- Complete a capstone or independent research project, present your results to a committee of the program’s faculty and receive acceptable assessment.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to Student Learning Outcomes (SLOs)

Content

1. Explain sustainability principles.
2. Integrate knowledge and principles from sustainability-related disciplines.
3. Describe the role of the built environment in sustainability.
4. Combine information from multiple sources to solve problems.

Critical Thinking

5. Frame sustainable problems and potential solutions within a global context.
6. Collect and analyze data to solve problems.
7. Produce sustainable solutions for problems of the built environment.
8. Integrate multiple disciplinary, cultural and stakeholder perspectives for sustainable problem solving.

Communication

9. Produce an effective oral presentation.
10. Produce effective written communications.
11. Integrate a variety of visual techniques to enhance the communication of ideas and solutions.
12. Solve a built environment sustainability problem in a multidisciplinary team.

| Total Credits | 120-121 |
Sustainability and the Built Environment Minor

The Sustainability and the Built Environment minor introduces the challenges of planning, design, and construction of human structures and settlements. Courses provide an overview of environmental and cultural issues as they apply to design, planning sustainable applications, and solutions.

About this Program

- College: Design, Construction and Planning (p. 416)
- Credits: 15 | Completed with minimum grades of C

Department Information

The Sustainability and the Built Environment (SBE) Program at the College of Design, Construction and Planning teaches hands-on sustainability by using the university as a learning laboratory. Website (https://dcp.ufl.edu/sustainability/)

Urban and Regional Planning Minor

Society’s demands on the natural environment continue to increase as communities grow to meet population demands. Planning addresses the interface between the social, environmental and economic dimensions of communities and regions. Never before has the need to shape visions and guide community outcomes been greater.

The Urban and Regional Planning minor introduces the challenging and vital aspects of creating, improving, and sustaining communities and regions.

About this Program

- College: Design, Construction and Planning (p. 416)
- Credits: 15 | Completed with minimum grades of C+, with the exception of URP 4942, which is graded S/U
Department Information
The Department of Urban and Regional Planning (URP) strives to be a leading graduate program with excellence in planning education, research, and service for the citizens of the state, the nation, and the world. The department values diversity and strives to recruit and retain faculty and students with diverse racial, ethnic, cultural, and economic backgrounds.

Curriculum
- Combination Degrees
- Urban and Regional Planning Minor

Application should be made early so that guidance can be given for course selection and special studies parameters. Students must have a C + GPA for admission to the minor and they must maintain a C+ GPA in all coursework for the minor. The only S/U course accepted is URP 4942.

The minor does not provide professional certification.

It is each student’s responsibility to declare the minor through their major degree department or college and to obtain the required signatures from their department and URP.

Study Abroad/Off-Campus Studies
Students need approval before signing up for study abroad or off-campus studies for inclusion in the URP minor. Credits will not be accepted after a student has started study abroad or off-campus studies. Eligible programs should be offered by UF’s International Center or the College of Design, Construction and Planning. URP’s undergraduate coordinator must determine eligibility of study abroad or off-campus coursework prior to taking the class. Accepted credits may vary from three to six, depending on the intensity and appropriateness of the selected program.

Education, College of
Consistently ranked among the top 20 public education schools in the nation, the College of Education prepares students to serve and lead in a diverse field. The College offers pathways to professional teacher certification, promotes an understanding of learning systems, policies, and outcomes in traditional and non-traditional contexts, and prepares graduates for careers in the public, private, or nonprofit sectors.

Established
1905

Accredited
The Florida Department of Education (DOE (http://www.fldoe.org)) and the Council for the Accreditation of Educator Preparation (CAEP (http://www.caep.org))

Programs
Education Sciences, Elementary Education, Early Childhood Education

Degrees
Bachelor of Arts (B.A.), Bachelor of Arts in Education (B.A.E.)

Academic Advising
Advising for undergraduate admission, critical-tracking, bachelor's degree requirements and the university’s general education information is available in the Office of Student Services, EduGator Central, 1002 Norman Hall.
More Info (https://education.ufl.edu/student-services/)

For scheduling or course registration information, please refer to the appropriate department listed in the schedule of courses.
More Info (http://www.registrar.ufl.edu/soc/)

Students who are interested in graduate studies to prepare to teach at the secondary level should contact the Office of Student Services, EduGator Central, 1002 Norman Hall or call 352.273.4376.
More Info (https://education.ufl.edu/student-services/)

College Scholarships
The College of Education awards scholarships to graduate and undergraduate students through an annual selection process. Eligibility for individual awards is determined by the college based on a student’s fall-term classification.
More Info (http://education.ufl.edu/student-services/scholarships/)

The Florida Department of Education also provides scholarships and loans for juniors and seniors in education.
More Info (http://www.floridastudentfinancialaid.org/osfahomepg.htm)
The federal Teacher Education Assistance for College and Higher Education Grant (TEACH Grant) is available to students enrolled in programs leading to professional certification in critical shortage subjects. More Info (https://studentaid.ed.gov/sa/types/grants-scholarships/teach/)

Information about the Florida Fund for Minority Teachers Scholarship is available online at ffmf.org. More Info (http://www.ffmt.org/)

Higher Education Act | 1998
The U.S. Department of Education’s Higher Education Act addresses accountability requirements for teacher preparation programs. The act mandates that teacher preparation programs publish annually pertinent program information including but not limited to the following:

- Program accreditation
- Pass rates of graduates on state teacher certification assessments
- Programs that have been designated as low performing by the state

Accordingly, information about the state- and CAEP-accredited teacher preparation programs at UF is available online, and in print upon request. More Info (http://education.ufl.edu/about-the-college/)

Academic Policies

Admission Requirements
Freshman applicants will be admitted to the College of Education when they declare a major in education sciences, elementary education, or early childhood education.

Students who wish to change their major to education sciences are required to have a 2.3 GPA for freshmen and 2.5 GPA for sophomores and above. Students who wish to change their major to elementary education or early childhood education must have a 2.3 GPA for freshmen and 2.6 GPA for sophomores and above.

Elementary education and early childhood education students remain in a pre-education status, as long as they meet the critical-tracking standards set by the college and UF, until formally admitted to the upper-division program for a Fall semester. Students must be on track at the 60-credit level to continue in the elementary or early childhood education major and to be considered competitive for admission to the upper-division teacher preparation program.

Transfer Admission Requirements

Education sciences transfer applicants must meet the following requirements for admission:

- 2.5 cumulative GPA
- Completing the common course prerequisite, EDF1005 Introduction to the Teaching Profession, as established by the state of Florida’s Articulation Coordinating Committee. The common course prerequisite must be completed with a minimum grade of C.

Elementary education and early childhood education are limited access programs. Transfer applicants must meet the following requirements for admission consideration on a space-available basis:

- 2.6 cumulative GPA; 3.0 upper-division GPA
- Passing scores on all sections of the general knowledge portion of the Florida Teacher Certification Exam (http://fl.nesinc.com/) (FTCE)
- Completing the university’s writing (24,000 words) requirement
- Completing the common course prerequisite, EDF1005 Introduction to the Teaching Profession, as established by the state of Florida’s Articulation Coordinating Committee. The common course prerequisites must be completed with a minimum grade of B.
- A course in human growth and development is a degree requirement.

State college transfer students and state university transfer students must document award of the A.A. Other transfer students are evaluated individually upon application for admission. No change of major will be approved for transfer students admitted to another college at UF.

Critical-Tracking Program
All undergraduates are monitored for progress toward the bachelor’s degree by the critical-tracking program. Students who fall below the tracking requirements at any stage must see an academic advisor for approval to continue in the major.

Students must make satisfactory academic progress to continue to enroll in the College of Education.

Minimum requirements for education sciences include

- Education core prerequisites completed with no grade below C and a 3.0 GPA; one repeat allowed:

  Total Credits 9

- Completion of the common course prerequisite, EDF1005 Introduction to the Teaching Profession, as established by the State of Florida Articulation Coordinating Committee; the common course prerequisite must be completed with a minimum grade of C.

Elementary education and early childhood education are limited-access programs with competitive admission. Due to space limitations, meeting minimum admission requirements does not guarantee selection for admission. Minimum requirements for UF students and transfer students at the completion of 60 semester credits:

- Complete the university’s writing (24,000 words) requirement
- Complete all General Education requirements
- FTCE General Knowledge Requirement: Students must pass all sections of the general knowledge portion of the Florida Teacher Certification Examination (http://fl.nesinc.com/) (FTCE) before admission at the junior level.
• Education core prerequisites completed with no grade below C and a 3.0 GPA; one repeat allowed:

• Completion of the common course prerequisite, EDF1005 Introduction to the Teaching Profession, as established by the State of Florida Articulation Coordinating Committee; the common course prerequisite must be completed with a minimum grade of B.

• Cumulative UF and transfer GPA of 2.6 and an upper-division GPA of 3.0

The college admissions committee will consider an applicant’s entire record, including educational objectives, quality of courses completed and test data.

**College Requirements**

**Career Placement**

The Career Connections Center offers a Careers in Education recruitment event annually (usually in April) where representatives from school districts in Florida and several other states meet with students who are completing teacher education programs and others interested in teaching. 

More Info [https://career.ufl.edu/](https://career.ufl.edu/)

**Criminal Background Check**

Classroom field experience is a vital component to any teacher preparation program. To have access to classrooms, students in a teacher preparation program or UFTeach minor must submit to a Level 2 background screening. Individuals who are not cleared will not be permitted to continue in or graduate from a teacher preparation program. After clearance, it is the student’s responsibility to report immediately any new criminal charges to the university’s certification officer in 1002 Norman Hall.

Dean’s List (p. 1086)

**Financial Responsibility**

Students are responsible for all costs associated with the criminal background check, LiveText subscription, transportation to and from field placements and relevant examinations required for the program.

**Overseas Study**

Elementary education and early childhood education students are encouraged to complete any overseas studies before reaching junior status or in a summer term.

**Program Plan**

During the first term of enrollment in the upper-division elementary education or early childhood education program, the student will sign a planned program of study for the degree. Education sciences students must submit a plan that includes an approved specialization or general studies track before the end of the junior year. The program coordinator must approve all programs. Each student is responsible for registering for the appropriate courses and fulfilling all requirements for the degree, including test requirements.

**Satisfactory Progress**

Students in the elementary education and early childhood education programs are expected to maintain a minimum junior/senior-level 3.0 GPA. Education sciences majors must maintain a 2.0 GPA. Academic progress is reviewed each semester. If requirements are not met, the student must be approved for continuation by the program coordinator before further registration. Students are required to earn a minimum grade of C for all major courses for award of the bachelor’s degree.

**Probation**

The department and the college monitor students for academic progress. Students with unsatisfactory academic progress may be placed on probation. College probation may be removed if it is determined that satisfactory progress has been demonstrated.

**Dismissal**

If the department or the college determines that a student has not met probationary terms or is not progressing academically, the student may be prohibited from continuing in the their major and/or the College of Education. Students on probation, as well as students who are unable to meet degree requirements, are encouraged to investigate alternatives in other areas of study.

Students dismissed by the university may not register for courses. Courses taken at other institutions under these conditions will not count toward a UF degree.

**Student Responsibility**

Students are expected to review the information in the undergraduate catalog as a guide to planning their academic careers at UF. Failure to read, understand and follow the guidelines may cause significant delays in academic progress. Clarification of college requirements is available in the Office of Student Services, EduGator Central, 1002 Norman Hall.

**Student Teaching Assignment**

Student teaching assignments are fulfilled at local sites in Florida, in accordance with program objectives and the student’s professional goals. Department approval is required for placements outside Alachua County. In addition to regular tuition expenses, students are responsible for transportation to and/or housing in the community where student teaching is to occur. Fees imposed by school districts relating to requirements for personnel screening (e.g., fingerprinting, background checks and substance abuse testing) are also the student’s responsibility.

**S/U Option**

The S/U option may be used for elective courses only. It does not apply to the university’s writing requirement courses or to general education course requirements. The deadline for declaring the S/U option is published in the academic calendars in this catalog.

**Transient Student Status**

With approval of the College of Education, students may take a limited number of credits at another accredited institution. Before registration as a transient student at another institution, the student must complete a transient student form and obtain approval from the college and university. No transient courses will be permitted during the last 30 credits of enrollment.

**Undergraduate Registration for Graduate Courses**

With department approval, an undergraduate student with senior standing may enroll in 5000/6000-level courses. After a student has been admitted to the Graduate School, up to 15 credits of graduate-level courses with grades of A, A-, B+ or B may be applied toward a graduate degree at the university, provided the credit was not used toward an undergraduate degree.

**Degree Requirements**

Students who complete an approved undergraduate program in the College of Education are awarded the Bachelor of Arts (B.A.) for the education sciences major or the Bachelor of Arts in Education (B.A.E.) for an elementary education or early childhood education major.

Grades below C will not fulfill requirements for the major or the university's general education areas.

Before program completion, elementary education and early childhood education students must demonstrate satisfactory performance on the Florida Educator Accomplished Practices. Students in early childhood education are required to provide proof of completion of up-to-date CPR and first aid training. All prospective teachers are encouraged to do the same.

Upon completion of the elementary education or early childhood program, a graduate will receive a statement on the transcript verifying completion of a Florida Department of Education (DOE) and Council for Accreditation of Educator Preparation (CAEP) approved program.

All students in the elementary education and early childhood education programs must document passing scores on the relevant subject area examination and the Professional Education Test of the Florida Teacher Certification Examination (FTCE) series before graduation.

**Residence**

The last 30 semester credits applied toward a degree must be completed in residence at UF in the College of Education.

**Programs**

**MAJORS**

- Education Sciences
- Education | Unified Early Childhood Education ProTeach | Pre-K-Grade 3
- Elementary Education | Grades K-6

**MINORS**

- Disabilities in Society Minor
- Education Studies Minor
- Educational Technology Minor
- Educational Technology Minor UF Online
- Florida Teaching Minor
- UFTeach | Mathematics or Science Minor

**UF ONLINE MAJORS**

- Education Sciences UF Online

**Preparation of Professional EDUCATORS**

The College of Education prepares professional educators in elementary education and early childhood education and the various areas of secondary education.

Students engage in early observation, supervised practice and a concluding internship in the public schools, as well as campus-based clinical experiences in micro-teaching, simulation and other controlled situations.

Students in elementary education and early childhood education receive a Bachelor of Arts in Education upon successful completion of the teacher education program, including a prescribed set of courses and experiences, and successful internal and external assessments.

**Secondary Teaching**

Students who wish to teach at the high school level complete a bachelor's degree in an appropriate content discipline while pursuing a minor in Florida Teaching or UFTeach, or before pursuing a graduate certificate in secondary teaching in the College of Education. The approved subject areas of study for a graduate certificate in secondary teaching include:

- English (recommended major in English)
- science (recommended major in biology, botany, chemistry, entomology, microbiology, physics, wildlife ecology or zoology)
- social science (recommended major in anthropology, economics, geography, history, political science, psychology or sociology)
- mathematics (recommended major in mathematics)

**Cooperating College Teacher Education Programs**

In collaboration with the College of Education our cooperating colleges offer undergraduate teacher preparation programs in agriculture, art and music. Please contact the individual colleges for additional information:

- Agricultural Education and Communication (6-12), College of Agricultural and Life Sciences, 305 ROL
- Art Education (K-12), College of the Arts, 302 FAC
- Music Education (K-12), College of the Arts, 130 MUB

**Program Planning**

Program changes related to teacher certification requirements are possible. The curriculum of a state-approved teacher preparation program is subject to revision to accommodate legislative or Department of Education mandates. New rules may affect required courses in all teacher preparation programs.

**Disabilities in Society Minor**

The Disabilities in Society minor provides opportunities for undergraduates in all colleges to enhance their knowledge of disabilities.
and to recognize the impact disabilities have on the lives of people who experience them and on the people with whom they live and interact.

**About this Program**
- **College:** Education (p. 436)
- **Credits:** 15 minimum | Completed with minimum grades of C
- **Contact:** Email (studenthelp@coe.ufl.edu) | 1002 Norman Hall (https://campusmap.ufl.edu/#/index/0101) | 352.273.4376

**Department Information**
Students in the School of Special Education, School Psychology, and Early Childhood Studies are uniquely positioned to learn from leaders in the field while simultaneously applying that learning in individually relevant professional settings.

**Curriculum**
- Disabilities in Society Minor
- Disability Science Minor
- Education | Unified Early Childhood Education ProTeach | Pre-K-Grade 3
- Elementary Education | Grades K-6

This minor facilitates understanding of disabilities and disability-related issues that are applicable in a variety of settings. Focus is on understanding types of disabilities, how disabilities are perceived in society, the ways people with disabilities are included in recreational, leisure, employment, educational and other community activities, and the legal aspects of disability policies.

**Prerequisites**
- Apply for the minor after earning 45 credits and before earning 100 credits.
- Minimum 2.0 GPA is required and transfer credits are not accepted. All courses must be taken at UF.
- Obtain college approval on the application for minor (http://www.registrar.ufl.edu/pdf/minorapp.pdf) before submitting the form to studenthelp@coe.ufl.edu.
- EEX 2000 or EEX 3093 are prerequisites for the online courses.

---

**Education Sciences**

The Education Sciences major promotes an understanding of education and learning systems, policy, and outcomes in traditional and non-traditional contexts. This degree prepares individuals for a variety of career paths and for graduate school.

**About this Program**
- **College:** Education (p. 436)
- **Degree:** Bachelor of Arts
- **Specializations:** Disabilities in Society (p. 441) | Educational Psychology and Research (p. 444) | Educational Technology (p. 446) | General Studies (p. 449) | Schools, Society and Policy (p. 452)
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

**Related Programs**
- Education Sciences UF Online
- Education | Unified Early Childhood Education ProTeach | Pre-K-Grade 3
- Elementary Education | Grades K-6
- Florida Teaching Minor
- UFTeach | Mathematics or Science Minor

This major is not a teacher or educator preparation program, rather an exploration of the educational and psychological foundations, research and policy as applied to instruction, learning, and professional development in school and community settings. Core courses serve as an introduction to the many fields of professional practice and research. Students may develop a General Studies curriculum or may choose a specialization in Disabilities in Society, Educational Psychology and Research, Educational Technology, or Schools, Society and Policy.

Graduates of the major would be prepared for a career in a government, non-profit, or education setting and for graduate studies. It would be appropriate for students interested in leading discussions about schools and education, informing policy, optimizing e-learning, advocating for accessibility, and supporting the mission of institutions of learning.

**Coursework for the Major**

Students must complete 30 credits of coursework for the education sciences major to include a 15-credit core and a 15-credit specialization. The specialization must be declared no later than semester 6. Each specialization’s coursework requirements are specified after the Critical Tracking section. Students must earn a minimum grade of C in a course for it to be applied to the major. A minimum 15 credits of major-related courses must be completed at the University of Florida.

All education sciences majors are required to attend colloquia, contribute to seminars, and participate in experiential learning.

**Critical Tracking Courses | 3 courses total**
- EDF 1005
- EDF 2085 (GE-S,D)
- EME 2040
Core Courses | 5 courses total

• EDF 3210
• EDF 3604 (GE-S)
• EDF 3423
• EEX 2000 (GE-S,D)
• EME 3813

Specializations

Disabilities in Society
Advocating for accessibility and inclusion

Educational Psychology and Research
Research methods for understanding cognitive development and learning theory

Educational Technology
Preparing for a career in instructional design and e-learning

General Studies
Engaging in interdisciplinary and cross-disciplinary studies

Schools, Society and Policy
Searching for solutions to enduring problems in education

Critical Issues & Research in Education (EDG 4930 - 1 credit; S/U)
A colloquium series that explores current education issues and research. Guest lectures from faculty. Senior Seminar (EDG 4930 - 2 semesters x 1 credit each; S/U)
Seniors present findings/summary of experiential learning.

Experiential Learning (EDG 4910 or EDG 4905 - choose one)
Research, Internship, Service Learning, Study Abroad

Academic Learning Compact
Across the country, graduates with education majors typically are prepared to teach in preschool through grade 12 settings. While many university students complete an education degree with teacher certification and begin teaching, others pursue graduate school or employment in fields where preparation in education is an asset. The BAES is appropriate for students interested in leading and supporting the design and implementation of learning environments, studying and informing education policy, optimizing e-learning, advocating for and developing accessible education options for citizens with disabilities, and supporting the learning and training missions of institutions in the modern economy.

Before Graduating Students Must
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Explain foundational ideas and best practices in educational practices and policies, educational psychology, human exceptionalities, educational statistics and measurement, and educational technologies.
2. Apply foundational ideas and best practices to understand problems of practice and generate viable solutions in formal and informal education and training settings.

Critical Thinking
3. Enact goals for professional growth, ethical practices, and continuous improvement.

Communication
4. Communicate effectively in all forms in a professional environment, adapting appropriately for exceptionality and diversity among individuals.

Disabilities in Society

The Education Sciences major promotes an understanding of education and learning systems, policy, and outcomes in traditional and non-traditional contexts. This degree prepares individuals for a variety of career paths and for graduate school.

About this Program
• College: Education (p. 436)
• Degree: Bachelor of Arts
  • Specializations: Disabilities in Society (p. 441) | Educational Psychology and Research (p. 444) | Educational Technology (p. 446) | General Studies (p. 449) | Schools, Society and Policy (p. 452)
• Credits for Degree: 120

To graduate with this major, students must complete all university, college, and major requirements.
Related Programs
- Education Sciences UF Online
- Education | Unified Early Childhood Education ProTeach | Pre-K-Grade 3
- Elementary Education | Grades K-6
- Florida Teaching Minor
- UFTeach | Mathematics or Science Minor

This major is not a teacher or educator preparation program, rather an exploration of the educational and psychological foundations, research and policy as applied to instruction, learning, and professional development in school and community settings. Core courses serve as an introduction to the many fields of professional practice and research. Students may develop a General Studies curriculum or may choose a specialization in Disabilities in Society, Educational Psychology and Research, Educational Technology, or Schools, Society and Policy.

Graduates of the major would be prepared for a career in a government, non-profit, or education setting and for graduate studies. It would be appropriate for students interested in leading discussions about schools and education, informing policy, optimizing e-learning, advocating for accessibility, and supporting the mission of institutions of learning.

Coursework for the Major

Students must complete 30 credits of coursework for the education sciences major to include a 15-credit core and a 15-credit specialization. The specialization must be declared no later than semester 6. Each specialization’s coursework requirements are specified after the Critical Tracking section. Students must earn a minimum grade of C in a course for it to be applied to the major. A minimum 15 credits of major-related courses must be completed at the University of Florida.

All education sciences majors are required to attend colloquia, contribute to seminars, and participate in experiential learning.

Critical Tracking Courses | 3 courses total
- EDF 1005
- EDF 2085 (GE-S,D)
- EME 2040

Core Courses | 5 courses total
- EDF 3210
- EDF 3604 (GE-S)
- EDF 3423
- EEX 2000 (GE-S,D)
- EME 3813

Specializations

Disabilities in Society
Advocating for accessibility and inclusion

Educational Psychology and Research
Research methods for understanding cognitive development and learning theory

Educational Technology
Preparing for a career in instructional design and e-learning

General Studies
Engaging in interdisciplinary and cross-disciplinary studies

Schools, Society and Policy
Searching for solutions to enduring problems in education

Critical Issues & Research in Education (EDG 4930 - 1 credit; S/U)
A colloquium series that explores current education issues and research. Guest lectures from faculty.

Senior Seminar (EDG 4930 - 2 semesters x 1 credit each; S/U)
Seniors present findings/summary of experiential learning.

Experiential Learning (EDG 4910 or EDG 4905 - choose one)
Research, Internship, Service Learning, Study Abroad

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites may be used for transfer students.

Semester 1
- 2.0 UF GPA required

Semester 2
- Complete 1 of 3 critical tracking courses (EDF 1005, EDF 2085, or EME 2040)
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3
- Complete 2 of 3 critical tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4
- Complete 3 of 3 critical tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5
- Complete 1 core course: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6
- Complete 3 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.5 UF GPA required
Semester 7
- Complete 4 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- Complete 2 specialization courses: EEX 3093, EEX 3097, EEX 4520, EEX 4280, EEX 4810
- 2.5 UF GPA required

Semester 8
- 2.5 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S). One of the two general education mathematics courses must be a pure math course. A course in statistics is recommended for this major but not required.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact
Across the country, graduates with education majors typically are prepared to teach in preschool through grade 12 settings. While many university students complete an education degree with teacher certification and begin teaching, others pursue graduate school or employment in fields where preparation in education is an asset. The BAES is appropriate for students interested in leading and supporting the design and implementation of learning environments, studying and informing education policy, optimizing e-learning, advocating for and developing accessible education options for citizens with disabilities, and supporting the learning and training missions of institutions in the modern economy.
Before Graduating Students Must
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Explain foundational ideas and best practices in educational practices and policies, educational psychology, human exceptionalisities, educational statistics and measurement, and educational technologies.
2. Apply foundational ideas and best practices to understand problems of practice and generate viable solutions in formal and informal education and training settings.

Critical Thinking
3. Enact goals for professional growth, ethical practices, and continuous improvement.

Communication
4. Communicate effectively in all forms in a professional environment, adapting appropriately for exceptionality and diversity among individuals.

1 Gen Ed Social and Behavioral Sciences with International; Gen Ed Humanities with International; Gen Ed Biological or Physical Sciences with International
### Assessment Types
- Final projects
- Experiential learning experiences

### General Studies
The Education Sciences major promotes an understanding of education and learning systems, policy, and outcomes in traditional and non-traditional contexts. This degree prepares individuals for a variety of career paths and for graduate school.

### About this Program
- **College**: Education (p. 436)
- **Degree**: Bachelor of Arts
- **Specializations**: Disabilities in Society (p. 441) | Educational Psychology and Research (p. 444) | Educational Technology (p. 446) | General Studies (p. 449) | Schools, Society and Policy (p. 452)
- **Credits for Degree**: 120

To graduate with this major, students must complete all university, college, and major requirements.

### Related Programs
- Education Sciences UF Online
- Education | Unified Early Childhood Education ProTeach | Pre-K-Grade
- Elementary Education | Grades K-6
- Florida Teaching Minor
- UFTeach | Mathematics or Science Minor

This major is not a teacher or educator preparation program, rather an exploration of the educational and psychological foundations, research and policy as applied to instruction, learning, and professional development in school and community settings. Core courses serve as an introduction to the many fields of professional practice and research. Students may develop a General Studies curriculum or may choose a specialization in Disabilities in Society, Educational Psychology and Research, Educational Technology, or Schools, Society and Policy.

Grades of the major would be prepared for a career in a government, non-profit, or education setting and for graduate studies. It would be appropriate for students interested in leading discussions about schools and education, informing policy, optimizing e-learning, advocating for accessibility, and supporting the mission of institutions of learning.

### Coursework for the Major
Students must complete 30 credits of coursework for the education sciences major to include a 15-credit core and a 15-credit specialization. The specialization must be declared no later than semester 6. Each specialization's coursework requirements are specified after the Critical Tracking section. Students must earn a minimum grade of C in a course for it to be applied to the major. A minimum 15 credits of major-related courses must be completed at the University of Florida.

All education sciences majors are required to attend colloquia, contribute to seminars, and participate in experiential learning.
**Critical Tracking Courses | 3 courses total**
- EDF 1005
- EDF 2085 (GE-S,D)
- EME 2040

**Core Courses | 5 courses total**
- EDF 3210
- EDF 3604 (GE-S)
- EDF 3423
- EEX 2000 (GE-S,D)
- EME 3813

**Specializations**

**Disabilities in Society**
Advocating for accessibility and inclusion

**Educational Psychology and Research**
Research methods for understanding cognitive development and learning theory

**Educational Technology**
Preparing for a career in instructional design and e-learning

**General Studies**
Engaging in interdisciplinary and cross-disciplinary studies

**Schools, Society and Policy**
Searching for solutions to enduring problems in education

**Critical Issues & Research in Education (EDG 4930 - 1 credit; S/U)**
A colloquium series that explores current education issues and research. Guest lectures from faculty.

**Senior Seminar (EDG 4930 - 2 semesters x 1 credit each; S/U)**
Seniors present findings/summary of experiential learning.

**Experiential Learning (EDG 4910 or EDG 4905 - choose one)**
Research, Internship, Service Learning, Study Abroad

**Critical Tracking**
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites may be used for transfer students.

### Semester 1
- 2.0 UF GPA required

### Semester 2
- Complete 1 of 3 critical-tracking courses: EDF 1005, EDF 2085, or EME 2040
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester 3
- Complete 2 of 3 critical-tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester 4
- Complete 3 of 3 critical-tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester 5
- Complete 1 core course: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester 6
- Complete 3 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.0 UF GPA required

### Semester 7
- Complete 4 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- Complete 2 specialization courses (3000 and 4000 level education courses)
- 2.0 UF GPA required

### Semester 8
- 2.0 UF GPA required

### Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S). One of the two general education mathematics courses must be a pure math course. A course in statistics is recommended for this major but not required.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

---

### Academic Learning Compact

Across the country, graduates with education majors typically are prepared to teach in preschool through grade 12 settings. While many university students complete an education degree with teacher certification and begin teaching, others pursue graduate school or employment in fields where preparation in education is an asset. The BAES is appropriate for students interested in leading and supporting the design and implementation of learning environments, studying and informing education policy, optimizing e-learning, advocating for and developing accessible education options for citizens with disabilities, and supporting the learning and training missions of institutions in the modern economy.

### Before Graduating Students Must

- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Explain foundational ideas and best practices in educational practices and policies, educational psychology, human exceptionalities, educational statistics and measurement, and educational technologies.
2. Apply foundational ideas and best practices to understand problems of practice and generate viable solutions in formal and informal education and training settings.

**Critical Thinking**

3. Enact goals for professional growth, ethical practices, and continuous improvement.

**Communication**

4. Communicate effectively in all forms in a professional environment, adapting appropriately for exceptionality and diversity among individuals.

- Elementary Education | Grades K-6
- Florida Teaching Minor
- UF Teach | Mathematics or Science Minor

This major is not a teacher or educator preparation program, rather an exploration of the educational and psychological foundations, research and policy as applied to instruction, learning, and professional development in school and community settings. Core courses serve as an introduction to the many fields of professional practice and research. Students may develop a General Studies curriculum or may choose a specialization in Disabilities in Society, Educational Psychology and Research, Educational Technology, or Schools, Society and Policy.

Graduates of the major would be prepared for a career in a government, non-profit, or education setting and for graduate studies. It would be appropriate for students interested in leading discussions about schools and education, informing policy, optimizing e-learning, advocating for accessibility, and supporting the mission of institutions of learning.

Coursework for the Major

Students must complete 30 credits of coursework for the education sciences major to include a 15-credit core and a 15-credit specialization. The specialization must be declared no later than semester 6. Each specialization’s coursework requirements are specified after the Critical Tracking section. Students must earn a minimum grade of C in a course for it to be applied to the major. A minimum 15 credits of major-related courses must be completed at the University of Florida.

All education sciences majors are required to attend colloquia, contribute to seminars, and participate in experiential learning.
Critical Tracking Courses | 3 courses total
• EDF 1005
• EDF 2085 (GE-S,D)
• EME 2040

Core Courses | 5 courses total
• EDF 3210
• EDF 3604 (GE-S)
• EDF 3423
• EEX 2000 (GE-S,D)
• EME 3813

Specializations

Disabilities in Society
Advocating for accessibility and inclusion

Educational Psychology and Research
Research methods for understanding cognitive development and learning theory

Educational Technology
Preparing for a career in instructional design and e-learning

General Studies
Engaging in interdisciplinary and cross-disciplinary studies

Schools, Society and Policy
Searching for solutions to enduring problems in education

Critical Issues & Research in Education (EDG 4930 - 1 credit; S/U)
A colloquium series that explores current education issues and research. Guest lectures from faculty.

Senior Seminar (EDG 4930 - 2 semesters x 1 credit each; S/U)
Seniors present findings/summary of experiential learning.

Experiential Learning (EDG 4910 or EDG 4905 - choose one)
Research, Internship, Service Learning, Study Abroad

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Explain foundational ideas and best practices in educational practices and policies, educational psychology, human exceptionalities, educational statistics and measurement, and educational technologies.
2. Apply foundational ideas and best practices to understand problems of practice and generate viable solutions in formal and informal education and training settings.

Critical Thinking
3. Enact goals for professional growth, ethical practices, and continuous improvement.

Communication
4. Communicate effectively in all forms in a professional environment, adapting appropriately for exceptionality and diversity among individuals.

Disabilities in Society Specialization

The Education Sciences major promotes an understanding of education and learning systems, policy, and outcomes in traditional and non-traditional contexts. This degree prepares individuals for a variety of career paths and for graduate school.

About this Program
• College: Education (p. 436)
• Degree: Bachelor of Arts
  • Specializations: Disabilities in Society (p. 455) | Educational Psychology and Research (p. 458) | Educational Technology (p. 461) | General Studies (p. 463) | Schools, Society and Policy (p. 466)
• Credits for Degree: 120

Academic Learning Compact

Across the country, graduates with education majors typically are prepared to teach in preschool through grade 12 settings. While many university students complete an education degree with teacher certification and begin teaching, others pursue graduate school or employment in fields where preparation in education is an asset. The BAES is appropriate for students interested in leading and supporting the design and implementation of learning environments, studying and informing education policy, optimizing e-learning, advocating for and developing accessible education options for citizens with disabilities, and supporting the learning and training missions of institutions in the modern economy.

Before Graduating Students Must
• Complete requirements for the baccalaureate degree, as determined by faculty.
To graduate with this major, students must complete all university, college, and major requirements.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites may be used for transfer students.

Semester 1
- 2.0 UF GPA required

Semester 2
- Complete 1 of 3 critical tracking courses (EDF 1005, EDF 2085, or EME 2040)
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3
- Complete 2 of 3 critical tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4
- Complete 3 of 3 critical tracking courses
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5
- Complete 1 core course: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.33 GPA required for all critical-tracking courses
- 2.0 UF GPA required
**Semester 6**
- Complete 3 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.5 UF GPA required

**Semester 7**
- Complete 4 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- Complete 2 specialization courses: EEX 3093, EEX 3097, EEX 4520, EEX 4280, EEX 4810
- 2.5 UF GPA required

**Semester 8**
- 2.5 UF GPA required

---

**Model Semester Plan**

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S). One of the two general education mathematics courses must be a pure math course. A course in statistics is recommended for this major but not required.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

### Credits 13

### Total Credits 120

---

1 Gen Ed Social and Behavioral Sciences with International; Gen Ed Humanities with International; Gen Ed Biological or Physical Sciences with International

### Academic Learning Compact

Across the country, graduates with education majors typically are prepared to teach in preschool through grade 12 settings. While many university students complete an education degree with teacher certification and begin teaching, others pursue graduate school or employment in fields where preparation in education is an asset. The BAES is appropriate for students interested in leading and supporting the design and implementation of learning environments, studying and informing education policy, optimizing e-learning, advocating for and developing accessible education options for citizens with disabilities, and supporting the learning and training missions of institutions in the modern economy.

### Before Graduating Students Must

- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Explain foundational ideas and best practices in educational practices and policies, educational psychology, human exceptionalities, educational statistics and measurement, and educational technologies.
2. Apply foundational ideas and best practices to understand problems of practice and generate viable solutions in formal and informal education and training settings.

**Critical Thinking**

3. Enact goals for professional growth, ethical practices, and continuous improvement.

**Communication**

4. Communicate effectively in all forms in a professional environment, adapting appropriately for exceptionality and diversity among individuals.

### Assessment Types

- Final projects
- Experiential learning experiences
Educational Technology

The Education Sciences major promotes an understanding of education and learning systems, policy, and outcomes in traditional and non-traditional contexts. This degree prepares individuals for a variety of career paths and for graduate school.

About this Program

- **College**: Education (p. 436)
- **Degree**: Bachelor of Arts
- **Specializations**: Disabilities in Society (p. 455) | Educational Psychology and Research (p. 458) | Educational Technology (p. 461) | General Studies (p. 463) | Schools, Society and Policy (p. 466)
- **Credits for Degree**: 120
- **Contact**: 1.855.99GATOR
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Related Programs

- Education Sciences
  - Education | Unified Early Childhood Education ProTeach | Pre-K-Grade 3
  - Elementary Education | Grades K-6
  - Florida Teaching Minor
  - UTeach | Mathematics or Science Minor

This major is not a teacher or educator preparation program, rather an exploration of the educational and psychological foundations, research and policy as applied to instruction, learning, and professional development in school and community settings. Core courses serve as an introduction to the many fields of professional practice and research. Students may develop a General Studies curriculum or may choose a specialization in Disabilities in Society, Educational Psychology and Research, Educational Technology, or Schools, Society and Policy.

Graduates of the major would be prepared for a career in a government, non-profit, or education setting and for graduate studies. It would be appropriate for students interested in leading discussions about schools and education, informing policy, optimizing e-learning, advocating for accessibility, and supporting the mission of institutions of learning.

Coursework for the Major

Students must complete 30 credits of coursework for the education sciences major to include a 15-credit core and a 15-credit specialization. The specialization must be declared no later than semester 6. Each specialization’s coursework requirements are specified after the Critical Tracking section. Students must earn a minimum grade of C in a course for it to be applied to the major. A minimum 15 credits of major-related courses must be completed at the University of Florida.

All education sciences majors are required to attend colloquia, contribute to seminars, and participate in experiential learning.

Critical Tracking Courses | 3 courses total
- EDF 1005
- EDF 2085 (GE-S,D)
- EME 2040

Core Courses | 5 courses total
- EDF 3210
- EDF 3604 (GE-S)
- EDF 3423
- EEX 2000 (GE-S,D)
- EME 3813

Specializations

**Disabilities in Society**
Advocating for accessibility and inclusion

**Educational Psychology and Research**
Research methods for understanding cognitive development and learning theory

**Educational Technology**
Preparing for a career in instructional design and e-learning

**General Studies**
Engaging in interdisciplinary and cross-disciplinary studies

**Schools, Society and Policy**
Searching for solutions to enduring problems in education

**Critical Issues & Research in Education** (EDG 4930 - 1 credit; S/U)
A colloquium series that explores current education issues and research. Guest lectures from faculty.

**Senior Seminar** (EDG 4930 - 2 semesters x 1 credit each; S/U)
Seniors present findings/summary of experiential learning.

**Experiential Learning** (EDG 4910 or EDG 4905 - choose one)
Research, Internship, Service Learning, Study Abroad

**Critical Tracking**
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites may be used for transfer students.

Semester 1
- 2.0 UF GPA required

Semester 2
- Complete 1 of 3 critical tracking courses: EDF 1005, EDF 2085, EME 2040
- 2.33 GPA required for all critical tracking courses
- 2.0 UF GPA required
**Semester 3**

- Complete 2 of 3 critical tracking courses
- 2.33 GPA required for all critical tracking courses
- 2.0 UF GPA required

**Semester 4**

- Complete 3 of 3 critical tracking courses
- 2.33 GPA required for all critical tracking courses
- 2.0 UF GPA required

**Semester 5**

- Complete 1 core course: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.33 GPA required for all critical tracking courses
- 2.0 UF GPA required

**SEMESTER 6**

- Complete 3 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- 2.0 UF GPA required

**SEMESTER 7**

- Complete 4 core courses: EDF 3210, EDF 3604, EDF 3423, EEX 2000, EME 3813
- Complete 2 specialization courses: EME 3044, EME 3319, EME 4010, EME 4320, EME 4673
- 2.0 UF GPA required

**SEMESTER 8**

- 2.0 UF GPA required

---

**Model Semester Plan**

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S). One of the two general education mathematics courses must be a pure math course. A course in statistics is recommended for this major but not required.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

Across the country, graduates with education majors typically are prepared to teach in preschool through grade 12 settings. While many university students complete an education degree with teacher certification and begin teaching, others pursue graduate school or employment in fields where preparation in education is an asset. The BAES is appropriate for students interested in leading and supporting the design and implementation of learning environments, studying and informing education policy, optimizing e-learning, advocating for and developing accessible education options for citizens with disabilities, and supporting the learning and training missions of institutions in the modern economy.

Before Graduating Students Must

• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Explain foundational ideas and best practices in educational practices and policies, educational psychology, human exceptionality, educational statistics and measurement, and educational technologies.

2. Apply foundational ideas and best practices to understand problems of practice and generate viable solutions in formal and informal education and training settings.

Critical Thinking

3. Enact goals for professional growth, ethical practices, and continuous improvement.

Communication

4. Communicate effectively in all forms in a professional environment, adapting appropriately for exceptionality and diversity among individuals.

Education Studies Minor

The Education Studies minor provides an understanding of the purpose and function of education and the social and psychological forces that affect young people. The minor does not lead to teacher certification.

About this Program

• College: Education (p. 436)
• Credits: 15 minimum | Completed with minimum grades of C
• Contact: Email (studenthelp@coe.ufl.edu) | 1002 Norman Hall (http://campusmap.ufl.edu/?loc=0101) | 352.273.4376

Requirements

• Students must apply for the minor after earning 45 credits and before earning 100 credits.

• A 2.0 minimum GPA is required and a minimum of 12 credits must be taken at UF.

• Students must obtain college approval on the application for minor (http://www.registrar.ufl.edu/pdf/minorapp.pdf) before submitting the form to studenthelp@coe.ufl.edu.

Fifth-Year Requirement
Students must complete the fifth year requirement as a graduate student earning a Master of Education or as a postbaccalaureate student.

Passing scores on appropriate portions of the Florida Teacher Certification Examination (FTCE) will be required before program completion.

Critical Tracking
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=131202&track=01) may be used for transfer students.

Semester 1
- Complete coursework with minimum grades of C
- 21 ACT with writing or 1010 SAT Reading plus Math (minimum 440 reading & writing and 440 math)
- 2.0 UF GPA required

Semester 2
- Complete coursework with minimum grades of C
- Complete 1 of 3 critical-tracking courses: EDF 1005 or EDF 2085 or EME 2040
- 2.3 UF GPA required

Semester 3
- Complete coursework with minimum grades of C
- Complete 1 additional critical-tracking course
- 2.6 UF GPA required
### Semester 4
- Complete coursework with minimum grades of C
- Complete all 3 critical-tracking courses with a 3.0 critical-tracking GPA
- 2.6 UF GPA required

### Semester 5
- Document passing general knowledge test scores from the FTCE (see audit and/or advisor to determine which test to take)
- Complete all General Education requirements
- Complete the university writing requirement
- Students cannot register for courses in semesters 5-8 before ProTeach admission, which is competitive and available in fall semesters only. Students should meet with the admissions coordinator in G416 Norman Hall to complete an application in February.
- 3.0 upper-division GPA required
- 2.6 UF GPA required

### Semester 6
- 3.0 upper-division GPA

### Semester 7
- 3.0 upper-division GPA

### Semester 8
- 3.0 upper-division GPA

---

#### Model Semester Plan

For electives, students are encouraged to choose courses that will strengthen their knowledge of the content areas of literature, social sciences, natural sciences, and mathematics.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Credits  15
Total Credits  120

Passing score on all subtests of the FTCE subject area exam in preschool education (birth-age 4) required for completion of the bachelor's degree.

Certification
During the fifth year, students complete a dual certification and dual endorsement track, 36-credit master's degree program or a 27-credit postbaccalaureate program.

Program completion confers recommendation for:
• Preschool Education (birth-age 4) Certification
• Pre-K/Primary (age 3-grade 3) Certification
• ESOL Endorsement
• Pre-K Disabilities Endorsement

Academic Learning Compact
This degree is the first step of a two-step process that prepares students for certification to teach Preschool Education (birth - age 4) in the state of Florida. The second step requires completion of the Master of Education degree in prekindergarten education (age 3 - grade 3). The undergraduate program develops the foundation knowledge and skills for effective planning, teaching and evaluating young children's learning and development.

Before Graduating Students Must
• Pass the General Knowledge Test and the Preschool Education Subject Area Test of the Florida Teacher Certification Examination.
• Demonstrate mastery of effective teaching practices by meeting Florida Educator Accomplished Practices 1-6, as determined by multiple instructors across the program.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Demonstrate competency for children, birth to age 4, in child development, contemporary research in early childhood, cultural and linguistic diversity, strategies for engaging families, developmentally appropriate instructional practices, special services for children, screening and assessment, safety and mental and physical health.
2. Create, select and implement specific learning goals, appropriate teaching methods and instructional materials and evaluation strategies aligned with goals, using knowledge of children and developmentally appropriate practices.

Critical Thinking
3. Critically evaluate your own instructional effectiveness to plan future lessons and improve your teaching of all students over time.

Communication
4. Effectively communicate with students, including students whose home language is not standard English, as well as parents and other school personnel.

Educational Technology Minor
The Educational Technology minor focuses on facilitating the educational process in technology-infused 21st century learning environments. This program is designed for future professionals who are seeking a career in educational institutions or industry, small and medium business or corporate settings. Possible employment opportunities include but are not limited to: media specialist, instructional designer, technology trainer, media or web developer or eLearning consultant.

About this Program
• College: Education (p. 436)
• Credits: 15 minimum | Completed with minimum grades of C
• Contact: Email (studenthelp@coe.ufl.edu) | 1002 Norman Hall (http://campusmap.ufl.edu/?loc=0101) | 352.273.4376

The minor combines learning theories, technology, multimedia, and creativity to build a unique professional skill set aimed to empower teaching and learning in real-world situations. Students utilize advance technology and gain hands-on proficiency in creating interactive and engaging multimedia products that are in high demand. Beyond utilizing hardware and software, the minor provides students with solid pedagogical foundations, contemporary research, and proven practices for improving learning outcomes.

The minor welcomes undergraduate students who prefer a flexible online learning schedule and activities. All required courses are offered fully online.
At the completion of the minor, students will have created a Web portfolio showcasing their mastery in designing, developing and utilizing a variety of digital multimedia products and technology to enhance learning effectiveness.

**PREREQUISITES**
- Apply for the minor after earning 45 credits and before earning 100 credits.
- Minimum 2.0 GPA is required. All 3000 and 4000 level courses in the minor must be taken at UF.
- Obtain college approval on the application for minor (http://www.registrar.ufl.edu/pdf/minorapp.pdf) before submitting the form to studenthelp@coe.ufl.edu.

  • UFTeach | Mathematics or Science Minor

The elementary education major prepares the next generation of teachers to be leaders in the creation of more equitable classroom experiences for all children, regardless of race, class, gender, sexuality, ability, language, and other differences. The program is intentionally designed to develop teacher candidates’ competence in working with current school systems while simultaneously cultivating the knowledge, skills, and dispositions necessary to challenge existing systems that fail to support the learning needs of all children. The curriculum is guided by the principles of culturally and linguistically sustaining pedagogy and universal design for learning. Courses and clinical field experiences promote deep learning, equity, and social justice in the elementary classroom context.

This major is a professional teacher preparation program, approved by the Florida Department of Education (FLDOE) and the Council for Accreditation of Educator Preparation (CAEP). Graduates of the major are prepared for professional certification in Elementary K-6 with endorsements in English for Speakers of Other Languages (ESOL) and Reading.

Coursework for the major
This is a limited access major with selective admission to the upper-division program in fall semesters only. Students must accumulate 60 credit hours and meet all Semester 4 critical tracking requirements to be a candidate for admission. The college admissions committee will consider an applicant’s entire record, including educational objectives, quality of courses completed, criminal or disciplinary actions, and test date. The application period is February through April for the following fall semester. An approved applicant would be assigned a course schedule and field placement schedule in Semester 5-8.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=131001&track=01) may be used for transfer students.

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=131001&track=01) may be used for transfer students.

SEMESTER 1
  • Complete coursework with minimum grades of C
  • 2.0 UF GPA required

SEMESTER 2
  • Complete coursework with minimum grades of C
  • Complete 1 of 3 critical-tracking courses: EDF 1005 or EDF 2085 or EME 2040
  • 2.3 UF GPA required

SEMESTER 3
  • Complete coursework with minimum grades of C
  • Complete 1 additional critical-tracking course
  • 2.6 UF GPA required

SEMESTER 4
  • Complete coursework with minimum grades of C
  • Complete all 3 critical-tracking courses with a 3.0 critical-tracking GPA
  • Complete all General Education requirements
  • Complete the university writing requirement
  • Document passing general knowledge test scores from the FTCE series Please see audit and/or advisor to determine which test to take.
  • 2.6 UF GPA required

Students cannot register for courses in semesters 5-8 before program admission, which is competitive and available in Fall semesters only. Students should meet with the admissions coordinator in 1-206 Norman Hall to complete an application for admission in February of their sophomore year.

SEMESTER 5
  • Complete all required courses with no grade below C
  • 3.0 upper-division GPA required
  • 2.6 UF GPA required

SEMESTER 6
  • Complete all required courses with no grade below C
  • 3.0 upper-division GPA

SEMESTER 7
  • Complete all required courses with no grade below C
  • Document passing Elementary K-6 subject area exam scores from the FTCE series
  • 3.0 upper-division GPA

SEMESTER 8
  • Complete all required courses with no grade below C
  • Earn acceptable ratings for all Florida Educator Accomplished Practices
  • Document a passing score on the professional education test from the FTCE series
  • 3.0 upper-division GPA
For electives students are encouraged to choose courses that will strengthen their knowledge of the content areas of literature, social sciences, natural sciences, and mathematics.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

### Course Title Credits

**Semester One**
- Quest 1 (Gen Ed Humanities) 3
- State Core Gen Ed Biological or Physical Sciences (p. 53) 3
- State Core Gen Ed Composition (p. 53); Writing Requirement: 6,000 words 3
- State Core Gen Ed Mathematics (p. 53) 3
- State Core Gen Ed Social and Behavioral Sciences (p. 53) 3

**Credits** 15

**Semester Two**
- EDF 1005 Introduction to Education (Critical Tracking) 3
- Select one:
  - EDF 3110 Human Growth and Development (Gen Ed Social and Behavioral Sciences) 3
  - DEP 3053 Developmental Psychology (Gen Ed Social and Behavioral Sciences) 3
- State Core Gen Ed Humanities (p. 53) 3
- Gen Ed Composition; Writing Requirement: 6,000 words 3
- Gen Ed Mathematics 3

**Credits** 15

**Semester Three**
- EDF 2085 Teaching Diverse Populations (Critical Tracking; Gen Ed Social and Behavioral Sciences and Diversity) 3
- Gen Ed Biological or Physical Sciences 3
- Elective (Writing Requirement: 6,000 words) 3
- Electives 6

**Credits** 15

**Semester Four**
- Quest 2 (Gen Ed Biological or Physical Sciences OR Gen Ed Social and Behavioral Sciences) 3
- EME 2040 Introduction to Educational Technology (Critical Tracking) 3
- Elective (Gen Ed International) 3
- Elective (Writing Requirement: 6,000 words) 3
- Elective 3

**Credits** 15

**Semester Five**
- EDF 3115 Child Development for Inclusive Education 3
- EEX 3070 Teachers and Learners in the Inclusive School 3
- LAE 3005 Children’s Literature 3
- MAE 3312 Mathematics Content for Elementary Teachers 3
- SDS 3430 Family and Community Involvement in Education 3

**Credits** 15

### Certification Options

During the fifth year, students may select from two certification tracks:

**Dual-Certification Track**
36-credit master’s degree program or 30-credit postbaccalaureate program

- Confers recommendation for certifications in elementary (grades K-6) and exceptional student education (ESE K-12) with endorsements in ESOL and reading

**Single-Certification Track**
36-credit master’s degree program or 21-credit postbaccalaureate program

- Confers recommendation for certification in elementary (grades K-6) with endorsements in ESOL and reading

### Academic Learning Compact

This degree is the first step of a two-step process that prepares students for certification to teach grades K-6 in the state of Florida. The second step requires completion of the Master of Education degree in elementary education or special education. The undergraduate program develops
the foundation knowledge and skills for effective planning, teaching and evaluating pupil learning.

**Before Graduating Students Must**

- Pass the General Knowledge Test and the Elementary Education Subject Area Test of the Florida Teacher Certification Examination.
- Demonstrate mastery of effective teaching practices by meeting Florida Educator Accomplished Practices 1-6, as determined by multiple instructors across the program.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Demonstrate subject matter competency for grades K - 6 in language arts, social science, mathematics, science, technology, physical education and health and the arts.
2. Create, select and implement: specific learning goals, appropriate teaching methods and instructional materials and evaluation strategies aligned with goals, using knowledge of subject matter, learners and classroom management.

**Critical Thinking**

3. Critically evaluate your own instructional effectiveness to plan future lessons and improve your teaching of all students over time.

**Communication**

4. Effectively communicate with students, including students whose home language is not standard English, as well as with parents and other school personnel.

**Related Programs**

- Education Sciences
- Education Sciences UF Online
- Education | Unified Early Childhood Education ProTeach | Pre-K-Grade 3
- Elementary Education | Grades K-6
- UFTeach | Mathematics or Science Minor

The minor requires completion of coursework in the professional preparation areas of human development and learning, assessment, classroom management, instructional strategies, reading competency and curriculum and special methods. Students will have extensive opportunities to integrate their teacher education coursework with actual classroom experience.

The minor is open to undergraduates with a major other than mathematics, science or education. Students with majors in mathematics or science should refer to the UFTeach minor.

Admission to this minor requires a UF GPA of 2.5 or better. Students must apply for acceptance to the minor within the college of their major and the College of Education after 45 but before 100 credits are earned. More Info (http://education.ufl.edu/student-services/)

Those pursuing the minor are encouraged to complete the Florida Teacher Certification Examination (FTCE) General Knowledge Test (recommended in sophomore/junior year), the FTCE Subject Area Exam (recommended early in senior year) and the FTCE Professional Education Test (recommended mid-senior year). More Info (http://fl.nesinc.com/)

FTCE tests are not required for award of the minor, but they are required for certification.

### UFTeach | Mathematics or Science Minor

The UFTeach minor (https://education.ufl.edu/uf-teach/) is appropriate for students who wish to teach mathematics or science at the middle school and high school levels in Florida. This is an alternative certification program, specifically a Professional Training Option (PTO), meant to prepare math and science students for temporary teacher certification in Florida. Professional teacher certification is attainable after one year of successful teaching in a Florida public school.

**For students majoring in STEM disciplines**

### About this Program

- **College:** Education (p. 436)
- **Credits:**
  - Mathematics | 22, completed with minimum grades of C
  - Science | 22, completed with minimum grades of C
- **Contact**

### School Information

With more than three-dozen faculty and students from all over the world, the School of Teaching & Learning offers on-campus and online programs in a diverse range of subjects in education.

### Mathematics

**UFTeach | Mathematics**

The minor requires completion of coursework in the professional preparation areas of human development, learning, assessment, classroom management, instructional strategies, reading competency, curriculum and special methods. Students will have extensive opportunities to integrate their teacher education coursework with practice in formal and informal K-12 environments focusing on learning mathematics. This program includes field experiences in local schools. A level 2 background check (fingerprinting) by the School Board of Alachua County will be required before placement.

The minor is open to undergraduates with majors in mathematics, quantitative science or related fields. Admission to this minor requires a UF GPA of 2.5 or better. Students must apply for acceptance to the minor within the college of their major and the College of Education after 45 but before 100 credits are earned.

More Info ([https://www.advising.ufl.edu/academicinfo/minors/](https://www.advising.ufl.edu/academicinfo/minors/))

Those pursuing the minor are encouraged to complete the Florida Teacher Certification Examination (FTCE) General Knowledge Test (recommended in the junior year), the FTCE Subject Area Exam (recommended early in the senior year) and the FTCE Professional Education Test (recommended mid-senior year).

**FTCE tests are not required for award of the minor, but they are required for certification.**

Engineering, Herbert Wertheim College of Engineering

Established in 1910, the Herbert Wertheim College of Engineering is the largest professional school, the second-largest college and one of the three largest research units at the University of Florida. The curricula is designed to produce highly skilled engineers and provide each student with a broad range of degree and career choices.

Established

1910

Programs

A four-year undergraduate program and combination-degree program with joint award of bachelor’s and master’s degrees in 15 engineering specializations.
Degrees
Bachelor of Science, Master of Science, Master of Civil Engineering, Master of Engineering, Doctorate.

Academic Advising
First Year students receive academic advising and career coaching in the Center for Student Excellence. All first-year students complete a required First Year Engineering Advising (https://www.eng.ufl.edu/students/advising/) course designed to teach them how to navigate their academic planning and successfully transition from high school to college. Students who successfully complete their first year are transitioned to advising in their major department. All engineering students must contact an academic advisor before registering for classes each semester.

Scholarships
Scholarship awards are made each spring for the following academic year and are based on demonstrated need and scholastic performance. Applications are available in the fall semester and students are notified by Undergraduate Student Affairs.

Internships and Career Guidance

College Mission
The Herbert Wertheim College of Engineering fosters and provides world-class programs in engineering education, research and service to enhance the economic and social well-being of the citizens of Florida, the nation and the world.

Graduates of the Herbert Wertheim College of Engineering at the University of Florida will exhibit the following in pursuit of their profession:

- Vision, as evidenced by an ability to use creative approaches to problem solving.
- Values, as evidenced by an understanding of the importance of employing strong professional ethics.
- Leadership, as evidenced by serving as:
  - A team/project leader with solid project management and planning skills
  - A mentor to less experienced staff
  - A volunteer in the community
- Professional expertise, as evidenced by:
  - Making meaningful contributions to technical engineering problem solving as both an individual contributor and in team situations
  - Continually enhancing both technical and non-technical skills
  - Applying professional expertise to increasingly complex problems/projects
  - Increasingly capable communications skills, both verbal and written
  - Knowledge about the interaction of financial, societal, legal or cultural influences with science and technology.

Accreditation
For information about a specific major, please refer to the departmental webpage, contact the undergraduate coordinator in the department, or visit the Center for Student Excellence in 204 Weil Hall.

Particle Engineering Research Center (PERC) More Info (http://www.erc.ufl.edu/)
Information about the center's research, education and technology transfer programs: 352.846.1194 or Email (erc@erc.ufl.edu).

Engineering Undergraduate Student Affairs
Engineering student services are provided through Engineering Undergraduate Student Affairs located in 312 and 204 Weil Hall (http://campusmap.ufl.edu/?loc=0024). Undergraduate Student Affairs is responsible on a college-wide basis for coordinating academic advising and developing and implementing other student support programs and services, including career/college life coaching, success workshops, study halls, tutoring and mentoring, retention efforts, and new student programs.

The division informs students of educational opportunities such as scholarships, tuition waivers, co-op and internship opportunities and available campus resources. The division also serves as liaison between the Herbert Wertheim College of Engineering and university-wide student services and facilities.

First Year Academic Advising and Career Coaching
First year engineering students receive individualized academic, career, and personal coaching from the Herbert Wertheim College of Engineering's professional academic advisors and career coaches in our comprehensive First Year Advising program. One-on-one and small group sessions are offered to assist students in identifying majors, resources, and opportunities that will enhance their personal, professional, and academic goals. Engineering Peer Advisors are also available to answer questions, discuss student organizations and design teams, and provide mentoring to new students. The Engineering Center for Student Excellence is located in 204 Weil Hall (http://campusmap.ufl.edu/?loc=0024) and the Wertheim Laboratory for Engineering Excellence (https://www.eng.ufl.edu/about/transformation/herbert-wertheim-laboratory-for-engineering-excellence/).

Multicultural and Diversity Programs
These programs provide focused support to under-represented groups in the engineering profession. Students receive the personal, academic, social and cultural support they need to achieve academic success.

Services include orientation to UF and the college, academic and career advice, leadership development, engineering success skill development, coaching, financial assistance and tutoring.

First Year College Transition Program
STEP-UP is a multifaceted bridge program designed to promote academic and personal success among entering engineering students throughout their first year (Summer B, fall and spring). This program combines faculty and peer mentoring with team-building, industry involvement and academic enhancement classes in engineering foundation
courses. An engineering design component provides the opportunity to apply foundational concepts in problem-solving, team-building and interpersonal communications.

**Pre-Collegiate K-12 Programs**

The Herbert Wertheim College of Engineering supports the university’s land-grant mission through a wide range of programs that support student preparation in grades K-12. These include the Gator Engineering Outreach Program, SECME, Engineering GatorTrax and information programs for students and guidance counselors.

Information about these programs: Engineering Undergraduate Student Affairs, 212 Weil Hall (http://campusmap.ufl.edu/?loc=0024).

**Admission Policies**

**Admission to the College**

**Preparation for Freshmen and Sophomores**

The beginning engineering student should have a good understanding of the basic physical sciences, a demonstrated ability in mathematics and the competence to read rapidly with comprehension.

Minimum high school preparation should include the basics outlined below. Students who need additional foundation courses can complete appropriate math and chemistry courses before proceeding with the regular engineering curriculum.

Refer to freshman admission for complete information.

**General Education**

Students must complete general education and prescribed foundation coursework in mathematics and the physical and biological sciences before pursuing junior/senior-level courses in the college. All courses used to satisfy general education requirements must be taken for a letter grade and a minimum grade of C is required. Requirements of the Accreditation Board for Engineering and Technology (ABET) in general education are satisfied by the university’s general education requirements.

**Transfer from Florida State Colleges**

Florida state college students who have completed the Associate of Arts degree and the required technical foundation courses in calculus, differential equations, chemistry and physics with calculus are eligible to apply for transfer directly into the Herbert Wertheim College of Engineering. Admission to the college is selective and is based on the total record. Students with excessive withdrawals from coursework may not be eligible.

In particular, transfer students must meet the following minimum requirements:

- Earn an Associate of Arts degree from a Florida public state college with a minimum GPA of 2.00.
- Satisfy the general education requirements of the state college and comply with the general education requirements of UF and the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology.
- Complete two sequential courses of foreign language in secondary school or 8-10 semester credits at the post-secondary level or document an equivalent level of proficiency.
- Satisfy critical-tracking criteria in accordance with specific program requirements and overall grade point average.
- Complete critical-tracking courses in calculus, differential equations, chemistry and physics with calculus with minimum grades of C in each course and a minimum GPA specified for the intended major (as computed on the last of a maximum of two attempts allowed for each course, including withdrawals). Certain majors have higher minimum GPA requirements and may have additional critical tracking course requirements.

**Upper Division Transfer from a Non-Florida State College**

All students who transfer from four-year institutions must meet the general admission requirements of the university. In addition, students must meet the college’s admission requirements to transfer directly into an engineering program. Students with 60 or more credits earned but less than 90 credits will be considered on a space-available basis.

Students with more than 90 credits earned and applying from a non-Florida state/public college are generally not considered for admission.

All students transferring to UF must complete a minimum of 60 credits of acceptable 3000/4000-level coursework at UF to receive a degree from this college.

Unless previous arrangements have been made for course certification by faculty of the Herbert Wertheim College of Engineering, only engineering courses taken in programs accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology will be considered for transfer to this college.

**Postbaccalaureate Admission**

A student who has received a baccalaureate degree who wants to meet specific requirements for admission to graduate school may be admitted as a postbaccalaureate student. Space is limited for postbaccalaureate study and only where space is available will admissions be made for postbaccalaureate studies.

**INTERNATIONAL ENGINEERING PROGRAMS**

HWCOE International Engineering Programs offers students the opportunity to participate in international experiences, through study, research, internship and service learning abroad. Students can study abroad for a semester and take major classes or participate in a summer program to gain research or internship experiences. There are more
than 40 semester-long exchange programs in more than 20 countries that offer engineering classes in English to help students stay on track for their academic program. Credits earned in study abroad programs may count toward a major or minor and can satisfy general education, language and summer residency requirements.

Every engineering student has a unique academic plan and we work with the individual student to customize their international experience. For more information, go to https://www.eng.ufl.edu/international or talk to your academic advisor to find out more.

**Academic Regulations**

**Credit for Special Work**
- With department approval, a student can receive practical industry work experience under supervision. With a previously approved outline, a student can receive up to three college credits by submitting a satisfactory report and by passing an examination.
- Students can receive credit for research work by registering for EGN 4912. See your academic advisor for details.
- A student cannot apply more than eight credits of individual study, including high honors projects, co-op work experience, practical work experience and special problems or special topics, for credit toward a degree program.

Dean's List (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/)

**Drop Policy**

Students are allowed two drops in the first 60 credits of UF coursework and two drops in upper division (60 or more credits completed at UF).

College petitions (https://www.eng.ufl.edu/students/resources/undergraduate-student-handbook/petitions/) to drop courses beyond the allotted number will be approved only when circumstances beyond the student's control prevented the satisfactory completion of a course. All such petitions must be submitted to Engineering Undergraduate Student Affairs, along with a written recommendation from the student's department advisor.

**English Requirement**

Each student in the college is required to complete ENC 1101 or ENC 1102. All students must also complete an appropriate course in professional communication with a minimum grade of C.

Any instructor in the college may require a student with a deficiency in English to complete additional coursework beyond the curriculum requirements for the degree, with approval of the department chair.

**Flexible Learning**

An enrolled engineering student will not be permitted to register for flexible learning courses unless the associate dean for student affairs and the registrar grant special permission. A student on probation must have permission of the associate dean to register for flexible learning courses when not enrolled in the college. A student who has been dismissed cannot take flexible learning courses for credit until the suspension is removed. A minimum grade of C is required for credit in a flexible learning course.

**Grievance Procedures**

The college supports the university's Affirmative Action and Equal Opportunity program. Anyone who believes that they have been discriminated against should contact the associate dean for student affairs.

If a student feels that their performance in a course has not been evaluated accurately, the situation should be discussed with the instructor. If the disagreement is not resolved, the student can pursue the matter with the instructor’s department chair, the associate dean for student affairs and the university ombudsman.

**Honors and Accelerated Courses**

Honors and accelerated courses can be taken in place of their regular tracking counterparts. A prerequisite for any college course can be met by an honors or accelerated equivalent. Accelerated physics and honors chemistry courses are not restricted to students in the honors program, but honors calculus courses are controlled by the university honors program. Currently approved substitutions include:

- MAC 3472 instead of MAC 2311
- MAC 3473 instead of MAC 2312
- MAC 3474 instead of MAC 2313
- PHY 2060 instead of PHY 2048
- PHY 2061 instead of PHY 2049

**Independent Study**

Under certain circumstances, credit toward graduation may be obtained through independent study by registering for a course carrying a department prefix. A student cannot apply more than eight credits of independent study toward a degree program, including magna cum laude or summa cum laude honors projects, co-op work experience, practical work experience and special problems or special topics. Registration for one to four credits of variable credit in a semester requires department approval.

**Probation Policy and Dismissal**

An undergraduate student who is off-track or whose university, upper-division, or department grade point average falls below 2.00 will be placed on academic probation. The student will be allowed up two semesters to attain good academic standing and are expected to make satisfactory academic progress in probation semesters. Students may not be on academic probation for more than two semesters during their undergraduate program. A student who fails to meet the conditions of probation must petition their department to be allowed to continue in the major. Approval of this petition is at the discretion of the student’s department.

As a condition of probation, students must see an academic advisor at designated intervals to review progress toward meeting the conditions of probation. Failure to keep such appointments without valid reason will be considered a violation of probation and may result in dismissal from the program.

Students dismissed from the Herbert Wertheim College of Engineering should seek admission to another program.

Students should acquaint themselves with their department’s probation and exclusion procedures and guidelines.
ROTC
Engineering students can enroll in the advanced ROTC programs offered by the Army, Navy and Air Force. Graduates will be commissioned as second lieutenants or ensigns. Advanced courses in military science are not normally acceptable credit as technical or nontechnical electives toward an engineering degree.

S/U Grade Option
All courses taken at the university to satisfy engineering degree requirements, general education and writing requirements must be taken for letter grade, unless the course is offered only on a satisfactory/unsatisfactory (S/U) basis. Nontechnical electives in the junior and senior years can be taken S/U with departmental approval.

Physical education courses taken when an engineering student has reached junior status must be taken S/U.

Students should check with their departments to determine policy.

Student Responsibility
It is the student's responsibility to review and consider all pertinent information about the university and the college. Special attention must be paid to required documentation and deadlines.

Summer Attendance
Students who have completed a summer study abroad program, co-op, internship, research experience, or other engineering-related work can petition to waive this requirement once they have earned 75 credit hours. All petitions must be submitted to the university petitions committee with all appropriate documentation.

Transient Students
This category includes students who are admitted to the college who wish to pursue studies temporarily at another two- or four-year institution. Students who wish to transfer credits for coursework completed at other institutions must first obtain department and college approvals.

A transient student who is a degree-seeking candidate at another institution who wishes to transfer credit from the University of Florida must file a non-degree application with the Office of the University Registrar in Criser Hall.

Withdrawal from the University
Any undergraduate who withdraws from the university a second time will be placed on college probation automatically until graduation. Any student on college probation who withdraws from the university a third time may be, at the discretion of the associate dean for undergraduate student affairs, ineligible for further registration in the college.

Degree Requirements
The Herbert Wertheim College of Engineering confers a Bachelor of Science degree upon all students who have successfully completed a program of study and have fulfilled all requirements for a specific major in the college.

A thesis is not required for the baccalaureate degree. However, the department can grant permission to exceptional students to undertake a thesis in lieu of up to four semester credits of required or elective work in the student's department.

Required Minimum Grade Point Averages
- 2.5 - 2.8 GPA is required in critical-tracking courses depending on major
- 2.0 GPA is required for all courses in the college
- 2.0 GPA is required in all courses in the department
- 2.0 GPA is required in all courses taken after being classified as an upper division student
- 2.0 cumulative GPA is required in all work attempted at the university

All grade point averages are based on a 4.0 scale. Critical tracking grade point averages are computed on the best of the maximum two attempts (including withdrawals) allowed for each course.

Technical Foundation Courses
Technical coursework is required of all students. This coursework also satisfies the mathematics and physical/biological science categories of the general education requirement. Generally, all technical coursework must be completed or be in final progress before a student can register for junior/senior-level engineering courses. Minimum grades of C are required in all critical tracking coursework based on a maximum of two attempts, including withdrawals.

Some departments may have higher requirements.

Critical-Tracking Criteria
The Herbert Wertheim College of Engineering has established tracking criteria for all programs. Applicants with specific questions can contact the department or Engineering Undergraduate Student Affairs.

Students must fulfill the performance criteria for their program's tracking courses. Students who are off-track will be placed on probation. Students who fail to meet the conditions of their probation may not be allowed to continue in the Herbert Wertheim College of Engineering.

A minimum grade of C (based on a maximum of two attempts, including withdrawals) is required for each tracking course. Students may repeat a maximum of three critical tracking courses. Students must meet the minimum critical tracking GPA for their specific major to continue to the upper-division engineering program. Some departments require a grade higher than C in critical tracking courses. Students are expected to complete all critical tracking courses by the fifth tracking semester.

To be on track, students must meet or exceed these minimum performance criteria.

Additional critical tracking requirements\(^4\)

Refer to specific major plan

---

1. Calculus and chemistry placement will be determined by student scores on the online ALEKS assessment test, which is required for all engineering students.
2. Industrial and systems engineering majors: CHM 2045 is not required for tracking; however, it is required for graduation.
3. Aerospace engineering, civil engineering, computer engineering, computer science, digital arts and sciences, electrical engineering, industrial and systems engineering, mechanical engineering, and nuclear engineering either do not require CHM 2046/CHM 2096 or may substitute another course.
4. Additional critical tracking requirements for specific majors are listed in the major degree programs.
5. Not a critical tracking course for Computer Science.

### Progression to Graduation

The programs leading to bachelor’s degrees in engineering are carefully planned and organized sequences. The highly motivated student with proper high school preparation can complete these programs in four years, including at least one summer term, by scheduling an average of 15 credits each semester.

Usually, foundation subjects common to all fields of engineering are studied in the first two years at the university or in a pre-engineering program at a state or community college. Specialized study is taken in the junior and senior years within a department of the college, where the program is tailored to the student’s preparation, interests and career goals.

The specific requirements for each major are outlined. Students must consult their academic advisors each semester before they can register for classes.

Graduating with Honors (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#graduatingwithhonortext)

### Programs

#### MAJORS

- Aerospace Engineering
- Biological Engineering
- Biomedical Engineering
- Chemical Engineering
- Civil Engineering
- Combination Degrees
- Computer Engineering
- Computer Science | Herbert Wertheim College of Engineering
- Digital Arts and Sciences | Bachelor of Science
- Electrical Engineering
- Engineering | Exploring Engineering Studies
- Environmental Engineering
- Industrial and Systems Engineering
- Materials Science and Engineering
- Mechanical Engineering
- Nuclear and Radiological Sciences
- Nuclear Engineering

#### MINORS

- Biomechanics Minor
- Biomolecular Engineering Minor
- Computer and Information Science and Engineering Minor
- Computer and Information Science and Engineering Minor UF Online
- Electrical Engineering Minor
- Engineering Innovation Minor
- Materials Science and Engineering Minor
- Nuclear and Radiological Engineering Minor
- Sales Engineering Minor

#### CERTIFICATES

- Advanced Engineering Ceramics Certificate
- Artificial Intelligence Fundamentals and Applications Certificate
- Biomaterials Certificate
- Engineering Innovation Certificate
- Engineering Leadership Certificate
- Engineering Project Management Certificate
- Metallurgical Engineering Certificate
- Nuclear Radiation and Reactor Analysis Certificate
- Nuclear Thermal Systems Analysis Certificate
- Packaging Engineering Certificate
- Polymer Science and Engineering Certificate
- Semiconductor Materials Certificate

#### Computer-Related Degrees

The Herbert Wertheim College of Engineering has responsibility for teaching all computer courses included in computer-related degree
programs at the University of Florida. These degrees are offered in the colleges of Business, Engineering, and Liberal Arts and Sciences.

**Computer Engineering Programs**

Computer Engineering (CPE) is a joint program of the Computer and Information Science and Engineering (CISE) and the Electrical and Computer Engineering (ECE) departments. The Bachelor of Science in Computer Engineering (BSCPE) is offered by both departments and requires 126 credits for graduation.

This degree program produces a computer engineer who has the knowledge of hardware and software to build working computer systems from electronic components and to program them for a variety of tasks.

**Combination Degree Programs**

Qualified students can pursue a bachelor's and a master's degree concurrently. These combination-degree programs are offered in all departments within the Herbert Wertheim College of Engineering. More Info [here](http://catalog.ufl.edu/UGRD/academic-programs/combined-degrees/)

**Advanced Engineering Ceramics Certificate**

The Advanced Engineering Ceramics certificate enables students to specialize in a concentration of modern approaches to the analysis of technical ceramic materials. It also helps students from other disciplines enhance their degree by including a dedicated knowledge of a specific material class.

**About this Program**

- **College**: Herbert Wertheim College of Engineering (p. 477)
- **Credits**: 10 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

**Department Information**

The Department of Materials Science and Engineering strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting, and distance learning to promote engineering in the field.

---

**Aerospace Engineering**

Aerospace engineers are called upon to solve exciting problems of design, construction and operation of aircraft and spacecraft to meet the ever-increasing requirement for improved performance at lower unit cost. These challenges mean that aerospace engineers work at the continuously changing forefront of science, technology, and systems management.

**About this Program**

- **College**: Herbert Wertheim College of Engineering (p. 477)
- **Degree**: Bachelor of Science in Aerospace Engineering
- **Credits for Degree**: 128

To graduate with this major, students must complete all university, college, and major requirements.

**Department Information**

The Department of Mechanical and Aerospace Engineering (MAE) is the largest academic program on campus by student enrollment. The Mechanical Engineering program celebrated its 100 year anniversary in 2009 and is one of the founding departments of the Herbert Wertheim College of Engineering. More than a decade after the successful merger of the mechanical and aerospace programs, MAE remains a vibrant and
All graduating seniors must complete an exit interview.

Students who do not satisfy the conditions of the first term on academic contract with an MAE academic advisor. Students normally are allowed to be placed on academic probation and required to complete a probation whose critical-tracking grades do not meet department requirements will be removed from the program. An aerospace or mechanical engineering student whose cumulative, upper-division or department grade point average falls below a 2.0 or whose critical-tracking grades do not meet department requirements will be placed on academic probation and required to complete a probation contract with an MAE academic advisor. Students normally are allowed a maximum of two terms (consecutive or non-consecutive) on academic probation. Students who do not satisfy the conditions of the first term on probation may be dismissed from the department.

All graduating seniors must complete an exit interview.

Dual-Degree Programs

There is great overlap between the aerospace engineering and mechanical engineering curriculum. The first six semesters of the two degree programs are identical. Through proper selection of electives, students can earn dual mechanical engineering/aerospace engineering B.S. degrees with one semester of additional work. Interested students should contact the Department of Mechanical and Aerospace Engineering or its website for more information.

Educational Objectives

The objective of the aerospace engineering program at UF is to prepare students to attain the following goals within a few years of graduation:

• Graduates will meet the expectations of employers of aerospace engineers.
• Qualified graduates will pursue advanced study if they so desire.

Mission

The mission of the undergraduate program is to:

• serve the state of Florida, the United States and the engineering profession by providing quality educational programs in aerospace engineering;
• conduct a nationally recognized research program; and
• foster ongoing professional development of students and faculty.

Research Programs

The department's active research programs are sponsored by private industry, the National Science Foundation, Department of Defense, NASA, National Institutes of Health and other agencies. These programs keep faculty at the leading edge of technology and provide opportunities for students to participate in research through classroom assignments, individual studies, undergraduate research scholarships and employment as research assistants.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=140201&track=01) may be used for transfer students.

