# TABLE OF CONTENTS

Undergraduate Catalog .................................................................................................................. 19
Administration .............................................................................................................................. 19
Admission .................................................................................................................................... 29
- Readmission to the University ................................................................................................. 32
- Residency for Tuition Purposes ................................................................................................. 33
- Applicants Receiving VA and Social Security Benefits .......................................................... 33
Academic Programs ...................................................................................................................... 34
  Center for Latin-American Studies .............................................................................................. 35
  College of Dentistry .................................................................................................................. 36
  College of Medicine .................................................................................................................. 38
  College of Pharmacy ................................................................................................................ 39
  Pharmacy - Preprofessional ..................................................................................................... 42
  College of Veterinary Medicine ................................................................................................. 44
  Departments ............................................................................................................................. 46
  Division of Military Science ...................................................................................................... 78
    Aerospace Leadership Minor .................................................................................................. 82
    Military Science and Leadership Minor ............................................................................... 83
  Fredric G. Levin College of Law ............................................................................................... 84
  General Education (Gen Ed) - UF Quest .................................................................................. 86
  Innovation Academy .................................................................................................................. 91
Colleges and Schools .................................................................................................................... 100
  Accounting, Fisher School of ................................................................................................. 101
    Accounting ........................................................................................................................... 106
    Accounting Minor ............................................................................................................... 110
    Accounting Minor UF Online ............................................................................................... 112
  Agricultural and Life Sciences, College of ........................................................................... 113
    Agricultural and Natural Resource Communication Minor ............................................. 118
    Agricultural and Natural Resource Ethics and Policy Minor ............................................. 118
    Agricultural and Natural Resource Law Minor ................................................................. 119
    Agricultural Curriculum and Development Minor ........................................................... 120
    Agricultural Education and Communication .................................................................... 121
      Agricultural Education ...................................................................................................... 123
      Communication and Leadership Development ................................................................. 127
  Agricultural Operations Management ....................................................................................... 131
  Agroecology and Sustainable Food Systems Certificate ...................................................... 135
  Animal Genetics Certificate .................................................................................................... 136
  Animal Sciences ..................................................................................................................... 137
    Animal Biology .................................................................................................................... 139
    Equine .................................................................................................................................. 143
    Food Animal ....................................................................................................................... 147
Forest Resources and Conservation Minor ................................................................. 286
Gateway to Agroecology Certificate .................................................................. 287
Geomatics ........................................................................................................... 288
Geospatial Analysis ......................................................................................... 290
Surveying and Mapping .................................................................................... 294
Geomatics Certificate ....................................................................................... 299
Golf and Sports Turf Management Minor ....................................................... 300
Horticultural Science ......................................................................................... 301
Organic Horticultural Systems ......................................................................... 303
Plant Biotechnology and Improvement .............................................................. 308
Science and Technology of Horticultural Crops ................................................. 312
Horticultural Science Minor ............................................................................ 316
Horticultural Therapy Certificate ..................................................................... 317
International Development and Humanitarian Assistance Minor .................. 318
International Studies in Agricultural and Life Sciences Minor ....................... 319
Landscape Pest Management Certificate ............................................................ 319
Leadership Minor ............................................................................................... 320
Management and Sales in Agribusiness Minor .................................................. 321
Mapping with Small Unmanned Aerial Systems Certificate ............................... 322
Marine Sciences - CALS ................................................................................... 323
Medical Entomology Certificate ....................................................................... 328
Microbiology and Cell Science UF Online ........................................................ 329
Microbiology and Cell Science - CALS .............................................................. 336
Natural Resource Conservation ......................................................................... 341
Nonprofit Organizational Leadership Minor ................................................... 347
Nutritional Sciences ........................................................................................... 348
Nutritional Sciences Minor .............................................................................. 352
Organic and Sustainable Crop Production Minor ............................................. 353
Packaging Science Minor ................................................................................ 354
Pathogenesis Minor .......................................................................................... 355
Pest Control Technology Certificate ................................................................. 356
Plant Molecular and Cellular Biology Minor .................................................... 357
Plant Science .................................................................................................... 359
General Plant Science ....................................................................................... 361
Greenhouse and Landscape Industries .............................................................. 367
Native Plant Conservation ................................................................................ 372
Plant Breeding and Genetics .......................................................................... 378
Plant Health and Protection .......................................................................... 383
Soil Management and Plant Productivity ......................................................... 389
Sustainable Crop Production .......................................................................... 395
Turfgrass Science .............................................................................................. 401
Plant Science Minor ........................................................................................... 406

UNDERGRADUATE CATALOG

Accreditation
The University of Florida is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award certificates and associate, baccalaureate, masters, education specialist, and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of the University of Florida.
More Info (http://sacscoc.org/)

Publication Policy
The undergraduate catalog is published annually by the University of Florida and has been adopted as a rule of the university pursuant to the provision of Chapter 120 of the Florida Statutes.

Published editions of this official record correspond to an academic year and will remain in effect as published from the Summer B (June) term through the following Summer A (late May) term.

The undergraduate catalog provides official university rules, policies and regulations; it establishes minimum eligibility requirements for admission and reflects degree requirements; it provides approved calendar and curricular information; and it contains general information about the university community, the university, and its services and facilities.

Changes will be made to this academic record to correct errors or omissions. The university is not responsible for information obtained through Internet links from this catalog to other websites. Every effort has been made to ensure the accuracy of information. However, all dates and deadlines, courses, course descriptions, degree requirements, and fees are subject to change.

Unless otherwise indicated in the course description, all courses at the University of Florida are taught in English, with the exception of specific foreign language courses.

Administration

President's Welcome
Greetings! I offer you my warmest welcome to the University of Florida and to the beginning of a new academic year.

UF is wonderfully diverse and comprehensive, with more than 100 undergraduate majors, more than 200 graduate programs, an amazing variety of experiential learning opportunities and numerous undergraduate and graduate students participating in research and scholarship.

Our excellent faculty are committed to teaching and interacting with students to both challenge your academic skills and encourage you to think in new ways. Our nationally renowned academic support professionals will help you navigate your courses and major – and our student affairs staff are eager to assist with orientation, career counseling, leadership and volunteering opportunities and all the aspects of student life.

You are at the University of Florida at a great time in our history, a time when the State of Florida and the Gator Nation are united behind our shared ambitions to be one of the very best universities in the world. I encourage you to be a part of this journey by fully embracing your experience at UF – taking classes that challenge you, as well as those that appeal to your career interests and curiosity; finding opportunities to learn and serve outside of the classroom; and making new friends by reaching out to faculty, staff and students across UF’s very diverse community.

This catalog will give you a starting point by providing the information and tools you need to explore UF’s broad selection of courses and majors and discover our many student services. I hope that you spend time exploring your options so that you have a sense of the full range and depth of possibilities before you.

I know that you are among the most academically accomplished students in the nation, and I look forward to seeing what you and our university can achieve together.

Have a wonderful year, and Go Gators!

W. Kent Fuchs
President

Mission Statement
The University of Florida is a comprehensive learning institution built on a land-grant foundation. We are The Gator Nation, a diverse community dedicated to excellence in education and research and shaping a better future for Florida, the nation and the world.

Our mission is to enable our students to lead and influence the next generation and beyond for economic, cultural and societal benefit.
The university welcomes the full exploration of its intellectual boundaries and supports its faculty and students in the creation of new knowledge and the pursuit of new ideas.

• **Teaching** is a fundamental purpose of this university at both the undergraduate and graduate levels.

• **Research and scholarship** are integral to the educational process and to the expansion of our understanding of the natural world, the intellect and the senses.

• **Service** reflects the university’s obligation to share the benefits of its research and knowledge for the public good. The university serves the nation’s and the state’s critical needs by contributing to a well-qualified and broadly diverse citizenry, leadership and workforce.

The University of Florida must create the broadly diverse environment necessary to foster multi-cultural skills and perspectives in its teaching and research for its students to contribute and succeed in the world of the 21st century.

These three interlocking elements — teaching, research and scholarship, and service — span all the university’s academic disciplines and represent the university’s commitment to lead and serve the state of Florida, the nation and the world by pursuing and disseminating new knowledge while building upon the experiences of the past. The university aspires to advance by strengthening the human condition and improving the quality of life.

---

Admission

Few students are admitted purely on academic merit. While the potential for academic success is a primary consideration, UF’s comprehensive holistic application review also considers personal essays, academic awards, extracurricular activities, family background and home community. All information in the applicant’s file, academic and non-academic, is considered in relation to the size and strength of the applicant pool.

Admission Information for all Applicants

The general requirements below apply to undergraduate admission and readmission to any college or division of the university.

Please understand that admission to the university is selective. Only minimum requirements for admission are provided; satisfaction of these minimums does not guarantee admission:

• Online application for admission received by the Office of Admissions by the deadline.

• A non-refundable application fee. Students who are eligible can have their application fee waived.

• A satisfactory academic record. Applicants must provide a complete chronological record of educational institutions attended. Official transcripts from all educational institutions must be submitted according to instructions on the application. Failure to declare attendance at another institution could invalidate an offer of admission and any credits or degrees earned.

• Satisfactory scores on achievement or aptitude tests; the SAT, ACT, and/or TOEFL.

• A satisfactory conduct record.

• Applicants must identify a preferred term of enrollment on their application. The application may be considered for and admission may be offered to terms other than the preferred term specified on the application. Applicants who wish to change their term of entry should contact the Office of Admissions immediately.

• Admission to on-campus degree programs must be validated by taking one or more on-campus courses in the specific semester for which the student is accepted. Correspondence and/or internet -courses do not fulfill this requirement, and this rule does not apply to internet-based degree programs.

Residency for Tuition Purposes

Requests for in-state residency for tuition purposes are not granted to applicants who appear to have entered the state solely for educational purposes.

Proof of Immunization

Before registering for classes, each person accepted for admission must submit proof of immunization. No student will be permitted to register until the Student Health Care Center has received and approved the mandatory health form.

Computer Requirement

Access to and ongoing use of a computer is required of all students. The university expects new students and continuing students to acquire computer hardware and software appropriate to the degree program. The cost of meeting this requirement will be included in financial aid considerations.

All official university correspondence is sent via email to the student’s GatorLink email address.
Notice of Admission

When an application for admission is approved, the university will send a notice of admission for a specific term. If the student is unable to enroll for the term indicated or wishes to be considered for entrance to a different term, the Office of Admissions should be notified immediately.

All offers of admission are tentative and will remain so until the Office of Admissions receives and reviews final transcripts and credentials. Students who are admitted conditionally may enroll, subject to verification of satisfaction of all conditions of admission. Admission offers will be revoked if final coursework/credentials do not meet admission requirements. Should that occur, the student’s classification will change to a non-degree status and enrollment will be denied.

Under no circumstances should an applicant make plans to depart for Gainesville until the university has provided official admission notification. An applicant who comes to campus without confirmation of admission does so entirely at their own risk. Presence on campus will not influence the admission decision.

Applicants who furnish false or fraudulent statements or information in connection with an application for admission or residence affidavit could receive disciplinary action, denial of admission and invalidation of credits or degrees earned.

Under Board of Education policy, the university can admit a limited number of students as exceptions to the requirements listed above.

Freshmen

Current high school students seeking college freshman placement and students who have earned fewer than 12 semester credits following graduation from high school.

Applicants who received their high school diploma and an Associate of Arts degree at the same time should complete the freshman application. If a student is not able to be admitted as a freshman, they will be offered the chance to be reconsidered as a junior-level transfer student.

How to Apply

The University of Florida is a member of both the Coalition for College and the Common Application. Applicants should only apply using one of these platforms, and must complete all sections of the application, including the Student Profile and the UF supplemental section.

Apply Online (http://admissions.ufl.edu/apply/freshman/)

When to Apply

Admission priority is provided to qualified applicants whose applications and supporting documents are received by the Office of Admissions during the preferred application period from mid-August through November 1. Applications received outside this period will be considered on a space-available basis only.

Incoming Freshman Deadlines

- The freshman application period is mid-August through November 1, regardless of entering term.
- Freshman decisions will be available at the end of February for students who applied by November 1.

Freshman Selection

The selection process is based on the applicant’s academic credentials and a holistic review of the application. It is very difficult to predict the admissibility of any applicant without considering all information contained in the application and the size and strength of the applicant pool. All factors must be considered in the admission review.

The Office of Admission considers an applicant’s total high school record, including grades, test scores, educational objective and pattern of courses completed, and personal background and experiences. Admission becomes selective when the number of qualified applicants exceeds the number of freshman spaces available.

Minimum Requirements for Freshman Admission Consideration

Middle 50% of the 2021 Freshman Class

- High school GPA of 4.4-4.6
- SAT scores of 1330-1470
- ACT scores of 30-34

Minimum freshman admission requirements include:

- Graduation from a regionally accredited secondary school or the equivalent (G.E.D., etc.).
- 18 academic units, with 16 distributed as follows:
Subject | Required Years
---|---
English (with substantial writing) | 4 years
Mathematics (Algebra 1, Formal Geometry, Algebra 2) | 4 years
Natural Sciences (two units must include laboratory) | 3 years
Social Sciences | 3 years
Foreign Language (must be sequential) | 2 years

- A cumulative C (2.0) average in the academic core, as computed by the university, at all institutions attended, high school and college.
- A record of good conduct. Major or continuing difficulty with school or other officials may render an applicant ineligible regardless of academic qualifications.

### Non-Accredited and HomeSchools

Homeschooled students or students at non-accredited schools are considered for admission using the same holistic review process as our entire applicant pool. In addition to grades and ACT/SAT scores, students attending a homeschool or a non-accredited school are encouraged to take core classes and submit grades from an accredited secondary or post-secondary institution.

### Credit by Examination

There are several credit-by-examination programs that earn credit toward a UF degree. The university participates in the Advanced Placement (AP) program (p. 1761), the College Level Examination Program (CLEP) (p. 1761), the International Baccalaureate (IB) program (p. 1761) and the Advanced International Certificate of Education (AICE) (p. 1761). Students may receive university credit for or exemption from such courses without credit, depending on the results.

### Dual-Enrollment Credit

Courses from Florida public colleges and State University System schools generally adhere to the Statewide Course Numbering System. If the prefix (first three letters) and the last three digits of the course number are the same, then the course is considered equivalent.

Equivalent courses will generally fulfill the same requirements (e.g., general education) that the UF course fulfills. However, whether a course fulfills UF’s writing requirement is determined by specific criteria, not course number equivalency.

Courses taken at private and out-of-state institutions need to be evaluated by the student’s college to determine if they will fulfill specific requirements.

### Tuition Deposit after Admission

- Freshmen are required to submit a **$200 non-refundable tuition deposit** no later than **May 1** to secure their place in the class.
- The tuition deposit **will not be reimbursed** if the student does not enroll in the term offered for admission.
- The tuition deposit will be credited to the student’s account and applied toward the first-semester tuition. If there is a credit balance on the account at the end of drop/add, the balance will be refunded.
- This deposit is waived for those students who qualified for an SAT or ACT fee-application waiver. Students who qualify for Pell Grants may receive a tuition deposit reduction if they appeal.

### International Students

The Office of Admissions classifies an applicant as an undergraduate if they have not earned a university degree equivalent to a U.S. bachelor’s degree.

### How to Apply

International applicants must apply online.

Apply Online (http://admissions.ufl.edu/apply/international/)

Applications cannot be considered until the Office of Admissions receives ALL required credentials. International applicants should supply the following:

- All international applicants should apply online.
- Submit the non-refundable $30 application fee (U.S. currency drawn on a U.S. bank or credit card).
- Submit appropriate test scores:
  - Freshmen must submit official SAT or ACT scores.
  - Applicants whose native language is not English must submit official scores from the Test of English as a Foreign Language (TOEFL), International English Language Testing System (IELTS) or the Michigan English Lab Assessment Battery (MELAB)
• Applicants are exempt from the English proficiency requirement if enrolled for one academic year in a degree-seeking program at a recognized/regionally accredited university or college in a country where English is the official language prior to your anticipated term of enrollment or if you are from one of the following countries.
More Info (http://admissions.ufl.edu/apply/international/countries.html)
• International freshman applicants are required to submit secondary credentials from non-U.S. institutions to a credential evaluation agency for a course-by-course evaluation with grade point average calculation. International transfer applicants are also required to submit college or university credentials from non-U.S. institutions to a credential evaluation agency for a courses-by-course evaluation with grade point average calculation.

Transfer Students
A transfer student is defined as an applicant who has earned at least 12 semester credits of credit following graduation from high school and who has not received a bachelor’s degree.

How to Apply
Transfer applicants must apply online.
Apply Online (http://www.admissions.ufl.edu/apply/transfer/)

When to Apply
Transfer applicants generally are received six to nine months before the term begins. Apply by your intended college’s deadline.
More Info (http://www.admissions.ufl.edu/apply/transfer/trapdates/)

Transfer Eligibility
• Must have completed an Associate of Arts degree from a Florida public institution or at least 60 transferable semester credit hours from a regionally accredited institution
• Must show competency in a foreign language. Students can do this by providing a high school transcript showing completion of two years of the same foreign language OR by completing 8-10 semester hours by the same foreign language.
• Must have a minimum 2.0 overall GPA and a minimum 2.0 GPA at the last institution attended as calculated by UF.
• Must complete or will complete specific prerequisites for intended major before attending UF.
• Must be in good standing and eligible to return to any institution previously attended.

Students with less than 60 semester credit hours or who have already completed a bachelor’s degree are not eligible to transfer to an on-campus program.

Readmission to the University
Readmission applies to students who have been previously admitted and who have attended this university.

Undergraduate students who do not enroll at the university for three consecutive terms must apply for readmission. Readmission, however, is not guaranteed and is subject to availability at the appropriate level, college or major. Students who skip a single term will be scheduled automatically for a registration appointment for one additional term.

Readmission applies to undergraduate students who have previously been admitted to and attended the University of Florida, at any level. Students who do not enroll at the university for three consecutive terms must apply for readmission.

Readmission is not guaranteed and is subject to availability at the appropriate level, college and major. Students should contact the college/department they will be applying to for questions regarding availability.

Apply Online (http://www.admissions.ufl.edu/start.html)

Readmission Requirements
• Satisfactory Academic Records: If the student has attended any college or university since they were last enrolled at the University of Florida, they must have a C or higher average (as computed by UF) on all work attempted at each institution. Be aware that grades received at other institutions are not averaged with grades received at UF for the purpose of meeting the university’s grade point average requirements.
• Students must indicate the college and the level of their last enrollment at UF and must also list all institutions attended since leaving UF and provide complete official transcripts from each before the application deadline.
• Students must be in good standing and eligible to return to each institution previously attended.
• Students must indicate the degree program and/or major to which they want to apply or return.
• Students must meet the current admission requirements of the college or school that they expect to enter.
• Satisfactory Conduct Record: Applicants must present a satisfactory record of conduct.

**Fresh Start**

Former undergraduate degree-seeking students who have been dismissed and who wish to return to the University of Florida after an absence of no fewer than five calendar years (during which they have engaged predominantly in non-academic activities) may petition for undergraduate readmission under the Fresh Start Program.

If a student is readmitted, credit for previous UF courses in which minimum grades of C were earned will be calculated in UF credits earned and may be applied toward a degree. No grades previously earned in UF courses will be included in the UF grade point average. All previous course attempts and grades received will remain on the student's academic record and transcript.

Students cannot apply for the Fresh Start Program subsequent to readmission to the university. Students who have been readmitted under Fresh Start cannot petition subsequently for any retroactive change to their academic records. Students admitted under Fresh Start who do not enroll must reapply for a future term.

For additional information on policy and procedures, former students who wish to petition for readmission under the Fresh Start Program should contact the dean of the college into which they seek readmission.

Each student is responsible for becoming familiar with the rules and regulations of the university and for applying them as appropriate. Additional information relative to academic rules, conduct, graduation, social activities and failure in studies can be found in the sections containing regulations of the colleges and schools.

**Additional Admission Information**

• All Applicants (p. 29)
• Readmission Deadlines (http://www.admissions.ufl.edu/ugrad/readmission.html)

**Residency for Tuition Purposes**

Few students are admitted purely on academic merit. While the potential for academic success is a primary consideration, UF's comprehensive holistic application review also considers personal essays, academic awards, extracurricular activities, family background and home community. All information in the applicant's file, academic and non-academic, is considered in relation to the size and strength of the applicant pool.

The deadline for applying for a change in residency status, including receipt of all documentation, is each term's fee payment deadline (p. 1808). Residency reclassification cannot be applied for retroactively for previous terms.

All Florida public institutions of higher education shall maintain consistent policies and practices for the classification of students as residents for tuition purposes to facilitate the transfer of students among institutions. The policies and practices may vary to accommodate differences in governance, but the determination of classification shall be consistent to assure students of being classified the same regardless of the institution determining the classification, as long as no contradictory evidence indicates the classification is incorrect.

**Determination of Residency for Tuition Purposes**

• **Applicants:** consult the Admissions website (http://www.admissions.ufl.edu/residency.html).
• **Current UF Students:** consult the Registrar website (https://registrar.ufl.edu/).
• Florida State Statute 1009.21 (http://www.leg.state.fl.us/Statutes/?App_mode=Display_Statute&URL=1000-1099/1009/Sections/1009.21.html)
• Florida Board of Governor's Regulation 7.005 (http://www.flbog.edu/documents_regulations/ regulations/7_005ResidencyforTuitionPurposesSept2015.pdf)
• Florida Residency Guidelines (https://www.floridashines.org/documents/111597/112691/09.22.16+Florida+Tuition+Residency+Guidelines.pdf/e726c0fd-3784-428d-aa27-74cc04db218f/)

**Applicants Receiving VA and Social Security Benefits**

Few students are admitted purely on academic merit. While the potential for academic success is a primary consideration, UF's comprehensive holistic application review also considers personal essays, academic awards, extracurricular activities, family background and home community. All information in the applicant's file, academic and non-academic, is considered in relation to the size and strength of the applicant pool.
The University of Florida is approved by the Florida Department of Veterans Affairs (VA) to educate and train veterans, their spouses or their dependents (100 percent permanent and totally disabled or deceased service connected).

Ten federal public laws currently provide education/job-training programs for VA-eligible students.

Five programs serve most students:

- Chapter 30 for U.S. Military Veterans
- Chapter 31 for Disabled U.S. Military Veterans
- Chapter 33 for U.S. Military Veterans or dependents of veterans
- Chapter 35 for Spouse and Children of Deceased or 100 percent (permanent and totally) Disabled Veterans (service connected), and
- Chapter 1606 for personnel in the National Guard or U.S. Military Reserves.
- Chapter 1607 for personnel in the National Guard or U.S. Military Reserves called or ordered to active duty in response to a war or national emergency (contingency operation) as declared by the President or Congress. Members may be eligible after serving 90 consecutive days on active duty after September 11, 2001.

UF’s Office of Veterans Affairs in 222 Criser Hall coordinates veterans services and specific program information. Eligible students must submit an Application for Educational Benefits and request certification for full-time or part-time educational benefits in accordance with VA rules and regulations.

This office also can provide confirmation of student status for VA health care or other benefits. Additionally, the University of Florida provides military training to college credit evaluation and encourages all veterans to request this service from the campus veterans advocate.

A full-time fall and spring semester undergraduate load for VA benefits is 12 credits per semester; a full-time fall and spring semester graduate load is 9 credits. Summer terms full and part-time enrollment requirements differ. Students should refer to the UF VA website for specific information about summer credit requirements.

The Atlanta Regional Processing Office of the U.S. Department of Veterans Affairs determines eligibility based on official service records, evidence submitted by the student and applicable laws. Students with established VA program eligibility at another college or university must submit a Change of Program or Place of Training and a UF enrollment verification request to 222 Criser Hall.

Chapter 30, 1606 and 1607 program participants are required to verify attendance each month to the federal VA. Verification can be done on the Web Automated Verification of Enrollment (WAVE) (https://www.gibill.va.gov/wave/) page, or veterans can call 1.877.823.2378.

At the end of the term, if an undergraduate student's cumulative grade point average falls below a 2.0 (C) average, the student will receive an academic warning. If at the end of the next term of enrollment, the cumulative GPA remains below 2.0, the student's educational benefits will be terminated and the DVA will be notified of the student's unsatisfactory progress for VA pay purposes. Students must meet the conditions for UF readmission to become eligible again for VA educational programs.

Social Security Benefits

Inquiries related to Social Security benefits should be directed to the student’s local Social Security Office. The Office of the University Registrar will complete enrollment certificates issued by the Social Security Administration for students eligible to receive educational benefits, as long as the student is a full-time undergraduate.

A full-time undergraduate load for Social Security benefits is 12 credits per semester; a full-time graduate load is nine credits.

Center for Latin-American Studies

Founded in 1930, the Center for Latin American Studies aims to advance knowledge about Latin America and the Caribbean and to enhance the scope and quality of Latin American studies at the University of Florida.

More Info (http://www.latam.ufl.edu/)

Academic Advising
Grinter Hall, Room 319
352.392.0375

The center:
- offers interdisciplinary academic programs in Latin American studies;
- conducts outreach activities that enrich the intellectual and cultural lives of UF students, faculty and staff, and the local community (e.g., Annual Conference, Colloquium, Latino Film Series, Latin Americanist newsletter, educational K12 outreach services); and
- cooperates with other university units in overseas study, research and training programs.

Most of these programs are open to undergraduates.

The center has a director and 20 core faculty members with expertise in the humanities, social sciences and natural sciences. In addition, the center draws on the expertise of more than 160 distinguished faculty affiliates from colleges and professional schools across campus. These faculty teach more than 375 undergraduate and graduate courses available to undergraduates in Latin American and Caribbean studies.
### Academic Programs

The Center for Latin American Studies offers a minor (p. 1439) and a certificate (p. 1438) for undergraduates who are interested in Latin America and/or the Caribbean and who intend to pursue graduate studies or a career in Latin American or Caribbean-related business, government service or teaching. An interdisciplinary studies (IDS) major in Latin American studies is available through the College of Liberal Arts and Sciences.

The minor requires 15 credits of courses outside the student's department major's courses, and it will appear on the student's transcript. The certificate in LAS is awarded by the center to acknowledge a Latin American or Caribbean-area concentration within the student's major and general course of study. All coursework on Latin America and related fields, including several courses in the student’s major and/or minor may count toward the certificate, and a student can receive both a minor and a certificate in Latin American Studies.

For more information, refer to Center for Latin American Studies (http://www.latam.ufl.edu/), Grinter Hall (http://campusmap.ufl.edu/?loc=0002), Room 319, 352.392.0375, ext. 807. Students interested in the minor, certificate or major should contact the center’s undergraduate advisor: Email (rfbrown@latam.ufl.edu).

### Study Abroad in Latin America

Candidates for both the minor and the certificate are encouraged to spend a summer, a semester or an academic year studying in a Latin American country. UF sponsors study abroad programs for undergraduates in several Latin American countries in a variety of disciplines and lengths. Options include study tours of one to two weeks, summer programs of six weeks and semester-length exchanges during fall or spring. UF programs are currently available in Brazil, Costa Rica, Chile, Mexico, Nicaragua and Peru. Students in almost any major can find a program that will fit their interests.

Courses taken in UF-sponsored study abroad programs can count toward the minor or certificate in Latin American studies. Credits obtained from study abroad programs sponsored by other institutions and transferred to UF may be applied to the minor or certificate with prior approval from the UF international Center (UFIC), the student’s major department, and the undergraduate advisor at the Center for Latin American Studies.

For further information on study abroad opportunities, contact Study Abroad Services at the UF International Center.

---

### College of Dentistry

The University of Florida College of Dentistry is one of the top dental schools in the United States, featuring a nationally-ranked research enterprise, all ADA-recognized dental specialties, and is a recipient of the Higher Education Excellence in Diversity Award for six consecutive years. The college is located on the University of Florida campus within an academic health center which includes a major teaching hospital and five other health colleges. The University of Florida and the College of Dentistry offer rich educational and cultural opportunities, nationally-ranked sports teams and everything a large university system has to offer in a diverse and humanistic environment.

Dental Academic Advising and Admissions  
Academic Health Center, Room D3-5  
352.273.5955  
Email (DMDAdmissions@dental.ufl.edu)

Admissions (http://admissions.dental.ufl.edu/)  
The college educates the state's future dentists and dental specialists through 16 degree and certificate programs. Each year we admit a new class of 90+ D.M.D. students who are among the top predental students in the nation. Students’ performance on standardized examinations is a benchmark of the quality of our academic programs.

The college is Florida’s only public dental school and one of the top dental institutions in the country. It has a statewide network for community oral health with four UF-owned dental centers and 11 partnership centers located throughout Florida. The college provides training opportunities for students and residents while providing dental care to Florida residents, many of whom are underserved and lack access to dental care.

The UF College of Dentistry is housed in the Dental Sciences Building located on the UF Academic Health Center campus. The Academic Health Center includes five additional colleges – Medicine, Public Health and Health Professions, Nursing, Pharmacy, and Veterinary Medicine – and is adjacent to one of the university’s affiliated private, tax-exempt teaching hospitals, UF Health Shands in Gainesville.
Undergraduate Preparation

The College of Dentistry seeks students of the highest caliber for its many programs. A strong record of scholastic achievement, high moral character and strong motivation is expected of the applicant. Because of the vast amount of science that must be mastered by the dentist, a dental student must have aptitude and adequate academic preparation in the sciences. The highly personal relationship between patient and dentist places the latter in a position of trust, which demands maturity, integrity, intellectual honesty and responsibility.

Preprofessional students can major in any department or college of the university; however, an in-depth background in biological sciences is necessary to master the dental curriculum. The Pre-Health Advising Team in the UF Academic Advising Center offers information and resources to help students prepare for admission to a professional program in dentistry.

More Info (https://www.advising.ufl.edu/pre-health/)

General education requirements for admission to the College of Dentistry are fully described in the dentistry catalog. Registration in dentistry (DEN) courses is restricted to students admitted to the College of Dentistry with 0DN to 8DN classifications.

The application process (http://admissions.dental.ufl.edu/d-m-d/ufcd-requirements/applicants/) is described on the college website or students can email (DMDAdmissions@dental.ufl.edu) the admissions office.

Programs

Doctoral Program in General Dentistry

The Doctor of Dental Medicine (D.M.D.) program is a four-year doctorate program in general dentistry.

Combination Program for Undergraduate Students

The combination B.S./D.M.D. program allows the student to complete both the B.S. and D.M.D degrees in seven years instead of eight. Students submit applications at the conclusion of their freshman year at UF. Accepted students enroll in a carefully sequenced series of courses that meet both baccalaureate degree requirements and the College of Dentistry’s admissions requirements. The student completes three years of undergraduate work before transferring to the first year of dental school. The B.S. degree is awarded at the end of the first year of dental school. This program is jointly offered with the College of Agricultural and Life Sciences.

Advanced and Graduate Programs

The College of Dentistry also offers four Master of Science in Dental Science (M.S.) degree programs as well as several Advanced Education Programs resulting in certificates of completion.

In conjunction with the College of Medicine, the College of Dentistry offers a six-year program that awards an M.D. degree and a certificate of completion in Oral and Maxillofacial Surgery.

Oral Biology Specialization

The college’s Department of Oral Biology, in conjunction with the College of Medicine, offers a program leading to a Ph.D. in medical sciences with a specialization in oral biology.

DMD Program Highlights

Established in 1972, the University of Florida College of Dentistry is the only publicly-funded dental school in the state and ranks as a national leader in dental education, research and community service.

- Exceptional boards pass rate (https://admissions.dental.ufl.edu/2017/11/07/nbde-pass-rate/)
- Top 10 nationally-ranked research enterprise (https://admissions.dental.ufl.edu/2018/05/10/top-10-research/)
College of Medicine

The College of Medicine, a unit of the Health Science Center, began operations in 1956 and is located on the south end of campus. This location, in direct proximity to university facilities, offers many opportunities to utilize and complement resources of the university in the educational and investigative programs of the college.

Contact

University of Florida
Gainesville, FL 32610-0216

The College of Medicine is responsible for several major educational programs. Foremost is the four-year program leading to the M.D. degree. The average class size is 130. After graduation, physicians enter a residency program. The college offers an interdisciplinary graduate program (IDP) in biomedical sciences leading to the Ph.D. in medical sciences with specialization in the following concentrations.

Concentrations
- Biochemistry and Molecular Biology
- Genetics
- Immunology and Microbiology
- Neuroscience
- Molecular Cell Biology
- Physiology and Pharmacology

Joint programs exist with the colleges of Agricultural and Life Sciences, Education, Engineering, Liberal Arts and Sciences and the other colleges of the Health Science Center. Also, computational and statistical services are available through university resources and facilities.

Further training is offered through positions for postdoctoral research fellowships in all basic science and clinical departments. The clinical departments conduct frequent seminars as part of a continuing education program for practicing physicians. In addition, some of the clinical departments have assumed responsibility for community medicine programs in communities surrounding Gainesville.

The faculty is dedicated to a teaching program of high quality. The design of the four-year curriculum encourages a close faculty-student relationship. The educational program is structured to enable the graduate to choose any career in medicine. Therefore, emphasis is placed on fundamental biological principles and their relevance to the practice of medicine.

Teaching Hospitals
The primary teaching hospital for the College of Medicine is Shands at the University of Florida, a modern tertiary care facility that is part of the Health Science Center complex. Shands at UF is one of several hospitals owned and operated by Shands HealthCare, a not-for-profit system affiliated with the University of Florida. The College of Medicine also has faculty, students and residents who provide patient care, teaching and clinical trial research at the Veterans Administration Medical Center located across the street from the Health Science Center campus.

Students also receive experience at Shands Jacksonville, approximately 70 miles from Gainesville. Shands Jacksonville has a 760-bed facility with more than 250 faculty. In addition, there are more than 60 owned or affiliated outpatient or community practice sites for educational experiences. More Info (http://www.med.ufl.edu/)
Undergraduate Preparation

Students intending to apply for admission to the College of Medicine must complete the requirements for a bachelor’s degree. Preprofessional students at the University of Florida may major in a program offered by any department or college in the university. The Office of Health and Legal Professions Advising offers a variety of resources, including the university’s Preprofessional Handbook.

An applicant to the College of Medicine must have personal qualities of the highest order: character, integrity, intellectual honesty, responsibility, maturity, initiative and aptitude. In addition, students must demonstrate superior academic achievement during undergraduate work and complete the Medical College Aptitude Test (MCAT). Substantial extracurricular activities, especially in service and health care, are expected. Admission information and brochures are available from the College of Medicine, the Office of Admissions’ preprofessional admissions section and Health and Legal Professions Advising.

Joint Degree Programs

A junior honors medical program exists for undergraduate students who have chosen a career in the medical profession and who have demonstrated both superior scholastic ability and personal development during their first two college years. Students are chosen for the program at the end of their sophomore year. The third year consists of two-thirds undergraduate courses and one-third College of Medicine courses. The latter are offered in a seminar form. The fourth year consists of first-year courses in the College of Medicine.

The program is limited to 12 students per year in order to retain the discussion seminar format. Preference is given to Florida residents. The College of Liberal Arts and Sciences grants academic credit for all of the third-year work and part of the fourth-year work. A participating student receives a B.S. degree after completing the first year of medical school.

The College of Agricultural and Life Sciences also participates in this program through their food science and human nutrition major (nutrition specialization) and provides information regarding completion of the degree in that college.

The College of Medicine graduate education program offers several M.S. and joint degree programs with other colleges. A joint degree program is a credit-sharing arrangement that allows qualified students to combine their medical science background with other professional or graduate work, resulting in earning two degrees in a reduced amount of time.

Unusually gifted students may enter a combined M.D./Ph.D. program that offers an opportunity for integrating clinical experience with competence in basic biomedical research. This program reflects the increasing dependence of the practice of medicine on scientific advances in the biological sciences and seeks to produce clinician scientists.

The College of Medicine, in conjunction with the Warrington College of Business and the Fredric G. Levin College of Law, offers programs leading to the M.D./M.B.A. and the M.D./J.D. degrees. A complete description of these programs is available in the College of Medicine Admissions Office. The college also offers a joint M.D/M.P.H degree and a two-year Master of Physician Assistant Studies.

College of Pharmacy

The oldest college in the UF Health Science Center, the College of Pharmacy was established in 1923. Today the college is ranked among the top colleges and schools of pharmacy in the nation. In keeping with the University of Florida mission, the college is dedicated to excellence in pharmacy research, service, and educational programs enhanced through online technologies.

More Info (http://pharmacy.ufl.edu/education/student-affairs/)

**Preprofessional-pharmacy track**

Students at the University of Florida who are interested in applying to the PharmD program may declare a pre-pharmacy major as freshmen and sophomores and complete the preprofessional course requirements. Students can complete this coursework within two calendar years and will be monitored by the college through the critical-tracking program. Students who wish to take three or more years to complete the required coursework must declare a major other than pre-pharmacy in the third year.

Students may also complete the PharmD preprofessional courses in other science majors such as biology, chemistry, microbiology and cell science and nutritional sciences (this list is not all-inclusive). Additionally, a student can complete a degree in any major while completing the preprofessional courses.

Students interested in pharmacy must complete all general education and writing requirements, earning an Associate of Art (A.A.) degree before beginning the PharmD professional curriculum. Transfer students must also receive an A.A. degree prior to beginning the professional program.

**Recommended Course Sequences**

- General chemistry, biology and calculus should be completed in the first year before taking the PCAT.
- Completion of one semester of organic chemistry, or currently taking organic chemistry, is also recommended preparation for the PCAT.
- Organic chemistry, and anatomy and physiology should be completed in the second year.
- Biochemistry and microbiology should be taken after completion of organic chemistry and biology.
- All applicants must have completed two sequential courses of foreign language in secondary school or 8-10 credits at the post-secondary level, or document an equivalent level of proficiency.
- All students must complete an A.A. degree prior to beginning the professional program. Students who are transferring from schools that do not offer an A.A. degree must meet UF’s general education requirements.
- Students may take online courses to satisfy preprofessional coursework. However, the Admissions Committee prefers that students complete science courses with laboratories in the traditional class setting.

**Critical-Tracking Criteria**

The universal-tracking program provides accurate academic advising in an appropriate time frame. The college has designated particular criteria that must be completed each semester to progress satisfactorily toward entry into Pharmacy school after two-years. Students may elect a three-year program that requires declaration of a science major in a UF college. However, students must declare a major by the end of their third year. Please contact the Pre-Pharmacy advisor for guidance.

**Degree Requirements**

**Preprofessional-pharmacy track**

The College of Pharmacy does not award undergraduate degrees. However, students may elect to follow the Pre-Pharmacy track and declare Pharmacy as their major. Please see academic policies (p. 41) for more details. For a list of coursework please click here (https://catalog.ufl.edu/UGRD/academic-programs/UGPHM/PHA_NOD/#modelsemesterplantext).

To earn a Master of Science (M.S) or a Doctor of Philosophy (Ph.D.) degree from the College of Pharmacy, candidates must first earn a Bachelor of Science (B.S.) degree in a related field. Please contact the Office of Graduate Education (https://graduateeducation.pharmacy.ufl.edu/) for further guidance.
Gator Pharmacy Early Assurance Program (PEAP)

The Gator Pharmacy Early Assurance Program provides highly-qualified students who have been admitted to UF an opportunity to streamline their path into pharmacy school. This program is designed to assist students through the early process of becoming a pharmacist by providing workshops, training and opportunities related to pharmacy careers.

Program benefits (https://admissions.pharmacy.ufl.edu/planning-to-succeed/early-assurance-program/)

Pharmacy | Preprofessional

Course requirements for the Doctor of Pharmacy include two years of the preprofessional curriculum (63-66 credits) and four years of professional preparation (146 credits). Courses in the professional curricula are revised periodically to meet pharmacy education standards. Current information on the curriculum can be obtained from the Office for Student Affairs in the College of Pharmacy.

About this Program

- **College:** Pharmacy
- **Degree:** Doctor of Pharmacy | After completion of professional courses
- **Credits for Degree:** 63-66 in the preprofessional curriculum | 146 in the professional curriculum

The College of Pharmacy does not award undergraduate degrees. To obtain a bachelor’s degree, students must declare a major in an undergraduate degree awarding college and complete all university, college, and major requirements.

Department Information

Ranked by U.S. News & World Report as the No. 1 pharmacy college in Florida and in the Top 10 nationally, the University of Florida College of Pharmacy has been developing future leaders in pharmacy practice and science for nearly a century.

Curriculum

- Pharmacy | Preprofessional

All students interested in completing the Doctor of Pharmacy (PharmD) degree must complete all required preprofessional courses and electives (63-66 credits) along with 146 total credits in the professional curriculum. Application and acceptance into Pharmacy school is required to start the professional curriculum. Please visit the UF PharmD Office of Admissions webpage for the steps to apply. (https://admissions.pharmacy.ufl.edu/steps-to-apply/)

Admissions website (https://admissions.pharmacy.ufl.edu/steps-to-apply/)

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=512001&track=01) may be used for transfer students.

**Semester 1**

- Complete CHM 2045/CHM 2045L

**Semester 2**

- Complete 3 additional courses of the remaining 10 critical-tracking courses, including labs: APK 2100C or ZOO 3713C, APK 2105C or PCB 4723C, BSC 2010/BSC 2010L, BSC 2011/BSC 2011L, CHM 2210, CHM 2211/CHM 2211L, CHM 2046/CHM 2046L, MAC 2311, MCB 3020, STA 2023
- 3.0 GPA or higher preferred for all science courses
Semester 3
• Complete 4 additional courses of the remaining 10 critical-tracking courses, including labs (2 of the courses must be CHM 2210, and APK 2100C or ZOO 3713C)
• 3.0 GPA or higher preferred for all science courses

Semester 4
• Complete all 11 critical-tracking courses, including labs
• Satisfactory score on the PCAT test
• Complete the personal profile essay/campus preference form, letters of recommendation, PharmCAS application and the UF application by February 1
• Approval of college admission committee
• 3.0 GPA or higher preferred for all science courses

Semester 5
• 3.0 GPA or higher preferred for all science courses

Model Semester Plan
 Semester one below may not be the first semester at the university. Semester one refers to the first semester of preprofessional science and mathematics courses. Students who already have satisfied the criteria for a particular semester will be assigned a semester to begin the tracking program.

Critical-tracking courses should be completed in the semester indicated.

Students are required to complete IDS 1161 in semester 1 or 2. Students admitted to pharmacy school must complete BCH 4024 before enrollment.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Modern veterinarians serve the needs of the public in many significant ways:

- Prevention of disease in animals and humans
- Enhancement of animal agriculture and wildlife management
- Humane health care of animals
- Research on diseases of animals
- Provision of wholesome food
To answer these challenges, the goals of the College of Veterinary Medicine are to:

- Educate veterinarians for Florida's specific needs.
- Perform research on metabolic and infectious diseases of animals. These investigations will provide new knowledge concerning diseases of domestic animals, will assist in the control of devastating subtropical diseases that must be controlled to provide wholesome food for our nation and developing countries, and will provide insight into human diseases for which animal models exist.
- Provide a veterinary medical center necessary for training interns, residents and graduate students, and for the continuing education of practitioners.
- Provide a resource for dissemination of current information to veterinary practitioners, state and federal agricultural and public health agencies, and consumers of food and health services.
- Serve as a center where veterinary practitioners can consult with specialists and where animal patients can be referred for sophisticated diagnostic procedures. This will provide a service to practitioners and afford veterinary students access to more cases and a greater variety of disease entities.

## Curriculum

Veterinary students participate in the professional degree program leading to the Doctor of Veterinary Medicine (D.V.M.), which requires 150 semester credits for graduation. Students with a cumulative grade point average (GPA) of 3.50 or above may graduate cum laude. A cumulative GPA of 3.75 or above is required for magna cum laude recognition.

The professional curriculum provides a nine-semester program consisting of core didactic classes and clinical clerkship experiences. Three phases of study within the veterinary medical curriculum are based conceptually on:

- the study of the normal animal (Phase I),
- the study of disease processes and therapy (Phase II), and
- clinical applications (Phase III).

Phases I and II are organized on an organ system basis; each system is considered in turn, an approach that lends itself to the concept of comparative medicine. Phase I occupies the first two semesters of the curriculum; Phase II the second two semesters. During Phase III (semesters 5-9) the student enters rotations through the required clerkships and elective areas of concentration.

## Undergraduate Preparation

Students intending to apply for admission to the College of Veterinary Medicine should plan to complete a bachelor’s degree. However, outstanding students may be admitted after three years of preprofessional coursework.

Sequencing of preprofessional coursework should be planned carefully, preferably under the guidance of preprofessional advisors. The Office for Academic and Student Affairs welcomes inquiries of a general nature, but semester-by-semester course scheduling should be monitored by the college offering the bachelor’s degree.

Pre-veterinary students may major in a program offered by any department or college but must complete the preprofessional requirements. Applicants to the professional curriculum must present a minimum of 80 credits of college-level coursework, exclusive of physical education and military training courses.

Credit for Advanced International Certificate of Education (AICE), Advanced Placement (AP), International Baccalaureate (IB) or College Level Examination Programs (CLEP) is acceptable at the level identified in the academic advising section of this catalog.

## Admission

Student selection for the College of Veterinary Medicine will be made by the dean based on recommendation of the College Admissions Committee using the following criteria as the basis for selection:

- Residency
- Academic Performance
- Animal and Veterinary Experience
- Evaluation Forms and References
- Extracurricular Activities
- Communicative Skills
- Candidate interview
- Competitiveness of the Applicant Pool
When to Apply

The College of Veterinary Medicine is a participant in the Veterinary Medical College Application Service (VMCAS). Applications are available in January via VMCAS (https://www.aavmc.org/students-applicants-and-advisors/veterinary-medical-college-application-service/). In addition to completing the VMCAS application, applicants must also complete and submit a required UF vet med professional application. More Info (http://education.vetmed.ufl.edu/admissions/application/)

This secondary application is used to determine residency for tuition purposes. The completed secondary application must be received by the submission deadline of the VMCAS application. Admission is granted only for the fall semester of each school year and only on a full-time basis.

Anthropology
Anthropology lies at the intersection of the multiple approaches to the study of humankind that characterize other disciplines – biological, social, cultural, historical, linguistic, cognitive, material, technological and aesthetic – because of its unique holistic perspective. These multiple approaches are encapsulated in the four traditional subfields that have composed the discipline since its establishment in the 19th century: cultural (http://sites.clas.ufl.edu/anthropology/department-subfields/cultural-anthropology/), archaeological (http://sites.clas.ufl.edu/anthropology/department-subfields/archaeology/), biological (http://sites.clas.ufl.edu/anthropology/department-subfields/biological-anthropology/) and linguistic (http://sites.clas.ufl.edu/anthropology/department-subfields/linguistic-anthropology/) anthropology.

Food Science and Human Nutrition
The Food Science and Human Nutrition Department (FSHN) is one of the world's largest combined academic programs where food science, nutritional sciences, and dietetics are all studied within one department. FSHN has nearly 25 full-time faculty members, 80 graduate assistants, and 600 undergraduate students. The department's programs are accredited by the Institute of Food Technologists (IFT) (http://www.ift.org/) and the Academy of Nutrition and Dietetics (http://www.eatright.org/). After completing undergraduate degrees, FSHN students typically move on to employment in the food industry, healthcare settings, graduate, or professional programs.

Gender, Sexualities, and Women's Studies Research, Center for

The Center for Gender, Sexualities, and Women's Research advances research, teaching, and leadership on how multiple systems of power intertwine to shape culture, society, and people's lived experiences. Students explore how gender, class, race, sexuality, and other systems of power shape important domains such as health, work, culture, media, politics, leadership, and organizations. Students also learn how to put this knowledge into practice to transform these systems.

**ROTC Scholarship Program**

The ROTC Vitalization Act of 1964 provides for college scholarships to ROTC cadets and midshipmen. Scholarships are competitive and pay either the cost of tuition, books, fees, supplies and equipment or an amount toward that coverage (depending on the service) plus a monthly subsistence allowance of $300 (freshman year), $350 (sophomore year), $450 (junior year), and $500 (senior year). Scholarships are offered for two, three and four years.

**Students with Military Training Elsewhere**

Students transferring from other college-level institutions with ROTC units are allowed credit for military studies completed elsewhere, up to the amount allowed by the institution from which the transfer is made, provided such credit does not exceed the maximum credits allowed for the Air Force general military course. For the Army ROTC program, transfer of all four semesters of the basic course is normally accepted. Students already in the advance course must receive approval from the professor of military science for approval of upper-division credit transfers.

A cadet who transfers to another institution with a similar-service ROTC detachment may transfer membership in the Army or Navy advanced course or the Air Force professional officer course to that detachment. The professors of military science, naval science or aerospace studies determine eligibility for admission to military science, naval science and aerospace studies courses at this university.

**Military Commitment upon Course Completion**

Non-scholarship students enrolled in Army, Air Force or Navy ROTC incur no military commitment during their first two years (basic course) in the program. Upon selection by the respective departments, students completing the basic course or its equivalent may enter the ROTC advanced course. Such students execute a contract at time of entry that obligates them, upon successful completion of the advanced course and commissioning, to serve on active duty for a period of not less than three years for Army, three years for Navy and four years for Air Force. Assignments are subject to orders of the appropriate service secretary.

A graduate will continue as a member of the regular or reserve component of that service until the sixth and not later than the eighth anniversary of the commission. ROTC scholarship students incur an identical military commitment except they must serve at least four years on active duty, if selected, and depending on the service selection and warfare specialty.

Army ROTC students also may elect to participate in the guaranteed reserve forces duty option, whereby they are not required to serve on active duty. After commissioning and completion of the basic branch school, they are assigned to an Army Reserve or National Guard unit to fulfill the remainder of their eight-year obligation in a reserve forces status.

Interested students should apply in person at the office of the professor of military science, naval science or aerospace studies in Van Fleet Hall.

**Uniforms, Equipment, and Textbooks**

ROTC uniforms are identical to regulation uniforms except for insignia. Cadets and midshipmen must wear the uniform on specified days.

Newly entering students in the Army and Air Force ROTC are issued required uniforms and texts. The uniforms and texts remain the property of ROTC and are returned to supply during semesters of nonattendance, transfer to another institution or upon completion of the prescribed course of instruction.
Navy uniforms are permanently issued to midshipmen as long as satisfactory NROTC participation is carried out. Navy/Marine Corps scholarship midshipmen receive a $375 textbook stipend each semester they are active in the NROTC program.

Army scholarship cadets receive a $1200 textbook stipend each year.

Navy scholarship midshipmen receive a $375 stipend each semester they are active in the NROTC program. Army scholarship cadets receive a $1200 textbook stipend each year. Air Force scholarship cadets receive a $900 textbook stipend each year.

**Admission**

Lower-division ROTC academic courses, referred to as basic or general military courses, are open to all university students. These elective courses, offered by the Department of Military Science, are designed to introduce students to a military service (Army, Navy/Marine Corps, and Air Force) and their respective roles in national defense. No experience with the military is required or expected.

Upper-division courses are intended for juniors and seniors who are actively pursuing a commission as an officer. Cadets and midshipmen who complete the 3000/4000-level courses receive their commission upon graduation. Candidates for the commissioning program must be medically qualified, physically fit U.S. citizens, in good academic standing, with no criminal record and with demonstrated leadership potential. Final selection of students for the advanced course is made by the professor of military science, professor of naval science or professor of aerospace studies.

**Programs**

**Army Basic, Navy Basic, and Air Force General Military Course**

The Army and Navy basic courses and the Air Force general military courses include four semesters of instruction. Non-U.S. citizens must receive department approval to enroll.

Cadets and midshipmen are issued uniforms and textbooks by their respective services and are responsible financially for the care of such property and for its prompt return when directed.

Outstanding Army basic course cadets may be selected to attend airborne, air assault, northern warfare, military mountaineering training, or other U.S. Army training courses. Outstanding Air Force cadets may be selected to attend parachute free-fall training, soaring programs and summer base visits.

**Army Reserve Officers Training Corps (ROTC)**

392-ARMY (392-2769)

The general objective of Army ROTC is to provide junior officers who by their education, training and inherent qualities, are suitable for continued development as officers in the U.S. Army. The aim is to provide a basic military education and, in conjunction with other college disciplines, to develop individual character attributes essential to a professional military officer.

The Army ROTC advanced course includes four semesters of instruction on campus and four weeks of summer camp at Ft. Lewis, WA, normally at the end of the junior year. During each semester, cadets are required to participate in one weekend field training exercise at Camp Blanding in Starke, FL. Additionally, cadets are required to attend morning physical training (exercise) sessions up to three times weekly.

**Training Allowances and Service Obligation**

Each student receives from the U.S. Government a monetary subsistence allowance for advance course, $450 for juniors and $500 for seniors per month, paid during the period of enrollment in the advanced course for not more than 20 months. Students are paid for their travel to and from the five-week summer camp at Ft. Lewis, WA. While at camp, they are provided quarters, rations and one-half of a Second Lieutenant’s pay per month. Qualified cadets may be eligible to serve as drilling members of reserve component units, in the pay grade of E-5 or higher, under the Simultaneous Membership Program. Upon the student’s successful completion of the advanced course and completion of the college degree, the cadet is commissioned a Second Lieutenant in the U.S. Army.

Outstanding advanced-course cadets may be selected to attend airborne, air assault, northern warfare, military mountaineering training, or other U.S. Army training courses. Several cadets are offered the opportunity to serve in leadership positions in active Army units immediately following the National Advanced Leader’s Camp under the Cadet Troop Leadership Training Program. This program includes an opportunity for selected cadets to travel and serve in Germany or Korea. Prior to commissioning, students must take and pass one semester of the following courses: military history, English composition and computer literacy in order to complete the professional military education program requirements.

All contracted cadets may compete for the Cultural Understanding and Language Program, providing opportunities to travel to other countries, living and working among the population to better their understanding of the culture. Also, for selected languages, contracted cadets may be paid additional monies ($250 per semester-credit) for successfully completing targeted languages.

**Naval Reserve Officers Training Corps**

The NROTC unit was established at the university in 1972 to develop qualified officers for the Navy and Marine Corps. Students who complete the program are tendered commissions in either the Naval Reserve or the Marine Corps Reserve and are immediately placed on active duty.
The program consists of a naval science course and a noncredit two-credit leadership laboratory each semester for four academic years. Shipboard engineering and naval weapons systems, seapower and maritime symposia, terrestrial and celestial navigation, and management and leadership ethics are included in the curriculum. Training cruises, usually of four to six weeks duration with pay during the summer, also are part of the program.

Students may participate with or without a scholarship. Those who have scholarships have their tuition and fees paid by the Navy/Marine Corps and receive $375 per semester for books. They also receive $250 (freshman), $300 (sophomore), $350 (junior) and $400 (senior) per month for a maximum of eight semesters during the academic years.

Non-scholarship college program students do not receive these awards. However, they do receive naval science textbooks and uniforms free. They also receive $350 a month (during the junior year) and $400 a month (during the senior year) for up to four semesters. Scholarships are usually awarded after national competition among high school seniors. However, college program students can be awarded scholarships fewer than four years and they actually have an advantage over high school students.

Scholarship students participate in three summer cruises; college program students participate in only one cruise between their junior and senior years.

During the first year of the scholarship program, there is no obligation to serve on active duty. After students begin the sophomore year, they are obligated to serve on active duty after completing the program and receiving their baccalaureate degree. Eight-semester scholarship students incur an eight-year service obligation; four years must be active duty.

Navy-option graduates of the NROTC program will be assigned to one of the following areas: nuclear propulsion (surface and subsurface), naval aviation, surface warfare, or special warfare. Marine Corps-option graduates receive a six-month professional course before further assignment.

Air Force Officer Training Corps

The Department of Air Force Aerospace Studies was established in September 1946 to select and prepare students through a permanent program of instruction to serve as active duty officers in the U.S. Air Force. The curriculum emphasizes the uniformly high level of military understanding and knowledge required of Air Force officers.

AFROTC training is divided into two phases: the first two years constitute the General Military Course (GMC), the last two the Professional Officer Course (POC). AFROTC is designed to be a four-year program but can be completed in as little as three years. Upon completion cadets are commissioned as a Second Lieutenant in the U.S. Air Force.

The program requires completion of the GMC, a 12-day field training course and the POC. Students with previous active military service or previous training at military schools may on the basis of their experience receive a waiver for portions of the GMC. Students joining the program with only three academic years until graduation will be required to complete the entire GMC curriculum in one year and then attend field training.

UF students, junior college and other non-ROTC transfer students with no previous ROTC training who qualify academically are eligible for the three-year program.

General Military Course

The General Military Course, a two-year survey-level course, examines the role of U.S. military forces in the contemporary world, with particular attention to the U.S. Air Force, its organization and mission. The functions of strategic offensive and defensive forces, general purpose and aerospace support forces are covered. The development of air power over the past 200 years is examined by tracing the various concepts of employment of air power and by focusing on factors that prompted research and technological change. The history of air power is stressed, with significant examples of the impact of air power on strategic thought.

Professional Officer Course

Enrollment in the Professional Officer Course (POC) is open to applicants who demonstrate a high officer potential. Applicants must:

- Fulfill all requirements for a commission prior to the 34th (29 years for flying applicant) birthday (waivers possible to the 35th birthday)
- Have two years of academic enrollment remaining to obtain degree
- Sign a written contract agreeing to complete the course
- Be a citizen of the United States and willing to surrender dual citizenship with another nation
- Pass the Department of Defense medical examination
- Pass the physical fitness test
- Terminate membership (if member) of any reserve component
- Enlist in the Air Force Reserve (obligated reserve section)
- Have a cumulative academic GPA of 2.5 or higher for all previous college courses
- Successful completion of the GMC and Field Training requirements

Veterans entering the university who desire a commission through AFROTC should contact the professor of aerospace studies before registering.
POC academics stress the development of the leadership, management and communication skills that are vital to an officer's effectiveness. Classroom time also is spent developing the cadet's professional awareness and understanding the international environment as it affects the national security of the United States.

When the student successfully completes the POC and graduates from the university, they are commissioned a Second Lieutenant in the United States Air Force and is given an assignment commensurate with their academic major, the needs of the Air Force and their personal desires. The active-duty requirement for officers who enter and complete pilot training satisfactorily is ten years from the end of flight training. Those who complete combat systems officer, air battle manager or remote piloted aircraft training have a six-year active duty service commitment following graduation from flight training. For others, the requirement is four years after entering active duty.

Aerospace Leadership Minor

The university offers instruction in the military sciences to students preparing for military service. The departments of the Army, Navy/Marine Corps, and Air Force each maintains a Reserve Officers Training Corps (ROTC) and provides staff of military personnel for the instruction and administration of cadets and midshipmen.

**Fredric G. Levin College of Law**

A renowned faculty, comprehensive Juris Doctor curriculum, certificate programs, innovative centers and institutes, expanding global curriculum and competitive tuition make the University of Florida's Fredric G. Levin College of Law the first choice for many students who desire a law degree.
Since its establishment in 1909, the College of Law has been educating leaders in law, business, education and government. The college is accredited by the American Bar Association and is a member of the Association of American Law Schools. Enrollment is approximately 1000, including about 100 students in the Graduate Tax and Comparative Law programs.

The college is housed in Holland and Bruton-Geer halls and is named for alumnus Fredric G. Levin of Pensacola, a prominent trial lawyer who made possible a $20 million endowment to support excellence in legal education, which provided for construction on an expanded law library, the Lawton Chiles Legal Information Center, and two new classroom towers which were completed in 2005. As a result of this construction, the college has one of the largest academic law libraries in the southeastern United States, housing more than 609,000 volumes and extensive computer and audio-visual resources in a new, state-of-the-art facility.

The college's curricular strengths include tax law, business law, estates and trusts, environmental law, dispute resolution, international law, intellectual property law, criminal law, family and children's law and an emphasis in developing the highest standards of professional conduct. After completing first-year requirements, students can tailor their course load to fit their interests and career plans. The three-year curriculum develops students' analytical ability, knowledge of the theory and practice of law, communications skills, and understanding of the codes of professional responsibility and ethics central to the practice of law.

Students experience a variety of teaching methods, including the traditional case and Socratic methods, as well as the problem method, simulations, role-playing, videotaping, computer-assisted instruction and interaction with actual clients. Because Florida is home to many prominent and skilled attorneys and judges, a number are actively involved in teaching and practical skills training of UF law students. Additionally, because writing skills are critical to success in the legal profession, these skills are also developed through required courses and a nationally acclaimed legal drafting program.

Through programs offered on campus and abroad, students gain international experience for the competitive job market. Dozens of co-curricular and extracurricular organizations support a rich and diverse student life, and through programs offered on campus and abroad, students gain international experience for the competitive job market.

More Info (http://www.law.ufl.edu/)

**Academic Policies**

**Admission**

Admission to the College of Law is determined by the applicant's potential for success in law school, the legal profession and other law-related careers. An applicant's credentials are measured against others applying to the same class.

Applicants must hold a bachelor's degree from a qualified institution and have an acceptable grade point average and a satisfactory score on the Law School Admission Test (LSAT). The median LSAT score and undergraduate grade point average for the most recent entering class is 158 and 3.50 (4.00 scale), respectively.

More Info (http://www.law.ufl.edu/admissions/)

**Financial Aid**

Financial aid for law study is available through the College of Law and federal sources. The law school offers a number of merit-based scholarships and merit/need- based scholarships and grants.

More Info (http://www.law.ufl.edu/students/financial/)

**Financial Aid Office**

164 Holland Hall
Box 117621
Gainesville, FL 32611-7621

352.273.0620
Programs of Study

Pre-Law

The best pre-law program is a diversified course of study. Beginning law students are expected to possess effective written and oral communication skills as well as critical thinking abilities.

More Info (http://www.law.ufl.edu/programs/)

For specific information about pre-law study, law school and the legal profession, refer to the Official Guide to U.S. Law Schools, which can be ordered from Law Services during LSAT registration, purchased at most bookstores or accessed from the Law School Admission Council.

More Info (http://www.lsac.org/)

Joint Degrees

The Fredric G. Levin College of Law offers a joint-degree program that sets the standard among top-tier public law schools for its flexibility, coverage of study areas, high academic reputation and overall value. Qualified students combine legal studies with graduate coursework in another college to earn two degrees at the same time. Among the most popular are J.D./Accounting, J.D./MBA, J.D./Mass Communications.

More Info (http://www.law.ufl.edu/academics/academic-programs/joint-degree-programs/degrees-offered/)

Candidates must take the LSAT and the GRE, MCAT or GMAT, and gain admission separately to the College of Law and the Graduate School. Application deadlines vary; refer to law school admissions (http://www.law.ufl.edu/admissions/) and graduate admissions (http://www.admissions.ufl.edu/prospectivegraduate.html).

Certificate Programs

Specialization is a growing trend in today’s complex legal environment, and graduates with knowledge in specific practice areas are in high demand.

UF Law offers interested students the opportunity to develop expertise and marketability by earning a certificate in criminal justice, environmental and land use law, estates and trusts practice, family law, intellectual property law or international and comparative law.

Graduate Taxation Program

The graduate taxation program, which offers the LL.M. in Taxation, LL.M. in International Taxation and S.J.D. in Taxation, is widely and consistently regarded as one of the nation’s top programs. The environmental law program, also highly rated, offers the nation’s first LL.M. in the closely-related fields of environmental and land use law. The college's strong international programs and LL.M. in Comparative Law for foreign lawyers expand the school's curriculum and strengthen its ties with legal entities and scholars around the globe.

Clinics, Centers, and Institutes

Clinical programs, including Virgil Hawkins Civil Clinics and Criminal Clinics, allow students to represent clients within an academic framework with a substantial classroom component. Students also can take advantage of such practical experience programs as pro bono work for organizations and government agencies, summer internships and externships.

Multiple centers and institutes offer students unique, real-world perspectives and work experiences. At the same time they are partnering with legal firms and other institutions throughout the country and world to help shape the legal profession.

Centers

- Center for Governmental Responsibility
- Center for the Study of Race and Race Relations
- Center on Children and Families
- Center for Estate and Elder Law Planning
- Criminal Justice Center
- Center for International Financial Crimes Studies
- Institute for Dispute Resolution

General Education (Gen Ed) | UF Quest

The General Education Program (Gen Ed) supports the mission of the University of Florida by providing undergraduate students with common collective knowledge about the world in which they live. The curriculum enables students to think creatively, reason critically, communicate effectively, and make informed decisions that affect all aspects of their lives.

More Info (http://undergrad.aa.ufl.edu/general-education/)
Through general education courses, students gain fresh perspectives and discover new approaches to intellectual inquiry that promote understanding of both the traditional and the newly discovered. To achieve these outcomes, the general education curriculum encompasses a breadth of knowledge in composition, diversity studies, humanities, international studies, mathematics, biological, physical, and social and behavioral sciences.

Ultimately, competence in these areas enables students to better understand themselves, their neighbors, other cultures and times, and the principles governing the natural world and the universe; and to participate fully and responsibly as informed citizens in local, national, and global matters. The general education curriculum is organized around eight major subject areas: biological sciences, composition, diversity studies, humanities, international studies, mathematics, physical sciences, and social and behavioral sciences.

More Info (http://undergrad.aa.ufl.edu/general-education/gen-ed-program/)

**General Education Program Requirements**

All undergraduate students (except those transferring to UF with an A.A. degree from a Florida public college or an A.A. certificate from a Florida public state university) are required to complete UF’s general education requirement to graduate.

More Info (http://undergrad.aa.ufl.edu/general-education/gen-ed-program/program-requirements/)

<td></td>
</tr>
</tbody>
</table>

**OVERALL TOTALS**

1. To complete General Education, student must satisfy the UF Quest 1 and UF Quest 2 requirements by selecting one Quest 1 course in the “Humanities” subject area for 3 credits and one Quest 2 course in the “Social & Behavioral Sciences” or “Natural Sciences” subject area for 3 credits.

2. Student must select a General Education course that features the “International” subject area for 3 credits and a General Education course that features the “Diversity” subject area for 3 credits.

3. Majors that feature extensive use of these subject areas may require a student to complete all 6 “Additional Required Gen Ed Coursework” credits in a particular subject area. See the Major Model Semester Plan for details.

**Important Considerations**

- A minimum grade of C is required for general education credit. Courses intended to satisfy the general education requirement cannot be taken S-U.
- Some majors require or recommend specific general education courses.
- Certain classes are approved to count for multiple general education program areas. Students can count a general education course toward one area only except for (D) and (N) credits, which must be earned concurrently with another area. For example, a course designated as HD can count toward both the H and D requirements, but a course designated CH can count only as C or H.
- Study abroad courses can fulfill international credit, in addition to fulfilling credit in other subject areas. Study abroad must be approved in advance by an academic advisor and the UF International Center.

Successful completion of these requirements will result in the student learning outcomes.

**Selecting General Education Courses**

Students can take Gen Ed courses at the 1000-4000 levels. First-year students generally take introductory (1000/2000-level) courses. If a student has the academic background and the interest they may take more advanced courses, but they should first check the course prerequisites and/or consult an academic advisor.

**Applying Incoming Credits to General Education**

AP, IB, AICE, and CLEP credit count toward completion of the general education program requirements. In general, course equivalencies are derived from the course equivalency charts (p. 1761) from the student’s year of matriculation at UF.

Acceptable dual enrollment and other transfer credit will fulfill the general education requirements that the same UF course fulfills if the course is equivalent. Courses from Florida public colleges and State University System schools generally adhere to the Statewide Course Numbering System. If the prefix (first three letters) and the last three digits of the course number are the same, then the course is considered equivalent.
If the course does not have a common-numbered equivalent at UF (either because UF does not offer the course or because the transferred course was not taken in the state system), then the student’s college needs to evaluate the course to determine whether it fulfills a general education requirement.

More Info (p. 1761)

### Objectives and Outcomes

**Subject Area Objectives**

[More Info](http://undergrad.aa.ufl.edu/general-education/gen-ed-program/subject-area-objectives/)

#### Biological Sciences

Biological science courses provide instruction in the basic concepts, theories and terms of the scientific method in the context of the life sciences. Courses focus on major scientific developments and their impacts on society, science and the environment, and the relevant processes that govern biological systems. Students will formulate empirically-testable hypotheses derived from the study of living things, apply logical reasoning skills through scientific criticism and argument, and apply techniques of discovery and critical thinking to evaluate outcomes of experiments.

#### Composition

Composition courses provide instruction in the methods and conventions of standard written English (i.e. grammar, punctuation, usage) and the techniques that produce effective texts. Composition courses are writing intensive, require multiple drafts submitted to the instructor for feedback prior to final submission, and fulfill 6,000 of the university’s 24,000-word writing requirement. Course content must include multiple forms of effective writing, different writing styles, approaches and formats, and methods to adapt writing to different audiences, purposes and contexts. Students are expected learn to organize complex arguments in writing using thesis statements, claims and evidence, and to analyze writing for errors in logic.

#### Diversity

This designation is always in conjunction with another program area.

In Diversity courses, students examine the historical processes and contemporary experiences characterizing social and cultural differences within the United States. Students engage with diversity as a dynamic concept related to human differences and their intersections, such as (but not limited to) race, gender identity, class, ethnicity, religion, age, sexual orientation, and (dis)abilities. Students critically analyze and evaluate how social inequities are constructed and affect the opportunities and constraints across the US population. Students analyze and reflect on the ways in which cultures and beliefs mediate their own and other people's understandings of themselves and an increasingly diverse U.S. society.

#### Humanities

Humanities courses provide instruction in the history, key themes, principles, terminology, and theory or methodologies used within a humanities discipline or the humanities in general. Students will learn to identify and to analyze the key elements, biases and influences that shape thought. These courses emphasize clear and effective analysis and approach issues and problems from multiple perspectives.

#### International

This designation is always in conjunction with another program area.

International courses promote the development of students’ global and intercultural awareness. Students examine the cultural, economic, geographic, historical, political, and/or social experiences and processes that characterize the contemporary world, and thereby comprehend the trends, challenges, and opportunities that affect communities around the world. Students analyze and reflect on the ways in which cultural, economic, political, and/or social systems and beliefs mediate their own and other people’s understanding of an increasingly connected world.

#### Mathematics

Courses in mathematics provide instruction in computational strategies in fundamental mathematics including at least one of the following: solving equations and inequalities, logic, statistics, algebra, trigonometry, inductive and deductive reasoning. These courses include reasoning in abstract mathematical systems, formulating mathematical models and arguments, using mathematical models to solve problems and applying mathematical concepts effectively to real-world situations.

#### Physical Sciences

Physical science courses provide instruction in the basic concepts, theories and terms of the scientific method in the context of the physical sciences. Courses focus on major scientific developments and their impacts on society, science and the environment, and the relevant processes that govern physical systems. Students will formulate empirically-testable hypotheses derived from the study of physical processes, apply logical reasoning skills through scientific criticism and argument, and apply techniques of discovery and critical thinking to evaluate outcomes of experiments.

#### Social and Behavioral Sciences

Social and behavioral science courses provide instruction in the history, key themes, principles, terminology, and underlying theory or methodologies used in the social and behavioral sciences. Students will learn to identify, describe and explain social institutions, structures or processes. These courses emphasize the effective application of accepted problem-solving techniques. Students will apply formal and informal qualitative or
quantitative analysis to examine the processes and means by which individuals make personal and group decisions, as well as the evaluation of opinions, outcomes or human behavior. Students are expected to assess and analyze ethical perspectives in individual and societal decisions.

