART 3390 Visual Anthropology**

Prerequisite:

Uses photography and film as tools and products of social science. Ways of describing, analyzing and presenting behavior and cultural thought and values.

Grading Scheme: Letter Grade

Examines movies as a mode of storytelling by emphasizing the difference between verbal and visual narration, and relation to contemporary thought and values.

**ENG 3113 The Movies as Narrative Art 4 Credits**

Grading Scheme: Letter Grade

Examines movies as a mode of storytelling by emphasizing the difference between verbal and visual narration, and relation to contemporary thought and values.

**ENG 3115 Introduction to Film: Criticism and Theory 4 Credits**

Grading Scheme: Letter Grade

Introduces the principal theoretical and critical issues raised by the first century of the cinema.

**ENG 3121 History of Film, Part 1 4 Credits**

Grading Scheme: Letter Grade

History of film from its beginnings to the introduction of sound.

**ENG 3122 History of Film, Part 2 4 Credits**

Grading Scheme: Letter Grade

History of film from the introduction of sound to 1960.

**ENG 3125 History of Film, Part 3 4 Credits**

Grading Scheme: Letter Grade

History of film from 1960 to the present.
ENG 4130 Race and Ethnicity in Film 4 Credits
Grading Scheme: Letter Grade
Critical and historical study of films and videos by and about people of color in the Americas, Africa, Australia and Europe.

ENG 4133 Film Studies 4 Credits
Grading Scheme: Letter Grade
Variable topics provide in-depth study of film genres, notable film directors, and other significant topics on subjects related to film.

ENG 4134 Women and Film 4 Credits
Grading Scheme: Letter Grade
Studies the roles and function of women in mainstream and alternative cinema, including study of feminist film criticism and theories of gender.

ENG 4135 National Cinemas 4 Credits
Grading Scheme: Letter Grade
Variable topics study of the films of historically important national cinemas, such as American, French, German, Italian, Russian, Japanese.

ENG 4136 Film and Video Production 4 Credits
Grading Scheme: Letter Grade
Seminar on the independent and experimental uses of small-format film and video production.

ENG 4139 Television and Electronic Culture 4 Credits
Grading Scheme: Letter Grade
Explores the development of new modes of thought, forms of art, popular culture, and social practices based on the electronic technology of video and computers.

FRT 3520 French Cinema 4-8 Credits
Grading Scheme: Letter Grade
Critical, theoretical and historical study of French cinema. Topics will be announced. Content may include key directors, 1930s cinema, nostalgia and masculinity in 1980s films, World War II cinema, and Colonial and Postcolonial cinema. Open to French majors and non-majors and is taught in English. (H and N)
Attributes: General Education - Humanities, General Education - International

IDS 4906 Interdisciplinary Thesis Research 1-12 Credits
Grading Scheme: Letter Grade
Research accommodation for thesis. (WR)
Corequisite: refer to the department.
Attributes: Satisfies 6000 Words of Writing Requirement

ITT 3521 Italian Cinema 4 Credits
Grading Scheme: Letter Grade
Critical and historical study of Italian film and directors. Topics may vary. (H and N)
Attributes: General Education - Humanities, General Education - International

PGY 3410C Photography: Color 3 Credits
Grading Scheme: Letter Grade
Consideration of the use and technique of color photography. Covers cameras, films, and darkroom developing techniques.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

PGY 3444C Photography: Black and White 3 Credits
Grading Scheme: Letter Grade
Fundamentals of photography, operation of the camera and developing, printing, and enlarging. Principles of photography as a means of personal expression.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

PGY 3820C Photography: Digital 3 Credits
Grading Scheme: Letter Grade
Studio methods and techniques in creating still images using electronic digital technology.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

PGY 4420C Advanced Photography 6 Credits
Grading Scheme: Letter Grade
Use of the camera as a medium of individual creative expression. Experimental projects in black and white and color photography.
Prerequisite: PGY 3410C, PGY 3421C, PGY 3444C, PGY 3820C, and senior-level art major.

TPA 3103 Acting 2: Analysis and Application 4 Credits
Grading Scheme: Letter Grade
Practical application of theoretical concepts of directing applied to scene undergraduate study.
Prerequisite: TP 3103

TPP 3217 Introduction to Lighting and Sound 4 Credits
Grading Scheme: Letter Grade
Introduces electricity and technical skills basic to lighting and sound technology.

TPP 3311 Directing 3 Credits
Grading Scheme: Letter Grade
Practical application of theoretical concepts of directing applied to scene study.
Prerequisite: refer to the department.

PGY 3820C Photography: Digital 3 Credits
Grading Scheme: Letter Grade
Studio methods and techniques in creating still images using electronic digital technology.
Prerequisite: Must be BFA Art or BA Art or BFA Graphic Design major and must have passed sophomore portfolio review.

PGY 4420C Advanced Photography 6 Credits
Grading Scheme: Letter Grade
Use of the camera as a medium of individual creative expression. Experimental projects in black and white and color photography.
Prerequisite: PGY 3410C, PGY 3421C, PGY 3444C, PGY 3820C, and senior-level art major.

TPP 3217 Introduction to Lighting and Sound 4 Credits
Grading Scheme: Letter Grade
Introduces electricity and technical skills basic to lighting and sound technology.

TPP 3311 Directing 3 Credits
Grading Scheme: Letter Grade
Practical application of theoretical concepts of directing applied to scene study.
Prerequisite: refer to the department.

Finance, Insurance, and Real Estate
Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information
The Finance, Insurance and Real Estate Department offers degree programs at the doctoral, masters, and undergraduate level. Besides standard finance offerings, specialized academic programs in entrepreneurship, real estate, and value investing are available. The department’s faculty boasts top experts on topic matter as diverse as banking, initial public offerings, investments, international finance, mergers, and acquisitions and real estate.
FIN 2951 Special Projects 1-3 Credits
Grading Scheme: S/U
Projects related to finance as approved by the college. (S-U)

FIN 3403 Business Finance 4 Credits
Grading Scheme: Letter Grade
The acquisition and management of funds by business. A minimum grade of B is required in FIN 3403 to register for required finance major courses.
Prerequisite: (ACG 2021 and junior standing) or (ACG 2021 and ECO 2023 and sophomore standing).

FIN 4243 Debt and Money Markets 4 Credits
Grading Scheme: Letter Grade
Examines financial markets, the institutions and instruments associated with debt funds, and the determinants of the general level and structure of interest rates.
Prerequisite: (FIN 3403 with a minimum grade of B) and (ACG 2021 and ACG 2071 with minimum grades of C).

FIN 4403 Honors Finance 2 Credits
Grading Scheme: Letter Grade
Variable topics providing opportunity for in-depth study of topics not offered in other courses.
Prerequisite: FIN 3403 with grade of A.

FIN 4414 Financial Management 4 Credits
Grading Scheme: Letter Grade
An integrative examination of theory and practice of managerial finance, financing and investing decisions as affected by risk, timing and financial markets.
Prerequisite: FIN 4243 and FIN 4504.

FIN 4453 Financial Modeling 2 Credits
Grading Scheme: Letter Grade
The course demonstrates how intricate financial spreadsheet models can be applied to aid in value creating activities for businesses such as valuation, additional funds needed analysis and additional applications that may include activities such as leasing and merger analysis.
Prerequisite: FIN 3403 with a minimum grade of B or an equivalent course as approved by the Department of Finance.

FIN 4504 Equity and Capital Markets 4 Credits
Grading Scheme: Letter Grade
Examines financial markets, the institutions and instruments associated with equity funds, the mechanics and mathematics of stock prices, security analysis, and the factors influencing stock values.
Prerequisite: (FIN 3403 with a minimum grade of B) and (ACG 2021 and ACG 2071 with minimum grades of C).

FIN 4533 Financial Derivatives 2 Credits
Grading Scheme: Letter Grade
The course defines the main kind of derivatives, shows how they are used to achieve various hedging and speculating objectives, introduces a framework for pricing derivatives and studies several applications of derivative-pricing techniques outside derivative markets.
Prerequisite: FIN 4504 or FIN 4243

FIN 4905 Independent Research 1-4 Credits
Grading Scheme: Letter Grade
A written report or reports will be required.
Prerequisite: senior standing, previous work in the area of research and department permission.

FIN 4934 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Special topics in entrepreneurship related fields of study.

FIN 4956 International Studies in Finance 1-4 Credits
Grading Scheme: Letter Grade
This course provides a mechanism by which coursework taken at a foreign university as part of an approved study abroad program can be recorded on the transcript and counted toward UF graduation.

FIN 4970 Honors Thesis 1 Credit
Grading Scheme: S/U
A thesis is required for award of magna cum laude or summa cum laude designation. To qualify for the thesis option, students normally will have completed 90 semester credits of coursework (exceptions may be made by the honors coordinator) and must have at least the 3.6 GPA required for high honors at the time they enroll. The thesis will be reviewed by at least one faculty member chosen by the honors coordinator from the student’s major department. (S-U)

REE 2951 Special Projects 1-3 Credits
Grading Scheme: S/U
Projects related to business real estate as approved by the college. (S-U)

REE 3043 Real Estate Analysis 4 Credits
Grading Scheme: Letter Grade
Principles of real estate decision making within the context of our economic, social, legal and political-government systems.
Prerequisite: ACG 2021 or AEB 3133 or AEB 3144 or BCN 4753.

REE 4303 Real Estate Investment Decision Making 4 Credits
Grading Scheme: Letter Grade
Explores real estate investment and the demands, skills and challenges of decision-making for those who make such investments.
Prerequisite: REE 3043 with a minimum grade of C.

REE 4905 Independent Research 1-4 Credits
Grading Scheme: Letter Grade
A written report or reports will be required.
Prerequisite: senior standing, previous work in the area selected for research and instructor and department chair permissions.
REE 4970 Honors Thesis 1 Credit

Grading Scheme: S/U

A thesis is required for award of magna cum laude or summa cum laude designation. To qualify for the thesis option, students normally will have completed 90 semester credits of coursework (exceptions may be made by the honors coordinator) and must have at least the 3.6 GPA required for high honors at the time they enroll. The thesis will be reviewed by at least one faculty member chosen by the honors coordinator from the student’s major department. (S-U)

Prerequisite: 90 credits earned and a 3.6 UF GPA.

Fine Arts

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.

Courses

HUM 2510 Design for Understanding the Visual and Performing Arts 3 Credits

Grading Scheme: Letter Grade

Analysis of the basic elements and concepts of the visual arts, music, theater, and the dance to establish a fundamental base from which decisions can be made about what one sees, hears, and feels. Understanding, appreciation, and literacy in the arts are developed and are strengthened by participating in arts experiences. (H) (WR)

Attributes: General Education - Humanities, Satisfies 2000 Words of Writing Requirement

HUM 2511 Basic Fundamentals and Skills in the Visual Arts and Music 3 Credits

Grading Scheme: Letter Grade

Fundamentals of visual arts and of music needed by the classroom teacher for teaching art and music in the elementary school. Students with sufficient background may exempt the course by examination.

HUM 2592 Introduction to the Arts in Medicine in a Global Context 3 Credits

Grading Scheme: Letter Grade

Explores the field of arts in medicine in a global context, focusing on the many ways that the arts can be used to enhance health and wellbeing in healthcare or community settings and the relationship of culture to healing practices, systems, and health literacy in various regions of the world.

HUM 2930 Special Topics in Fine Arts 1-3 Credits

Grading Scheme: Letter Grade

Variable topics course exploring the interaction between various arts and between the arts and other disciplines.

HUM 3940L Arts in Medicine Practicum 1 2 Credits

Grading Scheme: Letter Grade

Provides basic to intermediate-level mentored practice in the arts in healthcare in a clinical or community environment. Emphasizes a primary discipline while deepening the understanding of the practice through documentation self-assessment and a culminating paper.

Prerequisite: (HUM 2592 or completion of Arts in Healthcare Summer Intensive) and instructor permission.

HUM 4594 Music in Medicine Capstone 1 Credit

Grading Scheme: Letter Grade

Through literature review and a culminating research paper, provides an opportunity to research a topic in the field of music in medicine relevant to educational and professional goals.

HUM 4912 Fine Arts Undergraduate Research 0-3 Credits

Grading Scheme: S/U

Provides an opportunity for firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or creative application, depending on the topic. Projects are supervised by an advising faculty member or a grad student working under faculty supervision. (S-U)

HUM 4930 Special Topics in Fine Arts 1-3 Credits

Grading Scheme: Letter Grade

An upper division general fine arts special/rotating topics on various subjects in the arts.

Prerequisite: junior standing or higher.

HUM 4940L Arts in Medicine Practicum 2 3 Credits

Grading Scheme: Letter Grade

Provides an individualized and in-depth practice of the arts in healthcare in a clinical or community environment. Emphasizes a primary discipline while deepening the understanding of the practice through documentation reflection and a culminating paper.

Prerequisite: HUM 3940L and instructor permission.

HUM 4956 Overseas Studies in Fine and Performing Arts 1-18 Credits

Grading Scheme: Letter Grade

Provides a mechanism by which coursework taken as part of an approved study-abroad program can be recorded on the transcript and counted toward UF graduation.

Prerequisite: undergraduate advisor permission.
Fire and Emergency Services

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.

Curriculum

• Combination Degrees
• Construction Management
• Construction Management Certificate
• Emergency Management Certificate
• Emergency Medical Services Management Certificate
• Fire and Emergency Services UF Online
• Senior Fire Officer Certificate

Courses

FES 3004 Political and Legal Foundations of Fire Protection 3 Credits
Grading Scheme: Letter Grade
Examines the legal aspects of fire service and the political and social impacts of legal issues; reviews the American legal system and covers legal and political issues involving employment and personnel matters, administration and operations, and planning and code enforcement with regard to the fire service.
Prerequisite: junior standing or higher.

FES 3015 Principles of Fire and Emergency Services Management 3 Credits
Grading Scheme: Letter Grade
Fundamentals of management underlying the solution of problems of organization and operation of fire and emergency services agencies. (S) (WR)
Prerequisite: junior standing or higher.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

FES 3033 Fire and Emergency Services Labor Issues 3 Credits
Grading Scheme: Letter Grade
Determinants of demand for labor and labor supply. Labor market equilibrium and changes in the equilibrium due to changes in unionization, public policies and technology. Study of the effects of skill, job amenities and discrimination on wage differentials. A review of PERC, FSLA and unions is included.
Prerequisite: junior standing or higher.

FES 3153 FES Communication and Informational Technology 3 Credits
Grading Scheme: Letter Grade
Communications systems used in fire and emergency services such as high frequency voice/data, Internets and Intranets, satellite communications, GPS and GIS. An introduction, examination, equipment assessment, implementation program and maintenance management module are provided for each system covered.
Prerequisite: junior standing or higher.

FES 3223 Foundations of EMS 3 Credits
Grading Scheme: Letter Grade
Covers the design and operation of EMS systems, service delivery, and echelons of care. The history of EMS, interface of public and private organizations and review of the various personnel who comprise these systems, will be examined in relation to their impact on the health care delivery system.
Prerequisite: junior standing or higher.

FES 3227 Ambulance Operations 3 Credits
Grading Scheme: Letter Grade
Overview of the application of management principles to the provision of medical transport services. Includes an analysis of the economic, geographic, temporal, and clinical characteristics of ambulance demand, the key processes for providing transport services, and an evaluation of industry best practices.
Prerequisite: junior standing or higher.

FES 3233 EMS Safety and Risk Management 3 Credits
Grading Scheme: Letter Grade
Introduces the risk management principles of an EMS agency. Emphasizes safety from the perspective of the field provider.
Prerequisite: junior standing or higher.

FES 3263 Public Safety Educator 3 Credits
Grading Scheme: Letter Grade
Introduces the EMS professional to the education system as it relates to EMS education. Explores issues in curriculum development, teaching, program direction, and development.
Prerequisite: junior or senior standing.

FES 3284 Management of Emergency Medical Services 3 Credits
Grading Scheme: Letter Grade
Personnel and resource management issues in providing emergency medical services function. Quality assurance, utilization review techniques, and practices and techniques for delivery of services and distribution of resources are included.
Prerequisite: junior standing.

FES 3285 Advanced Leadership Issues in Emergency Medical Services 3 Credits
Grading Scheme: Letter Grade
Organizational development issues in providing emergency medical services function in the fire-based, hospital-based and third-service environments. Establishing and directing emergency medical services’ work teams is also covered.
Prerequisite: junior standing.
FES 3533 Community Risk Reduction for Emergency Services 3 Credits
Grading Scheme: Letter Grade
Provides a theoretical framework for the understanding of the ethical, sociological, organizational, political, and legal components of community risk reduction, and a methodology for the development of a comprehensive community risk reduction plan.
Prerequisite: junior or senior standing.

FES 3720 Strategic Planning for FES 3 Credits
Grading Scheme: Letter Grade
Provides the conceptual framework for the development of a strategic plan for emergency management, fire protection, and emergency medical service. Also provides guidance through the process of the needs, resources, and capabilities of the organization and how to establish a plan to achieve improved performance.
Prerequisite: junior standing.

FES 3753 Fire and Emergency Services Financial Management 3 Credits
Grading Scheme: Letter Grade
Planning, developing, presenting, funding and implementing a budget for a fire and emergency services agency. Additional topics include special taxing districts, bond issues and fund-raising campaigns.
Prerequisite: junior standing.

FES 3755 Fire and Emergency Services Capital Equipment and Facilities 3 Credits
Grading Scheme: Letter Grade
Provides an overview of the principles for the acquisition, utilization and disposition of fire and emergency services apparatus and station facilities. Additional material addresses special capital purchases such as communications, safety and operational equipment.
Prerequisite: FES 3753 and junior standing.

FES 3780 Analytical Approaches to Fire Protection 3 Credits
Grading Scheme: Letter Grade
Examines the tools and techniques of rational decision making in fire and emergency services agencies, including data collection, statistics, probability, decision analysis, utility modeling, resource allocation, and cost benefit analysis.
Prerequisite: junior or senior standing.

FES 3782 Applications of Fire Research 3 Credits
Grading Scheme: Letter Grade
Examines methodology for analyzing fire-related research; provides a framework for independent research in fire dynamics, fire test standards, fire safety, fire modeling, structural fire safety, life-safety, firefighter safety, automatic detection and suppression, risk analysis and loss control, applied research, and fire-related research trends.
Prerequisite: junior or senior standing.

FES 3803 Multi-Agency Incident Command 3 Credits
Grading Scheme: Letter Grade
Managing complex incidents that may require response from fire-rescue, emergency medical services, law enforcement and/or other public safety sectors. Use of the incident management system is emphasized.
Prerequisite: junior standing.

FES 3815 Command and Control at Catastrophic Fire-Rescue Incidents 3 Credits
Grading Scheme: Letter Grade
Incident command at multiple-alarm incidents, emphasizing rapid fireground decision-making, safety, personnel accountability and communications. Settings for scenarios include multi-family occupancies, hotels, high-rises, healthcare facilities and large retail centers.
Prerequisite: junior standing.

FES 3822 Disaster Policy in Emergency Management 3 Credits
Grading Scheme: Letter Grade
Describes the functional demands that emergency managers should be aware of in crafting effective emergency management plans, policies, and programs. Addresses how public policy choices impact emergency planning and the consequences of a disaster event. Emphasizes the emergency planning process.
Prerequisite: junior or senior standing.

FES 3823 Fire and Emergency Services Integrated Operations 3 Credits
Grading Scheme: Letter Grade
The broad issues involved in comprehensive emergency management at the local level. The emergency management cycle of preparedness, mitigation, response and recovery is emphasized as are the legal, operational and administrative aspects of state and federal interface.
Prerequisite: junior standing.

FES 4003 Fire and Emergency Services Administration 3 Credits
Grading Scheme: Letter Grade
Demonstrates the importance of persuasion and influence, budgeting, anticipation of challenges and change, and management tools for analyzing and solving problems; explores how the leadership of a fire and emergency services department develops internal and external cooperation to achieve the department’s mission.
Prerequisite: junior or senior standing.

FES 4014 Foundations of Emergency Management 3 Credits
Grading Scheme: Letter Grade
Prerequisite: junior or senior standing.

FES 4023 Fire and Emergency Services Ethical Practices and Leadership 3 Credits
Grading Scheme: Letter Grade
The role of agency leadership and its impact on the continuing professionalization of the fire and emergency services. Examines traditional and evolving definitions, practices and skills in leadership behavior, including discussions of power, influence, ethics and organizational behavior.
Prerequisite: senior standing.

FES 4034 Regulatory Issues in Fire and Emergency Services 3 Credits
Grading Scheme: Letter Grade
Introduces safety, health and environmental regulations on the state and federal levels that impact the delivery of fire and emergency services. OSHA, EPA and NFPA regulatory requirements are introduced along with methods and techniques to implement compliance programs.
Prerequisite: FES 4003 and senior standing.
FES 4045 Fire and Emergency Services Human Resource Management 3 Credits
Grading Scheme: Letter Grade
Major human resource management functional areas for fire and emergency services agencies. Topics include organizational employment planning, employment regulation, job analysis, performance assessment, recruitment and regulation, job analysis, performance assessment, recruitment and selection, training and development, employee/labor relations and compensation.
Prerequisite: FES 3015 and senior standing.

FES 4055 Fire and Emergency Services Public Relations 3 Credits
Grading Scheme: Letter Grade
Introduces the EMS professional to benefits of quality improvement, the history of quality in EMS, measuring quality, and the uses of quality in EMS. Students gain insights into the legal liabilities in Emergency Medical Services. Topics include organizational employment planning, employment regulation, job analysis, performance assessment, recruitment and selection, training and development, employee/labor relations and compensation.
Prerequisite: senior standing.

FES 4224 Management of Mass Casualty Incidents 3 Credits
Grading Scheme: Letter Grade
Covers systematic approaches to triage, treatment and transport in response to large-scale emergency medical services incidents. Resource planning and coordination with hospital systems is also emphasized.
Prerequisite: senior standing.

FES 4226 EMS Special Operations 3 Credits
Grading Scheme: Letter Grade
Discusses the various special roles in which EMS personnel may serve, such as hazardous materials, water rescue, and technical rescue.
Prerequisite: junior or senior standing.

FES 4234 EMS Community Risk Reduction 3 Credits
Grading Scheme: Letter Grade
Provides a theoretical framework for the understanding of the ethical, sociological, organizational, political, and legal components of community risk reduction, and a methodology for the development of a comprehensive community risk reduction plan.
Prerequisite: junior or senior standing.

FES 4244 Legal, Political, and Regulatory in EMS 3 Credits
Grading Scheme: Letter Grade
Introduces the EMS professional to the legal aspects of Emergency Medical Services. Explores issues in malpractice, consent and refusal of treatment, OSHA, employment issues, and risk management. EMS students gain insights into the legal liabilities in Emergency Medical Services.
Prerequisite: junior or senior standing.

FES 4274 Quality Management and Research in Emergency Services 3 Credits
Grading Scheme: Letter Grade
Introduces the EMS professional to benefits of quality improvement, the history of quality in EMS, measuring quality, and the uses of quality in EMS.
Prerequisite: junior or senior standing.

FES 4585 Management of Fire Prevention Programs 3 Credits
Grading Scheme: Letter Grade
Planning, promoting and executing fire prevention functions, including an emphasis on legal responsibilities, needs assessments, negotiation and planning activities.
Prerequisite: senior standing.

FES 4685 Fire Investigation and Analysis 3 Credits
Grading Scheme: Letter Grade
Examines the technical, investigative, legal, and social aspects of arson, including principles of incendiary fire analysis and detection, environmental and psychological factors of arson, legal considerations, intervention, and mitigation strategies.
Prerequisite: senior standing.

FES 4804 Disaster Recovery and Mitigation 3 Credits
Grading Scheme: Letter Grade
Provides the opportunity to understand real world disaster response efforts through academic study and interactive applied activities. Topics include the Incident Command System (ICS), Emergency Operations Center (EOC) management, Resource Management (RM), and Command-Communications-Coordination (C3).
Prerequisite: junior or senior standing.

FES 4820 Critical Incident Management for Emergency Managers 3 Credits
Grading Scheme: Letter Grade
Examines disaster planning and emergency management. Focuses on the four phases of planning, mitigation, response, and preparedness. Includes FEMA and federal government NIMS ICS-700 and ICS-800 certifications.
Prerequisite: junior or senior standing.

FES 4825 Disaster Planning and Control 3 Credits
Grading Scheme: Letter Grade
Examines concepts and principles of community risk assessment, planning and response to fires and natural and human-caused disasters, including National Incident Management System—Incident Command Systems (NIMSICS), mutual aid and automatic response, training and preparedness, communications, civil disturbances, terrorist threats/incidents, hazardous materials planning, mass casualty incidents, earthquake preparedness, and disaster mitigation and recovery.
Prerequisite: FES 3823 and senior standing.

FES 4835 Natural Disaster Phenomena in Florida 3 Credits
Grading Scheme: Letter Grade
Natural disasters prevalent in Florida: past, present, and future, including hurricanes, flooding, freezes, and agricultural emergencies. Also addresses planning, operations, mitigation, recovery, and evaluation concerns.
Prerequisite: junior or senior standing.

FES 4884 Introduction to Terrorism in Emergency Management 3 Credits
Grading Scheme: Letter Grade
Introduces the fundamental concepts, theories, principles, and practice of terrorism and terrorist events.
Prerequisite: junior or senior standing.

FES 4905 Special Studies in Fire and Emergency Services 1-3 Credits
Grading Scheme: Letter Grade
Special areas of study in fire and emergency services adjusted to the needs of individual students.
Prerequisite: instructor permission.

FES 4935 Current Issues in Fire and Emergency Services 3 Credits
Grading Scheme: Letter Grade
Information and direction for fire service administrators on current legislative, legal, labor and/or technology concerns facing fire and emergency services agencies.
Prerequisite: senior standing.
FFP 4507 Management of Fire-Related Human Behavior 3 Credits  
**Grading Scheme:** Letter Grade  
Focuses on human behavior in emergencies; examines research on human behavior, systems models, life-safety education, and building design, exploring a best-practice building life-safety system in terms of psychology and sociology joined with engineering and education to produce best outcomes of human survivability in emergencies.  
**Prerequisite:** Junior or Senior standing.

---

**First Year Florida**

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.  

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

---

**Courses**

SLS 1102 Enhancing the Freshman Experience 1 Credit  
**Grading Scheme:** Letter Grade  
Explores the purpose and philosophy of higher education in the US; the history and traditions of the University of Florida; the potential roles of a student within the university and other learning environments; and the resources, behaviors and skills necessary for successful higher learning.

---

**Fisheries and Aquatic Sciences**

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.  

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

---

**Courses**

FAS 2024 Sustainable Fisheries 3 Credits  
**Grading Scheme:** Letter Grade  
Fish biology, ecology, and habitats relevant to fisheries on both a global and regional (Florida) scale. Follows the fisheries occurring from cold mountain rivers to the depths of the oceans, with special topics (e.g., artificial reefs, fisheries bycatch, and aquaculture). Intended for non-science and science majors.  
**Attributes:** General Education - Biological Science

FAS 4202C Biology of Fishes 4 Credits  
**Grading Scheme:** Letter Grade  
The general biology of fishes, with emphasis on trends in their evolution, integrative and sensory biology, physiology, feeding ecology, reproduction, growth and population dynamics as they relate to fisheries.  
**Prerequisite:** BSC 2011 and BSC 2011L.

FAS 4270 Marine Ecological Processes 3 Credits  
**Grading Scheme:** Letter Grade  
The ecology of marine organisms and habitats with focus on how general ecological principles, and those unique to the marine environment, drive patterns and processes.  
**Prerequisite:** BSC 2010 and BSC 2011 or equivalent.

FAS 4305C Introduction to Fishery Science 3 Credits  
**Grading Scheme:** Letter Grade  
Principles of fish management in freshwater and marine systems. Includes field and laboratory techniques for aquatic habitat and fishery resource assessment, aquaculture practices and consideration of contemporary issues pertinent to sport and commercial uses of renewable fisheries resources.  
**Prerequisite:** refer to the department.

FAS 4405 Aquariums, Water and Aquaculture 3 Credits  
**Grading Scheme:** Letter Grade  
Culture methods of fish and shellfish, species selection, biological and environmental principles, case histories and future trends.  
**Prerequisite:** BSC 2010 and BSC 2010L, or instructor permission.

FAS 4900 Supervised Extension Experience in Fisheries and Aquatic Sciences 0-3 Credits  
**Grading Scheme:** S/U  
Firsthand, authentic Extension experiences in fisheries and aquatic sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

FAS 4905 Individual Study 1-4 Credits  
**Grading Scheme:** Letter Grade  
Individual study of a selected topic in fisheries and aquatic sciences as contracted with the instructor at the start of the term.  
**Prerequisite:** instructor permission.

FAS 4911 Supervised Research in Fisheries and Aquatic Sciences 0-3 Credits  
**Grading Scheme:** S/U  
Firsthand, authentic research in fisheries and aquatic sciences under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

FAS 4915 Honors Thesis Research in Fisheries and Aquatic Sciences 0-3 Credits  
**Grading Scheme:** S/U  
Independent research in fisheries and aquatic sciences leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)  
**Prerequisite:** junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

FAS 4932 Topics in Fisheries and Aquatic Sciences 1-4 Credits  
**Grading Scheme:** Letter Grade  
Selected topics in fisheries biology, aquaculture and associated aquatic sciences not offered in other courses.  
**Prerequisite:** instructor permission.

FAS 4933 Seminar in Fisheries and Aquatic Sciences 1 Credit  
**Grading Scheme:** Letter Grade  
Introduces undergraduate students to contemporary topics in the field of fisheries and aquatic sciences, and develops their listening and writing skills.

PEN 1136 Openwater Scuba Diving 2 Credits  
**Grading Scheme:** Letter Grade  
Beginning scuba diving including compass navigation, openwater diving environment, dive preparation and five openwater dives. Payment of required additional course fees and successful completion results in national certification as Openwater Scuba Diver.  
**Prerequisite:** swim test.
PEN 2138C Advanced Scuba Diving 3 Credits
Grading Scheme: Letter Grade
Course provides advanced SCUBA training. Topics include physics, physiology, decompression, and oceanography/ecology. Pool sessions cover rescue, double cylinders, full facemasks, night/limited visibility techniques, search, recovery, salvage techniques, and underwater task loading. Completion results in NAUI certification in Advanced SCUBA, Enriched Air Nitrox, SCUBA Rescue, First Aid, CPR, and Oxygen Provider.
Prerequisite: PEN 1136 or equivalent.

PLS 4613 Aquatic Weed Control 3 Credits
Grading Scheme: Letter Grade
Florida’s aquatic weed problems and methods of chemical, biological, mechanical and physical weed control. Topics include plant biology/ ecology, herbicide residue, lake reclamation, fish-plant interactions and laws regulating aquatic weed control.
Prerequisite: refer to the department.

Food and Resource Economics

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.

Curriculum

• Agricultural and Natural Resource Ethics and Policy Minor
• Agricultural and Natural Resource Law Minor
• Combination Degrees
• Food and Resource Economics
• Food and Resource Economics Minor
• International Development and Humanitarian Assistance Minor

AEB 2451 Economics of Resource Use 3 Credits
Grading Scheme: Letter Grade
Introduces how economists value the environment and regulations designed to protect our natural resources from overuse and degradation.
(S)
Attributes: General Education - Social Science

AEB 3103 Principles of Food and Resource Economics 4 Credits
Grading Scheme: Letter Grade
Introduces the field of food and resource economics, the principles of economics as applied to agriculture, and the economic problems of the agricultural industry and the individual farmer.
Prerequisite: MAC 2233/MAC 2311 or higher.
Attributes: General Education - Social Science

AEB 3114L Introduction to Agricultural Computer Applications 1 Credit
Grading Scheme: Letter Grade
Introduces computer application with specific emphasis on applications used in agricultural businesses. Specific applications include spreadsheets, databases, word processing and DOS.

AEB 3122 Financial Planning for Agribusiness 3 Credits
Grading Scheme: Letter Grade
Introduces basic financial and managerial decision-making for small agribusinesses.

AEB 3133 Principles of Agribusiness Management 3 Credits
Grading Scheme: Letter Grade
Introduces agribusiness management principles, application of economic principles, budgeting techniques, and principles of strategy in agribusiness from management in the United States, particularly Florida. Emphasizes the financial and tax management strategies and the requirements imposed on agribusiness management by local, state and federal government regulatory agencies.

AEB 3144 Introduction to Agricultural Finance 3 Credits
Grading Scheme: Letter Grade
Basic financial statements, investment frameworks and theories of financial intermediation as applied to agricultural firms, along with an overview of financial institutions that provide capital to agriculture.
Prerequisite: AEB 3122 or ACG 2071.

AEB 3281 Agricultural Macroeconomics 3 Credits
Grading Scheme: Letter Grade
Introduces the world economy from a macroeconomic perspective that focuses on the links that arise from international trade and capital flows in the agricultural sector.
Prerequisite: ECO 2013.

AEB 3300 Agricultural and Food Marketing 3 Credits
Grading Scheme: Letter Grade
Examines agricultural and food marketing from a system and individual firm perspective. Explores problems and issues associated with marketing functions and institutions at the industry level and with objectives and strategies of farms and agribusiness firms that market agricultural commodities and food products.
Prerequisite: AEB 3103 or AEB 2014 or ECO 2023 or ECO 2013.

AEB 3315 Futures Markets and Risk Management in Agriculture 3 Credits
Grading Scheme: Letter Grade
Basic elements and principles of agricultural commodity marketing with emphasis on the futures industry. Includes use of futures markets for speculating and risk management for agriculture and finance. Participation in a computerized futures trading game is required.
AEB 3341 Selling Strategically 3 Credits
Grading Scheme: Letter Grade
Introduces professional selling techniques for all products with special emphasis given to food and agricultural products, technical systems and services.

AEB 3450 Introduction to Natural Resource and Environmental Economics 3 Credits
Grading Scheme: Letter Grade
Introduces natural and environmental resource economics. Emphasizes understanding economic concepts such as resource scarcity, market failure, externality, property rights and common property resources and their application to studies of forest, land, water, energy and coastal resources.
Prerequisite: AEB 3103 or ECO 2023. Credit cannot be received for both AEB 3450 and ECP 3302.

AEB 3510 Quantitative Methods in Food and Resource Economics 3 Credits
Grading Scheme: Letter Grade
Develops understanding of finite mathematical tools used in economics and business decision making. Topics include linear equations, matrix algebra and calculus. Lectures and problems show how these tools are used to examine economic, financial and managerial problems.
Prerequisite: (AEB 3103 or ECO 2023) and (MAC 2233 or MAC 2311).

AEB 3550 Agricultural Data Analysis in Food and Resource Economics 3 Credits
Grading Scheme: Letter Grade
Introduces analysis of agricultural data. Incorporates statistical and agricultural economic theory into the analysis of agricultural problems. Knowledge in use of spreadsheets is assumed.
Prerequisite: AEB 3103 and AEB 3510 and STA 2023.

AEB 3671 Comparative World Agriculture 3 Credits
Grading Scheme: Letter Grade
Studies the business and economic situations of the food and agriculture sector around the world. Focuses on the historical development, the current situation and the future outlook of the food and agriculture sector. (N and S)
Attributes: General Education - International, General Education - Social Science

AEB 3935 Food and Resource Economics Seminar 1 Credit
Grading Scheme: Letter Grade
Introduces the Department of Food and Resource Economics and career opportunities for its graduates.

AEB 4085 Agricultural Risk Management and the Law 3 Credits
Grading Scheme: Letter Grade
Develops an understanding of the basic concepts of common and statutory law. Identifies and addresses current legal issues of importance at the personal and professional levels. Develops an understanding of risk and the solutions for managing risk and relates the concepts of risk management and law in limiting exposure to legal liability.

AEB 4123 Agricultural and Natural Resource Law 3 Credits
Grading Scheme: Letter Grade
Legal aspects of agricultural rights, responsibilities and problems. Topics include agricultural estate and income taxation, zoning and land use planning, Capper-Volstead Act, international agricultural agreements, agricultural labor and consumer protection.

AEB 4126 Agricultural and Natural Resource Ethics 3 Credits
Grading Scheme: Letter Grade
Examines the political, economic, environmental and ethical value issues involved in agricultural practices and policies, including agricultural research. (H or S) (WR)
Prerequisite: junior or senior standing.
Attributes: General Education - Humanities, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

AEB 4138 Advanced Agribusiness Management 3 Credits
Grading Scheme: Letter Grade
Integration of finance and management to solve problems faced by agricultural firms and agribusinesses. In addition to lectures, students will work in small groups to identify and to analyze case studies from agricultural and rural businesses.
Prerequisite: AEB 3103 and AEB 3144 and agribusiness major.

AEB 4242 International Trade Policy in Agriculture 3 Credits
Grading Scheme: Letter Grade
Explores the role of international trade policy in agriculture and examines the effects of trade policies on domestic and international prices, consumption, production, trade and government revenues. Addresses impact of current trade issues on the agricultural sector. (S)
Prerequisite: AEB 3103 or ECO 2023.
Attributes: General Education - Social Science

AEB 4282 International Humanitarian Assistance 3 Credits
Grading Scheme: Letter Grade
Emergency assistance to developing countries to minimize losses and affect recovery. Includes legal/ethical bases; program designs promoting recovery, rather than dependence; cultural issues, including gender; and technical aspects. (N and S)
Attributes: General Education - International, General Education - Social Science

AEB 4283 International Development Policy 3 Credits
Grading Scheme: Letter Grade
Studies how factors such as poverty, population, technology, resources, trade and the environment affect man's effort to develop. The roles of the public and private sectors are discussed as well as the process of policy formulation and implementation. Emphasizes the agricultural sector and its role in process of economic development, especially in countries where problems of hunger, demographic pressure and poverty are pervasive. (S)
Prerequisite: AEB 3103 or AEB 2014 or ECO 2013 or ECO 2023.
Attributes: General Education - Social Science

AEB 4306 Agricultural Marketing Strategies 2 3 Credits
Grading Scheme: Letter Grade
The strategic process of formulating and implementing marketing strategies unique to the agriculture industry.
Prerequisite: instructor permission.

AEB 4309 Food Wholesaling and Retail Marketing 3 Credits
Grading Scheme: Letter Grade
Food industry trends, issues and opportunities that exist in the U.S. and the world. Guest lecturers and recent trade publications provide students with a command of wholesaling and retail food management.
**AEB 4325 Contemporary Issues in Agribusiness Management 3 Credits**

**Grading Scheme:** Letter Grade

A capstone course utilizing economic concepts to address the interaction between the political process that legislates domestic agricultural, environmental and international trade policy, micro and macro economic principles, private business decisions taken by firms in response to public policies, and ethical considerations in developing and implementing public policy.

**Corequisite:** AEB 4138 or AEB 4342.

**AEB 4334 Agricultural Price Analysis and Consumer Behavior 3 Credits**

**Grading Scheme:** Letter Grade

Quantitative measurement of factors affecting agricultural and resource prices; seasonal and cyclical fluctuations; index measures of price and quantity variables; theory and application of consumer behavior principles.

**Prerequisite:** AEB 3103 and AEB 3550.

**AEB 4342 Agribusiness and Food Marketing Management 3 Credits**

**Grading Scheme:** Letter Grade

Application of marketing and management principles to agribusiness and food marketing problems faced by managers. Emphasis on case problems, group projects, oral presentations and written assignments.

**Prerequisite:** AEB 3133 and FRE major in the agribusiness specialization.

**AEB 4343 International Agribusiness Marketing 3 Credits**

**Grading Scheme:** Letter Grade

Problems, issues, regulations, policies and procedures unique to the global agribusiness marketing of perishable and storable agricultural commodities and food products. Combines firm-level agribusiness marketing concepts with international agribusiness marketing and export management applications. (S)

**Prerequisite:** AEB 3300.

**Attributes:** General Education - Social Science

**AEB 4380 Agricultural Marketing Strategies 3 Credits**

**Grading Scheme:** Letter Grade

The decision-making activities necessary to launch a new agricultural product successfully. The marketing plan development for this course follows the guidelines of the National Agri-Marketing Association Marketing Competition.

**Prerequisite:** Instructor permission.

**AEB 4424 Human Resources Management in Agribusiness 3 Credits**

**Grading Scheme:** Letter Grade

Issues involved in the strategic and effective management of human resources in agribusiness. Human resource management concepts and techniques designed to improve agribusiness organizational teamwork, productivity, performance and enterprise success. Course explores the unique aspects of labor management and includes application through use of case problems, triad and video techniques.

**Prerequisite:** AEB 3103 and AEB 3510.

**AEB 4673 International Agricultural Trade 3 Credits**

**Grading Scheme:** Letter Grade

Examines the economic forces associated with trade in food and agricultural products between the U.S. and other countries. Applies economics principles and analytical techniques to international agricultural trade and multi-national markets.

**Prerequisite:** AEB 3103 and AEB 3510.

**AEB 4900 Supervised Extension Experience in Food and Resource Economics 0-3 Credits**

**Grading Scheme:** S/U

Firsthand, authentic extension experiences in agricultural and life sciences under faculty member supervision. Projects may involve program planning, development, implementation, and evaluation. (S-U)

**AEB 4905 Special Problems in Food and Resource Economics 1-3 Credits**

**Grading Scheme:** Letter Grade

Individual study in selected problem areas of interest to the student and agreeable to the instructor.

**Prerequisite:** Instructor permission.

**AEB 4911 Supervised Research in Food and Resource Economics 0-3 Credits**

**Grading Scheme:** S/U

Firsthand, authentic research in food and resource economics under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**AEB 4915 Honors Thesis Research in Food and Resource Economics 0-3 Credits**

**Grading Scheme:** S/U

Independent research in food and resource economics leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

**Prerequisite:** Junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

**AEB 4931 Special Topics in Food and Resource Economics 1-3 Credits**

**Grading Scheme:** Letter Grade

Lectures, conferences or laboratory covering specially selected topics in food and resource economics.

**Prerequisite:** Instructor permission.

**AEB 4941 Full-Time Practical Work Experience in Food and Resource Economics 1-3 Credits**

**Grading Scheme:** S/U

Practical work must be a new experience and related to the field of study. (S-U)

**Prerequisite:** Previous arrangement with advisor and undergraduate coordinator and dean permissions.

**AEB 4951 Survey of Agricultural Economics 1 Credit**

**Grading Scheme:** Letter Grade

Trains students to think on their feet with respect to topics in the agricultural economics discipline. While individual courses tend to focus on a particular set of skills, this course enhances the student's ability to access the range of skills they acquired in past courses.

**Prerequisite:** Instructor permission.

**ALS 4932 Special Topics 1-3 Credits**

**Grading Scheme:** Letter Grade

Variable subjects provide content for the study of agricultural topics not offered in other courses.

---

**Food Science and Human Nutrition**

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info [here](http://registrar.ufl.edu/soc/)

**Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.**

**Department Information**

The Food Science and Human Nutrition Department (FSHN) is one of the world's largest combined academic programs where food science, nutritional sciences, and dietetics are all studied within...
Courses
BCH 3025 Fundamentals of Biochemistry 4 Credits
Grading Scheme: Letter Grade
Introducing biochemistry with emphasis on intermediary metabolism.
Prerequisite: CHM 2200 and CHM 2200L (or preferably CHM 2210, CHM 2211 and CHM 2211L) with minimum grades of C.

DIE 3310 Community Nutrition 2 Credits
Grading Scheme: Letter Grade
Role of nutrition in promoting, maintaining and improving health in the community. Investigation of traditional aspects of the emerging health delivery systems, as well as entrepreneurial ventures in wellness. Study the financial, legislative, political, sociological, and scientific aspects of public and community health.
Prerequisite: (HUN 2201 and Dietetics major) or instructor permission.

DIE 4125 Food Systems Management 3 Credits
Grading Scheme: Letter Grade
The management of human resources, food, equipment and facilities to provide a quality product and service to customers in a food service operation.
Prerequisite: FOS 3042.

DIE 4125L Food Systems Management Laboratory 2 Credits
Grading Scheme: Letter Grade
The application of principles of food systems management, including purchasing, production, service, sanitation and safety.
Corequisite: DIE 4125; DIE majors only.

DIE 4245 Medical Nutrition Therapy Applications: Part 1 3 Credits
Grading Scheme: Letter Grade
Part one of a 2-semester sequence focusing on application of the nutrition care planning process. Includes development of nutrition assessment skills and formulation of nutrition care plans for simulated patients, including those requiring enteral and parenteral nutrition.
Prerequisite: HUN 2201 and Dietetics major.
Corequisite: HUN 4445 and (APK 2105C or PCB 4723C) and (BCH 3025 or BCH 4024).

DIE 4246 Medical Nutrition Therapy Applications: Part 2 3 Credits
Grading Scheme: Letter Grade
Part two of a 2-semester sequence that focuses on attainment of knowledge to make nutrition diagnoses, to develop and implement effective nutrition intervention strategies and to identify appropriate monitoring and evaluation plans for patients with common chronic diseases and disorders.
Prerequisite: HUN 4445 and DIE 4245 and (APK 2105C or PCB 4723C).
Corequisite: HUN 4446.

DIE 4436 Nutrition Counseling and Communication 2 Credits
Grading Scheme: Letter Grade
Application of principles of group dynamics and group and interpersonal counseling skills in dietetics practice settings. Provides hands-on experiences in counseling and in oral and written communication.
Prerequisite: HUN 2201 and HUN 3403 and Dietetic major.

DIE 4505 Dietetics Seminar 1 Credit
Grading Scheme: Letter Grade
Capstone course for dietetic majors; focuses on professional issues, including ethics, legislative issues, advocating and marketing the profession.
Prerequisite: Agricultural and Life Sciences senior and Dietetic major.

DIE 4543 Supervised Extension Experience in Dietetics 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in dietetics under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

DIE 4905 Problems in Dietetics 1-5 Credits
Grading Scheme: Letter Grade
Individual research work in various phases of dietetics.

DIE 4911 Supervised Research in Dietetics 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in dietetics under faculty member supervision. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

DIE 4915 Honors Thesis Research in Dietetics 0-3 Credits
Grading Scheme: S/U
Independent research in dietetics leading to an honors thesis. Student is mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

DIE 4934 Topics in Dietetics 1-3 Credits
Grading Scheme: Letter Grade
Lectures, conference, laboratory or clinical experience covering selected topics in dietetics.
FOS 2001 Man's Food 3 Credits
Grading Scheme: Letter Grade
Discussion of current nutrition and food science topics concerning nutritional quality and safety of foods as they relate to one's health. For science and non-science students. (B)
Attributes: General Education - Biological Science

FOS 3042 Introductory Food Science 3 Credits
Grading Scheme: Letter Grade
Commodities selected for human consumption and the methods used by food technologists to prolong shelf life, retard spoilage and ensure quality. Principles upon which the various processing methodologies are based. (B)
Attributes: General Education - Biological Science

FOS 3060 Life After Graduation 1 Credit
Grading Scheme: S/U
Provides an overview of what opportunities are available for food science students after graduation, and tips and advice on how to be successful after graduation. Intended for all food science majors, especially those preparing to graduate within the academic year.
Prerequisite: junior or senior standing.

FOS 4202 Food Safety and Sanitation 2 Credits
Grading Scheme: Letter Grade
Lectures, discussions, demonstrations and field trips concerning microbial, chemical and biological safety of food, principles of sanitation for the food processing, food service and retail food industries.
Prerequisite: MCB 2000 and MCB 2000L, or the equivalent.

FOS 4222 Food Microbiology 3-4 Credits
Grading Scheme: Letter Grade
Sources and types of biological contamination and its control during harvesting, processing and storage of foods; food fermentation; biotechnology sanitation; HACCP methods used to examine foods for microbial content.
Prerequisite: MCB 2000 or MCB 2010 or MCB 3020 or MCB 3023.

FOS 4222L Food Microbiology Laboratory 2 Credits
Grading Scheme: Letter Grade
Methods to enumerate microorganisms in foods.
Prerequisite: MCB 2000L or MCB 3020L; concurrent or previous registration in FOS 4222.

FOS 4223 Food and Environmental Virology 2 Credits
Grading Scheme: Letter Grade
Food virology is an emerging topic in the field of microbial food safety. This course explores the role of viruses as human pathogens; their interactions with bacteria; transmission to food, water, and contact surfaces; detection; and prevention strategies. Through this course, students can develop a competency framework within their discipline.
Prerequisite: MCB 2000/MCB 2000L or MCB 3020/MCB 3020L or FOS4222.

FOS 4310L Experimental Foods Laboratory 1 Credit
Grading Scheme: Letter Grade
Demonstrations and illustrations of the chemical and physical properties of foods. Shows the effects of processing, ingredients and storage on food quality and nutrient retention.
Corequisite: FOS 4311.

FOS 4311 Food Chemistry 3 Credits
Grading Scheme: Letter Grade
Relationship of composition to the properties of foods and the changes which occur during processing, storage and utilization.
Prerequisite: CHM 2200 or (CHM 2210 and CHM 2211).
Corequisite: FOS 4310L or FOS 4311L; biochemistry recommended but not required.

FOS 4311L Food Chemistry Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory covering the relationship of composition to the properties of foods and the changes which occur during processing, storage and utilization.
Prerequisite: CHM 2200L or CHM 2211L;
Corequisite: FOS 4311.

FOS 4318 Flavor Chemistry 3 Credits
Grading Scheme: Letter Grade
Learn how flavor chemicals impact sensory perception of food; discuss flavor compounds used in foods, their production, isolation, analysis, and specific attributes.
Prerequisite: (CHM 2045 and CHM 2046) and CHM 2200 or (CHM 2210 and CHM 2211), all with grades of C.

FOS 4321C Food Analysis 4 Credits
Grading Scheme: Letter Grade
Principles and practice of physical and chemical methods for analyzing foods. (P)
Prerequisite: (CHM 2200 and CHM 2200L) or (CHM 2210 and CHM 2211). (CHM 2211L).

FOS 4410C Introduction to Unit Operations in Food Processing 4 Credits
Grading Scheme: Letter Grade
This class introduces the fundamentals of food processing and is designed for non-engineering students. Primary concepts are applied in context of the field of food science, and include: Engineering Units, Food Properties, Microbial Death, Conduction, Phase Changes, Convection, Heat Exchangers, Steady-State-Heat-Transfer, Extrusion, Unsteady-State-Heat-Transfer, and Radiation.
Prerequisite: MAC 2311 and PHY 2053.

FOS 4427C Principles of Food Processing 4 Credits
Grading Scheme: Letter Grade
Principles of processing foods: cooling, freezing, heating, dehydrating, concentrating, irradiating, fermenting and the use of chemicals.
Prerequisite: AOM 4062 or FOS 4222 or FOS 4311.

FOS 4435C Food Product Development 3 Credits
Grading Scheme: Letter Grade
Capstone course integrating food science and related disciplines to value-added food products using traditional and novel commodity, ingredient and process combinations. Class projects emphasize technology, safety, health/nutrition, legal, quality and economic/marketing considerations.
Prerequisite: 4AG - FOS majors only.

FOS 4522C Seafood Technology 3 Credits
Grading Scheme: Letter Grade
Processing principles and methods of preparation of various seafood products and control of product quality.
Prerequisite: CHM 2045.
FOS 4722C Quality Control in Food Systems 3 Credits
Grading Scheme: Letter Grade
Measurement and control of the major quality parameters of foods, including sensory, color and texture.
Prerequisite: STA 2023.

FOS 4731 Government Regulations and the Food Industry 2 Credits
Grading Scheme: Letter Grade
Government laws regulating food wholesomeness; food handling, processing and distribution under sanitary conditions; food ingredients and labeling of food products.
Prerequisite: FOS 3042 or Food Science major or instructor permission.

FOS 4905 Special Problems in Food Science 1-5 Credits
Grading Scheme: Letter Grade
Individual research work in various phases of food science.

FOS 4906 Supervised Extension Experience in Food Science 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

FOS 4911 Supervised Research in Food Science 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in food science under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

FOS 4936 Topics in Food Science 1-3 Credits
Grading Scheme: Letter Grade
Lectures, conferences or laboratory covering specially selected topics in food science.

FOS 4941 Full-Time Practical Work Experience in Food Science 1-3 Credits
Grading Scheme: S/U
One-term employment in industry, including extra work according to a pre-approved outline. Practical work under industrial supervision as set forth in College of Agricultural and Life Sciences regulations. (S-U)
Prerequisite: previous arrangement with advisor and department permission; FSHN majors only.

HUN 2201 Fundamentals of Human Nutrition 3 Credits
Grading Scheme: Letter Grade
The properties, functions, requirements, interrelationships and metabolism of nutrients. (B)
Prerequisite: BSC 2007 or BSC 2005 or BSC 2010 or CHM 1025 or CHM 2045 or APK 2100C or APK 2105C or CHM 1030.
Attributes: General Education - Biological Science

HUN 3403 Nutrition through the Life Cycle 2 Credits
Grading Scheme: Letter Grade
Nutritional needs and concerns throughout stages of the life cycle including pregnancy and lactation, infancy, adolescence, adulthood, and aging; socioeconomic, cultural and psychological influences on food and nutrition behavior.
Prerequisite: HUN 2201.

HUN 4221 Nutrition and Metabolism 3 Credits
Grading Scheme: Letter Grade
Metabolic relationships of nutrients with emphasis upon their functions in biochemical and physiological processes as well as variations in requirements in response to stress. Meets requirements of the American Dietetic Association.
Prerequisite: (BCH 3025 or BCH 4024) and (PCB 4723C or APK 2105C) and (HUN 3403 and HUN 4445).

HUN 4445 Nutrition and Disease: Part 1 2 Credits
Grading Scheme: Letter Grade
Part one of a two-semester sequence that focuses on the biochemical and pathophysiological bases of disease/conditions that require specialized nutrition support/medical nutrition therapy.
Prerequisite: HUN 2201 and CHM 2211;
Corequisite: APK 2105C or PCB 4723C, BCH 3025 or BCH 4024.

HUN 4446 Nutrition and Disease: Part 2 3 Credits
Grading Scheme: Letter Grade
Part two of the sequence that focuses on the biochemical and pathophysiological bases of disease/conditions that require specialized nutrition support/medical nutrition therapy.
Prerequisite: HUN 4445 and (BCH 3025 or BCH 4024) and (PCB 4723C or APK 2105C).
Corequisite: DIE 4246.

HUN 4813 Laboratory Techniques in Molecular Nutrition 3 Credits
Grading Scheme: Letter Grade
Laboratory techniques relevant to the study of nutrition, ranging from biochemistry, molecular biology, genomics and bioinformatics.
Prerequisite: CHM 2211 and CHM 2211L;
Corequisite: BCH 3025 or BCH 4024.

HUN 4903 Supervised Extension Experience in Nutritional Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

HUN 4905 Special Problems in Human Nutrition 1-5 Credits
Grading Scheme: Letter Grade
Individual research work in various phases of nutrition.

HUN 4911 Supervised Research in Nutritional Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in nutritional sciences under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

HUN 4915 Honors Thesis Research in Nutritional Sciences 0-3 Credits
Grading Scheme: S/U
Independent research in nutritional sciences leading to an honors thesis. Student is mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

HUN 4936 Topics in Human Nutrition 1-5 Credits
Grading Scheme: Letter Grade
Lectures or laboratory covering selected topics in human nutrition.
Prerequisite: instructor permission.
HUN 4941 Full Time Practical Work Experience in Human Nutrition 1-3 Credits
Grading Scheme: S/U
One-term employment in industry or the health field according to a pre-approved outline. Practical work under supervision as set forth in College of Agricultural and Life Sciences regulations. (S-U)
Prerequisite: previous arrangement with advisor and department permission; FSHN majors only.

Forest Resources and Conservation
Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

School Information
The School of Forest Resources & Conservation is a unit within the Institute of Food and Agricultural Sciences (IFAS) and the College of Agricultural and Life Sciences (CALS). The school is home to three distinct yet integrated program areas: Fisheries and Aquatic Sciences (http://sfrc.ufl.edu/fish/), Forest Resources and Conservation (http://sfrc.ufl.edu/forest/), and Geomatics (http://sfrc.ufl.edu/geomatics/).
The school’s faculty, staff, and students conduct research, teaching, and extension that cuts across a wide range of environments and disciplines. Website (http://sfrc.ufl.edu/)

CONTACT

Curriculum
• Combination Degrees
• Fisheries and Aquatic Sciences Minor
• Forest Resources and Conservation
• Forest Resources and Conservation Minor
• Geomatics
• Geomatics Certificate
• Mapping with Small Unmanned Aerial Systems Certificate
• Natural Resource Conservation

Courses
FNR 3131C Dendrology/Forest Plants 3 Credits
Grading Scheme: Letter Grade
Provides a basic understanding of the classification, nomenclature, morphology, ecological relationships, associations and uses of the major forest tree and shrub species of North America.
Prerequisite: refer to the department.

FNR 3410C Natural Resource Sampling 3 Credits
Grading Scheme: Letter Grade
Prerequisite: STA 2023.

FNR 4070C Environmental Education Program Development 3 Credits
Grading Scheme: Letter Grade
Applies a comprehensive approach to program development, from needs assessment to evaluation, to non-formal environmental opportunities. Analyzes existing and developing programs and emphasizes the role of participation and indicators in meeting environmental objectives. Requires field trips.
Prerequisite: junior standing or higher.

FNR 4343C Forest Water Resources 3 Credits
Grading Scheme: Letter Grade
Watershed hydrology, balances and models. Water quality parameters, processes and loading. Ecosystem and watershed functions. Watershed resources management.
Prerequisite: SWS 3022 and SWS 3022L, or the equivalent.

FNR 4345 Models for Water Resources 1 Credit
Grading Scheme: Letter Grade
Examination of stand and watershed hydrologic models, model development, calibration, scenario testing and interaction with actual hydrologic models.
Corequisite: FNR 4343C.

FNR 4461 Spatial Models and Decision Analysis 3 Credits
Grading Scheme: Letter Grade
Concepts and applications of environmental modeling in a spatial context using descriptive and prescriptive tools and spatial reasoning.
Prerequisite: FOR 3434C or the equivalent, basic statistics or instructor permission.

FNR 4623C Integrated Natural Resource Management 3 Credits
Grading Scheme: Letter Grade
An integrative approach to the study of forest resource management for the production of multiple products, such as timber, recreation, wildlife, rangeland, utilizing the case study approach.
Prerequisite: refer to the department.

FNR 4624C Field Operations for Management of Ecosystems 3 Credits
Grading Scheme: Letter Grade
Covers the common operations utilized by natural resource managers to manipulate ecosystems to reach a goal (commodity production, ecological enhancement, aesthetics, recreational opportunities, etc.). Addresses the use of heavy machinery, herbicides and prescribed fire; and the regulations, contracting markets and safety concerns governing each.
Prerequisite: FOR 3153C and FNR 3410C or WIS 4954C or FOR 3162C.

FNR 4660 Natural Resource Policy and Economics 3 Credits
Grading Scheme: Letter Grade
Factors in evolution of forest, range, and wildlife natural resources administration and policies in the United States; policy components; policy formation implementation, change processes; and economic criteria for evaluating the effectiveness of policies.
Prerequisite: junior standing or higher.
FOR 2662 Forests for the Future 3 Credits
Grading Scheme: Letter Grade
Examines current environmental issues that impact individual, community and institutional decisions about North American forest resources. Each issue is reviewed with a framework that uses human behavior, policy options and media messages. Students are expected to understand the issues and to discuss and analyze the major social and ecological variables affecting each issue. (S) (WR)
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

FOR 3004 Forests, Conservation and People 3 Credits
Grading Scheme: Letter Grade
A general background course for non-FRC students interested in management, use and conservation of forest resources. Topics include resource description, historical perspectives, current issues, forest biology and management principles. (B)
Attributes: General Education - Biological Science

FOR 3153C Forest Ecology 3 Credits
Grading Scheme: Letter Grade
Ecological principles and their application to the management of forests; major sections include tree population, forest community dynamics and ecosystem processes. (B)
Attributes: General Education - Biological Science

FOR 3162C Silviculture 4 Credits
Grading Scheme: Letter Grade
Principles governing establishment, treatment and control of forest stands; natural and artificial regeneration systems; intermediate cuttings and cultural operations.
Prerequisite: FOR 3153C.

FOR 3200C Foundations of Natural Resources and Conservation 3 Credits
Grading Scheme: Letter Grade
Overview of current and historical views of forest conservation, utilization and policy; principles of forest biology, ecology, Silviculture and management relevant to future courses and careers; basic field research, communications and computer skills.
Prerequisite: 3FY or instructor permission.

FOR 3202 Society and Natural Resources 3 Credits
Grading Scheme: Letter Grade
Local-to-global and individual-to-institutional perspectives on natural resource values, sustainability, diversity, and social change with consideration of potential paths for working with complex human and natural resource systems. (S)
Attributes: General Education - Social Science

FOR 3214 Fire Ecology and Management 2 Credits
Grading Scheme: Letter Grade
Detailed study of the role, occurrence and function of wildland fires in natural ecosystems and the use of prescribed burning to simulate those functions. Key topics include factors that influence natural fires, effects of fires on the environment, management and control of wildfires, and the use of prescribed burning. Students will plan and conduct several prescribed burns.
Prerequisite: FOR 3153C or PCB 3034C or PCB 4043C, or the equivalent.

FOR 3214L Fire Ecology and Management Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory to assess, design and participate in the application of prescribed fire in forest ecosystem research and management.
Corequisite: FOR 3214 encouraged strongly.

FOR 3342C Tree Biology 3 Credits
Grading Scheme: Letter Grade
Studies tree structure and function with relationships to forest environments and forestry practices.
Prerequisite: BOT 2010C or BSC 2011.

FOR 3430C Forest Mensuration 3 Credits
Grading Scheme: Letter Grade
Forest resource measurements, log and tree content estimation, forest inventory techniques, and stand growth and yield.
Prerequisite: FNR 3410C or the equivalent.

FOR 3434C Forest Resources Information Systems 3 Credits
Grading Scheme: Letter Grade
Introduces the concepts, principles and applications of geographic information systems, remote sensing and global positioning systems that emphasize applications in forest resource management.

FOR 4020 Seminar in Contemporary Issues in Forest Resources and Conservation 1 Credit
Grading Scheme: Letter Grade
Seminar using the study of contemporary issues in forest resources and conservation to build critical thinking and communication, leadership, presentation, and interview skills.
Prerequisite: 4FY status or instructor permission.

FOR 4060 Global Forests 3 Credits
Grading Scheme: Letter Grade
Overview of important international issues and developments related to forest resource use and tree management systems in a wide variety of contexts.
Prerequisite: 4FY or higher.

FOR 4090C Urban Forestry 3 Credits
Grading Scheme: Letter Grade
Introduces the nature, scope and components of the urban forest, including biology, culture, protection and aspects of management, planning and policy.
Prerequisite: 4FY or higher.

FOR 4110 Ecology and Restoration of Longleaf Pine Ecosystems 3 Credits
Grading Scheme: Letter Grade
History, structure, importance, ecology, restoration and management techniques, ownership patterns and policy implications.
Prerequisite: FOR 3153C or PCB 3034C or PCB 4043C, or the equivalent.

FOR 4621 Forest Economics and Management 4 Credits
Grading Scheme: Letter Grade
Principles of forest management for timber, non-timber and timberland valuation: decision analysis, management plans, forest regulation and harvest scheduling.
Prerequisite: FOR 3162C and ECO 2023, or the equivalents.

FOR 4624C Forest Health Management 3 Credits
Grading Scheme: Letter Grade
Integrated, tree- and forest-oriented study of forest health emphasizing the ecological and economic roles of the biotic agents and abiotic factors that incite dysfunction and the biological and ecological basis for the maintenance of forest health through integrated management of these agents and the forest.
Prerequisite: 4 FY or higher.
FOR 4664 Sustainable Ecotourism Development 3 Credits  
**Grading Scheme:** Letter Grade  
Interdisciplinary and applicable study of the tools and techniques managers and planners use to provide sustainable ecotourism opportunities in Florida and worldwide. Topics include integrating ecotourism with other resource uses, landscape level ecotourism planning, sustainable community development, minimizing and monitoring ecotourism impacts, and creating a diversity of ecotourism opportunities.

FOR 4854 Agroforestry 3 Credits  
**Grading Scheme:** Letter Grade  
Concepts and principles of agroforestry, including its complexity and diversity, improved agroforestry techniques in temperate and tropical zones, recent research problems and methodologies of agroforestry research, and the potentials of agroforestry in land management and development.  
**Prerequisite:** 4FY or 4AG.

FOR 4900 Supervised Extension Experience in Forest Resources and Conservation 0-3 Credits  
**Grading Scheme:** S/U  
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

FOR 4905 Individual Study in Natural Resources 1-4 Credits  
**Grading Scheme:** Letter Grade  
Individual study of a selected topic related to forest resources and conservation as contracted with the instructor at the start of the term.

FOR 4911 Supervised Research in Forest Resources and Conservation 0-3 Credits  
**Grading Scheme:** S/U  
Firsthand, authentic research in forest resources and conservation under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

FOR 4915 Honors Thesis Research 0-3 Credits  
**Grading Scheme:** S/U  
FOR 4934 Topics in Natural Resources 1-4 Credits  
**Grading Scheme:** Letter Grade  
Topics in forestry, wood science, range, recreation, wildlife and fisheries. Topics include special issues and in-depth study of topics not in other courses.

FOR 4941 Internship in Natural Resources 1-4 Credits  
**Grading Scheme:** S/U  
Supervision by a faculty member and a post-internship report are required. (S-U)  
**Prerequisite:** undergraduate coordinator permission.

Department Information  
Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

Courses  
FRE 1130 Beginning French 1 5 Credits  
**Grading Scheme:** Letter Grade  
Beginning French 1 and Beginning French 2 constitute the basic sequence in French for the development of overall skill in the language. Open to those with little or no background in French.

FRE 1131 Beginning French 2 5 Credits  
**Grading Scheme:** Letter Grade  
Continuation of the basic sequence in French for the development of overall skill in the language. Open to those with little or no background in French.  
**Prerequisite:** FRE 1130 or FRE 1180 with minimum grade of C, or S, or the equivalent as proven by placement test score.

French | Languages, Literatures, and Cultures  
Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.  
More Info (http://registrar.ufl.edu/soc/)  
Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.
FRE 1134 Accelerated French Review 5 Credits
Grading Scheme: Letter Grade
Provides a rapid review of basic communicative French as preparation for intermediate French. For those with previous French study but insufficient placement scores to move to the 2000 level.
Prerequisite: Two years of high school French or equivalent.

FRE 1180 Elementary French: Review and Progress 3 Credits
Grading Scheme: Letter Grade
For those who have previous experience in French but who are not yet prepared for advanced elementary work in the language. FRE 1180 confirms overall language skill in preparation for FRE 1131.

FRE 1182 Preparation for Intermediate French 3 Credits
Grading Scheme: Letter Grade
Alternative to FRE 1131 for those who have had four years of high school French or equivalent, but whose placement scores are not high enough for FRE 2200. Combines the material of FRE 1130 and 1131 in one semester. Meets three times per week. FRE 2200 follows in the sequence.
Prerequisite: not for those with credit for FRE 1180 or FRE 1115.

FRE 2220 Intermediate French 1 4 Credits
Grading Scheme: Letter Grade
Devoted to grammar review and composition as well as to the advancement of spoken proficiency. FRE 2220 and its sequel, FRE 2221, develop reading and writing skills in French.
Prerequisite: FRE 1131 or FRE 1134 or FRE 1182.

FRE 2221 Intermediate French 2 4 Credits
Grading Scheme: Letter Grade
Continued grammar review. Emphasizes practice in reading and developing vocabulary. Selected readings in French and Francophone fiction.
Prerequisite: FRE 2220.

FRE 2274 Intensive French Abroad 6 Credits
Grading Scheme: Letter Grade
An immersion language course integrating the experience, observations and impressions of students living abroad with a French family (site announced annually). Emphasis on development of language proficiency and cultural awareness. Class meets 12 hours a week. Enhances speaking, reading, writing proficiency and the ability to communicate with native speakers.
Prerequisite: FRE 1131 with minimum grade of C, or S, or the equivalent as proven by placement test score.

FRE 3070 Accelerated Introduction to French 5 Credits
Grading Scheme: Letter Grade
An accelerated introduction to French. Assumes no previous knowledge of French. Offers a four-skill introduction to the language for those who have completed intermediate level study in another Romance language.

FRE 3224 Applied French 1-5 Credits
Grading Scheme: Letter Grade
French-language reading and discussion section designed to accompany and complement areas of diverse content offered in other departments. Readings and discussions are in French to develop specific vocabulary and fluency related to the content of the companion course, as well as to provide an international perspective on the issues of the main course. (N)
Prerequisite: FRE 2242 or instructor permission; 3 credits can count toward the major or minor.
Attributes: General Education - International

FRE 3300 Grammar and Composition 3 Credits
Grading Scheme: Letter Grade
Systematic examination of French grammar. Practice of writing at several levels (summary of texts, descriptions, compositions). Textual analysis of literary and journalistic materials. First course of major sequence.
Prerequisite: FRE 2274 or AP score of 5, IB score of 6 or SAT2 score of 700 and above.

FRE 3320 Composition and Stylistics 3 Credits
Grading Scheme: Letter Grade
Develops advanced writing skills through the stylistic study of literary and journalistic texts. Writing assignments focus on development of a variety of skills, including summaries, literary analyses, argumentative essays, etc. Aspects of French grammar are highlighted along with analytical terms and key vocabulary from texts.
Prerequisite: FRE 3300 or the equivalent.

FRE 3410 French Conversation and Interaction 3 Credits
Grading Scheme: Letter Grade
Develops and refines oral and comprehension skills relating to different domains. New vocabulary ranging from the colloquial to the most refined of discourses enables students to recognize and use words and expressions in the proper context; material enables students to move from discussions about themselves to situations they are likely to encounter in daily life abroad, through interviewing techniques and professional interaction.
Prerequisite: FRE 2221.

FRE 3440 Commercial French 3 Credits
Grading Scheme: Letter Grade
Introduction to business practices in France with particular emphasis on active use of business vocabulary and salient cultural differences. Major topics include written business communication, financial institutions, trade and advertising. (S and N)
Prerequisite: FRE 2221 or the equivalent.
Attributes: General Education - International, General Education - Social Science

FRE 3442 Contemporary French Commerce 3 Credits
Grading Scheme: Letter Grade
Continues the acquisition of business language with special attention paid to technical readings, marketing, case studies and the role of France in the European Union. Emphasis is also placed on oral communication skills and contrasting U.S. and French business culture.
Prerequisite: FRE 3300 or instructor permission.

FRE 3500 France through the Ages 3 Credits
Grading Scheme: Letter Grade
A study of France within context of the principal historical events that have formed and transformed the nation state, its mentality and its cultural production. Special attention is given to the significant political, intellectual, religious, social and artistic currents that have marked France and its image from ancient times to the present. (H and N)
Prerequisite: FRE 2221 or the equivalent.
Attributes: General Education - Humanities, General Education - International
FRE 3502 Francophone Cultures 3 Credits
Grading Scheme: Letter Grade
A study of the cultures of countries or regions where French is used as the (or one of the) official language(s) or, in a less official capacity, by a segment of the population. Study of some of the historical, conceptual, practical and problematic aspects of Francophonie. Also concentrates on one specific area (the Caribbean or West Africa or Quebec, etc., on a rotating basis). Literary samples are included. (H and N)
Prerequisite: FRE 2221 or the equivalent.
Attributes: General Education - Humanities, General Education - International

FRE 3564 Contemporary French Culture 3 Credits
Grading Scheme: Letter Grade
An overview of contemporary France that may include the study of politics, economics, education and the arts as well as ideas of national and ethnic identity and France's place in the EU. (H and N)
Prerequisite: FRE 2221 or the equivalent.
Attributes: General Education - Humanities, General Education - International

FRE 3780L Corrective Phonetics 3 Credits
Grading Scheme: Letter Grade
A survey of the units of speech cast in practical terms and organized by classes of sounds with particular emphasis on rhythm, vowels, nasalization, diphthongs and the complex phenomena that occur at word transitions in French. Taught in French, in an audio laboratory, with the instructor as monitor and with a manual designed for individualized instruction.
Prerequisite: FRE 2221 or the equivalent.

FRE 4411 French for Proficiency 2 Credits
Grading Scheme: Letter Grade
Oral practice with emphasis on the structure of oral communication and oral presentation. Learn to utilize organizational frames, highlight transitions and make oral reports clear and accessible. Speech acts and alternative options in communication are given ample attention. Especially useful to those planning to use French in a variety of professions.
Prerequisite: FRE 3410 or the equivalent.

FRE 4420 Writing in French 3 Credits
Grading Scheme: Letter Grade
Advanced writing course that provides a systematic study (or review) of French syntax, vocabulary and style with the help of drill sessions. Also may include some training in literary translation. A number of quizzes and written compositions.
Prerequisite: FRE 3320 or instructor permission.

FRE 4501 The French Language in the Americas 3 Credits
Grading Scheme: Letter Grade
Examination of the presence of French in the Americas. Topics covered include: the origin of French in the Americas, language practices of Francophone communities, linguistic characteristics of the varieties of French, the effect of language contact on language behavior and representations and identity issues. Focus varies from year to year.
Prerequisite: FRE 3320.

FRE 4780 Introduction to French Phonetics and Phonology 3 Credits
Grading Scheme: Letter Grade
An introduction to French phonological processes, providing explanatory evidence for the production of speech sounds, for the classification of sounds, for their interrelationship with one another (gliding, nasalization, assimilation), for morphological and syllable structure, for specifically French phenomena such as liaison, elision, final consonant drop, schwa drop, and for the relationship of morphology to phonology, especially in the verb system.
Prerequisite: FRE 3320; LIN 3010 recommended.

FRE 4822 Sociolinguistics of French 3 Credits
Grading Scheme: Letter Grade
Sociolinguistic issues in the French-speaking world: language variation, discourse analysis, attitudes toward varieties of French and contact with speakers of other languages.
Prerequisite: FRE 3320; LIN 3010 recommended.

FRE 4850 Introduction to the Structure of French 3 Credits
Grading Scheme: Letter Grade
Explores the French language as a system of communication and mental representation. Analyzes the morphological, syntactic and semantic aspects of contemporary French, and emphasizes the historical, psychological and sociological dimension of linguistic investigation.
Prerequisite: FRE 3320; LIN 3010 recommended.

FRE 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
For advanced major and minors who seek independent work not offered in another course. Must be arranged individually with French faculty.
Prerequisite: department permission; only three credits can count toward the minor or major.

FRE 4906 Honors Thesis 1-3 Credits
Grading Scheme: Letter Grade
Directed research leading to a 30-40 page essay on a topic approved by the thesis director; registration for two semesters is highly recommended. Not a substitute for a required course in the French major.
Prerequisite: 3.5 minimum GPA.

FRE 4911 Undergraduate Research in Language or Linguistics 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Language or Linguistics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Language or Linguistics.

FRE 4930 Revolving Topics in French Studies 1-5 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in French studies.
Prerequisite: FRE 3320 and FRW 3100 or FRE 3101, or the equivalent.

FRE 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

FRT 2460 French Texts and Contexts 3 Credits
Grading Scheme: Letter Grade
Selected readings in English translation of major works of French literature. For those with no knowledge of French, not for credit in the major. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement
FRT 2930 Special Topics in French Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Rotating topics in French literature and culture; taught in English.

FRT 3004 Monuments and Masterpieces of France 3 Credits
Grading Scheme: Letter Grade
Study of selected masterpieces of French literature, in English translation. Works to be considered as they relate to history and as they can be read in strictly literary terms. Topic varies from year to year.
Prerequisite: sophomore standing or higher.

FRT 3520 French Cinema 4-8 Credits
Grading Scheme: Letter Grade
Critical, theoretical and historical study of French cinema. Topics will be announced. Content may include key directors, 1930s cinema, nostalgia and masculinity in 1980s films, World War II cinema, and Colonial and Postcolonial cinema. Open to French majors and non-majors and is taught in English. (H and N)
Attributes: General Education - Humanities, General Education - International

FRT 3561 Women in French Literature and/or Cinema 3-4 Credits
Grading Scheme: Letter Grade
Introduction to the rich heritage of feminist traditions in France and Francophone countries through an exploration of women writers and thinkers (filmmakers, theorists), primarily of the 19th and 20th centuries. Selected topics include L’écriture féminine (Writing the Feminine), autobiographical writing by French and Francophone women, women in French cinema and representations of women in French film and literature. Read, discuss and analyze a broad spectrum of primary and secondary sources from a feminist viewpoint. (H and N OR S and N)
Attributes: General Education - Humanities, General Education - International

FRT 4523 European Identities, European Cinemas 4 Credits
Grading Scheme: Letter Grade
Provides knowledge of different cultures, languages and identities that make up contemporary European cinemas.

FRT 4911 Undergraduate Research in French Translation 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in English Translation. Projects may involve inquiry, design, investigation, scholarship, discovery or application in English Translation.

FRT 4956 Overseas Studies 3 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

FRW 3100 Introduction to French Literature 1 3 Credits
Grading Scheme: Letter Grade
Overview of French Medieval, Renaissance and classical literature and culture, with major literary, intellectual and historical trends through study of representative works from each period. Emphasizes close reading of texts to train students to read critically and to familiarize them with major authors, genres and interpretations. (H and N)
Prerequisite: FRE 2221 or the equivalent.
Attributes: General Education - Humanities, General Education - International

FRW 3101 Introduction to French Literature 2 3 Credits
Grading Scheme: Letter Grade
Selected readings of outstanding authors of prose fiction, poetry and theatre from the 18th to the 20th century. Provides the historical context for major literary movements and authors, and trains students to read and write critically. Generally organized thematically. (H and N)
Prerequisite: FRE 2221 or the equivalent.
Attributes: General Education - Humanities, General Education - International

FRW 3930 Rotating Topics in French and Francophone Literature 3 Credits
Grading Scheme: Letter Grade
Selected topics in French literature.
Prerequisite: FRE 3320 or instructor permission.

FRW 4212 Readings in 17th Century French Prose 3 Credits
Grading Scheme: Letter Grade
Selected readings with an emphasis on the history of ideas, the moralistes and culture in the early modern period. Texts include Descartes, Cyrano de Bergerac, Pascal, Fontenelle, La Rochefoucauld, La Fayette, La Bruyre and Svign.
Prerequisite: FRE 3320 and (FRW 3100 or FRW 3101), or the equivalent.

FRW 4273 Readings in 18th Century French Literature 3 Credits
Grading Scheme: Letter Grade
Rotating topics exploring the fiction, theatre or intellectual prose of the Enlightenment. Special emphasis placed on the cultural climate and productions of the ancient regime.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4281 Readings in the 20th Century French Novel 3 Credits
Grading Scheme: Letter Grade
Selected readings of outstanding authors of prose fiction, poetry and theatre from the 20th century. Provides the historical context for major literary movements and authors, and trains students to read and write critically. Generally organized thematically. (H and N)
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4282 Readings in 20th Century French Theatre 3 Credits
Grading Scheme: Letter Grade
Examination of representative novels in 20th century French literature from Proust to the New Novel and beyond. Emphasis may include study of genre, narrative techniques, literary modernism and major themes.
Combines an historical approach with close textual readings. Authors frequently studied include Proust, Gide, Malraux, Cline, Camus, Sartre, Robbe-Grillet, Butor, Sarrasat and Duras.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4310 Seventeenth Century French Drama 3 Credits
Grading Scheme: Letter Grade
Theory and practice of dramaturgy in the classical period as reflected in plays of Corneille, Molire and Racine. Close textual analysis to disengage aesthetic and ideological problematic posed by each play.

FRW 4324 Readings in 20th Century French Theatre 3 Credits
Grading Scheme: Letter Grade
A study of selected plays (by Jarry, Claudel, Giraudoux, Camus, Anouilh, Ghelderode, Beckett, Ionesco, Genet, etc.), dramatic techniques and the evolution of modern French theatre as a genre.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4350 Modern French Poetry from Baudelaire to the Present 3 Credits
Grading Scheme: Letter Grade
Combines an historical approach with close readings of poetic texts; also introduces a number of theoretical and critical writings. Although traditional poetic texts are studied, the works of less frequently taught poets are also presented.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.
FRW 4391 Concepts of French Cinema 4 Credits
Grading Scheme: Letter Grade
A critical and historical study of the representation of gender and ethnicity in French cinema.
Prerequisite: FRE 3300.

FRW 4532 Survey of French Romantic Literature 3 Credits
Grading Scheme: Letter Grade
A rotating topics tracing the development and the main tenets of 19th century French Romanticism. Concentrates on various themes and genres, including poetry, theater and the novel as well as the socioeconomic and cultural matrices that fostered the movement. Emphasizes the relationship between literature and the visual arts, constructions of gendered, cultural and artistic subjectivities, exoticism (spatial, temporal and mystical voyages) and representations of Paris and French society. Beginning with pre-Romantic authors, moves on to Lamartine, Stendhal, Hugo, Vigny, Balzac, Sand, Musset, Desbordes-Valmore, Nerval and Baudelaire.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4552 Introduction to Realism and Naturalism 3 Credits
Grading Scheme: Letter Grade
Rotating topics trace the development and the main tenets of latter 19th century literary, artistic and cultural productions. Concentrates on various themes and genres, including poetry, theatre and the novel as well as the socioeconomic and cultural matrices that fostered movements arising between 1850 and the fin de siecle. Specific attention may be devoted to definitions of Realism, Naturalism and Symbolism; representations of modern life and the industrialization of the literary market; the infiltration of scientific and mechanistic thought into literary productions (poetry or prose); and representations of women and the female body, of Paris and Parisian society.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4562 Readings in Francophone Literatures and Cultures (excluding the Caribbean and Sub-Saharan Africa) 3 Credits
Grading Scheme: Letter Grade
Rotating topics in the literatures and cultures of the Francophone world, including North America (Quebec), Europe (Belgium, Switzerland and regional France), Asia (Vietnam, Indian Ocean) and the Middle East.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4770 African and Caribbean Literatures 3 Credits
Grading Scheme: Letter Grade
The production of Sub-Saharan African writers from its inception to the present through examination of representative works and figures, genres (epics, poetry, drama, novels), discourses and critics that inform the productions. Particular attention is paid to historical, political and cultural issues that figure in the development and orientation of African literature in French. Occasional inclusion of Caribbean literature for purposes of comparison.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4822 Introduction to French Critical Theory 3 Credits
Grading Scheme: Letter Grade
Review and comparative analysis of approaches to literature from Romanticism to Deconstructionism. Reading and writing are examined through the eyes of Sainte-Beuve, Taine, Lanson, Bachelard, the Geneva School, Ricoeur, Bataille, Blanchot, Barthes, Foucault, Genette, Lacan, Kristeva, Todorov, Derrida and others.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4911 Undergraduate Research in Target Language 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Target Language. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Target Language.

FRW 4932 Senior Seminar in French Literature 3 Credits
Grading Scheme: Letter Grade
Rotating topics for French majors and minors in the senior year. Topics rotate given research interests or field of specialization of the teaching faculty. Recent topics have included La Posie du Voyage; L'Ecriture Fminine; Le Discontinu chez La Rochefoucauld et La Bruyre; Charles Baudelaire: pote/critique de la vie moderne; Qu'est-ce que la Rvolte?
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101.

Courses

GEA 1000 Geography for a Changing World 3 Credits
Grading Scheme: Letter Grade
The spatial organization of society. Emphasizes the political regions of the world. (S and N)
Attributes: General Education - International, General Education - Social Science

GEA 2270 Geography of Florida 3 Credits
Grading Scheme: Letter Grade
Geographic conditions and human adjustments in the major regions in Florida. The natural environment, population, routes of communication, industries, resources and strategic location in their geographical and historical aspects. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

GEA 3405 Geography of Latin America 3 Credits
Grading Scheme: Letter Grade
Examines the interconnecting land, life and welfare throughout Latin America. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

GEA 3500 Geography of Europe 3 Credits
Grading Scheme: Letter Grade
Comprehensive and systematic survey of the population, natural resources, geographic regions and potentialities of Europe and the significance of this region in the economic and political affairs of the world. (N and S)
Attributes: General Education - International, General Education - Social Science

GEA 3600 Geography of Africa 3 Credits
Grading Scheme: Letter Grade
Comprehensive and systematic survey of the population, natural resources, geographic regions and potentialities of Africa and the significance of this region in the economic and political affairs of the world. (S and N) (WR)
Attributes: General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

GEA 4465 Amazonia 3 Credits
Grading Scheme: Letter Grade
The biophysical basis of natural resource management, cultural diversity and economic development in Amazonia. Appreciating the complexity and variability of soils, vegetation, aquatic ecosystems and climate in the region offers clues for understanding human settlement and development as well as the potential and limitations of the rich natural resource base. (S and N)
Attributes: General Education - International, General Education - Social Science

GEA 4911 Undergraduate Research in Regional Geography 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Regional Geography. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Regional Geography.

GEO 2006 Natural Hazards Geography 3 Credits
Grading Scheme: Letter Grade
Examines global weather, climate, and geophysical hazard events through geographic lens of human-environment interactions to understand how disasters emerge not only due to extreme events but from complex social, cultural, psychological, political, and economic forces. Discusses historical, recent, and ongoing hazard events to connect theory to individual and shared experiences.
Attributes: General Education - International, General Education - Social Science

GEO 2200 Physical Geography 3 Credits
Grading Scheme: Letter Grade
Studies the development and distribution of landforms, climates, minerals, soils and water resources. Interrelationships among the physical environment and regional patterns formed by these elements are analyzed against man's utilization of them. (P)
Attributes: General Education - Physical Science

GEO 2200L Physical Geography Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory in physical geography, for lab science credit. (P)
Corequisite: GEO 2200 or GEO 2201.
Attributes: General Education - Physical Science

GEO 2242 Extreme Weather 3 Credits
Grading Scheme: Letter Grade
Introduces the science of weather (what we get short term) and climate (what we expect long term) and current scientific developments in such areas as extreme weather prediction, global climate change and improved forecasting of events. (P)
Attributes: General Education - Physical Science

GEO 2351 Geographical Sciences and Sustainability 3 Credits
Grading Scheme: Letter Grade
An examination of the most critical environmental issues facing the world today. Emphasis is placed on the sustainability of both human and physical systems in the 21st century utilizing cutting edge geographic technologies: spatial analysis, GIS and satellite imagery.
Prerequisite: any Biological Sciences or Physical Sciences general education course.

GEO 2410 Social Geography 3 Credits
Grading Scheme: Letter Grade
Introduces geography as a social science. Various social concepts presented from a spatial perspective. (S and D)
Attributes: General Education - Diversity, General Education - Social Science

GEO 2420 Introduction to Human Geography 3 Credits
Grading Scheme: Letter Grade
Introduces cultural geography with an emphasis upon the development and spatial arrangement of the major societies of the modern world. (S and N)
Attributes: General Education - International, General Education - Social Science

GEO 2426 Pop Music and Culture: a Geographic Perspective 3 Credits
Grading Scheme: Letter Grade
Examines the geographic origins, development and diffusion of contemporary pop music and the regional dynamics of pop music culture from the 1950s to present. (S)
Attributes: General Education - Social Science
GEO 2500 Global and Regional Economies 3 Credits
Grading Scheme: Letter Grade
Contemporary perspectives, themes and research in economic geography, focusing on issues and problems associated with regional and global economic and demographic change. Regional variations and disparities in growth and development are analyzed and policy implications discussed. (S) (WR)
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

GEO 3162C Introduction to Quantitative Analysis for Geographers 4 Credits
Grading Scheme: Letter Grade
Introduces elementary geographical data analysis, including spatial measurement, spatial statistics and spatial forecasting. Students apply statistical concepts and the use of spreadsheet computer software. (P)
Prerequisite: STA 2023 or instructor permission.
Attributes: General Education - Physical Science

GEO 3250 Climatology 3 Credits
Grading Scheme: Letter Grade
Genesis of regional climates and their global distribution. Emphasis on world regional climatology. Secondary topics include applied climatology and climate change. (P)
Prerequisite: MET 1010 or GEO 2200 or GEO 2242.
Attributes: General Education - Physical Science

GEO 3280 Principles of Geographic Hydrology 4 Credits
Grading Scheme: Letter Grade
Examines the effects of physical geography on the land-based portion of the hydrologic cycle at the regional and basin scales. Includes discussion of precipitation, infiltration and runoff. (P)
Prerequisite: GEO 2200 or instructor permission;
Corequisite: GEO 3162C.
Attributes: General Education - Physical Science

GEO 3315 Geography of Crop Plants 3 Credits
Grading Scheme: Letter Grade
Studies the biological structure, means of survival, propagation and distribution of plants, with emphasis on their relationship to the culture and diffusion of man throughout the world and his part in their development and improvement. (B)
Attributes: General Education - Biological Science

GEO 3334 Managing for a Changing Climate 3 Credits
Grading Scheme: Letter Grade
An interdisciplinary survey of climate variability and change. Topics include the physical science basis for climate change, followed by sectoral analysis of climate impacts, adaptation, and mitigation options. Active learning, discussions, and roleplaying facilitate understanding of critical issues facing the human and natural world.
Prerequisite: GEO 2242 or GEO 2200.

GEO 3341 Extreme Floods 3 Credits
Grading Scheme: Letter Grade
Examines the world’s most extreme floods from the Pleistocene through present due to various causes. Discusses physical and human aspects of flood warning, preparedness, response and recovery throughout the world. (N and P)
Attributes: General Education - International, General Education - Physical Science

GEO 3352 The Human Footprint on Landscape 3 Credits
Grading Scheme: Letter Grade
Studies human-environment relationships from a primarily geographic perspective, focusing on the human forces that shape landscapes.

GEO 3372 Conservation of Resources 3 Credits
Grading Scheme: Letter Grade
Surveys natural resources and a study of wise and wasteful practices of these resources. Satisfies resource certification for social studies teachers.
Prerequisite: sophomore standing or higher or instructor permission.

GEO 3427 Plants, Health and Spirituality 3 Credits
Grading Scheme: Letter Grade
Issues and controversies surrounding organic food, genetically-modified crops, medicinal plants, plants used to achieve altered states of consciousness and the importance of ornamental plants as inspiration for artists and in worship.

GEO 3430 Population Geography 3 Credits
Grading Scheme: Letter Grade
Geographical analysis of populations, including population description, distribution, change and characteristics; demographic processes; and the consequences of development, conflict and population control diseases. (S)
Attributes: General Education - Social Science

GEO 3452 Introduction to Medical Geography 3 Credits
Grading Scheme: Letter Grade
A comprehensive geographical survey of major economic activities such as agriculture, forestry, fishing, mining, manufacturing and commerce. Emphasizes the study of the characteristics of distribution and the regional patterns of these activities. (S) (WR)
Attributes: General Education - Biological Science

GEO 3454 Peoples and Plagues 3 Credits
Grading Scheme: Letter Grade
Explores basic models of infectious disease processes, transmission cycled, and life-histories of host-vector systems, and the ecological and landscape conditions that favor emergence.
Prerequisite: sophomore standing.

GEO 3502 Economic Geography 3 Credits
Grading Scheme: Letter Grade
A comprehensive geographical survey of major economic activities such as agriculture, forestry, fishing, mining, manufacturing and commerce. Emphasizes the study of the characteristics of distribution and the regional patterns of these activities. (S) (WR)
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

GEO 3602 Urban and Business Geography 3 Credits
Grading Scheme: Letter Grade
An empirical and theoretical spatial analysis of the various economic, population and social facets within and between urban settlements. (S) (WR)
Prerequisite: junior standing or instructor permission.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement
GEO 3611 Housing, People and Places in a Spatially Diverse America 3 Credits
Grading Scheme: Letter Grade
Examines the housing, people and places that comprise the diverse contemporary human settlement patterns in the U.S. Topics focus on the quality of life found in the housing and neighborhoods of these urban and rural landscapes. (S and D)
Attributes: General Education - Diversity, General Education - Social Science

GEO 3803 Geography of Alcohol 3 Credits
Grading Scheme: Letter Grade
Origins and fission of alcoholic beverages and associated crops on a global scale.

GEO 3930 Special Topics 3 Credits
Grading Scheme: Letter Grade
Rotating topics in geography.

GEO 4167C Intermediate Quantitative Analysis for Geographers 3 Credits
Grading Scheme: Letter Grade
Surveys various multivariate techniques commonly used to analyze geographic data. Emphasis on hypothesis testing, inference, multiple regression, analysis of variance and cluster analysis. Introduces time-series regression and grouped estimation procedures, factor analysis, probit/logit modeling and trend-surface interpolation. (WR)
Prerequisite: GEO 3162C or the equivalent.
Attributes: Satisfies 6000 Words of Writing Requirement

GEO 4169 Spatial Econometrics and Modeling 3 Credits
Grading Scheme: Letter Grade
Introduces regression models capable of dealing with spatial autocorrelation; develop statistical models and estimate with computer software.
Prerequisite: GEO 4167C or equivalent.

GEO 4281 River Forms and Processes 3 Credits
Grading Scheme: Letter Grade
Examines the nature and variety of fluvial processes and the origin and modification of fluvial landforms. Includes discussion of environmental changes in rivers and human activities in drainage basins.
Prerequisite: GEO 2200 or GLY 2010C, or instructor permission.

GEO 4285 Models in Geographic Hydrology 3 Credits
Grading Scheme: Letter Grade
Investigates the numerical and computational techniques available for the extraction of geographic information from hydrometeorologic data. (WR)
Prerequisite: GEO 3162C and (GEO 3280 or STA 3032).
Corequisite: GEO 4167C.
Attributes: Satisfies 6000 Words of Writing Requirement

GEO 4306C Geography of Vector-borne Diseases 3 Credits
Grading Scheme: Letter Grade
Introduces the spatial epidemiology of vector-borne diseases (VBDs) and geospatial methods for monitoring, mapping and modeling them. Provides hands-on experiences for mapping and modeling risk of VBDs via GIS-based labs.
Prerequisite: GEO 3452 or GIS 3043 or permission of the instructor.

GEO 4554 Regional Development 3 Credits
Grading Scheme: Letter Grade
The problems of regional development and regional growth within the context of economic, political and spatial relationships. (S) (WR)
Prerequisite: junior or senior standing.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

GEO 4612 Shelter and Care Options for U.S. Elderly 3 Credits
Grading Scheme: Letter Grade
Examines the strengths, weaknesses and demand for housing and care alternatives addressing the needs of both active and frail American elderly persons.
Prerequisite: refer to the department.

GEO 4905 Individual Work 1-5 Credits
Grading Scheme: Letter Grade
Qualified students and the instructor concerned may choose a particular topic or problem for study.
Prerequisite: undergraduates only with 9 credits of geography and instructor permission.

GEO 4911 Undergraduate Research in Geography 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Geography. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Geography.

GEO 4930 Senior Seminar 1 Credit
Grading Scheme: Letter Grade
Integrates geographic concepts for graduating seniors; provides introduction to professional geography for students entering the job market.
Prerequisite: geography seniors only.

GEO 4938 Selected Topics in Geography 1-4 Credits
Grading Scheme: Letter Grade
Rotating geography topics.

GEO 4944 Internship 1-10 Credits
Grading Scheme: Letter Grade
Experimental learning in position with city, county, regional and state government agencies.
Prerequisite: senior standing.

GEO 4970 Honors Thesis 3 Credits
Grading Scheme: Letter Grade
Completion of an honors thesis that meets department specifications during the semester in which the student is enrolled.
Prerequisite: senior standing and participation in department honors program.

GIS 2002 The Digital Earth 3 Credits
Grading Scheme: Letter Grade
Focuses on how the Earth’s surface is visualized, explored, and analyzed in digital formats (e.g. maps, satellite images, aerial photos). Provides an introduction to fundamental concepts of digital geographic data to understand the Earth environment and human society based on the vast quantities of geographic information in our ever-changing world.
GIS 3420C GIS Models for Public Health 3 Credits
Grading Scheme: Letter Grade
Focuses on the design of GIS-based models to address health and healthcare issues. Topics include a conceptual framework, landscape epidemiology models, disease diffusion models, health accessibility, human health behavior and location-allocation of health services. Laboratory section provides hands-on experience applying these models with GIS tools.
Prerequisite: GIS 3043 and (STA 2023 or GEO 3162C).

GIS 4021C GIS Programming 3 Credits
Grading Scheme: Letter Grade
Introduces basic programming concepts; instruction in popular programming languages for geospatial processing, applications, and modeling in ArcGIS environment.
Prerequisite: GIS 3043C or equivalent.

GIS 4113 Introduction to Spatial Networks 3 Credits
Grading Scheme: Letter Grade
Many phenomena of interest in physical, social and cyber environments can be thought of as networks within geographic context. Teaches methods for analyzing these spatial networks, and introduces their applications in geography, transportation, hydrology, epidemiology, social science, etc.
Prerequisite: Entry level knowledge of statistics or instructor permission. Prior experience with ArcGIS is preferred.

GIS 4115 Applied Geostats 3 Credits
Grading Scheme: Letter Grade
Introduces fundamentals and practices of advanced geostatistical analysis (kriging), which addresses optimal spatial interpolation. Geostatistics are currently applied in diverse disciplines such as geography, geology, engineering, hydrology, urban studies and epidemiology.
Prerequisite: (STA 2023 or GEO 3162C or equivalent) and GIS 3043 or equivalent or instructor permission.
MET 4410 Radar and Satellite Meteorology 3 Credits
Grading Scheme: Letter Grade
An overview of radar and satellite remote sensing as used in the atmospheric sciences, including the principles of atmospheric radiative transfer, the retrieval of atmospheric variables, and emphasis on geospatial interpretation of imagery for different weather systems.
Prerequisite: PHY 2049 and MET 3503.

MET 4500C Synoptic Meteorology 4 Credits
Grading Scheme: Letter Grade
Comprehensive survey of mid-latitude storm systems using conceptual and theoretical frameworks established through lecture material, and application of these concepts through immersive labs. Content includes atmospheric circulation, mid-latitude cyclones, fronts, jet streams, winter weather and severe storm environments. Appropriate for students seeking a career in atmospheric science or related field.
Prerequisite: MET3503 and CHM 2045 and MAC 2312 and PHY 2048/L with minimum grades of C.

MET 4531 Mesoscale Meteorology 3 Credits
Grading Scheme: Letter Grade
Covers the major dynamic and thermodynamic processes of the atmosphere that govern the structure, development, and evolution of weather systems generally smaller than those of the synoptic scale.
Prerequisite: MAC 2312 and PHY 2049;
Corequisite: Synoptic Meteorology.

MET 4532 Hurricanes 3 Credits
Grading Scheme: Letter Grade
Meteorological and climatological concepts related to hurricanes. Forecasting current activity, researching past storms and analyzing storm structure, damage and future trends.
Prerequisite: MET 3503 or GEO 3250.

MET 4560 Atmospheric Teleconnections 3 Credits
Grading Scheme: Letter Grade
Atmospheric teleconnections are recurring large-scale patterns of pressure and circulation anomalies. They can influence temperature, rainfall, storm tracks and jet stream location and intensity. Examines how these patterns were discovered, how the index that characterizes the phase of each teleconnection is calculated and the weather associated with different phases.
Prerequisite: MET 3503 or GEO 3250 with a minimum B- grade.

MET 4750 Spatial Analysis of Atmospheric Data using GIS 3 Credits
Grading Scheme: Letter Grade
How atmospheric data are collected and analyzed for meteorologic and climatologic-scale research. Where various types of data are obtained and how to analyze data to answer specific research questions.
Prerequisite: GEO 3250 or MET 3503 or MET 4532

MET 4911 Undergraduate Research in Meteorology and Climatology 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery or application.

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information
The Department of Geological Sciences aims to provide a comprehensive understanding of Earth and Planetary sciences along with their formative and evolutionary processes. We train students to excel in the geoscience workforce and create sustainable solutions to societal needs.

• Combination Degrees
• Geological Sciences Certificate
• Geology
• Geology Minor
• Geology UF Online

Geological Sciences
Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)
**GLY 1150L Florida Geology Laboratory 1 Credit**  
**Grading Scheme:** Letter Grade  
Laboratory provides a basic understanding of Florida's geology, geologic history, geologic resources and geologically related environmental problems. (P)  
**Attributes:** General Education - Physical Science  

**GLY 1880 Earthquakes, Volcanoes and Other Hazards 3 Credits**  
**Grading Scheme:** Letter Grade  
Overview of important topics in Earth science through the examination of hazards, ranging from earthquakes and volcanoes to global warming and impacts from space. For those who are not majoring in science. (P)  
**Attributes:** General Education - Physical Science  

**GLY 2010C Physical Geology 4 Credits**  
**Grading Scheme:** Letter Grade  
Materials, structures and surface features of the earth and processes which have produced them. Related laboratory demonstrations and experiences. (P)  
**Attributes:** General Education - Physical Science  

**GLY 2030C Environmental and Engineering Geology 3 Credits**  
**Grading Scheme:** Letter Grade  
Hazardous geologic processes and current environmental concerns are related to the earth, the forces acting upon it and the resulting surface features and materials. Human interaction with the environment is illustrated using modern case studies. (P)  
**Attributes:** General Education - Physical Science  

**GLY 2038 Sustainability and the Changing Earth 3 Credits**  
**Grading Scheme:** Letter Grade  
Introduces planet Earth as a dynamic and complex global system which has changed due to human interaction. Course materials demonstrate physical and chemical links between the geosphere, hydrosphere, biosphere and atmosphere that directly impact the sustainability of human lifestyles at a variety of timescales. (P)  
**Attributes:** General Education - Physical Science  

**GLY 2042 Planetary Geology 3 Credits**  
**Grading Scheme:** Letter Grade  
Introduces recent geological exploration of recent terrestrial planets and moons, comets and asteroids, focusing on comparisons of composition and tectonics on the solid planets and moons.  

**GLY 2100C Historical Geology 4 Credits**  
**Grading Scheme:** Letter Grade  
Evolution of the earth and its life, including the major physical events and evolutionary changes recorded in the geologic past. Related laboratory, demonstrations and exercises. (P)  
**Prerequisite:** GLY 2010C or GLY 2030C, or instructor permission.  
**Attributes:** General Education - Physical Science  

**GLY 3074 Oceans and Global Climate Change 3 Credits**  
**Grading Scheme:** Letter Grade  
Examines the role the oceans play in determining climate and regulating global climate change on a range of timescales from decades to millions of years. (P)  
**Attributes:** General Education - Physical Science  

**GLY 3083C Fundamentals of Marine Sciences 3 Credits**  
**Grading Scheme:** Letter Grade  
Introduces the basic disciplines of marine sciences, including geology, chemistry, physics, biology and conservation, with an emphasis on marine research. Includes three mandatory Saturday field trips.  
**Prerequisite:** OCE 1001.  

**GLY 3105C Evolution of Earth and Life 4 Credits**  
**Grading Scheme:** Letter Grade  
Advanced examination of the geologic history of planet earth with an emphasis on North America. (P)  
**Prerequisite:** GLY 2010C or GLY 2030C.  
**Attributes:** General Education - Physical Science  

**GLY 3163 Geology American National Parks 3 Credits**  
**Grading Scheme:** Letter Grade  
Introduces geological concepts in the context of selected US national parks. Relates geology to the cultural aspects of these parks and present-day environmental concerns. (P)  
**Attributes:** General Education - Physical Science  

**GLY 3200C Principles of Mineralogy 4 Credits**  
**Grading Scheme:** Letter Grade  
Concepts of crystallography, crystal chemistry, physical properties of minerals, mineral genesis and systematic study of the rock-forming or otherwise important minerals including the theory and use of the petrographic microscope for study and identification of these minerals in thin section. (P)  
**Prerequisite:** CHM 1030 or CHM 1025, and GLY 2010C or GLY 2030C.  
**Attributes:** General Education - Physical Science  

**GLY 3202C Earth Materials 3 Credits**  
**Grading Scheme:** Letter Grade  
Overview of the origin and occurrence of earth materials with a particular emphasis on the identification and classification of minerals and rocks. Activities involve lecture and a fully integrated laboratory component where students learn to identify and classify minerals and rocks through both macroscopic and microscopic investigation.  

**GLY 3200C Paleontology 4 Credits**  
**Grading Scheme:** Letter Grade  
Investigation of the history of life on earth, including aspects of invertebrate and vertebrate paleontology, micropaleontology and paleobotany.  
**Prerequisite:** refer to the department.  

**GLY 3882C Hydrogeology and Human Affairs 3 Credits**  
**Grading Scheme:** Letter Grade  
Insight into current scientific, political, legal, social, and economic aspects of hydrogeology.  
**Prerequisite:** junior standing or higher.  
**Attributes:** General Education - Physical Science  

**GLY 4155C Geology of Florida 3 Credits**  
**Grading Scheme:** Letter Grade  
Principles of physical and historical geology as applied to the geology and mineral resources of Florida. (P)  
**Prerequisite:** GLY 2010C or GLY 2030C, or instructor permission.  
**Attributes:** General Education - Physical Science  

**GLY 4104C Igneous and Metamorphic Petrology 4 Credits**  
**Grading Scheme:** Letter Grade  
Fundamental concepts, principles and data that pertain to the genesis of igneous and metamorphic rocks. Emphasizes mineral phase relations, interpretive petrochemistry, magma genesis and tectonic relationships.  
**Prerequisite:** CHM 1025 and GLY 3200C.  