Semester 1

• Complete 2 of 8 critical tracking (pre-professional) courses with a minimum grade of C within two attempts:
  CHM 2045 or CHM 2095, EML 2023, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
• 2.8 GPA required for all critical-tracking courses (pre-professional)
• 2.0 UF GPA required

Semester 2

• Complete 2 additional critical-tracking courses (pre-professional) with a minimum grade of C within two attempts

Department Requirements

Minimum grades of C are required for EGM 2511, EGM 3401, EGM 3520, EGM 3344, and EML 3100. The minimum grade of C is considered part of the prerequisite requirement for courses that list EGM 2511, EGM 3401, EGM 3520, EGM 3344, or EML 3100 as a prerequisite. The prerequisite course and subsequent course cannot be taken in the same term, even if the prerequisite is being repeated.

An aerospace or mechanical engineering student whose cumulative, upper-division or department grade point average falls below a 2.0 or whose critical-tracking grades do not meet department requirements will be placed on academic probation and required to complete a probation contract with an MAE academic advisor. Students normally are allowed a maximum of two terms (consecutive or non-consecutive) on academic probation. Students who do not satisfy the conditions of the first term on probation may be dismissed from the department.

Curriculum

• Aerospace Engineering
• Biomechanics Minor
• Combination Degrees
• Mechanical Engineering

Related Programs

• Dual Degree in Mechanical Engineering and Aerospace Engineering

The undergraduate curriculum in aerospace engineering is a fully accredited baccalaureate program that provides a broad education with a strong foundation in mathematics, science and basic engineering sciences. Advanced courses in aeronautics and astronautics complete the degree. Graduates will be prepared to work in the aerospace and related industries or to pursue graduate study.

Combination Bachelor’s/Master’s Degree Program

The aerospace engineering professional often benefits from an advanced degree to meet the challenging needs of industry and government. Accordingly, the MAE department actively participates in the combination B.S./M.S. degree program that allows students to double-count graduate courses toward both degrees. The combination-degree program reduces the cost for both degrees and enhances the student’s marketability for career advancement. Interested students should contact the Department of Mechanical and Aerospace Engineering or its website for more information.

The mission of the undergraduate program is to:

• serve the state of Florida, the United States and the engineering profession by providing quality educational programs in aerospace engineering;
• conduct a nationally recognized research program; and
• foster ongoing professional development of students and faculty.

Research Programs

The department’s active research programs are sponsored by private industry, the National Science Foundation, Department of Defense, NASA, National Institutes of Health and other agencies. These programs keep faculty at the leading edge of technology and provide opportunities for students to participate in research through classroom assignments, individual studies, undergraduate research scholarships and employment as research assistants.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=140201&track=01) may be used for transfer students.

Semester 1

• Complete 2 of 8 critical tracking (pre-professional) courses with a minimum grade of C within two attempts:
  CHM 2045 or CHM 2095, EML 2023, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
• 2.8 GPA required for all critical-tracking courses (pre-professional)
• 2.0 UF GPA required

Semester 2

• Complete 2 additional critical-tracking courses (pre-professional) with a minimum grade of C within two attempts
SEMESTER 3

• Complete 2 additional critical-tracking courses (pre-professional) with minimum grades of C within two attempts
• EGM 2511 with minimum grade of C
• EAS 2011

• 2.8 GPA required for all critical-tracking courses (pre-professional)
• 2.0 UF GPA required

SEMESTER 4

• Complete all critical-tracking courses (pre-professional) with minimum grades of C within two attempts
• EGM 3344 with minimum grade of C
• EGM 3520 with minimum grade of C
• EML 3100 with minimum grade of C

• 2.8 GPA required for all critical-tracking courses (pre-professional)
• 2.0 UF GPA required

SEMESTER 5

• EGM 3401 with minimum grade of C
• EAS 4101

SEMESTER 6

• Complete three of the remaining EAS 3XXX/4XXX required courses

SEMESTER 7

• Complete two of the remaining EAS 3XXX/4XXX required courses

SEMESTER 8

• Complete all remaining EAS 3XXX/4XXX required courses

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.
undergraduate curriculum provides a broad education with a strong foundation in mathematics, science and basic engineering sciences. Advanced courses in aeronautics and astronautics complete the degree program and prepares students to work in aerospace industries or to pursue graduate study.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (https://urldefense.proofpoint.com/v2/url?u=http%3A__www.abet.org&d=DwMGaQ&c=pZJPUDQ3SB9JpYbfn4mt2iEVG5pWx2KHlF73B6m6EyD7QFps6kPA&m=-KF2G1JwsXcME70kGBMlRYTy2i4YuqEwzRan98WV1M&s=73PhSd8hcnu3AXIyLslG3oL35y&i=0&js=1&r=0&TC=.A). ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation/).

Before Graduating Students Must

• Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
• Pass assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor according to department standards.
• Complete an exit interview in your final semester.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to Student Learning Outcomes (SLOs)

Content
1. Apply knowledge of mathematics, science and engineering principles to aerospace engineering problems.
2. Design and conduct aerospace engineering experiments, analyzing and interpreting the data.

Critical Thinking
3. Design an aerospace engineering system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints.

Communication
4. Communicate technical data and design information effectively in writing and in speech to other aerospace engineers.

Before Graduating Students Must

• Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
• Pass assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor according to department standards.
• Complete an exit interview in your final semester.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to Student Learning Outcomes (SLOs)

Content
1. Apply knowledge of mathematics, science and engineering principles to aerospace engineering problems.
2. Design and conduct aerospace engineering experiments, analyzing and interpreting the data.

Critical Thinking
3. Design an aerospace engineering system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints.

Communication
4. Communicate technical data and design information effectively in writing and in speech to other aerospace engineers.

Artificial Intelligence Fundamentals and Applications Certificate

The AI Fundamentals and Applications Certificate is intended for undergraduates of all majors (both technical and non-technical) to understand fundamentals of artificial intelligence, its applications to real world problems in various disciplines, and ethical and professional responsibilities of these technologies. The certificate consists of a required fundamentals course, a college specific application course and an ethics course. Students use high level AI tools and apply them to problems in their disciplines.

About this Program

- **College**: Herbert Wertheim College of Engineering (p. 477)
- **Credits**: 9 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Admission Criteria

Junior level of any major, MAC 1147 or equivalent. Some elective courses require prerequisites which are fulfilled by the majors indicated.

Biological Engineering

Biological Engineering (BE) applies engineering principles to protect natural resources and to produce food, biofuels, pharmaceuticals, and other biobased products. BE incorporates foundations of biology with engineering theory and practice to develop sustainable solutions to problems facing a broad range of industries.

About this Program

- **College**: Herbert Wertheim College of Engineering (p. 477)
- **Degree**: Bachelor of Science in Biological Engineering
  - **Specializations**: Agricultural Production Engineering (p. 488) | Biosystems Engineering (p. 491) | Land and Water Resources Engineering (p. 494) | Packaging Engineering (p. 497)
- **Credits for Degree**: 128
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Agricultural and Biological Engineering is founded on developing, teaching, and applying engineering principles to improve and sustain agricultural and biological systems for current and future generations.

Website (https://abe.ufl.edu/)

CONTACT

352.392.1864 (tel) | 352.392.4092 (fax)

P.O. Box 110570

Map (http://campusmap.ufl.edu/#/index/0474)

Curriculum

- Agricultural Operations Management
- Biological Engineering
- Combination Degrees
- Packaging Engineering Certificate
- Packaging Science Minor
- Precision Agriculture Minor

Biological engineers pioneer new designs and techniques in such areas as agricultural robotics, remote sensing, bioprocessing, biofuels, precision agriculture, plant space biology, sustainability of our natural resources, and packaging product design and development.

Graduates are educated in the biological and environmental sciences as well as in engineering. They will address critical problems involving land and water resources, biological systems, production agriculture and innovations in packaging. Students can choose a focus area
based on their courses of specialization and individual selection of electives. Areas of specialization are biosystems engineering, land and water resources engineering, packaging engineering, and agricultural production engineering.

In addition to abundant job opportunities in Florida’s agricultural industry, graduates have career opportunities in biotechnology and in fields related to Florida’s water quality and water resources, including water management districts, environmental companies, consulting firms, equipment manufacturers, bio-energy, food engineering and the packaging industry.

The BE curriculum can also fulfill requirements for admission to professional programs as well as to graduate programs including biomedical engineering, civil engineering and mechanical engineering.

Educational Objectives

Graduates from the University of Florida’s undergraduate degree program in biological engineering will be prepared for at least one of the following:

- Successful careers in the profession of biological engineering or other related fields.
- Gaining admission to a graduate and/or professional degree program.

Goals

To develop biological engineering professionals with technical proficiency and societal responsibility.

Mission

The department will develop professionals, create and disseminate knowledge, and promote the application of engineering and management principles to meet societal needs with respect to agriculture, packaging, land and water resources, and biological systems.

Academic Learning Compact

The curriculum emphasizes engineering solutions to problems associated with biological and agricultural systems that often are related to renewable natural resources. Students gain knowledge through formal courses, laboratory experimentation and individual experience. Students will learn to utilize math, science and engineering principles to analyze and interpret data, to design and conduct experiments, systems and components and to effectively communicate results within an appropriate presentation style.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (https://urldefense.proofpoint.com/v2/url/?u=http://3A__www.abet.org&d=WbMGaQ&c=pZJPUDQ3SB9JpY6bfm4nt2IEV9eZ5QdR7j8gYm-Tz8Cz8Z5jgW9aB73By6k6MyD7Qsf6AP&k=KF2GjJwvxsyME70kGMBmRYTt2i4YyuqEw2Rran98WV1M&u=73PhDs8hcuN0uN3AXyYTL5NMbIBTH2ZOGAQH31C recruiter@).  

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation/).

Before Graduating Students Must

- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to Student Learning Outcomes (SLOs)

Content

1. Apply knowledge of mathematics, science and engineering principles to biological engineering problems. Students will be able to apply fundamental concepts, skills and processes in biological engineering.
2. Design and conduct biological and/or agricultural engineering experiments, analyzing and interpreting the data in biological engineering.

Critical Thinking

3. Design a biological and/or agricultural system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints in biological engineering.

Communication

4. Communicate technical data and design information effectively in writing and in speech to other engineers in biological engineering.

### Semester 5
- Complete all 8 critical-tracking courses with minimum grades of C in each course within two attempts
- Complete EGM 3520
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester 6
- Complete ENC 3246

### Semester 7
- Complete ABE 3000C

### Semester 8
- Complete ABE 4042C

### Semester 9
- Complete ABE 4043C

---

**Model Semester Plan**

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

Curriculum
- Agricultural Operations Management
- Biological Engineering
- Combination Degrees
- Packaging Engineering Certificate
- Packaging Science Minor
- Precision Agriculture Minor

Biological engineers pioneer new designs and techniques in such areas as agricultural robotics, remote sensing, bioprocessing, biofuels, precision agriculture, plant space biology, sustainability of our natural resources, and packaging product design and development.

Graduates are educated in the biological and environmental sciences as well as in engineering. They will address critical problems involving land and water resources, biological systems, production agriculture and innovations in packaging. Students can choose a focus area based on their courses of specialization and individual selection of electives. Areas of specialization are biosystems engineering, land and water resources engineering, packaging engineering, and agricultural production engineering.

In addition to abundant job opportunities in Florida's agricultural industry, graduates have career opportunities in biotechnology and in fields related to Florida's water quality and water resources, including water management districts, environmental companies, consulting firms, equipment manufacturers, bio-energy, food engineering and the packaging industry.

The BE curriculum can also fulfill requirements for admission to professional programs as well as to graduate programs including biomedical engineering, civil engineering and mechanical engineering.

Educational Objectives
Graduates from the University of Florida's undergraduate degree program in biological engineering will be prepared for at least one of the following:
- Successful careers in the profession of biological engineering or other related fields.
- Gaining admission to a graduate and/or professional degree program.

Goals
To develop biological engineering professionals with technical proficiency and societal responsibility.

Mission
The department will develop professionals, create and disseminate knowledge, and promote the application of engineering and management principles to meet societal needs with respect to agriculture, packaging, land and water resources, and biological systems.

**Critical Tracking**
courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=144501&track=01) may be used for transfer students.

**Semester 1**
- Complete 1 of 8 tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, CHM 2046 or CHM 2096, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 2**
- Complete 1 additional tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 3**
- Complete 2 additional tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 4**
- Complete 2 additional tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 5**
- Complete all 8 critical-tracking courses with minimum grades of C in each course within two attempts
- Complete EGM 3520
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 6**
- Complete ENC 3246
Model Semester Plan

Before Graduating Students Must

- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Apply knowledge of mathematics, science and engineering principles to biological engineering problems. Students will be able to apply fundamental concepts, skills and processes in biological engineering.

2. Design and conduct biological and/or agricultural engineering experiments, analyzing and interpreting the data in biological engineering.

Critical Thinking

3. Design a biological and/or agricultural system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints in biological engineering.

Communication

4. Communicate technical data and design information effectively in writing and in speech to other engineers in biological engineering.

Land and Water Resources Engineering

Biological Engineering (BE) applies engineering principles to protect natural resources and to produce food, biofuels, pharmaceuticals, and other biobased products. BE incorporates foundations of biology with other engineering disciplines to address a broad range of industries.

About this Program

- College: Herbert Wertheim College of Engineering (p. 477)
- Degree: Bachelor of Science in Biological Engineering
- Specializations: Agricultural Production Engineering (p. 488) | Biosystems Engineering (p. 491) | Land and Water Resources Engineering (p. 494) | Packaging Engineering (p. 497)
- Credits for Degree: 128
- More Info

To graduate with this major, students must complete all university, college, and major requirements.
Department Information
The Department of Agricultural and Biological Engineering is founded on developing, teaching, and applying engineering principles to improve and sustain agricultural and biological systems for current and future generations.

Curriculum
• Agricultural Operations Management
• Biological Engineering
• Combination Degrees
• Packaging Engineering Certificate
• Packaging Science Minor
• Precision Agriculture Minor

Biological engineers pioneer new designs and techniques in such areas as agricultural robotics, remote sensing, bioprocessing, biofuels, precision agriculture, plant space biology, sustainability of our natural resources, and packaging product design and development.

Graduates are educated in the biological and environmental sciences as well as in engineering. They will address critical problems involving land and water resources, biological systems, production agriculture and innovations in packaging. Students can choose a focus area based on their courses of specialization and individual selection of electives. Areas of specialization are biosystems engineering, land and water resources engineering, packaging engineering, and agricultural production engineering.

In addition to abundant job opportunities in Florida's agricultural industry, graduates have career opportunities in biotechnology and in fields related to Florida's water quality and water resources, including water management districts, environmental companies, consulting firms, equipment manufacturers, bio-energy, food engineering and the packaging industry.

The BE curriculum can also fulfill requirements for admission to professional programs as well as to graduate programs including biomedical engineering, civil engineering and mechanical engineering.

Educational Objectives
Graduates from the University of Florida's undergraduate degree program in biological engineering will be prepared for at least one of the following:

• Successful careers in the profession of biological engineering or other related fields.
• Gaining admission to a graduate and/or professional degree program.

Goals
To develop biological engineering professionals with technical proficiency and societal responsibility.

Mission
The department will develop professionals, create and disseminate knowledge, and promote the application of engineering and management principles to meet societal needs with respect to agriculture, packaging, land and water resources, and biological systems.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=144501&track=01) may be used for transfer students.

Semester 1

• Complete 1 of 8 tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, CHM 2046 or CHM 2096, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
• 2.5 GPA on all critical-tracking courses
• 2.0 UF GPA required

Semester 2

• Complete 1 additional tracking course with a minimum grade of C within two attempts
• 2.5 GPA on all critical-tracking courses
• 2.0 UF GPA required

Semester 3

• Complete 2 additional tracking courses with minimum grades of C within two attempts
• 2.5 GPA on all critical-tracking courses
• 2.0 UF GPA required

Semester 4

• Complete 2 additional tracking courses with minimum grades of C within two attempts
• 2.5 GPA on all critical-tracking courses
• 2.0 UF GPA required
Semester 5
• Complete all 8 critical-tracking courses with minimum grades of C in each course within two attempts
• Complete EGM 3520
• 2.5 GPA on all critical-tracking courses
• 2.0 UF GPA required

Semester 6
• Complete ENC 3246

Semester 7
• Complete ABE 3000C

Semester 8
• Complete ABE 4042C

Semester 9
• Complete ABE 4043C

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Curriculum
- Agricultural Operations Management
- Biological Engineering
- Combination Degrees
- Packaging Engineering Certificate
- Packaging Science Minor
- Precision Agriculture Minor

Biological engineers pioneer new designs and techniques in such areas as agricultural robotics, remote sensing, bioprocessing, biofuels, precision agriculture, plant space biology, sustainability of our natural resources, and packaging product design and development.

Graduates are educated in the biological and environmental sciences as well as in engineering. They will address critical problems involving land and water resources, biological systems, production agriculture and innovations in packaging. Students can choose a focus area based on their courses of specialization and individual selection of electives. Areas of specialization are biosystems engineering, land and water resources engineering, packaging engineering, and agricultural production engineering.

In addition to abundant job opportunities in Florida's agricultural industry, graduates have career opportunities in biotechnology and in fields related to Florida's water quality and water resources, including water management districts, environmental companies, consulting firms, equipment manufacturers, bio-energy, food engineering and the packaging industry.

The BE curriculum can also fulfill requirements for admission to professional programs as well as to graduate programs including biomedical engineering, civil engineering and mechanical engineering.

Educational Objectives
Graduates from the University of Florida's undergraduate degree program in biological engineering will be prepared for at least one of the following:

- Successful careers in the profession of biological engineering or other related fields.
- Gaining admission to a graduate and/or professional degree program.

Goals
To develop biological engineering professionals with technical proficiency and societal responsibility.

Mission
The department will develop professionals, create and disseminate knowledge, and promote the application of engineering and management principles to meet societal needs with respect to agriculture, packaging, land and water resources, and biological systems.

The Biomaterials certificate emphasizes biomedical materials and provides a foundation in the areas of biocompatibility, the biological performance of materials, and material design, and selection for medical applications.
About this Program

- **College**: Herbert Wertheim College of Engineering (p. 477)
- **Credits**: 10 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

**Department Information**

The Department of Materials Science and Engineering strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting, and distance learning to promote engineering in the field.

Biomedical Engineering

The Biomedical Engineering (BME) field has grown rapidly in the last 20 years. This growth was fueled by breakthroughs in molecular biology and many engineering technologies, symbolized by the Human Genome Project, arguably the greatest biomedical engineering accomplishment ever, and realized with creation of the National Institute of Biomedical Imaging and Bioengineering. BME now is clearly recognized as an integral part of the nation's and the world's efforts to deliver more effective and efficient medical care.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 477)
- **Degree:** Bachelor of Science in Biomedical Engineering
- **Credits for Degree:** 131
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The J. Crayton Pruitt Family Department of Biomedical Engineering (BME) is part of the Herbert Wertheim College of Engineering and is a prime resource for biomedical engineering education, training, research, and technology development. BME is an ever-evolving field that uses and applies engineering principles to the study of biology and medicine in order to improve health care.

Curriculum

- Biomedical Engineering
- Combination Degrees

A biomedical engineer uses traditional engineering expertise to analyze and solve problems in biology and medicine, providing an overall enhancement of health care. Students choose biomedical engineering to serve people, to work with living systems and to apply advanced technology to the complex problems of medical care. The biomedical engineer is called upon to design instruments, devices and software, to bring together knowledge from many technical sources to develop new procedures and to conduct the research needed to solve clinical problems.

Bioengineering integrates sciences and engineering for the study of biology, medicine, behavior or health. It advances fundamental concepts, creates knowledge for the molecular to the organ systems levels, and develops innovative biologics, materials, processes, implants and devices. Biomedical engineers create informatics approaches to prevent, diagnose and treat disease, applying systematic, quantitative and integrative thinking and solutions to problems important to biology, medical research and population studies.

BME typically is among the three most popular engineering majors and very often is the largest. The job market in biomedical engineering is the fastest growing of all engineering disciplines. It has become clear that the nation needs a variety of engineers with knowledge of biomedicine, including a cadre of exceptional people whose education thoroughly immerses them in engineering and biomedicine. The intellectual foundation of this limited-access undergraduate program is captured in this vision: Biomedicine comprises the science core while engineering provides the framework for inquiry. The curriculum incorporates exceptional rigor in both.

Educational Objectives

The program educational objectives of the J. Crayton Pruitt Family Department of Biomedical Engineering at the University of Florida are that:

1. Graduates will excel in top graduate programs of professional schools and will have successful careers in a multi-disciplinary, global industry.
2. Graduates will be active leaders in their profession, creating innovative, ethical and socially beneficial solutions to human health problems.

Department Vision Statement

The faculty, students, and alumni of the J. Crayton Pruitt Family Department of Biomedical Engineering will lead in the discovery and
development of innovative biomedical solutions to improve healthcare in the State of Florida and worldwide. To achieve this vision, the department will leverage the unique co-localization of talent and resources in engineering, biology, medicine, veterinary science, dentistry, and technology commercialization at the University of Florida, thereby maximizing opportunities for interdisciplinary student education and clinical translation of technologies to improve human health.

**Department Mission**

The J. Crayton Pruitt Family Department of Biomedical Engineering at the University of Florida is dedicated to developing innovative and clinically translatable biomedical technologies, educating future generations of biomedical engineers, and cultivating leaders, by nurturing the integration of engineering, science, and healthcare in a collaborative and dynamic educational and research environment.

**Admission Requirements**

The biomedical engineering undergraduate major is a limited enrollment program. Students who enter the University of Florida as freshmen identify pre-BME as their major of choice and begin enrolling in the required critical tracking courses to prepare for upper division.

During the fall semester of sophomore year (semester 3), pre-BME majors apply for admission to the upper division major, which begins in the spring semester of sophomore year (semester 4).

Current UF students must meet the following minimum requirements to be considered for admission to the upper division program.

- Minimum 3.0 grade point average in critical tracking courses (best attempt)*
- No more than two attempts allowed for each critical tracking course (withdrawals included)
- Minimum grade of C in each critical tracking course
- Completion of the first three semesters of the Model Plan of Study by Fall semester of application
- BME Departmental online application

*Only the best attempt in each critical tracking course is considered for admission to the upper division program.

All application requirements and details are available on the department website.

More Info (http://bme.ufl.edu/academics/undergraduate/admissions/)

**Department Requirements**

Minimum grades of C are required for BME 3508, BME 3053C, CHM 3217, COP 2271, COP 2271L, EEL 3003, and ENC 3246. The minimum C grade is part of the prerequisite requirement for several 3000/4000-level BME courses. The prerequisite course and subsequent course cannot be taken in the same term, even if the prerequisite is being repeated.

All BME Electives must be selected from an approved list. Students may petition to take courses not included in the approved list toward this requirement. The BME Electives allow students to explore topic areas within their interests and are designed to build upon biomedical engineering foundation courses and laboratories.

A biomedical engineering student whose cumulative, upper-division or department grade point average falls below a 2.0 or whose critical tracking grades do not meet department requirements will be placed on academic probation and be required to complete a probation contract with a BME academic advisor. Students normally are allowed a maximum of two terms (consecutive or non-consecutive) on academic probation. Students who do not satisfy the conditions of the first term of probation may be dismissed from the department.

All graduating seniors must complete an exit interview with their advisor before graduating.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=140501&track=01) may be used for transfer students.

**Semester 1**

- Complete 3 of 11 critical-tracking courses with minimum grades of C within two attempts: BSC 2010; CHM 2046 or CHM 2095; CHM 2046 or CHM 2096; MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048; PHY 2049; BME 3060 and PCB 3713C
- 2.8 GPA required for all critical-tracking courses (lower division)
- 2.0 UF GPA required

**Semester 2**

- Complete 3 additional critical-tracking courses with minimum grades of C within two attempts
- 2.8 GPA required for all critical-tracking courses (lower division)
- 2.0 UF GPA required

**Semester 3**

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.8 GPA required for all critical-tracking courses (lower division)
- 2.0 UF GPA required

**Semester 4**

- Complete all critical-tracking courses with minimum grades of C within two attempts
- 2.8 GPA required for all critical-tracking courses (lower division)
- 2.0 UF GPA required

**Semester 5**

- Complete 4 of the remaining critical-tracking courses (lower division)
- 2.0 UF GPA required

**Semester 6**

- Complete 3 of the remaining critical-tracking courses (upper division)
- 2.0 UF GPA required

**Semester 7**

- Complete 3 of the remaining critical-tracking courses (upper division)
- 2.0 UF GPA required
Semester 8
- Complete all remaining Biomedical Engineering critical-tracking courses (upper division)
- 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

This program is limited access and competitive. Students cannot register for courses in semesters 5-8 before they have been admitted to the biomedical engineering major.

1 Can substitute CHM 2210 and CHM 2211.

2 BME Electives: A total of 12 credits of 3000/4000-level courses (9 credits of BME electives selected from the departmentally approved list and 3 credits are free credits (any courses at the 2000 level or above), both of which must be selected from an approved list).

3 Courses should cover 24,000 words.

4 Course and corresponding laboratory to be completed in same language (Matlab or C++)

Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements. This is often done concurrently with another general education requirement (typically, GE-C, H or S).

---

**Academic Learning Compact**

Biomedical engineering blends traditional engineering techniques with biological sciences and medicine to improve the quality of human health and life. The discipline focuses on understanding complex living systems via experimental and analytical techniques and on development of devices, methods and algorithms that advance medical and biological knowledge while improving the effectiveness and delivery of clinical medicine.

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation/).

**Before Graduating Students Must**

- Pass assessment by two or more faculty and/or industry practitioners of student performance on a major design experience.
- Pass assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete an exit interview in the final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Solve biomedical engineering problems by applying knowledge of mathematics, science and engineering principles.

2. Design and conduct biomedical engineering experiments and analyzing and interpreting the data.

**Critical Thinking**

3. Design a biomedical device, component, technology or process to meet identified clinical needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and regulatory constraints.

**Communication**

4. Communicate technical data and design information effectively in speech and in writing to other biomedical engineers.

**Curriculum Map**

**Biomolecular Engineering Minor**

This minor is for engineering and science students who desire knowledge of diverse biomedical and biotechnological applications encompassing biomolecular function, interactions and transport.

**About this Program**

- **College:** Herbert Wertheim College of Engineering (p. 477)
- **Credits:** 15-16 | Completed with minimum grades of C

**Department Information**

The work of the Department of Chemical Engineering is not restricted to the chemical industry, chemical changes or chemistry. Instead, modern chemical engineers are concerned with all the physical, chemical, and biological changes of matter that can produce an economic product or result that is useful to mankind.

- Combination Degrees
Prerequisites

To apply for the minor, students must have completed these eight engineering preprofessional courses with a 2.5 GPA and no course grade lower than C.

1. Nanoscale Transport and other approved electives.
2. Research problems related to biomolecular engineering.

Chemical Engineering

Although Chemical Engineering has existed for only 100 years, its name is no longer completely descriptive of this dynamic profession. The work of the chemical engineer is not restricted to the chemical industry, chemical changes or chemistry. Instead, modern chemical engineers are concerned with all the physical, chemical, and biological changes of matter that can produce an economic product or result that is useful to mankind.

About this Program

- **College**: Herbert Wertheim College of Engineering (p. 477)
- **Degree**: Bachelor of Science in Chemical Engineering
- **Credits for Degree**: 131

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The work of the Department of Chemical Engineering is not restricted to the chemical industry, chemical changes or chemistry. Instead, modern chemical engineers are concerned with all the physical, chemical, and biological changes of matter that can produce an economic product or result that is useful to mankind.

**Curriculum**

- Biomolecular Engineering Minor
- Chemical Engineering
- Combination Degrees

The education of the chemical engineer is based on the fundamental sciences of physics, chemistry and biology, on mathematical and computer techniques, and on basic engineering principles. This background makes the chemical engineer extremely versatile and capable of working in a variety of industries: chemical, biochemical, petroleum, materials, microelectronics, environmental, food processing, consumer products, consulting and project management. It is also good preparation for law and medical schools.

**Department Requirements**

Successful applicants must have earned a minimum 2.5 grade point average in the better of two attempts of the eight preprofessional courses and have earned a minimum grade point average in the better of two attempts of 2.5 in the preprofessional calculus course sequence.

For the purposes of determining admission to or retention in the department, grade point averages will be based on no more than two attempts for each course. Students must maintain satisfactory progress (minimum GPA of 2.0) in chemical engineering courses and in their overall record.

To proceed to succeeding courses, minimum grades of C are required in the following within two enrollments (including drops and/or withdrawals) for each course:

<table>

**Educational Objectives**

Within a few years of obtaining a bachelor’s degree in chemical engineering from the University of Florida, the recent graduate will achieve one or more of the following:
• Graduates will demonstrate professional engineering competence via promotions and/or positions of increasing responsibility.
• Graduates will be successful in pursuing advanced degrees in chemical engineering or in other disciplines.
• Graduates will be able to work in diverse professional environments as demonstrated in their pursuit of continuing education, professional certification/registration and/or career path into business, government, education, etc.

The chemical industry alone provides an opportunity for the chemical engineer to participate in the research, development, design or operation of plants for the production of new synthetic fibers, plastics, chemical fertilizers, vitamins, antibiotics, rocket fuels, nuclear fuels, paper pulp, photographic products, paints, fuel cells, semiconductors and the thousands of chemicals that are used as intermediates in the manufacture of these products.

Goal
To prepare students for lifelong careers in chemical engineering.

Mission
To offer high-quality undergraduate and graduate degree programs in chemical engineering and to conduct research that helps educate graduate students and serves the needs of Florida and the nation.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=140701&track=01) may be used for transfer students.

Semester 1
• 2.5 GPA in MAC 2311, MAC 2312 and MAC 2313 sequence based on the best of two attempts
• Complete 2 of 8 critical-tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, CHM 2046 or CHM 2096, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
• 2.5 GPA required for all critical-tracking courses based on the best of two attempts
• 2.0 UF GPA required

Semester 2
• Complete 3 additional critical-tracking courses with a minimum grade of C within two attempts
• 2.5 GPA required for all critical-tracking courses based on the best of two attempts
• 2.5 GPA in MAC 2311, MAC 2312 and MAC 2313 sequence based on the best of two attempts
• 2.0 UF GPA required

Semester 3
• Complete the remaining critical-tracking courses with minimum grades of C within two attempts
• 2.5 GPA required for all critical-tracking courses based on the best of two attempts
• 2.5 GPA in MAC 2311, MAC 2312 and MAC 2313 sequence based on the best of two attempts
• Complete ECH 3023
• Complete ECH 4934
• 2.0 UF GPA required

Semester 4
• Complete at least 4 additional upper division critical-tracking courses (reference Model Semester Plan)
• 2.0 CHE GPA required
• 2.0 UF GPA required

Semester 5
• Complete at least 4 additional upper division critical-tracking courses
• 2.0 CHE GPA required
• 2.0 UF GPA required

Semester 6
• Complete at least 5 additional upper division critical-tracking courses
• 2.0 CHE GPA required
• 2.0 UF GPA required

Semester 7
• Complete at least 4 additional upper division critical-tracking courses
• 2.0 CHE GPA required
• 2.0 UF GPA required

Semester 8
• Complete all remaining upper division critical-tracking courses
• 2.0 CHE GPA required
• 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

</tbody>
</table>

1. Students are also expected to complete the General Education International and Diversity requirements. This is often done concurrently with another General Education requirement (typically Gen Ed Composition, Gen Ed Humanities, or Gen Ed Social and Behavioral Sciences).
2. Minimum grade of C required.
3. Major Critical Path courses must be taken and completed in sequence. More Info (http://www.che.ufl.edu/)
4. If the Physical Chemistry Topics 3 credit requirement is satisfied by a 4 credit course, the additional credit satisfies 1 credit of the Technical elective requirement.
5. Register for ECH 4224L immediately following completion of ECH 3101, ECH 3203, and ECH 3223.
The Integrated Product and Process Design program (EGN 4951 and ECH 4952) requires six credits of coursework and is offered as a sequence of two three-credit courses during fall and spring of the senior year. These two courses are pre-approved substitutes for three credits of technical electives and for ECH 4644.

Technical Electives

Technical electives are defined as department-approved, upper-division courses with significant technical science, engineering, and/or math content. Provision is made to receive up to five credits of approved co-op, internship and/or research experience with no more than three credits coming from industry work and no more than three coming from academic research. Military courses cannot be used for technical electives.

Academic Learning Compact

The chemical engineering program enables students to apply knowledge of mathematics, science and engineering principles to chemical engineering problems; to design and conduct chemical engineering experiments and to analyze and interpret the data; to design a chemical engineering system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints; and to communicate technical data and design information effectively in speech and in writing to other chemical engineers.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (https://urldefense.proofpoint.com/v2/url?u=http-3A__www.abet.org&d=DwMGaQ&c=pZJPUDQ3SB9-Jp1Ybifm4nt2IeVG5pWZzXcKqenFPE2.Mw-Bf73B8n6kE-YD7Qf65kPAMm-KF2G1Jw5XcME70kBMMIRTY7zi4YuqEwzRan98WV1MSs=73PhSd8hcuNug4ZMz-AHlZwQUUG). ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation/).

Before Graduating Students Must

• Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
• Pass assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
• Complete an exit interview in your final semester.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to Student Learning Outcomes (SLOs)

Content
1. Apply knowledge of mathematics, science and engineering principles to chemical engineering problems.
2. Design and conduct chemical engineering experiments and analyze and interpret the data.

Critical Thinking
3. Design a chemical engineering system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints.

Communication
4. Communicate technical data and design information effectively in writing and in speech to other chemical engineers.

Civil Engineering

Civil Engineering is the oldest and most diverse branch of engineering. In its broadest sense, the civil engineer adapts the physical features of the earth to the needs of society. Civil engineering engages approximately one out of four engineers.

About this Program

• College: Herbert Wertheim College of Engineering (p. 477)
• Degree: Bachelor of Science in Civil Engineering
• Credits for Degree: 128

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
Website (https://www.essie.ufl.edu/civil-coastal-engineering/)

Curriculum

• Civil Engineering
• Combination Degrees

Civil engineering includes the design and construction of bridges, buildings, dams, waterways, coastal protection works, airports, pipelines, space launching facilities, railroads, highways, sanitary systems, ocean structures and facilities, foundations, harbors, waterworks and many other systems and structures upon which modern civilization depends.
Department Requirements
A minimum grade of C is required for all courses marked below. A minimum GPA of 2.0 is required for all civil engineering courses. Before graduating, all BSCE students must take the Fundamentals of Engineering exam.

The basic program provides the minimum education for practice. Beyond the bachelor’s degree, advanced degrees are available in geosensing, transportation, water resources, structural engineering, geotechnical engineering, construction, public works, civil engineering materials, and coastal and oceanographic engineering.

Educational Objectives
The undergraduate program in civil engineering will prepare graduates to

• Meet the needs and expectations of civil engineering employers and proceed toward the attainment of a Professional Engineering (P.E.) license;
• Continue their education and pursue advanced degrees if they so desire.

Goals
• To develop civil engineering professionals with proficiency in the fundamentals of science and engineering;
• To develop an understanding of the planning, design, construction and operation of civil engineering projects;
• To develop enhanced communication skills;
• To develop an appreciation of professionalism and ethics in the practice of engineering.

Mission
The department strives to build upon a leading program of exceptional teaching, innovative research and dedicated service by maintaining a strong curriculum, a highly qualified and committed faculty, outstanding facilities and essential funding.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=140801&track=01) may be used for transfer students.

Semester 1
• Complete 1 of 7 critical-tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
• 2.5 GPA required for all critical-tracking courses (lower division)
• 2.0 UF GPA required

Semester 2
• Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
• 2.5 GPA required for all critical-tracking courses (lower division)
• 2.0 UF GPA required

Semester 3
• Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
• 2.5 GPA required for all critical-tracking courses (lower division)
• 2.0 UF GPA required

Semester 4
• Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
• 2.5 GPA required for all critical-tracking courses (lower division)
• 2.0 UF GPA required

Semester 5
• Complete final lower division critical-tracking course and EGM 3400 with minimum grades of C
• Complete EGM 3520 with minimum grade of C
• 2.0 UF GPA required

Semester 6
• Complete CWR 3201, CGN 3501C, and CES 3102 with minimum grades of C
• 2.0 UF GPA required

Semester 7
• Complete 3 second-level core courses (of CEG 4012, CES 4702, CGN 4503, CWR 4202, EIN 3354) and CEG 4011
• 2.0 UF GPA required

Semester 8
• Complete CGN 4806 or CGN 4910
• Complete all remaining Civil Engineering required courses
• 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

Civil engineering is the oldest and most diverse branch of engineering and includes the design and construction of bridges, buildings, dams, waterways, coastal protection works, airports, pipelines, space launching facilities, railroads, highways, sanitary systems, ocean structures and facilities, foundations, harbors, waterworks and many other systems and structures upon which modern civilization depends. In its broadest sense, the civil engineer adapts the physical features of the earth to the needs of society. Approximately one out of four engineers is engaged in civil engineering.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (https://urldefense.proofpoint.com/v2/url/?u=http-3A__www.abet.org&d=DwMGaQ&c=pZJPUDQ3SB9JplYbfm4nt2IEVG5pWhhL8W2dCJX89e4A&Bf73BYn6EyD-7Qfs6kPA&m=KF2G1JwzXcM70kGBMRHyY2i4YuqEwzRan98WV1M&s=73PhsDhcuNu3AXylsl37MVmoB1R3Z0qAHJTCUThog&e=).

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation/).

Before Graduating Students Must

- Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
- Pass an assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete the Fundamentals of Engineering examination.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to Study Learning Outcomes (SLOs)

Content

1. Apply knowledge of mathematics, science and engineering principles to civil engineering problems.
community, in the fundamental concepts of the computing discipline; to create and disseminate computing knowledge and technology; and to use expertise in computing to help society solve problems.

Total Credits: 20-24

At least three of the CDA, CIS, COP, and COT courses must be taken at UF.
Computer Engineering

Computer Engineering (CpE) is a discipline that embodies the science and technology of design, construction, implementation, and maintenance of software and hardware components of computing systems and computer-controlled equipment. Studies in computer engineering integrate fields from both computer science (CS) and electrical engineering (EE).

About this Program

- **College**: Herbert Wertheim College of Engineering (p. 477)
- **Degree**: Bachelor of Science in Computer Engineering
- **Credits for Degree**: 126
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Electrical engineers study electricity and design electrical systems that solve problems—how to make your smartphones smarter; how to make your refrigerator run more efficiently; coming up with the optimal temperature to heat pizza in your microwave; designing the audio and visual technology that brings movies to life.

Curriculum

- Combination Degrees
- Computer Engineering
- Electrical Engineering
- Electrical Engineering Minor

Computer engineering (CpE) brings a core competency and unique value of integrated knowledge in both computer software and hardware, providing a balance among computer systems, hardware and software as well as theory and applications. Specialization in computer engineering is provided via technical electives from the Department of Computer and Information Science (www.cise.ufl.edu) and Engineering and the Department of Electrical and Computer Engineering (www.ece.ufl.edu). By properly choosing electives, students can specialize in knowledge areas such as computer architecture, computer system engineering, digital signal processing, embedded systems, intelligent systems, networking and communication and security. Also, opportunities for cooperative education provide students a better understanding of the industrial applications of computer engineering technologies. Graduates will be prepared to pursue graduate studies in computer engineering or they can choose from many different careers related to computing and their applications in high technology environments.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (https://urldefense.proofpoint.com/v2/url?u=http-3A__www.abet.org&d=DwMGaQ&c=pZJPUDQ3SB9JplYbifm4nt2lEVG5pWxKlM6N0ELbBT73BYnhk6kEY-D7Qsf6kPAM&m=KF261JwsXxME70KBGMIRy7Yzi4yUqEwzRan988Wv1f8s=73PhSd8hcuNu3AXlYlLsbJ}).

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation/).

Program Education Objectives

Graduates from the Bachelor of Science in Computer Engineering will:

1. Advance in careers utilizing their education in computer engineering;
2. Continue to enhance their knowledge through graduate or professional studies, self-learning, and on-job training;
3. Become leaders in multidisciplinary and diverse professional environments.

Mission

- To educate undergraduate majors as well as the broader campus community in the fundamental concepts of the computing discipline
- To create and disseminate computing knowledge and technology
- To use our expertise in computing to help society solve problems.

Admission Requirements

Successful applicants must have earned a 2.5 grade point average, based on the first two attempts, in the seven pre-professional courses and have earned a minimum grade of C in each course of Calculus 1, Calculus 2, Calculus 3, Physics with Calculus 1, Physics with Calculus 2, General Chemistry 1, and Differential Equations. Only the first two attempts (including withdrawals) in each course will be considered for admission to or retention in the department.

Transfer students must attend Transfer Preview as part of admissions. Course equivalency appeals must be submitted to earn credit for coursework completed outside of Common Course Numbering for Core CpE coursework and will be reviewed on a case by case basis.

Computer Engineering Requirements

A minimum grade of C is required for each critical-tracking course and the critical-tracking GPA must be a minimum of 2.5.

A minimum grade of C is required in any computer engineering course that is a prerequisite for another computer engineering course and CpE Design 2 CEN 3908C. The prerequisite course and its subsequent course cannot be taken the same term, even if the prerequisite course is being repeated.

Minimum grades of C are required in:

CpE Design 1

Select one:

| CEN 3907C | Computer Engineering Design 1 | 3 |
A CpE major grade point average (GPA) is calculated as the average of the grades of all the CISE and ECE courses taken by the student. CpE students must maintain a cumulative, college, upper-division and CpE major GPA minimum of 2.0.

Students who do not meet these requirements will be placed on academic probation and will be required to prepare a probation contract with a CpE advisor. Students are normally given two terms to remove their deficit points; however, students who do not satisfy the conditions of the first term of probation may be dismissed from the program.

All graduating seniors must complete an exit survey with their advisor before graduating.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=140901&track=01) may be used for transfer students.

Semester 1
- Complete 1 of 7 critical-tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2
- Complete 2 additional critical-tracking courses with a minimum grade of C within two attempts
- 2.5 GPA required for all 7 critical-tracking courses
- 2.0 UF GPA required

Semester 3
- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all 7 critical-tracking courses
- 2.0 UF GPA required

Semester 4
- Complete all 7 critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all 7 critical-tracking courses
- 2.0 UF GPA required

Semester 5
- Complete EEL 4744C
- 2.5 GPA required for all 7 critical-tracking courses
- 2.0 UF GPA required

Semester 6
- Complete CEN 3031 and EEL 4712C with a grade of C or better
- 2.0 departmental GPA required
- 2.0 UF GPA required

Semester 7
- Complete CpE Design 1 course with a grade of C or better
- Complete at least 4 of 6 Technical Electives
- 2.0 departmental GPA required
- 2.0 UF GPA required

Semester 8
- Complete CpE Design 2 course with a grade of C or better
- 2.0 departmental GPA required
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the general education International (GE-N) and Diversity (GE-D) requirements. This is often done concurrently with another general education requirement, typically GE-C, H, or S.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Technical Electives

18 Credits

- At least 12 credits must be from the CISE and/or ECE department(s). These courses must be 3000-level or higher.
- Courses not permitted as technical electives: any core cores, EEL 3834, EEL 3003, CGS 3063. CGS 3065, and COP 3275
- A CpE student will have credit for two programming courses (Java and C++). One additional programming language course (not Java or C++) can count as a technical elective.
- A maximum of 6 credits can come from the following categories:
  - 4000-level courses in the mathematics department
  - 3000-level courses in the physics department
  - 4000-level courses in the statistics courses
  - Any advisor-approved course

Academic Learning Compact

The Bachelor of Science in Computer Engineering is concerned with the theory, design, development and application of computer systems and information processing techniques. Students will be equally proficient working with computer systems, hardware and software, as with computer theory and applications.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (https://urldefense.proofpoint.com/v2/url/?u=http-3A-_www.abet.org&d=DwMGaQ&c=pZJPUDQ3SB9jplYbfm4nt2IEVG5pWxXMQ7ST3BYn6kEY-D7Qf6kPA&m=KF2G1JwsXcME70kBMBIRTY2i4YuqEwzRrun98WV1M&s=73PhSd8hcuNu3AXIyLs).

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation/).

Before Graduating Students Must

- Pass assessment according to department rubric of student performance on a major design experience.
- Pass assessment in one or more core courses of individual assignments targeted to each SLO.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Apply knowledge of mathematics and science to computer engineering problems.
2. Design and conduct computer-engineering experiments, analyzing and interpreting the data.

Critical Thinking

3. Design a computer engineering system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints.
Communication
4. Communicate technical data and design information effectively in writing and in speech to other computer scientists and engineers.

Computer Science | Herbert Wertheim College of Engineering

The Computer Science program combines a strong engineering-oriented technical basis with a flexible interdisciplinary component and an emphasis on communication skills. This flexibility is increasingly important as computers become more important tools in an ever-increasing number of disciplines.

About this Program
- **College:** Herbert Wertheim College of Engineering (p. 477)
- **Degree:** Bachelor of Science in Computer Science
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The mission of the Department of Computer & Information Science & Engineering is to educate students, as well as the broader campus community, in the fundamental concepts of the computing discipline; to create and disseminate computing knowledge and technology; and to use expertise in computing to help society solve problems.

- Computer and Information Science and Engineering Minor UF Online
- Computer Science UF Online
- Computer Science | CLAS
- Computer Science | Herbert Wertheim College of Engineering
- Digital Arts and Sciences | Bachelor of Science

Students in the engineering computer science (EG-CSE) program will satisfy the same requirements for general education and obtain the same engineering preprofessional background in mathematics and science as other engineering students. The program contains a strong technical component comprising a set of required courses covering essential areas in computing and a set of technical electives enabling students to deepen their knowledge in chosen areas of computer science and engineering.

In addition, the program includes a set of interdisciplinary electives in an area of the student's choice from anything the university offers. Students may choose an established minor, a predefined track or if nothing meets their needs, they can work with an advisor to develop their own program. Thus, students will not need to wait for an interdisciplinary program to be established; they can create their own.

To answer the demands of industry for employees with both technical competence and the ability to communicate effectively, the program requires communication courses beyond the usual general education requirements for engineering.

Department Requirements
Students must complete all critical-tracking courses with minimum grades of C in each course and the critical-tracking GPA must be 2.5 minimum. A minimum grade of C is required in all other courses that are prerequisites to a required course: CDA 3101, COP 3502C, COP 3503C, COP 3530, COP 4600, and COT 3100. In addition, CISE requires all computer science students to maintain a cumulative, upper-division and department grade point average minimum of 2.0.

Students who do not meet these requirements will be placed on academic probation and will be required to prepare a probation contract with a CISE advisor. Students are normally given two terms to remove their deficit points; however, students who do not satisfy the conditions of the first term of probation may be dismissed from the department.

Students may opt to take COP 3504C in lieu of COP 3502C and COP 3503C. If elected, students will need to complete an additional 4 credits to complete the degree program.

Placement
Students who have scored at least a 4 or 5 on the AP Computer Science exam are eligible to start the programming fundamentals sequence with COP 3503C. Students will need to see an advisor in the major to adjust their degree audit.

STA 3032 Engineering Statistics 3

Writing or public speaking course, as approved by department

**Computing Core**

- COP 3502C Programming Fundamentals 1 4
- COP 3503C Programming Fundamentals 2 4
- COP 3530 Data Structures and Algorithm 3
- COT 3100 Applications of Discrete Structures 3

**Major Core**

- CDA 3101 Introduction to Computer Organization 3
- CEN 3031 Introduction to Software Engineering 3
- CIS 4301 Information and Database Systems 1 3
- CIS 4914 or EGN 4952 Senior Project or Integrated Product and Process Design 2 3
- COP 4020 Programming Language Concepts 3
- COP 4533 Algorithm Abstraction and Design 3
- COP 4600 Operating Systems 3
- EGS 4034 or CGS 3065 Engineering Ethics and Professionalism or Legal and Social Issues in Computing 1

**Major Electives**

Select from:

- CIS 4905 Individual Study in CISE
- CIS 4930 Special Topics in CISE
- CIS 4940 Practical Work
- CIS 4949 Co-Op Work in CISE
- EGN 4912 Engineering Directed Independent Research
- EGN 4951 Integrated Product and Process Design 1
- EIN 3354 Engineering Economy
- EEL 3701C Digital Logic and Computer Systems
- EEL 4744C Microprocessor Applications
- Any 4000-level or higher CISE course, beyond the Core Requirements

**Interdisciplinary Electives**

14 credits applicable toward formal minor and not counting for other requirements; completion of minor not required if it exceeds 14 credits. If completed minor contributes less than 14 credits, remaining credits can be fulfilled with additional 3000-level coursework in the area of the minor, 3000-level CISE courses, or 3000-level Engineering courses.

**Option A**
14 credits in a concentration area outside of CISE at 3000-level or higher (advisor approval required).

**Option B**
14 credits arranged with a department of interest which does not offer a formal minor.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=140901&track=01) may be used for transfer students.

**Semester 1**
- Complete 1 of 6 critical-tracking courses with a minimum grade of C within two attempts: MAC 2311, MAC 2312, MAC 2313, COP 3502C, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 2**
- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 3**
- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 4**
- Complete 1 additional critical-tracking course with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 5**
- Complete all 6 critical-tracking courses with minimum grades of C in each course within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 6**
- Complete COP 3503C and COT 3100
- 2.0 departmental GPA required
- 2.0 UF GPA required

---

1 Students should check prerequisites when planning their major electives. Students should discuss electives with an advisor in the department. Individual study, co-op, internship, research, and special topics credits must be approved by an advisor in the department.

Technical Electives may also be:
- Any 4000-level or higher ECE or PHY course not taken to fulfill some other requirement, excluding EEL 4384 and most CGS courses.
- MAP 2302 or any 4000-level math or statistics course with the prefix STA, MAA, MAD, MAP, MAS, or MHF not fulfilling another requirement.
- Up to two 3000-level CAP courses.
- EGN 4038, EGN 4641, EGN 4643, EGS 4038, EGS 4641, or EGS 4643.
Semester 7

- Complete COP 3530
- 2.0 departmental GPA required
- 2.0 UF GPA required

Semester 8

- Complete COP 4600 and COP 4020
- 2.0 departmental GPA required
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the general education international (GE-N) and diversity (GE-D) requirements. This is often done concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Herbert Wertheim College of Engineering’s computer science program combines a strong engineering technical basis with a flexible interdisciplinary component and strong communication skills. This program emphasizes the technical aspects of computer science and is less flexible than the computer science program in the College of Liberal Arts and Sciences.

Before Graduating Students Must

- Pass assessment according to department rubric of student performance on a major design experience.
• Pass assessment in one or more core courses of individual assignments targeted to each SLO.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Apply knowledge of mathematics and science to computer science problems.
2. Design and conduct computer-science experiments, analyzing and interpreting the data.

Critical Thinking
3. Design a computer science system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints.

Communication
4. Communicate technical data and design information effectively in writing and in speech to other computer scientists and engineers.

About this Program

• College: Herbert Wertheim College of Engineering (p. 477)
• Degree: Bachelor of Science in Digital Arts and Sciences
• Credits for Degree: 120
• More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The mission of the Department of Computer & Information Science & Engineering is to educate students, as well as the broader campus community, in the fundamental concepts of the computing discipline; to create and disseminate computing knowledge and technology; and to use expertise in computing to help society solve problems.

The Digital Arts and Sciences (DAS) degree is a core computer science degree with special emphasis on human-centered computing, which includes art, design and computing courses that are related to digital media, interaction and communication.

Graduates will be well versed in issues and solutions for basic art techniques and graphic art design as well as modeling 3D virtual worlds. The DAS graduate also will be well versed in collaborative multidisciplinary team models. Intermediate and final class projects are centered around a balanced-team composition focusing on multimedia productions.

Department Requirements

Students must complete all critical-tracking courses with minimum grades of C in each course and the critical-tracking GPA must be 2.5 or higher. A minimum grade of C is required in all other courses that are prerequisites to a required course:

In addition, CISE requires all DAS students to maintain a cumulative, upper-division and department GPA minimum of 2.0.
Students who do not meet these requirements will be placed on academic probation and will be required to prepare a probation contract with a CISE advisor. Students normally are given two terms in which to remove their deficit points or to remedy their probation status; however, students who do not satisfy the conditions of the first term of probation may be dismissed from the department.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=500102&track=01) may be used for transfer students.

### Semester 1
- Complete 1 of 8 critical-tracking courses with a minimum grade of C within two attempts:
  - ARH 2051, CHM 2045 or CHM 2095, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
  - 2.5 GPA required for all critical-tracking courses
  - 2.0 UF GPA required

### Semester 2
- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
  - 2.5 GPA required for all critical-tracking courses
  - 2.0 UF GPA required

### Semester 3
- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
  - 2.5 GPA required for all critical-tracking courses
  - 2.0 UF GPA required

### Semester 4
- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
  - 2.5 GPA required for all critical-tracking courses
  - 2.0 UF GPA required

### Semester 5
- Complete all 8 critical-tracking courses with minimum grades of C in each course within two attempts
  - 2.5 GPA required for all critical-tracking courses
  - 2.0 UF GPA required

### Semester 6
- Complete COP 3503C and COT 3100
  - 2.0 departmental GPA required
  - 2.0 UF GPA required

### Semester 7
- Complete COP 3530
  - 2.0 departmental GPA required
  - 2.0 UF GPA required

### Semester 8
- Complete CAP 3020
  - 2.0 departmental GPA required
  - 2.0 UF GPA required

**Model Semester Plan**

Students are expected to complete the general education international (GE-N) and diversity (GE-D) requirements. This is often done concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

Electrical Engineering

Electrical Engineering is concerned with all phases and development of the transmission and utilization of electric energy and intelligence. From communication systems to electronic components that run computers and motor vehicles, electrical engineers design products and systems that meet the needs of today and tomorrow's electrical and electronic systems.

About this Program
- College: Herbert Wertheim College of Engineering (p. 477)
- Degree: Bachelor of Science in Electrical Engineering
- Credits for Degree: 128

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
Electrical engineers study electricity and design electrical systems that solve problems—how to make your smartphones smarter; how to make your refrigerator run more efficiently; coming up with the optimal

Before Graduating Students Must
- Pass assessment in one or more core courses of individual assignments targeted to each SLO.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Academic Learning Compact
The major crosses college boundaries between engineering and the arts. This degree is an interdisciplinary engineering program combining developing skills in art and computers. Students will be well-versed in issues and solutions for basic art technique and graphic art design, as well as modeling 3D virtual worlds. Students will be experienced in collaborative multidisciplinary teams, compositions and projects focusing on multimedia productions.

Before Graduating Students Must
- Pass assessment of performance on a major design experience, according to department grading rubric.
temperature to heat pizza in your microwave; designing the audio and visual technology that brings movies to life.

Curriculum
- Combination Degrees
- Computer Engineering
- Electrical Engineering
- Electrical Engineering Minor

While it is essential that electrical engineers understand the fundamentals of their chosen fields, they must also understand the role that other branches of engineering play in completed work. The curriculum provides a foundation in basic engineering as well as depth and breadth in electrical engineering and sufficient electives to allow specialization in academic areas including:

- Electronic Devices and Circuits
- Electromagnetics, Power and Photonics
- Computers, Communications and Systems and Controls

The curriculum also prepares an engineer for professional licensure.

The department’s extensive laboratory facilities and varied research programs assist in both experimental and theoretical approaches to electrical and computer engineering.

Admission Requirements
It is the department’s policy to admit the best-qualified students as demonstrated by academic achievement.

To be admitted, a student must have an overall 2.5 grade point average in critical-tracking courses, based on the first two attempts in eight professional courses and have earned a minimum grade of C in each course of Calculus 1, Calculus 2, Calculus 3, Physics with Calculus 1, Physics with Calculus 2, Differential Equations and General Chemistry. Only the first two attempts (including withdrawals and drops) in each course will be considered for admission to or retention in the department.

Department Requirements
A minimum grade of C is required in any course transferred into the junior-senior years from another institution.

Courses marked below with a footnote must be completed with minimum grade of C. For a course to be used as a prerequisite for an EEE/EEL-prefixed course, a minimum grade of C is required in the prerequisite course. Any 3000/4000 level EEL/EEE-prefixed course not taken to satisfy the breadth or depth requirement can be applied as EE technical elective, excluding EEL 3834 (only counts for computer programming requirement) EEL 3003, and EEL 3872, which does not apply toward degree requirements.

ECE majors must have an overall 2.0 GPA in all ECE courses to meet degree requirements.

A student must complete both EEL 3111C and EEL 3701C before taking any 4000-level EEE or EEL course. Electrical Engineering majors must have EEL 3923C completed or in progress to apply for the IPPD program.

More Info (http://www.ippd.ufl.edu/)

Any course taken to satisfy a degree requirement (general education, required course or technical elective), with the exception of EGN 4912, EEL 4948, and EEL 4949, cannot be taken S-U.

An electrical engineering student whose cumulative, upper-division or department grade point average falls below 2.0 or whose pre-professional grades do not meet department admission requirements will be placed on academic probation and be required to prepare a probation contract with an ECE academic advisor. If a student is not making normal academic progress, they will be placed on academic probation.

Students normally are given two terms in which to remove their deficit points. Students who do not satisfy the conditions of the first term of probation may be dismissed from the department.

All graduating seniors must complete an ECE Exit Questionnaire with their advisor before graduating.

Educational Objectives
The objectives of the Electrical Engineering program at the University of Florida are to prepare students to be good citizens engaged in ethical engineering for the betterment of society and enabling them, so that within a few years of graduation, they:

1. Have successful careers providing leadership in a dynamic industry that is global, multi-disciplinary, and evolving;
2. Are excelling in the top advanced studies programs in the world.

Goals
The baccalaureate program prepares students to embark upon professional careers in electrical and computer engineering or to begin graduate study. The department’s educational objectives are consistent with the ABET general criteria for accrediting programs in engineering in the United States.

Mission
The department offers undergraduate and graduate programs in electrical and computer engineering and conducts research to serve the needs of Florida and the nation.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=141001&track=01) may be used for transfer students.
Semester 1
- Complete 1 of 7 tracking courses. MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049, and CHM 2045 or CHM 2095 must be completed with minimum grade of C in each course within two attempts (including withdrawals).
  - 2.5 GPA required for all 7 critical-tracking courses
  - 2.0 UF GPA required

Semester 2
- Complete 1 additional critical-tracking course with the appropriate minimum grade within two attempts
  - 2.5 GPA required for all 7 critical-tracking courses
  - 2.0 UF GPA required

Semester 3
- Complete 2 additional critical-tracking courses with the appropriate minimum grades within two attempts
  - 2.5 GPA required for all 7 critical-tracking courses
  - 2.0 UF GPA required

Semester 4
- Complete 2 additional critical-tracking courses with the appropriate minimum grades within two attempts
  - 2.5 GPA required for all 7 critical-tracking courses
  - 2.0 UF GPA required

Semester 5
- Complete remaining 7 critical-tracking courses with the appropriate minimum grades within two attempts
  - Complete first Electrical Engineering Breadth course
  - 2.5 GPA required for all critical-tracking courses
  - 2.0 UF GPA required

Semester 6
- Complete the 2 remaining Electrical Engineering Breadth required courses.
  - Complete first Electrical Engineering Depth course
  - 2.0 UF GPA required

Semester 7
- Complete EEL 3923C
  - Complete the second Electrical Engineering Depth course
  - Complete 3 EE Technical Electives (9 credits)
  - 2.0 UF GPA required

Semester 8
- Complete EEL 4924C
  - Complete remaining Electrical Engineering Technical Electives (7-10 credits)
  - 2.0 UF GPA required

---

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

- EEL 4657C Linear Control Systems 4
- EEL 4744C Microprocessor Applications 4
- EEL 4750 Foundations of Digital Signal Processing 3

**Electrical Engineering Depth | 6 Credits**

Select one EE Depth course from 2 different EE Breadth areas.

**Interdisciplinary Technical Electives | 6 Credits**

Students are able to select courses that are 3000-4000 level from the Biology/Biochemistry courses (prefixes of BSC, BCH, CHM, PCB, and ZOO); Mathematics courses (prefixes of MAA, MAD, MAP, and MAS); Physics courses (prefixes of PHY and PHZ). Students are able to count CHM 2046, CHM 2210, and CHM 2211. Students are able to select courses that are 3000-4000 level from HWCOE (non-ECE) courses. Students can count EML 2023 and EGM 2511.

**Electrical Engineering Technical Electives | 18-19 Credits**

Any 3000 level or above course in ECE, with the exception of EEL 3003, EEL 3008, and EEL 3872.

A minimum of 16-19 hours must be EEL-prefixed courses. The total credits of EE breadth and technical electives should equal 29 credits.

**Academic Learning Compact**

Electrical engineering emphasizes development of the transmission and utilization of electrical energy and intelligence. Electrical engineers design products and systems that meet the needs of today and tomorrow's electrical and electronic systems. Students will be able to design communication systems; design the electronic components that run computers, motor vehicles, TVs, stereo systems and robots for automated factories; design aircraft and spacecraft control systems; design utility and industrial power systems; and design biological and biomedical systems.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org

**Before Graduating Students Must**

- Pass an assessment of performance on a major design experience. Assessment will be provided by two or more faculty and/or industry practitioners.
- Pass assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to Student Learning Outcomes (SLOs)**

**Content**

1. Identify, describe, and interpret mathematics, science and engineering principles to electrical engineering problems.
Critical Thinking
2. Design and conduct electrical engineering experiments as well as analyze and interpret data.
3. Design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.

Communication
4. Convey technical data and design information effectively for a range of audiences using a variety of methods and media.

Electrical Engineering Minor
This minor, administered by the Department of Electrical and Computer Engineering, provides additional knowledge in Electrical Engineering.

About this Program
- **College**: Herbert Wertheim College of Engineering (p. 477)
- **Credits**: 15 | Completed with minimum grades of C

Department Information
Electrical engineers study electricity and design electrical systems that solve problems—how to make your smartphones smarter; how to make your refrigerator run more efficiently; coming up with the optimal temperature to heat pizza in your microwave; designing the audio and visual technology that brings movies to life. [Website](https://www.ece.ufl.edu/)

Curriculum
- Combination Degrees
- Computer Engineering
- Electrical Engineering
- Electrical Engineering Minor

*Students pursuing the BSEE or BSCEN degree are not eligible for this minor.*

To be admitted to the minor, students are expected to meet the admission requirements of the Department of Electrical and Computer Engineering.

All courses for the minor must be completed at UF. EEL 3003 and EEL 3111C do not both count toward the minor.

**Required Courses**

Engineering Innovation Certificate
With core themes involving the study of innovation, entrepreneurship, leadership, and ethics, this certificate develops a comprehensive skill set that is applied in innovation-driven enterprises and within larger organizations.

About this Program
- **College**: Herbert Wertheim College of Engineering (p. 477)
- **Credits**: 9 | Completed with minimum grades of B

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Related Programs
- Engineering Innovation Minor

*This certificate is open to undergraduate students in any engineering discipline. Students cannot earn both the Engineering Innovation certificate and minor.*

Engineering Innovation Minor
Graduates with this minor across all engineering disciplines are better prepared to enter the market place as innovators and leaders in myriad technology-centric industries. The minor provides the academic background for graduates to think more creatively, innovatively, and
entrepreneurially. Graduates are more rounded with innovation skill sets that enhance career advancement opportunities, either for employers or in their own entrepreneurial pursuits.

**About this Program**

- **College:** Herbert Wertheim College of Engineering (p. 477)
- **Credits:** 15 | Completed with a minimum 2.8 combined GPA

**Related Programs**

- Engineering Innovation Certificate

Open to all Herbert Wertheim College of Engineering majors. Students can only complete one UF Innovation minor. Students cannot earn both the Engineering Innovation minor and certificate.

The curriculum enhances the engineering discipline with courses in engineering attributes, communications, innovation, entrepreneurship, creativity, leadership, and project management, completed with an internship/co-op experience. The UF Engineering Innovation Institute oversees this minor.

This minor develops a deep and comprehensive skill set in undergraduate engineering students that can be applied innovation-driven enterprises as well as in “intrapreneural” initiatives within larger organizations. The core themes involve creativity, the study of engineering-focused innovations, technological entrepreneurship, leadership of teams focused on technology and engineering, engineering project management, and professional development for engineers via an engineering innovation-related internship.

This minor complements the technical training in the student’s major discipline by providing the tools and knowledge required for engineering innovators.

**Engineering Leadership Certificate**

Engineering undergraduate students completing this certificate will reflect a comprehensive set of industry-preferred competencies that prepares them for leadership roles in their engineering careers.

**About this Program**

- **College:** Herbert Wertheim College of Engineering (p. 477)
- **Credits:** 9 | Completed with minimum grades of B

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

This certificate is open to undergraduate students in any engineering discipline.

The certificate’s core studies include engineering leadership, advanced engineering leadership development, and one of the courses engineering project management, engineering entrepreneurship, or engineering innovation.

**Engineering Project Management Certificate**

The Engineering Project Management certificate reflects a comprehensive set of competencies that are aligned with a common career path through wide sectors in the practice of engineering.

**About this Program**

- **College:** Herbert Wertheim College of Engineering (p. 477)
- **Credits:** 9 | Completed with minimum grades of B

This certificate is open to undergraduate students in any engineering discipline.
The certificate's core studies include fundamentals of engineering project management, engineering economy, and one of several optional courses offered through the various departments in the college.

**Prerequisites**
Undergraduate engineering student of junior or senior status. The only required course prerequisite is Calculus 2.

**Engineering | Exploring Engineering Studies**

The Exploring Engineering Studies plan is intended for students who want to major in engineering but have not yet chosen a specific discipline or for students who need to take both pre-tracking chemistry and mathematics courses in their first semester.

**About this Program**
- **College**: Herbert Wertheim College of Engineering (p. 477)
- **Degree**: None
- **Credits for Degree**: N/A

This is not a degree-granting major. Students should work with their academic advisors to choose a degree-granting engineering major by semester three.

**Critical Tracking**
Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

**Semester 1**
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 2**
- Complete 2 of the 8 critical-tracking courses with minimum grades of C within two attempts, including withdrawals: CHM 2045 or CHM 2095, CHM 2046 or CHM 2096, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049

**Semester 3**
- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts, including withdrawals
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 4**
- Complete 2 additional courses with minimum grades of C within two attempts, including withdrawals
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 5**
- Complete all 8 critical-tracking courses with minimum grades of C in each course, within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Model Semester Plan**
Undecided engineering students who are ready to begin one or both critical-tracking courses in semester 1 should meet with their academic advisor to adjust the recommended plan of study.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

- IDS 1161 What is the Good Life (Gen Ed Humanities)
- MAC 2311 Analytic Geometry and Calculus 1 (Critical Tracking; State Core Gen Ed Mathematics)
EES has earned the department a ranking as a leading undergraduate program. The ABET-accredited engineering bachelor's degree is comprehensively based on physical, chemical, and biological principles to solve environmental problems affecting air, land, and water resources. An advising scheme including select faculty, led by the undergraduate coordinator, guides each student through the program.

Curriculum
• Combination Degrees
• Environmental Engineering

Department Requirements
Before graduating, all students must take the Fundamentals of Engineering Exam, which is the first exam leading to professional licensure as an engineer.

Qualified students are encouraged to pursue master's and doctoral studies to increase their knowledge and broaden their employment opportunities.

Educational Objectives
Environmental engineering graduates will continue to develop and apply their knowledge and skills to identify, prevent, and solve environmental problems. Evidence of achievement of this objective includes one or more of the following:

• Passing the Fundamentals of Engineering Examination
• Obtaining and maintaining a Professional Engineering License
• Admission to graduate school, including medical, law or other professional schools
• Completing educational and professional short courses

Program graduates can aspire to careers that benefit society as a result of their educational experiences in science, analysis and design, as well as in their social and cultural activities. Evidence of achievement of this objective includes the following:

• Employment as an engineer or in a related technical capacity
• Participating in professional organizations
• Providing community service

Program graduates will be able to communicate and work effectively in all work settings including those that are multidisciplinary. Evidence of achievement of this objective includes one or more of the following:

• Publication in scientific and engineering journals
• Presenting at scientific and engineering conferences
• Teaching
• Contributing to scientific and engineering studies
• Service as a task or team leader

Environmental Engineering

Environmental Engineering applies engineering and scientific principles to protect and preserve human health and the environment. It embraces broad environmental concerns, including air and water quality, solid and hazardous wastes, groundwater protection and remediation, water resources management, environmental policy, radiological health, environmental biology and chemistry, systems ecology, water and wastewater treatment, and wetlands ecology.

About this Program
• College: Herbert Wertheim College of Engineering (p. 477)
• Degree: Bachelor of Science in Environmental Engineering
• Credits for Degree: 128

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The broad undergraduate environmental engineering curriculum of EES has earned the department a ranking as a leading undergraduate

**Mission**

The mission of the Department of Environmental Engineering Sciences (EES) is to provide quality undergraduate and graduate educational programs in environmental engineering sciences, to conduct an internationally recognized environmental research program that benefits humanity, and to provide authoritative guidance to individuals and organizations charged with preventing and solving local, state, national and global environmental problems. EES serves as a leader in interdisciplinary programs aimed at solving environmental problems and as a major on campus crucible for identification, conceptualization and resolution of environmental issues.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites ([http://www.flvc.org/cpp/displayRecord.jsp?cip=141401&track=01](http://www.flvc.org/cpp/displayRecord.jsp?cip=141401&track=01)) may be used for transfer students.

**Semester 1**
- Complete 2 critical-tracking course (CHM 2045 or CHM 2095, CHM 2046 or CHM 2096, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048 and PHY 2049) with a minimum grade of C within two attempts, including withdrawals.
- 2.5 GPA on the best of a maximum of two attempts at each critical-tracking course
- 2.0 UF GPA required

**Semester 2**
- Complete 2 additional critical-tracking courses with a minimum grade of C within two attempts, including withdrawals
- 2.5 GPA on the best of a maximum of two attempts at each critical-tracking course
- 2.0 UF GPA required

**Semester 3**
- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts, including withdrawals
- 2.5 GPA on the best of a maximum of two attempts at each critical-tracking course
- 2.0 UF GPA required

**Semester 4**
- Complete the remaining critical-tracking courses with minimum grades of C within two attempts, including withdrawals
- 2.5 GPA on the best of a maximum of two attempts at each critical-tracking course
- 2.0 UF GPA required

**Semester 5**
- Complete ENV 3002
- 2.0 UF GPA required

**Model Semester Plan**

Students are expected to complete the general education International (GE-N) and Diversity (GE-D) requirements. This is often done concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

### Academic Learning Compact

Environmental engineering applies engineering and scientific principles to protect and preserve human health and the environment. It embraces broad environmental concerns, including air and water quality, solid and hazardous wastes, groundwater protection and remediation, water resources and management, environmental policy, radiological health, environmental biology and chemistry, systems ecology, water and wastewater treatment and wetlands ecology.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (https://urldefense.proofpoint.com/v2/url/?u=http-3A__www.abet.org&d=DwMGaQ&c=pZJPUDQ3SB9JplYbifm4nt2lEV5pWx2MjBT73Byh6kYf77Qfs6kPA&m=-KF2G1JwsXcME70kGBMIRTY2i4YyuqEwzRran98WV1M&s=73PhSD8hcuNu3AXiyLs)
Before Graduating Students Must

- Pass assessment by two or more faculty and/or industrial practitioners of student performance on a major design experience.
- Pass assessment in two courses of individual assignments targeted to each particular learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to Student Learning Outcomes (SLOs)

Content
1. Apply knowledge of mathematics, science and engineering principles to environmental engineering problems.
2. Design and conduct environmental engineering experiments and analyze and interpret the data collected.

Critical Thinking
3. Design an environmental engineering system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints.

Communication
4. Communicate technical data and design information effectively in writing and in speech to project stakeholders.

Assessment Types

- Assignments
- Reports
- The Fundamentals of Engineering (FE) exam
- Exit survey

Industrial and Systems Engineering

Industrial and Systems Engineering deals with the optimization of complex processes or systems. It typically focuses on the development, improvement, implementation, and evaluation of integrated systems of people, money, knowledge, information, equipment, energy, materials, etc. Industrial and systems engineering often relies on, among others, the analysis and synthesis of mathematical, physical, social sciences, and the principles and methods of engineering design to specify, predict, and evaluate results from such systems or processes.

About this Program

- College: Herbert Wertheim College of Engineering (p. 477)
- Degree: Bachelor of Science in Industrial and Systems Engineering
- Credits for Degree: 125
- More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Industrial and Systems Engineering strives to be a resource for comprehensive ISE education and research training; a department with research thrusts and coursework covering a breadth of disciplines; a department making use of advanced computing technology, cutting-edge programming languages, social media, data mining, AI, etc. to best support needs, interests, and training of students.

Curriculum

- Combination Degrees
- Industrial and Systems Engineering

Industrial and systems engineering prepares students for industrial practice in process design, efficiency planning with technical operation research component, data analytics for Industry 4.0, human and systems analysis, production and quality control and economic analysis of operational systems.

Students are prepared to use engineering principles to solve problems that require a quantitative basis for decision making and the application of operations research, statistics, economics, mathematics and
The curriculum also provides the preparation necessary for graduate study.

Admission Requirements

The minimum requirements for admission to the undergraduate program are an overall 2.5 grade point average and a 2.5 grade point average in the designated pre-engineering technical courses. Students who have not met these requirements at 60 credits may be admitted on probation with successful petition.

Department Requirements

Students must complete each required course with a minimum grade of C in at most three attempts. Grades of H, I, N, U, and W are considered attempts. Registration cancelled for non-payment is also considered an attempt.

The discipline-specific courses offered by the Industrial and Systems Engineering Department fall into two distinct categories:

1. ISE Core
2. Restricted Electives

The courses in the ISE Core cover the fundamentals of Industrial and Systems Engineering and introduce students to different sub-disciplines within the profession. These courses provide the essential knowledge necessary for every graduating engineer in ISE and therefore are required for all students.

In addition, the ISE core lays the foundation for different focus areas within the field represented by restricted electives. These courses prepare students to make an informed decision when selecting a specific ISE area (within the restricted electives) in which they would like to focus.

Restricted Electives

In order to facilitate an in-depth study of specific areas within the ISE discipline, the department of Industrial and Systems Engineering offers restricted electives in:

1. Operations Research and Data Analytics
2. Human Systems Engineering
3. Production and Logistics

Grouping of courses into these areas (sets of restricted electives) enable a layered approach, where a specific area is explored by several courses in a thorough and progressive fashion. This allows for not only exploration of topics at a deeper level but also employment of application-focused teaching techniques.

Students must select one of the restricted elective areas listed above. The deadline to make the selection is one week before the start of advance registration preceding the student’s final semester. Students are always encouraged to discuss their decisions with their advisors.

There are two graduation requirements associated with respect to restricted electives:

Depth Requirement

Students must take at least three (3) courses in their selected area. Since some of the courses may have pre-requisites from the same area, course planning must be done carefully to ensure timely graduation.

Breadth Requirement

Students must take at least one (1) course from each of the other two areas. Since most restricted elective courses are offered once a year, course planning must be done carefully to optimize scheduling.

Educational Objectives

The objective of the industrial and systems engineering program is to produce graduates who:

- will be successful professionals in industrial and systems engineering or other disciplines
- can acquire advanced knowledge through continuing education or advanced degree programs
- can become active leaders in their profession and/or community

Mission

The mission of the undergraduate program is to provide a top quality, state-of-the-art education and student research training in industrial and systems engineering and to foster leading-edge instruction and cutting edge research. The program seeks national recognition by peer institutions and key employers of industrial and systems engineering graduates.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=142701&track=01) may be used for transfer students.

Semester 1

- Complete 1 of 8 critical-tracking courses with a minimum grade of C within two attempts: COP 2271 (VB.NET), ESI 3327C, MAC 2311, MAC 2312, MAC 2313, MAS 3114, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking course with a minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
Semester 5
- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6
- Complete ESI 4356 and ESI 4523
- Complete 2 additional required courses
- 2.0 UF GPA required

Semester 7
- Complete 2 restricted ISE electives
- Complete 2 additional required courses
- 2.0 UF GPA required

Semester 8
- Complete all remaining required ISE courses
- 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Fundamentals of Engineering Exam Preparation

Approximately 10 percent of the members of the Institute of Industrial Engineers pursue a professional engineer (PE) license. A PE license is especially desirable for engineers who want to start their own businesses. The industrial and systems engineering curriculum does not require certain courses that are necessary for the Fundamentals of Engineering (FE) exam (also known as the Engineer Intern exam). The latter is also a prerequisite for pursuing a professional engineer license.

Students preparing for the FE exam should choose a set of technical electives that properly prepare them for this exam, such as EGM 3520 and EGM 3400 / EGM 3401.

Student Learning Outcomes (SLOs)

Content
1. Identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.

2. Develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgement to draw conclusions.

Critical Thinking
3. Apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.

Communication
4. Communicate effectively with a range of audiences.