Student Learning Outcomes (SLOs)

Content and Skills

Content
Students demonstrate competence in the terminology, concepts, theories, and methodologies used within the discipline.

Communication
Students communicate knowledge, ideas, and reasoning clearly and effectively in written and oral forms appropriate to the discipline.

Critical Thinking
Students analyze information carefully and logically from multiple perspectives, using discipline-specific methods, and develop reasoned solutions to problems.

UF Quest 1 Requirement

UF Quest 1 courses, including IDS 1161, fulfill the UF Quest 1 requirement and three credits of the general education requirement in the humanities. Some may also fulfill three credits of the diversity or international requirement and/or count toward the writing requirement.

UF Quest 1 courses extend beyond any one discipline. They are not a survey of or an introduction to a field. Instead, they are topical and thematic courses that explore essential questions about the human condition that are not easy to answer and hard to ignore. What makes life worth living? What makes a society a fair one? How do we manage conflicts? Who are we in relation to other people or to the natural world? Through UF Quest, students examine why the world is the way it is, what they can do about it, and how they can help solve the problems that are now confronting us.

More Info (http://undergrad.aa.ufl.edu/uf-quest/students/)

Selecting UF Quest 1 Courses

- A list of UF Quest 1 courses is provided on the UF Quest website (http://undergrad.aa.ufl.edu/uf-quest/students/quest-courses/).
- In the catalog course search (https://catalog.ufl.edu/course-search/), select Quest 1 in the search results filter.
- On ONE.UF (https://one.uf.edu/), select Quest 1 in the Course Properties filter and then click Search.

UF Quest 1 Objectives

Quest 1 courses address the history, key themes, principles, terminologies, theories, or methodologies of various arts and humanities disciplines that ask essential questions about the human condition. Students learn to identify and analyze the distinctive elements of different arts and humanities disciplines, along with their biases and influences on essential questions about the human condition. These courses emphasize clear and effective analysis and evaluation of essential questions about the human condition from multiple perspectives. Students reflect on the ways in which the arts and the humanities impact individuals, societies, and their own intellectual, personal, and professional development.

UF Quest 1 Student Learning Outcomes

Content

Identify, describe, and explain the history, theories, and methodologies used to examine essential questions about the human condition within and across the arts and humanities disciplines incorporated into the course.

Critical Thinking

Analyze and evaluate essential questions about the human condition using established practices appropriate for the arts and humanities disciplines incorporated into the course.
Communication
Develop and present clear and effective responses to essential questions in oral and written forms as appropriate to the relevant humanities disciplines incorporated into the course.

Connection
Connect course content with critical reflection on their intellectual, personal, and professional development at UF and beyond.

UF Quest 2 Requirement
UF Quest 2 courses fulfill the UF Quest 2 requirement and three credits of the general education requirement in the social & behavioral sciences, the biological sciences, or the physical sciences. Some may also fulfill three credits of the diversity or international requirement and/or count toward the writing requirement.

Where Quest 1 asks why the world is the way it is, Quest 2 asks what we can do about the problems confronting us. Rather than serve as surveys of or introductions to specific fields, Quest 2 courses reflect the instructor’s expertise and challenge students as co-creators of knowledge in multi-disciplinary inquiry that uses scientific data to address pressing questions (e.g., What are the unintended consequences of technological progress? How do we address climate change? How do we end structural racism?).

More Info (http://undergrad.aa.ufl.edu/uf-quest/students/)

Selecting UF Quest 2 Courses

• A list of UF Quest 2 courses is provided on the UF Quest website (http://undergrad.aa.ufl.edu/uf-quest/students/quest-courses/).

• In the catalog course search (https://catalog.ufl.edu/course-search/), select Quest 2 in the search results filter.

• On ONE.UF (https://one.uf.edu/), select Quest 2 in the Course Properties filter and then click Search.

UF Quest 2 Objectives

Quest 2 courses provide instruction in the history, key themes, principles, terminologies, theories, or methodologies of various social or biophysical science disciplines that enable us to address pressing questions and challenges about human society and/or the state of our planet. Students learn to identify and analyze different social or biophysical science methods and theories and consider how their biases and influences shape pressing questions about human society and/or the state of our planet. These courses emphasize clear and effective analysis and evaluation of qualitative or quantitative data relevant to pressing questions concerning human society and/or the state of our planet. Students reflect on the ways in which the social or the biophysical sciences impact individuals, societies, and their own intellectual, personal, and professional development.

UF Quest 2 Student Learning Outcomes

Content
Identify, describe, and explain the cross-disciplinary dimensions of a pressing societal issue or challenge as represented by the social sciences and/or biophysical sciences incorporated into the course.

Critical Thinking
Critically analyze quantitative or qualitative data appropriate for informing an approach, policy, or praxis that addresses some dimension of an important societal issue or challenge.

Communication
Develop and present clear and effective responses to essential questions in oral and written forms as appropriate to the relevant humanities disciplines incorporated into the course.

Connection
Connect course content with critical reflection on their intellectual, personal, and professional development at UF and beyond.

Innovation Academy

The University of Florida Innovation Academy (IA) was developed to equip students with the 21st-century skills needed to thrive in an innovative culture. IA is an undergraduate spring/summer program that teaches innovation through an innovation minor embedded in many majors across seven colleges, and we offer vast co-curricular experiences which include a living-learning community.

Employers, thinkers, and leaders must evolve rapidly to keep up with the ever-changing international community. The modern job market seeks interdisciplinary individuals that welcome change, embrace creativity, and venture into the unknown. Our quality of life, economic growth, and access to affordable technology depend on our commitment to innovation.

Students select from over 30 UF majors and earn their degree with a minor in Innovation. The IA academic calendar operates on a Spring-Summer schedule, providing students the opportunity to enjoy Fall co-curricular activities, pursue internships, study abroad, or enjoy the break at home.
Innovation Minor
The exclusive minor curriculum focuses on entrepreneurship, design, creativity, collaboration, leadership, ethics, prototyping, and innovation. Learn strategic risk-taking, experiment with rapid prototyping, collaborate with experts and peers, and earn a competitive edge in your career.

Creativity
These courses examine the dynamics of creativity, discovery, and invention across disciplines. Students learn problem identifying and solving skill through design thinking.

Ethics
Course provides a grounding in ethical theory and practice, in careful reasoning about moral issues, with a focus on changes and their consequences.

Entrepreneurship
Courses teach entrepreneurial thought and action that students can utilize in starting companies or executing R&D projects in large companies.

Leadership
Students develop the skills and knowledge necessary to move an innovation from creation to implementation.

Admissions
Freshmen
The Innovation Academy (IA) seeks to admit a highly motivated and academically superior incoming class. IA facilitates participation in focused interactions and small group experiences that explore the dimensions of innovation, creativity, entrepreneurship, ethics, and leadership.

Application Process
Any prospective UF freshman can apply to the Innovation Academy Program as part of the University of Florida application. To apply to the Innovation Academy, freshman applicants should indicate interest in the Innovation Academy on their UF undergraduate admissions application. There is also an additional short essay on the UF application for students interested in IA.

More Info (https://admissions.ufl.edu/apply/freshman/)

Please note that the decision to apply (or not apply) for UF IA has no impact on the general UF admissions decision.

The Office of Admissions considers all applicants for the IA admission, Summer B admission and Fall admission. Once their admission decisions are made, the Office of Admissions makes only one offer for the student to accept: IA, Summer B, or Fall.

Please visit the Office of Admissions (http://www.admissions.ufl.edu/) for more information for students interested in applying to UF, and being part of the Innovation Academy. Prospective students may also benefit from reading through the FAQs (https://innovationacademy.ufl.edu/about/faqs/).

When to Apply
To apply to the Innovation Academy, freshman applicants should indicate interest in the Innovation Academy on their UF undergraduate admissions application. There is an additional short essay on the UF application for students interested in IA. Even though IA students officially start in the Spring, they still need to complete the UF application on the same schedule as students applying for UF’s standard fall/spring program. Freshman applications for the University of Florida are available online beginning in August and are typically due November 1. For more information, visit https://admissions.ufl.edu/apply/freshman/. Students are encouraged to apply as early as possible. Decision notifications are released in February for all first-year students. The Office of Admissions (http://www.admissions.ufl.edu/ugrad/timeline.html) website has more information regarding specific dates and application deadlines for freshmen.

Who Should Apply
Students interested in the Innovation Academy should have a strong desire for:

- Expert and peer collaboration
- Multidisciplinary learning (Arts, Humanities, and Science)
- Trial & error (rapid prototyping)
- Creating
- Strategic risk-taking

Innovation Academy enrolls students in a select group of majors. The majors IA supports are always growing, and as the program grows more will be added over time.

Our program offers a Decision Tool (https://innovationacademy.ufl.edu/media/innovationacademyufledu/pdfs/admissions/DecisionTools.pdf) chart to help students make an informed decision on applying to Innovation Academy.
*International Students are not currently eligible for participation in the Innovation Academy.

**Transfer Students**

The UF colleges that participate in the Innovation Academy admit highly qualified transfer students who have completed an Associate in Arts degree at a Florida public community or state college.

Students seeking admission from other universities or out-of-state schools may be considered for admission on a space-available basis. Transfer students are only admitted to Innovation Academy for the Spring semester. Students who transfer to IA will attend UF on Innovation Academy’s Spring/Summer schedule until the completion of their degree program. This allows IA students the Fall semester to seek out opportunities.

---

### Majors

**Agricultural and Life Sciences, College of AGRICULTURAL EDUCATION AND COMMUNICATION**

The department of Agricultural Education and Communication aims to serve society by advancing individuals and organizations in agriculture and natural resources through research and evidence-based practice in education, communication, and leadership.

### Minors and Certificates

**Innovation Minor**

- Innovation Minor

### Majors

**Agricultural and Life Sciences, College of AGRICULTURAL EDUCATION AND COMMUNICATION**

The department of Agricultural Education and Communication aims to serve society by advancing individuals and organizations in agriculture and natural resources through research and evidence-based practice in education, communication, and leadership.

**Semester Plan** (https://innovationacademy.ufl.edu/media/innovationacademyufledu/pdfs/academics/majors/agricultural-and-life-sciences/AEC.CLD_19-20_SN.pdf)

**Communication and Leadership Development & Innovation Minor** prepares students for entry into agribusiness and communication positions related to human resource development, corporate training and development, political interests, and agricultural literacy.

### Biology

**Biology**

The biology major develops fundamental knowledge of animals, plants and microorganisms. The four specializations offered by the College of Agricultural and Life Sciences are tailored to meet the needs of pre-professional students, those preparing for graduate studies in biology or specialized areas such as bioinformatics, ecology, genetics and molecular biology and those seeking a career in biotechnology, education, natural resource management and environmental or biotechnology law.

**Applied Biology** is for students interested in learning how fundamental biology is applied to solving problems. This specialization provides exposure to the major issues facing sustainability of human populations and natural resources.

**Semester Plan** (https://innovationacademy.ufl.edu/media/innovationacademyufledu/pdfs/academics/majors/agricultural-and-life-sciences/BLY.APB_19-20_SN.pdf)

**Biotechnology** prepares students for careers where knowledge of molecular biology and genetic engineering are important. Students will have the opportunity to learn various techniques and scientific procedures in molecular biology, virology, bioengineering, cell and tissue culture and bioinformatics.

**Semester Plan** (https://innovationacademy.ufl.edu/media/innovationacademyufledu/pdfs/academics/majors/agricultural-and-life-sciences/BLY.BTC_19-20_SN.pdf)

**Natural Science** is for students interested in descriptive and interpretive biology, with an emphasis on field biology. The specialization provides exposure to the major forms of flora and fauna, and integrates some of the major elements that influence flora and fauna, namely soil/water relations and human activities.

**Semester Plan** (https://innovationacademy.ufl.edu/media/innovationacademyufledu/pdfs/academics/majors/agricultural-and-life-sciences/BLY.NS_19-20_SN.pdf)

**Pre-professional** is for students preparing for admission to medical, dental, optometry, veterinary or other professional schools.
ENTOMOLOGY AND NEMATOLOGY
Entomology and nematology are biological sciences dealing with insects, mites, ticks, spiders and nematodes. The Department of Entomology and Nematology offers six specializations within the major.

Pre-professional provides preparation for programs in medicine, dentistry, optometry, veterinary, chiropractic, osteopathy and podiatry.

Semester Plan (https://innovationacademy.ufl.edu/media/innovationacademyufledu/pdfs/academics/majors/agricultural-and-life-sciences/ENY.PRO_19-20_YBS.pdf)

Urban Pest Management is for entry to the pest control industry. Students receive instruction about arthropods, nematodes, plant diseases and weeds with reference to the pest problems in residential and commercial property.

Semester Plan (https://innovationacademy.ufl.edu/media/innovationacademyufledu/pdfs/academics/majors/agricultural-and-life-sciences/ENY.URP_19-20_YBS.pdf)

Biological Science of Insects includes the study of insects, mites, ticks, spiders, and nematodes. These creatures can have both helpful and harmful effects on our food, environment, and health. Entomology and Nematology students study ecology, medically significant arthropods, social insects, insect management, physiology, behavior, evolution, natural ecosystem cycles, and systematics.

Semester Plan (https://innovationacademy.ufl.edu/media/innovationacademyufledu/pdfs/academics/majors/agricultural-and-life-sciences/ENY.BIO_19-20_SN.pdf)

Business, Warrington College of

ACCOUNTING
The Bachelor of Science in Accounting is a four-year degree program that provides an excellent foundation in accounting and business. Its conceptual focus is designed to prepare students for success in a constantly evolving business environment and to prepare students for graduate studies.

Semester Plan (https://innovationacademy.ufl.edu/media/innovationacademyufledu/pdfs/academics/majors/business/AC_19-20_SN.pdf)

BUSINESS ADMINISTRATION-GENERAL STUDIES
The Bachelor of Arts in Business Administration-General Studies degree provides a broad overview of the functional areas of business with a selected area of specialization. Students take foundation courses in economics, mathematics, computing skills and accounting; core courses that relate to the basic functions of business, such as finance, management, marketing and operations management; and area of specialization courses that focus on a specific topic, such as international studies, mass communication, criminology, science or a foreign language.

Semester Plan (https://innovationacademy.ufl.edu/media/innovationacademyufledu/pdfs/academics/majors/business/BA.GBS_19-20.pdf)

FINANCE
The Bachelor of Science in Business Administration-Finance degree program provides a broad overview of the functional areas of business with an emphasis in finance. Students take foundation courses in economics, mathematics, computing skills and accounting; core courses that relate to the basic functions of business, such as finance, management, marketing and operations management; and major courses that develop students' financial decision-making skills.

Semester Plan (https://innovationacademy.ufl.edu/media/innovationacademyufledu/pdfs/academics/majors/business/BA.FIN_19-20.pdf)

INFORMATION SYSTEMS
The Bachelor of Science in Business Administration–Information Systems degree program provides a broad overview of the functional areas of business with an emphasis in information systems. Students take foundation courses in economics, mathematics, computing skills and accounting; core courses that relate to the basic functions of business, such as finance, management, marketing and operations management; and major courses that focus on the computing, quantitative and application skills that are vital to a business problem-solving setting.

Semester Plan (https://innovationacademy.ufl.edu/media/innovationacademyufledu/pdfs/academics/majors/business/BA.IST_19-20.pdf)

MANAGEMENT
The Bachelor of Science in Business Administration-Management degree program provides a broad overview of the functional areas of business with an emphasis in management. Students take foundation courses in economics, mathematics, computing skills and accounting; core courses that relate to the basic functions of a business, such as finance, management, marketing and operations management; and major courses that teach students how to plan and execute the conception, pricing, promotion and distribution of products and manage customer relationships in ways that benefit organizations and their stakeholders.

Semester Plan (https://innovationacademy.ufl.edu/media/innovationacademyufledu/pdfs/academics/majors/business/BA.MGT_19-20.pdf)

MARKETING
The Bachelor of Science in Business Administration-Marketing degree program provides a broad overview of the functional areas of business with an emphasis in marketing. Students take foundation courses in economics, mathematics, computing skills and accounting; core courses that relate to the basic functions of a business, such as finance, management, marketing and operations management; and major courses that teach students how to plan and execute the conception, pricing, promotion and distribution of products and manage customer relationships in ways that benefit organizations and their stakeholders.

Semester Plan (https://innovationacademy.ufl.edu/media/innovationacademyufledu/pdfs/academics/majors/business/BA.MKG_19-20.pdf)
Design, Construction and Planning, College of Sustainability & The Built Environment

The Bachelor of Science in Sustainability and the Built Environment allows students to explore creative solutions for the planning, design and construction of human structures and settlements.

Semester Plan (https://innovationacademy.ufl.edu/media/innovationacademyufledu/pdfs/academics/majors/design-construction-and-planning/AR.SBE_19-20_SN-(002).pdf)

Education, College of Education Sciences

The education sciences major promotes an understanding of education and learning systems, policy, and outcomes in traditional and non-traditional contexts. This degree prepares individuals for a variety of career paths and for graduate school.

Semester Plan (https://innovationacademy.ufl.edu/media/innovationacademyufledu/pdfs/academics/majors/college-of-education/EDS_18-19_SN.pdf)

Engineering, Herbert Wertheim College of Engineering

COMPUTER SCIENCE

The computer science program combines a strong engineering-oriented technical basis with a flexible interdisciplinary component and an emphasis on communication skills. This flexibility will be increasingly important in the future as computers become more important tools in an ever-increasing number of disciplines.

Semester Plan (https://innovationacademy.ufl.edu/media/innovationacademyufledu/pdfs/academics/majors/engineering/EG.CS_19-20_SN.pdf)

DIGITAL ARTS AND SCIENCES

The Digital Arts and Sciences degree is a core computer science degree with special emphasis on human-centered computing, which includes art, design and computing courses that are related to digital media, interaction and communication. Graduates will be well versed in issues and solutions for basic art techniques and graphic art design as well as modeling 3D virtual worlds.

Semester Plan (https://innovationacademy.ufl.edu/media/innovationacademyufledu/pdfs/academics/majors/engineering/EG.DAS_19-20_SN.pdf)

Journalism and Communications, College of Journalism

ADVERTISING

The Agency curriculum emphasizes skills that are necessary for entry-level positions in an advertising agency and is designed to provide a foundation for advancement to positions of leadership in these organizations. This specialization introduces the concepts and skills needed to prepare for careers in account management, account planning, media planning, research, art direction, and copywriting. All students in the Advertising Campaigns course are required to complete a program-level assessment.

Semester Plan (https://innovationacademy.ufl.edu/media/innovationacademyufledu/pdfs/academics/majors/journalism-and-communications/IA-ADV-AGENCY_19-20_YBS.pdf)

The Persuasive Messaging curriculum focuses on the skill set required to engage media audiences through the use of strategic, persuasive communications. The specialization emphasizes the concepts and application of audience and media analytics, advertising sales, brand storytelling, and message persuasion. The specialization prepares students for careers in a broad array of industries and organizations.

Semester Plan (https://innovationacademy.ufl.edu/media/innovationacademyufledu/pdfs/academics/majors/journalism-and-communications/Persuasive_Messaging.pdf)

JOURNALISM

The Department of Journalism consistently ranks among the best journalism programs in the country. It is housed in a college professionally accredited by the Accrediting Council for Education in Journalism and Mass Communication. The department's mission is to teach the art and craft of journalism and to foster an appreciation for accuracy, fairness, truth and diversity.

Semester Plan (https://innovationacademy.ufl.edu/media/innovationacademyufledu/pdfs/academics/majors/journalism-and-communications/JM.JM_19-20_SN.pdf)

PUBLIC RELATIONS

Public relations is designed to prepare students for entry-level jobs as technicians (for example, producing news releases), as well as for career advancement as managers (for example, formulating communication strategy for a new initiative). Excellent writing skills are essential.

Semester Plan (https://innovationacademy.ufl.edu/media/innovationacademyufledu/pdfs/academics/majors/journalism-and-communications/Public_Relation.pdf)

TELECOMMUNICATION

The Department of Telecommunication consistently ranks among the top five in the United States and is accredited by the Accrediting Council for Education in Journalism and Mass Communication.

Media & Society focuses on the theories, methods and techniques used to play, produce and distribute audio and video programs and messages; personnel and facilities management; marketing and distribution; media regulations, law and policy; and principles of broadcast technology. It
Innovation Academy prepares individuals to work in media organizations and those organizations that use electronic media, such as political campaigns, government, education and business.

Digital Film & Television Production prepares students for careers in program creation, writing and the creative applications of video and audio technology.

Management & Strategy prepares students to enter the profession through positions in research, sales, and marketing and promotion.

Liberal Arts and Sciences, College of

AFRICAN AMERICAN STUDIES
The primary emphasis of the African-American studies program is to educate students about the theories and methodologies pertaining to the study of African-Americans. Students will be able to compare and contrast the experiences of people of African descent in the U.S. to those in the wider African Diaspora. They will also learn through participation in community-service activities. After obtaining a degree in African-American studies, students can seek careers as archivists, attorneys, civil rights professionals, community organizers, government employees, librarians, public policy professionals, professors, teachers and researchers.

ANTHROPOLOGY
Anthropology is the study of people in their cultural context and the examination of all aspects of patterned social behavior. The discipline is worldwide in scope and encompasses all aspects of human biological and social life from earliest times to the present. It is a broad, holistic field that seeks to understand human adaptation to natural and social environments.

B.A. Anthropology: Semester Plan

B.S. Anthropology: Semester Plan

BIOLOGY
The College of Liberal Arts & Sciences offers a biology major that allows students to develop a broad, integrative background in the biological sciences.

Pre-Professional is for students who wish to pursue admission to professional healthcare graduate programs.

CHEMISTRY
Chemistry is often called the central science because of the pivotal role it plays in the biological and physical sciences, and in engineering, agriculture, medicine and allied health disciplines. Bachelor's degree chemists choose from diverse paths for their short-term and lifetime careers, including graduate study in a variety of programs, rewarding employment in industry or government laboratories, professional or law school, or much-needed teaching in high schools.

ENGLISH
Undergraduate study in English prepares students for diverse careers in law, publishing, advertising, media and business, teaching and advanced degree work. Courses offered by the department introduce students to a world of experiences that cannot be exhausted in the brief span of a college education; new authors, new works, new media, and new tools for understanding continually enlarge and transform the world.

GEOGRAPHY
Geography is the science of place, space, and environment. Each place on earth is distinguished by a unique mix of natural resources, cultural practices, and socioeconomic and political systems. Geographers study what makes each place unique, as well as the connections and interactions between places.

B.A. in Geography is best suited for students interested in careers in urban and regional planning, business geography, medical geography, and geographic education, or for students who want a broad overview of the discipline with a focus on human geography.
**B.A. in Medical Geography in Global Health** is intended for students interested in social and cultural aspects of medical geography and global health and disease issues. The degree focuses on human impacts, cultural and social aspects of health and disease, and public health planning and management.

Semester Plan (https://innovationacademy.ufl.edu/media/innovationacademyufl.edu/pdfs/academics/majors/liberal-arts-and-sciences/GEO.BA.MPH_19-20_SN.pdf)

**B.S. in Medical Geography in Global Health** is best suited for someone who wishes to pursue a career in public or animal health or disease management or graduate work in medical geography, public health or related natural sciences, including ecology, biology, or epidemiology/public health. This specialization offers the flexibility for students to prepare for admission to health professions programs.

Semester Plan (https://innovationacademy.ufl.edu/media/innovationacademyufl.edu/pdfs/academics/majors/liberal-arts-and-sciences/GEO.BS.MPH_19-20_SN.pdf)

**HISTORY**

The history department fosters a learning experience that stands apart from newer modes of instruction at large universities. Amid the shift to larger classes, televised lectures and machine-gradable exams, history faculty have chosen to follow a more traditional path. The department’s emphasis on small courses, analytical reading, lively debate and interpretative writing offers committed students unique rewards. It also comes with high expectations.

Semester Plan (https://innovationacademy.ufl.edu/media/innovationacademyufl.edu/pdfs/academics/majors/liberal-arts-and-sciences/HY_19-20_SN.pdf)

**MATHEMATICS**

Studying mathematics develops such skills as critical thinking, oral and written communication, arguing logically and rigorously, thinking abstractly, formulating and solving problems, analyzing data, analyzing mathematical models, quantitative and computer proficiency, and the ability to work in groups. Employers value these skills; consequently, math majors find themselves in demand by employers for careers in a wide spectrum of fields.

Semester Plan (https://innovationacademy.ufl.edu/media/innovationacademyufl.edu/pdfs/academics/majors/liberal-arts-and-sciences/MS_19-20_SN.pdf)

**POLITICAL SCIENCE**

The political science major is intended for students who wish to pursue a career in or near the public sector. Students take coursework in areas as diverse as American and comparative politics, political theory, international relations, public policy and public administration.

Semester Plan (https://innovationacademy.ufl.edu/media/innovationacademyufl.edu/pdfs/academics/majors/liberal-arts-and-sciences/PCL_19-20_SN.pdf)

**PSYCHOLOGY**

Psychology is the science of human and animal behavior. Psychology majors receive a broad science-based liberal arts education. As a result, those with a B.S. in psychology are widely sought in business, education and mental health fields. For a professional career in psychology, a graduate degree is needed.

General Psychology requires courses in four core areas within the discipline as well as elective psychology courses.

Semester Plan (https://innovationacademy.ufl.edu/media/innovationacademyufl.edu/pdfs/academics/majors/liberal-arts-and-sciences/PSY_19-20_SN.pdf)

Behavior Analysis focuses more specifically on natural science-oriented psychology courses and how the environment around an organism can be modified to change behavior.

Semester Plan (https://innovationacademy.ufl.edu/media/innovationacademyufl.edu/pdfs/academics/majors/liberal-arts-and-sciences/PSY.BehAn_19-20_SN.pdf)

Behavioral and Cognitive Neuroscience focuses on natural science-oriented psychology courses and allows students to take limited approved non-psychology courses relevant to contemporary neuroscience.

Semester Plan (https://innovationacademy.ufl.edu/media/innovationacademyufl.edu/pdfs/academics/majors/liberal-arts-and-sciences/PSY.BCN_19-20_SN.pdf)

**SOCIOLOGY**

Sociology is the study of social life and the social causes and consequences of human behavior. Sociologists examine the structure of groups, organizations and societies and how people interact within these contexts. Sociologists use diverse research methods and many unique perspectives to analyze virtually any social issue.

Semester Plan (https://innovationacademy.ufl.edu/media/innovationacademyufl.edu/pdfs/academics/majors/liberal-arts-and-sciences/SYG_19-20_SN.pdf)

**Additional Minors and Certificates**

Innovation Academy students are not limited to only completing the Innovation Minor. These minors and certificates may be completed by students enrolled full-time during the spring and summer semesters.
Students who choose to pursue an additional minor must complete the application to add a minor. (https://registrar.ufl.edu/pdf/minorapp.pdf)

Pre-Health
There are many students in the IA program who plan to go on to a graduate program in the health professions such as medical school, dental school, or one of the many other health profession programs available. Students are encouraged to explore all options if they are interested in a career in the health professions.

What Major Should be Chosen?
Professional schools have no preference for any particular type of major. While students can be almost any major and be pre-health, there are a few IA majors that include some or all of the required prerequisite courses that students may wish to consider.

These majors include, but are not limited to:
• Biology | Pre-professional
• Chemistry
• Entomology
• Plant Science

Regardless of the major, it’s important to work closely with academic advisors to develop a plan for the completion of your major, the IA minor, and pre-health prerequisite courses.

What are the prerequisite courses?
Most professional schools including medical, dental, veterinary, optometry, and pharmacy require at a minimum:

• One year of General Chemistry: CHM 2045 and CHM 2046 with labs
• One year of Organic Chemistry: CHM 2210, CHM 2211, and CHM 2211L
• One semester of Biochemistry: BCH 4024 or CHM 3218
• One year of General Biology: BSC 2010 and BSC 2011 with labs
• One year of Physics: PHY 2053 or PHY 2048 and PHY 2054 or PHY 2049 with labs
• One year of English
• One year of Math: Calculus and Statistics

Please refer to the Prerequisite chart (http://www.advising.ufl.edu/docs/PreHealthRequirements.pdf) on the pre-health website for additional requirements for each profession. For additional pre-health forms and handouts please visit the Academic Advising Center (https://www.advising.ufl.edu/pre-health/pre-health-resources/forms-handouts/). You should also always check the requirements for the individual schools you may be applying to.

What are some things pre-health students in the IA program should consider?
• Use Fall semesters to get in-depth volunteer or shadowing experiences. If the student is in their hometown, it is a great opportunity to shadow a family physician (dentist, veterinarian, etc.) or volunteer in a local hospital or assisted-living facility. Shadowing professionals in different areas of healthcare allows exploration of all of available options.
• Consider studying abroad in a future Fall semester. Health-care professionals need to be culturally competent and living abroad for a semester can teach about other cultures, practice language skills, and enhance a student’s world view.
• Attend the Pre-Health session at Preview, watch the Pre-Health 101 workshop on the Pre-Health website (http://www.advising.ufl.edu/prehealth/), and join the Pre-Health listserv (http://www.advising.ufl.edu/pre-health/services/pre-health-listserv/).
• Meet with a Pre-Health advisor in the Academic Advising Center during the first Spring term. They can help you develop an academic plan that includes the prerequisite courses for your profession.

Map (http://campusmap.ufl.edu/?loc=0054) More Info (http://www.warrington.ufl.edu/accounting/)

**Established**

1933. Endowed in 1985 through a gift from alumnus Frederick E. Fisher.

**Rankings**

**Accredited**

The Association to Advance Collegiate Schools of Business (AACSBI) International.

**Programs**

Four-year undergraduate program, five-year 3/2 program with joint award of bachelor’s and master’s degrees in accounting.

**Degrees**

Bachelor of Science in Accounting (BSAc), Master of Accounting (MAcc).

**Scholarships**

Fifth-year accounting students completing the Master of Accounting should obtain scholarship applications from the Fisher School and complete them early in the spring term of their fourth year. Limited junior scholarships may also be available. Contact the Fisher School for more information. General financial aid information is available from the Office of Student Financial Aid and Scholarships.

**Academic Policies**

*The information provided in this catalog is necessarily brief. In addition to the information herein, students are responsible for compliance with the policies and procedures described in the Fisher School of Accounting Student Handbook and Freshman/Sophomore Guide. More Info (https://warrington.ufl.edu/accounting-current-students/bachelor-of-science-in-accounting/)*
Admission Requirements

Submitting an Undergraduate Application

UF students who have selected accounting as their major upon entering the university will automatically be classified as accounting students. This classification will remain as long as the student meets universal tracking and other academic requirements. Other UF students who want to change their major to accounting apply at the Fisher School office. Transfer students apply through the university’s Office of Admissions.

Junior Applicant Pool

The Fisher School of Accounting is a limited access program; it uses an applicant pool to select candidates for admission to its Bachelor of Science in Accounting program—BSAc. All applications that meet the minimum standards are placed into a pool from which the most qualified are selected for admission each term.

Admission decisions use a holistic evaluation method which considers attributes such as, but not limited to: pattern of repeated coursework, drops, withdrawals, general education deficiencies, the rigor of elective coursework completed, and the academic reputation of the program attended (its accreditation and affiliation with the Florida SUS system).

Due to limited capacity, it is unlikely that all candidates who meet the minimum standards for inclusion into the applicant pool will be admitted. Historically, a 3.5 overall and a 3.5 preprofessional, or higher, grade point average are required to be a competitive candidate for admission, but the actual admission profile varies annually. Average GPAs for previously admitted junior transfer cohorts can be found on the Demographics section of the Fisher School of Accounting website. It is critical to note that admission decisions are not based exclusively on grades. Serious candidates are encouraged to complete additional coursework in mathematics such as Calculus 2 (MAC 2234 or MAC 2312).

Minimum Standards for Inclusion in the Undergraduate Applicant Pool

- Meet the Office of Admissions minimum requirements for junior transfers.
- Completion of, or in the process of completing, at least 60 semester credits of transferable coursework from an accredited institution.
  - Applicants from Florida state and community colleges are required to complete their Associate of Arts degree before enrollment in the Fisher School of Accounting. Florida community or state public college Associate of Arts graduates and candidates from Florida Public Universities who have successfully completed 60 semester credits of coursework, including the 36-credit general education requirement, shall receive priority for admission to limited access programs over out-of-state applicants and transfer students from Florida private institutions.
- Applicants will not be eligible for admission if they have earned 90 transferable hours.
- A 3.0 cumulative GPA calculated on all attempts of all college-level coursework.
- Official Grades for all Preprofessional Coursework.
  - Applicants should have official grades for all coursework completed at the time of the application, but if official grades for ALL preprofessional coursework described herein have not been provided by the applicable credentials deadline for the term the applicant is seeking admission, then the application will be deemed incomplete and denied without further notification from our office.
- Completion of seven preprofessional courses with a 3.0 GPA.

CLEP credit is not acceptable to replace preprofessional coursework.

- ACG 2021 Introduction to Financial Accounting and ACG 2071 Introduction to Managerial Accounting, or their equivalents, must be completed with a minimum grade of B.
  - Applicants are permitted a maximum of two attempts (including drops and withdrawals) to earn the minimum B grade required in ACG 2021 and ACG 2071. If a series of courses is taken, which upon completion is equivalent to ACG 2021, then a minimum grade of B must be achieved in each course.

- Foreign Language Tests:
  - Foreign applicants who are not exempt under university guidelines must complete the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System).
    - Minimum Scores:
      - TOEFL: Total > 100 / Listening > 26 / Writing > 17 / Reading > 20 / Speaking > 23
      - IELTS: Total > 7.0 / Listening > 7.0 / Writing > 7.0 / Reading > 7.0 / Speaking > 7.0
Admission Policies

Detailed computation of the cumulative GPA and preprofessional GPAs:

Detailed computation of cumulative GPA:

- Courses deemed vocational are not factored into the GPA computation.
- If an applicant has attended the University of Florida and another institution, the GPA calculation will be based only on the University of Florida coursework.
- Grade forgiveness is not considered when computing the GPA. All attempts of repeated courses factor into the GPA

Detailed computation of preprofessional GPA:

- Grade forgiveness is not considered when computing the preprofessional GPA.
- When an applicant is repeating a course after having earned a grade of “C”, “S”, “P” or higher, the repeat grade will not be averaged into the preprofessional GPA computation (unless the repeated grade is lower than a C). However, when ACG2021 or ACG 2071 is repeated after earning a C, C+, or B, then only the second attempt is computed in the preprofessional GPA.
- When the applicant completes two or more different courses (and each course fulfills the same preprofessional requirement), then the course used to compute the preprofessional GPA shall only include the first course completed. For example, if an applicant completes MAC 2311 with a “C”, “S”, or “P” grade and then later completes MAC 2233 receiving an “A” grade, only the grade earned in MAC 2311 will be used to compute the applicant’s preprofessional GPA.
- If a student who earned credit for a preprofessional course (or its equivalent) via high school dual enrollment chooses to repeat the course at UF, once the UF grade is posted, it will replace the grade earned via dual enrollment in the preprofessional GPA, regardless of whether the UF grade is higher or lower than the dual enrollment grade.
- If ACG 2021 or ACG 2071 (or their equivalents) are taken via high school dual enrollment, those dual enrollment courses will not count as “attempts” toward earning a B or better. In other words, students will have 2 attempts to earn the B or better after starting college.
- Aside from the above exceptions, all attempts of repeated courses will factor into the preprofessional GPA.

For students who are not offered admission to the BSAC, the State University System (SUS) website provides links to other accounting programs within the SUS.

More Info (http://www.flbog.edu/universities/)

Admission to the university does not guarantee admission to the Fisher School. Admission to the Fisher School does not constitute admission to the 3/2 program. This requires a separate application to the graduate school.

Admission requirements for the Fisher School are subject to change. Please check the Fisher School website for the current standards.

More Info (https://warrington.ufl.edu/about/fisher/)

Candidates with incomplete applications or who do not meet all minimum standards for inclusion in the applicant pool will be denied without further contact from our office.

Meeting the minimum standards as stated herein does not guarantee admission into the Fisher School. Admission is selective.

Courses Taken at Other Institutions Before Admission to the University

Professional coursework that is required as part of the third, fourth or fifth year should be taken only at the University of Florida.

A maximum of one 3000/4000-level approved business core course may count toward the student’s undergraduate degree. The student will be required to take another course in the area waived. Completion of more than one upper-division business or accounting course prior to admission will negatively affect prospects for transfer admission.

Upper-division accounting coursework taken elsewhere cannot be substituted for the accounting courses required for the BSAC degree.

Courses Taken at Other Institutions After Admission to the University

After being admitted to the Fisher School of Accounting, a student may not take any preprofessional, critical tracking, communication, accounting or business core coursework required as part of the Bachelor of Science in Accounting degree at any other institution.

Elective and general education courses may be taken outside the university only if:

- The student will have more than 30 credits left to graduate upon completion of such courses.
- The student obtains the advance approval of the undergraduate advising coordinator or Director of Degree Programs.
Distance Learning Courses
Web-based courses offered in the university schedule of courses may be taken. However, UF Online courses, distance learning or flexible learning courses offered by the Division of Continuing Education are not permitted.

Performance Policies
Satisfactory/Unsatisfactory Grade Option
An undergraduate student may request the S/U option for elective courses only. Courses taken to satisfy general education, degree requirements, or preparatory coursework for the program cannot be taken S/U. In addition, regardless of major, no course taught by the Fisher School of Accounting may be taken S/U, other than courses already scheduled to be taught as S/U only.

Unsatisfactory Performance
Students who do not make satisfactory academic progress will be dropped from the accounting program. In addition to university regulations concerning unsatisfactory performance, the school will exclude students from further registration for the following reasons:

First and Second Year Students
1. The student does not comply with the minimum universal tracking requirements.
2. Failure to comply with all additional universal tracking requirements listed in the Fisher School of Accounting Handbook and the Freshman and Sophomore Guide after one subsequent term of enrollment.
3. The student has not earned a B grade in ACG 2021 or ACG 2071 after two attempts (including drop or withdrawal).
4. The UF GPA fell below 3.0 and remained there after one subsequent term of enrollment.
5. The student has withdrawn from the university three times while classified as an accounting major.

Third and Fourth Year Students
1. The student earns two grades below a C in accounting courses numbered 3000 and above regardless of whether the student was in the Fisher School of Accounting at the time they earned those grades.
2. The student’s cumulative grade point average on all coursework completed at the University of Florida falls below 2.0 and, after one subsequent term of enrollment, this, or any other grade point average described herein, is below a 2.0.
3. The student’s cumulative upper-division grade point average falls below a 2.0 and, after one subsequent term of enrollment, this, or any other grade point average described herein, is below a 2.0.
4. The student’s accounting grade point average, calculated on all attempts of required accounting courses numbered 3000 and above, falls below 2.0 and, after one subsequent term of enrollment, this or any other grade point average described herein, is below a 2.0. If a student repeats a 3000 or above course, and earns a C or better on both attempts, only the first attempt will be calculated in this GPA.
5. The student withdraws from the university three times after admission into the Fisher School of Accounting.
6. The student fails to complete two required 3000 level and above accounting course in one academic year, defined as Fall, Spring, Summer (or Spring, Summer, Fall for Innovation Academy Students). The following exceptions apply:
   a. If no courses for which the student is eligible are offered over the Summer, the student will be granted an additional semester to complete a course.
   b. For upper-division transfer students, the academic year begins the semester the student matriculates. So, for Spring admits, the year is Spring, Summer, Fall.
   c. If the student is enrolled in a study abroad program, the student will be granted one additional semester to complete the next course.
   d. If the student is on an internship, but enrolled in UF courses, the student will be granted one additional semester to complete the next course. The student must either be enrolled in an internship course or provide documentation of the internship.

For purposes of all of the above policies, the following rule applies to the definition of a term:
• Any term for which a student registers for a course at the University of Florida counts as a term of enrollment, even if the student subsequently withdraws from the term (after the drop/add period).
• Summer registration is viewed as registration for one term, (e.g., whether a student registers for Summer A alone, or registers for Summer A and Summer B and C, the student is considered to have registered for one term).

Refer to the University Grades and Grading policies for a discussion on grade point average computation.

Undergraduate Drop Policies
Students are limited in the number of courses they may drop. For more information, see Dropping Courses and Withdrawals. (p. 1791)
The Director of Degree Programs, as advised by the Appeals Committee, must act upon all other drop requests. The committee is very strict when considering such requests and will not approve drops for reasons that are not clearly beyond the student’s control.

**Auditing a Course**

The Fisher School of Accounting does not permit the auditing of any accounting course.

**Helpful Links**

- Dean's List (p. 1730)
- Other Business Programs
  - UF Online (https://warrington.ufl.edu/undergraduate-academics/online-business-program/)

**Application for Graduation**

In addition to regular appointments throughout a student’s time at UF, each student should plan to see an advisor in the semester before the term they intend to graduate. This allows the student to confirm that all degree requirements will be met.

It is the student’s responsibility to apply for graduation through the degree application link on ONE.UF (https://one.uf.edu/) by the deadline (p. 1808) for that term. Failure to submit a timely application may prevent graduation.

**Requirements for Degree Certification**

To graduate with a BSAc degree, a student must have satisfactorily completed 120 credits of prescribed coursework (p. 106).

A student must also complete the following requirements:

- A minimum of 60 credits must be completed outside the Warrington College of Business and Fisher School of Accounting. Up to 6 credits of course work with a QMB prefix may count towards the requirement.
- A minimum of 60 credits of coursework for the BSAc degree must be at the 3000 level or above.
- The last 30 credits of coursework must have been completed in residence at the University of Florida.
- Must complete at least 22 credits at the 3000 level or above in required accounting courses at the Fisher School.
- Waivers received for any coursework required for the BSAc degree will not reduce the credits required for graduation.
- Graduation credits will not be given for repeated courses. In addition, the degree candidate must have the following requirements:
  - A minimum 2.0 GPA on all UF coursework.
  - A minimum 2.0 GPA on all courses taken in excess of 60 credits.
  - The above GPA's will be calculated as described in the Grades and Grading Policies. (p. 1801)
  - A minimum 2.0 GPA on all required accounting courses at the 3000 level or above.
  - For the purposes of computing this GPA, if a course is repeated after having earned a grade of C or higher, the repeat grade will not be averaged into the GPA computation (unless the repeated grade is lower than a C.)
  - Meet all university degree requirements, including General Education (p. 86), Writing Requirement (p. 1780), and Summer Term Enrollment. (p. 1789)

Accounting

The Bachelor of Science in Accounting (BSAc) is a four-year degree program that provides an excellent foundation in accounting and business. Its conceptual focus is designed to prepare students for success in a constantly evolving business environment and to prepare students for graduate studies.

About this Program

- **College**: Warrington College of Business
- **School**: Fisher School of Accounting (p. 101)
- **Degree**: Bachelor of Science in Accounting
- **Credits for Degree**: 120
- **Contact**: Email (%20fsoa@warrington.ufl.edu) | 352.273.0200 | 210 Gerson Hall (http://campusmap.ufl.edu/?loc=0054)
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

School Information

Accounting at UF traces its roots back to 1923 when the first accounting course was offered. Today, as one of the nation’s few free-standing accounting schools, the Fisher School of Accounting has cultivated a distinctive identity at the University of Florida and among the nation’s top business programs.

Curriculum

- Accounting
- Accounting Minor
- Accounting Minor UF Online
- Combination Degrees

Students enrolled in the BSAc program are eligible to submit an application for early admission to graduate school via the school’s combination 3/2 Program. Students who complete this combination program meet education requirements to sit for the Uniform Certified Public Accountant exam and to practice as a CPA in Florida.

Some students enter the Fisher School of Accounting with the intention of limiting their accounting studies at UF to undergraduate coursework. These students view the BSAc degree as providing valuable preparation for post-graduate studies in areas other than accounting, (e.g., law), or they plan to complete their graduate accounting studies at another institution. Students are cautioned that completion of the Bachelor of Science in Accounting degree alone will not satisfy the educational requirements to be licensed as a CPA in Florida.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Tracking requirements for semesters 5-8 indicate the minimum benchmarks to graduate in a timely manner. However, it is strongly recommended students complete upper-division accounting and business core courses earlier than required by Critical Tracking, especially those students interested in pursuing the Master of Accounting degree. Students should meet with an academic advisor no later than Semester 4 to begin planning for their junior and senior years. In addition, please review the BSAc degree requirements for more information on requirements for degree certification.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://cpm.flvc.org/programs/120/442/) may be used for transfer students.
About Selecting General Education Courses

- To ensure accounting students have breadth in their general education experience, 3000/4000-level business core courses may not be used to satisfy general education requirements. For example, MAN 3025 and MAR 3023 may not be used to fulfill social science and behavioral science requirements.
- The selection of general education courses in the model semester plan is intended as a guide. Accounting students may vary their choice of general education courses, providing the selection of coursework complies with all university requirements. For additional information, refer to the General Education Program (https://cpm.flvc.org/programs/120/442/) or meet with an undergraduate advisor.

Semester 1

- Complete 2 of the 8 critical-tracking courses: ACG 2021, ACG 2071, CGS 2531 (or ISM 3013), ECO 2013, ECO 2023, MAC 2233, MAC 2234, STA 2023
- 3.0 GPA required on all attempts of preprofessional courses
- 3.0 UF GPA required

Semester 2

- Complete 2 additional courses of the 8 critical-tracking courses (1 of the 4 courses must be MAC 2233 or equivalent)
- 3.0 GPA required on all attempts of preprofessional courses
- 3.0 UF GPA required

Semester 3

- Complete 2 additional courses of the 8 critical-tracking courses (1 of the 6 courses must be ACG 2021 with a minimum grade of B)
- 3.0 GPA required on all attempts of preprofessional courses
- 3.0 UF GPA required

Semester 4

- Complete all 8 critical-tracking courses (ACG 2071 must be completed with a minimum grade of B)
- Complete general education and the university writing requirements
- 3.0 GPA required on all attempts of preprofessional courses
- 3.0 UF GPA required

Semester 5

- Complete one of ACG 3101 or ACG 3401 with a C or better
- Complete 2 of the 8 business core courses: BUL 4310, FIN 3403, GEB 3373, MAN 3025, MAN 4504, MAR 3023, QMB 3250, QMB 3302
- 3.0 GPA required on all attempts of preprofessional courses
- 3.0 UF GPA required

Semester 6

- Complete ACG 3101 and ACG 3401 with a C or better
- Complete 4 of the 8 business core courses, including FIN 3403 and QMB 3250
- 2.0 GPA required on all accounting courses number 3000 and above
- 2.0 upper-division GPA required (all courses taken after the student earned 60 credits)
- 2.0 UF GPA required

Semester 7

- Complete ACG 4111 and ACG 4341 with a C or better
- Complete 7 of the 8 business core courses
- 2.0 GPA required on all accounting courses number 3000 and above
- 2.0 upper-division GPA required (all courses taken after the student earned 60 credits)
- 2.0 UF GPA required

Semester 8

- Complete ACG 4632 (or ACG 5637 and ACG 5647)
- Complete TAX 4001 (or TAX 5025 and TAX 5027)
- Complete all 8 business core courses
• Complete all other degree requirements
• 2.0 GPA required on all accounting courses number 3000 and above
• 2.0 upper-division GPA required (all courses taken after the student earned 60 credits)
• 2.0 UF GPA required

**Model Semester Plan**

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

**Important Note**

This plan assumes that the student does NOT intend to complete the Master of Accounting (MAcc) program. Students who are considering the MAcc program should progress more quickly through the coursework, and are strongly advised to meet with an academic advisor to discuss their plans prior to the end of Semester 4.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

Academic Learning Compact

The major offers a balanced, intellectually vibrant study of accounting. Upon completion of the baccalaureate program, students will possess the requisite accounting skills for entry-level positions in the practice of public accounting, in industry, in financial services, in government and in business more generally. Students also will be prepared for graduate study in accounting, in business and in related professions such as the law. More broadly, students will be prepared for success in a constantly evolving global economy.

Before Graduating Students Must

- Take the Business Field Test as prepared and administered by the Educational Testing Service (ETS). The score will be incorporated into a core business course taken in the final term.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Describe individual business disciplines and their relationship to the global business environment.
2. Prepare financial statements based upon generally accepted accounting principles.
3. Identify basic U.S. tax laws applicable to businesses and individuals.
4. Explain the attestation function and describe generally accepted auditing standards.
5. Describe the basic concepts of cost and managerial accounting and explain its role in business.

Critical Thinking
6. Apply mathematical concepts and technology to interpret, understand and communicate quantitative data.
7. Apply the conceptual framework, economic reasoning and generally accepted accounting principles to solving accounting problems.
8. Analyze and interpret economic and financial events for internal decision-making purposes.
9. Attest to the fairness of financial representations and to the adequacy of internal controls.
10. Prepare basic individual and business tax returns and apply U.S. tax laws for tax planning purposes.

Communication
11. Effectively produce, interpret and analyze written text, oral messages and multimedia presentations used in business.

### Accounting Minor

The Accounting minor is open to all non-accounting students, offering a strong foundation in financial and managerial accounting beyond the introductory level.
About this Program

• **College:** Warrington College of Business
• **School:** Fisher School of Accounting (p. 101)
• **Credits:** 24
• **Contact:** Email (%20fsoa@warrington.ufl.edu) | 352.273.0200 | 210 Gerson Hall (http://campusmap.ufl.edu/?loc=0054)

School Information

Accounting at UF traces its roots back to 1923 when the first accounting course was offered. Today, as one of the nation's few free-standing accounting schools, the Fisher School of Accounting has cultivated a distinctive identity at the University of Florida and among the nation's top business programs.

GAINESVILLE FL 32611-7166
Map (http://campusmap.ufl.edu/#/index/0054)

Curriculum

• Accounting
• Accounting Minor
• Accounting Minor UF Online
• Combination Degrees

With the increasingly interdisciplinary model used by businesses, completion of the minor broadens career opportunities and increases the student’s marketability. With careful course selection, completion of the minor will accrue enough accounting credits for students from any major to apply for direct admission to the Master of Accounting program upon completion of the undergraduate degree.

Required Courses

</tbody>
</table>

1. Prereq: sophomore standing.
2. Prereq: ACG 2021
3. Prereq: ACG 2021 and ACG 2071 with minimum grades of B.
4. Prereq: ACG 2021 and ACG 2071 with minimum grades of B; CGS 2531 or ISM 3013.
5. Prereq: ACG 3101 with minimum grade of C, FIN 3403.
6. Prereq: ACG 3101 and ACG 3401 with minimum grades of C, MAC 2234 and QMB 3250.

Additional Requirements

• All 3000-level and above coursework must be completed at the University of Florida.
• All course and grade prerequisites must be satisfied. Because the prerequisites for some upper-division accounting courses include business courses not included herein, non-business majors typically have to complete additional business courses to complete this minor.
• A minimum grade of C is required for each course in the minor, except for ACG 2021 and ACG 2071, which require a minimum grade of B.
• With advanced approval from the associate director, additional 3000-level or above accounting courses may be substituted for the requirements listed above.
Accounting Minor UF Online

The Accounting minor is open to all non-accounting students in UF Online, offering a strong foundation in financial and managerial accounting beyond the introductory level.

Academic Advising

Each major has an undergraduate coordinator and faculty and staff advisors. Students see advisors in their majors for academic advising. More Info (http://cals.ufl.edu/students/undergraduate-majors-contacts.php)

Internships and Career Guidance

The college’s director of Alumni and Career Services assists students with interview preparation and job search resources. The college also sponsors CALS Career Expo in February.

Scholarships

The college provides nearly $400,000 annually in undergraduate scholarships. Applications are available in December. College scholarship applications are typically due on or before March 15 of each year. For more information, contact the college dean’s office. Many departments also offer undergraduate scholarships. More Info (http://cals.ufl.edu/students/scholarships.php)

Academic Policies

Admission | Freshmen

First-semester freshmen at the university will be admitted to the college when they declare a major. Students can remain in that major as long as they continue to meet or to exceed the critical-tracking criteria for the major. Students who fall below the minimum critical-tracking criteria or who fall below the minimum progression standards will not be allowed to continue in the major. These students must meet with an academic advisor to determine an alternative major.

Admission | Non-Freshmen

All UF students other than first-semester freshmen must apply to a major in this college. Students should first meet with an advisor in their major of interest. Unless otherwise specified by particular majors, students will be admitted to the major if they meet or exceed the critical-tracking criteria.
Readmission to the College
CALS students who have been dismissed from the university for poor academic performance can petition UF and the college for readmission after one semester.

Transfer Students
A transfer student from a Florida public college must have an Associate of Arts degree (or 60 credits for students transferring from private institutions, four-year institutions or institutions outside of Florida) and satisfy the admission requirements for the intended major to be eligible for admission to the college. Prospective transfer students should consult the College of Agricultural and Life Sciences Transfer Guide to ensure completion of the required courses for admission to the college and the major of interest.

More Info (https://cals.ufl.edu/content/PDF/Transfer_Guide.pdf)

Detailed information on transfer admission and university admission requirements is available from the Office of Admissions.

More Info (p. 29)

Transfer students from other universities and non-Florida public colleges should complete the first two years’ requirements for the major before transferring to UF and to this college.

Student Responsibility
Students are expected to assume full academic responsibility for registering for and completing the proper courses and for fulfilling all requirements for the degree. Students should consult their advisors before registering for each semester to ensure that appropriate courses are taken in the proper sequence. Students who do not enroll in appropriate courses may not be allowed to register for the following term.

College Probation
A student whose overall grade point average falls below 2.0 is placed on college probation. The associate dean will notify the student that they are on probation and must remove all deficit points in two semesters or face college suspension.

During college suspension a student cannot register as a College of Agricultural and Life Sciences student.

College Retention Program
The college works individually with students on college probation to provide them an opportunity for academic success at the university. The retention program identifies obstacles that could prevent academic success, provides structure and mechanisms for success and connects students to administrators, faculty and staff who are committed to helping them.

Critical-Tracking Criteria
Students who do not complete the appropriate number of tracking courses each semester, and/or do not have the required tracking GPA, will have a hold placed on their record to prevent advance registration. They must meet with an advisor in their major to determine whether they may continue in that major.

Drop Policy
Students can drop courses during the drop/add period without penalty. Thereafter, courses can be dropped only by college petition in accordance with the deadlines. Drops requiring college petition are subject to the following rules:

- After the university's drop deadline, students must first meet with an academic advisor in their major and then submit a petition to the college office.
- Students who withdraw from UF (drop all courses) must go to the Dean of Students Office, 202 Peabody Hall, to meet with an advisor.

General Education
Courses that satisfy general education requirements are listed by category. The courses listed represent the most expedient way to fulfill graduation requirements. However, students can satisfy degree requirements with alternative course sequences. An economics course is required for all students and this course may also meet general education requirements.

The college requires all students to complete courses in oral and written communication in addition to the general education requirements. In majors where an equivalency is permitted, students should see their advisors for approved alternative courses. When majors list specific courses, students must select courses from the list.

Internships
By prior arrangement with an advisor and with supervision, a student may receive credit for practical work experience relevant to the major. Credit is earned at the rate of one credit per month of full-time work and cannot exceed three credits in any combination of work experience. A written report
must be submitted before a (S or U) grade will be issued. Academic units offering this option list the course number 4941. Minimum criteria and
general guidelines are available from the undergraduate coordinator for the major.

College Honors Program

The CALS honors program is for students who have completed 60-90 credits and have a 3.75 or higher overall GPA.
More Info (http://cals.ufl.edu/students/honors-program.php)

CALS honors coursework integrates with required and elective courses in the student’s chosen curriculum. To graduate as a CALS honors scholar,
students must complete each requirement below and maintain a minimum upper-division GPA of 3.75.

- ALS 3923
- XXX 4915 Honors Thesis Research (3 credits)
- Two additional honors courses
- Honors thesis. Thesis projects are scholarly activities in teaching, research or extension that involve guided independent work. The student’s
  project must have clear objectives and expected outcomes.

CALS honors coursework is identified as such on the transcript. Students who complete the program successfully are designated CALS honors scholars
and receive a scholar’s medallion and certificate.

Completion of the CALS honors program automatically qualifies students for graduation with magna cum laude or summa cum laude designation.

Students who are not in the CALS honors program can still graduate magna cum laude or summa cum laude, provided they have the necessary GPA and
complete the honors thesis.

For additional information, contact the CALS honors program director at 352.392.1963.

Helpful Links

- Dean's List (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#deanslisttext)

Degree Requirements

A Bachelor of Science or Bachelor of Arts degree requires a minimum of 120 credits. In addition, students must have university and junior/senior-level
minimum GPAs of 2.0.

Students must complete the general education and major requirements in effect at the time of their initial enrollment at UF.

Seniors must file an online application for degree with the Office of the University Registrar early in the semester in which they expect to graduate.
More Info (http://www.registrar.ufl.edu/currents/degreeapp.html)

Graduating with Honors (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonorstext)

Residence

The College of Agricultural and Life Sciences requires completion of 60 semester credits or more of coursework at the university for award of a
baccalaureate degree. Some coursework can be taken at other accredited four-year institutions with approval of the college.

The last 30 semester credits applied toward a degree must be completed in residence in the college. In special cases, the college can waive this
requirement.

Students can complete six of the required 30 credits of residence work by flexible learning, but each course must be approved in advance by the
undergraduate coordinator for the major and by the college. The college will not accept flexible credit unless a student has a minimum upper-division
GPA of 2.0 in all work attempted in residence.

Programs

MAJORS

The college's majors encompass agricultural sciences, natural sciences, social sciences, life sciences and preprofessional studies. Programs in the college
prepare students for professional studies in dentistry, law, medicine, pharmacy, and veterinary medicine as well as graduate study.

**UF ONLINE MAJORS**

- Environmental Management in Agriculture and Natural Resources | Interdisciplinary Studies UF Online
- Microbiology and Cell Science UF Online

**Statewide Academic Programs**

Recognizing the needs of nontraditional students, the university offers several Bachelor of Science degree programs at the following locations or via distance education:

- Apopka (http://mrec.ifas.ufl.edu/) | Plant science
- Fort Lauderdale (http://flrec.ifas.ufl.edu/) | Geomatics, plant science
- Milton (http://wfrec.ifas.ufl.edu/) | Natural resource conservation, plant science
- Plant City (http://gcrec.ifas.ufl.edu/pcc/) | Agricultural education and communication, food and resource economics, and geomatics
- Online | Environmental management in agriculture and natural resources (p. 220), microbiology and cell science (p. 329)

Students must first earn an A.A. degree from a Florida public college or 60 credits from another accredited institution, complete specific prerequisite courses, meet a specific GPA requirement and apply for admission to UF. After being accepted, students can pursue a Bachelor of Science without moving to Gainesville.

These students are also eligible for UF and CALS scholarships. UF faculty members teach and advise all students, and upon completion of the program requirements, UF confers the degree.

Courses in these programs are also available to the general public for continuing education.

**Preprofessional Programs**

Several CALS majors have specializations that help students complete the preprofessional requirements for admission to the colleges of dentistry, law, medicine, pharmacy and veterinary medicine.

- Students preparing for law careers can select any major in the college.
- Specializations in animal sciences, biology, botany, entomology and nematology, food science, microbiology and cell science, nutritional sciences, and wildlife ecology and conservation prepare students for programs in medicine, dentistry, veterinary medicine, optometry and pharmacy.
- Biology majors and nutritional sciences majors are eligible for the Junior Honors Medical Program.
- Qualified students can apply to the honors combination BS/DMD program in the College of Dentistry after one semester in their freshman year at UF. This program helps highly motivated students complete the bachelor’s degree and D.M.D. in a shorter time than the two traditional programs. Participants major in microbiology and cell science or nutritional sciences. Both majors provide the science foundation required for dental school. More Info (http://dental.ufl.edu/admissions/dmd-program/honors-combined-bs-dmd-program/)
Agricultural and Natural Resource Communication Minor

Open to all students, the Agricultural and Natural Resource Communication minor provides an opportunity to gain a basic understanding of and to develop a skill level for communication techniques in agriculture and natural resources.

About this Program

- **College**: Agricultural and Life Sciences (p. 113)
- **Credits**: 15 | Completed with a minimum cumulative 2.5 GPA for courses in the minor

Department Information

The UF/IFAS Department of Agricultural Education and Communication is a group of faculty, staff and students committed to connecting people with agriculture through agricultural communication, education, leadership development and Extension education.

Agricultural Education and Communication

With a focus on disseminating scientific knowledge, agricultural education and communication professionals empower communities to gain a balanced understanding of food systems, natural resources, and related sciences. Agricultural Education and Communication students supplement core technical agriculture courses with teaching, leadership, or media experiences.

About this Program

- **College:** Agricultural and Life Sciences (p. 113)
- **Degree:** Bachelor of Science
- **Specializations:** Agricultural Education (p. 123) | Communication and Leadership Development (p. 127)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The UF/IFAS Department of Agricultural Education and Communication is a group of faculty, staff and students committed to connecting people with agriculture through agricultural communication, education, leadership development and Extension education.

Map (http://campusmap.ufl.edu/#/index/0012)

Curriculum

- Agricultural and Natural Resource Communication Minor
- Agricultural Curriculum and Development Minor
- Agricultural Education and Communication
- Combination Degrees
- Extension Education Minor
- Leadership Minor

Two specializations are offered: agricultural education, and communication and leadership development. Each requires core technical agriculture courses and preprofessional education. Department advisors help students in selecting appropriate electives.

Agricultural Education

With a focus on disseminating scientific knowledge, agricultural education and communication professionals empower communities to gain a balanced understanding of food systems, natural resources, and related sciences. Agricultural Education and Communication students supplement core technical agriculture courses with teaching, leadership, or media experiences.

Communication and Leadership Development

With a focus on disseminating scientific knowledge, agricultural education and communication professionals empower communities to gain a balanced understanding of food systems, natural resources, and related sciences. Agricultural Education and Communication students supplement core technical agriculture courses with teaching, leadership, or media experiences.
Academic Learning Compact

Students will learn the knowledge and skills needed to educate individuals, enhance leadership in communities and organizations and communicate ideas and issues to different audiences. Through formal courses and internship experiences, students will learn to apply principles of communication and educational theory to work-based settings; to create, interpret and analyze written and oral messages and multimedia presentations used in agricultural and life sciences; and to educate and communicate agricultural issues effectively to various audiences.

Before Graduating Students Must

- Agricultural education specialization: Achieve a passing grade on the state of Florida's Professional Knowledge Exam for teacher certification.
- Communication and leadership development specialization: Achieve a minimum grade of C in AEC 4052, the communication and leadership development capstone experience, as evaluated by a committee of faculty.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C.
- Achieve a minimum grade of C in a department internship course (AEC 4942, AEC 4943, AEC 4944 or AEC 4948) or a capstone experience course (AEC 4052).
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe, explain and apply fundamental pedagogical concepts, skills and processes.
2. Describe, explain and apply fundamental concepts, skills and processes in technical agriculture.

Critical Thinking

3. Analyze and apply data from multiple assessments and measures to diagnose students' learning needs, inform instruction based on those needs and drive the learning process.
4. Critique and assess data-informed research to improve instruction and student achievement.

Communication

5. Demonstrate written communication forms in a manner appropriate in agricultural education.
6. Develop oral communication presentations in a manner appropriate in agricultural education.

Curriculum

• Agricultural and Natural Resource Communication Minor
• Agricultural Curriculum and Development Minor
• Agricultural Education and Communication
• Combination Degrees
• Extension Education Minor
• Leadership Minor

The agricultural education specialization provides the basic courses for agricultural teacher certification in Florida. Students must have a minimum 2.5 GPA to enter the teacher education specialization and, during their first semester, attain a passing score on the general knowledge portion of the FTCE. An internship is required for this specialization. In addition, graduates must apply to the Florida Department of Education for certification.

This specialization is also offered at the Gulf Coast Research and Education Center in Plant City, Fla.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites ([http://www.flvc.org/cpp/displayRecord.jsp?cip=131301&track=01](http://www.flvc.org/cpp/displayRecord.jsp?cip=131301&track=01)) may be used for transfer students.

**Semester 1**

• Complete 2 of 4 critical-tracking courses, excluding labs: AEC 3030C (or equivalent), BSC 2005, BSC 2005L (or any GE-B or P laboratory), EDF 3110 (or equivalent) and MAC 1140 (or equivalent)
• 2.5 GPA required for all critical-tracking courses
• 2.5 UF GPA required
Semester 2
- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.5 UF GPA required

Semester 3
- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.5 UF GPA required

Semester 4
- Complete all lower division critical-tracking courses, including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5
- Complete one of the remaining upper division critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6
- Complete two of the remaining upper division critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 7
- Complete three of the remaining upper division critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 8
- Complete all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

**Model Semester Plan**

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

**Total Credits**

- Total Credits: 120
- Total agricultural or life sciences courses required: 30 credits in at least four areas.
Academic Learning Compact

Students will learn the knowledge and skills needed to educate individuals, enhance leadership in communities and organizations and communicate ideas and issues to different audiences. Through formal courses and internship experiences, students will learn to apply principles of communication and educational theory to work-based settings; to create, interpret and analyze written and oral messages and multimedia presentations used in agricultural and life sciences; and to educate and communicate agricultural issues effectively to various audiences.

Before Graduating Students Must

- Agricultural education specialization: Achieve a passing grade on the state of Florida's Professional Knowledge Exam for teacher certification.
- Communication and leadership development specialization: Achieve a minimum grade of C in AEC 4052, the communication and leadership development capstone experience, as evaluated by a committee of faculty.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C.
- Achieve a minimum grade of C in a department internship course (AEC 4942, AEC 4943, AEC 4944 or AEC 4948) or a capstone experience course (AEC 4052).
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Describe, explain and apply fundamental pedagogical concepts, skills and processes.
2. Describe, explain and apply fundamental concepts, skills and processes in technical agriculture.

Critical Thinking
3. Analyze and apply data from multiple assessments and measures to diagnose students' learning needs, inform instruction based on those needs and drive the learning process.
4. Critique and assess data-informed research to improve instruction and student achievement.

Communication
5. Demonstrate written communication forms in a manner appropriate in agricultural education.
6. Develop oral communication presentations in a manner appropriate in agricultural education.

Curriculum

- Agricultural and Natural Resource Communication Minor
- Agricultural Curriculum and Development Minor
- Agricultural Education and Communication
- Combination Degrees
- Extension Education Minor
- Leadership Minor

Communication and leadership development prepares students for entry into agribusiness and communication positions related to human resource development, strategic communication, governmental relations, media relations, corporate training and development, and non-formal education. To build the capacity of students within the CLD undergraduate specialization to serve as catalysts in society, they will take a sequence of courses in both communication and leadership to build upon individual skill sets and specific interests of the student. All students within this specialization will further enhance their knowledge and skills in communication and leadership within the context of agricultural and life sciences through courses that will provide them foundations in all forms of communication (digital, speaking, and writing) and leadership (interpersonal, groups and teams, organizations and global) in addition to specific areas such as social media, change, public issues and campaign strategies.

To graduate, students must earn minimum grades of C in:

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=131301&track=01) may be used for transfer students.

#### Semester 1
- Complete 1 of 5 critical-tracking courses, excluding labs: AEC 3030C (or equivalent), AEC 3033C (or equivalent), BSC 2005, BSC 2005L (or any GE-B or P laboratory), MAC 1140 (or equivalent), PSY 2012
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 2
- Complete 2 additional critical-tracking courses, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 3
- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 4
- Complete all critical-tracking courses, including labs
- Complete all lower division critical-tracking courses, including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 5
- Complete AEC 4031
- 2.0 upper division GPA required
- 2.0 UF GPA required

#### Semester 6
- Complete two of the remaining upper division critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

#### Semester 7
- Complete three of the remaining upper division critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

#### Semester 8
- Complete all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required
# Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Total Credits: 120

---

**Academic Learning Compact**

Students will learn the knowledge and skills needed to educate individuals, enhance leadership in communities and organizations and communicate ideas and issues to different audiences. Through formal courses and internship experiences, students will learn to apply principles of communication and educational theory to work-based settings; to create, interpret and analyze written and oral messages and multimedia presentations used in agricultural and life sciences; and to educate and communicate agricultural issues effectively to various audiences.

**Before Graduating Students Must**

- Agricultural education specialization: Achieve a passing grade on the state of Florida’s Professional Knowledge Exam for teacher certification.
- Communication and leadership development specialization: Achieve a minimum grade of C in AEC 4052, the communication and leadership development capstone experience, as evaluated by a committee of faculty.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C.
- Achieve a minimum grade of C in a department internship course (AEC 4942, AEC 4943, AEC 4944 or AEC 4948) or a capstone experience course (AEC 4052).
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Describe, explain and apply fundamental pedagogical concepts, skills and processes.
2. Describe, explain and apply fundamental concepts, skills and processes in technical agriculture.
Critical Thinking
3. Analyze and apply data from multiple assessments and measures to diagnose students’ learning needs, inform instruction based on those needs and drive the learning process.
4. Critique and assess data-informed research to improve instruction and student achievement.

Communication
5. Demonstrate written communication forms in a manner appropriate in agricultural education.
6. Develop oral communication presentations in a manner appropriate in agricultural education.

Assessment Types
• Technical agriculture coursework
• Clinical teaching and community profile assignments
• Exams
• Self-assessment
• Florida Department of Education professional teaching certification exam
• Florida Department of Education Agriculture Subject Matter exam

Agricultural Operations Management
Agricultural Operations Management combines hands-on applied coursework and core business principles with emerging technologies and sustainable methods. Students gain experience in systems management, environmental quality, energy efficiency, agricultural machinery, GIS/GPS technology, remote sensing, irrigation, power systems, water control, and precision agriculture.

About this Program
• **College:** Agricultural and Life Sciences (p. 113)
• **Degree:** Bachelor of Science
• **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Agricultural and Biological Engineering is founded on developing, teaching, and applying engineering principles to improve and sustain agricultural and biological systems for current and future generations.

Website ([https://abe.ufl.edu/](https://abe.ufl.edu/))
Students gain technical experience in systems management, environmental quality, energy efficiency, agricultural machinery, GIS/GPS remote sensing, computers programs, irrigation, power systems, water control and precision agriculture. Through interdisciplinary, holistic training in agricultural, natural systems, and business management, AOM students can identify systems problems, formulate possible solutions, evaluate the impact of alternatives and then implement a best solution.

The curriculum supports students who plan to seek career opportunities in commercial business operations and management. In addition to hands-on applied skills, students also will take courses in economics, accounting, business, finance, sales and business management.

For graduates in AOM, there is an abundance of job opportunities. The program provides a solid foundation in management of technical assets, infrastructure, money, and personnel. Graduates become an integral part of the profitable operations of many types of businesses, such as grove management, commercial nurseries, building construction and materials, cattle operations, regulatory agencies and citrus processing.

A major strength of the AOM program is its small class sizes. Students benefit from engaging discussion in a welcoming environment, interacting with and getting to know professors, and connecting with classmates through hands-on projects, activities and club functions.

The Agricultural Operations Management program is housed in Frazier-Rogers Hall with laboratories, classrooms and a student computing lab, and also features an additional off-site construction laboratory on Museum Road.

The program features electives in focused areas of concentration:

- Sustainable Energy and Facilities
- Agribusiness Management
- Animal Production Management
- Fishery and Aquatic Production
- Horticulture and Crop Management
- Soil and Water Science

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=140301&track=01) may be used for transfer students.