**GLY 4400C Structural Geology and Tectonics 4 Credits**  
**Grading Scheme:** Letter Grade  
Structural features of the earth, their causes, recognition and interpretation; includes the mechanics of folding, faulting, and other deformations of the earth's crust.  
**Prerequisite:** (GLY 2010C or GLY 2030C) and MAC 1147 and GLY 4552C.
GLY 4450 Geophysics 3 Credits
Grading Scheme: Letter Grade
Introduces the basic types of geophysical data used to characterize the subsurface. Learn about seismic refraction and reflection, gravity, magnetics, heat flow, and electromagnetic methods.
Prerequisite: (GLY 2010C or GLY 2030C or GLY 1000) and (MAC 2311 or MAC 2233).

GLY 4552C Sedimentary Geology 4 Credits
Grading Scheme: Letter Grade
Basic disciplines important in understanding the origin and classification of sedimentary rocks including sedimentary petrology, sedimentology, and stratigraphy.
Prerequisite: (GLY 2100C or GLY 3105C) and GLY 3200C.

GLY 4700 Geomorphology 3 Credits
Grading Scheme: Letter Grade
Introduces the processes responsible for the formation and evolution of Earth surface features and landscapes. Emphasizes understanding of how first principles of physics and chemistry can be used to explain landform shaping.
Prerequisite: (GLY 2010C or GLY 2030C) and an additional 3 credits of GLY.

GLY 4726 Geochemical Oceanography 3 Credits
Grading Scheme: Letter Grade
Focuses on chemical properties and processes in the oceans, exploring the links between chemistry, biology, geology, and global change within a marine context. Topics include elemental composition and speciation, biogeochemical cycles, chemical and isotopic tracers, chemistry of marine sediments, and oceanic uptake of anthropogenic carbon.
Prerequisite: CHM 2045 and (OCE 1001 or GLY 2010C or GLY 2030C).

GLY 4734 Coastal Morphology and Processes 3 Credits
Grading Scheme: Letter Grade
Examines the nature and variety of coastal processes, and the origin and modification of environmental changes along coasts, including human activities in the coastal zone.
Prerequisite: GEO 2200 or GLY 2010C or GLY 2030C.

GLY 4750L Geological Field Methods 2 Credits
Grading Scheme: Letter Grade
Methods and techniques used in geological fieldwork.
Prerequisite: GLY 3105C or GLY 2100C, and instructor permission.

GLY 4790 Geology Summer Field Camp 6 Credits
Grading Scheme: Letter Grade
Summer geology field camp in northern New Mexico. Application of field procedures and techniques to the solution of geologic problems and construction of geologic maps.
Prerequisite: GLY 4750L and instructor permission.

GLY 4822 Groundwater Geology 3 Credits
Grading Scheme: Letter Grade
Introduces the concepts of groundwater flow and its relationship to subsurface geology. Practice in applying groundwater flow concepts and problem solving.
Prerequisite: Any GLY 2000-level course or higher and (MAC 1147 or MAC 2311).

GLY 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
For work in addition to that offered in regular courses in mineralogy, petrology, paleontology, stratigraphy, sedimentology and structural geology.
Prerequisite: 15 credits of geology and instructor permission.

GLY 4911 Undergraduate Research in Geology 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in geology. Projects may involve inquiry, design, investigation, scholarship, discovery or application in geology.

GLY 4930 Special Topics in Geology 1-3 Credits
Grading Scheme: Letter Grade
Lecture, conferences or laboratory sessions covering selected topics of current interest in modern geology.
Prerequisite: three courses in geology or instructor permission.

GLY 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade

IDS 2220 Climate Change Science and Solutions 3 Credits
Grading Scheme: Letter Grade
Uses the issue of climate change to deepen understanding of science and its role in society. Working individually and collaboratively, students integrate information and insights from a wide variety of natural sciences and engineering/design disciplines to develop holistic approaches to climate change adaptation and mitigation. (P)
Attributes: General Education - Physical Science

OCE 1001 Introduction to Oceanography 3 Credits
Grading Scheme: Letter Grade
Explores the geological, physical, and biological characteristics of Earth's marine realm. Includes discussion of scientific methods, the history of oceanography, and emphasizes understanding of the mutual interactions between humans and the ocean. (P)
Attributes: General Education - Physical Science

Geomatics
Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.

- Natural Resource Conservation

Courses

GIS 3072C Geographic Information Systems 3 Credits
Grading Scheme: Letter Grade
Addresses GIS concepts, data sources, spatial references: GIS data modeling, management, and editing; surface modeling; and vector and raster analysis. Provides practical examples, tutorials, and projects serving the geomatics, natural resource management, and planning fields.

GIS 4121 Geospatial Analysis 3 Credits
Grading Scheme: Letter Grade
Process of identifying and analyzing patterns in geographic data and describing relationships between spatial features. Introduces techniques aimed at the analysis of spatial data. Topics include characterization of spatial data, geographic distributions, pattern identification (point and area objects), field data analysis, spatial modeling and interpolation, regression methods and cluster analysis.
Prerequisite: GIS 3072C and STA 2023 and Geomatics major of junior standing or higher.

SUR 3103C Geomatics 3 Credits
Grading Scheme: Letter Grade
Introduces angle, distance and elevation measurement, as applied to engineering, boundary location, topography, forest management and construction. Covers error theory as well as horizontal and vertical curves.
Prerequisite: MAC 1147 and MAC 2311 placement or equivalent.

SUR 3323 Visualization of Spatial Information 3 Credits
Grading Scheme: Letter Grade
Methods of mapping, modeling, communicating and visualizing spatial features. Includes boundary and topographical features, attributes, site modeling, site development and mapping using computer-aided mapping and design features.

SUR 3331C Photogrammetry 3 Credits
Grading Scheme: Letter Grade
Relates to use of aerial photographs to determine spatial information. Covers elementary techniques of photogrammetry to establish the foundation for SUR 4350 Advanced Photogrammetry.
Prerequisite: SUR 3103C or equivalent.

SUR 3520 Measurement Science 3 Credits
Grading Scheme: Letter Grade
Theory of measurement errors, error propagation, variance and covariance; polynomial curve fitting, regression analysis, correlation and least squares adjustment.
Prerequisite: MAC 2233 and STA 2023 and SUR 3641 or the equivalents.

SUR 3641 Survey Computations 3 Credits
Grading Scheme: Letter Grade
Principles of geometry applied to surveying computations. Computer methods in surveying.
Corequisite: SUR 3103C or equivalent.

SUR 4201 Route Geometrics and Design 3 Credits
Grading Scheme: Letter Grade
Geometric design of transportation systems, computer applications, and a comprehensive design project. Covers spiral curves, superelevation theory, and earthwork analysis.
Prerequisite: SUR 3103C or equivalent and Geomatics or Civil Engineering major.

SUR 4350C Advanced Photogrammetry 3 Credits
Grading Scheme: Letter Grade
Precise photogrammetric measurements, camera calibration, object space coordinate systems, analytical control extension, stereoplotter mapping, digital mapping and softcopy stereoplotters.
Prerequisite: SUR 3331C and SUR 3520, or the equivalents.

SUR 4376 Geospatial Applications of UASs 3 Credits
Grading Scheme: Letter Grade
Covers contemporary issues and common applications associated with small UASs (Unmanned Aerial Systems).
Prerequisite: SUR 350TC.

SUR 4380 Remote Sensing 3 Credits
Grading Scheme: Letter Grade
Remote sensing systems, ground truthing, image classification systems, mapping applications, applications in plant and animal science, urban planning, engineering, geology, and integration into geographic information systems.
Prerequisite: Geomatics major of senior standing.

SUR 4403 Cadastral Principles 3 Credits
Grading Scheme: Letter Grade
Cadastral systems, land boundaries, corners and areas; writing land descriptions and identification of land parcels; legal principles of boundary survey, office and business practices; professional standing.
Prerequisite: SUR 3103C or equivalent.

SUR 4430 Surveying and Mapping Practice 3 Credits
Grading Scheme: Letter Grade
Covers contemporary issues and common applications associated with small UASs (Unmanned Aerial Systems).
Prerequisite: SUR 350TC.

SUR 4432 Surveying and Mapping Practice 3 Credits
Grading Scheme: Letter Grade
Design a medium-sized subdivision, including the master plan development, physical development considerations, legal requirements, comprehensive project, mock presentation and platting.
Prerequisite: SUR 3323 or equivalent;
Corequisite: SUR 4201.

SUR 4501C Foundations of UAS Mapping 3 Credits
Grading Scheme: Letter Grade
Covers the fundamental components of small unmanned aerial systems (UASs) and how they are used to produce high resolution, spatially accurate, planimetric maps and 3-D models of the terrain.
Prerequisite: SUR 3103C or equivalent.
SUR 4530 Geodesy and Geodetic Positioning 3 Credits
Grading Scheme: Letter Grade
Introduces geometric and physical geodesy, ellipsoids, geodetic lines, computation or position, gravity and coordinate systems.
Prerequisite: SUR 3103C or equivalent.

SUR 4905 Special Problems in Geomatics 1-3 Credits
Grading Scheme: Letter Grade
Special problems or projects in the student's major field of study.

SUR 4911 Supervised Research in Geomatics 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in geomatics under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

SUR 4912 Senior Project 1 Credit
Grading Scheme: Letter Grade
Laboratory, equipment, or literature investigations of surveying and mapping problems and concepts of current interest resulting in a written work.
Prerequisite: Geomatics major of senior standing.

SUR 4915 Honors Thesis Research in Geomatics 0-3 Credits
Grading Scheme: S/U
Independent research in geomatics leading to an honors thesis, mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

SUR 4934 Topics in Geomatics 1-4 Credits
Grading Scheme: Letter Grade
Selected topics in geomatics, including special issues and in-depth study of topics not discussed in other courses.

SUR 4940C Practicum in UAS Mapping 3 Credits
Grading Scheme: Letter Grade
Provides hands-on experience with flight planning and safe deployment of small UASs (Unmanned Aerial Systems), and the subsequent processing of the imagery acquired on these flights.

SUR 4949 Co-op Work Experience 1 Credit
Grading Scheme: S/U
Practical field experience of sufficient academic rigor. (S-U)
Prerequisite: Geomatics major.

German | Languages, Literatures, and Cultures
Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information
Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

Courses
GER 1125 Discover German 1 5 Credits
Grading Scheme: Letter Grade
First semester of a two-semester sequence that includes Discover German 2. In this innovative online course, students acquire basic skills in the German language and use the Internet as a resource to explore aspects of German culture and everyday life.

GER 1126 Discover German 2 5 Credits
Grading Scheme: Letter Grade
Continuation of Discover German 1. Continue acquiring basic skills in the German language using the Internet to explore aspects of German culture and everyday life.
Prerequisite: GER 1125.

GER 1130 Beginning Intensive German 1 5 Credits
Grading Scheme: Letter Grade
The first semester of a two-semester sequence that includes Beginning Intensive German 2. Emphasis is on spoken German. Reading, writing and grammar are also included in the program. Communication in German is enhanced by the use of multimedia and regular meetings with tutors. Supervised homework and drill sessions in small groups.
GER 1131 Beginning Intensive German 2 5 Credits
Grading Scheme: Letter Grade
Continuation of Beginning Intensive German 1. Emphasis is on spoken German. Reading, writing and grammar are also included in the program. Communication in German is enhanced by the use of multimedia and regular meetings with tutors. Supervised homework and drill sessions in small groups.
Prerequisite: GER 1130 with minimum grade of C, or S, or the equivalent.

GER 2200 Intermediate German 1 3 Credits
Grading Scheme: Letter Grade
Participants will improve their skills in the four basic areas (reading, writing, listening comprehension, speaking) by reviewing elements of grammar, particularly morphology (i.e., word forms), and by expanding vocabulary. Upon successful completion, students may go directly to Advanced German.
Prerequisite: GER 1104 or GER 1126 or GER 1131, or the equivalent.

GER 2225 Online Intermediate German 3 Credits
Grading Scheme: Letter Grade
Employs web-based learning resources to develop B1-level proficiencies via the reinforcement of speaking and listening comprehension, reading, and writing skills, and an exploration of selected cultural topics. For self-starters who are comfortable and successful working individually and in groups in an online learning environment.
Prerequisite: (GER 1130 and GER 1131) or (GER 1125 and GER 1126) or (10 university-level credit hours of beginning German) or the equivalent.

GER 2240 Intermediate German 2 3 Credits
Grading Scheme: Letter Grade
Objectives include improving reading and speaking skills at the intermediate level. Upon completion participants will be able to pronounce German words more accurately, listen with greater comprehension to German and respond to questions about a variety of recorded texts. Upon successful completion, students may go directly to Advanced German.
Prerequisite: GER 1104 or GER 1126 or GER 1131, or the equivalent.

GER 2270 Intermediate German Abroad 3-9 Credits
Grading Scheme: Letter Grade
A review of the major aspects of grammar in a context that enhances understanding of German and aims at a level of proficiency above the A2 level of the Common European Framework of Reference for Languages.
Prerequisite: GER 1126 with a minimum grade of C.

GER 3234 Reading German Texts 3 Credits
Grading Scheme: Letter Grade
Upon completion, students will be able to read literary and nonliterary texts and to identify the more common syntactical, stylistic and rhetorical elements.
Prerequisite: GER 2200 or GER 2240.

GER 3300 Writing German Texts 3 Credits
Grading Scheme: Letter Grade
Special focus on strategies, grammar and vocabulary involved in writing in German. Works toward a writing proficiency level that corresponds to the B1 level as defined by the European Framework of Reference for Languages and measured by the Goethe Institute exam Zertifikay Deutsch.
Prerequisite: GER 2200 or GER 2270 with a minimum grade of C.

GER 3330 German Language and Culture 1 3 Credits
Grading Scheme: Letter Grade
Introduces German civilization through grammar review, vocabulary building, reading and essay writing. Upon completion, students will be able to discuss cultural and literary concepts in German. (H)
Prerequisite: GER 2200 or GER 2240.
Attributes: General Education - Humanities

GER 3332 Topics in German Film and Culture 1 Credit
Grading Scheme: Letter Grade
GER 3224 is taught as a FLAC accompaniment to various courses. A discussion forum covering different topics in German film and culture. All materials and class discussions will be in German.
Prerequisite: GER 1104 or GER 1126 or GER 1131, or equivalent, and one 2000-level GER course.

GER 3401 German Grammar Review 3 Credits
Grading Scheme: Letter Grade
An intensive semester-long review of German grammar.
Prerequisite: GER 2200 or GER 2240, or undergraduate coordinator permission.

GER 3413 German Listening, Comprehension and Speaking 3 Credits
Grading Scheme: Letter Grade
Develops the ability to understand and produce basic kinds of speech (descriptions, simple stories, etc.).
Prerequisite: GER 2200 or GER 2240, or instructor permission.

GER 3440 German in Business 3 Credits
Grading Scheme: Letter Grade
Study of Wirtschaftsdeutsch and the ability to read and write texts in German for international business transactions. Acquire the ability to communicate in German in professional business settings. (N and S)
Prerequisite: GER 2200 or GER 2240.
Attributes: General Education - International, General Education - Social Science

GER 3470 Advanced German Abroad 3-9 Credits
Grading Scheme: Letter Grade
Practical, in-class communication exercises at an advanced level in comprehension, speaking, reading and writing. Prepares students to achieve a proficiency level above the B1 level as established by the Common European Framework for Languages.
Prerequisite: GER 2200 or GER 2270 with a minimum grade of C, or undergraduate coordinator permission.

GER 4482 Cultural Identity and Intercultural Competence 3 Credits
Grading Scheme: Letter Grade
Listening comprehension and speaking ability in work involving German cultural identity, online and in class.
Prerequisite: GER 3410 or instructor permission.

GER 4930 Variable Topics in German Studies 3 Credits
Grading Scheme: Letter Grade
Working with German media such as major newspapers, magazines, radio and television programs, students will refine their language skills to a level similar to the B2 level of the Common European Framework for Languages.
Prerequisite: GER 3401 with a minimum grade of C or 6 credits of coursework at the GER 3000-level.
Primary sources include Mann, Remarque, Boll, Celan, Grosz, and Kiefer. 20th century, focusing primarily on European history, culture and politics. Study of the shifting cultural representations of war (literature/art) in the 20th century, focusing primarily on European history, culture and politics. Primary sources include Mann, Remarque, Boll, Celan, Grosz, and Kiefer.

GER 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

GET 2100 German Literary Heritage 3 Credits
Grading Scheme: Letter Grade
Knowledge of German is not required. Upon completion participants will be able to discuss major works of German literature, mainly from the 18th to the 20th century. Texts and lectures in English. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

GET 3003 German Culture and Civilization 1 3 Credits
Grading Scheme: Letter Grade
Knowledge of German is not required. Introduces German civilization from the earliest times to the beginning of the 19th century. Become acquainted with German literature, philosophy, art, music and architecture. Readings and discussions in English.

GET 3004 Modern German Culture and Civilization 3 Credits
Grading Scheme: Letter Grade

Introduces theories of emotional well-being and health education, and the means of incorporating positive mental health practices into the health education programming and health counseling.
Prerequisite: Health education and behavior majors, junior or senior standing.

HSC 4143 Drug Education 3 Credits
Grading Scheme: Letter Grade
Broad view of the elements of drug use and abuse, such as individual behavior, environmental factors and drugs. Drug taking is approached in a factual stance; i.e., what has been documented to date, so that participants can separate speculation and bias from fact. The emphasis is also placed on methods pertaining to the preventive aspects of drug use and abuse.
Prerequisite: APK 2105C or (BSC 2086 and BSC 2086L) or (BSC 2094 and BSC 2094L) with minimum grades of C; Health education and behavior majors, junior or senior standing only.

HSC 4174 Behavioral and Environmental Determinants of Obesity 3 Credits
Grading Scheme: Letter Grade
Explores interactions among individual, behavioral and environmental determinants of obesity. Focuses on the extent of the obesity problem primarily in the US from an epidemiological perspective. Ideas for prevention and control are discussed along with effective interventions to address obesity (policy development and implementation).
Prerequisite: Health education and behavior majors, junior or senior standing.

HSC 4232C Exercise Therapy, Adapted Physical Activity and Health 3 Credits
Grading Scheme: Letter Grade
Art and science of teaching exercise therapy effectively, including adapted physical activities and healthy living strategies. Presents medical and health characteristics of common disabilities and methods for prescribing appropriate exercise therapy programs. Also presents multiple adapted-equipment ideas to facilitate teaching in inclusive settings for all ages. Clinical experience with individuals with disabilities. (S and D)
Prerequisite: Health education and behavior or applied physiology and kinesiology - fitness/wellness majors, and junior or senior standing.
Attributes: General Education - Diversity, General Education - Social Science

HSC 4233 Patient Health Education 3 Credits
Grading Scheme: Letter Grade
Introduces theories that apply to the practice of patient education in a variety of health care settings. Emphasizes placed on education for health promotion and lifestyle changes. Additionally, provides an overview of the U.S. health care industry.
Prerequisite: Health education and behavior or applied physiology and kinesiology - fitness/wellness majors, and junior or senior standing.

HSC 4302 Methods and Materials in Health Education 3 Credits
Grading Scheme: Letter Grade
Fundamental strategies for health science education including conceptualizing instruction, specifying instructional objectives, and planning units and lessons using various instructional methods, selecting and using instructional materials, and evaluating the effectiveness of health instruction in school and community settings.
Prerequisite: HSC 3032 with a minimum grade of C and Health education and behavior majors, senior standing; must be taken the fall or spring semester prior to HEB internship.

HSC 4450 Driver and Traffic Safety Education 1 3 Credits
Grading Scheme: Letter Grade
Analyzes driver and traffic safety problems; training for efficient motor vehicle operation through experience with simulators, dual control cars and multiple car driving range.
Prerequisite: junior or senior standing and a state driver's license.

HSC 4451 Driver and Traffic Safety Education 2 3 Credits
Grading Scheme: Letter Grade
Organization, administration and teaching techniques of driver education for public high schools, including student teaching.
Corequisite: HSC 4450.

HSC 4564 Health Promotion in Gerontology 3 Credits
Grading Scheme: Letter Grade
Addresses the dimensions of healthy aging. Examines the relevance of behavior change theory with older adults and provides specific tools to design and implement health programs with older adults.
Prerequisite: HSC 3032 with a minimum grade of C and Health education and behavior majors, junior or senior standing.

HSC 4574 Nutrition Education for Special Populations 3 Credits
Grading Scheme: Letter Grade
Development of nutrition education programs for selected population groups. Emphasizes educational techniques utilized to inform special populations of changing nutritional needs. Discusses population groups such as ethnic minorities, the elderly, the pregnant female and the athlete.
Prerequisite: HSC 3032 and HUN 2201 or equivalent, with minimum grades of C; Health education and behavior majors, junior or senior standing.
HSC 4579 Women's Health Issues 3 Credits  
Grading Scheme: Letter Grade  
Women and men experience similar diseases, disorders, and causes of death, but women often experience these in different forms and at different stages in life. Explores current women's health issues, and covers a broad range of health issues of special importance to women.  
Prerequisite: Health education and behavior or applied physiology and kinesiology - fitness/wellness majors, and junior or senior standing.  

HSC 4593 HIV/AIDS Education 3 Credits  
Grading Scheme: Letter Grade  
Seminar examines the medical, social, legal and educational implications of HIV/AIDS on individuals and society. Includes lectures, guest and student presentations, videos and student-initiated discussions. Local, state and national experts in the fields of medicine, epidemiology, law, education and health promotion provide lectures.  
Prerequisite: Health education and behavior majors and junior or senior standing.

HSC 4623 Minority Health Issues 3 Credits  
Grading Scheme: Letter Grade  
Addresses health issues confronting politically and socioeconomically disadvantaged groups and ethnic minority groups in America. Not intended to be a comprehensive treatment of all pertinent health problems affecting minorities, but does address some of the more salient health concerns.  
Prerequisite: Health education and behavior majors and junior or senior standing.

HSC 4624 Trends in International Health 3 Credits  
Grading Scheme: Letter Grade  
Overview of problems and practices in international health including disease patterns and prevalence, contributing factors, organizational and government initiatives and model programs with special emphasis on problems amenable to health education interventions. (S and N)  
Prerequisite: Health education and behavior majors and junior or senior standing.  
Attributes: General Education - International, General Education - Social Science

HSC 4663 Community Health Methods in Injury Prevention and Control 3 Credits  
Grading Scheme: Letter Grade  
Introduces current theory and knowledge in the field of unintentional injury prevention; prepares students to critically analyze current intervention strategies and explores new directions for unintentional injury prevention and control. Topics include the importance of injury as a problem, historical and conceptual underpinnings of injury prevention, epidemiology of injury, mechanisms of injury, basic concepts of injury prevention, the role of the law in injury prevention and the role if injury surveillance on unintentional injuries.  
Prerequisite: Health education and behavior majors and junior or senior standing.

HSC 4664 Health Communication for Consumers 3 Credits  
Grading Scheme: Letter Grade  
Health communication processes and practices for health consumers and health professionals who facilitate health consumers. (WR)  
Prerequisite: HSC 3032 with a minimum grade of C and Health education and behavior majors, junior or senior standing.  
Attributes: Satisfies 6000 Words of Writing Requirement

HSC 4694 Worksite Health Promotion 3 Credits  
Grading Scheme: Letter Grade  
Considerations in planning, implementing and evaluating comprehensive health education and health promotion programs at the worksite including health risk appraisal, program design and special educational strategies appropriate for the occupational setting.  
Prerequisite: HSC 3032 with a minimum grade of C and Health education and behavior majors, junior or senior standing.

HSC 4713 Planning and Evaluating Health Education Programs 3 Credits  
Grading Scheme: Letter Grade  
Frameworks, principles and strategies for planning, implementing and evaluating health promotion interventions.  
Prerequisite: HSC 3032 with a minimum grade of C and Health education and behavior majors, junior or senior standing.

HSC 4800 Health Education Professional Development 3 Credits  
Grading Scheme: Letter Grade  
Review and discussion of the health education field, including career opportunities, department policies for health education internship selection and registration, professional development information and preparation for future employment and/or graduate coursework in the health education field.  
Prerequisite: HSC 3032 with minimum grade of C and Health education and behavior majors, senior standing; must be taken the fall or spring semester prior to HEB internship.

HSC 4813 Practicum in Health Education 1-3 Credits  
Grading Scheme: S/U  
Health education practicum. (S-U)  
Prerequisite: Health education major.

HSC 4876 Internship in Health Education 1-16 Credits  
Grading Scheme: Letter Grade  
Health education internship.  
Prerequisite: HSC 3032 and HSC 4800 with minimum grades of C and 4HH-Health education and behavior majors.

HSC 4905 Individual Study 1-4 Credits  
Grading Scheme: Letter Grade  
Supervised program of study to investigate problems significant to health professions.  
Prerequisite: HSC 3032 with minimum grade of C and Health education and behavior majors, junior or senior standing; faculty member or program coordinator permission.

HSC 4910 Supervised Research Experience 1-3 Credits  
Grading Scheme: S/U  
Explores an area of interest in health research or the delivery and/or administration of health services through first-hand, supervised research experience.  
Prerequisite: HSC 3032 with minimum grade of C and Health education and behavior majors, junior or senior standing; faculty member or program coordinator permission.

HSC 4912 Undergraduate Research 0-5 Credits  
Grading Scheme: S/U  
Provides health education and behavior undergraduates the opportunity to engage in supervised research. For this purpose, research is defined as an independent or team participatory experience that provides an opportunity to systematically investigate an existing or emerging health problem and to communicate the results of their work to others. (S-U)
HSC 4950 Current Topics in Health Education 3 Credits  
**Grading Scheme:** Letter Grade  
Variable topics in health education.  
**Prerequisite:** Health education and behavior majors and junior or senior standing.

PET 4905C Variable Topics in Exercise and Sport Sciences 1-5 Credits  
**Grading Scheme:** Letter Grade  
Offered upon request to meet students' special interests that are not adequately provided in other courses.  
**Prerequisite:** department chair permission.

PET 4948C Practicum in Exercise and Sport Sciences 1-5 Credits  
**Grading Scheme:** Letter Grade  
Practical experience in such specialty areas as adult fitness programs, health clubs, exercise testing laboratories, clinical laboratories and athletic training rooms. May include senior thesis with oral defense.  
**Prerequisite:** department chair permission.

**Health Professions**

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.  

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

**Courses**

HSC 2000 Introduction to Health Professions 3 Credits  
**Grading Scheme:** Letter Grade  
Lecture, discussion and group assignments provide the opportunity to learn about different disciplines making up a health care team and their role in both the science and practice of health care.

HSC 4008 Professional Development for the Health Sciences 1 Credit  
**Grading Scheme:** S/U  
Fosters the professional development needed to transition into the health and public health professions. Enrichment activities include diversity training, presentation skills training, career planning, and developing an online portfolio. (S-U)  
**Prerequisite:** PHHP senior in the limited-access program.

HSC 4008 Professional Development for the Health Sciences 3 Credits  
**Grading Scheme:** Letter Grade  
Fosters the professional development needed to transition into the health and public health professions. Enrichment activities include diversity training, presentation skills training, career planning, and developing an online portfolio. (S-U)  
**Prerequisite:** PHHP senior in the limited-access program.

HSC 4010 Professional Development for the Health Sciences 3 Credits  
**Grading Scheme:** S/U  
Fosters the professional development needed to transition into the health and public health professions. Enrichment activities include diversity training, presentation skills training, career planning, and developing an online portfolio. (S-U)  
**Prerequisite:** PHHP senior in the limited-access program.

HSC 4011 Introduction to Health Professions 3 Credits  
**Grading Scheme:** Letter Grade  
Lecture, discussion and group assignments provide the opportunity to learn about different disciplines making up a health care team and their role in both the science and practice of health care.

HSC 4012 Introduction to Health Professions 3 Credits  
**Grading Scheme:** Letter Grade  
Lecture, discussion and group assignments provide the opportunity to learn about different disciplines making up a health care team and their role in both the science and practice of health care.

HSC 4300 Introduction to Health Professions 3 Credits  
**Grading Scheme:** Letter Grade  
Lecture, discussion and group assignments provide the opportunity to learn about different disciplines making up a health care team and their role in both the science and practice of health care.

HSC 4905 Individual Study 1-4 Credits  
**Grading Scheme:** Letter Grade  
Supervised program of study to investigate problems significant to health professions.  
**Prerequisite:** HSC 3032 with minimum grade of C and Health education and behavior majors, junior or senior standing; faculty member or program coordinator permission.

HSC 4910 Supervised Research Experience 1-3 Credits  
**Grading Scheme:** S/U  
Explores an area of interest in health research or the delivery and/or administration of health services through first-hand, supervised research experience.  
**Prerequisite:** HSC 3032 with minimum grade of C and Health education and behavior majors, junior or senior standing; faculty member or program coordinator permission.

HSC 4930 Special Topics 1-4 Credits  
**Grading Scheme:** Letter Grade  
Special topics in health science. Please refer to the department for specific course information. Can be repeated with change in content up to 12 credits.

HSC 4969 Honors Seminar in the Health Professions 1-3 Credits  
**Grading Scheme:** Letter Grade  
Philosophy and implementation of scientific work, including an introduction to faculty research. Provides the opportunity to explore and discuss potential honors thesis topics.  
**Prerequisite:** 3.5 GPA, majors only and department permission.

HSC 4970 Public Health and Health Professions Senior Honors Thesis 1-6 Credits  
**Grading Scheme:** Letter Grade  
Special project leading to the distinction of magna or summa cum laude at graduation. The project can be any creative work that focuses on a specific topic or issue in the health professions. The student develops an outline of the special project prior to project initiation and produces a final paper at project completion. The paper must be approved by the program and dean's office for the student to graduate magna or summa cum laude.  
**Prerequisite:** HSC 4969, senior standing, majors only and a 3.75 GPA.

PHC 4101 Public Health Concepts 3 Credits  
**Grading Scheme:** Letter Grade  
Introduces the basic tenets, applications and foci of public health, including integrating public health with other health professions.  
**Prerequisite:** (BSC 2007 or BSC 2005 or BSC 2010) and PSY 2012 and STA 2023.

PHC 4320 Environmental Concepts in Public Health 3 Credits  
**Grading Scheme:** Letter Grade  
Surveys major environmental health topics by examining sources, routes, media, and health outcomes associated with biological, chemical, and physical agents in the environment. Introduces the economic and legal frameworks associated with environmental health issues and public health.  
**Prerequisite:** PHC 4101.

PHC 4930 Special Topics in Public Health 1-6 Credits  
**Grading Scheme:** S/U  
Exploration of a general or a specific area of public health.  
**Prerequisite:** junior or senior standing.

**Health Science**

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.  

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

**Department Information**

The Bachelor of Health Science (BHS) program is a limited access program designed for students whose career goal is to work in the health professions providing service to individuals and communities. BHS students are typically pursuing health related professions such as medicine, physician assistant, physical therapy, occupational therapy, audiology, speech-language pathology, dentistry, epidemiology, or public health.

Curriculum
• Health Science
• Health Science Minor

Courses

HSA 3111 U.S. Health Care System 3 Credits
Grading Scheme: Letter Grade
Overview of organization, delivery and financing of health services in the U.S. Topics include health professionals, health care facilities, financing of health services, managed care and current health policy issues.
Prerequisite: (BSC 2007 or BSC 2005 or BSC 2010) and PSY 2012 and STA 2023 and (health science or communication sciences and disorders or public health majors or health science or public health minors).

HSA 4110 Healthcare Operations Concepts 3 Credits
Grading Scheme: Letter Grade
Covers several relevant topics related to the business end of healthcare, including business management principles for practitioners, healthcare reimbursement methodologies, and basic healthcare financial management such as simple budgeting and debt financing.

HSA 4191 Health Informatics & Emerging Healthcare Technologies 3 Credits
Grading Scheme: Letter Grade
Provides a fundamental understanding health informatics, healthcare information systems, and emerging healthcare technologies, starting with the core informatics competencies and the foundation of knowledge model.

HSC 3057 Research Methods and Issues in Health Science 3 Credits
Grading Scheme: Letter Grade
Emphasizes four aspects of research: understanding research principles, evaluating journal articles, applying research findings to clinical settings and designing programmatic evaluation projects.
Prerequisite: HSC 3502 and Health Science or Public Health majors or minors.

HSC 3502 Survey of Diseases and Disabilities 3 Credits
Grading Scheme: Letter Grade
Overview of medical and psychosocial aspects of chronic diseases, disability. Includes issues of disability management. This required course, combined with HSC 3502, covers all of the major disabling conditions.
Prerequisite: HSC 3502; Health Science, Public Health, Communication Sciences and Disorders majors/minors only

HSC 3801 Clinical Observation / Health Care Volunteer Work 1-4 Credits
Grading Scheme: S/U
Learn about a specific health care field or gain knowledge about specific patient or client populations through direct observation and/or hands-on assistance. (S-U)
Prerequisite: Health science majors only and department permission.

HSC 4184 Health Care Leadership: Skills and Styles 3 Credits
Grading Scheme: Letter Grade
Behavioral styles that contribute to leadership effectiveness. Studies specific styles for their contributions to motivating people and overall leadership effectiveness in health care.
Prerequisite: HSA 3111 and HSC 3502 and HSC 4558 and Health Science major.

HSC 4558 Survey of Diseases and Disabilities 2 3 Credits
Grading Scheme: Letter Grade
Overview of medical and psychosocial aspects of chronic diseases, including issues of disability management. This required course, combined with HSC 3502, covers all of the major disabling conditions.
Prerequisite: HSC 3502; Health Science, Public Health, Communication Sciences and Disorders majors/minors only

HSC 4608L Critical Thinking in Health Care 4 Credits
Grading Scheme: Letter Grade
Develops critical thinking skills to solve problems in the health care environment.
Prerequisite: HSA 3111 and HSC 3502 and HSC 4558, and HSC 3661 and Health Science major.

HSC 4652L Ethical and Legal Issues in the Health Professions 3 Credits
Grading Scheme: Letter Grade
Overview of ethical and legal issues in the health professions, including contemporary ethical issues in disease management.
Prerequisite: HSA 3111 and HSC 3502 and HSC 4558 and Health Science major.

HSC 4930 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Special topics in health science. Please refer to the department for specific course information. Can be repeated with change in content up to 12 credits.

OTH 3416 Pathophysiology 3 Credits
Grading Scheme: Letter Grade
Basic understanding of pathophysiology as a change from normal physiological functioning of the various systems of the human body.
Prerequisite: (APK 2105C and HSA 3111 and HSC 3502 and Health Science major or minor) or instructor permission.

PHC 2100 Introduction to Public Health 3 Credits
Grading Scheme: Letter Grade
Overview of public health as a multifaceted field. Includes discussion of contemporary public health challenges with input from discipline experts.

PHC 3440 Global Public Health 3 Credits
Grading Scheme: Letter Grade
Critical links between global health and social and economic development. Discusses the burden of disease and how to measure this across countries. Focuses on low and middle income countries and the health of the poor.
Prerequisite: PHC 4101 and junior standing or higher.
PHC 4024 Applied Epidemiology 3 Credits
Grading Scheme: Letter Grade
Principles and methods of epidemiological investigation focusing on both infectious and noninfectious diseases. Emphasizes outbreak investigations, field epidemiology and epidemiology careers.
Prerequisite: HSC 3057, HSC 3502, HSC 4558, PHC 4101, and Health Science and Public Health majors/minors only.

PHC 4094 Introduction to Biostatistics for Health Science and Public Health 3 Credits
Grading Scheme: Letter Grade
Methods and public health applications for analysis of variance, correlation, simple linear regression, multiple linear regression, nonparametric and distribution-free statistical methods, and some basic concepts about survival analysis. Public health applications using statistical software. Writing data analysis reports.
Prerequisite: STA 2023.

PHC 4101 Public Health Concepts 3 Credits
Grading Scheme: Letter Grade
Introduces the basic tenets, applications and foci of public health, including integrating public health with other health professions.
Prerequisite: (BSC 2007 or BSC 2005 or BSC 2010) and PSY 2012 and STA 2023.

PHC 4117 Public Health Management Leadership 3 Credits
Grading Scheme: Letter Grade
Provides knowledge relevant to leading public health organizations while effectively managing and motivating employees. Includes organizational behavior and theories to examine management, leadership, and application of skills in delivering public health programs.
Prerequisite: HSA 3111 and HSC 3502 and HSC 4558 and PHC 4101 and Public Health major.

PHC 4943 Service Learning Practicum 3 Credits
Grading Scheme: Letter Grade
Covers development of the role of a public health and human services provider in an agency setting.
Prerequisite: HSC 3057 and PHC 4101 and Public Health major with senior standing.

Courses

HBR 1130 Beginning Modern Hebrew 1 5 Credits
Grading Scheme: Letter Grade
Beginning Hebrew covers four skills: listening, speaking, reading, and writing. For those with no prior exposure to the language.

HBR 1131 Beginning Modern Hebrew 2 5 Credits
Grading Scheme: Letter Grade
Continues beginning Hebrew, covering four skills: listening, speaking, reading, and writing.
Prerequisite: HBR 1130 with minimum grade of C or S, or the equivalent.

HBR 2220 Intermediate Modern Hebrew 1 4 Credits
Grading Scheme: Letter Grade
Intermediate Hebrew study covers four skills: listening, speaking, reading, and writing with new vocabulary and grammar.
Prerequisite: HBR 1131 with minimum grade of C or S, or the equivalent.

HBR 2221 Intermediate Modern Hebrew 2 4 Credits
Grading Scheme: Letter Grade
Continues intermediate Hebrew covering four skills: listening, speaking, reading, and writing.
Prerequisite: HBR 2220 with minimum grade of C or S, or the equivalent.

HBR 3410 Advanced Modern Hebrew 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills: listening, speaking, reading, and writing with attention to more complex structures. (H and N)
Prerequisite: HBR 2220 or HBR 2133 with minimum grade of C or S, or the equivalent.
Attributes: General Education - Humanities, General Education - International
HBR 3411 Advanced Modern Hebrew 2 3 Credits
Grading Scheme: Letter Grade
Continues advanced Hebrew study of the four skills: listening, speaking, reading, and writing with attention to more complex structures. (H and N)
Prerequisite: HBR 3410 with minimum grade of C or S, or the equivalent.
Attributes: General Education - Humanities, General Education - International

HBR 3412 Hebrew News and Media 3 Credits
Grading Scheme: Letter Grade

HBR 4905 Individual Work 1-5 Credits
Grading Scheme: Letter Grade
Individual work on an approved topic.
Prerequisite: refer to the department.

HBR 4930 Special Topics 3 Credits
Grading Scheme: Letter Grade
Proseminar of variable content providing an opportunity for in-depth study of special topics in Israeli literature, history, or culture.

HBR 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

HBT 3100 Introduction to Israeli Culture 3 Credits
Grading Scheme: Letter Grade
Presentation and analysis of some key facets of Israeli culture. Topics include Jewish vs. Zionist (and Israeli non-Jewish) identities, Israeli-Palestinian conflict, Israeli-American relations, gender, and function of art in Israeli society.
Prerequisite: HBR 1130 or sophomore standing.

HBT 3223 Identity and Dissent in the Hebrew Short Story 3 Credits
Grading Scheme: Letter Grade
Traces the tension between the individual and the collective in Zionist/Israeli society over the last 100-plus years as illustrated in Hebrew short fiction.

HBT 3233 Israeli History and the Contemporary Novel 3 Credits
Grading Scheme: Letter Grade
Studies Israeli history through the lens of the contemporary novel.
Attributes: General Education - Humanities

HBT 3563 Women in Modern Hebrew Fiction 3 Credits
Grading Scheme: Letter Grade
Depictions of women in 20th century Hebrew fiction.

HBT 3564 Motherhood in Modern Hebrew Literature 3 Credits
Grading Scheme: Letter Grade
Applied feminist theories regarding motherhood to the field of modern Hebrew literature.

HMW 4200 Readings in Modern Hebrew Literature 1 3 Credits
Grading Scheme: Letter Grade
Readings in modern Hebrew novels, short fiction and poetry. While the study of literature is emphasized, some language work is presented to help with reading comprehension. Texts and instruction are in Hebrew.
Prerequisite: HBR 3411 or equivalent.

HMW 4201 Readings in Modern Hebrew Literature 2 3 Credits
Grading Scheme: Letter Grade
Readings in modern Hebrew texts, including recently published stories and poems. Class is instructed in Hebrew.
Prerequisite: HMW 4200 or equivalent.

Courses

AFH 2000 Africa in World History 3 Credits
Grading Scheme: Letter Grade
One-semester introduction to African history for undergraduates. Links the history of African societies with other world civilizations by focusing upon major historical themes. (H and N)
Attributes: General Education - Humanities, General Education - International

AFH 3100 Africa to 1800 3 Credits
Grading Scheme: Letter Grade
Ancient Africa, the expansion of Islam, savannah kingdoms, East African trading cities, maritime contacts with Europe, the slave trade. (H and N)
Attributes: General Education - Humanities, General Education - International

AFH 3200 Africa Since 1800 3 Credits
Grading Scheme: Letter Grade
End of the slave trade and the growth of legitimate commerce; Islamic renewal and revolution; the European partition and the colonial era; the growth of nationalism and the reemergence of independent Africa. (H and N)
Attributes: General Education - Humanities, General Education - International

AFH 3342 History of West Africa 3 Credits
Grading Scheme: Letter Grade
History of West Africa from the Ghana Empire to the contemporary period. (H and N)
Attributes: General Education - Humanities, General Education - International

AFH 3405 History of East Africa 1800-2000 3 Credits
Grading Scheme: Letter Grade
Selected variable topics in the history and culture of Africa.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

AFH 3931 Special Topics in African History 3 Credits
Grading Scheme: Letter Grade
Selected variable topics in the history and culture of Africa.
Prerequisite: 3 credits of an AFH, AMH, ASH, EUH, LAH, or WOH course.

AFH 4250 Modern Africa 3 Credits
Grading Scheme: Letter Grade
Selected topics in 19th and 20th century African development; pre-colonial conditions, colonial rule, nationalist movements and the problem of independence. (H and N)
Attributes: General Education - Humanities, General Education - International

AFH 4253 African Women in the Twentieth-Century 3 Credits
Grading Scheme: Letter Grade
Explores themes of politics, social structure, and cultural change by examining the historical experiences of African women.

AFH 4293 Politics and Violence in Africa Since 1800 3 Credits
Grading Scheme: Letter Grade
Puts violence, one of contemporary Africa's most pressing issues, into historical perspective by focusing on the interrelated themes of ethnicity, youth, riot, rebellion, and revolt.
AFH 4450 Southern Africa 3 Credits
Grading Scheme: Letter Grade
History of southern Africa from the pre-European era to the present. (H and N)
Attributes: General Education - Humanities, General Education - International

AFH 4930 History Research Seminar: Africa 3 Credits
Grading Scheme: Letter Grade
Through rotating content, this seminar has two distinct goals: historiography of a specific topic and production of a substantial research paper based on primary source evidence.
Prerequisite: 4LS history major.

AMH 2010 United States to 1877 3 Credits
Grading Scheme: Letter Grade
Surveys the development of the U.S. from its colonial origins to the end of Reconstruction. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 2020 United States Since 1877 3 Credits
Grading Scheme: Letter Grade
Surveys the emergence of modern America as an industrial and world power; the Progressive Era; WWII; the Great Depression and the New Deal; WW II; and the Cold War era. (S and D)
Attributes: General Education - Diversity, General Education - Social Science

AMH 2631 History of Sustainability 3 Credits
Grading Scheme: Letter Grade
Explores the history of sustainability as an idea and practice in the U.S. from the time of European settlement to the near present.

AMH 2642 American History through Films 3 Credits
Grading Scheme: Letter Grade
Hollywood films examine cultural anxieties concerning racial identities, gender roles, and sexual behaviors in the postwar period, from the mid-1940s to the present.

AMH 3223 The Gilded Age 3 Credits
Grading Scheme: Letter Grade
Changes that occurred in America between 1877 and the advent of WWII, emphasizing the meaning of Americanism, conflicts between labor and capital, and the relations between historical events and race, gender and politics.
Prerequisite: 3 credits of history.

AMH 3273 America in the Sixties 3 Credits
Grading Scheme: Letter Grade
Social and political movements of the turbulent era of 1960s America, covering primarily the civil rights, feminist and anti-war movements.
Prerequisite: 3 credits of history.

AMH 3340 History of Disability in America 3 Credits
Grading Scheme: Letter Grade
How disabilities have been labeled, identified and treated over time and in light of broad social trends.

AMH 3421 Florida to 1845 3 Credits
Grading Scheme: Letter Grade
Exploration and settlement, colonial history of Spanish and British Florida, U.S. territorial days to statehood. (H) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 3423 Florida Since 1845 3 Credits
Grading Scheme: Letter Grade
Statehood and secession, Civil War, Reconstruction, reform and reaction, Progressive Era, boom and bust, diversification and growth of Florida since World War II. (H) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 3460 U.S. Urban History 3 Credits
Grading Scheme: Letter Grade
Analyzes the growth and development of urban civilization in the U.S. Emphasis on how cities began and their impact on politics, economics and culture. (H or S)(WR)
Prerequisite: 3 credits of history with a grade of C or better.
Attributes: General Education - Diversity, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 3500 U.S. Labor History 3 Credits
Grading Scheme: Letter Grade
Emphasizes the history of America's working class people, and addresses such issues as working class consciousness, theories of organized labor, methods of organization, and class relationships. (D and H) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Diversity, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 3511 American Foreign Relations and Expansion Since 1914 3 Credits
Grading Scheme: Letter Grade
Focuses on the origin, conduct, and consequences of American diplomacy during an era of global conflict and revolutionary upheaval. (H) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 3519 U.S. - Middle East Relations 3 Credits
Grading Scheme: Letter Grade
Examines U.S.-Middle East relations in historical context, including culture, U.S.-Israeli relations, nationalists, radicals, and events and issues that impact this relationship.
Prerequisite: 3 credits of history.

AMH 3531 The American Jewish Experience 1880-2000 3 Credits
Grading Scheme: Letter Grade
Introduces the major events and issues in American Jewish history and offers a sense of why Jews felt at home in America. Focuses on immigration, assimilation and collective survival.

AMH 3551 Constitutional History of the United States to 1877 3 Credits
Grading Scheme: Letter Grade
Analyzes the development of constitutionalism from English colonial origins to the end of Reconstruction, emphasizing the inherent tension between concepts of power and liberty. (H) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement
AMH 3552 Constitutional History of the United States Since 1877 3 Credits
Grading Scheme: Letter Grade
Continues AMH 3551, giving special attention to the way in which constitutionalism has adapted to the growth of an urban and industrial society, to the extension of civil liberties and civil rights, and to the growth of executive authority. (H) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 3558 United States Legal History 3 Credits
Grading Scheme: Letter Grade
Nontechnical survey of American legal development from its English common law origins to the present. (H) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 3561 American Women in the 19th Century 3 Credits
Grading Scheme: Letter Grade
Examines women's history during the 19th century with a focus on how women gradually entered the public arena as laborers, reformers, writers, and performers.
Prerequisite: 3 credits of history.

AMH 3562 Women in Modern U.S. 3 Credits
Grading Scheme: Letter Grade
Introduces major events, trends and issues in the history of U.S. women from the Civil War to the present. (H)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities

AMH 3563 African American and Latino Histories 3 Credits
Grading Scheme: Letter Grade
Origin and development of an American society along the eastern seaboard of North America. (H) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities

AMH 3564 African Diaspora in the Americas 3 Credits
Grading Scheme: Letter Grade
Explores the centrality of Africa in the Americas by studying revolutions against slavery and colonialism in the African Diaspora from the 18th century to present with a special emphasis on the development of democratic ideologies among people of African descent in the Americas.
Prerequisite: 3 credits in AFH, ASH, AMH, EUH, HIS, LAH, or WOH.

AMH 3566 Native American History to 1815 3 Credits
Grading Scheme: Letter Grade
Examines the representations and realities of North American Indian history from the pre-Columbian period through the early 19th century. (H)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities

AMH 3630 American Environmental History 3 Credits
Grading Scheme: Letter Grade
Substantive and interpretive inquiry of the historical roots of the nation's contemporary environmental issues. A comprehensive overview of the relationship between people and their natural physical surroundings from the Columbian explorations to the 1980s.

AMH 3635 American Environmental History Since 1865 3 Credits
Grading Scheme: Letter Grade
Continues AMH 3630, emphasizing the social, political, and cultural developments that have shaped modern American environmental history.
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 3636 Native American History Since 1806 3 Credits
Grading Scheme: Letter Grade
Examines the representations and realities of North American Indian history from the early 19th century to the present. (H and D)
Prerequisite: 3 credits of history.
Attributes: General Education - Diversity, General Education - Humanities

AMH 3651 Early America 3 Credits
Grading Scheme: Letter Grade
Social, political, cultural and economic history of America in its formative years. The Age of Jefferson (1789-1824) and the period of the first party system, including the policies and the wars of the Virginia dynasty. The second half, the Age of Jackson (1824-1848), discusses the rise of the Democratic and Whig parties, Indian removal, trends in religion and reform, further western expansion and the sectionally divisive Mexican War. (H) (WR)
Prerequisite: 6 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 3652 Constitutional History of the United States Since 1877 3 Credits
Grading Scheme: Letter Grade
Continues AMH 3551, giving special attention to the way in which constitutionalism has adapted to the growth of an urban and industrial society, to the extension of civil liberties and civil rights, and to the growth of executive authority. (H) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 3653 United States Legal History 3 Credits
Grading Scheme: Letter Grade
Nontechnical survey of American legal development from its English common law origins to the present. (H) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 3654 African American and Latino Histories 3 Credits
Grading Scheme: Letter Grade
Origin and development of an American society along the eastern seaboard of North America. (H) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities

AMH 3655 African Diaspora in the Americas 3 Credits
Grading Scheme: Letter Grade
Explores the centrality of Africa in the Americas by studying revolutions against slavery and colonialism in the African Diaspora from the 18th century to present with a special emphasis on the development of democratic ideologies among people of African descent in the Americas.
Prerequisite: 3 credits in AFH, ASH, AMH, EUH, HIS, LAH, or WOH.

AMH 3670 American Slavery and Abolition 3 Credits
Grading Scheme: Letter Grade
History of American slavery and abolition from the 1600s through emancipation and the Reconstruction Era.
Prerequisite: 3 credits of history.

AMH 3674 American Slavery and Abolition 3 Credits
Grading Scheme: Letter Grade
History of American slavery and abolition from the 1600s through emancipation and the Reconstruction Era.
Prerequisite: 3 credits of history.

AMH 3931 Special Topics in American History 3 Credits
Grading Scheme: Letter Grade
Selected, variable topics in the history and culture of America.
Prerequisite: 3 credits of history.

AMH 4110 Early America 3 Credits
Grading Scheme: Letter Grade
Analyzes the intellectual, cultural and social changes which resulted in a mixture of ideas and cultures from Europe, Africa, and native America. (H) (WR)
Prerequisite: 6 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 4111 New World Encounters 3 Credits
Grading Scheme: Letter Grade
Analyzes the background of, and reasons for, the American Revolution, the social, military, political, diplomatic aspects of the era, as well as the constitutional developments of these years. (H) (WR)
Prerequisite: 6 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 4130 American Revolutionary Era, 1760-1789 3 Credits
Grading Scheme: Letter Grade
Analyzes the background of, and reasons for, the American Revolution, the social, military, political, diplomatic aspects of the era, as well as the constitutional developments of these years. (H) (WR)
Prerequisite: 6 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 4160 The Early Republic, 1789-1848 3 Credits
Grading Scheme: Letter Grade
Social, political, cultural and economic history of America in its formative years. The Age of Jefferson (1789-1824) and the period of the first party system, including the policies and the wars of the Virginia dynasty. The second half, the Age of Jackson (1824-1848), discusses the rise of the Democratic and Whig parties, Indian removal, trends in religion and reform, further western expansion and the sectionally divisive Mexican War. (H) (WR)
Prerequisite: 6 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement
AMH 4231 U.S. World War I to World War II 3 Credits
Grading Scheme: Letter Grade
Post-World War I America: the Twenties, the Depression and the New Deal, WW II. (H) (WR)
Prerequisite: 6 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 4270 U.S. Since World War II 3 Credits
Grading Scheme: Letter Grade
Post-World War II America: America as world power, social revolution, Vietnam, Watergate and after. (H) (WR)
Prerequisite: 6 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 4312 History of Sexualities 3 Credits
Grading Scheme: Letter Grade
Social history of sexuality, tracing history of ideas about and attitudes toward sexuality in law, politics, medicine and science from ancient Greeks to the present; emphasizes the North American experience.

AMH 4316 Violence and Social Conflict in American History 3 Credits
Grading Scheme: Letter Grade
Changing patterns and levels of violent behavior, including rioting, lynching, domestic violence, street violence, during the last four centuries of American history.

AMH 4317 History by Hollywood 3 Credits
Grading Scheme: Letter Grade
Compares Hollywood films with traditional historiographic accounts to explore the cultural and political history of the 1950s, '60s and '70s, including the Montgomery Bus Boycott, civil rights, the Vietnam War and political assassinations.

AMH 4319 Crime and Punishment in American History 3 Credits
Grading Scheme: Letter Grade
Historical development of crime and criminal justice in America with particular attention to the ways in which social, political and cultural forces have shaped legal institutions during the past four centuries.

AMH 4373 History of American Capitalism 3 Credits
Grading Scheme: Letter Grade
Political, economic and social contours of American capitalism from the late 18th century through the near present.
Prerequisite: 6 credits of history.

AMH 4402 The South to 1865 3 Credits
Grading Scheme: Letter Grade
Development of southern culture from the earliest settlements to the development of southern nationalism. (H)
Prerequisite: 6 credits of history.
Attributes: General Education - Humanities

AMH 4403 The South Since 1860 3 Credits
Grading Scheme: Letter Grade
Impact of Civil War and Reconstruction, economic, political and social development of the new South.
Prerequisite: 6 credits of history.

AMH 4550 Origins of the U.S. Constitution 3 Credits
Grading Scheme: Letter Grade
The colonial origins, drafting and ratification of the U.S. Constitution and its application through 1819. Examines the political, economic and intellectual influences that helped shape the Constitutional system designed by the framers.

AMH 4571 American Civil War and Reconstruction 3 Credits
Grading Scheme: Letter Grade
Analyzes the political, social and economic transformation of the Union, highlighting the Presidency of Lincoln, the evolution of federal policies of Unionist loyalty and slave emancipation, the development of Union military leadership, and the tragically unsuccessful post-war attempt to provide justice to the freed people. (H) (WR)
Prerequisite: refer to the department
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

AMH 4575 Civil Rights Movements 3 Credits
Grading Scheme: Letter Grade
Introduces the origins, development and legacies of the African-American civil rights and black movements in America, focusing primarily on the period between 1945 and 1980.

AMH 4612 Sport and American Culture 3 Credits
Grading Scheme: Letter Grade
Explores the place of sport in American society and culture from the time of European settlement to the present. Uses sport, in its institutional and recreational forms, to illuminate broader historical themes, urban and community life, economic development, social relationship, social mobility and popular and cultural processes.
Prerequisite: 6 credits of history.

AMH 4930 History Research Seminar: US 3 Credits
Grading Scheme: Letter Grade
Introduces the historiography of a specific topic and production of a substantial research paper based on primary source evidence. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

ASH 3223 History of the Modern Middle East 3 Credits
Grading Scheme: Letter Grade
Surveys the history, politics and society of the Middle East from the early 19th century until the present day. Topics include transformation of Islamic empire to post-colonial states, development of collective identities, the formation of new social classes and changing gender relations.
Prerequisite: 3 credits of history.

ASH 3303 Modern Korea: Power and Protest 3 Credits
Grading Scheme: Letter Grade
Examines the political, social and economic transformation of modern Korean society from 1800. (H and N)
Attributes: General Education - Humanities, General Education - International

ASH 3442 Modern Japan 3 Credits
Grading Scheme: Letter Grade
Surveys the social, political and economic transformation of modern Japanese society from 1800. (H and N)
Prerequisite: 3 credits of history.

ASH 3931 Special Topics in Asian History 3 Credits
Grading Scheme: Letter Grade
Variable topics in the history and culture of Asia.
Prerequisite: 3 credits of history.
ASH 4930 History Research Seminar: Asia 3 Credits
Grading Scheme: Letter Grade
Variable topics seminar with two distinct goals: introduce the historiography of a specific topic and produce a substantial research paper based on primary source evidence.

EUH 2000 Western Civilization: From Early Times to the Middle Ages 3 Credits
Grading Scheme: Letter Grade
Introduces western civilization that studies the early cultures in Mesopotamia and Egypt, the Minoan-Mycenaean society, Greece, the Hellenistic period and the Roman Empire to the Barbarian invasions. (H and N)
Attributes: General Education - Humanities, General Education - International

EUH 2001 Western Civilization: From the Middle Ages to the Eighteenth Century 3 Credits
Grading Scheme: Letter Grade
Treats feudal, urban and religious institutions in Medieval society, Renaissance and Reformation, the Thirty Years’ War, the Age of Louis XIV and the Age of Reason. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

EUH 2002 Western Civilization: From the Eighteenth Century to the Present 3 Credits
Grading Scheme: Letter Grade
Explores 18th-century revolutions, Napoleon, romanticism and reaction, national unifications and imperialism, competing ideologies, the world wars and Europe in the postwar era. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

EUH 3022 The Early Middle Ages 3 Credits
Grading Scheme: Letter Grade
Studies the formation of the Medieval West from the dissolution of the Roman Empire to the year 1000 A.D. Emphasizes the ways in which Roman, Christian and Germanic traditions fused to form a new civilization. (H and N) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

EUH 3121 The Early Middle Ages 3 Credits
Grading Scheme: Letter Grade
Examines intellectual developments that have shaped modern views of human nature, society, the natural world and God.

EUH 3121 The Early Middle Ages 3 Credits
Grading Scheme: Letter Grade
Studies the formation of the Medieval West from the dissolution of the Roman Empire to the year 1000 A.D. Emphasizes the ways in which Roman, Christian and Germanic traditions fused to form a new civilization. (H and N) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

EUH 3122 The High Middle Ages 3 Credits
Grading Scheme: Letter Grade
Examines European civilization from the 11th to the 14th centuries. Contrasts the urban and rural, northern and southern forms of economic social, cultural and political phenomena. (H and N) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

EUH 3140 Renaissance 3 Credits
Grading Scheme: Letter Grade
Interpretations of the Renaissance: Italy’s political, literary and artistic developments. The northern Renaissance and Christian Humanism. (H and N) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

EUH 3144 The Reformation 3 Credits
Grading Scheme: Letter Grade
Pays particular attention to the broad impact of religion on the social, cultural and political developments of the period. (H and N)
Attributes: General Education - Humanities, General Education - International

EUH 3180 Medieval Magic 3 Credits
Grading Scheme: Letter Grade
Assessment of the cultural, religious and political implications of the supernatural in late antique, medieval and early modern European society (400-1700 CE). Besides addressing the role of scapegoating in the persecution of marginalized groups, it suggests how belief in demonic magic co-existed with Christian belief in miracles.
Prerequisite: 3 credits of history.

EUH 3182 Medieval Archaeology 3 Credits
Grading Scheme: Letter Grade
Methods and theory of archaeology with particular emphasis on the Medieval period and the relation between the written and the archaeological evidence.

EUH 3202 Early Modern Europe, 1500-1700 3 Credits
Grading Scheme: Letter Grade
Development of Europe as it emerged from Middle Ages focusing on the growth of the modern state and the critical changes in politics, science, economics and religion. (H and N)
Attributes: General Education - Humanities, General Education - International
EUH 3204 Eighteenth-Century Europe 3 Credits
Grading Scheme: Letter Grade
Studies European politics, economics, society, ideas and institutions in the 18th century, including early modern forms of governance, the Enlightenment and the Age of the Revolution. (H and N) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

EUH 3205 Nineteenth-Century Europe 3 Credits
Grading Scheme: Letter Grade
Studies European politics, society, ideas and institutions, including the French Revolution, emergence of modern politics, upheavals of 1848 and 1871, rise of nationalism, urbanization and socialism. (H and N) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

EUH 3206 Twentieth-Century Europe 3 Credits
Grading Scheme: Letter Grade
Origins and outcomes of the two world wars, the varieties of European social and political ideologies, and the ever-changing pattern of national and trans-national identities. (H and N) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

EUH 3300 Byzantine History 3 Credits
Grading Scheme: Letter Grade
Surveys Byzantine history with emphasis on political, economic and religious institutions and the role of Byzantium in medieval Europe.

EUH 3323 Medieval Eastern Europe 3 Credits
Grading Scheme: Letter Grade
Eastern Europe from late Antiquity to the 15th century. Examines the major problems of medieval history, with special emphasis on the role of the region in the history of the continent.

EUH 3330 Late Modern Central and Eastern Europe 3 Credits
Grading Scheme: Letter Grade
Cultural, social and political survey of the Hapsburg Monarchy, Poland, and the Balkans from 1700 to 1918. Topics include absolutism, revolutionary nationalism, modernization, cultural flowering, ethnic violence, socialism and WWI.

EUH 3383 Pagans, Christians, Barbarians: the World of Late Antiquity 3 Credits
Grading Scheme: Letter Grade
Surveys the history of the Mediterranean region from the second to the 7th century with a particular focus on religious and cultural developments that marked the rise of a Christian Roman Empire.

EUH 3432 Early Medieval Italy 3 Credits
Grading Scheme: Letter Grade
Surveys economic, social and political developments in the Italian peninsula between 800 and 1100.
Prerequisite: 3 credits of history.

EUH 3473 Medieval Germany 3 Credits
Grading Scheme: Letter Grade
Surveys economic, social and political developments in Central Europe during the Middle Ages (500-1350).
Prerequisite: 3 credits of history.

EUH 3500 Medieval England 3 Credits
Grading Scheme: Letter Grade
Creation of a national society and culture in the time of England's constitutional development (to the 16th century). (H and N) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

EUH 3501 Early Modern England 3 Credits
Grading Scheme: Letter Grade
Development of a revolutionary tradition and of a parliamentary monarch in the period of England's cultural flowering (16th to 18th centuries). (H and N) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

EUH 3502 Modern Britain 3 Credits
Grading Scheme: Letter Grade
Social, political and economic developments in the 19th and 20th centuries. (H and N) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

EUH 3504 Britain before 1000 CE 3 Credits
Grading Scheme: Letter Grade
Examines the history of Britain from prehistoric times through the Roman and Anglo-Saxon conquests using historical, archaeological, literary and art historical sources. Studies political events, cultural and religious change and economic developments.
Prerequisite: 3 credits of history.

EUH 3530 Colonies to Commonwealth: the History of the British Empire 3 Credits
Grading Scheme: Letter Grade
History of the British Empire from its origins in Ireland to the decolonization movements of the 20th century. Examines not only the ways in which the British established and extended the empire through the political, military, economic and cultural spheres, but also resistance to empire.

EUH 3533 Ireland in the British Empire 3 Credits
Grading Scheme: Letter Grade
Place of Ireland in the British Empire and the imperial experiences of the Irish people. Covers the main themes of Irish history from the Tudor conquest to the establishment of the Irish Republic, all the while being attuned to the broader imperial context.

EUH 3564 Central and Eastern Europe in the 20th Century 3 Credits
Grading Scheme: Letter Grade
Covers the collapse of Austro-Hungary, its successor states in the interwar period, World War II, the Holocaust, the rise and fall of Communism in Central and Eastern Europe.

EUH 3575 Imperial Russia, 1700-1914 3 Credits
Grading Scheme: Letter Grade
Major institutional, political, social and economic issues confronting the Russian state, drawing on source materials and on Russian literature to illustrate these issues. (H and N)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, General Education - International
EUH 3576 Twentieth-Century Russia to 1953 3 Credits
Grading Scheme: Letter Grade
Internal political, economic and social history of 20th-century Russia, including the impact of modernization, the rise of radical ideologies, the Bolshevik revolution and the evolution of the Soviet Union. (H and N) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

EUH 3605 Science, History and Change 3 Credits
Grading Scheme: Letter Grade
Examines the historical and cultural relations of ideas about science and history as they converge on notions of nature, reason, time, causality, change, evolution, progress, continuity and revolution, from antiquity to Einstein. (H)
Prerequisite: 3 credits of history.

EUH 3670 Jewish History from 711 to 1492 3 Credits
Grading Scheme: Letter Grade
Surveys major historical developments in medieval Jewish society under Islam and western Christendom. Examines the interaction of Jews with the majority culture, political structure and economy, as well as changing cultural trends.

EUH 3671 Jewish History from 1492-1750 3 Credits
Grading Scheme: Letter Grade
Surveys major trends in Jewish society from the 15th to the 18th century, focusing on community structures and interfaith relations.
Prerequisite: 3 credits of history.

EUH 3672 Modern European Jewish History 3 Credits
Grading Scheme: Letter Grade
Major events and themes of the Jews in Europe from 1650-1945.
Prerequisite: 3 credits of history.

EUH 3683 The History of Consumption 3 Credits
Grading Scheme: Letter Grade
Combines economic, social and political history to study the rise of consumer culture from the 18th century to the present. Primarily focused on Europe but includes the United States in the 20th century.

EUH 3931 Special Topics in European History 3-9 Credits
Grading Scheme: Letter Grade
Selected variable topics in the history and culture of Europe.
Prerequisite: 3 credits of history.

EUH 4123 Holy War in the Middle Ages 3 Credits
Grading Scheme: Letter Grade
Examines the shifting terrain of historical and theological conceptions of war and holy war in the middle ages. Divided into four distinct sections: theological foundations, early medieval conceptions of war and community, the Crusades and changes in the high and late middle ages.
Prerequisite: 6 credits of history.

EUH 4185 The Viking Experience 3 Credits
Grading Scheme: Letter Grade
Scandinavian medieval history, including an examination of the profound changes brought by Christianization and the rise of the medieval states.
Prerequisite: 6 credits of history.

EUH 4186 Medieval Archaeology Field Practicum 6 Credits
Grading Scheme: Letter Grade
Introduces medieval archaeology as a historical discipline and an inquiry into various approaches to the interpretation of material culture.

EUH 4280 History of the Second World War 3 Credits
Grading Scheme: Letter Grade
Analyzes World War II, covering the origins, politics, resistance movements, grand strategy and consequences. (H) (WR)
Prerequisite: 6 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

EUH 4282 History of Cold War Europe 3 Credits
Grading Scheme: Letter Grade
Cold War era in Europe, 1945-1991; emphasizes origins, social, economic and political aspects, and the historical consequences on Europe.
Prerequisite: 6 credits of history.

EUH 4310 History of Medieval Spain 3 Credits
Grading Scheme: Letter Grade
History of the Iberian Peninsula between Late Antiquity and the end of the Reconquista. Emphasizes Muslim Spain, the Christian kingdoms in the North, Christian-Muslim-Jewish interactions, cultural development and social differentiation.
Prerequisite: 6 credits of history.

EUH 4311 Jews of Medieval Spain 3 Credits
Grading Scheme: Letter Grade
Explores Jewish life and culture in the Iberian Peninsula from the early middle ages through the Expulsion of 1492. Analyzes interfaith relations and the role Jews played in shaping Spanish society and culture.
Prerequisite: 6 credits of history.

EUH 4463 Nineteenth-Century Germany 3 Credits
Grading Scheme: Letter Grade
Germany's political development toward nationhood in the 19th century, and the imperial policies of Bismarck and Wilhelm II. The social history of specific groups in German society. Germany's role in the outbreak of WW I. Offered alternate years. (H and N) (WR)
Prerequisite: 6 credits of history.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

EUH 4464 Twentieth Century Germany 3 Credits
Grading Scheme: Letter Grade
Collapse of the monarchy and tribulations of the Weimar Republic. Examines Hitler's seizure of power, and of social, political, and ideological aspects of the Third Reich. The two Germanies to the fall of the Berlin Wall. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

EUH 4563 Habsburg Monarchy 3 Credits
Grading Scheme: Letter Grade
Studies the multi-ethnic dynastic state from formation through revitalization under Maria Theresa, conservative retrenchment under Metternich, and the challenge of nationalism from its peoples, to Austro-Hungary's collapse in WW I.
Prerequisite: 6 credits of history.

EUH 4584 Medieval Russia 3 Credits
Grading Scheme: Letter Grade
Introduces the history of Eastern Europe from ca. 500 to 1584. Focuses on interconnected themes of state formation, trade, conversion to Christianity and the impact of the Mongol conquest.
Prerequisite: 6 credits of history.
EUH 4610 Society and the Sexes in Modern Europe, 18C to the Present 3 Credits
Grading Scheme: Letter Grade
Gendered analysis of great historical events, political movements and ideologies. Other topics of social and cultural history are discussed.
Prerequisite: 6 credits of history.

EUH 4664 Modern European Revolutions: 1789-1989 3 Credits
Grading Scheme: Letter Grade
History of key European revolutions that occurred between 1789 and 1989. Emphasizes the economic, cultural and political conditions that gave rise to and accompanied the development of these watershed events.
Prerequisite: 3 credits of history.

EUH 4665 Terrorism and Political Violence in Post-War Europe: 1945-2000 3 Credits
Grading Scheme: Letter Grade
Provides a multi-country historical survey of the role terrorism and violence have played in European affairs in the post-Second World War era from 1945 to 2000.
Prerequisite: 6 credits of history.

EUH 4930 History Research Seminar: Europe 3 Credits
Grading Scheme: Letter Grade
Through rotating in content, this seminar has two distinct goals: introduce the historiography of a specific topic and produce a substantial research paper based on primary source evidence.
Prerequisite: History major with senior standing.

HIS 3454 Racial Theories in Europe and the U.S. 3 Credits
Grading Scheme: Letter Grade
Introduces history of racial ideas and images from ancient to modern period.
Prerequisite: 3 credits of history.

HIS 3460 History of Science and Religion 3 Credits
Grading Scheme: Letter Grade
Surveys the interaction between the religious and scientific communities in the West from the time of the early church to the present.

HIS 3463 Introduction, History of Science: Origins to Newton 3 Credits
Grading Scheme: Letter Grade
Introduces the emergence of scientific thought from its mythopoeic beginnings to the time of Newton. Focuses on the interrelationships among science, philosophy and religion in Greece, Islam and the Latin West. Emphasizes Copernicus, Kepler, Galileo, Descartes and Newton. (H and N)
Attributes: General Education - Humanities, General Education - International

HIS 3464 Introduction, History of Science: Renaissance to the Present 3 Credits
Grading Scheme: Letter Grade
General survey of the major issues in physical and biological science from the time of Galileo to the present. Emphasizes the impact of scientific development on society, culture and thought. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 2000 Words of Writing Requirement

HIS 3465 The Scientific Revolution 3 Credits
Grading Scheme: Letter Grade
Emergence of modern science from Copernicus to Newton exploring the notions of empiricism, experiment, mechanism, materialism, and the historical concepts of continuity, change, revolution and progress. (H) (WR)
Prerequisite: 3 credits of history.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

HIS 3483 The Nuclear Age 3 Credits
Grading Scheme: Letter Grade
History of the changing perception of the political and social significance of science since the discovery of nuclear fission.
Prerequisite: 3 credits of history.

HIS 3495 Evolution of Infectious Diseases 3 Credits
Grading Scheme: Letter Grade
Emergence of new infectious diseases in a historical and cultural context. Emphasizes the history of well-documented infectious diseases such as leprosy, bubonic plague, cholera, smallpox, yellow fever, tuberculosis, influenza, polio, venereal disease and AIDS, as well as the more recent Ebola viral-type outbreaks. (S)
Prerequisite: 3 credits of history.
Attributes: General Education - Social Science

HIS 3501 The History of Modern Biological Thought 3 Credits
Grading Scheme: Letter Grade
Selected areas of modern biological thought after 1800. Topics include Darwin, genetics, the Evolutionary Synthesis, molecular biology and sociobiology. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

HIS 3610 History and Public Policy 3 Credits
Grading Scheme: Letter Grade
Examines the role of historical analysis and argument in the policy-making process. Introduces the ways in which decision-makers use and misuse history, and considers what it means to take history into account in public policy. Uses specific contemporary policy problems to illustrate the challenges of using history effectively.
Prerequisite: 3 credits of history.

HIS 3931 Special Topics 3 Credits
Grading Scheme: Letter Grade
Special topics in history. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

HIS 3942 History Practicum 3 Credits
Grading Scheme: Letter Grade
Learn the elements of the professional study of history: the critical reading of sources (primary and secondary); research skills; and a variety of historical methodologies.
Prerequisite: 3 credits of history.

HIS 4472 History of Evolutionary Thought from the Enlightenment to the Present 3 Credits
Grading Scheme: Letter Grade
Advanced history of science examines the history of evolutionary thought from the Enlightenment to the present. Emphasizes the specific development of Darwinian evolutionary theory and the lives of key theorists such as Charles Darwin and Alfred Russel Wallace. Considers sociopolitical and national contexts.
Prerequisite: some background in evolutionary science or history of science recommended.
HIS 4905 Individual Study 1-3 Credits  
Grading Scheme: Letter Grade  
Individual study in history. (WR)  
Prerequisite: 6 credits of history.  
Attributes: Satisfies 6000 Words of Writing Requirement

HIS 4911 Undergraduate Research in History 0-3 Credits  
Grading Scheme: Letter Grade  
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.  
Prerequisite: History major of senior standing.

HIS 4930 History Research Seminar 3 Credits  
Grading Scheme: Letter Grade  
Through rotating in content, this seminar has two distinct goals: introduce the historiography of a specific topic and produce a substantial research paper based on primary source evidence.  
Prerequisite: History major of senior standing.

HIS 4944 Internship in the Practice of History 1-3 Credits  
Grading Scheme: Letter Grade  
Gives history majors practical experience in history-related institutions and organizations, such as archives, historical societies, museums and university presses.  
Prerequisite: history major and undergraduate coordinator permission.

HIS 4956 Overseas Studies 1-18 Credits  
Grading Scheme: Letter Grade  
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.  
Prerequisite: undergraduate advisor permission.

HIS 4970 Senior Thesis 1-3 Credits  
Grading Scheme: Letter Grade  
Required for potential award of high or highest honors. Directed research leading to the submission of an interpretive and analytical, rather than merely narrative, essay of approximately 40 pages in length. The paper may be based on research into a particular topic for which there is accessible source materials or it may involve a thorough critical assessment of a significant historical controversy or historiographical issue. Topics must be approved by the department honors coordinator. Registration for two semesters' work is required in order to allow adequate attention to the project. (WR)  
Prerequisite: senior standing and department permission before registering.  
Attributes: Satisfies 6000 Words of Writing Requirement

HIS 4971 History Honors Workshop 3 Credits  
Grading Scheme: Letter Grade  
Assists with all phases of the senior thesis, including project design, research, writing, and oral presentation. Students complete assignments that build toward a draft of a preliminary chapter or the introduction. The workshop provides a collaborative environment in which to pursue individual thesis projects.  
Prerequisite: acceptance into the History Honors program.

HPS 3003 Perspectives on Science and Mathematics 3 Credits  
Grading Scheme: Letter Grade  
Explores the different ways that scientists and mathematicians since the 17th century have explained the workings of the natural world. (H) (WR)  
Prerequisite: UFTeach Step 1.  
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

IDH 2931 Honors Seminar 3 Credits  
Grading Scheme: Letter Grade  
Special topics restricted to those in the university-wide Honors Program. (WR)  
Attributes: Satisfies 6000 Words of Writing Requirement

LAH 2020 Introduction to Latin American History 3 Credits  
Grading Scheme: Letter Grade  
Introduces Latin American civilization, from the Conquest to the present, emphasizing select topics in social, political and cultural history. (H and N)  
Attributes: General Education - Humanities, General Education - International

LAH 3100 Emergence of Latin American Nations 3 Credits  
Grading Scheme: Letter Grade  
The last phase of the colonial regime, movement for independence, and problems of nation-building to the end of the 19th century. (H and N) (WR)  
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

LAH 3130 Colonial Latin America 3 Credits  
Grading Scheme: Letter Grade  
Surveys the formation of Spanish and Portuguese imperial systems and colonial societies in America in the 16th, 17th and 18th centuries. (H and N) (WR)  
Prerequisite: 3 credits of history.  
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

LAH 3300 Contemporary Latin America 3 Credits  
Grading Scheme: Letter Grade  
Contemporary challenges to traditional structures; revolution and evolution. (H and N) (WR)  
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

LAH 3470 Introduction to Caribbean History 3 Credits  
Grading Scheme: Letter Grade  
The main issues and debates in Caribbean history from the time of Columbus to the mid-20th century.  
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

LAH 3725 Race, Religion, and Revolution in the Black Caribbean 3 Credits  
Grading Scheme: Letter Grade  
Explores the history of Jamaica, Haiti, the Dominican Republic and the Miskito Coast of Nicaragua. Explains the emergence of colonial and neocolonial political systems, the concept of race in relationship to slavery and global capitalism as well as the role of religion in revolutionary actions.  
Prerequisite: sophomore standing or higher.

LAH 3741 Revolution in the Americas 3 Credits  
Grading Scheme: Letter Grade  
Historical analysis of the armed and unarmed revolutionary movements of 20th century Latin America, from Mexico to Chile.  
Prerequisite: 3 credits of history.

LAH 3931 Special Topics in Latin American History 3-9 Credits  
Grading Scheme: Letter Grade  
Selected, variable topics in Latin American History.  
Prerequisite: 3 credits of history.
LAH 4433 Modern Mexico 3 Credits  
Grading Scheme: Letter Grade  
Aftermath of independence and war with U.S., the Reform and Maximillian, Porfiriat, Mexican Revolution and contemporary trends. (H and N) (WR)  
Prerequisite: 6 credits of history.  
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

LAH 4471 Caribbean History to 1800 3 Credits  
Grading Scheme: Letter Grade  
Social, economic and political history of the West Indies and the Circum-Caribbean region to 1800, with particular emphasis on slave society. (H and N) (WR)  
Prerequisite: 6 credits of history.  
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

LAH 4472 The Caribbean, Nineteenth and Twentieth Centuries 3 Credits  
Grading Scheme: Letter Grade  
Social history of the modern Caribbean: slave emancipation and decolonization; race relations and black consciousness; labor, culture, and economic change. (H and N) (WR)  
Prerequisite: 6 credits of history.  
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

LAH 4473 France in the Caribbean 3 Credits  
Grading Scheme: Letter Grade  
Making of the modern Francophone Caribbean. Introduce a range of political, economic and cultural phenomena from buccaneering and voodoo to tourism and transnational identity. Emphasizes slave plantation society, the Haitian Revolution and the black consciousness movements of the 20th century.

LAH 4520 Andean Nations 3 Credits  
Grading Scheme: Letter Grade  
Anthropological and political history of the postcolonial Andean region, including the republics of Venezuela, Colombia, Ecuador, Peru and Bolivia. (H and N) (WR)  
Prerequisite: 6 credits of history.  
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

LAH 4602 The Conquest of Amazonia 3 Credits  
Grading Scheme: Letter Grade  
Historical analysis of the Amazon. Need no previous knowledge of Latin American history; for those interested in the current issues confronting the region. (H and N)  

LAH 4630 Brazil after 1750 3 Credits  
Grading Scheme: Letter Grade  
Late and colonial reform; independence and origins and achievements of Brazilian monarchy; modernization and neo-colonialism; slavery, the military, and emergence of oligarchical republic; legacy of dictatorship and populism. (H and N) (WR)  
Prerequisite: 6 credits of history.  
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

LAH 4730 Science and Technology in Latin American, 1492-Present 3 Credits  
Grading Scheme: Letter Grade  
Introduces the diffusion, acculturation and adaption of scientific ideas, practices and technology by exploring concepts within Latin America.  
Prerequisite: 3 credits of history.

LAH 4930 History Research Seminar: Latin America 3 Credits  
Grading Scheme: Letter Grade  
Through rotating in content, this seminar has two distinct goals: introduce the historiography of a specific topic and produce a substantial research paper based on primary source evidence.  
Prerequisite: History major with senior standing.

MEM 3003 Introduction to the Medieval World 3 Credits  
Grading Scheme: Letter Grade  
Chronological and topical introduction to history of the medieval millennium (400-1400). (H and N)  
Attributes: General Education - Humanities, General Education - International

MEM 4931 Special Topics in Medieval and Early Modern Studies 1-3 Credits  
Grading Scheme: Letter Grade  
Advanced study in medieval and early modern studies.

WOH 2040 The World in the Twentieth Century 3 Credits  
Grading Scheme: Letter Grade  
Surveys major developments in the history of the twentieth century, focusing on the increasing world interconnections and interdependency. Themes include imperialism, nationalism and decolonization, the two world wars and the interwar period, the Cold War, new social movements and globalization and the international economy.

WOH 3043 The World Since 1945 3 Credits  
Grading Scheme: Letter Grade  
Overview of the contemporary world, while trying to promote an awareness of the striking diversity of views that characterize and shape that world. Covers major issues in the post 1945 world, the Cold War, colonialism and decolonization. (H and N)  
Attributes: General Education - Humanities, General Education - International

WOH 3203 Africans in World History 3 Credits  
Grading Scheme: Letter Grade  
Critically examines the history of Africans outside Africa; emphasizes the Atlantic world and the Americas and to connections forged between peoples of African descent and broader movements in world history. Themes include slavery and anti-slavery, diaspora formation, the history of ideas, revolution, decolonization and civil rights struggles.  
Prerequisite: 3 credits of history.

WOH 3205 History of Human Rights 3 Credits  
Grading Scheme: Letter Grade  
Explores the global history of human rights, looking at the bases of those rights, including traditions, practices and international declarations and their evolution over time. At the end of the semester, groups present case reports that apply human rights principles to a variety of historical moments.  
Prerequisite: 3 credits of history.

WOH 3233 History of Christianity 3 Credits  
Grading Scheme: Letter Grade  
Surveys the history of Christianity, c. 100 to c. 1300, from its status as a persecuted minority religion of the Roman Empire to its position of dominance in the civilizations of medieval Europe and Byzantium.
WOH 3239 History of Christianity 2 3 Credits
Grading Scheme: Letter Grade
Developments in the history of Christianity from the 14th to the 18th centuries. Topics include the crises of the 14th century (impact of the Black Death, Avignon papacy and schism), conciliarism, the Reformation movements, expansion of Christianity abroad and the impact of the Enlightenment on faith.
Prerequisite: 3 credits of history.

WOH 3241 The Vietnam War 3 Credits
Grading Scheme: Letter Grade
Examination of the origins, course, and consequences of the conflict in Vietnam, from American and various Vietnamese perspectives, and including the roles of other participants, such as the French, Chinese, and Soviets.
Prerequisite: 3 credits of history.

WOH 3242 The United States and the Contemporary World 3 Credits
Grading Scheme: Letter Grade
Traces the historical development of issues in contemporary international politics. Case studies may include the international economy, terrorism, change and conflict in the Middle East, the drug trade, nuclear and biological weapons, climate change and globalization.

WOH 3404 Global History of Energy 3 Credits
Grading Scheme: Letter Grade
Examines the relationship of human society to energy. Global in size and scope, a large swath of human history on several continents is covered.
Prerequisite: 3 credits in AFH, or AMH, or ASH, or EUH, or HIS, or LAH or WOH.

WOH 3931 Special Topics in World History 3 Credits
Grading Scheme: Letter Grade
Selected variable topics in world history.
Prerequisite: 3 credits in AFH, ASH, AMH, EUH, HIS, LAH or WOH.

WOH 4204 Modern Masculinities in Global Perspective 3 Credits
Grading Scheme: Letter Grade
Comparative, global and historical approach to the study of masculinity, drawing from a burgeoning interdisciplinary scholarship. Study ranges across the world and examines masculinities in the Americas, Asia and Europe with special attention to case studies such as Iran, the United Kingdom, Japan and the United States.
Prerequisite: 3 credits of history.

WOH 4234 Atlantic Exchanges from Columbus to NATO 3 Credits
Grading Scheme: Letter Grade
History of the Atlantic world, demonstrating that oceans have been connective forces that facilitate the exchange of commodities, capital and culture across vast distances. Topics include the history of the central and northern Atlantic during the age of Imperialism.

WOH 4243 Empires, Nationalism, and Revolution 1945-1994 3 Credits
Grading Scheme: Letter Grade
Adopting a world history approach to post-World War II era, explores how decolonization intersected with the Cold War in Africa, Asia and Latin America.
Prerequisite: 6 credits of history.

WOH 4254 Nations and Nationalism 3 Credits
Grading Scheme: Letter Grade
Studies the modern genesis of the nation and the nation-state in the Americas, Europe, Asia and Africa. Emphasizes the relationship between European Imperialism and colonial and postcolonial nationalisms around the globe.

WOH 4264 Empires and Imperialism 3 Credits
Grading Scheme: Letter Grade
Introduces the history of early modern and modern empires and imperialisms in Europe, Africa, the Americas and Asia.

WOH 4930 History Research Seminar: World History 3 Credits
Grading Scheme: Letter Grade
Introduces the historiography of a specific topic; requires a substantial research paper based on primary source evidence.
Prerequisite: History major.

Honors Program

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses

For information on honors courses offered each semester, students should consult the schedule of courses or the honors website.
More Info (http://www.honors.ufl.edu/current/courses/)

IDH 1700 Honors Professional Development 1 Credit
Grading Scheme: Letter Grade
Develop Career Related Skills to Succeed At Uf and Beyond.

IDH 2930 (Un)common read 1 Credit
Grading Scheme: Letter Grade
Discussion oriented courses centered around a single book.

IDH 2931 Honors Seminar 3 Credits
Grading Scheme: Letter Grade
Special topics restricted to those in the university-wide Honors Program.
Attributes: Satisfies 6000 Words of Writing Requirement
(WR)

IDH 3116 Honors Great Political and Social Thought 2 Credits
Grading Scheme: Letter Grade
Examines political, social, legal, ethical and scientific thought through history via the study of ancient and modern texts, film and other media. Close readings of texts develop critical thinking and analytical skills. Restricted to those in the honors program.

IDH 3931 Interdisciplinary Junior Honors 1-3 Credits
Grading Scheme: Letter Grade
Special topics restricted to those in the university-wide honors program. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

IDH 4715 Professional Development Strategies 1 Credit
Grading Scheme: S/U
Helps select undergraduate students identify and compete for the most prestigious career-making scholarships by determining the activities and ideas most important and attractive to selection committees. (S-U)

IDH 4903 Honors Tutorial 1 Credit
Grading Scheme: Letter Grade
Must be taken in conjunction with other courses at the 3000 and 4000 level. Students must secure instructor permission of the course to which they wish to add this credit.
Prerequisite: honors program member.
Horticultural Sciences

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.

More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

The Horticultural Sciences Department is a team of faculty, staff, and students dedicated to improving fruit and vegetable production for the benefit of farmers and consumers. Florida's climatic diversity and the facilities at UF provide opportunities for cutting-edge research in plant breeding & genetics, plant and environmental physiology, fruit & vegetable production, postharvest physiology, biochemistry, and other disciplines. Curriculum
- Combination Degrees
- Horticultural Science
- Horticultural Science Minor
- Horticultural Therapy Certificate
- Organic and Sustainable Crop Production Minor
- Plant Molecular and Cellular Biology Minor

Courses

FRC 1010 Growing Fruit for Fun and Profit 1 Credit
Grading Scheme: Letter Grade
Especially for non-majors who desire a concise mini-course in fruit growing and marketing. Fruit crops include citrus, pecan, blueberry, strawberry, peach, grape, apple, mango and avocado.

FRC 3212 Introduction to Citrus Culture and Production 3 Credits
Grading Scheme: Letter Grade
Citrus botany, scion and rootstock selection, site selection, fruit quality grove design and production practices.

FRC 3252 Tropical and Subtropical Fruits 2 Credits
Grading Scheme: Letter Grade
Culture and management of important tropical and subtropical fruit, including avocado, banana, mango, papaya, loquat, persimmon, pineapple, coffee and others.

FRC 3274 Tree and Small Fruit Production 3 Credits
Grading Scheme: Letter Grade
Current principles and cultural practices in deciduous tree, bush and vine crops. Emphasizes practical aspects of production.

FRC 3802 Viticulture for Table Grapes and Wine 2 Credits
Grading Scheme: Letter Grade
Teaches current practices for establishing a vineyard and maintaining its health and productivity into the final quality of the grape. Topics covered include grape varietal selection, site selection and preparation, vine growth, training and trellis systems, and equipment used in vineyard and wine production.

FRC 3010 Growing Fruit for Fun and Profit 1 Credit
Grading Scheme: Letter Grade
Especially for non-majors who desire a concise mini-course in fruit growing and marketing. Fruit crops include citrus, pecan, blueberry, strawberry, peach, grape, apple, mango and avocado.

FRC 1010 Growing Fruit for Fun and Profit 1 Credit
Grading Scheme: Letter Grade
Especially for non-majors who desire a concise mini-course in fruit growing and marketing. Fruit crops include citrus, pecan, blueberry, strawberry, peach, grape, apple, mango and avocado.

FRC 3212 Introduction to Citrus Culture and Production 3 Credits
Grading Scheme: Letter Grade
Citrus botany, scion and rootstock selection, site selection, fruit quality grove design and production practices.

FRC 3252 Tropical and Subtropical Fruits 2 Credits
Grading Scheme: Letter Grade
Culture and management of important tropical and subtropical fruit, including avocado, banana, mango, papaya, loquat, persimmon, pineapple, coffee and others.

FRC 3274 Tree and Small Fruit Production 3 Credits
Grading Scheme: Letter Grade
Current principles and cultural practices in deciduous tree, bush and vine crops. Emphasizes practical aspects of production.

FRC 3802 Viticulture for Table Grapes and Wine 2 Credits
Grading Scheme: Letter Grade
Teaches current practices for establishing a vineyard and maintaining its health and productivity into the final quality of the grape. Topics covered include grape varietal selection, site selection and preparation, vine growth, training and trellis systems, and equipment used in vineyard and wine production.

FRC 3010 Growing Fruit for Fun and Profit 1 Credit
Grading Scheme: Letter Grade
Especially for non-majors who desire a concise mini-course in fruit growing and marketing. Fruit crops include citrus, pecan, blueberry, strawberry, peach, grape, apple, mango and avocado.
HOS 3285 The Organic Debate: Organic Agriculture Development & Regulations 1 Credit
Grading Scheme: Letter Grade
Organic farming is a rapidly developing production system. This introductory course provides a critical analysis of organic agriculture growth, consumer perceptions, and regulations at the national and international level. This course also focuses on organic agriculture transdisciplinary innovations and challenges in advancing environmental, economic, and social sustainability of food production.
Prerequisite: BSC 2005 or equivalent.

HOS 3305 Introduction to Plant Molecular Biology 3 Credits
Grading Scheme: Letter Grade
Introduces plant molecular biology and genetic engineering, emphasizing plant genes and genomes, transformation of plants and basic molecular biology.
Prerequisite: APB 2150 or BOT 2010C or BSC 2010.

HOS 3430C Nutrition of Horticultural Crops 3 Credits
Grading Scheme: Letter Grade
Study and discussion of physiological, biochemical and environmental factors influencing nutritional status and productivity of horticultural crops.

HOS 4241C Genetics and Breeding of Vegetable Crops 3 Credits
Grading Scheme: Letter Grade
Traditional and molecular breeding methods for vegetable crops and the influence of scientific research, government policies, industry needs, and consumer preferences on vegetable crop improvement.
Prerequisite: AGR 3303.

HOS 4283C Advanced Organic and Sustainable Crop Production 3 Credits
Grading Scheme: Letter Grade
Intensive examination of the methods and techniques necessary for organic and sustainable production and marketing of horticultural products.
Prerequisite: HOS 3281C.

HOS 4304 Horticultural Physiology 3 Credits
Grading Scheme: Letter Grade
Basic concepts and processes of physiology as they relate to plant growth and development.
Prerequisite: BOT 2010C or BSC 2010.

HOS 4313C Laboratory Methods in Plant Molecular Biology 2 Credits
Grading Scheme: Letter Grade
Hands-on laboratory experience in plant molecular biology. Utilizing current techniques for isolation, purification and cloning of plant DNA, students learn many basic techniques in plant biotechnology.
Prerequisite: (AGR 3303 or HOS 3305) and PCB 3063.

HOS 4332C Principles of Postharvest Horticulture 3 Credits
Grading Scheme: Letter Grade
Biological principles involved in harvesting, grading, packaging, transportation, and marketing horticultural crops, and their effects on quality maintenance. Commercial postharvest practices explained in relation to general procedures and technologies as well as the recommended postharvest best handling practices and optimum postharvest conditions for different types of horticultural crops.
Prerequisite: HOS 4304.

HOS 4341 Advanced Horticultural Physiology 3 Credits
Grading Scheme: Letter Grade
Environmental effects (light, temperature and water) on physiology, growth and development of plants.
Prerequisite: HOS 4304.

HOS 4900 Supervised Extension Experience in Horticultural Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

HOS 4905 Independent Study in Horticultural Science 1-6 Credits
Grading Scheme: Letter Grade
Selected research topics in molecular biology, physiology and/or genetics of horticultural crops.

HOS 4911 Supervised Research in Horticultural Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic research in horticultural sciences under the supervision of a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

HOS 4915 Honors Thesis Research in Horticultural Sciences 0-3 Credits
Grading Scheme: S/U
Independent research in horticultural sciences leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

HOS 4918 Capstone Planning in Horticultural Sciences 1 Credit
Grading Scheme: S/U
Focuses on planning service learning, scientific research, cooperative extension, or industry liaison projects for the Horticultural Sciences capstone. Also fosters reflection of academic and professional development in the major.
Prerequisite: HOS 4933.

HOS 4921 Horticultural Sciences Capstone 2-4 Credits
Grading Scheme: S/U
Focuses on executing service learning, scientific research, cooperative extension, or industry liaison projects designed during capstone planning. Perfect professional portfolios and present the outcomes of the capstone project.
Prerequisite: HOS 4918.

HOS 4932 Special Topics in Horticultural Sciences 1-3 Credits
Grading Scheme: Letter Grade
Critical review of selected topics in specific areas not covered in other horticultural sciences courses.
Prerequisite: instructor permission.

HOS 4933 Professional Development in Horticulture 1 Credit
Grading Scheme: Letter Grade
Professional skills development, including job searching, resume writing, interview skills, professional etiquette, communications and salary negotiations.

HOS 4941 Practical Work Experience in Horticultural Sciences 1-4 Credits
Grading Scheme: S/U
Practical work that must be a new experience and related to the field of study. (S-U)
Prerequisite: advisor arrangement and permission.
PLS 3421C Hydroponic Systems 3 Credits
Grading Scheme: Letter Grade
This course offers students foundational information and hands-on experience on hydroponic and soilless cultivation of horticultural crops. Production practices, growing systems, new technologies and current challenges are discussed.
Prerequisite: HOS 3020C or PLS 3004C.

VEC 2100 World Herbs and Vegetables 3 Credits
Grading Scheme: Letter Grade
Introduces a variety of vegetables and culinary herbs. Emphasizes genetic, phytochemical and botanical diversity and importance of food phytochemicals and role of vegetables in nutrition. (B)
Attributes: General Education - Biological Science

VEC 3221C Vegetable Production 4 Credits
Grading Scheme: Letter Grade
Principles and practices of successful commercial vegetable production, including crop requirements, growth patterns and production techniques along with consumption/marketing patterns and U.S./Florida production areas.

WDS 4001 Organic Weed Management 3 Credits
Grading Scheme: Letter Grade
Apply ecological principles in agroecosystems to manage weeds sustainably. Emphasizes alternative weed management approaches that are less dependent on herbicides and utilize ecological processes detrimental to weeds and their propagules. Learn actively by critically analyzing pertinent literature and participating in discussions of supplemental reading.
Prerequisite: HOS 3020C or ALS 3153.

Hungarian | European Studies
Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information
The Center for European Studies (CES), housed within the College of Liberal Arts & Sciences (CLAS), is an interdisciplinary area studies center focused on the study of Europe, and facilitating the training of scholars and experts in European studies in the United States. In addition to the minors, certificates, and major, the center offers study abroad programs in Europe and various scholarships and grants for undergraduates.

Curriculum
• East-Central European Studies Minor
• European Union Studies Certificate

Courses
HNG 1130 Beginning Hungarian 1 5 Credits
Grading Scheme: Letter Grade
This course and its sequel, HNG 1131, constitute the basic sequence in Hungarian.

HNG 1131 Beginning Hungarian 2 5 Credits
Grading Scheme: Letter Grade
Second semester of basic sequence in Hungarian.
Prerequisite: HNG 1130 with minimum grade of C, or S, or the equivalent.

HNG 1180 Elementary Hungarian: Review and Progress 1 3 Credits
Grading Scheme: Letter Grade
Alternative to HNG 1130, for students who have some experience in Hungarian. Reviews basic grammar and improves reading, writing and listening skills.

HNG 1182 Elementary Hungarian: Review and Progress 2 3 Credits
Grading Scheme: Letter Grade
An accelerated one-semester coverage of HNG 1130 and HNG 1131 for students with some experience in Hungarian.
Prerequisite: instructor permission.

Industrial and Systems Engineering
Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information
The Department of Industrial and Systems Engineering strives to be a resource for comprehensive ISE education and research training; a department with research thrusts and coursework covering a breadth of disciplines; a department making use of advanced computing technology, cutting-edge programming languages, social media, data mining, AI, etc. to best support needs, interests, and training of students.

Curriculum
• Combination Degrees
• Industrial and Systems Engineering
Courses

COP 2271 Computer Programming for Engineers 2 Credits
Grading Scheme: Letter Grade
Computer programming and the use of computers to solve engineering and mathematical problems. Emphasizes applying problem solving skills; directed toward technical careers in fields employing a reasonably high degree of mathematics. The programming language used depends on the demands of the departments in the college. Several languages may be taught each semester, no more than one per section. Those required to learn a specific language must enroll in the correct section. (M)
Prerequisite: MAC 2312 with minimum grade of C.

COP 2271L Computer Programming for Engineers Laboratory 1 Credit
Grading Scheme: Letter Grade
Optional laboratory for COP 2271. Required for ISE majors. (M)
Prerequisite: MAC 2312;
Corequisite: COP 2271.

EGN 1935 Special Topics in Freshman Engineering 1-3 Credits
Grading Scheme: Letter Grade
Laboratory, lectures or conferences cover selected topics in engineering.

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

EGN 4930 Sales Engineer Seminar 1 Credit
Grading Scheme: S/U
Intended for those interested in pursuing a career in sales engineering (required for students enrolled in the sales engineering certificate program). Lectures and discussions on practice-oriented sales engineering topics. (S-U)

EGS 1005 Prep for Success 1-4 Credits
Grading Scheme: S/U
Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)
Prerequisite: EG student.

EGS 1006 Introduction to Engineering 1 Credit
Grading Scheme: Letter Grade
Introduces the 11 departments that offer undergraduate degrees at UF. Students break into groups of 20, rotating weekly through each department. During these visits, students participate in hands-on experiments to help them make informed decisions about career alternatives.

EIN 3101C Introduction to Industrial and Systems Engineering 2 Credits
Grading Scheme: Letter Grade
Introduction and overview of the profession, including career planning, professionalism and communication, ethics, teamwork, industry site visits, industrial speakers, and selected solution methods for problems in coordination and planning.
Prerequisite: ENC 3254 with a minimum grade of C.

EIN 3241 Human Factors & Ergonomics - 1 3 Credits
Grading Scheme: Letter Grade
Introduces the techniques/concepts to understand users and workplace requirements for the design of sociotechnical systems. Topics covered include methods for work measurement, human cognitive and physical capabilities and limitations, and workplace requirements. Applications for design, including computer displays, noise, repetitive and high physical effort tasks are presented.
Prerequisite: EGM 2511 with minimum grade of C.

EIN 3354 Engineering Economy 3 Credits
Grading Scheme: Letter Grade
Basic principles and applications of economic decision-making between alternatives encountered in engineering systems projects. Analysis includes methodologies of economics and finance in addition to engineering fundamentals.
Prerequisite: MAC 2312 with a minimum grade of C.

EIN 4210 Occupational Safety Engineering 3 Credits
Grading Scheme: Letter Grade
Prerequisite: PHY 2049 and STA 4321 with minimum grades of C.

EIN 4312 Industrial Energy Management 3 Credits
Grading Scheme: Letter Grade
Introduces energy conservation. Supply-demand data, energy economics, investment analysis and energy legislation. Audits, waste heat recovery, cogeneration and computerized energy management systems.
Prerequisite: EIN 4354 and PHY 2049 with minimum grades of C.

EIN 4321 Senior Design Project 3 Credits
Grading Scheme: Letter Grade
Integration of industrial and systems engineering methodologies; emphasizes methods of successful implementation. Project and case-study oriented.
Prerequisite: ESI 3312, ESI 4313, ESI 4523, STA 4322, ESI 4356, EIN 3354, and EGS 4034 with minimum grades of C.

EIN 4335 Senior Design Project 3 Credits
Grading Scheme: Letter Grade
Introduces fundamental concepts in several main areas of industrial engineering such as facility planning, material handling systems, work analysis and design. Covers topics such as analysis and design of work space and flow, facility location and layout, material handling systems, motion and time studies and work sampling.
Prerequisite: ENC 3246 and (EML 2023 or equivalent) with minimum grades of C.
EIN 4451 Lean Production Systems 3 Credits
Grading Scheme: Letter Grade
Design of flow line, cellular and flexible manufacturing systems. Design and control of lean manufacturing systems. Continuous improvement, small lot production, setup-time reduction, equipment improvement and maintenance. Principles and control of push and pull manufacturing systems. Production planning and operations scheduling.
Prerequisite: ESI 4312 and STA 4321.

EIN 4905 Special Problems in Industrial and Systems Engineering 1-4 Credits
Grading Scheme: Letter Grade
Problems and systems studies associated with honors programs representing undergraduate research. Selected advanced topics including new developments and techniques in industrial and systems engineering.

EIN 4912 Integrated Product and Process Design 1 3 Credits
Grading Scheme: Letter Grade
The first part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: EIN 4354 and EIN 4360C with minimum grades of C;
Corequisite: ESI 4221C with minimum grade of C.

EIN 4913 Integrated Product and Process Design 2 3 Credits
Grading Scheme: Letter Grade
Second part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget.
Prerequisite: EGS 4034 with a minimum grade of C and Engineering major of junior standing or higher.

EIN 4937 Industrial and Systems Engineering Seminar 1 Credit
Grading Scheme: S/U
Lectures and discussions on general and specific engineering problems. Individual investigations and research reports on assigned topics. Orientation for an industrial career. (S-U)
Prerequisite: 3EG or 4EG standing in industrial and systems engineering.

EIN 4944 Practical Work in Industrial and Systems Engineering 1-3 Credits
Grading Scheme: S/U
One term of industrial employment, including extra work according to a preapproved outline. Practical engineering work under industrial supervision as set forth in the Herbert Wertheim College of Engineering regulations. (S-U)
Prerequisite: 4EG classification and EGS 4034 with a minimum grade of C.

ESI 3215C Data Anal. for Indus. Apps. 4 Credits
Grading Scheme: Letter Grade
Focuses on analysis of data encountered in ISE applications including system reliability, demand forecasting and inventory control, simulation, and quality control. Specific engineering applications are discussed through case studies. Introduction and use of computational tools to implement various data analysis techniques is an important component of this course.
Prerequisite: MAC 2312 with minimum grade of C.

ESI 3312 Operations Research 1 4 Credits
Grading Scheme: Letter Grade
Introduces optimization modeling, algorithms, and software to aid in the analysis and solution of decision-making problems.
Prerequisite: ESI 3327C with minimum grade of C.

ESI 3327C Matrix and Numerical Methods in Systems Engineering 4 Credits
Grading Scheme: Letter Grade
Theory and application of vector, matrix, and other numerical methods to systems problems. Simultaneous linear equations, characteristic values, quadratic forms, error analysis, use of series, curve fitting, nonlinear equations, and discrete methods. Laboratory emphasizes numerical solutions using MATLAB.
Prerequisite: MAC 2313 and MAP 2302 with minimum grades of C.

ESI 4221C Industrial Quality Control 3 Credits
Grading Scheme: Letter Grade
Factors affecting variation in product quality; use of control charts to evaluate and control manufacturing processes. Techniques for acceptance and reliability testing. Laboratory exercises illustrate the operation and control of manufacturing processes and hazard function. Typical failure distributions, redundant systems, models of repair and maintenance.
Prerequisite: STA 4321 and STA 4322 with minimum grades of C.

ESI 4313 Operations Research 2 4 Credits
Grading Scheme: Letter Grade
Introduces stochastic models and methodologies for analyzing and providing solutions to decision-making problems with uncertainties.
Prerequisite: ESI 4327C and STA 4321 with minimum grades of C.

ESI 4356 Decision Support Systems for Industrial and Systems Engineers 4 Credits
Grading Scheme: Letter Grade
Applications of decision support systems in industrial and systems engineering; developing and implementing decision support systems arising in industrial and systems engineering using popular database management and spreadsheet software.
Prerequisite: COP 2271 and ESI 4312 with minimum grades of C.