Academic Learning Compact

Industrial and systems engineering prepares students for industrial practice in process design, efficiency planning with technical operation research component, data analytics for Industry 4.0, human systems analysis, production and quality control, quality control, and economic analysis of operational systems. Students will be prepared to use engineering principles to solve problems that require a quantitative basis for decision making and the application of data analytics, production and logistics, and human systems for economics, operations research, statistics, mathematics and engineering analysis, with significant digital impact.

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation/).

Assessment Types

- Instructor's outcome scorecards
- Senior design project evaluations
- Additional assessments include:
  - Exit interviews
  - Co-op/internship evaluations
  - Alumni survey

Materials Science and Engineering

Everything Americans use is composed of materials, from computer chips to flexible concrete skyscrapers, from plastic bags to artificial...
hulls, from fiber optical cables to automobiles. Materials Science and Engineering makes these materials reliable and useful through design, processing, and analysis of controlled compositions, microstructures, and properties. Without new materials, the next generation of computers, automobiles, aircraft telecommunications, skyscrapers, and medical implants will not exist. Materials of the future will be smart and think on their own, in addition to meeting traditional property demands. This field abounds with scientific challenges and technological excitement.

About this Program

- **College:** Herbert Wertheim College of Engineering (p. 477)
- **Degree:** Bachelor of Science in Materials Science and Engineering
- **Credits for Degree:** 125

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Materials Science and Engineering strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting, and distance learning to promote engineering in the field.

Curriculum

- Advanced Engineering Ceramics Certificate
- Biomaterials Certificate
- Combination Degrees
- Materials Science and Engineering
- Materials Science and Engineering Minor
- Metallurgical Engineering Certificate
- Nuclear and Radiological Engineering Minor
- Nuclear and Radiological Sciences
- Nuclear Engineering
- Nuclear Radiation and Reactor Analysis Certificate
- Nuclear Thermal Systems Analysis Certificate
- Polymer Science and Engineering Certificate
- Semiconductor Materials Certificate

The bachelor’s degree program provides a broad materials science and engineering core with specialization in ceramics, electronic materials, metals or polymeric and biomaterials. Biomaterials is also taught at the combination bachelor’s/master’s level.

Admission Requirements

It is the department’s policy to admit the best-qualified transfer applicants as demonstrated by academic achievement.

Successful applicants must have earned:

- An overall 2.5 grade point average, based on the first two attempts, in the eight preprofessional (critical-tracking) courses
- A minimum grade of C in the following:

<table>

</tbody>
</table>

Only the first two attempts in each course, including withdrawals, will be considered for admission to or retention in the department.

- A cumulative minimum GPA of 2.0 is required for all courses

Educational Objectives

The program objectives of the MSE program at the University of Florida are to produce engineering practitioners and graduate students who in three to five years after graduation will:

- Have successful careers in Materials Science and Engineering or related disciplines.
- Be prepared to successfully participate in continuing education or education toward advanced degrees.

Department Requirements

A minimum grade of C is required in ENC 3246.

The department encourages students to accept internships and opportunities to study abroad. However, it is highly recommended that students seek academic advising for appropriate registration planning.

Mission

The department strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting and distance learning to promote engineering in the field.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Semester 1

- Complete 1 of 9 critical-tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, CHM 2046 or CHM 2096, EMA 3010, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 2
• Complete 2 additional critical-tracking course with a minimum grade of C within two attempts
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 3
• Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 4
• Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 5
• Complete all 9 critical-tracking courses with minimum grades of C in each course within two attempts
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 6
• Complete EMA 4125 and 1 additional EMA 3000/4000 level course

Semester 7
• Complete 2 additional EMA 3000/4000 level courses

Semester 8
• Complete all remaining EMA 3000/4000 level required courses

Students are expected to complete the general education international (N) and diversity (D) requirements. This is often done concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Model Semester Plan

Course | Title                                                                 | Credits |
-------|----------------------------------------------------------------------|---------|
EME 2003 | General Chemistry 1 (Critical Tracking; Gen Ed Physical Sciences) | 3       |
CHM 2075 | Chemistry for Engineers 1 (Critical Tracking; Gen Ed Physical Sciences) | 3       |
CHM 2075L | General Chemistry 1 Laboratory (Gen Ed Physical Sciences) | 1       |
MAC 2311 | Analytic Geometry and Calculus 1 (Critical Tracking; State Core Gen Ed Mathematics) | 4       |
State Core Gen Ed Composition (p. 53); Writing Requirement: | 3       |
6,000 words |

Semester Two

Quest 2 (Gen Ed Social/Behavioral Science); Writing Requirement: 2,000 words; with International or Diversity

Select one:

CHM 2046 | General Chemistry 2 (Critical Tracking; Gen Ed Physical Sciences) | 3       |
CHM 2096 | Chemistry for Engineers 2 (Critical Tracking; Gen Ed Physical Sciences) | 3       |
CHM 2046L | General Chemistry 2 Laboratory (Gen Ed Physical Sciences) | 1       |
ENC 3246 | Professional Communication for Engineers (Gen Ed Composition; Writing Requirement: 6,000 words) | 3       |
MAC 2312 | Analytic Geometry and Calculus 2 (Critical Tracking) | 4       |

Semester Three

Credits 14

Select one:

EIN 3354 | Engineering Economy | 3       |
MAN 3025 | Principles of Management | 3       |
MAR 3023 | Principles of Marketing | 3       |
EMA 3010 | Materials (Critical Tracking) | 3       |
MAC 2313 | Analytic Geometry and Calculus 3 (Critical Tracking; Gen Ed Mathematics) | 2       |
PHY 2048 | Physics with Calculus 1 (Critical Tracking; State Core Gen Ed Physical Sciences) | 3       |
PHY 2048L | Laboratory for Physics with Calculus 1 (Gen Ed Physical Sciences) | 1       |

Select a computer programming course:

COP 2271 | Computer Programming for Engineers (or see advisor for approved list) | 2       |

Semester Four

Credits 16-17

EGM 2511 | Engineering Mechanics: Statics | 3       |
EMA 3000L | Sophomore Materials Laboratory | 1       |
EMA 3011 | Fundamental Principles of Materials | 3       |
EMA 3800 | Error Analyses and Optimization Methodologies in Materials Research | 3       |
MAP 2302 | Elementary Differential Equations (Critical Tracking) | 3       |
PHY 2049 | Physics with Calculus 2 (Critical Tracking) | 3       |
PHY 2049L | Laboratory for Physics with Calculus 2 | 1       |

Semester Five

Credits 17

EEL 3003 | Elements of Electrical Engineering | 3       |
EGM 3520 | Mechanics of Materials | 3       |
EMA 3050 | Introduction to Inorganic Materials | 3       |
EMA 3066 | Introduction to Organic Materials | 3       |
EMA 3080C | Materials Laboratory 1 (Writing Requirement: 4,000 words) | 2       |
EMA 4314 Energetics and Kinetics in Materials Science 3

• 3 credits minimum of technical electives in the fall semester needs to be a materials processing course.
• 3 credits maximum of non-EMA or ENU technical electives can be approved courses from outside the MSE department.

Academic Learning Compact

The major enables students to develop an understanding of materials systems and their role in engineering. Emphasis is placed on the ability to apply knowledge of mathematics, science and engineering principles to materials science and engineering; to design and conduct experiments, as well as to analyze and interpret data; and to design a program name system, component or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability.

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation/).

Before Graduating Students Must

• Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
• Pass assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
• Complete an exit interview in your final semester.
• Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to 
Student Learning Outcomes (SLOs) 

Content 
1. Apply knowledge of mathematics, science and engineering principles to materials science and engineering. 
2. Design and conduct materials science and engineering experiments and analyze and interpret the data. 

Critical Thinking 
3. Design a materials science and engineering system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints. 

Communication 
4. Communicate technical data and design information effectively in speech and in writing to other materials engineers.

Assessment Types 
- Assignments 
- Laboratory reports 
- Research papers 
- Oral presentations 
- Exams 
- Additional assessments include: 
  - Outcome assessment 
  - Student exit survey 

Materials Science and Engineering Minor 

This minor is for engineering and science students with interests in Materials Science and Engineering. Materials concerns are critical to engineering design and analysis and new materials are needed for microelectronic packages, biomedical applications, super-conducting films, tool bits, cutting tools, construction, fuel-efficient engines, and other industrial and scientific applications. 

About this Program 
- College: Herbert Wertheim College of Engineering (p. 477) 
- Credits: 15 | Completed with minimum grades of C 
- Contact: 108 Rhines Hall (http://campusmap.ufl.edu/?loc=0184) 

Mechanical Engineering 

Mechanical Engineering is concerned with motion and the processes whereby other energy forms are converted into motion. Mechanical engineers are responsible for conceiving, designing, manufacturing, testing, and marketing devices and systems that alter, transfer, transform, and utilize the energy forms that cause motion. 

About this Program 
- College: Herbert Wertheim College of Engineering (p. 477) 
- Degree: Bachelor of Science in Mechanical Engineering 
- Credits for Degree: 128
To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Mechanical and Aerospace Engineering (MAE) is the largest academic program on campus by student enrollment. The Department of Mechanical and Aerospace Engineering (MAE) is one of the founding departments of the Herbert Wertheim College of Engineering. More than a decade after the successful merger of the mechanical and aerospace programs, MAE remains a vibrant and intellectually diverse program at both the undergraduate and graduate level.

Curriculum
- Aerospace Engineering
- Biomechanics Minor
- Combination Degrees
- Mechanical Engineering

Related Programs
Dual Degree in Mechanical Engineering and Aerospace Engineering

The baccalaureate program in mechanical engineering is fully accredited and provides a broad education with a strong foundation in mathematics, science and basic engineering sciences. Advanced courses are available to develop specialized interests in the engineering aspects of manufacturing, robotics, solid mechanics, thermal and fluid systems, dynamics and controls, and biomechanics. Graduates are prepared to work in a variety of industries or to pursue graduate study.

Students considering a career in biomedical engineering should be aware that graduate education is often required. The Herbert Wertheim College of Engineering offers M.S. and Ph.D. degrees in biomedical engineering.

Combination Bachelor’s/Master’s Degree Program

The mechanical engineering professional often benefits from an advanced degree to meet the challenging needs of industry and government. Accordingly, the Department of Mechanical and Aerospace Engineering actively participates in the combination B.S./M.S. degree program that allows students to double-count graduate courses toward both degrees. The combination-degree program reduces the cost for both degrees and enhances the student’s marketability for career advancement. Interested students should contact the MAE department or its website for more information.

Department Requirements
Minimum grades of C are required for the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EGM 2511</td>
<td>Engineering Mechanics: Statics</td>
<td>3</td>
</tr>
<tr>
<td>EGM 3344</td>
<td>Introduction to Numerical Methods of</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Engineering Analysis</td>
<td></td>
</tr>
<tr>
<td>EGM 3401</td>
<td>Engineering Mechanics: Dynamics</td>
<td>3</td>

<tr>
<td>EGM 3520</td>
<td>Mechanics of Materials</td>
<td>3</td>
</tr>
<tr>
<td>EML 3100</td>
<td>Thermodynamics</td>
<td>3</td>
</tr>
</tbody>
</table>

The minimum C grade is part of the prerequisite requirement for courses listing EGM 2511, EGM 3344, EGM 3401, EGM 3520, or EML 3100 as a prerequisite. The prerequisite course and subsequent course cannot be taken in the same term, even if the prerequisite is being repeated.

An aerospace or mechanical engineering student whose cumulative, upper-division or department grade point average falls below a 2.0 or who does not meet critical tracking requirements will be placed on academic probation and required to complete a probation contract with an MAE academic advisor. Students normally are allowed a maximum of two terms (consecutive or non-consecutive) on academic probation. Students who do not satisfy the conditions of the first term on probation may be dismissed from the department.

All graduating seniors must complete an exit interview with their advisor before graduating.

Dual-Degree Programs
There is much overlap between the aerospace engineering and mechanical engineering curriculum. The first six semesters are identical for both programs. Through proper selection of electives, students can earn a dual mechanical engineering/aerospace engineering degree with one semester of additional work. Contact the Department of Mechanical and Aerospace Engineering or visit the website for more information.

Educational Objectives
The objective of the mechanical engineering program at UF is to prepare students to attain the following goals within a few years of graduation:

- Graduates will meet the expectations of employers of mechanical engineers.
- Qualified graduates will pursue advanced study if they so desire.

Mission
The mission of the undergraduate program is to serve the state of Florida, the United States and the engineering profession by providing quality educational programs in mechanical engineering; conduct a nationally recognized research program; and foster ongoing professional development of students and faculty.

Research Programs
The department’s active research programs are sponsored by private industry, the National Science Foundation, Department of Defense, NASA, National Institutes of Health and other agencies.

These programs keep faculty at the leading edge of technology and provides opportunities for students to participate in research through classroom assignments, individual studies, undergraduate research scholarships and employment as research assistants.
Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites ([http://www.flvc.org/cpp/displayRecord.jsp?cip=141901&track=01](http://www.flvc.org/cpp/displayRecord.jsp?cip=141901&track=01)) may be used for transfer students.

Semester 1

- Complete 2 of 8 critical-tracking courses (pre-professional) with a minimum grade of C within two attempts: CHM 2045 or CHM 2095, EML 2023, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.8 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses (pre-professional) with a minimum grade of C within two attempts
- 2.8 GPA required for all critical-tracking courses (pre-professional)
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses (pre-professional) with minimum grades of C within two attempts
- Complete EGM 2511 with minimum grade of C
- 2.8 GPA required for all critical-tracking courses (pre-professional)
- 2.0 UF GPA required

Semester 4

- Complete all critical-tracking courses (pre-professional) with minimum grades of C within two attempts
- Complete EGM 3344, EGM 3520, and EML 3100 with minimum grades of C
- 2.8 GPA required for all critical-tracking courses (pre-professional)
- 2.0 UF GPA required

Semester 5

- Complete EGM 3401 with minimum grade of C
- Complete EGN 3353C

 Semester 6

- Complete 4 of the remaining EML 3XXX/4XXX required courses

 Semester 7

- Complete 3 of the remaining EML 3XXX/4XXX required courses

 Semester 8

- Complete all remaining EML 3XXX/4XXX required courses

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

### Academic Learning Compact

Mechanical engineers are responsible for creating and manufacturing devices and systems that alter, transfer, transform and utilize energy forms that cause motion. The baccalaureate program provides a broad education with a strong foundation in mathematics, science and basic engineering sciences. Advanced courses develop specialized engineering skills in manufacturing, robotics, solid mechanics, thermal and fluid systems, dynamics and controls, and biomechanics.

Accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org (https://urldefense.proofpoint.com/v2/url/?u=http-3A__www.abet.org&d=DwMGaQ&c=pZJPUDQ3SB9JpIybifm4nt2IEVG5pWx2KB73BYn6kEY-D7Qfs6kPA&m=-KF2G1lwXxCME70kGBMIRTY2i4YqEwz2Rran98WV1M&sa=73PhSd8hcuNu3AXtYlSb).

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation/).

### Before Graduating Students Must

- Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
- Pass assessment in two courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to Student Learning Outcomes (SLOs)

#### Content

1. Apply knowledge of mathematics, science and engineering principles to mechanical engineering problems.
2. Design and conduct mechanical engineering experiments and analyze and interpret the data.
Critical Thinking
3. Design a mechanical engineering system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability constraints.

Communication
4. Communicate technical data and design information effectively in speech and in writing to other mechanical engineers.

Assessment Types
- Written exams
- Laboratory and oral reports
- Design project
- Additional assessments include:
  - Exit interview
  - Alumni survey

Metallurgical Engineering Certificate
The Metallurgical Engineering certificate provides a foundation in the interrelationship of processing, microstructure, and properties of structural metals and alloys.

About this Program
- College: Herbert Wertheim College of Engineering (p. 477)
- Credits: 10 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information
The Department of Materials Science and Engineering strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting, and distance learning to promote engineering in the field.

GAINESVILLE FL 32611-6400
Map (http://campusmap.ufl.edu/#/index/0184)

Curriculum
- Advanced Engineering Ceramics Certificate
- Biomaterials Certificate
- Combination Degrees
- Materials Science and Engineering
- Materials Science and Engineering Minor
- Metallurgical Engineering Certificate
- Nuclear and Radiological Engineering Minor
- Nuclear and Radiological Sciences
- Nuclear Engineering
- Nuclear Radiation and Reactor Analysis Certificate
- Nuclear Thermal Systems Analysis Certificate
- Polymer Science and Engineering Certificate
- Semiconductor Materials Certificate

Upon completion of the certificate, students have a fundamental understanding of the processing, microstructures, and properties of metallic structural alloys, as well as materials/process selection and failure analysis.

Nuclear and Radiological Engineering Minor

Established in 1910, the Herbert Wertheim College of Engineering is the largest professional school, the second-largest college and one of the three largest research units at the University of Florida. The curricula is designed to produce highly skilled engineers and provide each student with a broad range of degree and career choices.

Nuclear and Radiological Sciences

This degree emphasizes the nuclear sciences rather than nuclear engineering. Students pursue a pre-medical specialization or a pre-medical physics specialization. Any student pursuing this degree must have a selected program, including option area electives, approved in advance by an advisor.

About this Program
- **College**: Herbert Wertheim College of Engineering (p. 477)
- **Degree**: Bachelor of Science
  - **Specializations**: Pre-Medical (p. 546) | Pre-Medical Physics (p. 549)
- **Credits for Degree**: 125

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Materials Science and Engineering strives to serve the scientific and engineering community of the state and nation by...
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Apply knowledge of mathematics, science and engineering for problem solving in engineering.
2. Analyze and interpret experimental data.

Critical Thinking
3. Develop an engineering design to meet specific technical requirements within realistic constraints such as economic, environmental, health and safety and reliability.
4. Foster the need for lifelong learning and the ability to adapt this to engineering practice.

Communication
5. Function effectively on multidisciplinary skills teams.
6. Communicate effectively, using both oral and written presentations, in engineering practice.

Curriculum Map

Assessment Types

• Assignments
• Exams
• Projects
• Presentations
• Additional assessment includes the senior exit survey

Pre-Medical

This degree emphasizes the nuclear sciences rather than nuclear engineering. Students pursue a pre-medical specialization or a pre-medical physics specialization. Any student pursuing this degree must have a selected program, including option area electives, approved in advance by an advisor.

About this Program

• College: Herbert Wertheim College of Engineering (p. 477)
• Degree: Bachelor of Science
• Specializations: Pre-Medical (p. 546) | Pre-Medical Physics (p. 549)
• Credits for Degree: 125

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Materials Science and Engineering strives to serve the scientific and engineering community of the state and nation by

Curriculum

- Advanced Engineering Ceramics Certificate
- Biomaterials Certificate
- Combination Degrees
- Materials Science and Engineering Minor
- Metallurgical Engineering Certificate
- Nuclear and Radiological Engineering Minor
- Nuclear and Radiological Sciences
- Nuclear Engineering
- Nuclear Radiation and Reactor Analysis Certificate
- Nuclear Thermal Systems Analysis Certificate
- Polymer Science and Engineering Certificate
- Semiconductor Materials Certificate

Diverse opportunities await graduates of the Department of Nuclear and Radiological Engineering (NRE) because nuclear sciences have and will continue to make major contributions to electricity production, medical diagnostic imaging and therapy, non-destructive testing as well as radiation detection and measurement. These opportunities will continue to grow as we face more challenges in energy production and medicine. For the last three decades, the nuclear industry has contributed over 20% of our country’s electricity production, and major advances continue to be made in the development of radiation diagnostics and treatment for medical and industrial applications.

Academic Learning Compact

The major in nuclear and radiological sciences educates students to work professionally in areas related to the control and safe utilization of nuclear energy, radiation and radioactivity.

Before Graduating Students Must

- Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
- Pass assessment in two or more courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Pre-Medical

This degree emphasizes the nuclear sciences rather than nuclear engineering. Students pursue a pre-medical specialization or a pre-medical physics specialization. Any student pursuing this degree must have a selected program, including option area electives, approved in advance by an advisor.

About this Program

• College: Herbert Wertheim College of Engineering (p. 477)
• Degree: Bachelor of Science
• Specializations: Pre-Medical (p. 546) | Pre-Medical Physics (p. 549)
• Credits for Degree: 125

To graduate with this major, students must complete all university, college, and major requirements.

For the last three decades, the nuclear industry has contributed over 20% of our country’s electricity production, and major advances continue to be made in the development of radiation diagnostics and treatment for medical and industrial applications.

Academic Learning Compact

The major in nuclear and radiological sciences educates students to work professionally in areas related to the control and safe utilization of nuclear energy, radiation and radioactivity.

Before Graduating Students Must

- Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
- Pass assessment in two or more courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Semester 1

- Complete 1 of 8 critical-tracking courses with a minimum grade of C within two attempts: BSC 2010, CHM 2045 or CHM 2095, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete all 8 critical-tracking courses with minimum grades of C in each course within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Model Semester Plan

Students are required to complete IDS 1161 in semester 1 or 2. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements. This is often done concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

1 All nuclear engineering and nuclear engineering sciences majors must pass all required undergraduate department courses with an overall C average.

Approved Electives

Engineering Electives
All technical engineering electives must be approved by a department advisor. At least five credits of technical engineering electives must be ENU courses. Examples include courses in nuclear engineering, engineering materials, thermodynamics, statics, dynamics, and advanced programming.

Examples of Pre-Medical Electives

Academic Learning Compact
The major in nuclear and radiological sciences educates students to work professionally in areas related to the control and safe utilization of nuclear energy, radiation and radioactivity.

Before Graduating Students Must
- Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
- Pass assessment in two or more courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Apply knowledge of mathematics, science and engineering for problem solving in engineering.
2. Analyze and interpret experimental data.
Critical Thinking
3. Develop an engineering design to meet specific technical requirements within realistic constraints such as economic, environmental, health and safety and reliability.
4. Foster the need for lifelong learning and the ability to adapt this to engineering practice.

Communication
5. Function effectively on multidisciplinary skills teams.
6. Communicate effectively, using both oral and written presentations, in engineering practice.

Pre-Medical Physics
This degree emphasizes the nuclear sciences rather than nuclear engineering. Students pursue a pre-medical specialization or a pre-medical physics specialization. Any student pursuing this degree must have a selected program, including option area electives, approved in advance by an advisor.

About this Program
- **College**: Herbert Wertheim College of Engineering (p. 477)
- **Degree**: Bachelor of Science
- **Specializations**: Pre-Medical (p. 546) | Pre-Medical Physics (p. 549)
- **Credits for Degree**: 125

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Materials Science and Engineering strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting, and distance learning to promote engineering in the field.

Website (https://mse.ufl.edu/)

Diverse opportunities await graduates of the Department of Nuclear and Radiological Engineering (NRE) because nuclear sciences have and will continue to make major contributions to electricity production, medical diagnostic imaging and therapy, non-destructive testing as well as radiation detection and measurement. These opportunities will continue to grow as we face more challenges in energy production and medicine. For the last three decades, the nuclear industry has contributed over 20% of our country's electricity production, and major advances continue to be made in the development of radiation diagnostics and treatment for medical and industrial applications.

Critical Tracking

Note that critical tracking is the same for both specializations.

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=142301&track=01) may be used for transfer students.

Semester 1
- Complete 1 of 8 critical-tracking courses with a minimum grade of C within two attempts: BSC 2010, CHM 2045 or CHM 2095, MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2
- Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester Three**
- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester Four**
- Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester Five**
- Complete all 8 critical-tracking courses with minimum grades of C in each course within two attempts
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Model Semester Plan**

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria. This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

- Additional assessment includes the senior exit survey

Nuclear Engineering

Nuclear Engineering includes the design, development, and operation of nuclear power systems; numeric simulation of nuclear systems; health physics and radiation protection; radiation imaging; radiation measurements; national security and non-proliferation; nondestructive examination of materials and structures using radiation techniques; use of radiation in medicine for treatment and diagnostics; and using radiation in food processing, industrial processing, and manufacturing control.

About this Program

- College: Herbert Wertheim College of Engineering (p. 477)
- Degree: Bachelor of Science in Nuclear Engineering
- Credits for Degree: 127

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Materials Science and Engineering strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting, and distance learning to promote engineering in the field.

Curriculum

- Advanced Engineering Ceramics Certificate
- Biomaterials Certificate
- Combination Degrees
- Materials Science and Engineering
• Materials Science and Engineering Minor
• Metallurgical Engineering Certificate
• Nuclear and Radiological Engineering Minor
• Nuclear and Radiological Sciences
• Nuclear Engineering
• Nuclear Radiation and Reactor Analysis Certificate
• Nuclear Thermal Systems Analysis Certificate
• Polymer Science and Engineering Certificate
• Semiconductor Materials Certificate

A full complement of experimental facilities is available, including a 100 kW research and training reactor, a neutron activation analysis laboratory and a D-D neutron source for radiation studies. The department also has specialized nuclear instrumentation in the radiation detection laboratories located in the Nuclear Science Building and the Nuclear Field Building.

Students should concentrate electives in one discipline to achieve solid familiarity in a minor field of study. These electives, chosen with an advisor, allow option area specialization in reactor engineering, reactor operations, radioisotopes and nuclear radiation technology, and radiation and biological systems.

Transfer Admission Requirements
It is the department’s policy to admit the best-qualified transfer applicants as demonstrated by academic achievement. Successful applicants must have earned:

• An overall 2.5 grade point average, based on the first two attempts in the eight preprofessional (critical-tracking) courses;
• Minimum grades of C in the following. Only the first two attempts in each course, including withdrawals, will be considered for admission to or retention in the department:

<table>

</table>

• The department encourages students to accept internships and opportunities to study abroad. It is highly recommended that students seek academic advising for appropriate registration planning.
• All nuclear engineering and nuclear radiological sciences majors must pass all required undergraduate department courses with an overall C average.
• All technical electives must be approved by a department advisor. At least six credits of technical electives must be ENU courses.

Educational Objectives
The Department of Nuclear and Radiological Engineering has established the following educational objectives for its undergraduate program.

Graduates will:
• Have successful careers in nuclear engineering or related disciplines
• Pursue continuing education or advanced degrees

Mission
The department will provide quality education and conduct nationally recognized research in nuclear and radiological engineering to serve the needs of Florida and the nation.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=142301&track=01) may be used for transfer students.

Semester 1
• Complete 1 of 8 critical-tracking courses with a minimum grade of C within two attempts: CHM 2045 or CHM 2095; CHM 2046 or CHM 2096 or BSC 2010; MAC 2311, MAC 2312, MAC 2313, MAP 2302, PHY 2048, PHY 2049
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 2
• Complete 1 additional critical-tracking course with a minimum grade of C within two attempts
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 3
• Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 4
• Complete 2 additional critical-tracking courses with minimum grades of C within two attempts
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

**Semester 5**
• Complete all 8 critical-tracking courses with minimum grades of C in each course within two attempts
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

**Semester 6**
• Complete ENU 4001 and ENU 4605 with a minimum grade of C

**Semester 7**
• Complete 2 additional 4000 level ENU courses

**Semester 8**
• Complete 2 additional 4000 level ENU courses

**Semester 9**
• Complete all remaining 4000 level ENU required courses

---

**Model Semester Plan**

Students are expected to complete the general education international (GE-N) and diversity (GE-D) requirements. This is often done concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

### Technical Electives

The choice of engineering science and technical electives allows emphasis in nuclear power engineering, nuclear instrumentation, criticality safety safeguards, radiation imaging, plasma/fusion, advanced nuclear reactor concepts and non-proliferation.

Of the nine credits of technical electives required, six credits must be ENU courses 3000-level or above. A maximum of three credits, combined, may come from ENU 4905 or ENU 4949. The final three credits may be any engineering (including ENU), mathematics or science course 3000-level or above.

1 ACT/SAT Placement scores do not exempt this requirement.

### Academic Learning Compact

The major in nuclear engineering educates students to work professionally in areas related to the control and safe utilization of nuclear energy, radiation and radioactivity.

ABET EAC Program Educational Objectives, Student Outcomes, and Enrollment and Graduation Numbers can be found on the college website (https://www.eng.ufl.edu/academics/degree-programs/accreditation/).

### Before Graduating Students Must

- Pass an assessment by two or more faculty and/or industry practitioners of performance on a major design experience.
- Pass assessment in two or more courses of individual assignments targeted to each learning outcome. Assessment will be provided by the instructor of the course according to department standards.
- Complete an exit interview in your final semester.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Apply knowledge of mathematics, science and engineering for problem solving in engineering.
2. Design and conduct experiments and analyze and interpret experimental data.

**Critical Thinking**

3. Develop an engineering design to meet specific technical requirements within realistic constraints such as economic, environmental, health and safety and reliability.
4. Foster the need for lifelong learning and the ability to adapt this to engineering practice.

**Communication**

5. Function effectively on multidisciplinary skills teams.
6. Communicate effectively, using both oral and written presentations, in engineering practice.

### Nuclear Radiation and Reactor Analysis Certificate

The Nuclear Radiation and Reactor Analysis certificate provides a foundation in radiation and reactor concepts for engineers across multiple majors and industries. The certificate’s prerequisites and courses promote nuclear engineering education across a numerous engineering disciplines.
About this Program

- **College**: Herbert Wertheim College of Engineering (p. 477)
- **Credits**: 11 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

The Department of Materials Science and Engineering strives to serve the scientific and engineering community of the state and nation by providing quality education in the field, conducting basic and applied research to enhance science in the field, and supplying short courses, technology transfer, industrial consulting, and distance learning to promote engineering in the field.

Nuclear Thermal Systems Analysis Certificate

The Nuclear Thermal Systems Analysis certificate provides a more in-depth education of thermal systems principles related to nuclear industries. The certificate promotes thermal system understanding of nuclear systems for mechanical engineers or closely related majors.

About this Program

- **College**: Herbert Wertheim College of Engineering (p. 477)
- **Credits**: 10 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

**Polymer Science and Engineering Certificate**

The Polymer Science and Engineering (PSE) certificate provides a foundation in polymer synthesis, processing, and characterization, and how this relates to polymer structure and properties. This facilitates the proper selection of polymers for various applications such as plastics, composites, biomaterials, organic electronics, and rheology modifiers.

**About this Program**

- **College:** Herbert Wertheim College of Engineering (p. 477)
- **Credits:** 10 | Completed with minimum grades of C

Sales Engineering Minor

Graduates with this minor are regarded highly by recruiters for industries seeking sales engineering staff. The minor provides the academic background for careers in sales, managerial, and entrepreneurial pursuits. Graduates are more effective communicators and are trained to promote and market new technologies and related products.

About this Program

- **College**: Herbert Wertheim College of Engineering (p. 477)
- **Credits**: 16-18 | Completed with a minimum 2.8 combined GPA
- **Contact**: 371 Weil Hall (http://campusmap.ufl.edu/?loc=0024)

Only students enrolled in an engineering degree-granting major are eligible for this minor. Computer Science students are not eligible for this degree.

The curriculum enhances the engineering discipline with courses in communications, business, management and accounting. There is a core requirement of seven to eight credits, a communication skills elective requirement of three credits and a management skills elective requirement of six to eight credits.

Academic Advising
Each academic department houses professional academic advisors for undergraduate majors. Academic advisors are available to assist students with major/degree requirements, reviewing critical-tracking, and understanding university and college level policies and requirements. Students are encouraged to meet with their respective academic advisor annually to ensure they are on track for graduation.

More Info (http://hhp.ufl.edu/current-students/academic-advising/)

Scholarships
The college awards more than $200,000 in scholarships annually. Scholarship applications are open January-February with funds awarded the following fall semester. Current Health and Human Performance students who are enrolled at UF full time with a minimum UF GPA of 3.0 are eligible to apply. Applicants are evaluated based on their application, personal statement and resume information. The scholarship committee will make recommendations on each merit-based scholarship based on applicant qualifications and donor-stipulated conditions.

More Info (http://hhp.ufl.edu/current-students/scholarships/)

Internships and Career Guidance
All students enrolled in the college must complete an experiential learning component. In most HHP majors, this is represented by a full-semester (6-12 credit) internship completed during the semester of expected graduation. Experiential learning requirements differ by major, so please be sure to review your major’s requirements for specific information.

Academic Policies

Academic Contract

An academic contract is an agreement between the student and advisor that identifies specific actions (grades needed, specific course completion, etc.) which must be completed during an assigned semester or date.

A student may have only one academic contract as a lower-division student and one contract as an upper-division student. A student cannot have an academic contract for consecutive semesters. While on academic contract, no I, N or NG grades are permitted.

Calculate Semester GPA (p. 1138)

Failure to meet the academic contract can result in, and is not limited to, one or more of the following actions:

- A college hold preventing future registration
- Cancellation of HHP course registration, and/or
- Change to a new major

Admission Requirements

Students classified as first-semester freshmen at the university will be admitted to the college when they declare a major within the college. At that time, their college classification will become HH.

Students maintain the HH classification as long as they meet the standards set by the college and UF for admission and critical-tracking. Students who are not making satisfactory academic progress may be required to seek admission to another college or to make alternative academic plans.

Students who fall below minimum performance standards will have a registration hold placed on their record. They must meet with an advisor to determine a plan of action before the hold will be removed.

Change of Major

To be considered for a change in major, students must meet the following criteria:

Lower-Division Students

- Minimum UF GPA
- Minimum critical-tracking GPA as designated by department curriculum
- No deficit points
- Completion of the college’s change of major (http://hhp.ufl.edu/current-students/academic-advising/change_major/) form
- Must have the ability to complete all tracking requirements by the required tracking term

Upper-Division Students

- Minimum UF GPA
- Minimum critical-tracking GPA as designated by department curriculum
- No deficit points
- Ability to graduate within 138 credits or 8 semesters (not including summer) without exceeding the maximum credits per semester. (excludes AP/IB courses not needed for HHP degree program)
- Completed 75% of all critical-tracking courses for the desired major
- Met all writing requirements
- Completed a minimum of 27 credits of the general education requirement
- Completion of the college’s change of major (http://hhp.ufl.edu/current-students/academic-advising/change_major/) form

Transfer students will not be permitted to change majors into the college.

In addition to the above, the following applies to current and/or previous HHP majors:

- Current HHP majors may not change to another HHP major unless they currently meet that major’s criteria.
- Students who were dismissed from a college major cannot change out of HHP and then be re-accepted to the college as a change of major.

Combination Degree (4-1) Program

The combination degree is available with the Bachelor of Science in Health Education, Tourism, Hospitality and Event Management, and Sport Management. The combination degree provides academically talented students the opportunity to complete their bachelor’s and master’s degrees within the same major in a shorter period of time. The combination degree in health education and behavior is open to all majors. The combination degrees in tourism, hospitality and event management and sport management are limited to majors only. Students should review department guidelines for requirements and criteria needed for successful application. Students should apply for the program as a second semester sophomore/first semester junior. Students should discuss this option early with their academic advisor and then contact the appropriate program’s graduate coordinator for more information.

Critical-Tracking Courses

All critical-tracking courses must be taken at the University of Florida.

- All critical-tracking attempts will be counted toward the critical-tracking GPA.
- Students may retake a critical-tracking course one time only.
- All critical-tracking courses must be completed by the time noted in the catalog for each major.
- Completing tracking courses beyond the specified time is at the advisor’s discretion and must be approved by the advisor in advance.
- Any students completing tracking courses during the first semester of the junior year cannot complete any upper-division HHP courses that semester.

Dean’s List (http://catalog.ufl.edu/UGRD/academic-programs/academic-honors/#deanslisttext)

Drop Policy

During drop/add, courses can be dropped without penalty. After drop/add, courses may be dropped only through the college’s petition process in accordance with university deadlines.

Before completing 60 credits of coursework, students are allowed two unrestricted drops after drop/add. After the completion of 60 credits of UF coursework, students also are allowed two unrestricted drops after drop/add. Students seeking to drop all classes do not have to petition the college; dropping all classes is considered withdrawal and is processed through the Office of the University Registrar in 222 Criser Hall.
If a student is registered for one course only and is seeking to drop that course, this is considered a withdrawal because the student is dropping all courses that semester. Refer to the college withdrawal policy.

Dual Degree or Double Major

The college can permit students to pursue dual degrees in multiple majors.

To request a dual degree the student must:

• Have between 45 and 96 credits (excluding AP, IB, dual enrollment or overseas study credit),
• Have a minimum 3.0 UF GPA at the time the application is submitted, if at least one of the majors is in this college,
• Meet all critical-tracking requirements for the HHP major requested. If one of the majors is outside the college, applicants must get approval from the appropriate college;
• Meet all other college progression standards for both majors and demonstrate potential for success in both majors (successful completion of major and major-related courses without excessive W’s, grades less than C or multiple repeats);
• Be able to complete both degrees within 138 credits or eight semesters (not including summer) without exceeding the maximum credits per semester. (Excludes AP/IB courses not needed for HHP degree program.) Additional study is permitted only with the associate dean’s approval, and
• Have demonstrated a well-articulated educational goal for which the double major or dual degree is appropriate and/or necessary.

Request for Additional Semesters

Students who wish additional semesters must complete the general petition request and submit it with the graduation plan to their academic advisor.

The request requires:

• Minimum 2.0 UF GPA
• Minimum critical-tracking GPA as designated by department curriculum
• Minimum upper-division GPA as designated by department curriculum
• Minimum major GPA as designated by department curriculum

First Aid and CPR

Some HHP majors may require students to have current first aid, adult CPR and AED certification (American Red Cross or American Heart Association) at the time of registering for internship. Please refer to departmental guidelines for internships (http://hhp.ufl.edu/current-students/internships/) or contact a departmental internship coordinator for more information.

Fresh Start Program

This program is for former degree-seeking students who wish to return to the university after an absence of no fewer than five calendar years. During this absence the student should have engaged predominately in non-academic activities. Students who wish to apply under the Fresh Start Program should follow the UF guidelines.

More Info (p. 18)

Grade Appeals

Any student in the college who feels their performance in a course has not been evaluated accurately should discuss any concerns with the instructor first. If the disagreement is not resolved, the student should consult the department chair, and if still unresolved, contact the associate dean for academic affairs.

The college is a strong supporter of the university’s equal opportunity program. Any student who believes they have been discriminated against on the basis of race, color, religion, sex, disability, sexual orientation, age, or national origin should contact the associate dean for academic and student affairs.

Graduation Participation

All requirements for the bachelor’s degree must be completed successfully prior to graduation to participate in graduation ceremonies, including the successful completion of an internship, if required.

The college will determine who is eligible to participate in the graduation ceremony. For more information about commencement ceremonies, please visit the office of commencement (https://commencement.ufl.edu/) website.

Health Insurance

All students must secure health insurance or a signed health insurance disclaimer before they begin their internship.

Honors

The university offers three levels of honors at graduation: cum laude, magna cum laude and summa cum laude.

More Info (p. 1085)

Please note that:

• Transfer credits and S/U option credits are excluded.
• Postbaccalaureate students are not eligible for honors recognition.
• Honors recognition is printed on the university diploma.

Follow these guidelines when preparing an honors thesis:

• Submission of an undergraduate thesis to request graduation with magna cum laude or summa cum laude must reflect a high caliber of work.
• The thesis submission form should be secured to the thesis as the first page. This form must be completed with a typewriter or computer; handwritten forms will not be accepted.
• When completing the submission form, pay special attention to the Key Words entry, as these words will be used to index the thesis. Think of these words as instrumental in leading a potential reader to the thesis.
• The thesis should be stapled or secured with a binder clip. Binders and folders are discouraged, as they will be discarded when the thesis is filed on microfiche.
• Have the abstract reviewed for organization, content, grammar and spelling before submission.
• The abstract should begin with a definitive statement of the problem or project. The purpose, scope and limit of the thesis should be clearly delineated. Then, as concisely as possible, describe research methods and design, major findings, the significance of your work (if appropriate) and conclusions. The abstract should be 100-200 words.
• Students whose thesis involves creative work such as original fine art, music, writing, theatre, film or dance should describe process and production, indicating the forms of documentation on file as thesis materials.
• Type the abstract into the space allotted on the submission form.

Looking for help writing a thesis? The honors program recommends Conquering Your Undergraduate Thesis by Nataly Kogan. This book offers helpful and practical advice from fellow students and recent graduates.

HHP honors thesis submission deadlines: Honors thesis/graduation requirements are completed during the last one or two semesters at UF. The final thesis submission is due to the college’s associate dean for academic affairs three days before the last day of classes. Refer to the departmental for process information found here (http://hhp.ufl.edu/current-students/academic-advising/honors/).

Incomplete Grades
An incomplete grade may be assigned at the discretion of the instructor as an interim grade for a course in which the student has completed a major portion of the course with a passing grade, been unable to complete course requirements before the end of the term (e.g., before the final exam is taken) because of extenuating circumstances and obtained agreement from the instructor and arranged for resolution of the incomplete grade.

I grades are not to be used when the student is doing unsatisfactory work and the instructor wants to provide another chance to improve. Instructors are not required to assign incomplete grades.

The I grade arrangement should stipulate all conditions for completing the course and earning a letter grade, including a specific expiration date for the arrangement and designation of the grade to be assigned for incomplete work. I grade arrangements should be recorded on a standard contract form, kept in a file in the department’s central office and monitored by staff, so that the appropriate grade changes will be made by the end of the following semester. This practice will be particularly useful if the instructor is on leave or has left UF permanently.

If make-up work requires classroom or laboratory attendance in a subsequent term, the student should not register for the course again.

Instead, the student must audit the course and pay course fees. Students who need to audit a course should be referred to the registrar’s office to complete audit registration.

If the make-up work does not require classroom or laboratory attendance, the instructor and student should decide on an appropriate plan and deadline for completing the course.

When the course is completed or the arrangement has expired, the instructor will submit a change of grade to the Office of the University Registrar. An I grade should not be assigned to a student who never attended class; instead, instructors may assign a failing grade or no grade at all, which will result in assignment of N*.

The only time a letter grade should be changed to an I is when the instructor made an error in the grade. For example, there is an I grade arrangement on file for the student, but the instructor forgot and recorded an E instead. The college will approve such grade changes only when clear instructor error has occurred and when the grade is submitted with a copy of the I grade arrangement, which must be dated prior to the final exam period for the course.

These procedures cannot be used to repeat a course for a different grade.

Internships
All students enrolled in the college must complete an experiential learning component. In most HHP majors, this is represented by a full-semester (6-12 credit) internship completed during the semester of expected graduation. Experiential learning requirements differ by major, please be sure to review your major’s requirements for specific information. For majors where a full time internship is required this requirement is completed during the semester of expected graduation, after successful completion of all other required coursework (see below). Credits for this requirement are included in the credit total required for graduation.

Students are eligible to complete the internship semester if they have:

• Successfully completed ALL courses and are therefore eligible to graduate upon completion of the internship semester. This includes, but is not limited to, majors, minors/certificates, flex learning, general education, study abroad and prerequisites for graduate programs.
• Secured professional liability insurance
• UF upper-division cumulative, major and critical-tracking GPA of at least a 2.0, with no I, N or NG grades or flags.
• All grades posted to UF transcript two weeks before starting internship.
• Submitted all internship materials by the department deadlines and been approved by the department for internship.

Upon submission of the required application for internship (as determined by the department), an academic advisor will determine whether or not the student is academically eligible to complete the internship during the desired semester. For in-depth information regarding internships, please contact a department internship coordinator.

Students can only register and attempt to complete the practicum (if required by the major) and internship two times. If unable to complete successfully after two attempts, the student may be dismissed from the program.

Liability Insurance
All students must secure professional insurance before they begin their internship.

Maximum Credit Load
UF policy allows a maximum of 18 credits; therefore, to exceed 18 credits, college policy requires students to have

• 3.0 GPA in all categories (e.g., UF GPA, critical-tracking GPA),
• One drop available, and
• Academic advisor approval

Non-Degree Requests
The college follows the university’s Employee Education Program (EEP) policies. Non-degree enrollment is restricted to University of Florida employees during the fall and spring semesters only. For college credit and non-UF employees, enrollment is restricted to summer terms only. Non-degree enrollment is subject to the availability of faculty, space and facilities. No application for admission is required.
The university limits the options for postbaccalaureate studies to UF Ombuds Office and/or submit a senate petition, if appropriate. If the petition is denied at the college level the student may contact the associate dean or the college's authorized representative. Regardless of a recommendation to approve or deny, the petition will be reviewed for final decision by the associate dean for academic affairs. If the department chair and/or department petitions committee denies or defers the petition, the student can appeal to the college petition committee. If the department chair and/or department petitions committee reviews and approves the denied or deferred petition, the student will be notified of the decision by the department chair. For all department-level petitions the academic advisor makes a decision. If the academic advisor denies or defers decision to the department chair and/or department petitions committee, the student will be notified of the decision by the advisor.

Petition Request
Students who are petitioning a department or college policy must complete the general petition request and submit it along with all required documentation to an academic advisor.

The college's associate dean makes the final decision for graduation participation, internship eligibility, appeals of department petitions, change of major to the college and universal tracking transient course requests. These policies require petition review by an academic advisor, the department chair and/or department petitions committee or designated faculty member, and the college petitions committee. The associate dean for academic and student affairs or the college's academic affairs representative will notify the student of the outcome decision.

Petitionable items at the department level include course substitutions, non-critical-tracking transient course requests, continuation in a major, department internship deadline, residency requirement and readmission to a major.

For all department-level petitions the academic advisor makes a decision or defers decision to the department chair and/or department petitions committee. If the academic advisor approves, no further action is needed by the department and the student is notified by the advisor. If the academic advisor denies or defers the petition, it is reviewed by the department petitions committee. If the department chair and/or department petitions committee reviews and approves the denied or deferred petition, the student will be notified of the decision by the academic advisor.

If the department chair and/or department petitions committee denies the petition, the student can appeal to the college petition committee. Regardless of a recommendation to approve or deny, the petition will be reviewed for final decision by the associate dean for academic and student affairs. The student will be notified of the decision by the associate dean or the college's authorized representative.

If the petition is denied at the college level the student may contact the UF Ombuds Office and/or submit a senate petition, if appropriate.

Postbaccalaureate Status
The university limits the options for postbaccalaureate studies to:

- Certificate program/state licensure
- Teacher certification
- Prerequisites for graduate study
- Distance learning

The college abides by the university's postbaccalaureate policy and therefore limits students to the above criteria. In addition, any student wishing to apply under item 3, prerequisites for graduate study, will be required to apply to a specific department, not the department that offers the course they wish to complete. For example: A student wishing to apply to the physical therapy graduate program who needs anatomy and physiology as prerequisites should apply to the College of Public Health and Health Professions as a postbaccalaureate student.

More Info (http://www.admissions.ufl.edu/grad/postbacc.html)

Prerequisite Coursework
The state of Florida has determined that the prerequisite coursework required for a major in the state university system (SUS) will be the same for all SUS schools offering the major. Generally, and in most cases, meeting the prerequisites for admission will be sufficient to meet any course prerequisites. UF students who follow the sequence of courses identified in the critical-tracking plan for their major will satisfy all course prerequisites for that major, provided they achieve the minimum grades required.

Progress toward Degree
The college has identified specific performance standards to help students progress toward a degree.

To meet these standards, students must:

- Maintain a minimum 2.0 UF GPA
- Maintain the minimum critical-tracking GPA as designated by department curriculum
- Maintain the minimum upper-division GPA as designated by department curriculum
- Maintain the minimum major GPA as designated by department curriculum
- Complete the degree within 138 credits or 8 semesters (not including summer) without exceeding the maximum credits per semester (excludes AP/IB courses not needed for HHP degree program).

Request for Fifth Year
Students who wish to receive a fifth year must complete the general petition request and submit it to their academic advisor along with a graduation plan.

Students also must:

- Maintain a minimum 2.0 UF GPA
- Maintain the minimum critical-tracking GPA as designated by department curriculum
- Maintain the minimum upper-division GPA as designated by department curriculum
- Maintain the minimum major GPA as designated by department curriculum

Readmission
To be considered for readmission to the College of Health and Human Performance, students must have a:

- 2.0 UF GPA
- 2.0 critical-tracking GPA, and
- Upper-division GPA as determined by the department/major.

More Info (http://www.registrar.ufl.edu/forms.html)

Prerequisites for graduate study
- Teacher certification
- Certificate program/state licensure
- Distance learning
- Prerequisites for graduate study
Students who have been dismissed and/or on academic probation (with deficit points) will not be considered for readmission. Readmission is not automatic or guaranteed. In addition to the UF readmission application, applicants must also complete the college’s letter of intent.

**Student Responsibility**

Each student is responsible for registering for and completing the proper courses and for fulfilling all requirements for a degree. The student’s advisor will help and counsel, but the student must take the initiative and assume responsibility for meeting all requirements.

Course requirements for each major have been determined and approved by department faculty. The student’s program of study is subject to the approval of an advisor in the major.

To make informed decisions and fulfill personal goals, students must take a responsible and active role in their own advising. More specifically, students must:

**Knowledge**

- Understand the university’s and college’s academic requirements
- Understand the requirements for the major and minor
- Be familiar with general university academic and behavioral policies, and
- Have a sense of academic and career interests, learning strengths and weaknesses and educational needs.

**Behavior**

- Meet as needed with advisor
- Come to appointments on time
- Register in a timely fashion
- Follow through with registration, drop/add and withdrawals in a timely fashion
- Review audit regularly
- Check communication regularly, using a UFL email account
- Respond to communication in a timely fashion, and
- Be an effective self-advocate.

**Dispositions**

- Work cooperatively
- Be open to new ideas and be willing to explore curricular options
- Be interested in and dedicated to the major, and
- Believe in the value of responsibility and accountability.

**Study Abroad**

The College of Health and Human Performance encourages students in good standing to study abroad. Students are required to meet with an academic advisor regarding degree requirements prior to registering for any study abroad program.

Students wishing to study abroad must:

- Be in good standing with a minimum 2.5 UF GPA (Students cannot be on academic contract nor under conditional admission.)
- Have completed non-UF study abroad courses prior to term 7
- Be in residence at UF for the last 30 credits. This applies to transient (non-UF, credit earning) programs.
- Not delay or extend the UF timeframe of eight terms, excluding summer, for degree completion
- Have transcripts posted to UF before being cleared for internship.

**S/U Option**

Students are not permitted to complete required courses using the S/U option. However, courses that are not required for degree certification can be completed using the S/U option. Students choosing to complete a course with the S/U option are required to follow UF policy and deadlines.

More Info (p. 1138)

**Transfer or Flexible Learning Credit**

Transfer and/or flexible learning course credit may be allowed even if taken after the student has been admitted to the major. These courses must be approved in advance by the academic advisor. Students are discouraged from taking such courses after 60 credits. As per UF policy, no more than six credits of flexible learning credit and/or a maximum of 60 credits of community college academic credit can apply toward a UF degree. In general, these courses are recorded on the transcript and can be used to meet core curriculum requirements if approved in advance by the department. Flexible learning and extension course credit are excluded from honors GPA calculation for the College of Health and Human Performance and will not be used to determine Dean’s List GPA.

**Transfer Students**

For application information, all transfer students should refer to the admission as a transfer section. Within space and fiscal limitations, applicants from other institutions who have satisfied minimum requirements will be considered for admission at the junior level. More Info (p. 18)

Florida state college applicants to the College of Health and Human Performance must complete an Associate of Arts degree and meet all university and college-specific requirements. Admission evaluation factors include:

- academic record,
- cumulative grade point average,
- performance in critical-tracking courses,
- extent to which the applicant exceeds minimum requirements, and
- achievements and career goals as stated in the letter of intent.

The admission review process is a holistic review of the applicant’s overall record and potential in the chosen academic field. Students who complete preprofessional courses outside the state system (students who attend out-of-state, private and/or international institutions) must submit course descriptions to the department advisor.

In addition to the UF transfer application, applicants must also complete the college’s letter of intent. Transfer admission is limited and extremely competitive. Priority will be given to applicants who have completed an A.A. degree from a Florida public college, per the state of Florida articulation agreement.

The college accepts residential transfer students during the fall and spring semesters only. UF Online transfer students can apply during fall, spring and summer semesters.
Transient Request

Upper-division coursework taken as a transient student is discouraged and approvals will be at the discretion of the department. Students wishing to complete work at another institution must submit the college transient request and be approved by an advisor in advance of taking the course. After being approved at the college level, students may complete the UF transient request at Florida Shines (https://www.floridashines.org/succeed-in-college/take-a-course-at-another-school/).

More Info (http://www.flvc.org/flvc/portal/Home_Page/Student%20Services/College_Transfer_Center/Transient_Student_Admission_Application/lut/p/c5/04_SBBK8xLLM9MSSzPy8xBz9CP0os3iDEEtPf9TQwOLABdA903dw8vA29nQ09jM30_l_zcVP2CbEdFA9ejWEI/)

Withdrawal Policy

An HHP student who withdraws from the university a second time, with a registration of more than one course that semester, will be placed on college probation. Probation terms will be determined by the advisor working with the student.

Degree Requirements

Successful Progress Toward a Degree

The college has identified specific performance standards to help students complete degree requirements. Successfully meeting these standards will enable students to continue in the major and to graduate in a timely manner.

In those cases where the grade point average or grade in a preprofessional requirement is higher for the major or specialization than for the college, the major/specialization requirement takes precedence.

Students who do not meet performance standards will have to meet with an academic advisor to determine an appropriate course of action. Failure to meet the performance standards will result in a registration hold.

Applied Physiology and Kinesiology

Significant research, education and service are at the core of the Department of Applied Physiology and Kinesiology with a focus on the relationship between mind, body and human movement to improve quality of life in regards to health and disease. This multidisciplinary program incorporates medicine, the life sciences and their application to clinical, healthy and athletic populations. Opportunities after graduation include educational institutions, health agencies and organizations, corporate or private fitness programming centers, and other health-related business and industry opportunities.

Health Education and Behavior

With a foundation in the social and biological sciences, the department of Health Education and Behavior looks at health education on both the individual and community level. Faculty and student research in the department is focused on the growing array of health problems linked to lack of exercise, diet, substance abuse, stress, unintentional injuries, pollution and how many of these conditions can be prevented and controlled.

Sport Management

The sport industry needs highly trained professionals to meet the ever-changing economic and lifestyle growth patterns in tomorrow’s marketplace. With the proliferation of both recreational and spectator sports, the sport management discipline is growing increasingly complex. As a result, successful organizations in the sports industry are constantly searching for leaders with specialized training. The department prepares students for management and leadership positions with professional sports teams, intercollegiate and intramural athletics, and recreation programs at colleges, universities and amateur athletic organizations.

Tourism, Hospitality and Event Management

Tourism, Hospitality and Events is the fastest growing industry in the world. The sustained growth has created a major need for skilled human resources. The Department of Tourism, Hospitality and Event Management prepares students to gain competency in industry knowledge, develop intellectual abilities, and foster adaptive and technical leadership skills. In addition, the focus on the growth of individual and group dynamics through critical thinking and experiential learning is emphasized so that students will create change in an ever-evolving industry. Graduates pursue a wide range of exciting career opportunities including travel and tourism, resorts, hotels and attractions, event management, and many other options.
Applied Physiology and Kinesiology

The Department of Applied Physiology and Kinesiology offers a flexible curriculum designed to prepare students to apply knowledge and skills in exercise physiology to careers in fitness, wellness, research, and various health professions such as Medicine, Physical Therapy, Occupational Therapy, Athletic Training, and Physician Assistant.

About this Program

- **College:** Health and Human Performance (p. 558)
- **Degree:** Bachelor of Science in Applied Physiology and Kinesiology
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Applied Physiology & Kinesiology (APK) studies the immediate and lasting effects of exercise and its use in performance enhancement and disease prevention and rehabilitation.

Website (http://hhp.ufl.edu/about/departments/apk/)

Curriculum

- Applied Physiology and Kinesiology

The University of Florida admits students as freshmen into the Department of Applied Physiology and Kinesiology. Our faculty are award-winning teachers, mentors, and researchers who are passionate about providing students with learning experiences in and out of the classroom that will prepare them for success in any number of professional areas. Our curriculum is designed to give students a foundation in traditional Exercise Physiology and allow for a bit of personal tailoring in the upper division. Students who graduate with a Bachelor of Science degree in APK will be forward-thinking leaders and top-notch problem solvers.

This curriculum provides a strong basic science background and requires additional coursework in the biological aspects of exercise. Students who wish to focus on fitness, wellness, and allied health professions can take classes that focus on exercise programming and techniques and anatomical aspects of movement. Students who are more interested in preparing for graduate school or other post-baccalaureate programs can opt for classes with more clinical and advanced physiological content. All students will complete a one-semester internship as a capstone experience. All required courses must be completed before the internship.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://dlss.flvc.org/admin-tools/common-prerequisites-manuals/2019-2020-manual/) may be used for transfer students.

Semester 1

- Complete 2 of 9 critical-tracking courses with a 2.8 GPA on tracking coursework: APK 2100C, APK 2105C, APK 3110C, BSC 2010 and

BSC 2010L, BSC 2111 and BSC 2111L, CHM 1025 or CHM 2045 and CHM 2045L, MAC 1147 or MAC 2311, PSY 2012, HUN 2201
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking courses with a 2.8 GPA on tracking coursework
- 2.0 UF GPA required

Semester 3

- Complete 2 additional critical-tracking courses with a 2.8 GPA on tracking coursework
- 2.0 UF GPA required

Semester 4

- Complete 2 critical-tracking courses with a 2.8 GPA on all tracking coursework
- 2.0 UF GPA required

Semester 5

- Complete all 9 critical-tracking courses with a 2.8 GPA on all tracking coursework
- Complete 2 APK 3XXX or APK 4XXX courses
- 2.0 UF GPA required

Semester 6

- Complete 4 APK 3XXX or APK 4XXX courses
- 2.0 UF GPA required

Semester 7

- Complete all remaining APK 3XXX or APK 4XXX courses, excluding APK 4940C
- 2.0 UF GPA required

Semester 8

- Complete APK 4940C
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

**Academic Learning Compact**

The Bachelor of Science in Applied Physiology and Kinesiology offers specializations in exercise physiology and in fitness/wellness. Students will gain extensive understanding of the anatomical, physiological and psychological bases and consequences of human movement. Students will explore the relationship between physical activity and health and learn how to prevent and treat athletic injuries.

**Before Graduating Students Must**

- Pass a comprehensive critique performed by an approved professional in the field of applied physiology and kinesiology and as determined by the department’s grading rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Integrate principles and methods of math, social sciences and arts and humanities to applied physiology and kinesiology, wellness and/or fitness environments.
2. Identify and relate the nomenclature, structures and locations of components of human anatomy to health, disease and physical activity.
3. Identify, examine and explain physiological mechanisms of homeostasis at various levels of an organism (i.e., cells, tissues, organs, systems).
4. Investigate and explain the effects of physical activity on psychological health as well as the perspectives used to enhance adherence to healthier lifestyles.
5. Identify and explain the acute and chronic anatomical and physiological adaptations to exercise, training and physical activity.

**Critical Thinking**

6. Select and utilize the appropriate scientific principles when assessing the health and fitness of an individual and prescribing physical activity based on those assessments.
7. Solve applied physiology and kinesiology problems from personal, scholarly and professional perspectives using fundamental concepts of health and exercise, scientific inquiry, and analytical critical and creative thinking.
8. Collect, compare and interpret qualitative or quantitative data in an applied physiology and kinesiology context.

Communication
9. Effectively employ written, oral, visual and electronic communication techniques to foster inquiry, collaboration and engagement among applied physiology and kinesiology peers and professionals as well as with patients, clients and/or subjects.

Artificial Intelligence and Data Analytics in Tourism, Hospitality and Event Management Certificate

This certificate trains students in the applications of artificial intelligence and data analytics in tourism, hospitality, and event management. Students have the opportunity to gain specialized knowledge and practice in areas such as artificial intelligence trends, analytic skills, machine learning concepts, technology applications, opportunities, and challenges in industries.

About this Program
- **College**: Health and Human Performance (p. 558)
- **Credits**: 9 | Completed with minimum grades of C or better; courses must be taken at UF.

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information
The Department of Tourism, Hospitality and Event Management prepares students to gain competency in industry knowledge, develop intellectual abilities, and foster adaptive and technical leadership skills.

Event Management Minor

This minor provides an opportunity to acquire specialized knowledge and skills in the field of event management. Event Management students can apply the knowledge and skills gained to a variety of settings including but not limited to corporate, non-profits, associations, exhibitions, sport, government, and entertainment. The additional knowledge, skills, and experience gained from this minor can potentially elevate a student’s marketability to future employers.

- Health Education and Behavior
- Health Education and Behavior | Community Health Promotion UF Online
- Health Promotion Minor
- Health Promotion Minor UF Online

The Bachelor of Science in Health Education degree program allows students maximum flexibility to choose department specialization coursework during the junior and senior years that relates to personal interests in the health field. Students can focus their coursework on interest areas in health education and health promotion in community, clinical or worksite settings or in health studies as they prepare for professional health occupations.

Community Health Promotion

Students with a primary interest in community health education or worksite health promotion should select the Community Health Promotion specialization. Coursework in this specialization is focused on illness and disease prevention among special target groups within a particular community, with the ultimate goal of providing practical health information to diverse population groups through the use of behavioral interventions. Community health promotion specialists generally find employment in local, state or national government health agencies (state or county health departments, CDC, NIH) and in voluntary organizations such as the American Cancer Society, the March of Dimes and American Heart Association. Worksite health promotion specialists find employment opportunities within diverse small and large businesses and organizations.

This specialization is also appropriate for students planning to pursue graduate programs in health education or related fields (community or public health, health administration, health policy and epidemiology and disease prevention).

Health Studies

Students who want in-depth knowledge of diverse health topics, with the intention to complete postbaccalaureate work in a professional health program such as medicine, dentistry, optometry, pharmacy, physician assistant, occupational therapy and physical therapy should select the health studies specialization. This specialization enables students to gain knowledge on a variety of health issues plaguing diverse population groups and to complete required prerequisite coursework for professional health programs. Students may also pursue graduate programs in health education or related fields (public health, health administration and epidemiology and disease prevention).

Academic Learning Compact

The Bachelor of Science in health education prepares students to work as a health education specialist in schools, government agencies, voluntary health organizations, philanthropic foundations, colleges and universities, private-sector industry and healthcare settings. Health education specialists improve the health and well-being of individuals, families, groups and community populations.

Grounded in social, behavioral, biological and health sciences, the curriculum develops understanding of the causes and determinants of mortality and morbidity and develops specific competencies required of entry-level health education specialists. Graduates will be eligible to take the Certified Health Education Specialist examination governed by The National Commission for Health Education Credentialing, Inc.

Before Graduating Students Must

- Satisfactory performance on at least one major assignment or examination for each core course required for the degree, as determined by performance criteria developed specifically for the assignment.
- Satisfactory completion of the 15 credit health education internship (HSC 4876) as indicated on the final performance appraisal.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify and apply theories-based strategies for assessing individual and community needs for health education/promotion.
2. Identify and apply a variety of theories, theory based models, methods, and procedures for planning, implementing and evaluating health education/promotion programs.
3. Coordinate the provisions of health education/promotion services.
4. Identify and apply the major concepts and principles related to current and emerging health issues.
5. Review and discuss the health education/promotion code of ethics and agree to adhere to the principles outlined within the professional code.

Critical Thinking

6. Interpret, evaluate, and disseminate results of health education/promotion research through appropriate methodologies via appropriate channels or outlets while fostering the translation of research into practice.
7. Identify effective strategies to build meaningful partnerships with stakeholders in health education/promotion.

Communication
8. Communicate health needs, information, and resources to clients, consumers, individuals, families and groups from diverse backgrounds using a variety of channels in various settings.

This specialization is also appropriate for students planning to pursue graduate programs in health education or related fields (community or public health, health administration, health policy and epidemiology and disease prevention).

Students majoring in health education and behavior are also eligible for the Bachelor/Master of Science combined degree program, thus receiving both degrees within approximately five years. Students interested in this program should schedule an appointment with the department academic advisor before the start of their junior year. More information about the program should schedule an appointment with the department academic advisor before the start of their junior year. More information about the program should be available at http://heb.hhp.ufl.edu/index.php/academia/undergraduate/combined-degree-programs/.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=512208&track=01) may be used for transfer students.

Semester 1
• Complete 2 of 6 critical-tracking courses: APK 2100C, APK 2105C, BSC 2005/BSC 2005L, MAC 1105 or MAC 1140 or MAC 1147, PSY 2012, STA 2023
  • 2.5 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

Semester 2
• Complete 2 additional critical-tracking courses
  • 2.5 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

Semester 3
• Complete 1 additional critical-tracking courses
  • 2.5 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

Semester 4
• Complete all 6 critical-tracking courses, including labs
  • 2.5 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

All general education requirements, including international (N) and diversity (D), must be completed prior to the final internship semester.

Semester 5
• Complete 2 major courses: HSC 3032, HSC 3102
• Complete 2 of 6 HSC specialization courses – see degree audit for course list options
  • 2.0 UF GPA required

Semester 6
• Complete 2 additional major courses: HSC 3201, HSC 4302
• Complete 2 additional HSC specialization courses
  • 2.0 UF GPA required

Semester 7
• Complete 2 additional major courses: HSC 4713, HSC 4800
• Complete all remaining HSC specialization courses
  • 2.0 UF GPA required

Semester 8
• Complete remaining major courses: HSC 4876
  • 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

This specialization is also appropriate for students planning to pursue graduate programs in health education or related fields (community or public health, health administration, health policy and epidemiology and disease prevention).

Health Studies

Students who want in-depth knowledge of diverse health topics, with the intention to complete postbaccalaureate work in a professional health program such as medicine, dentistry, optometry, pharmacy, physician assistant, occupational therapy and physical therapy should select the health studies specialization. This specialization enables students to gain knowledge on a variety of health issues plaguing diverse population groups and to complete required prerequisite coursework for professional health programs. Students may also pursue graduate programs in health education or related fields (public health, health administration, health policy and epidemiology and disease prevention).

Health Studies

Students who want in-depth knowledge of diverse health topics, with the intention to complete postbaccalaureate work in a professional health program such as medicine, dentistry, optometry, pharmacy, physician assistant, occupational therapy and physical therapy should select the health studies specialization. This specialization enables students to gain knowledge on a variety of health issues plaguing diverse population groups and to complete required prerequisite coursework for professional
health programs. Students may also pursue graduate programs in health education or related fields (public health, health administration and epidemiology and disease prevention).

Additional science coursework is included within the semester plan to help students meet prerequisites for professional health programs. However, it is imperative that students review the requirements for targeted graduate programs as additional prerequisite coursework outside the curriculum for the major. Students should meet regularly with a pre-health advisor in the Academic Advising Center (100 Farrior Hall) as well as the department academic advisor to ensure adequate preparation for application to professional health programs. Ultimately, students are responsible for ensuring completion of the required prerequisites for their chosen professional health program.

Students majoring in health education and behavior are also eligible for the Bachelor/Master of Science combined degree program, thus receiving both degrees within approximately five years. Students interested in this program should schedule an appointment with the department academic advisor before the start of their junior year. More information about the health education and behavior BS/MS program (http://heb.hhp.ufl.edu/index.php/academia/undergraduate/combined-degree-programs/).

State Core Gen Ed Humanities (p. 53) 3

Credits 14

Semester Four

APK 2105C Applied Human Physiology with Laboratory (Critical Tracking; Gen Ed Biological Sciences) 4

HUN 2201 Fundamentals of Human Nutrition (Gen Ed Biological Sciences; complete before the end of Semester five) 3

Elective (Writing Requirement: 6,000 words) 3

Recommended electives: 2

BSC 2011 Integrated Principles of Biology 2 4
BSC 2011L Integrated Principles of Biology Laboratory 2
CHM 2210 Organic Chemistry 1 3

Credits 14

Semester Five

Select one:

AEC 3030C Effective Oral Communication 3

SPC 2608 Introduction to Public Speaking

HSC 3032 Foundations of Health Education (Critical Tracking) 3

HSC 3537 Health and Medical Terminology (Critical Tracking) 3

HSC specialization course 3

Select one elective: 2

PHY 2053 Physics 1 3
& 2053L and Laboratory for Physics 1

MCB 3020 Basic Biology of Microorganisms & 3020L and Laboratory for Basic Biology of Microorganisms

Credits 15

Semester Six

HSC 4233 Patient Health Education (Critical Tracking) 3

HSC 4302 Methods and Materials in Health Education (Critical Tracking) 3

HSC specialization courses 6

Recommended electives: 2

PHY 2054 Physics 2 6

PHY 2054L Laboratory for Physics 2

BCH 4024 Introduction to Biochemistry and Molecular Biology

DEP 3053 Developmental Psychology (or other advanced psychology)

Credits 18

Semester Seven

HSC 4713 Planning and Evaluating Health Education Programs (Critical Tracking) 3

HSC 4800 Health Education Professional Development (Critical Tracking) 3

HSC specialization course 6

Elective (genetics or science course) 2 3

Credits 15

Semester Eight

HSC 4876 Internship in Health Education 4 12

Credits 12

Total Credits 120

1 Or higher level MAC course.
2 These science courses may not be required for your career goal.
3 Students following a pre-health track may want to begin CHM 2210 during the summer term prior to semester five.
4 Students must register for full-time internship (15 credits) or part-time internship (6 credits). If the part-time internship option is selected, the student may concurrently register for up to 9 credits of electives or pre-health requisites.

Academic Learning Compact

The Bachelor of Science in health education prepares students to work as a health education specialist in schools, government agencies, voluntary health organizations, philanthropic foundations, colleges and universities, private-sector industry and healthcare settings. Health education specialists improve the health and well-being of individuals, families, groups and community populations.

Grounded in social, behavioral, biological and health sciences, the curriculum develops understanding of the causes and determinants of
mortality and morbidity and develops specific competencies required of entry-level health education specialists. Graduates will be eligible to take the Certified Health Education Specialist examination governed by The National Commission for Health Education Credentialing, Inc.

**Before Graduating Students Must**
- Satisfactory performance on at least one major assignment or examination for each core course required for the degree, as determined by performance criteria developed specifically for the assignment.
- Satisfactory completion of the 15 credit health education internship (HSC 4876) as indicated on the final performance appraisal.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Identify and apply theories-based strategies for assessing individual and community needs for health education/promotion.
2. Identify and apply a variety of theories, theory based models, methods, and procedures for planning, implementing and evaluating health education/promotion programs.
3. Coordinate the provisions of health education/promotion services.
4. Identify and apply the major concepts and principles related to current and emerging health issues.
5. Review and discuss the health education/promotion code of ethics and agree to adhere to the principles outlined within the professional code.

**Critical Thinking**
6. Interpret, evaluate, and disseminate results of health education/promotion research through appropriate methodologies via appropriate channels or outlets while fostering the translation of research into practice.
7. Identify effective strategies to build meaningful partnerships with stakeholders in health education/promotion.

**Communication**
8. Communicate health needs, information, and resources to clients, consumers, individuals, families and groups from diverse backgrounds using a variety of channels in various settings.

**Health Education and Behavior | Community Health Promotion UF Online**

The Department of Health Education and Behavior, with a foundation in the social and biological sciences, offers coursework focused on health information and theory application. Health Education and Behavior students learn techniques to promote healthy lifestyle choices in individual and group settings, with special attention given to diversity and culturally appropriate health education methodologies.

**About this Program**
- **College**: Health and Human Performance (p. 558)
- **Degree**: Bachelor of Science in Health Education
  - **Specialization**: Community Health Promotion
- **Credits for Degree**: 120
- **Contact**: 1.855.99GATOR
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

**Department Information**

For more than 60 years, the Department of Health Education & Behavior has been at the forefront of the health promotion and public health field, demonstrating leadership in instruction and mentoring, research and scholarship, and service and practice. By emphasizing innovation and data-driven advancements, the department’s efforts ensure that students are well prepared for the health promotion and public health careers of the future.

**Curriculum**
- Combination Degrees
- Health Education and Behavior
- Health Education and Behavior | Community Health Promotion UF Online
- Health Promotion Minor
- Health Promotion Minor UF Online

The Bachelor of Science in Health Education | Community Health Promotion is designed for students with a primary interest in community health education or worksite health promotion. Coursework is focused on illness and disease prevention among special target groups within a particular community, with the ultimate goal of providing practical health information to diverse population groups through the use of behavioral interventions. Community health promotion specialists
generally find employment in local, state or national government health agencies (state or county health departments, CDC, NIH) and in voluntary organizations such as the American Cancer Society, the March of Dimes and American Heart Association. Worksite health promotion specialists find employment opportunities within diverse small and large businesses and organizations.

Community health promotion also is appropriate for students planning to pursue graduate programs in health education or related fields (community or public health, health administration, health policy and epidemiology and disease preventions).

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=512208&track=01) may be used for transfer students.

Semester 1
- Complete 2 of 6 critical-tracking courses: APK 2100C, APK 2105C, BSC 2005/BSC 2005L, MAC 1105 or MAC 1140 or MAC 1147, PSY 2012, STA 2023
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2
- Complete 2 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3
- Complete 1 additional critical-tracking courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4
- Complete all 6 critical-tracking courses, including labs
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

All general education requirements, including international (N) and diversity (D), must be completed prior to the final internship semester.

Semester 5
- Complete 2 major courses: HSC 3032, HSC 3102
- Complete 2 of 6 HSC specialization courses — see degree audit for course list options
- 2.0 UF GPA required

Semester 6
- Complete 2 additional major courses: HSC 3201, HSC 4302
- Complete 2 additional HSC specialization courses
- 2.0 UF GPA required

Semester 7
- Complete 2 additional major courses: HSC 4713, HSC 4800
- Complete all remaining HSC specialization courses
- 2.0 UF GPA required

Semester 8
- Complete remaining major courses: HSC 4876
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Curriculum
• Combination Degrees
• Sport Management
• Sport Management Certificate
• Sport Management UF Online

The acquisition of knowledge regarding the internal and external factors that influence sport in society enables students to use accepted techniques of discovery and critical thinking to solve problems, evaluate opinions and determine outcomes within the sport management area.

To earn a Bachelor of Science in Sport Management, a student must successfully complete 120 credits of prescribed coursework. Professional core courses, related option courses and specialization electives are taken during your last two years of work.

As part of the degree program, students must complete either an approved 12 credit internship in their final semester of degree program or opt for the non-internship option. The 12 credit internship is an approved 13-week internship required upon completion of all coursework. Students who declare for the non-internship option prior to the completion of semester five can replace the 12 credit internship with 12 credits of non-internship pre-approved SPM courses. Students should consult the internship coordinator or an academic advisor for more information.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below are on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=310504&track=01) may be used for transfer students.

Semester 1
• Complete 2 of 6 critical-tracking courses: ECO 2013 or ECO 2023, MAC 1105, MAR 3023, MAN 3025, PSY 2012 and STA 2023
• 2.2 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 2
• Complete 2 additional critical-tracking course
• 2.2 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 3
• Complete 1 additional critical-tracking course
• 2.2 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Sport Management
A Bachelor of Science in Sport Management enables students to ethically apply the fundamental concepts of management, marketing, finance, and law to sport organizations. Coursework prepares students for a range of opportunities in the sport industry, including positions with professional, collegiate, and amateur sport organizations.

About this Program
• College: Health and Human Performance (p. 558)
• Degree: Bachelor of Science in Sport Management
• Credits for Degree: 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Sport Management (SPM) studies the impact of professional and amateur sports on the personal, social, economic, environmental, and resource infrastructures of society. SPM’s goal is to improve the overall quality of life by learning and teaching what leads individuals, families, and industry to value and benefit from sports. Website (http://hhp.ufl.edu/about/departments/spm/)
Semester 4
• Complete all 6 critical-tracking courses
• 2.2 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 5
• Complete a minimum of 2 SPM courses at the 3000 or 4000 level
• 2.0 UF GPA required

Semester 6
• Complete a minimum of 2 SPM courses at the 3000 or 4000 level
• 2.0 UF GPA required

Semester 7
• Complete a minimum of 2 SPM courses at the 3000 or 4000 level
• 2.0 UF GPA required

Semester 8
• Complete remaining SPM courses
• 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact
The Bachelor of Science in Sport Management enables students to apply the fundamental concepts of management, marketing, finance and law to sport organizations. The acquisition of knowledge regarding the internal and external factors that influence sport in society enables students to use accepted techniques of discovery and critical thinking to solve problems, evaluate opinions and determine outcomes within sport management. They will also be able to use qualitative and quantitative analysis to assess problems and to determine solutions for sport organizations, effectively communicating these assessments in speech and in writing to internal and external constituencies.
Before Graduating Students Must

- Practically demonstrate an understanding of the critical skills needed in the planning and delivery of sport management programs, as well as successfully completing an internship experience, as assessed by the site supervisor and internship coordinator.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Apply sport management concepts and theories for managing sport settings.
2. Identify and explain the internal and external factors that influence and shape sport in society.
3. Apply management functions to sport business settings.
4. Explain and evaluate fundamental legal concepts including but not limited to relevant to tort, contract, and constitutional law in sport management settings.

Critical Thinking
5. Apply techniques of discovery and critical thinking to solve problems independently and collaboratively within sport management settings.

Communication
6. Develop oral, written, and digital communication skills for effective sport business presentations and documents.