Semester 1

- Complete 2 of 8 critical-tracking courses, excluding labs, with a minimum grade of C: ACG 2021, BSC 2010 and BSC 2010L, CHM 2045 and CHM 2045L, ENC 2210, MAC 1147 or MAC 2233, PHY 2004 or PHY 2020, PSY 2012, and SPC 2608 or AEC 3030C.
- 2.0 GPA required for all critical-tracking coursework
- 2.0 UF GPA required
Semester 2
• Complete 1 additional critical-tracking course, excluding labs, with a minimum grade of C.
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 3
• Complete 2 additional critical-tracking course, excluding labs, with a minimum grade of C.
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 4
• Complete 1 additional critical-tracking course, excluding labs, with a minimum grade of C.
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 5
• Complete remaining critical-tracking courses, including labs, with a minimum grade of C.
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

---

**Academic Learning Compact**

The agricultural operations management curriculum integrates business and technical knowledge of agricultural operations. Knowledge is developed through formal courses, laboratory experimentation and individual experience. Students will learn to incorporate technical agricultural skills with modern business techniques and to communicate these results effectively in an appropriate presentation style.
Before Graduating Students Must

- Pass the agricultural operations management competency exam, given in three parts. One part will be given in each of the following required courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>

<td></td>
</tr>
</tbody>
</table>

- Achieve satisfactory portfolio assessment in AOM 3073.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

**Student Learning Outcomes (SLOs)**

**Content**

1. Describe fundamental concepts, skills and processes in agricultural operations management.
2. Apply fundamental concepts, skills and processes in agricultural operations management.

**Critical Thinking**

3. Critically evaluate information or data in agricultural operations management.
4. Solve problems in agricultural operations management.

**Communication**

5. Communicate effectively in written form in a manner appropriate in agricultural operations management.
6. Communicate effectively orally in a manner appropriate in agricultural operations management.

- Exams
- Final grades

**Agroecology and Sustainable Food Systems Certificate**

The Agroecology and Sustainable Food Systems certificate explores the natural and social systems that guide sustainable agriculture. It provides interdisciplinary training and hands-on field research to teach the principles and practices of agroecological production within the context of environmental, social, and economic challenges. It prepares students for graduate programs or professions utilizing systems-thinking skills.

**About this Program**

- **College:** Agricultural and Life Sciences (p. 113)
- **Credits:** 12
Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

The Department of Agronomy’s vision is to improve and sustain food production while conserving natural resources and promoting healthy and active lives by creating and disseminating knowledge in the plant sciences. The department’s mission is to achieve excellence in the science of using plants for food, feed, fuel, fiber and turf, as well as in the management of weed species, through research, teaching, and outreach programs that serve the people of Florida, our nation, and the world.

Animal Genetics Certificate

The Animal Genetics certificate provides a background in Mendelian, population, and quantitative genetic inheritance, in-depth knowledge of genetic improvement and management programs, and the application of genetic principles towards the improvement of the health and production of livestock and domestic animals.

About this Program

- **College:** Agricultural and Life Sciences (p. 113)
- **Credits:** 11

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

The Department of Animal Sciences creates new solutions to tomorrow’s problems in the areas of teaching, research, and extension, by integrating the most modern technologies available with personal expertise and attention to the needs of both students and industry.

GAINESVILLE FL 32608
Map (http://campusmap.ufl.edu/#/index/0459)

Curriculum
- Animal Genetics Certificate
- Animal Sciences
- Combination Degrees

By choosing appropriate electives, students can earn a minor or a dual major in agribusiness management, extension education or agricultural operations management while completing the degree requirements for the equine or food animal specialization.
Animal Sciences graduates work with the science and business of producing domestic livestock species or animal-related products. They may also pursue veterinary studies for future work with companion animals, livestock, or other species. Animal Sciences students study biotechnology, reproduction, genetics, nutrition, physiology, growth, behavior, management, and food processing.

Equine

Animal Sciences graduates work with the science and business of producing domestic livestock species or animal-related products. They may also pursue veterinary studies for future work with companion animals, livestock, or other species. Animal Sciences students study biotechnology, reproduction, genetics, nutrition, physiology, growth, behavior, management, and food processing.

Academic Learning Compact

Animal sciences majors receive a broad education in the healthy production of animals and animal products. Students’ knowledge will be developed through formal courses, laboratories and field trips and will be applied in internships, team projects and presentations. Students will develop the ability to apply conceptual knowledge to solve problems in animal production and to make management decisions.

Before Graduating Students Must

- Pass the animal sciences competency exam, given in three parts. One part will be given in each of these required courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANS 3006</td>
<td>Introduction to Animal Science</td>

<td>Growth and Development of Farm Animals</td>
<td>3</td>
</tr>
<tr>
<td>ANS 3319C</td>
<td>Reproductive Physiology and Endocrinology in Domestic Animals</td>
<td>4</td>
</tr>
</tbody>
</table>

- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty committee.

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Describe and explain fundamental concepts, skills and processes in animal sciences.
2. Apply fundamental concepts, skills and processes in animal sciences.

Critical Thinking
3. Critically evaluate information (or data) in animal sciences.
4. Solve problems in animal sciences.

Communication
5. Effectively communicate in written form in a manner appropriate in animal sciences.
6. Effectively communicate orally in a manner appropriate in animal sciences.

Curriculum

- Animal Genetics Certificate
- Animal Sciences
- Combination Degrees

This specialization is for students who wish to pursue professional or graduate programs. Students who plan to apply to the UF College of Veterinary Medicine in the equine, food animal or mixed-practice tracks are encouraged to select electives from the animal sciences programs.

By choosing appropriate electives, students can earn a minor or a dual major in agribusiness management, extension education or agricultural operations management while completing the degree requirements for the equine or food animal specialization.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=010901&track=01) may be used for transfer students.

**Semester 1**

- Complete 1 of 5 critical-tracking courses, excluding labs: BSC 2010 and BSC 2010L, BSC 2011 and BSC 2011L, CHM 2045 and CHM 2045L, CHM 2046 and CHM 2046L, MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 2**

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required
Semester 3
- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4
- Complete 2 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5
- Complete all critical-tracking courses, including labs
- Complete CHM 2210 with minimum grade of C attained within two attempts (including withdrawals)
- Complete ANS 3006 and ANS 3006L
- 2.5 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6
- Complete ANS 3043 or ANS 3319C
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 7
- Complete ANS 3043 or ANS 3319C
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 8
- Complete MCB 3020 and MCB 3020L
- 2.0 upper division GPA required
- 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

- Academic assessment exam
  - Students in the equine specialization must complete a case study in ANS 4234
  - Students in the food animal specialization must complete an economic assessment plan in ANS 3613L

Equine
Animal Sciences graduates work with the science and business of producing domestic livestock species or animal-related products. They may also pursue veterinary studies for future work with companion animals, livestock, or other species. Animal Sciences students study biotechnology, reproduction, genetics, nutrition, physiology, growth, behavior, management, and food processing.

About this Program
- College: Agricultural and Life Sciences (p. 113)
- Degree: Bachelor of Science
- Specializations: Animal Biology (p. 139) | Equine (p. 143) | Food Animal (p. 147)
- Credits for Degree: 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Animal Sciences creates new solutions to tomorrow’s problems in the areas of teaching, research, and extension, by integrating the most modern technologies available with personal expertise and attention to the needs of both students and industry.

Curriculum
- Animal Genetics Certificate
- Animal Sciences
- Combination Degrees

By choosing appropriate electives, students can earn a minor or a dual major in agribusiness management, extension education or agricultural operations management while completing the degree requirements for the equine or food animal specialization.

Career preparation can be strengthened through electives.
Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cid=010901&track=01) may be used for transfer students.

Semester 1
- Complete 2 of 6 critical-tracking courses, excluding labs: BSC 2010 and BSC 2010L, BSC 2011 and BSC 2011L, CHM 2045 and CHM 2045L, MAC 1147, STA 2023, and AEB 2014 or ECO 2013 or ECO 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2
- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3
- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4
- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5
- Complete all critical-tracking courses, including labs
- Complete ANS 3006 and ANS 3006L
- 2.0 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6
- Complete ANS 3043 or ANS 3319C
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 7
- Complete ANS 4931 and ANS 4941
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 8
- Complete ANS 4931 and ANS 4941
- 2.0 upper division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.
This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

Animal sciences majors receive a broad education in the healthy production of animals and animal products. Students’ knowledge will be developed through formal courses, laboratories and field trips and will be applied in internships, team projects and presentations. Students will develop the ability to apply conceptual knowledge to solve problems in animal production and to make management decisions.

Before Graduating Students Must

- Pass the animal sciences competency exam, given in three parts. One part will be given in each of these required courses:

</tr>
<tr>
<td>ANS 3319C</td>
<td>Reproductive Physiology and Endocrinology in Domestic Animals</td>
<td>4</td>
</tr>
</tbody>
</table>

- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty committee.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Describe and explain fundamental concepts, skills and processes in animal sciences.
2. Apply fundamental concepts, skills and processes in animal sciences.

Critical Thinking
3. Critically evaluate information (or data) in animal sciences.
4. Solve problems in animal sciences.

Communication
5. Effectively communicate in written form in a manner appropriate in animal sciences.
6. Effectively communicate orally in a manner appropriate in animal sciences.

Assessment Exam

Assessment Types

• Grades
• Academic assessment exam
  • Students in the equine specialization must complete a case study in ANS 4234
  • Students in the food animal specialization must complete an economic assessment plan in ANS 3613L

Food Animal

Animal Sciences graduates work with the science and business of producing domestic livestock species or animal-related products. They may also pursue veterinary studies for future work with companion animals, livestock, or other species. Animal Sciences students study biotechnology, reproduction, genetics, nutrition, physiology, growth, behavior, management, and food processing.

About this Program

• College: Agricultural and Life Sciences (p. 113)
• Degree: Bachelor of Science
  • Specializations: Animal Biology (p. 139) | Equine (p. 143) | Food Animal (p. 147)
• Credits for Degree: 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Animal Sciences creates new solutions to tomorrow’s problems in the areas of teaching, research, and extension, by integrating the most modern technologies available with personal expertise and attention to the needs of both students and industry.

GAINESVILLE FL 32608
**Curriculum**

- Animal Genetics Certificate
- Animal Sciences
- Combination Degrees

Through proper selection of electives, students may emphasize beef, dairy, or meat science. Career preparation can be strengthened through electives. By choosing appropriate electives, students can earn a minor or a dual major in agribusiness management, extension education or agricultural operations management while completing the degree requirements for the equine or food animal specialization.

---

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=010901&track=01) may be used for transfer students.

**Semester 1**

- Complete 2 of 6 critical-tracking courses, excluding labs: BSC 2010 and BSC 2010L, BSC 2011 and BSC 2011L, CHM 2045 and CHM 2045L, MAC 1147, STA 2023, and AEB 2014 or ECO 2013 or ECO 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 2**

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 3**

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 4**

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 5**

- Complete all critical-tracking courses, including labs
- Complete ANS 3006 and ANS 3006L
- 2.0 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

**Semester 6**

- Complete ANS 3043 or ANS 3319C
- 2.0 upper division GPA required
- 2.0 UF GPA required
### Semester 7
- Complete ANS 3043 or ANS 3319C
- 2.0 upper division GPA required
- 2.0 UF GPA required

### Semester 8
- Complete ANS 4931 and ANS 4941
- 2.0 upper division GPA required
- 2.0 UF GPA required

### Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Assessment Types

• Grades
• Academic assessment exam
• Students in the equine specialization must complete a case study in ANS 4234
• Students in the food animal specialization must complete an economic assessment plan in ANS 3613L

Bioinformatics Minor

This minor provides solid exposure to bioinformatics with an emphasis on microbes. With the avalanche of genomic information available, bioinformatics skills are necessary to mine and analyze genomic data.

About this Program

• **College**: Agricultural and Life Sciences (p. 113)
• **Credits**: 15-16 | Completed with minimum grades of C
• **Contact**: Email (vcrecy@ufl.edu) | Email (bryank@ufl.edu)

Department Information

The Department of Microbiology and Cell Science is committed to excellence in education, research and service to the community. The curriculum provides an excellent preparation for students who wish to enter the workforce or continue their education in professional programs such as medical, dental, pharmacy, veterinary programs, graduate school or public health degrees. B.S. degrees are offered through both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences and the M.S. and Ph.D. degrees are offered through the College of Agricultural and Life Sciences. Combination degrees are available.

Curriculum

- Bioinformatics Minor
- Combination Degrees
- Microbiology and Cell Science UF Online
- Microbiology and Cell Science | CALS
- Microbiology and Cell Science | CLAS
- Pathogenesis Minor

*This minor is open to all students who have a science background and who meet course prerequisites.*

It is particularly appropriate for students majoring in biology, mathematics, microbiology and cell science, statistics and zoology, and for students who are interested in professional programs in dentistry, medicine and pharmacy.

Microbiology and cell science majors should meet with their academic advisors before applying to this minor to plan a program of study. No more than three credits of the required courses below and 3-4 credits of the electives below can count toward both the major and the minor.

There are 12 required credits, consisting of three courses and a capstone independent study course, and one 3 or 4 credit elective.

Biology | CALS

This program provides a broad, general overview of the structure, function, growth, origin, evolution, and distribution of living organisms. Biology students take courses in biology, chemistry, physics, calculus, and statistics. The major is flexible and combines the faculty and resources of two UF colleges to prepare students for career success.

About this Program

- **College:** Agricultural and Life Sciences (p. 113)
- **Degree:** Bachelor of Science
- **Specializations:** Applied Biology (p. 155) | Biotechnology (p. 161) | Natural Science (p. 167) | Preprofessional (p. 173)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements

The biology major develops fundamental knowledge of animals, plants and microorganisms. The four specializations offered by the College of Agricultural and Life Sciences are tailored to meet the needs of preprofessional students, those preparing for graduate studies in biology or specialized areas such as bioinformatics, ecology, genetics and molecular biology and those seeking a career in biotechnology, education, natural resource management and environmental or biotechnology law.

Coursework for the Major

College of Agricultural and Life Sciences (CALS) students in the biology major choose one of four specializations: applied biology, biotechnology, natural science or preprofessional biology. These specializations require significant introductory coursework and credits in general biology, calculus and/or statistics, general chemistry, organic chemistry and physics. Students who are uncertain about which specialization to choose should consult a biology advisor for information and guidance on curriculum planning. Students can individualize their curriculum through approved specialization electives in the life sciences.

**Applied Biology**

For students interested in learning how fundamental biology is applied to solving problems. This specialization provides exposure to the major issues facing sustainability of human populations and natural resources.

**Biotechnology**

Prepares students for careers where knowledge of molecular biology and genetic engineering are important. Students will have the opportunity to learn various techniques and scientific procedures in molecular biology, virology, bioengineering, cell and tissue culture and bioinformatics.

**Natural Science**

For students interested in descriptive and interpretive biology, with an emphasis on field biology. The specialization provides exposure to the major forms of flora and fauna, and integrates some of the major elements that influence flora and fauna, namely soil/water relations and human activities.

**Preprofessional**

For students preparing for admission to medical, dental, optometry, veterinary or other professional schools.

Relevant Minors and/or Certificates

UFTeach Program

There is a severe shortage of qualified secondary school biology teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a biology advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their B.S. in biology and have the coursework and preparation for professional teacher certification in Florida when they graduate.
Bioinformatics

Bioinformatics skills are valuable for students who may seek careers which will necessitate the analysis of genomic data. This minor provides students the opportunity to learn programming skills, mine genomic data, and participate in independent research.

Research

All biology majors are encouraged to participate in research. Research experience is valuable on many levels: It diversifies the college experience; teaches how scientists apply the knowledge gained in the classroom to real world questions; provides the opportunity to work with and get to know researchers who are the best in their field; enables participation in cutting edge scientific questions and techniques; enhances the student’s resume/CV when applying to graduate or professional school; and finally, it is essential to help the student determine if science is an appropriate career choice.

More Info (http://major.biology.ufl.edu/do-research/)

CALS biology majors may participate in research for course credit as a scholar (e.g., University Scholar, HHMI Science for Life Scholar), as a volunteer, or, in rare cases, as a paid research assistant.

Academic Learning Compact

Biology is the study of the many diverse forms, processes and systems of life. These studies range across all levels of the biological hierarchy, from the simplest to the most complex life forms, across all environments on the earth and across recent and evolutionary time that interconnects ancestors to their descendants.

To understand this vast diversity, the field of biology correspondingly relies on integrative and comparative approaches for the resolution of the general processes, principles and unifying themes that govern living systems. Biology is therefore very interdisciplinary and biologists rely on knowledge from the physical sciences and mathematics, as well as from across the disciplines and subdisciplines of biology for advances and breakthroughs.

The biology major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences.

Before Graduating Students Must

- Achieve a passing score for all content subsections of the Major Field Test for Biology. Content subscore areas are molecular biology and genetics, organismal biology, evolution, ecology and population biology.
- Achieve a passing score on the analytical skills assessment indicator of the Major Field Test for Biology.
- Achieve a passing score on the bioethics module quiz in BSC 4936. The content of the module and quiz are reviewed and approved by a faculty committee.
- Achieve a passing score on the scientific literacy paper assignment given in BSC 4936. This paper is graded using a faculty-developed rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking
2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication
4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260101&track=01) may be used for transfer students.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260101&track=01) may be used for transfer students.

Semester 1

- Complete CHM 2045/CHM 2045L or MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete BSC 2010/BSC 2010L and CHM 2046/CHM 2046L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Total Credits: 72-79
### Semester 4
- Complete BSC 2011/BSC 2011L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester 5
- Complete all critical-tracking courses, including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

### Semester 6
- Complete a minimum of 2 of the remaining Applied Biology 3xxx/4xxx required core courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

### Semester 7
- Complete a minimum of 2 of the remaining Applied Biology 3xxx/4xxx required core courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

### Semester 8
- Complete all the remaining Applied Biology 3xxx/4xxx required core courses
- Complete BSC 4936 (Capstone)
- Complete all critical-tracking courses, including labs
- 2.0 upper division GPA required
- 2.0 UF GPA required

---

**Model Semester Plan**

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Biotechnology

This program provides a broad, general overview of the structure, function, growth, origin, evolution, and distribution of living organisms. Biology students take courses in biology, chemistry, physics, calculus, and statistics. The major is flexible and combines the faculty and resources of two UF colleges to prepare students for career success.

About this Program

- **College**: Agricultural and Life Sciences (p. 113)
- **Degree**: Bachelor of Science
- **Specializations**: Applied Biology (p. 155) | Biotechnology (p. 161) | Natural Science (p. 167) | Preprofessional (p. 173)
- **Credits for Degree**: 120
- **More Info**

*To graduate with this major, students must complete all university, college, and major requirements*

This specialization prepares students for careers where knowledge of molecular biology and genetic engineering are important. Students will have the opportunity to learn various techniques and scientific procedures in molecular biology, virology, bioengineering, cell and tissue culture, microscopy and bioinformatics. They also will be prepared for graduate study in the biological sciences.

The biology major develops fundamental knowledge of animals, plants and microorganisms. The four specializations offered by the College of Agricultural and Life Sciences are tailored to meet the needs of preprofessional students, those preparing for graduate studies in biology or specialized areas such as bioinformatics, ecology, genetics and molecular biology and those seeking a career in biotechnology, education, natural resource management and environmental or biotechnology law.

Coursework for the Major

College of Agricultural and Life Sciences (CALS) students in the biology major choose one of four specializations: applied biology, biotechnology, natural science or preprofessional biology. These specializations require significant introductory coursework and credits in general biology, calculus and/or statistics, general chemistry, organic chemistry and physics. Students who are uncertain about which specialization to choose should consult a biology advisor for information and guidance on curriculum planning. Students can individualize their curriculum through approved specialization electives in the life sciences.
Biotechnology
Prepares students for careers where knowledge of molecular biology and genetic engineering are important. Students will have the opportunity to learn various techniques and scientific procedures in molecular biology, virology, bioengineering, cell and tissue culture and bioinformatics.

Applied Biology
For students interested in learning how fundamental biology is applied to solving problems. This specialization provides exposure to the major issues facing sustainability of human populations and natural resources.

Natural Science
For students interested in descriptive and interpretive biology, with an emphasis on field biology. The specialization provides exposure to the major forms of flora and fauna, and integrates some of the major elements that influence flora and fauna, namely soil/water relations and human activities.

Preprofessional
For students preparing for admission to medical, dental, optometry, veterinary or other professional schools.

Relevant Minors and/or Certificates

UFTeach Program
There is a severe shortage of qualified secondary school biology teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a biology advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their B.S. in biology and have the course work and preparation for professional teacher certification in Florida when they graduate.

Bioinformatics
Bioinformatics skills are valuable for students who may seek careers which will necessitate the analysis of genomic data. This minor provides students the opportunity to learn programming skills, mine genomic data, and participate in independent research.

Research
All biology majors are encouraged to participate in research. Research experience is valuable on many levels: It diversifies the college experience; teaches how scientists apply the knowledge gained in the classroom to real world questions; provides the opportunity to work with and get to know researchers who are the best in their field; enables participation in cutting edge scientific questions and techniques; enhances the student’s resume/CV when applying to graduate or professional school; and finally, it is essential to help the student determine if science is an appropriate career choice.

CALS biology majors may participate in research for course credit as a scholar (e.g., University Scholar, HHMI Science for Life Scholar), as a volunteer, or, in rare cases, as a paid research assistant.

Total Credits: 72-76

1 Not required if CHM 3217 and CHM 3218 are taken.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260101&track=01) may be used for transfer students.

Semester 1
- Complete CHM 2045/CHM 2045L or MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2
- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3
- Complete BSC 2010/BSC 2010L and CHM 2046/CHM 2046L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required
**Semester 4**
- Complete BSC 2011/BSC 2011L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 5**
- Complete all critical-tracking courses, including labs
- 2.0 upper division GPA required
- 2.0 UF GPA required

**Semester 6**
- Complete a minimum of 2 of the remaining Biotechnology 3xxx/4xxx required core courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

**Semester 7**
- Complete a minimum of 2 of the remaining Biotechnology 3xxx/4xxx required core courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

**Semester 8**
- Complete all the remaining Biotechnology 3xxx/4xxx required core courses
- BSC 4936 (Capstone)
- Complete all critical-tracking courses, including labs
- 2.0 UF GPA required
- 2.0 upper division GPA required

**Model Semester Plan**
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

Biology is the study of the many diverse forms, processes and systems of life. These studies range across all levels of the biological hierarchy, from the simplest to the most complex life forms, across all environments on the earth and across recent and evolutionary time that interconnects ancestors to their descendants.

To understand this vast diversity, the field of biology correspondingly relies on integrative and comparative approaches for the resolution of the general processes, principles and unifying themes that govern living systems. Biology is therefore very interdisciplinary and biologists rely on knowledge from the physical sciences and mathematics, as well as from across the disciplines and subdisciplines of biology for advances and breakthroughs.

The biology major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences.

Before Graduating Students Must

- Achieve a passing score for all content subsections of the Major Field Test for Biology. Content subscore areas are molecular biology and genetics, organismal biology, evolution, ecology and population biology.
- Achieve a passing score on the analytical skills assessment indicator of the Major Field Test for Biology.
- Achieve a passing score on the bioethics module quiz in BSC 4936. The content of the module and quiz are reviewed and approved by a faculty committee.
- Achieve a passing score on the scientific literacy paper assignment given in BSC 4936. This paper is graded using a faculty-developed rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking
2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication
4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

- **Degree**: Bachelor of Science
- **Specializations**: Applied Biology (p. 155) | Biotechnology (p. 161) | Natural Science (p. 167) | Preprofessional (p. 173)
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements

This specialization is for students interested in descriptive and interpretive biology, with an emphasis on field biology. The specialization provides exposure to the major forms of flora and fauna, and integrates some of the major elements that influence flora and fauna, namely soil/water relations and human activities. This specialization prepares students for graduate study in the biological sciences.

The biology major develops fundamental knowledge of animals, plants and microorganisms. The four specializations offered by the College of Agricultural and Life Sciences are tailored to meet the needs of preprofessional students, those preparing for graduate studies in biology or specialized areas such as bioinformatics, ecology, genetics and molecular biology and those seeking a career in biotechnology, education, natural resource management and environmental or biotechnology law.

Coursework for the Major

College of Agricultural and Life Sciences (CALS) students in the biology major choose one of four specializations: applied biology, biotechnology, natural science or preprofessional biology. These specializations require significant introductory coursework and credits in general biology, calculus and/or statistics, general chemistry, organic chemistry and physics. Students who are uncertain about which specialization to choose should consult a biology advisor for information and guidance on curriculum planning. Students can individualize their curriculum through approved specialization electives in the life sciences.
Applied Biology
For students interested in learning how fundamental biology is applied to solving problems. This specialization provides exposure to the major issues facing sustainability of human populations and natural resources.

Biotechnology
Prepares students for careers where knowledge of molecular biology and genetic engineering are important. Students will have the opportunity to learn various techniques and scientific procedures in molecular biology, virology, bioengineering, cell and tissue culture and bioinformatics.

Natural Science
For students interested in descriptive and interpretive biology, with an emphasis on field biology. The specialization provides exposure to the major forms of flora and fauna, and integrates some of the major elements that influence flora and fauna, namely soil/water relations and human activities.

Preprofessional
For students preparing for admission to medical, dental, optometry, veterinary or other professional schools.

Relevant Minors and/or Certificates

UFTeach Program
There is a severe shortage of qualified secondary school biology teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a biology advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their B.S. in biology and have the coursework and preparation for professional teacher certification in Florida when they graduate. **Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites ([http://www.flvc.org/cpp/displayRecord.jsp?cip=260101&track=01](http://www.flvc.org/cpp/displayRecord.jsp?cip=260101&track=01)) may be used for transfer students.

**Semester 1**

- Complete CHM 2045/CHM 2045L or MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 2**

- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 3**

- Complete BSC 2010/BSC 2010L and CHM 2046/CHM 2046L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 4**

- Complete BSC 2011/BSC 2011L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 5**

- Complete all critical-tracking courses, including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

**Semester 6**

- Complete a minimum of 2 of the remaining Natural Science 3xxx/4xxx required core courses
- 2.0 upper division GPA required
- 2.0 UF GPA required
## Semester 7
- Complete a minimum of 2 of the remaining Natural Science 3xxx/4xxx required core courses
- 2.0 Upper Division GPA required
- 2.0 UF GPA required

## Semester 8
- Complete all the remaining Natural Science 3xxx/4xxx required core courses
- Complete BSC 4936 (Capstone)
- Complete all critical-tracking courses, including labs
- 2.0 upper division GPA required
- 2.0 UF GPA required

### Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

#### Credits 16

**Total Credits 120**

---

**Academic Learning Compact**

Biology is the study of the many diverse forms, processes and systems of life. These studies range across all levels of the biological hierarchy, from the simplest to the most complex life forms, across all environments on the earth and across recent and evolutionary time that interconnects ancestors to their descendants.

To understand this vast diversity, the field of biology correspondingly relies on integrative and comparative approaches for the resolution of the general processes, principles and unifying themes that govern living systems. Biology is therefore very interdisciplinary and biologists rely on knowledge from the physical sciences and mathematics, as well as from across the disciplines and subdisciplines of biology for advances and breakthroughs.

The biology major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences.

**Before Graduating Students Must**

- Achieve a passing score for all content subsections of the Major Field Test for Biology. Content subscore areas are molecular biology and genetics, organismal biology, evolution, ecology and population biology.
- Achieve a passing score on the analytical skills assessment indicator of the Major Field Test for Biology.
- Achieve a passing score on the bioethics module quiz in BSC 4936. The content of the module and quiz are reviewed and approved by a faculty committee.
• Achieve a passing score on the scientific literacy paper assignment given in BSC 4936. This paper is graded using a faculty-developed rubric.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking
2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication
4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Curriculum Map for All Specializations except CALS Biotechnology

Assessment Types
• Major field test for biology
• Bioethics module
• Scientific literacy paper

Curriculum Map for CALS Biotechnology

Assessment Types
• Major field test for biology
• Bioethics module
• Scientific literacy paper
Preprofessional

This program provides a broad, general overview of the structure, function, growth, origin, evolution, and distribution of living organisms. Biology students take courses in biology, chemistry, physics, calculus, and statistics. The major is flexible and combines the faculty and resources of two UF colleges to prepare students for career success.

About this Program

- **College**: Agricultural and Life Sciences (p. 113)
- **Degree**: Bachelor of Science
- **Specializations**: Applied Biology (p. 155) | Biotechnology (p. 161) | Natural Science (p. 167) | Preprofessional (p. 173)
- ** Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements

This specialization prepares biology majors for admission to medical, dental, optometry or veterinary school, and it also is excellent preparation for graduate study.

The biology major develops fundamental knowledge of animals, plants and microorganisms. The four specializations offered by the College of Agricultural and Life Sciences are tailored to meet the needs of preprofessional students, those preparing for graduate studies in biology or specialized areas such as bioinformatics, ecology, genetics and molecular biology and those seeking a career in biotechnology, education, natural resource management and environmental or biotechnology law.

Coursework for the Major

College of Agricultural and Life Sciences (CALS) students in the biology major choose one of four specializations: applied biology, biotechnology, natural science or preprofessional biology. These specializations require significant introductory coursework and credits in general biology, calculus and/or statistics, general chemistry, organic chemistry and physics. Students who are uncertain about which specialization to choose should consult a biology advisor for information and guidance on curriculum planning. Students can individualize their curriculum through approved specialization electives in the life sciences.

**Applied Biology**

For students interested in learning how fundamental biology is applied to solving problems. This specialization provides exposure to the major issues facing sustainability of human populations and natural resources.

**Biotechnology**

Prepares students for careers where knowledge of molecular biology and genetic engineering are important. Students will have the opportunity to learn various techniques and scientific procedures in molecular biology, virology, bioengineering, cell and tissue culture and bioinformatics.

**Natural Science**

For students interested in descriptive and interpretive biology, with an emphasis on field biology. The specialization provides exposure to the major forms of flora and fauna, and integrates some of the major elements that influence flora and fauna, namely soil/water relations and human activities.

**Preprofessional**

For students preparing for admission to medical, dental, optometry, veterinary or other professional schools.

Relevant Minors and/or Certificates

**UFTeach Program**

There is a severe shortage of qualified secondary school biology teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a biology advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their B.S. in biology and have the coursework and preparation for professional teacher certification in Florida when they graduate.

More Info (http://education.ufl.edu/uf-teach/)

**Bioinformatics**

Bioinformatics skills are valuable for students who may seek careers which will necessitate the analysis of genomic data. This minor provides students the opportunity to learn programming skills, mine genomic data, and participate in independent research.

Research

All biology majors are encouraged to participate in research. Research experience is valuable on many levels: It diversifies the college experience; teaches how scientists apply the knowledge gained in the classroom to real world questions; provides the opportunity to work with and get to know
researchers who are the best in their field; enables participation in cutting edge scientific questions and techniques; enhances the student’s resume/ CV when applying to graduate or professional school; and finally, it is essential to help the student determine if science is an appropriate career choice.

More Info (http://major.biology.ufl.edu/do-research/)

CALS biology majors may participate in research for course credit as a scholar (e.g., University Scholar, HHMI Science for Life Scholar), as a volunteer, or, in rare cases, as a paid research assistant.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260101&track=01) may be used for transfer students.
Semester 1
• Complete CHM 2045/CHM 2045L or MAC 2311
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 2
• Complete CHM 2045/CHM 2045L and MAC 2311
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 3
• Complete CHM 2046/CHM 2046L, BSC 2010/BSC 2010L
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 4
• Complete BSC 2011/BSC 2011L
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 5
• Complete all critical-tracking courses, including labs
• 2.5 GPA required for all critical-tracking courses
• 2.0 upper division GPA required
• 2.0 UF GPA required

Semester 6
• Complete a minimum of 2 of the remaining Preprofessional 3xxx/4xxx required core courses
• 2.0 upper division GPA required

Semester 7
• Complete a minimum of 2 of the remaining Preprofessional 3xxx/4xxx required core courses
• 2.0 upper division GPA required

Semester 8
• Complete all the remaining Preprofessional 3xxx/4xxx required core courses
• Complete BSC 4936 (Capstone)
• Complete all critical-tracking courses, including labs
• 2.0 upper division GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

Biology is the study of the many diverse forms, processes and systems of life. These studies range across all levels of the biological hierarchy, from the simplest to the most complex life forms, across all environments on the earth and across recent and evolutionary time that interconnects ancestors to their descendants.

To understand this vast diversity, the field of biology correspondingly relies on integrative and comparative approaches for the resolution of the general processes, principles and unifying themes that govern living systems. Biology is therefore very interdisciplinary and biologists rely on knowledge from the physical sciences and mathematics, as well as from across the disciplines and subdisciplines of biology for advances and breakthroughs.

The biology major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences.

Before Graduating Students Must

• Achieve a passing score for all content subsections of the Major Field Test for Biology. Content subscore areas are molecular biology and genetics, organismal biology, evolution, ecology and population biology.
• Achieve a passing score on the analytical skills assessment indicator of the Major Field Test for Biology.
• Achieve a passing score on the bioethics module quiz in BSC 4936. The content of the module and quiz are reviewed and approved by a faculty committee.
• Achieve a passing score on the scientific literacy paper assignment given in BSC 4936. This paper is graded using a faculty-developed rubric.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking
2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication
4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Biosecurity and Biological Invasions Certificate

This certificate program provides the skill set necessary for the detection, surveillance, and management of agricultural and medical threats. Acquire critical thinking skills for the assessment, management, and communication of the biosecurity risks and challenges facing the 21st century.

About this Program

- **College**: Agricultural and Life Sciences (p. 113)
- **Credits**: 9-14 | Completed with minimum grades of C
- **Contact**: Email (agunbiade@ufl.edu) | 352.294.6792

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

The Entomology and Nematology Department prepares students for exciting careers in a variety of fields. Entomology and Nematology majors can enter medical, dental, or veterinary school; progress to graduate study in any of several biological sciences such as ecology, nematology, entomology, horticulture, or zoology; or move directly to a variety of careers in fields such as pest management, ecotourism, or biosecurity.

Curriculum

- Combination Degrees
- Entomology and Nematology
• Entomology and Nematology Minor
• Landscape Pest Management Certificate
• Medical Entomology Certificate
• Pest Control Technology Certificate
• Urban Pest Management Certificate

The current drive for globalization, increased travel and trade in food and agricultural products, emerging infectious diseases, and the threat of bioterrorism makes the field of biosecurity an area of major and widespread importance. Biosecurity involves a strategic and integrated approach to excluding, eradicating, and managing threats to human, animal and plant life and health, the environment, and global trade. The overall goal of this certificate program is to equip students with the skill set necessary for the detection, surveillance, and management of agricultural and medical threats. This certificate provides critical thinking skills for the assessment, management, and communication of the biosecurity risks and challenges facing the 21st century. The Biosecurity certificate is designed to meet the career and professional needs of those interested in, or already in industry, public health, homeland security, international security, quarantine and pest management, and organizations involved in emergency preparedness, and general threat management.

### Botany | CALS

This program provides a broad background in the biology of plants, from the molecular to the whole-plant level. Botany students study anatomy, biochemistry, ecology, genetics, physiology, taxonomy, and molecular biology of plants. This flexible major combines the faculty and resources of two UF colleges to prepare students for career success.

### About this Program

- **College:** Agricultural and Life Sciences (p. 113)
- **Degree:** Bachelor of Science
- **Specializations:** General Botany (p. 187) | Botanical Research (p. 181)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Small classes are taught by faculty who have a commitment to undergraduate education. Students participate in mentored research, assisting faculty with research projects on campus and abroad. The major prepares students for careers in industry and government agencies, for graduate and professional schools, and for teaching jobs in high schools.
General Botany
For students who may not intend to pursue a graduate degree but are interested in a career in plant biology. This specialization provides some flexibility in tailoring the courses needed in order to pursue specific interests. Students are encouraged to consult with an advisor and botany faculty member when deciding on which courses to take.

Botanical Research
For students who intend to pursue a graduate degree and requires research with a faculty member. This specialization provides some flexibility in tailoring the courses needed in order to pursue specific interests. Students are encouraged to consult with an advisor and botany faculty member when deciding on which courses to take.

Coursework for the Major
Required coursework is dependent upon the specialization. Coursework for each specialization can be found below under Critical Tracking and Model Semester Plan.

Relevant Minors and/or Certificates
Students majoring in botany can minor in most other disciplines, and this is a good way to organize students’ electives around areas of interest. Note that botany majors cannot minor in biology, nor can biology majors minor in botany (the curricula for the botany and biology majors are too similar).

UFTeach Program
There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a botany advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their B.S. in botany and have the coursework and preparation for professional teacher certification in Florida when they graduate.

More Info (http://education.ufl.edu/uf-teach/)

Research
Botany majors are strongly encouraged to participate in research, and research is required for the Botanical Research specialization. Research experience is valuable on many levels: it diversifies the college experience; it teaches students how scientists apply the knowledge gained in the classroom to real world questions; it provides the opportunity to work with and get to know researchers who are the best in their field; it introduces students to cutting edge scientific questions and techniques; it can enhance a student’s resume/CV when applying to graduate or professional school; and finally it is essential in helping students determine if science is a good career choice.

CALS botany majors may participate in research for course credit, as a scholar (e.g., University Scholar, Science for Life Scholar, Beckman Scholar), as a volunteer, or, in rare cases, as a paid research assistant. Please visit Undergraduate Research for information regarding course credit. Students who plan to enroll for course credit must contact potential research mentors, develop a project, and turn in the required application and proposal no later than the week before drop/add. If the window is missed, students should still contact potential research mentors, if only to discuss upcoming opportunities.

Academic Learning Compact
The botany major is offered by both the College of Liberal Arts and Sciences and the College of Agricultural and Life Sciences. This major provides a foundation in the life sciences with emphasis on plant systems. Students will learn the diversity of life, the structure of organisms and ecosystems and how they function (i.e., the acquisition, flow, organization and uses of information, energy and nutrients in living systems). Students will learn the scientific method and how it facilitates the discovery of new knowledge in botany and biology, including how to critically evaluate hypotheses and conclusions.

Before Graduating Students Must
• Achieve acceptable performance in all required botany courses.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Total Credits: 75-87

1. Students who choose BOT 2011C to fulfill the foundation requirements may not use BOT 2011C to fulfill the biodiversity breadth requirements for the major.
2. Must be taken concurrently with BOT 4911.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260301&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 5 critical-tracking courses, including lab: BSC 2010/BSC 2010L or BOT 2010C, BSC 2011/BSC 2011L or BOT 2011C, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2311
- 2.0 UF GPA required
Semester 2
• Complete 1 additional critical-tracking course, including labs
  • 2.0 UF GPA required

Semester 3
• Complete 1 additional critical-tracking course, including labs, with a 2.5 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

Semester 4
• Complete 1 additional critical-tracking course, including labs, with a 2.5 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

Semester 5
• Complete all 5 critical-tracking courses, including labs, with a 2.5 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

Semester 6
• Complete at least two Required Courses for the Botanical Research specialization
  • 2.0 UF GPA required

Semester 7
• Complete CHM 2210 or CHM 3217
• Complete PHY 2053/PHY 2053L or PHY 2048/PHY 2048L
• Complete at least 2 additional (4 total) Required Courses for the Botanical Research specialization
  • 2.0 UF GPA required

Semester 8
• Complete all remaining major course requirements
  • 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

Notes:
- Critical Tracking: Indicates courses that meet specific tracking requirements.
- University Education Core: Indicates courses that meet core educational requirements.
The botany major is offered by both the College of Liberal Arts and Sciences and the College of Agricultural and Life Sciences. This major provides a foundation in the life sciences with emphasis on plant systems. Students will learn the diversity of life, the structure of organisms and ecosystems and how they function (i.e., the acquisition, flow, organization and uses of information, energy and nutrients in living systems). Students will learn the scientific method and how it facilitates the discovery of new knowledge in botany and biology, including how to critically evaluate hypotheses and conclusions.

Before Graduating Students Must

- Achieve acceptable performance in all required botany courses.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking
2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication
4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Assessment Types

- Major field test for biology
- Bioethics quiz
- Scientific paper
General Botany

This program provides a broad background in the biology of plants, from the molecular to the whole-plant level. Botany students study anatomy, biochemistry, ecology, genetics, physiology, taxonomy, and molecular biology of plants. This flexible major combines the faculty and resources of two UF colleges to prepare students for career success.

About this Program

- **College**: Agricultural and Life Sciences (p. 113)
- **Degree**: Bachelor of Science
- **Specializations**: General Botany (p. 187) | Botanical Research (p. 181)
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

This option is intended for students who do not plan to attend graduate or professional school, but are planning a career in government, public service, or secondary education. A student must achieve a minimum grade of C in all required courses for the major.

Small classes are taught by faculty who have a commitment to undergraduate education. Students participate in mentored research, assisting faculty with research projects on campus and abroad. The major prepares students for careers in industry and government agencies, for graduate and professional schools, and for teaching jobs in high schools.

General Botany

For students who may not intend to pursue a graduate degree but are interested in a career in plant biology. This specialization provides some flexibility in tailoring the courses needed in order to pursue specific interests. Students are encouraged to consult with an advisor and botany faculty member when deciding on which courses to take.

Botanical Research

For students who intend to pursue a graduate degree and requires research with a faculty member. This specialization provides some flexibility in tailoring the courses needed in order to pursue specific interests. Students are encouraged to consult with an advisor and botany faculty member when deciding on which courses to take.

Coursework for the Major

Required coursework is dependent upon the specialization. Coursework for each specialization can be found below under Critical Tracking and Model Semester Plan.

Relevant Minors and/or Certificates

Students majoring in botany can minor in most other disciplines, and this is a good way to organize students' electives around areas of interest. Note that botany majors cannot minor in biology, nor can biology majors minor in botany (the curricula for the botany and biology majors are too similar).

UFTeach Program

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a botany advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their B.S. in botany and have the coursework and preparation for professional teacher certification in Florida when they graduate.

More Info (http://education.ufl.edu/uf-teach/)

Research

Botany majors are strongly encouraged to participate in research, and research is required for the Botanical Research specialization. Research experience is valuable on many levels: it diversifies the college experience; it teaches students how scientists apply the knowledge gained in the classroom to real world questions; it provides the opportunity to work with and get to know researchers who are the best in their field; it introduces students to cutting edge scientific questions and techniques; it can enhance a student’s resume/CV when applying to graduate or professional school; and finally it is essential in helping students determine if science is a good career choice.

CALS botany majors may participate in research for course credit, as a scholar (e.g., University Scholar, Science for Life Scholar, Beckman Scholar), as a volunteer, or, in rare cases, as a paid research assistant. Please visit Undergraduate Research for information regarding course credit. Students who plan to enroll for course credit must contact potential research mentors, develop a project, and turn in the required application and proposal no later than the week before drop/add. If the window is missed, students should still contact potential research mentors, if only to discuss upcoming opportunities.

Students who choose BOT 2011C to fulfill the foundation requirements may not use BOT 2011C to fulfill the biodiversity breadth requirements for the major.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260301&track=01) may be used for transfer students.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

**Semester 1**
- Complete 1 of 5 critical-tracking courses, including lab: BSC 2010/BSC 2010L or BOT 2010C, BSC 2011/BSC 2011L or BOT 2011C, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L; MAC 1147, MAC 2311 or STA 2023
- 2.0 UF GPA required

**Semester 2**
- Complete 1 additional critical-tracking course, including labs
- 2.0 UF GPA required

**Semester 3**
- Complete 1 additional critical-tracking course, including labs, with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 4**
- Complete 1 additional critical-tracking course, including labs, with 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 5**
- Complete all critical-tracking courses, including labs, with 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 6**
- Complete at least 2 Required Courses for the General Botany specialization
- 2.0 UF GPA required

**Semester 7**
- Complete one of the remaining Required Foundation Courses (CHM 2200/CHM 2200L, PHY 2004/PHY 2004L, MAC 1147/MAC 2311, or STA 2023/COP 2800/COP 3275/BSC 3307C)
- Complete at least two additional (4 total) Required Courses for the General Botany specialization
- 2.0 UF GPA required

**Semester 8**
- Complete all remaining major course requirements
- 2.0 UF GPA required

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria. This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Critical Thinking
2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication
4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

CALS Honor Scholar Certificate
Students earning the CALS Honors Scholar certificate must complete at least nine credits of honors coursework and an undergraduate honors thesis. The coursework, thesis topic, and thesis advisor are unique to each student and are subject to approval by the CALS honors program director. Students must have an upper-division GPA of 3.75 or higher to complete the program and earn the certificate.
About this Program

- **College**: Agricultural and Life Sciences (p. 113)
- **Credits**: 9 | Completed with minimum grades of C or S
- **Contact**: Email (wysocki@ufl.edu) | 352.392.1963

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

**Prerequisites**

- CALS major
- Admission to the CALS honors program
- Completion of 60 credits
- Minimum 3.75 UF GPA

**Required Courses**

- ALS 3923, 1 credit
- XXX 4915 Honors Thesis Research (or similar independent study/research course to be completed as the student is working on their thesis research), 3-4 credits
- Additional honors coursework, 4-5 credits, taken as:
  - Existing 3000/4000-level honors courses, approved by the honors program director
  - Existing 3000/4000-level CALS courses taken as honors contract courses, approved by the honors program director
  - CALS graduate-level courses, approved by the honors program director
- A completed honors thesis, approved by the research mentor, department honors coordinator and honors program director

---

**Challenge 2050 | Global Leadership and Change Certificate**

This certificate focuses on global community challenges as we face a population predicted to exceed nine billion people by the year 2050. The program empowers students to take action in addressing the unstructured, complex, and adaptive world challenges in sustainable development and food security.

**About this Program**

- **College**: Agricultural and Life Sciences (p. 113)
- **Credits**: 10

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Because the issues we face are radically different than the issues addressed by traditional educational models, this program is outside of the normal bounds of a disciplinary degree or a semester-long course. Students earning the certificate will be engaged in high level, complex problem solving which will create a strong professional foundation for success in a variety of fields.

---

**Dietetics**

This program applies the science of food and nutrition to the health and well-being of individuals and groups. Dietetics students study chemistry, biology, microbiology, nutrition, communication, food science, and management. They are well-prepared for dietetic internships or graduate study.
About this Program

- **College**: Agricultural and Life Sciences (p. 113)
- **Degree**: Bachelor of Science
- **Credits for Degree**: 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Food Science and Human Nutrition Department (FSHN) is one of the world's largest combined academic programs where food science, nutritional sciences, and dietetics are all studied within one department. FSHN has nearly 25 full-time faculty members, 80 graduate assistants, and 600 undergraduate students. The department's programs are accredited by the Institute of Food Technologists (IFT) (http://www.ift.org/) and the Academy of Nutrition and Dietetics (http://www.eatright.org/). After completing undergraduate degrees, FSHN students typically move on to employment in the food industry, healthcare settings, graduate, or professional programs.

Curriculum

- Dietetics
- Food Science
- Food Science Minor
- Nutritional Sciences
- Nutritional Sciences Minor

The Didactic Program in Dietetics (DPD) is accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics. Successful program completion enables students to compete for placement in dietetic internships, a required step in becoming a Registered Dietitian (RD). Students may also pursue graduate study.

Registered dietitians are employed in health care facilities, government and public health agencies, food companies, schools and universities, private practice, and a variety of other settings. Opportunities are also increasing for RDs in wellness and fitness programs and in sales and marketing for business and industry. Students interested in dietetic internships should obtain volunteer or work experience with an RD, and participate in leadership opportunities with the FSHN Club or other clubs on campus.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=011001&track=02) may be used for transfer students.

Semester 1

- Complete CHM 2045/CHM 2045L or MAC 1147
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete CHM 2045/CHM 2045L and MAC 1147
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required
Semester 3
- Complete CHM 2046/CHM 2046L and BSC 2010/BSC 2010L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4
- Complete BSC 2011/BSC 2011L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5
- Complete CHM 2210
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6
- Complete DIE 3310
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 7
- Complete HUN 4221
- 2.0 upper division GPA required
- 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

| Credits | 15 |

| Total Credits | 120 |

Additional electives may be needed to complete the 120 credits required for graduation.

Academic Learning Compact

Dietetics applies the science of food and nutrition to the health and well-being of individuals and groups. Students will learn to use knowledge of nutrient requirements, food sources and physiological systems to determine nutrient and dietary needs of individuals in various life-cycle stages and/or with nutrition-related diseases. Students also will apply their knowledge of food science and management principles to food service operations.
Before Graduating Students Must

- Satisfactorily complete a service-learning comprehensive client assessment in DIE 4245, a systems analysis of a major foodservice event developed by students in DIE 4125L and a community assessment project in DIE 3310. The projects will be graded by rubrics developed, approved and evaluated by a faculty committee.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty committee.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Use the nutrition care process to make decisions, identify nutrition-related problems and determine and evaluate nutrition interventions.
2. Apply management and business theories and principles to the development, marketing and delivery of programs and services.

Critical Thinking
3. Develop outcome measures, use informatics principles and technology to collect and analyze data for assessment and evaluate data for use in decision-making.

Communication
4. Create, interpret and analyze written text, oral messages and multimedia presentations used in agricultural and life sciences.

Entomology and Nematology

This biological science includes the study of insects, mites, ticks, spiders, and nematodes. These creatures can have both helpful and harmful effects on our food, environment, and health. Entomology and Nematology students study ecology, medically significant arthropods, social insects, insect management, physiology, behavior, evolution, natural ecosystem cycles, and systematics.

About this Program

- **College:** Agricultural and Life Sciences (p. 113)
- **Degree:** Bachelor of Science
  - **Specializations:** Biological Science of Insects (p. 199) | Preprofessional (p. 203) | Urban Pest Management (p. 208)
- **Credits for Degree:** 120

*To graduate with this major, students must complete all university, college, and major requirements.*
Department Information

The Entomology and Nematology Department prepares students for exciting careers in a variety of fields. Entomology and Nematology majors can enter medical, dental, or veterinary school; progress to graduate study in any of several biological sciences such as ecology, nematology, entomology, horticulture, or zoology; or move directly to a variety of careers in fields such as pest management, ecotourism, or biosecurity.

Curriculum
• Combination Degrees
• Entomology and Nematology
• Entomology and Nematology Minor
• Landscape Pest Management Certificate
• Medical Entomology Certificate
• Pest Control Technology Certificate
• Urban Pest Management Certificate

The Department of Entomology and Nematology offers the major. Faculty within the department cover areas in systematics, ecology, medically significant arthropods, social insects, insect management, physiology, behavior, evolution and natural ecosystem cycles. The department has a long tradition of sending students to medical, veterinary and dental school. Graduate school prospects are also high and employment options using entomology are versatile.

Academic Learning Compact
The entomology and nematology curriculum develops an excellent knowledge base and an understanding of concepts and fundamental practices. Through formal courses, laboratory experimentation and individual research experience, students will learn how the scientific method is applied to the biological world at the whole organism and population levels. Students will learn to evaluate hypotheses, to acquire and interpret experimental data, and to communicate results effectively in appropriate styles. Special focus will be information on insect identification, morphology, behavior, physiology and ecology.

Before Graduating Students Must
• Pass the entomology and nematology competency exam, which will be tailored to individual specializations.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Identify insects and describe and explain insect morphology, physiology and behavior.

Critical Thinking
2. Acquire, analyze and synthesize entomological information.

Communication
3. Communicate proficiently in the sciences in oral and written forms.

Minimum grades of C are required for all core courses. Students must maintain a 2.0 cumulative GPA for specialization electives with no individual course grade less than C-.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260702&track=01) may be used for transfer students.

**Semester 1**
- Complete 2 of 5 critical-tracking courses, excluding labs: BSC 2010/BSC 2010L or BOT 2010C, BSC 2011/BSC 2011L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 1147
- 2.5 GPA on math and science courses
- 2.0 UF GPA required

**Semester 2**
- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA on math and science courses
- 2.0 UF GPA required

**Semester 3**
- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA on math and science courses
- 2.0 UF GPA required

**Semester 4**
- Complete all critical-tracking courses, including labs
- 2.5 GPA on math and science courses
- 2.0 UF GPA required
- 2.0 upper division GPA required

**Semester 6**
- Complete 2 major elective courses, excluding labs: ALS 4161, ALS 4162, ALS 4163, ENY 4660, ENY 4573, ENY 4453, ENY 4210, ENY 3510C, ENY 3225C, IPM 3022, PMA 4570C
- 2.0 UF GPA required
- 2.0 upper division GPA required

**Semester 7**
- Complete 1 additional major elective course, excluding labs
- 2.0 UF GPA required
- 2.0 upper division GPA required
### Semester 8

- Complete a minimum of 3 credits of ENY 4911 or ENY 4230
- 2.0 UF GPA required
- 2.0 upper division GPA required

#### Model Semester Plan

All entomology majors in this specialization must take three credits of ENY 4905 or ENY 4911. See advisor for details.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

Academic Learning Compact

The entomology and nematology curriculum develops an excellent knowledge base and an understanding of concepts and fundamental practices. Through formal courses, laboratory experimentation and individual research experience, students will learn how the scientific method is applied to the biological world at the whole organism and population levels. Students will learn to evaluate hypotheses, to acquire and interpret experimental data, and to communicate results effectively in appropriate styles. Special focus will be information on insect identification, morphology, behavior, physiology and ecology.

Before Graduating Students Must

• Pass the entomology and nematology competency exam, which will be tailored to individual specializations.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify insects and describe and explain insect morphology, physiology and behavior.

Critical Thinking

2. Acquire, analyze and synthesize entomological information.

Communication

3. Communicate proficiently in the sciences in oral and written forms.

Assessment Types

• Assignments
• Exams
• Course grades
• Research collection

Preprofessional

This biological science includes the study of insects, mites, ticks, spiders, and nematodes. These creatures can have both helpful and harmful effects on our food, environment, and health. Entomology and Nematology students study ecology, medically significant arthropods, social insects, insect management, physiology, behavior, evolution, natural ecosystem cycles, and systematics.

About this Program

• **College:** Agricultural and Life Sciences (p. 113)
• **Degree:** Bachelor of Science
• **Specializations:** Biological Science of Insects (p. 199) | Preprofessional (p. 203) | Urban Pest Management (p. 208)
• **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

**Department Information**

The Entomology and Nematology Department prepares students for exciting careers in a variety of fields. Entomology and Nematology majors can enter medical, dental, or veterinary school; progress to graduate study in any of several biological sciences such as ecology, nematology, entomology, horticulture, or zoology; or move directly to a variety of careers in fields such as pest management, ecotourism, or biosecurity.

**Curriculum**

- Combination Degrees
- Entomology and Nematology
- Entomology and Nematology Minor
- Landscape Pest Management Certificate
- Medical Entomology Certificate
- Pest Control Technology Certificate
- Urban Pest Management Certificate

The Department of Entomology and Nematology offers the major. Faculty within the department cover areas in systematics, ecology, medically significant arthropods, social insects, insect management, physiology, behavior, evolution and natural ecosystem cycles. The department has a long tradition of sending students to medical, veterinary and dental school. Graduate school prospects are also high and employment options using entomology are versatile.

**Preprofessional**

This option provides preparation for programs in medicine, dentistry, optometry, veterinary, chiropractic, osteopathy and podiatry. Students should refer to the preprofessional information in the college’s admission section and they should contact the Office of Health and Legal Professions Advising in the Academic Advising Center, 100 Farrior Hall.

Except with undergraduate coordinator permission, students are expected to complete the following courses on campus; other ENY courses can be taken online:

<table>

</tbody>
</table>

Minimum grades of C are required for all core courses. Students must maintain a 2.0 cumulative GPA for specialization electives with no individual course grade less than C-.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260702&track=01) may be used for transfer students.
Semester 1
• Complete 2 of 5 critical-tracking courses, excluding labs: BSC 2010/BSC 2010L or BOT 2010C, BSC 2011/BSC 2011L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2311
• 2.5 GPA on math and science courses
• 2.0 UF GPA required

Semester 2
• Complete 1 additional critical-tracking course, excluding labs
• 2.5 GPA on math and science courses
• 2.0 UF GPA required

Semester 3
• Complete 1 additional critical-tracking course, excluding labs
• 2.5 GPA on math and science courses
• 2.0 UF GPA required

Semester 4
• Complete all critical-tracking courses, including labs
• 2.5 GPA on math and science courses
• 2.0 UF GPA required
• 2.0 upper division GPA required

Semester 5
• Complete 2 major elective courses, excluding labs: ALS 4161, ALS 4162, ALS 4163, ENY 4660, ENY 4573, ENY 4210, ENY 3510C, ENY 3225C, IPM 3022, PMA 4570C
• 2.0 UF GPA required
• 2.0 upper division GPA required

Semester 6
• Complete 1 additional major elective course, excluding labs
• 2.0 UF GPA required
• 2.0 upper division GPA required

Semester 7
• Complete a minimum of 3 credits of ENY 4911 or ENY 4230
• 2.0 UF GPA required
• 2.0 upper division GPA required

Semester 8
• Complete a minimum of 3 credits of ENY 4911 or ENY 4230
• 2.0 UF GPA required
• 2.0 upper division GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria. This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

The department has a long tradition of sending students to medical, veterinary and dental school. Graduate school prospects are also high and employment options using entomology are versatile.

Urban Pest Management

This specialization is for entry to the pest control industry. Students receive instruction about arthropods, nematodes, plant diseases and weeds with reference to the pest problems in residential and commercial property. A business curriculum prepares students for management responsibilities. Students planning to attend graduate school should consult an advisor for appropriate math, chemistry and physics courses.

Except with undergraduate coordinator permission, students are expected to complete the following courses on campus; other ENY courses can be taken online:

# Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

The entomology and nematology curriculum develops an excellent knowledge base and understanding of concepts and fundamental practices. Through formal courses, laboratory experimentation and individual research experience, students will learn how the scientific method is applied to the biological world at the whole organism and population levels. Students will learn to evaluate hypotheses, acquire and interpret experimental data, and communicate results effectively in appropriate styles. Special focus will be on information on insect identification, morphology, behavior, physiology and ecology.

**Before Graduating Students Must**
- Pass the entomology and nematology competency exam, which will be tailored to individual specializations.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Identify insects and explain insect morphology, physiology, and behavior.

**Critical Thinking**
2. Acquire, analyze, and synthesize entomological information.

**Communication**
3. Communicate proficiently in the sciences in oral and written forms.

**Entomology and Nematology Minor**

The Entomology and Nematology minor is open to any student who wants additional knowledge in this biological science field.

**About this Program**

- **College:** Agricultural and Life Sciences (p. 113)
- **Credits:** 15 | Completed with minimum grades of C

**Department Information**

The Entomology and Nematology Department prepares students for exciting careers in a variety of fields. Entomology and Nematology majors can enter medical, dental, or veterinary school; progress to graduate study in any of several biological sciences such as ecology, nematology, entomology, horticulture, or zoology; or move directly to a variety of careers in fields such as pest management, ecotourism, or biosecurity.

**Website** (http://entomology.ifas.ufl.edu/)

P.O. Box 110620
Curriculum
- Combination Degrees
- Entomology and Nematology
- Entomology and Nematology Minor
- Landscape Pest Management Certificate
- Medical Entomology Certificate
- Pest Control Technology Certificate
- Urban Pest Management Certificate

Electives enable students to tailor the minor to their individual interests and career goals.

- Nine credits minimum of 3000/4000-level coursework (exclusive of practical problems)
- No more than three credits of practical problems courses
- Except with undergraduate coordinator permission, students are expected to complete the following on campus; other ENY courses can be taken online:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENY 3005</td>

Total Credits 15

1 Must be taken on campus.
2 Subject to the approval of the Department of Entomology and Nematology's undergraduate coordinator.

Environmental Horticulture Management Certificate

The Environmental Horticulture Management certificate is offered via distance learning technologies. The certificate enables the working professional and/or adult learner who is place-bound and cannot attend classes in Gainesville to gain a background in the sustainable ornamental horticulture practices used in the greenhouse/nursery and/or landscape industries. The program emphasizes the conservation of resources through proper plant management.

About this Program

- College: Agricultural and Life Sciences (p. 113)
- Credits: 15 | Completed with minimum grades of C
- Contact: Email (klock@ufl.edu) | 954.577.6328

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

Environmental Horticulture is the science and art of breeding, propagating, installing and maintaining plants to enhance the human and natural environment.

Environmental Horticulture Minor

The Environmental Horticulture minor helps students who seek employment opportunities associated with plant science, landscape, and nursery horticulture. The minor enables students to focus on a specialization area or to sample courses from other areas of environmental horticulture. Degree-seeking students at off-campus locations can also complete this minor.

### About this Program

- **College:** Agricultural and Life Sciences (p. 113)
- **Credits:** 15

### Department Information

Environmental Horticulture is the science and art of breeding, propagating, installing and maintaining plants to enhance the human and natural environment.

Environmental Management in Agriculture and Natural Resources | Interdisciplinary Studies

Using an interdisciplinary approach, students in this major develop the scientific and technical foundation needed to integrate and communicate the diverse environmental issues associated with urban, agricultural, and natural ecosystems. Environmental Management students study hydrology, soil science, pest management, water resources, ecology, and natural resource policy.

About this Program

- **College:** Agricultural and Life Sciences (p. 113)
- **School:** Natural Resources and Environment (p. 1633)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **More Info**

*To graduate with this major, students must complete all university, college, and major requirements.*
Department Information

The Soil and Water Sciences Department researches and teaches about soil, water, and environmental sciences in urban, agricultural, and natural ecosystems. Since its origins over 100 years ago, the department has made significant contributions to improving the productivity of Florida’s agriculture, helping protect the state’s unique ecosystems, and contributing to soil and water science at national and international levels.

Curriculum

- Combination Degrees
- Environmental Management in Agriculture and Natural Resources | Interdisciplinary Studies
- Environmental Management in Agriculture and Natural Resources | Interdisciplinary Studies UF Online
- Soil and Water Sciences
- Soil and Water Sciences Minor

This major is for students who desire education in environmental management with substantial emphasis on agriculture and natural resources.

Graduates will find employment with agricultural producers, consulting companies and government agencies that are involved in maintaining a sustainable environment.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=309999&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 6 critical-tracking courses, excluding labs:
  - AEC 3030C or SPC 2608, BSC 2005/BSC 2005L or BSC 2010/BSC 2010L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2233, STA 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs from semesters 1 – 4
- Complete 1 additional tracking course
• 2.0 GPA required for all critical-tracking courses
• 2.0 upper division GPA required
• 2.0 UF GPA required

**Semester 6**
• Complete 1 additional tracking course
• 2.0 upper division GPA required
• 2.0 UF GPA required

**Semester 7**
• Complete 2 additional tracking courses
• 2.0 upper division GPA required.
• 2.0 UF GPA required

**Semester 8**
• Complete all remaining tracking course from semester 5 - 8
• 2.0 upper division GPA required.
• 2.0 UF GPA required

---

**Model Semester Plan**

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The interdisciplinary major in environmental management in agriculture provides students with the scientific and technical foundation to integrate and communicate the diverse environmental issues associated with agriculture and natural resources. Students will be able to deal in an informed manner with the agricultural regulations and permitting requirements established by various agencies and jurisdictions, and students will achieve an appreciation for the complexities of agricultural practices. Students will learn to integrate, balance and communicate the mix of agricultural and environmental issues that need to be addressed in modern society.

Before Graduating Students Must

- Complete an approved senior-year research project, SWS 4905, related to management and science skills.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty committee.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Appraise similarities between agronomic production and environmental protection issues.
2. Describe the processes in the carbon, nitrogen, phosphorus, and sulfur cycles, and relate these processes to global patterns of productivity, pollution, and consequences of environmental change.

Critical Thinking
3. Critically evaluate natural resource policies using basic economic tools, identify factors that influence the success of resource policy implementation and apply ecological, social and political criteria.
4. Develop a plan for the analysis of an environmental / agricultural study using geographic information systems software.
5. Compare the effects of different fertility sources on nutrient cycling, interpret soil tests and quantify crop nutrient requirements and fertilizer application rates.

Communication
6. Create, interpret and analyze written text, oral messages and multimedia presentations used in agricultural and life sciences.

Curriculum Map

I = Introduced; R = Reinforced; A = Assessed
Environmental Management in Agriculture and Natural Resources | Interdisciplinary Studies UF Online

This degree program uses an interdisciplinary approach to provide the scientific and technical foundation needed to integrate and communicate the diverse environmental issues associated with urban, agricultural, and natural ecosystems. Students develop an understanding of the best use of our natural resources for their social and economic benefits while protecting associated resource values, property rights and the environment. This degree provides a solid grounding in the areas of hydrology, soil science, pest management, water resources, and agricultural ecology.

About this Program

- **College**: Agricultural and Life Sciences (p. 113)
- **School**: Natural Resources and Environment (p. 1633)
- **Degree**: Bachelor of Science

- **Contact**: 1.855.99GATOR
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Soil and Water Sciences Department researches and teaches about soil, water, and environmental sciences in urban, agricultural, and natural ecosystems. Since its origins over 100 years ago, the department has made significant contributions to improving the productivity of Florida's agriculture, helping protect the state's unique ecosystems, and contributing to soil and water science at national and international levels.

Curriculum
• Combination Degrees
• Environmental Management in Agriculture and Natural Resources | Interdisciplinary Studies
• Environmental Management in Agriculture and Natural Resources | Interdisciplinary Studies UF Online
• Soil and Water Sciences
• Soil and Water Sciences Minor

This major is for students who desire education in environmental management with substantial emphasis on agriculture and natural resources.

Graduates will find employment with agricultural producers, consulting companies and government agencies that are involved in maintaining a sustainable environment.

Critical Tracking
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=309999&track=01) may be used for transfer students.

Semester 1
• Complete 1 of 6 critical-tracking courses, excluding labs: AEC 3030C or SPC 2608, BSC 2005/BSC 2005L or BSC 2010/BSC 2010L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2233, STA 2023
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 2
• Complete 2 additional critical-tracking courses, excluding labs
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 3
• Complete 2 additional critical-tracking courses, excluding labs
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 4
• Complete 1 additional critical-tracking course, excluding labs
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 5
• Complete all critical-tracking courses, including labs from semesters 1 – 4
• Complete 1 additional tracking course
• 2.0 GPA required for all critical-tracking courses
• 2.0 upper division GPA required
• 2.0 UF GPA required

Semester 6
• Complete 1 additional tracking course
• 2.0 upper division GPA required
• 2.0 UF GPA required
Semester 7
- Complete 2 additional tracking courses
- 2.0 upper division GPA required.
- 2.0 UF GPA required

Semester 8
- Complete all remaining tracking course from semester 5 - 8
- 2.0 upper division GPA required.
- 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Environmental Policy, Law, and Regulation Certificate

This certificate prepares students with existing background in natural resources to work in legal and regulatory aspects of land management, including supporting the pursuit of a law degree. It prepares students for work in government agencies responsible for protecting environmental resources, in the private sector addressing issues of compliance, or similar.

About this Program

- **College**: Agricultural and Life Sciences (p. 113)
- **Credits**: 15-16 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

The School of Forest, Fisheries, and Geomatics Sciences is a unit within the Institute of Food and Agricultural Sciences (IFAS) and the College of Agricultural and Life Sciences (CALS). The school is home to three distinct yet integrated program areas: Fisheries and Aquatic Sciences (http://sfrc.ufl.edu/fish/), Forest Resources and Conservation (http://sfrc.ufl.edu/forest/), and Geomatics (http://sfrc.ufl.edu/geomatics/). The school’s faculty, staff, and students conduct research, teaching, and extension that cuts across a wide range of environments and disciplines.

### Extension Education Minor

This minor supplements the extension education major and prepares students for careers in the cooperative extension service. The minor offers coursework in nonformal and formal educational methods, adult education, leadership, youth programs, and communication methods along with field experience.

### About this Program

- **College**: Agricultural and Life Sciences (p. 113)
- **Credits**: 15

### Department Information

The UF/IFAS Department of Agricultural Education and Communication is a group of faculty, staff and students committed to connecting people with agriculture through agricultural communication, education, leadership development and Extension education.

Website ([https://aec.ifas.ufl.edu/](https://aec.ifas.ufl.edu/))

**Family, Youth and Community Sciences**

This social science major prepares students to address predictable human developmental changes, unpredictable events such as natural disasters, and persistent problems such as poverty and nutrition. Family, Youth and Community Sciences students study sociology, psychology, and economics as well as advanced topics in youth, family, and community development.

**About this Program**

- **College**: Agricultural and Life Sciences (p. 113)
- **Degree**: Bachelor of Science
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

**Department Information**

The mission of the Family, Youth and Community Sciences Department is to enhance lifelong learning and the personal, social, economic, and environmental well-being of diverse individuals, families, and communities through state-of-the-art extension, research, and teaching programs.

Map (http://campusmap.ufl.edu/#/index/0267)
Curriculum

- Combination Degrees
- Family, Youth and Community Sciences
- Family, Youth and Community Sciences Minor

This interdisciplinary applied social science program provides the general and technical education necessary for graduates to enter careers in human services, including public, private, nonprofit and for-profit organizations. This includes family life education, youth development, human services, community development and extension education. Students receive the training needed to understand and help youth, families and communities by taking foundation courses in sociology, psychology and economics as well as advanced courses in youth, family and community development.

Students must earn a minimum grade of C in all critical-tracking courses, 3000/4000-level core courses and specialization elective, which must be at the 3000/4000-level. A 2.5 GPA in the core courses is required for graduation.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=190707&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 5 critical-tracking courses, excluding labs, with a minimum grade of C: AEB 2014 or ECO 2013 or ECO 2023, BSC 2005/BSC 2005L, PSY 2012, STA 2023, SYG 2000
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding lab, with minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses, excluding labs, with minimum grades of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 1 additional critical-tracking course, excluding lab, with minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs, with minimum grades of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6

- Complete 1 Area of Specialization/Minor course
- Maintain GPA required for all Specialization/Minor courses
- 2.0 UF GPA Required
- 2.0 upper division GPA required

Semester 7

- Complete 1 Area of Specialization/Minor course
- Maintain GPA required for all Specialization/Minor courses
2.0 upper division GPA required
2.0 UF GPA Required

## Semester 8

- Completed all remaining FYC major required courses
- 2.0 upper division GPA required
- 2.0 UF GPA Required

### Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

This major takes an interdisciplinary approach to the applied social sciences and prepares students for a career in professions that strengthen families, children, youth and communities. Students’ knowledge and skills will be developed through foundation courses in sociology, psychology and economics; through advanced courses in family, youth and community development; and through specialized courses in prevention and intervention. Students will be able to evaluate strategies, integrate knowledge of ethical standards and use professional skills for handling contemporary problems.

Before Graduating Students Must

- Pass an exam on fundamental concepts given as part of FYC 4931.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty committee.
- Complete a final project in FYC 4931, including a written report and oral presentation.
- Complete the practicum course FYC 4941 with performance evaluations completed by agency supervisors.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Apply the guiding framework of human ecology and other related theories to contribute to positive outcomes for diverse families, youth and communities at home and abroad.
2. Apply strategies for prevention and intervention in contemporary family, youth and community problems and issues.