ESI 4357 Web-Based Decision Support Systems for Industrial and Systems Engineers 4 Credits
Grading Scheme: Letter Grade
Introduces the Internet and e-commerce; Internet tools and technologies necessary for the development of web-based decision support systems; designing and implementing web-based decision support systems arising in the practice of industrial and systems engineering using popular software packages.
Prerequisite: COP 2271 and ESI 4312 with minimum grades of C.

ESI 4523 Industrial Systems Simulation 3 Credits
Grading Scheme: Letter Grade
Simulation methodology and languages, such as General Purpose Simulation System (GPSS). Design and analysis of simulation experiments as well as applications to solutions of industrial and service system problems.
Prerequisite: COP 2271 and ESI 4312 with minimum grades of C.

ESI 4949 Co-Op Work Experience 1 Credit
Grading Scheme: S/U
Practical engineering work under industrial supervision, as set forth in the Herbert Wertheim College of Engineering regulations. (S-U)
Prerequisite: EGS 4034 with a minimum grade of C.
Information Systems and Operations Management

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.

More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

The primary mission of the Information Systems and Operations Management Department is a commitment to scholarly research, teaching and service to advance the state of knowledge in information systems and supply chain management and to train future leaders for professional and academic careers.

Curriculum

- Combination Degrees
- Information Systems
- Information Systems Minor

Courses

ISM 3004 Computing in the Business Environment 4 Credits
Grading Scheme: Letter Grade
Presents fundamental concepts from two perspectives: the individual business computer user and the corporate business computing environment. Introduces common business computing applications; this is not a hands on applications training course. Students use their existing computer skills to complete assignments.
Prerequisite: basic skills for Microsoft Word, PowerPoint, and Excel.

ISM 3013 Introduction to Information Systems 4 Credits
Grading Scheme: Letter Grade
Introduces the role of information systems and technology in an organization with a focus on the use of Access and Excel to solve business problems. Receive the knowledge necessary to earn Microsoft certifications in Access and Excel.
Prerequisite: MAC 2311 or MAC 2233, and sophomore standing.

ISM 3254 Business Systems 1 2 Credits
Grading Scheme: Letter Grade
Introduces the basic tools for building business systems using object-oriented and event-driven programming paradigms. Emphasizes using Java to illustrate these ideas.

ISM 3255 Business Systems 2 2 Credits
Grading Scheme: Letter Grade
Continuation of the course sequence to develop the basic tools for building business systems using object-oriented and event-driven programming paradigms. Emphasizes using C# to illustrate these ideas.
Prerequisite: ISM 3254.

ISM 4113 Business Systems Design and Applications 2 Credits
Grading Scheme: Letter Grade
Conceptual foundations of the process, data and object oriented approaches for the analysis and design of business systems. Systems development life cycle, rapid application design, CASE tools also covered.

ISM 4210 Database Management 2 Credits
Grading Scheme: Letter Grade
Introductory database management. Topics include various stages in a database development process such as conceptual, logical, application and physical design.
Prerequisite: ISM 4113.

ISM 4220 Business Data Communications 1 2 Credits
Grading Scheme: Letter Grade
Various aspects of telecommunication systems, the use of local and wide area networks, the Internet, wireless technologies and distributed systems for decision making and strategic management questions relating to business goals, long-range planning and budgeting.

ISM 4221 Business Data Communications 2 2 Credits
Grading Scheme: Letter Grade
Helps gain insights into network security; exposure to various security algorithms and techniques via hands-on experience with projects and homework assignments.
Prerequisite: ISM 4220.

ISM 4330 Information Systems and Operations Strategy 2 Credits
Grading Scheme: Letter Grade
Policy and management issues surrounding information systems and operations management in today’s enterprises.
Prerequisite: ISM 4113, ISM 4210 and ISM 4220.

ISM 4930 Special Topics in Information Systems 1-4 Credits
Grading Scheme: Letter Grade
Variable content provides an opportunity for in-depth study of topics not offered in other courses and of topics of special current significance.
Prerequisite: department permission.

MAN 4504 Operations and Supply Chain Management 4 Credits
Grading Scheme: Letter Grade
Managerial concepts and quantitative tools required in the design, operation, and control of production systems and their relationship to business functions.
Prerequisite: BUL 4310 and FIN 3403 and GEB 3373 and MAC 2233 and MAN 3025 and MAR 3023 and QMB 3250 and STA 2023 and (Business major or Accounting major).

MAN 4538 Integrated Product and Process Design 1 3 Credits
Grading Scheme: Letter Grade
The first part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.
Prerequisite: senior standing.
MAN 4539 Integrated Product and Process Design 2 3 Credits  
**Grading Scheme:** Letter Grade  
Continuation of the two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes, on time and within budget.  
**Prerequisite:** MAN 4538.

QMB 3250 Statistics for Business Decisions 4 Credits  
**Grading Scheme:** Letter Grade  
Correlation and linear regression, model building, multiple regression, analysis of variance, time series analysis and decision analysis. Regression modeling with computer applications for business problems.  
**Prerequisite:** STA 2023. Open only to students who need this course for their major or who have permission from the WCBA.

QMB 4701 Managerial Operations Analysis 1 2 Credits  
**Grading Scheme:** Letter Grade  
Introduces the concepts and applications of management science; become more confident in understanding and using deterministic analytic models.  
**Prerequisite:** MAC 2233 and STA 2023.

QMB 4702 Managerial Operations Analysis 2 2 Credits  
**Grading Scheme:** Letter Grade  
Overview of stochastic applications of management science; learn stochastic modeling techniques and introductory visual basic.  
**Prerequisite:** QMB 4701.

QMB 4905 Individual Work in Information Systems and Operations Management 1-5 Credits  
**Grading Scheme:** Letter Grade  
Reading and/or research in information systems and operations management. A written report is required.  
**Prerequisite:** senior standing and department permission.

QMB 4930 Special Topics in Operations Analysis/Quantitative Methods 1-4 Credits  
**Grading Scheme:** Letter Grade  
Variable content provides an opportunity for in-depth study of topics not offered in other courses and of topics of special current significance.  
**Prerequisite:** department permission.

QMB 4941 Internship in Information Systems and Operations Management 1-3 Credits  
**Grading Scheme:** S/U  
Applied work in information systems and operations management. Requires several papers and reports. Counted as free-elective credit only. (S-U)  
**Prerequisite:** department chair permission.

QMB 4956 International Studies in Quantitative Methods 1-4 Credits  
**Grading Scheme:** Letter Grade  
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.  
**Prerequisite:** admission to an approved study abroad program and department permission.

QMB 4970 Honors Thesis 1 Credit  
**Grading Scheme:** S/U  
A thesis is required for award of magna cum laude or summa cum laude designations. To qualify, students normally must have completed 90 semester credits of coursework (exceptions may be made) and must have at least a 3.6 GPA at the time they enroll. The thesis will be reviewed by at least one faculty member chosen by the honors coordinator from the student’s major department. (S-U)  
**Prerequisite:** 90 credits earned and 3.6 UF GPA.

---

**Innovation Academy**

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.  

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

**IA Information**

The Innovation Academy (IA) equips students with the 21st-century skills needed to thrive in an innovative culture. IA is a living-learning community embedded within the traditional University of Florida experience. Students select from over 25 UF majors and earn their degree with a minor in Innovation. The IA academic calendar operates on a Spring-Summer schedule, giving students the opportunity to enjoy Fall co-curricular activities, pursue internships, study abroad, or enjoy the break at home.

**Curriculum**

- Innovation Minor

**Courses**

ENT 4015 The Venture Accelerator 2 Credits  
**Grading Scheme:** Letter Grade  
A team-based, experiential program focused on the start-up process; includes lectures, readings, discussions, workshops, and a team-based project. As deliverables, each team must deliver weekly lessons-learned presentations, complete business canvas updates, and prepare a final presentation.  
**Prerequisite:** ENT 3003 or EGN 4641.

IDH 4940 Internship 1-6 Credits  
**Grading Scheme:** S/U  
Experiential learning in a variety of work locations. Permission of program director required. Supervision by a faculty member or delegated authority, daily journal and a post-internship report are required. (S-U).
Courses

IDS 1359 Creativity in Action 2 Credits
Grading Scheme: Letter Grade
Focuses on the development of creative problem-solving strategies through completion of an innovative project. Students will and refine the proposal developed in IDS 1353, they will prototype the concept, test and refine the prototype, and complete and present the final project.
Prerequisite: Admission to the Innovation Academy and IDS 1940.
IDS 1940 Creativity in Context 2-4 Credits
Grading Scheme: Letter Grade
Examines the theoretical groundwork and evolution of psychologically-based research on dimensions of the creative person, process, product and press. This foundation frames the applied learning in the course and offers the necessary background for subsequent coursework in the Innovation Academy minor.
Prerequisite: Admission to the Innovation Academy.
IDS 4941 Innovation Academy Internship 1-6 Credits
Grading Scheme: Letter Grade
Experiential learning enables participation in an innovative internship that supplements the degree program. Supervised by a faculty member or designated authority, seven online assignments are required for successful completion.
Prerequisite: One full academic year (spring/summer) in the Innovation Academy and program director permission.
IDS 4950 Innovation Academy Senior Project 2 Credits
Grading Scheme: Letter Grade
Using lectures, labs and a multidisciplinary team-based project approach, build life skills in creativity and innovation, entrepreneurial and entrepreneurial thinking. Synthesize and demonstrate leadership and ethics through design and development of a team project.
Prerequisite: senior standing and enrolled in the Innovation minor.

PHI 3641 Ethics and Innovation 3 Credits
Grading Scheme: Letter Grade
Grounding in ethical theory and moral reasoning with a focus on changes at both organizational and societal levels, including, for instance, technological innovations, new business practices and legal changes. Examines the rights and responsibilities of those making such changes as well as the conditions that facilitate responsible decision making. (H, WR4)
Prerequisite: sophomore or higher standing or PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or philosophy major or minor or innovation academy minor or instructor permission.
Attributes: General Education - Humanities, Satisfies 4000 Words of Writing Requirement

Interdisciplinary Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.
IDS 4956 Overseas Studies 0-16 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

INS 3004 International Studies Perspectives 3 Credits
Grading Scheme: Letter Grade
Demographics, cultures, governments and histories of major world regions as these relate to major, current, transnational and global issues such as migration, socio-economic development, conflicts and disasters, and environmental issues.
Prerequisite: completion of at least 3 courses approved for the international studies major.

INS 4905 Individual Work in International Studies 0-3 Credits
Grading Scheme: Letter Grade
Provides those in the major with a directed opportunity to pursue in depth an area of focus associated with international studies including regional and topical coursework, international study abroad, service-learning projects, and/or internship projects.
Prerequisite: INS 3004.

INS 4911 Undergraduate Research in International Studies 0-3 Credits
Grading Scheme: Letter Grade
Provides an opportunity to undertake supervised research. Self-directed research allows individuals or groups to explore interesting issues in international studies and communicate their results.

INS 4930 Senior Research Seminar in International Studies 3 Credits
Grading Scheme: Letter Grade
Readings on and discussions of major contemporary international and global issues. Offers students the opportunity to conduct guided research on international topics of their choice that relate to their track(s) and study, internships or work abroad experiences for the international studies major.
Prerequisite: INS 3004 and senior standing.

ISS 2160 Cultural Diversity in the United States 3 Credits
Grading Scheme: Letter Grade
The great racial and ethnic diversity of contemporary U.S. society. Explores both the positive contributions and negative experiences of a variety of racial and ethnic groups, an exploration drawing on such concepts as culture, racial group, ethnic group, prejudice, discrimination and civil rights protest. (D and S) (WR)
Attributes: General Education - Humanities, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

The Department of Interior Design engages in research and creative scholarship with expertise in technology, design, communication, sustainability, lighting, history, and materials. The department’s newest ventures involve virtual reality (VR).

Courses

IND 1020 Design Innovation 3 Credits
Grading Scheme: Letter Grade
Overview of the interior design profession. The design of interiors to enhance human activity while observing life safety codes and human performance. Examines significant interiors and furniture components in the design process. (H)
Attributes: General Education - Humanities

IND 2100 History of Interior Design 1 3 Credits
Grading Scheme: Letter Grade
Attributes: General Education - Humanities, General Education - International

IND 2130 History of Interior Design 2 3 Credits
Grading Scheme: Letter Grade
Continues the history of interior design. Evolution of contemporary design philosophy. Foundation for contemporary design and interior preservation practice. Nineteenth century revivals through current developments. Slide lecture, discussion, outside research. (H and N)
Prerequisite: IND 2100.
Attributes: General Education - Humanities, General Education - International

IND 2214 Introduction to Architectural Interiors 4 Credits
Grading Scheme: Letter Grade
Introduces the design of micro interior environments in relation to the architectural setting. Studies human perception, dimension, and spatial activity requirements. Explores design process and the graphic communication of interior design ideas.
Prerequisite: ARC 2303.

IND 2313 Interior Design Communication Systems 3 Credits
Grading Scheme: Letter Grade
Conceptual process, design theory and programmatic concerns involved in residential, institutional and commercial interior design. Emphasizes visual communications techniques including explanation of media and the forms of visual communication of design concepts.
Prerequisite: ARC 1302.
IND 2422 Interior Finishes and Materials 3 Credits  
**Grading Scheme:** Letter Grade  
Studies interior materials, focusing on their characteristics and estimating, fabrication and installation.  
**Prerequisite:** interior design majors only.  
**Corequisite:** ARC 2303.

IND 2460C Computer Applications in Three Dimensional Design 3 Credits  
**Grading Scheme:** Letter Grade  
Introduces the microcomputer as a tool for interior design illustration, drafting and design development. A fundamental computer graphics course for interior design students, building skills and technical knowledge in image processing, two-dimensional drawing and three-dimensional modeling of building interiors.  
**Prerequisite:** CGS 2470 and interior design majors only.

IND 2635 Environment and Behavior for Designers 3 Credits  
**Grading Scheme:** Letter Grade  
Introduces significant theories concerning the interaction of people with environments at various scales. Also explores the corresponding applied environmental design implications of these theories. This survey of normative theories, philosophies and doctrines of environment and behavior serve as an evidence base to support research-based design decisions. (WR)  
**Prerequisite:** ARC 2303 and Interior Design major.  
**Attributes:** Satisfies 6000 Words of Writing Requirement

IND 3215 Architectural Interiors 1 5 Credits  
**Grading Scheme:** Letter Grade  
Development of interior spaces from conceptual phases to final design resolution, based on interior considerations and external influences. Emphasizes three-dimensional design process and detailed graphic representation of designed spaces.  
**Prerequisite:** IND 2214.

IND 3216 Architectural Interiors 2 5 Credits  
**Grading Scheme:** Letter Grade  
Conceptual process, design theory and programmatic concerns involved in residential, commercial and institutional interior design. Emphasizes professional applications and the interior designer as an environmental problem solver.  
**Prerequisite:** IND 3215.

IND 3311C Color Theory Planning and Practice 3 Credits  
**Grading Scheme:** Letter Grade  
Explores the power of color in our human experience and examination of the art and science of color theory in the context of interior design and allied fields.

IND 3431 Interior Lighting 3 Credits  
**Grading Scheme:** Letter Grade  
Introduces lighting design based upon a critical awareness of the luminous environment, and principles and perception of light and color. Graphic exercises in lighting design, documentation and lighting calculations based on student solutions.  
**Prerequisite:** IND 3215.

IND 3468 Interior Environmental Technologies 3 Credits  
**Grading Scheme:** Letter Grade  
Considers interior environmental conditions in relation to human sensory reactions, psychological factors, health, safety and satisfaction. Relates the vocabulary and concepts of interior environmental technology to the process of interior design.  
**Prerequisite:** IND 2214.

IND 3483 Interior Design Construction Documents 4 Credits  
**Grading Scheme:** Letter Grade  
Systematic overview of construction systems, technologies and materials with emphasis on the design of interior systems and the detailing of these systems as an extension of the overall design concept.  
**Prerequisite:** IND 2214.

IND 3512 Professional Practice of Interior Design 3 Credits  
**Grading Scheme:** Letter Grade  
Consideration of office practices and design project management. Explores contract documents, associated legal aspects, marketing strategies, professional ethics, staff personnel practices and career planning. Integration of computer software for project scheduling and time management. A case study exploration of ethics and contracting for design services is used. Studies integration of appropriate computer software for office management and project scheduling.  
**Prerequisite:** interior design majors only.  
**Corequisite:** IND 3216.

IND 3627 Sustainable Interior Environments 3 Credits  
**Grading Scheme:** Letter Grade  
Provides an understanding of sustainable interior environments. Introduces best practices, current trends, and case studies in various interior settings. Explores key elements of sustainability including environmental history, indoor sustainable development, waste management, energy consumption, and water conservation.  
**Prerequisite:** junior standing or above.

IND 3905 Individual Studies in Interior Design 1-6 Credits  
**Grading Scheme:** Letter Grade  
Special areas of study in interior design adjusted to the needs of the individual student.  
**Prerequisite:** department chair permission.

IND 4225 Advanced Architectural Interiors 1 6 Credits  
**Grading Scheme:** Letter Grade  
Advanced problems in interior design with respect to the needs of the sophisticated clients in urban settings, ranging from the infrastructure of large urban spaces to the details of individual interior spaces, including open office planning and design of public spaces.  
**Prerequisite:** IND 3216.

IND 4226 Advanced Architectural Interiors 2 6 Credits  
**Grading Scheme:** Letter Grade  
Designed problems involving multiple phases of the design process through final design and detailing of each project. Final project demonstrates highest levels of design development.  
**Prerequisite:** IND 4225.

IND 4450C Advanced Interior Design Detailing and Construction Documents 4 Credits  
**Grading Scheme:** Letter Grade  
Advanced problems in design and detailing of interior finish systems such as interior architecture and cabinetry. Exploration and production of interior mechanical and millwork drawings and construction documents. Integration of building codes and life safety issues.  
**Prerequisite:** IND 3216;  
**Corequisite:** IND 4225.

IND 4930 Special Topics 1-6 Credits  
**Grading Scheme:** Letter Grade  
Special topics seminar in interior design. Enrollment upon recommendation of department chair.  
**Prerequisite:** IND 3215.
IND 4940 Design Field Experience 2-4 Credits  
Grading Scheme: S/U  
Provides opportunities to work in architectural and interior design offices gaining hands-on professional experience working up to 12 weeks. (S-U)  
Prerequisite: IND 3216 and IND 3483 and IND 3512.

Courses

ITA 1130 Beginning Italian 1 5 Credits  
Grading Scheme: Letter Grade  
ITA 1130 and its sequel, ITA 1131, constitute the basic sequence in Italian. Emphasis on the development of broad competence in the language. Oral-aural approach ensures competence in the four skills.

ITA 1131 Beginning Italian 2 5 Credits  
Grading Scheme: Letter Grade  
Continuation of the basic sequence in Italian. Emphasis on the development of broad competence in the language. Oral-aural approach ensures competence in the four skills.  
Prerequisite: ITA 1130 with minimum grade of C, or S, or the equivalent.

ITA 2220 Intermediate Italian 1 4 Credits  
Grading Scheme: Letter Grade  
Enhances knowledge of Italian in all four skills: listening, reading, speaking and writing. The goal is to create communicative competence that enables students to advance to third year study and to benefit from their visits to Italy. (H and N)  
Prerequisite: ITA 1131 or the equivalent.  
Attributes: General Education - Humanities, General Education - International

ITA 2221 Intermediate Italian 2 4 Credits  
Grading Scheme: Letter Grade  
Completes second year sequence with emphasis on composition, literature and communication skills. (H and N)  
Prerequisite: ITA 2220 or the equivalent.  
Attributes: General Education - Humanities, General Education - International

ITA 3070 Accelerated Introduction to Italian 5 Credits  
Grading Scheme: Letter Grade  
Intensive course designed primarily for speakers or students with knowledge of another Romance language or strong linguistic abilities in another foreign language. Assumes no prior study of Italian and offers a complete four-skill (listening, speaking, reading and writing) introduction to the language.  
Prerequisite: fourth semester of another romance language or instructor permission.

ITA 3224 Italian Enhancement Section 1-5 Credits  
Grading Scheme: Letter Grade  
Italian-language reading and discussion to accompany and complement courses in other departments. Readings and discussions are in Italian to develop vocabulary and fluency related to the content of the companion course and to provide an international perspective on the issues of the main course. (N)  
Prerequisite: ITA 2221 or instructor permission. Not for credit in the major.  
Attributes: General Education - International

ITA 3420 Grammar and Composition 1 3 Credits  
Grading Scheme: Letter Grade  
Intensive language course designed to master grammatical principles, increase vocabulary and enhance writing and composition skills.  
Prerequisite: ITA 2221 or equivalent.
ITA 3500 Italian Civilization 3 Credits
Grading Scheme: Letter Grade
Variable topics class that introduces Italian civilization in historical, artistic and literary contexts. (H and N)
Prerequisite: ITA 2221 or the equivalent, or section coordinator or undergraduate advisor permission.
Attributes: General Education - Humanities, General Education - International

ITA 3564 Contemporary Italian Culture 3 Credits
Grading Scheme: Letter Grade
Variable topics class focusing on modern Italy through literature, art and mass media, and current events. (H and N)
Prerequisite: ITA 2221 or the equivalent, or section coordinator or undergraduate advisor permission.
Attributes: General Education - Humanities, General Education - International

ITA 3541 Gangsters and Godfathers: Italian Mafia Movies 3 Credits
Grading Scheme: Letter Grade
Examines Italian cinematic representations of organized criminality, in particular Sicilian Cosa Nostra and Neapolitan Camorra. Analysis considers specificity of Italian tradition while placing films in a broader history of the gangster genre to allow for a critically and politically informed reading of Italian generic subversions. Taught in English.
Prerequisite: sophomore standing or higher or instructor permission.

ITA 3700 The Demolition of Man: Italian Perspectives on the Jewish Holocaust 3 Credits
Grading Scheme: Letter Grade
Explores a sampling of Itay's texts on the Jewish Holocaust, centering on the work of survivor and theorist of the camps, Primo Levi. Material also encompasses the history of the Italian-Jewish community as well as a selection of Italian films dealing with the realities and ethical implications of the camps.
Prerequisite: sophomore standing or higher or instructor permission.

ITW 3500 Boccaccio's Decameron 3 Credits
Grading Scheme: Letter Grade
Analysis of Giovanni boccaccios canonical decameron with a focus on the literary Dimension of Text as well as the political, historical, and religious context in which the work was written.
Prerequisite: ITA 2221 or the equivalent.

ITA 3310 Italian Play 3 Credits
Grading Scheme: Letter Grade
The major Italian authors from the Renaissance through the 20th century. (H)
Prerequisite: ITA 2221 or the equivalent, or section coordinator or undergraduate advisor permission.
Attributes: General Education - Humanities

ITW 3540 Murder Italian Style: Crime Fiction and Film in Italy 3 Credits
Grading Scheme: Letter Grade
Explores Italian crime fiction and film. Analysis considers specificity of Italian tradition while placing texts and films in a broader cultural and historical context, enabling critically and politically informed reading of the many applications and subversions of the generic formula. Taught in English.
Prerequisite: sophomore standing or higher or instructor permission.
ITW 4026C Representing the Humble Italy: Literature and Cinema of the Italian South 3 Credits
Grading Scheme: Letter Grade
Examines texts and films that address the so-called Southern Question; namely, the socioeconomic and cultural disparities between northern and southern Italy. Explores or contests topics and concepts including southern exclusion from official history, southern fusion of religion and superstition, resistance to modernity and mafia-related political corruption. Taught in Italian.
Prerequisite: ITA 3420 or ITA 3500 or ITA 3564 or ITW 3100 or ITW 3101 or instructor permission.

ITW 4253 Delitto all'Italiana: Crime Fiction and Film in Italy 3 Credits
Grading Scheme: Letter Grade
Explores a sampling of Italian crime fiction and film through the lens of a range of conceptual categories, including British intellectual model vs. American noir; rational inquiry vs. uncertainties of sensory perception; canon vs. popular; cosmopolitan vs. provincial; order vs. chaos; political conservatism vs. social critique. Taught in Italian.
Prerequisite: ITA 3420 or ITA 3500 or ITA 3564 or ITW 3100 or ITW 3101 or instructor permission.

ITW 4491 Italian Theater from the Renaissance to the Early Modern Era 3 Credits
Grading Scheme: Letter Grade
Overview and analysis of evolution of Italian theater, with focus on a selection of specific examples drawn from Italian theater from the Renaissance to the early modern era. Taught in Italian.
Prerequisite: ITA 3420 or ITA 3500 or ITA 3564 or ITW 3100 or ITW 3101 or instructor permission.

ITW 4526 Mad Love in Modern Italian Literature 3 Credits
Grading Scheme: Letter Grade
Exploration of a sampling of modern Italian literary manifestations of a love that strays beyond the conventional. Language skills addressed through discussion, oral presentations, creative writing assignments, and short papers.
Prerequisite: ITA 3420 or ITA 3500 or ITA 3564 or ITW 3100 or ITW 3101 or instructor permission.

ITW 4580 Animals and Animality in Italian Culture 3 Credits
Grading Scheme: Letter Grade
Presentation and exploration of the figure of the nonhuman animal in the work of several modern Italian authors and poets. Analysis addresses the literary dimension of the selected animal portraits as well as any philosophical and ethical questions raised by these literary animals. Taught in Italian.
Prerequisite: 3 credits of an ITA or ITW course at the 3000 level or above.

ITW 4600 Dante's Inferno 3 Credits
Grading Scheme: Letter Grade
Semester-long, in-depth examination of Dante Alighieris text, Inferno, with the support of a variety of visual materials and digital resources devoted to Dante and his world. Special attention paid to the political, historical and religious context in which Dante wrote. Taught in Italian.
Prerequisite: ITA 3420 or ITA 3500 or ITA 3564 or ITW 3100 or ITW 3101 or instructor permission.

ITW 4911 Undergraduate Research in Literature in Italian 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Literature in Italian. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Literature in Italian.

Key concepts and approaches of translation studies applied to the translation of Japanese to English, and English to Japanese, in a variety of media, genre, and text types.
**Prerequisite:** JPN 3410 or equivalent with a minimum grade of C or instructor permission.

**JPN 4850 Structure of Japanese 3 Credits**
**Grading Scheme:** Letter Grade
Linguistic analysis of modern standard Japanese. Topics include phonology, morphology, syntax, semantics and writing. Readings and discussions in English. (S and N)
**Prerequisite:** JPN 1131 or instructor permission.
**Attributes:** General Education - International, General Education - Social Science

**JPN 4905 Individual Study 1-5 Credits**
**Grading Scheme:** Letter Grade
For those who seek independent work not offered in another course. Available only by special arrangement.

**JPN 4911 Undergraduate Research in Language or Linguistics 0-3 Credits**
**Grading Scheme:** S/U
Provides firsthand, supervised research in Language or Linguistics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Language or Linguistics.

**JPN 4930 Special Topics in Japanese Studies 3 Credits**
**Grading Scheme:** Letter Grade
Variable topics dealing with specific issues in and in-depth study of special topics in Japanese studies.

**JPN 4935 Senior Honors Thesis 3 Credits**
**Grading Scheme:** Letter Grade
Select a Japanese faculty member to act as director for an independent research project that culminates in an honors thesis.
**Prerequisite:** Minimum 3.5 GPA and instructor permission.

**JPN 4940 Internship 3 Credits**
**Grading Scheme:** Letter Grade
Faculty (or delegated authority) supervised internship. Requires a written post-internship report.
**Prerequisite:** instructor and department permission.
JPT 3330 Early Modern Japanese Literature 3 Credits
Grading Scheme: Letter Grade
Surveys Japanese literature of the Early Modern period (also called the Edo period), 1600-1868. Introduces and analyzes historically significant, foundational works of Early Modern Japanese literature and theater. Explores the history of the period and the development of print technologies and new genres, and introduces critical aesthetic and cultural concepts.
Prerequisite: JPT 3500 or JPT 3100 or JPT 3300 or JPN 2230

JPT 3391 Introduction to Japanese Film 4 Credits
Grading Scheme: Letter Grade
Introduces the formal and historical features of Japanese film that have given it a unique position in film history. Emphasizes formal and critical analysis as well as the intellectual stakes of studying non-western film.

JPT 3500 Japanese Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to Japanese culture with emphasis on tracing the origin and development of important aspects of Japanese literature, art, religion and society. All readings in English. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

JPT 3500 or JPT 3120 or ASH 3442

JPT 3140 Modern Women Writers 3 Credits
Grading Scheme: Letter Grade
Examination of narratives written by women who published during the Taisho (1912-25), Showa (1925-89) and Heisei (1989 to present) periods. Become familiar with the forms and topics of criticism through Japanese and Western sources. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

JPT 3121 Contemporary Japanese Literature: Postwar to Postmodern 3 Credits
Grading Scheme: Letter Grade
Companion to JPT 3120 that reflects the increasing clarity with which contemporary Japanese literature (1945 to present) is emerging as a separate field with its own set of issues, major texts and significance for the American student of Japan. Writers range from Dazai and Oe Kenzaburo to Murakami Haruki, and issues range from subjectivity to cybernetics.

JPT 3150 Classical Japanese Poetry 3 Credits
Grading Scheme: Letter Grade
Historical survey of traditional Japanese poetry (waka) from the 8th to the 16th century. (H and N)
Attributes: General Education - Humanities, General Education - International

JPT 3300 Samurai War Tales 3 Credits
Grading Scheme: Letter Grade
Explores the historical and cultural stimuli that led to war, recorded later as war narratives. Supported by images of architecture, narrative picture scrolls, and extant military accoutrements. (H and N)
Corequisite: JPT 3500 recommended.
Attributes: General Education - Humanities, General Education - International

JPT 3390 Introduction to Japanese Film 3 Credits
Grading Scheme: Letter Grade
Introduces the formal and historical features of Japanese film that have given it a unique position in film history. Emphasizes formal and critical analysis as well as the intellectual stakes of studying non-western film.

JPT 3500 Japanese Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to Japanese culture with emphasis on tracing the origin and development of important aspects of Japanese literature, art, religion and society. All readings in English. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

JPT 3702 Japanese Visual Culture 3 Credits
Grading Scheme: Letter Grade
Explores issues within Japanese visual culture, and uses visual-cultural products to explore Japanese political, cultural, social, and historical issues. Introduces and analyzes historically significant, foundational works of Japanese visual culture, unpacks genre and genre tropes in contemporary works, and analyzes several visual-cultural works that tackle significant social issues.
Prerequisite: JPT 3500 or JPT 3120 or ASH 3442

JPT 4130 The Tale of Genji 3 Credits
Grading Scheme: Letter Grade
Investigation of the 11th-century masterpiece and its pervasive influence on Japanese literature, past and present. (H and N)
Attributes: General Education - Humanities, General Education - International

JPT 4502 Japanese Folklore 3 Credits
Grading Scheme: Letter Grade
Study of native belief systems and the supernatural as reflected in the folk practice of ritual observance and in tales, myths, songs and proverbs. (H and N)
Attributes: General Education - Humanities, General Education - International

JPT 4510 Representations of Japan's Modern Empire 3 Credits
Grading Scheme: Letter Grade
Examines a variety of literary, historical, anthropological, and theoretical texts to explore racial and social issues related to Japan's imperial past. (H and N)
Corequisite: JPT 3500 recommended.
Attributes: General Education - Humanities, General Education - International

JPT 4911 Undergraduate Research in English Translation 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

Grading Scheme: Letter Grade  
Religious values, attitudes, and norms of Native American peoples within the United States. (H) (WR)  
Attributes: General Education - Diversity, General Education - Humanities, Satisfies 4000 Words of Writing Requirement  

REL 2600 Jews, Judaism, and Jewishness 3 Credits  
Grading Scheme: Letter Grade  
Multidisciplinary approach to the Jewish experience from its Biblical origins to modern times.  

REL 3213 Hebrew Bible as Literature 3 Credits  
Grading Scheme: Letter Grade  
Intensive introduction to the literary study of the Hebrew Bible within the context of ancient Near Eastern literature and history.  

REL 3234 Wisdom in the Hebrew Bible 3 Credits  
Grading Scheme: Letter Grade  
Examines ancient Israelite and early Jewish wisdom literature alongside similar literature from ancient Mesopotamia and Egypt.  

REL 3291 Gender and the Hebrew Bible 3 Credits  
Grading Scheme: Letter Grade  
Critical examination of the literary representation and historical realities of gender and sexuality in ancient Israel through close readings of selected texts from the Hebrew Bible.  

REL 3321 Early Judaism and Christianity 3 Credits  
Grading Scheme: Letter Grade  
Examines the Jewish-Christian encounter. The historical interaction between Judaism and Christianity including how each group symbolized the other, and the practical implications of the representations. (H and N) (WR)  
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement  

REL 3938 Special Topics in Religion 3 Credits  
Grading Scheme: Letter Grade  
Special topics in religion. (H) (WR)  
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement  

REL 4092 Ethics, Utopias and Dystopias 3 Credits  
Grading Scheme: Letter Grade  
Examines relationships between ethics and utopias in literature, religious communities, and millenarian movements. (H) (WR)  
Prerequisite: instructor permission.  
Attributes: General Education - Humanities  

REL 4209 Dead Sea Scrolls and Early Jewish Literature 3 Credits  
Grading Scheme: Letter Grade  
Explores the varieties of literature that arose within Judaism from 250 BCE to 220 CE, including selections from the Dead Sea Scrolls, the OT Pseudepigrapha, Philo, and Josephus. (H)  
Prerequisite: refer to the department.  
Attributes: General Education - Humanities  

REL 4221 The Pentateuch 3 Credits  
Grading Scheme: Letter Grade  
In-depth study of the Pentateuch (Genesis-Deuteronomy) in light of modern biblical scholarship.  
Prerequisite: instructor permission.  

REL 4490 Special Topics in Religious Thought 3 Credits  
Grading Scheme: Letter Grade  
Special topics in religious thought. (WR)  
Attributes: Satisfies 6000 Words of Writing Requirement  

REL 4611 Israelite Religion 3 Credits  
Grading Scheme: Letter Grade  
Comparative survey of literary, historical, ritual, and material aspects of ancient Israelite religion with evidence from Canaan, Mesopotamia, Greece, and Rome.  
Prerequisite: instructor permission.  

REL 4936 Special Topics in Religious Studies 3 Credits  
Grading Scheme: Letter Grade  
Advanced study for those with proper preparation of selected topics involving one or more religious traditions. (WR)  
Attributes: Satisfies 6000 Words of Writing Requirement  

Journalism  
Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

Graduates of the Department of Journalism work in traditional forms of media, emerging platforms, and in corporate roles. Ultimately, the department offers transferrable skills that create outstanding leaders with successful achievements across all fields. Curriculum
- UGRD/courses-schools/JRC/JRC_UGC0X/
- Combination Degrees
- International Communication Certificate
- Journalism
- Journalism | Sports and Media UF Online
- Mass Communication Studies Minor
- Mass Communication Studies Minor UF Online

Students not admitted to this college must have a 3.0 overall grade point average to enroll in journalism courses other than MMC 1000, MMC 2100, PUR 3000, and RTV 2100.

Courses

JOU 1001 Introduction to Journalism 1 Credit
Grading Scheme: Letter Grade
Overview of journalism in its many forms. A series of professional journalists introduce the news and information business. Offers preparation for a career in journalism.

JOU 2040 Writing Mechanics 1 Credit
Grading Scheme: Letter Grade
Prepares media writers for professional work, with a focus on mastering the basics of grammar, punctuation and spelling.

JOU 2100 Broadcast Writing Bootcamp 1 Credit
Grading Scheme: Letter Grade
This course explores the differences of writing for the ear vs. writing for the eye. Storytelling through methodologies traditionally associated with broadcast journalism?which can also be incorporated in digital and social storytelling?will be the focus. Examination of story structures and practical experience in writing scripts and sound-based stories.

JOU 3101 Reporting 3 Credits
Grading Scheme: Letter Grade
Instruction and practice reporting and writing basic news stories. Emphasizes style, clarity, accuracy, and responsibility in handling news.

Prerequisite: (WR)

Corequisite: MMC 2121.

Attributes: Satisfies 6000 Words of Writing Requirement

JOU 3109C Multimedia Writing 3 Credits
Grading Scheme: Letter Grade
Introduces news and public relations writing and the use of multimedia tools in gathering and disseminating information. Learn how to use multimedia tools for journalism work, interviewing techniques, AP style and the elements that make a story newsworthy. Consists of two hours of lecture and a three-hour lab each week.

Prerequisite: MMC 2121.

JOU 3110 Applied Fact Finding 3 Credits
Grading Scheme: Letter Grade
Instruction and practice in researching and solving complex news problems. Emphasizes enterprise, documentation and use of multiple sources, using standard reference works and public records.

Prerequisite: MMC 2121.

JOU 3121 Dataviz and Mapping 3 Credits
Grading Scheme: Letter Grade
Covers the foundational skills required for any professional communicator who seeks to tell a visual data story for audiences that rely on cellphones, as well as the basics of geospatial analysis. The emphasis is on data evaluation using code-free tools.

Prerequisite: MMC 2450.

JOU 3184 Beat Reporting 3 Credits
Grading Scheme: Letter Grade
Experience in reporting on a number of beats of significant public interest. Emphasizes responsible coverage of law enforcement, courts, schools, city and county government, health and the environment.

Prerequisite: JOU 3101 and JOU 3110 with minimum grades of C.

JOU 3212 Magazine Design 3 Credits
Grading Scheme: Letter Grade
Discover the principles and practice of design for various types of magazines. Learn how to use typography, photographs, illustrations and layouts to match graphic style to content for specific target audiences.

Prerequisite: MMC 2121.

JOU 3213 Design 3 Credits
Grading Scheme: Letter Grade
Design of various forms of print media. Emphasizes basic principles of design. Use of typography and photographs together.

Prerequisite: JOU 3220C.

JOU 3220C Visual Journalism 3 Credits
Grading Scheme: Letter Grade
Learn how words and visuals work together to tell a story. Develop the skills to interpret and evaluate photographs, maps, charts, interactive graphics, websites and motion graphics. Learn and apply basic design principles. Gain proficiency in Photoshop, InDesign and other software.

Prerequisite: JOU 1001 with minimum grade of C; JM designation.
JOU 3305 Data Journalism 3 Credits
Grading Scheme: Letter Grade
Experience data journalism by using tools such as spreadsheets, databases, and mapping programs to acquire, clean, and analyze data, and by performing basic data visualization. Focuses on using tools to find meaningful patterns in data and to report those patterns accurately.
Prerequisite: JOU 3101 or instructor permission.

JOU 3346L Multimedia Reporting 3 Credits
Grading Scheme: Letter Grade
Learn to use digital tools in reporting for Internet news sites and other online media. Focuses on the tools to gather audio and visual material that helps to tell a journalistic story.
Prerequisite: JOU 3101 with minimum grade of C.

JOU 3363 Introduction to Web Apps for Communicators 3 Credits
Grading Scheme: Letter Grade
Introduces web markup, coding, and programming for journalism and communications students with no prior coding experience. Explore media-industry best practices for front-end web development, problem solving and algorithmic thinking, and recent examples of interactives and apps from media organizations.
Prerequisite: Journalism and Communications major with sophomore standing or higher or instructor permission.

JOU 3601 Photographic Journalism 3 Credits
Grading Scheme: Letter Grade
Study and practice of photography as a major component of journalism. Emphasizes newspaper/magazine style photography and use of photographs; ethical, historical, legal, and stylistic aspects. Digital cameras provided by the department.
Prerequisite: Journalism and Communications major with sophomore standing or higher or instructor permission.

JOU 3920 Professional Practice 1 Credit
Grading Scheme: S/U
Explores both traditional job-seeking methods as well as digital job hunting. Covers best practices in how to prepare for an interview and how to reach out to and search for employers online. (S/U)
Prerequisite: junior standing in college.

JOU 4004 History of Journalism 3 Credits
Grading Scheme: Letter Grade
Origin, development and potentiality of print and broadcast media. Analyzes the evolution of standards, policies, methods and controls.

JOU 4008 Journalism Studies 3 Credits
Grading Scheme: Letter Grade
Gain media literacy and become an educated consumer, critical thinker and researcher of/about the media. Learn about research methods, media-business models and the connections between the media and economics.
Prerequisite: JOU 3101 with minimum grade of C.

JOU 4111 Advanced Reporting 3 Credits
Grading Scheme: Letter Grade
Produce quality news and feature stories for publication. Gain experience enhancing your news gathering and writing skills. Produce clips for your portfolio and as possible entries in the Hearst Journalism Awards Program.
Prerequisite: JOU 3101 with minimum grade of C.

JOU 4123 Investigative Reporting 3 Credits
Grading Scheme: Letter Grade
Learn to develop and execute an investigative reporting project employing various story platforms. Investigate a data-driven topic of public interest over the course of the semester; melding both primary research and in-depth interviewing.
Prerequisite: JOU 3101 and JOU 3110 with minimum grades of C.

JOU 4181 Public Affairs Reporting 3 Credits
Grading Scheme: Letter Grade
Instruction and practice in basic public affairs reporting; emphasizes responsible coverage of courts, schools and city and county government.
Prerequisite: JOU 3101 with minimum grade of C and JOU 3110.

JOU 4201 News Center Practicum 3 Credits
Grading Scheme: Letter Grade
Creating and editing local news content in our college's professional news center for broadcast and digital platforms serving north central Florida; emphasizes news judgement that serves the audience.
Prerequisite: JOU 3101.

JOU 4202 Advanced News Center Practicum 3 Credits
Grading Scheme: Letter Grade
Work in an advanced media setting on multiple projects, including writing, editing, and multimedia work. Emphasizes collaboration and decision-making in a real-world setting.
Prerequisite: JOU 4201 with minimum grade of C and instructor permission.

JOU 4214 Advanced Design 3 Credits
Grading Scheme: Letter Grade
Advanced design and production of various forms of print media. Emphasizes advanced principles, picture editing, typography, and use of other design elements.
Prerequisite: JOU 3101 and JOU 3213 with minimum grades of C and instructor permission.

JOU 4301 Literary Journalism 3 Credits
Grading Scheme: Letter Grade
Study and practice in literary journalism. Students may select a specialty and may work in writing or in writing and photography together.
Prerequisite: JOU 3101.

JOU 4308 Magazine and Feature Writing 3 Credits
Grading Scheme: Letter Grade
Preparation of features and articles for publication in newspapers and magazines coordinated with study of magazine editing problems. Supervised marketing of pieces produced.
Prerequisite: JOU 3101.

JOU 4311 Narrative Nonfiction Writing 3 Credits
Grading Scheme: Letter Grade
Advanced writing course in which students create article ideas, research and write magazine-length nonfiction articles and submit them for publication.
Prerequisite: JOU 4308 with minimum grade of B and instructor permission.

JOU 4313C Sports Reporting 3 Credits
Grading Scheme: Letter Grade
Instruction and practice in reporting sports with special emphasis on game coverage and interviewing techniques. Includes features, sidebars, advances and press conference coverage. Opportunities for publication of stories.
Prerequisite: JOU 3101.
JOU 4314 Environmental Journalism 3 Credits
Grading Scheme: Letter Grade
Introduces the most accurate, credible, and timeliest information on environmental science and related issues; discerning uncompromised expert sources, using human narratives, and descriptive storytelling to relate real world impact, and tapping the databases, records, and other tools used by environmental reporters.
Prerequisite: JOU 3101 or instructor permission.

JOU 4342 Reporting and Writing for Online Media 3 Credits
Grading Scheme: Letter Grade
Explore ways to adapt reporting practices to online media. Develop original journalistic stories in chunks and link them in usable structures that readers can navigate according to their own choices. Students focus on writing and on editing their own work as a necessary part of the process of writing. Emphasizes information design, not graphic design. Students produce both individual and group projects.
Prerequisite: JOU 3363.

JOU 4364 Advanced Web Apps for Communicators 3 Credits
Grading Scheme: Letter Grade
Add server-side (back-end) web skills to already developed client-side (front-end) web skills to develop web apps that include a server-side component to support presentations of stories/data for media. Also covers web scraping to enable journalists to gather open data.
Prerequisite: JOU 3363.

JOU 4447C Applied Magazines 3 Credits
Grading Scheme: Letter Grade
Provides experience in editing and publishing a magazine. Students produce both individual and group projects.
Prerequisite: JOU 4308 with minimum grade of C.

JOU 4510 Magazine Management and Publication 3 Credits
Grading Scheme: Letter Grade
Provides knowledge and training in magazine writing, editing, design, production and administration for magazine sequence majors. Stresses organization, concept, audience, budget, printing, advertising, circulation and promotion of magazines.
Prerequisite: JOU 4201 and JOU 3213 and JOU 4308.

JOU 4603 Specialized Journalistic Photography 3 Credits
Grading Scheme: Letter Grade
Journalistic still photography emphasizing technical proficiency. Specialized techniques and equipment stressed. Emphasizes color portraiture, studio products, lighting, flash and related skills. Assignments prepared using digital scanning. Students furnish some 35mm equipment and most supplies.
Prerequisite: JOU 3601 with minimum grade of C or instructor permission.

JOU 4604 Advanced Photographic Journalism 1 3 Credits
Grading Scheme: Letter Grade
Primary concern is portfolio-quality single story-telling pictures and multiple picture packages, including picture stories. Introduces computer page layout. Deadline pressure emphasized; overview of picture editor duties; trends; social implications; portfolio preparation. Assignments involve computer programs. Students furnish supplies, most 35mm camera equipment and flash.
Prerequisite: JOU 3601.

JOU 4605 Advanced Photographic Journalism 2 3 Credits
Grading Scheme: Letter Grade
Continues JOU 4604 with emphasis on the picture story, layouts and the study of historical figures in photojournalism. Pays particular attention to magazines, color and new developments in the profession. Duties of the picture editor covered in-depth. Prior knowledge of computer scanning and layout programs expected. Portfolio preparation concluded. Terminal course in the sequence. Students furnish supplies and most equipment.
Prerequisite: JOU 4603 and JOU 4604.

JOU 4700 Problems and Ethics of Journalism in Society 3 Credits
Grading Scheme: Letter Grade
Reading, analysis, and planning in current and projected issues in journalism, both in their professional and societal aspects.
Prerequisite: Journalism and Communications major with senior standing.

JOU 4905 Individual Problems in Journalism 1-3 Credits
Grading Scheme: Letter Grade
Students and the instructor concerned choose a problem or project which gives the student actual experience in his or her major field.
Prerequisite: at least 10 credits of journalism in the upper division and department permission.

JOU 4910 Journalism Undergrad Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application, depending on the topic. (S/U)
Prerequisite: JOU 3109C with grade of C or better.

JOU 4930 Special Study in Journalism 1-3 Credits
Grading Scheme: Letter Grade
Variable content provides opportunity for study in academic areas of journalism, such as the literature of journalism and other fields within the province of the college.
Prerequisite: instructor permission.

JOU 4940 Journalism Internship 1-3 Credits
Grading Scheme: S/U
Students and instructor select an appropriate work area related to the field of journalism for on-the-job training. Student works a minimum of 100 hours on the job for every credit to be received. Progress reports and summary required. (S-U)
Prerequisite: minimum 3.0 GPA and completion of specialized courses in journalism appropriate to the internship. Must have department approval to receive credit.

JOU 4950 Applied Journalism 3 Credits
Grading Scheme: Letter Grade
By assuming the role of a professional journalist, prepare for professional-caliber reporting, writing, and production of multimedia storytelling suitable for publication in various traditional/digital outlets. Classes are conducted through a series of seminars and heavily coached group projects.
Prerequisite: 4JM designation, JOU 3346 and minimum grades of C in JOU 4308, JOU 3213, JOU 3305, JOU 4201, and JOU 4604, or department permission.
MMC 1009 Introduction to Media and Communications 1 Credit
Grading Scheme: Letter Grade
Introduces the tools, resources and academic and extra-curricular activities offered by the College of Journalism and Communications. Includes lessons on the history and organization of the college and academic and career preparation.
Prerequisite: 1JM or exploratory major, 2JM, or 3JM classification, or instructor approval.

MMC 2121 Writing Fundamentals for Communicators 3 Credits
Grading Scheme: Letter Grade
One-third of the course is to ensure students have sufficient skill in grammar and punctuation to write with clarity. In two-thirds of the course, students put principles of good writing into practice with short writing assignments that have real-world applications.

MMC 2450 Data Literacy for Communicators 1 Credit
Grading Scheme: Letter Grade
Numeracy which enables data literacy; to use, evaluate, and communicate numbers in situations commonly faced in advertising, journalism, public relations, and telecommunications.

MMC 2604 Mass Media and You 3 Credits
Grading Scheme: Letter Grade
Examines roles and effects of contemporary mass media on modern societies. Considers rights, responsibilities and ethics of media, explores relationships between governments, audiences and media companies and reviews economic, political and social determinants of media content.

MMC 3030 Personal Branding for Communicators 1 Credit
Grading Scheme: Letter Grade
Professional development course that stresses how to communicate and connect as professionals. Emphasizes mastery of writing, speaking, presentation and employment-seeking skills, working with media, handling media interviews and using social media to establish a professional identity.
Prerequisite: Journalism and Communications major of junior standing or higher.

MMC 3203 Ethics and Problems in Mass Communications 3 Credits
Grading Scheme: Letter Grade
A cross-disciplinary introduction to ethics-relevant situations faced by media professionals. Topics include professional standards of conduct, audience representation and engagement and issues associated with the production, presentation and delivery of messages that reflect the best interests of audiences, clients and stakeholders.
Prerequisite: Journalism and Communications major of sophomore standing or higher and (ADV 3008 or MMC 1009 or MMC 2604 or PUR 3000 or RTV 3001 with minimum grade of C).

MMC 3254 Media Entrepreneurship 1 Credit
Grading Scheme: Letter Grade
Introduces media entrepreneurship with a focus on how digital technologies are transforming industries. Work in teams to develop new digital media businesses. Develop and pitch ideas, explore market analysis, develop business and financial plans, and study social media strategies.
Prerequisite: sophomore standing or higher.

MMC 3420 Consumer and Audience Analytics 3 Credits
Grading Scheme: Letter Grade
Provides practical analytical skill-sets, benefiting those who plan careers in analytics/research, social media, media business, advertising/marketing, and public relations.
Prerequisite: junior standing or higher.

MMC 3702 Rock 'N Roll and American Society Part 1 3 Credits
Grading Scheme: Letter Grade
Prerequisite: sophomore standing or higher.

MMC 3703 Sports Media and Society 3 Credits
Grading Scheme: Letter Grade
Relationships between sports, athletes, media, and audience. Includes the evolution of sports media from the early sportswriters to the day when athletes control their own messages via Twitter. Covers the various mediums (newspapers, magazines, books, radio, TV, online, forums, blogs, and social media) in terms of their history, function, and impact.
Prerequisite: sophomore standing or higher.

MMC 3742 Rock 'N Roll and American Society Part 2 3 Credits
Grading Scheme: Letter Grade
Prerequisite: Sophomore standing or higher.

MMC 4200 Law of Mass Communication 3 Credits
Grading Scheme: Letter Grade
Understanding the law, which guarantees and protects the privileges and defines the responsibilities of the mass media. Includes problems of constitutional law, libel, privacy, and governmental regulations.
Prerequisite: junior standing or higher.

MMC 4341L Advanced Online Media Production 3 Credits
Grading Scheme: Letter Grade
Advanced skills in appropriate technologies for producing online journalism. Sophisticated design of navigation interfaces for online information; screen/page design and site structure planning; web video, audio, photos and animation; web forms and databases. Emphasizes professional techniques and standards. Several software packages used; students must be able to take initiative in learning. Students complete a final portfolio project.
Prerequisite: JOU 3601 and MMC 3260.

PGY 3610 Survey of Photojournalism 2 Credits
Grading Scheme: Letter Grade
Not open to photojournalism majors. Introduces still photography; selection and use of photographs in the print media; legal, historical, stylistic, ethical and technical aspects. Picture-taking minimal compared to JOU 3601. Shared cameras provided.
Prerequisite: Journalism and Communications major of junior standing or higher.

RTV 3106 Writing and Reporting for Interactive Media 3 Credits
Grading Scheme: Letter Grade
Planning and executing news and online news projects. Course lecture, readings and discussion focus on locating, evaluating and tracking Internet sources, construction of multilinear news content and the integration of Internet technology into the news process.
Prerequisite: (RTV 2100 or MMC 2100) and RTV 3303.

RTV 3303 Audio News and Reporting 3 Credits
Grading Scheme: Letter Grade
Basic writing, reporting and production of radio news stories and newscasts. Students must purchase approved recorder for class.
Prerequisite: JOU 3101 with a minimum grade of C and permission of the department.
RTV 3304 Advanced Audio Storytelling 3 Credits
Grading Scheme: Letter Grade
Advanced reporting, writing, and production of radio news stories and newscasts against deadlines. Requires radio news laboratory.
Prerequisite: RTV 3303 with minimum grade of C and JOU 3101.

RTV 3305 In-Depth Broadcast Reporting 3 Credits
Grading Scheme: Letter Grade
Principles of investigative reporting as applied to television and radio news.
Prerequisite: RTV 3303 or RTV 4301 with a minimum grade of C.

RTV 3601 Broadcast Performance 3 Credits
Grading Scheme: Letter Grade
Development of basic radio and television announcing skills.

RTV 3632 Broadcast News Producing 3 Credits
Grading Scheme: Letter Grade
Producing news content for television. Includes instruction in ap- enps software, field producing techniques and production of long-form programs, with considerable emphasis on the role of the producer as gatekeeper and newsroom manager.
Prerequisite: JOU 3101 with a minimum grade of C and department permission.

RTV 4301 TV News Reporting 3 Credits
Grading Scheme: Letter Grade
Basic writing, reporting and production of television news stories and newscasts. Students must purchase two approved video cassettes for class.
Prerequisite: JOU 3101 with a minimum grade of C and department permission.

RTV 4594 Advanced Reporting for Interactive Media 3 Credits
Grading Scheme: Letter Grade
Teaches the advanced skills necessary to produce online journalism content utilizing video, audio, photo essays, and interactive graphics. Receive practical experience working in the college’s converged newsroom.
Prerequisite: RTV 3106 with minimum grade of C and JOU 3101.

RTV 4681 Advanced TV News Reporting 3 Credits
Grading Scheme: Letter Grade
News reporting, videography, writing and editing for television newscasts on deadline. One day-long lab in television newsroom required and purchase of additional approved video cassettes may also be required.
Prerequisite: RTV 4301 with minimum grade of C and JOU 3101.

RTV 4684 Advanced Broadcast News Producing 3 Credits
Grading Scheme: Letter Grade
Supervised assignment as line or field producer for radio, TV, or online news program or series. Requires eight hours per week in newsroom.
Prerequisite: RTV 3632, RTV 3401 with minimum grades of C and JOU 3101.

VIC 3001 Sight, Sound and Motion 4 Credits
Grading Scheme: Letter Grade
Visual literacy is a prerequisite for success in most areas of mass communication. Teaches fundamentals of design across print, web, and multimedia platforms. Also emphasizes how visual forms convey messages to readers.
Prerequisite: sophomore standing or higher.

Korean | Languages, Literatures, and Cultures

Courses
KOR 1130 Beginning Korean 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering speaking, listening, reading, writing, and cultural interaction.
Prerequisite: placement test.
KOR 1131 Beginning Korean 2 5 Credits  
Grading Scheme: Letter Grade  
Continued study of speaking, listening, reading, writing and cultural interaction.  
Prerequisite: KOR 1130 with minimum grade of C, or S, or the equivalent.

KOR 2230 Intermediate Korean 1 5 Credits  
Grading Scheme: Letter Grade  
Intermediate study of the four skills with new vocabulary and grammar.  
Prerequisite: KOR 1131 with minimum grade of C or S, or the equivalent.

KOR 2231 Intermediate Korean 2 5 Credits  
Grading Scheme: Letter Grade  
Continuation of intermediate study of the four skills with new vocabulary and grammar.  
Prerequisite: KOR 2230 with minimum grade of C or S, or the equivalent.

Landscape Architecture

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.  
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

The Department of Landscape Architecture conducts research to enhance the understanding and practice of the profession of landscape architecture and address societal challenges; trains practitioners and scholars who are committed to advancing the efficacy, impact, and knowledge of the discipline of landscape architecture; and provides service to the diverse communities of our state, region, and abroad.

Curriculum

- Combination Degrees
- Landscape Architecture Minor
- Landscape Architecture | 5-Year Professional Program

Courses

LAA 1920 Introduction to Landscape Architecture 3 Credits  
Grading Scheme: Letter Grade  
Introduces landscape architecture, a profession defined as an art and science of planning or designing on the land-arranging and creating spaces and objects in a landscape for human use. Open to all students.

LAA 2330 Site Analysis 3 Credits  
Grading Scheme: Letter Grade  
Inventory, analysis and evaluation of site development procedures; emphasis on landscape ecology.

LAA 2360C Principles of Landscape Architecture 5 Credits  
Grading Scheme: Letter Grade  
Builds upon the fundamental principles of design covered in previous studios to explore a range of landscape architectural issues. Site design problems incorporating a mixture of cultural, environmental, and historical topics provide a framework for students to develop their analytical skills, communication techniques, and general understanding of design.  
Prerequisite: LAA 2379C.

LAA 2376C Design Communications 1 4 Credits  
Grading Scheme: Letter Grade  
Introduces visualization techniques via a project based studio in landscape architectural design and planning. Covers traditional drawing conventions, alternative methods of exploratory visualization and the techniques and processes used to produce these methods of communication.

LAA 2379C Design Communications 2 4 Credits  
Grading Scheme: Letter Grade  
Advances the design communication strategies introduced in Design Communications I by further developing skills in digital visualization and communication techniques. Additionally, expanding their skill set to include advanced applications in to include landform and three dimensional space and object modeling and to be introduced to digital fabrication and three dimensional output.  
Prerequisite: LAA 2376C.

LAA 2532 Landscape Management 3 Credits  
Grading Scheme: Letter Grade  
Explores the relationship between planning and design decision-making and landscape management practices which are, in turn, based on the fundamental principles of ecology and landscape ecology.

LAA 2710 History of Landscape Architecture 3 Credits  
Grading Scheme: Letter Grade  
Landscape architecture is the art and science of arranging functions and spaces within the ecology of the land and the culture of the humans who inhabit it. Surveys the history of humans as it is expressed in such diverse areas as urban form, community planning, gardens, parks and recreational areas, agricultural patterns and land management. Open to all students. (H and N)

Attributes: General Education - Humanities, General Education - International

LAA 3350C Site Design and Planning Studio 5 Credits  
Grading Scheme: Letter Grade  
Application of basic site design principles on small-scale projects.  
Prerequisite: LAA 3352C.

LAA 3352C Planting Design Studio 5 Credits  
Grading Scheme: Letter Grade  
The planting design studio introduces the planting design process, its relationship to the site planning, existing site conditions, project locale and client needs.  
Prerequisite: LAA 2360C;  
Corequisite: ORH 3513.

LAA 3420 Landscape Construction 1 5 Credits  
Grading Scheme: Letter Grade  
Characteristics of land form and the effects of grading on drainage, soils and location of landscape architectural elements; pavings, low retaining walls; quantification skills.  
Prerequisite: LAA 2360C.
LAA 3421 Landscape Construction 2 5 Credits
Grading Scheme: Letter Grade
Design and construction drawings for public and private landscape structures, landscape utilities, and irrigation system layouts; specifications, takeoffs and estimating.
Prerequisite: LAA 3420.

LAA 4210 Landscape Architecture Professional Practice 4 Credits
Grading Scheme: Letter Grade
Preparation for professional practice and the understanding of the business of landscape architecture in private and public arenas.

LAA 4230 Theories of Landscape Architecture 3 Credits
Grading Scheme: Letter Grade
Explores the theories pertinent to the practice and study of landscape architecture. Addresses primarily aesthetic and cultural principles and values with related ecological aspects.

LAA 4260 Site Designed Green Roofs 3 Credits
Grading Scheme: Letter Grade

LAA 4353C Urban Design Studio 6 Credits
Grading Scheme: Letter Grade
Design studio emphasizes the physical, social-behavioral, and civil factors involved with the design and planning of towns, cities and the public space found therein. Projects range in scale and complexity including the design of a new urban environment and/or existing urban development.
Prerequisite: LAA 3352C.

LAA 4356 Envir Plan Des Studio 6 Credits
Grading Scheme: Letter Grade

LAA 4357 Senior Independent Project Seminar 2 Credits
Grading Scheme: S/U
Focuses on proposal writing and information gathering to support the senior independent project. (S-U)
Prerequisite: LAA 4353C and LAA 3421.

LAA 4358 Senior Independent Project 8 Credits
Grading Scheme: Letter Grade
This final semester-long project expands personal interests and talents, honed decision-making abilities, and sharpens professional skills through well-rounded, comprehensive completion of individual projects. Project must be approved by the faculty.
Prerequisite: completion of all previous design studios and construction courses.

LAA 4362 Design Communications for Landscape Architects 4 Credits
Grading Scheme: Letter Grade
Immersive experience in visualization techniques in landscape architectural design and planning. Covers traditional drawing conventions (plan, section/elevation and perspective) and builds skills in digital communication and visualization methods.
Prerequisite: Advanced standing in the program and/or instructor permission.

LAA 4394 Advanced Design Communication 3 Credits
Grading Scheme: Letter Grade
Develop skills in digital visualization and communication techniques, exploring digital media as a landscape architecture tool for design and fabrication; produce high quality perspective drawings and design diagrams using Rhino and Adobe CC, and digital fabrication techniques using UF’s Fab Lab.
Prerequisite: LAA 2376C and LAA 2379C.

LAA 4450 Landscape Architecture Design Implementation 5 Credits
Grading Scheme: Letter Grade
Integration of the principles of construction with design. A combination of lecture and studio complements instruction in the design studio class. Students complete a full set of construction documents to support their design concept prepared in the beginning of the course.
Prerequisite: LAA 3420 and LAA 3421.

LAA 4905 Special Studies in Landscape Architecture 1-6 Credits
Grading Scheme: Letter Grade
Studio investigations of topics in landscape architecture adjusted to individual needs of advanced undergraduate and graduate students. Prerequisite: instructor permission.

LAA 4935 Gardens of the World 3 Credits
Grading Scheme: Letter Grade
An assessment and discussion of works of landscape architecture with emphasis on user evaluation, design trends and research directions. Open to all majors. (H and N)
Attributes: General Education - Humanities, General Education - International

LAA 4940 Landscape Architecture Internship 3 Credits
Grading Scheme: S/U
Internship in a private/public sector office under the direction of a registered landscape architect; required for graduation. (S-U)

LAA 4941C Extended Internship with Landscape Architect 9 Credits
Grading Scheme: S/U
Internship in a private/public sector office under the direction of a registered landscape architect. (S-U)
Corequisite: LAA 4940.

Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

Curriculum
- African Languages
- Arabic
- Arabic Language and Literature Minor
Courses

General

LIT 2000 Introduction to Literature 3 Credits
Grading Scheme: Letter Grade
Examines the important role literature has played in individuals’ lives and in society, presenting a range of literary styles and genres, from different countries and historical periods. Special attention paid to development of critical skills of analysis and interpretation. (H)
Prerequisite: ENC 1101
Attributes: General Education - Humanities

African and Asian

HUM 2420 African Humanities 3 Credits
Grading Scheme: Letter Grade
A general education course similar in philosophy and purpose to the basic sequence. Content selected from the philosophies, literature, arts and music of various African countries and regions. (H and N)
Attributes: General Education - Humanities, General Education - International

HUM 2424 African Cultures and Literatures 3 Credits
Grading Scheme: Letter Grade
A culturally based study of folktales, proverbs, drama, poetry and novels; and how these forms are used to portray African arts and ideas. (H and N)
Attributes: General Education - Humanities, General Education - International

SSA 3730 Language in African Society 3 Credits
Grading Scheme: Letter Grade
The role of language in the development of African societies. Language and nation building. (S and N)
Attributes: General Education - International, General Education - Social Science

SSA 4905 Individual Work 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course.
Prerequisite: department permission.

SSA 4930 Special Topics in African Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in African studies.

SST 2501 African Elements in the Americas 3 Credits
Grading Scheme: Letter Grade
Traces African influence in the Americas from the arrival of Africans on the continent until the present.

SST 4502 African Oral Literature 3 Credits
Grading Scheme: Letter Grade
An overview of African oral literature, introduces methodological and theoretical problems, and examines the sociopolitical and cultural relevance of the literature.
Prerequisite: instructor permission.

Akan

AKA 1130 Beginning Akan 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

AKA 1131 Beginning Akan 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: AKA 1130 with minimum grade of C or the equivalent.

AKA 2200 Intermediate Akan 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: AKA 1131 with minimum grade of C, or the equivalent.

AKA 2201 Intermediate Akan 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study.
Prerequisite: AKA 2200 with minimum grade of C, or the equivalent.

AKA 3410 Advanced Akan 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: AKA 2201 with minimum grade of C, or the equivalent.

AKA 3411 Advanced Akan 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study.
Prerequisite: AKA 3410 with minimum grade of C, or the equivalent.

Amharic

AHM 1130 Beginning Amharic 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading, and writing.

AHM 1131 Beginning Amharic 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: AHM 1130 with minimum grade of C, or the equivalent.

AHM 2200 Intermediate Amharic 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: AHM 1131 with minimum grade of C, or the equivalent.
ARA 2201 Intermediate Amharic 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study.
Prerequisite: AHM 2200 with minimum grade of C, or the equivalent.

AHM 3410 Advanced Amharic 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: AHM 2201 with minimum grade of C, or the equivalent.

AHM 3411 Advanced Amharic 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study.
Prerequisite: AHM 3410 with minimum grade of C or the equivalent.

Arabic

ABT 3130 Arabic Literary Heritage 1 3 Credits
Grading Scheme: Letter Grade
A survey of classical Arabic literature in translation. Covers pre-Islamic poetry and early Islamic poetry, Omayyad, Abbasid and Andalusian literatures. All readings in English. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

ABT 3500 Arabic Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to Arabic culture with special reference to art, literature, religion and society. Emphasis on Arab contributions to philosophy, medicine, mathematics and architecture. All readings in English. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

ABT 4131 The Qur'an as Literature 3 Credits
Grading Scheme: Letter Grade
Approaches the Qur'an from a literary standpoint by examining its history, structure, style, major themes, and impact on Arabic literature, Islamic thought, and Muslim culture.
Prerequisite: ARA 1131 or ABT 3500 or REL 2000 or REL 2362 or REL 4361 or senior standing.

ARA 1130 Beginning Arabic 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading, and writing.

ARA 1131 Beginning Arabic 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: ARA 1130 with minimum grade of C or the equivalent.

ARA 2220 Intermediate Arabic 1 4 Credits
Grading Scheme: Letter Grade
Continuation of the study of standard Arabic language. Develops reading, writing, listening and speaking skills and helps with comprehension of written and audio texts. Students can use their knowledge of the Arabic language to clearly express their personal views in a meaningful and well-structured language.
Prerequisite: ARA 1131 with minimum grade of C or the equivalent.

ARA 2221 Intermediate Arabic 2 4 Credits
Grading Scheme: Letter Grade
Continues the study of Arabic language at the intermediate level. Emphasizes developing reading comprehension, writing, listening and speaking, and vocabulary and grammar.
Prerequisite: ARA 1131 with minimum grade of C or the equivalent.

ARA 2240 Spoken Arabic 3 Credits
Grading Scheme: Letter Grade
Develops listening and conversational skills at an intermediate level of proficiency. Focuses on a middle variety of Arabic known as Educated Spoken Arabic that enables successful communication with educated Arab speakers from virtually any country in the Arab world.
Prerequisite: ARA 1131.

ARA 3241 Spoken Arabic 3 Credits
Grading Scheme: Letter Grade
Develops listening and conversational skills at an intermediate level of proficiency. Focuses on a middle variety of Arabic known as Educated Spoken Arabic that enables successful communication with educated Arab speakers from virtually any country in the Arab world.
Prerequisite: ARA 2221.

ARA 3410 Advanced Arabic 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: ARA 2221 with minimum grade of C or the equivalent.

ARA 3411 Advanced Arabic 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study.
Prerequisite: ARA 3410 with minimum grade of C or the equivalent.

ARA 3510 The Arab Woman 3 Credits
Grading Scheme: Letter Grade
Examines the role and status of Arab women in their respective societies; specifically examines the internal dynamic of Arab culture that influences the role of the Arab woman. (H and N OR S and N) (WR)
Attributes: General Education - Humanities, General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

ARA 4400 Fourth Year Arabic 1 3 Credits
Grading Scheme: Letter Grade
Development to an advanced level of speaking, hearing, reading and writing of spoken and mass communication and literary Arabic. (H and N)
Prerequisite: ARA 3411 or the equivalent.

ARA 4401 Fourth Year Arabic 2 3 Credits
Grading Scheme: Letter Grade
Continuation of ARA 4400. Development of a more advanced level of speaking, hearing, reading and writing of spoken and mass communication and literary Arabic. (H and N)
Prerequisite: ARA 4400 or the equivalent.

ARA 4420 Arabic through the Texts 3 Credits
Grading Scheme: Letter Grade
For advanced students of Arabic. Teaches the more complex grammar, idiomatic expressions and sophisticated stylistic forms of the language. Required for the Arabic minor.
Prerequisite: ARA 3411 or the equivalent.
ARA 4822 Arabic Sociolinguistics 3 Credits
Grading Scheme: Letter Grade
Focus on the relationship between language and society in the Arab world. An examination of the different varieties of Arabic and the relationship between linguistic variation and other social variables, such as ethnicity, religion, urbanization, social class, gender, power and ideology.
Prerequisite: ARA 1131 or LIN 3010.

ARA 4850 Structure of Standard Arabic 3 Credits
Grading Scheme: Letter Grade
Describes and analyzes the sound system, word structure, and sentence structure of Arabic.
Prerequisite: ARA 1131 or LIN 3010.

ARA 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course. 
Prerequisite: instructor permission.

ARA 4930 Special Topics 3 Credits
Grading Scheme: Letter Grade
One of the core courses in the Middle Eastern languages and cultures major offered through interdisciplinary studies. Also useful for students in linguistics, religion, Arabic, Hebrew and Jewish studies.
Prerequisite: one year of Hebrew or equivalent, one year of Arabic or equivalent, LIN 3010 or equivalent, or instructor permission.

ARA 4956 Overseas Studies 1 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

Chinese

CHI 1130 Beginning Chinese 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing. Materials are designed for learners with no prior exposure to the language. Those with native background or education for four years or more in a Chinese speaking country must take a placement test before enrolling in any Chinese language class.

CHI 1131 Beginning Chinese 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: CHI 1130 with minimum grade of C, or S, or the equivalent.

CHI 2230 Intermediate Chinese 1 5 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: CHI 1131 with minimum grade of C, or S, or the equivalent.

CHI 2231 Intermediate Chinese 2 5 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: CHI 2230 with minimum grade of C, or S, or the equivalent.

CHI 2340 Chinese for Heritage Learners 1 4 Credits
Grading Scheme: Letter Grade
For those with significant bilingual speaking and listening backgrounds. Emphasis is on recognition of the characters and writing, and pronunciation and speaking.

CHI 2341 Chinese for Heritage Learners 2 4 Credits
Grading Scheme: Letter Grade
To consolidate the foundation built in Chinese for Heritage Learners 1, to expand vocabulary and to introduce more complex grammatical structures. Emphasis is on reading and writing. Those who successfully complete CHI 2341 are eligible for CHI 3410.

CHI 3403 Chinese Calligraphy 3 Credits
Grading Scheme: Letter Grade
Introduces and analyzes the documentary prose style used in Chinese newspapers and media. By studying a variety of short texts students develop skill in listening, speaking, reading and writing about issues commonly encountered in Chinese newspaper editorials and in television news programs, debate roundtables, or TV documentaries.
Prerequisite: CHI 2231 or JPN 2231 or CHI 3410 or JPN 3410 or CHI 3411 or JPN 3411 or CHW 4120 or CHW 4130 or CHW 4140 or JPW 4130 or JPW 4131 or instructor permission.
Attributes: General Education - Humanities, General Education - International

CHI 3410 Advanced Chinese 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures. (S and N)
Prerequisite: CHI 2231 with minimum grade of C, or S, or the equivalent.
Attributes: General Education - International, General Education - Social Science

CHI 3411 Advanced Chinese 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study of the four skills with attention to more complex structures. (S and N)
Prerequisite: CHI 3410 with minimum grade of C, or S, or the equivalent.
Attributes: General Education - International, General Education - Social Science

CHI 3440 Business Chinese 3 Credits
Grading Scheme: Letter Grade
Development of language skills and protocol issues used in Chinese business environments. Acquire vocabulary, phrases, and sentence patterns essential for business transactions and develop oral presentations, business cards, and resumes.
Prerequisite: completion of second-year Chinese required, or by permission.

CHI 4050 Fourth Year Chinese 1 3 Credits
Grading Scheme: Letter Grade
Introduces and analyzes the documentary prose style used in Chinese newspapers and media. By studying a variety of short texts students develop skill in listening, speaking, reading and writing about issues commonly encountered in Chinese newspaper editorials and in television news programs, debate roundtables, or TV documentaries.
Prerequisite: CHI 3411 or equivalent with a minimum grade of C.

CHI 4051 Fourth Year Chinese 2 3 Credits
Grading Scheme: Letter Grade
Solidifies and improves students' knowledge of advanced Chinese through literature as a continuation of CHI 4050. Emphasizes formulating strategies to learn the difference between written language and spoken language and approaches meaningful writing with an eye toward careful examination of authentic writing samples.
Prerequisite: CHI 4050
CHI 4850 Structure of Chinese 3 Credits
Grading Scheme: Letter Grade
Introduction to phonological, grammatical and discourse structures of Mandarin Chinese, with an emphasis on its contrastive aspects with the English language. (S and N)
Prerequisite: CHI 1131 with minimum grade of C or LIN 3010, or instructor permission.
Attributes: General Education - International, General Education - Social Science

CHI 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course. Includes all individual study courses offered by the Chinese section.

CHI 4911 Undergraduate Research in Language or Linguistics 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Language or Linguistics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Language or Linguistics.

CHI 4930 Special Topics in Chinese Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in Chinese studies.

CHI 4935 Senior Thesis 3 Credits
Grading Scheme: Letter Grade
Select a Chinese faculty member to act as director for an independent research project that culminates in the preparation of an honors thesis.
Prerequisite: minimum 3.5 GPA and instructor permission.

CHI 4940 Internship 1-6 Credits
Grading Scheme: Letter Grade
Gain practical experience that enhances classroom learning.

CHI 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade

CHT 3110 Chinese Literary Heritage 3 Credits
Grading Scheme: Letter Grade
Introduces pre-modern Chinese literature in translation. Topics chosen from classical poetry, short stories, novels and drama. Emphasis is on the interplay between orthodox values and the folk tradition. All readings in English. (H and N) (WR)

CHT 3111 Classical Chinese 1 3 Credits
Grading Scheme: Letter Grade
Introduction to classical Chinese prose with texts drawn mainly from early histories and philosophical writings (500 BC - AD 100). Emphasis on reading comprehension, grammar analysis and translation.
Prerequisite: CHI 2231 with minimum grade of C or instructor permission.

CHT 3123 Pre-Modern Chinese Fiction in Translation 3 Credits
Grading Scheme: Letter Grade
Pre-modern Chinese narrative from its philosophical and historical origins to the fiction at the turn of the 20th century. Emphasizes the 16th and 17th centuries when Chinese vernacular fiction flourished. (H and N)
Attributes: General Education - Humanities, General Education - International

CHT 3124 Modern Chinese Fiction in Translation 3 Credits
Grading Scheme: Letter Grade
A survey of modern Chinese fiction in translation. Samples are from the early 20th century through the contemporary era and include writers of the early Republic, the P.R.C. and Taiwan. Focus is on fiction as a vehicle for social change. All readings in English. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

CHT 3391 Chinese Film and Media 4 Credits
Grading Scheme: Letter Grade
Examination of Chinese cinema and other forms of media such as television, music and print culture in a broad sociopolitical and historical context. An interdisciplinary approach with a diversity of readings and multimedia tools incorporated into discussions.
Prerequisite: One ENG, CHI, CHT, or CHW course, or instructor permission.

CHT 3500 Chinese Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to Chinese culture with emphasis on its philosophy, language, society, art and people as a whole. All readings in English. (H and N)
Attributes: General Education - Humanities, General Education - International

CHT 3513 Taoism and Chinese Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to the general history and culture of Taoism in ancient and modern China: its thoughts, belief systems, cultural influences, practices and rituals.

CHT 3523 Hong Kong, Taiwan, and the New Global Cinema 4 Credits
Grading Scheme: Letter Grade
Overview of Sinophone film in Hong Kong, Taiwan, and the broader sphere of Chinese diaspora. Addresses film history, culture, and aesthetics.
Prerequisite: CHI 1130 or ENG 1400 or ENG 2300 or instructor permission.

CHT 4111 Dream of the Red Chamber 3 Credits
Grading Scheme: Letter Grade
Explores the intellectual and social life of traditional China through the 18th century epic novel, Story of the Stone. Also studies interpretive theories of the novel, both Chinese and Western. All readings are in English. (H and N OR S and N) (WR)

CHT 4603 Journey to the West 3 Credits
Grading Scheme: Letter Grade
Exploration of traditional Chinese religious culture, cultural history and literacy expression through a 100 chapter novel known as Journey to the West, or Monkey.
Prerequisite: one course in Chinese culture or instructor permission.

CHT 4911 Undergraduate Research in English Translation 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in English Translation. Projects may involve inquiry, design, investigation, scholarship, discovery or application in English Translation.

CHW 4120 Classical Chinese 1 3 Credits
Grading Scheme: Letter Grade
Introduction to classical Chinese prose with texts drawn mainly from early histories and philosophical writings (500 BC - AD 100). Emphasis on reading comprehension, grammar analysis and translation.
Prerequisite: CHI 2231 with minimum grade of C or instructor permission.
CZE 1130 Introduction to Czech Language and Culture 1 5 Credits
Grading Scheme: Letter Grade
CZE 1130 and its sequel, CZE 1131, offer a comprehensive introduction to Czech, using interactive methods to develop competence in speaking, listening, reading, writing and cultural interaction.
Prerequisite: CZE 1130 with minimum grade of C, or S, or the equivalent.

CZE 2200 Intermediate Czech 1 3 Credits
Grading Scheme: Letter Grade
Builds reading and writing skills while continuing to develop conversational ability and listening comprehension. Using a communicative approach, provides an overview of Czech grammar.
Prerequisite: CZE 1131 with minimum grade of C, or S, or the equivalent.

CZE 2201 Intermediate Czech 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study. Goal is to further develop speaking, listening, reading and writing skills.
Prerequisite: CZE 2200 with minimum grade of C, or S, or the equivalent.

CZT 3564 Modern Czech Culture and Society 3 Credits
Grading Scheme: Letter Grade
Overview of Czech literature, film, music, pop culture and visual arts as they were shaped by the events from 1918 to the present. (H and N)
Attributes: General Education - Humanities, General Education - International

DUT 1131 Beginning Dutch 2 5 Credits
Grading Scheme: Letter Grade
DUT 1131 and its sequel, DUT 1132, constitute the basic sequence in Dutch for the development of overall skill in the language. Open to those with little or no background in Dutch.
Prerequisite: DUT 1130 with minimum grade of C, or S, or the equivalent.

DUT 1130 Beginning Dutch 1 5 Credits
Grading Scheme: Letter Grade
DUT 1130 and its sequel, DUT 1131, constitute the basic sequence in Dutch for the development of overall skill in the language. Open to those with little or no background in Dutch.
Prerequisite: DUT 1130 with minimum grade of C, or S, or the equivalent.

DUT 1180 Elementary Dutch: Review and Progress 3 Credits
Grading Scheme: Letter Grade
For those who have previous experience in Dutch but who are not yet prepared for advanced elementary work in the language. FRE 1180 confirms overall language skill in preparation for FRE 1131.

FRE 1182 Preparation for Intermediate French 3 Credits
Grading Scheme: Letter Grade
Alternative to FRE 1131 for those who have had four years of high school French or equivalent, but whose placement scores are not high enough for FRE 2200. Combines the material of FRE 1130 and 1131 in one semester. Meets three times per week. FRE 2200 follows in the sequence.
Prerequisite: not for those with credit for FRE 1180 or FRE 1115.

FRE 2220 Intermediate French 1 4 Credits
Grading Scheme: Letter Grade
Devoted to grammar review and composition as well as to the advancement of spoken proficiency, FRE 2220 and its sequel, FRE 2221, develop reading and writing skills in French.
Prerequisite: FRE 1131 or FRE 1134 or FRE 1182.

FRE 2221 Intermediate French 2 4 Credits
Grading Scheme: Letter Grade
Continued grammar review. Emphasizes practice in reading and developing vocabulary. Selected readings in French and Francophone fiction.
Prerequisite: FRE 2220.
FRE 2274 Intensive French Abroad 6 Credits  
**Grading Scheme:** Letter Grade  
An immersion language course integrating the experience, observations and impressions of students living abroad with a French family (site announced annually). Emphasis on development of language proficiency and cultural awareness. Class meets 12 hours a week. Enhances speaking, reading, writing proficiency and the ability to communicate with native speakers.  
**Prerequisite:** FRE 1131 with minimum grade of C, or S, or the equivalent as proven by placement test score.

FRE 3070 Accelerated Introduction to French 5 Credits  
**Grading Scheme:** Letter Grade  
An accelerated introduction to French. Assumes no previous knowledge of French. Offers a four-skill introduction to the language for those who have completed intermediate level study in another Romance language.

FRE 3224 Applied French 1-5 Credits  
**Grading Scheme:** Letter Grade  
French-language reading and discussion section designed to accompany and complement areas of diverse content offered in other departments. Readings and discussions are in French to develop specific vocabulary and fluency related to the content of the companion course, as well as to provide an international perspective on the issues of the main course. (N)  
**Prerequisite:** FRE 2242 or instructor permission; 3 credits can count toward the major or minor.  
**Attributes:** General Education - International

FRE 3300 Grammar and Composition 3 Credits  
**Grading Scheme:** Letter Grade  
Systematic examination of French grammar. Practice of writing at several levels (summary of texts, descriptions, compositions). Textual analysis of literary and journalistic materials. First course of major sequence.  
**Prerequisite:** FRE 2274 or AP score of 5, IB score of 6 or SAT2 score of 700 and above.

FRE 3320 Composition and Stylistics 3 Credits  
**Grading Scheme:** Letter Grade  
Develops advanced writing skills through the stylistic study of literary and journalistic texts. Writing assignments focus on development of a variety of skills, including summaries, literary analyses, argumentative essays, etc. Aspects of French grammar are highlighted along with analytical terms and key vocabulary from texts.  
**Prerequisite:** FRE 3300 or the equivalent.

FRE 3410 French Conversation and Interaction 3 Credits  
**Grading Scheme:** Letter Grade  
Develops and refines oral and comprehension skills relating to different domains. New vocabulary ranging from the colloquial to the most refined of discourses enables students to recognize and use words and expressions in the proper context; material enables students to move from discussions about themselves to situations they are likely to encounter in daily life abroad, through interviewing techniques and professional interaction.  
**Prerequisite:** FRE 2221.

FRE 3440 Commercial French 3 Credits  
**Grading Scheme:** Letter Grade  
Introduction to business practices in France with particular emphasis on active use of business vocabulary and salient cultural differences. Major topics include written business communication, financial institutions, trade and advertising. (S and N)  
**Prerequisite:** FRE 2221 or the equivalent.  
**Attributes:** General Education - International, General Education - Social Science

FRE 3442 Contemporary French Commerce 3 Credits  
**Grading Scheme:** Letter Grade  
Continues the acquisition of business language with special attention paid to technical readings, marketing, case studies and the role of France in the European Union. Emphasis is also placed on oral communication skills and contrasting U.S. and French business culture.  
**Prerequisite:** FRE 3300 or instructor permission.

FRE 3500 France through the Ages 3 Credits  
**Grading Scheme:** Letter Grade  
A study of France within context of the principal historical events that have formed and transformed the nation state, its mentality and its cultural production. Special attention is given to the significant political, intellectual, religious, social and artistic currents that have marked France and its image from ancient times to the present. (H and N)  
**Prerequisite:** FRE 2221 or the equivalent.  
**Attributes:** General Education - Humanities, General Education - International

FRE 3502 Francophone Cultures 3 Credits  
**Grading Scheme:** Letter Grade  
A study of the cultures of countries or regions where French is used as the (or one of the) official language(s) or, in a less official capacity, by a segment of the population. Study of some of the historical, conceptual, practical and problematic aspects of Francophonie. Also concentrates on one specific area (the Caribbean or West Africa or Quebec, etc., on a rotating basis). Literary samples are included. (H and N)  
**Prerequisite:** FRE 2221 or the equivalent.  
**Attributes:** General Education - Humanities, General Education - International

FRE 3564 Contemporary French Culture 3 Credits  
**Grading Scheme:** Letter Grade  
An overview of contemporary France that may include the study of politics, economics, education and the arts as well as ideas of national and ethnic identity and France's place in the EU. (H and N)  
**Prerequisite:** FRE 2221 or the equivalent.  
**Attributes:** General Education - Humanities, General Education - International

FRE 3780L Corrective Phonetics 3 Credits  
**Grading Scheme:** Letter Grade  
A survey of the units of speech cast in practical terms and organized by classes of sounds with particular emphasis on rhythm, vowels, nasalization, diphthongs and the complex phenomena that occur at word transitions in French. Taught in French, in an audio laboratory, with the instructor as monitor and with a manual designed for individualized instruction.  
**Prerequisite:** FRE 2221 or the equivalent.

FRE 4411 French for Proficiency 2 Credits  
**Grading Scheme:** Letter Grade  
Oral practice with emphasis on the structure of oral communication and oral presentation. Learn to utilize organizational frames, highlight transitions and make oral reports clear and accessible. Speech acts and alternative options in communication are given ample attention. Especially useful to those planning to use French in a variety of professions.  
**Prerequisite:** FRE 3410 or the equivalent.
FRE 4420 Writing in French 3 Credits
Grading Scheme: Letter Grade
Advanced writing course that provides a systematic study (or review) of French syntax, vocabulary and style with the help of drill sessions. Also may include some training in literary translation. A number of quizzes and written compositions.
Prerequisite: FRE 3320 or instructor permission.

FRE 4501 The French Language in the Americas 3 Credits
Grading Scheme: Letter Grade
Examination of the presence of French in the Americas. Topics covered include: the origin of French in the Americas, language practices of Francophone communities, linguistic characteristics of the varieties of French, the effect of language contact on language behavior and representations and identity issues. Focus varies from year to year.
Prerequisite: FRE 3320.

FRE 4780 Introduction to French Phonetics and Phonology 3 Credits
Grading Scheme: Letter Grade
An introduction to French phonological processes, providing explanatory evidence for the production of speech sounds, for the classification of sounds, for their interrelationship with one another (gliding, nasalization, assimilation), for morphological and syllable structure, for specifically French phenomena such as liaison, elision, final consonant drop, schwa drop, and for the relationship of morphology to phonology, especially in the verb system.
Prerequisite: FRE 3320; LIN 3010 recommended.

FRE 4822 Sociolinguistics of French 3 Credits
Grading Scheme: Letter Grade
Sociolinguistic issues in the French-speaking world: language variation, discourse analysis, attitudes toward varieties of French and contact with speakers of other languages.
Prerequisite: FRE 3320; LIN 3010 recommended.

FRE 4850 Introduction to the Structure of French 3 Credits
Grading Scheme: Letter Grade
Explores the French language as a system of communication and mental representation. Analyzes the morphological, syntactic and semantic aspects of contemporary French, and emphasizes the historical, psychological and sociological dimension of linguistic investigation.
Prerequisite: FRE 3320; LIN 3010 recommended.

FRE 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
For advanced major and minors who seek independent work not offered in another course. Must be arranged individually with French faculty.
Prerequisite: department permission; only three credits can count toward the minor or major.

FRE 4906 Honors Thesis 1-3 Credits
Grading Scheme: Letter Grade
Directed research leading to a 30-40 page essay on a topic approved by the thesis director; registration for two semesters is highly recommended. Not a substitute for a required course in the French major.
Prerequisite: 3.5 minimum GPA.

FRE 4911 Undergraduate Research in Language or Linguistics 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Language or Linguistics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Language or Linguistics.

FRE 4930 Revolving Topics in French Studies 1-5 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in French studies.
Prerequisite: FRE 3320 and FRW 3100 or FRE 3101, or the equivalent.

FRE 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

FRT 2460 French Texts and Contexts 3 Credits
Grading Scheme: Letter Grade
Selected readings in English translation of major works of French literature. For those with no knowledge of French, not for credit in the major. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

FRT 2930 Special Topics in French Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Rotating topics in French literature and culture; taught in English.

FRT 3004 Monuments and Masterpieces of France 3 Credits
Grading Scheme: Letter Grade
Study of selected masterpieces of French literature, in English translation. Works to be considered as they relate to history and as they can be read in strictly literary terms. Topic varies from year to year.
Prerequisite: sophomore standing or higher.

FRT 3520 French Cinema 4-8 Credits
Grading Scheme: Letter Grade
Critical, theoretical and historical study of French cinema. Topics will be announced. Content may include key directors, 1930s cinema, nostalgia and masculinity in 1980s films, World War II cinema, and Colonial and Postcolonial cinema. Open to French majors and non-majors and is taught in English. (H and N)
Attributes: General Education - Humanities, General Education - International

FRT 3561 Women in French Literature and/or Cinema 3-4 Credits
Grading Scheme: Letter Grade
Introduction to the rich heritage of feminist traditions in France and Francophone countries through an exploration of women writers and thinkers (filmmakers, theorists), primarily of the 19th and 20th centuries. Selected topics include L’criture fminine (Writing the Feminine), autobiographical writing by French and Francophone women, women in French cinema and representations of women in French film and literature. Read, discuss and analyze a broad spectrum of primary and secondary sources from a feminist viewpoint. (H and N OR S and N)
Attributes: General Education - Humanities, General Education - International, General Education - Social Science

FRT 4523 European Identities, European Cinemas 4 Credits
Grading Scheme: Letter Grade
Provides knowledge of different cultures, languages and identities that make up contemporary European cinemas.

FRT 4911 Undergraduate Research in English Translation 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in English Translation. Projects may involve inquiry, design, investigation, scholarship, discovery or application in English Translation.
FRW 4355 Modern French Poetry from Baudelaire to the Present 3 Credits
Grading Scheme: Letter Grade
Combines an historical approach with close readings of poetic texts; also introduces a number of theoretical and critical writings. Although traditional poetic texts are studied, the works of less frequently taught poets are also presented.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4391 Concepts of French Cinema 4 Credits
Grading Scheme: Letter Grade
A critical and historical study of the representation of gender and ethnicity in French cinema.
Prerequisite: FRE 3320.

FRW 4532 Survey of French Romantic Literature 3 Credits
Grading Scheme: Letter Grade
A rotating topics tracing the development and the main tenets of 19th century French Romanticism. Concentrates on various themes and genres, including poetry, theater and the novel as well as the socioeconomic and cultural matrices that fostered the movement. Emphasizes the relationship between literature and the visual arts, constructions of gendered, cultural and artistic subjectivities, exoticism (spatial, temporal and mystical voyages) and representations of Paris and French society. Beginning with pre-Romantic authors, moves on to Lamartine, Stendhal, Hugo, Vigny, Balzac, Sand, Musset, Desbordes-Valmore, Nerval and Baudelaire.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4552 Introduction to Realism and Naturalism 3 Credits
Grading Scheme: Letter Grade
A rotating topics tracing the development and the main tenets of latter 19th century literary, artistic and cultural productions. Concentrates on various themes and genres, including poetry, theatre and the novel as well as the socioeconomic and cultural matrices that fostered movements arising between 1850 and the fin de sicle. Specific attention may be devoted to definitions of Realism, Naturalism and Symbolism; representations of modern life and the industrialization of the literary market; the infiltration of scientific and mechanistic thought into literary productions (poetry or prose); and representations of women and the female body, of Paris and Parisian society.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4762 Readings in Francophone Literatures and Cultures (excluding the Caribbean and Sub-Saharan Africa) 3 Credits
Grading Scheme: Letter Grade
Rotating topics in the literatures and cultures of the Francophone world, including North America (Quebec), Europe (Belgium, Switzerland and regional France), Asia (Vietnam, Indian Ocean) and the Middle East.
Prerequisite: FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.
FRW 4770 African and Caribbean Literatures 3 Credits  
**Grading Scheme:** Letter Grade  
The production of Sub-Saharan African writers from its inception to the present through examination of representative works and figures, genres (epics, poetry, drama, novels), discourses and critics that inform the productions. Particular attention is paid to historical, political and cultural issues that figure in the development and orientation of African literature in French. Occasional inclusion of Caribbean literature for purpose of comparison.  
**Prerequisite:** FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4822 Introduction to French Critical Theory 3 Credits  
**Grading Scheme:** Letter Grade  
Review and comparative analysis of approaches to literature from Romanticism to Deconstructionism. Reading and writing are examined through the eyes of Sainte-Beuve, Taine, Lansot, Bachelard, the Geneva School, Ricoeur, Bataille, Blanchot, Barthes, Foucault, Genette, Lacan, Kristeva, Todorov, Derrida and others.  
**Prerequisite:** FRE 3320 and FRW 3100 or FRW 3101, or the equivalent.

FRW 4911 Undergraduate Research in Target Language 0–3 Credits  
**Grading Scheme:** Letter Grade  
Provides firsthand, supervised research in Target Language. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Target Language.

FRW 4932 Senior Seminar in French Literature 3 Credits  
**Grading Scheme:** Letter Grade  
Rotating topics for French majors and minors in the senior year. Topics rotate given research interests or field of specialization of the teaching faculty. Recent topics have included La Posie du Voyage; L’Ecriture Fminine; Le Discontinu chez La Rocheoucault et La Bruyre; Charles Baudelaire: pote/critique de la vie moderne; Qu’est-ce que la Rvolte?  
**Prerequisite:** FRE 3320 and FRW 3100 or FRW 3101.

**German**

GER 1125 Discover German 1 5 Credits  
**Grading Scheme:** Letter Grade  
First semester of a two-semester sequence that includes Discover German 2. In this innovative online course, students acquire basic skills in the German language and use the Internet as a resource to explore aspects of German culture and everyday life.

GER 1126 Discover German 2 5 Credits  
**Grading Scheme:** Letter Grade  
Continuation of Discover German 1. Continue acquiring basic skills in the German language using the Internet to explore aspects of German culture and everyday life.  
**Prerequisite:** GER 1125.

GER 1130 Beginning Intensive German 1 5 Credits  
**Grading Scheme:** Letter Grade  
The first semester of a two-semester sequence that includes Beginning Intensive German 2. Emphasis is on spoken German. Reading, writing and grammar are also included in the program. Communication in German is enhanced by the use of multimedia and regular meetings with tutors. Supervised homework and drill sessions in small groups.

GER 1131 Beginning Intensive German 2 5 Credits  
**Grading Scheme:** Letter Grade  
Continuation of Beginning Intensive German 1. Emphasis is on spoken German. Reading, writing and grammar are also included in the program. Communication in German is enhanced by the use of multimedia and regular meetings with tutors. Supervised homework and drill sessions in small groups.  
**Prerequisite:** GER 1130 with minimum grade of C, or S, or the equivalent.

GER 2200 Intermediate German 1 3 Credits  
**Grading Scheme:** Letter Grade  
Participants will improve their skills in the four basic areas (reading, writing, listening comprehension, speaking) by reviewing elements of grammar, particularly morphology (i.e., word forms), and by expanding vocabulary. Upon successful completion, students may go directly to Advanced German.  
**Prerequisite:** GER 1104 or GER 1126 or GER 1131, or the equivalent.

GER 2225 Online Intermediate German 3 Credits  
**Grading Scheme:** Letter Grade  
Employs web-based learning resources to develop B1-level proficiencies via the reinforcement of speaking and listening comprehension, reading, and writing skills, and an exploration of selected cultural topics. For self-starters who are comfortable and successful working individually and in groups in an online learning environment.  
**Prerequisite:** (GER 1130 and GER 1131) or (GER 1125 and GER 1126) or (10 university-level credit hours of beginning German) or the equivalent.

GER 2240 Intermediate German 2 3 Credits  
**Grading Scheme:** Letter Grade  
Objectives include improving reading and speaking skills at the intermediate level. Upon completion participants will be able to pronounce German words more accurately, listen with greater comprehension to German and respond to questions about a variety of recorded texts. Upon successful completion, students may go directly to Advanced German.  
**Prerequisite:** GER 1104 or GER 1126 or GER 1131, or the equivalent.

GER 2270 Intermediate German Abroad 3–9 Credits  
**Grading Scheme:** Letter Grade  
A review of the major aspects of grammar in a context that enhances understanding of German and aims at a level of proficiency above the A2 level of the Common European Framework of Reference for Languages.  
**Prerequisite:** GER 1126 with a minimum grade of C.

GER 3234 Reading German Texts 3 Credits  
**Grading Scheme:** Letter Grade  
Upon completion, students will be able to read literary and nonliterary texts and to identify the more common syntactical, stylistic and rhetorical elements.  
**Prerequisite:** GER 2200 or GER 2240.

GER 3300 Writing German Texts 3 Credits  
**Grading Scheme:** Letter Grade  
Special focus on strategies, grammar and vocabulary involved in writing in German. Works toward a writing proficiency level that corresponds to the B1 level as defined by the European Framework of Reference for Languages and measured by the Goethe Institute exam Zertifikay Deutsch.  
**Prerequisite:** GER 2200 or GER 2270 with a minimum grade of C.
GER 3330 German Language and Culture 1 3 Credits
Grading Scheme: Letter Grade
Introduces German civilization through grammar review, vocabulary building, reading and essay writing. Upon completion, students will be able to discuss cultural and literary concepts in German. (H)
Prerequisite: GER 2200 or GER 2240.
Attributes: General Education - Humanities

GER 3332 Topics in German Film and Culture 1 Credit
Grading Scheme: Letter Grade
GER 3224 is taught as a FLAC accompaniment to various courses. A discussion forum covering different topics in German film and culture. All materials and class discussions will be in German.
Prerequisite: GER 1104 or GER 1126 or GER 1131, or equivalent, and one 2000-level GER course.

GER 3401 German Grammar Review 3 Credits
Grading Scheme: Letter Grade
An intensive semester-long review of German grammar.
Prerequisite: GER 2200 or GER 2240, or undergraduate coordinator permission.

GER 3413 German Listening, Comprehension and Speaking 3 Credits
Grading Scheme: Letter Grade
Develops the ability to understand and produce basic kinds of speech (descriptions, simple stories, etc.).
Prerequisite: GER 2200 or GER 2240, or instructor permission.

GER 3440 German in Business 3 Credits
Grading Scheme: Letter Grade
Study of Wirtschaftsdeutsch and the ability to read and write texts in German for international business transactions. Acquire the ability to communicate in German in professional business settings. (N and S)
Prerequisite: GER 2200 or GER 2240.
Attributes: General Education - International, General Education - Social Science

GER 3470 Advanced German Abroad 3-9 Credits
Grading Scheme: Letter Grade
Practical, in-class communication exercises at an advanced level in comprehension, speaking, reading and writing. Prepares students to achieve a proficiency level above the B1 level as established by the Common European Framework for Languages.
Prerequisite: GER 2200 or GER 2270 with a minimum grade of C, or undergraduate coordinator permission.

GER 4482 Cultural Identity and Intercultural Competence 3 Credits
Grading Scheme: Letter Grade
Listening comprehension and speaking ability in work involving German cultural identity, online and in class.
Prerequisite: GER 3410 or instructor permission.

GER 4930 Variable Topics in German Studies 3 Credits
Grading Scheme: Letter Grade
Working with German media such as major newspapers, magazines, radio and television programs, students will refine their language skills to a level similar to the B2 level of the Common European Framework for Languages.
Prerequisite: GER 3401 with a minimum grade of C or 6 credits of coursework at the GER 3000-level.

GER 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

GET 2100 German Literary Heritage 3 Credits
Grading Scheme: Letter Grade
Knowledge of German is not required. Upon completion participants will be able to discuss major works of German literature, mainly from the 18th to the 20th century. Texts and lectures in English. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

GET 3003 German Culture and Civilization 1 3 Credits
Grading Scheme: Letter Grade
Knowledge of German is not required. Introduces German civilization from the earliest times to the beginning of the 19th century. Become acquainted with German literature, philosophy, art, music and architecture. Readings and discussions in English.

GET 3004 Modern German Culture and Civilization 3 Credits
Grading Scheme: Letter Grade
Knowledge of German is not required. Introduces German civilization in the 19th and 20th centuries. Participants will be able to discuss developments in German literature, philosophy, art, music and architecture. Texts and lectures in English.

GET 3200 Medieval Literary Culture 3 Credits
Grading Scheme: Letter Grade
Studies the German literary culture of the Holy Roman Empire during the Middle Ages in its broader European context. Examines literary culture in relation to Latin literary traditions, as well as to other cultural domains such as the arts, architecture, theology, and politics. (H) (WR)
Attributes: General Education - Humanities, Satisfies 4000 Words of Writing Requirement

GET 3201 Early Modern Literary Culture 3 Credits
Grading Scheme: Letter Grade
Studies the early modern literary culture of German-speaking regions of the Holy Roman Empire in the broader European context. Examines this culture's relation to pan-European developments, including the Renaissance, Humanism, the Reformation, and developments in the arts, architecture, theology, and politics.
Prerequisite: sophomore standing or higher.

Grading Scheme: Letter Grade
Gain a working knowledge of the history and culture of Berlin from 1871 to the present by exploring literature, painting, and film. Authors and artists include Mann, Brecht, Dix, and Wenders.

GET 3520 Early German Cinema: 1945-6 4 Credits
Grading Scheme: Letter Grade
Historical overview of the most influential films of German classical cinema, including how they relate to the social reality of the 1920s and 30s.

GET 3580 Representations of War in Literature and Visual Media 3 Credits
Grading Scheme: Letter Grade
Study of the shifting cultural representations of war (literature/art) in the 20th century, focusing primarily on European history, culture and politics. Primary sources include Mann, Remarque, Boll, Celan, Grosz, and Kiefer.
GET 3930 Variable Topics in German Studies 3-9 Credits
Grading Scheme: Letter Grade
Variable topics in German Studies in English translation.

GET 4521 Women and German Cinema 4 Credits
Grading Scheme: Letter Grade

GET 4523 New Cinema 1945 to the Present 4 Credits
Grading Scheme: Letter Grade

GET 4930 Variable Topics in German Studies 3-9 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in German studies, in English translation.
Prerequisite: 3 credits at 3000 level or above, or instructor permission.

GEW 3100 Survey of German Literature 1 3 Credits
Grading Scheme: Letter Grade
The major periods and works of German literature from the Middle Ages to the 18th century. Texts in German.
Prerequisite: instructor permission.

GEW 3101 Survey of German Literature 2 3 Credits
Grading Scheme: Letter Grade
The major periods of German literature from the 18th century to the present. Authors include Goethe, Kleist, Kafka, Mann, Grass, and Christa Wolf. Readings in German. (H)
Attributes: General Education - Humanities

GEW 3930 Variable Topics in German Studies 3-9 Credits
Grading Scheme: Letter Grade
Variable topics in German Studies.
Prerequisite: GER 2000 or instructor permission.

GEW 4301 Introduction to German Drama and Theater 3 Credits
Grading Scheme: Letter Grade
Survey of German drama from the late medieval period to the present. Introduction to major forms, periods and authors such as Lessing, Goethe, Schiller, and Brecht. (H)
Prerequisite: GEW 3100 and GEW 3101, or the equivalent.
Attributes: General Education - Humanities

GEW 4400 Medieval Studies in German 3 Credits
Grading Scheme: Letter Grade
Read some shorter verse narratives dealing with love and chivalric adventures in the original language of the German Middle Ages (ca. 1200). In conjunction with this reading, students will learn some of the basic features of the poetic idiom (Middle High German) as well as some of the issues and problems involved in the production, transmission and editing of medieval manuscripts. (H)
Prerequisite: GEW 3100 and GEW 3101.
Attributes: General Education - Humanities

GEW 4401 German Cities as Cultural Centers 3 Credits
Grading Scheme: Letter Grade
Study of German, Austrian, and Swiss cities as cultural centers. Employs online learning resources to expand knowledge of urban cultures in German-speaking Europe and to develop linguistic and cultural proficiency toward the B2 level according to CEFR standards.
Prerequisite: GER 3401 or instructor permission.