About this Program

- **College**: Health and Human Performance (p. 558)
- **Credits**: 12 | Completed with minimum grades of C or better; courses must be taken at UF.
- **Contact**: 352.392.4042 | 330 Florida Gym (http://campusmap.ufl.edu/?loc=0021)

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

The Department of Sport Management (SPM) studies the impact of professional and amateur sports on the personal, social, economic, environmental, and resource infrastructures of society. SPM’s goal is to improve the overall quality of life by learning and teaching what leads individuals, families, and industry to value and benefit from sports.

GAINESVILLE FL 32611-8208

Curriculum

- Combination Degrees
- Sport Management
- Sport Management Certificate
- Sport Management UF Online

The acquisition of knowledge regarding the internal and external factors that influence sport in society enables students to use accepted techniques of discovery and critical thinking to solve problems, evaluate opinions and determine outcomes within the sport management area.

To earn a Bachelor of Science in Sport Management, a student must successfully complete 120 credits of prescribed coursework. Professional core courses, related option courses and specialization electives are taken during your last two years of work.

As part of the degree program, students must complete either an approved 12 credit internship in their final semester of degree program or opt for the non-internship option. The 12 credit internship is an approved 13-week internship required upon completion of all coursework. Students who declare for the non-internship option prior to the completion of semester five can replace the 12 credit internship with 12 credits of non-internship pre-approved SPM courses. Students should consult the internship coordinator or an academic advisor for more information.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below are on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites [http://www.flvc.org/cpp/displayRecord.jsp?cip=310504&track=01](http://www.flvc.org/cpp/displayRecord.jsp?cip=310504&track=01) may be used for transfer students.

Semester 1

- Complete 2 of 6 critical-tracking courses: ECO 2013 or ECO 2023, MAC 1105, STA 2023, MAN 3025, MAR 3023, PSY 2012
- 2.2 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 2

- Complete 2 additional critical-tracking course
- 2.2 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 3

- Complete 1 additional critical-tracking course
- 2.2 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4

- Complete all 6 additional critical-tracking course
- 2.2 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- Complete a minimum of 2 SPM courses at the 3000 or 4000 level
- 2.0 UF GPA required

Semester 6

- Complete a minimum of 2 SPM courses at the 3000 or 4000 level
- 2.0 UF GPA required

Semester 7

- Complete a minimum of 2 SPM courses at the 3000 or 4000 level
- 2.0 UF GPA required

Semester 8

- Complete remaining SPM courses
- 2.0 UF GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Students in the Major will Learn to

### Student Learning Outcomes (SLOs)

#### Content

1. Discuss the interdisciplinary nature of the study of sport management.
2. Examine and explain the internal and external factors that influence and shape sport in society.
3. Explain what constitutes management and what constitutes an organization. Apply the concepts of planning, organizing, leading, and evaluating organizational goals to sport organizations.
4. Examine and explain how ethical behavior influences financial, marketing, and managerial decision-making.
5. Identify fundamental marketing concepts to the sport industry, create marketing plans, evaluate market segments and predict consumer behavior.
6. Develop financial strategies and evaluate budgets and sources of revenues and expenses relevant to sport organizations.
7. Explain and judge fundamental legal concepts relevant to tort, contract and constitutional law, and how they apply to the sport management field.

#### Critical Thinking

8. Use accepted techniques of discovery and critical thinking to solve problems independently and to evaluate opinions and outcomes within and outside of the sport management area.
9. Explain and use qualitative and quantitative analysis through formal and informal assessment strategies.
10. Effectively produce, interpret and analyze written text, oral messages and multimedia presentations used in sport management related settings.

Tourism, Hospitality and Event Management

The curriculum prepares students to gain competency in industry knowledge, develop intellectual abilities, and foster adaptive and technical leadership skills. In addition, the focus on the growth of individual and group dynamics through critical thinking is emphasized so that students will become leaders, decision-makers, and entrepreneurs and create change in an ever-evolving industry. Graduates pursue a wide range of exciting career opportunities including hotels, resorts, theme parks, cruise lines, casinos, clubs, restaurants, convention centers, tour operators, corporate, public, and private meetings and events, inclusive of the music, festivals, entertainment, fashion, attractions, and many other options. The curriculum is also designed to prepare students to pursue graduate studies in a similar field or business management.

About this Program

Curriculum
• Artificial Intelligence and Data Analytics in Tourism, Hospitality and Event Management Certificate
• Combination Degrees
  • Event Management Minor
  • Event Management Minor UF Online
  • Tourism, Hospitality and Event Management
  • Tourism, Hospitality and Event Management UF Online

To earn the Bachelor of Science in Tourism, Hospitality and Event Management courses must be completed successfully in general education, the major, and related professional and specialized courses. All students take a common core of classes providing them with foundational knowledge within the discipline. Subsequently, students select one of three specializations: Tourism and Hospitality Management, Event Management, or General. An approved 13-week internship is required upon completion of all coursework or the successful completion of the Academic Option (for those who qualify). Both options are included in the 120 credits for the degree. Students that have current or past industry experience (supervisory or entry level but not seasonal employment) will be able to substitute the full-time internship engagement with a choice of five department course electives taken over the course of several semesters. Students interested in the academic option will need to submit the following documents for approval beginning of their junior year: 1) notice of intent form, 2) current resume, and 3) statement that outlines personal and professional goals, along with an overview of how past industry experience has prepared for a desired career position.

Event Management
Gain the knowledge and skills necessary to administer and manage commercial and entrepreneurial event service businesses. This program includes courses in conference and special event planning, promotion, sponsorship, financial and revenue management, and production.

General
Gain the knowledge and skills necessary to work in a wide array of sectors related to the tourism, hospitality, and event management. This provides an opportunity to select courses within the department to develop broad content knowledge.

Tourism and Hospitality Management
Gain the knowledge and skills necessary to administer and manage destination management organizations, tour operations, and hospitality enterprises such as hotels, resorts, attractions, restaurants, and cruises.

Academic Learning Compact
The curriculum prepares students to gain competency in industry knowledge, develop intellectual abilities, and foster adaptive and technical leadership skills. In addition, the focus on the growth of individual and group dynamics through critical thinking is emphasized so that students will become leaders, decision-makers, and entrepreneurs and create change in an ever-evolving industry. Graduates pursue a wide
range of exciting career opportunities including hotels, resorts, theme parks, cruise lines, casinos, clubs, restaurants, convention centers, tour operators, corporate, public, and private meetings and events, inclusive of the music, festivals, entertainment, fashion, attractions, and many other options. The curriculum is also designed to prepare students to pursue graduate studies in a similar field or business management.

Before Graduating Students Must

- Demonstrate competence (minimum final grades of C) in the core courses LEI 3301, LEI 4540, HFT 4468, and LEI 4880.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify major concepts, principles and theories associated with tourism, hospitality, and event management.
2. Apply management functions of planning, organizing, leading and controlling the use of resources to accomplish performance goals in tourism, hospitality, and event management.
3. Identify economic, sociological, psychological, political, legal and environmental issues that influence the delivery of tourism, hospitality, and event services to residents and tourists.
4. Interpret information technology and statistical techniques in assessment, planning, delivery and evaluation of tourism, hospitality, and event management programs.
5. Apply programming and marketing strategies aligned to the development of tourism, events and hospitality services.
6. Develop financial strategies and evaluate budgets and sources of revenues and expenses relevant to financial strategies to tourism, events and hospitality services.

Critical Thinking
7. Identify and apply diverse sources of information and data integrated with theoretical frameworks, models and trends to issues related to leadership, management and delivery of tourism, hospitality, and events management services.

Communication
8. Communicate to consumer publics and professional cohorts through written text, oral messages and multimedia presentations.

Credits 12
Total Credits 120

Academic Learning Compact
The curriculum prepares students to gain competency in industry knowledge, develop intellectual abilities, and foster adaptive and technical leadership skills. In addition, the focus on the growth of individual and group dynamics through critical thinking is emphasized so that students will become leaders, decision-makers, and entrepreneurs and create change in an ever-evolving industry. Graduates pursue a wide range of exciting career opportunities including hotels, resorts, theme parks, cruise lines, casinos, clubs, restaurants, convention centers, tour operators, corporate, public, and private meetings and events, inclusive of the music, festivals, entertainment, fashion, attractions, and many other options. The curriculum is also designed to prepare students to pursue graduate studies in a similar field or business management.

Before Graduating Students Must
• Demonstrate competence (minimum final grades of C) in the core courses LEI 3301, LEI 4540, HFT 4468, and LEI 4880.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify major concepts, principles and theories associated with tourism, hospitality, and event management.
2. Apply management functions of planning, organizing, leading and controlling the use of resources to accomplish performance goals in tourism, hospitality, and event management.
3. Identify economic, sociological, psychological, political, legal and environmental issues that influence the delivery of tourism, hospitality, and event services to residents and tourists.
4. Interpret information technology and statistical techniques in assessment, planning, delivery and evaluation of tourism, hospitality, and event management programs.
5. Apply programming and marketing strategies aligned to the development of tourism, events and hospitality services.
6. Develop financial strategies and evaluate budgets and sources of revenues and expenses relevant to financial strategies to tourism, events and hospitality services.

Critical Thinking
7. Identify and apply diverse sources of information and data integrated with theoretical frameworks, models and trends to issues related to leadership, management and delivery of tourism, hospitality, and events management services.

Communication
8. Communicate to consumer publics and professional cohorts through written text, oral messages and multimedia presentations.

Curriculum

- Artificial Intelligence and Data Analytics in Tourism, Hospitality and Event Management Certificate
- Combination Degrees
- Event Management Minor

- Event Management Minor UF Online
- Tourism, Hospitality and Event Management
- Tourism, Hospitality and Event Management UF Online

To earn the Bachelor of Science in Tourism, Hospitality and Event Management courses must be completed successfully in general education, the major, and related professional and specialized courses. All students take a common core of classes providing them with foundational knowledge within the discipline. Subsequently, students select one of three specializations: Tourism and Hospitality Management, Event Management, or General. An approved 13-week internship is required upon completion of all coursework or the successful completion of the Academic Option (for those who qualify). Both options are included in the 120 credits for the degree. Students that have current or past industry experience (supervisory or entry level but not seasonal employment) will be able to substitute the full-time internship engagement with a choice of five department course electives taken over the course of several semesters. Students interested in the academic option will need to submit the following documents for approval beginning of their junior year: 1) notice of intent form, 2) current resume, and 3) statement that outlines personal and professional goals, along with an overview of how past industry experience has prepared for a desired career position.

Event Management

Gain the knowledge and skills necessary to administer and manage commercial and entrepreneurial event service businesses. This program includes courses in conference and special event planning, promotion, sponsorship, financial and revenue management, and production.

General

Gain the knowledge and skills necessary to work in a wide array of sectors related to the tourism, hospitality, and event management. This provides an opportunity to select courses within the department to develop broad content knowledge.

Tourism and Hospitality Management

Gain the knowledge and skills necessary to administer and manage destination management organizations, tour operations, and hospitality enterprises such as hotels, resorts, attractions, restaurants, and cruises.

General

Gain the knowledge and skills necessary to work in a wide array of sectors related to the tourism, hospitality, and event management. This provides an opportunity to select courses within the department to develop broad content knowledge.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites [http://www.flvc.org/cpp/displayRecord.jsp?cip=310301&track=3/6](http://www.flvc.org/cpp/displayRecord.jsp?cip=310301&track=3/6) may be used for transfer students.

Semester 1

- Complete 1 of 5 critical-tracking courses: Complete 1 of 5 critical-tracking courses: ECO 2013 or ECO 2023, SPC 2608 or AEC 3030C,
Two LEI or HFT courses and one of the following EDF 3110, DEP 3053, PSY 2012 or SYG 2000

- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester Two
- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester Three
- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester Four
- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester Five
- Complete all 5 critical-tracking courses
- 2.0 UF GPA required

### Semester Six
- Complete any additional LEI or HFT course
- 2.0 UF GPA required

### Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

All students take a common core of classes providing them with foundational knowledge within the discipline. Subsequently, students select one of three specializations: **Tourism and Hospitality Management**, **Event Management**, or **General**. An approved 13-week internship is required upon completion of all coursework or the successful completion of the Academic Option (for those who qualify). Both options are included in the 120 credits for the degree. Students that have current or past industry experience (supervisory or entry level but not seasonal employment) will be able to substitute the full-time internship engagement with a choice of five department course electives taken over the course of several semesters. Students interested in the academic option will need to submit the following documents for approval beginning of their junior year: 1) notice of intent form, 2) current resume, and 3) statement that outlines personal and professional goals, along with an overview of how past industry experience has prepared for a desired career position.

### Event Management

Gain the knowledge and skills necessary to administer and manage commercial and entrepreneurial event service businesses. This program includes courses in conference and special event planning, promotion, sponsorship, financial, and revenue management, and production.

### General

Gain the knowledge and skills necessary to work in a wide array of sectors related to the tourism, hospitality, and event management. This provides an opportunity to select courses within the department to develop broad content knowledge.

### Tourism and Hospitality Management

Gain the knowledge and skills necessary to administer and manage destination management organizations, tour operations, and hospitality enterprises such as hotels, resorts, attractions, restaurants, and cruises.
Event Management
Gain the knowledge and skills necessary to administer and manage commercial and entrepreneurial event service businesses. This program includes courses in conference and special event planning, promotion, sponsorship, financial and revenue management, and production.

Tourism and Hospitality Management
Gain the knowledge and skills necessary to administer and manage destination management organizations, tour operations, and hospitality enterprises such as hotels, resorts, attractions, restaurants, and airlines.

Academic Learning Compact
The curriculum prepares students to gain competency in industry knowledge, develop intellectual abilities, and foster adaptive and technical leadership skills. In addition, the focus on the growth of individual and group dynamics through critical thinking is emphasized so that students will become leaders, decision-makers, and entrepreneurs and create change in an ever-evolving industry. Graduates pursue a wide range of exciting career opportunities including hotels, resorts, theme parks, cruise lines, casinos, clubs, restaurants, convention centers, tour operators, corporate, public, and private meetings and events, inclusive of the music, festivals, entertainment, fashion, attractions, and many other options. The curriculum is also designed to prepare students to pursue graduate studies in a similar field or business management.

Before Graduating Students Must
- Demonstrate competence (minimum final grades of C) in the core courses LEI 3301, LEI 4540, HFT 4468, and LEI 4880.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to Student Learning Outcomes (SLOs)

Content
1. Identify major concepts, principles and theories associated with tourism, hospitality, and event management.
2. Apply management functions of planning, organizing, leading and controlling the use of resources to accomplish performance goals in tourism, hospitality, and event management.
3. Identify economic, sociological, psychological, political, legal and environmental issues that influence the delivery of tourism, hospitality, and event services to residents and tourists.
4. Interpret information technology and statistical techniques in assessment, planning, delivery and evaluation of tourism, hospitality, and event management programs.
5. Apply programming and marketing strategies aligned to the development of tourism, events and hospitality services.
6. Develop financial strategies and evaluate budgets and sources of revenues and expenses relevant to financial strategies to tourism, events and hospitality services.

Critical Thinking
7. Identify and apply diverse sources of information and data integrated with theoretical frameworks, models and trends to issues related to leadership, management and delivery of tourism, hospitality, and events management services.

Communication
8. Communicate to consumer publics and professional cohorts through written text, oral messages and multimedia presentations.

• Artificial Intelligence and Data Analytics in Tourism, Hospitality and Event Management Certificate
• Combination Degrees
• Event Management Minor
• Event Management Minor UF Online
• Tourism, Hospitality and Event Management
• Tourism, Hospitality and Event Management UF Online

To earn the Bachelor of Science in Tourism, Hospitality and Event Management courses must be completed successfully in general education, the major, and related professional and specialized courses. All students take a common core of classes providing them with foundational knowledge within the discipline. Subsequently, students select one of two specializations: Event Management or Tourism and Hospitality Management. An approved 13-week internship is required upon completion of all coursework or the successful completion of the Academic Option (for those who qualify). Students who have industry experience will be able to substitute the full-time internship engagement with a choice of five department course electives taken over the course of several semesters. Both options are included in the 120 credits for the degree.

Event Management
Gain the knowledge and skills necessary to administer and manage commercial and entrepreneurial event service businesses. This program includes courses in conference and special event planning, promotion, sponsorship, financial and revenue management, and production.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=310301&track=3/6) may be used for transfer students.

Semester 1
• Complete 1 of 5 critical-tracking courses: ECO 2013 or ECO 2023, SPC 2608 or AEC 3030C, Two LEI or HFT courses and one of the following EDF 3110, DEP 3053, PSY 2012, or SYG 2000
  • 2.0 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

Semester 2
• Complete 1 additional critical-tracking course
  • 2.0 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

Semester 3
• Complete 1 additional critical-tracking course
  • 2.0 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

Semester 4
• Complete 1 additional critical-tracking course
  • 2.0 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

Semester 5
• Complete all 5 critical-tracking courses
  • 2.0 UF GPA required

Semester 6
• Complete any additional LEI or HFT course
  • 2.0 UF GPA required

Semester 7
• Complete LEI 3921 or Departmental Elective Toward Academic Option
  • 2.0 UF GPA required

Semester 8
• Complete LEI 4940 Departmental Elective Toward Academic Option
  • 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria. This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Curriculum

- **Artificial Intelligence and Data Analytics in Tourism, Hospitality and Event Management Certificate**
- **Combination Degrees**

To earn the Bachelor of Science in Tourism, Hospitality and Event Management courses must be completed successfully in general education, the major, and related professional and specialized courses. All students take a common core of classes providing them with foundational knowledge within the discipline. Subsequently, students select one of three specializations: Tourism and Hospitality Management, Event Management, or General. An approved 13-week internship is required upon completion of all coursework or the successful completion of the Academic Option (for those who qualify). Both options are included in the 120 credits for the degree. Students that have current or past industry experience (supervisory or entry level but not seasonal employment) will be able to substitute the full-time internship engagement with a choice of five department course electives taken over the course of several semesters. Students interested in the academic option will need to submit the following documents for approval beginning of their junior year: 1) notice of intent form, 2) current resume, and 3) statement that outlines personal and professional goals, along with an overview of how past industry experience has prepared for a desired career position.

Event Management

Gain the knowledge and skills necessary to administer and manage commercial and entrepreneurial event service businesses. This program includes courses in conference and special event planning, promotion, sponsorship, financial and revenue management, and production.

General

Gain the knowledge and skills necessary to work in a wide array of sectors related to the tourism, hospitality, and event management. This program provides an opportunity to select courses within the department to develop broad content knowledge.

Tourism and Hospitality Management

Gain the knowledge and skills necessary to administer and manage destination management organizations, tour operations, and hospitality enterprises such as hotels, resorts, attractions, restaurants, and cruises.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites [http://www.flvc.org/cpp/displayRecord.jsp?cip=310301&track=3/6](http://www.flvc.org/cpp/displayRecord.jsp?cip=310301&track=3/6) may be used for transfer students.

Semester 1

- Complete 1 of 5 critical-tracking courses: ECO 2013 or ECO 2023, SPC 2608 or AEC 3030C, Two LEI or HFT courses and one of the following EDF 3110, DEP 3053, PSY 2012 or SYG 2000
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester Two
• Complete 1 additional critical-tracking course
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester Three
• Complete 1 additional critical-tracking course
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester Four
• Complete 1 additional critical-tracking course
• 2.0 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester Five
• Complete all 5 critical-tracking courses
• 2.0 UF GPA required

Semester Six
• Complete any additional LEI or HFT course
• 2.0 UF GPA required

Semester Seven
• Complete LEI 3921 or Departmental Elective Toward Academic Option
• 2.0 UF GPA required

Semester Eight
• Complete LEI 4940 Departmental Elective Toward Academic Option
• 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

**Established**

1925

The University of Florida College of Journalism and Communications is driving innovation and engagement across the disciplines of advertising, journalism, public relations, and media production, management, and technology. The strength of its programs, faculty, students and alumni — in research and in practice — has earned the college ongoing recognition as one of the best in the nation among its peers.

The college offers bachelor’s, master’s and doctoral degrees, a mass communication minor, and certificates, both online and on campus. The college’s strength is drawn from both academic rigor and experiential learning. CJC students gain practical experience in the Innovation News Center, which generates content across multiple platforms, and The Agency, a strategic communication agency that began operation in 2015.
The college includes seven broadcast and digital media properties.

**Accredited**

Accrediting Council on Education in Journalism and Mass Communications (ACEJMC)

**Academic Divisions**

- Department of Advertising
- Department of Journalism
- Department of Media Production, Management, and Technology
- Department of Public Relations
- Division of Graduate Studies and Research

**Degrees**

Bachelor’s degrees in advertising, journalism, public relations, and media production, management, and technology, Master of Arts and a Ph.D. in mass communication.

**Academic Advising**

Professional Advising and Teaching Hub (PATH), 1060 Weimer Hall, maintains student records and offers undergraduate academic advising.

**Internships**

Students can earn credits by completing professional internships. Grades for internships must be S/U. Internship credit can be repeated with change of assignment for a maximum of six credits. Any internship credit beyond the six, such as through the Honors office, will not count toward a student’s 124-credit total needed for the degree.

**Learning/Training Tools**

The college is home to PBS affiliate (WUFT-TV), NPR affiliates (WUFT-FM, WJUF-FM) for North Central Florida, two commercial radio stations (WRUF-AM/FM), a low-power television station (WLUF-TV), the student magazine Orange and Blue, the Brechner Center for Freedom of Information, the Innovation News Center (INC), Brechner Project, The Agency, Center for Public Interest Communications, and STEM translational Communication Research Program.

**Scholarships**

The College's Knight Division for Scholarships, Career Services and Multicultural Affairs provides undergraduates with information about scholarships and assistantships, internships, placement services, and the college's minority recruitment and retention activities.

The College awards more than $400,000 annually in undergraduate scholarships and assistantships. The application deadline is February 1. For more information, write to:

College of Journalism and Communications

**Academic Policies**

**Freshman Information**

The university’s Office of Admissions coordinates freshman admission.

**Transfer Information**

The College of Journalism and Communications evaluates applicants on a space-available basis. A 2.5 grade point average (on all work attempted) and 60 credits of acceptable credit are generally required for admission at the junior year.

"An AA graduate from a Florida public postsecondary institution shall receive priority for admission to a state university over out-of-state transfer students." - Florida Board of Governors articulation agreement

To be eligible for admission, a transfer student from a Florida public college must have an Associate of Arts degree, including all prerequisite tracking courses. Transfer students from other universities and non-Florida public colleges should complete the first two years’ requirements for the major before transferring.

Students denied admissions may petition. Petitions are available from PATH: Professional Advising and Teaching Hub, 1060 Weimer Hall.

**Combination Degrees - Undergraduate**

Students who want to specialize in more than one field can earn one of the bachelor’s degrees in this college and a second outside the college. Individuals who want to earn dual bachelor’s degrees must complete the required form, including approval signatures from each department/college. Students are expected to complete all coursework in 4 years, or two if transferring. Journalism and Communications majors cannot double major or minor within the college.

**Combination Degrees - Undergraduate to Masters**

A combination-degree program allows interested undergraduates to take up to four graduate classes. These classes fulfill undergraduate college requirements and can then be used a second time to satisfy the requirements for a Master’s degree if graded B or higher. Undergraduates from all four departments may apply to participate in one of the combination-degree programs in the college.

- Combination Degrees

**Transfer Credit**

Transfer students may transfer up to 60 semester credits from a state of Florida public university or community college. Credits taken beyond 60 may meet certain requirements but will not count toward the 124 credits needed to graduate. After 60 credits, credit taken with permission as a transient student at another university can be transferred to UF, but the last 31 credits needed must be UF courses. Professional courses required for a student’s major generally cannot be taken at other schools.
Satisfactory/Unsatisfactory Option

Undergraduate students in the college may not take courses designated ADV, JOU, MMC, PUR, RTV or VIC under the satisfactory-un satisfactory (S/U) option, except courses which are offered only for an S/U grade. More Info (http://www.flvc.org/flvc/portal/Home_Page/Student%20Services/College_Transfer_Center/Transient_Student_Admission_Application/ut/p/c5/04_S88Kb8LLM9MSSzPy8bBz9CP0os3iDEETP0x9TqWOLABDA093dW8vU.8JtKQfpz45f58vZ1ld3/d3/L2dJQ5EvUUh3QS9ZQnZ3LzZmFQ5/)

Students are permitted to take elective courses outside the college on an S/U basis, subject to university rules published in the Academic Regulations section of this catalog.

After the S/U option is approved, students may not elect to convert to a letter-grade. Writing requirement courses cannot be taken S/U.

Courses for the outside concentration may be taken S/U with the following restrictions (in addition to university restrictions):

- The option may not be applied to any course below the 3000 level.
- No more than three credits of S/U work may be taken to fulfill the outside concentration requirement.
- No beginning-level course may be offered for outside concentration credit under S/U.
- 9 credits of English required by the college may not be taken S/U.
- Courses used for the quantitative option may not be taken S/U.
- Refer to the university calendar for deadlines to apply for the S/U option.

Probation and Suspension

A student will be placed on college probation if they fail to maintain a 2.0 overall average and a 2.0 professional average. A student will be flagged if either or both of these averages falls below a 2.0 GPA for two consecutive terms. Students on college suspension must successfully petition the college for reinstatement.

Dropping Courses

Petitions to drop courses beyond the first two may be approved only when documented circumstances beyond the student's control prevent the satisfactory completion of a course.

In all cases, students must file the petition with the PATH: Professional Advising and Teaching Hub, 1060 Weimer Hall. Consideration of petitions normally takes 1-2 weeks. All petitions must be submitted before the semester deadline. After these dates, all petitions are processed through the University Petitions Committee in 222 Criser Hall.

Flexible Learning

No CJC student can receive credit for a required professional course in the major through flexible learning study. No more than six semester credits of flexible learning coursework can be used to fulfill undergraduate degree requirements.

Please note: Concurrent enrollment at another institution is not allowed by the College of Journalism and Communications while enrolled in UF courses.

Outside Concentration

The College of Journalism and Communications requires that all students complete 12 credits of coursework in a department outside of the college or 12 hours in an approved area of study recommended by the department to meet specific career goals. Nine of the twelve credits should be at the 3000 level or above. In lieu of an outside concentration, a student may complete an approved UF minor that is offered outside of the college.

Professional Limit

The college stresses a broad background in liberal arts and sciences. Students spend most of their time on general background courses. The remaining time involves development of professional techniques in relation to this general knowledge.

Because the college insists on a general education background, the number of professional credits (ADV, JOU, MMC, PUR, RTV and VIC) applied toward graduation is limited to 52.

Professional courses as defined by the college and accepted by transfer are counted toward the 52 credits. A student must earn a minimum of 72 credits of non-college courses as part of the 124 credits required.

Dean's List

More Info (p. 1086)

Students cannot qualify for dean's list if they have grades of I, N or U. Certificates of recognition are issued by request from the PATH: Professional Advising and Teaching Hub in 1060 Weimer Hall.

Degree Requirements

To earn a bachelor's degree, a student must satisfy these requirements:

- Earn at least 124 credits, up to 60 credits of which may be accepted by transfer from another college or university. The last 31 of these credits must be earned while the student is enrolled in classes in this college. A minimum of 72 credits must come from courses outside the college and a minimum of 52 credits must come from inside the college.
- Earn a minimum 2.0 in all work attempted while an upper-division student and a minimum 2.0 in all work attempted in courses with prefixes ADV, JOU, MMC, PUR, RTV, and VIC.
- Earn a minimum grade of C in required English, speech and foreign language courses. Advertising majors also must earn minimum grades of C in MAR 3023 and STA 2023. Public relations majors must earn a minimum grade of C in STA 2023.

According to the student's major, minimum grades of C are also required in:

Outside Concentration
The College of Journalism and Communications requires that all students complete 12 credits of coursework in a department outside of the college. Nine of the twelve credits should be at the 3000 level or above. In lieu of an outside concentration, a student may complete an approved UF minor that is offered outside of the college.

Policy for Unsuccessful Completion of Required Courses
Students who complete a course and do not earn at least the minimum grade required for satisfying a degree requirement may repeat the course once. If they are not successful the second time they may not retake the course. Students may petition this restriction if there are extenuating circumstances.

Advertising
The Advertising curriculum provides a foundation for problem-solving, strategic thinking, and persuasion techniques that drive audience-centered marketplace communications. Skills attained can be applied to the advertising industry, to entrepreneurship, and to health marketing, among others. Learning outcomes prepare students for the challenges of culturally diverse and technologically changing marketplaces.

About this Program
• College: Journalism and Communications
• Degree: Bachelor of Science in Advertising
• Specializations: Advertising Agency (p. 605) | Persuasive Messaging (p. 608)
• Credits for Degree: 124

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Advertising is recognized as one of the largest and most respected programs in the U.S. Courses are designed to provide a foundation for problem-solving, strategic thinking and persuasion techniques that drive marketplace communication.

Curriculum
• Advertising
• Advertising | Persuasive Messaging UF Online
• Combination Degrees

Students choose one of two specializations:

Advertising Agency
Emphasizes skills that are necessary for entry-level positions in an advertising agency and is designed to provide a foundation for advancement to positions of leadership in these organizations. This specialization introduces the concepts and skills needed to prepare for careers in account management, account planning, media planning, research, art direction, and copywriting. All students in the Advertising Campaigns course are required to complete a program-level assessment.

Persuasive Messaging
Focuses on the skill set required to engage media audiences with the use of strategic, persuasive communications. The specialization emphasizes the concepts and application of audience and media analytics, advertising sales, brand storytelling, and message persuasion. The specialization prepares students for careers in a broad array of industries and organizations.

Academic Learning Compact
The advertising curriculum is designed to provide a foundation for problem-solving, strategic thinking, and persuasion techniques that drive audience-centered marketplace communications. Skills attained can be applied to the advertising industry, to entrepreneurship, and to health marketing, among others. Learning outcomes prepare students for the challenges of culturally diverse and technologically changing marketplaces.

Students choose one of two specializations:

Advertising Agency
The Advertising Agency specialization emphasizes skills that are necessary for entry-level positions in an advertising agency and is designed to provide a foundation for advancement to positions of leadership in these organizations. This track introduces students to the concepts and skills needed to prepare for careers in account management, account planning, media planning, research, art direction and copywriting.

Persuasive Messaging
The Persuasive Messaging specialization focuses on the skill set required to engage media audiences through the use of strategic, persuasive communications. The track emphasizes the concepts and application of audience and media analytics, advertising sales, brand storytelling, and message persuasion. The track prepares students for careers in a broad array of industries and organizations.

Before Graduating Students Must
• Achieve a passing score of 70% on your student portfolio, which will be evaluated by two faculty members as part of ADV 4800, the major’s capstone course.
• Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Correctly identify information and trends related to the history and roles of professionals and institutions in shaping strategic communications.

Critical Thinking
2. Formulate accurate audience insights from research and consumer information.
3. Correctly analyze strategic communication from case studies in branding.

Communication
4. Work effectively in teams to solve strategic communication problems.
5. Orally present ideas and recommendations clearly and effectively.

Total Credits 62
Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=090903&track=01) may be used for transfer students.

Semester 1
- Complete 1 of 8 critical-tracking courses: ADV 3008, ENC 1102, ECO 2013, MAR 3023, MMC 1009, MMC 2604, POS 2041, or PSY 2012, and STA 2023
  - 2.0 GPA required

Semester 2
- Complete 2 additional critical-tracking courses
  - 2.0 GPA required for all critical-tracking courses
  - 2.0 GPA required

Semester 3
- Complete 3 additional critical-tracking courses
  - 2.0 GPA required for all critical-tracking courses
  - 2.0 GPA

Semester 4
- Complete all 8 critical-tracking courses
  - 2.0 GPA required for all critical-tracking courses
  - 2.0 GPA required

Semester 5
- Complete ADV 3001, ADV 3403, MMC 3420, VIC 3001
  - 2.0 GPA required for all critical-tracking courses
  - 2.0 GPA required

SEMIESTER 6
- Complete ADV 3500 and ADV 4101
- Complete professional writing elective, 6,000 words
  - 2.0 GPA required for all critical-tracking courses
  - 2.0 GPA required

SEMIESTER 7
- Complete ADV 4300 and MMC 3203
  - 2.0 GPA required for all critical-tracking courses
  - 2.0 GPA required

SEMIESTER 8
- Complete ADV 4800 and MMC 4200
  - 2.0 GPA required for all critical-tracking courses
  - 2.0 GPA required

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

1 Minimum grade of C required.
2 Pure math.

Professional Electives | 12 Credits Minimum
MMC 1009 and 11 additional credits

Students may take any other courses in the College of Journalism and Communications to count as professional electives. Students are encouraged to work with faculty members to select electives that best meet career goals.

Up to six credits of professional internship credit may count toward graduation.

Minimum grade of C required in these courses.

Academic Learning Compact
The advertising curriculum is designed to provide a foundation for problem-solving, strategic thinking, and persuasion techniques that drive audience-centered marketplace communications. Skills attained can be applied to the advertising industry, to entrepreneurship, and to health marketing, among others. Learning outcomes prepare students for the challenges of culturally diverse and technologically changing marketplaces.

Students choose one of two specializations:

Advertising Agency
The Advertising Agency specialization emphasizes skills that are necessary for entry-level positions in an advertising agency and is designed to provide a foundation for advancement to positions of leadership in these organizations. This track introduces students to the concepts and skills needed to prepare for careers in account management, account planning, media planning, research, art direction and copywriting.

Persuasive Messaging
The Persuasive Messaging specialization focuses on the skill set required to engage media audiences through the use of strategic, persuasive communications. The track emphasizes the concepts and application of audience and media analytics, advertising sales, brand storytelling, and message persuasion. The track prepares students for careers in a broad array of industries and organizations.

Before Graduating Students Must

• Achieve a passing score of 70% on your student portfolio, which will be evaluated by two faculty members as part of ADV 4800, the major's capstone course.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)
Content
1. Correctly identify information and trends related to the history and roles of professionals and institutions in shaping strategic communications.

Critical Thinking
2. Formulate accurate audience insights from research and consumer information.
3. Correctly analyze strategic communication from case studies in branding.

Communication
4. Work effectively in teams to solve strategic communication problems.
5. Orally present ideas and recommendations clearly and effectively.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=090903&track=01) may be used for transfer students.

#### Semester 1

- 2.0 GPA on all work at all institutions

#### Semester 2

- Complete 2 of 8 critical-tracking courses: ADV 3008, ENC 1102, ECO 2013, MAR 3023, MMC 1009, MMC 2604, POS 2041, or PSY 2012, and STA 2023
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

#### Semester 3

- Complete 2 additional critical-tracking courses
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

#### Semester 4

- Complete 2 additional critical-tracking courses
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions
SEMESTER 5
- Complete all critical-tracking courses
- Complete ADV 3001, ADV 3403, MMC 3420, VIC 3001
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 6
- Complete ADV 3500
- Complete Experiential Learning Course 1
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 7
- Complete MMC 4200
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

SEMESTER 8
- Complete Experiential Learning Course 2
- Complete Outside Writing Elective (Outside the college 6000 word)
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

| Credits | 15 |

Total Credits: 124
Minimum grade of C required.

Pure math.

For semesters 7-8, students must complete two professional courses.

Professional Electives
18 credits minimum
MMC 1009 and 17 additional credits

Students may take any other courses in the College of Journalism and Communications to count as professional electives. Students are encouraged to work with faculty members to select electives that best meet career goals. Recommended certificate options (e.g., International Communication, Graphic Design), combined degree options (Global Strategic Communication, Web Design, Social Media), and various concentrations of strategic messaging courses (e.g., media management, audiences and media, audience engagement) are available in the PATH office and advertising department office.

Up to six credits of professional internship credit may count toward graduation.

Minimum grade of C required in these courses.

Academic Learning Compact
The advertising curriculum is designed to provide a foundation for problem-solving, strategic thinking, and persuasion techniques that drive audience-centered marketplace communications. Skills attained can be applied to the advertising industry, to entrepreneurism, and to health marketing, among others. Learning outcomes prepare students for the challenges of culturally diverse and technologically changing marketplaces.

Students choose one of two specializations:

Advertising Agency
The Advertising Agency specialization emphasizes skills that are necessary for entry-level positions in an advertising agency and is designed to provide a foundation for advancement to positions of leadership in these organizations. This track introduces students to the concepts and skills needed to prepare for careers in account management, account planning, media planning, research, art direction and copywriting.

Persuasive Messaging
The Persuasive Messaging specialization focuses on the skill set required to engage media audiences through the use of strategic, persuasive communications. The track emphasizes the concepts and application of audience and media analytics, advertising sales, brand storytelling, and message persuasion. The track prepares students for careers in a broad array of industries and organizations.

Before Graduating Students Must
- Achieve a passing score of 70% on your student portfolio, which will be evaluated by two faculty members as part of ADV 4800, the major's capstone course.

<sup>1</sup> Minimum grade of C required.

<sup>2</sup> Pure math.

For semesters 7-8, students must complete two professional courses.

Professional Electives
18 credits minimum

MMC 1009 and 17 additional credits

Students may take any other courses in the College of Journalism and Communications to count as professional electives. Students are encouraged to work with faculty members to select electives that best meet career goals. Recommended certificate options (e.g., International Communication, Graphic Design), combined degree options (Global Strategic Communication, Web Design, Social Media), and various concentrations of strategic messaging courses (e.g., media management, audiences and media, audience engagement) are available in the PATH office and advertising department office.

Up to six credits of professional internship credit may count toward graduation.

Minimum grade of C required in these courses.
Academic Learning Compact

The advertising curriculum is designed to provide a foundation for problem-solving, strategic thinking, and persuasion techniques that drive audience-centered marketplace communications. Skills attained can be applied to the advertising industry, to entrepreneurship, and to health marketing, among others. Learning outcomes prepare students for the challenges of culturally diverse and technologically changing marketplaces.

Students choose one of two specializations:

Advertising Agency
The Advertising Agency specialization emphasizes skills that are necessary for entry-level positions in an advertising agency and is designed to provide a foundation for advancement to positions of leadership in these organizations. This track introduces students to the concepts and skills needed to prepare for careers in account management, account planning, media planning, research, art direction and copywriting.

Persuasive Messaging
The Persuasive Messaging specialization focuses on the skill set required to engage media audiences through the use of strategic, persuasive communications. The track emphasizes the concepts and application of audience and media analytics, advertising sales, brand storytelling, and message persuasion. The track prepares students for careers in a broad array of industries and organizations.

Before Graduating Students Must

- Achieve a passing score of 70% on your student portfolio, which will be evaluated by two faculty members as part of ADV 4800, the major’s capstone course.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Correctly identify information and trends related to the history and roles of professionals and institutions in shaping strategic communications.

Critical Thinking
2. Formulate accurate audience insights from research and consumer information.
3. Correctly analyze strategic communication from case studies in branding.

Communication
4. Work effectively in teams to solve strategic communication problems.
5. Orally present ideas and recommendations clearly and effectively.

International Communication Certificate

The International Communication certificate emphasizes the impact of internationalization and globalization on communication across disciplines and the program prepares students for career advancement and development.

About this Program

- College: Journalism and Communications (p. 600)
- Credits: 9 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

Graduates of the Department of Journalism work in traditional forms of media, emerging platforms, and in corporate roles. Ultimately, the department offers transferrable skills that creates outstanding leaders with successful achievements across all fields.

Journalism

In the Journalism major, students become proficient in multiple areas of journalism, reporting, and storytelling. Students learn core skills in interviewing, writing, multimedia/visuals, broadcast, and public records, as well as legal and ethical principles and practices. Students can choose a two-course specialization in almost a dozen different areas, such as photo, data, coding, narrative nonfiction, social media, TV, audio, and more. Finally, students have multiple opportunities to gain practical and immersive experience inside and outside the College of Journalism and Communications.

Curriculum

- /UGRD/colleges-schools/UGJRC/JRC_UCT0X/
- Combination Degrees
  - International Communication Certificate
  - Journalism
  - Journalism | Sports and Media UF Online
  - Mass Communication Studies Minor
  - Mass Communication Studies Minor UF Online

The courses enable students to develop their storytelling talent - in words, visuals or data - and prepare them for careers in all kinds of media professions, including as reporters, writers, photographers, editors, designers, multimedia storytellers, broadcast journalists, and more. The flexible curriculum allows students to work in all kinds of traditional and new media platforms. Excellent writing skills are essential. Graduates of the program work with major journalism and media companies, as well as other industries, and have won prolific honors, including the Pulitzer Prize.

In this curriculum, core courses offer students foundational skills and professional electives and capstones allow students to develop strengths and specialization in one or more areas, such as data, coding, photojournalism, specialized reporting, audio storytelling, TV reporting and producing, design, newsroom skills, narrative nonfiction, and more.

Equipment Requirement

All students who major in journalism are required to own a Mac laptop computer with the appropriate software, a digital audio recorder and a digital camera.

More Info (http://www.jou.ufl.edu/academics/bachelors/journalism/equipment-requirement/)

Academic Learning Compact

The journalism curriculum provides a foundation in reporting, writing, numeracy, the use of public records, First Amendment/media law, history of media, and storytelling in a variety of platforms. Specialized coursework is offered in a variety of subjects, and the curriculum is designed to allow flexibility for faculty to develop curriculum in evolving areas (such is the case for the robust development of courses in data journalism and coding, both areas that did not exist several years ago).

Skills developed are applicable to traditional platforms of journalism, as well as new, hybrid, or non-traditional forms of media. Learning outcomes prepare students for the challenges of culturally diverse and technologically changing marketplaces.

The department has two specializations:

**Journalism**

Students learn base skills required for journalism- and journalism-related careers. Students gain a foundation in reporting, writing, public records, and more, and they all develop a two-course specialization in their area of interest (such as photojournalism, coding, data journalism, specialized reporting, magazine writing, and more). Students come together after these two-course specializations to work in small teams in a common capstone that emphasizes advanced project work.

**Sports and Media**

While still having roots in traditional journalism, this curriculum has an emphasis on sports-related coursework across the college’s departments. Students are prepared for a variety of careers in sports
Students are required to do an internship in this curriculum, which can serve as a capstone experience.

**Before Graduating Students Must**

- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Apply basic numerical and statistical concepts used by journalists.

**Critical Thinking**

2. Conduct research and evaluation information that is accessible through advanced database and public records.
3. Demonstrate reporting skills that reflect a diverse and pluralistic society.
4. Understand and apply the principles and laws of freedom of speech and press.

**Communication**

5. Write correctly and clearly in forms and styles appropriate for the journalism and communications professions and audiences.

Pre-Approved Two-Course Sequences

6 credits

Students select a two-course sequence in an area of specialization. Students may work with an advisor and the department chair to customize a plan. Students must have appropriate prerequisites to enter the first course in the specialization. Students must take course 1 before JOU 4950 and can be simultaneously enrolled in course 2 with JOU 4950, but it is preferred that both courses are completed before taking JOU 4950.

Minimum grade of C required in these courses

Selecting an area of emphasis does not preclude students from taking courses in other areas. Students are able to create personalized degree plans in collaboration with an advisor.

Professional Electives | 14 credits

Students may take any other 3000-level or above courses in the College of Journalism and Communications to count as electives, including other courses in two-course sequences above. Students are encouraged to work with faculty members to construct electives that best meet career goals.

Up to six credits of professional Journalism Internship (JOU 4940) and up to 3 credits of Electronic Media Practicum (RTV 3945) will count as Professional Elective credit. Internship courses in Public Relations, Advertising, and Telecommunication will not count as Professional Elective credit. Minimum grade of C required in College of Journalism and Communications upper division courses.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=090401&track=01) may be used for transfer students.

Semester 1

• Complete 1 of 10 critical tracking courses: MMC 1009, ENC 1102, MMC 2604, STA 2023, ECO 2013, JOU 3101, MMC 2450, MMC 3203, MMC 4200, JOU 4950
• 2.0 GPA on all work at all institutions

Semester 2

• Complete an additional 2 of 10 critical-tracking courses
• 2.0 GPA required for all critical-tracking courses
• 2.0 GPA on all work at all institutions

Semester 3

• Complete 2 additional critical-tracking courses
• 2.0 GPA required for all critical-tracking courses
• 2.0 GPA on all work at all institutions

Semester 4

• Complete 1 critical-tracking courses
• 2.0 GPA required for all critical-tracking courses
• 2.0 GPA on all work at all institutions

SEMESTER 5

• Complete 1 critical-tracking courses
• 2.0 GPA required for all critical-tracking courses
• 2.0 GPA on all work at all institutions

SEMESTER 6

• Complete 1 critical-tracking courses
• 2.0 GPA required for all critical-tracking courses
• 2.0 GPA on all work at all institutions

SEMESTER 7

• Complete 1 critical-tracking courses
• 2.0 GPA required for all critical-tracking courses
• 2.0 GPA on all work at all institutions
**SEMESTER 8**
- Complete 1 critical-tracking courses
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

**Model Semester Plan**
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

1 Minimum grade of C required.

**Academic Learning Compact**

The journalism curriculum provides a foundation in reporting, writing, numeracy, the use of public records, First Amendment/media law, history of media, and storytelling in a variety of platforms. Specialized coursework is offered in a variety of subjects, and the curriculum is designed to allow flexibility for faculty to develop curriculum in evolving areas (such is the case for the robust development of courses in data journalism and coding, both areas that did not exist several years ago).

Skills developed are applicable to traditional platforms of journalism, as well as new, hybrid, or non-traditional forms of media. Learning
outcomes prepare students for the challenges of culturally diverse and technologically changing marketplaces.

The department has two specializations:

**Journalism**
Students learn base skills required for journalism- and journalism-related careers. Students gain a foundation in reporting, writing, public records, and more, and they all develop a two-course specialization in their area of interest (such as photojournalism, coding, data journalism, specialized reporting, magazine writing, and more). Students come together after these two-course specializations to work in small teams in a common capstone that emphasizes advanced project work.

**Sports and Media**
While still having roots in traditional journalism, this curriculum has an emphasis on sports-related coursework across the college’s departments. Students are prepared for a variety of careers in sports media. Students are required to do an internship in this curriculum, which can serve as a capstone experience.

**Before Graduating Students Must**
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Apply basic numerical and statistical concepts used by journalists.

**Critical Thinking**
2. Conduct research and evaluation information that is accessible through advanced database and public records.
3. Demonstrate reporting skills that reflect a diverse and pluralistic society.
4. Understand and apply the principles and laws of freedom of speech and press.

**Communication**
5. Write correctly and clearly in forms and styles appropriate for the journalism and communications professions and audiences.

- Story Evaluation

**Sports and Media**
In the Journalism major, students become proficient in multiple areas of journalism, reporting, and storytelling. Students learn core skills in interviewing, writing, multimedia/visuals, broadcast, and public records, as well as legal and ethical principles and practices. Students can choose a two-course specialization in almost a dozen different areas, such as photo, data, coding, narrative nonfiction, social media, TV, audio, and more. Finally, students have multiple opportunities to gain practical and immersive experience inside and outside the College of Journalism and Communications.

**About this Program**
- **College**: Journalism and Communications (p. 600)
- **Degree**: Bachelor of Science in Journalism (p. 615)
- **Specialization**: Sports and Media (p. 618)
- **Credits for Degree**: 124

- Mass Communication Studies Minor UF Online

The courses enable students to develop their storytelling talent - in words, visuals or data - and prepare them for careers in all kinds of media professions, including as reporters, writers, photographers, editors, designers, multimedia storytellers, broadcast journalists, and more. The flexible curriculum allows students to work in all kinds of traditional and new media platforms. Excellent writing skills are essential. Graduates of the program work with major journalism and media companies, as well
as other industries, and have won prolific honors, including the Pulitzer Prize.

In this curriculum, core courses offer students foundational skills and professional electives and capstones allow students to develop strengths and specialization in one or more areas, such as data, coding, photojournalism, specialized reporting, audio storytelling, TV reporting and producing, design, newsroom skills, narrative nonfiction, and more.

**Equipment Requirement**
All students who major in journalism are required to own a Mac laptop computer with the appropriate software, a digital audio recorder and a digital camera.

More Info (http://www.jou.ufl.edu/academics/bachelors/journalism/equipment-requirement/)

**Sports and Media**
The Sports and Media specialization in Journalism teaches students to be skilled in multiples areas of sports media and communications. Students will learn strategies and skills in reporting, writing, video, audio, social media, and more. Students will engage in critical thinking about current issues and trends in today’s sports media—and have multiple opportunities to gain practical and immersive experience in media properties inside and outside of the College of Journalism and Communications.

_The Sports and Media specialization is not available for Innovation Academy._

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=090401&track=01) may be used for transfer students.

**Semester 1**

- Complete 1 of 8 critical tracking courses: MMC 2450, ENC 1102, MMC 3703, STA 2023, ECO 2013, RTV 3502, JOU 4313 or RTV 3593, RTV 4959
- 2.0 GPA on all work at all institutions

**Semester 2**

- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

**Semester 3**

- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

**Semester 4**

- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

**Semester 5**

- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

**Semester 6**

- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

**Semester 7**

- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

**Semester 8**

- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions
Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

- 2.0 GPA on all work at all institutions

#### Semester 6

- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

#### Semester 7

- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions
Semester 8
- Complete 1 critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

RTV 3405 Media and Society 3
RTV 3411 Race, Gender, Class and the Media 3

Up to six credits of professional internship credit may count toward graduation.

Academic Learning Compact

The journalism curriculum provides a foundation in reporting, writing, numeracy, the use of public records, First Amendment/media law, history of media, and storytelling in a variety of platforms. Specialized coursework is offered in a variety of subjects, and the curriculum is designed to allow flexibility for faculty to develop curriculum in evolving areas (such as the case for the robust development of courses in data journalism and coding, both areas that did not exist several years ago).

Skills developed are applicable to traditional platforms of journalism, as well as new, hybrid, or non-traditional forms of media. Learning outcomes prepare students for the challenges of culturally diverse and technologically changing marketplaces.

The department has two specializations:

Journalism
Students learn base skills required for journalism- and journalism-related careers. Students gain a foundation in reporting, writing, public records, and more, and they all develop a two-course specialization in their area of interest (such as photojournalism, coding, data journalism, specialized reporting, magazine writing, and more). Students come together after these two-course specializations to work in small teams in a common capstone that emphasizes advanced project work.

Sports and Media
While still having roots in traditional journalism, this curriculum has an emphasis on sports-related coursework across the college’s departments. Students are prepared for a variety of careers in sports media. Students are required to do an internship in this curriculum, which can serve as a capstone experience.

Before Graduating Students Must
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Apply basic numerical and statistical concepts used by journalists.

Critical Thinking
2. Conduct research and evaluation information that is accessible through advanced database and public records.
3. Demonstrate reporting skills that reflect a diverse and pluralistic society.
4. Understand and apply the principles and laws of freedom of speech and press.

Communication
5. Write correctly and clearly in forms and styles appropriate for the journalism and communications professions and audiences.

Media Production, Management, and Technology

The Department of Media Production, Management, and Technology consistently ranks among the top five in the United States and is accredited by the Accrediting Council for Education in Journalism and Mass Communication.

### Specializations

#### Digital Film and Television Production

Prepares students for careers in program creation, writing and the creative applications of video and audio technology.

#### Management and Strategy

Prepares students to enter the profession through positions in audience research analytics, sales, and marketing and promotion. Focuses on the theories, methods and techniques used to play, produce and distribute audio and video programs and messages; personnel and facilities management; marketing and distribution; media regulations, law and policy; and principles of broadcast technology.

#### Media and Society

Prepares individuals to work in media organizations and those organizations that use electronic media, social media, and emerging technologies such as political campaigns, government, education, and
business. The specialization allows for several combinations of courses to fulfill degree requirements.

Students can also use the communication skills they acquire to pursue graduate degrees. Students majoring in telecommunication participate in the university’s six broadcast stations, other on campus facilities such as the Gator Network and elective internships throughout the world.

Academic Learning Compact

The major in telecommunication, which includes specializations in management, media and society, and digital film and television production, prepares students to understand the means of communicating with diverse audiences and to use the tools of information gathering and storytelling to communicate with those audiences through electronic media such as video, audio and interactive technologies. Through study and practical application, students gain knowledge of the history, norms and legal and ethical milieu of the telecommunication professions. Students learn to locate and use reference tools and to demonstrate the ability to communicate independent, critical perspectives.

Before Graduating Students Must

• Achieve a passing score of 70% on your student portfolio, which will be evaluated by faculty members and/or professionals in each specialty.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe or apply concepts and theories in the use and presentation of content.
2. Identify, describe or apply professional ethical principles and the importance of truth, accuracy, fairness and diversity.
3. Identify, describe or apply the tools and technologies appropriate for the telecommunication professions.

Critical Thinking
4. Gather information, conduct research and evaluate information by methods appropriate to the telecommunication professions.
5. Produce appropriate output that demonstrates creativity and critical thinking, independently or collaboratively.

Communication
6. Communicate effectively in forms and styles appropriate to the telecommunication professions, audiences and the purposes they serve.

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Media Production, Management, and Technology program is one of the most comprehensive in the country, with complete specializations in Digital Film and Video Production, Management and Strategy, and Media and Society.
Specializations

Digital Film and Television Production
Prepares students for careers in program creation, writing and the creative applications of video and audio technology.

Management and Strategy
Prepares students to enter the profession through positions in audience research analytics, sales, and marketing and promotion. Focuses on the theories, methods and techniques used to play, produce and distribute audio and video programs and messages; personnel and facilities management; marketing and distribution; media regulations, law and policy; and principles of broadcast technology.

Media and Society
Prepares individuals to work in media organizations and those organizations that use electronic media, social media, and emerging technologies such as political campaigns, government, education, and business. The specialization allows for several combinations of courses to fulfill degree requirements.

Students can also use the communication skills they acquire to pursue graduate degrees. Students majoring in telecommunication participate in the university’s six broadcast stations, other on campus facilities such as the Gator Network and elective internships throughout the world.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=090701&track=01) may be used for transfer students.

Semester 1

• Complete critical-tracking course STA 2023 or ENC 1101
• 2.0 GPA on all work at all institutions

Semester 2

• Complete 2 of 5 critical-tracking courses: ENC 1101, ECO 2013, MMC 1009, RTV 2100 (MMC 2100 can be substituted for RTV 2100), RTV 3001
• 2.0 GPA required for all critical-tracking courses
• 2.5 GPA on all work at all institutions

Semester 3

• Complete 2 additional critical-tracking courses
• 2.0 GPA required for all critical-tracking courses
• 2.5 GPA on all work at all institutions

Semester 4

• Complete 1 additional critical-tracking course
• 2.0 GPA required for all critical-tracking courses
• 2.5 GPA on all work at all institutions

Semester 5

• Complete all lower division critical-tracking courses
• 2.0 GPA on all work at all institutions

Semester 6

• Complete RTV 3320
• 2.0 GPA on all work at all institutions

Semester 7

• Complete RTV 3516 and RTV 4500
• Complete RTV 4929C with a minimum grade of C
• 2.0 GPA on all work at all institutions
SEMESTER 8

- Complete RTV 4432 with a minimum grade of C
- Complete RTV 4700
- 2.0 GPA on all work at all institutions

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

1 Minimum grade of C required
2 MMC 2100 or JOU 3109C is accepted in lieu of RTV 2100

For semesters 7-8, students must complete two professional courses.

Up to six credits of professional internship credit may count toward graduation. Internships for credit require department approval, and a letter from the internship supervisor outlining duties and contact information. Internship application forms, information, and policies are available on the Department of Telecommunication website.

Academic Learning Compact

The major in telecommunication, which includes specializations in management, media and society, and digital film and television production, prepares students to understand the means of communicating with diverse audiences and to use the tools of information gathering and storytelling to communicate with those audiences through electronic media such as video, audio and interactive technologies. Through study and practical application, students gain knowledge of the history, norms and legal and ethical milieu of the telecommunication professions. Students learn to locate and
use reference tools and to demonstrate the ability to communicate independent, critical perspectives.

**Before Graduating Students Must**

- Achieve a passing score of 70% on your student portfolio, which will be evaluated by faculty members and/or professionals in each specialty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Identify, describe or apply concepts and theories in the use and presentation of content.
2. Identify, describe or apply professional ethical principles and the importance of truth, accuracy, fairness and diversity.
3. Identify, describe or apply the tools and technologies appropriate for the telecommunication professions.

**Critical Thinking**
4. Gather information, conduct research and evaluate information by methods appropriate to the telecommunication professions.
5. Produce appropriate output that demonstrates creativity and critical thinking, independently or collaboratively.

**Communication**
6. Communicate effectively in forms and styles appropriate to the telecommunication professions, audiences and the purposes they serve.

1 Minimum grade of C required
2 MMC 2100 or JOU 3109C is accepted in lieu of RTV 2100

For semesters 7-8, students must complete two professional courses.

Up to six credits of professional internship credit may count toward graduation. Internships for credit require department approval, and a letter from the internship supervisor outlining duties and contact information. Internship application forms, information, and policies are available on the Department of Telecommunication website.

### Academic Learning Compact

The major in telecommunication, which includes specializations in management, media and society, and digital film and television...
production, prepares students to understand the means of communicating with diverse audiences and to use the tools of information gathering and storytelling to communicate with those audiences through electronic media such as video, audio and interactive technologies. Through study and practical application, students gain knowledge of the history, norms and legal and ethical milieu of the telecommunication professions. Students learn to locate and use reference tools and to demonstrate the ability to communicate independent, critical perspectives.

Before Graduating Students Must

- Achieve a passing score of 70% on your student portfolio, which will be evaluated by faculty members and/or professionals in each specialty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe or apply concepts and theories in the use and presentation of content.
2. Identify, describe or apply professional ethical principles and the importance of truth, accuracy, fairness and diversity.
3. Identify, describe or apply the tools and technologies appropriate for the telecommunication professions.

Critical Thinking
4. Gather information, conduct research and evaluate information by methods appropriate to the telecommunication professions.
5. Produce appropriate output that demonstrates creativity and critical thinking, independently or collaboratively.

Communication
6. Communicate effectively in forms and styles appropriate to the telecommunication professions, audiences and the purposes they serve.

UF Online

Specializations
Digital Film and Television Production
Prepares students for careers in program creation, writing and the creative applications of video and audio technology.

Management and Strategy
Prepares students to enter the profession through positions in audience research analytics, sales, and marketing and promotion. Focuses on the theories, methods and techniques used to play, produce and distribute audio and video programs and messages; personnel and facilities management; marketing and distribution; media regulations, law and policy; and principles of broadcast technology.

Media and Society
Prepares individuals to work in media organizations and those organizations that use electronic media, social media, and emerging technologies such as political campaigns, government, education, and business. The specialization allows for several combinations of courses to fulfill degree requirements.

Students can also use the communication skills they acquire to pursue graduate degrees. Students majoring in telecommunication participate in the university’s six broadcast stations, other on campus facilities such as the Gator Network and elective internships throughout the world.

Students may substitute a 12-credit combination degree program for one block.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=090701&track=01) may be used for transfer students.

Semester 1
• Complete critical-tracking course STA 2023 or ENC 1101
• 2.0 GPA on all work at all institutions

Semester 2
• Complete 2 of 5 critical-tracking courses: ENC 1101, ECO 2013, MMC 1009, RTV 2100 (MMC 2100 can be substituted for RTV 2100), RTV 3001
• 2.0 GPA required for all critical-tracking courses
• 2.5 GPA on all work at all institutions

Semester 3
• Complete 2 additional critical-tracking courses
• 2.0 GPA required for all critical-tracking courses
• 2.5 GPA on all work at all institutions

Semester 4
• Complete 1 additional critical-tracking course
• 2.0 GPA required for all critical-tracking courses
• 2.5 GPA on all work at all institutions

Semester 5
• Complete all critical-tracking courses

SEMMESTER 6
• Complete Specialization Block Courses (6 Credits)
• 2.0 UF GPA required
Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

### Semester One
- Quest 1 (Gen Ed Humanities) 3
- AMH 2020 United States Since 1877 (State Core Gen Ed Social and Behavioral Sciences (p. 53)) 3
- ENC 1101 Expository and Argumentative Writing (Critical Tracking, State Core Gen Ed Composition) 3
- STA 2023 Introduction to Statistics 1 (Critical Tracking, State Core Gen Ed Mathematics) 3
- State Core Gen Ed Physical or Biological Sciences 1 3

**Credits**: 15

### Semester Two
- ECO 2013 Principles of Macroeconomics (Critical Tracking) 4
- MUL 2010 Experiencing Music (State Core Gen Ed Humanities with International (p. 53)) 3
- Select one: 3
  - THE 2000 Theatre Appreciation (Gen Ed Humanities with Diversity)
  - ARH 2000 Art Appreciation: American Diversity and Global Arts (Gen Ed Humanities with Diversity)
- ENC 1102 Argument and Persuasion (Gen Ed Composition; recommended elective) 3
- Gen Ed Mathematics 1 3

**Credits**: 16

### Semester Three
- Quest 2 (Gen Ed Biological or Physical Sciences) 3
- ENC 3254 Professional Writing in the Discipline 3
- MMC 1009 Introduction to Media and Communications (Critical Tracking) 1
- MMC 2121 Writing Fundamentals for Communicators 1 3
- RTV 3001 Introduction to Media Industries and Professions (Critical Tracking) 1 3
- Foreign language or Quantitative option 1 3

**Credits**: 16

### Semester Four
- POS 2041 American Federal Government (Gen Ed Social and Behavioral Sciences) 3
- RTV 2100 Writing for Electronic Media (Critical Tracking) 1,2 3

### Semester Five
- RTV 3001 Sight, Sound and Motion 1 4
- Foreign language or Quantitative option 1 3

**Credits**: 16

### Semester Six
- 2 specialization block courses (Critical Tracking) 6
- Outside concentration course 3
- Electives (inside college) 6

**Credits**: 15

### Semester Seven
- MMC 3203 Ethics and Problems in Mass Communications 1 3
- RTV 4432 Telecommunication Law and Regulation (Critical Tracking) 3
- RTV 4700 Media and Society 3
- MMC 4302 World Communication Systems 3
- SYG 2000 Principles of Sociology (Gen Ed Social and Behavioral Sciences) 3
- PSY 2012 General Psychology 3
- Outside concentration course 3
- Specialization block courses 3
- Quantitative option or general elective 2

**Credits**: 17

### Semester Eight
- AMH 2010 United States to 1877 3
- Select one: 3
  - POS 2112 American State and Local Government
  - CPO 2001 Comparative Politics
  - INR 2001 Introduction to International Relations
- RTV 4420 New Media Systems (Critical Tracking) 3
- Outside concentration course 3
- Elective (inside college) 1
- Outside concentration course 3

**Credits**: 16

**Total Credits**: 124

1 Minimum grade of C required.
2 MMC 2100 or JOU 3109C is accepted in lieu of RTV 2100.

Up to six credits of professional internship credit may count toward graduation. Internships for credit require department approval, and a letter from the internship supervisor outlining the duties and contact information. Internship application forms, information, and policies are available on the Department of Telecommunication website.
Specialization Block Electives

Select 9 credits from one specialization block and 6 credits from a different block

Academic Learning Compact

The major in telecommunication, which includes specializations in management, media and society, and digital film and television production, prepares students to understand the means of communicating with diverse audiences and to use the tools of information gathering and storytelling to communicate with those audiences through electronic media such as video, audio and interactive technologies. Through study and practical application, students gain knowledge of the history, norms and legal and ethical milieu of the telecommunication professions. Students learn to locate and use reference tools and to demonstrate the ability to communicate independent, critical perspectives.

Before Graduating Students Must

- Achieve a passing score of 70% on your student portfolio, which will be evaluated by faculty members and/or professionals in each specialty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes (SLOs)

**Content**

1. Identify, describe or apply concepts and theories in the use and presentation of content.
2. Identify, describe or apply professional ethical principles and the importance of truth, accuracy, fairness and diversity.
3. Identify, describe or apply the tools and technologies appropriate for the telecommunication professions.

Critical Thinking

4. Gather information, conduct research and evaluate information by methods appropriate to the telecommunication professions.
5. Produce appropriate output that demonstrates creativity and critical thinking, independently or collaboratively.

Communication

6. Communicate effectively in forms and styles appropriate to the telecommunication professions, audiences and the purposes they serve.

Total Credits | 55

¹ Minimum grade of C required
² These courses cannot be used to meet other requirements

Students may substitute a 12-credit combination degree program for one block.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=090701&track=01) may be used for transfer students.

Semester 1
• Complete critical-tracking course STA 2023 or ENC 1101
• 2.0 GPA on all work at all institutions

Semester 2
• Complete 2 of 5 critical-tracking courses: ENC 1101, ECO 2013, MMC 1009, RTV 2100 (MMC 2100 can be substituted for RTV 2100), RTV 3001
• 2.0 GPA required for all critical-tracking courses
• 2.5 GPA on all work at all institutions

Semester 3
• Complete 2 additional critical-tracking courses
• 2.0 GPA required for all critical-tracking courses
• 2.5 GPA on all work at all institutions
Semester 4
- Complete 1 additional critical-tracking course
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

Semester 5
- Complete all critical-tracking courses

SEMESTER 6
- Complete Specialization Block Courses (6 Credits)
- 2.0 UF GPA required

SEMESTER 7
- Complete RTV 4700 or MMC 4200
- 2.0 UF GPA required

SEMESTER 8
- Complete RTV 4420
- 2.0 UF GPA required

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Minimum grade of C required. MMC 2100 or JOU 3109C is accepted in lieu of RTV 2100.

Up to six credits of professional internship credit may count toward graduation. Internships for credit require department approval, and a letter from the internship supervisor outlining the duties and contact information. Internship application forms, information, and policies are available on the Department of Telecommunication website.

Academic Learning Compact
The major in telecommunication, which includes specializations in management, media and society, news, and digital film and television production, prepares students to understand the means of communicating with diverse audiences and to use the tools of information gathering and storytelling to communicate with those audiences through electronic media such as video, audio and interactive technologies. Through study and practical application, students gain knowledge of the history, norms and legal and ethical milieu of the telecommunication professions. Students learn to locate and use reference tools and to demonstrate the ability to communicate independent, critical perspectives.

Before Graduating Students Must
- Achieve a passing score of 70% on your student portfolio, which will be evaluated by faculty members and/or professionals in each specialty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Identify, describe or apply concepts and theories in the use and presentation of content.
2. Identify, describe or apply professional ethical principles and the importance of truth, accuracy, fairness and diversity.
3. Identify, describe or apply the tools and technologies appropriate for the telecommunication professions.

Critical Thinking
4. Gather information, conduct research and evaluate information by methods appropriate to the telecommunication professions.
5. Produce appropriate output that demonstrates creativity and critical thinking, independently or collaboratively.

Communication
6. Communicate effectively in forms and styles appropriate to the telecommunication professions, audiences and the purposes they serve.

Media Sales and Account Management Certificate

The Media Sales and Account Management certificate emphasizes sales within the changing media landscape. It offers modern training in media buying, planning, and selling. Students learn and apply best practice for providing customers traditional and digital solutions, cross-media platform selling, best sales practices, and revenue management. They apply these practices in a sales internship.

About this Program

- **College**: Journalism and Communications (p. 600)
- **Credits**: 14

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

Graduates of the Department of Journalism work in traditional forms of media, emerging platforms, and in corporate roles. Ultimately, the department offers transferrable skills that creates outstanding leaders with successful achievements across all fields. Curriculum

- Combination Degrees
- Public Relations
- Public Relations UF Online

The public relations curriculum is one of the most in-depth curricula in the country, with a balance between skills and conceptual courses. The Department of Public Relations consistently ranks among the top public relations education programs in the United States, and it is among
the largest programs in terms of the number of faculty and students, including one of the largest chapters of the Public Relations Student Society of America. The program is housed in a college accredited by the Accrediting Council for Education in Journalism and Mass Communication.

Graduates of the program are well-prepared for careers as public relations practitioners in businesses, public relations firms, government agencies and nonprofit organizations, nationally and internationally. Their education makes them attractive candidates for graduate degree programs (master’s and Ph.D.) ranging from public relations to business and international relations.

Certificate in International Communication
Students may pursue a certificate in international communication, which is designed to prepare students for career advancement and development. Courses emphasize the impact of internationalization and globalization on communication across disciplines.

¹ Minimum grade of C required.

Equipment Requirement
All public relations students are required to have a laptop computer. Laptops must be capable of running the Adobe Creative Cloud suite software. Students registered for VIC 3001, which is required of all public relations majors, must subscribe to, download, and install the Adobe Creative Cloud suite of software before class begins.

Other courses in the public relations curriculum require Microsoft Office software or equivalent, including spreadsheets and statistics software (e.g., Excel, SPSS) and presentation software (e.g., PowerPoint or Keynote).

Some software is available for free or at a steep student discount through UF Apps. Please inquire with UF Apps before making software purchases.

More Info (http://info.apps.ufl.edu/)

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=090902&track=01) may be used for transfer students.

Semester 1
- Complete 1 critical-tracking course: MMC 1009.
- 2.0 GPA on all work at all institutions

Semester 2
- Complete 3 critical-tracking courses: POS 2041/PSY 2012, ENC 1102, ECO 2013
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

Semester 3
- Complete 1 critical-tracking course: VIC 3001
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

Semester 4
- Complete 2 critical-tracking courses: STA 2023, PUR 3000
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

Semester 5
- Complete 2 critical-tracking courses: MMC 3203, MMC 4200
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

Semester 6
- Complete 2 critical-tracking courses: JOU 3101, PUR 3500
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 7
- Complete 1 critical-tracking course: PUR 4100
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 8
- Complete 1 critical-tracking course: PUR 4800
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Model Semester Plan
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.
This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

### Academic Learning Compact

The major in public relations enables students to develop the knowledge and skills, including analytical and communication skills, necessary
for the effective practice of public relations. Students will learn public relations principles, perspectives for understanding and communicating with targeted and diverse publics and a systematic process for problem solving that emphasizes programming based on formative and evaluative research. Special attention is paid to writing skills and students will acquire the ability to write correctly and clearly in forms and styles appropriate for public relations practice. They will learn to use tools and relevant technologies, including new media, and students will also develop an understanding of ethical principles, including the importance of truth and accuracy, which guide public relations practice.

Before Graduating Students Must

• Achieve a passing score of 70% or higher on a major individual project (e.g., media kit) developed in PUR 4100 Public Relations Writing and evaluated by the class instructor.
• Achieve a passing score of 70% or higher on a comprehensive campaign plan for an organizational client, developed in the major’s capstone course, PUR 4800 Public Relations Campaigns, and evaluated by the class instructor.
• Achieve a satisfactory rating on four of the five SLOs on a standardized evaluation completed by internship supervisors as part of PUR 4940 Public Relations Internship.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify and discuss concepts and theories relevant to effective public relations practice.
2. Describe the history and role of professionals and institutions in shaping public relations practice.
3. Display professional ethical principles and exemplify the values of truth, honesty, accuracy, fairness and diversity.
4. Appropriately apply tools and technologies relevant to public relations practice.

Critical Thinking
5. Gather information and conduct research for public relations planning and evaluation.
6. Appropriately apply basic numerical and statistical concepts for public relations planning and evaluation.
7. Creatively and independently analyze public relations problems.

Communication
8. Write correctly and clearly in forms and styles appropriate for public relations practice.
9. Select and use images and information for public relations practice.

Professional electives 19

Total Credits 55

¹ Minimum grade of C required.

Equipment Requirement

All public relations students are required to have a laptop computer. Laptops must be capable of running the Adobe Creative Cloud suite software. Students registered for VIC 3001, which is required of all public relations majors, must subscribe to, download, and install the Adobe Creative Cloud suite of software before class begins.

Other courses in the public relations curriculum require Microsoft Office software or equivalent, including spreadsheets and statistics software (e.g., Excel, SPSS) and presentation software (e.g., PowerPoint or Keynote).

Some software is available for free or at a steep student discount through UF Apps. Please inquire with UF Apps before making software purchases.

More Info (http://info.apps.ufl.edu/)

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=090902&track=01) may be used for transfer students.

Semester 1

- Complete 1 critical-tracking course: MMC 1009.
- 2.0 GPA on all work at all institutions

Semester 2

- Complete 3 critical-tracking courses: POS 2041/PSY 2012, ENC 1102, ECO 2013
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

Semester 3

- Complete 1 critical-tracking course: VIC 3001
- 2.0 GPA for all critical-tracking courses
- 2.5 GPA on all work at all institutions

Semester 4

- Complete 2 critical-tracking courses: STA 2023, PUR 3000
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

Semester 5

- Complete 2 critical-tracking courses: MMC 3203, MMC 4200
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

Semester 6

- Complete 2 critical-tracking courses: JOU 3101, PUR 3500
- 2.0 GPA required for all critical-tracking courses
- 2.5 GPA on all work at all institutions

Semester 7

- Complete 1 critical-tracking course: PUR 4100
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Semester 8

- Complete 1 critical-tracking course: PUR 4800
- 2.0 GPA required for all critical-tracking courses
- 2.0 GPA on all work at all institutions

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.
This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

### Academic Learning Compact

The major in public relations enables students to develop the knowledge and skills, including analytical and communication skills, necessary
for the effective practice of public relations. Students will learn public relations principles, perspectives for understanding and communicating with targeted and diverse publics and a systematic process for problem solving that emphasizes programming based on formative and evaluative research. Special attention is paid to writing skills and students will acquire the ability to write correctly and clearly in forms and styles appropriate for public relations practice. They will learn to use tools and relevant technologies, including new media, and students will also develop an understanding of ethical principles, including the importance of truth and accuracy, which guide public relations practice.

Before Graduating Students Must

• Achieve a passing score of 70% or higher on a major individual project (e.g., media kit) developed in PUR 4100 Public Relations Writing and evaluated by the class instructor.
• Achieve a passing score of 70% or higher on a comprehensive campaign plan for an organizational client, developed in the major’s capstone course, PUR 4800 Public Relations Campaigns, and evaluated by the class instructor.
• Achieve a satisfactory rating on four of the five SLOs on a standardized evaluation completed by internship supervisors as part of PUR 4940 Public Relations Internship.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify and discuss concepts and theories relevant to effective public relations practice.
2. Describe the history and role of professionals and institutions in shaping public relations practice.
3. Display professional ethical principles and exemplify the values of truth, honesty, accuracy, fairness and diversity.
4. Appropriately apply tools and technologies relevant to public relations practice.

Critical Thinking
5. Gather information and conduct research for public relations planning and evaluation.
6. Appropriately apply basic numerical and statistical concepts for public relations planning and evaluation.
7. Creatively and independently analyze public relations problems.

Communication
8. Write correctly and clearly in forms and styles appropriate for public relations practice.
9. Select and use images and information for public relations practice.

Liberal Arts and Sciences, College of

The College of Liberal Arts and Sciences is the largest college on campus, with more than 10,000 undergraduate students pursuing a variety of disciplines through over 40 majors and 49 minors. Undergraduate students acquire an intellectual foundation based on a well-rounded and comprehensive education designed for an increasingly technological and rapidly changing society.

Academic Divisions

The College of Liberal Arts and Sciences has 21 departments and 28 centers and institutes.

Degrees

Bachelor of Arts and Bachelor of Science degrees in over 40 majors, as well as a number of interdisciplinary studies fields.

The college also offers combination-degree (bachelor’s-master’s) programs in biology, botany, computer science, economics, French and Francophone studies, geography, geology, history, international relations, Latin American studies, linguistics, mathematics, philosophy, physics,
political science, Portuguese, Russian, sociology, statistics, women's studies, and zoology.

**Academic Advising**

Department advisors assist students with their majors' requirements and options within the major. The Academic Advising Center helps CLAS students understand college and university degree requirements and regulations and the critical-tracking requirements for their major. More Info (http://www.advising.ufl.edu/)

**Career Guidance**

*Beyond120* is the experiential learning and professional development program in the College of Liberal Arts and Sciences (CLAS). The (https://www.advising.ufl.edu/beyond120/coursework/) *Beyond120* career curriculum includes for-credit courses on career skills, global engagement, undergraduate research, personal development, self-marketing, and pre-health preparation. Through *Beyond120*, all CLAS students have the opportunity to engage with internships, study abroad, undergraduate research, excursions, workshops, and mentorship. Through these many avenues, CLAS students can build skills and perspectives, better understand the value of their degree, and set themselves up for professional success in the future. More Info (https://www.advising.ufl.edu/beyond120/)

Students who need to explore majors and careers can find resources on the college's [Explore our Majors](https://clas.ufl.edu/undergraduate/) page and the Academic Advising Center (https://www.advising.ufl.edu/exploratory/) website. Additionally, students are encouraged to utilize the Career Connections Center (https://career.ufl.edu/) for career and major exploration as well as other career-related needs.

Students should consult their major department regarding internship credit. Additional information is available in 2014 Turlington, 352.392.6800. The college also offers an opportunity for students to receive internship credit outside of their major; more information can be found on the Academic Advising Center (https://www.advising.ufl.edu/beyond120/internships/) website. The Bob Graham Center provides information on internship programs at the Washington Center in Washington, D.C. and other sites. More Info (http://www.bobgrahamcenter.ufl.edu/students/internships/)  

**Pre-Health and Pre-Law**

Students interested in attending professional school in medicine, dentistry, law, optometry, pharmacy, or veterinary medicine after completing the bachelor's degree should seek advising from the Pre-Health and Pre-Law Advising in the Academic Advising Center. The AAC offers workshops and individual advising to guide pre-health and pre-law students. Pre-Health (http://www.advising.ufl.edu/pre-health/) Pre-Law (http://www.advising.ufl.edu/pre-law/)  

Pre-health students in the College of Liberal Arts & Sciences (CLAS) have customized Healthcare and Wellness resources, events, and programs through *Beyond120*. Pre-health students have access to all the available resources of *Beyond120* plus Pre-Health focused courses, mentors, and service groups. The Pre-Health Scholars (PHS) program (https://www.advising.ufl.edu/beyond120/academics/pre-health-scholars/) offers students an opportunity to enrich their perspectives on the human and social contexts of health both in and out of the classroom.