Critical Thinking
3. Apply current research findings relevant to families, youth and communities.
4. Integrate professional skills, ethical standards and knowledge needed to participate in and to provide leadership in civic and professional life.
Communication
5. Create, interpret and analyze written text, oral messages and multimedia presentations used in agricultural and life sciences and in family, youth and community sciences.

¹ Students must meet any prerequisites. See an FYCS advisor for more information.

## Fire Ecology and Management Certificate

This certificate provides a comprehensive foundation in fire ecology and management with an emphasis on practical, experiential learning grounded in current research that encompasses the many dimensions of wildland fire worldwide. Directed electives provide for additional focus in both ecological and communications areas.

## About this Program

- **College:** Agricultural and Life Sciences (p. 113)
- **Credits:** 15 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

## School Information

The School of Forest, Fisheries, and Geomatics Sciences is a unit within the Institute of Food and Agricultural Sciences (IFAS) and the College of Agricultural and Life Sciences (CALS). The school is home to three distinct yet integrated program areas: Fisheries and Aquatic Sciences (http://sfrc.ufl.edu/fish/), Forest Resources and Conservation (http://sfrc.ufl.edu/forest/), and Geomatics (http://sfrc.ufl.edu/geomatics/). The school's faculty, staff, and students conduct research, teaching, and extension that cuts across a wide range of environments and disciplines.

**CONTACT**

Email (sfrc@ifas.ufl.edu) | 352.846.0850 (tel) | 352.392.1707 (fax)
Students applying for the minor must obtain written approval from the undergraduate coordinator for fisheries and aquatic sciences at least two semesters before graduation.

**Requirements**
- Complete a minimum of nine credits at UF
- Complete a minimum of nine FAS credits at the 3000 level or above
  - FAS 4905 cannot be used to satisfy this requirement
  - Two credits maximum of FAS 4933 can apply toward this requirement
- Complete at least six credits, as approved by the FAS undergraduate coordinator
  - These may include FAS, FNR, GLY, OCE, SWS, VME, WIS and/or ZOO courses
  - Three credits maximum of FAS 4905 can apply toward this requirement
- One course maximum, or three credits, of scuba coursework can apply toward this requirement; approved courses include FAS 4932 Scientific Diver and FAS 4932 Research Dive Master.

**Food and Resource Economics**

Through curriculum and experiential learning, students develop the skills to analyze complex situations such as the allocation of natural resources to meet the needs of people in local, state, national, and global communities. Food and Resource Economics students study sales, finance, marketing, management, environmental policy, law, international trade, math and economics.

**About this Program**
- **College**: Agricultural and Life Sciences (p. 113)
- **Degree**: Bachelor of Science
  - **Specializations**: Food and Agribusiness Marketing and Management (p. 236) | International Food and Resource Economics (p. 240)
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

**Department Information**

Curriculum
• Agricultural and Natural Resource Ethics and Policy Minor
• Agricultural and Natural Resource Law Minor
• Combination Degrees
• Food and Resource Economics
• Food and Resource Economics Minor
• International Development and Humanitarian Assistance Minor

Graduates choose from a vast number of career opportunities, including sales, marketing, management, environmental policy, international trade, international marketing, economic analysis, natural resource management and human resource managements.

Students who have completed 30 credits but fewer than 60 are required to complete mathematics through precalculus (MAC 1147 or equivalent) before admission to the college.

Students who have completed 60 or more credits are required to have completed calculus (MAC 2233 or equivalent), statistics (STA 2023 or equivalent), financial accounting (ACG 2021 or equivalent) and macroeconomics (ECO 2013 or equivalent) with minimum grades of C before admission to the college.

Students should consult an advisor for approval of electives.

Academic Learning Compact
Students will learn to apply a conceptual framework using economic reasoning and generally accepted economic principles to problem solving. They will also learn to analyze and interpret economic data, and to critically evaluate economic information in media and politics.

Before Graduating Students Must
• Complete AEB 4325 for the food and agribusiness management and marketing specialization, or
  Complete AEB 4343 for the international food and resource economics specialization
• Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Describe fundamental micro- and macroeconomic principles.
2. Explain the basic role of marketing, management and finance in firm-level decision making.

Critical Thinking
3. Analyze and interpret economic data, critically evaluating economic information and economic policies.
4. Develop a business plan, based on a projected marketing strategy, assessing historic financial statements and projecting cash flows.

Communication
5. Communicate effectively in written form in a manner appropriate in economics and business.
6. Communicate orally (including visual aids) in an effective manner appropriate in economics and business.

Food and Agribusiness Marketing and Management

The specialization is for students interested in food and fiber systems management, marketing, finance and international business and employment opportunities and sales and managerial positions in agribusiness firms, commercial banks, the Farm Credit Service, insurance and appraisal firms.
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Students also must earn a minimum GPA of 2.25 in all AEB courses.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=010103&track=01) may be used for transfer students.

Semester 1
- Complete 1 of 4 critical courses: ACG 2021, ECO 2013, MAC 2233, STA 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2
- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3
- Complete MAC 2233
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4
- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5
- Complete all critical-tracking courses
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required
- 2.0 upper division GPA required

Semester 6
- Complete AEB 3510
- 2.0 upper division GPA required
- 2.25 GPA required for all AEB courses
- 2.0 UF GPA required

Semester 7
- Complete AEB 3550
- 2.0 upper division GPA required
- 2.25 GPA required for all AEB courses
- 2.0 UF GPA required

Semester 8
- 2.0 upper division GPA required
- 2.25 GPA required for all AEB courses
- 2.0 UF GPA required
# Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

Academic Learning Compact

Students will learn to apply a conceptual framework using economic reasoning and generally accepted economic principles to problem solving. They will also learn to analyze and interpret economic data, and to critically evaluate economic information in media and politics.

Before Graduating Students Must

- Complete AEB 4325 for the food and agribusiness management and marketing specialization, or
  Complete AEB 4343 for the international food and resource economics specialization
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe fundamental micro- and macroeconomic principles.
2. Explain the basic role of marketing, management and finance in firm-level decision making.

Critical Thinking

3. Analyze and interpret economic data, critically evaluating economic information and economic policies.
4. Develop a business plan, based on a projected marketing strategy, assessing historic financial statements and projecting cash flows.
Communication
5. Communicate effectively in written form in a manner appropriate in economics and business.
6. Communicate orally (including visual aids) in an effective manner appropriate in economics and business.

International Food and Resource Economics
Through curriculum and experiential learning, students develop the skills to analyze complex situations such as the allocation of natural resources to meet the needs of people in local, state, national, and global communities. Food and Resource Economics students study sales, finance, marketing, management, environmental policy, law, international trade, math and economics.

About this Program
- **College**: Agricultural and Life Sciences (p. 113)
- **Degree**: Bachelor of Science
- **Specializations**: Food and Agribusiness Marketing and Management (p. 236) | International Food and Resource Economics (p. 240)
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Curriculum
- Agricultural and Natural Resource Ethics and Policy Minor
- Agricultural and Natural Resource Law Minor
- Combination Degrees
- Food and Resource Economics
- Food and Resource Economics Minor
- International Development and Humanitarian Assistance Minor
Graduates choose from a vast number of career opportunities, including sales, marketing, management, environmental policy, international trade, international marketing, economic analysis, natural resource management and human resource managements.

Students who have completed 30 credits but fewer than 60 are required to complete mathematics through precalculus (MAC 1147 or equivalent) before admission to the college.

Students who have completed 60 or more credits are required to have completed calculus (MAC 2233 or equivalent), statistics (STA 2023 or equivalent), financial accounting (ACG 2021 or equivalent) and macroeconomics (ECO 2013 or equivalent) with minimum grades of C before admission to the college.

Students should consult an advisor for approval of electives.

**International Food and Resource Economics**

This specialization provides a broad background in economic theory and international development and policy. Many who choose this specialization are preparing for graduate school or for careers working for international organizations and governments.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

**Students also must earn a minimum GPA of 2.25 in all AEB courses.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=010103&track=01) may be used for transfer students.

**Semester 1**

- Complete 1 of 4 critical courses: ACG 2021, ECO 2013, MAC 2233, STA 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 2**

- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 3**

- Complete MAC 2233
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 4**

- Complete all critical-tracking courses
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 5**

- Complete all critical-tracking courses
- 2.0 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

**Semester 6**

- Complete AEB 3510
- 2.0 upper division GPA required
- 2.25 GPA required for all AEB courses
- 2.0 UF GPA required
Semester 7

- Complete AEB 3550
- 2.0 upper division GPA required
- 2.25 GPA required for all AEB courses
- 2.0 UF GPA required

Semester 8

- 2.0 upper division GPA required
- 2.25 GPA required for all AEB courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

- Food and Resource Economics Minor
- International Development and Humanitarian Assistance Minor

The student's academic advisor and the undergraduate coordinator in Food and Resource Economics must approve the courses for the minor at least two semesters before graduation.

AEB 3103 does not apply toward the minor.

Food Science

This major uses engineering, biological, and physical sciences to study the nature of foods, the causes of food deterioration, the principles underlying food processing, and the development and improvement of foods for consumption. Food Science students study organic and food chemistry, biology, physics, government regulations in the food industry, food engineering, and microbiology.

About this Program

- **College**: Agricultural and Life Sciences (p. 113)
- **Degree**: Bachelor of Science
- **Credits for Degree**: 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Food Science and Human Nutrition Department (FSHN) is one of the world's largest combined academic programs where food science, nutritional sciences, and dietetics are all studied within one department. FSHN has nearly 25 full-time faculty members, 80 graduate assistants, and 600 undergraduate students. The department's programs are accredited by the Institute of Food Technologists (IFT) (http://www.ift.org/) and the Academy of Nutrition and Dietetics (http://www.eatright.org/). After completing undergraduate degrees, FSHN students typically move on to employment in the food industry, healthcare settings, graduate, or professional programs.

Email (ljacosta@ufl.edu) | 352.392.1881 (tel) | 352.392.9467 (fax)

P.O. Box 110370
572 Newell Drive
The food science curriculum emphasizes a strong technical background, with elective options important to employment in the food industry, government agencies or as preparation for graduate study. The curriculum is approved by the Institute of Food Technologists (IFT), the professional society of the discipline. Graduates have obtained employment in state, national and international food corporations. Most work in the areas of quality control, technical support and sales, or research and product development.

The curriculum also prepares the student for graduate study. Opportunities to become involved in leadership roles in the FSHN Club and through national competitions are considerable. Internships in Florida food industries may be available, and these provide invaluable experience as well as contacts that can be extremely beneficial when seeking employment.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=011001&track=01) may be used for transfer students.

**Semester 1**
- Complete CHM 2045/CHM 2045L or MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 2**
- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 3**
- Complete CHM 2046/CHM 2046L and BSC 2010/BSC 2010L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 4**
- Complete BSC 2011/BSC 2011L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 5**
- Complete FOS 4722C
- 2.0 Upper Division GPA required
- 2.0 UF GPA required

**Semester 6**
- Complete FOS 4311/FOS 4311L
- 2.0 Upper Division GPA required
- 2.0 UF GPA required
Semester 7

- Complete FOS 4321C
- 2.0 Upper Division GPA required
- 2.0 UF GPA required

Semester 8

- Complete FOS 4435C
- 2.0 Upper Division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Food science applies the principles of chemistry, biology, physics and analysis to solve problems related to composition, reactions, processing, quality, safety and packaging of foods. Students will learn to apply principles of microbiology and quality control with regulatory requirements to assure the quality and safety of food products. Emphasis will be placed on food processing and engineering in selecting appropriate methods for commercial food production.

Before Graduating Students Must

- Successfully complete a product development project administered in FOS 4435C, the undergraduate capstone course. The skills to complete the project will have been acquired from the required food science courses. The project is evaluated using a rubric approved by a faculty committee.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty committee.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Apply principles of chemistry, biology, physics and analysis to solve problems related to composition, reactions, processing, quality, safety and packaging of foods.
2. Apply principles of microbiology and quality control, along with regulatory requirements, to assure the quality and safety of food products.
3. Apply principles of food processing and engineering to the selection of appropriate methods for commercial food production.

Critical Thinking
4. Analyze and interpret analytical data using knowledge and application of food science, technology and related tools.

Communication
5. Create, interpret and analyze written text, oral messages and multimedia presentations used in agricultural and life sciences.

Food Science Minor

Established in 1884, the mission of the College of Agricultural and Life Sciences is to deliver unsurpassed educational programs that prepare students to address the world’s critical challenges related to agriculture, food systems, human well-being, natural resources and sustainable communities.

Forest Resources and Conservation

Providing students with a solid understanding of ecology, this major prepares students to manage and develop forest areas for economic, recreational, and ecological purposes. Forest Resources and Conservation students study natural resource management and analysis, soil and water sciences, plant identification, law and policy, fire management, and natural resource economics.

About this Program

• **College**: Agricultural and Life Sciences (p. 113)
• **Degree**: Bachelor of Science in Forest Resources and Conservation
• **Specializations**: Environmental Pre-Law (p. 252) | Forest Business Management | (p. 257) Forest Resource Management (p. 262) | Protected Areas Management (p. 267) | Recreation Resources Management (p. 272) | Urban Forestry (p. 276) | Watershed Science and Management (p. 281)
• **Credits for Degree**: 120
• **Contact**: Email (khaselier@ufl.edu?Subject=Forest%20Resource%20Conservation%20Major)
• **More Info**

To graduate with this major, students must complete all university, college, and major requirements.
School Information
The School of Forest, Fisheries, and Geomatics Sciences is a unit within the Institute of Food and Agricultural Sciences (IFAS) and the College of Agricultural and Life Sciences (CALS). The school is home to three distinct yet integrated program areas: Fisheries and Aquatic Sciences (http://sfrc.ufl.edu/fish/), Forest Resources and Conservation (http://sfrc.ufl.edu/forest/), and Geomatics (http://sfrc.ufl.edu/geomatics/). The school's faculty, staff, and students conduct research, teaching, and extension that cuts across a wide range of environments and disciplines.

Specializations
Forest Resource Management
Accredited by the Society of American Foresters and is for students seeking careers as professional forest resource managers who apply science-based strategies to managing publicly and privately-owned forest lands.

Urban Forestry
Accredited by the Society of American Foresters and is for students with interests in forest management in the typically local-scale forests in urban-suburban landscapes, and at the interface of urban and undeveloped lands.

Environmental Pre-Law
Accredited by the Society of American Foresters and provides a solid basis of forest and natural resources science and management upon which is built a broad introduction to the policies, ethics, and processes affecting the use of natural resources.

Protected Areas Management
Accredited by the Society of American Foresters and is for students interested in managing lands for conservation and restoration purposes, usually on public lands managed by the government or by lands owned by private conservation organizations.

Recreation Resources Management
Accredited by the Society of American Foresters and focuses on the sustainable management of recreation lands as a natural resource and understanding human dimensions as related to their use.

Forest Business Management
Accredited by the Society of American Foresters and gives students a sound background in natural resource management and a broad introduction to business as appropriate for students interested in consulting, real estate or working for forest industry.

Watershed Science and Management
Prepares students to address the many and varied management issues associated with water resources, including wetlands, soils, policy, and water quality.
Academic Learning Compact

The forest resources and conservation major provides a broad education in the ecological, economic and social aspects of forest and natural resources and their management. The major also provides national accreditation from the Society of American Foresters.

Before Graduating Students Must

- Pass the forest resources and conservation competency exam, given in five parts. One part will be given in each of these required courses:

Critical Tracking
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=030501&track=02) may be used for transfer students.

Semester 1
• Complete 1 of 7 critical-tracking courses: AEB 2014 or ECO 2013 or ECO 2023, AEC 3030C or SPC 2608, AEC 3033C, BSC 2010/BSC 2010L, CHM 1030 or CHM 2045, MAC 1105, STA 2023
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 2
• Complete 2 additional critical-tracking courses
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 3
• Complete 2 additional critical-tracking courses
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 4
• Complete 2 additional critical-tracking courses
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 5
• Complete all 7 critical-tracking courses
• 2.5 GPA required for all critical-tracking courses
• 2.0 upper division GPA required
• 2.0 UF GPA required
Semester 6

- Complete 2 of the remaining required major courses: FNR 3131C, FOR 3200C, FNR 3410C, FOR 3202, FOR 3153C, FOR 3162C, FNR 4660, FNR 3020, FNR 4343C, FNR 4623C, FOR 3434C, FOR 3214
  - 2.0 upper division GPA required
  - 2.0 UF GPA required

Semester 7

- Complete 3 additional remaining required major courses: FNR 3131C, FOR 3200C, FNR 3410C, FOR 3202, FOR 3153C, FOR 3162C, FNR 4660, FNR 3020, FNR 4343C, FNR 4623C, FOR 3434C, FOR 3214
  - 2.0 upper division GPA required
  - 2.0 UF GPA required

Semester 8

- Complete all remaining required major courses.
  - 2.0 upper division GPA required
  - 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

### Total Credits

| Credits | 120 |

---

1. Can substitute ENC 2210 or ENC 3254.
2. Elective: FOR 2662 recommended, if not already taken; or FOR 3004 recommended.

Placement tests and/or prerequisites may be necessary for access to certain courses.

Course availability may necessitate departure from this course sequence. Except for certain courses where sequence is important, successful completion is more important than the sequence in which the courses are taken.

The summer term between the junior and senior year is normally reserved for professional work experience. For questions regarding opportunities, email (khaselier@ufl.edu?Subject=Forest%20Resources%20and%20Conservation%20Major) the SFRC Student Services office.

---

**Academic Learning Compact**

The forest resources and conservation major provides a broad education in the ecological, economic and social aspects of forest and natural resources and their management. The major also provides national accreditation from the Society of American Foresters.
Before Graduating Students Must

• Pass the forest resources and conservation competency exam, given in five parts. One part will be given in each of these required courses:

<table>

</tbody>
</table>

• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Demonstrate competency in biology/ecology, quantification, policy/administration and management of forest and related natural resources.

2. Analyze, interpret, synthesize and communicate information and data, including the use of mathematical and statistical methods.

Critical Thinking

3. Solve novel problems in forest and natural resource management.

Communication

4. Create, interpret and analyze written text, oral messages and multimedia presentations.

Forest Business Management

Providing students with a solid understanding of ecology, this major prepares students to manage and develop forest areas for economic, recreational, and ecological purposes. Forest Resources and Conservation students study natural resource management and analysis, soil and water sciences, plant identification, law and policy, fire management, and natural resource economics.

About this Program

• College: Agricultural and Life Sciences (p. 113)
• Degree: Bachelor of Science in Forest Resources and Conservation
  • Specializations: Environmental Pre-Law (p. 252) | Forest Business Management | (p. 257) Forest Resource Management (p. 262) | Protected Areas Management (p. 267) | Recreation Resources Management (p. 272) | Urban Forestry (p. 276) | Watershed Science and Management (p. 281)
To graduate with this major, students must complete all university, college, and major requirements.

School Information
The School of Forest, Fisheries, and Geomatics Sciences is a unit within the Institute of Food and Agricultural Sciences (IFAS) and the College of Agricultural and Life Sciences (CALS). The school is home to three distinct yet integrated program areas: Fisheries and Aquatic Sciences (http://sfrc.ufl.edu/fish/), Forest Resources and Conservation (http://sfrc.ufl.edu/forest/), and Geomatics (http://sfrc.ufl.edu/geomatics/). The school's faculty, staff, and students conduct research, teaching, and extension that cuts across a wide range of environments and disciplines.

Specializations
Forest Resource Management
Accredited by the Society of American Foresters and is for students seeking careers as professional forest resource managers who apply science-based strategies to managing publicly and privately-owned forest lands.

Urban Forestry
Accredited by the Society of American Foresters and is for students with interests in forest management in the typically local-scale forests in urban-suburban landscapes, and at the interface of urban and undeveloped lands.

Environmental Pre-Law
Accredited by the Society of American Foresters and provides a solid basis of forest and natural resources science and management upon which is built a broad introduction to the policies, ethics, and processes affecting the use of natural resources.

Protected Areas Management
Accredited by the Society of American Foresters and is for students interested in managing lands for conservation and restoration purposes, usually on public lands managed by the government or by lands owned by private conservation organizations.

Recreation Resources Management
Accredited by the Society of American Foresters and focuses on the sustainable management of recreation lands as a natural resource and understanding human dimensions as related to their use.
Forest Business Management
Accredited by the Society of American Foresters and gives students a sound background in natural resource management and a broad introduction to business as appropriate for students interested in consulting, real estate or working for forest industry.

Watershed Science and Management
Prepares students to address the many and varied management issues associated with water resources, including wetlands, soils, policy, and water quality.

Forest Business Management
This specialization provides a sound background in natural resource management and a broad introduction to business as appropriate for students interested in consulting, real estate or working for forest industry.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=030501&track=02) may be used for transfer students.

Semester 1
- Complete 1 of 7 critical-tracking courses: AEB 2014 or ECO 2013 or ECO 2023, AEC 3030C or SPC 2608, AEC 3033C, BSC 2010/BSC 2010L, CHM 1030 or CHM 2045, MAC 1105, STA 2023
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2
- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3
- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4
- Complete all 7 critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 5
- Complete 2 of the remaining required major courses: FNR 3131C, FOR 3200C, FNR 3410C, FOR 3202, FOR 3153C, FOR 3162C, FNR 4660, FOR 3206, FNR 4343C, FNR 4623C, FOR 3434C, FOR 3214
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6
- Complete 3 additional remaining required major courses: FNR 3131C, FOR 3200C, FNR 3410C, FOR 3202, FOR 3153C, FOR 3162C, FNR 4660, FOR 3206, FNR 4343C, FNR 4623C, FOR 3434C, FOR 3214
• 2.0 upper division GPA required
• 2.0 UF GPA required

**Semester 8**

• Complete all remaining required major courses
• 2.0 upper division GPA required
• 2.0 UF GPA required

### Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

Forest Resource Management

Providing students with a solid understanding of ecology, this major prepares students to manage and develop forest areas for economic, recreational, and ecological purposes. Forest Resources and Conservation students study natural resource management and analysis, soil and water sciences, plant identification, law and policy, fire management, and natural resource economics.

About this Program
• **College:** Agricultural and Life Sciences (p. 113)
• **Degree:** Bachelor of Science in Forest Resources and Conservation
• **Specializations:** Environmental Pre-Law (p. 252) | Forest Business Management | (p. 257) Forest Resource Management (p. 262) | Protected Areas Management (p. 267) | Recreation Resources Management (p. 272) | Urban Forestry (p. 276) | Watershed Science and Management (p. 281)
• **Credits for Degree:** 120
• **Contact:** Email (khasilier@ufl.edu?Subject=Forest%20Resources%20and%20Conservation%20Major)
• **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

School Information
The School of Forest, Fisheries, and Geomatics Sciences is a unit within the Institute of Food and Agricultural Sciences (IFAS) and the College of Agricultural and Life Sciences (CALS). The school is home to three distinct yet integrated program areas: Fisheries and Aquatic Sciences (http://sfrc.ufl.edu/fish/), Forest Resources and Conservation (http://sfrc.ufl.edu/forest/), and Geomatics (http://sfrc.ufl.edu/geomatics/). The school's faculty, staff, and students conduct research, teaching, and extension that cuts across a wide range of environments and disciplines.

Specializations

Forest Resource Management
Accredited by the Society of American Foresters and is for students seeking careers as professional forest resource managers who apply science-based strategies to managing publicly and privately-owned forest lands.

Urban Forestry
Accredited by the Society of American Foresters and is for students with interests in forest management in the typically local-scale forests in urban-suburban landscapes, and at the interface of urban and undeveloped lands.

Environmental Pre-Law
Accredited by the Society of American Foresters and provides a solid basis of forest and natural resources science and management upon which is built a broad introduction to the policies, ethics, and processes affecting the use of natural resources.

Protected Areas Management
Accredited by the Society of American Foresters and is for students interested in managing lands for conservation and restoration purposes, usually on public lands managed by the government or by lands owned by private conservation organizations.

Recreation Resources Management
Accredited by the Society of American Foresters and focuses on the sustainable management of recreation lands as a natural resource and understanding human dimensions as related to their use.

Forest Business Management
Accredited by the Society of American Foresters and gives students a sound background in natural resource management and a broad introduction to business as appropriate for students interested in consulting, real estate or working for forest industry.

Watershed Science and Management
Prepares students to address the many and varied management issues associated with water resources, including wetlands, soils, policy, and water quality.

Critical Tracking
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=030501&track=02) may be used for transfer students.

Semester 1
- Complete 1 of 7 critical-tracking courses: AEB 2014 or ECO 2013 or ECO 2023, AEC 3030C or SPC 2608, AEC 3033C, BSC 2010/BSC 2010L, CHM 1030 or CHM 2045, MAC 1105, STA 2023
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 2
• Complete 2 additional critical-tracking courses
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 3
• Complete 2 additional critical-tracking courses
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 4
• Complete 2 additional critical-tracking courses
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 5
• Complete all 7 critical-tracking courses
• 2.5 GPA required for all critical-tracking courses
• 2.0 upper division GPA required
• 2.0 UF GPA required

Semester 6
• Complete 2 of the remaining required major courses: FNR 3131C, FOR 3200C, FNR 3410C, FOR 3202, FOR 3153C, FOR 3162C, FNR 4660, FNR 3020, FNR 4343C, FNR 4623C, FOR 3434C, FOR 3214
• 2.0 upper division GPA required
• 2.0 UF GPA required

Semester 7
• Complete 3 additional remaining required major courses: FNR 3131C, FOR 3200C, FNR 3410C, FOR 3202, FOR 3153C, FOR 3162C, FNR 4660, FNR 3020, FNR 4343C, FNR 4623C, FOR 3434C, FOR 3214
• 2.0 upper division GPA required
• 2.0 UF GPA required

Semester 8
• Complete all remaining required major courses
• 2.0 upper division GPA required
• 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

**Credits 3**
Placement tests and/or prerequisites may be necessary for access to certain courses.

Course availability may necessitate departure from this course sequence. Except for certain courses where sequence is important, successful completion is more important than the sequence in which the courses are taken.

The summer term between the junior and senior year is normally reserved for professional work experience. For questions regarding opportunities, email (khaselier@ufl.edu?Subject=Forest%20Resources%20and%20Conservation%20Major) the SFRC Student Services office.

### Academic Learning Compact

The forest resources and conservation major provides a broad education in the ecological, economic and social aspects of forest and natural resources and their management. The major also provides national accreditation from the Society of American Foresters.

### Before Graduating Students Must

- Pass the forest resources and conservation competency exam, given in five parts. One part will be given in each of these required courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>FNR 3131C</td>
<td>Dendrology/Forest Plants</td>

<td>Integrated Natural Resource Management</td>
<td>3</td>
</tr>
<tr>
<td>FNR 4660</td>
<td>Natural Resource Policy and Economics</td>
<td>3</td>
</tr>
</tbody>
</table>

- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

**Student Learning Outcomes (SLOs)**

**Content**

1. Demonstrate competency in biology/ecology, quantification, policy/administration and management of forest and related natural resources.

2. Analyze, interpret, synthesize and communicate information and data, including the use of mathematical and statistical methods.

**Critical Thinking**

3. Solve novel problems in forest and natural resource management.

**Communication**

4. Create, interpret and analyze written text, oral messages and multimedia presentations.

- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Demonstrate competency in biology/ecology, quantification, policy/administration and management of forest and related natural resources.
2. Analyze, interpret, synthesize and communicate information and data, including the use of mathematical and statistical methods.

**Critical Thinking**

3. Solve novel problems in forest and natural resource management.

**Communication**

4. Create, interpret and analyze written text, oral messages and multimedia presentations.

Recreation Resources Management

Providing students with a solid understanding of ecology, this major prepares students to manage and develop forest areas for economic, recreational, and ecological purposes. Forest Resources and Conservation students study natural resource management and analysis, soil and water sciences, plant identification, law and policy, fire management, and natural resource economics.

About this Program

- **College**: Agricultural and Life Sciences (p. 113)
- **Degree**: Bachelor of Science in Forest Resources and Conservation
- **Specializations**: Environmental Pre-Law (p. 252) | Forest Business Management | (p. 257) Forest Resource Management (p. 262) | Protected Areas Management (p. 267) | Recreation Resources Management (p. 272) | Urban Forestry (p. 276) | Watershed Science and Management (p. 281)
- **Credits for Degree**: 120
- **Contact**: Email (khaselier@ufl.edu?Subject=Forest%20Resources%20and%20Conservation%20Major)
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

School Information

The School of Forest, Fisheries, and Geomatics Sciences is a unit within the Institute of Food and Agricultural Sciences (IFAS) and the College of Agricultural and Life Sciences (CALS). The school is home to three distinct yet integrated program areas: Fisheries and Aquatic Sciences (http://sfrc.ufl.edu/fish/), Forest Resources and Conservation (http://sfrc.ufl.edu/forest/), and Geomatics (http://sfrc.ufl.edu/geomatics/). The school's faculty, staff, and students conduct research, teaching, and extension that cuts across a wide range of environments and disciplines.

Specializations

Forest Resource Management

Accredited by the Society of American Foresters and is for students seeking careers as professional forest resource managers who apply science-based strategies to managing publicly and privately-owned forest lands.

Urban Forestry

Accredited by the Society of American Foresters and is for students with interests in forest management in the typically local-scale forests in urban-suburban landscapes, and at the interface of urban and undeveloped lands.
Environmental Pre-Law
Accredited by the Society of American Foresters and provides a solid basis of forest and natural resources science and management upon which is built a broad introduction to the policies, ethics, and processes affecting the use of natural resources.

Protected Areas Management
Accredited by the Society of American Foresters and is for students interested in managing lands for conservation and restoration purposes, usually on public lands managed by the government or by lands owned by private conservation organizations.

Recreation Resources Management
Accredited by the Society of American Foresters and focuses on the sustainable management of recreation lands as a natural resource and understanding human dimensions as related to their use.

Forest Business Management
Accredited by the Society of American Foresters and gives students a sound background in natural resource management and a broad introduction to business as appropriate for students interested in consulting, real estate or working for forest industry.

Watershed Science and Management
Prepares students to address the many and varied management issues associated with water resources, including wetlands, soils, policy, and water quality.

Recreation Resources Management
This specialization focuses on the sustainable management of recreation lands as a natural resource and understanding human dimensions as related to their use.

Critical Tracking
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=030501&track=02) may be used for transfer students.

Semester 1
- Complete 1 of 7 critical-tracking courses: AEB 2014 or ECO 2013 or ECO 2023, AEC 3030C or SPC 2608, AEC 3033C, BSC 2010/BSC 2010L, CHM 1030 or CHM 2045, MAC 1105, STA 2023
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2
- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3
- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4
- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5
- Complete all 7 critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
• 2.0 upper division GPA required
• 2.0 UF GPA required

**Semester 6**

- Complete 2 of the remaining required major courses: FNR 3131C, FOR 3200C, FNR 3410C, FOR 3202, FOR 3153C, FOR 3162C, FNR 4660, FNR 3020, FNR 4343C, FOR 4623C, FOR 3434C, FOR 3214
- 2.0 upper division GPA required
- 2.0 UF GPA required

**Semester 7**

- Complete 3 additional remaining required major courses: FNR 3131C, FOR 3200C, FNR 3410C, FOR 3202, FOR 3153C, FOR 3162C, FNR 4660, FNR 3020, FNR 4343C, FOR 4623C, FOR 3434C, FOR 3214
- 2.0 upper division GPA required
- 2.0 UF GPA required

**Semester 8**

- Complete all remaining required major courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

---

**Model Semester Plan**

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

<td>3</td>
</tr>
</tbody>
</table>

2. Complete requirements for the baccalaureate degree, as determined by faculty.

Placement tests and/or prerequisites may be necessary for access to certain courses.

Course availability may necessitate departure from this course sequence. Except for certain courses where sequence is important, successful completion is more important than the sequence in which the courses are taken.

The summer term between the junior and senior year is normally reserved for professional work experience. For questions regarding opportunities, email (khaselier@ufl.edu?Subject=Forest%20Resources%20and%20Conservation%20Major) the SFRC Student Services office.

Can substitute ENC 2210 or ENC 3254.

Elective: FOR 2662 recommended, if not already taken; or FOR 3004 recommended.
Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Demonstrate competency in biology/ecology, quantification, policy/administration and management of forest and related natural resources.
2. Analyze, interpret, synthesize and communicate information and data, including the use of mathematical and statistical methods.

Critical Thinking
3. Solve novel problems in forest and natural resource management.

Communication
4. Create, interpret and analyze written text, oral messages and multimedia presentations.

Watershed Science and Management

Providing students with a solid understanding of ecology, this major prepares students to manage and develop forest areas for economic, recreational, and ecological purposes. Forest Resources and Conservation students study natural resource management and analysis, soil and water sciences, plant identification, law and policy, fire management, and natural resource economics.

About this Program

- **College**: Agricultural and Life Sciences (p. 113)
- **Degree**: Bachelor of Science in Forest Resources and Conservation
- **Specializations**: Environmental Pre-Law (p. 252) | Forest Business Management | (p. 257) Forest Resource Management (p. 262) | Protected Areas Management (p. 267) | Recreation Resources Management (p. 272) | Urban Forestry (p. 276) | Watershed Science and Management (p. 281)
- **Credits for Degree**: 120
- **Contact**: Email (khaselier@ufl.edu?Subject=Forest%20Resources%20and%20Conservation%20Major)
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

School Information

The School of Forest, Fisheries, and Geomatic Sciences is a unit within the Institute of Food and Agricultural Sciences (IFAS) and the College of Agricultural and Life Sciences (CALS). The school is home to three distinct yet integrated program areas: Fisheries and Aquatic Sciences (http://sfrc.ufl.edu/fish/), Forest Resources and Conservation (http://sfrc.ufl.edu/forest/), and Geomatics (http://sfrc.ufl.edu/geomatics/). The school's faculty, staff, and students conduct research, teaching, and extension that cuts across a wide range of environments and disciplines.
Watershed Science and Management

This specialization prepares students to address the many and varied management issues associated with water resources, including wetlands, soils, policy, and water quality.

Curriculum

Specializations

Forest Resource Management
Accredited by the Society of American Foresters and is for students seeking careers as professional forest resource managers who apply science-based strategies to managing publicly and privately-owned forest lands.

Urban Forestry
Accredited by the Society of American Foresters and is for students with interests in forest management in the typically local-scale forests in urban-suburban landscapes, and at the interface of urban and undeveloped lands.

Environmental Pre-Law
Accredited by the Society of American Foresters and provides a solid basis of forest and natural resources science and management upon which is built a broad introduction to the policies, ethics, and processes affecting the use of natural resources.

Protected Areas Management
Accredited by the Society of American Foresters and is for students interested in managing lands for conservation and restoration purposes, usually on public lands managed by the government or by lands owned by private conservation organizations.

Recreation Resources Management
Accredited by the Society of American Foresters and focuses on the sustainable management of recreation lands as a natural resource and understanding human dimensions as related to their use.

Forest Business Management
Accredited by the Society of American Foresters and gives students a sound background in natural resource management and a broad introduction to business as appropriate for students interested in consulting, real estate or working for forest industry.

Watershed Science and Management
Prepares students to address the many and varied management issues associated with water resources, including wetlands, soils, policy, and water quality.
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=030501&track=02) may be used for transfer students.

Semester 1
• Complete 1 of 7 critical-tracking courses: AEB 2014 or ECO 2013 or ECO 2023, AEC 3030C or SPC 2608, AEC 3033C, BSC 2010/BSC 2010L, CHM 1030 or CHM 2045, MAC 1105, STA 2023
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 2
• Complete 2 additional critical-tracking courses
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 3
• Complete 2 additional critical-tracking courses
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 4
• Complete 2 additional critical-tracking courses
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 5
• Complete all 7 critical-tracking courses
• 2.5 GPA required for all critical-tracking courses
• 2.0 upper division GPA required
• 2.0 UF GPA required

Semester 6
• Complete 2 of the remaining required major courses: FNR 3131C, FOR 3200C, FNR 3410C, FOR 3202, FOR 3153C, FOR 3162C, FNR 4660, FNR 3020, FNR 4343C, FNR 4623C, FOR 3434C, FOR 3214
• 2.0 upper division GPA required
• 2.0 UF GPA required

Semester 7
• Complete 3 additional remaining required major courses: FNR 3131C, FOR 3200C, FNR 3410C, FOR 3202, FOR 3153C, FOR 3162C, FNR 4660, FNR 3020, FNR 4343C, FNR 4623C, FOR 3434C, FOR 3214
• 2.0 upper division GPA required
• 2.0 UF GPA required

Semester 8
• Complete all remaining required major courses
• 2.0 upper division GPA required
• 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.
This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

## Forest Resources and Conservation Minor

This minor introduces natural resource management and is ideal for students majoring in related fields such as wildlife ecology, soil and water science and environmental science. The minor also is a good option for those who are interested in the social aspects of natural resources with majors such as business, education, food and resource economics, and political science.

Gateway to Agroecology Certificate

The Gateway to Agroecology certificate offers students with no, or limited science background the opportunity to obtain foundational knowledge required to enter the UF Agroecology MS Concentration. Completion of this certificate does not ensure acceptance into the Agroecology MS Concentration. Admission decisions will be based on departmental requirements and discretion.

About this Program

- **College**: Agricultural and Life Sciences (p. 113)
- **Credits**: 9

*Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.*

Department Information

The Department of Agronomy's vision is to improve and sustain food production while conserving natural resources and promoting healthy and active lives by creating and disseminating knowledge in the plant sciences. The department's mission is to achieve excellence in the science of using plants for food, feed, fuel, fiber and turf, as well as in the management of weed species, through research, teaching, and outreach programs that serve the people of Florida, our nation, and the world.

Geomatics

The geomatics profession collects, manages, and analyzes geospatial data through ground surveying, photogrammetry, remote sensing, satellite positioning, inertial measurements, echo-sounding, and laser scanning. Geomatics students study geometry, statistics, boundary law, and surveying and mapping instrument usage.

About this Program

- **College**: Agricultural and Life Sciences (p. 113)
- **Degree**: Bachelor of Science in Geomatics
- **Specializations**: Geospatial Analysis (p. 290) | Surveying and Mapping (p. 294)

Curriculum

- Combination Degrees
- Fire Ecology and Management Certificate
- Fisheries and Aquatic Sciences Minor
- Forest Resources and Conservation
- Forest Resources and Conservation Minor
- Geomatics
- Geomatics Certificate
- Mapping with Small Unmanned Aerial Systems Certificate
- Natural Resource Conservation
Geomatics students learn how land, infrastructure, and natural resources are measured, analyzed, and integrated into useable forms and systems. Students gain hands-on experience working with field equipment and in high-tech classrooms. Present land values, rates of urban development, and environmental concerns require a broad set of expertise to develop, manage, and apply geospatial information. Students majoring in Geomatics complete either the Surveying and Mapping specialization or the Geospatial Analysis specialization.

Both specializations within the Geomatics major are offered at the Fort Lauderdale Research and Education Center in Ft. Lauderdale, FL, and the Gulf Coast Research and Education Center in Plant City, FL (near Tampa).

**Academic Learning Compact**

Geomatics addresses land information development and management through field survey, photogrammetry, remote sensing, satellite positions and other techniques. The program is nationally accredited and graduates often obtain licensure as professional surveyors and mappers.

A nationally accredited ABET (http://www.abet.org/) program.

**Before Graduating Students Must**

- Pass the geomatics competency exam, given in five parts. One part will be given in each of these required courses:

Geospatial Analysis

The geomatics profession collects, manages, and analyzes geospatial data through ground surveying, photogrammetry, remote sensing, satellite positioning, inertial measurements, echo-sounding, and laser scanning. Geomatics students study geometry, statistics, boundary law, and surveying and mapping instrument usage.

About this Program

- **College**: Agricultural and Life Sciences (p. 113)
- **Degree**: Bachelor of Science in Geomatics
- **Specializations**: Geospatial Analysis (p. 290) | Surveying and Mapping (p. 294)
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

School Information

The School of Forest, Fisheries, and Geomatics Sciences is a unit within the Institute of Food and Agricultural Sciences (IFAS) and the College of Agricultural and Life Sciences (CALS). The school is home to three distinct yet integrated program areas: Fisheries and Aquatic Sciences (http://sfrc.ufl.edu/fish/), Forest Resources and Conservation (http://sfrc.ufl.edu/forest/), and Geomatics (http://sfrc.ufl.edu/geomatics/). The school's faculty, staff, and students conduct research, teaching, and extension that cuts across a wide range of environments and disciplines.

Curriculum

- Combination Degrees
- Fire Ecology and Management Certificate
- Fisheries and Aquatic Sciences Minor
- Forest Resources and Conservation
- Forest Resources and Conservation Minor
- Geomatics
- Geomatics Certificate
- Mapping with Small Unmanned Aerial Systems Certificate
- Natural Resource Conservation

Geomatics students learn how land, infrastructure, and natural resources are measured, analyzed, and integrated into useable forms and systems. Students gain hands-on experience working with field equipment and in high-tech classrooms. Present land values, rates of urban development, and environmental concerns require a broad set of expertise to develop, manage, and apply geospatial information. Students majoring in Geomatics complete either the Surveying and Mapping specialization or the Geospatial Analysis specialization.

Both specializations within the Geomatics major are offered at the Fort Lauderdale Research and Education Center in Ft. Lauderdale, FL, and the Gulf Coast Research and Education Center in Plant City, FL (near Tampa).

Geospatial Analysis

The Geospatial Analysis specialization offers a broader set of courses in GIS and 3-D modeling.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=151102&track=01) may be used for transfer students.
Semester 1
• Complete at least 1 of 7 critical-tracking courses (excluding labs): AEB 2014 or ECO 2023 or ECO 2013, AEC 3030C or SPC 2800 or advisor-approved course in computer programming, MAC 2311, PHY 2053/PHY 2053L, PHY 2054/PHY 2054L and STA 2023
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 2
• Complete at least 2 additional critical-tracking courses, excluding labs
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 3
• Complete at least 2 additional critical-tracking courses, excluding labs
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 4
• Complete all critical-tracking courses including labs
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required
• 2.0 upper division GPA required

Semester 5
• Complete two of the remaining required major courses from SUR 3103C, SUR 3323, SUR 3641, GIS 3072C, AEB 3133 or MAN 3025, AEB 4123 or BUL 4310, SUR 3331C, SUR 4501C, SUR 3520, SUR 4949, FNR 3131C or FOR 4934, SUR 4530, SUR 4911, SUR 4380, SUR 4912, and SUR 4934 or SWS 4244 or AOM 4643 or FNR 4343C or FNR 4660 or GEO 3280
• 2.0 upper division GPA required
• 2.0 UF GPA required

Semester 6
• Complete three additional remaining required major courses from SUR 3103C, SUR 3323, SUR 3641, GIS 3072C, AEB 3133 or MAN 3025, AEB 4123 or BUL 4310, SUR 3331C, SUR 4501C, SUR 3520, SUR 4949, FNR 3131C or FOR 4934, SUR 4530, SUR 4911, SUR 4380, SUR 4912, and SUR 4934 or SWS 4244 or AOM 4643 or FNR 4343C or FNR 4660 or GEO 3280
• 2.0 upper division GPA required
• 2.0 UF GPA required

Semester 7
• Complete all remaining required major courses from SUR 3103C, SUR 3323, SUR 3641, GIS 3072C, AEB 3133 or MAN 3025, AEB 4123 or BUL 4310, SUR 3331C, SUR 4501C, SUR 3520, SUR 4949, FNR 3131C or FOR 4934, SUR 4530, SUR 4911, SUR 4380, SUR 4912, and SUR 4934 or SWS 4244 or AOM 4643 or FNR 4343C or FNR 4660 or GEO 3280
• 2.0 upper division GPA required
• 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Summer After Semester Six

SUR 4949 Co-op Work Experience (Critical Tracking) 6 1
SUR 4949 Co-op Work Experience (Critical Tracking) 6 1

Credits 2

Semester Seven

Select one:

FNR 3131C Dendrology/Forest Plants (Critical Tracking) 2-3
FOR 4934 Topics in Natural Resources (Florida Forest Communities, Critical Tracking) 3
SUR 4350C Advanced Photogrammetry (Critical Tracking) 5 3
SUR 4530 Geodesy and Geodetic Positioning (Critical Tracking) 5 3
SUR 4911 Supervised Research in Geomatics (Critical Tracking) 1

Select 6 approved credits:

Analysis electives
Geomatics electives
Geospatial Application electives

Credits 15-16

Semester Eight

SUR 4121 Geospatial Analysis 5 3
SUR 4380 Remote Sensing (Critical Tracking) 5 3
SUR 4912 Senior Project (Critical Tracking) 5 1

Select 3 approved credits:

Analysis electives
Geomatics electives
Geospatial application electives

Natural resources elective; Critical Tracking

Credits 3

Total Credits 120

1 FOR 3004 or SWS 3022 and SWS 3022L recommended.
2 GEO 2200 or GLY 2010C recommended.
3 May be used as substitutes:
   • MAC 1114 and MAC 2233 for MAC 2311
   • PHY 2004 and PHY 2004L for PHY 2053 and PHY 2053L
   • PHY 2005 and PHY 2005L for PHY 2054 and PHY 2054L
4 GEO 2200 or GLY 2010C recommended, if not already taken.
5 Minimum grade of C required.
6 Must take two sections of SUR 4949 concurrently.

Placement tests and/or prerequisites may be required to access certain courses.

Non-specified general education (GE) courses may be selected from any approved course in the subject area. Selection of courses must consider satisfaction of the writing requirement and international studies and diversity requirements.

---

Academic Learning Compact

Geomatics addresses land information development and management through field survey, photogrammetry, remote sensing, satellite positions and other techniques. The program is nationally accredited and graduates often obtain licensure as professional surveyors and mappers.

A nationally accredited ABET (http://www.abet.org/) program.

Before Graduating Students Must

- Pass the geomatics competency exam, given in five parts. One part will be given in each of these required courses:

2021-2022 UG PDF - DRAFT COPY 293
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Knowledge and competency in geometry, statistics, boundary law, surveying and mapping instrument usage and statutes and ordinances pertaining to professional practice.

Critical Thinking
2. Define problems, formulate solutions, assess legal evidence, interpret statistical results, design a system or process, and understand professional and ethical issues.

Communication
3. Create, interpret and analyze written text, oral messages and multimedia presentations.

Total Credits  

| 120 |

1. FOR 3004 or SWS 3022 and SWS 3022L recommended.
2. GEO 2200 or GLY 2010C recommended.
3. May be used as substitutes:
   - MAC 1114 and MAC 2233 for MAC 2311
   - PHY 2004 and PHY 2004L for PHY 2053 and PHY 2053L
   - PHY 2005 and PHY 2005L for PHY 2054 and PHY 2054L
4. GEO 2200 or GLY 2010C recommended, if not already taken.
5. Minimum grade of C required.
6. Must take two sections of SUR 4949 concurrently.

Placement tests and/or prerequisites may be required to access certain courses.

Non-specified general education (GE) courses may be selected from any approved course in the subject area. Selection of courses must consider satisfaction of the writing requirement and international studies and diversity requirements.

1. Minimum grade of C required
Academic Learning Compact

Geomatics addresses land information development and management through field survey, photogrammetry, remote sensing, satellite positions and other techniques. The program is nationally accredited and graduates often obtain licensure as professional surveyors and mappers.

A nationally accredited ABET (http://www.abet.org/) program.

Before Graduating Students Must

• Pass the geomatics competency exam, given in five parts. One part will be given in each of these required courses:

<table>

• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Knowledge and competency in geometry, statistics, boundary law, surveying and mapping instrument usage and statutes and ordinances pertaining to professional practice.

Critical Thinking

2. Define problems, formulate solutions, assess legal evidence, interpret statistical results, design a system or process, and understand professional and ethical issues.

Communication

3. Create, interpret and analyze written text, oral messages and multimedia presentations.

Geomatics Certificate

The geomatics certificate is offered via distance learning technologies. The certificate enables individuals without a bachelor's degree in geomatics or a similar field to complete the necessary academic coursework required for licensure as a professional surveyor and mapper (PSM).
About this Program

- **College:** Agricultural and Life Sciences (p. 113)
- **Credits:** 15 | Completed with minimum grades of C
- **Contact:** Email (shouder@ufl.edu) | 352.846.0146

*Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.*

School Information

The School of Forest, Fisheries, and Geomatics Sciences is a unit within the Institute of Food and Agricultural Sciences (IFAS) and the College of Agricultural and Life Sciences (CALS). The school is home to three distinct yet integrated program areas: Fisheries and Aquatic Sciences (http://sfrc.ufl.edu/fish/), Forest Resources and Conservation (http://sfrc.ufl.edu/forest/), and Geomatics (http://sfrc.ufl.edu/geomatics/). The school's faculty, staff, and students conduct research, teaching, and extension that cuts across a wide range of environments and disciplines.

Curriculum

- Combination Degrees
- Fire Ecology and Management Certificate
- Fisheries and Aquatic Sciences Minor
- Forest Resources and Conservation
- Forest Resources and Conservation Minor
- Geomatics
- Geomatics Certificate
- Mapping with Small Unmanned Aerial Systems Certificate
- Natural Resource Conservation

Students must have a high-school diploma or the equivalent and they must have completed all course prerequisites before enrolling in any course.

Degree-seeking geomatics majors are not eligible for this certificate.

Golf and Sports Turf Management Minor

The Golf and Sports Turf Management minor provides a basic understanding of turfgrass culture and knowledge of the turfgrass industry.
About this Program

- **College:** Agricultural and Life Sciences (p. 113)
- **Credits:** 15

Department Information

The Department of Agronomy’s vision is to improve and sustain food production while conserving natural resources and promoting healthy and active lives by creating and disseminating knowledge in the plant sciences. The department’s mission is to achieve excellence in the science of using plants for food, feed, fuel, fiber and turf, as well as in the management of weed species, through research, teaching, and outreach programs that serve the people of Florida, our nation, and the world.

Horticultural Science

Horticultural Science graduates have a foundation of knowledge in the science behind fruit and vegetable production, including commodity production, cropping systems, basic plant science, and molecular biology. Horticultural Science students study genetics, crop nutrition, plant physiology, chemistry, physics, entomology and nematology, and soil and water sciences.

About this Program

- **College:** Agricultural and Life Sciences (p. 113)
- **Degree:** Bachelor in Science
- **Specializations:** Organic Horticultural Systems (p. 303) | Plant Biotechnology and Improvement (p. 308) | Science and Technology of Horticultural Crops (p. 312)
- **Credits for Degree:** 120
- **More Info**
To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Horticultural Sciences Department is a team of faculty, staff, and students dedicated to improving fruit and vegetable production for the benefit of farmers and consumers. Florida's climatic diversity and the facilities at UF provide opportunities for cutting-edge research in plant breeding & genetics, plant and environmental physiology, fruit & vegetable production, postharvest physiology, biochemistry, and other disciplines.

Curriculum
• Combination Degrees
• Horticultural Science
• Horticultural Science Minor
• Horticultural Therapy Certificate
• Organic and Sustainable Crop Production Minor
• Plant Molecular and Cellular Biology Minor

The department offers three specializations: science and technology of horticultural crops, organic horticultural systems, and plant biotechnology and improvement. These options provide a strong science background and flexibility when choosing elective courses. An academic advisor will help develop the curriculum that best suits your career and educational goals.

Organic Horticultural Systems
This specialization emphasizes the cultural practices that maintain ecological and economical balance in horticultural crop production systems. This is a flexible option with many electives available to meet education and career objectives. Graduates will be prepared for a range of careers related to conventional, sustainable and organic crop production.

Plant Biotechnology and Improvement
This is a comprehensive program focusing on the molecular aspects of crops, including crop growth, development and cultivar improvement. This specialization is geared toward preparing for careers in laboratory research and is also an excellent preparation for pursuing graduate studies.

Science and Technology of Horticultural Crops
This specialization offers a generalized program, covering growth and development of horticultural crops. This is a flexible option that can be tailored to individual interests and career objectives, ranging from applied production to basic biology. Career options include commodity production and management, research biologist, marketing, agricultural chemical sales, fertilizer sales, produce buyer for grocery stores or restaurants, retail flower sales, and a number of other opportunities.

Academic Learning Compact
The horticultural science major prepares students for a career in plant science, including management, production, research, marketing and sales. Students will gain knowledge ranging from commodity production and cropping systems to basic plant science and molecular biology. They will develop skills to describe how plant physiology and genetics relate to plant growth and development as well as developing knowledge of plant diseases and other factors that affect horticultural crops.

Before Graduating Students Must
• Pass the horticultural sciences competency test, given in three parts. One part will be given in each of these required courses:

Organic Horticultural Systems

The department offers three specializations: science and technology of horticultural crops, organic horticultural systems, and plant biotechnology and improvement. These options provide a strong science background and flexibility when choosing elective courses. An academic advisor will help develop the curriculum that best suits your career and educational goals.

Organic Horticultural Systems

This specialization emphasizes the cultural practices that maintain ecological and economical balance in horticultural crop production systems. This is a flexible option with many electives available to meet education and career objectives. Graduates will be prepared for a range of careers related to conventional, sustainable and organic crop production.

Plant Biotechnology and Improvement

This is a comprehensive program focusing on the molecular aspects of crops, including crop growth, development and cultivar improvement. This specialization is geared toward preparing for careers in laboratory research and is also an excellent preparation for pursuing graduate studies.

Science and Technology of Horticultural Crops

This specialization offers a generalized program, covering growth and development of horticultural crops. This is a flexible option that can be tailored to individual interests and career objectives, ranging from applied production to basic biology. Career options include commodity production and management, research biologist, marketing, agricultural chemical sales, fertilizer sales, produce buyer for grocery stores or restaurants, retail flower sales, and a number of other opportunities.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=011103&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 5 critical-tracking courses, excluding labs: BOT 2010C or BSC 2010/BSC 2010L, BOT 2011C or BSC 2011/BSC 2011L, CHM 2045/CHM 2045L, MAC 1147, PHY 2004 or PHY 2020
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required
Semester 3
• Complete 1 additional critical-tracking course, excluding labs
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 4
• Complete 2 additional critical-tracking courses, excluding labs
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 5
• Complete all critical-tracking courses, including labs
• 2.0 GPA required for all critical-tracking courses
• Complete 1 of 4 upper division critical-tracking courses: HOS 3020C, HOS 4933, HOS 4304, HOS 4921
• 2.0 upper division GPA required
• 2.0 UF GPA required

Semester 6
• Complete 1 additional upper division critical-tracking course
• 2.0 upper division GPA required
• 2.0 UF GPA required

Semester 7
• Complete all upper division critical-tracking courses
• 2.0 upper division GPA required
• 2.0 UF GPA required

Semester 8
• Complete all upper division critical-tracking courses
• 2.0 upper division GPA required
• 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The horticultural science major prepares students for a career in plant science, including management, production, research, marketing and sales. Students will gain knowledge ranging from commodity production and cropping systems to basic plant science and molecular biology. They will develop skills to describe how plant physiology and genetics relate to plant growth and development as well as developing knowledge of plant diseases and other factors that affect horticultural crops.

Before Graduating Students Must

• Pass the horticultural sciences competency test, given in three parts. One part will be given in each of these required courses:

</tbody>
</table>

• Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.

• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe fundamental concepts, skills and processes in horticultural science.
2. Apply fundamental concepts, skills and processes in horticultural science.

Critical Thinking

3. Critically analyze and interpret data in horticultural science.
4. Solve problems in horticultural science.

Communication

5. Communicate effectively in written form in a manner appropriate in the field of horticultural science.
6. Communicate effectively orally in a manner appropriate in the field of horticultural science.

Plant Biotechnology and Improvement

Horticultural Science graduates have a foundation of knowledge in the science behind fruit and vegetable production, including commodity production, cropping systems, basic plant science, and molecular biology. Horticultural Science students study genetics, crop nutrition, plant physiology, chemistry, physics, entomology and nematology, and soil and water sciences.

About this Program

- **College**: Agricultural and Life Sciences (p. 113)
- **Degree**: Bachelor in Science
- **Specializations**: Organic Horticultural Systems (p. 303) | Plant Biotechnology and Improvement (p. 308) | Science and Technology of Horticultural Crops (p. 312)
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Horticultural Sciences Department is a team of faculty, staff, and students dedicated to improving fruit and vegetable production for the benefit of farmers and consumers. Florida's climatic diversity and the facilities at UF provide opportunities for cutting-edge research in plant breeding & genetics, plant and environmental physiology, fruit & vegetable production, postharvest physiology, biochemistry, and other disciplines.

Curriculum

- Combination Degrees
- Horticultural Science
- Horticultural Science Minor
- Horticultural Therapy Certificate
- Organic and Sustainable Crop Production Minor
- Plant Molecular and Cellular Biology Minor

The department offers three specializations: science and technology of horticultural crops, organic horticultural systems, and plant biotechnology and improvement. These options provide a strong science background and flexibility when choosing elective courses. An academic advisor will help develop the curriculum that best suits your career and educational goals.

Organic Horticultural Systems

This specialization emphasizes the cultural practices that maintain ecological and economical balance in horticultural crop production systems. This is a flexible option with many electives available to meet education and career objectives. Graduates will be prepared for a range of careers related to conventional, sustainable and organic crop production.
Plant Biotechnology and Improvement

This is a comprehensive program focusing on the molecular aspects of crops, including crop growth, development and cultivar improvement. This specialization is geared toward preparing for careers in laboratory research and is also an excellent preparation for pursuing graduate studies.

Science and Technology of Horticultural Crops

This specialization offers a generalized program, covering growth and development of horticultural crops. This is a flexible option that can be tailored to individual interests and career objectives, ranging from applied production to basic biology. Career options include commodity production and management, research biologist, marketing, agricultural chemical sales, fertilizer sales, produce buyer for grocery stores or restaurants, retail flower sales, and a number of other opportunities.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=011103&track=01) may be used for transfer students.

Semester 1

• Complete 1 of 6 critical-tracking courses, excluding labs: BSC 2010/BSC 2010L, BSC 2011/BSC 2011L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2311, PHY 2048/PHY 2048L or PHY 2053/PHY 2053L
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 2

• Complete 1 additional critical-tracking course, excluding labs
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 3

• Complete 2 additional critical-tracking courses, excluding labs
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 4

• Complete 2 additional critical-tracking courses, excluding labs
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 5

• Complete all critical-tracking courses, including labs
• 2.0 GPA required for all critical-tracking courses
• Complete 1 of 4 upper division critical-tracking courses: HOS 3020C, HOS 4933, HOS 4304, HOS 4921
• 2.0 upper division GPA required
• 2.0 UF GPA required

Semester 6

• Complete 1 additional upper division critical-tracking course
• 2.0 upper division GPA required
• 2.0 UF GPA required
**Semester 7**

- Complete 1 additional upper division critical-tracking course
- 2.0 upper division GPA required
- 2.0 UF GPA required

**Semester 8**

- Complete all upper division critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

---

**Model Semester Plan**

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

**Academic Learning Compact**

The horticultural science major prepares students for a career in plant science, including management, production, research, marketing and sales. Students will gain knowledge ranging from commodity production and cropping systems to basic plant science and molecular biology. They will develop skills to describe how plant physiology and genetics relate to plant growth and development as well as developing knowledge of plant diseases and other factors that affect horticultural crops.

**Before Graduating Students Must**

- Pass the horticultural sciences competency test, given in three parts. One part will be given in each of these required courses:

<table>
<thead>
<tr>

<tr>
<td>HOS 4304</td>
<td>Horticultural Physiology</td>
<td>3</td>
</tr>
<tr>
<td>HOS 4341</td>
<td>Advanced Horticultural Physiology</td>
<td>3</td>
</tr>
</tbody>
</table>

- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.

- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Describe fundamental concepts, skills and processes in horticultural science.
2. Apply fundamental concepts, skills and processes in horticultural science.

Critical Thinking
3. Critically analyze and interpret data in horticultural science.
4. Solve problems in horticultural science.

Communication
5. Communicate effectively in written form in a manner appropriate in the field of horticultural science.
6. Communicate effectively orally in a manner appropriate in the field of horticultural science.

Horticultural Science Minor

The Horticultural Science minor is open to any student who wants to explore an interest in fruits and vegetables.

About this Program

- **College**: Agricultural and Life Sciences (p. 113)
- **Credits**: 16
- **Contact**: Email (zxin@ufl.edu) | 352.273.4773

Department Information

The Horticultural Sciences Department is a team of faculty, staff, and students dedicated to improving fruit and vegetable production for the benefit of farmers and consumers. Florida's climatic diversity and the facilities at UF provide opportunities for cutting-edge research in plant breeding & genetics, plant and environmental physiology, fruit & vegetable production, postharvest physiology, biochemistry, and other disciplines.

### Horticultural Therapy Certificate

The Horticultural Therapy certificate is offered via distance learning technology to provide students a background in people/plant relationships and train them to develop activities, treatment plans, and programs using plants to achieve therapeutic outcomes. The curriculum aligns with the certification requirements of the American Horticultural Therapy Association for professional recognition as Horticultural Therapist-Registered (HTR).

**About this Program**

- **College**: Agricultural and Life Sciences (p. 113)
- **Credits**: 12 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

**Department Information**

The Horticultural Sciences Department is a team of faculty, staff, and students dedicated to improving fruit and vegetable production for the benefit of farmers and consumers. Florida’s climatic diversity and the facilities at UF provide opportunities for cutting-edge research in plant breeding & genetics, plant and environmental physiology, fruit & vegetable production, postharvest physiology, biochemistry, and other disciplines.

International Studies in Agricultural and Life Sciences Minor

Established in 1884, the mission of the College of Agricultural and Life Sciences is to deliver unsurpassed educational programs that prepare students to address the world’s critical challenges related to agriculture, food systems, human well-being, natural resources and sustainable communities.

About this Program

• **College:** Agricultural and Life Sciences (p. 113)
• **Credits:** 15
• **Contact:** Email (wysocki@ufl.edu) | 352.392.1963

Courses must be approved by the associate dean of the college.

The minor has three components:
1. At least six weeks abroad in an approved study abroad program, a cooperative work experience, an internship or a senior thesis project.
2. 9-12 credits in courses with an international focus and technical content related to agricultural and life sciences, selected from the list of approved courses or completed abroad as part of an approved study program.
3. 3-6 credits that focus on the history, social organization, culture or language of a nation or region abroad. These courses can also be completed abroad as part of an approved study program.

Landscape Pest Management Certificate

This certificate offers training to place-bound employees of the landscape management and pest control industries who desire advanced training in landscape (turf, shrub, and tree) pests. The scope of the program extends beyond horticultural insect pests to include nematodes and plant diseases.

About this Program

• **College:** Agricultural and Life Sciences (p. 113)
• **Credits:** 15-16 | Completed with minimum grades of C
• **Contact:** Email (capinera@ufl.edu) | 352.273.3905

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

The Entomology and Nematology Department prepares students for exciting careers in a variety of fields. Entomology and Nematology majors can enter medical, dental, or veterinary school; progress to graduate study in any of several biological sciences such as ecology, nematology, entomology, horticulture, or zoology; or move directly to a variety of careers in fields such as pest management, ecotourism, or biosecurity.

Leadership Minor

This interdisciplinary minor, in conjunction with the successful completion of the degree program, provides the fundamental skills and knowledge necessary to assume leadership, supervisory, or management positions in private companies and nonprofit organizations.

**About this Program**
- **College:** Agricultural and Life Sciences (p. 113)
- **Credits:** 15-16 | Completed with a minimum cumulative 3.0 GPA for courses in the minor
- **More Info**

**Department Information**
The UF/IFAS Department of Agricultural Education and Communication is a group of faculty, staff and students committed to connecting people with agriculture through agricultural communication, education, leadership development and Extension education.

Because the minor is interdisciplinary, it draws on the expertise of faculty and staff in colleges across campus, which may include Agricultural and Life Sciences, Business, Health and Human Performance, Journalism and Communications, and Liberal Arts and Sciences.

The minor is open to all students, although admission is by application. A cumulative 3.0 GPA is necessary and the minor must be added before a student completes 90 credits. Students must earn a minimum grade of B in AEC 3414 to continue in the minor.

### Management and Sales in Agribusiness Minor

This minor provides basic understanding and skills in agribusiness sales and management.

### About this Program

- **College:** Agricultural and Life Sciences (p. 113)
- **Credits:** 15 | Completed with minimum grades of C

The student's academic advisor and the undergraduate coordinator for Food and Resource Economics must approve courses in the minor at least one semester before graduation. AEB 3103 does not count toward the minor.
Mapping with Small Unmanned Aerial Systems Certificate

This certificate focuses on mapping using small Unmanned Aerial Systems (UASs) and the use of UASs as a geospatial data-acquisition tool. Well-suited for students studying geomatics, as well as disciplines which require high resolution geospatial information such as agriculture, forestry, wildlife management, mining, infrastructure planning and monitoring, and disaster management.

About this Program

• College: Agricultural and Life Sciences (p. 113)
• Credits: 9 | Completed with minimum grades of C
• Contact: Email (shouder@ufl.edu) | 352.846.0146

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

School Information

The School of Forest, Fisheries, and Geomatics Sciences is a unit within the Institute of Food and Agricultural Sciences (IFAS) and the College of Agricultural and Life Sciences (CALS). The school is home to three distinct yet integrated program areas: Fisheries and Aquatic Sciences (http://sfrc.ufl.edu/fish/), Forest Resources and Conservation (http://sfrc.ufl.edu/forest/), and Geomatics (http://sfrc.ufl.edu/geomatics/). The school’s faculty, staff, and students conduct research, teaching, and extension that cuts across a wide range of environments and disciplines.

### Marine Sciences | CALS

From oceans to coastal wetlands, students will learn about marine organisms and their behaviors and interactions with the environment. Marine Sciences students study oceanography, statistics, fisheries and aquatic sciences, and invertebrate biodiversity. Students can focus elective courses on ecology, organismal biology, economics, human dimensions, and/or quantitative or professional skills.

### About this Program

- **College:** Agricultural and Life Sciences (p. 113)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **More Info**

*To graduate with this major, students must complete all university, college, and major requirements.*

### Related Programs

- Combination Degrees
- Fisheries and Aquatic Sciences Minor
- Natural Resource Conservation

The university promotes an integrated approach to marine science education and research to prepare students for a variety of rewarding academic and professional careers. This major, offered cooperatively with the College of Liberal Arts and Sciences, allows students to tailor a curriculum that suits their interests and career goals.

The curriculum provides students with the core scientific and quantitative skills necessary for success. Lower-division courses build a strong foundation in basic sciences and math while upper-division courses provide opportunity for specialization. Students in the College of Agricultural and Life Sciences (CALS) complete an upper-division core that concentrates on biological and ecological marine science essentials while also giving students a critical understanding of how statistics and economics are integrated into marine science and resource management.

Students work closely with a faculty advisor to create an individualized curriculum plan of at least 18 approved elective credits and 15-16 hours of planned credits. These can include courses on resource management, human dimensions, conservation, quantitative population assessment and others. Students must complete their plans along with the approval of a faculty advisor before reaching 70 credits.

### Coursework for the Major

The major requires 120 credits and at least 30 credits of upper-division coursework in the major must be completed at UF.

Total Credits 86-87

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=309999&track=01) may be used for transfer students.

Semester 1

- Complete OCE 1001 and 1 of the following, excluding labs: BSC 2010/BSC 2010L, BSC 2011/BSC 2011L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2311, PHY 2004/PHY 2004L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all critical-tracking courses, including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required
- 2.0 Upper Division GPA required
Semester 6

- Complete 1 of the remaining required major courses from STA 2023, FAS 4202C, FAS 4270 or PCB 4460, FNR 3410C or STA 3024 or STA 4210 or STA 4222, FAS 4932, GLY 3083C, FNR 4660, ZOO 4205C
- Submit faculty advisor-approved Curriculum Plan
- 2.0 Upper Division GPA required
- 2.0 UF GPA required

Semester 7

- Complete 3 additional remaining required major courses
- 2.0 Upper Division GPA required
- 2.0 UF GPA required

Semester 8

- Complete all remaining required major courses
- 2.0 Upper Division GPA required
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

### Approved Electives

**APPROVED ELECTIVES | 18 CREDITS MINIMUM**

Students meet with a faculty advisor to establish a curriculum plan for approved electives and planned electives and may focus these toward a specific area or a minor. For a broader program, students should choose a minimum of three credits from each area of approved electives. Other options may include study abroad courses.

**Ecology and Organismal Biology**

Academic Learning Compact

This major provides integrative understanding of the basic concepts, theories and observational findings related to marine materials and processes, geologic time, the diversity of marine life, the structure and function of marine organisms and ecosystems and marine resource management.

The marine sciences major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences and utilizes faculty, courses and resources of the Fisheries and Aquatic Sciences Program (CALS), the Department of Geological Sciences (CLAS), the Department of Biology (CLAS), and the Department of Civil and Coastal Engineering (Herbert Wertheim College of Engineering).
Before Graduating Students Must

- Achieve a passing score on the subject test. The content of the examination has been reviewed and approved by the Marine Sciences Committee.
- Achieve a passing score on the analytical skills test. The content of the examination has been reviewed and approved by the Marine Sciences Committee.
- Achieve a passing score on the bioethics quiz. The content of the examination has been reviewed and approved by the Marine Sciences Committee.
- Achieve a passing score on the scientific literacy paper. This paper is assessed using a rubric that has been reviewed and approved by the Marine Sciences Committee.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Demonstrate competence in the basic terminology, concepts, methodologies and theories used within the marine sciences.

Critical Thinking
2. Analyze information in the marine sciences and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication
4. Communicate knowledge, ideas and reasoning clearly, effectively and objectively in written or oral forms appropriate to the marine sciences.

Medical Entomology Certificate

The Medical Entomology certificate offers place-bound employees working in mosquito control, public health, and related areas who required advanced training on medically important arthropods the option to complete a program through distance education and short courses. Coursework provides training in the areas of medically important arthropod biology, identification, and management for disease vectors.

About this Program

- **College**: Agricultural and Life Sciences (p. 113)
- **Credits**: 15 | Completed with minimum grades of C
- **Contact**: Email (capinera@ufl.edu) | 352.273.3905

*Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.*
Department Information
The Entomology and Nematology Department prepares students for exciting careers in a variety of fields. Entomology and Nematology majors can enter medical, dental, or veterinary school; progress to graduate study in any of several biological sciences such as ecology, nematology, entomology, horticulture, or zoology; or move directly to a variety of careers in fields such as pest management, ecotourism, or biosecurity.

Microbiology and Cell Science UF Online
The Bachelor of Science in Microbiology and Cell Science offers a flexible curriculum that develops an excellent knowledge base and an understanding of concepts in microbiology, cell biology and the bio-molecular sciences. Emphasis is placed on application of the scientific method to gain an understanding of the biological world at the cellular and molecular levels. Students learn to evaluate hypotheses, interpret experimental data, and communicate results effectively.
About this Program

- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **More Info**

*To graduate with this major, students must complete all university, college, and major requirements.*

Department Information

The Department of Microbiology and Cell Science is committed to excellence in education, research and service to the community. The curriculum provides an excellent preparation for students who wish to enter the workforce or continue their education in professional programs such as medical, dental, pharmacy, veterinary programs, graduate school or public health degrees. B.S. degrees are offered through both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences and the M.S. and Ph.D. degrees are offered through the College of Agricultural and Life Sciences. Combination degrees are available.