GEW 4730 Modern German Literature 3 Credits
Grading Scheme: Letter Grade
The major trends of German literature in the first half of the 20th century, including impressionism, expressionism, Neue Sachlichkeit, workers literature and Nazi culture. Works by Thomas Mann, Hermann Hesse and Bertolt Brecht are discussed. (H)
Prerequisite: GEW 3100 and GEW 3101.
Attributes: General Education - Humanities

GEW 4731 Contemporary German Literature 3 Credits
Grading Scheme: Letter Grade
Participants will learn to discern the major trends of post WW II German literature. Students will be able to recognize the key features of works by such German authors as Bll, Grass, Weiss and Wolf, and by such Swiss and Austrian writers as Frisch, Drenennatt and Handke. (H)
Prerequisite: any two 3000-level courses.
Attributes: General Education - Humanities

GEW 4750 Women in German Literature 3 Credits
Grading Scheme: Letter Grade
The image of women in representative works of German literature. Study of the main themes and structures in selected works by major women writers of German-speaking countries and their unique contribution to German culture and literature. Students will use an interdisciplinary approach to literature and will learn the basic tools of gender studies. (H)
Prerequisite: any two 3000-level courses.
Attributes: General Education - Humanities

GEW 4760 Ethnic Writing in Germany 3 Credits
Grading Scheme: Letter Grade
Writings (prose, poetry, critical essays) of significant authors of non-German descent (i.e., Spaniards, Italians, Turks, Iranians) from the 1950s to the present. Insights into the lives and thinking of significant minority groups throughout history. (H and N)
Prerequisite: GER 3234 or instructor permission.

GEW 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course. Available only by special arrangement.

GEW 4911 Undergraduate Research in German 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in German. Projects may involve inquiry, design, investigation, scholarship, discovery or application in German.

GEW 4930 Seminar in Germanic Languages and Literatures 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in Germanic language or literature. (H)
Prerequisite: any two 3000-level courses or instructor permission.
Attributes: General Education - Humanities

MEM 2500 The Tales of King Arthur 3 Credits
Grading Scheme: Letter Grade
The great literary works of the Arthurian tradition and the manner in which the tales of King Arthur serve, from their 6th century Celtic origins to the present, to articulate the interests and values of different social groups throughout history. (H and N)
Attributes: General Education - Humanities, General Education - International

Grading Scheme: Letter Grade
Studies monastic and courtly-chivalric communities as these evolved in the Middle Ages. Explores architecture, art, literature and music illustrate how different monastic and chivalric communities saw the world and their place in it. (H and N)
Attributes: General Education - Humanities, General Education - International

Haitian Creole
HAI 1130 Beginning Haitian Creole 1 5 Credits
Grading Scheme: Letter Grade
HAI 1130 and its sequel, HAI 1131, constitute the basic sequence for development of conversational skills and grammar essentials in the language.
Prerequisite: bilingual students are encouraged to speak to the instructor as they may be able to enter directly into HAI 1131 to satisfy their foreign language requirement.

HAI 1131 Beginning Haitian Creole 2 5 Credits
Grading Scheme: Letter Grade
Second part of the basic Haitian Creole sequence for development of conversational skills and grammar essentials in the language.
Prerequisite: HAI 1130 or the equivalent.

HAI 2200 Intermediate Haitian Creole 1 3 Credits
Grading Scheme: Letter Grade
Concentrates on conversation and readings and provides an introduction to Haitian culture through music and film.
Prerequisite: HAI 1131 or the equivalent.

HAI 2201 Intermediate Haitian Creole 2 3 Credits
Grading Scheme: Letter Grade
Continued concentration on conversation with added emphasis on reading and perspectives on issues related to the Haitian way of living.

HAI 3930 Haitian Culture and Society 3 Credits
Grading Scheme: Letter Grade
Central aspects of history, politics, environment and development are addressed, including gender relations, medicine, education, work, race and class. No knowledge of Haitian Creole is required.

HAI 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course. Must be arranged individually with Haitian faculty.
Prerequisite: department permission.

HAI 4911 Undergraduate Research in Language, Linguistics, Literature, Culture in Some Combination of English, 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

HAT 3503 Haitian Culture and Literature in Translation 3 Credits
Grading Scheme: Letter Grade
Examines representations of Haiti and its culture through Haitian literature, art, film, and music.
Attributes: General Education - Humanities, General Education - International

HAT 3564 Haitian Culture and Society 3 Credits
Grading Scheme: Letter Grade
Central aspects of history, politics, environment and development are addressed, including attention to gender relations, medicine, education, work, race and class. No knowledge of Haitian Creole is required. (H and N OR S and N) (WR)
Attributes: General Education - Humanities, General Education - International, General Education - Social Science, Satisfies 2000 Words of Writing Requirement

HAT 3700 Introduction to Haitian Creole Linguistics 3 Credits
Grading Scheme: Letter Grade
Class examines the major sub-fields of linguistics by means of the Haitian Creole language. Haitian Creole syntax, morphology, phonology, semantics and lexicon are introduced in addition to sociolinguistics, dialectology, language planning, bilingualism and language contact. (H and N OR H and D) (WR)
Attributes: General Education - Diversity, General Education - Humanities, General Education - International, Satisfies 2000 Words of Writing Requirement

HAT 4911 Undergraduate Research in Language, Linguistics, Literature, Culture in Some Combination of English, 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

JMT 3500 Jamaican Creole, Reggae, and Rastafari 3 Credits
Grading Scheme: Letter Grade
Studies Jamaican Creole, reggae music, and Rastafari religion and culture; introduces the language, music, and religion of the Caribbean island. Methodology includes linguistics, ethnomusicology, and religious studies to read Jamaican Creole, interpret reggae songs, and analyze the Rastafari culture to which they link.
Prerequisite: Sophomore standing or LAS 2001 Introduction to Latin American Studies or AFH 2000 Africa in World History or AFA 2000 Introduction to African-American Studies or REL 2000 Introduction to Religion
Attributes: General Education - Humanities, General Education - International, Satisfies 2000 Words of Writing Requirement

Hebrew
A placement test is given during the first class meeting.

HBR 1130 Beginning Modern Hebrew 1 5 Credits
Grading Scheme: Letter Grade
Beginning Hebrew covers four skills: listening, speaking, reading, and writing. For those with no prior exposure to the language.

HBR 1131 Beginning Modern Hebrew 2 5 Credits
Grading Scheme: Letter Grade
Continues beginning Hebrew, covering four skills: listening, speaking, reading, and writing.
Prerequisite: HBR 1130 with minimum grade of C or S, or the equivalent.

HBR 2220 Intermediate Modern Hebrew 1 4 Credits
Grading Scheme: Letter Grade
Intermediate Hebrew study covers four skills: listening, speaking, reading, and writing with new vocabulary and grammar.
Prerequisite: HBR 1131 with minimum grade of C or S, or the equivalent.
HBR 2221 Intermediate Modern Hebrew 2 4 Credits  
**Grading Scheme:** Letter Grade  
Continues intermediate Hebrew covering four skills: listening, speaking, reading, and writing.  
**Prerequisite:** HBR 2220 with minimum grade of C or S, or the equivalent.

HBR 3410 Advanced Modern Hebrew 1 3 Credits  
**Grading Scheme:** Letter Grade  
Advanced study of the four skills: listening, speaking, reading, and writing with attention to more complex structures. (H and N)  
**Prerequisite:** HBR 2220 or HBR 2133 with minimum grade of C or S, or the equivalent.  
**Attributes:** General Education - Humanities, General Education - International

HBR 3411 Advanced Modern Hebrew 2 3 Credits  
**Grading Scheme:** Letter Grade  
Continues advanced Hebrew study of the four skills: listening, speaking, reading, and writing with attention to more complex structures. (H and N)  
**Prerequisite:** HBR 3410 with minimum grade of C or S, or the equivalent.  
**Attributes:** General Education - Humanities, General Education - International

HBR 3412 Hebrew News and Media 3 Credits  
**Grading Scheme:** Letter Grade  
Continues advanced Hebrew study of the four skills: listening, speaking, reading, and writing. Texts and instruction are in Hebrew.  
**Prerequisite:** HBR 3411 or equivalent.

HBT 3564 Motherhood in Modern Hebrew Literature 3 Credits  
**Grading Scheme:** Letter Grade  
Applied feminist theories regarding motherhood to the field of modern Hebrew literature.

HMW 4200 Readings in Modern Hebrew Literature 1 3 Credits  
**Grading Scheme:** Letter Grade  
Readings in modern Hebrew novels, short fiction and poetry. While the study of literature is emphasized, some language work is presented to help with reading comprehension. Texts and instruction are in Hebrew.  
**Prerequisite:** HBR 3411 or equivalent.

HMW 4201 Readings in Modern Hebrew Literature 2 3 Credits  
**Grading Scheme:** Letter Grade  
Readings in modern Hebrew texts, including recently published stories and poems. Class is instructed in Hebrew.  
**Prerequisite:** HMW 4200 or equivalent.

**Hindi-Urdu**

HIN 1130 Beginning Hindi 1 5 Credits  
**Grading Scheme:** Letter Grade  
Beginning study covering reading, writing, listening, and speaking with emphasis on acquisition of devanagari script.

HIN 1131 Beginning Hindi 2 5 Credits  
**Grading Scheme:** Letter Grade  
Continued study with emphasis on grammar and vocabulary essential to basic communicative functions.  
**Prerequisite:** HIN 1130 with minimum grade of C, or the equivalent, or instructor permission.

HIN 2200 Intermediate Hindi 1 3 Credits  
**Grading Scheme:** Letter Grade  
Intermediate study of the four skills with new vocabulary and grammar.  
**Prerequisite:** HIN 1131 or equivalent, or instructor permission.

HIN 2201 Intermediate Hindi 2 3 Credits  
**Grading Scheme:** Letter Grade  
Continuation of intermediate study.  
**Prerequisite:** HIN 2200 or equivalent, or instructor permission.

HIN 4930 Special Topics in Hindi-Urdu 3 Credits  
**Grading Scheme:** Letter Grade  
Variable topics dealing with specific issues in and in-depth study of prose or poetic genres in Hindi and/or Urdu. Supplementary critical readings in English.  
**Prerequisite:** HIN 2201 or equivalent, or instructor permission.

**Italian**

ITA 1130 Beginning Italian 1 5 Credits  
**Grading Scheme:** Letter Grade  
ITA 1130 and its sequel, ITA 1131, constitute the basic sequence in Italian. Emphasis on the development of broad competence in the language. Oral-aural approach ensures competence in the four skills.

ITA 1131 Beginning Italian 2 5 Credits  
**Grading Scheme:** Letter Grade  
Continuation of the basic sequence in Italian. Emphasis on the development of broad competence in the language. Oral-aural approach ensures competence in the four skills.  
**Prerequisite:** ITA 1130 with minimum grade of C, or S, or the equivalent.
ITA 2220 Intermediate Italian 1 4 Credits
Grading Scheme: Letter Grade
Enhances knowledge of Italian in all four skills: listening, reading, speaking and writing. The goal is to create communicative competence that enables students to advance to third year study and to benefit from their visits to Italy. (H and N)
Prerequisite: ITA 1131 or the equivalent.
Attributes: General Education - Humanities, General Education - International

ITA 2221 Intermediate Italian 2 4 Credits
Grading Scheme: Letter Grade
Completes second year sequence with emphasis on composition, literature and communication skills. (H and N)
Prerequisite: ITA 2220 or the equivalent.
Attributes: General Education - Humanities, General Education - International

ITA 3070 Accelerated Introduction to Italian 5 Credits
Grading Scheme: Letter Grade
Intensive course designed primarily for speakers or students with knowledge of another Romance language or strong linguistic abilities in another foreign language. Assumes no prior study of Italian and offers a complete four-skill (listening, speaking, reading and writing) introduction to the language.
Prerequisite: fourth semester of another romance language or instructor permission.

ITA 3224 Italian Enhancement Section 1-5 Credits
Grading Scheme: Letter Grade
Italian-language reading and discussion to accompany and complement courses in other departments. Readings and discussions are in Italian to develop vocabulary and fluency related to the content of the companion course and to provide an international perspective on the issues of the main course. (N)
Prerequisite: ITA 2221 or instructor permission. Not for credit in the major.
Attributes: General Education - International

ITA 3420 Grammar and Composition 1 3 Credits
Grading Scheme: Letter Grade
Intensive language course designed to master grammatical principles, increase vocabulary and enhance writing and composition skills.
Prerequisite: ITA 2221 or equivalent.

ITA 3500 Italian Civilization 3 Credits
Grading Scheme: Letter Grade
Variable topics class that introduces Italian civilization in historical, artistic and literary contexts. (H and N)
Prerequisite: ITA 2221 or the equivalent, or section coordinator or undergraduate advisor permission.
Attributes: General Education - Humanities, General Education - International

ITA 3564 Contemporary Italian Culture 3 Credits
Grading Scheme: Letter Grade
Variable topics class focusing on modern Italy through literature, art and mass media, and current events. (H and N)
Prerequisite: ITA 2221 or the equivalent, or section coordinator or undergraduate advisor permission.
Attributes: General Education - Humanities, General Education - International

ITA 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
For advanced minors who seek independent work not offered in another course. Must be arranged individually with Italian faculty. Only three credits can count toward the minor.
Prerequisite: program coordinator permission.

ITA 4911 Undergraduate Research in Language or History/Culture in Italian 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

ITT 2530 Italian Literature and Film 3 Credits
Grading Scheme: Letter Grade
Study of modern Italian narrative and its adaptation to film by major Italian directors. (H and N)
Attributes: General Education - Humanities, General Education - International

ITT 3431 Italy and Pilgrimages 3 Credits
Grading Scheme: Letter Grade
Through lectures, readings and discussions in English, ITT 3431 considers the continuing presence of Rome and other Italian cities as metaphors and focal points of Italian artistic and literary sensibilities. (H and N)
Attributes: General Education - Humanities, General Education - International

ITT 3521 Italian Cinema 4 Credits
Grading Scheme: Letter Grade
Critical and historical study of Italian film and directors. Topics may vary. (H and N)
Attributes: General Education - Humanities, General Education - International

ITT 3540 Murder Italian Style: Crime Fiction and Film in Italy 3 Credits
Grading Scheme: Letter Grade
Explores Italian crime fiction and film. Analysis considers specificity of Italian tradition while placing texts and films in a broader cultural and historical context, enabling critically and politically informed reading of the many applications and subversions of the generic formula. Taught in English.
Prerequisite: sophomore standing or higher or instructor permission.

ITT 3541 Gangsters and Godfathers: Italian Mafia Movies 3 Credits
Grading Scheme: Letter Grade
Examines Italian cinematic representations of organized criminality, in particular Sicilian Cosa Nostra and Neapolitan Camorra. Analysis considers specificity of Italian tradition while placing films in a broader history of the gangster genre to allow for a critically and politically informed reading of Italian generic subversions. Taught in English.
Prerequisite: sophomore standing or higher or instructor permission.

ITT 3700 The Demolition of Man: Italian Perspectives on the Jewish Holocaust 3 Credits
Grading Scheme: Letter Grade
Explores a sampling of Italys texts on the Jewish Holocaust, centering on the work of survivor and theorist of the camps, Primo Levi. Material also encompasses the history of the Italian-Jewish community as well as a selection of Italian films dealing with the realities and ethical implications of the camps.
Prerequisite: sophomore standing or higher or instructor permission.
ITW 3930 Special Topics in Italian Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Selected topics in Italian literature, civilization and culture, including crossover influence of media. Can focus on one epoch’s influence on another.

ITT 4911 Undergraduate Research in Italian in English Translation 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

ITT 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

ITW 3100 Introduction to Italian Literature 1 3 Credits
Grading Scheme: Letter Grade
The origins of early Italian literature, its central themes and the cultural factors that influenced its development. Develops an ability to read in Italian and to read critically. (H)
Prerequisite: ITA 2221 or the equivalent, or section coordinator or undergraduate advisor permission.
Attributes: General Education - Humanities

Grading Scheme: Letter Grade
Semester-long, in-depth examination of Dante Alighieris text, Inferno, with the support of a variety of visual materials and digital resources devoted to Dante and his world. Special attention paid to the political, historical and religious context in which Dante wrote. Taught in Italian.
Prerequisite: ITA 3420 or ITA 3500 or ITA 3564 or ITW 3100 or ITW 3101 or instructor permission.

ITW 4911 Undergraduate Research in Literature in Italian 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Literature in Italian. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Literature in Italian.

Japanese
JPN 1130 Beginning Japanese 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading, and writing. JPN 1130 has a strict attendance policy; if registered students miss two or more class meetings during drop/add, they may be dropped from the class upon notification by the instructor.
Prerequisite: placement test.
JPN 1131 Beginning Japanese 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar. JPN 1131 has a strict attendance policy: if registered students miss two or more class meetings during drop/add, they may be dropped from the class upon notification by the instructor.
Prerequisite: JPN 1130 with minimum grade of C, or S, or the equivalent as proven by placement test.

JPN 2230 Intermediate Japanese 1 5 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar. JPN 2230 has a strict attendance policy: if registered students miss two or more class meetings during drop/add, they may be dropped from the class upon notification by the instructor.
Prerequisite: JPN 1131 with minimum grade of C, or S, or the equivalent as proven by placement test.

JPN 2231 Intermediate Japanese 2 5 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study. JPN 2231 has a strict attendance policy: if registered students miss two or more class meetings during drop/add, they may be dropped from the class upon notification by the instructor.
Prerequisite: JPN 2230 with minimum grade of C, or S, or the equivalent as proven by placement test.

JPN 3410 Advanced Japanese 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures. JPN 3410 has a strict attendance policy: if registered students miss two or more class meetings during drop/add, they may be dropped from the class upon notification by the instructor. (H and N)
Prerequisite: JPN 2231 with minimum grade of C, or S, or the equivalent as proven by placement test.
Attributes: General Education - Humanities, General Education - International

JPN 3411 Advanced Japanese 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study. JPN 3411 has a strict attendance policy. If registered students miss two or more class meetings during drop/add, they may be dropped from the class upon notification by the instructor. (H and N)
Prerequisite: JPN 3410 with minimum grade of C, or S, or the equivalent as proven by placement test.
Attributes: General Education - Humanities, General Education - International

JPN 3440 Business Japanese 3 Credits
Grading Scheme: Letter Grade
Provides grammatical structures and essential business vocabulary, develops conversation strategies and presentation skills, and raises awareness of the customs and cultural differences in Japanese business interactions.
Prerequisite: JPN 2231 with minimum grade of C or S, or the equivalent.

JPN 3730 Language in Japanese Society 3 Credits
Grading Scheme: Letter Grade
Analysis of variation in regional dialects: gender-based differences, pragmatics of interpersonal communication, language acquisition and discourse structure. (S and N)
Attributes: General Education - International, General Education - Social Science

JPN 4415 Japanese Translation: Theory and Practice 3 Credits
Grading Scheme: Letter Grade
Key concepts and approaches of translation studies applied to the translation of Japanese to English, and English to Japanese, in a variety of media, genre, and text types.
Prerequisite: JPN 3410 or equivalent with a minimum grade of C or instructor permission.

JPN 4850 Structure of Japanese 3 Credits
Grading Scheme: Letter Grade
Linguistic analysis of modern standard Japanese. Topics include phonology, morphology, syntax, semantics and writing. Readings and discussions in English. (S and N)
Prerequisite: JPN 1131 or instructor permission.
Attributes: General Education - International, General Education - Social Science

JPN 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course. Available only by special arrangement.

JPN 4911 Undergraduate Research in Language or Linguistics 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research in Language or Linguistics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Language or Linguistics.

JPN 4930 Special Topics in Japanese Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in and in-depth study of special topics in Japanese studies.

JPN 4935 Senior Honors Thesis 3 Credits
Grading Scheme: Letter Grade
Select a Japanese faculty member to act as director for an independent research project that culminates in an honors thesis.
Prerequisite: Minimum 3.5 GPA and instructor permission.

JPN 4940 Internship 3 Credits
Grading Scheme: Letter Grade
Faculty (or delegated authority) supervised internship. Requires a written post-internship report.
Prerequisite: instructor and department permission.

JPN 4956 Overseas Studies 1 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

JPN 4957 Overseas Studies 2 1-15 Credits
Grading Scheme: Letter Grade
Revolving topics provide a mechanism for coursework taken at a foreign university as part of an approved study abroad program to be transferred to UF. Credits taken will be entered in the student’s transcript and may or may not count toward graduation, at the discretion of major’s advisors.
Prerequisite: undergraduate advisor permission.
JPT 3100 Tales of Kyoto 3 Credits
Grading Scheme: Letter Grade
An investigation of literary texts from the 8th through the 17th centuries presented within the framework of Western literary and feminist criticism. (H and N)
Attributes: General Education - Humanities, General Education - International

JPT 3120 Modern Japanese Fiction in Translation 3 Credits
Grading Scheme: Letter Grade
A critical examination of stories, autobiographies and secondary criticism from the 19th century to the present. Become familiar with the forms and topics of criticism through Japanese and Western sources. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

Grading Scheme: Letter Grade
Examines a variety of literary, historical, anthropological, and theoretical texts to explore racial and social issues related to Japan's imperial past. (H and N)
Corequisite: JPT 3500 recommended.
Attributes: General Education - Humanities, General Education - International

JPT 4911 Undergraduate Research in English Translation 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

JPT 4956 Overseas Studies 1 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

JPT 4957 Overseas Studies 2 1-15 Credits
Grading Scheme: Letter Grade
Revolving topics provide a mechanism for coursework taken at a foreign university as part of an approved study abroad program to be transferred to UF. Credits taken will be entered in the student’s transcript and may or may not count toward graduation, at the discretion of major’s advisors.
Prerequisite: undergraduate advisor permission.
LGL 1130 Beginning Lingala 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.
Prerequisite: JPN 3411 with minimum grade of C or S, or the equivalent.

LGL 2200 Intermediate Lingala 1 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with new vocabulary and grammar.
Prerequisite: LGL 1130 with minimum grade of C, or the equivalent.

LGL 2201 Intermediate Lingala 2 3 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: LGL 2200 with minimum grade of C, or the equivalent.

LGL 3410 Advanced Lingala 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: LGL 2201 with minimum grade of C, or the equivalent.

LGL 3411 Advanced Lingala 2 3 Credits
Grading Scheme: Letter Grade
Continuation advanced study of the four skills with attention to more complex structures.
Prerequisite: LGL 3410 with minimum grade of C, or the equivalent.

LGL 3411 Advanced Lingala 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study of the four skills with additional vocabulary and grammar.
Prerequisite: LGL 2231 with minimum grade of C, or the equivalent.

LGL 3412 Advanced Lingala 3 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: LGL 3411 with minimum grade of C, or the equivalent.

KOR 1130 Beginning Korean 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering speaking, listening, reading, writing, and cultural interaction.
Prerequisite: placement test.

KOR 1131 Beginning Korean 2 5 Credits
Grading Scheme: Letter Grade
Continued study of speaking, listening, reading, writing and cultural interaction.
Prerequisite: KOR 1130 with minimum grade of C, or the equivalent.

KOR 2230 Intermediate Korean 1 5 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: KOR 1131 with minimum grade of C or S, or the equivalent.

KOR 2231 Intermediate Korean 2 5 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: KOR 2230 with minimum grade of C or S, or the equivalent.

KOR 2230 Intermediate Korean 1 5 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: KOR 2231 with minimum grade of C or S, or the equivalent.

KOR 2231 Intermediate Korean 2 5 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: KOR 2230 with minimum grade of C or S, or the equivalent.

KOR 2231 Intermediate Korean 2 5 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: KOR 2230 with minimum grade of C or S, or the equivalent.

KOR 3411 Advanced Korean 2 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: KOR 3410 with minimum grade of C, or the equivalent.

PLT 2560 Poland through Movies 4 Credits
Grading Scheme: Letter Grade
Introductory survey of more than one thousand years of Polish history, illustrated on film.

PLT 3520 Polish Cinema 4 Credits
Grading Scheme: Letter Grade
Examination of principal developments and major directors of modern Polish cinema with emphasis on the visual and narrative techniques that distinguish Polish cinema from Hollywood and other national cinemas. Taught in English. (Cross-listed with ENG 4135.)

PLT 3930 Special Topics in Polish Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics in Polish literature, culture and society. Taught in English.

POL 1130 Introduction to Polish Language and Culture 1 5 Credits
Grading Scheme: Letter Grade
A two-semester Polish language sequence that introduces the basics of Polish language and culture.

POL 1131 Introduction to Polish Language and Culture 2 5 Credits
Grading Scheme: Letter Grade
Second in the two-semester sequence. Helps to expand vocabulary, command of Polish grammar, and the ability to speak Polish.
Prerequisite: POL 1130 or placement test.

POL 2220 Intermediate Polish 1 4 Credits
Grading Scheme: Letter Grade
Improve speaking, reading, writing, and listening comprehension skills by reviewing and expanding the language principles introduced in POL 1130 and POL 1131.
**POL 2221 Intermediate Polish 2 4 Credits**  
*Grading Scheme:* Letter Grade  
Improve speaking, reading, writing, and listening comprehension skills by reviewing and building upon the language principles introduced in POL 2220.

**Russian**

**RUS 1130 Introduction to Russian Language and Culture 1 5 Credits**  
*Grading Scheme:* Letter Grade  
RUS 1130 and its sequel, RUS 1131, offer a comprehensive introduction to Russian, using interactive methods to develop competence in speaking, listening, reading, writing and cultural interaction.

**RUS 1131 Introduction to Russian Language and Culture 2 5 Credits**  
*Grading Scheme:* Letter Grade  
Continuation of introductory language and cultural study.  
*Prerequisite:* RUS 1130 with minimum grade of C or S, or the equivalent.

**RUS 2220 Intermediate Russian 1 4 Credits**  
*Grading Scheme:* Letter Grade  
Intermediate study with exercises in sentence patterns, vocabulary building and oral and written discourse in Russian.

**RUS 2340 Russian for Heritage Learners 3 Credits**  
*Grading Scheme:* Letter Grade  
A practical overview of Russian grammar and writing for those with significant bilingual speaking and listening backgrounds. Devotes special attention to reading, writing and vocabulary development.  
*Prerequisite:* Instructor or undergraduate coordinator permission.

**RUS 3240 Oral Practice in Russian 3 Credits**  
*Grading Scheme:* Letter Grade  
Development of advanced speaking and listening skills in conversational Russian.

**RUS 3400 Intermediate Russian 2 4 Credits**  
*Grading Scheme:* Letter Grade  
Continued study with exercises in sentence patterns, vocabulary building and sustained oral and written discourse.  
*Prerequisite:* RUS 2220 or the equivalent.

**RUS 4000 Advanced Russian 1 3 Credits**  
*Grading Scheme:* Letter Grade  
Advanced study of the four skills (speaking, listening, reading, and writing) with attention to more complex structures.  
*Prerequisite:* RUS 4000 with a minimum grade of C or S or the equivalent as proven by a placement test.

**RUS 4001 Advanced Russian 2 3 Credits**  
*Grading Scheme:* Letter Grade  
Advanced study of the four skills (speaking, listening, reading, and writing) with attention to more complex structures.  
*Prerequisite:* RUS 4000 with a minimum grade of C or S or the equivalent.

**RUS 4300 Advanced Grammar and Composition 3 Credits**  
*Grading Scheme:* Letter Grade  
Study of advanced grammar and composition in Russian.  
*Prerequisite:* one 3000-level Russian course or the equivalent.

**RUS 4411 Advanced Oral Practice 3 Credits**  
*Grading Scheme:* Letter Grade  
Continued development of advanced speaking and listening skills based on authentic written, audio and video texts from contemporary Russian culture.  
*Prerequisite:* RUS 3240.

**RUS 4501 Russian Studies Research Seminar 3 Credits**  
*Grading Scheme:* Letter Grade  
Introduces significant trends and ideas in Russian literary, cultural, historical, and critical studies. Develop the ability to understand and produce critical scholarly argument in a variety of formats, including class discussion, formal presentation and a written research project.

**RUS 4502 Language and Culture of the Russian Business World 3 Credits**  
*Grading Scheme:* Letter Grade  
Combines advanced language training, a practical introduction to the language and culture of the contemporary Russian business world, and extensive practice translating and interpreting texts used in business settings. Focuses on issues such as starting companies and joint ventures, advertising, and setting up and conducting official meetings and telephone calls. Basic Russian business ethics are also studied.  
*Prerequisite:* RUW 3101 and RUW 4341 or the equivalent or instructor permission.

**RUS 4503 Theory and Practice of Russian-English Translation 1 3 Credits**  
*Grading Scheme:* Letter Grade  
The first part of a two-part translation series focusing on the theory and practice of conveying word semantics in Russian-English and English-Russian translation.  
*Prerequisite:* RUW 3101 and RUW 4341 or instructor permission.

**RUS 4504 Theory and Practice of Russian-English Translation 2 3 Credits**  
*Grading Scheme:* Letter Grade  
The second part of the translation series focusing on the theory and practice of conveying sentence and paragraph semantics in Russian-English and English-Russian translation.  
*Prerequisite:* RUW 3101 and RUW 4341 or instructor permission.

**RUS 4700 Structure of the Russian Language 3 Credits**  
*Grading Scheme:* Letter Grade  
Introduction to the phonology, morphology and syntax of contemporary standard Russian from a formal and semantic standpoint. Also includes the development of Russian word stress and a survey of the development of Russian verb tense, aspect and mood.  
*Prerequisite:* one 3000-level Russian course or the equivalent.

Grading Scheme: Letter Grade
Introduction to the literature, film and culture of 20th century Eastern and Central Europe. (H and N)
Attributes: General Education - Humanities, General Education - International

RUT 3930 Variable Topics in Russian Studies 1-9 Credits
Grading Scheme: Letter Grade
Variable topics in Russian studies, taught in English translation.

RUT 4440 Pushkin and Gogol 3 Credits
Grading Scheme: Letter Grade
Major works of Russian literature written the first half of the 19th century. Readings and discussions in English. (H)
Attributes: General Education - Humanities
RUT 4450 Russian Modernism 3 Credits
Grading Scheme: Letter Grade
Introduction to the major artistic contributions of Russian modernism in the context of the political, social, and cultural upheavals of late Imperial to Stalinist Russia (1890 - 1939). (H and N)
Attributes: General Education - Humanities, General Education - International

RUT 4911 Undergraduate Research in Russian Studies, English Translation 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

RUT 4930 Variable Topics in Russian Studies 1-9 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in Russian studies, taught in English translation.
Prerequisite: one 3000-level Russian course or instructor permission.

RUW 3101 Reading Russian Literature 3 Credits
Grading Scheme: Letter Grade
An in-depth study of the vocabulary, structures, reading strategies and cultural background needed for understanding and interpreting a broad range of Russian prose fiction. (H)
Prerequisite: RUS 3400 or the equivalent.
Attributes: General Education - Humanities

RUW 4301 Russian Drama and Poetry 3-6 Credits
Grading Scheme: Letter Grade
Study of plays and poems by major Russian writers from the 19th and 20th centuries. Readings in Russian.

RUW 4341 Russian Media Culture 3 Credits
Grading Scheme: Letter Grade
An in-depth study of the history and recent trends in the Russian mass media and web-based technology and their impact on culture and society.
Prerequisite: RUS 4000 or RUS 4001 with minimum grade of C.

RUW 4370 Russian Short Prose 3 Credits
Grading Scheme: Letter Grade
Critical study of selected Russian short stories. Readings in Russian. (H)
Attributes: General Education - Humanities

RUW 4630 Reading Eugene Onegin: Pushkin and Nabokov 3 Credits
Grading Scheme: Letter Grade
An in-depth study of one of Russia's most revered literary works, combining close readings of Pushkin's original with analyses of operatic, artistic and cinematic adaptations by Chaikovsky, Nabokov and others. Readings and discussions primarily in Russian.
Prerequisite: RUW 3101 or the equivalent, or instructor permission.

RUW 4911 Undergraduate Research in Russian Studies, Target Language 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

RUW 4932 Selected Readings in Russian 1-3 Credits
Grading Scheme: Letter Grade
Special topic, author, genre or movement in Russian literature. (H)
Prerequisite: one 3000-level course or the equivalent.
Attributes: General Education - Humanities

Swahili
SSW 3303 Swahili Oral Literature 3 Credits
Grading Scheme: Letter Grade
Introduces various genres of Swahili oral literatures and shows their importance, relevance and function within Swahili culture.

SWA 1130 Beginning Swahili 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

SWA 1131 Beginning Swahili 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: SWA 1130 with minimum grade of C, or S, or the equivalent.

SWA 2200 Intermediate Swahili 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: SWA 1131 with minimum grade of C or S, or the equivalent.

SWA 2201 Intermediate Swahili 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: SWA 2200 with minimum grade of C or S, or the equivalent.

SWA 3410 Advanced Swahili 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: SWA 2201 with minimum grade of C, or the equivalent.

SWA 3411 Advanced Swahili 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study of the four skills with attention to more complex structures.
Prerequisite: SWA 3410 with minimum grade of C, or S, or the equivalent.

SWA 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course.
Prerequisite: instructor permission.

SSW 4100 Readings in Swahili 3 Credits
Grading Scheme: Letter Grade

Vietnamese
VTN 1130 Beginning Vietnamese 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

VTN 1131 Beginning Vietnamese 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: VTN 1130 with minimum grade of C or S, or the equivalent.

VTN 2220 Intermediate Vietnamese 1 4 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: VTN 1131 with minimum grade of C or S, or the equivalent.
VTN 2221 Intermediate Vietnamese 2 4 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: VTN 2220 with minimum grade of C or S, or the equivalent.

VTN 2340 Vietnamese for Heritage Learners 1 4 Credits
Grading Scheme: Letter Grade
For those with significant speaking and listening skills, but limited reading and writing skills. Emphasis on developing latter two skills.
Prerequisite: instructor permission.

VTN 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For independent work not offered in another course. Available only by special arrangement.

VTN 4930 Special Topics in Vietnamese Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in Vietnamese studies. Available only by special arrangement.

VTT 3500 Vietnamese Culture 3 Credits
Grading Scheme: Letter Grade
Overview of Vietnamese culture, language and history. Focuses on Vietnamese cultural norms, attitudes, values and culture through an examination of history, religious practices, language, literature, family structures, cuisine, daily life and the arts. (H and N)
Prerequisite: Any Asia-related ASH, CHI, CHT, JPN, JPT, REL, or VTN course.
Attributes: General Education - Humanities, General Education - International

Wolof

WOL 1130 Beginning Wolof 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

WOL 1131 Beginning Wolof 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: WOL 1130 with minimum grade of C or the equivalent.

WOL 2200 Intermediate Wolof 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: WOL 1131 with minimum grade of C, or the equivalent.

WOL 2201 Intermediate Wolof 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study.
Prerequisite: WOL 2200 with minimum grade of C, or the equivalent.

WOL 3410 Advanced Wolof 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: WOL 2201 with minimum grade of C, or the equivalent.

WOL 3411 Advanced Wolof 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study of the four skills with attention to more complex structures.
Prerequisite: WOL 3410 with minimum grade of C, or the equivalent.

Xhosa

XHO 1130 Beginning Xhosa 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

XHO 1131 Beginning Xhosa 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: XHO 1130 with minimum grade of C, or the equivalent.

XHO 2200 Intermediate Xhosa 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: XHO 1131 with minimum grade of C, or the equivalent.

XHO 2201 Intermediate Xhosa 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: XHO 2200 with minimum grade of C, or the equivalent.

XHO 3410 Advanced Xhosa 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: XHO 2201 with minimum grade of C, or the equivalent.

XHO 3411 Advanced Xhosa 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study.
Prerequisite: XHO 3410 with minimum grade of C, or the equivalent.

Yoruba

SSA 3730 Language in African Society 3 Credits
Grading Scheme: Letter Grade
The role of language in the development of African societies. Language and nation building. (S and N)
Attributes: General Education - International, General Education - Social Science

YOR 1130 Beginning Yoruba 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

YOR 1131 Beginning Yoruba 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: YOR 1130 with minimum grade of C or S, or the equivalent.

YOR 2200 Intermediate Yoruba 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: YOR 1131 with minimum grade of C or S, or the equivalent.

YOR 2201 Intermediate Yoruba 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study.
Prerequisite: YOR 2200 with minimum grade of C or S, or the equivalent.

YOR 3410 Advanced Yoruba 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: YOR 2201 with minimum grade of C or S, or the equivalent.

YOR 3411 Advanced Yoruba 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study.
Prerequisite: YOR 3410 with minimum grade of C or S, or the equivalent.
YOR 3410 Advanced Yoruba 1 3 Credits  
**Grading Scheme:** Letter Grade  
Advanced study of the four skills with attention to more complex structures.  
**Prerequisite:** YOR 2201 with minimum grade of C, or the equivalent.

YOR 3411 Advanced Yoruba 2 3 Credits  
**Grading Scheme:** Letter Grade  
Continuation of advanced study of the four skills with attention to more complex structures.  
**Prerequisite:** YOR 3410 with minimum grade of C, or the equivalent.

YOR 4502 Yoruba Oral Literature 3 Credits  
**Grading Scheme:** Letter Grade  
Overview of the genres of Yoruban oral literature, stressing the importance of the spoken word in Yoruban culture and the training of Yoruban verbal artists and their place in Yoruban society.  
**Prerequisite:** YOR 1131 or instructor permission;  
**Corequisite:** YOR 2200, YOR 2201, or instructor permission.

YOR 4905 Individual Study 1-5 Credits  
**Grading Scheme:** Letter Grade  
For those who seek independent work not offered in another course.  
**Prerequisite:** instructor permission.

YOT 3500 Yoruba Diaspora in the New World 3 Credits  
**Grading Scheme:** Letter Grade  
Introduction to the scope and importance of Yoruban culture in the New World and its role and significance in the resilience of African cultures in North America, South America and the Caribbean. (WR)  
**Prerequisite:** HUM 2420, HUM 2424, or instructor permission.  
**Attributes:** Satisfies 6000 Words of Writing Requirement

YRW 4130 Readings in Yoruba Literature 3 Credits  
**Grading Scheme:** Letter Grade  
Reading skills and the analysis of literature in the original language.  
**Prerequisite:** YOR 3411 or the equivalent.

Courses

LIN 2000 Language: Humanities Perspective 3 Credits
Grading Scheme: Letter Grade
Language in use in areas of general interest to the humanities, including language, dialect and accent, language endangerment and language change. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

LIN 2614 Language in the USA 3 Credits
Grading Scheme: Letter Grade
Focuses on linguistic diversity in the US, touching on American dialects, multilingualism in America, Native American languages, and sociolinguistic variation. Dialect analysis tools will be learned and applied in class projects.
Attributes: General Education - Diversity, General Education - Social Science

LIN 2704 Language, Thought and Action: Language as a Cognitive System 3 Credits
Grading Scheme: Letter Grade
Studies language from the perspective of cognitive sciences. (S)
Attributes: General Education - Social Science

LIN 3010 Introduction to Linguistics 3 Credits
Grading Scheme: Letter Grade
Core areas of linguistics research: phonology, morphology, syntax, semantics, sociolinguistics and language acquisition. (H)
Attributes: General Education - Humanities

LIN 3201 The Sounds of Human Language 3 Credits
Grading Scheme: Letter Grade
Emphasizes the sounds employed in languages of the world for a comprehensive understanding of the mechanism underlying the production of speech sounds and the ability to recognize, distinguish and phonetically transcribe speech sounds from an unfamiliar language. Includes investigation of the patterning and functions of sounds in languages of the world and application of the methods of analyzing a language sound system.
Prerequisite: LIN 3010.

LIN 3460 The Structure of Human Language 3 Credits
Grading Scheme: Letter Grade
Investigates word formation processes (morphology) and sentence structure (syntax) in the world's languages. Focuses on vocabulary and tools used to discover and describe patterns in human language. Coursework emphasizes problem solving and working with a wide range of language data. (WR)
Prerequisite: LIN 3010.
Attributes: Satisfies 6000 Words of Writing Requirement

LIN 3677 World Englishes 3 Credits
Grading Scheme: Letter Grade
Investigates history and spread of English; varieties of English spoken around the world as a first, second, or foreign language, their characteristics at various linguistic levels (sounds, morphemes, syntax, lexicon), their use and status in different countries; issues of policy, teaching, and testing; and models categorizing World Englishes.
Prerequisite: LIN 3010.

LIN 3680 Modern English Structure 3 Credits
Grading Scheme: Letter Grade
Studies the grammar of current English from the viewpoint of modern linguistics.
Prerequisite: LIN 3010.

LIN 4205 Fundamentals of Phonetics 3 Credits
Grading Scheme: Letter Grade
Studies phonetics, including anatomy and physiology of the speech production apparatus, transcription and production of some of the world's sounds, basic acoustics, computerized methods for speech analysis, acoustic characteristics of sounds, stress and intonation and basic issues in speech perception. May be taught in conjunction with LIN 6208, Phonetics and Linguists, a graduate course.
Prerequisite: LIN 3010 and LIN 3201.

LIN 4320 Introduction to Phonology 3 Credits
Grading Scheme: Letter Grade
Phonemics, syllabic and prosodic phenomena, neutralization, distinctive features, morphophonemic alternation, phonological systems and processes. Terminology and notational conventions of generative phonology and optimality theory, with problems from a variety of languages. May be taught in conjunction with a graduate course that bears the same title.
Prerequisite: LIN 3010 and LIN 3201.

LIN 4400 Introduction to Morphology 3 Credits
Grading Scheme: Letter Grade
Theory of word structure, derivation and inflection, with examples and problems from a variety of languages. Includes the position of morphology in grammar, the relationship between morphology and grammar, typology, cultural and conceptual categories, and predictions of various theories of morphology. May be taught in conjunction with a graduate class that bears the same title.
Prerequisite: LIN 3010 and LIN 3460.

LIN 4500 Introduction to Syntax 3 Credits
Grading Scheme: Letter Grade
Generative-transformational model of syntax: phrase structure, the lexicon, case and agreement, movement, locality relations and anaphora; emphasizes problem solving and linguistic argumentation. May be taught in conjunction with a graduate course that bears the same title.
Prerequisite: LIN 3010 and LIN 3460.

LIN 4600 Survey of Sociolinguistics 3 Credits
Grading Scheme: Letter Grade
Major approaches to language in context: ethnolinguistic, sociological and linguistic. Applications of socio-linguistics to applied linguistics, social sciences and education. Collection and analysis of data. (N and S)
Prerequisite: LIN 3010.
Attributes: General Education - International, General Education - Social Science
LIN 4656 Gender and Language 3 Credits  
**Grading Scheme:** Letter Grade  
Language in the construction of sex and gender roles within a culture. Grammaticalization of gender in languages of the world. Interaction of grammatical structures with gender stereotypes. Consequences of these interactions on grammatical structures. (S and D)  
**Prerequisite:** LIN 3010.  
**Attributes:** General Education - Diversity, General Education - Social Science

LIN 4701 Psycholinguistics 3 Credits  
**Grading Scheme:** Letter Grade  
Basic issues in psycholinguistics, including linguistic principles and psychological mechanisms in language production, comprehension, acquisition and development.  
**Prerequisite:** LIN 2704 or LIN 3010 or EXP 3604 or SPA 4004.

LIN 4702C Methods in Psycholinguistics 3 Credits  
**Grading Scheme:** Letter Grade  
Provides hands-on experience designing, running and analyzing data from various types of psycholinguistic experiments.  
**Prerequisite:** LIN 4701 and STA 2023, or the equivalent.

LIN 4721 Second Language Acquisition 3 Credits  
**Grading Scheme:** Letter Grade  
The neurolinguistic, psycholinguistic and sociolinguistic bases of second language acquisition in childhood and adulthood.  
**Prerequisite:** LIN 3010.

LIN 4784 Writing Systems 3 Credits  
**Grading Scheme:** Letter Grade  
Introduces origin and typology of writing systems. Evaluates cognitive claims regarding second language reading acquisition and script type. Considers basic problems in the interface of phonology, script and natural language processing.  
**Prerequisite:** LIN 3010.

LIN 4790 Brain and Language 3 Credits  
**Grading Scheme:** Letter Grade  
Introduces critical issues and terminology in brain and language research. Topics include brain imaging techniques, categorization, auditory perception, modularity, connectionism, semantic representation, laterality, innateness and plasticity.  
**Prerequisite:** LIN 3010.

LIN 4803 Introduction to Semantics 3 Credits  
**Grading Scheme:** Letter Grade  
Studies truth-conditional semantics as opposed to pragmatics, including basic notions in classical logic, since logic is assumed in truth-conditional semantics.  
**Prerequisite:** LIN 3010.

LIN 4820 Meaning and Use 3 Credits  
**Grading Scheme:** Letter Grade  
Introduces pragmatics, the study of utterance meanings determined by situated uses of language and linguistic communication as a social activity. Explores role of linguistic and extra-linguistic contexts in the production and interpretation of utterances. Topics include deictic and anaphoric expressions, sense and reference, presupposition, implicature, speech acts and coherence.  
**Prerequisite:** LIN 3010.

LIN 4850 Formal Semantics 3 Credits  
**Grading Scheme:** Letter Grade  
Advanced semantics within the Montague approach.  
**Prerequisite:** (LIN 4803 and PHI 2100) or PHI 3130.

LIN 4905 Individual Study in Linguistics 3 Credits  
**Grading Scheme:** Letter Grade  
Individual study for linguistics majors.

LIN 4911 Undergraduate Research in Linguistics 0-3 Credits  
**Grading Scheme:** Letter Grade  
Provides firsthand, supervised research in linguistics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in linguistics.  
**Prerequisite:** LIN 3010.  
**Attributes:** General Education - Humanities, General Education - International

LIN 4930 Special Topics in Linguistics 3-9 Credits  
**Grading Scheme:** Letter Grade  
Variable content offered by faculty members in their areas of specialization. Some offerings may involve extensive writing while others will deal with quantitative analysis or field methodology. (H and N)  
**Prerequisite:** LIN 3010.  
**Attributes:** General Education - Humanities, General Education - International

LIN 4956 Overseas Studies 1-15 Credits  
**Grading Scheme:** Letter Grade  
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.  
**Prerequisite:** undergraduate advisor permission.

LIN 4970 Senior Thesis 3 Credits  
**Grading Scheme:** Letter Grade  
Accommodation for senior thesis.

TSL 3360 Introduction to Teaching English as a Second Language 3 Credits  
**Grading Scheme:** Letter Grade  
Historical overview of trends in language teaching technology, ranging from communicative approaches to techniques for teaching listening, speaking, reading and writing. Trains students to instruct small groups and individuals in English language skills.

TSL 3378 Pronunciation for Teaching English as a Second Language 3 Credits  
**Grading Scheme:** Letter Grade  
Overview of sound system of North American English and its integration with listening, morphology and spelling. Pronunciation pedagogy based on current theory and practice, as well as diagnostic tools and assessment measures.  
**Prerequisite:** LIN 3010.

TSL 4911 Undergraduate Research in Teaching English as a Second Language 0-3 Credits  
**Grading Scheme:** Letter Grade  
Provides firsthand, supervised research in Teaching English as a Second Language. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Teaching English as a Second Language.

TSL 4940 Teaching English as a Second Language Internship 3 Credits  
**Grading Scheme:** Letter Grade  
Create and implement special noncredit short-term courses for English language learners. Interns observe classes, shadow teachers, review materials and, in teams, create and implement special noncredit short-term courses for English language learners.  
**Prerequisite:** (LIN 3010 and LIN 3680) or LIN 4721 or TSL 3360 or TSL 3378.
Management

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

The Department of Management includes faculty members who research and teach in various areas of Management (Organizational Behavior, Human Resource Management, Strategic Management, and Business Law). This vibrant faculty with strong research agendas contribute to important and innovative programs.

Curriculum

• Combination Degrees
• Management

Courses

BUL 4310 The Legal Environment of Business 4 Credits
Grading Scheme: Letter Grade
Introduces the legal environment of business and organizations. Emphasizes public and regulatory law and on the social, political and ethical aspects of legal issues in business. Subjects include the nature of law and legal process; administrative law of contracts and torts; business and the constitution; statutory and common law; contracts and torts; business organizations and securities, antitrust, consumer protection and employment law.
Prerequisite: ECO 2023 and sophomore or junior standing.

BUL 4443 Ethics in Global Business 2 Credits
Grading Scheme: Letter Grade
Explores issues involving the role of individuals, citizens, business, and government in promoting profitable but responsible commerce and socially beneficial business activity. (WR)
Attributes: Satisfies 4000 Words of Writing Requirement

BUL 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
Requires written report.
Prerequisite: (BUL 4310 and senior standing) or instructor permission.

BUL 4930 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Variable content provides an opportunity for study in-depth of topics not offered in other courses and of topics of special current significance.
Prerequisite: department permission.

BUL 4956 International Studies in Business Law 1-4 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: admission to an approved study abroad program and department permission.

ENT 3003 Principles of Entrepreneurship 4 Credits
Grading Scheme: Letter Grade
Practical, hands-on understanding of the stages of entrepreneurial process. Focus on the decision-making process within a start-up company.

ENT 3503 Introduction to Social Entrepreneurship 2 Credits
Grading Scheme: Letter Grade
Social entrepreneurship involves using the skills and strategies of business to innovatively and sustainably solve social, environmental, and economic problems. The ventures created by social entrepreneurs can be non-profits, for-profits, or innovative hybrid models. This course aims to educate, inspire, and empower students to become changemakers.

ENT 4015 The Venture Accelerator 2 Credits
Grading Scheme: Letter Grade
A team-based, experiential program focused on the start-up process; includes lectures, readings, discussions, workshops, and a team-based project. As deliverables, each team must deliver weekly lessons-learned presentations, complete business canvas updates, and prepare a final presentation.
Prerequisite: ENT 3003 or EGN 4641.

ENT 4114 New Venture Planning 2 Credits
Grading Scheme: Letter Grade
A study of the key elements of new venture planning to achieve an understanding of the process involved in the evaluation of new venture feasibility and the development of business plans for new venture.

ENT 4614 Creativity and Innovation in the Business Environment 2 Credits
Grading Scheme: Letter Grade
Examination of the creativity process and the organizational environment of several organizations recognized as creative and innovative. Course is organized around class discussions, workshops, projects, both individual and team-based, cases, a field trip and visiting experts. The course is very interactive and is based in experiential learning.
Prerequisite: ENT 3003 or GEB 3113

ENT 4704 International Entrepreneurship 2 Credits
Grading Scheme: Letter Grade
Examination of the key elements of the international entrepreneurial venture. The learning perspective is that of the global entrepreneur - one whose business is born global and who may capitalize upon resources from anywhere.

ENT 4934 Special Topics 1-4 Credits
Grading Scheme: Letter Grade
Special topics in entrepreneurship-related fields of study.

More Info (http://registrar.ufl.edu/soc/)
ENT 4940 Entrepreneurship Practicum 1 Credit  
Grading Scheme: Letter Grade  
Provides a forum for completing a portfolio of supervised experiential learning activities related to entrepreneurship and the entrepreneurial mindset. Through these activities, students enhance their mastery of such entrepreneurial competencies as opportunity recognition, opportunity assessment, resource leveraging, bootstrapping, risk mitigation, value innovation, and guerrilla behavior.  
Prerequisite: admission to the entrepreneurship minor and senior standing.

MAN 3025 Principles of Management 4 Credits  
Grading Scheme: Letter Grade  
Fundamentals of management underlying the solution of problems of organization and operation of business enterprises. (S)  
Prerequisite: ECO 2013, ECO 2023 or AEB 2014, and sophomore standing.  
Attributes: General Education - Social Science

MAN 3240 Organizations: Structure and Behavior 4 Credits  
Grading Scheme: Letter Grade  
Individual group and organizational issues that affect and shape businesses. Topics include individual differences, motivation, communication, decision making, leadership, power, organizational structure and design and change.  
Prerequisite: MAN 3025 with a minimum grade of C; business administration and accounting majors only.

MAN 4301 Human Resource Management 4 Credits  
Grading Scheme: Letter Grade  
Major human resource management functional areas. Topics include organizational employment planning, employment regulation, job analysis, performance assessment, recruitment and selection, training and development, employee/labor relations and compensation.  
Prerequisite: MAN 3025 with a minimum grade of C and MAN 3240.

MAN 4720 Business Policy and Strategy 2 Credits  
Grading Scheme: Letter Grade  
Integrates prior business courses through study and discussion of real organizational situations, including ethical and global issues, the influence of the external environment and the effect of demographic diversity on organizations.  
Prerequisite: completion of junior and senior business core and senior standing and Business Administration-General Studies major.

MAN 4723 Strategic Management 4 Credits  
Grading Scheme: Letter Grade  
Evaluation of the key functions of organizations and integration of these functions to achieve competitive advantages. Topics include strategic formulation, implementation and evaluation.  
Prerequisite: MAN 3025 with a minimum grade of C and MAR 3023 and FIN 3403.

MAN 4905 Individual Work in Management 1-5 Credits  
Grading Scheme: Letter Grade  
Written report is required.  
Prerequisite: senior standing and department permission.

MAN 4930 Special Topics 1-4 Credits  
Grading Scheme: Letter Grade  
Variable content provides an opportunity for study in-depth of topics not offered in other courses and of topics of special current significance.

MAN 4956 International Studies in Management 1-4 Credits  
Grading Scheme: Letter Grade  
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.  
Prerequisite: admission to an approved study abroad program and department permission.

MAN 4970 Honors Thesis 1 Credit  
Grading Scheme: S/U  
A thesis is required for magna cum laude or summa cum laude designations. To qualify, students normally have completed 90 semester credits of coursework (exceptions may be made) and have at least a 3.6 GPA at the time they enroll. The thesis will be reviewed by at least one faculty member chosen by the honors coordinator from the student's department. (S-U)  
Prerequisite: 90 credits earned and 3.6 UF GPA.

Marketing

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.  
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

The Marketing Department is a recognized leader in the discipline of marketing. For over a decade, the department's faculty has ranked as one of the most productive and influential in the field, and is known for conducting provocative, cutting-edge research that contributes both to the scientific understanding and practice of marketing.

Map (http://campusmap.ufl.edu/#/index/0029)

Curriculum  
• Marketing  
• Professional Selling Minor  
• Retailing Minor

Courses

MAR 2290 Retail Management Seminar 1 Credit  
Grading Scheme: S/U  
Weekly lectures feature a different executive making a presentation in his or her area of expertise. Major issues in retailing are addressed. Discussions of career opportunities and career paths in retailing. (S-U)
MAR 2401 Sales Seminar 1 Credit  
Grading Scheme: S/U  
Overview of selling and managing the sales function to achieve the growth targets of a business; highlights the importance of the sales function in a firm and how it contributes to the achievement of the firm?s strategic objectives.

MAR 2951 Special Topics 1-3 Credits  
Grading Scheme: S/U  
Projects related to business in marketing as approved by the college. (S-U)

MAR 3023 Principles of Marketing 4 Credits  
Grading Scheme: Letter Grade  
Functions, institutions and methods of marketing goods and services. Relates marketing to the larger economic structure and emphasizes the importance of the consumer. (S)
Prerequisite: (ECO 2013 or ECO 2023 or AEB 2014) and sophomore standing or higher.
Attributes: General Education - Social Science

MAR 3231 Introduction to Retailing Systems and Management 4 Credits  
Grading Scheme: Letter Grade  
Functions, institutions and activities of retailing goods and services.
Prerequisite: ACG 2021 and MAR 3023.

MAR 3400 Professional Selling 4 Credits  
Grading Scheme: Letter Grade  
Basic survey in professional selling. Teaches the importance of the selling role and provides basic professional selling skills; begins the preparation for a future role in sales or sales management.
Prerequisite: MAR 3023.

MAR 3503 Consumer Behavior 4 Credits  
Grading Scheme: Letter Grade  
Emphasizes both descriptive and conceptual analysis of consumer behavior with a focus on theory and research essential to an understanding of individual choice behavior. Makes intensive use of contributions from the social and behavioral science literatures.
Prerequisite: MAR 3023 with a minimum grade of C and STA 2023.

MAR 4156 International Marketing 4 Credits  
Grading Scheme: Letter Grade  
Analyzes economic, social and cultural issues affecting marketing management in the international environment.
Prerequisite: ACG 2021 and MAR 3023 with minimum grades of C.

MAR 4232 Retail Consulting 4 Credits  
Grading Scheme: Letter Grade  
Provides opportunities for working on real retail/marketing problems with clients; gain practical insights into actual retail business operations while performing problem identification, exploration for opportunities, data collection and strategy development. Teams of 4-5 students work with real clients on retail issues and design and execute all phases of the project.
Prerequisite: MAR 3023 with a minimum grade of C and instructor permission.

MAR 4403 Sales Management 4 Credits  
Grading Scheme: Letter Grade  
Principles, methods and problems relating to the management of a sales force. Selection and training, organization, compensation and stimulation, and control.
Prerequisite: ACG 2021 and MAR 3023 with minimum grades of C.

MAR 4613 Marketing Research 4 Credits  
Grading Scheme: Letter Grade  
Analyzes the role of marketing research in providing information for marketing decisions. Research methods and techniques involved in the development and use of primary and secondary data are emphasized. Topics include survey design, experimental design, data collection (e.g., questionnaires), data analysis, measurement and sampling.
Prerequisite: MAR 3023 with a minimum grade of C and QMB 3250.

MAR 4803 Marketing Management 4 Credits  
Grading Scheme: Letter Grade  
Development and analysis of overall marketing strategies involving product and brand development, channels of distribution, pricing and promotion with consideration of marketplace conditions and related factors affecting implementation and execution.
Prerequisite: MAR 3023 with a minimum grade of C and MAR 3503 and one other marketing course.

MAR 4804 Marketing Strategy 4 Credits  
Grading Scheme: Letter Grade  
Emphasizes analysis, planning, and implementation of marketing strategies. Examines insights into the creative processes involved in applying marketing concepts and knowledge to the development and implementation of strategy. Features a comprehensive marketing simulation exercise and well as detailed analysis of several companies and their marketing strategies.
Prerequisite: MAR 3023

MAR 4832 New Product Development and Management 4 Credits  
Grading Scheme: Letter Grade  
A structured way of thinking about product development. Students are provided with an up-to-date toolbox for developing and managing new products. Includes hands-on individual assignments and a group project to simulate the development process of a new product or service.
Prerequisite: MAR 3023 with a minimum grade of C.

MAR 4905 Independent Study 1-4 Credits  
Grading Scheme: Letter Grade  
Opportunity for in-depth study not offered in other courses.
Prerequisite: senior standing, previous work in the area of research and department permission.

MAR 4933 Special Topics 4 Credits  
Grading Scheme: Letter Grade  
Selected rotating topics in marketing management, research and theory.
Prerequisite: department permission.

MAR 4945 Retail Management Internship 1-3 Credits  
Grading Scheme: S/U  
A 10-12 week entry-level retail management internship that requires several papers and reports. Opportunities are available in stores, corporate headquarters and buying offices. Management training experiences in buying, store management, merchandising and customer service. (S-U)
Prerequisite: MAR 3023 is recommended before registering for this internship.

MAR 4956 International Studies in Marketing 1-4 Credits  
Grading Scheme: Letter Grade  
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: admission to an approved study abroad program and department permission.
MAR 4970 Honors Thesis 1 Credit
Grading Scheme: S/U
A thesis is required for magna cum laude or summa cum laude designation. To qualify, students normally have completed 90 semester credits of coursework (exceptions may be made) and have at least a 3.6 GPA at the time they enroll. The thesis will be reviewed by at least one faculty member chosen by the honors coordinator from the student’s department. (S-U)
Prerequisite: 90 credits earned and a 3.6 UF GPA.

Mass Communication
Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)
Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses
JOU 4004 History of Journalism 3 Credits
Grading Scheme: Letter Grade
Origin, development and potentiality of print and broadcast media. Analyzes the evolution of standards, policies, methods and controls.

MMC 1009 Introduction to Media and Communications 1 Credit
Grading Scheme: Letter Grade
Introduces the tools, resources and academic and extra-curricular activities offered by the College of Journalism and Communications. Includes lessons on the history and organization of the college and academic and career preparation.
Prerequisite: 1JM or exploratory major, 2JM, or 3JM classification, or instructor approval.

MMC 2121 Writing Fundamentals for Communicators 3 Credits
Grading Scheme: Letter Grade
One-third of the course is to ensure students have sufficient skill in grammar and punctuation to write with clarity. In two-thirds of the course, students put principles of good writing into practice with short writing assignments that have real-world applications.

MMC 3030 Personal Branding for Communicators 1 Credit
Grading Scheme: Letter Grade
Professional development course that stresses how to communicate and connect as professionals. Emphasizes mastery of writing, speaking, presentation and employment-seeking skills, working with media, handling media interviews and using social media to establish a professional identity.
Prerequisite: Journalism and Communications major of junior standing or higher.

MMC 3203 Ethics and Problems in Mass Communications 3 Credits
Grading Scheme: Letter Grade
A cross-disciplinary introduction to ethics-relevant situations faced by media professionals. Topics include professional standards of conduct, audience representation and engagement and issues associated with the production, presentation and delivery of messages that reflect the best interests of audiences, clients and stakeholders.
Prerequisite: Journalism and Communications major of sophomore standing or higher and (ADV 3008 or MMC 1009 or MMC 2604 or PUR 3000 or RTV 3001 with minimum grade of C).

MMC 3254 Media Entrepreneurship 1 Credit
Grading Scheme: Letter Grade
Introduces media entrepreneurship with a focus on how digital technologies are transforming industries. Work in teams to develop new digital media businesses. Develop and pitch ideas, explore market analysis, develop business and financial plans, and study social media strategies.
Prerequisite: sophomore standing or higher.

MMC 3420 Consumer and Audience Analytics 3 Credits
Grading Scheme: Letter Grade
Provides practical analytical skill-sets, benefiting those who plan careers in analytics/research, social media, media business, advertising/marketing, and public relations.
Prerequisite: junior standing or higher.

VIC 3001 Sight, Sound and Motion 4 Credits
Grading Scheme: Letter Grade
Visual literacy is a prerequisite for success in most areas of mass communication. Teaches fundamentals of design across print, web, and multimedia platforms. Also emphasizes how visual forms convey messages to readers.
Prerequisite: sophomore standing or higher.

Materials Science and Engineering
Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)
Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information
The Department of Materials Science and Engineering strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting, and distance learning to promote engineering in the field.

RHINES HALL
GAINESVILLE FL 32611-6400
Map (http://campusmap.ufl.edu/#/index/0184)

Curriculum
- Advanced Engineering Ceramics Certificate
- Biomaterials Certificate
- Combination Degrees
- Materials Science and Engineering
- Materials Science and Engineering Minor
- Metallurgical Engineering Certificate
- Nuclear and Radiological Engineering Minor
- Nuclear and Radiological Sciences
• Nuclear Engineering
• Nuclear Radiation and Reactor Analysis Certificate
• Nuclear Thermal Systems Analysis Certificate
• Polymer Science and Engineering Certificate
• Semiconductor Materials Certificate

Courses

EGN 1935 Special Topics in Freshman Engineering 1-3 Credits
Grading Scheme: Letter Grade
Laboratory, lectures or conferences cover selected topics in engineering.

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

EGS 1005 Prep for Success 1-4 Credits
Grading Scheme: S/U
Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)
Prerequisite: EG student.

EGS 1006 Introduction to Engineering 1 Credit
Grading Scheme: Letter Grade
Introduces the 11 departments that offer undergraduate degrees at UF. Students break into groups of 20, rotating weekly through each department. During these visits, students participate in hands-on experiments to help them make informed decisions about career alternatives.

EGS 1670 Engineering Innovations for the 21st Century 2 Credits
Grading Scheme: Letter Grade
Students examine recent patents in engineering in order to learn the latest developments that will be used for components in the future. Students learn to analyze the presentation of a patent to determine usefulness of the patent, to understand the applicability of the courses taken in engineering to the development of the patent and to gain skills in distinguishing well-written patents from poorly written patents.

EMA 1004 Materials Impact on Society 3 Credits
Grading Scheme: Letter Grade
Discovery and development of specific classes of materials are considered from the perspective of having dramatically altered the course of human history and societies. Materials are presented in historical and technical contexts and considered in terms of their political, financial, health and technology impacts.

EMA 3000L Sophomore Materials Laboratory 1 Credit
Grading Scheme: Letter Grade
Conceptual perspective of the origin of materials behavior and the interrelationships of the materials tetrahedron: structure/property/performance/processing. Conduct experiments on the materials tetrahedron.
Corequisite: EMA 3010.

EMA 3010 Materials 3 Credits
Grading Scheme: Letter Grade
Conceptual perspective for origin of materials behavior and the interrelationships of structure/property/performance. Materials selection and use of familiar material (metals, ceramics, polymers, electronic materials and composites) in electronics and structural and other engineering applications.
Prerequisite: CHM 2045.

EMA 3011 Fundamental Principles of Materials 3 Credits
Grading Scheme: Letter Grade
Covers the fundamental principles of structure, reactivity and energies describing materials systems, directly relating individual principles to specific materials properties or functions.
Prerequisite: CHM 2046 or CHM 2096.

EMA 3013C Materials Laboratory 2 2 Credits
Grading Scheme: Letter Grade
General undergraduate materials laboratory. (WR)
Prerequisite: EMA 3080C.
Attributes: Satisfies 2000 Words of Writing Requirement

EMA 3050 Introduction to Inorganic Materials 3 Credits
Grading Scheme: Letter Grade
Uses, structure, processing and properties of inorganic materials, including metals, alloys and ceramics. Scientific principles are introduced through discussion of developed inorganic materials for high technology applications.
Prerequisite: EMA 3010.

EMA 3066 Introduction to Organic Materials 3 Credits
Grading Scheme: Letter Grade
Uses, structure, processing and properties of organic materials, including polymers, biomacromolecules and small molecule organic materials. Scientific principles are introduced through discussion of developed organic materials for high technology applications.
Prerequisite: EMA 3010 and (EMA 3011 or CHM 2200 or CHM 2210).

EMA 3080C Materials Laboratory 1 2 Credits
Grading Scheme: Letter Grade
First part of the general undergraduate materials laboratory. (WR)
Prerequisite: EMA 3010 and EMA 3800.
Attributes: Satisfies 4000 Words of Writing Requirement

EMA 3413 Electronic Properties of Materials 3 Credits
Grading Scheme: Letter Grade
Atomic and quantum-mechanical description of the electrical, optical, magnetic and thermal properties of materials. Deals with metals, alloys, semiconductors, polymers, dielectrics and amorphous materials with special emphasis given to high technology applications of electronic materials.
Prerequisite: EMA 3010.

EMA 3513C Analysis of the Structure of Materials 4 Credits
Grading Scheme: Letter Grade
Laboratory fundamentals of crystallography, x-ray and electron diffraction, scanning and transmission electron microscopy, surface analysis and microprobe techniques.
Prerequisite: EMA 3010.
EMA 3800 Error Analyses and Optimization Methodologies in Materials Research 3 Credits
Grading Scheme: Letter Grade
Statistical approach for materials research, basic and relevant statistical concepts, error analyses, factorial matrices, reducing the variance, nested designs and sampling plans, mixture designs, optimization technology, response surface method and Taguchi.
Corequisite: EMA 3010.

EMA 4020L Metallurgy Laboratory 1 Credit
Grading Scheme: Letter Grade
Concepts, skills, and techniques required for an understanding of metals and metallurgy processing.
Prerequisite: EMA 3050;
Corequisite: EMA 4120.

EMA 4041L Advanced Ceramics Laboratory 1 Credit
Grading Scheme: Letter Grade
Forming, drying, firing and testing of traditional ceramics.
Corequisite: EMA 4645.

EMA 4061 Biomaterials: Structure and Properties 3 Credits
Grading Scheme: Letter Grade
Materials commonly used for biomedical application, such as their properties from a biocompatibility or medical device perspective. In addition, materials interactions with biological systems are examined from the molecular (e.g., protein), cellular, tissue and systemic (whole body) perspective. This is the foundation for the second biomaterials class, which applies these principles toward the application of biomaterials in medical implants, prostheses and devices, along with the regulatory issues associated with biomaterials development.
Corequisite: EMA 3066.

EMA 4061L Biomaterials Laboratory 1 Credit
Grading Scheme: Letter Grade
Hands-on laboratory experience in the processing and characterization of biomaterials for use in medical applications.
Corequisite: EMA 4061.

EMA 4062 Biopolymers: Manufacture, Stability and Biocompatibility 3 Credits
Grading Scheme: Letter Grade
Polymer manufacturing processes and biochemical/biophysical behavior are considered from the perspective of achieving those properties needed for the engineering of polymeric implants and devices. Unique economic, ethical and regulatory issues are also presented.
Prerequisite: EMA 3066.

EMA 4120 Physical Metallurgy 1 3 Credits
Grading Scheme: Letter Grade
In-depth discussion of fundamentals of physical metallurgy and principles of microstructure evolution.
Prerequisite: EMA 3050.

EMA 4121 Interfacial Engineering 3 Credits
Grading Scheme: Letter Grade
Correlation of properties, structural and mechanical history, thermal history and service behavior of various interfaces.
Prerequisite: EMA 3050 and EMA 3066 and EMA 3413.

EMA 4125 Transport Phenomena in Materials Processing 3 Credits
Grading Scheme: Letter Grade
Science and application of momentum, heat and mass transport in materials and materials processing.
Prerequisite: EMA 3010 and MAP 2302.

EMA 4144 Physical Ceramics 1 3 Credits
Grading Scheme: Letter Grade
Structure of complex ceramic compounds and glasses. Influence of structural imperfections and stoichiometry on physical characteristics, surface and interfacial phenomena, diffusion and phase transformations in ceramic systems.
Prerequisite: EMA 3050.

EMA 4145 Physical Ceramics 2 3 Credits
Grading Scheme: Letter Grade
Prerequisite: EMA 3050.

EMA 4161 Physical Properties of Polymers 3 Credits
Grading Scheme: Letter Grade
Molecular structure and the physical property relationships for polymers: viscoelastic behavior, the glass transition, thermomechanical and rheological properties, the crystalline and amorphous molecular solid state. Correlation of properties with design engineering of polymer applications. Laboratory section included.
Prerequisite: EMA 3066 and EMA 3513C.

EMA 4161L Polymers Laboratory 1 Credit
Grading Scheme: Letter Grade
Concepts, skills, and techniques required for an understanding of polymer and polymer composite processing.
Corequisite: EMA 4161.

EMA 4223 Mechanical Behavior of Materials 3 Credits
Grading Scheme: Letter Grade
Plastic deformation and fracture of metals and alloys, ceramics and polymers.
Prerequisite: EGM 3520.

EMA 4224 Physical Metallurgy 2 3 Credits
Grading Scheme: Letter Grade
In-depth discussion of fundamentals of alloy design, mechanical properties and failure mechanisms.
Prerequisite: EMA 4120 and EMA 4223.

EMA 4314 Energetics and Kinetics in Materials Science 3 Credits
Grading Scheme: Letter Grade
 Foundations of energetics and kinetic theory with applications to processes in materials science.
Prerequisite: EMA 3010.

EMA 4324 Stability of Materials 3 Credits
Grading Scheme: Letter Grade
Mechanisms, energetics and kinetics of corrosion and degradation of engineering materials. Economic solutions to degradation problems based upon design and materials selection.
Prerequisite: EMA 4314.

EMA 4414L Electronic Materials Laboratory 1 Credit
Grading Scheme: Letter Grade
Hands-on experience for those specializing in electronic materials. Laboratory topics include characterization of optical and electronic properties of semiconductor materials, electronic devices characterization and semiconductor processing.
Corequisite: EMA 4614.
EMA 4462 Polymer Characterization 3 Credits
Grading Scheme: Letter Grade
Use of a broad variety of spectroscopic and other scattering phenomena in polymer research.
Prerequisite: EMA 3066 or equivalent.

EMA 4614 Production of Electronic Materials 3 Credits
Grading Scheme: Letter Grade
Production of materials for use in solid state electronic devices; nucleation and growth kinetics, solidification of single phase alloys, segregation, dynamics of crystal growth, selection of materials and growth techniques, characterization.
Prerequisite: EMA 3413.

EMA 4615 Compound Semiconductor Materials 3 Credits
Grading Scheme: Letter Grade
Physical properties of technologically important compound semiconductor materials. Epitaxial growth and practical application of compound semiconductor heterostructures.
Prerequisite: EEE 3396C.

EMA 4623 Process Metallurgy 3 Credits
Grading Scheme: Letter Grade
Engineering aspects of mineral processing, including unit operations and flow sheets. Science and technology of metal extraction with applications to specific ferrous and non-ferrous metals.
Corequisite: EMA 4120.

EMA 4645 Processing of Ceramic Materials 3 Credits
Grading Scheme: Letter Grade
Introduces the technology and science of processing ceramic materials, including traditional clay-based ceramics, modern technical ceramics and glasses. Topics include the nature of fine particles, forming methods and consolidation by heat.
Prerequisite: EMA 3050.

EMA 4666 Polymer Processing 3 Credits
Grading Scheme: Letter Grade
Major processing methods for polymers and polymeric composites as related to the rheological behavior of these systems. Synthesis of polymers via industrial processes.
Prerequisite: EMA 3066.

EMA 4714 Materials Selection and Failure Analysis 3 Credits
Grading Scheme: Letter Grade
Philosophy and practice of engineering selection of materials. Case studies in product liability and failure analysis.
Prerequisite: EMA 4223 and EMA 4324.

EMA 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
Selected problems or projects in the student’s major field of engineering study.

EMA 4913 Research in Materials Science and Engineering 1 Credit
Grading Scheme: Letter Grade
Short research problems in materials science and engineering, usually including a final thesis.

EMA 4914 Research in Materials Science and Engineering 2 Credits
Grading Scheme: Letter Grade
Continuation of EMA 4913; short research problems in materials science and engineering, usually including a final thesis.

EMA 4915 Integrated Product and Process Design Program 1 3 Credits
Grading Scheme: Letter Grade
First part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes on time and within budget. Working closely with industry liaisons, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.

EMA 4916 Integrated Product and Process Design Program 2 3 Credits
Grading Scheme: Letter Grade
Second part of the integrated product and process design sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes on time and within budget.

EMA 4935 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Laboratory, lectures or conferences covering selected topics in materials science and engineering.

EMA 4949 Co-Op Work Experience 1 Credit
Grading Scheme: S/U
Practical engineering work under industrial supervision, as set forth in the Herbert Wertheim College of Engineering regulations. (S-U)
Prerequisite: one-term industrial employment, including extra work according to a pre-approved outline.

Mathematics

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

Graduates from the Department of Mathematics might take a job that uses their math major in an area like statistics, biomathematics, operations research, actuarial science, mathematical modeling, cryptography, or mathematics education. Or they might continue into graduate school leading to a research career. Professional schools in business, law, and medicine appreciate mathematics majors because of the analytical and problem solving skills developed in the math courses.

About Precalculus and Calculus

A student can receive, at most:

- Four credits for MAC 1147 and MAC 1140
- Four credits for MAC 1147 and MAC 1114
- Five credits for MAC 1140 and MAC 1114
- Five credits for MAC 1147, MAC 1140, and MAC 1114
- If both MAC 2233 and MAC 2311 (or MAC 3472) are taken, credit will be given only for MAC 2311 (or MAC 3472).

Courses

MAA 4102 Introduction to Advanced Calculus for Engineers and Physical Scientists 1 3 Credits
Grading Scheme: Letter Grade
Theory of real numbers, functions of one variable, sequences, limits, continuity and differentiation; continuity and differentiability of functions of several variables. Those who plan to do graduate work in mathematics should take MAA 4211. Credit will be given for, at most, one of MAA 4102, MAA 4211, or MAA 5104.
Prerequisite: (MAC 2313 or MAC 3474) and (MAS 4105 or MAS 3114) with minimum grades of C.

MAA 4103 Introduction to Advanced Calculus for Engineers and Physical Scientists 2 3 Credits
Grading Scheme: Letter Grade
Continues the advanced calculus for engineers and physical scientists sequence. Theory of integration, transcendental functions and infinite series. MAA 4102 is not recommended for those who plan to do graduate work in mathematics; these students should take MAA 4212. Credit will be given for, at most, one of MAA 4103, MAA 4212 and MAA 5105.
Prerequisite: MAA 4102 with minimum grade of C.

MAA 4211 Advanced Calculus 1 3 Credits
Grading Scheme: Letter Grade
Advanced treatment of limits, differentiation, integration and series. Includes calculus of functions of several variables. Credit will be given for, at most, one of MAA 4211, MAA 4102 and MAA 5104.
Prerequisite: MAS 4105 with minimum grade of C.

MAA 4212 Advanced Calculus 2 3 Credits
Grading Scheme: Letter Grade
Continues the advanced calculus sequence in limits, differentiation, integration and series. Credit will be given for, at most, one of MAA 4212, MAA 4103 and MAA 5105.
Prerequisite: MAA 4211 with minimum grade of C, taken the previous semester.

MAA 4226 Introduction to Modern Analysis 1 3 Credits
Grading Scheme: Letter Grade
Topology of metric spaces, numerical sequences and series, continuity, differentiation, the Riemann-Stieltjes integral, sequences and series of functions, the Stone-Weierstrass theorem, functions of several variables, Stokes' theorem and the Lebesgue theory. Credit will be given for, at most, MAA 4226 or MAA 5228.
Prerequisite: MAA 4212 with minimum grade of C.

MAA 4227 Introduction to Modern Analysis 2 3 Credits
Grading Scheme: Letter Grade
Continues the modern analysis sequence discussing the topology of metric spaces, numerical sequences and series, continuity, differentiation, the Riemann-Stieltjes integral, sequences and series of functions, the Stone-Weierstrass theorem, functions of several variables, Stokes' theorem and the Lebesgue theory. Credit will be given for, at most, MAA 4227 or MAA 5229.
Prerequisite: MAA 4226 with minimum grade of C, taken the previous semester.

MAA 4402 Functions of a Complex Variable 3 Credits
Grading Scheme: Letter Grade
Complex numbers, analytic functions, Cauchy-Riemann equations, harmonic functions, elementary functions, integration, Cauchy-Goursat theorem, Cauchy integral formula, infinite series, residues and poles, conformal mapping. Credit will be given for, at most, MAA 4402 or MAA 5404.
Prerequisite: (MAC 2313 or MAC 3474) and MAP 2302 with minimum grades of C.

MAC 1105 Basic College Algebra 3 Credits
Grading Scheme: Letter Grade
Online entry-level algebra course for college students. (M)
Prerequisite: completion of the ALEKS placement exam.
Attributes: General Education - Mathematics

MAC 1114 Trigonometry 2 Credits
Grading Scheme: Letter Grade
Exponential and logarithmic functions, trigonometry and analytic and additional applications of trigonometry. (M)
Attributes: General Education - Mathematics

MAC 1140 Precalculus Algebra 3 Credits
Grading Scheme: Letter Grade
College algebra, functions, coordinate geometry, exponential and logarithmic functions. (M)
Prerequisite: completion of the ALEKS placement exam.
Attributes: General Education - Mathematics

MAC 1147 Precalculus Algebra and Trigonometry 4 Credits
Grading Scheme: Letter Grade
College algebra, functions, coordinate geometry, exponential and logarithmic functions, and trigonometry. Fast-paced review of algebra and trigonometry to prepare for calculus. Assumes prior knowledge of intermediate algebra (Algebra 2) and trigonometry. (M)
Prerequisite: at least 50% on the ALEKS placement exam.
Attributes: General Education - Mathematics

MAC 2233 Survey of Calculus 1 3 Credits
Grading Scheme: Letter Grade
Geometric and heuristic approach to calculus; differentiation and integration of simple algebraic and exponential functions; applications to graphing, marginal analysis, optimization, areas and volumes. (M)
Prerequisite: Any of the following: minimal acceptable score on the online mathematics placement exam; a minimum grade of C in a MAC course numbered 1140 or higher; AP credit for MAC 2311; IB credit for a MAC course numbered 1140 or higher. Any course grades, AP or IB scores used to meet this prerequisite must be on file at UF by registration.
Attributes: General Education - Mathematics
MAC 2234 Survey of Calculus 2 3 Credits
Grading Scheme: Letter Grade
Sequences, geometric and Taylor series; systems of linear equations, Gaussian elimination, matrices, determinants and vectors; partial differentiation, multiple integrals; applications to marginal analysis, least-squares and Lagrange multipliers. (M)
Prerequisite: MAC 2233 with minimum grade of C, or the equivalent.
Attributes: General Education - Mathematics

MAC 2311 Analytic Geometry and Calculus 1 4 Credits
Grading Scheme: Letter Grade
Introduces analytic geometry; limits; continuity; differentiation of algebraic, trigonometric, exponential and logarithmic functions; applications of the derivative; inverse trigonometric functions; differentials; introduction to integration; and the fundamental theorem of calculus. (M) Credit will be given for, at most, one of MAC 2233, MAC 2311 and MAC 3472.
Prerequisite: Any of the following: minimal acceptable score on the online mathematics placement exam; a grade of C in a MAC course numbered 1147 or higher; AP credit for MAC 2311; IB credit for a MAC course numbered 1147 or higher. Any course grades, AP or IB scores used to meet this prerequisite must be on file at UF by registration.
Attributes: General Education - Mathematics

MAC 2312 Analytic Geometry and Calculus 2 4 Credits
Grading Scheme: Letter Grade
Techniques of integration; applications of integration; differentiation and integration of inverse trigonometric, exponential and logarithmic functions; sequences and series. (M) Credit will be given for, at most, one of MAC 2312, MAC 2512 and MAC 3473.
Prerequisite: MAC 2311 or MAC 3472 with a minimum grade of C.
Attributes: General Education - Mathematics

MAC 2313 Analytic Geometry and Calculus 3 4 Credits
Grading Scheme: Letter Grade
Solid analytic geometry, vectors, partial derivatives and multiple integrals. (M) Credit will be given for, at most, one of MAC 2312, MAC 2512 or MAC 3473.
Prerequisite: MAC 2312 or MAC 2512 or MAC 3473 with a minimum grade of C.
Attributes: General Education - Mathematics

MAC 2512 Calculus 2 for Advanced Placement Students 4 Credits
Grading Scheme: Letter Grade
For entering freshmen who have Advanced Placement Calculus AB credit for MAC 2311. MAC 2512 covers those topics in MAC 2311 and MAC 2312, which is not included or only partially covered in the AP Calculus AB curriculum. Some topics from the AP curriculum are reviewed briefly in the first part of the semester. The combination of AP Calculus AB and MAC 2512 has the same content as the MAC 2311/2312 sequence. Calculus 2 topics to which the student has been exposed in AP Calculus AB are covered more quickly in MAC 2512 than in MAC 2312. (M) Credit will be given for, at most, one of MAC 2312, MAC 2512 and MAC 3473.
Prerequisite: AP credit for MAC 2311.
Attributes: General Education - Mathematics

MAC 3472 Honors Calculus 1 4 Credits
Grading Scheme: Letter Grade
Topics covered in the MAC 3472/MAC 3473/MAC 3474 sequence closely parallel those covered in MAC 2311/MAC 2312/MAC 2313, but are treated in greater depth. Credit will be given for, at most, MAC 2311 or MAC 3472. (M)
Prerequisite: strong background in precalculus.
Attributes: General Education - Mathematics

MAC 3473 Honors Calculus 2 4 Credits
Grading Scheme: Letter Grade
Continues the honors calculus sequence. (M) Credit will be given for, at most, one of MAC 2312, MAC 2512 and MAC 3473.
Prerequisite: MAC 3472 or MAC 2311 with a minimum grade of C.
Attributes: General Education - Mathematics

MAC 3474 Honors Calculus 3 4 Credits
Grading Scheme: Letter Grade
Continues the honors calculus sequence. (M) Credit will be given for, at most, MAC 2313 or MAC 3474.
Prerequisite: MAC 2312 or MAC 2512 or MAC 3473 with a minimum grade of C.
Attributes: General Education - Mathematics

MAD 2502 Intro to Computational Math 3 Credits
Grading Scheme: Letter Grade
Is an introduction to mathematical computation and the Python programming language. Emphasis is on using mathematical algorithms to solve problems in analysis, number theory, combinatorics, algebra, linear algebra, numerical analysis, and probability.
Prerequisite: MAC 2311 or MAC 3472, minimum grade of C.

MAD 3107 Discrete Mathematics 3 Credits
Grading Scheme: Letter Grade
Logic, sets, functions; algorithms and complexity; integers and algorithms; mathematical reasoning and induction; counting principles; permutations and combinations; discrete probability. Advanced counting techniques and inclusion-exclusion.
Prerequisite: MAC 2312 or MAC 2512 or MAC 3473 with a minimum grade of C.

MAD 4203 Introduction to Combinatorics 1 3 Credits
Grading Scheme: Letter Grade
Permutations and combinations, binomial coefficients, inclusion-exclusion, recurrence relations, Fibonacci sequences, generating functions and graph theory.
Prerequisite: (MAC 2312 or MAC 2512 or MAC 3473) and (MAS 3300 or MHF 3202) with minimum grades of C.

MAD 4204 Introduction to Combinatorics 2 3 Credits
Grading Scheme: Letter Grade
Matching theory, block designs, finite projective planes and error-correcting codes. Does not require MAD 4203.
Prerequisite: (MAC 2312 or MAC 2512 or MAC 3473) and (MAS 3300 or MHF 3202) with minimum grades of C.

MAD 4401 Introduction to Numerical Analysis 3 Credits
Grading Scheme: Letter Grade
Numerical integration, nonlinear equations, linear and nonlinear systems of equations, differential equations and interpolation.
Prerequisite: MAS 3114 or MAS 4105 with a minimum grade of C and experience with a scientific programming language.

MAE 3811 Mathematics for Elementary School Teachers 2 3 Credits
Grading Scheme: Letter Grade
Properties of and operations with rational numbers; ratio; proportion; percentages; an introduction to real numbers; elementary algebra; informal geometry and measurement; and introduces probability and descriptive statistics.
Prerequisite: College of Education major.

</table>

**Attributes**
- General Education - Mathematics
MAS 4203 Introduction to Number Theory 3 Credits
Grading Scheme: Letter Grade
Introduces elementary number theory and its applications to computer science and cryptography. Divisibility, primes, Euclidean Algorithm, congruences, Chinese Remainder Theorem, Euler-Fermat Theorem and primitive roots. Selected applications to decimal fractions, continued fractions, computer file storage and hashing functions, and public-key cryptography.
Prerequisite: MAC 2312 and (MAC 2512 or MAC 3473) with a minimum grade of C; MAS 3300 recommended.

MAS 4301 Abstract Algebra 1 3 Credits
Grading Scheme: Letter Grade
Sets and mappings, groups and subgroups, homomorphisms and isomorphisms, permutations, rings and domains, arithmetic properties of domains, and fields. Requires facility in writing proofs.
Prerequisite: (MAS 3300 or MHF 3202 with a minimum grade of B) or MAS 4105 with a minimum grade of C.

MAT 3503 Functions and Modeling 3 Credits
Grading Scheme: Letter Grade
Group activities strengthen knowledge of secondary mathematics, especially topics from precalculus and the transition to calculus, including contexts that can be modeled using linear, exponential, polynomial or trigonometric functions. Topics include conic sections, parametric equations and polar equations. Explorations involve multiple representations, transformations and data analysis techniques, and are facilitated by various technologies.
Prerequisite: MAC 2311 and UFTeach Step 1.
Corequisite: MAC 2312.

MAT 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Special topics not obtainable in regular course offerings.
Prerequisite: MAC 2313 or MAC 3474 with a minimum grade of C and undergraduate coordinator permission.

MAT 4911 Undergraduate Research in Mathematics 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in mathematics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in mathematics.

MAT 4930 Special Topics in Mathematics 1-3 Credits
Grading Scheme: Letter Grade
Qualified undergraduates take part in seminars or classes on special topics.
Prerequisite: undergraduate coordinator permission.

MAT 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

MGF 1106 Mathematics for Liberal Arts Majors 1 3 Credits
Grading Scheme: Letter Grade
For non-science and non-business majors who need to fulfill the writing and general education math requirements. Includes an introduction to set theory, logic, number theory, probability, statistics, graphing and linear programming. (M)
Attributes: General Education - Mathematics

MGF 1107 Mathematics for Liberal Arts Majors 2 3 Credits
Grading Scheme: Letter Grade
General-education course that demonstrates the beauty and utility of mathematics. Topics include financial management, linear and exponential growth, mathematics in the arts and discrete mathematics. Does not require MGF 1106. (M)
Attributes: General Education - Mathematics

MHF 3202 Sets and Logic 3 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: A UF math course at the 2000 level or above with a minimum grade of C.
Attributes: General Education - Mathematics

MHF 4102 Elements of Set Theory 3 Credits
Grading Scheme: Letter Grade
Basic axioms and concepts of set theory. Students present proofs. Credit will be given for, at most, MHF 4102 or MHF 5107.
Prerequisite: MAS 4105 with a minimum grade of C.

MHF 4203 Foundations of Mathematics 3 Credits
Grading Scheme: Letter Grade
Models and proofs. Foundations of real and natural numbers, algorithms, Turing machines, undecidability and independence. Examples and applications in algebra, analysis, geometry and topology. Credit will be given for, at most, MHF 4203 or MHF 5207.
Prerequisite: MAS 4105 with a minimum grade of C.

MTG 3212 Geometry 3 Credits
Grading Scheme: Letter Grade
Axiomatic treatment of topics in Euclidean, non-Euclidean, projective geometry and (time permitting) fractal geometry. Particularly useful for prospective secondary-school mathematics teachers.
Prerequisite: MAC 2312 and (MAC 2512 or MAC 3473 with a minimum grade of C).

MTG 3214 Euclidean Geometry 3 Credits
Grading Scheme: Letter Grade
Axiomatic structure of Euclidean geometry: congruence, parallelism, area, similarity, circles, polygons, medians, constructions, solid geometry, spherical and hyperbolic geometry. Particularly useful for prospective secondary-school mathematics teachers.
Prerequisite: MAC 2312 and (MAC 2512 or MAC 3473 with a minimum grade of C).

MTG 4302 Elements of Topology 1 3 Credits
Grading Scheme: Letter Grade
Basic concepts of general topology. Credit will be given for, at most, MTG 4302 or MTG 5316.
Prerequisite: MAS 4105 with a minimum grade of C.

MTG 4303 Elements of Topology 2 3 Credits
Grading Scheme: Letter Grade
Continues the basic concepts of general topology. Credit will be given for, at most, MTG 4303 or MTG 5317.
Prerequisite: MTG 4302 with a minimum grade of C.
Mechanical & Aerospace Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.

More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

The Department of Mechanical and Aerospace Engineering (MAE) is the largest academic program on campus by student enrollment. The Mechanical Engineering program celebrated its 100 year anniversary in 2009 and is one of the founding departments of the Herbert Wertheim College of Engineering. More than a decade after the successful merger of the mechanical and aerospace programs, MAE remains a vibrant and intellectually diverse program at both the undergraduate and graduate level.

Curriculum

• Aerospace Engineering
• Biomechanics Minor
• Combination Degrees
• Mechanical Engineering

The prerequisites for all courses offered by the Department of Mechanical and Aerospace Engineering may require classification as a student in good standing in aerospace engineering, mechanical engineering, and/or another engineering program for which the particular course is required.

Courses

EAS 2011 Introduction to Aerospace Engineering 3 Credits
Grading Scheme: Letter Grade
Overview of aerospace engineering. Standard atmosphere, basic aerodynamics, airplane performance, stability and control, propulsion, and space flight.
Prerequisite: PHY 2048 or PHY 2060, with minimum grade of C.

EAS 3020C Introduction to Flight 3 Credits
Grading Scheme: Letter Grade
Introduction to the science and engineering of aircraft. Overview of applied aerodynamics, performance, stability, propulsion and structures. Includes lab sessions flying and making measurements in a general aviation aircraft.
Prerequisite: (PHY 2048 or PHY 2053) and MAC 2311; or instructor permission.

EAS 4101 Aerodynamics 3 Credits
Grading Scheme: Letter Grade
Incompressible aerodynamics, integral and differential governing equations, potential flow, boundary layers, airfoils, wings, numerical techniques.
Prerequisite: (EAS 2011 or EAS 3020C or EGN 3353C) and COP 2271 and EML 3100 and MAC 2313 and MAP 2302 with minimum grades of C.

EAS 4132 Compressible Flow 3 Credits
Grading Scheme: Letter Grade
One-dimensional and quasi one-dimensional compressible fluid flows. Includes mach waves, normal shocks, oblique shocks, Prandtl-Meyer expansions, isentropic flow with area change, Fanno flow and Rayleigh flow.
Prerequisite: EAS 4101 or EGN 3353C

EAS 4200 Aerospace Structures 3 Credits
Grading Scheme: Letter Grade
Review of plane states of stress and strain. Includes analysis of thin-walled beams with open and closed section, unsymmetrical bending of wing sections, torsion of skin-stringer and multi-cell sections, flexural shear in open and closed sections, Shear Center and failure criteria. Also includes introduction to composite materials and demonstration of behavior of some simple structural elements.
Prerequisite: EGM 3520 with minimum grade of C.

EAS 4240 Aerospace Composites 3 Credits
Grading Scheme: Letter Grade
Various types and applications of structural composites used in flight structures. Also includes an introduction to analysis of structural composites.
Prerequisite: EGM 3520 with minimum grade of C.

EAS 4300 Aerospace Propulsion 3 Credits
Grading Scheme: Letter Grade
Basics of air-breathing and rocket engines used in flight systems.
Prerequisite: EAS 4101

EAS 4400 Stability and Control of Aircraft 3 Credits
Grading Scheme: Letter Grade
Static stability and control, equations of motion, stability derivatives, stability of longitudinal and lateral motion of aircraft.
Prerequisite: EAS 4101 and EML 4312.

EAS 4412 Dynamics and Control of Space Vehicles 3 Credits
Grading Scheme: Letter Grade
Review of aerospace applications in current guidance and control systems. Includes synthesis of open and closed loop guidance and control systems using classical and modern control theory.
Prerequisite: EGM 4313 or MAP 4305 or MAP 5304

EAS 4510 Astrodynamics 3 Credits
Grading Scheme: Letter Grade
Introduces the solar system. Includes study of two-body motion, Hohmann transfer, patched conics for interplanetary and lunar trajectories, and the restricted three-body problem. Also includes an introduction to powered flights and artificial satellite orbits.
Prerequisite: EGM 3401 with minimum grade of C and (EGM 4313 or MAP 4305 or MAP 5304).
EAS 4530 Space Systems Design 3 Credits  
Grading Scheme: Letter Grade  
A discussion of the component systems of a spacecraft and a typical mission's requirements. The operation and character of different spacecraft hardware is presented as well as typical mission timelines from early conception to final operations. Topics include the space environment, guidance/control/navigation systems, spacecraft sensors and actuators, propulsion systems, thermal systems, power systems, launch systems, communication systems, structural systems and mission operations. This course is useful to engineers, scientists, computer scientists and any profession that uses data.  
Prerequisite: EAS 4510.

EAS 4700 Aerospace Design 1 3 Credits  
Grading Scheme: Letter Grade  
Applications of the principles of analysis and design to aerospace vehicles. Emphasizes astronautics.  
Prerequisite: EAS 4510 and EML 4312.

EAS 4710 Aerospace Design 2 3 Credits  
Grading Scheme: Letter Grade  
Applications of the principles of analysis and design to aerospace vehicles. Emphasizes aeronautics.  
Prerequisite: EAS 4101 and EAS 4400.

EAS 4810C Aerospace Sciences Lab and Design 3 Credits  
Grading Scheme: Letter Grade  
Experimental investigations of aerospace engineering systems. Wind tunnel testing. Design project with experimental validation.  
Prerequisite: EAS 4101 and EML 3301C.

EAS 4905 Individual Study in Aerospace Engineering 1-4 Credits  
Grading Scheme: Letter Grade  
Selected problems or projects in the student's major field of engineering study.  
Prerequisite: department chair recommendation.

EAS 4912 Integrated Product and Process Design 1 3 Credits  
Grading Scheme: Letter Grade  
The first of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.  
Prerequisite: EAS 4101 and EGM 3520 and EML 3301C.

EAS 4913 Integrated Product and Process Design 2 3 Credits  
Grading Scheme: Letter Grade  
The second part of the integrated design sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget.  
Prerequisite: EAS 4912.

EAS 4939 Special Topics in Aerospace Engineering 1-4 Credits  
Grading Scheme: Letter Grade  
Special topics in aerospace engineering.  
Prerequisite: instructor permission.

EAS 4949 Co-op Work Experience 1 Credit  
Grading Scheme: S/U  
Practical engineering work under industrial supervision, as set forth in the college regulations.  
Prerequisite: Engineering major of sophomore standing or higher.

EAS 2511 Engineering Mechanics: Statics 3 Credits  
Grading Scheme: Letter Grade  
Reduction of force systems, equilibrium of particles and rigid bodies, vector methods and their application to structures and mechanisms.  
Prerequisite: PHY 2048;  
Corequisite: MAC 2313.

EAS 3344 Introduction to Numerical Methods of Engineering Analysis 3 Credits  
Grading Scheme: Letter Grade  
Methods for numerical solution of mathematical problems with emphasis on engineering applications using MATLAB. Includes roots, optimization, linear algebraic equations, matrices, curve fitting, differentiation, integration and ordinary differential equations.  
Prerequisite: MAC 2313 and COP 2271;  
Corequisite: MAP 2302.

EAS 4401 Engineering Mechanics: Dynamics 3 Credits  
Grading Scheme: Letter Grade  
Continues the dynamics sequence begun in EGM 3400 plus extended coverage of three-dimensional rigid-body dynamics and orbital motion.  
Prerequisite: EGM 2511 or EGM 2500, and MAC 2313.

EAS 3520 Mechanics of Materials 3 Credits  
Grading Scheme: Letter Grade  
Stress and strain at a point, stress-strain-temperature relations and mechanical properties of materials. Systems subject to axial load, torsion and bending. Design concepts, indeterminate structures and applications.  
Prerequisite: EGM 2511 and MAC 2313.

EAS 4313 Intermediate Engineering Analysis 3 Credits  
Grading Scheme: Letter Grade  
Prerequisite: MAP 2302 and EGM 3344.

EAS 4590 Biodynamics 3 Credits  
Grading Scheme: Letter Grade  
Dynamic analysis of the human musculoskeletal system. Includes development of lumped mass, planar rigid body and 3-D rigid body models of human movement. Also includes calculation of internal forces in muscles and joints and analysis of muscle function using dynamics principles and musculoskeletal geometry.  
Prerequisite: EGM 3400 or EGM 3401, or instructor permission.

EAS 4592 Bi-Solid Mechanics 3 Credits  
Grading Scheme: Letter Grade  
Introduction to solid and fluid mechanics of biological systems. Includes rheological behavior of materials subjected to static and dynamic loading, the mechanics of cardiovascular, pulmonary and renal systems, and the mathematical models and analytical techniques used in biosciences.  
Prerequisite: EGM 3520.

EAS 4853 Bio-Fluid Mechanics and Bio-Heat Transfer 3 Credits  
Grading Scheme: Letter Grade  
A study of biothermal fluid sciences with an emphasis on the physiological processes occurring in human blood circulation and the underlying mechanisms from an engineering perspective.  
Prerequisite: EGN 3353C.
EGN 3353C Fluid Mechanics 3 Credits
Grading Scheme: Letter Grade
Prerequisite: MAC 2313 with a minimum grade of C and EGM 2511 and (EGM 3100 or EML 3007 or BME 3060).

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

EGS 1005 Prep for Success 1-4 Credits
Grading Scheme: S/U
Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)
Prerequisite: EG student.

EML 2023 Computer Aided Graphics and Design 3 Credits
Grading Scheme: Letter Grade
Sketching, descriptive geometry, computer graphics, computer aided drafting and design projects.

EML 2322L Design and Manufacturing Laboratory 2 Credits
Grading Scheme: Letter Grade
Study and application of design, problem formulation, conceptual design, prototype development. Study of common manufacturing processes.
Prerequisite: EML 2023 and ENC 3246 and (Aerospace Engineering or Mechanical Engineering major).

EML 2920 Department and Professional Orientation 1 Credit
Grading Scheme: Letter Grade
Principles of mechanical and aerospace engineering practice, professional standards, engineering ethics.

EML 3005 Mechanical Engineering Design 1 3 Credits
Grading Scheme: Letter Grade
Design process, kinematics, gear trains, and standard mechanical components.
Prerequisite: COP 2271 and EML 2322L and EGM 3520 with minimum grades of C.

EML 3100 Thermodynamics 3 Credits
Grading Scheme: Letter Grade
Application of the first and second laws of thermodynamics to closed and open systems and to cyclic heat engines. Includes the development of procedures for calculating the properties of multiphase and singlephase pure substances.
Prerequisite: CHM 2045, MAC 2313 and PHY 2048.

EML 3301C Mechanics of Materials Laboratory 3 Credits
Grading Scheme: Letter Grade
Experimental characterization of the mechanical properties of engineering materials, precision instruments, computer-based data acquisition, statistical uncertainty analysis, preparation of engineering reports. (WR)
Prerequisite: EGM 3520, EGM 3344, and ENC 2210 or ENC 3254.
Attributes: Satisfies 6000 Words of Writing Requirement

EML 4140 Heat Transfer 3 Credits
Grading Scheme: Letter Grade
Steady state and transient analysis of conduction and radiation heat transfer in stationary media. Also discusses heat transfer in fluid systems, including forced and free convection.
Prerequisite: MAP 2302 with minimum grade of C and (EAS 4101 or EGN 3353C).

EML 4147C Thermal Sciences Design and Laboratory 3 Credits
Grading Scheme: Letter Grade
Thermodynamics, fluid mechanics, and heat transfer integrated with design and laboratory.
Prerequisite: EML 3100 with a minimum grade of C and EML 3301C and EML 4140.

EML 4220 Vibrations 3 Credits
Grading Scheme: Letter Grade
Single and multiple degree of freedom systems, including application to mechanical systems with problems employing computer techniques.
Prerequisite: EGM 3344 and EGM 3401 and EGM 3520 and MAP 2302 with minimum grades of C.

EML 4304C Thermo/Fluid Design and Laboratory 3 Credits
Grading Scheme: Letter Grade
Design and laboratories for turbomachinery, compressible flow, chemical reactions, and thermodynamic cycles.
Prerequisite: EGN 3353C and EML 3100 and EML 3301C.

EML 4312 Control of Mechanical Engineering Systems 3 Credits
Grading Scheme: Letter Grade
Theory, analysis and design of control systems, including mechanical, electromechanical, hydraulic, pneumatic, and thermal components and systems.
Prerequisite: EGM 3401 and EGM 3344 and MAP 2302 with minimum grades of C.

EML 4314C Dynamics and Controls System Design Laboratory 3 Credits
Grading Scheme: Letter Grade
Experiments on dynamic systems in mechanical and aerospace engineering and design of relevant control systems.
Prerequisite: EML 3301C and EML 4312.

EML 4321 Manufacturing Engineering 3 Credits
Grading Scheme: Letter Grade
Traditional and nontraditional manufacturing processes and equipment. Application of engineering analysis tools to manufacturing.
Prerequisite: EMA 3010 and EML 2322L and EML 3005.

EML 4410 Combustion Engineering 3 Credits
Grading Scheme: Letter Grade
Fundamentals of combustion processes and systems; including thermochemistry, rates and mechanisms, pollutant analysis, premixed and diffusion flames and applications to engines and turbomachinery.

EML 4450 Energy Conversion 3 Credits
Grading Scheme: Letter Grade
Thermomechanical and thermoelectric energy conversion, conventional and unconventional techniques and analysis of energy systems interactions.
EML 4500C Reengineering Historic Machinery 3 Credits  
**Grading Scheme:** Letter Grade  
Studies historic commercial machine or vehicle, including theory of operation, embedded engineering principles, and design. Reengineering and design of enhancements. Laboratory includes disassembly, observation of characteristics and conditions, implementation of enhancements, and rebuilding.  
**Prerequisite:** EML 2322L and EML 3005 and EML 3100 with minimum grades of C.

EML 4501 Mechanical Engineering Design 2 3 Credits  
**Grading Scheme:** Letter Grade  
Integrated design and presentation of a mechanical system.  
**Prerequisite:** EGN 3353C and EML 2322L and EML 3005 and (EGM 3401 with a minimum grade of C).

EML 4502 Mechanical Engineering Design 3 3 Credits  
**Grading Scheme:** Letter Grade  
Design and realization of a mechanical engineering system, component, or process subject to appropriate standards and constraints. Team Project.  
**Prerequisite:** EML 4501;  
**Corequisite:** EML 4321.

EML 4507 Finite Element Analysis and Design 3 Credits  
**Grading Scheme:** Letter Grade  
Stress-strain analysis and design of machine elements and finite element analysis.  
**Prerequisite:** EGM 3344 and EGM 3520 and MAP 2302 with minimum grades of C.

EML 4600 Refrigeration and Air Conditioning Fundamentals 3 Credits  
**Grading Scheme:** Letter Grade  
Fundamentals of refrigeration theory, vapor compression and absorption, refrigeration components and systems, psychrometric theory, analysis of cooling and dehumidifying coils.  
**Prerequisite:** EML 3100.

EML 4601 Heating and Air Conditioning System Design 3 Credits  
**Grading Scheme:** Letter Grade  
Heating and air conditioning systems: equipment selection, system arrangement, load calculations, advanced psychrometrics, duct and piping system design, air distribution system design and indoor air quality.  
**Prerequisite:** EML 3100.