**Scholarships**

The *Beyond120* Program offers experiential opportunity scholarships to support student pursuits in internships, global engagement, undergraduate research, and more. More Info (https://www.advising.ufl.edu/beyond120/scholarships/)

For information regarding additional scholarships offered by CLAS, visit 2014 Turlington Hall. More Info (https://clas.ufl.edu/undergraduate/undergrad-scholarships/)

The Honors Office also has scholarship information for students in the honors program. More Info (http://www.honors.ufl.edu/academics/internal-scholarships/)

**Student Organizations**

CLASSC, the college’s student council, serves as a resource for CLAS students and as an advocate for student issues within the college. More Info (https://classc.clas.ufl.edu/)

In addition, CLASSC provides funding for programs and travel to conferences for more than 25 student organizations specific to CLAS. More Info (https://classc.clas.ufl.edu/organizations/)

Phi Beta Kappa is another organization for CLAS student involvement.

**Research Experience**

In most departments, students can conduct research under the direction of a faculty member. Consult a department advisor for information about faculty research areas or the Finding a Research Project (https://cur.ua.ufl.edu/research-search/) page on Center for Undergraduate Research’s website. In addition, students in CLAS are eligible to apply for the CLAS Scholars Program (https://clas.ufl.edu/undergraduate/clas-scholars/) and the University Scholars Program (https://cur.ua.ufl.edu/university-scholars-program/). Teamed with faculty mentors, CLAS Scholars and University Scholars identify a topic, initiate research during the summer, and continue investigation throughout the following academic year. Students chosen as CLAS Scholars receive a $2,000 stipend, and University Scholars receive a $1,750 stipend.

*Beyond120* Research provides one-on-one consultations, classes, workshops, and free online resources for students who want to become part of the CLAS research community. Course offerings include classes on how to get involved in research as well as hands-on, research experience courses. The *Beyond120* program also offers funding opportunities for undergraduate researchers, which are advertised on the *Beyond120* Scholarships page (https://www.advising.ufl.edu/beyond120/scholarships/).

**Special Academic Recognition**

**Dean’s Medal**

The college believes that the best preparation for success draws deeply across the full range of the college’s offerings. The Dean’s Medal recognizes those CLAS graduates who have gone above and beyond in their pursuit of broad study in the liberal arts and sciences. Medal winners have not only undertaken a significant range of courses, but have acquired the range of skills and experiences valued by graduate and professional schools, organizations, employers, and communities. More Info (https://clas.ufl.edu/advising/the-deans-medal-for-excellence-in-liberal-arts-and-sciences/)
Honors
The college offers a variety of opportunities for independent and seminar honors work to undergraduates who demonstrate appropriate qualifications. Superior students should take initiative in planning undergraduate and graduate programs. They should consult the honors coordinator in their department about requirements for the baccalaureate degree cum laude, magna cum laude, or summa cum laude. Postbaccalaureate students are not eligible to receive honors recognition.

Study Abroad
Students in the college are encouraged to participate in study-abroad programs administered by the UF International Center, and scholarships are available. Study-abroad programs may satisfy certain requirements, such as general education, CLAS distribution, foreign language, summer term enrollment, and UF residency. Some study-abroad courses may also count toward a student’s major.

More Info (https://internationalcenter.ufl.edu/)

CLAS has many overseas programs for undergraduates for a summer, a semester, or an academic year, each providing a wide range of academic and cultural experiences. Additionally, Beyond120 provides guidance, resources, and scholarships to help students make the most of their international experience (https://www.advising.ufl.edu/beyond120/global-engagement/). Beyond120 helps students connect their personal, academic, and professional goals through global engagement (https://www.advising.ufl.edu/beyond120/global-engagement/) such as international internships, overseas research, global service-learning, and coursework.

Beyond120 Program, Farrior Hall, beyond120@advising.ufl.edu

UF International Center, 170 Hub, 352.392.5323.

Teacher Preparation: Professional Training Options
A PTO is an alternative certification program meant to prepare students for temporary teacher certification in Florida. Professional teacher certification is attainable with passing scores on relevant teacher certification exams, a clear criminal history background report, and one year of successful teaching in a Florida public school. Please review state certification information (http://www.fldoe.org/edcert/level3.asp).

There are three PTO programs at UF:
- UFTeach Mathematics Teaching minor
- UFTeach Science Teaching minor
- Florida Teaching minor

The UFTeach (http://education.ufl.edu/uf-teach/) minor in mathematics teaching, available to students pursuing a major in mathematics, is meant to prepare students to be middle school and high school mathematics teachers in Florida. The UFTeach (http://education.ufl.edu/uf-teach/) minor in science teaching, available to students pursuing a major in a science discipline, is meant to prepare students to be middle school general science teachers and high school biology, chemistry, earth/space science, or physics teachers. There is a critical shortage of qualified high school mathematics and science teachers in Florida. Students interested in this high-demand profession should see the advisor in their major or the UFTeach advisor for more information.

The Florida Teaching minor is available to non-mathematics and non-science majors (ideally pursuing a major that would build competence in the subject the student wants to teach). It can lead to certification in a variety of subject areas and grade levels. Students interested in pursuing this minor should visit the College of Education Office of Student Services in G416 Norman Hall.

Center for Written and Oral Communication
The William and Grace Dial Center for Written and Oral Communication offers courses focusing on the communication skills students need for their majors and future careers. Students interested in business, education, law, medicine, and other fields can develop oral communication skills essential to success in their professions. The center also offers a minor in communication studies, comprised of courses in public speaking, interpersonal communication, and a variety of upper-division courses that focus on different communication contexts.

More Info (http://cwoc.ufl.edu/)

The University Writing Program
The University Writing Program prepares students and faculty to meet their academic and professional writing goals by delivering broad-based instruction in composition and discipline-specific writing courses, by providing a writing studio for individualized help, and by hosting faculty and student workshops.

The UWP houses coursework in First-Year Writing, Second-Year Analytical Thinking and Writing, and Third-Year Professional Writing in the Disciplines. Individual third-year courses focus on writing in specific disciplines (anthropology, communication science and disorders, engineering, law, neurobiological sciences, physical sciences, political science, sociology, etc.). These courses address the form, content, and style of professional and academic writing. Depending on the discipline, students may prepare proposals, scientific research reports, lab reports, professional correspondence, legal briefs and memoranda, analytical essays, applications to graduate programs, lab reports, and presentations of research.

Academic Policies

Degree Programs
Bachelor of Arts | 120 Credits
Conferred upon students who fulfill degree requirements with majors in African-American studies, astronomy, classical studies, criminology, economics, English, foreign languages and literatures, Hispanic and Latin American languages, literatures, and linguistics, history, international studies, Jewish studies, linguistics, philosophy,
political science, Portuguese, religion, sociology, Spanish, sustainability studies, and women’s studies.

Bachelor of Science | 120 Credits
Conferred upon students who fulfill degree requirements with majors in astrophysics, botany, chemistry, computer science, data science, marine sciences, microbiology and cell science, and zoology.

A Bachelor of Arts or Bachelor of Science will be conferred upon those students who fulfill the requirements for the specific degree with majors in anthropology, biology, geography, geology, mathematics, physics, psychology, statistics, or interdisciplinary studies. Students should consult the undergraduate coordinator in their major department to discuss the appropriate curriculum for either degree.

Admission

First-Year Students
First-year students select a major and enter the college when they enroll at UF. Students selecting a CLAS major should start planning their major early in their UF careers by speaking with a general advisor in the Academic Advising Center (http://www.advising.ufl.edu/) (AAC), 100 Farrior Hall, and a department advisor in their major’s department (https://clas.ufl.edu/departments/).

Three temporary enrollment categories are provided to facilitate exploration of academic options for students who are unsure about a choice of major:

• Exploring Humanities and Letters
• Exploring Social and Behavioral Science
• Exploring Sciences and/or Engineering

Students select the exploratory category that most closely fits their academic interests.

Advisors in the AAC (https://www.advising.ufl.edu/exploratory/) can help students determine an appropriate program of study. Students may be enrolled in exploratory registration categories for the first three fall/spring terms only (not counting summer terms). Students must be admitted to a major before registering for their fourth term.

Transfer Students

Detailed information about transfer admission requirements is available for each CLAS major.
More Info (https://www.advising.ufl.edu/admissions/transfer-admissions/)

Transfer students are expected to graduate from the major into which they were admitted. An appeal to change majors after transferring is unlikely to be approved.

Admission to the College of Liberal Arts and Sciences is competitive due to space limitations. Priority is given to transfer applicants completing their Associate of Arts (AA) degree at one of the public state colleges or universities within the state of Florida (under the state’s articulation agreement).

Admitted students who do not enroll in the term for which they have been admitted must submit a new application by the deadline to be considered for a future term.

After being admitted, transfer students are required to attend orientation (Transfer Preview) and are responsible for meeting with their department advisor and an advisor in the AAC to ensure that their transfer credits are evaluated properly and that they understand the requirements to complete their UF degrees.

Change of Major

Changing Majors in Terms 1-5
Students who want to change to a CLAS major in terms 1-5 must meet with an advisor in the AAC. The tracking term of students who entered UF as Summer B/Fall freshmen, is based on the number of fall/spring semesters in which they enrolled for 10 or more credits. For students who entered UF as an Innovation Academy freshman, their tracking term is based on the number of spring/summer semesters in which they enrolled for 10 or more credits. Full-term withdrawals and study abroad are not included as a tracking term.

Students should meet the critical-tracking criteria for their real tracking term. Students who do not may be permitted to change majors, provided they:

• Can get on track in a reasonable number of terms
• Demonstrate potential for success in the new major (successful completion of major and major-related courses in two attempts, including withdrawals, with a C or better)
• Meet all other CLAS progression standards

Generally, students who transfer into CLAS as juniors will not be able to change majors.

Changing Majors in Term 6 or Later

The further along a student is, the harder it may be to change majors and progress and graduate in a timely fashion. Students wishing to change to a CLAS major in term 6 or later must meet with an advisor in the AAC.

Students must:

• Meet the critical-tracking criteria (pre-professional GPA and minimum cumulative UF GPA) for the major
• Meet all other CLAS progression standards for the desired major
• Demonstrate potential for success in the major (successful completion of major and major-related courses without excessive Ws, grades lower than C, or multiple repeats)
• Provide clear and purposeful reasons for which the change of major is appropriate, and
• Be able to graduate in a timely fashion

Students in term 6 or later must also submit a program plan identifying the courses they intend to complete for the new major as well as a statement explaining their educational goals. The department offering the desired major must support the student’s admission to the major. Students may pursue only the major to which they have been admitted and they must follow the approved program plan.

Progression to Graduation

Every student is expected to make satisfactory progress toward graduation each semester. Students who fail to make satisfactory progress may be required to seek advisement, be denied further registration, or mandated to meet specific conditions in order to continue in the major and/or CLAS.
**Critical Tracking for CLAS Majors**

Students are required to meet the critical-tracking criteria for their majors in each term. The critical-tracking criteria are listed for each CLAS major. **CLAS counts all attempts of critical-tracking courses when calculating the pre-professional GPA for a major.** For more information about tracking, refer to Tracking Progress toward a Degree (p. 1125).

**Additional Progression Standards**

All CLAS students must meet these standards or they may be denied further registration:

- Maintain a minimum overall UF cumulative grade point average of 2.0
- College Probation: Students who have an overall UF cumulative grade point average under 2.0 are placed on college probation and are required to meet with an advisor to discuss their academic progress.
- Achieve a minimum 2.0 GPA on all coursework each semester.
- Successfully complete (with a minimum grade of C) at least one course in the major each term during the junior and senior years until major course requirements are completed. Students can pursue only the major to which they have been admitted.
- Earn a minimum grade of C within two attempts (including drops/withdrawals) in each course in the major. Certain majors may require grades higher than C in specific courses. Students must meet major requirements.
- Maintain a minimum cumulative GPA of 2.0 for courses required in the major.
- Withdraw from the university no more than twice while enrolled in this college.
- Graduate in a timely fashion (see Timely Graduation, below).
- Students who have completed all of the academic requirements for the degree but have not obtained the degree may be denied further registration in the college. Students who were admitted as a freshman and have completed fewer than eight full-time semesters may be approved to continue provided the student demonstrates an educational plan that will enhance the achievement of their academic goals, consistent with CLAS policies. Students in this situation should consult with an advisor in the AAC.
- Maintain a minimum overall UF cumulative grade point average of 2.0
- College Probation: Students who have an overall UF cumulative grade point average under 2.0 are placed on college probation and are required to meet with an advisor to discuss their academic progress.
- Achieve a minimum 2.0 GPA on all coursework each semester.
- Successfully complete (with a minimum grade of C) at least one course in the major each term during the junior and senior years until major course requirements are completed. Students can pursue only the major to which they have been admitted.
- Earn a minimum grade of C within two attempts (including drops/withdrawals) in each course in the major. Certain majors may require grades higher than C in specific courses. Students must meet major requirements.
- Maintain a minimum cumulative GPA of 2.0 for courses required in the major.
- Withdraw from the university no more than twice while enrolled in this college.
- Graduate in a timely fashion (see Timely Graduation, below).
- Students who have completed all of the academic requirements for the degree but have not obtained the degree may be denied further registration in the college. Students who were admitted as a freshman and have completed fewer than eight full-time semesters may be approved to continue provided the student demonstrates an educational plan that will enhance the achievement of their academic goals, consistent with CLAS policies. Students in this situation should consult with an advisor in the AAC.
- Maintain a minimum overall UF cumulative grade point average of 2.0
- College Probation: Students who have an overall UF cumulative grade point average under 2.0 are placed on college probation and are required to meet with an advisor to discuss their academic progress.
- Achieve a minimum 2.0 GPA on all coursework each semester.
- Successfully complete (with a minimum grade of C) at least one course in the major each term during the junior and senior years until major course requirements are completed. Students can pursue only the major to which they have been admitted.
- Earn a minimum grade of C within two attempts (including drops/withdrawals) in each course in the major. Certain majors may require grades higher than C in specific courses. Students must meet major requirements.
- Maintain a minimum cumulative GPA of 2.0 for courses required in the major.
- Withdraw from the university no more than twice while enrolled in this college.
- Graduate in a timely fashion (see Timely Graduation, below).
- Students who have completed all of the academic requirements for the degree but have not obtained the degree may be denied further registration in the college. Students who were admitted as a freshman and have completed fewer than eight full-time semesters may be approved to continue provided the student demonstrates an educational plan that will enhance the achievement of their academic goals, consistent with CLAS policies. Students in this situation should consult with an advisor in the AAC.

Each semester, the university emails students reminding them to check Registration Prep in ONE.UF. Upon receipt of this email, students should consult their record to determine if they have any registration holds and to review their degree audit on ONE.UF (https://one.ufl.edu/). The degree audit outlines the requirements for the degree and indicates whether or not a student has met each requirement. Students should use their degree audit to plan a program of satisfactory progress each term.

It is recommended that students begin work on the foreign language requirement during the first two years, unless the major department indicates otherwise.

**Timely Graduation**

CLAS majors are expected to graduate in a "timely fashion," defined as eight full-time fall/spring semesters for students admitted as summer b/fall freshmen, eight full-time spring/summer semesters for students admitted as Innovation Academy freshmen, and four fall/spring semesters for students admitted as junior transfers. Full-term withdrawals, full-term semesters of overseas study, or full-term semesters of internship away from UF are not included in this count, though students should be mindful of potential excess hours implications of extending their time at UF.

Students who cannot meet their degree requirements in a timely fashion are expected to enroll in summer terms to complete their degree requirements. Additional study is permitted with the approval of an advisor in the CLAS Academic Advising Center or the College Petitions Committee, and may be limited to fulfillment of unmet degree requirements.

Due to the sequencing of course requirements, some A.A. and upper division transfer students may be unable to complete their degree requirements in the four allotted terms. Students should see an advisor in the AAC to determine an appropriate academic plan to complete their degrees.

CLAS understands that while many beginning UF freshmen students come in with significant credit from accelerated mechanisms and could meet the minimum requirements for the degree in 2-3 years, simply meeting the minimum academic requirements for the degree does not necessarily signify that the student is well-prepared to achieve their educational goals. Because of this, CLAS will allow a student to enroll in up to eight full-time semesters provided the student demonstrates an educational plan that will enhance the achievement of those academic goals, consistent with CLAS policies. Students in this situation should consult with an advisor in the AAC.

*Students should discuss their excess hours standing with their advisor as they are making their plan. In addition, students should discuss their financial aid/scholarship situation with Student Financial Affairs in 107 Criser Hall or Veterans Services in 222 Criser Hall.*

**Registration Policies**

**Normal Course Loads**

CLAS students normally enroll in 12-18 credits per term (a minimum of 12 credits is considered full-time). A CLAS academic advisor in the AAC (Farrior Hall) must approve loads above 18 credits. Students who wish to enroll for fewer than 12 credits should discuss their plan and academic standing with a CLAS academic advisor in the AAC.

**Adding Courses**

Students may add courses any time during drop/add. Additional coursework may be added via ONE.UF after the drop/add period but prior to the published drop deadline with appropriate department and college approval.

**Dropping Courses**

Students may drop courses during drop/add without penalty. After the drop/add period, a course may be dropped via ONE.UF until the published Drop Deadline. The drop policy is explained in the Academic Regulations section.

More Info (p. 1130)

All such drops are subject to the following restrictions:

- Two unrestricted drops are permitted before attempting 60 credits at UF.
- Two unrestricted drops are permitted for CLAS students after attempting 60 credits at UF or after transferring to UF with 60 credits or an A.A. from a public institution in Florida.
- Students wishing to drop courses beyond the two unrestricted drops may petition the CLAS petitions committee. The petition must include a personal statement explaining an extenuating circumstance that prevents completion of the course(s). Documentation supporting the personal statement must also be included. Please
examine the general petition form (https://www.advising.ufl.edu/docs/general_petition.PDF) in the AAC for guidelines and for documentation.

- Students who wish to drop a course after the drop deadline may complete a college petition to do so until the last day of classes (fall and spring semesters only). Students must include substantial documentation of an extenuating circumstance (usually severe medical condition) that occurred after the drop deadline and that prevents completion of the course(s). Students should first discuss their options with the instructor of the class before submitting a petition.

Students should discuss with an academic advisor how a dropped course will affect their academic standing and should also discuss with a financial aid advisor how it will affect their financial aid and/or scholarships. Students may be required to pay back scholarship monies when they drop a course. Students receiving VA benefits should talk to the Veterans Services office.

**Withdrawal**

Students who want to drop all courses for any current term are able to do so via ONE.UF (https://one.ufl.edu/) prior to the withdrawal deadline. Dropping the entire load constitutes withdrawal from the university.

Courses dropped via full term withdrawal do not count toward a student’s number of unrestricted drops. Students must discuss with an academic advisor how the withdrawal will affect their academic standing and discuss with a financial aid advisor how it will affect their financial aid. Students receiving VA benefits should talk to the Veterans Services office. Students wanting to withdraw from all courses after the withdrawal deadline may submit a college petition before the last day of classes and consistent with the guidelines listed in the Dropping Courses section above.

**Petitions**

Students who have an extenuating circumstance that prevents them from adhering to a college regulation may petition for a waiver. The CLAS petitions committee considers petitions weekly on a case-by-case basis. All petitions must include a statement explaining the hardship and documentation supporting the claim. Information is available at 100 Farrior Hall; instructions are on the college petition form. More Info (http://www.advising.ufl.edu/resources/forms/)

**Registration in Graduate Courses**

Advanced undergraduate students with excellent academic records can register for graduate courses (5000 level and above) with permission of the department advisor. Students will be charged graduate-level fees for enrolling in graduate courses. Refer to the information on combination bachelor’s/master’s programs.

**Flexible Learning**

Distance & Continuing Education (DCE) offers fully online undergraduate courses for college credit through UF Flexible Learning. CLAS students interested in taking a Flexible Learning course must first consult with their academic advisor. The student must have a cumulative 2.0 UF GPA. CLAS students may apply up to two (2) Flexible Learning courses toward a degree and must seek college dean’s office approval to exceed this limit. CLAS Advisors and the DCE office will approve access to a Flexible Learning course if the student is below the two (2) course limit and meets at least one (1) of the following criteria:

- The student has a health concern
- There are circumstances preventing the student from physically being on campus and the course is not offered online
- The student requires off-calendar, flexible format solution required for scholarship, tracking, and/or graduation requirements

More Info (https://flexible.dce.ufl.edu/)

**Transient Study**

**UF Students Attending Other Schools**

Students may submit a transient form (https://www.floridashines.org/succeed-in-college/take-a-course-at-another-school/) via Floridashines.org to request permission to enroll at another institution and have the credits apply to their UF degrees.

More Info (https://www.advising.ufl.edu/academicinfo/transient-study/)

To be eligible for transient work, students must:

- Have a minimum 2.0 UF GPA
- Be on-track for the current major
- Not break the residency requirement (Students MUST complete their last 30 credits continuously at UF)

Students who have already transferred 60 credits from a public/state college may not apply additional public/state college credits toward their degree.

If approved for transient enrollment elsewhere, students may still need to have courses approved for the fulfillment of any specific requirement. Courses intended to meet major or minor requirements are subject to the approval of the appropriate department. Courses whose numbers are not consistent with the common course numbering system need to be reviewed and approved by an AAC advisor to meet general education or basic distribution requirements.

Transfer courses that are given a UF equivalent will be awarded Words towards the writing requirement if the designated UF equivalent awards Words. Students should not assume they will receive the writing credit from another institution. All writing requirement questions should be directed to the Office of the University Registrar.

Students must ensure that a final transcript is sent to UF after completion of the course(s). Grades for courses taken elsewhere will not be calculated into the UF GPA but may be considered as part of the preprofessional GPA used by critical-tracking. Grades in courses taken elsewhere do appear on the UF transcript.

**Supplemental Academic Programs**

In addition to the major, CLAS offers other ways for students to pursue their academic interests. Students may opt to pursue a minor, certificate, double major, dual degree, or combination bachelor’s/master’s program.

The college must approve supplemental programs of study. In considering applications for supplemental programs, CLAS will consider the following:

- Whether the student meets the minimum requirements for consideration for the program
- The student's goals and whether the student has demonstrated the potential for success in the program
Minors and Their Requirements

The minor provides a traditional, well-accepted way to recognize that a student has completed a significant body of work outside the major. A minor shall consist of no fewer than 15 semester credits of coursework, earned with minimum grades of C. At least three courses (none can be individual work) of no fewer than three credits each must be at the 3000 level or above. Of the total credits, no more than three may be individual work. Students should consult an advisor in the appropriate department for the requirements for each minor.

A minor may not inherently overlap with the student’s major (e.g., a history major may not declare a history minor, even if the student takes additional history credits beyond what is required for the major). In addition, students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the student’s major(s) or other minor(s).

View the AAC website regarding minors to review a list of majors/minors that will not be approved due to overlap. This list is not all-inclusive, for each minor application an AAC advisor will review whether your intended major/combination degree is acceptable.

More Info (https://www.advising.ufl.edu/academicinfo/minors/)

To be eligible for a minor, students must:

- Have an established UF minimum GPA of 2.0 (some minors require a higher GPA, see catalog description of the minor)
- Be on-track for their major
- Have at least 45 credits earned
- Be able to complete the minor in a timely fashion and thus able to graduate on time
- Complete a minimum of six credits exclusive to the minor; i.e., credits that cannot count toward major(s) or other minor(s)

CLAS students should make a written application (https://registrar.ufl.edu/forms/) for admission to the minor in 100 Farrior Hall after earning 45 credits and are encouraged to do so before the end of their junior year. Applicants must meet the minimum admission requirements for the minor. Students are limited to three minors.

Students may use 3000-level courses in the minor to fulfill the college elective requirement. Students should plan the minor so that the courses will count for the minor and as 3000-level electives outside their major.

Approval to pursue a minor does not guarantee that students will be granted the minor upon graduation. Students must complete all minor requirements and at least 6 credits exclusive to the minor without overlap with their major(s) or other minors.

A minor will be awarded when the academic unit offering the minor certifies that the applicant has completed the requirements. Such award(s) will be noted on the UF transcript. Students must be certified for the minor at the same time that they complete the bachelor’s degree.

Certificates

UF offers over 50 different certificates. Each certificate program must have at least nine credits that are exclusive to the certificate and may not count toward any other certificate or minor. All courses required must be completed with minimum grades of C or S in each course.

Double Major And Combination Degree

Students who are interested in studying two disciplines may pursue a double major or a combination degree. The two disciplines may not extensively overlap. Each double major/combination degree application will be reviewed to ensure that the student will complete a minimum of 15 credits of coursework exclusive to each major that will not count toward the other major or any minors. The AAC website lists double major/combination degree combinations (https://www.advising.ufl.edu/academicinfo/duals-and-doubles/) that will not be approved because of extensive overlap. This list is not all-inclusive, so students should consult an AAC advisor to verify that the intended major/degree combination is acceptable.

More Info (http://www.advising.ufl.edu/academicinfo/duals-and-doubles/)

Approval to pursue a double major/combination degree does not guarantee the student will be granted both upon graduation. To be certified to receive the majors/degrees, all requirements must be met for each and at least 15 credits exclusive to each major (not applying to the other major or any minors) must have been completed.

To earn a double major or combination degree, a student must be certified for and graduate from all undergraduate programs of study at the same time.

Double Major

Completing two majors in the College of Liberal Arts and Sciences for which the degree is the same (both Bachelor of Arts or both Bachelor of Science). Upper-level courses used for one major can fulfill College of Liberal Arts and Sciences’ elective requirement for the other major, and vice versa.

A student completing two majors that have the same degree, B.A. or B.S., will receive a single degree. The diploma and transcript will identify the degree and the two majors.

Combination Degree

Completing two majors for which the degree is different (a Bachelor of Arts and a Bachelor of Science; or one major in the College of Liberal Arts and Sciences and another in another college). Upper-level courses used for one major can fulfill College of Liberal Arts and Sciences’ elective requirement for the other major.

A student completing two CLAS majors that have different degrees, or major and college requirements in two different colleges, will receive two degrees. The student will receive two diplomas, each with the appropriate major listed, and the transcript will identify each degree and major.
Students applying for a double major or combination degree must:

- Already be admitted to one of the majors and have between 45 and 96 credits (not including AICE, AP, CLEP, IB, dual enrollment, or overseas study credit).
- Have not previously been denied admission as a transfer student to the CLAS major for which the student is applying.
- Meet the minimum UF GPA (specified below) required to pursue a CLAS double major or combination degree (determined in part by whether the major is over-enrolled (http://www.advising.ufl.edu/academicinfo/duals-and-doubles/#tdeligibility)).
  - Have a 3.5 GPA when both majors are in LS and BOTH majors are overenrolled.
  - Have a 3.0 GPA for two majors/degrees and no more than one is an overenrolled LS major.
- Meet all critical-tracking term 5 requirements for all CLAS majors before submitting the application. If one of the majors is outside CLAS, applicants must get approval from the appropriate college for that major.
- Meet all other CLAS progression standards for both majors and demonstrate potential for success in both majors (successful completion of major and major-related courses without excessive Ws, grades less than C or multiple repeats);
- Be able to complete the degree in a timely fashion (typically eight fall/spring semesters for students who entered UF as Summer B/Fall freshmen, eight spring/summer semesters for students who entered UF as Innovation Academy freshmen, and four fall/spring semesters for students who entered UF as transfer students). Additional study is permitted only with approval of a CLAS AAC advisor or the college petitions committee.
- Have clearly articulated and purposeful reasons for which the double major or combination degree is appropriate.

Students should obtain an application (http://www.registrar.ufl.edu/forms.html) for a double major or combination degree. Students must submit a program plan identifying the courses they intend to complete for both majors, as well as a statement explaining their educational goals. For some majors with potential significant overlap, students may need to complete a certain number of credits exclusive to both majors before the application may be approved. After being approved, students must follow the program plan outlined in their application or the approval for the supplemental program of study will be voided.

Students can pursue a double major or dual degree only if approved in advance by the college.

Triple Majors/Degrees

Students who are interested in studying three disciplines may choose to pursue triple majors/degrees. The three disciplines may not extensively overlap. Each triple major/degree application will be reviewed to ensure that the student will complete a minimum of 15 credits of coursework exclusive to each major that will not count toward the other majors or any minors. View the triple majors/degrees page for a list of major combinations that will not be approved due to extensive overlap. More Info (http://www.advising.ufl.edu/academicinfo/duals-and-doubles/#tdeligibility)

Approval to pursue triple majors/degrees does not guarantee the student will be granted all majors/degrees upon graduation. To be certified to receive the majors/degrees, all requirements must be met for each and at least 15 credits exclusive to each major (not applying to the other majors or any minors) must have been completed.

To earn triple majors/degrees, a student must be certified for and graduate from all undergraduate programs of study at the same time.

Students applying for triple majors/degrees must:

- Have selected at least one CLAS major that is considered under-enrolled (http://www.advising.ufl.edu/academicinfo/duals-and-doubles/#tdeligibility) if all three majors are in CLAS.
- Already be admitted to one of the majors and have between 45 and 96 credits (not including AICE, AP, CLEP, IB, dual enrollment, or overseas study credit).
- Have a minimum 3.5 UF GPA required if two of the LS majors are overenrolled.
- Have a minimum 3.0 UF GPA if no more than one of the majors is an overenrolled LS major.
- Meet all critical-tracking term 5 requirements for all CLAS majors, before submitting the application. If one of the majors is outside CLAS, applicants must get approval from the appropriate college for that major.
- Meet all other CLAS progression standards for all majors and demonstrate potential for success in all majors (successful completion of major and major-related courses without excessive W’s, grades less than C, or multiple repeats).
- Be able to complete the degree in a timely fashion (typically eight fall/spring semesters for students who entered UF as freshmen, eight spring/summer semesters for students who entered UF as Innovation Academy freshmen, and four fall/spring semesters for students who entered UF as transfer students). Additional study is permitted only with approval of a CLAS AAC advisor.
- Have clearly articulated and purposeful reasons for which the triple majors/degrees are appropriate.
- Have not previously been denied admission as a transfer student to any of the CLAS majors.

Students must submit a program plan identifying the courses they intend to complete for all majors, as well as a statement explaining their educational goals. For some majors with potential significant overlap, students may need to complete a certain number of credits exclusive to both majors before the application may be approved. After approval, students must follow the program plan outlined in their application or the approval for the supplemental program of study will be voided.

Students can pursue triple majors/degrees only if approved in advance by the college.

Combination Bachelor’s/Master’s Programs

Combination bachelor’s/master’s programs allow students to complete two degrees more quickly. Outstanding advanced undergraduate students can apply for admission to this program. CLAS offers combination-degree programs in biology, botany, computer science, economics, French and Francophone studies, geography, geology, history, international relations, Latin American studies, linguistics, mathematics, philosophy, physics, political science, Portuguese, Russian, sociology, statistics, women’s studies, and zoology. More Info (p. 1099)
Students on financial aid should check with that office. In general, students on financial aid should retain their undergraduate status as long as possible. The program requires admission to the Graduate School.

Degree Requirements

Student Responsibility

Students are responsible for ensuring that they understand and meet all major and college degree requirements. Any questions about these requirements should be raised with a department advisor (for major requirements) or college advisor (for college requirements).

Students must meet college progression standards each term. They are expected to keep the Office of the University Registrar informed of their accurate address and to read their GatorLink email. Students also are expected to review their holds and degree audit on ONE.UF (https://one.ufl.edu/) each term and to discuss any questions or discrepancies with an advisor.

Graduation under a Particular Catalog

Students are placed into the catalog year for the academic year in which they entered UF unless they request to follow the academic requirements in effect when they initially enrolled in a Florida public college or other Florida state institution. Such a request is possible only if they have maintained continuous enrollment, defined as enrolling for at least one course in one term in each academic year. Students wanting to change catalog years should review a degree audit with an advisor.

Applying for a Degree

Early in the term in which they expect to graduate, students must submit a degree application on ONE.UF (https://one.ufl.edu/). The academic calendar (p. 1142) will provide the deadline for a current-term degree application.

Students should meet with an advisor in the AAC before registering for their final term to review the college graduation requirements that still need to be fulfilled. Students should also meet with an advisor in the major department to verify completion of requirements for the major.

Additionally, seniors who plan to graduate should convert all I, N, and H grades to letter grades no later than the fifth week of their final semester. Seniors are responsible for ensuring that all grade changes are submitted properly and are recorded in a timely fashion.

CLAS Degree Requirements

The college has seven requirements for award of a degree. Students must also meet all requirements for the major.

Credits

All CLAS students must satisfactorily complete a minimum of 120 acceptable credits for the degree. Up to 30 credits earned in a UF overseas study or exchange program may be applied to this requirement. Students may petition to have more credits accepted; however, approval is rarely given.

Grade Point Average

Students must achieve a minimum overall average of 2.0 (C) in all work attempted at the university.

Residence

The last 30 credits applied to the degree must be completed in residence at the University of Florida. In extenuating circumstances, the last three credits may be waived by petition. Participation in a UF-approved study abroad or exchange program is not considered a break in residence. However, students must see an advisor to be sure the degree audit accurately reflects this.

University / State of Florida Requirements

To earn a degree, all students must complete:

• A general education (p. 51) program,
• The writing requirement,
• The summer term enrollment requirement, and
• The Civic Literacy requirement.

Basic Distribution

To ensure that students gain a rich and varied general education, the college requires students to complete basic distribution requirements.

Basic Distribution is comprised of the General Education Program Requirements (p. 51) plus additional credits beyond those requirements (see table below for overall credits required in each Subject Area).

• The same course may NOT be used to satisfy requirements in two different Subject Areas (C, H, S, P, or B).
• Three of the credits must also be designated as diversity studies (D).
• A minimum grade of C is required for all courses fulfilling the general education requirement, the writing requirement, and the basic distribution requirements. The S/U grade option (p. 1138) is not acceptable for these credits.

Summary of CLAS Basic Distribution (Includes Gen Ed Program Requirements)

Elective course selection will depend on goals and interests. Some students may choose to use electives to pursue a minor or a double major/dual degree.

**Foreign Language**

CLAS students must demonstrate proficiency in a foreign language. Foreign language is an important component of a liberal education. Study of foreign languages provides access to the cultural and intellectual heritage of cultures other than one's own. Such study also provides a new perspective on the structure and complexity of the English language.

Proficiency in a foreign language is considered to be the level of skill a student has upon completion of a beginning language sequence at UF. Students do not need to earn a certain number of credits to complete this requirement. It can be met in ONE of the following ways:

- Satisfactory completion (minimum grade of C or S) of the terminal course in a beginning foreign language sequence (normally at the end of 10 credits at UF). Students may take foreign language requirement courses on an S/U basis (S = C or better).
- A score of three or above in an Advanced Placement foreign language exam.
- A score of four to seven on an International Baccalaureate foreign language exam.
- A score of A-E on an AICE foreign language exam (except for the Latin Literature A level exam).
- Certain scores on CLEP foreign language exams give credit for the terminal course in the beginning sequence of a foreign language. Those scores meet the CLAS foreign language requirement. Consult the CLEP course equivalency chart (p. 1109) for more course credit granted.
- A passing score on the Foreign Language Proficiency Exam (FLPE) (https://teachingcenter.ufl.edu/testing/flpe/). Mandarin Chinese and Russian language proficiency testing will be handled by those UF language programs. Students should contact the Chinese or Russian programs for information on assessing proficiency.

Students who are proficient in languages not available through FLPE should speak with a general advisor in the Academic Advising Center (https://www.advising.ufl.edu/).

Students in this college can study the following languages: Akan, American Sign Language, Amharic, Ancient Greek, Arabic, Catalan, Chinese, Czech, Dutch, French, German, Haitian Creole, Hebrew, Hungarian, Italian, Japanese, Korean, Lingala, Modern Greek, Polish, Portuguese, Russian, Sanskrit, Spanish, Swahili, Turkish, Vietnamese, Wolof, Yoruba, and Xhosa.

**Placement in Foreign Language**

Students who have studied a language in high school and wish to continue that language should refer to the placement page or consult the department for placement information. More Info (p. 1117)

Graduating with Honors (p. 1087)

**Programs**

**MAJORS**

A major consists of a concentration of coursework in a specific department or program. The number of credits required for a major will vary from department to department, but in no case may the number of credits be fewer than 24 nor more than 40.

Students must earn minimum grades of C in all courses required for the major. Requirements for a major cannot be taken S-U (unless that is the only grading option). All transfer credit in the major must be approved by the department.

Explore all of the college’s majors and related career paths (http://www.clas.ufl.edu/majors/).

MINORS

The minor provides a traditional, well-accepted way to recognize that a student has completed a significant body of work outside the major. A minor shall consist of no fewer than 15 semester credits of coursework, earned with minimum grades of C. At least three courses (none can be individual work) of no fewer than three credits each must be at the 3000 level or above. Of the total credits, no more than three may be individual work. Students should consult an advisor in the appropriate department for the requirements for each minor.

A minor may not inherently overlap with the student’s major (e.g., a history major may not declare a history minor, even if the student takes additional history credits beyond what is required for the major). In addition, students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the student’s major(s) or other minor(s).

View the AAC website (https://www.advising.ufl.edu/academicinfo/minors/) for information on eligibility, considering a minor and how to apply for a minor. The site also provides a list of majors/minor combinations that will not be approved due to overlap. This list is not all-inclusive; for each minor application an AAC advisor will review whether your intended major/minor combination is acceptable.
• Women’s Studies Minor
• Zoology Minor

CERTIFICATES
Each certificate program must have at least nine credits that are exclusive to the certificate and may not count toward any other certificate or minor. All courses required must be completed with minimum grades of C or S in each course.

• East-Central European Studies Certificate
• Ethics and Society Certificate
• European Jewish Studies Certificate

Department Information
The mission of the Department of Statistics is to provide its students with a fundamental understanding of statistical reasoning and methodology, to train them to apply this knowledge to the collection and analysis of data, and to prepare them for careers in a highly technological society in which science and decision-making are increasingly driven by a rapid expansion in the quantity and availability of data.

Total Credits 25
African Languages

Foreign Languages and Literatures

The specialization in African Languages enables students to develop the critical, analytical, and interpretive tools essential for successfully working and living in today’s increasingly globalizing world. It focuses on a selected group of languages that function as languages of wider communication (lingua franca) in their sub-Saharan African regions. Through study of these languages students not only gain communicative proficiency in the language(s) of their choice, but also an understanding of the diverse literary and cultural traditions that make Africa such a unique and complex continent today.

About this Program

- **College:** Liberal Arts and Sciences (p. 646)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world. [Website](https://languages.ufl.edu/)

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

Foreign Languages and Literatures Options (p. 786)

The African languages specialization of the Foreign Languages and Literatures major offers students the opportunity to gain proficiency in any of the following languages:

- Akan/Twi (Ghana – West Africa)
- Amharic (Ethiopia - the Horn of Africa)
- Swahili (eastern and central Africa)
- Wolof (Senegal and the Gambia – West Africa)
- Yoruba (Nigeria and Benin – West Africa and the Diaspora)
- Zulu (South Africa)

The specialization in African languages offers a unique opportunity when it comes to seeking employment in multi-national corporations or research undertakings based on the African continent. It also prepares students for the rigors of graduate studies in the humanities and for fields such as comparative literature, religious/diaspora studies, African cinema, developmental practices, humanitarian services, language learning businesses, translations & interpretation for United Nations organizations and other international agencies, to mention just a few.

Our faculty brings together scholars with diverse research interests, ranging from African oral literature through post-colonial African women writers, from language documentation to languages of urban Africa as well as contemporary African film, pop-culture, and media. These nationally and internationally recognized researchers are also dedicated and innovative teachers who draw on their own scholarship to offer a variety of courses in literature, cinema, linguistics, and language.

Coursework for the Major

The African languages specialization in Foreign Languages and Literatures consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

**Critical Concentration**

Select nine credits from one area: 9

1. Intensive Area Studies: African
2. Comparative Cultural Studies
3. Film and Visual Culture
4. Literary Studies
5. Medieval and Early Modern Studies

**Total Credits**: 55

1. Although courses may appear in more than one group they may be counted toward only one group.
2. Recommended for those planning to pursue careers requiring advanced level skills in African languages or graduate work in African studies.

**Overseas Study**

Students should speak with the Undergraduate Coordinator to discuss overseas study options in Africa.

**Placement**

In all languages, students with either a native background in the language or prior study in that language, might be eligible to place out of the preparatory language courses and should meet with the undergraduate coordinator to arrange for placement assessment.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160501&track=01) may be used for transfer students.

**Semester 1**

- 2.0 UF GPA required

**Semester 2**

- 2.0 UF GPA required
Semester 3
- Complete Beginning African Language 1 or higher-level African Language course with a minimum grade of C
- 2.0 UF GPA required

Semester 4
- Complete Beginning African Language 2 or higher-level African Language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

SEMINSTER 6
- Complete 2221 Intermediate African Language 2 with a minimum grade of C
- Complete 2 Advanced Elective courses
- 2.0 UF GPA required

SEMINSTER 7
- Complete 3410 Advanced African Language 1 with a minimum grade of C
- Complete 2 Advanced Elective courses
- Complete 1 Critical Concentration course
- 2.0 UF GPA required

SEMINSTER 8
- Complete 3411 Advanced African Language 2 with a minimum grade of C
- Complete 2 Critical Concentration courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). 3000 level or above critical concentration courses outside of African Languages may count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

**Academic Learning Compact**

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

**Before Graduating Students Must**

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
• Complete requirements for the baccalaureate degree, as determined by faculty.
• Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

**Critical Thinking**
2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

**Communication**
3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

**Curriculum Map**

</table>

1 Courses focus on the acquisition of the language(s) of specialization at the advanced level.
2 Courses address literary, cultural, cinematic, historical, and/or social questions.

**Assessment Types**
• Proficiency exams
• Term papers or final projects
• Oral presentations

**Center Information**
As a National Resource Center for African Studies, the mission of the center is to promote excellence in teaching and research on Africa in all the disciplines at the University of Florida. The Center for African Studies also disseminates knowledge about Africa to the wider community through an integrated outreach program to schools, colleges, community groups, and businesses.

**Curriculum**
• African Studies Minor

**Related Programs**
• African Languages
• International Studies

**Choose to complete a general concentration or select a track:**
• Track One: Languages and Linguistics
• Track Two: Arts and Literatures
• Track Three: Culture, History, and Politics
• Track Four: Environment, Resources, and Development

The Center for African Studies offers semester and academic-year programs at the University of Dar es Salaam (Tanzania) and Makerere University (Uganda), as well as various summer programs.

The list of approved Africa-related electives can be found on the Center for African Studies website.

More Info ([https://africa.ufl.edu/](https://africa.ufl.edu/))

**Requirements | General Concentration**

• Students seeking to apply UF study abroad credit toward the minor must complete one three-credit minor course in residence at UF.
• Transfer students must complete at least two three-credit minor courses in residence at UF.
• No more than three credits of 4905 coursework (Individual Work) can be used toward the minor and none of the credits can apply to the 3000-level or above elective requirement.
• Students must complete a minimum of six credits exclusive to the minor that cannot count toward the major(s) or other minors.

**African Studies Minor**
The African Studies minor provides a solid foundation for careers in teaching, research, and other professional work for which knowledge of Africa is essential. The faculty is composed of more than 100 members campus-wide who teach courses with African content.

**About this Program**
• **College:** Liberal Arts and Sciences (p. 646)
• **Credits:** 15 | Completed with minimum grades of C
• **Contact:** 427 Grinter Hall ([http://campusmap.ufl.edu/?loc=0002](http://campusmap.ufl.edu/?loc=0002)) | 352.392.2183
• **More Info**
African-American Studies

The primary emphasis of the African-American Studies program is to educate students about the theories and methodologies pertaining to the study of African-Americans. Students will be able to compare and contrast the experiences of people of African descent in the U.S. to those in the wider African Diaspora. They will also learn through participation in community-service activities.

About this Program

- **College:** Liberal Arts and Sciences (p. 646)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The African American Studies program is one of the fastest growing majors at UF. The degree program provides students with a variety of innovative courses by applying creative cultural methods of teaching while examining the African American experience.

Curriculum

- African-American Studies
- African-American Studies Minor

This interdisciplinary major provides students with vital writing, research, and communication skills. The curriculum emphasizes anthropology, mass communications, education, English, history, linguistics, political science, psychology, religion, and sociology. The program also includes courses that emphasize US-Canadian, US-Caribbean, and US-African relations and assists students in finding internships for college credit and in applying for study abroad programs.

After obtaining a degree in African-American studies, students can seek careers as archivists, attorneys, civil rights professionals, community organizers, government employees, librarians, public policy professionals, professors, teachers, and researchers. Graduates will also be prepared to enter graduate programs in African-American studies and other liberal arts fields, professional degree programs, and teacher-training programs.

Coursework for the Major

The major requires 30 credits of coursework in African-American studies core and elective courses. All coursework must be completed with minimum grades of C. A minimum of 15 credits of coursework in the major must be completed at UF. Core and elective courses are often cross-listed with other departments, enabling students to examine the African-American experience from a variety of disciplines.

Total Credits 30

The same course may not be used to meet two different requirements.

Overseas Study

The African-American Studies Program currently sponsors one study abroad course. This is a two-credit African Americans in Paris course that is offered during the spring semester, and includes the study of the African-American cultural, historical and political experience in Paris, France. Students travel to Paris during spring break.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

To graduate with this major, students must complete all university, college and major requirements. For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 646).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites [http://www.flvc.org/cpp/](http://www.flvc.org/cpp/)
displayRecord.jsp?cip=050201&track=01) may be used for transfer students.

**Semester 1**
- 2.0 UF GPA required

**Semester 2**
- Complete AFA 2000
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 3**
- Complete AFA 3110
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 4**
- Complete AFA-prefix course at 3000 level or above
- Complete AFA-prefix course or AFA-approved course.
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 5**
- Complete AFA-prefix or AFA-approved course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 6**
- Complete AFA-prefix course at 3000 level or above
- Complete AFA-prefix course or AFA-approved course.
- Complete applied, experiential, or research methods course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 7**
- Complete AFA-prefix course or AFA-approved course
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 8**
- Complete AFA 4936
- 2.0 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.*

Academic Learning Compact

The African-American Studies program's mission closely resembles that of the university, emphasizing exceptional teaching, outstanding scholarly research and service to the campus and the larger Gainesville community. The primary emphasis is to educate students about the theories and methodologies pertaining to the study of African-Americans. Students will be able to compare and contrast the experiences of people of African descent in the U.S. to those in the wider African Diaspora. They also will learn through participation in community-service activities. Program graduates will develop the academic, scholarly and experiential skills needed to succeed at the next level of study in the field, for they will be well-trained in critical thinking, analysis and effective communication.

Before Graduating Students Must

- Satisfactory evaluation of paper written for the African-American Studies approved topic, graded according to department rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify, describe and explain the theories in African American Studies and the African Diaspora.

Critical Thinking

2. Examine social issues of concern to African Americans.

Communication

3. Effectively articulate ideas in speech and in writing.

African-American Studies Minor

This minor explores the applied roots of African-American studies with investigation of a range of perspectives in the African diaspora.

About this Program

- **College:** Liberal Arts and Sciences (p. 646)
- **Credits:** 15 | Completed with minimum grades of C and no optional S/U

Department Information

The African American Studies program is one of the fastest growing majors at UF. The degree program provides students with a variety of innovative courses by applying creative cultural methods of teaching while examining the African American experience. Website (https://afam.clas.ufl.edu/)
## American Indian and Indigenous Studies Minor

The American Indian and Indigenous Studies minor focuses on North, Central, and South America with additional interdisciplinary focus in anthropology, art history, history, literature, and religion.

### About this Program
- **College:** Liberal Arts and Sciences (p. 646)
- **Credits:** 18 | Completed with minimum grades of C and no optional S/U

### Related Programs
- American Indian and Indigenous Studies | IDS

Students must take 18 credits for the minor. Two required courses, for a total of six credits and four elective courses, or twelve credits. The two required courses are exclusive to the minor and cannot count toward the major(s) or other minors. Three of the elective courses must be taken at the University of Florida.

The election of a minor is noted on a student's transcript, but it is not reflected on the diploma. Students should consult the catalog for important undergraduate information and description of AII S courses.

## Anthropology

Anthropology is the study of people in their cultural context and the examination of all aspects of patterned social behavior. The discipline is worldwide in scope and encompasses all aspects of human, biological, and social life from earliest times to the present. It is a broad, holistic
field that seeks to understand human adaptation to natural and social environments.

**About this Program**

- **College:** Liberal Arts and Sciences (p. 646)
- **Degrees:** Bachelor of Arts (p. 669) | Bachelor of Science (p. 672)
- **Credits for Degree:** 120
- **More Info**

  To graduate with this major, students must complete all university, college, and major requirements.

**Department Information**

Anthropology lies at the intersection of the multiple approaches to the study of humankind that characterize other disciplines – biological, social, cultural, historical, linguistic, cognitive, material, technological and aesthetic – because of its unique holistic perspective. These multiple approaches are encapsulated in the four traditional subfields that have composed the discipline since its establishment in the 19th century: cultural (http://sites.clas.ufl.edu/anthropology/department-subfields/cultural-anthropology/), archaeological (http://sites.clas.ufl.edu/anthropology/department-subfields/archaeology/), biological (http://sites.clas.ufl.edu/anthropology/department-subfields/biological-anthropology/) and linguistic (http://sites.clas.ufl.edu/anthropology/department-subfields/linguistic-anthropology/) anthropology.

**Curriculum**

- American Indian and Indigenous Studies | IDS
- Anthropology
- Anthropology Minor
- Anthropology Minor UF Online
- Anthropology UF Online
- Medical Anthropology Certificate

Anthropology includes four subfields: cultural anthropology, archaeology, biological anthropology, and linguistics. Undergraduates may concentrate their studies in one of these four subfields or pursue a focus in an interdisciplinary track with another major or minor. The anthropology major has two different programs: the Bachelor of Arts and the Bachelor of Science. Coursework for the major will depend upon the program, both of which are flexible. Both degrees are earned in anthropology rather than in any one subfield.

Students who are uncertain of a program should contact the Department of Anthropology’s undergraduate coordinator for information and curriculum planning.

**B.A. in Anthropology**

Provides a broad-based liberal arts education and prepares students to work in an increasingly complex world. B.A. majors learn about different groups of people, their prehistory, and their biological and cultural diversity through disciplines that combine social science, natural science, and the humanities. Many undergraduate anthropology majors go on to graduate school in the social sciences, while others use anthropology to prepare themselves for professional careers in other disciplines. In a world of increasing globalization and need for effective international relations and understanding, anthropology is a highly relevant liberal arts and sciences major for students interested in pursuing careers in business, education, government, health, and law.

**B.S. in Anthropology**

Provides a degree option that blends their interest in basic science with the holistic lens of anthropology. B.S. majors engage in anthropology through coursework, lab and field-based research, and outreach. A grounding in scientific-based research, community initiatives, and multicultural skillsets enables our students to address pressing needs in both local and global contexts. For example, students often participate in independent and collaborative initiatives on and off campus and receive pre-graduate training in life sciences, health-related disciplines, natural history, and/or archaeological science fields. A B.S. in anthropology will encourage students to develop STEM-based skill sets and enhance scientific inquiry to address salient anthropological issues. This degree inevitably draws upon multidisciplinary fields including anatomy, biology, chemistry, ecology, engineering, genetics, geology, physics, mathematics, statistics, zoology, and botany.

**Coursework for the Major**

Both the B.A. and the B.S. require a minimum of 34 semester credits in anthropology and all coursework must be completed with minimum grades of C. A minimum of 18 credits of anthropology coursework must be completed at UF.

For the BS degree, all required anthropology, and required related coursework must be completed with a minimum GPA of 2.5.

**Overseas Studies**

Students concentrating in any subfield, particularly cultural anthropology and/or archaeology, are also encouraged to complete either an ethnographic study abroad program or an archaeological field school before their senior year.

**Relevant Minors and/or Certificates**

The department encourages students pursuing the B.A. to choose a minor or an interdisciplinary certificate option in African studies, Asian studies, environmental studies, Jewish studies, Latin American studies, linguistics or women’s studies. Relevant courses in anthropology may be used to fulfill some requirements.

**Academic Learning Compact**

Students will develop critical thinking, problem solving and communication skills in the social sciences and in studies of natural history pertaining to human and non-human primates. Through study of human biological and cultural history and diversity, students will learn holistic, comparative and relative perspectives of anthropology, both scientific and humanistic. Emphasis is on critical thinking skills in the evaluation of alternative knowledge claims. Students will learn to identify western cultural biases, to integrate diverse sources of information into holistic perspectives and to apply anthropological knowledge and perspectives to solve problems of broad human relevance in contemporary contexts.
Before Graduating Students Must

• Achieve satisfactory evaluation of a term paper written for an upper-division course or senior honors thesis.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe, explain and apply factual, conceptual and procedural knowledge in the four subfields of anthropology (cultural anthropology, archaeology, biological anthropology, linguistics).

Critical Thinking
2. Apply scientific and humanistic approaches to investigate human variation in its biological, social, and cultural dimensions, and identify and evaluate disparate knowledge claims culturally and historically.

Communication
3. Articulate anthropological knowledge professionally in written and verbal form.

¹ There are no prerequisites for 2000-level courses. Students in the honors program may take honors sections of any offered anthropology class. Any student at the sophomore level and above with the appropriate prerequisites or permission of the instructor may enroll in cross-listed graduate-level courses. Students are encouraged to take courses that address theory and method in the discipline, in addition to survey courses and area studies.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450201&track=01) may be used for transfer students.

Semester 1

• 2.0 UF GPA required
### Semester Two
- Complete 1 anthropology course
- 2.0 UF GPA required

### Semester Three
- Complete 1 additional anthropology course or STA 2023
- 2.0 UF GPA required

### Semester Four
- Complete 1 additional anthropology course
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester Five
- Complete 2 additional anthropology courses
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

### Semester Six
- Complete 2 additional anthropology courses
- 2.0 UF GPA required

### Semester Seven
- Complete 2 additional anthropology courses
- 2.0 UF GPA required

### Semester Eight
- Complete ANT 4931
- Complete 1 additional anthropology course
- 2.0 UF GPA required

---

#### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

1 Or elective if ANT 2000 taken as State Core Gen Ed Social and Behavioral Sciences.
Academic Learning Compact

Students will develop critical thinking, problem solving and communication skills in the social sciences and in studies of natural history pertaining to human and non-human primates. Through study of human biological and cultural history and diversity, students will learn holistic, comparative and relative perspectives of anthropology, both scientific and humanistic. Emphasis is on critical thinking skills in the evaluation of alternative knowledge claims. Students will learn to identify western cultural biases, to integrate diverse sources of information into holistic perspectives and to apply anthropological knowledge and perspectives to solve problems of broad human relevance in contemporary contexts.

Before Graduating Students Must

- Achieve satisfactory evaluation of a term paper written for an upper-division course or senior honors thesis.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe, explain and apply factual, conceptual and procedural knowledge in the four subfields of anthropology (cultural anthropology, archaeology, biological anthropology, linguistics).

Critical Thinking
2. Apply scientific and humanistic approaches to investigate human variation in its biological, social, and cultural dimensions, and identify and evaluate disparate knowledge claims culturally and historically.

Communication
3. Articulate anthropological knowledge professionally in written and verbal form.

Assessment Types

- Exams

Bachelor of Science

Anthropology is the study of people in their cultural context and the examination of all aspects of patterned social behavior. The discipline is worldwide in scope and encompasses all aspects of human, biological, and social life from earliest times to the present. It is a broad, holistic field that seeks to understand human adaptation to natural and social environments.

About this Program

- **College**: Liberal Arts and Sciences (p. 646)
- **Degrees**: Bachelor of Arts (p. 669) | Bachelor of Science (p. 672)
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Anthropology lies at the intersection of the multiple approaches to the study of humankind that characterize other disciplines – biological, social, cultural, historical, linguistic, cognitive, material, technological and aesthetic – because of its unique holistic perspective. These multiple approaches are encapsulated in the four traditional subfields that have composed the discipline since its establishment in the 19th century: cultural (http://sites.clas.ufl.edu/anthropology/department-subfields/cultural-anthropology/), archaeological (http://sites.clas.ufl.edu/anthropology/department-subfields/archaeology/), biological (http://sites.clas.ufl.edu/anthropology/department-subfields/biological-anthropology/) and linguistic (http://sites.clas.ufl.edu/anthropology/department-subfields/linguistic-anthropology/) anthropology.

Website (https://anthro.ufl.edu/)
The B.S. in anthropology provides students with a degree option that blends their interest in basic science with the holistic lens of anthropology. B.S. majors engage in anthropology through coursework, lab and field-based research, and outreach. A grounding in scientific-based research, community initiatives, and multicultural skillsets enables our students to address pressing needs in both local and global contexts. For example, students often participate in independent and collaborative initiatives on and off campus and receive pre-graduate training in life sciences, health-related disciplines, natural history, and/or archaeological science fields. A B.S. in anthropology will encourage students to develop STEM-based skill sets and enhance scientific inquiry to address salient anthropological issues. This degree inevitably draws upon multidisciplinary fields including anatomy, biology, chemistry, ecology, engineering, genetics, geology, physics, mathematics, statistics, zoology, and botany.

Anthropology includes four subfields: cultural anthropology, archaeology, biological anthropology, and linguistics. Undergraduates may concentrate their studies in one of these four subfields or pursue a focus in an interdisciplinary track with another major or minor. The anthropology major has two different programs: the Bachelor of Arts and the Bachelor of Science. Coursework for the major will depend upon the program, both of which are flexible. Both degrees are earned in anthropology rather than in any one subfield.

Students who are uncertain of a program should contact the Department of Anthropology's undergraduate coordinator for information and curriculum planning.

**B.A. in Anthropology**

Provides a broad-based liberal arts education and prepares students to work in an increasingly complex world. B.A. majors learn about different groups of people, their prehistory, and their biological and cultural diversity through disciplines that combine social science, natural science, and the humanities. Many undergraduate anthropology majors go on to graduate school in the social sciences, while others use anthropology to prepare themselves for professional careers in other disciplines. In a world of increasing globalization and need for effective international relations and understanding, anthropology is a highly relevant liberal arts and sciences major for students interested in pursuing careers in business, education, government, health, and law.

**B.S. in Anthropology**

Provides a degree option that blends their interest in basic science with the holistic lens of anthropology. B.S. majors engage in anthropology through coursework, lab and field-based research, and outreach. A grounding in scientific-based research, community initiatives, and multicultural skillsets enables our students to address pressing needs in both local and global contexts. For example, students often participate in independent and collaborative initiatives on and off campus and receive pre-graduate training in life sciences, health-related disciplines, natural history, and/or archaeological science fields. A B.S. in anthropology will encourage students to develop STEM-based skill sets and enhance scientific inquiry to address salient anthropological issues. This degree inevitably draws upon multidisciplinary fields including anatomy, biology, chemistry, ecology, engineering, genetics, geology, physics, mathematics, statistics, zoology, and botany.

**Coursework for the Major**

Both the B.A. and the B.S. require a minimum of 34 semester credits in anthropology and all coursework must be completed with minimum grades of C. A minimum of 18 credits of anthropology coursework must be completed at UF.

For the BS degree, all required anthropology, and required related coursework must be completed with a minimum GPA of 2.5.

**Overseas Studies**

Students concentrating in any subfield, particularly cultural anthropology and/or archaeology, are also encouraged to complete either an ethnographic study abroad program or an archaeological field school before their senior year.

**Relevant Minors and/or Certificates**

The department encourages students pursuing the B.A. to choose a minor or an interdisciplinary certificate option in African studies, Asian studies, environmental studies, Jewish studies, Latin American studies, linguistics or women's studies. Relevant courses in anthropology may be used to fulfill some requirements.

**Required Coursework for the B.S.**

Complete with a minimum 2.5 GPA.

**Total Credits**: 62-69

---

1. Students should consult with the Undergraduate Coordinator.
2. Complete with a minimum 2.5 GPA.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450201&track=01) may be used for transfer students.

**Semester 1**

- 2.5 UF GPA required

**Semester 2**

- Complete 1 anthropology course and 1 related foundation course
- 2.5 UF GPA required

**Semester 3**

- Complete 1 additional anthropology course or STA 2023, and 1 additional related foundation course
- 2.5 UF GPA required

**Semester 4**

- Complete 1 additional anthropology course and 1 additional related foundation course
- 2.5 GPA required for all critical-tracking courses
- 2.5 UF GPA required

**Semester 5**

- Complete 2 additional anthropology courses and 1 related foundation course
- 2.5 GPA required for all critical-tracking courses
- 2.5 UF GPA required

**Semester 6**

- Complete 2 additional anthropology courses
- Complete related science core course
- 2.5 UF GPA required

**Semester 7**

- Complete 2 additional anthropology courses
- Complete related science core course
- 2.5 UF GPA required

**Semester 8**

- Complete ANT 4931
- Complete 1 additional anthropology course
- 2.5 UF GPA required
Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-I) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). PHY 2049, PHY 2049L, PHY 2054, PHY 2054L, STA 3024, and 3000 level or above related science core coursework outside of the Anthropology department may count towards the 3000 level or above electives outside of the major if taken.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

1 One of three required foundation coursework sequences (BSC 2010, BSC 2010L and BSC 2011, BSC 2011L; CHM 2045, CHM 2045L and CHM 2046, CHM 2046L; and MAC 2311 or STA 3024) can be substituted with either Physics 1 and 2 and Laboratories (PHY 2053, PHY 2053L and PHY 2054 and PHY 2054L) or Physics with Calculus 1 and 2 and Laboratories (PHY 2048, PHY 2048L and PHY 2049, PHY 2049L).

2 General Education option taken this term must be a Quest 2 course, if not taken in Semester Three.

Academic Learning Compact

Students will develop critical thinking, problem solving and communication skills in the social sciences and in studies of natural history pertaining to human and non-human primates. Through study of human biological and cultural history and diversity, students will learn holistic, comparative and relative perspectives of anthropology, both scientific and humanistic. Emphasis is on critical thinking skills in the evaluation of alternative knowledge claims. Students will learn to identify western cultural biases, to integrate diverse sources of information into holistic perspectives and to apply anthropological knowledge and perspectives to solve problems of broad human relevance in contemporary contexts.

Before Graduating Students Must

- Achieve satisfactory evaluation of a term paper written for an upper-division course or senior honors thesis.
• Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to Student Learning Outcomes (SLOs)**

**Content**
1. Identify, describe, explain and apply factual, conceptual and procedural knowledge in the four subfields of anthropology (cultural anthropology, archaeology, biological anthropology, linguistics).

**Critical Thinking**
2. Apply scientific and humanistic approaches to investigate human variation in its biological, social, and cultural dimensions, and identify and evaluate disparate knowledge claims culturally and historically.

**Communication**
3. Articulate anthropological knowledge professionally in written and verbal form.

**Anthropology UF Online**

Anthropology is the study of people in their cultural context and the examination of all aspects of patterned social behavior. The discipline is
worldwide in scope and encompasses all aspects of human, biological, and social life from earliest times to the present. It is a broad, holistic field that seeks to understand human adaptation to natural and social environments.

**Curriculum**

- American Indian and Indigenous Studies | IDS
- Anthropology
- Anthropology Minor
- Anthropology Minor UF Online
- Anthropology UF Online
- Medical Anthropology Certificate

Anthropology includes four subfields: cultural anthropology, archaeology, biological anthropology, and linguistics. Undergraduates may concentrate their studies in one of these four subfields or pursue a focus in an interdisciplinary track with another major or minor. A Bachelor of Arts is earned in anthropology rather than in any one subfield.

A BA in anthropology provides students with a broad-based liberal arts education and prepares students to work in an increasingly complex world. Anthropology BA students learn about different groups of people, their prehistory, and their biological and cultural diversity through disciplines that combine social science, natural science, and the humanities. Many undergraduate anthropology majors go on to graduate school in the social sciences, while others use anthropology to prepare themselves for professional careers in other disciplines. In a world of increasing globalization and need for effective international relations and understanding, anthropology is a highly relevant liberal arts and sciences major for students interested in pursuing careers in business, education, government, health, and law.

**Coursework for the Major**

The major requires a minimum of 34 semester credits in anthropology and 3 credits of statistics. All coursework must be completed with minimum grades of C. A minimum of 18 credits of anthropology coursework must be completed at UF.

**Required Coursework**

- 4000 level: 6 credits
- Any level: 3 credits

**Related Coursework**

STA 2023 | Introduction to Statistics 1 | 3 |

**Total Credits**

37

There are no prerequisites for 2000-level courses. Students in the honors program may take honors sections of any offered anthropology class. Any student at the sophomore level and above with the appropriate prerequisites or permission of the instructor may enroll in cross-listed graduate-level courses. Students are encouraged to take courses that address theory and method in the discipline, in addition to survey courses and area studies.

**Overseas Studies**

Students concentrating in any subfield, particularly cultural anthropology and/or archaeology, are also encouraged to complete either an ethnographic study abroad program or an archaeological field school before their senior year.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

**For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450201&track=01) may be used for transfer students.

**Semester 1**

- 2.0 UF GPA required

**Semester 2**

- Complete 1 anthropology course
- 2.0 UF GPA required
Semester 3
• Complete 1 additional anthropology course or STA 2023
• 2.0 UF GPA required

Semester 4
• Complete 1 additional anthropology course
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 5
• Complete 2 additional anthropology courses
• 2.5 GPA required for all critical-tracking courses
• 2.0 UF GPA required

Semester 6
• Complete 2 additional anthropology courses
• 2.0 UF GPA required

Semester 7
• Complete 2 additional anthropology courses
• 2.0 UF GPA required

Semester 8
• Complete AN 4931
• Complete 1 additional anthropology course
• 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact
Students will develop critical thinking, problem solving and communication skills in the social sciences and in studies of natural
history pertaining to human and non-human primates. Through study of human biological and cultural history and diversity, students will learn holistic, comparative and relative perspectives of anthropology, both scientific and humanistic. Emphasis is on critical thinking skills in the evaluation of alternative knowledge claims. Students will identify western cultural biases, to integrate diverse sources of information into holistic perspectives and to apply anthropological knowledge and perspectives to solve problems of broad human relevance in contemporary contexts.

Before Graduating Students Must
- Achieve satisfactory evaluation of a term paper written for an upper-division course or senior honors thesis.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe, explain and apply factual, conceptual and procedural knowledge in the four subfields of anthropology (cultural anthropology, archaeology, biological anthropology, linguistics).

Critical Thinking
2. Apply scientific and humanistic approaches to investigate human variation in its biological, social, and cultural dimensions, and identify and evaluate disparate knowledge claims culturally and historically.

Communication
3. Articulate anthropological knowledge professionally in written and verbal form.

Arabic

Foreign Languages and Literatures

The Arabic language is the key to understanding the culture and history of North Africa, the Middle East, and the Arabian Peninsula. Arabic is also the liturgical language of more than a billion Muslims, and it is one of the six official languages of the United Nations. The Arabic specialization of the Foreign Languages and Literatures major enables students to develop an appreciation for the complexity of the many facets of the Arab world: its society, culture, history, arts, religions, and literary heritage.

About this Program
- College: Liberal Arts and Sciences (p. 646)
- Degree: Bachelor of Arts
- Credits for Degree: 120
- More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

The Arabic specialization of the Foreign Languages and Literatures major provides students with a solid background in the linguistic, literary, and cultural aspects of the Arab World, including North Africa, the Arab Middle East and the Arabian Peninsula. The major gives students a foundation in the Arabic language, including speaking, reading, writing, and listening, as well as the opportunity to advance their knowledge of Arab cultures. It prepares students for graduate school and is ideal for students considering careers in government and diplomacy, academia, business, and international development. Many students choose to double major in the Arabic specialization of the Foreign Languages and Literatures major and another subject in social sciences, humanities, business, or journalism.

Coursework for the Major
The Arabic specialization of the Foreign Languages and Literatures major consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

Total Credits 51

1 Although courses may appear in more than one group they may be counted toward only one group.
2 Recommended for those planning to pursue careers requiring advanced level skills in Arabic or graduate work in Arabic studies.

Overseas Study
Students of the Arabic specialization of the Foreign Languages and Literatures major are encouraged to study abroad for a summer or a semester. Students may choose the nine-week summer UF-sponsored program in the Arabic Language Institute in Fez (ALIF) in Morocco. The program offers students the opportunity to earn 11 credit hours (only 6 may be transferred as part of the Required Foundation Coursework).

More info (https://ufabroad.internationalcenter.ufl.edu/?FuseAction=Programs.ViewProgramAngular&id=10041)

Students may also choose another UF-approved study-abroad program in Morocco or another Arab country (e.g., in Jordan, Qatar).

Placement
In all languages, students with either a native background in the language or prior study in that language might be eligible to place out of the preparatory language courses and should meet with the undergraduate coordinator to arrange for placement assessment.
Research

Students with an upper-division GPA of 3.5 are encouraged to write a thesis for high or highest honors at graduation.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (https://dlss.flvc.org/pbhs/cqkjp36deG03JcO5t3/actionHandler.jsp/doc.pdf) may be used for transfer students.

SEMESTER 1

• 2.0 UF GPA required

SEMESTER 2

• 2.0 UF GPA required

SEMESTER 3

• Complete ARA 1130 or higher-level Arabic Language course with a minimum grade of C and a 2.5 critical-tracking GPA

• 2.0 UF GPA required

SEMESTER 4

• Complete ARA 1131 or higher-level Arabic Language course with a minimum grade of C and a 2.5 critical-tracking GPA

• 2.0 UF GPA required

SEMESTER 5

• Complete ARA 2220 or a higher-level Arabic Language course with a minimum grade of C and a 2.5 critical-tracking GPA

• 2.0 UF GPA required

Semester 6

• Complete ARA 2221 or a higher-level Arabic language course

• Complete 2 Advanced Electives

• 2.0 UF GPA required

Semester 7

• Complete ARA 3410

• Complete 1 Advanced Elective

• Complete 1 Critical Concentration course

• 2.0 UF GPA required

Semester 8

• Complete ARA 3411

• Completed ARA 4420

• Complete 2 Advanced Electives

• Complete 2 Critical Concentration courses

• 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). 3000 level or above critical concentration courses outside of Arabic may count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

**Academic Learning Compact**

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

**Before Graduating Students Must**

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

**Students in the Major Will Learn to Student Learning Outcomes (SLOs)**

**Content**

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

**Critical Thinking**

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

**Communication**

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.

4. Display oral and written proficiency in language(s) of specialization.

**Curriculum Map**

\[ I = Introduced; \ R = Reinforced; \ A = Assessed \]

Courses focus on the acquisition of the language(s) of specialization at the advanced level. Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types
- Proficiency exams
- Term papers or final projects
- Oral presentations

Arabic Language and Literature Minor

The Arabic language is the key to understanding the culture and history of North Africa, the Middle East, and the Arabian Peninsula. Arabic is also the liturgical language of more than a billion Muslims, and it is one of the six official languages of the United Nations.

About this Program
- **College**: Liberal Arts and Sciences (p. 646)
- **Credits**: 15-17 | Completed with minimum grades of C and no optional S/U

Department Information
Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

An intensive summer program in Fez, Morocco, is available for students at all levels.

No more than three credits of 4905 (Individual Work) coursework may be applied to the minor. Students must complete a minimum of six credits of coursework at the 3000/4000 level exclusive to the minor that cannot count toward the major(s) or other minors.

This minor requires the completion of 10 credit hours of prerequisite coursework: ARA 1130 and ARA 1131.

1 This minor requires the completion of 10 credit hours of prerequisite coursework: ARA 1130 and ARA 1131. ARA 1130 and ARA 1131 satisfy the CLAS Foreign Language requirement. Students with either a native background or prior study in Arabic might be eligible to place out of one or both courses and should meet with the undergraduate coordinator to arrange for placement assessment.

Asian Studies Minor

The Asian Studies minor provides multidisciplinary expertise and practical experience in Asia-related affairs through coursework and study abroad opportunities.

About this Program
- **College**: Liberal Arts and Sciences (p. 646)
- **Credits**: 15-22, depending on option | Completed with minimum grades of C

Related Programs
- International Studies

The minor provides two options of study. Language credits earned at other institutions may be accepted.

Students pursuing the major in Foreign Languages and Literatures, Chinese specialization; or Foreign Languages and Literatures, Japanese specialization; or Foreign Languages and Literatures, Dual Language specialization in which one of the languages is Chinese, Japanese, Korean, or Vietnamese, are not eligible to receive the minor in Asian studies.

Of the total credits, no more than three may be individual study (CHI 4905/JPN 4905). Students must complete a minimum of six credits
Asian-American Studies Minor

The Asian-American Studies minor examines the diverse experience of Asian-Americans and Pacific Islanders in the U.S., including their literatures, cultures, religions, histories, racial and gender identities, political participations, and their relationships to their homelands and other Asian diasporas.

About this Program

Astronomy and Astrophysics

Curious about what’s out there? Students who are comfortable with mathematics and physics and who want to understand the nature of the Solar System and other planetary systems, stars, galaxies and/or the universe are encouraged to pursue a B.A. in Astronomy or a B.S. in Astrophysics.

About this Program
- **College:** Liberal Arts and Sciences (p. 646)
- **Degrees:** Bachelor of Arts in Astronomy (p. 688) | Bachelor of Science in Astrophysics (p. 691)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Astronomy is home to a vibrant community actively engaged in research, education, and outreach. The department’s faculty are involved in a wide range of research programs (https://www.astro.ufl.edu/research/) using world-class resources including an in-house design-through-fabrication instrumentation program (https://
Recommended Coursework for Graduate Study

Students should talk with the undergraduate coordinator and plan to take:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHY 4604</td>
<td>Introductory Quantum Mechanics 1</td>
<td>3</td>
</tr>
</tbody>
</table>

Select additional courses:

- COP 2271 Computer Programming for Engineers
- MAA 4402 Functions of a Complex Variable
- MAS 3114 Computational Linear Algebra
- PHY 3513 Thermal Physics 1
- PHY 4424 Optics 1
- PHY 4523 Statistical Physics
- STA 3032 Engineering Statistics

Students of exceptional ability who have some background in physics are encouraged to take the enriched physics with calculus sequence PHY 2060/PHY 2061 instead of PHY 2048/PHY 2049; PHY 3063 may then be taken in place of PHY 3101; and PHZ 3113 may be substituted for PHY 3221.

Relevant Minors and/or Certificates

UFTeach Program

More Info [here](https://education.ufl.edu/uf-teach/)

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see the undergraduate coordinator about the UFTeach program. UFTeach students can complete the UFTeach minor in science teaching along with their B.A. in astronomy and have the coursework and preparation for professional teacher certification in Florida when they graduate.

Research

Students pursuing the B.S. in astrophysics are encouraged to engage in research with astronomy faculty by signing up for at least three credits of AST 4911; 3 credits of AST 4911 may count toward the 4000 level requirement; an additional 3 credits of AST 4911 may be applied toward the 4000 level requirement with the approval of the undergraduate coordinator.

Academic Learning Compact

Astronomy and astrophysics provide knowledge of basic concepts, theories and observational findings concerning the structure and evolution of planetary systems, stars, stellar systems such as galaxies, and cosmology. Students will learn scientific methodology and its application in specific contexts, the use of observations in testing hypotheses and the limitations of astronomical observations as well as how to critically evaluate them.

The Bachelor of Arts in Astronomy enables students to become familiar with modern physics and to understand mathematics, including calculus. The Bachelor of Science in Astrophysics enables students to understand the basic concepts, theories and experimental findings in modern physics, electricity and magnetism, and mechanics as they apply to astronomy and astrophysics.
Before Graduating Students Must
• Demonstrate satisfactory (minimum grades of C) performance on a selection of coursework from each of the 4000-level astronomy courses as graded by a faculty committee independent of the instructor and not as part of the course grade.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)
Content
1. Bachelor of Arts in Astronomy
   Identify, describe and define the fundamentals of astronomy, including the basic concepts, theories and observational results for planetary systems, stars, stellar systems and cosmology.

Bachelor of Science in Astrophysics
Identify, describe and define the fundamentals of astrophysics, including mechanics, electromagnetism, modern physics and the basic concepts, theories and observational results for planetary systems, stars, stellar systems and cosmology.
2. Define and use the techniques of astronomical observation.

Critical Thinking
3. Critically evaluate results of astronomical research.

Communication
4. Effectively and clearly communicate ideas and results in speech and in writing in an accepted style of presentation.

Curriculum
• Astronomy and Astrophysics
• Astronomy Minor

The B.A. in astronomy is broader and less specialized than the B.S., with the aim of developing and sharpening analytical and quantitative reasoning while at the same time cultivating broader knowledge that can be applied to a variety of careers, including business, law, the health professions, and teaching.