Curriculum

- Bioinformatics Minor
- Combination Degrees
- Microbiology and Cell Science UF Online
- Microbiology and Cell Science | CALS
- Microbiology and Cell Science | CLAS
- Pathogenesis Minor

This major prepares students for entry into professional programs in medicine, dentistry and veterinary medicine and provides a strong foundation for graduate studies in microbiology, cell biology and related cellular and biomedical sciences. The major also provides a background for entry into government, industrial research and diagnostic laboratories.

The curriculum develops fundamental knowledge of prokaryotic and eukaryotic cells and viruses. Courses include the physiology and genetics of microorganisms, mechanisms of pathogenesis and innate immunity systems, astrobiology, bacterial and genome sequencing and bioinformatics.

Coursework for the Major

All majors must take 28-29 credits: 15 credits are core requirements, 10 credits are upper-division department electives and 3-4 credits are the quantitative requirement. A minimum of one credit in an advanced laboratory is required as part of the 10 department-elective credits.

Minimum grades of C, attained within two attempts (including withdrawals), are required in all critical-tracking courses, major courses, department core requirements, department electives and the quantitative requirement. Second attempts must be completed the next semester of enrollment. A 2.0 cumulative GPA of also is required.

- MCB 4203: Bacterial Pathogens
- MCB 4320C: The Microbiome
- MCB 4403: Prokaryotic Cell Structure and Function
- MCB 4503: General Virology
- MCB 4782: Extremophiles
- PCB 3134: Eukaryotic Cell Structure and Function
- ZOO 4232: Human Parasitology

### Quantitative Requirement

- STA 2023: Introduction to Statistics 1

### General Elective Requirement

General elective coursework at the University of Florida (any 3000/4000 level course will be accepted) 5

### Total Credits

85-90

---

1. All majors must complete the biology and general chemistry sequences and calculus by the end of the sophomore year. To continue in the major, students must attain a minimum 2.5 cumulative GPA in these graded courses with no grade lower than a C.
2. Must be completed by the end of tracking term five.
3. Students must take MCB 4203 or PCB 4233 as a core course. If they take both, one will count as a core course and the other will roll over into the 10-credit department elective requirement.
4. Often used for TA lab positions. TA positions may be repeated for two semesters with one lab assignment per semester.
5. Enrollment in MCB 4911, MCB 4905 and MCB 4934 will not fulfill any credits toward the microbiology department elective requirements; they will count only as general elective credit toward the 120 credits for the B.S. degree.

---

### Course Details

MCB 4911 may be taken for a maximum of three credits per semester and six credits total. This policy applies to all microbiology and cell science majors registered for undergraduate research in other out-of-department undergraduate research courses such as BCH 4905, BMS 4905, ZOO 4905, etc.
Undergraduate Research
A majority of MCS students are actively involved in undergraduate research for credit with mentors throughout the university. The department encourages preprofessional and graduate school bound students to complete a minimum of two semesters of undergraduate research. The department maintains a list of mentors across campus who allow undergraduate students to participate in valuable research under their guidance. Additional information is available about undergraduate research and faculty mentors who have worked with microbiology and cell science students. More Info (http://microcell.ufl.edu/undergraduate-programs/)

Combination Degree Program
A Bachelor of Science and Master of Science (non-thesis) program is offered by the College of Agricultural and Life Sciences. Microbiology majors in both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences are eligible for admission to the combination degree program. Students should email for an appointment to determine their eligibility for this program. More Info (jorsini@ufl.edu?Subject=Microbiology%20and%20Cell%20Science%20Combination-Degree%20Appointment)

Preparation for Graduate Study
This major prepares students for entry into graduate studies in microbiology, cell biology, biochemistry and other areas. All students interested in graduate education should develop a strong background in chemistry. Suggested schedules for students who plan to attend graduate school are available on the website. Students planning graduate study in microbiology, biochemistry or molecular biological sciences should consider taking these courses:

Relevant Minors and/or Certificates
The Department of Microbiology and Cell Science also offers a minor in bioinformatics to students majoring in any life sciences subject, including and not limited to microbiology, biology or biochemistry.

So integrated is bioinformatics with the life sciences that it is difficult to find an active research program that does not rely on bioinformatic analysis to achieve results. By integrating bioinformatic and traditional methods, the minor in bioinformatics provides critical training to future professionals in the life science disciplines.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260503&track=01) may be used for transfer students.

Semester 1
- Complete CHM 1025 or CHM 2045/CHM 2045L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2
- Complete CHM 2045/CHM 2045L and BSC 2010/BSC 2010L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required
### Semester 3
- Complete CHM 2046/CHM 2046L and MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester 4
- Complete BSC 2011/BSC 2011L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester 5
- Complete CHM 2210
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester 6
- Complete MCB 3023
- 2.0 Upper division GPA required
- 2.0 UF GPA required

### Semester 7
- Complete MCB 4203 (Fall) or PCB 4233 (Spring) or PCB 3134 (fall/spring) or MCB 4403 (Fall)
- 2.0 Upper division GPA required
- 2.0 UF GPA required

### Semester 8
- Complete MCB 4034L
- 2.0 Upper division GPA required
- 2.0 UF GPA required

---

### Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

**Total Credits**

120
1. ENC 1101 recommended.
2. MCB 4203 is taught only in the fall; PCB 4233 is taught only in the spring.
3. Choice depends on courses taken in Semesters Three and Four.
4. MCB 4304 is taught only in the fall; PCB 4522 is taught only in the spring.

**Academic Learning Compact**

The Bachelor of Science in microbiology and cell science, offered by both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences, offers students flexibility in a curriculum that develops an excellent knowledge base and an understanding of concepts in microbiology, cell biology, and the biomolecular sciences. Emphasis will be placed on application of the scientific method to gain an understanding of the biological world at the cellular and molecular levels. Students will learn to evaluate hypotheses, to interpret experimental data and to communicate results effectively.

**Before Graduating Students Must**

Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Describe fundamental concepts, skills and processes in microbiology, molecular biology and in host/pathogen interactions.
2. Apply fundamental concepts, skills and protocols used to conduct research in fields of microbiology, molecular biology and in host/pathogen.

**Critical Thinking**

3. Evaluate information and data in the general areas of microbiology and the cellular and molecular biological sciences.
4. Solve typical problems that are encountered in general areas of microbiology and cellular and molecular biological sciences.

**Communication**

5. Communicate effectively in written form in a manner appropriate in microbiology and the cellular and molecular biological sciences.
6. Communicate orally (including visual aids) in an effective manner appropriate in microbiology and the cellular and molecular biological sciences.

**Curriculum Map**

- Final grades
Microbiology and Cell Science | CALS

The study of small living organisms, Microbiology and Cell Science includes emphasis on molecular biology and genetics; immunology; virology; host-pathogen interactions; cellular ultrastructure; environmental microbiology; and microbial physiology, metabolism and regulation. Microbiology and Cell Science students study chemistry, physics, bacterial pathogens, and genetics.

About this Program

- **College:** Agricultural and Life Sciences (p. 113)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Microbiology and Cell Science is committed to excellence in education, research and service to the community. The curriculum provides an excellent preparation for students who wish to enter the workforce or continue their education in professional programs such as medical, dental, pharmacy, veterinary programs, graduate school or public health degrees. B.S. degrees are offered through both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences and the M.S. and Ph.D. degrees are offered through the College of Agricultural and Life Sciences. Combination degrees are available.

Curriculum
- Bioinformatics Minor
- Combination Degrees
- Microbiology and Cell Science UF Online
- Microbiology and Cell Science | CALS
- Microbiology and Cell Science | CLAS
- Pathogenesis Minor

The curriculum develops fundamental knowledge of prokaryotic and eukaryotic cells and viruses. Courses include the physiology and genetics of microorganisms, mechanisms of pathogenesis and innate immunity systems, astrobiology, bacterial and genome sequencing and bioinformatics.

Coursework for the Major

All majors must take 28 credits: 18 credits are core requirements, 7 credits are department electives and 3 credits are the quantitative requirement. A minimum of one credit in an advanced laboratory is required as part of the 7 department-elective credits.

Minimum grades of C, attained within two attempts (including withdrawals), are required in all critical-tracking courses, major courses, department core requirements, department electives and the quantitative requirement. Second attempts must be completed the next semester of enrollment. A 2.0 cumulative GPA of also is required.

Total Credits 21

If students take both "or" classes, one will count as a core course and the other will roll over into the 7-credit department elective requirement.

Department Elective Requirements

A total of 7 credits of approved department electives, including one credit in an advanced lab, are required. The list of approved department electives is available on the department website. A maximum of four credits of approved department electives may be taken in other departments. The remaining six credits must be chosen from approved department electives.
More Info (http://microcell.ufl.edu/undergraduate-programs/)

Programming or Biostatistics with Programming Requirement

A total of 3 credits of approved courses meets this requirement. Select from BSC 2891, MCB 4325C, or any equivalent programming class. Several of these courses are also department electives and cannot be used to fulfill both the quantitative and the department elective requirements. No overlap is allowed. STA 2023 will not fulfill this requirement.

Course Details

MCB 4911 may be taken for a maximum of three credits per semester and six credits total. This policy applies to all microbiology and cell science majors registered for undergraduate research in other out-of-department undergraduate research courses such as BCH 4905, BMS 4905, ZOO 4905, etc.

MCB 4934 is often used for TA positions as Supervised Teaching. TA positions may be repeated for two semesters with one lab assignment per semester.
Enrollment in MCB 4911, MCB 4905, and MCB 4934 will not fulfill any credits toward the microbiology department elective requirements; they will count only as general elective credit toward the 120 credits for the B.S. degree.

### Relevant Minors and/or Certificates
The Department of Microbiology and Cell Science also offers a minor in bioinformatics to students majoring in any biology-related subject, including and not limited to microbiology, biology, or biochemistry.

More Info (p. 152)

So integrated is bioinformatics with biology that it is difficult to find an active research program that does not rely on bioinformatic analysis to achieve results. Unfortunately, the integration of bioinformatic and traditional methods is not stressed in many undergraduate programs, leaving the next generation of biologists without the skills they need to succeed in tomorrow's research environment. The undergraduate minor in bioinformatics provides this critical training to future professionals in the biological disciplines.

### Research
A majority of majors are actively involved in undergraduate research for credit with mentors throughout the university. Preprofessional and graduate school-bound majors are encouraged to do a minimum of two semesters of undergraduate research. The department has a comprehensive list of mentors across campus who allow undergraduate students to do valuable research under their guidance. Please refer to the department website for more information on undergraduate research, finding a mentor and a contact list of UF faculty who have worked with microbiology and cell science majors.

More Info (http://microcell.ufl.edu/programs/)

Enrollment in MCB 4911 will not fulfill any credits toward the microbiology major requirements; they will count only as general elective credit toward the 120 credits for the B.S. degree.

---

### Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260503&track=01) may be used for transfer students.

#### Semester 1
- Complete CHM 1025 or CHM 2045/CHM 2045L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 2
- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 3
- Complete CHM 2046/CHM 2046L and BSC 2010/BSC 2010L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 4
- Complete BSC 2011/BSC 2011L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 5
- Complete CHM 2210
- 2.5 GPA required for all critical-tracking courses
• 2.0 upper division GPA required
• 2.0 UF GPA required

Semester 6
• Complete MCB 3023
• 2.0 upper division GPA required
• 2.0 UF GPA required

Semester 7
• Complete MCB 4203 (Fall) or PCB 4233 (Spring) or PCB 3134 (Fall/Spring) or MCB 4403 (Fall)
• 2.0 upper division GPA required
• 2.0 UF GPA required

Semester 8
• Complete MCB 4034L
• 2.0 upper division GPA required
• 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S).

Degree Comparison between the Colleges

**Student Learning Outcomes (SLOs)**

**Content**

1. Describe fundamental concepts, skills and processes in microbiology, molecular biology and in host/pathogen interactions.
2. Apply fundamental concepts, skills and protocols used to conduct research in fields of microbiology, molecular biology and in host/pathogen.

**Critical Thinking**

3. Evaluate information and data in the general areas of microbiology and the cellular and molecular biological sciences.
4. Solve typical problems that are encountered in general areas of microbiology and cellular and molecular biological sciences.

**Communication**

5. Communicate effectively in written form in a manner appropriate in microbiology and the cellular and molecular biological sciences.
6. Communicate orally (including visual aids) in an effective manner appropriate in microbiology and the cellular and molecular biological sciences.

- Final grades

**Natural Resource Conservation**

Conservationists protect and sustain our world’s natural resources for future generations. Well-versed in economics and communications, Natural Resource Conservation students are equipped with strong analytical, critical thinking, and interpersonal skills. Natural Resource Conservation students study chemistry; biology; ecology; and forest, wildlife, fisheries, and aquatic resources.
About this Program

- **College**: Agricultural and Life Sciences (p. 113)
- **Degree**: Bachelor of Science in Forest Resources and Conservation
- **Credits for Degree**: 120

- **More Info**

*To graduate with this major, students must complete all university, college, and major requirements.*

Department Information

The Department of Wildlife Ecology and Conservation fosters education, expands knowledge, and rewards scholarship, using multi-disciplinary approaches for the purpose of understanding, managing, and conserving biological resources.

Curriculum

- Combination Degrees
- Wildlife Ecology and Conservation
- Wildlife Ecology and Conservation Minor

Related Programs

*No results were found.*

The Natural Resource Conservation (NRC) major provides students an interdisciplinary curriculum preparing them to address a broad range of natural resource-related issues. The core set of courses provides students with a solid foundation in natural history (floral and faunal), ecology, policy and economics, field applications, quantitative assessment and analysis, human dimensions, and spatial analysis. Working with a faculty advisor, students can elect to focus on a wide range of natural resource-related courses. In the required capstone experience, students demonstrate their understanding and proficiency in the core skill sets, as well as further develop their area of concentration.

Graduates seek advanced degrees in a variety of fields, or are successfully employed in a wide range of environmental careers. The major is cooperatively offered by faculty in the School of Forest Resources & Conservation, the Department of Wildlife Ecology and Conservation, and the Program in Fisheries and Aquatic Sciences, and students are paired with one of these faculty members to develop a curriculum that suits their needs. Students interested in more structured and/or accredited curricula in professional natural resource management are encouraged to look at majors in Forest Resources and Conservation, Wildlife Ecology and Conservation, or Interdisciplinary Studies | Marine Sciences.

All NRC majors are required to complete core work in nine content areas (minimum 25 credits): professional seminar, ecology, quantitative analysis and assessment, natural history, human dimensions, policy and economics, field applications, spatial analysis, and capstone experience. These courses embrace a variety of conservation objectives and span local to global scales. They stress the complexities in achieving social, environmental, and economic sustainability; develop critical thinking skills; create significant and valuable field experience; and provide the tools needed for graduates to manage, conserve, and educate people about natural resources.

Students work closely with a faculty advisor to select the remaining 35 upper-division credits to create a curriculum plan designed to meet the specific goals of each student. Each curriculum plan must be approved by the program's undergraduate coordinator before the student reaches 70 credits.

This major is also offered at the West Florida Research and Education Center in Milton, FL. Ideal for place-bound students, this version of the NRC major provides a broad ecology/conservation curriculum.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites ([http://www.flvc.org/cpp/displayRecord.jsp?cip=030501&track=01](http://www.flvc.org/cpp/displayRecord.jsp?cip=030501&track=01)) may be used for transfer students.
### Semester 1
- Complete at least 1 of 7 critical-tracking courses (excluding labs): AEB 2014 or ECO 2013 or ECO 2023, AEC 3030C or SPC 2608, AEC 3033C, BSC 2010/BSC 2010L, CHM 1030 or CHM 2045, MAC 1105, STA 2023
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester 2
- Complete at least 2 additional critical-tracking courses, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester 3
- Complete at least 2 additional critical-tracking courses, excluding labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester 4
- Complete all critical-tracking courses, including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

### Semester 5
- Complete 1 of the remaining required major courses from FNR 3131C or WIS 3402/WIS 3402L or FAS 4932 or ZOO 4205C, FOR 3200C, FNR 3410C, FOR 3202, FOR 3153C or WIS 3404, FNR 4624C, FNR 4660, FNR 4623C
- Submit faculty advisor-approved Curriculum Plan (http://sfrc.ufl.edu/forest/degereeprograms/nrc/)
- 2.0 upper division GPA required
- 2.0 UF GPA required

### Semester 6
- Complete 3 additional remaining required major courses from FNR 3131C or WIS 3402/WIS 3402L or FAS 4932 or ZOO 4205C, FOR 3200C, FNR 3410C, FOR 3202, FOR 3153C or WIS 3404, FNR 4624C, FNR 4660, FNR 4623C
- 2.0 upper division GPA required
- 2.0 UF GPA required

### Semester 7
- Complete all remaining required major courses from FNR 3131C or WIS 3402/WIS 3402L or FAS 4932 or ZOO 4205C, FOR 3200C, FNR 3131C, FOR 3202, FOR 3153C or WIS 3404, FNR 4624C, FNR 4660, FNR 4623C
- 2.0 upper division GPA required
- 2.0  UF GPA required

### Semester 8
- Complete all remaining required major courses from FNR 3131C or WIS 3402/WIS 3402L or FAS 4932 or ZOO 4205C, FOR 3200C, FNR 3410C, FOR 3202, FOR 3153C or WIS 3404, FNR 4624C, FNR 4660, FNR 4623C
- 2.0 upper division GPA required
- 2.0  UF GPA required

### Model Semester Plan
This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

</tr>
</tbody>
</table>
The summer term between the junior and senior year is normally reserved for professional work experience.

**Academic Learning Compact**

The natural resource conservation major provides a broad education in the ecological, economic and social aspects of forest and natural resources and their management. The individualized nature of the major allows students to create a curriculum specific to their interests.

**Before Graduating Students Must**

- Pass the forest resources and conservation competency exam, given in five parts. One part will be given in each of these required courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>FNR 3131C</td>

<td>FOR 4941</td>
<td>Internship in Natural Resources</td>
<td>1-4</td>
</tr>
<tr>
<td>WIS 4905</td>
<td>Individual Problems</td>
<td>1-4</td>
</tr>
</tbody>
</table>

- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Demonstrate competency in biology/ecology, quantification, policy/administration and management of natural resources.
2. Analyze, interpret, synthesize and communicate information and data, including the use of mathematical and statistical methods.

**Critical Thinking**

Communication
4. Create, interpret and analyze written text, oral messages and multimedia presentations.

Nonprofit Organizational Leadership Minor

The Nonprofit Organizational Leadership minor provides the knowledge and competencies to perform a variety of roles in nonprofit organizations, for-profit companies and corporations, and government agencies at the local, state, and national levels.

About this Program
- **College**: Agricultural and Life Sciences (p. 113)
- **Credits**: 18-19 | Completed with minimum grades of C and an overall 2.5 GPA for courses in the minor

The minor is open to all UF students and it must be added before a student completes 90 credits. A cumulative 2.5 GPA is necessary for admission to the minor. Students must earn a minimum grade of B in FYC 4409 to continue in the minor; this course also is a prerequisite for the internship or practicum.

The minor draws primarily from the faculty in Family, Youth and Community Sciences. Electives can be taken from the colleges of Agricultural and Life Sciences, Business, Liberal Arts and Sciences, Journalism and Communications, and Education.

Nutritional Sciences

The Nutritional Sciences major encompasses all aspects of the consumption and utilization of food by people and animals as well as how these processes affect the health of individuals and populations. Nutritional Sciences students study organic chemistry, physics, food science, genetics, nutrition, biology of microorganisms, and diseases.

About this Program

- **College:** Agricultural and Life Sciences (p. 113)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Food Science and Human Nutrition Department (FSHN) is one of the world's largest combined academic programs where food science, nutritional sciences, and dietetics are all studied within one department. FSHN has nearly 25 full-time faculty members, 80 graduate assistants, and 600 undergraduate students. The department's programs are accredited by the Institute of Food Technologists (IFT) (http://www.ift.org/) and the Academy of Nutrition and Dietetics (http://www.eatright.org/). After completing undergraduate degrees, FSHN students typically move on to employment in the food industry, healthcare settings, graduate, or professional programs.

Curriculum

- Dietetics
- Food Science
- Food Science Minor
- Nutritional Sciences
- Nutritional Sciences Minor

The nutritional sciences curriculum develops a strong, broad background in the biological sciences, and provides an excellent foundation for graduate study/research in nutrition, health and many other life sciences. Its requirements also closely match the prerequisites for most professional schools. As a result, graduates from this curriculum have entered medical, dental, pharmacy, osteopathic, podiatry, optometry, chiropractic, physician assistant, veterinary and other professional programs. Other career opportunities include pharmaceutical sales, extension nutrition education, nutrition policy development and employment with government agencies. Nutritional sciences is one of the majors available to students accepted into the Junior Honors Medical Program or the Honors Combination BS/DMD Program.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=011001&track=03) may be used for transfer students.
Semester 1
- Complete CHM 2045/CHM 2045L or MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2
- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3
- Complete CHM 2046/CHM 2046L and BSC 2010/BSC 2010L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4
- Complete BSC 2011/BSC 2011L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5
- Complete BCH 3025 or BCH 4024
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6
- Complete HUN 4445
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 8
- Complete HUN 4221
- 2.0 upper division GPA required
- 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

HUN 4446  Nutrition and Disease: Part 2  3
MCB 3020 & 3020L  Basic Biology of Microorganisms and Laboratory for Basic Biology of Microorganisms  4
Elective  3

Credits  16
Total Credits  120

Additional electives may be needed to complete the 120 credits required for graduation.

Academic Learning Compact
Nutritional sciences integrates knowledge of biological principles to interpret emerging knowledge of cellular and physiological systems. Students’ knowledge of biochemical processes and nutrient functions will enable them to interpret effects of changes in nutrient availability on metabolic functions. Students will utilize their knowledge of nutrient requirements, food sources and physiological systems to determine nutrient and dietary needs of individuals in various life-cycle stages and/or with nutrition-related diseases.

Before Graduating Students Must
• Satisfactorily complete three examinations in HUN 4221. Examinations will be developed, approved and evaluated by a faculty committee.
• Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Use knowledge of nutrient functions, food sources and physiological systems to determine nutrient and dietary needs of individuals in various life-cycle stages and/or with nutrition-related diseases.
2. Use knowledge of biochemical processes and nutrient functions to interpret effects of changes in nutrient availability.
3. Integrate knowledge of biological principles to interpret emerging knowledge of cellular and physiological systems.

Critical Thinking
4. Analyze data and interpret results in the nutritional sciences.

Communication
5. Create, interpret and analyze written text, oral messages and multimedia presentations used in agricultural and life sciences.

Nutritional Sciences Minor

The Nutritional Sciences minor provides an overview of nutrients, nutrient requirements throughout the life cycle, and metabolic regulation of nutritional pathways.

About this Program

- **College:** Agricultural and Life Sciences (p. 113)
- **Credits:** 15-16 | Completed with minimum grades of C and a minimum cumulative 2.5 GPA for courses in the minor

Department Information

The Food Science and Human Nutrition Department (FSHN) is one of the world’s largest combined academic programs where food science, nutritional sciences, and dietetics are all studied within one department. FSHN has nearly 25 full-time faculty members, 80 graduate assistants, and 600 undergraduate students. The department’s programs are accredited by the Institute of Food Technologists (IFT) (http://www.ift.org/) and the Academy of Nutrition and Dietetics (http://www.eatright.org/). After completing undergraduate degrees, FSHN students typically move on to employment in the food industry, healthcare settings, graduate, or professional programs.

Organic and Sustainable Crop Production Minor

The Department of Horticultural Sciences offers this interdisciplinary minor which encompasses organic and sustainable practices in horticulture and plant science.

About this Program

- **College**: Agricultural and Life Sciences (p. 113)
- **Credits**: 15 | Completed with a minimum cumulative 2.0 GPA for courses in the minor
- **Contact**: Email (zxin@ufl.edu) | 352.273.4773

Department Information

The Horticultural Sciences Department is a team of faculty, staff, and students dedicated to improving fruit and vegetable production for the benefit of farmers and consumers. Florida’s climatic diversity and the facilities at UF provide opportunities for cutting-edge research in plant breeding & genetics, plant and environmental physiology, fruit & vegetable production, postharvest physiology, biochemistry, and other disciplines.

Packaging Science Minor

Packaging Science is an excellent area of concentration for students in engineering science and business-related disciplines. All companies that produce physical products deal with packaging. Most companies employ teams of packaging professionals from a variety of backgrounds and disciplines. Packaging plays a key role in competitive advantage in the marketplace, and packaging is always changing and improving.

About this Program

• College: Agricultural and Life Sciences (p. 113)
• Credits: 15 | Graded courses completed with minimum grades of C
• Contact: Frazier Rogers Hall (http://campusmap.ufl.edu/?loc=0474)

Department Information

The Department of Agricultural and Biological Engineering is founded on developing, teaching, and applying engineering principles to improve and sustain agricultural and biological systems for current and future generations.

Website (https://abe.ufl.edu/)

Frazier Rogers Hall
1741 Museum Road, Bldg 474
GAINESVILLE FL 32611-0570
Map (http://campusmap.ufl.edu/#/index/0474)

Curriculum

• Agricultural Operations Management
• Biological Engineering
• Combination Degrees
• Packaging Engineering Certificate
• Packaging Science Minor
• Precision Agriculture Minor

This minor is open to all students.

The packaging industry requires creative thinkers and problem solvers to continue to improve environmental sustainability, quality and packaging efficiency. This minor provides exposure to the tools and knowledge required to solve practical problems in packaging and will help students to gain employment in the packaging industry.

Students applying for the minor must obtain written approval from their academic advisor and the undergraduate coordinator in packaging science at least two semesters before graduation.

This minor offered by the College of Agricultural and Life Sciences differs from the Packaging Engineering specialization in the Biological Engineering degree. While both sets of curriculum use overlapping courses, the major is available only available to students of the Herbert Wertheim College of Engineering.

Technical Elective

Advisor-approved
- Selected from approved electives in:
  - Packaging
  - Food Science
  - Materials Science and Engineering
  - Chemical Engineering
  - Mechanical Engineering
  - Computer Science & Engineering
  - Industrial Engineering
  - Horticultural Science
  - Biological Science
  - Marketing
  - Advertising
- Other electives, including internships and co-ops, are subject to approval of the packaging science minor advisor.

Pathogenesis Minor

This minor emphasizes human infectious disease to provide a strong foundation in the field of microbial pathogenesis. This is provided by academic coursework covering fundamental and advanced aspects of microbial pathogenesis from both the host and pathogen perspective.

About this Program

- **College**: Agricultural and Life Sciences (p. 113)
- **Credits**: 12 | Completed with minimum grades of C

Department Information

The Department of Microbiology and Cell Science is committed to excellence in education, research and service to the community. The curriculum provides an excellent preparation for students who wish to enter the workforce or continue their education in professional programs such as medical, dental, pharmacy, veterinary programs, graduate school or public health degrees. B.S. degrees are offered through both the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences and the M.S. and Ph.D. degrees are offered through the College of Agricultural and Life Sciences. Combination degrees are available.

Curriculum
- **Bioinformatics Minor**
- **Combination Degrees**
- Microbiology and Cell Science UF Online
- Microbiology and Cell Science | CALS
• Microbiology and Cell Science | CLAS
• Pathogenesis Minor

This minor is open to all students who have completed BSC 2010 and MCB 3020 or MCB 3023, and who meet course prerequisites.

It is particularly appropriate for students majoring in animal sciences, biology, microbiology and cell science, plant pathology, public health, and zoology, and for those interested in professional programs in dentistry, medicine, pharmacy, or veterinary medicine.

Allowed Overlap with MCY or MCB major
Microbiology and Cell Science majors should meet with their academic advisors before applying to this minor to plan a program of study. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Pest Control Technology Certificate

Established in 1884, the mission of the College of Agricultural and Life Sciences is to deliver unsurpassed educational programs that prepare students to address the world’s critical challenges related to agriculture, food systems, human well-being, natural resources and sustainable communities.
About this Program

- **College:** Agricultural and Life Sciences (p. 113)
- **Credits:** 24 | Completed with minimum grades of C
- **Contact:**
  - Email (brumbaugh@ufl.edu) | 352.273.3912 or
  - Email (pgk@ufl.edu) | 352.392.2484

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

The Entomology and Nematology Department prepares students for exciting careers in a variety of fields. Entomology and Nematology majors can enter medical, dental, or veterinary school; progress to graduate study in any of several biological sciences such as ecology, nematology, entomology, horticulture, or zoology; or move directly to a variety of careers in fields such as pest management, ecotourism, or biosecurity.

- Entomology and Nematology Minor
- Landscape Pest Management Certificate
- Medical Entomology Certificate
- Pest Control Technology Certificate
- Urban Pest Management Certificate

The pest control technology certificate is awarded upon completion of specific coursework in entomology and pest management that satisfies the academic requirements of Florida state statute 482, which requires 24 semester credits plus one year of employment to qualify to take the Florida Pest Control Operator’s license examination.

There are no prerequisite courses, but students are advised to remember the requirement of a year’s employment to qualify to take the licensing exam.

Plant Science

Plant scientists sustain and improve our current and future world as they work with foods, fibers, fuel, flowers, pharmaceuticals, urban forests, soil health, plant pests, and our natural environs. Plant Science students study biology, plant morphology and physiology, chemistry, entomology, physics, soil and water sciences, plant identification, plant pathology, plant propagation, and environmental horticulture.

About this Program

- **College**: Agricultural and Life Sciences (p. 113)
- **Degree**: Bachelor of Science
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Related Programs

- Combination Degrees
- Environmental Horticulture Management Certificate
- Environmental Horticulture Minor
- Golf and Sports Turf Management Minor

The University of Florida offers some of the specializations in this major to transfer students who have the appropriate credentials through the statewide programs at the Fort Lauderdale Research and Education Center in Ft. Lauderdale, the Mid-Florida Research and Education Center in Apopka, or the West Florida Research and Education Center in Milton.

Course Requirements

All students, regardless of specialization, are required to take an introductory plant science course, an introductory statistics course, an economics course, a technical writing course, a speech course, a soil science course, a plant physiology course, a plant pathology course, a professional development course, and a capstone experience course. All students must also complete an internship related to their area of interest.
Each specialization has a specific set of required core courses and a number of upper-division electives to choose from that represent important interdisciplinary topic areas. Core courses provide students with the knowledge and fundamental concepts essential to the specialization. Upper-division electives are designed to build knowledge, competency and skills applicable to professional development.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

**Specializations**

**General Plant Science**
This specialization focuses on the biology and science of growing plants. It combines courses in propagation, plant identification and use, soils and plant nutrition, plant diseases, weed identification, and insects to give students a well-rounded background on plant management. This specialization develops skills that allow students to increase plant productivity and improve plant quality with less labor while controlling pests and weeds safely and effectively. Career opportunities include research and development, plant management, plant production, and preparation for graduate school. Employment opportunities exist in laboratories, government agencies, and commercial operations.

**Greenhouse and Landscape Industries**
This specialization provides skills and training for employment in the diverse ornamental horticulture industry, including theme parks, plant production facilities, and landscape management and landscape design firms. It studies the improvement of the human environment through proper selection, propagation, production, and placement of plants in the exterior and interior landscapes. It also combines business and plant production courses to provide the skills needed to manage a plant production facility or landscape firm.

**Native Plant Conservation**
This specialization prepares students to apply concepts of plant conservation and ecology to control invasive plants and establish, manage, and protect native plant communities, primarily in natural areas. Students also develop skills necessary for native plant propagation for ecological restoration and sustainable landscapes.

**Plant Breeding and Genetics**
Plant breeding and genetics play a critical role in enhancing the world’s future food, fiber, and fuel supplies in response to challenges like climate change and population growth. Students will obtain a solid grounding in genetics and molecular genetics, plant processes and function, types and causes of plant stress and learn how this is applied for crop improvement and conservation of genetic resources. Modern plant breeding is an increasingly sophisticated, high-investment business. The majority of commercial plant breeding takes place within the private sector. Plant breeders are employed in plant breeding or agricultural biotechnology companies or academic institutions with the main goal to develop improved varieties or educate the general population about genetic techniques for plant improvement.

**Plant Health and Protection**
This specialization is designed for students who want to pursue careers related to plant health management in the public or private sector. It will prepare students for entry into the workplace in insect and disease control, plant diagnostics, crop production management, plant pathology and entomology research, plant growth consulting, integrated pest management, cooperative extension or to pursue advanced degrees in plant pathology, entomology, plant medicine, or other related disciplines.

**Soil Management and Plant Productivity**
This specialization closely integrates the study of soil science core disciplines with production agriculture and horticulture. Coursework focuses on foundational principles related to soil health, productivity, and fertility in relation to sustainable plant growth and agricultural practices. Among the principal outcomes of the program is to prepare students for certification as both Associate Professional Soil Scientists and Certified Crop Advisors to better position graduates for employment in related fields.

**Sustainable Crop Production**
This specialization prepares students for professions related to crop production and management. Students will explore and understand production practices that meet present world food needs without compromising quality of life for future generations. Courses emphasize crop ecosystem function, aquatic and terrestrial weed management, the importance of insects to crops and optimizing management techniques including energy utilization, nutrient management, and soil and water conservation.

**Turfgrass Science**
This specialization combines the study of grasses, soils, water, and pests affecting turf with the study of business and management. Career opportunities include work with golf courses, sports turf facilities, lawn-care companies, parks, agrichemical industries, cemeteries, environmental consulting firms, sod farms, government agencies, and preparation for graduate school.

**Academic Learning Compact**
The plant science major, offered jointly by the departments of Agronomy and Plant Pathology, enables students to apply principles associated with production and improvement of agronomic crops. Students will acquire knowledge about the scientific fundamentals of plant growth of field and
forage crops. They will acquire knowledge about fungi, bacteria and viruses, as well as environmental factors that cause plant disease. This program prepares students to work in the lab and field settings and to develop applied skills for research and extension.

**Before Graduating Students Must**

- Complete a research paper and an oral presentation with satisfactory faculty evaluation.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Describe plant growth and development in terms of plant morphology and physiology and evaluate the abiotic and biotic factors that impact plant growth and management.
2. Recommend practices that growers and managers can implement to address the abiotic and biotic components of their cropping system.

**Critical Thinking**

3. Analyze and apply science-based data to solve problems in plant production, distribution and/or utilization.
4. Design and evaluate a project that addresses a problem or challenge related to their area of interest.

**Communication**

5. Create, interpret and analyze written text and multimedia presentations.
6. Communicate effectively through oral and multimedia presentations.

**Critical Tracking**
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=011101&track=01) may be used for transfer students.

**Semester 1**
- Complete 2 of 5 critical-tracking courses, excluding labs: BOT 2010C or BSC 2010/BSC 2010L; BOT 2011C or BSC 2011/BSC 2011L; CHM 2045/CHM 2045L; ECO 2013; MAC 1147
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 2**
- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 3**
- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 4**
- Complete all critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 5**
- Complete all critical-tracking courses, including labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required
## Semester 6
- Complete AGR 4512 and HOS 4304
- 2.0 upper division GPA required
- 2.0 UF GPA required

## Semester 7
- Complete PLS 3223 and PLS 3223L and approved elective in major
- 2.0 upper division GPA required
- 2.0 UF GPA required

## Semester 8
- Complete ORH 4933 and PLS 4950
- 2.0 upper division GPA required
- 2.0 UF GPA required

### Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

**Plants and Soils**
Academic Learning Compact

The plant science major, offered jointly by the departments of Agronomy and Plant Pathology, enables students to apply principles associated with production and improvement of agronomic crops. Students will acquire knowledge about the scientific fundamentals of plant growth of field and forage crops. They will acquire knowledge about fungi, bacteria and viruses, as well as environmental factors that cause plant disease. This program prepares students to work in the lab and field settings and to develop applied skills for research and extension.

Before Graduating Students Must

- Complete a research paper and an oral presentation with satisfactory faculty evaluation.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe plant growth and development in terms of plant morphology and physiology and evaluate the abiotic and biotic factors that impact plant growth and management.
2. Recommend practices that growers and managers can implement to address the abiotic and biotic components of their cropping system.

Critical Thinking

3. Analyze and apply science-based data to solve problems in plant production, distribution and/or utilization.
4. Design and evaluate a project that addresses a problem or challenge related to their area of interest.

Communication

5. Create, interpret and analyze written text and multimedia presentations.
6. Communicate effectively through oral and multimedia presentations.

- Golf and Sports Turf Management Minor

The plant science degree offers diverse specializations that provide a wide range of professional opportunities. The specializations provide students with an interdisciplinary perspective of these areas and pursue coursework that tracks them into a variety of job opportunities.

The University of Florida offers some of the specializations in this major to transfer students who have the appropriate credentials through the statewide programs at the Fort Lauderdale Research and Education Center in Ft. Lauderdale, the Mid-Florida Research and Education Center in Apopka, or the West Florida Research and Education Center in Milton.

Course Requirements

All students, regardless of specialization, are required to take an introductory plant science course, an introductory statistics course, an economics course, a technical writing course, a speech course, a soil science course, a plant physiology course, a plant pathology course, a professional development course, and a capstone experience course. All students must also complete an internship related to their area of interest.

Each specialization has a specific set of required core courses and a number of upper-division electives to choose from that represent important interdisciplinary topic areas. Core courses provide students with the knowledge and fundamental concepts essential to the specialization. Upper-division electives are designed to build knowledge, competency and skills applicable to professional development.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

Specializations

**General Plant Science**

This specialization focuses on the biology and science of growing plants. It combines courses in propagation, plant identification and use, soils and plant nutrition, plant diseases, weed identification, and insects to give students a well-rounded background on plant management. This specialization develops skills that allow students to increase plant productivity and improve plant quality with less labor while controlling pests and weeds safely and effectively. Career opportunities include research and development, plant management, plant production, and preparation for graduate school. Employment opportunities exist in laboratories, government agencies, and commercial operations.

**Greenhouse and Landscape Industries**

This specialization provides skills and training for employment in the diverse ornamental horticulture industry, including theme parks, plant production facilities, and landscape management and landscape design firms. It studies the improvement of the human environment through proper selection,
propagation, production, and placement of plants in the exterior and interior landscapes. It also combines business and plant production courses to provide the skills needed to manage a plant production facility or landscape firm.

**Native Plant Conservation**
This specialization prepares students to apply concepts of plant conservation and ecology to control invasive plants and establish, manage, and protect native plant communities, primarily in natural areas. Students also develop skills necessary for native plant propagation for ecological restoration and sustainable landscapes.

**Plant Breeding and Genetics**
Plant breeding and genetics play a critical role in enhancing the world’s future food, fiber, and fuel supplies in response to challenges like climate change and population growth. Students will obtain a solid grounding in genetics and molecular genetics, plant processes and function, types and causes of plant stress and learn how this is applied for crop improvement and conservation of genetic resources. Modern plant breeding is an increasingly sophisticated, high-investment business. The majority of commercial plant breeding takes place within the private sector. Plant breeders are employed in plant breeding or agricultural biotechnology companies or academic institutions with the main goal to develop improved varieties or educate the general population about genetic techniques for plant improvement.

**Plant Health and Protection**
This specialization is designed for students who want to pursue careers related to plant health management in the public or private sector. It will prepare students for entry into the workplace in insect and disease control, plant diagnostics, crop production management, plant pathology and entomology research, plant growth consulting, integrated pest management, cooperative extension or to pursue advanced degrees in plant pathology, entomology, plant medicine, or other related disciplines.

**Soil Management and Plant Productivity**
This specialization closely integrates the study of soil science core disciplines with production agriculture and horticulture. Coursework focuses on foundational principles related to soil health, productivity, and fertility in relation to sustainable plant growth and agricultural practices. Among the principal outcomes of the program is to prepare students for certification as both Associate Professional Soil Scientists and Certified Crop Advisors to better position graduates for employment in related fields.

**Sustainable Crop Production**
This specialization prepares students for professions related to crop production and management. Students will explore and understand production practices that meet present world food needs without compromising quality of life for future generations. Courses emphasize crop ecosystem function, aquatic and terrestrial weed management, the importance of insects to crops and optimizing management techniques including energy utilization, nutrient management, and soil and water conservation.

**Turfgrass Science**
This specialization combines the study of grasses, soils, water, and pests affecting turf with the study of business and management. Career opportunities include work with golf courses, sports turf facilities, lawn-care companies, parks, agrichemical industries, cemeteries, environmental consulting firms, sod farms, government agencies, and preparation for graduate school.

### Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=011101&track=01) may be used for transfer students.

**Semester 1**
- Complete 2 of 5 critical-tracking courses, excluding labs: BOT 2010C or BSC 2010/BSC 2010L; BOT 2011C or BSC 2011/BSC 2011L; CHM 2045/CHM 2045L; ECO 2013; MAC 1147
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required
Semester 2
• Complete 1 additional critical-tracking course, excluding labs
  • 2.0 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

Semester 3
• Complete 2 additional critical-tracking courses, excluding labs
  • 2.0 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

Semester 4
• Complete all critical-tracking course, excluding labs
  • 2.0 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

Semester 5
• Complete all critical-tracking courses, including labs
  • 2.0 GPA required for all critical-tracking courses
  • 2.0 upper division GPA required
  • 2.0 UF GPA required

Semester 6
• Complete AEB 4126 and AGR 4512 or HOS 4304
  • 2.0 upper division GPA required
  • 2.0 UF GPA required

Semester 7
• Complete PLS 3223 and PLS 3223L and PLS 4601C
  • 2.0 upper division GPA required
  • 2.0 UF GPA required

Semester 8
• Complete ORH 4933 and PLS 4950
  • 2.0 upper division GPA required
  • 2.0 UF GPA required

---

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

### Approved Electives

#### MINIMUM 28 CREDITS

Choose courses from the areas below and focus electives toward a specific minor or area of expertise. An advisor can help establish a plan for these electives. For a broader program, choose a minimum of three credits from each area. Students must consult with their advisor for assistance in selecting the designated listed electives in order to take applicable and appropriate courses for the students’ job and career aspirations. Consult an advisor for other options, which may include study abroad courses.

### Academic Learning Compact

The plant science major, offered jointly by the departments of Agronomy and Plant Pathology, enables students to apply principles associated with production and improvement of agronomic crops. Students will acquire knowledge about the scientific fundamentals of plant growth of field and forage crops. They will acquire knowledge about fungi, bacteria and viruses, as well as environmental factors that cause plant disease. This program prepares students to work in the lab and field settings and to develop applied skills for research and extension.
Before Graduating Students Must

- Complete a research paper and an oral presentation with satisfactory faculty evaluation.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

**Content**
1. Describe plant growth and development in terms of plant morphology and physiology and evaluate the abiotic and biotic factors that impact plant growth and management.
2. Recommend practices that growers and managers can implement to address the abiotic and biotic components of their cropping system.

**Critical Thinking**
3. Analyze and apply science-based data to solve problems in plant production, distribution and/or utilization.
4. Design and evaluate a project that addresses a problem or challenge related to their area of interest.

**Communication**
5. Create, interpret and analyze written text and multimedia presentations.
6. Communicate effectively through oral and multimedia presentations.

- Final grades

Native Plant Conservation

Plant scientists sustain and improve our current and future world as they work with foods, fibers, fuel, flowers, pharmaceuticals, urban forests, soil health, plant pests, and our natural environs. Plant Science students study biology, plant morphology and physiology, chemistry, entomology, physics, soil and water sciences, plant identification, plant pathology, plant propagation, and environmental horticulture.

About this Program

- **College:** Agricultural and Life Sciences (p. 113)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Related Programs

- Combination Degrees
- Environmental Horticulture Management Certificate
• Environmental Horticulture Minor
• Golf and Sports Turf Management Minor

The plant science degree offers diverse specializations that provide a wide range of professional opportunities. The specializations provide students with an interdisciplinary perspective of these areas and pursue coursework that tracks them into a variety of job opportunities.

The University of Florida offers some of the specializations in this major to transfer students who have the appropriate credentials through the statewide programs at the Fort Lauderdale Research and Education Center in Ft. Lauderdale, the Mid-Florida Research and Education Center in Apopka, or the West Florida Research and Education Center in Milton.

Course Requirements
All students, regardless of specialization, are required to take an introductory plant science course, an introductory statistics course, an economics course, a technical writing course, a soil science course, a plant pathology course, a professional development course, and a capstone experience course. All students must also complete an internship related to their area of interest.

Each specialization has a specific set of required core courses and a number of upper-division electives to choose from that represent important interdisciplinary topic areas. Core courses provide students with the knowledge and fundamental concepts essential to the specialization. Upper-division electives are designed to build knowledge, competency and skills applicable to professional development.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

Specializations

General Plant Science
This specialization focuses on the biology and science of growing plants. It combines courses in propagation, plant identification and use, soils and plant nutrition, plant diseases, weed identification, and insects to give students a well-rounded background on plant management. This specialization develops skills that allow students to increase plant productivity and improve plant quality with less labor while controlling pests and weeds safely and effectively. Career opportunities include research and development, plant management, plant production, and preparation for graduate school. Employment opportunities exist in laboratories, government agencies, and commercial operations.

Greenhouse and Landscape Industries
This specialization provides skills and training for employment in the diverse ornamental horticulture industry, including theme parks, plant production facilities, and landscape management and landscape design firms. It studies the improvement of the human environment through proper selection, propagation, production, and placement of plants in the exterior and interior landscapes. It also combines business and plant production courses to provide the skills needed to manage a plant production facility or landscape firm.

Native Plant Conservation
This specialization prepares students to apply concepts of plant conservation and ecology to control invasive plants and establish, manage, and protect native plant communities, primarily in natural areas. Students also develop skills necessary for native plant propagation for ecological restoration and sustainable landscapes.

Plant Breeding and Genetics
Plant breeding and genetics play a critical role in enhancing the world’s future food, fiber, and fuel supplies in response to challenges like climate change and population growth. Students will obtain a solid grounding in genetics and molecular genetics, plant processes and function, types and causes of plant stress and learn how this is applied for crop improvement and conservation of genetic resources. Modern plant breeding is an increasingly sophisticated, high-investment business. The majority of commercial plant breeding takes place within the private sector. Plant breeders are employed in plant breeding or agricultural biotechnology companies or academic institutions with the main goal to develop improved varieties or educate the general population about genetic techniques for plant improvement.

Plant Health and Protection
This specialization is designed for students who want to pursue careers related to plant health management in the public or private sector. It will prepare students for entry into the workplace in insect and disease control, plant diagnostics, crop production management, plant pathology and entomology research, plant growth consulting, integrated pest management, cooperative extension or to pursue advanced degrees in plant pathology, entomology, plant medicine, or other related disciplines.

Soil Management and Plant Productivity
This specialization closely integrates the study of soil science core disciplines with production agriculture and horticulture. Coursework focuses on foundational principles related to soil health, productivity, and fertility in relation to sustainable plant growth and agricultural practices. Among the principal outcomes of the program is to prepare students for certification as both Associate Professional Soil Scientists and Certified Crop Advisors to better position graduates for employment in related fields.
Sustainable Crop Production
This specialization prepares students for professions related to crop production and management. Students will explore and understand production practices that meet present world food needs without compromising quality of life for future generations. Courses emphasize crop ecosystem function, aquatic and terrestrial weed management, the importance of insects to crops and optimizing management techniques including energy utilization, nutrient management, and soil and water conservation.

Turfgrass Science
This specialization combines the study of grasses, soils, water, and pests affecting turf with the study of business and management. Career opportunities include work with golf courses, sports turf facilities, lawn-care companies, parks, agrichemical industries, cemeteries, environmental consulting firms, sod farms, government agencies, and preparation for graduate school.

Native Plant Conservation
This specialization prepares students to apply concepts of plant conservation and ecology to control invasive plants and establish, manage, and protect native plant communities, primarily in natural areas. Students also develop skills necessary for native plant propagation for ecological restoration and sustainable landscapes.

Critical Tracking
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=011101&track=01) may be used for transfer students.

Semester 1
• Complete 2 of 6 critical-tracking courses, excluding labs: BOT 2010C or BSC 2010/BSC 2010L; BOT 2011C or BSC 2011/BSC 2011L; CHM 2045/CHM 2045L; CHM 2046/CHM 2046L; ECO 2013; MAC 1147
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 2
• Complete 1 additional critical-tracking course, excluding labs
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 3
• Complete 2 additional critical-tracking courses, excluding labs
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 4
• Complete 1 additional critical-tracking course, excluding labs
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 5
• Complete all critical-tracking courses, including labs
• 2.0 GPA required for all critical-tracking courses
• 2.0 upper division GPA required
• 2.0 UF GPA required

Semester 6
• Complete EVR 3323 and ORH 4933
• 2.0 upper division GPA required
• 2.0 UF GPA required
### Semester 7
- Complete AGR 4512 or HOS 4304 and ORH 4848
- 2.0 upper division GPA required
- 2.0 UF GPA required

### Semester 8
- Complete AEB 4126 and PLS 4950
- 2.0 upper division GPA required
- 2.0 UF GPA required

### Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

### Total Credits

Total Credits: 120

**MINIMUM 5 CREDITS**

Approved Electives are listed above. Students must consult with their advisor for assistance in selecting the designated listed electives in order to take applicable and appropriate courses for the students’ job and career aspirations. Consult an advisor for other options, which may include study abroad courses.
The plant science major, offered jointly by the departments of Agronomy and Plant Pathology, enables students to apply principles associated with production and improvement of agronomic crops. Students will acquire knowledge about the scientific fundamentals of plant growth of field and forage crops. They will acquire knowledge about fungi, bacteria and viruses, as well as environmental factors that cause plant disease. This program prepares students to work in the lab and field settings and to develop applied skills for research and extension.

Before Graduating Students Must

- Complete a research paper and an oral presentation with satisfactory faculty evaluation.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe plant growth and development in terms of plant morphology and physiology and evaluate the abiotic and biotic factors that impact plant growth and management.
2. Recommend practices that growers and managers can implement to address the abiotic and biotic components of their cropping system.

Critical Thinking

3. Analyze and apply science-based data to solve problems in plant production, distribution and/or utilization.
4. Design and evaluate a project that addresses a problem or challenge related to their area of interest.

Communication

5. Create, interpret and analyze written text and multimedia presentations.
6. Communicate effectively through oral and multimedia presentations.

• Final grades

Plant Breeding and Genetics
Plant scientists sustain and improve our current and future world as they work with foods, fibers, fuel, flowers, pharmaceuticals, urban forests, soil health, plant pests, and our natural environs. Plant Science students study biology, plant morphology and physiology, chemistry, entomology, physics, soil and water sciences, plant identification, plant pathology, plant propagation, and environmental horticulture.

About this Program
• College: Agricultural and Life Sciences (p. 113)
• Degree: Bachelor of Science
• Credits for Degree: 120
• More Info

To graduate with this major, students must complete all university, college, and major requirements.

Related Programs
• Combination Degrees
• Environmental Horticulture Management Certificate
• Environmental Horticulture Minor
• Golf and Sports Turf Management Minor

The plant science degree offers diverse specializations that provide a wide range of professional opportunities. The specializations provide students with an interdisciplinary perspective of these areas and pursue coursework that tracks them into a variety of job opportunities.

The University of Florida offers some of the specializations in this major to transfer students who have the appropriate credentials through the statewide programs at the Fort Lauderdale Research and Education Center in Ft. Lauderdale, the Mid-Florida Research and Education Center in Apopka, or the West Florida Research and Education Center in Milton.

Course Requirements
All students, regardless of specialization, are required to take an introductory plant science course, an introductory statistics course, an economics course, a technical writing course, a speech course, a soil science course, a plant physiology course, a plant pathology course, a professional development course, and a capstone experience course. All students must also complete an internship related to their area of interest.

Each specialization has a specific set of required core courses and a number of upper-division electives to choose from that represent important interdisciplinary topic areas. Core courses provide students with the knowledge and fundamental concepts essential to the specialization. Upper-division electives are designed to build knowledge, competency and skills applicable to professional development.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

Specializations
General Plant Science
This specialization focuses on the biology and science of growing plants. It combines courses in propagation, plant identification and use, soils and plant nutrition, plant diseases, weed identification, and insects to give students a well-rounded background on plant management. This specialization develops skills that allow students to increase plant productivity and improve plant quality with less labor while controlling pests and weeds safely and effectively. Career opportunities include research and development, plant management, plant production, and preparation for graduate school. Employment opportunities exist in laboratories, government agencies, and commercial operations.

Greenhouse and Landscape Industries
This specialization provides skills and training for employment in the diverse ornamental horticulture industry, including theme parks, plant production facilities, and landscape management and landscape design firms. It studies the improvement of the human environment through proper selection,
propagation, production, and placement of plants in the exterior and interior landscapes. It also combines business and plant production courses to provide the skills needed to manage a plant production facility or landscape firm.

**Native Plant Conservation**

This specialization prepares students to apply concepts of plant conservation and ecology to control invasive plants and establish, manage, and protect native plant communities, primarily in natural areas. Students also develop skills necessary for native plant propagation for ecological restoration and sustainable landscapes.

**Plant Breeding and Genetics**

Plant breeding and genetics play a critical role in enhancing the world’s future food, fiber, and fuel supplies in response to challenges like climate change and population growth. Students will obtain a solid grounding in genetics and molecular genetics, plant processes and function, types and causes of plant stress and learn how this is applied for crop improvement and conservation of genetic resources. Modern plant breeding is an increasingly sophisticated, high-investment business. The majority of commercial plant breeding takes place within the private sector. Plant breeders are employed in plant breeding or agricultural biotechnology companies or academic institutions with the main goal to develop improved varieties or educate the general population about genetic techniques for plant improvement.

**Plant Health and Protection**

This specialization is designed for students who want to pursue careers related to plant health management in the public or private sector. It will prepare students for entry into the workplace in insect and disease control, plant diagnostics, crop production management, plant pathology and entomology research, plant growth consulting, integrated pest management, cooperative extension or to pursue advanced degrees in plant pathology, entomology, plant medicine, or other related disciplines.

**Soil Management and Plant Productivity**

This specialization closely integrates the study of soil science core disciplines with production agriculture and horticulture. Coursework focuses on foundational principles related to soil health, productivity, and fertility in relation to sustainable plant growth and agricultural practices. Among the principal outcomes of the program is to prepare students for certification as both Associate Professional Soil Scientists and Certified Crop Advisors to better position graduates for employment in related fields.

**Sustainable Crop Production**

This specialization is designed for students who want to pursue careers related to crop production and management. Students will explore and understand production practices that meet present world food needs without compromising quality of life for future generations. Courses emphasize crop ecosystem function, aquatic and terrestrial weed management, the importance of insects to crops and optimizing management techniques including energy utilization, nutrient management, and soil and water conservation.

**Turfgrass Science**

This specialization combines the study of grasses, soils, water, and pests affecting turf with the study of business and management. Career opportunities include work with golf courses, sports turf facilities, lawn-care companies, parks, agrichemical industries, cemeteries, environmental consulting firms, sod farms, government agencies, and preparation for graduate school.

**Plant Breeding and Genetics**

Plant breeding and genetics play a critical role in enhancing the world’s future food, fiber, and fuel supplies in response to challenges like climate change and population growth. Students will obtain a solid grounding in genetics and molecular genetics, plant processes and function, types and causes of plant stress and learn how this is applied for crop improvement and conservation of genetic resources. Modern plant breeding is an increasingly sophisticated, high-investment business. The majority of commercial plant breeding takes place within the private sector. Plant breeders are employed in plant breeding or agricultural biotechnology companies or academic institutions with the main goal to develop improved varieties or educate the general population about genetic techniques for plant improvement.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=011101&track=01) may be used for transfer students.

**Semester 1**

- Complete 2 of 6 critical-tracking courses, excluding labs: BOT 2010C or BSC 2010/BSC 2010L; BOT 2011C or BSC 2011/BSC 2011L; CHM 2045/CHM 2045L; CHM 2046/CHM 2046L; ECO 2013; MAC 1147
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required
Semester 2  
- Complete 1 additional critical-tracking course, excluding labs  
  - 2.0 GPA required for all critical-tracking courses  
  - 2.0 UF GPA required

Semester 3  
- Complete 2 additional critical-tracking courses, excluding labs  
  - 2.0 GPA required for all critical-tracking courses  
  - 2.0 UF GPA required

Semester 4  
- Complete 1 additional critical-tracking course, excluding labs  
  - 2.0 GPA required for all critical-tracking courses  
  - 2.0 UF GPA required

Semester 5  
- Complete all critical-tracking courses, including labs  
  - 2.0 GPA required for all critical-tracking courses  
  - 2.0 upper division GPA required  
  - 2.0 UF GPA required

Semester 6  
- Complete AGR 4320 and BCH 3025 or BCH 4024  
  - 2.0 upper division GPA required  
  - 2.0 UF GPA required

Semester 7  
- Complete PLP 3002C and PLS 3223 and PLS 3223L  
  - 2.0 upper division GPA required  
  - 2.0 UF GPA required

Semester 8  
- Complete AEB 4126 and PLS 4950  
  - 2.0 upper division GPA required  
  - 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Lauderdale, the Mid-Florida Research and Education Center in Apopka, or the West Florida Research and Education Center in Milton.

Course Requirements

All students, regardless of specialization, are required to take an introductory plant science course, an introductory statistics course, an economics course, a technical writing course, a speech course, a soil science course, a plant physiology course, a plant pathology course, a professional development course, and a capstone experience course. All students must also complete an internship related to their area of interest.

Each specialization has a specific set of required core courses and a number of upper-division electives to choose from that represent important interdisciplinary topic areas. Core courses provide students with the knowledge and fundamental concepts essential to the specialization. Upper-division electives are designed to build knowledge, competency and skills applicable to professional development.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

Specializations

General Plant Science
This specialization focuses on the biology and science of growing plants. It combines courses in propagation, plant identification and use, soils and plant nutrition, plant diseases, weed identification, and insects to give students a well-rounded background on plant management. This specialization develops skills that allow students to increase plant productivity and improve plant quality with less labor while controlling pests and weeds safely and effectively. Career opportunities include research and development, plant management, plant production, and preparation for graduate school. Employment opportunities exist in laboratories, government agencies, and commercial operations.

Greenhouse and Landscape Industries
This specialization provides skills and training for employment in the diverse ornamental horticulture industry, including theme parks, plant production facilities, and landscape management and landscape design firms. It studies the improvement of the human environment through proper selection, propagation, production, and placement of plants in the exterior and interior landscapes. It also combines business and plant production courses to provide the skills needed to manage a plant production facility or landscape firm.

Native Plant Conservation
This specialization prepares students to apply concepts of plant conservation and ecology to control invasive plants and establish, manage, and protect native plant communities, primarily in natural areas. Students also develop skills necessary for native plant propagation for ecological restoration and sustainable landscapes.

Plant Breeding and Genetics
Plant breeding and genetics play a critical role in enhancing the world’s future food, fiber, and fuel supplies in response to challenges like climate change and population growth. Students will obtain a solid grounding in genetics and molecular genetics, plant processes and function, types and causes of plant stress and learn how this is applied for crop improvement and conservation of genetic resources. Modern plant breeding is an increasingly sophisticated, high-investment business. The majority of commercial plant breeding takes place within the private sector. Plant breeders are employed in plant breeding or agricultural biotechnology companies or academic institutions with the main goal to develop improved varieties or educate the general population about genetic techniques for plant improvement.

Plant Health and Protection
This specialization is designed for students who want to pursue careers related to plant health management in the public or private sector. It will prepare students for entry into the workplace in insect and disease control, plant diagnostics, crop production management, plant pathology and entomology research, plant growth consulting, integrated pest management, cooperative extension or to pursue advanced degrees in plant pathology, entomology, plant medicine, or other related disciplines.
Soil Management and Plant Productivity
This specialization closely integrates the study of soil science core disciplines with production agriculture and horticulture. Coursework focuses on foundational principles related to soil health, productivity, and fertility in relation to sustainable plant growth and agricultural practices. Among the principal outcomes of the program is to prepare students for certification as both Associate Professional Soil Scientists and Certified Crop Advisors to better position graduates for employment in related fields.

Sustainable Crop Production
This specialization prepares students for professions related to crop production and management. Students will explore and understand production practices that meet present world food needs without compromising quality of life for future generations. Courses emphasize crop ecosystem function, aquatic and terrestrial weed management, the importance of insects to crops and optimizing management techniques including energy utilization, nutrient management, and soil and water conservation.

Turfgrass Science
This specialization combines the study of grasses, soils, water, and pests affecting turf with the study of business and management. Career opportunities include work with golf courses, sports turf facilities, lawn-care companies, parks, agrichemical industries, cemeteries, environmental consulting firms, sod farms, government agencies, and preparation for graduate school.

Plant Health and Protection
This specialization is designed for students who want to pursue careers related to plant health management in the public or private sector. It will prepare students for entry into the workplace in insect and disease control, plant diagnostics, crop production management, plant pathology and entomology research, plant growth consulting, integrated pest management, cooperative extension or to pursue advanced degrees in plant pathology, entomology, plant medicine, or other related disciplines.

Critical Tracking
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=011101&track=01) may be used for transfer students.

Semester 1
- Complete 2 of 6 critical-tracking courses, excluding labs: ECO 2013; BOT 2010C or BSC 2010/BSC 2010L; BOT 2011C or BSC 2011/BSC 2011L; CHM 2045/CHM 2045L; CHM 2046/CHM 2046L; MAC 1147
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2
- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3
- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4
- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5
- Complete all critical-tracking courses, including labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required
Semester 6
- Complete AGR 3303
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 7
- Complete Entomology elective and Plant Pathology elective
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 8
- Complete AEB 4126 and PLS 4950
- 2.0 upper division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

**Approved Electives**

**MINIMUM 22 CREDITS**

In addition to the Plant Pathology elective and the Entomology elective in Semester 7, there are 22 additional elective credits to be completed. Choose courses from each focus area; minimum credits for each area listed below. Students must consult with their advisor for assistance in selecting the designated listed electives in order to take applicable and appropriate courses for the students’ job and career aspirations. Consult an advisor for other options, which may include study abroad courses.

**Academic Learning Compact**

The plant science major, offered jointly by the departments of Agronomy and Plant Pathology, enables students to apply principles associated with production and improvement of agronomic crops. Students will acquire knowledge about the scientific fundamentals of plant growth of field and forage crops. They will acquire knowledge about fungi, bacteria and viruses, as well as environmental factors that cause plant disease. This program prepares students to work in the lab and field settings and to develop applied skills for research and extension.

**Before Graduating Students Must**

- Complete a research paper and an oral presentation with satisfactory faculty evaluation.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Describe plant growth and development in terms of plant morphology and physiology and evaluate the abiotic and biotic factors that impact plant growth and management.
2. Recommend practices that growers and managers can implement to address the abiotic and biotic components of their cropping system.

**Critical Thinking**

3. Analyze and apply science-based data to solve problems in plant production, distribution and/or utilization.
4. Design and evaluate a project that addresses a problem or challenge related to their area of interest.

**Communication**

5. Create, interpret and analyze written text and multimedia presentations.
6. Communicate effectively through oral and multimedia presentations.

**Curriculum Map**

$I = Introduced; R = Reinforced; A = Assessed$

**Soil Management and Plant Productivity**

Plant scientists sustain and improve our current and future world as they work with foods, fibers, fuel, flowers, pharmaceuticals, urban forests, soil health, plant pests, and our natural environs. Plant Science students study biology, plant morphology and physiology, chemistry, entomology, physics, soil and water sciences, plant identification, plant pathology, plant propagation, and environmental horticulture.

**About this Program**

- **College:** Agricultural and Life Sciences (p. 113)
- **Degree:** Bachelor of Science
The plant science degree offers diverse specializations that provide a wide range of professional opportunities. The specializations provide students with an interdisciplinary perspective of these areas and pursue coursework that tracks them into a variety of job opportunities.

The University of Florida offers some of the specializations in this major to transfer students who have the appropriate credentials through the statewide programs at the Fort Lauderdale Research and Education Center in Ft. Lauderdale, the Mid-Florida Research and Education Center in Apopka, or the West Florida Research and Education Center in Milton.

Course Requirements
All students, regardless of specialization, are required to take an introductory plant science course, an introductory statistics course, an economics course, a technical writing course, a speech course, a soil science course, a plant physiology course, a plant pathology course, a professional development course, and a capstone experience course. All students must also complete an internship related to their area of interest.

Each specialization has a specific set of required core courses and a number of upper-division electives to choose from that represent important interdisciplinary topic areas. Core courses provide students with the knowledge and fundamental concepts essential to the specialization. Upper-division electives are designed to build knowledge, competency and skills applicable to professional development.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

Specializations

General Plant Science
This specialization focuses on the biology and science of growing plants. It combines courses in propagation, plant identification and use, soils and plant nutrition, plant diseases, weed identification, and insects to give students a well-rounded background on plant management. This specialization develops skills that allow students to increase plant productivity and improve plant quality with less labor while controlling pests and weeds safely and effectively. Career opportunities include research and development, plant management, plant production, and preparation for graduate school. Employment opportunities exist in laboratories, government agencies, and commercial operations.

Greenhouse and Landscape Industries
This specialization provides skills and training for employment in the diverse ornamental horticulture industry, including theme parks, plant production facilities, and landscape management and landscape design firms. It studies the improvement of the human environment through proper selection, propagation, production, and placement of plants in the exterior and interior landscapes. It also combines business and plant production courses to provide the skills needed to manage a plant production facility or landscape firm.

Native Plant Conservation
This specialization prepares students to apply concepts of plant conservation and ecology to control invasive plants and establish, manage, and protect native plant communities, primarily in natural areas. Students also develop skills necessary for native plant propagation for ecological restoration and sustainable landscapes.

Plant Breeding and Genetics
Plant breeding and genetics play a critical role in enhancing the world’s future food, fiber, and fuel supplies in response to challenges like climate change and population growth. Students will obtain a solid grounding in genetics and molecular genetics, plant processes and function, types and causes of plant stress and learn how this is applied for crop improvement and conservation of genetic resources. Modern plant breeding is an increasingly sophisticated, high-investment business. The majority of commercial plant breeding takes place within the private sector. Plant breeders are employed in plant breeding or agricultural biotechnology companies or academic institutions with the main goal to develop improved varieties or educate the general population about genetic techniques for plant improvement.
Plant Health and Protection
This specialization is designed for students who want to pursue careers related to plant health management in the public or private sector. It will prepare students for entry into the workplace in insect and disease control, plant diagnostics, crop production management, plant pathology and entomology research, plant growth consulting, integrated pest management, cooperative extension or to pursue advanced degrees in plant pathology, entomology, plant medicine, or other related disciplines.

Soil Management and Plant Productivity
This specialization closely integrates the study of soil science core disciplines with production agriculture and horticulture. Coursework focuses on foundational principles related to soil health, productivity, and fertility in relation to sustainable plant growth and agricultural practices. Among the principal outcomes of the program is to prepare students for certification as both Associate Professional Soil Scientists and Certified Crop Advisors to better position graduates for employment in related fields.

Sustainable Crop Production
This specialization prepares students for professions related to crop production and management. Students will explore and understand production practices that meet present world food needs without compromising quality of life for future generations. Courses emphasize crop ecosystem function, aquatic and terrestrial weed management, the importance of insects to crops and optimizing management techniques including energy utilization, nutrient management, and soil and water conservation.

Turfgrass Science
This specialization combines the study of grasses, soils, water, and pests affecting turf with the study of business and management. Career opportunities include work with golf courses, sports turf facilities, lawn-care companies, parks, agrichemical industries, cemeteries, environmental consulting firms, sod farms, government agencies, and preparation for graduate school.

Soil Management and Plant Productivity
This specialization closely integrates the study of soil science core disciplines with production agriculture and horticulture. Coursework focuses on foundational principles related to soil health, productivity, and fertility in relation to sustainable plant growth and agricultural practices. Among the principal outcomes of the program is to prepare students for certification as both Associate Professional Soil Scientists and Certified Crop Advisors to better position graduates for employment in related fields.

Critical Tracking
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=011101&track=01) may be used for transfer students.

Semester 1
• Complete 2 of 5 critical-tracking courses, excluding labs: BOT 2010C or BSC 2010/BSC 2010L; CHM 2045/CHM 2045L; CHM 2046/CHM 2046L; ECO 2013; MAC 1147
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 2
• Complete 1 additional critical-tracking course, excluding labs
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 3
• Complete 2 additional critical-tracking courses, excluding labs
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 4
• Complete all critical-tracking courses, excluding labs
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required
## Semester 5
- Complete all critical-tracking courses, including labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

## Semester 6
- Complete AGR 4214C
- 2.0 upper division GPA required
- 2.0 UF GPA required

## Semester 7
- Complete PLS 3223 and PLS 3223L and SWS 4451
- 2.0 upper division GPA required
- 2.0 UF GPA required

## Semester 8
- Complete AEB 4126 and PLS 4950
- 2.0 upper division GPA required
- 2.0 UF GPA required

### Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

Other Advisor-Approved Electives | Minimum 3 Credits

Academic Learning Compact

The plant science major, offered jointly by the departments of Agronomy and Plant Pathology, enables students to apply principles associated with production and improvement of agronomic crops. Students will acquire knowledge about the scientific fundamentals of plant growth of field and forage crops. They will acquire knowledge about fungi, bacteria and viruses, as well as environmental factors that cause plant disease. This program prepares students to work in the lab and field settings and to develop applied skills for research and extension.

Before Graduating Students Must

- Complete a research paper and an oral presentation with satisfactory faculty evaluation.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe plant growth and development in terms of plant morphology and physiology and evaluate the abiotic and biotic factors that impact plant growth and management.
2. Recommend practices that growers and managers can implement to address the abiotic and biotic components of their cropping system.
Critical Thinking
3. Analyze and apply science-based data to solve problems in plant production, distribution and/or utilization.
4. Design and evaluate a project that addresses a problem or challenge related to their area of interest.

Communication
5. Create, interpret and analyze written text and multimedia presentations.
6. Communicate effectively through oral and multimedia presentations.

- Capstone and individual projects
- Final grades

Sustainable Crop Production
Plant scientists sustain and improve our current and future world as they work with foods, fibers, fuel, flowers, pharmaceuticals, urban forests, soil health, plant pests, and our natural environs. Plant Science students study biology, plant morphology and physiology, chemistry, entomology, physics, soil and water sciences, plant identification, plant pathology, plant propagation, and environmental horticulture.

About this Program
- College: Agricultural and Life Sciences (p. 113)
- Degree: Bachelor of Science
- Credits for Degree: 120
- More Info

To graduate with this major, students must complete all university, college, and major requirements.

Related Programs
- Combination Degrees
- Environmental Horticulture Management Certificate
- Environmental Horticulture Minor
- Golf and Sports Turf Management Minor

The University of Florida offers some of the specializations in this major to transfer students who have the appropriate credentials through the statewide programs at the Fort Lauderdale Research and Education Center in Ft. Lauderdale, the Mid-Florida Research and Education Center in Apopka, or the West Florida Research and Education Center in Milton.