EML 4722 Introduction to Computational Fluid Dynamics 3 Credits  
**Grading Scheme:** Letter Grade  
General theory, skepticism, and practice of computational fluid dynamics. Computational grids and generation, boundary conditions, fluid dynamics, numerical methods, visualization, turbulence modelling, and various special topics.  
**Prerequisite:** EAS 4101 or EGN 3353C

EML 4737 Hydraulics and Pneumatics for Building Systems 3 Credits  
**Grading Scheme:** Letter Grade  
Applications, design, maintenance and operations of various pneumatic, hydronic and other process systems. Includes in-depth design concepts and techniques as well as preparation of specifications and cost estimates.  
**Prerequisite:** EGN 3353C.

EML 4738 Hydraulic and Mechanical Power Transmission 3 Credits  
**Grading Scheme:** Letter Grade  
Transmission of power in machines by hydraulic and mechanical means, including analytical design of components and their functions.  
**Prerequisite:** EML 3005.

EML 4905 Individual Study in Mechanical Engineering 1-3 Credits  
**Grading Scheme:** Letter Grade  
Selected problems or projects in the student’s major field of engineering study.  
**Prerequisite:** 2.3 UF GPA and department permission.

EML 4912 Integrated Product and Process Design 1: Mechanical Engineering 3 Credits  
**Grading Scheme:** Letter Grade  
The first part of a two-course sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget. Working closely with industry liaison engineers and a faculty coach, students gain practical experience in teamwork and communication, problem solving and engineering design, and develop leadership, management and people skills.  
**Prerequisite:** EGN 3353C and EGM 3401 and EML 3005 and EML 3301C.

EML 4913 Integrated Product and Process Design 2: Mechanical Engineering 3 Credits  
**Grading Scheme:** Letter Grade  
The second part of the integrated design sequence in which multidisciplinary teams of engineering and business students partner with industry sponsors to design and build authentic products and processes-on time and within budget.  
**Prerequisite:** EML 4912.

EML 4926 Mechanical Consulting Practice 3 Credits  
**Grading Scheme:** Letter Grade  
Synthesis and analysis of mechanical engineering systems, planning and execution of engineering contracts, and supervision of construction and tests.  
**Prerequisite:** senior standing.

EML 4930 Special Topics in Mechanical Engineering 1-3 Credits  
**Grading Scheme:** Letter Grade  
Variable content in mechanical engineering not offered in other courses.  
**Prerequisite:** instructor permission.

EML 4945 Practical Work in Mechanical Engineering 1 Credit  
**Grading Scheme:** S/U  
Practical engineering work under industrial supervision, as set forth in the Herbert Wertheim College of Engineering regulations.  
**Prerequisite:** Engineering major with a 2.0 UF GPA.

EML 4949 Co-op Work Experience 1 Credit  
**Grading Scheme:** S/U  
Practical co-op work experience under approved industrial supervision.  
**Prerequisite:** Engineering major with a 2.0 UF GPA.

**Medicine**

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.  
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.
Interdisciplinary Programs

There are two interdisciplinary majors within the College of Medicine for qualified undergraduates with department permission: neurobiological sciences and biochemistry and molecular biology. Both programs are offered in cooperation with the College of Liberal Arts and Sciences.

Neurobiological sciences involves coursework in the Department of Neuroscience and related disciplines, and biochemistry and molecular biology involves coursework in the Department of Biochemistry and Molecular Biology. Both programs require independent laboratory research and additional electives. Applications should be made to the departments in the sophomore or early junior year.

For a complete description of the courses offered by the College of Medicine, refer to:

- College of Medicine (http://www.med.ufl.edu/)
- Graduate School (http://www.graduateschool.ufl.edu/academics/graduate-catalog/) catalog.

Courses

BMS 3521 Human Physiology in Translation 3 Credits
Grading Scheme: Letter Grade
Human physiology organized into four major physiological systems: cellular/endocrine, cardiovascular, respiratory and renal physiology. For each system, translational topics bridge basic science to contemporary medical issues relevant to undergraduates and society. Designed to be of special interest to those pursuing medically related careers.
Prerequisite: APK 2105C or BSC 2010 or MCB 2000 or instructor permission.

BMS 4136C Human Histology 4 Credits
Grading Scheme: Letter Grade
For pre-professional students. Lectures emphasize the biology of cells and extracellular components that underlie tissue function. Laboratories emphasize visualization of corresponding structures by light microscopy, with correlation to images acquired by electron microscopy.
Prerequisite: PCB 3023 or PCB 3134 or instructor permission.

BMS 4905 Medical Sciences Senior Research 1-5 Credits
Grading Scheme: Letter Grade
Laboratory or literature investigations of current problems in the medical sciences.
Prerequisite: instructor permission.

MDU 4001 Introduction to Medical Science Seminar 1 Credit
Grading Scheme: Letter Grade
First of two courses of introduction to the medical sciences.

MDU 4002 Introduction to Medical Science Seminar 2 3 Credits
Grading Scheme: Letter Grade
The second course of introduction to the medical sciences.

MDU 4003 Introduction to the Professions of Medicine 3 Credits
Grading Scheme: Letter Grade
A web-based course about the medical field. Online lectures are presented by medical students, residents and practicing physicians who take students through various aspects of the medical profession.

MDU 4004 Physician Shadowing 3 Credits
Grading Scheme: Letter Grade
Provides background knowledge in issues related to clinical care such as privacy, professionalism and compassion, while students shadow clinicians in the Gainesville area. Course is provided through participation at the Equal Access Clinic and individual physician clinics. Enrollment is completed by the College of Medicine.
Prerequisite: MDU 4003.

MDU 4008 Aspects of the Art of Medicine 2 Credits
Grading Scheme: Letter Grade
Introduces the Essential Competencies Needed to Practice the Art of Medicine; Designed to Assist Third Year Students in the Medical Honors Program for Successful Transition to UF College of Medicine. Provides Knowledge, Skills, and Experiences to Be Successful Personally and Professionally During Medical Education and Beyond.
Prerequisite: third year standing in the Medical Honors Program.

MDU 4010 Cell Biology Seminar 4 Credits
Grading Scheme: Letter Grade
Cellular functions in health and disease. The structure and molecular biology of mammalian cells are stressed, including virus-cell interactions, inborn errors or metabolism and bacterial growth.

MDU 4031 Medicine and the Law 3 Credits
Grading Scheme: Letter Grade
The importance of the law and its impact on the way medicine is practiced in the United States, presented from academics and practicing attorneys and physicians.
Prerequisite: MDU 4003.

MDU 4032 Health Care Economics 2 Credits
Grading Scheme: Letter Grade
This course examines key health care issues in the United States using economic theory as the framework for analysis. Students will analyze health care issues, using efficiency and equity criteria, and evaluate current health care policies for their effects on access, quality and cost. Topics include the health economy; the production and demand for health and medical care; the market for health insurance; private (e.g. employment based) and public (e.g. Medicare and Medicaid) sources of health insurance; managed care; and health care reform.

MDU 4051 Medical Humanities and Clinical Practice 2 Credits
Grading Scheme: Letter Grade
Introductory course to the physical realities of patient care and to the way in which medical humanities illuminate understanding of the practice of medicine.

MDU 4061 Introduction to Medical Bioethics 3 Credits
Grading Scheme: Letter Grade
Bioethical issues facing our nation and world and the impact of these issues in medicine and research. Also includes the importance of integrated, collaborative research and the professionalism expected within the healthcare and scientific communities.
Prerequisite: MDU 4003.

MDU 4070 Physician Perspectives on Glocal Topics in Healthcare 3 Credits
Grading Scheme: Letter Grade
Covers topics in global and local health that is necessary for today’s practicing physician leader. Designed to assist third year students in the MHP to become leaders in the social aspects of medicine, it provides the necessary knowledge, skills, and experiences to be physician activists.
Prerequisite: active third year student in the Medical Honors Program.
MDU 4850 Diseases of Eating 3 Credits
Grading Scheme: Letter Grade
A web-based course that focuses on anorexia, bulimia and obesity and emphasizes societal issues associated with these disorders. Written assignments are opinion-based, encouraging the student to think about these disorders on a broad scale.

Medieval and Early Modern Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

MEM 2500 The Tales of King Arthur 3 Credits
Grading Scheme: Letter Grade
The great literary works of the Arthurian tradition and the manner in which the tales of King Arthur serve, from their 6th century Celtic origins to the present, to articulate the interests and values of different social groups throughout history. (H and N)
Attributes: General Education - Humanities, General Education - International

MEM 3003 Introduction to the Medieval World 3 Credits
Grading Scheme: Letter Grade
Chronological and topical introduction to history of the medieval millennium (400-1400). (H and N)
Attributes: General Education - Humanities, General Education - International

MEM 3300 Castles and Cloisters: An Introduction to Medieval Communities 3 Credits
Grading Scheme: Letter Grade
Studies monastic and courtly-chivalric communities as these evolved in the Middle Ages. Explores architecture, art, literature and music illustrate how different monastic and chivalric communities saw the world and their place in it. (H and N)
Attributes: General Education - Humanities, General Education - International

MEM 3301 Palaces and Cities: An Introduction to Early Modern Communities 3 Credits
Grading Scheme: Letter Grade
Explores the new kind of European culture that emerges with early modern residential palaces and cities. The study of seminal texts in poetry, politics and theology, and of early modern cities and palaces shows the new operant principle in cultural processes to be the primacy of the individual. (H)
Prerequisite: ENC 1101 or the equivalent.
Attributes: General Education - Humanities

MEM 3730 Studies in the Holy Roman Empire 3 Credits
Grading Scheme: Letter Grade
Variable content examines the political and religious ideas and the literary and artistic productions associated with significant stages in the history of the Holy Roman Empire.
Attributes: General Education - Humanities, General Education - International

MEM 3805 Research Methods in Medieval and Early Modern Studies 1 Credit
Grading Scheme: Letter Grade
How to conduct research in medieval and early modern studies. Learn how to find and effectively search the most appropriate print and electronic resources for their research projects. The research skills developed have broader applicability than medieval and early modern studies.
Prerequisite: ENC 1101 or the equivalent.

MEM 3931 Variable Topics in Medieval and Early Modern Studies 3 Credits
Grading Scheme: Letter Grade
Provides intermediate study in medieval and early modern studies.
Prerequisite: ENC 1101 or the equivalent.

MEM 4905 Independent Study in Medieval and Early Modern Studies 1-5 Credits
Grading Scheme: Letter Grade
Independent work in medieval and early modern studies.
Prerequisite: instructor permission.

MEM 4931 Special Topics in Medieval and Early Modern Studies 1-3 Credits
Grading Scheme: Letter Grade
Advanced study in medieval and early modern studies.

Microbiology & Cell Science

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

The Department of Microbiology and Cell Science is committed to excellence in education, research and service to the community. The curriculum provides an excellent preparation for students who wish to enter the workforce or continue their education in professional programs such as medical, dental, pharmacy, veterinary programs, graduate school or public health degrees. B.S. degrees are offered through both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences and the M.S. and Ph.D. degrees are offered through the College of Agricultural and Life Sciences. Combination degrees are available.

Courses

BSC 2891 Python Programming for Biology 3 Credits
Grading Scheme: Letter Grade
Discoveries in biology are driven as much by computer analysis as by laboratory work. Learn the theory and practice of computer programming with emphasis on the practical techniques and problem solving skills required to use computer programming in biological research. Taught completely online.

BSC 4434C Introduction to Bioinformatics 3 Credits
Grading Scheme: Letter Grade
Lecture and hands-on computer laboratories emphasize data-mining tools freely available in web-based resources that predict gene function from DNA, RNA, and protein sequences.
Prerequisite: MCB 3020 or MCB 3023 or BCH 4024 or CHM 3218 with a minimum grade of C.

BSC 4913 Independent Research in Bioinformatics 3 Credits
Grading Scheme: Letter Grade
Mentored research experience at the interface between computational and biological sciences; preparation for competitive graduate-school and industry positions in bioinformatics.
Prerequisite: BSC 2891 or MCB 4320C or BSC 4434C or BSC 4434C with a minimum grade of C.

BSC 4914 Advanced Independent Research in Bioinformatics 3 Credits
Grading Scheme: Letter Grade
Mentored bioinformatics research experience that challenges students to develop a deeper understanding of bioinformatics methodologies, to frame biological questions, to evaluate primary scientific literature and to present their research in formal written and oral presentations.
Prerequisite: BSC 4913 with a minimum grade of C.

MCB 2000 Microbiology 3 Credits
Grading Scheme: Letter Grade
Role of microorganisms in chemical transformations, disease, public health and agriculture. Fundamental concepts are discussed, followed by beneficial and harmful actions of microorganisms as they affect our lives. Suitable as a general education science course, but not acceptable for admission to advanced microbiology courses nor for the preprofessional curricula required for the medical/veterinary sciences. (B)
Attributes: General Education - Biological Science

MCB 2000L Microbiology Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory exercises demonstrate biochemical transformations and present methods for studying microbial properties. Suitable as a general education science course, but not acceptable for admission to advanced microbiology courses nor for the preprofessional curricula required for the medical/veterinary sciences.

MCB 2006 Microbes without Borders 3 Credits
Grading Scheme: Letter Grade
Introduces the amazing world of microbiology; microbes play a significant role for individuals, for our communities, and for the whole planet. Readings, discussions, and activities provide a mind-opening, global journey to acknowledge the great things microbes do for us.

MCB 3015C Lab Skills Bootcamp 1 Credit
Grading Scheme: Letter Grade
Provides a foundation and advanced skills all biological science students should master. Emphasizes analytical, computational, communication and other lab skills above and beyond bench work.
Prerequisite: (BSC 2010 or equivalent) and (Agricultural and Life Sciences major or Microbiology and Cell Science major).
Corequisite: CHM 2045 or equivalent.

MCB 3020 Basic Biology of Microorganisms 3 Credits
Grading Scheme: Letter Grade
Introduces the principles and techniques of microbiology, genetics, taxonomy, biochemistry and ecology and microorganisms. Also studies virology, immunology, and the pathogenicity of microorganisms. (B)
Prerequisite: BSC 2010 and BSC 2010L, or ISC 2400L, or ISC 2401L, or equivalent, with minimum grades of C; BSC 2011 and BSC 2011L, or equivalent, or AGR 3303, with minimum grades of C; non-microbiology majors only.
Corequisite: CHM 2200 or CHM 2210.
Attributes: General Education - Biological Science

MCB 3020L Laboratory for Basic Biology of Microorganisms 1 Credit
Grading Scheme: Letter Grade
Laboratory exercises on the structure, nutrition, and growth of prokaryotic and eukaryotic cells. Includes isolation and classification of representative microorganisms.
Prerequisite: non-Microbiology and Cell Science major.
Corequisite: MCB 3020.

MCB 3023 Principles of Microbiology 3 Credits
Grading Scheme: Letter Grade
Introduces the principles and techniques of microbiology, genetics, taxonomy, biochemistry and ecology of microorganisms. Required of all majors and students who will enroll in more advanced courses in the Department of Microbiology and Cell Science.
Prerequisite: BSC 2010 and BSC 2010L, or ISC 2400L, or ISC 2401L, or equivalent, with minimum grades of C; BSC 2011 and BSC 2011L, or equivalent, or AGR 3303, with minimum grades of C; microbiology majors only.
Corequisite: CHM 2200 or CHM 2210, with mini

MCB 3023L Principles of Microbiology Laboratory 2 Credits
Grading Scheme: Letter Grade
Laboratory techniques on the structure, nutrition, biochemistry, genetics, and growth of microorganisms. Required of all majors and students who will enroll in more advanced courses in the Department of Microbiology and Cell Science.
Prerequisite: Microbiology and Cell Sciences major.
Corequisite: MCB 3023.

MCB 3703 Astrobiology 3 Credits
Grading Scheme: Letter Grade
Examines the origin, evolution and future of life in our solar system. Include planetary habitability, astrobiogeochemistry, microbial life, and human space flight. (WR)
Prerequisite: introductory course in microbiology, astronomy, chemistry, physics or geology.
Attributes: Satisfies 4000 Words of Writing Requirement

undergraduate 1957
MCB 3933 Professional Development in Microbiology and Cell Science  
1-2 Credits  
Grading Scheme: Letter Grade  
Assistance in making career decisions and organizing supporting academic credentials. Emphasizes the wide variety of career opportunities and professional development tools applicable to careers in professional schools, academia, industry, and alternative professions.  
Prerequisite: BSC 2011 and CHM 2045 or equivalent and Agricultural and Life Sciences Microbiology and Cell Science major.  

MCB 4034L Advanced Microbiology Laboratory 1 Credit  
Grading Scheme: Letter Grade  
Application of immunological, molecular biological and microbial techniques to the isolation, identification, and characterization of bacteria and viruses.  
Prerequisite: (MCB 3020 or MCB 3023) and (MCB 3020L or MCB 3023L) with minimum grades of C.  

MCB 4150 Prokaryotic Diversity 3 Credits  
Grading Scheme: Letter Grade  
Introduces the diversity of bacteria and archaea. Discussions provide a conceptual and historical framework for understanding their origin and evolution; morphological, metabolic, and molecular characteristics; genetic and physiological diversity; importance in human, animal, and plant health; and roles in elemental cycling.  
Prerequisite: MCB 3020 or MCB 3023 with a minimum grade of C.  

MCB 4203 Bacterial Pathogens 3 Credits  
Grading Scheme: Letter Grade  
Host-microbe relationships in the diseases of humans and animals, including the virulence characteristics of bacterial pathogens, the techniques used in their isolation/identification, and molecular approaches to the study of their virulence.  
Prerequisite: MCB 3020 or MCB 3023 with minimum grade of C.  

MCB 4304 Genetics of Microorganisms 3 Credits  
Grading Scheme: Letter Grade  
Molecular biology of bacterial gene expression, including DNA replication, mutation, genetic mapping using plasmids and phages, and recombinant DNA mechanisms.  
Prerequisite: (MCB 3020 or MCB 3023) and (MCB 3020L or MCB 3023L) with minimum grades of C. BCH 4024 should be taken before MCB 4403.  

MCB 4320C The Microbiome 3 Credits  
Grading Scheme: Letter Grade  
Increase knowledge, appreciation, and use of genomics pertaining to the breadth of microbial diversity across a wide variety of organisms and habitats using methods that do not require culturing of the myriad of inhabitants. Use tools, practice analysis, and interpretation of genomic data sets to analyze different microbiomes.  
Prerequisite: MCB 3020 or MCB 3023 with minimum grades of C.  

MCB 4325C R for Functional Genomics 3 Credits  
Grading Scheme: Letter Grade  
Introduces the Basics of the R Language and to state of the art methods for functional genomics data analysis. Learn how to write R scripts, choose appropriate statistical tools, and how to use Linux environments to analyze high-throughput genomics data.  
Prerequisite: STA 2023 and (BSC 2010 or BSC 2011 or MCB 3020 or MCB 3023 or BCH 4024 or CHM 3218).  

MCB 4403 Prokaryotic Cell Structure and Function 3 Credits  
Grading Scheme: Letter Grade  
Analyzes the cell structure and physiology of bacterial cells. Extensive discussion of cell division and cell growth is provided along with descriptions of important bacterial cell structures (e.g. cell walls, membranes, flagella, etc.)  
Prerequisite: CHM 2211 and (MCB 3020 or MCB 3023) and (MCB 3020L or MCB 3023L) with minimum grades of C. BCH 4024 should be taken before MCB 4403.  

MCB 4422 Probiotics 3 Credits  
Grading Scheme: Letter Grade  
Covers the use of microorganisms to promote a health status in the host and provides a conceptual background in microbiology and immunology for the use of microorganisms for the prevention or treatment of animal and human diseases.  

MCB 4503 General Virology 3 Credits  
Grading Scheme: Letter Grade  
Nature of viruses and mechanisms of infection and replication, including bacterial, animal, and plant viruses.  
Prerequisite: MCB 3020 or MCB 3023 or MCB 4203 or PCB 3023 or BCH 3023 or PCB 3134 with minimum grade of C.  

MCB 4652 Environmental Microbiology 3 Credits  
Grading Scheme: Letter Grade  
Overview of microorganisms in the environment including occurrence, abundance and distribution; processes of microbial interaction with the environment; and practices of applied environmental microbiology.  
Prerequisite: MCB 3020 or MCB 3023 or equivalent introductory microbiology course with minimum grade of C.  

MCB 4782 Extremophiles 3 Credits  
Grading Scheme: Letter Grade  
The evolution, physiology, biochemistry, and molecular biology of extremophiles with emphasis on archaea and their viruses. Discuss principles of energy metabolism at the limits of life. Highlights research that incorporates cutting-edge techniques and biotechnology applications for using extremophiles to solve real world problems.  
Prerequisite: CHM 2211 and ((MCB 3020 and MCB 3020L) or (MCB 3023 and MCB 3023L)).  

MCB 4905 Independent Study 0-4 Credits  
Grading Scheme: S/U  
Individual laboratory research under the guidance of a faculty member. Required of, but not limited to, candidates for high and highest honors. Not acceptable toward 25 credits of required department and elective credits. (S-U)  
Prerequisite: undergraduate advisor permission; microbiology majors only.  

MCB 4911 Supervised Research in Microbiology and Cell Science 0-3 Credits  
Grading Scheme: Letter Grade  
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.. (S-U)  

MCB 4915 Honors Thesis Research in Microbiology and Cell Science 0-3 Credits  
Grading Scheme: Letter Grade  
Independent research in microbiology and cell science leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)  
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.
MCB 4934 Special Topics in Microbiology and Cell Science 1-4 Credits
Grading Scheme: Letter Grade
Supervised literature or historical study on current topics in microbiology and cell science. Not acceptable toward 25 credits of required department and elective credits.
Prerequisite: undergraduate coordinator permission.

MCB 4941 Microbiology and Cell Science Internship 1-4 Credits
Grading Scheme: Letter Grade
Internship in microbiology and cell science under supervision of the department.

NUR 3197 Genetics and Genomics in Health Care 2 Credits
Grading Scheme: Letter Grade
Genetics and genomics are advancing quickly and will play a greater role in health care as personal genome sequencing becomes available. Reinforces basic genetics and genomics concepts and exploring how genomics may affect health care.
Prerequisite: Nursing major.

PCB 1051 Exploring Your Genome 3 Credits
Grading Scheme: Letter Grade
How the genome sequence is analyzed and its implications on human health. Promotes genetic literacy (see syllabus for specific topics).

PCB 3134 Eukaryotic Cell Structure and Function 3 Credits
Grading Scheme: Letter Grade
Lecture and discussions in the field of cell biology with emphasis on the interrelation of structure and function, the regulation of metabolism and the specialized activities of plant and animal cells.
Prerequisite: (BSC 2010 and BSC 2010L or equivalent with minimum grades of C) and (BSC 2011 and BSC 2011L or equivalent) or (AGR 3303 and CHM 2210) with minimum grades of C) and (CHM 2200 or CHM 2210 with minimum grade of C).
Corequisite: CHM 2211 and CHM 2211L.

PCB 4233 Immunology 3 Credits
Grading Scheme: Letter Grade
Basic concepts in immunology, including specific components, development, and function.
Prerequisite: (MCB 3023 or MCB 3020 or BCH 4024 or CHM 3218 or PCB 3134) with minimum grade of C.

PCB 4522 Molecular Genetics 3 Credits
Grading Scheme: Letter Grade
Molecular biology of prokaryotes and eukaryotes covering the fundamentals of genome organization and gene structure, regulation of transcription, DNA replication and repair, and RNA processing. Also includes discussion of strategies, vectors and applications of genetic engineering in higher plants and animals.
Prerequisite: BSC 2010 and BSC 2010L with minimum grades of C.

ZOO 4232 Human Parasitology 3 Credits
Grading Scheme: Letter Grade
Host-parasite relationships of helminth and protozoan diseases important in health sciences and veterinary medicine.
Prerequisite: BSC 2010 and BSC 2010L, or equivalent; and BSC 2011 and BSC 2011L, or equivalent, or AGR 3303 with minimum grades of C.

Military Science

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Division Information

Air Force ROTC prepares undergraduate students to become officers in the United States Air Force. Army ROTC at the University of Florida is one of the oldest and best leadership courses in the country. The University of Florida’s Naval Reserve Officer Training Corps carries on the fine tradition of training the future Officers of the United States Naval Service. Website (http://rotc.ufl.edu/)

Curriculum
• Aerospace Leadership Minor
• Military Science and Leadership Minor

Courses

AFR 1101 The Air Force Today 1 Credit
Grading Scheme: Letter Grade
Introduces the United States Air Force and Air Force Reserve Officer Training Corps. Featured topics include mission and organization of the Air Force, officership and professionalism, military customs and courtesies, Air Force officer opportunities, group leadership problems and an introduction to communication skills.
Corequisite: AFR 1101L.

AFR 1101L General Military Course (GMC) Leadership Laboratory 1 Credit
Grading Scheme: S/U
Air Force customs, courtesies, drills and ceremonies; issuing military commands; instructing, directing and evaluating the preceding skills; studying the environment of an Air Force officer; and learning about areas of opportunity available to commissioned officers. (S-U)
Corequisite: AFR 1101.

AFR 1120 The Air Force Today 1 Credit
Grading Scheme: Letter Grade
Introduces the United States Air Force and Air Force Reserve Officer Training Corps. Topics include introduction to flight, oral and written communication techniques and an overview of military services.
Corequisite: AFR 1120L.

AFR 1120L General Military Course (GMC) Leadership Laboratory 1 Credit
Grading Scheme: S/U
Air Force customs, courtesies, drills and ceremonies; issuing military commands; instructing, directing and evaluating the preceding skills; studying the environment of an Air Force officer; and learning about areas of opportunity available to commissioned officers. (S-U)
Corequisite: AFR 1120.
AFR 2130 The Evolution of USAF Air and Space Power 1 Credit
Grading Scheme: Letter Grade
Examines USAF air and space power from a historical perspective. Covers the earliest aircraft, both World Wars, the Korean and Vietnam conflicts, air and space employment during the Cold War.
Corequisite: AFR 2130L.

AFR 2130L General Military Course (GMC) Leadership Laboratory 1 Credit
Grading Scheme: S/U
Air Force customs, courtesies, drills and ceremonies; issuing military commands; instructing, directing and evaluating the preceding skills; studying the environment of an Air Force officer; and learning about areas of opportunity available to commissioned officers. (S-U)
Corequisite: AFR 2130.

AFR 2140 The Evolution of USAF Air and Space Power 1 Credit
Grading Scheme: Letter Grade
Continuation of AFR 2130 and the exploration of Air Force history, beginning with the Vietnam era and culminating with the application of air and space power in recent conflicts.
Corequisite: AFR 2140L.

AFR 2140L General Military Course (GMC) Leadership Laboratory 1 Credit
Grading Scheme: S/U
Air Force customs, courtesies, drills and ceremonies; issuing military commands; instructing, directing and evaluating the preceding skills; studying the environment of an Air Force officer; and learning about areas of opportunity available to commissioned officers. (S-U)
Corequisite: AFR 2140.

AFR 3220 Air Force Leadership and Management 3 Credits
Grading Scheme: Letter Grade
Leadership and quality management fundamentals, professional knowledge, Air Force doctrine, leadership ethics and communication skills required of an Air Force junior officer. Case studies examine Air Force leadership and management situations as a means of demonstrating and exercising practical application of the concepts studied.
Corequisite: AFR 3220L.

AFR 3220L Professional Officer Course (POC) Leadership Laboratory 1 1 Credit
Grading Scheme: S/U
Advanced leadership experiences planning and controlling military activities of the cadet corps, the preparation and presentation of briefings and other communications, and the interviews, guidance and information to increase cadet understanding, motivation and performance. (S-U)
Corequisite: AFR 3220.

AFR 3231 Air Force Leadership and Management 3 Credits
Grading Scheme: Letter Grade
Studies leadership and quality management fundamentals, professional knowledge, Air Force doctrine, leadership ethics and communication skills required of an Air Force junior officer. Case studies examine Air Force leadership and management situations as a means of demonstrating and exercising practical application of the concepts studied.
Corequisite: AFR 3231L.

AFR 3231L Professional Officer Course (POC) Leadership Laboratory 2 1 Credit
Grading Scheme: S/U
Advanced leadership experiences planning and controlling military activities of the cadet corps, the preparation and presentation of briefings and other communications, and the interviews, guidance and information to increase cadet understanding, motivation and performance. (S-U)
Corequisite: AFR 3231.

AFR 4201 Preparation for Active Duty 1 3 Credits
Grading Scheme: Letter Grade
Examines the national security process, regional studies, advanced leadership ethics and Air Force doctrine. Topics focus on the military as a profession, officerhood, military justice and civilian control of the military. Within this structure, continued emphasis is given to refining communication skills.
Corequisite: AFR 4201L.

AFR 4201L Professional Officer Course (POC) Leadership Laboratory 3 1 Credit
Grading Scheme: S/U
Advanced leadership experiences planning and controlling military activities of the cadet corps, the preparation and presentation of briefings and other communications, and the interviews, guidance and information to increase cadet understanding, motivation and performance. (S-U)
Corequisite: AFR 4201.

AFR 4211 Preparation for Active Duty 2 3 Credits
Grading Scheme: Letter Grade
Examines advanced leadership ethics, officerhood, preparation for active duty and current issues affecting military professionalism. Continued emphasis is given to refining communication skills.
Corequisite: AFR 4211L.

AFR 4211L Professional Officer Course (POC) Leadership Laboratory 4 1 Credit
Grading Scheme: S/U
Advanced leadership experiences planning and controlling military activities of the cadet corps, the preparation and presentation of briefings and other communications, and the interviews, guidance and information to increase cadet understanding, motivation and performance. (S-U)
Corequisite: AFR 4211.

MSL 1001 Foundations of Officerhood 2 Credits
Grading Scheme: Letter Grade
Purpose and organization of the Army Reserve Officer Training Corps (ROTC) and the United States Army. Introduction to military customs and traditions, rank structure and the role of an Army officer. Each student must register for and attend a two-hour weekly leadership laboratory (MSL 1001L).

MSL 1001L Freshman Leadership Laboratory 0 Credits
Grading Scheme: Letter Grade
Laboratory consists of a two-hour block of instruction that directly supports freshman classroom instruction. Participation in at least one weekend field training session, one community service project and two army physical fitness tests are required.
Corequisite: MSL 1001.
MSL 1002 Basic Leadership 2 Credits
Grading Scheme: Letter Grade
Study and application of the Army ROTC Leadership Development Program (LDP). Instruction includes theory and application of leadership principles, competencies and dimensions. Individual leadership is developed through hands-on instruction in basic, individual military skills. Introduces students to leadership attributes and the application of those attributes in and out of the classroom. Students must register for and attend a two-hour weekly leadership laboratory (MSL 1002L).

Corequisite: MSL 1002.

MSL 1002L Freshman Leadership Laboratory 0 Credits
Grading Scheme: Letter Grade
Laboratory consists of a two-hour block of instruction that directly supports freshman classroom instruction. Participation in at least one weekend field training session, one community service project and two army physical fitness tests are required.

Corequisite: MSL 1002.

MSL 2101 Individual Leadership Studies 2 Credits
Grading Scheme: Letter Grade
The future leader through classroom instruction, laboratory application and an in-depth look at basic troop/organization leadership principles and skills. Provides training on the basics of rifle marksmanship and instruction on the principles of modern warfare and effective writing. Students must register for and attend a two-hour weekly leadership laboratory (MSL 2101L).

Corequisite: MSL 2101.

MSL 2101L Sophomore Leadership Laboratory 0 Credits
Grading Scheme: Letter Grade
Laboratory consists of a two-hour block of instruction that directly supports sophomore classroom instruction. Participation in at least one weekend field training session, one community service project and two army physical fitness tests are required.

Corequisite: MSL 2101.

MSL 2102 Leadership and Teamwork Techniques 2 Credits
Grading Scheme: Letter Grade
The future leader through classroom instruction, laboratory application and an in-depth look at basic troop/organization leadership principles and skills. Provides training on the basics of rifle marksmanship and instruction on the principles of modern warfare and effective writing. Students must register for and attend a two-hour weekly leadership laboratory.

MSL 2102L Sophomore Leadership Laboratory 0 Credits
Grading Scheme: Letter Grade
Laboratory consists of a two-hour block of instruction that directly supports sophomore classroom instruction. Participation in at least one weekend field training session, one community service project and two army physical fitness tests are required.

Corequisite: MSL 2102.

MSL 3201 Leadership and Problem Solving 3 Credits
Grading Scheme: Letter Grade
Instruction for the advanced ROTC cadet in infantry squad tactics and operations to broaden general military skills and enhance performance at ROTC Advanced Camp. Topics include the ROTC Leadership Development Program (LDP), land navigation and map reading, basic rifle marksmanship techniques, effective written and oral communication skills, troop leading procedures and infantry squad offensive and defensive operations. Cadets must attend a two-hour weekly leadership laboratory and participate in a physical fitness program given at times other than normal class sessions.

MSL 3202 Leadership and Ethics 3 Credits
Grading Scheme: Letter Grade
Improves cadet proficiency in those military subjects necessary to meet minimum standards of technical competence and self-confidence required of a junior officer in the U.S. Army. Prepares cadets for participation at ROTC advanced camp. Major emphasis during course is physical training and field training exercises. Student must attend a weekly two-hour leadership laboratory and participate in physical fitness sessions given at times other than normal class sessions.

Corequisite: MSL 3201.

MSL 4905 Independent Study 1-3 Credits
Grading Scheme: Letter Grade
Readings and discussion in advanced topics of military science.
Prerequisite: department permission.

MSC 1101 Introduction to Naval Science
Grading Scheme: Letter Grade
Introduction to the naval profession and to concepts of seapower. Instruction emphasizes the mission, organization and warfare components of the Navy and Marine Corps. Included is an overview of officer and enlisted ranks and rates, training and education and career patterns. Also covers naval courtesy and customs, military justice, leadership and nomenclature, and exposes the student to the professional competencies required to become a naval officer.

MSC 1110 Naval Science Laboratory
Grading Scheme: S/U
Drill, basic commands, courtesies and honors, orientation and information.

MSC 1110 Introduction to Naval Science 2 Credits
Grading Scheme: Letter Grade
Satisfies 2000 Words of Writing Requirement
NSC 2102L Naval Science Laboratory 0 Credits
Grading Scheme: S/U
Drill, basic commands, courtesies and honors, orientation and information.

NSC 2121 Naval Ships Systems 1: Engineering 3 Credits
Grading Scheme: Letter Grade
Basic power systems used in naval propulsion systems, a basic understanding of the thermodynamic process, a working knowledge of major auxiliary ship systems and basic consideration for ship design and stability. Basic electrical theory and damage control are also included.

NSC 2122 Naval Ships Systems 2: Weapons 3 Credits
Grading Scheme: Letter Grade
Introduction to the theory, characteristics and principles of operation of naval weapons systems. Includes coverage of types of weapons and fire control systems, capabilities and limitations, theory of target acquisition, identification and tracking, trajectory principles and basics of naval ordnance.

NSC 3103L Naval Science Laboratory 0 Credits
Grading Scheme: S/U
Practical exercises dealing with the specifics of naval organizations and leadership.

NSC 3214C Navigation and Naval Operations 1 3 Credits
Grading Scheme: Letter Grade
A comprehensive study of the theory, principles and procedures of ship navigation and movements. Piloting and dead reckoning as well as principles of celestial and electronic navigation. In-depth exposure to the navigational rules-of-the-road and the international regulations for preventing collisions at sea and their application to effective safe navigation. Also includes practical lab work in charting and publication usage.

NSC 3215C Navigation and Naval Operations 2 3 Credits
Grading Scheme: Letter Grade
A continuation of navigation and naval operations. Relative motion theory and the use of a maneuvering board. An understanding of the force, techniques and concepts associated with ship handling, including shipboard watch organization, communication systems and environmental considerations. The role of leadership ethics is discussed while developing an understanding of the process of command and control, dealing specifically with information exchange, conflict resolution and crisis decision making.
Prerequisite: NSC 3214C.

NSC 3221 Evolution of Warfare 3 Credits
Grading Scheme: Letter Grade
The forms of warfare employed by great people in history, within the context of historical flow or continuity in the evolution of warfare. Course develops a basic sense of strategy, demonstrates alternative military actions and explores the impact of historical precedent on military thought and actions as practiced by the great leaders and military organizations. (S) (WR; 4000-word writing credit)
Attributes: General Education - Social Science, Satisfies 4000 Words of Writing Requirement

NSC 3225C Fundamentals of Maneuver Warfare 3 Credits
Grading Scheme: Letter Grade
Analyzes the United States Marine Corps as the overarching case study for the advent of maneuver warfare. The value is not simply to learn what has happened in the past, but to use these lessons as the basis for making practical judgments about the present and future.
Prerequisite: NSC 1110 or instructor permission.

NSC 4104L Naval Science Laboratory 0 Credits
Grading Scheme: S/U
Practical exercises dealing with naval organizations and leadership.

NSC 4224 Amphibious Warfare 3 Credits
Grading Scheme: Letter Grade
Historical survey of the projection of seapower ashore. The course defines the concept, explores its doctrinal origins and traces its evolution as an element of naval policy during the 20th century. The case study method is used alongside the theme of general historical continuity to develop an understanding of the relatively new and still maturing concept of amphibious warfare. (H) (WR; 6000-word writing credit)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

NSC 4230 Leadership and Management 2 Credits
Grading Scheme: Letter Grade
The principles of naval administration, stressing the experimental approach to learning the principles of leadership and management. The student develops skills in the areas of communication, counseling, control, direction, leadership and management functions and responsibilities through active, guided participation in naval-based case studies, experimental exercises and situational problems. Total quality leadership and professional responsibilities are included.

NSC 4233 Leadership and Ethics 3 Credits
Grading Scheme: Letter Grade
Equips the NROTC student with the skills and abilities required for competence as a commissioned officer. This final capstone course in the NROTC curriculum builds upon and focuses the managerial, professional and ethical competencies developed during previous summer cruise training and naval science courses. Ethical philosophies and real-world situations are studied through lectures, exercises and case studies. Naval personnel management, the administration of discipline and human resource management are additional areas of focus.

NSC 4905C Independent Study 1-3 Credits
Grading Scheme: Letter Grade
Readings, assignments, student presentations and discussions on naval science.
Prerequisite: department permission.

Music
Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

MUSIC BUILDING
GAINESVILLE FL 32611
Map (http://campusmap.ufl.edu/#/index/0117)
Curriculum
- Combination Degrees
- Jazz Studies Minor
- Music Education
- Music History | Ethnomusicology Minor
- Music in Medicine Certificate
- Music Performance Certificate
- Music Performance Minor
- Music Theory Minor
- Music | Bachelor of Arts
- Music | Bachelor of Music

General Information
Music performance courses encompass studio and class lessons and are offered in voice, piano, organ, carillon, violin, viola, violoncello, string bass, flute, oboe, clarinet, bassoon, horn, trumpet, trombone, euphonium, tuba, percussion, saxophone, harpsichord and organ. These courses are primarily for music majors and are open to non-majors only by audition and instructor consent.

The student registering for the first time for music courses reports to the director of music in the School of Music, who designates a faculty member to audition and/or consult with the student and who assigns the student to the proper level and performance course number.

S-U grade options and auditing courses in music performance are not permitted.

Performance courses (1000 level) emphasize basic techniques. Music education, theory/composition, music history/literature and B.A. majors, secondary and non-majors take these courses in their first year.

Performance courses (2000 level) emphasize repertory and mastery of the basic techniques of the performing medium. Students majoring in performance will begin 2000 level courses in the first year.

Performance courses (3000 and 4000 level) are for advanced study. A student takes two semesters at the 3000 level. A full performance faculty jury exam is required for admission to 4000 level. Two semesters at the 4000 level are required of all performance and church music majors. Degree recitals must be presented at the University of Florida. All students accepted for music performance study must register and participate in an appropriate ensemble each semester of study. Consult the School of Music Student Handbook for further information on the ensemble policy.

The performer's certificate will be awarded at the discretion of the faculty to non-performance degree students. Students must be recommended by their performance teacher for the performer's certificate program at the beginning of their junior year.

Courses in performance, theory/composition, music history/literature and music education at the 3000-4000 level may be taken only after a student has achieved professional status by passing the musicianship assessment jury and the preprofessional performance jury. Students will be allowed to register for up to nine credits at the 3000 level prior to becoming a professional level music major. Consult the School of Music student handbook for a list of specific 3000/4000-level courses that can be taken before achieving professional level status.

Non-majors can only take music performance courses and certain others after an audition with the instructor. If the student is found to be acceptable to the studio, course will be available only on a space-available basis. Courses are department controlled and all students must see an academic advisor in music before registration.

Courses

HUM 3517 Assessment in Arts Education 3 Credits
Grading Scheme: Letter Grade
Broad foundation in all aspects of assessment as it is applied in the arts classroom, from learning theory to practical application of assessment techniques, data management, critical thinking, progress reporting, and portfolio building. Covers assessment task design in the artistic response modes; develops a series of assessments that can be implemented in the music/art classroom.
Prerequisite: Arts major of junior standing or higher.

MUC 1211 Composition Skills 1 1 Credit
Grading Scheme: Letter Grade
Required for all majors in composition. Workshop in composition techniques, exploring use of styles and devices of contemporary art music and presentation through the use of finale.
Prerequisite: Music major;
Corequisite: MUT 1121.

MUC 1212 Composition Skills 2 1 Credit
Grading Scheme: Letter Grade
Required for all majors in theory/composition. Workshop in composition techniques, exploring use of styles and devices of contemporary art music and presentation through the use of finale.
Prerequisite: Music major.
Corequisite: MUT 1122.

MUC 2101 Composition Skills 3 1 Credit
Grading Scheme: Letter Grade
Required for all majors in theory/composition. Workshop in composition techniques, exploring use of styles and devices of contemporary art music and presentation through the use of finale.

MUC 2102 Composition Skills 4 1 Credit
Grading Scheme: Letter Grade
Required for all majors in composition. Workshop in composition techniques, exploring use of styles and devices of contemporary art music and presentation through use of finale.
Prerequisite: Music major

MUC 3231 Composition 1 3 Credits
Grading Scheme: Letter Grade
Composition in simple and extended forms supplemented by analysis of selected compositions, from the standard repertoire and presentation through the use of finale.
Prerequisite: Music major
MUC 3232 Composition 2 3 Credits
Grading Scheme: Letter Grade
Composition in simple and extended forms supplemented by analysis of selected compositions, from the standard repertoire and presentation through the use of finale.
Prerequisite: Music major.

MUC 4241 Composition 3 3 Credits
Grading Scheme: Letter Grade
Composition in extended forms supplemented by analysis of selection compositions, from the standard repertoire and presentation through the use of finale.
Prerequisite: Music major.

MUC 4242 Composition 4 3 Credits
Grading Scheme: Letter Grade
Composition in extended forms supplemented by analysis of selection compositions, from the standard repertoire and presentation through the use of finale.
Prerequisite: Music major.

MUC 4313 Introduction to Electroacoustic Music 3 Credits
Grading Scheme: Letter Grade
Survey of the techniques, history, literature and materials of electroacoustic music.
Prerequisite: Music major.

MUC 4401 Composition of Electroacoustic Music 3 Credits
Grading Scheme: Letter Grade
Continuation of MUC 4313. Projects in electroacoustic music dealing with real-time, interactivity, live-electronic and solo digital media music composition issues.
Prerequisite: Music major.

MUC 4441 Electroacoustic Music Composition: Digital 1 3 Credits
Grading Scheme: Letter Grade
Continuation of skills developed through MUC 4401, Composition of Electroacoustic Music.
Prerequisite: Music major.

MUC 4442 Electroacoustic Music Composition: Digital 2 3 Credits
Grading Scheme: Letter Grade
Continuation of skills developed through MUC 4441, Electroacoustic Music Composition: Digital 1.
Prerequisite: Music major.

MUC 4950 Senior Composition Recital 1 Credit
Grading Scheme: Letter Grade
Organization and presentation of a recital of original compositions.
Prerequisite: Music major. MUS 4950

MUE 1090 Exploring Music Teaching and Learning 1 Credit
Grading Scheme: Letter Grade
An introduction to and overview of music teaching as a profession.
Designed for both students who have chosen to major in music education and those who are interested in learning more about a possible career as a music educator.
Prerequisite: Music major or instructor permission.

MUE 2040 Music Teaching as a Profession 3 Credits
Grading Scheme: Letter Grade
Overview of philosophical, historical, psychological, and sociological perspectives on music education in schools. Discusses contemporary topics and trends including diversity, special needs students, and culturally responsive pedagogy; introduces the Florida Educator Accomplished Practices (FEAPs). Field experience in schools.
Prerequisite: Music major.

MUE 2430 Voice Skills 1 Credit
Grading Scheme: Letter Grade
Required of all music education majors. Basic technical competency and pedagogical technique for voice.
Prerequisite: Music major.

MUE 2440 String Skills 1 1 Credit
Grading Scheme: Letter Grade
Required of all music education majors. Basic technical competency and pedagogical techniques for the upper string instruments: violin/viola.
Prerequisite: Music major.

MUE 2442 String Skills 2 1 Credit
Grading Scheme: Letter Grade
Basic technical competency and pedagogical techniques for the lower string instruments: cello and double bass.
Prerequisite: Music major.

MUE 2450 Wind Skills 1 1 Credit
Grading Scheme: Letter Grade
Required of all music education majors. Basic technical competency and pedagogical techniques for two brass instruments.
Prerequisite: Music major.

MUE 2452 Wind Skills 2 1 Credit
Grading Scheme: Letter Grade
Basic technical competency and pedagogical techniques for alto saxophone, bassoon and oboe.
Prerequisite: Music major.

MUE 2460 Brass Skills 1 1 Credit
Grading Scheme: Letter Grade
Required of all music education majors. Basic technical competency and pedagogical techniques for two brass instruments, other than those studied in MUE 3460.
Prerequisite: Music major.

MUE 2462 Brass Skills 2 1 Credit
Grading Scheme: Letter Grade
Basic technical competency and pedagogical techniques for two brass instruments.
Prerequisite: Music major.

MUE 2470 Percussion Skills 1 Credit
Grading Scheme: Letter Grade
Required of all music education majors. Basic technical competency and pedagogical techniques for percussion instruments.
Prerequisite: Music major.

MUE 2471 Percussion Skills 2 1 Credit
Grading Scheme: Letter Grade
Continuation of percussion teaching and performance skills.
Prerequisite: Music major.

MUE 2680 Music Learning with Technology 2 Credits
Grading Scheme: Letter Grade
This class will explore the role of digital technologies in creating, performing, and responding to music, with applications to the practice of K-12 music educators and the cultivation of lifelong music learning and participation.
Prerequisite: Music major.

MUE 3210 Music for the Elementary Child 2-3 Credits
Grading Scheme: Letter Grade
Helps meet state certification requirements for elementary classroom teachers. Function of elementary school music in aiding the developmental growth of children.
Prerequisite: HUM 2511 strongly recommended.
MUE 3311 Music in Elementary Schools 3 Credits
Grading Scheme: Letter Grade
Fundamental principles and procedures of music education in elementary school.
Prerequisite: Music major.

MUE 3330 Music in Secondary Schools 3 Credits
Grading Scheme: Letter Grade
Fundamental principles and procedures of music education in the secondary school.
Prerequisite: Music major.

MUE 3343 Materials and Methods of String Class Teaching 2 Credits
Grading Scheme: Letter Grade
The study of contemporary materials and methods suitable for use in public school string classes.
Prerequisite: Music major.

MUE 3416 Literature and Arranging for School Choirs 3 Credits
Grading Scheme: Letter Grade
Become familiar with techniques and approaches for selecting and programming literature for K-12 performing ensembles. Introduces fundamental techniques used to create arrangements of choral and vocal works in order to better meet the needs of individual singers or ensembles. Also addresses arranging for instruments.
Prerequisite: MUE 3311 with a minimum grade of C.

MUE 3417 Literature and Arranging for Instrumental Ensembles 3 Credits
Grading Scheme: Letter Grade
Techniques for selecting, programming, and arranging music for school instrumental ensembles. Overview of repertoire and arranging techniques including genres, established works, composers, and publishers; pedagogical and practical considerations related to the selection and modification of music. Discussion of relevant copyright laws.
Prerequisite: MUE 3311.

MUE 4140 Student Teaching in Music Education 9-10 Credits
Grading Scheme: S/U
Student teaching in selected classrooms of public schools. Special seminars and continuous evaluation of teaching experiences. (S-U)
Prerequisite: Music major.

MUE 4941L Internship in Music Teaching 3 Credits
Grading Scheme: S/U
Students in this course build on the work done throughout their previous music education coursework to develop competence in applying the principles of learning in K-12 music classrooms.
Prerequisite: (MUE 3311, MUE 3330, and TSL 3323) and (MUE 4421/5XXX OR MUE 4422/5XXX); three chosen from MUE 2440, MUE 2442, MUE 2470, MUE 2450, MUE 2452, MUE 2460, MUE 2462; Certificate in Music Education students only;
Corequisite: MUE 4140.

MUG 4302 Instrumental Conducting and Materials 1-2 Credits
Grading Scheme: Letter Grade
Basic techniques of choral and instrumental conducting.
Prerequisite: Music major.

MUG 4202 Choral Conducting and Materials 2 Credits
Grading Scheme: Letter Grade
Basic techniques of choral conducting, score analysis, interpretation and use of basic choral materials.
Prerequisite: Music major.

MUH 2501 Introduction to World Musics 3 Credits
Grading Scheme: Letter Grade
Introduction to musics of non-western cultures in comparison with music of Western European civilizations; the nature of music and the realm of ethnomusicology. (H and N)
Attributes: General Education - Humanities, General Education - International

MUH 3025 Popular Music in the USA: From Ragtime to Hip-Hop and Beyond 3 Credits
Grading Scheme: Letter Grade
Survey of the musical styles, artists, audiences and eras of American popular music in relation to the social, cultural, political and historical contexts in which they emerged. Special attention is given to the diversity and intersecting nature of musical voices in the USA through the examination of musical styles including rock, rhythm and blues, country, punk, hip-hop, salsa and beyond. (H and D)
Attributes: General Education - Diversity, General Education - Humanities

MUH 3211 Music History Survey 1 3 Credits
Grading Scheme: Letter Grade
Survey of music literature, styles and techniques from antiquity to ca. 1600. Examines representative repertoire from historical, theoretical, and cultural contexts; develop critical thinking skills in reading and writing, analysis, and listening. (H and N) (WR)
Prerequisite: music major, MUT 1121 and MUT 1122 with minimum grades of C.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement
MUH 3212 Music History Survey 2 3 Credits
Grading Scheme: Letter Grade
Survey of music literature, styles and techniques from ca. 1600 to ca. 1820. Examines representative repertoire from historical, theoretical, and cultural contexts; develop critical thinking skills in reading and writing, analysis and listening. (H and N) (WR)
Prerequisite: music majors, MUH 3211 or MUT 2127 with a minimum grade of C.
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

MUH 3213 Music History Survey 3 3 Credits
Grading Scheme: Letter Grade
Survey of music literature, styles and techniques from ca. 1820 to the present. Examines representative repertoire from historical, theoretical and cultural contexts; develop critical skills in reading and writing, analysis and listening. (H) (WR)
Prerequisite: music majors, MUH 3211 and MUH 3212 with minimum grades of C, or coreq of MUT 2127.
Attributes: General Education - Humanities, Satisfies 2000 Words of Writing Requirement

MUH 3530 Popular and Traditional Musics of Africa 3 Credits
Grading Scheme: Letter Grade
A study of traditional and popular African musical styles placed within their historical, social and cultural environments. (H and N)
Prerequisite: MUH 2501 or written instructor permission.
Attributes: General Education - Humanities, General Education - International

MUH 3532 Music and Healing in Contemporary Africa 3 Credits
Grading Scheme: Letter Grade
Explores the historical role of music in healing traditions across African by exploring practices based around dance, religion, ritual and modern health care methodologies. Outlines the changing historical perspectives of Western rational thought on art-based practices, contextualizing contemporary approaches throughout the continent.
Prerequisite: ENC 1101 or instructor permission.

MUH 3541 Latin American Music 3 Credits
Grading Scheme: Letter Grade
The variable musical expressions of Latin America (including the Caribbean), their historical formations and social importance. (H and N)
Prerequisite: MUH 3211 or written instructor permission.
Attributes: General Education - Humanities, General Education - International

MUH 3542 Jewish Art Music in Western Culture 3 Credits
Grading Scheme: Letter Grade
Cultural history of western art music inspired by Jewish subjects, Biblical and non-Biblical, composed by both Jewish and non-Jewish composers, and a survey of Jewish performing musicians from the Renaissance to the present. (H and N)
Prerequisite: written instructor permission.
Attributes: General Education - Humanities, General Education - International

MUH 4016 History of Jazz 3 Credits
Grading Scheme: Letter Grade
From African, Latin American and Black American sources through contemporary development. (H and N)
Attributes: General Education - Humanities, General Education - International

MUH 4930 Special Topics in Music History 3 Credits
Grading Scheme: Letter Grade
Rotating topics of current or special interest to students or instructors.
Prerequisite: Music major.

MUL 2010 Experiencing Music 3 Credits
Grading Scheme: Letter Grade
Examines how we experience music and how it teaches us about ourselves and our world. Illuminates how music both shapes and is shaped by social, political, national, and cultural forces. Music from around the world demonstrates a variety of musical experiences within historical and contemporary cultural settings. (H and N)
Attributes: General Education - Humanities, General Education - International

MUL 3341 Baroque Literature 3 Credits
Grading Scheme: Letter Grade
Compositions of Monteverdi, Gabrieli, Schultz, Buxtehude, Bach, Handel and others.
Prerequisite: MUL 2010 or MUH 3211.

MUL 3693 The American Musical: Broadway and Beyond 3 Credits
Grading Scheme: Letter Grade
Provides non-music majors and music minors with an introduction to the history and development of the American musical, focusing on the genre's relationship to American culture and society. Topics include musical and dramatic features of specific works, principal creators and performers, commercialization and popularity, the genre's relationship to film, its role in the formation of America's national identity, and its communication of American values, attitudes and norms with regard to different cultures. (H)
Prerequisite: MUL 2010, MUL 2501 or instructor permission.
Attributes: General Education - Humanities

MUL 4334 Renaissance Literature 3 Credits
Grading Scheme: Letter Grade
Renaissance literature surveys the music from the period roughly 1430-1600, stressing the major genres of mass, motet, madrigal and chanson, and touching on less prominent regional practices and instrumental music. The music is placed into social and historical context. (H and N)
Prerequisite: MUL 2010 or MUH 3211.
Attributes: General Education - Humanities, General Education - International

MUL 4361 Romantic Literature 3 Credits
Grading Scheme: Letter Grade
Representative Romantic literature in such genres as the symphony, symphonic poem, opera, song, chamber music, piano music and sacred music. Composers from Beethoven through Mahler. (H and N)
Prerequisite: MUL 2010 or MUH 3211.
Attributes: General Education - Humanities, General Education - International

MUL 4371 Contemporary Literature 3 Credits
Grading Scheme: Letter Grade
Twentieth-century music literature, including works of Debussy, Ravel, Stravinsky, Schoenberg, Webern, Berg, Hindemith, Bartok, Copland, Sessions, Boulez and Stockhausen. (H and N)
Prerequisite: MUL 2010 or MUH 3211.
Attributes: General Education - Humanities, General Education - International
MUL 4400 Piano Literature Seminar 2-3 Credits
Grading Scheme: Letter Grade
A survey of piano literature from early keyboard works to the present.
Prerequisite: Music major to self-register.

MUL 4432 String Lit Seminar 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MUL 4441 Woodwind Literature Seminar 2 Credits
Grading Scheme: Letter Grade
An intensive, investigative study of standard repertoire for woodwind instruments.
Prerequisite: Music major to self-register.

MUL 4442 Brass Literature Seminar 2 Credits
Grading Scheme: Letter Grade
An intensive, investigative study of standard repertoire for brass instruments.
Prerequisite: Music major to self-register.

MUL 4440 Percussion Literature Seminar 2 Credits
Grading Scheme: Letter Grade
An intensive, investigative study of standard repertoire for solo percussion and percussion ensemble.
Prerequisite: Music major.

MUL 4490 Organ Literature Seminar 2 Credits
Grading Scheme: Letter Grade
A survey of the major trends and styles of organ composition from the Renaissance to the present.
Prerequisite: Professional performance jury and musicianship assessment jury.

MUL 4602 Song Literature Seminar 2-3 Credits
Grading Scheme: Letter Grade
The study and performance of representative literature for the voice from each style period.
Prerequisite: Music major to self-register.

MUL 4662 History and Literature of Opera 3 Credits
Grading Scheme: Letter Grade
Offered in Miami only.

MUL 4801 The Music of J.S. Bach 3 Credits
Grading Scheme: Letter Grade
Offered in Miami only. The works of Bach with special emphasis on the historical sources of his choral and instrumental styles and detailed study of a selection of his chief works.
Prerequisite: MUL 2010 or MUH 3211.

MUL 4802 The Music of W.A. Mozart 3 Credits
Grading Scheme: Letter Grade
Offered in Miami only. The music, life and times of Mozart.
Prerequisite: MUL 2010 or MUH 3211.

MUM 4051 Music Entrepreneurship Dev 3 Credits
Grading Scheme: Letter Grade
This course is intended to equip music students with a comprehensive foundation, resources, and skill set for improving marketability and success as a music entrepreneur upon graduation. Students will develop various skills for understanding and engaging in business, legalities, communication arts, innovative content creation, and niche development within music entrepreneurship.

MUN 1110 Marching Band 1 Credit
Grading Scheme: Letter Grade
Performance of marching band literature.

MUN 1120 Concert Band 1 Credit
Grading Scheme: Letter Grade
Performance of general and popular band literature. (H)
Attributes: General Education - Humanities

MUN 1130 Symphonic Band 1 Credit
Grading Scheme: Letter Grade
Performance of traditional and contemporary band literature. (H)
Prerequisite: Music major.
Attributes: General Education - Humanities

MUN 1140 Wind Symphony 1 Credit
Grading Scheme: Letter Grade
Performance of wind ensemble literature. (H)
Prerequisite: Music major.
Attributes: General Education - Humanities

MUN 1210 University Orchestra 1 Credit
Grading Scheme: Letter Grade
Standard orchestra literature. (H)
Prerequisite: Music major.

MUN 1310 University Choir 1 Credit
Attributes: General Education - Humanities

MUN 1320 Women's Chorale 1 Credit
Attributes: General Education - Humanities

MUN 1330 Men's Glee Club 1 Credit
Attributes: General Education - Humanities

MUN 1440 Percussion Ensemble 1 Credit
Attributes: General Education - Humanities

MUN 1441 Woodwind Ensemble 1 Credit
Attributes: General Education - Humanities

MUN 1442 Brass Ensemble 1 Credit
Attributes: General Education - Humanities

MUN 1443 String Ensemble 1 Credit
Attributes: General Education - Humanities

MUN 1460 Chamber Music Ensemble 1-3 Credits
Grading Scheme: Letter Grade
Examination and performance of standard repertoire for chamber ensembles.
Prerequisite: Music major.

MUN 1491 Steel Drum Ensemble 1 Credit
Grading Scheme: Letter Grade
Prerequisite: Conductor permission.

MUN 1710 Jazz Bands 1 Credit
Grading Scheme: Letter Grade
Standard and experimental jazz ensembles. A jazz laboratory. (H)
Attributes: General Education - Humanities
MUN 2800 World Music Ensemble 1 Credit
Grading Scheme: Letter Grade
The rehearsal and performance of folk and traditional musics of the world. (H)
Prerequisite: Music major.
Attributes: General Education - Humanities

MUN 3113 Marching Band 1 Credit
Grading Scheme: Letter Grade
Performance of marching band literature.

MUN 3123 Concert Band 1 Credit
Grading Scheme: Letter Grade
Performance of general and popular band literature. (H)
Attributes: General Education - Humanities

MUN 3133 Symphonic Band 1 Credit
Grading Scheme: Letter Grade
Performance of traditional and contemporary band literature.
Prerequisite: Music major.

MUN 3143 Wind Symphony 1 Credit
Grading Scheme: Letter Grade
Performance of wind ensemble literature. (H)
Prerequisite: Music major.
Attributes: General Education - Humanities

MUN 3213 University Orchestra 1 Credit
Grading Scheme: Letter Grade
Standard orchestra literature. (H)
Prerequisite: Music major.
Attributes: General Education - Humanities

MUN 3313 University Choir 1 Credit
Grading Scheme: Letter Grade
An advanced choral group providing specialized study performance opportunities for vocally qualified students. (H)
Prerequisite: Music major.
Attributes: General Education - Humanities

MUN 3323 Women's Chorale 1 Credit
Grading Scheme: Letter Grade
Vocal training and public performances of standard female chorus repertoire. (H)
Attributes: General Education - Humanities

MUN 3333 Men's Glee Club 1 Credit
Grading Scheme: Letter Grade
Vocal training and public performance of standard male chorus repertoire. (H)
Attributes: General Education - Humanities

MUN 3343 University Chamber Singers 1 Credit
Grading Scheme: Letter Grade
Study and performance of early and contemporary vocal literature. (H)
Prerequisite: Music major.
Attributes: General Education - Humanities

MUN 3443 Percussion Ensemble 1 Credit
Grading Scheme: Letter Grade
Prerequisite: Music major.
Attributes: General Education - Humanities

MUN 3454 Two Piano Literature 2 Credits
Grading Scheme: Letter Grade
Offered in Miami only.

MUN 3463 Chamber Music 1-2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.
Attributes: General Education - Humanities

MUN 3493 New Music Ensemble 1 Credit
Grading Scheme: Letter Grade
Rehearsal and performance of repertoire for small ensembles written in the 20th and 21st centuries.
Prerequisite: Music major.

MUN 3643 Musical Theatre Ensemble 1 Credit
Grading Scheme: Letter Grade
Offered in Miami only. Examination and performance of standard repertoire for the musical theatre.
Prerequisite: director permission.

MUN 3713 Jazz Bands 1 Credit
Grading Scheme: Letter Grade
Standard and experimental jazz ensembles. A jazz laboratory.

MUN 3714 Jazz Chamber Music 1 1 Credit
Grading Scheme: Letter Grade
Small group ensemble performance experience in the jazz idiom. Students will memorize jazz standards and learn melody interpretation techniques, rhythmic techniques to communicate to other members of the ensemble and small group compositional techniques for harmonizing jazz standards and original compositions.
Prerequisite: MUT 1362 with a minimum grade of B.

MUN 3803 World Music Ensemble 1 Credit
Grading Scheme: Letter Grade
The rehearsal and performance of folk and traditional musics of the world.
Prerequisite: Music major.

MUN 3813 Steel Drum Ensemble 1 Credit
Grading Scheme: Letter Grade
Prerequisite: Music major.

MUN 3830 Opera Workshop 1 Credit
Grading Scheme: Letter Grade
Study and performance of works from opera and operetta.
Prerequisite: Audition required or by recommendation of faculty.

MUO 3503 Opera Workshop 1 Credit
Grading Scheme: Letter Grade
Study and performance of works from opera and operetta.
Prerequisite: Music major.
MUR 3104 Music and the Catholic Church 3 Credits
Grading Scheme: Letter Grade
Examines the music of the Catholic Church from historical and artistic perspectives and presents issues that have surrounded major changes in the church's music. Focuses on six historical periods in which the church was significantly focused on musical developments or changes. Views the music from various cultural perspectives, primarily U.S. and European. Requires online computer proficiency and high-speed Internet access. (H) (WR)
Attributes: General Education - Humanities, Satisfies 4000 Words of Writing Requirement

MUS 1010 Recital Attendance 0 Credits
Grading Scheme: S/U
Attendance at concerts and recitals. Students must check the school of music student's handbook for specific attendance requirements. (S-U)
Prerequisite: Music major.

MUS 1360 Introduction to Music Technology 2-3 Credits
Grading Scheme: Letter Grade
Introduction to word processing, internet, presentation, CD ROM, multimedia, music printing and music sequencing.
Prerequisite: Music major.

MUS 2211 English Diction 1 Credit
Grading Scheme: Letter Grade
An English diction course for singers and choral directors to improve their capacity to respond with ease, accuracy and expression.
Prerequisite: Music major.

MUS 2221 French Diction 1 Credit
Grading Scheme: Letter Grade
A French diction course for singers and choral directors to improve their capacity to respond with ease, accuracy and expression.
Prerequisite: Music major.

MUS 2231 German Diction 1 Credit
Grading Scheme: Letter Grade
A German diction course for singers and choral directors to improve their capacity to respond with ease, accuracy and expression.
Prerequisite: Music major.

MUS 2241 Italian Diction 1 Credit
Grading Scheme: Letter Grade
An Italian diction course for singers and choral directors to improve their capacity to respond with ease, accuracy and expression.
Prerequisite: Music major.

MUS 2931 Interdisciplinary Honors in Music 3 Credits
Grading Scheme: Letter Grade
Attributes: Satisfies 6000 Words of Writing Requirement

MUS 4203 Language and Diction for Singers 2 2 Credits
Grading Scheme: Letter Grade
Offered in Miami only.

MUS 4204 Language and Diction for Singers 1 2 Credits
Grading Scheme: Letter Grade
Offered in Miami only.

MUS 4905 Projects and Problems in Music 1-3 Credits
Grading Scheme: Letter Grade
Individual work in music and music education.
Prerequisite: Music major.

MUS 4910 Supervised Research 1-3 Credits
Grading Scheme: S/U
Individual guided research in music and music education. (S-U)
Prerequisite: Music major.

MUT 1001 Introduction to Music Theory Rudiments 2 Credits
Grading Scheme: Letter Grade
The study of notation, scales, intervals, triads, aural skills and keyboard skills.
Prerequisite: Music major.

MUT 1011 How Music Works 3 Credits
Grading Scheme: Letter Grade
Students gain an understanding of music's architecture on small and large scales. By learning both conceptual and applied approaches to rhythm, pitch and timbre, students prepare to analyze musical works from various times and places to be more informed, critical listeners and makers of music. Skills developed include notation, ear training and compositional techniques. (H)
Attributes: General Education - Humanities

MUT 1111 Music Theory 1 2 Credits
Grading Scheme: Letter Grade
Studies rhythms, intervals, motifs, phrases, melodies, chords and chord progressions, in the standard clefs through listening, playing, and writing. Chord study includes primary and secondary triads in root position and inversions, non-harmonic tones and seventh chords.
Prerequisite: Music major.

MUT 1112 Music Theory 2 2 Credits
Grading Scheme: Letter Grade
Rhythms, intervals, motifs, phrases, melodies, chords and chord progressions, in the standard clefs through listening, playing, singing and writing. Chord study includes primary and secondary triads in root position and inversions, non-harmonic tones and diatonic seventh chords.
Prerequisite: Music major.

MUT 1121 Theory of Music 1 3 Credits
Grading Scheme: Letter Grade
Rhythms, intervals, motifs, phrases, melodies, chords and chord progressions, in the standard clefs through listening, playing, singing and writing. Chord study includes primary and secondary triads in root position and inversions, non-harmonic tones and diatonic seventh chords.
Prerequisite: Music major;
Corequisite: MVK 1111 or MVK 1112.

MUT 1122 Theory of Music 2 3 Credits
Grading Scheme: Letter Grade
Rhythms, intervals, motifs, phrases, melodies, chords and chord progressions, in the standard clefs through listening, playing, singing and writing. Chord study includes primary and secondary triads in root position and inversions, non-harmonic tones and diatonic seventh chords.
Prerequisite: Music major;
Corequisite: MVK 1111 or MVK 1112.

MUT 1214 Jazz Aural Skills 1 1 Credit
Grading Scheme: Letter Grade
This course teaches students how to aurally recognize commercial chords, standard chord progressions and recognize the scales used in improvisation. This course is a hybrid course with only 7 in class meetings. The course utilizes online resources and instructional videos and online aural quizzes and weekly aural skills drills.
Prerequisite: MUT 1361 with a grade of B or higher.
MUT 1241L Aural Skills 1 1 Credit
Grading Scheme: Letter Grade
First of a sequence of four courses that develop skills in sight singing and ear training. Singing techniques are taught at the beginning of the course.
Prerequisite: Music major.

MUT 1242L Aural Skills 2 1 Credit
Grading Scheme: Letter Grade
Second of a sequence of four courses that develop skills in sight singing and ear training.
Prerequisite: Music major.

MUT 1361 Jazz Fundamentals 1 2 Credits
Grading Scheme: Letter Grade
This course is fully online and provides a basic theoretical understanding of jazz harmony, jazz chord symbols, common jazz scales and modes, jazz articulations, blues forms and piano voicings. Online resources include online platform, flash cards, worksheets and 35 instructional videos.
Prerequisite: Jazz Theory Proficiency Exam with a score of B or higher.

MUT 1362 Jazz Fundamentals 2 2 Credits
Grading Scheme: Letter Grade
This course provides an intermediate theoretical understanding of jazz harmony, jazz chord symbols, common jazz scales and modes, jazz articulations, blues forms, piano voicings, the basics of tune writing and techniques in accurately memorizing jazz standards. Online resources include online platform, flash cards, worksheets and 35 instructional videos.
Prerequisite: MUT 1361 with a grade of B or higher.

MUT 2116 Music Theory 3 2 Credits
Grading Scheme: Letter Grade
Using Roman numerals, analyze harmonically the music of the common practice period; includes all harmonic materials studied to date such as Borrowed chords, Neapolitan 6th chords, and Augmented 6th chords. The study of forms from the 18th and 19th Centuries.

MUT 2117 Music Theory 4 2 Credits
Grading Scheme: Letter Grade
The study of the materials and structures of tonal and post-tonal music through reading, listening, model composition, and music analysis.
Prerequisite: Music major.

MUT 2126 Theory of Music 3 3 Credits
Grading Scheme: Letter Grade
Modulation, secondary dominants, diminished sevenths, Neapolitan and augmented sixth, chords of the ninth, eleventh, thirteenth, sight singing and dictation.
Prerequisite: Music major;
Corequisite: MVK 2121 or MVK 2222.

MUT 2127 Theory of Music 4 3 Credits
Grading Scheme: Letter Grade
Modulation, secondary dominants, diminished sevenths, Neapolitan and augmented sixth, chords of the ninth, eleventh, thirteenth, sight singing and dictation.
Prerequisite: Music major;
Corequisite: MVK 2121 or MVK 2222.

MUT 2246L Aural Skills 3 1 Credit
Grading Scheme: Letter Grade
Third of a sequence of four courses that develop skills in sight singing and ear training.
Prerequisite: Music major.

MUT 2247L Aural Skills 4 1 Credit
Grading Scheme: Letter Grade
Fourth in a sequence of four courses that develop skills in sight singing and ear training.
Prerequisite: Music major.

MUT 2641 Jazz Improvisation 2 Credits
Grading Scheme: Letter Grade
Prerequisite: written instructor permission.

MUT 3321 Arranging for Voices and Instruments 3 Credits
Grading Scheme: Letter Grade
Study of voices and instruments, singly and by family, with basic scoring for standard ensemble combinations.
Prerequisite: Music major.

MUT 3322 Scoring for Band and Orchestra 3 Credits
Grading Scheme: Letter Grade
Transcribing and arranging for full band and orchestra, including preparation of parts for performance.
Prerequisite: Music major.

MUT 3611 Form and Analysis 1 3 Credits
Grading Scheme: Letter Grade
Analysis of contrapuntal forms of canon, motet and fugue; study of musical forms in the 20th century.
Prerequisite: Music major.

MUT 3612 Form and Analysis 2 3 Credits
Grading Scheme: Letter Grade
Analysis of melodic structures and homophonic forms of the common practice period including binary, ternary, rondo and sonata-allegro forms.
Prerequisite: Music major.

MUT 4365 Jazz Arranging 1 2 Credits
Grading Scheme: Letter Grade
This course provides instruction in jazz composition and arranging as well as the basic techniques for commercial song writing. Students will study chord movement, melodic development and composition techniques for various styles of music. Students will complete several small group arrangements and original jazz compositions.
Prerequisite: MUT 1362 and MUT 2641 with minimum grades of B.

MUT 4366 Jazz Arranging 2 2 Credits
Grading Scheme: Letter Grade
This course provides instruction in jazz composition and arranging as well as the basic techniques for commercial song writing. Students will score a large group arrangement and a big band chart for eight brass, five saxophones and four rhythm section players.
Prerequisite: MUT 4365 with a minimum grade of B.

MUT 4401 Counterpoint 1 3 Credits
Grading Scheme: Letter Grade
Addresses the practice of two-voice counterpoint in Renaissance and Baroque styles with additional focus on historical context. Through composition, study, performance and listening, students gain fluency in both strict and free two-part counterpoint, compound melody, canon, antiphon and inventions.
Prerequisite: Music major.
MUT 4402 Counterpoint 2 3 Credits
**Grading Scheme:** Letter Grade
Continues the study of counterpoint begun in MUT 4401, expanding two-voice composition and analysis into three and four voices. Straddling the late Renaissance and the Baroque, the techniques covered in this class prepare students to write and fully comprehend modal motets as well as tonal fugues. Through analysis, composition, study, performance and listening, students will gain competence in the strict techniques and idioms of multi-voiced imitative entrance, sequence and subject harmonization. Students will also familiarize themselves with Bach’s The Well-Tempered Clavier both for its technical uses of counterpoint, exemplary and exceptional, and its historical significance. The course concludes with a brief excursion into the use of chromaticism in later contrapuntal styles.
**Prerequisite:** Music major.

MUT 4411 Modal Counterpoint 3 Credits
**Grading Scheme:** Letter Grade
Free and strict counterpoint in the 16th century modal style through listening, reading, playing, singing and writing.
**Prerequisite:** Music major.

MUT 4421 Tonal Counterpoint 3 Credits
**Grading Scheme:** Letter Grade
Counterpoint in the 18th-century style through listening, reading, playing, singing and writing.
**Prerequisite:** Music major.

MUT 4601 Score Reading 2 Credits
**Grading Scheme:** Letter Grade
Score-reading at the keyboard. Exercises in realization of music in two or more staves and clefs, and involving instrumental transpositions.
**Prerequisite:** Music major.

MUT 4663 Advanced Jazz Musicianship 2 Credits
**Grading Scheme:** Letter Grade
Instruction covers implementing jazz harmony, chord symbols, jazz scales and modes, jazz articulations, and techniques for accurately memorizing jazz standards. Lessons focus on implementing these concepts in jazz performances. This course uses the music of the blues, jazz standards, and contemporary music as "play along" tools.
**Prerequisite:** MUT 1362 with a grade of B or higher and instructor permission.

MVB 1411 Trumpet 1-3 Credits
**Grading Scheme:** Letter Grade
**Prerequisite:** Music major.

MVB 1412 French Horn 1-3 Credits
**Grading Scheme:** Letter Grade
**Prerequisite:** Music major.

MVB 1413 Trombone 1-3 Credits
**Grading Scheme:** Letter Grade
**Prerequisite:** Music major.

MVB 1414 Euphonium 1-3 Credits
**Grading Scheme:** Letter Grade
**Prerequisite:** Music major.

MVB 1415 Tuba 1-3 Credits
**Grading Scheme:** Letter Grade
**Prerequisite:** Music major.

MVB 2421 Trumpet 2 Credits
**Grading Scheme:** Letter Grade
**Prerequisite:** Music major.

MVB 2422 French Horn 2 Credits
**Grading Scheme:** Letter Grade
**Prerequisite:** Music major.

MVB 2423 Trombone 2 Credits
**Grading Scheme:** Letter Grade
**Prerequisite:** Music major.

MVB 2424 Euphonium 2 Credits
**Grading Scheme:** Letter Grade
**Prerequisite:** Music major.

MVB 2425 Tuba 1-3 Credits
**Grading Scheme:** Letter Grade
**Prerequisite:** Music major.

MVB 3431 Trumpet 1-3 Credits
**Grading Scheme:** Letter Grade
**Prerequisite:** Music major.

MVB 3432 French Horn 1-3 Credits
**Grading Scheme:** Letter Grade
**Prerequisite:** Music major.

MVB 3433 Trombone 1-3 Credits
**Grading Scheme:** Letter Grade
**Prerequisite:** Music major.

MVB 3434 Euphonium 1-3 Credits
**Grading Scheme:** Letter Grade
**Prerequisite:** Music major.

MVB 3435 Tuba 1-3 Credits
**Grading Scheme:** Letter Grade
**Prerequisite:** Music major.

MVB 3970 Junior Recital 1 Credit
**Grading Scheme:** Letter Grade
All music majors in the Bachelor of Music program must present a public recital during their junior year. See areas of emphasis for specific requirements.
**Prerequisite:** Music major.

MVB 4441 Trumpet 1-3 Credits
**Grading Scheme:** Letter Grade
**Prerequisite:** Music major.

MVB 4442 French Horn 1-3 Credits
**Grading Scheme:** Letter Grade
**Prerequisite:** Music major.

MVB 4443 Trombone 1-3 Credits
**Grading Scheme:** Letter Grade
**Prerequisite:** Music major.

MVB 4444 Euphonium 1-3 Credits
**Grading Scheme:** Letter Grade
**Prerequisite:** Music major.

MVB 4445 Tuba 1-3 Credits
**Grading Scheme:** Letter Grade
**Prerequisite:** Music major.

MVB 4640 Brass Instruments Pedagogy 3 Credits
**Grading Scheme:** Letter Grade
An analysis of the principles, methods and practices currently used in the teaching of brass instruments.
**Prerequisite:** Music major.
MVB 4971 Senior Recital 1 Credit
Grading Scheme: Letter Grade
All music performance majors must present a public recital during their senior year. See areas of emphasis for specific requirements.
Prerequisite: Music major.

MVK 1111 Secondary Piano 1 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 1112 Secondary Piano 2 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 1411 Piano 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 1412 Harpsichord 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 1413 Organ 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 1415 Carillon 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 2221 Secondary Piano 3 1-3 Credits
Grading Scheme: Letter Grade
This course is required of all music majors, with the exception of keyboard majors. Levels (3) and (4) may be exempted by examination.
Prerequisite: Music major.

MVK 2222 Secondary Piano 4 1-3 Credits
Grading Scheme: Letter Grade
This course is required of all music majors, with the exception of keyboard majors. Levels (3) and (4) may be exempted by examination.
Prerequisite: Music major.

MVK 2421 Piano 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 2422 Harpsichord 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 2423 Organ 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 2425 Carillon 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 3431 Piano 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 3432 Harpsichord 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 3433 Organ 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 3435 Carillon 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 3702 Accompanying 2 Credits
Grading Scheme: Letter Grade
Instrumental chamber music, song, orchestral reductions and editions.
Prerequisite: Music major.

MVK 3970 Junior Recital 1 Credit
Grading Scheme: Letter Grade
All music majors in the Bachelor of Music program must present a public recital during their junior year. See areas of emphasis for specific requirements.
Prerequisite: Music major.

MVK 4126 Improvisational Keyboard Skills and Related Technology 2 Credits
Grading Scheme: Letter Grade
Study of improvisational skills, electric keyboard technology, and musical styles outside of the classical realm.
Prerequisite: Music major.

MVK 4441 Piano 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 4442 Harpsichord 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 4443 Organ 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVK 4600 Organ Pedagogy 3 Credits
Grading Scheme: Letter Grade
An analysis of the principles, methods and practices currently in the teaching of organ.
Prerequisite: Music major.

MVK 4640 Piano Pedagogy 3 Credits
Grading Scheme: Letter Grade
An analysis of the principles, methods and practices currently used in the teaching of piano.
Prerequisite: Music major.

MVK 4971 Senior Recital 1 Credit
Grading Scheme: Letter Grade
All music performance must present a public recital during the senior year. See areas of emphasis for specific requirements.
Prerequisite: Music major.

MVP 1411 Percussion 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVP 2421 Percussion 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVP 3431 Percussion 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.
MVP 3970 Junior Recital 1 Credit
Grading Scheme: Letter Grade
All music majors in the Bachelor of Music program must present a public recital during their junior year. See areas of emphasis for specific requirements.
Prerequisite: Music major.

MVP 4441 Percussion 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVP 4971 Senior Recital 1 Credit
Grading Scheme: Letter Grade
All music performance majors must present a public recital during the senior year. See areas of emphasis for specific requirements.
Prerequisite: Music major.

MVS 1411 Violin 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 1412 Viola 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 1413 Cello 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 1414 String Bass 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 1421 Violin 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 1422 Viola 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 1423 Cello 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 1424 String Bass 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 1426 Guitar 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 3431 Violin 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 3432 Viola 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVS 3433 Cello 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 3434 String Bass 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 3436 Guitar 3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 3970 Junior Recital 1 Credit
Grading Scheme: Letter Grade
All music majors in the Bachelor of Music program must present a public recital during their junior year. See areas of emphasis for specific requirements.
Prerequisite: Music major.

MVS 4441 Violin 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 4442 Viola 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 4443 Cello 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 4444 String Bass 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 4446 Guitar 3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVS 4640 String Instrument Pedagogy 3 Credits
Grading Scheme: Letter Grade
An introduction to the teaching of basic string instrument techniques.
Prerequisite: Music major.

MVS 4971 Senior Recital 1 Credit
Grading Scheme: Letter Grade
All music performance majors must present a public recital during their senior year. See areas of emphasis for specific requirements.
Prerequisite: Music major.

MVV 1411 Voice 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVV 2421 Voice 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVV 3431 Voice 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVV 3970 Junior Recital 1 Credit
Grading Scheme: Letter Grade
All music majors in the Bachelor of Music program must present a public recital during their junior year. See areas of emphasis for specific requirements.
Prerequisite: Music major.

MVV 4441 Voice 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major to self-register.

MVV 4640 Vocal Pedagogy 1-3 Credits
Grading Scheme: Letter Grade
An analysis of various methods, principles and practices in the teaching of voice.
Prerequisite: Music major.
MVV 4971 Senior Recital 1 Credit
Grading Scheme: Letter Grade
All music performance and church music majors must present a public recital during their senior year. See areas of emphasis for specific requirements.
Prerequisite: Music major.

MVW 1411 Flute 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 1412 Oboe 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 1413 Clarinet 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 1414 Bassoon 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 1415 Saxophone 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 2421 Flute 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 2422 Oboe 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 2423 Clarinet 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 2424 Bassoon 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 2425 Saxophone 2 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 3431 Flute 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 3432 Oboe 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 3433 Clarinet 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 3434 Bassoon 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 3435 Saxophone 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 3970 Junior Recital 1 Credit
Grading Scheme: Letter Grade
All music majors in the Bachelor of Music program must present a public recital during their junior year. See areas of emphasis for specific requirements.
Prerequisite: Music major.

MVW 4441 Flute 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 4442 Oboe 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 4443 Clarinet 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 4444 Bassoon 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 4445 Saxophone 1-3 Credits
Grading Scheme: Letter Grade
Prerequisite: Music major.

MVW 4640 Woodwind Instruments Pedagogy 3 Credits
Grading Scheme: Letter Grade
An analysis of the principles, methods and practices currently used in the teaching of woodwind instruments.
Prerequisite: Music major.

MVW 4971 Senior Recital 1 Credit
Grading Scheme: Letter Grade
All music performance majors must present a public recital during their senior year. See areas of emphasis for specific requirements.
Prerequisite: Music major.

Nuclear and Radiological Engineering

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

The Department of Materials Science and Engineering strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting, and distance learning to promote engineering in the field.
Website (https://mse.ufl.edu/)
Map (http://campusmap.ufl.edu/#/index/0184)

Curriculum
- Advanced Engineering Ceramics Certificate
- Biomaterials Certificate
- Combination Degrees
- Materials Science and Engineering
- Materials Science and Engineering Minor
- Metallurgical Engineering Certificate
- Nuclear and Radiological Engineering Minor
- Nuclear and Radiological Sciences
- Nuclear Engineering
- Nuclear Radiation and Reactor Analysis Certificate
- Nuclear Thermal Systems Analysis Certificate
- Polymer Science and Engineering Certificate
- Semiconductor Materials Certificate

Courses

EGN 4912 Engineering Directed Independent Research 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)

EGS 1005 Prep for Success 1-4 Credits
Grading Scheme: S/U
Freshman success course that includes academic preparation in calculus, chemistry, student success and technical communications. (S-U)
Prerequisite: EG student.

ENU 1000 Introduction to Nuclear Engineering 1 Credit
Grading Scheme: Letter Grade
Introduction to the nuclear engineering field and careers in the nuclear industry. Topics include engineering ethics, nuclear history, elementary nuclear and reactor physics, reactor types, nuclear safety, nuclear fuel cycle and radiation protection.

ENU 4001 Nuclear Engineering Analysis 1 4 Credits
Grading Scheme: Letter Grade
Four one-hour lectures discussing continuous and discrete variable solution methods for the statistical, algebraic, differential and integral equations important in nuclear engineering. Problems involving neutron, photon, fluid and temperature distributions in configuration, time and velocity are mathematically modeled, solved and interpreted.
Prerequisite: MAP 2302;
Corequisite: COP 2271.

ENU 4103 Reactor Analysis and Computation 1: Statics 4 Credits
Grading Scheme: Letter Grade
Three one-hour lectures discussing neutron reactions, fission chain and criticality and neutron transport/diffusion for nuclear reactors. Neutron thermalization and thermal scattering kernels. Dynamic analysis of reactors including point and space-time models. Feedback and reactor dynamics and control. Short-term transient analysis and long-term time-dependence.
Prerequisite: ENU 4001 and ENU 4605 with minimum grades of C.

ENU 4104 Reactor Analysis and Computation 2: Dynamics 3 Credits
Grading Scheme: Letter Grade
A continuation of ENU 4103. Three one-hour lectures discussing neutron thermalization and thermal scattering kernels. Treatment of resonances and Doppler broadening. Dynamic analysis of reactors including point model and space-time models. Feedback and reactor dynamics and control. Short-term transient analysis and long-term time dependence.
Prerequisite: ENU 4103.

ENU 4133 Reactor Thermal Hydraulics 1 3 Credits
Grading Scheme: Letter Grade
Fundamentals of thermodynamics, fluid mechanics and heat transfer with application to design and safety of nuclear power plants. Thermal hydraulic characteristics of nuclear power plants, energy conversion cycles, applications of first and second law of thermodynamics, nuclear heat generation, fluid mechanics, conservation laws and governing equations for inviscid and viscous single-phase flow, conduction and convection heat transfer and thermal design of fuel elements.
Prerequisite: EML 3100.

ENU 4134 Reactor Thermal Hydraulics 4 Credits
Grading Scheme: Letter Grade
Nuclear applications of fluid mechanics, heat transfer and thermodynamics. Two-phase flow and boiling heat transfer. Heat transfer mechanisms in reactor core and sub-channel thermal hydraulics. Steam generator, power cycles, and balance of plant. Introduction to thermal design for reactors.
Prerequisite: EML 4140 and (ENU 4133 or EGN 3353C).

ENU 4144 Nuclear Power Plant Reactor Systems 1 3 Credits
Grading Scheme: Letter Grade
Three one-hour lectures discussing the basis for light water reactor (LWR) design; the NRC design criteria for LWRs. Study of the major systems, components and performance characteristics of LWRs including fuels, primary and secondary coolant systems, emergency and auxiliary systems.
Prerequisite: EML 3100 and ENU 4605 and ENU 4001 with minimum grades of C.

ENU 4145 Risk Assessment for Radiation Systems 3 Credits
Grading Scheme: Letter Grade
Three one-hour lectures discussing the study of radiation management systems, including reliability and probabilistic risk assessment.
Prerequisite: ENU 4144 and STA 3032.

ENU 4191 Elements of Nuclear and Radiological Engineering Design 1 Credit
Grading Scheme: Letter Grade
The first of a two-course capstone design sequence. A one-hour lecture that provides preparatory work for ENU 4192. Identification of initial design project(s) and areas of work, selection/assignment of groups to areas of work/tasks, accumulation of reference materials and computer codes and development of initial timelines/milestones.
Prerequisite: ENU 4144;
Corequisite: ENU 4134, ENU 4612 and ENU 4630.
ENU 4192 Nuclear and Radiological Engineering Design 3 Credits
Grading Scheme: Letter Grade
Continuation of ENU 4191. Nuclear reactor theory and engineering as applied to design synthesis of reactors. Nuclear, material, thermo-fluid and/or mechanical design considerations of nuclear reactors with particular emphasis on design characteristics. Analytical methods and application of computer codes for design analysis and evaluation. Individual and/or group design involving integration of reactor neutronics, dynamics and control, thermal hydraulics, transient analysis and safety, power production, instrumentation, control, radiation shielding and protection, fuel cycle, fuel behavior and/or cost.
Prerequisite: ENU 4134 and ENU 4191 with a minimum grade of C and ENU 4612 and ENU 4630.
Corequisite: ENU 4641.

ENU 4194 Control of Nuclear Reactors and Power Plants 3 Credits
Grading Scheme: Letter Grade
Three one-hour lectures discussing the analysis of the control and dynamic characteristics of nuclear reactors, including the effects of feedback. Analysis of the control and dynamic characteristics of the integrated nuclear power plant.
Prerequisite: ENU 4104.

ENU 4505L Nuclear and Radiological Engineering Laboratory 1 3 Credits
Grading Scheme: Letter Grade
Two one-hour lectures discussing experimental procedures used in reactor operation, personnel monitoring, radiation detection devices and the statistics of nuclear counting systems. Also includes a four-hour laboratory experience that integrates practical applications of radiation sources, radiation interactions, radiation transport and radiation detection. (WR)
Prerequisite: ENU 4612.
Attributes: Satisfies 4000 Words of Writing Requirement

ENU 4605 Radiation Interactions and Sources 1 4 Credits
Grading Scheme: Letter Grade
Three one-hour lectures discussing interaction of ionizing radiation with matter; cross sections and radiation fields with emphasis on photons, heavy charged particles and electrons.

ENU 4606 Radiation Interactions and Sources 2 3 Credits
Grading Scheme: Letter Grade
Continuation of ENU 4605. Three one-hour lectures discussing the study of photon-charged particle and electron interactions with matter, attenuation, energy transfer and energy absorption in matter. X-ray production, accelerators and neutron sources, and applications in nuclear and radiological engineering.
Prerequisite: ENU 4001 with a minimum grade of C and ENU 4605.

ENU 4612 Nuclear Radiation Detection and Instrumentation 3 Credits
Grading Scheme: Letter Grade
Three one-hour lectures discussing the physics and electronics of radiation detection and instrumentation systems for application to nuclear energy, radiological sciences, radiation protection, medical physics and imaging, and industrial safety and control systems.
Prerequisite: ENU 4605 with a minimum grade of C and EEL 3003.

ENU 4612L Nuclear Radiation Detection and Instrumentation Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory experiments related to the physics and electronics of radiation detection and instrumentation systems for application to nuclear energy, radiological sciences, radiation protection, medical physics and imaging, and industrial safety and control systems.
Prerequisite: ENU 4605 with a minimum grade of C and EEL 3003;
Corequisite: ENU 4612.

ENU 4630 Fundamental Aspects of Radiation Shielding 3 Credits
Grading Scheme: Letter Grade
Three one-hour lectures discussing basic principles of radiation shielding. Study of radiation sources and shielding design for radiation facilities.
Prerequisite: ENU 4605 with a minimum grade of C.

ENU 4641C Applied Radiation Protection 2 Credits
Grading Scheme: Letter Grade
Two one-hour lectures of introduction to practical radiation protection techniques and practices, including laboratory experiences. Examination of pertinent regulations, current practice, ethics and instrumentation/measurement practices. Design of facilities and controls to optimize benefits of radiation applications and minimize exposure risks. (WR)
Prerequisite: ENU 4605 with a minimum grade of C and ENU 4630.
Attributes: Satisfies 2000 Words of Writing Requirement

ENU 4800 Introduction to Nuclear Reactor Materials 3 Credits
Grading Scheme: Letter Grade
Provides a comprehensive knowledge on the types of materials used in nuclear reactors, their response to the reactor environments and most of the materials problems encountered in the operation of nuclear power reactors for energy production.
Prerequisite: ENU 4612.

ENU 4905 Special Problems in Nuclear and Radiological Engineering 1-6 Credits
Grading Scheme: Letter Grade
Individually selected problems or projects in the students' major field of engineering study.
Prerequisite: department chair recommendation.

ENU 4906 Special Problems in Nuclear and Radiological Engineering Design 1-6 Credits
Grading Scheme: Letter Grade
Individually selected design problems or design projects in the student's major field of engineering study.
Prerequisite: department chair recommendation.

ENU 4930 Special Topics in Nuclear and Radiological Engineering 1-4 Credits
Grading Scheme: Letter Grade
Special courses covering selected topics in nuclear engineering.
Prerequisite: instructor permission.

ENU 4934 Fundamentals of Nuclear and Radiological Engineering 1 Credit
Grading Scheme: Letter Grade
Presentations and discussions on topics of current and continuing interest in nuclear engineering sciences.
Prerequisite: Nuclear Engineering major of junior standing or higher.

ENU 4944 Practical Work in Nuclear and Radiological Engineering 1-5 Credits
Grading Scheme: Letter Grade
Practical engineering work under industrial supervision, as set forth in the Herbert Wertheim College of Engineering regulations.
ENU 4949 Co-op Work Experience 1 Credit  
Grading Scheme: S/U  
Three-hour laboratory of practical engineering work under industrial supervision, as set forth in the Herbert Wertheim College of Engineering regulations. (S-U)  
Prerequisite: 4EG classification and one term of industrial employment, including extra work according to a pre-approved outline.

ENV 4212 Nuclear Power Radioactive Waste Technology 3 Credits  
Grading Scheme: Letter Grade  
Characterization and description of low and high level radwastes, regulatory requirements and method of treatment. Transportation, burial and surveillance of radwaste. Decommissioning of nuclear facilities.  
Prerequisite: refer to the department.

Nursing 
Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.  
More Info (http://registrar.ufl.edu/soc/)  
Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information 
The nursing education programs offered at UF address gaps in the health care system, as do the college’s innovations in technological resources and initiatives linking students to diverse and international populations. The College of Nursing has a history of pioneering leadership in nursing education, having offered Florida’s first nurse practitioner programs and first PhD in Nursing Science program.

Curriculum  
• Nursing  
• Nursing | RN to BSN UF Online

Courses 
NUR 2650 Transcultural Communications in Health Care Today 3 Credits  
Grading Scheme: Letter Grade  
Broadens the perceptions and understanding of health care beliefs and practices of specific cultural groups in the United States; fosters the development of essential communication skills and techniques necessary for effective multidisciplinary teams and culturally sensitive practice.  
Attributes: Satisfies 2000 Words of Writing Requirement

NUR 3065C Comprehensive Health Assessment 3 Credits  
Grading Scheme: Letter Grade  
Examines comprehensive health assessment principles and techniques. Emphasizes the principles of assessment of health status of individuals across the lifespan and therapeutic communication.  
Prerequisite: RN to BSN major.

NUR 3066C Clinical Reasoning: Health Assessment 3 Credits  
Grading Scheme: Letter Grade  
Establishes a foundation of clinical reasoning, data collection, and documentation for patient assessment. Focuses on normal findings and variations across the lifespan. Acquire the knowledge, skills, and attitudes necessary to perform a health assessment.  
Prerequisite: Nursing major.

NUR 3069C Communication and Health Assessment 3 Credits  
Grading Scheme: Letter Grade  
Examines therapeutic communication and health assessment principles and techniques. Focuses on development of therapeutic relationships and the use of general and specialized assessment skills as a basis for clinical decision making.  
Prerequisite: Nursing major.  
Corequisite: NUR 3129.

NUR 3106 Lead and Inspire 1: Professional Nursing Practice 2 Credits  
Grading Scheme: Letter Grade  
Provides a foundation for exploring and evaluating the roles, functions, and perspectives of the professional nurse. Emphasizes the history of nursing, ethical and legal issues, policy, and standards of professional nursing practice as a basis for professional development and transformation.  
Prerequisite: Nursing major.

NUR 3123 Pathophysiology and Pharmacology 4 Credits  
Grading Scheme: Letter Grade  
Increases understanding of cellular physiology and alterations in structure and function resulting from the action of stressors on the human body at the cellular level.  
Prerequisite: RN to BSN major.

NUR 3128 Pathophysiology/Pharmacology in Nursing 2 3 Credits  
Grading Scheme: Letter Grade  
This second of a two-semester sequence of Pathophysiology and Pharmacology in Nursing emphasizes examining pathophysiology of human illness in diverse groups of individuals across the lifespan utilizing a systems based approach; incorporates nursing implications for safe and effective delivery of related pharmacotherapeutic agents.  
Prerequisite: NUR 3066C and NUR 3196 and NUR 3737C.

NUR 3145 Pharmacology for Nursing 3 Credits  
Grading Scheme: Letter Grade  
Examines the pharmacotherapeutic agents used in the treatment of illness and the promotion, maintenance and restoration of wellness in diverse individuals across the lifespan.  
Prerequisite: NUR 3129 and NUR 3138;  
Corequisite: AGR 4932.

NUR 3168 Lead and Inspire 2: Research and Evidence-Based Nursing 2 Credits  
Grading Scheme: Letter Grade  
Provides a foundation for evidence-based nursing practice; emphasizes problem identification and assessing and analyzing evidence to support the delivery of personalized nursing care.  
Prerequisite: NUR 3106.
NUR 3169 Inquiry and Evidence in Professional Nursing Practice 3 Credits
Grading Scheme: Letter Grade
Examines the processes required to translate and to integrate evidence into nursing practice.
Prerequisite: admission to upper-division BSN Program.

NUR 3196 Pathophysiology/Pharmacology in Nursing 1 4 Credits
Grading Scheme: Letter Grade
This course is part one of a two semester sequence for pre-licensure students examining pathophysiology and pharmacology of human illness in diverse groups of individuals across the lifespan. Emphasis is on alterations in homeostatic mechanisms and underlying bases for disease risk/manifestations. Corresponding pharmacokinetics, pharmacodynamics and pharmacogenetic principles will be included.
Prerequisite: Admission to the Nursing Program

NUR 3197 Genetics and Genomics in Health Care 2 Credits
Grading Scheme: Letter Grade
Genetics and genomics are advancing quickly and will play a greater role in health care as personal genome sequencing becomes available. Reinforces basic genetics and genomics concepts and exploring how genomics may affect health care.
Prerequisite: Nursing major.

NUR 3219C Clinical Reasoning and Personalized Nursing Care: Adult Acute Conditions 4 Credits
Grading Scheme: Letter Grade
Provides foundational knowledge and principles of personalized nursing care while caring for adults with acute illnesses or injury. Emphasizes care coordination and interprofessional collaboration to optimize wellness and recovery of adults. Focuses on evidence-based, safe, cost effective, quality care to achieve optimal health outcomes.
Prerequisite: NUR 3066C and NUR 3737C.

NUR 3227C Principles of Personalized Nursing Care 2 2 Credits
Grading Scheme: Letter Grade
This second of a two-semester sequence of Principles of Personalized Nursing Care emphasizes integration and application of personalized nursing care across the lifespan and health care settings; focuses on interprofessional collaboration and clinical reasoning in the delivery of evidence based, safe, cost-effective quality care.
Prerequisite: NUR 3737C.

NUR 3535C Clinical Reasoning and Personalized Nursing Care: Mental Health 4 Credits
Grading Scheme: Letter Grade
Provides foundational knowledge and principles of personalized nursing care in prevention, treatment, and recovery of mental illness and substance misuse disorders across the life span. Emphasizes on using biobehavioral theories to design personalized nursing care for promoting mental health and recovery.
Prerequisite: NUR 3066C and NUR 3737C.

NUR 3737C Principles of Personalized Nursing Care 1 6 Credits
Grading Scheme: Letter Grade
Provides a foundation of personalized nursing care in individuals across the lifespan. Emphasizes integrating and applying multiple dimensions of cultural and social determinants of health. Focuses on evidence-based, safe, quality care, and achievement of optimal patient outcomes using the nursing process.
Prerequisite: Nursing major.

NUR 3805 Professional Nursing in the Evolving Healthcare System 3 Credits
Grading Scheme: Letter Grade
Builds on initial nursing education to enhance professional development, prepare for a broader scope of practice, and provide deeper understanding of the cultural, political, economic, and social issues that affect clients and influence care delivery.
Prerequisite: RN to BSN major.

NUR 3816 Seminar in Professional Nursing 1 Credit
Grading Scheme: Letter Grade
Relates past nursing practice and current academic achievements to professional nursing role development.
Prerequisite: NUR 3123 and NUR 3826;
Corequisite: NUR 3197 and NUR 3169.

NUR 3826 Legal and Ethical Issues in Nursing 2 Credits
Grading Scheme: Letter Grade
Examines the legal issues and ethical dilemmas in nursing practice. Consequences of ethical misconduct and legal malpractice are explored. Focus is on case analysis of legal and ethical issues.
Prerequisite: junior standing in the college.

NUR 3946L Individual Clinical Practice 1-5 Credits
Grading Scheme: S/U
Additional opportunities for nursing practice. Objectives to be developed collaboratively by student and faculty. (S-U)
Prerequisite: 8 credits of 3000/4000-level nursing courses or instructor permission.

NUR 4108 Lead and Inspire 3: Policy and Change in Nursing Practice 3 Credits
Grading Scheme: Letter Grade
Introduces strategies that support safe, effective, and ethical nursing care in health care systems. Emphasizes developing knowledge and demonstrating behaviors that enable the professional nurse to lead and participate in the design, revision, and implementation of policies to improve nursing practice and healthcare outcomes.
Prerequisite: NUR 3168.

NUR 4467C Clinical Reasoning and Personalized Nursing Care: Women, Children and Families 6 Credits
Grading Scheme: Letter Grade
Acquire and apply knowledge and principles of personalized nursing care for women, children, and families; emphasizes applying a biobehavioral approach to care of the child-bearing and child-rearing family.
Prerequisite: NUR 3227C and NUR 3219C and NUR 3535C.

NUR 4635C Public Health Nursing 4 Credits
Grading Scheme: Letter Grade
Provides classroom and clinical experiences in population-focused nursing by examining strategies that promote wellness and disease prevention.
Prerequisite: NUR 3197 and NUR 3169;
Corequisite: NUR 4837.

NUR 4636C Clinical Reasoning and Personalized Nursing Care: Population Health 4 Credits
Grading Scheme: Letter Grade
Provides knowledge and principles of personalized nursing care required for community/public health nursing practice. Emphasizes integrating community-based, community-oriented, and population-focused concepts and focuses on health maintenance and promotion, risk reduction, and disease prevention within individuals, communities, and populations to achieve optimal health outcomes.
Prerequisite: NUR 4467C and NUR 4768C.
NUR 4739 Systems of Care 3: Restoration of Wellness 4 Credits
Grading Scheme: Letter Grade
Examines the knowledge necessary to participate in development of plans of care for diverse clients with complicated acute and chronic illnesses across the lifespan. Focuses on the principles inherent in the care of clients whose complexity affects restoration to wellness.
**Prerequisite:** NUR 3738;
**Corequisite:** NUR 3826.

NUR 4766C Clinical Reasoning and Personalized Nursing Care: Adult Complex Conditions 6 Credits
Grading Scheme: Letter Grade
Provides in-depth knowledge of personalized nursing care of adults with complex conditions. Emphasizes multisystem illness requiring multi-faceted approaches to treatment across settings and focuses on nursing leadership, care coordination, and advocacy to provide safe, cost-effective high quality health care that improves quality of life.
**Prerequisite:** NUR 4467C and NUR 4768C.

NUR 4768C Clinical Reasoning and Personalized Nursing Care: Adult Chronic Conditions 6 Credits
Grading Scheme: Letter Grade
Provides foundational knowledge and principles of personalized nursing care for adults with chronic illnesses. Emphasizes care coordination and chronic disease management and Focuses on interprofessional collaboration, evidence-based care, and clinical reasoning to achieve improved health outcomes and quality of life in adults with chronic conditions.
**Prerequisite:** NUR 3227C and NUR 3219C and NUR 3535C.

NUR 4815 Professional Nursing Transformation 3 Credits
Grading Scheme: Letter Grade
Provides an opportunity to apply professional behaviors, clinical reasoning, and evidence-based decision making to address clinical issues related to nursing care. Emphasizes participation in the design and/or implementation of a project relevant to clinical nursing practice and dissemination to peers and stakeholders.
**Prerequisite:** NUR 4108.

NUR 4827 Lead and Inspire 4: Leadership and Innovation in Nursing Practice 2 Credits
Grading Scheme: Letter Grade
Synthesize the roles, functions, and perspectives of the professional nurse utilizing the lead and inspire concepts; emphasizes leadership and innovation to transform professional nursing practice and healthcare systems.
**Prerequisite:** NUR 4108.

NUR 4829 Leadership and Management in Nursing 2 Credits
Grading Scheme: Letter Grade
Examines leadership and management concepts used to address complex microsystem issues within selected healthcare organizations. Focuses on the interrelationship of selected roles within the context of specific theoretical frameworks and models of care.
**Prerequisite:** NUR 3826.