The knowledge acquired and the analytical skills developed provide excellent broad-based training for careers in industry, education and government as well as preparation for graduate study in astronomy and astrophysics, science education, engineering, law, and medicine.

The Department of Astronomy offers two undergraduate degree options.

The Bachelor of Arts (B.A.) in Astronomy
Broader and less specialized than the B.S., with the aim of developing and sharpening analytical and quantitative reasoning while at the same time cultivating broader knowledge that can be applied to a variety of careers, including business, law, the health professions, science writing, and teaching.

The Bachelor of Science (B.S.) in Astrophysics
Designed for students who intend to pursue careers in a scientific or technical field by continuing to study astronomy, astrophysics or physics
at the graduate level or to commence study in some related field such as planetary science.

Coursework for the Major

All students are required to take 10 core courses in mathematics, physics and astronomy. The B.A. in astronomy requires a total of 41 credits; the B.S. in astrophysics requires a minimum of 62 credits. Students pursuing the B.A. have fewer additional required astronomy and physics courses, which offers greater flexibility for taking courses in other disciplines.

All required courses must be completed with minimum grades of C.

### Critical Tracking

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 646).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites ([here](http://www.flvc.org/cpp/displayRecord.jsp?cip=400201&track=01)) may be used for transfer students.

All students must meet these criteria to remain on track for the major.

**Semester 1**

- Complete MAC 1147 or MAC 2311
- 2.0 UF GPA required

**Semester 2**

- Complete MAC 2311
- 2.0 UF GPA required

**Semester 3**

- Complete MAC 2312, PHY 2048 and PHY 2048L with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

**Semester 4**

- Complete MAC 2313, PHY 2049 and PHY 2049L with 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required
**Astronomy**

**UF freshmen and sophomores should take AST 3018 by semester 4**

**Semester 5**
- 2.5 critical-tracking GPA with completion of AST 3018
- 2.0 UF GPA required

**Semester 6**
- Complete 2 3000/4000 level courses in AST, PHY, or other science courses approved by the major
- 2.0 UF GPA required

**Semester 7**
- Complete 2 3000/4000 level courses in AST, PHY, or other science courses approved by the major
- 2.0 UF GPA required

**Semester 8**
- Complete 2 AST 3000/4000 level courses
- Complete MAP 2302
- 2.0 UF GPA required

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

The Bachelor of Science in Astrophysics enables students to understand the basic concepts, theories and experimental findings in modern physics, electricity and magnetism, and mechanics as they apply to astronomy and astrophysics.
Before Graduating Students Must
• Demonstrate satisfactory (minimum grades of C) performance on a selection of coursework from each of the 4000-level astronomy courses as graded by a faculty committee independent of the instructor and not as part of the course grade.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Bachelor of Arts in Astronomy
   Identify, describe and define the fundamentals of astronomy, including the basic concepts, theories and observational results for planetary systems, stars, stellar systems and cosmology.

2. Bachelor of Science in Astrophysics
   Identify, describe and define the fundamentals of astrophysics, including mechanics, electromagnetism, modern physics and the basic concepts, theories and observational results for planetary systems, stars, stellar systems and cosmology.

2. Define and use the techniques of astronomical observation.

Critical Thinking
3. Critically evaluate results of astronomical research.

Communication
4. Effectively and clearly communicate ideas and results in speech and in writing in an accepted style of presentation.

Astrophysics
Curious about what’s out there? Students who are comfortable with mathematics and physics and who want to understand the nature of the Solar System and other planetary systems, stars, galaxies and/or the universe are encouraged to pursue a B.A. in Astronomy or a B.S. in Astrophysics.

About this Program
• College: Liberal Arts and Sciences (p. 646)
• Degrees: Bachelor of Arts in Astronomy (p. 688) | Bachelor of Science in Astrophysics (p. 691)
• Credits for Degree: 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Astronomy is home to a vibrant community actively engaged in research, education, and outreach. The department’s faculty are involved in a wide range of research programs (https://www.astro.ufl.edu/research/) using world-class resources including an in-house design-through-fabrication instrumentation program (https://www.astro.ufl.edu/instrumentation/past-current-projects/), partner level access to the Gran Telescope Canarias (https://www.astro.ufl.edu/research/telescopes/), the HiPerGator-2 (https://www.astro.ufl.edu/research/computing/) supercomputer, and more.

Curriculum
• Astronomy and Astrophysics
• Astronomy Minor

The Bachelor of Science (B.S.) in astrophysics is designed for students who intend to pursue careers in a scientific or technical field by continuing to study astronomy, astrophysics or physics at the graduate level or to commence study in some related field such as planetary science.

The knowledge acquired and the analytical skills developed provide excellent broad-based training for careers in industry, education and government as well as preparation for graduate study in astronomy and astrophysics, science education, engineering, law, and medicine.

The Department of Astronomy offers two undergraduate degree options.

The Bachelor of Arts (B.A.) in Astronomy
Broader and less specialized than the B.S., with the aim of developing and sharpening analytical and quantitative reasoning while at the same time cultivating broader knowledge that can be applied to a variety of careers, including business, law, the health professions, science writing, and teaching.

The Bachelor of Science (B.S.) in Astrophysics
Designed for students who intend to pursue careers in a scientific or technical field by continuing to study astronomy, astrophysics or physics
at the graduate level or to commence study in some related field such as planetary science.

**Coursework for the Major**

All students are required to take 10 core courses in mathematics, physics and astronomy. The B.A. in astronomy requires a total of 41 credits; the B.S. in astrophysics requires a minimum of 62 credits. Students pursuing the B.A. have fewer additional required astronomy and physics courses, which offers greater flexibility for taking courses in other disciplines.

All required courses must be completed with minimum grades of C.

### Required Courses for Both Degrees

### Recommended Coursework for Graduate Study

Students should talk with the undergraduate coordinator and plan to take:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHY 4604</td>
<td>Introductory Quantum Mechanics 1</td>
<td>3</td>
</tr>
</tbody>
</table>

Select additional courses:

- COP 2271: Computer Programming for Engineers
- MAA 4402: Functions of a Complex Variable
- MAS 3114: Computational Linear Algebra
- PHY 3513: Thermal Physics 1
- PHY 4424: Optics 1
- PHY 4523: Statistical Physics
- STA 3032: Engineering Statistics

Students of exceptional ability who have some background in physics are encouraged to take the enriched physics with calculus sequence PHY 2060/PHY 2061 instead of PHY 2048/PHY 2049; PHY 3063 may then be taken in place of PHY 3101; and PHZ 3113 may be substituted for PHY 3221.

### Relevant Minors and/or Certificates

#### UFTeach Program

More Info (https://education.ufl.edu/uf-teach/)

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see the undergraduate coordinator about the UFTeach program. UFTeach students can complete the UFTeach minor in science teaching along with their B.A. in astronomy and have the coursework and preparation for professional teacher certification in Florida when they graduate.

### Research

Students pursuing the B.S. in astrophysics are encouraged to engage in research with astronomy faculty by signing up for at least three credits of AST 4911; 3 credits of AST 4911 may count toward the 4000 level requirement; an additional 3 credits of AST 4911 may be applied toward the 4000 level requirement with the approval of the undergraduate coordinator.

### Additional Required Coursework for the B.S. in Astrophysics

</tbody>
</table>

Select one:

- PHY 3513: Thermal Physics 1
- PHY 4424: Optics 1
- PHY 4523: Statistical Physics
- PHY 4604: Introductory Quantum Mechanics 1

**Total Credits**: 33

1 Prerequisites: AST 3018 and AST 3019.

The Bachelor of Science (B.S.) in astrophysics is designed for students who intend to pursue careers in a scientific or technical field by continuing to study astronomy, astrophysics or physics at the graduate level or to commence study in some related field such as planetary science.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree (p. 646).

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400201&track=01) may be used for transfer students.

All students must meet these criteria to remain on track for the major.

### Semester 1

- Complete MAC 1147 or MAC 2311
- 2.0 UF GPA required

### Semester 2

- Complete MAC 2311
- 2.0 UF GPA required
Semester 3
- Complete MAC 2312, PHY 2048 and PHY 2048L with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4
- Complete MAC 2313, PHY 2049 and PHY 2049L with 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

UF freshmen and sopho- nes should take AST 3018 by semester 4

Semester 5
- 2.5 critical-tracking GPA with completion of AST 3018
- 2.0 UF GPA required

Semester 6
- Complete 4 3000/4000 level courses in AST or PHY
- 2.0 UF GPA required

Semester 7
- Complete 4 3000/4000 level courses in AST or PHY
- 2.0 UF GPA required

Semester 8
- Complete 4 3000/4000 level courses in AST or PHY
- Complete MAP 2302
- 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Astronomy Minor

Academic Learning Compact

Astronomy and astrophysics provide knowledge of basic concepts, theories and observational findings concerning the structure and evolution of planetary systems, stars, stellar systems such as galaxies, and cosmology. Students will learn scientific methodology and its application in specific contexts, the use of observations in testing hypotheses and the limitations of astronomical observations as well as how to critically evaluate them.

The Bachelor of Arts in Astronomy enables students to become familiar with modern physics and to understand mathematics, including calculus. The Bachelor of Science in Astrophysics enables students to understand the basic concepts, theories and experimental findings in modern physics, electricity and magnetism, and mechanics as they apply to astronomy and astrophysics.

Before Graduating Students Must

- Demonstrate satisfactory (minimum grades of C) performance on a selection of coursework from each of the 4000-level astronomy courses as graded by a faculty committee independent of the instructor and not as part of the course grade.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Astronomy Minor

The College of Liberal Arts and Sciences is the largest college on campus, with more than 10,000 undergraduate students pursuing a variety of disciplines through over 40 majors and 49 minors. Undergraduate students acquire an intellectual foundation based on a well-rounded and comprehensive education designed for an increasingly technological and rapidly changing society.

Biology UF Online

The online Biology major prepares undergraduates for careers in the biological sciences, advanced study in graduate schools, productive citizenship, and leadership and lifelong learning. The program is comprehensive and flexible, emphasizing the diverse forms, processes, and systems of life. Students in the program complete required and elective courses that promote critical thinking through the investigation and understanding of principles and unifying themes that govern living systems. The Biology major offers a broader approach to biology than is available through a major in botany, zoology, or other specialized biological sciences majors.

About this Program

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. Our teaching and research provide the integrative and conceptual foundations of the life sciences.

The biology major develops fundamental knowledge of animals, plants, and microorganisms. The Bachelor of Arts in biology is a flexible degree that is best suited for students interested in a career in education, the allied health professions, and interdisciplinary fields such as environmental or biotechnology law, science journalism, and bioscience management. This degree is not recommended for students seeking admission into professional schools such as medicine, dentistry, or veterinary medicine. Please contact an academic advisor for more information.

Coursework for the Major

All coursework for the major must be completed with minimum grades of C.

ZOO 4307C  Vertebrate Biodiversity

Biology and Society
AGG 3501  Environment, Food and Society
ALS 4162/6935  Consequences of Biological Invasions

BOT 2800C  Plants in Human Affairs
PLP 2000  Plants, Plagues and People
PLP 2060  Fungus among Us: Mushrooms, Molds and Civilization
PSB 3002  Physiological Psychology
VEC 2100  World Herbs and Vegetables

B.A. Electives
Additional biology distribution courses or approved biological science courses. At least nine credits of B.A. Electives must be taken at UF.

Capstone
BSC 4936  Critical Analysis of Biological Research  2

Total Credits  55-64

1 This major requires a minimum of 30 credits in core courses. At least 18 of the 30 credits of the required core coursework must be taken at UF. Any additional credits remaining after completion of required coursework must be met by taking courses from the approved additional life sciences electives. Any additional credits remaining after completion of the required core coursework must be met by taking courses from the approved B.A. electives in the biological sciences.

2 At least two Biology Distribution Courses must be taken at UF. Only one 2000-level course may be applied to the Biology Distribution Course requirement. Students must complete at least one course from three of the five following group. Please note: classes vary from 3-5 credits in each category.

3 Course has specific prerequisites; students should consult the course description when planning their programs to ensure they may select this course.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260101&track=01) may be used for transfer students.

Semester 1
• Complete 1 of the following: BSC 2010 and BSC 2010L; or CHM 1025 or CHM 1030 or CHM 2045 and CHM 2045L; or MAC 1147 or equivalent or higher math course
• 2.0 UF GPA required

Semester 2
• Complete CHM 1030 or CHM 2045 and CHM 2045L and one of the following: BSC 2010 and BSC 2010L or MAC 1147 or equivalent or higher MAC course
• 2.0 UF GPA required
| Semester 3  | • Complete BSC 2010 and BSC 2010L and MAC 1147 or equivalent or higher MAC course  
• 2.0 UF GPA required |
|------------|----------------------------------------------------------------------------------------------------------------------------------|
| Semester 4  | • Complete CHM 1031 or CHM 2046 and CHM 2046L; BSC 2011 and BSC 2011L; and MAC 1147 or equivalent or higher MAC course with a  
2.5 GPA required for all critical-tracking courses  
• 2.0 UF GPA required |
| Semester 5  | • Complete at least 1 biology distribution course  
• 2.5 GPA required for all critical-tracking courses  
• 2.0 UF GPA required |
| Semester 6  | • Complete a minimum of 2 of the remaining Biology major 3000/4000 level required core courses |
| Semester 7  | • Complete a minimum of 2 of the remaining Biology major 3000/4000 level required core courses |
| Semester 8  | • Complete BSC 4936 (Capstone)  
• Complete all remaining Biology major 3000/4000 level required core courses |

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

To understand this vast diversity, the field of biology correspondingly relies on integrative and comparative approaches for the resolution of the general processes, principles and unifying themes that govern living systems. Biology is therefore very interdisciplinary and biologists rely on knowledge from the physical sciences and mathematics, as well as from across the disciplines and subdisciplines of biology for advances and breakthroughs.

The biology major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences.

### Students in the Major will Learn to

#### Student Learning Outcomes (SLOs)

**Content**
1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

**Critical Thinking**
2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

**Communication**
4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

1 Cannot be counted as both an elective and a Biology Distribution Course.

### Academic Learning Compact

Biology is the study of the many diverse forms, processes and systems of life. These studies range across all levels of the biological hierarchy, from the simplest to the most complex life forms, across all environments on the earth and across recent and evolutionary time that interconnects ancestors to their descendants.

To understand this vast diversity, the field of biology correspondingly relies on integrative and comparative approaches for the resolution of the general processes, principles and unifying themes that govern living systems. Biology is therefore very interdisciplinary and biologists rely on knowledge from the physical sciences and mathematics, as well as from across the disciplines and subdisciplines of biology for advances and breakthroughs.

The biology major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences.
The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. Our teaching and research provide the integrative and conceptual foundations of the life sciences.

Assessment Types
- Major field test for biology
- Bioethics module
- Scientific literacy paper

Biology | CLAS
The Biology majors combine the faculty and resources of the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences to prepare undergraduates for careers in the biological sciences, advanced study in professional and graduate schools, productive citizenship and leadership, and lifelong learning. The program is comprehensive and flexible, emphasizing the diverse forms, processes, and systems of life. Students in the program complete required and elective courses that promote critical thinking through the investigation and understanding of principles and unifying themes that govern living systems. The Biology major offers a broader approach to biology than is available through a major in botany, zoology, or other specialized biological sciences majors.

About this Program
- **College**: Liberal Arts and Sciences (p. 646)
- **Degrees**: Bachelor of Arts (p. 700) | Bachelor of Science
- **Specializations**: Integrative Biology (BS) (p. 705) | Preprofessional Biology (BS) (p. 709)
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. Our teaching and research provide the integrative and conceptual foundations of the life sciences.

Curriculum
- Biology UF Online
- Biology | CALS
- Biology | CLAS

The biology degrees develop fundamental knowledge of animals, plants and microorganisms. The degrees and specializations are tailored to meet the needs of preprofessional students, those students preparing for graduate studies in biology or specialized areas, and those seeking careers in education, the allied health professions and interdisciplinary fields such as environmental or biotechnology law, science journalism, and bioscience management.

Bachelor of Science
The CLAS Bachelor of Science in biology offers two specializations.

Bachelor of Science | Integrative Biology
Designed for students preparing for graduate studies in biology or specialized areas such as ecology, evolution, genetics, molecular biology, physiology, and systematics.

Bachelor of Science | Preprofessional Biology
Designed for students preparing for admission to medical, dental, optometry, veterinary, or other professional schools.

Bachelor of Arts
The CLAS Bachelor of Arts in biology is a flexible degree that is best suited for students interested in a career in education, the allied health professions, and interdisciplinary fields such as environmental or biotechnology law, science journalism, and bioscience management.

Coursework for the Majors
The B.S. biology specializations require significant introductory coursework and credits in general biology, calculus and/or statistics, general chemistry, organic chemistry, and physics. The B.A. requires less preparation in mathematics, chemistry and physics. Students who are uncertain about the program that best suits their goals should consult a biology advisor for information and curriculum planning. Students can also individualize their curricula with additional life science courses from other departments, colleges and units at UF.

Relevant Minors and/or Certificates
UFTeach Program
There is a severe shortage of qualified secondary school biology teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a biology advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their B.A. or B.S. in biology and have the coursework and preparation for professional teacher certification in Florida when they graduate.

More Info (http://education.ufl.edu/uf-teach/)

Research
All biology majors are encouraged to participate in research. Research experience is valuable on many levels: it diversifies the college experience, teaches how scientists apply the knowledge gained in the classroom to real world questions, provides the opportunity to
work with and get to know researchers who are the best in their field, enables participation in cutting edge scientific questions and techniques, enhances the student’s resume/CV when applying to graduate or professional school and, finally, it is essential to help the student determine if science is an appropriate career choice.

More Info (http://major.biology.ufl.edu/do-research/)

CLAS biology majors may participate in research for course credit, as a scholar (e.g., University Scholar), as a volunteer, or, in rare cases, as a paid research assistant.

**Academic Learning Compact**

Biology is the study of the many diverse forms, processes and systems of life. These studies range across all levels of the biological hierarchy, from the simplest to the most complex life forms, across all environments on the earth and across recent and evolutionary time that interconnects ancestors to their descendants.

To understand this vast diversity, the field of biology correspondingly relies on integrative and comparative approaches for the resolution of the general processes, principles and unifying themes that govern living systems. Biology is therefore very interdisciplinary and biologists rely on knowledge from the physical sciences and mathematics, as well as from across the disciplines and subdisciplines of biology for advances and breakthroughs.

The biology major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences.

**Before Graduating Students Must**

- Achieve a passing score for all content subsections of the Major Field Test for Biology. Content subscore areas are molecular biology and genetics, organismal biology, evolution, ecology and population biology.
- Achieve a passing score on the analytical skills assessment indicator of the Major Field Test for Biology.
- Achieve a passing score on the bioethics module quiz in BSC 4936. The content of the module and quiz are reviewed and approved by a faculty committee.
- Achieve a passing score on the scientific literacy paper assignment given in BSC 4936. This paper is graded using a faculty-developed rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

**Critical Thinking**
2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

**Communication**
4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

**Assessment Types**

- Major field test for biology
- Bioethics module
- Scientific literacy paper

**Bachelor of Arts**

The Biology majors combine the faculty and resources of the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences to prepare undergraduates for careers in the biological sciences, advanced study in professional and graduate schools, productive citizenship and leadership, and lifelong learning. The program is comprehensive and flexible, emphasizing the diverse forms, processes, and systems of life. Students in the program complete required and elective courses that promote critical thinking through the investigation and understanding of principles and unifying themes that govern living systems. The Biology major offers a broader approach to biology than is available through a major in botany, zoology, or other specialized biological sciences majors.

**About this Program**

- **College:** Liberal Arts and Sciences (p. 646)
- **Degrees:** Bachelor of Arts (p. 700) | Bachelor of Science
  - **Specializations:** Integrative Biology (BS) (p. 705) | Preprofessional Biology (BS) (p. 709)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

**Department Information**

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. Our teaching and research provide the integrative and conceptual foundations of the life sciences.

Curriculum
- Biology UF Online
- Biology | CALS
- Biology | CLAS
- Botany Minor
- Botany | CALS
- Botany | CLAS
- Combination Degrees
- Zoology
- Zoology Minor

The B.A. major is designed for students interested in a career in education, the allied health professions, and interdisciplinary fields such as environmental or biotechnology law, science journalism, and bioscience management. The B.A. is not recommended for students preparing for health professions such as medicine, dentistry, and veterinary medicine.

The biology degrees develop fundamental knowledge of animals, plants and microorganisms. The degrees and specializations are tailored to meet the needs of preprofessional students, those students preparing for graduate studies in biology or specialized areas, and those seeking careers in education, the allied health professions and interdisciplinary fields such as environmental or biotechnology law, science journalism, and bioscience management.

Bachelor of Science
The CLAS Bachelor of Science in biology offers two specializations.

Bachelor of Science | Integrative Biology
Designed for students preparing for graduate studies in biology or specialized areas such as ecology, evolution, genetics, molecular biology, physiology, and systematics.

Bachelor of Science | Preprofessional Biology
Designed for students preparing for admission to medical, dental, optometry, veterinary, or other professional schools.

Bachelor of Arts
The CLAS Bachelor of Arts in biology is a flexible degree that is best suited for students interested in a career in education, the allied health professions, and interdisciplinary fields such as environmental or biotechnology law, science journalism, and bioscience management.

Coursework for the Majors
The B.S. biology specializations require significant introductory coursework and credits in general biology, calculus and/or statistics, general chemistry, organic chemistry, and physics. The B.A. requires less preparation in mathematics, chemistry and physics. Students who are uncertain about the program that best suits their goals should consult a biology advisor for information and curriculum planning. Students can also individualize their curricula with additional life science courses from other departments, colleges and units at UF.

Relevant Minors and/or Certificates

UFTeach Program
There is a severe shortage of qualified secondary school biology teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a biology advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their B.A. or B.S. in biology and have the coursework and preparation for professional teacher certification in Florida when they graduate.

More Info (http://education.ufl.edu/uf-teach/)

Research
All biology majors are encouraged to participate in research. Research experience is valuable on many levels: it diversifies the college experience, teaches how scientists apply the knowledge gained in the classroom to real world questions, provides the opportunity to work with and get to know researchers who are the best in their field, enables participation in cutting edge scientific questions and techniques, enhances the student’s resume/CV when applying to graduate or professional school and, finally, it is essential to help the student determine if science is an appropriate career choice.

More Info (http://major.biology.ufl.edu/do-research/)

CLAS biology majors may participate in research for course credit, as a scholar (e.g., University Scholar), as a volunteer, or, in rare cases, as a paid research assistant.

Required Foundation Coursework
All coursework for the major must be completed with minimum grades of C.

  - PCB 3601C Plant Ecology
  - PCB 4043C General Ecology

- Evolution and Diversity
  - BOT 2011C Plant Diversity
  - BOT 2710C Practical Plant Taxonomy
  - BOT 3151C Local Flora of North Florida
  - PCB 4674 Evolution
  - ZOO 3513C Animal Behavior
  - ZOO 4205C Invertebrate Biodiversity
  - ZOO 4307C Vertebrate Biodiversity

- Biology and Society
  - AGG 3501 Environment, Food and Society
  - AGR 2332 Seeds of Change
  - BOT 2800C Plants in Human Affairs
  - PLP 2000 Plants, Plagues and People
  - PLP 2060 Fungus among Us: Mushrooms, Molds and Civilization
  - PSB 3002 Physiological Psychology
  - VEC 2100 World Herbs and Vegetables

B.A. Electives

Approved biological science courses (minimum) 15

Capstone
Semester 6
• Complete a minimum of 2 of the remaining Biology major 3000/4000 level required core courses

Semester 7
• Complete a minimum of 2 of the remaining Biology major 3000/4000 level required core courses

Semester 8
• Complete BSC 4936 (Capstone)
• Complete all remaining Biology major 3000/4000 level required core courses

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

Approved Biology electives may not count towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Before Graduating Students Must

- Achieve a passing score for all content subsections of the Major Field Test for Biology. Content subscore areas are molecular biology, physiology, and structure and function of organisms.
and genetics, organismal biology, evolution, ecology and population biology.

- Achieve a passing score on the analytical skills assessment indicator of the Major Field Test for Biology.
- Achieve a passing score on the bioethics module quiz in BSC 4936. The content of the module and quiz are reviewed and approved by a faculty committee.
- Achieve a passing score on the scientific literacy paper assignment given in BSC 4936. This paper is graded using a faculty-developed rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

**Critical Thinking**
2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

**Communication**
4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

**Integrative Biology**

The Biology majors combine the faculty and resources of the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences to prepare undergraduates for careers in the biological sciences, advanced study in professional and graduate schools, productive citizenship and leadership, and lifelong learning. The program is comprehensive and flexible, emphasizing the diverse forms, processes, and systems of life. Students in the program complete required and elective courses that promote critical thinking through the investigation and understanding of principles and unifying themes that govern living systems. The Biology major offers a broader approach to biology than is available through a major in botany, zoology, or other specialized biological sciences majors.

**About this Program**

- **College:** Liberal Arts and Sciences (p. 646)
- **Degrees:** Bachelor of Arts (p. 700) | Bachelor of Science
  - **Specializations:** Integrative Biology (BS) (p. 705) | Preprofessional Biology (BS) (p. 709)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

**Department Information**

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. Our teaching and research provide the integrative and conceptual foundations of the life sciences. Our teaching and research provide the integrative and conceptual foundations of the life sciences. Our teaching and research provide the integrative and conceptual foundations of the life sciences.

The B.S. | Integrative Biology specialization is designed for students seeking admission to graduate school in biology or specialized areas such as ecology, evolution, genetics, molecular biology, physiology, and systematics.

The biology degrees develop fundamental knowledge of animals, plants and microorganisms. The degrees and specializations are tailored to meet the needs of preprofessional students, those students preparing...
for graduate studies in biology or specialized areas, and those seeking careers in education, the allied health professions and interdisciplinary fields such as environmental or biotechnology law, science journalism, and bioscience management.

**Bachelor of Science**
The CLAS Bachelor of Science in biology offers two specializations.

**Bachelor of Science | Integrative Biology**
Designed for students preparing for graduate studies in biology or specialized areas such as ecology, evolution, genetics, molecular biology, physiology, and systematics.

**Bachelor of Science | Preprofessional Biology**
Designed for students preparing for admission to medical, dental, optometry, veterinary, or other professional schools.

**Bachelor of Arts**
The CLAS Bachelor of Arts in biology is a flexible degree that is best suited for students interested in a career in education, the allied health professions, and interdisciplinary fields such as environmental or biotechnology law, science journalism, and bioscience management.

**Coursework for the Majors**
The B.S. biology specializations require significant introductory coursework and credits in general biology, calculus and/or statistics, general chemistry, organic chemistry, and physics. The B.A. requires less preparation in mathematics, chemistry and physics. Students who are uncertain about the program that best suits their goals should consult a biology advisor for information and curriculum planning. Students can also individualize their curricula with additional life science courses from other departments, colleges and units at UF.

**Relevant Minors and/or Certificates**
UFTeach Program
There is a severe shortage of qualified secondary school biology teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a biology advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their B.A. or B.S. in biology and have the coursework and preparation for professional teacher certification in Florida when they graduate.

| Total Credits | 66-73 |

This degree requires a minimum of 27 credits in core courses.

### Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260101&track=01) may be used for transfer students.

#### Semester 1

- Complete one of the following in BSC, CHM or MAC:
  - BSC 2010/BSC 2010L; CHM 1025 or CHM 2045/CHM 2045L; MAC 1140, MAC 1114, MAC 1147 or MAC 2311
- 2.0 UF GPA required

#### Semester 2

- Complete CHM 2045/CHM 2045L; and BSC 2010/BSC 2010L or MAC 2311
- 2.0 UF GPA required

#### Semester 3

- Complete BSC 2010/BSC 2010L and MAC 2311 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 4

- Complete CHM 2046/CHM 2046L and BSC 2011/BSC 2011L with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 5

- Complete CHM 2210 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

#### Semester 6

- Complete a minimum of 2 of the remaining Biology major 3000/4000 level required core courses

#### Semester 7

- Complete a minimum of 2 of the remaining Biology major 3000/4000 level required core courses

### Semester 8

- Complete BSC 4936 (Capstone)
- Complete all remaining Biology major 3000/4000 level required core courses

#### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

CHM 2211, CHM 2211L, PHY 2054, PHY 2054L, PHY 2049, and PHY 2049L count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

| ZOO 3603C Evolutionary Developmental Biology |
| ZOO 3713C Functional Vertebrate Anatomy |
| Taxonomic diversity course 2 3-4 |
| Foreign language 5 |
| Elective (3000 level or above, not in major) 3 |

### Credits 14-16

### Semester Eight

Select one: 4-5

| BOT 3503 & 3503L Physiology and Molecular Biology of Plants and Physiology and Molecular Biology of Plants Laboratory |
| PCB 3713C Cellular and Systems Physiology |
| PCB 4723C Physiology and Molecular Biology of Animals |
| BSC 4936 Critical Analysis of Biological Research (Critical Tracking) 2 |
| PCB 4674 Evolution 4 |
| Foreign language 5 |

### Credits 15-16

### Total Credits 120

1 Select CHM 2211 if CHM 2210 was taken previously.

### Academic Learning Compact

Biology is the study of the many diverse forms, processes and systems of life. These studies range across all levels of the biological hierarchy, from the simplest to the most complex life forms, across all environments on the earth and across recent and evolutionary time that interconnects ancestors to their descendants.

To understand this vast diversity, the field of biology correspondingly relies on integrative and comparative approaches for the resolution of the general processes, principles and unifying themes that govern living systems. Biology is therefore very interdisciplinary and biologists rely on knowledge from the physical sciences and mathematics, as well as from across the disciplines and subdisciplines of biology for advances and breakthroughs.

The biology major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences.

### Before Graduating Students Must

- Achieve a passing score for all content subsections of the Major Field Test for Biology. Content subscore areas are molecular biology and genetics, organismal biology, evolution, ecology and population biology.
- Achieve a passing score on the analytical skills assessment indicator of the Major Field Test for Biology.
- Achieve a passing score on the bioethics module quiz in BSC 4936. The content of the module and quiz are reviewed and approved by a faculty committee.
- Achieve a passing score on the scientific literacy paper assignment given in BSC 4936. This paper is graded using a faculty-developed rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

**Critical Thinking**

2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

**Communication**

4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

### Curriculum Map

**Assessment Types**
- Major field test for biology
- Bioethics module
- Scientific literacy paper

**Preprofessional Biology**

The Biology majors combine the faculty and resources of the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences to prepare undergraduates for careers in the biological sciences, advanced study in professional and graduate schools, productive citizenship and leadership, and lifelong learning. The program is comprehensive and flexible, emphasizing the diverse forms, processes, and systems of life. Students in the program complete required and elective courses that promote critical thinking through the investigation and understanding of principles and unifying themes that govern living systems. The Biology major offers a broader approach to biology than is available through a major in botany, zoology, or other specialized biological sciences majors.

**About this Program**
- **College:** Liberal Arts and Sciences (p. 646)
- **Degrees:** Bachelor of Arts (p. 700) | Bachelor of Science
  - **Specializations:** Integrative Biology (BS) (p. 705) | Preprofessional Biology (BS) (p. 709)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

**Department Information**

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. Our teaching and research provide the integrative and conceptual foundations of the life sciences.

**Curriculum**
- Biology UF Online
- Biology | CALS
- Biology | CLAS
- Botany Minor
- Botany | CALS
- Botany | CLAS
- Combination Degrees
  - Zoology
  - Zoology Minor

The B.S. | Preprofessional Biology specialization is designed for students preparing for admission to medical, dental, optometry, veterinary, or other professional schools. Students in this track should contact the biology advisor or the Academic Advising Center in 100 Farrior Hall for specific requirements.

The biology degrees develop fundamental knowledge of animals, plants and microorganisms. The degrees and specializations are tailored to meet the needs of preprofessional students, those students preparing for graduate studies in biology or specialized areas, and those seeking careers in education, the allied health professions and interdisciplinary fields such as environmental or biotechnology law, science journalism, and bioscience management.

**Bachelor of Science**

The CLAS Bachelor of Science in biology offers two specializations.

**Bachelor of Science | Integrative Biology**

Designed for students preparing for graduate studies in biology or specialized areas such as ecology, evolution, genetics, molecular biology, physiology, and systematics.

**Bachelor of Science | Preprofessional Biology**

Designed for students preparing for admission to medical, dental, optometry, veterinary, or other professional schools.

**Bachelor of Arts**

The CLAS Bachelor of Arts in biology is a flexible degree that is best suited for students interested in a career in education, the allied health professions, and interdisciplinary fields such as environmental or biotechnology law, science journalism, and bioscience management.

**Coursework for the Majors**

The B.S. biology specializations require significant introductory coursework and credits in general biology, calculus and/or statistics, general chemistry, organic chemistry, and physics. The B.A. requires less preparation in mathematics, chemistry and physics. Students who are uncertain about the program that best suits their goals should consult a biology advisor for information and curriculum planning. Students can also individualize their curricula with additional life science courses from other departments, colleges and units at UF.

** Relevant Minors and/or Certificates**

UFTeach Program

There is a severe shortage of qualified secondary school biology teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a biology advisor or the UFTeach
advisor. UFTeach students complete the UFTeach minor in science teaching with their B.A. or B.S. in biology and have the coursework and preparation for professional teacher certification in Florida when they graduate.
More Info (http://education.ufl.edu/uf-teach/)

Research

All biology majors are encouraged to participate in research. Research experience is valuable on many levels: it diversifies the college experience, teaches how scientists apply the knowledge gained in the classroom to real world questions, provides the opportunity to work with and get to know researchers who are the best in their field, enables participation in cutting edge scientific questions and techniques, enhances the student's resume/CV when applying to graduate or professional school and, finally, it is essential to help the student determine if science is an appropriate career choice.

More Info (http://major.biology.ufl.edu/do-research/)

CLAS biology majors may participate in research for course credit, as a scholar (e.g., University Scholar), as a volunteer, or, in rare cases, as a paid research assistant.

Required Foundation Coursework

All coursework for the major must be completed with minimum grades of C.

B.S. Preprofessional Electives

Additional approved life sciences courses (Minimum; a maximum of 6 credits of approved research may be applied to this requirement)

Total Credits 67-73

¹ This degree requires a minimum of 28 credits in core courses. Any additional credits remaining after completion of the required core coursework must be met by taking courses from the approved B.S. preprofessional electives in the biological sciences.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260101&track=01) may be used for transfer students.

Semester 1

• Complete one of the following in BSC, CHM or MAC:
  BSC 2010/BSC 2010L; CHM 1025 or CHM 2045/CHM 2045L; MAC 1140, MAC 1114, MAC 1147 or MAC 2311
  • 2.0 UF GPA required

Semester 2

• Complete CHM 2045/CHM 2045L; and BSC 2010/BSC 2010L or MAC 2311
  • 2.0 UF GPA required

Semester 3

• Complete BSC 2010/BSC 2010L and MAC 2311 with a 2.5 GPA required for all critical-tracking courses
  • 2.0 UF GPA required

Semester 4

• Complete CHM 2046/CHM 2046L and BSC 2011/BSC 2011L with a 2.5 GPA required for all critical-tracking courses
  • 2.0 UF GPA required
Semester 5
- Complete CHM 2210 with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6
- Complete a minimum of 2 of the remaining Biology major 3000/4000 level required core courses

Semester 7
- Complete a minimum of 2 of the remaining Biology major 3000/4000 level required core courses

Semester 8
- Complete BSC 4936 (Capstone)
- Complete all remaining Biology major 3000/4000 level required core courses

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

Additional Life Science courses may not count as 3000 level or above electives outside of the major. CHM 2211, CHM 2211L, PHY 2054, PHY 2054L, PHY 2049, and PHY 2049L may count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

1 Only one of ALS 4162 and ALS 4163 can apply toward ALS credits.

Academic Learning Compact

Biology is the study of the many diverse forms, processes and systems of life. These studies range across all levels of the biological hierarchy, from the simplest to the most complex life forms, across all environments on
the earth and across recent and evolutionary time that interconnects ancestors to their descendants.

To understand this vast diversity, the field of biology correspondingly relies on integrative and comparative approaches for the resolution of the general processes, principles and unifying themes that govern living systems. Biology is therefore very interdisciplinary and biologists rely on knowledge from the physical sciences and mathematics, as well as from across the disciplines and subdisciplines of biology for advances and breakthroughs.

The biology major is administered jointly by the College of Agricultural and Life Sciences and the College of Liberal Arts and Sciences.

Before Graduating Students Must
- Achieve a passing score for all content subsections of the Major Field Test for Biology. Content subscore areas are molecular biology and genetics, organismal biology, evolution, ecology and population biology.
- Achieve a passing score on the analytical skills assessment indicator of the Major Field Test for Biology.
- Achieve a passing score on the bioethics module quiz in BSC 4936. The content of the module and quiz are reviewed and approved by a faculty committee.
- Achieve a passing score on the scientific literacy paper assignment given in BSC 4936. This paper is graded using a faculty-developed rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking
2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication
4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Assessment Types
- Major field test for biology
- Bioethics module
- Scientific literacy paper

Botany Minor
The Botany minor provides a solid foundation in the biology of plants, from the molecular to the organismal level, and their role in larger ecosystems.

About this Program
- College: Liberal Arts and Sciences (p. 646)
- Credits: 15 | Completed with minimum grades of C
- Contact: Email (biouc-l@lists.ufl.edu)

Department Information
The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. Our teaching and research provide the integrative and conceptual foundations of the life sciences.

- Biology | CALS
- Biology | CLAS
- Botany Minor
- Botany | CALS
- Botany | CLAS
- Combination Degrees
- Zoology
- Zoology Minor

Students pursuing majors in biology, entomology, or wildlife ecology and conservation are not eligible to receive the minor in botany.

To be eligible for many upper-level botany courses, students must have completed:
Required Courses

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BSC 2010 &amp; 2010L or BOT 2010C</td>

</tr>
</tbody>
</table>

Select 15 credits: 1, 2

1. Up to six credits may come from BOT 2010C, BOT 2011C, BOT 2710C, BOT 2800C
2. No more than three credits may be individual work (BOT 4905, BOT 4911).

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Botany | CLAS

The Botany curriculum provides a broad background in the biology of plants, from the molecular to the organismic level. Students who major in Botany will take courses in ecology, genetics, physiology, taxonomy, evolution, cells and tissues, molecular biology, and biodiversity of plants.

About this Program

1. **College**: Liberal Arts and Sciences (p. 646)
2. **Degree**: Bachelor of Science
3. **Specializations**: General Botany (p. 719) | Botanical Research (p. 715)
4. **Credits for Degree**: 120
5. **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. Our teaching and research provide the integrative and conceptual foundations of the life sciences. Website (https://biology.ufl.edu/)

P.O. BOX 118525
220 BARTRAM HALL
GAINESVILLE FL 32611-8525

Small classes are taught by faculty who have a commitment to undergraduate education. Students participate in mentored research, assisting faculty with research projects on campus and abroad. The major prepares students for careers in industry and government agencies, for graduate and professional schools, and for teaching jobs in high schools.

General Botany

For students who may not intend to pursue a graduate degree but are interested in a career in plant biology. This specialization provides some flexibility in tailoring the courses needed in order to pursue specific interests. Students are encouraged to consult with an advisor and botany faculty member when deciding on which courses to take.

Botanical Research

For students who intend to pursue a graduate degree, and requires research with a faculty member. This specialization provides the coursework background typically required by botany graduate programs. Students are encouraged to consult with an advisor and biology faculty member when deciding on which courses to take.

Coursework for the Major

Required coursework is dependent upon the specialization. Coursework for each specialization can be found below under Critical Tracking and Model Semester Plan.

Relevant Minors and/or Certificates

Students majoring in botany can minor in most other disciplines, and this is a good way to organize students’ electives around areas of interest. Note that botany majors cannot minor in biology or chemistry, nor can biology majors minor in botany (the curricula for the botany and biology majors are too similar).

UFTeach Program

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a botany advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching with their B.S. in botany and have the coursework and preparation for professional teacher certification in Florida when they graduate.

Research

Botany majors are strongly encouraged to participate in research, and research is required for the Botanical Research specialization. Research experience is valuable on many levels: it diversifies the college experience; it teaches students how scientists apply the knowledge
gained in the classroom to real world questions; it provides the opportunity to work with and get to know researchers who are the best in their field; it introduces students to cutting edge scientific questions and techniques; it can enhance a student’s resume/CV when applying to graduate or professional school; and, finally, it is essential in helping students determine if science is a good career choice.

CLAS biology, botany, and zoology majors may participate in research for course credit, as a scholar (e.g., University Scholar, Science for Life Scholar, Beckman Scholar), as a volunteer, or, in rare cases, as a paid research assistant. Students who plan to enroll for course credit must contact potential research mentors, develop a project, and turn in the required application and proposal no later than the week of drop/add. If the window is missed, students should still contact potential research mentors to discuss upcoming opportunities.

More Info (https://biology.ufl.edu/undergraduates/research/)

Academic Learning Compact
The botany major is offered by both the College of Liberal Arts and Sciences and the College of Agricultural and Life Sciences. This major provides a foundation in the life sciences with emphasis on plant systems. Students will learn the diversity of life, the structure of organisms and ecosystems and how they function (i.e., the acquisition, flow, organization and uses of information, energy and nutrients in living systems). Students will learn the scientific method and how it facilitates the discovery of new knowledge in botany and biology, including how to critically evaluate hypotheses and conclusions.

Before Graduating Students Must
• Achieve acceptable performance in all required botany courses.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to Student Learning Outcomes (SLOs)

Content
1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking
2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication
4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

BSC 3307C  Climate Change Biology

Cells and Tissues
Select one:  3-4
BOT 4935/5225C  Special Topics (Plant anatomy)
PCB 3023  Essential Cell Biology
BCH 4024  Introduction to Biochemistry and Molecular Biology

Biodiversity Breadth
Select one:  3-4
BOT 2011C  Plant Diversity
BOT 4650  Plant Symbiosis
PCB 4460  Biodiversity and Ecology Field Immersion
ZOO 4205C  Invertebrate Biodiversity
ZOO 4307C  Vertebrate Biodiversity
ZOO 4472C  Avian Biology
ZOO 4926  Special Topics in Zoology (Mammalogy)
ENY 3005 & 3005L  Principles of Entomology and Principles of Entomology Laboratory
WIS 4934  Topics in Wildlife Ecology and Conservation (Mammalogy)
PLP 3002C  Fundamentals of Plant Pathology
PLP 4653C  Basic Fungal Biology
MCB 2000 & 2000L  Microbiology and Microbiology Laboratory
MCB 3020 & 3020L  Basic Biology of Microorganisms and Laboratory for Basic Biology of Microorganisms

Total Credits  67-80

1 Students who choose BOT 2011C to fulfill the foundation requirements may not use BOT 2011C to fulfill the biodiversity breadth requirements for the major.
2 Must be taken concurrently with BOT 4911.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260301&track=01) may be used for transfer students.

Semester 1
- Complete 1 of 5 critical-tracking courses, including lab:
  BSC 2010/BSC 2010L or BOT 2010C, BSC 211/BSC 211L or BOT 211C, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 2311
  - 2.0 UF GPA required

Semester 2
- Complete 1 additional critical-tracking course, including labs
  - 2.0 UF GPA required

Semester 3
- Complete 1 additional critical-tracking course, including labs, with a 2.5 GPA required for all critical-tracking courses
  - 2.0 UF GPA required

Semester 4
- Complete 1 additional critical-tracking course, including labs, with a 2.5 GPA required for all critical-tracking courses
  - 2.0 UF GPA required

Semester 5
- Complete all 5 critical-tracking courses, including labs, with a 2.5 GPA required for all critical-tracking courses
  - 2.0 UF GPA required

Semester 6
- Complete at least 2 required courses for this specialization
  - 2.0 UF GPA required

Semester 7
- Complete CHM 2210 or CHM 3217
- Complete PHY 2053/PHY 2053L or PHY 2048/PHY 2048L
- Complete at least 2 additional (4 total) required courses for this specialization
  - 2.0 UF GPA required

Semester 8
- Complete all remaining major course requirements
  - 2.0 UF GPA required

Model Semester Plan
For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

CHM 2211, CHM 2211L, PHY 2054, PHY 2054L, PHY 2049, and PHY 2049L count towards 3000 level or above electives outside of the major. COP 3275 may also count towards the requirement if taken.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

**Academic Learning Compact**

The botany major is offered by both the College of Liberal Arts and Sciences and the College of Agricultural and Life Sciences. This major provides a foundation in the life sciences with emphasis on plant systems. Students will learn the diversity of life, the structure of organisms and ecosystems and how they function (i.e., the acquisition, flow, organization and uses of information, energy and nutrients in living systems). Students will learn the scientific method and how it facilitates the discovery of new knowledge in botany and biology, including how to critically evaluate hypotheses and conclusions.

### Before Graduating Students Must

- Achieve acceptable performance in all required botany courses.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking
2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication
4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

- Scientific paper

General Botany

The Botany curriculum provides a broad background in the biology of plants, from the molecular to the organismic level. Students who major in Botany will take courses in ecology, genetics, physiology, taxonomy, evolution, cells and tissues, molecular biology, and biodiversity of plants.

About this Program
- College: Liberal Arts and Sciences (p. 646)
- Degree: Bachelor of Science
- Specializations: General Botany (p. 719) | Botanical Research (p. 715)
- Credits for Degree: 120
- More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Biology studies life at all levels from molecules to the biosphere to understand the evolution, structure, maintenance and dynamics of biological systems. Our teaching and research provide the integrative and conceptual foundations of the life sciences.

- Biology | CLAS
- Botany Minor
- Botany | CALS
- Botany | CLAS
- Combination Degrees
- Zoology
- Zoology Minor

Small classes are taught by faculty who have a commitment to undergraduate education. Students participate in mentored research, assisting faculty with research projects on campus and abroad. The major prepares students for careers in industry and government agencies, for graduate and professional schools, and for teaching jobs in high schools.

General Botany

For students who may not intend to pursue a graduate degree but are interested in a career in plant biology. This specialization provides some flexibility in tailoring the courses needed in order to pursue specific interests. Students are encouraged to consult with an advisor and botany faculty member when deciding on which courses to take.

Botanical Research

For students who intend to pursue a graduate degree, and requires research with a faculty member. This specialization provides the coursework background typically required by botany graduate programs. Students are encouraged to consult with an advisor and biology faculty member when deciding on which courses to take.

Coursework for the Major

Required coursework is dependent upon the specialization. Coursework for each specialization can be found below under Critical Tracking and Model Semester Plan.

Relevant Minors and/or Certificates

Students majoring in botany can minor in most other disciplines, and this is a good way to organize students’ electives around areas of interest. Note that botany majors cannot minor in biology or chemistry, nor can biology majors minor in botany (the curricula for the botany and biology majors are too similar).

UFTeach Program

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a botany advisor or the UFTeach advisor. UFTeach students complete the UFTeach minor in science teaching.
Research
Botany majors are strongly encouraged to participate in research, and research is required for the Botanical Research specialization. Research experience is valuable on many levels: it diversifies the college experience; it teaches students how scientists apply the knowledge gained in the classroom to real-world questions; it provides the opportunity to work with and get to know researchers who are the best in their field; it introduces students to cutting edge scientific questions and techniques; it can enhance a student’s resume/CV when applying to graduate or professional school; and, finally, it is essential in helping students determine if science is a good career choice.

CLAS biology, botany, and zoology majors may participate in research for course credit, as a scholar (e.g., University Scholar, Science for Life Scholar, Beckman Scholar), as a volunteer, or, in rare cases, as a paid research assistant. Students who plan to enroll for course credit must contact potential research mentors, develop a project, and turn in the required application and proposal no later than the week of drop/add. If the window is missed, students should still contact potential research mentors to discuss upcoming opportunities.

More Info (https://biology.ufl.edu/undergraduates/research/)

General Botany
This option is intended for students who do not plan to attend graduate or professional school, but are planning a career in government, public service, or secondary education. A student must achieve a minimum grade of C in all required courses for the major.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=260301&track=01) may be used for transfer students.

Semester 1
- Complete 1 of 5 critical-tracking courses, including lab:
  BSC 2010/BSC 2010L or BOT 2010C, BSC 2111/BSC 2111L or BOT 2011C, CHM 2045/CHM 2045L, CHM 2046/CHM 2046L, MAC 1147 or MAC 2311 or STA 2023
- 2.0 UF GPA required

Semester 2
- Complete 1 additional critical-tracking course, including labs
- 2.0 UF GPA required

Semester 3
- Complete 1 additional critical-tracking course, including labs, with a 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 4
- Complete 1 additional critical-tracking course, including labs, with 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5
- Complete all critical-tracking courses, including labs, with 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6
- Complete at least 2 required courses for this specialization
- 2.0 UF GPA required

Semester 7
- Complete one of the remaining Required Foundation courses: CHM 2200/CHM 2200L, PHY 2004/PHY 2004L, MAC 1147/MAC 2311, or STA 2023/COP 2800/COP 3275/BSC 2891
- Complete at least 2 additional (4 total) required courses for this specialization
- 2.0 UF GPA required

Semester 8
- Complete all remaining major course requirements
- 2.0 UF GPA required

Model Semester Plan

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

CHM 2211, CHM 2211L, PHY 2054, PHY 2054L, PHY 2049, and PHY 2049L may count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Student Learning Outcomes (SLOs)

Content
1. Identify, describe and explain the basic terminology, concepts, methodologies and theories used within the biological sciences.

Critical Thinking
2. Analyze biological information and develop reasoned solutions to problems using the processes and applications of scientific inquiry.
3. Discriminate ethical behavior from unethical behavior in scientific research.

Communication
4. Communicate knowledge, ideas and reasoning clearly and effectively in written or oral forms appropriate to the biological sciences.

Chemistry Minor

The Chemistry minor provides a solid foundation in general, organic, and analytical chemistry, while enhancing critical thinking and analytical skills.

About this Program

- **College**: Liberal Arts and Sciences (p. 646)
- **Credits**: 20-25 | Completed with minimum grades of C

Department Information

The Department of Chemistry is a comprehensive department granting bachelor’s, master’s, and Ph.D. degrees with specialization in all areas including biochemistry, nanochemistry, analytical, inorganic, organic, physical, polymer, synthetic and theoretical chemistry. The University of Florida ranks in the top five chemistry departments nationally in Ph.D. production (http://pubs.acs.org/cen/acs/8747news1.pdf) and is among the top 20 in bachelor’s graduates.

Website (https://www.chem.ufl.edu/)

**Academic Learning Compact**

The botany major is offered by both the College of Liberal Arts and Sciences and the College of Agricultural and Life Sciences. This major provides a foundation in the life sciences with emphasis on plant systems. Students will learn the diversity of life, the structure of organisms and ecosystems and how they function (i.e., the acquisition, flow, organization and uses of information, energy and nutrients in living systems). Students will learn the scientific method and how it facilitates the discovery of new knowledge in botany and biology, including how to critically evaluate hypotheses and conclusions.

**Before Graduating Students Must**

- Achieve acceptable performance in all required botany courses.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Chemistry | Biochemistry

At least nine chemistry credits applied toward the minor must be completed at UF. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward other majors or minors.

Students pursuing majors in biology-biotechnology, botany or chemical engineering are not eligible to receive this minor.

| **Analytical Chemistry Sequence** | CHM 3120 & 3120L | Introduction to Analytical Chemistry and Analytical Chemistry Laboratory |
| **Organic Chemistry Sequence** | Select one option: | 8-10 |
| Option A | CHM 2210 & 2211L | Organic Chemistry 1 and Organic Chemistry Laboratory |
| Option B | CHM 3217 | Organic Chemistry/Biochemistry 1 |
|        | CHM 3218 | Organic Chemistry/Biochemistry 2 |
|        | CHM 2211L | Organic Chemistry Laboratory |

| **Additional Upper Level Course** | Select one: | 3-4 |
| CHM 3218 | Organic Chemistry/Biochemistry 2 |
| CHM 3400 | Physical Chemistry for the Biosciences |
| CHM 3610 | Inorganic Chemistry |

1. CHM 2054L may be substituted for CHM 2045L/CHM 2046L or CHM 2047L.
2. If organic chemistry sequence is met with CHM 2210/CHM 2211/CHM 2211L.
3. Except CHM 4905, CHM 4910, or CHM 4940.

### About this Program

- **College:** Liberal Arts and Sciences (p. 646)
- **Degree:** Bachelor of Science
  - **Specializations:** Biochemistry (p. 726) | Chemistry (p. 731)
  - **Credits for Degree:** 120
  - **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

### Department Information

The Department of Chemistry is a comprehensive department granting bachelor’s, master’s, and Ph.D. degrees with specialization in all areas including biochemistry, nanochemistry, analytical, inorganic, organic, physical, polymer, synthetic and theoretical chemistry. The University of Florida ranks in the top five chemistry departments nationally in Ph.D. production (http://pubs.acs.org/cen/acs/8747news1.pdf) and is among the top 20 in bachelor’s graduates.

### Website

[https://www.chem.ufl.edu/](https://www.chem.ufl.edu/)
undergraduate experience. Undergraduate research will frequently result in journal publications and/or presentations at scientific meetings.

Coursework for the Major
For either specialization (chemistry or biochemistry), all required courses must be completed within two attempts with minimum grades of C. Any foreign language acceptable to the college can be taken with this minimum program and language courses can be taken S-U. ENC 3254 is suggested to fulfill part of the university writing requirement.

Required Coursework
Required coursework will depend upon the program chosen. Coursework for each specialization can be found below under Critical Tracking and Model Semester Plan.

Recommended Coursework
A.C.S. Certified Program: To receive American Chemical Society certification, a student must complete the chemistry major. In addition, credit must be earned for CHM 3218, either CHM 3610L or CHM 4300L, and an additional two credits of advanced work in chemistry courses such as the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHM 4034</td>
<td>Advanced Biochemistry and Chemical Biology</td>
<td>4</td>
</tr>
<tr>
<td>CHM 4272</td>
<td>The Organic Chemistry of Polymers</td>
<td>2</td>

<tr>
<td>CHM 4304</td>
<td>Chemical Aspects of Cellular Control</td>
<td>3</td>
</tr>
<tr>
<td>CHM 4910</td>
<td>Undergraduate Research</td>
<td>3</td>
</tr>
</tbody>
</table>

If CHM 4910 is used, a thesis must be written.

Course Details
Introduction to Chemistry
CHM 1025, a two-credit course, is offered for students who need to strengthen their understanding of basic concepts of atomic structure and stoichiometry before beginning the general chemistry sequence:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHM 2045</td>
<td>General Chemistry 1</td>
<td>4</td>
</tr>
<tr>
<td>&amp; 2045L</td>
<td>and General Chemistry 1 Laboratory</td>

</tr>
<tr>
<td>CHM 2046</td>
<td>General Chemistry 2</td>
<td>4</td>
</tr>
<tr>
<td>&amp; 2046L</td>
<td>and General Chemistry 2 Laboratory</td>
<td></td>
</tr>
</tbody>
</table>

A placement exam is offered via ONE.UF (https://one.uf.edu/) and the score achieved determines whether CHM 1025 or CHM 2045 is the appropriate first course in chemistry.

Chemistry
The following chemistry offerings are available:

- CHM 1030/CHM 1031 is a terminal sequence for non-science students that presents chemistry from a medical and nursing perspective.
- CHM 1020 is a terminal general education course that explores chemistry in terms of society.
- CHM 2045/CHM 2045L and CHM 2046/CHM 2046L is the chemistry sequence and is an acceptable preprofessional requirement for many science and engineering majors. Students are presumed to have good backgrounds in high school chemistry and mathematics (through MAC 1147) and are expected to pass the placement exam offered via ONE.UF (https://one.uf.edu/) before registering for CHM 2045.
- CHM 2095/CHM 2045L and CHM 2096/CHM 2046L is an alternative chemistry sequence especially designed for engineering majors.
- CHM 2047/CHM 2047L is a one-semester program for entering first-year students with strong backgrounds in chemistry, normally reflected by high AP or IB chemistry test scores. This program enables students to move more quickly into advanced work.
- CHM 2051 is offered as an alternative to CHM 2046 for students who have done particularly well in CHM 2045.
- CHM 2054L is a 2-credit, inquiry-based lab focusing on major concepts in chemistry and their application to quantitative life-sciences research. This course is equivalent to CHM 2045L and CHM 2046L or CHM 2047L.

Placement
For placement into the appropriate first course in chemistry, please refer to the Academic Advising section or consult a chemistry advisor. All students should complete their chemistry studies at the same institution.

More Info (p. 1117)

Minors and/or Certificates
UFTeach Program
There is a severe shortage of qualified high school chemistry teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a chemistry advisor about the UFTeach program. UFTeach students complete the UFTeach minor in science teaching with their B.S. in chemistry and have the coursework and preparation for professional teacher certification in Florida when they graduate.

More Info (https://education.ufl.edu/uf-teach/)

Academic Learning Compact
Chemistry is the study of matter: the structure and properties of matter, the transformations from one form of matter to another and the energy transformations associated with these transformations.

Before Graduating Students Must
- Achieve at least 50% on the Diagnostic of Undergraduate Chemistry Knowledge (DUCK) exam.
- Obtain minimum grades of C in laboratory courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHM 2211</td>
<td>Organic Chemistry 2</td>
<td>3</td>
</tr>
<tr>
<td>CHM 3120L</td>
<td>Analytical Chemistry Laboratory</td>
<td>1</td>
</tr>
<tr>
<td>CHM 4130L</td>
<td>Instrumental Analysis Laboratory</td>

Biochemistry

Chemistry is often called the central science because of the pivotal role it plays in the biological and physical sciences, as well as in engineering, agriculture, medicine, and allied health disciplines. Bachelor’s degree chemists choose from diverse paths for their short-term and lifetime careers, including graduate study in a variety of programs, rewarding employment in industry or government laboratories, professional or law school, or much-needed teaching in high schools.

About this Program

Curriculum
- Chemistry Minor
- Chemistry | Biochemistry

Students can choose the chemistry specialization, which is comparable to that offered in any major university, or the biochemistry specialization, which is designed to give more flexibility to students wanting to pursue courses with biological focus. The department encourages students in either specialization to include undergraduate research with one of the department's internationally recognized faculty as a component of the undergraduate experience. Undergraduate research will frequently result in journal publications and/or presentations at scientific meetings.

Coursework for the Major
For either specialization (chemistry or biochemistry), all required courses must be completed within two attempts with minimum grades of C. Any foreign language acceptable to the college can be taken with this minimum program and language courses can be taken S-U. ENC 3254 is suggested to fulfill part of the university writing requirement.

Required Coursework
Required coursework will depend upon the program chosen. Coursework for each specialization can be found below under Critical Tracking and Model Semester Plan.

Course Details
Introduction to General Chemistry
CHM 1025, a two-credit course, is offered for students who need to strengthen their understanding of basic concepts of atomic structure and stoichiometry before beginning the general chemistry sequence:

Required Biochemistry Electives 6

Total Credits 62-69

1 CHM 2054L can substitute for the CHM 2045L/CHM 2046L sequence or for CHM 2047L.

ISC 2400L can substitute for the CHM 2045L, BSC 2010L and PHY 2053L requirements. ISC 2401L can substitute for the CHM 2046L, BSC 2011L and PHY 2054L requirements.

Required Exit Exam

Students must also complete the exit exam (Diagnostic of Undergraduate Chemistry Knowledge) with a minimum score of 30 out of 60.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400501&track=01) may be used for transfer students.

 Semester 1
- Complete one CHM course and one MAC course
- 2.0 UF GPA required

 Semester 2
- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.50 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

 Semester 3
- Complete CHM 2046/CHM 2046L and BSC 2010/BSC 2010L
- 2.65 critical-tracking GPA any additional CHM courses
- 2.0 UF GPA required

 Semester 4
- Complete BSC 2011/BSC 2011L
- 2.75 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

 Semester 5
- Complete MAC 2312 and CHM 2212, CHM 2210, or CHM 3217
- 2.75 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

 Semester 6
- Complete CHM 3120/CHM 3120L, and CHM 2213/CHM 2211L or CHM 2211/CHM 2211L
- 2.0 UF GPA required

 Semester 7
- Complete CHM 3218 and at least 1 of the remaining CHM 3XXX/4XXX or Biochemistry elective required courses
- 2.0 UF GPA required

 Semester 8
- Complete all of the remaining CHM 3XXX/4XXX and Biochemistry elective required courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

Chemistry is the study of matter: the structure and properties of matter, the transformations from one form of matter to another and the energy transformations associated with these transformations.

Before Graduating Students Must

• Achieve at least 50% on the Diagnostic of Undergraduate Chemistry Knowledge (DUCK) exam.
• Obtain minimum grades of C in laboratory courses:

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. • Standard Chemistry
   Explain and apply facts, theories and concepts in
   i. physical
   ii. organic
   iii. inorganic
   iv. analytical chemistry
• Biochemistry
   Explain and apply facts, theories and concepts in
   i. physical
   ii. organic
   iii. inorganic
   iv. analytical chemistry
   v. biochemistry

2. • Standard Chemistry
   Demonstrate and safely apply laboratory skills in
   i. synthetic
   ii. quantitative
   iii. instrumental methods as scientific approaches to gathering and verifying knowledge
• Biochemistry
   Apply laboratory skills in
   i. synthetic
   ii. quantitative
   iii. instrumental
   iv. biochemical methods as scientific approaches to gathering and verifying knowledge

Critical Thinking

3. Standard Chemistry and Biochemistry
   Interpret, evaluate, explain and critically assess theories and experimental results in chemistry or biochemistry.

Communication

4. Standard Chemistry and Biochemistry
   Collect, analyze and articulate results clearly and effectively in both oral and written formats.

Assessment Types for Both Specializations

• Oral tests or reports
• Written reports
• Lab practicals
**Chemistry**

Chemistry is often called the central science because of the pivotal role it plays in the biological and physical sciences, as well as in engineering, agriculture, medicine, and allied health disciplines. Bachelor’s degree chemists choose from diverse paths for their short-term and lifetime careers, including graduate study in a variety of programs, rewarding employment in industry or government laboratories, professional or law school, or much-needed teaching in high schools.

**About this Program**

- **College:** Liberal Arts and Sciences (p. 646)
- **Degree:** Bachelor of Science
- **Specializations:** Biochemistry (p. 726) | Chemistry (p. 731)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

**Department Information**

The Department of Chemistry is a comprehensive department granting bachelor’s, master’s, and Ph.D. degrees with specialization in all areas including biochemistry, nanochemistry, analytical, inorganic, organic, physical, polymer, synthetic and theoretical chemistry. The University of Florida ranks in the top five chemistry departments nationally in Ph.D. production (http://pubs.acs.org/cen/acs/8747news1.pdf) and is among the top 20 in bachelor’s graduates.

Website ([https://www.chem.ufl.edu/](https://www.chem.ufl.edu/))

**CONTACT**

Email (chairadmin@chem.ufl.edu) | 352.392.0541 (tel) | 352.392.8758 (fax)

P.O. Box 117200
214 LEIGH HALL
GAINESVILLE FL 32611-7200
Map ([http://campusmap.ufl.edu/#/index/0009](http://campusmap.ufl.edu/#/index/0009))

**Curriculum**

- Chemistry Minor
- Chemistry | Biochemistry

Students can choose the chemistry specialization, which is comparable to that offered in any major university, or the biochemistry specialization, which is designed to give more flexibility to students wanting to pursue courses with biological focus. The department encourages students in either specialization to include undergraduate research with one of the department’s internationally recognized faculty as a component of the undergraduate experience. Undergraduate research will frequently result in journal publications and/or presentations at scientific meetings.

**Coursework for the Major**

For either specialization (chemistry or biochemistry), all required courses must be completed within two attempts with minimum grades of C. Any foreign language acceptable to the college can be taken with this minimum program and language courses can be taken S-U. ENC 3254 is suggested to fulfill part of the university writing requirement.

**Required Coursework**

Required coursework will depend upon the program chosen. Coursework for each specialization can be found below under Critical Tracking and Model Semester Plan.

**Recommended Coursework**

A.C.S. Certified Program: To receive American Chemical Society certification, a student must complete the chemistry track. In addition, credit must be earned for CHM 3218, either CHM 3610L or CHM 4300L, and an additional two credits of advanced work in chemistry courses such as the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHM 4034</td>
<td>Advanced Biochemistry and Chemical Biology</td>
<td>4</td>
</tr>
<tr>
<td>CHM 4230</td>
<td>Organic Spectroscopy</td>
<td>2</td>
</tr>
<tr>
<td>CHM 4272</td>
<td>The Organic Chemistry of Polymers</td>
<td>2</td>
</tr>
<tr>
<td>CHM 4304</td>
<td>Chemical Aspects of Cellular Control</td>
<td>3</td>
</tr>
<tr>
<td>CHM 4910</td>
<td>Undergraduate Research</td>
<td>3</td>
</tr>
</tbody>
</table>

If CHM 4910 is used, a thesis must be written.

**Course Details**

**Introduction to General Chemistry**

CHM 1025, a two-credit course, is offered for students who need to strengthen their understanding of basic concepts of atomic structure and stoichiometry before beginning the general chemistry sequence:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHM 2045 &amp; 2045L</td>
<td>General Chemistry 1 and General Chemistry 1 Laboratory</td>
<td>4</td>
</tr>
<tr>
<td>CHM 2046 &amp; 2046L</td>
<td>General Chemistry 2 and General Chemistry 2 Laboratory</td>
<td>4</td>
</tr>
</tbody>
</table>

A placement exam is offered via ONE.UF ([https://one.uf.edu/](https://one.uf.edu/)) and the score achieved determines whether CHM 1025 or CHM 2045 is the appropriate first course in chemistry.

**Chemistry**

The following general chemistry offerings are available:

- CHM 1030/CHM 1031 is a terminal sequence for non-science students that presents chemistry from a medical and nursing perspective.
- CHM 1020 is a terminal general education course that explores chemistry in terms of society.
- CHM 2045/CHM 2045L and CHM 2046/CHM 2046L is the standard general chemistry sequence and is an acceptable preprofessional requirement for many science and engineering majors. Students are presumed to have good backgrounds in high school chemistry and mathematics (through MAC 1147) and are expected to pass the placement exam offered via ONE.UF ([https://one.uf.edu/](https://one.uf.edu/)) before registering for CHM 2045.
- CHM 2095/CHM 2045L and CHM 2096/CHM 2046L is an alternative general chemistry sequence especially designed for engineering majors.
- CHM 2047/CHM 2047L is a one-semester program for entering first-year students with strong backgrounds in chemistry, normally reflected by high AP or IB chemistry test scores. This program enables students to move more quickly into advanced work.
• CHM 2051 is offered as an alternative to CHM 2046 for students who have done particularly well in CHM 2045.
• CHM 2054L is a 2-credit, inquiry-based lab focusing on major concepts in chemistry and their application to quantitative life-sciences research. This course is equivalent to CHM 2045L and CHM 2046L or CHM 2047L.

Placement
For placement into the appropriate first course in chemistry, please refer to the Academic Advising section or consult a chemistry advisor. All students should complete their general chemistry studies at the same institution.

Minors and/or Certificates
UFTeach Program
There is a severe shortage of qualified high school chemistry teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see a chemistry advisor about the UFTeach program. UFTeach students complete the UFTeach minor in science teaching with their B.S. in chemistry and have the coursework and preparation for professional teacher certification in Florida when they graduate.

Chemistry
The chemistry major requires 65-70 credits, including the following coursework. With approval, this may include equivalent transfer coursework.

|          | CHM 4413L| Biophysical Chemistry Laboratory                                     | 2       |
|          | MAP 2302 | Elementary Differential Equations (encouraged)                       |         |

Total Credits 55-60

1 CHM 2054L can substitute for the CHM 2045L/CHM 2046L sequence or for CHM 2047L.

ISC 2400L can substitute for the CHM 2045L, BSC 2010L and PHY 2053L requirements. ISC 2401L can substitute for the CHM 2046L, BSC 211L and PHY 2054L requirements.

Required Exit Exam
Students must also complete the exit exam (Diagnostic of Undergraduate Chemistry Knowledge) with a minimum score of 30 out of 60.

The required courses in the chemistry major are generally offered every fall and spring. Because of budgetary and other restrictions, summer schedules cannot be predetermined and required courses generally are offered in Summer C (12 weeks).

Critical Tracking
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400501&track=01) may be used for transfer students.

Semester 1
• Complete one CHM course and one MAC course
• 2.0 UF GPA required
Semester 2
- Complete CHM 2045/CHM 2045L and MAC 2311
- 2.50 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

Semester 3
- Complete CHM 2046/CHM 2046L and MAC 2312
- 2.65 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

Semester 4
- 2.75 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

Semester 5
- Complete MAC 2313; and CHM 2212 or CHM 2210
- 2.75 critical-tracking GPA and any additional CHM courses
- 2.0 UF GPA required

Semester 6
- Complete CHM 3120/CHM 3120L, and CHM 2213/CHM 2211L or CHM 2211/CHM 2211L
- 2.0 UF GPA required

Semester 7
- Complete 2 of the remaining CHM 3XXX/4XXX required courses
- 2.0 UF GPA required

Semester 8
- Complete all of the remaining 3XXX/4XXX required courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

MAC 2312, MAC 2313, PHY 2049, PHY 2049L, PHY 2054, and PHY 2054L count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

  - PHY 2048L Laboratory for Physics with Calculus 1 (Gen Ed Physical Sciences) | 1       |
  - PHY 2053L Laboratory for Physics 1 (Gen Ed Physical Sciences) | 1       |
- Quest 2 course (Gen Ed Biological, Physical, or Social and Behavioral Sciences) | 3       |

Semester Four
- CHM 2213 Organic Chemistry 2 for Majors and Organic Chemistry Laboratory (Critical Tracking) | 5       |
- Select one: |
  - PHY 2049 Physics with Calculus 2 (Gen Ed Physical Sciences) | 3-4     |
  - PHY 2054 Physics 2 (Gen Ed Physical Sciences) | 1       |
- Select one: |
  - PHY 2049L Laboratory for Physics with Calculus 2 (Gen Ed Physical Sciences) | 1       |
  - PHY 2054L Laboratory for Physics 2 (Gen Ed Physical Sciences) | 1       |
- Foreign language | 4-5     |
- Elective | 1       |

Semester Five
- CHM 3120 & 3120L Introduction to Analytical Chemistry and Analytical Chemistry Laboratory (Critical Tracking) | 4       |
- Gen Ed Biological Sciences (or Elective if Quest 2 course in Semester 3 is GE-B) | 3       |
- Gen Ed Humanities | 3       |
- Gen Ed Social and Behavioral Sciences (or Elective if Quest 2 in Semester 3 is GE-S) | 3       |
Academic Learning Compact

Chemistry is the study of matter: the structure and properties of matter, the transformations from one form of matter to another and the energy transformations associated with these transformations.

Before Graduating Students Must

- Achieve at least 50% on the Diagnostic of Undergraduate Chemistry Knowledge (DUCK) exam.
- Obtain minimum grades of C in laboratory courses:
  - CHM 2211: Organic Chemistry 2 (3 credits)
  - CHM 3120L: Analytical Chemistry Laboratory (1 credit)
  - CHM 4130L: Instrumental Analysis Laboratory (2 credits)
  - CHM 4411L: Physical Chemistry Laboratory (2 credits)
  - CHM 4413L: Biophysical Chemistry Laboratory (2 credits)
- Complete requirements for the baccalaureate degree, as determined by the chemistry faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Standard Chemistry
   - Explain and apply facts, theories and concepts in
     i. physical
     ii. organic
     iii. inorganic
     iv. analytical chemistry
   - Biochemistry

2. Standard Chemistry
   - Demonstrate and safely apply laboratory skills in
     i. synthetic
     ii. quantitative
     iii. instrumental methods as scientific approaches to gathering and verifying knowledge

Biochemistry
   - Apply laboratory skills in
     i. synthetic
     ii. quantitative
     iii. instrumental
     iv. biochemical methods as scientific approaches to gathering and verifying knowledge

Critical Thinking

3. Standard Chemistry and Biochemistry
   - Interpret, evaluate, explain and critically assess theories and experimental results in chemistry or biochemistry.

Communication

4. Standard Chemistry and Biochemistry
   - Collect, analyze and articulate results clearly and effectively in both oral and written formats.

Exam

Assessment Types for Both Specializations

• Oral tests or reports
• Written reports
• Lab practicals

Chinese

Foreign Languages and Literatures

The Chinese specialization in foreign languages and literatures develops proficiency in the Chinese language and acquaints students with the literature and cultural history of China. Courses are also available for those interested in business Chinese, classical Chinese, film, and women's studies.

About this Program

• College: Liberal Arts and Sciences (p. 646)
• Degree: Bachelor of Arts
• Credits for Degree: 120
• More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

Email (dtillman@ufl.edu) | 352.392.2422 (tel) | 352.392.1443 (fax)

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

The Chinese specialization of the Foreign Languages and Literatures major provides a foundation for graduate-level work in East Asian studies or allied fields (anthropology, art history, history, linguistics, political science and religion). The major is excellent general preparation for entry to professional schools (business, journalism, law and medicine) or careers in foreign service, commerce, diplomacy, translation, business, import and export of information and culture, museums, libraries, and tourism.

Coursework for the Major

The Chinese specialization of the Foreign Languages and Literatures major consists of preparatory language study at the lower division (1000
and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

Students also must achieve satisfactory faculty evaluation of a self-selected research term paper written for an upper-division course or senior thesis.

**Overseas Study**

UF in Chengdu at Southwestern University of Finance and Economics is a summer program that provides the equivalent of the UF courses Intermediate Chinese 1 and 2 (CHI 2230/2231) and Advanced Chinese 1 and 2 (CHI 3410/3411) through a 10-week summer session, and uses the same syllabus and required textbooks. Its transfer-credit program features courses in English, CHI 4930 Chinese Society and CHI 4956 Sichuan Culture, that also may apply toward the Chinese specialization.

**Placement**

Students with previous training in Chinese, as well as those with heritage background in the language, should consult the undergraduate coordinator or the language coordinator of the Chinese specialization before enrolling in any CHI or CHW course. Placement tests are given at the start of each semester; refer to the Department of Languages, Literatures and Cultures for location and times.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160399&track=01) may be used for transfer students.

**Semester 1**

- 2.0 UF GPA required

**Semester 2**

- 2.0 UF GPA required

**Semester 3**

- Complete CHI 1130 or higher level language course with a minimum grade of C
- 2.0 UF GPA required

**Semester 4**

- Complete CHI 1131 or higher level language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**Semester 5**

- Complete CHI 2230 or higher level language course with a minimum grade of C and a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**Semester 6**

- Complete CHI 2231 or a higher-level Chinese language course with a minimum grade of C
• Complete 2 Advanced Elective courses with a minimum grade of C
• 2.0 UF GPA required

Semester 7
• Complete CHI 3410 or a higher-level Chinese language course with a minimum grade of C
• Complete 2 Advanced Elective courses with a minimum grade of C
• Complete 1 Critical Concentration course with a minimum grade of C
• 2.0 UF GPA required

Semester 8
• Complete CHI 3411 or a higher-level Chinese language course with a minimum grade of C
• Complete 2 Advanced Elective courses with a minimum grade of C
• Complete 2 Critical Concentration courses with a minimum grade of C
• 2.0 UF GPA required

Model Semester Plan
Actual courses may be different depending on language preparation and availability of courses. In particular, beginning language is best started semester 1 and no later than semester 3, but study abroad or accredited intensive summer courses can be used to catch up.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). Several courses in this major count for GE-H and N requirements. 3000 level or above critical concentration courses outside of Chinese may count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact
The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must
• Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
• Complete requirements for the baccalaureate degree, as determined by faculty.
• Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking
2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication
3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

Classical Studies

Classical Studies is an interdisciplinary major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek.

About this Program

- **College:** Liberal Arts and Sciences (p. 646)
- **Degree:** Bachelor of Arts
- **Specializations:** Ancient Language (p. 742) | Classical Civilization (p. 745) | Modern Greek (p. 749) | Teacher Certification (p. 752)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Classics offers an interdisciplinary Classical Studies major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek. The department also offers minors in Classical Studies and Greek Studies.

Curriculum

- **Classical Studies**
- **Classical Studies Minor**
- **Greek Studies Minor**

Students who major in classical studies often pursue graduate studies in classical languages and literature, art history, ancient history, archaeology, comparative literature, and museum studies. Additional career opportunities are possible depending upon the specialization the student chooses. Small class sizes, emphasis on critical thinking and expression, and a faculty committed to involvement in lower-level undergraduate courses also make this major appealing to students who want excellent preparation for entry to professional schools (e.g., medicine or law).

Specializations

Ancient Language

The ancient language specialization is appropriate for students wishing to have direct contact with the literature and culture of the ancients, and for those who plan to do graduate study in Greek or Latin. Students interested in admission to competitive graduate programs in archaeology or ancient history should consult the Department of Classics' undergraduate coordinator for information on specific requirements.