Course Requirements
All students, regardless of specialization, are required to take an introductory plant science course, an introductory statistics course, an economics course, a technical writing course, a speech course, a soil science course, a plant physiology course, a plant pathology course, a professional development course, and a capstone experience course. All students must also complete an internship related to their area of interest.
Each specialization has a specific set of required core courses and a number of upper-division electives to choose from that represent important interdisciplinary topic areas. Core courses provide students with the knowledge and fundamental concepts essential to the specialization. Upper-division electives are designed to build knowledge, competency and skills applicable to professional development.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

**Specializations**

**General Plant Science**
This specialization focuses on the biology and science of growing plants. It combines courses in propagation, plant identification and use, soils and plant nutrition, plant diseases, weed identification, and insects to give students a well-rounded background on plant management. This specialization develops skills that allow students to increase plant productivity and improve plant quality with less labor while controlling pests and weeds safely and effectively. Career opportunities include research and development, plant management, plant production, and preparation for graduate school. Employment opportunities exist in laboratories, government agencies, and commercial operations.

**Greenhouse and Landscape Industries**
This specialization provides skills and training for employment in the diverse ornamental horticulture industry, including theme parks, plant production facilities, and landscape management and landscape design firms. It studies the improvement of the human environment through proper selection, propagation, production, and placement of plants in the exterior and interior landscapes. It also combines business and plant production courses to provide the skills needed to manage a plant production facility or landscape firm.

**Native Plant Conservation**
This specialization prepares students to apply concepts of plant conservation and ecology to control invasive plants and establish, manage, and protect native plant communities, primarily in natural areas. Students also develop skills necessary for native plant propagation for ecological restoration and sustainable landscapes.

**Plant Breeding and Genetics**
Plant breeding and genetics play a critical role in enhancing the world’s future food, fiber, and fuel supplies in response to challenges like climate change and population growth. Students will obtain a solid grounding in genetics and molecular genetics, plant processes and function, types and causes of plant stress and learn how this is applied for crop improvement and conservation of genetic resources. Modern plant breeding is an increasingly sophisticated, high-investment business. The majority of commercial plant breeding takes place within the private sector. Plant breeders are employed in plant breeding or agricultural biotechnology companies or academic institutions with the main goal to develop improved varieties or educate the general population about genetic techniques for plant improvement.

**Plant Health and Protection**
This specialization is designed for students who want to pursue careers related to plant health management in the public or private sector. It will prepare students for entry into the workplace in insect and disease control, plant diagnostics, crop production management, plant pathology and entomology research, plant growth consulting, integrated pest management, cooperative extension or to pursue advanced degrees in plant pathology, entomology, plant medicine, or other related disciplines.

**Soil Management and Plant Productivity**
This specialization closely integrates the study of soil science core disciplines with production agriculture and horticulture. Coursework focuses on foundational principles related to soil health, productivity, and fertility in relation to sustainable plant growth and agricultural practices. Among the principal outcomes of the program is to prepare students for certification as both Associate Professional Soil Scientists and Certified Crop Advisors to better position graduates for employment in related fields.

**Sustainable Crop Production**
This specialization prepares students for professions related to crop production and management. Students will explore and understand production practices that meet present world food needs without compromising quality of life for future generations. Courses emphasize crop ecosystem function, aquatic and terrestrial weed management, the importance of insects to crops and optimizing management techniques including energy utilization, nutrient management, and soil and water conservation.

**Turfgrass Science**
This specialization combines the study of grasses, soils, water, and pests affecting turf with the study of business and management. Career opportunities include work with golf courses, sports turf facilities, lawn-care companies, parks, agrichemical industries, cemeteries, environmental consulting firms, sod farms, government agencies, and preparation for graduate school.
function, aquatic and terrestrial weed management, the importance of insects to crops and optimizing management techniques including energy utilization, nutrient management, and soil and water conservation.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites ([http://www.flvc.org/cpp/displayRecord.jsp?cip=011101&track=01](http://www.flvc.org/cpp/displayRecord.jsp?cip=011101&track=01)) may be used for transfer students.

**Semester 1**

- Complete 2 of 5 critical-tracking courses, excluding labs: BOT 2010C or BSC 2010/BSC 2010L; BOT 2011C or BSC 2011/BSC 2011L; CHM 2045/CHM 2045L; ECO 2013; MAC 1147
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 2**

- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 3**

- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 4**

- Complete all critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 5**

- Complete all critical-tracking courses, including labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

**Semester 6**

- Complete AGG 3501 and 1 approved major elective
- 2.0 upper division GPA required
- 2.0 UF GPA required

**Semester 7**

- Complete PLS 3223 and PLS 3223L and PLS 4601C
- 2.0 upper division GPA required
- 2.0 UF GPA required

**Semester 8**

- Complete AEB 4126 and PLS 4950
- 2.0 upper division GPA required
- 2.0 UF GPA required
# Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The plant science major, offered jointly by the departments of Agronomy and Plant Pathology, enables students to apply principles associated with production and improvement of agronomic crops. Students will acquire knowledge about the scientific fundamentals of plant growth of field and forage crops. They will acquire knowledge about fungi, bacteria and viruses, as well as environmental factors that cause plant disease. This program prepares students to work in the lab and field settings and to develop applied skills for research and extension.

Before Graduating Students Must

- Complete a research paper and an oral presentation with satisfactory faculty evaluation.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Describe plant growth and development in terms of plant morphology and physiology and evaluate the abiotic and biotic factors that impact plant growth and management.

2. Recommend practices that growers and managers can implement to address the abiotic and biotic components of their cropping system.

Critical Thinking

3. Analyze and apply science-based data to solve problems in plant production, distribution and/or utilization.

4. Design and evaluate a project that addresses a problem or challenge related to their area of interest.

Communication

5. Create, interpret and analyze written text and multimedia presentations.

6. Communicate effectively through oral and multimedia presentations.

Turfgrass Science

Plant scientists sustain and improve our current and future world as they work with foods, fibers, fuel, flowers, pharmaceuticals, urban forests, soil health, plant pests, and our natural environs. Plant Science students study biology, plant morphology and physiology, chemistry, entomology, physics, soil and water sciences, plant identification, plant pathology, plant propagation, and environmental horticulture.

About this Program

- **College:** Agricultural and Life Sciences (p. 113)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Related Programs

- Combination Degrees
- Environmental Horticulture Management Certificate
- Environmental Horticulture Minor
- Golf and Sports Turf Management Minor

The plant science degree offers diverse specializations that provide a wide range of professional opportunities. The specializations provide students with an interdisciplinary perspective of these areas and pursue coursework that tracks them into a variety of job opportunities.

The University of Florida offers some of the specializations in this major to transfer students who have the appropriate credentials through the statewide programs at the Fort Lauderdale Research and Education Center in Ft. Lauderdale, the Mid-Florida Research and Education Center in Apopka, or the West Florida Research and Education Center in Milton.

Course Requirements

All students, regardless of specialization, are required to take an introductory plant science course, an introductory statistics course, an economics course, a technical writing course, a speech course, a soil science course, a plant physiology course, a plant pathology course, a professional development course, and a capstone experience course. All students must also complete an internship related to their area of interest.

Each specialization has a specific set of required core courses and a number of upper-division electives to choose from that represent important interdisciplinary topic areas. Core courses provide students with the knowledge and fundamental concepts essential to the specialization. Upper-division electives are designed to build knowledge, competency and skills applicable to professional development.

Students should meet with an advisor as early as possible in their academic careers to choose their specialization and to plan their course of study.

Specializations

**General Plant Science**

This specialization focuses on the biology and science of growing plants. It combines courses in propagation, plant identification and use, soils and plant nutrition, plant diseases, weed identification, and insects to give students a well-rounded background on plant management. This specialization develops skills that allow students to increase plant productivity and improve plant quality with less labor while controlling pests and weeds safely and effectively. Career opportunities include research and development, plant management, plant production, and preparation for graduate school. Employment opportunities exist in laboratories, government agencies, and commercial operations.

**Greenhouse and Landscape Industries**

This specialization provides skills and training for employment in the diverse ornamental horticulture industry, including theme parks, plant production facilities, and landscape management and landscape design firms. It studies the improvement of the human environment through proper selection,
propagation, production, and placement of plants in the exterior and interior landscapes. It also combines business and plant production courses to provide the skills needed to manage a plant production facility or landscape firm.

**Native Plant Conservation**
This specialization prepares students to apply concepts of plant conservation and ecology to control invasive plants and establish, manage, and protect native plant communities, primarily in natural areas. Students also develop skills necessary for native plant propagation for ecological restoration and sustainable landscapes.

**Plant Breeding and Genetics**
Plant breeding and genetics play a critical role in enhancing the world’s future food, fiber, and fuel supplies in response to challenges like climate change and population growth. Students will obtain a solid grounding in genetics and molecular genetics, plant processes and function, types and causes of plant stress and learn how this is applied for crop improvement and conservation of genetic resources. Modern plant breeding is an increasingly sophisticated, high-investment business. The majority of commercial plant breeding takes place within the private sector. Plant breeders are employed in plant breeding or agricultural biotechnology companies or academic institutions with the main goal to develop improved varieties or educate the general population about genetic techniques for plant improvement.

**Plant Health and Protection**
This specialization is designed for students who want to pursue careers related to plant health management in the public or private sector. It will prepare students for entry into the workplace in insect and disease control, plant diagnostics, crop production management, plant pathology and entomology research, plant growth consulting, integrated pest management, cooperative extension or to pursue advanced degrees in plant pathology, entomology, plant medicine, or other related disciplines.

**Soil Management and Plant Productivity**
This specialization closely integrates the study of soil science core disciplines with production agriculture and horticulture. Coursework focuses on foundational principles related to soil health, productivity, and fertility in relation to sustainable plant growth and agricultural practices. Among the principal outcomes of the program is to prepare students for certification as both Associate Professional Soil Scientists and Certified Crop Advisors to better position graduates for employment in related fields.

**Sustainable Crop Production**
This specialization prepares students for professions related to crop production and management. Students will explore and understand production practices that meet present world food needs without compromising quality of life for future generations. Courses emphasize crop ecosystem function, aquatic and terrestrial weed management, the importance of insects to crops and optimizing management techniques including energy utilization, nutrient management, and soil and water conservation.

**Turfgrass Science**
This specialization combines the study of grasses, soils, water, and pests affecting turf with the study of business and management. Career opportunities include work with golf courses, sports turf facilities, lawn-care companies, parks, agrichemical industries, cemeteries, environmental consulting firms, sod farms, government agencies, and preparation for graduate school.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=011101&track=01) may be used for transfer students.

### Semester 1

- Complete 2 of 5 critical-tracking courses, excluding labs: BOT 2010C or BSC 2010/BSC 2010L; BOT 2011C or BSC 2011/BSC 2011L; CHM 2045/CHM 2045L; ECO 2013; MAC 1147
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required
**Semester 2**
- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 3**
- Complete 2 additional critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 4**
- Complete all critical-tracking courses, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 5**
- Complete all critical-tracking courses, including labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

**Semester 6**
- Complete AGR 4512 or HOS 4304
- 2.0 upper division GPA required
- 2.0 UF GPA required

**Semester 7**
- Complete AEB 4126 and PLP 3002C
- 2.0 upper division GPA required
- 2.0 UF GPA required

**Semester 8**
- Complete ORH 4933 and PLS 4950
- 2.0 upper division GPA required
- 2.0 UF GPA required

---

**Model Semester Plan**

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The plant science major, offered jointly by the departments of Agronomy and Plant Pathology, enables students to apply principles associated with production and improvement of agronomic crops. Students will acquire knowledge about the scientific fundamentals of plant growth of field and forage crops. They will acquire knowledge about fungi, bacteria and viruses, as well as environmental factors that cause plant disease. This program prepares students to work in the lab and field settings and to develop applied skills for research and extension.

Before Graduating Students Must

- Complete a research paper and an oral presentation with satisfactory faculty evaluation.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Describe plant growth and development in terms of plant morphology and physiology and evaluate the abiotic and biotic factors that impact plant growth and management.
2. Recommend practices that growers and managers can implement to address the abiotic and biotic components of their cropping system.

Critical Thinking
3. Analyze and apply science-based data to solve problems in plant production, distribution and/or utilization.
4. Design and evaluate a project that addresses a problem or challenge related to their area of interest.

Communication
5. Create, interpret and analyze written text and multimedia presentations.
6. Communicate effectively through oral and multimedia presentations.

Department Information

The Department of Agronomy’s vision is to improve and sustain food production while conserving natural resources and promoting healthy and active lives by creating and disseminating knowledge in the plant sciences. The department’s mission is to achieve excellence in the science of using plants
for food, feed, fuel, fiber and turf, as well as in the management of weed species, through research, teaching, and outreach programs that serve the people of Florida, our nation, and the world.

Precision Agriculture Minor

In the multidisciplinary Precision Agriculture minor, students use satellite imagery, aerial photography, field sensors, and the Global Positioning System to acquire information about field conditions. This information is organized and analyzed using a digital mapping system called Geographical Information System. After being analyzed, these data can help make effective management decisions.

Recreation Resources Management Certificate

This certificate prepares students to create and manage nature-based recreational opportunities. Includes management of recreational features and infrastructure, as well as education through programming. Graduates will be prepared to work for public agencies managing land which provides recreational opportunities, as well as private entities providing recreational opportunities such as guide services.

About this Program

- **College**: Agricultural and Life Sciences (p. 113)
- **Credits**: 15 | Completed with minimum grades of C

*Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.*

Department Information

The School of Forest, Fisheries, and Geomatics Sciences is a unit within the Institute of Food and Agricultural Sciences (IFAS) and the College of Agricultural and Life Sciences (CALS). The school is home to three distinct yet integrated program areas: Fisheries and Aquatic Sciences ([http://sfrc.ufl.edu/fish/](http://sfrc.ufl.edu/fish/)), Forest Resources and Conservation ([http://sfrc.ufl.edu/forest/](http://sfrc.ufl.edu/forest/)), and Geomatics ([http://sfrc.ufl.edu/geomatics/](http://sfrc.ufl.edu/geomatics/)). The school's faculty, staff, and students conduct research, teaching, and extension that cuts across a wide range of environments and disciplines.

Curriculum

- Combination Degrees
- Fire Ecology and Management Certificate
- Fisheries and Aquatic Sciences Minor
- Forest Resources and Conservation
- Forest Resources and Conservation Minor
- Geomatics
- Geomatics Certificate
- Mapping with Small Unmanned Aerial Systems Certificate
- Natural Resource Conservation

Requirements for admission

Students or professionals with appropriate academic and/or professional background in natural resources, natural resource management, or allied fields, as determined by the FRC/NRC Undergraduate Coordinator.

Curriculum

Students must have a high-school diploma or the equivalent and they must have completed all course prerequisites before enrolling in any course.

## Soil and Water Sciences

Soil and Water Sciences involves managing land and water resources across a wide range of ecosystems, including agricultural, forested, range, urban and wetlands. Soil and Water Sciences students have a strong science and math background and study biology, calculus, microbiology, chemistry, physics, and ecology.

### About this Program

- **College:** Agricultural and Life Sciences (p. 113)
- **School:** Natural Resources and Environment (p. 1633)
- **Degree:** Bachelor of Science
- **Specializations:** Soil Science (p. 412) | Water Science (p. 417)
- **Credits for Degree:** 120
- **More Info:** Soil Science (https://soils.ifas.ufl.edu/academics/-undergraduate-studies/soil-science-specialization/) | Water Science (https://soils.ifas.ufl.edu/academics/-undergraduate-studies/water-science-specialization/)

To graduate with this major, students must complete all university, college, and major requirements.

### Department Information

The Soil and Water Sciences Department researches and teaches about soil, water, and environmental sciences in urban, agricultural, and natural ecosystems. Since its origins over 100 years ago, the department has made significant contributions to improving the productivity of Florida's agriculture, helping protect the state’s unique ecosystems, and contributing to soil and water science at national and international levels.

### Curriculum

- Combination Degrees
- Environmental Management in Agriculture and Natural Resources | Interdisciplinary Studies
- Environmental Management in Agriculture and Natural Resources | Interdisciplinary Studies UF Online
- Soil and Water Sciences
- Soil and Water Sciences Minor
Students are trained in managing land and water resources in a wide range of ecosystems, including agricultural, forested, range, urban and wetlands through different degree programs. Specializations within this degree program are designed to give the student a strong background in soil and water sciences with a core of required courses taken during their junior and senior years. Beyond the core courses, students can select from several groups of electives that provide flexibility in their program.

Students may also prepare for professional schools by selecting appropriate elective courses.

**Soil Science**

Areas of study include soil and land use (with an emphasis on natural resources and the environment), environmental management (with an emphasis on agricultural and other applied aspects of soil sciences), physical and biological sciences (with an emphasis on physics, microbiology, botany and/or other biological sciences) and business (with an emphasis on policy, economics, business administration or entrepreneurship).

**Water Science**

Water's abundance, quality, distribution and properties are essential to all people. Understanding water's role in the environment and in our lives is integral to the future of this important resource. Water science is an interdisciplinary specialization that provides students with opportunities to develop skills essential for a diversity of careers in both government and private sectors. Students will work closely with advisors to develop a course of study tailored to their professional goals.

**Academic Learning Compact**

The soil and water sciences major enables students to identify and to describe the morphology of soils, to differentiate soils according to soil taxonomy and to distinguish soil forming factors. Students will use this knowledge to assess properties of soils in relation to plant growth and environmental uses and to apply this knowledge to different soil uses in agriculture, natural resources and urban settings.

**Before Graduating Students Must**

- Pass the soil and water sciences competency exam, given in four parts. One part will be given in each of these required courses:
  - SWS 3022 Soils in the Environment
  - SWS 4451 Soil and Water Chemistry
  - SWS 4602C Soil Physics
  - SWS 4715C Environmental Pedology
- Satisfactorily complete an approved research project in SWS 4905 or SWS 4941.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Apply fundamental principles of chemistry and physics in relation to critical zone processes in the pedosphere and hydrosphere.
2. Classify fundamental biological processes and differentiate basic organism function in soil and hydrologic systems.
3. Utilize field observations, case study evidence and experimental data to describe soil formation, morphology and interactions of the varied components of the hydrologic cycle.

**Critical Thinking**

4. Critically evaluate the sustainability of water resources in relation to human needs and natural ecosystem function.
5. Demonstrate quantitative problem-solving abilities by applying, analyzing and synthesizing content knowledge related to soil and water chemistry and physics.

**Communication**

6. Create, interpret and analyze written text, oral messages and multimedia presentations used in agricultural and life sciences.

Beyond the core courses, students can select from several groups of electives that provide flexibility in their program.

Students may also prepare for professional schools by selecting appropriate elective courses.
Soil Science
Areas of study include soil and land use (with an emphasis on natural resources and the environment), environmental management (with an emphasis on agricultural and other applied aspects of soil sciences), physical and biological sciences (with an emphasis on physics, microbiology, botany and/or other biological sciences) and business (with an emphasis on policy, economics, business administration or entrepreneurship).

Water Science
Water’s abundance, quality, distribution and properties are essential to all people. Understanding water’s role in the environment and in our lives is integral to the future of this important resource. Water science is an interdisciplinary specialization that provides students with opportunities to develop skills essential for a diversity of careers in both government and private sectors. Students will work closely with advisors to develop a course of study tailored to their professional goals.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=011201&track=01) may be used for transfer students.

Semester 1
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2
- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3
- Complete 1 additional critical-tracking course, excluding labs
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4
- Complete all critical-tracking courses, including labs, from semesters 1 – 4
- 2.0 GPA required for all critical-tracking courses
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 5
- Complete 1 additional tracking course
- 2.0 upper division GPA required.
- 2.0 UF GPA required

Semester 6
- Complete 2 additional tracking courses
- 2.0 upper division GPA required.
- 2.0 UF GPA required
Semester 8

- Complete all remaining tracking courses from semesters 5 - 8
- 2.0 upper division GPA required.
- 2.0 UF GPA required

### Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Electives are chosen with the student’s advisor. There are four areas of specialization: soil, water and land use, environmental soil and water management, physical sciences and biological sciences. The student is encouraged to take electives from a range of course groupings that include biology, building construction, chemistry, earth science, environmental science, hydrology, mathematics, physics, policy, production systems, programming and statistics.
The soil and water sciences major enables students to identify and to describe the morphology of soils, to differentiate soils according to soil taxonomy and to distinguish soil forming factors. Students will use this knowledge to assess properties of soils in relation to plant growth and environmental uses and to apply this knowledge to different soil uses in agriculture, natural resources and urban settings.

Before Graduating Students Must

- Pass the soil and water sciences competency exam, given in four parts. One part will be given in each of these required courses:
  - SWS 3022 Soils in the Environment
  - SWS 4451 Soil and Water Chemistry
  - SWS 4602C Soil Physics
  - SWS 4715C Environmental Pedology
- Satisfactorily complete an approved research project in SWS 4905 or SWS 4941.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

- 2.0 upper division GPA required.
- 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Electives are chosen with the student’s advisor. The student is encouraged to take electives from a range of course groupings that include biology, building construction, chemistry, earth science, environmental science, geology, hydrology, mathematics, physics, policy, production systems, programming, soils, and statistics.

Academic Learning Compact

The soil and water sciences major enables students to identify and to describe the morphology of soils, to differentiate soils according to soil taxonomy and to distinguish soil forming factors. Students will use this knowledge to assess properties of soils in relation to plant growth and environmental uses and to apply this knowledge to different soil uses in agriculture, natural resources and urban settings.

Before Graduating Students Must

- Pass the soil and water sciences competency exam, given in four parts. One part will be given in each of these required courses:
  - SWS 3022 Soils in the Environment
  - SWS 4451 Soil and Water Chemistry
• SWS 4602C Soil Physics
• SWS 4715C Environmental Pedology

• Satisfactorily complete an approved research project in SWS 4905 or SWS 4941.
• Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Apply fundamental principles of chemistry and physics in relation to critical zone processes in the pedosphere and hydrosphere.
2. Classify fundamental biological processes and differentiate basic organism function in soil and hydrologic systems.
3. Utilize field observations, case study evidence and experimental data to describe soil formation, morphology and interactions of the varied components of the hydrologic cycle.

Critical Thinking
4. Critically evaluate the sustainability of water resources in relation to human needs and natural ecosystem function.
5. Demonstrate quantitative problem-solving abilities by applying, analyzing and synthesizing content knowledge related to soil and water chemistry and physics.

Communication
6. Create, interpret and analyze written text, oral messages and multimedia presentations used in agricultural and life sciences.

Soil and Water Sciences Minor

Established in 1884, the mission of the College of Agricultural and Life Sciences is to deliver unsurpassed educational programs that prepare students to address the world’s critical challenges related to agriculture, food systems, human well-being, natural resources and sustainable communities.

- **Credits:** 15 | Completed with minimum grades of C

Department Information

The Soil and Water Sciences Department researches and teaches about soil, water, and environmental sciences in urban, agricultural, and natural ecosystems. Since its origins over 100 years ago, the department has made significant contributions to improving the productivity of Florida's agriculture, helping protect the state's unique ecosystems, and contributing to soil and water science at national and international levels.

Curriculum

- Combination Degrees
- Environmental Management in Agriculture and Natural Resources | Interdisciplinary Studies
- Environmental Management in Agriculture and Natural Resources | Interdisciplinary Studies UF Online
- Soil and Water Sciences
- Soil and Water Sciences Minor

This minor must include SWS 3022 and SWS 3022L. Additional SWS courses must be approved in writing by the academic advisor and the undergraduate coordinator in soil and water science at least two semesters before graduation. Courses taught outside the Department of Soil and Water Sciences cannot be used to fulfill requirements for this minor.

Fifteen credits in soils courses are necessary for certification as a soil scientist and/or to work for the federal government as a soil scientist. Some courses offered in soil and water sciences will not be accepted for certification or to work for the federal government.

Urban Forestry certificate

This certificate prepares students to manage natural resources within urban and urbanizing environments. Graduates are prepared to work for municipalities, urban planning organizations, consulting firms, and similar entities involved in the planning, installation, and maintenance of urban green space.

About this Program

• **College**: Agricultural and Life Sciences (p. 113)
• **Credits**: 19 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

School Information

The School of Forest, Fisheries, and Geomatics Sciences is a unit within the Institute of Food and Agricultural Sciences (IFAS) and the College of Agricultural and Life Sciences (CALS). The school is home to three distinct yet integrated program areas: Fisheries and Aquatic Sciences (http://sfrc.ufl.edu/fish/), Forest Resources and Conservation (http://sfrc.ufl.edu/forest/), and Geomatics (http://sfrc.ufl.edu/geomatics/). The school's faculty, staff, and students conduct research, teaching, and extension that cuts across a wide range of environments and disciplines.

• Natural Resource Conservation

Admission Requirements

Students or non-degree-seeking professionals with appropriate academic and/or professional background in natural resources, natural resource management, or allied fields sufficient to provide experience and/or context for the certificate coursework, as determined by the undergraduate coordinator.
Students must have a high-school diploma or the equivalent and they must have completed all course prerequisites before enrolling in any course.

### Urban Pest Management Certificate

The Urban Pest Management certificate offers training to place-bound employees of the pest control and related industries who desire advanced training in household, structural and nuisance pests, including identification and management.

### About this Program

- **College**: Agricultural and Life Sciences (p. 113)
- **Credits**: 15 | Completed with minimum grades of C
- **Contact**: Email (capinera@ufl.edu) | 352.273.3905

*Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.*

### Department Information

The Entomology and Nematology Department prepares students for exciting careers in a variety of fields. Entomology and Nematology majors can enter medical, dental, or veterinary school; progress to graduate study in any of several biological sciences such as ecology, nematology, entomology, horticulture, or zoology; or move directly to a variety of careers in fields such as pest management, ecotourism, or biosecurity.

**Wildlife Ecology and Conservation**

This major focuses on developing students’ knowledge of the conservation and management of wildlife and habitats for the greatest aesthetic, ecological, economic, and recreational values. Students in the Wildlife Ecology and Conservation major study biology, chemistry, ecology, calculus, soil science, plant taxonomy, entomology, geography, zoology, and sustainability.

**About this Program**

- **College**: Agricultural and Life Sciences (p. 113)
- **Degree**: Bachelor of Science
- **Specializations**: Preprofessional (p. 427) | Wildlife Ecology and Conservation (p. 431)
- **Credits for Degree**: 120
- **Contact**

*To graduate with this major, students must complete all university, college, and major requirements.*

**Department Information**

The Department of Wildlife Ecology and Conservation fosters education, expands knowledge, and rewards scholarship, using multi-disciplinary approaches for the purpose of understanding, managing, and conserving biological resources.

**Curriculum**

- Combination Degrees
- Wildlife Ecology and Conservation
- Wildlife Ecology and Conservation Minor
Related Programs

- Forest Resources and Conservation

The department also co-administers a major in natural resource conservation with the School of Forest Resources and Conservation. More Info (p. 341)

Preprofessional

This specialization satisfies the coursework requirements for admission to the Doctor of Veterinary Medicine program. Students pursuing admission to the College of Veterinary Medicine must take six credits of general education composition, nine credits of humanities and six credits of social and behavioral sciences.

Wildlife Ecology and Conservation

Students in this specialization train in the biological, social, physical and management sciences, and excel at both the scientific and human dimensions of managing wildlife and natural resources. With appropriate choice of electives and course options, graduates satisfy requirements for certification as an associate wildlife biologist with The Wildlife Society.

Academic Learning Compact

The primary focus of the wildlife ecology and conservation major is to develop students’ knowledge of the conceptual and applied aspects of scientific, social and ethical thought in wildlife ecology and conservation. Emphasis is placed on the biology, ecology, natural history and behavior of Florida wildlife species and the management of wildlife, their habitats and their population dynamics for the greatest aesthetic, ecological, economic and recreational values. Students will learn to think critically about major problems in the conservation of biological diversity and to apply biological principles to the preservation of this diversity.

Before Graduating Students Must

- Pass the wildlife ecology and conservation competency exam, given as part of WIS 4203C or WIS 4554.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Acquire knowledge of scientific, social and ethical arenas of wildlife ecology and conservation; acquire skills for critical reasoning in conservation management; acquire knowledge of Florida wildlife species and their biology, ecology, natural history and behavior; describe principles and applications of wildlife management practices, population dynamics and habitat management; and apply biological principles to solve problems in wildlife conservation and preserve biological diversity.

Critical Thinking

2. Apply ecological, mathematical and statistical concepts to interpret, understand and communicate wildlife ecology and conservation data.

Communication

3. Create, interpret and analyze written text, oral messages and multimedia presentations used in agricultural and life sciences.

Some students can also satisfy requirements for certification as an associate wildlife biologist by The Wildlife Society. Certification requirements and application material are available at [www.wildlife.org](http://www.wildlife.org).
Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=030501&track=01) may be used for transfer students.

Semester 1
- Complete 2 of 7 critical-tracking courses, excluding labs: BSC 2010/BSC 2010L, BSC 2011/BSC 2011L, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, AEB 2014 or AEB 3103 or ECO 2023, MAC 2311, STA 2023
- 2.5 GPA on required math and science courses combined
- 2.0 UF GPA required

Semester 2
- Complete 2 additional critical-tracking courses, excluding labs
- 2.5 GPA on required math and science courses combined
- 2.0 UF GPA required

Semester 3
- Complete 1 additional critical-tracking course, excluding labs
- 2.5 GPA on required math and science courses combined
- 2.0 UF GPA required

Semester 4
- Complete 2 additional critical-tracking courses, including labs
- 2.5 GPA on required math and science courses combined
- 2.0 UF GPA required

Semester 5
- Complete 1 additional critical-tracking course
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 6
- Complete 1 additional critical-tracking course
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 8
- Complete 1 additional critical-tracking course, including labs
- 2.0 upper division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.
This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

*Additional electives may be needed to complete the 120 credits required for graduation. Students can choose any courses as electives.*

State core courses can be selected to meet the university's requirements for writing, international and diversity focused courses.

### Academic Learning Compact

The primary focus of the wildlife ecology and conservation major is to develop students’ knowledge of the conceptual and applied aspects of scientific, social and ethical thought in wildlife ecology and conservation. Emphasis is placed on the biology, ecology, natural history and behavior of Florida wildlife species and the management of wildlife, their habitats and their population dynamics for the greatest aesthetic, ecological, economic and recreational values. Students will learn to think critically about major problems in the conservation of biological diversity and to apply biological principles to the preservation of this diversity.

**Before Graduating Students Must**

- Pass the wildlife ecology and conservation competency exam, given as part of WIS 4203C or WIS 4554.
- Achieve minimum grades of C in AEC 3030C and AEC 3033C. These courses are graded using rubrics developed by a faculty team.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

**Student Learning Outcomes (SLOs)**

**Content**

1. Acquire knowledge of scientific, social and ethical arenas of wildlife ecology and conservation; acquire skills for critical reasoning in conservation management; acquire knowledge of Florida wildlife species and their biology, ecology, natural history and behavior; describe principles and applications of wildlife management practices, population dynamics and habitat management; and apply biological principles to solve problems in wildlife conservation and preserve biological diversity.

**Critical Thinking**

2. Apply ecological, mathematical and statistical concepts to interpret, understand and communicate wildlife ecology and conservation data.

**Communication**

3. Create, interpret and analyze written text, oral messages and multimedia presentations used in agricultural and life sciences.

Wildlife Ecology and Conservation

This major focuses on developing students’ knowledge of the conservation and management of wildlife and habitats for the greatest aesthetic, ecological, economic, and recreational values. Students in the Wildlife Ecology and Conservation major study biology, chemistry, ecology, calculus, soil science, plant taxonomy, entomology, geography, zoology, and sustainability.

About this Program

- **College**: Agricultural and Life Sciences (p. 113)
- **Degree**: Bachelor of Science
- **Specializations**: Preprofessional (p. 427) | Wildlife Ecology and Conservation (p. 431)
- **Credits for Degree**: 120
- **Contact**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Wildlife Ecology and Conservation fosters education, expands knowledge, and rewards scholarship, using multi-disciplinary approaches for the purpose of understanding, managing, and conserving biological resources.

Curriculum

- Combination Degrees
- Wildlife Ecology and Conservation
- Wildlife Ecology and Conservation Minor

Related Programs

- Forest Resources and Conservation

The department also co-administers a major in natural resource conservation with the School of Forest Resources and Conservation. More Info (p. 341)
Preprofessional
This specialization satisfies the coursework requirements for admission to the Doctor of Veterinary Medicine program. Students pursuing admission to the College of Veterinary Medicine must take six credits of general education composition, nine credits of humanities and six credits of social and behavioral sciences.

Wildlife Ecology and Conservation
Students in this specialization train in the biological, social, physical and management sciences, and excel at both the scientific and human dimensions of managing wildlife and natural resources. With appropriate choice of electives and course options, graduates satisfy requirements for certification as an associate wildlife biologist with The Wildlife Society.

Students select a focus area comprised of four courses (minimum of 12 credits) in one of the following areas: ecology, management, human dimensions, quantitative science or urban and regional planning (combination degree program only).

All students must file a plan of study for focus area courses with Wildlife Ecology and Conservation (WEC) Student Services before completing 60 credits in the major or before the end of the first term of enrollment for transfer students. The plan must be approved by both the student’s faculty advisor and the undergraduate coordinator. Any changes to the plan must be approved by the undergraduate coordinator.

Lists of approved courses are available in the WEC Student Services Office, 102 Newins-Ziegler Hall.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=030501&track=01) may be used for transfer students.

Semester 1
• Complete 1 of 6 critical-tracking courses, excluding labs: BSC 2010/BSC 2010L, BSC 2011/BSC 2011L, CHM 2045/CHM 2045L, AEB 2014 or AEB 3103 or ECO 2311, MAC 2311, STA 2023
• 2.5 GPA on required math and science courses combined
• 2.0 UF GPA required

Semester 2
• Complete 1 additional critical-tracking course, excluding labs
• 2.5 GPA on required math and science courses combined
• 2.0 UF GPA required

Semester 3
• Complete 2 additional critical-tracking courses, excluding labs
• 2.5 GPA on required math and science courses combined
• 2.0 UF GPA required

Semester 4
• Complete 2 additional critical-tracking courses, including labs
• 2.5 GPA on required math and science courses combined
• 2.0 upper division GPA required
• 2.0 UF GPA required

Semester 5
• Complete 1 additional critical-tracking course
• 2.5 GPA on required math and science courses combined
• 2.0 UF GPA required
Semester 6

- Complete 1 additional critical-tracking course
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 7

- Complete 1 additional critical-tracking course
- 2.0 upper division GPA required
- 2.0 UF GPA required

Semester 8

- Complete 1 additional critical-tracking course
- 2.0 upper division GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

Arts, College of the

Established in 1925, the College of the Arts offers fully accredited schools of Art and Art History, Music, and Theatre and Dance, as well as the Center for Arts in Medicine and the Digital Worlds Institute.

Contact

101 Fine Arts Building A
1389 Stadium Road
P.O. Box 115800
University of Florida
Gainesville, FL 32611-1930

352.392.0207

Established

1925 through the School of Architecture. Became its own college in 1975.

Accredited

National Association of Schools of Art and Design (NASAD), National Association of Schools of Music (NASM), National Association of Schools of Theatre (NAST), and National Association of Schools of Dance (NASD)
Programs
Baccalaureate, masters, and doctoral degree programs

Degrees
Bachelor of Arts, Bachelor of Arts in Art Education, Bachelor of Arts in Digital Arts and Sciences, Bachelor of Arts in History of Art, Bachelor of Fine Arts, Bachelor of Fine Arts in Graphic Design, Bachelor of Music, and Bachelor of Music in Music Education

Divisions
• School of Art and Art History (http://www.arts.ufl.edu/art/)
• School of Music (http://www.arts.ufl.edu/music/)
• School of Theatre and Dance (http://www.arts.ufl.edu/theatreanddance/)
• Center for Arts in Medicine (http://arts.ufl.edu/academics/center-for-arts-in-medicine/)
• Center for Arts, Migration and Entrepreneurship (https://arts.ufl.edu/sites/center-for-arts-migration-and-entrepreneurship/about-the-center/)
• Digital Worlds Institute (http://digitalworlds.ufl.edu/)
• New World School of the Arts (http://www.mdc.edu/nwsa/)

Related Partnerships
• Arts Living/Learning Community (http://www.housing.ufl.edu/hall/reid/)
• Harn Museum of Art (http://www.harn.ufl.edu/)
• University of Florida Performing Arts (http://www.performingarts.ufl.edu/)

Visual Resources Center
More than 200,000 slides, photographs and study prints are available for college and university faculty and students to use for presentations or lectures.

Libraries
In addition to the main university library, there is also a library for Architecture and Fine Arts.

Academic Policies
Admission Requirements
Students planning to major in any program in the arts should contact the College of the Arts as soon as possible. Because of limitations in faculty and space, the college cannot accept all eligible applicants; admission, therefore, is selective.
More Info (http://arts.ufl.edu/about/programs/)

Auditions are required for admission to all music programs and to the B.F.A. programs in theatre and dance. Refer to the appropriate school for audition information. A student’s entire record, including educational objective, pattern of courses completed, quality of academic record, successful audition or portfolio review and test data will be considered.

Native Freshmen and Sophomores
Because the College of the Arts offers professional degrees (B.F.A. and B.Mus.) and a limited access B.A. program in digital arts and sciences, the admissions process often occurs in two phases.
1. Conditional admission as a freshman to the college and a program of choice in the School of Theatre and Dance (B.A only), the School of Art and Art History or the UF Digital Worlds Institute. There is no conditional admission for music students; they must audition for direct admission to music programs before registering for classes.

2. Direct or confirmed admission into a specific program of choice occurs in different stages of the academic career for different programs.

**Art**

Students desiring to change from another major within the university must submit a portfolio for conditional admission. All art students must pass a portfolio review at the end of their sophomore year before direct admission to a specific program.

**Digital Arts and Sciences**

Students must submit a portfolio of original student work, demonstrating competency in digital art and computer programming, by March 15 of the sophomore year for approval to begin upper division coursework the following Fall.

**Music**

All students must audition for admission to a music major.

**Theatre and Dance**

Students must audition for direct admission to B.F.A. programs.

Students, even those in the conditional phase of their program, maintain the College of the Arts (FA) classification as long as they meet the standards set by the college and UF for admission and universal tracking.

**Transfer Students**

To be eligible for admission to the college, a transfer student must satisfy the minimum requirements for UF admission.

The primary criterion for any art, dance, digital arts and sciences, music or theatre program is proficiency in the discipline. All students, except for B.A. in theatre or dance, must present an audition, portfolio or other required support material for review.

The majority of 3000/4000-level professional courses required for the major in the junior and senior years generally cannot be taken at other schools. Students attending four-year colleges should take courses similar to the first two years’ preparatory courses for their intended major.

The associate of arts (A.A.) degree is recommended for students transferring from a Florida public college; the degree should be posted on the student’s transcript before admission.

Transfer students are advised to plan their studies as outlined below for each department or school. Transfer students, even with completed A.A. degrees, will usually be required to take additional preprofessional, lower-division (2000 level) courses beyond the minimum courses, required for entry into a specific program.

**Art**

Students are admitted to studio degree programs following completion of a satisfactory portfolio review. Applicants should note that the UF Office of Admissions deadline for the fall or summer B term is March 1; the submission deadline for the art portfolio is March 15. The UF Office of Admissions deadline for the spring term is September 15 and the submission deadline for the art portfolio is October 1.

Please see the website for up-to-date prerequisite information and application instructions.

More Info (https://arts.ufl.edu/about/programs/#art-and-art-history)

All majors within the School of Art and Art History require a portfolio review, except art history, which does require a letter of intent outlining the applicant’s goals as related to that major. Refer to the School of Art and Art History website for further clarification.

**Dance**

Students are admitted to the B.F.A program following completion of the following:

- A satisfactory in-person or videotaped audition
- A résumé
- Acceptable proficiency in dance technique

The state college program should include:

- Two years of dance technique, including ballet, modern and jazz
- One year of dance composition
- Dance appreciation
Digital Arts and Sciences

Students are admitted to the program following completion of the following:

- Satisfactory submission of the portfolio of original student work, demonstrating competency in digital art and computer programming.
- Completion of the following prerequisite courses with a minimum 2.5 GPA:

<table>
<thead>
<tr>

</tbody>
</table>

At least one course in Studio Art or Computer Programming.

The state college program should include work required to earn the A.A. degree and the type of general education and recommended electives found in the degree description. Applicants should note that the UF Office of Admissions deadline for fall is March 1 and the submission deadline for the portfolio is March 15. Refer to the Digital Worlds Institute website for instructions on submitting the portfolio.

More Info (https://digitalworlds.ufl.edu/)

Music

Upper-division **professional** students have an AA or at least 60 hours at the time of matriculation, and **have** completed the coursework required for admission at the professional level (listed below). Transfer students who do not meet the criteria for admission at the professional level may be admitted as **provisional**. If a student does not have an AA degree or at least 60 credit hours, they should refer to the lower division information above. All transfer students with an Associate of Arts degree or with 60 hours of accumulated credit must be accepted into a specific college when they apply to the University of Florida.

Upper-division **provisional** students have an AA or at least 60 hours at the time of matriculation, but **have not** completed the coursework required for admission at the professional level (listed below). This includes students who have transferred from community colleges that do not offer music programs, students who have not successfully completed the theory requirements, etc. Community college students, with or without an AA degree, who **have not** completed the required pre-professional course work will audition at the "pre-professional level". All students auditioning at the "pre-professional level" will take a theory exam for placement within the theory program and must then successfully pass the final Comprehensive Musicianship Exam upon completion of the theory coursework assigned for remediation.

Requirements for admission at the Professional level:

**Courses**
- Four semesters of applied studio (8 hours)
- Four semesters of ensemble (4 hours)
- Four semesters of recital attendance
- Four semesters of theory (12 hours)
- Four semesters of secondary piano (4 hours)

**Competency Requirements**
- 3000 level Pre-professional Jury
- Comprehensive Musicianship Examination (CME)

**Grade Point Average Minimums**
- 2.5 for Music Education
- 2.0 for all other degree tracks

Theatre

Students are admitted to the program following completion of a satisfactory audition in performance or a portfolio review in production.

The state college program should include:

- One course in acting
- Introduction to theatre
- Costume and stage make-up
- Stagecraft

Timely Graduation

The College of the Arts expects full-time enrollment for students enrolled in bachelor's level degree programs. COTA majors are expected to graduate within the following timeframes: eight full-time fall/spring semesters for students admitted as freshmen, and four fall/spring semesters for students
admitted as junior transfers. Full-term withdrawals, full-term semesters of overseas study, or full-term semesters of internship away from UF are not included in this count, although students should be mindful of potential excess hours implications of extending their time at UF.

Students who cannot meet their degree requirements within the eight full-time semesters (four for transfer students) are expected to enroll in summer terms to complete their degree requirements.

Due to the sequencing of course requirements, some A.A. and upper division transfer students may be unable to complete their degree requirements in the four allotted semesters. Students should see their respective advisor to determine an appropriate academic plan to complete their degrees.

REQUEST FOR ADDITIONAL SEMESTERS GUIDELINES

COTA recognizes that unexpected life events, individual circumstances, or complex educational goals may necessitate additional time to complete degree requirements. Additional time to degree is permitted with the approval of the College Petitions Committee, and may be limited to fulfillment of unmet degree requirements only.

COTA generally approves graduation extensions for the following reasons:

- Series of approved medical drops, medical withdrawals, or approved reduced course load lower than 12 credits for full-time status via the DRC
- Personal/financial hardship necessitating the student cease enrollment or enroll at less than full time for one or more semesters

More Info (p. 32)

COTA does not approve graduation extensions for students on academic probation nor for students seeking to finish requirements for minors or certificates, or prerequisites for graduate study.

DUAL DEGREES/DUPLICATE MAJORS/COMBINATION DEGREES

We recognize and commend the many COTA students with ambitious educational goals involving the pursuit of dual-degree/double major/combination degree plans. COTA expects these students to utilize robust fall/spring course loads (i.e., more than 12 credits in fall/spring terms) and summer term enrollment to complete all degree requirements as expeditiously as possible.

- Students who plan to pursue a dual-degree/double major should work with their advisor/s to create a reasonable semester plan that achieves degree completion as soon as possible. COTA generally permits a maximum of one additional year (two full-time semesters with some additional summer course work) for students pursuing dual-degree/double majors.

- COTA approves additional semesters for dual degrees with majors that already require more than eight full-time semesters for degree completion (e.g., mechanical engineering).

CHANGE OF Major

COTA recognizes that the major selected when a student starts at UF is not always the right major. Students wishing to change majors into a COTA major should work with the respective advisor to determine the feasibility of timely graduation in the new major.

- COTA expects these students to utilize robust fall/spring course loads (i.e., more than 12 credits in fall/spring terms) and summer term enrollment to catch up and complete all degree requirements as expeditiously as possible.

- COTA generally permits a maximum of one additional year (two full-time semesters with some additional summer course work) for students who have changed majors into a COTA major and are unable to complete degree requirements in the standard eight-semester timeframe.

- Due to state of Florida excess hours legislation, it is critical to consult with your COTA advisor to explore the options available so as to graduate as soon as possible but also incur the least amount of excess hours. Many students find pursuing the BA degree options enable timely graduation with a more reasonable number of credits.

PROCEDURES

1. Meet with your undergraduate advisor for guidance regarding your academic goals and graduation timeline

2. If graduation timeline exceeds the allotted four-year timeframe, submit a Graduation Extension Petition.

3. Your undergraduate advisor will review the petition in consultation with the COTA Petitions Committee and notify you of the status (approved, denied, or additional information requested).

Students should discuss their excess hours standing with their advisor as they are making their plan. In addition, students should discuss their financial aid/scholarship situation with Student Financial Affairs in 107 Criser Hall or Veterans Services in 222 Criser Hall.
College Requirements

Student Responsibility

Students are responsible for staying on track, for registering for the proper courses and for fulfilling all requirements for their degrees.

While the college maintains an academic advisory service and carefully works to keep accurate records of individual students in the college, the student is responsible for meeting all degree requirements. Students should read their online-tracking audits each term and visit an advisor to review progress toward the degree.

Students may be required to take additional courses to remove skill deficiencies when deemed necessary by proficiency exams.

Course Load

The college expects all students to be enrolled as full-time students (a minimum of 12 credits per semester). The college strongly encourages students to take 15 credits per semester to successfully meet degree requirements as soon as possible. A student who wishes to carry more than 18 credits must get approval at the time of registration from a college academic advisor.

Satisfactory Academic Progress

Students maintain satisfactory academic progress by earning a minimum 2.0 (C) GPA for all work attempted while classified in the college (2.5, C+ average in music education and a 3.0 (B) average for all School of Art and Art History majors).

Students must take courses as outlined in the semester plan for each major. Students should see an advisor for more information. Students are required to take courses in sequence. Students may be excluded from a program of study in the college if they fail or refuse to maintain normal academic progress.

College Probation and Dismissal

Students should see an advisor in their department for information about department level probation. Students should review the University of Florida’s probation and dismissal policies. More Info (https://catalog.ufl.edu/ugrad/current/regulations/info/progress.aspx#probation)

Adding/Dropping/Withdrawing

Refer to the policy for dropping courses.
More Info (p. 1791)

Petitions

Any student who feels that college regulations created a particular hardship or injustice may petition for a waiver of the regulation. Information on procedures is available in the advisor’s office. Anyone who believes that they have been discriminated against should contact the advisor or associate dean for student affairs.

Helpful Links

- Dean’s List (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#deanslisttext)

Degree Requirements

To be eligible for graduation, the student must earn a minimum 2.0 (C) GPA for all work attempted in the appropriate curriculum while classified in the college (2.5 for music education, art and art education). Specific grade requirements for various curricula are available from the school or dean's office.

Graduating with Honors (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonorstext)

Residence Requirement

The last 30 semester credits applied toward a degree must be completed in residence in the college. This requirement may be waived only in special cases and must be approved in advance.

Student Work

The college reserves the right to retain student work for the purpose of record, exhibition or instruction.

Admission and Satisfactory Progress
Art
Admission requirements for UF freshmen and sophomores not currently majoring in art
Freshmen and sophomores who would like to change their majors to an art studio major must submit a conditional portfolio of no more than ten pieces of artwork. An art faculty committee will review these portfolios and accept or deny conditional admission into an art studio major. Upon conditional admission, a student will begin lower-division art studio courses. A professional portfolio must be submitted to gain admission into the upper-division studio art programs (3000/4000-level classes).

Students interested in changing their majors to art history must complete ARH 2050 and ARH 2051 with no grade lower than a B before gaining admission.

Students may not change their majors to an art major if they are currently on probation in their college. Students may not change their majors to an art major after having completed 75 credits, which includes current enrollment.

Preparation for Degrees in Art (art history, graphic design, and studio art): Admission to the B.F.A., B.A.H.A. or B.A. degree programs is not automatic. At the end of the sophomore year or 60 credits, all students must meet minimum GPA requirements and submit a portfolio based upon the previous
two years’ art work for admission to the 3000-level course sequence in their concentration. All students are encouraged to work with faculty members in order to submit the best portfolio possible. Admission is highly selective and competitive. The portfolio deadline for fall admission is March 15.

Upper-division transfer admission: The Office of Admissions determines the transferability of credit earned at other institutions. Upper-division transfer students (applicants with at least 60 credit credits) may transfer no more than 60 credits from a public college as part of the credits required for a UF degree; this limit does not apply to coursework taken at a four-year institution. Students who have achieved advanced upper-division status, 90 credits or more at a four-year institution, may not be admitted.

Transfer students who have been accepted into UF to a major other than one in SAAH must complete all of the prerequisite courses at another institution and submit a professional portfolio according to the March 15 deadline for admission into an upper-division art major.

Dance

Admission
Admission is selective and students must audition successfully. Dance auditions may be scheduled throughout the year. Students audition in two technique classes of different styles, one class at intermediate level or higher. A résumé also is required. Video audition tapes will be considered. Performance audition ratings may be used for placement level in studio course sequences. Students must consult the department advisor for specific information regarding selective admission protocols.

Satisfactory Progress
Students must receive a minimum grade of C in all major courses and stand for periodic academic and artistic reviews. Majors are guaranteed participation in the production program through the production and performance laboratory course and are expected to attend scheduled departmentals.

Digital Arts and Sciences (DAS)

Admission
Admission to the upper-division BA in DAS degree is not automatic. By the end of the sophomore year (or 60 credits of undergraduate coursework), all students must meet minimum GPA requirements and have submitted a portfolio of original work, demonstrating competency in digital art and computer programming. The UF Office of Admissions deadline for fall is March 1; the deadline for portfolio submission is March 15.

Satisfactory Progress
Students must receive minimum grades of C in all courses for the major and stand for periodic academic and program reviews.

Upper-division transfer admission
The Office of Admissions determines the transferability of credit earned at other institutions. Upper-division transfer students (applicants with at least 60 credits) may transfer no more than 60 credits from a public college as part of the credits required for a UF degree; this limit does not apply to coursework taken at a four-year institution. Students who have achieved advanced upper-division status, 90 credits or more at a four-year institution, may not be admitted.

Transfer students who do not have a completed application on file by the deadline, including all required documentation, transcripts, etc., will not be considered for admission and must apply for a subsequent term.

Music

Admission
Admission to any curricula in the School of Music includes an audition and acceptance in a performance area. A minimum 2.0 GPA is required, except in music education where a 2.5 GPA is required. Prospective majors should contact the school’s director of admission as early as possible.

School Requirements
For admission to the professional level of study, all music majors must complete:

• Musicianship Assessment Jury, taken at the end of the theory sequence (usually at completion of 60 credits)
• Secondary Piano Levels I to IV with minimum grades of C or successful completion of the secondary piano proficiency exam
• The Preprofessional Performance Jury (taken the last semester of MV_ 2XXX)
• Ensemble semesters as required by the student’s degree track
• Four semesters of Recital Attendance (MUS 1010) with grades of S

A comprehensive musicianship jury will take place at the end of each semester of theory. The final comprehensive musicianship exam will be taken at this jury after four semester of theory. All students must pass this exam whether theory courses are completed at UF or are transferred from another institution. Transfer students must successfully complete at UF, with minimum grades of C, any remedial coursework assigned by the School of Music before taking the final comprehensive musicianship exam.

Students who exhibit excellent potential as music majors but who are not adequately prepared to enter the theory sequence as required by the degree track, may be granted provisional status. Students with provisional status are placed in MUT 1001. After successfully completing MUT 1001, provisional students are eligible for classification as preprofessional music majors.
Transfer students, with or without A.A. degrees, who have satisfactorily completed the required four semesters of music theory sequence and four semesters of lower-division performance study, and four semesters of piano skills, must successfully pass a comprehensive musicianship exam during auditions to the School of Music to be considered a junior. Those students who have not met the above requirements must take a comprehensive musicianship exam for placement within the theory program and must then successfully pass a comprehensive musicianship exam upon completion of the theory coursework assigned for remediation.

Music majors must earn a minimum grade of C in each required music course, both to fulfill degree requirements and to advance to the next level. All music students must stand for a performance examination each term they are enrolled in performance study. No course can be repeated more than once, except for ensembles, performance courses and project courses. Consult the school’s undergraduate student handbook for specific requirements.

**General Education Requirements**

- Students can fulfill three credits of the mathematics requirements by taking PHI 2100 or computer sciences courses.
- All music majors will take in humanities:

<table>

- Students in the Bachelor of Music in music education program must fulfill six of the 9-credit social/behavioral sciences requirement by taking EDF 2085 and PSY 2012.
- In the School of Music, the following required courses are classified as international courses: MUH 3211 and MUH 3212.
- A student should take a minimum of three credits in biological or physical science while completing the 9-credit physical/biological science requirement. Music education majors cannot vary credits in general education, but must complete them according to state mandates.

**Speech and Reading Requirements / Education Requirements:** The speech requirement for music education is met through MUE 3311 and MUE 3330; the reading requirement is met through RED 3312. The introductory education and technology courses required by the College of Education are MUE 2040 and MUS 1360.

**Theatre Admission**

Admission to the Department of Theatre and Dance is selective. Before admission to the B.F.A. program, students must audition successfully for the acting or music theatre major, or present a portfolio for the production major in scene, costume or lighting design. A résumé also is required. Video audition tapes will be considered.

Performance audition or design portfolio review ratings can establish the student’s placement level in studio course sequences. Students must consult the department advisor for admission audition/portfolio requirements and deadlines.

Students seeking admission to the B.A. programs must schedule an admission interview with the theatre advisor before starting the preprofessional courses.

**Satisfactory Progress**

Students must receive minimum grades of C in all courses in the major and stand for periodic academic and artistic reviews. All majors are guaranteed participation in the production program through the production and performance laboratory course and are expected to attend scheduled departmentals.

---

**Applied Theater for Health Certificate**

The Applied Theater for Health certificate introduces the history and practice in the field and explores utilizing and facilitating theatre for education, social change, and health. These special skills can serve as a credential for developing post-baccalaureate educational pathways and career options. Students interested in working in education, theatre, journalism, mental health counseling, social justice, community non-profits, women’s studies, and health care settings will find this certificate valuable to their career paths.
About this Program

- **College:** Arts (p. 436)
- **Credits:** 12 | Completed with minimum GPA of 3.0
- **Contact:** Email (jpufahl@arts.ufl.edu)

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Center Information
The University of Florida Center for the Arts in Medicine is committed to advancing research, education, and practice in arts in medicine, locally and globally. Through ongoing interdisciplinary research, training programs, and dynamic academic programs the Center advances its mission to further the field of arts in health.

Application Procedures and Requirements

There are no prerequisites for this program. Students from all backgrounds and majors are encouraged to apply to the program and should apply by their junior year. Students must complete at least 50% of certificate requirements after they have been accepted into the program.

The application process includes:
- Completion of the online application
- Submission of a one-page personal statement and one letter of recommendation from a faculty member

To qualify for the certificate, students must attain a 3.0 average in all required courses within six months of graduation.

BA Theatre students who wish to pursue the certificate may not apply the required HUM courses towards their Theatre elective requirement.

Art Education Certificate

This certificate meets the needs of students who wish to teach art in Florida's public schools. The certificate's curriculum covers the special subject knowledge and pedagogical skills associated with teaching art, and prepares candidates for licensure as PreK-12 art teachers in Florida public schools.
About this Program

- **Colleges**: Arts (p. 436) and Education (p. 701)
- **Credits**: 21 | Completed with minimum grades of B

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

School Information

The School of Art + Art History nurtures a culture of critical inquiry in our scholarly and creative work. We empower each individual with knowledge, skills, and insight to engage thoughtfully with our changing world.

- Art | BFA
- Ceramics Certificate
- Graphic Design
- Graphic Design Certificate

This certificate provides the skills and competencies required for effectively teaching art in Florida's PreK-12 public schools, as identified by the State of Florida's Six Florida Educator Accomplished Practices (or FEAPS). The School of Art and Art History in cooperation with the College of Education oversees this program.

Students must demonstrate a basic level of competency in a studio area or design, as verified by an acceptable portfolio. It is strongly recommended that students have coursework in one or more of the following areas: ceramics, drawing, painting, sculpture, printmaking, photography, art and technology, graphic design, or art history. This certificate is best suited for students enrolled in a Bachelor of Arts or Bachelor of Fine Arts degree program in the visual arts, design, or art history.

Interested students must meet with the School of Art and Art History undergraduate advisor for more information, course planning, and to obtain provisional approval prior to enrolling in certificate coursework.

To qualify for admission to the certificate program, a student must complete the following:

- Submit an acceptable portfolio of ten digital images of personal works of art and an academic writing sample.
- Pass a background check and meet state fingerprint requirements.
- Submit passing scores on the General Knowledge Test of the Florida Teacher Certification Exam (FTCE).
- Apply and be admitted to the certificate program following the processes and procedures of the University, the academic unit offering the Certificate, and the College dean or designee.
- Purchase a Livetext™ account via the College of Education for documentation of the six FEAPS and tasks, and official observation evaluations by the Field and University supervisors.
- Complete ARE 2045 or EDF 1005 with grade of B or better.

Course Requirements

Students must earn grades of B or better in all required courses. Additionally, 2000-level coursework should be taken before 3000-level coursework. Exceptions may be made with advisor approval.

Prerequisite

Complete the following course before making formal application to the certificate program. It's recommended this course be taken before end of the sophomore year.
Required Courses

Complete after approval of formal application to the certificate program. It’s recommended these courses be taken in the junior and senior years.

</table>

To complete this certificate program, students must also achieve these non-course requirements:

- Successful completion of ARE 4940 as evidenced by overall ratings of "accomplished" or "exceptional on each of the six FEAP categories indicated on the Intern Evaluation form.
- Satisfactory review of a teaching portfolio conducted by art education faculty and an external professional art educator at the culmination of the internship practicum.
- Passing scores on the Art Subject Area Examination (SAE) ART K-12 and the Professional Education examination (PED) portions of the Florida Teacher Certification Exam (FTCE).

Art History

The Art History program introduces students to global culture through the lens of art and architecture. Art History embraces an interdisciplinary approach that draws on history, archaeology, anthropology, religion, literature, and other allied disciplines to understand and interpret visual culture. The curriculum cultivates skills in critical analysis, research, oral and written communication, and visual literacy that prepare students for careers and graduate/professional schools in diverse fields in and outside the arts. We are able to offer face-to-face instruction by permanent faculty who are actively engaged in international research.

About this Program

- College: Arts (p. 436)
- Degree: Bachelor of Arts in History of Art
- Credits for Degree: 120

To graduate with this major, students must complete all university, college, and major requirements.

School Information

The School of Art + Art History nurtures a culture of critical inquiry in our scholarly and creative work. We empower each individual with knowledge, skills, and insight to engage thoughtfully with our changing world.

Total Credits 42

ARH 3000/4000 Electives Distribution Requirements

The ARH courses at the 3000 /4000 level must be distributed chronologically:

- at least 3 credits, Art before 1300
- at least 3 credits, Art from 1300 to 1750
- at least 3 credits, Art after 1750

If a course applies to two chronological categories; a student may use it to fulfill the requirement for only one chronological category.

The ARH courses at the 3000/4000 level must also be distributed in the following ways:

- at least 3 credits, Art of the ancient Mediterranean basin and/or ancient Near East and/or the art of Europe and/or the United States
- at least 3 credits, Art of Africa, Asia, and/or Latin America and/or the art of Native Americans, Aboriginal Australians, and/or Pacific Islanders

If a course applies to both of these categories; a student can use it to fulfill the requirement for only one category.

Beyond the required courses in the SA+AH, students must take 5 of their electives (15 credits) at the 3000/4000 level in any discipline.

Majors also need to demonstrate college-level foreign language proficiency. Foreign language skills prepare students for art historical research and greater international engagement. You may already be proficient in a foreign language or you may need additional study to demonstrate proficiency. The art history program requires the same level of proficiency as the majors in the College of Liberal Arts and Sciences. See CLAS Foreign Language Requirement for ways to demonstrate proficiency by exam, college-level credit from another institution, or taking coursework at UF.

Students planning to attend graduate school in art history should develop foreign language skills beyond the minimum requirement. Advanced art historical research requires reading complex primary and secondary sources in multiple foreign languages. The faculty will gladly advise students on foreign language study.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500703&track=01) may be used for transfer students.

Semester 1

- Complete 2 of 5 critical-tracking courses with minimum grades of C: ARH 2050, ARH 2051, ARH 2500 or any 2000 level ARH survey course that focuses on the art of Africa, Asia, and/or Latin America and/or on the art of Native Americans, Aboriginal Australians, and/or Pacific Islanders, one ART at 1000/2000 level, beginning sequence of a foreign language that can be used for art historical research
- 2.0 UF GPA required
Semester 2
- Complete 2 additional critical-tracking courses with minimum grades of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3
- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.75 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4
- Complete 1 additional critical-tracking courses with minimum grades of C
- 3.0 GPA required for all critical-tracking courses
- 2.0 UF GPA

Semester 5
- Complete all additional critical-tracking courses with minimum grades of C
- 3.0 GPA on all critical-tracking courses
- 2.0 UF GPA required

Semester 6
- Complete 3 of 10 upper-division tracking courses with minimum grades of C: nine ARH art history electives 3/4000 level meeting ARH Electives Distribution Requirements, ARH 4931
- 2.0 UF GPA required

Semester 7
- Complete 4 additional upper-division tracking courses with a minimum grade of C
- 2.0 UF GPA required

Semester 8
- Complete all additional upper-division tracking courses with minimum grades of C
- 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Total Credits 120

---

1. 2000-level ARH survey course that focuses on the art of Africa, Asia, and/or Latin America and/or the art of Native Americans, Aboriginal Australians, and/or Pacific Islanders.

2. At least 3 credits at the 3000/4000 level, Art of Africa, Asia, and/or Latin America and/or the art of Native Americans, Aboriginal Australians, and/or Pacific Islanders.

---

**Academic Learning Compact**

The Bachelor of Arts in art history enables students to achieve proficiency in historical theory and criticism of art, to communicate independent, critical perspectives and to employ research methodology effectively. Through study of literature, social forces, ideology, cultural history and visual representation students will develop knowledge of the ancient, medieval, Renaissance/Baroque and modern world arts. Students will also develop the ability to construct arguments and engage in advanced thought and analysis, in speech and in writing.

**Before Graduating Students Must**

- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Identify, describe and interpret works of art and other materials about art’s cultural and historical context.
Critical Thinking
2. Examine and assess an art historical topic by applying appropriate research practices.
3. Examine and assess scholarly literature, including scholarly methodology.

Communication
4. Formulate oral analysis of works of art in their historical or cultural context.
5. Produce written analysis of works of art in their historical or cultural context.

Art Minor

The Art minor provides the opportunity to combine creative and artistic practice with other academic pursuits. Students seeking this minor are not necessarily pursuing careers as practicing professional artists; rather, they are looking to enhance their programs of study with an interdisciplinary learning experience that develops their perceptual, creative problem solving, and visual communication skills.

About this Program

• **College:** Arts (p. 436)

• **Credits:** 21 | Completed with minimum grades of C

School Information

• Graphic Design Certificate

The curriculum guides students toward coursework that the art faculty considers essential to understanding art making in a material and conceptual sense. Students completing the minor in art will graduate from UF with a more versatile and well-rounded skillset sought by many disciplines, industries and professions.

The minor is available to all UF undergraduates, except those majoring in art, art education, graphic design and visual art studies. Interested students must meet with the School of Art and Art History undergraduate advisor to apply.

• Studio art-related majors (art, art education, and design and visual communications) have priority access to studio classes. Art minors must work with the SA+AH advisor to gain access to studio courses on a space-available basis.

• Independent studies and internships will not fulfill credits for this minor.

• 15 credits of the 21 total and all 3000/4000-level coursework must be taken at UF.

• Up to six credits of 2000-level coursework may be transferred in from another institution or accelerated mechanism (e.g., AP, IB) or may be taken from UF non-art major studio courses. All transfer credits are subject to SA+AH approval.

• Credit taken toward this minor cannot also be applied to any studio certificate program.

Art | BA

The B.A. in Art allows students to focus on studio art but in a more flexible and less studio-rigorous fashion than the B.F.A. degree options. The B.A. in Art encourages students to consider a double major or dual-degree, minors, or certificates in specific art or non-art related disciplines, and/or complete preprofessional requirements for other non-art related programs.

Many students graduating with a B.A. in Art go on to pursue professional programs in healthcare (medical school, veterinary school, art therapy graduate programs, etc.) and other graduate programs in both non-art and art-related disciplines (i.e., law, business, counseling, etc.).

About this Program

- **College**: Arts (p. 436)
- **Degree**: Bachelor of Arts
- **Credits for Degree**: 120

To graduate with this major, students must complete all university, college, and major requirements.

- Visual Arts in Medicine Certificate

The undergraduate Art program provides a wide range of experiences in studio art, including technical and formal concerns, experimental approaches and conceptual development, while also exploring coursework required for other academic disciplines within the university.

All coursework required for the major must be completed with minimum grades of C.
Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500702&track=01) may be used for transfer students.

Semester 1
• Complete ART 1803C for 6 credits or complete 6 credits of any ART/GRA/PGY courses at the 2000 level with minimum grades of C
• 2.0 UF GPA required

Semester 2
• Complete 3 of 7 critical-tracking courses: ARH 2050, ARH 2051, ART 1803C, ART 2353C, ART 2013C, OR two 2000-level studio art courses with minimum grades of C
• 2.5 UF GPA required

Semester 3
• Complete 2 additional critical-tracking courses with minimum grades of C
• 2.75 UF GPA required

Semester 4
• Complete all remaining critical-tracking course with a minimum grade of C
• 3.0 UF GPA required

SEMESTER 6
• 3.0 UF GPA required

SEMESTER 7
• Complete 1 of 2 critical-tracking courses (upper division): ARH 3/4 or ART 3892, ART 4828
• 3.0 UF GPA required

SEMESTER 8
• Complete all additional critical-tracking courses (upper division)
• 3.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

**Outside elective requirement**

An outside elective is any course taken outside of the School of Art and Art History. At least 18 credits of electives must be chosen from 3000/4000-level courses. These courses cannot also count toward general education requirements.

**Foreign language requirement**

Students must take 10 credits of foreign language or show a minimum proficiency in a single foreign language by taking a placement test. If proficiency is met, it does not reduce the number of credits required for the degree. Foreign language can be taken S-U or for a letter grade, which must be a minimum grade of C.

**Academic Learning Compact**

The Bachelor of Arts in visual art studies is a general arts degree. Students will achieve proficiency in general art concepts, experimental approaches, techniques and formal composition in art. Through the study of art theory, art history and historic and contemporary art, students gain knowledge of art genres and systems of thought. Emphasis is on the development of new approaches to making art. Students will learn to use research practices effectively, to discuss the development of their work in speech and in writing and to develop a portfolio and resume.
Before Graduating Students Must
• Pass a particular test, a final project, a term paper and/or a portfolio, as determined and evaluated by the appropriate faculty.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Understand the principles and elements of artistic practice.
2. Produce artworks choosing and employing media and techniques that support ideation.

Critical Thinking
3. Develop sound research methods and production practices.
4. Develop a studio practice that demonstrates complex thought, analysis and reasoning.

Communication
5. Create a portfolio of artwork.
6. Describe art research and practice in writing.

Art | BFA
School of Art and Art History's comprehensive curriculum provides instruction in studio art, design, art history, art education and museum studies (graduate students only). It also prepares students for advanced study or employment in art-related fields as diverse as museum operations, advertising, information graphics and production, and management in the arts.

About this Program
• College: Arts (p. 436)
• School: School of Art and Art History
• Degree: Bachelor of Fine Arts
• Credits for Degree: 120

To graduate with this major, students must complete all university, college, and major requirements.

School Information
The School of Art + Art History nurtures a culture of critical inquiry in our scholarly and creative work. We empower each individual with knowledge, skills, and insight to engage thoughtfully with our changing world.

Related Programs

- Visual Arts in Medicine Certificate

The school's size, diverse programs and degree offerings, as well as facilities result in a fully configured art school within the largest university in the Southeast. The school, with the other units of the College of the Arts and the Harn Museum of Art, shares the mission of serving as an educational, professional and cultural resource in the visual arts for the campus, community, state and region.

All coursework required for the major must be completed with minimum grades of C.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500702&track=01) may be used for transfer students.

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500702&track=01) may be used for transfer students.

Semester 1

- Complete ART 1803C for 6 credits or six credits of any ART/PGY/GRA course at the 2000 level with minimum grades of C
- 2.0 UF GPA required

Semester 2

- Complete 3 of 8 critical-tracking courses with minimum grades of C: ARH 2050, ARH 2051, ART 1803C, ART 2353C, ART 2680C, ART 2013C, ART 2825C, ART 2826C
- 2.5 UF GPA required

Semester 3

- Complete 3 additional critical-tracking course with a minimum grade of C
- 2.75 UF GPA required

Semester 4

- Complete remaining critical-tracking courses with minimum grades of C
- 3.0 UF GPA required
Semester 5
• Complete ART 3892 and two 3/4000 studio electives minimum grades of C
• 3.0 UF GPA required

Semester 6
• Complete ART 3857C and two 3/4000 studio electives with minimum grades of C
• 3.0 UF GPA required

Semester 7
• Complete ART 4828C and one 3/4000 studio elective with minimum grade of C
• 3.0 UF GPA required

Semester 8
• Complete ART 4858C and ART 4828C (for the 2nd semester) with minimum grades of C
• 3.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the
terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's
academic record and scheduling availability of courses. Prerequisites still apply.

</table>

---

1. Students must have a total of 9 credits of Studio in Semester Seven with a minimum of 3 credits of Senior Studio.
2. Students must have a total of 6 credits of Studio in Semester Eight with a minimum of 3 credits of Senior Studio.

---

### Academic Learning Compact

The Bachelor of Fine Arts in art studio enables students to achieve proficiency in the principles and practices utilized by professional artists and affiliated industries. Through the study of art theory, art history, and contemporary art, students gain knowledge of art genres and systems of thought. Emphasis is on development of the concepts and skills related to art and the development of a personal artistic idiom. Students will learn to use research practices effectively and to discuss the development of their work in speech and in writing.

### Before Graduating Students Must

- Pass a particular test, a final project, a term paper and/or a portfolio.
- Pass a senior-level capstone course that includes an exhibition of the student's work (portfolio). The portfolio will be evaluated by appropriate faculty prior to graduation.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Understand art history, theory, and contemporary art practices.
2. Effectively and intentionally use media, composition, materials, and strategies to create meaning in a work of art.

**Critical Thinking**

3. Develop sound research methods and production practices to create a focused body of work.
4. Manage a studio practice that demonstrates complex thought, analysis, and reasoning.