NUR 4837 Healthcare Policy, Finance, and Regulatory Environments 2 Credits
Grading Scheme: Letter Grade
Examines the foundations of healthcare policy, the financial structure of healthcare systems and the regulatory environments that impact nursing practice and client care. Focuses on the influence of the nursing profession on policy and regulation.
**Prerequisite:** senior standing.

NUR 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
Individual study. Qualified students may choose particular issues for study.
**Prerequisite:** 8 credits of 3000/4000-level nursing courses or instructor permission.

NUR 4930 Special Topics 1-3 Credits
Grading Scheme: Letter Grade
Prior to registration, students should contact the College of Nursing for special topics offered.

NUR 4935 Honors Seminar in Nursing 3 Credits
Grading Scheme: S/U
The honors seminar provides a unique and challenging experience for students who have exhibited exceptional academic ability to enhance the development of creativity and the ability to engage in scientific inquiry. (S-U)
**Prerequisite:** NUR 3168.

NUR 4944L Transition to Professional Practice 5 Credits
Grading Scheme: S/U
Provides opportunities to translate, integrate and apply available evidence to the care of clients. Focuses on the transition from student to entry-level professional nursing practice.
**Prerequisite:** senior standing;
**Corequisite:** NUR 4748, NUR 4748L, NUR 4829 and NUR 4837.

---

### Occupational Therapy

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

### Courses

**OTH 3200C Applied Human Development 1 3 Credits**
**Grading Scheme:** Letter Grade
Application to occupational therapy of principles of human growth and development, from infancy to adolescence.
**Prerequisite:** BSC 2007 or BSC 2005 or BSC 2010, APK 2105C, PSY 2012, STA 2023, majors/minors only and department permission.

**OTH 3201 Applied Human Development 2 2 Credits**
**Grading Scheme:** Letter Grade
Application to occupational therapy of principles of human growth and development, from young adulthood to senescence.
**Prerequisite:** BSC 2007 or BSC 2005 or BSC 2010, APK 2105C, PSY 2012, STA 2023, majors/minors only and department permission.

**OTH 3282 Occupation and Participation Across Cultures 3 Credits**
**Grading Scheme:** Letter Grade
Occupation is what we routinely do, incorporating activities that are life sustaining, purposeful and meaningful. The influence of occupation on health of persons with disabilities across cultures will be analyzed throughout the lifespan. Participation is an outcome concept involving engagement in activities like school, work and social life.
**Prerequisite:** PSY 2012 or instructor permission. Junior standing or higher recommended.
addresses specific issues related to packaging composition and form.

major packaging materials, properties, economics, and applications.

gradation scheme:

PKG 3004 PACKAGING MATERIALS 3 CREDITS

grading scheme: letter grade

major packaging materials, properties, economics, and applications.

addresses specific issues related to packaging composition and form.

courses

PKG 3001 principles of packaging 3 credits

grading scheme: letter grade

focuses on the materials, uses, functions, and production processes of packaging. topics include an industry overview and related applications as well as the historical, societal, and technological drivers of packaging and how end-users decide on the product/package combination they use for their product and the impact these choices make on the product's market success.

PKG 3004 packaging materials 3 credits

grading scheme: letter grade

major packaging materials, properties, economics, and applications.

addresses specific issues related to packaging composition and form.

pest management | plant protection

not all courses are offered every semester. refer to the schedule of courses for each term's specific offerings.

More Info (http://registrar.ufl.edu/soc/)

courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

courses

PKG 4008 DISTRIBUTION AND TRANSPORT PACKAGING 3 CREDITS

grading scheme: letter grade

studies containment, protection, and preservation practices related to transporting and delivery of packages.

PKG 4011 PACKAGING PRODUCTION AND PROCESSING 3 CREDITS

grading scheme: letter grade

studies operations and machinery used in modern packaging lines. topics include high-speed forming, filling, sealing, labeling, check weighing, inspection, coding, palletizing, and shipping.

PKG 4101 COMPUTER TOOLS FOR PACKAGING 3 CREDITS

grading scheme: letter grade

studies the computer tools applicable to the packaging industry. topics include label design, bar code technology, spreadsheet programming, 3D package design and distribution efficiency analysis.

PKG 4204C PACKAGING DECORATION 3 CREDITS

grading scheme: letter grade

presents major decoration methods used for packaging. specific laboratory team projects prepare and execute the decoration of a cylindrical package or container from concept to a decorated item.

PKG 4905 individual work in packaging engineering 1-6 credits

grading scheme: letter grade

selected problems or projects enhance knowledge of packaging engineering-related topics.

PKG 4932 special topics in packaging engineering 1-6 credits

grading scheme: letter grade

lectures, laboratory, and/or special projects.

PKG 4941 WORK EXPERIENCE IN PACKAGING ENGINEERING 1-3 CREDITS

grading scheme: S/U

work experience in the packaging science industry. (S-U)
The crop science departments and the supporting disciplines of entomology-nematology, plant sciences, plant pathology and forest resources and conservation offer the following general and cross-department courses in pest management.

Refer to Agricultural Operations Management for AOM 3333 Pesticide Application and Agricultural General for AGG 5505 Plant Protection in Tropical Ecosystems.

**Courses**

**IPM 3022 Fundamentals of Pest Management 3 Credits**  
Grading Scheme: Letter Grade

**PMA 4570C Field Techniques in IPM 2 Credits**  
Grading Scheme: Letter Grade  
Prerequisite: IPM 3022.

---

**Pharmacy**

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.  

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

**Department Information**

Ranked by U.S. News & World Report as the No. 1 pharmacy college in Florida and in the Top 10 nationally, the University of Florida College of Pharmacy has been developing future leaders in pharmacy practice and science for nearly a century.

**Curriculum**

- Pharmacy | Preprofessional

---

**Courses**

**PHA 3931 Honors Seminar in Pharmaceutical Research: In Search of Magic Bullets 3 Credits**  
Grading Scheme: Letter Grade  
Overview of the issues associated with pharmaceutical research: drug discovery process, clinical research, drug tragedies, government laws and regulations, pharmaceutical care and drug efficacy versus risk. In addition, specific drug research by pharmacy faculty is presented and discussed. (WR)  
Prerequisite: honors program only.  
Attributes: Satisfies 6000 Words of Writing Requirement

**PHA 4911 Undergraduate Research in Pharmacodynamics 0-3 Credits**  
Grading Scheme: S/U  
Specific research projects in pharmacy are completed during a semester under the supervision of a pharmacy faculty member. (S-U)

**PHA 4912 Undergraduate Research in Pharmaceutics 0-3 Credits**  
Grading Scheme: S/U  
Specific research projects in pharmacy are completed during a semester under the supervision of a pharmacy faculty member. (S-U)

**PHA 4913 Undergraduate Research in Medicinal Chemistry 0-3 Credits**  
Grading Scheme: S/U  
Specific research projects in pharmacy are completed during a semester under the supervision of a pharmacy faculty member. (S-U)

**PHA 4914 Undergraduate Research in Pharmacotherapy and Translational Research 0-3 Credits**  
Grading Scheme: S/U  
Specific research projects in pharmacy are completed during a semester under the supervision of a pharmacy faculty member. (S-U)

**PHA 4933 Selected Topics in Pharmacy 1-3 Credits**  
Grading Scheme: Letter Grade  
Undergraduates work on a project or complete a term paper under the supervision of a pharmacy faculty member.  
Prerequisite: instructor permission.

---

**Philosophy**

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.  

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

**Department Information**

The Department of Philosophy addresses foundation questions. These are questions the answers to which inform our basic understanding of one or another domain of inquiry, or some fundamental aspect of the world or ourselves or our relation to the world.

**Curriculum**

- Combination Degrees  
- Philosophy  
- Philosophy Minor
Courses

HPS 3003 Perspectives on Science and Mathematics 3 Credits
Grading Scheme: Letter Grade
Explores the different ways that scientists and mathematicians since the 17th century have explained the workings of the natural world. (H) (WR)
Prerequisite: UFTeach Step 1.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

PHH 3100 Ancient Greek Philosophy 3 Credits
Grading Scheme: Letter Grade
Sustained study of Plato and Aristotle with some consideration of pre-Socratic antecedents and Hellenistic successors. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

PHH 3111 Ancient Ethical and Political Thought 3 Credits
Grading Scheme: Letter Grade
Examines ancient Greek and Roman political theories and their ethical foundations. (H)
Attributes: General Education - Humanities

PHH 3200 Medieval Philosophy 3 Credits
Grading Scheme: Letter Grade
Surveys medieval philosophy. Philosophers to be read may include Augustine, Boethius, Anselm, Maimonides, Aquinas, Duns Scotus and Ockham. Topics include the nature of God, universals, individuation and future contingents.
Prerequisite: one course in philosophy.

PHH 3400 Modern Philosophy 3 Credits
Grading Scheme: Letter Grade
Surveys the work of major philosophers of the 17th and 18th centuries, from Descartes to Kant, in the primary texts. (H)
Attributes: General Education - Humanities

PHH 3610 Happiness and Well-Being 3 Credits
Grading Scheme: Letter Grade
Examines major philosophical theories of human happiness and wellbeing from both historical and contemporary perspectives. Topics may include self-interest, pleasure, subjective vs. objective conceptions of happiness, autonomy and the relation between morality and happiness.
Prerequisite: sophomore or higher standing or PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or philosophy major or minor or instructor permission.

PHH 4141 Seminar in Ancient Philosophy 3 Credits
Grading Scheme: Letter Grade
Variable topic seminar focusing on a particular topic, period or school in the philosophy of Greco-Roman antiquity.
Prerequisite: a 3000-level philosophy course or department permission.

PHH 4420 Seminar in Modern Philosophy 3 Credits
Grading Scheme: Letter Grade
Variable topic seminar focusing on a period, school or topic in 17th or 18th century philosophy.
Prerequisite: a 3000-level philosophy course or department permission.

PHH 4644 Continental Philosophy 3 Credits
Grading Scheme: Letter Grade
Studies selected works by 19th and 20th century continental philosophers, with emphasis determined by the instructor. Selections may include such thinkers as Hegel, Nietzsche, Heidegger, and Foucault.
Prerequisite: a 3000-level course with the prefix PHI, PHH, PHM, or PHP.

PHH 4911 Undergraduate Research in History of Philosophy 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

PHH 4930 Seminar in a Major Philosopher 3 Credits
Grading Scheme: Letter Grade
Variable topic seminar on the work of a major historical or contemporary philosopher such as Plato, Aristotle, Aquinas, Descartes, Hobbes, Leibniz, Spinoza, Berkeley, Hume, Rousseau, Kant, Hegel, Mill, Marx, Nietzsche, Husserl, Heidegger, Russell, Moore, Sartre, Wittgenstein and Quine.
Prerequisite: a 3000-level philosophy course or department permission.

PHI 2010 Introduction to Philosophy 3 Credits
Grading Scheme: Letter Grade
Variable topics introduction to philosophy through study of traditional questions about the existence of God, the nature of the mind, the definition of good, freedom of the will, and criteria of truth and knowledge. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

PHI 2100 Logic 3 Credits
Grading Scheme: Letter Grade
Introductory-level survey of different methods of formal and informal analysis of the logical structure of propositions and arguments. Topics include syllogistic logic, propositional logic, quantification logic, inductive logic, informal fallacies, and probability. (M)
Attributes: General Education - Mathematics

PHI 2630 Contemporary Moral Issues 3 Credits
Grading Scheme: Letter Grade
Introduces moral philosophy through selected contemporary issues such as abortion, euthanasia, genetic engineering, and the treatment of animals. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

PHI 3114 Reasoning 3 Credits
Grading Scheme: Letter Grade
Practical methods for understanding reasoned argumentation; instruction in the use of diagrammatic techniques to develop both interpretations and criticisms of philosophical arguments as well as in the application of these techniques in the writing of critical essays on a range of philosophical topics.
Prerequisite: sophomore or higher standing or (PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 with a minimum grade of C) or (philosophy major or philosophy minor) or instructor permission.

PHI 3130 Symbolic Logic 3 Credits
Grading Scheme: Letter Grade
Systematic study of forms of deduction. Techniques and topics include truth-functional analysis and quantification. (M)
Attributes: General Education - Mathematics

PHI 3300 Theory of Knowledge 3 Credits
Grading Scheme: Letter Grade
Studies the central topics and concepts of the theory of knowledge, including the analysis of the concepts of knowledge, truth, justification and related concepts, the nature of empirical knowledge, the problem of skepticism, the nature of a priori knowledge, and the structure of the justification of our beliefs. (H)
Attributes: General Education - Humanities

PHI 3301 Symbolic Logic 3 Credits
Grading Scheme: Letter Grade
Memory to be read may include such thinkers as Hegel, Nietzsche, Heidegger, and Foucault.

PHI 3400 Modern Philosophy 3 Credits
Grading Scheme: Letter Grade
Surveys the work of major philosophers of the 17th and 18th centuries, from Descartes to Kant, in the primary texts. (H)
Attributes: General Education - Humanities

PHI 3410 Theory of Knowledge 3 Credits
Grading Scheme: Letter Grade
Studies the central topics and concepts of the theory of knowledge, including the analysis of the concepts of knowledge, truth, justification and related concepts, the nature of empirical knowledge, the problem of skepticism, the nature of a priori knowledge, and the structure of the justification of our beliefs. (H)
Attributes: General Education - Humanities

PHI 3420 Modern Philosophy 3 Credits
Grading Scheme: Letter Grade
Surveys modern philosophy. Philosophers to be read may include Augustine, Descartes, Leibniz, Spinoza, Berkeley, Hume, Rousseau, Kant, Hegel, Mill, Marx, Nietzsche, Husserl, Heidegger, Russell, Moore, Sartre, Wittgenstein and Quine.
Prerequisite: a 3000-level philosophy course or department permission.

PHI 3500 Ethics 3 Credits
Grading Scheme: Letter Grade
Examines major philosophical theories of human happiness and well-being from both historical and contemporary perspectives. Topics may include self-interest, pleasure, subjective vs. objective conceptions of happiness, autonomy and the relation between morality and happiness.
Prerequisite: sophomore or higher standing or PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or philosophy major or minor or instructor permission.

PHI 3630 Contemporary Moral Issues 3 Credits
Grading Scheme: Letter Grade
Introduces moral philosophy through selected contemporary issues such as abortion, euthanasia, genetic engineering, and the treatment of animals. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

PHI 4110 Contemporary Moral Issues 3 Credits
Grading Scheme: Letter Grade
Introduces moral philosophy through selected contemporary issues such as abortion, euthanasia, genetic engineering, and the treatment of animals. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

PHI 4130 Symbolic Logic 3 Credits
Grading Scheme: Letter Grade
Systematic study of forms of deduction. Techniques and topics include truth-functional analysis and quantification. (M)
Attributes: General Education - Mathematics

PHI 4141 Seminar in Ancient Philosophy 3 Credits
Grading Scheme: Letter Grade
Variable topic seminar focusing on a particular topic, period or school in the philosophy of Greco-Roman antiquity.
Prerequisite: a 3000-level philosophy course or department permission.

PHI 4200 Medieval Philosophy 3 Credits
Grading Scheme: Letter Grade
Surveys medieval philosophy. Philosophers to be read may include Augustine, Boethius, Anselm, Maimonides, Aquinas, Duns Scotus and Ockham. Topics include the nature of God, universals, individuation and future contingents.
Prerequisite: one course in philosophy.

PHI 4300 Modern Philosophy 3 Credits
Grading Scheme: Letter Grade
Surveys the work of major philosophers of the 17th and 18th centuries, from Descartes to Kant, in the primary texts. (H)
Attributes: General Education - Humanities

PHI 4400 Contemporary Moral Issues 3 Credits
Grading Scheme: Letter Grade
Introduces moral philosophy through selected contemporary issues such as abortion, euthanasia, genetic engineering, and the treatment of animals. (H) (WR)
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

PHI 4420 Seminar in Modern Philosophy 3 Credits
Grading Scheme: Letter Grade
Variable topic seminar focusing on a period, school or topic in 17th or 18th century philosophy.
Prerequisite: a 3000-level philosophy course or department permission.

PHI 4644 Continental Philosophy 3 Credits
Grading Scheme: Letter Grade
Studies selected works by 19th and 20th century continental philosophers, with emphasis determined by the instructor. Selections may include such thinkers as Hegel, Nietzsche, Heidegger, and Foucault.
Prerequisite: a 3000-level course with the prefix PHI, PHH, PHM, or PHP.
PHI 3400 Philosophy of Natural Science 3 Credits
Grading Scheme: Letter Grade
Studies central contemporary issues in the philosophy of natural science: the nature of laws, the logic of discovery and the relationships between different sciences. The sciences used for illustration vary with the instructor. (H)
Attributes: General Education - Humanities

PHI 3420 Philosophy of the Social Sciences 3 Credits
Grading Scheme: Letter Grade
Studies the possibility of social laws, the nature of social explanation and rationality, and the role of value judgments in social-scientific research. (H)
Attributes: General Education - Humanities

PHI 3459 Medicine and Philosophy 3 Credits
Grading Scheme: Letter Grade
Examines areas in which medicine and philosophy overlap, including philosophy of science as applied to medical research, ethical theories as applied to medical cases, and moral reflection on the institution of medicine. Provides information about contemporary medical practice and research as well as tools for their critical assessment.
Prerequisite: sophomore or higher standing or PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or philosophy major or minor or instructor permission.

PHI 3500 Metaphysics 3 Credits
Grading Scheme: Letter Grade
Studies the problems of first philosophy: the concepts of existence, essence, object, property and event; universals and particulars; the nature of change, possibility, causation, space and time. Traditional philosophical issues such as free will, the mind/body problem, personal identity and the existence of abstract entities (e.g., numbers) are discussed as are views of realism, idealism, materialism and relativism. (H)
Attributes: General Education - Humanities

PHI 3501 Free Will 3 Credits
Grading Scheme: Letter Grade
Sustained examination of key questions about free will. What exactly does it take for an action to be performed freely? Do scientific results threaten free will? What case can be made for the existence of free will? What are the consequences if free will does not exist?
Prerequisite: sophomore or higher standing or PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or philosophy major or minor or instructor permission.

PHI 3551 Thought Experiments 3 Credits
Grading Scheme: Letter Grade
Much philosophical work depends on thought experiments in which we evaluate merely hypothetical situations; examine several such experiments to gain insight about their general character and proper use. Cases may include Descartes "evil genius," Searle's "Chinese Room" example, and Gettier's examples of true, justified belief without knowledge.
Prerequisite: sophomore or higher standing or PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or philosophy major or minor or instructor permission.

PHI 3553 The Self, Reason and Ethics 3 Credits
Grading Scheme: Letter Grade
Examines rationality, morality, and personhood. What does it mean to be the same person over time? How is personal identity related to the rationality of self-interest or the rationality of morality? Topics may include the nature of reasons, self-undertaking theories, reductionism about people, population ethics, and more.
Prerequisite: sophomore or higher standing or PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or philosophy major or minor or instructor permission.

PHI 3633 Bioethics 3 Credits
Grading Scheme: Letter Grade
The ethical issues that arise in medicine and biotechnology.

PHI 3641 Ethics and Innovation 3 Credits
Grading Scheme: Letter Grade
Addresses ethical issues related to data science, algorithmic decision-making, and artificial intelligence. Pairs theoretical discussions of ethics, economics, and policy-making with concrete issues in emerging technologies.
Prerequisite: Sophomore standing or higher standing or PHI 2100 or PHI 2630 or PHM 2204 or philosophy major or minor or innovation academy minor or instructor permission.

PHI 3650 Moral Philosophy 3 Credits
Grading Scheme: Letter Grade
Analysis and criticism of various normative ethical theories such as egoism, utilitarianism, Kantianism, deontology and virtue ethics. (H)
Attributes: General Education - Humanities

PHI 3681 Ethics, Data, and Technology 3 Credits
Grading Scheme: Letter Grade
Examines the rights and responsibilities of those making such changes as well as the conditions that facilitate responsible decision making. (H, WR4)

PHI 3695 Philosophy and Death 3 Credits
Grading Scheme: Letter Grade
Focuses on critical assessment of arguments regarding such topics as immortality, immortality is desirable or even conceivable, and the ethics of ending and starting lives. (H)

PHI 3699 Ethics and Innovation 3 Credits
Grading Scheme: Letter Grade
Examines rationality, morality, and personhood. What does it mean to be the same person over time? How is personal identity related to the rationality of self-interest or the rationality of morality? Topics may include the nature of reasons, self-undertaking theories, reductionism about people, population ethics, and more.
Prerequisite: sophomore or higher standing or PHI 2010 or PHI 2100 or PHI 2630 or PHM 2204 or philosophy major or minor or instructor permission.

PHI 3699 Philosophy and Death 3 Credits
Grading Scheme: Letter Grade
The ethical issues that arise in medicine and biotechnology.
PHI 3700 Philosophy of Religion 3 Credits  
Grading Scheme: Letter Grade  
Studies problems in philosophical theology, including the nature of God, arguments for God's existence, the problem of evil and the relation between faith and reason, from both historical and contemporary perspectives. (H) (WR)  
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement  

PHI 3930 Special Topics 3 Credits  
Grading Scheme: Letter Grade  
Check the department office for a course description for the offered term.  

PHI 4220 Philosophy of Language 3 Credits  
Grading Scheme: Letter Grade  
Variable topics study the major topics and concepts of the philosophy of language, including truth and meaning, speech act theory, reference and descriptions, names and demonstratives, propositional attitudes and indirect discourse, the nature of language and metaphor.  
Prerequisite: a 3000-level philosophy course or department permission.  

PHI 4320 Philosophy of Mind 3 Credits  
Grading Scheme: Letter Grade  
Studies the central problems of the philosophy of mind, including the mind-body problem, the nature of mental states, intentionality and representation, and sensation and consciousness.  
Prerequisite: a 3000-level philosophy course or department permission.  

PHI 4542 Philosophy of Space and Time 3 Credits  
Grading Scheme: Letter Grade  
Studies the nature of space and time: the concepts of substantival space and time (or space-time), relational space and time (or space-time), dynamical space-time, conventional space-time metrics, causal reduction of time, time's arrow, dimensionality of space (or space-time). The approach, historical or issue-oriented, and the required amount of knowledge of physics varies with the instructor.  
Prerequisite: a 3000-level philosophy course or department permission.  

PHI 4662 Ethical Theory 1 3 Credits  
Grading Scheme: Letter Grade  
Advanced topics in moral theory, including cognitivism, obligations and permissions, moral reasons and moral epistemology.  
Prerequisite: a 3000-level philosophy course or department permission.  

PHI 4905 Individual Work 1-3 Credits  
Grading Scheme: Letter Grade  
Registration requires advance application to the undergraduate coordinator.  
Prerequisite: upper-division students with 12 credits of philosophy and department permission.  

PHI 4911 Undergraduate Research in Philosophy 0-3 Credits  
Grading Scheme: Letter Grade  
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.  

PHI 4912 Honors Project 3 Credits  
Grading Scheme: Letter Grade  
Open to qualified philosophy majors upon application to the undergraduate coordinator.  

PHI 4930 Special Topics 3 Credits  
Grading Scheme: Letter Grade  
Refer to the department website for a course description for the offered term.  
Prerequisite: a 3000-level philosophy course or department permission.  

PHI 4956 Overseas Studies 1-15 Credits  
Grading Scheme: Letter Grade  
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.  
Prerequisite: undergraduate advisor permission.  

PHM 2204 Social Issues and Political Thought 3 Credits  
Grading Scheme: Letter Grade  
Introduces the classic works in the fundamental issues of political philosophy. Topics include comparative systems, authority and freedom.  
(H) (WR)  
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement  

PHM 3032 Ethics and Ecology 3 Credits  
Grading Scheme: Letter Grade  
Normative study of the relationships between human beings and the environment, with special emphasis on land and resources. (H)  
Attributes: General Education - Humanities  

PHM 3123 Feminist Philosophy 3 Credits  
Grading Scheme: Letter Grade  
Analyzes theoretical and practical issues in feminism such as radical, liberal and socialist perspectives, gender roles and equal opportunity; an elective in the women's studies program. (H and D)  
Attributes: General Education - Diversity, General Education - Humanities  

PHM 3127 Race and Philosophy 3 Credits  
Grading Scheme: Letter Grade  
Examines the concept of race and how it has been used, both theoretically and practically, looking at both historical and contemporary works. Topics may include the definition of "race", the political use and abuse of the term, and its role in one's sense of identity.  

PHM 3202 Political Philosophy 3 Credits  
Grading Scheme: Letter Grade  
Studies philosophical problems of political freedom, justice, obligation and coercion. (H) (WR)  
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement  

PHM 3400 Introduction to Philosophy of Law 3 Credits  
Grading Scheme: Letter Grade  
Introduces philosophical issues in legal thought and practice; for pre-law majors and serves as an introduction to PHM 4440 Philosophy of Law, the course introduces the types of philosophical issues that the major schools of legal thought have attempted to resolve. (H) (WR)  
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement  

PHM 3600 Philosophy of Education 3 Credits  
Grading Scheme: Letter Grade  
Examines questions about the nature, value, and proper role of education, with special attention to schooling in wealthy modern democracies. Topics may include the purposes of education, the value of having an education, educational authority, the distribution of educational opportunity, and the special role of higher education. (H)  
Prerequisite: sophomore or higher standing or PHI 2100 or PHI 2630 or PHI 2204 or philosophy major or minor.  
Attributes: General Education - Humanities
PHP 3786 Existentialism 3 Credits
Grading Scheme: Letter Grade
Examines the existentialist movement in philosophy through readings from such figures as Kierkegaard, Nietzsche and Sartre. (H)
Attributes: General Education - Humanities

PHP 4784 Analytic Philosophy 3 Credits
Grading Scheme: Letter Grade
Studies the major philosophers, themes and developments of the analytic tradition, from Frege, Russell, Moore and Wittgenstein to Quine, Austin and contemporary figures.
Prerequisite: a 3000-level philosophy course or department permission.

REL 4177 Special Topics in Religion and Ethics 3 Credits
Grading Scheme: Letter Grade
Special topics in religion and ethics. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

---

**Physics**

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

**Department Information**

The Department of Physics is making strides toward becoming one of the premier physics departments in the United States. With active groups in astrophysics, biological physics, condensed matter/materials physics, and elementary particle physics, undergraduate and graduate students participate in cutting-edge research that prepares them for successful careers in a wide variety of fields.

**Curriculum**

- Combination Degrees
- Physics
- Physics Minor

**Courses**

IDH 3931 Interdisciplinary Junior Honors 1-3 Credits
Grading Scheme: Letter Grade
Special topics restricted to those in the university-wide honors program. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

ISC 2400L Cross-Disciplinary Laboratory 1 3 Credits
Grading Scheme: Letter Grade
First course in a two-semester inquiry-based laboratory focusing on major themes and concepts in biology, chemistry and physics with an emphasis on their integrated applications in modern, quantitative research. Satisfies course requirements for BSC 2011L, CHM 2045L and PHY 2053L.
Prerequisite: high school algebra or equivalent. Degree-seeking students only.

ISC 2401L Cross-Disciplinary Laboratory 2 3 Credits
Grading Scheme: Letter Grade
Second course in a two-semester inquiry-based laboratory focusing on major themes and concepts in biology, chemistry and physics with an emphasis on their integrated applications in modern, quantitative research. Satisfies course requirements for BSC 2011L, CHM 2046L and PHY 2054L.
Prerequisite: ISC 2400L and MAC 1147 or equivalent;
Corequisite: BSC 2010 and CHM 2047 or CHM 2095.

ISC 3523C Research Methods 3 Credits
Grading Scheme: Letter Grade
The tools scientists use to solve scientific problems, including use of experiments to answer scientific questions, design of experiments to reduce systematic and random errors, use of statistics to interpret experimental results and deal with sampling errors, mathematical modeling of scientific phenomena and oral presentation of scientific work.
Prerequisite: UFTeach Step 1 and one year of college biology, chemistry or physics.

PHY 1033C Discovering Physics 3 Credits
Grading Scheme: Letter Grade
The fundamental concepts of physics that shape a scientist's view of the laws of nature. A laboratory experience is included to emphasize the importance of measurement for the testing of scientific hypotheses. (P)
Attributes: General Education - Physical Science

PHY 2004 Applied Physics 1 3 Credits
Grading Scheme: Letter Grade
Emphasizes the practical applications of basic physics to a range of professions, including architecture, agricultural sciences, building construction and forest resources. Mechanics of motion, forces, energy, momentum, wave motion and heat. (P)
Prerequisite: algebra and trigonometry.
Attributes: General Education - Physical Science

PHY 2004L Laboratory for Applied Physics 1 1 Credit
Grading Scheme: Letter Grade
Laboratory experience illustrating the practical applications of basic physics, including the mechanics of motion, forces, energy, momentum, wave motion and heat. (P)
Attributes: General Education - Physical Science

PHY 2005 Applied Physics 2 3 Credits
Grading Scheme: Letter Grade
Continuation of the applied physics sequence. Electric and magnetic fields; geometrical, wave and applied optics; and modern and nuclear physics. (P)
Prerequisite: PHY 2004.
Attributes: General Education - Physical Science
PHY 2005L Laboratory for Applied Physics 2 1 Credit
Grading Scheme: Letter Grade
Laboratory experience illustrating the practical applications of electric and magnetic fields geometrical, wave and applied optics; and modern and nuclear physics. (P)
Attributes: General Education - Physical Science

PHY 2020 Introduction to Principles of Physics 3 Credits
Grading Scheme: Letter Grade
Fundamental principles of physics in mechanics, electricity and modern physics as applied to conservation laws. An in-depth analysis of selected topics with lecture demonstration, films and other teaching aids. (P)
Prerequisite: high school algebra and trigonometry or the equivalent.
Attributes: General Education - Physical Science

PHY 2048 Physics with Calculus 1 3 Credits
Grading Scheme: Letter Grade
The first of a two-semester sequence of physics for scientists and engineers. The course covers Newtonian mechanics and includes motion, vectors, Newton's laws, work and conservation of energy, systems of particles, collisions, equilibrium, oscillations and waves. (P)
Corequisite: MAC 2312 or the equivalent.
Attributes: General Education - Physical Science

PHY 2048L Laboratory for Physics with Calculus 1 1 Credit
Grading Scheme: Letter Grade
Laboratory experience for PHY 2048 illustrating the practical applications of Newtonian mechanics. (P)
Prerequisite: Degree-seeking students only.
Corequisite: PHY 2048 or the equivalent.
Attributes: General Education - Physical Science

PHY 2049 Physics with Calculus 2 3 Credits
Grading Scheme: Letter Grade
The second of a two-semester sequence of physics for scientists and engineers. Content includes Coulomb's law, electric fields and potentials, capacitance, currents and circuits, Ampère's law, Faraday's law, inductance, Maxwell's equations, electromagnetic waves, ray optics, interference and diffraction. (P)
Prerequisite: PHY 2048 and MAC 2312;
Corequisite: MAC 2313.
Attributes: General Education - Physical Science

PHY 2049L Laboratory for Physics with Calculus 2 1 Credit
Grading Scheme: Letter Grade
Laboratory experience for PHY 2049 illustrating the practical applications of Coulomb's law, electric fields and potentials, capacitance, currents and circuits, Ampère's law, Faraday's law, inductance, Maxwell's equations, electromagnetic waves, ray optics, interference and diffraction. (P)
Prerequisite: Degree-seeking students only.
Corequisite: PHY 2049 or the equivalent.
Attributes: General Education - Physical Science

PHY 2053 Physics 1 4 Credits
Grading Scheme: Letter Grade
First semester of introductory physics de-emphasizing calculus. Structure and properties of matter; kinematics, dynamics and statics; momentum and energy; rotation, elasticity; vibration; fluids; temperature and expansion, heat transfer, thermal behavior of gases; wave motion and sound. (P)
Prerequisite: high school algebra and trigonometry, or the equivalent. Degree-seeking students only.
Attributes: General Education - Physical Science

PHY 2053L Laboratory for Physics 1 1 Credit
Grading Scheme: Letter Grade
Laboratory experience for PHY 2053 illustrating the practical applications of the structure and properties of matter; kinematics, dynamics and statics; momentum and energy; rotation, elasticity; vibration; fluids; temperature and expansion, heat transfer, thermal behavior of gases; wave motion and sound. (P)
Corequisite: PHY 2053 or the equivalent. Degree-seeking students only.
Attributes: General Education - Physical Science

PHY 2054 Physics 2 4 Credits
Grading Scheme: Letter Grade
Second semester of introductory physics de-emphasizing calculus. Electric charge, fields and circuits; electromagnetism, applied electricity; geometrical optics, wave optics, applied optics; electrons and photons; atoms and nuclei. (P)
Prerequisite: PHY 2053 or the equivalent. Degree-seeking students only.
Attributes: General Education - Physical Science

PHY 2054L Laboratory for Physics 2 1 Credit
Grading Scheme: Letter Grade
Laboratory experience for PHY 2054 illustrating the practical applications of electric charge, fields and circuits; electromagnetism, applied electricity; geometrical optics, wave optics, applied optics; electrons and photons; atoms and nuclei. (P)
Corequisite: PHY 2054 or the equivalent. Degree-seeking students only.
Attributes: General Education - Physical Science

PHY 2056 Enriched Physics with Calculus 1 3 Credits
Grading Scheme: Letter Grade
First of the enriched sequence for physics majors and others wishing a deeper understanding of mechanics, kinematics, conservation laws, harmonic motion, central forces and special relativity. (P)
Prerequisite: Degree-seeking students only;
Corequisite: MAC 2312 or the equivalent.
Attributes: General Education - Physical Science

PHY 2060 Enriched Physics with Calculus 2 1 Credit
Grading Scheme: Letter Grade
Second course of the enriched sequence studying electricity and magnetism, including electrostatics, Gauss's Law, potentials, vector analysis, Laplace's equation, conductors and insulators, circuits, magnetism, Maxwell's equations and E and M fields in matter. (P)
Prerequisite: PHY 2060 or instructor permission;
Corequisite: MAC 2313 or the equivalent.
Attributes: General Education - Physical Science
PHY 2064L Accelerated Physics with Calculus Laboratory 2 Credits
Grading Scheme: Letter Grade
A cross-disciplinary, inquiry-based curriculum that focuses on major themes and concepts in physics, with an emphasis on their application in modern, quantitative life sciences research. Equivalent to PHY 2048L and PHY 2049L, or PHY 2060L and PHY 2061L.
Prerequisite: PHY 2048 or PHY 2060;
Corequisite: PHY 2049 or PHY 2061.

PHY 2464 The Physical Basis of Music 3 Credits
Grading Scheme: Letter Grade
Vibration and wave behavior as applied to musical instruments; and studies of the generation and reception of sound waves, musical intervals and scales, musical acoustics and musical electronics. (P)
Prerequisite: high school algebra and trigonometry, or the equivalent.
Attributes: General Education - Physical Science

PHY 3063 Enriched Modern Physics 3 Credits
Grading Scheme: Letter Grade
Theory of relativity and introduction to quantum theory. Course includes wave mechanics, quantum theory of solids, nuclear and particle physics and cosmology.
Prerequisite: PHY 2061 or instructor permission, and MAP 2302 or the equivalent.

PHY 3101 Introduction to Modern Physics 3 Credits
Grading Scheme: Letter Grade
Modern and atomic physics, relativity, wave phenomena and the basis of quantum physics. (P)
Prerequisite: PHY 2049 or the equivalent.
Attributes: General Education - Physical Science

PHY 3221 Mechanics 1 3 Credits
Grading Scheme: Letter Grade
First part of PHY 3221/4222 sequence in classical mechanics emphasizing matrices, vector calculus, Newtonian mechanics, frames of reference, conservation laws and harmonic oscillation. (P)
Prerequisite: PHY 2049 or the equivalent;
Corequisite: MAP 2302 or the equivalent.
Attributes: General Education - Physical Science

PHY 3323 Electromagnetism 1 3 Credits
Grading Scheme: Letter Grade
First part of the PHY 3323/4324 sequence in electromagnetism. Course covers static electric and magnetic fields, electric circuits, Maxwell's equations, radiation and propagation of electromagnetic waves. (P)
Prerequisite: (PHY 3221 or PHY 2061, or the equivalent) or (MAP 2302 or the equivalent).
Attributes: General Education - Physical Science

PHY 3400 Light, Color and Holography 3 Credits
Grading Scheme: Letter Grade
Demonstrations and discussion of commonly observed phenomena of light, color and vision, such as rainbows, sunsets, the blue sky and perceptual illusions. A study of the principles of holography and applications. (P)
Attributes: General Education - Physical Science

PHY 3513 Thermal Physics 1 3 Credits
Grading Scheme: Letter Grade
First part of the PHY 3513/4523 sequence that includes treatment of classical thermodynamics, including fundamental postulates, entropy and equations of states; thermodynamic equilibrium and potentials; Maxwell relations and phase transitions. (P)
Prerequisite: PHY 2049 or PHY 2061.
Attributes: General Education - Physical Science

PHY 3840L Building Scientific Equipment 2 Credits
Grading Scheme: Letter Grade
Hands-on experience in the mechanical fabrication of research apparatus. Topics include shop drawings, properties of materials, metal cutting (lathe and milling-machine operation) and metal joining.
Prerequisite: PHY 2061 or PHY 3101, or the equivalent.

PHY 4222 Mechanics 2 3 Credits
Grading Scheme: Letter Grade
Second part of the sequence in classical mechanics studying rigid body mechanics; motion in a noninertial frame, Lagrangian and Hamiltonian dynamics; elements of fluid mechanics; and relativity theory.
Prerequisite: PHY 3221 and differential equations.

PHY 4324 Electromagnetism 2 3 Credits
Grading Scheme: Letter Grade
The second in the PHY 3323/4324 electromagnetism sequence studying static electric and magnetic fields, electric circuits, Maxwell's equations, radiation and propagation of electromagnetic waves.
Prerequisite: PHY 3323 and differential equations.

PHY 4424 Optics 1 3 Credits
Grading Scheme: Letter Grade
The phenomena of reflection, refraction, dispersion, interference, diffraction and polarization of light.
Prerequisite: PHY 3323 or instructor permission.

PHY 4523 Statistical Physics 3 Credits
Grading Scheme: Letter Grade
Second of the PHY 3513/4523 sequence. Introduction to statistical physics and continued study of classical thermodynamics, including fundamental postulates, entropy and equations of states; thermodynamic equilibrium and potentials; Maxwell relations and phase transitions.
Prerequisite: PHY 3513 and PHY 4604; differential equations.

PHY 4550 Cryogenics 3 Credits
Grading Scheme: Letter Grade
History of cryogenics, air separation, liquefaction of permanent gases and natural gases, and superconducting devices and electronics.
Prerequisite: PHY 3101 or the equivalent;
Corequisite: PHY 3513 or the equivalent.

PHY 4604 Introductory Quantum Mechanics 1 3 Credits
Grading Scheme: Letter Grade
First of the PHY 4604/4605 sequence. Basic concepts of quantum mechanics with applications in atomic and nuclear physics and condensed matter. (P)
Prerequisite: (PHY 3101 or PHY 3063) and MAP 2302 or equivalent.
Attributes: General Education - Physical Science

PHY 4605 Introductory Quantum Mechanics 2 3 Credits
Grading Scheme: Letter Grade
Second of the PHY 4604/4605 quantum mechanics sequence with applications in atomic and nuclear physics and condensed matter.
Prerequisite: PHY 4604.

PHY 4802L Laboratory Physics 1 3 Credits
Grading Scheme: Letter Grade
Electronics in the laboratory.
Corequisite: PHY 3323 or the equivalent.

PHY 4803L Laboratory Physics 2 3 Credits
Grading Scheme: Letter Grade
Current laboratory techniques.
Prerequisite: PHY 4604 and PHY 4802L.
Plant Pathology

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.

More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

PLP 2000 Plants, Plagues and People 3 Credits
Grading Scheme: Letter Grade
Biology and history of the human species for non-science majors. A chronological presentation from the origin of life to the present with emphasis on the impact that plants, animals and diseases have had and are having on human civilizations. (B or H)
Attributes: General Education - Biological Science, General Education - Humanities
PLP 2060 Fungus among Us: Mushrooms, Molds and Civilization 3 Credits
Grading Scheme: Letter Grade
Role of fungi in human affairs, including their historical use as food or medicine or in religious activities. Also includes their current impact on society as pathogens of plants and animals, in the deterioration of food and fabric and in the synthesis of important drugs. (B)
Attributes: General Education - Biological Science
PLP 3002C Fundamentals of Plant Pathology 4 Credits
Grading Scheme: Letter Grade
Principles and practices of plant pathology. (B)
Prerequisite: BOT 2010C or BSC 2010.
Attributes: General Education - Biological Science
PLP 3103C Control of Plant Diseases 3 Credits
Grading Scheme: Letter Grade
Principles and practice of plant disease control through cultural practices, competing microorganisms and chemical pesticides. Offered every other year.
Prerequisite: PLP 3002C.
PLP 3230 Survey of Plant Pathogens 3 Credits
Grading Scheme: Letter Grade
Introduces the main groups of pathogens that cause plant disease, how they spread and affect plants and how they are identified and managed. Also includes specific examples of how plant pathogens have changed the course of human history and culture.
Prerequisite: BOT 2010C or BSC 2010.
PLP 4104 Applied Plant Disease Management 3 Credits
Grading Scheme: Letter Grade
Summarizes the methods and strategies used to manage plant disease by targeting vulnerable points in the pathogen life cycle and disease epidemic. Utilize knowledge of organismal biology, epidemiology, management chemistry, and economics to develop strategies for managing plant diseases.
Prerequisite: BSC 2010/BSC 2010L or BOT 2010C and BSC 2011/BSC 2011L or BOT 2011C.
PLP 4222C Introduction to Plant Virology 3 Credits
Grading Scheme: Letter Grade
Introduces plant virology by covering the principles of plant virology, symptomatology, virus groups, structure, function, spread, detection and control.
Prerequisite: PLP 3002C and BCH 3025.
PLP 4242C Introduction to Plant Bacteriology 3 Credits
Grading Scheme: Letter Grade
Discusses the main characteristics and properties of bacteria that cause disease in plants with emphasis on problems unique to plant pathology. Offered every other year.
Prerequisite: MCB 3020;
Corequisite: PLP 3002C.
PLP 4260C Introduction to Plant Pathogenic Fungi 3 Credits
Grading Scheme: Letter Grade
Introduces the groups of fungi that cause disease in plants, including morphology, taxonomy, physiology, genetics and control of these fungi.
Prerequisite: PLP 3002C or PLP 4653C.

PLP 453C Basic Fungal Biology 4 Credits
Grading Scheme: Letter Grade
Introduces the groups of fungi and fungi-like organisms. Discusses the structure, development, physiology, genetics, ecology and systematics of fungi.
Prerequisite: (BSC 2010 and BSC 2011) or PLP 3002C.

PLP 4900 Supervised Extension Experience in Plant Pathology 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

PLP 4905 Problems in Intermediate Plant Pathology 1-4 Credits
Grading Scheme: Letter Grade
Individual study and research in areas of special interest to undergraduates whose major field is plant pathology.
Prerequisite: PLP 3002 or the equivalent.

PLP 4911 Supervised Research in Plant Pathology 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application. (S-U)

PLP 4915 Honors Thesis Research in Plant Pathology 0-3 Credits
Grading Scheme: S/U
Independent research in plant pathology leading to an honors thesis; mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

PLP 4931 Seminar in Plant Pathology 1 Credit
Grading Scheme: Letter Grade
Discusses current concepts and procedures related to the practice of plant pathology as a profession.
Prerequisite: PLP 3002C.

PLP 4932 Special Topics in Plant Pathology 1-3 Credits
Grading Scheme: Letter Grade
Special topics in plant pathology.
Prerequisite: sophomore standing or higher.

PLS 4941 Practical Work Experience 1-3 Credits
Grading Scheme: S/U
Practical, hands-on experience in the plant sciences through a paid internship in the industry. This must be a new experience and related to the student’s field of study. One month of full-time work is required for each credit.
Prerequisite: Plant Science major of junior standing or higher.

Polish | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information
Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

- African Languages
- Arabic
- Arabic Language and Literature Minor
- Chinese
- Combination Degrees
- Dual Languages
- East Asian Languages and Literatures Minor
- Foreign Languages and Literatures
- French and Francophone Studies
- French and Francophone Studies Minor
- German
- German Minor
- German Minor UF Online
- Hebrew
- Hebrew Minor
- Italian
- Italian Studies Minor
- Japanese
- Russian
- Russian Minor

Courses
PLT 2560 Poland through Movies 4 Credits
Grading Scheme: Letter Grade
Introductory survey of more than one thousand years of Polish history, illustrated on film.

PLT 3520 Polish Cinema 4 Credits
Grading Scheme: Letter Grade
Examination of principal developments and major directors of modern Polish cinema with emphasis on the visual and narrative techniques that distinguish Polish cinema from Hollywood and other national cinemas. Taught in English. (Cross-listed with ENG 4135.)

PLT 3930 Special Topics in Polish Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics in Polish literature, culture and society. Taught in English.
**Political Science**

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.

More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

**Department Information**

The Department of Political Science provides a high quality educational program for undergraduate students as well as a rigorous honors program (http://sites.clas.ufl.edu/polisci/undergraduate/programs/undergraduate-honors/). The department also offers a highly selective graduate education ranging from innovative M.A. programs to a comprehensive Ph.D. program. Website (https://polisci.ufl.edu/)

Map (http://campusmap.ufl.edu/#/index/0007)

**Curriculum**

- Combination Degrees
- International Relations Certificate
- Political Campaigning Certificate
- Political Science
- Public Affairs Certificate

**Courses**

**CPO 2001 Comparative Politics 3 Credits**

Grading Scheme: Letter Grade

The classification of political systems according to institutional and developmental characteristics. Causes and costs of political stability and instability. Comparison relates to contemporary political institutions and processes in specific countries. (S and N)

Attributes: General Education - International, General Education - Social Science

**CPO 3044 Democracy in Dark Times 3 Credits**

Grading Scheme: Letter Grade

Democratic decline across several counties and regions of the world. Addresses periods of democratic decline in regions in which democracy is expected, as well as in countries with histories of authoritarianism. Themes include Nazism, fascism, socialist and/or populist revolution, as well as democratic recovery in some cases.

Prerequisite: CPO 2001.

**CPO 3103 Western European Politics 3 Credits**

Grading Scheme: Letter Grade

Comparative analysis of the government and politics of the major Western European countries. Emphasizes party systems and the social bases of politics in industrialized societies. (S and N)

Attributes: General Education - International, General Education - Social Science

**CPO 3204 African Politics 3 Credits**

Grading Scheme: Letter Grade

African nationalism, political movements and governments in the African states. (S and N) (WR)

Prerequisite: CPO 2001.

Attributes: General Education - International, General Education - Social Science, Satisfies 6000 Words of Writing Requirement

**CPO 3303 Introduction to Latin American Politics 3 Credits**

Grading Scheme: Letter Grade

Introductory overview of political patterns and political behavior in Latin America within comparative and developmental perspectives. Emphasizes the social, economic and political factors shaping contemporary political structures and processes. (S and N)

Attributes: General Education - International, General Education - Social Science

**CPO 3403 Politics of the Middle East 3 Credits**

Grading Scheme: Letter Grade

Focuses on key political and social processes in the modern Middle East. Variable themes in comparative politics are addressed, such as nationalism, state formation, women and politics, religious resurgence, feminism and law. (S and N)

Prerequisite: CPO 2001.

Attributes: General Education - International, General Education - Social Science

**CPO 3410 Topics in Israeli Politics and Society 3 Credits**

Grading Scheme: Letter Grade

Addresses Israeli politics and society from a Comparative Politics or an International Relations perspective, depending upon instructor. May address Israeli politics at the grassroots, elite, societal, domestic, international, or micro-levels. Themes may include social movements, institutional configuration, religious-secular dynamics, immigration, ethnic politics, gender, foreign relations, international organizations, or other issues.
CPO 3614 Eastern European Politics 3 Credits
Grading Scheme: Letter Grade
Comparative analysis of the formal structures of government and politics of Eastern European countries; the actual operation of their political systems and the factors that influenced their transitions to democracy and market-based economies. (S and N)
Prerequisite: CPO 2001.
Attributes: General Education - International, General Education - Social Science

CPO 3633 Politics in Russia 3 Credits
Grading Scheme: Letter Grade
Analyzes the formal structures of government and politics in Russia, the actual operation of its political system and the factors that influenced the transition to democracy and a market-based economy. (S and N)
Prerequisite: CPO 2001.
Attributes: General Education - International, General Education - Social Science

CPO 3700 Comparative Law and Courts 3 Credits
Grading Scheme: Letter Grade
Addresses the politics of law and courts in comparative perspective in regions and country cases around the world. Regions and country cases vary with instructor. May include themes such as: judicial power and politics, judicial independence, rights revolutions, legal mobilization, legal profession, legal culture, and/or constitutional development in comparative perspective.
Prerequisite: CPO 2001.

CPO 3713 Women and Politics in the Modern Middle East 3 Credits
Grading Scheme: Letter Grade
Examines women and gender in the politics of the modern Middle East from the late 19th century through the 1990s.

CPO 4000 Selected Studies in Comparative Politics 3 Credits
Grading Scheme: Letter Grade
Variable topics in comparative politics; precise course content will be announced in advance. (S and N)
Attributes: General Education - International, General Education - Social Science

CPO 4034 Politics in Developing Nations 3 Credits
Grading Scheme: Letter Grade
Introduces politics in third world states, an examination of common problems and the various strategies for dealing with them.
Prerequisite: CPO 2001.

CPO 4042 Politics in Post-Industrial Societies 3 Credits
Grading Scheme: Letter Grade
Comparative analysis of advanced industrial states with emphasis on diverse patterns of economic, social and political development as determinants of current political structures and policies.

CPO 4053 Politics under Authoritarianism 3 Credits
Grading Scheme: Letter Grade
Investigates the sources of durable authoritarianism in Asia and around the world and contrasts the survival of dictatorships with successful democratic transitions.
Prerequisite: CPO 2001.

CPO 4072 Comparative Elections 3 Credits
Grading Scheme: Letter Grade

CPO 4133 Canadian Politics 3 Credits
Grading Scheme: Letter Grade
Surveys the political culture, constitutional foundations, public opinion and participation, and political institutions in Canada. Focus on the challenges to constitutional foundations, Canadian nationalism, federalism, parliamentary supremacy and the party system. (S)
Prerequisite: CPO 2001.
Attributes: General Education - Social Science

CPO 4145 Irish Government and Politics 3 Credits
Grading Scheme: Letter Grade
Intensive analysis of the contemporary history, politics and government of Ireland. The course examines the foundations of the state and society from an historical and political-cultural perspective.
Prerequisite: POS 2041.

CPO 4194 Islam and European Politics 3 Credits
Grading Scheme: Letter Grade
Introduces the variety of contacts that Islam, as a religion and system of thought and doctrine, has had on various strands of European politics since early Muslims engaged in translating, commenting on and expanding the Greek systems of thought.
Prerequisite: CPO 2001.

CPO 4302 Latin American Political Economy 3 Credits
Grading Scheme: Letter Grade
Introduces the Latin American political economy. Students acquire the analytical tools to understand the relationship between politics and economics in the shaping of public policies in the region.
Prerequisite: CPO 2001 or LAS 2001.

CPO 4306 Contemporary Problems in Latin American Politics 3 Credits
Grading Scheme: Letter Grade
Analyzes major themes and issues in the study of Latin American politics: democratic transitions, economic restructuring, social movements, civil-military relations and political violence. (WR)
Prerequisite: CPO 3303 or the equivalent experience.
Attributes: Satisfies 6000 Words of Writing Requirement

CPO 4384 Argentina and the Politics of Memory 3 Credits
Grading Scheme: Letter Grade
Politics of Argentina from the 19th century to the present with special focus on Peronism and the rise of democracy.
Prerequisite: CPO 2001.

CPO 4401 Arab-Israeli Conflict 3 Credits
Grading Scheme: Letter Grade
The Arab-Israeli conflict from the 19th century through the 1990s and into the current century.

CPO 4721 The Politics of Ethnic Conflict 3 Credits
Grading Scheme: Letter Grade
Introduces the systematic study of communal violence, to the major concepts in conflict studies, to the main approaches to studying conflict and to many of the major episodes of communal violence in contemporary Asia and beyond.
Prerequisite: CPO 2001.
CPO 4722 Latin American and Caribbean Migration to the United States 3 Credits
Grading Scheme: Letter Grade
Provides a clearer understanding and appreciation of Latin American and Caribbean migration to the United States. After a general introduction to some of the key theoretical concepts and the historical processes underlying immigration to the U.S., focuses in depth on selected immigrant groups from Latin America and the Caribbean.
Prerequisite: sophomore status or above.

CPO 4727 Judaism and Politics 3 Credits
Grading Scheme: Letter Grade
Examines how Jews govern themselves (often referred to as communal governance) and how Jews relate to the political system where they live. Explores the development of the Jewish political tradition in the Biblical period, the Middle Ages, the early modern period and the modern era.
Prerequisite: POS 2041.

CPO 4731 Democratization in Global Perspective 3 Credits
Grading Scheme: Letter Grade
Introduces literature on democratization, including familiarization with important theoretical and conceptual issues and empirical data on major regions of the world.
Prerequisite: CPO 2001.

CPO 4793 Environmental Politics in the Global South 3 Credits
Grading Scheme: Letter Grade
Examines the politics of environmental degradation in countries of the global south, a.k.a. the developing world, through case studies of Amazonian deforestation in Brazil, international development projects in India and oil drilling in the Niger Delta.
Prerequisite: sophomore standing or higher.

CPO 4911 Undergraduate Research in Comparative Politics 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Comparative Politics. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Comparative Politics.

INR 2001 Introduction to International Relations 3 Credits
Grading Scheme: Letter Grade
Examines philosophical, theoretical and methodological approaches to the student of international relations, the interaction of major global actors in the post-World War II and post-Cold War eras, the structure of the global economy and various issues such as arms proliferation and conflict associated with ethnicity and nationalism. (S and N)
Attributes: General Education - International, General Education - Social Science

INR 3034 Politics of the World Economy 3 Credits
Grading Scheme: Letter Grade
International trade, finance and investment issues in the global political economy and their importance for advanced industrial and less-developed countries.
Prerequisite: INR 2001.

INR 3084 Culture and World Politics 3 Credits
Grading Scheme: Letter Grade
Contending conceptualizations of culture and its relations to international politics. Examines several questions on the relationship between national/group identity and international politics: Do diplomatic alliances reflect cultural/ideological affinity among allies? What is the relationship between the self-image of the West and Western imperialism?
Prerequisite: INR 2001.
INR 4204 Comparative Foreign Policy 3 Credits
Grading Scheme: Letter Grade
Various theoretical approaches to explaining foreign policy, with special attention to the foreign policies of selected countries other than the United States.
Prerequisite: INR 2001 and junior or senior standing.

INR 4244 International Politics of Latin America 3 Credits
Grading Scheme: Letter Grade
Analyzes the international politics of Latin America, including relations with the United States and non-hemispheric powers as well as the foreign policies of Latin American states vis-à-vis each other. (WR)
Prerequisite: INR 2001 or advanced standing in Latin American studies.
Attributes: Satisfies 6000 Words of Writing Requirement

INR 4303 The Making of American Foreign Policy 3 Credits
Grading Scheme: Letter Grade
Examines the principal factors influencing the formulation of U.S. foreign policy, including the international environment, information processing, personality factors, political culture, decision-makers and decision making. Consideration is also given to the institutional setting, including the President, Congress and public opinion. (S)
Prerequisite: INR 2001 or instructor permission.
Attributes: General Education - Social Science

INR 4350 International Environmental Relations 3 Credits
Grading Scheme: Letter Grade
Considers the special problems posed by environmental collective action for international policymakers, some of the primary actors and organizations involved in addressing environmental problems and selected international environmental issues, such as global warming, ozone depletion and rain forest destruction.
Prerequisite: INR 2001.

INR 4531 Politics of the European Union 3 Credits
Grading Scheme: Letter Grade
Examines the primary structures, actors and processes of policy making in the European Union. Salient policy areas such as the single market, monetary union, agricultural policy and the potential for a common foreign and security policy are investigated.
Prerequisite: INR 2001.

INR 4684 Theories of International Ethics 3 Credits
Grading Scheme: Letter Grade
Introduces contemporary theories, debates and major scholarly traditions in the study of theories of international ethics. Students read and critique five books that present different debates on theory, method, policy and practice.
Prerequisite: INR 2001.

INR 4905 Individual Work 2-3 Credits
Grading Scheme: Letter Grade
Readings and discussion in advanced topics in International Relations.

INR 4911 Undergraduate Research in International Relations 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

INR 4931 Special Topics in International Relations 3 Credits
Grading Scheme: Letter Grade
Selected topics in International Relations.
Prerequisite: CPO 2001.

INR 4940 International Relations Internship 3 Credits
Grading Scheme: S/U
Internship with government, political parties, interest groups, lobbying organizations, international organizations, and private companies with 60% or more focus on international politics. Log and paper required. Only 3 hours of POS/PAD/INR 4940 credit may be counted towards the Political Science major and/or the International Relations Certificate.
Prerequisite: CPO 2001.

INR 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism for students to receive UF credit for international relations coursework taken in an approved study abroad program. Syllabuses of proposed coursework must be approved in advance by the departmental undergraduate coordinator.

POS 2032 Politics of Sustainability 3 Credits
Grading Scheme: Letter Grade
Examines the political determinants of societal efforts to achieve the competing objectives of sustainability; introduces key concepts and theories used by political scientists in studying sustainability. (S)
Attributes: General Education - Social Science

POS 2041 American Federal Government 3 Credits
Grading Scheme: Letter Grade
Basic principles of the Federal Constitution and Civil Rights. Political parties and the electoral process. The structure and machinery of the federal government, including Congress, the president and the judiciary. (S)
Attributes: General Education - Social Science

POS 2112 American State and Local Government 3 Credits
Grading Scheme: Letter Grade
State constitutions, political parties and politics. State legislatures, courts and chief executives. The functions of state, city and county government. (S)
Attributes: General Education - Social Science

POS 2122 State Politics 3 Credits
Grading Scheme: Letter Grade
Examines major problems and issues in American state politics. Emphasizes the political institutions and organizations, political behavior in state politics and the impact of state politics on policy making at national, state and local levels.
Prerequisite: POS 2041.
POS 3173 Southern Politics 3 Credits
Grading Scheme: Letter Grade
The changing politics of the South, including two-party development, urbanism, traditionalism and racism. (S) (WR)
Prerequisite: POS 2041.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

POS 3204 Political Behavior 3 Credits
Grading Scheme: Letter Grade
Examines institutional, social and psychological influences on mass political behavior, political sophistication, political participation, voter choice, partisanship, ideology and values. (S) (WR)
Prerequisite: POS 2041.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

POS 3233 Politics and Public Opinion 3 Credits
Grading Scheme: Letter Grade
Studies the definition and measurement of political opinion by polls and surveys, and the developmental character of opinions. Includes variables in opinion formation, experiments in opinion measurement and the relation of political opinion to public policy.
Prerequisite: POS 2041.

POS 3263 Policy, Ethics and Public Leadership 3 Credits
Grading Scheme: Letter Grade
Public leaders bear a special responsibility to make ethical decisions based on the enduring values of our democracy; develops awareness of leadership and ethical issues in the public sector. (S) (WR)
 Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

POS 3603 American Constitutional Law 3 Credits
Grading Scheme: Letter Grade
Studies and analyzes the Federal Constitution, with study and briefing of leading cases in constitutional law. (WR)
Prerequisite: POS 2041 and junior standing or higher.
Attributes: Satisfies 6000 Words of Writing Requirement

POS 3606 American Civil Liberties 3 Credits
Grading Scheme: Letter Grade
Discusses statutes and court decisions emphasizing First Amendment freedoms, equal protection of the law, due process and rights of defendants, implied rights, and the rights of women, juveniles, students, prisoners and the mentally ill. (WR)
Prerequisite: POS 2041.
Attributes: Satisfies 6000 Words of Writing Requirement

POS 3679 Trial Advocacy 1 Credit
Grading Scheme: Letter Grade
This trial advocacy course allows students to act as attorneys and/or witnesses in a simulated civil or criminal trial. Requires participation in the fall (when the team begins preparing the case) and spring (through the end of March when the mock trial season ends).
Prerequisite: instructor permission.

POS 4074 Latino Politics and Policy 3 Credits
Grading Scheme: Letter Grade
Examines the political behavior of Hispanic Americans in the United States. Students discuss political and public policy issues that impact Hispanic/Latino communities, such as affirmative action, the Chicano movement, English-only movements, immigration, the presidency, racial profiling and urban politics.
Prerequisite: sophomore standing or above.

POS 4077 African American Politics and Policy 3 Credits
Grading Scheme: Letter Grade
Examines the political behavior of African Americans in the United States. Discusses the civil rights movement, the black power movement, black political thought (conservatism, liberalism and nationalism), blacks and the court system, the role of blacks in political parties, blacks and the presidency and contemporary issues in African American politics.
Prerequisite: sophomore standing or above.

POS 4194 Politics beyond the Beltway 3 Credits
Grading Scheme: Letter Grade
Examines key issues of politics that exist at regional, state and local levels such as campaign finance reform, lobbying, political action committees, political corruption, racial and civil rights issues, and state and local relations.
Prerequisite: POS 2041.

POS 4202 Asian American Politics 3 Credits
Grading Scheme: Letter Grade
Examines the political behavior, attitudes and mobilization of Asian Americans in America by studying the racial stereotypes that plague them, their electoral behavior, the mobilizations tactics utilized in their communities, their response to violent crimes against members of their group and crime within their communities, Asian American conservatism, their views on affirmative action and the politics of Asian American women.
Prerequisite: POS 2041.

POS 4258 Politics in Fiction and Film 3 Credits
Grading Scheme: Letter Grade
Uses make-believe stories told in popular novels and Hollywood motion pictures to provide insights into the nature of real-life politics in the United States. (WR)
Prerequisite: POS 2041.
Attributes: Satisfies 6000 Words of Writing Requirement

POS 4264 Ethics in American Politics 3 Credits
Grading Scheme: Letter Grade
The problem of unethical behavior involving elected officials is a perennial concern in American politics. How do political ethics differ, if at all, from private ethics? What causes corruption? What have been the aims of good-government reformers?
Prerequisite: POS 2041.

POS 4275 Modern Political Campaigns 3 Credits
Grading Scheme: Letter Grade
Explores major issues associated with modern political campaigns. Presidential campaigns are a primary, but not exclusive, focus. Investigates why modern campaigns take the forms they do, and to place them in broader American and political contexts. This is not a course on how to run campaigns; it is a course on understanding campaign politics.
Prerequisite: POS 2041.

POS 4291 Religion and Politics in the United States 3 Credits
Grading Scheme: Letter Grade
Examines the role of religious institutions, values and communities in contemporary American political life. (WR)
Prerequisite: refer to the department.
Attributes: Satisfies 6000 Words of Writing Requirement
POS 4400 Politics of Modernity 3 Credits  
Grading Scheme: Letter Grade  
Focuses on the core elements of modernity: the transitions from traditional to modern political identities, from subsistence production to capitalism, and from less to more complex forms of political authority, whether democratic or not. This course also introduces advanced undergraduates in political science to the development of the central themes in comparative politics. 
Prerequisite: CPO 2001.

POS 4413 The Presidency 3 Credits  
Grading Scheme: Letter Grade  
The central role of the American Presidency in the political process. Emphasizes the contemporary institutional nature of that office and the behavior of its occupants. (S)  
Prerequisite: POS 2041.  
Attributes: General Education - Social Science

POS 4424 Legislative Politics 3 Credits  
Grading Scheme: Letter Grade  
The politics of the legislative process, recruitment of legislators, formal and informal rules of behavior, legislative-executive relations and the committee system. Also discusses the impact of political parties, interest groups and constituents on the legislative process. (S)  
Prerequisite: POS 2041 and junior standing or higher.  
Attributes: General Education - Social Science

POS 4443 Political Parties and Elections 3 Credits  
Grading Scheme: Letter Grade  
Composition, organization and structure of political parties and their roles and relationships in the political process. (S) (WR)  
Prerequisite: POS 2041.  
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

POS 4463 Interest Group Politics 3 Credits  
Grading Scheme: Letter Grade  
Examines the theoretical foundations, historical context and current activities of special interest groups in the United States.  
Prerequisite: POS 2041

POS 4624 Race, Law and the Constitution 3 Credits  
Grading Scheme: Letter Grade  
Surveys the historical and contemporary response of the law enforcement, civil/criminal justice and corrections systems to minority/ethnic groups in the United States. (WR)  
Attributes: Satisfies 6000 Words of Writing Requirement

POS 4674 Political Change and Legal Development 3 Credits  
Grading Scheme: Letter Grade  
Introduces the role of law in political and social development by providing a background in social theory and the history of legal systems, beginning with Roman law. 
Prerequisite: POS 2041.

POS 4734 Research Methods in Political Science 3 Credits  
Grading Scheme: Letter Grade  
Introduces the theory and method of contemporary political analysis. Emphasizes alternative analytical frameworks, concepts, research design, variables, measurement and quantitative analysis of political data. Required for students pursuing the department honors program. (WR)  
Attributes: Satisfies 6000 Words of Writing Requirement

POS 4750 Survey Research 3 Credits  
Grading Scheme: Letter Grade  
Prepares students to understand, conduct, analyze and assess opinion surveys and polls. Covers how to decide whether and when surveys are appropriate means of data collection, how to put together a survey, how to conduct basic quantitative analysis of survey data and how to report the findings.  
Prerequisite: POS 2041.

POS 4905 Individual Work 2-3 Credits  
Grading Scheme: Letter Grade  
Readings and discussion in advanced topics of political science.  
Prerequisite: department permission

POS 4911 Undergraduate Research in American Politics 0-3 Credits  
Grading Scheme: Letter Grade  
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

POS 4931 Special Topics 3 Credits  
Grading Scheme: Letter Grade  
Selected topics in political science; precise course content will be announced in advance.

POS 4934 Honors Preparation 1 Credit  
Grading Scheme: Letter Grade  
Must be taken in conjunction with other political science courses at the 3000/4000 level. Required for students pursuing the department honors program.  
Prerequisite: majors with a UF upper-division GPA of 3.5 and instructor permission.

POS 4940 Political Internship 3 Credits  
Grading Scheme: S/U  
Internship in government and politics. Internships are available at all levels - local, state and federal - and in every branch of government - executive, legislative and judicial. Other internships are available with political parties, interest groups, lobbying organizations, international organizations and private companies engaged in governmental relations and issue research. Readings and paper required. Only three credits of POS /PAD 4940 credit may be counted toward the major. (S-U)  
Prerequisite: POS 2041 and instructor permission.

POS 4956 Overseas Studies 1-15 Credits  
Grading Scheme: Letter Grade  
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.  
Prerequisite: undergraduate advisor permission.

POS 4970 Senior Thesis 2-4 Credits  
Grading Scheme: Letter Grade  
One of three required courses for students who are writing an honors thesis. Students work under the supervision of their thesis advisor. Generally, this course is taken in the second semester of the one-year thesis process. Students receive a letter grade for their work.

POT 2002 Introduction to Political Theory 3 Credits  
Grading Scheme: Letter Grade  
Basic principles of political thought. Examines the nature of the state and of the relationship between the individual and the state. Covers topics such as authority, consent, freedom and obligation. (H)  
Attributes: General Education - Humanities
POT 3302 Political Ideologies 3 Credits
Grading Scheme: Letter Grade
Seeks understanding of the contemporary spectrum of political beliefs from liberal democracy to the ideological ideas of the far right. Examines the effects of ethical, historical, political and psychological perspectives on these belief systems.

POT 3503 Environmental Ethics and Politics 3 Credits
Grading Scheme: Letter Grade
An intensive investigation into the history and theory of environmental ethical and political thought.

POT 4013 Great Political Thinkers: Ancient and Medieval 3 Credits
Grading Scheme: Letter Grade
Major early political theorists including Plato, Aristotle, St. Augustine and St. Thomas Aquinas. Emphasis on the principles of a just political order: natural law, civic virtue, constitutionalism. Analysis of church-state struggles and the emergence of the modern state. (H) (WR)
Attributes: General Education - Humanities

POT 4053 Great Political Thinkers: Machiavelli to Marx 3 Credits
Grading Scheme: Letter Grade
Studies selected political theorists from Machiavelli to Marx. Emphasizes the ideas of authority and freedom, obligation and consent in the writing of Hobbes, Locke, Rousseau, etc. Liberalism, conservatism, utilitarianism and idealism. (H) (WR)
Attributes: General Education - Humanities, Satisfies 4000 Words of Writing Requirement

POT 4204 American Political Thought 3 Credits
Grading Scheme: Letter Grade
Examines the history of American political thought, including an analysis of Thomas Jefferson and the Declaration of Independence, the federalist papers and the ideology of Thomas Paine. Also includes African-American political thought, feminist political theories, liberalism and the contribution of Mark Twain.
Prerequisite: POT 2002.

POT 4311 Problems of Democracy 3 Credits
Grading Scheme: Letter Grade
The theory and practice of democracy, especially ideas that define a democratic order. Studies selected topics ranging from equality and majority rule to technology and the globalization of democracy. (WR)
Prerequisite: junior standing or higher or instructor permission.
Attributes: Satisfies 4000 Words of Writing Requirement

POT 4911 Undergraduate Research in Political Theory 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery or application.

PUP 3002 Current Controversies in Public Policy 3 Credits
Grading Scheme: Letter Grade
Framework to understand the formation, adoption, budgeting, implementation and evaluation of public policy. This framework provides a basis for detailed discussions and debates about current policy issues. (S)
Prerequisite: POS 2041.
Attributes: General Education - Social Science

PUP 3323 Women in Politics 3 Credits
Grading Scheme: Letter Grade
Analyzes the roles women play in American politics, including political behavior and public policy issues.

PUP 4224 Florida Environmental Politics 3 Credits
Grading Scheme: Letter Grade
Examines the politics of environmental transformation in Florida, including issues of water supply, growth management and Everglades restoration. Supplements the department’s offerings in environmental politics. Can be used to satisfy requirements for the major or minor in political science, but it is also intended for (and accessible to) interested students in any major.
Prerequisite: sophomore standing or higher.

PUP 4404 Politics of Education 3 Credits
Grading Scheme: Letter Grade
Interrelationship of American political and educational systems, educational policymaking as political process, and analysis of contemporary educational problems. (S) (WR)
Prerequisite: junior standing or higher or instructor permission.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

PUP 4911 Undergraduate Research in Public Policy 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Public Policy. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Public Policy.

Portuguese | Spanish and Portuguese Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.

More Info (http://registrar.ufl.edu/soc/)
Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information
The Department of Spanish and Portuguese Studies endeavors to achieve excellence in research, teaching, and public service related to the languages, literature, and cultures of the areas and countries where Spanish and Portuguese are spoken.

- Spanish and Portuguese
- Spanish for the Professions Certificate
Courses

LIT 2000 Introduction to Literature 3 Credits
Grading Scheme: Letter Grade
Examines the important role literature has played in individuals' lives and in society, presenting a range of literary styles and genres, from different countries and historical periods. Special attention paid to development of critical skills of analysis and interpretation. (H)
Prerequisite: ENC 1101
Attributes: General Education - Humanities

POR 1130 Beginning Portuguese 1 5 Credits
Grading Scheme: Letter Grade
First course in the basic Portuguese language sequence, which emphasizes the language as spoken in Brazil. Develops basic communication skills in reading, writing, speaking and listening. Not open to proficient speakers of Spanish.
Prerequisite: POR 1131 or POR 3010, or the equivalent.

POR 1131 Beginning Portuguese 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the series in basic Portuguese, which emphasizes the language as spoken in Brazil. Develops basic communication skills in reading, writing, speaking and listening. Not open to proficient speakers of Spanish.
Prerequisite: POR 1130 with minimum grade of C or S, or the equivalent.

POR 3010 Introduction to Portuguese and Brazil: Accelerated 5 Credits
Grading Scheme: Letter Grade
Designed for those with knowledge of another Romance language (usually Spanish) through study or home experience. A complete introduction to the language, assuming that students have no previous study of Portuguese. It also satisfies the CLAS and Journalism foreign-language requirement in one semester.
Prerequisite: FRE 3300 and SPN 3300 or equivalent.

POR 3242 Applied Portuguese 1-5 Credits
Grading Scheme: Letter Grade
Intermediate-level course emphasizing all four skills; consists of printed and electronic readings, writing essays and taking notes, oral discussions and presentations, lab activities and grammar review.
Prerequisite: POR 1131 or POR 3010 or equivalent.

POR 3243 Composition and Conversation 3 Credits
Grading Scheme: Letter Grade
An intermediate-level course with continued expansion of vocabulary, review of essential grammar and structures and development of reading, writing and speaking skills.
Prerequisite: POR 1131 or POR 3010, or the equivalent.

POR 3451 Introduction to Portuguese Translation and Interpretation 3 Credits
Grading Scheme: Letter Grade
Improve Portuguese language skills through application of the principles of translation while gaining information on professional opportunities in the field.
Prerequisite: POR 3010 or the equivalent.

POR 3500 Luso-Brazilian Civilization 3 Credits
Grading Scheme: Letter Grade
Introduction to the central historical events, political institutions, intellectual currents and artistic movements in the foundation and development of Portugal, Brazil and Lusophone Africa. Preview of topics studied in other literature and culture courses. (H and N)
Prerequisite: POR 3242 or the equivalent, or instructor permission.
Attributes: General Education - Humanities, General Education - International

POR 3502 Brazilian Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to the study of modern cultural forms, including folk pageantry, performance arts, literature, film and television.
Prerequisite: POR 3242 or instructor permission.

POR 3701 Introduction to Portuguese Linguistics 3 Credits
Grading Scheme: Letter Grade
An introduction to the basic concepts and analytical techniques of linguistics, applied specifically to the Portuguese language. Practices the linguistic analysis of the sounds, words and sentences of Portuguese, with relevant comparisons to Spanish and English where applicable.
Prerequisite: POR 3242 or POR 3243 with minimum grade of C.

POR 3930 Topics in Brazilian Culture and Civilization 3 Credits
Grading Scheme: Letter Grade
Variable topics in Brazilian culture and civilization, including racial identity, feminism, regionalism, music, film, art, religion, sports, and more.
Prerequisite: POR 3010.

POR 3943 Internship in Portuguese 1-3 Credits
Grading Scheme: S/U
Variable 1-3 credits, this course complements the students’ internship with guided reflection. Given the nature of our Portuguese program, students can complete their internship wherever there is interaction with Portuguese speaking communities. This program offers an open alternative so that they can customize their professional interests.
Prerequisite: POR 3243 and permission of the instructor.

POR 4420 Advanced Composition and Syntax 3 Credits
Grading Scheme: Letter Grade
A language course that distinguishes Portuguese from related Romance tongues, including the more difficult aspects of grammar and structure, specialized vocabulary, different stylistic registers, and application of these to translation and original composition.
Prerequisite: POR 3243 or the equivalent (intermediate proficiency).

POR 4906 Honors Thesis 1-3 Credits
Grading Scheme: Letter Grade
Honors thesis preparation.
Prerequisite: 4000-level POW or POR course.

POR 4956 Overseas Studies 3-6 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.
POW 3100 Introduction to Literature in Portuguese 3 Credits
Grading Scheme: Letter Grade
A survey of literature written in Portuguese by major authors from Portugal, Brazil and Lusophone Africa. Primary emphasis falls on narrative and comparisons of developments in Portugal and the former colonies. (H and N)
Prerequisite: POR 3243 or the equivalent, or instructor permission.
Attributes: General Education - Humanities, General Education - International

POW 3130 Introduction to Brazilian Literature 1 3 Credits
Grading Scheme: Letter Grade
A survey of literary production in Brazil 1500-1900, including the literature of discovery, colonial manifestations and the major works of Romanticism, Realism and Parnassianism. (H and N)
Prerequisite: POR 3243 or the equivalent, or instructor permission.
Attributes: General Education - Humanities, General Education - International

POW 3131 Introduction to Brazilian Literature 2 3 Credits
Grading Scheme: Letter Grade
A survey of 20th-century literary movements: premodernism, modernism and regionalism in prose and poetry, with an emphasis on the fiction of contemporary writers. (H and N)
Prerequisite: POR 3243 or the equivalent, or program coordinator permission.
Attributes: General Education - Humanities, General Education - International

POW 4380 Contemporary Brazilian Poetry 3 Credits
Grading Scheme: Letter Grade
A study of lyric, both literary and musical, in the second half of the 20th century, including experimental trends, political verse, popular music and youth movements.
Prerequisite: Introductory knowledge of Brazilian literature.

POW 4382 Brazilian Drama 3 Credits
Grading Scheme: Letter Grade
A survey of the milestones of Brazilian theatre with an emphasis on 20th-century plays. In addition to the plays, the course also presents the theoretical framework and political context of theatrical production in Brazil. (H and N)
Prerequisite: Introductory knowledge of Brazilian literature.
Attributes: General Education - Humanities, General Education - International

POW 4450 The Modernist Movement in Brazilian Literature 3 Credits
Grading Scheme: Letter Grade
Readings in fiction, poetry and essay of the nationalist and avant-garde decades of the 1920s and 1930s. Discussions are designed to situate Brazilian letters in diverse national and international contexts. Literary works are complemented by considerations of concurrent production in music and the arts.
Prerequisite: Introductory knowledge of Brazilian literature.

POW 4454 Nineteenth-Century Brazilian Literature 3 Credits
Grading Scheme: Letter Grade
The major literary trends of the 19th century, primarily in fiction (Romanticism, Realism and Naturalism), poetry and essays, to familiarize students with representative works of each literary movement and genre. (H and N)
Prerequisite: Introductory knowledge of Brazilian literature.
Attributes: General Education - Humanities, General Education - International

POW 4480 Contemporary Brazil Narrative 3 Credits
Grading Scheme: Letter Grade
Rotating topics may include studies in genre (the short story, the novel), theme (science fiction) or author (Rubem Fonseca, Clarice Lispector, Guimaraes Rosa). (H and N)
Attributes: General Education - Humanities, General Education - International

POW 4700 Machado de Assis and His Contemporaries 3 Credits
Grading Scheme: Letter Grade
Machado de Assis, the 19th-century master of Brazilian letters, produced writings of every literary genre, including literary criticism, poetry and drama, in addition to his ingenious short stories and novels. This course surveys Machado's work and compares his novels to those of his contemporaries. (H and N)
Prerequisite: Introductory knowledge of Brazilian literature.
Attributes: General Education - Humanities, General Education - International

POW 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Individual work in Portuguese.
Prerequisite: instructor permission.

POW 4911 Undergraduate Research in Portuguese 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

POW 4930 Readings in Luso-Brazilian Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Diverse subjects in Brazilian and Portuguese studies, including the Brazilian Northeast, the Afro-Brazilian world, the culture of dictatorship, popular genres and popular music. In addition to readings of original texts, course may incorporate sound recordings and film.
Prerequisite: Introductory knowledge of Luso-Brazilian literature.

PRT 3391 Brazilian Cinema 4 Credits
Grading Scheme: Letter Grade
Critical analysis of Brazilian film and the relationship of content to social and political forces.

PRT 3930 Special Topics in Lusophone Culture and Civilization 1-4 Credits
Grading Scheme: Letter Grade
Variable topics in Brazilian, Portuguese or Luso-African culture and civilization, including globalization, regionalism, song literature, film and video, negritude, women's movements and Amazonian discourse.

Psychology
Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information
The Department of Psychology is dedicated to the pursuit of excellence in the generation of psychological science and to its application and dissemination. The department is committed to creating and sustaining a diverse, inclusive, and nondiscriminatory environment.
**Courses**

**CBH 3003 Comparative Psychology 3 Credits**
*Grading Scheme: Letter Grade*
Survey of approaches to and concepts of the study of animal behavior and psychology. (B)
*Prerequisite: PSY 2012.*
*Attributes: General Education - Biological Science*

**CLP 2001 Personal Growth 3 Credits**
*Grading Scheme: Letter Grade*
Introduces the concepts and techniques in psychology that apply to personal growth and development. All students have the opportunity to participate in research projects or alternative experiences. (S)
*Attributes: General Education - Social Science*

**CLP 3144 Abnormal Psychology 3 Credits**
*Grading Scheme: Letter Grade*
The varieties of disordered experience and conduct, and their contribution to an understanding of more effective personal and social adjustment. Includes the neuroses, psychoses and psychosomatic and conduct disturbances. (S)
*Prerequisite: PSY 2012.*
*Attributes: General Education - Social Science*

**CLP 4110 Eating Disorders 3 Credits**
*Grading Scheme: Letter Grade*
Overview of the causes and treatments associated with the full range of recognized eating disorders, including anorexia, bulimia and binge eating disorder, as well as a variety of subclinical forms of problematic eating behaviors and their surrounding factors and issues.
*Prerequisite: PSY 2012.*

**CLP 4160 Advanced Abnormal Psychology 3 Credits**
*Grading Scheme: Letter Grade*
Detailed coverage of the origins, treatments and controversies associated with select forms of emotional distress or mental illness. Includes theoretical and empirical contributions to understanding select mood disorders, anxiety disorders, substance disorders, and psychotic disorders, among others.
*Prerequisite: PSY 2012 and CLP 3144.*

**DEP 3053 Developmental Psychology 3 Credits**
*Grading Scheme: Letter Grade*
Theory and research on psychological development from prenatal stages through adulthood. (S)
*Prerequisite: PSY 2012*
*Attributes: General Education - Social Science*

**DEP 4115 Infant Development 3 Credits**
*Grading Scheme: Letter Grade*
Development from the prenatal period through three years of age with a focus on physical cognitive and social-emotional processes. (S)
*Prerequisite: PSY 2012*
*Attributes: General Education - Social Science*

**DEP 4163 Cognitive Development 3 Credits**
*Grading Scheme: Letter Grade*
Basic principles and theories of cognitive development from infancy through early adolescence. Information-processing, Piagetian and neo-Piagetian theories are covered, as is language, memory, social cognition, concept formation, perception and attention.
*Prerequisite: DEP 3053.*

**DEP 4305 Adolescent Psychology 3 Credits**
*Grading Scheme: Letter Grade*
Biological, psychological and sociological perspectives on adolescence, including the dynamics of socialization, self-concept and identity, peer groups and problems of adolescence. (S)
*Prerequisite: DEP 3053.*
*Attributes: General Education - Social Science*

**DEP 4464 Psychology of Aging 3 Credits**
*Grading Scheme: Letter Grade*
Advanced study in developmental psychology, including development of psychological problems of the aged and theoretical and methodological issues in the study of the aged. (S)
*Prerequisite: refer to the department.*
*Attributes: General Education - Social Science*

**DEP 4704C Research Methods in Developmental Psychology 4 Credits**
*Grading Scheme: Letter Grade*
Methodological approaches to the study of development including experimental and observational techniques. (S) (WR)
*Prerequisite: DEP 3053 and STA 2023; Prereq or Corequisite: STA 3024.*
*Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement*

**DEP 4930 Revolving Topics in Developmental Psychology 3 Credits**
*Grading Scheme: Letter Grade*
Advanced study in developmental psychology, including development of language and thought, social-personality development, gerontology and death and dying. Content varies; refer to the schedule of courses for the semester’s topic.
*Prerequisite: refer to the department.*

**EAB 3002 Principles of Behavior Analysis 3 Credits**
*Grading Scheme: Letter Grade*
Introduces and surveys the principles, methods, theories, and applications of the experimental analysis of behavior. Although EAB 3002 and EAB 3764 cannot both be taken to fulfill the Group A requirement, both courses may be taken, with one counting as an additional course toward the major. (S)
*Prerequisite: PSY 2012.*
*Attributes: General Education - Social Science*
EAB 3764 Applied Behavior Analysis 3 Credits
Grading Scheme: Letter Grade
Extending learning principles to human problems in child development, education, mental health, mental retardation, behavioral medicine, business and industry, aging and environmental applications. Although students cannot take both EAB 3002 and 3764 to fulfill the Group A requirement, they can take both courses; one will count as an additional course toward the major. (S)
Prerequisite: PSY 2012.
Attributes: General Education - Social Science

EAB 4022C Laboratory Procedures in Behavior Analysis 4 Credits
Grading Scheme: Letter Grade
General laboratory procedures and apparatus employed in the experimental analysis of animal behavior. Daily laboratory sessions focus upon experimental treatments, apparatus programming and data analysis. (S) (WR)
Prerequisite: EAB 3002.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

EAB 4184 Behaviorism and Contemporary Society 3 Credits
Grading Scheme: Letter Grade
Consideration of the applications of behavioral science and technology to contemporary society. Emphasis on the implications of behavior theory and the experimental analysis of behavior. (S)
Prerequisite: EAB 3002 or EAB 3764.
Attributes: General Education - Social Science

EAB 4714C Laboratory in Applied Behavior Analysis 4 Credits
Grading Scheme: Letter Grade
Introduces research methods in applied behavior analysis. Computerized measurement and assessment of human behavior in ongoing field studies, data analysis and implementation of experimental techniques. (WR)
Prerequisite: EAB 3002 or EAB 3764 or instructor permission
Attributes: Satisfies 6000 Words of Writing Requirement

EAB 4741 Organizational Behavior Management 3 Credits
Grading Scheme: Letter Grade
This course will provide an overview of contemporary research and practice in the field of Organizational Behavior Management (OBM), including: choosing performance targets, assessment, designing effective intervention, effective supervision, ethics, and common intervention systems such as token economies and behavior-based safety.
Prerequisite: EAB 3002 or EAB 3764 with minimum grade of C.

EAB 4930 Advanced Seminar in Behavior Analysis 3 Credits
Grading Scheme: Letter Grade
In-depth examination of topics related to behavior analysis. Some examples include developmental and intellectual disabilities, behavioral treatments for substance abuse, behavioral health and exercise, and ethics in behavior analysis. Content varies; refer to the schedule of courses for the semester’s topic.
Prerequisite: EAB 3002 or EAB 3764 with minimum grade of C.

EXP 3014 Sensory Processes 3 Credits
Grading Scheme: Letter Grade
Introduces the human senses and their role in perception, how we sense the physical environment and what factors influence our perception of it. (B)
Prerequisite: PSY 2012.
Attributes: General Education - Biological Science

EXP 3604 Cognitive Psychology 3 Credits
Grading Scheme: Letter Grade
Introduces human cognitive abilities, including perceptual and motor skill, attention, learning and memory, language and thinking, and the methods used to study these abilities. (S)
Prerequisite: PSY 2012.
Attributes: General Education - Social Science

EXP 4174C Laboratory in Sensory Processes 4 Credits
Grading Scheme: Letter Grade
Collect, analyze, and evaluate data on specific problems related to sensory and perceptual abilities. (B) (WR)
Prerequisite: (EXP 3104 or EXP 3604) and STA 2023.
Corequisite: STA 3024.
Attributes: General Education - Biological Science, Satisfies 6000 Words of Writing Requirement

GEY 4001 Issues and Concepts in Gerontology 3 Credits
Grading Scheme: Letter Grade
This multidisciplinary overview of the field of aging covers biomedical and health issues, psychosocial factors, applied aspects and policy issues.

PCO 4050 Applied Health Psychology 3 Credits
Grading Scheme: Letter Grade
Introduces health psychology with an emphasis on both health psychology research and practice. It promotes an understanding of the roles of health psychologists in treating/reducing health problems and diseases, promoting health behaviors, and overcoming health care challenges that are major foci in health psychology.
Prerequisite: PSY 2012 with a minimum grade C.

PCO 4113 Positive Psychology 3 Credits
Grading Scheme: Letter Grade
Explores the history of positive psychology and its basic tenets before examining a wide range of topics that relate to happiness and well-being, including positive relationships, positive thinking, life meaning, religion/spirituality, gratitude, altruism, career development, and character strengths.
Prerequisite: PSY 2012 with a minimum grade C.

PCO 4272 Advanced Seminar in Psychology of Women 3 Credits
Grading Scheme: Letter Grade
Advanced seminar on psychological theories and research related to the psychology of women. Also integrates consideration of the intersections of gender, race/ethnicity, class, sexual-orientation, and other dimensions of diversity.
Prerequisite: PSY 2012.

PCO 4911 Undergraduate Research in Psychology of Health Disparities 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

PCO 4930 Seminar in Counseling Psychology 3 Credits
Grading Scheme: Letter Grade
Advanced study in counseling psychology, including psychology of women, studies of the person and studies of self. (S)
Prerequisite: PSY 2012.
Attributes: General Education - Social Science

</tbody>
</table>
PSY 4625 The Psychology of Pseudoscience 3 Credits
Grading Scheme: Letter Grade
Studies the psychological causes and consequences of belief in "weird" things.
Prerequisite: PSY 2012 with minimum grade of C.

PSY 4824 Psychology of Eating and Obesity 3 Credits
Grading Scheme: Letter Grade
Comprehensive examination of theory and application of psychological and brain science principles to understanding eating behavior and the contemporary problem of overweight and obesity.
Prerequisite: PSY 2012 with a B or greater and any two of the following: PSB 3002, PSB 3340, CLP 3144, PPE 3003, DEP 3053, SOP 3004, EAB 3002, EAB 3764, or EXP 3604.

PSY 4905 Individual Work 1-3 Credits
Grading Scheme: S/U
Qualified students and the instructor or supervisor choose a particular problem for investigation or studying psychology. A formal written report of the work is required.
Prerequisite: minimum of 12 semester credits in psychology.

PSY 4911 Undergraduate Research in Psychology 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research in Psychology. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Psychology.

PSY 4930 Special Topics in Psychology 3 Credits
Grading Scheme: Letter Grade
Topics in psychology that provide opportunity for in-depth study not offered in other courses.
Prerequisite: PSY 2012.

PSY 4940 Introduction to Teaching in Psychology 0-3 Credits
Grading Scheme: S/U
College-level teaching experience in psychology by serving as an undergraduate teaching assistant (TA). Each assistantship is unique, tailored to both the student’s skills and knowledge and to the instructor’s needs. Responsibilities may include facilitating discussion groups or study sessions, reviewing written assignments and providing evaluative feedback, and responding to student questions and inquiries. (S-U)
Prerequisite: instructor permission and completion of the course for which the student will serve as a teaching assistant.

PSY 4949 Community Work in Psychology 1-3 Credits
Grading Scheme: S/U
Credit is earned by volunteering with community agencies that have been approved by the department. Students work 45 hours per credit earned.
Prerequisite: 12 semester credits of psychology.

PSY 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
This course provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

PSY 4970 Senior Thesis 1-3 Credits
Grading Scheme: S/U
Qualified students must write a formal research proposal to enroll in the course. They also must carry out individual research under the supervision of a faculty member and submit a formal written report. (S-U)
Prerequisite: 24 credits in psychology and instructor permission.

SOP 3004 Social Psychology 3 Credits
Grading Scheme: Letter Grade
A study of the social factors influencing individual behavior. Consideration of socialization, social influence and conformity, social interaction, decision-making, attitudes and opinions. (S)
Prerequisite: PSY 2012.
Attributes: General Education - Social Science

SOP 4214C Research Methods in Social Psychology 4 Credits
Grading Scheme: Letter Grade
Laboratory training and basic experimental techniques and procedures used in the investigation of social-psychological processes. (S) (WR)
Prerequisite: SOP 3004 or STA 2023 or STA 3024 with a minimum grade B.
Attributes: General Education - Social Science, Satisfies 6000 Words of Writing Requirement

SOP 4444 Attitudes and Social Cognition 3 Credits
Grading Scheme: Letter Grade
A consideration of the formation and utilization of knowledge about the social world. Includes a focus on how attitudes and values are defined, measured, formed and changed. (S)
Prerequisite: SOP 3004.
Attributes: General Education - Social Science

SOP 4704 Advanced Social Psychology (Revolving Topics) 3 Credits
Grading Scheme: Letter Grade
In-depth examination of topics in social psychology; refer to the schedule of courses to determine the topic covered each semester. Topics can include health psychology, social motivation, the self, self-presentation, group dynamics, conflict, population psychology, community psychology and the psychology of law. Content varies; refer to the schedule of courses for the semester's topic. (S)
Prerequisite: SOP 3004.

SOP 4777 Psychology of Human Sexuality 3 Credits
Grading Scheme: Letter Grade
Examination of human sexuality in the United States from a psychological perspective, including but not limited to the following topics: Sexual desire and sexual responses, sexual development, sexual practices, sexual dysfunctions and sex therapy.
Prerequisite: PSY 2012 with a minimum grade C.

SOP 4842 Legal Psychology 3 Credits
Grading Scheme: Letter Grade
Studies the interaction between individuals and the legal system; considers how the application of various psychological disciplines can inform the legal system.
Prerequisite: PSY 2012
PUBLIC HEALTH

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Curriculum
- Public Health
- Public Health Minor

Courses

HSA 3111 U.S. Health Care System 3 Credits
Grading Scheme: Letter Grade
Overview of organization, delivery and financing of health services in the U.S. Topics include health professionals, health care facilities, financing of health services, managed care and current health policy issues.

Prerequisite: (BSC 2007 or BSC 2005 or BSC 2010) and PSY 2012 and STA 2023 and (health science or communication sciences and disorders or public health majors or health science or public health minors).

HSC 3057 Research Methods and Issues in Health Science 3 Credits
Grading Scheme: Letter Grade
Emphasizes four aspects of research: understanding research principles, evaluating journal articles, applying research findings to clinical settings and designing programmatic evaluation projects.

Prerequisite: HSC 3502 and Health Science or Public Health majors or minors.

HSC 3502 Survey of Diseases and Disability 3 Credits
Grading Scheme: Letter Grade
Overview of medical and psychosocial aspects of chronic diseases and disability.

Prerequisite: health science or communication sciences and disorders majors or health science minor.

HSC 4558 Survey of Diseases and Disabilities 2 3 Credits
Grading Scheme: Letter Grade
Overview of medical and psychosocial aspects of chronic diseases, including issues of disability management. This required course, combined with HSC 3502, covers all of the major disabling conditions.

Prerequisite: HSC 3502, Health Science, Public Health, Communication Sciences and Disorders majors/minors only

PHC 2100 Introduction to Public Health 3 Credits
Grading Scheme: Letter Grade
Overview of public health as a multifaceted field. Includes discussion of contemporary public health challenges with input from discipline experts.

PHC 3440 Global Public Health 3 Credits
Grading Scheme: Letter Grade
Critical links between global health and social and economic development. Discusses the burden of disease and how to measure this across countries. Focuses on low and middle income countries and the health of the poor.

Prerequisite: PHC 4101 and junior standing or higher.

PHC 3603 Critical Issues in Ph 3 Credits
Grading Scheme: Letter Grade
Critical Issues in Ph

PHC 4024 Applied Epidemiology 3 Credits
Grading Scheme: Letter Grade
Principles and methods of epidemiological investigation focusing on both infectious and noninfectious diseases. Emphasizes outbreak investigations, field epidemiology and epidemiology careers.

Prerequisite: HSC 3057, HSC 3502, HSC 4558, PHC 4101, and Health Science and Public Health majors/minors only.

PHC 4031 One Health and Emerging Infectious Diseases 3 Credits
Grading Scheme: Letter Grade
A pivotal elective in the One Health Program and the Bachelors of Public Health degree; introduces the concept of One Health in the context of how disease-causing microbes or pathogens emerge and the critical drivers of microbial evolution.

Prerequisite: Gen Ed Biology; academic level junior, senior and graduate or instructor approval

PHC 4094 Introduction to Biostatistics for Health Science and Public Health 3 Credits
Grading Scheme: Letter Grade
Methods and public health applications for analysis of variance, correlation, simple linear regression, multiple linear regression, nonparametric and distribution-free statistical methods, and some basic concepts about survival analysis. Public health applications using statistical software. Writing data analysis reports.

Prerequisite: STA 2023.

PHC 4101 Public Health Concepts 3 Credits
Grading Scheme: Letter Grade
Introduces the basic tenets, applications and foci of public health, including integrating public health with other health professions.

Prerequisite: (BSC 2007 or BSC 2005 or BSC 2010) and PSY 2012 and STA 2023.

PHC 4117 Public Health Management Leadership 3 Credits
Grading Scheme: Letter Grade
Provides knowledge relevant to leading public health organizations while effectively managing and motivating employees. Includes organizational behavior and theories to examine management, leadership, and application of skills in delivering public health programs.

Prerequisite: HSA 3111 and HSC 3502 and HSC 4558 and PHC 4101 and Public Health major.

PHC 4320 Environmental Concepts in Public Health 3 Credits
Grading Scheme: Letter Grade
Surveys major environmental health topics by examining sources, routes, media, and health outcomes associated with biological, chemical, and physical agents in the environment. Introduces the economic and legal frameworks associated with environmental health issues and public health.

Prerequisite: PHC 4101.
PHC 4930 Special Topics in Public Health 1-6 Credits
Grading Scheme: S/U
Exploration of a general or a specific area of public health.
Prerequisite: junior or senior standing.

PHC 4943 Service Learning Practicum 3 Credits
Grading Scheme: Letter Grade
Covers development of the role of a public health and human services provider in an agency setting.
Prerequisite: HSC 3057 and PHC 4101 and Public Health major with senior standing.

Public Relations

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

Curriculum
• Combination Degrees
• Public Relations
• Public Relations UF Online

Students who have not been admitted to the College of Journalism and Communications must have a 3.0 overall grade point average to enroll in courses other than PUR 3000. Students minoring in mass communication generally need department approval to register for PUR courses.

Courses

MMC 1009 Introduction to Media and Communications 1 Credit
Grading Scheme: Letter Grade
Introduces the tools, resources and academic and extra-curricular activities offered by the College of Journalism and Communications. Includes lessons on the history and organization of the college and academic and career preparation.
Prerequisite: 1JM or exploratory major, 2JM, or 3JM classification, or instructor approval.

MMC 2121 Writing Fundamentals for Communicators 3 Credits
Grading Scheme: Letter Grade
One-third of the course is to ensure students have sufficient skill in grammar and punctuation to write with clarity. In two-thirds of the course, students put principles of good writing into practice with short writing assignments that have real-world applications.

MMC 3030 Personal Branding for Communicators 1 Credit
Grading Scheme: Letter Grade
Professional development course that stresses how to communicate and connect as professionals. Emphasizes mastery of writing, speaking, presentation and employment-seeking skills, working with media, handling media interviews and using social media to establish a professional identity.
Prerequisite: Journalism and Communications major of junior standing or higher.

MMC 3203 Ethics and Problems in Mass Communications 3 Credits
Grading Scheme: Letter Grade
A cross-disciplinary introduction to ethics-relevant situations faced by media professionals. Topics include professional standards of conduct, audience representation and engagement and issues associated with the production, presentation and delivery of messages that reflect the best interests of audiences, clients and stakeholders.
Prerequisite: Journalism and Communications major of sophomore standing or higher and (ADV 3008 or MMC 1009 or MMC 2604 or PUR 3000 or RTV 3001 with minimum grade of C).

MMC 3254 Media Entrepreneurship 1 Credit
Grading Scheme: Letter Grade
Introduces media entrepreneurship with a focus on how digital technologies are transforming industries. Work in teams to develop new digital media businesses. Develop and pitch ideas, explore market analysis, develop business and financial plans, and study social media strategies.
Prerequisite: sophomore standing or higher.

MMC 3420 Consumer and Audience Analytics 3 Credits
Grading Scheme: Letter Grade
Provides practical analytical skill-sets, benefiting those who plan careers in analytics/research, social media, media business, advertising/marketing, and public relations.
Prerequisite: junior standing or higher.

PUR 3000 Principles of Public Relations 3 Credits
Grading Scheme: Letter Grade
Nature and role of public relations in a democratic society, activities of public relations professionals, major influences that affect organizational behavior, and ethics and professional development of practitioners in the private and public sectors. Emphasizes management functions and developing effective public relations strategies.
Prerequisite: sophomore standing or higher.

PUR 3463 Sports Communication 3 Credits
Grading Scheme: Letter Grade
Instruction, analysis, and training in the principles and practice of public relations in sports organizations. Emphasizes media relations and skills essential for sports communication professionals, including handling media interactions across platforms, problems, crises, and integration of positive communications strategies with strategic goals of sports organizations.
Prerequisite: PUR 3000.
PUR 3500 Public Relations Research 3 Credits
Grading Scheme: Letter Grade
Using principles of scientific research to establish, monitor and evaluate communications programs: research planning, theory, design - sampling, surveys, experiments, focus groups, content analysis and participant observation; qualitative and statistical analysis and reporting of research with advanced technologies. 
Prerequisite: PUR 3000 with minimum grade of C, statistics with minimum grade of C and junior standing.

PUR 3622 Social Media Management 3 Credits
Grading Scheme: Letter Grade
Social media management explores the use of the internet to build connections, market businesses, and engage audiences. With billions of people connected online, businesses are constantly cultivating new ways to join the online conversation. Highlights the various platforms and best techniques used in social media.
Prerequisite: junior standing or higher.

PUR 3801 Public Relations Strategy 3 Credits
Grading Scheme: Letter Grade
Develops skills in strategic public relations management based on an analysis of current and historical case studies.
Prerequisite: PUR 3000 and PUR 3500 with minimum grades of C.

PUR 4100 Public Relations Writing 4 Credits
Grading Scheme: Letter Grade
Prepares students to meet the demands of the marketplace for persuasive, professional public relations writing skills.
Prerequisite: PUR 3000 and JOU 3101 with minimum grades of C and proficiency in word processing.

PUR 4103 Public Relations Visual Communication 3 Credits
Grading Scheme: Letter Grade
Preparation of visual communications generally produced by public relations departments. Emphasizes printed publications for internal and external audiences. Diversity of publics is emphasized. Includes management’s viewpoint on, reasons for and state-of-the-art of publications.
Prerequisite: PUR 3801 and JOU 3101.

PUR 4203 Ethics and Professional Responsibility in Public Relations 3 Credits
Grading Scheme: Letter Grade
Ethical responsibilities of the public relations professional: identifying the moral dimensions of issues that arise in the practice of public relations, increasing the ability to employ reason as a tool for dealing with moral issues, providing knowledge and skills necessary to reach and justify ethical decisions, and eliciting a sense of personal and professional responsibility.
Prerequisite: PUR 3500 and PUR 3000 with minimum grades of C.

PUR 4400C Crisis Communications 3 Credits
Grading Scheme: Letter Grade
Crisis Communications focuses on key elements of crisis and issues management? before, during and after a crisis. In an age when a company’s every move is subject to instant, vivid, unfiltered, and global scrutiny and attack, the need for effective, proactive crisis management is greater than ever.
Prerequisite: PUR 3000 with a minimum grade of C.

PUR 4404C International Public Relations 3 Credits
Grading Scheme: Letter Grade
Analyzes the impact of international activities on the public relations function.
Prerequisite: PUR 3000.

PUR 4410 Principles of Fund Raising 3 Credits
Grading Scheme: Letter Grade
Fund raising: the high demand, low supply occupation unique to the charitable nonprofit subsector.
Prerequisite: PUR 3000 and PUR 3500.

PUR 4442 Public Interest Communications 3 Credits
Grading Scheme: Letter Grade
Delves into strategies to drive social change, strategic planning process for social change communications campaigns, and tools and tactics that make these campaigns effective. Gain insight to the richness of the field and the power that communications has to address problems and profoundly affect peoples lives.
Prerequisite: junior standing or higher.

PUR 4443 Global Social Change Communication 3 Credits
Grading Scheme: Letter Grade
Explains core elements of strategic communications to support global social change through case studies and the application of theory. Taught from the practitioner’s perspective, extensive real-life examples provide an opportunity to learn the critical functions of effective communications.

PUR 4800 Public Relations Campaigns 3 Credits
Grading Scheme: Letter Grade
Utilizing the principles and techniques of public relations to create comprehensive campaigns for actual clients.
Prerequisite: PUR 3000 and PUR 3801 and PUR 4100 and VIC 3001 and junior standing.

PUR 4905 Individual Problems 1-3 Credits
Grading Scheme: Letter Grade
Students and the instructor choose a problem or project which will give the student experience in his or her major field.
Prerequisite: at least 10 credits of professional courses and department chair approval.

PUR 4912 Public Relations Undergraduate Research 0-3 Credits
Grading Scheme: Letter Grade
Provides an opportunity for firsthand, supervised research. Mentored but self-directed work that enables individuals or a small group to explore an issue of interest and to communicate their results to others.
Prerequisite: junior standing or higher.

PUR 4932 Special Study 1-3 Credits
Grading Scheme: Letter Grade
Variable content provides opportunity for advanced study in the principles, processes and effects of public relations.
Prerequisite: instructor permission.

PUR 4940 Public Relations Internship 1-3 Credits
Grading Scheme: S/U
Student and instructor will select an appropriate work area in public relations for on-the-job training. Student will work a minimum of 100 hours per semester for 1 credit; 200 hours per semester for 2 credits; 300 hours per semester for 3 credits. Progress reports and summary are required. (S-U)
Prerequisite: 9 credits of professional courses (including JOU 3101), a 2.5 GPA and academic advisor, department and college approvals.
VIC 3001 Sight, Sound and Motion 4 Credits
Grading Scheme: Letter Grade
Visual literacy is a prerequisite for success in most areas of mass communication. Teaches fundamentals of design across print, web, and multimedia platforms. Also emphasizes how visual forms convey messages to readers.
Prerequisite: sophomore standing or higher.