Modern Greek

The modern Greek specialization is appropriate for students wishing to have direct contact with the language, literature, and culture of modern Greece and a closer acquaintance with ancient and medieval Greek civilization. Students study in greater detail the numerous communities of the diaspora, which includes the large and flourishing Greek-American communities of Florida, their history and contemporary culture. By learning a modern European language, students can work in translation, education, services, tourism, the entertainment industry, and political or financial institutions with ties to Greece or Cyprus.

Teacher Certification

Students who want to be high-school Latin teachers should follow the teacher certification specialization. Students who pursue the Florida Teaching minor have the coursework and preparation for professional teacher certification in Florida when they graduate. Alternatively, students can consider a minor in educational studies that would be beneficial if applying to the ProTeach program. Students should consult the College of Education for more information.

Coursework for the Major

Students must complete 21-30 credits of coursework for the classical studies major; the total is dependent upon the specialization. Students must earn a minimum grade of C in a course for it to be applied to the major; no S/U courses can be applied. The Department of Classics...
requires that a minimum 15 credits of major-related courses be completed at the University of Florida.

All classical studies majors are also required to demonstrate proficiency in Latin, ancient Greek, or modern Greek, depending on the specialization. Credits earned in language courses are not included in the 21-30 credits of coursework for the major.

**Overseas Studies**

Students may participate in summer, semester, or academic year programs in Italy and Greece. Competitive scholarships for study abroad are available. Students in the modern Greek specialization are encouraged to participate in programs in Greece or Cyprus supported with competitive scholarships by the Center for Greek Studies and other organizations in the United States, Greece, and the European Union.

**Placement**

Refer to Placement Testing and Evaluation for information on placement into Latin.

**Academic Learning Compact**

The Bachelor of Arts in classical studies, with specializations in classical civilization, ancient language, teacher certification or modern Greek studies provides a strong foundation in the liberal arts through study of the language, literature, monuments and history of ancient Greece and Rome. Students will develop linguistic, critical thinking and writing skills while gaining knowledge of classical civilization. Students also will explore the connection between the ancient and modern worlds and discover the contributions of classical culture to western civilization.

**Before Graduating Students Must**

- Successfully complete a department capstone course for majors.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Translate passages of Latin, ancient Greek or Modern Greek literature into English.

**Critical Thinking**
2. Recognize and explain the connection between the ancient and modern worlds and the contribution of Classical culture to Western civilization.

**Communication**
3. Write competently in Latin, ancient Greek, or Modern Greek using correct grammar and vocabulary of one or more of these languages. For Modern Greek, speak and comprehend competently.

</table>

1. Students with high school Latin complete the sequence based upon their score on the SAT II Latin test (or other placement mechanism).

2. A score of 3 or above on one of the AP Latin exams (Latin Literature or Vergil).

3. Completion of LNW 2630 or a 2000-level ancient Greek course.

4. A 3000-level course in the original Latin or Greek literature.

In addition to demonstrating proficiency in Latin or ancient Greek, students must complete 21 credits of coursework for the major:

- Two courses on the ancient Graeco-Roman world (in English translation) from the Department of Classics or approved courses from the departments of Anthropology, Art, History, Philosophy, Political Science, and Religion. At least one course must be 3000 level or above.

- Five courses at the 3000 level or above in Latin or Greek or a combination of Greek and Latin, including CLA 4931. Students who complete the language requirement using a 3000-level course in Latin or Greek literature need only four Latin or Greek courses at the 3000 level or above.

- Students planning to go to graduate school in classical languages and literature will need more credits in ancient languages.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=161200&track=01) may be used for transfer students.

**Semester 1**

- 2.0 UF GPA required

**Semester 2**

- Complete one Latin or ancient Greek course

  - 2.0 UF GPA required

**Semester 3**

- 2.0 UF GPA required

**Semester 4**

- Complete one additional Latin or ancient Greek course with 2.5 critical-tracking GPA

  - 2.0 UF GPA required

**Semester 5**

- Complete two Latin or ancient Greek courses with 2.5 critical-tracking GPA

  - 2.0 UF GPA required

**Semester 6**

- Complete 2 of the remaining required courses

  - 2.0 UF GPA required

**Semester 7**

- Complete all of the remaining required courses

  - 2.0 UF GPA required

**Semester 8**

- Complete CLA 4931 (Capstone)

  - 2.0 UF GPA required

1 Students with prior Greek or Latin and an SAT II Latin score of 540 or higher, a 3 or higher on the AP Latin exam or a 4 or higher on the IB exam will begin with more advanced courses.
Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). One of the two general education mathematics courses must be a pure math course.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

1 Students with prior Greek or Latin and an SAT II Latin score of 540 or higher, a 3 or higher on the AP Latin exam or a 4 or higher on the IB exam will begin with more advanced courses.

2 One general education option taken this term must be a Quest 2 course.

### Academic Learning Compact

The Bachelor of Arts in classical studies, with specializations in classical civilization, ancient language, teacher certification or modern Greek studies provides a strong foundation in the liberal arts through study of the language, literature, monuments and history of ancient Greece and Rome. Students will develop linguistic, critical thinking and writing skills while gaining knowledge of classical civilization. Students also will explore the connection between the ancient and modern worlds and discover the contributions of classical culture to western civilization.

### Before Graduating Students Must

- Successfully complete a department capstone course for majors.
- Complete requirements for the baccalaureate degree, as determined by faculty.
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Translate passages of Latin, ancient Greek or Modern Greek literature into English.

Critical Thinking
2. Recognize and explain the connection between the ancient and modern worlds and the contribution of Classical culture to Western civilization.

Communication
3. Write competently in Latin, ancient Greek, or Modern Greek using correct grammar and vocabulary of one or more of these languages. For Modern Greek, speak and comprehend competently.

Classical Civilization

Classical Studies is an interdisciplinary major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek.

About this Program
- College: Liberal Arts and Sciences (p. 646)
- Degree: Bachelor of Arts
Graduate programs in archaeology or ancient history should consult the Department of Classics’ undergraduate coordinator for information on specific requirements.

Modern Greek

The modern Greek specialization is appropriate for students wishing to have direct contact with the language, literature, and culture of modern Greece and a closer acquaintance with ancient and medieval Greek civilization. Students study in greater detail the numerous communities of the diaspora, which includes the large and flourishing Greek-American communities of Florida, their history and contemporary culture. By learning a modern European language, students can work in translation, education, services, tourism, the entertainment industry, and political or financial institutions with ties to Greece or Cyprus.

Teacher Certification

Students who want to be high-school Latin teachers should follow the teacher certification specialization. Students who pursue the Florida Teaching minor have the coursework and preparation for professional teacher certification in Florida when they graduate. Alternatively, students can consider a minor in educational studies that would be beneficial if applying to the ProTeach program. Students should consult the College of Education for more information.

Coursework for the Major

Students must complete 21-30 credits of coursework for the classical studies major; the total is dependent upon the specialization. Students must earn a minimum grade of C in a course for it to be applied to the major; no S/U courses can be applied. The Department of Classics requires that a minimum 15 credits of major-related courses be completed at the University of Florida.

All classical studies majors are also required to demonstrate proficiency in Latin, ancient Greek, or modern Greek, depending on the specialization. Credits earned in language courses are not included in the 21-30 credits of coursework for the major.

Overseas Studies

Students may participate in summer, semester, or academic year programs in Italy and Greece. Competitive scholarships for study abroad are available. Students in the modern Greek specialization are encouraged to participate in programs in Greece or Cyprus supported with competitive scholarships by the Center for Greek Studies and other organizations in the United States, Greece, and the European Union.

Placement

Refer to Placement Testing and Evaluation for information on placement into Latin.

Classical Civilization

Required Coursework

Students must demonstrate proficiency in Latin or ancient Greek through one of these four options:

10 credits of beginning Latin or beginning ancient Greek:

<table>

Option A
GRE 1120  Beginning Ancient Greek 1
GRE 1121  Beginning Ancient Greek 2
Option B
GRE 1130  Accelerated Beginning Ancient Greek 1
GRE 1131  Accelerated Beginning Ancient Greek 2
1 Students with high school Latin complete the sequence based upon their score on the SAT II Latin test (or other placement mechanism).

1. A score of 3 or above in one of the AP Latin exams (Latin Literature or Vergil).
2. Completion of LNW 2630 or a 2000-level ancient Greek course.
3. A 3000-level course in the original Latin or Greek literature.

In addition to demonstrating proficiency in Latin or ancient Greek, students must complete 24 credits of coursework for the major:

- 24 credits covering the ancient Graeco-Roman world (in English translation) from the Department of Classics or approved courses from the departments of Anthropology, Art, History, Philosophy, Political Science, and Religion.
  - At least 18 credits must be 3000 level or above, including CLA 4931.
  - Modern Greek may be taken for the six credits at the 1000/2000 level.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=161200&track=01) may be used for transfer students.

Modern Greek

Classical Studies is an interdisciplinary major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek.

About this Program

- **College**: Liberal Arts and Sciences (p. 646)
- **Degree**: Bachelor of Arts
- **Specializations**: Ancient Language (p. 742) | Classical Civilization (p. 745) | Modern Greek (p. 749) | Teacher Certification (p. 752)
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Classics offers an interdisciplinary Classical Studies major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek. The department also offers minors in Classical Studies and Greek Studies.

Curriculum

- **Classical Studies**
- **Classical Studies Minor**
- **Greek Studies Minor**

Students who major in classical studies often pursue graduate studies in classical languages and literature, art history, ancient history, archaeology, comparative literature, and museum studies. Additional career opportunities are possible depending upon the specialization the student chooses. Small class sizes, emphasis on critical thinking and expression, and a faculty committed to involvement in lower-level undergraduate courses also make this major appealing to students who want excellent preparation for entry to professional schools (e.g., medicine or law).
**Specializations**

**Ancient Language**

The ancient language specialization is appropriate for students wishing to have direct contact with the literature and culture of the ancients, and for those who plan to do graduate study in Greek or Latin. Students interested in admission to competitive graduate programs need a minimum of three years of upper-division courses in ancient Greek or Latin and an additional year in the remaining language.

**Classical Civilization**

The classical civilization specialization is appropriate for those who desire a broad humanities background or are considering admission to graduate school in archaeology, ancient history or an unrelated field such as medicine or law. Students interested in admission to competitive graduate programs in archaeology or ancient history should consult the Department of Classics’ undergraduate coordinator for information on specific requirements.

**Modern Greek**

The modern Greek specialization is appropriate for students wishing to have direct contact with the language, literature, and culture of modern Greece and a closer acquaintance with ancient and medieval Greek civilization. Students study in greater detail the numerous communities of the diaspora, which includes the large and flourishing Greek-American communities of Florida, their history and contemporary culture. By learning a modern European language, students can work in translation, education, services, tourism, the entertainment industry, and political or financial institutions with ties to Greece or Cyprus.

**Teacher Certification**

Students who want to be high-school Latin teachers should follow the teacher certification specialization. Students who pursue the Florida Teaching minor have the coursework and preparation for professional teacher certification in Florida when they graduate. Alternatively, students can consider a minor in educational studies that would be beneficial if applying to the ProTeach program. Students should consult the College of Education for more information.

**Coursework for the Major**

Students must complete 21-30 credits of coursework for the classical studies major; the total is dependent upon the specialization. Students must earn a minimum grade of C in a course for it to be applied to the major; no S/U courses can be applied. The Department of Classics requires that a minimum 15 credits of major-related courses be completed at the University of Florida.

All classical studies majors are also required to demonstrate proficiency in Latin, ancient Greek, or modern Greek, depending on the specialization. Credits earned in language courses are not included in the 21-30 credits of coursework for the major.

**Overseas Studies**

Students may participate in summer, semester, or academic year programs in Italy and Greece. Competitive scholarships for study abroad are available. Students in the modern Greek specialization are encouraged to participate in programs in Greece or Cyprus supported with competitive scholarships by the Center for Greek Studies and other organizations in the United States, Greece, and the European Union.

**Placement**

Refer to Placement Testing and Evaluation for information on placement into Latin.

**Modern Greek Required Coursework**

Students in the modern Greek specialization are required to demonstrate proficiency in modern Greek by completing the beginning sequence of modern Greek (10 credits: GRK 1130 and GRK 1131) or (with department approval) the intermediate modern Greek sequence (3-6 credits).

In addition to demonstrating proficiency in modern Greek, students must complete 24 credits of coursework for the major:

- GRK 2200.
- Two courses at the 3000 level on the modern, medieval or ancient Greek world from the Department of Classics or approved courses from the departments of Anthropology, Art, European Studies, History, Philosophy, Political Science, Religion, and Women’s Studies.
- Five courses in modern Greek, Byzantine Greek, ancient Greek or Latin at the 3000 level or above, of which at least two courses must be in modern Greek. Included in these five courses is CLA 4931.

Study-abroad programs are recommended and supported with scholarships for the cultivation of greater fluency in modern Greek.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=161200&track=01) may be used for transfer students.

**Semester 1**

- 2.0 UF GPA required

**Semester 2**

- Complete one modern Greek course
  - Select the language based on the specialization chosen.
  - 2.0 UF GPA required

**Semester 3**

- 2.0 UF GPA required

**Semester 4**

- Complete one additional modern Greek course with 2.5 critical-tracking GPA
- 2.0 UF GPA required
Semester 5
• Complete two additional modern Greek courses with 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 6
• Complete 2 of the remaining required courses
• 2.0 UF GPA required

Semester 7
• Complete all of the remaining required courses
• 2.0 UF GPA required

Semester 8
• Complete CLA 4931 (Capstone)
• 2.0 UF GPA required

1 At least two of these courses must be in modern Greek.

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). One of the two general education mathematics courses must be a pure math course.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria. This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

1 At least two of these courses must be in modern Greek.

2 One general education option taken this term must be a Quest 2 course.

Academic Learning Compact
The Bachelor of Arts in classical studies, with specializations in classical civilization, ancient language, teacher certification or modern Greek studies provides a strong foundation in the liberal arts through study of the language, literature, monuments and history of ancient Greece and Rome. Students will develop linguistic, critical thinking and writing skills while gaining knowledge of classical civilization. Students also
will explore the connection between the ancient and modern worlds and discover the contributions of classical culture to western civilization.

Before Graduating Students Must
- Successfully complete a department capstone course for majors.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Translate passages of Latin, ancient Greek or Modern Greek literature into English.

Critical Thinking
2. Recognize and explain the connection between the ancient and modern worlds and the contribution of Classical culture to Western civilization.

Communication
3. Write competently in Latin, ancient Greek, or Modern Greek using correct grammar and vocabulary of one or more of these languages. For Modern Greek, speak and comprehend competently.

Teacher Certification

Classical Studies is an interdisciplinary major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek.
About this Program

- **Degree:** Bachelor of Arts
- **Specializations:** Ancient Language (p. 742) | Classical Civilization (p. 745) | Modern Greek (p. 749) | Teacher Certification (p. 752)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Classics offers an interdisciplinary Classical Studies major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek. The department also offers minors in Classical Studies and Greek Studies.

Curriculum

- Classical Studies
- Classical Studies Minor
- Greek Studies Minor

Students who major in classical studies often pursue graduate studies in classical languages and literature, art history, ancient history, archaeology, comparative literature, and museum studies. Additional career opportunities are possible depending upon the specialization the student chooses. Small class sizes, emphasis on critical thinking and expression, and a faculty committed to involvement in lower-level undergraduate courses also make this major appealing to students who want excellent preparation for entry to professional schools (e.g., medicine or law).

Specializations

**Ancient Language**
The ancient language specialization is appropriate for students wishing to have direct contact with the literature and culture of the ancients, and for those who plan to do graduate study in Greek or Latin. Students interested in admission to competitive graduate programs need a minimum of three years of upper-division courses in ancient Greek or Latin and an additional year in the remaining language.

**Classical Civilization**
The classical civilization specialization is appropriate for those who desire a broad humanities background or are considering admission to graduate school in archaeology, ancient history or an unrelated field such as medicine or law. Students interested in admission to competitive graduate programs in archaeology or ancient history should consult the Department of Classics’ undergraduate coordinator for information on specific requirements.

**Modern Greek**
The modern Greek specialization is appropriate for students wishing to have direct contact with the language, literature, and culture of modern Greece and a closer acquaintance with ancient and medieval Greek civilization. Students study in greater detail the numerous communities of the diaspora, which includes the large and flourishing Greek-American communities of Florida, their history and contemporary culture. By learning a modern European language, students can work in translation, education, services, tourism, the entertainment industry, and political or financial institutions with ties to Greece or Cyprus.

**Teacher Certification**
Students who want to be high-school Latin teachers should follow the teacher certification specialization. Students who pursue the Florida Teaching minor have the coursework and preparation for professional teacher certification in Florida when they graduate. Alternatively, students can consider a minor in educational studies that would be beneficial if applying to the ProTeach program. Students should consult the College of Education for more information.

Coursework for the Major

Students must complete 21-30 credits of coursework for the classical studies major; the total is dependent upon the specialization. Students must earn a minimum grade of C in a course for it to be applied to the major; no S/U courses can be applied. The Department of Classics requires that a minimum 15 credits of major-related courses be completed at the University of Florida.

All classical studies majors are also required to demonstrate proficiency in Latin, ancient Greek, or modern Greek, depending on the specialization. Credits earned in language courses are not included in the 21-30 credits of coursework for the major.

Overseas Studies

Students may participate in summer, semester, or academic year programs in Italy and Greece. Competitive scholarships for study abroad are available. Students in the modern Greek specialization are encouraged to participate in programs in Greece or Cyprus supported with competitive scholarships by the Center for Greek Studies and other organizations in the United States, Greece, and the European Union.

Placement

Refer to Placement Testing and Evaluation for information on placement into Latin.

Teacher Certification

Required Coursework

Students in this specialization must demonstrate proficiency in Latin by fulfilling one of these four options:

<table>
<thead>
<tr>
<th>Option</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>LAT 1120</td>
<td>Beginning Latin 1</td>
<td>4</td>
</tr>
<tr>
<td>LAT 1101</td>
<td>Beginning Latin 2</td>
<td>3</td>
</tr>
</tbody>
</table>
Students with high school Latin complete the sequence based upon their score on the SAT II Latin test (or other placement mechanism).

2. A score of 3 or above in one of the AP Latin exams (Latin Literature or Vergil).
3. Completion of LNW 2630.
4. A 3000-level course in the original Latin literature.

In addition to demonstrating proficiency in Latin, students must complete 30 credits of coursework for the major:

- 24 credits of advanced Latin, including:
  - 9 credits in Latin vocabulary, grammar, and composition
  - 12 credits in Latin literature (not in translation)
  - 3 credits of CLA 4931
- Two courses on the ancient Roman world (not in English translation) from the Department of Classics or from the departments of Anthropology, Art, History, Philosophy, Political Science, and Religion. At least one of these must be 3000 level or above.
- Students planning to earn a state of Florida Latin teaching certificate need to make certain which courses dealing with Rome are appropriate for this option.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=161200&track=01) may be used for transfer students.

**Semester 1**
- 2.0 UF GPA required

**Semester 2**
- Complete one Latin or ancient Greek course
- 2.0 UF GPA required

**Semester 3**
- 2.0 UF GPA required

**Semester 4**
- Complete one additional Latin or ancient Greek course with 2.5 critical-tracking GPA
- 2.0 UF GPA required

**Semester 5**
- Complete two additional Latin or ancient Greek courses with 2.5 critical-tracking GPA
- 2.0 UF GPA required

**Semester 6**
- Complete 3 of the remaining required courses
- 2.0 UF GPA required

**Semester 7**
- Complete 4 of the remaining required courses
- 2.0 UF GPA required

**Semester 8**
- Complete all of the remaining required courses
- Complete CLA 4931 (Capstone)
- 2.0 UF GPA required

1 Students with prior Greek or Latin and an SAT II Latin score of 540 or higher, a 3 or higher on the AP Latin exam or a 4 or higher on the IB exam will begin with more advanced courses.

### Mode Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). One of the two general education mathematics courses must be a pure math course.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Classical Studies Minor

The College of Liberal Arts and Sciences is the largest college on campus, with more than 10,000 undergraduate students pursuing a variety of disciplines through over 40 majors and 49 minors. Undergraduate students acquire an intellectual foundation based on a well-rounded and comprehensive education designed for an increasingly technological and rapidly changing society.

Department Information
The Department of Classics offers an interdisciplinary Classical Studies major, with specializations in ancient language, classical civilization, and teacher certification that offer students instruction in the history, literature, and culture of the ancient Greeks and Romans. These three specializations require proficiency in Latin or ancient Greek. A fourth specialization in modern Greek offers students instruction in the language, literature, and culture of modern Greece and requires proficiency in modern Greek. The department also offers minors in Classical Studies and Greek Studies.

Curriculum
- Classical Studies
- Classical Studies Minor
- Greek Studies Minor

Assessment Types
- Translations
- Group presentations
- Research papers
The minor consists of five Greek, Latin, or classics courses. At least nine of these credits must be in courses at the 3000 level or above. Of the total credits, no more than three may be individual work.

Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

**Required Courses**

**Communication Studies Minor**

Effective communication skills at the personal and professional levels are essential prerequisites for success in today’s world. The Communication Studies minor provides an interdisciplinary forum for the study of communication and the opportunity for students to add indispensable tools to their educational program.

**About this Program**

- **College:** Liberal Arts and Sciences (p. 646)
- **Credits:** 18 | Completed with minimum grades of C and no optional S-U
- **Contact:** 402 Rolfs Hall (http://campusmap.ufl.edu/?loc=0012) | 352.392.5421

**Center Information**

The William and Grace Dial Center for Written and Oral Communication assists in preparing University of Florida students to speak and write effectively using the major conventions governing the presentation of knowledge in their chosen disciplines. Additionally, the students gain an understanding of the importance of communicating information from within their discipline to general audiences.

1. SPC 4680 is not accepted for the communication studies minor.

**Computer Science UF Online**

This program combines the study of computer science with a liberal arts education. It prepares students for employment as computing professionals while offering significant freedom to choose coursework in other areas. The major is especially popular with students who want the technical education in computer science with the flexibility to take other non-technical courses, sometimes in the form of a minor or certificate.

**About this Program**

- **College:** Liberal Arts and Sciences (p. 646)
- **Degree:** Bachelor of Science
- **Credits for Degree:** 120
- **Contact:** 1.855.99GATOR
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

**Department Information**

The mission of the Department of Computer & Information Science & Engineering is to educate students, as well as the broader campus community, in the fundamental concepts of the computing discipline; to create and disseminate computing knowledge and technology; and to use expertise in computing to help society solve problems.

**Curriculum**

- Combination Degrees
- Computer and Information Science and Engineering Minor
- Computer and Information Science and Engineering Minor UF Online
- Computer Science UF Online
- Computer Science | CLAS
- Computer Science | Herbert Wertheim College of Engineering
- Digital Arts and Sciences | Bachelor of Science
Computer science majors in CLAS take a solid foundation of core computer science courses while fulfilling requirements for a liberal arts education, including courses from the humanities, social and behavioral sciences, and the study of a foreign language. Questions about the major should be directed to a department advisor.

Coursework for the Major

This major requires a minimum of 29 credits in foundation coursework, 35 credits in core coursework, and 9 credits of major electives. Students must earn minimum grades of C in coursework for the major. An exit interview is required in the student’s last semester.

A student can request to transfer in a maximum of four courses toward required core Computer Science or required Computer Science elective coursework, dependent upon courses being deemed equivalent by the Department. Course equivalency requests should begin with the department advising office, followed by the undergraduate coordinator.

Students may opt to take COP 3504C in lieu of COP 3502C and COP 3503C. If elected, students will need to complete an additional 4 credits to complete the degree program.

Combination Degree Program

The computer science combination-degree program is a joint program between the colleges of Engineering and Liberal Arts and Sciences and is coordinated by the Department of Computer and Information Science and Engineering.

Placement

Students who have scored at least a 4 or 5 on the AP Computer Science exam are eligible to start the programming fundamentals sequence with COP 3503C. Students will need to see an advisor in the major to adjust their degree audit.

Total Credits 73-76

1 Students should check prerequisites when planning their major electives. Students should discuss electives with an advisor in the department. Individual study, co-op, internship, research, and special topics credits must be approved by an advisor in the department.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=110101&track=01) may be used for transfer students.

Semester 1
- Complete MAC 1147 or MAC 2311
- 2.0 UF GPA required

Semester 2
- Complete MAC 2311
- 2.0 UF GPA required

Semester 3
- Complete MAC 2312
- 2.0 UF GPA required

Semester 4
- Complete MAC 2313; and PHY 2053/PHY 2053L or PHY 2048/PHY 2048L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required
Semester 5
- Complete COP 3502C or COP 3504C; and PHY 2054/PHY 2054L or PHY 2049/PHY 2049L
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 6
- Complete COP 3503C or COP 3504C; and COT 3100
- 2.0 UF GPA required

Semester 7
- Complete COP 3530
- 2.0 UF GPA required

Semester 8
- Complete COP 4600
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-I) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

ENC 3246, MAC 2312, MAC 2313, PHY 2049, PHY 2049L, PHY 2054, PHY 2054L, STA 3032, MAS 3114, and MAS 4105 may count towards 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

</table>
The College of Liberal Arts and Sciences’ computer science program exposes students to a broad range of disciplines, including programming languages, theory of computer science, physical science, mathematics and software engineering. Students will graduate with the ability to apply knowledge of science and mathematics to computer science problems, design computer systems or components to satisfy users’ needs and communicate technical information regarding computer systems to other computer scientists. This program emphasizes the broader aspects of computer science and is less technical in depth than the computer science program in the Herbert Wertheim College of Engineering.

Before Graduating Students Must
- Pass assessment according to department rubric of student performance on a major design experience.
- Pass assessment in one or more core courses or individual assignments targeted to each SLO.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Apply knowledge of mathematics and science to computer science problems.
2. Design a computing system, component or process, analyzing and interpreting the data.
3. Use the techniques, skills and tools necessary for computer science practice.

Critical Thinking
4. Design a computing system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, and health and safety constraints.
5. Identify, formulate and solve computer science problems.

Communication
6. Communicate technical data and design information effectively in writing, in speech and in multidisciplinary teams to other computer scientists.

#### Academic Learning Compact
The College of Liberal Arts and Sciences’ computer science program exposes students to a broad range of disciplines, including programming languages, theory of computer science, physical science, mathematics and software engineering. Students will graduate with the ability to apply knowledge of science and mathematics to computer science problems,
to design computer systems or components to satisfy users’ needs and to communicate technical information regarding computer systems to other computer scientists. This program emphasizes the broader aspects of computer science and is less technical in depth than the computer science program in the Herbert Wertheim College of Engineering.

**Before Graduating Students Must**

- Pass assessment according to department rubric of student performance on a major design experience.
- Pass assessment in one or more core courses or individual assignments targeted to each SLO.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Apply knowledge of mathematics and science to computer science problems.
2. Design a computing system, component or process, analyzing and interpreting the data.
3. Use the techniques, skills and tools necessary for computer science practice.

**Critical Thinking**

4. Design a computing system, component or process to meet desired needs within realistic economic, environmental, social, political, ethical, and health and safety constraints.
5. Identify, formulate and solve computer science problems.

**Communication**

6. Communicate technical data and design information effectively in writing, in speech and in multidisciplinary teams to other computer scientists.

**Curriculum Map**

**Assessment Types**

- Written assignments
- Exams
- Oral reports/presentations
- Exit survey

**Criminology**

The Department of Sociology and Criminology offers the largest interdisciplinary degree program at UF. Students seeking a degree in criminology will study the complexities of relationships among the legal, social, political, historical, and psychological influences affecting law processes and crime and justice.

**About this Program**

- **College:** Liberal Arts and Sciences (p. 646)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

**Department Information**

The Department of Sociology and Criminology & Law has over 1,000 undergraduate majors and 100 graduate students. The department’s faculty are internationally known for their research in the areas of families, gender, and sexualities; health, aging, and the life course; environmental and resource sociology; race and ethnicity; criminology and criminal justice; and psychology and law.

**Curriculum**

- Combination Degrees
- Criminology
- Criminology UF Online
- Sociology
- Sociology Minor
- Sociology Minor UF Online
- Sociology of Social Justice and Policy Minor
- Sociology UF Online

Courses focus on explanations for the development of law within society, why people break laws and how society reacts to law-breaking. Interdisciplinary breadth in the study of criminology is essential for those majoring in criminology. Majors may enroll in relevant courses offered outside the department to help satisfy tracking requirements (listed below under Foundation Coursework).

After obtaining a B.A. in criminology, students can seek careers as professionals working within the criminal or juvenile justice systems (i.e., courts, law enforcement, corrections). Many students also attend law school, while others attend graduate school where they may conduct research on criminological issues.
Coursework for the Major

The major requires 34 credits. At least 22 of the 34 must be taken at UF in courses offered by the department with prefixes of CCJ, CJC, CJE, CJJ, or CJL. Students may apply no more than 6 credits of 1000/2000-level coursework to the major.

A maximum of 12 credits of criminology courses can be transferred toward the major. Students who transfer six credits of 1000/2000-level (lower division) credits into the major should not take CJL 2000 (https://catalog.ufl.edu/search/?P=CJL%202000). There are restrictions on which lower-division courses will transfer to the major. Lower-division courses that transfer into the major include introductory courses on criminology, criminal justice and criminal law/procedure. Students who wish to take interdisciplinary courses and transfer credits from another institution need to be careful about the 22-credit residency requirement.

Minimum grades of C must be earned in courses that count toward the major. The only exceptions are CCJ 4940 (https://catalog.ufl.edu/search/?P=CCJ%204940) and CCJ 4905 which require grades of S.

Minimum grades of C must be earned in courses that count toward the major. The only exceptions are CCJ 4940 (https://catalog.ufl.edu/search/?P=CCJ%204940) and CCJ 4905 which require grades of S.

Total Credits 46-55

1. These courses are the basis for meeting the student learning outcomes in the major's academic learning compact, therefore they must be taken at UF.
2. Students should take this course only if they have not already completed six credits of 1000/2000-level criminology courses.
3. Majors may choose from any course offered in the department not used to meet this requirement.
4. These approved interdisciplinary courses may also apply to the CLAS electives requirement. These courses do not apply toward the 22-credit residency requirement.

Students may apply only 3 credits of CCJ 4940 or 3 credits of CCJ 4911 (if taken as S/U) to the 34 credits for the major. CCJ 4940 is automatically graded S/U. CCJ 4911 may be taken as either a letter grade or S/U, but the student must submit an application to the registrar's office for this course to be taken as an S/U grade.

Exit Exam Requirement

To complete the major students must pass a department exit examination regarding crime, criminal justice, law and society, and criminological theory, administered online.

Recommended Coursework

Students who meet CLAS honors criteria (3.5 upper-division GPA) may take up to six credits in CCJ 4970 or enroll in up to two graduate seminars as honors courses, depending on instructor permission and course availability. However, students should keep in mind the tuition differences between undergraduate and graduate credits.

Combination Degree Programs

The opportunity to get an early start on graduate work by enrolling in graduate credits exists in a combination B.A./M.A. program. Interested students must apply and be accepted to the undergraduate phase (so that graduate credits can count toward the major to earn the B.A. degree). Independently, they also must apply for admission to the graduate phase and compete with all other applicants for admission to a limited number of openings each fall.

Overseas Studies

The major has no affiliated overseas programs. Criminology majors, however, frequently study abroad and can often transfer credits to the major.

Placement

CCJ 3024 is a prerequisite or corequisite for most of the other courses in the major. During advanced registration, there may be restrictions placed on lower-division students for registration in many upper-division courses to make sure juniors and seniors get the credits they need to graduate on time.

Research

Majors may pursue original research through the upper-division honors program in the major, especially via senior thesis credits (CCJ 4970). Others pursue independent research through Undergraduate Research
in Criminology (CCJ 4911). The major also offers a research internship (CCJ 4940), which enables students to work in ongoing research projects.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450401&track=01) may be used for transfer students.

**Semester 1**

- Complete 1 criminology-related foundation course (criminology-related foundation courses include introductory criminal justice and criminology courses – CCJ, CJL, or CJE prefixes, such as CCJ 3024, CJL 2000, CJL 3038 – or related courses: AMH 2010, AMH 2020, ANT 2000, ANT 2410, ECO 1023, ECO 2023, PHI 2010, PHI 2630, POS 2041, POS 2112, PSY 2012, SYG 2000, SYG 2010).
  - 2.3 UF GPA required

**Semester 2**

- Complete 1 additional criminology-related foundation course
  - 2.5 UF GPA required

**Semester 3**

- Complete 1 additional criminology-related foundation course with 2.65 critical-tracking GPA
  - 2.65 UF GPA required

**Semester 4**

- Complete STA 2023 with a 2.75 critical-tracking GPA
  - 2.8 UF GPA required

**Semester 5**

- Complete CCJ 3024 (if not previously taken) and maintain 2.75 critical-tracking GPA
  - 2.80 UF GPA required

**Semester 6**

- Complete at least 2 additional core criminology courses: CJL 3038, CCJ 4014, CCJ 3701 with minimum grades of C
  - Or 1 core criminology course and 1 law-based course: CJL 2000, CJL 4050, CJL 4110, CJL 4410 with minimum grades of C
  - Complete 1 criminology elective or an additional core criminology course with a minimum grade of C

**Semester 7**

- Complete at least 1 additional core criminology course with minimum grades of C
  - Complete 3 additional criminology electives

**Semester 8**

- Complete the last core criminology course, if needed, with a minimum grade of C
- Complete the law-based requirement, if needed: CJL 2000, CJL 4050, CJL 4410, or CJL 4410 with a minimum grade of C
- Complete the 2 remaining criminology electives
- Pass the criminology exit exam

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

Up to 9 hours of approved Criminology electives outside of the Criminology department may also count towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

The Bachelor of Arts in criminology (both the on campus and the online degree programs) introduces students to the study of criminal behavior, criminal justice systems from a multidisciplinary, liberal arts perspective. It enables students to understand crime, how society reacts to it (especially through the criminal justice system) and the interrelationships between features of society and law. It includes learning about the theories of crime and methods for studying crime, law and society.

Before Graduating Students Must

- Pass a department exit examination regarding crime, criminal justice, law and society and criminological theory.
- Complete a research paper for CCJ 3701 demonstrating the ability to research and to interpret research in criminology, law and society.
- Complete requirements for the baccalaureate degree as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Define and describe the criminal justice system, the interrelationships among its components and their fit with society.
2. Define and describe the legal institutions, the law and their interaction in society.

Critical Thinking

3. Analyze theories of crime and their implications for programs and policies to reduce crime.
4. Interpret and evaluate research in criminology, law and society and exhibit proficiency in the techniques used to conduct such research.

Communication

5. Communicate ideas clearly and effectively in an accepted style of presentation.

Criminology UF Online

The Department of Sociology and Criminology offers an online interdisciplinary degree program in criminology. Students seeking this degree will study the complexities of relationships among the legal, social, political, historical, and psychological influences affecting law processes and crime and justice.

About this Program

- **College**: Liberal Arts and Sciences (p. 646)
- **Degree**: Bachelor of Arts
- **Credits for Degree**: 120
- **Contact**: 1.855.99GATOR
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Sociology and Criminology & Law has over 1,000 undergraduate majors and 100 graduate students. The department’s faculty are internationally known for their research in the areas of families, gender, and sexualities; health, aging, and the life course; environmental and resource sociology; race and ethnicity; criminology and criminal justice; and psychology and law.

Curriculum

- Combination Degrees
- Criminology
- Criminology UF Online
- Sociology
- Sociology Minor
- Sociology Minor UF Online
- Sociology of Social Justice and Policy Minor
- Sociology UF Online

Courses focus on explanations for the development of law within society, why people break laws, and how society reacts to law-breaking. Interdisciplinary breadth in the study of criminology and law is essential for those majoring in criminology. Majors may enroll in relevant courses offered outside the department to help satisfy tracking requirements (listed below under Foundation Coursework).

After obtaining a B.A. in criminology, students can seek careers as professionals working within the criminal or juvenile justice systems (i.e., courts, law enforcement, corrections). Many students also attend law school, while others attend graduate school where they may conduct research on criminological issues.

After being accepted to this program, students can pursue the degree without moving to Gainesville. Coursework will be offered via electronic distance learning, and UF faculty will teach and advise students in the program. This program is designed to be pursued entirely online, and thus, students will not be permitted to take any courses on campus while enrolled in the program.

Students will need access to a personal computer capable of connecting to the web and sending and receiving electronic mail. It is recommended but not required that the student’s computer have a video conferencing capability.

Coursework for the Major

The major requires 34 credits. At least 22 of the 34 must be taken from UF in courses offered by the department with prefixes of CCJ, CJC, CJE, CJJ or CJL. Students may apply no more than six credits of 1000/2000-level coursework to the major, including CJL 2000.

A maximum of 12 credits of criminology courses can be transferred toward the major. Students who transfer six credits of 1000/2000-level (lower division) credits into the major should not take UF’s CJL 2000. There are restrictions on which lower-division courses will transfer to the major. Lower-division courses that transfer into the major include introductory courses on criminology, criminal justice and criminal law/procedure. Students who wish to take interdisciplinary courses and transfer credits from another institution need to be careful about the 22-credit residency requirement.

Minimum grades of C must be earned in courses that count toward the major. The only exceptions are CCJ 4940 and CCJ 4905 which require grades of S.

Required Coursework

**Criminology Core Courses**

| CCJ 3024 | Advanced Principles of Criminal Justice | 3 |
CCJ 3701 Research Methods in Criminology 1 4
CCJ 4014 Criminological Theory 1 3
CJL 3038 Law and Society 1 3
Select at least one law-driven requirement course: 3
CJL 2000 Law and the Legal Process 2
CJL 4050 Juvenile Law
CJL 4110 Criminal Law
CJL 4410 Criminal Procedure

**Criminology Electives**
Select a minimum of 18 credits 3 18
Students may select up to 9 credits from approved interdisciplinary courses outside of criminology to count toward the criminology electives requirement 4

**Total Credits** 46-55

1 These courses are the basis for meeting the student learning outcomes in the major’s academic learning compact, therefore they must be taken at UF.
2 Students should take this course only if they have not already completed six credits of 1000/2000-level criminology courses.
3 Majors may choose from any course offered in the department not used to meet this requirement.
4 These approved interdisciplinary courses may also apply to the CLAS electives requirement. These courses do not apply toward the 22-credit residency requirement. A list of the approved interdisciplinary courses appears below the recommended semester plan.

Students may apply only 3 credits of CCJ 4940 or 3 credits of CCJ 4911 (if taken as S/U) to the 34 credits for the major. CCJ 4940 is automatically graded S/U. CCJ 4911 may be taken as either a letter grade or S/U, but the student must submit an application to the registrar’s office for this course to be taken as an S/U grade.

### Additional Requirements

#### Exit Exam
To complete the major students must pass a department exit examination regarding crime, criminal justice, law and society, and criminological theory, administered online.

#### Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450401&track=01) may be used for transfer students.

### Semester 1
- Complete 1 criminology-related foundation course (criminology-related foundation courses include introductory criminal justice and criminology courses – CCJ, CJL or CJE prefixes, such as CCJ 3024, CJL 2000, CJL 3038 – or related courses: AMH 2010, AMH 2020, ANT 2000, ANT 2410, ECO 2013, ECO 2023, PHI 2010, PHI 2630, POS 2041, POS 2112, PSY 2012, SYG 2000, SYG 2010)
  - 2.3 UF GPA required

### Semester 2
- Complete 1 additional criminology-related foundation course
  - 2.5 UF GPA required

### Semester 3
- Complete 1 additional criminology-related foundation course with 2.65 critical-tracking GPA
  - 2.65 UF GPA required

### Semester 4
- Complete STA 2023 with a 2.75 critical-tracking GPA
  - 2.8 UF GPA required

### Semester 5
- Complete CCJ 3024 (if not previously taken) and maintain 2.75 critical-tracking GPA
  - 2.80 UF GPA required

### Semester 6
- Complete at least 2 additional core criminology courses: CJL 3038, CCJ 4014, CCJ 3701 with minimum grades of C
  - Or 1 core criminology course and 1 law-based course: CJL 2000, CJL 4050, CJL 4110, CJL 4410 with minimum grades of C
  - Complete 1 criminology elective or an additional core criminology course with a minimum grade of C

### Semester 7
- Complete at least 1 additional core criminology course with minimum grades of C
  - Complete 3 additional criminology electives

### Semester 8
- Complete the last core criminology course, if needed, with a minimum grade of C
  - Complete the law-based requirement, if needed: CJL 2000, CJL 4050, CJL 4410, or CJL 4410 with a minimum grade of C
  - Complete the 2 remaining criminology electives
  - Pass the criminology exit exam

### Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

Up to 9 hours of approved Criminology electives outside of the Criminology department may also count towards the 3000 level or above electives outside of the major.
To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

**Academic Learning Compact**

The Bachelor of Arts in criminology (both the on campus and the online degree programs) introduces students to the study of criminal behavior, criminal justice systems from a multidisciplinary, liberal arts perspective. It enables students to understand crime, how society reacts to it (especially through the criminal justice system) and the interrelationships between features of society and law. It includes learning about the theories of crime and methods for studying crime, law and society.

**Before Graduating Students Must**

- Pass a department exit examination regarding crime, criminal justice, law and society and criminological theory.
- Complete a research paper for CCJ 3701 demonstrating the ability to research and to interpret research in criminology, law and society.
- Complete requirements for the baccalaureate degree as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**

1. Define and describe the criminal justice system, the interrelationships among its components and their fit with society.
2. Define and describe the legal institutions, the law and their interaction in society.

**Critical Thinking**

3. Analyze theories of crime and their implications for programs and policies to reduce crime.
4. Interpret and evaluate research in criminology, law and society and exhibit proficiency in the techniques used to conduct such research.

**Communication**

5. Communicate ideas clearly and effectively in an accepted style of presentation.

**Curriculum Map**

I = Introduced; R = Reinforced; A = Assessed
Data Science

Data Science is a field of study that combines computer science (programming, databases, and algorithms) and statistical methodology, both with a strong mathematical foundation, to apply to diverse areas in ethical ways. Data scientists work in many areas, including business, economics, medicine, epidemiology, agriculture, environmental sciences, sports, and all aspects of government. With the increasing digitization and networking of society, data have become ever more ubiquitous, further expanding the demand for data scientists and their expertise in the collection, management, and analysis of data.

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The mission of the Department of Statistics is to provide its students with a fundamental understanding of statistical reasoning and methodology, to train them to apply this knowledge to the collection and analysis of data, and to prepare them for careers in a highly technological society in which science and decision-making are increasingly driven by a rapid expansion in the quantity and availability of data. 1 All 3 courses must come from the same category (either Humanities or Social Sciences).

### Relevant Minors and/or Certificates

Data Science majors may want to consider a minor in actuarial science, which prepares students for careers as actuaries. Required courses cover the material for the beginning examinations and VEE credits leading to an associatship in the major national actuarial societies.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=270501&track=01) may be used for transfer students.

#### Semester One

- Complete COP 3502C

#### Semester Two

- Complete STA 2023

#### Semester Three

- Complete MAC 2311 and STA 2023

#### Semester Four

- Complete MAC 2312

#### Semester Five

- Complete COP 3530

### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

The Subject Area electives and Data Ethics course count towards 3000 level or above electives outside of this multidisciplinary major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

### East Asian Languages and Literatures Minor
The East Asian Languages and Literatures minor provides a solid foundation in either the Chinese or Japanese language and its cultural dimensions, with potential for use in international and other careers.

### About this Program
- **College**: Liberal Arts and Sciences (p. 646)
- **Credits**: 15-19 | Completed with minimum grades of C and no optional S/U

### Department Information
Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

**Website** (https://languages.ufl.edu/)

**CONTACT**

East-Central European Studies Certificate

The East-Central European Studies certificate provides the opportunity to study the region of Central and Eastern Europe from an interdisciplinary perspective that incorporates both area and language studies.

About this Program

- **College**: Liberal Arts and Sciences (p. 646)
- **Credits**: 12-14 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

By requiring one semester of language study (beyond the College of Liberal Arts and Sciences’ language proficiency requirement), the program gives students the opportunity to enhance their language skills beyond the introductory level. Furthermore, an area studies program that includes less commonly taught languages (Czech, Hungarian, Polish) as core requirements offers a special opportunity as there are no comparable programs in the state of Florida.

The certificate program is open to all undergraduates. To be eligible, students must have a minimum 2.5 overall GPA and a 3.0 GPA in their declared major. Completion of the certificate requires a combined 3.0 GPA for all certificate coursework.

At least nine credits of coursework must be unique to the East Central European Studies certificate out of all other certificates and minors.

East-Central European Studies Minor

The East-Central European Studies minor provides the opportunity to study the region of Central and Eastern Europe from an interdisciplinary perspective that incorporates both area and language studies.

About this Program

- **College**: Liberal Arts and Sciences (p. 646)
- **Credits**: 18-22 | Completed with minimum grades of C

Center Information

The Center for European Studies (CES), housed within the College of Liberal Arts & Sciences (CLAS), is an interdisciplinary area studies center focused on the study of Europe, and facilitating the training of scholars and experts in European studies in the United States. In addition to the minors, certificates, and major, the center offers study abroad programs in Europe and various scholarships and grants for undergraduates.

Curriculum

- /UGRD/colleges/schools/UGLAS/IDS_BA_BS/IDS_BA17/
- East-Central European Studies Minor
- European Union Studies Certificate
- European Union Studies Minor

The minor is open to all undergraduates.

By requiring two semesters of language study (beyond the College of Liberal Arts and Sciences’ language proficiency requirement), the program gives students the opportunity to enhance their language skills beyond the introductory level. Furthermore, an area studies minor that includes less commonly taught languages (Czech, Hungarian, Polish) as core requirements offers students a special opportunity as there are no comparable programs in the state of Florida.

The curriculum requires two semesters of a language beyond the CLAS language requirement, one East-Central European studies course and three electives from an approved list.

Of the total credits, no more than three may be individual work. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Economics

Through the study of Economics, students learn how to look at a complex world and make sense of the wide variety of behaviors they observe. Students majoring in economics learn the analytical skills used to understand how households, firms and governments make economic decisions, comparing costs and benefits in an effort to maximize their impact.

About this Program

- **College**: Liberal Arts and Sciences (p. 646)
- **Degree**: Bachelor of Arts
- **Credits for Degree**: 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Economics offers a vibrant undergraduate curriculum. Students enjoy close and meaningful interactions with the faculty through rigorous and engaging courses. A diverse menu of elective courses covers exciting and relevant topics like growth and development, international trade and finance, public policy analysis and evaluation, and strategic business decisions. Students are strongly encouraged to pursue outside-of-the-classroom learning through internships and study abroad.

Website (https://economics.clas.ufl.edu/)

P.O. Box 117140
Curriculum

- Combination Degrees
- Economics
- Economics Minor

Students will learn the critical skills used to determine the implications of economic decisions for the allocation of society's scarce resources, the pricing of goods and services, the distribution of income, the behavior of macroeconomic variables, and the effect of government intervention.

Classes within the economics major include, among others, international trade, law and economics, economics of sports, game theory, and public choice. The analytical skills students develop are useful preparation for careers in business, law, government, public policy and academia. A degree in economics is also appropriate for students intending to pursue advanced degrees in the social sciences and in professional schools.

Coursework for the Major

The major requires 37-39 credits. Students must achieve minimum grades of C in each required foundation and economics course, including the economics electives and outside substitutes.

Required Foundation Coursework

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>

</tbody>
</table>

Total Credits ³⁷-39

¹ Students taking advanced statistics might not be required to take STA 2023.
² Complete ECO 3101 early in the sequence, because it is a prerequisite for some economics electives.
³ Defined as any 3000 or 4000 level course with an ECO, ECP, or ECS prefix; not including ECO 3101, ECO 3203, ECP 3703, ECO 4905, or ECO 4941. Course prerequisites are strictly enforced.
⁴ This substitute cannot double count toward the CLAS 3000-level elective requirement.
⁵ Students cannot receive credit for both ECO 3101 and ECO 3703.

Recommended Coursework

Students planning to pursue graduate study in economics should consider a minor in mathematics or statistics or take the following mathematics and statistics courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECO 4421</td>

</tr>
<tr>
<td>STA 4322</td>
<td>Introduction to Statistics Theory ¹</td>
<td>3</td>
</tr>
</tbody>
</table>

¹ Students taking advanced statistics might not be required to take STA 2023.

Overseas Studies

Economics students are strongly encouraged to complete a study abroad or internship abroad program. The College of Liberal Arts and Sciences’ Beyond 120 program, the Heavener School of Business’ International Programs Office, and the UF International Center offer several excellent study abroad programs that allow economics majors the opportunity to study or work abroad and still make timely progress toward their degree requirements. Contact the undergraduate coordinator or a study abroad advisor for more information.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450601&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 of 4 courses from ECO 2013, ECO 2023, MAC 2233 and STA 2023 with a 2.5 critical-tracking GPA, excluding ECO 3101
- 2.0 UF GPA required

Semester 3

- Complete 1 additional course of the 4 with a 2.75 critical-tracking GPA, excluding ECO 3101
- 2.0 UF GPA required
Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education course (typically, GE-C, H, or S).

FIN 3403, AEB 3450, AEB 4931, and GEO 3502, if taken, do not also count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

This major teaches students the skills used to understand how households, firms and governments make economic decisions and the implications of those decisions for resource allocation, pricing, the distribution of income and macroeconomic variables.

Before Graduating Students Must

- Take the Economics Field Test conducted by the ETS. This test will be 10% of the student's grade in ECO 3203. The goal of the Department of Economics is that each student's average score exceeds the national average of 154; however, a score of 154 is not a graduation requirement.
- Students who want to graduate magna cum laude or summa cum laude must propose and defend an honors thesis before the department's undergraduate committee.
Students in the Major Will Learn to
Student Learning Outcomes (SLOs)

Content
1. Identify indifference curves as representations of consumer preferences, and to evaluate these indifference curves in the context of preference relations.

Critical Thinking
2. Model and analyze unfamiliar social interactions using a formal economic framework.

Communication
3. Communicate effectively the concept of opportunity costs and tradeoffs.

Economics Minor

Through the study of Economics, students learn how to look at a complex world and make sense of the wide variety of behaviors they observe. Students minoring in economics are introduced to the analytical skills used to understand how households, firms, and governments make economic decisions, comparing costs and benefits in an effort to maximize their own well-being or social objectives.

About this Program
- College: Liberal Arts and Sciences (p. 646)
- Credits: 22-23 | Completed with minimum grades of B for ECO 2013 and ECO 2023, minimum grades of C for remaining courses, and no optional S/U

Department Information

The Department of Economics offers a vibrant undergraduate curriculum. Students enjoy close and meaningful interactions with the faculty through rigorous and engaging courses. A diverse menu of elective courses covers exciting and relevant topics like growth and development, international trade and finance, public policy analysis and evaluation, and strategic business decisions. Students are strongly encouraged to pursue outside-of-the-classroom learning through internships and study abroad.

Total Credits 22-23

1 Upper-division; any 3,000 or 4,000 level course with an ECO, ECP, or ECS prefix (not including ECO 3101, ECO 3203, ECO 4905, ECO 4941), and one of AEB 3450, FIN 3403, or GEO 3502.

English

Undergraduate study in English prepares students for diverse careers in law, publishing, advertising, media and business, teaching, and advanced degree work.

About this Program
- College: Liberal Arts and Sciences (p. 646)
- Degree: Bachelor of Arts
- Specializations: Models of Study
- Credits for Degree: 120
- More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of English fosters a dynamic nexus of critical thinking, writing, and making. English offers students innovative opportunities for individual and collaborative learning through BA, MFA, and PhD programs. Students work with a variety of materials, including: global Anglophone literature, African-American literature, children’s literature, comics, critical theory, digital modes, film and media. In-house journals and media reflect the scholarly, creative, and interdisciplinary work done by the department. Active across campus through its affiliations, English produces next-generation arts and humanities.
Courses offered by the department introduce students to a world of experiences that cannot be exhausted in the brief span of a college education; new authors, new works, new media, and new tools for understanding continually enlarge and transform the world. With the help of faculty advisors, undergraduate majors in English select from courses in various forms, periods and approaches. In addition, students may develop special expertise in one of several models; for example, communication and creative writing, theory of media, literary study, or cultural studies.

Coursework for the Major

Students pursuing the B.A. in English must take ten courses offered by the English department. These courses must be 3000 level or above, of no fewer than three credits each and completed with minimum grades of C. (The requirement is ten courses, not 30 credits).

Prerequisite to all 3000/4000-level courses are six credits of English at the 1000/2000 level or department permission. Students must take at least five of their 3000-level or above English courses at UF. Of 3000-level courses with an ENC prefix, only the following apply to the English major:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>

</tr>
</tbody>
</table>

The student is responsible for consulting an advisor and preparing a plan of study.

Course Details

Because English majors will not be tracked for a specific set of courses, but must meet the ten-course requirement described above, there are no particular English courses that majors must take on a semester-by-semester basis.

The only prerequisite for most 3000/4000-level English courses is earning six credits of lower-division English course credit by coursework or placement (refer to Placement Section below). The classes that may have additional prerequisites are 3000/4000-level creative-writing (CRW) workshops, 4000-level film and video production workshops (ENG 4136 and ENG 4146), 3000/4000-level advanced writing (ENC) courses, department seminars (ENG 4953), honors seminars (ENG 4936), and the department’s internship course (ENG 4940). Refer to the catalog’s course descriptions to view the prerequisites for these courses.

As students try to decide which 3000/4000-level courses to take, they should not be concerned about differences between the two levels. The higher-level courses are not more difficult, except in the rare cases where the 4000-level course has 3000-level prerequisites. Course numbers are not created by the English Department but by a statewide course numbering system. Students can gauge a course’s level of difficulty by reviewing the department’s detailed course descriptions.

The majority of the department’s upper-division courses are variable or rotating topics courses, many of which can be repeated for credit given a change in topic. The only way to discover what the actual course topics will be in a specific semester is to consult the department’s course descriptions, which explain topics and approaches, and generally give some idea of the texts and assignments. These descriptions are usually posted online three to four weeks before advance registration so that students have ample time to consult them before registering.

Specializations | Models of Study

The department encourages students to follow models of study to help them create coherent patterns of focus and breadth in their coursework. Models of study range from traditional courses of study such as British and American Literature, through film and media studies, creative writing and studies in theory, to cultural studies, postcolonial studies and studies in feminisms, genders and sexualities.

Models of study do not have tracking status. Students will never be monitored, electronically or otherwise, for completion of models of study. The models identify to English majors the faculty’s enthusiastic recommendations about coursework distributions for various interests they might want to pursue. Department advisors also can recommend which models of study seem most appropriate for particular post-undergraduate career and educational goals.

- Advanced Writing
- African-American/African Diaspora Studies
- American Literature
- British Literature
- Children’s Literature
- Creative Writing
- Cultural Studies
- Drama/Theatre
- Feminisms, Genders and Sexualities
- Film and Media Studies
- Postcolonial Studies
- Studies in Theory

Because the models of study do not have tracking status, students do not need to declare their intention to follow models of study with the department. Models of study structure the coursework, but students do not have to take specific courses to complete degree requirements for the major, and they can modify or combine models of study. While the department understands that students may be disappointed if they are unable to take specific courses relevant to their models of study, the demand for seats in courses is very high and the department is not able to accommodate all course requests.

Placement

Scores on the verbal portion of the SAT or scores on the AICE, AP, IB or CLEP tests will determine the appropriate composition course. Refer
to the charts in the Academic Advising section (p. 1117) for course equivalency and placement information.

The department recommends that all students take one 2000-level English department course (without duplicating any course for which they have received placement credit) before moving on to 3000/4000-level coursework. Courses taught at the university level are bound to differ from those taught at the high school level, no matter how enriched the high school curriculum may have been.

Freshmen who intend to major in English should consult a department advisor as soon as possible. Students who intend to establish an emphasis in film studies should take ENG 2300. Creative writing students should take CRW 1101 or CRW 1301.

### Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=230101&track=01) may be used for transfer students.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). One of the two general education mathematics courses must be a pure math course.

**Model Semester Plan**

students.

Semesters 6 – 8

- Complete a total of 10 English courses at 3000/4000 level. English does not require a certain number of courses per each semester for these two years. However, it is strongly recommended that students take at least two courses per semester.
- 2.0 UF GPA required

Electives (3000 level or above, not in major) 9
### English Minor

The English minor provides the opportunity to study literature, rhetoric, creative writing or film and media, while gaining critical, analytical, and intellectual skills.

#### About this Program

- **College**: Liberal Arts and Sciences (p. 646)
- **Credits**: 15 minimum | Completed with minimum grades of C and no optional S/U

#### Department Information

The Department of English fosters a dynamic nexus of critical thinking, writing, and making. English offers students innovative opportunities for individual and collaborative learning through BA, MFA, and PhD programs. Students work with a variety of materials, including: global Anglophone literature, African-American literature, children's literature, comics, critical theory, digital modes, film and media. In-house journals and media reflect the scholarly, creative, and interdisciplinary work done by the department. Active across campus through its affiliations, English produces next-generation arts and humanities.

Environmental Justice and Policy Minor

The Environmental Justice and Policy minor offers an interdisciplinary framework for examining how disparities of class, race, gender, and organizational capacity interact with access to a safe and healthy environment.

About this Program

- **College**: Liberal Arts and Sciences (p. 646)
- **Credits**: 15 | Completed with minimum grades of C and no optional S-U | 9 must be at the 3000-level or above

## REQUIREMENTS

- **Students** must complete a minimum of nine credits of coursework exclusive to the minor that cannot count toward their major(s) or other minors or certificates.
- **Students** must complete at least three courses at the 3000 level or higher and each must be at least three credits.
- **Minimum 3 credits** from Category A courses focusing on Theories of Social Inequality, Difference and Power.
- **Minimum 3 credits** from Category B courses focusing on Issues of Environmental Justice, Research and Policy.
• At least one course from Category A or Category B must be Sociology (SY).
• With the approval of the undergraduate coordinator for Sociology, students may petition to have other, relevant classes approved as substitutes within each category of electives within the minor. Such courses could include department special topics offerings with numbers like 3930 or 4930.
• No more than three credits of independent study (SYA 4905), research (SYA 4911) or internship (SYA 4941) may count toward the minor.
• All courses must be completed with minimum C grades.
• The EJP minor is not available to Sociology majors.

These topics are relevant for students in diverse majors, including dimensions of contemporary issues in public life and the professions. Society certificate teaches students to understand and analyze the moral these challenges in a responsible and productive way. The Ethics and contemporary public discourse is teeming with issues of urgent moral concern. From climate change to police violence, artificial intelligence and issues in ethics as a scholarly field and have the opportunity to gain specialized knowledge in areas such as medical, engineering, business, or environmental ethics.

About this Program

- **College:** Liberal Arts and Sciences (p. 646)
- **Credits:** 12 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Contemporary public discourse is teeming with issues of urgent moral concern. From climate change to police violence, artificial intelligence to health care access, we face complex challenges that have ethical problems at their core. It is not always easy, however, to think through these challenges in a responsible and productive way. The Ethics and Society certificate teaches students to understand and analyze the moral dimensions of contemporary issues in public life and the professions. These topics are relevant for students in diverse majors, including professional schools as well as the liberal arts and sciences. Required courses in philosophical and religious ethics will provide students with the necessary skills to conceptualize ethical issues, providing an intellectual foundation for the analysis of applied and professional problems.

Admission Requirements

Current UF undergraduates in any major with a 2.0 GPA. Students minoring in Religion or Philosophy are eligible for the certificate so long as no more than one of their certificate courses are counted towards their minor.

Center Information

The Center for Jewish Studies promotes academic study of Jewish culture, history, and politics for all students at the University of Florida. The Center’s curriculum encourages critical thinking, textual analysis, research, oral argumentation, and writing. The Center has scholarship opportunities for undergraduate and graduate students, as well as study abroad opportunities.

- Hebrew Minor

Open to all students enrolled in an undergraduate degree program at the University of Florida.

Offered by the Center for Jewish Studies in cooperation with the Center for European Studies and participating UF units, the certificate in European Jewish Studies is designed to familiarize students with key issues in the Jewish experience in Europe, including relations with other groups; the trajectory of Jewish integration in European societies and cultures; representations of the Jew within European cultures; and comparisons with North African and Middle Eastern populations outside and within the continent’s borders.

The EJS certificate provides students with multiple opportunities for concentrated and experiential areas of study. It allows students to work closely with their EJS faculty advisor to develop targeted, individualized areas of expertise from an array of specialists and perspectives to complement their majors and/or to prepare them for careers in governmental and non-governmental organizations, education, international business and politics, museums, festivals, libraries, Jewish associations and foundations. Students may specialize in national contexts or comparative and transnational cases, events and issues.

Requirements

Requirements consist of EJS approved individual study plans of 15 credit hours and attendance at a minimum of five relevant public lectures sponsored or co-sponsored by the Center for Jewish Studies and the Center for European Studies. Since availability of courses varies from year to year and new courses are often added, students should consult with a faculty adviser to determine which courses are approved for the certificate.

**CERTIFICATE WITH HONORS**

Students may also participate in approved experiential learning projects, approved USP funded EJS research, and Honors theses in European Jewish Studies to receive certificate with Honors.

**European Union Studies Certificate**

The European Union Studies certificate provides the opportunity to gain multidisciplinary expertise in EU-related affairs.

**About this Program**

- **College:** Liberal Arts and Sciences (p. 646)
- **Credits:** 12 | Completed with minimum grades of C

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

**Center Information**

The Center for European Studies (CES), housed within the College of Liberal Arts & Sciences (CLAS), is an interdisciplinary area studies center focused on the study of Europe, and facilitating the training of scholars and experts in European studies in the United States. In addition to the minors, certificates, and major, the center offers study abroad programs in Europe and various scholarships and grants for undergraduates. Website (https://ces.ufl.edu/)

Curriculum

- /UGRD/colleges-schools/UGLAS/IDS_BA_BS/IDS_BA17/
- East-Central European Studies Minor
- European Union Studies Certificate
- European Union Studies Minor

This minor is open to all undergraduates.

To be eligible, students must have a minimum overall 2.5 GPA and a 3.0 GPA in their major. The combined GPA for all coursework applied toward the minor must be a minimum 3.0.

Of the total credits, no more than three may be individual work. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

Completion of the minor requires participation in an EU-related internship or CES study abroad or preapproved alternative with substantive EU content.

Foreign Languages and Literatures

The major provides a foundation for graduate work in Foreign Languages and Literatures or allied fields (anthropology, art history, history, linguistics, political science, religion). A Foreign Languages and Literatures major is excellent general preparation for entry to professional schools (business, journalism, law, and medicine) or careers in foreign service, diplomacy, translation, commerce, business, import and export of information and culture, museums and libraries, and tourism.

About this Program

- College: Liberal Arts and Sciences (p. 646)
- Degree: Bachelor of Arts
- Specializations: African Languages (p. 658) | Arabic (p. 680)
  | Chinese (p. 735) | Dual Languages (p. 787) | French and Francophone Studies (http://catalog.ufl.edu/UGRD/colleges-schools/UGLAS/FFS_BA/)
  | German (p. 849) | Hebrew (p. 857) | Italian (p. 886) | Japanese (p. 891) | Russian (p. 977)
- Credits for Degree: 120
- More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

GAINESVILLE FL 32611-5565
The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

- Hebrew
- Hebrew Minor
- Italian
- Italian Studies Minor
- Japanese
- Russian
- Russian Minor

### Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

### Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

**Critical Thinking**

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

**Communication**

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.

4. Display oral and written proficiency in language(s) of specialization.

### Curriculum Map

- **Dual Languages**
- **French and Francophone Studies**
- **German**
- **Hebrew**
- **Italian**
- **Japanese**
- **Russian**

Dual Language Specialization

The Dual Language specialization of the Foreign Languages and Literature major offers students the opportunity to specialize in two of the languages offered by the Department of Languages, Literatures and Cultures (LLC). Students can combine any of the languages offered as specializations and/or they can combine any of these languages with a specialization in Haitian Creole or Vietnamese.

Students who choose this track will develop proficiency in two languages as well as acquire cultural knowledge of more than one language area. Dual language majors will be specially poised to make both broad and deep linguistic and cultural comparisons and to build cross-cultural and cross-linguistic connections, skills that will prepare them to operate and work in multi-lingual and multi-cultural societies as well as across various complex regions of the world. Further, dual language majors will be able to apply the language-learning skills gained in the study of one language of specialization to reinforce their acquisition of a second language of specialization.

In the Dual Language specialization, students will complete two years of study of a principal language of specialization and two years of study of a second language taught in LLC. Students will also complete advanced coursework in the languages, their literatures and cultures, as well as a critical concentration.
There are a number of possibilities inherent in the Dual Language major. The following are some potential paths of study:

1. Dual Language: Haitian Creole with French and Francophone Studies
2. Dual Language: Vietnamese with Chinese

Students interested in the dual language specialization should consult with the undergraduate coordinator to determine the best course of study and to discuss practical and intellectually advantageous language pairings.

Coursework for the Major
The Dual Language specialization consists of two years of study of two languages. The 33 credits required includes 6 credits earned at the intermediate level in the second language, 18 credits of study in language, literature, and culture at the 3000 level or higher, and the 9 credit critical concentration. Students select a principal language of specialization and combine it with any of the other languages taught in the Department of Languages, Literatures, and Cultures. Course selections for the 18 credits of advanced electives will reflect the literature and culture of either language of specialization.

All coursework for the major must be completed with minimum grades of C.

Required Foundation Coursework
(not included in the 33 credits for the major)

First Language of Specialization
16-20 credits

Total Credits 6-10

Advanced Elective Coursework
18 credits of advanced language and culture study with at least 6 credits at the 4000 level

Specific course offerings in this section will depend on the language(s) selected, but these courses should be selected from the advanced elective offerings (3000/4000 level courses) associated with either language of specialization. Selections should include at least two courses at the 4000 level. Students should consult with the undergraduate coordinator to develop the best course of study.

Critical Concentration
9 credits from one of the following concentrations

- Comparative Cultural Studies
- Film and Visual Culture
- Intensive Area Studies: Specific course offerings in this section will depend on the languages selected, but these courses should be selected from the advanced elective offerings (3000/4000 level courses) associated with the first and second language of specialization and their broader geographical area of cultural influence.
- Literary Studies
- Medieval and Early Modern Studies

A maximum of 15 credits non-UF overseas study credit may apply to the major. Students must have all overseas study credit that will transfer to the major approved by their major advisor.

Overseas Study
The department recommends no more than 12-15 credits from overseas study, depending on the requirements of the language specialization and in consultation with the appropriate Undergraduate Coordinator.

Placement
Students with previous training in their language of specialization as well as those with heritage background in that language should consult with the LLC undergraduate coordinator in order to have their level assessed before enrolling in any language course.
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160501&track=01) may be used for transfer students.

Semester 1
• 2.0 UF GPA required

Semester 2
• 2.0 UF GPA required

Semester 3
• Complete Language A: Semester 1 or higher-level Language A course with a minimum grade of C
• 2.0 UF GPA required

Semester 4
• Complete Language A: Semester 2 or higher-level Language A course with a minimum grade of C and a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 5
• Complete Language A: Semester 3 or higher-level Language A course and Language B: Semester 1 with a minimum grade of C and a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 6
• Complete Language A: Semester 4 or a higher-level Language A course
• Complete Language B: Semester 2 or a higher-level Language B course
• Complete 2 Advanced elective courses
• 2.0 UF GPA required

Semester 7
• Complete Language B: Semester 3 or a higher-level Language B course
• Complete Advanced elective courses at the 4000 level
• Complete 2 Critical Concentration courses
• 2.0 UF GPA required

Semester 8
• Complete Language B: Semester 4 or a higher-level Language B course
• Complete 2 Advanced elective courses

• Complete 1 Critical Concentration course
• 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

### Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

### Before Graduating Students Must

- Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
- Complete requirements for the baccalaureate degree, as determined by faculty.
- Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

##### Content

1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

##### Critical Thinking

2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

##### Communication

3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.

4. Display oral and written proficiency in language(s) of specialization.

---

#### Category A

1. Courses focus on the acquisition of the language(s) of specialization at the advanced level.

#### Category B

2. Courses address literary, cultural, cinematic, historical, and/or social questions.
Assessment Types
- Proficiency exams
- Term papers or final projects
- Oral presentations

French and Francophone Studies

French Languages and Literatures
French is considered a strategic language for global communications in matters of security, health, business, and cultural exchange. It is the key language to understanding the culture and history of the Francophone world. A specialization in French and Francophone Studies offers the linguistic, cultural, and intellectual training students need for an increasingly globalized future. In addition, the specialization forges links between the present and the past, as it encourages students to explore the exceptionally rich humanistic tradition of France and the Francophone world from the Middle Ages through the modern period.

About this Program
- College: Liberal Arts and Sciences (p. 646)
- Degree: Bachelor of Arts
- Credits for Degree: 120
- More Info

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

The B.A. in Foreign Languages and Literatures (FLL) provides students with a comprehensive knowledge of a specific language (or languages) and advanced familiarity with the cultural practices and traditions associated with the language(s) of specialization. The major in FLL enhances critical thinking and communication skills and provides students with a cross-cultural understanding of our contemporary world. The program allows students the flexibility to explore a single or dual language specialization as well as the opportunity to study culture through interdisciplinary fields of critical concentration, such as Comparative Cultural Studies, Film and Visual Culture, Intensive Area Studies, Literary Studies, and Medieval and Early Modern Studies. A major in FLL offers an excellent basis for a variety of careers, including graduate study in an area of foreign language and culture and/or in the humanities and social sciences, as well as careers in education, international development, diplomacy and government, national security, communications, law, journalism, arts and culture, publishing, and global business. Participation in UF study-abroad programs or a UF approved program is highly encouraged.

A French and Francophone studies specialization of the Foreign Languages and Literatures major provides students with a strong command of the French language and an understanding of the cultures of the Francophone world. The specialization gives a foundation in the French Language, including speaking, reading, writing, and listening. Our emphasis on communicative approaches and linguistic and cultural competencies trains our students to compete in an increasingly globalized workforce. In addition, the major develops skills in critical thinking and research through in-depth study of the exceptionally rich humanistic tradition of France and the Francophone world throughout history. The program allows each student the flexibility to explore a variety of disciplines within the specialization and to design an individual course of study to reflect a particular interest in linguistics, literatures, cinema, cultural production, or other fields.

The specialization offers an excellent base for diverse careers including diplomacy, international relations, journalism, translation, education, global health, banking, and business. Many of our students choose to combine the French and Francophone specialization with another field of study, including majors in physical sciences and engineering.

Coursework for the Major
The French and Francophone studies specialization in Foreign Languages and Literatures consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

**Overseas Studies**

Students specializing in French and Francophone studies are encouraged to study abroad for a summer or a semester. Students regularly participate in UF Programs in Paris or UF-approved study-abroad programs in other regions of France or in the Francophone world. Students also can consider the opportunities offered with UF’s reciprocal exchange agreements with Rennes II and Sciences Po. Students in approved overseas study programs can earn up to 15 credits beyond the 120 credits required for graduation. Refer to UF International Center information and contact a department advisor.

More Info (https://internationalcenter.ufl.edu/study-abroad/)

**Placement**

Students with previous training should speak with the department before registering.

- Students with previous study or experience in French should enroll in FRE 1134 or use standardized French examination scores (AICE, AP, CLEP or IB) to determine their appropriate placement in a higher-level course. Such students cannot enroll in FRE 1130 or FRE 1131.
- Any student who has lived in a French-speaking country for more than a year or who is francophone must consult a department advisor before enrolling in any FRE course.

**Research**

Students with an upper-division GPA of 3.5 are encouraged to write a thesis for high or highest honors at graduation. Students planning to specialize in French and Francophone studies should see a department advisor before registering.

**Critical Tracking**

Critical Tracking records each student’s progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160901&track=01) may be used for transfer students.

**SEMESTER 1**

- 2.0 UF GPA required

**SEMESTER 2**

- Complete FRE 1130 or a higher-level French language course with a minimum grade of C
- 2.5 critical-tracking GPA
- 2.0 UF GPA required

**SEMESTER 3**

- Complete FRE 1131 or FRE 1134 or a higher-level French language with a minimum grade of C
• 2.5 critical-tracking GPA
• 2.0 UF GPA required

**SEMESTER 4**
• Complete FRE 2220 or a higher-level French language course with a minimum grade of C
• 2.5 critical-tracking GPA
• 2.0 UF GPA required

**SEMESTER 5**
• Complete FRE 2221 with a minimum grade of C
• 2.5 critical-tracking GPA
• 2.0 UF GPA required

**SEMESTER 6**
• Complete FRE 3300
• Complete 1 Critical Concentration course
• Complete 1 Culture elective such as FRE 3500 or FRE 3502 or FRE 3564
• Complete 1 Literature elective: FRW 3100 or FRW 3101
• 2.0 UF GPA required

**SEMESTER 7**
• Complete FRE 3320
• Complete 2 Critical Concentration courses
• 2.0 UF GPA required

**SEMESTER 8**
• Complete 1 Linguistics elective: FRE 4501 or FRE 4780 or FRE 4850 or FRE 4822
• Complete 2 4000-level electives
• Complete FRW 4932
• 2.0 UF GPA Required

---

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). 3000 level or above critical concentration courses outside of French may count toward the 3000 level or above electives outside of the major.

Beginning language is best started semester 1 and absolutely no later than semester 3, but study abroad or accredited intensive summer courses can be used to fall in with an ideal semester progression.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*
### Concentration Courses

**CRITICAL CONCENTRATION COURSES | 9 CREDITS FROM ONE CONCENTRATION**

---

1. Freshmen entering with previous studies in French will begin at a more advanced level. Refer to the academic advising section for placement information. Students, who by virtue of their placement examinations are enrolled in a course higher than their standing, are exempt from the requirements of that particular plan.

2. One of these courses must be a UF Quest 2 course.
French and Francophone Studies

The Demolition of Man: Italian Perspectives

Women in Modern Hebrew Fiction

Identity and Dissent in the Hebrew Short Story

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such as:

Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such as:

Academic Learning Compact

The Foreign Languages and Literatures (FLL) major enables students to achieve communicative competence in their language(s) of specialization. Students will become knowledgeable in the culture and literature and/or linguistics associated with their language area(s) such as:

Academic Learning Compact
that they will be able to critically analyze and evaluate authentic sources in the target language(s) and formulate independent, critical perspectives in the target language(s). Further, students will learn the intercultural skills and practical know-how necessary to negotiate traveling, studying, and living in the target culture(s).

Before Graduating Students Must
• Satisfy the Florida statutes for the College-Level Academic Skills Requirement.
• Complete requirements for the baccalaureate degree, as determined by faculty.
• Achieve one or more of the following, as determined by their specialization within the FLL program: an acceptable score on a language proficiency test and/or a satisfactory faculty evaluation of a term paper, final project, or oral presentation completed for a selected advanced course.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Describe and define cultural concepts, literary production, and/or linguistic structure in language(s) of specialization.

Critical Thinking
2. Analyze, interpret, and evaluate texts according to their cultural, literary and/or linguistic content.

Communication
3. Express critical competence in relation to the culture(s) of specialization through performance of comprehensive analysis in written and oral form.
4. Display oral and written proficiency in language(s) of specialization.

1 Courses focus on the acquisition of the language(s) of specialization at the advanced level.
2 Courses address literary, cultural, cinematic, historical, and/or social questions.

Assessment Types
• Proficiency exams
• Term papers or final projects
• Oral presentations

French and Francophone Studies Minor

French is considered a strategic language for global communications in matters of security, diplomacy, health, business, and cultural exchange. A minor in French and Francophone Studies enhances language skills and cultural competency and complements majors from the humanities to the sciences, engineering, business, and the arts.

About this Program
• **College:** Liberal Arts and Sciences (p. 646)
• **Credits:** 16 | Completed with minimum grades of C
• **Contact:** 301 Pugh Hall (http://campusmap.ufl.edu/?loc=0072)

Department Information
Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

### Geography

Geography is the science of place, space, and environment. Each place on earth is distinguished by a unique mix of natural resources, cultural practices, and socioeconomic and political systems. Geographers study what makes each place unique, as well as the connections and interactions between places.

**About this Program**

- **College:** Liberal Arts and Sciences (p. 646)
- **Degrees:** Bachelor of Arts (p. 801) | Bachelor of Science (p. 805)
- **Specializations:** Environmental Geosciences (BA) (p. 809) | Geographical Science and Sustainability (p. 813) | Medical Geography in Global Health (BA) (p. 816) | Medical Geography in Global Health (BS) (p. 820)
- **Credits for Degree:** 120
- **Contact:** Email (liangmao@ufl.edu)

*To graduate with this major, students must complete all university, college, and major requirements.*

### Department Information

The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, B.A. and B.S. undergraduate degrees, M.A., M.S., and PhD degrees, as well as the largest Medical Geography program in the United States.

Map (http://campusmap.ufl.edu/#/index/0267)

### Coursework for the Major

The geography major has five different programs: the Bachelor of Arts, the Bachelor of Science, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geological Sciences), the Bachelor of Arts in medical geography in global health, and the Bachelor of Science in medical geography in global health.

Coursework for the major will depend upon the program, which are all flexible. Students must earn a minimum grade of C in all coursework for the major.

Students who are uncertain of a program should contact the Department of Geography’s undergraduate coordinator for information and curriculum planning.