**Communication**

5. Cultivate a strong voice in research and creative work, evidenced in a self-directed, cohesive, and focused body of work (portfolio).
6. Describe art research and practice verbally and in writing.

Ceramics Certificate

The School of Art and Art History (SAAH) certificate program enables students with a major outside of the visual arts to take a series of classes within the studio arts where clay is used as the art material. Classes expose students to art-making practices within the field of ceramics, develop manual skills in clay forming, increase visual understanding of content in art, and enable the student to explore personal decision-making and creative problem-solving in art-making.

About this Program

- **College**: Arts (p. 436)
- **Credits**: 18-21
- **Contact**:
  - General Information | Email (dmyers@arts.ufl.edu)
  - Contact, Portfolios, and Coursework | Email (nan@ufl.edu)

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

School Information

The School of Art + Art History nurtures a culture of critical inquiry in our scholarly and creative work. We empower each individual with knowledge, skills, and insight to engage thoughtfully with our changing world.

• Ceramics Certificate
• Graphic Design
• Graphic Design Certificate

The certificate is awarded by the SAAH to acknowledge a concentration in ceramics within a student’s external major and general course of study. Students must maintain a minimum GPA of 3.0 in the certificate program. Students are admitted based on a portfolio review by faculty in the ceramics.

The coursework includes 4-5 sequenced ceramics classes plus a required course in art theory and art fundamentals. Students will leave the program with the ability to throw on the potter’s wheel, model, and carve. They also will have developed skills in hand-forming processes and gained knowledge of glaze application techniques and kiln firing methods.

### Dance in Medicine Certificate

The School of Theatre + Dance, in conjunction with the Center for the Arts in Medicine, offers this certificate to recognize special competencies and achievements in the use of movement to enhance health and healing. Students who complete the requirements for this certificate leave UF with unique capabilities and experiences.

### About this Program

- **College**: Arts (p. 436)
- **Credits**: 14
- **Contact**: Email (fcarytsas@arts.ufl.edu)

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

### Center Information

The University of Florida Center for the Arts in Medicine is committed to advancing research, education, and practice in arts in medicine, locally and globally. Through ongoing interdisciplinary research, training programs, and dynamic academic programs the Center advances its mission to further the field of arts in health.

Curriculum

- Applied Theater for Health Certificate
- Dance in Medicine Certificate
- Music in Medicine Certificate
- Visual Arts in Medicine Certificate

The undergraduate certificate in Dance in Medicine recognizes students' special competency and achievement in the use of movement to enhance health in community or healthcare settings. This certificate can serve as a credential for developing career options for dancers and will expand the professional applications of dance to promote health.

Students should apply by their junior year and contact the center director to schedule an initial meeting to discuss requirements.

Students must attain a 3.0 GPA in the required courses, all of which have prerequisites.

- Theatre Minor
Admission to the dance minor requires the completion of DAA 2104 at UF with a minimum grade of B. Students then will meet with the dance minor advisor for approval to enter the program and to establish a program of study.

The minor is comprised of a core of 10-11 credits plus 6-7 credits of emphasis as approved by the advisor. At least 12 of these credits must be completed at UF. It normally takes four semesters to complete the minor.

\textit{DAA 1000 does not count towards the minor.}

## Dance | Bachelor of Arts

The Bachelor of Arts (B.A.) in Dance is designed to educate the student as a generalist in dance studies. In addition to a course of study essential to the field of dance the B.A. provides the student with the flexibility to pursue other areas of study.

### About this Program

- **College**: Arts (p. 436)
- **Degree**: Bachelor of Arts
- **Credits for Degree**: 120

\textit{To graduate with this major, students must complete all university, college, and major requirements.}
School Information

The School of Theatre + Dance provides an intimate setting where students, faculty, and staff interact in constant and close collaboration. Curricular programs are suited to a range of student interests and talents, from the liberal arts B.A. degree to the competitive B.F.A. and M.F.A. professional training degrees.

Admission

Admission to the B.A. dance program for incoming freshmen does not require an audition. Transfer students should consult with the department regarding admission requirements.

Satisfactory Progress

Students must receive minimum grades of C in all courses for the major. After completion of the second semester students are evaluated by faculty for permission to continue in the program.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500301&track=02) may be used for transfer students.

SEMESTER 1

• Complete 3 of 12 critical-tracking courses with minimum grades of C: DAA 2104 twice, DAA 2204 twice, DAA 2341 twice, DAA 2105 twice, DAA 2205 twice, DAA 2342 twice
• 2.0 UF GPA required

SEMESTER 2

• Complete 3 additional critical-tracking courses with minimum grades of C
• Complete a successful audition/jury as determined by the dance faculty (only for students who did not complete an audition prior to semester 1)
• 2.0 UF GPA required

SEMESTER 3

• Complete 3 additional critical-tracking courses with minimum grades of C
• 2.0 UF GPA required
### SEMESTER 4
- Complete 3 additional critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

### SEMESTER 5
- Complete 1 of 5 upper division tracking course with minimum grade of C
- 2.0 UF GPA required

### SEMESTER 6
- Complete 1 additional critical-tracking courses (upper division) with minimum grades of C
- 2.0 UF GPA required

### SEMESTER 7
- Complete 1 additional critical-tracking course (upper division) with minimum grades of C
- 2.0 UF GPA required

### SEMESTER 8
- Complete all remaining critical-tracking courses (upper division) with minimum grades of C
- 2.0 UF GPA required

---

### Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

---

1. Semester 4 Gen Ed course must be the requirement not fulfilled by semester 3 Quest 2 course.
2. Students who take a 4-credit design course in Semester Two take 5 credits of electives. Students who take a 3-credit design course in that term take 6 credits of electives.

Intermediate and advanced-level courses must be approved by the dance advisor and appropriate to the student's technical level.

Technique dance courses from Semester Five to Semester Eight (intermediate and advanced-level courses) must be approved by the dance advisor and appropriate to the student's technical level.

---

**Academic Learning Compact**

The degree program in dance offers two specializations, one leading to a Bachelor of Fine Arts (BFA) and one leading to a Bachelor of Arts (BA).

The Bachelor of Fine Arts in dance provides extensive training and skills in contemporary dance and choreography with four interlocking areas of 21st century dance study: choreography and performance, intercultural dance studies, dance and medicine, and dance theatre. Dance is studied as a major performing art that impacts artistic, cultural, intellectual and social spheres.

The Bachelor of Arts in dance educates the student as a generalist in dance studies. Students follow a course of study essential to the field of dance, including performance, history, theory, literature, design, technology and related disciplines, all while enjoying sufficient flexibility to pursue other areas of study, including a minor or a major in a field other than dance. Successful degree candidates develop independent, interdisciplinary critical thought, and can articulate the power and agency of the arts over time and across cultures and perspectives.
Before Graduating Students Must
- Develop and complete a senior project approved and evaluated by faculty. The BA project would be research oriented; the BFA would be choreographically related.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Develop competency in the terminology, concepts, methodologies and theories of dance studies, and knowledge of varied applications of dance.

Critical Thinking
2. Analyze and fosters dance studies inquiry in correlation with diverse creative, historical, social, cultural perspectives and/or other disciplinary perspectives.

Communication
3. Develop and articulates in writing and/or practice applications of dance studies.

Dance | Bachelor of Fine Arts

The Bachelor of Fine Arts (B.F.A.) in Dance is intended for professional careers, allied fields or graduate study. This B.F.A. also is offered at the New World School of the Arts in Miami. In addition, the department offers a Dance minor.

About this Program
- **College:** Arts (p. 436)
- **Degree:** Bachelor of Fine Arts
- **Credits for Degree:** 124

To graduate with this major, students must complete all university, college, and major requirements.

School Information
The School of Theatre + Dance provides an intimate setting where students, faculty, and staff interact in constant and close collaboration. Curricular programs are suited to a range of student interests and talents, from the liberal arts B.A. degree to the competitive B.F.A. and M.F.A. professional training degrees.

Admission
Admission is selective and students must audition successfully. Auditions are held twice yearly. Prospective students should check Theatre and Dance for audition dates and information. The audition is in the form of a technique class including ballet, modern and West African dance styles. Video auditions are accepted in cases where attending the live audition presents a particular hardship. Specific requirements for the video audition are also found on the website. Students may consult the school's undergraduate advisor for admissions information.

More Info (http://www.arts.ufl.edu/theatreanddance/default.aspx)

Satisfactory Progress
Students must receive minimum grades of C in all courses for the major and participate in academic and artistic jury reviews. Majors are expected to participate in the production/performance program through such courses as Production and Performance, World Dance, and Intercultural Performance and Ensembles.

**Digital Arts and Sciences Minor**

The Digital Arts and Sciences (DAS) minor crosses traditional college boundaries between the arts, communications, and engineering. Students become versed in contemporary social and interactive media, critical thinking, and creative design solutions. The DAS minor provides experience working in collaborative teams on media projects, including animation, experience design and production, and game design.

**About this Program**
- **College**: Arts (p. 436)
- **Credits**: 15 | Completed with minimum grades of C
Department Information

The Digital Worlds Institute is on the cutting edge of digital arts and sciences — both in research initiatives and innovative approach to education. The institute is a recognized leader in combining arts, communications, engineering and science, with a focus on advanced media systems.

Related Programs

- Digital Arts and Sciences | Bachelor of Science

Applicants must successfully complete at least two of the required courses and receive approval of their college/department before obtaining Digital Worlds Institute approval to officially declare the minor.

- BA in Digital Arts & Sciences majors have priority access to classes. DAS minors must work with the Digital Worlds Institute advisor to gain access to courses on a space-available basis.
- These courses will not fulfill credits for this minor: DIG 4917, DIG 4940, DIG 4942, DIG 4944C, DIG 4970
- All 3000-level and above course work must be completed at the University of Florida.
- All course and grade prerequisites must be satisfied.

Required Courses

All students must complete two of the four required courses listed below before applying to the minor. The remaining credits to complete the minor may come from any 3000/4000 level Digital Worlds Institute courses, excluding DIG 4917, DIG 4940, DIG 4942, DIG 4944C, and DIG 4970

Curriculum
- Digital Arts and Sciences Minor
- Digital Arts and Sciences | Bachelor of Arts
- Digital Arts and Sciences | Bachelor of Arts UF Online

Related Programs
- Digital Arts and Sciences | Bachelor of Science

The Bachelor of Arts in Digital Arts and Sciences (BADAS) crosses traditional college boundaries between the arts, communications, and engineering. Students will become versed in contemporary issues in social and interactive media, critical thinking and creative design solutions. The DAS graduate will gain experience working in collaborative teams on media projects including digital storytelling, animation, and game design including serious and applied games.

Department Requirements
In addition to meeting university-level requirements, students seeking admission to this program must submit a portfolio of original student work, demonstrating competency in digital art and computer programming, as well as a personal statement, to the UF Digital Worlds Institute. The content and quality of these submissions, in addition to previous academic GPA, will be significant factors to determine admission into the program.

The personal statement refers to an original document created by the applicant that details interests, motivations and rationale for seeking program admission. The statement should be one to two pages in length and demonstrate a serious intent to pursue the program and the writing ability appropriate for admission as an upper-division student at a major American university.

Portfolio materials refer to a body of original creative or technical work authored, documented and presented in a contemporary digital format. The portfolio will contain examples of the applicant’s best original work including digital art and programming completed before seeking admission to the BADAS program.

The portfolio is due by March 15 of the sophomore year for admission into upper-division coursework. Students may not take 3000/4000-level DIG courses without submission of the portfolio.

Students must complete all critical-tracking courses with minimum grades of C in each course and the minimum critical-tracking GPA must be 2.5. Students who do not meet these requirements will be placed on academic probation and required to prepare a probation contract with an advisor. Students normally are given two terms in which to remove their deficit points; however, students who do not satisfy the conditions of the first term of probation may be dismissed from the program.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500102&track=01) may be used for transfer students.

Semester 1
- Complete 2 of 11 critical-tracking courses: ARH 2000; DIG 2121; DIG 2632; DIG 3097; DIG 3525C; DIG 3526C; DIG 3873; DIG 3588C; DIG 4841; DIG 4970; or MAC 1140 with a minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA
**Semester 2**
- Complete 2 additional critical-tracking courses with a minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA

**Semester 3**
- Complete 2 additional critical-tracking course with a minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA

**Semester 4**
- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA

**SEMESTER 6**
- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA

**SEMESTER 7**
- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA

**SEMESTER 8**
- Complete remaining critical-tracking course with a minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA

---

**Model Semester Plan**

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

The B.A. in digital arts and sciences crosses college boundaries between communications, engineering and the arts. Students will become versed in contemporary issues in social and interactive media, critical thinking and creative design solutions. The DAS graduate will gain experience working in collaborative teams on media projects, including serious and applied games, live digital performances and virtual worlds.

Before Graduating Students Must

- Pass assessment of performance on a major design experience, according to department grading rubric.
- Pass assessment in one or more core courses or individual assignments targeted to each SLO.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Apply knowledge of multimedia, human-computer interaction, graphics and simulation to application domains.
2. Conceptualize, design and develop a digital interface involving animation, sound and immersive environments.

Critical Thinking
3. Successfully solve the problems and engage in the systems thinking necessary to develop contemporary interactive digital media.
4. Think critically about contemporary digital media and culture and analyze attendant digital communications practices.

Communication
5. Communicate and collaborate successfully in a team environment comprised of artists, designers and application developers.

Academic Learning Compact

The B.A. in digital arts and sciences crosses college boundaries between communications, engineering and the arts. Students will become versed in contemporary issues in social and interactive media, critical thinking and creative design solutions. The DAS graduate will gain experience working in collaborative teams on media projects, including serious and applied games, live digital performances and virtual worlds.

Before Graduating Students Must

• Pass assessment of performance on a major design experience, according to department grading rubric.
• Pass assessment in one or more core courses or individual assignments targeted to each SLO.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Apply knowledge of multimedia, human-computer interaction, graphics and simulation to application domains.
2. Conceptualize, design and develop a digital interface involving animation, sound and immersive environments.

Critical Thinking
1. Successfully solve the problems and engage in the systems thinking necessary to develop contemporary interactive digital media.
2. Think critically about contemporary digital media and culture and analyze attendant digital communications practices.

Communication
1. Communicate and collaborate successfully in a team environment comprised of artists, designers and application developers.

Graphic Design
Graphic Design is a professional program for careers in graphic design and related fields. The curriculum includes a series of introductory courses in design, drawing, 2D, 3D, and 4D studio courses, and art history.

About this Program
- **College**: Arts (p. 436)
- **Degree**: Bachelor of Fine Arts in Graphic Design
- **Credits for Degree**: 120

To graduate with this major, students must complete all university, college, and major requirements.

School Information
The School of Art + Art History nurtures a culture of critical inquiry in our scholarly and creative work. We empower each individual with knowledge, skills, and insight to engage thoughtfully with our changing world.

- Art | BFA
- Ceramics Certificate
- Graphic Design
- Graphic Design Certificate

The degree program in graphic design prepares students for serious professional work in the field. The curriculum emphasizes concept development and application, work with clients and professional development, including the establishment of a working portfolio.

All students must lease, purchase or otherwise obtain a computer system by the junior year. Specific system requirements are available from the school or the graphic design coordinator.
All coursework required for the major must be completed with minimum grades of C.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites ([http://www.flvc.org/cpp/displayRecord.jsp?cip=500409&track=01](http://www.flvc.org/cpp/displayRecord.jsp?cip=500409&track=01)) may be used for transfer students.

**SEMESTER 1**
- Complete ART 1803C for 6 credits or a total of 6 credits of any ART or GRA or PGY course at the 2000 level with minimum grades of C
- 2.0 UF GPA required

**SEMESTER 2**
- Complete 3 of 9 critical-tracking courses with minimum grades of C: ARH 2050, ARH 2051, ART 1803C, ART 2353C, GRA 2111C, GRA 2208C, ART 2680C, ART 2825C, ART 2013C
- 2.50 UF GPA required

**SEMESTER 3**
- Complete 3 additional critical-tracking courses with minimum grades of C
- 2.75 UF GPA required

**SEMESTER 4**
- Complete all additional critical-tracking course with a minimum grade of C
- 3.0 UF GPA required

**SEMESTER 5**
- Complete critical-tracking courses (upper division) GRA 3209C and GRA 3193C with minimum grades of C
- 3.0 UF GPA required

**SEMESTER 6**
- Complete critical-tracking courses (upper division) GRA 4196C, GRA 3198C, ENC 3254 Writing in Graphic Design with minimum grades of C
- 3.0 UF GPA required

**SEMESTER 7**
- Complete critical-tracking courses (upper division) GRA 4187C and GRA 4186C with minimum grades of C
- 3.0 UF GPA required

**SEMESTER 8**
- Complete critical-tracking courses (upper division) GRA 4187C and GRA 4186C with minimum grades of C
- 3.0 UF GPA required

**Model Semester Plan**

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

| Total Credits | 120 |

Before beginning 3/4000 studio coursework, students must successfully submit and pass the sophomore portfolio review.
Academic Learning Compact

The Bachelor of Fine Arts in graphic design enables students to achieve proficiency in the principles and practices utilized by professional designers and affiliated industries. Through the study of art theory, art history and historic and contemporary art, students gain knowledge of design genres and systems of thought. Emphasis is on development of the concepts and skills related to graphic design and the development of a personal artistic idiom. Students will learn to use research practices effectively and to discuss the development of their work in speech and in writing.

Before Graduating Students Must

- Pass a particular test, a final project, a term paper and/or a portfolio, as determined by a particular major.
- Pass a senior-level capstone course that includes a portfolio exhibition of the student’s work, evaluated by appropriate faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Design visual form in response to communication problems.
2. Exhibit principles of visual organization/composition, information hierarchy, symbolic representation, typography, aesthetics and the construction of meaningful images.
3. Exhibit appropriate use tools and technology, including their roles in the creation, reproduction and distribution of visual messages.

Critical Thinking

4. Exhibit the ability to describe and respond to the audiences and contexts which communication solutions must address, including recognition of the physical, cognitive, cultural and social human factors that shape design decisions.

Communication

5. Produce solutions to communication problems, including the skills of problem identification, research and information gathering, analysis, generation of alternative solutions, prototyping and evaluation of outcomes.

Assessment Types

- Portfolio
Graphic Design Certificate

This certificate meets the needs of students who wish to add a graphic and communication design component to their current degree program in order to better understand and use these processes and practices to create effective graphic communication works.

About this Program

• **College:** Arts (p. 436)
• **Credits:** 15 | Completed with minimum grades of B

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

School Information

The School of Art + Art History nurtures a culture of critical inquiry in our scholarly and creative work. We empower each individual with knowledge, skills, and insight to engage thoughtfully with our changing world.

• Art History Minor
• Art Minor
• Art | BA
• Art | BFA
• Ceramics Certificate
• Graphic Design
• Graphic Design Certificate

This certificate is available to all School of Art + Art History undergraduates, except those majoring in graphic design.

The curriculum guides students toward coursework the graphic design faculty considers essential to gain a better understanding of graphic design thinking, processes, methods, and practices in order to create effective graphic and communication design works. Students who complete this certificate will have a focused skillset sought by many disciplines, industries and professions.

Interested students must meet with the School of Art + Art History undergraduate advisor for more information, course planning, and to apply. Students should obtain provisional approval from the advisor prior to enrolling in certificate coursework. Formal certificate applications should be made after completion of the 2000-level coursework.

• Studio art related majors (art, art education, design and visual communications and visual art studies) have priority access to 2000-level certificate courses. Students must work with the SA+AH advisor to gain access to these courses.
• 12 of the 15 total credits and all 3000-level coursework must be taken at UF.

Students should take certificate courses in the order indicated below, with all 2000-level coursework taken before 3000-level coursework. Exceptions may be made with advisor approval. Please note we generally advise students take no more than one certificate course in any given semester.

Jazz Studies Minor

The Jazz Studies minor provides access to commercial music skills that are vital to participating in today's music industry. Courses provide critical musical training in the styles of swing, latin, rock, funk, pop, bebop, etc. They also target a theoretical understanding of jazz harmony, chord symbols, jazz scales and modes, jazz articulations, blues forms, piano voicings, the basics of tune writing, commercial arranging, and techniques for memorizing jazz standards.

- Music History | Ethnomusicology Minor
- Music in Medicine Certificate
- Music Performance Certificate
- Music Performance Minor
- Music Theory Minor
- Music | Bachelor of Arts
- Music | Bachelor of Music

Requirements

- Students must pass the Jazz Theory Proficiency Exam with a minimum grade of B. Students who receive a grade of B- or below will be permitted to study suggested materials and re-take the proficiency exam the following semester. Students will be allowed only one attempt per semester to take and pass the exam.
- A passing grade of B is required for all courses in the minor. If the student does not achieve the minimum grade requirement in every course for the minor within two attempts, they will not be eligible to continue the minor.
- Students may take Jazz Band at any time after completing a successful audition.
- Students should contact the undergraduate advisor before enrolling in coursework.

Related Programs

- Music in Medicine Certificate

Music education programs are available in choral and instrumental. More than one-half of the students in the School of Music are preparing for careers as music teachers in elementary or secondary schools. In addition, undergraduates interested primarily in performance careers often take advantage of the teacher-preparation curriculum, which fulfills the educational requirements for Florida teaching certification in grades K-12, and in most other states. The University of Florida is accredited by NASM and the Southern Association of Colleges and Schools (SACS).
The Bachelor of Music in music education prepares students to become musicians and music teachers in a K-12 instructional setting. Through studies in conducting, rehearsal planning, teaching techniques, and theory, applied performance, music literature and history and piano, students will be able to structure and apply music for meaningful and effective music class and ensemble instruction.

**Before Graduating Students Must**

- Pass the General Knowledge Test and the Music (K-12) Subject Area Test of the Florida Teacher Certification Examination.
- Satisfactory faculty evaluation of a student portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Apply pedagogical content knowledge necessary to effectively teach K-12 music classes and ensembles as an entry-level educator.

**Critical Thinking**

2. Consistently and accurately make instructional decisions using a variety of assessment data.

**Communication**

3. Communicate, verbally and in writing, regarding music, pedagogy, and other aspects of music learning to diverse educational stakeholders.

- Complete 2 additional credits of MVV 1411 with a minimum grade of C
- 2.5 UF GPA required

Semester 3
- Complete MUE 2040, MUE 2450, MUT 2116, MUT 2246L, and MVK 2221 with minimum grades of C
- Complete MUN 1000 with a minimum grade of C
- Complete MUS 1010 with a grade of S
- Complete 2 credits of MVV 2421 with a minimum grade of C
- 2.5 UF GPA required

Semester 4
- Complete MUH 3211 with a minimum grade of C
- Complete MUN 1000 with a minimum grade of C
• Complete MUS 1010 with a grade of S
• Complete MUT 2117, MUT 2247L, and MVK 2222 with minimum grades of C
• Complete 2 additional credits of MVV 2421 with a minimum grade of C
• 2000-level Performance Jury
• Comprehensive Musicianship Exam
• 2.5 UF GPA required

**Semester 5**
• Complete MUE 3311, MUG 4104, MVV 3431, MUH 3212, MUN 3000 Level Ensemble with minimum grades of C
• Complete MUS 1010 with a grade of S
• 2.5 UF GPA required

**Semester 6**
• Complete MUH 3213, MVV 3431, MVV 3970, MUN 3000 Level Choral Ensemble, MUE 3330, MUG 4202 with minimum grades of C
• Complete MUS 1010 with a grade of S
• 2.5 UF GPA required

**Semester 7**
• Complete MVK 1411, MUT 3321, MUE 4421 with minimum grades of C
• 2.5 UF GPA required

**Semester 8**
• Complete MUE 4940 and MUE 4140 with minimum grades of C
• 2.5 UF GPA required

---

### Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

1. Students who place into MUT 1001 take MUT 1111 and MUT 1241L in the spring, followed by MUT 1112 and MUT 1242L in the summer.
All students are required to pass the Florida Teacher Certification Exam (FTCE) general knowledge test by end of the sophomore year.

For the B.Mus.Ed., students must complete at least 50 major and elective credits at the 3000/4000 levels.

Remaining portions of the FTCE and an online portfolio showing evidence of the Florida Accomplished Practices as prescribed by the Florida Department of Education must be completed prior to student teaching.

Academic Learning Compact

The Bachelor of Music in music education prepares students to become musicians and music teachers in a K-12 instructional setting. Through studies in conducting, rehearsal planning, teaching techniques, and theory, applied performance, music literature and history and piano, students will be able to structure and apply music for meaningful and effective music class and ensemble instruction.

Before Graduating Students Must

- Pass the General Knowledge Test and the Music (K-12) Subject Area Test of the Florida Teacher Certification Examination.
- Satisfactory faculty evaluation of a student portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Apply pedagogical content knowledge necessary to effectively teach K-12 music classes and ensembles as an entry-level educator.

Critical Thinking
2. Consistently and accurately make instructional decisions using a variety of assessment data.

Communication
3. Communicate, verbally and in writing, regarding music, pedagogy, and other aspects of music learning to diverse educational stakeholders.

Assessment Types
- Student-teacher internship evaluation ratings.
- Student-teacher exit survey.

Instrumental

The Bachelor of Music in Music Education curriculum (B.Mus.Ed.) prepares students to become musicians and music teachers in private life and in the public schools. It is offered in cooperation with the College of Education and includes work in music history, literature, theory, performance, conducting, ensemble, and music education.

About this Program

- **College**: Arts (p. 436)
- **Degree**: Bachelor of Music in Music Education
- **Specializations**: Choral (p. 489) | Instrumental (p. 493)
- **Credits for Degree**: 123 - 125
- **More Info**
To graduate with this major, students must complete all university, college, and major requirements.

• Music | Bachelor of Music

Related Programs
• Music in Medicine Certificate

Music education programs are available in choral and instrumental. More than one-half of the students in the School of Music are preparing for careers as music teachers in elementary or secondary schools. In addition, undergraduates interested primarily in performance careers often take advantage of the teacher-preparation curriculum, which fulfills the educational requirements for Florida teaching certification in grades K-12, and in most other states. The University of Florida is accredited by NASM and the Southern Association of Colleges and Schools (SACS).

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=131312&track=01) may be used for transfer students.

Semester 1
• Complete MUE 2440 and MVK 1111 with minimum grades of C
• Complete MUN 1000 with a minimum grade of C
• Complete MUS 1010 with a grade of S
• Complete MUT 1001 or (MUT 1111 and MUT 1241L) with minimum grade of C
• Complete 2 credits of MV_ 141_ Performance Principal with a minimum grade of C
• 2.5 UF GPA required

Semester 2
• Complete MUE 1090, MUE 2430, MUE 2442, and MVK 1112 with minimum grades of C
• Complete MUN 1000 with a minimum grade of C
• Complete MUS 1010 with a grade of S
• Complete (MUT 1111 and MUT 1241L) or (MUT 1112 and MUT 1242L) with minimum grade of C
• Complete 2 additional credits of MV_ 141_ Performance Principal with a minimum grade of C
• 2.5 UF GPA required
Semester 3
• Complete MUE 2040, MUE 2450, MUT 2116, MUT 2246L, and MVK 2221 with minimum grades of C
• Complete MUN 1000 with a minimum grade of C
• Complete MUS 1010 with a grade of S
• Complete 2 credits of MVK 242 Performance Principal with a minimum grade of C
• 2.5 UF GPA required

Semester 4
• Complete MUE 2452, MUE 2680, MUT 2117, MUT 2247L, and MVK 2222 with minimum grades of C
• Complete MUN 1000 with a minimum grade of C
• Complete MUS 3211 with a minimum grade of C
• Complete MUS 1010 with a grade of S
• Complete 2 additional credits of MVK 242 Performance Principal with a minimum grade of C
• 2000-level Performance Jury
• Comprehensive Musicianship Exam
• 2.5 UF GPA required

Semester 5
• Complete MUH 3213, MV 343_ , MV 3970, MUN 3000 Level Ensemble, MUE 3330, MUG 4302, MUE 4480 with minimum grades of C
• Complete MUS 1010 with a grade of S
• Complete 2 credits of MVK 343 Performance Principal with a minimum grade of C
• 2.5 UF GPA required

Semester 6
• Complete MUT 3321 and MUE 3343/MUE 4422 with minimum grades of C
• 2.5 UF GPA required

Semester 7
• Complete MUE 4940 and MUE 4140 with minimum grades of C
• 2.5 UF GPA required

**Model Semester Plan**

**Total Credits**

16

1 Students who place into MUT 1001 take MUT 1111 and MUT 1241L in the spring, followed by MUT 1112 and MUT 1242L.

2 All instruments except for strings; strings should select 3 credits of applied study on a secondary string instrument.

All students are required to pass the Florida Teacher Certification Exam (FTCE) general knowledge test by end of the sophomore year.

For the B.Mus.Ed., students must complete at least 50 major and elective credits at the 3000/4000 levels.

Remaining portions of the FTCE and an online portfolio showing evidence of the Florida Accomplished Practices as prescribed by the Florida Department of Education must be completed prior to student teaching.

Music education majors must take one semester of Marching Band (wind and percussion).

---

**Academic Learning Compact**

The Bachelor of Music in music education prepares students to become musicians and music teachers in a K-12 instructional setting. Through studies in conducting, rehearsal planning, teaching techniques, and theory, applied performance, music literature and history and piano, students will be able to structure and apply music for meaningful and effective music class and ensemble instruction.

**Before Graduating Students Must**

• Pass the General Knowledge Test and the Music (K-12) Subject Area Test of the Florida Teacher Certification Examination.

• Satisfactory faculty evaluation of a student portfolio.

• Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Apply pedagogical content knowledge necessary to effectively teach K-12 music classes and ensembles as an entry-level educator.

**Critical Thinking**

2. Consistently and accurately make instructional decisions using a variety of assessment data.

**Communication**

3. Communicate, verbally and in writing, regarding music, pedagogy, and other aspects of music learning to diverse educational stakeholders.

---

**Music Education Certificate**

The Music Education Certificate serves musicians whose undergraduate music degree programs did not include an education component, but who have decided that they would like to become Florida public school music teachers. Completion of this certificate program, and required state tests, results in qualification for Educator Certification in Music (Grades K-12) through the Florida Department of Education.

**About this Program**

- **Colleges:** Arts (p. 436) and Education (p. 701)
- **Credits:** 24 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

**School Information**

Website (https://arts.ufl.edu/academics/music/)

This possible sequencing is for students who wish to enroll in the certificate program only. For students who wish to enroll in the certificate program in conjunction with an existing Master's degree program, course sequencing will be determined on an individual basis in conjunction with the academic advisor. The combined program is expected to take 6 semesters, or 3 academic years.

### Music History | Ethnomusicology Minor

The Music History | Ethnomusicology minor does not require an audition, but a background in music is recommended. A theory placement exam is required to determine the appropriate level of theory the student should be taking.

**Total Credits**: 18

In addition to the required courses, participation in one or more of the School of Music’s ensembles is recommended. Only nine credits below the 3000 level will count toward the minor and at least 12 credits of coursework must be completed at UF.

Students should contact the undergraduate advisor before enrolling in coursework.
Depending on placement after taking the theory placement exam.
With approval of Musicology/Ethnomusicology faculty.

Music in Medicine Certificate

The Center for Arts in Medicine, in conjunction with the School of Music, offers this certificate as an opportunity for students to explore the intersections between music and health and professional opportunities for engaging both disciplines.

About this Program

- **College:** Arts (p. 436)
- **Credits:** 12
- **Contact:** Email (fcarytsas@arts.ufl.edu)

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Center Information

The University of Florida Center for the Arts in Medicine is committed to advancing research, education, and practice in arts in medicine, locally and globally. Through ongoing interdisciplinary research, training programs, and dynamic academic programs the Center advances its mission to further the field of arts in health.

Related Programs

- Music in Medicine Certificate

Programs are available in music, music history and literature, music history and literature with emphasis in ethnomusicology, and music theory or composition. The University of Florida is accredited by NASM and the Southern Association of Colleges and Schools (SACS).

Foreign Language

Students must take 10 credits of foreign language or show a minimum proficiency in a single language by taking a placement test. If the proficiency is met, it does not reduce the 120 credits required for the degree. Foreign language courses can be taken S-U or for a letter grade, and the minimum grade is a C. Foreign language credit cannot be obtained through CLEP examinations.

All students pursuing the B.A. must consult a department advisor and get approval before attempting the elective portion of this program.

Academic Learning Compact

The Bachelor of Arts in music provides a liberal arts education with an emphasis in ethnomusicology, music history and literature, music theory and composition, or performance. Studies in music theory, applied performance, music literature, music history and piano, provide knowledge of the structure and expression of music within the historical context of musical genres. Students will also be able to apply their knowledge through singing or performing a musical instrument and they will be able to apply critical thinking skills when hearing musical sounds.

Before Graduating Students Must

- Satisfactory faculty evaluation of a student portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Perform at a pre-professional level on an instrument or voice.

Critical Thinking
2. Utilize theoretical analysis of music.

Communication
3. Write about music within different historical and cultural contexts.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500901&track=01) may be used for transfer students.

Semester 1

• Complete MUN 1000 with a minimum grade of C (keyboard emphasis must take MVK 3702 instead)
• Complete MUS 1010 with a grade of S
• Complete MUT 1111 and MUT 1241L with a minimum grade of C
• Complete MVK 1111 with a minimum grade of C (keyboard emphasis students exempt)
• Complete 2 credits of (MV_ 141_) Performance Principal coursework with minimum grade of C
• Voice emphasis only must take MUS 2211 and MUS 2241
• 2.0 UF GPA required

Semester 2

• Complete MUN 1000 with a minimum grade of C (keyboard emphasis must take MVK 3702 instead)
• Complete MUS 1010 with a grade of S
• Complete MUS 1360 and MUT 1112 and MUT 1242L with minimum grades of C
• Complete MVK 1112 with a minimum grade of C (keyboard emphasis students exempt)
• Complete 2 additional credits of (MV_ 141_) Performance Principal with minimum grade of C
• Voice emphasis only must take MUS 2221 and MUS 2231
• 2.0 UF GPA required

Semester 3

• Complete MUN 1000 and MUT 2116 and MUT 2246L with minimum grades of C
• Complete MUS 1010 with a grade of S
• Complete MVK 2221 with a minimum grade of C (keyboard emphasis students exempt)
• Complete 2 credits of (MV_ 242_) Performance Principal with minimum grade of C
• 2.0 UF GPA required

Semester 4

• Complete MUN 1000 and MUT 2117 and MUT 2247L with minimum grades of C
• Complete MUS 1010 with a grade of S
• Complete MVK 2222 with a minimum grade of C (keyboard emphasis students exempt)
• Complete 2 additional credits of (MV_ 242_) Performance Principal with minimum grade of C
• Comprehensive Musicianship Jury
• 2000-level Performance Jury
• 2.0 UF GPA required

Semester 5

• Complete 3 credits of (MV_ 343_) Performance Principal with a minimum grade of C
• Complete MUH 3212 and MUN 3000 Level Ensemble with minimum grades of C
• Complete MUS 1010 with a grade of S
• 2.0 UF GPA required

Semester 6

• Complete MUH 3213, MUN 3000 Level Ensemble, MV_ 343_ and MV_ 3970 with minimum grades of C
• Complete MUS 1010 with a grade of S
• 2.0 UF GPA required

Total Credits 120

---

1. Keyboard emphasis must take MVK 3702.
2. Students who place into MUT 1001 take MUT 1111 and MUT 1241L in the spring, followed by MUT 1112 and MUT 1242L in the summer.

For the B.A. with concentration in music, students must complete at least 35 major and elective credits at the 3000/4000 levels.

---

**Academic Learning Compact**

The Bachelor of Arts in music provides a liberal arts education with an emphasis in ethnomusicology, music history and literature, music theory and composition, or performance. Studies in music theory, applied performance, music literature, music history and piano, provide knowledge of the structure and expression of music within the historical context of musical genres. Students will also be able to apply their knowledge through singing or performing a musical instrument and they will be able to apply critical thinking skills when hearing musical sounds.

**Before Graduating Students Must**

- Satisfactory faculty evaluation of a student portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Perform at a pre-professional level on an instrument or voice.

**Critical Thinking**
2. Utilize theoretical analysis of music.

**Communication**
3. Write about music within different historical and cultural contexts.

**Curriculum Map**

I = Introduced; R = Reinforced; A = Assessed
Assessment Types

- Rubric from the pre-professional jury
- Final exams

Event Management

The B.A. curriculum is for students who want a liberal arts education with an emphasis in music. Students can minor in other subject areas such as English, psychology or history.

About this Program

- **College**: Arts (p. 436)
- **Degree**: Bachelor of Arts
- **Credits for Degree**: 120

To graduate with this major, students must complete all university, college, and major requirements.

- Music History | Ethnomusicology Minor
- Music in Medicine Certificate
- Music Performance Certificate
- Music Performance Minor
- Music Theory Minor
- Music | Bachelor of Arts
- Music | Bachelor of Music

Related Programs

- Music in Medicine Certificate
Programs are available in music, music history and literature, music history and literature with emphasis in ethnomusicology, and music theory or composition. The University of Florida is accredited by NASM and the Southern Association of Colleges and Schools (SACS).

**Foreign Language**

Students must take 10 credits of foreign language or show a minimum proficiency in a single language by taking a placement test. If the proficiency is met, it does not reduce the 120 credits required for the degree. Foreign language courses can be taken S-U or for a letter grade, and the minimum grade is a C. Foreign language credit cannot be obtained through CLEP examinations.

All students pursuing the B.A. must consult a department advisor and get approval before attempting the elective portion of this program.

- Music Theory minor (p. 504)
- Music Performance certificate (p. 502)

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500901&track=01) may be used for transfer students.

**Semester 1**

- Complete MUN 1000 with a minimum grade of C (keyboard emphasis must take MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUT 1111 and MUT 1241L with a minimum grade of C
- Complete MVK 1111 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 credits of (MV_ 141_) Performance Principal coursework with minimum grade of C
- Voice emphasis only must take MUS 2211 and MUS 2241
- 2.0 UF GPA required

**Semester 2**

- Complete MUN 1000 with a minimum grade of C (keyboard emphasis must take MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUS 1360 and MUT 1112 and MUT 1242L with minimum grades of C
- Complete MVK 1112 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 additional credits of (MV_ 141_) Performance Principal with minimum grade of C
- Voice emphasis only must take MUS 2221 and MUS 2231
- 2.0 UF GPA required

**Semester 3**

- Complete MUN 1000 and MUT 2116 and MUT 2246L with minimum grades of C
- Complete MUS 1010 with a grade of S
- Complete MVK 2221 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 credits of (MV_ 242_) Performance Principal with minimum grade of C
- 2.0 UF GPA required

**Semester 4**

- Complete MUN 1000 and MUT 2117 and MUT 2247L with minimum grades of C
- Complete MUS 1010 with a grade of S
- Complete MVK 2222 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 additional credits of (MV_ 242_) Performance Principal with minimum grade of C
- Comprehensive Musicianship Jury
- 2000-level Performance Jury
- 2.0 UF GPA required

**Semester 5**
- Complete 3 credits of (MV_343_ ) Performance Principal with a minimum grade of C
- Complete MUH 3212 and MUN 3000 Level Ensemble with minimum grades of C
- Complete MUS 1010 with a grade of S
- 2.0 UF GPA required

**Semester 6**
- Complete MUH 3213, MUN 3000 Level Ensemble, MV_343_ and MV_3970 with minimum grades of C
- Complete MUS 1010 with a grade of S
- 2.0 UF GPA required

**Semester 7**
- 2.0 UF GPA required

**Semester 8**

All students pursuing the B.A. must consult a department advisor and get approval before attempting the elective portion of this program.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500901&track=01) may be used for transfer students.

Semester 1
- Complete MUN 1000 with a minimum grade of C (keyboard emphasis must take MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUT 1111 and MUT 1241L with minimum grades of C
- Complete MVK 1111 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 credits of (MV_ 141_) Performance Principal coursework with minimum grade of C
- Voice emphasis only must take MUS 2211 and MUS 2241
- 2.0 UF GPA required

Semester 2
- Complete MUN 1000 with a minimum grade of C (keyboard emphasis must take MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUS 1360 and MUT 1112 and MUT 1242L with minimum grades of C
- Complete MVK 1112 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 additional credits of (MV_ 141_) Performance Principal with minimum grade of C
- Voice emphasis only must take MUS 2221 and MUS 2231
- 2.0 UF GPA required

Semester 3
- Complete MUN 1000 and MUT 2116 and MUT 2246L with minimum grades of C
- Complete MUS 1010 with a grade of S
- Complete MVK 2221 with a minimum grade of C (keyboard emphasis students exempt)
Semester 4

- Complete 2 credits of (MV_242_) Performance Principal with minimum grade of C
- 2.0 UF GPA required

Semester 5

- Complete MUH 3212 and MUN 3000 level ensemble with minimum grades of C
- Complete MUS 1010 with a grade of S

Semester 6

- Complete MUH 3213, MV_343_, MV_3970, and MUN 3000 level ensemble with minimum grades of C
- Complete MUS 1010 with a grade of S
- 2.0 UF GPA required

Semester 7

- 2.0 UF GPA required

Semester 8

- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

1 Keyboard emphasis must take MVK 3702.
2 Students who place into MUT 1001 take MUT 1111 and MUT 1241L in the spring, followed by MUT 1112 and MUT 1242L in the summer.

For the B.A. with concentration in music, students must complete at least 35 major and elective credits at the 3000/4000 levels.

---

**Academic Learning Compact**

The Bachelor of Arts in music provides a liberal arts education with an emphasis in ethnomusicology, music history and literature, music theory and composition, or performance. Studies in music theory, applied performance, music literature, music history and piano, provide knowledge of the structure and expression of music within the historical context of musical genres. Students will also be able to apply their knowledge through singing or performing a musical instrument and they will be able to apply critical thinking skills when hearing musical sounds.
Before Graduating Students Must
• Satisfactory faculty evaluation of a student portfolio.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Perform at a pre-professional level on an instrument or voice.

Critical Thinking
2. Utilize theoretical analysis of music.

Communication
3. Write about music within different historical and cultural contexts.

Related Programs

- Music in Medicine Certificate

Programs are available in music, music history and literature, music history and literature with emphasis in ethnomusicology, and music theory or composition. The University of Florida is accredited by NASM and the Southern Association of Colleges and Schools (SACS).

Foreign Language

Students must take 10 credits of foreign language or show a minimum proficiency in a single language by taking a placement test. If the proficiency is met, it does not reduce the 120 credits required for the degree. Foreign language courses can be taken S-U or for a letter grade, and the minimum grade is a C. Foreign language credit cannot be obtained through CLEP examinations.

All students pursuing the B.A. must consult a department advisor and get approval before attempting the elective portion of this program.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500901&track=01) may be used for transfer students.

Semester 1

- Complete MUH 2501 and MUT 1111 and MUT 1241L with minimum grades of C
- Complete MUN 1000 with a minimum grade of C (keyboard emphasis must take MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MVK 1111 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 credits of (MV_ 241_) Performance Principal with a minimum grade of C
- 2.0 UF GPA required

Semester 2

- Complete MUN 1000 with a minimum grade of C (keyboard emphasis must take MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUT 1112 and MUT 1242L with minimum grades of C
- Complete MVK 1112 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 additional credits of (MV_ 241_) Performance Principal with minimum grade of C
- 2.0 UF GPA required

Semester 3

- Complete MUT 2117 and MUT 2247L with minimum grades of C
- Complete MVK 2221 with a minimum grade of C (keyboard emphasis students exempt)

Semester 4

- Complete MUT 2117 and MUT 2247L with minimum grades of C
- Complete MVK 2222 with a minimum grade of C (keyboard emphasis students exempt)
• Comprehensive Musicianship Jury
• 2.0 UF GPA required

**Semester 5**
• Complete MUH 3212 and MUH 3541 with minimum grades of C
• Complete MUS 1010 with a grade of S
• 2.0 UF GPA required

**Semester 6**
• Complete MUH 3213 with a minimum grade of C
• Complete MUS 1010 with a grade of S
• 2.0 UF GPA required

**Semester 7**
• Complete MUL/MUH 3000/4000 with a minimum grade of C
• 2.0 UF GPA required

**Semester 8**
• Complete MUS 4905 and MUL/MUH 3000/4000 with minimum grades of C
• 2.0 UF GPA required

---

1. Keyboard emphasis must take MVK 3702.
2. Students who place into MUT 1001 take MUT 1111 and MUT 1241L in the spring, followed by MUT 1112 and MUT 1242L in the summer.
3. Bachelor of Arts degrees require 2 courses in physical sciences and 2 courses in biological sciences.

For the B.A. in with concentration in history and literature with emphasis in ethnomusicology, students must complete at least 33 major and elective credits at the 3000/4000 levels.

---

**Academic Learning Compact**

The Bachelor of Arts in music provides a liberal arts education with an emphasis in ethnomusicology, music history and literature, music theory and composition, or performance. Studies in music theory, applied performance, music literature, music history and piano, provide knowledge of the structure and expression of music within the historical context of musical genres. Students will also be able to apply their knowledge through singing or performing a musical instrument and they will be able to apply critical thinking skills when hearing musical sounds.

**Before Graduating Students Must**

- Satisfactory faculty evaluation of a student portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Perform at a pre-professional level on an instrument or voice.

Critical Thinking
2. Utilize theoretical analysis of music.

Communication
3. Write about music within different historical and cultural contexts.

2000-Level Performance & Comprehensive Musicianship Juries

Assessment Types
- Rubric from the pre-professional jury
- Final exams

Music Theory and Composition

The B.A. curriculum is for students who want a liberal arts education with an emphasis in music. Students can minor in other subject areas such as English, psychology, or history.

About this Program
- **College:** Arts (p. 436)
- **Degree:** Bachelor of Arts
- **Concentrations:** Entrepreneurship (p. 507) | Event Management (p. 511) | Music (p. 515) | Music History and Literature (p. 519) | Music History and Literature: Ethnomusicology (p. 523) | Music Theory and Composition (p. 527)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

MUSIC BUILDING
GAINESVILLE FL 32611
Map (http://campusmap.ufl.edu/#/index/0117)

Curriculum
- Combination Degrees
- Jazz Studies Minor
• Music Education
• Music History | Ethnomusicology Minor
• Music in Medicine Certificate
• Music Performance Certificate
• Music Performance Minor
• Music Theory Minor
• Music | Bachelor of Arts
• Music | Bachelor of Music

Related Programs
• Music in Medicine Certificate

Programs are available in music, music history and literature, music history and literature with emphasis in ethnomusicology, and music theory or composition. The University of Florida is accredited by NASM and the Southern Association of Colleges and Schools (SACS).

Foreign Language

Students must take 10 credits of foreign language or show a minimum proficiency in a single language by taking a placement test. If the proficiency is met, it does not reduce the 120 credits required for the degree. Foreign language courses can be taken S-U or for a letter grade, and the minimum grade is a C. Foreign language credit cannot be obtained through CLEP examinations.

All students pursuing the B.A. must consult a department advisor and get approval before attempting the elective portion of this program.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500901&track=01) may be used for transfer students.

Semester 1

• Complete MUN 1000 with a minimum grade of C (keyboard emphasis must take MVK 3702 instead)
• Complete MUS 1010 with a grade of S
• Complete MUT 1111 and MUT 1241L with minimum grades of C
• Complete MVK 1111 with a minimum grade of C (keyboard emphasis students exempt)
• Complete MUC 1211 with a minimum grade of C (theory majors should take a one-credit MUT elective)
• Complete 2 credits of (MV_ 141_) Performance Principal with a minimum grade of C
• 2.0 UF GPA required

Semester 2

• Complete MUC 1212 with a minimum grade of C (theory majors should take an additional one-credit MUT elective)
• Complete MUN 1000 with a minimum grade of C (keyboard emphasis must take MVK 3702 instead)
• Complete MUS 1010 with a grade of S
• Complete MUT 1360 and MUT 1112 and MUT 1242L with minimum grades of C
• Complete MVK 1112 with a minimum grade of C (keyboard emphasis students exempt)
• Complete 2 additional credits of (MV_ 141_) Performance Principal with minimum grade of C
• 2.0 UF GPA required

Semester 3

• Complete MUC 2101 with a minimum grade of C (theory majors should take an additional one-credit MUT elective)
• Complete MUS 1010 with a grade of S
• Complete MUT 2116 and MUT 2246L with minimum grades of C
• Complete MVK 2221 with a minimum grade of C (keyboard emphasis students exempt)
• 2.0 UF GPA required
Semester 4
• Complete MUC 2102 with a minimum grade of C (theory majors should take an additional one-credit MUT elective)
• Complete MUT 2117 and MUT 2247L with minimum grades of C
• Complete MVK 2222 with a minimum grade of C (keyboard emphasis students exempt)
• Comprehensive Musicianship Jury
• 2.0 UF GPA required

Semester 5
• Complete MUC/MUT 3000/4000, MUH 3212, and MUG 4104 with minimum grades of C
• Complete MUS 1010 with a grade of S
• 2.0 UF GPA required

Semester 6
• Complete MUC/MUT 3000/4000 and MUH 3213 with minimum grades of C
• Complete MUS 1010 with a grade of S
• 2.0 UF GPA required

Semester 7
• Complete MUC/MUT 3000/4000 with a minimum grade of C
• 2.0 UF GPA required

Semester 8
• Complete MUS 4905 with a minimum grade of C
• 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Related Programs
- Music in Medicine Certificate

Music programs are available in music in combination with an outside field, music composition, music theory, music performance: instrumental (brass, keyboard, percussion, strings, winds) and music performance: vocal. The University of Florida is accredited by NASM and the Southern Association of Colleges and Schools (SACS).

Academic Learning Compact
The Bachelor of Music enables students to enter a professional career in music, to teach music privately and to achieve proficiency in a performance area such as composition, instrumental or voice. With study in theory, music literature, music history, piano and applied instruction, students learn the structure and expression of music and the historical context of musical genres. Through applied study, students develop advanced skills and can apply this knowledge through singing, performing on a musical instrument or composing a musical work and they can apply advanced critical thinking skills when hearing musical sounds.

Before Graduating Students Must
- Satisfactory faculty evaluation of a student portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.
Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500901&track=01) may be used for transfer students.

Semester 1
- Complete MUC 1211, MUT 1111, and MUT 1241L with minimum grades of C
- Complete MUN 1000 with a minimum grade of C (piano emphasis must take MKV 3702)
- Complete MUS 1010 with a grade of S
- Complete MKV 1111 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 credits of (MV_ 141_) Performance Principal with a minimum grade of C
- Voice emphasis only must complete MUS 2211 and MUS 2241
- 2.0 UF GPA required

Semester 2
- Complete MUC 1212, MUT 1360, MUT 1242L, and MUT 1242L with minimum grades of C
- Complete MUN 1000 with a minimum grade of C (piano emphasis must take MKV 3702)
- Complete MUS 1010 with a grade of S
- Complete MKV 1112 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 additional credits of (MV_ 242_) Performance Principal with a minimum grade of C
- Voice emphasis only must complete MUS 2221 and MUS 2231
- 2.0 UF GPA required

Semester 3
- Complete MUC 2101, MUT 2116, MUT 2246L, and MUN 1000 with minimum grades of C
- Complete MKV 2221 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 credits of (MV_ 242_) Performance Principal with a minimum grade of C
- Complete MUS 1010 with a grade of S
- 2.0 UF GPA required

Semester 4
- Complete MUC 2102, MUT 2117, MUT 2247L, and MUN 1000 with minimum grades of C
- Complete MUS 1010 with a grade of S
- Complete MKV 2222 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 additional credits of (MV_ 242_) Performance Principal with minimum grade of C
- 2000-level Performance Jury
- 2.0 UF GPA required

Semester 5
- Complete MUT 3611, MUN Ensemble (3000 level), MUT 4401, MUC 4313, MUC 3231, MV_ 343_ with minimum grades of C
- Complete MUS 1010 with a grade of S
- 2.0 UF GPA required

Semester 6
- Complete MUH 3211, MUT 3612, MUT 4402, MUC 3232, MV_ 343_, MV_ 3970, MUN 3000 Level Ensemble with minimum grades of C
- Complete MUS 1010 with a grade of S
- 2.0 UF GPA required

Semester 7
- Complete MUH 3212, MUG 4104, MUC 4241, MUT 3321, MUN 3000 Level Ensemble with minimum grades of C
- 2.0 UF GPA required
Semester 8

- Complete MUH 3213, MUN 3000 Level Ensemble, MUT 4601, Senior Composition Project, Senior Composition Recital with minimum grades of C
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

| Total Credits | 120 |

1. Piano emphasis must take MVK 3702.
2. Students who place into MUT 1001 take MUT 1111 and MUT 1241L in the spring, followed by MUT 1112 and MUT 1242L in the summer.
3. Gen Ed Social and Behavioral Sciences OR State Core Humanities course should also include a Gen Ed Diversity component.
4. Students whose Semester Six falls in an odd year must take MUT 3322 during Semester Eight.

For the B.Mus. in music composition, students must complete at least 54 major and elective credits at the 3000/4000 levels.

---

**Academic Learning Compact**

The Bachelor of Music enables students to enter a professional career in music, to teach music privately and to achieve proficiency in a performance area such as composition, instrumental or voice. With study in theory, music literature, music history, piano and applied instruction, students learn the structure and expression of music and the historical context of musical genres. Through applied study, students develop advanced skills and can apply this knowledge through singing, performing on a musical instrument or composing a musical work and they can apply advanced critical thinking skills when hearing musical sounds.
Before Graduating Students Must
• Satisfactory faculty evaluation of a student portfolio.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Perform at a pre-professional level on an instrument or voice.

Critical Thinking
2. Utilize theoretical analysis of music.

Communication
3. Write about music within different historical and cultural contexts.

Music in Combination with an Outside Field
The Bachelor of Music curriculum is intended for students who plan to enter professional music careers, graduate study in music, or private studio teaching.

About this Program
• College: Arts (p. 436)
• Degree: Bachelor of Music
• Credits for Degree: 120
• Specializations: Music in Combination with an Outside Field (p. 537) | Music Composition (p. 533) | Performance: Instrumental (p. 546) | Performance: Vocal (p. 550) | Music Theory (p. 541)

To graduate with this major, students must complete all university, college, and major requirements.

MUSIC BUILDING
Music programs are available in music in combination with an outside field, music composition, music theory, music performance: instrumental (brass, keyboard, percussion, strings, winds) and music performance: vocal. The University of Florida is accredited by NASM and the Southern Association of Colleges and Schools (SACS).

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500901&track=01) may be used for transfer students.

**Semester 1**

- Complete MUN 1000 with a minimum grade of C (keyboard emphasis must take MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUT 1111 and MUT 1241L with minimum grades of C
- Complete MUT 1121 with a minimum grade of C
- Complete MVK 1111 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 credits of (MV_ 141_) Performance Principal with a minimum grade of C
- Voice emphasis only must complete MUS 2211 and MUS 2241
- 2.0 UF GPA required

**Semester 2**

- Complete MUN 1000 with a minimum grade of C (keyboard emphasis must take MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUS 1360, MUT 1112, and MUT 1242L with minimum grades of C
- Complete MVK 1112 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 additional credits of (MV_ 141_) Performance Principal with minimum grade of C
- Voice emphasis only must complete MUS 2221 and MUS 2231
- 2.0 UF GPA required

**Semester 3**

- Complete MUS 1010 with a grade of S
- Complete MUT 2116, MUT 2246L, and MUN 1000 with minimum grades of C
- Complete MVK 2221 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 credits of (MV_ 242_) Performance Principal with a minimum grade of C
- 2.0 UF GPA required
Semester 4

• Complete MUS 1010 with a grade of S
• Complete MUT 2117, MUT 2247L, and MUN 1000 with minimum grades of C
• Complete MVK 2222 with a minimum grade of C (keyboard emphasis students exempt)
• Complete 2 additional credits of (MV_ 242_) Performance Principal with minimum grade of C
• 2000-level Performance Jury
• 2.0 UF GPA required

Semester 5

• Complete MUH 3212, MUN Ensemble (3000 level), MUG 4104, MV_ 343_ with minimum grades of C or better
• Complete MUS 1010 with a grade of S
• 2.0 UF GPA required

Semester 6

• Complete MUH 3213, MV_ 343_, MV_ 3970 , MUN 3000 Level Ensemble with minimum grades of C or better
• Complete MUS 1010 with a grade of S
• 2.0 UF GPA required

Semester 7

• 2.0 UF GPA required

Semester 8

• 2.0 UF GPA required

- Complete MVK 1111 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 credits of (MV_ 141_) Performance Principal with a minimum grade of C
- Voice emphasis only must complete MUS 2211 and MUS 2241
- 2.0 UF GPA required

Semester 2

- Complete MUN 1000 with a minimum grade of C (keyboard emphasis students must complete MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUS 1360, MUT 1112 and MUT 1242L with minimum grades of C
- Complete MVK 1112 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 additional credits of (MV_ 141_) Performance Principal with minimum grade of C
- Voice emphasis only must complete MUS 2221 and MUS 2231
- 2.0 UF GPA required

Semester 3

- Complete MUC 1211, MUT 2116, MUT 2246L, and MUN 1000 with minimum grades of C
- Complete MUS 1010 with a grade of S
- Complete MVK 2221 with a minimum grade of C (keyboard emphasis students exempt)
• Complete 2 credits of (MV_ 242_) Performance Principal with a minimum grade of C
• 2.0 UF GPA required

**Semester 4**
• Complete MUC 1212, MUT 2117, MUT 2247L, and MUN 1000 with minimum grades of C
• Complete MUN 1000 with minimum grade of C
• Complete MUS 1010 with a grade of S
• Complete MVK 2222 with a minimum grade of C (keyboard emphasis students exempt)
• Complete 2 additional credits of (MV_ 242_) Performance Principal with minimum grade of C
• 2000-level Performance Jury
• Comprehensive Musicianship Jury
• 2.0 UF GPA required

**Semester 5**
• Complete MUT 3611 or MUT 4401, MUN Ensemble (3000 level), MV_ 343_ with minimum grades of C
• Complete MUS 1010 with a grade of S
• 2.0 UF GPA required

**Semester 6**
• Complete MUH 3211, MUT 3612 or MUT 4402, MV_ 343__, MV_ 3970, MUN 3000 Level Ensemble with minimum grades of C
• Complete MUS 1010 with a grade of S
• 2.0 UF GPA required

**Semester 7**
• Complete MUH 3212, MUG 4104, MUC 4313, MUT 3321 with minimum grades of C
• 2.0 UF GPA required

**Semester 8**
• Complete MUH 3213, MUS 4905, MUT 3322, MUT 4601, MUN 3000 Level Ensemble with minimum grades of C
• 2.0 UF GPA required

---

**Model Semester Plan**

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

1. Piano emphasis must take MVK 3702.
2. Students who place into MUT 1001 take MUT 1111 and MUT 1241L in the spring, followed by MUT 1112 and MUT 1242L in the summer.
3. Gen Ed Social and Behavioral Sciences OR State Core Humanities course should also include a Gen Ed Diversity component.
4. Students whose semester Six falls in an odd year must take MUT 3322 during Semester Eight.

For the B.Mus. in music theory, students must complete at least 54 major and elective credits at the 3000/4000 levels.

### Academic Learning Compact
The Bachelor of Music enables students to enter a professional career in music, to teach music privately and to achieve proficiency in a performance area such as composition, instrumental or voice. With study in theory, music literature, music history, piano and applied instruction, students learn the structure and expression of music and the historical context of musical genres. Through applied study, students develop advanced skills and can apply this knowledge through singing, performing on a musical instrument or composing a musical work and they can apply advanced critical thinking skills when hearing musical sounds.

### Before Graduating Students Must
- Satisfactory faculty evaluation of a student portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

##### Content
1. Perform at a pre-professional level on an instrument or voice.

##### Critical Thinking
2. Utilize theoretical analysis of music.

##### Communication
3. Write about music within different historical and cultural contexts.

2000-Level Performance & Comprehensive Musicianship Juries | A
Assessment Types
- Rubric from the pre-professional jury.
- Final exams.

Performance | Instrumental

The Bachelor of Music curriculum is intended for students who plan to enter professional music careers, graduate study in music, or private studio teaching.

About this Program
- **College**: Arts (p. 436)
- **Degree**: Bachelor of Music
- **Credits for Degree**: 120
- **Specializations**: Music in Combination with an Outside Field (p. 537) | Music Composition (p. 533) | Performance: Instrumental (p. 546) | Performance: Vocal (p. 550) | Music Theory (p. 541)

To graduate with this major, students must complete all university, college, and major requirements.

Related Programs
- Music in Medicine Certificate

Music programs are available in music in combination with an outside field, music composition, music theory, music performance: instrumental (brass, keyboard, percussion, strings, winds) and music performance: vocal. The University of Florida is accredited by NASM and the Southern Association of Colleges and Schools (SACS).

Performance | Instrumental

Brass, Keyboard, Percussion, Strings, Winds

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites ([http://www.flvc.org/cpp/displayRecord.jsp?cip=500901&track=01](http://www.flvc.org/cpp/displayRecord.jsp?cip=500901&track=01)) may be used for transfer students.
Semester 1
- Complete MUN 1000 with a minimum grade of C (keyboard emphasis only students must complete MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUT 1111 and MUT 1241L with minimum grades of C
- Complete MVK 1111 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 credits of (MV_ 242_) Performance Principal with a minimum grade of C
- 2.0 UF GPA required

Semester 2
- Complete MUN 1000 with a minimum grade of C (keyboard emphasis only students must complete MVK 3702 instead)
- Complete MUS 1010 with a grade of S
- Complete MUS 1360 and MUT 1112 and MUT 1242L with minimum grades of C
- Complete MVK 1112 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 additional credits of (MV_ 242_) Performance Principal with minimum grade of C
- 2.0 UF GPA required

Semester 3
- Complete MUS 1010 with a grade of S
- Complete MUT 2116 and MUT 2247L and MUN 1000 with minimum grades of C
- Complete MVK 2221 with a minimum grade of C (keyboard emphasis students exempt)
- Complete 2 additional credits of (MV_ 242_) Performance Principal with minimum grade of C
- 2.0 UF GPA required

Semester 4
- Complete MUH 3212, MUN Ensemble (3000 level), MUT 3611, MUT 4401 or MUT 4402, MV_343_ with minimum grades of C
- Complete MUS 1010 with a grade of S
- 2.0 UF GPA required

Semester 5
- Complete MUH 3213, MV_343_, MV_3970, MUN 3000 Level Ensemble with minimum grades of C
- Complete MUS 1010 with a grade of S
- 2.0 UF GPA required

Semester 6
- Complete MUG 4104, MUL 444_, MUN 3000 Level Ensemble, MUT 3321, MV_444_ with minimum grades of C
- 2.0 UF GPA required

Semester 7
- Complete MUN 3000 Level Ensemble, MV_4971, MV_4640, MV_444_ with minimum grades of C
- 2.0 UF GPA required

Semester 8
- Complete MUN 3000 Level Ensemble, MV_4971, MV_4640, MV_444_ with minimum grades of C
- 2.0 UF GPA required

MUSIC BUILDING

GAINESVILLE FL 32611

Map (http://campusmap.ufl.edu/#/index/0117)

Curriculum

- Combination Degrees
- Jazz Studies Minor
- Music Education
- Music History | Ethnomusicology Minor
- Music in Medicine Certificate
- Music Performance Certificate
- Music Performance Minor
- Music Theory Minor
Music programs are available in music in combination with an outside field, music composition, music theory, music performance: instrumental (brass, keyboard, percussion, strings, winds) and music performance: vocal. The University of Florida is accredited by NASM and the Southern Association of Colleges and Schools (SACS).

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500901&track=01) may be used for transfer students.

Semester 1

- Complete MUN 1000 with a minimum grade of C
- Complete MUS 1010 with a grade of S
- Complete MUS 2211, MUS 2241, MUT 1111, MUT 1241L, and MVK 1111 with minimum grades of C
- Complete 2 credits of MVV 2421 with a minimum grade of C
- 2.0 UF GPA required

Semester 2

- Complete MUN 1000 with a minimum grade of C
- Complete MUS 1010 with a grade of S
- Complete MUS 1360, MUS 2221, MUS 2231, MUT 1112, MUT 1242L, and MVK 1112 with minimum grades of C
- Complete 2 additional credits of MVV 2421 with a minimum grade of C
- 2.0 UF GPA required

Semester 3

- Complete MUN 1000 with a minimum grade of C
- Complete MUS 1010 with a grade of S
- Complete MUT 2116, MUT 2246L, and MVK 2221 with minimum grades of C
- Complete 2 credits of MVV 2421 with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete MUN 1000 with a minimum grade of C
- Complete MUS 1010 with a grade of S
- Complete MUT 2117, MUT 2247L, and MVK 2222 with minimum grades of C
- Complete 2 additional credits of MVV 2421 with a minimum grade of C
- 2000-level Performance Jury
- Comprehensive Musicianship Jury
- 2.0 UF GPA required

Semester 5

- Complete MUH 3212, MUN Choral Ensemble (3000 level), MUT 3611, MVK 1411, MVV 3431 with minimum grades of C
- Complete MUS 1010 with a grade of S
- 2.0 UF GPA required
Semester 6
• Complete MUH 3213, MVV 3431, MV_ 3970 , MVK 1411, MUN 3000 Level Ensemble with minimum grades of C
• Complete MUS 1010 with a grade of S
• 2.0 UF GPA required

Semester 7
• Complete MUG 4104, MUL 4602, MUN 3000 Level Ensemble, MVV 4441 with minimum grades of C
• 2.0 UF GPA required

Semester 8
• Complete MUN 3000 Level Ensemble, MV_ 4971, MVV 4640, MVV 4441 with minimum grades of C
• 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

| Total Credits | 120 |

1 Students who place into MUT 1001 take MUT 1111 and MUT 1241L in the spring, followed by MUT 1112 and MUT 1242L in the summer.

For the B.Mus. in music performance: vocal, students must complete at least 41 major and elective credits at the 3000/4000 levels.

**Academic Learning Compact**

The Bachelor of Music enables students to enter a professional career in music, to teach music privately and to achieve proficiency in a performance area such as composition, instrumental or voice. With study in theory, music literature, music history, piano and applied instruction, students learn the structure and expression of music and the historical context of musical genres. Through applied study, students develop advanced skills and can apply this knowledge through singing, performing on a musical instrument or composing a musical work and they can apply advanced critical thinking skills when hearing musical sounds.
Before Graduating Students Must
- Satisfactory faculty evaluation of a student portfolio.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Theatre

The Bachelor of Arts in Theatre is designed for students who want a liberal arts education with an emphasis in theatre. In addition to a broad liberal arts background, the B.A. provides the creative experiences of studio and performance work. Students are expected not only to master critical thinking about performance through courses such as theatre history, playwriting, and dramaturgy, but also to audition for productions or involve themselves in the creation of theatrical experiences on many levels.

The Bachelor of Arts provides broad career opportunities in several fields and an opportunity to minor in other subject areas. Examples of possible minors are English, business, or communications.

About this Program
- **College**: Arts (p. 436)
- **Degree**: Bachelor of Arts
  - **Specializations**: General (p. 556) | Stage Management (p. 559) | Theatre Management (p. 564)
- **Credits for Degree**: 120

*To graduate with this major, students must complete all university, college, and major requirements.*
School Information
The School of Theatre + Dance provides an intimate setting where students, faculty, and staff interact in constant and close collaboration. Curricular programs are suited to a range of student interests and talents, from the liberal arts B.A. degree to the competitive B.F.A. and M.F.A. professional training degrees.

• Theatre Production Minor

Related Programs
• Applied Theater for Health Certificate

The Bachelor of Arts degree program in theatre prepares graduates to pursue additional academic degrees or enter professional theatre, teaching, or allied fields such as communication or public relations. If they choose to pursue advanced degrees, B.A. graduates traditionally enter MA, JD, or PhD programs. Regardless of degree or career expectations, students complete a core of foundation courses in theatre and dance in addition to general education courses required by the College of the Arts, the university, and the state of Florida.

Academic Learning Compact
The Bachelor of Arts in general theatre provides a liberal arts education with an emphasis in theatre that includes creative experiences in studio and performance. Students can combine the degree with a minor in another subject area to enhance their opportunities for graduate work or entry to professional theatre, teaching or allied fields such as communication and public relations.

Before Graduating Students Must
• Satisfactory faculty evaluation of a senior project.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Recall primary examples of the history, literature, structure, and theory of theatre.

Critical Thinking
2. Apply problem-solving strategies to artistic processes.

Communication
3. Communicate in advanced written and oral form on both analytical and artistic levels.

- Applied Theater for Health Certificate
The Bachelor of Arts degree program in theatre prepares graduates to pursue additional academic degrees or enter professional theatre, teaching, or allied fields such as communication or public relations. If they choose to pursue advanced degrees, BA graduates traditionally enter MA, JD, or PhD programs. Regardless of degree or career expectations, students complete a core of foundation courses in theatre and dance in addition to general education courses required by the College of the Arts, the university, and the state of Florida.

A minimum of 120 semester credits is required to complete the B.A. general theatre degree. An outside elective is any course taken outside of the major. Unless an approved minor is included, 18 credits of electives must be chosen from 3000/4000-level courses outside of the School of Theatre and Dance. Transfer students with A.A. degrees must complete additional courses in the basic distribution, which includes general education requirements. Students must earn minimum grades of C in each of these courses and they may not be taken S-U.

Students must take 10 credits of foreign language or show a minimum proficiency in a single foreign language by taking a placement test. If the proficiency is met, it does not reduce the number of credits required for the degree. Foreign language may be taken S-U or for a letter grade, and the minimum grade is C, no credit is given through CLEP examinations.

All students pursuing the B.A. degree must consult the department advisor and get approval before attempting the elective portion of this program.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500501&track=02) may be used for transfer students.

**Semester 1**
- Complete 2 of 8 critical-tracking courses with minimum grades of C: DAN 2100, THE 2000, TPA 2202C, TPA 2120C, TPA 2232C, TPP 2110, TPP 3103, TPP 3650
- 2.0 UF GPA required

**Semester 2**
- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.0 UF GPA required

**Semester 3**
- Complete 2 additional critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

**Semester 4**
- Complete 1 of 6 upper division critical-tracking courses with minimum grade of C
- 2.0 UF GPA required

**Semester 5**
- Complete 2 additional upper division critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

**Semester 7**
- Complete 1 additional upper division critical-tracking course with minimum grade of C
- 2.0 UF GPA required

**Semester 8**
- Complete all remaining upper-division tracking courses with minimum grades of C
- 2.0 UF GPA required
Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

### Stage Management

The Bachelor of Arts in Theatre is designed for students who want a liberal arts education with an emphasis in theatre. In addition to a broad liberal arts background, the B.A. provides the creative experiences of studio and performance work. Students are expected not only to master critical thinking about performance through courses such as theatre history, playwriting, and dramaturgy, but also to audition for productions or involve themselves in the creation of theatrical experiences on many levels.
The Bachelor of Arts provides broad career opportunities in several fields and an opportunity to minor in other subject areas. Examples of possible minors are English, business, or communications.