Rehabilitative Services

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

GEY 4001 Issues and Concepts in Gerontology 3 Credits
Grading Scheme: Letter Grade
This multidisciplinary overview of the field of aging covers biomedical and health issues, psychosocial factors, applied aspects and policy issues.

RCS 3030 Introduction to Rehabilitation and Human Services 3 Credits
Grading Scheme: Letter Grade

Relationship between religion and politics in Latin America from a variety of perspectives and approaches. Addresses millenarian movements, gender, ethnicity and class, as well as church-state dynamics. (S and N)
Attributes: General Education - International, General Education - Social Science

REL 4393 Islam in the Americas 3 Credits
Grading Scheme: Letter Grade
Provides knowledge of Islam in the Americas from the 15th century to the present. (H) (WR)
Prerequisite: instructor permission.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

REL 4490 Special Topics in Religious Thought 3 Credits
Grading Scheme: Letter Grade
Special topics in religious thought. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

REL 4491 Sacred Geographies: Place, Space and Pilgrimage in South Asia 3 Credits
Grading Scheme: Letter Grade
Focuses on reading primary texts in translation, supplemented with recent ethnographies, to explore various conceptions of sacred space and place, including movement to, from and between them, in the Indic imagination.
Prerequisite: REL 2315 or REL 2341 or REL 3022.

REL 4611 Israelite Religion 3 Credits
Grading Scheme: Letter Grade
Comparative survey of literary, historical, ritual, and material aspects of ancient Israelite religion with evidence from Canaan, Mesopotamia, Greece, and Rome.
Prerequisite: instructor permission.

REL 4905 Individual Work 1-5 Credits
Grading Scheme: Letter Grade
Majors or other advanced undergraduates who wish to supplement regular coursework by individual studies under guidance may apply to a member of the faculty for individual work.
Prerequisite: 9 credits in religion or department permission.

REL 4930 Special Topics in Religious Thought 3 Credits
Grading Scheme: Letter Grade
Special topics in religious thought.

REL 4932 Thesis Seminar in Religion 3 Credits
Grading Scheme: Letter Grade
Thesis preparation option for honors-level students.

REL 4933 The Comparative Study of Religion 3 Credits
Grading Scheme: Letter Grade
The history and major methods that have contributed to the modern study of religion. (H) (WR)
Prerequisite: junior or senior standing and department permission.
Attributes: General Education - Humanities, Satisfies 6000 Words of Writing Requirement

REL 4936 Special Topics in Religious Studies 3 Credits
Grading Scheme: Letter Grade
Advanced study for those with proper preparation of selected topics involving one or more religious traditions. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

REL 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

SRK 1120 Beginning Sanskrit 1 4 Credits
Grading Scheme: Letter Grade
First of a two-semester series that introduces the Sanskrit language through the Devanagari Script.

SRK 1121 Beginning Sanskrit 2 4 Credits
Grading Scheme: Letter Grade
Second of a two-semester series that introduces the Sanskrit language through the Devanagari Script with an emphasis on reading, writing, grammar and oral recitation.

SRK 2200 Intermediate Sanskrit 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of Sanskrit to increase knowledge of vocabulary by developing reading and translation skills.
Prerequisite: SRK 1121 with a minimum grade of C, or equivalent.

SRK 2201 Intermediate Sanskrit 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate Sanskrit to increase knowledge of vocabulary by developing reading and translation skills.
Prerequisite: SRK 2200 with a minimum grade of C, or equivalent.

SRK 3410 Advanced Sanskrit 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of Sanskrit to further develop skills in reading and understanding texts.
Prerequisite: SRK 2201 with a minimum grade of C, or equivalent.

SRK 3411 Advanced Sanskrit 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced Sanskrit to further develop skills in reading and understanding texts.
Prerequisite: SRK 3410 with a minimum grade of C, or equivalent.

SYO 4200 Sociology of Religion 3 Credits
Grading Scheme: Letter Grade
The sociological perspective on religions, including religious ideologies and rituals. Social aspects of the religious and religious aspects of the social. Organized religions and religions. (S and N)
Prerequisite: SYG 2000.
Attributes: General Education - International, General Education - Social Science

Russian | Languages, Literatures, and Cultures

Courses

RUS 1130 Introduction to Russian Language and Culture 1 5 Credits
Grading Scheme: Letter Grade
RUS 1130 and its sequel, RUS 1131, offer a comprehensive introduction to Russian, using interactive methods to develop competence in speaking, listening, reading, writing and cultural interaction.

RUS 1131 Introduction to Russian Language and Culture 2 5 Credits
Grading Scheme: Letter Grade
Continuation of introductory language and cultural study.
Prerequisite: RUS 1130 with minimum grade of C or S, or the equivalent.

RUS 2220 Intermediate Russian 1 4 Credits
Grading Scheme: Letter Grade
Intermediate study with exercises in sentence patterns, vocabulary building and oral and written discourse in Russian.

RUS 2340 Russian for Heritage Learners 3 Credits
Grading Scheme: Letter Grade
A practical overview of Russian grammar and writing for those with significant bilingual speaking and listening backgrounds. Devotes special attention to reading, writing and vocabulary development.
Prerequisite: instructor or undergraduate coordinator permission.

RUS 3240 Oral Practice in Russian 3 Credits
Grading Scheme: Letter Grade
Development of advanced speaking and listening skills in conversational Russian.

RUS 3400 Intermediate Russian 2 4 Credits
Grading Scheme: Letter Grade
Continued study with exercises in sentence patterns, vocabulary building and sustained oral and written discourse.
Prerequisite: RUS 2220 or the equivalent.

RUS 4000 Advanced Russian 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills (speaking, listening, reading, and writing) with attention to more complex structures.

RUS 4001 Advanced Russian 2 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills (speaking, listening, reading, and writing) with attention to more complex structures.
Prerequisite: RUS 4000 with a minimum grade of C or S or the equivalent as proven by a placement test.

RUS 4300 Advanced Grammar and Composition 3 Credits
Grading Scheme: Letter Grade
Study of advanced grammar and composition in Russian.
Prerequisite: one 3000-level Russian course or the equivalent.

RUS 4411 Advanced Oral Practice 3 Credits
Grading Scheme: Letter Grade
Continued development of advanced speaking and listening skills based on authentic written, audio and video texts from contemporary Russian culture.
Prerequisite: RUS 3240.

RUS 4501 Russian Studies Research Seminar 3 Credits
Grading Scheme: Letter Grade
Introduces significant trends and ideas in Russian literary, cultural, historical, and critical studies. Develop the ability to understand and produce critical scholarly argument in a variety of formats, including class discussion, formal presentation and a written research project.

RUS 4502 Language and Culture of the Russian Business World 3 Credits
Grading Scheme: Letter Grade
Combines advanced language training, a practical introduction to the language and culture of the contemporary Russian business world, and extensive practice translating and interpreting texts used in business settings. Focuses on issues such as starting companies and joint ventures, advertising, and setting up and conducting official meetings and telephone calls. Basic Russian business ethics are also studied.
Prerequisite: RUW 3101 and RUW 4341 or the equivalent or instructor permission.

RUS 4503 Theory and Practice of Russian-English Translation 1 3 Credits
Grading Scheme: Letter Grade
The first part of a two-part translation series focusing on the theory and practice of conveying word semantics in Russian-English and English-Russian translation.
Prerequisite: RUW 3101 and RUW 4341 or instructor permission.
RUS 4504 Theory and Practice of Russian-English Translation 2 3 Credits
Grading Scheme: Letter Grade
The second part of the translation series focusing on the theory and practice of conveying sentence and paragraph semantics in Russian-English and English-Russian translation.
Prerequisite: RUW 3101 and RUW 4341 or instructor permission.

RUS 4700 Structure of the Russian Language 3 Credits
Grading Scheme: Letter Grade
Introduction to the phonology, morphology and syntax of contemporary standard Russian from a formal and semantic standpoint. Also includes the development of Russian word stress and a survey of the development of Russian verb tense, aspect and mood.
Prerequisite: one 3000-level Russian course or the equivalent.

RUS 4780 Corrective Phonetics and Intonation 3 Credits
Grading Scheme: Letter Grade
Develops advanced-level phonetic and intonational skills via a variety of genres of authentic texts from Russian culture.
Prerequisite: RUW 3101 and RUW 4341 or instructor permission.

RUS 4905 Individual Work in Russian 1-3 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course. Available only by special arrangement.
Prerequisite: RUS 2220 or the equivalent.

RUS 4911 Undergraduate Research in Russian Language 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research in Russian Language. Projects may involve inquiry, design, investigation, scholarship, discovery or application in Russian Language.

RUS 4930 Special Topics in Russian 3-9 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in Russian studies. New, experimental, or one-time offerings.

RUS 4956 Overseas Studies 1-15 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

RUT 3101 Russian Masterpieces 3 Credits
Grading Scheme: Letter Grade
Introduces the Russian literature of the 19th-21st centuries. Read some of the most influential works by Pushkin, Gogol, Tolstoy, Dostoevsky, Chekhov, Nabokov, Pasternak and Sorokin, thereby gaining essential knowledge of Russian history, culture and the authors personal lives. Readings and discussions in English. (H and N)
Prerequisite: sophomore standing or higher.
Attributes: General Education - Humanities, General Education - International

RUT 3441 Tolstoy and Dostoevsky 3 Credits
Grading Scheme: Letter Grade
Introduction to the major 19th century Russian novelists and their contemporaries. Readings and discussions in English. (H)
Attributes: General Education - Humanities

RUT 3442 Themes from Russian Literature 3 Credits
Grading Scheme: Letter Grade
An examination of Russian everyday life and institutions of the 19th and 20th centuries through the media of literature and film. (H and N)
Attributes: General Education - Humanities, General Education - International

RUT 3452 Russian Literature of the Twentieth Century 3 Credits
Grading Scheme: Letter Grade
Authors, movements and genres in Russian literature from the Revolution of 1917 to the present. Readings and discussions in English. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

RUT 3500 Russian Cultural Heritage 3 Credits
Grading Scheme: Letter Grade
An introduction to the culture of pre-revolutionary Russia. Philosophical, religious, artistic and literary currents in relation to Western civilization. Readings and discussions in English. (H and N)
Attributes: General Education - Humanities, General Education - International, Satisfies 2000 Words of Writing Requirement

RUT 3501 Contemporary Russian Culture and Society 3 Credits
Grading Scheme: Letter Grade
Patterns of continuity and change in the philosophical and cultural values of Russian society as they explain the Soviet Union and contemporary Russia. Readings and discussions in English. (H)
Attributes: General Education - Humanities

RUT 3503 Violence and Terror in the Russian Experience 3 Credits
Grading Scheme: Letter Grade
An examination of the impact of violence and terror on the human condition as reflected and expressed in well-known works of Russian literature (fiction and historical narratives), art and film. Taught in English. No knowledge of other languages required. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 2000 Words of Writing Requirement

RUT 3504 Russia Today 3 Credits
Grading Scheme: Letter Grade
Patterns of continuity and change in the philosophical and cultural values of Russian society as they explain the Soviet Union and contemporary Russia. Readings and discussions in English. (H and N) (WR)
Attributes: General Education - Humanities, General Education - International, Satisfies 6000 Words of Writing Requirement

RUT 3506 Creative Lives: Writers, Artists, and Extraordinary People 3 Credits
Grading Scheme: Letter Grade
Explores Russian visions of creativity and creative people in Russian culture by placing them in dialogue with broader European and American models and considerations of creativity.
Prerequisite: sophomore standing or higher, or instructor permission.

RUT 3514 Russian Fairy Tales 3 Credits
Grading Scheme: Letter Grade
A critical introduction to Russian fairy tales and folklore and an examination of the aesthetic, social, cultural and psychological values they reflect. (H and N)
Attributes: General Education - Humanities, General Education - International
RUT 3524 Russia through Film 3 Credits
Grading Scheme: Letter Grade
Examines Russian life, institutions, and the arts against the background of period-defining historical, political, and cultural events from the early twentieth century to the present day as reflected and refracted in some emblematic feature films, documentaries, and animated cartoon films produced in the Soviet Union and post-Soviet Russia.
Prerequisite: sophomore standing or higher, or instructor permission.

RUT 3530 Russia's Struggle with Nature: Legacies of Destruction and Preservation 3 Credits
Grading Scheme: Letter Grade
Explores competing concepts of nature in modern Russian culture through works of Russian fiction and non-fiction in translation. Emphasis falls on environmental problems in Russia and the former Soviet Union (desiccation of the Aral Sea, pollution of Lake Baikal, the Chernobyl nuclear accident etc.) and their impact on Russian thought.
Prerequisite: sophomore standing or instructor permission.

RUT 3600 The Twentieth Century through Slavic Eyes 3 Credits
Grading Scheme: Letter Grade
Introduction to the literature, film and culture of 20th century Eastern and Central Europe. (H and N)
Attributes: General Education - Humanities, General Education - International

RUT 3930 Variable Topics in Russian Studies 1-9 Credits
Grading Scheme: Letter Grade
Variable topics in Russian studies, taught in English translation.

RUT 4440 Pushkin and Gogol 3 Credits
Grading Scheme: Letter Grade
Major works of Russian literature written the first half of the 19th century. Readings and discussions primarily in Russian. (H)
Attributes: General Education - Humanities

RUT 4450 Russian Modernism 3 Credits
Grading Scheme: Letter Grade
Introduction to the major artistic contributions of Russian modernism in the context of the political, social, and cultural upheavals of late Imperial to Stalinist Russia (1890 - 1939). (H and N)
Attributes: General Education - Humanities, General Education - International

RUT 4911 Undergraduate Research in Russian Studies, Target Language 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

RUT 4930 Variable Topics in Russian Studies 1-9 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in Russian studies, taught in English translation.
Prerequisite: one 3000-level Russian course or instructor permission.

RUW 3101 Russian Drama and Poetry 3-6 Credits
Grading Scheme: Letter Grade
Study of plays and poems by major Russian writers from the 19th and 20th centuries. Readings in Russian.

RUW 4341 Russian Media Culture 3 Credits
Grading Scheme: Letter Grade
An in-depth study of the history and recent trends in the Russian mass media and web-based technology and their impact on culture and society.
Prerequisite: RUS 3400 or RUS 4001 with minimum grade of C.

RUW 4370 Russian Short Prose 3 Credits
Grading Scheme: Letter Grade
Critical study of selected Russian short stories. Readings in Russian. (H)
Attributes: General Education - Humanities

RUW 4911 Undergraduate Research in Russian Studies, Target Language 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

RUW 4932 Selected Readings in Russian 1-3 Credits
Grading Scheme: Letter Grade
Special topic, author, genre or movement in Russian literature. (H)
Prerequisite: one 3000-level course or the equivalent.
Attributes: General Education - Humanities

Sociology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

The Department of Sociology and Criminology & Law has over 1,000 undergraduate majors and 100 graduate students. The department's faculty are internationally known for their research in the areas of families, gender, and sexualities; health, aging, and the life course; environmental and resource sociology; race and ethnicity; criminology and criminal justice; and psychology and law.

- Sociology Minor UF Online
- Sociology UF Online

Courses
SYA 4110 Development of Sociological Thought 4 Credits
Grading Scheme: Letter Grade
Comparative study of the principal contributors to the development of sociology. Emphasizes relevance of these ideas to contemporary social thought and current social issues.
Prerequisite: nine credits of sociology.

SYA 4300 Methods of Social Research 4 Credits
Grading Scheme: Letter Grade
Introduces the scientific method and its application to social science research. Includes research design, data collection and computer data analysis and interpretation.
Prerequisite: 4 credits of sociology and STA 2023.

SYA 4506 Writing in Sociology 3 Credits
Grading Scheme: Letter Grade
Helps sociology majors improve the quality of writing professional sociological reports.
Prerequisite: Sociology major.

SYA 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
Examines topics/areas/issues not covered in regularly scheduled courses.
Prerequisite: nine credits of sociology and department permission.

SYA 4911 Undergraduate Research in Sociology 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

SYA 4930 Special Study 3 Credits
Grading Scheme: Letter Grade
Various specialized topics/areas/issues not covered in regularly scheduled courses.
Prerequisite: none

SYA 4931 Department Honors in Sociology 3 Credits
Grading Scheme: Letter Grade
Department honors course.

SYA 4941 Internship in Applied Sociology 3 Credits
Grading Scheme: Letter Grade
Supervised individual sociology practicum / internship in a social services organization.
Prerequisite: six credits of sociology and department permission.

SYD 3395 Sociology of Globalization 3 Credits
Grading Scheme: Letter Grade
Examination of diverse forms of worldwide interconnection, including economic ties, political ties, and ecological ties. A study of how global interdependencies and inequalities link the fates of people around the planet and how ?Globalization? is a form of political discourse that shapes policy-making and alters how lives are lived globally.
Prerequisite: SYG 2000.

SYD 3410 Urban Sociology 3 Credits
Grading Scheme: Letter Grade
The development of cities and their spatial and social structure. Critical problems and solutions. Integration of people in the social setting. Social implications of city planning. (S and N)
Prerequisite: SYG 2000 or department permission.
Attributes: General Education - International, General Education - Social Science

SYD 3700 Minorities in American Society 3 Credits
Grading Scheme: Letter Grade
Sociological analysis of the structure, social processes and efforts to effect change of racial, ethnic and religious minorities. (S and D)
Attributes: General Education - Diversity, General Education - Social Science

SYD 3805 Gender and Health 3 Credits
Grading Scheme: Letter Grade
Examines gender differences and similarities in health and illness in the United States. Uses a broad focus on health and illness across the life course and integrates social and biomedical determinants of health.

SYD 4020 Population 3 Credits
Grading Scheme: Letter Grade
Characteristics and trends in the populations of the contemporary world. Historical and current growth patterns related to resource conservation, food production and modernization in various regions of the world. (S and N)
Attributes: General Education - International, General Education - Social Science

SYD 4021 U.S. Population Issues 3 Credits
Grading Scheme: Letter Grade
Introduces major issues related to U.S. population size, growth and composition. Covers historical and contemporary population issues and introduces basic demographic measures and sources of data.

SYD 4050 Environment and Society 3 Credits
Grading Scheme: Letter Grade
Social foundations of environmental problems and social responses to environmental issues, including contestation, conflicts and movements.

SYD 4701 Nationalism and Ethnicity in Europe 3 Credits
Grading Scheme: Letter Grade
Comparative study of the roles played by nationalism and ethnic identity in modern Europe. (S and N)
Attributes: General Education - International, General Education - Social Science

SYD 4800 Sociology of Gender 3 Credits
Grading Scheme: Letter Grade
Examines the social construction of gender in everyday life; how gender structures social institutions such as the economy and mass media; and how gender shapes the distribution of resources, power and privilege in ways that benefit men over women. (S and D)
Attributes: General Education - Diversity, General Education - Social Science

SYO 4540 Organizations 3 Credits
Grading Scheme: Letter Grade
The behavior of individuals and systems in formal organizations and bureaucratic models: government, hospitals, churches, schools, industry as manifestations of a common principle.
Prerequisite: 12 credits of sociology or the equivalent foundations in education administration, industrial and systems engineering, management or political science.

SYP 3000 Society and the Individual 3 Credits
Grading Scheme: Letter Grade
Relation of the individual to the social environment with special reference to person perception, self-formation, self-disclosure, attitude formation and change, and group structure and processes. Social forces that shape the lives of individuals and how individuals adjust to modern society. (S)
Prerequisite: SYG 2000.
Attributes: General Education - Social Science

SYP 3510 Deviance 3 Credits
Grading Scheme: Letter Grade
Introduces the sociology of deviance: the definition of deviance; types of deviant behavior such as suicide, drugs and alcohol abuse, sexual deviance, deviant subcultures and violence; differential labeling and institutional processing; and implications of social control. (S)
Prerequisite: SYG 2000.
Attributes: General Education - Social Science

SYP 4060 Sociology of Human Sexuality 3 Credits
Grading Scheme: Letter Grade
Theoretical and conceptual issues, empirical research and social policies germane to human sexuality in the U.S. Topics include sexual identity and orientation; sexual behavior; social control of sexuality; social implications of STDs and HIV/AIDS; and the relationship between sexuality and the socio-political process.
Prerequisite: SYG 2000.

SYP 4520 Criminology 3 Credits
Grading Scheme: Letter Grade
Prerequisite: SYG 2000.

SYP 4550 Alcohol, Drugs and Society 3 Credits
Grading Scheme: Letter Grade
Overview of alcohol and drug use and abuse in modern society. Emphasis on social characteristics, social processes, policy and programs in socially accepted and deviant use.

SYP 4730 Sociology of Aging and Life Course 3 Credits
Grading Scheme: Letter Grade
Social and personal conditions of post-retirement years; family and housing patterns; income, leisure, health and group processes; evaluating institutional care for the aged. (S and D)
Attributes: General Education - Diversity, General Education - Social Science

Soil and Water Sciences
Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information
The Soil and Water Sciences Department researches and teaches about soil, water, and environmental sciences in urban, agricultural, and natural ecosystems. Since its origins over 100 years ago, the department has made significant contributions to improving the productivity of Florida's agriculture, helping protect the state's unique ecosystems, and contributing to soil and water science at national and international levels. Curriculum
- Combination Degrees
- Environmental Management in Agriculture and Natural Resources | Interdisciplinary Studies
- Environmental Management in Agriculture and Natural Resources | Interdisciplinary Studies UF Online
- Soil and Water Sciences
- Soil and Water Sciences Minor

Courses
AGG 4502 Nanotechnology in Food, Agriculture, and Environment 3 Credits
Grading Scheme: Letter Grade
Application of nanotechnology in crop production, food processing and preservation, and environmental remediation; behavior of engineered nanoparticles in plant, soil and the environment, and environmental toxicology and regulations of engineered nanoparticles.
Prerequisite: SWS 3022.

ALS 3133 Agricultural and Environmental Quality 3 Credits
Grading Scheme: Letter Grade
Analysis of effects of agriculture on environmental quality; emphasis on agricultural wastes and practices; potential for using agricultural systems for disposal of other wastes; effects of pollution on the agricultural environment. (P)
Attributes: General Education - Physical Science

ALS 4154 Global Agroecosystems 3 Credits
Grading Scheme: Letter Grade
Focuses on the principles of agroecology and presentation of topics that integrate ecological with agricultural principles to optimize resource conservation, productivity, societal benefit, and profitability.
Prerequisite: SWS 3022 and ALS 3153 and AGR 4214C or the equivalent.

SWS 2007 The World of Water 3 Credits
Grading Scheme: Letter Grade
The full range of water issues including abundance and quality of water in the environment, water policy and conflict. (P)
Attributes: General Education - Physical Science
SWS 2008 Land and Life 3 Credits  
Grading Scheme: Letter Grade  
Relationships between human activities and soil and environmental quality. Lectures concentrate on the fundamentals of soil and environmental science using case studies to illustrate basic principles. Intended for non-majors. (B)  
Attributes: General Education - Biological Science  

SWS 3022 Introduction to Soils in the Environment 3 Credits  
Grading Scheme: Letter Grade  
Fundamentals of soil science emphasizing the physical, chemical and biological properties of soils in relation to growth of native and agricultural plants and environmental uses. (P)  
Attributes: General Education - Physical Science  

SWS 3022L Introduction to Soils in the Environment Laboratory 1 Credit  
Grading Scheme: Letter Grade  
Hands-on exposure to soils-related properties and processes.  

SWS 3023L Soil Judging 2 Credits  
Grading Scheme: Letter Grade  
Students learn to inventory soil properties and record them on a standard form used by USDA soil scientists. Students travel locally to the field and also attend a 3-day regional soil judging contest where they learn to classify soils using soil taxonomy and to interpret soil quality and behavior from soil properties.  

SWS 4116 Environmental Nutrient Management 3 Credits  
Grading Scheme: Letter Grade  
Consumption, existing reserves, formulation, chemical and physical properties, and manufacture of commercial fertilizers; basic chemical reactions of fertilizer materials with the soil and the fate of the nutritional elements whether it be loss by leaching, plant uptake, fixation or soil retention. (P)  
Prerequisite: SWS 3022.  
Attributes: General Education - Physical Science  

SWS 4180 Earth System Analysis 3 Credits  
Grading Scheme: Letter Grade  
Analysis of global-scale interdependences between climate, biogeochemical cycles and humans using a systems approach.  
Prerequisite: MAC 2233 or PHY 2048.  

SWS 4204 Urban Soil and Water Systems 3 Credits  
Grading Scheme: Letter Grade  
Issues and opportunities related to soil and water quality in urban systems. Students will learn and discuss consequences of human population growth on soil and water systems in urban areas.  
Prerequisite: SWS 3022.  

SWS 4207 Sustainable Agricultural and Urban Land Management 3 Credits  
Grading Scheme: Letter Grade  
Agricultural and urban water quality issues in Florida, their bases, land and nutrient management strategies and the science and policy behind Best Management Practices (BMPs). Students will learn to evaluate BMP research and analyze its role in determining practices and policies that protect water quality.  
Prerequisite: SWS 3022 or instructor permission.  

SWS 4223 Environmental Biogeochemistry 3 Credits  
Grading Scheme: Letter Grade  
To gain understanding of the earth as a biogeochemistry system in the context of global change.  
Prerequisite: (BSC 2005 and BSC 2005L) or (BSC 2010 and BSC 2010L) and (CHM 2045 and CHM 2045L).  

SWS 4231C Soil, Water and Land Use 3 Credits  
Grading Scheme: Letter Grade  
Suitabilities/limitations of soils for different uses; using soil surveys and related information to plan use/management of land; behavior of water in soils/landscapes; policies for and implications of water allocation among urban, agricultural and natural resource uses. (P)  
Attributes: General Education - Physical Science  

SWS 4233 Soil and Water Conservation 3 Credits  
Grading Scheme: Letter Grade  
Soil/water resources, historical erosions and sediment problems, geologic vs. accelerated erosion, erosion prediction equations and government conservation programs; water conservation, irrigation, drainage and salinity; stormwater management; and case studies in erosion and sedimentation.  

SWS 4244 Wetlands 3 Credits  
Grading Scheme: Letter Grade  
Introduces wetland ecosystems with emphasis on principles and problems associated with their functions and values as related to water quality. Students become familiar with basic and applied concepts in hydrology, soils and vegetation of both constructed and natural wetlands.  

SWS 4245 Water Resource Sustainability 3 Credits  
Grading Scheme: Letter Grade  
The quantitative effects of human impacts on hydrologic ecosystems (aquifers, watersheds, coastal zones, lakes and wetlands). Case studies illustrate detrimental effects of unsustainable resource utilization and beneficial management strategies.  

SWS 4303C Soil Microbial Ecology 3 Credits  
Grading Scheme: Letter Grade  
Occurrence and activities of soil microorganisms and their influence on soil productivity and environmental quality.  
Prerequisite: (BSC 2005 and BSC 2005L) or (BSC 2010 and BSC 2010L).  

SWS 4307 Ecology of Waterborne Pathogens 3 Credits  
Grading Scheme: Letter Grade  
Prerequisite: MCB 3020 or MCB 3023 or MCB 4203, or equivalent.  

SWS 4451 Soil and Water Chemistry 3 Credits  
Grading Scheme: Letter Grade  
Physico-chemical processes such as mineral weathering and formation, sorption and ion exchange. Also includes introduction to diffuse double-layer theory.  

SWS 4504 Aquatic Toxicology: Science and Applications 3 Credits  
Grading Scheme: Letter Grade  
Introduces foundational knowledge and concepts of the field of aquatic toxicology. Examines how environmental and chemical properties influence the fate and bioavailability of contaminants in aquatic environments; introduces principles of toxicology and methods used to study aquatic toxicology, as well as applications of knowledge gained from aquatic toxicology studies.  
Prerequisite: (BSC 2005 and BSC 2005L) or (BSC 2010 and BSC 2010L) and (CHM 2045 and CHM 2045L) or (CHM 2046 and CHM 2046L).  

SWS 4550 Soils, Water and Public Health 3 Credits  
Grading Scheme: Letter Grade  
Important instances where soil and water science and public health overlap; develop skills required for competency in both disciplines.  
Prerequisite: (CHM 2045 and CHM 2046 and BSC 2010) or instructor permission.
SWS 4602C Soil Physics 3 Credits
Grading Scheme: Letter Grade
Physical processes and properties of soils that influence optimum growth of plants as well as potential for groundwater pollution from agrochemicals and applied wastes. Primary emphasis is given to basic concepts of transport and retention for water and solutes; secondary emphasis is given to air and heat in the root zone of the soil profile; and limited attention is given to mechanical properties of soil that affect the proliferation of plant roots. (P)
Prerequisite: MAC 2311 and PHY 2004 and SWS 3022.
Attributes: General Education - Physical Science

SWS 4715C Environmental Pedology 4 Credits
Grading Scheme: Letter Grade
Study and analysis of soil in the environment and the factors responsible for soil formation and geographic distribution. Development of hydric soil criteria and hydric soil indicators. Emphasis on morphology or hydric/ non-hydric soils and introduction to diagnostic horizons and soil classification. Course also includes abs on soil field techniques.
Prerequisite: SWS 3022.

SWS 4720C GIS in Soil and Water Science 3 Credits
Grading Scheme: Letter Grade
Basic, practical understanding of GIS concepts, technical issues and applications to soil and water science using ArcGIS geographic information system.

SWS 4800 Environmental Soil and Water Monitoring Techniques 3 Credits
Grading Scheme: Letter Grade
Introduces the principles, objectives, and practices in environmental monitoring. Learn the proper techniques in planning for monitoring projects, sampling design, sample collection, basic principles of laboratory analysis, and basic data analysis. Also introduces and emphasizes quality assurance and quality control requirements.
Prerequisite: BSC 2010 and BSC 2010L and CHM 2045 and CHM 2045L.

SWS 4900 Supervised Extension Experience in Soil and Water Sciences 0-3 Credits
Grading Scheme: S/U
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation. (S-U)

SWS 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Selected topics for qualified students.
Prerequisite: 8 credits of SWS courses and instructor permission.

SWS 4911 Supervised Research in Soil and Water Science 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application. (S-U)

SWS 4915 Honors Thesis Research in Soil and Water Science 0-3 Credits
Grading Scheme: S/U
Independent research in soil and water science leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)
Prerequisite: junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

SWS 4932 Special Topics in Soil and Water Science 1-3 Credits
Grading Scheme: Letter Grade
Variable topics designed to meet students' needs and interests.

SWS 4941 Full-time Practical Work Experience in Soil and Water Science 1-3 Credits
Grading Scheme: S/U
Practical work must be a new experience and related to field of study. (S-U)
Prerequisite: prior arrangement with advisor, and department and dean permissions.

Spanish and Portuguese Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

The Department of Spanish and Portuguese Studies endeavors to achieve excellence in research, teaching, and public service related to the languages, literature, and cultures of the areas and countries where Spanish and Portuguese are spoken.

Courses

Catalan
CAT 3180 Introduction to Catalan 1 3 Credits
Grading Scheme: Letter Grade
Acquire a working knowledge of the Catalan language and the aspects of Catalan culture and society. No previous experience with Catalan is required, although knowledge of another Romance language (through intermediate level) is required.
Prerequisite: completion of second year in another Romance language or instructor permission.

CAT 3182 Introduction to Catalan 2 3 Credits
Grading Scheme: Letter Grade
To expand the linguistic and cultural knowledge acquired in CAT 3180 and to further develop an understanding of Catalan art, culture and society. Emphasis on speaking, listening, reading and writing.
Prerequisite: CAT 3180 or instructor permission.
CAT 3280 Intermediate Catalan 3 Credits
Grading Scheme: Letter Grade
Review and extend knowledge of grammar, vocabulary, culture; develop oral and written skills; begin reading literary works; and consolidate knowledge of Catalan culture.
Prerequisite: CAT 3182 or equivalent.

CAT 3281 Intermediate Catalan 2 3 Credits
Grading Scheme: Letter Grade
Second semester in the intermediate Catalan language and culture sequence, continuing the study of the language and culture of Catalonia with emphasis on linguistic proficiency and cultural knowledge.
Prerequisite: CAT 3180 or equivalent.

Portuguese

LIT 2000 Introduction to Literature 3 Credits
Grading Scheme: Letter Grade
Examines the important role literature has played in individuals’ lives and in society, presenting a range of literary styles and genres, from different countries and historical periods. Special attention paid to development of critical skills of analysis and interpretation. (H)
Prerequisite: ENC 1101
Attributes: General Education - Humanities

POR 1130 Beginning Portuguese 1 5 Credits
Grading Scheme: Letter Grade
First course in the basic Portuguese language sequence, which emphasizes the language as spoken in Brazil. Develops basic communication skills in reading, writing, speaking and listening. Not open to proficient speakers of Spanish.

POR 1131 Beginning Portuguese 2 5 Credits
Grading Scheme: Letter Grade
Continuation of the series in basic Portuguese, which emphasizes the language as spoken in Brazil. Develops basic communication skills in reading, writing, speaking and listening. Not open to proficient speakers of Spanish.
Prerequisite: POR 1130 with minimum grade of C or S, or the equivalent.

POR 3010 Introduction to Portuguese and Brazil: Accelerated 5 Credits
Grading Scheme: Letter Grade
Designed for those with knowledge of another Romance language (usually Spanish) through study or home experience. A complete introduction to the language, assuming that students have no previous study of Portuguese. It also satisfies the CLAS and Journalism foreign-language requirement in one semester.
Prerequisite: FRE 3300 and SPN 3300 or equivalent.

POR 3224 Applied Portuguese 1-5 Credits
Grading Scheme: Letter Grade
Portuguese-language reading and discussions to accompany and complement courses of diverse content offered in other departments. Readings and discussions are in Portuguese to develop vocabulary and fluency related to the content of the companion course and to provide an international perspective on the issues of the main course. (N)
Prerequisite: instructor permission.
Attributes: General Education - International

POR 3242 Oral and Written Practice 3 Credits
Grading Scheme: Letter Grade
Intermediate-level course emphasizing all four skills; consists of printed and electronic readings, writing essays and taking notes, oral discussions and presentations, lab activities and grammar review.
Prerequisite: POR 1131 or POR 3010 or equivalent.

POR 3243 Composition and Conversation 3 Credits
Grading Scheme: Letter Grade
An intermediate-level course with continued expansion of vocabulary, review of essential grammar and structures and development of reading, writing and speaking skills.
Prerequisite: POR 1131 or POR 3010, or the equivalent.

POR 3451 Introduction to Portuguese Translation and Interpretation 3 Credits
Grading Scheme: Letter Grade
Improve Portuguese language skills through application of the principles of translation while gaining information on professional opportunities in the field.
Prerequisite: POR 3010 or the equivalent.

POR 3500 Luso-Brazilian Civilization 3 Credits
Grading Scheme: Letter Grade
Introduction to the central historical events, political institutions, intellectual currents and artistic movements in the foundation and development of Portugal, Brazil and Lusophone Africa. Preview of topics studied in other literature and culture courses. (H and N)
Prerequisite: POR 3242 or the equivalent, or instructor permission.
Attributes: General Education - Humanities, General Education - International

POR 3502 Brazilian Culture 3 Credits
Grading Scheme: Letter Grade
Introduction to the study of modern cultural forms, including folk pageantry, performance arts, literature, film and television.
Prerequisite: POR 3242 or instructor permission.

POR 3701 Introduction to Portuguese Linguistics 3 Credits
Grading Scheme: Letter Grade
An introduction to the basic concepts and analytical techniques of linguistics, applied specifically to the Portuguese language. Practices the linguistic analysis of the sounds, words and sentences of Portuguese, with relevant comparisons to Spanish and English where applicable.
Prerequisite: POR 3242 or POR 3243 with minimum grade of C.

POR 3930 Topics in Brazilian Culture and Civilization 3 Credits
Grading Scheme: Letter Grade
Variable topics in Brazilian culture and civilization, including racial identity, feminism, regionalism, music, film, art, religion, sports, and more.
Prerequisite: POR 3010.

POR 3943 Internship in Portuguese 1-3 Credits
Grading Scheme: S/U
Variable 1-3 credits, this course complements the students' internship with guided reflection. Given the nature of our Portuguese program, students can complete their internship wherever there is interaction with Portuguese speaking communities. This program offers an open alternative so that they can customize their professional interests.
Prerequisite: POR 3243 and permission of the instructor.

POR 4420 Advanced Composition and Syntax 3 Credits
Grading Scheme: Letter Grade
A language course that distinguishes Portuguese from related Romance tongues, including the more difficult aspects of grammar and structure, specialized vocabulary, different stylistic registers, and application of these to translation and original composition.
Prerequisite: POR 3243 or the equivalent (intermediate proficiency).

POR 4906 Honors Thesis 1-3 Credits
Grading Scheme: Letter Grade
Honors thesis preparation.
Prerequisite: 4000-level POW or POR course.
POR 4956 Overseas Studies 3-6 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

POW 3100 Introduction to Literature in Portuguese 3 Credits
Grading Scheme: Letter Grade
A survey of literature written in Portuguese by major authors from Portugal, Brazil and Lusophone Africa. Primary emphasis falls on narrative and comparisons of developments in Portugal and the former colonies. (H and N)
Prerequisite: POR 3243 or the equivalent, or instructor permission.
Attributes: General Education - Humanities, General Education - International

POW 3130 Introduction to Brazilian Literature 1 3 Credits
Grading Scheme: Letter Grade
A survey of literary production in Brazil 1500-1900, including the literature of discovery, colonial manifestations and the major works of Romanticism, Realism and Parnassianism. (H and N)
Prerequisite: POR 3243 or the equivalent, or instructor permission.
Attributes: General Education - Humanities, General Education - International

POW 3131 Introduction to Brazilian Literature 2 3 Credits
Grading Scheme: Letter Grade
A survey of 20th-century literary movements: premodernism, modernism and regionalism in prose and poetry, with an emphasis on the fiction of contemporary writers. (H and N)
Prerequisite: POR 3243 or the equivalent, or program coordinator permission.
Attributes: General Education - Humanities, General Education - International

POW 4380 Contemporary Brazilian Poetry 3 Credits
Grading Scheme: Letter Grade
A study of lyric, both literary and musical, in the second half of the 20th century, including experimental trends, political verse, popular music and youth movements.
Prerequisite: introductory knowledge of Brazilian literature.

POW 4382 Brazilian Drama 3 Credits
Grading Scheme: Letter Grade
A survey of the milestones of Brazilian theatre with an emphasis on 20th century plays. In addition to the plays, the course also presents the theoretical framework and political context of theatrical production in Brazil. (H and N)
Prerequisite: introductory knowledge of Brazilian literature.
Attributes: General Education - Humanities, General Education - International

POW 4450 The Modernist Movement in Brazilian Literature 3 Credits
Grading Scheme: Letter Grade
Readings in fiction, poetry and essay of the nationalist and avant-garde decades of the 1920s and 1930s. Discussions are designed to situate Brazilian letters in diverse national and international contexts. Literary works are complemented by considerations of concurrent production in music and the arts.
Prerequisite: introductory knowledge of Brazilian literature.

POW 4454 Nineteenth-Century Brazilian Literature 3 Credits
Grading Scheme: Letter Grade
The major literary trends of the 19th century, primarily in fiction (Romanticism, Realism and Naturalism), poetry and essays, to familiarize students with representative works of each literary movement and genre. (H and N)
Prerequisite: introductory knowledge of Brazilian literature.
Attributes: General Education - Humanities, General Education - International

POW 4480 Contemporary Brazil Narrative 3 Credits
Grading Scheme: Letter Grade
Rotating topics may include studies in genre (the short story, the novel), theme (science fiction) or author (Rubem Fonseca, Clarice Lispector, Guimaraes Rosa). (H and N)
Attributes: General Education - Humanities, General Education - International

POW 4700 Machado de Assis and His Contemporaries 3 Credits
Grading Scheme: Letter Grade
Machado de Assis, the 19th-century master of Brazilian letters, produced writings of every literary genre, including literary criticism, poetry and drama, in addition to his ingenious short stories and novels. This course surveys Machado's work and compares his novels to those of his contemporaries. (H and N)
Prerequisite: introductory knowledge of Brazilian literature.

POW 4905 Individual Work 1-3 Credits
Grading Scheme: Letter Grade
Individual work in Portuguese.
Prerequisite: instructor permission.

POW 4911 Undergraduate Research in Portuguese 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

POW 4930 Readings in Lusophone Culture and Civilization 3 Credits
Grading Scheme: Letter Grade
Diverse subjects in Brazilian and Portuguese studies, including the Brazilian Northeast, the Afro-Brazilian world, the culture of dictatorship, popular genres and popular music. In addition to readings of original texts, course may incorporate sound recordings and film.
Prerequisite: introductory knowledge of Luso-Brazilian literature.

PRT 3391 Brazilian Cinema 4 Credits
Grading Scheme: Letter Grade
Critical analysis of Brazilian film and the relationship of content to social and political forces.

PRT 3930 Special Topics in Lusophone Culture and Civilization 1-4 Credits
Grading Scheme: Letter Grade
Variable topics in Brazilian, Portuguese or Luso-African culture and civilization, including globalism, regionalism, song literature, film and video, negritude, women's movements and Amazonian discourse.
Spanish

CAT 3180 Introduction to Catalan 1 3 Credits
Grading Scheme: Letter Grade
Acquire a working knowledge of the Catalan language and the aspects of Catalan culture and society. No previous experience with Catalan required, although knowledge of another Romance language (through intermediate level) is required.
Prerequisite: completion of second year in another Romance language or instructor permission.

CAT 3182 Introduction to Catalan 2 3 Credits
Grading Scheme: Letter Grade
To expand the linguistic and cultural knowledge acquired in CAT 3180 and to further develop an understanding of Catalan art, culture and society. Emphasis on speaking, listening, reading and writing.
Prerequisite: CAT 3180 or instructor permission.

CAT 3280 Intermediate Catalan 3 Credits
Grading Scheme: Letter Grade
Review and extend knowledge of grammar, vocabulary, culture; develop oral and written skills; begin reading literary works; and consolidate knowledge of Catalan culture.
Prerequisite: CAT 3182 or equivalent.

CAT 3281 Intermediate Catalan 2 3 Credits
Grading Scheme: Letter Grade
Second semester in the intermediate Catalan language and culture sequence, continuing the study of the language and culture of Catalonia with emphasis on linguistic proficiency and cultural knowledge.
Prerequisite: CAT 3180 or equivalent.

IDS 2334 Chemistry in the Cocina Latina 3 Credits
Grading Scheme: Letter Grade
Combines the science of chemistry with the humanistic aspects of the Spanish language and Hispanic cultures and histories, while exploring Hispanic cultures and language through the foods and recipes that define them, and the science of those foods by studying chemical reactions inherent in cooking.

LIT 2000 Introduction to Literature 3 Credits
Grading Scheme: Letter Grade
Examines the important role literature has played in individuals’ lives and in society, presenting a range of literary styles and genres, from different countries and historical periods. Special attention paid to development of critical skills of analysis and interpretation. (H)
Prerequisite: ENC 1101
Attributes: General Education - Humanities

SPN 1130 Beginning Spanish 1 5 Credits
Grading Scheme: Letter Grade
First in the basic Spanish language sequence, developing basic communication skills in reading, writing, speaking and listening.

SPN 1131 Beginning Spanish 2 5 Credits
Grading Scheme: Letter Grade
Second in the basic Spanish language sequence, continuing development of basic communication skills in reading, writing, speaking and listening.

SPN 1134 Accelerated Spanish Review 5 Credits
Grading Scheme: Letter Grade
Provides a rapid review of basic communicative Spanish as preparation for intermediate Spanish courses. For those with previous Spanish study but insufficient placement scores to move to the 2000 level.

SPN 1180 Elementary Spanish: Review and Progress 3 Credits
Grading Scheme: Letter Grade
Alternative to SPN 1130, for students who have previous experience in Spanish. Covers the material of SPN 1130 and meets three times weekly.
SPN 1131 follows this course.
Prerequisite: refer to placement section. Not open to bilingual speakers of Spanish.

SPN 2200 Intermediate Spanish 1 3 Credits
Grading Scheme: Letter Grade
First of the intermediate Spanish language sequence. Develops intermediate skills in reading, writing, speaking and listening. Builds communicative competence and enhances social and cultural awareness of the Spanish-speaking world. Taught entirely in Spanish.

SPN 2201 Intermediate Spanish 2 3 Credits
Grading Scheme: Letter Grade
Second course in the intermediate Spanish language sequence. Continues development of intermediate skills in reading, writing, speaking and listening. Continues to enhance communicative competence and social and cultural awareness. Taught entirely in Spanish.
Prerequisite: SPN 2200 with a minimum grade of C or the equivalent placement scores on SAT II, IB or AP tests or the equivalent coursework as approved by the undergraduate coordinator. Not open to bilingual speakers of Spanish.

SPN 2240 Intensive Communication Skills 3 Credits
Grading Scheme: Letter Grade
Develops the ability to understand oral and written Spanish and is required of all majors and minors who are not bilinguals, unless they initially placed above this level. Preparation for 3000-level courses.
Prerequisite: SPN 2201 with a minimum grade of C or the equivalent placement scores on SAT II, IB or AP tests or the equivalent coursework as approved by the undergraduate coordinator. Not open to bilingual speakers of Spanish.

SPN 2270 Intermediate Spanish Abroad 3 Credits
Grading Scheme: Letter Grade
Equivalent to SPN 2240, the obligatory first course in the Spanish major and minor for non-bilinguals. Preparation for upper-division Spanish courses. Promotes cultural awareness and develops an active command of the language by means of intensive interaction with the people and current issues and events of the Spanish-speaking host city and surrounding area.
Prerequisite: SPN 2201 or the equivalent placement scores on SAT II, IB or AP tests, and undergraduate coordinator permission.

SPN 2271 Accelerated Intermediate Spanish Abroad 3 Credits
Grading Scheme: Letter Grade
Students acquire intermediate communicative skills in Spanish through interaction in Spanish-speaking communities. Offered abroad only, course depends on intensive language immersion for successful acquisition in a shortened period of time. Successful completion is comparable to having passed SPN 2200 and SPN 2201.
Prerequisite: SPN 1131 or SPN 1134 with a minimum grade of C or the equivalent placement scores on SAT II, IB or AP tests.
SPN 2340 Introduction to Reading and Writing Spanish for Heritage Learners 3 Credits
Grading Scheme: Letter Grade
Intermediate-level course for heritage learners with some speaking and listening ability from exposure outside the classroom but with little or no formal exposure to the language. Emphasizes reading and vocabulary, introduces grammar and orthographic rules.
Prerequisite: placement test or department-administered test for Heritage Learners.

SPN 2442 Intensive Intermediate Spanish for Business 3 Credits
Grading Scheme: Letter Grade
An intensive intermediate-level course for students interested in learning Spanish in the context of the business world. Includes business vocabulary and business practices in the Hispanic world.
Prerequisite: SPN 2240 or the equivalent.

SPN 2471 Accelerated Spanish Abroad 1-5 Credits
Grading Scheme: Letter Grade
Reviews major aspects of grammar in a context that enhances understanding of the Spanish or Spanish-American way of life and modes of expression. Reading comprehension and composition are developed through readings on diverse topics related to Latin America and Spain.
Prerequisite: SPN 2200 or the equivalent placement scores on SAT II, IB, or AP tests, and section coordinator or undergraduate advisor permission.

SPN 3036 Spanish for Health Professions 3 Credits
Grading Scheme: Letter Grade
Provides students with the linguistic and cultural skills necessary for effectively treating Spanish-speaking patients with medical emergencies, illnesses and other health issues.
Prerequisite: SPN 3300 or SPN 3350 or the equivalent placement test or department-administered test for Heritage Learners.

SPN 3224 Applied Spanish 1-5 Credits
Grading Scheme: Letter Grade
Spanish-language section designed to accompany and complement courses offered in other departments. Readings and discussions are in Spanish to develop vocabulary and fluency related to the content of the companion course and to provide an international perspective on the issues of the main course. (N)
Prerequisite: SPN 3300 or SPN 3350, or undergraduate coordinator permission.
Attributes: General Education - International

SPN 3300 Spanish Grammar and Composition 1 3 Credits
Grading Scheme: Letter Grade
Intensive language course to develop mastery of grammatical principles, increase vocabulary and enhance writing and composition skills. This course (or SPN 3350 for bilingual speakers) is a prerequisite for most 3000/4000-level Spanish courses.
Prerequisite: SPN 2240; can be taken concurrently with SPN 2240 or SPN 2301. Not open to bilingual speakers of Spanish.

SPN 3301 Spanish Grammar and Composition 2 3 Credits
Grading Scheme: Letter Grade
Continues review of Spanish grammar begun in SPN 3300 and concentrates on intensive writing practice in expository Spanish. Highly recommended for Spanish majors and minors who are not taking the bilingual sequence; a prerequisite for SPN 4420, Advanced Composition and Syntax.
Prerequisite: SPN 3300; can be taken concurrently with SPN 3300. Not open to bilingual speakers of Spanish.

SPN 3350 Spanish Grammar and Composition for Heritage Learners 3 Credits
Grading Scheme: Letter Grade
Emphasizes aspects of the language and grammar for those who have learned Spanish through exposure outside the classroom in addition to some formal exposure in school settings, and whose speaking and comprehension abilities are generally more developed than their writing and reading skills.
Prerequisite: placement test or department-administered test for heritage learners or heritage program coordinator permission or SPN 2340 with minimum grade of B.

SPN 3392 Spanish Conversation, Film and Culture 3 Credits
Grading Scheme: Letter Grade
Enhances students' oral skills in Spanish through movie reviews, oral reports, debates and class discussions. Introduces students to current social, economic and political issues in Latin-America and Spain through the critical analysis of contemporary Spanish-language films.
Prerequisite: SPN 2240 or placement test. Not open to bilingual speakers of Spanish.

SPN 3414 Advanced Spanish Conversation 2 3 Credits
Grading Scheme: Letter Grade
Authentic materials of the Hispanic world are used to improve listening, comprehension and speaking skills. Oral expression is used in conversation and in formal and informal presentations on a variety of topics.
Prerequisite: SPN 2240 or instructor permission. Not open to bilingual speakers of Spanish.

SPN 3440 Commercial Spanish 3 Credits
Grading Scheme: Letter Grade
An introduction to the vocabulary and business practices of the Hispanic world. Emphasis on oral and written business communications. Overview of cultural differences within the Hispanic world and between the U.S. and the Hispanic world, with emphasis on the business impact. (S and N)
Prerequisite: SPN 3300 or SPN 3350, or the equivalent as approved by the undergraduate coordinator.
Attributes: General Education - International, General Education - Social Science

SPN 3443 Marketing and Advertising in the Spanish-Speaking World 3 Credits
Grading Scheme: Letter Grade
An introduction to the related fields of marketing and advertising as they pertain to the Spanish-speaking world. Focuses on marketing campaigns and advertising strategies, in print and on television. Emphasis on the cultural element(s) and context(s) of marketing/advertising campaigns. Covers a representative sampling of Spanish-speaking countries, with special attention to Spain, Mexico, Argentina and the United States.
Group work required for some class projects.
Prerequisite: SPN 2340 or SPN 3300, or instructor permission.

SPN 3451 Spanish Translation and Interpretation: Theory and Practice 3 Credits
Grading Scheme: Letter Grade
Provides an introduction to the theories and principles of translation and interpretation, combined with practice in English-to-Spanish and Spanish-to-English translations. Working individually and in groups, students will acquire translation techniques for a variety of genres, such as literary texts, letters, legal documents, newspapers, commercial advertisements, etc.
Prerequisite: SPN 3300 or SPN 3350 or the equivalent.
SPN 3472 Advanced Communicative Spanish Abroad 3 Credits
Grading Scheme: Letter Grade
Practical, in-class communication exercises in comprehension, speaking, reading and writing. Classroom activities are coordinated with homework to emphasize communication. The foreign setting also serves as a living language laboratory.
Prerequisite: SPN 2240 or SPN 2340, or placement scores on SAT II, IB, or AP tests, or equivalent coursework approved by the section coordinator or undergraduate advisor.

SPN 3510 Culture and Civilization of Spain 3 Credits
Grading Scheme: Letter Grade
A survey of Spanish history, customs and the arts from ancient times to the present; devotes considerable attention to life in contemporary Spain since the death of General Franco in 1975. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or equivalent coursework approved by the undergraduate coordinator.
Attributes: General Education - Humanities, General Education - International

SPN 3520 Culture and Civilization of Spanish America 3 Credits
Grading Scheme: Letter Grade
The rich and often conflicting diversity of the Americas as well as the historical experiences that allow us to speak of the Americas as a whole: The conquest, the colonial period, the struggles for independence against (neo)colonialism, the clashing and mixing of cultures, the yoke of slavery and servitude, the formation of rigid social hierarchies, and the frustrated search for democracy and economic development. These phenomena are followed in a variety of artistic media, from painting to poetry and from music to film. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or equivalent coursework approved by the undergraduate advisor.
Attributes: General Education - Humanities, General Education - International

SPN 3533 Spanish for Educators 3 Credits
Grading Scheme: Letter Grade
Designed for learners interested in teaching Spanish as a world language and/or increasing their linguistic and cultural expertise to work with educational stakeholders. Improve Spanish proficiency, learn methods for teaching Spanish, and gain awareness of Hispanic cultures as they relate to educational settings.
Prerequisite: SPN 3300 or SPN 3350.

SPN 3572 Revolving Topics Abroad 3-6 Credits
Grading Scheme: Letter Grade
Rotating topics focus on Spanish culture and civilization.

SPN 3700 Introduction to Hispanic Linguistics 3 Credits
Grading Scheme: Letter Grade
Initial overview of central theories and applications of linguistic analysis in the study of Spanish. The phonological, grammatical, discursive and social structures of Spanish are considered within five areas of popular inquiry in Hispanic linguistics: history of Spanish, language variation and change, Spanish in contact with other languages, political and educational linguistics, and acquisition of Spanish as a first and second language. Conducted entirely in Spanish and is a prerequisite for all 4000-level courses in Hispanic linguistics.
Prerequisite: SPN 3300 or SPN 3350.

SPN 3831 Spanish for the Legal Professions 3 Credits
Grading Scheme: Letter Grade
Prepares students for professional work in legal professions in a Spanish-speaking environment. Enables students to understand legal texts and arguments, write documents and express themselves using legal vocabulary. Covers a broad mix of practical legal terminology, vocabulary and conversational skills. Conducted entirely in Spanish.
Prerequisite: SPN 3300 or SPN 3350, or instructor permission.

SPN 3930 Topics in Spanish and Spanish American Culture and Civilization 3 Credits
Grading Scheme: Letter Grade
Variable topics in Latin American culture and civilization, including racial identity, feminism, regionalism, music, film, art, religion and sports.
Prerequisite: SPN 3300 or SPN 3350, or undergraduate advisor permission.

SPN 3943 Internship in Spanish 1-3 Credits
Grading Scheme: S/U
This course complements the students' internship with guided reflection. Students can complete the internship wherever there is interaction with Hispanic communities. This program offers an open alternative so that students can customize their professional interests.
Prerequisite: SPN 3300 or Spn 3350, and permission of the instructor.

SPN 3948 Spanish in the Community 3 Credits
Grading Scheme: Letter Grade
Engages students in the local Spanish-speaking community through academic investigation and service work. Consists of classroom meetings, community projects outside of class, and reflective assignments; may be taken a maximum of one time on UF’s campus and one time abroad.
Prerequisite: SPN 3300 OR SPN 3350.

SPN 4314 Advanced Spanish Composition and Structure for Heritage Learners 3 Credits
Grading Scheme: Letter Grade
Emphasizes aspects of Spanish style, syntax and registers that can be problematic for the heritage learner. Some prior formal training in the language is expected (SPN 3350 or equivalent in a Spanish-speaking country).
Prerequisite: SPN 3350 with minimum grade of B or placement test or department-administered test for heritage learners.

SPN 4420 Advanced Composition and Syntax 3 Credits
Grading Scheme: Letter Grade
Emphasizes the finer aspects of Spanish syntax, vocabulary and style that give the advanced student difficulties. Class discussion, drills and written compositions.
Prerequisite: SPN 3301 or the equivalent, and undergraduate coordinator permission. Not open to bilingual speakers of Spanish.

SPN 4713 Spanish Second Language Acquisition 3 Credits
Grading Scheme: Letter Grade
Overview of second language acquisition theory with discussion of empirical studies on the acquisition of Spanish. Emphasis on research design and the analysis of oral or written production of learners of Spanish.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010.

SPN 4780 Spanish Phonetics 3 Credits
Grading Scheme: Letter Grade
Focuses on the precise description of Spanish pronunciation with some attention to dialect features and contrastive English phonetics.
Prerequisite: (SPN 3300 or SPN 3350) and (SPN 3700 or LIN 3010).
Prerequisite: SPN 3300 or SPN 3350, or SPN 3700 or LIN 3010.

SPW 4190 Seminar in Spanish-American Literature and Culture 3 Credits
Grading Scheme: Letter Grade
The advanced study of a writer, period, movement, region or topic of Spanish-American literature. Introduces principal literary movements and authors, and trains students to read critically and to appreciate literary Spanish. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.
Attributes: General Education - Humanities, General Education - International

SPW 3031 Survey of Spanish-American Literature: From Independence to Contemporary Times 3 Credits
Grading Scheme: Letter Grade
End of the 19th century to the present. Introduces principal literary movements and authors, and trains students to read critically and to analyze literary Spanish. Reading of major authors who may include Borges, Garcia Marquez, Neruda, Fuentes and Ferre. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.
Attributes: General Education - Humanities, General Education - International

SPW 3030 Survey of Spanish-American Literature: From Discovery to Independence 3 Credits
Grading Scheme: Letter Grade
Overview of Spanish-American literature and its cultural context from the European conquest of the Americas to the 19th century. Introduces principal literary movements and authors, and trains students to read critically and to appreciate literary Spanish. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.
Attributes: General Education - Humanities, General Education - International

SPW 3100 Introduction to Spanish Literature 1 3 Credits
Grading Scheme: Letter Grade
Selected readings in epic, lyric, ballad and popular poetry, early forms of recreational and didactic prose and dramatic works from Spain's Medieval and Golden Ages are presented with attention to form and historical context. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.
Attributes: General Education - Humanities, General Education - International

SPW 3101 Introduction to Spanish Literature 2 3 Credits
Grading Scheme: Letter Grade
Provides an overview of Spanish literature and its cultural context from the 18th century to the present. Introduces principal literary movements and authors and trains students to read critically and to analyze literary Spanish. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.
Attributes: General Education - Humanities, General Education - International

SPW 4190 Seminar in Spanish-American Literature and Culture 3 Credits
Grading Scheme: Letter Grade
The advanced study of a writer, period, movement, region or topic of Spanish-American literature not ordinarily offered in the department. Refer to department website for specific description.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4213 Spanish Prose Fiction of the Golden Age 3 Credits
Grading Scheme: Letter Grade
Examines a literary landscape of rampant generic diversity before novelistic norms were solidified as known them today. Readings and lectures in Spanish.
Prerequisite: any one 3000-level SPW course or the equivalent.
SPW 4263 Readings in the Spanish Novel of the Nineteenth Century 3 Credits
Grading Scheme: Letter Grade
Readings in the Spanish novel of the 19th century. A survey of major authors from costumbri smo to the realism and naturalism of Galdos, Clarin and Pardo Bazan.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4270 Readings in Post-war Narrative 3 Credits
Grading Scheme: Letter Grade
Outstanding stories and novels of contemporary Spanish writers in relation to the historical and cultural context of post-civil war Spain.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4282 Readings in Contemporary Spanish-American Narrative 1 3 Credits
Grading Scheme: Letter Grade
The period of modernization of fiction and the development of new narrative modes in the 1940s and the 1950s; may include magical realism, the detective story and the new urban narratives.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4283 Readings in Contemporary Spanish-American Narrative 2 3 Credits
Grading Scheme: Letter Grade
The new narrative or the boom and post-boom of Latin-American fiction, 1960s to the present.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4310 Readings in Spanish Drama of the Golden Age 3 Credits
Grading Scheme: Letter Grade
Variable readings in Spanish Classical Theater by Lope de Vega, Pedro Calderon de la Barca, Tirso de Molina and others, including entremeses and Autos sacramentales. Focuses on the comedia's appeal to lettered and unlettered spectators and its potential for mass control and social protest.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4354 Readings in Contemporary Spanish-American Poetry 3 Credits
Grading Scheme: Letter Grade
A close reading and critical analysis of masterpieces by the major 20th-century poets of Spanish-America, including recent writers.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4364 Readings in the Spanish-American Essay 3 Credits
Grading Scheme: Letter Grade
Examination of major texts from the early 19th century to the present focusing on such themes as the search for identity and the definition of ethnic, racial, social and class categories.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4521 U.S. Hispanic Literature 3 Credits
Grading Scheme: Letter Grade
Reading, discussion and analysis of works by U.S. Hispanic or Latino/a writers with an examination of the cultural life and social conditions of the Puerto Rican, Cuban and Chicano communities in the U.S.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4532 Introduction to Spanish Romanticism 3 Credits
Grading Scheme: Letter Grade
By studying the canonical works of that moment (Rousseau, Feijoo, Cadalso, Jovellanos, Miranda, Bolivar, Zorrilla, Rivas, Larra, Espronceda, Gomez de Avellaneda, Goya), the course explores the achievements, contradictions and failures of the enlightenment as well as the new organization by Romanticism in Spain and Latin America.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4604 Don Quixote 3 Credits
Grading Scheme: Letter Grade
A close reading of Cervantes' masterpiece that emphasizes the origins of the modern novel as a genre and its implication in the history of ideas.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4720 Readings in Spanish Literature from the Generation of 1898 to 1927 3 Credits
Grading Scheme: Letter Grade
A survey of turn-of-the-century Spanish crises from the perspective of the first generation of Spanish modernists. Authors include Unamuno, Costa, Machado, Valle-Inclan, Baroja and Ortega y Gasset.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4723 Readings in Spanish Literature from the Generation of 1927 to the Present 3 Credits
Grading Scheme: Letter Grade
Studies the development of Spanish literature in this century beginning with the brilliant poets of the generation of 1927, continuing with representative fiction, drama and poetry of the years after the Civil War and concluding with fiction and poetry of the 1990s.
Prerequisite: any one 3000-level SPW course or equivalent.

SPW 4780 Hispanic Women Writers 3 Credits
Grading Scheme: Letter Grade
A seminar dedicated to the exploration of literary works written in Spanish by women of Spain, Latin America and/or the United States.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4930 Revolving Topics in Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Variable content provides opportunity for in-depth study of literary and cultural topics not offered in other courses.
Prerequisite: any one 3000-level SPW course or the equivalent.

Spanish | Spanish and Portuguese Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

The Department of Spanish and Portuguese Studies endeavors to achieve excellence in research, teaching, and public service related to the languages, literature, and cultures of the areas and countries where Spanish and Portuguese are spoken.

Courses

CAT 3180 Introduction to Catalan 1 3 Credits
Grading Scheme: Letter Grade
Acquire a working knowledge of the Catalan language and the aspects of Catalan culture and society. No previous experience with Catalan required, although knowledge of another Romance language (through intermediate level) is required.
Prerequisite: completion of second year in another Romance language or instructor permission.

CAT 3182 Introduction to Catalan 2 3 Credits
Grading Scheme: Letter Grade
To expand the linguistic and cultural knowledge acquired in CAT 3180 and to further develop an understanding of Catalan art, culture and society. Emphasis on speaking, listening, reading and writing.
Prerequisite: CAT 3180 or instructor permission.

CAT 3280 Intermediate Catalan 3 Credits
Grading Scheme: Letter Grade
Review and extend knowledge of grammar, vocabulary, culture; develop oral and written skills; begin reading literary works; and consolidate knowledge of Catalan culture.
Prerequisite: CAT 3182 or equivalent.

CAT 3281 Intermediate Catalan 2 3 Credits
Grading Scheme: Letter Grade
Second semester in the intermediate Catalan language and culture sequence, continuing the study of the language and culture of Catalonia with emphasis on linguistic proficiency and cultural knowledge.
Prerequisite: CAT 3182 or equivalent.

IDS 2334 Chemistry in the Cocina Latina 3 Credits
Grading Scheme: Letter Grade
Combines the science of chemistry with the humanistic aspects of the Spanish language and Hispanic cultures and histories, while exploring Hispanic cultures and language through the foods and recipes that define them, and the science of those foods by studying chemical reactions inherent in cooking.

LIT 2000 Introduction to Literature 3 Credits
Grading Scheme: Letter Grade
Examines the important role literature has played in individuals’ lives and in society, presenting a range of literary styles and genres, from different countries and historical periods. Special attention paid to development of critical skills of analysis and interpretation. (H)
Prerequisite: ENC 1101
Attributes: General Education - Humanities

SPN 1130 Beginning Spanish 1 5 Credits
Grading Scheme: Letter Grade
First in the basic Spanish language sequence, developing basic communication skills in reading, writing, speaking and listening.

SPN 1131 Beginning Spanish 2 5 Credits
Grading Scheme: Letter Grade
Second in the basic Spanish language sequence, continuing development of basic communication skills in reading, writing, speaking and listening.

SPN 1134 Accelerated Spanish Review 5 Credits
Grading Scheme: Letter Grade
Provides a rapid review of basic communicative Spanish as preparation for intermediate Spanish courses. For those with previous Spanish study but insufficient placement scores to move to the 2000 level.

SPN 1180 Elementary Spanish: Review and Progress 3 Credits
Grading Scheme: Letter Grade
Alternative to SPN 1130, for students who have previous experience in Spanish. Covers the material of SPN 1130 and meets three times weekly. SPN 1131 follows this course.
Prerequisite: refer to placement section. Not open to bilingual speakers of Spanish.

SPN 2200 Intermediate Spanish 1 3 Credits
Grading Scheme: Letter Grade
First of the intermediate Spanish language sequence. Develops intermediate skills in reading, writing, speaking and listening. Builds communicative competence and enhances social and cultural awareness of the Spanish-speaking world. Taught entirely in Spanish.

SPN 2201 Intermediate Spanish 2 3 Credits
Grading Scheme: Letter Grade
Second course in the intermediate Spanish language sequence. Continues development of intermediate skills in reading, writing, speaking and listening. Continues to enhance communicative competence and social and cultural awareness. Taught entirely in Spanish.
Prerequisite: SPN 2200 with a minimum grade of C or the equivalent placement score or the equivalent coursework as approved by the undergraduate coordinator. Not open to bilingual speakers of Spanish.

SPN 2240 Intensive Communication Skills 3 Credits
Grading Scheme: Letter Grade
Develops the ability to understand oral and written Spanish and is required of all majors and minors who are not bilinguals, unless they initially placed above this level. Preparation for 3000-level courses.
Prerequisite: SPN 2201 with a minimum grade of C or the equivalent placement scores on SAT II, IB or AP tests or the equivalent placement score or the equivalent coursework as approved by the undergraduate coordinator. Not open to bilingual speakers of Spanish.

SPN 2270 Intermediate Spanish Abroad 3 Credits
Grading Scheme: Letter Grade
Equivalent to SPN 2240, the obligatory first course in the Spanish major and minor for non-bilinguals. Preparation for upper-division Spanish courses. Promotes cultural awareness and develops an active command of the language by means of intensive interaction with the people and current issues and events of the Spanish-speaking host city and surrounding area.
Prerequisite: SPN 2201 or the equivalent placement scores on SAT II, IB or AP tests, and undergraduate coordinator permission.
SPN 2271 Accelerated Intermediate Spanish Abroad 3 Credits
**Grading Scheme:** Letter Grade
Students acquire intermediate communicative skills in Spanish through interaction in Spanish-speaking communities. Offered abroad only, course depends on intensive language immersion for successful acquisition in a shortened period of time. Successful completion is comparable to having passed SPN 2200 and SPN 2201.
**Prerequisite:** SPN 1131 or SPN 1134 with a minimum grade of C or the equivalent placement scores on SAT II, IB or AP tests.

SPN 2340 Introduction to Reading and Writing Spanish for Heritage Learners 3 Credits
**Grading Scheme:** Letter Grade
Intermediate-level course for heritage learners with some speaking and listening ability from exposure outside the classroom but with little or no formal exposure to the language. Emphasizes reading and vocabulary, introduces grammar and orthographic rules.
**Prerequisite:** placement test or department-administered test for Heritage Learners.

SPN 2442 Intensive Intermediate Spanish for Business 3 Credits
**Grading Scheme:** Letter Grade
An intensive intermediate-level course for students interested in learning Spanish in the context of the business world. Includes business vocabulary and business practices in the Hispanic world.
**Prerequisite:** SPN 1131 or the equivalent.

SPN 2471 Accelerated Spanish Abroad 1-5 Credits
**Grading Scheme:** Letter Grade
Reviews major aspects of grammar in a context that enhances understanding of the Spanish or Spanish-American way of life and modes of expression. Reading comprehension and composition are developed through readings on diverse topics related to Latin America and Spain.
**Prerequisite:** SPN 2200 or the equivalent placement scores on SAT II, IB, or AP tests, and section coordinator or undergraduate advisor permission.

SPN 3036 Spanish for Health Professions 3 Credits
**Grading Scheme:** Letter Grade
Provides students with the linguistic and cultural skills necessary for effectively treating Spanish-speaking patients with medical emergencies, illnesses and other health issues.
**Prerequisite:** SPN 3300 or SPN 3350 with minimum grade of C, or equivalent linguistic knowledge as determined by instructor.

SPN 3224 Applied Spanish 1-5 Credits
**Grading Scheme:** Letter Grade
Spanish-language section designed to accompany and complement courses offered in other departments. Readings and discussions are in Spanish to develop vocabulary and fluency related to the content of the companion course and to provide an international perspective on the issues of the main course. (N)
**Prerequisite:** SPN 3300 or SPN 3350, or undergraduate coordinator permission.
**Attributes:** General Education - International

SPN 3300 Spanish Grammar and Composition 1 3 Credits
**Grading Scheme:** Letter Grade
Intensive language course to develop mastery of grammatical principles, increase vocabulary and enhance writing and composition skills. This course (or SPN 3350 for bilingual speakers) is a prerequisite for most 3000/4000-level Spanish courses.
**Prerequisite:** SPN 2240; can be taken concurrently with SPN 2240 or SPN 3301. Not open to bilingual speakers of Spanish.

SPN 3301 Spanish Grammar and Composition 2 3 Credits
**Grading Scheme:** Letter Grade
Continues review of Spanish grammar begun in SPN 3300 and concentrates on intensive writing practice in expository Spanish. Highly recommended for Spanish majors and minors who are not taking the bilingual sequence; a prerequisite for SPN 4420, Advanced Composition and Syntax.
**Prerequisite:** SPN 3300; can be taken concurrently with SPN 3300. Not open to bilingual speakers of Spanish.

SPN 3350 Spanish Grammar and Composition for Heritage Learners 3 Credits
**Grading Scheme:** Letter Grade
Emphasizes aspects of the language and grammar for those who have learned Spanish through exposure outside the classroom in addition to some formal exposure in school settings, and whose speaking and comprehension abilities are generally more developed than their writing and reading skills.
**Prerequisite:** placement test or department-administered test for heritage learners or heritage program coordinator permission or SPN 2340 with minimum grade of B.

SPN 3392 Spanish Conversation, Film and Culture 3 Credits
**Grading Scheme:** Letter Grade
Enhances students’ oral skills in Spanish through movie reviews, oral reports, debates and class discussions. Introduces students to current social, economic and political issues in Latin-America and Spain through the critical analysis of contemporary Spanish-language films.
**Prerequisite:** SPN 2240 or placement test. Not open to bilingual speakers of Spanish.

SPN 3414 Advanced Spanish Conversation 2 3 Credits
**Grading Scheme:** Letter Grade
Authentic materials of the Hispanic world are used to improve listening, comprehension and speaking skills. Oral expression is used in conversation and in formal and informal presentations on a variety of topics.
**Prerequisite:** SPN 2240 or instructor permission. Not open to bilingual speakers of Spanish.

SPN 3440 Commercial Spanish 3 Credits
**Grading Scheme:** Letter Grade
An introduction to the vocabulary and business practices of the Hispanic world. Emphasis on oral and written business communications. Overview of cultural differences within the Hispanic world and between the U.S. and the Hispanic world, with emphasis on the business impact. (S and N)
**Prerequisite:** SPN 3300 or SPN 3350, or the equivalent as approved by the undergraduate coordinator.
**Attributes:** General Education - International, General Education - Social Science

SPN 3443 Marketing and Advertising in the Spanish-Speaking World 3 Credits
**Grading Scheme:** Letter Grade
An introduction to the related fields of marketing and advertising as they pertain to the Spanish-speaking world. Focuses on marketing campaigns and advertising strategies, in print and on television. Emphasis on the cultural element(s) and context(s) of marketing/advertising campaigns. Covers a representative sampling of Spanish-speaking countries, with special attention to Spain, Mexico, Argentina and the United States. Group work required for some class projects.
**Prerequisite:** SPN 2340 or SPN 3300, or instructor permission.
SPN 3451 Spanish Translation and Interpretation: Theory and Practice 3 Credits
Grading Scheme: Letter Grade
Provides an introduction to the theories and principles of translation and interpretation, combined with practice in English-to-Spanish and Spanish-to-English translations. Working individually and in groups, students will acquire translation techniques for a variety of genres, such as literary texts, letters, legal documents, newspapers, commercial advertisements, etc.
Prerequisite: SPN 3300 or SPN 3350 or the equivalent.

SPN 3472 Advanced Communicative Spanish Abroad 3 Credits
Grading Scheme: Letter Grade
Practical, in-class communication exercises in comprehension, speaking, reading and writing. Classroom activities are coordinated with homework to emphasize communication. The foreign setting also serves as a living language laboratory.
Prerequisite: SPN 2240 or SPN 2340, or placement scores on SAT II, IB, or AP tests, or equivalent coursework approved by the section coordinator or undergraduate advisor.

SPN 3510 Culture and Civilization of Spain 3 Credits
Grading Scheme: Letter Grade
A survey of Spanish history, customs and the arts from ancient times to the present; devotes considerable attention to life in contemporary Spain since the death of General Franco in 1975. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or equivalent coursework approved by the undergraduate coordinator.
Attributes: General Education - Humanities, General Education - International

SPN 3520 Culture and Civilization of Spanish America 3 Credits
Grading Scheme: Letter Grade
The rich and often conflicting diversity of the Americas as well as the historical experiences that allow us to speak of the Americas as a whole: The conquest, the colonial period, the struggles for independence against (neo)colonialism, the clashing and mixing of cultures, the yoke of slavery and servitude, the formation of rigid social hierarchies, and the frustrated search for democracy and economic development. These phenomena are followed in a variety of artistic media, from painting to poetry and from music to film. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or equivalent coursework approved by the undergraduate advisor.
Attributes: General Education - Humanities, General Education - International

SPN 3530 Spanish for Educators 3 Credits
Grading Scheme: Letter Grade
Designed for learners interested in teaching Spanish as a world language and/or increasing their linguistic and cultural expertise to work with educational stakeholders. Improve Spanish proficiency, learn methods for teaching Spanish, and gain awareness of Hispanic cultures as they relate to educational settings.
Prerequisite: SPN 3300 or SPN 3350.

SPN 3572 Revolving Topics Abroad 3-6 Credits
Grading Scheme: Letter Grade
Rotating topics focus on Spanish culture and civilization.

SPN 3700 Introduction to Hispanic Linguistics 3 Credits
Grading Scheme: Letter Grade
Initial overview of central theories and applications of linguistic analysis in the study of Spanish. The phonological, grammatical, discursive and social structures of Spanish are considered within five areas of popular inquiry in Hispanic linguistics: history of Spanish, language variation and change, Spanish in contact with other languages, political and educational linguistics, and acquisition of Spanish as a first and second language. Conducted entirely in Spanish and is a prerequisite for all 4000-level courses in Hispanic linguistics.
Prerequisite: SPN 3300 or SPN 3350.

SPN 3831 Spanish for the Legal Professions 3 Credits
Grading Scheme: Letter Grade
Prepares students for professional work in legal professions in a Spanish-speaking environment. Enables students to understand legal texts and arguments, write documents and express themselves using legal vocabulary. Covers a broad mix of practical legal terminology, vocabulary and conversational skills. Conducted entirely in Spanish.
Prerequisite: SPN 3300 or SPN 3350, or instructor permission.

SPN 3930 Topics in Spanish and Spanish American Culture and Civilization 3 Credits
Grading Scheme: Letter Grade
Variable topics in Latin American culture and civilization, including racial identity, feminism, regionalism, music, film, art, religion and sports.
Prerequisite: SPN 3300 or SPN 3350, or undergraduate advisor permission.

SPN 3943 Internship in Spanish 1-3 Credits
Grading Scheme: S/U
This course complements the students’ internship with guided reflection. Students can complete the internship wherever there is interaction with Hispanic communities. This program offers an open alternative so that students can customize their professional interests.
Prerequisite: SPN 3300 or Spn 3350, and permission of the instructor.

SPN 3948 Spanish in the Community 3 Credits
Grading Scheme: Letter Grade
Engages students in the local Spanish-speaking community through academic investigation and service work. Consists of classroom meetings, community projects outside of class, and reflective assignments; may be taken a maximum of one time on UF’s campus and one time abroad.
Prerequisite: SPN 3300 OR SPN 3350.

SPN 4314 Advanced Spanish Composition and Structure for Heritage Learners 3 Credits
Grading Scheme: Letter Grade
Emphasizes aspects of Spanish style, syntax and registers that can be problematic for the heritage learner. Some prior formal training in the language is expected (SPN 3350 or equivalent in a Spanish-speaking country).
Prerequisite: SPN 3350 with minimum grade of B or placement test or department-administered test for heritage learners.

SPN 4420 Advanced Composition and Syntax 3 Credits
Grading Scheme: Letter Grade
Emphasizes the finer aspects of Spanish syntax, vocabulary and style that give the advanced student difficulties. Class discussion, drills and written compositions.
Prerequisite: SPN 3301 or the equivalent, and undergraduate coordinator permission. Not open to bilingual speakers of Spanish.
SPN 4713 Spanish Second Language Acquisition 3 Credits
Grading Scheme: Letter Grade
Overview of second language acquisition theory with discussion of empirical studies on the acquisition of Spanish. Emphasis on research design and the analysis of oral or written production of learners of Spanish.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010.

SPN 4780 Spanish Phonetics 3 Credits
Grading Scheme: Letter Grade
Focuses on the precise description of Spanish pronunciation with some attention to dialect features and contrastive English phonetics.
Prerequisite: (SPN 3300 or SPN 3350) and (SPN 3700 or LIN 3010).

SPN 4822 Sociolinguistics of the Spanish-Speaking World 3 Credits
Grading Scheme: Letter Grade
General overview of sociolinguistic issues of the contemporary Spanish-speaking world: language variation, language contact, discourse analysis, language attitudes, policy and planning, and social factors in language acquisition and use.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010.

SPN 4830 Introduction to Spanish and Spanish American Dialectology 3 Credits
Grading Scheme: Letter Grade
Principles and methods of dialectology applied to the study of regional varieties of Spanish in Spain and in Spanish America.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010.

SPN 4840 Introduction to the History of the Spanish Language 3 Credits
Grading Scheme: Letter Grade
The phonological, morphological, syntactic and semantic evolution of the Spanish language from Latin.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010 and SPN 4780.

SPN 4850 Introduction to the Structure of Spanish 3 Credits
Grading Scheme: Letter Grade
Explores syntactic, morphological and semantic aspects of the Spanish language.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010.

SPN 4851 Spanish Bilingualism 3 Credits
Grading Scheme: Letter Grade
Examines the internal and external factors that lead to and result from bilingualism in regions where Spanish is spoken. Organized into three primary components: social aspects; linguistic aspects; political and educational aspects.
Prerequisite: SPN 3700 or LIN 3010, or the equivalent.

SPN 4905 Individual Work 1-4 Credits
Grading Scheme: Letter Grade
For advanced majors and minors who seek independent work not offered in another course. Must be arranged individually with Spanish faculty. For honors thesis use SPN 4906.
Prerequisite: undergraduate coordinator permission.

SPN 4906 Honors Thesis 1-3 Credits
Grading Scheme: Letter Grade
Honors thesis preparation.

SPN 4911 Undergraduate Research in Spanish 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

SPN 4925 Internship in Hispanic Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

SPN 4930 Revolving Topics in Linguistics and Culture 3 Credits
Grading Scheme: Letter Grade
Variable content provides opportunity for in-depth study of linguistic and cultural topics not offered in other courses and of topics of special current significance.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010.

SPN 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a broad survey of topics and issues pertaining to Latin American (including Brazilian) and Spanish contemporary culture through the analysis and interpretation of texts and films. Coursework is organized by country, theme, or genre on a rotating basis.
Prerequisite: any POW 3000 level course or any SPW 3000 level course or LIT 2000.

SPW 3030 Survey of Spanish-American Literature: From Discovery to Independence 3 Credits
Grading Scheme: Letter Grade
Overview of Spanish-American literature and its cultural context from the European conquest of the Americas to the 19th century. Introduces principal literary movements and authors, and trains students to read critically and to appreciate literary Spanish. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.
Attributes: General Education - Humanities, General Education - International

SPW 3031 Survey of Spanish-American Literature: From Independence to Contemporary Times 3 Credits
Grading Scheme: Letter Grade
End of the 19th century to the present. Introduces principal literary movements and authors, and trains students to read critically and to analyze literary Spanish. Reading of major authors who may include Borges, Garcia Marquez, Neruda, Fuentes and Ferre. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.
Attributes: General Education - Humanities, General Education - International

SPW 3034 Survey of Spanish-American Literature: From Independence to Contemporary Times 3 Credits
Grading Scheme: Letter Grade
End of the 19th century to the present. Introduces principal literary movements and authors, and trains students to read critically and to analyze literary Spanish. Reading of major authors who may include Borges, Garcia Marquez, Neruda, Fuentes and Ferre. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.
Attributes: General Education - Humanities, General Education - International

SPN 4930 Revolving Topics in Linguistics and Culture 3 Credits
Grading Scheme: Letter Grade
Variable content provides opportunity for in-depth study of linguistic and cultural topics not offered in other courses and of topics of special current significance.
Prerequisite: SPN 3300 or SPN 3350, and SPN 3700 or LIN 3010.

SPN 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.
Prerequisite: undergraduate advisor permission.

SPN 4956 Overseas Studies 1-18 Credits
Grading Scheme: Letter Grade
Provides a broad survey of topics and issues pertaining to Latin American (including Brazilian) and Spanish contemporary culture through the analysis and interpretation of texts and films. Coursework is organized by country, theme, or genre on a rotating basis.
Prerequisite: any POW 3000 level course or any SPW 3000 level course or LIT 2000.

SPW 3030 Survey of Spanish-American Literature: From Discovery to Independence 3 Credits
Grading Scheme: Letter Grade
Overview of Spanish-American literature and its cultural context from the European conquest of the Americas to the 19th century. Introduces principal literary movements and authors, and trains students to read critically and to appreciate literary Spanish. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.
Attributes: General Education - Humanities, General Education - International

SPW 3031 Survey of Spanish-American Literature: From Independence to Contemporary Times 3 Credits
Grading Scheme: Letter Grade
End of the 19th century to the present. Introduces principal literary movements and authors, and trains students to read critically and to analyze literary Spanish. Reading of major authors who may include Borges, Garcia Marquez, Neruda, Fuentes and Ferre. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.
Attributes: General Education - Humanities, General Education - International

SPW 3034 Survey of Spanish-American Literature: From Independence to Contemporary Times 3 Credits
Grading Scheme: Letter Grade
End of the 19th century to the present. Introduces principal literary movements and authors, and trains students to read critically and to analyze literary Spanish. Reading of major authors who may include Borges, Garcia Marquez, Neruda, Fuentes and Ferre. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.
Attributes: General Education - Humanities, General Education - International

SPW 3100 Introduction to Spanish Literature 1 3 Credits
Grading Scheme: Letter Grade
Selected readings in epic, lyric, ballad and popular poetry, early forms of recreational and didactic prose and dramatic works from Spain's Medieval and Golden Ages are presented with attention to form and historical context. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.
Attributes: General Education - Humanities, General Education - International

SPW 3101 Introduction to Spanish Literature 2 3 Credits
Grading Scheme: Letter Grade
Provides an overview of Spanish literature and its cultural context from the 18th century to the present. Introduces principal literary movements and authors and trains students to read critically and to analyze literary Spanish. (H and N)
Prerequisite: SPN 3300 or SPN 3350, or the equivalent.
Attributes: General Education - Humanities, General Education - International
SPW 4190 Seminar in Spanish-American Literature and Culture 3 Credits
Grading Scheme: Letter Grade
The advanced study of a writer, period, movement, region or topic of Spanish-American literature not ordinarily offered in the department. Refer to department website for specific description.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4213 Spanish Prose Fiction of the Golden Age 3 Credits
Grading Scheme: Letter Grade
Examines a literary landscape of rampant generic diversity before novelistic norms were solidified as known them today. Readings and lectures in Spanish.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4263 Readings in the Spanish Novel of the Nineteenth Century 3 Credits
Grading Scheme: Letter Grade
Readings in the Spanish novel of the 19th century. A survey of major authors from costumbri smo to the realism and naturalism of Galdos, Clarín and Pardo Bazán.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4270 Readings in Post-war Narrative 3 Credits
Grading Scheme: Letter Grade
Outstanding stories and novels of contemporary Spanish writers in relation to the historical and cultural context of post-civil war Spain.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4282 Readings in Contemporary Spanish-American Narrative 1 3 Credits
Grading Scheme: Letter Grade
The period of modernization of fiction and the development of new narrative modes in the 1940s and the 1950s; may include magical realism, the detective story and the new urban narratives.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4283 Readings in Contemporary Spanish-American Narrative 2 3 Credits
Grading Scheme: Letter Grade
The new narrative or the boom and post-boom of Latin-American fiction, 1960s to the present.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4310 Readings in Spanish Drama of the Golden Age 3 Credits
Grading Scheme: Letter Grade
Variable readings in Spanish Classical Theater by Lope de Vega, Pedro Calderon de la Barca, Tirso de Molina and others, including entremeses and Autos sacramentales. Focuses on the comedy’s appeal to lettered and unlettered spectators and its potential for mass control and social protest.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4345 Readings in Contemporary Spanish-American Poetry 3 Credits
Grading Scheme: Letter Grade
A close reading and critical analysis of masterpieces by the major 20th-century poets of Spanish-America, including recent writers.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4364 Readings in the Spanish-American Essay 3 Credits
Grading Scheme: Letter Grade
Examination of major texts from the early 19th century to the present focusing on such themes as the search for identity and the definition of ethnic, racial, social and class categories.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4521 U.S. Hispanic Literature 3 Credits
Grading Scheme: Letter Grade
Reading, discussion and analysis of works by U.S. Hispanic or Latino/a writers with an examination of the cultural life and social conditions of the Puerto Rican, Cuban and Chicano communities in the U.S.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4532 Introduction to Spanish Romanticism 3 Credits
Grading Scheme: Letter Grade
By studying the canonical works of that moment (Rousseau, Feijoo, Cadalso, Jovellanos, Miranda, Bolivarivariable, Zorrilla, Rivas, Larra, Espronceda, Gomez de Avellaneda, Goya), the course explores the achievements, contradictions and failures of the enlightenment as well as the new organization by Romanticism in Spain and Latin America.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4604 Don Quixote 3 Credits
Grading Scheme: Letter Grade
A close reading of Cervantes’ masterpiece that emphasizes the origins of the modern novel as a genre and its implication in the history of ideas.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4720 Readings in Spanish Literature from the Generation of 1898 to 1927 3 Credits
Grading Scheme: Letter Grade
A survey of turn-of-the-century Spanish crises from the perspective of the first generation of Spanish modernists. Authors include Unamuno, Costa, Machado, Valle-Inclín, Baroja and Ortega y Gasset.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4723 Readings in Spanish Literature from the Generation of 1927 to the Present 3 Credits
Grading Scheme: Letter Grade
Studies the development of Spanish literature in this century beginning with the brilliant poets of the generation of 1927, continuing with representative fiction, drama and poetry of the years after the Civil War and concluding with fiction and poetry of the 1990s.
Prerequisite: any one 3000-level SPW course or equivalent.

SPW 4780 Hispanic Women Writers 3 Credits
Grading Scheme: Letter Grade
A seminar dedicated to the exploration of literary works written in Spanish by women of Spain, Latin America and/or the United States.
Prerequisite: any one 3000-level SPW course or the equivalent.

SPW 4930 Revolving Topics in Literature and Culture 3 Credits
Grading Scheme: Letter Grade
Variable content provides opportunity for in-depth study of literary and cultural topics not offered in other courses.
Prerequisite: any one 3000-level SPW course or the equivalent.

Speech, Language and Hearing Sciences
Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.
Department Information
The Department of Speech, Language, and Hearing Sciences works to improve the lives of people affected by communication and related disorders through excellence and innovation in clinical training, service, and research.

Curriculum
- Communication Sciences and Disorders
- Communication Sciences and Disorders Minor
- Communication Sciences and Disorders UF Online
- Deaf and Hearing Sciences Minor

Courses

**ASL 1110 American Sign Language 1 4 Credits**
Grading Scheme: Letter Grade
First in a series on American Sign Language concepts and principles; introduces receptive and expressive skills in formal and informal interactions. Signs, fingerspelling, numbers, and classifiers are practiced in conversational and storytelling contexts. Also introduces ASL literature and cultural information.

**ASL 1120 American Sign Language 2 4 Credits**
Grading Scheme: Letter Grade
Second in a series on American Sign Language concepts and principles; develops receptive and expressive skills in formal and informal interactions. Signs, fingerspelling, numbers, classifiers, and indexing are practiced in conversational and storytelling contexts. Familiarization with ASL culture and literary genres continues.

**ASL 1130 American Sign Language 3 3 Credits**
Grading Scheme: Letter Grade
Advanced study of American Sign Language.

**COM 4930 Special Topics in Communication 3 Credits**
Grading Scheme: Letter Grade
Seminar study of theory and research in a specific area of communication.
Prerequisite: COM 1000 or equivalent.

**IDH 2931 Honors Seminar 3 Credits**
Grading Scheme: Letter Grade
Special topics restricted to those in the university-wide Honors Program. (WR)
Attributes: Satisfies 6000 Words of Writing Requirement

**LIN 3201 The Sounds of Human Language 3 Credits**
Grading Scheme: Letter Grade
Emphasizes the sounds employed in languages of the world for a comprehensive understanding of the mechanism underlying the production of speech sounds and the ability to recognize, distinguish and phonetically transcribe speech sounds from an unfamiliar language. Includes investigation of the patterning and functions of sounds in languages of the world and application of the methods of analyzing a language sound system.
Prerequisite: LIN 3010.

**LIN 4905 Individual Study in Linguistics 3 Credits**
Grading Scheme: Letter Grade
Individual study for linguistics majors.

**SPA 2109 Language Breakdown in the Brain 3 Credits**
Grading Scheme: Letter Grade
Introduces brain structures as they relate to language development and use. Also emphasizes the effects of damage or developmental anomalies in different brain areas. (B)
Attributes: General Education - Biological Science

**SPA 3003 Phonetic Theory and Transcription 3 Credits**
Grading Scheme: Letter Grade
Introduces human speech production, classification, and transcription. Also provides intensive training in the use of the International Phonetics Alphabet for transcribing American English.
Prerequisite: COM 1000 or equivalent.

**SPA 3011 Speech Acoustics 3 Credits**
Grading Scheme: Letter Grade
Introduces scientific methodologies, physics of sound, acoustics and elementary instrumentation related to human speech communication.
Prerequisite: communication sciences and disorders or health science major.

**SPA 3032 Fundamentals of Hearing 3 Credits**
Grading Scheme: Letter Grade
Concepts and principles relevant to the normal hearing processes: acoustics, gross anatomy, psychophysical methods and basic subjective correlates of the auditory system.

**SPA 3101 Speech Anatomy and Physiology 3 Credits**
Grading Scheme: Letter Grade
Introduces elementary anatomy, physiology and neurophysiology of the speaking mechanism.
Prerequisite: communication sciences and disorders or health science major.

**SPA 3475 Deaf Culture in America 3 Credits**
Grading Scheme: Letter Grade
Provides an overview of the lives and experiences of deaf and hard of hearing persons and examines the reasons why many deaf people consider themselves to belong to a unique cultural group. Discussions focus on deaf communities and cultures, signed languages, education, accessibility, literature, and other issues.
Prerequisite: (PSY 2012 and ASL 1110) or instructor permission.

**SPA 3800 Critical Review of Scientific Evidence 3 Credits**
Grading Scheme: Letter Grade
Provides scientific process concepts (inductive and deductive reasoning, foundations of inductive statistics, research design) as well as offering practice in critical thinking and avoiding the cognitive illusions that lead to invalid conclusions. The goal is to become critical consumers of information.
Prerequisite: STA 2023 or more advanced statistics course
SPA 4004 Language Development 3 Credits
Grading Scheme: Letter Grade
Examines typical patterns of language development across the life span. Various theoretical perspectives on language acquisition are presented and current information regarding the biological, social, and cognitive bases for language will be reviewed. Major communicative achievements that characterize the various stages of language development will be discussed.
Prerequisite: communication sciences and disorders or health science major.

SPA 4050 Clinical Observations in Speech-Language Pathology and Audiology 3 Credits
Grading Scheme: Letter Grade
Supervised clinical observations of diagnostics and remediation at the UF Speech and Hearing Clinic.
Prerequisite: senior standing.

SPA 4104 Neural Basis of Communication 3 Credits
Grading Scheme: Letter Grade
Understanding the structures and functions of the human nervous system and the neurological processes involved in communication and communication disorders.

SPA 4106 Neuropsychology and Rehabilitation 3 Credits
Grading Scheme: Letter Grade
Introduces Foundational Knowledge About Neuropsychology and How It Impacts Treatment Design and Implementation Across All Health Sciences. Also Introduces Different Types of Rehabilitation Approaches Offered By the Various Health Sciences.
Prerequisite: enrolled in a limited access BHS major or instructor permission.

SPA 4250 Introduction to Speech Disorders 3 Credits
Grading Scheme: Letter Grade
Studies speech-based disorders of communication: phonology, motor speech, resonance, voice, and stuttering.
Prerequisite: (LIN 3010 or SPA 3003) and SPA 3101.

SPA 4302 Audiometry and Hearing Disorders 3 Credits
Grading Scheme: Letter Grade
Basic techniques in pure-tone and speech audiometry, measurements of middle-ear function and test interpretation. Supervised clinical/laboratory experience in hearing testing.
Prerequisite: SPA 3032.

SPA 4321 Audiologic Rehabilitation 3 Credits
Grading Scheme: Letter Grade
Overview of aural rehabilitation and methods in auditory training and speech reading with hearing-impaired individuals.
Prerequisite: SPA 4302 or instructor permission.

SPA 4400 Introduction to Language Disorders 3 Credits
Grading Scheme: Letter Grade
Prerequisite: SPA 4004 and SPA 4104.

SPA 4904 Individual Study 1-3 Credits
Grading Scheme: Letter Grade
A project, reading or research course.

SPA 4931 Honors in Communication Sciences and Disorders 1-3 Credits
Grading Scheme: Letter Grade
The design, implementation and reporting of an original research project.
Prerequisite: 3.5 overall GPA, a 3.75 GPA in the major and completion (including current enrollment) of 21 credits in the major.

SPA 4933 Variable International Topics 1-6 Credits
Grading Scheme: Letter Grade
Provides the opportunity to study in a wide range of cultural settings.

SPA 4935 Independent Study 1-6 Credits
Grading Scheme: Letter Grade
Supervised clinical observations of diagnostics and remediation at the UF Audiology.

SPC 3605 Speechwriting 3 Credits
Grading Scheme: Letter Grade
Consideration of and practice with word choice and word arrangement as sources of style that influence memorability, credibility, and ease and accuracy of comprehension.

SPC 4680 Rhetorical Criticism 3 Credits
Grading Scheme: Letter Grade
Critical analyses of rhetorical elements and processes in oratorical and non-oratorical forms.

Sport and Fitness
Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings. More Info (http://registrar.ufl.edu/soc/)

Courses
HLP 4933 Variable International Topics 1-6 Credits
Grading Scheme: Letter Grade
Provides the opportunity to study in a wide range of cultural settings.

PEN 1136 Openwater Scuba Diving 2 Credits
Grading Scheme: Letter Grade
Beginning scuba diving including compass navigation, openwater diving environment, dive preparation and five openwater dives. Payment of required additional course fees and successful completion results in national certification as Openwater Scuba Diver.
Prerequisite: swim test.

Sport Management
Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings. More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information
The Department of Sport Management (SPM) studies the impact of professional and amateur sports on the personal, social, economic, environmental, and resource infrastructures of society. SPM's goal is to improve the overall quality of life by learning and teaching what leads individuals, families, and industry to value and benefit from sports. Website (http://hhp.ufl.edu/about/departments/spm/)

P.O. Box 118208
GAINESVILLE FL 32611-8208
Courses

HLP 4933 Variable International Topics 1-6 Credits
Grading Scheme: Letter Grade
Provides the opportunity to study in a wide range of cultural settings.

LEI 3921 Field Experience in TRSM 3 Credits
Grading Scheme: Letter Grade
Prerequisite: department chair permission.

LEI 4880 Research Methods in Tourism, Recreation and Sport Management 3 Credits
Grading Scheme: Letter Grade
Prerequisite: department chair permission.

PET 3121 History of Sport and Exercise Sciences 3 Credits
Grading Scheme: Letter Grade
Prerequisite: (LEI 2181 or SPM 2000) and STA 2023.

PET 4262 Sport Career Transitions 3 Credits
Grading Scheme: Letter Grade
Prerequisite: Sport Management major.

PET 4280 Research Methods in Tourism, Recreation and Sport Management 3 Credits
Grading Scheme: Letter Grade
Introductory course providing a broad understanding of measurement and evaluation in recreation, sports, events, tourism and hospitality; introduces diverse aspects of research, from setting the theoretical background to evaluating the results of analyses.

SPM 2000 Introduction to Sport Management 3 Credits
Grading Scheme: Letter Grade
Introduces management, marketing, financial and legal principles regarding sport facilities, events and organizations within interscholastic, intercollegiate, professional and international sport industries. The conduct of amateur and professional sport programs.

SPM 3012 Sport and Society 3 Credits
Grading Scheme: Letter Grade
Societal implications of sport in history and heritage, youth programs, collegiate and professional situations and the involvement of minority groups, women, business and industry. (WR)
Prerequisite: sophomore standing or instructor permission.
Attributes: Satisfies 6000 Words of Writing Requirement

SPM 3204 Ethical Issues in Sport 3 Credits
Grading Scheme: Letter Grade
Review and study of ethical issues that affect sport.

SPM 3306 Sport Marketing 3 Credits
Grading Scheme: Letter Grade
Key marketing concepts and strategies in sports referent to sport consumer behavior and implications for marketing. Analyzes marketing cases to solve marketing-related problems and to help students prepare and evaluate a comprehensive marketing plan.
Prerequisite: MAR 3023 and SPM 2000 with minimum grades of C.

SPM 3403 Sport Information Management 3 Credits
Grading Scheme: Letter Grade
Prerequisite: sophomore standing or instructor permission.

SPM 3415 Sport Facility Design and Management 3 Credits
Grading Scheme: Letter Grade
Introduces management, marketing, financial and legal principles regarding sport facilities, events and organizations within interscholastic, intercollegiate, professional and international sport industries. The conduct of amateur and professional sport programs.

SPM 3451 Administration of Sport and Physical Activity 3 Credits
Grading Scheme: Letter Grade
Managerial principles and techniques applicable to a variety of sport, physical education and fitness settings.
Prerequisite: MAN 3025 and SPM 2000 with minimum grades of C.

SPM 4104 Sport Facility Design and Management 3 Credits
Grading Scheme: Letter Grade
Prerequisite: Sport Management major of junior standing or higher.

SPM 4175 Administration of Sport and Physical Activity 3 Credits
Grading Scheme: Letter Grade
Managerial principles and techniques applicable to a variety of sport, physical education and fitness settings.
Prerequisite: MAN 3025 and SPM 2000 with minimum grades of C.

SPM 4455 Business and Finance 3 Credits
Grading Scheme: Letter Grade
Financial expense categories and sources of revenue for sport organizations. Determines and calculates facility revenues and non-facility revenues. Develops potential solutions for improving revenue sources to increase revenue and decrease costs while maintaining a viable product.
Prerequisite: SPM 2000.

SPM 4723 Legal Issues in Sport and Physical Activity 3 Credits
Grading Scheme: Letter Grade
Legal structures, major laws, regulations and case precedents that establish legal responsibilities, rights, privileges, and controls related to sport management.
Prerequisite: SPM 2000 and Sport Management major of junior standing or higher.
SPM 4905 Variable Topics in Sport Management 1-3 Credits  
Grading Scheme: Letter Grade  
Offered upon request to meet special interests that not adequately provided in other courses.  
Prerequisite: department permission.

SPM 4941C Internship in Sport Management 1-15 Credits  
Grading Scheme: S/U  
Internship with a public or private enterprise in sport management. (S-U)

SPM 4948 Practicum in Sport Management 1-3 Credits  
Grading Scheme: S/U  
Practical experience in sport management. May include a senior thesis with oral defense.  
Prerequisite: department permission.

Statistics

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.  
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

The mission of the Department of Statistics is to provide its students with a fundamental understanding of statistical reasoning and methodology, to train them to apply this knowledge to the collection and analysis of data, and to prepare them for careers in a highly technological society in which science and decision-making are increasingly driven by a rapid expansion in the quantity and availability of data.

GAINESVILLE FL 32611-8545  
Map (http://campusmap.ufl.edu/#/index/0010)

Curriculum

- Actuarial Science Minor  
- Combination Degrees  
- Data Science  
- Statistics  
- Statistics Minor

Courses

STA 2023 Introduction to Statistics 1 3 Credits  
Grading Scheme: Letter Grade  
Graphical and numerical descriptive measures. Simple linear regression. Basic probability concepts, random variables, sampling distributions, central limit theorem. Large and small sample confidence intervals and significance tests for parameters associated with a single population and for comparison of two populations. Use of statistical computer software and computer applets to analyze data and explore new concepts. (M)  
Attributes: General Education - Mathematics

STA 3024 Introduction to Statistics 2 3 Credits  
Grading Scheme: Letter Grade  
Prerequisite: STA 2023 or the equivalent.

STA 3032 Engineering Statistics 3 Credits  
Grading Scheme: Letter Grade  
The basic concepts in probability and statistics with engineering applications. Topics include probability, discrete and continuous random variables, estimation, hypothesis testing, and linear and multiple regression. (M)  
Prerequisite: MAC 2311.

Attributes: General Education - Mathematics

STA 3100 Programming With Data in R 3 Credits  
Grading Scheme: Letter Grade  
Introduction to statistical computing and programming with data. Topics include basic programming in R; data types and data structures in R; importing and cleaning data; specifying statistical models in R; statistical graphics; statistical simulation using pseudo-random numbers; reproducible research and the documentation of statistical analyses.  
Prerequisite: STA2023 (B) or STA3032 (B-) or AP statistics (4 or 5)

STA 4183 Theory of Interest 3 Credits  
Grading Scheme: Letter Grade  
Measurement of simple and compound interest, accumulated and present value. Annuities, yield rates, amortization schedules, sinking funds, bonds, securities and related funds.  
Prerequisite: MAC 2312.

STA 4210 Regression Analysis 3 Credits  
Grading Scheme: Letter Grade  
Simple linear regression and multiple linear regression models. Inference about model parameters and predictions, diagnostic and remedial measures about the model, independent variable selection, multicolinearity, autocorrelation and nonlinear regression. SAS implementation of the above topics.  
Prerequisite: STA 3024 or STA 3032 or (STA 4321 and STA 2023) or (MAS 3114 and STA 2023) or (MAS 4105 and STA 2023).

STA 4211 Design of Experiments 3 Credits  
Grading Scheme: Letter Grade  
The basic principles of experimental design: analysis of variance for experiments with a single factor; randomized blocks and Latin square designs: multiple comparison of treatment means; factorial and nested designs; analysis of covariance; response surface methodology.  
Prerequisite: STA 4210.

STA 4222 Sample Survey Design 3 Credits  
Grading Scheme: Letter Grade  
Introduces the design of sample surveys and the analysis of survey data, emphasizing practical applications of survey methodology. Topics include sources of errors in surveys, questionnaire construction, simple random, stratified, systematic, and cluster sampling, ratio and regression estimation, and a selection of special topics such as applications to quality control and environmental science.  
Prerequisite: (STA 4321 and STA 2023) or STA 3032 or STA 4322.
STA 4321 Introduction to Probability 3 Credits
Grading Scheme: Letter Grade
Introduction to the theory of probability, counting rules, conditional probability, independence, additive and multiplicative laws, Bayes Rule. Discrete and continuous random variables, their distributions, moments and moment generating functions. Multivariate probability distributions, independence, covariance. Distributions of functions of random variables, sampling distributions, central limit theorem.
Prerequisite: MAC 2313 or MAC 3474 with a minimum grade of C.