### Required Coursework

All majors take some techniques courses, including GEO 3162C and a minimum of two additional courses that involve working with data and computers. All majors take a regional course, focusing on the countries, cultures and landscapes of one region in the world. The systematic courses include specialized courses in human or environmental/physical geography, but majors can also take additional techniques courses as part of this requirement. Students can concentrate coursework in economic geography and planning, environmental/physical geography, geospatial technologies, medical geography, or natural resource management.
Coursework for the major will depend upon the degree program. Courses for each program are listed below under Critical Tracking and Model Semester Plan.

**Bachelor of Arts in Geography**
Best suited for students interested in careers in urban and regional planning, business geography, medical geography, and geographic education, or for students who want a broad overview of the discipline with a focus on human geography.

**Bachelor of Arts in Environmental Geosciences**
A joint program between the Department of Geography and the Department of Geological Sciences and is intended for students interested in land and water aspects of the environment. The degree focuses on human impacts, water and mineral resource exploitation and management, disasters, environmental planning, earth science education, or environmental law.

**Bachelor of Science in Geography**
Best suited for someone who wishes to pursue a career in environmental consulting or graduate work in physical geography or related natural sciences, including atmospheric science, geosciences, hydrologic sciences, or meteorology.

**Bachelor of Arts in Medical Geography in Global Health**
Intended for students interested in social and cultural aspects of medical geography and global health and disease issues. The degree focuses on human impacts, cultural and social aspects of health and disease, and public health planning and management.

**Bachelor of Science in Medical Geography in Global Health**
Best suited for someone who wishes to pursue a career in public or animal health or disease management or graduate work in medical geography, public health or related natural sciences, including ecology, biology, or epidemiology/public health. This specialization offers the flexibility for students to prepare for admission to health professions programs.

**Academic Learning Compact**
A major in geography enables students to know the earth's physical environment, to learn social, cultural and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically and/or with statistics.

The Bachelor of Arts in geography enables students to learn how geographic techniques, skills and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

**Before Graduating Students Must**
- Complete a capstone exam in GEO 4930, as developed by geography faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

**Students in the Major Will Learn to**

**Student Learning Outcomes (SLOs)**

**Content**
1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human-environment interactions, and the techniques of geographic science.

**Critical Thinking**
2. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

**Communication**
3. Interpret and effectively communicate information spatially, graphically and/or with statistics.

- **Combination Degrees**
- Geographical Science and Sustainability | BA
- Geography
- Geography Minor
- Geography Minor UF Online
- Geography UF Online
- Geospatial Information Analysis Certificate
- Medical Geography Certificate
- Medical Geography in Global Health Minor
- Meteorology and Climatology Certificate

Geography offers exciting undergraduate degrees at UF. Students learn from world-renowned faculty and award-winning mentors, and contribute to groundbreaking research, all while studying topics that have great environmental and social significance. Geography is an integrated and highly interdisciplinary field of study spanning the physical world and society. It is also a hands-on discipline, with a strong emphasis on computer-based tools and field studies.

Geographers can choose to study an enormous range of subjects, essentially anything that has a spatial component. Students who major in geography use the lens of space to examine issues as diverse as climate variability and change on the African continent, malaria outbreaks in Africa and South America, deforestation and land conflict in the Amazon, and the origin and spread of blues music in the Southeastern United States. Across the globe, geographers study tropical cyclones, river restoration, disease outbreaks, the role of parks and other protected areas, changes in land cover, forest management and fragmentation, community conservation, emerging infectious diseases, environmental influences on the elderly, and economic development.

Geography explores the relationship between human and biophysical systems and deals with some of the most critical issues of our time such as environmental hazards, climate change, sustainability of resource management systems, international development, and community and urban planning. Understanding the concept of place, including how and why places differ from each other, is a central concern. Students who have social and economic interests can enter into careers in international development, urban and regional planning, geographic information systems, and environmental consultancy. Students who combine the study of socioeconomic factors and the biophysical world can work in resource management, conservation, environmental assessment, and watershed and coastal planning.

Coursework for the Major
The geography major has five different programs: the Bachelor of Arts, the Bachelor of Science, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geological Sciences), the Bachelor of Arts in medical geography in global health, and the Bachelor of Science in medical geography in global health.

Coursework for the major will depend upon the program, which are all flexible. Students must earn a minimum grade of C in all coursework for the major.

Critical Tracking
Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/
displayRecord.jsp?cip=450701&track=01 may be used for transfer students.

**Semester 1**
- 2.0 UF GPA required

**Semester 2**
- 2.0 UF GPA required

**Semester 3**
- Complete 1 geography course (GEA 1000 not acceptable)
- 2.0 UF GPA required

**Semester 4**
- Complete 1 additional geography course (1 of the 2 must be GEO 2200; GEA 1000 not acceptable) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**Semester 5**
- Complete all critical-tracking courses (STA 2023 and 2 geography courses, 1 of which must be GEO 2200; GEA 1000 not acceptable) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**Semester 6**
- Complete a GIS 3000/4000 technique course.
- 2.0 UF GPA required

**Semester 7**
- Complete 1 additional geography technique course (GEO or GIS 4000 level)
- 2.0 UF GPA required

**Semester 8**
- Complete all remaining geography (GEO, GIS, or MET) 3000/4000 required courses
- 2.0 UF GPA required

### Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Academic Learning Compact

A major in geography enables students to know the earth's physical environment, to learn social, cultural and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically and/or with statistics.

The Bachelor of Arts in geography enables students to learn how geographic techniques, skills and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

Before Graduating Students Must

- Complete a capstone exam in GEO 4930, as developed by geography faculty.
- Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human-environment interactions, and the techniques of geographic science.

Critical Thinking

2. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

Communication

3. Interpret and effectively communicate information spatially, graphically and/or with statistics.

Bachelor of Science

Geography is the science of place, space, and environment. Each place on earth is distinguished by a unique mix of natural resources, cultural practices, and socioeconomic and political systems. Geographers study what makes each place unique, as well as the connections and interactions between places.

About this Program

- **College**: Liberal Arts and Sciences (p. 646)
- **Degrees**: Bachelor of Arts (p. 801) | Bachelor of Science (p. 805)
- **Specializations**: Environmental Geosciences (BA) (p. 809) | Geographical Science and Sustainability (p. 813) | Medical Geography in Global Health (BA) (p. 816) | Medical Geography in Global Health (BS) (p. 820)
- **Credits for Degree**: 120
- **Contact**: Email (liangmao@ufl.edu)

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, B.A. and B.S. undergraduate degrees, M.A., M.S., and PhD degrees, as well as the largest Medical Geography program in the United States.

Website (https://geog.ufl.edu/)

CONTACT

Email (liangmao@ufl.edu) | 352.392.0494 (tel) | 352.392.8855 (fax)
Students who are uncertain of a program should contact the Department of Geography’s undergraduate coordinator for information and curriculum planning.

**Required Coursework**
All majors take some techniques courses, including GEO 3162C and a minimum of two additional courses that involve working with data and computers. All majors take a regional course, focusing on the countries, cultures and landscapes of one region in the world. The systematic courses include specialized courses in human or environmental/physical geography, but majors can also take additional techniques courses as part of this requirement. Students can concentrate coursework in economic geography and planning, environmental/physical geography, geospatial technologies, medical geography, or natural resource management.

Coursework for the major will depend upon the degree program. Courses for each program are listed below under Critical Tracking and Model Semester Plan.

**Bachelor of Arts in Geography**
Best suited for students interested in careers in urban and regional planning, business geography, medical geography, and geographic education, or for students who want a broad overview of the discipline with a focus on human geography.

**Bachelor of Arts in Environmental Geosciences**
A joint program between the Department of Geography and the Department of Geological Sciences and is intended for students interested in land and water aspects of the environment. The degree focuses on human impacts, water and mineral resource exploitation and management, disasters, environmental planning, earth science education, or environmental law.

**Bachelor of Science in Geography**
Best suited for someone who wishes to pursue a career in environmental consulting or graduate work in physical geography or related natural sciences, including atmospheric science, geosciences, hydrologic sciences, or meteorology.

**Bachelor of Science in Medical Geography in Global Health**
Intended for students interested in social and cultural aspects of medical geography and global health and disease issues. The degree focuses on human impacts, cultural and social aspects of health and disease, and public health planning and management.

**Bachelor of Science in Medical Geography in Global Health**
Best suited for someone who wishes to pursue a career in public or animal health or disease management or graduate work in medical geography, public health or related natural sciences, including ecology, biology, or epidemiology/public health. This specialization offers the flexibility for students to prepare for admission to health professions programs.
Physics, chemistry, geology, and soil science. Students must earn a minimum grade of C in all coursework for the major.

## Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

### Semester 1
- 2.0 UF GPA required

### Semester 2
- 2.0 UF GPA required

### Semester 3
- Complete 1 geography course (GEA 1000 not acceptable)
- 2.0 UF GPA required

### Semester 4
- Complete 1 additional geography course (1 of the 2 must be GEO 2200; GEA 1000 not acceptable) or complete STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

### Semester 5
- Complete all critical-tracking courses (STA 2023 and 2 geography courses, 1 of which must be GEO 2200; GEA 1000 not acceptable) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

The same course may not be used to satisfy requirements for more than one bulleted group.
Semester 6
* Complete a GIS 3000/4000 technique course.
* 2.0 UF GPA required

Semester 7
* Complete 1 geography (GEO, GIS, or MET) 3000/4000 systematic course
* 2.0 UF GPA required

Semester 8
* Complete all remaining geography (GEO or GIS) 3000/4000 courses
* 2.0 UF GPA required

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

| Select one: | 4 |
| GIS 3001C | Spatial Maps and Graphs (Critical Tracking) |
| GIS 3043 | Foundations of Geographic Information Systems (technique; Critical Tracking) |
| GLY 2010C | Physical Geology (Gen Ed Physical Sciences) |
| Elective (3000 level or above, not in major) | 3 |
| Gen Ed Humanities | 3 |

| Credits | 17-18 |

**Semester Seven**

| GEO 4930 | Senior Seminar |
| Systematic GEO/GIS/MET course (Critical Tracking: 3000/4000 level) | 3 |
| SWS 3022 | Introduction to Soils in the Environment Laboratory (Gen Ed Physical Sciences) |
| SWS 3022L | and Introduction to Soils in the Environment Laboratory (Gen Ed Physical Sciences) |
| Electives (3000 level or above, not in major) | 6 |

| Credits | 14 |

**Semester Eight**

| Technique GEO/GIS course (Critical Tracking: 3000 level or above) | 3-4 |
| Electives (3000 level or above, not in major) | 6 |
| Electives | 7 |

| Credits | 16-17 |

| Total Credits | 120 |

1 One General Education option taken this term must be a Quest 2 course.

Electives to reach the 120-credit minimum will vary depending on whether students select minimum or maximum credit course options.
Academic Learning Compact

A major in geography enables students to know the earth’s physical environment, to learn social, cultural and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically and/or with statistics.

The Bachelor of Arts in geography enables students to learn how geographic techniques, skills and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

Before Graduating Students Must

• Complete a capstone exam in GEO 4930, as developed by geography faculty.
• Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human-environment interactions, and the techniques of geographic science.

Critical Thinking
2. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

Communication
3. Interpret and effectively communicate information spatially, graphically and/or with statistics.

Environmental Geosciences | BA

Geography is the science of place, space, and environment. Each place on earth is distinguished by a unique mix of natural resources, cultural practices, and socioeconomic and political systems. Geographers study what makes each place unique, as well as the connections and interactions between places.

About this Program

• College: Liberal Arts and Sciences (p. 646)
• Degrees: Bachelor of Arts (p. 801) | Bachelor of Science (p. 805)
• Specializations: Environmental Geosciences (BA) (p. 809) | Geographical Science and Sustainability (p. 813) | Medical Geography in Global Health (BA) (p. 816) | Medical Geography in Global Health (BS) (p. 820)
• Credits for Degree: 120
• Contact: Email (liangmao@ufl.edu)

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, B.A. and B.S. undergraduate degrees, M.A., M.S., and PhD degrees, as well as the largest Medical Geography program in the United States.

Curriculum

• Combination Degrees
• Geographical Science and Sustainability | BA
• Geography
• Geography Minor
• Geography Minor UF Online
• Geography UF Online
Geography offers exciting undergraduate degrees at UF. Students learn from world-renowned faculty and award-winning mentors, and contribute to groundbreaking research, all while studying topics that have great environmental and social significance. Geography is an integrated and highly interdisciplinary field of study spanning the physical world and society. It is also a hands-on discipline, with a strong emphasis on computer-based tools and field studies.

Geographers can choose to study an enormous range of subjects, essentially anything that has a spatial component. Students who major in geography use the lens of space to examine issues as diverse as climate variability and change on the African continent, malaria outbreaks in Africa and South America, deforestation and land conflict in the Amazon, and the origin and spread of blues music in the Southeastern United States. Across the globe, geographers study tropical cyclones, river restoration, disease outbreaks, the role of parks and other protected areas, changes in land cover, forest management and fragmentation, community conservation, emerging infectious diseases, environmental influences on the elderly, and economic development.

Geography explores the relationship between human and biophysical systems and deals with some of the most critical issues of our time such as environmental hazards, climate change, sustainability of resource management systems, international development, and community and urban planning. Understanding the concept of place, including how and why places differ from each other, is a central concern. Students who have social and economic interests can enter into careers in international development, urban and regional planning, geographic information systems, and environmental consultancy. Students who combine the study of socioeconomic factors and the biophysical world can work in resource management, conservation, environmental assessment, and watershed and coastal planning.

**Coursework for the Major**

The geography major has five different programs: the Bachelor of Arts, the Bachelor of Science, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geological Sciences), the Bachelor of Arts in medical geography in global health, and the Bachelor of Science in medical geography in global health. Coursework for the major will depend upon the program, which are all flexible. Students must earn a minimum grade of C in all coursework for the major.

Students who are uncertain of a program should contact the Department of Geography's undergraduate coordinator for information and curriculum planning.

**Required Coursework**

All majors take some techniques courses, including GEO 3162C and a minimum of two additional courses that involve working with data and computers. All majors take a regional course, focusing on the countries, cultures and landscapes of one region in the world. The systematic courses include specialized courses in human or environmental/physical geography, but majors can also take additional techniques courses as part of this requirement. Students can concentrate coursework in economic geography and planning, environmental/physical geography, geospatial technologies, medical geography, or natural resource management.

Coursework for the major will depend upon the degree program. Courses for each program are listed below under Critical Tracking and Model Semester Plan.

**Bachelor of Arts in Geography**

Best suited for students interested in careers in urban and regional planning, business geography, medical geography, and geographic education, or for students who want a broad overview of the discipline with a focus on human geography.

**Bachelor of Arts in Environmental Geosciences**

A joint program between the Department of Geography and the Department of Geological Sciences and is intended for students interested in land and water aspects of the environment. The degree focuses on human impacts, water and mineral resource exploitation and management, disasters, environmental planning, earth science education, or environmental law.

**Bachelor of Science in Geography**

Best suited for someone who wishes to pursue a career in environmental consulting or graduate work in physical geography or related natural sciences, including atmospheric science, geosciences, hydrologic sciences, or meteorology.

**Bachelor of Arts in Medical Geography in Global Health**

Intended for students interested in social and cultural aspects of medical geography and global health and disease issues. The degree focuses on human impacts, cultural and social aspects of health and disease, and public health planning and management.

**Bachelor of Science in Medical Geography in Global Health**

Best suited for someone who wishes to pursue a career in public or animal health or disease management or graduate work in medical geography, public health or related natural sciences, including ecology, biology, or epidemiology/public health. This specialization offers the flexibility for students to prepare for admission to health professions programs.

**Bachelor of Arts: Environmental Geosciences**

The Bachelor of Arts in environmental geosciences requires a minimum of 35 credits of coursework, plus 3 credits of Statistics. Students must earn a minimum grade of C in all coursework for the major.

Total Credits 35-40

The same course may not be used to satisfy requirements for more than one bulleted group.

Related Coursework

- STA 2023

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 critical-tracking course with laboratory (GEO 2200/GEO 2200L or GLY 2010C) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 3

- Complete the other critical-tracking course with laboratory (GEO 2200/GEO 2200L or GLY 2010C) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 4

- Complete STA 2023 and maintain a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5

- Complete 2 additional GLY or GEO courses with a 2.5 critical-tracking GPA. Recommended GLY courses include GLY 2100C or GLY 3105C. Recommended GEO courses include GEO 3250, GEO 3280, GEO 3315, GEO 3341, GEO 3352, GEO 3372, or MET 3503.
- 2.0 UF GPA required

Semester 6

- Complete 1 geography 3000/4000 elective course.
- 2.0 UF GPA required

Semester 7

- Complete 1 additional geography and 1 additional geology elective courses
- 2.0 UF GPA required

Semester 8

- Complete all remaining geography and geology 3000/4000 courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

3000 level or above Geology courses count towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

### Academic Learning Compact

A major in geography enables students to know the earth’s physical environment, to learn social, cultural and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically and/or with statistics.

The Bachelor of Arts in geography enables students to learn how geographic techniques, skills and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

### Before Graduating Students Must

- Complete a capstone exam in GEO 4930, as developed by geography faculty.
- Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

**Student Learning Outcomes (SLOs)**

**Content**

1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human-environment interactions, and the techniques of geographic science.

**Critical Thinking**

2. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

**Communication**

3. Interpret and effectively communicate information spatially, graphically and/or with statistics.

Geographical Science and Sustainability | BA

Geography is the science of place, space, and environment. Each place on earth is distinguished by a unique mix of natural resources, cultural practices, and socioeconomic and political systems. Geographers study what makes each place unique, as well as the connections and interactions between places.

About this Program

- **College**: Liberal Arts and Sciences (p. 646)
- **Degrees**: Bachelor of Arts (p. 801) | Bachelor of Science (p. 805)
- **Specializations**: Environmental Geosciences (BA) (p. 809) | Geographical Science and Sustainability (p. 813) | Medical Geography in Global Health (BA) (p. 816) | Medical Geography in Global Health (BS) (p. 820)
- **Credits for Degree**: 120
- **Contact**: Email (liangmao@ufl.edu)

To graduate with this major, students must complete all university, college, and major requirements.

Coursework for the major

This specialization under the Bachelor of Arts in Geography requires a major coursework of 43 credits from the geography program and sustainability studies program, and 3 additional credits of STA2023. Students must earn a minimum grade of C in all coursework for the major.

Capstone course

3141 TURLINGTON HALL
GAINESVILLE FL 32611-7315
Map (http://campusmap.ufl.edu/#/index/0267)

Overview

The Bachelor of Arts in Geography in Geographical Science and Sustainability is a joint program (specialization) co-offered by Geography and Sustainability Studies, and is intended for students interested in using geospatial technologies to advance sustainability. Students in this specialization learn modern geospatial technologies, such as geographical information system, remote sensing and spatial analysis, and use them to maintain ecological and environmental health, create economic welfare, and pursue social justice in a changing world.
**GEO 4930** Senior Seminar

**Geography electives for Sustainability—9 credits; Select three:**

Other geography courses can be counted under the discretion of the undergraduate coordinator.

- GEO 2242 Extreme Weather
- GEO 3250 Climatology
- GEO 3280 Principles of Geographic Hydrology
- GEO 3315 Geography of Crop Plants
- GEO 3341 Extreme Floods
- GEO 3352 The Human Footprint on Landscape
- GEO 3372 Conservation of Resources
- GEO 3452 Introduction to Medical Geography
- GEO 3334 Peoples and Plagues
- GEO 3334 Managing for a Changing Climate
- GEO 3930 Special Topics (Sea Level Variability & Change)
- GEO 3930 Special Topics (Weather, Climate, & Society)
- GEO 3930 Special Topics (Extreme Droughts)
- GEO 4000 Environmental Biogeography
- GIS 4021C Aerial Photo Interpretation
- GIS 4102C GIS Programming
- GIS 4324 GIS Analysis of Hazard Vulnerability

**Total Credits** 46

### Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

**For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

**SEMESTER 1**

- 2.0 UF GPA required

**SEMESTER 2**

- Complete either one geography fundamental course or one sustainability fundamental course (recommended GEO 2200 & GEO 2200L or IDS 2154) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**SEMESTER 3**

- Complete the other fundamental course that is not taken in Semester 2 (recommended GEO 2200 & GEO 2200L or IDS 2154) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**SEMESTER 4**

- Complete one additional geography fundamental course (recommended GEO 2351), and STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**SEMESTER 5**

- Complete one additional geography fundamental course, one additional sustainability fundamental course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

**SEMESTER 6**

- Complete all geography and sustainability fundamental courses
- Complete a GIS 3000/4000 technique course.
- 2.0 UF GPA required

**SEMESTER 7**

- Complete 1 additional geography technique course (GEO or GIS 4000 level)
- 2.0 UF GPA required

**SEMESTER 8**

- Complete all remaining geography (GEO, GIS, or MET) 3000/4000 required courses
- 2.0 UF GPA required
Semester Four
Geography fundamental course (Critical Tracking) 3
Sustainability Fundamentals course 3
State Core Gen Ed Humanities (p. 53) 3
Quest 2 (Gen Ed Social and Behavioral Science or Gen Ed Biological Science) 3
Gen Ed Biological or Social and Behavioral Science (Option not taken as Quest 2 above) 3

- Meteorology and Climatology Certificate

Geography offers exciting undergraduate degrees at UF. Students learn from world-renowned faculty and award-winning mentors, and contribute to groundbreaking research, all while studying topics that have great environmental and social significance. Geography is an integrated and highly interdisciplinary field of study spanning the physical world and society. It is also a hands-on discipline, with a strong emphasis on computer-based tools and field studies.
Geographers can choose to study an enormous range of subjects, essentially anything that has a spatial component. Students who major in geography use the lens of space to examine issues as diverse as climate variability and change on the African continent, malaria outbreaks in Africa and South America, deforestation and land conflict in the Amazon, and the origin and spread of blues music in the Southeastern United States. Across the globe, geographers study tropical cyclones, river restoration, disease outbreaks, the role of parks and other protected areas, changes in land cover, forest management and fragmentation, community conservation, emerging infectious diseases, environmental influences on the elderly, and economic development.

Geography explores the relationship between human and biophysical systems and deals with some of the most critical issues of our time such as environmental hazards, climate change, sustainability of resource management systems, international development, and community and urban planning. Understanding the concept of place, including how and why places differ from each other, is a central concern. Students who have social and economic interests can enter into careers in international development, urban and regional planning, geographic information systems, and environmental consultancy. Students who combine the study of socioeconomic factors and the biophysical world can work in resource management, conservation, environmental assessment, and watershed and coastal planning.

Coursework for the Major

The geography major has five different programs: the Bachelor of Arts, the Bachelor of Science, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geological Sciences), the Bachelor of Arts in medical geography in global health, and the Bachelor of Science in medical geography in global health. Coursework for the major will depend upon the program, which are all flexible. Students must earn a minimum grade of C in all coursework for the major.

Students who are uncertain of a program should contact the Department of Geography's undergraduate coordinator for information and curriculum planning.

Required Coursework

All majors take some techniques courses, including GEO 3162C and a minimum of two additional courses that involve working with data and computers. All majors take a regional course, focusing on the countries, cultures and landscapes of one region in the world. The systematic courses include specialized courses in human or environmental/physical geography, but majors can also take additional techniques courses as part of this requirement. Students can concentrate coursework in economic geography and planning, environmental/physical geography, geospatial technologies, medical geography, or natural resource management.

Coursework for the major will depend upon the degree program. Courses for each program are listed below under Critical Tracking and Model Semester Plan.

Bachelor of Arts in Environmental Geosciences

A joint program between the Department of Geography and the Department of Geological Sciences and is intended for students interested in land and water aspects of the environment. The degree focuses on human impacts, water and mineral resource exploitation and management, disasters, environmental planning, earth science education, or environmental law.

Bachelor of Science in Geography

Best suited for someone who wishes to pursue a career in environmental consulting or graduate work in physical geography or related natural sciences, including atmospheric science, geosciences, hydrologic sciences, or meteorology.

Bachelor of Arts in Medical Geography in Global Health

Intended for students interested in social and cultural aspects of medical geography and global health and disease issues. The degree focuses on human impacts, cultural and social aspects of health and disease, and public health planning and management.

Bachelor of Science in Medical Geography in Global Health

Best suited for someone who wishes to pursue a career in public or animal health or disease management or graduate work in medical geography, public health or related natural sciences, including ecology, biology, or epidemiology/public health. This specialization offers the flexibility for students to prepare for admission to health professions programs.

Bachelor of Arts: Medical Geography in Global Health

The Bachelor of Arts in medical geography in global health requires a minimum of 33 credits of coursework, plus 3 credits of Statistics. Students must earn a minimum grade of C in all coursework for the major.

- GEO 4285 Water, Risk, and Extreme Events
- GEO 4300 Environmental Biogeography
- GEO 4306C Geography of Vector-borne Diseases
- GEO 4554 Regional Development
- GEO 4612 Shelter and Care Options for U.S. Elderly
- GEO 4938 Selected Topics in Geography
- GEO 4970 Honors Thesis
- GIS 2002 The Digital Earth
- GIS 3420C GIS Models for Public Health
- GIS 4021C Aerial Photo Interpretation
- GIS 4037 Digital Image Processing
- GIS 4102C GIS Programming
- GIS 4113 Introduction to Spatial Networks
- GIS 4115 Applied Geostats
- GLY 4734 Coastal Morphology and Processes
- MET 3503 Weather and Forecasting
- MET 4532 Hurricanes
- MET 4560 Atmospheric Teleconnections
- MET 4750 Spatial Analysis of Atmospheric Data using GIS

**Total Credits**: **33-37**

*The same course may not be used to satisfy requirements for more than one bulleted group.*

Transfer coursework is considered on a case-by-case basis. Upper division transfer courses with no UF equivalent will be substituted as GEO 4938.

### Related Coursework
- • STA 2023

### Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

#### Semester 1
- • 2.0 UF GPA required

#### Semester 2
- • 2.0 UF GPA required

#### Semester 3
- • Complete 1 geography course (GEA 1000 not acceptable)
- • 2.0 UF GPA required

#### Semester 4
- • Complete 1 additional geography course (1 of the 2 must be GEO 2200; GEA 1000 not acceptable) or complete STA 2023 with a 2.5 critical-tracking GPA
- • 2.0 UF GPA required

#### Semester 5
- • Complete all critical-tracking courses (STA 2023 and 2 geography courses, 1 of which must be GEO 2200; GEA 1000 not acceptable) with a 2.5 critical-tracking GPA
- • 2.0 UF GPA required

#### Semester 6
- • Complete 1 geography technique course.
- • 2.0 UF GPA required

#### Semester 7
- • Complete 1 geography elective course
- • 2.0 UF GPA required

#### Semester 8
- • Complete all remaining geography (GEO, GIS, or MET) 3000/4000 required courses
- • 2.0 UF GPA required

### Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D)
requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria. This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

1. GEO 3452 or GEO 3454 recommended.

Electives to reach the 120-credit minimum will vary depending on whether students select minimum or maximum credit course options.

### Academic Learning Compact

A major in geography enables students to know the earth's physical environment, to learn social, cultural and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically and/or with statistics.

The Bachelor of Arts in geography enables students to learn how geographic techniques, skills and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

### Before Graduating Students Must
- Complete a capstone exam in GEO 4930, as developed by geography faculty.
- Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human-environment interactions, and the techniques of geographic science.
Critical Thinking
2. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

Communication
3. Interpret and effectively communicate information spatially, graphically and/or with statistics.

Assessment Types
• Capstone exam
• Portfolio

Medical Geography in Global Health | BS

Geography is the science of place, space, and environment. Each place on earth is distinguished by a unique mix of natural resources, cultural practices, and socioeconomic and political systems. Geographers study what makes each place unique, as well as the connections and interactions between places.

About this Program
• College: Liberal Arts and Sciences (p. 646)
• Degrees: Bachelor of Arts (p. 801) | Bachelor of Science (p. 805)
• Specializations: Environmental Geosciences (BA) (p. 809)
  | Geographical Science and Sustainability (p. 813) | Medical Geography in Global Health (BA) (p. 816) | Medical Geography in Global Health (BS) (p. 820)
• Credits for Degree: 120
• Contact: Email (liangmao@ufl.edu)

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, B.A. and B.S. undergraduate degrees, M.A., M.S., and PhD degrees, as well as the largest Medical Geography program in the United States.

Geography offers exciting undergraduate degrees at UF. Students learn from world-renowned faculty and award-winning mentors, and contribute to groundbreaking research, all while studying topics that have great environmental and social significance. Geography is an integrated and highly interdisciplinary field of study spanning the physical world and society. It is also a hands-on discipline, with a strong emphasis on computer-based tools and field studies.

Geographers can choose to study an enormous range of subjects, essentially anything that has a spatial component. Students who major in geography use the lens of space to examine issues as diverse as climate variability and change on the African continent, malaria outbreaks in Africa and South America, deforestation and land conflict in the Amazon, and the origin and spread of blues music in the Southeastern United States. Across the globe, geographers study tropical cyclones, river restoration, disease outbreaks, the role of parks and other protected areas, changes in land cover, forest management and fragmentation, community conservation, emerging infectious diseases, environmental influences on the elderly, and economic development.

Geography explores the relationship between human and biophysical systems and deals with some of the most critical issues of our time such as environmental hazards, climate change, sustainability of resource management systems, international development, and community and urban planning. Understanding the concept of place, including how and why places differ from each other, is a central concern. Students who have social and economic interests can enter into careers in international
development, urban and regional planning, geographic information systems, and environmental consultancy. Students who combine the study of socioeconomic factors and the biophysical world can work in resource management, conservation, environmental assessment, and watershed and coastal planning.

Coursework for the Major

The geography major has five different programs: the Bachelor of Arts, the Bachelor of Science, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geological Sciences), the Bachelor of Arts in medical geography in global health, and the Bachelor of Science in medical geography in global health. Coursework for the major will depend upon the program, which are all flexible. Students must earn a minimum grade of C in all coursework for the major.

Students who are uncertain of a program should contact the Department of Geography’s undergraduate coordinator for information and curriculum planning.

Required Coursework

All majors take some techniques courses, including GEO 3162C and a minimum of two additional courses that involve working with data and computers. All majors take a regional course, focusing on the countries, cultures and landscapes of one region in the world. The systematic courses include specialized courses in human or environmental/physical geography, but majors can also take additional techniques courses as part of this requirement. Students can concentrate coursework in economic geography and planning, environmental/physical geography, geospatial technologies, medical geography, or natural resource management.

Coursework for the major will depend upon the degree program. Courses for each program are listed below under Critical Tracking and Model Semester Plan.

Bachelor of Arts in Geography

Best suited for students interested in careers in urban and regional planning, business geography, medical geography, and geographic education, or for students who want a broad overview of the discipline with a focus on human geography.

Bachelor of Arts in Environmental Geosciences

A joint program between the Department of Geography and the Department of Geological Sciences and is intended for students interested in land and water aspects of the environment. The degree focuses on human impacts, water and mineral resource exploitation and management, disasters, environmental planning, earth science education, or environmental law.

Bachelor of Science in Geography

Best suited for someone who wishes to pursue a career in environmental consulting or graduate work in physical geography or related natural sciences, including atmospheric science, geosciences, hydrologic sciences, or meteorology.

Bachelor of Arts in Medical Geography in Global Health

Intended for students interested in social and cultural aspects of medical geography and global health and disease issues. The degree focuses on human impacts, cultural and social aspects of health and disease, and public health planning and management.

Bachelor of Science in Medical Geography in Global Health

Best suited for someone who wishes to pursue a career in public or animal health or disease management or graduate work in medical geography, public health or related natural sciences, including ecology, biology, or epidemiology/public health. This specialization offers the flexibility for students to prepare for admission to health professions programs.

Bachelor of Science: Medical Geography in Global Health

The Bachelor of Science in medical geography in global health requires a minimum of 34 credits of geography coursework and 19 credits of related coursework in biology, chemistry, and statistics. Students must earn a minimum grade of C in all coursework for the major.

### Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites [http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01] may be used for transfer students.

#### Semester 1
- Complete 1 geography course (GEA 1000 not acceptable)
- 2.0 UF GPA required

#### Semester 2
- 2.0 UF GPA required

#### Semester 3
- Complete 1 geography course (GEA 1000 not acceptable)
- 2.0 UF GPA required

#### Semester 4
- Complete 1 additional geography course (of the 2 must be GEO 2200; GEO 1000 not acceptable) or complete STA 2023 with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

#### Semester 5
- Complete all critical-tracking courses (STA 2023 and 2 geography courses, 1 of which must be GEO 2200; GEO 1000 not acceptable) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

#### Semester 6
- Complete 1 medical geography core course and 1 geography technique course.
- 2.0 UF GPA required

#### Semester 7
- Complete 1 additional geography technique course and 1 geography elective course
- 2.0 UF GPA required

#### Semester 8
- Complete all remaining geography (GEO, GIS, or MET) 3000/4000 required courses
- 2.0 UF GPA required

### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.
### Course Title Credits

**Semester One**
- Quest 1 (Gen Ed Humanities) 3
- CHM 2045 General Chemistry 1 4 & 2045L and General Chemistry 1 Laboratory (State Core Gen Ed Physical Sciences (p. 53))
- State Core Gen Ed Mathematics; recommended course: 3
- MAC 2311 Analytic Geometry and Calculus 1
- State Core Gen Ed Composition (p. 53); Writing Requirement 3

**Semester Two**
- CHM 2046 General Chemistry 2 4 & 2046L and General Chemistry 2 Laboratory (Gen Ed Physical Sciences)
- GEO 2200 Physical Geography (Critical Tracking; Gen Ed Physical Sciences)
- GEO 2200L Physical Geography Laboratory (Gen Ed Physical Sciences)
- STA 2023 Introduction to Statistics 1 (Critical Tracking; Gen Ed Mathematics) 3
- State Core Gen Ed Social and Behavioral Sciences (p. 53) 1

**Semester Three**
- BSC 2010 Integrated Principles of Biology 1 4 & 2010L and Integrated Principles of Biology Laboratory 1
- State Core Gen Ed Humanities (p. 53) 3
- Select one: 3
  - GEO 2410 Social Geography (Critical Tracking; Gen Ed Social and Behavioral Sciences and Diversity)
  - GEO 2420 Introduction to Human Geography (Critical Tracking; Gen Ed Social and Behavioral Sciences and International)
  - GEO 2500 Global and Regional Economies (Critical Tracking; Gen Ed Social and Behavioral Sciences)
- Gen Ed Composition 2 3

**Semester Four**
- Quest 2 (Gen Ed Social and Behavioral Sciences) 3
- BSC 2111 Integrated Principles of Biology 2 4 & 2111L and Integrated Principles of Biology Laboratory 2
- Regional geography course 3
- Electives 6

**Semester Five**
- GEO 3162C Introduction to Quantitative Analysis for Geographers (Gen Ed Physical Sciences) 4
- Medical geography core course 3
- Gen Ed Humanities 3
- Foreign language 5

**Semester Six**
- GIS 3043 Foundations of Geographic Information Systems (Critical Tracking) 4
- Medical geography core course 3
- Elective (3000 level or above, not in major) 3
- Foreign language 5

**Semester Seven**
- Geography techniques course (Critical Tracking) 3-4
- Geography elective (Critical Tracking) 3-4
- Electives (3000 level or above, not in major) 6
- Electives 4

**Semester Eight**
- GEO 4930 Senior Seminar (Critical Tracking) 1
- Geography elective (Critical Tracking) 3
- Electives (3000 level or above, not in major) 9
- Electives 5

**Total Credits** 120

---

1. PSY 2012 or SYG 2000 recommended.
2. The following are recommended:
   - ENC 3459
   - ENC 3254
   - ENC 3453
   - ENC 3464
3. GEO 3452 or GEO 3454 recommended.

Electives to reach the 120-credit minimum will vary depending on whether students select minimum or maximum credit course options.

---

### Academic Learning Compact

A major in geography enables students to know the earth's physical environment, to learn social, cultural and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically and/or with statistics.

The Bachelor of Arts in geography enables students to learn how geographic techniques, skills and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

### Before Graduating Students Must

- Complete a capstone exam in GEO 4930, as developed by geography faculty.
- Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

### Students in the Major Will Learn to

#### Student Learning Outcomes (SLOs)

**Content**

1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human-environment interactions, and the techniques of geographic science.
Critical Thinking
2. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

Communication
3. Interpret and effectively communicate information spatially, graphically and/or with statistics.

Geography Minor

Geography is the science of place, space, and environment. It is an interdisciplinary field investigating topics of environmental and social significance through data collection, use of computer-based tools, and field studies. A Geography minor complements majors in agricultural sciences, business, environmental sciences, geology, health sciences, international studies, journalism, social sciences, and travel and tourism.

About this Program
- **College**: Liberal Arts and Sciences (p. 646)
- **Credits**: 15 | Completed with minimum grades of C

Department Information
The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, B.A. and B.S. undergraduate degrees, M.A., M.S., and PhD degrees, as well as the largest Medical Geography program in the United States.

Geography UF Online

Geography is the science of place, space, and environment. Each place on earth is distinguished by a unique mix of natural resources, cultural practices, and socio-economic and political systems. Geographers study what makes each place unique, as well as the connections and interactions between places.

About this Program

• College: Liberal Arts and Sciences (p. 646)
• Degree: Bachelor of Arts (p. 827)
• Specializations: Environmental Geosciences (p. 830)
• Credits for Degree: 120

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, B.A. and B.S. undergraduate degrees, M.A., M.S., and PhD degrees, as well as the largest Medical Geography program in the United States.

• Geographical Science and Sustainability | BA
• Geography
• Geography Minor
• Geography Minor UF Online
• Geography UF Online
• Geospatial Information Analysis Certificate
• Medical Geography Certificate
• Medical Geography in Global Health Minor
• Meteorology and Climatology Certificate

Geography offers exciting undergraduate degrees at UF. Students learn from world-renowned faculty and award-winning mentors, and contribute to groundbreaking research, all while studying topics that have great environmental and social significance. Geography is an integrated and highly interdisciplinary field of study spanning the physical world and society. It is also a hands-on discipline, with a strong emphasis on computer-based tools and field studies.

Geographers can choose to study an enormous range of subjects, essentially anything that has a spatial component. Students who major in geography use the lens of space to examine issues as diverse as climate variability and change on the African continent, malaria outbreaks in Africa and South America, deforestation and land conflict in the Amazon, and the origin and spread of blues music in the Southeastern United States. Across the globe, geographers study tropical cyclones, river restoration, disease outbreaks, the role of parks and other protected areas, changes in land cover, forest management and fragmentation, community conservation, emerging infectious diseases, environmental influences on the elderly, and economic development.
Geography explores the relationship between human and biophysical systems and deals with some of the most critical issues of our time such as environmental hazards, climate change, sustainability of resource management systems, international development, and community and urban planning. Understanding the concept of place, including how and why places differ from each other, is a central concern. Students who have social and economic interests can enter into careers in international development, urban and regional planning, geographic information systems, and environmental consultancy. Students who combine the study of socioeconomic factors and the biophysical world can work in resource management, conservation, environmental assessment, and watershed and coastal planning.

Coursework for the Major

The UF Online Geography major has two different programs: the Bachelor of Arts and the Bachelor of Arts in Environmental Geosciences (a joint program with the Department of Geological Sciences). Coursework for the major will depend upon the program, which are all flexible. Students must earn a minimum grade of C in all coursework for the major.

Students who are uncertain of a program should contact the Department of Geography's undergraduate coordinator for information and curriculum planning.

Required Coursework

All majors take some techniques courses, including GEO 3162C and a minimum of two additional courses that involve working with data and computers. All majors take a regional course, focusing on the countries, cultures and landscapes of one region in the world. The systematic courses include specialized courses in human or environmental/physical geography, but majors can also take additional techniques courses as part of this requirement. Students can concentrate coursework in economic geography and planning, environmental/physical geography, geospatial technologies, medical geography, or natural resource management.

Coursework for the major will depend upon the degree program. Courses for each program are listed below under Critical Tracking and Model Semester Plan.

Bachelor of Arts in Geography

Best suited for students interested in careers in urban and regional planning, business geography, medical geography, and geographic education, or for students who want a broad overview of the discipline with a focus on human geography.

Bachelor of Arts in Environmental Geosciences

A joint program between the Department of Geography and the Department of Geological Sciences and is intended for students interested in land and water aspects of the environment. The degree focuses on human impacts, water and mineral resource exploitation and management, disasters, environmental planning, earth science education, or environmental law.

Academic Learning Compact

A major in geography enables students to know the earth’s physical environment, to learn social, cultural and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically and/or with statistics.

The Bachelor of Arts in geography enables students to learn how geographic techniques, skills and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

Before Graduating Students Must

- Complete a capstone exam in GEO 4930, as developed by geography faculty.
- Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content

1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human-environment interactions, and the techniques of geographic science.

Critical Thinking

1. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

Communication

1. Interpret and effectively communicate information spatially, graphically and/or with statistics.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

Semester 1
• 2.0 UF GPA required

Semester 2
• 2.0 UF GPA required

Semester 3
• Complete 1 geography course
• 2.0 UF GPA required

Semester 4
• Complete 1 additional geography course (1 of the 2 must be GEO 2200) or complete STA 2023 with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 5
• Complete all critical-tracking courses (STA 2023 and 2 geography courses, 1 of which must be GEO 2200) with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 6
• Complete 1 GIS 3000/4000 technique course
• 2.0 UF GPA required

Semester 7
• Complete 1 additional geography technique course (GEO or GIS 4000 level)
• 2.0 UF GPA required

Semester 8
• Complete all remaining geography (GEO, GIS, or MET) 3000/4000 required courses
• 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Credits 16-17

E Electives to reach the 120-credit minimum will vary depending on whether students select minimum or maximum credit course options.

One General Education option taken this term must be a Quest 2 course.

Academic Learning Compact

A major in geography enables students to know the earth's physical environment, to learn social, cultural and economic concepts from spatial and regional perspectives, and to understand the relationship between environment and society. Students will learn how geographic techniques, skills and concepts are applied in the subfields of geography. Computer-based lab assignments teach students how to analyze geographic information and to apply an interpretation of data toward problem solving or modeling. They will be able to interpret and to effectively communicate information spatially, graphically and/or with statistics.

The Bachelor of Arts in geography enables students to learn how geographic techniques, skills and concepts are applied in various subfields of geography. The Bachelor of Science enables students to learn basic concepts in sciences related to the earth and its atmosphere.

Before Graduating Students Must

• Complete a capstone exam in GEO 4930, as developed by geography faculty.
• Complete a capstone portfolio in GEO 4930, evaluated by geography faculty.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to Student Learning Outcomes (SLOs)

Content
1. Identify and describe the physical and human characteristics of Earth and its regions, the essentials of human-environment interactions, and the techniques of geographic science.

Critical Thinking
2. Analyze geographic information and apply interpretation of data toward problem solving or modeling.

Communication
3. Interpret and effectively communicate information spatially, graphically and/or with statistics.

Environmental Geosciences

Environmental Geosciences is an interdisciplinary curriculum integrating physical, chemical and biological aspects of the environment and environmental systems. There remains a huge demand for scientists with quantitative, interdisciplinary training in environmental geosciences to address, mitigate, and manage a multitude of complex environmental problems facing society.

About this Program

- **College**: Liberal Arts and Sciences (p. 646)
- **Degree**: Bachelor of Arts (p. 827)
- **Specializations**: Environmental Geosciences (p. 830)
- **Credits for Degree**: 120
- **Contact**: 1.855.99GATOR | Email (liangmao@ufl.edu)
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, B.A. and B.S. undergraduate degrees, M.A., M.S., and PhD degrees, as well as the largest Medical Geography program in the United States.

Website (https://geog.ufl.edu/)

---

**Coursework**

The Bachelor of Arts in environmental geosciences requires a minimum of 37 credits of coursework, including STA 2023 Students must earn a minimum grade of C in all coursework for the major.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

Semester 1
- 2.0 UF GPA required

Semester 2
- Complete 1 critical-tracking course with laboratory (GEO 2200/GEO 2200L or GLY 2010C) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 3
- Complete the other critical-tracking course with laboratory (GEO 2200/GEO 2200L or GLY 2010C) with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 4
- Complete STA 2023 and maintain a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5
- Complete 2 additional GLY or GEO courses with a 2.5 critical-tracking GPA. Recommended GLY courses include GLY 2100C or GLY 3105C. Recommended GEO courses include GEO 3250, GEO 3280, GEO 3315, GEO 3341, GEO 3352, GEO 3372, or MET 3503.
- 2.0 UF GPA required

Semester 6
- Complete 1 geography 3000/4000 elective course.
- 2.0 UF GPA required

Semester 7
- Complete 1 additional geography and 1 additional geology elective courses
- 2.0 UF GPA required

Semester 8
- Complete all remaining geography and geology 3000/4000 courses
- 2.0 UF GPA required

Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S).

3000 level or above Geology courses count towards the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

Geological Sciences Certificate

The Geological Sciences certificate offers coursework relevant to environmental policy and law, resource economics, teaching, regional planning, building construction, and related fields. The certificate program includes courses required to take the professional geologist licensure exam.
About this Program
- **College**: Liberal Arts and Sciences (p. 646)
- **Credits**: 16-17 | Completed with minimum grades of C
- **Contact**: Email (jmeert@ufl.edu) | 352.846.2414

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information
The Department of Geological Sciences aims to provide a comprehensive understanding of Earth and Planetary sciences along with their formative and evolutionary processes. We train students to excel in the geoscience workforce and create sustainable solutions to societal needs.

Geology
A Geology degree provides an understanding of issues associated with the physical earth and skills which are in demand in today’s job market. The Geology graduate will have a detailed understanding of climate change, sustainability of the Earth’s resources, and the close interplay between human activity and the environment.

About this Program
- **College**: Liberal Arts and Sciences (p. 646)
- **Degrees**: Bachelor of Arts (p. 835) | Bachelor of Science (p. 838)
- **Specializations**: Environmental Geosciences (BA) (p. 841)
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Geological Sciences aims to provide a comprehensive understanding of Earth and Planetary sciences along with their formative and evolutionary processes. We train students to excel in the geoscience workforce and create sustainable solutions to societal needs.

Curriculum
- Combination Degrees
- Geological Sciences Certificate
- Geology
- Geology Minor
- Geology UF Online

Techniques such as environmental assessment, geological hazard assessment, field-based techniques, and geographic information systems (GIS) are used to evaluate the impact of humans on the physical earth and hydrologic environment. The practical and flexible curriculum, small class sizes, computer-based learning, strong faculty, and coursework in several areas of general education make this major appealing to students who want skills linked to employment or preparation for entry to professional schools (e.g., law, medicine, business).

Geology majors learn about the Earth’s physical environment including climate, non-renewable geological resources, renewable geological resources, geological hazards and remediation as well as basic skills required by geologists. These skills and the geological perspective open doors to employment in government agencies and private firms that deal with water management, mining and petroleum exploration, climate change, the environment, and education.

Coursework for the Major
The geology major has three different specializations: the Bachelor of Arts, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geography), and the Bachelor of Science. Students who are uncertain which program best suits them should consult the Department of Geology’s undergraduate coordinator for information and guidance on curriculum planning.
Bachelor of Arts
This degree is the most flexible degree, and best suited for students interested in careers in education or environmental policy making. The degree also allows students flexibility to pursue advanced degrees in environmental law or environmental medicine.

Bachelor of Arts | Environmental Geosciences
Co-offered by the Department of Geography, this specialization is designed for students interested in land and water aspects of the environment. It can be tailored to focus on water and mineral exploration and management, geological hazards, environmental planning, resource sustainability, or earth science education.

Bachelor of Science
This degree is designed for students planning to take the professional geology (PG) licensure exam and/or to continue on to graduate study in geology. It emphasizes a core understanding of petrology, structural geology, field methodology and paleontology, and it requires significant introductory coursework in calculus, general chemistry, and physics.

Relevant Minors and/or Certificates
UFTeach Program
There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see the undergraduate coordinator about the UFTeach program. UFTeach students can complete the UFTeach minor in science teaching along with their B.A. or B.S in geology and have the coursework and preparation for professional teacher certification in Florida when they graduate.

More Info (http://education.ufl.edu/uf-teach/)

Research
Students in geology who wish to graduate with high or highest honors will be required to conduct an independent research project under the direction of a faculty member. Students are also afforded the opportunity to conduct research within the department’s laboratories regardless of their honors status.

Academic Learning Compact

Bachelor of Arts
The Bachelor of Arts in geology provides knowledge of the basic concepts related to earth materials and processes, and how to collect and organize geological data in the field. Through laboratory and field-based exercises, students will learn how to interpret geologic maps and cross sections, and to understand the application of the scientific method to solve these problems in teams and individually.

Before Graduating Students Must

- Pass GLY 4155C Geology of Florida according to the department grading rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)
Content
1. Identify, describe and define the basic concepts related to earth materials and processes.
2. Collect data in the field.
3. Organize geologic, temporal and spatial data.

Critical Thinking
4. Interpret geologic maps and cross sections.
5. Interpret results using the scientific method.

Communication
6. Produce a clearly and effectively written synthesis of data collected in the field.
7. Work in teams to solve geologic problems and to present the results of such collaboration effectively.

Bachelor of Science
The Bachelor of Science in geology provides knowledge of the basic concepts, theories, observational findings related to earth materials and processes, minerals and rocks, geologic time, stratigraphy and landforms. Through laboratory and field-based exercises, students will learn how to analyze data in the published literature, synthesize analog and digital datasets to produce geologic maps, and understand the application of the scientific method to solve geologic problems in teams and individually.

Before Graduating Students Must

- Pass GLY 4790 Summer Field Camp according to the department grading rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to
Student Learning Outcomes (SLOs)
Content
1. Identify, describe and define the basic concepts related to earth materials and processes.
2. Identify and describe minerals and rocks.
3. Define geologic time, stratigraphy and landforms.

Critical Thinking
4. Analyze data in the published literature.
5. Synthesize analog and digital datasets to produce geologic maps.
6. Apply the scientific method to the analysis of published and self-generated data.
Communication
7. Use computers for the presentation of geologic maps and data.
8. Solve geologic problems in teams and present the result of such collaboration effectively.

About this Program
- **College:** Liberal Arts and Sciences (p. 646)
- **Degrees:** Bachelor of Arts (p. 835) | Bachelor of Science (p. 838)
- **Specializations:** Environmental Geosciences (BA) (p. 841)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
The Department of Geological Sciences aims to provide a comprehensive understanding of Earth and Planetary sciences along with their formative and evolutionary processes. We train students to excel in the geoscience workforce and create sustainable solutions to societal needs.

Curriculum
- Combination Degrees
- Geological Sciences Certificate
- Geology
- Geology Minor
- Geology UF Online

Techniques such as environmental assessment, geological hazard assessment, field-based techniques, and geographic information systems (GIS) are used to evaluate the impact of humans on the physical earth and hydrologic environment. The practical and flexible curriculum, small class sizes, computer-based learning, strong faculty, and coursework in several areas of general education make this major appealing to students who want skills linked to employment or preparation for entry to professional schools (e.g., law, medicine, business).

Geology majors learn about the Earth’s physical environment including climate, non-renewable geological resources, renewable geological resources, geological hazards and remediation as well as basic skills required by geologists. These skills and the geological perspective open doors to employment in government agencies and private firms that deal with water management, mining and petroleum exploration, climate change, the environment, and education.

Coursework for the Major
The geology major has three different specializations: the Bachelor of Arts, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geography), and the Bachelor of Science. Students who are uncertain which program best suits them should consult the Department of Geology’s undergraduate coordinator for information and guidance on curriculum planning.

Bachelor of Arts
This degree is the most flexible degree, and best suited for students interested in careers in education or environmental policy making. The degree also allows students flexibility to pursue advanced degrees in environmental law or environmental medicine.

Bachelor of Arts | Environmental Geosciences
Co-offered by the Department of Geography, this specialization is designed for students interested in land and water aspects of the environment. It can be tailored to focus on water and mineral exploration and management, geological hazards, environmental planning, resource sustainability, or earth science education.

Bachelor of Science
This degree is designed for students planning to take the professional geology (PG) licensure exam and/or to continue on to graduate study in geology. It emphasizes a core understanding of petrology, structural geology, field methodology and paleontology, and it requires significant introductory coursework in calculus, general chemistry, and physics.

Relevant Minors and/or Certificates
UFTeach Program
There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see the undergraduate coordinator about the UFTeach program. UFTeach students can complete the UFTeach minor in science teaching along with their B.A. or B.S in geology and have the coursework and preparation for professional teacher certification in Florida when they graduate.

More Info [http://education.ufl.edu/uf-teach/](http://education.ufl.edu/uf-teach/)

Research
Students in geology who wish to graduate with high or highest honors will be required to conduct an independent research project under the direction of a faculty member. Students are also afforded the opportunity...
to conduct research within the department’s laboratories regardless of their honors status.

Bachelor of Arts

The geology B.A. requires a minimum of 32 credits of coursework in the major. At least 23 credits must be GLY-prefixed courses at the 3000 level or above, excluding GLY 3105C. Students must earn a minimum grade of C for coursework to count toward the major.

### Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400601&track=1/2) may be used for transfer students.

#### Semester 1
- 2.0 UF GPA required

#### Semester 2
- 2.0 UF GPA required

#### Semester 3
- Complete one General Education Mathematics course
- Complete 1 of 3 critical-tracking courses with a 2.5 critical-tracking GPA. Choose one from a general introductory course (GLY 2010C, GLY 2030C, or any 1000-2000 level GLY, OCE or ESC course), a historical geology course (GLY 3105C or GLY 2100C), or a 3000-level geology course.

GLY 2010C or GLY 2030C is recommended as one of these is prerequisite to many upper-level courses.
- 2.0 UF GPA required

#### Semester 4
- Complete one additional critical-tracking course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

#### Semester 5
- Complete all tracking courses with a 2.5 critical-tracking GPA; one general introductory course (GLY 2010C, GLY 2030C, or any 1000-2000 level GLY, OCE, or ESC course), one historical geology course (GLY 3105C or GLY 2100C), and one 3000-level geology course.
- 2.0 UF GPA required

#### Semester 6
- Complete 1 GLY elective 3000 level or above (3-4 credits)
- 2.0 UF GPA required

#### Semester 7
- Complete 2 additional GLY electives 3000 level and above (6-8 credits)
- 2.0 UF GPA required

#### Semester 8
- Complete any remaining GLY electives 3000 level and above
- Complete GLY 4155C (Capstone) Geology of Florida
- 2.0 UF GPA required

### Model Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically GE-C, H, or S). One of the two general education mathematics courses must be a pure math course.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.

#### Electives (3000 level or above, not in major)
- 6

#### Electives
- 4

#### Credits
- 15

#### Total Credits
- 120

---

### Academic Learning Compact

#### Bachelor of Arts

The Bachelor of Arts in geology provides knowledge of the basic concepts related to earth materials and processes, and how to collect and organize geological data in the field. Through laboratory and field-based exercises, students will learn how to interpret geologic maps and cross sections, and to understand the application of the scientific method to solve these problems in teams and individually.

#### Before Graduating Students Must
- Pass GLY 4155C Geology of Florida according to the department grading rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

#### Students in the Major Will Learn to

### Student Learning Outcomes (SLOs)

#### Content
- 1. Identify, describe and define the basic concepts related to earth materials and processes.
- 2. Collect data in the field.
- 3. Organize geologic, temporal and spatial data.

#### Critical Thinking
- 4. Interpret geologic maps and cross sections.
- 5. Interpret results using the scientific method.

#### Communication
- 6. Produce a clearly and effectively written synthesis of data collected in the field.
- 7. Work in teams to solve geologic problems and to present the results of such collaboration effectively.

#### Assessment Types
- Lab assignments
- Projects
- Exams

### Bachelor of Science

The Bachelor of Science in geology provides knowledge of the basic concepts, theories, observational findings related to earth materials and processes, minerals and rocks, geologic time, stratigraphy and landforms. Through laboratory and field-based exercises, students will learn how to analyze data in the published literature, synthesize analog and digital datasets to produce geological maps, and understand the application of the scientific method to solve geological problems in teams and individually.

#### Before Graduating Students Must
- Pass GLY 4790 Summer Field Camp according to the department grading rubric.

---

1. Pure math if STA 2023 taken for state core in semester one.

Electives to reach the 120-credit total will vary depending on whether students select minimum or maximum credit course options.
Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe and define the basic concepts related to earth materials and processes.
2. Identify and describe minerals and rocks.
3. Define geologic time, stratigraphy and landforms.

Critical Thinking
4. Analyze data in the published literature.
5. Synthesize analog and digital datasets to produce geologic maps.
6. Apply the scientific method to the analysis of published and self-generated data.

Communication
7. Use computers for the presentation of geologic maps and data.
8. Solve geologic problems in teams and present the result of such collaboration effectively.

Capstone

Assessment Types

- Six weeks of practical field exercises and mapping, including observation and data collection in New Mexico and the western USA

Bachelor of Science

A Geology degree provides an understanding of issues associated with the physical earth and skills which are in demand in today’s job market. The geology graduate will have a detailed understanding of climate change, sustainability of the Earth’s resources, and the close interplay between human activity and the environment.

About this Program

- **College:** Liberal Arts and Sciences (p. 646)
- **Degrees:** Bachelor of Arts (p. 835) | Bachelor of Science (p. 838)
- **Specializations:** Environmental Geosciences (BA) (p. 841)
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Geological Sciences aims to provide a comprehensive understanding of Earth and Planetary sciences along with their formative and evolutionary processes. We train students to excel in the geoscience workforce and create sustainable solutions to societal needs.

Curriculum

- Combination Degrees
- Geological Sciences Certificate
- Geology
- Geology Minor
- Geology UF Online

Geology majors learn about the Earth’s physical environment including climate, non-renewable geological resources, renewable geological resources, geological hazards and remediation as well as basic skills required by geologists. These skills and the geological perspective open doors to employment in government agencies and private firms that deal with water management, mining and petroleum exploration, climate change, the environment, and education.

Coursework for the Major

The geology major has three different specializations: the Bachelor of Arts, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geography), and the Bachelor of Science. Students who are uncertain which program best suits them should consult the Department of Geology’s undergraduate coordinator for information and guidance on curriculum planning.

Bachelor of Arts

This degree is the most flexible degree, and best suited for students interested in careers in education or environmental policy making. The degree also allows students flexibility to pursue advanced degrees in environmental law or environmental medicine.

Bachelor of Arts | Environmental Geosciences

Co-offered by the Department of Geography, this specialization is designed for students interested in land and water aspects of the environment. It can be tailored to focus on water and mineral exploration and management, geological hazards, environmental planning, resource sustainability, or earth science education.

Bachelor of Science

This degree is designed for students planning to take the professional geology (PG) licensure exam and/or to continue on to graduate study in geology. It emphasizes a core understanding of petrology, structural geology, field methodology and paleontology, and it requires significant introductory coursework in calculus, general chemistry, and physics.
Relevant Minors and/or Certificates

UFTeach Program

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see the undergraduate coordinator about the UFTeach program. UFTeach students can complete the UFTeach minor in science teaching along with their B.A. or B.S in geology and have the coursework and preparation for professional teacher certification in Florida when they graduate. More Info (http://education.ufl.edu/uf-teach/)

Research

Students in geology who wish to graduate with high or highest honors will be required to conduct an independent research project under the direction of a faculty member. Students are also afforded the opportunity to conduct research within the department’s laboratories regardless of their honors status.

Bachelor of Science

The professional degree is for students who want to pursue graduate school and careers in geosciences and/or environmental science. The major is extremely flexible and allows specialization in a number of subdisciplines (geochemistry, geophysics, geobiology, and hydrogeology).

The major requires 39-40 credits of geology coursework. Students must earn minimum grades of C for coursework to count toward the major.

Total Credits 15-17

Specific courses selected from among the alternatives listed above will depend upon the student’s primary interest.

Students interested in graduate school are urged to take a year of chemistry, calculus and physics. Students should contact a departmental advisor as early as possible.

Critical Tracking

Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=400601&track=01) may be used for transfer students.

Semester 1
• 2.0 UF GPA required

Semester 2
• 2.0 UF GPA required

Semester 3
• Complete one general introductory course (GLY 2010C Physical Geology, GLY 2030C Environmental and Engineering Geology, or any 1000-2000 level GLY, OCE, or ESC course).
GLY 2010C is recommended as it is a prerequisite for many upper-level courses.
• 2.0 UF GPA required

Semester 4
• Complete historical geology course (GLY 2100C or GLY 3105C) or GLY 3000-level geology course.
• Complete one related coursework requirement (CHM 2045/CHM 2045L, MAC 2311, or PHY 2004/PHY 2048/PHY 2053 and associated lab)
• 2.5 Critical Tracking GPA
• 2.0 UF GPA required

**Semester 5**

• Complete one 3000-level geology course (or historical geology course if not taken in semester 4)
• Complete one additional related coursework requirement (CHM 2045/CHM 2045L, MAC 2311, or PHY 2004/PHY 2048/PHY 2053 and associated lab)
• 2.5 Critical Tracking GPA
• 2.0 UF GPA required

**Semester 6**

• Complete GLY 4310C or GLY 4400C
• 2.0 UF GPA required

**Semester 7**

• Complete GLY 4750L and GLY 4552C
• 2.0 UF GPA required

**Semester 8**

• Complete any remaining GLY required courses and electives required for GLY 4790 (Capstone)

**Model Semester Plan**

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-I) and diversity (GE-D) requirements concurrently with another general education requirement (typically GE-C, H, or S). MAC 2312, MAC 2313, PHY 2049, PHY 2049L, PHY 2054, and PHY 2054L may count towards 3000 level or above electives outside of the major if taken.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

*This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.*

Academic Learning Compact

Bachelor of Arts

The Bachelor of Arts in geology provides knowledge of the basic concepts related to earth materials and processes, and how to collect and organize geological data in the field. Through laboratory and field-based exercises, students will learn how to interpret geologic maps and cross sections, and to understand the application of the scientific method to solve these problems in teams and individually.

Before Graduating Students Must

• Pass GLY 4155C Geology of Florida according to the department grading rubric.
• Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major Will Learn to

Student Learning Outcomes (SLOs)

Content
1. Identify, describe and define the basic concepts related to earth materials and processes.
2. Collect data in the field.
3. Organize geologic, temporal and spatial data.

Critical Thinking
4. Interpret geologic maps and cross sections.
5. Interpret results using the scientific method.

Communication
6. Produce a clearly and effectively written synthesis of data collected in the field.
7. Work in teams to solve geologic problems and to present the results of such collaboration effectively.

Environmental Geosciences | BA

A Geology degree provides an understanding of issues associated with the physical earth and skills which are in demand today's job market.
The Geology graduate will have a detailed understanding of climate change, sustainability of the Earth's resources, and the close interplay between human activity and the environment.

About this Program

- **College**: Liberal Arts and Sciences (p. 646)
- **Degrees**: Bachelor of Arts (p. 835) | Bachelor of Science (p. 838)
- **Specializations**: Environmental Geosciences (BA) (p. 841)
- **Credits for Degree**: 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information

The Department of Geological Sciences aims to provide a comprehensive understanding of Earth and Planetary sciences along with their formative and evolutionary processes. We train students to excel in the geoscience workforce and create sustainable solutions to societal needs.

Curriculum

- Combination Degrees
- Geological Sciences Certificate
- Geology
- Geology Minor
- Geology UF Online

Techniques such as environmental assessment, geological hazard assessment, field-based techniques, and geographic information systems (GIS) are used to evaluate the impact of humans on the physical earth and hydrologic environment. The practical and flexible curriculum, small class sizes, computer-based learning, strong faculty, and coursework in several areas of general education make this major appealing to students who want skills linked to employment or preparation for entry to professional schools (e.g., law, medicine, business).

Geology majors learn about the Earth's physical environment including climate, non-renewable geological resources, renewable geological resources, geological hazards and remediation as well as basic skills required by geologists. These skills and the geological perspective open doors to employment in government agencies and private firms that deal with water management, mining and petroleum exploration, climate change, the environment, and education.

Coursework for the Major

The geology major has three different specializations: the Bachelor of Arts, the Bachelor of Arts in environmental geosciences (a joint program with the Department of Geography), and the Bachelor of Science. Students who are uncertain which program best suits them should consult the Department of Geology's undergraduate coordinator for information and guidance on curriculum planning.

Bachelor of Arts

This degree is the most flexible degree, and best suited for students interested in careers in education or environmental policy making. The degree also allows students flexibility to pursue advanced degrees in environmental law or environmental medicine.

Bachelor of Arts | Environmental Geosciences

Co-offered by the Department of Geography, this specialization is designed for students interested in land and water aspects of the environment. It can be tailored to focus on water and mineral exploration and management, geological hazards, environmental planning, resource sustainability, or earth science education.

Bachelor of Science

This degree is designed for students planning to take the professional geology (PG) licensure exam and/or to continue on to graduate study in geology. It emphasizes a core understanding of petrology, structural geology, field methodology and paleontology, and it requires significant introductory coursework in calculus, general chemistry, and physics.

Relevant Minors and/or Certificates

UFTeach Program

There is a severe shortage of qualified secondary science teachers in Florida and nationwide. Students interested in becoming part of this high-demand profession should see the undergraduate coordinator about the UFTeach program. UFTeach students can complete the UFTeach minor in science teaching along with their B.A. or B.S in geology and have the coursework and preparation for professional teacher certification in Florida when they graduate.

More Info (http://education.ufl.edu/uf-teach/)

Research

Students in geology who wish to graduate with high or highest honors will be required to conduct an independent research project under the direction of a faculty member. Students are also afforded the opportunity to conduct research within the department's laboratories regardless of their honors status.

Bachelor of Arts: Environmental Geosciences

This specialization is well-suited for students interested in environmental science, environmental policy, Earth science teaching, or environmental law and offers a unique interdisciplinary perspective between geology and geography. The major requires a minimum of 40 credits of coursework and is a joint offering between the Department of Geological Sciences and Department of Geography. Students must earn a minimum grade of C for coursework to count toward the major.

Critical Tracking
Critical Tracking records each student’s progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=450701&track=01) may be used for transfer students.

Semester 1
• 2.0 UF GPA required

Semester 2
• Complete one critical-tracking course with laboratory (GEO 2200/GEO 2200L or GLY 2010C) with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 3
• Complete the other critical-tracking course with laboratory (GEO 2200/GEO 2200L or GLY 2010C) with a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 4
• Complete STA 2023 and maintain a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 5
• Complete 2 additional GLY or GEO courses with a 2.5 critical-tracking GPA. (GLY 2100C or GLY 3105C recommended)
• 2.0 UF GPA required

Semester 6
• Complete GLY 3202C
• 2.0 UF GPA required

Semester 7
• Complete GEO level 3000 or above elective (3-4 credits)
• Complete GLY level 3000 or above elective (3-4 credits)
• 2.0 UF GPA required

Semester 8
• Complete GLY 4155C (Capstone)
• Complete any remaining GEO and GLY level 3000 or above electives
• 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically GE-C, H, or S). 3000 level or above Geography courses may count towards 3000 level electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.

Geology Minor

The College of Liberal Arts and Sciences is the largest college on campus, with more than 10,000 undergraduate students pursuing a variety of disciplines through over 40 majors and 49 minors. Undergraduate students acquire an intellectual foundation based on a well-rounded and comprehensive education designed for an increasingly technological and rapidly changing society.

About this Program
- **College**: Liberal Arts and Sciences (p. 646)
- **Credits**: 17 | Completed with minimum grades of C

Department Information

The Department of Geological Sciences aims to provide a comprehensive understanding of Earth and Planetary sciences along with their formative and evolutionary processes. We train students to excel in the geoscience workforce and create sustainable solutions to societal needs.

Curriculum
- Combination Degrees
- Geological Sciences Certificate
- Geology
- Geology Minor
- Geology UF Online

Students pursuing the Bachelor of Arts in geography with a specialization in environmental geosciences are not eligible to receive this minor. All students should consult the undergraduate advisor.

A minimum of nine credits must be completed at UF and nine credits must be at the 3000/4000 level. No more than one credit of independent study will be accepted. Students must complete a minimum of six credits of coursework exclusive to the minor that cannot count toward the major(s) or other minors.

**Geology UF Online**

A Geology degree provides an understanding of issues associated with the physical earth and skills which are in demand in today's job market. The Geology graduate will have a detailed understanding of climate change, sustainability of the Earth's resources, and the close interplay between human activity and the environment.

**About this Program**

**Curriculum**

- Combination Degrees
- Geological Sciences Certificate
- Geology
- Geology Minor
- Geology UF Online

Techniques such as environmental assessment, geological hazard assessment, field-based techniques, and geographic information systems (GIS) are used to evaluate the impact of humans on the physical earth and hydrologic environment. The practical and flexible curriculum, small class sizes, computer-based learning, strong faculty and coursework in several areas of general education make this major appealing to students who want skills linked to employment or preparation for entry to professional schools (e.g., law, medicine, business).

Geology majors learn about the Earth’s physical environment including climate, non-renewable geological resources, renewable geological resources, geological hazards and remediation as well as basic skills required by geologists. These skills and the geological perspective open doors to employment in government agencies and private firms that deal with water management, mining and petroleum exploration, climate change, the environment and education.

The Bachelor of Arts in geology is best suited for students interested in careers in education or environmental policy making. The degree also allows students flexibility to pursue advanced degrees in environmental law or environmental medicine.

**Research**

Students in geology who wish to graduate with high or highest honors will be required to conduct an independent research project under the direction of a faculty member. Students are also afforded the opportunity to conduct research within the department's laboratories regardless of their honors status.

**Coursework for the Major**

The geology B.A. requires a minimum of 32 credits of coursework in the major. At least 23 credits must be GLY-prefixed courses at the 3000 level or above, excluding GLY 3105C. Students must earn a minimum grade of C for coursework to count toward the major.

1. Excluding GLY 3105C; minimum 17 credits.

**Critical Tracking**

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

**For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.**

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites [http://www.flvc.org/cpp/displayRecord.jsp?cip=400601&track=1/2](http://www.flvc.org/cpp/displayRecord.jsp?cip=400601&track=1/2) may be used for transfer students.

**Semester 1**

- 2.0 UF GPA required
Semester 2
- 2.0 UF GPA required

Semester 3
- Complete one General Education Mathematics course
- Complete 1 of 3 critical-tracking courses with a 2.5 critical-tracking GPA. Choose one from a general introductory course (GLY 2010C, GLY 2030C, or any 1000-2000 level GLY, OCE or ESC course), a historical geology course (GLY 3105C or GLY 2100C), or a 3000-level geology course.

GLY 2010C or GLY 2030C is recommended as one of these is prerequisite to many upper-level courses.
- 2.0 UF GPA required

Semester 4
- Complete one additional critical-tracking course with a 2.5 critical-tracking GPA
- 2.0 UF GPA required

Semester 5
- Complete all tracking courses with a 2.5 critical-tracking GPA; one general introductory course (GLY 2010C, GLY 2030C, or any 1000-2000 level GLY, OCE or ESC course), one historical geology course (GLY 3105C or GLY 2100C), and one 3000-level geology course.
- 2.0 UF GPA required

Semester 6
- Complete 1 GLY elective 3000 level or above (3-4 credits)
- 2.0 UF GPA required

Semester 7
- Complete 2 additional GLY electives 3000 level and above (6-8 credits)
- 2.0 UF GPA required

Semester 8
- Complete any remaining GLY electives 3000 level and above
- Complete GLY 4155C (Capstone)
- 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically GE-C, H, or S). One of the two general education mathematics courses must be a pure math course.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.
Geospatial Information Analysis Certificate

Geospatial Information Analysis is used increasingly in both research and practice with job opportunities expected to grow 29% from 2014 to 2024.

About this Program

- **College**: Liberal Arts and Sciences (p. 646)
- **Credits**: 11-12 | Completed with minimum average grade of 2.67
- **Contact**: Email (liangmao@ufl.edu) | 352.294.7516

Certificates must contain at least nine credits of coursework that are unique to that program out of all other certificates and minors.

Department Information

The Geography Department offers a range of topics in contemporary geography and geospatial science, rich and lively cultural and learning environments, B.A. and B.S. undergraduate degrees, M.A., M.S., and PhD degrees, as well as the largest Medical Geography program in the United States.

1. Pure math if STA 2023 taken for state core in semester one.

2. Electives to reach the 120-credit total will vary depending on whether students select minimum or maximum credit course options.

Before Graduating Students Must

- Pass GLY 4155C according to the department grading rubric.
- Complete requirements for the baccalaureate degree, as determined by faculty.

Students in the Major will Learn to

Student Learning Outcomes (SLOs)

**Content**

1. Identify, describe and define the basic concepts related to earth materials and processes.
2. Collect data in the field.
3. Organize geologic, temporal and spatial data.

**Critical Thinking**

4. Interpret geologic maps and cross sections.
5. Interpret results using the scientific method.

**Communication**

6. Produce a clearly and effectively written synthesis of data collected in the field.
7. Work in teams to solve geologic problems and to present the results of such collaboration effectively.

Academic Learning Compact

The Bachelor of Arts in geology provides knowledge of the basic concepts related to earth materials and processes, and how to collect and organize geological data in the field. Through laboratory and field-based exercises, students will learn how to interpret geologic maps and cross sections, and to understand the application of the scientific method to solve these problems in teams and individually.

German
Foreign Languages and Literatures
German studies encompasses the works of German literature, the culture of the Middle Ages, German cinema, writings of ethnic minorities in German-speaking countries, economics, and the European Union. By acquiring proficiency in the German language, students learn the most widely spoken language in Europe and join a community of more than 130 million speakers of German around the world.

About this Program
- **College:** Liberal Arts and Sciences (p. 646)
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **More Info**

To graduate with this major, students must complete all university, college, and major requirements.

Department Information
Home to 15 different language programs, the Department of Languages, Literatures, and Cultures (LLC) offers training in languages and cultures from all corners of the globe. From Swahili to Italian, Russian to Vietnamese, LLC gives students the opportunity to become cross-cultural experts in an ever-more internationalized world.

any other foreign country, and since the middle of the 20th century more Americans have lived and worked in Germany than in any other foreign country.

Coursework for the Major

The German specialization in Foreign Languages and Literatures consists of preparatory language study at the lower division (1000 and 2000 level), and 33 hours of advanced language, theory, and culture study in the upper division (3000 level and above).

All coursework for the major must be completed with minimum grades of C.

Ordinarily, students will need to have completed GER 2200 Intermediate German 1 by their fifth semester at UF to be able to complete the German major.

Critical Concentration

Although courses may appear in more than one group they may be counted toward only one group

Select 9 credits from one concentration:

- Intensive Area Studies: German (Recommended for those planning to pursue careers requiring advanced level skills in German or graduate work in German Studies)
- Comparative Cultural Studies
- Film and Visual Culture
- Literary Studies
- Medieval and Early Modern Studies

Total Credits 33

Up to 15 credits of 3000/4000-level classes can be transferred from another institution.

No more than 3 credits can be earned in independent studies courses such as GEW 4905.

Overseas Study

The program recommends its summer program in Mannheim, Germany. Students can complete nine credits at the intermediate or advanced level depending on prerequisites met.

Placement

Students without prior German should take the GER 1130 and GER 1131 sequence (five credits each). An alternative manner of completing the basic language sequence in a single year is by taking the online German sequence GER 1125 and GER 1126, Discover German. These 10 credit sequences fulfill the college's language requirement.

Students with previous training in one of the languages should speak with the department.

Critical Tracking

Critical Tracking records each student's progress in courses that are required for progress toward each major. Please note the critical-tracking requirements below on a per-semester basis.

For degree requirements outside of the major, refer to CLAS Degree Requirements: Structure of a CLAS Degree.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites (http://www.flvc.org/cpp/displayRecord.jsp?cip=160501&track=01) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete GER 1125 or GER 1130 or higher-level German course
- 2.0 UF GPA required
Semester 3
• Complete GER 1126 or GER 1131 or higher-level German course with a minimum grade of C
• 2.0 UF GPA required

Semester 4
• Maintain completion of GER 1131 or GER 1126 or higher-level German course with a minimum grade of C and a 2.5 critical-tracking GPA
• 2.0 UF GPA required

Semester 5
• Complete GER 2200 or any 2000-level German course with a minimum grade of C
• Complete 2 Advanced Elective courses with minimum grades of C
• 2.0 UF GPA required

Semester 6
• Complete GER 2240 or a higher-level German language course with a minimum grade of C
• Complete 2 Advanced Elective courses with minimum grades of C
• Complete 1 Critical Concentration course with a minimum grade of C
• 2.0 UF GPA required

Semester 7
• Complete GER 3234, GER 3300, GER 3413, or GER 3470 with a minimum grade of C
• Complete 2 Advanced Elective courses with minimum grades of C
• Complete 1 Critical Concentration course with a minimum grade of C
• 2.0 UF GPA required

Semester 8
• Complete 2 Advanced Elective courses with minimum grades of C
• Complete 2 Critical Concentration courses with minimum grades of C
• 2.0 UF GPA required

Model Semester Plan
Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H, or S). 3000 level or above critical concentration courses outside of German may count toward the 3000 level or above electives outside of the major.

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student’s academic record and scheduling availability of courses. Prerequisites still apply.