**About this Program**

- **College:** Arts (p. 436)
- **Degree:** Bachelor of Arts
- **Specializations:** General (p. 556) | Stage Management (p. 559) | Theatre Management (p. 564)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

**School Information**

The School of Theatre + Dance provides an intimate setting where students, faculty, and staff interact in constant and close collaboration. Curricular programs are suited to a range of student interests and talents, from the liberal arts B.A. degree to the competitive B.F.A. and M.F.A. professional training degrees.

- Theatre Minor
- Theatre Performance
- Theatre Production
- Theatre Production Minor

**Related Programs**

- Applied Theater for Health Certificate

The Bachelor of Arts in theatre, stage management is for students who want a liberal arts education with an emphasis in stage management for performing arts. In addition to a broad liberal arts background, the B.A. provides the student with creative and collaborative production experiences.

A minimum of 120 semester credits is required to complete the B.A. theatre degree, stage management emphasis. An outside elective is any course taken outside of the major. Unless an approved minor is included, 18 credits of electives must be chosen from 3000/4000-level courses outside of the School of the Theatre and Dance. Transfer students with A.A. degrees must complete additional courses in the basic distribution, which includes general education requirements. Students must earn minimum grades of C in each of these courses and they may not be taken S/U.

Students must take 10 credits of foreign language or show a minimum proficiency in a single foreign language by taking a placement test. If the proficiency is met, it does not reduce the number of credits required for the degree. Foreign language may be taken S/U or for a letter grade, and the minimum grade is C; no credit is given through CLEP examinations.

All students pursuing the B.A. degree must consult the department advisor and get approval before attempting the elective portion of this program.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500501&track=02) may be used for transfer students.
Semester 1
- Complete THE 2000 and TPP 2110 with minimum grades of C
- 2.0 UF GPA required

Semester 2
- Complete DAN 2100 and TPA 2202C with minimum grades of C
- 2.0 UF GPA required

Semester 3
- Complete TPA 2232C, TPP 3650, TPA 4601 with minimum grades of C
- 2.0 UF GPA required

Semester 4
- Complete TPA 3217, TPP 3311 with minimum grades of C
- 2.0 UF GPA required

Semester 5
- Complete THE 4110 with a minimum grade of C
- 2.0 UF GPA required

Semester 6
- Complete THE 4111
- 2.0 UF GPA required

Semester 7
- Maintain a C or above in theatre and/or dance elective courses
- 2.0 UF GPA required

Semester 8
- Complete THE 3234 or THE 3231
- Complete THE 4970
- 2.0 UF GPA required

---

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Students must complete at least 50 credits at the 3000/4000 levels.

An upper division elective is any 3000/4000 level course. At least 18 hours of upper division electives must be from courses outside of the SoTD. Lower division courses (including suggested 1000/2000 electives listed below) can be accepted if they are part of an approved minor.

Students must maintain a 2.0 GPA.

Students should enroll in TPA 4931 Advanced Stage Management Seminar the same semesters they are enrolled in TPA 4946 Production Practicum.

### Related Programs
- Applied Theater for Health Certificate
The Bachelor of Arts degree program in theatre prepares graduates to pursue additional academic degrees or enter professional theatre, teaching, or allied fields such as communication or public relations. If they choose to pursue advanced degrees, B.A. graduates traditionally enter MA, JD, or PhD programs. Regardless of degree or career expectations, students complete a core of foundation courses in theatre and dance in addition to general education courses required by the College of the Arts, the university, and the state of Florida.

Academic Learning Compact

The Bachelor of Arts in general theatre provides a liberal arts education with an emphasis in theatre that includes creative experiences in studio and performance. Students can combine the degree with a minor in another subject area to enhance their opportunities for graduate work or entry to professional theatre, teaching or allied fields such as communication and public relations.

Before Graduating Students Must

- Satisfactory faculty evaluation of a senior project.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Recall primary examples of the history, literature, structure, and theory of theatre.

Critical Thinking

2. Apply problem-solving strategies to artistic processes.

Communication

3. Communicate in advanced written and oral form on both analytical and artistic levels.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500501&track=02) may be used for transfer students.

Semester 1

• Complete 3 of 10 critical-tracking courses with minimum grade of C: THE 2000, TPA 2202C, TPA 2232C, TPP 2110, TPP 2282, TPP 3103, TPP 3113, TPP 3283, TPP 3650, TPP 4114
  • 2.0 UF GPA required

Semester 2

• Complete 2 additional critical-tracking courses with a minimum grade of C
  • 2.0 UF GPA required

Semester 3

• Complete 3 additional critical-tracking courses with a minimum grade of C
  • 2.0 UF GPA required

Semester 4

• Complete 2 additional critical-tracking courses with a minimum grade of C
  • 2.0 UF GPA required

Semester 5

• Complete 2 of 7 critical-tracking courses with minimum grades of C
  • 2.0 UF GPA required

Semester 6

• Complete 2 additional upper division critical-tracking courses with minimum grades of C
  • 2.0 UF GPA required

Semester 7

• Complete 2 additional upper division critical-tracking courses with minimum grades of C
  • 2.0 UF GPA required

Semester 8

• Complete all remaining upper division critical-tracking courses with minimum grades of C
  • 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

### Academic Learning Compact

The Bachelor of Fine Arts in acting develops the highest possible level of performance as an actor. Students develop advanced theatrical movement and vocal skills, including stage combat, voice, makeup, movement and period styles. They learn to perform through workshop and mainstage productions in formal and informal settings. Students also develop a repertory and techniques for auditions.

### Before Graduating Students Must

- Satisfactory presentation and faculty evaluation of a jury and a senior project.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Explain specific acting techniques.

**Critical Thinking**

2. Analyze and apply effective acting technique strategies.
3. Create strategic audition material packages for professional auditions.

**Communication**

4. Construct a personal process for character creation and actualization.
5. Explain complex facets of theatre performance and production.

1. General Education course must be requirement not fulfilled by the Quest 2 course.
2. 5 elective credits must be taken if enrolled in an approved DAA course in Semester One; 4 elective credits must be taken if enrolled in DAA 1000 in Semester One.

Academic Learning Compact

The School of Theatre and Dance and the School of Music prepare Bachelor of Fine Arts graduates as performers and pioneers of musical theatre. The BFA fuses acting, singing and dancing into a single mode of expression to compete in a challenging job market. A commitment to diversity and risk-taking provides an environment that challenges, inspires and stimulates individual creativity in musical theatre artists for the 21st century.

Before Graduating Students Must

- Satisfactory presentation and faculty evaluation of a jury and a senior project.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Analyze and interpret primary examples of musical theatre styles and history.
2. Prepare and create musical theatre performances.
3. Analyze and apply effective musical performance strategies.

Critical Thinking
4. Create strategic song portfolios representative of varied styles for professional auditions.

Communication
5. Construct a personal process of character creation and actualization through libretto and musical score analysis.

Related Programs

- Applied Theater for Health Certificate

The BFA Theatre Production program has 3 specialization areas: costume design, lighting design, and scene design.

Students enrolled in Theatre Production will complete coursework in all three areas. Selected independent studies, advanced electives, and production assignments in THE 4950 focus on the specialization.

Today’s theatre design and production depends heavily on complex electronic mechanical systems used in professional theatres, film, and television. Students must pass a portfolio review for admission to any production program. For more information consult the department handbook or the academic advisor.

All theatre majors should consult the academic advisor as early as possible.

**Academic Learning Compact**

The Bachelor of Fine Arts in theatre production meets the diverse aesthetic and technological demands of contemporary society. Today’s theatre design and production depend heavily on the complex electronic and mechanical systems used in professional theatres. This curriculum provides academic instructing and professional training in costume design and technology, scenic design and lighting design. The program provides a laboratory environment where students can apply the skills learned in classroom exercises and theories.
Before Graduating Students Must

- Present a senior project and review your portfolio with representatives from the appropriate faculty. You must pass the senior project and portfolio review with a satisfactory rating.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes (SLOs)

Content
1. Apply principles of two and three-dimensional design aesthetics to costume, lighting or scene design for live performance as a method of bringing text, choreographic work or public exposition to the stage.

Critical Thinking
2. Organize, develop and participate in the art, craft and process of moving the script onto the stage by organizing, developing and participating in a creative process resulting in a live performance that incorporates successful application of design and technological principles.

Communication
3. Use effective communication and collaboration skills throughout the creative process.

Critical Tracking
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500501&track=01) may be used for transfer students.

Semester 1
• Complete 4 of 12 critical-tracking courses with minimum grades of C: THE 2000, THE 4950, TPA 2074, TPA 2075, TPA 2120C, TPA 2202C, TPA 2232C, TPA 3217, TPA 3238, TPA 4239, TPP 2110, TPP 3650
  • 2.0 UF GPA required

Semester 2
• Complete 3 additional critical-tracking courses with minimum grades of C
  • 2.0 UF GPA required

Semester 3
• Complete 4 additional critical-tracking course with a minimum grade of C
  • 2.0 UF GPA required
Semester 4
• Complete any additional critical-tracking courses with minimum grades of C
• 2.0 UF GPA required

Semester 5
• Complete 2 of 8 upper division critical-tracking courses with minimum grades of C
• 2.0 UF GPA required

Semester 6
• Complete 1 additional upper division critical-tracking course with a minimum grade of C
• 2.0 UF GPA required

Semester 7
• Complete 3 additional upper division critical-tracking courses with a minimum grade of C
• 2.0 UF GPA required

Semester 8
• Complete all remaining upper division critical-tracking courses with minimum grades of C
• 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Electives 6

Total Credits 124

For the B.F.A. in production, students must complete at least 59 credits at the 3000/4000 levels.

Complete 15 credits of theatre courses by end of the junior year and maintain a 2.0 GPA.

TPA 3947 and TPA 4946 are recommended electives; each course is repeatable for up to 18 credits for scene, lighting and costume design majors.

---

**Academic Learning Compact**

The Bachelor of Fine Arts in theatre production meets the diverse aesthetic and technological demands of contemporary society. Today's theatre design and production depend heavily on the complex electronic and mechanical systems used in professional theatres. This curriculum provides academic instructing and professional training in costume design and technology, scenic design and lighting design. The program provides a laboratory environment where students can apply the skills learned in classroom exercises and theories.

**Before Graduating Students Must**

- Present a senior project and review your portfolio with representatives from the appropriate faculty. You must pass the senior project and portfolio review with a satisfactory rating.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Apply principles of two and three-dimensional design aesthetics to costume, lighting or scene design for live performance as a method of bringing text, choreographic work or public exposition to the stage.

**Critical Thinking**

2. Organize, develop and participate in the art, craft and process of moving the script onto the stage by organizing, developing and participating in a creative process resulting in a live performance that incorporates successful application of design and technological principles.

**Communication**

3. Use effective communication and collaboration skills throughout the creative process.

The BFA Theatre Production program has 3 specialization areas: costume design, lighting design, and scene design.

Related Programs

- Applied Theater for Health Certificate

Students enrolled in Theatre Production will complete coursework in all three areas. Selected independent studies, advanced electives, and production assignments in THE 4950 focus on the specialization.

Today's theatre design and production depends heavily on complex electronic mechanical systems used in professional theatres, film, and television. Students must pass a portfolio review for admission to any production program. For more information consult the department handbook or the academic advisor.

All theatre majors should consult the academic advisor as early as possible.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500501&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

Semester 3

- Complete 3 additional critical-tracking courses with a minimum grade of C
- 2.0 UF GPA required

Semester 4

- Complete 2 of 9 upper division critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

Semester 5

- Complete 2 additional upper division critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

Semester 6

- Complete 2 additional upper division critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

Semester 7

- Complete 3 additional upper division critical-tracking courses with minimum grades of C
- 2.0 UF GPA required

Semester 8

- Complete all remaining upper division critical-tracking courses with minimum grades of C
- 2.0 UF GPA required
### Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

Visual Arts in Medicine Certificate

The certificate focuses on the use of the visual arts to enhance individual and community health and healthcare environments. Students will learn theory and practice in the field of arts in health and will develop skills for applying the visual arts to health and well-being in healthcare and community settings.

About this Program

- **College**: Arts (p. 436)
- **Credits**: 14
- **Contact**: Email (fcarytsas@arts.ufl.edu)
- **More Info** ([http://www.arts.ufl.edu/CAHRE/](http://www.arts.ufl.edu/CAHRE/))

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Center Information

The University of Florida Center for the Arts in Medicine is committed to advancing research, education, and practice in arts in medicine, locally and globally. Through ongoing interdisciplinary research, training programs, and dynamic academic programs the Center advances its mission to further the field of arts in health.

Curriculum

- Applied Theater for Health Certificate
- Dance in Medicine Certificate
- Music in Medicine Certificate
- Visual Arts in Medicine Certificate

The Center for Arts in Medicine's certificate in visual arts in medicine is open to all students and accepts applications November 1 through April 30.

Application Procedures

Students interested in obtaining this certificate should apply to the program (http://www.admissions.ufl.edu/start.html) by their junior year. Students from any major may apply to the program, but must complete at least 50% of certificate requirements after they have been accepted into the program.

The application process includes:

- Completion of the online application (http://www.admissions.ufl.edu/apply/more/) (students should email (fcarytsas@arts.ufl.edu) when they submit the application)
- Submission of a one-page personal statement and two letters of recommendation to the undergraduate certificate advisor
- An interview with the advisor and/or Center for Arts in Medicine director

Requirements

To qualify for the certificate, students must attain a 3.0 average in all courses included in the certificate curriculum within six months of graduation.

Business, Heavener School of

The Heavener School of Business offers an educational experience that is nationally recognized for academic excellence. In addition to pursuing a degree, all business majors are encouraged to gain practical work experience through co-ops, internships and community service. The school also offers a variety of professional development and leadership opportunities.

Academic Advising

Heavener Hall 333
352.273.0165

Established

1926. In 2012, named for James W. 'Bill' Heavener, an alumnus whose generous gift benefits the school.
Accredited
The Warrington College of Business is accredited by the AACSB International. The college was the first in the nation to be accredited by the European Foundation for Management Development (EFMD).

Academic Advising and Career Coaching
The Heavener School of Business provides academic advising, career coaching, professional development opportunities and study abroad programs for undergraduate students.
More Info (https://warrington.ufl.edu/undergraduate-current-students/academic-advising/) Email (undergraduate.business@ufl.edu)

Programs
The Warrington College of Business has three schools:

- The Hough Graduate School of Business
- The Fisher School of Accounting
- The Heavener School of Business

The Fisher School of Accounting administers a Bachelor of Science in Accounting (BSAc). The Heavener School of Business administers a Bachelor of Science in Business Administration (on campus), an online Bachelor of Science in Business Administration (off campus) and a Bachelor of Arts in Business Administration. The Heavener School of Business also offers minors in business administration (for nonbusiness majors only), entrepreneurship, information systems and operations management, real estate and retailing.

The college also offers combination-degree and one-year master's programs in information systems and operations management (MSISOM), entrepreneurship (MAE), finance (MSF), international business (MAIB), management (MSM, for non-business majors only) and real estate (MSRE).

In addition to completing a degree, all business majors are encouraged to gain practical work experience through co-ops, internships and community service. The Heavener School of Business also offers students a variety of professional development and leadership opportunities, including study abroad, the Florida Leadership Academy, involvement in student organizations and research activities. For more details on all of these opportunities, consult an academic advisor in 267 Stuzin Hall.

The school encourages all first year students to take Warrington Welcome - First Year Florida (SLS 1102 for business majors), which serves as an introduction to the school and provides students with the opportunity to connect with faculty, advisors and fellow business students.

Scholarships
The school offers academic and need-based scholarships to business majors and study abroad scholarships to business majors and minors who study abroad via a Heavener School of Business study abroad program. Applications for summer and fall semester scholarships are due in March and applications for spring semester scholarships are due in October.
More Info (https://warrington.ufl.edu/undergraduate-current-students/scholarships/)

Student Organizations
The school has more than 20 business-related student organizations that provide direct access to employment recruiters, leadership opportunities, work experience and the means to develop valuable business-related skills. All business majors are encouraged to join at least one business student organization during their college career.
More Info (https://warrington.ufl.edu/undergraduate-current-students/student-organizations/)

Transfer Students

On Campus Programs
The Heavener School of Business makes admission decisions for upper-division transfer applicants who have earned 60 or more college credits. Only applicants with an A.A. or A.S. degree from a Florida public or state college will be considered for admission. Students seeking transfer from other universities or out-of-state schools may be considered for admission on a space-available basis. Transfer students who are admitted by another UF college/school are not eligible for admission to the Heavener School of Business.

Transfer applicants’ academic catalog year guarantees their graduation requirements, but not their admission requirements. Admission and preprofessional course and GPA requirements are subject to change without notice for students who are not enrolled in the Heavener School.

Transfer applicants are admitted in the fall, spring and summer C terms. Florida public and state college transfer students are considered for admission if they fulfill all Heavener School transfer admission requirements (https://warrington.ufl.edu/undergraduate-academics/admissions/transfer-admission/). Students who do not have a complete application on file by the application deadline (http://www.admissions.ufl.edu/ugrad/trappdates.html) will not be considered for admission and must reapply for a subsequent term. After being admitted, transfer students are required to attend UF’s transfer orientation program.

Current UF Students
UF students who matriculated as freshmen can change to a business major if they have a 3.0 UF GPA with no critical-tracking courses completed or a 2.0 UF GPA and a 3.0 critical-tracking GPA. Additionally, students cannot exceed the maximum 130 credits allowed for the degree (excluding AP/IB/AICE/dual enrollment credit). Business majors can change from one business major to another if they are on track and have not completed more than half of their major courses. Upper-division transfer students who are admitted to UF as non-business majors are not eligible for admission to the Heavener School of Business.

Online Business Program

Off Campus Program
The school makes admission decisions for the online business program, a degree program designed for individuals who live outside of Gainesville or have work and/or family commitments that make traditional campus attendance unfeasible. To be considered for admission, applicants must complete an A.A. or A.S. degree (or have earned 60 transferable credits) and fulfill all of the Heavener School online business program admission requirements. Students who are admitted to this program are not permitted to change to another business major unless they meet the transfer admission requirements for the school’s on campus degree programs.

Readmission
UF students who have not attended the university for two consecutive terms must apply for readmission and meet all university readmission requirements. To be eligible for readmission, students must meet Heavener School critical-tracking GPA and course requirements, have a 2.0 UF GPA and no deficits in the core or major/area of specialization GPA and be able to complete a business degree in 130 credits or less. Students who do not meet these requirements should contact an academic advisor.

More Info (p. 32)

Non-Degree Registration
An individual who wishes to enroll in the Heavener School as a non-degree-seeking student may do so for the summer term only. Non-degree applicants must meet the school’s non-degree registration requirements.

Academic Policies

Academic Advising and Career Coaching
Business majors are expected to register for the proper courses and to fulfill degree requirements in a timely manner. To avoid unnecessary delays in academic progress, students should consult the UF undergraduate catalog to familiarize themselves with university and school policies.

Heavener School academic advisors and career coaches are available to assist students with scheduling, registration, course selection, major changes, career decisions, professional development, study abroad and related matters. Students are encouraged to speak with an academic advisor each semester to ensure they are on track with their academic and career plans.

More Info (https://warrington.ufl.edu/undergraduate-current-students/academic-advising/)

Academic Probation
The school closely monitors the academic progress of its students, requiring them to maintain a 2.0 UF, core and major/area of specialization GPA. Students who do not meet these requirements are placed on academic probation for a maximum of two semesters. Students who do not meet the terms of their probation will be prohibited from continuing in a business major.
Dean's List
Business majors who complete 12-14 credits and earn a 3.7 GPA or higher (or 15 credits or more and a 3.5 GPA or higher) in the fall, spring, or summer semester are named to the dean's list. Courses taken S/U (i.e., pass/fail) do not count toward the required credits. Students who make the dean's list will receive a certificate of recognition for their achievement.

Dropping and Adding Courses
The school adheres to all university drop/add policies and deadlines. Students who wish to drop and add a course after the initial drop/add period in the first week of each semester will be fee liable for both courses unless they can provide documentation of administrative error. Students who have used their two lower or upper division drops can petition the school for additional drops if they can document an extenuating circumstance.

Dual Degrees
With approval from an academic advisor, business majors are permitted to earn two UF undergraduate degrees concurrently (one in the Heavener School and one in another college/school, except for Liberal Arts and Sciences - economics). Dual degree students should plan to complete both degrees in eight fall/spring semesters (or four fall/spring semesters for transfer students). Students pursuing dual degrees must complete coursework for both degrees simultaneously, adhere to the academic plan approved by their academic advisor and graduate in the designated semester. Journalism majors are eligible to pursue the Bachelor of Arts in Business Administration - general studies (BABA-GBA) degree only.

Flexible Learning
Business majors must have prior approval from an academic advisor to take flexible learning courses. No more than six credits of flexible learning coursework can be used to fulfill undergraduate degree requirements. Flexible learning courses cannot be taken to fulfill required core, major, area of specialization or restricted elective courses. Students on academic probation are not permitted to take flexible learning courses.

International Study
Business undergraduates are encouraged to study abroad for at least one semester. Students must be in good academic standing and have a 2.5 overall UF GPA (or a minimum 3.0 UF GPA if applying for a Warrington exchange program). Refer to the Heavener School study abroad program for details, scholarship opportunities, and advisor contact information. More Info (https://warrington.ufl.edu/undergraduate-international-study/outgoing/)

Normal Course Load
The school's degree programs are designed for full-time study. Students are encouraged to register for 15 credits and are expected to register for a minimum of 12 credits each fall and spring. Students must petition the Heavener School to take more than 18 credits in a single term.

S/U Grade Option
Business majors can use the S/U grade option for free elective courses only. All other required courses, including critical-tracking, general education, core business, major or area of specialization, and restricted elective courses, must be taken for a letter grade. Students can request to take only one S/U course per term using the S/U grade option, although they can take other pre-established S/U graded courses.

Transfer Coursework
Florida public or state college students who have taken equivalent business core or major courses at another institution will be required to retake the course at UF or petition the Heavener School to take a higher-level course in the same subject area. Additional credits will not be earned when repeating equivalent courses. Waiving a required course does not reduce the total credits required for graduation.

Transient Coursework
With approval from an academic advisor, business majors may take critical-tracking, general education and free elective courses at another accredited institution. Students should refer to the school's guidelines and instructions. More Info (https://warrington.ufl.edu/undergraduate-current-students/academic-advising/transient-students/)

UF students who are in Florida but away from Gainesville have the option to take UF core business courses online in the fall, spring and summer terms.

Degree Requirements
All Heavener School of Business students must complete the following requirements, including the 120 credits required for graduation as calculated by the school. All required courses, excluding free elective courses, must be taken for a letter grade (not S/U). Business majors are strongly encouraged to use their elective requirement to build skills, obtain a minor or certificate and/or develop proficiency in a foreign language. More Info (p. 1789)

General Education Requirement

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Composition ¹</td>
<td></td>
<td>6</td>
</tr>
<tr>
<td>Mathematical Sciences ¹</td>
<td></td>
<td>6</td>
</tr>
</tbody>
</table>
A minimum grade of C is required for all courses fulfilling the general education requirement and the writing requirement.

1 This total includes 3 required credits of "State Core" Gen Ed.
2 This total includes 3 required credits of "UF Quest" Gen Ed coursework.
3 May be combined with composition, humanities, social and behavioral science, or physical or biological science course.

### Critical-Tracking Requirement

To prepare for upper-division business courses, all business majors are required to complete a specified number of critical-tracking courses each semester during the first four fall/spring semesters, meet the required critical-tracking GPA for each term and maintain a 2.0 UF GPA (see table below). Finance majors must complete 2 critical tracking courses each term (1-4), and earn a minimum grade of B in ACG 2021 and ACG 2071.

#### Heavener School of Business Critical-Tracking Requirements

<table>
<thead>
<tr>

<td>3.0</td>
<td>2.0</td>
</tr>
<tr>
<td>4</td>
<td>2</td>
<td>3.0</td>
<td>2.0</td>
</tr>
</tbody>
</table>

Three of the business degree programs require an eighth critical-tracking course. The programs and required courses are identified in the table below. Please note that Finance majors have a total of 9 critical tracking courses, see the Finance major requirements page (https://catalog.ufl.edu/UGRD/colleges-schools/UGBUS/FIN_BSBA/#criticaltrackingtext) for details. Students must earn the required grade in the eighth tracking course to continue in the corresponding major (see table below). The grade earned in this course does not factor into the critical-tracking GPA.

### Core Business Requirement

All business majors are required to take the following seven core courses, which cover the major functional areas of business:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BUL 4310</td>

<td>4</td>
</tr>
</tbody>
</table>

### Major (BSBA) or Area of Specialization (BABA) Requirement

BSBA students take 16-20 credits of specific major courses. BABA-GBA students take 12 credits of 3000/4000-level area of specialization courses.

### Restricted Elective Requirement

All business majors must take 11-12 credits of restricted electives. Internship, independent study or assistantship credit will not count toward this requirement.
BABA-GBA students take 11-12 credits of restricted business electives from an approved list. BSBA students take 11-12 credits of any 3000/4000-level courses or 1000/4000-level foreign language courses.

GPA and Graduation Requirements

A minimum overall UF GPA of 2.0 is required in coursework attempted at the university. Business majors must earn:

- a 3.0 critical-tracking GPA;
- a 2.0 core GPA or minimum grades of C in all seven business core courses; and
- a 2.0 major or area of specialization GPA or minimum grades of C in all major or area of specialization courses.

Business majors must earn a minimum of 120 credits. Heavener School undergraduates who have completed all requirements for degree will be required to graduate. To receive a diploma and participate in commencement, students must complete the UF graduation checklist, which includes the submission of an online degree application by the established deadline.

Honors Requirements

Heavener School of Business honors designations are based on three grade point averages: business core GPA, major or area of specialization GPA and UF GPA. To graduate with honors (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonors), students must meet the following minimum standards at the time of graduation: cum laude (3.5 GPA), magna cum laude (3.7 GPA) and summa cum laude (3.9 GPA). Students who are pursuing a magna or summa cum laude designation are also required to complete an honors thesis. Each business major has its own specific thesis guidelines (https://warrington.ufl.edu/undergraduate-current-students/graduation/). Students who participate in the University Scholars Program can use their required research paper as an honors thesis.

Internship Requirement

Heavener School majors are required to enroll in GEB 4941 and complete an internship of at least 150 hours before the start of the senior year. The internship requirement can be waived for students who participate in a study abroad experience of at least six weeks. Students who waive this requirement via study abroad are strongly encouraged to complete at least one internship to improve their chances of obtaining full-time employment and/or admission to graduate programs or law school. Consult a school academic advisor/career coach for more information.

Professional Communication Requirement

Heavener School majors are required to take GEB 3213, GEB 3218, SPC 2608, ENC 3312 or a similar course with prior approval. A minimum grade of C is required.

Residence Requirements

Students are not allowed to enroll simultaneously at UF and another institution. All business core, major, area of specialization and restricted elective courses must be taken in residence at the University of Florida or as part of an approved study abroad program. The last 30 credits of the degree program must be completed in residence at the University of Florida; however, this requirement will be waived for preapproved study abroad coursework. Otherwise, the residence requirement will be waived only in special cases and must be approved in advance by the school’s petitions committee.

Undergraduate Degrees

The Heavener School of Business offers Bachelor of Science in Business Administration degrees in finance, general business (for off campus students), information systems, management and marketing and a Bachelor of Arts in Business Administration degree in general studies with an outside area of specialization. All undergraduate degrees require 120 credits and all include universal tracking, general education, business core, major or area of specialization, and restricted elective courses. The degree programs are designed to provide students with a strong foundation in the functional areas of business.

The school encourages all freshmen to take Warrington Welcome: First Year Florida (SLS 1102, for business majors), which serves as an introduction to the school and provides students with the opportunity to connect with faculty, advisors and fellow business students.

Minors and Certificates

Minors in business administration (for nonbusiness majors only), entrepreneurship, information systems, and real estate and a certificate in retailing leadership are available to undergraduate students.

Combination Degrees and One-Year Master's Programs

The Warrington College of Business offers the following combination-degree and one-year master's programs:

- Master of Arts in Business Administration: major in International Business (MAIB),
- Master of Science in Business Administration: concentration in Information Systems and Operations Management (MSISOM),
- Master of Arts in Business Administration: concentration in Entrepreneurship (MAE),
- Master of Science in Finance (MSF), and
- for non-business majors, the Master of Science in Business Administration: major in Management (MSM).

Undergraduates can seek permission to take graduate courses from the graduate coordinator of the appropriate department.

Career and Leadership Programs

Business majors are encouraged to gain practical work experience through co-ops, internships and community service. The school also offers career and leadership programs, including professional development courses, the Florida Leadership Academy, involvement in national and international business case study competitions, student organizations and research options.

International Programs and Study Abroad

To broaden their curriculum, business majors are advised to study abroad, learn a foreign language, pursue the school's Bachelor of Arts in Business Administration: General Studies (BABA-GBA) degree with an area of specialization in international studies, complete an international or international-related minor or take international courses, and participate in international or multicultural student organizations.

Business Administration Minor

The Business Administration minor, which can be completed online, provides non-business UF undergraduates with an overview of the major functional elements of business. This minor is not open to business majors.

About this Program

- **College:** Heavener School of Business (p. 593)
- **Credits:** 24 | Completed with an overall 2.0 GPA in the minor and a cumulative 2.0 UF GPA

School Information

One of the nation's top-ranked undergraduate public business schools, the Heavener School of Business offers bachelor's degrees in Finance, General Business, Management, Information Systems & Operations Management, and Marketing to more than 4,500 students.

All courses for the minor must be taken for letter grade. All attempts at courses for the minor will be averaged into the minor GPA. All 3000/4000-level courses required for the minor must be taken at UF or via a study abroad program preapproved by the Heavener School of Business. Flexible learning courses will not count toward the minor.

Students who completed BUL 4310, FIN 3403, MAN 3025 or MAR 3023 or its equivalent at another institution can petition the school to take a higher-level course in that discipline to satisfy requirements for the minor.

**Business Administration | General Business | BSBA UF Online**

The online Bachelor of Science in Business Administration-General Business (BSBA-IBA ONL) degree program, which provides a broad overview of the functional areas of business, is designed for students who live outside the Gainesville community or have work and/or family commitments that make traditional campus attendance impractical. Students take foundational courses in economics, mathematics, computing skills, and accounting; core courses that relate to the basic functions of business, such as finance, management, marketing, and operations management; and professional development courses such as business communication and career management.

The online BSBA program provides a broad academic background in a variety of business disciplines and prepares students for a wide array of business careers and for graduate studies in business.

Requirements for the Major
To graduate with this major, students must complete all university, college and major requirements.

BSBA online students must meet general education requirements and maintain a 2.0 core, major and UF GPA. Students must read the individual course descriptions in this catalog to determine the prerequisites for their required courses. Along with the critical-tracking, general education and writing requirements outlined below, majors take 120 credits.

Critical Tracking
Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

To remain on track for the major, students must meet the critical-tracking criteria listed below. The critical-tracking GPA is calculated based on all attempts of the critical-tracking courses or their equivalents. After a student receives a minimum grade of C in a critical-tracking course or its equivalent, no higher grade in that course or its equivalent will be used in the calculation of the critical-tracking GPA.
Semester 1
• Complete 1 of the following critical-tracking courses: ACG 2021, ACG 2071, CGS 2531 or ISM 3013, ECO 2013, ECO 2023, MAC 2233, STA 2023
  • 2.25 GPA on all attempts of critical-tracking courses
  • 2.0 UF GPA required

Semester 2
• Complete 2 additional critical-tracking courses for a total of 3 critical-tracking courses
  • 2.25 GPA on all attempts of critical-tracking courses
  • 2.0 UF GPA required

Semester 3
• Complete 2 additional critical-tracking courses (including ACG 2021) for a total of 5 critical-tracking courses
  • 2.5 GPA on all attempts of critical-tracking courses
  • 2.0 UF GPA required

Semester 4
• Complete all 7 critical-tracking courses
  • 2.25 GPA on all attempts of critical-tracking courses
  • 2.0 UF GPA required

Semester 5
• Meet all term 1-4 critical-tracking requirements
  • 2.0 UF GPA required

Semester 6
• 2.0 Core GPA required
• 2.0 Major GPA required
• 2.0 UF GPA required

Semester 7
• 2.0 Core GPA required
• 2.0 Major GPA required
• 2.0 UF GPA required

Semester 8
• 2.0 Core GPA required
• 2.0 Major GPA required
• 2.0 UF GPA required

Model Semester Plan
This is a sample plan. Students should consult with an academic advisor/career coach to create an individualized academic plan. Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=520201&track=01) may be used for transfer students.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

**Academic Learning Compact**

A bachelor's degree in business administration enables students to achieve foundation knowledge in economics, accounting, finance, management, marketing, business law, statistics, operations management, human resource management, information technology and entrepreneurship. Special emphasis is placed on understanding the links between various business disciplines and the development of sound business plans. Students will be able to effectively analyze a business entity’s strengths and weaknesses as well as investigate the opportunities and threats present in the business environment.
The major in general business places a special emphasis on understanding the links between various business disciplines and the development of sound business plans. Students will be able to effectively analyze a business entity's strengths and weaknesses as well as investigate the opportunities and threats present in the business environment.

Before Graduating Students Must
- Take the ETS Major Field Test in Business as part of MAN 4504. The ETS exam covers nine content areas in business. The score describes your performance relative to other seniors in business and accounting at 600+ colleges and universities (e.g., top 15% in the nation compared to your peers).
- Complete requirements for the baccalaureate degree, as determined by the faculty.

Students in the Major will Learn to
Student Learning Outcomes (SLOs)

Content
1. Demonstrate knowledge and understanding of elements of economics, financial accounting, marketing, operations management, organizational behavior, business law, information technology, business statistics and social responsibility.
2. Demonstrate proficiency in the use of business-related software applications.
3. Define the ethical responsibilities of business organizations and identify relevant ethical issues.
4. Understand how the business environment, including culture, differs across countries.
5. Possess awareness of cultural differences and how these differences affect business decisions.
6. Identify characteristics and roles of groups and teams.
7. Identify characteristics and roles of managers and leaders.
8. Possess knowledge in an area of specialization outside the disciplines of business and accounting.

Critical Thinking
9. Specify and implement a framework for identifying a business problem and develop alternative solutions and a set of evaluation criteria.
10. Assess the outcomes of a course of action and make appropriate adjustments.

Communication
11. Write business documents clearly, concisely and analytically.
12. Speak in groups and in public clearly, concisely and analytically, with appropriate use of visual aids.

- Business Administration | General Studies | BABA UF Online
- Combination Degrees
- Wealth Management Minor

The Bachelor of Arts in Business Administration-General Studies (BABA-GBA) degree program allows students to couple a business major with an outside interest. BABA-GBA students can choose from more than 70 areas of specialization that are comprised of courses taught by other UF colleges.
and departments. The BABA-GBA degree prepares students for a wide variety of business-related careers, for graduate studies in business and for graduate programs related to the area of specialization.

BABA-GBA majors are encouraged to gain practical work experience through internships, student organizations and community service. In addition, the Heavener School of Business offers students a wide variety of academic and career and leadership programs, including study abroad, the Florida Leadership Academy, involvement in student organizations and research activities. Students should consult an academic advisor/career coach for specific information.

Requirements for the Major

Students who are pursuing the BA – International Studies area of specialization must work with a study abroad advisor in the Heavener School of Business to strategically plan business electives from an approved list.

### Core Courses

<td>4</td>
</tr>
</tbody>
</table>

### Area of Specialization Courses

Complete 12 credits at the 3000/4000 level in a chosen discipline outside the Heavener School of Business

### Business Electives

Complete 11-12 credits from a list of approved business electives. Internship, independent study or assistantship credit will not count toward this requirement. Students who are pursuing the BA | International Studies area of specialization must work with a study abroad advisor in the Heavener School of Business to strategically plan business electives from an approved list.

### Professional Communication Course

Select one:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEB 3213</td>
<td>Professional Writing in Business</td>
<td>3</td>
</tr>
<tr>
<td>GEB 3218</td>
<td>Professional Speaking in Business</td>
<td>3</td>
</tr>
<tr>
<td>SPC 2608</td>
<td>Introduction to Public Speaking</td>
<td>3</td>
</tr>
<tr>
<td>ENC 3312</td>
<td>Advanced Argumentative Writing</td>
<td>3</td>
</tr>
</tbody>
</table>

or a similar course with prior approval (requires a minimum grade of C)

### Internship Course

GEB 4941 in conjunction with an internship of at least 150 credits before the start of the senior year. The internship requirement can be waived for students who participate in a study abroad experience of at least six weeks. Students who waive the requirement via study abroad are strongly encouraged to complete at least one internship to improve their chances of obtaining full-time employment and/or admission to graduate programs or law school. Students should consult an academic advisor/career coach for more information.

### Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=520201&track=01) may be used for transfer students.

To remain on track for the BABA-GBA major, students must meet the critical-tracking criteria listed below. The critical-tracking GPA is calculated based on all attempts of the critical-tracking courses or their equivalents. After a student receives a minimum grade of C in a critical-tracking course or its equivalent, no subsequent grade in that course or its equivalent will be used in the calculation of the critical-tracking GPA.
Semester 1
• Complete 1 critical-tracking course from ACG 2021, ACG 2071, CGS 2531 or ISM 3013, ECO 2013, ECO 2023, MAC 2233, STA 2023
• 2.5 GPA on all attempts of critical-tracking courses
• 2.0 UF GPA required

Semester 2
• Complete 2 additional critical-tracking courses for a total of 3 critical-tracking courses
• 2.75 GPA on all attempts of critical-tracking courses
• 2.0 UF GPA required

Semester 3
• Complete 2 additional critical-tracking courses (including ACG 2021) for a total of 5 critical-tracking courses
• 3.0 GPA on all attempts of critical-tracking courses
• 2.0 UF GPA required

Semester 4
• Complete all 7 critical-tracking courses
• 3.0 GPA on all attempts of critical-tracking courses
• 2.0 UF GPA required

Semester 5
• Meet all semester 1-4 critical-tracking requirements
• 2.0 UF GPA required

Semester 6
• 2.0 Core GPA required
• 2.0 Major GPA required
• 2.0 UF GPA required

Semester 7
• 2.0 Core GPA required
• 2.0 Major GPA required
• 2.0 UF GPA required

Semester 8
• 2.0 Core GPA required
• 2.0 Major GPA required
• 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

Note: Students who are pursuing the BA – International Studies area of specialization must work with a study abroad advisor in the Heavener School of Business to strategically plan business electives from an approved list.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

### Total Credits

| Credits | 120 |

---

1. MAC 1140, if needed.
A bachelor’s degree in business administration enables students to achieve foundation knowledge in economics, accounting, finance, management, marketing, business law, statistics, operations management, human resource management, information technology and entrepreneurship. Special emphasis is placed on understanding the links between various business disciplines and the development of sound business plans. Students will be able to effectively analyze a business entity’s strengths and weaknesses as well as investigate the opportunities and threats present in the business environment.

The Bachelor of Arts in Business Administration combines core business courses with area of specialization courses offered by departments outside the college of business.

Before Graduating Students Must

- Take the ETS Major Field Test in Business as part of MAN 4504. The ETS exam covers nine content areas in business. The score describes your performance relative to other seniors in business and accounting at 600+ colleges and universities (e.g., top 15% in the nation compared to your peers).
- Complete requirements for the baccalaureate degree, as determined by the faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Demonstrate knowledge and understanding of elements of economics, financial accounting, marketing, operations management, organizational behavior, business law, information technology, business statistics and social responsibility.
2. Demonstrate proficiency in the use of business-related software applications.
3. Define the ethical responsibilities of business organizations and identify relevant ethical issues.
4. Understand how the business environment, including culture, differs across countries.
5. Possess awareness of cultural differences and how these differences affect business decisions.
6. Identify characteristics and roles of groups and teams.
7. Identify characteristics and roles of managers and leaders.
8. Possess knowledge in an area of specialization outside the disciplines of business and accounting.

Critical Thinking
9. Specify and implement a framework for identifying a business problem and develop alternative solutions and a set of evaluation criteria.
10. Assess the outcomes of a course of action and make appropriate adjustments.

Communication
11. Write business documents clearly, concisely and analytically.
12. Speak in groups and in public clearly, concisely and analytically, with appropriate use of visual aids.

Area of Specialization

3000/4000-level courses in a chosen discipline 12

Business Electives

Approved business electives (Internship, independent study or assistantship credit will not count toward this requirement) 11-12

Professional Communication

Select one: 3-4

GEB 3219 Writing and Speaking in Business
SPC 2608 Introduction to Public Speaking

Similar course with prior approval (requires a minimum grade of C)

Internship

GEB 4941 Internship in Business Administration (in conjunction with an internship of at least 150 hours) 1 1

Total Credits 59-61

1 The internship requirement can be waived for students who participate in a study abroad experience of at least six weeks. Students who waive the requirement via study abroad are strongly encouraged to complete at least one internship to improve their chances of obtaining full-time employment and/or admission to graduate programs or law school. Students should consult an academic advisor/career coach for more information.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=520201&track=01) may be used for transfer students.

To remain on track for the BABA-GBAONL major, students must meet the critical-tracking criteria listed below. The critical-tracking GPA is calculated based on all attempts of the critical-tracking courses or their equivalents. After a student receives a minimum grade of C in a critical-tracking course or its equivalent, no subsequent grade in that course or its equivalent will be used in the calculation of the critical-tracking GPA.
Semester 1
• Complete 1 critical-tracking course from ACG 2021, ACG 2071, ISM 3013, ECO 2013, ECO 2023, MAC 2233, STA 2023
• 2.5 GPA on all attempts of critical-tracking courses
• 2.0 UF GPA required

Semester 2
• Complete 2 additional critical-tracking courses for a total of 3 critical-tracking courses
• 2.75 GPA on all attempts of critical-tracking courses
• 2.0 UF GPA required

Semester 3
• Complete 2 additional critical-tracking courses (including ACG 2021) for a total of 5 critical-tracking courses
• 3.0 GPA on all attempts of critical-tracking courses
• 2.0 UF GPA required

Semester 4
• Complete all 7 critical-tracking courses
• 3.0 GPA on all attempts of critical-tracking courses
• 2.0 UF GPA required

Semester 5
• Meet all semester 1-4 critical-tracking requirements
• 2.0 UF GPA required

Semester 6
• 2.0 Core GPA required
• 2.0 Major GPA required
• 2.0 UF GPA required

Semester 7
• 2.0 Core GPA required
• 2.0 Major GPA required
• 2.0 UF GPA required

Semester 8
• 2.0 Core GPA required
• 2.0 Major GPA required
• 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Students should consult with an academic advisor/career coach to create an individualized academic plan.

---

**Academic Learning Compact**

A bachelor's degree in business administration enables students to achieve foundational knowledge in economics, accounting, finance, management, marketing, business law, statistics, operations management, human resource management, information technology and entrepreneurship. Special emphasis is placed on understanding the links between various business disciplines and the development of sound business plans. Students will be able to effectively analyze a business entity’s strengths and weaknesses as well as investigate the opportunities and threats present in the business environment.
The Bachelor of Arts in Business Administration combines core business courses with area of specialization courses offered by departments outside the college of business.

**Before Graduating Students Must**

- Take the ETS Major Field Test in Business as part of MAN 4504. The ETS exam covers nine content areas in business. The score describes your performance relative to other seniors in business and accounting at 600+ colleges and universities (e.g., top 15% in the nation compared to your peers).
- Complete requirements for the baccalaureate degree, as determined by the faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Demonstrate knowledge and understanding of elements of economics, financial accounting, marketing, operations management, organizational behavior, business law, information technology, business statistics and social responsibility.
2. Demonstrate proficiency in the use of business-related software applications.
3. Define the ethical responsibilities of business organizations and identify relevant ethical issues.
4. Understand how the business environment, including culture, differs across countries.
5. Possess awareness of cultural differences and how these differences affect business decisions.
6. Identify characteristics and roles of groups and teams.
7. Identify characteristics and roles of managers and leaders.
8. Possess knowledge in an area of specialization outside the disciplines of business and accounting.

**Critical Thinking**
9. Specify and implement a framework for identifying a business problem and develop alternative solutions and a set of evaluation criteria.
10. Assess the outcomes of a course of action and make appropriate adjustments.

**Communication**
11. Write business documents clearly, concisely and analytically.
12. Speak in groups and in public clearly, concisely and analytically, with appropriate use of visual aids.

Curriculum

- Combination Degrees
- Entrepreneurship Minor
- Management

All courses for the minor must be taken for letter grade. All attempts at courses for the minor will be averaged into the minor GPA. All 3000/4000-level courses required for the minor must be taken at UF or via a study abroad program preapproved by the Heavener School of Business. UF flexible learning courses will not count toward the minor.

To declare the minor, students must first complete ACG 2021 with a minimum grade of C and ENT 3003 with a minimum grade of B.

Finance

The Bachelor of Science in Business Administration-Finance (BSBA–FIN) degree program provides a broad overview of the functional areas of business with an emphasis in finance. Students take foundation courses in economics, mathematics, computing skills, and accounting; core courses that relate to the basic functions of business, such as finance, management, marketing, and operations management; and major courses that develop students’ financial decision-making skills.

About this Program

- **College:** Heavener School of Business (p. 593)
- **Degree:** Bachelor of Science in Business Administration
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Finance, Insurance and Real Estate Department offers degree programs at the doctoral, masters, and undergraduate level. Besides standard finance offerings, specialized academic programs in entrepreneurship, real estate, and value investing are available. The department’s faculty boasts top experts on topic matter as diverse as banking, initial public offerings, investments, international finance, mergers, and acquisitions and real estate.

Map (http://campusmap.ufl.edu/#/index/0029)

Curriculum

- Combination Degrees
- Entrepreneurship Minor
- Finance
- Real Estate Minor

The Bachelor of Science in Business Administration-Finance (BSBA–FIN) degree program focuses on the acquisition and management of funds by businesses, financial markets, security analysis and valuation, management of financial institutions, interest rates, investments and securities, financial risk management, security trading, government policy and financial markets, financial forecasting, capital structure, venture capital and security issuance. The finance curriculum prepares students for careers in corporate financial management and the financial services industry. Finance graduates can also pursue graduate studies in business, law and public administration.

BSBA-FIN majors are encouraged to gain practical work experience through internships, student organizations and community service. In addition, the Heavener School of Business offers students a wide variety of academic and career and leadership programs, including study abroad, the Florida Leadership Academy, involvement in student organizations and research activities. Students should consult an academic advisor/career coach for specific information.

Requirements for the Major

BSBA-FIN majors must maintain a 2.0 core, major and UF GPA. Students must read the individual course descriptions in this catalog to determine the prerequisites for their required courses. In addition to the critical-tracking and general education courses outlined below, BSBA-FIN majors must take 120 credits, including:
<table>

### Restricted Elective Courses

Any 3000/4000-level courses or 1000/4000-level foreign language courses \(^1\)  
12

### Professional Communication Course

Select one (requires a minimum grade of C):  
- GEB 3213 Professional Writing in Business  
- GEB 3218 Professional Speaking in Business  
- SPC 2608 Introduction to Public Speaking  
- ENC 3312 Advanced Argumentative Writing  
- A similar course with prior approval

### Internship Course

- GEB 4941 Internship in Business Administration \(^2\)  
  1

Total Credits  
65

---

\(^1\) One electronic platform course (ENT 3003, GEB 3035, ISM 3004 or REE 3043) can be taken to fulfill the restricted elective requirement. Internship, independent study or assistantship credit will not count toward this requirement.

\(^2\) GEB 4941 (one credit) in conjunction with an internship of at least 150 credits before the start of the senior year. The internship requirement can be waived for students who participate in a study abroad experience of at least six weeks. Students who waive the requirement via study abroad are strongly encouraged to complete at least one internship to improve their chances of obtaining full-time employment and/or admission to graduate programs or law school. Students should consult an academic advisor/career coach for more information.

---

### Critical Tracking

- Complete 2 critical-tracking courses from ACG 2021, ACG 2071, CGS 2531 or ISM 3013, ECO 2013, ECO 2023, MAC 2233, MAC 2234, STA 2023
- 2.5 GPA on all attempts of critical-tracking courses, excluding FIN 3403
- 2.0 UF GPA required

---

### Semester 1

- Complete 2 additional critical-tracking courses for a total of 4 critical-tracking courses
- 2.75 GPA on all attempts of critical-tracking courses, excluding FIN 3403
- 2.0 UF GPA required

---

### Semester 2

- Complete 2 additional critical-tracking courses for a total of 4 critical-tracking courses
- 2.75 GPA on all attempts of critical-tracking courses, excluding FIN 3403
- 2.0 UF GPA required
Semester 3
• Complete 2 additional critical-tracking courses (including ACG 2021) for a total of 6 critical-tracking courses
• Complete ACG 2021 with a minimum grade of B
• 3.0 GPA on all attempts of critical-tracking courses, excluding FIN 3403
• 2.0 UF GPA required

Semester 4
• Complete 8 of the 9 critical-tracking courses, excluding FIN 3403
• Complete ACG 2071 with a minimum grade of B
• 3.0 GPA on all attempts of critical-tracking courses, excluding FIN 3403
• 2.0 UF GPA required

Semester 5
• Complete FIN 3403 with a minimum grade of B
• Meet all semester 1-4 critical-tracking requirements
• 2.0 UF GPA required

Semester 6
• 2.0 Core GPA required
• 2.0 Major GPA required
• 2.0 UF GPA required

Semester 7
• 2.0 Core GPA required
• 2.0 Major GPA required
• 2.0 UF GPA required

Semester 8
• 2.0 Core GPA required
• 2.0 Major GPA required
• 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

### Academic Learning Compact

A bachelor’s degree in business administration enables students to achieve foundation knowledge in economics, accounting, finance, management, marketing, business law, statistics, operations management, human resource management, information technology and entrepreneurship. Special emphasis is placed on understanding the links between various business disciplines and the development of sound business plans. Students will be able to effectively analyze a business entity’s strengths and weaknesses as well as investigate the opportunities and threats present in the business environment.

The finance major covers the basics of financial statements, working capital management, capital budgeting decisions, the types of securities available to investors, and the risk/return attributes of those securities as well as factors affecting pricing.

### Before Graduating Students Must

- Take the ETS Major Field Test in Business as part of MAN 4504. The ETS exam covers nine content areas in business. The score describes your performance relative to other seniors in business and accounting at 600+ colleges and universities (e.g., top 15% in the nation compared to your peers).
- Complete requirements for the baccalaureate degree, as determined by the faculty.
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Demonstrate knowledge and understanding of elements of economics, financial accounting, marketing, operations management, organizational behavior, business law, information technology, business statistics and social responsibility.
2. Demonstrate proficiency in the use of business-related software applications.
3. Define the ethical responsibilities of business organizations and identify relevant ethical issues.
4. Understand how the business environment, including culture, differs across countries.
5. Possess awareness of cultural differences and how these differences affect business decisions.
6. Identify characteristics and roles of groups and teams.
7. Identify characteristics and roles of managers and leaders.
8. Possess knowledge in an area of specialization outside the disciplines of business and accounting.

Critical Thinking
9. Specify and implement a framework for identifying a business problem and develop alternative solutions and a set of evaluation criteria.
10. Assess the outcomes of a course of action and make appropriate adjustments.

Communication
11. Write business documents clearly, concisely and analytically.
12. Speak in groups and in public clearly, concisely and analytically, with appropriate use of visual aids.

Major-specific courses
Information Systems

The Bachelor of Science in Business Administration–Information Systems (BSBA-IST) degree program provides a broad overview of the functional areas of business with an emphasis in information systems. Students take foundation courses in economics, mathematics, computing skills, and accounting; core courses that relate to the basic functions of business, such as finance, management, marketing, and operations management; and major courses that focus on the computing, quantitative, and application skills that are vital to a business problem-solving setting.

About this Program

- **College**: Heavener School of Business (p. 593)
- **Degree**: Bachelor of Science in Business Administration
- **Credits for Degree**: 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The primary mission of the Information Systems and Operations Management Department is a commitment to scholarly research, teaching and service to advance the state of knowledge in information systems and supply chain management and to train future leaders for professional and academic careers.

Curriculum

- Combination Degrees
- Information Systems
- Information Systems Minor

The Bachelor of Science in Business Administration–Information Systems (BSBA-IST) degree program is designed for students who are interested in information systems, information technology and supply chain management. The information systems curriculum prepares students for positions as decision support specialists, information systems specialists and systems analysts. Graduates of this program can pursue graduate studies in information systems, operations management, supply chain management or business.

BSBA-IST majors are encouraged to gain practical work experience through internships, student organizations and community service. In addition, the Heavener School of Business offers students a wide variety of academic and career and leadership programs, including study abroad, the Florida Leadership Academy, involvement in student organizations (http://warrington.ufl.edu/undergraduate/myheavener/organizations.asp) and research activities. Students should consult an academic advisor/career coach for specific information.

Requirements for the Major

BSBA-IST majors must maintain a 2.0 core, major and UF GPA. Students must read the individual course descriptions in this catalog to determine the prerequisites for their required courses. In addition to the critical-tracking and general education courses outlined below, BSBA-IST majors must take 120 credits, including:

**Restricted Elective Courses**

Any 3000/4000-level courses or 1000/4000-level foreign language courses.  
11-12

**Professional Communication Course**

Select one:

- GEB 3213  Professional Writing in Business  3
- GEB 3218  Professional Speaking in Business
- SPC 2608  Introduction to Public Speaking
- ENC 3312  Advanced Argumentative Writing

Or a similar course with prior approval (requires a minimum grade of C)

**Internship Course**

GEB 4941  Internship in Business Administration (in conjunction with an internship of at least 150 credits before the start of the senior year)  2

**Total Credits**  63-64

---

1 One electronic platform course (ENT 3003, GEB 3035, ISM 3004 or RRE 3043) can be taken to fulfill the restricted elective requirement. Internship, independent study or assistantship credit will not count toward this requirement.

2 The internship requirement can be waived for students who participate in a study abroad experience of at least six weeks. Students who waive the requirement via study abroad are strongly encouraged to complete at least one internship to improve their chances of obtaining full-time employment and/or admission to graduate programs or law school. Students should consult an academic advisor/career coach for more information.

---

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=521301&track=01) may be used for transfer students.

To remain on track for the BSBA-IST major, students must meet the critical-tracking criteria listed below. The critical-tracking GPA is calculated based on all attempts of the critical-tracking courses or their equivalents. After a student receives a minimum grade of C in a critical-tracking course or its equivalent, no subsequent grade in that course or its equivalent will be used in the calculation of the critical-tracking GPA.

**Semester 1**

- Complete 1 critical-tracking course from ACG 2021, ACG 2071, CGS 2531 or ISM 3013, ECO 2013, ECO 2023, MAC 2233, STA 2023
- 2.5 GPA on all attempts of critical-tracking courses
- 2.0 UF GPA required

**Semester 2**

- Complete 2 additional critical-tracking courses for a total of 3 critical-tracking courses
- 2.75 GPA on all attempts of critical-tracking courses
- 2.0 UF GPA required
Semester 3
• Complete 2 additional critical-tracking courses (including ACG 2021) for a total of 5 critical-tracking courses
• 3.0 GPA on all attempts of critical-tracking courses
• 2.0 UF GPA required

Semester 4
• Complete all 7 critical-tracking courses
• 3.0 GPA on all attempts of critical-tracking courses
• 2.0 UF GPA required

Semester 5
• Meet all semester 1-4 critical-tracking requirements
• 2.0 UF GPA required

Semester 6
• 2.0 Core GPA required
• 2.0 Major GPA required
• 2.0 UF GPA required

Semester 7
• 2.0 Core GPA required
• 2.0 Major GPA required
• 2.0 UF GPA required

Semester 8
• 2.0 Core GPA required
• 2.0 Major GPA required
• 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Curriculum

- Combination Degrees
- Information Systems
- Information Systems Minor

This minor is only open to undergraduate students majoring in business or accounting.

All courses for the minor must be taken for letter grade. All attempts at courses for the minor will be averaged into the minor GPA. All 3000/4000-level courses required for the minor must be taken at UF or via a study abroad program that is pre-approved by the Heavener School of Business. Flexible learning courses will not count toward the minor.

Management

The Bachelor of Science in Business Administration-Management (BSBA-MGT) degree program provides a broad overview of the functional areas of business with an emphasis in management. Students take foundation courses in economics, mathematics, computing skills, and accounting; core courses that relate to the basic functions of business, such as finance, management, marketing, and operations management; and major courses that focus on the behavioral and organizational problems of management.

About this Program

- **College:** Heavener School of Business (p. 593)
- **Degree:** Bachelor of Science in Business Administration
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Management includes faculty members who research and teach in various areas of Management (Organizational Behavior, Human Resource Management, Strategic Management, and Business Law). This vibrant faculty with strong research agendas contribute to important and innovative programs.

Curriculum

- Combination Degrees
- Entrepreneurship Minor
- Management

The BSBA-MGT curriculum focuses on the structure and behavior of organizations, the management of human resources, and the creation, use and evaluation of strategies that help organizations achieve competitive advantages. The BSBA-MGT degree prepares students for a broad range of occupations in virtually every sector of the economy. Graduates can also pursue graduate studies in business, hospital administration, urban and regional planning and the social sciences.

BSBA-MGT majors are encouraged to gain practical work experience through internships, student organizations and community service. In addition, the Heavener School of Business offers students a wide variety of academic and career and leadership programs, including study abroad, the Florida Leadership Academy, involvement in student organizations and research activities. Students should consult an academic advisor/career coach for specific information.

Requirements for the Major

BSBA-MGT majors must maintain a 2.0 core, major and UF GPA. Students must read the individual course descriptions in this catalog to determine the prerequisites for their required courses. In addition to the critical-tracking and general education courses outlined below, BSBA-MGT majors must take 120 credits, including:

---

### Restricted Elective Courses

Any 3000/4000-level courses or 1000/4000-level foreign language courses

One electronic platform course can be taken to fulfill the restricted elective requirement:

- ENT 3003 Principles of Entrepreneurship
- GEB 3035 Effective Career Management in Business
- ISM 3004 Computing in the Business Environment
- REE 3043 Real Estate Analysis

### Professional Communication Course

Select one:

1. GEB 3213 Professional Writing in Business
2. GEB 3218 Professional Speaking in Business
3. SPC 2608 Introduction to Public Speaking
4. ENC 3312 Advanced Argumentative Writing

A similar course with prior approval

### Internship Course

GEB 4941 Internship in Business Administration

### Total Credits

63-64

---

1. Internship, independent study or assistantship credit will not count toward this requirement.
2. Requires a minimum grade of C.
3. GEB 4941 in conjunction with an internship of at least 150 credits before the start of the senior year. The internship requirement can be waived for students who participate in a study abroad experience of at least six weeks. Students who waive the requirement via study abroad are strongly encouraged to complete at least one internship to improve their chances of obtaining full-time employment and/or admission to graduate programs or law school. Students should consult an academic advisor/career coach for more information.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=520201&track=01) may be used for transfer students.

To remain on track for the BSBA-MGT major, students must meet the critical-tracking criteria listed below. The critical-tracking GPA is calculated based on all attempts of the critical-tracking courses or their equivalents. After a student receives a minimum grade of C in a critical-tracking course or its equivalent, no subsequent grade in that course or its equivalent will be used in the calculation of the critical-tracking GPA.

**Semester 1**

- Complete 1 critical-tracking course from ACG 2021, ACG 2071, CGS 2531 or ISM 3013, ECO 2013, ECO 2023, MAC 2233, STA 2023
- 2.50 GPA on all attempts of critical-tracking courses, excluding MAN 3025
- 2.0 UF GPA required
Semester 2
- Complete 2 additional critical-tracking courses for a total of 3 critical-tracking courses
- 2.75 GPA on all attempts of critical-tracking courses, excluding MAN 3025
- 2.0 UF GPA required

Semester 3
- Complete 2 additional critical-tracking courses (including ACG 2021) for a total of 5 critical-tracking courses
- 3.0 GPA on all attempts of critical-tracking courses, excluding MAN 3025
- 2.0 UF GPA required

Semester 4
- Complete 7 of the 8 critical-tracking courses, excluding MAN 3025
- 3.0 GPA on all attempts of critical-tracking courses, excluding MAN 3025
- 2.0 UF GPA required

Semester 5
- Complete MAN 3025 with a minimum grade of C
- Meet all semester 1-4 critical-tracking requirements
- 2.0 UF GPA required

Semester 6
- 2.0 Core GPA required
- 2.0 Major GPA required
- 2.0 UF GPA required

Semester 7
- 2.0 Core GPA required
- 2.0 Major GPA required
- 2.0 UF GPA required

Semester 8
- 2.0 Core GPA required
- 2.0 Major GPA required
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

MAN 4504 Operations and Supply Chain Management 4
MAN 4723 Strategic Management 4
Restricted elective 4

Total Credits 120

1 Minimum grade of C required.

**Academic Learning Compact**

A bachelor’s degree in business administration enables students to achieve foundation knowledge in economics, accounting, finance, management, marketing, business law, statistics, operations management, human resource management, information technology and entrepreneurship. Special emphasis is placed on understanding the links between various business disciplines and the development of sound business plans. Students will be able to effectively analyze a business entity’s strengths and weaknesses as well as investigate the opportunities and threats present in the business environment.

The management major covers the key topics of organizational behavior, human resource management and business strategy. Within these three main topics, students learn about important areas such as leadership, effective teams and groups, employee evaluation systems and corporate governance.
Before Graduating Students Must

• Take the ETS Major Field Test in Business as part of MAN 4504. The ETS exam covers nine content areas in business. The score describes your performance relative to other seniors in business and accounting at 600+ colleges and universities (e.g., top 15% in the nation compared to your peers).

• Complete requirements for the baccalaureate degree, as determined by the faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Demonstrate knowledge and understanding of elements of economics, financial accounting, marketing, operations management, organizational behavior, business law, information technology, business statistics and social responsibility.

2. Demonstrate proficiency in the use of business-related software applications.

3. Define the ethical responsibilities of business organizations and identify relevant ethical issues.

4. Understand how the business environment, including culture, differs across countries.

5. Possess awareness of cultural differences and how these differences affect business decisions.

6. Identify characteristics and roles of groups and teams.

7. Identify characteristics and roles of managers and leaders.

8. Possess knowledge in an area of specialization outside the disciplines of business and accounting.

Critical Thinking

9. Specify and implement a framework for identifying a business problem and develop alternative solutions and a set of evaluation criteria.

10. Assess the outcomes of a course of action and make appropriate adjustments.

Communication

11. Write business documents clearly, concisely and analytically.

12. Speak in groups and in public clearly, concisely and analytically, with appropriate use of visual aids.

Marketing

The Bachelor of Science in Business Administration-Marketing (BSBA-MKG) degree program provides a broad overview of the functional areas of business with an emphasis in marketing. Students take foundation courses in economics, mathematics, computing skills, and accounting; core courses that relate to the basic functions of a business, such as finance, management, marketing, and operations management; and major courses that teach students how to plan and execute the conception, pricing, promotion, and distribution of products and manage customer relationships in ways that benefit organizations and their stakeholders.

About this Program

- **College**: Heavener School of Business (p. 593)
- **Degree**: Bachelor of Science in Business Administration
- **Credits for Degree**: 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Marketing Department is a recognized leader in the discipline of marketing. For over a decade, the department’s faculty has ranked as one of the most productive and influential in the field, and is known for conducting provocative, cutting-edge research that contributes both to the scientific understanding and practice of marketing.

Curriculum

- Marketing
- Professional Selling Minor
- Retailing Minor

The BSBA-MKG curriculum focuses on consumer behavior, development and analysis of marketing strategies, retail management, marketing research, sales management and international marketing. The BSBA-MKG curriculum prepares students for careers in sales, marketing research, brand management, retail marketing and marketing communications, and for graduate studies in business, advertising and the social sciences.

BSBA-MKG majors are encouraged to gain practical work experience through internships, student organizations and community service. In addition, the Heavener School of Business offers students a wide variety of academic and career and leadership programs, including study abroad, the Florida Leadership Academy, involvement in student organizations and research activities. Students should consult an academic advisor/career coach for specific information.
Requirements for the Major

BSBA-MKG majors must maintain a 2.0 core, major and UF GPA. Students must read the individual course descriptions in this catalog to determine the prerequisites for their required courses. In addition to the critical-tracking and general education courses outlined below, BSBA-MKG majors must take 120 credits, including:

Total Credits: **65-66**

1. Internship, independent study or assistantship credit will not count toward this requirement.

2. In conjunction with an internship of at least 150 credits before the start of the senior year. The internship requirement can be waived for students who participate in a study abroad experience of at least six weeks. Students who waive the requirement via study abroad are strongly encouraged to complete at least one internship to improve their chances of obtaining full-time employment and/or admission to graduate programs or law school. Students should consult an academic advisor/career coach for more information.

### Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=521401&track=01) may be used for transfer students.

To remain on track for the BSBA-MKG major, students must meet the critical-tracking criteria listed below. The critical-tracking GPA is calculated based on all attempts of the critical-tracking courses or their equivalents. After a student receives a minimum grade of C in a critical-tracking course or its equivalent, no subsequent grade in that course or its equivalent will be used in the calculation of the critical-tracking GPA.

#### Semester 1

- Complete 1 critical-tracking course from ACG 2021, ACG 2071, CGS 2531 or ISM 3013, ECO 2013, ECO 2023, MAC 2233, STA 2023
- 2.50 GPA on all attempts of critical-tracking courses, excluding MAR 3023
- 2.0 UF GPA required
Semester 2
• Complete 2 additional critical-tracking courses for a total of 3 critical-tracking courses
• 2.75 GPA on all attempts of critical-tracking courses, excluding MAR 3023
• 2.0 UF GPA required

Semester 3
• Complete 2 additional critical-tracking courses (including ACG 2021) for a total of 5 critical-tracking courses
• 3.0 GPA on all attempts of critical-tracking courses, excluding MAR 3023
• 2.0 UF GPA required

Semester 4
• Complete 7 of the 8 critical-tracking courses, excluding MAR 3023
• 3.0 GPA on all attempts of critical-tracking courses, excluding MAR 3023
• 2.0 UF GPA required

Semester 5
• Complete MAR 3023 with a minimum grade of C
• Meet all semester 1-4 critical-tracking requirements
• 2.0 UF GPA required

Semester 6
• 2.0 Core GPA required
• 2.0 Major GPA required
• 2.0 UF GPA required

Semester 7
• 2.0 Core GPA required
• 2.0 Major GPA required
• 2.0 UF GPA required

Semester 8
• 2.0 Core GPA required
• 2.0 Major GPA required
• 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

**Academic Learning Compact**

A bachelor's degree in business administration enables students to achieve foundation knowledge in economics, accounting, finance, management, marketing, business law, statistics, operations management, human resource management, information technology and entrepreneurship. Special emphasis is placed on understanding the links between various business disciplines and the development of sound business plans. Students will be able to effectively analyze a business entity's strengths and weaknesses as well as investigate the opportunities and threats present in the business environment.
The marketing major provides a fundamental understanding of consumer behavior, market segmentation and positioning, the role of marketing in corporate strategy and methods by which the tactical tools of pricing, promotion and distribution are utilized by marketing practitioners.

**Before Graduating Students Must**

- Take the ETS Major Field Test in Business as part of MAN 4504. The ETS exam covers nine content areas in business. The score describes your performance relative to other seniors in business and accounting at 600+ colleges and universities (e.g., top 15% in the nation compared to your peers).
- Complete requirements for the baccalaureate degree, as determined by the faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Demonstrate knowledge and understanding of elements of economics, financial accounting, marketing, operations management, organizational behavior, business law, information technology, business statistics and social responsibility.
2. Demonstrate proficiency in the use of business-related software applications.
3. Define the ethical responsibilities of business organizations and identify relevant ethical issues.
4. Understand how the business environment, including culture, differs across countries.
5. Possess awareness of cultural differences and how these differences affect business decisions.
6. Identify characteristics and roles of groups and teams.
7. Identify characteristics and roles of managers and leaders.
8. Possess knowledge in an area of specialization outside the disciplines of business and accounting.

**Critical Thinking**

9. Specify and implement a framework for identifying a business problem and develop alternative solutions and a set of evaluation criteria.
10. Assess the outcomes of a course of action and make appropriate adjustments.

**Communication**

11. Write business documents clearly, concisely and analytically.
12. Speak in groups and in public clearly, concisely and analytically, with appropriate use of visual aids.

Professional Selling Minor

The Professional Selling minor provides the knowledge and skills necessary to be consultative sellers. Develop a blend of hard and soft skills that are necessary to be successful in this very analytical discipline through the coursework. Students who complete this minor will learn professional selling skills and techniques, gain knowledge necessary to properly administer a sales force, and be more prepared to start down an entrepreneurial path through knowledge of how to build, manage, and maintain a consultative sales force.

About this Program

• **College**: Heavener School of Business (p. 593)
• **Credits**: 22-24 | Completed with an overall 2.0 GPA in the minor and a cumulative 2.0 UF GPA

Department Information

The Marketing Department is a recognized leader in the discipline of marketing. For over a decade, the department’s faculty has ranked as one of the most productive and influential in the field, and is known for conducting provocative, cutting-edge research that contributes both to the scientific understanding and practice of marketing.

Real Estate Minor

The Real Estate minor (1) introduces the business of commercial real estate, including the roles, activities, and players in the industry, common terminology, and the real estate transaction process, and (2) prepares students to make sound decisions concerning real estate use and investment. The minor also exposes the numerous career paths available in the commercial real estate industry, including development, real estate appraisal and investment, leasing and asset management, mortgage lending, and commercial brokerage.

About this Program

- **College**: Heavener School of Business (p. 593)
- **Credits**: 22-23 | Completed with an overall 3.0 GPA in the minor and a cumulative UF GPA of 2.0

Department Information

The Finance, Insurance and Real Estate Department offers degree programs at the doctoral, masters, and undergraduate level. Besides standard finance offerings, specialized academic programs in entrepreneurship, real estate, and value investing are available. The department’s faculty boasts top experts on topic matter as diverse as banking, initial public offerings, investments, international finance, mergers, and acquisitions and real estate.

Curriculum

- Combination Degrees
- Entrepreneurship Minor
- Finance
- Real Estate Minor

All courses for the minor must be taken for letter grade. All attempts at courses for the minor will be averaged into the minor GPA. All 3000/4000-level courses required for the minor must be taken at UF or via a study abroad program preapproved by the Heavener School of Business. Flexible learning courses will not count toward the minor.

Students who completed BUL 4310 at another Florida public university can petition the school to take a higher-level course in that discipline to satisfy requirements for the minor.

## Retailing Minor

This minor exposes students to an industry that is global, technical, and robust. It teaches how retailers procure merchandise, understand strategic analytics, and adapt to constantly changing markets to remain competitive. Along with academic theory, students studying this minor are exposed and encouraged to network with industry executives to understand state of the art practices and learn from those practicing in the channels. As they approach senior year, students will be challenged to experience managerial positions with supervised retail internships in both stores and support centers.

Wealth Management Minor

This minor provides a solid understanding of the concepts and techniques used by wealth management and insurance advisors and practitioners to assist individual and institutional clients. Students will gain the necessary skills to help individuals and firms meet the expanding needs of their client base. This minor also facilitates obtaining necessary coursework for important career and professional certification such as Certified Financial Analysts (CFA), Certified Financial Planners (CFP), Certified Insurance Counselors (CIC), and Certified Risk Managers (CRM).

About this Program