STA 4322 Introduction to Statistics Theory 3 Credits
Grading Scheme: Letter Grade
Sampling distributions, central limit theorem, estimation, properties of point estimators, confidence intervals, hypothesis testing, common large sample tests, normal theory small sample tests, uniformly most powerful and likelihood ratio tests, linear models and least squares, correlation. Introduction to analysis of variance.
Prerequisite: STA 4321 or the equivalent.

STA 4502 Nonparametric Statistical Methods 3 Credits
Grading Scheme: Letter Grade
Introduction to nonparametric statistics, including one- and two-sample testing and estimation methods, one- and two-way layout models and correlation and regression models.
Prerequisite: STA 2023 or STA 3032 or STA 4210 or STA 4322.

STA 4504 Categorical Data Analysis 3 Credits
Grading Scheme: Letter Grade
Description and inference using proportions and odds ratios, multi-way contingency tables, logistic regression and other generalized linear models, log-linear models applications.
Prerequisite: STA 3024 or STA 3032 or STA 4210 or STA 4322.

STA 4702 Multivariate Statistical Methods 3 Credits
Grading Scheme: Letter Grade
Review of matrix theory, univariate normal, t, chi-squared and F distributions and multivariate normal distribution. Inference about multivariate means including Hotelling’s T2, multivariate analysis of variance, multivariate regression and multivariate repeated measures. Inference about covariance structure including principal components, factor analysis and canonical correlation. Multivariate classification techniques including discriminant and cluster analyses. Additional topics at the discretion of the instructor, time permitting.
Prerequisite: STA 3024 or STA 4210 or STA 4322 or STA 6127 or STA 6167) and (MAS 3114 or MAS 4105 or the equivalent).

STA 4712 Introduction to Survival Analysis 3 Credits
Grading Scheme: Letter Grade
Survival analysis data methods including Kaplan-Meier and Nelson estimators of the survival, accelerated failure time and proportional hazards models and frailty and recurrent event models.
Prerequisite: STA 4210.

STA 4821 Stochastic Processes 3 Credits
Grading Scheme: Letter Grade
Theoretical development of elementary stochastic processes, including Poisson processes and their generalizations, Markov chains, birth and death processes, branching processes, renewal processes, queuing processes and genetic and ecological processes.
Prerequisite: STA 4321 or equivalent.

STA 4853 Introduction to Time Series and Forecasting 3 Credits
Grading Scheme: Letter Grade
Stationarity, autocorrelation, ARMA models; frequency domain methods and the spectral density; forecasting methods; and computationally-oriented application to case studies.
Prerequisite: STA 4210 and STA 4321.

STA 4905 Individual Work 1-5 Credits
Grading Scheme: Letter Grade
Special topics designed to meet the needs and interests of individual students.
Prerequisite: department permission.

STA 4911 Undergraduate Research in Statistics 0-3 Credits
Grading Scheme: S/U
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

STA 4930 Special Topics 3 Credits
Grading Scheme: Letter Grade
Variable topics designed to meet the students’ needs and interests.
Prerequisite: department permission.

STA 4940 Internship 1-3 Credits
Grading Scheme: S/U
Supervised activity associated with planning and/or analyzing data from a research project. Supervision by a faculty member or delegated authority and a post-internship written report are required. (S-U)
Prerequisite: STA 4211 and undergraduate coordinator permission.

Sustainability and the Built Environment

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.

More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information
The Sustainability and the Built Environment (SBE) Program at the College of Design, Construction and Planning teaches hands-on sustainability by using the university as a learning laboratory.

ARCHITECTURE BUILDING
GAINESVILLE FL 32611-5701
Map (http://campusmap.ufl.edu/#/index/0268)

Curriculum
• Sustainability and the Built Environment
• Sustainability and the Built Environment Minor
Courses

DCP 3200 Methods of Inquiry for Sustainability and the Built Environment 3 Credits
Grading Scheme: Letter Grade
The breadth of methods of inquiry (the process of asking and then answering questions) commonly used by planners, designers and builders as well as those who study the built and managed environments. Prerequisite: BCN 1582 or IDS 2154, or a course approved in the topic area.

DCP 3210 Sustainable Solutions for the Built Environment 3 Credits
Grading Scheme: Letter Grade
Uses case studies to examine how sustainability can be achieved in the built environment, from choosing materials and finishes to patterns of regional land use. Prerequisite: BCN 1582 or IDS 2154, or a course approved in the topic area.

DCP 3220 Social and Cultural Sustainability and the Built Environment 3 Credits
Grading Scheme: Letter Grade
Explores the importance of considering the human users of the built environment when searching for sustainable solutions. Examines social, behavioral and multicultural perspectives related to social sustainability. Prerequisite: BCN 1582 or IDS 2154, or a course approved in the topic area, and junior or senior standing.

DCP 4290 Capstone Project in Sustainability and the Built Environment 6 Credits
Grading Scheme: Letter Grade
Undertake an individual project under the direction of a faculty member, with a focus on comprehensive solutions to a problem in sustainability. Prerequisite: DCP 4941.

DCP 4911 Undergraduate Research in Design, Construction, and Planning. 0-3 Credits
Grading Scheme: S/U
Undertake firsthand, supervised research with a faculty advisor or postdoctoral or graduate student mentor. Projects may involve inquiry, design, investigation, scholarship, creativity, discovery or application. (S-U)

DCP 4941 Practicum in Sustainability and the Built Environment 6 Credits
Grading Scheme: Letter Grade
Students from diverse backgrounds engage in service and learning through the development of sustainable solutions to challenges in the built environment. Prerequisite: DCP 3210 and DCP 3220.

DCP 4942 Field Experience in Sustainability and the Built Environment 1-6 Credits
Grading Scheme: S/U
Field experience with a government, non-government or private office that focuses on issues of sustainability. Prerequisite: DCP 3210.

Swahili | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings. More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world. Website (https://languages.ufl.edu/)

Courses

SSW 3303 Swahili Oral Literature 3 Credits
Grading Scheme: Letter Grade
Introduces various genres of Swahili oral literatures and shows their importance, relevance and function within Swahili culture.

SWA 1130 Beginning Swahili 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

SWA 1131 Beginning Swahili 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar. Prerequisite: SWA 1130 with minimum grade of C, or S, or the equivalent.
SWA 2200 Intermediate Swahili 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: SWA 1131 with minimum grade of C or S, or the equivalent.

SWA 2201 Intermediate Swahili 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: SWA 2200 with minimum grade of C or S, or the equivalent.

SWA 3410 Advanced Swahili 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: SWA 2201 with minimum grade of C or S, or the equivalent.

SWA 3411 Advanced Swahili 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study of the four skills with attention to more complex structures.
Prerequisite: SWA 3410 with minimum grade of C, or S, or the equivalent.

SWA 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course.
Prerequisite: instructor permission.

SWW 4100 Readings in Swahili 3 Credits
Grading Scheme: Letter Grade

Telecommunication
Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information
The Telecommunication program is one of the most comprehensive in the country, with complete specializations in Digital Film and Video Production, Management and Strategy, and Media and Society.

- Telecommunication
- Telecommunication | Media and Society UF Online

Students who have not been admitted to the College of Journalism and Communications must have a 3.0 overall grade point average to enroll in any course other than RTV 2100, RTV 3405, RTV 3601, and RTV 4420.

Entry into the broadcast news sequence is limited to students in the Department of Telecommunication who have taken a competitive entrance exam. Contact the department office for the examination date.

Courses
JOU 3002 Understanding Audiences 3 Credits
Grading Scheme: Letter Grade
Overview of the nature of media audiences and their behaviors, as well as industry measurement practices and applications.
Prerequisite: junior standing or higher.

MMC 1009 Introduction to Media and Communications 1 Credit
Grading Scheme: Letter Grade
Introduces the tools, resources and academic and extra-curricular activities offered by the College of Journalism and Communications.
Includes lessons on the history and organization of the college and academic and career preparation.
Prerequisite: 1JM or exploratory major, 2JM, or 3JM classification, or instructor approval.

MMC 2121 Writing Fundamentals for Communicators 3 Credits
Grading Scheme: Letter Grade
One-third of the course is to ensure students have sufficient skill in grammar and punctuation to write with clarity. In two-thirds of the course, students put principles of good writing into practice with short writing assignments that have real-world applications.

MMC 2740 Introduction to Media and Sports 1 Credit
Grading Scheme: Letter Grade
Introduces sports professions relative to opportunities, responsibilities and current issues involving sports media professionals. Topics include distinctions among careers in sports media, including sports journalism and communications, values, ethics and issues related to race, gender and sexual orientation, and emerging media.

MMC 3030 Personal Branding for Communicators 1 Credit
Grading Scheme: Letter Grade
Professional development course that stresses how to communicate and connect as professionals. Emphasizes mastery of writing, speaking, presentation and employment-seeking skills, working with media, handling media interviews and using social media to establish a professional identity.
Prerequisite: Journalism and Communications major of junior standing or higher.

MMC 3203 Ethics and Problems in Mass Communications 3 Credits
Grading Scheme: Letter Grade
A cross-disciplinary introduction to ethics-relevant situations faced by media professionals. Topics include professional standards of conduct, audience representation and engagement and issues associated with the production, presentation and delivery of messages that reflect the best interests of audiences, clients and stakeholders.
Prerequisite: Journalism and Communications major of sophomore standing or higher and (ADV 3008 or MMC 1009 or MMC 2604 or PUR 3000 or RTV 3001 with minimum grade of C).
MMC 3210 Sports Media Law and Ethics 3 Credits  
Grading Scheme: Letter Grade  
Instruction and analysis of laws, cases and legal and ethical issues related to sports and media. Gain a working knowledge of legal and ethical issues and recent court decisions, and develop critical analytical perspectives on actual examples of recent sports media legal and ethical problems.  
Prerequisite: junior standing or higher.

MMC 3254 Media Entrepreneurship 1 Credit  
Grading Scheme: Letter Grade  
Introduces media entrepreneurship with a focus on how digital technologies are transforming industries. Work in teams to develop new digital media businesses. Develop and pitch ideas, explore market analysis, develop business and financial plans, and study social media strategies.  
Prerequisite: sophomore standing or higher.

MMC 3260 Communications on the Internet 3 Credits  
Grading Scheme: Letter Grade  
History, development, and current state of online communications from teletext to the World Wide Web. Focuses on how online services relate to mass media in the past, present, and future. Analyzes content methods, audiences, and income sources. Create online projects related to mass communication.  
Prerequisite: Journalism and Communications major of junior standing or higher or instructor permission.

MMC 3420 Consumer and Audience Analytics 3 Credits  
Grading Scheme: Letter Grade  
Provides practical analytical skill-sets, benefiting those who plan careers in analytics/research, social media, media business, advertising/marketing, and public relations.  
Prerequisite: junior standing or higher.

MMC 3614 Media and Politics 3 Credits  
Grading Scheme: Letter Grade  
Provides an understanding of the role of the media in the political system. Topics include televised debates, political advertising, political journalism, Internet and alternative media.  

MMC 3630 Social Media and Society 3 Credits  
Grading Scheme: Letter Grade  
Explores the structure and consequences of the growing presence of social media networks. Addresses such areas as privacy, democracy, health care, commerce, entertainment, and journalism.  
Prerequisite: junior standing or higher.

MMC 4302 World Communication Systems 3 Credits  
Grading Scheme: Letter Grade  
Theoretical bases of world mass media systems, international channels of communications, analysis of press and broadcasting systems by regional and national categories.

RTV 2100 Writing for Electronic Media 3 Credits  
Grading Scheme: Letter Grade  
A preprofessional course designed to provide fundamental instruction and practice in writing for the electronic media.  
Prerequisite: 6 credits of English composition, sophomore standing or above, and the ability to type 20 words per minute.

RTV 3001 Introduction to Media Industries and Professions 3 Credits  
Grading Scheme: Letter Grade  
Introduces the cultural, social, legal, business and career aspects of the electronic media.

RTV 3101 Advanced Writing for Electronic Media 3 Credits  
Grading Scheme: Letter Grade  
Study and practice of electronic media writing, including commercials, corporate communication, documentaries, drama, and adaptations. (WR)  
Prerequisite: (RTV 2100 or MMC 2100) and RTV 3001 with minimum grades of C and Telecommunication major of sophomore standing or higher.  
Attributes: Satisfies 6000 Words of Writing Requirement

RTV 3320 Electronic Field Production 3 Credits  
Grading Scheme: Letter Grade  
Advanced electronic field production and editing theory and practice.  
Prerequisite: RTV 3101 and RTV 3511 with minimum grades of C.

RTV 3405 Media and Society 3 Credits  
Grading Scheme: Letter Grade  
Examines the structure and effects of television in such areas as politics, gender race and violence. Discusses criteria for evaluating television content. (S)  
Attributes: General Education - Social Science

RTV 3411 Race, Gender, Class and the Media 3 Credits  
Grading Scheme: Letter Grade  
Analyzes issues confronting the communications industries, professionals and media audiences in relation to the context of global and national diversity.

RTV 3502C Introduction to Sports Production 3 Credits  
Grading Scheme: Letter Grade  
Prepares for Sports Broadcasting Production by developing professional skills specific to sports media. Through active participation and hands-on experiences, sharpen storytelling skills and develop shooting and editing abilities. Covers multiple sports, providing opportunities to create diversified content for professional portfolios.  
Prerequisite: (VIC 3001 or JOU 3220C) and (MMC 2121 or JOU 3101 or RTV 2100).

RTV 3511 Fundamentals of Production 3 Credits  
Grading Scheme: Letter Grade  
Basic principles and operations of radio and television equipment for utilization in industry and commercial and educational radio television stations. Requires purchasing special computer equipment.  
Prerequisite: (RTV 2100 or MMC 2100 or JOU 3109C) and RTV 3001 with minimum grades of C.

RTV 3516 Electronic Field Production II 4 Credits  
Grading Scheme: Letter Grade  
Gives career-path communication students advanced instruction in the use of digital audio and video production tools as well as the fundamentals of effective visual storytelling.  
Prerequisite: RTV 3320 with a grade of C or better; Corequisite: RTV 4929C.

RTV 3593 Multimedia Sports Reporting 3 Credits  
Grading Scheme: Letter Grade  
Instruction and training in sports information gathering and writing, interviewing and reporting. Special emphasis on enhancing sports writing skills, basic sports production for radio, generation of sports journalism for radio and the internet, and ethics and values of quality sports reporting.  
Prerequisite: (RTV 2100 or MMC 2100 or JOU 3109C with minimum grade of C) and approval of Director of Sports Journalism and Communications in conjunction with sports personnel at WRUF-AM ESPN 850.
RTV 3945 Electronic Media Practicum 1-3 Credits
Grading Scheme: S/U
Provides an immersive experience in one or more areas of electronic media operations, such as program production, journalism, audience research, sales or promotions. (S-U)
Prerequisite: instructor permission.

RTV 4420 New Media Systems 3 Credits
Grading Scheme: Letter Grade
New electronic media systems of mass communication in cable television and satellite communication.
Prerequisite: (RTV 2100 or MMC 2100) and RTV 3001 with minimum grade of C and junior standing or higher or instructor permission.

RTV 4432 Ethics and Problems in Telecommunication 3 Credits
Grading Scheme: Letter Grade
Investigation and discussion of social problems, ethics, and responsibilities in telecommunication.
Prerequisite: RTV 2100 and RTV 3001 and RTV 3405 and junior standing or higher.

RTV 4500 Telecommunication Programming 3 Credits
Grading Scheme: Letter Grade
Audience, economic, and placement considerations in scheduling programs for broadcast radio, television and cable television, and other electronic media of mass communication. This course must be completed before enrolling in RTV 4800.
Prerequisite: (RTV 2100 or MMC 2100) and RTV 3001 with minimum grades of C.

RTV 4506 Telecommunication Research 3 Credits
Grading Scheme: Letter Grade
Techniques in telecommunication research. Strategies of analysis of audience attitudes and characteristics, and ascertainment of community needs. Emphasis on survey research, sampling techniques and interpretation of market and ratings data.
Prerequisite: RTV 4500 with minimum grade of C.

RTV 4590 Digital Games in Communications 3 Credits
Grading Scheme: Letter Grade
Focuses on the application of digital games in the communication fields including journalism (news games), entertainment (transmedia storytelling/alternate reality game), advertising (advergames), and other fields such as education, health, and politics.
Prerequisite: junior standing or higher.

RTV 4591 Applications of Mobile Technology 3 Credits
Grading Scheme: Letter Grade
Review of developments of mobile devices and use these tools in the creation and distribution of content. Instruction in developing apps.
Prerequisite: junior standing or higher.

RTV 4700 Telecommunication Law and Regulation 3 Credits
Grading Scheme: Letter Grade
Legal structure and regulation of telecommunications industries, First Amendment and regulatory constructs of broadcast, cable satellite and the Internet, and defamation libel and copyright law.
Prerequisite: (RTV 2100 or MMC 2100) and RTV 3001 with minimum grade of C.

RTV 4800 Telecommunication Planning and Operations 3 Credits
Grading Scheme: Letter Grade
Organization and administration of the local telecommunication outlet, including personnel supervision, financial control, regulatory requirements and social responsibilities.
Prerequisite: RTV 4500 and (RTV 4506 or MMC 3420).

RTV 4811 Innovation in Media 3 Credits
Grading Scheme: Letter Grade
Overview of the processes and practice innovation and entrepreneurship as applied to the mass communication industries.
Prerequisite: RTV 2100 and RTV 3001.

RTV 4905 Individual Projects in Telecommunication 1-3 Credits
Grading Scheme: Letter Grade
The student and the instructor choose a problem or project that will give the student experience in telecommunication.
Prerequisite: 10 credits minimum of junior/senior-level telecommunication courses, and instructor and department permission.

RTV 4910 Telecommunication Undergraduate Research 0-3 Credits
Grading Scheme: S/U
Provides an opportunity for firsthand, supervised research. "Research" is defined as mentored, but self-directed, work that enables individuals or a small group to explore an issue of interest to them and to communicate the results to others.
Prerequisite: (RTV 2100 or MMC 2100 or JOU 3109C) and RTV 3001 with minimum grades of C or instructor permission.

RTV 4929C Senior Advanced Workshop in Telecommunication Production 1-3 Credits
Grading Scheme: Letter Grade
Requires three hours per week outside of class for work at assigned production sites. Emphasis is on producing sophisticated video productions in various formats, including drama, sports, documentaries and corporate communication. Topics can include concept development and scriptwriting, directing, advanced camera and lighting techniques, post-production and special effects/graphics.
Prerequisite: RTV 3101 and RTV 3511 and RTV 3320 with minimum grades of C and instructor permission.

RTV 4930 Special Study in Telecommunication 1-3 Credits
Grading Scheme: Letter Grade
Variable content, providing opportunity for study in areas of broadcasting such as television staging and lighting, film criticism, communication theory and other fields.
Prerequisite: instructor permission.

RTV 4940 Telecommunication Internship 1-4 Credits
Grading Scheme: S/U
Student and instructor will select an appropriate work area related to the field of broadcasting for on-the-job training. Student will work a minimum of 100 hours on the job for every credit to be received. Progress reports and summary required. (S-U)
Prerequisite: appropriate professional courses, a 2.5 GPA and department permission.

RTV 4959C Sports Capstone 3 Credits
Grading Scheme: Letter Grade
Integrates material from previous courses and requires each student to prepare a final project as well as a comprehensive e-portfolio to assist the student in a job search. Prepares students to perform satisfactorily in entry-level sports communication and media positions.
Prerequisite: PUR 3463 and JOU 4313C with minimum grades of C.

VIC 3001 Sight, Sound and Motion 4 Credits
Grading Scheme: Letter Grade
Visual literacy is a prerequisite for success in most areas of mass communication. Teaches fundamentals of design across print, web, and multimedia platforms. Also emphasizes how visual forms convey messages to readers.
Prerequisite: sophomore standing or higher.
Theatre + Dance

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.

More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

School Information

The School of Theatre + Dance provides an intimate setting where students, faculty, and staff interact in constant and close collaboration. Curricular programs are suited to a range of student interests and talents, from the liberal arts B.A. degree to the competitive B.F.A. and M.F.A. professional training degrees.

- Theatre Production Minor

Courses

DAA 1000 Fundamentals of Dance Technique 3 Credits
Grading Scheme: Letter Grade
Practice and principles of fundamentals and stylistic characteristics common to ballet, jazz and modern dance. (H)
Attributes: General Education - Humanities

DAA 2104 Basic Modern Dance 2 Credits
Grading Scheme: Letter Grade
Experience in beginning level technique, readings, observations and movement exploration.
Prerequisite: DAA 1000 with minimum grade of C, or audition.

DAA 2204 Basic Ballet 2 Credits
Grading Scheme: Letter Grade
Basic ballet technique with discussion of terminology and history.
Prerequisite: DAA 1000 with minimum grade of C, or audition.

DAA 2331 West African Dance and Music 2 Credits
Grading Scheme: Letter Grade
Introduces traditional West African dance and music. Focuses on the learning of material emphasizing practice and performance with application to classroom and outreach-oriented projects.

DAA 2381 World Dance and Intercultural Performance 3 Credits
Grading Scheme: Letter Grade
Introduces the performance of traditional and popular dance styles representing a selection of world dance perspectives. Emphasizing practice and performance, the course examines dance forms in relation to their specific cultural contexts. Readings, video viewing and class projects enhance laboratory exploration. (H and N)
Prerequisite: dance major/minor or audition.
Attributes: General Education - Humanities, General Education - International

DAA 2504 Basic Jazz 2 Credits
Grading Scheme: Letter Grade
Basic jazz technique with emphasis on style, movement skills and vocabulary.
Prerequisite: DAA 1000 with minimum grade of C, or audition.

DAA 2580L Broadway Dance Styles 1 2 Credits
Grading Scheme: Letter Grade
Jerome Robbins, Bob Fosse. These are two of the prominent choreographers who helped shape the landscape of dance on Broadway and in musical theater throughout the world. Focusing on the mid-20th century through approximately the year 2000, we will learn the original choreography of these and many other Broadway legends.

DAA 2581L Broadway Styles 2 2 Credits
Grading Scheme: Letter Grade
Students will learn original choreography from relevant Broadway productions of today through the last 15 years, and familiarize themselves with current musical theatre dance styles and techniques found in New York, across the country, and around the world. Course gives students the skills to approach musical theatre dance with confidence.
Prerequisite: DAA 2580L.

DAA 2610 Dance Composition 1 2 Credits
Grading Scheme: Letter Grade
Introduces improvisation and composition with emphasis on process and movement elements. Solo choreography.
Prerequisite: DAA 2104 or instructor permission.

DAA 2611 Dance Composition 2 2 Credits
Grading Scheme: Letter Grade
Practice and study of basic compositional crafting, emphasizing solo and small group works.
Prerequisite: DAA 2610 or instructor permission.

DAA 3108 Intermediate Modern Dance 2 Credits
Grading Scheme: Letter Grade
Experience in intermediate level technique, readings, observations and movement exploration exercises.
Prerequisite: audition.

DAA 3113 Modern Dance for the Theatre 3-2 3 Credits
Grading Scheme: Letter Grade
Offered in Miami only.

DAA 3114 Modern Dance 3 3 Credits
Grading Scheme: Letter Grade

DAA 3208 Intermediate Ballet 2 Credits
Grading Scheme: Letter Grade
Intermediate ballet technique with discussion of terminology and theory.
Prerequisite: audition.
DAA 3224 Pointe 1 Credit  
**Grading Scheme:** Letter Grade  
Instruction in pointe technique with the study of variations from classical ballet repertory.  
**Prerequisite:** DAA 3208 or higher, and faculty permission.

DAA 3508 Intermediate Jazz 2 Credits  
**Grading Scheme:** Letter Grade  
Intermediate level classes in jazz combining technique, style and movement skills.  
**Prerequisite:** audition.

DAA 3524 Tap 2 Credits  
**Grading Scheme:** Letter Grade  
Basic and intermediate techniques of musical theatre styles and choreography.  
**Prerequisite:** audition.

DAA 3524L Tap 2 Credits  
**Grading Scheme:** Letter Grade  
Becoming a proficient tapper is necessary to reach the triple threat status in Musical Theatre. Improves upon the skills of those with a solid tap foundation by learning material from some of Broadway’s best-known tap choreographers and shows. Geared toward students pursuing musical theatre, all can benefit.  
**Prerequisite:** DAA 2520L.

DAA 3614 Dance Composition 3 2 Credits  
**Grading Scheme:** Letter Grade  
Practice and study in choreography with focus on various compositional styles, both traditional and nontraditional.  
**Prerequisite:** DAA 2611 or instructor permission.

DAA 3615 Dance Composition 4 2 Credits  
**Grading Scheme:** Letter Grade  
Practice and study in choreography of group works, including theory and aesthetics.  
**Prerequisite:** DAA 3614 or instructor permission.

DAA 3634 Commercial Choreography 2 Credits  
**Grading Scheme:** Letter Grade  
Practice and study in choreography with focus on various compositional styles, both traditional and nontraditional.  
**Prerequisite:** DAA 2611 or instructor permission.

DAA 4110 Advanced Modern Dance 2 Credits  
**Grading Scheme:** Letter Grade  
Advanced level techniques, readings, observation, informal performance and movement exploration exercises.  
**Prerequisite:** audition.

DAA 4112 Modern Dance for the Theatre 4-2 3 Credits  
**Grading Scheme:** Letter Grade  
Offered in Miami only.

DAA 4210 Advanced Ballet 2 Credits  
**Grading Scheme:** Letter Grade  
Advanced ballet technique with discussion of terminology and style.  
**Prerequisite:** audition.

DAA 4510 Advanced Jazz 2 Credits  
**Grading Scheme:** Letter Grade  
Teaches advanced-level jazz technique and style, including a study of style variations, readings, observations, movement projects and choreography.  
**Prerequisite:** audition.

DAA 4685 Dance Ensemble 1 Credit  
**Grading Scheme:** Letter Grade  
Experience in dance ensemble: preparation, performance and production.  
**Prerequisite:** audition.

DAA 4755 Pilates Technique for the Dancer 1-3 Credits  
**Grading Scheme:** Letter Grade  
Systematic achievement of strength, tone, flexibility and posture for optimal physical performance in dance. May be repeated with a change of content up to six credits.  
**Corequisite:** junior or senior level dance major or instructor permission.

DAA 4920 Summer Dance Intensive 1-6 Credits  
**Grading Scheme:** Letter Grade  
An intensive workshop including technique (ballet, jazz, modern, multicultural), improvisation, composition, repertory, production work and culminating in performance.  
**Prerequisite:** audition.

DAA 4930 Special Topics in Dance 1-3 Credits  
**Grading Scheme:** Letter Grade  
Lecture, seminar or studio sessions covering selected topics of current interest in dance.  
**Prerequisite:** instructor permission.

DAE 4300 Dance Teaching Methods 3 Credits  
**Grading Scheme:** Letter Grade  
Methods and skills for teaching in ballet, modern and jazz, including theory and practice.  
**Prerequisite:** junior or senior level dance major/minor and instructor permission.

DAN 2100 Dance Appreciation for the Twenty-first Century 3 Credits  
**Grading Scheme:** Letter Grade  
A critical examination of dance as a form of communication and as an art; a cross-cultural survey of theories and styles of dance, their relationships to societal contexts and to other art forms. (H and N)  
**Attributes:** General Education - Humanities, General Education - International

DAN 3614L Music for Dance 3 Credits  
**Grading Scheme:** Letter Grade  
Explores musical forms and their direct relationship to dance and dance-making. Includes basic music reading skills, creating sound scores, the basic elements of music and how to read and analyze scores as choreographers and musicians do.  
**Prerequisite:** instructor permission.

DAN 3644 20th Century Music and Literature for Dance 2 Credits  
**Grading Scheme:** Letter Grade  
Offered in Miami only.

DAN 3775 Dance in Medicine 1-6 Credits  
**Grading Scheme:** Letter Grade  
This experiential course explores the links between the creative and the healing arts, focusing on the many ways that dance and movement can be used to enhance the healing process. It includes lecture/discussion, student workshops in dance and the other arts and laboratory experiences (3 hours/week for 2 credits, 6 hours/week for 3 credits) with Shands Hospital’s Arts in Medicine program. This course is appropriate for students of the arts and/or of health related fields who are willing to access their creative potentials.  
**Prerequisite:** instructor permission.
DAN 4124 Dance History 3 Credits
Grading Scheme: Letter Grade
Survey of the historical development of dance with reference to social contexts, periods and culture. (H and N)
Prerequisite: DAN 2100 with minimum grade of C or dance major/minor.
Attributes: General Education - Humanities, General Education - International

DAN 4154 Dance Criticism 2 Credits
Grading Scheme: Letter Grade
Offered in Miami only.

DAN 4155 Seminar in Dance Theory and Criticism 3 Credits
Grading Scheme: Letter Grade
Survey of theoretical and critical concepts of dance with emphasis on diversity of styles and concepts as set forth by professional dance companies.
Prerequisite: DAN 4124 and dance major.

DAN 4180 Professional Development for Dance 1 Credit
Grading Scheme: Letter Grade
Addresses crucial professional issues in dance. Student knowledge of technique, professional resources and networking, dance research, current events and professional presentation with experiences to prepare major for graduation into a career in dance.
Prerequisite: dance major.

DAN 4434 Laban Move Analysis 3 Credits
Grading Scheme: Letter Grade

DAN 4503 Dance Production 1 2 Credits
Grading Scheme: Letter Grade
Offered in Miami only.

DAN 4860L Dance Clinical Practice 1-3 Credits
Grading Scheme: Letter Grade
Offers practical clinical experience in the use of movement to enhance healing in a hospital or community setting. The student will work though Shands Arts in Medicine or a comparable program in individually contracted situations.
Prerequisite: DAN 3755 and instructor permission.

DAN 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
A reading, research, practical or creative project in an area of dance.
Prerequisite: instructor permission.

DAN 4912 Senior Dance Project 2 Credits
Grading Scheme: Letter Grade
Offered in Miami only.
Prerequisite: dance major and instructor permission.

DAN 4959 Senior Project 1-4 Credits
Grading Scheme: Letter Grade
A publicly presented project representing the culmination of the student’s university experience and demonstrating a high level of competence in dance performance, choreography or production.
Prerequisite: instructor permission.

HUM 3599 Applied Theater for Health: Theory & Practice 3 Credits
Grading Scheme: Letter Grade
Immersion in the world of applied theatre for health education, community development, and social change. Develop an understanding of how theatre can be a catalyst for discussion, change, and health promotion by investigating the work of revolutionary artists, as well as contemporary applied theatre practitioners.
Prerequisite: sophomore standing or higher.

MVV 4341 Voice for Theatre 2 Credits
Grading Scheme: Letter Grade
Offered in Miami only.

ORI 2000 Oral Performance of Literature 1 3 Credits
Grading Scheme: Letter Grade
Introduces the presentational mode of interpreting literature with emphasis on the improvement and application of vocal skills.

THE 2000 Theatre Appreciation 3 Credits
Grading Scheme: Letter Grade
Studies history, literature, forms, styles and philosophies of theatre from a humanistic approach. (D and H)
Attributes: General Education - Diversity, General Education - Humanities

THE 3173 Contemporary European Theatre 3 Credits
Grading Scheme: Letter Grade
Introduces the theatre scene in present-day Western and Eastern Europe with emphasis on UK, France, Germany. Readings and discussions of dramatic literature and criticism.
Prerequisite: (THE 2000 or THE 2020 and junior standing or higher) or instructor permission.

THE 3231 African American Theatre History and Practice 3 Credits
Grading Scheme: Letter Grade
Examines origins and development of theatre by, for and about Black Americans
Prerequisite: THE 2000 or THE 2020.

THE 3234 Diversity and Multiculturalism in American Theatre 3 Credits
Grading Scheme: Letter Grade
Development of images of marginalized peoples as presented in the American Theatre from Colonial period to the present. (H and D)
Prerequisite: THE 2000 or THE 2020.
Attributes: General Education - Diversity, General Education - Humanities

THE 4110 History of Theatre on Stage 1 3 Credits
Grading Scheme: Letter Grade
Surveys the history of dramatic literature and stage performance from Greek and Roman times to the Restoration, including Japan and India. Concentrating on plays, theatrical spaces and performance practices of each era in the context of social and artistic movements. (H and N)
Prerequisite: THE 2000 or THE 2020.
Attributes: General Education - Humanities, General Education - International

THE 4111 History of Theatre on Stage 2 3 Credits
Grading Scheme: Letter Grade
Continues the survey of THE 4110 from the 18th century to the present, with featured segments on African and contemporary world theatre. Particular emphasis on the 19th century and the emergence of modernist movements: realism, expressionism, Artaud, Brecht. (H and N)
Prerequisite: THE 2000 or THE 2020.
Attributes: General Education - Humanities, General Education - International

THE 4260 Historic Costume for the Stage 3 Credits
Grading Scheme: Letter Grade
Examines the costume timeline, its relationship to the general climate of the era and its application by theatrical designers.

THE 4285 History of Decor and Architecture for the Stage 3 Credits
Grading Scheme: Letter Grade
Studies architecture and decor from prehistoric time to the 19th century as they reflect time and spirit in preparation for play production.
THE 4481 Production Dramaturgy 3 Credits
Grading Scheme: Letter Grade
Introduces the field and concepts of production dramaturgy. Includes script analyses, text editing, research, adaptation, new play development, season selection and programs. Students complete a production protocol.
Prerequisite: THE 2000 or THE 2020.
THE 4905 Individual Study 1-4 Credits
Grading Scheme: Letter Grade
A reading, research or performance project.
Prerequisite: instructor permission.
THE 4930 Special Topics in Theatre 1-3 Credits
Grading Scheme: Letter Grade
Lecture, seminar or studio sessions covering selected topics of current interest in theatre.
Prerequisite: instructor permission.
THE 4945 Summer Repertory Theatre 3-9 Credits
Grading Scheme: Letter Grade
Practical experience in repertory theatre with direct skills application in all areas of theatre production.
Prerequisite: instructor permission.
THE 4950 Production and Performance 1 Credit
Grading Scheme: Letter Grade
Participation in the production program of the curriculum with work in preparation and performance. Focus on area of specialization.
Prerequisite: instructor permission.
THE 4959 Senior Project 1-4 Credits
Grading Scheme: Letter Grade
Final project presented in public performance demonstrating expertise in declared area of specialization.
Prerequisite: BFA majors and instructor permission.
THE 4970 Senior Project 1 Credit
Grading Scheme: Letter Grade
Senior project for Bachelor of Arts theatre majors. Completion of a research project and/or preparation of a dramaturgical project to be undertaken with advisor’s consent in the final semester.
Prerequisite: BFA majors and instructor permission.
TPA 2074 Drawing and Rendering 3 Credits
Grading Scheme: Letter Grade
Drawing and painting techniques unique to the theatre. Emphasis on portfolio development and media experimentation: watercolor, markers, charcoal and acrylics.
TPA 2075 Scene Painting 3 Credits
Grading Scheme: Letter Grade
Utilization of advanced and experimental techniques unique to theatre graphics; exploration of various media for 3-dimensional representation in scene and design and model building.
Prerequisite: TPA 2074.
TPA 2120C Beginning Makeup 1 Credit
Grading Scheme: Letter Grade
Introduces the skill and artistry of theatrical makeup.
Prerequisite: Theatre or Dance major or minor.
TPA 2202C Stagecraft 4 Credits
Grading Scheme: Letter Grade
Introduces skills and craft of technical theatre. Includes knowledge of materials, techniques, tools, and supplies basic to the execution of environment; requires additional laboratory hours.
Prerequisite: Theatre or Dance major or minor.
TPA 2232C Beginning Costume 3 Credits
Grading Scheme: Letter Grade
Introduces skills and craft of costume design and execution. Knowledge of materials, techniques, and tools basic to revelation of character.
Prerequisite: Theatre or Dance major or minor or Theatre Production minor.
TPA 3208 Drawing/Drafting for the Stage 3 Credits
Grading Scheme: Letter Grade
Techniques and basic principles of drafting as applied to stage design: lights and sets.
Prerequisite: (TPA 2202C or TPA 2232C) and Theatre major or minor.
TPA 3217 Introduction to Lighting and Sound 4 Credits
Grading Scheme: Letter Grade
Introduces electricity and technical skills basic to lighting and sound technology.
TPA 3238 Advanced Costume Construction 3 Credits
Grading Scheme: Letter Grade
Focuses on costume construction skills and techniques; patterning, fitting, alteration, dyeing, and accessories.
Prerequisite: TPA 2232C and Theatre major.
TPA 4020 Lighting Design 3 Credits
Grading Scheme: Letter Grade
Lighting aesthetics, design and control; application of principles of design to lighting in the theatre.
Prerequisite: TPA 3217.
TPA 4021 Lighting Design 2 3 Credits
Grading Scheme: Letter Grade
Advanced lighting design with focus on automation programming and presentation techniques.
Prerequisite: TPA 4020.
TPA 4049 Costume Design 3 Credits
Grading Scheme: Letter Grade
Application of fundamentals of costume design to various genres of dramatic literature.
Prerequisite: TPA 2074.
TPA 4066 Scene Design 3 Credits
Grading Scheme: Letter Grade
Studies the basic processes and functions of scenic design within theatrical production. Development of the ability to create spaces based on scripts and choreography.
Prerequisite: TPA 2074.
TPA 4076 Advanced Theatre Graphics 3 Credits
Grading Scheme: Letter Grade
Specialized study in scene painting with focus on professional studio work and union examination.
Prerequisite: TPA 2074 and TPA 3208.
TPA 4206 Advanced Crafts for the Stage 3 Credits
Grading Scheme: Letter Grade
Emphasizes advanced materials construction for the designer/technician in scenic design and technical direction.
Prerequisite: TPA 2202C and TPA 2232C.
TPA 4239 Costume Patterning 3 Credits
Grading Scheme: Letter Grade
Advanced costume construction of period garments. Pattern drafting, tailoring, and period accessories.
Prerequisite: TPA 2232C and Theatre Production major or minor.
TA P 4240 Costume Patterning: Draping 3 Credits  
**Grading Scheme:** Letter Grade  
Utilizes draping techniques to create garments.  
**Prerequisite:** TPA 2232C and TPA 4239 and Theatre Production major or minor.

TPA 4352 Digital Design for Theatre and Dance 3 Credits  
**Grading Scheme:** Letter Grade  
Lectures and hands-on labs with emphasis on technologically innovative uses of media. Students attain a performing arts foundation of the history and intersections of live performance with projection, film, video, art and interactive sound design through experimentation with current media tools.  
**Prerequisite:** TPA 3217 or instructor permission.

TPA 4601 Stage and Theatre Management 3 Credits  
**Grading Scheme:** Letter Grade  
Studies stage and theatre management skills from technical expertise.  
**Prerequisite:** TPA 2202C and TPA 2232C and TPA 3217 and TPP 2110.

TPA 4930 Special Topics in Theatre Production 1-3 Credits  
**Grading Scheme:** Letter Grade  
Lecture, seminar or studio sessions covering selected topics of current interest in theatre production.

TPA 4931 Advanced Stage Management Seminar 1 Credit  
**Grading Scheme:** Letter Grade  
This seminar serves as a forum for peer sharing and problem solving on current production assignments. Rotating topics are specific to the stage management profession and industry trends.  
**Prerequisite:** TPA 4601 with minimum grade of C.

TPA 4940 Internship in Theatre Design or Production 1-9 Credits  
**Grading Scheme:** S/U  
Work with a professional theatre, dance, ballet, opera company or other approved professional situation. (S-U)

TPA 4946 Production Practicum 1-3 Credits  
**Grading Scheme:** Letter Grade  
Production experience in the design or execution of department productions.

TPP 2100 Acting for Non-Majors 3 Credits  
**Grading Scheme:** Letter Grade  
The discipline and the creative process of acting, including formal and improvisational techniques for developing vocal, physical and analytical skills. (H)  
**Attributes:** General Education - Humanities

TPP 2110 Acting 1: Instrument and Discipline 3 Credits  
**Grading Scheme:** Letter Grade  
The foundation for all performance majors and students seeking entrance into the program. Introduces basic physical, vocal and analytical concepts, methods, vocabulary, discipline, and explores the creative process through exercises in observation and awareness.  
**Prerequisite:** Theatre or Dance major.

TPP 2250 Song and Dance for the Theatre 1 Credit  
**Grading Scheme:** Letter Grade  
Preparation and performance in song and dance ensemble in musical revues and cabaret; development of style, interpretation and flexibility.  
**Prerequisite:** instructor permission; open to music theatre students; audition required.

TPP 2260 Acting for the Camera 3 Credits  
**Grading Scheme:** Letter Grade  
Principles and techniques of various performance methods in acting for television and motion pictures.  
**Prerequisite:** TPP 3103.

TPP 2282 Movement Training for the Actor 1 3 Credits  
**Grading Scheme:** Letter Grade  
Emphasizes physical preparation and character development through movement. Focusing on the preparation of the body, this course aids the actor's approach to performance.  
**Prerequisite:** TPP 2110 and theatre major.

TPP 3103 Acting 2: Analysis and Application 3 Credits  
**Grading Scheme:** Letter Grade  
Experimentation with scripted material: scene study, analysis, audition and performance.  
**Prerequisite:** refer to the department.

TPP 3113 Acting 3 3 Credits  
**Grading Scheme:** Letter Grade  
Emphasizes versatility and expanding the repertory of roles through physical, vocal and psychological transformation.  
**Prerequisite:** TPP 3103 with a minimum grade of C and Theatre major.

TPP 3124 Beginning Improvisation 1-3 Credits  
**Grading Scheme:** Letter Grade  
The fundamentals of improvisation; learn performance techniques concerning conceptual agreement, character creation, team building, and active listening in order to create intelligent and honest scenework.

TPP 3142 Acting 3/2 3 Credits  
**Grading Scheme:** Letter Grade  
Continuation of the third level acting course with emphasis on beginning the development of the professional actor's knowledge of theatre repertoire.

TPP 3165 Voice and Movement 3/2 3 Credits  
**Grading Scheme:** Letter Grade  
Offered in Miami only.

TPP 3251 Fundamentals of Music Theatre Acting 3 Credits  
**Grading Scheme:** Letter Grade  
Acting techniques as applied to music theatre material. Audition techniques in music and dance.  
**Prerequisite:** TPP 3103 with a minimum grade of C and Theatre Performance major.

TPP 3252 Music Theatre Acting Styles 3 Credits  
**Grading Scheme:** Letter Grade  
Analysis and preparation of roles from music theatre genres. Exploration of vocal styles and staging.  
**Prerequisite:** TPP 3251 with a minimum grade of C and Theatre major.

TPP 3253 Advanced Studies in Music Theatre Acting 3 Credits  
**Grading Scheme:** Letter Grade  
Analysis and preparation in musical theatre styles, repertoire and technique. Vocal skills and choreography techniques and audition techniques are examined.  
**Prerequisite:** TPP 3252 with a minimum grade of C and Theatre major.

TPP 3283 Movement Training for the Actor 2 3 Credits  
**Grading Scheme:** Letter Grade  
Character development through movement analyses; exploration of the physical demands of performance; practical applications of movement vocabulary to aid the actor's search for believability.  
**Prerequisite:** TPP 2282 with a minimum grade of C and Theatre major.
TPP 3290 Introduction to the Alexander Technique 3 Credits
Grading Scheme: Letter Grade
Introduces the Alexander Technique (AT); a mind-body approach to the use of self as applied to acting.
Prerequisite: Theatre major or instructor permission.

TPP 3311 Directing 3 Credits
Grading Scheme: Letter Grade
Practical application of theoretical concepts of directing applied to scene study.
Prerequisite: refer to the department.

TPP 3650 Script Analysis 3 Credits
Grading Scheme: Letter Grade
Formalist approach to teach the skills of script analysis for actors, directors, and designers.
Prerequisite: (THE 2000 or THE 2020) and Theatre major.

TPP 4114 Acting 4 3 Credits
Grading Scheme: Letter Grade
Continuation of Acting series, TPP 3103 / 3113 / 4114.
Prerequisite: TPP 3113 with a minimum grade of C and Theatre major.

TPP 4140 Acting: Shakespeare and Period Styles 3 Credits
Grading Scheme: Letter Grade
Experimentation and experience with classical literature: analysis and performance.
Prerequisite: TPP 4114 with a minimum grade of C and Theatre major.

TPP 4144 Acting Style: 18th Century to Post Modernism 3 Credits
Grading Scheme: Letter Grade
Experimentation and experience with the stylistic techniques, analysis, and performance of plays from the 18th century to Post-Modernism.
Prerequisite: TPP 4140 with a minimum grade of C and Theatre major.

TPP 4144 Acting Style: 18th Century to Post Modernism 3 Credits
Grading Scheme: Letter Grade
Experimentation and experience with the stylistic techniques, analysis, and performance of plays from the 18th century to Post-Modernism.
Prerequisite: TPP 4140 with a minimum grade of C and Theatre major.

TPP 4400 Acting: Audition Workshop and Synthesis 3 Credits
Grading Scheme: Letter Grade
Synthesis and exploration of techniques for auditioning; information and advice about the business of acting-trade unions, contracts, agents, etc.
Prerequisite: TPP 3103 and Theatre major.

TPP 4236 BFA Company Workshop 6 Credits
Grading Scheme: Letter Grade
Capstone course for all BFA Acting students. Student actors study, experiment and produce in laboratory. This course may be taken online the final semester with permission of the instructor.
Prerequisite: TPP 3113, TPP 4114, TPP 4140, TPP 4144; theatre-acting major.

TPP 4265 Acting for the Camera 3 Credits
Grading Scheme: Letter Grade
Principles and techniques of various performance methods in acting for television and motion pictures.
Prerequisite: TPP 2110.

TPP 4287 Voice, Speech and Body Training for the Actor 1 3 Credits
Grading Scheme: Letter Grade
Designed to recover and free the voice and integrate the body, mind and emotions of the actor in finding clear and honest expression in performance.
Prerequisite: THE 2020.

TPP 4288 Voice, Speech, and Body Training for the Actor 2 3 Credits
Grading Scheme: Letter Grade
Continuation of TPP 4287 with an emphasis on scene work, monologues, and vocal techniques for heightened and period styles.
Prerequisite: TPP 4287 with a minimum grade of C and Theatre major.

TPP 4291 Alexander Technique and the Actor 3 Credits
Grading Scheme: Letter Grade
Studies the Alexander Technique (AT) principles in greater depth and applying those principles to acting challenges. This course provides experimental integration of the AT principles in experiential anatomy, selected acting/performance techniques, voice and movement.
Prerequisite: TPP 3290.

TPP 4531 Stage Combat: Unarmed and Light Weaponry 3 Credits
Grading Scheme: Letter Grade
Introduces stage combat techniques including unarmed, rapier and dagger and/or single sword. Emphasizes safety and control.
Prerequisite: TPP 3113.

TPP 4532 Stage Combat: Theatrical Weapon Styles 3 Credits
Grading Scheme: Letter Grade
Instruction in standard armed stage combat techniques: weapon styles may include broad sword, quarterstaff, knife, small sword, sword and shield, or single sword. Safety is emphasized in the creation of the illusion of armed violence.
Prerequisite: TPP 3133 or instructor permission.
Corequisite: TPP 3113.

TPP 4600 Playwriting Workshop 3 Credits
Grading Scheme: Letter Grade
An introductory workshop in playwriting, culminating in the creation of a complete, one-act play by each student.
Prerequisite: instructor permission.

TPP 4730 Stage Dialects 3 Credits
Grading Scheme: Letter Grade
Lecture, seminar or studio sessions covering selected topics of current interest in theatre performance.
Prerequisite: instructor permission.

TPP 4930 Special Topics in Theatre Performance 1-3 Credits
Grading Scheme: Letter Grade
Lecture, seminar or studio sessions covering selected topics of current interest in theatre performance.
Prerequisite: instructor permission.

TPP 4940 Internship in Theatre Performance 1-9 Credits
Grading Scheme: S/U
Work with a professional theatre or other approved professional situation.
(S-U)

Tourism, Hospitality and Event Management

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

The Department of Tourism, Hospitality and Event Management prepares students to gain competency in industry knowledge, develop intellectual abilities, and foster adaptive and technical leadership skills.

Curriculum
• Combination Degrees
• Event Management Minor
• Event Management Minor UF Online
• Tourism, Hospitality and Event Management
• Tourism, Hospitality and Event Management UF Online

Courses
APK 4940C Internship 12 Credits
Grading Scheme: S/U
Internship in applied physiology and kinesiology. (S-U)
Prerequisite: department permission.

HFT 2750 Event Management 3 Credits
Grading Scheme: Letter Grade
An overview of the meetings, conventions, special events and expositions industry.

HFT 3253 Lodging Operations and Management 3 Credits
Grading Scheme: Letter Grade
Provides a realistic managerial examination of each major operating department within a lodging firm.
Prerequisite: Sophomore standing or higher.

HFT 3512 Event Promotion 3 Credits
Grading Scheme: Letter Grade
Advanced course in event promotion and sponsorship acquisition, involving a wide range of subjects relevant to event marketing from both macro (global) and micro (organization) perspectives. The course focuses on the components of development and marketing plans for various venues in the special events sector.
Prerequisite: HFT 2750.

HFT 4468 Hospitality Revenue Management 3 Credits
Grading Scheme: Letter Grade
Provides an applied understanding of the strategies and tactics used in hospitality revenue management. Addresses fundamental principles and concepts of revenue management, including capacity management, duration control, demand and revenue forecasting, discounting, overbooking practices, displacement analysis, rate management and sales mix analysis.
Prerequisite: ACG 2021.

HFT 4517 Convention Sales and Service 3 Credits
Grading Scheme: Letter Grade
Studies the scope of sales and meeting management within the hospitality industry. The reciprocal relationship between selling and service is presented within the context of hospitality marketing practices.
Prerequisite: LEI 3360 or HFT 2750

HFT 4743 Tourism and Hospitality Marketing 3 Credits
Grading Scheme: Letter Grade
Explores a wide range of subjects relevant to tourism and hospitality marketing from both macro (global) and micro (organization) perspectives.
Prerequisite: LEI 3301 and MAR 3023.

HFT 4754 Advanced Event Management 3 Credits
Grading Scheme: Letter Grade
Advances an understanding of the strategic event management process, including the selection and assessment of methods and techniques utilized in planning, organizing, promoting and delivering major events.
Prerequisite: HFT 2750.

HLP 4933 Variable International Topics 1-6 Credits
Grading Scheme: Letter Grade
Provides the opportunity to study in a wide range of cultural settings.

LEI 2000 Introduction to Recreation and Leisure (Non-Recreation Majors) 3 Credits
Grading Scheme: Letter Grade
Understanding the various roles that recreation has in contemporary society. Provides the opportunity to examine recreation as a potential profession.

LEI 2181 Leisure Contemporary Society 3 Credits
Grading Scheme: Letter Grade
Examines leisure as a condition of being human, as a cultural mirror and as a social instrument; reflects a wide range of literature from a number of academic disciplines. (S)
Attributes: General Education - Social Science

LEI 3100 Introduction to Outdoor Recreation and Parks 3 Credits
Grading Scheme: Letter Grade
Surveys the history, terminology and current issues of outdoor recreation and parks. Overview of urban, private, NGO, local, state and federal roles in the provision of outdoor recreation opportunities. Explores the tension between recreational use and conservation values.
Prerequisite: Sophomore standing or instructor permission.

LEI 3120 Introduction to Outdoor Recreation and Parks 3 Credits
Grading Scheme: Letter Grade
Survey of the history, terminology and current issues of outdoor recreation and parks. Overview of urban, private, NGO, local, state and federal roles in the provision of outdoor recreation opportunities. Explores the tension between recreational use and conservation values.
Prerequisite: Sophomore standing or instructor permission.

LEI 3140 Philosophy and History of Recreation 3 Credits
Grading Scheme: Letter Grade
Overview of the philosophical and historical foundations of recreation, leisure and play with the intent of providing students a base on which to interpret the recreation profession. (H)
Prerequisite: 2HH - REC or LEI or HHP majors.
Attributes: General Education - Humanities

LEI 3301 Principles of Travel and Tourism 3 Credits
Grading Scheme: Letter Grade
Overview of the travel and tourism industry; covers historical, behavioral, societal, and business aspects of travel and tourism.
Prerequisite: sophomore standing or higher or instructor permission.

LEI 3303 Fundamentals of Tourism Planning 3 Credits
Grading Scheme: Letter Grade
Examines the planning of tourism services and facilities, including the identification, planning and use of the physical, social and economic resources necessary to develop and support tourism.
Prerequisite: Sophomore standing or higher.

LEI 3320 Leadership in Recreation and Leisure Services 2 Credits
Grading Scheme: Letter Grade
Opportunity to explore and develop leadership and abilities to successfully implement recreation programs and services in leisure delivery systems.
Prerequisite: 3HH standing.
Prerequisite: LEI 3301.

LEI 3360 Hospitality Management 3 Credits
Grading Scheme: Letter Grade
Overview of the hospitality industry, including hotel management, food and beverage operations, business and leisure travel markets, convention services, hospitality trends, quest-based customer service strategies and career opportunities.
Prerequisite: sophomore standing or higher or department permission.

LEI 3400 Recreation Program Design and Leadership 3 Credits
Grading Scheme: Letter Grade
Focuses on designing and staging leisure experiences using a servant leadership approach. Provides information and practical experiences required to successfully translate agency vision, philosophy and policies into the design, implementation and program evaluation of recreation program and services in community or commercial contexts.
Prerequisite: 3HH standing.

LEI 3500 Administration of Leisure Services 3 Credits
Grading Scheme: Letter Grade
Organizing and administering leisure and recreation services, emphasizing problem solving. Limited to recreation majors or those with instructor permission.
Prerequisite: 2HH-REC or LEI.
Corequisite: LEI 3320 and LEI 3400.

LEI 3546 Park Management 3 Credits
Grading Scheme: Letter Grade
Park operations and management including planning, maintenance, law enforcement, resource management and visitor contact. Examines user conflicts and reviews case studies of existing park operations and research.
Prerequisite: FNR 3153, LEI 3140 or LEI 3250, or instructor permission.

LEI 3705 Leisure Services for People with Disabilities 3 Credits
Grading Scheme: Letter Grade
Leisure and recreation services for special population groups with a focus on access/inclusion, barriers to participation, disabling conditions, special population groups, program development, service delivery and legislation.

LEI 3843 Entrepreneurship in Tourism, Recreation and Sport Management 3 Credits
Grading Scheme: Letter Grade
Analyzes the entrepreneurial opportunities in tourism, hospitality, recreation, events and sport by examining the process of creating, planning and managing business ventures in these sectors.
Prerequisite: sophomore standing or higher or department permission.

LEI 3921 Field Experience in TRSM 3 Credits
Grading Scheme: Letter Grade
Practical field experience in leisure service delivery. Students apply skill and knowledge as volunteers where they utilize leadership and management skills to enhance participant involvement and agency operations. In addition, the student prepares a resume, investigates agencies as potential intern sites and submits the appropriate forms for approval of an internship site.
Prerequisite: department permission.

LEI 4321 Ecotourism 3 Credits
Grading Scheme: Letter Grade
Studies the components, history, practice and current issues of nature-based tourism. Explores principles and problems of ecotourism for natural resources and host populations and includes rural tourism, economic impacts, tourism life cycle and case studies.
Prerequisite: 6 credits of biological science.

LEI 4540 Management and Supervision of Leisure Facilities and Personnel 3 Credits
Grading Scheme: Letter Grade
The management process as it relates to planning and operation of leisure service facilities. Subjects include traditional and contemporary management theory, the management process, legal and financial aspects, risk management and contemporary issues in leisure services management. Facility topics include feasibility studies and design issues.
Prerequisite: junior standing or department permission.

LEI 4570 Revenue Resources Management 3 Credits
Grading Scheme: Letter Grade
Identifies the many and variable forms of revenue resources available in recreation and the methods of managing that revenue.
Prerequisite: LEI 3400 and ACG 2021.

LEI 4800 Legal Aspects of Tourism, Events and Recreation 3 Credits
Grading Scheme: Letter Grade
Concentrates on the legal aspects of recreation, tourism, hospitality and event management. Enables students to better understand the law as it pertains to their area of specialization and improves risk management practice.
Prerequisite: LEI 2181 and LEI 3301.

LEI 4845 Outdoor Recreation Enterprises 3 Credits
Grading Scheme: Letter Grade
Introduces a range of private enterprise recreation, park and ecotourism business opportunities and provides guidance and practice in writing an operations business plan for such businesses. Examines customer motivations for engaging with outdoor recreation related businesses, product, services, marketing analysis and methods of providing excellent service.
Prerequisite: LEI 2181.

LEI 4880 Research Methods in Tourism, Recreation and Sport Management 3 Credits
Grading Scheme: Letter Grade
Introductory course providing a broad understanding of measurement and evaluation in recreation, sports, events, tourism and hospitality; introduces diverse aspects of research, from setting the theoretical background to evaluating the results of analyses.
Prerequisite: (LEI 2181 or SPM 2000) and STA 2023.

LEI 4905 Variable Topics 1-4 Credits
Grading Scheme: Letter Grade
Offered upon request to meet special interests not adequately provided in other courses, such as Multidisciplinary Perspectives of Gerontology and Health and Physical Aspects of Aging.
Prerequisite: department permission.

LEI 4912 TRSM Research 0-5 Credits
Grading Scheme: S/U
Participate in supervised research experiences. For this purpose, research is defined as an independent, self-directed experience that enables the student to investigate an issue in tourism, recreation or sport management and then to communicate the results to others. (S-U)
LEI 4940 Internship in Leisure Services 1-15 Credits
Grading Scheme: S/U
Practical field experience in selected off-campus leisure service agencies. Normally taken during the last semester before graduation. (S-U)
Prerequisite: department chair permission.

LEI 4941 Practicum in Tourism, Event and Recreation Management 1-3 Credits
Grading Scheme: S/U
Provides practical experience for Tourism, Events and Recreation Management majors who will maintain a part-time workload in an approved setting appropriate to their specialization.
Prerequisite: Tourism, Event and Recreation Management majors.

LEI 4955 Travel Studies 1-6 Credits
Grading Scheme: Letter Grade

PET 3121 History of Sport and Exercise Sciences 3 Credits
Grading Scheme: Letter Grade
Development of sport and exercise sciences in the United States from colonial America to the present. Interpretations of sport and exercise sciences and the relation to society.
Prerequisite: Sport Management major.

PET 4905C Variable Topics in Exercise and Sport Sciences 1-5 Credits
Grading Scheme: Letter Grade
Offered upon request to meet students’ special interests that are not adequately provided in other courses.
Prerequisite: department chair permission.

PET 4948C Practicum in Exercise and Sport Sciences 1-5 Credits
Grading Scheme: Letter Grade
Practical experience in such specialty areas as adult fitness programs, health clubs, exercise testing laboratories, clinical laboratories and athletic training rooms. May include senior thesis with oral defense.
Prerequisite: department chair permission.

SPM 2000 Introduction to Sport Management 3 Credits
Grading Scheme: Letter Grade
Introduces management, marketing, financial and legal principles regarding sport facilities, events and organizations within interscholastic, intercollegiate, professional and international sport industries. The conduct of amateur and professional sport programs.

SPM 3012 Sport and Society 3 Credits
Grading Scheme: Letter Grade
Societal implications of sport in history and heritage, youth programs, collegiate and professional situations and the involvement of minority groups, women, business and industry. (WR)
Prerequisite: sophomore standing or instructor permission.
Attributes: Satisfies 6000 Words of Writing Requirement

SPM 3204 Ethical Issues in Sport 3 Credits
Grading Scheme: Letter Grade
Review and study of ethical issues that affect sport.

SPM 3306 Sport Marketing 3 Credits
Grading Scheme: Letter Grade
Key marketing concepts and strategies in sports referent to sport consumer behavior and implications for marketing. Analyzes marketing cases to solve marketing-related problems and to help students prepare and evaluate a comprehensive marketing plan.
Prerequisite: MAR 3023 and SPM 2000 with minimum grades of C.

SPM 3403 Sport Information Management 3 Credits
Grading Scheme: Letter Grade
Prerequisite: sophomore standing or instructor permission.

SPM 4104 Sport Facility Design and Management 3 Credits
Grading Scheme: Letter Grade
Planning and management of sport facilities.
Prerequisite: Sport Management major of junior standing or higher.

SPM 4154 Administration of Sport and Physical Activity 3 Credits
Grading Scheme: Letter Grade
Managerial principles and techniques applicable to a variety of sport, physical education and fitness settings.
Prerequisite: MAN 3025 and SPM 2000 with minimum grades of C.

SPM 4515 Sport Business and Finance 3 Credits
Grading Scheme: Letter Grade
Financial expense categories and sources of revenue for sport organizations. Determines and calculates facility revenues and non-facility revenues. Develops potential solutions for improving revenue sources to increase revenue and decrease costs while maintaining a viable product.
Prerequisite: SPM 2000.

SPM 4723 Legal Issues in Sport and Physical Activity 3 Credits
Grading Scheme: Letter Grade
Legal structures, major laws, regulations and case precedents that establish legal responsibilities, rights, privileges, and controls related to sport management.
Prerequisite: SPM 2000 and Sport Management major of junior standing or higher.

SPM 4905 Variable Topics in Sport Management 1-3 Credits
Grading Scheme: Letter Grade
Offered upon request to meet special interests that not adequately provided in other courses.
Prerequisite: department permission.

SPM 4941C Internship in Sport Management 1-15 Credits
Grading Scheme: S/U
Internship with a public or private enterprise in sport management. (S-U)

SPM 4948 Practicum in Sport Management 1-3 Credits
Grading Scheme: S/U
Practical experience in sport management. May include a senior thesis with oral defense.
Prerequisite: department permission.

Courses
TUR 1130 Beginning Turkish 1 5 Credits
Grading Scheme: Letter Grade
This course and its sequel, TUR 1131, constitute the introductory sequence in Turkish.

TUR 1131 Beginning Turkish 2 5 Credits
Grading Scheme: Letter Grade
Second semester of the introductory sequence in Turkish.
Prerequisite: TUR 1130 with minimum grade of C.

TUR 1180 Intensive Beginning Turkish 5 Credits
Grading Scheme: Letter Grade
An intensive introduction to Turkish, using the proficiency method. This course is equivalent to, and substitute for, the UF's first-year Turkish sequence (TUR 1130 / TUR 1131).
Prerequisite: instructor permission.

TUR 2220 Intermediate Turkish 1 4 Credits
Grading Scheme: Letter Grade
Intermediate study of speaking, reading, writing and listening comprehension skills with new vocabulary and grammar.
Prerequisite: TUR 1131 or placement test.

TUR 2221 Intermediate Turkish 2 4 Credits
Grading Scheme: Letter Grade
Improves speaking, reading, writing and listening skills by building upon language principles introduced in TUR 2220.
Prerequisite: TUR 2220 or placement test.

TUR 2300 Intensive Intermediate Turkish 5 Credits
Grading Scheme: Letter Grade
Immersive intermediate study of Turkish. Equivalent to, and substitute for, the second-year sequence of TUR 2220 / TUR 2221. Classes meet daily; see the weekly schedule of topics.
Prerequisite: (TUR 1130 and TUR 1131) or instructor approval.

Urban and Regional Planning

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information
The Department of Urban and Regional Planning (URP) strives to be a leading graduate program with excellence in planning education, research, and service for the citizens of the state, the nation, and the world. The department values diversity and strives to recruit and retain faculty and students with diverse racial, ethnic, cultural, and economic backgrounds.

• Urban and Regional Planning Minor

Courses
DCP 4000 Overview of Historic Preservation 3 Credits
Grading Scheme: Letter Grade
Overview of historic preservation and its relationship to historic communities. The course covers terminology, theory, legal, design, social issues and community assessments.
Prerequisite: junior standing or higher.

URP 3001 Cities of the World 3 Credits
Grading Scheme: Letter Grade
Comparative case studies of contemporary cities in the U.S. and a series of foreign countries, both industrialized and developing. Special consideration is given to energy consumption. (S and N)
Attributes: General Education - International, General Education - Social Science

URP 4000 Preview of Urban and Regional Planning 3 Credits
Grading Scheme: Letter Grade
An overview of the comprehensive planning process or students who may be considering a career in urban and regional planning or who may be pursuing studies where some knowledge of the planning process is desirable. (H)
Attributes: General Education - Humanities

URP 4230 3D Modeling, Visualization, and Simulation 3 Credits
Grading Scheme: Letter Grade
Introduces a variety of methods and techniques to interactively model and visualize physical urban environments in two, three, and four dimensions through a hands-on approach using computer software.
Prerequisite: DCP 2002 or instructor permission.
URP 4273 Survey of Planning Information Systems 3 Credits
Grading Scheme: Letter Grade
Introduces concepts and theories associated with Geographic Information Systems (GIS) as related to urban and environmental planning. Lectures, class assignments and homework assignments are required.

URP 4283 Automation for Geospatial Modeling and Analysis 3 Credits
Grading Scheme: Letter Grade
Covers methods and techniques for automating geospatial modeling and analysis for planning and built environment by using visual models, computer programming, and custom-built applications and tools that utilize Geographic Information Systems (GIS) technology in the context of planning information systems.
Prerequisite: junior standing or higher.

URP 4640 Sustainable Urbanism in Europe 3 Credits
Grading Scheme: Letter Grade
Explores the diverse urban places that make up modern Europe, its historic development since the pre-industrial city, challenges and accomplishments of urbanization in Europe in recent decades and current accomplishments in achieving sustainable development.
Prerequisite: junior standing or higher.

URP 4740 Housing and Urban Development 3 Credits
Grading Scheme: Letter Grade
Concepts and theories about the economics of the housing market, land development and home building process, and the growth of cities.

URP 4882 Defensible Space and CPTED in Urban Design 3 Credits
Grading Scheme: Letter Grade
Explore the history, theory, application and possibilities associated with crime prevention planning. Course investigates theories and strategies in the planner's toolkit and how police, planning and other agencies interact to implement them. The course focuses on real-world applications and students will visit sites that offer teaching and research opportunities.

URP 4905 Special Studies 1-3 Credits
Grading Scheme: Letter Grade
Variable topics course of lecture, studio and seminar that explores current issues in urban planning, from geographic information systems to transportation planning.

URP 4942 Community Service 3 Credits
Grading Scheme: S/U
Provides an opportunity to work directly with a community service agency. Public sector agencies, such as a city or county office and nonprofit organizations, qualify as community service agencies. In lieu of meeting in a classroom, students will be placed in a community service agency and will work as volunteers for a minimum of 60 hours during the academic semester.
Prerequisite: URP 3001 or URP 4000.

Veterinary Medical Sciences

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.
More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Courses

VME 3001 The Dog 3 Credits
Grading Scheme: Letter Grade
Designed for students planning careers in veterinary medicine and veterinary technical programs. Students who want to learn more about dogs will be introduced to a number of topics, including evolution, domestication, anatomy, role in society, physiology, behavior and health of the dog.
Prerequisite: BSC 2010/BSC 2010L and BSC 2011/BSC 2011L; six credits from: AGR 3303, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2311, MCB 3020, PHY 2053, PHY 2054, or STA 2023.

VME 4012 Aquatic Animal Conservation Issues 3 Credits
Grading Scheme: Letter Grade
Controversial conservation issues surrounding aquatic species, from invertebrates to marine mammals.
Prerequisite: two courses beyond basic biology in anatomy, behavior, ecology, physiology, or zoology.

VME 4013 Aquatic Wildlife Health Issues 3 Credits
Grading Scheme: Letter Grade
Introduces the natural history, anatomy, physiology, behavior and health issues of aquatic wildlife: marine mammals, sea turtles, crocodiles and some fish and invertebrates.
Prerequisite: BSC 2010 and BSC 2011 and six credits with course prefixes of ANS, PCB, WIS or ZOO with minimum grades of C, or instructor permission.

VME 4016 Manatee Health and Conservation 3 Credits
Grading Scheme: Letter Grade
Introduces undergraduate students to manatee natural history, anatomy, physiology, behavior, conservation and health issues. Students will be exposed to current experts in these fields, be able to name and to describe common health and mortality issues and be able to explain current management strategies.
Prerequisite: BSC 2010 and BSC 2011 and six credits with course prefixes of ANS, PCB, WIS or ZOO with minimum grades of C, or instructor permission.

VME 4103 Livestock Health/Disease Prevention 2 Credits
Grading Scheme: Letter Grade
The principal diseases of livestock and practical methods for their prevention and control.
Prerequisite: instructor permission.

VME 4906 Problems in Veterinary Science 1-3 Credits
Grading Scheme: Letter Grade
Study, research and investigation of an approved problem in veterinary medicine.
Prerequisite: instructor permission.

Courses

VTN 1130 Beginning Vietnamese 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

VTN 1131 Beginning Vietnamese 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: VTN 1130 with minimum grade of C or S, or the equivalent.

VTN 2220 Intermediate Vietnamese 1 4 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: VTN 1131 with minimum grade of C or S, or the equivalent.

VTN 2221 Intermediate Vietnamese 2 4 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: VTN 2220 with minimum grade of C or S, or the equivalent.

VTN 2340 Vietnamese for Heritage Learners 1 4 Credits
Grading Scheme: Letter Grade
For those with significant speaking and listening skills, but limited reading and writing skills. Emphasis on developing latter two skills.
Prerequisite: instructor permission.

VTN 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For independent work not offered in another course. Available only by special arrangement.

VTN 4930 Special Topics in Vietnamese Studies 3 Credits
Grading Scheme: Letter Grade
Variable topics dealing with specific issues in Vietnamese studies. Available only by special arrangement.

VTT 3500 Vietnamese Culture 3 Credits
Grading Scheme: Letter Grade
Overview of Vietnamese culture, language and history. Focuses on Vietnamese cultural norms, attitudes, values and culture through an examination of history, religious practices, language, literature, family structures, cuisine, daily life and the arts. (H and N)
Prerequisite: Any Asia-related ASH, CHI, CHT, JPN, JPT, REL, or VTN course.
Attributes: General Education - Humanities, General Education - International

Curriculum
- Combination Degrees
- Wildlife Ecology and Conservation
- Wildlife Ecology and Conservation Minor
Courses

WIS 2040 Wildlife Issues in a Changing World 3 Credits
Grading Scheme: Letter Grade
The biological and ecological basis of wildlife issues and the pathways humans use to resolve these issues. Topics include major animal phyla; evolutionary history of vertebrates; state, federal and international agencies that manage wildlife worldwide; and the impact of human activities on wildlife. (B)
Attributes: General Education - Biological Science

WIS 2552 Biodiversity Conservation: Global Perspectives 3 Credits
Grading Scheme: Letter Grade
The relationship between humans and the global biotic environment that supports them. This course explores human patterns of resource use and population biology that determine the status of the earth's biodiversity resources. Helps students understand how today's human society affects global life support systems, and how individuals can make lifetime contributions to environmental solutions. (B and N)
Attributes: General Education - Biological Science, General Education - International

WIS 2920 Wildlife Colloquium 1 Credit
Grading Scheme: Letter Grade
Wildlife ecology and conservation as a major and career.
Prerequisite: Wildlife Ecology and Conservation major or minor.

WIS 3401 Wildlife Ecology and Management 3 Credits
Grading Scheme: Letter Grade
Wildlife as a natural resource with emphasis on principles of conservation, ecology and management.
Prerequisite: BSC 2011 and BSC 2011L.

WIS 3402 Wildlife of Florida 3 Credits
Grading Scheme: Letter Grade
The diversity of wildlife species in Florida with emphasis on amphibians, reptiles, mammals and birds.

WIS 3402L Wildlife of Florida Laboratory 1 Credit
Grading Scheme: Letter Grade
Laboratory exploring the diversity of wildlife in Florida's ecosystems with emphasis on field identification, natural history and ecology of birds, mammals, amphibians and reptiles.

WIS 3404 Natural Resource Ecology 3 Credits
Grading Scheme: Letter Grade
Application of ecological principles and natural history information to conserve and sustainably manage natural resources with an emphasis on animals and plants.
Prerequisite: BSC 2011 or equivalent.

WIS 3434 Tropical Wildlife 3 Credits
Grading Scheme: Letter Grade
An interdisciplinary course that teaches the ecology of animals and the socio-economics of wildlife use. The first part of the course deals with the biology of tropical wildlife and the second with the historical, economic and political aspects of the use and management of tropical wildlife.
Prerequisite: BSC 2011 and BSC 2011L and Wildlife Ecology and Conservation major of junior standing or higher.

WIS 3553C Introduction to Conservation Genetics 4 Credits
Grading Scheme: Letter Grade
Types of molecular polymorphisms found in nature, including how genetic information is organized, what evolutionary and demographic forces act to shape genetic polymorphisms, and how and why genetics are useful in population conservation and management.
Prerequisite: STA 2023 and (FOR 3153C or PCB 3601C or PCB 4043C).

WIS 4203C Landscape Ecology and Conservation 3 Credits
Grading Scheme: Letter Grade
Central constructs and methods of landscape ecology are applied to wildlife ecology and conservation.
Prerequisite: STA 2023 and (FOR 3153C or PCB 3601C or PCB 4043C) and (FOR 3434C or GIS 3043 or GIS 3072C or URP 4273).

WIS 4427C Wildlife Habitat Management 3 Credits
Grading Scheme: Letter Grade
Application of land management practices and their effects on wildlife habitats in Florida.
Prerequisite: WIS 3401.

WIS 4443C Wetland Wildlife Ecology 4 Credits
Grading Scheme: Letter Grade
Ecological principles of conservation and management of wildlife in wetland environments, including a survey of the structure and function of major wetland types.
Prerequisite: WIS 3401.

WIS 4445 Ecology of Bird Introductions and Invasions 3 Credits
Grading Scheme: Letter Grade
Ecology and conservation implications of introductions and invasions of birds. The course covers the invasion pathway model as well as the four levels of factors that can influence introduction outcomes.
Prerequisite: BSC 2010 and BSC 2011.

WIS 4501 Introduction to Wildlife Population Ecology 3 Credits
Grading Scheme: Letter Grade
The dynamics and regulation of biological populations and life-history theory.
Prerequisite: PCB 3034C and WIS 3401; and FOR 3153C, PCB 3601C or PCB 4044C.

WIS 4523 Human Dimensions of Natural Resource Conservation 3 Credits
Grading Scheme: Letter Grade
Local and international models are used to provide an interdisciplinary overview of the theory and practice of conservation education, environmental communication and integrated resource management and conservation.
Prerequisite: WIS 3401 or WIS 4554.

WIS 4547C Avian Field Techniques 2 Credits
Grading Scheme: Letter Grade
Intensive advanced field experience in scientific study design and ecology of wild bird populations and communities.
Prerequisite: 1 course each in ecology and vertebrate ecology.

WIS 4554 Conservation Biology 3 Credits
Grading Scheme: Letter Grade
Overview of the major problems in conservation and of the biological principles and theories to preserve this diversity.
Prerequisite: PCB 3063 or WIS 3553C, and FOR 3153C, PCB 3034C, PCB 3601C or PCB 4044C, and WIS 3401.

WIS 4570C Wildlife Behavior and Conservation 3 Credits
Grading Scheme: Letter Grade
Concise, current, and thorough grounding to the field (theory, practice, and relevance) of animal behavior, with a strong focus on applications of wildlife behavior to achieve successful wildlife conservation gains.
Prerequisite: BSC 2010
WIS 4601C Quantitative Wildlife Ecology 3 Credits  
**Grading Scheme:** Letter Grade  
Concepts and applications of quantitative techniques in ecology and wildlife management.  
**Prerequisite:** STA 2023 and WIS 3401.

WIS 4900 Supervised Extension Experience in Wildlife Ecology and Conservation 0-3 Credits  
**Grading Scheme:** S/U  
Firsthand, authentic extension experiences in agricultural and life sciences under the supervision of a faculty member. Projects may involve program planning, development, implementation, and evaluation.

WIS 4905 Individual Problems 1-4 Credits  
**Grading Scheme:** Letter Grade  
Individual study of a selected topic related to wildlife ecology and conservation as contracted with the instructor at the start of the term.  
**Prerequisite:** instructor permission.

WIS 4911 Supervised Research in Wildlife Ecology and Conservation 0-3 Credits  
**Grading Scheme:** S/U  
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application. (S-U)

WIS 4915 Honors Thesis Research in Wildlife Ecology and Conservation 0-3 Credits  
**Grading Scheme:** S/U  
Independent research in wildlife ecology and conservation leading to an honors thesis. Student will be mentored by a faculty member. Projects may involve inquiry, design, investigation, scholarship, discovery or application. (S-U)  
**Prerequisite:** junior standing, upper division GPA of 3.75 or higher and completed honors thesis proposal on file.

WIS 4934 Topics in Wildlife Ecology and Conservation 1-4 Credits  
**Grading Scheme:** Letter Grade  
Variable current issues and in-depth study in wildlife, forestry, range, recreation and fisheries issues not covered in other courses.

WIS 4941 Internship in Wildlife Ecology and Conservation 1-12 Credits  
**Grading Scheme:** Letter Grade  
Practical teaching, research, and extension experience in the field of wildlife ecology and conservation. Offered every semester.  
**Prerequisite:** instructor permission.

WIS 4945C Wildlife Techniques 4 Credits  
**Grading Scheme:** Letter Grade  
Practical training in wildlife research techniques, including radiotelemetry, trapping methods, immobilization and marking of birds, mammals and herps.  
**Prerequisite:** WIS 3402.

### Courses

**WOL 1130 Beginning Wolof 1 5 Credits**  
**Grading Scheme:** Letter Grade  
Beginning study covering four skills: listening, speaking, reading and writing.

**WOL 1131 Beginning Wolof 2 5 Credits**  
**Grading Scheme:** Letter Grade  
Continued study of the four skills with additional vocabulary and grammar.  
**Prerequisite:** WOL 1130 with minimum grade of C, or the equivalent.

**WOL 2200 Intermediate Wolof 1 3 Credits**  
**Grading Scheme:** Letter Grade  
Intermediate study of the four skills with new vocabulary and grammar.  
**Prerequisite:** WOL 1131 with minimum grade of C, or the equivalent.
WOL 2201 Intermediate Wolof 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study.
Prerequisite: WOL 2200 with minimum grade of C, or the equivalent.

WOL 3410 Advanced Wolof 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: WOL 2201 with minimum grade of C, or the equivalent.

WOL 3411 Advanced Wolof 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study of the four skills with attention to more complex structures.
Prerequisite: WOL 3410 with minimum grade of C, or the equivalent.

Women's Studies | Gender, Sexualities, and Women's Studies

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Center Information
The Center for Gender, Sexualities, and Women's Research advances research, teaching, and leadership on how multiple systems of power intertwine to shape culture, society, and people's lived experiences.
Students explore how gender, class, race, sexuality, and other systems of power shape important domains such as health, work, culture, media, politics, leadership, and organizations. Students also learn how to put this knowledge into practice to transform these systems.

Curriculum
- Combination Degrees
- Health Disparities in Society Minor
- Theories and Politics of Sexuality Minor
- Women's Studies
- Women's Studies Minor

Courses

WST 2322 Introduction to Health Disparities 3 Credits
Grading Scheme: Letter Grade
Examination of the multifaceted issue of health disparities based upon race and ethnicity, gender, socioeconomic status, education, sexuality, disability, physical and mental health, geography and other factors. Related issues include social determinants of health, cultural competency, health literacy, advocacy, social justice and health equity. (S and D)
Attributes: General Education - Diversity, General Education - Social Science

WST 2611 Humanities Perspectives on Gender and Sexuality 3 Credits
Grading Scheme: Letter Grade
Close readings of cultural representations (in literature, the visual arts, movies, television, the Internet, etc.) facilitates the understanding of intersecting categories of identity such as gender, sexuality, class and race. Examines how such categories operate in everything from novels to YouTube to the evening news. (H and D) (WR)
Attributes: General Education - Diversity, General Education - Humanities, Satisfies 6000 Words of Writing Requirement

WST 2612 Social Science Perspectives on Gender and Sexuality 3 Credits
Grading Scheme: Letter Grade
The social construction of gender, sexuality, race, class and other identity categories. Readings focus on individuals, families and cultural groups, mainly in the U.S. but with attention to other nations. Subjects as intimate as the body and violence and as pervasive as politics and the law are included. The course emphasizes differences in daily life experiences of health care, education, sports and religion. Finally, it examines the potential of movements for social change. (S and D) (WR)
Attributes: General Education - Diversity, General Education - Social Science, Satisfies 4000 Words of Writing Requirement

WST 3015 Interdisciplinary Perspectives in Women's Studies 3 Credits
Grading Scheme: Letter Grade
Drawing on materials and methodologies from a variety of disciplines, this class explores the diverse experiences of women in past eras and in the present, and in the U.S. and abroad. Required for the women's studies major and minor. (H or S, and D) (WR)
Attributes: General Education - Diversity, General Education - Humanities, General Education - Social Science, Satisfies 4000 Words of Writing Requirement

WST 3323 Gender, Bodies, and Health 3 Credits
Grading Scheme: Letter Grade
Examines how gender is "worn" on the female body. Adopting a feminist interdisciplinary approach, explores three themes: cisgender female biology in social context, bodily practices concerning food and exercise, and disease (i.e., cancer). Examines intersections of gender, race, class, and disability, and role of activism/policy changes in improving people's health.
Prerequisite: sophomore standing or higher.
WST 3335 Women and Gender Analysis through American Film: 1950-Present 3 Credits
Grading Scheme: Letter Grade
Traces how film and Hollywood cinema represent women, gender, and feminism over the past sixty years. Analyzes the relationship of film and the sociology and history of feminist movements. Addresses intersections of race, gender, sexual orientation, age, and class found in American cinema. (C, D, and H) (WR)
Prerequisite: Sophomore standing or instructor permission.
Attributes: General Education - Diversity, General Education - Humanities, Satisfies 2000 Words of Writing Requirement

WST 3349 Ecofeminism 3 Credits
Grading Scheme: Letter Grade
A holistic framework for understanding the connections between environmental, feminist and social justice issues. This course critically analyzes positions within ecofeminist theory. (WR)
Attributes: Satisfies 4000 Words of Writing Requirement

WST 3371 Women, Leadership & Diversity in the Global Environment 3 Credits
Grading Scheme: Letter Grade
Examines leadership concepts in general, and for women in particular. Covers leadership strategies in a historical framework, leadership dilemmas in various industries (locally and globally), and experiential and case-study based leadership.
Prerequisite: Sophomore standing or instructor permission.

WST 3415 Transnational Feminism 3 Credits
Grading Scheme: Letter Grade
Women and feminism in a transnational perspective, focusing on various theories and movements engendered by women in contemporary national contexts. The course examines development, reproductive politics and women's health. (S and N)
Attributes: General Education - International, General Education - Social Science

WST 3603 Sexualities Studies 3 Credits
Grading Scheme: Letter Grade
The interdisciplinary study of sexualities covering diverse theories of sexualities and desire, and how these theories are socially constructed and regulated. Central to the class are the connections between sexualities and other social locators such as race, ethnicity, gender, social class, age and ability or disability.
Prerequisite: sophomore standing or instructor permission.

WST 3610 Gender, Race and Science 3 Credits
Grading Scheme: Letter Grade
Feminist theories of nature, science and technology, and how gender and race are critical to the origins of science, the making of scientists and the politics of contemporary practice.

WST 3663 Gender and Food Politics 3 Credits
Grading Scheme: Letter Grade
Survey of the gendered history of food and foodways from the early 17th century to the modern period; may be taught with a service learning component.
Prerequisite: Sophomore standing.

WST 3703 History of American Medicine: Race, Class, Gender, and Science 3 Credits
Grading Scheme: Letter Grade
Overview of the development of the medical profession in the US with attention to ways that class, gender, and race have shaped the idea of *scientific medicine.
Prerequisite: Sophomore standing or departmental permission.

WST 3930 Special Interdisciplinary Topics in Women's Studies 1-4 Credits
Grading Scheme: Letter Grade
Variable topics from different fields of study in gender/ women's studies based on a feminist approach. Topics can include gender issues in education, women's autobiography and women's health issues.

WST 4326 Women and Therapy 3 Credits
Grading Scheme: Letter Grade
Survey of the development of mental health interventions from the 19th century to the present, with attention to women as patients, practitioners, and consumers.
Prerequisite: Any WST 3000 level course or PPE 3003 or CLP 3144

WST 4630 Gender, Culture, and Place 3 Credits
Grading Scheme: Letter Grade
How are the experiences of gender and sexuality configured by geography, location and the built environment? How do gender relations and sexual practices define and give meaning to space and place? This class explores these questions through interdisciplinary consideration of the gendered relationships that unfold in significant spaces and places in the U.S. and the world.

WST 4641 Lesbian and Gay Studies 3 Credits
Grading Scheme: Letter Grade
Overview of lesbian and gay studies, including a portrait of the field, challenges, core debates and possible future directions of such research.
Prerequisite: instructor permission.

WST 4704 Discrimination and Health 3 Credits
Grading Scheme: Letter Grade
Examines discrimination and health from a variety of perspectives. Explores links of discrimination experiences with health behaviors and outcomes, discrimination in healthcare settings, and routes to improving health at individual, group, and legislative levels. Addresses multiple forms of discrimination (e.g., race, sex, class, sexual orientation/gender identity) and their intersections.
Prerequisite: PSY 2012 or any WST course or junior standing.

WST 4905 Independent Study in Women's Studies 1-3 Credits
Grading Scheme: Letter Grade
For advanced undergraduate students who want to supplement regular courses with independent reading or research.

WST 4911 Undergraduate Research in Women's Studies 0-3 Credits
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

WST 4930 Special Topics 1-6 Credits
Grading Scheme: Letter Grade
Lectures and seminars covering selected topics of current interest in women's studies and/or gender studies.
Prerequisite: instructor permission.

WST 4935 Capstone Seminar 1-6 Credits
Grading Scheme: Letter Grade
This capstone course, required for all majors, is the culmination of the women's studies major. It explores past and present scholarship to reaffirm the interdisciplinary nature of the field and to highlight relationships among feminist theory, intellectual practice and social change. The bulk of the semester is devoted to an independent writing project on the student's selected topic.
Prerequisite: WST 3015.
WST 4940 Internship 1-3 Credits  
Grading Scheme: S/U  
Practical experience in the community with a local agency, group or business involved in women's issues. (S-U)  
Prerequisite: instructor and program director permission.

WST 4941C Practicum in Health Disparities 3 Credits  
Grading Scheme: Letter Grade  
Capstone experience for seniors enrolled in the health disparities in society minor. Students are matched with preceptors from community agencies that work with underserved, disadvantaged and disenfranchised populations. Students will learn about the agency and its organizational culture while applying concepts of cultural competence, linguistic appropriateness and health disparities.  
Prerequisite: WST 2322 and Health Disparities in Society minor.

WST 4956 Overseas Studies 1-15 Credits  
Grading Scheme: Letter Grade  
This course provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.  
Prerequisite: advisor permission.

WST 4970 Women's/Gender Studies Honor Thesis 3 Credits  
Grading Scheme: Letter Grade  
For students pursuing an honors thesis in Women's Studies, in accordance with the protocols established by the Women's Studies and honors programs. Students design and pursue an independent research project with guidance from an advisor.  
Prerequisite: WST 4935 and Women's Studies major.

Writing Program, University

Not all courses are offered every semester. Refer to the schedule of courses for each term’s specific offerings.  
More Info (http://registrar.uf.edu/soc/)

Courses

ENC 1101 Expository and Argumentative Writing 3 Credits  
Grading Scheme: Letter Grade  
The principal elements of writing clearly, efficiently and effectively. ENC 1101 also focuses on writing logical arguments, building research skills and developing critical thinking through reading, writing and discussion.  
(C) (WR)  
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 1102 Argument and Persuasion 3 Credits  
Grading Scheme: Letter Grade  
Writing techniques and forms of argument in a range of disciplines. For their major writing assignment in this course, students will write an extensively researched and well-documented research paper, learning professional and academic writing conventions and developing their critical thinking skills.  
(C) (WR)  
Prerequisite: ENC 1101.  
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 2305 Analytical Writing and Thinking 3 Credits  
Grading Scheme: Letter Grade  
Advances students critical thinking and writing skills beyond first-year composition. With wide-ranging themes in areas such as languages, political science, anthropology or biology, this course exposes students to the advanced analytical techniques and communication strategies that professors in all disciplines expect them to know.  
(C) (WR)  
Prerequisite: ENC 1101 or ENC 1102.  
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 3246 Professional Communication for Engineers 3 Credits  
Grading Scheme: Letter Grade  
Students master a variety of communication strategies and genres of writing relevant to engineering, such as composing email, memos, letters, technical descriptions, instructions, academic research reports and professional proposals. Students also respond to complex rhetorical situations, thus preparing for work in their professional communities.  
(C) (WR)  
Prerequisite: ENC 1101 or ENC 1102.  
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 3252 Writing for Strategic Communication 3 Credits  
Grading Scheme: Letter Grade  
Effective writing strategies for pitching, planning, and delivering content on behalf of organizations and within professional communities. Rhetorical analysis of strategic communication in content-rich marketing published via digital platforms. Intended for public relations, advertising, and telecom majors.  
Prerequisite: ENC 1101 or ENC 1102.  
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 3254 Professional Writing in the Discipline 3 Credits  
Grading Scheme: Letter Grade  
A communication course adjusted to a specific professional discipline, the discipline to be determined by need. Covers major elements of organizational communication with emphasis on composition of reports, proposals, letters and memos, manuals, and oral presentations. Course materials and assignments are relevant to the specific discipline.  
(C) (WR)  
Prerequisite: ENC 1101 or ENC 1102.  
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 3256 Writing for Strategic Communication 3 Credits  
Grading Scheme: Letter Grade  
A communication course adjusted to a specific professional discipline, the discipline to be determined by need. Covers major elements of organizational communication with emphasis on composition of reports, proposals, letters and memos, manuals, and oral presentations. Course materials and assignments are relevant to the specific discipline.  
Prerequisite: ENC 1101 or ENC 1102.  
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 3453 Writing in the Health Professions 3 Credits  
Grading Scheme: Letter Grade  
Designed to help students master a variety of communication strategies and genres of writing relevant to the health professions. Students learn to compose clear messages to professionals, patients, and the public, preparing them for upper-division courses and building a foundation for work in their professional communities.  
Prerequisite: ENC 1101 or ENC 1102.  
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement
ENC 3459 Writing in the Medical Sciences 3 Credits  
Grading Scheme: Letter Grade  
Training in advanced literacy skills for medical practitioners, including the use of medical databases and the presentation of medical research to professional and lay audiences. Work in teams that are typical of medical practice to learn techniques for effective patient interaction. (C) (WR)  
Prerequisite: ENC 1101 or ENC 1102.  
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 3464 Writing in the Social Sciences 3 Credits  
Grading Scheme: Letter Grade  
Designed to help students master a variety of communication strategies and genres of writing relevant to the social sciences. Conducting original research, students learn the relationship between clear, simple prose and thoughtful social analysis. Students write literature reviews, develop methodologies, present results, analyze data, and draft graduate or internship applications.  
Prerequisite: ENC 1101 or ENC 1102.  
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 3465 Writing in the Law 3 Credits  
Grading Scheme: Letter Grade  
Designed to help students master a variety of communication strategies and genres of writing relevant to law, with special emphasis on legal reasoning and logic. Students write legal briefs, a legal memorandum, business correspondence, and law school applications and are introduced to legal research and moot court debate.  
Prerequisite: ENC 1101 or ENC 1102.  
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 3466 Writing in the Communication Sciences 3 Credits  
Grading Scheme: Letter Grade  
For communication science professionals who interact with audiences that range from school counselors to caregivers and colleagues, excellent writing an essential skill. Focus is on writing in graduate school and as practitioners: research-based reports, clinical documents, and career portfolios. (C) (WR)  
Prerequisite: ENC 1101 or ENC 1102.  
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 3483 Writing in the Physical Sciences 3 Credits  
Grading Scheme: Letter Grade  
Designed to improve writing skills necessary for success in the physical sciences, both in graduate school and the workplace. Investigating an area of special interest, students learn advanced library research, correct documentation, stylistic conventions for their major fields, and how to present research effectively. (C) (WR)  
Prerequisite: ENC 1101 or ENC 1102.  
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 3934 Special Topics in Rhetoric and Writing 3 Credits  
Grading Scheme: Letter Grade  
Designed to advance students? ability to write in specific genres or to develop their understanding of special topics related to the field. Specific sections will be tailored to the expertise of the faculty members teaching the course.  
Prerequisite: ENC 1101 or ENC 1102.  
Attributes: General Education - Composition, Satisfies 6000 Words of Writing Requirement

ENC 4458 Writing the Science Thesis 3 Credits  
Grading Scheme: Letter Grade  
In this course, students learn to write an academic thesis and a publishable version of their research, preparing them for both academic and scientific audiences. Assignments include a literature review, thesis, research report, and conference poster. Frequent peer review prepares students for collaboration, a necessary skill in contemporary science.  
Prerequisite: ENC 1102 with minimum grade of C.  

ENC 4493 Peer Tutoring in Rhetoric and Writing 2 Credits  
Grading Scheme: Letter Grade  
Examines the theories and best practices used by writing tutors with the goal of preparing to be peer writing tutors. Includes preparation on conducting needs assessments, prioritizing advice, and giving effective writing feedback. Observe experienced tutors and be guided through the first tutorial sessions.  
Prerequisite: ENC 1102.  

ENC 4905 Directed Independent Study in Rhetoric and Writing 1-3 Credits  
Grading Scheme: Letter Grade  
Designed for the advanced student who wants to pursue in depth an area of study not provided in regularly offered courses. Independent study can involve independent reading or projects under faculty guidance.  
Prerequisite: Permission of instructor.  

ENC 4930 Special Topics in Rhetoric and Writing 1-3 Credits  
Grading Scheme: Letter Grade  
Designed to advance students’ ability to write in specific genres and to develop their understanding of special topics related to the field. Specific sections will be tailored to the expertise of the faculty members teaching the course.  
Prerequisite: completed 60 credits.  

ENG 1001 Modes of Inquiry 3 Credits  
Grading Scheme: Letter Grade  
Strategies for dealing successfully with various media types common to the college experience (web-based, film, traditional readings, etc.). Through reading, writing, research and small group discussion, students will develop and refine reading, writing and speaking skills. Modes of Inquiry employ a cross-discipline approach so that student encounter reading and writing as it happens in the humanities, social sciences and business. Course also utilizes the electronic classroom, giving students the opportunity to polish computer skills and take advantage of online resources. The critical thinking, reading and writing skills learned in this course enhance the communications skills needed for a successful college career. (WR)  
Attributes: Satisfies 2000 Words of Writing Requirement

RED 1343 Reading and Writing Content Area 1-7 Credits  
Grading Scheme: Letter Grade  
Covers the fundamentals of beginning college writing and critical reading skills.

Xhosa | Languages, Literatures, and Cultures

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

More Info (http://registrar.ufl.edu/soc/)

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.
Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

Courses
XHO 1130 Beginning Xhosa 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

XHO 1131 Beginning Xhosa 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: XHO 1130 with minimum grade of C, or the equivalent.

XHO 2200 Intermediate Xhosa 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: XHO 1131 with minimum grade of C, or the equivalent

XHO 2201 Intermediate Xhosa 2 3 Credits
Grading Scheme: Letter Grade
Continuation of intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: XHO 2200 with minimum grade of C, or the equivalent.

XHO 3410 Advanced Xhosa 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: XHO 2201 with minimum grade of C, or the equivalent.

XHO 3411 Advanced Xhosa 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study.
Prerequisite: 3410 with minimum grade of C, or the equivalent.

Courses

SSA 3730 Language in African Society 3 Credits
Grading Scheme: Letter Grade
The role of language in the development of African societies. Language and nation building. (S and N)
Attributes: General Education - International, General Education - Social Science

YOR 1130 Beginning Yoruba 1 5 Credits
Grading Scheme: Letter Grade
Beginning study covering four skills: listening, speaking, reading and writing.

YOR 1131 Beginning Yoruba 2 5 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: YOR 1130 with minimum grade of C or S, or the equivalent.

YOR 2200 Intermediate Yoruba 1 3 Credits
Grading Scheme: Letter Grade
Intermediate study of the four skills with new vocabulary and grammar.
Prerequisite: YOR 1131 with minimum grade of C or S, or the equivalent.

YOR 2201 Intermediate Yoruba 2 3 Credits
Grading Scheme: Letter Grade
Continued study of the four skills with additional vocabulary and grammar.
Prerequisite: YOR 2200 with minimum grade of C or S, or the equivalent.

YOR 3410 Advanced Yoruba 1 3 Credits
Grading Scheme: Letter Grade
Advanced study of the four skills with attention to more complex structures.
Prerequisite: YOR 2201 with minimum grade of C, or the equivalent.

YOR 3411 Advanced Yoruba 2 3 Credits
Grading Scheme: Letter Grade
Continuation of advanced study of the four skills with attention to more complex structures.
Prerequisite: YOR 3410 with minimum grade of C, or the equivalent.

YOR 4502 Yoruba Oral Literature 3 Credits
Grading Scheme: Letter Grade
Overview of the genres of Yoruban oral literature, stressing the importance of the spoken word in Yoruban culture and the training of Yoruban verbal artists and their place in Yoruban society.
Prerequisite: YOR 1131 or instructor permission;
Corequisite: YOR 2200, YOR 2201, or instructor permission.

YOR 4905 Individual Study 1-5 Credits
Grading Scheme: Letter Grade
For those who seek independent work not offered in another course.
Prerequisite: instructor permission.

YOT 3500 Yoruba Diaspora in the New World 3 Credits
Grading Scheme: Letter Grade
Introduction to the scope and importance of Yoruban culture in the New World and its role and significance in the resilience of African cultures in North America, South America and the Caribbean. (WR)
Prerequisite: HUM 2420, HUM 2424, or instructor permission.
Attributes: Satisfies 6000 Words of Writing Requirement

YRW 4130 Readings in Yoruba Literature 3 Credits
Grading Scheme: Letter Grade
Reading skills and the analysis of literature in the original language.
Prerequisite: YOR 3411 or the equivalent.

Zoology

Not all courses are offered every semester. Refer to the schedule of courses for each term's specific offerings.

Courses at the University of Florida, with the exception of specific foreign language courses and courses in the online Master of Arts in Mass Communication program, are taught in English.

Department Information

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. Our teaching and research provide the integrative and conceptual foundations of the life sciences.

- Zoology
- Zoology Minor

Courses

Please note that a complete list of all courses offered by the Department of Biology can be found here (p. 1755).
AST 2037 Life in the Universe 3 Credits
Grading Scheme: Letter Grade
The origin of life on Earth and the possibility of life elsewhere. A multidisciplinary approach is followed. Conditions for life to form and the likelihood that such conditions may exist elsewhere in the universe are discussed. Also considered are schemes proposed for the search for extraterrestrial intelligence (SETI). (P)
Attributes: General Education - Physical Science

BSC 3402 Theory and Practice in the Biological Sciences 2 Credits
Grading Scheme: Letter Grade
Presents the scientific method, in its many formulations, from historical, philosophical and sociological perspectives. Explores generation and presentation of data, formulation of hypotheses and theories and dissemination of results. Also examines the ethical implication of biological research.

GLY 3603C Paleontology 4 Credits
Grading Scheme: Letter Grade
Investigation of the history of life on earth, including aspects of invertebrate and vertebrate paleontology, micropaleontology and paleobotany.
Prerequisite: refer to the department.

PCB 3063 Genetics 4 Credits
Grading Scheme: Letter Grade
The fundamental properties of inheritance in eukaryotic organisms emphasizing examples in man. Basic concepts are developed for the nature, organization, transmission, expression, recombination and function of genetic materials and principles are derived for genetically characterizing populations.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C and general chemistry.

PCB 3713C Cellular and Systems Physiology 4 Credits
Grading Scheme: Letter Grade
How cells, organs, and higher level systems are integrated and coordinated in the functions of humans and other animals. Emphasizes the use of model organisms, mathematical models, and the physical sciences to understand the mechanistic basis of normal physiology and dysfunction.
Prerequisite: BSC 2010 and (CHM 2046 or CHM 2047 or CHM 2051 or CHM 2096) and (PHY 2048 or PHY 2060), all with minimum grades of C.
Corequisite: PHY 2049 or PHY 2061.

PCB 4043C General Ecology 4 Credits
Grading Scheme: Letter Grade
Ecological processes and organization in terrestrial and aquatic habitats. Laboratory and field exercises emphasize techniques of ecological analysis.
Prerequisite: BSC 2011 and 2011L, or equivalent, with minimum grades of C.

PCB 4674 Evolution 4 Credits
Grading Scheme: Letter Grade
Processes and mechanisms of evolution, including population genetics, speciation, patterns of evolution and molecular evolution.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C;
Corequisite: one semester of calculus; PCB 3063 recommended.

PCB 4712 Comparative Biomechanics 3 Credits
Grading Scheme: Letter Grade
Reviews physical principles governing the form and function of organisms.
Prerequisite: (BSC 2011 and BSC 2011L or equivalent with minimum grades of C) and PHY 2048 and PHY 2053L and PCB 4674 and ZOO 3713C.

PCB 4723C Physiology and Molecular Biology of Animals 5 Credits
Grading Scheme: Letter Grade
Processes and mechanisms of maintenance, activity, and integration in animals with emphasis on vertebrates. Laboratory experience in quantitative methods and techniques of physiological investigation.
Prerequisite: BSC 2011 and (CHM 2046 or CHM 2047) with a minimum grades of C. Recommended: ((PHY 2053 and PHY 2054) or (PHY 2060 and PHY 2061)) and PCB 3063 and PCB 4674.

ZOO 3513C Animal Behavior 4 Credits
Grading Scheme: Letter Grade
The causes, origins and evolution of animal behavior emphasizing field observations and experiments on the behavior of a variety of animal groups.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and PCB 4674.

ZOO 3603C Evolutionary Developmental Biology 4 Credits
Grading Scheme: Letter Grade
Analysis of embryonic development, underlying genetic mechanisms and how these processes have driven the evolutionary diversification of animal body plans.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C.

ZOO 3713C Functional Vertebrate Anatomy 4 Credits
Grading Scheme: Letter Grade
The form and function of chordates accompanied by laboratory work dealing with a selected series of chordates.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C.

ZOO 4205C Invertebrate Biodiversity 4 Credits
Grading Scheme: Letter Grade
Comparative biology of invertebrates, emphasizing morphology, evolution, ecology and life history.
Prerequisite: BSC 2011 and BSC 2011L with minimum grades of C.

ZOO 4307C Vertebrate Biodiversity 4 Credits
Grading Scheme: Letter Grade
Comparative biology of vertebrates, emphasizing morphology, evolution, ecology and behavior.
Prerequisite: BSC 2011 and (BSC 2011L or ISC 2401L) with minimum grades of C.

ZOO 4403C Marine Biology 4 Credits
Grading Scheme: Letter Grade
Survey of major marine taxa, systematics of local marine fauna and flora, with familiarization of the marine environment. Laboratory emphasizes field work and independent projects.
Prerequisite: BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C.
ZOO 4472C Avian Biology 4 Credits  
Grading Scheme: Letter Grade
The basic biological characteristics of birds, which, as exceptionally unique flying vertebrates, are confronted with a spectrum of problems in terms of anatomy, physiology, behavior, migration and population ecology.  
**Prerequisite:** BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and PCB 4674 (recommended).

ZOO 4905 Individual Studies in Zoology 1-4 Credits  
Grading Scheme: Letter Grade
Qualified students and the instructor concerned may choose a particular topic or problem for study.  
**Prerequisite:** BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and instructor permission.

ZOO 4911 Undergraduate Research in Zoology 0-3 Credits  
Grading Scheme: Letter Grade
Provides firsthand, supervised research. Projects may involve inquiry, design, investigation, scholarship, discovery, or application.

ZOO 4926 Special Topics in Zoology 1-4 Credits  
Grading Scheme: Letter Grade
Lectures, conferences or laboratory sessions covering selected topics of current interest in zoology.  
**Prerequisite:** BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, and instructor permission.

ZOO 4940 Practical Experience in Teaching Zoology 2 Credits  
Grading Scheme: S/U
Participation in teaching approved zoology courses with practical experience in instructional procedures, testing and grading, course and laboratory preparation and laboratory assistance. Cannot be used to satisfy minimum hour requirement for zoology major. (S-U)  
**Prerequisite:** BSC 2011 and BSC 2011L, or equivalent, with minimum grades of C, one zoology laboratory-based course, senior status and instructor permission.

ZOO 4956 Overseas Studies 1-18 Credits  
Grading Scheme: Letter Grade
Provides a mechanism by which coursework taken as part of an approved study abroad program can be recorded on the UF transcript and counted toward graduation.  
**Prerequisite:** BSC 2011 and BSC 2011L with minimum grades of C and undergraduate advisor permission.
PREVIOUS CATALOGS

Each catalog remains in effect for an academic year, from the beginning of Summer B, late June, through the end of the following Summer A term the following June. The catalog is published for the new academic year each May.
